

Idaho State University
Quarterly Report
For the Nine Months Ended March 31, 2014

Research and Sponsored Activity

Through the third quarter of fiscal year 2014, ISU submitted 243 proposals requesting nearly \$77.4 million, an increase in requested funds of over 45% from the same time period in fiscal year 2013. ISU received 150 awards from external funding sources totaling over \$15.0 million.

During the quarter, ISU received notable awards from S.M. Stoller Inc. (1 award for \$340,315), Battelle Energy Alliance (6 awards for \$611,720), the Idaho Department of Health and Welfare (3 awards for \$350,872), and the National Science Foundation (1 award for \$176,637). In addition, the University received an immediate award totaling \$457,131 and long-term funding over the next four years totaling \$4.2 million from the U.S. Department of Defense - Office of Naval Research.

The Federal Government shut down for over half of the month in October 2013, reducing the funding activity and levels for the second and third quarters. It is anticipated that effects of the government shutdown may continue to carry over into the fourth quarter. Statistics provided by the government (www.usaspending.gov) state that in higher education, the number of federal grant contracts has declined by over 60% and spending has decreased by over 50% comparing federal fiscal year 2013 to the eight months in federal fiscal year 2014.
