4.6 ACCEPTANCE OF GIFTS AND BEQUESTS
4.6.1 ACCEPTANCE OF GIFTS FOR THE IDAHO CENTER FOR
PROFESSIONAL TRUCK DRIVER TRAINING

SUBJECT

Boise State University requests approval to accept the donation of six trucks for the Idaho Center for Professional Truck Driver Training.

BACKGROUND

Mr. Bill Ilett, president of TransCorp Inc., and his wife, Christina, have offered to donate immediately two Volvo WHGM 325 horsepower, nine-speed transmission diesel tractors to this program and one additional truck in each of the subsequent three years. Kenworth Truck Company of Seattle has offered the donation of a 1995 Kenworth T600 truck, which will be used jointly with the Heavy Duty/Diesel Program.

DISCUSSION

The demand for professional truck drivers is very high demand, and this to increase.

IMPACT

These gifts provide the program with state of the art diesel tractors which otherwise would not be available. Combined, these gifts have an estimated value in excess of \$350,000.

COMMENTS

Accept the donations.

4.8.1 APPROVAL OF STUDENT UNION AND HOUSING SYSTEM BONDS

SUBJECT

Boise State University requests approval to issue bonds for the acquisition of property, the construction of expansions to University housing, and the refunding of bonds resulting in a savings to the institution.

Reference: Housing Project Approved at November 2001 meeting.

BACKGROUND

Approval for a \$36 million expansion to Boise State's student housing was passed at the November 2001 State Board meeting. To accomplish this expansion, Boise State recommends the issuance of approximately \$ __ million in tax exempt revenue bonds ("2002 Bonds") to finance the acquisition of property; the construction of two expansions to University student housing on the Boise campus (approximately \$36 million "the project"); and approximately \$ __ million for the refunding of the remaining Student Union System Improvement Revenue Bonds, Series 1992, to take advantage of lower interest rates and to achieve debt service savings.

DISCUSSION

Documents relating to the issuance and sale of the 2002 Bonds are being prepared. The University expects to obtain an "A+" rating from Standard and Poor's and an "A1" rating from Moody's Investor Service. Depending on interest rates and bond insurance costs, the University may find it more advantageous to purchase bond insurance to result in a rating of "AAA/Aaa" on the 2002 Bonds.

The 2002 Bonds will be issued as Additional Bonds under the Board's Resolution adopted September 17, 1992 (the "Resolution"), on parity with all other bonds issued under the Original Resolution. Bonds issued under the Resolution are secured by the existing Student Union and Housing Fee (no increase in this Fee will be made), as well as the Revenues of the Student Union and Housing System, i.e. revenues from those students who live in the system and pay rent or who pay "room-and-board" rates.

BUSINESS AFFAIRS AND HUMAN RESOURCES

INSTITUTION/AGENCY AGENDA
BOISE STATE UNIVERSITY continued

IMPACT

Issuance of the 2002 Bonds enables the University to proceed with the two expansion projects, one of which will be completed in time for occupancy in January 2004, the other in August 2004. Debt service will be met completely by occupancy revenues from student housing and the existing Student Union and Housing Fee. No state-appropriated funds will be utilized, and no increase in the existing Student Union and Housing Fee is required.

COMMENTS

The Board has approved the \$36 million expansion of the student housing system. The issuance of these bonds will finance this expansion. In addition, the refinancing of existing debt will take advantage of the current low interest rates.

This item needs to be considered separately as a specific resolution must be approved.

BOARD ACTION

Approve a Supplemental Resolution for the 2002 Bonds, the title of which is as follows:

A SUPPLEMENTAL RESOLUTION of Boise State University authorizing the issuance of sale of \$ ____¹ Student Union and Housing System Refunding and Improvement Revenue Bonds of The Board of Trustees of Boise State University, Series 2002, authorizing the execution and delivery of a Bond Purchase Agreement and providing for other matters relating to the authorization, issuance, sale and payment of the Series 2002 Bonds

4.10.2 REQUEST FOR APPROVAL TO REFINANCE CERTIFICATES OF PARTICIPATION FOR BOISE STATE'S COLLEGE OF TECHNOLOGY BUILDING

SUBJECT

The Boise State University Foundation requests approval to refinance Certificates of Participation that were originally issued in November 1988, were refinanced in July 1991, and are secured by lease payments by the State Board of Education for the Boise State University College of Technology Building constructed in 1989-1990.

BACKGROUND

In November 1988, the Boise State University Foundation issued \$5,620,000 in Certificates of Participation in order to design, construct, and equip the College of Technology facility. The Certificates were secured under a lease and option to purchase agreement with the Idaho State Board of Education, and Certificates were refunded in 1991.

DISCUSSION

Given the current interest rate environment, documents relating to a second round of refunding are currently being prepared with the goal of completing refinancing prior to the next lease payment scheduled for April 1, 2002. All terms and agreements included in the initial 1988 and the 1991 refinancing will remain intact.

IMPACT

Preliminary calculations estimate the cost of refunding will be approximately \$74,000 and result in an estimated net present value savings to the State Board of Education of \$505,000.

COMMENTS

Approve the request to take advantage of the low interest rates which will save the state money.

4.10.1 INFORMATION ITEM ONLY – BANKING SERVICES

SUBJECT

Boise State University will enter into a banking services agreement with U.S. Bank in 2002.

BACKGROUND

Every three to six years, Boise State provides the opportunity for financial institutions to bid on providing banking services to the University. This includes a formal Request for Proposal process, including presentations from the finalists, and after review, a campus committee makes a final recommendation on the successful bidder.

DISCUSSION

This process insures a competitive environment for banking services and provides equal opportunity for all interested financial institutions to participate. This process also allows the best service, with appropriate technological support, at the lowest cost to the University.

IMPACT

U.S. Bank will provide banking services at a savings to Boise State of \$128,907 over the next three years as compared with the second lowest bidder.

4.8.1 COMMERCIAL LOAN WITH WELLS FARGO BANK, N.A.

SUBJECT

Request approval for a commercial loan when needed in 2002. The amount of the loan will not exceed \$1,300,000. The loan will be with Wells Fargo Bank, N.A. (the "Bank"), which currently provides banking services for the University. The interest rate will not exceed 4.45% per annum, with a thirteen-year amortization and balloon payment in five years, at which time the Bank may reset the interest rate.

BACKGROUND

A capital project to design and construct a multi-tenant facility at the UI Post Falls Research Park was originally authorized by the Regents with the FY2000 Capital Improvement Plan. A U.S. Department of Housing and Urban Development grant provided funding for initial construction of the building shell and associated site preparation and infrastructure. In April 2000, approval was given by the Regents to proceed with the second phase of construction to include a 10,000 gross square foot addition to the existing structure, completion of finish work for office and conference spaces, and completion of a portion of the tenant improvements. This phase of work is funded by a grant from the Economic Development Administration. In June 2001, additional authorization was given by the Regents to enable finish work to be completed for the entire building interior, since demand for tenant spaces in the facility has grown during the development period. The funding source identified for this final scope of work was debt financing supported by business tenant and research facility rents.

DISCUSSION

Loan documents are being prepared and will be reviewed by staff and will be in final form prior to the meeting.

IMPACT

Repayment of the loan will be made from rental revenues from the facility and other local fund sources. The financing will be at a tax-exempt rate not to exceed 4.45%. The loan will be amortized over a 13-year period and will be reviewed at the end of five years. At the end of five years, the University and Wells Fargo will negotiate a new loan agreement, or the University will repay the remaining balance.

COMMENTS

Approve the loan request.

4.10.1 SALE OF TIMBER TO POTLATCH CORPORATION
INFORMATION ITEM

SUBJECT

Pursuant to Board policy V.I.1.e., on December 5, 2001, the University of Idaho requested and received from the Executive Director emergency approval of a sale of timber, valued at \$954,628, to Potlatch Corporation.

BACKGROUND

On October 23, 2001, pursuant to due notice, the University of Idaho, through the College of Natural Resources, offered for sale at public auction the timber described as TS-20011, West Hatter Creek. Potlatch Corporation made the highest acceptable bid in the estimated sum of \$954,628 (net stumpage value).

DISCUSSION

The public auction of the timber occurred on October 23. The deadline for the November 2001 Regents' agenda was October 22. The next available meeting date for Regents' approval of the sale was January 21-22, 2002. Potlatch Corporation indicated that it wished to begin operations immediately following the auction in order to take advantage of the winter operating season extending from mid-November to mid-February. Potlatch requested immediate execution of the timber sale contract in order to take advantage of this operating season and indicated it would suffer material harm if required to wait until January to begin logging operations.

IMPACT

The University of Idaho College of Natural Resources benefited from the timber sale, and Potlatch Corporation benefited from its ability to proceed immediately with harvesting the timber. Board policy has been reviewed with the College of Natural Resources administration to ensure that the College plans ahead to enable compliance with Board policy in the future so that emergency approval requests are not necessary.

5.8 LEASES

**5.8.1 FACILITIES LEASE WITH IDAHO STATE BUILDING AUTHORITY
(IDAHO PLACE)**

SUBJECT

Request authority to enter into a Facilities Lease between the Regents of the University of Idaho (the “University”), as lessee, and the Idaho State Building Authority, as lessor, wherein the University leases space in the Idaho Place Project (“Idaho Place” or the “Project”) in Boise, Idaho, beginning in fiscal year 2004. Lease payments will be paid from institutional and appropriated funds for departments, programs and services offered. Idaho State University occupies separate portions of the Project under a separate lease with the Idaho State Building Authority and is responsible for rental attributable to its space.

BACKGROUND

The Idaho State Building Authority (the “Authority”) is an independent public body corporate and politic of the State of Idaho created to issue bonds and to finance projects for any department, board, commission or agency of the State. The 2002 session of the Idaho Legislature is considering a Senate Concurrent Resolution No. ____ which authorizes the Authority to finance Idaho Place and lease it to the University.

At its meeting on June 21-22, 2001, plans for the Idaho Place project were presented to the Board, and the Board authorized the University to lease space in Idaho Place subsequent to the expiration of the MK Plaza IV building on August 31, 2003.

DISCUSSION

The University desires to enter into a Facilities Lease with the Authority to lease a portion of Idaho Place in the form presented to the Board. Rental payments under the Facilities Lease enable the Authority to pay debt service on the bonds. Upon payment of the bonds, the University can continue to lease the Project or acquire title to the Project for a nominal sum.

COMMENTS

The Idaho Place project has been presented to the Board and is a significant project. The approval of the Idaho Place and the Idaho Water Center leases is the first opportunity for the Board to take a position. Board staff will be working with the University of Idaho staff to provide additional information for these two requests. We anticipate distributing the information under separate cover and prior to the Board meeting in order to facilitate the discussion.

Lease payments will be paid from institutional and appropriated funds for departments, programs and services offered. The Idaho Department of Water Resources occupies separate portions of the Project under a separate lease with the Idaho State Building Authority and is responsible for rental attributable to its space.

5.0 PHYSICAL PLANT

5.1 PURCHASE AND SALE OF LAND AND FACILITIES

5.1.1 ACQUISITION OF PROPERTY

SUBJECT

Board approval is requested for the college to purchase a piece of property.

BACKGROUND

The Campus Master Plan indicates the long-range need for the college to acquire additional property near campus which will eventually be used for expansion and/or parking. Additionally, the college has purchased properties over the past three years for the specific purpose of providing replacement parking lots due to the construction of the new Activity Center. This property is immediately adjacent to properties recently acquired.

DISCUSSION

Following is the appraisal value and purchase price of the subject property:

	<u>Appraisal Value</u>	<u>Purchase Price</u>
Property (611 9 th Avenue)	45,000	58,000

Because of the College's more immediate need for replacement parking required by the upcoming construction of the Campus Activity Center, property owners have placed higher values on their property. Thus, the price of \$58,000 is above the market appraisal on this property. The property is very important to the parking lot project in that it fills in a corner of the lot and will allow for the addition of 25 parking spaces.

The college administration seeks authority to:

1. Complete the loan agreement, by using the First Security/Wells Fargo Loan Agreement approved by the Board in January 1999, for the purchase of the property. The loan amount will not exceed \$58,000.
2. Complete the purchase agreement for the property.

Authorization is also requested for the college Vice President for Administrative Services and Bursar to execute the loan and purchase agreement on behalf of the Board.

Task Force Report on Equity.

BACKGROUND

Funding equity has been a Board issue since the January 2001 meeting when the Board asked the Presidents' Council for a recommendation on the current allocation system. A consultant was hired and has provided a report on equity. The presidents responded to the report and provided their recommendation. At the September meeting, the Board created a Task Force and assigned Darrell Manning, Rod Lewis, Paul Agidius, and staff the responsibility for developing recommendations on equity. The Task Force presented preliminary findings at the November meeting. The Task Force is finalizing the report, which will be distributed prior to the January meeting.

DISCUSSION

Since the institutions have different roles and mission statements, determining funding equity was a very difficult task. The consultant's report concluded that all the institutions are not funded adequately when compared to their peers. The Task Force made several adjustments to the funds included and weighted credit hours, attempting to determine internal equity when analyzing just the instructional support.

IMPACT

The recommendations will impact the future budget requests for the college and universities, as additional funding will be required to address the equity issue. Recommendations for changing the calculation of the Enrollment Workload Adjustment will also be presented in hopes of fully funding enrollment growth in the future.

COMMENTS

Carefully review the report upon receipt to ensure understanding of the impacts.

SUBJECT

Acceptance of the Nonresident Fee Waiver – Fall 2001 reports.

BACKGROUND

At the September 1998 Board meeting, the Board discussed with the institutional presidents the issue of providing incentives for increasing enrollment in information technology by recruiting the best and brightest nonresident students. The President's Council was asked to develop a recommendation. During the November 1998 Board meeting, the presidents recommended a change in the Board's fee waiver policy to increase the number of nonresident tuition waivers for disadvantaged or deserving students from one percent to three percent of the institution's FTE. They also recommended that students receiving waivers be targeted for information technology programs, engineering and other programs with capacity. The Board approved the policy change at the October 1999 meeting after the institutions identified the primary fields of study for which tuition waivers can be awarded. The policy requires that the institutions submit an annual report identifying the use of waivers by discipline by class level by state of residency.

DISCUSSION

The policy authorizes waivers of nonresident tuition not to exceed two percent (2%) of the institution's full-time equivalent enrollment. The report on page 27 calculates the number of waivers available and summarizes the number of waivers granted. Reports from the institutions, detailing the waivers by discipline, by level, by state are provided on pages 29-32.

IMPACT

The waivers have attracted students to Idaho's institutions in areas of study that have been identified as potential manpower shortages. Many of these students might not have enrolled in Idaho institutions if it were not for these waivers so hopefully these students will remain in Idaho to fill future manpower needs.

COMMENTS

Accept the reports from the institutions.

TAB 4

BUSINESS AFFAIRS AND HUMAN RESOURCES
JANUARY 21-22, 2002

ACTION ITEM

SUBJECT

Second/Final Reading: Board Governing Policies and Procedures, Section V. Fiscal.

BACKGROUND

Section V. – Fiscal has not had a comprehensive review for at least 15 years.

DISCUSSION

The bulk of the proposed changes are to reflect current descriptions of funds and offices, to realign sections to proper areas, and to consistently use title references. On page 42, it is recommended to delegate budget transfers and revisions to the chief executive officers. Also on pages 42-43, the definition of Auxiliary Enterprises is changed to reflect the current definition. The campus security section, page 69, was changed to include the School for the Deaf and the Blind. Section V.S., page 86, will be revised based on the conclusion of the equity study.

IMPACT

When the rules were replaced with policies, the Board increased the delegation limits, which created a more efficient way of doing business. The current proposed changes provide limited delegation but “cleans-up” the policies to practices.

COMMENTS

Board staff has worked with the institutions and agencies on the proposed changes. Approve the proposed changes.

BOARD ACTION

To approve for second/final reading the fiscal section of the Business Affairs and Human Resources policy as presented in TAB 5.

Subsection: M. Intellectual Property

Revised July 1, 2001

M. Intellectual Property

1. Objectives and Purposes

The State Board of Education, on behalf of the state of Idaho, and the Board of Regents, on behalf of the University of Idaho, (hereinafter collectively referred to as the State Board) recognize the dynamic relationship between research and education in postsecondary institutions. The State Board recognizes the inventions, discoveries and published works of commercial importance may be the natural outgrowth of research. The State Board intends to promote the use of intellectual properties for the public good. While postsecondary institutions must remain open to intellectual inquiry, at times this openness is juxtaposed with the obligations to contribute to the economic growth and development of Idaho and the nation. The following intellectual property policies balance the institutional obligations to preserve open inquiry and realize the commercial value of intellectual property produced by employees of the State's postsecondary educational institutions.

2. Intellectual Property

- a. Claim of ownership interest. The State Board of Education, on behalf of the state of Idaho, and the Board of Regents, on behalf of the University of Idaho, claim ownership of any invention or patentable discovery developed under any of the following circumstances:
 - (1) Arising from any work performed by an employee of the State Board during the course of his duties to the agency or institution;
 - (2) Arising from any work performed by an employee of the State Board using state resources not similarly available to members of the general public; or
 - (3) Arising from any work performed by an employee of the State Board under contract in a program or project sponsored by a State Board agency or institutions or a closely related research foundation.
- b. Disclaimer of ownership interest. The State Board of Education and the Board of Regents of the University of Idaho claim no ownership interest in any invention or patentable discovery developed by the employees or contractors under the following circumstances:
 - (1) When the work is performed outside their assigned duties; and
 - (2) When the employee/contractor is without benefit of State facilities except those available to members of the general public, such as libraries.

- c. Agency policy review - Agencies and institutions under the governance of the State Board must secure to the state of Idaho their ownership interest in inventions and patentable discoveries. Agency and institutional policies setting out patent administration, including evaluating, financing, assignment, marketing, protection, and the division and use of royalties, as well as amendments thereto, must be submitted to the State Board for its review and approval.
- d. Condition of employment - State Board employees and contractors must, as a condition of employment of contract, agree and adhere to the State Board approved policy on inventions and patentable discoveries.

3. Copyrights

- a. When employees or contractors are expressly directed to produce specific work for publication in the course of their employment, the agency or institution may reserve the right to copyright the publication in the name of the state of Idaho or the University of Idaho or to publish such work without copyright.
- b. Except as noted in 3.a. above, the State Board of Education and the Board of Regents of the University of Idaho claim no ownership interest in works submitted for publication by State Board employees and contractors. Employees and contractors retain the right to copyright and publish their own works. That is, as a general rule, all rights to copyrightable material are the property of the creator. The distribution of royalties, if any, is a matter of arrangement between the creator and his publishers or licensees. However, institutions subject to this rule may elect, by contract or policy, to claim an interest in copyrightable material produced, in whole or part, by their employees or contractors. For example, different treatment may be accorded by an institution in cases of specific contracts providing for an exception, in cases where the constituent institution or sponsor may employ personnel for the purpose of producing a specific work, where different treatment is deemed necessary to reflect the contribution of the institution to the work as in the case of software, mask works for microcircuit chips, or audiovisual material, or where a sponsored agreement requires otherwise.

4. Intellectual Property Transfer

- a. The State Board of Education and the Board of Regents of the University of Idaho delegate to Idaho's postsecondary educational institutions the right to transfer and convey ownership in intellectual properties developed within the institutions under the patents and copyright rule. This rule will allow the institutions to play appropriate roles in knowledge transfer and economic growth and development. Under this rule, the institutions may:

 - (2) Themselves act as licensors to convey intellectual property rights to commercial ventures.
 - (3) Grant exclusive rights to a licensee.
 - (4) Collect and disburse license payments to inventors and their departments and colleges, as well as to their institutions, for the general support of research within the institutions.
 - (5) Permit institutional employees the right to participate in ownership and governance of companies licensed by the institutions to produce and market the discoveries, provided the conflict of interest rules are followed.
- b. Each of Idaho's postsecondary institutions shall, within twelve (12) months of the promulgation of this rule, submit its policy on the transfer of intellectual properties (technology transfer) for State Board review and approval. At a minimum, the policy should include:
- (1) The name of the institutional position (or office) with the authority and responsibility for carrying out the policy and binding the institution contractually.
 - (2) Policy and plans for patent acquisition (i.e., who initiates, who pays the lawyers, and an enumeration of the duties, responsibilities, and a process for settling debates).
 - (3) The range of allowable institutional involvement in the transfer process (i.e., from licensing to acceptance of institutional ownership interests, continued development in institutional facilities for the benefit of the licensee, business planning or production assistance).
- c. The appropriate officer of each postsecondary institution shall report, two (2) weeks in advance of the State Board meeting, on patent, copyright, and technology transfer activities that have occurred at the institution since the prior meeting of the Board. With respect to patents, the report shall include what public notice was given prior to the licensee(s) being selected. Further, that report will also indicate whether employees of the institution or its respective research foundation have a financial interest in the company to which the intellectual property was transferred. Terms of any license or technology transfer contract will be made available in confidence upon request for inspection by the State Board.

1. Objectives

- a. The funding process should offer maximum institutional flexibility to allocate funds internally to carry out roles and missions established by the Board.
- b. The funding process should be a straightforward approach that can be used by the Board to express system-wide priorities.
- c. There should be a clear and understandable relationship between institutional needs, the system-wide funding request, the legislative appropriations, the allocation of funds, and the ultimate use of the funds.
- d. The funding process should not penalize institutions as the result of decisions related to the internal allocation of resources by other institutions.
- e. Any incentives that the Board uses in the funding process should be explicit.
- f. The funding process should be applied consistently from year-to-year so that there can be some level of predictability in the allocation as well as increased confidence in the outcome.
- g. The funding process should encourage cooperative programs among institutions.
- h. The funding process should be compatible with the Statewide Plan for Higher Education.

2. Methodology

The allocation shall consist of the total of the lump sum general account appropriation and actual land grant endowment receipts. The allocation shall be made in the following order:

- a. Each institution shall be allocated its base allocation of the prior year.
- b. An Enrollment Workload Adjustment shall be applied to the allocation of each institution. The adjustment shall be calculated as follows:
 - (1) A three-(3) year moving average of credit hours multiplied by the program weights shall be used. The three (3) years to be used shall be those which precede the year of the allocation and shall consist of two (2) years of actual and one (1) year of estimated credit hours.
 - (2) Effective with the FY 1990 allocation, credit hours generated from externally funded sources and contracts shall be removed from this adjustment. Credit hours for in-service teacher education shall not be removed.
