# Data Management Council

Update
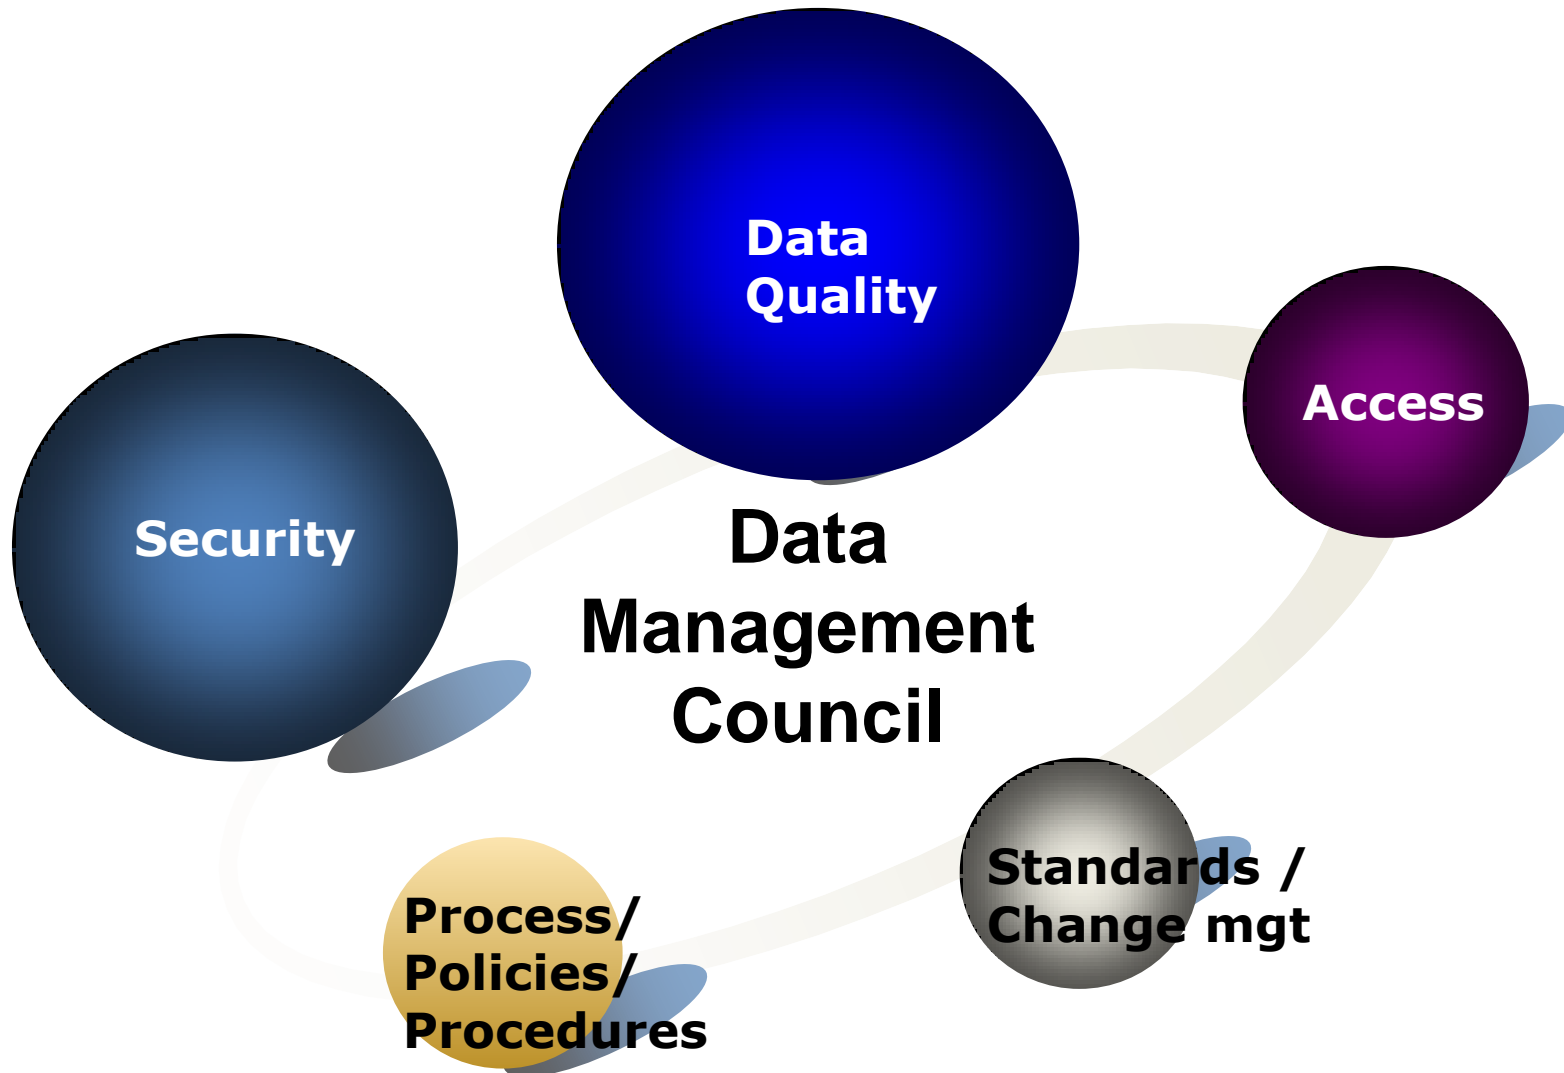

12/13/12

Data Management Council

Data Management Council

- Oversee the creation, development, maintenance and usage of the P-20 to Workforce Statewide Longitudinal Data System

- Meets monthly via teleconference and Blackboard.

- Meets once or twice a year for intensive sessions

Purpose

Data Management Council - role

- Utilize their vast experience and expertise to oversee the resources and activities supporting all SLDS phases, and coordinate with other data systems

- Ensure common vision, avoid duplication of effort, leverage expertise, and resources to their full potential to provide useable data to decision makers.

Data Management Council - accomplishments

- SLDS Document Creation and Posting Instructions
  - Confidentiality and Non-Disclosure
  - Bylaws
  - Data Security & Access policy, etc.
- EDUID enhancement project #1 completed
- Data Quality requirements
- Research Request Website design review
- Input into development of IRB
- EDUID enhancement project #2 draft

  - Eduid improvement plan
  - Research Request Website oversight

Issues involving the DMC

- Data Quality
  - EDUID – matching
  - Data Collection
- Historical data
- Security
- Data use

Data Management Council

- Next Steps:
  - **<u>Get Into the Data</u>**!
    - How do we use it? (and let people know we have it)
    - How do we ensure reasonable accuracy?
    - Continuing review of security measures.
    - How do we optimize the collection

  - Thanks for all the effort to date!
