

**Idaho Department of Education
Public Schools Agenda**

STATE BOARD OF EDUCATION

January 26-27, 2004

State Capitol and BSU, Boise

- A. Elementary and Secondary School Accreditation Reports, Carolyn Mauer**
- B. Superintendent's Report, Marilyn Howard**

A. SUBJECT:

Elementary and Secondary School Accreditation Reports

BACKGROUND:

All public schools in Idaho will be state accredited. State Accreditation is voluntary for private and parochial schools (Section 33-119, Idaho Code). Under the Administrative Rules of the State Board of Education, the State Department of Education developed the process for school personnel to report how each school is addressing the elements of "Thoroughness" and meeting the standards required for school accreditation. Schools have the flexibility to become accredited using one of the following options: Idaho Elementary/Secondary Accreditation Standards, Northwest Accreditation Standards, or School Accreditation School Improvement Model (SASI or SIP) or submitting an Alternative Accreditation Plan (AAP). School principals submit their annual report via the Internet to the State Department of Education by October 15.

The State Advisory Accreditation Committees represent each region of the state; members are elected by their peers and approved by the State Board of Education. The Committees meet in October to review the reports and compare the school's responses to the required standards. An accreditation rating is assigned to each school, based on how well the school meets the accreditation standards. The State Advisory Accreditation Committees have established a rating scale and a deviation rating scale for each standard.

After schools are provided their preliminary accreditation status and committee comments, they are given time to respond to any deviations from the standards. The school responses are given due consideration and a final recommendation is made to the State Board of Education.

Both the Elementary Advisory Accreditation Committee and the Secondary State/Northwest Advisory Accreditation Committee have reviewed the annual accreditation reports and ratings and submit their accreditation rating recommendations in this annual Accreditation Summary Report of Idaho Schools.

RECOMMENDATIONS:

The State Department of Education recommends the approval of the 2003-2004 Accreditation Summary Report of Idaho Schools.

BOARD ACTION:

The State Board of Education carried to approve/disapprove/table the 2003-2004 Accreditation Summary Report of Idaho Schools as submitted. Moved by _____, seconded by _____ and carried.

ACCREDITATION SUMMARY REPORT

OF IDAHO SCHOOLS

2003-2004

The Mission of the Idaho State Department of Education is to promote a thorough system of public education by providing leadership and consultation to school districts, the public, and partner agencies.

The State Department of Education will assist in delivering excellent programs and services, leading to success for all learners and meeting the letter and spirit of relevant laws, rules, and regulations.

The focus of the State Department of Education is to promote best teaching practices that lead to high academic achievement for all students.

Marilyn Howard, Ed.D.
State Superintendent
of Public Instruction

Carolyn Mauer, Ph.D.
Chief, Bureau of
Curriculum & Accountability

1. Check Appropriate School Category
2. Check Appropriate Accreditation Option
3. Check Appropriate Organizational School Pattern
4. Check the Improvement Plan That Applies To Your School

OVERVIEW

All accredited schools in Idaho are required to address the five state standards (I-V) and report to the State Department of Education. These standards, if properly addressed and followed, will enhance the educational future of all students in the state of Idaho. The "Thoroughness" legislation is a driving force from Idaho's patrons and constituents to lead educators to meet the desired goals and needs for our students.

All accredited Northwest member schools in Idaho will be held accountable to rigorous standards and a process of continuous improvement. Member schools, in addition to addressing the following five Idaho standards (I-V), must engage in ongoing improvement towards quality education using the School Improvement Plan, demonstrate progress towards individual school goals on a yearly cycle and meet the ten standards established by the Northwest Association of Schools, Colleges and Universities.

All **no** or **substandard** responses must include an explanation in the "No" response area or the "Comments and Explanation" box.

STATE STANDARD I
Philosophy/Mission and Vision and Policies

STATE PRINCIPLE:

An effective school has a clearly written statement of philosophy, goals, and policies for directing its educational programs and processes, developed cooperatively by the administration, classroom teachers, departmental specialists, students, and patrons. This statement of philosophy and objectives must be aligned with and address the elements of the "Thoroughness" legislation. (Defined by Section 33-1612, Idaho Code, and referenced in the introduction of the Administrative Rules of the State Board of Education, Thoroughness Chapter.)

NORTHWEST STANDARD I
Educational Program

NORTHWEST PRINCIPLE:

The educational program of an effective school is directed by a collaboratively developed, written statement of mission and beliefs. A school's instructional and organizational practices, as well as its policies and procedures support the desired results for student learning and prepare students to succeed in a culturally diverse, democratic society.

(Northwest member schools must show evidence of a defined program of studies that is consistent with the school's mission and beliefs and meets the requirements of the state.)

A. Philosophy and Objectives

1. The school has a written statement of one or more of the following: philosophy, mission, vision, or objectives.
2. A current copy of one or more of the following directional statements (school philosophy, mission, vision or objectives) has been submitted to the State Department of Education along with a signed Assurance Form.
3. Written statements of philosophy, mission, vision, or objectives are reviewed annually.
4. Philosophy, mission, vision, or objective statements (directional statements) address the following elements of thoroughness: (In addition to answering the following eight questions, the Elements of Thoroughness must be highlighted AND **numbered 1-8** on the printed copy of the Directional Statements that is submitted to the State Department of Education.)
 - 1) Safe learning environment
 - 2) Maintenance of classroom discipline
 - 3) Basic values
 - 4) Communication skills
 - 5) Basic curriculum
 - 6) Work force skills
 - 7) Current technology
 - 8) Responsible citizenship
5. Steps are taken to ensure broad public input in the development of philosophy, mission, vision, or objective statements and policies.
6. Philosophy, mission, vision, or objective statements are distributed among parents, students, and patrons.
7. Philosophy, mission, vision, or objective statements are included in school handbooks and policy manuals.
8. All school handbooks and policy manuals are accessible to students and staff, as well as to the public.

Comments and Explanations:

B. Administrative Policies and Practices

1. Written administrative policies and practices are developed by the school, or school district.
2. Administrative policies and practices are reviewed annually.

Comments and Explanations:

STATE STANDARD II *Personnel and Certification*

STATE PRINCIPLE:

All educators of students will be certified as defined in the Uniformity Chapter of the Administrative Rules of the State Board of Education and in the Idaho Department of Education Certification Standards for Professional School Personnel manual.

NORTHWEST STANDARDS VII, VIII and IX *Preparation of Personnel, Administration and Teacher Load*

NORTHWEST PRINCIPLE:

The quality of education is directly related to the personnel who guide and operate the educational programs. The education, experience, and competence of personnel are important factors. How these individuals work together to provide a cohesive and positive learning environment is also important. The basic responsibility for the administration of the school rests upon the principal or school director. The principal provides educational leadership, supervises and coordinates programs, and carries out the necessary administrative procedures.

Student-to-teacher ratio is a crucial element in ensuring effective education. Standards that define adequate ratios are necessary to protect this principle. There are many desirable educational objectives that can only be achieved through close personal interaction between teachers and students. Class loads have a direct impact upon the achievement of these objectives.

(Northwest member schools must show evidence of meeting required full-time equivalency administrative staff and clerical staff that fits the enrollment and organizational pattern of the school and must also show evidence of meeting required student-to-professional staff ratio.)

A. Preparation of Professional Personnel

1. Properly certified and endorsed, or authorized, personnel are employed and assigned for all positions as outlined in the Idaho Department of Education Certification Standards for Professional School Personnel manual.
2. Student-teacher ratios are consistent with state **recommended** class size ratio goals. (Administrative Rule, IDAPA 08.02.02.110, of the State Board of Education states: "Districts should strive to achieve ratios consistent with state class size ratio goals." If your school has not yet reached the state class size ratio goals, provide information in the comment box below regarding current efforts being made by your district to reduce any class sizes that exceed these recommendations.)

State Recommended Goals	
Kindergarten, 1	20
Grades 2, 3	20
Grades 4, 5, 6	26
Middle School/Jr. High	160 teacher load
High School	160 teacher load

(Examples: If a total of 54 kindergarten students are enrolled in two separate sessions with a certified teacher in each session then the ratio is 27:1 for kindergarten. Combination Classes – If one teacher instructs a 3-4 combination class of ten third-grade students and eight fourth-grade students, then the ratios would be 20:1 for third grade and 16:1 for fourth grade, since the calculation is based on .5 teacher for each grade.)

Comments and Explanations:

3. Policies and procedures for evaluation of certified personnel are developed and implemented.
4. Sufficient classified and support personnel are employed to meet the needs of the staff, students, and community.
5. Educational technology competencies are part of the professional development plan for certificated personnel.
6. Staff members are involved in the development and implementation of the professional development plan.
7. Adequate resources are made available to staff members in order to meet their professional development plan objectives.
8. Pupil services are available to meet the needs of students; i.e., counselor, school nurse, media generalist, social worker, school psychologist, physical and occupational therapist, and speech pathologist.
9. Procedures are implemented to ensure that all personnel are appropriately screened prior to employment.
10. Steps are taken to ensure that all personnel follow the Code of Ethics of the Professional Standards Commission and the Idaho State Board of Education.

B. Paraprofessional or Non-Professional Personnel

1. Policies and procedures for evaluation of non-certified personnel are developed and implemented.

Comments and Explanations:

STATE STANDARD III *Curriculum/Instruction/School Improvement*

STATE PRINCIPLE:

Appropriate curriculum, instructional practices, and school improvement are necessary to meet the needs of all students. Standard III is defined in the "Thoroughness" Chapter, Administrative Rules of the State Board of Education, and in Idaho Code Chapter 16, and 33-118 through 119. Schools must develop and implement a written curriculum for each subject area meeting state standards as a minimum. Schools must report strategies to provide technical and vocational training to students.

NORTHWEST STANDARDS IV and X *Library Media Program and Student Activities*

NORTHWEST PRINCIPLE:

The school library media program is a primary resource for literacy, information, and curriculum support. The school library media program, through the coordination efforts of a certified library media specialist, contributes to the

achievement of the desired results for student learning by providing instruction, resources, and activities that enable students and staff to become effective, independent users of ideas and information for lifelong learning.

Effective education includes support activities that supplement the basic instructional program by providing additional interests and experiences for learning to take place.

(Northwest member schools must show evidence of meeting required library staffing and number of required volumes that fits the organizational pattern and enrollment of the school.)

A. Program of Studies

1. A defined program of study consistent with the school or district philosophy, mission, vision, or objectives is developed.
2. Local grade-level education standards are developed, using state standards as a minimum.
3. A written curriculum for each subject area is developed and implemented.
4. Comprehensive curricular materials, e.g., textbooks, software, Internet deliverables, are selected from those listed in the current Idaho Adoption Guide, or an approved waiver is on file with the State Department of Education. Non-public and charter schools are not exempt from this requirement. (If applicable, you must include a copy of the approved waiver with other required supporting documentation as listed on the Assurance Form.)
5. Effective education is demonstrated through the development of appropriate teacher/student ratios in determining class loads. (IDAPA 08.02.02)
6. A process is in place to identify and address individual needs, interests, and abilities of all students. (e.g., Gifted/Talented, Special Education, Migrant, LEP, Title I, etc.)
7. A method is developed and implemented to limit interruptions during instructional time.
8. A written School Improvement Plan that incorporates input from faculty, staff, and community is developed, includes goal statements properly aligned with the implementation plan, and identifies measures of success.
(N/A for Northwest member schools currently developing their School Improvement Plan with a State Assigned Facilitator)
 - a) The School Improvement Plan is currently being implemented.
9. The effectiveness of the school in accomplishing its mission as outlined in the School Improvement Plan is annually reviewed and assessed.
(N/A for Northwest member schools currently developing their School Improvement Plan with a State Assigned Facilitator)
10. Steps are taken to ensure all students have a Parent-Approved Student Learning Plan by the conclusion of grade eight. (N/A for K-6)

Comments and Explanations:

B. Technology in the Curriculum

1. A plan is developed for the integration of current technology into each subject area of the curriculum.

2. Current copies of the class schedule and course offerings have been sent to the State Department of Education. (N/A for K-6)

Comments and Explanations:

C. Required Instructional Time

1. Instructional time is adhered to as required per Section 33-512, Idaho Code. Excluding transportation to and from school, lunch periods, passing times, and recess, schools **must schedule or exceed** the following instructional hours:

Kindergarten	<u>four hundred fifty (450) hours per year</u>
Grades one through three (1-3)	<u>eight hundred ten (810) hours per year</u>
Grades four through eight (4-8)	<u>nine hundred (900) hours per year</u>
Grades nine through twelve (9-12)	<u>nine hundred ninety (990) hours per year</u>

a) Kindergarten instructional hours **schedule or exceed 450 hours per year.**

Indicate the school's total instructional hours for kindergarten.

b) Grades one through three (1-3) instructional hours **schedule or exceed 810 hours per year.**

Indicate the school's total instructional hours for grades 1-3.

c) Grades four through eight (4-8) instructional hours **schedule or exceed 900 hours per year.**

Indicate the school's total instructional hours for grades 4-8.

d) Grades nine through twelve (9-12) instructional hours **schedule or exceed 990 hours per year.**

Indicate the school's total instructional hours for grades 9-12.

Comments and Explanations:

STATE STANDARD IV *Accountability/Assessments/Measures*

STATE PRINCIPLE:

Schools will establish educational standards for all grade levels and develop school-exiting standards for graduation. All standards will be aligned with Idaho's Achievement Standards established by the State Board of Education.

Schools will participate in the statewide testing program and report their test results to district patrons as well as to the State Department of Education. (Testing is defined in the "Thoroughness" Chapter of the Administrative Rules of the State Board of Education.) Schools will report their graduation rates and develop a written plan to reduce their number of dropouts.

Schools will report student attendance. Schools will have in place an improvement plan that reflects how the school will remedy accreditation deficiencies, focusing primarily on student achievement. School effectiveness will be reported annually to district patrons as well as to the State Department of Education. Schools will report use of special allocation monies to meet thoroughness and school improvement.

NORTHWEST STANDARDS II, V AND VI
Student Personnel Services, Records and School Improvement

NORTHWEST PRINCIPLE:

Student personnel services are those services designed to give systematic assistance to students. An effective program of student personnel services facilitates the total development of each student. The maintenance, handling, and protection of student records are essential to the management of the school and are required in the interests of the students and parents.

The continual improvement of the educational program is essential in providing quality results. Innovative, exemplary, and experimental programs, coupled with teacher improvement programs and public participation in planning, are desirable factors that distinguish good schools. Successful improvement programs focus on the total school rather than each of the separate components within the school. Systematic analysis of data regarding student performance, coupled with an examination of the extent to which instructional and organizational practices within the school are aligned in support of student learning objectives and the mission of the school, are essential when developing a comprehensive School Improvement Process.

A. Accountability

1. Written core curricula aligned with Idaho's Achievement Standards are being developed and/or implemented.
2. Student attendance is reported.
3. Student achievement is clearly documented on school records.
4. The use of state and federal special allocation monies (enhancements) to meet thoroughness and school improvement is reported. (E.g., Title I, Special Education, Migrant, Safe & Drug Free Schools, Reading Improvement, etc.)
5. Written administrative policies are developed, interpreted, and communicated to staff, students, and patrons regarding:
 - a) Comprehensive and effective plan for evaluating student achievement
 - b) Grading
 - c) Attendance
 - d) Promotion/retention and/or graduation requirements
6. Evident misalignments among instructional and organizational practices and desired learner objectives are addressed.

Comments and Explanations:

B. Assessments

1. The school participates in required statewide testing programs and the results are reported to district patrons as well as to the State Department of Education.
2. Test data is considered when placing students.

Comments and Explanations:

C. Measures

1. a) Graduation rates are reported to the State Department of Education. (Applies to High School Graduation only.)
1. b) Written plans are developed for reducing the number of dropouts. (N/A for K-6)
2. Strategies are developed to remedy any accreditation deficiencies, focusing primarily on student achievement.
3. Student achievement is monitored using such multiple testing measures as teacher-made tests, student work samples, skill checklists, norm-referenced tests, criterion-referenced tests, and assigned student work.
4. Test data is used to improve students' performances and instructional programs, as well as to facilitate instructional improvements.

Comments and Explanations:

STATE STANDARD V
Safe Learning Environment

STATE PRINCIPLE:

Schools will provide a safe, nurturing, disciplined, and orderly learning environment and safe facilities as referenced in the "Uniformity" Chapter of the Administrative Rules of the State Board of Education. Each school will develop comprehensive district-wide policies and procedures that encompass the following: school climate; discipline; student health; violence prevention; gun-free schools; and substance abuse - tobacco, alcohol, and other drugs. ("Thoroughness" Chapter of the Administrative Rules of the State Board of Education.)

NORTHWEST STANDARD III
School Plant and Equipment

NORTHWEST PRINCIPLE:

The school plant, consisting of site, building, equipment, and services, is an important factor in the functioning of the educational program. The school plant serves as a vehicle for the implementation of the school mission. The school plant should provide for a variety of instructional activities and programs and for the health and safety of **ALL** persons. The school plant should incorporate aesthetic features that contribute to a positive educational atmosphere while providing for needed flexibility.

A. Administrative Policies and Practices

1. The educational mission of the district, regarding a safe learning environment, is supported.
2. Regulations governing school building, sanitation, sewage disposal, water supply, or other matters affecting public health are established.
3. Adequate space, equipment, and safety systems for all areas of the school building, grounds, and school-related activities are provided. (Comment on any problem area.)

Comments:

4. The Division of Building Safety has performed a recent facility inspection and a copy of the report (***dated no earlier than October 15th of last year***) has been submitted to the State Department of Education. (Non-public schools may submit their most current annual building safety inspection report in lieu of a Facility/Safety Inspection Report completed by the Division of Building Safety. This safety inspection can be conducted by one of the following: fire marshal, city or county inspector, insurance risk manager, or a neutral party approved by the State Department of Education.)

Facility safety inspection reports older than twelve months must be accompanied by an explanation as to why inspection hasn't been performed during the last year, or in time for the reporting deadline.

5. A school safety team is created with representation from the school and community for development, implementation, and review of the safe learning environment.
6. Comprehensive policies and procedures, encompassing the following items, are developed, reviewed and implemented:
 - a) School climate
 - b) Discipline
 - c) Violence prevention
 - d) Gun-free schools
 - e) Substance abuse
 - f) Suicide prevention
 - g) Student harassment
 - h) Drug-free school zones
 - i) Contagious or infectious diseases
 - j) Building safety, including evacuation drills

4. Aligning the Organizational Structure of the School

5. Developing Long Range School Improvement Plan

SCHOOL IMPROVEMENT PLAN (SIP) MODEL

School is involved in a School Improvement Planning process, with a state assigned facilitator, for accreditation by the Northwest Association of Schools, Colleges and Universities.

School Improvement Planning (SIP) Schools Only

All schools accredited by the Northwest Association of Schools, Colleges and Universities must be in compliance with the standards of the Northwest Commission on Schools. In addition to compliance with Northwest Standards, all schools accredited by the Northwest Association of Schools, Colleges and Universities must complete a School Improvement Plan (SIP).

Please read the statement below and indicate compliance.

I have read all of the Standards of the Commission on Schools and my school is in compliance except as noted. The State Accreditation Committee may verify compliance at any time.

1. Exceptions:
2. District Superintendent has indicated compliance with Standards.
3. School Administrator/Principal has indicated compliance with Standards.

1. What year did your school begin developing the School Improvement Plan with a state assigned facilitator?

2. Check the areas of the SIP that have been achieved at this time:

a. School Profile- A comprehensive knowledge and description of what you know about your school. A process that describes the students and community you serve including the use of disaggregated data.

b. Beliefs/Mission- The school's directional statements that focus on the entire school program, represent the majority thinking and are comprehensive in terms of the academic, social and developmental needs of the students.

c. Desired Learner Results- Clear concise statements that describe measurable goals for student learning. In addition,

performance indicators should be defined related to these goals.

d. Analysis of Current Practices-A process of in-depth analysis of the effectiveness of the school's instructional practices and organizational conditions in supporting students' achievement of the desired results for their learning. The purpose of this analysis is to identify the school's strengths and limitations and then to determine how the school can best build on its strengths and address the areas of limitation in the development of a school improvement plan.

e. Developing the Action Plan- The four previous steps (a-d) were designed to assist the school in developing the action plans for the School Improvement Plan (SIP). The alignment of the school improvement plan with these steps is critical to building a plan focused on improving student learning.

The Action Plan has clear objectives, research-based interventions, action steps to achieving the objectives, timelines, estimated resources, groups or individuals responsible for guiding or monitoring each of the action steps, and a means for evaluating the effectiveness of the action plan.

f. Implementation of Plan- Now that the SIP is developed it must be implemented. The purpose of the school improvement process is to improve student achievement, and to strengthen the instructional and organizational capacity of the school to support students' achievement of the desired results for their learning. To add value to student learning.

3. On-Site Visits from Response Team- please indicate when the visits occurred or when you anticipate them. Please give month and year.

1st Response Team visit

2nd Response Team Visit

1. When do you anticipate entering into the School Improvement Planning process with a state assigned facilitator?

**Merit School Recognition Application Form
2003-2004 School Year**

Provide a brief, concise narrative, addressing each of the five accreditation standards, describing the aspects of your school that exemplify a merit school. Relate each of the aspects to each standard in developing your narrative. Such aspects must significantly exceed each of the state accreditation standards. The following aspects, developed by the State Accreditation Committee, should be included in your narrative. Other aspects in addition to those listed may be considered.

STANDARD I - Philosophy/Mission and Vision and Policies - 10 points

- A. (1 point) The school has a copy of a clear and focused mission or another directional statement, i.e. philosophy, vision, or objectives.
- B. (1 point) The school's directional statements are present and reviewed annually.
- C. (2 points) The school's directional statements address the following elements of thoroughness:
 - 1. safe learning environment
 - 2. maintenance of classroom discipline
 - 3. basic values
 - 4. communication skills
 - 5. basic curriculum
 - 6. work force skills
 - 7. current technology
 - 8. responsible citizenship
- D. (1 point) Steps are taken to ensure broad input in the development of directional statements and policies.
- E. (1 point) Directional statements and policies are distributed among parents, students, and patrons.
- F. (1 point) Directional statements and policies are included in school handbooks and/or policy manuals.
- G. (1 point) School handbooks and policy manuals are available to students, staff, and patrons.
- H. (1 point) The school or school district develops written administrative policies and practices.
- I. (1 point) Administrative policies and practices are reviewed annually.

STANDARD II - Personnel and Certification - 15 points

- A. Evidence of low teacher/student ratios in all grade levels with further evidence of appropriate assistance where ratios exceed the following levels:
 - (1 point) Grades K-1 (23:1)
 - (1 point) Grades 2-3 (26:1)
 - (1 point) Grades 4-6 (28:1)
- B. (3 points) Grades 7-12 No more than 160 per day, based upon a five period, five day workweek.
- C. (3 points) Evidence of professional staff development plans and activities for staff are present.
- D. (3 points) Evidence of standard teacher certification as outlined in the Idaho Department of Education Certification Standards for Professional School Personnel Manual. Approved misassignments, letters of authorization and consultant specialist certificates **will not rule** out consideration for merit. Please explain and justify these areas for merit consideration.
- E. (3 points) Sufficient certified and classified support personnel and pupil services are made available.
- F. (3 points) District and/or building policies and procedures are in place for certified and classified personnel; i.e. hiring, evaluation, screening, etc.

STANDARD III - Curriculum/Instruction/School Improvement - 30 points

- A. (6 points) Describe the school's SIP and how it is driving learning.
- B. (6 points) Explain the opportunity students have to learn and the school's emphasis for time on task.
- C. (6 points) Teachers allocate a significant amount of classroom time to instruction in basic skills.
- D. (6 points) Describe the alignment of technology in the curriculum.
- E. (6 points) Describe how student needs are met i.e., Gifted & Talented, Migrant, LEP, Special Education, etc.

STANDARD IV - Accountability/Assessments/Measures - 25 points

- A. (2 points) Student attendance is reported.
- B. (2 points) Student achievement is clearly documented on school records.
- C. (2 points) Explain the use of state and federal special allocation monies (enhancements) to meet thoroughness and school improvement (Title I, Special Education, Migrant, Safe and Drug Free Schools, Gifted and Talented, Reading Improvement, etc.).
- D. (4 points for elementary and 2 points for secondary) Written administrative policies are developed, interpreted and communicated to staff, students, and patrons regarding:
 - 1. a plan for evaluating student achievement
 - 2. grading
 - 3. attendance
 - 4. promotion/retention and/or graduation requirements
- E. (2 points) Misalignments among instructional and organizational practices and desired learner objectives are addressed in the school's SIP.
- F. (2 points) The school participates in required statewide testing programs, and the results are reported to district patrons as well as the SDE.
- G. (2 points) Test data is considered when placing students.
- H. (N/A for K-6 and 2 points for secondary) Graduation rates are reported to the SDE, and written plans are developed for reducing the number of dropouts.
- I. (2 points) Strategies are developed and implemented to remedy any accreditation deficiencies focusing primarily on student achievement.
- J. (2 points) Student achievement is monitored using such multiple testing measures as teacher-made tests, student work samples, skill check lists, norm referenced tests, criterion referenced tests, and assigned student work.
- K. (5 points) Test data is used to improve student performances and instructional programs as well as to facilitate instructional improvement.

Note: A school applying for merit consideration should be able to show test scores significantly above the state average or show a pattern of significant improvement in test results. In addition, high schools should demonstrate either high or improving graduation rates as well as low or improving retention rates.

STANDARD V - Safe Learning Environment - 20 points

- A. (1 point) The educational mission of the district, regarding a safe learning environment, is supported.
- B. (1 point) Regulations governing school buildings, sanitation, sewage disposal, water supply, or other matters affecting public health are established.
- C. (1 point) Adequate space, equipment, and safety systems for all areas of the school building, grounds, and school-related activities are provided.
- D. (1 point) A copy of the most current annual facility safety inspection report completed by the Division of Building Safety is on file with the Idaho State Department of Education.
- E. (1 point) School safety and crisis intervention plans are developed, implemented and reviewed annually for a safe learning environment.
- F. (10 points or 1 point each) Comprehensive district-wide policies and procedures, encompassing the following items are developed, reviewed and implemented.
 - 1. school climate
 - 2. discipline
 - 3. violence prevention
 - 4. gun-free schools
 - 5. substance abuse
 - 6. suicide prevention
 - 7. student harassment
 - 8. drug-free school zones
 - 9. contagious or infectious diseases
 - 10. building safety, including evacuation drills and lockdown procedures
- G. (1 point) School policies and procedures are clearly communicated, consistently enforced and applied.
- H. (1 point) School staff is empowered to maintain discipline and supervision.

I. (1 point) Idaho's model for safe and healthy schools, i.e., basic character and citizenship values of respect, resilience, responsibility and caring relationships, are emphasized.

J. (1 point) Student assistance programs are provided to address the needs of all students.

K. (1 point) Procedures for supervision and training of employees to ensure a positive school environment are developed and implemented.

Note: A school applying for merit should have a safe physical facility.

2nd Year Merit School Recognition 2003-2004 School Year

You have indicated that your school was awarded 1st Year Merit Recognition for 2002-2003, and that you wish to maintain 2nd Year Merit Recognition status for 2003-2004.

Please answer the following three questions to assure that your school meets 2nd year Merit Recognition criteria:

1. The school currently has zero deviation points.
2. The building's certified staff has less than 10% turnover rate.
3. There has been no change in administrative leadership at the building level.

EXEMPLARY PROGRAM SCHOOL RECOGNITION
2003-2004 School Year

A school may apply for exemplary recognition for a program within the school. Exemplary program recognition is for three years.

Schools applying for exemplary program recognition must meet the following criteria in order to be considered for exemplary recognition:

1. The program must compliment the Idaho Achievement Standards. The application should explain the connection to the Idaho Achievement Standards.
2. The program must be student-oriented, and the application must explain how the program is student-centered and present results to support the premise.
3. The program must be exemplary, meaning that the program serves as a pattern or example, conforming to an ultimate form of excellence.
4. The program must be innovative, meaning it is characterized by or productive of new concepts or ideas. The program should show a marked departure from previous practice within the school.
5. The program must be an established program in the school with data to support its impact to the curriculum. The application must explain the data.

Schools should have few, if any, deviations on their accreditation report.

- The committee may accept some minor deviations as long as they are not excessive.
- The following are examples of some of the items that would eliminate a school from consideration:
 - Being on candidate status
 - Professional staff not meeting certification standards
 - Not accredited the previous year
 - Being recognized the second time for exactly the same program
 - When deviation points produce an advised or lower rating
 - Class overload
 - Major deviations from the standards in personnel.

Schools not maintaining a high-level of accreditation during the 2nd and 3rd year of the recognition will lose their exemplary status.

EXEMPLARY PROGRAM RECOGNITION
APPLICATION FORM
2003-2004 SCHOOL YEAR

Describe your program in detail. Your description should include the following:

1. Explain how the program compliments and is connected to the Idaho Achievement Standards.
2. Explain how the program is student-oriented, and present results to support this premise.
3. Explain how this program is exemplary, meaning that the program serves as a pattern or example, conforming to an ultimate form of excellence.
4. Explain how the program is innovative; meaning it is characterized by or productive of new concepts or ideas. Include in this explanation how the program is a marked departure from previous practice within the school.
5. Explain how this program is an established program in the school with data to support its impact to the curriculum. The application must explain the data.

Administrators applying for Merit and/or Exemplary Recognition:

In addition to saving to your word processor, and
copying and pasting into the on-line accreditation report,
please e-mail or fax your entire application to the department.
This will assure that the committee has your complete application.

Thank you.
