#### **SUBJECT**

Approval of Proposed Rule IDAPA 08.02.03, Rules Governing Thoroughness, Section 107, High School Graduation Standards

#### REFERENCE

August 10, 2005 Board approved Proposed Rule IDAPA 08.02.03,

Rules Governing Thoroughness, Sections 007 – 009 and 103 – 107 High School Graduation Standards.

### APPLICABLE STATUTE, RULE, OR POLICY

Sections 33-105 (1), 33-1612, Idaho Code. Rules – Executive Department.

#### **BACKGROUND**

In January 2005, the Board organized the Accelerated Learning and Preparation for Postsecondary Education Task Force for the purpose of developing recommendations to address high school reform and to increase the number of students prepared to enter the workforce or postsecondary education. The Board purposefully established the task force to examine rules and policies associated with K-20 for the purpose of increasing the number of students who are prepared for and enter the state's postsecondary educational institutions. Idaho has the *fifth lowest* rate among the fifty states for the number of students who enroll in postsecondary institutions after graduating from high school.

#### DISCUSSION

Recommended changes to the high school graduation requirements were finalized at the task force's July 2005 meeting. After the proposed rules were approved at the August Board meeting, six regional public hearings were scheduled throughout the state in October and staff from the Office of the State Board of Education met with superintendents at their regional meetings. Presentations were also made to community organizations and at the Idaho School Boards Association annual conference in November. Task force members reviewed written comments from the hearings at their November 2 meeting. The recommendations were revised based on input received from the hearings and feedback from superintendents. Please refer to the attached chart. The original proposal and the recommended changes are listed on the chart.

#### **IMPACT**

Many of the national studies on high school reform/redesign recommend increasing high school graduation requirements to better prepare students for the workplace or for entrance into postsecondary education. Improving academic rigor and relevance at the high school level also lowers hurdles associated with graduating from college.

### STAFF COMMENTS AND RECOMMENDATIONS

Staff recommends that the Board approve the pending rule changes for high school graduation as presented.

#### 007. **DEFINITIONS A - G.**

<u>01.</u>	Advanced	Opportunities.	Are	defined	as	Advanced	Placement	courses,	Dual	Credit	course	s,
Tech Prep, or In	ternational B	accalaureate pro	gram	s.							(	)

- **O2.** Advanced Placement® (AP) http://www.collegeboard.com. The Advanced Placement Program is administered by the College Board. AP students may take one (1) or more college level courses in a variety of subjects. AP courses are not tied to a specific college curriculum, but rather follow national College Board curricula. While taking the AP exam is optional, students can earn college credit by scoring well on the national exams. It is up to the discretion of the receiving college to accept the scores from the AP exams to award college credit or advanced standing.
- 013. All Students. All students means all public school students, grades K-12<del>, not just non college bound.</del>
- **024. Alternative Assessment (Other Ways of Testing).** Any type of assessment in which students create a response to a question rather than choose a response from a given list, as with multiple-choice or true/false. Alternative assessments can include short-answer questions, essays, oral presentations, exhibitions, and portfolios.
- 035. Assessment. The process of quantifying, describing, or gathering information about skills, knowledge or performance. (4-5-00)

#### **046.** Assessment Standards. (4-5-00)

- **a.** Statements setting forth guidelines for evaluating student work, as in the "Standards for the Assessment of Reading and Writing"; (4-5-00)
  - **b.** Measures of student performance. (4-5-00)
- **057. Authentic.** Something that is meaningful because it reflects or engages the real world. An "authentic task" asks students to do something they might really have to do in the course of their lives, or to apply certain knowledge or skills to situations they might really encounter. (4-5-00)
- **068. Basic Educational Skills Training.** Instruction in basic skills toward the completion/attainment of a certificate of mastery, high school diploma, or GED. (4-5-00)
- **079.** Classic Texts. Literary or other works (e.g., films, speeches) that have been canonized, either continuously or intermittently, over a period of time beyond that of their initial publication and reception. (4-5-00)
- **0810. Context (Of a Performance Assessment).** The surrounding circumstances within which the performance is embedded. For example, problem solving can be assessed in the context of a specific subject (such as mathematics) or in the context of a real-life laboratory problem requiring the use of mathematics, scientific, and communication skills. (4-5-00)
- $\theta 911$ . Cooperative Work Experience. Classroom learning is integrated with a productive, structured work experience directly related to the goals and objectives of the educational program. Schools and participating businesses cooperatively develop training and evaluation plans to guide and measure the progress of the student. School credit is earned for successful completion, and the work may be paid or unpaid. Cooperative work experiences are also known as co-operative education or co-op.  $\frac{(4.5.00)(1.5)}{(4.5.00)(1.5)}$
- **102. Criteria**. Guidelines, rules or principles by which student responses, products, or performances, are judged. What is valued and expected in the student performance, when written down and used in assessment, become rubrics or scoring guides. (4-5-00)

143. Cues. Various sources of information used by readers to construct meaning. The language cueing systems include the graphophonic (also referred to as graphophonemic) system, which is the relationship between oral and written language (phonics); the syntactic system, which is the relationship among linguistic units such as prefixes, suffixes, words, phrases, and clauses (grammar); and semantic system, which is the study of meaning in language. Reading strategies and language cueing systems are also influenced by pragmatics-the knowledge readers have about the ways in which language is understood by others in their culture. (4-5-00)

14. "C" Average. A combined average of courses taken on a four (4) point scale with "C" equal to two (2) points.

**125. Decode**. (4-5-00)

- **a.** To analyze spoken or graphic symbols of a familiar language to ascertain their intended meaning. (4-5-00)
- **b.** To change communication signals into messages, as to decode body language. (4-5-00)
- 16. Dual Credit. Dual credit allows high school students to simultaneously earn credit toward a high school diploma and a postsecondary degree or certificate. Postsecondary institutions work closely with high schools to deliver college courses that are identical to those offered on the college campus. Credits earned in a dual credit class become part of the student's permanent college record. Students may enroll in dual credit programs taught at the high school or on the college campus.
- 137. Emergent Literacy. Development of the association of print with meaning that begins early in a child's life and continues until the child reaches the stage of conventional reading and writing. (4-5-00)
- **148. Employability Skills.** Work habits and social skills desirable to employers, such as responsibility, communication, cooperation, timeliness, organization, and flexibility. (4-5-00)
- **159. Entry-Level Skills.** The minimum education and skill qualifications necessary for obtaining and keeping a specific job; the starting point in a particular occupation or with a certain employer. (4-5-00)
- **1620. Evaluation (Student)**. Judgment regarding the quality, value, or worth of a response, product, or performance based on established criteria, derived from multiple sources of information. Student evaluation and student assessment are often used interchangeably. (4-5-00)
- **1721. Experiential Education (Application)**. Experiential education is a process through which a learner constructs knowledge, skill, and value from direct experiences. (4-5-00)
- 1822. Exploratory Experience (Similar to a Job Shadow). An opportunity for a student to observe and participate in a variety of worksite activities to assist in defining career goals. An in-school exploratory experience is a school-based activity that simulates the workplace. (4-5-00)
- **1923. Fluency**. The clear, rapid, and easy expression of ideas in writing or speaking; movements that flow smoothly, easily, and readily. (4-5-00)
- 204. Genre (Types of Literature). A category used to classify literary and other works, usually by form, technique, or content. Categories of fiction such as mystery, science fiction, romance, or adventure are considered genres. (4-5-00)
- 245. Graphophonic/Graphophonemic. One (1) of three (3) cueing systems readers use to construct texts; the relationships between oral and written language (phonics). (4-5-00)

#### 008. DEFINITIONS H - S.

01. Interdisciplinary or Integrated Assessment. Assessment based on tasks that measures a student's ability to apply concepts, principles, and processes from two (2) or more subject disciplines to a project, issue, or problem. **International Baccalaureate (IB)** - http://www.ibo.org/ibo/index.cfm. Administered by the International Baccalaureate Organization, the IB program provides a comprehensive liberal arts course of study for students in their junior and senior years of high school. IB students take end-of-course exams that may qualify for college credit. Successful completion of the full course of study leads to an IB diploma. **Laboratory**. A laboratory science course is defined as one in which at least one (1) class period each week is devoted to providing students with the opportunity to manipulate equipment, materials, specimens or develop skills in observation and analysis and discover, demonstrate, illustrate or test scientific principles or concepts. Learning Plan. The plan that outlines a student's program of study, which should include a rigorous academic core and a related sequence of electives in academic, professional-technical education (PTE), or humanities aligned with the student's post graduation goals. 025.**Narrative**. Text in any form (print, oral, or visual) that recounts events or tells a story. (4-5-00)036. Norm-Referenced Assessment. Comparing a student's performance or test result to performance of other similar groups of students; (e.g., he typed better than eighty percent (80%) of his classmates.) (4-5-00)047. **On-Demand Assessment.** Assessment that takes place at a predetermined time and place. Ouizzes, state tests, SATs, and most final exams are examples of on-demand assessment. (4-5-00)Performance Assessment. Direct observation of student performance or student work and professional judgment of the quality of that performance. Good quality performance assessment has pre-established performance criteria. (4-5-00)Performance-Based Assessment. The measurement of educational achievement by tasks that are similar or identical to those that are required in the instructional environment, as in performance assessment tasks, exhibitions, or projects, or in work that is assembled over time into portfolio collections. (4-5-00)Performance Criteria. A description of the characteristics that will be judged for a task. Performance criteria may be holistic, analytic trait, general or specific. Performance criteria are expressed as a rubric or scoring guide. Anchor points or benchmark performances may be used to identify each level of competency in the rubric or scoring guide. (4-5-00)Phonics. Generally used to refer to the system of sound-letter relationships used in reading and writing. Phonics begins with the understanding that each letter (or grapheme) of the English alphabet stands for one (1) or more sounds (or phonemes). (4-5-00)Portfolio. A collection of materials that documents and demonstrates a student's academic and work-based learning. Although there is no standard format for a portfolio, it typically includes many forms of information that exhibit the student's knowledge, skills, and interests. By building a portfolio, students can recognize their own growth and learn to take increased responsibility for their education. Teachers, mentors, and employers can use portfolios for assessment purposes and to record educational outcomes. (4-5-00)Print Awareness. In emergent literacy, a learner's growing awareness of print as a system of meaning, distinct from speech and visual modes of representation. (4-5-00)

**115. Proficiency.** Having or demonstrating a high degree of knowledge or skill in a particular area.

paraprofessional occupations, usually below the baccaulaureatte level.

Professional-Technical Education. Formal preparation for semi-skilled, skilled, technical, or

(4-5-00)

- 126. School-to-Work Transition. A restructuring effort that provides multiple learning options and seamless integrated pathways to increase all students' opportunities to pursue their career and educational interests.

  (4-5-00)
- 137. Service Learning. Combining service with learning activities to allow students to participate in experiences in the community that meet actual human needs. Service learning activities are integrated into the academic curriculum and provide structured time for a student to think, talk, or write about what was done or seen during the actual service activity. Service learning provides students with opportunities to use newly acquired skills and knowledge in real-life situations in their communities, and helps foster the development of a sense of caring for others.

  (4-5-00)
- 148. Skill Certificate. Portable, industry-recognized credential that certifies the holder has demonstrated competency on a core set of performance standards related to an occupational cluster area. Serving as a signal of skill mastery at benchmark levels, skill certificates may assist students in finding work within their community, state, or elsewhere. A National Skills Standards Board is presently charged with issuing skill voluntary standards in selected occupations based on the result of research and development work completed by twenty two (2) contractors.
- **159. Standards**. Statements about what is valued in a given field, such as English language arts, and/or descriptions of what is considered quality work. See content standards, assessment standards, and performance standards. (4-5-00)
- **1620. Standardization**. A set of consistent procedures for constructing, administering and scoring an assessment. The goal of standardization is to ensure that all students are assessed under uniform conditions so the interpretation of performance is comparable and not influenced by differing conditions. Standardization is an important consideration if comparisons are to be made between scores of different individuals or groups. (4-5-00)
- **1721. Standards-Based Education**. Schooling based on defined knowledge and skills that students must attain in different subjects, coupled with an assessment system that measures their progress. (4-5-00)
- H822. Structured Work Experience. A competency-based educational experience that occurs at the worksite but is tied to the classroom by curriculum through the integration of school-based instruction with worksite experiences. Structured work experience involves written training agreements between school and the worksite, and individual learning plans that link the student's worksite learning with classroom course work. Student progress is supervised and evaluated collaboratively by school and worksite personnel. Structured work experience may be paid or unpaid; may occur in a public, private, or non-profit organization; and may or may not result in academic credit and/or outcome verification. It involves no obligation on the part of the worksite employer to offer regular employment to the student subsequent to the experience. (4-5-00)
- 4923. Student Learning Goals (Outcomes). Statements describing the general areas in which students will learn and achieve. Student learning goals typically reflect what students are expected to know by the time they leave high school, such as to read and communicate effectively; think critically and solve problems; develop positive self-concept, respect for others and healthy patterns of behavior; work effectively in groups as well as individually; show appreciation for the arts and creativity; demonstrate civic, global and environmental responsibility; recognize and celebrate multicultural diversity; exhibit technological literacy; have a well developed knowledge base which enhances understanding and decision making, and demonstrate positive problem solving and thinking skills. (4-5-00)

#### 009. DEFINITIONS T - Z.

01. Tech Prep/Associate Degree (TPAD) Program. A program with a planned sequence of competency based studies articulated between secondary and post secondary institutions, leading to an apprenticeship, certificate, associate degree, or four year college degree. It provides technical preparation in at least one (1) field and builds student competence in the application of mathematics, science, communications, and workplace skills. Tech Prep is a sequenced program of study that combines at least two (2) years of secondary and

two (2) years of postsecondary education. It is designed to help students gain academic knowledge and technical skills, and often earn college credit for their secondary coursework. Programs are intended to lead to an associate's degree or a certificate in a specific career field, and ultimately, to high wage, high skill employment or advanced postsecondary training.

(4 5 00)(\_\_\_)

- **O2. Technology Education**. A curriculum for elementary, middle, and senior high schools that integrates learning about technology (e.g., transportation, materials, communication, manufacturing, power and energy, and biotechnology) with problem-solving projects that require students to work in teams. Many technology education classrooms and laboratories are well equipped with computers, basic hand tools, simple robots, electronic devises, and other resources found in most communities today. (4-5-00)
- **03. Total Quality Management**. A systematic approach to standardizing and increasing the efficiency of internal systems and processes, whether in a business or a school, using statistical and management tools for continuous improvement. Emphasis is on documenting effective processes, committing to meet customers' needs and sharing decision making. (3-15-02)
- **04. Transferable Skills.** Skills that are inter-changeable among different jobs and workplaces. For example, the ability to handle cash is a skill one could use as both a restaurant cashier and a bank teller,  $\underline{tThe}$  ability to problem solve or work as a team member is transferable among most jobs and workplaces.  $(4.5.00)(\underline{\phantom{ttau}})$
- **05. 2+2 or 4+2.** A planned, streamlined sequence of academic and *vocational* <u>professional-technical</u> courses which eliminates redundancies between high school and community college curricula; 2+2 is high school years eleven (11) and twelve (12) and community college years thirteen (13) and fourteen (14); 4+2 is high school years nine (9), ten (10), eleven (11), and twelve (12) and community college years thirteen (13) and fourteen (14).(4-5-00)
- **96.** Professional-Technical Education. "Formal preparation for semi skilled, skilled, technical, or paraprofessional occupations, usually below the BA level." (Thesaurus of ERIC Descriptors). There are several variations on this term. Idaho uses "professional technical education," Oregon "professional technical education," and Washington "vocational technical." (3-15-02)
- **076. Writing Process**. The many aspects of the complex act of producing written communication; specifically, planning, drafting, revising, editing, and publishing. (4-5-00)

#### **087.** Word Recognition. (4-5-00)

- **a.** The quick and easy identification of the form, pronunciation, and appropriate meaning of a work previously met in print or writing; (4-5-00)
- **b.** The process of determining the pronunciation and some degree of meaning of a word in written or printed form. (4-5-00)

#### (BREAK IN CONTINUITY OF SECTIONS)

#### 103. Core Of Instruction Grades 1-12.

**01. Instruction**. Instruction is inclusive of subject matter, content and course offerings. Patterns of instructional organization are a local school district option. Schools will assure students meet locally developed standards with the state standards as a minimum.\* (\*This includes special instruction that allows limited English proficient students to participate successfully in all aspects of the school's curriculum and keep up with other students in the regular education program. It also includes special learning opportunities for accelerated, learning disabled students and students with other disabilities.) (4-5-00)

02.	Achievement Standards. All Each students will shall meet locally established subject area
	andards (using state standards as minimum requirements) demonstrated through various measures of
accountability i	ncluding examinations or other measures. $(3 \ 30 \ 01)$ ()
02	Due Colones (Effective James 1, 2006) All Each students west shall askisse a gue Colont on
03.	Proficiency (Effective January 1, 2006). All Each students must shall achieve a proficient or
	on the High School Idaho Standards Achievement Test (ISAT) in order to graduate. A student who
	at least a proficient score prior to graduation may appeal to the local school board school district or
LEA, and, at the	ne discretion of the the local school board school district or LEA, may be given an opportunity to
demonstrate pr	oficiency of the achievement standards through some other locally established mechanism. All
locally establish	ned mechanisms used to demonstrate proficiency shall be forwarded to the State Board of Education

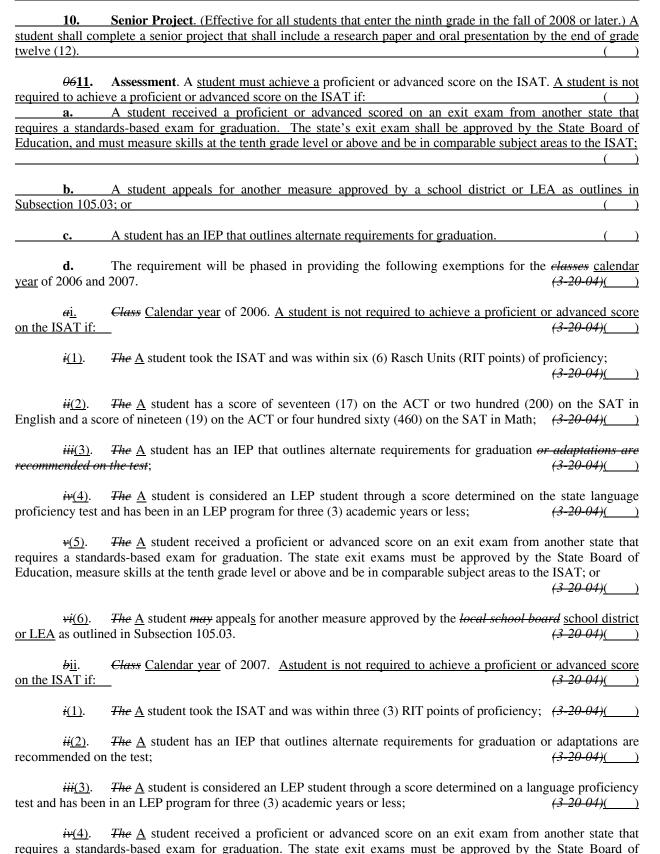

IRSA TAB 1 Page 13

for review and information.

(3 20 04)(\_\_\_\_)

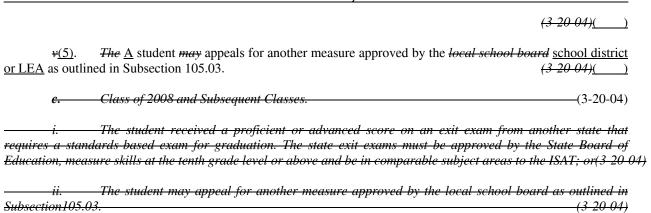

0*1*3. Secondary Language Arts and Communication. (Nine (9) credits required with instruction in communications including oral communication and technological applications). Includes four (4) years of instruction in English, each year will consist of language study, composition, and literature. A course in speech or a course in debate will fulfill one (1) credit of the nine (9) credit requirement. (7-1-00)024.Mathematics and Science. (Effective for all students that graduate prior to January 1, 2012.) (Eight (8) credits required), a minimum of four (4) credits in math and four (4) credits in science, two (2) of which will be laboratory-sciences. Secondary mathematics includes Applied Mathematics, Business Mathematics, Algebra, Geometry, Trigonometry, Fundamentals of Calculus, Probability and Statistics, Discrete Mathematics, and courses in mathematical problem solving and reasoning. Secondary sciences will include instruction in applied sciences, earth and space sciences, physical sciences, and life sciences. (7.1.00)( ) (Effective for all students that enter the ninth grade in the fall of 2008 or later.) Eight (8) credits required beginning with a minimum of algebra I. Secondary mathematics must include two (2) semesters of algebra I; two (2) semesters of geometry; two (2) semesters of algebra II or advanced math beyond Geometry according to standards and courses approved by the State Department of Education (unless an algebra II or advanced math beyond Geometry waiver is granted allowing the student to substitute another course for the two (2) credits of algebra II or advanced math beyond Geometry); and two (2) other math credits. If a student completes any of these courses with a grade of C or higher before entering grade nine (9), and if that course meets the same standards that are required in high school, then the student has met the high school content area requirement. However the student must take eight (8) credits of high school math in addition to the courses completed in middle school. In order to apply for an algebra II waiver or advanced math beyond Geometry, a parent or guardian must apply on behalf of the child no earlier than fourth quarter of the tenth grade. The parent or guardian must meet with designated school personnel and complete the requirements of the local district or LEA for petitioning the governing school board to grant the waiver. Local school districts or LEAs must establish waiver criteria for algebra II or advanced math beyond Geometry. The criteria must include a meeting with school personnel, parents, and student. In order to meet state graduation requirements, students who are granted algebra II or advanced math beyond Geometry waivers must complete eight (8) credits of math, including two (2) credits of algebra I and two (2) credits of geometry. Science. (Effective for all students that enter the ninth grade in the fall of 2008 or later.) (Six (6) credits required). Secondary sciences shall include instruction in the following areas: biology, physical science or chemistry, and earth, space, environment or approved applied science. Four (4) credits of these courses must be laboratory based. If a student completes any required high school course with a grade of C or higher before entering grade nine (9), and if that course meets the same standards that are required in high school, then the student has met the high school content area requirement. However, the student must complete six (6) credits of high school science in addition to the courses completed in middle school. Social Studies. (Five (5) credits required), including government (two (2) credits), U.S. United States history (two (2) credits), and economics (one (1) credit). Current world affairs and geography will be integrated into all social studies instruction. Courses such as geography, sociology, world affairs, and world history may be offered as electives, not to be counted as a social studies requirement. (7.1.00)( Humanities. (Two (2) credits required). A course in interdisciplinary humanities, visual and performing arts, or foreign world language. Other courses such as literature, history, philosophy, architecture, or comparative world religions may satisfy the humanities standards if the course syllabus is approved by the State Department of Education as being aligned with the Humanities Standards. (5-3-03)() 058. **Health/Wellness.** (One (1) credit required). A course focusing on positive health habits. (7-1-00) College Entrance Examination. (Effective for all students that enter the ninth grade in the fall of 2008 or later.) A student must take one (1) of the following college entrance examinations before the end of the student's eleventh grade year: COMPASS, ACT or SAT. Scores must be included in the Learning Plan.
