UNIVERSITY OF IDAHO

SUBJECT

University of Idaho Report on Research and Extension Regional Listening Sessions.

APPLICABLE STATUTE, RULE, OR POLICY

Section 33-2904, Idaho Code

BACKGROUND/DISCUSSION

The University will report to the Regents on the results of the Regional Listening Tour conducted in relation to reductions in state general fund appropriations for Agricultural Research and Extension Services.

IMPACT

This is a discussion item only – there is no financial impact.

STAFF COMMENTS AND RECOMMENDATIONS

Board staff has no comments or recommendations.

BOARD ACTION

This item is for informational purposes only. Any action will be at the Board's discretion.

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
OCTOBER 15, 2009

SUBJECT

Annual Report of Academic Programs and Memorandums of Understanding (MOU)

APPLICABLE STATUTE, RULE, OR POLICY

Board Policy Section III.Z. Delivery of Postsecondary Education - Planning and Coordination of Academic Programs and Courses

BACKGROUND/DISCUSSION

The purpose of Board Policy III.Z., Delivery of Postsecondary Education is to ensure that Idaho's public institutions meet the educational and workforce needs of the state through academic planning, alignment of programs and courses, and collaboration and coordination in accordance with their regional and statewide missions. There are two provisions in Board Policy III.Z., to provide information to the Board regarding program coordination activities: (1) an annual update of existing programs and (2) a biennial review of the Eight-Year plan. Board Policy Section III.Z.,8., stipulates that annually, the Office of the State Board of Education, with appropriate input from each institution, will provide an annual report to the Board to include a summary of current and pending MOUs, a current program inventory list to represent all offerings from campus sites throughout the state, and academic plans for the coming year. The timeline for reporting this information was modified to be provided in October to present a more accurate overview of current program plans, offerings, and collaborations.

Each public institution was asked to submit their current program offerings, tentative academic plans and existing MOUs. Institutional reports have been reviewed by OSBE staff and aggregated into the attached report.

IMPACT

Annual reporting provides an opportunity for the Board and the institutions to review what is currently being offered throughout the state and to identify any issues associated with program planning and coordination. This report, the established program approval process and oversight from the Council on Academic Affairs and Programs (CAAP) are the primary mechanisms to ensure that the educational and workforce needs of the state are being addressed.

Boise State University Annual Report -- Board Policy III.Z.8

Boise State University continues to diversify and strengthen its offerings of academic programs, particularly in public policy & planning, science, engineering, and education.

It is our plan at present that during FY2010 we will submit full proposals for the following programs.

- Master of Science in Chemistry
- PhD in Biomolecular Sciences

We have the following Memoranda of Agreement with other Colleges and Universities in Idaho regarding academic programs:

- A long standing agreement with CSI to offer baccalaureate completion programs in select disciplines on the CSI campus.
- A cooperative agreement with ISU that allows for an above maximum (12) transfer of credits for students wishing to transfer from ISU's Master's in Geology and Master's in Applied Geology to BSU.
- In FY07 Boise State University entered into an agreement with Lewis -Clark State College to support the offering of an Advanced Standing Master of Social Work by Boise State University in Lewiston and in Coeur d'Alene.
- In FY07 Boise State University entered into an agreement with the University of Idaho and Idaho State University to support the offering of a PhD in Water Resources by the University of Idaho at its Boise campus, and for the institutions to share coursework and utilize faculty from each institution to staff graduate student committees. This agreement preserves the right of Boise State University to offer its own PhD in Water Resources in the Treasure Valley in the future.
- In FY07 Boise State University entered into an agreement with Idaho State University to support the offering of a PhD in Counseling by Idaho State University at its Boise campus, and for the institutions to share coursework and utilize faculty from each institution to staff graduate student committees. This agreement preserves the right of Boise State University to offer its own PhD in Counseling in the Treasure Valley in the future.

- In FY07 Boise State University entered into an agreement with Idaho State University to support the offering of a Master of Nursing and a Master of Science in Nursing by Boise State University, and for the institutions to share coursework and utilize faculty from each institution to staff graduate student committees.
- In FY07 Boise State University entered into an agreement with the College of Southern Idaho, Idaho State University, and the University of Idaho to create a collaborative system for the planning and delivery of higher education in South Central Idaho, as spelled out by the South Central Idaho Local Operations Committee.
- In FY08 Boise State University entered into an agreement with the University of Idaho whereby Boise State would offer a Masters of Community and Regional Planning and UI would limit their offerings of their Master of Bioregional Planning in the Treasure Valley to the area of design of physical planning (e.g. landscape planning, architectural planning, interior design planning).
- In FY08 Boise State University entered into an agreement with the College of Southern Idaho to offer BSU's Bachelor of Social Work and Masters of Social Work in Twin Falls.
- In FY08 Boise State University entered into an agreement with the College of Western Idaho to transfer all PTE programs to CWI.
- IN FY09 Boise State University entered into an agreement with the College of Western Idaho and the College of Southern Idaho to create a agreement with PTE students currently enrolled in BSU PTE programs.
- We have a draft agreement whereby a student can be concurrently enrolled in UI's law school and BSU's Master's of Accountancy-Tax Specialization program. UI will be taking that agreement and creating an NOI for campus, CAAP and SBOE approval.

Idaho State University, Academic Plans for FY 2009-2010

The University has a number of Notices of Intent that are under review internally and also several being reviewed by the Board office. The following list represents the academic plans for this fiscal year, once the NOIs and relevant Full Proposals have been approved.

- Ph.D. in Experimental Psychology (external review completed, full proposal to be submitted in the near future). This degree program will prepare students with intensive training in the philosophy, theory, and conduct of research in multiple areas of specialization within the discipline of psychology.
- Ph.D. in Microbiology (full proposal to be submitted; external review scheduled for September 22, 2009). The Department of Biological Sciences has offered the coursework for this degree for several years under its more general Ph.D. in Biology degree program. The courses are already being offered, and the faculty expertise for this degree program is available in the Department.
- Addition of Chemistry as a major area within the existing Ph.D. in Engineering and Applied Science degree program. The Department of Chemistry has recently increased its overall research emphasis in general and its research collaboration efforts in particular. Expansion of this research activity and collaborative efforts will be enhanced by adding Chemistry to the existing Ph.D. degree program.
- Ph.D. in Social and Environmental Dynamics (NOI submitted in September 2009, awaiting approval to develop a full proposal and external review). This is an interdisciplinary Ph.D. degree program which will provide students with a choice of emphases areas that integrate the physical and social sciences disciplines in a systematic exploration of the role of humanity in the structure and functioning of the earth's natural, physical, and human systems.
- Ph.D. in Nursing (NOI approved, full proposal and external review to be scheduled). This will be primarily an online degree program. This research-based doctoral program will prepare the senior level nursing faculty needed for the bachelor's and master's degree nursing programs in the State. There is a serious shortage of Ph.D. trained nursing faculty across the country.
- B.A. in Theatre, Film, and Video (NOI in internal review). This new major combines existing courses in the department to create a hybrid major encompassing acting, producing, directing, writing and recording stage and other live theater performances, to respond to a growing job market, and to broaden students' opportunities to acquire additional professional skills.

- B.A. in criminology (NOI in internal review). The Department of Sociology currently offers an associate degree in Criminal Justice; the bachelor's degree in criminology will include a strong theoretical focus on the causes of crime and juvenile delinquency, and on law enforcement, the judiciary, and corrections. The degree will provide graduates with training in research methodologies, statistics, and sociological theory to prepare them to assume field positions in law enforcement.
- New emphases in Advertising and in Public Relations for the current B.A. in Mass Communications degree program (NOI submitted). The mass media discipline encompasses multiple areas of specialization, of which Advertising and Public Relations are two distinct components. The two fields are distinct in the profession, professional associations, and many college curricula.

Lewis-Clark State College

Annual Report -- Board Policy III.Z.8

Originating Department	Contract Name	Description

University of Idaho

Annual Report -- Board Policy III.Z.8

In the 2008 update of the *8-Year Plan for Delivery of Academic Programs*, the following programs were proposed for implementation in 2009-2010:

Due to the ongoing conversation on university mission and current economic climate, the plans for these programs are under review and decision to go forward is not certain at this time

- Ph.D. – Environmental Sciences – Coeur d'Alene, Post Falls
- M.Sc. – Agricultural Sciences – Boise, Coeur d'Alene, Idaho Falls
- M.Sc., Ph.D. – Bioinformatics and Computational Biology – Coeur d'Alene, Idaho Falls
- B.S. Tech. – Professional-Technical and Technology Education – Coeur d'Alene
- B.A./B.S. – Interdisciplinary Studies – Coeur d'Alene
- Certificate – Global Justice – Moscow
- Certificate – Professional Ethics, Diversity and Intercultural Relations – Moscow

In addition to some changes to and discontinuances of existing programs, the following programs received board approval in 2008-2009 for implementation in Fall 2009:

- B.S./B.A. – Organizational Sciences – Moscow/Coeur d'Alene
- B.S. Ag.L.S. – Agricultural Life Sciences - Moscow
- J.D. – Natural Resources Law – Moscow
- J.D. – Native American Law – Moscow
- M.L.Arch. – Landscape Architecture – Moscow
- M.S. – Natural Resources – Moscow
- Certificate for Global Justice - Moscow
- Certificate for Human Safety Performance – Moscow
- Certificate for Nuclear Criticality Safety – Idaho Falls
- Certificate for Professional Ethics - Moscow

The University of Idaho has the following Memoranda with partner institutions in Idaho in effect since last year's annual report:

- Course Exchange Agreement with Brigham Young University – Idaho
- Memorandum of Agreement with Boise State University, Idaho State University,
- Lewis-Clark State College, College of Southern Idaho and the Idaho State Board of Education for the Collaborative Paraeducator-to-Teacher Alternate Route in Special Education

- Memorandum of Understanding with Lewis-Clark State College, North Idaho College, Northwest Indian College, University of Idaho and Washington State University.
- University for the cooperative development and delivery of education services and scholarly endeavors related to Native Americans.
- Memorandum of Understanding with Lewis-Clark State College, North Idaho College, Boise State University, University of Idaho and Idaho State University for the cooperative agreements related to operations in North Idaho.

College of Southern Idaho Annual Report -- Board Policy III.Z.8

Date: 9/14/09

The College of Southern Idaho (CSI) is a comprehensive community college with four primary goals – transfer classes and program; professional technical programs; community enrichment classes; and workforce or short-term training.

CSI started its Wind Energy and Environmental Technician Programs, and the Bakery and Pastry Arts TC option in the Culinary Arts Programs this Fall semester. Work continues developing the Dental Hygiene Program that has been approved to begin next Fall semester.

CSI developed a partnership and formal MOU with the College of Western Idaho to assist them in meeting the standards for accreditation through NWCCU. This arrangement provides the students the opportunity to receive credit from an accredited institution while CWI is seeking accredited status.

Letters of Agreement that provide access to recreation facilities on CSI campus to students enrolled in programs in the Magic Valley with the following institutions:

- Boise State University
- Idaho State University
- University of Idaho—Boise Center

Facilities and Staff Partnership with Twin Falls School District: An agreement that allows for the sharing of physical resources, facilities, and staff members between the Twin Falls School District and the College of Southern Idaho.

Facilities Partnership with Cassia County School District: An agreement that allows for the sharing of facilities between the Cassia County School District and the College of Southern Idaho.

Dual Credit: Dual credit allows high school students to gain college credit while in high school with the accelerated coursework they take also being included on their high school transcripts.

Partnership with the Idaho Digital Learning Academy: Collaboration with the Idaho Digital Learning Academy to deliver high quality dual credit coursework to high school students across the state.

University of Idaho CALS to collaborate regarding the Idaho Center for Livestock and Environmental Studies.

Health Sciences and Human Services Contracts (see attached list)

Education/Physical Education Department

Early Childhood Education Program

- Tech Prep Articulation Agreements with Region IV high school PTE programs. These are annual agreements facilitated by Eric Studebaker, CSI Tech Prep Coordinator.

- Articulation Agreement with Idaho four-year public colleges and universities for the Early Childhood Education-Special Education Blended Certificate. This was agreed upon in 2003 and is reviewed periodically.
- MOA with the Department of Health and Welfare Adult and Child Development Center (ACDC), Twin Falls. Through this MOA, CSI's Early Childhood Education Program and ACDC share an integrated classroom for toddlers, including approximately seven typical and five special needs children who are currently on IFSPs. CSI provides an on-site toddler coordinator and student teachers; ACDC provides educational staff. The MOA is reviewed and signed annually.

Education Assistant Program:

- Tech Prep Articulation Agreements with Region IV high school PTE programs. These are annual agreements facilitated by Eric Studebaker, CSI Tech Prep Coordinator.
- Informal agreements with Region IV primary and secondary schools for Field Experience and Internship placement of EDUA students.
- MOU with Idaho four-year public colleges and universities for the Education Assistant Associate of Applied Science and Technical Certificate.
- MOA with the State Board of Education for "Grow Your Own" (GYO). This is a collaborative scholarship program with Idaho four-year public colleges and universities to assist bilingual students in obtaining a teaching certificate that would enable them to educate English language learners. The EDUA Coordinator applies for GYO monies annually.
- MOA with the State Board of Education and four-year public colleges and university to offer a shared paraeducator to teacher online special education degree to enable working paraeducators the opportunity to obtain a special education certification. Fall, 2007

Teacher Education Program:

- Informal agreements with Region IV primary and secondary schools for EDUC 202 Field Experience placement of CSI teacher education students.
- MOA with the Boise School District for EDUC 202 Field Experience placement of CSI teacher education students. Fall, 2008.
- Articulation Agreements with Idaho four-year public colleges and universities for Teacher Education Associate of Arts degrees (Elementary Education, Secondary Education, Special Education)
- Articulation Agreement with Boise State University for the Bilingual Elementary Education Associate of Arts degree.
- Articulation Agreement with University of Phoenix for the Elementary Education Associate of Arts degree. Fall, 2008
- Articulation Agreement with George Fox University for the Elementary Education Associate of Arts degree. Currently developing.

Physical Education Program:

- MOA for the delivery of health promotion services to seniors, 60 years of age or older and their spouse. Services include health education and guidance in exercise for the purpose of maximizing senior's quality of life and independence through the enhancement and maintenance

of the senior's health. These services are administered in Over 60 and Getting Fit classes and workshops at 10 community/educational sites throughout the Magic Valley. The MOA is reviewed annually.

- MOA with the State of Idaho, Department of Health and Welfare for the development and implementation of "Living Well in Idaho," an evidence-based disease prevention program developed by Stanford University. Activities are implemented into the Over 60 and Getting Fit classes and related workshops at 10 community/educational sites throughout the Magic Valley. Agreement was signed in August of 2009.
- Informal agreements with Region IV primary and secondary schools for PHYE 161 Field Experience placement of CSI teacher education students
- Informal Articulation Agreements with Idaho four-year public colleges and universities for the K-12 Physical Education Associate of Arts degree.
- Articulation Agreement with University of Idaho for the K-12 PHYE, PHYE-Exercise Science and Health, and PHYE-Recreation Associate of Arts degrees. Summer of 2007.
- Articulation Agreement with Lewis Clark State College for the PHYE-Sport Management Associate of Arts degree. Spring, 2008.

Social Science Department

- Subcontract with Eastern Washington University to provide training for Resource Families-foster or adoptive-through the Resource Family Training Consultant housed in Aspen 127b. Susan Lehman has been that trainer since 2004; we are currently interviewing candidates to replace her. The department collaborates a great deal with the Idaho Child Welfare Research and Training Center in Coeur d'Alene and the Idaho Department of Health and Welfare Division of Family and Community Services. A new contract for 2009-2010 pending.
- Contract with Idaho State University to provide the space and maintenance for the Idaho Center for Disability Evaluation- Madrona Street property. That contract-Subcontract N0.04-20A- was signed on 1/22/04
- Memorandum of Agreement between CSI and Idaho Peace Officers and Standards Training(P.O.S.T.) dated 4/23/07
- The Social Science Department has collaborated carefully with BSU in bringing BSW and MSW programs to CSI. Stephanie Gilbert and Jamie Kelley coordinate those two programs on CSI campus. We jointly provide an SPSS package for research. We do not have written agreements for that collaboration.
- Psychology articulation agreement with ISU completed in November 2006.

Notices of Intent

- Dental Hygiene, AAS (submitted for State Board approval 7/2009)
- Baking and Pastry Arts, Technical and Postsecondary Certificates (submitted for State Board approval 7/2009)
- Water Resource Management, Postsecondary Certificate (approved 4/2009)
- Industrial Mechanics Technology, Technical Certificate (approved 4/2009)
- Environmental Technician, AAS/Technical Certificate (approved 4/2009)
- Wind Energy Technician, AAS/Technical Certificate (approved 8/2008)
- Medical Coding, Technical Certificate (approved 8/2008)
- Surgical First Assisting, AAS (approved 5/2008)

- Manufacturing Technology, AAS/TC (approved 5/2007)

CSIs 8-year plan is attached.... last updated Spring 2008.

2015-16				
CSI		AAS	Silviculture	Twin Falls
2016-17				

College of Western Idaho Annual Report -- Board Policy III.Z.8

The College of Western Idaho (CWI) is a new comprehensive community college located in the Treasure Valley of Southwestern Idaho with administrative offices located in Nampa, Idaho, and credit class teaching sites in Nampa on Caldwell Boulevard, in Nampa near the Idaho Center, in Boise in the Black Eagle Business Park, and on the Boise State University Campus with additional sites on various high school campuses. Credit classes include offerings in both general education for transfer and professional technical education. The College also offers non-credit short term training in Workforce Development, adult basic education/GED, and community education.

As CWI began offering credit general education classes in January 2009 and a full complement of both credit general education and credit professional technical education for the fall 2009 term, the college has primarily focused on establishing agreements relative to a new college. More specifically, the College has been and continues to engage in establishing various educational and facilities agreements normally associated with community colleges.

Memorandum of Understanding

College of Western Idaho formed an accreditation partnership via a Memorandum of Understanding with **College of Southern Idaho** as prescribed by the Northwest Commission on Colleges and Universities. The arrangement provides oversight and guidance from CSI during the period CWI works toward accredited status. The partnership additionally allows CWI students to receive transferrable credit from an accredited institution and award financial aid. Included in this comprehensive MOU are agreements dealing with financial aid services, library services, and transfer of professional technical programs essentially intact from Boise State University.

Letters of Agreement:

- College of Western Idaho has a letter of agreement with Boise State University that provides for a teach out agreement between the two institutions wherein CWI will provide appropriate and necessary continued instruction to students seeking to continue specific certificates or degrees from BSU through CWI.
- College of Western Idaho has a letter of agreement with Boise State University that assures BSU that CWI will not enroll BSU students in CWI general education

courses intended only for CWI PTE students but that are offered on BSU property.

- College of Western Idaho and Boise State University are finalizing a collaborative agreement wherein both institutions will utilize CWI property to house a state of the art nursing simulation lab and share professional expertise while providing nursing simulation for both institution students and other nursing staff and students in the local area.

Other Agreements:

- College of Western Idaho is in the process of establishing dual credit agreements with area high schools and charter schools. Additionally, CWI is currently establishing ongoing relationships with public schools outside of Ada and Canyon Counties but within the College service area.
- College of Western Idaho has and is developing additional agreements with area high schools for use of their facilities to be used as teaching sites as the demand for space grows.
- College of Western Idaho has various lease agreements with commercial facilities in Ada County for both credit instruction (to include general education and professional technical education) and workforce development, Adult Basic Education, community education.

Eight-year Plan: The College of Western Idaho eight-year plan is attached. It should be noted that this plan is essentially a plan developed by Boise State University College of Applied Technology as up dated in spring 2008. The College is now in the process of revising this plan in accordance with the usual two-year cycle requested by the State Board of Education. The plan will include provisions for associate of arts, associate of science, and associate of applied science degrees and various certificates.

Notices of Intent: College of Western Idaho did not file any NOI's this school year, mainly due to the rigors of starting a new college and the complexities of incorporating an existing professional technical college into the College. The College has a curriculum committee that works with the curriculum committee of College of Southern Idaho to gain approval for any new programs the College wishes to bring forth. Subsequent to CSI committee approval, College of Western Idaho will submit the required NOI.

Curriculum: Due to the agreement between College of Western Idaho and College of Southern Idaho as prescribed by the Northwest Commission on Colleges and Universities, initially, all credit curriculum offered at CWI is the same as that offered by CSI. Through agreements among College of Southern Idaho, the State Professional

Technical Education office the State Board of Education, and College of Western Idaho, CSI included credit programs from the College of Applied Technology as part of their existing PTE curriculum. By NWCCU agreement, all CSI curriculum is available to College of Western Idaho. Any subsequent curriculum developed by CWI will be part of the CSI curriculum.

Eastern Idaho Technical College Annual Report -- Board Policy III.Z.8

Eastern Idaho Technical College (EITC) has experienced an 11% increase in enrollment for the Fall term of 2009. Many of the college programs are operating at capacity and some programs in the Trades and Industry and Health Care Technologies divisions have waiting lists for students to enter. The Workforce Training division operates a training contract with Batelle Energy Alliance at the Idaho National Laboratory and trained over 4000 workers at the Lab during the last year. The contract with Batelle has been expanded and an additional instructor has been hired in FY2010.

EITC has a MOU with Idaho State University for sharing the Health Care Education Building on the EITC campus. In addition, EITC has a general MOU with Idaho State University for sharing classroom facilities on the EITC campus. Currently EITC is working with Idaho State University on a cooperative program that would provide students the opportunity to take their first year of the industrial electronics core on the EITC campus and transfer those courses directly to the ESTEC or other advanced electronics programs at ISU. EITC is also pursuing an agreement with the University of Idaho that would allow students in the EITC Radiation Safety Technician and other technical programs to transfer directly to the university so they could complete a Bachelor's degree. Another joint agreement is being developed with BYU-I that would allow students from BYU-I to attend classes at EITC during their "off cycle" and transfer those classes directly to their BYU-I program as technical credits.

North Idaho College Annual Report -- Board Policy III.Z.8

North Idaho College (NIC) is a comprehensive community college committed to its mission of student success, teaching excellence, and lifelong learning. The college satisfies the mission through its four primary functions of transfer classes and programs, professional technical programs, community enrichment, and workforce training.

NIC successfully reached its 2008-2009 goals through increased capacity in several professional technical programs (including Welding, Diesel and Automotive). The year also saw the development of the first partnership between the Idaho POST (Peace Officer Standards and Training) Council and an Idaho college. In July, 2009, NIC celebrated the first Idaho POST Patrol Academy conducted on college campus grounds. The POST collaboration continues with the second class set to graduate in November.

Other 2008-2009 accomplishments include the development and approval of Fire Science Technology, and Interdisciplinary Studies degrees and changes to our Machine Technology and Outdoor Leadership certificates.

In 2009-2010, North Idaho College will continue to find ways to increase our capacity to serve students. With an approximate fifteen per cent increase in enrollment in Fall 2009, the college made significant adjustments in several disciplines, including Computer Information Technology (CITE) and Computer Applications and Office Technology (CAOT). The CITE program doubled its enrollment capacity through inventive scheduling and the CAOT program developed a flexible learning center that allows open entry and open exit enrollment.

Based on strong feedback from the community and region, NIC hopes to develop and submit for approval a Physical Therapist Assistant program. This program would be unique in that NIC could work with CSI and CWI to form a partnership and one program for accreditation purposes.

NIC enjoys several partnership activities and memorandums of understanding with local agencies, the University of Idaho and Lewis-Clark State College. Several MOU agreements are in place to assure clinical experiences for our Nursing and Radiography programs.

SUBJECT

Second Reading, Proposed Amendment to Board Policy III.W. Higher Education Research

REFERENCE

August 19, 2009

The Board approved the First Reading of Section III.W. with the inclusion of EPSCoR.

BACKGROUND/DISCUSSION

Experimental Program to Stimulate Competitive Research (EPSCoR) in Idaho represents a federal-state partnership designed to enhance the state's science and engineering research, education, and technology capabilities of underrepresented states that traditionally have received smaller amounts of federal Research & Development funds.

In 2006, EPSCoR was relocated to the Office of the Governor from the State Board of Education. On May 12, 2009, Executive Order 2009-09 was issued authorizing the re-establishment of EPSCoR within the State Board of Education. While under the purview of the Governor, the Idaho EPSCoR Committee developed and adopted a mission, vision, and bylaws. With the movement of EPSCoR to the Board, it is necessary to establish policies to govern its operation. Therefore, Board and staff members worked with EPSCoR representatives to include a new section to III.W, which currently covers the role and purpose of the Higher Education Research Council and its programs. The new section to III.W. includes EPSCoR's purpose and role, establishes committee structure, and defines terms of membership and reporting requirements.

Changes from the first reading of this draft policy include minor edits to clarify operating procedures and when additional meetings may be called outside the committee's regular schedule, clarifying the nominating process for candidates, which includes procedures for forwarding qualified candidates to the Board for consideration.

IMPACT

Approval of the amendments to Board policy will allow the Idaho EPSCoR Committee to continue implementing the program and activities.

STAFF COMMENTS AND RECOMMENDATIONS

Board staff recommends approval of the proposed addition to Board Policy III.W. as presented.

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
OCTOBER 15, 2009

BOARD ACTION

A motion to approve the second reading of Board Policy III.W. Higher Education Research as submitted.

Moved by_____ Seconded by_____ Carried Yes_____ No_____

October 2009

W. Higher Education Research

1. Higher Education Research Council

a. Purpose and Coverage

The Higher Education Research Council Policy presents guidelines to Boise State University, Idaho State University, Lewis-Clark State College and the University of Idaho on the most effective use of the limited resources of the State of Idaho, provided by the Legislature as a line item for research and overseen by the Higher Education Research Council, in promoting research activities that will have the greatest beneficial effect on the quality of education and the economy of the State. The implementation of this policy will be the duty and responsibility of the Board's Higher Education Research Council (HERC).

b. The Role of Research in Higher Education

Research is the creative search for and application of new knowledge.

i. Philosophical Statements and Guiding Principles

Public awareness of the significant role science, technology and other research play in our world has also been accompanied by an enhanced demand for the scrutiny of publicly funded research, accountability, and attention to the management of ethical, legal, and safety issues associated with academic research. A demonstrable return on the state's investment requires the development of a statewide strategic plan for science and technology that will assist in the identification of general research areas that will enhance the economy of Idaho via partnering between academia, industry and/or government. HERC will facilitate this partnering and interaction among business, industry and the public sector with science, engineering and other research faculty. To this end, HERC will be an active participant in the development, implementation and monitoring of the statewide strategic plan for science and technology.

This policy is designed to assist the public baccalaureate and post-baccalaureate institutions in addressing these areas via appropriate research activities through:

- (1) individual and multi-disciplinary research projects;
- (2) extensive and rapid dissemination of the new knowledge and establishment of knowledge networks which would facilitate public, private and academic institution interaction; and
- (3) collaborative relationships between academia and varied shareholders outside the academy.

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES

ATTACHMENT 1

SECTION: III. POSTSECONDARY AFFAIRS

SUBSECTION: W. Higher Education Research

October 2009

The guiding principles are:

- (1) to maximize impact on the quality of education and economic development as a consequence of Idaho's investment in quality science, engineering and other research.
- (2) to ensure accountability for the state's investment via demonstrable results.

ii. Support of research activities with public funds is important because:

- (1) Research is important in the education of students at all levels.

At the graduate level, students master current knowledge and produce new knowledge. The higher the quality of research and scholarly or creative activity in which the student is involved, the higher quality of his/her education. In addition, the education of undergraduates is enhanced through their participation in research.

- (2) Research plays an important role in maintaining and enhancing faculty quality.

Active participation in research by faculty prevents obsolescence. The saying that "research informs instruction" is meritorious. Research ensures that faculty stay abreast of current developments in their field. While faculty currency and vitality is important at all three degree levels, it is absolutely essential for those educating graduate students.

Effective training of future researchers at our universities and colleges requires faculty who are dedicated to teaching. In addition, because of the rapid generation of new knowledge, departments must have active research programs in order to teach students the latest scientific innovations and in order for university investigators to seriously compete for local, industrial and federally sponsored grants.

- (3) Academic research contributes to economic development.

Economic development interests are most directly served by attention to applied research which itself is based on the results of basic research. Academic institutions traditionally provide assistance in solving problems as well as in developing new knowledge. It is important that all academic institutions, particularly Ph.D. granting institutions, continue to serve these functions.

iii. The Board desires to increase the quality and quantity of research and to encourage continued public support of research in Idaho through application of the following principles:

- (1) The quality and quantity of academic research produced is extremely dependent upon the research infrastructure.

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES

ATTACHMENT 1

SECTION: III. POSTSECONDARY AFFAIRS

SUBSECTION: W. Higher Education Research

October 2009

(2) Faculty at Idaho's baccalaureate and post-baccalaureate institutions will be eligible to compete for research funds.

iv. The development and implementation of a statewide strategic plan for science and technology is a vehicle for identification of research objectives and areas

c. Specific funding programs to strengthen research in Idaho

The Board recognizes that talent exists on all of the campuses and the importance of permitting competition for research support and initiation funds. Therefore, the Board will use the following criteria in allocating funds for research activities under this policy at the various institutions.

Additionally, any condition set forth in the legislative appropriation for these research programs must be demonstrably met by the programs and/or projects that are to receive the appropriation.

i. Infrastructure

A portion of the competitive research funding should be distributed to the state's baccalaureate and post-baccalaureate institutions to support their science, engineering and other research infrastructure. Distribution of these funds will be made according to percentages approved by the Higher Education Research Council. These funds should be reserved for library support essential to research, graduate research assistantships, post doctoral fellows, technician support, maintenance contracts, research equipment, competitively awarded summer research support, start up funds for new hires, and incentives to reward faculty for their research achievements.

ii. Specific Research Funding

Faculty members at the state's baccalaureate and post-baccalaureate institutions will have an opportunity to submit research project proposals for review under this program.

(1) All projects under this program must demonstrate economic benefit or cost savings for the State.

(2) A major focus under this program should be start up and seed funds that will assist a principal investigator in competing for external funding.

(3) Collaborative research projects are encouraged.

Guidelines for this program will be established by the Higher Education Research Council, will incorporate an out-of-state peer review, and will include an evaluation component for commercial applicability for the benefit of the State.

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES

ATTACHMENT 1

SECTION: III. POSTSECONDARY AFFAIRS
SUBSECTION: W. Higher Education Research

October 2009

iii. Research Centers

Many important advances can only be made with the establishment of focused research centers. Centers typically involve at least three faculty members in conjunction with the necessary research equipment and support personnel. The funds needed to establish centers of this type are large and, in all probability, no more than one such center per year should be established in Idaho. Minimal state funding of \$250,000 per center per year for at least three years is essential to enable centers to become nationally competitive. This is clearly a minimal amount, which should be supplemented by non-state matching funds. Multiple year funding is essential for the establishment of these centers.

iv. State Matching Awards

Under this program state funds would be available to match those awarded by non-state sources by using an external peer review process.

Examples of matching entities for the state matching funds would be:

- (1) Federal Agencies
- (2) EPSCoR projects e.g., National Science Foundation, National Institute of Health, Department of Energy, National Aeronautics and Space Administration, etc.
- (3) Foundations e.g., Murdoc, Northwest Area, Robert Wood Johnson Grants, etc.
- (4) Business and Industry
- (5) Other

v. Post-Award Accountability

Any project receiving funding through any of the previously described Board sponsored programs will be required to report on its productivity with respect to such items as:

- (1) number of students involved;
- (2) number of faculty involved;
- (3) external funding earned as a result;
- (4) publications in refereed journals;
- (5) presentations at professional meetings and conferences;
- (6) patents awarded or pending;
- (7) economic benefits; or
- (8) problem resolution.

Reporting procedures will be established and administered through the Higher Education Research Council.

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES

ATTACHMENT 1

SECTION: III. POSTSECONDARY AFFAIRS
SUBSECTION: W. Higher Education Research

October 2009

d. State Research Council

In order to advise the Idaho State Board of Education on the implementation of the above strategies, an Idaho Higher Education Research Council, which reports to the Board through the Instruction, Research and Student Affairs Committee, shall be appointed by the Board. The assigned responsibilities of the Higher Education Research Council will include the following:

- (1) determine and distribute to all interested parties the guidelines for submission of proposals under the competitive programs;
- (2) organize the review procedures for proposals submitted under the guidelines mandated and recommend to the Board which of these proposals should be funded;
- (3) recommend ways in which cooperative inter-institutional graduate and research programs can be encouraged, developed, and sustained; and
- (4) monitor the productivity of each funded project to warrant continued funding and to provide accountability.

The membership of this Council shall consist of Presidents from each of the state's universities and the four-year college (University of Idaho; Idaho State University; Boise State University; Lewis-Clark State College), four non-institutional representatives selected from the general public who are committed to research, and a representative from the Office of Science and Technology. The State Board of Education shall appoint the four non-institutional representatives and a representative from the Office of Science and Technology who shall serve as an ex officio member with voting privileges. The chairman of the committee will be elected by the Council annually. Term length for the non-institutional members is three years.

2. Experimental Program to Stimulate Competitive Research (EPSCoR)

a. Overview

The Experimental Program to Stimulate Competitive Research (EPSCoR) represents a federal-state partnership to enhance the science and engineering research, education, and technology capabilities of states that traditionally have received smaller amounts of federal research and development funds. As a participating state, Idaho EPSCoR shall be subject to federal program requirements and policy established by the Idaho State Board of Education (Board). The purpose of EPSCoR is to build a high-quality, academic research base to advance science, technology, engineering and mathematics (STEM) to stimulate sustainable improvements in research and development capacity and competitiveness.

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES

ATTACHMENT 1

SECTION: III. POSTSECONDARY AFFAIRS
SUBSECTION: W. Higher Education Research

October 2009

b. EPSCoR Mission

Idaho EPSCoR's mission shall be to stimulate systematic and sustainable improvements in Idaho's academic science, technology, engineering and mathematics (STEM) research capabilities for the purpose of establishing nationally prominent research competitiveness in selected areas eligible for support by the National Science Foundation and other federal and private sponsors. It is expected that EPSCoR investments shall harmonize with the research interests of Idaho's public universities, the State of Idaho, and Idaho's industries. The University of Idaho, Idaho State University, and Boise State University are Idaho EPSCoR partner institutions.

c. Idaho EPSCoR Committee

Idaho EPSCoR shall be guided by a committee appointed by the Board.

i. Duties and Responsibilities

The Idaho EPSCoR Committee shall serve under the direction of the Board and shall oversee the implementation of the Idaho EPSCoR program and office. The Idaho EPSCoR Committee is responsible for the selection and progress of EPSCoR projects funded by various federal agencies, in accordance with agency-specific guidelines. The committee shall establish policies and procedures to ensure that EPSCoR program goals and objectives are met. These policies and procedures shall be brought to the Board for approval. The committee will carry out the following EPSCoR objectives:

- (1) To catalyze key research themes and related activities within and among EPSCoR jurisdictions that empower knowledge generation, dissemination and application;
- (2) To activate effective jurisdictional and regional collaborations among academic, government and private sector stakeholders that advance scientific research, promote innovation and provide multiple societal benefits;
- (3) To broaden participation in science and engineering by institutions, organizations and people within and among EPSCoR jurisdictions; and
- (4) To use EPSCoR for development, implementation and evaluation of future programmatic experiments that motivate positive change and progression.

ii. Operating Procedures

The committee will meet in person annually, and more often by teleconference to fulfill its duties. ~~The chair of the Idaho EPSCoR committee may call additional meetings as necessary.~~ Additional meetings may be called by the chair or by request of three (3) or more committee members. The chair will appoint subcommittees as

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES

ATTACHMENT 1

SECTION: **III. POSTSECONDARY AFFAIRS**

SUBSECTION: **W. Higher Education Research**

October 2009

~~needed and delegate certain responsibilities to the project director. The appointments are subject to review of the entire committee.~~ On a regular basis, the committee shall monitor the activities of the project director and provide direction as necessary.

The project director, under the direction of the chair, prepares the agenda, schedules each meeting of the committee and maintains a written record of the committee's activities.

iii. Membership

Committee membership shall be constituted to provide for geographic, academic, business and state governmental representation. The committee shall consist of sixteen (16) members with voting privileges, composed of the following:

- The Vice President for Research or Chief Research Officer at the University of Idaho, Idaho State University, and Boise State University;
- One member from each chamber of the Idaho state legislature;
- One representative from Idaho National Laboratory;
- One representative from the Idaho Department of Commerce – such individual shall be focused on economic development;
- The remainder shall be representatives of the private sector who have a stake in developing the state's research infrastructure or who have experience in innovation and entrepreneurial activities, applied research and development, management and finance, or community economic development.

In addition, one representative of the Governor's office and one member of the Board shall serve on the committee as ex officio members without voting rights.

iv. Nominating Process

The Idaho EPSCoR Committee will nominate candidates for committee membership for consideration by the Board. The list of candidates must be forwarded to the Board for consideration not less than ~~420~~ 60 days prior to expiration of the term of committee member, or within 30 days after any vacancy.

(1) Incumbent Reappointment

In the event that the incumbent candidate is interested in reappointment and is eligible to continue serving, the nominating committee shall forward a recommendation to the Board, along with a letter of interest and statement of qualifications for the incumbent. The Board may choose to reappoint the incumbent without soliciting other candidates, thus completing the

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES

ATTACHMENT 1

SECTION: III. POSTSECONDARY AFFAIRS

SUBSECTION: W. Higher Education Research

October 2009

appointment procedures. If there is no incumbent seeking reappointment, or if the Board chooses not to reappoint an incumbent, the procedures are as outlined in item (2).

(2) Open Appointment

(a) The EPSCoR committee on behalf of the Board will advertise the vacancy in appropriate state, regional or local publications. Such advertisements will solicit interested persons to apply for the vacant position on the Idaho EPSCoR Committee. Board staff will also solicit nominations from the EPSCoR committee.

(b) Each applicant must provide a written statement expressing his or her interest in becoming a member of the committee. Each applicant must also provide evidence of his or her qualifications, and must identify his or her primary residence.

(c) The EPSCoR committee will review all applications for the vacant position and conduct interviews as deemed necessary. The purpose of this review is to identify the most qualified candidates for Board consideration.

(d) The EPSCoR committee will forward the qualified candidates, in order of preference, to the Board for consideration. The Board may provide for interviews of the candidates, ~~or may make the appointments based on the recommendation of the EPSCoR committee if needed.~~

v. Terms of Membership

Committee members shall serve five-year terms. An incumbent member may be nominated by the committee for re-appointment by the Board, but no member may serve more than three (3) consecutive terms. All terms, regardless of length, shall begin on July 1st and end on June 30th of the year(s) beginning or ending said term.

Appointments will be staggered to ensure that no more than one-third (1/3) of the appointments will become vacant in any given year. An appointee who has reached the end of his or her term shall remain in service as a committee member until reappointment, or until the appointment of a new member is named and approved by the Board. Officers will be nominated and elected by a vote of the committee.

d. Reporting

October 2009

The committee shall prepare an annual report to the Board that details all projects by federal agency source, including reports of project progress from associated external Project Advisory Board (PAB) .

e. Idaho EPSCoR Office

Within guidelines specified by NSF and this policy, the EPSCoR committee shall determine and select an Idaho EPSCoR partner institution to serve as the lead institution which will house the project director for purposes of administering Idaho EPSCoR and providing support and resources to the Idaho EPSCoR Committee.

f. Idaho EPSCoR Project Leadership

The project director and any associate project directors are selected by and serve under the direction of the Idaho EPSCoR Committee.

The project director shall be a tenured faculty member of an Idaho EPSCoR partner institution whose qualifications must include: a successful research track record (grants and professional publications) in science or engineering, experience in research management and academic administration, and a successful record of dealing with various segments of academic institutions, government, industry, and the public.
