Board member Thilo summarized the formation and the work of the Accelerated Learning and Preparation for Postsecondary Education Task Force. She indicated the purpose of the task force was to address high school reform issues and to increase the number of students prepared to enter the workforce or postsecondary education.

Board member Thilo noted that the Board approved the first reading of the Pending Rule that incorporated the recommendations brought forward by the task force at the August 2005 Board meeting. Since then, stakeholder meetings and statewide public hearings have been held and based on input received from the hearings and feedback from superintendents, the task force revised their recommendations. Board member Thilo reviewed the updated recommendations for the Board members.

Board member Terrell expressed concerns about removing the C-average requirement. Board member Thilo agreed that rigor is needed at the middle school level and recommended that the Board appoint a task force to focus on the middle school requirements. Board member McGee concurred. Board President Lewis indicated he would consider taking such action at a future meeting.

Dwight Johnson, Interim Executive Director of the State Board of Education, discussed the funding mechanism for implementing the recommendations. He noted that a subcommittee of experts had been appointed to work on the matter.

Mr. Johnson reviewed the cost estimate based on full implementation by FY 2013, using a phased-in approach. There was discussion about adding an additional year to the phase-in for the math requirement.

Dr. Howard commented on funding for advanced placement and the fees associated with dual credit courses. Mr. Johnson explained that funds provided to districts for advanced learning opportunities may be used for dual credit courses, advanced placement courses, Idaho Digital Learning Academy tuition, or any other advanced learning opportunity a district chooses to offer.

Dr. Howard recommended several changes to correct typos, and for clarity.

STATE DEPARTMENT OF EDUCATION

1. Approval of Proposed Rule Amendments to IDAPA 08.02.03.103.02, .104.01, .104.02, .104.03 and .107.06: Revisions to Physical Education Requirements for Grades 1-12

M/S (Terrell/McGee): To table this item. *Motion carried 5-2-0 (Howard and Hall dissented; Thilo abstained).*

Dr. Barbara Eisenbarth of the Department of Education presented this item and requested Board support for the proposed changes to the Physical Education standards. She noted that hearings were held statewide and that support far outweighed any opposition to the proposed changes. She indicated that concerns expressed by districts were primarily related to the lack of facilities and time, and not to a need for the program. Dr. Eisenbarth noted that the recommended minimum time requirement for all levels had been decreased based on those concerns. She pointed out that the intention is to phase-in this requirement.

There was discussion about the differences between physical activity and physical education. Several Board members indicated that they were concerned that the rule wasn't clear on this point. Board member McGee suggested waiting to move forward

with this effort until the details could be worked out.

Dr. Howard noted that the concern of schools at the elementary level regards capacity and indicated that the Department of Education will ask for funding to address that concern.

Board member Terrell reminded the Board that he had requested documentation demonstrating the need for this program in Idaho from the Department of Education at the August, 2005, Board meeting. He indicated that he had not received that information.

Several other Board members agreed that students need an appreciation for life-long physical activity and noted that they would like to see this effort pursued in the future after further discussion.

Board member Terrell requested that this item be tabled until such time that the Board receives the information he requested.

OTHER/NEW BUSINESS

There being no further business, a motion to adjourn was entertained.
