#### **SUBJECT**

FY 2010 Appropriation Information – Institutions and Agencies of the State Board of Education

#### APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.B. Various Legislative Appropriation Bills (1a page 5)

#### BACKGROUND/ DISCUSSION

The 2009 legislature has drafted appropriation bills for the agencies and institutions of the Board. The amounts contained in legislative appropriations include a 4% ongoing base reduction from FY 2009, a 3% ongoing base reduction for FY 2010, and a 5% reduction in personnel costs. Included for the College and Universities, Community Colleges, and Professional-Technical Education budgets are stimulus funds from the federal American Recovery and Reinvestment Act.

The appropriation bills for College and Universities and Professional-Technical Education included a request to reduce all salaries of classified and nonclassified employees, regardless of fund source, by three percent (3%) for fiscal year 2010. Omnibus bill # S1227, among other provisions, makes null and void all references to a reduction of salaries in fiscal year 2010.

#### **IMPACT**

The Permanent Building Fund Advisory Council approved \$20,509,600 for alteration and repair projects for the institutions and agencies under the Board. These projects are managed by the Division of Public Works.

Due to the economic downturn, no funding was provided for inflation, Enrollment Workload Adjustment (EWA), replacement capital, or occupancy. Although no funding for EWA was provided, a reallocation of funding was applied to Boise State University (BSU), University of Idaho (UI), and Lewis-Clark State College (LCSC). UI was reduced by \$1,139,100 because the EWA formula resulted in a negative amount. BSU and LCSC experienced positive EWA and received a prorated share equal to the amount reduced at UI. Idaho State University experienced negative EWA but that amount was offset by their unfunded EWA balance so it did not participate in the reallocation.

The balance of the unfunded EWA for the FY 2010 budget request is:

	<u> 2009</u>	<u> 2010 Change</u>	<u> 2010</u>
Boise State University	\$823,700	\$1,150,700	\$1,974,400
Idaho State University	\$500,900	(\$323,700)	\$177,200
University of Idaho	\$0	\$0	\$0
Lewis-Clark State College	\$0	\$317,100	\$317,100

BAHR – SECTION II TAB 1A Page 1

An increase in the number of medical school seats was not appropriated for the Idaho Dental Education and University of Utah Medical programs, however, funding for residency expansion at ISU and Boise Family Medicine Residency was provided as well as funding for the Psychiatry Residency program.

#### Agencies of the Board

The Office of the State Board of Education (OSBE) received \$329,100 in one-time federal funds for the second year of the College Access Grant. The oversight responsibilities of the GEAR UP and Assessment programs were moved to the Department of Education which included a reduction of six (6) FTE. A position to oversee Accountability was retained, and funding for one (1) FTE was provided for Proprietary School oversight.

The Division of Professional-Technical Education (PTE) experienced an overall decrease of 6.00% from the original FY2009 appropriation. The Legislature funded maintenance level increases for statewide cost allocation increases for PTE and Eastern Idaho Technical College. Line item requests to transfer the Proprietary School program to OSBE and the Veteran's program to the Division of Veteran's Affairs were also included in the JFAC recommendation. The State Department of Education indicated they will provide a separate report on public school and related appropriation matters.

#### STAFF COMMENTS

The information provided will be published on the State Board of Education web page once final budgets are approved by the Idaho Legislature.

#### **BOARD ACTION**

Motions are included for each specific institution and agency allocation.

BAHR – SECTION II TAB 1A Page 2

#### **SUBJECT**

FY 2010 College and University Allocation

### APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.S. Senate Bill 1207

#### **BACKGROUND/ DISCUSSION**

The legislature appropriates to the State Board of Education and the Board of Regents monies for the general education programs at Boise State University, Idaho State University, University of Idaho, Lewis-Clark State College, and system-wide needs. The Board allocates the lump-sum appropriation to the four institutions based on legislative intent and Board Policy, Section V.S.

According to Board policy, the allocation is made in the following order: 1) each institution shall be allocated its prior year base; 2) funds for the Enrollment Workload Adjustment; 3) funds for new occupancy costs; 4) funding of special allocations; and 5) a general allocation based on proportionate share to total budget request.

#### **IMPACT**

This action allocates the FY 2010 College and University lump-sum appropriation to the institutions for general education programs, and system-wide needs. The funds allocated along with revenue generated from potential fee increases will establish the operating budgets for the general education program for FY 2010. The FY 2010 Allocation, shown on page 3, consists of the lump-sum appropriation.

#### **ATTACHMENTS**

Attachment 1 - Summary of C & U FY 2010 Allocations	Page 3
Attachment 2 - Appropriation Bill	Page 5
Attachment 3 - Statement of Purpose	Page 9

#### STAFF COMMENTS

Staff recommends approval of the FY 2010 College and University allocation.

#### **BOARD ACTION**

A motion to approve the allocation of the FY 2010 legislative appropriations for Boise State University, Idaho State University, University of Idaho, Lewis-Clark State College, and system-wide needs, as presented on Page 3.

#### LEGISLATURE OF THE STATE OF IDAHO

Sixtieth Legislature

First Regular Session - 2009

#### IN THE SENATE

#### SENATE BILL NO. 1207

#### BY FINANCE COMMITTEE

AN ACT 1 APPROPRIATING MONEYS FOR GENERAL EDUCATION PROGRAMS AT BOISE 2 STATE UNIVERSITY, IDAHO STATE UNIVERSITY, LEWIS-CLARK STATE COL-3 LEGE, THE UNIVERSITY OF IDAHO AND FOR THE OFFICE OF THE STATE 4 BOARD OF EDUCATION FOR FISCAL YEAR 2010; ESTABLISHING AMOUNTS 5 TO BE EXPENDED FOR SYSTEMWIDE PROGRAMS; DIRECTING THE STATE 6 BOARD OF EDUCATION TO PROVIDE A SYSTEM OF REPORTING FACULTY 7 AND STAFF TURNOVER; REAPPROPRIATING CERTAIN UNEXPENDED AND 8 UNENCUMBERED BALANCES; DIRECTING THE TRANSFER OF CERTAIN 9 FUNDS; PROVIDING LEGISLATIVE INTENT ON PERSONNEL COSTS; DIRECT-10 ING SALARY REDUCTIONS; AND DECLARING AN EMERGENCY. 11

Be It Enacted by the Legislature of the State of Idaho:

SECTION 1. There is hereby appropriated to the State Board of Education and the Board of Regents of the University of Idaho for Boise State University, Idaho State University, Lewis-Clark State College, the University of Idaho, and the Office of the State Board of Education the following amount to be expended for the designated programs from the listed funds for the period July 1, 2009, through June 30, 2010:

29	Restricted Fund	23,670,600
30	TOTAL	\$408,210,000

SECTION 2. SYSTEMWIDE PROGRAMS. Of the amount appropriated from the General Fund in Section 1 of this act:

- (a) An amount not to exceed \$93,100 shall be used by the Office of the State Board of Education for systemwide needs;
- (b) An amount not to exceed \$1,357,100 may be used for the mission and goals of the Higher Education Research Council;

- (c) An amount not to exceed \$1,275,600 may be awarded by the State Board of Education for instructional projects specifically designed to foster innovative learning approaches using technology, and to promote the Idaho Electronic Campus;
- (d) An amount not to exceed \$144,000 may be spent on addressing issues related to course transfers across public institutions; and
- (e) An amount not to exceed \$47,000 may be used by the Office of the State Board of Education for expenses directly related to the development of a comprehensive plan for expanding undergraduate and graduate medical education opportunities.
- SECTION 3. PERSONNEL TURNOVER. The State Board of Education shall continue to provide a standardized system for tracking and reporting meaningful data about faculty, nonfaculty exempt, and classified staff turnover at the state's institutions of higher education. These statistics shall be available to the Division of Financial Management and the Legislative Services Office no later than November 1 of each year.
- SECTION 4. CARRYOVER AUTHORITY. There is hereby reappropriated to the State Board of Education and the Board of Regents of the University of Idaho for Boise State University, Idaho State University, the University of Idaho, Lewis-Clark State College, and the Office of the State Board of Education, any non-General Fund unexpended and unencumbered balances of any appropriation contained in Section 1, Chapter 263, Laws of 2008, to be used for nonrecurring expenditures for the period July 1, 2009, through June 30, 2010.
- SECTION 5. TRANSFER OF FUNDS. There is hereby appropriated and the State Controller shall transfer, on July 1, 2009, or as soon thereafter as practicable, the amount of \$10,000,000 from the Permanent Building Fund to the General Fund for the period July 1, 2009, through June 30, 2011. Use of these funds shall be limited to the purchase of real property, planning, design, construction, equipping and start-up of operations for the Idaho Center for Livestock and Environmental Studies.
- SECTION 6. LEGISLATIVE INTENT. It is the intent of the Legislature to retain to the extent possible, our capable, quality employees who support the essential services and statutorily authorized programs that the citizens of Idaho expect. The Legislature finds these critical essential services to be those that maintain the health and safety of our citizens and the education of our children. While extending flexibility to the Governor and agency directors to manage the state workforce to the best of their ability during these difficult times, it remains the responsibility of the Legislature to identify priorities for the state workforce. The Legislature finds that reductions in personnel funding shall first be managed through salary reductions that impact all personnel fairly; secondly, be mitigated by the use of existing salary savings; thirdly, by using savings created by keeping newly vacated positions unfilled; fourth, by the use of furloughs; and lastly, as a last resort, by reducing the workforce. It is the intent of the Legislature that these policies shall be adhered to by the executive, legislative, and judicial branches to the extent allowed by law.
- SECTION 7. SALARY REDUCTION. Inasmuch as salary reductions will save jobs; and inasmuch as a five percent (5%) reduction in personnel funding may create a reduction in force; and inasmuch as the state, as a single employer of multiple departments, agencies and institutions, is required by law to direct across the board salary adjustments; the State Board of

Education and the Board of Regents of the University of Idaho is hereby requested to reduce all salaries of classified and nonclassified employees at the College and Universities, regardless of fund source, by three percent (3%) for fiscal year 2010, beginning on June 14, 2009, through June 12, 2010. Institutions are also requested to use personnel cost savings, furloughs, and a reduction in force to manage the remaining two percent (2%) in funding reductions. The Division of Human Resources shall adjust all pay schedules for the classified personnel system downward to the extent that all beginning minimum salaries are three percent (3%) less than those in effect upon the date of passage of this law.

SECTION 8. An emergency existing therefor, which emergency is hereby declared to exist, Section 7 of this act shall be in full force and effect on and after passage and approval.

Line Item #1 removes personnel and funding for occupancy costs for facility space that has either been demolished or is no longer eligible.

Line Item #7 provides \$1,591,100 for 12 faculty and staff positions for the collaborative Center for Advanced Energy Studies (CAES) in Idaho Falls. The funding source for the CAES line item is American Recovery and Reinvestment Act State Fiscal Stabilization Funds.

Line Item #14 provides \$10,000,000 in General Funds for the Idaho Center for Livestock and Environmental Studies at the University of Idaho. Funding for this project was originally appropriated to the Permanent Building Fund in FY 2008. Section 5 of this bill transfers the \$10 million from the Permanent Building Fund to the General Fund and provides for a two year appropriation.

**Statement of Purpose / Fiscal Note** 

S 1207

#### **SUBJECT**

Allocation of FY 2010 General Fund Appropriation for Community Colleges

#### REFERENCE

June 2006 Board approved a process for distributing the FY 2007 State

General Fund appropriation between North Idaho College

(NIC) and the College of Southern Idaho (CSI)

#### APPLICABLE STATUTE, RULE, OR POLICY

House Bill 309

#### **BACKGROUND/ DISCUSSION**

The legislature makes an annual appropriation to the State Board of Education for community college support. Traditionally, an informal agreement between the presidents of the two colleges resulted in the allocation of state General Funds equally (50%/50%) between CSI and NIC.

In June, 2006, the Board approved the process for distributing the FY 2007 State General Fund appropriation between CSI and NIC. That process had a four year term from FY 2007 ending FY 2010, this will be the last year this process will be used to allocate funds between CSI and NIC.

A separate formula was used to allocate funds to College of Western Idaho (CWI) and agreed to by the three community colleges, the Division of Financial Management and the Legislative Budget Office. The remaining funds will be allocated between CSI and NIC as described above. A new method for allocating the total community college appropriation among the three community colleges will need to be determined before FY 2011.

#### **IMPACT**

The appropriation bill directs the General Fund appropriation to be allocated as follows: \$4,586,200 to CWI, with the remainder split between CSI and NIC under the current formula established by the two colleges. The allocation formula for CSI and NIC result in the following amounts:

CSI	\$11,762,100
NIC	<u>10,058,700</u>
Total	\$21,820,800

#### **ATTACHMENTS**

Attachment 1 – FY 2010 CC Appropriations Process	Page 3
Attachment 2 - Appropriation Bill	Page 5
Attachment 3 - Statement of Purpose	Page 6

#### STAFF COMMENTS

This allocation does not include funds for Professional-Technical Education, which are allocated by the Division of Professional Technical Education.

Staff recommends approval of the amounts as shown on Page 3, Line 24, and included in the motion, below.

#### **BOARD ACTION**

A motion to approve the FY 2010 allocation of state General Funds for community college support as follows: \$11,762,100 to the College of Southern Idaho, \$10,058,700 to North Idaho College, and \$4,586,200 to the College of Western Idaho.

19

20

9	Trustee and Benefit Payments	\$28,632,200
10	FROM:	
11	General Fund	\$26,407,000
12	American Reinvestment Fund	1,640,200
13	Community College Fund	<u>585,000</u>
14	TOTAL	\$28,632,200

SECTION 2. The General Fund moneys appropriated in Section 1 of this act shall be allocated as follows:

- (1) \$4,586,200 to the College of Western Idaho; and
- (2) The remainder pursuant to the formula as agreed to and set forth in the 2006 document entitled "College of Southern Idaho and North Idaho College: State General Fund Distribution Process."

The community college fund moneys appropriated in Section 1 of this act shall be allocated 21 evenly among the three community colleges. 22

#### STATEMENT OF PURPOSE

#### RS18969

This is the fiscal year 2010 appropriation for the community colleges in the amount of \$28,632,200 of which \$1,640,200 is from the American Recovery and Reinvestment Act (Pub. L. No. 111-5) State Fiscal Stabilization Fund.

#### **DIVISION OF PROFESSIONAL-TECHNICAL EDUCATION**

#### **SUBJECT**

Allocation of the State Division of Professional-Technical Education FY 2010 Appropriation

### APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.C.d.

#### **BACKGROUND/ DISCUSSION**

The Idaho Legislature appropriates funds for Professional-Technical Education to the Division of Professional-Technical Education in five designated programs: State Leadership and Technical Assistance, General programs, Postsecondary Programs, Underprepared and Unprepared Adults/Displaced Homemakers, and Related Services. The Division of Professional-Technical Education requests approval of the allocation of the FY 2010 appropriated funds detailed in Attachment 1 on pages 3-4.

The allocation is based on the level of funding in the Joint Finance Appropriations Committee (JFAC) recommendation and the Provisions of the State Plan for Professional-Technical Education. The postsecondary allocation is based on the Annual Plan and Budget Request from the respective Technical Colleges. The State General Fund reflects an overall decrease of 6.00% from the original FY 2009 appropriation. The Legislature funded maintenance level increases for statewide cost allocation increases for the Division of Professional-Technical Education and Eastern Idaho Technical College (EITC). Line item requests to transfer the Proprietary School program to the Office of the State Board of Education and the Veteran's program to the Division of Veteran's Affairs were also included in the JFAC recommendation.

#### **IMPACT**

Establish FY 2010 operating budget.

#### **ATTACHMENTS**

Attachment 1 - Allocation of FY 2010 Appropriation	Page 3
Attachment 2 - Senate Bill 1208	Page 5
Attachment 3 - Statement of Purpose	Page 9

#### STAFF COMMENTS AND RECOMMENDATIONS

Staff recommends approval.

BOARD ACTION  A motion to approve the allocation of the FY 2010 legislative appropriation for to Division of Professional-Technical Education as presented on Pages 3-4.

SECTION 2. There is hereby reappropriated to the State Board for Professional-Technical Education for the Division of Professional-Technical Education any non-General Fund unexpended and unencumbered balance of any appropriation contained in Section 1, Chapter 245, Laws of 2008, to be used for nonrecurring expenditures, for the period July 1, 2009, through June 30, 2010.

SECTION 3. LEGISLATIVE INTENT. It is the intent of the Legislature to retain to the extent possible, our capable, quality employees who support the essential services and statutorily authorized programs that the citizens of Idaho expect. The Legislature finds these critical essential services to be those that maintain the health and safety of our citizens and the education of our children. While extending flexibility to the Governor and agency directors to manage the state workforce to the best of their ability during these difficult times, it remains the responsibility of the Legislature to identify priorities for the state workforce. The Legislature finds that reductions in personnel funding shall first be managed through salary reductions that impact all personnel fairly; secondly, be mitigated by the use of existing salary savings; thirdly, by using savings created by keeping newly vacated positions unfilled; fourth, by the use of furloughs; and lastly, as a last resort, by reducing the workforce. It is the intent of the Legislature that these policies shall be adhered to by the executive, legislative, and judicial branches to the extent allowed by law.

SECTION 4. SALARY REDUCTION. Inasmuch as salary reductions will save jobs; and inasmuch as reductions in personnel funding may create a reduction in force; and inasmuch as the state, as a single employer of multiple departments, agencies and institutions, is required by law to direct across the board salary adjustments; the State Board for Professional-Technical Education is hereby requested to reduce all salaries of classified and nonclassified employees at

Idaho State University, Lewis-Clark State College, Eastern Idaho Technical College, the State 1 Leadership & Technical Assistance program and the Related Services program, regardless of 2 fund source, by three percent (3%) for fiscal year 2010, beginning on June 14, 2009, through 3 June 12, 2010. Agencies and institutions are also requested to use personnel cost savings, 4 furloughs, and a reduction in force to manage the remaining two percent (2%) in funding re-5 ductions. The Division of Human Resources shall adjust all pay schedules for the classified 6 personnel system downward to the extent that all beginning minimum salaries are three percent 7 (3%) less than those in effect upon the date of passage of this law. 8

SECTION 5. TRANSFER OF FUNDS. There is hereby appropriated and the State Controller shall transfer, on July 1, 2009, or as soon thereafter as practicable, the amount of \$1,172,100 from the American Reinvestment Fund to the General Fund for the period July 1, 2009, through June 30, 2010.

SECTION 6. An emergency existing therefor, which emergency is hereby declared to exist, Section 4 of this act shall be in full force and effect on and after passage and approval.

TAB 1D Page 10

#### **SUBJECT**

Idaho Robert R. Lee Promise Scholarship – Approve Category A Award.

#### APPLICABLE STATUTE, RULE, OR POLICY

Idaho Administrative Procedures Act (IDAPA) 08.01.05 Sections 33-4305 (2) and 33-4307 (2) (a), Idaho Code House Bill 310

#### **BACKGROUND/DISCUSSION**

The intent of the Idaho Robert R. Lee Promise Scholarship Category A award is to encourage the best and brightest Idaho students to attend an Idaho college or university. Applicants are ranked based on academic and professional-technical high school records, and ACT or COMPASS scores. The provisions of Section §33-4307.2a, Idaho Code, require the State Board of Education to annually set the amount of the award. The amount of the award has been \$3,000 per year (\$1,500 per semester) since the fall 2001 semester.

The Joint Finance and Appropriation Committee (JFAC) recommended \$331,300 for the FY 2010 academic year. This appropriation will fund approximately 110 total scholarships. There are 89 eligible renewal applications from returning students. The remaining funds will provide for 21 new scholarships to be awarded. Seventy five percent of the new scholarships are awarded to students pursuing academic programs and twenty five percent are awarded to professional-technical students.

During this application year there were nearly 1,200 applicants for the Category A scholarships, and 250 of those met or exceeded the eligibility requirements.

#### **IMPACT**

The appropriation bill includes \$331,300 for the Category A Scholarship Program for the 2009-2010 academic year.

#### STAFF COMMENTS AND RECOMMENDATIONS

Staff recommends approval of the Promise Category A scholarship in the amount of \$3,000 per year (\$1,500 per semester).

#### **BOARD ACTION**

A motion to approve the amount of the Idaho Promise Scholarship, Category A, at \$3,000 per year (\$1,500 per semester) for those applicants who are selected to receive or renew the Idaho Robert R. Lee Promise Category A scholarship for the academic year 2009-2010.

#### **SUBJECT**

Idaho Promise Scholarship – Approve Category B Award.

### APPLICABLE STATUTE, RULE, OR POLICY

Idaho Administrative Procedures Act (IDAPA) 08.01.05 Sections 33-4305 and 33-4308, Idaho Code House Bill 310

#### **BACKGROUND/ DISCUSSION**

The Idaho Promise Scholarship Category B award is available for all Idaho students attending college for the first time and who have a high school grade point average of at least 3.0 or an ACT score of 20 or above. This scholarship is limited to two years and to students younger than 22 years of age. Students must maintain at least a 2.5 GPA while taking an average of 12 credits to remain eligible for the scholarship. State law requires the State Board of Education to annually set the amount of the award based on the legislative appropriation and the number of eligible students.

Statute permits the State Board of Education to set the annual individual amount up to \$600 and the total award up to \$1,200. If actual awards are different than projected for the fall 2009 semester, the Board may choose to increase or decrease the amount of the award for the spring 2010 semester.

The FY 2010 legislative appropriation for the Promise Category B Scholarship is \$3,925,400. Based upon participation during FY 2009, Board staff has estimated the number of eligible students in academic year 2009-2010 to be approximately 7,849 students. With the award set at \$500 per student per year, the total amount awarded to all eligible students would be \$3,924,500. This leaves \$1,000 remaining.

Actual student numbers for the fall 2009 semester will be reviewed and if an adjustment is necessary, staff will recommend an adjustment in the award amount for the spring 2010 semester (October, 2009 Board Meeting).

#### **IMPACT**

The Idaho Promise Scholarship Category B provides a merit-based scholarship to Idaho high school students in an attempt to motivate students to excel in high school and attend an Idaho college. Estimated number of students receiving scholarships is 7,849.

#### STAFF COMMENTS AND RECOMMENDATIONS

Staff recommends approval of the Promise Category B scholarship in the amount of \$250 per semester (\$500 annually).

#### **SUBJECT**

FY 2010 Idaho Opportunity Scholarship

### APPLICABLE STATUTE, RULE, OR POLICY

Sections 33-5605, Idaho Code IDAPA 08.01.13.010.01 and 08.01.13.300.02.a House Bill 310

### **BACKGROUND/ DISCUSSION**

The intent of the Idaho Opportunity Scholarship is to provide financial resources to Idaho students who are economically disadvantaged, to close the gap between the estimated cost of attending an eligible Idaho institution of higher education and the expected student and family contribution toward such educational costs, and to encourage the educational development of such students in eligible Idaho postsecondary educational institutions. Provisions of the rules governing this scholarship program require that the State Board of Education annually establish the maximum amount of the award, the cost of attendance for purposes of this award determination, and the amount of the expected family contribution. The maximum award amount for FY 2009 was \$3,000 per year (\$1,500 per semester); the expected family contribution for FY 2009 was \$5,000; and the standard cost of attendance for award determination purposes was \$16,500 for the FY 2009 award year.

The legislature appropriated \$1,000,000 of spending authority out of the existing Opportunity Scholarship fund. Twenty million dollars was set aside during the 2007 and 2008 legislative session to fund an endowment for this scholarship program. The interest earnings from the Opportunity Scholarship Account will be used during the FY 2010 year to fund the Opportunity Scholarship program. The total amount available to fund Opportunity Scholarships for the FY 2010 year will be the \$1,000,000 appropriated funds plus the interest earnings. Authorized administrative costs up to a maximum of 5% (not to exceed \$75,000) are permitted and must come from this same funding source. The appropriation and fund earnings will fund approximately 570 scholarships. We anticipate having approximately 400 renewal scholarships and 170 new scholarship awards for FY 2010.

The maximum award amount set for the FY 2009 academic year was \$3,000. This amount is recommended for the FY 2010 academic year as well. The majority of full-year student recipients were eligible for the maximum \$3,000 award. The scholarship is funded with the Opportunity Scholarship providing "last dollars." Using this model, not all students will receive full awards.

The Board is responsible for setting the cost of attendance (COA) which is used in the formula which determines the amount of the student award and the maximum amount of the student award.

For purposes of the formula, the staff recommendation is to use a maximum of \$16,500 as the COA to determine scholarship awards. This amount was based on the average COA from our four-year institutions during the 2008 academic year. Due to funding limitations, staff is not requesting an adjustment for the 2010 award cycle.

Eligible students are expected to share in the cost of their education and will be required to contribute an amount determined by the Board. Board staff recommends that the amount of the student contribution remain at \$5,000 for FY 2010. Additionally, it is recommended that the Board accept student-initiated scholarships and gifts from non-federal and non-institutional sources as part of the student contribution. It is also recommended that the Board count the Federal Academic Competitiveness and SMART grants towards the expected student contribution.

### **IMPACT**

The legislature approved \$1 million to be used for Opportunity scholarships for FY 2010. Additionally, interest earnings to-date of over \$750,000 can be used for additional scholarships and up to \$75,000 from the Opportunity Scholarship Fund that can be used for approved administrative expenses. It is estimated that we will be able to award scholarships for 570 new or returning students.

### STAFF COMMENTS AND RECOMMENDATIONS

Staff recommends approval of the Opportunity Scholarship in the amount of \$3,000 per year (\$1,500 per semester).

Staff recommends the annual Cost of Attendance for the Opportunity scholarship award formula to be set at \$16,500.

Staff recommends that the student contribution be set at \$5,000, and to accept the Federal Academic Competitiveness and Smart grants along with other student-initiated scholarships and non-institutional and non-federal aid as part of the student contribution.

Staff further recommends that in cases where further clarification is needed to determine whether aid counts towards the student responsibility the Board appoints the Executive Director or his designee to make these determinations on behalf of the Board.

### **BOARD ACTION**

A motion to approve the maximum amount of the Idaho Opportunity Scholarship, to be \$3,000 per year (\$1,500/semester) for those applicants who are selected to receive or renew the Idaho Opportunity Scholarship for the Fiscal Year July 1, 2009-June 30, 2010.

#### **SUBJECT**

Discussion of FY 2011 Budget Request Process

### APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures Policy, Section V.B.1.

### **BACKGROUND/ DISCUSSION**

Board-approved budget requests for FY11 must be submitted to the executive and legislative branches [Division of Financial Management (DFM) and Legislative Services Office (LSO)] on September 1, 2009. To meet this deadline, the Board has established a process for developing agency and institutional requests that will be finalized at the June 2009 meeting. Budget requests are developed in two parts as directed by the DFM Budget Development Manual: maintenance of current operations (MCO) items and "line items".

MCO requests are calculated using state budget guidelines and Board policy. Line item requests are defined by the Board, representing the unique needs of the higher education institutions (or system), and agencies. The Board's budget request guidelines have historically focused upon the development of line item requests, capital budget requests, special one-time requests (if any), and the timeframe for presenting and approving these requests.

An MCO request includes funding for health insurance or other Personnel Cost increases, inflationary increases for operating expenses (including utilities), and central state agency cost areas (Treasurer, Controller, etc.). These items are calculated using rates established by DFM. Other MCO items include external non-discretionary adjustments such as student enrollment increases, medical education contract adjustments, and replacement capital.

All line items for each agency or institution (including Special and Health Programs) must be ranked in priority order. An MCO budget is considered the minimum to maintain operations while line items are funded for new or expanded programs, building occupancy, additional personnel costs above CEC, and other initiatives deemed important by the Board, institution/agency, legislature or governor.

The capital budget request is a separate process with funding provided by the Permanent Building Fund. Agencies and institutions seek funding for major maintenance projects and major capital projects through that process.

All the institutions and agencies under the Board, except Health Programs, received several reductions in the FY 2010 appropriation. This included the 4% ongoing reduction from FY 2009 and the 5% personnel cost reduction. Also, the one-time capital replacement was not appropriated in FY 2010.

In FY 2010 the following institutions and agency received federal economic stimulus funds:

College and Universities \$15,313,800 Community Colleges 1,640,200 Professional-Technical Education 729,900

It is anticipated that the institutions and agency will receive similar amounts of federal stimulus funds in FY 2011.

### **IMPACT**

In order to improve the budget review process, the timeline below will be followed:

Board Meeting	<u>Description</u>
April	Board provides Line Item guidelines
June	Board reviews and approves Line Items
August	Board approves final budget requests

Following Board approval in August, the budget requests will be submitted to DFM and LSO before September 1, 2009.

### STAFF COMMENTS AND RECOMMENDATIONS

Staff recommends the following Line Item guidelines:

- 1. Tie Line Item requests to goals within institution/agency strategic plan and to Board strategic plan.
- 2. Prioritize Line Item requests in the following categories:
  - a. Occupancy Costs
  - b. PTE Nondiscretionary Adjustments
  - c. Center for Advanced Energy Studies (CAES)
  - d. Opportunity Scholarship
  - e. Recommendations from the Medical Education Committee
  - f. Veterans Administration Biomedical Research Collaboration
  - g. One-time projects with extraordinary and unique circumstances

The PTE nondiscretionary adjustments are similar to the enrollment workload adjustment contained in the maintenance level budget of the college and universities budget request, but they have been designated by LSO as line items. Prioritizing the PTE nondiscretionary adjustments will assure that this maintenance level item is included in the agency's budget request.

The CAES project was funded with one-time federal stimulus funds, so this project will need to be funded with general funds on an ongoing basis.

The Opportunity Scholarship was appropriated \$10,000,000 in general funds in FY 2007 and FY 2008 for a total corpus of \$20,000,000. In both FY 2008 and FY 2009, the state appropriated \$1,925,000 for the payment of scholarships. The FY 2010 appropriation includes the payment of \$1,000,000 in scholarships from the Opportunity Scholarship fund.

The information included in the final budget request must include supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

### **BOARD ACTION**

A motion to direct the agencies and institutions to use the following categories and in priority order to develop FY 2011 Line Item budget requests:

- 1. Occupancy Costs
- 2. PTE Nondiscretionary Adjustments
- 3. Center for Advanced Energy Studies (CAES)
- 4. Opportunity Scholarship
- 5. Recommendations from the Medical Education Committee
- 6. Veterans Administration Biomedical Research Collaboration
- 7. One-time projects with extraordinary and unique circumstances

### **BOISE STATE UNIVERSITY**

### **SUBJECT**

Request to purchase test and measurement equipment for teaching and research labs

### APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.I.3

### **BACKGROUND/DISCUSSION**

The Electrical & Computer Engineering Department must update test and measurement equipment used in both teaching and research labs. The department has been following an equipment replacement plan and this purchase is the final purchase under that plan. It is important that we continue to purchase specific models of Agilent products to maintain consistency in all of our labs. Utilizing a single manufacturer and when possible a consistent model of equipment increases the efficacy of our teaching and improves our ability to maintain the hardware.

The State Division of Purchasing has reviewed and approved the sole source purchase of this equipment.

### **IMPACT**

With the purchase of this equipment directly from the manufacturer we will realize a 21 percent savings. In addition, we gain a single point of contact for all service and warranty needs. The published cost of the equipment is \$920,369. After the educational discount we will save \$196,016 for a net cost of \$724,354. The source of funds for the purchase is central reserves and one time appropriated funds.

### **ATTACHMENTS**

Attachment 1 – Division of Purchasing Sole Source Authorization

Page 3

### STAFF COMMENTS AND RECOMMENDATIONS

Staff recommends approval.

### **BOARD ACTION**

A motion to approve the request by Boise State University to purchase test and measurement equipment for research and teaching labs at a cost not to exceed \$724,354.

BSU Purchasing Department
Boise State University
1910 University Drive
Boise, ID 83725-1000

Administrator

### Dear Terri:

This is in response to the request REQ11826 for test and measuring equipment for Boise State University, for authorization to acquire as a sole source purchase with Agilent Technologies. The basis of the request is the authority vested in the Administrator of the Division of Purchasing by Idaho Code Section 67-5720(1)(a) where particular savings may be had through the use of educational discounts and the Division of Purchasing Policy Directive 03-1.

The situation as presented provides that a significant educational discount (21%) has been offered to the University for the acquisition of the test and measuring equipment. Upon review of the information provided, I have determined that a particular savings to the state may be had through this discount and the immediacy of the situation. Therefore in accordance with the authority vested in me by Idaho Code Section 67-5720(1)(a), Boise State University's request to acquire this test and measuring equipment through the authority cited above is in the best interest of the state and is hereby approved.

Sincerely

Bill Bĭfrns Administrator

TAB	DESCRIPTION	ACTION
1	CCSSO AND NGA COMMON CORE STANDARDS INITIATIVE	Information Item

SDE TOC Page i

### **SUBJECT**

Council of Chief State School Officers (CCSSO) and the National Governors Association Center for Best Practices' (NGA Center) Common Core Standards Initiative

### **BACKGROUND/DISCUSSION**

CCSSO and NGA are working to improve the education of America's children by forming a workgroup to explore the development of national standards that are based on research and evidence, are aligned with college and work expectations, include rigorous content and skills, and are internationally benchmarked. Throughout the process, states will review the standards and an independent validation committee will review the standards before finalization. This is a state lead effort. The common standards will in no way be federal standards or an effort led by the U.S. Department of Education. CCSSO and NGA expect end of high school standards to be released in July 2009 and K-12 grade-by-grade standards to be released in December 2009.

CCSSO and NGA are asking Governors and Chief State School Officers to sign a Memorandum of Agreement (MOA) that outlines the process, condition, roles and responsibilities for the standards development. By signing the (MOA), states are committing to the process of the common standards initiative. The MOA does not obligate a state to adopt the standards. It is due back to CCSSO, signed by the Governor and Chief State School Officer, by May 8<sup>th</sup>, 2009.

### **IMPACT**

There is no financial impact associated with this MOA. Idaho is currently a member of CCSSO.

### STAFF COMMENTS AND RECOMMENDATIONS

### **BOARD ACTION**

This item is for informational purposes only. Any action will be at the Board's discretion.

THIS PAGE LEFT INTENTIONALLY BLANK

Dear Governors and Chief State School Officers.

Since 1983 when *A Nation at Risk* was released, states have made tremendous strides in increasing the academic rigor of education provided to the nation's students. Yet despite 26 years of standards-based education, America's children still remain behind other nations in terms of academic achievement and preparedness to succeed in the global economy. The time has come for the nation's states to join together to collectively develop a set of standards that increase academic rigor and relevance; prepare all students for postsecondary education and workforce training; and are internationally benchmarked.

As you are aware, the Council of Chief State School Officers (CCSSO) and the National Governors Association Center for Best Practices (NGA Center) have been working together and with partners to galvanize support, build the relationships, and create the conditions necessary to embark on a common core standards initiative that will be the beginning of positive change in American education.

Attached you will find a Memorandum of Agreement (MOA), which outlines the process and conditions by which the common core standards will be developed as well as the roles and responsibilities of states in this effort. This document is now ready for your consideration and potential signatures. For a state to be considered a full participant in this initiative, both the governor and chief state school officer must sign the agreement. Please sign and fax (202.408.8076) or send electronically with signatures to Dane Linn at NGA Center (dlinn@nga.org) or Scott Montgomery at CCSSO (scottm@ccsso.org) by Friday, May 8, 2009. Please also submit a point(s) of contact to include name, title, email, and phone number.

While we have been clear along the way that signing the MOA is an indication that a state will engage in the process, the MOA does not bind states to adopting the final product. Signing the MOA engages a state to review and comment on the development of the initial common core standards. If, at the conclusion of the process, a state determines it wishes to adopt the common core standards, CCSSO and NGA will assist in every way possible during the adoption phase.

We are eager to begin this initiative and look forward to the challenging work ahead to complete the common core standards by the end of the year. We thank you for your leadership and desire to embark on this journey with us. With your support we believe we can transform the educational process for our nation's children and give them the

knowledge and skills they and our country need to remain strong in the global knowledge economy.

If you have any questions concerning the MOA, please contact Dane Linn, director, NGA Center (<u>dlinn@nga.org</u> or 202-624-3629) or Scott Montgomery, deputy executive director, CCSSO (<u>scottm@ccsso.org</u> or 202-326-8688).

Sincerely,

Ray Scheppach Executive Director, NGA Gene Wilhoit Executive Director, CCSSO

### The Council of Chief State School Officers and The National Governors Association Center for Best Practices

### Common Core Standards Memorandum of Agreement

Purpose. This document commits states to a state-led process that will draw on evidence and lead to development and adoption of a common core of state standards (common core) in English language arts and mathematics for grades K-12. These standards will be aligned with college and work expectations, include rigorous content and skills, and be internationally benchmarked. The intent is that these standards will be aligned to state assessment and classroom practice. The second phase of this initiative will be the development of common assessments aligned to the core standards developed through this process.

Background. Our state education leaders are committed to ensuring all students graduate from high school ready for college, work, and success in the global economy and society. State standards provide a key foundation to drive this reform. Today, however, state standards differ significantly in terms of the incremental content and skills expected of students.

Over the last several years, many individual states have made great strides in developing high-quality standards and assessments. These efforts provide a strong foundation for further action. For example, a majority of states (35) have joined the American Diploma Project (ADP) and have worked individually to align their state standards with college and work expectations. Of the 15 states that have completed this work, studies show significant similarities in core standards across the states. States also have made progress through initiatives to upgrade standards and assessments, for example, the New England Common Assessment Program.

Benefits to States. The time is right for a state-led, nation-wide effort to establish a common core of standards that raises the bar for all students. This initiative presents a significant opportunity to accelerate and drive education reform toward the goal of ensuring that all children graduate from high school ready for college, work, and competing in the global economy and society. With the adoption of this common core, participating states will be able to:

- Articulate to parents, teachers, and the general public expectations for students;
- Align textbooks, digital media, and curricula to the internationally benchmarked standards;
- Ensure professional development to educators is based on identified need and best practices;
- Develop and implement an assessment system to measure student performance against the common core; and
- Evaluate policy changes needed to help students and educators meet the common core standards and "end-of-high-school" expectations.

An important tenet of this work will be to increase the rigor and relevance of state standards across all participating states; therefore, no state will see a decrease in the level of student expectations that exist in their current state standards.

#### **Process and Structure**

Common Core State-Based Leadership. The Council of Chief State School Officers (CCSSO) and the National Governors Association Center for Best Practices (NGA Center) shall assume responsibility for coordinating the process that will lead to state adoption of a common core of standards (see attached timeline). These organizations represent governors and state commissioners of education who are charged with defining K-12 expectations at the state level.

As such, these organizations will facilitate a state-led process to develop common core standards in English language arts and mathematics that are:

- Fewer, clearer, and higher, to best drive effective policy and practice;
- Aligned with college and work expectations, so that all students are prepared for success upon graduating from high school;
- Inclusive of rigorous content and application of knowledge through high-order skills, so that all students are prepared for the 21<sup>st</sup> century;
- Internationally benchmarked, so that all students are prepared for succeeding in our global economy and society; and
- Research and evidence-based.
- National Validation Committee. CCSSO and the NGA Center will create an expert validation group that will serve a several purposes, including validating end-of-course expectations, providing leadership for the development of K-12 standards, and certifying state adoption of the common core standards. The group will be comprised of national and international experts on standards. Participating states will have the opportunity to nominate individuals to the group. The national validation committee shall provide an independent review of the common core standards. The national validation committee will review the common core as it is developed and offer comments, suggestions, and validation of the process and products developed by the standards development group. The group will use evidence as the driving factor in validating the common core standards.

  Develop End-of-High-School Expectations. CCSSO and the NGA Center will convene Achieve, ACT and the College Board in an open, inclusive, and efficient process to develop a set of end-of-high-school expectations in English language arts and mathematics based on evidence. We will ask all participating states to review and provide input on these expectations. This work will be completed by July 2009.
- Develop K-12 Standards in English Language Arts and Math. CCSSO and the NGA Center will convene Achieve, ACT, and the College Board in an open, inclusive, and efficient process to develop K-12 standards that are grounded in empirical research and draw on best practices in standards development. We will ask participating states to provide input into the drafting of the common core and work as partners in the common core standards development process. This work will be completed by December 2009.
- Adoption. The goal of this effort is to develop a true common core of state standards that are internationally benchmarked. Each state adopting the common core standards either directly or by fully aligning its state standards may do so in accordance with current state timelines for standards adoption not to exceed three (3) years.

This effort is voluntary for states, and it is fully intended that states adopting the common core standards may choose to include additional state standards beyond the common core standards. States that choose to align their standards to the common core standards agree to ensure that the common core represents at least 85 percent of the state's standards in English language arts and mathematics.

Further, the goal is to establish an ongoing development process that can support continuous improvement of this first version of the common core standards based on research and evidence-based learning and can support the development of assessments that are aligned to the common core standards across the states, for accountability and other appropriate purposes.

- National Policy Forum. CCSSO and the NGA Center will convene a National Policy Forum (Forum) comprised of signatory national organizations (e.g., the Alliance for Excellent Education, Business Roundtable, National School Boards Association, Council of Great City Schools, Hunt Institute, National Association of State Boards of Education, National Education Association, and others) to share ideas, gather input, and inform the common core standards initiative. The forum is intended as a place for refining our shared understanding of the scope and elements of a common core; sharing and coordinating the various forms of implementation of a common core; providing a means to develop common messaging between and among participating organizations; and building public will and support.
- Federal Role. The parties support a state-led effort and not a federal effort to develop a common core of state standards; there is, however, an appropriate federal role in supporting this state-led effort. In particular, the federal government can provide key financial support for this effort in developing a common core of state standards and in moving toward common assessments, such as through the Race to the Top Fund authorized in the American Recovery and Reinvestment Act of 2009. Further, the federal government can incentivize this effort through a range of tiered incentives, such as providing states with greater flexibility in the use of existing federal funds, supporting a revised state accountability structure, and offering financial support for states to effectively implement the standards. Additionally, the federal government can provide additional long-term financial support for the development of common assessments, teacher and principal professional development, other related common core standards supports, and a research agenda that can help continually improve the common core standards over time. Finally, the federal government can revise and align existing federal education laws with the lessons learned from states' international benchmarking efforts and from federal research.

Agreement. The undersigned state leaders agree to the process and structure as described above and attest accordingly by our signature(s) below.

May 4, 2009

Mr. Milford Terrell P. O. Box 83720 Boise, ID 83720-0037

Dear Mr. Terrell:

Over the last several months NASBE has been working with the Council of Chief State School Officers (CCSSO), the National Governors' Association (NGA) and several other education organizations to establish the foundation for a voluntary, state-led common core standards initiative in math and English language arts in K-12 education. Support for this effort was endorsed by the NASBE Board of Directors in 2008, with a recogntion that states should join together to develop a set of voluntary standards that would increase academic rigor and relevance while preparing all stduents for success after highschool in their chosen pathways. These standards would be internationally benched marked, reflecting the global economy in which our students must compete.

On April 17<sup>th</sup> of this year, individuals from governors' offices and chief state school officers representing 42 states met in Chicago, IL to discuss how to advance this agenda in a way that would be inclusive and respectful of all states. On this past Friday, CCSSO and NGA dissemniated a Memorandum of Agreement (MOA) among their members that Governors and Superintendents and/or Commissioners are being asked to sign by May 8<sup>th</sup>. The MOA outlines the process and conditions underwhich the standards will be developed and the role and responsibility of the governor and chief in that effort. The signatures of both parties are requied for a state to be considered an active participant in this work. Signing the MOA does not obligate a state to adopt the final standards, it allows the state to participate in the review and comment phases of the effort.

While it is important that Governors and Chief State School Officers support this effort, the final adoption of academic standards in most states will rest with the State Board of Education. Thus we feel it is critical that you are aware of what your policymaking partners are agreeing to and are given the opportunity to weigh in on this important work. I have attached a copy of the MOA for your review. In the weeks ahead, your State Board, though NASBE, will be asked to recommend individuals to participate in the standards review and you will be giveen an opportunity to comment on the proposed standards. Your national association will be actively involved in this work and will keep you apprised of its progress.

If you have questions or comments, please do not hesitate to contact me at <a href="mailto:Brendaw@nasbe.org">Brendaw@nasbe.org</a> or call at 703-684-4000. I look forward to hearig from you and to moving an agenda that serves the nation's students.

Sincerely,

Brenda Lilienthal Welburn

Brenda L. Wellurn
