AGENCIES AND INSTITUTIONS OF THE STATE BOARD

SUBJECT
FY 2016 Line Item Budget Requests

REFERENCE
April 2014 Board approved guidance to the college and universities regarding submission of line item budget requests

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.B.1. Title 67, Chapter 35, Idaho Code

BACKGROUND/ DISCUSSION
As discussed at its April 2014 Board meeting, the Board approved line item categories and will review line items at the June 2014 meeting. Subsequently, the Board will approve the final budget request at the August 2014 meeting. Following Board approval in August, the budget requests will be submitted to the Legislative Services Office (LSO) and Division of Financial Management (DFM) by September 2, 2014.

The line items represent the unique needs of the institutions and agencies and statewide needs. The line items are prioritized by the Board for the institutions, following review.

The following line item guidelines were provided for the college and universities in no order of priority:

System wide
1. Complete College Idaho
2. Deferred Maintenance
3. Financial Aid (merit and need based)
4. One-time funding for philanthropic matching program

Institution-level
1. Salary Competitiveness
2. Institution-specific Initiatives (up to two).

Subsequently, staff determined that Occupancy Costs would not count as one of the two institution specific initiatives. The information included in the final budget request must include supporting documentation sufficient enough to enable the Board, LSO and DFM to make an informed decision.

The line items are summarized separately, one summary for the college and universities and one for the community colleges and agencies. The detail
information for each line item request is included on the page referenced on the summary report.

IMPACT
Once the Board has provided guidance on priority, category, dollar limit, etc., Board staff will work with the Business Affairs and Human Resources (BAHR) Committee, DFM and the agencies/institutions to prepare line items to be approved at the August meeting.

Occupancy Costs ............................................................................. Page 6
Individual Line Items......................................................................... Page 7

STAFF COMMENTS AND RECOMMENDATIONS
The Board’s guidance in reviewing and accepting the line items will enable the institutions and agencies to prepare their FY 2016 budgets requests with the proper amount of analysis and oversight.

Staff and the institutions will work with the BAHR committee in further reviewing line items in detail, developing the four Systemwide initiatives, and bring forward recommendations to the August Board meeting.

All four 4-year and three 2-year institutions are requesting funding to address the Complete College Idaho (CCI). There are a number of other significant initiatives the agencies and institutions are proposing, and request associated funding. Representatives from the agencies and institutions will be available to answer specific questions.

BOARD ACTION
I move to accept the FY 2016 line items as listed on the Line Items Summary at Tab 3 pages 3-4.

Moved by ________   Seconded by ________    Carried Yes _____  No _____

* Leased space on Capitol Mall

(1) FTE for the first 13,000 gross square footage and in 13,000 GSF increments thereafter, .5 Custodial FTE will be provided.

(2) Salary for custodians will be 80% of Policy for pay grade "E" as prepared by the Division of Human Resources.

(3) Annual utility costs will be projected at $1.75 per sq ft.

(4) Building maintenance funds will be based on 1.5% of the construction cost (excluding architectural/engineering fees, site work, movable equipment, etc.) for new buildings or 1.5% of the replacement value for existing buildings.

(5) Benefit rates as stated in the annual Budget Development Manual; workers comp rates reflect institution's rate for custodial category.

The Board-approved Complete College Idaho plan is comprised of five key strategies. Within each of the key strategy are specific initiatives which are in various stages of development and deployment.

1. Strengthen pipeline
   a. Ensure college and career readiness
   b. Develop intentional advising that links education with careers
   c. Support accelerated secondary to postsecondary and career pathways

2. Transform remediation
   a. Implement college and career readiness education and assessments
   b. Develop a statewide model for transformation of remedial placement/support
   c. Provide three model options: co-requisite, emporium, accelerated

3. Structure for success
   a. Strong, clear, and guaranteed statewide articulation and transfer options
b. Default program, curriculum options
  c. Package certificates and degree programs for accelerated completion
  d. Adult reintegration/near completers
  e. Cost effective delivery option for students in Eastern Idaho
  f. Early warning system
4. Reward progress and completion
   a. Establish metrics and accountability tied to institutional mission
   b. Recognize and reward performance
   c. Redesign the State’s current offerings of postsecondary financial aid
5. Leverage partnerships
   a. Strengthen collaborations between education and business
   b. College Access Network
   c. STEM education

The line items addressing the CCI strategies and initiatives are as follows:

Supports institution/agency and Board strategic plans:

Goal _____________ [e.g. Goal 1, Objective 3]

Performance Measure:__________________

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

This request identifies needs associated with ensuring the success of the State Board of Education 60% goal. The key strategies include increasing capacity in degree programs with high student demand, remove existing barriers to degree progression and graduation, increase course offerings at night and on the week-
ends, add faculty lines to significantly increase course sections per year, and to reduce reliance on part-time adjunct faculty.

2. What resources are necessary to implement this request:

This request is for funds to hire 27 new tenure track faculty line, convert 36 current part-time adjunct positions to full-time lecturer positions, hire 5 academic advisors and to hire 14 academic support staff. Knowing that Boise State University needs to produce approximately 3,400 Baccalaureates in 2020 to meet the State Board of Education’s 60% goal, a strong emphasis must continue to significantly improve graduation rates and retention rates. In addition, enrollments in general must increase. This requires new faculty to grow the capacity and reduce scheduling conflicts that are impeding students’ progress. Boise State University has been converting adjunct lines to lecturer positions over the past few years, and needs to continue to do so. This requires additional funding for part of the salary costs, although the biggest cost is the health benefits that permanent employees receive. The heavy reliance on adjunct faculty to teach lower division courses is no longer the workable low-cost solution it once was. Student enrollment continues to transition to higher enrollments in the upper division classes and less in the lower division classes. Tenure tract faculty are required to teach upper division courses. The resources requested for this line item are for salary and benefit related costs. Five new professional advisors are requested to increase students’ access to advisors and to help with course scheduling. There is a high correlation to student success and graduation rates when proactive advising is used, and improving graduation rates is a key strategy. Fourteen academic staff additions would increase cost efficiency in academic departments. Currently department chairs perform several tasks better suited for staff. This funding would allow academic chairs the necessary time to devote to student recruitment, advising, faculty development and program and curricular assessments, design and upgrades.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumptions: new customer base, fee structure changes, ongoing anticipated grants, etc.

This request is for state General Funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The success of this initiative will serve Idaho residents and is intended to create a better educated population that will enhance the economy and standard of living for Idahoans.
5. If this is a high priority item, list reasons non-appropriated Line Items from the FY2015 budget request are not prioritized first.

This request was included in the FY 2015 request. The total request was for 102 positions for a total of $6.9M. The Legislature appropriated $1.379M. Some funding from increased student tuition and fee revenues have been devoted to the initiative, although there remains a large unfunded need.
Supports institution/Agency and Board Strategic Plans:
The proposed programs support key strategies identified in the State Board of Education and Idaho State University strategic plans. In particular the bridge programs will significantly advance those strategies associated with Complete College Idaho and the Board’s 60% goal by transforming remediation and creating a bridge to college for underprepared students.

ISU Goal 2: ACCESS AND OPPORTUNITY – provides opportunities for students with a broad range of educational preparation and backgrounds to enter the university and climb the curricular ladder so that they may reach their intellectual potential and achieve their goals and objectives.
ISU Goal 4: COMMUNITY ENGAGEMENT AND IMPACT – Idaho State University, including its outreach campuses and centers, is an integral component of the local communities, the State and the intermountain region. It benefits the economic health, business development, environment, and culture in the communities it serves.

SBOE Goal 1: Set policy and advocate for increasing access for individuals of all ages, abilities, and economic means to Idaho’s P-20 education system.

SBOE Goal 2: Increase the educational attainment of all Idahoans through participation and retention in Idaho’s educational system.

SBOE Goal 4: Improve the ability of the educational system to meet the educational needs and allow students to efficiently and effectively transition into the workplace.

Complete College Idaho:
- Transform remediation by developing strategies and goals to improve remediation and general education delivery.

Performance Measure:
The following are ISU’s performance measures linked to Transforming Remediation and General Education:
Increase bridge program participation by 5%; increase bridge program courses by 3%; increase the number of internship opportunities by 5%; increase workforce placement of Business graduates by 3%; increase the number of general education online courses by 5% per year; establish a campus-wide testing center to support online programming; increase the percentage of first-time full-time freshmen advancing to second year; establish a peer monitoring program for students who have not declared majors; increase tutoring and other services for Native American students.

Description:

Transforming Remediation at Idaho State University

1. Remediation Transformation
- Idaho State University will hire a Remedial Specialist who will provide training to Mathematics, English, and Academic Skills instructors in order to create new Co-Requisite and Emporium Model courses. In particular, this will expand ISU’s implementation of data-driven best practices as identified by Complete College America through the use of the Co-Requisite Model within English and mathematics “plus” courses and the Emporium Model for targeted at-risk students. An Emporium (computer) Center will be created and staffed by undergraduate and graduate students and adjunct instructors.
  - Costs: Salary, $57,000 Benefits, $22,270, Group Position Funding, $400,000; Benefits, $92,000; PCs/workstations (desks, chairs, network connections, etc.), $767,400
    - TOTAL: $1,338,670
2. Bridge Programs

- Idaho State University will institute targeted Bridge Programs that will address specific developmental needs for special populations, including STEM, Native American and other populations.

- Each year Idaho State University enrolls approximately 360 first-time full-time freshmen who are underprepared or in need of remediation. These students are often first-generation college students and underrepresented minorities. A summer bridge program will provide these at-risk students a jumpstart on the academic year by allowing them to complete key courses while learning more about the university. The ultimate goal is to increase retention through better preparation.

- This past summer (2013), the University piloted a bridge program that involved a cohort of 30 students completing three academic courses: a remedial course (e.g. basic writing or basic math); a general education course (e.g. Psychology); and a university orientation course (providing resource information in areas like financial aid, advising, and college learning strategies). The average cumulative GPA for the program was 3.39 and 24 (80%) enrolled in the Fall 2013 semester.

- This same general format, with the inclusion of Co-Requisite Model courses, will be used for an expanded summer bridge program accommodating approximately 200 students. Students would be grouped in common interest cohorts of 25 with each cohort taking up to three academic courses during summer term. Students would choose from a variety of general education courses thereby having the opportunity to explore an area of study that might interest and engage them. The university orientation course provides critical support for students by offering college learning strategies and other key tools that can be applied concurrently to their general education course. The remaining Co-Requisite course in either mathematics or English would prepare these students for greater success in future courses in their academic careers.

- The expanded summer bridge program would require a director to manage the operation of the program, including recruitment, advising, data collection and analysis.

- Additional targeted bridge programs will be implemented for students in STEM disciplines and underserved and at-risk populations. The College of Science and Engineering will implement its cohort program for pre-med and engineering students.

- The College of Technology is currently offering the START (Successful Transitions and Retention Track) bridge program to recruit, prepare, and retain GED graduates in post-secondary education. This program has been funded through a pilot grant from the Albertsons Foundation Continuous Enrollment initiative. The START bridge program has been notably successful in retaining this important target population, with a 67.4% overall persistence rate for adult learners transitioning into post-secondary education. The semester to semester persistence rate of the START bridge program is 83.1% from 1st to 2nd semester, 86.7% from...
2nd to 3rd semester, and 62% from 3rd to 4th semester. The national rate for GED persistence in post-secondary education is between 13% to 19%.

- The request includes funding for a director, adjunct faculty supplemental instruction, and tutors, as well as supporting operational costs including travel to Shoshone-Bannock High School and surrounding rural areas.
  - Costs: Salaries, $57,000; Benefits, $22,270; Group Position Funding (adjunct faculty and tutors), $390,400; Benefits, $89,790; Travel, $12,000; Materials and Supplies, $57,200
  - TOTAL: $628,660

**Instituting LEAP and Transforming General Education at Idaho State University**

1. Testing Center for Online Delivery and Online Security (IT needs)
   - Idaho State University will establish a testing center on campus to support online and traditional instruction. This would help address issues of course integrity and academic dishonesty in online offerings and allow testing for face-to-face classes, make-up exams, and similar uses.
     - Costs: Group Position Funding (staff and students) $100,000; Benefits, $23,000; PCs/workstations (desks, chairs, network connections, etc.), $767,400.
     - TOTAL: $890,400

2. General Education Specialist
   - Idaho State University will hire a General Education Specialist to support full implementation of AAC&U's LEAP initiative. This initiative embraces a 21st-Century definition of education, which includes essential learning outcomes, high-impact educational practices, authentic assessments, and inclusive excellence. Implementation will include training, travel, and stipends for faculty.
     - Costs: Salary $57,000; Benefits, $22,270; Group Position Funding, $200,000; Benefits, $46,000; Travel, $20,000; Materials and Supplies, $48,000
     - TOTAL: $393,270

**GRAND TOTAL: $3,251,000**
Supports institution/agency and Board strategic plans:

Goal 1: A Well Educated Citizenry, Objective A: Access-Set policy and advocate for increasing access for individuals for all ages, abilities, and economic means to Idaho’s P-20 education system.

eISU and online classes are increasingly important for reaching students in geographically disparate regions. Increased online access is critical for reaching the SBOE’s 60% goal.
Goal 2: Critical Thinking and Innovation, Objective B: Quality Instruction-increase student performance through the development, recruitment, and retention of a diverse and highly qualified workforce of teachers, faculty, and staff.

Technology upgrades are essential for the online instructional faculty to increase and retain the numbers of students in online classes.

Goal 3: Effective and Efficient Delivery Systems, Objective A: Cost effective and Fiscally Prudent-increased productivity and cost-effectiveness.

eISU and online classes can be a more cost effective option for students and for the university with the appropriate technology and with the appropriate instructional design.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
   - One Instructional Designer per college (six)
   - Clinical Instruction Designer/Coordinator
   - Cloud-based solution for online Intrusive Advising & Predictive Analytics
   - Functional Technical Support for online advising module
   - Training workshops & stipends for faculty
   - Technology upgrades for online Instructional Faculty

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      - Six Instructional Designers, base salary $55,000 plus fringe
      - Clinical Instructional Designer/Coordinator, base salary $65,000 plus fringe
      - Functional Technical Support for online advising module, base salary $55,000 plus fringe
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
   c. List any additional operating funds and capital items needed.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   One-time expenses: Cloud based solution for online Intrusive Advising & Predictive Analytic module- $250,000

   Ongoing expenses: Salary for eight new positions-$445,000 plus fringe, yearly maintenance cost for online advising module-$40,000, technology upgrades for online instructional faculty- $300,000
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:
ISU’s mission, as set by the SBOE, states that the campus is to provide “technical, undergraduate, graduate, and professional education.” In order to meet this mandate, ISU has to maintain and grow graduate student enrollment.

Graduate students and the research and discovery they conduct, are key components of the campus’ classification as a Carnegie Research University High institution. Most Colleges and academic departments have graduate students under tutelage, or participate in graduate education. The Graduate School is essential for these activities to continue and for most such programs to retain their accreditation, and is the chief advocate in securing an ever-increasing number of Graduate Teaching Assistantships, which is considered to be the major contributing factor towards attaining both ISU’s and the SBOE’s Goals and Objectives, and our own internal Benchmarks (see below).
Graduate education overseen by the Graduate School is a key component of the campus’ mission. The Graduate School promotes and supports excellence in graduate education. In realizing this mission, the Graduate School acts to recruit, support, retain and matriculate graduate students as scholars, researchers and practitioners educationally empowered as critical thinking citizens and agents of innovation, opportunity and change. At the same time, graduate students teach undergraduates in classrooms and labs, and provide the mentoring and encouragement needed for undergraduates to be retained and graduate.

Pertinent to this Line Item request is the urgent need to increase the number of available Graduate Teaching Assistantship positions, both at the Master’s and at the Doctoral level to accomplish the ambitious, but realistic goals and timeline for achievement detailed in the narrative below.

**ISU Core Themes:**
The first core theme of Learning and Discovery is the *sine qua non* of graduate education. Further, ISU core themes 3 and 4 (Leadership in the Health Sciences, and Community Engagement and Impact) are both dependent on access to graduate education, which in turn, is dependent on a robust pool of support for graduate student enrollment in the form of Graduate Teaching Assistantships – leadership in any field can only be achieved by discovery of new knowledge – an inherent part of graduate (especially at the doctoral level) education. Impact on the community can be best seen by entrepreneurship and development of highly technological new discoveries, typically the domain of education at the highest level and exemplary of the driving force behind emerging and highly successful state and national economies in the 21st century.

**Strategic Plan:**
The Graduate School, through its support and administration of graduate education, features explicitly in several key goals and objectives contained in ISU’s Strategic Plan (and therefore congruent with the relevant SBOE Goals and Objectives) (listed below and underlined or **bolded**, respectively):

**Objective 1.3** Undergraduate and **graduate** students participate in undergraduate teaching. (**Consistent with SBOE Objectives 2B, 2C, 3A**)

**Performance Measures**
1.3.1 Number of graduate assistantships and fellowships with teaching responsibilities.
1.3.2 Number of students employed as English, math, and content area tutors.

**Benchmark:** Increase number of opportunities for students to participate in undergraduate teaching by 5 percent over the next five years. **Note:** Accomplishing this Benchmark is only possible with a commensurate increase in available Graduate Teaching Assistantship positions for ISU’s graduate programs.

**Objective 1.4** Undergraduate and **graduate** students engage in research and creative/scholarly activity. (**Consistent with SBOE Objective 2B**)
Performance Measures
1.4.1 Number of students who have participated in research with a faculty member.
1.4.2 Number of students who have participated in ISU’s research symposia.

Benchmark: Increase the number of students participating in research and creative/scholarly activity by 3 percent per year. Note: Similarly, accomplishing this Benchmark is only possible with a commensurate increase in available Graduate Teaching Assistantship positions for ISU’s graduate programs.

Goal 3: Leadership in the Health Sciences – Idaho State University values its established leadership in the health sciences with primary emphasis in the health professions and offers a broad spectrum of undergraduate, graduate, and postgraduate training. ISU delivers health-related services and patient care throughout the State in its clinics and postgraduate residency training sites and is committed to meeting the health professions workforce needs in Idaho. ISU supports professional development, continuing education, and TeleHealth services, and is active in Health Sciences research.

Objective 3.1 A broad array of health professions certificate and degree programs are offered, many statewide. (Consistent with SBOE Objective 1D)

Performance Measures
3.1.1 Number of certificate and degree programs offered, and number of students enrolled, in ISU’s health professions programs.
3.1.2 Percent of graduates of ISU health professions programs who obtain employment in Idaho.
3.1.3 Pass rates on clinical licensure and certification exams in the Health Professions. Benchmark: Strong enrollment, retention, and graduation rates will be maintained in ISU’s health professions programs.

Objective 3.3 ISU faculty and students engage in basic, translational, and clinical research in the health sciences. (Consistent with SBOE Objectives 2A, 2B)

Performance Measures
3.3.1 Number of faculty actively engaged in research in the health and biomedical sciences.
3.3.2 External funding received for health-related and biomedical research.
3.3.3 Number of students participating in clinical research as part of their degree program. Benchmark: Funding to support faculty and student research activity in the health sciences will increase by 3 percent per year. Note: As with the previous Benchmarks (above), accomplishing this Benchmark is only possible with a commensurate increase in available Graduate Teaching Assistantship positions for ISU’s graduate programs.
In addition, Strategic Planning within the Graduate School has identified the following item as an immediate priority:

- Focus on the creation of more funding (e.g., fellowships, assistantships, scholarships) for graduate students.

“...the fact that first-time enrollment trends have not matched the growth in applications may be a sign that many qualified students who wish to attend graduate school are faced with obstacles to enrolling.”

The Graduate School has also internally created the following Mandate:

Increase the number of Graduate Teaching Assistantship (GTA) positions: The number of FUNDED graduate students (i.e. graduate students on stipends supported through the GTA program), is less than 10%. This is below the national norm of peer institutions. With a goal to grow graduate enrollment at ISU to more than 2,000 by 2016, clearly more GTA positions are required university-wide.

Questions:

1. **What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

   Nineteen (19) Master’s level GTA positions are requested, and five (5) Doctoral level GTA positions are requested, in order to expand undergraduate teaching and opportunities for graduate students.

   The individual cost breakdown (stipend + tuition waiver + health insurance) for these positions is as follows:

<table>
<thead>
<tr>
<th>SALARY:</th>
<th>MASTER’S LEVEL</th>
<th>DOCTORAL LEVEL</th>
</tr>
</thead>
<tbody>
<tr>
<td>Per Hr</td>
<td>$16.81</td>
<td>$17.15</td>
</tr>
<tr>
<td>Bi-Weekly</td>
<td>$638.78</td>
<td>$651.70</td>
</tr>
<tr>
<td>TOTAL (20 BI-WEEKLY)</td>
<td>$12,775.60</td>
<td>$13,034.00</td>
</tr>
<tr>
<td>NON-RESIDENT TUITION</td>
<td>$7,472.00</td>
<td>$7,734.00</td>
</tr>
<tr>
<td>WAIVER</td>
<td>$2,028.00</td>
<td>$2,502.00</td>
</tr>
<tr>
<td>HEALTH INSURANCE</td>
<td>$2,275.60</td>
<td>$23,270.00</td>
</tr>
</tbody>
</table>

   Payroll = 20 bi-weekly pay periods @ 38 hours per bi-weekly.

2. **What resources are necessary to implement this request?**
   
   a. **List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**

   All of these positions will be offered to eligible, admitted students (based on the rigorous criteria of the Graduate School and the individual graduate programs, whose admissions criteria might be more, but not less rigorous than those of the Graduate School)

   b. **Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

   No redirection of human resources – the addition if these positions will be folded into the current and well established GRA operations directed by the Graduate
School, the individual programs, and the HR department of the University. Existing operations will not be impacted.

c. **List any additional operating funds and capital items needed.**

None required. In fact, the availability of these additional GTA positions will make both ISU and individual graduate faculty mentors more competitive in attracting significant extramural funding in the form of grants and contracts (also see above).

3. **Please break out fund sources with anticipated expenditures in the financial data matrix.** (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   Not applicable.

4. **Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

Graduate and undergraduate students are served by strengthening ISU’s completion pipeline and by providing undergraduate support by graduate student mentors. If this request is not funded, Idaho, ISU, its faculty and students will be negatively impacted.

5. **If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.**

   A similar earlier Line Item request was only partly funded.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Core Theme One: Learning and Discovery

As a professional school, experiential learning is a cornerstone of the educational process in the College of Business. Having the opportunity to apply the theories and skills taught in the classroom to the problems faced by today’s businesses creates a far more enriching experience and a deeper understanding of those theories and skills than can ever be taught in a classroom alone.
Core Theme Four: Economic and Social Impact

The Bengal Solutions Center offers business consulting services to businesses throughout the region, State, and intermountain region. These consulting services are provided by our students, under the supervision of a faculty mentor. Services include such things as market demand analysis, budget analysis, pro forma business plans, etc. The services these students provide directly impact the economic development of the region, State, and intermountain west.

Performance Measure(s):
Success in the Bengal Solutions program is determined in two ways: first, the impact that the program has made upon the skills, abilities, and confidence of the students who are selected to work in the program; and second, the economic impact and development in the surrounding community that results from the efforts of each project. This student impact is measured using a variety of metrics including a self-assessment of skills before entering and upon leaving the program, the program’s job placement rate, the student’s satisfaction with the program’s ability to give them industry skills and to network the students with the industry professionals related to their chosen field of study.

The economic impact of this program is measured by capturing the effect of each project upon jobs created, jobs saved, additional revenue gained, costs minimized, and additional capital invested. Many projects might not lend themselves to these types of metrics and would be better measured by the customers' perceived value of the overall project benefits.

Description:
The Bengal Solutions Center is a student-staffed center offering business consulting services to businesses in the region, State, and intermountain west. This center provides the unique opportunity for selected graduate-level business students to apply the theories, methods, skills and abilities that they have gained from their graduate classes in a real world scenario. Under the guidance of faculty and staff advisors, Bengal Solutions teams take on in-depth business consulting projects for the benefit of local and regional companies, agencies and non-profit organizations. The program is concentrated upon making it possible for students to focus on gaining relevant industry experience. This is why the students are compensated with a scholarship to cover tuition fees and a stipend to help cover living expenses. As a result, students can prioritize their efforts to gain industry experience and exposure while companies receive the valuable information that they need to make intelligent business decisions.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

    We seek funding to support the Bengal Solutions Center, to include a Director, Administrative Assistant (.33 FTE), ten (10) graduate assistantships, and operating budget.
2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   One (1) Director of Bengal Solutions, non-classified staff, full-time, benefit eligible, hire date 8/18/2014, and on-going.
   One (1) Administrative Assistant (.33 FTE), classified staff, full-time, benefit eligible, hire date 8/18/2014, and on-going.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      None.

   c. List any additional operating funds and capital items needed.

      Approximately $118,552.00 in operating funds needed to cover tuition and insurance for graduate assistantships, marketing, materials, and travel.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Graduate students of the College of Businesses are being served by this request. The expected benefits include the opportunity to apply the theory and skills learned in the classroom to a “real-world” organization. Secondarily, businesses and organizations throughout the region, State, and intermountain west receive business consulting services at little to no cost.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

**Supports institution/agency and Board strategic plans:**

Goal _______________ [e.g. Goal 1, Objective 3]

**Performance Measure:** ________________

**Description:**

An intensive, effective and, sometimes intrusive, academic advising program has been proven to be a positive contributor to student retention and completion of academic degrees in a timely manner. It can also be an effective tool for reassuring both students and their parents – where the students feel “at risk” in taking on higher education away from home – that the institution is looking out for the student’s best academic interests.
in terms of managing new study skills, in time management and in the appropriate course selection for degree progress.

While the University of Idaho was able to maintain full and effective support for our direct instructional functions during the past 5 years of difficult finances, thereby assuring that students could find ready access to the courses they needed for graduation, other key student support areas could not be maintained at or raised to the necessary levels to meet current educational best practices. With the positive effects of our change to a 120 credit hour graduation requirement for most of our programs – positive in the fact that many more students are completing their bachelor’s degree in the traditional four years – there is a need to focus more attention on a fully supportive advising environment that will enable students to make the course selections that are necessary in order to complete their degrees in this shorter time frame.

While the University provides a reasonable and traditional level of student advising at present, the increasing population of students who are enrolling in higher education, without the level of academic preparation of previous populations, has created new demands for more intensive advising services in order to ensure these student’s success. As initiatives like Complete College Idaho successfully reach out to new groups of students who will be First Generation college attendees, and as institutions continue to see a growing number of students who need counseling for psychological issues, a broader support network is needed to help these individuals transition to the rigors of a college education. This proposal would move the University of Idaho toward the levels of student support that are proving to be effective at peer institutions for meeting these student advising challenges.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This request is for 15 full time student advisor positions, with salary, benefits and modest operating budgets for each position. This would enable us to enhance the advising function in each of our colleges as well as strengthen the central advising functions that could address special populations across all academic units.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   c. List any additional operating funds and capital items needed.
3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
AGENCY: Lewis-Clark State College
FUNCTION: General Education
ACTIVITY: Complete College Idaho

Supports institution/agency and Board strategic plans:

Goal 1: A WELL EDUCATED CITIZENRY The educational system will provide opportunities for individual achievement.

Objective B: Higher Level of Educational Attainment – Increase the educational attainment of all Idahoans through participation and retention in Idaho’s educational system.

Performance Measure:
Percentage of new full-time students returning (or graduated) for second year in an Idaho public institution.
Percent of Idahoans (ages 25-34) who have a college degree or certificate requiring on academic year or more of student.  
Postsecondary unduplicated awards (certificate of one academic year or more) as a percentage of total student headcount.

Objective D: Transition – Improve the ability of the educational system to meet educational needs and allow students to efficiently and effectively transition into the workforce.

Performance Measure:  
Percentage of students participating in internships

GOAL 2: CRITICAL THINKING AND INNOVATION The educational system will provide an environment for the development of new ideas, and practical and theoretical knowledge to foster the development of individuals who are entrepreneurial, broadminded, think critically, and are creative.

Objective C: Quality Instruction – Increase student performance through the recruitment and retention of a diverse and highly qualified workforce of teachers, faculty, and staff.

Performance Measure:  
Percentage of first-time students from public institution teacher training programs that pass the Praxis II.

Description:  
The eleven (11) positions and associated support funds sought in this line item request directly support the Academic and Student Affairs tasks, the strategic initiatives of Lewis-Clark State College, and attainment of the State Board of Education’s Complete College Idaho initiative and goals. The funds will be used to recruit and retain highly qualified faculty and staff to support student success.

The mission and goal statement for LCSC calls for the following:

- In accordance with its role and mission statement approved by the State Board of Education, LCSC’s primary emphasis areas are business, criminal justice, nursing, social work, teacher preparation, and professional-technical education.
- The State Board directs LCSC to maintain basic strengths in the liberal arts and sciences, which provide the core (general education) portion of the curriculum.
- Other assigned emphasis areas are the provision of select programs offered on and off campus, at non-traditional times, using non-traditional means of delivery, to serve a diverse student body.
Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
   Six faculty positions and five student support positions to directly impact student learning and retention at LCSC are requested. The funds will be used to recruit and retain highly qualified faculty and staff to support student success.
   The six faculty positions are in general education and primary emphasis areas. Those in Natural Sciences and Humanities (English and communications) would provide much needed support to general education areas that have been impacted tremendously by growth in student numbers, as in the pre-professional/professional programs. They, along with the Business position, would also support growth in our revitalized Interdisciplinary Studies degree which has a strong online component. The Kinesiology/Exercise Science is in support of our one approved FY16 baccalaureate program from the Five-Year plan.
   Five support positions are also requested. Increased enrollments have strained our faculty advisors. Program advisors have been successfully used at LCSC to accomplish the schedule building component of advising, while simultaneously freeing the faculty for more in depth conversations with upper classmen on careers. We request funding for two additional program advisors to support the Academic Programs areas with retention and to facilitate transfer of community college students to LCSC for 4-year degree completion. As a mechanism for assisting students in the school-to-work transition and consistent with our Strategic Plan, we request an Internship Coordinator who can network with employers and agencies in our region for meaningful hands on learning experiences for students.
   The final two support positions are in Student Affairs. The first is a Veteran’s Advisor to more fully serve our veteran population. The final requested position is for a Director of Student Engagement. This position would be charged with implementing enhanced retention strategies at LCSC, in keeping with statewide Complete College Idaho goals.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      Instructors or Assistant Professors (6): $48,000 to $50,000 + fringe & health insurance; full-time 9 month; anticipated hire August 2016; teach 24 credit hours per year of critical courses, advising, scholarship & service, other duties as assigned by Division Chair.
      Program Advisors (2): $37,000 + fringe & health insurance; professional exempt employees; support students and faculty in an advising capacity.
      Internship Coordinator (1): $55,000 + fringe & health insurance; professional exempt 11-12-month employee; facilitate student internship experiences in the region.
      Director of Student Engagement (1): $50,000 + fringe & health insurance; to provide supervision of Student Activities, Outdoor Recreation, Student Development Curriculum, Student Success Program, and New Student
Orientation. These activities are currently being managed by other units. Consolidation into one unit will provide operational efficiency and consistency. Veterans’ Advisor (1): $38,000 + fringe & health insurance; professional exempt employee; coordinate benefits of returning veteran to facilitate degree completion.

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
None

c. List any additional operating funds and capital items needed.
Operating funds: $66,000 - instructional materials, supplies, direct program expenses
Capital: $33,000 - computers and office setup; instructional computers

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
On-going general funds

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
All Academic Affairs units within the college will be served by the addition of the instructional and support staff positions. The general education credit load at LCSC has been assigned to the Natural Sciences, Humanities and Social Sciences Divisions. Collectively this group, including many adjunct instructors, delivers a significant number of student credit hours, serving all students at the college in some capacity. As enrollment continues on an upward trajectory, the need for full time faculty has become critical. The college’s ability to find qualified adjuncts is getting less reliable each passing semester, creating the risk of bottlenecks by not having critical sections available for pre-professions and other majors.
The Director of Student Engagement will provide supervision of and leadership to Student Activities, Student Development Curriculum, Student Success Program, and New Student Orientation. The primary function would be to coordinate these departments to promote student engagement and to increase retention. If this request is not funded, we will not be able to expand the program which will limit access to student engagement activities.
If the request is not funded, we continue to have bottlenecks in pre-professions courses, are limited in the number and types of interdisciplinary degree offerings available, and do without resources known to support student persistence, retention and success.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
Portions of this request were included in FY2011 through FY2015 line item requests. In FY15, 20% of LCSC’s CCI request was funded; the FY16 request represents the balance of earlier requests, along with 5-year plan needs.
In January 2013 the Legislative Services Office (LSO) published an information paper on Deferred Maintenance. In addition to the conclusion that the institutions do not have the funding to support their annual needs, the study determined the institutions’ Permanent Building Fund Alteration and Repairs request had grown by $18.7 million during the past two years to a total of $53.65 million in FY 2014.

In the intent language of the FY 2014 Division of Public Works (DPW) appropriation bill (HB 313), the Legislature declared that the four institutions have significant deferred maintenance needs that cannot be met with the existing revenue available in the Permanent Building Fund and that each institution’s annual maintenance and

</tbody>
</table>

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
repair needs greatly exceed available funding from current state or institution resources.

The College and Universities received additional one-time funding in FY 2014 and FY 2015 through the DPW appropriation for deferred maintenance allocated to the four institutions as follows:

<table>
<thead>
<tr>
<th></th>
<th>FY 2014</th>
<th>FY 2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>BSU</td>
<td>$3,750,000</td>

</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$12,500,000</strong></td>
<td><strong>$2,000,000</strong></td>
</tr>
</tbody>
</table>

The LSO study also determined that collectively the institutions reported a range of $674 million to $764 million in deferred maintenance needs. While the institutions each define and quantify deferred maintenance a little differently, it is indisputable that the need exponentially exceeds currently available funding. A five year history of funding for Alteration and Repair (A&R) projects is shown below:

</tbody>
</table>

This request is for $10,000,000 in ongoing capital outlay to continue to address the significant deferred maintenance backlog at the four public 4-year institutions. These funds would not be used to construct or purchase new buildings and it is the Board’s desire that these funds not supplant appropriations from the Permanent Building Fund for A&R projects.

Each year agencies and institutions submit a list of high priority A&R projects to DPW. The dollar value of the projects submitted by each institution exceed the funding historically received, so DPW staff work with the institutions to fund as many projects as possible in any given year. Since there is already an established process in place whereby A&R projects are submitted and vetted by DPW and the Permanent Building Fund Advisory Council, the Board would like to leverage the
process whereby requested funding would simply be used to fund more projects on the (A&R) list.

2. What resources are necessary to implement this request:
$10,000,000 in ongoing capital outlay is needed to help address the institutions’ deferred maintenance backlog.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumptions: new customer base, fee structure changes, ongoing anticipated grants, etc.

This request is for ongoing State general funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
The LSO study also reported the institutions have used most of the student facility fees for construction or to pay bond debt for their facilities. Very little is used for maintenance and repairs, and the capacity to increase fees is limited. Providing ongoing deferred maintenance funds will reduce the need to increase student fees and thereby maintain access to higher education in Idaho.

5. If this is a high priority item, list reason non-appropriated Line Items from the FY2014 budget request are not prioritized first.
This line item was included in the FY 2015 budget request.
Supports institution/agency and Board strategic plans:

**GOAL 1: A WELL EDUCATED CITIZENRY**

*The educational system will provide opportunities for individual advancement.*

**Objective A: Access** - Set policy and advocate for increasing access for individuals of all ages, abilities, and economic means to Idaho’s P-20 educational system.

**Performance Measures:**
- Annual number of state funded scholarships awarded and total dollar amount.

**Benchmark:** 20,000, $16M
- Amount of need-based aid per student.

**Benchmark:** undergraduate FTE WICHE Average
Description:
This is a request to create and fund a matching fund for philanthropic gifts in support of scholarships at Idaho’s public postsecondary institutions.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The presidents of the college and universities brought the concept of a philanthropic matching fund to the Board for its consideration. At its April 2014 meeting the Board gave approval to proceed with requesting funding for a matching fund. The request is for $1,000,000 in one-time General Funds. The minimum amount eligible for a match from the fund would be $50,000. The purpose of gifts and matches would be to provide funding for new or existing institutional scholarship.

   The matching funds would be allocated to the institutions by Board staff. Whereas this would be a new program, there is no base funding.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      N/A
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      N/A
   c. List any additional operating funds and capital items needed.
      $1,000,000 one-time operating expenses

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   $1,000,000 one-time General Funds

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   The State Board of Education has set an ambitious goal that 60% of Idahoans ages 25-34 will have a college degree or certificate by the year 2020. It is estimated that postsecondary education attainment for this adult population is currently at 40%. One of the biggest barriers to postsecondary education is cost. Based on the most current data available, Idaho provides $28 per FTE for need-based financial aid while the average aid for WICHE states is $689 per FTE.

*Western Interstate Commission for Higher Education

The value of a four-year degree is at an all-time high. The wage differential between those with a four-year degree and those with a high school degree has grown to 81% -- higher than at any time in the past 90 years. Thus, if this request is not funded, it could limit access to postsecondary education, which in turn impacts the earning power of thousands of Idahoans and the state’s tax base.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

N/A

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

In accordance with the strategic plan, mission and values of Boise State University, this line item is focused at securing funding that will address compensation shortfalls due to years of limited state funding for compensation increases resulting in significant challenges of salary compression, turnover, and failed recruitment efforts due to low salaries.

The University is committed to increasing postsecondary degrees and certificates to ensure necessary progress is made towards the State Board of Education’s Complete College Idaho Initiative. Offering employees competitive compensation is fundamental to retaining and recruiting faculty and staff that are key to achieving success in meeting this goal.
Description:
Institutional Research, Faculty Financial Affairs Committee, Human Resource Services and the Budget Office have all been engaged in recent analysis of employee compensation with the objective of gaining perspective on significant issues and providing recommendations to improve the competitiveness of compensation at Boise State University. The comparative analysis used College & University Professional Association (CUPA) data for faculty (using CUPA categories of Master's Large or Doctoral Research, depending on the programming level in the department), and compa-ratios for staff analysis.

The comparison of faculty salaries to Master’s Large averages showed 100% of the departments had at least one category of faculty (i.e., Lecturer/Instructor, Assistant, Associate, or Full) with salaries below the respective CUPA averages. In many disciplines, average salaries were comparatively low for all faculty. A comparison of salaries in doctoral-degree granting departments to their peers shows substantially larger salary gaps that raise concerns for retention and future hiring. The overall analysis shows an annual need of $4.8 million for faculty salaries to reach 90% of the CUPA averages for Doctoral Research Universities.

The average compa-ratio of all professional staff is 97% of the established midpoints of the Professional Staff Salary Administration Plan pay ranges. However, lack of significant raises over the past eight years has created equity and significant compression issues particularly for longer service employees. The recent review of classified staff shows that a significant percentage of employees in their position more than two years with compa-ratios of less than 80 percent and 95 percent of all classified staff are below mid-point/policy. Employee turnover data shows classified staff with a turnover rate of 15%.

Determining an overall average of a 3% increase for salary competitiveness for this line item is based on the analysis done up to this point. An initial calculation indicates an average increase in faculty salaries of 4%, professional staff 1%, classified staff 3% and graduate student stipends of 2% would make a significant impact towards ensuring the University has a competitive salary structure. Further analysis continues and will be more detailed as this line item request is finalized for the late August submission to the State of Idaho.
Supports institution/agency and Board strategic plans:

The primary mission of Boise State University’s security department is to provide a safe and secure campus environment. Senate Bill 1254 was passed into law and concealed weapons on campus will be allowed on campus starting July 1, 2014.

Further, Senate Bill 1254 expressly prohibits firearms in campus dormitories or a venue hosting 1,000 people or more. This prohibition requires an enhanced access control program that necessitates metal detection capability at entrances. This capability requires additional trained security personnel, as well as armed campus security personnel.
personnel and law enforcement officers, on scene to handle the resulting weapons situations. The impact is a substantial increase in security costs.

Description:
Campus Security will transition the department to meet the requirements of the law while continuing to ensure a safe and secure campus environment. The new program requirements continue to be evaluated and more specific details regarding pricing and options for metal detectors and other required one-time security needs will be available within the next few weeks.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      
      8 FTE with salaries and fringe benefits totaling $667,560
   
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   c. List any additional operating funds and capital items needed.

      Recurring operating costs of $279,850 (Includes increased cost of Boise Police Department contract)
      One-time cost for metal detectors, hand held wands and ballistic vests for personnel. Preliminary cost estimate.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
Supports institution/agency and Board strategic plans:

Description:

Boise State University was awarded $700,000 (over three years) in Idaho Global Entrepreneurial Mission (IGEM) funding through the Higher Education Research Council (HERC) in FY13 to expand and restructure its Department of Computer Sciences (CS) to help meet compelling state workforce development and research needs in the local and regional software engineering community. This funding was used to hire four new faculty and five graduate assistants to enhance the student pipeline, encourage tighter industry integration, and increase research activity within the department. This initial investment has resulted in substantial increases in student
enrollment, extramural research funding, and industry interactions within the department. However, there continues to be a tremendous need for highly-skilled software engineering graduates in the Treasure Valley high-tech community. Consequently, this request seeks resources to hire additional Computer Science faculty and graduate assistants to further support and enhance the current trajectory of growth, and the goals defined in the Boise State University and State Board of Education strategic plans.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   8 FTE with salaries and fringe benefits totaling $1,060,400
   5 FTE of graduate assistants totaling $124,800

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   c. List any additional operating funds and capital items needed.

   Recurring operating costs (including five GA waivers) of $75,660

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

In accordance with objective 1.2 of the Strategic Plan, Idaho State University’s goal is to achieve academic excellence in programs by recruiting and retaining high quality faculty and staff. As the talent pool continues to shrink, it becomes more difficult to attract and retain employees that can effectively instruct students, engage in innovative scholarship, and perform high quality institutional and public service.

**Description:**
To determine the competitiveness of compensation at ISU, the Office of Human Resources has reviewed the market position of classified staff, non-classified staff, and

**CAPITAL OUTLAY by summary object:**

TOTAL CAPITAL OUTLAY: 

**T/B PAYMENTS:**

**LUMP SUM:**

GRAND TOTAL: $5,107,400
instructional faculty at ISU. In assessing the competitiveness of compensation, the following market criteria and comparison groups have been taken into consideration.

**Classified Employees**

The FY 2015 State Employee Compensation & Benefits Report indicates that the average Compa-ratio for classified employees of ISU is 83%. This report indicates that, on average, classified staff at ISU are 17% behind the mid-point of their respective pay grades, (approximately $3,502,156 behind market).

**Non-Classified Staff**

To assess the competitiveness of compensation for non-classified staff, ISU has historically made use of the CUPA-HR salary survey. For salary administration purposes, ISU has defined its market comparison group within the CUPA-HR survey as all public institutions of higher education that provide graduate and undergraduate programs within the Carnegie classification of Doctoral Research High. Within this defined comparison group, the average non-classified staff member at ISU is at 82.6% of the median salary in the CUPA-HR survey. The Office of Human Resources has then used this number to estimate that non-classified employees are 17.4% behind their peers within the CUPA-HR survey, (approximately $6,619,085).

**Faculty**

In a similar fashion to non-classified staff, ISU has historically made use of the CUPA-HR salary survey to assess the competitiveness of compensation packages for faculty. In review of the 2014 CUPA-HR faculty salary survey, ISU faculty are on average 78.5% of their peers within the Doctoral Research High Carnegie classification, for all public institutions with both graduate and undergraduate programs. The Office of Human Resources has used that number in providing an estimate that on average, faculty are 21.5% behind their peers, (approximately $14,839,519).

**Questions:**

6. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
   
   After reviewing the market positions of all employee categories at ISU, we propose a 6% increase in salary funding so that the institution can continue to improve the competitiveness of compensation packages for faculty and staff.

7. What resources are necessary to implement this request?
   
   $4,943,100
   
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   **Faculty & Staff**

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
ISU, as a result of program prioritization, will direct cost savings identified to address salary competiveness.

c. List any additional operating funds and capital items needed.

8. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

This request is for General Funds

9. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

To improve the competitiveness of compensation for faculty & staff so that we can recruit and retain the talent that will maintain ISU as a high quality institution.

10. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:
Board strategic plan: Goal 1, objectives A-D; Goal 2, Objectives A, B.

Institutional Goal 4 – prepare students to function in a global society.

Objective 4.1: Enrich learning and research opportunities for both students and faculty through greater development of international programming.

Objective 4.2: Recruit and retain students, faculty, and staff from underrepresented groups to better serve institutional and community needs for integration of multicultural and gender-related perspectives in our range of programming.
Description:
This request is for $1,700,000 in matching funds for the Career Path Internship (CPI) program at Idaho State University.

The CPI Program was created in FY 2010. The program started as an on-campus program and has expanded each year. At the inception of the program in FY 2010, more than 200 students participated. Year to-date for FY 2014, more than 700 students are involved. Recently, expansion has included off-campus positions as the community and ISU partner together to provide additional experiences for the students.

The program is intended to provide opportunities for students to work in their field of study while still attending school. Both undergraduate and graduate students have the opportunity to have hands-on experience in their chosen field of study. The program provides mentoring from respected and experienced practitioners. This provides the student with real-world work experience that gives students an advantage as they seek employment.

The CPI program lines up with all four core themes of the ISU mission. Learning and discovery: students are able to apply their studies to an actual job, reinforcing the learning in the classroom. Access and opportunity: some students depend on campus employment to stay in school. The CPI program not only provides an opportunity for an on-campus job, but the job is in their field of study. This work experience will lead to greater opportunities for employment post-graduation. Leadership in the Health Sciences: many of our CPI positions are in the Health Sciences field, providing opportunities on campus and off for students to get experience in the health sciences field. Economic and Social impact: recently, the CPI program has expanded into the community. This enhances the impact ISU has on the local economy and provides further opportunities to enhance the town and gown relationship with local business owners.

The FY 13 survey of CPI students indicated that 95% of students believed the CPI program was positive or very positive on their educational experience. Fully 91% of students indicated that their internship met their expectations. Additionally, 88% of students believed that the CPI program would enhance their chances of finding a fulltime job in their field.

The program is also been incredibly useful as a recruitment and retention tool. Admissions staff recently started using CPI positions as a recruiting tool, offering 50 CPI positions to exceptionally well-qualified students.

**Questions:**
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   Matching funds of $1.7 million are being requested to enhance and expand the number of positions available to ISU students.
2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      Undergraduate students are paid at $8.00 per hour, graduate students are paid $10 per hour and doctoral level students are paid $12 per hour.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      $1.7 million dollars would represent more than 200,000 working hours for students at the undergraduate level.

   c. List any additional operating funds and capital items needed.
      None at this time.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

      Students at ISU will be served by this request. The expected impact of the funding is that students will enter the workforce with both an education and work experience. This increases their marketability to potential employers.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

      Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Goal __ 1, Objective B  
1, Objective C  
2, Objective A  
2, Objective B

Creation of the Idaho Advanced Manufacturing Center (IAMC) at ISU will meet multiple goals and objectives of the State Board of Education. The fundamental outcome(s) from this Advanced Nanofabrication and Nanomanufacturing Initiative are:

1) Create a state of the art, nationally competitive, nanofabrication and nanomanufacturing center in Idaho. This would be unique in our region. As the only institution in Idaho to offer associate through Ph.D. degrees, we will use this asset to work with regional employers to develop flexible training modules that will lead to advancing work force training and development.

2) The mission of this Center would be to educate students, from certificates, associates, baccalaureate through Ph.D., in advanced manufacturing techniques. Because of the alignment with the private sector, the students will get “hands on” experience that will directly prepare them for high tech jobs.

3) The Center will develop novel curriculum to promote multiple “on” and “off” ramps for students. The Center will focus on innovative workshops that will be held for between 2 days (over a weekend) and one week. These workshops will be structured so that students can progress to increasing certificates or degrees without having to enroll full time at ISU. In fact, they will focus on providing a new level of educational flexibility to support the industries in SE Idaho.

4) The Center will pursue federally funded research to generate novel technologies that will lead to business development in Idaho. It is expected that the Center, after the initial phase, will average over $10M per year in research expenditures. This will create many jobs and spur economic development in our region.

5) The Center will be focused on public/private partnerships. The research infrastructure will support many existing companies in SE Idaho (e.g. Premier Technologies, ON Semiconductor, Advanced Ceramic Fibers, the INL, and many others). As infrastructure is built, other businesses will be able to use local resources to address manufacturing challenges. Furthermore, the Center will be a magnet for business attraction and is consistent with the goals for regional economic development in SE Idaho.

Performance will be measured in multiple ways. The primary methods will be as follows.
1) Student Access will increase by 10% per year (from our current base of ~25 students and 5-6 degrees / year) because of a) access to advanced infrastructure and b) educational opportunities directly aligned with job opportunity in SE Idaho. At steady state, we anticipate about 30-40 degrees (at all levels, including certificates) per year in advanced manufacturing.

2) We further expect that certificates and degrees will grow at the associate, baccalaureate, masters, and doctoral levels. This is due to the growing challenges in advanced manufacturing (requiring higher levels of educational achievement) and the opportunities afforded in the private sector for employee advancement into higher levels of technical skills.

3) The Center will also be focused on student mobility with multiple “on” and “off” ramps to promote flexibility for both the student and employers in the region. The Center will work strategically to develop academic programs that advance the employee by building technical and scientific expertise while continuing their employment status. The Center personnel will work together with the private sector to develop this curriculum, thus insuring its ability to directly meet the regions economic and work force development needs.

4) The students in the Center will be educated and trained in high tech areas where critical thinking and problem solving are tightly integrated into the curriculum and practice.

5) The Center will be heavily engaged in federal and private sector funded research. We expect to have an annual base of $1M per year in grant/contract expenditures after five years of operation as a minimum steady state. The Center will be a focal point for contracts and grants from private companies and the infrastructure in the Center will be available for fees. The Center will be envisioned as a revenue positive business that supplies job candidates, attracts new businesses, and serves existing businesses in a close public/private partnership.

Description:

This initiative will establish a sustainable research and business infrastructure for advanced nanofabrication in Idaho called the Idaho Advanced Manufacturing Center.

The mission of the IAMC will be to provide innovative educational opportunities that allow students to continually advance to higher levels of certificates and degrees to support the development of high tech jobs in SE Idaho. Furthermore, the IAMC will provide effective, efficient, safe, and socially responsible access to advanced nanofabrication equipment and expertise thereby promoting, enabling, and encouraging cutting-edge education, research and business development from materials and individual process steps to entire systems.

The IAMC will be available, on a fee basis, for use by research groups from government, industry and universities. Equipment and processes will be available for research on silicon integrated circuits, MEMS, III-V compound devices, organic
devices and nanoimprint technology. The IAMC will also encourage researchers from non-traditional disciplines to make use of processes, such as metal and dielectric coatings, vacuum processes, fabrication of micro and nano components and metrology tools. It will be a valuable asset for Idaho and serve to attract new business and serve existing companies in Idaho. Importantly, the IAMC will serve to provide state of the art training to students in advanced manufacturing techniques and, by working directly with industry, these students will be able to transition into high tech jobs upon graduation in Idaho.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   ISU is requesting the initial start-up costs to establish a new Idaho Advanced Manufacturing Center. Existing FTE’s, and associated salary funds, will support the research personnel and four to seven will be assigned to this Center. This request is essentially for the infrastructure needs for this Center. Part of this investment will be focused on providing services for existing Idaho companies with the remainder being used for the research personnel to add necessary capabilities to the Center.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      i. Research Faculty / Staff
      ii. Pay will vary be seniority but range from $75K to $150K
      iii. All personnel will be eligible for benefits
      iv. Personnel will be hired in FY16
      v. Personnel will be on annual appointments
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      i. No impact on existing HR is expected.
   c. List any additional operating funds and capital items needed.
      i. These itemized above.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   a. The infrastructure request is a one-time request.
   b. All of these personnel will be expected to bring in outside funds in excess of $1M per year.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
   a. This funding will establish a novel infrastructure in Idaho that will serve existing companies (e.g. ON Semiconductor, Premier Technologies,
Advanced Ceramic Fibers, etc.) and be a magnet for new companies because of the access to nanofabrication and metrology services.

b. Not funding this request will greatly diminish ISU’s ability to provide necessary services for Idaho companies (these will need to be outsourced) and hence diminish the number of jobs in high tech in Idaho.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal ______________

Performance Measure: ____________________________________________

Description:

The University of Idaho is in something of a “free fall” with respect to faculty and staff salaries. Faculty salaries were 92.3% of peer average in FY08; they dropped to 87.6% in FY2013 and for FY14 are now at 84.3%. Peer institutions are raising their salaries an average of 3-4% per year. With the 2% CEC for FY15 we will still lose ground against
peer salaries by 1-2 percentage points and could, within the next two to three years, find our salaries in the high 70 percentiles compared to peer institutions around the west.

Similar issues face our staff salaries. A regional market survey conducted almost two years ago put our staff salaries at 85% of the regional market and we are certainly lower than that now. We are closer to 70% of market for key IT staff and we are losing our best staff to WSU and local businesses on a regular basis.

Although we are speaking here in terms of the University of Idaho, this is a statewide higher education issue. Our colleagues at Boise State, Idaho State and Lewis Clark State College are facing similar salary issues. The marketplace for faculty is a national marketplace – an individual receiving his or her Ph.D. from virtually any institution, is looking at a national job market for their faculty employment. If they can find similar employment, at a 20% to 30% improvement in salary compared to Idaho institutions, they will not be coming to Idaho. For established faculty who are building or have built successful careers in Idaho, there are comparable institutions across the nation that are actively seeking out the “best and brightest” to enhance their own educational and research initiatives.

All of this means that, for Idaho residents, their opportunity to receive their once-in-a-lifetime college education from the most effective and productive faculty is being diminished as we fail to attract or retain those individuals in Idaho institutions.

There is a similar impact for the state of Idaho with respect to our staff positions. This too is a national marketplace at the middle-manager to senior position levels. Institutions hiring for significant middle and higher management positions are almost always doing regional or national searches – and, once again, Idaho salaries are a barrier to finding the best, brightest and most effective of these individuals. Business has long recognized that paying the salary necessary to attract and retain the very best professionals, managers and staff often more than pays for itself in terms of creativity in problem solving and more efficient and effective ways to perform managerial functions. The impact of being way below market for these positions simply means that we will not be able to hire the skills and experience that we, as a state, need in order to be effective in the new education business functions of the 21st century. For example, an inability to retain key technical staff can affect our ability to effectively compete for non-resident students, who provide key financial support for our institutions, as our peers in surrounding western states out-recruit us for those very same students.

Salary competitiveness is a long-term issue – not readily corrected in one-year and easy to lose ground if there is not an annual effort to address the salary costs of the changing marketplace.
During the economic downturn from 2009 through 2011, the four year institutions under the oversight of the State Board of Education lost a collective $59.3 million in state support. The University of Idaho currently (FY15) has a permanent appropriation of $79.1 million, a $16.9 million difference from the FY09 base of $96.0 million. Although tuition rates have increased during that time, much of those increases have gone
toward the institutional portion of fringe benefit increases and CEC initiatives – as the state was no longer able to “fund shift” these costs to be fully covered by state funding.

While we successfully ensured the uninterrupted delivery of our direct instruction functions – enabling students to complete their degree in a timely fashion - the funding reductions have had a strong negative effect on our ability to provide for basic operations of our campus and centers, as we have reduced staff and operating funds. It could take a decade, at current incremental funding increases for higher education, for institutions to return to funding anywhere near the level that was present in FY09. During that time, the students from Idaho are being shortchanged in their opportunities for the kind of education that will enable them to effectively compete in a national and global marketplace for employment. Yes, they can complete their degree in a timely manner, but there are many opportunities for enhancing that education that will not be available to them – opportunities that peer institutions in other states are providing to their residents.

In order to accelerate that funding “catch up”, we are requesting a 5% increase in permanent state funding for FY16. This would provide an immediate boost toward addressing issues in salaries, staffing, technology support, and facilities operations.

The request is structured in the current proportions of our General Education budget – with 75% of the request to go to salaries and benefits for necessary staff and 25% for operating budgets across the university.

Employing these additional funds in the manner we have described would, in itself, address many of the issues and concerns that are at the core of the Complete College Idaho initiative in terms of helping more Idahoans access and complete a college education.

Description:
Create a comprehensive, intensive, effective Career Planning, Placement, Internship and Undergraduate Research program at the University of Idaho

While the University of Idaho has sustained the academic programs of the institution throughout the last 5 years of difficult finances, thereby ensuring that students can readily find the courses necessary for graduation, other key support areas could not be
sustained at the necessary levels. With the positive effects of our change to a 120 credit hour graduation requirement for most of our programs – positive in the fact that many more students are completing their bachelor’s degree in the traditional four years – there is a pressing need to accelerate student’s focus on the post-college opportunities, whether that includes employment; professional education or further academic work. This request is to create and fund an aggressive program of career planning and placement that would provide state-of-the-art career services to University of Idaho students and provide more extensive assistance to an already large number and percentage of graduating seniors to find the career opportunities they are seeking. Because the main campus of the University of Idaho is not located in a major metropolitan area, it becomes even more important to provide a very vigorous program to assist our students in finding employment and sustaining their career growth.

In addition to traditional career planning and placement functions, this effort must include a very vigorous internship program and a corresponding research opportunity program to provide students with hand’s on experience in addition to an already effective instructional program. Both internships and research opportunities have been proven to enhance student employment opportunities and set strong foundations for continued career growth. Since some important research opportunities come without external funding support, the undergraduate research opportunity component of this proposal also includes operating funds that would enable the program to provide 30 student research stipends, at approximately $3,000 per academic year, to support the research work of students in, primarily, non-STEM disciplines. Paid internships and research opportunities also provide financial resources to assist students with their college expenses – thus expanding access to higher education.

The University would commit to providing an enhanced, attractive and effective physical environment for these services. These state funds would also be used to seek matching funding for program and space needs from our Vandal donors and from employers who have come to rely on access to our graduates to maintain their successful businesses. This initiative meets the SBOE goals for Complete College Idaho by providing a positive incentive for initial college enrollment and a strong incentive for college completion by making career opportunities and career preparation a key part of the student experience from the freshman year on.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

c. List any additional operating funds and capital items needed.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

**SBOE GOAL 1: A WELL EDUCATED CITIZENRY - Objective A: Access**

Occupancy of the old Ada County Courthouse by the Idaho Law and Justice Learning Center (a joint undertaking of the Idaho Supreme Court and the University of Idaho through its College of Law) will provide increased access to learning and education about the laws and regulations that affect the citizens of Idaho.

**Performance Measure:** Access for place-bound students

The Idaho Law and Justice Learning Center (ILJLC) will provide a unique opportunity for more citizens of Idaho to gain access to both civics education as well as the opportunity to earn a JD degree.
Description: The Idaho Law and Justice Learning Center (ILJLC) is a joint undertaking of the Idaho Supreme Court and the University of Idaho College of Law designed to link the public and judicial education operations of the Idaho Supreme Court, the Idaho State Law Library and the College of Law into one unified law and justice learning center in Boise. The ILJLC will be occupied and used by the parties for the following purposes:

- outreach and engagement with the general public;
- the operation and management of the State Law Library;
- the delivery of judicial education by the Idaho Supreme Court; and
- the delivery by the College of Law of course offerings in Boise (currently consisting of a second and third year curriculum) through the Law School's Boise program.

The unique location of the ILJLC will permit the delivery of these efforts from a location in the heart of Idaho government – a place where laws are formulated, enacted, enforced and interpreted by the various branches of government. The ILJLC will be an important link to the citizens of Idaho by providing opportunities for law students and the citizens generally to learn about the legal history and the theoretical and practical aspects of citizenship, including the rights and duties of citizens with respect to each other and to the government.

The rental costs for the ILJLC have been set by the Idaho Department of Administration at $337,800/year as detailed in the attached draft Memorandum of Understanding and Capitol Annex Information sheet.

SBOE GOAL 2: CRITICAL THINKING AND INNOVATION - Objective A: Critical Thinking, Innovation and Creativity

The cooperative nature and undertakings of the ILJLC will provide an environment for the development of new ideas, and practical and theoretical knowledge regarding the law to foster the development of individuals who are entrepreneurial, broadminded, think critically, and are creative in ways that will benefit society.

Performance Measures: Partnerships with private industry and area institutions.

Description: The ILJLC will allow the College of Law to better coordinate its various economic development activities with area businesses and educational institutions. Currently, the College has a concurrent degree program with Boise State University (the JD/Masters of Accountancy – Taxation), and is in the process of approving a concurrent degree program with BSU for a JD/MBA program. In addition to these in depth concurrent degree programs that will be supported by the ILJLC, the College continues to engage with area agencies and businesses through its three clinical offerings that include the Small Business Legal Clinic (offering assistance to small and start-up businesses, the Economic Development Clinic (offering assistance to local governments
in encouraging economic development in their localities), and the grant-funded Low Income Taxpayer Clinic (assisting individuals with taxpayer issues with the IRS).

SBOE GOAL 2: CRITICAL THINKING AND INNOVATION - Objective B: Quality Instruction

The ILJLC will increase student performance through the development, recruitment, and retention of a diverse and highly qualified workforce of faculty and staff.

Performance Measures: Increase in contact hours between the ILJLC and their respective target and outreach audiences.

Description: The ILJLC will be a center for the delivery of high-quality educational programs for the judiciary, the practicing bar, law students, college students from other institutions, civic organizations, high school students, and the public generally. In addition, the ILJLC will utilize the statewide video delivery system of the Idaho Supreme Court and the University of Idaho to better deliver programs in continuing legal education, with outreach to citizens generally and the practicing bar, resulting in high quality, cost-effective educational programming throughout the State of Idaho as part of their joint outreach and engagement activities.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base? The amount requested is for rental costs in the remodeled Courthouse building located on the Capitol Mall. Pursuant to Board policy V.B.10., only owner-occupied space is eligible for occupancy costs. Since UI would be leasing this space from the Department of Administration, the University is requesting rent costs in lieu of occupancy costs.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
   c. List any additional operating funds and capital items needed.

   All necessary resources have been funded to allow occupancy of the ILJLC. Note that tenant improvements to the building in the amount of approximately $1.6 million will be funded by the University through private funds that have been secured.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.). This request is for on-going State General funds.
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The primary beneficiaries of this request will be the students of the College of Law who will be provided a focused opportunity to study law in a location near the seat of government in Idaho. As noted above, additional beneficiaries will include the judiciary, the practicing bar, college students from other institutions, civic organizations, high school students, and the public generally by reason of the various credit, professional, and outreach instruction to be delivered from the ILJLC.

If the request is not funded, then operating funds from existing and planned educational and outreach programs would need to be utilized to fund the occupancy costs for the building. This would negatively impact the planned programming at the ILJLC and could delay or eliminate some of the efforts.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
MEMORANDUM OF UNDERSTANDING

The Department of Administration is given responsibility to manage multi-agency office space and space in the Capitol Mall complex by Idaho Code Sections 67-5708 and 67-5709.

This Memorandum of Understanding between the Department of Administration and the various state agencies which are tenants in state buildings is to specify the amount of space occupied by each tenant, the charge for that space footage, and the requirements and responsibilities related to that space.

STATE AGENCY TENANT: University of Idaho - Law Learning and Justice Center

Square Footage Total: 28,150  Charges Total: $ 337,800.00

**SPACE CHARGE DETAILS ARE BELOW**

The charge per Square Foot of occupied space is an annual charge for the maintenance and operations of that space; the base rate will not change during the fiscal year. The TOTAL CHARGE may change from time to time based on the amount of square footage occupied by the State Agency. If occupied square footage changes during the fiscal year, an adjusted MEMORANDUM OF UNDERSTANDING will be issued. Rent will be prorated based on actual amount of space occupied. Rent is prepaid.

The Department of Administration reserves the right to inspect the property; however, the inspection will not disrupt the State Agency's employees, and inspections will be scheduled at reasonable times. The State Agency is responsible for providing written notification to the Department of Administration, Division of Public Works, of any required maintenance or repairs the State Agency's employees may have discovered.

Questions regarding office space may be addressed to Facilities Services at (208) 332-1930. Billing questions may be addressed to Financial Services at (208) 332-1815.

Capitol Annex information for Idaho Law and Justice Learning Center MOU between Department of Administration and the ILJLC

Rent Charges:

Capitol Annex rent rates have been determined using a comparison of the Borah building and Capitol building charges along with the anticipated hours of operation planned in the building. Rent is for full service, which includes utilities, maintenance, janitorial, and security. Tenants are responsible for phone and data. Also, and should there be a need for after business hours security, the tenant is responsible for that as well.

The costs associated with maintaining the building will be monitored, then after one full year of use the rent will be adjusted up/down for FY18. Rent will not exceed $12 per square foot for FY16 and FY17. Capitol Mall rent rates are typically adjusted IF needed every three years.

Rent will not be charged until the building opens for business in FY16, which is anticipated to be September 2015. Typically MOU’s are sent to agencies beginning each fiscal year and billed in half year installments. In this instance a pro-rated bill will be sent to University of Idaho for the Law Learning and Justice Center for the first half of FY16.

Note: State Office Buildings are open for public access during normal working hours, which are from 7:00 a.m. to 5:30 p.m., on all state scheduled work days. Per University of Idaho, the building is to be accessible to University law students and staff 24/7, or as determined by the Dean for the Law School.

ID and Access Cards:

Capitol Mall uses the Hirsch Velocity system, HID proximity card for access. Capitol Mall security will need a sample card to affirm that University of Idaho Identification and Access cards are compatible with the Hirsch system. If so and once the University issues cards, those cards can be activated into the Capitol Mall system.

Parking:

University of Idaho staff who work at the Capitol Annex are eligible to participate in the Capitol Mall parking program. Because University of Idaho does not issue paychecks through the SCO, arrangements will be made for charging and collecting fees from University of Idaho staff for parking. Students are not eligible to participate in Capitol Mall parking.

http://cms.idaho.gov/parking/

Signature lines:
Supports institution/agency and Board strategic plans: This request directly supports State Board Goal 1 ("A Well Educated Citizenry"), Objective A ("Access") by increasing access for individuals of all ages, abilities, and economic means to Idaho's P-20 educational system; and Objective B ("Higher Level of Educational Attainment") through participation and retention in Idaho's educational system.

Description: This request would support a prototype test and validation of the “Work College” concept as a means for Idaho students/families of limited economic means to gain access to higher education without having to take on significant loan debt, while providing an additional avenue for the College to engage with and advise students in order to boost retention and student success.
For over two years, LCSC has been studying the “Work College” model, which has been highly successful on a college-wide basis in the Work Colleges Consortium (WCC) of seven colleges in the East and Midwest, to see if a similar approach could be modified and applied in Idaho public colleges/universities. Under this approach, students would work at “regular” jobs at the institution for 10 hours per week (10 months per year) in exchange for tuition costs and a small hourly stipend to offset other incidental college fees. Participating students, selected on the basis of financial need, are able to graduate without incurring large student debt. More importantly, in the Work College approach, the students’ work supervisors are directly and formally engaged in assessing student performance and progress, and provide another major pillar to help with retention, motivation, and advising. Work College students are more fully engaged with college personnel and operations and gain real work experience. LCSC staff members have worked with colleagues at the Work Colleges Consortium to identify already-proven procedures and formats which could be adapted for use in LCSC’s proposed trial run. Based on results at the seven WCC member institutions, we are confident that a Work College option for selected students would result in the following results for LCSC students:

- A low cost-option for students who might otherwise not access the higher education system due to anxiety over the cost of college and concerns over incurring significant debt.
- Enhanced engagement of participating students who would be integrated fully in the college work force, as well as within heir student roles.
- Enhanced oversight and mentoring of students who would receive frequent, structured interaction from their supervisors as well as advisors.
- Students would have an opportunity to work at meaningful jobs within the college with a carefully controlled schedule compatible with their classes—they would already be contributing members of the Idaho workforce prior to graduation.

LCSC’s request would fund a four-year trial run involving a controlled cohort of 20 students. The requested funds would permit a meaningful test bed for the Work College concept, which, if successful, could then be integrated into the institution’s overall personnel and advising structure. Factors which make LCSC a logical test location for this concept include:

- Open access institution with an assigned (though unfunded) community college role and a diverse mission including associate, baccalaureate, academic, and professional-technical education.
- The lowest tuition of any of Idaho’s public four-year institutions.
- The leanest staffing levels of white- and blue-collar jobs (the institution would benefit from the addition of this limited number of additional part-time workers).

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base? Answer: $209,000 to fund a single cohort testbed of 20 Work College students and one program coordinator.
2. What resources are necessary to implement this request? Answer: One program coordinator ($45,000 + fringe & health insurance) and funding to offset tuition/fees ($140,000). LCSC institutional funds will be used to cover supervisor costs for the participating students and workplace resources. One-time $3,000 capital funding for the coordinator’s computer and workstation.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.). Answer: Breakout of ongoing costs (all from General Fund and all but $3,000 ongoing) is indicated in the financial matrix above.

4. Who is being served by this request and what are the expected impacts of the funding requested? Answer: this request enables students to have access to higher education who might not otherwise be able to afford college, or, if they had to take out loans to attend college, would graduate with significant debt. The Work College students will benefit from additional engagement, oversight, and mentoring, while contributing to the college as part of the school workforce. The college will benefit from greater efficiency (improved student retention and success), better service to economically-challenged students and their families, and augmentation of its lean work force.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. Answer: Not applicable. This is the first year that this line item has been requested.
Supports institution/agency and Board strategic plans:  This request supports the State Board of Education Strategic Plan, Goal 2, Objective B ("Quality Instruction"): "Increase student performance through the development, recruitment and retention of a diverse and highly qualified workforce of teachers, faculty, and staff." This request also supports the related LCSC Strategic Plan, Goal 1 ("Sustain and Enhance Excellence in Teaching and Learning"), Objective 1E ("Recruit and retain a highly qualified and diverse faculty and staff") with a benchmark to meet or exceed the median salaries reported for peer institutions.

Description: This request addresses the large gap between the salaries of LCSC faculty and staff and their counterparts at peer institutions. It is anticipated that Idaho lawmakers soon will return to a sustainable funding approach for state employees,

which will enable them to keep pace with market-competitive rates. However, consistent funding in future years for CEC at, say, 3% to 5% per year, as once recommended by the Governor’s Office and DHR, would not enable LCSC employees to catch up with the significant salary gaps which currently exist with median salaries at peer institutions. The requested ongoing increase in General Fund dollars would close or significantly narrow the following gaps:

- LCSC faculty salaries (all ranks) which are 11.2% beneath the median for peers.
- LCSC classified staff salaries which (per latest DHR annual report) are 80.9% of policy and well below the average for all state employees.
- LCSC exempt staff salaries which are at least 15% below the CUPA medians for similar positions at similar size institutions.

The requested ongoing funding ($2,640,000 in base salaries, plus $554,000 in fringe) would be distributed based on merit and equity (market competitiveness), bringing LCSC’s average salaries up to peer medians—one could say that this would bring LCSC salaries up to a respectable grade of “C” if a standard grading scale were used as an analogy for salary competitiveness.

This request would also allow the College to address its serious compensation gap without placing an undue burden on student fees. It has only been within the last decade that it became legal under Idaho statute to charge students for the actual cost of instruction. Since the onset of austere funding in FY2009, policymakers have shifted an increased burden for instructional costs (including employee salaries and benefit costs) on the backs of students and their families.

This request would also enable the College to maintain high quality faculty and staff (which are essential to quality program delivery) while continuing to expand output to meet the State Board’s CCI/60% goals. Absent sustained, adequate funding for salaries, institutions would be forced to freeze current output levels and/or cannibalize operations to maintain a quality workforce.

Finally, the request would signal LCSC employees that the state is once again committed to fair pay levels, and this would help the College return to its former low turnover rates. For the past year (as economic conditions have begun to improve in neighboring states and the private sector, and as the change in real CEC dollars appropriated by the state have been negative over a number of years), LCSC turnover rates have begun to increase. Between 2012 and 2013 turnover rates have changed for the worse:

- Faculty turnover increased from 6.4% in 2012 to 11.0% in 2013 (a 72% increase)
- Classified staff turnover increased from 10.4% to 19% (a 91% increase)
- Exempt staff turnover increased from 5.9% to 8.7% (a 47% increase)

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base? Answer: $3.194M in ongoing General Fund dollars, the entirety of which would be in the base.
2. What resources are necessary to implement this request? No resources other than the requested increase in base funding.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.). Answer: see matrix above. The institution will continue to seek grant and private funding to support personnel and programs.

   On-going general funds

4. Who is being served by this request and what are the expected impacts of the funding requested? Answer: This request provides immediate relief to faculty and staff at LCSC who, on average, fall well below the median salaries of their peers and counterparts. However, the primary benefit of committing to fair compensation for employees will be the sustainment and enhancement of program quality and student success.

   If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. Answer: Restoring adequate compensation has been LCSC’s number one strategic priority for more than five years; however, until this cycle, the State Board has not entertained the approach of individual institutions submitting additional CEC requests beyond the formulaic 1% typically entered in the annual fiscal year MCO request.
Supports institution/agency and Board strategic plans:

Goal 1. Effective and efficient delivery system resulting in a highly skilled workforce for Idaho

Objective A. Synchronized system | A coordinated, coherent system that demonstrates responsiveness and effectiveness in addressing Idaho’s workforce needs

Description:
EITC manages student registration, financial aid, grades, course completion, transcripts and other essential functions using the Colleague data management system. The software is the system from which information is extracted for the Statewide Longitudinal Data System.
Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

EITC manages student registration, financial aid, grades, course completion, transcripts and other essential functions using specialized software. All colleges do these processes using computer systems because the data management systems are complex. In 2008 EITC determined that the software used for these programs, which was made by SchoolDESX Technologies, LLC (formerly Sooner Microsystems), was no longer suitable for emerging federal requirements and replaced this system with software manufactured and supported by Ellucian, Inc. (formerly Datatel, Inc.) and called Colleague. Colleague software is also used at Lewis-Clark State College (LCSC), North Idaho College (NIC), and College of Western Idaho (CWI). Other colleges in Idaho each use similar software (ISU and UI-Banner, BSU-Peoplesoft, CSI-Jenzabar).

Colleague is the second largest operating expense for the college, after campus electricity costs. When personnel costs are included, Colleague is the largest overall expense for the college. Systems costs are rising at approximately 6% per year. Ongoing maintenance of the software, and coordination of this system with the state’s longitudinal data system and internal learning management systems requires a full time IT Systems Programmer (classified pay grade L).

EITC manages online student interaction, homework assignments, digital distribution of educational aids and many other learning systems through a software program known as Blackboard. Almost all colleges in the state use Blackboard; it is purchased through a statewide contract. The statewide contract is for the enterprise version; the systems available through this program are so complex that a systems specialist is required to provide the technical support for educators to fully exploit its capabilities.

As with all organizations which store and use electronic information, EITC is vulnerable to attack and hacking of information systems by outsiders primarily intending to gain personal information of students. This is a major problem. To protect this information and comply with various federal laws (FERPA, Gramm-Leach-Bliley, inter alia) EITC as with other colleges has a layered defense system including rotating secure passwords, firewalls, access controls and other protection methods.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      
      • IT Systems Programmer
      • Classified Pay Grade L
• Full Time with benefits
• Current position at EITC being funded locally. Incumbent is currently paid $23.43/hour which is the 30th percentile of the pay scale. Policy for this pay grade is $27.55
• Permanent position
  b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
    No resources will be redirected.
  c. List any additional operating funds and capital items needed.
    Annual software operating costs estimated at $185,000

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   It is requested that new general funds be made available to cover both the software costs and personnel costs on an ongoing basis.
   There are other costs associated with Colleague which will be covered by local funds, particularly from full time student technology fees. This system requires three dedicated computer servers, which have a service life of about 8 years. Due to periodic changes in the software to support new federal and state reporting requirements and new financial aid control methods, annual training for the operator is required. This typically requires approximately $4000 annually for participation in formal training and in local user group training.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
   The entire EITC campus is served by Colleague software with the exception of custodial and maintenance personnel. There will be no impact on short term college operations if the requested funding is or is not provided. Funding for this software, and the technician to support it, is currently being drawn from college financial reserves. The entire faculty is served by Blackboard software as are all full time and part time (credit) students. Not funding this request would leave EITC more vulnerable to cyber-attack and increase risk of data disclosure in violation of various federal laws.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
   Not previously requested
   Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
**How connected to institution/agency and Board strategic plans:**

*Goal 1: Effective and efficient delivery system resulting in a highly skilled workforce for Idaho.*

**Objective D: Student Success:**
Systems services, resources and operations support high performing students in high performing programs transitioning to employment.

**Description:**
Added cost is the difference between the extra costs of PTE programs over general education programs’ costs. Safety, current technology and instructional equipment are examples of added costs of PTE programs. Prior to the 2014 Legislative session,
added-cost unit values for PTE programs had not changed since 1998. At the same time technology, instructional equipment, and other added costs have increased.

In the 2014 Legislative session, the Legislature approved $756,400 ongoing from the General Fund to increase PTE’s secondary schools added-cost unit values. This included $512,900 to increase the unit value for the Ag. Science and Technology Programs and the Ag. Science/Mechanics Programs from $10,260 to $15,000, for an increase of 46.2%.

The line item also included $243,500 to increase PTE’s secondary schools added-cost unit values by 5% for all PTE secondary programs, with the exception of Ag. Science and Technology Programs and the Ag. Science/Mechanics Programs.

The Division of Professional-Technical Education is requesting $1,009,400 ongoing from the State General Fund to increase PTE’s secondary schools added-cost unit values by 20% for all PTE secondary programs, with the exception of Ag. Science and Technology Programs and the Ag. Science/Mechanics Programs.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
   The request is for a change in the General Fund to increase PTE’s secondary added-cost unit values by 20% for all secondary programs, with the exception of Ag. Science and Technology Programs and the Ag. Science/Mechanics Programs.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service. N/A
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted. N/A
   c. List any additional operating funds and capital items needed. N/A

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumptions: new customer base, fee structure changes, ongoing anticipated grants, etc.
   See cover sheet.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Students enrolled in secondary PTE programs are served by this request. The impact of this request is to help offset the increased costs associated with running the secondary PTE programs. Students, secondary schools and PTE programs would be impacted if the request were not funded.
5. If this is a high priority item list reason non-appropriated line items from FY 2015 budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Idaho State Board of Education Goal 1: A Well Educated Citizenry

Objective B
Higher Level of Educational Attainment – Increase the educational attainment of all Idahoans through participation and retention in Idaho’s educational system.

Performance Measure:
Percent of Idahoans (ages 25-34) who have a college degree or certificate.
Benchmark: 60% by 2020
documented work readiness (postsecondary and/or industry credentials) amongst 25-34 year old adults by 2020.

**Description:**

Ongoing as well and one-time money is needed to continue the momentum from last year’s funding in the creation and expansion of advanced manufacturing programs. To remain competitive in the marketplace, the manufacturing sector of Idaho is faced with the implementation, operation, and maintenance of highly sophisticated equipment to automate their manufacturing, production, and processing systems. As an agent of economic development, PTE programs provide the workforce with the sophisticated skills required to support the new highly automated systems across the broad spectrum of advanced manufacturers in Idaho: food and dairy processors, aerospace, rapid prototyping, and many subsectors distributed around the state of Idaho. The current PTE postsecondary program inventory includes some elements of these needs, but there are specific emerging regional needs that prompt this request: a critical mass of food processors needing engineering and food processing technicians and industrial mechanics; the aerospace sector in northern Idaho; machine tool technology in southwestern and eastern Idaho, and aircraft maintenance in southeastern Idaho. In addressing these needs with each of the technical colleges, this proposal serves to upgrade, enhance, refine, and expand programs across the state as follows:

**Line Item Request Summary FY2016**

Grand total: 3 140,000 32,000 215,200 596,000 1,003,600

Total ongoing: 192,400
Total one-time: 596,000

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The request includes personnel, operating expenses, and capital outlay (instructional equipment) to support the proposed advanced manufacturing programs intended to facilitate support for the State Board Goal 1, Objective B performance measure: 60% of Idahoans (ages 25-34) who have a college degree or certificate.

   Neither staffing nor base funding is anticipated to be available for these activities for FY2016.
2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   *Full time professional-technical program faculty will be hired when institutions are authorized to do so and according to institutional grades, qualifications, benefits availability, and hiring protocols.*

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   *As several of the activities expand current operations, the programs’ respective impacts will vary at each institution. In general, existing human resources will not be redirected, but institutional operations will be somewhat affected by increased traffic due to the capacity enhancement nature of the request.*

   c. List any additional operating funds and capital items needed.

   *None*

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   *See cover sheet*

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   *Those served include the industry who will potentially hire additional trained technicians, the students who enroll in these requested as well as existing programs (consistent with current institutional student demographics), and the citizens of Idaho through advancement towards the 60% goal.*

   *If this request is not funded, the ability of the system will be relatively hampered in the ability to expand the capacity and support that will be necessary to adequately support the emerging high-tech nature of the Idaho manufacturing sector and achieve the 60% goal.*

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

   *In the Idaho Technical College System, it is an imperative that programs adapt to current need. There are elements of the prior year request in this current request. The major difference is the focus on a particular industry sector in need and giving instructional program development at this level of funding a high priority.*

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

**Goal 1: Effective and efficient delivery system resulting in a highly skilled workforce for Idaho.**

**Objective D: Student Success:**
Systems services, resources and operations support high performing students in high performing programs transitioning to employment.

Description:

Idaho Code Section 13-1629 established the Agricultural and Natural Resource Education Programs which consists of:

1. **Idaho Quality Program Standards Incentive Grants** to provide incentive grants up to a maximum of $10,000 for instructors of agricultural and natural resource education programs offered in any grade 9 through 12 where such programs meet or exceed the applicable Idaho quality program standards as determined by the State Board for Professional-Technical Education; and

2. **Agricultural Education Program Start-Up Grants** to provide funds up to four (4) grants per school year (no more than $25,000 per grant), for school districts and public charter schools to begin or to re-establish an agricultural and natural resource education program in any grade 9 through 12.

For the **Idaho Quality Program Standards Incentive Grants Fund**, the Division of Professional-Technical Education is requesting State General Funds in the amount of $300,000 and Dedicated Funds in the amount of $200,000.

The FY2014 total FTE of Agriculture and Natural Resource instructors was 126 and it was established that 40% of the instructors would initially meet the criteria of Idaho Quality Program Standards with a maximum grant of $10,000 per instructor. The total request of both State General Funds and Dedicated Funds ($500,000) would meet this need.

For the **Agricultural Education Program Start-Up Grants Fund**, the Division of Professional-Technical Education is requesting State General Funds in the amount of $25,000 and Dedicated Funds in the amount of $75,000.

This grant fund will provide up to four (4) Agricultural Education Program Start-Up Grants (not to exceed $25,000 per grant) to school districts or public charter schools to begin or re-establish an agricultural and natural resource program in any grade 9 through 12. The total request of both State General Funds and Dedicated Funds ($100,000) would meet this need.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The Division is requesting funds to implement Idaho Code Section 33-1629 (“The board of professional-technical education shall in its annual budget request to the legislature request funding for the grant program provided for in this section.”). Funds requested from the Idaho Quality Program Standards Incentive Grants Fund will be used to award up to 50 grants to secondary school districts for programs that meet or exceed the applicable Idaho quality program standards established by the State Board for Professional-Technical Education. Funds requested from the Agricultural Education Program Start-Up Grants funds schools to begin or re-establish an agricultural and natural resource education program in any grade 9 through 12.
2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      None
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      None
   c. List any additional operating funds and capital items needed.
      None

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   See cover sheet

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
   Secondary students enrolled in, or who want to enroll in, agricultural and natural science education programs in Idaho's school districts and public charter schools.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
   None

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal 1, Objective B
Higher Level of Educational Attainment – Increase the educational attainment of all Idahoans through participation in Idaho’s educational system.

**Performance Measure:**
1. Increase graduation rates for the College of Southern Idaho from 18% to 28% by fiscal year 2018 (May of 2018) – IPEDs definition of graduation rate. Fall of 2014 benchmark
2. Increase retention in degree and certificate programs at the College of Southern Idaho from 50% to 60% by fiscal year 2018 (May 2018) IPEDS definition of Fall to Fall retention. Fall of 2104 benchmark
3. Increase the number of students earning degrees or certificates by 30% by fiscal year 2018 (May 2018). Fall of 2014 benchmark
4. Increase credits successfully completed by 15% by the Fall of 2017 based upon Fall of 2014 credits.

The above performance measures are in support of SBE benchmarks
1. Attain a 75% new full time student return rate for the second year in Idaho community colleges.
2. Attain 20% of head count for post-secondary unduplicated awards for certificates requiring one academic year or more of study.

Description:

The Idaho State Board of Education has set a goal of 60% of all Idahoans between the ages of 25 and 34 receiving post-secondary education or training in order to meet today's needs in the workforce. The JA and Kathryn Albertsons Foundation (JKAF) has also strongly supported post-secondary education through their funding initiatives and “Go On” programs.

Though bachelor’s and graduate degrees are important, the community colleges feel very strongly that these goals can only be met through a combination of associate degrees, professional technical education, certificates and customized workforce training.

The proposed model is based upon successful pilot programs funded by short term grants at our institutions and proven programs successfully implemented throughout the nation. This model, based in part on Complete College Idaho, is one of career counseling, guided pathways for success (GPS), mandatory orientation, intensive and intrusive advising, redesigned remedial courses, continuous follow up and expanded tutoring. It is high touch and highly successful. From a student’s perspective, it requires a significant amount of effort for a shorter period of time and a much greater probability of success.

Each institution is at a different point in implementing programs to increase student success and therefore will have different needs. The funding distribution for this request is based upon each institution’s academic FTE as reported to the Idaho State Board of Education.

The following outlines the needs of each institution:

College of Southern Idaho
1. Career and Transition Coordinators: 4 FTE ($32,000 salary plus benefits = $50,000) = $200,000, plus $20,000 operating expenses = $220,000
80% of Idaho students graduate from high school but only 47% receive postsecondary training. We are missing the link in the transition to between high school and college. The new career and transition coordinators would work closely with recruiting and admissions staff in
helping students at the beginning of their postsecondary training and education. In addition to providing extensive outreach/recruiting services, staff would be involved in career coaching to assist students in making the right choices at the start of their education. In fulfilling this expanded customer service role, staff would not only ensure students were admitted but also make sure they completed orientation, were advised, registered, applied for scholarships, and had a financial plan. Staff would assist the student with any administrative problems. These staff members would deal primarily with full time students in both professional technical and academic programs. This is at once an educational process about careers in the recruiting phase and an integrated advising and enrollment process. The end result of this process is an individualized education plan that will lead to timely and successful program completion.

2. Advising Staff: 4 FTE ($32,000 salary plus benefits = $50,000) = $200,000, plus $60,000 in operating expenses = $260,000
   We have completed the first year of a very successful pilot program with funding from the JKAF. This pilot program targeted at-risk students (i.e. minority, first generation college, underprepared and economically disadvantaged). Based upon the pilot program results and with assistance from our existing advising staff, we would implement intrusive advising with a case management model. Each advisor would have mandatory meetings 4 times a semester for new students for the first year and at least two meetings per semester for the following semesters. These advisors would also provide mandatory orientation that involved academic, financial and career information for new students with assistance from faculty and staff. In addition to staff, operating expenses include enhanced scheduling software and student tracking systems.

3. Remediation Reform: 4 Instructional FTE ($41,000 salary plus benefits = $60,000) = $240,000, plus $60,000 equipment = $300,000
   The new instructional staff would be supplemented by existing faculty in the establishment of an open laboratory type setting with computerized developmental coursework. The year round labs would be staffed by trained instructional staff to monitor and assist each student in completing coursework at his or her own pace. Credit would be awarded based upon outcomes.

4. Expanded Tutoring and Student Mentoring: $80,000 Part-time and Adjunct
   Expand resources for post-gateway high risk classes such as biology, chemistry, high level math, nursing, etc. based upon success ratio of the courses. This would involve hiring skilled students and staff to assist in these areas, and these instructional coaches will be available during a wide range of open hours for these services will serve to improve completion rates.
5. Instructional Designer: 1 FTE ($70,000 plus benefits = $95,000), plus $45,000 in operating expenses = $140,000
   This position would not only oversee quality in all of our online course offerings, but also would assist faculty in bringing up courses to the required level and monitor all courses for quality. The goal of this position is to increase success rates in all online courses through redesign and utilization of the most successful teaching techniques. While gateway courses would be targeted, the position would also assist in the development of quality online programs, not just courses.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The request is for funding to develop a comprehensive approach to postsecondary educational services for all students. The approach involves the investment of resources on the front end of a student's educational experience in order to increase program completion at the most economical price possible. Job coaching, recruitment, orientation, placement, advising, registration and follow up services are all significantly enhanced through this proposal.

   The primary purpose of this request is to not only increase completion rates for all programs, but also to increase the number of students participating in post-secondary training. This is a direct response to both the Idaho State Board of Education 60% goal and the JKAF “Go On” campaign.

   The base funding for salaries and benefits for the existing five advisors and an advising director is $327,900. The base funding for salaries and benefits for two recruiters is $97,200. Both of these amounts are in the College of Southern Idaho General Fund account.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      4.0 FTE Recruiter/Advisor, $32,000, Full Time, Full Benefits @ $18,000, Hire Date of July 1, 2015, 12 month contract
      4.0 FTE Advisor, $32,000, Full Time, Full Benefits @ $18,000, Hire Date of July 1, 2015, 12 month contract
      4.0 FTE Faculty Instructor, $41,000, Full Benefits @ $19,000, Hire Date of August 1, 2015, 9 month contract
      0.0 FTE Faculty/Adjunct Faculty Tutors, $25 per hour, No Benefits, Hire Date of August 1, 2015
      1.0 FTE Instructional Designer, $70,000, Full Time, Full Benefits, Hire Date of July 1, 2015, 12 month contract
b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

The existing CSI Admission and Recruiting functions will be restructured to ensure student follow-up is continuous and relevant. Coordination with Advising will also be enhanced along with increased, coordinated orientation and registration services for students.

c. List any additional operating funds and capital items needed.

We are requesting $20,000 in travel funds for Recruiting/Advising to increase the number of students we can reach. This will involve more intensive job coaching, advising and follow up than our current model.

We are requesting $10,000 in travel funds for our advising staff for professional development and collaboration with other institutions concerning best practices. We are requesting $20,000 in supplies for our advising staff to facilitate intensive advising through an increased number of student orientations held at various times throughout the year. There will be orientations every week in the summer. We are requesting $30,000 for software enhancements for advising to allow us to track students through stages of recruitment, orientation, advising, registration and completion. The software will provide a platform to assist in intensive advising. The data gathered will assist in determining the best practices for successful outcomes.

We are requesting $10,000 in travel, $5,000 in supplies and $30,000 for faculty professional development for our instructional designer position. The travel is to ensure that our instructional designer and selected lead staff stay current on best practices. The $5,000 is for various faculty events and meetings concerning instructional improvement. The $30,000 for professional development is to expose our faculty to innovative instruction. This will involve speakers, travel, webinars and direct instruction.

We are requesting $60,000 for a computer lab for remediation reform. The new lab will allow us to use assistive software for developmental students in an open setting with faculty to provide assistance. The objective is to get students up to college level within a single semester rather than multiple semesters.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

The entire request is for General Funds. The $60,000 computer lab is a one-time start-up equipment purchase. Replacement computers will be funded from institutional funds.
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request is to improve the services we provide to students to ensure they are successful in their post-secondary experience. As noted in our Performance Measures, we expect to see more students, to serve them better and to increase completion rates.

If this request is not funded, we will continue to run pilot programs serving small groups of students. This will refine the development of programs but it will not have a major effect on increasing enrollments and completion rates.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
This is the first year for this request.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

**Supports institution/agency and Board strategic plans:**

CSI Strategic Initiative 1: Student Learning and Success  
Goal 1: Demonstrate continued commitment to and shared responsibility for student learning and success.

*Performance Measure:*

1. The success rate of students testing into developmental education and completing their course of study will increase from 30% to 60% by fiscal year 2018 (May 2018)
Description:

One of the major barriers in getting students started on a career track is getting them through the general education requirements of math and English. 40% to 60% of incoming first-time fulltime students place into remedial math, remedial English, or both, and students often take several semesters to complete traditional developmental education courses as a part of this process. Many get discouraged and quit.

Responding to pilot program results and evidence-based practices aligned with Complete College Idaho, CSI recognizes remediation reform is essential. Students must be accurately diagnosed in terms of their specific deficiencies, and then engaged in specialized learning opportunities and activities and their progress through these activities closely monitored. College personnel would facilitate the instruction, but the management interface, learning activities, and progress monitoring requires specific technology and potentially cloud-based data systems.

CSI proposes to secure access to a software solution that will accomplish these various interventions and activities. The anticipated outcomes are:

- Thorough identification of student-specific instruction
- Targeted, precise, individualized computer-based learning, facilitated by CSI personnel
- Automated progress reporting for enhanced student engagement
- Shortened time to enter gateway courses
- Economical alternative to multi-credit developmental courses
- Higher efficiency and success rates of student participants

There are many variables in the pricing of a hosted software system with these features. This request is for the purchase of a base system from which we can build upon based upon our measured success and best practices.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The request is for $100,000 to pay for a hosted system and associated training for a specialized learning software system.

   Existing instructional staff will be trained in the use of the software.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   Existing instructional staff will be trained in the use of the system.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   Developmental education faculty, both existing and if the need exists, new faculty, will be trained both in the use of the software and in the teaching methods required for this type of instruction.
c. List any additional operating funds and capital items needed.
   No additional operating funds are required.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   Based upon the anticipated use of the program, we expect the annual maintenance and licensing fees to be approximately $150,000 per year for the hosted solution.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
   Students are the primary recipients and beneficiaries of this request. The anticipated impact will be significant in that both the timeline to gateway course participation will be accelerated and the rate of course completion will increase.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
   The prior year Line Items that were not funded were not requested this year. In light of CSI’s commitment to remediation reform consonant with the CCI Plan, this line item poses a more critical need.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal 3, Objective B: Data Informed Decision Making – increase the quality, thoroughness and accessibility of data for informed decision-making and continuous improvement of Idaho’s educational system.

Performance Measure:
1. Through the use of data analysis and continued participation with the Idaho State Board of Education, relevant, reliable, comparable data will be used in making management decisions. CSI will be able to participate in providing reports and data required by various entities.
Description:
The College of Southern Idaho currently has two part time staff assigned to institutional research and reporting. In addition to traditional on-going ad hoc, IPEDS and administrative management reports, we have added reporting for the statewide longitudinal data system, the community college Voluntary Framework for Accountability, Complete College America, new Northwest Accreditation core standards and the Student Success Initiative. The staff is also responsible for Institutional Profile Report, a 150 page book of current as compared to historical data, charts and graphs specifically for CSI, which is completed every two years.
In addition to reporting, there is a growing emphasis by the Idaho State Board of Education for institutional research staff to participate in state and national conferences. We are also experiencing a movement towards analytics for predictive data and efficiencies. Analytics can provide valuable data but it is time intensive.
Two part time people cannot keep up with this workload.
This request is for funding to hire one full time institutional researcher to assist our two part time staff. This position will provide consistent support to our existing staff along with improving the process of getting needed reports for evaluation and decision making.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
   A full time institutional researcher position is being requested to assist in addressing the overwhelming amount of reporting and data analysis required both internally and externally.
   Currently, we have two part time staff doing institutional research. The Dean of Instructional Technology spends part of his time on research and the remaining time supervising all network, hardware, web, telephone and telecommunication systems. This involves oversight of approximately 24 staff members. A research specialist who also does all ad hoc reporting for our Student Services and Business Office departments is also involved in institutional research.
   The total of $104,400 is currently being spent in this area.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      1.0 FTE, Institutional Researcher, $76,000, Full Time, Full Benefits, Hire Date of July 1, 2015, 12 month contract
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      The new institutional researcher will report to the Dean of Technology. The existing two part time staff performing institutional research will share duties with the new position with the work being divided between them.
   c. List any additional operating funds and capital items needed.
We are requesting $2,000 for a high functioning computer and the applicable software.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

The entire request is from the General Fund. The $2,000 for the computer and software is a one-time start up equipment purchase. Replacement equipment will be from institutional funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The College is the prime entity being served through the utilization of data to make good decisions to efficiently provide services to students. If this request is not funded, we will have to prioritize what we can do with the existing staff. This may mean not participating in various programs, data reporting and state sponsored events.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This is the first year of this request. The FY 2016 line items prioritized higher were not a part of a prior year request.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal 1, Objective B
Higher Level of Educational Attainment – Increase the educational attainment of all Idahoans through participation in Idaho’s educational system.

Performance Measure:
1. Increase retention in degree and certificate programs at North Idaho College from 54% (the 3 year average of Fall09 to Fall11) to 63%
2. Increase percentage of new students at North Idaho College who are awarded a degree or certificate from the current 20.8%.
3. Increase percentage of career program completers employed in related field from 54.9% to 65%.

The above performance measures are in support of SBOE benchmarks.
1. Attain a 75% new full time student return rate for the second year in Idaho community colleges.
2. Attain 20% of head count for post-secondary unduplicated awards for certificates requiring one academic year or more of study.

Description:

The Idaho State Board of Education (SBOE) has set a goal of 60% of all Idahoans between the ages of 25 and 34 receiving post-secondary education or training in order to meet today’s needs in the workforce. The JA and Kathryn Albertsons Foundation has also strongly supported post-secondary education through their funding initiatives and “Go On” programs.

Though bachelor’s and graduate degrees are important, the community colleges feel very strongly that these goals can only be met through a combination of associate degrees, professional technical education, certificates and customized workforce training.

The proposed model is based upon successful pilot programs funded by short term grants at our institutions and proven programs successfully implemented throughout the nation. This model, based in part on Complete College Idaho, is one of career counseling, guided pathways for success (GPS), mandatory orientation, intensive and intrusive advising, redesigned remedial courses, continuous follow up and expanded tutoring. It is high touch and highly successful. From a student’s perspective, it requires a significant amount of effort for a shorter period of time and a much greater probability of success.

Each institution is at a different point in implementing programs to increase student success and therefore will have different needs. The funding distribution for this request is based upon each institution’s academic FTE as reported to the Idaho State Board of Education.

The following outlines the needs of each institution:

North Idaho College
1. Coordinator Retention/Completion: 1 FTE ($60,000 salary plus $20,000 benefits), $2,500 operating expense and $1,500 equipment. = $84,500
   A Coordinator for Retention/Completion will help to manage, develop and implement retention strategies to support student cohorts, and will help develop measurable goals to enhance student progress to degree completion. In addition to closely tracking student progress, the coordinator will assist with developing reports and will work with campus leaders to plan and provide support for broader campus retention efforts. The Coordinator will support instructional efforts to help sustain several grant-funded programs. This position will assist students with student services needs as they enter programs, track and aid students through their programs, and provide employment assistance as they complete programs.
2. Advising Staff: 4 FTE ($45,000 salary plus benefits = $60,000) = $240,000 plus $8,000 in operating expenses and $6,000 in capital outlay = $254,000
   We have has a very successful pilot program with funding from the J.A. and Kathryn Albertsons Foundation (JKAF). This pilot program targeted at-risk students (i.e. minority, first generation college, underprepared and economically disadvantaged). Based upon the pilot program results and with assistance from our existing advising staff, we would implement intrusive advising with a case management model. In addition to staff, operating expenses include travel and training and capital outlay includes computers and some office furniture.

3. Summer Remediation Program: 3 FTE ($45,000 salary plus benefits = $45,000) = $180,000, plus $6,000 equipment and $4,500 operating expenses = $190,500
   The new staff would be supplemented by existing faculty in the establishment of an open laboratory type setting with computerized developmental coursework for math and English. The year round labs would be staffed by trained instructional staff to monitor and assist each student in completing coursework at his or her own pace.

4. Transition Coordinator: 1 FTE ($45,000 plus benefits = $60,000), plus $2,500 operating expenses and $1,500 equipment = $64,000
   A Transition Coordinator position will work closely with recruiting and admissions staff to help students transition from secondary to post-secondary programs. The Transition Coordinator will provide pathways coaching, will assist students in navigating through admissions and financial aid requirements, and will aid students with their education plans. Integrating the sometimes overwhelming admissions process with early advising ensures a smooth transition for students and a clear path toward timely completion of their program of study.

5. Support for Faculty Engagement in Intrusive Advising: 5 FTE (part time and adjunct faculty) plus benefits = $144,000
   The college has successfully implemented Intrusive Advising for at-risk students but has only been able to implement it on a small scale. Since faculty are often the first and most important point of contact for new students, they are in a position to recognize the early signs of an "at-risk" student such as sudden non-attendance or sudden failure to turn in work. Frequent faculty-student contact in and out of the classroom is the most important factor in student motivation and involvement. By providing support for faculty engagement in intrusive advising, the college can identify at-risk students early in their program thereby moving a greater number of students toward completion.

6. Faculty Professional Development: $80,000 operating expense
   Several faculty-driven curriculum process changes are underway at NIC as a result of the state-wide General Education Reform (GEM) initiative,
and the adoption of the Guided Pathways approach to reducing time to graduation. The need for professional development for faculty is great so that the work continues toward identifying an explicit core with shared learning outcomes that clearly guides students toward their educational goals. NIC has begun work to review and implement a redesigned core that will not simply generate more degrees, but will generate quality degrees, and to both collect and use assessment data to make core course improvements.

7. Expansion of Quality Matters: 1 FTE ($60,000 plus benefits = $80,000), plus $50,000 in instructional stipends, $52,000 operating expenses and $1,500 in equipment = $183,500

The Quality Matters project at NIC is aimed at creating a continuous improvement process for assuring the quality of online instruction. The project will involve faculty, instructional designers, and staff in best practices in instructional design. The project will help to systematically ensure the quality and consistency of NIC’s online courses resulting in greater success rates for online students.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The request is for funding to develop a comprehensive approach to postsecondary educational services for all students. The approach involves the investment of resources on the front end of a student’s educational experience in order to increase program completion at the most economical price possible. Job coaching, recruitment, orientation, placement, advising, registration and follow up services are all significantly enhanced through this proposal. The primary purpose of this request is to not only increase completion rates for all programs, but also to increase the number of students participating in post-secondary training. This is a direct response to both the Idaho State Board of Education 60% goal and the JA and Kathryn Albertson “Go On” campaign. The base funding for salaries and benefits for the existing staffing includes six advisors and advising Director totaling is $338,700. This amount is in the NIC general fund. We also have two positions funded by the Albertson’s grant in the amount of $93,000. This is grant funding.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   1.0 FTE – Transition Coordinator $45,000, full time with benefits at $15,000. Anticipated hire date 7/1/16. 12 month employee.

   1.0 FTE Coordinator Retention/Completion $60,000, full time with benefits at $20,000. Anticipated hire date 7/1/16. 12 month employee.
5.0 FTE Faculty/Adjunct Faculty Advisors 150 stipends at $800/credit. Taxes and retirement only benefits. Anticipated hire date 8/15/16
1.0 FTE Instructional Designer $60,000, full time with benefits at $20,000. Anticipated hire date 7/1/16. 12 month contract.
0.0 FTE Faculty/Adjunct Faculty Training Stipends, $500/faculty member for 100 faculty, taxes and retirement only. Hire Date of August 1, 2016
4.0 FTE Advising Staff $45,000, full time with benefits at $15,000. Anticipated hire date 7/1/16. 12 month contract
3.0 FTE Advising Staff $45,000, full time with benefits at $15,000. Anticipated hire date 7/1/16. 12 month contract

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

The existing NIC advising and instructional staff will train with and support these initiatives. There are already staff and faculty interested in and piloting these programs.

c. List any additional operating funds and capital items needed.

We are requesting $80,000 in professional development funds for instructional personnel to help the college with general education reform and to design better methods for collecting, utilizing, and sharing student learning outcomes assessment data. This work will guide students toward their educational goals. We are requesting $15,000 for computers for the new staff in this request as well as for office furniture. We are requesting $10,000 travel funds for the advising staff for professional development and collaboration with other institutions concerning best practices. We are requesting $11,000 in travel, $20,000 in supplies and $30,000 for training and professional development for our instructional designer position. The travel is to ensure that our instructional designer and selected lead staff stay current on best practices. The $20,000 is for providing supplies and training materials to the faculty being instructed in the new methods. The $30,000 for professional development is to expose our faculty to innovative instruction. This will involve speakers, travel, webinars and direct instruction.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

The entire request is for General Funds. The $15,000 for desktop computers and furniture is a one-time start-up equipment purchase. Replacement computers will be funded from institutional funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
This request is to improve the services we provide to students to ensure they are successful in their post-secondary experience. As noted in our Performance Measures, we expect to see more students, to serve them better and to increase completion rates.

If this request is not funded, we will continue to run pilot programs serving small groups of students. This will refine the development of programs but it will not have a major effect on increasing enrollments and completion rates.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This is the first year for this request.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal 3, Objective B: Data Informed Decision Making – increase the quality, thoroughness and accessibility of data for informed decision-making and continuous improvement of Idaho’s educational system.

**Description:**
The demand for more information to support regulatory compliance, strategic data driven decision making, ad-hoc and operational reporting needs is ever increasing. Renewed emphasis and institutional commitment and priority need to be given in the area of data development. An additional staff position in Information Technology will enable the College to markedly improve reporting and information analytics.

**Questions:**
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      1 FTE Data Analyst/Developer, $78,500 salary full time with benefits at $26,000. Anticipated hired date 7/1/16. 12 month contract.
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      No resources will be redirected. Existing operations will improve quality and availability of reporting to campus and constituents.
   c. List any additional operating funds and capital items needed.
      $5,000 for travel to training and meetings with other schools. $3,000 one-time funds for a desktop computer and office furniture.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   Funding request is for state general funds. $3,000 is for one time capital items (computer and office furniture).

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
   Since 2006, Information Technology has partnered with the Office of Institutional Effectiveness to develop an institutional reporting capability including a centralized, data-mart reporting environment. This environment utilizes Microsoft technologies and reporting tools that came at no additional cost to the institution due to our existing campus license agreement with Microsoft.

   Leveraging the Microsoft Business Intelligence suite of tools will pay great dividends to North Idaho College. The Developer position will not only assist and support the existing Information Center staff and data analysts but will further extend the college’s ability to complete current information initiatives and address new analytics initiatives, taking the data mart reporting platform to a new level.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Supports institution/agency and Board strategic plans:

**Performance Measures:**

**Narrative Support:** Since the passing of SB 1254, allowing concealed weapons on campus, the safety of our college campuses have come into question. Increased training and personnel within our campus security department along with the installation of surveillance cameras and expanding the capability for securing areas of campus through electronic access will serve to make our campus safer.

**Description:** Enhancing the capabilities of our campus security by providing an increased visual presence and ability to respond to multiple calls will better serve our students, employees, and visitors.

**Questions:**

1. What is being requested and why?
   
   Increased security personnel, campus wide exterior surveillance system, and enhanced electronic access controls. These 3 components will serve to improve the safety of our campus for students, employees, and visitors.

2. What is the agency staffing level for this activity and how much funding by source is in the base?
   
   We are requesting 2 full-time, benefitted staff positions. 100% of the funding for this position is base.

3. What resources are necessary to implement this request

4. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   
   All anticipated expenditures would be state general funds. $540,000 would be one-time funds for capital purchases.

5. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted

   Students, employees, and visitors to the North Idaho College campus will experience a more safe and secure environment. If this request is not funded, we will not be able to provide the enhanced level of safety and security we hope for.

6. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

   Line items from prior year budget requests have either been funded or are a lower priority within the North Idaho College mission and strategic plan.

Supports institution/agency and Board strategic plans:

Performance Measures:
Performance objectives and measures will be defined in the North Idaho College Electronic and Information Technology (EIT) Policy and Procedure.

Description:
The U.S. Department of Education, Office for Civil Rights is widely publicizing the recent May 4, 2012 University of Montana EIT compliance complaint against the institution. The Office for Civil Rights is reminding all post-secondary institutions that the remedial actions against the University of Montana should be viewed as a template to ensure colleges are in compliance with EIT requirements and standards. After reviewing the Department of Education, Office for Civil Rights Resolution Agreement with the University of Montana, NIC has recognized the need to designate/hire an Electronic and Information Technology (EIT) coordinator, develop an EIT Policy and Procedure, audit all college electronic systems for accessibility compliance, and develop a priority list to begin addressing deficit areas. NIC has already identified several deficit areas through past audit activity including the need to install web content compliance software, purchase a campus wide licensing for text to speech software system, upgrade computer kiosks, information stations, copiers, learning management systems including classroom technology and multimedia, phone systems, and also provide captioning of videos and film content to ensure accessibility for students with disabilities is adequately addressed. Additionally the EIT Coordinator would be responsible for identifying additional funding sources and grants to ensure continued electronic and information tech compliance across all NIC campuses and platforms.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

It is critical for North Idaho College to fully meet federal EIT compliance and in order to do so, both staff and capital outlay resources must be established and maintained. North Idaho College is requesting funds to expand and further develop its Electronic and Information Technology (EIT) compliance to ensure NIC systems are fully accessible for individuals with disabilities. In order to meet compliance standards, NIC must develop an EIT Accessibility Policy and Procedures, designate an EIT Coordinator who has the responsibility and commensurate authority to coordinate the College's Accessibility Policy and Procedures, perform an audit of EIT applicable systems at NIC, prioritize deficient systems, and then implement enhancement and corrective action to ensure EIT compliance. In addition to requesting base funding for an EIT coordinator position, several large scale EIT systems expenditures are also being recommended as part of this request.

Salary request for 1 full-time, benefitted staff position. 100% of the funding for this position is base.
Request funding for EIT upgrades and improvements which may include the following: website accessibility and website document compliance monitoring software; video and media accessibility and captioning capability; office equipment, copier and fax machine accessibility upgrades; information kiosks, ATM, and ancillary equipment upgrades; learning management system upgrades. 25% of the request is base to ensure ongoing accessibility systems upgrade and compliance.

2. What resources are necessary to implement this request?

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

The entire request is from the General fund. $116,000 is one time capital expenditure. Replacement, maintenance and future license renewal would be funded from other sources.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted.

Students with documented disabilities, as defined by Section 504 of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act of 1990, and the regulations that implement those statues at 34 C.F.R. Part 104 and 28 C.F.R. Part 35, from the five northern counties and served by North Idaho College will be legally served through the implementation of the EIT coordinator and applicable systems management and upgrades.

If not funded, colleges risk a similar response by the U.S. Department of Education, Office for Civil Rights as was taken against the University of Montana. Preventative and incremental adequately funded EIT adaptation towards compliance, guided by policy and procedures and facilitated by an EIT Coordinator, is preferred as opposed to immediate OCR sanction which may result in costly and immediately intervention.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

N/A. There have been no prior requests for an EIT Coordinator position or EIT system improvements and enhancements.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

**Idaho SBOE Goal 1, Objective B**

**GOAL 1: A WELL EDUCATED CITIZENRY** The educational system will provide opportunities for individual advancement.

**Objective B: Higher Level of Educational Attainment** – Increase the educational attainment of all Idahoans through participation and retention in Idaho’s educational system.
**Performance Measure:**

**CWI Goal 1, Objectives 1 and 3**

**Institutional Priority 1: Student Success** -- CWI values its students and is committed to supporting their success (in reaching their educational and/or career goals). CWI will develop educational pathways and services to improve accessibility.

**Objective 1:** CWI will improve student retention and persistence

**Performance Measure:** Semester-to-Semester Persistence rates will meet or exceed 80% by 2019.

**Objective 3:** CWI will provide support services that improve student success

**Performance Measure:** Persistence Rate first to second semester of enrollment for 1st time college attenders will meet or exceed 77% by 2019.

**Description:**

1. General Education Coordinator $50,500 salary plus benefits = $71,655; Credit for Prior Learning Coordinator $50,500 plus benefits = $71,655; Functional Analyst $45,600 plus benefits $65,726; OE $68,600 = $277,636

The State Board of Education recently approved a new General Education framework for Idaho post-secondary institutions to provide greater consistency and transferability among all public higher education institutions. This 36 credit framework represents a significant milestone for degree-seeking students. Currently, students completing this course of study are not awarded a formal certificate of completion and therefore are not counted towards the 60% goal. A general education academic certificate will allow the state of Idaho to formally acknowledge this milestone and capture these students in the count towards the 60% goal. CWI hopes to create such a certificate of completion. We believe this will not only significantly contribute to 60% of Idahoans, age 25 to 34, attaining a degree or certificate by 2020, such a certificate will provide dual credit students a goal of achievement prior to high school graduation (which they can transfer seamlessly to any of Idaho’s public postsecondary institutions). In addition, an academic certificate for general education completers is also significant to business and industry. In a 2013 workforce study conducted by Hart Research Associates, 95% of employers “put a priority on hiring people with the intellectual and interpersonal skills that will help them contribute to innovation in the workplace” and 95% of employers say that “a candidate’s demonstrated capacity to think critically, communicate clearly, and solve complex problems is more important than their undergraduate major.” CWI will utilize e-portfolios to assess our general education program—students will contribute “signature assignments” to...
demonstrate their knowledge, skills, and abilities. The intention of the portfolio, beyond programmatic assessment, is to provide students with artifacts and documentation to aid transfer, scholarship applications, honors program transfer, or employment opportunities. The General Education Coordinator will promote the general education academic certificate, act as a liaison between Academic Affairs and the Registrar to oversee academic certificate completion, act as a liaison to Advising to coordinate ongoing degree completion planning for students earning an academic certificate, and will be responsible for coordinating general education program assessment. CWI is also requesting a Functional Analyst to assist in all data collection, analysis, and reporting related to Complete College Idaho initiatives, including general education reform, transforming remediation, and strengthening advising.

A Coordinator of Credit for Prior Learning will assist students in aligning prior experience with course competencies. Students may be granted credit for relevant experience commensurate with coursework, thereby shortening time to degree.

2. Student Success Course: 2 FTE $90,000 plus benefits = $130,000; faculty training $18,000 plus benefits = $21,780; $7400 in OE = $159,180.

To align with the Complete College Idaho key strategy of Structuring Student Success, CWI has developed a first semester student success course with thoughtful intent to connect students with the institution, faculty and staff, support services, one another, and with themselves as college-level learners. Connecting with Ideas is a course designed for new degree-seeking students and is a required component of the reformed General Education framework. CWI requests two full-time faculty leads to implement the new curriculum; coordinate monitoring, assessment, and reporting related to this cornerstone course; as well as to provide training and maintain a professional learning community for up to 30 adjunct and full-time faculty who will be teaching the course at multiple campus locations. This course is designed to help students become engaged members of the academic community at College of Western Idaho and cultivate the habits of mind for lifelong achievement and success by encouraging students to claim their education through learning how to learn. This course addresses academic expectations and strategies, introduces students to college resources and services, financial literacy, and encourages personal responsibility and engagement in an effort to prepare students for navigating college life and life beyond college. CWI recognizes the need to provide a transitional, college-readiness course in order to create the level of institutional connection that is critical to retention, persistence, student success.

3. Study Plan: Ellucian software, OE = $55,000

In an effort to advise students more effectively, CWI requests funding to implement a study plan tool within our current enrollment system, Ellucian. This tool will interface with degree audit and allow students and advisors to establish a degree plan to clearly define the students’ pathway to a degree goal. Having this
information in a format that allows for early verification and ongoing advising and registration support will allow students to keep sight of their goals, plan accordingly, and improve time to degree by reducing miscalculations of academic requirements or course availability.

4. Recruiter: Ellucian software, OE $255,000

Ellucian Recruiter is advanced student recruitment and enrollment management software that provides insight into your prospect pool, using enrollment probability and predictive modeling to help you identify your ideal prospects. With Ellucian Recruiter, you have the ability to personalize your message to each prospect, with tools to ensure the message gets delivered the way they’ve said they want to hear from you. This tool will be especially valuable for outreach to high schools and to prospective student lists. Recruiter allows prospective students access to an online portal to initiate and track their application process, connect with advisors and receive information from the institution at relevant intervals throughout the process (including financial aid, assessment and placement, access to class schedules, etc.). CWI aims to improve the efficiency and ease of transitioning to the college. Capturing prospective students by improving accessibility helps strengthen the pipeline from secondary to post-secondary, and from the workforce to college.

5. Student Success: Ellucian software, OE $150,000

Ellucian Student Success CRM is a comprehensive set of tools focused on advancing student engagement, increasing retention, and measuring progress towards educational success. This solution connects the campus with student-centric services, processes, insights, and technology to help every student stay on track to graduate. Ellucian Student Success CRM helps institutions:

- Provide seamless, accessible, and easy to use systems and processes that clear pathways and remove unnecessary friction
- Detect problems early by monitoring student predicators, events, and behavior that indicate when a student is struggling.
- Engage students with personal and timely communications that help them become a meaningful part of the campus community
- Use insightful analytics to make the most of the data institutions already have

6. E-Campus Support Services: $100,000

CWI provides robust online instruction, and is currently planning a build-out of student support services online including advising, tutoring, and IT support. These services are critical to our mission of accessibility and creating learning opportunities for all students. Online retention is traditionally lower than traditional classroom delivery, but retention can be improved if the appropriate co-instructional support is available to online students.
Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
   The request is for funding to enhance our service to prospective students and current students alike, regardless of their academic background or goals. This funding will allow CWI to provide support and outreach services to potential students, with emphasis on accessibility and ease of navigation. This will also serve enrolled students by providing instructional enhancements that engage students in the learning process, set them up for academic success by providing a course specifically designed to connect students to the college, provide relevance to their future academic and work careers, and provide resources and pathways to reduce time to degree.
   CWI will utilize current staffing, outside of the following FTE requests, to implement the projects listed herein.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      1.0 FTE General Education Coordinator, $50,500, Full Time, Full Time Benefits @ $21,155, Hire Date of July 1, 2015, 12 month.
      1.0 FTE Credit for Prior Learning Coordinator, $50,500, Full Time, Full Time Benefits @ $21,155, Hire Date of July 1, 2015, 12 month.
      1.0 FTE Functional Analyst, $45,600, Full Time, Full Time Benefits @ $20,126, Hire Date of July 1, 2015, 12 month.
      2.0 FTE Faculty, $45,000, Full Time, Full Benefits @ $20,000, Hire Date of July 1, 2015, 9 month contract
      Faculty training stipends, $18,000, Full and Part Time, 30 faculty @ 20 hours *$30/hour, Benefits @ $3780.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      With the transition to the new general education framework, the human resources CWI currently allocates to teach elective core offerings will soon be reallocated to other competency areas, including the cornerstone course (Connecting with Ideas). CWI will utilize current IT staff to assist in implementation of e-portfolios and Ellucian software. CWI will utilize current online and support staff to build out online student support services.

   c. List any additional operating funds and capital items needed.

      We are requesting $20,000 in travel funds to assist in the professional development of faculty and coordinator positions.
      We are requesting $6000 for computers for new position requests.
We are requesting $50,000 for software product and implementation of e-portfolio system for all General Education students.
We are requesting $460,000 in Ellucian software products (Study Plan, Student Success, and Recruiter) to aid prospective and current students in their admissions process and pathway to degree.
We are requesting $100,000 to assist in the build out of online student support services.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

All funds requested are State General Funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

All degree-seeking students, online and face-to-face, will be served by this request. The expected impacts are an improved rate of persistence from first to second semester and a higher rate degree completion. We believe these projects will create a much stronger connection between the student and the College of Western Idaho. Forging that connection by providing the additional support and services, along with creating an engaging and meaningful experience, is critical to our retention and completion efforts.

If this request is not funded, we will continue to transition prospective students to enrolled students, as well as assist current students in academic planning as efficiently as possible. We will seek other revenue sources to assist our transition to the new statewide general education core, but may need to find alternative methods of assessment and ways to provide relevant meaning to students without implementation of e-portfolios. We will continue to build out online support services, perhaps at a decelerated rate. Overall, maintaining our current will not have a major effect on increasing enrollments, retention, and completion rates.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

The top two Line Item requests for FY 2015, Occupancy for Micron Center and nursing staff support, were both funded in the Community College appropriation. The other three Line Item requests, not recommended by the Governor, have been determined to be lesser priorities than providing comprehensive services to all students to assist with remediation and retention.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

**Idaho SBOE Goal 1, Objective B**

**GOAL 1: A WELL EDUCATED CITIZENRY** The educational system will provide opportunities for individual advancement.

**Objective B: Higher Level of Educational Attainment** – Increase the educational attainment of all Idahoans through participation and retention in Idaho’s educational system.
Performance Measure:
Postsecondary unduplicated awards (certificate of one academic year or more) as a percentage of total student headcount
Benchmark: 20% for 2-year institutions

CWI Goal 1, Objectives 1 and 4

Institutional Priority 1: Student Success -- CWI values its students and is committed to supporting their success (in reaching their educational and/or career goals). CWI will develop educational pathways and services to improve accessibility

Objective 1: CWI will improve student retention and persistence

Performance Measure: Course Completion rates will meet or exceed 80% by 2019

Objective 4: CWI will develop educational pathways and services to improve accessibility

Performance Measure: By 2019, 60% of Students who complete college prep coursework will earn a C or better in the corresponding gateway course

Description:
To address the Complete College Idaho (CCI) key strategy of Transforming Remediation, CWI has designed a new delivery system for college preparatory math. Rather than offering a sequence of college-preparatory courses as is the current practice, CWI will offer college-preparatory mathematics in a learning-lab setting staffed by qualified instructors.

“The problem with remediation starts with the current placement assessments and their failure to provide postsecondary institutions with the appropriate information necessary to determine both a student’s knowledge and abilities” (Complete College Idaho, 2012, p.11). The Math Learning Lab model will incorporate measures for assessment beyond standardized cut scores, including specialized diagnostic assessments of each student’s mathematical knowledge and skills. This diagnostic measure will provide individualized learning plans that allow students to focus only on the curriculum they need in a modular, self-paced format with individual monitoring and just-in-time instruction.

The Math Learning Lab model aligns with the Board’s strategic objective of increasing educational attainment through participation and retention in Idaho’s educational system. Of CWI students placed in the remediation pipeline, fewer than half persist to a college-level math course. This model is designed to move students more quickly into a college-level math course by focusing instruction only on areas of need, thus saving the students money, eliminating the “stop-out” points that exist within the current remediation ladder of sequential courses, and accelerating time to degree. This model also aligns with CWI’s strategic initiative of student success by creating a pathway for remediation that will support course-level retention and bolster persistence to and
success in college-level courses for students who are initially placed in pre-college mathematics.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

CWI requests funding for two Math Learning Labs to be located on the Nampa and Ada campuses. Labs will include 90 student workstations (180 total), including data infrastructure, which will serve 1200 underprepared math students at each location. Two FTE, Director of Math Learning Lab and Nampa Site Coordinator, are included in the request, along with workstations and computers for each. Technology and infrastructure are critical to the design of the lab. Students will utilize specialized software for diagnostic assessment, module testing, and daily homework (including online tutorials) related to their individualized study plans.

Current personnel budget for 45 adjunct faculty teaching approximately 200 sections of pre-college math is approximately $590,000. With the new delivery model, adjunct faculty will transition to instructional lab staff and budget will be reallocated to fund part-time staffing in the new model. Full-time faculty will also participate in lab-based instruction.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   Two full-time positions are requested to manage and coordinate the Math Learning Labs at Ada Campus and Nampa Campus:
   
   Director, Math Learning Lab, Ada Campus; $62,000 salary, plus $23,570 benefits, total $85,570; full-time; January 2015 date of hire, 12 month term.
   
   Site Coordinator, Math Learning Lab, Nampa Campus; $56,000 salary, plus $22,310 benefits, total $78,310; full-time; May 2015 date of hire, 12 month term.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   Approximately 200 sections of pre-college math courses will be eliminated and reformatted into the Math Learning Lab model; 45 adjunct faculty will be retrained and reassigned as instructional methodology will transition from traditional delivery to a needs-based, individualized instructional approach. CWI anticipates utilizing our current full-time and adjunct faculty to deliver instruction.

   c. List any additional operating funds and capital items needed.

   180 student workstations, $800/unit (including data), total $144,000.
182 computers (180 student, 1 director, 1 coordinator), $1,200/unit, total $218,400
1 director workstation, $1,500
1 coordinator workstation, $1,200
2 check-in systems, $3000/unit, total $6,000

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   All funds requested are State General Funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   According to CCI (2012), “Of first-time, full-time students who enrolled in a 2-year Idaho postsecondary institution, nearly 67% were identified as needing remediation. Of students who have been away from high school for more than a year, 46% were identified by Idaho postsecondary institutions as needing remedial services” (p. 11). Underprepared students in mathematics is the primary population served by this request. The Office of the State Board has set a date of Fall 2015 for full implementation of transformed remediation delivery. The impact of this request will allow CWI to implement a nationally-recognized model that has demonstrated and documented success of improving student retention, persistence, and success. CWI will be seeking additional external funding sources for the Math Learning Labs. If this request is not funded, CWI may need to reassess the timeline for implementation which will impact students’ ability to benefit from an accelerated preparation.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

   The top two Line Item requests for FY 2015, Occupancy for Micron Center and nursing staff support, were both funded in the Community College appropriation. The other three Line Item requests, not recommended by the Governor, have been determined to be lesser priorities than providing comprehensive services to all students to assist with mathematics remediation and retention.

   Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Idaho SBOE Goal 1, Objectives A

GOAL 1: A WELL EDUCATED CITIZENRY  The educational system will provide opportunities for individual advancement.
Objective A: Access – Set policy and advocate for increasing access for individuals of all ages, abilities, and economic means to Idaho’s P-20 educational system.
Performance Measure:

CWI Goal 1, Objectives 1; Goal 2, Objective 1
Institutional Priority 1: Structure Student Success – The College of Western Idaho will implement a variety of programs to foster students’ success in reaching their educational and/or career goals.

Objective 1: CWI will be actively involved in college readiness efforts that prepare students for success.

Performance Measure: Promote and publicize the positive financial and personal benefits of earning a degree or certificate from a community college.

Institutional Priority 2: Develop Systems to Support Faculty and Staff – The College of Western Idaho will prioritize support for employees, which thereby maximizes student success.

Objective 1: Develop resource allocation guidelines to effectively deliver programs and services.

Performance Measure:

[To be developed]

Description:

CWI will initiate a ‘School Resource Officer (SRO)’ type program, which would be the most economical option for armed, P.O.S.T. certified law enforcement presence. This would be the most viable direction to proceed, considering the CWI two campus concept. The SRO would have oversight of all law enforcement issues, training, security assessments, and so forth.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
   CWI requests an additional $245,000 for armed police presence, as contracted from local police agencies. Currently, CWI does not employ armed police officers, either directly or by contract. The current staffing level for unarmed security is approximately 12 full time and 7 part time contract positions. CWI currently spends approximately $556,000 (FY 2014 dollars) for security (mostly for contract security staff).

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      This request includes two full-time, additional sworn police officers, contracted through a public law enforcement agency. It is estimated these positions would be in ‘Police Officer III – Advanced’, positions, with an hourly/annual pay rate of
$29.22/$60,778, plus benefits. These officers would be employed by a local law enforcement agency, with PERSI benefits.

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
   No existing human resources would be redirected.

c. List any additional operating funds and capital items needed.
   It is estimated that approximately $72,000 would be needed for vehicles for the officers (paid to the local agency via contract), training, equipment, and related.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   Fund source is expected to be the State General Fund.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Students, faculty, staff and visitors would all be served by this request. Due to the distance between CWI locations, it has been the procedure of CWI Security to provide a presence at all locations while the buildings are occupied with students. In locations such as Aspen Creek where the building are in close proximity, CWI Security provides an officer for the entire site and the officer covers all 3 buildings and grounds. This would also be the case in any location that has multiple building, or a more traditional campus setting.
   If this request is not funded, CWI will have to make operational budgets cuts in order to adequately implement and meet the mandate of the State.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
   This item has not been requested in the past.

   Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal 3, Objective A

In order to meet society’s critical needs in the area of agriculture, we must build a structure to adequately support our research and extension faculty and staff. This will require human capital to form a framework to support and enhance scientific discovery, revenue generation, dissemination of knowledge, and education of our youth. This team of support will increase our ability to be successful in the exchange of knowledge and resources and have a positive impact on Idaho and beyond.

**Performance Measure:** Align personnel costs with strategic plan direction to achieve a balance that is sustainable and will allow the Agricultural Research and Extension Service (ARES) to move forward to achieve our goals.
ARES is severely underfunded in personnel. We have qualified faculty and support staff to conduct research and extension activities but lack the funding needed to allow them to adequately focus in their areas of expertise. With the addition of the requested new positions, adequate funding for current positions and the addition of graduate assistantships, we expect to see a direct effect on productivity and retention (longevity of employment).

Description:
The College of Agricultural and Life Sciences, its Idaho Agricultural Experiment Station and its Cooperative Extension System face a number of major program challenges in our responsibilities to serve the people of Idaho and meet the essential needs of the State’s increasingly important agricultural industry. Among these challenges, several issues loom as extremely critical for Idaho’s agriculture and constitute program areas for which we are inadequately invested in scientific, youth development and technological resources.
The positions identified in this request would provide a structure that would assist the University of Idaho and the College of Agricultural and Life Sciences in obtaining a more competitive position in the job market and to allow faculty and staff to be in a better position to develop competitive, productive, sustained research and extension programs. The contributions from productive research and extension programs directly benefit virtually all of Idaho’s agricultural industry, communities, citizens, and stakeholders.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
We are requesting the following resources:

**Salary (3 FTE) 4-H Area Extension Educator Faculty (New positions)**
A nationwide longitudinal study conducted over an 8-year period by Tuft’s University documents that youth in grades 5 to 12 who are involved in out-of-school 4-H programs excel in many areas. These include academic achievement, interest in STEM programs, civic engagement, and healthy living choices.

Idaho 4-H engages over 56,000 Idaho youth (15% Hispanic) in various programs. The 4-H program is delivered in each Idaho county as a partnership between 4-H professionals and volunteers who focus on helping youth develop citizenship, healthy living, and STEM skills. We have grown youth enrollment from 30,272 in 2008 to 56,546 in 2013, and have increased the number of volunteers from 3,510 in 2008 to 5,062 in 2013. However, the 4-H Youth Development program is running at near capacity; to further expand youth involvement, three additional faculty positions, one for each Extension district, are needed to provide program leadership and district-wide technical support in 4-H science, healthy living and citizenship. These faculty will train volunteers and 4-H staff and will focus on
expanding partnerships and bringing additional external resources to support the 4-H program.

Investing in the UI Extension 4-H Youth Development Program aligns directly with UI’s Strategic Plan (Goal 3); with UI’s Core Theme of increasing engagement and its STEM initiative, and with the College of Agricultural and Life Sciences Strategic Plan to develop the “Transformative Youth Development Program of Distinction”.

**Salary (16.2 FTE) for Technical Support (Existing Positions)**

Fully fund existing full-time technical support positions to support statewide research and extension programs. Positions are located at all Research and Extension Centers and in Moscow on the University of Idaho campus. Funding for existing full-time support staff positions was reduced to 50 percent in 2010 to meet budget reductions. This request re-establishes funding at 100 percent for full-time support staff. Support staff assist principal investigators with research and extension programs focused on developing and transferring knowledge of new, improved principles and practices that will enhance Idaho’s agriculture, and improve the lives of Idaho’s citizens. Principal responsibilities include supervising day-to-day operations of field, greenhouse, and laboratory aspects of programs; writing extension and research articles, reports and grant proposals, and preparing and presenting information to stakeholders. Fully funding these positions will significantly increase the productivity of research faculty who will subsequently be better able to focus on strategic areas as identified in our strategic plan as programs of distinction.

**Salary (1.0 FTP) Grant Writer – Classified Staff (Level 7) New position**

Enhance grant proposal competitiveness and success of College of Agricultural and Life Sciences faculty. The position will be located in Moscow on the University of Idaho campus and will have statewide responsibility in assisting faculty in identifying funding sources, and preparing and submitting grant proposals. The focus will be on grant proposals that are high value, multidisciplinary, integrated efforts that provide significant funding to College of Agricultural and Life Sciences faculty who will address research and extension needs important to Idaho’s agricultural industry and Idaho’s citizens. As part of the College’s strategic plan, we intend to increase research and extension extramural funding from $17 million to $25 million over the next 5 years. A grant writer is essential in identifying funding opportunities and gaining efficiencies through coordination of effort or this ambitious goal will not be attainable. The enhanced extramural funding will provide direct benefits to Idaho’s citizens and to agriculture by developing and transferring knowledge of new, improved principles and practices.

**Salary (1.0 FTP) Web Technician – Classified Staff (Level 5) New Position**

Provide web support primarily on the websites for University of Idaho Extension, which has a presence in 42 of the 44 counties, each with a separate series of
websites used to communicate to the stakeholders of that specific county. While there is a single person in each county that is trained to upload and edit information on the website, these efforts have to be coordinated and branded to appear as a cohesive unit. The Web Technician will help coordinate these efforts, provide technical support, and assure that information is readily accessible by the community and service the efforts of extension.

**Salary (0.5 FTP) Marketing and Communications Manager – Classified Staff (Level 10) Partial Funding of Existing Position**

As the land grant institution for the state of Idaho, it is our responsibility to not only identify problems and create solutions, but effectively communicate this to stakeholders. Although print media and websites were key to communication in the past, with advances in technology we recognize the need to expand our educational and information delivery in new ways (on-line short courses, interactive websites, blogs, social media platforms, etc.). To be successful in this arena, we must identify key personnel to coordinate these efforts across disciplines and to increase public awareness of the excellent resources CALS offers Idaho’s residents. The Marketing and Communications Manager will coordinate efforts to maximize efficiencies while increasing communications to external audiences and aligning efforts with priorities in the College of Agricultural and Life Sciences as outlined in the strategic plan.

**Salary Graduate Research Assistantship Stipends (7-10 New Positions)**

Graduate assistantship stipends must be provided competitively (best students) and strategically (high impact research and extension projects) to faculty located at all Research and Extension Centers and in Moscow on the University of Idaho campus. Funding for State supported graduate research assistantship stipends was reduced by 50 percent in 2010 to meet budget reductions. This request supports 7 to 10 master or Ph.D. level students. Graduate students assist faculty with research and extension programs focused on developing and transferring knowledge of new, improved principles and practices that will enhance Idaho’s agriculture, and improve the lives of Idaho’s citizens. In addition, graduate students conduct novel research important to Idaho, and are the next generation of agricultural science trained leaders.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      See #1 above
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      We have redirected .75 FTP to our marketing and communications effort in order to develop a long range plan for marketing and communicating our success to stakeholders.
   c. List any additional operating funds and capital items needed.
3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   100% of the requested $1,510,000 is recurring state general fund funding.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   The citizens of Idaho, the agricultural industry, and our growing export markets will be better served through improved research and extension activities if this funding request is approved. The same constituent groups will suffer if the request is not approved.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

   This request is a high priority for FY16 and will continue to be in future years due to the need to develop and disseminate information by several methods in order to reach a larger group of our stakeholders and significantly increase the opportunity for success for research and extension grant proposals submitted and awarded.
THIS PAGE INTENTIONALLY LEFT BLANK
Supports institution/agency and Board strategic plans:

Goal I: A WELL EDUCATED CITIZENRY – Continuously improve access to medical education for individuals of all backgrounds, ages, abilities, and economic means.

Objective A: Access – (SBOE) Set policy and advocate for increasing access; (WWAMI) recruit a strong medical student applicant pool for Idaho.

- **Performance measure**: the number of Idaho WWAMI medical school applicants per year, the number of funded medical student positions per year, and the ratio of Idaho applicants per funded medical student position.
Objective B: Transition to Workforce - Maintain a high rate of return for Idaho WWAMI graduate physicians who choose to practice medicine in Idaho.

- **Performance measure**: Cumulative Idaho WWAMI return rate for graduates who practice medicine in Idaho.

GOAL 3: Effective and Efficient Delivery Systems – Deliver medical education, training, research, and service in a manner which makes efficient use of resources and contributes to the successful completion of our medical education program goals for Idaho.

Objective A: Increase medical student early interest in rural and primary care practice in Idaho.

- **Performance measure**: the number of WWAMI rural summer training placements in Idaho each year.

Objective B: Increase medical student participation in Idaho clinical rotations (clerkships) as a part of their medical education.

- **Performance measure**: the number of WWAMI medical students completing clerkships in Idaho each year.

Objective C: Support and maintain interest in primary care medicine for medical career choice.

- **Performance measure**: Percent of Idaho WWAMI graduates choosing primary care specialties for residency training each year.

**Description:**

This is a request for the continuation of funding for the five Idaho TRUST (Targeted Rural Under-Served Track) students added in the FY14 Budget, who will now be continuing on into their third year of medical training in the WWAMI program at the University of Washington School of Medicine in Seattle.

The goal of the TRUST program is to provide an ongoing training connection between community workforce needs, medical education, and rural healthcare providers in Idaho. TRUST medical students will be specifically selected for their experiences and backgrounds in rural and underserved Idaho, and their commitment to returning to such communities to work as physicians where they are most needed. With a four-year curriculum that combines traditional medical training with additional classroom and clinical experiences developed around rural and underserved healthcare needs, TRUST students will develop long-term relationships with Idaho’s rural communities and physicians. The TRUST program is designed to admit, educate, place, train, and retain local Idaho students as future Idaho physicians.

Budget support for Year 3 is in the form of Trustee/Benefits payments under the WWAMI contract. No new positions, staffing, capital, or operating funds are included in this request. The increase in State funding goes entirely for medical student education for these five TRUST students admitted to the Idaho WWAMI program in 2013.
Supports institution/agency and Board strategic plans:

Description:

This new program request is for five (5) additional positions for medical students in the Idaho WWAMI program, beginning in FY16. With the transition of twenty WSU-based WWAMI students to Spokane in FY15, the Idaho WWAMI program has capacity for additional students; additionally, because of curriculum renewal, the University of Washington School of Medicine has increased capacity for the total number of medical students. Therefore, in an effort to increase the opportunity of the sons and daughters of Idaho citizens to attend a prestigious, highly ranked medical school and to potentially increase the number of physicians providing medical services in the state of Idaho in a timely manner, this request is to increase the incoming class of WWAMI students in the fall of 2015 to a total of thirty five (35).

To accomplish these goals and objectives, the Idaho WWAMI program needs to be authorized and funded to admit five additional students (new entering class total of 35 Idaho WWAMI students, fall 2015). This funding would come from the General Fund and dedicated funds derived from WWAMI tuition received by the University of Idaho. Specifically, new program costs are provided on page 1 of this request and would include:

1. A request to add one and a half (1.5) FTEs for faculty positions to implement curriculum renewal. This would take the form of three 0.5 FTE appointments; 1.0 FTE (two 0.5 FTE appointments) would be funded from General Funds and 0.5 FTE would be derived from dedicated funds.
2. Operating expenses for educating the five additional medical students, including anatomy supplies and equipment, study resources, clinical instruction, and other program costs.

3. Because we will be changing the curriculum beginning in the fall of 2015 to include both basic science and clinical medicine, and because additional revenue from this revised program will not be forthcoming until the following fiscal year, one-time funds are requested to support the salaries of clinicians that will be required to teach in the program (in the renewed curriculum, analysis of medical cases by the class will be directed by both a basic scientist and a clinician).

The FTE increase is requested to implement the instruction of additional subject areas of the renewed curriculum. In addition to personnel requirements, an expansion in medical student enrollment would require a modest increase in operating expenses for teaching these additional students.

This request for increased WWAMI medical student positions would be an ongoing request. It requires a commitment to not only increased funding and medical students in year 1 (FY16), but also ongoing commitments in years 2, 3, and 4 of medical school, with proportional costs in each of those years, as students move successfully through medical school toward graduation. Idaho WWAMI is currently at 30 students per year, or 120 total students in medical school. This request requires the addition of 5 students in the entering classes of FY16, FY17, FY18, and FY19 or 35 students per year, for a total of 140 Idaho WWAMI students enrolled in medical school by FY19 (Fall 2018). This initial request is relatively small. The ongoing commitment to medical education, growing the Idaho WWAMI total medical school enrollment from 120 to 140 students, is necessary for the future of Idaho communities.

This request also supports the recommendations of the State Board of Education’s Medical Education Subcommittee from January, 2009; specifically, recommendations #2 (increased WWAMI students), #5 (admissions selection for rural and primary care interests), and #6 (ensuring rural training rotations in Idaho as a part of students’ program).
Supports institution/agency and Board strategic plans:

**ISU Department of Family Medicine Strategic Plan 2015-2020**

**Strategic Planning – Mid-term (3-5 years)**
The ISU Department of Family Medicine has defined mid-term (3-5 years) and long-term (6-10 years) strategic planning components some of which are outlined below.

**GOAL 1: Access – Recruitment of physicians for Idaho**
Objectives for access
1. Maintain core residency program at 7-7-7.
   - *Performance measure:*
     - Number of residents.
   - *Benchmark:*
     - 21 residents in training.
Description:
Over the last three years the ISU Family Medicine residency has solidified their expansion from 18 to 21 residents with additional administrative and faculty supervising staff to meet education and accreditation standards for the enlarged residency. Funding was originally acquired through the federal Primary Care Residency Expansion (PCRE) monies which was an initiation funding for start-up costs. The residency now has to cover the ongoing permanent maintenance costs or alternatively reduce the residency back to 18. The increased support staffing required is 1.5 FTE at a cost of $90,000 for the additional three residents to be supported and supervised for each three years of residency.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   One full time faculty to supervise 6 residents in addition to the director is the minimum supervising ratio; one to four is the ideal ratio. The FTE administrative staff ratio is equivalent and this action will bring the ratio to 4.7 FTE admin staff for 21 residents or 1 administrative staff FTE to 4.5 residents.

2. What resources are necessary to implement this request?
   a. List by position: position titles: Residency Coordinator Full time, Residency Assistant Coordinator 0.5 FTE, Non classified permanent employees
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted. None
   c. List any additional operating funds and capital items needed. None

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.)

   This is an ongoing general fund request that was initially supported by federal PCRE funds for the first five years of the implementation of the increase in resident numbers.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   6000 current Family medicine patients in South East Idaho and tens of thousands of rural Idaho patients in the future practices of the graduates of the program

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
Medical Care of Idaho’s citizens is a high priority and supersedes most unapproved items from the previous year

Supporting documentation
The following is reproduced from the Accreditation Council of Graduate Medical Education’s (ACGME) Institutional requirements:

II B The Sponsoring Institution (ISU) must ensure that:
II B 2 programs Receive Adequate support for core faculty members to ensure both effective supervision and quality resident education.
II B 4 programs coordinators have sufficient support and time to effectively carry out their responsibility; and,
II B 5 resources, including space, technology, and supplies, are available to provide effective support for ACGME-accredited programs.

The ISU Family Medicine Residency respectfully submits this funding request to assist ISU FMR in meeting its ACGME requirements for maintaining a 21-resident complement.
Supports institution/agency and Board strategic plans:

**Goal 1, Objective D:** Improve the ability of the educational system to meet educational needs and allow efficient and effective transition into the workforce.

Expanding graduate medical education (GME/residency) training in Idaho has been identified as an educational and funding priority in the State of Idaho: the state-funded MGT Medical Education Study (11/1/07), the Idaho Medical Association (8/10/08, 8/1/13), the Legislative Medical Education Interim Committee (11/12/08, 8/1/13), and the State Board of Education (1/26/09). The State Board of Education rank ordered ten recommendations towards expansion of medical education (1/26/09). The first of these recommendations was to “expand the development of graduate medical education (residency programs) opportunities in the State of Idaho focusing on primary care and rural practice.”
The Family Medicine Residency of Idaho (FMRI) has produced 278 graduates since 1975, of which 150 are located in Idaho (54%). This ranks Idaho 7th in the nation in the ability to keep residents in the state they train in. Over 80% of FMRI graduates practice in Idaho or its contiguous states, and nearly 70% of those in rural or underserved areas. The high retention rate of family physicians speaks to the FMRI being a high-value program to the State of Idaho.

At any one time, FMRI has 48 family medicine residents in its three-year residency program and 3 fellows in training at over 30 different locations in Ada, Canyon, Jerome, and Twin Falls counties, as well as 28 additional rural rotation sites in nearly every other county of Idaho.

**Description:**

In the 2014-15 academic year, two large federal grants that helped support FMRI’s growth, the Teaching Health Center Graduate Medical Education (THC-GME) grant and the Primary Care Residency Expansion (PCRE) grant, will end. This will leave FMRI with a $1,350,000 budget shortfall. With these grants, FMRI was able to add 12 residents in the program. It is therefore imperative that Idaho steps up now to help support these residency positions or they will be lost to our program and our rural training tracks. This budget request of $411,300 will only be 30% of the shortfall, but in good faith will help stabilize FMRI so that it will not have to reduce its program from 16 residents per class to 12 per class at a time that Idaho needs this workforce the most.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
   
   $411,300 in ongoing General Funds is requested to help maintain the current family medicine residency cohort size of 16 residents per year for three years. Current state base funding for this program is $1,118,700 (T/B)

2. What resources are necessary to implement this request?
   
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      
      N/A
   
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      
      N/A
   
   c. List any additional operating funds and capital items needed.
      
      N/A

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   
   $411,300 in ongoing T/B General Funds is requested.
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted? Idaho ranks 49th of 50 states in regards to primary care physicians per capita and 49th of 50 states in the number of resident’s per capita training in our state. FMRI received federal grants to expand its class size and footprint in order to help Idaho meet its looming workforce crisis. This crisis has only been magnified by increased health insurance coverage and the need for timely access to high-quality primary care for all of Idaho’s citizens especially in the rural part of our state.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

N/A

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal 1, Objective D: Improve the ability of the educational system to meet educational needs and allow efficient and effective transition into the workforce.

Expanding graduate medical education (GME/residency) training in Idaho has been identified as an educational and funding priority in the State of Idaho: the state-funded MGT Medical Education Study (11/1/07), the Idaho Medical Association (8/10/08, 8/1/13), the Legislative Medical Education Interim Committee (11/12/08, 8/1/13), and the State Board of Education (1/26/09). The State Board of Education rank ordered ten recommendations towards expansion of medical education (1/26/09). The first of these recommendations was to “expand the development of graduate medical education (residency programs) opportunities in the State of Idaho focusing on primary care and rural practice.”
Description:
Kootenai Health Family Medicine Coeur d’Alene Residency (KFMR) will be in the continued startup phase of our Family Medicine Residency program, in the 2nd year operations for FY 2016. The program started-up in July 2014, with 6 R1 first year residents. In the subsequent two years an additional six residents will be added to attain the full complement of 6 R1’s, 6 R2’s and 6 R3 totaling 18 residents, each to complete the full three years residency training program.

The focus of this program is to train rural family physicians for Idaho. Kootenai Health, a community owned and operated health care entity has invested significant resources into this project of developing a family medicine residency program. Kootenai Health is requesting additional support funds, through the Idaho State Board of Education, from the Idaho Legislature.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
   The need stated is based upon the additional costs which we will encounter related to training our residents in urban and in rural settings, preparing them to be fully functioning family physicians.

   Residents must be sent to Spokane for more intense pediatric training at Providence Sacred Heart Children's Hospital, due to fact that regionally the more severely ill and injured children are transferred there for the more intense treatment needed. Specific costs encountered relate to the loss of federal GME support dollars and to revenues lost, in their absence from our clinic patient care operations. Each resident will spend a total of 12 weeks in Spokane.

   In addition, residents are sent to rural communities in North Idaho. Specific costs related to that experience include travel, place of residence in that community for 4 week blocks, and to specific revenues lost in our clinic patient care operations, in the absence of that resident.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      N/A
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      N/A
   c. List any additional operating funds and capital items needed.
      N/A

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
Projected expenses and revenues for FY 2016

- Kootenai Health ongoing annual investment: $945,000
- Federal Revenues: $1,632,000
- Family Medicine Center clinical revenues: $2,321,000
- State Appropriation (FY15): $200,000 (ongoing)
- State Appropriations Request (FY16): $180,000 (ongoing)

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

KMFR is specifically targeting the primary care physician shortage which exists in North Idaho and secondarily targeting the fact the State of Idaho is experiencing a significant physician manpower shortage, which will definitely become more acute over the next 5 to 10 years. The State of Idaho currently ranks number 49/50 in the state’s number of physicians per capita. It is projected that within 5 to 7 years, approximately 20 of the present 30 family physicians in the Kootenai County region will retire. In the state of Idaho it is projected that approximately 50% of the currently practicing family physicians will retire within the next 7 to 10 years. National research projects a 60,000 family physician shortage in the United States by the year 2020.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Supports institution/agency and Board strategic plans:

**GOAL 1: A WELL EDUCATED CITIZENRY**
The educational system will provide opportunities for individual advancement.

**Objective D: Transition** – Improve the ability of the educational system to meet educational needs and allow students to efficiently and effectively transition into the workforce.
Description:
The Idaho/UW Advanced Clinician Track is a four year University of Washington Psychiatry Residency program. After graduating from medical school, physicians learn psychiatry by treating patients in hospitals, emergency rooms and clinics. They train for two years in Seattle learning from world-renowned experts, then move to Idaho for their final two years learning from local experts at the Boise VA, Saint Alphonsus Hospital, Saint Luke's Hospital, Portneuf Hospital, Family Medicine Residency of Idaho and various other clinical sites. Our mission is to train excellent psychiatrists who could practice anywhere, but choose to stay in Idaho.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The Psychiatry Residency program is requesting $36,420 to cover personnel costs and General Funds, which reflects a 30% increase, to provide additional base funding support for the program. With additional money we will place our psychiatry residents in underserved communities using telepsychiatry. We will expand psychiatric coverage to those living in more remote areas of the state.

2. What resources are necessary to implement this request?

Additional state funding will be added to funding from St Luke’s, St Alphonsus and the Boise VA hospital funding.

a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
   Not applicable.

b. Note any existing human resources that will be redirected to this new effort and existing operations will be impacted.
   The additional money will be used to set up telepsychiatry rotations, working with hospitals throughout the state.

c. List any additional operating funds and capital items needed.
   Not applicable.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   Ongoing State General Funds
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The people living in remote areas of Idaho are served by this funding request, as are all citizens who benefit from physicians’ care. If we can extend our program’s reach to all corners of Idaho, we put technology to its best use by helping people. Treating common illnesses like depression and anxiety have a positive effect on other medical illnesses like high blood pressure and diabetes. Telepsychiatry programs have a profound effect on overall physical health. If we do not fund this request, we will not be able to expand psychiatry resident care into more remote areas of our state.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
   Not applicable.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal 1, Objectives A.1 and A.2; Goal 2, Objective A.1. This request will upgrade and develop university human resource competencies (faculty, staff and students) to strengthen disciplinary and interdisciplinary scholarship in forest resource economics that advances the college’s strategic themes and land-grant mission and are directly linked to FUR programs in the UI Experimental Forest and Forest Nursery complex. Scholarly modes of discovery, application and integration that address issues of importance to the citizens of Idaho will be enhanced by improving timber harvesting, forest productivity, regeneration, and management with respect to a full range of goods and services, including environmental quality as well as wood and paper products. The direct metrics of performance will be the number of CNR faculty, staff, students and constituency groups involved in scholarship or capacity building activities in forest resource economics research projects.
Goal 1, Objective B.2. Create new products, technologies, protocols and processes useful to private sector natural resource businesses such as timber harvesting and processing, consumer products manufacturing, forest regeneration and rehabilitation firms, as well as governmental and non-governmental enterprises and operating units. The direct metrics of performance will be the amount of non-FUR funding leveraged by FUR funded forest resource economics research projects.

Goal 2, Objectives A.2 and A.3. Engage with communities, governmental and non-governmental organizations through flexible partnerships that share resources and respond to local needs and expectations; in addition, foster key industry and business relationships that benefit entrepreneurship and social and economic development through innovation and technology transfer that will increase the productivity of Idaho's forests. The direct metrics of performance will be communities served and resulting documentable impacts from serving various communities, governmental and non-governmental organizations, and private businesses and landowners.

Goal 3, Objectives A.1, A.2 and A.3. Provide undergraduate, graduate and professional students with education and research opportunities in forest resource economics research and management that are integrated educational experiences with ongoing FUR and non-FUR research programs at CNR outdoor laboratories, including the University of Idaho Experimental Forest, the Forest Nursery complex, and McCall campus, and also engage alumni and stakeholders as partners in research, learning, and outreach. The direct metrics of performance will be number and diversity (as measured by variety of academic programs impacted) of courses which use full or partially FUR funded projects, facilities or equipment to educate undergraduate, graduate and professional students.

Description:

Advancing forest resource economics research at the University of Idaho by investing in human resources.

Forests cover nearly forty percent of Idaho and produce a wide variety of goods and services including timber, livestock forage, wildlife habitat, water resources, recreation opportunities, open space, as well as water purification and carbon sequestration. Forest lands are vital to Idaho's economy, and the ability to serve current and future generations will be influenced by our understanding of the economic costs and benefits, and secondary effects, of providing a variety of goods and services from Idaho's forests. Improving forest conditions and productive capacity through science and applied management and economics research in the current context of ecological and societal change will require analysis of newly integrative thinking and innovative practices to maintain and restore forest lands and the human communities that rely on them.
Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The College of Natural Resources is requesting $111,520 in the Forest Utilization Research (FUR) budget to provide full-time salary support, plus travel, operations, and capital equipment, for a new forest resource economics assistant professor to create research capacity to document with in-depth analysis the importance of forest-based enterprises in Idaho’s economy, including trucking and forest resource-based recreation and tourism. These resources will enhance the capability of FUR programs to work with stakeholders and leverage additional funds from other non-state sources, both of which help strengthen a traditional Idaho industry and the rural communities that long have relied upon the jobs from harvesting, transporting and processing timber into useful consumer products.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      The College of Natural Resources is requesting funds sufficient to provide full-time salary and benefits support for a new forest resource economics assistant professor.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      There will not be redirection.

   c. List any additional operating funds and capital items needed.

      The request includes $5,000 for travel, $5,000 for operating expenses, and $3,500 for capital equipment used to process data.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   Not applicable.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Research in forest resource economics using the requested resources will directly serve professional managers and state and private owners of Idaho forest lands and enhance the skills and tools to sustain and improve forest health and productivity. Rural communities and outdoor recreation stakeholders in Idaho benefit from productive forest lands that support economic enterprises, vigorous wildlife populations, fertile soils and abundant supplies of clean water.
5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first. This request has not been made previously.
Supports institution/agency and Board strategic plans:

Goal 1, Objectives A.1 and A.2; Goal 2, Objective A.1. This request will upgrade and develop university human resource competencies (faculty, staff and students) to strengthen disciplinary and interdisciplinary scholarship in rangeland resource management that advances the college’s strategic themes and land-grant mission and are directly linked to FUR programs in the UI Rangeland Center. Scholarly modes of discovery, application and integration that address issues of importance to the citizens of Idaho will be enhanced by improving invasive species management, wildfire management (including hazardous fuel treatment and post-fire regeneration to discourage invasive species), and integrated wildlife management (especially greater sage-grouse). Attention to these issues will help provide a full range of goods and services, including environmental quality as well as livestock grazing. The direct metrics
of performance will be the number of CNR faculty, staff, students and constituency groups involved in scholarship or capacity building activities in rangeland resource management research projects.

Goal 1, Objective B.2. Create new products, technologies, protocols and processes useful to private sector natural resource businesses such as rangeland livestock operators, vegetation regeneration and rehabilitation firms, as well as governmental and non-governmental enterprises and operating units. The direct metrics of performance will be the amount of non-FUR funding leveraged by FUR funded rangeland resource management research projects.

Goal 2, Objectives A.2 and A.3. Engage with communities, governmental and non-governmental organizations through flexible partnerships that share resources and respond to local needs and expectations; in addition, foster key industry and business relationships that benefit entrepreneurship and social and economic development through innovation and technology transfer that will increase the productivity of Idaho's rangelands. The direct metrics of performance will be communities served and resulting documentable impacts from serving various communities, governmental and non-governmental organizations, and private businesses and landowners.

Goal 3, Objectives A.1, A.2 and A.3. Provide undergraduate, graduate and professional students with education and research opportunities in rangeland resource management research and management that are integrated educational experiences with ongoing FUR and non-FUR research programs at CNR outdoor laboratories. Faculty, staff and students will work directly with ranchers to help them solve pressing management challenges and engage alumni and stakeholders as partners in research, learning, and outreach. The direct metrics of performance will be number and diversity (as measured by variety of academic programs impacted) of courses which use full or partially FUR funded projects, facilities or equipment to educate undergraduate, graduate and professional students.

Description:

Advancing rangeland resource management research at the University of Idaho by investing in human resources.

Rangelands cover more than forty percent of Idaho and produce a wide variety of goods and services including livestock forage, wildlife habitat, water resources, recreation opportunities, open space, and ecosystem services such as water purification and carbon sequestration. The ability to serve current and future generations will be influenced by our understanding of the environmental effects of providing these goods and services because rangelands are vital to the ecological and economic health of Idaho. Improving rangeland conditions and productive capacity through science and applied management in the current context of ecological and societal change will require analysis of newly integrative thinking and innovative practices to maintain and restore rangelands and the human communities that rely on them.
Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The College of Natural Resources is requesting $107,815 in the Forest Utilization Research (FUR) budget to provide salary and fringe benefits, plus travel, operations, and capital equipment, for a new Assistant Professor to increase the research capacity of the Rangeland Center to focus on wildfire and invasive species management, especially to maintain and restore habitat for greater sage-grouse. These resources will enhance the capability of FUR programs to work with stakeholders and leverage additional funds from other non-state sources, both of which help strengthen a traditional Idaho industry and the rural communities that long have relied upon the jobs from rangeland resources, including livestock grazing, vegetation management, and recreation.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   The College of Natural Resources is requesting funds sufficient to provide full-time salary and fringe benefits support for a new rangeland resource management Assistant Professor.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   There will not be redirection.

   c. List any additional operating funds and capital items needed.

   The request includes $5,000 for travel, $5,000 for operating expenses, and $3,500 for capital equipment used to process data.

Supports institution/agency and Board strategic plans:

This *Landslide Inventory and Hazard Research Program* support **Goal 1** of the IGS Strategic Plan:

**OUTREACH AND ENGAGEMENT (SERVICE)**

1) *Achieve excellence in collecting and disseminating geologic information and mineral data to the mining, energy, agriculture, utility, construction, insurance, and financial sectors, educational institutions, civic and professional organizations, elected officials, governmental agencies, and the public. Continue to strive for increased efficiency and access to Survey information primarily through publications, Web site products, in-house collections and customer inquiries. Emphasize Web site delivery of digital*
products and compliance with new revision of state documents requirements (Idaho Code 33-2505). Maintain concentrated effort to collect and preserve valuable geologic data at risk.

Objective A: Produce and effectively deliver relevant geologic information to meet societal priorities and requirements.

*Performance Measure:* Number of published reports on geology/hydrogeology/geologic hazards/mineral and energy resources.

Objective B: Build and deliver Web site products and develop user apps and search engines.

*Performance Measure:* Number of IGS web site viewers and products used/downloaded.

Description:

Idaho Geological Survey (IGS) is the lead state agency for the collection, interpretation, and dissemination of geologic and mineral data for Idaho. The Survey accomplishes its mission through research, service, and outreach activities, with an emphasis on the practical application of geology to benefit Idaho and economic development within the state.

The state of Idaho needs a sustained hazards research program and a comprehensive, accurate, easily assessed, and updatable landslide inventory. The IGS presently lacks sufficient staff, however, to conduct and sustain a state-wide landslide inventory without jeopardizing ongoing earthquake research and geologic mapping efforts in high-priority areas such as southwest Idaho where important oil and gas exploration is taking place.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This request seeks funding for one permanent (new FTE) Research Geologist position dedicated to landslide inventory and related geologic hazard research. IGS appropriations were drastically reduced in FY10 and staffing levels for essential programs have been cut to below adequate levels. The agency presently has only one geologist with expertise in hazards-related research such as landslides and earthquakes. This state-supported geologist is heavily involved in externally funded earthquake studies and geologic mapping efforts in southeast and southwest Idaho, all of which are critical to fulfilling the IGS mandate. While we recognize the need to increase geologic hazards efforts with regard to landslide mitigation, it is impossible to do so without additional staff.

2. What resources are necessary to implement this request?
a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Salary for a new, full-time Research Geologist (faculty position). We anticipate hiring a permanent, full-time, benefit-eligible Research Geologist by July 2015.

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Research Geologist, a current IGS employee whose salary is covered by state funds, will reduce his geologic mapping effort to devote 5 weeks/year to landslide work.

GIS Data Manager, a current IGS employee whose salary is partially covered by state funds, will reduce his website management effort to devote 5 weeks/year to landslide work.

c. List any additional operating funds and capital items needed.

- PC and software for new Research Geologist
- High-precision 3D photogrammetry workstation and state-wide digital images from existing National Agricultural Inspection Program (NAIP)
- Travel expenses in support of field work and outreach/education activities.
- Software and hardware upgrades and maintenance for photogrammetry workstation

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

Personnel costs and travel are ongoing. Capital outlay is one time.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Idaho’s infrastructure, particularly roads, railroads, and canals, are susceptible to expensive landslide damage. These events have the potential to isolate communities, damage homes, and disrupt vital economic activities. This risk is increasing because of greater incidence of wildfires and movement of populations and infrastructure to landslide-prone landscapes. Reduction of this risk begins with a comprehensive inventory of landslides because the most accurate predictor of future landslides is the presence of past landslide activity. The last statewide inventory was conducted by the IGS in 1991. It is out-of-date and lacks sufficient detail to protect infrastructure. National inventories by the U.S. Geological Survey are even more inadequate. For example, despite a
history of costly landslides near Bonners Ferry, the U.S.G.S. landslide map shows the Idaho panhandle to be an area of low landslide incidence.

Beneficiaries of landslide research will include county and municipal governments, state agencies (Idaho Bureau of Homeland Security, Idaho Transportation Department, and Idaho Department of Lands), and the general public.

**Impacts if funding not provided**

The deadly Oso, Washington landslide disaster of March 22, 2014 underscored the need for accurate, up-to-date landslide inventories that are easily accessed and understood by the public and local jurisdictions. Sustained action over a period of years that reduces or eliminates the risk of landslide losses is needed and cost effective. As noted by the Idaho Bureau of Homeland Security:

“For every $1 spent [on mitigation], $4 in losses prevented……”

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This is the highest priority request.

program provides six-year grants to states and partnerships to provide services at high-poverty middle and high schools which are designated as GEAR UP schools. GEAR UP started in Idaho in FY 2007 with the renewable scholarships starting in FY 2013.

GEAR UP allocates $852,300 per cohort to the State of Idaho. In fiscal year 2016 there will be three cohorts requiring funding. The GEAR UP selection and funding is based on a student’s financial need, academic merit, and participation in GEAR UP. The scholarship rules require the minimum award is not less than the applicant’s Pell Grant amount. The Pell amount is currently $5,730. The 2015 spending authority allows for 297 total students in the three cohorts to be funded at full Pell amounts. Looking ahead to FY 2016, FY 2017, and FY 2018, there will be three cohorts in 2016 at $852,300 per cohort for a total of $2,556,900 which will fund 446 students. In 2017 two cohorts require funding for a total of $1,704,600 and 297 students. And the final year 2018 one cohort of 152 students for a request of $852,300 will be required. One variable that changes this projection is the Pell funding amount. If the Pell amount is increased by the federal government in 2016, 2017, or 2018 then the current request has the potential to not cover the minimum Pell requirement. The money not expended stays in the GEAR UP fund, so it is prudent to request the full amount allocated by GEAR UP.

The appropriation for FY 2015 is $1,704,600. This request is to increase the spending authority for the GEAR UP program in FY 2016 one-time by $852,300.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This request reflects an increase of $852,300 in one-time federal funds spending authority for GEAR UP scholarships. This request does not affect staffing levels.

2. What resources are necessary to implement this request?

   No additional resources are required as current staffing levels are sufficient.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   Federal spending authority with grant funds already awarded.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   GEAR UP is designed to increase the number of low-income students from high-poverty middle and high schools that are prepared to enter and succeed in postsecondary education. GEAR UP provides students an opportunity to apply for a 4-year renewable scholarship based upon financial need and level of participation in the program and funding for participating students to prepare for and take the ACT test. The GEAR UP Program will serve over 5,500 students in Idaho during the life of the grant.
5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Supports institution/agency and Board strategic plans:

Goal 1, Objective A

Goal 1, A Well Educated Citizenry, calls for providing opportunities for individual enhancement and Objective A, Access, advocates for increasing access for individuals of all ages, abilities, and economic means to Idaho’s P-20 educational system.

Performance Measure: Percent of need met by available need-based financial aid.

Description:
The Opportunity Scholarship is Idaho’s signature hybrid scholarship which factors awards based on merit and need. It is designed on a shared responsibility model with state dollars being the “last dollars”. This means that a student must apply for federal aid, have a self or family contribution element before they would be eligible for the...
Opportunity Scholarship. In FY07 and FY08, the initial years of this program, $20 million dollars was put into an endowment fund and $1.925 million was designated to fund scholarships for the 2007-2008 and 2008-2009 academic years. Approximately 700 students each year have received this renewable scholarship with the majority of students receiving the maximum award of $3,000.

As a result of the financial difficulties during FY10-FY12, funds were not available to fund neither the endowment nor the ongoing scholarships, however, the Board was permitted to use the earnings from the endowment and $1,000,000 from the corpus in those years. This allowed us to fund qualifying renewals, but new awards were limited. In FY13, the discontinuance of the federal LEAP and SLEAP scholarships freed up the state match of $550,800 in state General Fund dollars which was reallocated to the Opportunity Scholarship. This amount combined with $449,200 from the corpus provided a total of $1,000,000 available for scholarships.

In FY14, Senate Bill 1027 consolidated several existing scholarships into a reconstituted Opportunity Scholarship resulting in $1,045,800 set aside for scholarships out of the general fund with no planned reductions to the corpus. The Scholarships Committee planned use of existing funds in FY15 calls for a consolidation of most scholarship programs into the Opportunity Scholarship program resulting in a total of $5,277,300 which will fund over 1,500 students with a scholarship. More scholarships may be funded depending on the average award amount.

This request is for $4,322,700 from the state General Fund to bring the total amount to $9,600,000 for FY 2016. This would provide 2,000 new scholarships and enough funding for an expected rate of 50% renewals for the second year returning students. The goal is to increase the Opportunity Scholarship over the next three years to be able to fund 2,000 new scholarships and 1,000 renewals as shown in the table on the next page.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   $4,322,700 is requested to bring the total General Fund Opportunity Scholarship to $9,600,000 in order to award 2,000 new scholarships fund renewals estimated at 50% of the prior year new awards.

2. What resources are necessary to implement this request?

   No additional resources are required as current staffing levels are sufficient.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   $4,322,700 in ongoing General Funds

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   The State Board of Education has set an ambitious goal that 60% of Idahoans ages 25-34 will have a college degree or certificate by the year 2020. It is estimated that postsecondary education attainment for this adult population is currently at 40%. One of the key drivers for meeting this goal is access. The Opportunity Scholarship is Idaho’s primary scholarship for helping students afford a postsecondary education.

   The value of a four-year degree is at an all-time high. The wage differential between those with a four-year degree and those with a high school degree has grown to 81% -- higher than at any time in the past 90 years. Thus, if this request is not funded, not only could it impact the earning power of thousands of Idahoans, it will also ultimately impact the state’s tax base.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

   N/A

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:  
This request to add additional business consultants at the Idaho Small Business Development Center supports:

- Governor Otter’s “Accelerate Idaho” initiative by empowering business creation, expansion and innovation through high-quality, no-cost business consulting.
- The State Board of Education’s objectives for adult learners through individualized coaching of small business owners and entrepreneurs.
- The State Board of Education’s objective to prepare students for entering the workforce by providing experiential learning through class projects and internships with small business clients.
- Boise State University’s core theme for community commitment.
- The Boise State College of Business and Economics’ goal to support economic development through collaboration with public and private organizations.

Description:

The Idaho Small Business Development Center has been providing no-cost consulting and coaching to Idaho’s small businesses and entrepreneurs since 1986 through a network of 6 offices hosted by Idaho’s colleges and universities. This request enhances the Idaho Small Business Development Center’s resources to help small business start, grow and prosper by adding 4 FTEs for business consulting. Funding will be distributed between each of the existing offices to support businesses in rural areas, businesses new to exporting and businesses with an innovation as their competitive advantage.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

$298,100 is being requested to add 4 FTEs to the Idaho Small Business Development Center network. $290,100 is for salary and fringe and $8,000 is for travel so that personnel can travel to rural areas and also travel to local and national conferences for professional development.

The request is for ongoing funding that would be added to the base.

2. What resources are necessary to implement this request?

a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Positions will be Business Consultants in all 8 locations. Two offices will receive funding for new part-time non-benefit eligible hires. Five offices will receive funding to increase hours for existing benefit eligible positions. The State Office will receive funding to leverage with SBA funding to hire a new full-time position for assistance to technology/innovation companies statewide. (See Funding Distribution Calculations attachment for more details.)

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

The only existing human resources that are impacted are those positions that will have increased hours.

c. List any additional operating funds and capital items needed.

The request includes $8,000 in travel funds ($1,000 per position) to support professional development at twice yearly internal conferences, an annual national professional development conference and for travel to rural areas.
3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

*Please see the table above and the Funding Distribution Calculations attachment.*

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

*This initiative will accelerate business creation and expansion in Idaho by providing Idaho’s entrepreneurs and small business owners with no-cost individualized coaching and assistance to improve their skills and success. The Idaho SBDC has a proven 28-year track record of achieving an average return on investment of 4:1. Idaho SBDC clients consistently outperform their peers with clients’ sales routinely 5 times that of the average small business in Idaho (see attached Impact Report).*

*Small businesses are the engine of the economy and responsible for creating 60–80% of the net new jobs. The focus is on innovative companies and companies new to exporting. Technology/innovation firms typically create higher paying positions and companies engaged in exporting are bringing additional wealth into the state. Strong partnerships are already in place so that there is no duplication of services.*

*The goal of this initiative is to grow Idaho’s economy. Expected annual impacts after the first year of development are:*
  * 16 new businesses started
  * 100 jobs created
  * $2 million increase in sales
  * $2 million capital raised
  * 15 companies new to exporting
  * 15 companies with innovations/technologies
  * 10% growth in economic impacts in rural Idaho

*If this request is not funded, the increased growth for Idaho’s businesses will not be realized.*

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

*No prior year request.*

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Services

Consulting Our primary service is no-cost confidential consulting tailored to individual businesses’ needs. Our coaches are available by appointment and help solve even the most complex problems. Most have MBAs or a related degree and have owned their own small business. 1,678 clients served in 2013.

Training We offer a continual schedule of affordable trainings designed to teach practical business skills. Our consultants and local business professionals serve as instructors. Classes compliment coaching sessions and help clients progress even faster. 2,517 attended trainings in 2013.

Resources The SBDC serves as the focal point for coordinating with other programs and services, both public and private, to bring additional expertise and resources for client assistance. We also help clients build a strong team of professionals to support the business.

Supports institution/agency and Board strategic plans:

GOAL 1: A WELL EDUCATED CITIZENRY
The educational system will provide opportunities for individual advancement.

Objective A: Access - Set policy and advocate for increasing access for individuals of all ages, abilities, and economic means to Idaho’s P-20 educational system.
Description:
Currently the Public Charter School Commission (PCSC) the PCSC authorizes 35 schools. Thirty-three schools are currently in operation and two are scheduled to open in the fall of 2014 (there are also three unapproved petitions under consideration). In addition, new public charter schools may be authorized each year. The number of authorized schools has increased to the point where 2.5 people simply can no longer provide support to the Commission and manage the day to day oversight of the schools. For example, lack of adequate staff makes it impossible to conduct thorough reviews of chartered schools without obvious or reported deficiencies. Absent thorough reviews, staff is unable to advise charter school boards and the PCSC regarding areas in need of improvement and ultimately provide data-driven, context-based recommendations regarding renewal or non-renewal. As a result, the PCSC’s ability to fulfill its mission of maintaining high standards, upholding school autonomy, and protecting students and taxpayers is compromised.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
2. The Public Charter School Commission (PCSC) requests 1.5 FTE in the form of a full-time program manager position and a half AA2 position.

Current staffing for this program is 2.5 FTE. Beginning in FY2015 source of funds is 100% Public Charter Authorizer fees, prior to that it was General Funds. PCSC needs an additional professional level staff position to facilitate the oversight of all schools authorized by the PCSC. This position would act at the direction of the executive level staff person to evaluate, report, and respond to school performance. This would include analysis of school finances and academic results, evaluation of compliance and governance, and frequent communication with schools and stakeholders. Additionally, this position would be responsible for gathering information and supporting PCSC meetings, appeals, and hearings.

PCSC currently has a 0.50 FTE for administrative support. PCSC needs to move this to a full-time position in order to manage the increased workload associated with staff work oversight of 35 schools.

Nationally, statewide charter school authorizing commissions average 0.44 FTE per school (Source: Authorizing Roadmap: National Perspectives on Quality Authorizing, 2013 Report by National Association of Charter School Authorizing Senior Advisor Nelson Smith). To match average national staffing levels, the PCSC would have more than 15 FTE.

In order to accommodate necessary growth in staffing, ongoing funding is also requested for increased lease space.
3. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      Program Manager (1 FTE), Pay Grade N (80% of policy = $27.80), full-time, non-classified, benefit eligible, hire date: July 1, 2015
      Administrative Assistant II (0.50 FTE), Pay Grade I, classified, benefit eligible, hire date: July 1, 2015

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      The current half-time AA2 position supporting this program would be moved to full-time.

   c. List any additional operating funds and capital items needed.
      $12,500 in ongoing operating expenses is requested for 1,000/SF lease space in the Borah building. Unlike other Capitol Mall office space, all space in Borah rent for $11.19 per SF. Ongoing OE is also needed to lease a photocopier.

4. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   On-going General Funds

5. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
   Approximately 11,700 students are served by the 35 PCSC-chartered schools. Lack of adequate PCSC staffing levels has a material impact on oversight to help ensure the delivery of quality education at these taxpayer funded schools.

6. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
   Not Applicable

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Description:

Idaho has been approved as part of the State Authorization Reciprocity Agreement (SARA) through the Western Interstate Commission for Higher Education (WICHE). SARA is an agreement among member states, districts and territories that establishes comparable national standards for interstate offering of postsecondary distance education courses and programs. It is intended to make it easier for students to take online courses offered by postsecondary institutions based in another state. SARA is overseen by a National Council and administered by four regional education compacts.

Any degree-granting institution based in the United States, holding proper authorization from Congress, a U.S. state or a federally recognized Indian tribe and holding accreditation from an accrediting association recognized by the U.S. Secretary of Education is eligible to apply to its home state to participate in SARA if that state is a SARA member. For more information: http://nc-sara.org/what-does-institution-do

Institutions that wish to apply for Idaho State Authorization must register by completing an application, paying a state fee to the Idaho State Board of Education and receive a confirmation of their authorization status. An institution seeking approval to operate under the terms and standards of SARA must meet the requirements of application. Idaho will be charging an application fee of $1,500.00. The application fee is due when application is submitted. Registrations for state approval are voluntary, however institutions can only apply to their home state. Private institutions operating out of multiple states apply to the state of their headquarters.

The following table is an estimate of the annual application fees for public, private and exempt institutions in Idaho. Possible uses of these funds include staffing to assist with complaints and to conduct investigations.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   Spending authority is requested in order to use the fees generated through this program. Staffing levels have not been estimated at this time and will be provided in August. The current Miscellaneous Funds spending authority is not sufficient for this new program.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      No FTP is requested at this time.
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      It is unknown at this time the long-term human resource needs to review applications, respond to complaints and conduct investigations.
   c. List any additional operating funds and capital items needed.
      OSBE is requesting $21,000 in Miscellaneous Funds spending authority which is the total estimated amount of fees under the State Authorization Reciprocity Agreement.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   $21,000 ongoing Miscellaneous Funds

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
   Idaho students will benefit by make it easier for them to take online courses offered by postsecondary institutions based in another state by establishing comparable national standards for interstate offerings of postsecondary distance education courses and programs.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
   Not Applicable

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal 1  SBOE Goal 1 is a well-educated citizenry. IdahoPTV’s objectives to meet this goal are to provide high quality television programming and new media content, and to provide relevant Idaho-specific information.

Description:

This year Idaho Public Television has a unique opportunity to capitalize on prospective support from private funders to offer Idahoans an in-depth look at our state’s rich history. We are asking for base funds to move forward with plans to create a televised multi-media series that will bring to life the people and events which shaped our state’s past and present. Similar to the PBS program, THE AMERICAN EXPERIENCE, the
ongoing series would be produced in a collaborative effort with the Idaho Historical Society and other educational institutions.

For the 2009 legislative session, both the State Board of Education and Governor Otter recommended funding for the Idaho Experience Line Item request. For the 2010 legislative session, this request was approved by the State Board of Education.

Questions:

1. What is being requested and why?

Idaho Public Television proposes to preserve and enhance Idaho’s heritage by producing two historical documentaries and related Web sites annually, and to make them available to students, teachers and the Idaho public. We will work closely with educators to align the series with Idaho’s school curriculum and to present the material in ways that is both engaging and accurate. This is an exceptional opportunity for us to capture and examine the history of our state so that we can help educate and inform Idaho’s citizens, both our youth and adults.

To date, there are no other known efforts to produce comprehensive multi-media documentaries about influential Idahoans and the forces that shaped our state. Idaho Public Television is uniquely positioned to be able to take on such a task. Our past efforts to do so have produced award winning documentaries such as ASSASSINATION: IDAHO’S TRIAL OF THE CENTURY and the recently released CAPITOL OF LIGHT. Both films have been widely praised for their fascinating and comprehensive portrayal of Idaho’s history.

Using these programs as a template, each new documentary will be broadcast several times throughout the state, with unlimited off-air record rights for educational institutions. Enhanced DVDs and web-based media of the programs will be available to the Idaho Commission for Libraries for circulation to libraries throughout Idaho via interlibrary loan. The documentaries will be closed-captioned for the hearing impaired and a companion Web site will be developed to take the program beyond the television screen and enhance educational opportunities for Idaho’s teachers and students.

Working together with the Idaho State Historical Society and Idaho’s universities and colleges, we will help to conserve Idaho’s heritage by preserving valuable, unique documents and artifacts that are presently stored in the partners’ collections but are unusable because of their fragile condition.

In addition to State of Idaho contributions to this effort, Idaho Public Television will seek additional resources to enhance and expand this effort. As mentioned above, we have already been approached by funders interested in supporting this idea.
What is the agency staffing level for this activity and how much funding by source is in the base? N/A

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   PTV Producer/Director, pay grade L, full-time, classified, anticipated hire date July 1, 2015, salary cost estimated at $57,886; benefited with benefit costs estimated at $23,058, position ongoing.

   PTV Writer/Reporter/Producer, pay grade L, full-time, classified, anticipated hire date July 1, 2015, salary cost estimated at $57,886; benefited with benefit costs estimated at $23,058, position ongoing.

   PTV Director/Videographer, pay grade J, full-time, classified, anticipated hire date July 1, 2015, salary cost estimated at $45,781; benefited with benefit costs estimated at $20,443, position ongoing.

   Group Position at $25,000 to aid as an Associate Producer.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   The primary human resources that will be redirected are portions of time from the Executive Producer and Production Manager for oversight of the series. In addition, existing technical/engineering, promotional and administrative (primarily fiscal) personnel support. The series will utilize existing equipment, studios, production control, and editing suites. A vehicle would be needed to ensure travel was possible.

   c. List any additional operating funds and capital items needed.

   IdahoPTV will need new computers for use by the new positions along with workspace modifications. A vehicle is listed to accommodate the travel that will be needed. This series will be filmed throughout Idaho and some limited out-of-state locations.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumptions (e.g. anticipated grants, etc.).

   N/A
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The population of Idaho would be impacted most. There are historical issues unique to Idaho that should be documented for a viewing audience. Idaho schools would be benefitted by the extensive Web site planned for this series and DVDs, web streaming, and on-air programming would be distributed by IdahoPTV. Certain programs from this series may have regional and national broadcast potential.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

N/A

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:
Goal 2 Objective 5

Objective: IDVR will maintain a comprehensive system of personnel development (CSPD) standard for IDVR counselors.

Benchmark: Vocational Rehabilitation Counselors will maintain all CSPD standards for their position annually and all Vocational Rehabilitation Specialist positions will be in compliance with the agency’s standard to reach CSPD in FFY 2014.

IDVR will have trouble meeting this standard without this increase because we are having trouble recruiting counselors that meet this standard because of the low salary. We lose many counselors to Health and Welfare agencies because their pay for equivalent positions start $3 an hour higher than ours.
Description:
IDVR is requesting funds to increase funding for our Vocational Rehabilitation Counselors (VRC) positions to a level that is still $1.50 an hour less than an equivalent position in Health and Welfare. IDVR will evaluate this effect and if it is still having difficulty retaining staff will request in the future a comparable salary to other state agencies with positions requiring a Master’s in a similar field.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
IDVR has 68 VRCs and 8 Regional Managers in the agency, besides the other staff of the agency. These VRCs provide the most essential service IDVR offers Counseling and Guidance. It is critical for IDVR to achieve its goals that we have high quality VRCs. Unfortunately IDVR has had trouble hiring VRCs that meet the criteria as laid out in our Comprehensive System of Personnel Development that is a part of our State Plan that is submitted to the Rehabilitation Services Administration. Our VRCs are required to have or be able to sit to become Certified Rehabilitation Counselor (CRC). This requirement means that they have a Master’s in Rehabilitation Counseling or a Master’s in a similar field and 18 hours of graduate level studies in vocational rehabilitation. This severely limits our pool of candidates. In addition IDVR has lost many VRCs to other state agencies that pay substantially more for a similar education.

Staffing level for this function is currently 76.0 FTP VR Counselors and Regional Managers at a cost of $5,297,000, split between $1,065,000 from general funds, $62,600 from dedicated funds and $4,169,400 from federal funds.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
   IDVR currently has 76 non-classified positions in the field offices that would be impacted. Position titles are Vocational Rehabilitation Counselors and Regional Managers all of them full-time with benefits.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
   No existing human resources will be redirected.

   c. List any additional operating funds and capital items needed.
   No additional operating funds or capital outlay is needed.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
The federal grant is sufficient to fund up to 78.7% of this cost and those funds are currently being returned to the federal agency because the 21.3% non-federal share is insufficient.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request ultimately makes it so IDVR can serve our customers better. By being able to recruit and retain quality VRCs IDVR will reduce the impacts of overstaffed caseloads that result in diminished services as well as unnecessary changes between counselors that stagnates progress for the customer.

If this request is not funded IDVR will face considerable difficulty recruiting and retaining VRCs throughout the state. We have already had a lot of difficulty hiring VRCs in certain parts of the state.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal 1 Objective 1

Objective: To provide customers with effective job supports including adequate job training to increase employment stability and retention..

Performance Measure: To enhance the level of job preparedness services to all customers.

GRAND TOTAL $1,200,000 $1,200,000
Description:
IDVR is requesting $1,200,000 in Federal funds to have a sufficient amount of funds available to pay for assessment, training, tools, education, supplies, transportation, medical and other items to assist people with disabilities prepare for, secure, retain or regain employment.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
IDVR is requesting additional Federal funds to be able to meet the requirements of the Federal vocational rehabilitation program. In FY 2014 the Division's budget was reduced by $2 million dollars in Federal funds to more accurately reflect what the Division had actually spent on the program in FY 2012. However, services increased by 7% in FY 2013 and through March of 2014 services had increased another 13%. Without this increase the Division may not be able to meet the current requirements of the Vocational Rehabilitation program. If that was the case then IDVR would need to adjust how the program operates in Idaho and would not be able to serve all those who need service.

1. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      None
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      None
   c. List any additional operating funds and capital items needed.
      None

2. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
IDVR has not been using all of the Federal funds allocated to the State, but has been remitting available funds back to the Federal Government. The $1.2 million in Federal funds is available to be used for this purpose.

3. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
This request will allow IDVR to continue to serve all of our customers without limiting available services.

4. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
The Council for the Deaf and Hard of Hearing is requesting one (1) additional FTE identified as Communication and Outreach Coordinator. The Council for the Deaf and Hard of Hearing is a unique state agency following its mission of being “Dedicated to making Idaho a place where persons, of all ages, who are deaf or hard of hearing have an equal opportunity to participate fully as active, productive and independent citizens.” Using the formula of 13% provided by the Gallaudet Research Institute, an estimated 203,785 people in Idaho have hearing loss:
Currently, there are only 2 FTE’s working for the Council, the Executive Director and an Administrative Assistant. With the establishment of Idaho Sound Beginnings (newborn hearing screening) children who have hearing loss are being identified earlier, baby-boomers are increasing and veterans are returning to civilian life. The aforementioned causes the need for an additional staff member to provide specific functions for the Council. The role of the Communication and Outreach Coordinator would be to increase awareness of the Council’s role, services and programs throughout the state of Idaho. Strategies may include developing collaborations with community organizations, staffing exhibit tables at expos, providing training sessions, developing and disseminating information and resources, and managing external and internal communications.

One-time funds for initial office set up as desk, chair, desktop/laptop computers, monitors, warranties, and docking station is also being requested.

Currently there is no agency staffing for this position and no funding by source is in the base.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   The title of this position is: Communications and Outreach Coordinator
   Pay Grade: K
   Full Time Status
   Full Benefits
   Anticipated Date of Hire: July 1, 2016
   Terms of Service: NA

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   Existing Human Resources would be redirected to hire candidate. If this position were approved and funded, it would allow the two current staff members to spend 100% of their time on their assigned duties.

   Currently the Executive Director and Administrative Assistant are the only staff involved in providing information, workshops, presentations, and everyday operations of the Council. This position would relieve some of the
burdens of the current staff to provide the necessary services dictated by Idaho Code Chapter 13, Title 33

c. List any additional operating funds and capital items needed.

Additional operating funds:

Office lease $200/mo $ 2,400.00 annually
Cell Phone $ 1,200.00 annually
Overnight travel ~ 10 x ~ 80 $ 800.00 annually
Per Diem ~ 20 x 33.00 $ 660.00 annually
Flights ~ 2 @ $400 $ 800.00 annually
Communication/accommodation svs $10,000.00 annually

TOTAL Additional Operating Funds $15,860.00

Capital Items

Desk $740.00
Chair $570.00
Desktop $650.00
Desktop Warranty $ 60.00
Laptop $970.00
Laptop Warranty $100.00
Docking Station $160.00
Monitors $156.00 Each

Total Capital Funds $3,406.00

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

Ongoing request $86,400

One Time request $ 3,400.00

All funds will be from General Funds. There are no expectations of additional grant monies or federal monies. There are no external funding available that is in line with the objectives, mission and responsibilities/duties of the Council.

If the request is not funded, CDHH will be unable to fully utilize the collaborative relationship with community organizations, local and state governmental entities, and proactively develop a presence for our Council and the programs and services provided.
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Idaho policymakers, the legislators, local, state agencies, businesses, and the 203,785 deaf and hard of hearing citizens will be served by this request. We anticipate the population to grow. This request allows for areas that are not currently served by the limited staff of CDHH to be included in the mission of the Council.

It has been over 23 years, since the inception of the Council, without any significant increase in FTE that serves the constituents and/or stakeholders directly. For the past two decades the deaf and hard of hearing population grew and assimilated much more deeply into the society more than ever before which demands more information and resources. The current staff finds it very difficult meeting the growing demands.

If this request is not funded, Idaho’s deaf and hard of hearing population will continue to be underserved.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

N/A. No request for FTE was presented on our line item last year.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
SUBJECT
Board Policy V.R. – Establishment of Fees – first reading

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.R.

BACKGROUND/DISCUSSION
Board policy allows special course fees and assessments as follows:

A special course fee is a fee required for a specific course or special activity and, therefore, not required of all students enrolled at the institution. Fees such as: student orientation fees (when assessed to only those who register to participate), penalty assessments, library fines, continuing education fees, parking fines, laboratory fees, breakage fees, fees for video outreach courses, late registration fees, and fees for special courses offered for such purposes as remedial education credit that do not count toward meeting degree requirements are considered special course fees. All special course fees or penalty assessments, or changes to such fees or assessments, are established and become effective in the amount and at the time specified by the chief executive officer or provost of the institution. The chief executive officer is responsible for reporting these fees to the Board upon request.

According to current Board policy, it appears the intent of course fees is to cover the costs for specific courses in which students are enrolled or registered, continuing education, and fines.

Beginning in 2012, the Audit Committee (and the institutions’ internal auditors at the behest of the committee) started reviewing how the institutions use course fees. For each institution, the Committee reviewed a list of all course fees and assessments, reviewed the policies and procedures used to approve course fees, and examined approval documentation for a sample of specific course fees. The table below shows a history of revenues generated from course fees and assessments and the percentage of those fees to total net fees. The table also calculates the revenues per headcount. While the revenue generated from course fees as a percentage of total net fees has not grown, the revenue generated per headcount has gone up considerably.
The Audit Committee and internal auditors made the following observations in the course of their review of course fees:

- Course fees should not be charged to offset the loss of a department’s appropriated state General Funds or other funding sources.

- Course fees should be directly related to the academic activities. Professional-Technical Education courses may also be eligible.

- Course fees are charged for optional facilities as well as required labs. An example of an optional facility is a computer lab with special software for computer science students. All computer science students are charged the course fee whether they use the lab or not. An example of a required lab is a Biology 101 lab in which a student is concurrently enrolled with a Biology 100 lecture course. The Committee determined an approach to differentiate special courses from department operations was to only assess a fee when the student voluntarily enrolls in the course.

- Course fees are being charged for instructional and administrative costs. In some instances, blanket course fees are charged for all physical education (P.E.) students in addition to course fees for specific P.E. classes. The Committee determined only direct costs, including
personnel, should be included in the expenses covered by course fees. Personnel costs could include a lab manager or instructor. An example where the cost of an instructor could be covered by course fees is an adjunct providing private instruction to a student in a separate, distinct course (e.g. piano or voice lessons). The Committee determined the cost of administrative and clerical support or other indirect overhead costs should not be included in the expenses covered by special course fees.

- Course fees are not always segregated in order to maintain balances for the specific courses. This makes it impossible to determine whether revenue from one special course is subsidizing other special courses or programs. This also makes it difficult to determine if excess balances are being maintained.

- Approval of course fees are not always made by the president or provost of the institution as required in Board policy. Documentation is not always maintained on all approved course fees, and many course fees are not reviewed periodically to ensure their efficacy.

In revising Board policy for special course fees, staff determined assessments needed to be addressed at the same time. In addition to a list of special course fees, each institution provided the Audit Committee a list of assessments. One list included 70 separate fees. Assessments include fees for applications (including separate fees for graduate, undergraduate, domestic, international, nursing, and study abroad), orientations, challenges, withdrawals, testing, transcripts, graduation, diploma, placement, permits, and also late fees, fines, lost card, and service charges. At one time, many of the costs for these functions were included in an institution’s operating budget and covered by either state General Funds or Board approved fees. By expanding the number of assessments to pay for these functions, more fees are outside the Board’s purview which begins to erode the Board’s statutory role and authority to set tuition and fees. The revisions to Board policy allow for a small number of functions to be covered by assessments: undergraduate application fee, graduate application fee, graduation/diploma fee, transcripts, and permits (e.g. parking permit). All other functions would need to be covered by the departments’ operating budget and will limit the growth of assessments which will provide more transparency to students. Fines are addressed separately and may be assessed for the infraction of an institution policy (e.g., late fee, late drop, library fine, parking fine, lost card, returned check, or stop payment).

**IMPACT**

The raw number of course fees being assessed is significant. For example, one institution now has over 1,400 special course fees. The committee reviewed the justification of course fees assessed at the college and universities and found it was difficult to determine whether specific course fees were following Board policy and being used for the purpose for which they were originally intended. This also made it difficult for the institutions’ internal auditors to audit the course fees. As such, the committee determined the best approach was to clarify and revise Board policy so management can review their course fees, followed by an
In April of each year, the Board sets the dollar amount and percentage increase of the full-time tuition and fees at each institution including the Technology, Facility and Activity fees. In doing so, the Board has an expectation that the Board-approved rate represents the sticker price for the average student. As seen in the table above, each institution has steadily increased its revenues from institution-approved course fees and assessments.

The revisions clarify what can be charged for course fees and assessments, the Board will have better control over the annual increase in overall student fees and it will provide more transparency to students of the all-in cost of their education. Specifically, the revisions provide that all fees assessed by the institutions shall be approved by the Board except those expressly delegated to the institution including: 1) Continuing Education, 2) Course Overload Fee, 3) Special Course Fees, and 4) Fines.

Staff recommends approval.

BOARD ACTION
I move to approve the first reading of proposed amendments to Board policy Section V.R., Establishment of Fees, with all revisions as presented.

Moved by__________ Seconded by__________ Carried Yes____ No____
1. Board Policy on Student Tuition and Fees

Consistent with the Statewide Plan for Higher Education in Idaho, the institutions shall maintain tuition and fees that provide for quality education and maintain access to educational programs for Idaho citizens. In setting fees, the Board will consider recommended fees as compared to fees at peer institutions, percent fee increases compared to inflationary factors, fees as a percent of per capita income and/or household income, and the share students pay of their education costs. Other criteria may be considered as is deemed appropriate at the time of a fee change. An institution cannot request more than a ten percent (10%) increase in the total full-time student fee unless otherwise authorized by the Board.

2. Tuition and Fee Setting Process – Board Approved Tuition and Fees

a. Initial Notice

A proposal to alter student tuition and fees covered by Subsection V.R.3. shall be formalized by initial notice of the chief executive officer of the institution at least six (6) weeks prior to the Board meeting at which a final decision is to be made.

Notice will consist of transmittal, in writing, to the student body president and to the recognized student newspaper during the months of publication of the proposal contained in the initial notice. The proposal will describe the amount of change, statement of purpose, and the amount of revenues to be collected.

The initial notice must include an invitation to the students to present oral or written testimony at the public hearing held by the institution to discuss the fee proposal. A record of the public hearing as well as a copy of the initial notice shall be made available to the Board.

b. Board Approval

Board approval for fees will be considered when appropriate or necessary. This approval will be timed to provide the institutions with sufficient time to prepare the subsequent fiscal year operating budget.

c. Effective Date

Any change in the rate of tuition and fees becomes effective on the date approved by the Board unless otherwise specified.
3. Definitions and Types of Tuition and Fees

The following definitions are applicable to tuition and fees charged to students at all of the state colleges and universities, except where limited to a particular institution or institutions. It is the intent of the Board that all tuition and fees assessed are approved by the State Board of Education except those expressly delegated to the institution under Subsection R.3.c.

a. General and Professional-Technical Education Tuition and Fees

Tuition and fees approved by the State Board of Education. Revenues from these fees are deposited in unrestricted current fund 0650.

i. Tuition fees – University of Idaho, Boise State University, Idaho State University, Lewis-Clark State College

Tuition fees are the fees charged for any and all educational costs at University of Idaho, Boise State University, Idaho State University, and Lewis Clark State College. Tuition fees include, but are not limited to, costs associated with academic services; instruction; the construction, maintenance, and operation of buildings and facilities; student services; or institutional support.

ii. Professional-Technical Education Fee

Professional-Technical Education fee is defined as the fee charged for educational costs for students enrolled in Professional-Technical Education pre-employment, preparatory programs.

iii. Part-time Credit Hour Fee

Part-time credit hour fee is defined as the fee per credit hour charged for educational costs for part-time students enrolled in any degree program.

iv. Graduate Fee

Graduate fee is defined as the additional fee charged for educational costs for full-time and part-time students enrolled in any post-baccalaureate degree-granting program.

v. Western Undergraduate Exchange (WUE) Fee

Western Undergraduate Exchange fee is defined as the additional fee for full-time students participating in this program and shall be equal to fifty
percent (50%) of the total of the tuition fee, facility fee, technology fee and activity fee.

vi. Employee/Spouse/Dependent Fee

The fee for eligible participants shall be set by each institution, subject to Board approval. Eligibility shall be determined by each institution. Employees, spouses and dependents at institutions and agencies under the jurisdiction of the Board may be eligible for this fee. Employees of the Office of the State Board of Education and the Division of Professional-Technical Education shall be treated as institution employees for purposes of eligibility. Special course fees may also be charged.

vii. Senior Citizen Fee

The fee for eligible participants shall be set by each institution, subject to Board approval. Eligibility shall be determined by each institution.

viii. In-Service Teacher Education Fee

The fee shall not exceed one-third of the average part-time undergraduate credit hour fee or one-third of the average graduate credit hour fee. This special fee shall be applicable only to approved teacher education courses. The following guidelines will determine if a course or individual qualifies for this special fee.

a) The student must be an Idaho certified teacher or other professional employed at an Idaho elementary or secondary school.

b) The costs of instruction are paid by an entity other than an institution.

c) The course must be approved by the appropriate academic unit(s) at the institution.

d) The credit awarded is for professional development and cannot be applied towards a degree program.

ix. Workforce Training Credit Fee

This fee is defined as a fee charged students enrolled in a qualified Workforce Training course where the student elects to receive credit. The fee is charged for processing and transcripting the credit. The cost of delivering Workforce Training courses, which typically are for noncredit, is an additional fee since Workforce Training courses are self-supporting. The fees for delivering the
courses are retained by the technical colleges. The Workforce Training fee shall be $10.00 per credit.

b. Institutional Local Fees – Approved by the Board

Institutional local fees are both full-time and part-time student fees that are approved by the State Board of Education and deposited into local institutional accounts. Local fees shall be expended for the purposes for which they were collected.

The facilities, activity and technology fees shall be displayed with the institution's tuition and fees when the Board approves tuition and fees.

i. Facilities Fee

Facilities fee is defined as the fee charged for capital improvement and building projects and for debt service required by these projects. Revenues collected from this fee may not be expended on the operating costs of the general education facilities.

ii. Activity Fee

Activity fee is defined as the fee charged for such activities as intercollegiate athletics, student health center, student union operations, the associated student body, financial aid, intramural and recreation, and other activities which directly benefit and involve students. The activity fee shall not be charged for educational costs or major capital improvement or building projects. Each institution shall develop a detailed definition and allocation proposal for each activity for internal management purposes.

iii. Technology Fee

Technology fee is defined as the fee charged for campus technology enhancements and operations (e.g., internet and web access, general computer facilities, electronic or online testing, and online media).

iv. Professional Fees

To designate a professional fee for a Board approved academic program, all of the following criteria must be met:

a) Credential or Licensure Requirement:

1) A professional fee may be assessed for an academic professional program if graduates of the program obtain a specialized higher
education degree that qualifies them to practice a professional service involving expert and specialized knowledge for which credentialing or licensing is required. For purposes of this fee, “academic” means a systematic, usually sequential, grouping of courses that provide the student with the knowledge and competencies required for a baccalaureate, master’s, specialist or doctoral degree as defined in policy III.E.1.

2) The program leads to a degree where the degree is at least the minimum required for entry to the practice of a profession.

b) Accreditation Requirement: The program:
   1) Is accredited,
   2) is actively seeking accreditation if a new program, or
   3) will be actively seeking accreditation after the first full year of existence if a new program by a regional or specialized accrediting agency.

c) Extraordinary Program Costs: Institutions will propose professional fees for Board approval based on the costs to deliver the program. An institution must provide clear and convincing documentation that the cost of the professional program significantly exceeds the cost to deliver non-professional programs at the institution. A reduction in appropriated funding in support of an existing program is not a sufficient basis alone upon which to make a claim of extraordinary program costs.

d) The program may include support from appropriated funds.

e) The program is consistent with traditional academic offerings of the institution serving a population that accesses the same activities, services, and features as regular full-time, tuition-paying students.

f) Upon the approval and establishment of a professional fee, course fees associated with the same program shall be prohibited.

g) Once a professional fee is initially approved by the Board, any subsequent increase in a professional fee shall require prior approval by the Board at the same meeting institutions submit proposals for tuition and fees.

v. Self-Support Academic Program Fees

a) Self-support programs are academic degrees or certificates for which students are charged program fees, in lieu of tuition. For purposes of this fee, “academic” means a systematic, usually sequential, grouping of courses that provide the student with the knowledge and competencies required for an academic certificate, baccalaureate, master’s, specialist or
doctoral degree. To bring a Self-support program fee to the Board for approval, the following criteria must be met:

1) An institution shall follow the program approval guidelines set forth in policy III.G.
2) The Self-support program shall be a defined set of specific courses that once successfully completed result in the awarding of an academic certificate or degree.
3) The Self-support program shall be distinct from the traditional offerings of the institution by serving a population that does not access the same activities, services and features as full-time, tuition paying students, such as programs designed specifically for working professionals, programs offered off-campus, or programs delivered completely online.
4) No appropriated funds may be used in support of Self-support programs. Self-support program fee revenue shall cover all direct costs of the program. In addition, Self-support program fee revenue shall cover all indirect costs of the program within two years of program start-up.
5) Self-support program fees shall be segregated, tracked and accounted for separately from all other programs of the institution.

b) If a Self-support program fee is requested for a new program, an institution may fund program start-up costs with appropriated or local funds, but all such funding shall be repaid to the institution from program revenue within a period not to exceed three years from program start-up.

c) Once a Self-support program fee is initially approved by the Board, any subsequent increase in a Self-support program fee shall require prior approval by the Board.

d) Institutions shall audit Self-support academic programs every three (3) years to ensure that program revenue is paying for all program costs, direct and indirect, and that no appropriated funds are supporting the program.

e) Students enrolled in self-support programs may take courses outside of the program so long as they pay the required tuition and fees for those courses.

vi. Contracts and Grants

Special fee arrangements are authorized by the Board for instructional programs provided by an institution pursuant to a grant or contract approved by the Board.

vii. Student Health Insurance Premiums or Room and Board Rates
Fees for student health insurance premiums paid either as part of the uniform student fee or separately by individual students, or charges for room and board at the dormitories or family housing units of the institutions. Changes in insurance premiums or room and board rates or family housing charges shall be approved by the Board no later than three (3) months prior to the semester the change is to become effective. The Board may delegate the approval of these premiums and rates to the chief executive officer.

viii. New Student Orientation Fee

This fee is defined as a mandatory fee charged to all first-time, full-time students who are registered and enrolled at an institution. The fee may only be used for costs of on-campus orientation programs such as materials, housing, food and student leader stipends, not otherwise covered in Board-approved tuition and fees.

c. Institutional Local Fees and Charges Approved by Chief Executive Officer

These local fees and charges are assessed to support specific activities and are only charged to students that engage in these particular activities. Local fees and charges are deposited into local institutional accounts or unrestricted current fund 0650 and shall only be expended for the purposes for which they were collected.

i. Continuing Education

Continuing education fee is defined as the additional fee to part-time students which is charged on a per credit hour basis to support the costs of continuing education.

ii. Course Overload Fee

This fee may be charged to full-time students with excessive course loads as determined by each institution. Revenue from this fee is deposited in unrestricted current fund 0650.
iii. Special Course Fees or Assessments

a. Special course fees may only be assessed to cover the direct costs of the unique, additional, and necessary expenses of the course. This may include personnel costs for a lab manager or instructor. The costs for a lab manager dedicated to multiple labs shall be allocated proportionally to multiple special course fees. An example of unique instructor costs could include an adjunct providing private instruction to a student in a separate, distinct course (e.g., piano or voice lessons). A special course fee shall not subsidize other courses, programs, or operations.

b. A course fee shall not be used to pay a cost that the institution would ordinarily budget and pay for had the special course never existed (e.g., technology support staff, fiscal staff, administrative support staff, copy machines, phone/fax/email/internet systems, general office supplies, etc.).

c. Special course fees shall be directly related to academic programming. Likewise, special course fees for professional-technical courses shall be directly related to the skill or trade being taught.

d. A special course fee shall only be assessed when a student enrolls in a required or corequisite course. (For example, a separate Biology 101 lab would be considered a special course when a student enrolls in the lab at the same time the student enrolls in the Biology 100 lecture course.) A special course fee shall not be assessed for general facilities not requiring specific enrollment. (For example, a special course fee would not be allowed to be charged to all computer science students for a computer lab housed in the computer science department.)

e. Special course fees shall not be commingled with other monies in a manner that precludes an accurate and separate accounting of which costs are directly attributed to the special course fee. The institution shall not maintain an unreasonable fund balance for any special course fee without justification. The balance of each special course fee shall be reviewed annually with an institution audit every three (3) years.

f. The institution shall maintain a system of internal controls providing reasonable assurance that: (1) special course fees are necessary and reasonable; (2) special course fees continue to be necessary over time; and (3) special course fee revenue is used for the purpose for which the fee was originally intended.
A special course fee is a fee required for a specific course or special activity and, therefore, not required of all students enrolled at the institution. Fees such as: student orientation fees (when assessed to only those who register to participate), penalty assessments, library fines, continuing education fees, parking fines, laboratory fees, breakage fees, fees for video outreach courses, late registration fees, and fees for special courses offered for such purposes as remedial education credit that do not count toward meeting degree requirements are considered special course fees. All special course fees or penalty assessments, or changes to such special course fees or assessments, are established and become effective in the amount and at the time specified by the chief executive officer or provost of the institution. The chief executive officer is responsible for reporting these special course fees to the Board upon request.

iv. Processing Fees and Permits

Processing fees shall be limited to the following: undergraduate application fee, graduate application fee, graduation/diploma fee, transcripts. Fees for permits (e.g., parking permit) may also be assessed.

v. Fines

Fines may be assessed for the infraction of an institution policy (e.g., late fee, late drop, library fine, parking fine, lost card, returned check, or stop payment).

All fines, or changes to such fines, are established and become effective in the amount and at the time specified by the chief executive officer. The chief executive officer is responsible for reporting these fines to the Board upon request.
SUBJECT
Board policy V.T. – Fee Waivers – first reading

APPLICABLE STATUTES, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Sections V.T. and V.R.
Idaho Code § 33-3717C

BACKGROUND / DISCUSSION
Staff and the institutions have developed a report showing all fee waivers and discounts ("waivers") which will be included for the first time with the fee hearing information. The report lists the Board policy section associated with each waiver listed. As noted in the report, however, some of the “waivers” do not have specific Board authority. Idaho Code only authorizes the Board to grant a full or partial waiver of tuition or fees for nonresident students. Three of the “waivers” listed in the report are for the benefit of resident students and therefore are not allowed under law.

After consultation with the institutions, the Business Affairs and Human Resources Committee recommended revising Board policy to allow for contracts or agreements approved by the Board and then to authorize those agreements currently in place (but not covered by Board policy) as special fees.

IMPACT
For FY 2013, the dollar value of the three “waivers” in question was $208,925.

The institutions provided additional information for the waivers under agreements and those documents have been provided as attachments to this agenda.

The University of Idaho agreement with Battelle Energy Alliance provides an annual fee to UI for providing education to employees of the Idaho National Laboratory.

The University of Idaho agreement with Brigham Young University-Idaho (BYUI) provides for students at either University of Idaho – Idaho Falls or BYUI to take one course at the other campus free of tuition.

ATTACHMENTS
Attachment 1 – Fee and Tuition Waivers Report – FY 2013
Attachment 2 – Board policy V.T. – first reading
Attachment 3 – University of Idaho – Battelle Energy Alliance
Attachment 4 – University of Idaho – BYUI

STAFF COMMENTS AND RECOMMENDATIONS
The revisions to Board policy as outlined in Attachment 2 will provide a mechanism for institutions to come to the Board to approve agreements unique
and outside the general list of special fees and nonresident tuition waivers authorized and enumerated in policy V.R. and V.T.

Staff recommends approval.

**BOARD ACTION**

I move to approve the first reading of proposed amendments to Board Policy V.T. Fee Waivers, with all revisions as presented in Attachment 2.

Moved by____________ Seconded by____________ Carried Yes____ No____

**BOARD ACTION**

I move to approve the following special fees:

Students attending multiple Idaho public institutions
Idaho National Laboratory (UI)
BYU-Idaho - University of Idaho

1. Purpose and Authority for Fee/Tuition Waivers

   a. Definition

      A fee/tuition waiver shall mean a reduction of some or all of the approved fees/tuition specified in Section V, Subsection R, attributable to a particular student as the cost for attending an Idaho institution of higher education.

   b. Purpose

      The purpose in authorizing fee/tuition waivers includes but is not limited to the achievement of the following strategic objectives:

      i. The enhancement of education opportunities for Idaho residents;
      ii. To promote mutually beneficial cooperation and development of Idaho communities and nearby communities in neighboring states;
      iii. To contribute to the quality of educational programs; and
      iv. To assist in maintaining the cost effectiveness of auxiliary operations in Idaho institutions of higher education.

   c. Authority

      An institution shall not waive any of the applicable fees/tuition specified in Section V, Subsection R., unless specifically authorized in this subsection. Special fees are not defined as a fee waiver. Employee/Spouse/Dependent, Senior Citizen, In-Service Teacher Education, and Workforce Training Credit fees as authorized pursuant to Board policy V.R. do not constitute waivers.

2. Waiver of Nonresident Fees/Tuition

   Nonresident fees/tuition may be waived for the following categories:

   a. Graduate/Instructional Assistants

      Waivers are authorized for students employed as graduate assistants appointed pursuant to Section III, Subsection P.11.c.

   b. Students Participating in Intercollegiate Athletics

      For the purpose of improving competitiveness in intercollegiate athletics, the universities are authorized up to two hundred twenty-five (225) waivers per semester and, Lewis-Clark State College is authorized up to one hundred ten (110) waivers per semester. The institutions are authorized to grant additional waivers, not to exceed ten percent (10%) of the above waivers, to be used exclusively for post-eligibility students.
c. Waivers to Meet Other Strategic Objectives

The chief executive officer of each institution is authorized to waive nonresident fees/tuition for students, not to exceed the equivalent of six percent (6%) of the institution's total full-time equivalent enrollment. The criteria to be followed in granting such nonresident waivers shall be as follows:

i. A waiver may be granted to place a nonresident student in an institutional program only when there is sufficient capacity in the program to meet the needs of Idaho resident students; and

ii. A waiver may be granted only when its use is fiscally responsible to place a nonresident student in an institutional program in order to meet a strategic state and/or institutional need, as identified by the chief executive officer of the institution.

d. National Student Exchange Program - Domestic

Waivers are authorized for nonresident students participating in this program.

e. Western Interstate Commission for Higher Education

Waivers are authorized for nonresident students participating in the Western Interstate Commission for Higher Education Professional Student Exchange Program and the Graduate Student Exchange Program. An institution may include a participating nonresident student in its enrollment workload adjustment calculation, provided the figure does not exceed the maximum approved for an institution by the Board.

f. Institution Agreements

An institution may request Board approval of agreements with other entities resulting in special fees if it is shown to meet a strategic or workforce need (e.g., reaching an underserved or isolated population) or to help facilitate collaboration between the public institutions as it relates to enrollment and course/degree completion. The discounted dollar value of these special fees shall be reported to the Board, for inclusion in the annual discounts and waivers report, in a format and time to be determined by the Executive Director.
RELEASE NO. 00127 UNDER BLANKET MASTER CONTRACT NO. 00042246
BATTELLE ENERGY ALLIANCE, LLC (BEA)
2525 Freemont Avenue, P. O. Box 1625, Idaho Falls, ID 83415
OPERATING UNDER U.S. GOVERNMENT CONTRACT NO. DE-AC07-05ID14517

To: University of Idaho

To: Vicki Russell

Effective Date: 10/01/2013
Completion Date: 09/30/2014

1. STATEMENT OF WORK
1.1. University of Idaho (Subcontractor) shall furnish the services as described in the Statement of Work in Applicable Documents 3.1, and in accordance with the requirements, terms and conditions specified or referenced in this Release.

2. RESOURCES
2.1. The Subcontractor shall provide all resources, e.g., materials, labor, equipment, necessary to fulfill the requirements of this Release, except as otherwise specified.

3. APPLICABLE DOCUMENTS The following documents are incorporated into, and become a part of, this Release:
3.2. Form 540.33, "Change Request."

4. TERMS AND CONDITIONS
4.1. The terms and conditions of Blanket Master Contract No. 00042246, except as modified herein, are hereby incorporated by this reference.
4.2. Certification of Eligibility: Subcontractor, by entering into this Release, certifies that it is not debarred, or proposed for debarment, by the Federal Government. Disclosure that Subcontractor was debarred, suspended, or proposed for debarment, by the Federal Government, or any of the above conditions, will result in the immediate termination of this Release.

Government on or before the effective date of this Release shall constitute an additional basis for termination.

4.3. IRS Forms: Pursuant to U.S. tax law, BEA is required to report certain payments to the Internal Revenue Service (IRS). The Subcontractor agrees to furnish a completed IRS Form W-9, (for U.S. persons), W-8 (for non-U.S. persons) or other applicable IRS form to BEA prior to any request for payment. Forms can be accessed at http://www.irs.gov/app/picklist/list/forms/Instructions.html. (W-9 form can be accessed at: http://www.irs.gov/pub/irs-pdf/fw9.pdf?portlet=3) Forms may be submitted electronically to: Vendorinfo@inl.gov or faxed to (208) 526-8240.

4.4. Tax Reporting: In addition to the Federal, State and Local Tax requirements the Subcontractor is reminded of its obligation to comply with tax reporting requirements, including the reporting of assets that may be subject to any personal property or transient personal property tax. Subcontractor should be aware that the geographical boundaries of the INL encompass multiple counties. A map of counties within the INL boundaries is available at https://inlportal.inl.gov/portal/server.pt/community/procurement/346/documents_and_forms.

4.5. Supplier Performance Evaluation (SPES): BEA evaluates Subcontractor performance in accordance with the SPES. The Subcontractor shall be formally evaluated no less than quarterly as applicable, and upon completion of the work. A minimum score of 80 points out of 100 is required to maintain approved status.

4.6. Byrd Amendment: Subcontractor shall comply with FAR 52.203-12, Limitations on Payments to Influence Certain Federal Transactions.

4.7. Technical Changes: Technical changes to the Release are authorized only upon receipt and acceptance of Form 540.33, Change Request or Contract Amendment.

4.8. Cooperation with the Office of Inspector General (OIG): The Subcontractor must ensure that all their employees understand that they must:

4.8.1. Comply with requests for interviews and briefings and must provide affidavits or sworn statements, if so required by an employee of the OIG so designated to take affidavits or sworn statements.

4.8.2. Not impede or hinder another employee’s cooperation with the OIG.

4.8.3. Ensure that reprisals are not taken against employees who cooperate with or disclose information to the OIG or other lawful appropriate authority.

5. ORDER OF PRECEDENCE

5.1. In the event of any inconsistency between provisions of this Release, the inconsistency shall be resolved by giving precedence as follows:

5.1.1. Release Change documents, if any

5.1.2. Release

5.1.3. Statement of Work

5.1.4. Other provisions of this Release, whether incorporated by reference or otherwise.

5.2. Subcontractor shall notify BEA prior to performing work based on resolution of an inconsistency by the order of precedence set forth herein.
6. **ESTIMATED COST**

6.1. The total estimated cost of this Release is $1,656,634.00.

6.2. **Contract Courses/Administration**: The ceiling price for Contract Courses and Contract Administration is $1,474,323.00. The Subcontractor shall be paid for contract courses and administration in performance of the Statement of Work up to this ceiling, as proposed in the cost proposal. Notification shall be provided to BEA when the Contract Courses/Administration cost is within 75% of the ceiling provided herein.

6.3. **Support Courses**: The ceiling price for Support Courses is $182,311.00. The Subcontractor shall be paid for support courses in performance of the Statement of Work up to this ceiling, as proposed in the cost proposal. Notification shall be provided to BEA when the Support Courses cost is within 75% of the ceiling provided herein.

6.4. An increase in the ceiling for either Contract Courses/Administration and/or Support Courses must have BEA's concurrence, evidenced by written Modification to this Contract in advance of the Subcontractor exceeding the cost ceiling.

6.5. **Invoicing**:

6.5.1. Submittal of an invoice constitutes Subcontractor's certification that services have been provided, and invoiced amounts are in accordance with the Release provisions.

6.5.2. Unless otherwise authorized in the Release, invoices may not be submitted more than once per calendar month.

6.5.3. Invoices shall indicate the cumulative amount invoiced to date.

6.5.4. Invoices shall be submitted electronically in .pdf format to acctpay@inl.gov.

6.6. Indirect cost shall be in accordance with the negotiated rate agreement with the Department of Health and Human Services, dated 12/09/2010.

7. **COMPLETION DATE**

7.1. This Release shall be in effect through 09/30/2014.

8. **ADMINISTRATION**

8.1. **Subcontractor Administration**: The Subcontractor's responsibilities shall be administered by Vicki Russell, who will have overall technical direction of the work to be performed by Subcontractor and shall be available at all reasonable times in connection therewith.

8.2. **Administrative and Legal Jurisdiction**: Unless the Subcontractor is otherwise notified in writing, BEA's responsibilities under this action shall be administered by Ben Louderback, Subcontract Administrator, or another authorized Subcontract Administrator named herein or Procurement Manager.

8.3. **Technical Representative**: All work performed under this Release shall be subject to the technical direction of Julie Hart at (208) 526-9087.

8.4. **Notices**: Any notice provided for this action shall be considered as having been given: To BEA, if mailed electronically via e-mail (Elise.Miller@inl.gov) or fax, or if delivered personally to Elise Miller, or if mailed by U. S. Mail addressed to Elise Miller, Battelle Energy Alliance, LLC, 2525 Fremont Avenue, P. O. Box 1625, Idaho Falls, ID 83415; or to the
Subcontractor, if delivered personally to its duly authorized representative at the site of work, or if mailed electronically via e-mail or fax, or by U.S. Mail addressed to the Subcontractor at Office of Sponsored Programs, P.O. Box 443020, Moscow, ID 83844-3020.

1. INTRODUCTION

1.1 Background

Battelle Energy Alliance (BEA), LLC, the current Management and Operating Contractor for the Idaho National Laboratory (INL), administers INL/BEA Employee Education Program. The program provides for the strategic alignment of resources to meet Laboratory needs, while also helping INL/BEA employee students gain valuable skills needed to better prepare them for INL/BEA’s future workforce needs. INL/BEA employees may seek educational opportunities from accredited educational institutions if they meet program qualifications and appropriate approvals are obtained.

1.2 History

In 1954, the University of Idaho (UI) began offering classes in Idaho Falls to support the needs of the U.S. Department of Energy’s (DOE’s) national laboratory activities (then the National Reactor Testing Station). University of Idaho’s Idaho Falls Center (UIIF) has served eastern Idaho for almost six decades. During this time the programs in Idaho Falls have evolved to meet the changing science and engineering educational needs of the Idaho National Laboratory (INL) and the State of Idaho. In the first 59 years, UI awarded 2,018 degrees, including 1,345 advanced degrees, to Idaho Falls Center students. UI is co-located with Idaho State University (ISU) at University Place. Through cooperative agreements and open transfer of credits between the schools, students attending classes at University Place participate in an educational experience that takes advantage of the strengths of both UI and ISU.

1.3 Purpose/Objectives

This Scope of Work (SOW) provides INL/BEA’s requirements for UI’s continuing support in providing educational opportunities that help meet the strategic requirements of INL/BEA. Emphasis is placed on graduate-level science and engineering degree programs/courses that directly support goals, and research initiatives in alignment to the Laboratory’s strategic mission needs.

1.4 Anticipated Benefits

INL/BEA employee students, as the current and future workforce, will gain the opportunity to seek strategically aligned/mission related degrees. Anticipated direct benefits accrued to INL/BEA include:

- Increasing the number of credentialed employees with degrees aligned with the strategic missions of INL.
Enabling employee students to aid INL in meeting its strategic missions, while providing potential opportunities to advance their careers.

Increasing the benefit for the community/nation from the efforts the educated workforce will engage in.

In addition to these direct benefits, the following indirect benefits will also be realized by INL/BEA. Access to:

- Research active Resident Faculty and associated non-employee graduate students with expertise aligned with the missions of INL which may provide additional capacity to complete these missions.
- Local pool of potential INL candidates, which possess degrees pertinent to INL’s mission.
- UI’s state wide outreach resources and capabilities to support the strategic goals of INL.

2. APPLICABLE CODES AND REFERENCES

2.1 Templates

UI End of Semester (EOS) Template.

UI Invoice Back-Up Template.

2.2 UI Definitions

2.2.1 Student Definition

Employee students are defined in this context to include regular, permanent employees of INL/BEA only.

2.2.2 Faculty Definitions

For the purpose of this document, faculty is comprised of the following subcategories:

a. Resident Faculty – The University maintains a core group of research active faculty members that are physically located at the Idaho Falls Center. These faculty members ensure the delivery of classroom instruction for the supported programs outlined in Appendix A. Because of the critical importance of research mentorship in graduate educations, these faculty members have research interests that are aligned with the mission of INL.
Resident Faculty provide quality control to the education process by advising employee students in their programs of study, overseeing the hiring and supervising of Lecturers, and serving as Major Professors for employee students conducting thesis and dissertation research activities. The number and disciplines of Resident Faculty members are negotiated with INL, with INL disciplinary experts participating in the hiring process. The support of Resident Faculty through this contract ensures their continued presence in Idaho Falls and enables the university to offer classes with less than the typical university required enrollment headcount.

b. Lecturers – If requested and approved by INL/BEA Employee Education Program, the University will hire on an as-needed basis, part-time Lecturers to teach individual courses in Idaho Falls for a fixed fee. Lecturers are typically currently employed or recently retired from careers that directly apply to the subjects that they teach. Lecturers enrich the employee students' education by bringing their real-world experiences in to the classes they teach. In addition, Lecturers provide the opportunity to broaden course offerings beyond just those that can be taught by the Resident Faculty.

c. Visiting Faculty – The University will engage Visiting Faculty in Idaho Falls to teach seminars, courses, or lectures either in person or by distance delivery technology. In addition, Visiting Faculty may guide employee students in their degree related research. Visiting Faculty are subject area experts, who are affiliated with the Idaho Falls center for a short period of time (e.g., sabbatical leave) who bring their unique expertise to the classroom, benefiting employee students. They differ from Lecturers in that they hold faculty appointments at UI, with a primary work location other than Idaho Falls, or from another institution of higher education.

2.2.3 Course Definitions

a. Course - a single instructional subject commonly described by title, number, credits, and expected learning outcomes in the college catalog or bulletin.

b. Contract Courses are those courses that may be applied toward a degree in science, engineering or technology as defined in Appendix A. These courses have been approved by the college from which they are generated and have a course number designation of 300 or higher. Contract Course may be taught by Resident Faculty, Lecturers, or Visiting Faculty as described above. A course will only be considered a Contract Course if it includes at least one (1) BEA employee student enrolled on the fifth day. INL/BEA will be contacted to discuss cancellation of any of these courses due to low enrollment. In addition, courses listed on university approved Degree Plans for BEA employees will not be canceled due to less than university required minimum
enrollment, without first consulting with INL/BEA Employee Education Program.

c. **Support Courses** are those courses that do not meet the criteria for Contract Courses as described above. *Support Courses* may also include Continuing Education courses (for credit) that meet internal INL/BEA requirements and are authorized on an INL Authorization Form (or Course Approval Form). They may also include for credit courses required by INL/BEA for meeting licenses and certification requirements. The cost per credit of Continuing Education courses shall not exceed the cost per credit of regular academic courses. UI will invoice INL/BEA for course tuition and related fees for *Support Courses* as part of this contract as outlined in Appendix B.

d. **Engineering Outreach (EO) Courses** - EO courses are courses which are supplied by UI's Engineering Outreach Department. These course fees are charged according to the EO Fee Schedule. It is expected that INL/BEA will not support the costs associated with these courses unless they are not available through existing offerings. These courses may be charged to this contract if agreed upon by the University and INL/BEA Employee Education Program. Allowances may be made for upper level courses (course number designation of 300 or higher.)

3. **SCOPE**

3.1 **Work to be Performed**

3.1.1 **Academic Programs**

To support the current and future workforce of INL/BEA, UI shall provide:

a. Strategically aligned, mission-related, degrees/courses, programs, and course curriculum in accordance with appropriate accreditation and university, college and department requirements. Included are:

- Growth and development of graduate-level science and engineering degree programs that support INL/BEA mission research and the educational development of its' current and future employees.
- Faculty, administrative/reporting staff, classrooms, and student services required to successfully deliver INL/BEA strategically-aligned, mission-related course(s).
- Approval of INL/BEA Authorization Forms (or Course Approval Forms) which confirms employee students are registered for the identified course(s).
• Contract, Support and Engineering Outreach courses that may be applied toward a degree in science, engineering and technology as identified in Appendix A (see 2.2.3 above for detailed definitions of course types).

b. Courses in Idaho Falls at times and in formats that meet INL/BEA employee students' varied work environments. For instance:

• Evening, web-based, DVD, and/or hybrid formats.

• An appropriate balance of Resident Faculty, Lecturers, and Visiting Faculty maintained in Idaho Falls for instruction, advising, and mentorship to ensure the timely delivery of the degree programs identified in Appendix A (see 2.2.2 above for detailed definitions of faculty types).

3.1.2 Non-Instructional Academic Support

To support access, academic progress, and success of employee students, UI shall provide:

a. Student Services: UIIF ensures that employee students have access to all available student services offered to the general Idaho Falls student population, including educational counseling services, providing evening hours in the Student Services Offices, exam proctoring services, online account access assistance, and other needs. UIIF Student Services staff works with INL/BEA Employee Education Program personnel to solve problems and address issues that arise with employee students. In addition, special services to accommodate the work and traveling schedules of employee students are provided. Services include:

• Counseling with employee students to identify the most appropriate academic programs and assist them in the admissions process.

• Providing INL/BEA Employee Education Program Personnel course registration and other applicable information for dissemination to INL/BEA employee students.

• Providing guidance regarding courses, degree programs, and the development of Degree Plans for employee students. Guiding employee students in the interpretation and application of university rules, deadlines and regulations. Assisting employee students with registration and the preparation of degree related required documents.

• Assisting employee students with connecting to university resources such as the library, tutoring, and counseling services.
- Making faculty members aware of employee student needs, concerns or special circumstances.

- Counseling with employee students to find the most efficient source of General Education credits, and facilitating registrations and payment to partnering institutions.

3.1.3 **Instructional Design and Delivery**

Courses may be recorded and made available via streaming video or other technologies to accommodate the work and travel schedules of employee students unable to attend live class sections.

3.1.4 **Contract Oversight and Reporting**

UI shall provide the following:

a. Oversight of contract activities by the Idaho Falls Associate Vice President/Center Executive Officer, with the support of the Academic Contract Coordinator.

b. The time for the Associate Vice President/Center Executive Officer and Academic Contract Coordinator to meet with INL/BEA Employee Education Program personnel as requested and/or agreed to by INL/BEA. It is expected that UI will provide:

   - Input to INL/BEA, as needed, for creation of proposed FY-15 scope of work,
   - Continued refinement and delivery of Certificate Programs in technical areas of interest/need to INL/BEA’s current/future workforce, and
   - Facilitation of collaboration with ISU to reduce duplication of offerings.

c. Facilitation of sourcing General Education courses from the most cost effective sources.

   - Specifically, UI shall encourage (but not require) INL/BEA employee students to participate in live and other lower cost options when obtaining 100 and 200 level courses.
   - As needed, UI will coordinate with other educational institution(s) and accept transferred credits. UI will provide INL/BEA with a course “upload” file which reflects course(s) taken from these institution(s) enabling employee students to use INL/BEA Authorization Forms or
3.2 Work Excluded

a. INL/BEA will not be charged for course(s) categorized as "hobby" or "physical education," as these courses are considered unallowable costs to BEA.

b. INL/BEA will not be charged for "audit" course(s).

c. INL/BEA will not be charged for costs to "transfer" former undergraduate credits to a current graduate program. However, UI may charge the individual student.

d. INL/BEA will not be charged for the costs of books for employee students, as individual employee students are expected to purchase their own books.

e. INL/BEA will not be charged for special request courses without preapproval from INL/BEA's Employee Education Program.

f. INL/BEA will not be charged tuition/related fees for employee students who successfully complete Contract Courses provided under this SOW.

g. INL/BEA will not be charged for software or software licenses' (including renewals) that is for use on non-INL/BEA equipment.

3.3 Requirements

None.

3.4 Place of Performance

Work to be performed at Contractor's place of business.

3.5 Interfaces

Contractor personnel will interact with INL/BEA personnel in the following capacities:

a. Idaho Falls Associate Vice President/Center Executive Officer, Academic Contractor Coordinator, and other appropriate university personnel will interact with INL/BEA Employee Education Program personnel to oversee this contract.
b. Academic professors will work with INL science and engineering researchers to determine INL/BEA needs and work in accordance with university and State Board of Education policies and approvals to develop applicable curricula in support of INL/BEA's strategic and mission related needs.

3.6 Miscellaneous

Support personnel as needed to administer the scope herein and/or address special INL/BEA requests such as presentation of video courses, etc., are also included in this Contract.

4. DELIVERABLES

See “Deliverables” Table (Appendix B).

5. SCHEDULE AND MILESTONES

See “Deliverables” Table (Appendix B).

6. COMPLETION CRITERIA AND FINAL ACCEPTANCE

EOS submitted as requested in EOS Template (Appendix C).

EOS Invoice Back-up provided as requested in Invoice Back-up Template (Appendix D).

Issues identified during the course of this SOW to be resolved in a reasonable and agreed upon time frame.

All tasks outlined in this Contract are either accomplished as outlined or as requested via authorized revisions.

7. APPENDICES

Appendix A, UI Contract Course Listings

Appendix B, Deliverables

Appendix C, UI End of Semester (EOS) Report Template

Appendix D, UI Invoice Back-up Invoice Template

8. ATTACHMENTS

None.
APPENDIX A, UI CONTRACT COURSE LISTING

The UI shall support INL by providing access to all contract, non-contract or Engineering Outreach courses necessary to complete the following degrees in Idaho Falls:

- * Biological and Agricultural Engineering (including Subsurface Science)  
  (M.S., M.Engr., Ph.D.)

- Chemical Engineering (M.S., M. Engr., Ph.D.)

- Chemistry (M.S., Ph.D.)

- *Civil Engineering (M. Engr.)

- *Computer Engineering (M.S., M. Engr.)

- Computer Science (M.S., Ph.D.)

- *Electrical Engineering (M.S., M. Engr.)

- *Engineering Management (M.Engr.)

- Environmental Engineering (M.S., M. Engr.)

- Environmental Science (B.S. Env.S., M.S., Ph.D.)

- Geology (Ph.D.)

- Industrial Technology (B.S. Tech., planned M.S. Safety, & Ph.D.)

- Interdisciplinary Studies (M.S.)
  - Waste Management
  - Technical & Project Management

- Materials Science and Engineering (M.S., Ph.D.)

- Mechanical Engineering (M.S., M. Engr., Ph.D.)

- Nuclear Engineering (M.S., M. Engr., Ph.D.)

- Technology Management (M.S.)

* Programs marked with asterisk are available through Engineering Outreach (EO) only. Only actual tuition and course fees are charged to the contract.

MEMORANDUM OF UNDERSTANDING
BETWEEN
BRIGHAM YOUNG UNIVERSITY – IDAHO
AND
UNIVERSITY OF IDAHO

1. PARTIES: (1) Brigham Young University – Idaho, 190 Kimball Building, Rexburg, Idaho 83460-1640 (BYUI), (2) Board of Regents of the University of Idaho (Idaho), 1776 Science Center Drive, Suite 306, Idaho Falls, ID 83402.

2. TERM: This Memorandum of Understanding (Memorandum) will be in force on the date signed by both parties. The Memorandum will be reviewed annually and will remain in force for five (5) years from the date last signed. Renewal, extension, or discontinuation will be at the option of both parties with a written notice of no less than one year.

3. PURPOSE: This Memorandum describes how the Parties will work together to allow full-time students at University of Idaho or BYUI to take one course at the opposite institution.

4. GENERAL TERMS

4.1 CONDITIONS OF USE: The University of Idaho through its Idaho Falls Center and BYUI agree to cooperate in extending to each other an opportunity for full-time registered students to take one additional class from the other institution each semester. In doing so, the student will not be assessed general registration fees beyond the amount capped for full-time students however, if a course fee is assessed the student will be responsible to pay the course fee to the institution providing the course. Further, the parties to this memorandum agree to remit to each other the amount per-credit incurred for the single class registration. The parties also agree to provide information regarding the full-time status of the cross-registered students and other informational exchanges relevant to this agreement.

4.2 ADMITANCE PROCEDURES: Idaho students taking classes on the BYU1 campus must go through the BYU1 admittance procedures. BYU1 students taking Idaho classes may register as Non-Degree seeking students.

4.2 REGISTRATION PROCEDURES: BYU1 full-time students taking an additional class from Idaho will pay all general registration fees to BYU1 and will inform the BYU1 Registrar of the intent to register with Idaho. Students will then register with Idaho Falls Student Services and inform Idaho of their full-time status with BYU1. Students will pay Idaho Falls Student Services all class, parking or other fees associated with the Idaho Class. Idaho full-time students taking an additional class from BYU1 will pay all general registration fees to Idaho student Services and inform BYU1 of their full-time status with Idaho. Students will pay BYU1 all class, parking or other fees associated with the BYU1 class. To inform the respective institution of the status of students seeking to use this agreement a form has been created to convey the appropriate information. This form should accompany the student’s registration form and be processed.

BAHR - SECTIONII

TAB 5 Page 29
within the applicable semester registration window of the institution supplying the course. That form is attached hereto and incorporated herein.

4.3 FEE REMITTANCE PROCEDURES: BYUI and Idaho agree to remit general registration fees to each other for the single classes. This exchange will occur at the four-week period after the start of classes for each semester. The fee amount is equal to the part-time registration fee assessed by BYUI. Remittances will include all pertinent registration information such that the receiving university may corroborate remittance data. No deduction for any purpose will be imposed on fee remittances.

4.4 COURSE AND CREDIT ACCEPTANCE: The Associate Registrar at the Idaho Falls Center and the Registrar at BYUI will review and inform each other of courses that may be excluded from this agreement. These may be courses, which, because of the delivery method, enrollment demand, or subject matter may not be offered through this exchange. Idaho and BYUI will inform students taking classes from the other university when a class taken for credit is not transferable or accepted by the students’ matriculating university. This agreement covers only University of Idaho courses that are generated through the Idaho Falls Center.

4.5 RESPECT FOR POLICIES: Idaho students taking classes from BYUI will comply with policies and procedures established by BYUI. BYUI students taking classes from Idaho will comply with policies and procedures established by the University of Idaho and the Idaho Falls Center.

4.6 COMMUNICATION: The Parties agree to cooperate in communicating with each other and with their common and respective publics concerning the established relationship between the two institutions. Communication may include the development of various kinds of publications to inform those who might benefit personally or professionally from the opportunities provided by this Memorandum. Faculty and staff at both institutions may share the information in this Memorandum with interested and qualified students and both institutions will provide counseling and advising to students and prospective students.

The Idaho Falls Associate Registrar will be responsible for oversight of this Memorandum and for the implementation of this Memorandum. The Associate Registrar will be the contact for each institution and will communicate changes to respective faculty members, advisors, counselors, and others to whom the information is pertinent. The Parties agree to communicate annually any changes in their respective programs that may affect this Agreement.

4.7 SEVERABILITY: Occasionally conditions will arise and cause an agreement, or certain sections of an agreement, to be inoperative. These conditions could include, but are not limited to, changes in state law, changes in governing board policy, changes in accreditation policy, changes in programs or other changes taking place at either institution. In the event that one or more sections of this Memorandum are determined by either party or a court of competent jurisdiction to be inoperative or invalid, the remainder of this Memorandum shall not be affected, and each term and provision of this Memorandum shall be valid and be enforceable to the fullest extent permitted by law. It is the intention of the parties to this Memorandum that if any
provision of this Memorandum is capable of two constructions, one of which would render the
provision void and the other of which would render the provision valid, the provision shall have
the meaning which renders it valid. This Memorandum shall be interpreted under Idaho law and
venue for any related action shall be in Idaho state courts.

4.8 NO ASSIGNMENT: No assignment of this Memorandum or of any right accruing under
this Memorandum shall be made, in part or in whole, by any signatory without the prior written
consent of the other party.

4.8 UNADDRESSED ISSUES QUESTIONS AND DISPUTES: Unaddressed issues,
questions concerning policies and procedures and disputes will be resolved between the
Associate Registrar at the Idaho Falls Center, and the Registrar at BYUI.

Robert W. Smith, Ph.D., Associate Vice President,
University of Idaho - Idaho Falls
Associate Director for Research
Center for Advanced Energy Studies

ADDENDUM #1 TO

MEMORANDUM OF UNDERSTANDING
BETWEEN
BRIGHAM YOUNG UNIVERSITY – IDAHO
AND
UNIVERSITY OF IDAHO (Idaho)

NUCLEAR ENGINEERING

PROCEDURE: Students interested in pursuing the opportunity of earning a graduate Nuclear Engineering Degree from University of Idaho should meet early with an advisor from University of Idaho to ensure that they have the preparation needed for the program, and to ensure that they meet application deadlines. Students are expected to have a GPA > 3.0 from their undergraduate program for admission into the University of Idaho Nuclear Engineering Program.

REQUIRED PRE-ADMISSION COURSES: Prior to applying to the Nuclear Engineering Master's degree at University of Idaho, as a part of their undergraduate degree, students need to have taken Chem 111 and 112, or equivalent along with the corresponding labs as well as courses in thermodynamics and mathematics through calculus.

While an undergrad at BYUU students should take the following courses at BYUU or University of Idaho setting them aside and not using them toward their undergraduate degree;

NE 450 Principles of Nuclear Engineering

And, one of the following courses;

NE 404/504 Intermediate Nuclear Engineering
Or an advanced mathematics course, beyond Ordinary Differential Equations
Other NE courses approved by an Idaho advisor

More information on the University of Idaho Nuclear Engineering Program is available at the following website;

http://www.if.uidaho.edu/ne/

POST-ADMISSION COURSES: When students arrive on the Idaho Falls University of Idaho campus as admitted Graduate Students they should meet with an advisor and prepare a Study Plan. The intent of this agreement is that in order to complete in one year, students will take 12 credits each of the two semesters they are enrolled at Idaho. If a student wishes to take a lighter credit load, some courses are available during the summer semester. Idaho has a limited summer schedule; the intent of this agreement is
that students will be enrolled during the Fall and Spring Semesters. To complete the
degree, students must choose from the following courses, completing a total of 30 credits.
Not all courses will be available in every semester, and other applicable special topics
courses may be appropriate. Students should meet with a University of Idaho advisor to
plan their program of study. Areas of specialization within the Nuclear Engineering field
are available; Idaho advisors will help students make those decisions.

Other Special Topics courses as approved

**COURSE SCHEDULING:** University of Idaho maintains a Three Year Plan that details
which courses will be taught and which semester. This Plan is updated annually and can
be found at the following website;

http://www.if.uidaho.edu/docs/Three_Yr_Plan-2008.html

Students may use this Plan to create their individual Study Plans.

**ADMISSIONS PROCEDURES:** Students will go through the normal University of
Idaho Graduate Admission procedure to be considered for graduate admission.
FEES: Other than fees incurred through the course exchange agreement, students are responsible for all fees.

ADDENDUM #2 TO
MEMORANDUM OF UNDERSTANDING
BETWEEN
BRIGHAM YOUNG UNIVERSITY – IDAHO
AND
UNIVERSITY OF IDAHO (Idaho)

COMPUTER SCIENCE

PURPOSE: The purpose of this addendum is to define a program that enable students completing a Bachelor of Science Degree in Computer Science or other disciplines at Brigham Young University – Idaho to complete a non-thesis Master of Science degree in Computer Science at the University of Idaho in Idaho Falls with one additional year of study.

REQUIRED PRE-ADMISSION PROCEDURE: Students interested in pursuing the opportunity of earning a graduate Computer Science degree from the University of Idaho should meet with an advisor from University of Idaho to identify their graduate advisor, initiate a formal application, and gain acceptance into the program prior to the beginning of their fourth year. Students are expected to have a GPA of at least 3.0 from their undergraduate program for admission into the University of Idaho Computer Science Program.

POST-ADMISSION COURSES: When students arrive on the University of Idaho, Idaho Falls campus as admitted Graduate Students, they will work with an advisor to select an area of specialization and develop a study plan. A typical course load schedule to complete the Master’s degree in one year will require students to take 6 credits during their fourth year and 12 credits during the two semesters of their fifth and last year, while they are enrolled at Idaho.

Students completing a Bachelor of Science Degree in disciplines not in Computer Science may require an additional semester to complete this program. These students will be required to take CS 306 Algorithms and Complexity, and CS 480 Computational Theory (or equivalent courses at the U of I) with a grade of B (3.0) or higher. These "supporting" courses for BYU-I non Computer Science students must be completed before or during the student’s fourth year.

The student must successfully complete at least 18 credit hours of 500-level courses and at least 18 credit hours of CS courses that includes at least one semester of CS Graduate Seminar, CS 501 (1 cr). To complete the degree, students must complete a total of 30 credits.

The student must acquire depth in at least one major area by developing a focused plan of study in consultation with the major advisor. The student must demonstrate a mastery of
the theory underlying one's discipline, and satisfy a graduate breadth requirement. This is the foundation on which further professional advancement should be based.

At the end of the program, non-thesis students must pass a comprehensive examination that covers their graduate studies.

**COURSE OFFERING:** University of Idaho Computer Science department offers courses related to faculty interests. These offerings are updated annually and can be found at the following website;

http://www.uiweb.uidaho.edu:80/schedule/

**The areas of faculty expertise are:**

- Advanced Architectures, Design, and Development
- Artificial Intelligence and Optimization Techniques
- Embedded System Design
- Fault-Tolerant and Survivable Networks and Systems
- Gaming and Visualization
- High Performance Computational Algorithms, Languages, and Systems
- Intelligent Control Systems
- Secure Systems
- Wireless Network Systems, Protocols, and Security

**ADMISSIONS PROCEDURES:** Students will go through the normal University of Idaho Graduate Admission procedure to be considered for graduate admission.

**FEES:** Other than fees covered by the Course Exchange Agreement, students are responsible for all fees.

SUBJECT
Board policy V.X. – Intercollegiate Athletics – first reading

REFERENCE
April 2014 The Idaho State Board of Education approved FY 2015 Athletics Limits

APPLICABLE STATUTES, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.X.

BACKGROUND / DISCUSSION
At its April meeting, the Board determined it would no longer need to approve the athletics limits but instead let the formulas set out in policy calculate the annual change to the limits.

IMPACT
The Board would review but no longer approve the annual athletics limits. The Board would still be able to increase the limits at its discretion.

ATTACHMENTS
Attachment 1 – Board policy V.X. – First reading Page 3

STAFF COMMENTS AND RECOMMENDATIONS
The revisions to Board policy as outlined in Attachment 1 would make the calculation of the athletics limits automatic unless the Board took affirmative action to approve limits other than those derived from the formulas.

BOARD ACTION
I move to approve the first reading of proposed amendments to Board policy V.X. Intercollegiate Athletics, with all revisions as presented in Attachment 1.

Moved by____________ Seconded by____________ Carried Yes____ No____
1. Philosophy

The Board reaffirms the role of intercollegiate athletics as a legitimate and significant component of institutional activity. The responsibility for and control of institutional activities in this area rest with the Board.

In the area of intercollegiate athletics, the Board seeks to establish programs which:

a. provide opportunities for student athletes to attend college and participate in athletic programs while pursuing and completing academic degrees;

b. reflect accurately the priorities and academic character of its institutions;

c. fuel school spirit and community involvement;

d. serve the needs of the institutions as they seek, through their athletic programs, to establish fruitful and sustaining relationships with their constituencies throughout the state and nation; and

e. actively and strategically progress toward compliance with Title IX of the Higher Education Amendments Act of 1972.

Given these goals, the Board has a continuing concern and interest in the academic success of student athletes, the scope and level of competition, and the cost of athletic programs administered by its institutions. Consequently, the Board will, from time to time in the context of this policy statement, promulgate, as necessary, policies governing the conduct of athletic programs at its institutions.

2. Policies

The day-to-day conduct of athletic programs is vested in the institutions and in their chief executive officers. Decision making at the institutional level must be consistent with the policies established by the Board and by those national organizations and conferences with which the institutions are associated. In the event that conflicts arise among the policies of these governance groups, it is the responsibility of the institution's chief executive officer to notify the Board in a timely manner. Likewise, any knowledge of NCAA or conference rule infractions involving an institution should be communicated by the athletic department to the chief executive officer of the institution.

The Board recognizes that the financing of intercollegiate athletics, while controlled at the institutional level, is ultimately the responsibility of the Board itself. In assuming that responsibility, the sources of funds for intercollegiate athletics shall be defined in the following categories:

a. State General Funds – means state General Funds (as defined in section 67-1205, Idaho Code) appropriated to the institutions.
b. Student Athletic Fee Revenue – means revenue generated from the full-time and part-time student activity fee that is dedicated to the intercollegiate athletics program pursuant to policy V.R.3.b.ii.

c. Program Funds – means revenue generated directly related to the athletic programs, including but not limited to ticket sales/event revenue, tournament/bowl/conference receipts, media/broadcast receipts, concessions/parking/advertisement, game guarantees and foundation/booster donations.

d. Institutional Funds – means any funds generated by the institution outside the funds listed in a., b. and c. above. Institutional Funds do not include tuition and fee revenue collected under policy V.R.3. Examples of Institutional Funds include, but are not limited to, auxiliaries, investment income, interest income, vending, indirect cost recovery funds on federal grants and contracts, and administrative overhead charged to revenue-generating accounts across campus.

3. Funds allocated and used by athletics from the above sources are limited as follows:

   a. State General Funds –

      i. The limit for State General Funds shall be allocated in two categories: General Funds used for athletics and General Funds used to comply with Title IX.

      ii. The Board set the following FY 2013 General Fund limits:

         1) General Funds for Athletics:

            a) Universities $2,424,400
            b) Lewis-Clark State College $ 901,300

         2) General Funds for Gender Equity:

            a) Boise State University $1,069,372
            b) Idaho State University $ 707,700
            c) University of Idaho $ 926,660
            d) Lewis-Clark State College $ 0

      iii. The methodology for computing the limits for both categories of State General Funds shall be to calculate the rate of change for the next fiscal year ongoing State General Funds compared to the ongoing State General Funds in the current fiscal year, and then apply the rate of change to both limits approved by the Board in the previous year. Such limits shall be approved annually by the Board.
b. Institutional funds –
   i. The Board set the following FY 2013 limits:

   1) Boise State University  $ 386,100
   2) Idaho State University  $ 540,400
   3) University of Idaho     $ 772,100
   4) Lewis-Clark State College $ 154,300

   ii. The methodology for computing the limits for Institutional Funds shall be to calculate the rate of change for the next fiscal year ongoing Appropriated Funds compared to the ongoing Appropriated Funds in the current fiscal year, and then apply the rate of change to the limit approved by the Board in the previous year. Such limits shall be approved annually by the Board. For purposes of this paragraph, “Appropriated Funds” means all funds appropriated by the Legislature to the institutions, including but not limited to, State General Funds, endowment funds, and appropriated tuition and fees.

c. Student Activity Fee Revenue – shall not exceed revenue generated from student activity fee dedicated for the athletic program. Institutions may increase the student fee for the athletic program at a rate not more than the rate of change of the total student activity fees.

d. Program funds – the institutions can use the program funds generated, without restriction.

The president of each institution is accountable for balancing the budget of the athletic department on an annual basis. In accounting for the athletic programs, a fund balance for the total athletic program must be maintained. In the event that revenue within a fiscal year exceeds expenses, the surplus would increase the fund balance and would be available for future fiscal years. In the event that expenses within a fiscal year exceeds revenue, the deficit would reduce the fund balance. If the fund balance becomes negative, the institutions shall submit a plan for Board approval that eliminates the deficit within two fiscal years. Reduction in program expenditures and/or increase revenue (program funds only) can be used in an institutional plan to eliminate a negative fund balance. If substantial changes in the budget occur during the year resulting in a deficit for that year, the president shall advise the Board of the situation at the earliest opportunity.

Donations to athletics at an institution must be made and reported according to policy V.E. The amount of booster money donated to and used by the athletic department shall be budgeted in the athletic department budget.

It is the intent of the Board that increases in program revenues should be maximized before increases to the athletic limits under subsection 3 will be considered.
4. Gender Equity

a. Gender equity means compliance with Title IX of the Higher Education Amendments Act of 1972 which prohibits discrimination on the basis of gender in any education program or activity receiving federal financial assistance, including athletics. Congress delegated authority to promulgate regulations (34 C.F.R. §106.41) for determining whether an athletics program complies with Title IX. The U.S. Department of Education, through its Office of Civil Rights (OCR) is responsible for enforcing Title IX.

b. Title IX measures gender equity in athletics in three distinct areas: participation, scholarships, and equivalence in other athletics benefits and opportunities.

c. The chief executive officer of each institution shall prepare a gender equity report for review and formal approval by the Board in a format and time to be determined by the Executive Director. The gender equity report will show the status of an institution’s compliance with Title IX. The gender equity report will show the changes to the athletics programs necessary to comply with Title IX over time.

The Board requires that the institutions adopt certain reporting requirements and common accounting practices in the area of intercollegiate athletic financing. The athletic reports shall contain revenues, and expenditures, in the detail prescribed by the Board office, including all revenue earned during a fiscal year. A secondary breakdown of expenditures by sport and the number of participants will also be required. The fund balances as of June 30 shall be included in the report. The general format of the report will be consistent with the format established by the Executive Director. The revenue and expenditures reported on these reports must reconcile to the NCAA Agreed Upon Procedures Reports that are prepared annually and reviewed by the external auditors. The institutions will submit the following reports to the Board:

a. The institutions shall submit an operating budget for the upcoming fiscal year beginning July 1 in a format and time to be determined by the Executive Director.
   i. Actual revenues and expenditures for the fiscal year most recently completed.
   ii. Estimated revenues and expenditures for the current fiscal year.
   iii. Proposed operating budget for the next budget year beginning July 1.

b. The following fiscal year’s financial information will be reported by each institution in a format and time to be determined by the Executive Director:
   i. Actual revenues and expenditures for the prior four (4) fiscal years
   ii. Estimated revenues and expenditures for the current fiscal year.
SUBJECT
Board Policy V.I. – Real and Personal Property and Services – second reading

REFERENCE
April 2014 Board approved first reading of proposed amendments to policy.

APPLICABLE STATUTES, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.I.

BACKGROUND / DISCUSSION
The Business Affairs and Human Resources Committee has been working with staff and the institutions to align authorization thresholds in several policy sections, namely Board policy V.I. Real and Personal Property and Services and V.K. Construction Projects.

IMPACT
Proposed amendments to Board Policy V.I. increases the thresholds for the purchase of real property, personal property and services to be consistent with the thresholds outlined in Board Policy V.K. which provide authorization by the executive director between $500,000 and $1,000,000 for capital projects. This increases the authorization of the institutions from $250,000 to $500,000. The thresholds for the purchase of personal property and services are outlined in the table on page 5.

This revision also clarifies authorization thresholds when the project budget for a purchase or the renewal cost for a service agreement increases above the originally approved amount.

ATTACHMENTS
Attachment 1 – Board policy V.I. – second reading Page 3

STAFF COMMENTS AND RECOMMENDATIONS
There were no changes between first and second reading. Staff recommends approval.

BOARD ACTION
I move to approve the second reading of proposed amendments to Board Policy V.I. Real and Personal Property and Services.

Moved by____________ Seconded by____________ Carried Yes____ No____
1. Authority

a. The Board may acquire, hold, and dispose of real and personal property pursuant to Article IX, Section 2 and Article IX, Section 10, Idaho Constitution, pursuant to various sections of Idaho Code.

b. Leases of office space or classroom space by any institution, school or agency except the University of Idaho are acquired by and through the Department of Administration pursuant to Section 67-5708, Idaho Code.

c. All property that is not real property must be purchased consistent with Sections 67-5715 through 67-5737, Idaho Code, except that the University of Idaho may acquire such property directly and not through the Department of Administration. Each institution, school and agency must designate an officer with overall responsibility for all purchasing procedures.

d. Sale, surplus disposal, trade-in, or exchange of property must be consistent with Section 67-5722, Idaho Code, except that the University of Idaho may dispose of such property directly and not through the Department of Administration.

e. If the Executive Director finds or is informed that an emergency exists, he or she may consider and approve a purchase or disposal of equipment or services otherwise requiring prior Board approval. The institution, school or agency must report the transaction in the Business Affairs and Human Resources agenda at the next regular Board meeting together with a justification for the emergency action.

2. Acquisition of Real Property

a. Acquisition of a real property interest, other than a leasehold interest, with a purchase price between two-five hundred fifty thousand dollars ($250,000) and five-hundred-thousand and one million dollars ($5001,000) requires prior approval by the Executive Director. A purchase exceeding five hundred thousand and one million dollars ($5001,000) requires prior Board approval.

b. Any interest in real property acquired for the University of Idaho must be taken in the name of the Board of Regents of the University of Idaho.

c. Any interest in real property acquired for any other institution, school or agency under the governance of the Board must be taken in the name of the State of Idaho by and through the State Board of Education.

d. This does not preclude a foundation or other legal entity separate and apart from an institution, school or agency under Board governance from taking title to real
property in the name of the foundation or other organization for the present or future benefit of the institution, school or agency. (See Section V.E.)

e. Acquisition of a leasehold interest in real property by or on behalf of an institution, school or agency requires prior Executive Director approval if the cost exceeds five hundred thousand dollars ($500,000) over the term, or by the Board if the term of the lease exceeds five (5) years or if the cost exceeds one million dollars ($1,000,000) over the term.

f. Appraisal.

An independent appraiser must be hired to give an opinion of fair market value before an institution, school or agency acquires fee simple title to real property.

g. Method of sale - exchange of property.

The Board will provide for the manner of selling real property under its control, giving due consideration to Section 33-601(4), applied to the Board through Section 33-2211(5), and to Chapter 3, Title 58, Idaho Code. The Board may exchange real property under the terms, conditions, and procedures deemed appropriate by the Board.

h. Execution.

All easements, deeds, and leases excluding easements, deeds, and leases delegated authority granted to the institutions and agencies must be executed and acknowledged by the president of the Board or another officer designated by the Board and attested to and sealed by the secretary of the Board as being consistent with Board action.

3. Acquisition of Personal Property and Services

a. Purchases of equipment, data processing software and equipment, and all contracts for consulting or professional services either in total or through time purchase or other financing agreements, between two—five hundred fifty thousand dollars ($250,000) and five hundred thousand one million dollars ($51,000,000) require prior approval by the executive director. The executive director must be expressly advised when the recommended bid is other than the lowest qualified bid. Purchases exceeding five hundred thousand one million dollars ($51,000,000) require prior Board approval. If the project budget for a purchase or the renewal cost for a service agreement increases above the approved amount, then the institution or agency may be required to seek further authorization, as follows:
## Project or Service Agreement

<table>

<td>Any</td>
<td>SBOE</td>
</tr>
</tbody>
</table>

All modifications approved by the Executive Director shall be reported quarterly to the Board.

b. Acquisition or development of new administrative software or systems that materially affect the administrative operations of the institution by adding new services must be reviewed with the executive director before beginning development. When feasible, such development will be undertaken as a joint endeavor by the four institutions and with overall coordination by the Office of the State Board of Education.

## 4. Hold of Personal Property

a. Inventory

An inventory of all items of chattel property valued at two thousand dollars ($2,000) or limits established by Department of Administration owned or leased by any agency or institution must be maintained in cooperation with the Department of Administration as required by Section 67-5746, Idaho Code.

b. Insurance

Each agency and institution must ensure that all insurable real and personal property under its control is insured against physical loss or damage and that its employees are included under any outstanding policy of public liability insurance maintained by the state of Idaho. All insurance must be acquired through the State Department of Administration or any successor entity.
c. Vehicle Use

Vehicles owned or leased by an institution or agency must be used solely for institutional or agency purposes. Employees may not, with certain exceptions, keep institutional vehicles at their personal residences. Exceptions to this policy include the chief executive officers and other employees who have received specific written approval from the chief executive officer of the institution or agency.

5. Disposal of Real Property

a. Temporary Permits

Permits to make a temporary and limited use of real property under the control of an institution or agency may be issued by the institution or agency without prior Board approval.

b. Board approval of other transfers

i. Leases to use real property under the control of an institution, school or agency require prior Board approval - if the term of the lease exceeds five (5) years or if the lease revenue exceeds two hundred fifty thousand dollars ($250,000).

ii. Easements to make a permanent use of real property under the control of an institution, school or agency require prior Board approval - unless easements are to public entities for utilities.

iii. The transfer by an institution, school or agency of any other interest in real property requires prior Board approval.

6. Disposal of Personal Property

Sale, surplus disposal, trade-in, or exchange of property with a value greater than two–five hundred fifty–thousand dollars ($250,000) and less than five–hundred thousand–one million dollars ($51,000,000) requires prior approval by the Executive Director. Sale, surplus disposal, trade-in, or exchange of property with a value greater than five–hundred thousand–one million dollars ($51,000,000) requires prior Board approval. All disposals approved by the Executive Director shall be reported quarterly to the Board.
a. First Refusal

When the property has a value greater than five thousand dollars ($5,000), the institution, school or agency must first make a good faith effort to give other institutions, school and agencies under Board governance the opportunity of first refusal to the property before it turns the property over to the Department of Administration or otherwise disposes of the property.

b. Sale of Services

The sale of any services or rights (broadcast or other) of any institution, school or agency requires prior approval of the Board when it is reasonably expected that the proceeds of such action may exceed two hundred fifty thousand dollars ($250,000). Any sale of such services or rights must be conducted via an open bidding process or other means that maximizes the returns in revenues, assets, or benefits to the institution, school or agency.

c. Inter-agency Transfer

Transfer of property from one Board institution, school or agency to another institution, school or agency under Board governance may be made without participation by the State Board of Examiners or the Department of Administration, but such transfers of property with a value greater than two hundred fifty thousand dollars ($250,000) require prior Board approval.
THIS PAGE INTENTIONALLY LEFT BLANK
SUBJECT
Board Policy V.K. – Construction Projects – second reading

REFERENCE
April 2014 Board approved first reading of proposed amendments to policy.

APPLICABLE STATUTES, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.K.

BACKGROUND / DISCUSSION
The Business Affairs and Human Resources Committee has been working with staff and the institutions to determine the authorization thresholds required when a capital project increases above the original Board-approved amount.

IMPACT
Proposed amendments to Board policy V.K. would require an institution to seek further approval when the budget for a major capital project increases above the total authorized amount by more than 5% (up to a maximum of $499,999).

Regardless of the authorization level required (i.e. institution, executive director, or Board), the institution must provide the Board with the amount and reason(s) for the cost overruns and the source of funds. The authorization levels are shown in the table on page 3.

ATTACHMENTS
Attachment 1 – Board policy V.K. – second reading

STAFF COMMENTS AND RECOMMENDATIONS
There were no changes between first and second reading. Staff recommends approval.

BOARD ACTION
I move to approve the second reading of proposed amendments to Board policy V.K. Real and Personal Property and Services as presented.

Moved by____________ Seconded by____________ Carried Yes____ No____
1. Authorization Limits

Without regard to the source of funding, before any institution or agency under the governance of the Board begins to make capital improvements, either in the form of alteration and repair to existing facilities or construction of new facilities, it must be authorized based on the limits listed below. Projects requiring executive director or Board approval must include a separate budget line for architects, engineers, or construction managers and engineering services for the project cost.

<table>

2. Major Projects - Capital Construction Plans

a. Institutions and agencies under the governance of the Board wishing to undertake capital construction projects shall submit to the Board for its approval a six-year capital construction plan (the “Plan”). The Plan shall span six fiscal years going forward starting at the fiscal year next. The Plan shall include only capital construction projects for which the total cost is estimated to exceed one million dollars ($1,000,000) without regard to the source of funding (hereinafter, “major projects”). A Plan shall constitute notice to the Board that an institution or agency may bring a request at a later date for Board approval of one or more of the projects included in its approved Plan. Board approval of a Plan shall not constitute approval of a project included in the Plan.

b. Before any institution or agency under the governance of the Board solicits, accepts or commits a gift or grant in support of a specific major project, such project must first be included on the institution’s or agency’s Board-approved six-year Plan.

c. If a major project is not included in a Plan and an institution or agency under the governance of the Board desires to obtain approval of the major project, before
seeking approval, it shall first bring an amended plan to the Board for approval at a regularly scheduled meeting of the Board. If a potential donor offers an unsolicited gift to an institution or its affiliated foundation in support of a major project which is not in an institution’s or agency’s Plan, prior to acceptance of the gift, the institution or agency shall notify the Board’s executive director in writing of the offer, which notice shall include an explanation and justification for the exigency; a detailed statement of purpose and fiscal impact; and a summary of the terms and conditions of the gift. This notice shall also certify to the executive director that the donor understands and acknowledges that construction of the major project is subject to the review and approval of the Board.

3. Major Projects Approval Process - Design-Bid-Build Projects

a. Planning and Design

Board approval is required before any institution or agency begins planning and design on a major project carried out under the traditional “design-bid-build” method. For design-bid-build projects, planning and design encompasses the preparation of architectural and engineering documents and associated budget and schedule information through the completion of the construction documents for bidding. This approval may not be requested concurrently with any other step in the major project approval process. As part of the Board’s approval process for planning and design, the Board may request the institution or agency to submit a preliminary project budget and financing plan (including pro forma financials, debt/operating expenses ratios, pledges, strategic facilities fees, and other material financial information).

b. Major Project Approval Process – Project Budget and Financing Plan

Board approval of a project budget and financing plan (including pro forma financials, debt/operating expenses ratios, pledges, strategic facilities fees, and other material financial information) is required for a major project. This approval may be requested only after completion of the design and planning process and may be requested concurrently with approval for construction.

c. Major Project Approval Process – Construction

Board approval is required to proceed with the construction of a major project. In order to obtain Board approval for construction of a major project, the Board must approve the project budget and financing plan. This approval may be requested concurrently with approval of the project’s budget and financing plan.

d. Major Project Approval Process – Final Approval – Financing and Incurrence of Debt
Board approval for financing capital projects via the issuance of bonds, or incurrence of any other indebtedness, is required pursuant to Board policy V.F. for a project that has previously received approval for construction. (All other projects financed entirely without indebtedness do not need separate approval for financing.) The Board will not consider concurrent requests for approval for construction and debt financing for the same project. Therefore, institutions seeking approval for project debt financing must bring a request for said approval to a Board meeting subsequent to the meeting at which project construction is approved.

4. Design-Build Projects

Although design and build projects are performed by one team, design-build contracts can also allow a series of options to proceed (or not) at the design phase and at the construction phase. The approval process for major projects using a design-build contract shall be the same as the approval process required for a design-bid-build contract. Board approval shall first be required to undertake the design and planning phase, including selection of the design-build team. For purposes of such approval, the Board may request a preliminary project budget and financing plan. This approval may not be obtained concurrently with subsequent required approvals. Once the design-build team completes the design and construction cost estimates, the institution or agency must then obtain Board approval of the project budget and financing plan and of construction of the project. If debt financing is needed, the institution or agency must submit a request for approval at a subsequent meeting of the Board in the manner set forth in paragraph 3.d., above.

5. Fiscal Revisions to Previously Approved Projects

If a project budget increases above the total Board-authorized amount by the lesser of 5% or $500,000, then the institution or agency shall be required to seek further authorization based on the limits established in paragraph 1, above. Regardless of the authorization level required, the institution shall provide the Board with the amount and reason(s) for the cost overruns and the source of funds.

6. Project Acceptance

Projects under the supervision of the Department of Administration are accepted by the Department on behalf of the Board and the state of Idaho. Projects under the supervision of an institution or agency are accepted by the institution or agency and the project architect. Projects under the supervision of the University of Idaho are accepted by the University on behalf of the Board of Regents.
7. Statute and Code Compliance

a. All projects must be in compliance with Section 504 of the Rehabilitation Act of 1973 and must provide access to all persons. All projects must be in compliance with applicable state and local building and life-safety codes and applicable local land-use regulations as provided in Chapter 41, Title 39, and Section 67-6528, Idaho Code.

b. In designing and implementing construction projects, due consideration must be given to energy conservation and long-term maintenance and operation savings versus short-term capital costs.
SUBJECT
Board Policy V.W. Litigation – Second Reading

REFERENCE
December 2009  Board approved 1st Reading of amendments delegating authority to the CEO to initiate litigation up to specific limits.
February 2010  Board approved 2nd Reading of proposed amendments to policy.
April 2014  Board approved 1st Reading of proposed amendments to policy.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.W.

BACKGROUND / DISCUSSION
Proposed changes will clarify for the institutions that the limits and reporting requirements contained within Board Policy V.W. pertains to all settlements, not just settlements after initiation of litigation.

IMPACT
Proposed changes will allow for more consistent reporting and oversight of legal settlements entered into by the institutions.

ATTACHMENTS
Attachment 1 - Governing Policy Section V.W – second Reading  Page 3

STAFF COMMENTS AND RECOMMENDATIONS
There were no changes between first and second reading.  Staff recommends approval.

BOARD ACTION
I move to approve the second reading of Idaho State Board of Education Governing Policies & Procedures V.W. – Litigation as submitted.

Moved ____________ Seconded____________ Carried Yes _____ No _____
Idaho State Board of Education  
GOVERNING POLICIES AND PROCEDURES  
SECTION: V. FINANCIAL AFFAIRS  
Subsection: W. Litigation  
June, 2014

1. General

When a lawsuit, legal document, or other official notice is instituted against an institution and/or the Board, an institution’s president or its general counsel, or the executive director of the Board, is authorized to accept service of process of such matter on behalf of the institution and/or Board. This authority to accept service pertains only to attempted service upon the institution and/or Board, and not to any attempt to serve the Idaho secretary of state or the Idaho attorney general. An institution president or general counsel who accepts service of any matter on behalf of such institution and/or the Board pursuant to this authority must promptly forward a copy of any such matter to the Board office, and in appropriate circumstances, should also forward a copy of such matter to the State of Idaho Department of Administration, Division of Internal Management Systems, Risk Management Program.

2. Initiation of Litigation

An institution or agency under the governance of the Board may initiate a legal action with respect to any matter in which the amount in controversy does not exceed one hundred thousand dollars ($100,000). With the prior approval of the executive director, an institution, agency, or school under the governance of the Board may initiate a legal action with respect to any matter in which the amount in controversy does not exceed two hundred thousand dollars ($200,000). Any other proposed legal action may not be instituted without the prior approval and authorization of the Board.

a. Notwithstanding the authority to initiate litigation provided above, any legal action involving the exercise of the right of eminent domain must have the prior approval of the Board.

b. Pursuant to Idaho Code §33-3804, an institution is permitted to initiate legal action in its own name.

3. Settlement of Litigation

The chief executive officer has authority to settle a legal matter involving the payment or receipt of up to one hundred thousand dollars ($100,000) of institution or agency funds. The executive director may authorize the settlement of a legal matter involving the payment or receipt of up to two hundred thousand dollars ($200,000) of institution, agency, or school funds. Any settlement of a legal matter that is in
excess of two hundred thousand dollars ($200,000) in institution or agency funds must be approved by the Board prior to any binding settlement commitment.

34. Litigation Reporting by Institutions

Legal counsel for the institutions shall provide monthly attorney–client privileged litigation reports to the members of the Board, with a copy to the Board office (to the attention of the Board’s legal counsel) for distribution to members of the Board. Such reports should include a description of all claims and legal actions filed against the institution since the date of the last report (and identify legal counsel for the parties involved, for conflict analysis purposes); a summary of the current status of all claims and pending litigation; risk analysis pertaining to all such claims and pending litigation; and the settlement of any legal claims or actions matters since the date of the last report, including settlements of matters handled by the State of Idaho Department of Administration, Division of Internal Management Systems, Risk Management Program. With respect to the reporting of a legal settlement, such report shall describe the amount of institution funds that were used, and the amount and source of any other funds that were provided in connection with such settlement, including funds from the Office of Insurance Management or from any other parties. Legal counsel for the institutions should also include in the report any significant incident occurring since the last report that is reasonably expected to give rise to a claim, as well as probable claims or legal actions the institution is aware of which have been threatened but not yet instituted.
BOISE STATE UNIVERSITY

SUBJECT
Football Stadium Naming Rights Agreement

REFERENCE
October 2009 The Idaho State Board of Education approved multimedia and sports marketing agreement with Learfield Sports Marketing (Learfield)

December 2009 The Board approved changes to the Learfield multimedia and sports marketing agreement

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies and Procedures, Section I.K.

BACKGROUND/DISCUSSION
In 2009, Boise State University (BSU) entered into a multimedia and sports marketing agreement with Learfield. At that time, a naming rights agreement for the football stadium was contemplated as part of the contract awarded to Learfield.

The University has since entered into negotiations with Albertsons for the naming rights to the football stadium. Under the proposed agreement, Bronco Stadium would be renamed “Albertsons Stadium.”

Terms of the agreement include:

- Fifteen year term
- Annual payments to the University totaling $12.5 million over the term of the agreement
- Sponsorship opportunities including signage and travel on the team charter for up to four guests to one football game per year
- Albertsons will receive one suite for each home football game with no rental fee, but will be responsible for additional expenses related to such use
- Albertsons may utilize Albertsons Stadium for non-revenue generating company events subject to prior agreement with the University

IMPACT
In exchange for stadium naming rights, Albertsons will make annual payments to the University totaling $12.5 million over the fifteen year term. Of the $12.5 million, $100,000 will support the new Alumni Center.
STAFF COMMENTS AND RECOMMENDATIONS

The major deal points of the Albertsons naming rights agreement for BSU’s football stadium are as follows:

- The name of the stadium will be Albertsons Stadium. This name may only be changed if Albertsons engages in a merger, name change, or other corporate restructuring, and only with University consent, which must not be unreasonably withheld.
- The agreement is for an overall payment to BSU of $12.5M over a contract life of fifteen years. However, Albertsons can provide a two year notice as early as Year 5 and exit after Year 7.
- BSU and Albertsons must agree upon the stadium logo. The preferred form of the stadium logo will include both the Albertsons logo and BSU’s Athletic Mark (the Bronco head).
- BSU and Albertsons will split the cost of the four largest signs to be placed on the stadium itself, the stitching of the Albertsons name into the blue turf and the replacement of the four large football player banners that currently hang from the stadium.
- BSU will pay for all of the other costs associated with the change, such as directional signage, stadium entry gate signage, and all glasses, plates, napkins and related items for use within Stueckle.
- Albertsons will be the exclusive partner of BSU in its retail category, which includes groceries and pharmacies.
- Albertsons will be the most prominent sponsor at the stadium and the surrounding environs.
- BSU will retain the right to approve any of Albertsons strategic marketing partners, if the stadium logo is involved, in order to prevent conflicts with BSU’s existing sponsors. Albertsons Stadium logo merchandise must be manufactured by a University licensed vendor, and must be approved by BSU’s Office of Trademark Licensing.
- Albertsons does have certain special termination rights, including the right to terminate if: BSU’s football team incurs NCAA or MWC sanctions that prohibit the team from participating in conference championship games or post season conference tournaments, NCAA, or playoff/bowl games during any Contract Year.

The Agreement includes an indemnity provision in which it appears BSU agrees to indemnify Albertsons without any limitation (see Article X).

Board policy I.K. does not specifically contemplate the sale and naming of an institution-owned building or facility to an entity. If the Board desires to approve the transaction, policy I.K. should be waived.
The net revenue to be paid to BSU under this Agreement (in concert with the Learfield agreement) remains uncertain to staff. This issue along with additional questions about the Agreement remain to be addressed at the Board meeting. Staff reserves judgment pending resolution of these matters.

BOARD ACTION
I move to approve Boise State University’s request to name the football stadium “Albertsons Stadium” and to approve the agreement as presented.

EXHIBIT A – RIGHTS AND BENEFITS
Schedule I to Exhibit A – Primary Albertsons Stadium Signs

EXHIBIT B – SUITE LICENSE AGREEMENT
NAMING RIGHTS AGREEMENT

THIS NAMING RIGHTS AGREEMENT (this “Agreement”) is entered into as of May 19, 2014 (the “Execution Date”), by and between (i) Albertson’s LLC, a Delaware limited liability company (acting for itself and on behalf of its Affiliates, “Albertsons”), and (ii) Boise State University (the “University”), with offices at 1910 University Drive, Boise, Idaho 83725-1285. (Each of Albertsons and the University are referred to herein individually as a “Party,” and collectively referred to herein as the “Parties”).

REQUITALS

A. The University is the owner and operator of Bronco Stadium, an approximately 36,387 seat multi-purpose stadium initially constructed in 1970 on the campus of the University in Boise, Idaho (the “Stadium”).

B. The Stadium is currently used for the home games of the University’s varsity football team (the “Team”) which is currently a National Collegiate Athletic Association (“NCAA”) Division I Football Bowl Subdivision program (“Division I FBS”), and a member of the Mountain West Conference (“MWC”). The Stadium is also used for other sporting and non-sporting events.

C. Albertsons owns and operates retail grocery stores throughout the United States and has been operating Albertsons-banneered grocery stores in Boise, Idaho since 1939.

D. The University wishes to provide Albertsons with naming rights to the Stadium and Albertsons wishes to acquire such naming rights from the University.

AGREEMENT

NOW THEREFORE, in consideration of the premises and the mutual covenants herein set forth, the Parties, intending to be legally bound, hereby agree as follows:

ARTICLE I
DEFINITIONS

The following capitalized terms shall have the meanings set forth below when used in this Agreement.

“Advertising Copy” shall mean any words, slogans, logos, designs, visual and audio content or comparable creative effort with respect to the advertising, marketing and promotion of Albertsons and its Affiliates, including, without limitation, the use of Albertsons Marks in connection with the advertising, marketing and promotion of Albertsons and its Affiliates.

“Affiliate” means, when used with reference to a specified Person, any Person who directly or indirectly controls, is controlled by or is under common control with the specified
Person. The term “control” (including the terms “controlled,” “controlled by,” and “under common control with”) shall mean the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of an entity.

“Agreement” is defined in the Preamble.

“Albertsons” is defined in the Preamble.

“Albertsons Competitor” shall mean any entity that offers or sells retail grocery products or services in the Category, including by way of example only and without limitation, 7-11, Amazon, Costco, CVS, Fred Meyer, Grocery Outlet, Rosauers, Sam’s Club, Target, Trader Joe’s, Walgreens, Walmart, Whole Foods, WinCo, and any other retail grocery stores or providers; but excluding fuel center convenience stores operated by Jacksons and Maverik.

“Albertsons Default” is defined in Section 13.1(a).

“Albertsons Indemnitees” is defined in Section 10.1(a).

“Albertsons Marks” is defined in Section 2.2(a).

“Annual Meeting” is defined in Section 3.5.

“Athletic Program” means the University’s athletic programs, including the Team, and such programs’ products and services.

“Athletic Program Marks” means all Marks associated only with the Athletic Program and, for the avoidance of doubt shall not mean Marks associated with the University, including the University’s signature mark.

“BSP” means Bronco Sports Properties, LLC, a Missouri limited liability company qualified to do business in the State of Idaho and the exclusive multi-media marketing and sponsorship rights holder for University athletic events and athletic venues, including the Stadium.

“Category” means any and all retail grocery and/or pharmacy products and services.

“Claims” is defined in Section 10.1(a).

“Contract Year” means each twelve month period of the Term commencing on February 1 and ending on January 31, except that the first Contract Year shall begin on the Execution Date and shall end on January 31, 2015.

“Division I FBS” is defined in Recital B.

“Early Termination Payment” is defined in Section 5.2.
“Equivalent Extension Offer” is defined in Section 5.3(c).

“Execution Date” is defined in the Preamble.

“Existing Suite License” is defined in Section 3.4.

“Extension Agreement” is defined in Section 5.3(c).

“Force Majeure Event” is defined in Section 9.1.

“Home Games” is defined in Section 7.1(h).

“Letter Agreement” is defined in Section 6.1.

“Marks” means designs, logos, service marks, corporate or trade names, trademarks or other identification marks.

“MWC” is defined in Recital B.

“Name Change Notice” is defined in Section 2.3(b).

“NCAA” is defined in Recital B.

“NCAA Agreements” shall mean all constituent documents, rules, regulations, requirements and resolutions of, or issued by, the NCAA, as they currently exist and as they may from time to time, be entered into, created or amended.

“Negotiation Period” is defined in Section 5.3(a).

“Objection Notice” is defined in Section 2.3(c).

“Parking Areas” means the parking areas and lots adjacent to the Stadium, including the parking deck, which are operated or controlled by the University or its Affiliates.

“Party” and “Parties” is defined in the Preamble.

“Person” means any individual, sole proprietorship, partnership, limited liability company, joint venture, trust, unincorporated association, corporation or other entity or any governmental authority or agency.

“Playing Field” is defined in Section 4.2(b).

“Replacement Agreement” is defined in Section 5.3(a).

“Rights Fees” is defined in Section 6.1.

“SBOE” is defined in Section 14.17(d).

“Signs” is defined in Section 3.2(a).
“Stadium” is defined in Recital A.

“Stadium Grounds” shall mean and include (i) the Stadium and (ii) all areas outside of the Stadium adjacent thereto, or in close physical proximity thereto that would be viewed by the public as part of the overall Stadium complex, in all cases, to the extent the University, or any of its Affiliates, have the right to control and operate such areas.

“Stadium Lender” means any one or more lenders that provide public or private financing, in the form of a loan, a private placement or public offering of debt securities or otherwise, to the University or any of its Affiliate(s) with respect to the Stadium. If Stadium Lender consists of holders of securities, references in this Agreement to Stadium Lender shall be construed as references to the trustee for such securities holders where appropriate.

“Stadium Logo” is defined in Section 2.2(a).

“Stadium Logo Placements” is defined in Section 2.2(a).

“Stadium Logo Usage Guidelines” is defined in Section 2.2(a).

“Stadium Name” is defined in Section 2.1.

“University Default” is defined in Section 13.2(a).

“University” is defined in the Preamble.

“University Indemnitees” is defined in Section 10.1(b).

“Suite” is defined in Section 3.4.

“Team” is defined in Recital B.

“Term” is defined in Section 5.1.

“University” is defined in the Preamble.

“University Intellectual Property” is defined in Section 8.2.

“University Licensed Product” is defined in Section 4.2(d).

ARTICLE II
NAMING RIGHTS

Section 2.1 Naming Rights License. The University hereby grants to Albertsons the exclusive right and license to name the Stadium during the Term (defined below), and the Parties hereby agree that the Stadium shall be known as “Albertsons Stadium” (the “Stadium Name”) during the Term in accordance with the terms and conditions of this Agreement. From the date hereof until

4
the end of the Term, the University shall (i) use the Stadium Name when referring to the Stadium; and (ii) use commercially reasonable efforts (including the placement of appropriate provisions in agreements) to cause all advertisers, sponsors and media rights holders with which the University has agreements (and for which reference to the Stadium is relevant) to use the Stadium Name when referring to the Stadium. As soon as practicable after the date hereof, the University will use commercially reasonable efforts to cause the applicable public entities to (A) provide adequate directional and informational road signs to be located in the primary public rights-of-way, streets or highways in the vicinity of the University’s main campus, and (B) cause such signage to refer to the Stadium using the Stadium Name. The University shall keep Albertsons informed of the progress of such directional and informational road signs.

Section 2.2 Development of Stadium Logo; Use of Stadium Name and Stadium Logo.

(a) As soon as reasonably practicable after the date hereof, the University and Albertsons shall work together to create and develop the stylized version(s) of the Stadium Name and accompanying decorative elements (collectively, the “Stadium Logo”) as set forth below. The Parties acknowledge that (1) the Stadium Logo will include elements of Marks owned by Albertsons and its Affiliates (collectively, but not including the Stadium Name or Stadium Logo, the “Albertsons Marks”) and may also include elements of certain Athletic Marks owned by the University, (2) the Stadium Logo shall be displayed in a manner that is aesthetically consistent with the overall context in which it appears, and (3) the Stadium Name and/or the Stadium Logo shall appear on the signs and in mutually agreed upon locations on the Stadium Grounds (collectively, the “Stadium Logo Placements”). Albertsons will be responsible for the reasonable costs and expense of creating and developing the Stadium Logo (provided Albertsons shall not be responsible for costs and expenses of, or incurred by, the University and its advisors and consultants) based on prompt, significant and meaningful input from the University, and shall provide the University with reasonable updates as to the progress of such creation and development. Should the Stadium Logo include elements of Athletic Marks such as the Bronco logo, Albertsons will comply with all University identity, logo usage guidelines, and color and font restrictions relating to the Athletics Marks. Such guidelines may be found online at http://brandstandards.boisestate.edu/. Only the primary Athletic Marks may be used in the Stadium Logo. The final design of the Stadium Logo and all variations of it shall be subject to the mutual approval of Albertsons and the University, such approval to include the Office of Trademark Licensing of the University. Following mutual approval of the Stadium Logo, Albertsons shall prepare and provide to the University Stadium Logo guidelines that shall set forth all mutually approved variations of the Stadium Logo and mutually approved appropriate usages for each such variation (the “Stadium Logo Usage Guidelines”). The Parties shall use the Stadium Logo in compliance with Stadium Logo Usage Guidelines. In the event that a Party does not use the Stadium Logo in compliance with Stadium Logo Usage Guidelines, the other Party shall provide the offending Party with written notice requesting correction and the offending Party shall use best commercial efforts to correct such use within thirty (30) days of receipt of such written notice.

(b) The University acknowledges and agrees that Albertsons or one of its Affiliates shall at all times be the sole and exclusive owner of all rights in and to the Stadium Name and the Stadium Logo, subject to the terms and conditions of this Agreement and the
ownership by University of any incorporated Athletic Marks. Except for the University's rights in and to any incorporated Athletic Marks, all rights, title, and interests in intellectual property rights in the Stadium Name and Stadium Logo shall immediately upon creation vest in and be owned exclusively by Albertsons or one of its Affiliates, whether designed or developed by Albertsons and its Affiliates individually or in concert with the University, or at its direction. In the event that any or all rights, title, and/or interests in and to the Stadium Name and/or Stadium Logo are deemed not to vest in Albertsons or one of its Affiliates for any reason, the University agrees to assign, transfer and convey, and hereby does assign, transfer, and convey to Albertsons or one of its Affiliates, all such rights, title, and interests, including all economic rights and moral rights of authorship other than University's rights in and to the Athletics Marks and any other University Intellectual Property as described in Section 8.2. Notwithstanding anything to the contrary herein, in the event the University terminates this Agreement as set out in Section 13.1 herein, all rights, title and interest in the same intellectual property rights shall immediately revert to and vest wholly in University; provided, however, such rights will not include rights to the Albertsons Marks. Albertsons hereby grants to the University the non-exclusive, royalty-free right and license: (1) during the Term to use (and/or to license others to use or license) the Stadium Name and the Stadium Logo for any lawful purpose of the University in connection with the marketing, operation and promotion of the University, including but not limited to the production and sale of merchandise; and (2) if the Agreement expires or terminates other than due to default, after the Term, to use (and/or to license others to use or license) the Stadium Name and the Stadium Logo solely in accordance with this Section 2.2. All such uses, and all goodwill in the Stadium Name and the Stadium Logo resulting therefrom, shall inure to the benefit of Albertsons and its Affiliates, subject to Section 8.2. The University agrees that it will require that any and all uses of the Stadium Name and Stadium Logo by any of its sublicensees (including, without limitation, on merchandise) shall conform to the Stadium Logo Usage Guidelines, and it will not grant a sublicense that exceeds the scope of the license to the Stadium Name and Stadium Logo granted to the University herein. Subject to the restrictions set forth herein, Albertsons or its Affiliates shall retain the right during the Term to use the Stadium Name and the Stadium Logo, including the right to reference and display in Advertising Copy the names and Marks of the entities or businesses with whom Albertsons or its Affiliates maintain strategic relationships or jointly develop or offer grocery and/or pharmacy related products or services. Albertsons or its affiliates must first seek and receive University approval, which will not be unreasonably withheld, to use the Stadium Name or Stadium Logo in concert with the names and/or marks of any third party entities, as the University must ensure that no conflicts exist with its then current third party University partners. Strategic relationship partners of Albertsons or its affiliates do not receive pass through rights on the use of the Stadium Name, Stadium Logo, Athletic Marks or other University Intellectual Property.

(c) Both Albertsons and the University shall provide that all merchandise and consumer products displaying or sold under the Stadium Name and/or Stadium Logo pursuant to the license granted hereunder to the respective parties shall be of good quality in design, material, and workmanship and be suitable for their intended purpose; that no injurious, deleterious, or toxic substances shall be used in or on the merchandise or products; that the merchandise and products shall not cause harm when used as instructed and with ordinary care for their intended purpose; that the merchandise and products shall be sold, and distributed in material compliance with all applicable laws and regulations (including, but not limited to, local labor laws, U.S.
Customs requirements, applicable rules and regulations of the U.S. Consumer Product Safety Commission, and garment labeling regulations). Albertsons and its Affiliates shall not be responsible for any costs associated with a product recall, initiated either voluntarily or at the request of a state or federal agency, for any merchandise or consumer products sold pursuant to the license granted to the University hereunder. Any and all merchandise, whether for promotional use or retail, that includes the Stadium Logo and/or University Athletics Marks shall be manufactured by a vendor who is licensed with the University to produce such merchandise. Such licensee shall comply with all licensing requirements including without limitation, fair labor and insurance requirements. All artwork, merchandise and products bearing the Stadium Name, Stadium Logo, Athletics Marks or other University Intellectual Property must be approved by University’s Office of Trademark Licensing.

(d) Albertsons shall have the primary right and be solely responsible for controlling and protecting the Stadium Name and the Stadium Logo, but not the Athletic Marks or University Intellectual Property, (including, without limitation, initiating, prosecuting, defending and controlling litigation and prosecuting and maintaining trademark and copyright applications and registrations), solely at Albertsons’ cost and expense (provided Albertsons shall not be responsible for costs and expenses of, or incurred by, the University and its advisors and consultants) in its own name, including, without limitation, to prevent and stop any and all potential infringements and unauthorized uses of the Stadium Name or the Stadium Logo, but not the Athletic Marks or University Intellectual Property in jurisdictions in which Albertsons may claim senior trademark rights. The University agrees to cooperate and provide support, specimens, and all information required to prosecute, defend, and maintain any trademark and copyright applications and registrations for the Stadium Name and the Stadium Logo, at Albertsons’ request. The University further agrees to cooperate as requested by Albertsons in any legal actions or proceedings to stop third party infringements and/or unauthorized uses of the Stadium Name or Stadium Logo. If Albertsons notifies the University in writing that it elects not to initiate or pursue legal action in connection with a potential or actual infringement or unauthorized use of the Stadium Name or Stadium Logo, and the University, has viable legal claims in connection with such potential or actual infringement or unauthorized use, the University may take such legal action as deemed appropriate, and Albertsons agrees to support such legal action through active consultation with the University; provided that the University shall share equally with Albertsons any amounts that the University recovers as a result of such legal action that exceed the sum of (1) the University’s direct damages from such potential or actual infringement or unauthorized use, plus (2) the University’s costs and expenses of such legal action (including, without limitation, reasonable attorneys’ fees and expenses); and, provided further that the University shall not settle or compromise any such legal action, or consent to the entry of any judgment, without Albertsons’ prior written consent, which shall not be unreasonably withheld.

(e) Notwithstanding anything contained in this Agreement to the contrary and throughout the Term of this Agreement, Albertsons agrees that neither it nor its sublicensees: shall use the Stadium Name and/or Stadium Logo in direct association with any of the following prohibited products or classes of services; sell any advertising right to any company that engages in the management of any of the following businesses; or include a reference to any of the following prohibited products or classes of services on the Advertising Copy directly above,
below, next to or in immediate proximity to the Stadium Name and/or Stadium Logo, unless otherwise agreed to by University, which approval may be withheld in University’s sole discretion; provided, however, that such prohibitions do not prohibit Albertsons from otherwise promoting or selling the products or classes of services set forth in (i)-(ix) below:

(i) Gambling (except the State authorized lottery)
(ii) Alcoholic Beverages
(iii) Prophylactics
(iv) Feminine Hygiene Products
(v) Tobacco products
(vi) Sexually explicit materials
(vii) Adult entertainment
(viii) Religious and/or political materials
(ix) Ammunition, camouflage, and/or firearms
(x) Material that is reasonably likely to be considered objectively defamatory, obscene, profane, vulgar or otherwise socially unacceptable or offensive to the general public.

(xi) Advertising that is reasonably likely to materially discredit the purposes, values, principles or mission of the NCAA or University or is reasonably likely to have a materially adverse effect on the interests of intercollegiate athletics or higher education.

(f) Albertsons agrees that in exercise of its rights granted hereunder, it shall ensure that any use of the Stadium Name and/or Stadium Logo or any other representation of the University as permitted hereunder shall be mindful of and consistent with the good image, message and reputation of the University and that such promotion or recognition will not materially distort or impair the presentation and image of the University, its Athletics program and the respective teams.

Section 2.3 Change in Stadium Name and Stadium Logo.

(a) Albertsons shall not be entitled to change the Stadium Name unless changing the name is (1) requested: (i) as a result of a change of control of Albertsons, including, without limitation, by way of a merger, corporate restructuring, reorganization, consolidation, divestiture, recapitalization, combination, exchange of shares, spin-off or sale of all or substantially all of Albertsons’ outstanding voting securities, sale or other transfer of all or substantially all of Albertsons assets, or (ii) for a reasonable business purpose in connection with a strategic marketing objective, including, but not limited to a change in Albertsons’ name (other
than pursuant to clause (i) and (2) is approved by the University, which approval shall not be unreasonably withheld, delayed, conditioned or denied.

(b) If Albertsons desires to and provides notice to change the Stadium Name in accordance with the terms and conditions of this Section 2.3, Albertsons shall provide at least sixty (60) days prior written notice to the University of the desired name change, which notice shall describe the reasons for the name change, including, to the extent applicable, an explanation of the "reasonable business purpose" and "strategic marketing objective" (the "Name Change Notice").

(c) If the University, in its discretion, objects to any such proposed name change, the University shall provide Albertsons with written notice thereof within thirty (30) days from the receipt of the Name Change Notice (the "Objection Notice"), which Objection Notice shall describe with particularity the reasons for the objection. In the event the University delivers an Objection Notice to Albertsons within such thirty (30) day period, Albertsons and the University shall discuss, in good faith, the name change and the reasons for the request and objections.

(d) If, as a result of a change in the Stadium Name in accordance with Section 2.3(a), or for any other reason, Albertsons wishes to change the Stadium Logo, it shall serve written notice upon the University, which notice shall provide the proposed Stadium Logo and the reason for the proposed change. The proposed Stadium Logo shall be subject to the prior written approval of the University, which shall not be unreasonably withheld, delayed or conditioned.

(e) Albertsons shall bear all direct, out-of-pocket, unaffiliated third-party costs and expenses incurred and associated with any University approved change in the Stadium Name and the Stadium Logo, including, without limitation, (1) creation and development of the new Stadium Name and Stadium Logo; (2) producing and installing new Stadium Logo Placements and Signs bearing the Stadium Name and/or the Stadium Logo; (3) reprinting current publications, stationery and other written materials bearing the Stadium Name and/or the Stadium Logo; and (4) creating and producing Advertising Copy to replace the Stadium Name and/or the Stadium Logo in Albertsons' and its Affiliates' advertising. Such new Stadium Name and new Stadium Logo shall be subject to the terms and conditions of this Agreement, and upon such University approved change, all references herein to Stadium Name and Stadium Logo shall be deemed to be to such new Stadium Name and new Stadium Logo, respectively.

(f) In the event of a University approved change in the Stadium Name and/or the Stadium Logo, the Parties shall cooperate to effect a smooth and orderly transition to the new Stadium Name and/or new Stadium Logo, including, without limitation, notifying advertisers, sponsors and media partners of the change and minimizing the disruption to the operation of the Stadium and of events held at the Stadium and Albertsons shall in good faith take into consideration the transition and any disruption caused thereby in determining when to make such change effective.

(g) In the event either party wishes to change the Stadium Logo due to a significant change in the branding of its corporation or institution, then the Parties shall work in
good faith together to develop a new Stadium Logo. Unless otherwise agreed to by the Parties, the Party that initiates the change in the Stadium Logo under this provision shall be responsible for all costs and expenses associated with the fabrication, construction and installation of the Signs bearing the new Stadium Logo.

Section 2.4  End of Term. Upon expiration or earlier termination of this Agreement other than for default as set out in Section 13.1 herein, the University shall have the right to continue to use (i) the Stadium Name in ordinary typeface and (ii) the then-current Stadium Logo, in each case for up to one hundred eighty (180) days after such expiration or termination, and subject to the Usage Guidelines and the quality control provisions set forth in this Agreement. The University shall also be permitted to market and sell or otherwise dispose of then-existing inventory containing the Stadium Name and the Stadium Logo until such inventory has been depleted but no later than one hundred eighty (180) days after such expiration or earlier termination.

ARTICLE III
SPONSORSHIP ELEMENTS

Section 3.1  Rights and Benefits. Subject to the terms and conditions set forth herein, in consideration for the payments of the Rights Fees (defined below) during the Term, the University shall grant and provide to Albertsons, and Albertsons shall receive, the rights and benefits set forth herein, including the rights and benefits set forth in Sections 2.1 and 2.2 and on Exhibit A attached hereto. Albertsons shall have the right to execute any of its rights and benefits under this Agreement in the name of its Affiliates including New Albertson’s, Inc., subject to the reasonable consent of the University, such consent not to be unreasonably withheld.

Section 3.2  Signs.

(a) Subject to the terms and conditions set forth herein, the University grants to Albertsons the right to have the Stadium Name and Stadium Logo displayed at the Stadium, the Stadium Grounds and in the Parking Areas on fixtures designed for advertising space located as described on Exhibit A (such fixtures are referred to as the “Signs” and do not include the Advertising Copy). The University shall, subject to the written approval of Albertsons, determine placement of the Signs. The University shall maintain the Signs in good repair and condition shall secure them from vandalism and theft and shall be solely responsible for obtaining any permits for the installation, maintenance and use of the Signs. Albertsons and the University shall be jointly and equally responsible for all costs and expenses associated with the fabrication, construction and installation of the Signs containing the Stadium Name, the Stadium Logo or the names “Albertsons,” as described or depicted on Schedule I to Exhibit A; provided, however, the University shall be responsible for all costs and expenses of fabricating, constructing and installing all other Signs located at the Stadium, Stadium Grounds and University Grounds containing the Stadium Name, the Stadium Logo or the names “Albertsons” and shall also be responsible for all costs and expenses of operating and maintaining all Signs, including any Sign replacements, updates or refurbishments due to vandalism, theft, and wear

10
and tear. Albertsons shall have the right at any time (and from time to time) to request that the University change or remove any of the Signs with the University’s consent, not to be unreasonably withheld, delayed or conditioned. Any such change and/or removal shall be at Albertsons’ sole cost and expense without any mark-up by the University. Albertsons shall have approval rights, in its sole discretion, in the design and execution of all Stadium Signs and logos involving Albertsons, the Albertsons Marks or the Stadium Name. The University shall execute any such installation, change and/or removal in a reasonable amount of time.

(b) Through delivery of Stadium Logo Placements and other Albertsons elements set forth in this Agreement, the University shall: (i) cause Albertsons and its Affiliates to be the most prominent sponsor and advertiser within and on the exterior of the Stadium, on the Stadium Grounds and in the Parking Areas during all Team home games and all other events; and (ii) not authorize any other sponsor or its brands to have a presence within, or on the exterior of the Stadium, on the Stadium Grounds or in the Parking Areas, the prominence of which is greater than or equal to that of Albertsons and its Affiliates’ presence. The University’s obligations regarding prominence of Albertsons and its Affiliates as set forth in this Section 3.2(b) shall apply regardless of whether the University develops or creates additional sponsorship inventory at the Stadium, Stadium Grounds or in the Parking Areas that is not contemplated on Exhibit A, that is not utilized by another Person or that is to be utilized by another Person but cannot be replicated for, or is of a nature that cannot be provided to, Albertsons and its Affiliates (e.g., due to space limitations).

(c) The University shall use commercially reasonable efforts to prevent any Person from displaying signage or other advertising or promotional materials, or taking other actions, in the areas at the Stadium, on the Stadium Grounds or in the Parking Areas that the University controls, which signage, advertising, promotional materials or actions are intended to, or for which it is reasonably foreseeable will result in, attack on, harm to, or embarrassment or disparagement of Albertsons, its Affiliates or their products or services, or otherwise place in an unfavorable light Albertsons’ or its Affiliates’ products or services, or otherwise undermine, encroach, compromise or infringe Albertsons’ rights and benefits pursuant to Articles II and III of this Agreement. Such commercially reasonable measures shall include, without limitation, using good faith efforts to prevent third parties from (i) engaging in the promotion, without the permission of the University, of any products or services in the Category within the Stadium, on the Stadium Grounds or in the Parking Areas; (ii) associating themselves with the Stadium in the promotion of any products or services in the Category, such as, for example, by allowing third parties to film commercials on the Stadium Grounds for products or services in the Category, unless, in each instance, with the prior written consent of Albertsons in its sole discretion; and (iii) obstructing any Signs or Stadium Logo Placements in or on the interior or exterior of the Stadium, on the Stadium Grounds or in the Parking Areas, including, in the case of this clause (iii) via “virtual” advertising in telecasts of events held at the Stadium if and to the extent the University has the authority and right to prevent any such advertising.

(d) In the event the Stadium’s seating is enhanced or remodeling or expansion of the Stadium is undertaken, University will cooperate with Albertsons and the parties will agree to use commercially reasonable efforts to ensure that the prominence of the Stadium Logo Placements are not diminished by the Stadium enhancement, remodeling or expansion.
Section 3.3 Advertising Copy. Subject to the limitations of paragraph 2.2(e) above, the design, layout and visual and audio content of all Advertising Copy used by Albertsons which displays the Stadium Name and/or Stadium Logo in connection with the advertising, marketing and promotion of Albertsons’ or its Affiliates’ products and services in the Category and Albertsons’ general corporate identity pursuant hereto shall be determined by Albertsons, in its sole discretion; provided, however, that no Advertising Copy shall contain any materials that are lewd, vulgar, sexually explicit, offensive, discriminatory against a protected class or offensive to the sensibilities of the community at large. All such Advertising Copy and other signage shall be subject to the approval of the University. Albertsons shall submit all such Advertising Copy to the University a reasonable time prior to the game or other event at which such Advertising Copy is to be displayed or prior to the time such Advertising Copy must be submitted for production, as applicable.

Section 3.4 University Suite License Agreement. The Parties acknowledge that the University and Albertsons have previously entered into a Bronco Stadium Suite License Agreement dated as of August 20, 2013 (the “Existing Suite License”). Pursuant to this Agreement, the Existing Suite License is superseded and replaced by the Suite License Agreement attached hereto as Exhibit B, whereby Albertsons will be provided with a luxury suite (the “Suite”) during the Term and shall have exclusive use of the Suite during all events at the Stadium. The Suite shall be the best suite in the Stadium when taking into account the size, location and features. If the Suite is not immediately available, the University will provide the Suite at the earliest date it becomes available, but no later than February 1, 2016. The license fees for the Suite are included in the Rights Fees and Albertsons shall have no obligation to pay any additional license, rental, use or similar fee for the Suite; provided that the cost of food and beverages consumed in the Suite will be the responsibility of Albertsons. The University shall keep and maintain the Suite consistent with that of its other luxury suites at the Stadium.

Section 3.5 Annual Review Meeting. Commencing with the initial Contract Year, each Contract Year, within forty-five (45) days after the completion of the Team’s then-current Division I FSB season, the Parties shall meet in person at a location mutually agreed upon by the Parties, to discuss and review each Party’s performance of its obligations hereunder, identify opportunities to maximize the benefits and value of this Agreement to Albertsons and the University and to review ways to improve the administration of this Agreement (such meeting referred to herein as, the “Annual Meeting”). Further, during each Annual Meeting:

(a) The Parties will discuss in good faith the prominence criteria as set forth in Section 3.2(b), and ways in which such criteria may be fulfilled; and

(b) The University shall use good faith efforts to cause its multi-media rights partner to notify Albertsons of any advertising, sponsorship or promotional benefits or opportunities with respect to the Athletic Program or the Stadium that are expected to become available during the upcoming Contract Year (either through new initiatives by the University or as a result of the expiration or termination of any then-current agreements with third parties that are expected to terminate or expire during the upcoming Contract Year) that are of a nature that can be provided to Albertsons and its Affiliates and, if Albertsons expresses interest in such advertising, sponsorship or promotional opportunities, the Parties shall enter into good faith discussions regarding Albertsons’ acquisition of such advertising, sponsorship or promotional
benefits for additional consideration or as a substitute for other benefits to be provided hereunder.

Section 3.6 Delivery of Event Schedules. Commencing with the initial Contract Year, within five business days after the commencement of each Contract Year, the University shall provide Albertsons with a schedule of all confirmed events scheduled to be held at the Stadium during such Contract Year and shall periodically update such schedule from time to time during each Contract Year but no less frequently than every three months. The University acknowledges and agrees that they will not schedule any events at the Stadium that would (a) violate any law, (b) be patently or morally offensive or obscene, or (c) pose a danger to the Stadium Grounds or the surrounding community.

Section 3.7 Audit Rights. From time to time during the Term, Albertsons shall have the right, upon reasonable notice and at its expense, to access the Stadium (and surrounding areas) to examine and inspect the Signs, Stadium Logo Placements and other promotional elements located at the Stadium to verify that such items conform to the terms and conditions of this Agreement. In the event that Albertsons discovers that any such item does not conform in all material respects with the terms and conditions of this Agreement, the University shall promptly, but in no event later than ten (10) business days after receipt of notice of such non-conformity, correct the non-conformity, or if such nonconformity requires a longer period of time to correct, demonstrate good-faith and diligent efforts to initiate such correction. In addition, the University shall maintain complete, accurate and detailed records regarding all such items, benefits, entitlements and exclusivities. The University shall retain such records and make them available for inspection and audit by Albertsons and its authorized representatives during normal working hours with reasonable advance written notice, during the Term and for a period of three (3) years thereafter to verify that the University’s provision thereof to Albertsons and its Affiliates complies with the terms and conditions of this Agreement.

ARTICLE IV
EXCLUSIVITY

Section 4.1 Exclusivity. Subject to the other provisions of this Agreement, the University will not, and will not cause or authorize any third party, with respect to the promotion or advertisement of any products or services in the Category, or any Albertsons Competitors, to (i) use the Athletic Program Marks, Stadium Name, or Stadium Logo in the Stadium, on the Stadium Grounds, in the Parking Areas, or on the outdoor marquees of the Stadium, (ii) exhibit or display signage or otherwise engage in any sponsorship, advertising or other promotional activities in the Stadium, on the Stadium Grounds, in the Parking Areas, on the outdoor marquees of the Stadium, or (iii) advertise, market or promote in publications of the Stadium, or on radio, television, internet or other live audio or video broadcast of events held at the Stadium to the extent the University exercises authority to control the content of such advertising, marketing or promotion. The University shall use good faith efforts to cause its multi-media rights partner to provide to Albertsons from time to time, but no less than once per month, a copy of its sponsors’ and advertiser’s forecast/pipeline report. If Albertsons has any objections to the University or its multi-media rights partner entering into a sponsorship or advertising agreement
with any entities appearing on such report, Albertsons shall notify the University within three business days of its receipt of such report, and shall in good faith identify any such prospective sponsor or advertiser that is an Albertsons Competitor.

Section 4.2 Limitations on Exclusivity. The benefits provided by Article III and exclusivity provided by Section 4.1 may be limited as set forth in this Section 4.2.

(a) Albertsons acknowledges and agrees that the University shall have the right to solicit and enter into sponsorships for its Athletic Program and its facilities with other parties that are not Albertsons Competitors provided that (A) such sponsorships do not promote or advertise products in the Category and (B) such sponsorships comply with Section 3.2(b), this Article IV and all other provisions of this Agreement, in all respects.

(b) The Parties acknowledge that the playing field at the Stadium (the “Playing Field”) is currently named “Lyle Smith Field” and the Parties agree that the University shall have the continued right to retain such name. However in the event that, at any time during the Term, the University chooses to rename the Playing Field, then the University shall negotiate exclusively with Albertsons with respect to the purchase by Albertsons of the naming rights for the Playing Field for a thirty (30) day period after the University notifies Albertsons in writing of such change in circumstances. If the Parties are unable to reach an agreement during such period, then, the University shall be free to grant one or more third party sponsors the right to name the Playing Field; provided that (A) such sponsorships do not promote or advertise products in the Category and (B) such sponsorships comply with Section 3.2(b), this Article IV and all other provisions of this Agreement, in all respects; and provided further that, prior to entering into such an agreement with a third party, the University shall provide Albertsons with the opportunity to acquire such rights on substantially the same terms and conditions as such third party has offered.

(c) Broadcast Advertising. The University’s broadcast and publication partners may sell advertising inventory during broadcasts of Team games and in Team publications to another Person (including an Albertsons Competitor) for marketing, promoting or advertising its products and services in the Category if and to the extent the University does not have the authority to control the sale of such inventory. Notwithstanding the fact that they may not have the authority to exercise control over such inventory, the University agrees to use its good faith efforts to seek broadcast and publication partners’ cooperation in respecting Albertsons’ exclusivity, including where practicable, designating the Category as a “blocked” or “exclusive” category for broadcast or publication advertising.

(d) Albertsons acknowledges and agrees that the University has over 400 licensees who make and sell Boise State related goods and products that feature the University name and Athletics Marks (“University Licensed Product”). Furthermore Albertsons acknowledges and agrees that Albertsons Competitors as defined herein now sell and will continue to sell such University Licensed Product. Albertsons acknowledges and agrees that nothing herein shall prevent the sale and/or advertising of such University Licensed Product by Albertsons Competitors provided that such advertising and sale shall relate solely to the sale of University Licensed Product. Furthermore, Albertsons acknowledges and agrees that nothing in this Agreement shall prevent University from granting similar licenses in the future for goods and products in the Category as defined hereunder.
ARTICLE V
TERM; EXCLUSIVE RIGHT OF FIRST NEGOTIATION

Section 5.1 Term. The term of this Agreement (the “Term”) will commence on the Effective Date and, unless sooner terminated or extended pursuant to the provisions hereof, or in the Letter Agreement, will terminate after the expiration of the fifteenth (15th) Contract Year.

Section 5.2 Early Termination Right. Commencing upon the expiration of the fifth (5th) Contract Year, Albertsons shall have the right, in its sole discretion, to terminate this Agreement for any reason (or no reason) upon providing not less than two (2) years prior written notice to the University. As a pre-condition to the effectiveness of such termination, Albertsons must pay an early termination payment as set forth in the Letter Agreement (the “Early Termination Payment”).

Section 5.3 Right of First Negotiation.

(a) The University agrees that the University will not directly or indirectly, solicit indications of interest for, or negotiate with any Person regarding, or enter into any agreement or understanding with respect to (A) naming rights for the Stadium for any period following the Term, (B) a similar scope of sponsorship or promotional rights as those granted to Albertsons under this Agreement for any period following the Term, or (C) any portion of the rights granted to Albertsons under this Agreement such that if such rights were granted to another party, the University would not be able to make available to Albertsons substantially similar rights after the Term as are currently granted to Albertsons under this Agreement (a “Replacement Agreement”), without the University having first engaged in good faith exclusive negotiations with Albertsons during the time period beginning February 1, 2028, and ending July 31, 2028 (such period as may be adjusted hereunder, the “Negotiation Period”), for an extension of this Agreement beyond the initial Term. Albertsons understands that, at any time after the Negotiation Period (but not before) the University shall be free to negotiate with any third party regarding a Replacement Agreement for the period commencing immediately following the expiration of the Term; provided, however, the University shall not enter into any Replacement Agreement except as permitted by this Section 5.3.

(b) If the Parties are not able to agree on terms and conditions under which the Term shall be extended and to execute a new naming rights agreement (or an extension or amendment of this Agreement) during the Negotiation Period, then upon the expiration of the Negotiation Period, the University shall thereafter be free to solicit indications of interest for, or negotiate with any Person regarding, or enter into a Replacement Agreement; provided, however, that the University shall not enter into such proposed Replacement Agreement unless and until the University complies with the requirements of Section 5.3(c) below (or if the University enters into such a proposed Replacement Agreement, the effectiveness of such Replacement Agreement shall be conditioned upon Albertsons not exercising its rights hereunder).

(c) The University shall deliver to Albertsons a term sheet or memorandum setting forth all material terms and conditions of any proposed Replacement Agreement described in Section 5.3(b). Albertsons shall have until 5:00 p.m. Boise, Idaho time on the
thirtieth (30th) day following receipt of such term sheet or memorandum to agree to renew this Agreement on substantially similar terms and conditions as the proposed Replacement Agreement, except as may be necessary to reflect the difference of the naming rights partner (an “Equivalent Extension Offer”). If Albertsons makes an Equivalent Extension Offer, the University shall accept it and the University shall decline the proposed Replacement Agreement (or if the Replacement Agreement was conditioned upon Albertsons not exercising its rights hereunder, the University shall immediately terminate the Replacement Agreement). Thereafter the Parties shall immediately enter into a definitive naming rights agreement (or an extension or amendment of this Agreement) reflecting the terms and conditions of the Equivalent Extension Offer (such agreement, extension or amendment of this Agreement being an “Extension Agreement”). This Section 5.3 shall survive the expiration of this Agreement.

ARTICLE VI
CONSIDERATION

Section 6.1 Rights Fees. In consideration for the rights and benefits to be granted by the University hereunder, Albertsons will pay to BSP the amounts set forth, collectively, the “Rights Fees” in that certain letter agreement of even date herewith, the “Letter Agreement,” between Albertson’s and BSP. University acknowledges and agrees that payment to BSP of the Rights Fees under the Letter Agreement is authorized and approved by University and satisfies Albertson’s obligation to pay the Rights Fees under this Agreement. University agrees to look solely to BSP and not Albertson’s for all or any portion of the Rights Fees to which University may be entitled pursuant to University’s agreements with BSP.

Section 6.2 Payment Terms. All Rights Fees shall be paid by Albertsons by wire transfer of immediately available funds to such account(s) as designated by BSP.

Section 6.3 Reduction of Rights Fees and Other Rights. If for any reason other than Force Majeure, including as the result of NCAA Agreements, (a) the Team does not play all of its home games in the Stadium during any Contract Year, (b) the Team plays fewer than six (6) home games in the Stadium during any Contract Year for any reason, or (c) the Team incurs sanctions which prevent the team from appearing in conference championship games or post season conference tournaments, NCAA, or playoff/bowl games during any Contract Year, then Albertsons shall be entitled to (i) a mutually agreeable equitable adjustment, and/or (but without double recovery), (ii) a corresponding equitable extension at the end of the Term, with no payment obligation for the duration of such extension, or (iii) if applicable, the termination rights provided in Section 13.4.

ARTICLE VII
REPRESENTATIONS, WARRANTIES AND COVENANTS

Section 7.1 Representations, and Warranties and Covenants of the University. The University hereby represents and warrants to Albertsons that:
(a) The University has all requisite power and authority to conduct its business as currently conducted.

(b) The University has the requisite right and legal authority to execute, deliver and fully perform its obligations under this Agreement, including, without limitation, the right to grant naming rights for the Stadium.

(c) The University has taken all necessary action to authorize its execution, delivery and performance of this Agreement. The University has taken all necessary action to approve of BSP entering into the Letter Agreement with Albertson’s. This Agreement, when executed and delivered by the University shall constitute a legal, valid and binding obligation of the University, enforceable against the University in accordance with its terms, except to the extent that enforcement thereof may be limited by bankruptcy, insolvency or other similar laws affecting creditors’ rights generally or by general principles of equity.

(d) The execution, delivery and performance of this Agreement by the University does not and will not constitute a violation or a breach of, or constitute a default under (1) organizational documents of the University, (2) any applicable law, rule or regulation of a governmental authority binding upon or applicable to the University, (3) any material agreements to which the University is a party, or (4) any NCAA Agreement. No approval or other action by any governmental authority or agency is required in connection herewith.

(e) There is no pending or, to the University’s knowledge, threatened objection or claim being asserted against the University in any administrative or judicial proceeding or by any person or entity with respect to the ownership, validity, registerability, enforceability or use of any of the Athletic Program Marks or challenging or questioning the validity or effectiveness of any such ownership or license and, to the University’s knowledge, there is no basis for any such objection or claim.

(f) The University will, at no cost or expense to Albertsons, cause the Stadium to be maintained and operated in material compliance with the standards of operation and maintenance of other Stadiums which are used by Division I FSB programs for varsity home football games, keep the Stadium in a good, clean and safe condition fit for the hosting of Team home games and other events held at the Stadium and be responsible for the compliance with the obligations of the University under this Agreement and with all applicable laws, rules and regulations, including, without limitation, the requirements of all safety, health and environmental laws, regulations and rules, and NCAA Agreements.

(g) Nothing contained within the NCAA Agreements or any rules, requirements or agreement with or of the MWC will prevent the University from providing to Albertsons the rights and benefits set forth in this Agreement and on Exhibit A.

(h) The University shall cause the Team to play all pre-season, regular season, playoff, and championship “home” games in the Stadium (“Home Games”).

(i) There are no claims, demands, actions or proceedings pending or, to the University’s knowledge, threatened against the University that could either individually or in the
aggregate reasonably be expected to have a material adverse effect on the University’s ability to perform its obligations.

Section 7.2 Representations, Warranties and Covenants of Albertsons. Albertsons hereby represents and warrants to the University that:

(a) Albertsons has all requisite power and authority to conduct its business as presently conducted.

(b) Albertsons has the requisite right and legal authority to execute, deliver and fully perform its obligations under this Agreement including, without limitation, to grant the rights and licenses set forth in Section 2.2(b) and Section 8.1.

(c) Albertsons has taken all necessary action to authorize its execution, delivery and performance of this Agreement. This Agreement, when executed and delivered by it, shall constitute a legal, valid and binding obligation of such Person, enforceable against it in accordance with its terms, except to the extent that enforcement thereof may be limited by bankruptcy, insolvency or other similar laws affecting creditors’ rights generally or by general principles of equity.

(d) The execution, delivery and performance of this Agreement by Albertsons does not and will not constitute a violation or a breach of, or constitute a default under (1) its organizational documents, (2) any applicable law, rule or regulation of a governmental authority binding upon or applicable to it, or (3) any material agreements to which it is a party. No approval or other action by any governmental authority or agency is required in connection herewith.

(e) There is no pending or, to such Person’s knowledge, threatened objection or claim being asserted against it in any administrative or judicial proceeding or by any Person with respect to the ownership, validity, registerability, enforceability or use of any of the Albertsons Marks or challenging or questioning the validity or effectiveness of any such ownership or license and, to such Person’s knowledge, there is no basis for any such objection or claim.

(f) There are no claims, demands, actions or proceedings pending or, to Albertsons’ knowledge, threatened against Albertsons that could either individually or in the aggregate reasonably be expected to have a material adverse effect on its ability to perform its obligations.

ARTICLE VIII
USE OF MARKS

Section 8.1 The University’s Use of Albertsons Marks. In addition to the license granted in Section 2.2(b) relating to the Stadium Name and Stadium Logo, Albertsons hereby grants to the University, during the Term, at no charge, the non-exclusive right and license to use the Albertsons Marks in conjunction with acknowledging Albertsons and its Affiliates’ status as an
official sponsor of the University. Albertsons shall have the right to approve in advance any materials to be used by the University in displaying the Albertsons Marks. Except as expressly provided herein and subject to the terms and conditions hereof, the University shall not have any rights whatsoever to utilize any Albertsons Marks. The University acknowledges and agrees that Albertsons Marks shall be and remain the sole property of Albertsons. Any and all rights under trademark or copyright law or otherwise relating to Albertsons Marks and the goodwill associated therewith shall inure to the benefit of Albertsons. The University shall not infringe upon, harm or contest the rights of Albertsons in its Marks. Any use of Albertsons Marks, except as specifically authorized herein, shall require, in each instance, the prior written consent of Albertsons.

Section 8.2 University Intellectual Property: Subject to the superseding rights of the MWC, Albertsons acknowledges and agrees that University owns the intellectual property rights associated with the University, its athletic teams, its facilities and the associated events and broadcasts ("University Intellectual Property"). Notwithstanding anything herein to the contrary, including without limitation the provisions of Section 2.2., Albertsons acknowledges University’s exclusive right, title and interest in and to the Athletics Marks and other University Intellectual Property and will not in any manner represent that Albertsons has any ownership therein, or in any registration thereof and will not knowingly in any way do or cause to be done any act or thing contesting or any way impairing any part of such right, title and interest.

ARTICLE IX
FORCE MAJEURE

Section 9.1 Force Majeure. In the event that any Party hereunder is unable to perform or is precluded from performing its obligations under this Agreement due to any unforeseen circumstances beyond the reasonable control of such Party, including, but not limited to, fire, earthquake, explosion or other casualty, riot, or civil commotion, act of government or governmental instrumentality (whether federal, state or local), war, act of terrorism, failure of performance by a common carrier, failure in whole or in part of third party technical facilities (e.g., an Internet hosting company), or act of God (a "Force Majeure Event"), then such inability to perform shall not be deemed to be an Albertsons Default (defined below) or University Default (defined below) hereunder, as the case may be; provided, however, that such Party shall make all reasonable efforts to continue to meet its obligations throughout the duration of the Force Majeure Event and the suspension of any obligations of such Party shall only last during the time the Force Majeure Event continues (and such reasonable time thereafter to allow such Party to respond to such condition). Notwithstanding the foregoing, if during any Contract Year, any Home Games are cancelled at the Stadium due to a Force Majeure Event and is not rescheduled at the Stadium during the Term and as a result, the University fails to provide rights and benefits granted to Albertsons hereunder for such Contract Year, then Albertsons will have the right to receive (a) a mutually agreeable equitable adjustment to the Rights Fees, and/or (but without double recovery) (b) a corresponding equitable extension at the end of the Term; and (c) if applicable, the termination rights provided in Section 13.4.
ARTICLE X
INDEMNIFICATION

Section 10.1 Indemnification.

(a) The University shall defend, indemnify and hold harmless Albertsons, its Affiliates, officers, directors, managers, owners, agents and employees of the foregoing ("Albertsons Indemnitees") from and against any and all claims, damages, demands, suits, actions, complaints, liabilities, judgments, losses, costs and expenses, of any nature whatsoever, including reasonable attorneys' fees and all costs of investigation (collectively, "Claims"), alleged to have arisen out of or relating to (i) any breach by the University of its covenants or obligations hereunder, (ii) any inaccuracy of the representations and warranties of the University hereunder, (iii) any infringing use, or allegation of such use, by Albertsons of Athletic Program Marks (provided that Albertsons’ use of Athletic Program Marks is in accordance with and as permitted under the terms of this Agreement) and/or any copyright claim for materials created or distributed by or on behalf of one or more the University that include any Athletic Program Mark, (iv) any unfair or fraudulent advertising charges or claims related to advertisements of the University or its Affiliates, (v) any negligence or willful misconduct by the University or its respective officers, directors, managers, owners, agents and employees relating to the rights and benefits granted hereunder to Albertsons, (vi) the Stadium, including, without limitation, the operation, management or administration of the Stadium and any personal injury (including death) or property damage suffered at or on the Stadium premises or relating to any environmental claims in or about the Stadium, or (vii) a Stadium event, except, in each case, to the extent attributable to the negligence or willful misconduct of any Albertsons Indemnitee; provided, however, that Albertsons Indemnitees shall promptly notify the University of any Claim to which the indemnification set forth in this paragraph applies (it being understood that the failure to so notify shall not excuse the University from its obligations under this paragraph except to the extent that such failure increases the liability of the indemnifying Party hereunder) and shall tender to the University the defense thereof. If the University promptly assumes the defense of a Claim covered by this Section 10.1(a), no Albertsons Indemnitee may settle or compromise such Claim without the prior written approval of the University. If the University fails to assume the defense of such Claim, the Albertsons Indemnitees may settle or compromise such Claim on such terms as the Albertsons Indemnitees may reasonably deem appropriate, and the University shall reimburse the Albertsons Indemnitees for the cost of such settlement, in addition to the University’s other obligations hereunder.

(b) Albertsons shall defend, indemnify and hold harmless the University, its respective Affiliates and the respective officers, directors, managers, owners, agents and employees of the foregoing ("University Indemnitees") from and against any and all Claims alleged to have arisen out of (i) any breach by Albertsons of its covenants or obligations hereunder, (ii) any inaccuracy of the representations and warranties of Albertsons hereunder, (iii) any infringing use, or allegation of such use, by the University of Albertsons Marks, the Stadium Name or Stadium Logo (provided that the University’s use of Albertsons Marks, Stadium Name and Stadium Logo is in accordance with and as permitted under the terms of this Agreement) and/or any copyright claim for Advertising Copy created or distributed by or on behalf of Albertsons that include any Albertsons Mark, the Stadium Name or Stadium Logo, (iv) the
content of any Advertising Copy or Signs, including unfair or fraudulent advertising charges or claims related thereto, or (v) any negligence and willful misconduct by Albertsons or its officers, directors, managers, owners, agents and employees relating to the exercise or utilization by Albertsons of the rights granted hereunder except, in each case, to the extent attributable to the negligence or willful misconduct of the University Indemnitee; provided, however, that University Indemnitees shall promptly notify Albertsons of any Claim to which the indemnification set forth in this paragraph applies (it being understood that the failure to so notify shall not excuse Albertsons from its obligations under this paragraph except to the extent that such failure increases the liability of Albertsons hereunder) and shall tender to Albertsons the defense thereof. If Albertsons promptly assumes the defense of a Claim covered by this Section 10.1(b), no University Indemnitee may settle or compromise such Claim without the prior written approval of Albertsons. If Albertsons fails to assume the defense of such Claim, the University Indemnitees may settle or compromise such Claim on such terms as the University Indemnitees may reasonably deem appropriate, and Albertsons shall reimburse the University Indemnitees for the cost of such settlement, in addition to the University’s other obligations hereunder.

(c) With respect to the indemnitees enumerated in Section 10.1(a) and Section 10.1(b), the indemnifying Party(ies) shall, upon request by the indemnitee(s), allow the indemnitee(s), at its (their) own expense, to cooperate in the defense of any such Claim.

(d) An indemnifying Party’s duty to pay any Claim hereunder shall, in each instance, be reduced by the amount the indemnified Party recovers from any third party in connection therewith, including, without limitation, as a result of, at its discretion, exercising its rights as a third party beneficiary under another contract or pursuing and receiving insurance proceeds in connection with such Claim. The intent of this provision is that the indemnified Party be made as whole as possible and not receive a windfall.

(e) Notwithstanding anything to the contrary herein, nothing herein shall be deemed to constitute a waiver by either Party of any privilege, protection, or immunity otherwise afforded it under any state or federal law.

ARTICLE XI
INSURANCE

Section 11.1 University Insurance Coverage. During the Term, the University agrees to maintain at its sole cost and expense, insurance coverage as follows:

University is a “governmental entity,” as defined under the Idaho Tort Claims Act, specifically, Idaho Code section 6-902 as well as a “public employer,” as defined under the Idaho Worker’s Compensation law, specifically, Idaho Code section 72-205. As such, University shall maintain, at all times applicable hereto, comprehensive liability coverage in such amounts as are proscribed by Idaho Code section 6-924 (not less than $500,000) as well as worker’s compensation coverage for its employees, as required under Idaho Code Section 72-301. University’s liability coverage obligations shall be administered by the Administrator of the Division of Insurance Management.
in the Department of Administration for the State of Idaho, and may be covered, in whole or in part, by the State of Idaho’s Retained Risk Account, as provided under Idaho Code Section 6-919. University shall insure its liability for worker’s compensation through the State of Idaho’s State Insurance Fund, as provided under Idaho Code section 72-301.

Section 11.2 Certificates and Policies of University's Insurance. Upon execution of this Agreement, the University shall provide Albertsons with evidence of insurance indicating all coverage required by Section 11.1. SHOULD ANY OF THE ABOVE DESCRIBED POLICIES BE CANCELLED BEFORE THE EXPIRATION DATE THEREOF, NOTICE WILL BE DELIVERED IN ACCORDANCE WITH POLICY PROVISIONS. Evidence of insurance and notices shall be sent to: Albertson’s LLC, Attn: Records Center-COI, 250 E. Parkcenter Blvd., Boise, ID 83706.

Section 11.3 Albertsons Insurance Coverage. During the Term, Albertsons agrees to maintain at its sole cost and expense, insurance coverage as follows:

(a) Commercial general liability insurance with coverage equal to that provided by the University in Section 11.1 above.

(b) Workers’ compensation insurance affording statutory coverage and statutory limits with a minimum in employer liability limits not less than the minimum provided by the University in Section 11.1 above.

Section 11.4 Certificates and Policies of Albertsons’ Insurance. Upon execution of this Agreement, Albertsons shall provide the University with evidence of insurance indicating all coverage required by Section 11.3. SHOULD ANY OF THE ABOVE DESCRIBED POLICIES BE CANCELLED BEFORE THE EXPIRATION DATE THEREOF, NOTICE WILL BE DELIVERED IN ACCORDANCE WITH POLICY PROVISIONS. Evidence of insurance and notices shall be sent to University at the Notice address contained in Section 14.5.

ARTICLE XII
PROTECTION OF RIGHTS

Section 12.1 Protection of Albertsons Rights. The Parties acknowledge that this Agreement may be subordinate to any liens of a Stadium Lender or to certain other parties providing financing or other rights. Accordingly, the University shall, upon Albertsons’ request, obtain such enforceable written confirmation as Albertsons deems reasonably necessary to ensure that Albertsons’ rights shall not be adversely affected by the exercise of any Stadium Lender’s rights under the applicable loan documentation, including following a foreclosure upon (or delivery of a deed-in-lieu-of-foreclosure) or other similar process or by any other party with rights in the Stadium that are senior to Albertsons’ rights under this Agreement.
ARTICLE XIII
DEFAULT; TERMINATION

Section 13.1 Default by Albertsons.

(a) Events of Default. The occurrence of one or more of the following matters shall constitute a default by Albertsons (an “Albertsons Default”):

(i) Albertsons’ failure to pay any of the Rights Fees or other amounts when due to BSP under the Letter Agreement, if such failure shall continue for a period of thirty (30) days after written notice from BSP to Albertsons, specifying the failure and demanding that it be cured.

(ii) Albertsons’ failure to perform or comply with any other material term or condition of this Agreement, or its material breach of any representation or warranty made herein, and such failure or breach shall continue for a period of thirty (30) days after written notice from the University to Albertsons, specifying the failure or breach and demanding that it be corrected.

(iii) Albertsons (I) applies for or consents to the appointment of a custodian of any kind, whether in bankruptcy, common law or equity proceedings, with respect to all or any substantial portion of its assets, (II) becomes insolvent or is unable, or admits in writing its inability, to pay its debts generally as they become due, (III) makes a general assignment for the benefit of its creditors, or (IV) (x) files a petition seeking relief under the United States Bankruptcy Code or (y) if such a petition is filed by any of its creditors, such petition is approved by a court of competent jurisdiction and such approval is not vacated within 120 days.

(b) Rights and Remedies of the University upon Albertsons Default. Upon the occurrence of an Albertsons Default, the University shall have the right to do any one or more of the following: (i) enforce the specific remedies provided for herein; (ii) recover all damages provided by law or in equity; (iii) exercise any other right or remedy at law or in equity, including seeking an injunction or order of specific performance and (iv) terminate this Agreement.

Section 13.2 Default by the University.

(a) Events of Default. The occurrence of one or more of the following events shall constitute a default by the University (a “University Default”):

(i) The University’s failure to pay any amounts when due to Albertsons hereunder, if such failure shall continue for a period of thirty (30) days after written notice by Albertsons specifying the failure and demanding that it be cured.
(ii) The Team ceases to play all of its Home Games in the Stadium in accordance with Section 7.1(h).

(iii) The University’s failure to perform or comply with any other material term or condition of this Agreement, or its material breach of any representation or warranty made herein, and such failure or breach shall continue for a period of thirty (30) days after written notice by Albertsons to the University, specifying the failure or breach and demanding that it be cured.

(iv) If the University (I) applies for or consents to the appointment of a custodian of any kind, whether in Bankruptcy, common law or equity proceedings, with respect to all or any substantial portion of its assets, (II) becomes insolvent or is unable, or admits in writing its inability, to pay its debts generally as they become due, (III) makes a general assignment for the benefit of its creditors, or (IV) (x) files a petition seeking relief under the United States Bankruptcy Code or (y) if such a petition is filed by any of its creditors, such petition is approved by a court of competent jurisdiction and such approval is not vacated within one hundred twenty (120) days.

(b) Rights and Remedies of Albertsons upon University Default. Upon the occurrence of a University Default, Albertsons shall have the right to do any one or more of the following: (i) enforce the specific remedies provided for herein; (ii) recover all damages provided by law or in equity; (iii) exercise any other right or remedy at law or in equity, including seeking an injunction or order of specific performance, and (iv) terminate this Agreement and the Letter Agreement.

Section 13.3 Cumulative Rights and Remedies. All rights and remedies of the Parties herein specified are cumulative and are in addition to, and not in limitation of, any rights and remedies the Parties may have at law, in equity or otherwise, and all such rights and remedies may be exercised singularly or concurrently.

Section 13.4 Albertsons’ Special Termination Rights.

In addition to the rights and remedies set forth in Section 13.2(b) and the Early Termination Right set forth in Section 5.2, Albertsons may terminate this Agreement by providing written notice thereof to the University if (i) the Team ceases to use the Stadium as the location for its Home Games; (ii) the Team ceases to be a Division I FBS program; (iii) a Force Majeure Event results in no regular season Team home games being played at the Stadium for more than twelve (12) months as set forth in Article IX; or (iv) the Team incurs sanctions which prevent the Team from appearing in conference championship games or post season conference tournaments, NCAA, or playoff/bowl games during any Contract Year. Upon a termination by Albertsons of this Agreement in accordance with this Section 13.4 or Section 13.2, Albertsons shall be entitled to a refund from BSP of a pro-rata portion of the Rights Fees previously paid by Albertsons to BSP for the months remaining in the Contract Year after the termination occurs. Such refund shall be paid to Albertsons no later than thirty (30) days after the effective date of termination of this Agreement by Albertsons.
ARTICLE XIV
MISCELLANEOUS

Section 14.1 Independent Contractor. Each of the Parties is an independent contractor and no Party is empowered to bind another with respect to any contracts, arrangements or understandings with any outside party.

Section 14.2 Headings. The descriptive heading of the Articles and Sections of this Agreement are inserted for convenience only and shall not control or affect the meaning or construction of any of the provisions hereof.

Section 14.3 Entire Agreement. This Agreement, including the schedules and exhibits attached hereto, which are incorporated herein, constitutes the entire agreement between and among the Parties, and supersedes any previous oral or written agreements, representations and covenants, regarding the subject matter hereof and shall become a binding and enforceable Agreement between and among the Parties hereto and their respective successors (including successors to the Stadium and the Team) and permitted assigns upon the full and complete execution and unconditional delivery of this Agreement by all Parties hereto. This Agreement may not be amended, modified or supplemented unless executed by the University and Albertsons.

Section 14.4 Assignment. This Agreement and the rights and obligations of any Party hereunder may not be assigned without the prior written consent of the other Parties, which written consent shall not be unreasonably withheld; provided, however, that neither Albertsons nor the University, as applicable, shall be required to obtain the written consent of the University or Albertsons, as applicable, for (a) any transfer by such transferor of this Agreement to a transferee in connection with a change of control of transferor, including, without limitation by way of merger, corporate restructuring, reorganization, consolidation, divestiture, recapitalization, combination, exchange of shares, spin-off, sale of such transferor’s outstanding voting securities, (b) the sale or other transfer of all or substantially all of such transferor’s assets or (c) any transfer of this Agreement or any rights and benefits hereunder to an Affiliate of such transferee. If BSP’s Multi-Media Rights Agreement with University terminates or expires before the Term of this Agreement, then all rights and obligations of BSP under the Letter Agreement shall automatically be assigned by BSP and vest in University or University’s then Multi Media Rights partner as designated by University with no further documentation necessary or required to give effect to such assignment.

Section 14.5 Notices. All notices and other communications hereunder will be in writing and will be deemed to be given upon receipt if delivered personally, by registered or certified mail (return receipt requested) or by overnight courier to the Parties at the following addresses (or at such other address for a Party as will be specified by like notice):
If to Albertsons, to:

   Albertson’s LLC  
   250 E. Parkcenter Boulevard  
   Boise, ID  83706  
   Attention: Bob Butler, Chief Operating Officer

with copies to:

   Office of the General Counsel  
   Albertson’s LLC  
   250 E. Parkcenter Boulevard  
   Boise, ID  83706  
   Attention: Paul Rowan

If to the University, to:

   Boise State University  
   1910 University Drive  
   Boise, ID  83725  
   Attention: Stacy Pearson, Vice President  
   for Finance and Administration

with a copy to:

   Office of the General Counsel  
   Boise State University  
   1910 University Drive  
   Boise, ID  83725

And with a copy to:

   Bronco Sports Properties, LLC  
   1910 University Drive  
   Boise, ID  83725-1022  
   Attention: General Manager

Section 14.6  Governing Law. This Agreement will be governed by the laws of the State of Idaho without reference to principles of conflicts of laws.

Section 14.7  Confidentiality. The Parties will keep confidential the specific material terms and conditions of the transaction contemplated hereby, provided that disclosure may be made (a) to their respective counsel, financial advisors, and consultants who require such information to advise their clients in connection with the transaction contemplated hereby, (b) if disclosure is required by Court order, or applicable law or regulation and (c) if disclosure is required to
comply with a request or requirement of a governmental or administrative entity or agent thereof. Each of the Parties will direct their respective counsel, financial advisors and consultants to maintain such information in the strictest confidence. No Party will make any public announcement with respect to this Agreement or the transactions contemplated hereby or disclose the specific terms of this Agreement or the transaction contemplated hereby to any third party without the prior written consent of the other.

Section 14.8 Choice of Venue. Any and all disputes arising under this Agreement shall be initiated and adjudicated exclusively in state courts located in Ada County, Idaho. Each Party waives any objection it has to venue based on forum non conveniens or similar grounds with respect to an action brought in such jurisdiction.

Section 14.9 Waiver of Jury Trial. The Parties waive any rights to a trial by jury in any action, proceeding, or counterclaim brought by any of the Parties against any other Party on, or in respect of, any matter whatsoever arising out of or in any way connected with this Agreement or any document or instrument delivered in connection with this Agreement, the relationship of Parties hereunder, and/or any claim of injury or damage.

Section 14.10 Sovereign Immunity and Standing to Enforce Covenants. The University acknowledges that the ability of Albertsons to enforce the terms of this Agreement and, if necessary, to have the right to pursue injunctive relief is of critical importance to Albertsons and without such rights, Albertsons would not agree to enter into this Agreement. To the fullest extent permitted by law, the University irrevocably waives and forever relinquishes any and all rights it may have to assert a defense of sovereign immunity or similar theory in connection with any action, proceeding, suit, arbitration or other matter before any court, tribunal, arbitrator(s) or other adjudicative body or otherwise in connection with the transaction contemplated by this Agreement, and/or any other agreements or covenants contemplated in connection with this Agreement, and, in connection therewith, agrees to the granting to Albertsons of injunctive relief and to the entry of a judgment for damages in the event of a default or breach by the University. The University agrees to execute such additional waivers and take any and all additional actions reasonably necessary or reasonably requested by Albertsons to ensure that this waiver of sovereign immunity is binding and enforceable.

Section 14.11 Expenses. Each Party shall bear its own expenses in connection with this Agreement, and the transactions contemplated hereby. Without limiting the generality of the foregoing, Albertsons shall be solely responsible for any commissions owing to third parties (e.g., advertising agencies) in connection with the rights and benefits obtained by Albertsons hereunder as a result of any brokers or finders procured by it and the University shall be solely responsible for any commissions owing to third parties (e.g., advertising agencies) in connection with the rights and benefits granted by the University hereunder as a result of any brokers or finders procured by them.

Section 14.12 Drafting. Each Party warrants, represents, and agrees that in executing and delivering this Agreement it does so freely and voluntarily, that such party has consulted with or has had the opportunity to consult with independent counsel of such Party’s own choice concerning this Agreement, and that each Party has read and understands this Agreement, is fully aware of its legal effect and has entered into it freely based on such Party’s own judgment.
Hence, this Agreement shall not be construed against any Party on the basis that such Party was the drafter.

Section 14.13 No Third Party Beneficiaries. Except for BSP’s rights under the Letter Agreement, this Agreement is not intended, and shall not be construed, to create any interests or rights for any third party beneficiaries.

Section 14.14 Severability. If any term, covenant, condition or restriction hereof is held invalid or unenforceable by any court of competent jurisdiction, such provision shall be deemed severed from this Agreement to the extent of such invalidity or unenforceability, and the remainder of the terms, covenants, conditions and restrictions hereof shall remain in full force and effect and shall in no way be affected, impaired or invalidated.

Section 14.15 Waiver. No waiver of any right, obligation or default shall be implied, but must be in writing, signed by the Party against whom the waiver is sought to be enforced. Any particular waiver of any right, obligation or default shall not be construed as a waiver of any subsequent or other right, obligation or default.

Section 14.16 Counterparts. This Agreement may be executed in two or more counterparts all of which together shall constitute one and the same agreement. Delivery of a copy of this Agreement by facsimile transmission, by electronic mail in “portable document format” (“pdf”) form or by any other electronic means that preserves the original graphic and pictorial appearance of a document shall have the same effect as physical delivery of the paper document bearing the original signature.

Section 14.17 Approvals.

(a) Government Approvals. The Parties acknowledge and agree that certain signage is subject to the requirements of state and local governments and the Federal Highway Administration. Accordingly, all signage shall comply with all applicable governmental rules and regulations.

(b) NCAA and MWC Rules. The Parties also acknowledge and agree that this Agreement is subject to Idaho law and any NCAA and MWC (or any other athletic conference of which University may become a member during the term) rules and regulations applicable to signage, marketing and promotional materials effective as of the date such regulation shall take effect.

(c) University Obligation. It shall be the University’s obligation to assure that all signage shall comply with all applicable state and local laws and NCAA and MWC rules and regulations.

(d) State Board of Education. This Agreement is subject to the approval of the State Board of Education (“SBOE”). The University shall seek approval from the SBOE of this Agreement and such naming at the first available regularly scheduled meeting of the SBOE following the Parties’ execution of this Agreement. This Agreement shall be of no force or effect.
until the SBOE approval is obtained. If this Agreement is not approved by the SBOE, then this Agreement and all terms and conditions contained herein will be null and void.

Section 14.18 Liabilities and Obligations of the Parties. Any and all obligations and liabilities of the University, including the obligation to pay any amounts under this Agreement from and after the time such amounts are due and payable (including, without limitation, arising from a breach hereof) are joint and several.

Section 14.19 Survival. Sections 2.2(b), 2.4, 3.7, Article V, 8.1, 10.1, 11.1, 12.1 and this Article XIV shall survive the expiration or earlier termination of this Agreement, together with any other provision which by its terms or nature is intended to survive such expiration or termination.

Section 14.20 Non-discrimination. The University and Albertsons agree that in fulfilling the terms of this Agreement, neither Party will discriminate against any employee or applicant for employment on the basis of race, color, national origin, ancestry, religion, sex, disability, or Veteran status.

Section 14.21 Limitations of Liability. No claim may be made by any Party hereunder against any other Party or any affiliate, director, member, manager, officer, employee, attorney or agent thereof for any special, indirect, consequential, incidental or punitive damages in respect of any claim for breach of contract or any other theory of liability arising out of or related to the transactions or relationships contemplated by this Agreement or any other transaction, relationship, act, omission or event arising or occurring in connection therewith. Each Party waives, releases and agrees not to sue upon any claim for any such damages, whether or not accrued and whether or not known or suspected to exist in its favor. Nothing in this Section 14.21 shall limit the liability of any party to indemnify another party under Article X for Claims made by third parties.

[SIGNATURE PAGES FOLLOW]
IN WITNESS WHEREOF, the undersigned have duly executed this Agreement as of the day and year first above written.

ALBERTSONS:

ALBERTSON'S LLC

By: [Signature]

Name: ROBERT G. MILLER
Title: CHIEF EXECUTIVE OFFICER

UNIVERSITY:

BOISE STATE UNIVERSITY

By: [Signature]

Name:  Daniel Hawley

Title:  General Manager
EXHIBIT A

ADVERTISING/SPONSORSHIP RIGHTS AND BENEFITS
(Capitalized Terms are as defined in the Agreement)

a. Naming
   The lobby in the Alumni and Friends building shall be named “Albertsons Lobby.”

b. Signage
   i. Stadium Logo on exterior of Stadium over all four spectator gate entrances
   ii. Directional Signage throughout stadium concourse
   iii. “Albertsons’ Stadium” included in campus directional signage

c. Print Advertising
   Stadium Logo on all Stadium-related literature, including brochures

d. Additional Advertising
   i. Stadium Logo placed on plates, napkins, cups, glassware, etc. as such of those that bear logos, subject to third party agreements or other sponsorships (e.g., Agri Beef napkins are produced for use within the Stueckle Sky Center)
   ii. Stadium Logo placed on Staff uniforms
   iii. Stadium Logo placed on all Stadium event programs, tickets, passes and lanyards
   iv. Dedicated Albertsons Stadium information page hosted within Broncosports.com

e. Travel
   One football game trip for four people each season (not including post-season bowl). This trip will include flights to and from the game on the University charter flight, tickets to the game and hotel accommodations.

f. Facility Use
   Albertsons can use the Stadium for its official company events, (e.g., Albertsons Stadium Day, company picnics and other family events, Executive meetings in Stueckle Sky Center and charity and philanthropic events), subject to official University events and previously scheduled uses of the Stadium
   1. Albertsons will not have to pay a rental fee but will be responsible for all expenses of such use
   2. Albertsons may not use the Stadium for revenue generating events
   3. Details to be mutually agreed upon
   4. Subject to Athletics Department Facility Use Policies and Procedures

g. Miscellaneous
   Inside access to Boise State Athletics – coaches’ dinners and pregame VIP on field passes subject to escort by University.
SCHEDULE I TO EXHIBIT A

The parties will be jointly and equally responsible for all costs and expenses associated with the fabrication, construction and installation of the four major signs, as illustrated in the examples attached to this Schedule I to Exhibit A. Additionally, the parties will be jointly and equally responsible for all costs and expenses associated with the fabrication, construction and installation of stitching the Stadium Name into the stadium turf and the removal, reproduction, and installation of the large football player banners to include the Stadium Name or Stadium Logo as allowed by the NCAA.

However, the addition of the Stadium Logo on the football player banners and Albertsons’ name on the Blue Turf (but not commercial logo) during regular season home games is subject to NCAA rules, policies, guidelines, and interpretations and existing name rights e.g. Lyle Smith Field. Should NCAA rules, policies, guidelines or interpretations preclude the addition of either of the Stadium Name, Stadium Logo, Albertsons name or Albertsons Marks on the football player banners, the banners shall not be changed for the purposes of this Agreement and Albertsons shall not be responsible for any costs associated with the banners.
EXHIBIT B

SUITE LICENSE AGREEMENT
EXHIBIT B

BRONCO STADIUM SUITE LICENSE AGREEMENT

This Bronco Stadium Suite License Agreement ("License") is made and entered into as part of the attached Naming Rights Agreement between Albertsons ("Suite Holder") and University. To the extent any terms of the attached Naming Rights Agreement conflict with the terms in this License, the terms of the Naming Rights Agreement shall control.

1. Definitions:

a) "Additional Events" means events other than Included Events which occur at Bronco Stadium and which are sponsored by University or open to the general public (such as the Famous Idaho Potato Bowl) and for which University, in its sole and absolute discretion, notifies Suite Holder that the Suite and Suite Tickets are available to the Suite Holder; and

b) "Bronco Stadium" means that certain outdoor athletic stadium located on University’s campus known as Bronco Stadium, including all seats and common areas within the stadium, the suites and common areas within the Stueckle Sky Center, and the surrounding University-owned parking lots.

d) "Events" means, collectively, Included Events and Additional Events.

e) "Included Events" means games of University’s men’s football team that are exhibition, regular season non-conference, and regular season conference home games that are included in the season ticket package and occur at Bronco Stadium.

f) "License Fee" means Suite Holder’s payment to University for its License to be paid in accordance with Section 4(a).

g) "Parking Permits" means parking permits provided for Included Events.

h) "Renewal Term" means the term of any subsequent License entered into pursuant to Section 6.

i) "Suite" means the suite located in Stueckle Sky Center at Bronco Stadium that is assigned by University to Suite Holder.

j) "Suite Tickets" means tickets for individuals to access and use the Suite.

k) "Term" or "Original Term" means the term of this License, as set forth in Section 3.
2. **LICENSE:** University grants to Suite Holder and Suite Holder accepts, upon the terms and conditions set forth in this License, a non-transferable, revocable license to use Suite for viewing all Included Events occurring during the Term of this License. Suite Holder may also be eligible to purchase Suite Tickets for up to the maximum number of Additional Events per year set forth in the following table:

<table>
<thead>
<tr>
<th>CHECK ONE</th>

*As of the date of this License, the University estimates that Included Events will consist of approximately six (6) regular season football games. If the number of Included Events exceeds six (6) in one or more years, the parties agree that the maximum number of Additional Events for which the Suite Holder may use the Suite shall be reduced in one or more years to the extent necessary to ensure that the total number of days on which the Suite Holder has rights to use the Suite under the Original Term and any potential Renewal Term under this License does not exceed 200 within the meaning of the Code.

3. **TERM:** The Term of this License is coterminous with Naming Rights Agreement attached.

4. **LICENSE FEE, TICKETS, FOOD AND PARKING:**

a) Suite Holder agrees to pay University a License Fee of $0.00 annually (referred to herein as “License Fee” or “License Fee installment”) for use of the Suite during Included Events that occur during the Term of this License. Said payment shall be due on June 1st of each year of the License.

b) The License Fee includes the cost of sixteen (16) Suite Tickets for each Included Event.

c) University represents that the License Fee has not been negotiated by the parties hereto. The License Fee for the Suite is equal to the amount set forth in University’s fee schedule for licenses of a similar term and for suites similar in size, as such fee schedule is in effect as of the date of this License.

d) University may, in its sole and absolute discretion, notify Suite Holder of Additional Events. Additional Events may require a minimum number of Suite Tickets to be purchased in order to secure the Suite. The purchase price of Suite Tickets to each such Additional Event will be established by the University. In the event Suite Holder does not purchase the minimum number of Suite Tickets required for the Additional Event, University may license such Suite or sell Suite Tickets to members of the general public.
e) The License Fee includes the cost of four (4) Parking Permits for use at all Included Events. The License Fee does not include the cost of parking permits for Additional Events.

f) The License Fee does not include the cost of food or beverages. Food and beverages may be purchased separately from University. Such charges shall be made in accordance with Section 9 of this License. No other food or beverage may be carried in, delivered to, prepared, or consumed in the Suite.

g) The service of alcoholic beverages is subject to the continued approval of the Idaho State Board of Education (the “State Board”). The State Board has exclusive and complete discretion as to whether to allow alcohol on University property. As such, the State Board may revoke, modify, alter or limit the service of alcohol at any time. Thus, the allowance of alcohol is not a right or promise granted by this License and is not a part of the consideration upon which this License is based.

h) Suite Holder agrees to abide by University’s policy and guidelines relating to alcohol, as are current in effect and as may be amended or updated from time-to-time in University’s sole discretion. The current guidelines are attached as Appendix A.

i) The License Fee is payable in full, except as expressly provided otherwise herein, regardless of any cancellation or postponement of any Event scheduled at Bronco Stadium for any reason.

j) Charges for required and optional Suite Ticket purchases and optional Parking Permits shall be made according to Section 9.

k) It is Suite Holder’s intention to make a charitable contribution to the University of the portion of each installment of the License Fee that exceeds the value of the Suite Tickets, Parking Permits, Suite License, food, and other benefits (collectively, the “License Benefits”) provided by University to Suite Holder under this License (the “Excess Payment”). University encourages Suite Holder to obtain independent tax advice regarding any charitable contribution deduction, and University makes no representation or warranty regarding any possible tax deductibility of any portion of the License Fee or other amounts payable under this License. University has been advised that a significant percentage of the Excess Payment may be treated as a charitable contribution under Section 170(1) of the Code. University shall annually provide to Suite Holder a statement of payments to University and a good faith estimate of the fair market value of the license benefits received by Suite Holder under this License.

5. **No Warranty of Events:** This License shall not operate as or constitute any warranty, representation, covenant, or guarantee by University that any particular Event, sports team, individual, or group shall occur, play, or appear at Bronco Stadium during the Term of this License. Failure by one or more of such teams, individuals, or groups to play or appear, cancellation or postponement of, or failure to schedule, any such Event, or the scheduling or
rescheduling of any Event at a venue other than Bronco Stadium, shall not entitle Suite Holder to any refund of the License Fee.

6. **OPTION TO RENEW LICENSE:** If Suite Holder is not in breach of the performance of its obligations under this License at the conclusion of the Term, Suite Holder and University may enter into negotiations to renew this License at the generally applicable, fair market value rates in effect at the time of the renewal (as determined by University’s fee schedule, as in effect as of the date of such renewal), for a Renewal Term of up to but not exceeding ten (10) years, on such terms and conditions as University may offer. Renewal by Suite Holder is not a matter of right, but is at the sole option of University. University will determine the location of the Suite for the Renewal Term. Unless Suite Holder executes and returns the new agreement to University within the time period stated by the University at the time of submission of the form of the new license agreement, this option to renew shall expire and be of no further effect. Notwithstanding anything to the contrary in this Section or elsewhere in this License, the sum of the Original Term and any Renewal Term shall not exceed the total number of years set forth in the table contained in Section 2.

7. **USE OF SUITE:**

   a) Subject to University’s need to access the Suite for a valid University-purpose pursuant to Section 16 of this License, Suite Holder and Suite Holder’s invitees shall be entitled to sole and exclusive use of the Suite during each Event for which they hold Suite Tickets, and for the time periods immediately before and after such Event when Bronco Stadium is open to all other ticket holders for such Event. Such time periods shall be designated by University in University’s sole discretion. As of the date of this License, with respect to Included Events, the Suite shall be available to Suite Holder approximately two (2) hours prior to kickoff and Bronco Stadium shall be open approximately ninety (90) minutes prior to kickoff.

   b) Suite Holder’s and Suite Holder’s officers, directors, employees, agents, or invitees use of the Suite shall be subject to all provisions, terms, and covenants of this License, all applicable federal and state laws, including any applicable health or safety standard, and the State Board and University policies, which the State Board and University may establish, modify, or amend from time to time in their sole discretion without prior notice to Suite Holder. If during an Event, any Suite Holder or any officer, director, employee, agent, or invitee of the Suite Holder fails to abide by such provisions, terms, covenants, laws, or State Board or University policies, the University, in its sole judgment, may remove Suite Holder or such officer, director, employee, agent, or invitee from the Suite and Bronco Stadium.

   c) Suite Holder shall be solely responsible for, and shall promptly pay to University, all amounts due, including applicable taxes, for catering and all other services provided by University or any other vendor in connection with the use of the Suite, pursuant to Section 9 of this License.

   d) Neither Suite Holder nor Suite Holder’s invitees shall remove alcoholic beverages or food from the Stueckle Sky Center.
e) University reserves the right to prohibit use of alcoholic beverages in the Suite for any Event, including, but not limited to, University commencement and any championship event sponsored or administered by the National Collegiate Athletic Association.

8. **FURNISHINGS AND UTILITIES:**

a) University shall furnish the Suite as it deems appropriate. Suite Holder shall not make any additions or alterations in the interior or exterior of the Suite or the furniture, furnishings, and equipment therein without the prior written consent of University.

b) Suite Holder or Suite Holder’s invitees shall not place advertising signs or displays, including signs depicting Suite Holder’s name, in or about the Suite without prior University approval.

c) University shall furnish water, heating, air conditioning, and electricity to the Suite without additional cost to Suite Holder. University shall not be liable for any damages suffered by Suite Holder for interruption of such service.

d) University will provide two televisions with local cable service and instant replay video in the Suite. University shall not be liable for any damages suffered by Suite Holder for interruption of such service.

9. **PAYMENT FOR TICKETS, PARKING AND SERVICES:**

a) Suite Holder must maintain on file with the University a valid Visa or MasterCard credit card number and a list of individuals whom Suite Holder authorizes (“Authorized Individuals”) to make, on its behalf, those optional charges indicated in Subsection (b), below. Suite Holder may make changes to the credit card number or the list of Authorized Individuals by giving University written notice, and within five (5) business day after receipt, University will change the list as notified.

b) Suite Holder hereby authorizes University to charge payments for the following to the credit card on file with the University pursuant to paragraph (a), above, if such charges are authorized by Suite Holder or an Authorized Individual: (i) Suite Tickets for Additional Events purchased pursuant to Section 4(d); (ii) Parking Permits other than those included in the cost of the License Fee pursuant to Section 4(f); (iii) orders for catering; and (iv) orders for alcoholic beverages, food, and related services.

10. **MAINTENANCE AND REPAIR:**

a) University shall make or provide for such repairs as it deems necessary to the Suite and to furniture, fixtures, wall and floor coverings, and appliances provided by University. Such repairs shall be accomplished within a reasonable time, subject to availability of materials.

b) University shall be responsible for normal and customary cleaning of the Suite after each Event for which the Suite is used. Normal and customary cleaning shall include
vacuuming the carpet, dusting surfaces, washing windows and glass doors, wiping counters, and removing refuse and waste. Additional or extraordinary services for cleaning will be billed to Suite Holder.

c) Suite Holder shall keep and maintain the Suite in good repair, order, and condition, except for normal wear and tear, and shall reimburse University for costs incurred to repair any damage caused by Suite Holder or Suite Holder’s invitees to the Suite or the property of the University therein.

11. INSURANCE REQUIREMENTS:

a) University will not provide any insurance covering any personal property of the Suite Holder within the Suite. If Suite Holder desires to carry insurance on such personal property, Suite Holder shall be responsible for arranging for such coverage at Suite Holder’s sole expense.

b) If Suite Holder consists of one or more corporate or similar business entities, Suite Holder shall provide to University, annually by July 1 of each year of this License, a copy of a certificate of insurance meeting the following insurance requirements to Suite Holder:

<table>
<thead>
<tr>
<th>Commercial General Liability (CGL)</th>
<th>Limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Aggregate</td>
<td>$2,000,000</td>
</tr>
<tr>
<td>Products and Completed Operations</td>
<td>$1,000,000</td>
</tr>
<tr>
<td>Personal Injury</td>
<td>$1,000,000</td>
</tr>
<tr>
<td>Each Occurrence</td>
<td>$1,000,000</td>
</tr>
<tr>
<td>Medical Expense per person</td>
<td>$50,000</td>
</tr>
<tr>
<td>Fire Legal Liability</td>
<td>$1,000,000</td>
</tr>
<tr>
<td>Liquor Liability</td>
<td>$1,000,000</td>
</tr>
</tbody>
</table>

The policy must (i) be signed by an authorized agent and issued by an insurance company licensed to do business in the State of Idaho; (ii) name as additional insured Boise State University and the State of Idaho; and (iii) Suite Holder will provide for a written notice to University at least sixty (60) days in advance of any reduction in coverage or cancellation of the policy. Suite Holder’s liability under this License shall extend beyond the limits of this coverage. University accepts no liability under this Section 11. The certificates of insurance shall be mailed or delivered to University at the following address:

Boise State University  
Attn: Risk Management  
1910 University Drive  
Boise, Idaho 83725-1245
12. **Damage:**

   a) In the event of any damage to the Suite or Bronco Stadium which renders the Suite or Bronco Stadium unusable and if such damage is the result of a cause beyond the control of Suite Holder or its invitees, then the University may, at its option, either repair or restore the Suite or Bronco Stadium or terminate this License.

   b) If University elects to repair or restore the Suite or Bronco Stadium, this License shall remain in full force and effect. If seating is unavailable at another location in Bronco Stadium, University shall refund Suite Holder a portion, as determined by University in its reasonable business judgment, of Suite Holder’s current License Fee installment. Any refunded portion of a License Fee installment shall, at Suite Holder’s option, be either credited to the License Fee installment payment during the next Renewal Term or paid to Suite Holder at the termination of this License.

   c) If University elects not to repair or restore the Suite or Bronco Stadium, upon written notice from University to Suite Holder to such effect, this License shall terminate as of the date of such damage, and University shall, after deducting any amounts which may be owed by Suite Holder under this License, refund to Suite Holder a proration, as determined by University in its reasonable business judgment, of Suite Holder’s current License Fee installment. Payment of said refund by University shall constitute full and final settlement of all claims by Suite Holder for the early termination of this License, and Suite Holder hereby acknowledges that it shall have no further claim in respect of such termination of this License against University.

13. **Breach:**

   a) If Suite Holder fails to make in a timely manner any payments required by this License, including without limitation any scheduled payment of the License Fee, payments for optional Suite Tickets or optional Parking Permits, or payment for food, beverages and related services provided by University, or if Suite Holder otherwise breaches this License, University shall have the right to terminate this License by giving Suite Holder thirty (30) days’ written notice, during which such 30-day period Suite Holder may cure the breach. In the event Suite Holder fails to cure such breach, then all rights of Suite Holder under this License shall terminate immediately upon conclusion of such thirty (30) day period, and University may immediately or at any time thereafter make available the Suite to any third party or otherwise make use of the Suite in any manner which University deems appropriate in its sole discretion.

   b) In the event of any termination of the License resulting from Suite Holder’s breach of its obligations under this License, (i) University may apply the amount of any current License Fee installment against any outstanding obligations of Suite Holder to the University under this License, including any loss of future fees relating to the use of the Suite, or to any obligation of Suite Holder to University or any other entity for food, liquor, beverages or services used in the Suite; and (ii) in the event University is able to relicense the Suite prior to the expiration of the stated Term, University shall return to Suite Holder that proration of any current License Fee installment relating to
the unexpired portion of the Term, as measured from the date of such relicensing, less the aggregate of Suite Holder’s outstanding obligations and all charges, costs and expenses attributable to Suite Holder’s breach of this License, including all legal fees and costs incurred by the University in the enforcement of its rights. If the amounts collected by University upon any such relicensing are not sufficient to pay the full amount of all such obligations of Suite Holder, then Suite Holder shall pay any such deficiency upon University’s demand.

c) Nothing hereinabove in Sections 13 (a) or (b) shall be construed to limit University’s rights and remedies as set forth by this License or otherwise available to University in law or in equity, should the aggregate of Suite Holder’s outstanding obligations and the charges, costs, and expenses attributable to Suite Holder’s breach, including all legal fees and costs incurred by University in the enforcement of its rights, exceed the sum of that portion of any current License Fee installment relating to the unexpired portion to this License’s Term.

d) No waiver by University of any breach by Suite Holder of its obligations under this License shall be construed to be a waiver or release of any other subsequent default or breach by Suite Holder, and no failure or delay by University in the exercise of any remedy provided for in this License shall be construed to constitute a forfeiture or waiver thereof or of any other right or remedy available to University.

14. **TITLE:** Title to the Suite remains at all times with University. Suite Holder acknowledges that all improvements now or hereafter in the Suite shall remain the sole and exclusive property of University.

15. **TAXES:** Suite Holder shall pay and hold University harmless from all taxes including sales tax, use tax, personal property tax, leisure or entertainment tax, or any tax of similar nature, levied upon this License, use of the Suite, tickets or personal property of Suite Holder located in the Suite.

16. **ACCESS:** University, its agents, and employees shall have access to, and the right to enter, the Suite at any time to examine the Suite’s condition, to make any repairs, and to perform services required to be made or performed by the University, to show the Suite to prospective licensees, to use the Suite at times other than Included Events and other Events for which Suite Holder has the right to occupy the Suite, and for any other purpose deemed reasonable by University.

17. **LIABILITY:**

a) The University shall not be liable for any loss or damage to the persons or property of the Suite Holder or Suite Holder’s invitees.

b) The Suite Holder agrees to indemnify and hold harmless the University, its officers, agents, and employees from any and all liability, including claims, demands, losses, costs, damages, and expenses of every kind and description, including, without limitation, reasonable attorney fees, for damages to persons or property arising out of
or in connection with or occurring during the course of this License where such liability is founded upon and grows out of acts or omissions, neglect or wrongdoing of Suite Holder or any of Suite Holder’s officers, employees, agents, or invitees, and Suite Holder shall, at its sole cost and expense, defend and protect the University against any and all such claims. Obligations under this Section 17(b) shall survive termination of this License.

c) Suite Holder agrees to use and occupy the Suite and other facilities of Bronco Stadium at its own risk and hereby releases University from all claims for damage or injury to the fullest extent permitted by law.

d) University shall further not be responsible for any theft, loss, or mysterious disappearance from the Suite of any property of Suite Holder or any of Suite Holder’s officers, employees, agents, or invitees.

18. ASSIGNMENT:

a) Suite Holder shall not assign, sell, sublicense, hypothecate, or in any manner transfer any of its rights or interest arising under this License without University’s prior written consent, which may be granted or withheld in University’s sole discretion. Any attempted assignment, sale, sublicensing, hypothecation, or transfer shall be of no force or effect and shall constitute a breach of this License.

b) Suite Holder shall not sell via ticket brokers, agents, or in any other manner, Suite Tickets or Parking Permits that are made available to Suite Holder under this License.

19. TIME OF THE ESSENCE: Time is of the essence with respect to Suite Holder’s payment of the License Fee installments and other charges, and with respect to Suite Holder’s exercise of its option to renew as set forth in Section 6.

20. NOTICE: All notices given pursuant to this License shall be in writing and shall be delivered or mailed by registered or certified mail, postage prepaid, and shall be effectively given on the date of such delivery or mailing to the respective parties in the following addresses or to such other addresses either party shall specify to the other by notice given in writing in accordance with this Section 20:

If to the University: Boise State University, Department of Athletics
1910 University Drive
Boise, ID 83725-1022

If to Suite Holder: as in attached Naming Rights Agreement

21. ENTIRE AGREEMENT: This License Agreement, together with the previously executed Memorandum of Understanding between University and Suite Holder, if any, constitutes the
entire agreement between University and Suite Holder, and no prior written or prior or contemporaneous oral promises or representations will be binding on either party. This License may not be modified or amended except by written instrument signed by both parties. In the event of a conflict between this License and the Memorandum of Understanding, if any, the terms of this License shall prevail.

22. **SEVERABILITY:** If any provision of this License shall be adjudged to be unlawful or contrary to public policy, then that provision shall be deemed to be null and separable from the remaining provisions and shall in no way affect the validity of this License.

23. **BINDING ON HEIRS, SUCCESSORS AND ASSIGNS:** This License shall be binding upon and inure to the benefit of the heirs, personal representatives, successors in interest, and assigns of Suite Holder and University.

24. **GOVERNING LAW:** This agreement shall be governed by and construed under the laws of the State of Idaho. Any actions to enforce the provisions of this Agreement shall be brought in state district court in Ada County, Boise, Idaho.
Appendix A

Re: Alcohol Rules and Intoxication Prohibition

Dear Bronco Patron,

This letter is an important reminder regarding alcohol service and consumption in the Stueckle Sky Center. Boise State has received permission from the State Board of Education to serve alcohol in the Stueckle Sky Center. We appreciate the State Board’s support of our program and we need the involvement of all our patrons to demonstrate that we will not abuse this privilege. Please understand that this permission is a privilege and not a right and it can be removed at any time. With this privilege comes an expectation of responsibility and a duty to abide by the conduct expected of our fans and patrons. To continue to provide this service, we will need your help and cooperation.

All patrons of legal drinking age are required to drink responsibly. No person in the Stueckle Sky Center is allowed to be intoxicated or impaired to the extent that his or her behavior becomes unacceptable or interferes with other fans. The University will enforce a zero tolerance policy on our fans whose use of alcohol results in conduct that is deemed not compatible with the enjoyment of the game. We realize you have paid for the pleasure of attending our events in the Stueckle Sky Center. In order to preserve that enjoyment, the University will enforce a zero tolerance policy on alcohol abuse, public drunkenness, and underage drinking. Underage drinking is against the law and is not allowed anywhere within the Stueckle Sky Center. Regardless of an individual’s payment to attend a game in the Stueckle Sky Center, a violation of the principles set forth in this letter will result in removal from the Stueckle Sky Center and revocation of game tickets.

The rules are posted in every suite and in several locations on each level of the Stueckle Sky Center. In addition to the above stated rules regarding alcohol consumption, please adhere to the following rules:

- Please keep all items away from open windows. Items dropped or thrown from the suites could seriously injure fans seated below.
- Ticket must be displayed on a lanyard at all times. If you do not have a lanyard, let an usher know so one can be provided to you.
- Service of alcoholic beverages will cease at the completion of the third quarter.
- Alcoholic beverages are not allowed in the elevators.
- Patrons may not enter or exit the Stueckle Sky Center with any food or beverage.

Your attendance and enjoyment of the game, and the privilege of alcohol service during the game, are responsibilities that the University takes very seriously. Everyone’s adherence to the requirements will preserve these privileges in the future. We are very grateful for your loyalty and support and the support of the State Board of Education. Have a great game day. Go Broncos!
BOISE STATE UNIVERSITY

SUBJECT
Facility Lease with Acquisition Options

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.I.2

BACKGROUND/DISCUSSION
Gardner and Company ("Gardner"), a private developer, has approached Boise State University (BSU) with a proposal that provides BSU with an opportunity to own or lease space in its new downtown development at a reduced cost.

Urban universities such as University of Utah and Portland State University often operate satellite campuses in downtown locations. BSU has been invited to participate in several such developments proposed by both government and private entities. This particular location would serve to create collaborative partnerships with leading industries, allow local businesses and industry greater access to our programs, and provide our students with the opportunity to interact with local partners by working on projects of mutual interest.

Gardner recently completed construction of the Zion’s Bank building. It has now acquired the US Bank building and proposes placing a mixed-use development on the adjacent surface parking lot. The development, consisting of two connected buildings, the Centre Building and the Clearwater Building, will be called City Center Plaza. Gardner has secured lease commitments from computer science industry partners and other public agencies. The goal is to build a computer science/software industry focused development in addition to a transportation and retail location.

Gardner’s proposal calls for the University to co-locate portions of its Computer Science Department, including faculty, staff, and instructional areas related to upper division courses, in the new development to be located near technology firms in the downtown area.

Project Partners:
In 2013, Valley Regional Transit (VRT) issued a Request for Proposal for a downtown regional transit center. Gardner, the sole respondent to the RFP, proposed that the transit center be placed within its new development. VRT has announced its commitment to be part of the project and final approval from the Federal Transportation Administration is expected in June 2014. While Gardner will develop the transit center, VRT will hold final ownership as part of a condominium agreement for the project.
The Greater Boise Auditorium District (GBAD) recently announced its intention to partner with Gardner to develop additional auditorium and convention space at this site. GBAD has retained its own planners and designers and in advance of a final commitment to Gardner, GBAD will program and estimate the cost of the space.

Clearwater Analytics has signed a ten year lease with Gardner for five floors of the development. Gardner will own the Clearwater suites as part of a condominium agreement. In addition, Gardner has several lease commitments from retail tenants to occupy the ground floor of the development.

**Project Description:**
The two buildings will be approximately 370,000 gross square feet, of which the University will occupy 53,549 gross square feet comprised of two complete floors, the second and third floors of the Clearwater Building and a small portion of the Centre Building. Additional information follows:

**Clearwater Building (250,000 gross square feet):**

**Ground Level:** Building lobby, elevators, and retail  
**Second and Third Levels:** Boise State University  
**Fourth through Ninth Levels:** Clearwater Analytics

**Centre Building (120,000 gross square feet):**

**Subterranean Level:** Transit center  
**Ground Level:** Lobby and retail  
**Second through Fifth Levels:** Auditorium and convention spaces and a small space for University use

**IMPACT**
Gardner has offered to lease 53,549 gross square feet to BSU for $16 per square foot/per year, triple net ($856,784 in the first year). This lease rate will escalate annually by three percent, with a three percent discount if paid annually in advance. The triple net status requires that in addition to the base rent, the University will pay additional annual rent. The additional rent is detailed in the attached lease and represents common area services provided to the complex including landscaping, facility maintenance, trash services, and utilities as well as taxes and insurance. These expenses are estimated to be between five and six dollars per square foot, per year, approximately $294,000 in the first year.

The lease is a one-year lease with nineteen one-year renewal options. A landlord contribution of $50 per square foot for tenant improvements ($2,677,450) is included. The University holds the option to decline landlord funding of tenant improvements. Should the University self-fund tenant improvements, the initial lease rate extended to the University is reduced to $11.25 per square foot, triple
net ($602,426 in the first year), with the same three percent annual escalations and prepayment discount.

The proposed lease also provides the University with an initial purchase option of $9.1 million, and subsequent annual purchase options which decline in cost through the twentieth year of the lease, at which time the University will have a one dollar purchase option.

At this time, the University requests only that the Board approve a facility lease. The proposed lease provides that final decisions about the University’s investment may be delayed for approximately two years without penalty. The University will monitor the project’s construction and costs, observe market conditions, and if warranted, return to the Board within two years for any investment proposal requiring Board approval.

Because the University would prefer to hold an annual lease and declining annual purchase options, the landlord's lender requires some unique conditions to secure financing:

1. Tenant improvements are generally considered sunk costs specific to an individual tenant. Therefore, the lender will not lend to the landlord for the cost of the University tenant improvements due to the annual lease status, unless:
   a. The University agrees to a minimum five year lease term; or
   b. The University agrees to pay a lease termination fee equal to the unamortized portion of the tenant improvement costs should the University not lease for five complete years; or
   c. The University agrees to self-fund the tenant improvements.

2. The landlord’s financing will likely include a loan pre-payment penalty. Should the University exercise a purchase option, any applicable loan pre-payment penalty will be added to the University’s purchase price. The exact amount of the prepayment penalty is not yet known and is subject to the final financing package at the conclusion of the landlord’s construction loan. However, the landlord has agreed to allow some lease years without prepayment penalty to the University: lease years 0 (initial purchase option), 1, 2, 12 and 20 ($1 purchase option).

Should the University exercise any purchase option, the lease becomes null and void, thus activating the University’s full ownership rights per the condominium association bylaws. The association bylaws are not yet agreed upon; however, the University’s obligation to pay rent under the lease is conditioned on its approval of the association bylaws. The University is not required to pay rent
under the lease until the bylaws have been approved by the University and recorded.

Over the next two years the University will work closely with the developer and their lender as the project and financing progresses, monitor how the financing structure will impact purchase option pricing, and monitor market conditions and University priorities. The University will then return to the Board with updates, analyses, and recommendations related to the funding of tenant improvements, the lease versus purchase decision, and the timing of those decisions. Approval of the proposed lease agreement allows the developer to secure construction loan financing and proceed with construction of the project which is expected to be completed in approximately two years.

STAFF COMMENTS AND RECOMMENDATIONS
The landlord anticipates substantial completion of construction and preparation of the premises (excluding tenant improvements) not later than 24 months after the execution of the lease. The term of the lease begins upon the “commencement date” which is either the date the tenant takes possession (other than for purposes of competing tenant improvements), or 120 days after landlord notifies tenant that the premises are ready for tenant improvements, whichever occurs first.

Funding for lease payments will come from budget reallocations or operating reserves. BSU has affirmed it does not anticipate seeking new appropriated funding in the form of a state budget request or tuition or fee increase request.

The "going rate" for lease space in downtown Boise is one figure which blends all buildings, so some new buildings leasing for $25 a square foot or more are averaged with old buildings leasing at $10 per square foot. That being said, the current office rate downtown is $18.20 per foot full service, which translates to about $13.20-$14.20 Triple Net. Brand new construction leases for a premium over the average blended rate. For example, at the new 8th and Main Tower, the current market rate is $26.50 or $21 triple net. As such, the $16/SF NNN negotiated by BSU is competitive for premium new construction.

Pursuant to Board policy V.B.10., only owner-occupied space is eligible for occupancy costs funding from the state. However, since there is an option to purchase, staff recommends notifying Legislative Services Office and Division of Financial Management staff within 30 days of Board approval to enter into the lease agreement.

BSU should be prepared to discuss plans for the use of space vacated on the main campus as the result of this relocation.
Staff recommends approval.

BOARD ACTION
I move to approve the request by Boise State University to enter into a lease agreement with Gardner and Company for the initial term plus all allowable extension periods per the terms of the lease, in substantial conformance with the lease agreement as presented in Attachment 1.

LEASE AGREEMENT

Boise State Computer Science Department Leased Premises

THIS LEASE AGREEMENT (as amended, restated, supplemented or otherwise modified from time to time, this “Lease”) is made and entered into as of this ___ day of ___________, 2014, by and between CITY CENTER PLAZA EDUCATION, LLC (the “Landlord”), and IDAHO STATE BOARD OF EDUCATION BY AND THROUGH BOISE STATE UNIVERSITY (the “Tenant”).

For and in consideration of the rental to be paid and of the covenants and agreements set forth below to be kept and performed by Tenant, Landlord hereby leases to Tenant, and Tenant hereby leases from Landlord, the Leased Premises (as hereafter defined) and certain other areas, rights and privileges for the term, at the rental and subject to and upon all of the terms, covenants and agreements hereinafter set forth.

I. LEASED PREMISES

1.1 Description of Leased Premises. The Leased Premises are part of a larger mixed-use condominium development, including additional structures and improvements located within the US Bank Plaza, the Multimodal Center, the Centre Building, and the Clearwater Building (collectively “City Center Plaza” or “Project”) comprising condominium units, common areas, and elements referenced hereafter as “Units” or “Common Area,” created by one or more condominium plats and declarations. The City Center Plaza consists of the existing US Bank Plaza; the transit facility constructed as a condominium below grade with additional above grade element, and additional building pads above, referenced herein as the “Multimodal Center”; together with additional condominiums containing units designated for retail, meeting, and office use located within the structure referenced herein as the “Clearwater Building” and for parking, retail, meeting, and office use adjoining the Clearwater Building in an attached structure referenced hereafter as the “Centre Building”. The Leased Premises is comprised of two Units within the Clearwater Building and one Unit within the Centre Building. Landlord is solely the owner of the Units comprising the Leased Premises. Landlord’s ownership of its Units and all other Units in either the Clearwater Building or the Centre Building are subject to the Condominium Documents. City Center Plaza consists of multiple condominiums creating units, common areas and limited common areas all of which will be depicted upon various recorded plats and described in detail in a master declarations creating such that will be recorded prior to or contemporaneously with the completion of construction of the Leased Premises (“Condominium Documents”). As set forth in Section 4.1 below, the Leased Premises shall be responsible for all expenses associated with, and allocable to, the Units comprising the Leased Premises, under any of the relevant Condominium Documents, in an amount equal to the interest allocable to any such Unit under the Condominium Documents establishing such allocation for the Unit within either the Project or any portion thereof pursuant to a declaration or a sub-
declaration, in the same proportion that the Units comprising the Leased Premises would otherwise be responsible. Landlord does hereby demise, lease and let unto Tenant, and Tenant does hereby take and receive from Landlord the following:

(a) That certain floor area containing approximately a Gross Rentable Area of approximately 53,549 square feet (the “Leased Premises”) on the 2\textsuperscript{nd} and 3\textsuperscript{rd} floors of the Clearwater Building and a portion of the 3\textsuperscript{rd} Floor of the Centre Building. It is anticipated that the street address for the Centre Building, Clearwater Building and Multimodal Center within City Center will be 799 W. Main Street, Boise, Idaho, 83702, all of which is located within the real property more particularly described on Exhibit “A” attached hereto and by this reference incorporated herein (the “Property”). The Leased Premises consists of that certain area crosshatched on the floor plan shown on Exhibit “B” which is attached hereto and by this reference incorporated herein. At any time and from time to time during the term of the Lease, Landlord shall have the right to re-measure and re-determine the gross rentable square feet of the Leased Premises, the Centre Building and the Clearwater Building in accordance with BOMA Standard Methods of Measurement - English Version (ANSI/BOMA Z65.1—2010) – Method A. If the re-measured and re-determined rentable area of the Leased Premises is different than above stated, Landlord shall provide Tenant written notice of the change in square footage (the “Measurement Notice”). The re-measured and re-determined rentable square feet shall then become the Gross Rentable Area of the Leased Premises, effective as of the date of the Measurement Notice, in which case the Basic Annual Rent (as defined in Section 3.1 below), the Additional Rent (as defined in Section 4.1 below), shall be proportionately adjusted, provided that the Gross Rentable Area may be increased by no more than five percent (5\%) of the original Gross Rentable Area of 53,549 square feet;

(b) A non-exclusive license to use the Common Areas (as defined in Section 20.1 below);

(c) A non-exclusive license to use such rights-of-way, easements and similar rights with respect to the Centre Building, the Clearwater Building, and Property as may be reasonably necessary for access to and egress from the Leased Premises.

1.2 Landlord and Tenant’s Construction Obligations. The obligation of Landlord and Tenant to perform the work and supply the necessary materials and labor to prepare the Leased Premises for occupancy is described in detail on Exhibit “C”, which is attached hereto and by reference incorporated herein. Landlord and Tenant shall expend all funds and do all acts required of them as described on Exhibit “C” and shall perform or have the work performed promptly and diligently in a first class and workmanlike manner. Landlord shall provide to Tenant a Tenant Finish Allowance pursuant to the procedure in Exhibit “C” in an amount equal to $50.00 per useable square foot (the “Tenant Finish Allowance”), the useable area of the Leased Premises shall be calculated and established upon the Commencement Date and memorialized in an amendment establishing such date.
1.3 Construction of the Centre Building and the Clearwater Building. The Leased Premises, as well as the Centre Building and the Clearwater Building in which the Leased Premises are located, are not currently in existence. Landlord shall, at its own cost and expense: (a) construct and substantially complete the Centre Building and the Clearwater Building consistent with generally accepted commercial standards for Class A office buildings; (b) cause all of the construction which is to be performed by Landlord as set forth on Exhibit “C” to the Lease to be substantially completed; and (c) cause the Leased Premises to be ready for Tenant to install its fixtures and equipment and to perform its other work as described on Exhibit “C” to the Lease, as soon as reasonably possible as set forth therein. Landlord anticipates that it will complete such construction and preparation not later than twenty four (24) months after the date of this Lease (the “Targeted Substantial Completion Date”). If the Landlord has not fulfilled its obligation to substantially construct the Centre Building and the Clearwater Building upon the expiration of the Targeted Substantial Completion Date and such additional time as may constitute permissible delay under Section 22.2 of the Lease, Tenant’s sole remedy shall be to terminate this Lease, provided, however that Tenant may elect to waive this right in its sole and absolute discretion for any reason or cause of delay and provided, further, that, in the event Substantial Completion is delayed to the effect that Tenant is unable to commence classes in September 2016, Tenant’s obligation to pay Rent, including Basic Annual Rent and Additional Rent, shall not commence until January 2017, if Substantial Completion has occurred by December 2016, or if Substantial Completion has not yet occurred, the first September or January following Substantial Completion, as applicable. Tenant may only exercise its right to terminate this Lease as set forth in the immediately preceding sentence after the Targeted Substantial Completion Date (as extended by events described in Section 22.2 of the Lease) and prior to the time that Landlord has notified Tenant that substantial completion of the construction of the Centre Building and the Clearwater Building will occur in less than one hundred eighty (180) days from the date of the notice. In no event shall Tenant be entitled to monetary damages or specific performance. Tenant hereby unconditionally and irrevocably waives any and all claims for actual, consequential, punitive or other damages, costs or expenses, which Tenant may incur as a result of Landlord’s failure to substantially complete the Centre Building and the Clearwater Building on or before the Targeted Substantial Completion Date.

1.4 Changes to Project. Tenant acknowledges that other than the delivery of and its possession of the Leased Premises as set forth herein, that it has no interest in and no rights to any specific configuration, design, or construction of the Clearwater Building, the Centre Building, or the other condominiums previously created to facilitate development of the Project. Pursuant to the terms of the Condominium Documents, the developer and owner of any condominium within which the Leased Premises are Units has reserved to itself, its successors and assigns, the absolute right to develop the Project and other condominiums as it determines appropriate. Tenant shall not claim or be allowed any damages for injury, interference, eviction (constructive or actual) or
inconvenience occasioned thereby and shall not be entitled to terminate this Lease or receive an abatement of any amounts payable under this Lease.

II. TERM

2.1 Length of Term. The term of this Lease shall be for a period of one (1) year plus the partial calendar month, if any, occurring after the Commencement Date (as hereinafter defined) if the Commencement Date occurs other than on the first day of a calendar month (the “Initial Term”).

2.2 Extension Periods. Provided Tenant has not provided Landlord with a Termination Notice and Tenant is not in default under any term or covenant of this Lease beyond applicable notice and cure periods when it exercises its Extension Option (defined below) or when the Extension Period (as defined below) commences, the Initial Term shall automatically, and without additional action or notice by either party hereto, renew for successive one (1) year periods for up to a total of nineteen (19) years (each such period, an “Extension Period”). The Initial Term, as extended by an Extension Period, is referred to herein as the “Term.” In the event Tenant wishes to terminate the Lease at the end of the Initial Term or any Extension Period, Tenant shall give Landlord notice that it wishes to terminate the Lease at least six (6) months prior to the expiration of the Initial Term, or each Extension Period, as applicable (each notice, a “Termination Notice”). Tenant shall endeavor to alert Landlord as soon as it determines that it will terminate the Lease so as to permit Landlord to begin the process of re-leasing the Leased Premises. In the event Tenant delivers a Termination Notice at any time before the expiration of the fifth (5th) year of the Initial Term, Tenant shall pay to Landlord a termination fee equal to the sum of the Tenant Finish Allowance less the amount of $67,783.55 for each of the first five years of the Term (the “Termination Fee”). By way of example, in the event the Tenant Finish Allowance equals $2,677,450 and Tenant vacates after the first year of the Term, the Termination Fee shall be $2,609,666.45. However, should the Tenant exercise any of its purchase options, there shall be no Termination Fee incurred.

2.3 Commencement Date. The term of this Lease and Tenant’s obligation to pay rent hereunder shall commence on the first to occur of the following dates (the “Commencement Date”):

(a) The date Tenant takes possession of the Leased Premises and conducts any business therein other than performance of the Tenant’s Construction Obligations as outlined in Exhibit “C”; or

(b) The date which is one hundred twenty (120) days after Landlord notifies Tenant in writing that the Leased Premises are ready for Tenant’s performance of Tenant’s Construction Obligations as outlined in Exhibit “C”.

ATTACHMENT 1
2.4 Construction of Leased Premises. Tenant and Landlord acknowledge that Tenant may elect to perform and finance its own build out of the Leased Premises. Landlord shall give Tenant written notice six (6) months prior to completion of Landlord’s Construction Obligations (as defined in Exhibit “C”). Ten (10) business days after receiving such notice, Tenant shall notify Landlord in writing whether it desires to finance Tenant’s Construction Obligations (the “Tenant Build Out Notice”). In the event Tenant delivers the Tenant Build Out Notice, Landlord and Tenant shall enter into the amendment attached hereto as Annex A.

2.5 Amendment to Lease Recognizing the Commencement Date and Gross Rentable Area. At any time after the occurrence of the Commencement Date (if any), Landlord or Tenant may request that the other party enter into an amendment to this Lease in the form attached hereto as Exhibit “E”, in which case each party shall execute and deliver an amendment to this Lease in the form Exhibit “E” within ten (10) business days after the request by the other party.

III. BASIC RENTAL PAYMENTS

3.1 Basic Annual Rent. Tenant agrees to pay to Landlord as basic annual rent (the “Basic Annual Rent”) at such place as Landlord may designate, without prior demand therefore and without any deduction or set off whatsoever, in the amount of Eight Hundred Fifty-Six Thousand Seven Hundred Eighty Four Dollars ($856,784.00), which amount is equal to Sixteen Dollars ($16.00) per Rentable Square Foot. The Basic Annual Rent shall be due and payable in twelve (12) equal monthly installments to be paid in advance on or before the first day of each calendar month during the term of the Lease. In the event Tenant elects to pay Basic Annual Rent in one lump sum prior to the beginning of each lease year, Tenant shall receive a 3% discount in Basic Annual Rent. Commencing on the first anniversary of the Commencement Date and on each anniversary of the Commencement Date thereafter, Basic Annual Rent shall escalate at the beginning of the 2nd year and every year thereafter using a 3% annually compounded rate. Tenant shall pay the first month’s Basic Annual Rent on or before the Commencement Date. In the event the Commencement Date occurs on a day other than the first day of a calendar month, then rent shall be paid on the Commencement Date for the initial fractional calendar month prorated on a per-diem basis (based upon a thirty (30) day month).

3.2 Additional Monetary Obligations. Tenant shall also pay as rent (in addition to the Basic Annual Rent) all other sums of money as shall become due and payable by Tenant to Landlord as Additional Rent under this Lease. Landlord shall have the same remedies in the case of a default in the payment of said other sums of money as are available in the case of a default in the payment of one or more installments of Basic Annual Rent.

IV. ADDITIONAL RENT
4.1 Definitions. It is the intent of both parties that all costs, expenses and obligations relating to the Centre Building or the Clearwater Building, the Common Areas, the Property and/or the Leased Premises which may arise or become due during the term shall be paid by Tenant in the manner hereafter provided. For purposes of this Lease, the terms set forth below shall mean the following:

(a) “Additional Rent” shall mean the sum of Tenant’s Proportionate Share of Common Area Expenses, plus Tenant’s Direct Costs, plus all other amounts due and payable by Tenant under this Lease.

(b) “Common Areas” is defined in Section 20.1.

(c) “Common Area Expenses” shall mean all actual costs and expenses incurred by Landlord in connection with the ownership, operation, management and maintenance of the Common Areas, the Centre Building or the Clearwater Building, Property, and related improvements located thereon (the “Improvements”). Common Area Expenses includes, but is not limited to, all expenses incurred by Landlord as a result of Landlord’s compliance with any and all of its obligations under this Lease (or under similar leases with other tenants) other than the performance of its work under Section 2.3 of this Lease or similar provisions of leases with other tenants. In explanation of the foregoing, and not in limitation thereof, Common Area Expenses shall include:

(i) All expenses allocable to the Leased Premises under any of the Condominium Documents for its share, as one or more Units, or sub-Units, of taxes (if any), insurance, maintenance and operation of any common area so designated or defined thereunder, the allocated interest of such Units or sub-Units, of which the Leased Premises are a part, are anticipated to be as follows, but subject to adjustment upon recording of the final Condominium Documents: (Clearwater Building Condominiums: 23.56%; Centre Building Condominiums: 2.33%; Multimodal Center Condominiums: 15.73%; US Bank Plaza Condominiums: 6.92%).

(ii) All taxes, impact fees, local improvement rates, and other ad valorem assessments (whether general or special, known or unknown, foreseen or unforeseen) and any tax or assessment levied or charged in lieu thereof, whether assessed against Landlord and/or Tenant and whether collected from Landlord and/or Tenant, including, without limitation, any privilege or excise tax, Landlord acknowledges that Tenant is an agency of the State of Idaho that is currently exempt from the payment of property taxes on land, improvements, personal property pursuant to Idaho Code Section 63-602A, and certain other ad valorem assessments, including local improvement and business improvement district assessments. Tenant agrees to pay any expense arising under Subsection (i) above as a result of Tenant’s proportionate use of
and interest in the Common Areas. Tenant shall cooperate with Landlord to ensure that any tax upon the Leased Premises or the Common Areas appurtenant to the Leased Premises are not assessed any tax, provided, however, that if Tenant is unable to segregate its liability for any portion of the Leased Premises or the Common Area and effectuate its exemption, then it shall be liable for any cost associated therewith incurred by Landlord. Additionally, if in the future, the laws of the State of Idaho change and Tenant’s tax exemption is modified, reduced, or eliminated, then Tenant shall be responsible for all taxes so levied. Notwithstanding the foregoing, in the event that Tenant makes any Transfer or Sublease as authorized and defined herein, and such Transfer or Sublease to a third party results in the modification, reduction, or elimination of Tenant’s tax exemption, Tenant shall be solely responsible for all such property tax on the real property or personal property affected by such Transfer or Sublease. Additionally, Common Area Expenses shall include any assessment in connection with the Downtown Business Improvement District (City of Boise ordinances 5019 and 6212 and more particularly described in the disclosure on Exhibit “H” attached hereto), that are levied against the Leased Premises, to the extent Tenant is not exempt from payment of such assessments.

(iii) The cost of all insurance maintained by Landlord on or with respect to the Centre Building or the Clearwater Building, the Improvements, the Common Areas or the Property, including, without limitation, casualty insurance, liability insurance, rental interruption, workers compensation for any employee who works within the Project providing property management and engineering services (but solely in proportion to the time they actually spend working in the Centre Building or the Clearwater Building), any insurance required to be maintained by Landlord’s lender, and any deductible applicable to any claims made by Landlord under such insurance, provided further that such deductible shall only be applicable to Tenant’s Leased Premises and in proportion to Tenant’s allocated interest in the Common Areas.

(iv) Snow removal, trash removal, cost of services of independent contractors, cost of compensation (including employment taxes and fringe benefits) of all persons who perform regular and recurring duties connected with day-to-day operation, maintenance, repair, and replacement of the Centre Building or the Clearwater Building, the Improvements, the Common Areas or the Property, its equipment and the adjacent walk and landscaped area (including, but not limited to janitorial, gardening, security, elevator, painting, plumbing, electrical, mechanical, carpentry, window washing, structural and roof repairs and reserves, signing and advertising), but excluding persons performing services not uniformly available to or performed for substantially all Clearwater Building tenants.
(v) Costs of all gas, water, sewer, electricity and other utilities used in the maintenance, operation or use of the Centre Building or the Clearwater Building, the Improvements, the Property and the Common Areas, cost of equipment or devices used to conserve or monitor energy consumption, supplies, licenses, permits and inspection fees.

(vi) Auditing, accounting and legal fees.

(vii) Payments required to be made in connection with the maintenance or operation of any easement or right of way or other instrument through which Landlord claims title in the Property or to which Landlord’s title in the Property is subject.

(viii) Any amount assessed against the condominium unit within the Centre Building or the Clearwater Building where the Leased Premises are located pursuant to the Condominium Documents or otherwise assessed against Landlord pursuant to the Condominium Documents.

Common Area Expenses shall not include (1) leasing commissions; (2) repair costs to the extent paid by insurance proceeds or by any tenant or third party; (3) the initial construction cost of the Building and the Common Areas and any depreciation thereof; (4) debt service or costs related to the sale or financing of the Property or any portion thereof; (5) the cost of tenant improvements provided for any tenant within its leased premises or costs of services provided to any tenant which is not available to all tenants; (6) the cost of any alterations, legal fees, advertising or promotional expenses, or other costs incurred in preparing space for occupancy or developing the Building or Property; (7) amounts paid for professional services in connection with the leasing of space; (8) professional fees incurred in connection with the preparation of financial statements, tax returns and other documents and information for Landlord or its mortgagees or other costs associated with the operation of the business of the entity which constitutes Landlord, as the same are distinguished from the costs of operation of the Building, Property or Common Areas, such as but not limited to accounting and legal matters, costs of defending any lawsuits or arbitration with any mortgagee or any other building occupant, costs of selling, syndicating, financing, mortgaging, or hypothecating any of Landlord’s interest in the Building or Property but not excluding such fees and costs in connection with preparing monthly or annual statements related to Additional Rent; (9) Landlord’s income, estate, inheritance, transfer, gross receipts, or change-in-ownership taxes; (10) any expenses for adjacent buildings or parking facilities when such parking facilities are not available for Tenant’s use or when such parking areas are used in conjunction with the payment of any
fees; and (11) any taxes, impact fees, local improvement rates or other ad
valorem assessments which Tenant is exempt from paying as described in
subsection (ii) above.

e) “Direct Costs” shall mean all actual costs and expenses incurred by
Landlord in connection with the operation, management, maintenance,
replacement, and repair of the Leased Premises, including but not limited to
janitorial services, maintenance, repairs, supplies, utilities, heating, ventilation,
and air conditioning. In the event any Direct Cost is a result of any service
provided by Landlord to Tenant which is not generally provided to other
tenant’s within the Centre Building or the Clearwater Building, such Direct
Cost shall be proportionately allocated to Tenant and any other tenants within
the Centre Building or the Clearwater Building receiving such service, based
on a pro rata portion determined by rentable square feet. Direct Costs will be
charged to Tenant in an amount equal to the actual cost, subject only to the
property management fee set forth above. In the event Tenant is not obtaining
any utility service directly from a utility provider, Landlord may install, at
Tenant’s expense, sub-meters to measure Tenant’s actual use of such utilities.
If such sub-meters are installed, Tenant shall pay Landlord as a Direct Cost the
actual kilowatt hourly rate billed to Landlord by the public utility companies
for each respective period, including taxes. It is anticipated that Tenant will
require use of the Leased Premises outside of “Standard Business Hours”,
defined herein as 7:00 a.m. to 6:00 p.m. Monday through Friday and 8:00 a.m.
to 1:00 p.m. on Saturday. If it is not possible to sub-meter and segregate the
cost associated with operating such heating, ventilation and air conditioning
outside of Standard Business Hours, then the costs and expenses incurred in
connection with such ventilation/air conditioning usage by Tenant during such
after hours use shall be equitably apportioned among Tenant and all other
tenants in the Centre Building or the Clearwater Building requiring such after
hours ventilation/air conditioning use.

(f) “Estimated Costs” shall mean Landlord’s estimate of Tenant’s
Direct Costs and Tenant’s Proportionate Share of Common Area Expenses for
a particular calendar year, excluding the costs of any utilities which are
separately metered and paid directly by Tenant, and plus the Property
Management Fee.

(g) “Property Management Fee” shall be equal to a percentage of the
sum of Tenant’s Basic Annual Rent and Estimated Costs, which percentage
shall not exceed four percent (4%).

(h) “Tenant’s Proportionate Share” shall mean the percentage derived
from the fraction, the numerator of which is the gross rentable square footage
of the Leased Premises, the denominator of which is the gross rentable square
footage of the portions of the Building owned by Landlord; at any time or from
time to time, less than eighty-five percent (85%) of the Centre Building or the
Clearwater Building is occupied by tenants who are paying rent during a
calendar year or fiscal year, the denominator, for purposes of calculating
Tenant’s Proportionate Share, shall be the square footage of the Centre
Building or the Clearwater Building actually being leased by tenants who are
in occupancy and paying rent. Initially, for the improvements owned by
Landlord, the Tenant’s Proportionate Share for the Leased Premises shall be
100% (Premises: 53,549 square feet of Gross Rentable Area/Landlord’s
Units 53,549 square feet of Rentable Area). It is anticipated that Tenant’s
Proportionate Share, based upon the interests in the Common Areas
allocated to the Units comprising the Leased Premises, will be as follows,
subject to adjustment upon recording of the final Condominium Documents:
(Clearwater Building Condominiums: 23.56%; Centre Building
Condominiums: 2.33%; Multimodal Center Condominiums: 15.73%; US
Bank Plaza Condominiums: 6.92%)

4.2 Payment of Additional Rent. Additional Rent shall be paid as follows:

(a) Prior to the beginning of a calendar year, Landlord shall deliver to
Tenant a statement showing the Estimated Costs for such calendar year. If
Landlord fails to deliver such statement prior to January 1 of the applicable
year, until the delivery of such statement, Tenant’s Estimated Costs shall be
deemed to be the same amount of the Estimated Costs for the prior year;
provided, however, if Landlord subsequently furnishes to Tenant a statement
of such Estimated Costs, to the extent such Estimated Costs are greater than or
less than the Estimated Costs paid on a year to date basis, Tenant shall either
receive a credit or make a payment, in the amount of such difference on the
next date on which Tenant makes a rental payment hereunder.

(b) Concurrent with each monthly payment of Basic Annual Rent due
pursuant to Section 3.1 above, Tenant shall pay to Landlord, without offset or
deduction, one-twelfth (1/12th) of the Estimated Costs, plus all other amount
due and owing by Tenant under this Lease which are not included as part of
Estimated Costs (e.g., late payment charges).

4.3 Report of Common Area Expenses and Statement of Estimated
Costs. Within one hundred twenty (120) days after each calendar year occurring during the
term of this Lease, Landlord shall furnish Tenant with a written reconciliation statement
comparing the actual amount of Tenant’s Proportionate Share of Common Area Expenses
and Tenant’s Direct Costs payable during the previous calendar year against the amounts
actually paid by Tenant during the previous calendar year pursuant to Section 4.2 above. If
the annual reconciliation statement of costs indicates that the Estimated Costs paid by
Tenant for any year exceeded the actual amounts of Tenant’s Direct Costs and Tenant’s
Proportionate Share of Common Area Expenses for the same year, Landlord, at its election, shall either (i) promptly pay the amount of such excess to Tenant, or (ii) apply such excess against the next installment of Basic Annual Rental or Additional Rent due hereunder. If the annual reconciliation statement of costs indicates that the Estimated Costs paid by Tenant for any year is less then Tenant’s Direct Costs and Tenant’s Proportionate Share paid by Tenant during such year, Tenant shall pay to Landlord any such deficiency within thirty (30) days of Tenant’s receipt of such reconciliation statement.

4.4 Resolution of Disagreement. Every statement given by Landlord pursuant to Section 4.3 shall be conclusive and binding upon Tenant unless within sixty (60) days after the receipt of such statement Tenant shall notify Landlord that it disputes the correctness thereof, specifying the particular respects in which the statement is claimed to be incorrect. If such dispute shall not have been settled by agreement, the parties hereto shall initially seek mediation of the dispute. Pending the determination of such dispute by agreement or mediation as aforesaid, Tenant shall, within thirty (30) days after receipt of such statement, pay Additional Rent in accordance with Landlord’s statement, and such payment shall be without prejudice to Tenant’s position. If the dispute shall be determined in Tenant’s favor, Landlord shall, within thirty (30) days of the resolution of such dispute, pay Tenant the amount of Tenant’s overpayment of rents resulting from compliance with Landlord’s statement. Landlord agrees to grant Tenant reasonable access to Landlord’s books and records for the purpose of verifying operating expenses incurred by Landlord. Tenant has the right at Tenant’s expense, to use an independent third-party auditing or accounting firm to audit such expenses and statements and Landlord will not unreasonably withhold access from Tenant’s representatives to any such information required to provide a professional audit. Should the audit find that the Landlord overcharged Tenant by more than 10% of the Additional Rent paid, Landlord shall reimburse Tenant for Tenant’s cost for the independent audit or Tenant’s share of any mediation costs.

4.5 Limitations. Nothing contained in this Part IV shall be construed at any time so as to reduce the monthly installments of Basic Annual Rent payable hereunder below the amount set forth in Section 3.1 of this Lease.

4.6 Allocations Pursuant to Master Declaration. The Parties acknowledge that the Leased Premises are comprised of multiple Units within the Clearwater Building Condominium and the Centre Building Condominium and sub-Units within the Multimodal Center Condominium and the US Bank Plaza Condominium. Pursuant to the Condominium Documents, Common Area Expenses will be incurred by the various condominium associations and allocated to the Units subject thereto. The Parties acknowledge that there are efficiencies in providing such services and incurring such Common Area Expenses in such manner, provided, however, that it is not intended that the Leased Premises will be allocated or incur duplicative expenses. The Parties acknowledge that upon occupancy of the Leased Premises, that Tenant shall execute as part of the amendment anticipated by Exhibit “E” a final calculation and confirmation of the percentage Unit interests allocable to the Leased Premises and described initially
V. TENANT’S DUTIES AND RIGHTS UNDER CONDOMINIUM DOCUMENTS

5.1 Tenant’s Duties Under Condominium Documents. Tenant acknowledges that the Leased Premises are subject to the Condominium Documents, pursuant to the terms of the Condominium Documents and to the relevant provisions of the Idaho Condominium Property Act, they may be amended from time to time, which may increase or decrease the unit allocations and the respective obligations thereunder. Tenant acknowledges that the Leased Premises and this Lease are subject to and subordinate to the Condominium Documents. Notwithstanding the foregoing, Landlord shall not consent to any amendment to the Condominium Documents, and Tenant shall not be subject to any amendment to the Condominium Documents that would materially limit Tenant’s Permitted Use hereunder. Tenant shall have the right to approve the Condominium Documents as provided in Section 22.25(c) hereof.

5.2 Tenant’s Rights Under Condominium Documents. So long as Tenant leases and occupies at least forty five thousand (45,000) square feet of rentable area, Landlord agrees that Tenant shall have the rights of a Designated Tenant under all of the Condominium Documents. This Lease constitutes written authorization by Landlord to Tenant to exercise the rights of a Designated Tenant under the Condominium Documents, including participation as a member of the Board of Directors of any of the Associations created by the Condominium Documents for the Units that include participation by Designated Tenants.

VI. USE

6.1 Use of Leased Premises. The Leased Premises shall be used and occupied by Tenant for general office, meeting space, classroom and educational purposes only, including business incubation. Tenant shall have the right to sublease the Leased Premises consistent with Article IX below. Should Tenant or any entity authorized to sublease the Leased Premises desire to utilize it for a purpose other than as set forth below, then such alternative use shall require the prior written consent of Landlord.

6.2 Prohibition of Certain Activities or Uses. Landlord agrees that during the term of the Lease, that no portion of City Center Plaza owned by Landlord or controlled by Landlord’s managers or members will be utilized for any purpose inconsistent with the operation of a mixed use retail, transit, convention, and technology office complex. No part of City Center Plaza shall be used as: an adult book store, adult video store or other adult entertainment business, a direct competitor to Tenant, automotive maintenance or repair facility, warehouse, car wash, entertainment or recreational facility, or as a call center; for
the renting, leasing or selling of or displaying for the purpose of renting, leasing or selling of any boat, motor vehicle or trailer; for industrial purposes, or for payday lending. For the purpose of this Lease, the phrase “entertainment or recreational facility” shall defined to include, without limitation, a theater, bowling alley, skating rink, gym, health spa or studio, dance hall, billiard or pool hall, massage parlor, game parlor or video arcade (which shall be defined as any store containing electronic games which are utilized for revenue); and the phrase “call center” shall be defined to include any office whose primary business is employing personnel to solicit or take orders by phone. Tenant acknowledges, however, that throughout the Project restaurants or bars will be permitted as part of the Project’s retail element and will operate consistent with the requirements of local and state law. Additionally, Tenant shall not do or permit anything to be done in or about, or bring or keep anything in the Leased Premises or the Property which is prohibited by this Lease or will, in any way or to any extent:

(a) adversely affect any fire, liability, or other insurance policy carried with respect to the Centre Building and the Clearwater Building, the Improvements, the Common Areas, the Property, or any of the contents of the foregoing (except with Landlord’s express written permission, which will not be unreasonably withheld, but which may be contingent upon Tenant’s agreement to bear any additional costs, expenses or liability for risk that may be involved);

(b) obstruct, interfere with any right of, or injure or annoy any other tenant or occupant of the Centre Building and the Clearwater Building, the Common Areas, the Improvements, or the Property;

(c) conflict with or violate any law, statute, ordinance, rule, regulation or requirement of any governmental unit, agency, or authority (whether existing or enacted as promulgated in the future, known or unknown, foreseen or unforeseen);

(d) adversely overload the floors or otherwise damage the structural soundness of the Leased Premises or the Centre Building or the Clearwater Building, or any part thereof (except with Landlord’s express written permission, which will not be unreasonably withheld, but which may be contingent upon Tenant’s agreement to bear any additional costs, expenses, or liability for risk that may be involved); or

(e) take any action which causes a violation of any restrictive covenants or any other instrument of record applying to the Property.

6.3 **Affirmative Obligations with Respect to Use.**

(a) Tenant will (i) to the extent applicable, comply with all governmental laws, ordinances, regulations, and requirements, now in force or which hereafter may be in force, of any lawful governmental body or authorities having jurisdiction
over the Leased Premises; (ii) will keep the Leased Premises and every part thereof in a clean, neat, and orderly condition, free of objectionable noise, odors, or nuisances; (iii) will in all respects and at all times fully comply with all health and policy regulations; and (iv) will not suffer, permit, or commit any waste.

(b) At all times during the term hereof, Tenant shall, at Tenant’s sole cost and expense, comply with all statutes, ordinances, laws, orders, rules, regulations, and requirements of all applicable federal, state, county, municipal and other agencies or authorities, now in effect or which may hereafter become effective, which shall impose any duty upon Landlord or Tenant with respect to the use, occupation or alterations of the Leased Premises (including, without limitation, all applicable requirements of the Americans with Disabilities Act of 1990 and all other applicable laws relating to persons with disabilities, and all rules and regulations which may be promulgated thereunder from time to time and whether relating to barrier removal, providing auxiliary aids and services or otherwise) and upon request of Landlord shall deliver evidence thereof to Landlord.

6.4 Suitability. Tenant acknowledges that except as expressly set forth in this Lease, neither Landlord nor any other person has made any representation or warranty with respect to the Leased Premises or any other portion of the Centre Building and the Clearwater Building, the Common Areas, or the Improvements and that no representation has been made or relied on with respect to the suitability of the Leased Premises or any other portion of the Centre Building and the Clearwater Building, the Common Areas, or Improvements for the conduct of Tenant’s business. The Leased Premises, the Centre Building and the Clearwater Building, and Improvements (and each and every part thereof) shall be deemed to be in satisfactory condition unless, within sixty (60) days after the Substantial Completion Date, Tenant shall give Landlord written notice specifying, in reasonable detail, the respects in which the Leased Premises, the Centre Building and the Clearwater Building, or Improvements are not in satisfactory condition.

6.5 Taxes and Assessments. Subject to the exemptions from taxation applicable to Tenant as described above in Section 4.1(c) above, Tenant shall pay all taxes, assessments, charges, and fees which during the term hereof may be lawfully imposed, assessed, or levied by any governmental or public authority against or upon Tenant’s use of the Leased Premises or any personal property or fixture kept or installed therein by Tenant and on the value of leasehold improvements to the extent that the same exceeds the Centre Building and the Clearwater Building allowances.

VII. UTILITIES AND SERVICE

7.1 Obligation of Landlord. During the term of this Lease, Landlord agrees to cause to be furnished to the Leased Premises the following utilities and services, the cost and expense of which shall be included in Common Area Expenses and/or Direct Costs:
(a) Electricity, water, gas and sewer service.

(b) Telephone connection, but not including telephone stations and equipment (it being expressly understood and agreed that Tenant shall be responsible for the ordering and installation of telephone lines and equipment which pertain to the Leased Premises).

(c) Heat and air-conditioning to such extent and to such levels as, in Landlord’s judgment, is reasonably required for the comfortable use and occupancy of the Leased Premises subject however to any limitations imposed by any government agency.

(d) Janitorial service.

(e) Security (including the lighting of common halls, stairways, entries and restrooms) to such extent as is usual and customary in similar buildings in Ada County, Idaho.

(f) Snow removal service.

(g) Landscaping and grounds keeping service.

(h) Elevator service.

7.2 Tenant’s Obligations. Tenant shall arrange for and shall pay the entire cost and expense of all telephone stations, equipment and use charges, electric light bulbs (but not fluorescent bulbs used in fixtures originally installed in the Leased Premises) and all other materials and services not expressly required to be provided and paid for pursuant to the provisions of Section 7.1 above. Tenant shall be solely obligated for the cost of any service, including HVAC operation, required for the Leased Premises. Tenant shall not be responsible for any expense or cost directly attributed to any space which the Tenant does not occupy nor have a license for the use or access of including costs directly attributed to other building occupants, or any other facility or building which is owned by a separate entity or for which the use or access of is not provided for at no cost to the Tenant under the terms of this Lease.

7.3 Additional Limitations.

(a) Tenant will not, without the written consent of Landlord, which shall not be unreasonably withheld, use any apparatus or device on the Leased Premises which will in any way or to any extent increase the amount of electricity or water usually furnished or supplied for use on the Leased Premises for the use designated in Section 6.1 above, nor connect with either electrical current (except through
existing electrical outlets in the Leased Premises), water pipes, or any apparatus or
device, for the purposes of using electric current or water. Notwithstanding the
foregoing, Landlord acknowledges and permits that Tenant may use the Leased
Premises for the purposes of computer science programs which may require
additional electricity capacity or voltage in excess of 110v for the proper operation
of a computer lab, server room, computer clusters or such technology devices that
are now or will be in the future central to a proper technology based education or
research. Tenant will cooperate with Landlord during construction of the facility
and Tenant improvements to advise Landlord of utility capacity needs for the proper
sizing of electrical panels and stubbed utilities to Tenant’s Leased Premises.

(b) If Tenant shall require water or electric current in excess of that
usually furnished or supplied for use of the Leased Premises, or for purposes other
than those designated in Section 6.1 above, Tenant shall first procure the consent of
Landlord for the use thereof, which consent Landlord may refuse. Landlord may
cause a water meter or electric current meter to be installed in the Leased Premises,
so as to measure the amount of water and/or electric current consumed for any such
use. Tenant shall pay for the cost of such meters and of installation maintenance and
repair thereof. Tenant agrees to pay Landlord promptly upon demand for all such
water and electric current consumed as shown by said meters at the rates charged for
such service either by the city or county in which the Centre Building and the
Clearwater Building is located or by the local public utility, as the case may be,
together with any additional expense incurred in keeping account of the water and
electric current so consumed. In the event any such sub-metering will occur within
the Tenant’s Leased Premises, such charges will be billed directly to Tenant at the
exact cost of such service with no premiums, fees or charges added by Landlord.
Provided, however, if such sub-metering does not occur entirely within the Tenant’s
Leased Premises, and Landlord is obligated to otherwise segregate, allocate, or
manage any sub-metering for the benefit of Tenant’s Leased Premises, then such
will be subject to the property management fee provided for in Section 4.1.

(c) Landlord has been advised of the Tenant’s expected use of the
Leased Premises including the anticipated use of computer labs and a server room
and it is expected and agreed the initial construction of the Leased Premises, as
constructed in consultation with Landlord, will provide sufficient utility capacity and
air conditioning capacity. If, in the future, additional heat generating machines
and/or devices are used in the Leased Premises which affect the temperature
otherwise maintained by the air conditioning system, Landlord reserves the right to
request Tenant remove such devices or subsequently install additional or
supplementary air conditioning units for the Leased Premises, and the entire cost of
installing, operating, maintaining and repairing the same shall be paid by Tenant to
Landlord promptly after demand by Landlord. Landlord shall not proceed with any
such work without first providing Tenant with a written estimate of such costs and
provide the Tenant with the opportunity to avoid such costs by removal of all or a portion of such devices.

7.4 Limitation on Landlord’s Liability. Landlord shall not be liable for any failure to provide or furnish any of the foregoing utilities or services if such failure was reasonably beyond the control of Landlord and Tenant shall not be entitled to terminate this Lease or to effectuate any abatement or reduction of rent by reason of any such failure. In no event shall Landlord be liable for loss or injury to persons or property, however, arising or occurring in connection with or attributable to any failure to furnish such utilities or services even if within the control of Landlord. Landlord will cooperate with Tenant in pursuing such claims as Tenant may have under any insurance policy or against any third party in the event of such occurrence.

VIII. MAINTENANCE AND REPAIRS; ALTERATIONS; ACCESS

8.1 Maintenance and Repairs by Landlord. Landlord shall maintain in good order, condition, and repair the Centre Building and the Clearwater Building, the Common Areas, and the Improvements except the Leased Premises and those other portions of the Centre Building and the Clearwater Building leased, rented, or otherwise occupied by persons not affiliated with Landlord. Landlord shall supply normal janitorial and cleaning services reasonably required to keep the Leased Premises, the Centre Building and the Clearwater Building, and the Improvements in a clean, sanitary and orderly condition, the cost and expense of which shall be included in Direct and/or Common Area Expenses. Landlord shall have no duty to repair or replace any damage to the Centre Building and the Clearwater Building, the Common Areas, the Improvements, or the Leased Premises occasioned by the willful or negligent acts of Tenant or its agents, contractors, employees, servants invitees, subtenants, licensees, or concessionaries (the “Tenant Related Parties”).

8.2 Maintenance and Repairs by Tenant. Tenant, at Tenant’s sole cost and expense and without prior demand being made, shall maintain the Leased Premises in good order, condition and repair, and will be responsible for the painting, carpeting, or other interior design work of the Leased Premises beyond the initial construction phase as specified in Section 1.3 and Exhibit “C” of the Lease and shall maintain all equipment and fixtures installed by Tenant. Tenant will be responsible for the procurement or provision of all routine interior maintenance and the cost of such. Tenant shall in a good and workmanlike manner repair or replace any damage to the Centre Building and the Clearwater Building, the Common Areas, the Improvements, or the Leased Premises occasioned by the willful or negligent acts of Tenant or the Tenant Related Parties.

8.3 Alterations. Except as set forth on Exhibit “C” attached hereto, Tenant shall not without first obtaining Landlord’s written approval: (a) make or cause to be made any alterations, additions, or improvements; (b) install or cause to be installed any fixtures, signs, floor coverings, interior or exterior lighting, plumbing fixtures, shades or awnings; or (c) make any other changes to the Leased Premises without first obtaining Landlord’s
written approval. The foregoing notwithstanding, if the proposed alteration, addition or improvement is, in Landlord’s judgment, likely to affect the structure of the Centre Building and the Clearwater Building or the operation of the electrical, plumbing or HVAC systems (including the use of non-specified systems, components, or controls), or otherwise adversely impacts the value of the Centre Building and the Clearwater Building, such consent may be withheld at the sole and absolute discretion of the Landlord; except for the foregoing, Landlord’s approval shall not be unreasonably withheld. Tenant shall present to Landlord plans and specifications for such work at the time approval is sought. In the event Landlord consents to the making of any alterations, additions, or improvements to the Leased Premises by Tenant, the same shall be made by Tenant at Tenant’s sole cost and expense. All such work shall be done only by contractors or mechanics approved by Landlord, which approval shall not be unreasonably withheld. All such work with respect to any alterations, additions, and changes shall be done in a good and workmanlike manner and diligently prosecuted to completion such that, except as absolutely necessary during the course of such work, the Leased Premises shall at all times be a complete operating unit. Any such alterations, additions, or changes shall be performed and done strictly in accordance with all laws and ordinances relating thereto and applicable to Tenant. In performing the work or any such alterations, additions, or changes, Tenant shall have the same performed in such a manner as not to obstruct access to any portion of the Centre Building and the Clearwater Building. Any alterations, additions, or improvements to or of the Leased Premises, including, but not limited to, wallcovering, paneling, and built-in cabinet work, but excepting movable furniture and equipment, shall at once become a part of the realty and shall be surrendered with the Leased Premises unless Landlord otherwise elects at the end of the term hereof. Similarly, Landlord will not perform or approve others to perform any work or modification to the Centre Building or the Clearwater Building that would unreasonably obstruct or impair access to the Tenant’s Leased Premises or prevent Tenant’s use and enjoyment of the Leased Premises.

8.4 Landlord’s Access to Leased Premises. Landlord shall have the right to place, maintain, and repair all utility equipment of any kind in, upon, and under the Leased Premises as may be necessary for the servicing of the Leased Premises and other portions of the Centre Building and the Clearwater Building. Upon providing adequate notice to Tenant, Landlord shall also have the right to enter the Leased Premises at all times to inspect or to exhibit the same to prospective purchasers, mortgagees, tenants, and lessees, and to make such repairs, additions, alterations, or improvements as Landlord may deem desirable, such work to proceed in a diligent, professional and workmanlike manner, so as to minimize the interruption of Tenant’s operations. Landlord shall be allowed to take all material upon said Leased Premises that may be required therefor without the same constituting an actual or constructive eviction of Tenant in whole or in part, the rents reserved herein shall in no wise abate while said work is in progress by reason of loss or interruption of Tenant’s business or otherwise, and Tenant shall have no claim for damages. During the three (3) months prior to expiration of this Lease or of any renewal term, Landlord may place upon the Leased Premises “For Lease” or “For Sale” signs which Tenant shall permit to remain thereon.
IX. ASSIGNMENT

9.1 Definitions. As used in this Lease:

(a) “Pledge” means to pledge, encumber, mortgage, assign (whether as collateral or absolutely) or otherwise grant a lien or security interest in this Lease or any portion of the Leased Premises as security for, or to otherwise assure, performance of any obligation of Tenant or any other person. Tenant may make such Pledge in conjunction with its acquisition of the Leased Premises pursuant to its purchase option set forth herein.

(b) “Sublease” means to lease or enter into any other form of agreement with any other person, whether written or oral, which allows that person or any other person to occupy or possess any part of the Leased Premises for any period of time or for any purpose.

(c) “Transfer” means to sell, assign, transfer, exchange or otherwise dispose of or alienate any interest of Tenant in this Lease, whether voluntary or involuntary or by operation of law including, without limitation: (i) any such Transfer by death, incompetency, foreclosure sale, deed in lieu of foreclosure, levy or attachment; (ii) if Tenant is not a human being, any direct or indirect Transfer of fifty percent (50%) or more of any one of the voting, capital or profits interests in Tenant; and (iii) if Tenant is not a human being, any Transfer of this Lease from Tenant by merger, consolidation, transfer of assets, or liquidation or any similar transaction under any law pertaining to corporations, partnerships, limited liability companies or other forms of organizations.

9.2 Transfers, Subleases and Pledges Prohibited. Except with the prior written consent of Landlord in each instance and subject to Section 9.3 hereof, Tenant shall not Transfer or Pledge this Lease, or Sublease or Pledge all or any part of the Leased Premises. Consent of the Landlord to any of the actions described in the previous sentence shall be deemed granted and delivered only if obtained strictly in accordance with and pursuant to the procedure set forth in Section 9.3 of this Lease and is memorialized in a writing signed by Landlord that refers on its face to Section 9.3 of this Lease. Any other purported Transfer, Sublease or Pledge shall be null and void, and shall constitute a default under this Lease which, at the option and election of Landlord exercisable in writing at its sole discretion, shall result in the immediate termination of this Lease; provided, it Landlord does not terminate this Lease, it may exercise any other remedies available to it under this Lease or at law or equity. Consent by Landlord to any Transfer, Sublease or Pledge shall not operate as a waiver of the necessity for consent to any subsequent Transfer, Sublease or Pledge, and the terms of Landlord’s written consent shall be binding upon any person holding by, under, or through Tenant. Landlord’s consent to a Transfer, Sublease or Pledge shall not relieve Tenant from any of its obligations under this Lease, all of which shall continue in full force and effect notwithstanding any assumption or agreement of the person to whom the Transfer, Sublease or Pledge pertains. Landlord’s consent to a Transfer,
Sublease, or Pledge where the Landlord has in writing accepted the credit quality of the entity to which the facility is being transferred or pledged shall relieve Tenant of any and all obligations under this lease when such complete transfer or pledge has been completed. Should Landlord agree to a partial Transfer, Sublease, or Pledge, Tenant shall remain under the full force and effect of all terms of this Agreement. Notwithstanding the foregoing, in making any such Transfer, Sublease, or Pledge, Tenant shall not be relieved of the obligation for the Termination Fee set forth herein, but such Termination Fee may be made by the approved transferee, subleesee or pledgee.

9.3 Consent of Landlord Required:

(a) Landlord acknowledges that the Tenant is a government entity involved in the activities of education, research and economic development. Such activities will frequently involve partnerships with other agencies and companies. Subject to the provisions of this Section, Tenant intends to sublease spaces within Tenant’s Leased Premises to such entities the Tenant has deemed relevant to the Tenant’s mission and use of Tenant’s space. Tenant shall remain responsible for all terms and conditions of this Lease, including the full payment of Basic Annual Rent and Additional Rent for all such charges for the Tenant’s entire Leased Premises. Any rents collected from sublease entities within Tenant’s Leased Premises, will be made directly to Tenant. Tenant will be required to ensure sublease entities do not utilize or use the Leased Premises in any manner which would place Tenant in conflict with the terms and conditions of this Lease. If Tenant proposes to make any Transfer, Sublease or Pledge it shall immediately notify Landlord in writing of the details of the proposed Transfer, Sublease or Pledge, and shall also immediately furnish to Landlord sufficient written information and documentation required by Landlord to allow Landlord to assess the business to be conducted in the Leased Premises by the person to whom the Transfer, Sublease or Pledge is proposed to be made, the financial condition of such person and the nature of the transaction in which the Transfer, Sublease or Pledge is to occur. If Landlord determines that the information furnished do not provide sufficient information, Landlord may demand that Tenant provide such additional information as Landlord may require in order to evaluate the proposed Transfer, Sublease or Pledge.

(b) Landlord shall have the absolute right to reject any proposed Transfer, Sublease or Pledge under any of the following circumstances:

(i) If, as a result of the Transfer, Sublease or Pledge, Landlord or the Leased Premises would be subject to compliance with any law, ordinance, regulation or similar governmental requirement to which Landlord or the Leased Premises were not previously subject, or as to which Landlord or the Leased Premises has a variance, exemption or similar right not to comply including, without limitation, that certain act commonly known as the “Americans with Disabilities Act of 1990”, and any related rules or regulations, or similar state or local laws relating to persons with disabilities.
(ii) A Transfer, Sublease or Pledge to any other person which is the landlord or sublandlord under any leases or subleases for office space within a ten (10) mile radius of the Leased Premises.

(iii) A Transfer, Sublease or Pledge to any other person which is at that time has an enforceable lease for any other space in the Centre Building and the Clearwater Building or any prospective tenant with whom the Landlord has, in the prior twelve (12) months negotiated with to lease space in the Centre Building and the Clearwater Building.

(iv) A sublease of less than all of the Leased Premises where the configuration or location of the subleased premises might reasonably be determined by Landlord to have any adverse effect on the ability of Landlord to lease remainder of the Leased Premises if the Landlord were to terminate this Lease but agree to agree to be bound by the Sublease.

(v) The person to whom the Transfer, Sublease or Pledge is to be made will not agree in writing to be bound by the terms and conditions of this Lease; provided that the Lease shall not be enforceable against person to whom the Lease or Leased Premises is to be Pledged until after the foreclosure or other realization upon its lien or security interest.

(c) Except as set forth in Section 9.3(b), Landlord’s consent shall not be unreasonably withheld, provided that: (i) Tenant promptly provides to Landlord all information requested by Landlord pursuant to Section 9.3(a) and Landlord determines that such information is sufficient to allow Landlord to accurately evaluate the financial condition of the person to whom the Transfer, Sublease or Pledge is to be made; and (ii) Tenant and the person to whom the Transfer, Sublease or Pledge is to be made agree in writing to all of the rights of Landlord set forth in Section 9.4.

(d) Notwithstanding the foregoing, Tenant shall have the right to Sublease any portion of the Leased Premises to an affiliate of Tenant without Landlord’s consent, but upon written notice to Landlord that such Sublease has occurred and provision of a copy of the instruments facilitating the Sublease.

(e) Moreover, Tenant shall be permitted to Sublease any portion of the Leased Premises to a third party, and Landlord shall not unreasonably withhold, condition, or delay its consent of same, provided that:

(i) demising the portion of the Leased Premises to be subleased shall be at the sole cost of Tenant consistent with the Tenant’s obligations hereunder for undertaking any Alterations hereunder;
(ii) the nature, character, and reputation of the proposed subtenant and its business, activities, and intended use of the Leased Premises are suitable to and consistent with the standards of the Building and the floor or floors on which the Leased Premises are located, and in compliance with the Lease and all applicable laws, ordinances, regulations and requirements;

(iii) the proposed subtenant is not currently an occupant of any part of the Project;

(iv) the proposed subtenant is not a governmental entity, unless the proposed use by such governmental entity is consistent with the purposes of this Lease and use of the Leased Premises for educational, research, or business incubation purposes in partnership with Tenant;

(v) the proposed subtenant will not increase the operational load of the Leased Premises by increasing the number of occupants on a floor exceeding the design capacity of the systems and facilities serving the Leased Premises;

(vi) the proposed subtenant is not a pre-school, elementary school, secondary school, or trade school, whether public or private;

(vii) the proposed subtenant does not intend to make the subleased portion of the Leased Premises available for meetings or events except those directly related to its operations; and

(viii) the proposed subtenant is not a competitor to any other tenant, Owner or Occupant in the Project and the proposed sublease will not violate any enforceable exclusive use or similar clause in another lease or Condominium Document, without the prior written consent of the such tenant, Owner or occupant.

9.4 Landlord’s Right in Event of Assignment or Sublease.

(a) If Landlord consents in writing to any Transfer or any Sublease, Landlord may collect rent and other charges and amounts due under this Lease from the person to whom the Transfer was made or under the sublease from any person who entered into the Sublease, and Landlord shall apply all such amounts collected to the rent and other charges to be paid by Tenant under this Lease. If Landlord consents in writing to any Pledge of this Lease or any portion of the Leased Premises, and the person to whom the Pledge was made forecloses or otherwise realizes upon any interest in this Lease or in any portion of the Leased Premises, Landlord may collect rent and other charges and amounts due under this Lease from such person, and Landlord shall apply the amount collected to the rent and other charges and amounts to be paid by Tenant under this Lease. Such collection, however, shall not constitute consent or waiver of the necessity of written consent to such Transfer, Sublease or Pledge, nor shall such collection constitute the recognition of such person or any
other person as the “Tenant” under this Lease or constitute or result in a release of Tenant from the further performance of all of the covenants and obligations pursuant to this Lease, including the obligation to pay rent and other charges and other amounts due under this Lease.

(b) In the event that any rent or additional consideration payable after a Transfer exceed the rents and additional consideration payable under this Lease, Landlord and Tenant shall share equally in the amount of any excess payments or consideration. In the event that the rent and additional consideration payable under a Sublease exceed the rents and other consideration payable under this Lease (prorated to the space being subleased pursuant to the Sublease), Landlord and Tenant shall share equally in the amount of any excess payments or consideration.

(c) In the event that Tenant shall request that Landlord consent to a Transfer, Sublease or Pledge, Tenant and/or the person to whom the Transfer, Sublease or Pledge was made shall pay to Landlord reasonable legal fees and costs, not to exceed $5,000.00, incurred in connection with processing of documents necessary to effect the Transfer, Sublease or Pledge. In addition to the foregoing, Landlord’s broker or agent shall be entitled to one-third (1/3) of any real estate commission or fee paid to any broker or agent in connection with the Transfer, Sublease or Pledge by Tenant and/or the person to whom any Transfer, Sublease or Pledge is being made.

X. INDEMNITY AND HAZARDOUS MATERIALS

10.1 Tenant’s Indemnity. Subject to the provisions of Section 11.4 below as well as the limits of liability specified in Idaho Code §§ 6-901 through 6-929, known as the Idaho Tort Claims Act, Tenant shall indemnify and hold Landlord, harmless from and/or against any claims, damages, and liabilities (including reasonable attorney’s fees ordered by a court of competent jurisdiction) that may be suffered or incurred and that arise as a direct result of and which are caused by negligent actions by the Tenant’s possession, operations or performance under this Lease or by the actions of Tenant’s Related Parties. Nothing contained herein shall be deemed a waiver of Tenant’s sovereign immunity, which is hereby expressly retained.

10.2. Landlord’s Indemnity. Subject to the Provisions of Section 11.4 below and to the fullest extent permitted by law, Landlord shall protect, defend, indemnify and hold harmless Tenant and its affiliates against and from any and all claims, demands, actions, losses, damages, orders, judgments, and any and all costs and expenses (including, without limitation, reasonable attorneys’ fees and costs of litigation), resulting from or incurred by Tenant or any affiliate of Tenant on account of Landlord’s failure to perform this Lease, provided, however, that such indemnification is limited however, solely to Tenant’s contractual damages, and excluding all extra contractual remedies and consequential damages.
10.3 **Notice.** Tenant shall give prompt notice to Landlord in case of fire or accidents in the Leased Premises or in the Centre Building and the Clearwater Building of which the Leased Premises are a part or of defects therein or in any fixtures or equipment.

10.4 **Environmental Indemnification.** In addition to other indemnities provided under this Lease but subject to the limitations in Section 10.1, Tenant shall indemnify, defend (with counsel reasonably acceptable to Landlord) and hold harmless Landlord from and against any and all demands, losses, costs, expenses, damages, bodily injury, wrongful death, property damage, claims, cross-claims, charges, action, lawsuits, liabilities, obligations, penalties, investigation costs, removal costs, response costs, remediation costs, natural resources damages, governmental administrative actions, and reasonable attorneys’ and consultants’ fees and expenses arising out of, directly or indirectly, in whole or in part, or relating to (i) the release of Hazardous Materials (as defined in Section 10.5 below) by Tenant or the Tenant Related Parties, (ii) the violation of any Hazardous Materials laws by Tenant or the Tenant Related Parties, or (iii) the use, storage, generation or disposal of Hazardous Materials in, on, about, or from the Property by Tenant or the Tenant Related Parties (the items listed in clauses (i) through and including (iii) being referred to herein individually as a “Tenant Release” and collectively as the “Tenant Releases”).

10.5 **Definition of Hazardous Materials.** The term “Hazardous Materials” shall mean any substance:

(a) which is flammable, explosive, radioactive, toxic, corrosive, infectious, carcinogenic, mutagenic, or otherwise hazardous and which is or becomes regulated by any governmental authority, agency, department, commission, board or instrumentality of the United States, the state in which the Leased Premises are located or any political subdivision thereof;

(b) which contains asbestos, organic compounds known as polychlorinated biphenyls; chemicals known to cause cancer or reproductive toxicity or petroleum, including crude oil or any fraction thereof; or which is or becomes defined as a pollutant, contaminant, hazardous waste, hazardous substance, hazardous material or toxic substance under the Resource Conservation and Recovery Act of 1976, 42 U.S.C. §§ 6901-6992k; the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. §§ 9601-9657; the Hazardous Materials Transportation Authorization Act of 1994, 49 U.S.C. §§ 5101-5127; the Clean Water Act, 33 U.S.C. §§ 1251-1387; the Clean Air Act, 42 U.S.C. §§ 7401-7671q; the Toxic Substances Control Act, 15 U.S.C. §§ 2601-2692; the Safe Drinking Water Act, 42 U.S.C. §§ 300f to 300j-26; the Emergency Planning and Community Right-To-Know Act of 1986, 42 U.S.C. §§ 11001-11050; and title 19, chapter 6 of the Utah Code, as any of the same have been or from time to time may be amended; and any similar federal, state and local laws, statutes, ordinances, codes, rules, regulations, orders or decrees relating to environmental
conditions, industrial hygiene or Hazardous Materials on the Property, including all interpretations, policies, guidelines and/or directives of the various governmental authorities responsible for administering any of the foregoing, now in effect or hereafter adopted, published and/or promulgated;

    (c) the presence of which on the Property requires investigation or remediation under any federal, state, or local statute, regulation, ordinance, order, action, policy, or common law; or

    (d) the presence of which on the Property causes or threatens to cause a nuisance on the Property or to adjacent properties or poses or threatens to pose a hazard to the health and safety of persons on or about the Property.

10.6 Use of Hazardous Materials. Tenant shall not, and shall not permit any Tenant Related Parties to use, store, generate, release, or dispose of Hazardous Materials in, on, about, or from the Property. Landlord shall not, and shall not permit any Landlord Related Parties to use, store, generate, release, or dispose of Hazardous Materials in, on, about, or from the Property.

10.7 Release of Hazardous Materials. If Tenant discovers that any spill, leak, or release of any quantity of any Hazardous Materials has occurred on, in or under the Property, Tenant shall promptly notify all appropriate governmental agencies and Landlord. In the event such release is a Tenant Release, Tenant shall (or shall cause others to) promptly and fully investigate, cleanup, remediate and remove all such Hazardous Materials as may remain and so much of any portion of the environment as shall have become contaminated, all in accordance with applicable government requirements, and shall replace any removed portion of the environment (such as soil) with uncontaminated material of the same character as existed prior to contamination. In the event such release is a Landlord Release, Landlord shall (or shall cause others to) promptly and fully investigate, cleanup, remediate and remove all such Hazardous Materials as may remain and so much of any portion of the environment as shall have become contaminated, all in accordance with applicable government requirements, and shall replace any removed portion of the environment (such as soil) with uncontaminated material of the same character as existed prior to contamination. Within twenty (20) days after any such spill, leak, or release, the party responsible for the remediation of such release shall give the other party a detailed written description of the event and of such responsible parties investigation and remediation efforts to date. Within twenty (20) days after receipt, such responsible party shall provide the other party with a copy of any report or analytical results relating to any such spill, leak, or release. In the event of a release of Hazardous Material in, on, or under the Property by the Tenant Related Parties, Tenant shall not be entitled to an abatement of Rent during any period of abatement.

10.8 Release of Landlord. Landlord shall not be responsible or liable at any time for any loss or damage to Tenant’s personal property or to Tenant’s business,
including any loss or damage to either the person or property of Tenant or Tenant Related Parties that may be occasioned by or through the acts or omissions of persons occupying adjacent, connecting, or adjoining space. Tenant shall store its property in and shall use and enjoy the Leased Premises and all other portions of the Centre Building and the Clearwater Building and Improvements at its own risk, and hereby releases Landlord, to the fullest extent permitted by law, from all claims of every kind resulting in loss of life, personal or bodily injury, or property damage, except to the extent that same are caused by or result from Landlord’s or its affiliates, agents or employees’ gross negligence or intentional acts.

XI. INSURANCE

11.1 Insurance on Tenant’s Personal Property and Fixtures. At all times during the term of this Lease, Tenant shall keep in force at its sole cost and expense with insurance companies acceptable to Landlord, hazard insurance on an [“all-risk type”] or equivalent policy form, and shall include fire, theft, extended coverages, vandalism, and malicious mischief. Coverage shall be equal to 100% of the Replacement Cost value of Tenant’s contents, fixtures, furnishings, equipment, and all improvements or additions made by Tenant to the Leased Premises. The policy shall provide that such policy not be cancelled or materially changed without first giving Landlord thirty (30) days written notice.

11.2 Property Coverage. Landlord shall obtain and maintain in force an “all-risk type” or equivalent policy form, and shall include fire, theft, extended coverages, vandalism, and malicious mischief on the Centre Building and the Clearwater Building during the term of the Lease and any extension thereof. Landlord may obtain, at Landlord’s discretion, coverage for flood and earthquake if commercially available at reasonable rates. Such insurance shall also include coverage against loss of rental income.

11.3 Liability Insurance. Tenant is a “governmental entity,” as defined under the Idaho Tort Claims Act, specifically, Idaho Code section 6-902, as well as a “public employer,” as defined under the Idaho Worker’s Compensation law, specifically, Idaho Code section 72-205. As such, Tenant shall maintain, at all times applicable hereto, comprehensive liability coverage in such amounts as are proscribed by Idaho Code section 6-924 (not less than $500,000), as well as worker’s compensation coverage for its employees, as required under Idaho Code Section 72-301. Tenant's liability coverage shall cover the actions of Tenant and its employees, agents, students, and faculty while acting in the course and scope of employment or as students of Tenant in performing actions related to their Academic Practicums. Tenant's liability coverage obligations shall be administered by the Administrator of the Division of Insurance Management in the Department of Administration for the State of Idaho, and may be covered, in whole or in part, by the State of Idaho’s Retained Risk Account, as provided under Idaho Code Section 6-919. Tenant shall cover its liability for worker’s compensation through the State of Idaho’s State Insurance Fund, as provided under Idaho Code section 72-301. Upon request, Tenant shall provide proof of such coverage.
11.4 Waiver of Subrogation. Landlord and Tenant hereby waive all rights to recover against each other, against any other tenant or occupant of the Centre Building and the Clearwater Building, and against each other’s officers, directors, shareholders, partners, joint venturers, employees, agents, customers, invitees or business visitors or of any other tenant or occupant of the Centre Building and the Clearwater Building, for any loss or damage arising from any cause covered by any insurance carried by the waiving party, to the extent that such loss or damage is actually covered.

11.5 Lender. Any mortgage lender interest in any part of the Centre Building and the Clearwater Building or Improvements may, at Landlord’s option, be afforded coverage under any policy required to be secured by Tenant hereunder, by use of a mortgagee’s endorsement to the policy concerned.

XII. DESTRUCTION

If the Leased Premises shall be damaged (in whole or in part) by any fire or casualty which is insured against under any insurance policy maintained by Landlord, Landlord shall, to the extent of and upon receipt of, the insurance proceeds, repair the portion of the Landlord’s Construction Obligations damaged by such casualty. Until such repair is complete, the Basic Annual Rent and Additional Rent shall be abated proportionately as to that portion of the Leased Premises rendered untenable, provided, however, that there shall be no such abatement of Basic Annual Rent or Additional Rent if the damage is caused by negligence of the Tenant or Tenant Related Parties. Notwithstanding the foregoing, Landlord may either elect to repair the damage or may cancel this Lease by notice of cancellation within ninety (90) days after such event and thereupon this Lease shall expire, and Tenant shall vacate and surrender the Leased Premises to Landlord if any of the following occur: (a) the Leased Premises by reason of such occurrence are rendered wholly untenable, (b) the Leased Premises should be damaged as a result of a risk which is not covered by insurance, (c) the Leased Premises should be damaged in whole or in part during the last six (6) months of the term or of any renewal hereof, (d) the Leased Premises or the Centre Building and the Clearwater Building (whether the Leased Premises are damaged or not) should be damaged to the extent of fifty percent (50%) or more of the then-monetary value thereof, or (e) the proceeds of such insurance are not sufficient to repair the Leased Premises to the extent required above (including any deficiency as a result of a mortgage lender’s election to apply such proceeds to the payment of the mortgage loan). Tenant’s liability for rent upon the termination of this Lease shall cease as of the day following Landlord’s giving notice of cancellation. In the event Landlord elects to repair any damage, any abatement of rent shall end five (5) days after notice by Landlord to Tenant that the Leased Premises have been repaired as required herein. Unless this Lease is terminated by Landlord, Tenant shall repair and refixture the interior of the Leased Premises in a manner and in at least a condition equal to that existing prior to the destruction or casualty and the proceeds of all insurance carried by Tenant on its property and fixtures shall be held in trust by Tenant for the purpose of said repair and replacement.

XIII. CONDEMNATION
13.1 **Total Condemnation.** If title to or use of the whole of the Leased Premises shall be acquired or taken by Condemnation Proceeding, then this Lease shall cease and terminate as of the date of title or use vesting in such Condemnation Proceeding.

13.2 **Partial Condemnation.** If any part of the title to or temporary use of the Leased Premises shall be taken as aforesaid (a “Partial Taking”), and such Partial Taking shall render the remaining portion unsuitable for the Tenant’s business, then this Lease shall cease and terminate as aforesaid. If the Leased Premises remain suitable for the Tenant’s business following such Partial Taking, then this Lease shall continue in effect except that the Basic Annual Rent and Additional Rent shall be reduced in the same proportion that the portion of the Leased Premises (including basement, if any) taken bears to the total area initially demised or relative to the time period during which Tenant’s use is denied. Landlord shall, upon receipt of an Amount received by Landlord, make all necessary repairs or alterations to the Centre Building and the Clearwater Building in which the Leased Premises are located, provided that Landlord shall not be required to expend for such work an amount in excess of the amount received by Landlord as damages for the part of the Leased Premises so taken. “Amount received by Landlord” shall mean that part of an award received from the Condemnation Proceeding or otherwise resulting from the Partial Taking, less any costs or expenses incurred by Landlord in the collection of the award, which is free and clear to Landlord of any collection by mortgage lenders for the value of the diminished fee.

13.3 **Landlord’s Option to Terminate.** If more than twenty percent (20%) of the Centre Building and the Clearwater Building shall be taken as aforesaid, Landlord may, by thirty days’ prior written notice to Tenant, terminate this Lease, provided, however, that Tenant shall be entitled to exercise its option to purchase prior to termination. If this Lease is terminated as provided in this Section, rent shall be paid up to the day that possession is so taken by public authority and Landlord shall make an equitable refund of any rent paid by Tenant in advance.

13.4 **Award.** Tenant shall not be entitled to and expressly waives all claim to any condemnation award for any taking, whether whole or partial and whether for diminution in value of the leasehold or to the fee. Tenant shall have the right to claim from the condemning party, but not from Landlord, such compensation as may be recoverable by Tenant in its own right for damages to Tenant’s business and fixtures to the extent that the same shall not reduce Landlord’s award.

13.5 **Definition of Condemnation Proceeding.** As used in this Lease the term “Condemnation Proceeding” means any action or proceeding in which any interest in the Leased Premises is taken for any public or quasi-public purpose by any lawful authority through exercise of eminent domain or right of condemnation or by purchase or otherwise in lieu thereof.
13.6 Tenant’s Condemnation Power. Landlord acknowledges that Tenant is an agency of the State of Idaho with condemnation (eminent domain) authority. Notwithstanding the foregoing, Tenant acknowledges that if it exercises the power of eminent domain (i) the constitutionally mandated just compensation to Landlord shall not be less than the purchase price agreed to herein; (ii) Landlord shall not be deprived of or limited in asserting or demanding any right, claim, or remedy available to it under the United States Constitution, the Idaho Constitution, or Idaho Code; or (iii) Tenant shall not be relieved from the full performance of its obligations under this Lease accruing prior to the date of possession.

XIV. LANDLORD’S RIGHTS TO CURE

14.1 General Right. In the event of Landlord’s breach, default, or noncompliance hereunder, Tenant shall, before exercising any right or remedy available to it, give Landlord written notice of the claimed breach, default, or noncompliance. If prior to its giving such notice Tenant has been notified in writing (by way of Notice of Assignment of Rents and Leases, or otherwise) of the address of a lender which has furnished any of the financing referred to in Part XV hereof, concurrently with giving the aforesaid notice to Landlord, Tenant shall, by certified mail, return receipt requested, transmit a copy thereof to such lender. For the thirty (30) days following the giving of the notice(s) required by the foregoing portion of this Section (or such longer period of time as may be reasonably required to cure a matter which, due to its nature, cannot reasonably be rectified within thirty (30) days), Landlord shall have the right to cure the breach, default, or noncompliance involved. If Landlord has failed to cure a default within said period, any such lender shall have an additional thirty (30) days within which to cure the same or, if such default cannot be cured within that period, such additional time as may be necessary if within such thirty (30) day period said lender has commenced and is diligently pursuing the actions or remedies necessary to cure the breach default, or noncompliance involved (including, but not limited to, commencement and prosecution of proceedings to foreclose or otherwise exercise its rights under its mortgage or other security instrument, if necessary to effect such cure), in which event this Lease shall not be terminated by Tenant so long as such actions or remedies are being diligently pursued by said lender.

14.2 Mechanic’s Liens. Should any mechanic’s or other lien be filed against the Leased Premises or any part thereof by reason of Tenant’s acts or omissions or because of a claim against Tenant, Tenant shall cause the same to be canceled and discharged of record by bond or otherwise within ten (10) days after notice by Landlord. If Tenant fails to comply with its obligations in the immediately preceding sentence within such ten (10) day period, Landlord may perform such obligations at Tenant’s expenses, in which case all of Landlord’s costs and expenses in discharging shall be immediately due and payable by Tenant and shall bear interest at the rate set forth in Section 16.3 hereof. Tenant shall cause any person or entity directly or indirectly supplying work or materials to Tenant to acknowledge and agree, and Landlord hereby notifies any such contractor, that: (a) no agency relationship, whether express or implied, exists between Landlord and any contractor
retained by the Tenant; (b) all construction contracted for by Tenant is being done for the exclusive benefit of the Tenant; and (c) Landlord neither has required nor obligated Tenant to make the improvements done by the contractor.

XV. FINANCING; SUBORDINATION

15.1 Subordination. This Lease is and shall continue to be subordinate to any mortgage, deed of trust, or other security interest now existing or hereafter placed on the Landlord’s interest in the Property by a mortgage lender (as amended, restated, supplemented, or otherwise modified from time to time, including any refinancing thereof, a “Mortgage”); provided, however, such subordination is subject to the condition that so long as Tenant continues to perform all of its obligations under this Lease its tenancy shall remain in full force and effect notwithstanding Landlord’s default in connection with the Mortgage concerned or any resulting foreclosure or sale or transfer in lieu of such proceedings. If requested by a holder of the Mortgage, Tenant agrees at any time and from time to time to execute and deliver an instrument confirming the foregoing subordination. If elected by the holder of a Mortgage, this Lease shall be superior to such Mortgage, in which case Tenant shall execute and deliver an instrument confirming the same. Tenant shall not subordinate its interests hereunder or in the Leased Premises to any lien or encumbrance other than the Mortgages described in and specified pursuant to this Section 15.1 without the prior written consent of Landlord and of the lender interested under each Mortgage then affecting the Leased Premises. Any such unauthorized subordination by Tenant shall be void and of no force or effect whatsoever. Tenant may exercise its right to purchase the Leased Premises for One Dollar ($1) at the conclusion of twenty annual lease payments from Tenant. Landlord has the duty and responsibility to provide for the Tenant’s acquisition of the Leased Premises at the end of the 20th year for $1 and transfer title of the facility to Tenant free and clear of any debt or other encumbrances other than the duty for the Tenant to operate under the documents creating the condominium units within which the Leased Premises are constructed as well as those recorded instruments necessary for the development and operation of the Leased Premises. Furthermore, Landlord shall structure its financing of the Leased Premises so that excluding any applicable loan prepayment penalty, Landlord can convey the Leased Premises to Tenant at any purchase option period subject to only those elements set forth above.

15.2 Amendment. Tenant recognizes that Landlord’s ability from time to time to obtain construction, acquisition, standing, and/or permanent mortgage loan financing for the Centre Building and the Clearwater Building and/or the Leased Premises may in part be dependent upon the acceptability of the terms of this Lease to the lender concerned. Accordingly, Tenant agrees that from time to time it shall, if so requested by Landlord and if doing so will not substantially and adversely affect Tenant’s economic interests hereunder, join with Landlord in amending this Lease so as to meet the needs or requirements of any lender which is considering making or which has made a loan secured by a Mortgage affecting the Leased Premises.
15.3 **Attornment.** Any sale, assignment, or transfer of Landlord’s interest under this Lease or in the Leased Premises including any such disposition resulting from Landlord’s default under a Mortgage, shall be subject to this Lease. Tenant shall attorn to Landlord’s successor and assigns and shall recognize such successor or assigns as Landlord under this Lease, regardless of any rule of law to the contrary or absence of privity of contract.

**XVI. EVENTS OF DEFAULT; REMEDIES OF LANDLORD**

16.1 **Default by Tenant.** Upon the occurrence of any of the following events, Landlord shall have the remedies set forth in Section 16.2:

(a) Tenant fails to pay any installment of Basic Annual Rent or Additional Rent or any other sum due hereunder within ten (10) days after such Rent is due. Landlord acknowledges that Tenant’s processes may necessitate up to forty-five (45) days to process invoices, however, payment of Basic Annual Rent shall not require any prior invoice for Tenant’s payment obligation to commence except as may otherwise be set forth in Section 2.2 above.

(b) Tenant fails to perform any other term, condition, or covenant to be performed by it pursuant to this Lease within twenty (20) days after written notice that such performance is due shall have been given to Tenant by Landlord or; provided, if cure of any nonmonetary default would reasonably require more than twenty (20) days to complete, if Tenant fails to commence performance within the twenty (20) days period or, after timely commencing, fails diligently to pursue such cure to completion but in no event to exceed sixty (60) days.

(c) Tenant or any guarantor of this Lease shall become bankrupt or insolvent or file any debtor proceedings or have taken against such party in any court pursuant to state or federal statute, a petition in bankruptcy or insolvency, reorganization, or appointment of a receiver or trustee; or Tenant petitions for or enters into a voluntary arrangement under applicable bankruptcy law; or suffers this Lease to be taken under a writ of execution.

16.2 **Remedies.** Notwithstanding any other applicable provision herein, in the event of any default by Boise State University, as Tenant hereunder, Landlord may, after having notified the Idaho State Board of Education of such default and having provided the Idaho State Board of Education fourteen (14) days to cure the default, at any time, without waiving or limiting any other right or remedy available to it, terminate Tenant’s rights under this Lease by written notice, reenter and take possession of the Leased Premises by any lawful means (with or without terminating this Lease), or pursue any other remedy allowed by law. Tenant agrees to pay to Landlord the cost of recovering possession of the Leased Premises, all costs of reletting, and all other costs and damages arising out of Tenant’s default, including attorneys’ fees. Notwithstanding any reentry, the liability of Tenant for the rent reserved herein shall not be extinguished for the balance of the Term.
and Tenant agrees to compensate Landlord upon demand for any deficiency arising from reletting the Leased Premises at a lesser rent than applies under this Lease.

16.3 Past Due Sums. If Tenant fails to pay, when the same is due and payable, any Basic Annual Rent, Additional Rent, or other sum required to be paid by it hereunder, such unpaid amounts shall bear interest from the due date thereof to the date of payment at a fluctuating rate equal to two percent (2%) per annum above the Prime Rate. For purposes of this Lease, “Prime Rate” means the prime rate or base rate reported in the Money Rates column or section of The Wall Street Journal as being the prime rate or base rate on corporate loans at large U.S. money center commercial banks (whether or not such rate has actually been charged by any such bank). If The Wall Street Journal ceases publication of the prime rate or the base rate, “Prime Rate” shall mean the rate of interest from time to time announced by the national bank in the United States doing business in Idaho having the largest asset value as its prime rate or base rate. In addition thereto, Tenant shall pay a sum of five percent (5%) of such unpaid amounts of Basic Annual Rent, Additional Rent, or other sum to be paid by it hereunder as a service fee. Notwithstanding the foregoing, however, Landlord’s right concerning such interest and service fee shall be limited by the maximum amount which may properly be charged by Landlord for such purposes under applicable law.

XVII. PROVISIONS APPLICABLE AT TERMINATION OF LEASE

17.1 Surrender of Leased Premises. At the expiration of this Lease, except for changes made by Tenant that were approved by Landlord, Tenant shall surrender the Leased Premises in the same condition, less reasonable wear and tear, as they were in upon delivery of possession thereto under this Lease and shall deliver all keys to Landlord. Before surrendering the Leased Premises, Tenant shall remove all of its personal property and trade fixtures and such property or the removal thereof shall in no way damage the Leased Premises, and Tenant shall be responsible for all costs, expenses and damages incurred in the removal thereof. If Tenant fails to remove its personal property and fixtures upon the expiration of this Lease, the same shall be deemed abandoned and shall become the property of Landlord.

17.2 Holding Over. Landlord reserves any and all rights to initiate an unlawful detainer action in the event that Tenant has failed to exercise its right to renew or purchase and holds over after the expiration of the Term hereof or any Expansion Period after the failure to renew such.

XVIII. ATTORNEYS’ FEES

In the event that at any time during the term of this Lease either Landlord or Tenant institutes any action or proceeding against the other relating to the provisions of this Lease or any default hereunder, then the unsuccessful party in such action or proceeding agrees to reimburse the
successful party for the reasonable expenses of such action including reasonable attorneys’ fees, incurred therein by the successful party.

XIX. ESTOPPEL CERTIFICATE

19.1 Estoppel Certificate. As required under Exhibit “C” and from time to time thereafter, Tenant shall, within fifteen (15) days after Landlord’s request, execute and deliver to Landlord a written declaration, in form and substance similar to Exhibit “D”, plus such additional other information as Landlord may reasonably request. Landlord’s mortgage lenders and/or purchasers shall be entitled to rely upon such declaration.

19.2 Effect of Failure to Provide Estoppel Certificate. Tenant’s failure to furnish any estoppel certificate as required pursuant to Section 19.1 within fifteen (15) days after request therefor shall be deemed a default hereunder and moreover, it shall be conclusively presumed that: (a) this Lease is in full force and effect without modification in accordance with the terms set forth in the request; (b) that there are no unusual breaches or defaults on the part of Landlord; and (c) no more than one (1) month’s rent has been paid in advance.

XX. COMMON AREAS

20.1 Definition of Common Areas. “Common Areas” means all areas, space, equipment, and special services provided for the joint or common use and benefit of the tenants or occupants of the Centre Building and the Clearwater Building, the Improvements, and Property or portions thereof, and their employees, agents, servants, patients, customers, and other invitees (collectively referred to herein as “Occupants”) including, without limitation, retaining walls, landscaped areas, serviceways, pedestrian walks; courts, stairs, ramps, and sidewalks; common corridors, rooms and restrooms; air-conditioning, fan, janitorial, electrical, and telephone rooms or closets; and all other areas within the Centre Building and the Clearwater Building which are not specified for exclusive use or occupancy by Landlord or any tenant (whether or not they are leased or occupied). The designation of common area in the Condominium Documents shall not be dispositive of the definition of Common Areas under this Lease. However, to the extent that certain portions of any Condominium common area is not provided as Common Areas, hereunder, the Landlord shall exercise reasonable efforts to inform Tenant of such. Tenant acknowledges that its use and enjoyment of the Leased Premises shall be subject to the Condominium Documents.

20.2 License to Use Common Areas. The Common Areas shall be available for the common use of all Occupants and shall be used and occupied under a license. All Common Areas shall be subject to the exclusive control and management of Landlord. Landlord shall have the right (a) to construct, maintain, and operate lighting and other facilities on all said areas and improvements; (b) to police the same; (c) to change the area, level, location, and arrangement of parking areas and other facilities; (d) to restrict parking by tenants, their officers, agents, and employees; (e) to close all or any portion of said areas
or facilities to such extent as may be legally sufficient to prevent a dedication thereof or the 
accrual of any right to any person or the public therein; and (f) to close temporarily all or 
any portion of the parking areas or facilities to discourage non-occupant parking. Landlord 
shall operate and maintain the Common Areas in such manner as Landlord in its discretion 
shall determine, shall have full right and authority to employ and discharge all personnel 
with respect thereto, and shall have the right, through reasonable rules, regulations, and/or 
restrictive covenants promulgated by it from time to time, to control the use and operation of 
the Common Areas in order that the same may occur in a proper and orderly fashion. Landlord 
covenants that it will not unreasonably limit Tenant’s access to the Leased 
Premises in exercising its rights herein over the Common Area.

20.3 **Parking.** There is no provision for the parking of automobiles of Tenant and 
all Occupants (as defined above) associated with Tenant on the Property, except as such 
may pay for use of the parking garage owned by Landlord’s affiliate from time to time and 
on such terms and at such rates as may be established from time to time. Landlord or its 
agents shall, without any liability to Tenant or its Occupants, have the right to cause to be 
removed any automobile that may be wrongfully parked in a prohibited or reserved parking 
area, and Tenant agrees to indemnify, defend, and hold Landlord harmless from and against 
any and all claims, losses, demands, damages and liabilities asserted or arising with respect 
to or in connection with any such removal of an automobile. Tenant shall from time to time, 
upon request of Landlord, supply Landlord with a list of license plate numbers of all 
automobiles owned by Tenant or its day-to-day Occupants. Tenant will not be charged by 
Landlord for any costs associated with parking areas that are not available for use by the 
Tenant on the same terms and conditions as other members of the public. Landlord agrees 
to cooperate with and assist Tenant to secure adequate parking facilities for its occupants. If 
Landlord or Landlord’s affiliate develops and privately owns additional public parking 
facilities in the vicinity of the Project, then Landlord shall offer, or shall require its affiliate 
to offer, Tenant a first option to lease up to thirty (30) parking spaces for Tenant’s 
employees occupying the Leased Premises on such terms and at such rates as may be 
established from time to time. The foregoing shall not apply to the existing parking 
facilities at 8th & Main, US Bank Plaza, or those being constructed within the Centre 
Building.

XXI. **SIGNAGE AND BUILDING NAMING**

21.1 **Signage.** Landlord, as part of the Tenant’s Construction Obligations defined in 
Exhibit “C”, shall provide Tenant with exterior signage on the Clearwater Building consistent 
with Landlord’s master sign program for the Centre Building and the Clearwater Building and 
subject to governmental approval. Tenant shall be responsible for the cost of maintenance and 
operation of such signage including lighting. Other than the foregoing permitted signage, Tenant 
shall not place or suffer to be placed or maintained on any exterior door, wall, or window of the 
Leased Premises, or elsewhere in the Centre Building and the Clearwater Building, any sign, 
awning, marquee, decoration, lettering, attachment, or canopy, or advertising matter or other thing 
of any kind and will not place or maintain any decoration, lettering, or advertising matter on the
glass of any window or door of the Leased Premises without first obtaining Landlord’s written approval. Tenant further agrees to maintain such sign, awning, canopy, decoration, lettering, advertising matter, or other things, as may be approved, in good condition and repair at all times. Landlord may, at Tenant’s cost, and without liability to Tenant, enter the Leased Premises and remove any item erected in violation of this Section. Landlord may establish rules and regulations governing the size, type, and design of all signs, decorations, etc., and Tenant agrees to abide thereby.

21.2 Building Naming. In the event Tenant shall become the project anchor, meaning Tenant occupies more space than any other tenant or occupant of the Clearwater Building then Tenant shall be afforded the right to select the building designation and modify building exterior signage to reflect such designation at Tenant’s expense, provided, however, that such rights shall not obligate Landlord or Landlord’s affiliates to modify any plat, declaration, lease, contract or other instrument to modify references to the Clearwater Building. The rights granted to Tenant in this Section, shall at all times be subject to the right of Clearwater Analytics, LLC, the tenant occupying the top five (5) floors of the Clearwater Building, under the terms of its lease with Landlord’s affiliate.

XXII. MISCELLANEOUS PROVISIONS

22.1 No Partnership. Nothing contained herein shall be deemed or construed by the parties hereto, or by any third party, as creating the relationship of principal and agent, or of partnership, or of joint venture between the parties hereto, it being understood and agreed that neither the method of computation of rent nor any other provision contained herein, nor any acts of the parties hereto, shall be deemed to create any relationship between the parties hereto other than the relationship of landlord and tenant.

22.2 Force Majeure. Landlord shall be excused for the period of any delay in the performance of any obligation hereunder when prevented from so doing by cause or causes beyond Landlord’s control, including, without limitation, labor disputes, civil commotion, war, governmental regulations or controls, fire or other casualty, inability to obtain any material or service, or acts of God, or the acts or omissions of Tenant or the Tenant Related Parties.

22.3 No Waiver. Failure of Landlord to insist upon the strict performance of any provision or to exercise any option hereunder shall not be deemed a waiver of such breach. No provision of this Lease shall be deemed to have been waived unless such waiver be in writing signed by Landlord.

22.4 Notice. Any notice, demand, request, or other instrument which may be or is required to be given under this Lease shall be delivered in person or sent by United States certified or registered mail, postage prepaid and shall be addressed to the address set forth in the Lease Summary. Either party may designate such other address as shall be given by written notice.
22.5 Captions; Attachments; Defined Terms:

(a) The captions to the Section of this Lease are for convenience of reference only and shall not be deemed relevant in resolving questions of construction or interpretation under this Lease.

(b) Exhibits referred to in this Lease, and any addendums and schedules attached to this Lease shall be deemed to be incorporated in this Lease as though part thereof.

22.6 Recording. Tenant and Landlord agree to record a memorandum of this Lease with the Recorder of the County in which the Centre Building and the Clearwater Building are located.

22.7 Partial Invalidity. If any provision of this Lease or the application thereof to any person or circumstance shall to any extent be invalid, the remainder of this Lease or the application of such provision to persons or circumstances other than those as to which it is held invalid shall not be affected thereby and each provision of this Lease shall be valid and enforced to the fullest extent permitted by law.

22.8 Broker’s Commissions. Tenant represents and warrants that there are no claims for brokerage commissions or finder’s fees in connection with this Lease and agrees to indemnify Landlord against and hold it harmless from all liabilities arising from such claims, including any attorneys’ fees connected therewith.

22.9 Tenant Defined; Use of Pronouns. The word “Tenant” shall be deemed and taken to mean each and every person or party executing this document as a Tenant herein. If there is more than one person or organization set forth on the signature line as Tenant, their liability hereunder shall be joint and several. If there is more than one Tenant, any notice required or permitted by the terms of this Lease may be given by or to any one thereof, and shall have the same force and effect as if given by or to all thereof. The use of the neuter singular pronoun to refer to Landlord or Tenant shall be deemed a proper reference even though Landlord or Tenant may be an individual, a partnership, a corporation, or a group of two or more individuals or corporations. The necessary grammatical changes required to make the provisions of this Lease apply in the plural sense where there is more than one Landlord or Tenant and to corporations, associations, partnerships, or individuals, males or females, shall in all instances be assumed as though in each case fully expressed.

22.10 Provisions Binding, Etc. Except as otherwise expressly set forth herein including, specifically and without limitation, Section 9, all provisions herein shall be binding upon and shall inure to the benefit of the parties, their legal representative, heirs, successors, and assigns. Each provision to be performed by Tenant shall be construed to be
both a covenant and a condition, and if there shall be more than one Tenant, they shall all be bound, jointly and severally, by such provisions. In the event of any sale or assignment (except for purposes of security or collateral) by Landlord of the Centre Building and the Clearwater Building, the Leased Premises, or this Lease, Landlord shall, from and after the Commencement Date (irrespective of when such sale or assignment occurs), be entirely relieved of all of its obligations hereunder, provided that this Lease and all provisions hereunder shall continue in full force and effect and bind Landlord’s successor or assignee. Nothing set forth herein shall require Landlord to obtain Tenant’s consent to any assignment, transfer or other encumbrance of any of Landlord’s interest in the Property, the Leased Premises, the Improvements or the Common Areas.

22.11 Entire Agreement, Etc. This Lease and the Exhibits, Riders, and/or Addenda, if any, attached hereto, constitute the entire agreement between the parties. Any guaranty attached hereto is an integral part of this Lease and constitutes consideration given to Landlord to enter into this Lease. Any prior conversations or writings are merged herein and extinguished. No subsequent amendment to this Lease shall be binding upon Landlord or Tenant unless reduced to writing and signed. Submission of this Lease for examination does not constitute an option for the Leased Premises and becomes effective as a lease only upon execution and delivery thereof by Landlord to Tenant. If any provision contained in the rider or addenda is inconsistent with a provision in the body of this Lease, the provision contained in said rider or addenda shall control. It is hereby agreed that this Lease contains no restrictive covenants or exclusives in favor of Tenant. The captions and Section numbers appearing herein are inserted only as a matter of convenience and are not intended to define, limit, construe, or describe the scope or intent of any Section or paragraph.

22.12 Governing Law. The interpretation of this Lease shall be governed by the laws of the State of Idaho. Tenant hereby expressly and irrevocably agrees that Landlord may bring any action or claim to enforce the provisions of this Lease in the State of Idaho, County of Ada, and Tenant irrevocably consents to personal jurisdiction in the State of Idaho for the purposes of any such action or claim. Tenant further irrevocably consents to service of process in accordance with the provisions of the laws of the State of Idaho. Landlord and Tenant mutually acknowledge and agree the venue for any legal disputes is the Fourth Judicial District in the State of Idaho.

22.13 Recourse by Tenant. Anything in this Lease to the contrary notwithstanding, Tenant agrees that it shall look solely to the estate and property of Landlord in the land, Centre Building and the Clearwater Buildings and Improvements thereto, and subject to prior rights of any mortgagee, for the collection of any judgment (or other judicial process) requiring the payment of money by Landlord in the event of any default or breach by Landlord with respect to any of the terms, covenants, and conditions of this Lease to be observed and/or performed by Landlord, and no other assets of Landlord or any of its partners, shareholders, successors, or assigns shall be subject to levy, execution, or other procedures for the satisfaction of Tenant’s remedies.
22.14 **Rules and Regulations.** Tenant and the Tenants Related Parties shall faithfully observe and comply with all of the rules and regulations set forth on the attached Exhibit F, and Landlord may from time to time reasonably amend, modify or make additions to or deletions from such rules and regulations. Such amendments, modifications, additions and deletions shall be effective on notice to Tenant. On any breach of any of such rules and regulations, Landlord may exercise any or all of the remedies provided in this Lease on a default by Tenant under this Lease and may, in addition, exercise any remedies available at law or in equity including the right to enjoin any breach of such rules and regulations. Landlord shall not be responsible to Tenant for the failure of any other tenant or person to observe any such rules and regulations.

22.15 **Tenant’s Representations and Warranties.** Tenant represent and warrants to Landlord as follows:

(a) Tenant is duly organized and validly existing under the laws of the state of Idaho and except as set forth herein, has full power and authority to enter into this Lease, without the consent, joinder or approval of any other person or entity, including, without limitation, any mortgagee(s). This Lease has been validly executed and delivered by Tenant and constitutes the legal, valid and binding obligations of Tenant, enforceable against Tenant in accordance with its terms.

(b) Tenant is not a party to any agreement or litigation which could adversely affect the ability of Tenant to perform its obligations under this Lease or which would constitute a default on the part of Tenant under this Lease, or otherwise materially adversely affect Landlord’s rights or entitlements under this Lease.

22.16 **No Construction Against Preparer.** This Lease has been prepared by Landlord and its professional advisors and reviewed by Tenant and its professional advisors. Landlord, Tenant and their separate advisors believe that this Lease is the product of their joint efforts, that it expresses their agreement, and that it should not be interpreted in favor of either Landlord or Tenant or against either Landlord or Tenant merely because of their efforts in its preparation.

22.17 **Number and Gender.** The terms “Landlord” and “Tenant,” wherever used herein, shall be applicable to one or more persons or entities, as the case may be, and the singular shall include the plural and the neuter shall include the masculine and feminine and, if there be more than one person or entity with respect to either party, the obligations hereof of such party shall be joint and several.

22.18 **Counterparts.** This Lease may be executed and delivered in counterparts for the convenience of the parties, each of which shall be deemed an original and all of which, when taken together, shall constitute one and the same agreement.

22.18 **Intentionally Omitted.**
22.19 Merger. If both Landlord’s and Tenant’s estates in the Leased Premises have both become vested in the same owner, this Lease shall nevertheless not be terminated by application of a doctrine of merger unless agreed in writing by Landlord, Tenant and any holder of a Mortgage.

22.20 Option to Purchase after Certificate of Occupancy. Within ninety (90) days of receiving a certificate of occupancy for the Leased Premises and so long as Tenant has not delivered a Termination Notice, Tenant shall have a right to purchase the Leased Premises to elect, by delivering written notice to Landlord with such ninety (90) day period (“Tenant’s Purchase Notice”) that it desires to purchase the Leased Premises. Within thirty (30) days of Tenant’s delivery of a Tenant’s Purchase Notice, Landlord and Tenant shall enter into a purchase agreement on terms and conditions acceptable to both Tenant and Landlord, but otherwise consistent with the requirements of this Section 22.20. Tenant’s purchase of the Leased Premises shall be subject to all matters of record and any matters which may be disclosed by an accurate survey of the Leased Premises. Tenant shall be required to pay all costs and expenses incurred in connection with the purchase of the Leased Premises, including, without limitation, all title, survey, escrow and recording costs. The Leased Premises will be conveyed from Landlord to Tenant pursuant to a special warranty deed. The purchase price for the Leased Premises shall be $9,100,000.00. Tenant may only exercise the purchase option herein if Tenant is materially performing under this Lease or is in the process of curing any default of its obligations under this Lease. Exercise of the purchase option shall not excuse Tenant from the payment of any Base Annual Rent or Additional Rent due and owing prior to the date of the conveyance of the Leased Premises to Tenant. Landlord shall only be required to make such warranties as set forth in the Special Warranty Deed attached hereto as Exhibit “H” pursuant to which Landlord will convey the Leased Premises to Tenant.

22.21 Annual Option Periods. Upon delivery of a Termination Notice, Tenant may also deliver a Tenant’s Purchase Notice. Within thirty (30) days of Tenant’s delivery of a Tenant’s Purchase Notice, Landlord and Tenant shall enter into a purchase agreement on terms and conditions acceptable to both Tenant and Landlord, but otherwise consistent with the requirements of this Section 22.21. Tenant’s purchase of the Leased Premises shall be subject to all matters of record and any matters which may be disclosed by an accurate survey of the Leased Premises. Tenant shall be required to pay all costs and expenses incurred in connection with the purchase of the Leased Premises, including, without limitation, all title, survey, escrow and recording costs. The Leased Premises will be conveyed from Landlord to Tenant pursuant to a special warranty deed in the form attached hereto as “Exhibit H”. Tenant may only exercise the purchase option herein if Tenant is materially performing under this Lease or is in the process of curing any default of its obligations under this Lease. Exercise of the purchase option shall not excuse Tenant from the payment of any Base Annual Rent or Additional Rent due and owing prior to the date of the conveyance of the Leased Premises to Tenant.
In the event Tenant delivers a Tenant’s Acceptance Notice, the purchase price under the Purchase Agreement shall be as follows, which Purchase Price is based on the year of the Term in which the Tenant’s Acceptance Notice is accepted:

22.22 **Right of First Refusal.** This Section 22.22 shall survive closing of Tenant’s purchase of the Leased Premises and shall not merge therewith. Moreover, Tenant’s rights hereunder are subject to and subordinate to the rights previously granted to Clearwater Analytics, LLC (“Clearwater”), and the Greater Boise Auditorium District (“the District”), as set forth in the agreements between Landlord’s Affiliates and Clearwater and the District respectively. During the Term, and provided Tenant is not in default under this Lease, Tenant shall have a right of first refusal to purchase any portion of the Clearwater Building not occupied by Tenant (excluding Units owned by Landlord’s affiliate for retail use and the Unit leased by the District). To effectuate such right of first refusal, Landlord shall ensure that a right of first refusal substantially in the form of “Exhibit I” attached hereto is executed and recorded, if required, between Tenant and Landlord’s affiliate owning the applicable portions of the Clearwater Building. Execution and delivery of the Right of First Refusal shall be a condition to Tenant’s execution and delivery of this Lease Agreement. In addition, Tenant shall have a right of first refusal to purchase the Leased Premises if (i) Landlord shall receive a bona fide offer from any third party for the purchase of the Leased Premises or portion thereof which offer Landlord desires to accept, or (ii) if Landlord desires to sell or make a bona fide offer to sell the Leased Premises or portion thereof to a third party, then Landlord will inform the Tenant in writing of such and provide the details of such. The Tenant will have the opportunity at the next available meeting of the Idaho State Board Education to seek approval to either match the purchase offer from the third party, or notify Landlord of Tenant’s exercising its right to purchase option at the next annual purchase option opportunity as detailed in Section 22.20; whichever the Tenant determines in its sole discretion to be most advantageous to the Tenant. Should the Tenant elect to either match the third party offer, or exercise its next purchase option, such notice provided in writing will terminate any third party purchase and the Tenant and Landlord will enter into a purchase agreement and coordinate the closing date. Should the Tenant decline to match the third party offer or decline to exercise its next purchase option, the Landlord may proceed with the sale to a third party, and the third party will acquire and be bound by all the terms and conditions of this Lease.

22.23 **Option to Purchase after Expiration of Extension Terms.** In the event the Term has continued through all nineteen (19) Extension Periods, Tenant shall have the option to purchase the Leased Premises for a purchase price of One Dollar ($1.00) by delivering a Tenant’s Purchase Notice nine (9) months prior to expiration of the last Extension Period. Within thirty (30) days of Tenant’s delivery of a Tenant’s Purchase Notice, Landlord and Tenant shall enter into a purchase agreement on terms and conditions acceptable to both Tenant and Landlord, but otherwise consistent with the requirements of this Section 22.23. Tenant’s purchase of the Leased Premises shall be subject to all matters of record and any matters which may be disclosed by an accurate
survey of the Leased Premises. Tenant shall be required to pay all costs and expenses incurred in connection with the purchase of the Leased Premises, including, without limitation, all title, survey, escrow and recording costs. Tenant may only exercise the purchase option herein if Tenant is materially performing under this Lease or is in the process of curing any default of its obligations under this Lease. Exercise of the purchase option shall not excuse Tenant from the payment of any Base Annual Rent or Additional Rent due and owing prior to the date of the conveyance of the Leased Premises to Tenant. Landlord shall only be required to make such warranties as are set forth in the form of Special Warranty Deed attached hereto as “Exhibit H.”

22.24 Right of First Refusal to Landlord/Continuing Obligation to Share Profit of Sale. This Section 22.24 shall survive closing of Tenant’s purchase of the Leased Premises and shall not merge therewith. Tenant shall agree to memorialize the rights set forth herein in a recorded instrument prior to Landlord’s conveyance of the Leased Premises by Special Warranty Deed. Tenant acknowledges that Landlord has entered into this Lease and has provided Tenant with economic benefits that it would not have made available to any entity other than Tenant for operation of its computer science department and that Landlord has not developed or leased the Leased Premises to Tenant for Tenant’s speculation. As such, Tenant acknowledges that if it were a private computer science entity, Landlord would not have granted it the option to purchase the Leased Premises. Therefore, Tenant acknowledges and grants the following rights to Landlord which shall continue for ten years following Tenant’s exercise of any of its options to purchase and shall expire on the tenth anniversary date of such purchase:

(a) Right of First Refusal. If Tenant elects to market the property, and Tenant shall receive a bona fide offer from any third party for the purchase of the Leased Premises or portion thereof which offer Tenant desires to accept, or if Tenant desires to sell or make a bona fide offer to sell the Leased Premises or portion thereof to a third party, then Tenant shall inform the Landlord in writing of such and provide the details of such, setting forth the economic terms and conditions of the proposed transaction, and if available, a copy of such offer (the “Written Notice of Proposed Sale”). Landlord shall have the right, within thirty (30) days after Tenant’s delivery of the Written Notice of Proposed Sale, to elect, by delivering written notice to Tenant within such 30-day period (“Landlord’s Acceptance Notice”), to purchase the Leased Premises on the same terms and conditions as those set forth in the Written Notice of Proposed Sale. In the event Landlord timely delivers Landlord’s Acceptance Notice, Landlord and Tenant shall, within thirty (30) days of Landlord’s delivery of Landlord’s Acceptance Notice, enter into a purchase contract for the Leased Premises, or portion thereof described in the Written Notice of Proposed Sale, setting forth the terms of the Written Notice of Proposed Sale, with such additional terms and conditions as may be agreed to by Landlord and Tenant (the “Purchase Agreement”). If Landlord does not deliver Landlord’s Acceptance Notice within such 30 day period, Landlord shall be deemed to have elected to not elect to purchase the
Leased Premises or portion thereof pursuant to the Written Notice of Proposal Sale. If Landlord declines, or is deemed to have declined, the Written Notice of Proposed Sale, Tenant may thereafter convey the Leased Premises, to a third party, subject to subsection (b) below. This obligation shall be recurring and Tenant shall provide notice to Landlord of each and every proposed sale that Tenant considers and shall deliver a Written Notice of Proposed Sale, notwithstanding Landlord’s prior declination of the Written Notice of Proposed Sale.

(b) Continuing Obligation to Share Profit of Sale. If Landlord declines to exercise the Right of First Refusal set forth in subsection (a) immediately preceding, then Tenant may convey the Leased Premises to a third party and Tenant shall deliver to Landlord fifty percent (50%) of the profit from the sale of the Leased Premises. The profit from the sale of the Leased Premises shall be calculated as by subtracting from the purchase price actually paid to Tenant for the sale of the Leased Premises, the sum of (i) $9,100,000.00, (ii) sales commissions paid by Tenant at closing, and (iii) any closing costs actually paid by Tenant. Tenant shall remit the share of profit to Landlord immediately upon Tenant’s closing of the sale of the Leased Premises.

22.25 Conditions Precedent. Tenant’s obligations under this Lease shall be subject to the following conditions precedent:

(a) Landlord providing an estimated construction schedule and delivery date that is approved by Tenant. Tenant shall not unreasonably condition, withhold, or delay its approval.

(b) Landlord entering into a lease with a private technology based company for at least 80,000 square feet in the Project, approved by Tenant. Tenant shall not unreasonably condition, withhold, or delay its approval.

(c) Additionally, Tenant’s obligations under this Lease to pay Basic Annual Rent and Additional Rent shall not become effective until the Commencement Date, provided, that such obligation shall be further extended until Landlord records a plat and declaration creating the condominium units that comprise the Leased Premises. The form of the plat and declaration creating the condominium units, and the associated duties, rights, and obligations, appurtenant thereto shall be approved by Tenant, provided, however that Tenant shall not unreasonably condition, withhold, or delay its approval.

22.26 Sufficient Appropriation by Legislature Required. It is understood and agreed that the Tenant is a governmental entity, and this Lease Agreement shall in no way or manner be construed so as to bind or obligate the State of Idaho beyond the term of any particular appropriation of funds by the State legislature as may exist from time to time.
The Tenant reserves the right to terminate this Lease Agreement in whole or in part if, in its judgment, the legislature of the State of Idaho fails, neglects or refuses to appropriate sufficient funds as may be required for Tenant to continue such lease payments, or requires any return or “give-back” of funds required for the Tenant to continue payments, or if the Executive Branch mandates any cuts or holdbacks in spending. All affected future rights and liabilities of the Parties shall thereupon cease within thirty (30) days after the notice to the Landlord. It is understood and agreed that the lease payments provided for in this Lease Agreement shall be paid from Tenant operating and reserve funds including, but not limited to State legislative appropriations.

22.27 Right to Terminate Lease Agreement at Direction of Idaho Department of Administration. The parties to this Lease Agreement recognize and agree that Tenant, as an agency of the State of Idaho, is subject to the direction of the Idaho Department of Administration pursuant to Title 67, Chapter 57, Idaho Code, and, specifically, the right of that Department to direct and require Lessee to remove its operations from the Premises and relocate to other facilities owned or leased by the State of Idaho. Accordingly, it is agreed that, upon the occurrence of such event, Tenant may terminate this Lease Agreement at any time after a one (1) year period from the Commencement Date of the Lease Agreement as determined under Section 2.2, provided that Landlord is notified in writing one hundred eighty (180) days prior to the date such termination is to be effective. Such action on the part of the Tenant will relieve the Tenant and the State of Idaho of liability for any rental payments for periods after the specified date of termination or the actual date of surrender of the Leased Premises, if later.

22.28 Officials, Agents and Employees of Tenant Not Personally Liable. It is agreed by and between the Parties that in no event shall any official, officer, employee or agent of the State of Idaho be in any way liable or responsible for any covenant or agreement contained in this Lease Agreement, express or implied, nor for any statement, representation or warranty made in or in any way connected with this Lease Agreement or the Premises. In particular, and without limitation of the foregoing, no full-time or part-time agent or employee of the State of Idaho shall have any personal liability or responsibility under this Lease Agreement, and the sole responsibility and liability for the performance of this Lease Agreement and all of the provisions and covenants contained in this Lease Agreement shall rest in and be vested with the State of Idaho.

22.29 Nondiscrimination. The Landlord hereby agrees to provide all services funded through or affected by this Lease Agreement without discrimination on the basis of race, color, national origin, religion, sex, age, physical/mental impairment, and to comply with all relevant sections of: Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973, as amended; and The Age Discrimination Act of 1975; and to comply with pertinent amendments to these acts made during the term of this Lease Agreement. The Landlord further agrees to comply with all pertinent parts of federal rules and regulations implementing these acts. The Landlord hereby agrees to provide equal employment opportunity and take affirmative action in employment on the
basis of race, color, national origin, religion, sex, age, physical/mental impairment, and covered veteran status to the extent required by: Executive Order 11246; Section 503 of the Rehabilitation Act of 1973, as amended; and Section 402 of the Vietnam Era Veterans Readjustment Assistance Act of 1974; and to comply with all amendments to these acts and pertinent federal rules and regulation regarding these acts during the term of the Lease Agreement.

22.30 Construction or Renovation of Buildings. All buildings owned or maintained by any State government agency or entity, or which are constructed or renovated specifically for use or occupancy by any such agency or entity shall conform to all existing state codes, including but not restricted to, the Idaho General Safety and Health Standards, the International Building Code, the International Mechanical Code and the International Fire Code. If any conflict arises between applicable codes, the more stringent code shall take precedence. Prior to construction or remodeling of such buildings, where appropriate, construction plans shall be reviewed and approved by the Division of Building Safety, the State Fire Marshal’s Office and the Permanent Building Fund Advisory Council.

22.31 Long Term Energy Costs. Long-term energy costs, including seasonal and peaking demands upon the suppliers of energy, are to be a major consideration in the construction of all State buildings and the execution of lease agreements. Special attention shall include energy conservation considerations including: (i) Chapter 13 of the International Building Code, 2000 Edition; (ii) use of alternative energy sources; (iii) energy management systems and controls to include effective means to monitor and maintain systems at optimal operations; and (iv) "state-of-the-art" systems and equipment to conserve energy economically.

22.32 Non-Smoking Buildings. All State-owned or State-leased buildings, facilities or area occupied by State employees shall be designated as “non-smoking” except for custodial care and full-time residential facilities. The policy governing custodial care and full-time residential facilities may be determined by the directors of such facilities.

22.33 Utility Information. State agencies are required to develop an inventory of greenhouse gas emissions and to implement strategies to reduce greenhouse gases. The Landlord agrees to provide Tenant with ongoing permission to access the utility information of the building to determine the amount of electricity and heating fuel consumed within the Premises. If Tenant is not able to access this information directly from the utility companies, Landlord agrees to furnish said information to Tenant on a calendar year basis.

22.34 Indoor Air Quality. Landlord agrees to develop and maintain an indoor air quality management program and to maintain it in conjunction with all construction projects in the Building as well as on all ongoing maintenance and repairs of the City
Center Building and the Leased Premises. Said program shall optimize and document the use of air quality compliant materials inside the Building to reduce the emissions from materials used in the City Center Building. Ongoing indoor air quality requires the use of low or no VOC paints, solvents, adhesives, furniture and fabrics. VOC and chemical component limits shall not exceed Green Seal’s Standard GS-11 requirements. Paints used on site shall be low VOC and are to be brush-applied only, spray painting is not allowed on the interior of the Building. Carpet must meet the requirements of the CRI Green Label Plus Carpet Testing Program. Carpet cushion must meet the requirements of the CRI Green Label Testing Program. Composite panels and agrifiber products must not contain added urea-formaldehyde resins. Laminate adhesives used to fabricate on-site and shop applied assemblies containing these laminate adhesives must contain no urea-formaldehyde.

22.35 Material Representations. The Parties agree and acknowledge that the representations and acknowledgments made in this Lease Agreement are material and the Parties have relied upon them in entering this Lease Agreement.

22.36 Severability. If any term or provision of this Lease Agreement is held by the courts to be illegal or in conflict with any existing law, the validity of the remaining terms and provisions shall not be affected, and the rights and obligations of the Parties shall be continued and enforced as if the invalid term or provision were not contained in this Lease Agreement.

22.37 Purchase Terminates Lease. Except for those provisions that are expressly set forth herein as continuing the obligations of the parties beyond closing of Tenant’s purchase of the Leased Premises, including, but not limited to Section 22.24, if Tenant exercises any purchase option, upon completion of the purchase this Lease will be no longer in effect and only the condominium agreement will continue to be in full force and effect.

[SIGNATURE PAGE IMMEDIATELY FOLLOWS]
IN WITNESS WHEREOF, Landlord and Tenant have executed this Lease on the date first set forth above.

LANDLORD: CITY CENTER PLAZA EDUCATION, LLC, an Idaho limited liability company, by its Manager

KC Gardner Company, L.C., a Utah limited liability company

By: _______________________
Name: _______________________
Title: Manager

TENANT: IDAHO STATE BOARD OF EDUCATION BY AND THROUGH BOISE STATE UNIVERSITY, a governmental subdivision of the State of Idaho and a body corporate with all the powers of a public or quasi-public corporation

By: _______________________
Name: _______________________
Its: _________________________
EXHIBIT “A”

DESCRIPTION OF PROPERTY

The Leased Premises occupy one or more units within one or more commercial condominiums to be constructed on a portion of the following described property:

Beginning a point which is 20.00 feet S.54°47'55"E. and 40.00 feet S.35°13'45"W. from the monument at West Main Street and North Eighth Street of BOISE CITY ORIGINAL TOWNSITE (said monument being 3092.04 feet N.60°31'39"W. from the East ¼ corner of Section 10, Township 3 North, Range 2 East, Boise Meridian); and running thence S.54°47'55"E. 126.94 feet; thence S.35°11'57"W. 180.23 feet; thence S.54°46'29"E. 23.43 feet; thence S.35°15'06"W. 42.33 feet; thence S.54°44'54"E. 82.73 feet; thence N.35°15'06"E. 11.50 feet; thence S.54°44'54"W. 16.67 feet; thence N.35°15'06"E. 12.83 feet; thence S.54°44'54"E. 29.00 feet; thence S.35°15'06"W. 23.67 feet; thence N.54°44'54"W. 28.17 feet; thence S.35°15'06"W. 46.60 feet; thence S.54°46'00"E. 69.40 feet; thence S.35°13'13"W. 17.44 feet; thence N.54°44'54"W. 159.23 feet; thence S.35°36'42"W. 14.41 feet; thence N.54°47'21"W. 80.73 feet; thence N.35°13'45"E. 10.25 feet; thence northerly 136.79 feet along the arc of a 100.00 feet radius non-tangent curve to the left, (chord bears N.04°02'51"W. 126.37 feet); thence N.35°13'45"E. 192.22 feet to the point of beginning.

The above described part of an entire tract contains 42865 square feet in area or 0.984 acres.
EXHIBIT “B”

DEPICTION OF LEASED PREMISES
EXHIBIT “C”

CONSTRUCTION AND/OR FINISHING OF IMPROVEMENTS TO LEASED PREMISES

In accordance with the provisions of the body of the Lease to which this Exhibit “C” is attached, the improvements to the Leased Premises shall be constructed and/or finished (as the case may be) in the manner described, and upon all of the terms and conditions contained in the following portion of this Exhibit “C”. The obligations to construct the Leased Premises in this Exhibit “C”.

I. GENERAL DESCRIPTION OF WORK:

A. LANDLORD’S CONSTRUCTION OBLIGATION: “Landlord’s Construction Obligation” respecting improvements to the Leased Premises shall consist of the following described items or elements of work (where more than one type of material, structure, or method is indicated, Landlord shall have the option of selecting or employing any thereof):

1. STRUCTURAL:

   (a) Frame: The building shall be of steel or concrete frame, reinforced concrete, or bearing wall construction designed in accordance with the applicable building code.

   (b) Exterior Walls: Insulated exterior walls of the building shall be of masonry, concrete, or such other material(s) as may be selected by Landlord’s architect.

   (c) Floor: Floor shall be of concrete slab.

2. BASE BUILDING: Landlord shall provide Tenant the following as part of the base building shell: landscaping, site identification, toilets, stairwells, elevators, mechanical rooms, and janitorial closets on Leased Premises floors.

3. UTILITIES:

   (a) Water and Sewer: Water and sewer service shall be furnished to the toilet rooms on the floors of the Leased Premises.

   (b) Electricity: Electrical service shall be provided to a main distribution panel in an electrical room on each floor of the Centre Building and the Clearwater Building.
4. **HEATING, AIR CONDITIONING, AND SPRINKLERS:**

   (a) **Air Conditioning and Heating:** HVAC trunk lines shall be provided to the floor area. No distribution or controls shall be provided by Landlord, however, Tenant shall be required to install HVAC distribution and base building controls as designated and selected by Landlord as part of Tenant’s Construction Obligations defined below.

   (b) **Sprinklers:** Automatic sprinkler system, if and to the extent required by the applicable code, shall be installed in the Centre Building and the Clearwater Building.

B. **TENANT’S CONSTRUCTION OBLIGATION:** The work to be performed by Landlord in satisfying its obligations respecting construction improvements to the Leased Premises shall be limited to that described in the foregoing Section. All other items or elements of work shall be provided by Tenant at Tenant’s expense. Such other work shall constitute “Tenant’s Construction Obligations” respecting improvements to the Leased Premises and shall include, but not necessarily be limited to, the purchase, installation, and/or performance (as the case may be) of the following described items or elements of work:

1. **Electric Fixtures and Equipment:** Tenant shall be responsible for all electrical work and distribution from the main distribution panel provided by Landlord in the electrical room on each floor of the Building as set forth above in Section A.3(b). Tenant shall be obligated to install its own distribution panel within the Leased Premises. Tenant shall be obligated to install metering devices compatible to the Building electrical controls.

2. **Telephone:** All arrangements for telephone service and all conduits for telephone wires in the Leased Premises including, but not limited to, conduits, wires, boxes, and head-in equipment.

3. **Utility Meters:** All meters necessary to separately measure electricity consumption in the Leased Premises, and if separately provided by Landlord, then all meters necessary to separately measure water and gas consumption in the Leased Premises.

4. **Walls:** All interior partitioning and drywall on all party walls or the walls surrounding the Leased Premises, including the interior of the exterior wall of the Building.

5. **Doors:** All interior doors and door frames, sidelights, signage, and hardware, all of which shall be a Building standard as directed by Landlord.

6. **Floor Covering:** All floor covering and floor materials other than concrete.
7. **Security and Alarm System**: Any systems or other protective devices including by not limited to alarm, fire, and security systems. Any alarm and security systems to be installed shall be the system designated by Landlord from the Landlord specified vendor.

8. **Demising Walls**: Demising walls (i.e., walls dividing the Leased Premises for areas, if any, in the same building occupied by other lessees) shall be of steel stud or masonry.

9. **Special Plumbing and Water Heater**: All extra plumbing (either roughing-in or fixtures) required for Tenant’s special needs and any water heater required.

10. **Special Ventilation**: All ventilation and related equipment not installed under Landlord’s Construction Obligation.

11. **Special Equipment**: All special equipment such as conveyors, lifts, etc.

12. **Painting**: All interior painting.

13. **Ceiling**: All ceiling installation and treatments.

14. **Heating and Air Conditioning**: All ducting distribution and controls including but not limited to, VAV boxes, exhaust fans, heating and cooling boxes, and/or Tenant specialty items. Tenant shall install any supplemental controls and systems required to support tenant functions beyond the base finish for the building and its designed load as set forth in Section IV below. All heating, ventilation, and air conditioning controls installed by Tenant shall be compatible to Building heating, ventilation, and air conditioning controls. Notwithstanding the foregoing, Tenant shall solely install those distribution and controls as designated and selected by Landlord.

15. **Sprinklers**: Tenant shall be responsible to modify the Building automatic sprinkler system and to install and/or modify sprinklers in the Leased Premises, if and to the extent required by the applicable code, in order to complete Tenant’s Construction Obligations.

II. **PLANS**

A. **LANDLORD’S PLANS**: To the extent that the same has not heretofore occurred, Landlord shall furnish, construct and install the items and elements comprising Landlord’s Construction Obligation substantially in accordance with the plans, specifications, and working drawings applicable thereto (hereinafter referred to as “Landlord’s Plans”) prepared by the architectural firm of Babcock Design Group as Landlord’s Plans may be changed or modified from time to time.
B. **TENANT’S PLANS:** Landlord and Tenant shall collaborate in preparation of complete plans and specifications (hereinafter referred to as “Tenant’s Plans”) detailing the item and elements comprising Landlord’s Construction Obligation and Tenant’s Plans. If Tenant elects to utilize Landlord’s designated architect, Babcock Design Group, for Tenant’s preliminary space planning, the Tenant shall receive an allowance from Landlord of $.20/rentable square foot for the development of an initial space plan (“Space Planning Allowance”). Tenant shall be solely responsible for all costs incurred beyond the Space Planning Allowance. If Tenant elects to retain and utilize its own design professionals for purposes of space planning and preparation of Tenant’s Plans, then Tenant shall pay all costs associated with design and shall reimburse Landlord’s designated architect, Babcock Design Group for all costs associated with coordinating Tenant’s Plans with Landlord’s Plans and Tenant’s Construction Obligations with Landlord’s Construction Obligation. Tenant shall then proceed promptly to prepare Tenant’s Plans and shall submit the Tenant’s Plans to Landlord for written approval (not to be unreasonably withheld). The approval by Landlord of Tenant’s plans for work to be performed on the Leased Premises, whether by Landlord or Tenant, shall in no way create any responsibility or liability on the part of Landlord for their completeness, design sufficiency or compliance with any and all laws, rules and regulations of federal, state, county and municipal agencies or authorities. Any objections by Landlord and the reason therefore shall be given to Tenant’s Plans as proposed. If Tenant fails within forty-five (45) days after receiving the necessary information from Landlord to furnish to Landlord Tenant’s Plans as proposed, Landlord shall have the right to terminate the Lease upon written notice to Tenant (without prejudice to any right Landlord may have against Tenant for damages arising out of Tenant’s failure).

III. **CONSTRUCTION**

A. **COMPLETION BY LANDLORD:** All of the items or elements of work entering into Landlord’s Construction Obligation shall be furnished, constructed, and installed substantially in accordance with those portions of Tenant’s Plans applicable thereto. Tenant agrees that by entering into possession of the Leased Premises pursuant to the following Section B, Tenant will have thereby accepted all of the construction work performed by Landlord and will have thereby accepted the Leased Premises in their then condition and hereby waives any claim against Landlord thereafter arising out of the condition of improvements to the Leased Premises, the Centre Building and the Clearwater Building, the Common Areas, or the Improvements. Landlord shall not be liable for any latent, patent, or observable defects in such improvements after such acceptance by Tenant. Landlord does, however, warrant the work performed hereunder by Landlord against latent defects discovered at any time during the one (1) year period following the time of such acceptance by Tenant.

B. **CONSTRUCTION BY TENANT:** Following the date that Landlord notifies Tenant that Tenant’s Construction Obligations can commence, specifically the date upon which the structural elements and the HVAC trunk lines required under Landlord’s Construction Obligation are completed and Tenant’s Construction Obligations can be undertaken without unreasonable interference with the completion of Landlord’s Construction Obligation, Tenant shall promptly commence and thereafter shall diligently pursue to completion all of the matters
entering into Tenant’s Construction Obligations and such matters shall be performed or accomplished in accordance with the applicable law, in a good and workmanlike manner, by contractors approved in writing by Landlord, and in such manner as to maintain harmonious and suitable labor relations and working conditions. Tenant shall timely obtain all licenses or permits required for the work performed by Tenant.

Tenant shall, at Landlord’s request, furnish Landlord with a bond or bonds assuring payment to all those furnishing labor, materials, or services in connection with Tenant’s Construction Obligations. Any work or change that Tenant desires to accomplish and which is not reflected by Tenant’s Plans shall be subject to Landlord’s prior written approval (not to be unreasonably withheld). Upon completion of Tenant’s Construction Obligations, Tenant shall furnish to Landlord a complete set of “as built” plans and specifications for the items and elements entering into Tenant’s Construction Obligations.

C. **INTERRELATIONSHIP OF WORK**: In performing the Tenant’s Construction Obligations, Tenant shall comply with all directions of Landlord or Landlord’s contractor so as to coordinate its construction activities with those being pursued by others (whether on the Leased Premises or elsewhere in the Centre Building and the Clearwater Building, and whether by Landlord or by other tenants). Any improvements or items of equipment installed by Tenant which are to be visible from outside of the Leased Premises shall be finish painted by Tenant in accordance with Landlord’s standard paint schedule. All work performed by Tenant shall leave Landlord’s structure as strong or stronger than original design and with finishes unimpaired. Any roofing or flashing work accomplished by Tenant shall conform to original work and shall be performed at Tenant’s expense by Landlord’s roofing subcontractor who installed the original roof. Either party hereto may examine and inspect the work of the other at any reasonable time and shall promptly give notice of any observed defects.

1. **ROOF PENETRATIONS**: Tenant agrees that neither it nor its contractors or employees will, during the construction of the Leased Premises or at any time during the term of this Lease, make or cause to be made in the roof of the Leased Premises any penetration whatsoever without first obtaining the prior written approval from Landlord. Tenant acknowledges that Landlord may require Tenant to use Landlord’s designated roofing contractor to perform or supervise any roof cuts or penetrations to which Landlord may agree or give its consent.

In the event Tenant fails to observe this condition, Landlord may hire a roofing contractor of its choice to inspect any penetrations in the roofing material over the Leased Premises and to perform any needed modifications or corrections to the roof surface or its components in order to preserve the integrity of the roof structure. Landlord may bill Tenant for the expenses of any such roof inspection and/or repairs, plus a 20% overhead fee for such work. Tenant agrees to pay for said inspection and/or repairs immediately upon presentation of said invoice.

2. **HEATING/VENTILATING/AIR CONDITIONING DISTRIBUTION AND CONTROL WORK**: In order to insure that the rooftop mechanical equipment,
originally provided by Landlord, will work efficiently and effectively to provide the specified heating, ventilating and/or cooling to the Leased Premises, Tenant agrees and covenants that prior to its installation of any duct work, distribution equipment, controls or other related components of the mechanical system, it will first obtain from Landlord or from Landlord’s designated mechanical contractor, written approval of its plans for same.

D. **PAYMENT**: Landlord shall furnish, construct, and complete all of the matters entering into Landlord’s Construction Obligation at its own cost and expense; Tenant shall furnish, construct and complete all of the matters entering Tenant’s Construction Obligations at its own cost and expense. All fees of Tenant’s architect or engineer shall be paid by Tenant. All government, municipal, and/or city fees shall be paid by Tenant. This Tenant Finish Allowance shall be provided in accordance with the following conditions:

1. Prior to commencing Tenant’s Construction Obligations, Tenant may elect to receive the Tenant Finish Allowance on a “work in progress basis” by providing Landlord written notice of such election. In the event Tenant has made the foregoing election Landlord shall release the Available Tenant Improvement Allowance (as defined below) to Tenant upon satisfaction of the following conditions, as determined by Landlord in its sole discretion:

   (a) No default or event which with the giving of notice or passage of time or both would constitute a default under the Lease shall exist;

   (b) Tenant shall deliver to Landlord a certificate from the architect and contractor certifying (a) the percentage of the Tenant’s Construction Obligations which have then been completed to date (the “Completion Percentage”), (b) an estimate of the amount of all costs and expenses required to complete the Tenant’s Construction Obligations (the “Remaining Costs”), and (c) the identification of suppliers, materialmen, contractors and subcontractors which have performed the Tenant’s Construction Obligations or have supplied materials in connection with the Tenant’s Construction Obligations to date;

   (c) Tenant shall deliver to Landlord (i) conditional lien waiver’s (conditioned only on payment) from all suppliers, materialmen, contractors and subcontractors which have performed the Tenant’s Construction Obligations or have supplied materials in connection with the Tenant’s Construction Obligations and (ii) unconditional lien waivers from all suppliers, materialmen, contractors and subcontractors which have performed the Tenant’s Construction Obligations or have supplied materials in connection with the Tenant’s Construction Obligations and for which Tenant has previously submitted a conditional lien waiver pursuant to clause (i) above in connection with a previous draw on the Available Tenant Improvement Allowance;

   (d) No event of force majeure or other event or condition shall exist which permits or requires Tenant or any contractor, subcontractor, materialmen or supplier
to cancel, suspend or terminate its performance of the Tenant’s Construction Obligations;

    (e) Tenant shall deliver a certification to Landlord that (a) all mechanics liens have been (and upon payment of amounts from Available Tenant Improvement Allowance, will be) released and discharged (b) all contracts entered into in connection with the Tenant’s Construction Obligations are in full force and effect and have not been modified, and (c) Tenant has sufficient funds to pay for all of the Remaining Costs (less any unpaid Tenant Finish Allowance);

    (f) Prior to commencing the construction of the Tenant’s Construction Obligations, Tenant shall have delivered to Landlord all contracts entered into in connection with the performance of the Tenant’s Construction Obligations; and

    (g) Tenant shall deliver to Landlord all invoices for which Tenant is requesting payment and such invoices shall be issued under the contracts provided to Landlord pursuant to paragraph 6 above.

For purposes hereof, the Available Tenant Improvement Allowance shall mean the sum of (a) the Tenant Finish Allowance multiplied by the Completion Percentage, less (b) any portion of the Tenant Finish Allowance previously paid to Tenant pursuant to the provisions hereof, less, (c) a retainage of five percent (5%) of the amounts payable to Tenant pursuant to the foregoing provisions (the “Retainage”). All expenses arising by reason of Tenant’s Construction Obligations in excess of this aggregate amount of the Tenant Finish Allowance shall be borne exclusively by the Tenant. In no event shall personal property be included as part of the Tenant Finish Allowance.

The Retainage shall be paid in full to Tenant upon satisfaction of the following conditions:

    (w) All items of work specifically listed or implied under Tenant’s Construction Obligations shall be certified complete by Tenant and Tenant’s Architect;

    (x) All final invoices with the necessary certification shall be forwarded to the Landlord for consideration and payment;

    (y) If such work is found to be complete as certified, Landlord shall remit to Tenant a total amount due within thirty (30) days.

    (z) Landlord shall not be obligated to remit any payment prior to its receipt of the following documents: (i) a Certificate of Occupancy from the municipality involved, (ii) a signed copy of Exhibit “D” and Exhibit “E” of this Lease or an equivalent document provided by Landlord and as required by lender,
(iii) a copy of insurance certificates evidencing the insurance required to be maintained by Tenant pursuant to Section 10 of this Lease, and (iv) all copies of necessary lien waivers involved with any general or subcontractors involved with Tenant’s Construction Obligations.

2. In the event Tenant has not elected to receive the Tenant Finish Allowance pursuant to Paragraph 1 above, the Tenant Finish Allowance shall be distributed upon satisfaction of the following conditions, as determined by Landlord in its sole discretion:

   (a) All items of work specifically listed or implied under Tenant’s Construction Obligations shall be certified complete by Tenant;

   (b) All final invoices with the necessary certification shall be forwarded to the Landlord for consideration and payment;

   (c) If such work is found to be complete as certified, Landlord shall remit to Tenant, a total amount due within thirty (30) days.

   (d) Landlord shall not be obligated to remit any payment prior to its receipt of the following documents: (i) a Certificate of Occupancy from the municipality involved, (ii) a signed copy of Exhibits “E” of this Lease or an equivalent document provided by Landlord and, if required by lender to authorize release of any funds to Tenant, a signed copy of Exhibit “D” of this Lease, (iii) a copy of insurance certificates evidencing the insurance required to be maintained by Tenant pursuant to Section 10 of this Lease, and (iv) all copies of necessary lien waivers involved with any general or subcontractors involved with Tenant’s Construction Obligations.

   (e) No default or event which with the giving of notice or passage of time or both would constitute a default under the Lease shall exist.

Notwithstanding the foregoing to the contrary, all expenses arising by reason of Tenant’s Construction Obligations in excess of the Tenant Finish Allowance shall be borne exclusively by Tenant. No personal property shall be included as part of the Tenant Finish Allowance.

IV. BUILDING STANDARD FINISHES

The “Building Standard Finishes” provided as part of the Landlord’s Construction Obligation is defined to include all structural elements of the Building, elevator systems, restrooms, fire exit stairways, electrical risers, telephone risers, plumbing risers, sprinkler systems, ventilation and cooling, air distribution system, insulated high-pressure duct loop, janitorial closets, floor telephone closets, and floor electrical closets.
Landlord shall provide the following Building Standard Finishes for the Building and the Premises. The list includes:

1. The primary and secondary electrical, mechanical, fire protection, and life-safety system distribution in accordance with the Base Building design which complies with the local building code and other requirements of governmental agencies, including ADA, having jurisdiction over the Building for unoccupied office space in shell condition.
2. Building structural system consists of wide flange steel structural beam system with a composite concrete floor.
3. Building core area men’s and women’s toilet rooms, which meets all fire, life safety, ADA requirements, and other applicable codes.
4. Drinking fountains (HDCP accessible) at Building core per floor.
6. The electrical power is provided at 6.8 watts connected per rentable square foot, connected for tenant use, exclusive of the buildings HVAC system. The electrical includes lighting panels, transformer, distribution equipment and provisions for four (4) 208/120 volt tenant power panel connections at the floor.
8. High-speed electric traction elevators with eight-foot zero-inch elevator cabs (4 passenger cabs and 1 service sized cab) with seven-foot zero-inch high doors that serve the Building.
9. Building stairways (painted) as required by code with concrete filled stair treads and painted steel risers.
10. Sheetrock corridors, core area walls, and core corridor walls shall be taped, textured, and painted.
11. All base building mechanical equipment are included in the building mechanical penthouse and basement spaces. Supplemental mechanical equipment to support tenant functions shall be included in the tenant space as a tenant improvement and not part of the base finish for the building.
12. The base building heating and air conditioning system (“HVAC”) complies with the state and local building codes, the standards established by the American Society of Heating, Refrigeration, and Air Condition Engineers (ASHRAE) for high-rise office buildings, or standards customarily adopted for class A buildings. Primary HVAC mechanical equipment (chillers, cooling towers, air-handling units, etc. or equivalent) and duct supply & return risers and distribution from the mechanical equipment room through the floor distribution loop. Heating water (30% propylene glycol) loops will be circulated on all floors of the building except the parking garage floors. Supply and return air ducts will be extended from the air handler into the premises in the office areas and looped around each floor to supply conditioned air to the tenant provided ductwork. All ductwork and piping for the tenant’s improvements are to be installed “high and tight” against the structural members to allow temperature controls, balancing, and testing. Supplemental HVAC and electrical equipment and systems beyond the loads set forth below to support tenant functions shall be included in the tenant space as a tenant improvement and not part of the base finish for the building:
   - Occupancy Load: Average of one person per 125 rentable square feet.
• Lighting load: 1.0 watt/sq. ft. to space.
• Office equipment load: 2.25 watt/sq.ft. to space. Completion of the HVAC finish including, but not limited to, VAV(R) terminal unit low pressure ductwork, dampers, grills, diffusers, temperature controls, testing, and balancing as well as stand alone air-conditioning are at tenant’s sole cost and expense.

13. A minimum of 1.0 CFM/RSF average of primary supply air @ 55°F shall be provided to the premises.

14. The ventilation for the Premises shall be ASHRAE 62-2007 (or current) compliant.

15. Complete HVAC systems servicing all common areas of the Building (including, without limitation, restrooms and elevator lobbies on Tenant’s floors) are provided as part of the Base Building.

16. Floor loads shall be per applicable codes and Base Building standards throughout with a minimum superimposed floor loading capacity of 80 pounds per square foot in all Tenant areas in addition to inherent structural dead loads.

17. Average floor-to-floor height of 14-feet.

18. Average ceiling height of nine-feet in all Tenant areas.

19. All plumbing riser-lines are in the floor core area.

20. Domestic hot and cold water shall be provided at all restrooms in the Building core.

21. Waste, vent and domestic cold water connects for tenant use will be stubbed into the tenant space at a minimum of two locations per typical floor.

22. Fire and life safety system shall be installed per applicable building codes. Installation of the fire sprinkler system includes a building fire pump, risers, control valves and main distribution loop. Installed sprinklers are limited to building core areas, penthouse, and code required coverage for an unoccupied tenant space.

23. Fire alarm / communication systems shall be installed per applicable building codes including fire alarm system, fire extinguishers, exit lights and emergency circuiting. Fire alarm devices and life safety equipment installed shall be limited to building core areas and code required coverage for unoccupied tenant space.

24. Landlord shall be responsible to construct the Building and any common areas to meet ADA requirements.

25. A standby electrical generator is provided to meet life-safety requirements. Any required generator for tenant use, including data or server equipment is a tenant improvement and not part of the base finish for the building.

ACKNOWLEDGMENT OF COMMENCEMENT DATE
AND TENANT ESTOPPEL CERTIFICATE

TO:      DATE:

RE: __________________________________________
       __________________________________________
       __________________________________________

Gentlemen:

The undersigned, as Tenant, has been advised that the Lease has been or will be assigned to you as a result of your financing of the above-referenced property, and as an inducement therefor hereby confirms the following:

1. That it has accepted possession and is in full occupancy of the Leased Premises, that the Lease is in full force and effect, that Tenant has received no notice of any default of any of its obligations under the Lease, and that the Lease Commencement Date is ______________________________________.

2. That the improvements and space required to be furnished according to the Lease have been completed and paid for in all respects, and that to the best of its knowledge, Landlord has fulfilled all of its duties under the terms, covenants and obligations of the Lease and is not currently in default thereunder.

3. That the Lease has not been modified, altered, or amended, and represents the entire agreement of the parties, except as follows:

       __________________________________________
       __________________________________________
       __________________________________________

4. That there are no offsets, counterclaims or credits against rentals, nor have rentals been prepaid or forgiven, except as provided by the terms of the Lease.
5. That said rental payments commenced or will commence to accrue on ____________, and the Lease term expires ___________________________. The amount of the security deposit and all other deposits paid to Landlord is $__________________.

6. That Tenant has no actual notice of a prior assignment, hypothecation or pledge of rents of the Lease, except: __________________________________________
__________________________________________________________________
__________________________________________________________________
__________________________________________________________________.

7. That this letter shall inure to your benefit and to the benefit of your successors and assigns, and shall be binding upon Tenant and Tenant’s heirs, personal representatives, successors and assigns. This letter shall not be deemed to alter or modify any of the terms, covenants or obligations of the Lease.

The above statements are made with the understanding that you will rely on them in connection with the purchase of the above-referenced property.

Very truly yours,

EXHIBIT “E”

FIRST AMENDMENT TO LEASE AGREEMENT

This First Amendment to Lease Agreement (this “Amendment”) is made and entered into as of this [____] day of [____], 200[__], by and between [LANDLORD NAME], (the “Landlord”), and [TENANT NAME] (the “Tenant”).

RECITALS

WHERAS, on [_______________], Landlord and Tenant entered into that certain Lease Agreement (the “Lease”) pursuant to which Landlord agreed to lease to Tenant, and Tenant agreed to lease from Tenant, the Leased Premises (as defined in the Lease). Capitalized terms used but not defined herein shall have their respective meanings set forth in the Lease.

WHERAS, in accordance with Section 2.5 of the Lease, Landlord and Tenant agreed to enter into this Amendment.

NOW THEREFORE, in consideration of the foregoing and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Landlord and Tenant hereby agrees as follows:

AGREEMENT

1. Amendment to Section 1.1(a). Section 1.1(a) of the Lease is hereby deleted in its entirety and replaced with the following:

“(a) That certain floor area containing approximately a Gross Rentable Area of ______ square feet (the “Leased Premises”) on the 2nd and 3rd floors of the Clearwater Building and a portion of the 3rd Floor of the Centre Building. The street address for the Centre Building, Clearwater Building and Multimodal Center within City Center is _______, Boise, Idaho, 83702, all of which is located within the real property more particularly described on Exhibit “A” attached hereto and by this reference incorporated herein (the “Property”). The Leased Premises consists of that certain area crosshatched on the floor plan shown on Exhibit “B” which is attached hereto and by this reference incorporated herein. At any time and from time to time during the term of the Lease, Landlord shall have the right to re-measure and re-determine the gross rentable square feet of the Leased Premises, the Centre Building and the Clearwater Building in accordance with BOMA Standard Methods of Measurement – English version (ANSI/BOMA Z65.1-2010) – Method A. If the re-measured and re-determined rentable area of the Leased Premises is different than above stated, Landlord shall provide Tenant written notice of the change in square footage (the “Measurement Notice”). The re-measured and re-determined rentable square feet shall then become the Gross Rentable Area of the
Leased Premises, effective as of the date of the Measurement Notice, in which case the Basic Annual Rent (as defined in Section 3.1 below), the Additional Rent (as defined in Section 4.1 below), shall be proportionately adjusted, provided that the Gross Rentable Area may be adjusted by no more than five percent (5%) of the original Gross Rentable Area of 53,549 square feet;”

2. Amendment to Section 2.3. Section 2.3 of the Lease is hereby deleted in its entirety and replaced with the following:

“2.2 Commencement Date. The term of this Lease and Tenant’s obligation to pay rent hereunder shall commence on [_____________________] (the “Commencement Date”).”

3. Amendment to Section 4.1(c)(i). Section 4.1(c)(i) of the Lease is hereby deleted in its entirety and replace with the following:

(i) All expenses allocable to the Leased Premises under any of the Condominium Documents for its share, as one or more Units, or sub-Units, of taxes (if any), insurance, maintenance and operation of any common area so designated or defined thereunder, the allocated interest of such Units or sub-Units, of which the Leased Premises are a part, are anticipated to be as follows, but subject to adjustment upon recording of the final Condominium Documents: (Clearwater Building Condominiums: _____%; Centre Building Condominiums: _____%; Multimodal Center Condominiums: _____%; US Bank Plaza Condominiums: ____%).

4. Amendment to Section 4.1(h). Section 4.1(h) of the Lease is hereby deleted in its entirety and replace with the following:

(h) “Tenant’s Proportionate Share” shall mean the percentage derived from the fraction, the numerator of which is the gross rentable square footage of the Leased Premises, the denominator of which is the gross rentable square footage of the portions of the Building owned by Landlord; at any time or from time to time, less than eighty-five percent (85%) of the Centre Building or the Clearwater Building is occupied by tenants who are paying rent during a calendar year or fiscal year, the denominator, for purposes of calculating Tenant’s Proportionate Share, shall be the square footage of the Centre Building or the Clearwater Building actually being leased by tenants who are in occupancy and paying rent. Initially, for the improvements owned by Landlord, the Tenant’s Proportionate Share for the Leased Premises shall be 100% (Premises: 53,549 square feet of Gross Rentable Area/Landlord’s Units 53,549 square feet of Rentable Area). It is anticipated that Tenant’s Proportionate Share, based upon the interests in the Common Areas allocated to the Units comprising the Leased Premises, will be as follows, subject to adjustment upon recording of the final Condominium
Documents: (Clearwater Building Condominiums: ____%; Centre Building Condominiums: _______%; Multimodal Center Condominiums: _____%; US Bank Plaza Condominiums: ____%).

5. Any and all other terms and provisions of the Lease are hereby amended and modified wherever necessary, and even though not specifically addressed herein, so as to conform to the amendments set forth in the preceding paragraph. Except as expressly modified and amended hereby, all other terms and conditions of the Lease shall continue in full force and effect.

6. This Amendment contains the entire understanding of Tenant and Landlord and supersedes all prior oral or written understandings relating to the subject matter set forth herein.

7. This Amendment may be executed in counterparts each of which shall be deemed an original. An executed counterpart of this Amendment transmitted by facsimile shall be equally as effective as a manually executed counterpart.

8. This Amendment shall inure for the benefit of and shall be binding on each of the parties hereto and their respective successors and/or assigns.

9. Each individual executing this Amendment does thereby represent and warrant to each other person so signing (and to each other entity for which such other person may be signing) that he or she has been duly authorized to deliver this Amendment in the capacity and for the entity set forth where she or he signs.

[SIGNATURE PAGE FOLLOWS]
IN WITNESS WHEREOF, Landlord and Tenant have entered into this Amendment as of the date first set forth above.

TENANT:

EXHIBIT “F”

RULES AND REGULATIONS

The rules and regulations set forth in this Exhibit are a part of the foregoing Lease. Whenever the term "Tenant" is used in these rules and regulations, such term shall be deemed to include Tenant and the Tenant Related Parties. The following rules and regulations may from time to time be modified by Landlord in the manner set forth in the Lease. These rules are in addition to those set forth in any restrictions of record and Tenant shall be subject to all such rules and regulations set forth in such restrictions of record. The terms capitalized in this Exhibit shall have the same meaning as set forth in the Lease.

1. Tenant shall not place or suffer to be placed on any exterior door, wall or window of the Leased Premises, on any part of the inside of the Leased Premises which is visible from outside of the Leased Premises or elsewhere on the Property, any sign, decoration, lettering, attachment, advertising matter or other thing of any kind, without first obtaining Landlord's written approval. Landlord may establish rules and regulations governing the size, type and design of all such items and Tenant shall abide by such rules and regulations. All approved signs or letterings on doors shall be printed, painted and affixed at the sole cost of Tenant by a person approved by Landlord, and shall comply with the requirements of the governmental authorities having jurisdiction over the Property. At Tenant's sole cost, Tenant shall maintain all permitted signs and shall, on the expiration of the Term or sooner termination of this Lease, remove all such permitted signs and repair any damage caused by such removal. Landlord may establish rules and regulations governing the size, type and design of all such items and Tenant shall abide by such rules and regulations, as well as the existing rules and regulations set forth in the Master Declaration.

2. Tenant shall have the right to non-exclusive use in common with Landlord, other tenants and their occupants of the parking areas, driveways, sidewalks and access points of the Property, subject to reasonable rules and regulations prescribed from time to time by Landlord. Landlord shall have the right, but not the obligation, to designate parking areas for Tenant.

3. Tenant shall not obstruct the sidewalks or use the sidewalks in any way other than as a means of pedestrian passage to and from the offices of Tenant. Tenant shall not obstruct the driveways, parking areas or access to and from the Property or individual tenant parking spaces. Any vehicle so obstructing and belonging to Tenant may be towed by Landlord, at Tenant's sole cost and expense.

4. Tenant shall not bring into, or store, test or use any materials in, the Center Building or the Clearwater Building which could cause fire or an explosion, fumes, vapor or odor unless explicitly authorized by the terms of the Lease.

5. Tenant shall not do, or permit anything to be done in or about the Leased Premises, or keep or bring anything into the Leased Premises, which will in any way increase the rate of insurance cost for the Property. Unless explicitly provided for in the Lease, Tenant shall not bring, use, store, generate, dispose or allow combustible, flammable or hazardous materials on
the Property or the Leased Premises.

6. Tenant shall immediately pay upon receipt of demand therefore from Landlord for any
damage caused during moving of Tenant's property in or out of the Leased Premises.

7. No repair or maintenance of vehicles, either corporate or private, shall be performed on
or about the Property.

8. Tenant shall not leave vehicles parked overnight on the Property unless (a) explicitly
authorized by the terms of the Lease, or (b) such vehicles are being used by persons working
overnight in the Leased Premises.

9. No outside storage of company or personal property, vehicles or boats in or about the
Leased Premises is permitted. This includes, without limitation, transportation and storage items
such as automobiles, trucks, trailers, boats, pallets, debris, trash or litter.

10. Tenant may utilize such door locks as it deems appropriate provided that (a) it shall
provide Landlord with a master key or keys to the Leased Premises and (b) Tenant shall not
install any security system except as consistent with Exhibit C to the Lease.

11. The Leased Premises shall not be used for lodging or sleeping purposes. No immoral or
unlawful purpose is allowed on the Property or in or about the Leased Premises. Vending
machines for the use of Tenant's employees only are permitted. Electronic games and similar
devices for revenue purposes are prohibited. Electronic games which are part of an educational
program are allowable so long as the volume is controlled so as to not be audible from common
areas or adjoining premises.

12. Landlord shall have the right to control and operate the common areas of the Property, as
well as the facilities and areas furnished for the common use of the tenants in such manner as
Landlord deems best for the benefit of the tenants and the Property generally, considered as a
first class institutional facility.

13. No animals or birds of any kind shall be brought into or kept in or about the Leased
Premises, except for guide dogs for vision or hearing impaired persons.

14. Canvassing, soliciting, distribution of handbills or any other written materials or peddling
on or about the Property are prohibited, and Tenant shall cooperate to prevent the same.

15. Tenant shall not throw any substance, debris, litter or trash of any kind out of the
windows or doors of the Centre Building or the Clearwater Building, and will use only
designated areas for proper disposal of these materials.

16. Waterclosets and urinals shall not be used for any purpose other than those for which they
are constructed, and no sweepings, rubbish, ashes, newspaper, coffee grounds or any other
substances of any kind shall be thrown into them.
17. Waste and excessive or unusual use of water is prohibited without the prior written consent of Landlord.

18. Tenant shall not penetrate the walls or roof of the Centre Building or the Clearwater Building and shall not attach any equipment or antenna to the roof or exterior of the Centre Building or the Centre Building or the Clearwater Building without Landlord's prior written consent. Tenant shall not step onto the roof of the Centre Building or the Clearwater Building for any reason. No television, radio or other audiovisual medium shall be played in such manner as to cause a nuisance to other tenants or persons using the common areas.

19. Landlord shall not be responsible for lost, stolen or damaged personal property, equipment, money, merchandise or any article from the Leased Premises or the common areas regardless of whether or not the theft, loss or damage occurs when the Leased Premises are locked.

20. Landlord reserves the right to expel from the Property anyone who in Landlord's reasonable judgment is intoxicated or under the influence of alcohol, drugs or other substance, or who is in violation of the rules and regulations of the Property.

21. Landlord shall have the right, exercisable without notice and without liability to Tenant, to change the name or street address of the Centre Building or the Clearwater Building or the Property.

22. These rules and regulations are in addition to, and shall not be construed to in any way modify, alter or amend, in whole or in part, the terms, covenants, agreements and conditions of the Lease.

23. Landlord may, from time to time, waive any one or more of these rules and regulations for the benefit of any particular tenant or tenants, but no such waiver by Landlord shall be construed as a waiver of such rules and regulations in favor of any other tenant or tenants, nor prevent Landlord from thereafter enforcing them against any or all of the tenants of the Property.

24. The use of the Leased Premises for business activities is to be conducted within the interior of Tenant's space to the greatest extent possible. Extensive business activities outside Tenant's space is not permitted without the prior written consent of Landlord.

25. If a Tenant is in violation of these rules and regulations and has not corrected such violation within ten (10) days after written notice Landlord may, without forfeiting any other rights or recourses permitted under the Lease, correct the violation at Tenant's expense to include levying a $100.00 administrative charge per violation for coordinating and managing the correction of the violation. Costs associated with Landlord's reasonable actions to correct the violation including the administrative charge will be considered additional rent as defined in the Lease.

DOWNTOWN BOISE BUSINESS IMPROVEMENT DISTRICT DISCLOSURE

[see attached]
Downtown Boise Business Improvement District Disclosure
Your Downtown Boise Association Dollars at Work

Welcome to Downtown Boise! Thank you for choosing to locate your business in beautiful downtown Boise. Downtown has many wonderful opportunities and makes an excellent location to work, shop, play and live.

The Downtown Boise Association (DBA) is the organization designated by the City of Boise to administer the Downtown Boise Business Improvement District (BID). A Business Improvement District is a public-spirited, yet privately directed organization that supplements public service to improve shared, geographically defined outdoor public spaces. BIDs enhance the safety, cleanliness, image and competitiveness of city centers. There are at least 1200 BIDs in the United States with six located in Idaho. Under Idaho Statute Title 50 Municipal Corporations is Chapter 26 that defines Business Improvement Districts in the State of Idaho.

On June 23, 1997 the Mayor and City Council of Boise passed Resolution #3923 declaring inter alia the intent of the City of Boise to create a Downtown Business Improvement District, and by resolution of the Mayor and Council adopted the resolution. Pursuant to Idaho Code sections 35-2611, the City designated the Downtown Boise Association to administer the operation of the Downtown Business Improvement District. The ordinance was signed by City Council on July 7, 1997. (Ordinances #96-19 and #96-21)

All businesses that locate within the district (generally bounded by 5th, State, 13th and Myrtle Streets) are subject to an annual assessment from Boise City. All businesses in the district are automatically members of the Downtown Boise Association. You will receive a bill from the City of Boise Utility Department for your Business Improvement District Assessment at the end of January for the fiscal year. Businesses are assessed based on square footage, location and type of business. The rate sheet and BID boundary map can be viewed online at www.downtownboise.org.

The Downtown Boise Association provides the following:

Services: The DBA manages the Clean Team which provides general cleaning for downtown sidewalks and manages the flower planters located throughout downtown. Over 400 pots are planted in early May and are maintained until early November. The DBA provides supplemental snow removal for downtown sidewalks whenever 1 or more snow accumulates.

Events: The DBA organizes downtown events located in the Grove such as Aloe After Five, Jazz on the Grove and the Holiday Tree Lighting Celebration. These events also serve as revenue sources for the DBA. The DBA organizes and markets downtown events aimed at the retail sector such as “First Thursday” and “Christmas in the City”, Mother’s Day and Summer Sales and promotes Boise through a marketing campaign called “Fall for Boise”.

Marketing: The DBA sponsors a downtown general advertising campaign. The DBA promotes downtown as a Shopping, Dining, Arts & Entertainment destination through designing and producing the Downtown Boise Map & Directory and distributes annually to purchase T.V., Radio and Print supporting shopping, dining and entertainment throughout the year. The DBA manages a comprehensive gift card program aimed at both general public distribution and major employer incentive programs.

Communication: The DBA supports and maintains a website located at www.downtownboise.org designed to promote all aspects of downtown including downtown shopping & dining opportunities, new business attraction, DBA member services, and current downtown news & information. The DBA hosts member forums on a monthly basis.

Advocacy: The DBA is recognized by Boise City Council as the primary advocate on downtown issues and actively engages in downtown advocacy on behalf of the membership. This enables the DBA to take leadership roles in downtown issues that impact the downtown economy such as parking, access and transportation, visibility, marketing, retail, new business attraction, business retention, vacancy rates and other economic development issues.

I have read the above and understand that my business is located in the Downtown Boise Business Improvement District, and as such will receive an annual assessment from the City of Boise.

Form of Special Warranty Deed
SPECIAL WARRANTY DEED

Special Warranty Deed made this ____ day of ______________, 20___, between CITY CENTER PLAZA EDUCATION, LLC, an Idaho limited liability company (“Grantor”), and Idaho State Board of Education by and through Boise State University, a governmental subdivision of the State of Idaho and a body corporate with all the powers of a public or quasi-municipal corporation, whose address is ____________________________ (“Grantee”), witnesseth:

That Grantor, for and in consideration of the sum of One Dollar and No Cents ($1.00), and other good and valuable consideration, the receipt whereof is hereby acknowledged, does, by these presents, grant, sell and convey unto Grantee and its successors and assigns forever, all the following described real estate (“Property”) situated in the County of Ada, State of Idaho:

SEE EXHIBIT A ATTACHED HERETO AND INCORPORATED HEREIN.

Together with all and singular the tenements, hereditaments, and appurtenances thereunto belonging or in anywise appertaining, the rents, issues and profits thereof; and all estate, right, title and interest in and to the Property, as well in law as in equity, except as expressly provided otherwise herein.

To have and to hold, all and singular the above-described Property together with the appurtenances unto Grantee and its heirs and assigns forever.

Grantor makes no covenants or warranties with respect to title or condition of the Property, express or implied, other than that Grantor has authority to grant, sell, and convey the Property and holds marketable fee simple title to the Property and that previous to the date of this instrument, Grantor has not conveyed the same estate to any person other than Grantee and that such estate is at the time of the execution of this instrument free from encumbrances done, made or suffered by the Grantor, or any person claiming under Grantor, except as set forth herein.

This conveyance is made further subject to (a) any and all easements, restrictions, agreements and encumbrances of record or appearing on the land as of the date of this instrument; (b) the recorded instruments relating to the development of and the creation of the condominium units and appurtenant common areas constituting the Property; (c) the continuing
obligations of Grantee to Grantor relating to the Property which shall survive the conveyance and not merge herewith; and (d) taxes and assessments due but not yet owing as the date hereof.

RIGHT OF FIRST REFUSAL AGREEMENT

Effective ______________, 2014, City Center Plaza Office, LLC, (“Grantor”), and the State of Idaho by and through Idaho State Board of Education by and through Boise State University (“Grantee”), enter into this Right of First Refusal Agreement (the “Agreement”). In consideration for the mutual covenants of Grantor and Grantee, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Grantor and Grantee do hereby agree as follows:

ARTICLE 1
BACKGROUND

1.1 Grantee and Grantor’s affiliate, City Center Plaza Education, LLC, have entered into a Lease Agreement, as amended (collectively, the “Lease”) with respect to Suites 200 and 300, consisting of three condominium units, two located entirely on the 2nd and 3rd floors of the Clearwater Building and one unit located partially on the 3rd floor of the Centre Building (the “Leased Premises”), located on the real property described in Exhibit A attached hereto (the “Property”).

1.2 In connection with the Lease, Grantor has agreed to grant to Grantee a right of first refusal to purchase Suites 500, 600, 700, 800, and 900 located near the Leased Premises in the Clearwater Building on the Property (the “Subject Properties”).

1.3 The Parties hereby desire to enter into this Right of First Refusal Agreement whereby Grantor agrees to grant to Grantee a right of first refusal to purchase the Subject Properties on the terms and subject to the conditions set forth herein.

ARTICLE 2
RIGHT OF FIRST REFUSAL

2.1. Grant of Right. Grantor hereby grants to Grantee the right of first refusal to purchase the Subject Properties, upon the terms and conditions hereinafter set forth. Grantee acknowledges that the rights granted herein are subject to the rights of Clearwater Analytics, LLC, and the tenant presently leasing the Subject Properties, as set forth in its lease with Grantor as well as the rights granted to Clearwater Property Holdings, LLC, a member of Grantor, as set forth in the Operating Agreement governing Grantor (referred to hereafter collectively as the “Clearwater Entities”). Grantee further acknowledges that the rights set forth herein are limited to those condominium Units owned by Grantor, which are limited to the Subject Properties. Grantee finally acknowledges that the exercise of the rights granted herein shall be expressly conditioned upon either Tenant fully performing its obligations under the Lease or Tenant having exercised its rights to purchase the Leased Premises.
2.2. Notice of Transfer. In the event Grantor determines to sell, convey or otherwise transfer the Subject Properties or any portion thereof to a third party, other than the Clearwater Entities, or following the Clearwater Entities’ rejection of such offer or failure to exercise its right of first refusal relating to the Subject Properties, Grantor shall provide Grantee with a written notice setting forth the terms and conditions of the third party offer, with a copy of such third party offer attached thereto (the “Transfer Notice”). Upon receipt of the Transfer Notice, Grantee will have the opportunity at the next available meeting of the Idaho State Board of Education to seek approval to match the purchase offer from the third party. If the Idaho State Board of Education fails to act within forty-five (45) days from the date of the Transfer Notice, then Grantee will be deemed to have waived all of its rights hereunder and this Agreement shall terminate. Upon receipt of such approval, Grantee shall have five (5) days in which to provide Grantor a written notice (the “Notice of Acceptance”) that it will purchase the Subject Properties upon all of the terms and conditions set forth in the Transfer Notice, including the timing for closing. If Grantee does not agree to purchase the Subject Properties, Grantor shall thereafter have the absolute right to transfer the Subject Properties to the third party so long as such sale or transfer is at a price not less than and on terms not more favorable than the price and terms stated in the Transfer Notice. If the third party transaction would be consummated at a price which is less than or upon terms which are more favorable than the price and/or terms set forth in the Transfer Notice, then the Grantor shall provide to Grantee a statement of the modified terms upon which Grantor is willing to sell the Subject Properties or the interest therein (“Modification Notice”). Grantee has five (5) days following receipt of the Modification Notice to provide written notification (“Modified Notice of Acceptance”) to Grantor that Grantee will purchase the Subject Properties or the interest therein under the terms and conditions contained in the Modification Notice. If Grantee fails to deliver a Modified Notice of Acceptance in the time frames as set forth herein, then this Agreement shall terminate and Grantor shall have the absolute right to transfer the Subject Properties upon the terms and conditions set forth in the Modification Notice to a third party.

2.3. Transfer to Clearwater. Grantor may transfer the Subject Properties to the Clearwater Entities at any time without offer of the Subject Properties to Grantee. In the event Grantor transfers the Subject Properties to the Clearwater, Clearwater shall be bound by the provisions of this right of first refusal if it seeks to transfer the Subject Properties to another party, so long as Grantee leases or owns the Leased Premises.

2.4. Due Diligence. Unless a longer term for due diligence is specified in the Transfer Notice, Grantee shall have the period between the Transfer Notice and the delivery of the Notice of Acceptance to conduct its due diligence on the Subject Properties.

2.5. No Conveyance. Except as expressly provided herein, Grantor shall not sell, convey or otherwise transfer the Subject Properties, or any interest therein, unless and until the right of first refusal herein conferred upon Grantee has been exhausted.

2.6. Excluded Conveyances. The rights granted to Grantee in this Agreement shall not apply to a granting of a mortgage loan or to the foreclosure, delivery of a deed in lieu of
foreclosure or similar action of a mortgage loan and shall terminated upon the foreclosure, delivery of a deed in lieu of foreclosure or similar action of a mortgage loan. Grantee agrees to execute any document for the sole purpose of confirming the provisions of this Section required by the holder of such mortgage, deed of trust or other security interest.

2.7 Prohibition on Transfer of Rights by Grantee. Grantor and its affiliates have developed the larger project within which the Leased Premises and the Subject Properties are located as part of a larger commercial mixed use development that has been planned and developed with a very specific mix of tenants and uses. As set forth in the limitation on uses and transfers set forth in Articles VI and IX of the Lease, which are incorporated herein by reference as if fully restated herein, the grant of rights set forth herein are solely for the benefit of Boise State University in the operation and development of certain computer science educational programs and ancillary businesses. As such, the rights set forth herein may not be assigned, conveyed, or otherwise transferred to any other public or private person or entity. No assignment, conveyance, or transfer may occur without the prior written consent of Grantor in each instance, which approval may be withheld in Grantor’s sole and absolute discretion. Any assignment that is not permitted by this Agreement is and shall be null and void for all purposes.

ARTICLE 6
CLOSING

6.1. Closing Obligations of Grantee. The obligations of Grantee under this Agreement, including Grantee’s obligation to close, shall be subject only to the terms and conditions set forth in the Transfer Notice (or the Modification Notice, if applicable).

6.2. Escrow Holder. Prior to Closing, an escrow shall be opened with a title company selected by Grantor (“Escrow Holder”) and Grantee shall deposit any earnest money required by Transfer Notice into the escrow. Grantor shall deposit with the Escrow Holder a duly executed and acknowledged special warranty deed, together with instructions to deliver and record the special warranty deed when Escrow Holder is able to pay the balance of the purchase price specified in the Notice of Acceptance or the Modification Notice. Grantee shall deposit with the Escrow Holder the purchase price with instructions to disburse the purchase price to Grantor upon recordation of the special warranty deed and issuance of a policy of title insurance issued in accordance with Section 3.5 hereof.

6.3. Closing Date. “Closing” shall occur within the period specified in the Transfer Notice.

6.4. Possession. Grantor shall deliver possession of the Subject Properties to Grantee at Closing.

6.5. Costs. Unless otherwise set forth herein, all costs and expenses of a standard owner’s title insurance policy, in the insured amount not to exceed the purchase price, and recording fees shall be paid by Grantee. Additionally, Grantee shall pay for all title insurance premiums that exceed the cost for a standard policy, including the cost of extended coverage and
any endorsements and the cost for any appraisals of the Subject Properties. Grantee shall pay the Escrow Holder’s customary charges for document drafting, recording and miscellaneous charges.

**ARTICLE 7
DEFAULT AND REMEDIES**

7.1. **Remedies upon Default.** In the event a party is in default under this Agreement and such default continues for more than three (3) days after the defaulting party has delivered written notice of default, the non-defaulting party shall be entitled to specific performance of this Agreement, and to any other remedy available in law or equity.

7.2. **Attorneys’ Fees and Costs.** In the event any action is filed to enforce the terms of this instrument, the prevailing party shall be entitled to recover reasonable attorney’s fees and costs incurred in any such action.

7.3. **Governing Law, Jurisdiction, and Venue.** Idaho law shall govern this Agreement. The state and federal courts of Idaho have jurisdiction, and venue for mediation, litigation, and all other proceedings shall be located in Kootenai County, Idaho.

**ARTICLE 8
GENERAL PROVISIONS**

8.1 **Notices.** All notices and other communications (“Notices”) shall be in writing and may be delivered (i) in person, with the date of notice being the date of personal delivery, (ii) by United States Mail, postage prepaid for certified or registered mail, return receipt requested, with the date of notice being the date of the postmark on the return receipt, (iii) by fax, with confirmation of the transmittal of the fax and a copy of the fax deposited on the same day in the United States Mail, with the date of notice being the date of the fax, or (iv) by nationally recognized delivery service such as Federal Express, with the date of notice being the date of delivery as shown on the confirmation provided by the delivery service. Notices shall be addressed to the following addresses or such other address, as one party shall provide the other parties:

If to Grantee: City Center Plaza Office, LLC
Attention: Christian Gardner
90 South 400 West, Suite 360
Salt Lake City, UT 84101

With copy to:

KC Gardner Company, L.C.
Attention: General Counsel
101 S. Capitol Boulevard, Suite 1200
Boise, ID 83702
If to Grantor: Boise State University
Real Estate Services
1910 University Drive
Boise, ID 83725

With copy to:

Boise State University
Office of General Counsel
1910 University Drive
Boise, ID 83725

8.2 **Recordation.** A memorandum of this Agreement shall be recorded in the official records of Ada County, Idaho, in the form attached hereto as Exhibit B.

8.3 **Time of the Essence.** Time is of the essence with respect to the obligations to be performed under this Agreement.

8.4 **Entire Agreement.** This Agreement, together with the Lease constitutes the entire, completely integrated agreement among the parties and supersedes all prior memoranda, correspondence, conversations, and negotiations.

8.5 **Successors.** The benefits and burdens of this Agreement shall extend to and be binding upon the heirs, personal representatives, successors and assigns of the respective parties hereto.

8.6 **Counterparts and Fax Signatures.** This Agreement may be executed in one or more counterparts, each of which shall be deemed to be an original, but all of which together shall constitute one and the same instrument. Telecopied and facsimile signatures shall be effective for purposes of executing and delivering this Agreement.

8.7 **Termination.** This Agreement shall terminate upon (i) the occurrence of an Excluded Conveyance, (ii) Grantee’s failure to deliver a Notice of Acceptance, or (iii) Grantee’s waiver of the rights under this Agreement (“Termination Event”). Upon a Termination Event, Grantee shall deliver a termination notice in recordable form that evidences the termination of this Agreement and the recorded memorandum.

LEGAL DESCRIPTION OF PROPERTY
MEMORANDUM OF RIGHT OF FIRST REFUSAL AGREEMENT

THIS MEMORANDUM OF RIGHT OF FIRST REFUSAL AGREEMENT ("Memorandum") is made as of the ____ day of __________, by and between by City Center Plaza Office, LLC, ("Grantor"), and the State of Idaho by and through Idaho State Board of Education by and through Boise State University ("Grantee").

1. Grantor and Grantee have previously entered into that certain Right of First Refusal Agreement. This Memorandum summarizes the Right of First Refusal Agreement pursuant to Idaho Code Section 55-818 and incorporates by reference all of the terms and provisions of the Memorandum.

2. Grantor has granted the Grantee the right of first refusal to purchase the real property described in Exhibit “A” (the “Property”). The grant of the rights under the Right of First Refusal Agreement are made subject to and subordinate to certain other rights of offer or refusal granted to third parties.

3. The terms, conditions and provisions of the Right of First Refusal Agreement relating to the purchase of the Property shall extend to and be binding upon the heirs, executors, administrators, grantees, successors and assigns of the parties hereto for the duration of the Right of First Refusal Agreement.

4. In the event of any conflict between the Right of First Refusal Agreement and this Memorandum, the Right of First Refusal Agreement shall control.

5. Capitalized terms set forth in this Memorandum shall have the same meanings ascribed for such capitalized terms in the Right of First Refusal Agreement.

LEGAL DESCRIPTION OF PROPERTY TO MEMORANDUM
FIRST AMENDMENT TO LEASE AGREEMENT

This First Amendment to Lease Agreement (this “Amendment”) is made and entered into as of this [____] day of [_______], 20__, by and between 8th STREET PLAZA, LLC, an Idaho limited liability company (the “Landlord”), and STATE OF IDAHO AND IDAHO STATE BOARD OF EDUCATION by and through BOISE STATE UNIVERSITY (the “Tenant”).

RECITALS

WHEREAS, on [______________], Landlord and Tenant entered into that certain Lease Agreement (the “Lease”) pursuant to which Landlord agreed to lease to Tenant, and Tenant agreed to lease from Landlord, the Leased Premises (as defined in the Lease). Capitalized terms used but not defined herein shall have their respective meanings set forth in the Lease.

WHEREAS, in accordance with Section 2.4 of the Lease, Landlord and Tenant agreed to enter into this Amendment.

NOW THEREFORE, in consideration of the foregoing and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Landlord and Tenant hereby agrees as follows:

AGREEMENT

1. Amendment to Section 1.2. Section 1.2 of the Lease is hereby amended to delete the last sentence of Section 1.2. All other references to a Tenant Finish Allowance are hereby deleted from the Lease. Landlord shall not provide Tenant any funds in connection with the completion of the Tenant’s Construction Obligations.

2. Amendment to Section 2.2. Section 2.2 of the Lease is hereby amended to provide that no Termination Fee is due from Tenant in the event Tenant delivers a Termination Notice.

3. Amendment to Section 3.1. Section 3.1 of the Lease is hereby deleted in its entirety and replaced with the following:

3.1 Basic Annual Rent. Tenant agrees to pay to Landlord as basic annual rent (the “Basic Annual Rent”) at such place as Landlord may designate, without prior demand therefore and without any deduction or set off whatsoever, in the amount of Six Hundred Two Thousand Four Hundred Twenty-Six Dollars ($602,426.25), which amount is based on the product of $11.25 per rentable square foot of the Leased Premises. The Basic Annual Rent shall be due and payable in twelve (12) equal monthly installments to be paid in advance on or before the first day of each calendar month during the term of the Lease. Commencing on the first anniversary of the Commencement Date and on each anniversary of the Commencement Date thereafter, Basic Annual Rent shall escalate at the beginning of the 2nd year and every year thereafter using a 3% annually compounded rate. Tenant shall pay the first month’s Basic Annual Rent on or before the Commencement Date. In the event
the Commencement Date occurs on a day other than the first day of a calendar month, then rent shall be paid on the Commencement Date for the initial fractional calendar month prorated on a per-diem basis (based upon a thirty (30) day month).

4. **Amendment to Section 4.1(c)(i).** Section 4.1(c)(i) of the Lease is hereby deleted in its entirety and replace with the following:

   (i) All expenses allocable to the Leased Premises under any of the Condominium Documents for its share, as one or more Units, or sub-Units, of taxes (if any), insurance, maintenance and operation of any common area so designated or defined thereunder, the allocated interest of such Units or sub-Units, of which the Leased Premises are a part, are anticipated to be as follows, but subject to adjustment upon recording of the final Condominium Documents: (Clearwater Building Condominiums: _____%; Centre Building Condominiums: _____%; Multimodal Center Condominiums: _____%; US Bank Plaza Condominiums: _____%).

5. **Amendment to Section 4.1(h).** Section 4.1(h) of the Lease is hereby deleted in its entirety and replace with the following:

   (h) “Tenant’s Proportionate Share” shall mean the percentage derived from the fraction, the numerator of which is the gross rentable square footage of the Leased Premises, the denominator of which is the gross rentable square footage of the portions of the Building owned by Landlord; at any time or from time to time, less than eighty-five percent (85%) of the Centre Building or the Clearwater Building is occupied by tenants who are paying rent during a calendar year or fiscal year, the denominator, for purposes of calculating Tenant’s Proportionate Share, shall be the square footage of the Centre Building or the Clearwater Building actually being leased by tenants who are in occupancy and paying rent. Initially, for the improvements owned by Landlord, the Tenant’s Proportionate Share for the Leased Premises shall be 100% (Premises: 53,549 square feet of Gross Rentable Area/Landlord’s Units 53,549 square feet of Rentable Area). It is anticipated that Tenant’s Proportionate Share, based upon the interests in the Common Areas allocated to the Units comprising the Leased Premises, will be as follows, subject to adjustment upon recording of the final Condominium Documents: (Clearwater Building Condominiums: _____%; Centre Building Condominiums: _____%; Multimodal Center Condominiums: _____%; US Bank Plaza Condominiums: _____%).

6. **Amendment to Section 22.20.** Section 22.20 is hereby amended to provide that the purchase price for the Leased Premises in the event Tenant purchases the Leased Premises pursuant to Section 22.20, shall be $6,422,667.

7. **Amendment to Section 22.21.** Section 22.21 is hereby amended to replace the purchase price table with the following:

8. Amendment to Exhibit “C”. Exhibit “C” is hereby amended to delete in its entirety Section D, which section references payment of a Tenant Finish Allowance.

9. Any and all other terms and provisions of the Lease are hereby amended and modified wherever necessary, and even though not specifically addressed herein, so as to
conform to the amendments set forth in the preceding paragraph. Except as expressly modified and amended hereby, all other terms and conditions of the Lease shall continue in full force and effect.

10. This Amendment contains the entire understanding of Tenant and Landlord and supersedes all prior oral or written understandings relating to the subject matter set forth herein.

11. This Amendment may be executed in counterparts each of which shall be deemed an original. An executed counterpart of this Amendment transmitted by facsimile shall be equally as effective as a manually executed counterpart.

12. This Amendment shall inure for the benefit of and shall be binding on each of the parties hereto and their respective successors and/or assigns.

13. Each individual executing this Amendment does thereby represent and warrant to each other person so signing (and to each other entity for which such other person may be signing) that he or she has been duly authorized to deliver this Amendment in the capacity and for the entity set forth where she or he signs.

[SIGNATURE PAGE FOLLOWS]
IN WITNESS WHEREOF, Landlord and Tenant have entered into this Amendment as of the date first set forth above.

IDAHO STATE UNIVERSITY FOUNDATION

SUBJECT
Annual Report of the Bengal Pharmacy LLC

REFERENCE
April 2013 The Idaho State Board of Education approved the ISU Foundation’s plan to establish and operate a limited liability company.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Sections V.E.2 and I.J.1.a

BACKGROUND/DISCUSSION
In February of 2013, the Idaho State University Foundation received approval from the Board for its plan to establish and operate a limited liability company in which the ISU Foundation would be the sole member. The purpose of Bengal Pharmacy LLC is to expand the research, educational and experiential learning benefits to the faculty and staff of the College of Pharmacy (COP) as well as to offer innovative pharmacy services to University students, employees and the community. A primary focus has been the delivery of medication services to underserved populations. Bengal Pharmacy LLC has functioned as a filling agent for prescriptions over the past year and is expanding to include a tele-pharmacy branch in Arco, Idaho. The start-up capital requested was $400,000, which came from a spendable account maintained by the ISU Foundation for the benefit of the College of Pharmacy. The initial capital outlay from this account has been $160,000.

Due to a delay in obtaining federal 340b certification, the current financial results through March 31, 2014 indicate lower revenues than the projections submitted a year ago. However, conservative spending and management practices have, controlled expenses, thus the first-year net operating loss for the project was ($31,584), not ($153,068) as originally presented. Revenue projections are expected to align with the original proposal now that the 340b program is in place and services are expanding to Arco.

IMPACT
Creation and operation of Bengal Pharmacy LLC is expected to provide a modest financial return to the University’s College of Pharmacy and to the ISU Foundation. More importantly, however, it will provide benefits to the University, the College of Pharmacy, its faculty and students, the public, and the ISU Foundation.
STAFF COMMENTS AND RECOMMENDATIONS
The motion to approve the creation and operation of the Bengal Pharmacy LLC included a directive to report progress to the Board after the first year of operation. The Idaho State University Foundation will provide an update to the Board on the first year results of Bengal Pharmacy LLC. The referenced Attachment was included as part of the original agenda materials at the April 2013 meeting.

BOARD ACTION
This item is for informational purposes only. Any action will be at the Board’s discretion.
Benefits of Bengal Pharmacy LLC

Bengal Pharmacy would afford a variety of benefits to the ISU, the College of Pharmacy, its faculty and students, the public, and the ISU Foundation.

Benefits to the College of Pharmacy and its Faculty and Staff: The Bengal Pharmacy would provide financial, educational, and experiential learning benefits to the faculty and staff of the College of Pharmacy (COP). A number of faculty will members will be reimbursed for their time in managing and guiding the pharmacy. This effort will be in addition to their regular teaching and research obligations and the amounts they are paid will be an initial step in bringing their salaries to a competitive level while not increasing state appropriation needs. This effort will also provide an educational service as faculty members seek effective mechanisms by which the pharmacy can provide remote services to rural communities that are both permissible under applicable licensing restrictions and efficient and effective from a business and customer service perspective. Indeed this work could establish a model for other public or private entities to provide innovative pharmaceutical services and care to patients in rural areas. Professors from ISU’s College of Pharmacy would also be assigned to the pharmacy to satisfy their clinical affiliation obligations. In addition, the College of Pharmacy will benefit from the income that is derived from the operation of the Bengal Pharmacy, enhancing its abilities to fund research, scholarships, salaries, and other valuable programs.

Benefits to College of Pharmacy Students: In addition, the pharmacy will provide educational, research, and employment opportunities for students at the College of Pharmacy. It will offer “hands-on” educational opportunities that allow pharmacy students and residents to actively engage in a unique pharmacy practice incorporating telepharmacy, traditional pharmacy, a heavy emphasis on special population pharmacy services, and greater exposure to research opportunities. The proposed pharmacy would employ at least one pharmacist and as many student interns and residents from ISU’s pharmacy and residency programs as possible. Indeed, pharmacy and other health care students are required to serve internships as part of their academic requirements. It is getting increasingly harder to find hospitals and pharmacies to place our students in because the providers are demanding that ISU (or the State of Idaho) indemnify them for any mistakes the students might make while working in their facility, even though the students are supervised by the facilities’ own staffs. This entity, like the various other clinics currently operated by ISU, would provide an additional vehicle for these internships. By working at the pharmacy, students will develop skills and abilities that are becoming increasingly more important in the current healthcare environment. Partnering with Health West will allow both faculty and students to make valuable and important contacts in the health care industry and to learn to work collaboratively with an industry partner in enhancing patient care. We believe that this collaboration will also be beneficial in building additional industry partnerships and creating additional research opportunities. Indeed, we see a potential for students from
other ISU colleges to participate in research and/or consulting opportunities by advising the pharmacy on strategic initiatives and issues.

Benefits to the ISU Community: Other ISU students and ISU’s faculty and staff will also benefit from the establishment of the Bengal Pharmacy through more comprehensive pharmacy services, expanded hours, and delivery services.

Benefits to the Community: The Bengal Pharmacy will operate as a “filling agent” to Health West under the federal 340-B program, a program that allows qualified health care clinics like Health West to purchase drugs at a discount to help them serve underinsured populations. In this capacity, the Bengal Pharmacy will look for ways to provide the pharmacy services in Health West’s clinics, including in Pocatello, McCammon, Lava, and Downey. The latter three communities do not currently have pharmacies. The existing pharmacies closest to these communities are in Pocatello. Pocatello is 23 miles from McCammon, 21 miles from Lava, and 39 miles from Downey. If we cannot put remote pharmacies in these sites, we will use tele-pharmacy to the extent possible. Thus, the pharmacy will benefit the citizens of Southeast Idaho and potentially the entire State as remote pharmacy services are offered to communities who currently have little or no local pharmacy service available to them. It will also enhance the access and affordability of medications for those patients who need them.

Benefits to the ISU Foundation: In addition, the ISU Foundation will benefit from the income that is derived from the operation of the Bengal Pharmacy, enhancing its abilities to fund scholarships and other valuable programs.

Competition:

Currently, ISU operates a number of other healthcare-related clinics, each of which utilizes ISU students in providing services to the public and each of which competes with local providers of these services. These include:

1. ISU Family Medicine, which is offered in partnership with Health West, Inc., and which provides fee-based medical services to the public using professionals from Health West and interns from ISU’s residency program;

2. ISU Speech, Language and Hearing Clinic, which provides fee-based speech and language evaluation services, individual and group speech and language therapy sessions, and other communication services, hearing assessment and rehabilitation, including hearing aid evaluation, auditory processing evaluation, audiologic rehabilitation and cochlear implants;

3. ISU Meridian – Speech & Language Clinic (no hearing related services), which provides fee-based speech and language evaluation services, individual and group speech and language therapy sessions, and other communication services;
4. ISU Family Dentistry Clinic and the ISU Dental Hygiene Clinic, which provide fee-based dental services to the public;

5. ISU Psychology Clinic, which provides sliding scale, fee-based adult and child counseling services, learning disability testing, as well as memory and cognitive assessments to the public;

6. ISU Physical and Occupational Therapy Associates, which provides physical and occupational therapy services fee-based to the public;

7. VA Audiology Clinic, which provides hearing evaluation, hearing aid evaluation, auditory processing evaluation, audiologic rehabilitation, cochlear implant and other hearing-related services for those eligible for Veterans Services; and

8. ISU-College of Technology Massage Therapy Clinic, which provides fee-based therapeutic massage services to the public.

The only real difference between the Bengal Pharmacy proposal and the existing clinics is that we are proposing that the pharmacy operate as an LLC under the ISU Foundation. This should not make a difference in terms of the competition policy. The only reason we are proposing to put this under the Foundation is because ISU has difficulty in dealing with profit-making ventures and we would like to operate this pharmacy in a way to maximize education benefits but at the same time return a profit (likely a small one) to the Foundation.

Given that the primary reason for operating the pharmacy is educational and that the competition issues are no greater than those posed by the operation of other healthcare clinics, we believe that this venture does not violate the State Board of Education’s policy on competition. Also, given the way insurance contracts work in this area, the Bengal Pharmacy will not be undercutting local pharmacies on price.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Sections V.B.10 and V.F.
Section 33-3804, Idaho Code

BACKGROUND/DISCUSSION
Overview of proposed bonds
The University proposes issuing bonds as follows:
The Series 2014 General Revenue Bonds are being issued to (i) finance the construction of a research center to be referred to as the Integrated Research and Innovation Center (IRIC), (ii) finance the renovation of the College of Education Building and other improvements at the University, in the total aggregate principal amount of $52 million to include costs of issuance associated with the Series 2014 Bonds.

2014 Supplemental Resolution
The 2014 Supplemental Resolution (Attachment 4) authorizes issuance of the Series 2014 Bonds for the purposes outlined above.

Rate, Maturities Security and Ratings
- Interest rates will be determined at pricing, however, the bond market is currently in a very favorable position for these issuances.
- The 2014 bond series will be a fixed rate to maturity. Specific maturities are as follows:
  - Series 2014 Maturity: April 1, 2045
All bond series will be issued as part of the General Revenue Bond System and secured by pledged revenues to include student fees, sales and service revenues from auxiliary enterprises and educational activities, revenues received for facility and administrative cost recovery in conjunction with grants and contracts, various miscellaneous revenues, and certain investment income.

Moody’s Investors Service and Standard & Poor’s ratings will be provided at the Board meeting.

Projects to be Financed

**Integrated Research and Innovation Center (IRIC)**
This proposed facility will establish modern and capable science spaces supporting interdisciplinary research and provide core visualization and computing labs. The facility will be designed to foster interdisciplinary research collaboration and interaction and will include flexible systems and support infrastructure, allowing reconfiguration of spaces supporting changes in programs and research needs over time. Approximately 70,800 gross square feet.

**College of Education Building**
A Capital Project which provides for asbestos remediation and whole building renovation, improvements and restoration. See Attachment 9 for full details of projects.

**IMPACT**
The proposed project(s) to be financed are necessary for the proper operation of the institution and economically feasible. The University now has the opportunity to lock in today’s low rates. The current interest rate market suggests the University could acquire an effective true interest cost (TIC) of approximately 4.14%.

The University’s ten year debt projections (Attachment 1) show the projected debt service needs and the projected debt service sources with respect to the proposed bonds.

- Attachment 9 – Capital Projects details Page 147
STAFF COMMENTS AND RECOMMENDATIONS

Board approval of this bond issuance would bring UI’s total projected annual debt service to approximately $15.3M in FY 2017 (and decreasing thereafter) while funds available for debt service are estimated at $20.86M (and increasing thereafter). Board policy V.F. establishes a limit for overall debt using a debt burden ratio which measures an institution’s dependence on debt as a fund source for financing its operations and the relative cost of debt to an institution’s total expenditures. The limit for this ratio (actual debt service over annual adjusted expenses) is to be no greater than 8.0%. UI’s current debt service as a percent of operating budget is 3.45%. This bond issuance would increase that ratio to 4.08% in the first year, but drop back down into the 3% range thereafter assuming no additional debt issued.

UI’s debt projection revenue assumptions include:

1. $12 million is financed for 30 years at 5.0% interest rate following a mortgage style amortization
2. No growth in the Student Facility Fee
3. Annual operating budget assumes 2.00% growth through 2024
4. Operating budget does not include student loans, but does include gross bond interest prior to impact of U.S. subsidy payment on Build America Bonds
5. Student enrollment remains level throughout projections
6. U.S. Subsidy payments are reduced for FY 2014 according to actual amounts received, and U.S. Subsidy payments are reduced from FY 2015 through 2024 by 7.2%, which reflects the current federal sequestration payment reduction

Staff does not make a recommendation pending rating agency updates and interests rates to be determined the day of pricing.

The IRIC building will be eligible for occupancy costs, so Legislative Services Office and the Division of Financial Management should be so notified pursuant to Board policy V.B.10.
BOARD ACTION

I move to approve the request by the University of Idaho for a Supplemental Resolution for issuance of the Series 2014 bonds and to approve the projects financed thereby as necessary for the proper operation of the University of Idaho and economically feasible, the title of which is as follows:

A SUPPLEMENTAL RESOLUTION of the Regents of the University of Idaho authorizing the issuance and sale of General Revenue Bonds, Series 2014, in the principal amount of up to $52,000,000 (the “Series 2014 Bonds”), authorizing the execution and delivery of a Bond Purchase Agreement, Continuing Disclosure Agreement, Preliminary Official Statement, Final Official Statement and other documents, and providing for other matters relating to the authorization, issuance, sale and payment of the Series 2014 Bonds.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

### Notes and Assumptions:

1. For Projected New Debt Financing, the projections assume $12 million is financed for 30 years at 5.0% interest rate following a mortgage style amortization.
2. Assumes no growth in the Student Facility Fee.
3. Annual operating budget assumes 2.00% growth through 2024.
4. Operating budget does not include student loans, but does include gross bond interest prior to impact of U.S. subsidy payment on Build America Bonds.
5. Student enrollment remains level throughout projections.
6. U.S. Subsidy payments are reduced for FY 2014 according to actual amounts received. U.S. Subsidy payments are reduced from FY 2015 through 2024 by 7.2%, which reflects the current federal sequestration payment reduction.

RATINGS: S&P: " "
Moody's: " "
See "RATINGS" herein.

In the opinion of Skinner Fawcett LLP, Boise, Idaho and Ballard Spahr LLP, Salt Lake City, Utah, as Co-Bond Counsel to the Regents of the University of Idaho (the "Regents"), interest on the Series 2014 Bonds is excludable from gross income for purposes of federal income tax, assuming continuing compliance with the requirements of the federal tax laws. Interest on the Series 2014 Bonds is not a preference item for purposes of either individual or corporate federal alternative minimum tax; however, interest paid to corporate holders of the Series 2014 Bonds may be indirectly subject to alternative minimum tax under certain circumstance. See "TAX MATTERS" herein.

as described herein

Denominations: $5,000 and integral multiples thereof as described herein.

Registration/Book-Entry: The Regents of the University of Idaho General Revenue Bonds, Series 2014 (the "Series 2014 Bonds") are issued as fully registered bonds and, when delivered, will be registered in the name of Cede & Co., as nominee of the Depository Trust Company, New York, New York ("DTC"). DTC will act as securities depository for the Series 2014 Bonds. Beneficial Owners of the Series 2014 Bonds will not receive physical bonds, but will receive a credit balance on the books of the nominees of such purchasers.

Interest Rates With Respect to the Series 2014 Bonds: The Series 2014 Bonds will bear interest at the fixed rates and mature, subject to prior redemption, as shown on the inside cover page of this Official Statement. The interest on the Series 2014 Bonds will be payable on each April 1 and October 1, commencing April 1, 2015. Interest on the Series 2014 Bonds shall be computed upon the basis of a 360-day year, consisting of twelve 30-day months.

Payment: Principal, premium, if any, and interest due with respect to the Series 2014 Bonds will be payable by Wells Fargo Bank, N.A., as Trustee (the "Trustee"), to DTC, which will, in turn, remit such principal, premium, if any, and interest due with respect to the Series 2014 Bonds.

MATURITY SCHEDULE ON INSIDE COVER

Redemption: The Series 2014 Bonds are subject to optional redemption prior to their respective maturities under certain circumstances as described herein. The Series 2014 Bonds are also subject to mandatory sinking fund redemption prior to maturity as described herein.
Authority: Article IX, Section 10 of the Constitution of the State of Idaho confirmed the Regents as the governing body for the University of Idaho (the "University"). Under Idaho law, the Regents are a body politic and corporate of the State of Idaho. The Series 2014 Bonds are being issued as "Additional Bonds" pursuant to a Resolution adopted by the Regents on November 22, 1991, providing for the issuance of revenue bonds (the "Original Resolution"). The Original Resolution provided for the issuance of an initial series of facility revenue bonds and authorized the issuance of additional series of revenue bonds pursuant to Supplemental Resolutions, if certain conditions are met. The Series 2014 Bonds are being issued under a supplemental resolution (the "2014 Supplemental Resolution") adopted by the Regents on June 19, 2014. The Original Resolution, as previously restated, amended and supplemented, and as amended and supplemented by the 2014 Supplemental Resolution, is referred to herein as the "Resolution." The revenue bonds issued pursuant to the Resolution, including the Series 2014 Bonds, are referred to herein as the "Bonds."

Purposes: The Series 2014 Bonds are being issued to (i) finance the construction and equipping of a research center to be referred to as the Integrated Research and Innovation Center, (ii) finance the renovation of the College of Education Building and other improvements at the University and (iii) pay costs of issuance associated with the Series 2014 Bonds.

Security: The Series 2014 Bonds are being issued as part of the General Revenue Bond System created by the Regents in 2005 and are secured by "Pledged Revenues" as defined herein. The lien of the Series 2014 Bonds on the Pledged Revenues is on a parity with the lien thereon of Bonds previously issued by the Regents under the Resolution which, following the delivery of the Series 2014 Bonds, are expected to be Outstanding in the aggregate principal amount of $__________.* The Pledged Revenues include tuition and student fees, sales and service revenues from auxiliary enterprises and educational activities, revenues received for facility and administrative cost recovery in conjunction with grants and contracts, various miscellaneous revenues, and certain investment income. The Series 2014 Bonds are limited obligations of the Regents and do not constitute a debt or liability of the State of Idaho, its Legislature, or any of its political subdivisions or agencies other than the Regents to the extent herein described. The Regents are not authorized to levy or collect any taxes or assessments other than the fees described herein to pay the Series 2014 Bonds. The Regents have no taxing power.

Legal Matters: The Series 2014 Bonds are offered when, as and if issued and accepted by the Underwriter, subject to prior sale and to the delivery of approving opinions by Skinner Fawcett LLP, Boise, Idaho and Ballard Spahr LLP, Salt Lake City, Utah, as Co-Bond Counsel, and to other conditions. Certain legal matters will be passed upon for the Regents and the University by the University's Counsel, Kent E. Nelson, Esq., Moscow, Idaho; and for the Underwriter by Hogan Lovells US LLP, Denver, Colorado. Piper Jaffray & Co. has acted as a municipal advisor to the Regents in connection with its issuance of the Series 2014 Bonds. It is expected that the Series 2014 Bonds will be available for delivery on or about July __, 2014.

NO DEALER, BROKER, SALESPERSON OR OTHER PERSON HAS BEEN AUTHORIZED BY THE REGENTS OR BY THE UNDERWRITER TO GIVE ANY INFORMATION OR TO MAKE ANY REPRESENTATIONS, OTHER THAN AS CONTAINED IN THIS OFFICIAL STATEMENT, AND IF GIVEN OR MADE, SUCH OTHER INFORMATION OR REPRESENTATIONS MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY THE REGENTS OR BY THE UNDERWRITER. THIS OFFICIAL STATEMENT DOES NOT CONSTITUTE AN OFFER TO SELL OR THE SOLICITATION OF AN OFFER TO BUY THE SERIES 2014 BONDS, NOR SHALL THERE BE ANY SALE OF THE SERIES 2014 BONDS BY ANY PERSON IN ANY JURISDICTION IN WHICH IT IS UNLAWFUL FOR SUCH PERSONS TO MAKE SUCH OFFER, SOLICITATION OR SALE.

THE INFORMATION SET FORTH HEREIN HAS BEEN FURNISHED BY THE REGENTS, THE UNIVERSITY, DTC, AND CERTAIN OTHER SOURCES THAT ARE BELIEVED TO BE RELIABLE BUT IS NOT GUARANTEED AS TO ACCURACY OR COMPLETENESS BY, AND IS NOT TO BE CONSTRUED AS A REPRESENTATION BY, THE UNDERWRITER. THE INFORMATION AND EXPRESSIONS OF OPINION CONTAINED HEREIN ARE SUBJECT TO CHANGE WITHOUT NOTICE. THE DELIVERY OF THIS OFFICIAL STATEMENT AND ANY SALE MADE HEREUNDER WILL NOT, UNDER ANY CIRCUMSTANCES, CREATE AN IMPLICATION THAT THERE HAS BEEN NO CHANGE IN THE AFFAIRS OF THE REGENTS OR THE UNIVERSITY SINCE THE DATE HEREOF. ANY STATEMENTS MADE IN THIS OFFICIAL STATEMENT INVOLVING MATTERS OF OPINION OR ESTIMATES, WHETHER OR NOT SO EXPRESSLY STATED, ARE SET FORTH AS SUCH AND NOT AS REPRESENTATIONS OF FACT OR REPRESENTATIONS THAT ESTIMATES WILL BE REALIZED.

IN CONNECTION WITH THIS OFFERING, THE UNDERWRITER MAY OVER ALLOT OR EFFECT TRANSACTIONS THAT STABILIZE OR MAINTAIN THE MARKET PRICE OF THE SERIES 2014 BONDS AT LEVELS ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZATION, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

THIS OFFICIAL STATEMENT IS NOT TO BE CONSTRUED AS A CONTRACT WITH THE PURCHASERS OF THE SERIES 2014 BONDS.

THE UNDERWRITER HAS INCLUDED THE FOLLOWING SENTENCE FOR INCLUSION IN THIS OFFICIAL STATEMENT. THE UNDERWRITER HAS REVIEWED THE INFORMATION IN THIS OFFICIAL STATEMENT IN ACCORDANCE WITH, AND AS PART OF, ITS RESPONSIBILITIES TO INVESTORS UNDER THE FEDERAL SECURITIES LAWS AS APPLIED TO THE FACTS AND CIRCUMSTANCES OF THIS TRANSACTION, BUT THE UNDERWRITER DOES NOT GUARANTEE THE ACCURACY OR COMPLETENESS OF SUCH INFORMATION.

THE SERIES 2014 BONDS HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, IN RELIANCE UPON A SPECIFIC EXEMPTION CONTAINED IN SUCH ACT, NOR HAVE THEY BEEN REGISTERED UNDER THE SECURITIES LAWS OF ANY STATE.

CAUTIONARY STATEMENTS REGARDING PROJECTIONS, ESTIMATES AND OTHER FORWARD-LOOKING STATEMENTS IN THIS OFFICIAL STATEMENT

THESE STATEMENTS ARE MADE DURING THE PERIODES REQUIRED UNDER THE REGULATIONS OF THE U.S. SECURITY AND EXCHANGE COMMISSION. IN ORDER TO QUOTE BONDS IN THE MARKETPLACE, BOND PRICING AND TRADING ACTIVITIES ARE PERIODICALLY REPORTED TO THE SEC AND OTHER REGULATORY AGENCIES. THESE REPORTS ARE ACCESSIBLE TO ANY PERSON MAKING A PUBLIC OFFERING OF SECURED DEBT. THIS OFFICIAL STATEMENT, INCLUDING BUT NOT LIMITED TO THE MATERIAL SET FORTH UNDER THE CAPTIONS "PLAN OF FINANCE" AND "PRO FORMA AND HISTORICAL PLEDGED REVENUES," CONTAINS STATEMENTS RELATING TO FUTURE RESULTS THAT ARE "FORWARD-LOOKING STATEMENTS." WHEN USED IN THIS OFFICIAL STATEMENT, THE WORDS "ESTIMATES," "INTENDS," "EXPECTS," "BELIEVES," "ANTICIPATES," "PLANS," AND SIMILAR EXPRESSIONS IDENTIFY FORWARD-LOOKING STATEMENTS. ANY FORWARD-LOOKING STATEMENT IS SUBJECT TO RISKS AND UNCERTAINTIES THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE CONTEMPLATED IN SUCH FORWARD-LOOKING STATEMENTS. INEVITABLY, SOME ASSUMPTIONS USED TO DEVELOP THE FORWARD-LOOKING STATEMENTS WILL NOT BE REALIZED AND UNANTICIPATED EVENTS AND CIRCUMSTANCES WILL OCCUR. THEREFORE, IT CAN BE EXPECTED THAT THERE WILL BE DIFFERENCES BETWEEN FORWARD-LOOKING STATEMENTS AND ACTUAL RESULTS, AND THOSE DIFFERENCES MAY BE MATERIAL. THE REGENTS DO NOT PLAN TO ISSUE ANY UPDATES OR REVISIONS TO THOSE FORWARD-LOOKING STATEMENTS IF OR WHEN ITS EXPECTATIONS CHANGE OR EVENTS, CONDITIONS OR CIRCUMSTANCES ON WHICH THESE STATEMENTS ARE BASED OCCUR.

OFFICIAL STATEMENT

THE REGENTS OF THE UNIVERSITY OF IDAHO
General Revenue Bonds
Series 2014

INTRODUCTION

This Official Statement, which includes the front cover page, inside cover page, and the Appendices hereto, provides certain information in connection with the offer and sale by the Regents of the University of Idaho (the "Regents") of their General Revenue Bonds, Series 2014 (the "Series 2014 Bonds").

The Series 2014 Bonds are being issued pursuant to the supplemental resolution (the "2014 Supplemental Resolution") adopted by the Regents on June 19, 2014. The Series 2014 Bonds are being issued as "Additional Bonds" under a bond resolution adopted November 22, 1991 (the "Original Resolution"). The Original Resolution, together with the 2014 Supplemental Resolution and previous supplemental resolutions amending, supplementing and restating the Original Resolution and authorizing the issuance of Additional Bonds, are referred to collectively herein as the "Resolution," and the Series 2014 Bonds together with all other bonds heretofore or hereafter issued under the Resolution are referred to collectively herein as the "Bonds." See "THE SERIES 2014 BONDS." Capitalized terms not otherwise defined shall have the meaning assigned in the Resolution.

This introduction is not a summary of this Official Statement. It is only a summary description of and guide to, and is qualified by, more complete and detailed information contained in, the entire Official Statement, including the cover page, inside cover page, and appendices hereto, and the documents summarized or described herein. A full review should be made of the entire Official Statement. The offering of the Series 2014 Bonds to potential investors is made only by means of the entire Official Statement. See Appendix C for definitions of certain words and terms used herein. See Appendix D for a summary of the Resolution.

The Regents and the University of Idaho

A comprehensive land-grant institution, the University of Idaho (the "University") is the State of Idaho's (the "State") oldest institution of higher learning. Its main campus is located in Moscow, Idaho. With an enrollment of approximately 12,000 full and part–time students, the University has been charged with primary responsibility in the State for advanced research and graduate education. The University was established in Moscow in 1889 by the Territorial Legislature, and provisions of the University's Charter as a territorial university are incorporated into the Idaho State Constitution. Policy direction of the University is vested in the Regents of the University of Idaho (the "Regents"), whose members also serve as the Idaho State Board of Education (the "SBOE"). See "THE UNIVERSITY," "HISTORICAL PLEDGED REVENUES," "FINANCIAL OPERATIONS OF THE UNIVERSITY" and the audited financial statements of the University in Appendix A for financial and other information as to the University and the Regents.

* Preliminary, subject to change.
Certain references herein to the "Regents" shall be deemed to refer to the University or other appropriate authority pursuant to the Act and other applicable laws, as appropriate.

Authority for Issuance

The Regents are authorized by the Educational Institutions Act of 1935, constituting Section 33-3801, et seq. of the Idaho Code, as amended (the "Act"), to issue bonds for "projects" (as defined in the Act). The Series 2014 Bonds are being issued pursuant to such statutory authorization and pursuant to the Resolution.

Purpose of the Series 2014 Bonds

The Series 2014 Bonds are being issued to provide funds to (i) finance the construction and equipping of a research center to be referred to as the Integrated Research and Innovation Center (the "IRIC"), (ii) finance the renovation of the College of Education Building and other improvements at the University as further described herein (collectively (i) and (ii), the "Series 2014 Projects"); and (iii) pay costs of issuance associated with the Series 2014 Bonds. See "PLAN OF FINANCE – Series 2014 Projects." See also "SECURITY FOR THE SERIES 2014 BONDS – No Debt Service Reserve Fund."

Terms of the Series 2014 Bonds

Denominations

The Series 2014 Bonds are issuable only as fully registered bonds without coupons in denominations of $5,000, and any integral multiples thereof. See "THE SERIES 2014 BONDS – Generally."

Interest Rates and Payments

The Series 2014 Bonds are dated their date of delivery and bear interest at the rates shown on the inside cover page of this Official Statement, payable semiannually on April 1 and October 1 of each year, commencing April 1, 2015. Interest on the Series 2014 Bonds shall be computed upon the basis of a 360-day year, consisting of twelve 30-day months.

Principal on the Series 2014 Bonds is payable on the dates and in the amounts shown on the inside front cover of this Official Statement, subject to prior redemption. See "THE SERIES 2014 BONDS – Generally."

Redemption

The Series 2014 Bonds are subject to optional redemption prior to their respective maturities under certain circumstances as described in "THE SERIES 2014 BONDS – Redemption Prior to Maturity – Optional Redemption." The Series 2014 Bonds are also subject to mandatory sinking fund redemption prior to maturity as described in "THE SERIES 2014 BONDS – Redemption Prior to Maturity – Mandatory Sinking Fund Redemption."

Book-Entry System

The Depository Trust Company, New York, New York ("DTC") is acting as securities depository for the Series 2014 Bonds through its nominee, Cede & Co., to which principal and interest payments on
the Series 2014 Bonds are to be made. One or more fully registered bonds in denominations in the aggregate equal to the principal amount per maturity of the Series 2014 Bonds will be registered in the name of Cede & Co. Individual purchases will be made in book-entry form only and purchasers of the Series 2014 Bonds will not receive physical delivery of bond certificates, all as more fully described herein. Upon receipt of payments of principal and interest, DTC is to remit such payments to the DTC Participants for subsequent disbursement to the Beneficial Owners of the Series 2014 Bonds. For a more complete description of the Book-Entry System, see "THE SERIES 2014 BONDS – Generally."

For a more complete description of the Series 2014 Bonds and the Resolution pursuant to which such Series 2014 Bonds are being issued, see "THE SERIES 2014 BONDS" and "Appendix D – SUMMARY OF THE RESOLUTION" hereto.

Payment and Security for the Series 2014 Bonds

In connection with the issuance of their General Revenue Refunding Bonds, Series 2005A, the Regents began the process of creating a single bond system (the "General Revenue Bond System") by combining the revenues previously pledged under the Original Resolution with certain other tuition and student fees and revenues it had previously pledged as security on a stand-alone basis to other bond systems and certain previously unpledged tuition and student fees and revenues. The Regents' strategy in creating the General Revenue Bond System was to enhance the security and source of payment for all of its bondholders, while increasing its financial flexibility, but still maintaining accountability for individual enterprises through internal financial policies. The Series 2014 Bonds are being issued as part of the General Revenue Bond System and under the Resolution. See "SECURITY FOR THE SERIES 2014 BONDS."

The Series 2014 Bonds are secured by the Pledged Revenues as defined in the Resolution (as further described herein, the "Pledged Revenues"). The lien of the Series 2014 Bonds on the Pledged Revenues is on a parity with the lien thereon of the Bonds previously issued by the Regents under the Resolution. Following issuance of the Series 2014 Bonds, the Bonds are expected to be Outstanding in the aggregate principal amount of $__________.* See "FINANCIAL OPERATIONS OF THE UNIVERSITY – Schedule of Outstanding Indebtedness" for a list of Outstanding Bonds of the Regents as of June 1, 2014. Under the Resolution, the University has covenanted to collect in each Fiscal Year Pledged Revenues equal to not less than 100% of the Annual Debt Service on the Outstanding Bonds and any Additional Bonds for such year. See "SECURITY FOR THE SERIES 2014 BONDS."

The Regents have appointed Wells Fargo Bank, N.A., to serve as Trustee, bond registrar, authenticating agent, paying agent and transfer agent (the "Trustee") with respect to the Series 2014 Bonds.

Availability of Continuing Disclosure

On the delivery date of the Series 2014 Bonds, the Regents and the Trustee will enter into a Continuing Disclosure Agreement in which the Regents will agree, for the benefit of the owners of the Series 2014 Bonds, to file with the Municipal Securities Rulemaking Board at its Electronic Municipal Market Access system such ongoing information regarding the University as described in "CONTINUING DISCLOSURE."

* Preliminary, subject to change.
Other Information

This Official Statement speaks only as of its date, and the information contained herein is subject to change without notice.

This Official Statement and the Appendices hereto contain brief descriptions of, among other matters, the Regents, the University, the Series 2014 Bonds, the Series 2014 Projects, the Resolution, the Continuing Disclosure Agreement and the security and sources of payment for the Series 2014 Bonds. Such descriptions and information do not purport to be comprehensive or definitive. The summaries of various constitutional provisions and statutes, such contracts, and other documents are intended as summaries only and are qualified in their entirety by reference to such laws and documents, and references herein to the Series 2014 Bonds are qualified in their entirety to the forms thereof included in the Resolution. Copies of such contracts and other documents and information are available, upon request and upon payment to the Trustee of a charge for copying, mailing and handling, from the Trustee at 1700 Lincoln Street, 10th Floor, MAC C7300-107, Denver, Colorado 80203, Attention: Corporate Trust, telephone: (303) 863-5235. During the period of offering of the Series 2014 Bonds copies of such documents are available, upon request and upon payment to George K. Baum & Company of a charge for copying, mailing and handling, from George K. Baum & Company at 1400 Wewatta Street, Suite 800, Denver, CO 80202.

THE SERIES 2014 BONDS

Generally

General information describing the Series 2014 Bonds appears elsewhere in this Official Statement. That information should be read in conjunction with this summary, which is qualified in its entirety by reference to the Resolution and the form of Series 2014 Bonds included in the 2014 Supplemental Resolution. See "Appendix C – GLOSSARY OF CERTAIN TERMS USED IN THE RESOLUTION" and "Appendix D – SUMMARY OF THE RESOLUTION."

Each Series of the Series 2014 Bonds will initially be issued as fully registered bonds without coupons in denominations of $5,000 or any integral multiple thereof. The Series 2014 Bonds will be dated as of the delivery date and will bear interest at the rates and mature, subject to prior redemption, as shown on the inside cover page of this Official Statement.

Book-Entry System

The Series 2014 Bonds, when issued, will be registered in the name of Cede & Co., as nominee for DTC. Payment of the principal of and interest on the Series 2014 Bonds will be made directly to DTC or its nominee, Cede & Co., by the Trustee. For a description of the method of payment of principal, premium, if any, and interest on the Series 2014 Bonds and matters pertaining to transfers and exchanges while registered in the name of Cede & Co., see "Appendix E – DEPOSITORY TRUST COMPANY INFORMATION." So long as the Series 2014 Bonds are registered in the name of Cede & Co., as nominee for DTC, notices or communications to Bondholders with respect to matters described under this caption "THE SERIES 2014 BONDS" will be delivered to DTC or its nominee as registered owner of such Series 2014 Bonds. DTC is responsible for notifying Participants, and Participants (and direct participants in DTC) are responsible for notifying Beneficial Owners of the Series 2014 Bonds. Neither
the Trustee nor the Regents is responsible for sending notices to Beneficial Owners. See "Appendix E – DEPOSITORY TRUST COMPANY INFORMATION."

Payment of Interest

Each Series 2014 Bond will bear interest from and including the delivery date thereof until payment of the principal or redemption price thereof has been made or provided for on the due date thereof in accordance with the provisions of the Resolution, whether at maturity, upon redemption or acceleration or otherwise. Interest on the Series 2014 Bonds shall be computed upon the basis of a 360-day year, consisting of twelve 30-day months.

The Series 2014 Bonds bear interest from their date of delivery to maturity, with the Payment Date for such Series 2014 Bonds on April 1 and October 1 of each year, commencing April 1, 2015.

If a Payment Date is not a Business Day at the place of payment, then payment will be made at that place on the next succeeding Business Day, with the same force and effect as if made on the Payment Date, and, in the case of such payment, no interest will accrue for the intervening period.

The principal of and interest on, and the redemption price of the Series 2014 Bonds shall be payable in lawful money of the United States of America at the principal corporate trust office of the Trustee in Minneapolis, Minnesota, or of any Paying Agent at the option of a Registered Owner. Payment of interest on any fully registered Series 2014 Bond shall be (i) made to the Registered Owner thereof and shall be paid by check or draft mailed to the Registered Owner thereof as of the close of business on the Record Date at his address as it appears on the registration books of the Trustee or at such other address as is furnished to the Trustee in writing by such Registered Owner, or (ii) with respect to units of $500,000 or more of Series 2014 Bonds, made by wire transfer to the Registered Owner as of the close of business on the Record Date next preceding the interest payment date if such Registered Owner shall provide written notice to the Trustee not less than 15 days prior to such interest payment date at such wire transfer address as such Registered Owner shall specify, except, in each case, that, if and to the extent that there shall be a default in the payment of the interest due on any interest payment date, such defaulted interest shall be paid to the Registered Owners in whose name any such Series 2014 Bond is registered at the close of business on the fifth Business Day next preceding the date of payment of such defaulted interest.

Redemption Prior to Maturity

Optional Redemption

The Series 2014 Bonds maturing on or before April 1, ____, shall not be subject to optional call or redemption prior to their stated dates of maturity. On any day on or after ________ 1, ____, at the election of the University, the Series 2014 Bonds maturing on or after April 1, ____, shall be subject to redemption, in whole or in part, in maturities selected by the University and within each maturity as selected by lot by the Trustee, upon notice as described in "Notice of Redemption" under this caption, at par, plus accrued interest to the redemption date.

Mandatory Sinking Fund Redemption

The Series 2014 Bonds maturing on April 1, ____, shall be subject to mandatory redemption and retirement prior to maturity, in part, by lot in such manner as the Trustee shall determine, on April 1 in the
years ____ through ____, inclusive, at 100% of the principal amount thereof plus accrued interest to the
date of redemption, from Mandatory Redemption Amounts in the amounts set forth below:

<table>
<thead>
<tr>
<th>Mandatory Redemption Date</th>
<th>Mandatory Redemption Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>(April 1)</td>
<td>$</td>
</tr>
</tbody>
</table>

(1) Principal remaining at maturity

Upon redemption of any Series 2014 Bonds maturing on April 1, ____, other than by application
of such mandatory sinking fund redemption, an amount equal to the principal amount so redeemed will be
credited toward a part or all of any one or more of such mandatory sinking fund redemption amounts, if
any, for the Series 2014 Bonds maturing on April 1, ____, in such order of mandatory sinking fund date
as shall be directed by the University.

Notice of Redemption

When Series 2014 Bonds are called for redemption through the optional redemption provisions of
the Resolution, unless waived by any Holder of the respective Series 2014 Bonds, notice must be sent by
the Trustee, postage prepaid, by first class mail not less than thirty-five (35) nor more than sixty (60) days
prior to the redemption date to (i) the registered owners of the respective Series 2014 Bonds to be
redeemed at the address shown on the Bond Register, and (ii) one or more national information services
that disseminate notices of redemption of obligations such as the Series 2014 Bonds; provided, however
that no defect in such further notice or failure to give all or any portion of such further notice will in any
manner defeat the effectiveness of a call for redemption.

SECURITY FOR THE SERIES 2014 BONDS

Pledged Revenues

The Series 2014 Bonds are being issued under the Resolution as part of the General Revenue
Bond System created by the Regents in 2005. The Pledged Revenues which secure the Series 2014
Bonds and the other Outstanding and future Bonds issued under the Resolution include the following
tuition and student fees and other revenue sources.

- Tuition and student fees (as further described in "Tuition and Student Fees" below).

- Certain sales and services revenues (as further described in "Sales and Services
Revenues" below).

- Certain revenues received by the University as reimbursement for facility and
administrative costs in conjunction with grants and contracts for research activities
conducted by the University (as further discussed under "Facilities and Administrative
Recovery Revenues", the "F&A Recovery Revenues").
• Various revenues generated from miscellaneous sources, including fines and lease/rental revenues (as further discussed in "Other Operating Revenues" below, the "Other Operating Revenues").

• Investment Income under the Resolution.

• Direct Payments to be made in connection with the University's Taxable Series 2010B Bonds which are "Build America Bonds."

• Proceeds from the sale of a Series of Bonds and moneys and investment earnings thereon, to the extent pledged by the University pursuant to a supplemental resolution.

• Such other revenues as the Regents shall designate as Pledged Revenues.

The following funds and revenues of the University have not been pledged to payment of debt service on the Series 2014 Bonds or other Bonds as part of the Pledged Revenues:

• General Account Appropriated Funds of the State, which by law cannot be pledged; and

• restricted gift and grant revenues, including land grant endowments received pursuant to the University's land grant status.

The Series 2014 Bonds are limited obligations of the Regents and do not constitute a debt or liability of the State, its Legislature, or any of its political subdivisions or agencies other than the Regents to the extent herein described. The Regents are not authorized to levy or collect any taxes or assessments other than the fees described herein to pay the Series 2014 Bonds. The Regents have no taxing power.

Tuition and Student Fees

The Regents have the exclusive ability to establish and collect tuition charges and student fees for resident and non-resident, graduate and professional students attending the University. Tuition and student fee charges are not subject to a referendum by students or approval by any other governmental entity. The Regents have established a policy that the University may not request more than a 10% annual increase in the total full-time tuition and student fees unless otherwise authorized by the Regents. The Regents' established policy is to announce and conduct a public hearing on the modification of any fees, which has traditionally occurred annually, with fee adjustments effective for the subsequent fall term each year. The Regents increased fees by 4% at the April 2014 Regents’ meeting, and the increase becomes effective in the Fall of 2014. There is no prohibition, however, which would preclude the Regents from adjusting fees (for collection beginning with the next academic year) at any time.

For the Fiscal Year ending June 30, 2012, total annual tuition and student fees assessed against full-time undergraduate students who are Idaho residents were $5,856 and the total revenues derived from such tuition and student fees were $78,338,457. For the Fiscal Year ending June 30, 2013, total annual tuition and student fees assessed against full-time undergraduate students who are Idaho residents were $6,212 and the total revenues derived from such tuition and student fees were $82,657,650. For the Fiscal
Year ended June 30, 2014, the total annual tuition and student fees assessed against full-time undergraduate students who were Idaho residents were $6,524. See "Appendix B – 2014-2015 TUITION AND STUDENT FEES" for a description of Tuition and Student Fees approved for Fiscal Year 2015.

Sales and Services Revenues

Sales and Services Revenues include pledged revenues generated through operations of Auxiliary Enterprises and revenues generated incidentally to the conduct of instruction, research and public service activities. The majority of these revenues are generated through auxiliaries including the Housing System; the Parking System; the Non–Residential Food Service System; Bookstore sales; ticket and event sales; recreation center activity charges; and other miscellaneous operations. See "THE UNIVERSITY" for a description of the University's primary revenue generating facilities. Examples of revenues generated incidentally to education are unrestricted revenues generated by the University's testing and training services, labs, sales of scientific materials, sales of miscellaneous services or products, and sales of agriculture and forest products and publications. Sales and Services Revenues pledged for the Fiscal Years ended June 30, 2011, June 30, 2012 and June 30, 2013 were $43,068,366, $44,354,807, and $45,689,284, respectively.

Facilities and Administrative Recovery Revenues

Federal, state, and private funds provided to institutions for scientific research consist of two components. The first component is restricted for use by the institution to pay the direct costs of conducting research, such as the salaries for scientists and materials and labor used to perform each project. The second component is granted to pay for so-called "facilities and administrative costs," which encompass spending by the receiving institution on such items as facilities maintenance and renewal, heating and cooling, libraries, the salaries of departmental and central office staff, and other general administration costs. Such component constituting "facilities and administrative costs" is pledged to the Bonds as F&A Recovery Revenues.

The F&A Recovery Revenues pledged for the Fiscal Years ended June 30, 2011, June 30, 2012 and June 30, 2013 were $10,727,148, $10,590,922 and $10,408,306, respectively.

Other Operating Revenues

The University receives other miscellaneous revenues in the course of its operations. Examples of pledged revenues counted in Other Operating Revenues include fines and lease/rental revenues. In the Fiscal Years ended June 30, 2011, June 30, 2012 and June 30, 2013, the University generated pledged Other Operating Revenues in the amounts of $3,617,633, $3,495,016, and $2,983,307, respectively.

Investment Income

Investment Income, which includes all of the University's unrestricted investment income, is pledged to repayment of the Series 2014 Bonds and other Bonds issued under the Resolution. The amount of Investment Income pledged to the Bonds will not match the amount of investment income shown in the University's audited financial statements which includes restricted investment income. For the Fiscal Years ended June 30, 2011, June 30, 2012 and June 30, 2013, pledged Investment Income earned by the University was $1,454,834, $1,197,651, and $1,218,957, respectively.
Use of Pledged Revenues and Other Revenues Not Otherwise Obligated

After the University has made the payments and deposits required under the Resolution, Pledged Revenues and other amounts remaining in the Revenue Fund held under the Resolution in excess of the amounts necessary to make the required payments thereunder may be used for any legal purpose of the University, including operations and the redemption of the Bonds, subject to policies adopted by the Regents.

Covenants

Covenant to Maintain Coverage

The Regents are obligated under the Resolution to establish and maintain rates, fees, and charges in amounts sufficient to produce Pledged Revenues in each year equal to 100% of the Debt Service on the Bonds and any Additional Bonds outstanding for each Fiscal Year.

Issuance of Additional Bonds

The Resolution provides that Additional Bonds secured by Pledged Revenues may be issued by the Regents upon the satisfaction of various conditions specified therein. The amount of Additional Bonds that may be issued is not limited by law or the Resolution.

The Resolution provides for the issuance of Additional Bonds to finance projects or to refund the Bonds issued under the Resolution and other obligations of the Regents or the University. In connection with the issuance of Additional Bonds, the Regents are required to file, among other things, the following documents with the Trustee:

(i) A copy of the supplemental resolution authorizing the issuance of the Additional Bonds.

(ii) A Written Certificate of the University to the effect that, upon the delivery of the Additional Bonds, the University will not be in default in the performance of any of the covenants, conditions, agreements, terms, or provisions of the Resolution or any supplemental resolution with respect to any Bonds.

(iii) A Written Certificate of the University showing that Estimated Pledged Revenues (assuming completion of the proposed project on its then estimated completion date) will equal at least 100% of the Debt Service on all Outstanding Bonds and any Additional Bonds proposed to be issued for each Fiscal Year of the University during which any Bonds will be Outstanding following the estimated completion date of the project being financed by the Additional Bonds, if interest during construction of the project being financed by the Additional Bonds is capitalized, or (2) the University's current Fiscal Year and any succeeding Fiscal Year during which any Bonds issued will be Outstanding, if interest during construction of the project being financed by the Additional Bonds is not capitalized.

Refunding Bonds may be issued without compliance with the requirements above provided the Refunding Bonds do not increase Debt Service by more than $25,000 per year.
No Debt Service Reserve Account for the Series 2014 Bonds

The Resolution does not require the funding or maintenance of a Debt Service Reserve Account for the Bonds issued under the Resolution, including the Series 2014 Bonds, unless the Regents determine otherwise pursuant to a supplemental resolution. See "PLAN OF FINANCE." However, the Debt Service Reserve Account which was established in connection with the Series 2005A Bonds will continue to be maintained until such Series 2005A Bonds are retired. Amounts in the Debt Service Reserve Account established for Series 2005A Bonds will not be available as security for the Series 2014 Bonds.

Outstanding Bonds; Additional Bonds

The Regents have previously issued and have outstanding under the Resolution Bonds which, following issuance of the Series 2014 Bonds, are expected to be Outstanding in the aggregate principal amount of $___________.* The Series 2014 Bonds will be secured by the Pledged Revenues on a parity lien basis with the Outstanding Bonds. See "PLAN OF FINANCE" and "FINANCIAL OPERATIONS OF THE UNIVERSITY – Schedule of Outstanding Indebtedness." The Regents have the right under the Resolution to issue Additional Bonds if certain conditions for such issuance are met. See "Covenants – Issuance of Additional Bonds" under this caption for a list of some of such conditions.

* Preliminary, subject to change.
### Sources and Uses of Funds

The estimated sources and uses of funds relating to the issuance of the Series 2014 Bonds are shown below.

### Series 2014 Projects

Proceeds from the sale of the Series 2014 Bonds will be used by the Regents to finance the Series 2014 Projects described below.

*Construction and Equipping of the IRIC*

Proceeds of the Series 2014 Bonds in an approximate amount of [$44 million] will be used to finance, in part, the construction of a new facility referred to as the IRIC. This facility will be approximately 70,800 gross square feet and sited at a central location on the Moscow campus. The IRIC is being designed to foster interdisciplinary research and collaboration and interaction, and will include flexible systems and support infrastructure, allowing reconfiguration of spaces supporting changes in programs and research needs of the University over time. The total design and construction costs of the IRIC are estimated to be $49 million. In addition to Series 2014 Bond proceeds, State funds in an amount of $5 million will be used to finance the project costs. To date, the University has funded certain preplanning expenditures for the project in the approximate amount of $938,000. The design development phases for the IRIC are complete and the construction document phase for the project is approximately 90% complete. The University expects construction of the IRIC to commence in July 2014 following delivery of the Series 2014 Bonds and to be completed by the summer of 2016.

* Preliminary, subject to change.
Renovation of the College of Education Building

Proceeds of the Series 2014 Bonds in an approximate amount of [$7,552,500] * will be used to fund, in part, the renovation of the College of Education Building on the University's Moscow campus. This project will include asbestos remediation and complete renovation of the building to provide a safe, aesthetic, technology capable, flexible environment in which the College of Education can deliver programs. The total cost of the renovation project is estimated to be $17,160,000, to be funded with State funds (approximately $6.95 million) and other University moneys (approximately $2.66 million) in addition to such proceeds of the Series 2014 Bonds. The design phase is underway. Abatement of hazardous materials and demolition, the first phase of the project, are expected to take nine months and will begin during the summer of 2014. The renovation is anticipated to begin following phase one and to be completed in order for the facility to be fully functional and operational for the Fall Semester, 2016.

(1) Payable April 1. In the case of certain Bonds, these principal payments are being made upon mandatory sinking fund redemption rather than at maturity.

(2) Payable April 1 and October 1. Interest requirements are stated net of Direct Payments associated with the Series 2010C Bonds. Direct Payments through the final maturity of the Series 2010C Bonds have been decreased by 7.2% to reflect the current and ongoing impact of federal sequestration. For the Series 2007B and the Series 2011 Adjustable Rate Bonds, interest payments are calculated based on an interest rate assumption of 4.50% following initial term period ending April 1, 2018 and April 1, 2021, respectively.

(3) Payable April 1 and October 1 commencing April 1, 2015. Calculated using assumed interest rates solely for purposes of this Preliminary Official Statement.

* Preliminary subject to change.
THE UNIVERSITY

Generally

Student body representation at the University is from every state in the United States and approximately 80 foreign countries. The University alumni population exceeds 95,000. The University's main campus is located in Moscow, Idaho, a community of approximately 23,800 people in the northern portion of the State, about one-mile east of the Washington border and approximately 80 miles south of Coeur d'Alene, Idaho.

University property includes approximately 11,700 acres and 315 buildings, of which 1,585 acres and 251 buildings are located at its main campus in Moscow. The University operates twelve research centers and institutes and six demonstration and training farms with a total acreage of about 1,000 acres used by forestry and agricultural students. The University owns and actively manages 8,160 acres of forest lands, a wilderness field research station in Idaho's primitive area, a veterinary teaching center, and ten research and extension centers in agricultural areas throughout Idaho. The University also operates a Research Park in Post Falls and Resident Instructional Centers in Boise, Coeur d'Alene and Idaho Falls. The University's McCall Outdoor Science School ("MOSS") is located on the McCall Field Campus and borders Payette Lake and Ponderosa State Park. MOSS offers a one-of-a-kind learning experience for Idaho youth, graduate students, teachers and the local community, and was funded with proceeds of the Taxable Series 2013B Bonds.

The University's academic structure includes ten degree-granting colleges: the Colleges of Agricultural and Life Science; Art and Architecture; Business and Economics; Education; Engineering; Graduate Studies; Law; Letters, Arts and Social Sciences; Natural Resources; and Science. In addition to degree programs in each of these colleges, the University includes a College of Graduate Studies and offers medical training for students in association with the University of Washington, School of Medicine. The University has several cooperative programs with Washington State University (located in Pullman, Washington, eight miles from Moscow), including a joint veterinary medical program. This cooperative graduate program has veterinary training facilities in Caldwell, Idaho, which are operated by the University. The University has an optional officer education program, leading to a regular or reserve commission in the U.S. Army, Navy, Marines or Air Force.

Student Body

The University admits all Idaho residents who graduate from accredited high schools with an overall grade point average of at least 3.0 and who completed a defined set of core high school classes. Those with less than a 3.0 high school grade point average must meet set ACT or SAT scores. Home school students, graduates of non-accredited high schools, or students not meeting the admission criteria are considered by a special admission committee. Approximately 66% of the University's fall 2013 student body were residents of the State. The tables on the following page set out certain statistics concerning the University's enrollment for the Fall Terms of the years indicated.

Source: The University

(1) In fall 2012 the University enrollment report date was changed from 10th day of classes to October 15th at the direction of the Regents.

(2) Headcount information is federally reported to IPEDS. Beginning in 2012, professional development only students or co-op students are not included while prior to 2012 IPEDS they were included.
Housing and Student Union Facilities

The University's housing and student union facilities (the revenues from which constitute Auxiliary Enterprise revenues pledged as part of the Pledged Revenues) currently include (i) 12 residence hall buildings containing dormitory style student living; (ii) three apartment complexes, providing housing for upper class students and students with families; (iii) the Idaho Commons Building (the "Commons"); and (iv) the Student Union Building (the "Student Union").

University Residence Halls. The 12 University residence hall buildings can accommodate up to 2,153 students. The University's residence halls offer a variety of amenities including: (i) computer labs and in-room wireless high-speed internet; (ii) recreational and lounge space; (iii) laundry facilities; (iv) kitchen areas; and (v) academic/study space. Over the past five Fiscal Years, the average occupancy rate for the University's residence halls was 86%, and the occupancy rate for Fall 2013 was 84%.

University Apartments. Currently, the University has three apartment complexes, which provide 215 apartments ranging in size from one-bedroom to four bedrooms available for occupancy by students and their families. Amenities available at University apartment complexes include: (i) high-speed wireless internet connections; (ii) in-apartment laundry hook-ups; (iii) play areas; and (iv) a community center. The average occupancy rate for the University's apartments over the past five Fiscal Years was 95%, and the occupancy rate for Fall 2013 was 90%.

Idaho Commons Building. Completed in 2000, the Idaho Commons Building is designed to be the center of campus life and provide programs, amenities, and services to enhance the educational experience of University students. The Commons is a multi-use facility with approximately 100,000 square feet. The facility houses offices for student government, other student organizations, conference rooms with state of the art technology, and academic support services. In addition, the Commons has an information desk, food court, coffee shop, convenience store, satellite University bookstore, credit union, copy center, art gallery, computer kiosks, ATMs and administrative offices. The facilities infrastructure includes high-speed LAN and video data capabilities, public lounges, wireless network, computer checkout, and flat screen monitors to provide information about building and campus activities.

Student Union Building. The approximately 103,500 square foot Student Union is a multi-use facility. Student services were relocated to the Student Union after completion of a renovation in 2000. Currently, the facility houses Student Accounts, the Registrar, Admissions, Student Financial Aid, New Student Services, Jazz Festival, College Assistance Migratory Program, and Student Media Services. In addition, the Student Union has an information desk, conference facilities, including a large ballroom, a movie theatre, and several small meeting rooms, a café, ATMs, and a computer lab.

Spectator and Recreation Facilities

The University's spectator and recreation facilities (the revenues from which constitute Auxiliary Enterprise revenues pledged as part of the Pledged Revenues) include the Kibbie Dome, the Memorial Gym, the Recreation Center, the Dan O'Brien Track Complex, and the University Golf Course. Following is a brief description of these facilities.

Kibbie Dome. The Kibbie Dome was originally constructed in 1972 and is North Idaho's largest athletic spectator facility. It is used for intercollegiate home football games, basketball games, indoor track and field events, as well as high school football playoffs, the Lionel Hampton Jazz Festival, concerts, sport camps, conferences, classes, intramurals, student club activities, and University commencements. In 1984, the "East End" was added to the Kibbie Dome and includes a weight room, recreational and
varsity locker rooms, eight racquetball courts, and athletic training rooms and offices. In 2009, the University completed another expansion of the Kibbie Dome to add the "Vandal Athletic Center," which included a 7,000 square foot weight room, a 1,500 square foot exercise area, an aquatic exercise pool, and a new foyer. Improvements to the Kibbie Dome financed with proceeds of the Taxable Series 2010C Bonds and completed in 2011 included (i) the replacement of the west wall of the facility with translucent panels that will be part of a non-combustible construction assembly for that wall; (ii) replacement of the east end wall with noncombustible construction; (iii) the addition of west end exiting in the new wall; (iv) the addition of handrails in the seating aisles; and (v) the installation of smoke evacuation and associated fire detection alarm and suppression systems, roof ballasting and other miscellaneous items. Additional enhancements included (i) relocation and renovation of the press box to improve functionality with upgrades to telecommunications, video, and audio infrastructure; (ii) creation of the upper level Bud and June Ford Club Room with food and beverage service, restrooms, and gathering space for premium seat and suite buyers; and (iii) construction of eight new Premium Suites and a new President's Suite.

**Memorial Gym.** The Memorial Gymnasium, constructed in 1928, is the oldest athletic building on campus. The building serves as one of the University's indoor sports and entertainment complexes. In addition to hosting varsity volleyball and basketball, the Memorial Gym is used for concerts, community events, state gymnastics meets, regional basketball tournaments, intramural activities and physical education classes, and houses a gymnasium, multi-purpose room, combative room, locker rooms, and various offices.

**The Recreation Center.** The Student Recreation Center was completed in 2002. It is approximately 85,500 square feet in size, and includes more than 7,200 square feet of open recreational space, two regulation-size basketball courts, a multipurpose gymnasium, a large aerobics/cardiovascular multipurpose workout space, a running track, a climbing wall, a child care center, a first-aid and athletic training area, classroom and activity spaces, a cafeteria, and space for rental of recreational equipment.

**Dan O'Brien Track Complex.** The Dan O'Brien Track, named in 1996 for University alumnus and 1996 Olympic Decathlon Gold Medalist Dan O'Brien, was constructed in 1969, and serves as the University's outdoor varsity and recreational track facility. It consists of a 400-meter, 8-lane track, a long jump area, a throwing area, a high jump area, a pole vault area, coaches' offices, and spectator facilities that accommodate approximately 1,000 spectators. Over the winter of 2011-12, the 40-year-old facility underwent a $2.5 million renovation, which features a faster, safer running surface, more efficient use of the infield, and updated draining system.

**University Golf Course.** The University owns and operates an 18-hole golf course on the University's Moscow campus. The course is open to the public approximately eight months each year and provides lessons, cart and club rentals, and a retail pro shop.

**Parking Facilities**

Currently, the University operates and maintains 99 surface parking lots with a total of approximately 6,000 parking spaces. The University has a comprehensive parking plan to ensure that the Parking System is financially self-supporting.

**Employees and Faculty**

As of March 31, 2014, the University had 3,067 employees, consisting of 956 faculty, 589 Research Assistants/Teaching Assistants (which are not considered to be part of the faculty) and 1,522 staff and administration. The student to faculty ratio in the Fall of 2013 was 18 to 1. Employees are not
subject to the State's civil service system; however, the University has adopted a personnel policy with respect to classified employees that is substantially similar to the State's civil service system. The University is not a party to any collective bargaining agreements, although there are employee associations that bring any salary issues and concerns to the attention of the University. The University considers its relations with its employees to be good.

**Employee Retirement Plan; Post Retirement Health Benefits**

Most employees of the University are eligible for one of two retirement plans: the State of Idaho's "Public Employees Retirement System of Idaho" ("PERSI") and the "Optional Retirement Plan" ("ORP"), which has been offered to non-classified employees since 1990.

PERSI provides a defined benefit plan and covers eligible classified and exempt personnel who work 20 hours or more per week. The membership of PERSI includes employees of the State of Idaho, teachers, firemen, police and employees of political subdivisions, local school districts, colleges and universities.

Faculty and exempt staff hired on or after July 1, 1990, have been enrolled in the ORP and faculty and exempt staff hired before that date were offered a one-time opportunity in 1990 to withdraw from PERSI and join the ORP. The ORP is a portable, defined contribution retirement plan with options offered by Teachers' Insurance and Annuity Association/College Retirement Equities Fund and Variable Annuity Life Insurance Company. The total contribution rate will be the same for all employees, with a portion of the employer's contribution for ORP members being credited to the employee's account and a portion to the PERSI unfunded liability until 2015. The ORP covers eligible exempt personnel who work 20 hours or more per week. Based on the audited financial statements for the Fiscal Year 2013, the University had unfunded obligations for post-employment retirement benefits in Fiscal Year 2013 of $41,691,000.

In addition, the University has taken proactive steps to effectively manage and reduce its GASB 45 liability for obligation of post-employment benefits (OPEB) related to retiree health. The University's GASB liability was recorded and recognized on its financial statements for the first time in Fiscal Year 2008. Program changes which include steeper eligibility requirements, retiree cost sharing, integration with Medicare Prescription Drug programs and elimination of some future benefits have reduced the Annual Required Contribution (ARC) from projections of $7.157 million as forecasted in Fiscal Year 2008 to $3.723 million for Fiscal Year 2013. The University has elected to fully fund its ARC in each Fiscal Year.

Beginning with the fiscal year that commences July 1, 2014, the University will be required to record a liability and expense equal to its proportionate share of the collective net pension liability and expense of PERSI due to the implementation of GASB 68. PERSI has not yet determined the University's or other cost-sharing employers' proportionate shares of such liability, and the University cannot determine at this time what its proportionate share will be or what impact any additional funding obligation of the University with respect to its proportionate share will have on the University. The University expects to receive a report from PERSI as to the allocation and effect of PERSI's unfunded liability in early calendar year 2015.

Insurance

The University maintains liability, property, and employee fidelity insurance in amounts deemed adequate by University officials. The University has a full-time risk management staff that administers insurance coverage and claims, and reviews the adequacy of such policies and verifies the University's compliance with insurance requirements imposed by agreements, such as the Resolution. As of March 31, 2014, the total insured replacement value of the University's buildings, contents and improvements was approximately $1.63 billion.

The University began self-funding its medical and dental programs for active employee and retiree health starting July 1, 2005. Self-funding is a financial arrangement in which medical claims are administered by a third-party administrator, but paid directly from University funds instead of by an insurer. The financial risk of the self-funding arrangement is managed through the creation of a financial reserve established by the University to fund unexpected claims and incurred-but-not-reported claims in the event that the self-funding arrangement is ever terminated. In addition, the University's financial exposure for unexpected claims are limited through the purchase of reinsurance (stop-loss coverage) for both individual and aggregate claim liability. When comparing self-funded cost to a fully insured program, the University estimates an approximate savings of $1 million per year in cost under the self-funded health arrangement.

The University continues to take a proactive approach managing its health plans, including offering a High Deductible Health Plan with an HSA, expanding their coverage for wellness related services, and working with an employee advisory group to address needs and concerns of University employees.

FINANCIAL OPERATIONS OF THE UNIVERSITY

The University relies on a number of sources of funding for the achievement of its educational and research missions. The principal sources of revenues are: direct appropriation of State general account revenues by the Idaho Legislature, Tuition and Student Fees, federal government appropriations and grants, gifts to the University, Investment Income, revenues derived from property holdings of the University, land grant endowments received pursuant to the University's land grant status, Sales and Service Revenues and Other Revenues. See "Appendix A – AUDITED FINANCIAL STATEMENTS OF THE UNIVERSITY FOR THE YEARS ENDED JUNE 30, 2013 AND JUNE 30, 2012." Of these revenue sources, Tuition and Student Fees, Investment Income, Sales and Services Revenues, and Other Revenues are pledged to the Bonds, including the Series 2014 Bonds. See "SECURITY FOR THE SERIES 2014 BONDS" for a description of University revenues pledged to the Bonds. The University's other revenue sources not constituting Pledged Revenues are more fully discussed below.

State Appropriations

Legislatively approved State general account original appropriations in Fiscal Year 2014 represent slightly more than 35% percent of the total University budget. The State legislature meets beginning in January of each calendar year and sets budgets and appropriations for all agencies and departments of State government for the Fiscal Year beginning on the ensuing July 1. The legislature may also make adjustments to budgets and appropriations for the Fiscal Year during which the legislature is meeting.
If in the course of a Fiscal Year, the Governor determines that the expenditures authorized by the Legislature for the current Fiscal Year exceed anticipated revenues expected to be available to meet those expenditures, the Governor by executive order may reduce ("Holdback") the spending authority on file in the office of the Division of Financial Management for any department, agency, or institution of the State or request a reversion ("Reversion") of appropriations back to the State to balance the State budget.

The table below sets forth the legislative appropriation from the State General Fund for colleges and universities and for the University net of Reversions.

A reduction of approximately $19 million is shown from Fiscal Year 2010 to 2011 in University of Idaho State Appropriations. This was due to a capital project (Research Dairy) of $10 million being attributed to appropriations in 2010 (the project, ultimately, was not funded), holdbacks of $6.5 million, rescission of $1.5 million and reduction adjustments of $2.6 million.

### Grants and Contracts

The United States government and various other public and private sponsoring agencies, through various grant and contract programs, provide a substantial percentage of the University's operating revenues. The use of such funds is usually restricted to specific projects. Such revenues include grants and contracts for research, public service, instruction and training programs, fellowships, scholarships, endowment scholarship programs, and student aid programs, and grants for construction projects. The University believes it has complied with all material conditions and requirements of these various grants and contracts.

### Financial Assistance

Financial assistance, primarily in the form of student loans, scholarships, grants, student employment, awards, and deferred payments, is available to students. The University believes that the amount of available financial aid is adequate. During the 2012-2013 academic year, the total financial assistance to students received at the University was approximately $114 million, of which approximately $69 million was in the form of direct student loans. No assurance can be given that the level of assistance available in the past will continue.
Federal Appropriations

In accordance with the University's designation as a land grant institution, the United States government provides the University with funds for specific programs. Like most federal governmental programs, however, there is no assurance that these funds will continue to be appropriated.

Land Grant Endowments

The University is the State's land grant university, and as such is entitled to revenues from certain State lands.

Budget Process/Financial Reports

The University operates on an annual budget system. Its Fiscal Year begins July 1 of each year. The budget process, as well as the administration of the expenditures authorized through the process, is administered through the offices of the President and the Vice President for Finance and Administration in collaboration with the departmental faculty and other administrative officers. The internal budget process concludes with a general budget proposal for the following Fiscal Year being submitted in consolidated form by the University administration to the Regents in August of each year.

The University's budget is approved by the Regents prior to the commencement of the Fiscal Year, usually at the June meeting. At that meeting, the Regents, in their capacity as members of the State Board of Education, approve the annual budgets for the other institutions of higher education as well.

Future Plans

A proposed future Research and Classroom building of approximately 80,000 square feet is planned by the University. The overall project cost of the building is estimated at $24 million. Funding is expected to come from bonds ($12 million), State funding ($8 million), federal funding ($1 million), and corporate private giving ($3 million). Timing of the project will be linked to the timing and availability of other fund sources, especially State funding, and is currently projected for FY2017.
Schedule of Outstanding Indebtedness

The table below sets forth the schedule of outstanding indebtedness of the Regents as of June 1, 2014, incurred to provide funding for the University, which does not reflect the issuance of the Series 2014 Bonds.

(1) Includes University Assets Held in Trust by Foundation. See "Change in Reporting for CIT Assets – University Release and Waiver" under this caption.

University of Idaho Foundation

The Foundation is a nonprofit corporation organized under Idaho law in 1970. Its purpose is to receive, manage and otherwise deal in property and apply the income, principal and proceeds of such property for the benefit of the University. A 25-member board of directors, elected annually by the Foundation members, manage the Foundation.

The Foundation receives all gifts to the University and transfers such gifts to the donor-designated area within the University on a regular schedule. In addition, it manages the endowment funds in a pooled investment fund referred to as the Consolidated Investment Trust (the "CIT"). Earnings from the CIT are transferred annually to the University. Some assets invested in the CIT (the "Indenture Assets") are held in trust for the University pursuant to an Indenture Agreement. The Indenture Assets were previously shown as an asset and liability on the Foundation financial statements. In 2013, the University agreed to waive restriction on the Indenture Assets, and as explained in greater detail under "Change in Reporting for CIT Assets – University Release and Waiver," this waiver effected completion of the full transfer of these assets to the Foundation such that dual reporting as asset and liability on the Foundation financial statements (as well as reporting those assets and the change in market value of those assets on the University financial statements) will no longer be necessary after Fiscal Year 2013.

Since Fiscal Year 2004, the University has been required to discretely present the Foundation as a component unit. Financial information concerning the Foundation is contained in Note 20 to the University's audited financial statements included in Appendix A hereto. The table below illustrates total net assets over the last five Fiscal Years.
Change in Reporting for CIT Assets – University Release and Waiver

The CIT was established at the University of Idaho in July 1959 to allow pooling of endowment assets for investment purposes. In 1974, the Regents authorized the University to transfer the CIT to the Foundation in trust under the terms and conditions of an Indenture Agreement. The Foundation has managed the Indenture Assets transferred through the Indenture Agreement since that time. As of February 8, 2013, the value of the Indenture Assets transferred to the Foundation under the Indenture Agreement was $80,990,338. (See footnote 20 of the FY 2013 Audited Financial Statement in Appendix A hereto.)

The Indenture Assets were transferred pursuant to the Indenture Agreement to the Foundation "in trust," reserving the right in the Regents to revoke the Indenture Agreement or to withdraw the Indenture Assets at any time. Consequently, the transfer from the University to the Foundation was not a complete one, and generally accepted accounting principles ("GAAP") applicable to the financial statements for both the University and the Foundation required dual reporting on both the University and the Foundation financial statements of the Indenture Assets and related income (loss) arising from changes in the market value of the Indenture Assets.

Recognizing that the Foundation's total endowment portfolio has grown substantially over the past several decades, coupled with both entities' desire to report their annual financial statements in a clear and concise manner, the current senior leadership of both the University and the Foundation decided to take the steps necessary to eliminate the reporting constraints between the two entities caused by the incomplete nature of the transfer under the Indenture Agreement. Accordingly, on February 8, 2013, the University and the Foundation executed a Release and Waiver of Rights and Restrictions Agreement ("Release") that permanently eliminated the required dual reporting requirements associated with the Indenture Assets. The Release removed reference to "in trust" as well as the right to revoke or withdraw the Indenture Assets.

The effect of the Release was to remove the reporting of the Indenture Assets from the balance sheet of the University (reducing net assets by the market value of the Indenture Assets) and removing the corresponding gain (loss) arising from change in the market value of the Indenture Assets from the University income statement. There was a one-time, non-operating expense of $80,990,338 to the University in the amount of the fair market value of the Indenture Asset as of the date of transfer, February 8, 2013. The Foundation financial statements show an increase in net assets by the market value of the Indenture Assets, and fully show the corresponding gain (loss) arising from change in the market value of the Indenture Assets subsequent to the transfer date. The Foundation statements show a corresponding one-time, non-operating gain of $80,990,338 in the amount of the fair market value of the Indenture Assets as of the date of transfer, February 8, 2013.
While the Release brings about a change in accounting and financial statement reporting, the Foundation will continue to manage the Indenture Assets in the same fashion as it has since the original transfer in 1974. There will be no change in the transfer of income earned by the Indenture Assets from the Foundation to the University, and the University remains the sole beneficiary of the Indenture Assets.

UNIVERSITY GOVERNANCE AND ADMINISTRATION

The responsibility for overall management and determination of University policy and standards is vested with the Regents of the University of Idaho who also serve as the SBOE and simultaneously, among other duties, the Trustees for Boise State University, Idaho State University in Pocatello and Lewis-Clark State College in Lewiston and as the State Board for Professional – Technical Education. The combined boards are appointed by the Governor for five-year terms. The membership, terms, residences and occupations are listed below.

(1) Mr. Luna serves ex-officio to the SBOE in his capacity as State Superintendent of Public Instruction, which is a statewide elective office.
(2) Mr. Terrell is resigning effective June 30, 2014. The timeline for the appointment of a new Board member has not been determined.

The SBOE has a full–time professional staff headed by Mike Rush, Executive Director. His appointment became effective May 2008.
University Officers

The affairs of the University are managed by the President of the University and the staff. The President is appointed by, reports to, and serves at the pleasure of the Regents. Following is a brief biographical resume of President Staben and his executive staff at a Vice President level:

Chuck Staben, President, took office as the 18th president of the University Idaho March 1, 2014. Dr. Staben served as Provost and Vice President for Academic Affairs at the University of South Dakota from August 2008 to February 2014. Prior to his service at South Dakota, he served as the Associate Vice President for Research at the University of Kentucky from 2005 to 2009 and was a professor of biology from 1989 to 2008. Previously Dr. Staben was a postdoctoral researcher at Stanford University from 1987 to 1989 and at Chiron Research Laboratories from 1985 to 1986. He has served on National Science Foundation and National Institutes of Health grant review panels and recently served on a National Research Council committee that reviewed the Experimental Program to Stimulate Competitive Research and the Institutional Development Award programs for the U.S. Senate. Dr. Staben received a B.S. degree from the University of Illinois, Champaign-Urbana, and a Ph.D. in Biochemistry from the University of California, Berkeley.

Katherine G. Aiken, Interim Provost and Executive Vice President, served as the Dean of the College of Letters, Arts, and Social Sciences beginning in 2006 and has worked at the University of Idaho for 25 years. Dr. Aiken is a professor of history and currently serves on the Idaho State Board of Education's Professional Standards Commission and as chair for the Idaho Humanities Council. Dr. Aiken has won 15 teaching awards including the University of Idaho Award for Teaching Excellence, and has been named the ATHENA Woman of the Year. Dr. Aiken was the recipient of Boise State University's Women Making History Award and the Virginia Woolf Distinguished Service Award from the University of Idaho Women's Center. Dr. Aiken has also served as an Associate Dean and Director of Extended Learning at Lewis-Clark State College, Chair of History at University of Idaho and Associate Dean for both the University of Idaho College of Graduate Studies and the College of Letters, Arts and Social Sciences. Dr. Aiken received a Bachelor's degree in history from the University of Idaho, her Master's degree in history from the University of Oregon and her Doctoral degree from Washington State University.

Ronald Smith, Vice President of Finance and Administration, assumed his position at the University of Idaho in July 2011. Dr. Smith was previously the vice president for finance and business affairs at Seattle University. Prior to his tenure in Seattle, Washington, he served as vice president for administrative services for Lewis-Clark State College in Lewiston, Idaho. He also served in several capacities at the University of Idaho for eight years in the late 1980s and early 1990s. A native of Bozeman, Montana, Dr. Smith earned a bachelor of science degree in commerce and accounting from Montana State University; master's degree in business administration from the University of Montana; and a doctorate in higher education administration from the University of Idaho.

John (Jack) K. Melver, Vice President of Research and Economic Development, assumed his position at the University in June 2008. Dr. Melver received his B.S. degree in Mechanical Engineering and Physics at the University of Rochester in 1971, his Masters of Science from the College of Engineering and Applied Sciences at the University of Rochester in 1972, and his Doctorate from the College of Engineering and Applied Sciences at the University of Rochester in 1979. He currently oversees, coordinates and facilitates all University research activities, including sponsored and internally funded research, center and institute research, interdisciplinary research programs, and research related to the University's land grant mission. He has responsibility for all policies and procedures relating to research, technology transfer, economic development, and regulatory compliance and works closely with
the faculty to catalyze, encourage, and support research and scholarly activities. Dr. McIver also has
management responsibility for the University of Idaho Office of Research and Economic Development,
which includes the Office of Sponsored Programs, the Office of Research Assurances, the University
institutes, and the Office of Technology Transfer. He is the principal point of contact for the University
in all research related matters and represents the regional, national, and international research interests of
the University to major research funding agencies and foundations, to regional and national research
consortia, to national laboratories, to federal and state agencies, and to the private sector.

Christopher D. Murray, Vice President for University Advancement, assumed his position at the
University in May 2006. Mr. Murray received his B.A. degree in Journalism at the University of
Southern California in 1983, and his Masters of Business Administration at the University of Southern
California in 1995. Prior to joining the University, he held academic positions at the University of
Southern California (Director of Corporate Relations, Central Development, from 1991 to 1994; Director
of Development, Marshall School of Business, from 1994 to 1996) and the University of Oregon
(Associate Dean, External Affairs – Lundquist College of Business, from 1997 to 2006). He served as a
director of The Muscular Dystrophy Association (MDA) from 1983 to 1991 and as Executive Director of
The Scleroderma Research Foundation from 1996 to 1997. Mr. Murray is responsible for advancement
efforts including designing, articulating and leading comprehensive fund raising, providing oversight and
alignment of activities in the development office, alumni relations, and marketing communications
programs. He also serves as executive director of the University of Idaho Foundation, responsible for
organizing, supporting and directing volunteers in fundraising and advancement efforts.

Kent E. Nelson, was appointed as General Counsel to the University on September 17, 2006.
Prior to his appointment he served from June 1998 to September 2006 as the Senior Deputy Attorney
General in the Contracts and Administrative Law Division of the Idaho Attorney General, where he
served as special projects counsel to the Idaho Board of Land Commissioners and as general counsel to
various state agencies including the State Board of Education and Board of Regents of the University of
Idaho. From September 1984 to June 1998 he was in general civil practice in Boise, Idaho with emphasis
in real estate, transactions, creditors rights and civil litigation. Mr. Nelson received a bachelor's degree in
accounting from the University of Idaho in 1980 and a Juris Doctor in law from the University of Idaho
College of Law in 1984.

TAX MATTERS

The Series 2014 Bonds

Federal Income Tax

In the opinion of Skinner Fawcett, LLP and Ballard Spahr LLP, as Co-Bond Counsel to the
Regents, interest on the Series 2014 Bonds is excludable from gross income for purposes of federal
income tax under existing laws as enacted and construed on the date of initial delivery of the Series 2014
Bonds, assuming the accuracy of the certifications of the Regents and continuing compliance by the
Regents with the requirements of the Internal Revenue Code of 1986. Interest on the Series 2014 Bonds
is not an item of tax preference for purposes of either individual or corporate federal alternative minimum
tax ("AMT"); however, interest on Series 2014 Bonds held by a corporation (other than an S corporation,
regulated investment company, or real estate investment trust) may be indirectly subject to federal AMT
because of its inclusion in the adjusted current earnings of a corporate holder.
Original Issue Premium

Certain of the Series 2014 Bonds may be offered at a premium ("original issue premium") over their principal amount. For federal income tax purposes, original issue premium is amortizable periodically over the term of such Series 2014 Bond through reductions in the holder's tax basis for such Series 2014 Bond for determining taxable gain or loss from sale or from redemption prior to maturity. Amortization of premium does not create a deductible expense or loss. Holders should consult their tax advisors for an explanation of the amortization rules.

Original Issue Discount

Certain of the Series 2014 Bonds may be offered at a discount ("original issue discount") equal generally to the difference between public offering price and principal amount. Original issue discount on a Series 2014 Bond accrues as tax-exempt interest periodically over the term of the Series 2014 Bond. The accrual of original issue discount increases the holder's tax basis in the Series 2014 Bond for determining taxable gain or loss from sale or from redemption prior to maturity. Series 2014 Bondholders should consult their tax advisors for an explanation of the accrual rules.

State of Idaho Income Tax

Co-Bond Counsel is also of the opinion that interest on the Series 2014 Bonds is exempt from State of Idaho personal income taxes.

No Further Opinion

Co-Bond Counsel expresses no opinion regarding any other tax consequences relating to ownership or disposition of, or the accrual or receipt of interest on, the Series 2014 Bonds.

Changes in Federal and State Tax Laws

From time to time, there are Presidential proposals, proposals of various federal committees, and legislative proposals in the Congress and in the states that, if enacted, could alter or amend the federal and state tax matters referred to herein or adversely affect the marketability or market value of the Series 2014 Bonds or otherwise prevent holders of the Series 2014 Bonds from realizing the full benefit of the tax exemption of interest on the Series 2014 Bonds. Further, such proposals may impact the marketability or market value of the Series 2014 Bonds simply by being proposed. It cannot be predicted whether or in what form any such proposal might be enacted or whether if enacted it would apply to Series 2014 Bonds issued prior to enactment. In addition, regulatory actions are from time to time announced or proposed and litigation is threatened or commenced which, if implemented or concluded in a particular manner, could adversely affect the market value, marketability or tax status of the Series 2014 Bonds. It cannot be predicted whether any such regulatory action will be implemented, how any particular litigation or judicial action will be resolved, or whether the Series 2014 Bonds would be impacted thereby.

Purchasers of the Series 2014 Bonds should consult their tax advisors regarding any pending or proposed legislation, regulatory initiatives or litigation. The opinions expressed by Bond Counsel are based upon existing legislation and regulations as interpreted by relevant judicial and regulatory authorities as of the date of issuance and delivery of the Series 2014 Bonds, and Bond Counsel has expressed no opinion as of any date subsequent thereto or with respect to any proposed or pending legislation, regulatory initiatives or litigation.
UNDERWRITING

The Series 2014 Bonds are being purchased by George K. Baum & Company, acting as the Underwriter. The Bond Purchase Agreement relating to the Series 2014 Bonds, entered into between the Underwriter and the Regents, provides that the Underwriter will purchase the Series 2014 Bonds at an aggregate purchase price of $_______ representing (i) the $_______ aggregate par amount of the Series 2014 Bonds, plus (ii) net original issue premium of $_______, minus (iii) net original issue discount of $_______, and Underwriter's discount of $_______. After initial public offering, the public offering prices may vary from time to time. Under the Bond Purchase Agreement, the Underwriter is obligated to purchase all of the Series 2014 Bonds if any are purchased. The Underwriter reserves the right to join with dealers and other underwriters in offering the Series 2014 Bonds to the public.

The Underwriter and its affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. The Underwriter and its affiliates have provided, and may in the future provide, a variety of these services to the University, for which they received or will receive customary fees and expenses.

In the ordinary course of its various business activities, the Underwriter and its affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivative, loans, currencies and other financial instruments for its own account and for the accounts of its customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of the University (directly, as collateral securing other obligations and otherwise) and/or persons and entities with relationships with University. The Underwriter and its affiliates may also communicate independent investment recommendations, market color or trading ideas and/or public or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that it should acquire, long and/or short positions in such assets, securities and instrument.

The Underwriter may offer and sell the Series 2014 Bonds to certain dealers (including dealers depositing the Series 2014 Bonds in investment trusts) and others at prices lower than the offering prices stated on the cover page of this Official Statement. The initial public offering prices stated on the inside cover page may be changed from time to time by the Underwriter.

RATINGS

Moody's Investors Service, Inc. ("Moody's") and Standard & Poor's Ratings Services ("S&P") have assigned underlying ratings of "___" and "___," respectively, to the Series 2014 Bonds. The ratings reflect only the views of the rating agencies, and an explanation of the significance of the ratings may be obtained from the rating agencies. There is no assurance that such ratings will continue for any given period of time or that the ratings may not be revised or withdrawn entirely if, in the judgment of the rating agencies, circumstances so warrant. Any downward revision or withdrawal of such ratings will be likely to have an adverse effect on the market price or marketability of the Series 2014 Bonds. The Regents, the University and the Underwriter have undertaken no responsibility to oppose any such revision or withdrawal.
CONTINUING DISCLOSURE

Upon delivery of the Series 2014 Bonds, the Regents and the Trustee are entering into a "Continuing Disclosure Agreement" pursuant to which the Regents will provide to the Trustee within 180 days following the end of its Fiscal Year, commencing with the Fiscal Year ended June 30, 2014, a copy of the University's annual audited financial statements and such other specified financial information and operating data for such Fiscal Year in form and scope similar to the financial information and operating data included in this Official Statement. The Regents will also agree to deliver to the Trustee notice of certain events described in Rule 15c2-12 as promulgated by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended (the "Rule"). The Trustee will agree to deliver the information and the notices described in the preceding two sentences upon receipt thereof from the Regents to the Municipal Securities Rulemaking Board's (the "MSRB") Electronic Municipal Market Access system pursuant to the Rule. The Trustee will also agree that if it has knowledge that the Regents have not delivered the University's annual audited financial statements or have not provided the financial information and operating data as described above it will directly notify the MSRB of the Regents' failure to deliver such information. A failure by the Regents to comply with the Continuing Disclosure Agreement does not constitute an event of default under the Resolution and the sole remedy of the Bondholders (including any Beneficial Owner) in the event of any failure of the Regents to comply with the Continuing Disclosure Agreement is an action for specific performance.

Except as described in this paragraph and the following paragraph, the Regents have not failed in the past five Fiscal Years to perform any obligation with respect to any existing undertaking to provide continuing disclosure under the Rule. The University filed its audited financial statements for Fiscal Years 2009-2011 and 2013 on a timely basis in accordance with its existing undertakings. On February 6, 2013, the Trustee filed with the MSRB a notice of a failure to timely file the audited financial statements and annual financial information for Fiscal Year 2012 as required by the existing undertakings of the Regents. On February 18, 2013, such Fiscal Year 2012 audited financial statements were filed with the MSRB. The University had previously publically posted the Fiscal Year 2012 audited financial statements on its website on December 13, 2012.

The University has recently determined that certain of the annual financial information and operating data to be provided under its existing undertakings has not been fully updated as part of the annual filings of the audited financial statements. Specifically, the University is required under its existing undertakings to annually update the financial information and operating data set forth under the captions of its official statements entitled " Historical Pledged Revenues," "Tuition and Student Fees," "Sales and Services Revenues," "Facilities and Administrative Recovery Revenues," "Other Operating Revenues," "Investment Income," "Housing and Student Union Facilities," "Employee Retirement Plan; Post Retirement Health Benefits," "Insurance," "State Appropriations," "Financial Assistance," "Schedule of Outstanding Indebtedness" and "Five-Year Historical Enrollment Summary." While much of this financial information and operating data has been included in the University's audited financial statements filed with the MSRB, certain other information and data was made available only in a summary format in such audited financial statements or was included on the University's Institutional Research Department website but not by means of a required annual financial information report filed with the MSRB. The University has filed a notice with the MSRB of a failure to file such required information, and has filed a financial information report including all such required annual financial information and operating data for Fiscal Years 2009 through 2013.

A failure by the Regents to comply with the Continuing Disclosure Agreements must be reported in accordance with the Rule and must be considered by any broker, dealer or municipal securities dealer
before recommending the purchase or sale of the Series 2014 Bonds in the secondary market. Consequently, such a failure may adversely affect the transferability and liquidity of the Series 2014 Bonds and their market price.

LITIGATION

The Regents have reported as of the date hereof that there is no litigation pending or threatened that, if decided adversely to the interests of the Regents or the University, would have a materially adverse effect on the operations or financial position of the Regents or the University. As of the date hereof, there is no litigation of any nature now pending or threatened restraining or enjoining the issuance, sale, execution or delivery of the Series 2014 Bonds or in any way contesting or affecting the validity of, or having a material adverse effect on, the Series 2014 Bonds, the pledge and application of Pledged Revenues or the existence or powers of the Regents or the University.

LEGAL MATTERS

All legal matters incident to the authorization and issuance of the Series 2014 Bonds are subject to the approval of Skinner Fawcett LLP, Boise, Idaho, and Ballard Spahr LLP, Salt Lake City, Utah, as Co-Bond Counsel to the Regents, whose Approving Opinions will be delivered with the Series 2014 Bonds and the form of which are attached as Appendix F to this Official Statement. Certain legal matters will be passed upon for the Regents and the University by the University's Counsel, Kent E. Nelson, Esq., Moscow, Idaho and for the Underwriter by Hogan Lovells US LLP, Denver, Colorado.

MUNICIPAL ADVISOR

The Regents have retained Piper Jaffray & Co. as its municipal advisor (the "Municipal Advisor") in connection with the issuance of the Series 2014 Bonds. The Municipal Advisor is not obligated to undertake, and has not undertaken to make, an independent verification or to assume responsibility for the accuracy, completeness, or fairness of the information contained in this Official Statement. The Municipal Advisor will act as an independent advisory firm and will not be engaged in the business of remarketing, underwriting, trading or distributing the Series 2014 Bonds.

INDEPENDENT AUDITORS

The audited financial statements of the University as of and for the Fiscal Years ended June 30, 2013 and June 30, 2012, included in this Official Statement as Appendix A, have been audited by Moss Adams LLP, independent auditors, except that the financial statements of the University's discretely presented component unit as described in Note 18 to the University's audited financial statements, and the University of Idaho Health Benefits Trust as described in Note 12 to the University's audited financial statements, were audited by other auditors, as stated in their report appearing therein. These financial statements are the most recent audited financial statements of the University.

Moss Adams LLP has not been engaged to perform and has not performed, since the date of its report, any procedures on the audited financial statements addressed in the report. Moss Adams LLP has
not performed any procedures relating to this Official Statement, and has not consented to the use of the audited financial statements of the University in this Official Statement.
This Official Statement, and its distribution and use by the Underwriter, have been duly authorized and approved by the Regents.

Appendices A through F are an integral part of this Official Statement and must be read together with all other parts of this Official Statement.

APPENDIX C

Glossary of Certain Terms Used in the Resolution

[UPDATE]

Except as otherwise expressly provided in the Resolution, as supplemented by Supplemental Resolutions, including the 2014 Supplemental Resolution, or unless the context otherwise requires, the following terms shall have the following meanings (references herein to the "University" shall be deemed to refer to the Regents or other appropriate authority thereof pursuant to the Act and other applicable laws):

**Act** shall mean the Educational Institutions Act of 1935, codified in Title 33, Chapter 38, Idaho Code, as the same shall be amended from time to time.

**Activity Fees** means such fees designated and set from time to time by the Regents or the University, imposed upon each full-time and part-time on-campus student in attendance at the University for activities at the University. Currently such fees include: ASUI general, alumni association fee, campus card, cheerleader program, college dedicated fee, Commons/Union operations, fine arts, intercollegiate athletics, intramural/locker/recreational services, Kibbie Center operations (stadium), marching band, minority student program, sales tax, student advisory services, student recreation center operations, student benefits, health and wellness, and student health services.

**Additional Bonds** means any bonds which the Regents may issue pursuant to Article VII of the Resolution secured by all or a portion of the Pledged Revenues, as may be amended from time to time.

**Amendments** means, collectively, the 2005 Amendments, the 2007 Amendments, the 2010 Amendments, and the 2013 Amendments.

**Approving Opinion** means an Opinion of Counsel to the effect that an action being taken is authorized by the applicable provisions of the Resolution and will not adversely affect the tax-exempt status of interest on the Tax-Exempt Bonds or the status of the Series 2010B Bonds as Build America Bonds.

**Authorized Denomination** means $5,000 or any integral multiple thereof.

**Authorized Officer** of the University shall mean the Bursar or a representative designated by the Bursar.

**Auxiliary Enterprises** shall mean all facilities of the University generating Sales and Services Revenues, including the Housing System, Parking System, Non-Residential Food Service System, Bookstore, and recreational and event facilities.

**Beneficial Owner(s)** shall mean the owners of Bonds and any Additional Bonds issued pursuant to the Resolution, whose ownership is recorded under the Book-Entry-Only System maintained by the Securities Depository as described in the Resolution.

**Bond Fund** shall mean the fund created by the Resolution, consisting of two accounts: (1) Debt Service Account and (2) Debt Service Reserve Account.
**Bond Purchase Agreement** means the Bond Purchase Agreement dated June __, 2014, between the Regents and the Underwriter pursuant to which the Series 2014 Bonds and the Taxable Series 2014B Bonds are sold.

**Bond Register** shall mean the registration records of the Regents, maintained by the Trustee, on which shall appear the names and addresses of the Registered Owners of the Bonds and any Additional Bonds.

**Bond Resolution or Resolution** shall mean the Bond Resolution adopted by the Regents on November 22, 1991, providing for the issuance of General Revenue Bonds, as from time to time amended and supplemented by the Supplemental Resolutions.

**Bond Year** means the one-year period (or, in the case of the first Bond Year, the shorter period from the date of issue of the Bonds) selected by the University. If no date is selected by the University within five years of the date of delivery of a series of Bonds, each Bond Year shall end at the close of business on the date preceding the anniversary of the date of delivery of a series of Bonds.

**Bonds** shall mean, collectively, the Bonds issued pursuant to the Resolution and Additional Bonds issued pursuant to any Supplemental Resolutions.

**Book-Entry System** shall mean the book-entry system of registration of the Bonds and any Additional Bonds as described in the Resolution.

**Build America Bonds** means the interest subsidy bonds issuable by the University under Sections 54AA and 6431 of the Code and a qualified bond under Section 54AA(g)(2) of the Code or such other tax credit bonds of substantially similar nature which may be hereafter authorized.

**Bookstore** means the University's bookstore facilities located on the Moscow campus, in which books, supplies and merchandise are sold.

**Bursar** means the officer so designated by the University as chief financial officer of the University, currently the Vice President of Finance and Administration, including any acting Bursar designated by the University.

**Business Day** means, with respect to the Series 2014 Bonds, a day, other than Saturday or Sunday on which banks located in the State of Idaho or in the city where the principal corporate trust office of the Trustee is located are open for the purpose of conducting commercial banking business.

**Cede & Co.** shall mean Cede & Co., as nominee of DTC.

**Code** shall mean the Internal Revenue Code of 1986, as amended and supplemented from time to time, and the regulations promulgated thereunder.

**Construction Fund** shall mean the special account created by the Resolution, from which the Costs of Acquisition and Construction of a Project shall be paid.

**Continuing Disclosure Agreement** means the Continuing Disclosure Agreement between the Regents and the Trustee as Dissemination Agent with respect to the Series 2014 Bonds.
Cost(s) of Issuance shall mean printing, Rating Agency fees, legal fees, underwriting fees, fees and expenses of the Trustee, bond insurance premiums, if any, and all other fees, charges, and expenses with respect to or incurred in connection with the issuance, sale, and delivery of a series of Bonds.

Debt Service for any period shall mean, as of any date of calculation, an amount equal to the Principal Installment and interest accruing during such period on the Bonds, plus any Payment due under a Parity Payment Agreement. Such Debt Service on the Bonds shall be calculated on the assumption that no portion of the Bonds Outstanding at the date of calculation will cease to be Outstanding except by reason of the payment of the Principal Installment on the Bonds on the due date thereof. For any Series of Variable Rate Bonds bearing interest at a variable rate which cannot be ascertained for any particular Fiscal Year, it shall be assumed that such Series of Variable Rate Bonds will bear interest at a fixed rate equal to the higher of (i) the average of the variable rates applicable to such Series of Variable Rate Bonds during any twenty-four month period ending within thirty (30) days prior to the date of computation, or (ii) 110% of the Bond Buyer 25 Revenue Bond Index most recently published prior to the computation date but bearing interest at a fixed rate. There shall be excluded from "Debt Service" (i) interest on Bonds (whether Cross-over Refunding Bonds or Cross-over Refunded Bonds) to the extent that Escrowed Interest is available to pay such interest, and (ii) principal on Cross-over Refunded Bonds to the extent that the proceeds of Cross-over Refunding Bonds are on deposit in an irrevocable escrow in satisfaction of the requirements of Section 57-504, Idaho Code, and such proceeds or the earnings thereon are required to be applied to pay such principal (subject to the possible use to pay the principal of the Cross-over Refunding Bonds under certain circumstances) and such amounts so required to be applied are sufficient to pay such principal.

Debt Service Account shall mean the account of that name created within the Bond Fund by the Resolution which acts as a reserve for certain Bonds, but not the 2014 Bonds.

Debt Service Reserve Account shall mean the account of that name created within the Bond Fund by the Resolution.

Direct Obligations means noncallable Government Obligations.

Direct Payments means the interest subsidy payments received by the University from the United States Treasury pursuant to Section 6431 of the Code or other similar programs with respect to Series 2010C Bonds issued under the Resolution.

DTC means The Depository Trust Company, New York, New York.

DTC Participants shall mean those financial institutions for whom the Securities Depository effects book-entry transfers and pledges of securities deposited with the Securities Depository, as such listing of Participants exists at the time of such reference.

Educational Activities Revenues shall mean revenues generated incidentally to the conduct of instruction, research and public service activities, such as unrestricted revenues generated by the University's testing and training services, labs, sales of scientific materials, sales of miscellaneous services and products, and agriculture and forest products.

Estimated Pledged Revenues means, for any year, the estimated Pledged Revenues for such year, based upon estimates prepared by the Bursar and approved in accordance with procedures established by the Regents. In computing Estimated Pledged Revenues, Pledged Revenues may be adjusted as necessary to reflect any changed schedule of fees or other charges adopted and to become effective not later than the
next succeeding Fiscal Year of the University and any estimated gain in enrollments of students subject to payment of fees in the academic year next succeeding the delivery of a series of bonds in connection with which an estimate is made. In estimating Operation and Maintenance Expenses, recognition shall be given to any other revenues which may be designated by the Regents and to any anticipated change in the Operation and Maintenance Expenses. Amounts reasonably anticipated to be paid from sources other than Pledged Revenues may be excluded from the estimated Operation and Maintenance Expenses.

Event of Default shall mean one or more of the events enumerated in the Resolution and described here in Appendix D – "Events of Default and Remedies of Registered Owners."

F&A Recovery Revenues shall mean the revenues received by the University as reimbursement for facility and administrative costs in conjunction with grants and contracts for research activities conducted by the University.

Facility Fees shall mean such fees designated and set from time to time by the Regents and the University, imposed upon each full-time and part-time on-campus student in attendance at the University for facilities at the University.

Fiscal Year shall mean the annual accounting period of the University, beginning July 1 in a year and ending June 30 of the following year.

Fitch means Fitch Ratings, its successors and their assigns, and, if such entity shall be dissolved or liquidated or shall no longer perform the functions of a securities rating agency, "Fitch" shall be deemed to refer to any other nationally recognized securities rating agency designated by the Regents, with notice to the Trustee.

General Account Appropriated Funds shall mean general account appropriated funds of the State of Idaho which in accordance with governmental accounting standards and the University's audited financial statements are treated as non-operating revenues and accordingly such revenues are not included in the definition of Other Operating Revenues for purposes of generating Pledged Revenues under the Resolution, and in any event are excluded from Pledged Revenues.

General Revenue Bond System means the single revenue bond system created under the Resolution under which the Series 2014 Bonds are issued and Additional Bonds may be issued.

Generally Accepted Accounting Principles shall mean those accounting principles applicable in the preparation of financial statements of business corporations as promulgated by the Financial Accounting Standards Board or such other body recognized as authoritative by the American Institute of Certified Public Accountants.

Government Obligations means solely one or more of the following:

(a) State and Local Government Series issued by the United States Treasury ("SLGS");
(b) United States Treasury bills, notes and bonds, as traded on the open market;
(c) Zero Coupon United States Treasury Bonds; and
(d) Any other direct obligations of or obligations unconditionally guaranteed by, the United States of America (including, without limitation, obligations commonly referred to as "REFCORP strips").

Housing System shall mean the University's system of (i) on campus, student group housing facilities and related facilities, including family student housing; and (ii) the Residence Hall System.

Investment Income shall include investment earnings on all unrestricted University funds and accounts.

Investment Securities shall mean and include any securities authorized to be acquired by the Treasurer of the State of Idaho pursuant to Section 67-1210 and 67-1210A, Idaho Code, or any successor Code section specifying legal investments.

Issue Date means, with respect to any Series 2014 Bonds, the date on which such Series 2014 Bonds are first delivered to the purchasers thereof.

Mandatory Redemption Amount(s) shall mean the mandatory deposits established for any Bonds as designated in a Supplemental Resolution. The portion of any Mandatory Redemption Amount remaining after the deduction of any amounts credited pursuant to the Resolution (or the original amount of any such Mandatory Redemption Amount if no such amounts shall have been credited toward the same) shall constitute the unsatisfied balance of such Mandatory Redemption Amount for the purpose of calculation of Mandatory Redemption Amounts due on a future date.

Maximum Annual Debt Service shall mean an amount equal to the greatest annual Debt Service with respect to the Bonds for the current or any future Bond Year.

Moody’s means Moody's Investors Service, Inc., a corporation organized and existing under the laws of the State of Delaware, its successors and assigns and, if such entity shall be dissolved or liquidated or shall no longer perform the functions of a securities rating agency, "Moody's" shall be deemed to refer to any other nationally recognized securities rating agency (other than S&P or Fitch) designated by the Regents, with notice to the Trustee.

Net Proceeds, when used with reference to any series of Bonds, shall mean the aggregate principal amount of the series of Bonds, less the Costs of Issuance.

Non-Residential Food Service System means the University's system of providing food services for the University's students, faculty, staff, employees and invited guests at all University facilities on the Moscow campus, excluding board charges for food service in the University's Residence Hall System.

Opinion of Counsel means a written opinion of counsel satisfactory to the Regents and not objected to by the Trustee with respect to the Series 2014 Bonds.

Other Fees shall consist of the graduate/professional fee, law college dedicated fee, the architecture school dedicated fee, non-resident fee, the in service teacher education fee, and the western undergraduate education fee, general education fees for part-time and summer students which are currently designated by the Regents as the "Part-time Educational Fee" and "Summer School Fee" and such other fees as the University shall hereafter establish.
Other Operating Revenues shall mean revenues received by the University generated from miscellaneous sources, i.e., fines and rent/lease revenues.

Outstanding, when used with reference to the Bonds, as of any particular date, shall mean the Bonds which have been issued, sold and delivered under the Resolution, except (i) the Bonds (or portion thereof) cancelled because of payment or redemption prior to their stated date of maturity, and (ii) the Bonds (or portion thereof) for the payment or redemption of which there has been separately set aside and held money for the payment thereof.

Parking System shall mean the on-campus parking system at the University campus in Moscow, Idaho.

Payment Date means, with respect to the Series 2014 Bonds, each April 1 and October 1, commencing April 1, 2015.

Pledged Revenues shall include (i) Tuition and Student Fees; (ii) Sales and Services Revenues; (iii) the F&A Recovery Revenues; (iv) Other Operating Revenues; (v) Investment Income; (vi) Direct Payments; (vii) proceeds from the sale of a Series of Bonds and moneys and investment earnings thereon, except as otherwise provided in the Resolution or a Supplemental Resolution; and (viii) such other revenues as the Regents shall designate as Pledged Revenues.

Notwithstanding the definition set forth above and, in particular, notwithstanding clause (viii) in no event shall Pledged Revenues include (i) General Account Appropriated Funds or (ii) Restricted Fund Revenues.

President shall mean the president of the Regents.

Principal Installment shall mean, as of any date of calculation and with respect to any series of Bonds then Outstanding, (A) the principal amount of Bonds of such series due on a certain future date for which no Mandatory Redemption Amounts have been established, or (B) the unsatisfied balance (determined as provided in the definition of Mandatory Redemption Amount in this section) of any Mandatory Redemption Amount due on a certain future date for Bonds of such series, plus the amount of the mandatory redemption premiums, if any, which would be applicable upon redemption of such Bonds on such future date in a principal amount equal to such unsatisfied balance of such Mandatory Redemption Amount, or (C) if such future dates coincide as to different Bonds of such series, the sum of such principal amount of Bonds and of such unsatisfied balance of such Mandatory Redemption Amount due on such future date plus such applicable redemption premiums.

Private Person shall mean any natural person engaged in a trade or business, the United States of America or any agency thereof, or any trust, estate, partnership, association, company or corporation. A state or local governmental unit is not a private person.

Private Person Use shall mean the use of property in a trade or business by a Private Person if such use is other than as a member of the general public. Private Person Use includes ownership of the property by the Private Person as well as other arrangements that transfer to the private Person the actual or beneficial use of the property (such as a lease, management or incentive payment contract or other special arrangement) in such a manner as to set the Private Person apart from the general public. Use of property as a member of the general public includes attendance by the Private Person at municipal meetings or business rental of property to the Private Person on a day-to-day basis if the rental paid by such Private Person is the same as the rental paid by any Private Person who desires to rent the property.
Use of property by nonprofit community groups or community recreational groups is not treated as Private Person Use if such use is incidental to the governmental uses of property, the property is made available for such use by all such community groups on an equal basis and such community groups are charged only a de minimis fee to cover custodial expenses.

**Project** shall mean any "project" as defined in the Act that is financed with the proceeds of Bonds or Additional Bonds issued under the Resolution.

**Project Account** shall mean an account established by the Trustee within the Construction Fund for a Project.

**Rating Agency** means Fitch, S&P, Moody's or any other nationally recognized rating agency, in each case then providing or maintaining a rating on the Series 2014 Bonds at the request of the Regents.

**Rebate Fund** means the fund by that name established by the Resolution.

**Record Date** shall mean the 15th day of the calendar month next preceding any interest payment date, as provided in the Resolution.

**Regents** shall mean the Board of Regents of the University of Idaho.

**Registered Owner** or **Owner(s)** shall mean the person or persons in whose name or names the Bonds shall be registered in the Bond Register maintained by the Trustee in accordance with the terms of the Resolution.

**Replacement Bonds** shall mean the Bonds described as such in the Resolution, and any Additional Bonds issued as Replacement Bonds in accordance therewith.

**Residence Hall System** means the University's on-campus residence hall housing facilities, including the Wallace Residence Hall and Cafeteria Complex, the McConnell Residence Hall, the Gault-Upham Residence Hall and the Theophilus Tower Residence Hall, and food service and dining facilities and related and subordinate facilities.

**Restricted Fund Revenues** shall mean all revenues that the University is obligated to spend in accordance with restrictions imposed by external third parties, such as revenues from grants, contracts, gifts and scholarships.

**Revenue Fund** shall mean the Revenue Fund established by the Resolution.

**S&P** means Standard & Poor's Ratings Services, its successors and their assigns, and, if such entity shall be dissolved or liquidated or shall no longer perform the functions of a securities rating agency, "S&P" shall be deemed to refer to any other nationally recognized securities rating agency (other than Fitch or Moody's) designated by the Regents, with notice to the Trustee.

**Sales and Services Revenues** shall include all revenues generated through operations of the Auxiliary Enterprises and the Educational Activities Revenues.

**Secretary** means the secretary of the Regents.
Securities Depository shall mean DTC, or any successor Securities Depository appointed pursuant to the Resolution.

Series 2005A Bonds means the $30,740,000 principal amount of General Revenue Refunding Bonds, Series 2005A.

Series 2007B Bonds means the $35,035,000 Adjustable Rate General Revenue Refunding Bonds, Series 2007B.

Series 2010A Bonds means the $3,975,000 principal amount of General Revenue Refunding Bonds, Series 2010A.

Series 2010B Bonds means the $10,150,000 principal amount of General Revenue Bonds, Series 2010B.

Series 2010C Bonds means the $13,145,000 principal amount of Taxable General Revenue Bonds, Series 2010C.

Series 2011 Bonds means the $58,930,000 principal amount of Series 2011 Bonds.

Series 2014 Project means the financing of various capital improvements.

Series 2014 Project Account means the account established under the 2014 Supplemental Resolution into which shall be deposited certain proceeds of the Series 2014 Bonds.

Series 2014 Bondholder, Holder and Bondholder means the holder of any Series 2014 Bond.

Series 2014 Bonds means the General Revenue Bonds, Series 2014A.

Series 2014 Costs of Issuance shall mean the Costs of Issuance incurred in connection with the issuance, sale and delivery of the Series 2014 Bonds.

Series 2014 Costs of Issuance Fund shall mean the fund established pursuant to the 2014 Supplemental Resolution into which shall be deposited the portion of the proceeds of the Series 2014 Bonds necessary to pay the Series 2014 Costs of Issuance, as further provided in the 2014 Supplemental Resolution.

Student Fees shall consist of Tuition Fees, Activity Fees, Facility Fees, the Technology Fee, and Other Fees.

Supplemental Resolution means any resolution amending or supplementing the terms of the Resolution in full force and effect which has been duly adopted and approved by the University under the Act; but only if and to the extent that such Supplemental Resolution is adopted in accordance with the provisions of the Resolution.

Technology Fee shall include the Student Computing and Network Access Fee to support the University's technological operations, as assessed against full-time and part-time students at the University and as said fees now exist and may hereafter be revised by the Regents or the University.

Terms Certificate means one or more certificates of the Regents signed by the Bursar or authorized designee in substantially the form attached to the 2014 Supplemental Resolution, specifying certain terms of the Series 2014 Bonds.

Trustee shall mean Wells Fargo Bank, N.A., Boise, Idaho, which shall also act as bond registrar, authenticating agent, paying agent and transfer agent with respect to the Series 2014 Bonds, or its successors in functions, as now or hereafter designated.

Tuition and Student Fees shall consist of the Tuition Fee, the Activity Fees, the Facility Fees, the Technology Fee, and Other Fees.

Tuition Fee(s) shall mean the student tuition established by the Regents. Tuition fees are defined as the fees charged for any and all educational costs at University. Tuition fees include, but are not limited to, costs associated with academic services; instruction; the construction, maintenance, and operation of buildings and facilities; student services; or institutional support.

2005 Amendments means amendments to the Resolution as described in the 2005A Supplemental Resolution.

2007 Amendments means amendments to the Resolution as described in the 2007 Supplemental Resolution.

2010 Amendments means amendments to the Resolution as described in the 2010 Supplemental Resolution.

2013 Amendments means amendments to the Resolution as described in the 2013 Supplemental Resolution.

Underwriter shall mean George K. Baum and Company, or its successor in function, as the original purchaser of the Series 2014 Bonds.

University shall mean the University of Idaho, at Moscow, Idaho, a body politic and corporate pursuant to the provisions of Article 9, Section 10, Idaho Constitution and Section 33-2801, Idaho Code.
Written Certificate of the University shall mean an instrument in writing signed on behalf of the University by a duly Authorized Officer thereof. Every Written Certificate of the University, and every certificate or opinion of counsel, consultants, accountants or engineers provided for in the Resolution shall include: (A) a statement that the person making such certificate, request, statement or opinion has read the pertinent provisions of the Resolution to which such certificate, request, statement or opinion relates; (B) a brief statement as to the nature and scope of the examination or investigation upon which the certificate, request, statement or opinion is based; (C) a statement that, in the opinion of such person, he has made such examination or investigation as is necessary to enable him to express an informed opinion with respect to the subject matter referred to in the instrument to which his signature is affixed; and (D) with respect to any statement relating to compliance with any provision hereof, a statement whether or not, in the opinion of such person, such provision has been complied with.
APPENDIX D

Summary of the Resolution

[UPDATE]

The following is a summary of certain provisions of the Resolution as supplemented and amended by Supplemental Resolutions, including the Supplemental Resolution adopted June 19, 2014 (the "2014 Supplemental Resolution"), and is not to be considered a full statement thereof. Reference is made to the Resolution and the 2014 Supplemental Resolution. The Resolution and all Supplemental Resolutions are on file at the University, c/o Ronald Smith, Bursar, Administration Building, Room 211, P.O. Box 443168, Moscow, Idaho 83844-3166; or at the office of the Trustee, Wells Fargo Bank, N.A., 877 Main Street, Third Floor, Boise, Idaho 83702. See also "THE SERIES 2014 BONDS" and "SECURITY FOR THE SERIES 2014 BONDS" in the body of the Official Statement.

GENERAL PROVISIONS RELATING TO THE BONDS

Authorization of Bonds

Bonds designated as "General Revenue Bonds" are authorized to be issued by the Regents under the Resolution. The maximum principal amount of the Bonds which may be issued is not limited; provided, however, that the Regents reserve the right to limit or restrict the aggregate principal amount of the Bonds which may at any time be issued or Outstanding under the Resolution. Bonds may be issued in such Series as from time to time shall be established and authorized by the Regents subject to the provisions of the Resolution. The Bonds may be issued in one or more Series pursuant to one or more Supplemental Resolutions. The designation of the Bonds shall include, in addition to the name "General Revenue Bonds," such further appropriate particular designation added to or incorporated in such title for the Bonds of any particular Series as the Regents may determine. Each Bond shall bear upon its face the designation so determined for the Series to which it belongs. Each Bond shall recite in substance that it is payable from and secured by the Pledged Revenues of the University pledged for the payment thereof.

Terms of Bonds

The principal of and interest on, and the redemption price of the Bonds shall be payable in lawful money of the United States of America at the principal corporate trust office of the Trustee or of any Paying Agent at the option of a Registered Owner. Payment of interest on any fully registered Bond shall be (i) made to the Registered Owner thereof and shall be paid by check or draft mailed to the Registered Owner thereof as of the close of business on the Record Date at his address as it appears on the registration books of the Trustee or at such other address as is furnished to the Trustee in writing by such Registered Owner, or (ii) with respect to units of $500,000 or more of Bonds, made by wire transfer to the Registered Owner as of the close of business on the Record Date next preceding the interest payment date if such Registered Owner shall provide written notice to the Trustee not less than fifteen (15) days prior to such interest payment date at such wire transfer address as such Registered Owner shall specify, except, in each case, that, if and to the extent that there shall be a default in the payment of the interest due on any interest payment date, such defaulted interest shall be paid to the Registered Owners in whose name any such Bond is registered at the close of business on the fifth Business Day next preceding the date of payment of such defaulted interest.
The Bonds of any Series may be issued only in fully registered form without coupons in Authorized Denominations.

**Execution of Bonds**

The Bonds shall be signed on behalf of the Regents by the manual or facsimile signature of its President, attested by the manual or facsimile signature of its Secretary, and countersigned by the manual or facsimile signature of the Bursar of the University, and the seal of the University shall be thereunto affixed by the Secretary of the Regents, which may be by a facsimile of the University's seal which is imprinted upon the Bonds.

**Transfer or Exchange of Bonds**

Any Bond shall be transferable by the Registered Owner thereof in person, or by his attorney duly authorized in writing, upon presentation and surrender of such Bond at the principal corporate trust office of the Trustee for cancellation and issuance of a new Bond registered in the name of the transferee, in exchange therefor; provided, however, the Trustee shall not be required to transfer the Bonds within fifteen (15) calendar days of a principal or interest payment.

**Lost, Stolen, Mutilated or Destroyed Bonds**

In case any Bond shall be lost, stolen, mutilated or destroyed, the Trustee may authenticate and deliver a new Bond or Bonds of like date, denomination, interest rate, maturity, number, tenor and effect to the Registered Owner thereof upon the Registered Owner's paying the expenses and charges of the University and the Trustee in connection therewith and upon his filing with the University and the Trustee evidence satisfactory to the University and the Trustee of his ownership thereof, and upon furnishing the University and the Trustee with indemnity satisfactory to the University and the Trustee.

**Registration**

In the Resolution, the University adopts a system of registration with respect to the Bonds as required by Title 57, chapter 9, Idaho Code, as amended.

**Book-Entry-Only System**

The Series 2014 Bonds shall initially be registered on the Bond Register in the name of Cede & Co., the nominee for the Securities Depository, and no Beneficial Owner will receive certificates representing their respective interests in the Series 2014 Bonds, except in the event the Trustee issues Replacement Bonds as provided in the Resolution.

**Additional Bonds**

The University reserves the right to issue Additional Bonds secured equally and ratably with all Bonds issued under the Resolution by a pledge of (i) Pledged Revenues and (ii) the funds established by the Resolution, upon the conditions set forth in Article VII of the Resolution and as described in the Official Statement.
Investment of Funds

Monies held by the University or the Trustee in funds or accounts under the Resolution shall be invested in Investment Securities.
PLEDGE OF REVENUES; ESTABLISHMENT OF FUNDS AND ACCOUNTS

Pledge of Pledged Revenues

In the Resolution, the University pledges for the payment of the Bonds, equally and ratably, the Pledged Revenues. The Pledged Revenues shall not, except as provided in the Resolution, be used for any other purpose while any of the Bonds issued under the Resolution, including the Series 2014 Bonds, remain Outstanding. Except as provided in the Resolution, this pledge shall constitute a first and exclusive lien on the Pledged Revenues for the payment of the Bonds in accordance with the terms of the Resolution.

Confirmation and Establishment of Funds

The following Funds are established under the Resolution:

A. Revenue Fund to be held by the University;
B. Construction Fund to be held by the University;
C. Bond Fund, consisting of a Debt Service Account and a Debt Service Reserve Account (only with respect to the Series 2005A Bonds), to be held by the Trustee;
D. Cost of Issuance Fund to be held by the University;
E. Rebate Fund to be held by the University.

The 2014 Supplemental Resolution also creates in the Construction Fund the "Series 2014 Project Account" (related to the Series 2014 Bonds) and the "Series 2014 Costs of Issuance Account," all of which accounts are to be held by the University.

The Trustee may establish one or more separate and segregated subaccounts within the Debt Service Account or the Debt Service Reserve Account, if any, from time to time as shall be necessary.

Revenue Fund; Bond Fund; Flow of Funds

A. Required Deposits. The University shall deposit as received all Pledged Revenues into the Revenue Fund. The University shall deposit into the Debt Service Account in the Bond Fund the accrued interest, if any, received from the sale of a series of Bonds to the initial purchasers thereof. The University shall also deposit into the Debt Service Account the portion, if any, of the Net Proceeds designated as capitalized interest on a series of Bonds.

B. Permitted Deposits. At any time the University may deposit into the Revenue Fund or the Bond Fund such other funds and revenues that do not constitute Pledged Revenues, as the University may in its discretion determine.

C. Required Transfers. Moneys in the Revenue Fund shall be transferred to the Trustee for deposit in the Debt Service Account in the Bond Fund not later than five (5) days before any Payment Date, an amount equal to Debt Service coming due on such Payment Date. There may be credited against the foregoing transfer, however, any moneys deposited in the Debt Service Account which are available
to pay Debt Service on the Bonds and which have not previously been taken as a credit against the required transfers. Moneys in the Revenue Fund shall secondarily be transferred to the Trustee for deposit in the Debt Service Reserve Account in the Bond Fund as soon as practicable after moneys are withdrawn from the Debt Service Reserve Account in accordance with the Resolution.

The Trustee shall pay out of the Debt Service Account to the Registered Owners of the Bonds entitled to such payment on or before each Payment Date the amount of Debt Service payable on such date.

D. Remaining Amounts. Amounts remaining in the Revenue Fund at any time in excess of the amounts necessary to make the payments required above may be applied by the University, free and clear of the lien of the Resolution, to the extent permitted by law, (i) to the redemption of Bonds in accordance with the Resolution or (ii) for any other lawful purpose of the University.

Construction Fund/Project Account

There shall be paid into the Construction Fund the amounts required to be so paid by the provisions of the Resolution or any Supplemental Resolution.

The University may establish within the Construction Fund separate Project Accounts and may establish one or more subaccounts in each Project Account. Income received from the investment of moneys in any Project Account in the Construction Fund shall be credited to such Project Account. Upon completion of any Project, the relevant Project Account shall be closed, and all remaining amounts in such Project Account shall be transferred to the Debt Service Account in the Bond Fund.

Before any payment is made from any Project Account in the Construction Fund, the University shall execute a Written Certificate showing with respect to each payment to be made the name of the person to whom payment is due and the amount to be paid and certifying that the obligation to be paid was incurred and is a proper charge against the Project Account in the Construction Fund and in a reasonable amount against the Project Account in the Construction Fund and has not been theretofore included in a prior Written Certificate, and that insofar as any such obligation was incurred for work, materials, equipment or supplies, such work was actually performed, or such materials, equipment or supplies were actually installed in furtherance of the acquisition of the Project or delivered at the site of the Project for that purpose or delivered for storage or fabrication or as a progress payment due on equipment being fabricated to order.

Before any payment is made from the Project Account in the Construction Fund for the payment of Costs of Issuance, the University shall execute its Written Certificate, signed by an Authorized Officer of the University, stating, in respect of each payment to be made, (a) the name and address of the person, firm or corporation to whom payment is due, (b) the amount to be paid, (c) the particular item of the Cost of Issuance to be paid, and (d) that the cost or obligation in this stated amount is a proper item of the Cost of Issuance and has not been paid.

Bond Fund – Debt Service Reserve Account

A. The University may not substitute a Reserve Account Credit Enhancement for the funds on deposit in the Debt Service Reserve Account, without the prior written consent of all insurers of Outstanding Series 2005A Bonds.

B. If on any Payment Date the amount in the Debt Service Account is less than the amount required to pay such Debt Service, the Trustee shall apply amounts from the Debt Service Reserve Account to the extent necessary to make said payments.

C. Any deficiency in the Debt Service Reserve Account created by a withdrawal as authorized by the preceding paragraph shall be replaced as soon as practicable by deposits of legally available moneys from the Revenue Fund, as provided in the Resolution, until the Debt Service Reserve Account is restored to the Reserve Account Requirement.

PAYMENT AGREEMENTS

The Resolution authorizes the Regents to enter into a Payment Agreement and to make a Payment Agreement Payment thereunder on a parity of lien with the payment of the Bonds if the Payment Agreement satisfies the requirements for Additional Bonds described in the Resolution (See "SECURITY FOR THE SERIES 2014 BONDS – Covenants – Issuance of Additional Bonds" in the front part of the Official Statement to which this Appendix D is attached for a description of requirements for issuance of Additional Bonds), taking into consideration regularly scheduled Payment Agreement Payments and Receipts (if any) under the Payment Agreement. The following shall be conditions precedent to the use of any Payment Agreement on a parity with the Bonds:

(i) The University shall obtain an opinion of Bond Counsel on the due authorization and execution of such Payment Agreement, the validity and enforceability thereof and opining that the action proposed to be taken is authorized or permitted by the Resolution or the applicable provisions of any Supplemental Resolution and will not adversely affect the excludability for federal income tax purposes of the interest on any Outstanding Bonds.

(ii) Prior to entering into a Payment Agreement, the University shall adopt a resolution which shall:

A. set forth the manner in which the Payments and Receipts are to be calculated and a schedule of Payment Agreement Payment Dates;

B. establish general provisions for the rights of the parties to Payment Agreements; and

C. set forth such other matters as the University deems necessary or desirable in connection with the management of Payment Agreements as are not clearly inconsistent with the provisions of the Resolution.

The Payment Agreement may oblige the University to pay, on one or more scheduled and specified Payment Agreement Payment Dates, the Payments in exchange for the Payor's obligation to pay or to cause to be paid to the University, on scheduled and specified Payment Agreement Payment Dates, the Receipts. The University may also enter into Payment Agreements that are not reciprocated by the other party to the agreement.
If the University enters into a Parity Payment Agreement, Payments shall be made from the Debt Service Account and Annual Debt Service shall include any regularly scheduled University Payments adjusted by any regularly scheduled Receipts during a Fiscal Year. Receipts shall be paid directly into the Debt Service Account. Obligations to make unscheduled payments, such as termination payments, may not be entered into on a parity with the Bonds. To the extent that a Parity Payment Agreement has been designated as a hedge of the interest rate features of either Fixed Rate Bonds or Bonds bearing variable rates of interest, Annual Debt Service during the term of such Parity Payment Agreement shall be modified to reflect such Parity Payment Agreement.

Nothing in the Resolution precludes the University from entering into Payment Agreements with a claim on Pledged Revenues junior to that of the Bonds. Furthermore, nothing in the Resolution precludes the University from entering into obligations on a parity with the Bonds in connection with the use of Payment Agreements or similar instruments if the University obtains an opinion of Bond Counsel that the obligations of the University thereunder are consistent with the Resolution.

For purposes of the foregoing Payment Agreements provisions of the Resolution, the following terms have the following meanings:

"Payment" means any payment required to be made by or on behalf of the University under a Payment Agreement and which is determined according to a formula set forth in the Payment Agreement.

"Parity Payment Agreement" means a Payment Agreement under which the University's payment obligations are expressly stated to be secured by a pledge of and lien on Pledged Revenues on an equal and ratable basis with the Pledged Revenues required to be paid into the Bond Fund to pay and secure the payment of the principal of and interest on Outstanding Bonds.

"Payment Agreement" means a written agreement, for the purpose of managing or reducing the University's exposure to fluctuations or levels of interest rates, currencies or commodities or for other interest rate, investment, asset or liability management purposes, entered into on either a current or forward basis by the University and a Qualified Counterparty, all as authorized by any applicable laws of the State. Such agreement may or may not be characterized by a structure of reciprocity of payment.

"Payment Agreement Payment Date" means any date specified in the Payment Agreement on which a Payment or Receipt is due and payable under the Payment Agreement.

"Receipt" means any payment (designated as such by a resolution) to be made to, or for the benefit of, the University under a Payment Agreement by the Payor.

"Payor" means a Qualified Counterparty to a Payment Agreement that is obligated to make one or more payments thereunder.

"Qualified Counterparty" means a party (other than the University or a party related to the University) who is the other party to a Payment Agreement that has or whose obligations are unconditionally guaranteed by a party whose long term debt is rated "A" or higher by Moody's and S&P and who is otherwise qualified to act as the other party to a Payment Agreement under any applicable laws of the State of Idaho.
COVENANTS CONCERNING THE TRUSTEE

Wells Fargo Bank, N.A., acts as Trustee under the Resolution and also acts as paying agent, bond registrar, authenticating agent, and transfer agent with respect to the Bonds. The Trustee makes no representations as to the validity or sufficiency of the Resolution or of any Bonds issued thereunder or as to the security afforded by the Resolution, and the Trustee shall not incur any liability in respect thereof. The Trustee shall not be liable in connection with the performance of its duties under the Resolution except for its own negligence, misconduct or default.

The Trustee, prior to the occurrence of an Event of Default and after the curing of all Events of Default which may have occurred, undertakes to perform such duties and only such duties as are specifically set forth in the Resolution. In case an Event of Default has occurred (which has not been cured), the Trustee shall exercise such of the rights and powers vested in it by the Resolution and use the same degree of care and skill in its exercise as a prudent man would exercise or use under the circumstances in the conduct of his own affairs.

The Trustee, after a successor Trustee has been duly appointed and has accepted the duties of Trustee in writing, may at any time resign and be discharged of the duties and obligations created by the Resolution by giving not less than sixty (60) days' written notice to the University and to insurers of any outstanding Bonds.

The Trustee may be removed at any time by the University or by insurers of outstanding Bonds, so long as the respective insurer of any Bonds is not in default under its respective policy. Any Trustee appointed in succession to the Trustee shall (1) be a bank or trust company or national banking association, duly authorized to exercise trust powers, and (2) have a reported capital and surplus of not less than $75,000,000.

MODIFICATION OR AMENDMENT OF RESOLUTION

The Resolution or any Supplemental Resolution and the rights and obligations of the University and of the Registered Owners of the Bonds may be modified or amended at any time by a Supplemental Resolution and pursuant to the affirmative vote at a meeting of Registered Owners, or with the written consent without a meeting, (1) of the Registered Owners of at least sixty percent (60%) in aggregate principal amount of the Bonds then Outstanding, (2) in case less than all of the several Series of Bonds then Outstanding are affected by the modification or amendment, of the Registered Owners of at least sixty percent (60%) in principal amount of the Bonds of each Series so affected and then Outstanding, and (3) in case the modification or amendment changes the terms of any Mandatory Redemption Amounts, of the Registered Owners of at least sixty percent (60%) in principal amount of the Bonds of the particular Series and maturity entitled to such Mandatory Redemption Amounts and then Outstanding; provided, however, that if such modification or amendment will, by its terms, not take effect so long as any Bonds of any specified Series remain Outstanding, the consent of the Registered Owners of Bonds of such Series shall not be required and Bonds of such Series shall not be deemed to be Outstanding for the purpose of any calculation of Outstanding Bonds under this section. No such modification of amendment shall (x) extend the fixed maturity of any Bond, or reduce the principal amount or redemption price thereof, or reduce the rate or extend the time of payment of interest thereon, without the consent of the Registered Owner of each Bond so affected, or (y) reduce the aforesaid percentage of Bonds required for the affirmative vote or written consent to an amendment or modification of the Resolution, without the
consent of the Registered Owners of all of the Bonds then Outstanding, or (z) without its written consent thereto, modify any of the rights or obligations of the Trustee.

The Resolution or any Supplemental Resolution and the rights and obligations of the University and of the Registered Owners of the Bonds may also be modified or amended at any time by a Supplemental Resolution, without the consent of any Registered Owners, but only to the extent permitted by law and only for any one or more of the following purposes:

1. to add to the covenants and agreements of the University in the Resolution contained, other covenants and agreements thereafter to be observed, or to surrender any right or power reserved in the Resolution to or conferred upon the University;

2. to make such provisions for the purpose of curing any ambiguity, or of curing or correcting any defective provision contained in the Resolution, or in regard to questions arising under the Resolution, as the University may deem necessary or desirable, and which shall not adversely affect the interests of the Trustee or the Registered Owners of the Bonds;

3. to provide for the issuance of a Series of Bonds, and to provide the terms and conditions under which such Series of Bonds may be issued, subject to and in accordance with the provisions of Article VII of the Resolution;

4. to provide for the issuance of the Bonds pursuant to a book-entry system or as uncertificated public obligations pursuant to the provisions of the Registered Public Obligations Act, Chapter 9 of Title 57, Idaho Code; and

5. during the term of any credit enhancement agreements (including, without limitation, standby bond purchase agreements and letters of credit) permitted in Section 57-231, Idaho Code, to amend any provisions of the Resolution which is intended solely to be for the benefit of the issuer of the credit enhancement agreement.

Such Supplemental Resolution shall become effective as of the date of its adoption or such later date as shall be specified in such Supplemental Resolution.

Copies of any modification or amendment to the Resolution shall be sent to any Rating Agency maintaining a rating on the Bonds at least ten (10) days prior to the effective date thereof.

EVENTS OF DEFAULT AND REMEDIES OF REGISTERED OWNERS

Events of Default

If any one or more of the following Events of Default shall occur, it is an "event of default" under the Resolution:

1. failure to make the due and punctual payment of any Principal Installment of a Bond when and as the same shall become due and payable, whether at maturity, by call for redemption, or declaration or otherwise;
(2) failure to make the due and punctual payment of any installment of interest on any Bond or any Mandatory Redemption Amount, when and as such interest installment or any Mandatory Redemption Amount shall become due and payable;

(3) failure by the University to perform or observe any other of the covenants, agreements, or conditions on its part in the Bond Resolution or in the Bonds contained, and such default shall continue for a period of thirty (30) days after written notice thereof to the University by the Trustee specifying such failure and requiring the same to remedied, which period of thirty (30) days may not be extended by more than thirty (30) additional days without the prior written consent of all insurers of outstanding Bonds issued under the Resolution;

(4) a judgment for the payment of money shall be rendered against the University, and any such judgment shall not be discharged within one hundred twenty (120) days of the entry thereof, or an appeal shall not be taken therefrom or from the order, decree of process upon which or pursuant to which such judgment shall have been granted or entered, in such manner as to set aside or stay the execution of or levy under such judgment, or order, decree or process or the enforcement thereof;

(5) dissolution or liquidation of the University or the filing by the University of a voluntary petition in bankruptcy, or the commission by the University of any act of bankruptcy, or adjudication of the University as a bankrupt, or assignment by the University for the benefit of its creditors, or the entry by the University into an agreement of composition with its creditors, or the approval by a court of competent jurisdiction of a petition applicable to the University in any proceeding for its reorganization instituted under the provisions of the federal bankruptcy act, as amended, or under any similar act in any jurisdiction which may now be in effect or which may hereafter be enacted;

(6) if an order or decree shall be entered, with the consent or acquiescence of the University, appointing a receiver or receivers of the Project, or any part thereof, or if such order or decree, having been entered without the consent and acquiescence of the University, shall not be vacated or discharged or stayed within ninety (90) days after the entry thereof; and

(7) any event of default specified in a Supplemental Resolution;

then, and in each and every such case, so long as such Event of Default shall not have been remedied, unless the Outstanding amount of the Bonds shall have already become due and payable, the Trustee (by thirty (30) days' written notice to the University), or the Registered Owners of not less than twenty five percent (25%) of the Bonds then Outstanding (by notice in writing to the University and the Trustee) may declare the Bonds then Outstanding, and the interest accrued thereon, to be due and payable immediately and upon any such declaration the same shall become and be immediately due and payable, anything in the Resolution or in the Bonds contained to the contrary notwithstanding.

Notwithstanding the foregoing, neither the Registered Owners of twenty-five percent (25%) of the Uninsured Bonds then Outstanding, nor the Owners of twenty-five percent (25%) of any series of Bonds then Outstanding, nor the Trustee, may declare any other series of Bonds immediately due and payable without the prior written consent of the relevant insurer of such series of Bonds.

Rights and Remedies of Registered Owners

A. No Registered Owner of any Bond shall have any right to institute any proceeding, judicial or otherwise, with respect to the Resolution, or for the appointment of a receiver or trustee, or for any other remedy thereunder, unless
(1) such Registered Owner has previously given written notice to the Trustee of a continuing Event of Default;

(2) the Registered Owners of not less than twenty-five percent (25%) in principal amount of the Bonds shall have made written request to the Trustee to institute proceedings in respect of such Event of Default in its own name as Trustee;

(3) such Registered Owners have offered to the Trustee reasonable indemnity against the costs, expenses, and liabilities to be incurred in compliance with such request;

(4) the Trustee for sixty (60) days after its receipt of such notice, request, and offer of indemnity has failed to institute any such proceedings; and

(5) no direction inconsistent with such written request has been given to the Trustee during such sixty (60) day period by the Registered Owners of a majority in principal amount of the Bonds; it being understood and intended that no one or more Registered Owner of Bond shall have any right in any manner whatever by virtue of, or by availing of, any provision of the Resolution to affect, disturb, or prejudice the rights of any other Registered Owner of Bonds, or to obtain or to seek to obtain priority or preference over any other Registered Owner, or to enforce any right under the Resolution, except in the manner provided and for the equal and ratable benefit of all the Registered Owners of Bonds.

B. The Registered Owners of a majority in principal amount of the Outstanding Bonds shall have the right to direct the time, method, and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee, provided that:

(1) such direction shall not be in conflict with any rule of law or the Resolution,

(2) the Trustee shall not determine that the action so directed would be unjustly prejudicial to the Registered Owners not taking part in such direction, and

(3) the Trustee may take any other action deemed proper by the Trustee which is not inconsistent with such direction.

DEFEASANCE

A. If the University shall pay or cause to be paid, or there shall otherwise be paid, to the Registered Owners of all Bonds the principal of or redemption price, if applicable, and interest due or to become due thereon, if applicable, at the times and in the manner stipulated therein and in the Resolution, or such Bonds shall have been deemed to have been paid as provided in the Supplemental Resolution authorizing a Series of Bonds, then the pledge of any Pledged Revenues, and other moneys, securities and funds pledged under the Resolution and all covenants, agreements and other obligations of the University to the Registered Owners, shall thereupon cease, terminate and become void and be discharged and satisfied. In such event, the Trustee shall cause an accounting for such period or periods as shall be requested by the University to be prepared and filed with the University and, upon the request of the University, shall execute and deliver to the University all such instruments as may be desirable to evidence such discharge and satisfaction, and the Trustee shall pay over or deliver to the University all...
moneys or securities held by it pursuant to the Resolution which are not required for the payment of principal or redemption price, if applicable, on Bonds.

B. Bonds or interest installments the payment or redemption of which moneys shall have been set aside and shall be held in trust by the Trustee (through deposit by the University of funds for such payment or redemption or otherwise) at the maturity shall be deemed to have been paid within the meaning and with the effect expressed in subsection (A) of this section. All Outstanding Bonds of any Series shall prior to the maturity or redemption date thereof be deemed to have been paid within the meaning and with the effect expressed in subsection (A) of this section if (1) in case any of said Bonds are to be redeemed on any date prior to their maturity, the University shall have given to the Trustee in form satisfactory to it irrevocable instructions to mail to the Registered Owners of such Bonds, notice of redemption of such Bonds on said date, (2) there shall have been deposited with the Trustee either moneys in an amount which shall be sufficient, or Investment Securities, as approved by insurers of any Outstanding Bonds, (including any Investment Securities issued or held in book-entry form on the books of the Department of the Treasury of the United States of America), the principal of and the interest on which when due will provide moneys which, together with the moneys, if any, deposited with the Trustee at the same time, shall be sufficient, to pay when due the principal or redemption price, as applicable, and interest due and to become due, if applicable, on said Bonds on and prior to the redemption date or maturity date thereof, as the case may be, without adversely affecting the tax-exempt status of the interest on said Bonds taxable under the Code, and (3) in the event said Bonds are not by their terms subject to redemption within the next succeeding sixty (60) days, the University shall have given the Trustee in form satisfactory to it irrevocable instructions to mail, first class postage prepaid, a notice to the Registered Owners of such Bonds that the deposit required by (2) above has been made with the Trustee and that said Bonds are deemed to have been paid in accordance with this section and stating such maturity or redemption date upon which moneys are to be available for the payment of the principal or redemption price, as applicable, and interest due and to become due if applicable on said Bonds.

The 2007 Supplemental Resolution amended the defeasance provisions of the Resolution described in paragraph (B)(2) above to permit investment of escrowed funds in certain noncallable governmental obligations without consent of insurers of any Outstanding Bonds to such investment.
APPENDIX E

Depository Trust Company Information

The following information concerning DTC and DTC's book-entry-only system has been extracted from a schedule prepared by DTC entitled "SAMPLE OFFERING DOCUMENT LANGUAGE DESCRIBING BOOK-ENTRY-ONLY ISSUANCE," a source that the Regents, the University and the Underwriter believe to be reliable, but the Regents, the University and the Underwriter take no responsibility for the accuracy thereof. The contents of the DTC website referenced below are not incorporated in this Official Statement by such reference.

The Depository Trust Company ("DTC"), New York, NY, will act as securities depository for the Series 2014 Bonds. The Series 2014 Bonds will be issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully registered certificate will be issued for each of the Series 2014 Bonds, as set forth on the cover page hereof, each in the aggregate principal amount of each maturity of the Series 2014 Bonds and deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation, and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of Series 2014 Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Series 2014 Bonds on DTC's records. The ownership interest of each actual purchaser of Series 2014 Bonds ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in Series 2014 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Series 2014 Bonds, except in the event that use of the book-entry system for a series of Series 2014 Bonds is discontinued.
To facilitate subsequent transfers, all the Series 2014 Bonds deposited by Direct Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of a series of Series 2014 Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of Series 2014 Bonds; DTC’s records reflect only the identity of the Direct Participants to whose accounts Series 2014 Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

As long as the book-entry system is used for Series 2014 Bonds, the Trustee and the Regents will give any notices required to be given to Owners of Series 2014 Bonds only to DTC. Any failure of DTC to advise any Direct Participant, or of any Direct Participant to notify any Indirect Participant, or of any Direct Participant or Indirect Participant to notify any Beneficial Owner, of any such notice and its content or effect will not affect the validity of the action premised on such notice. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of the Series 2014 Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2014 Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Resolution. For example, Beneficial Owners of Series 2014 Bonds may wish to ascertain that the nominee holding the Series 2014 Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners, in the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of the notices be provided directly to them. Redemption notices shall be sent to DTC as long as it is securities depository for the Series 2014 Bonds. If less than all of the Series 2014 Bonds of a single maturity are being redeemed, DTC’s practice is to determine by lot the amount of interest of each Direct Participant in such issue to be redeemed. Redemption notices shall be sent to DTC. If less than all of the Series 2014 Bonds within an issue are being redeemed, DTC’s practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Series 2014 Bonds unless authorized by a Direct Participant on accordance with DTC’s MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Regents as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.’s consenting or voting rights to those Direct Participants to whose accounts the Series 2014 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal, premium, if any, and interest payments on the Series 2014 Bonds are to be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC’s practice is to credit Direct Participants' accounts upon DTC’s receipt of funds and corresponding detail information from the Regents or Paying Agent, on payable date in accordance with their respective holdings shown on DTC’s records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC or its nominee, the Paying Agent or the Regents, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal of, premium, if any, and interest payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Regents or the Paying Agent; disbursement of such payments to Direct Participants shall be the responsibility of DTC; and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct and Indirect Participants.
DTC may discontinue providing its services as depository with respect to the Series 2014 Bonds at any time by giving reasonable notice to the Regents or the Trustee. Under such circumstances, in the event that a successor depository is not obtained, certificates for the Series 2014 Bonds are required to be printed and delivered.

The Regents may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, certificates for the Series 2014 Bonds will be printed and delivered.
APPENDIX F

Opinions of Co-Bond Counsel for Series 2014 Bonds

July __, 2014

University of Idaho
P.O. Box 443168
Moscow Idaho 83844-3168

RE: The Regents of the University of Idaho General Revenue Bonds, Series 2014A

We have acted as co-bond counsel to the Regents of the University of Idaho (the "Regents") in connection with the issuance by the Regents of their General Revenue Bonds, Series 2014A (the "Bonds"). The Bonds are being issued pursuant to (i) Title 57, Chapter 5 and Title 33, Chapter 38, Idaho Code, as amended and (ii) a Resolution, adopted by the Regents on November 22, 1991, as heretofore amended, supplemented, and restated, and as further supplemented and amended by a supplemental resolution of the Regents adopted on June 19, 2014 (collectively, the "Resolution"). The Bonds are being issued (i) to finance certain capital improvements of the University of Idaho (the "University"), and (ii) to pay costs of issuance associated with the Bonds. Capitalized terms not otherwise defined herein shall have the meanings set forth in the Resolution.

Our services as co-bond counsel have been limited to the preparation of the legal proceedings and supporting certificates authorizing the issuance of the Bonds under the applicable laws of the State of Idaho and to a review of the transcript of such proceedings and certificates. As to questions of fact material to our opinion, we have relied upon the certified proceedings and other certifications of public officials furnished to us without undertaking to verify the same by independent investigation. Our examination has been limited to the foregoing as they exist or are in effect as of the date hereof. Our opinion is limited to the matters expressly set forth herein, and we express no opinion concerning any other matters.

Based on our examination and the foregoing, we are of the opinion as of the date hereof and under existing laws as follows:

1. The Resolution has been duly adopted by the Regents and constitutes a valid and binding obligation of the Regents enforceable upon the Regents.

2. The Resolution creates a valid lien on the amounts pledged thereunder for the security of the Bonds.

3. The Bonds are valid and binding limited obligations of the Regents, payable solely from the Pledged Revenues and other amounts pledged therefor under the Resolution.

4. Based on an analysis of currently existing laws, regulations, decisions and interpretations, interest on the Bonds is excludable from gross income for purposes of federal income tax under existing laws as enacted and construed on the date of initial delivery of the Bonds, assuming the accuracy of the certifications of the Regents and continuing compliance by the Regents with the requirements of the
Internal Revenue Code of 1986. Interest on the Bonds is not an item of tax preference for purposes of either individual or corporate federal alternative minimum tax; however interest on the Bonds held by a corporation (other than an S corporation, regulated investment company, or real estate investment trust) may be indirectly subject to federal alternative minimum tax because of its inclusion in the adjusted current earnings of a corporate holder; interest on the Bonds is exempt from State of Idaho personal income taxes;

In rendering our opinion, we wish to advise you that:

(i) The rights of the Owners of the Bonds and the enforceability thereof and of the Resolution may be subject to bankruptcy, insolvency, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable, and their enforcement may also be subject to the application of equitable principles and the exercise of judicial discretion in appropriate cases;

(ii) We express no opinion herein as to the accuracy, adequacy, or completeness of the Official Statement or any other offering material relating to the Bonds; and

(iii) Except as set forth above, we express no opinion regarding any other tax consequences relating to ownership or disposition of, or the accrual or receipt of interest on the Bonds.

Respectfully submitted,

SKINNER FAWCETT LLP

BALLARD SPAHR LLP
THE REGENTS OF THE UNIVERSITY OF IDAHO

Supplemental Resolution Authorizing the
Issuance and Sale of

up to $52,000,000
General Revenue Bonds
Series 2014

SUPPLEMENTAL RESOLUTION

A SUPPLEMENTAL RESOLUTION of the Regents of the University of Idaho authorizing the issuance and sale of General Revenue Bonds, Series 2014, in the principal amount of up to $52,000,000 (the “Series 2014 Bonds”), authorizing the execution and delivery of a Bond Purchase Agreement, Continuing Disclosure Agreement, Preliminary Official Statement, Final Official Statement and other documents, and providing for other matters relating to the authorization, issuance, sale and payment of the Series 2014 Bonds.

WHEREAS, the University of Idaho (the “University”) is a state institution of higher education and body politic and corporate organized and existing under and pursuant to the Constitution and laws of the State of Idaho; and

WHEREAS, the Regents of the University of Idaho (the “Regents”) are authorized, pursuant to the Educational Institutions Act of 1935, the same being Chapter 38, Title 33, Idaho Code (the “Act”), and the Constitution of the State of Idaho, to issue bonds for “projects” as defined in said Act; and

WHEREAS, the Regents are authorized pursuant to said Act and pursuant to Title 57, Chapter 5, Idaho Code, to issue bonds for “projects” as defined in said Act; and

WHEREAS, on November 22, 1991, the Regents adopted a Resolution, which has been subsequently amended and supplemented (as so amended and supplemented, the “Resolution” or “Bond Resolution”) relating to the issuance and sale of facility revenue bonds, and providing among other things for the issuance of additional bonds for future projects or refunding purposes (the “Additional Bonds”), secured by Pledged Revenues (as defined in the Resolution); and

WHEREAS, the University is authorized under the provisions of Article VII of the Resolution to issue series of Additional Bonds upon compliance with the requirements of Section 7.2 of the Resolution; and

WHEREAS, the Regents have determined it is both necessary and economically feasible to equip and construct a research center and renovation of an education building and other improvements for the campus, including reimbursement for expenses already incurred (collectively, the “Series 2014 Project”) by the issuance of facility revenue bonds in the manner provided by the Act; and

WHEREAS, the Regents have determined that the Series 2014 Project can be financed as a “project” in accordance with the Act; and

WHEREAS, in order to finance the Series 2014 Project, the Regents desire to issue the Series 2014 Bonds;

NOW, THEREFORE, BE IT RESOLVED BY THE REGENTS OF THE UNIVERSITY OF IDAHO AS FOLLOWS:
ARTICLE I
DEFINITIONS

Section 1.1 Definitions.

(a) Except as provided in subparagraph (b) of this Section, all defined terms contained in this Supplemental Resolution shall have the same meanings as set forth in the Resolution.

(b) As used in this Supplemental Resolution, unless the context shall otherwise require, the following terms shall have the following meanings:

“Approving Opinion” means an Opinion of Counsel to the effect that an action being taken is authorized by the applicable provisions of the Resolution and will not adversely affect the tax-exempt status of interest on the Series 2014 Bonds.

“Authorized Denomination” means $5,000 or any integral multiple thereof.

“Bond Purchase Agreement” means the Bond Purchase Agreement between the Regents and the Underwriter pursuant to which the Series 2014 Bonds are to be sold.

“Continuing Disclosure Agreement” means the Continuing Disclosure Agreement between the Regents and the Trustee, as Dissemination Agent, with respect to the Series 2014 Bonds.

“Electronic Notice” means notice through telecopy, telegraph, telex, facsimile transmission, internet, e-mail or other electronic means of communication.

“Fitch” means Fitch Ratings, its successors and their assigns, and, if such entity shall be dissolved or liquidated or shall no longer perform the functions of a securities rating agency, “Fitch” shall be deemed to refer to any other nationally recognized securities rating agency designated by the Regents, with notice to the Trustee.

“Issue Date” means, with respect to any Series 2014 Bonds, the date on which such Series 2014 Bonds are first delivered to the purchasers thereof.

“Moody’s” means Moody’s Investors Service, Inc., a corporation organized and existing under the laws of the State of Delaware, its successors and assigns and, if such entity shall be dissolved or liquidated or shall no longer perform the functions of a securities rating agency, “Moody’s” shall be deemed to refer to any other nationally recognized securities rating agency (other than S&P or Fitch) designated by the Regents, with notice to the Trustee.

“Nominee” means Cede & Co., as nominee of DTC, the initial Securities Depository for the Series 2014 Bonds, and any successor nominee of DTC and, if another Securities Depository replaces DTC as Securities Depository hereunder, any nominee of such substitute Securities Depository.
“Notice by Mail” or “notice” of any action or condition “by Mail” means a written notice meeting the requirements of this Supplemental Resolution mailed by first class mail, postage prepaid.

“Opinion of Counsel” means a written opinion of counsel satisfactory to the Regents and not objected to by the Trustee with respect to the Series 2014 Bonds.

“Parameters” means the maximum terms established hereby for the Series 2014 Bonds, within which the terms of the Series 2014 Bonds may be established in the Terms Certificate, such Parameters being set in Exhibit B attached hereto.

“Payment Date” means each April 1 and October 1, commencing on the date specified in the Terms Certificate.

“Principal Office” of the Trustee means the principal corporate trust office of the Trustee designated in writing to the University or such other office designated by the Trustee from time to time.

“Project Proceeds” means the portion of the proceeds due the Regents from the Underwriter to purchase the Series 2014 Bonds pursuant to Section 3.3(a) of this Supplemental Resolution for purposes of financing the Series 2014 Project.

“Rating Agency” means Fitch, S&P, Moody’s or any other nationally recognized rating agency, in each case then providing or maintaining a rating on the Series 2014 Bonds at the request of the Regents.

“Resolution” means the Resolution adopted by the Regents on November 22, 1991, as previously amended and supplemented, including the Amendments as defined in the Supplemental Resolution dated January 24, 2005, the Supplemental Resolution dated October 11, 2007, the Supplemental Resolution dated March 17, 2010, the Supplemental Resolution dated February 18, 2010, the Supplemental Resolution dated April 18, 2013 and as amended and supplemented by this Supplemental Resolution.

“S&P” means Standard & Poor’s Ratings Services, its successors and their assigns, and, if such entity shall be dissolved or liquidated or shall no longer perform the functions of a securities rating agency, “S&P” shall be deemed to refer to any other nationally recognized securities rating agency (other than Fitch or Moody’s) designated by the Regents, with notice to the Trustee.

“Series 2014 Bondholder,” “Holder” and “Bondholder” mean the holder of any Series 2014 Bond.

“Series 2014 Costs of Issuance” means the Costs of Issuance incurred in connection with the issuance, sale and delivery of the Series 2014 Bonds.
“Series 2014 Costs of Issuance Fund” means the fund established pursuant to Section 3.2(b) hereof into which shall be deposited the portion of the proceeds of the Series 2014 Bonds necessary to pay the Series 2014 Costs of Issuance, as further provided in Article III hereof.

“Series 2014 Project” means the financing of construction and equipping of a research center and renovation of an education building and other improvements for the campus.

“Series 2014 Project Account” means the account established under Section 3.2(a) hereof into which shall be deposited the Project Proceeds.

“Terms Certificate” means one or more certificates of the Regents signed by the Bursar, or authorized designee, in substantially the form of Exhibit C attached hereto, specifying certain terms of the Series 2014 Bonds.

“Tax Compliance Policies” means the tax compliance policies relating to tax-exempt governmental bonds previously adopted by the Regents.

“Underwriter” means George K. Baum & Company, or its successor in function, as the original purchaser of the Series 2014 Bonds.

Section 1.2 Authority for Supplemental Resolution; References to University. This Supplemental Resolution is adopted pursuant to the provisions of the Act and the Resolution. References herein to the “University” shall be deemed to refer to the Regents or other appropriate authority thereof pursuant to the Act and other applicable laws.

ARTICLE II

AUTHORIZATION, TERMS AND ISSUANCE OF SERIES 2014 BONDS

Section 2.1 Authorization of Series 2014 Bonds, Principal Amount, Designation and Series; Confirmation of Pledged Revenues. The Series 2014 Bonds are hereby authorized for issuance, to be sold at a price not less than par and subject to the Parameters, in order to provide sufficient funds for (i) the financing of the Series 2014 Project, and (ii) paying costs of issuance, and in accordance with and subject to the terms, conditions and limitations established in the Resolution, as previously amended and as amended by this Supplemental Resolution. The Series 2014 Bonds shall be issued only in fully registered form, without coupons. The Series 2014 Bonds are secured by the pledge of the Pledged Revenues under Section 5.1 of the Resolution equally and ratably with all Outstanding Bonds issued under the Resolution.
Section 2.2  **Finding and Purpose.** The Regents hereby find, determine and declare:

(a) pursuant to Section 33-3805, Idaho Code, the Series 2014 Project are desirable and necessary for the proper operation of the University and are economically feasible;

(b) pursuant to Section 33-3805A, Idaho Code, the Series 2014 Project will not require state general account appropriated funds for construction, operation or maintenance;

(c) pursuant to Section 33-3806, Idaho Code, fees, rentals and other charges from those that are served by the Series 2014 Project shall be the same as those applicable to any existing project similar in nature and purpose, provided that there may be allowed reasonable differentials based on the condition, type, location and relative convenience of such other project, but the differentials shall be uniform as to all those similarly accommodated;

(d) pursuant to Section 33-3809, Idaho Code, this Supplemental Resolution does not contract a debt on behalf of, or in any way obligate the State of Idaho, or pledge, assign or encumber in any way, or permit the pledging, assigning or encumbering in any way of, appropriations made by the Legislature, or revenue derived from the investment of the proceeds of the sale, and from the rental of such lands as have been set aside by the Idaho Admission Bill approved July 3, 1890, or other legislative enactments of the United States, for the use and benefit of the respective state educational institutions;

(e) pursuant to Section 33-3810, Idaho Code, the Series 2014 Bonds shall be exclusively obligations of the University, payable only in accordance with the terms thereof and shall not be obligations general, special or otherwise of the State of Idaho; and

(f) the applicable requirements of Article VII of the Resolution relating to issuance of Additional Bonds will have been complied with upon the delivery of the Series 2014 Bonds.

Section 2.3  **Issue Date.** The Series 2014 Bonds shall be dated the date of original delivery thereof.

Section 2.4  **Series 2014 Bonds.**

(a) The Series 2014 Bonds shall be limited to the aggregate principal amount specified in the Terms Certificate, but within the Parameters, and shall be designated “General Revenue Bonds, Series 2014” or such other designation as the Regents may determine upon the issuance of said Bonds. The Series 2014 Bonds may have serial or other maturities, may be initially sold at a premium, and may have separate bonds with different interest rates but the same maturity, all within the Parameters and as specified in the Terms Certificate.
The Series 2014 Bonds shall bear interest at the rates and mature on the dates and in the principal amounts in each year as specified in the Terms Certificate. The Series 2014 Bonds shall bear interest from the date of original delivery, payable on the dates as specified in the Terms Certificate. Interest on the Series 2014 Bonds shall be computed upon the basis of a 360-day year, consisting of twelve 30-day months.

Section 2.5  Sale of Series 2014 Bonds.

(a) The Series 2014 Bonds authorized to be issued herein are hereby authorized for sale to the Underwriter in a principal amount (plus any original issue discount or premium) in compliance with the Parameters and as specified in the Terms Certificate. The Series 2014 Bonds may be sold with an Underwriter’s discount or fee (but without a net reoffering discount) not exceeding the Parameters and as specified in the Terms Certificate, on the terms and conditions set forth in the Bond Purchase Agreement.

(b) To evidence the acceptance of the Bond Purchase Agreement, the Bursar is hereby authorized to execute and deliver the Bond Purchase Agreement in substantially the form presented at this meeting and with such final rates and terms for the Series 2014 Bonds as are within the Parameters.

(c) The Preliminary Official Statement of the Regents prepared in connection with the offering of the Series 2014 Bonds, in substantially the form presented at this meeting, with such changes, omissions, insertions and revisions as the Bursar shall approve, is hereby authorized for use by the Underwriter for distribution to prospective purchasers of the Series 2014 Bonds and other interested persons. The Bursar or authorized designee is hereby authorized to sign a certificate to “deem final” the Preliminary Official Statement pursuant to SEC Rule 15c2-12 in connection with the offering of the Series 2014 Bonds.

In order to comply with subsection (b)(5) of SEC Rule 15c2-12, the Underwriter shall provide in the Bond Purchase Agreement that it is a condition to delivery of the Series 2014 Bonds that the Regents and the Trustee shall have executed and delivered the related Continuing Disclosure Agreement. The Continuing Disclosure Agreement is proposed to be entered into between the Trustee and Regents and is hereby approved in all respects in substantially the form presented to the Regents with such changes, omissions, insertions and revisions as the Bursar shall approve, and the Bursar or authorized designee is hereby authorized to execute and deliver the Continuing Disclosure Agreement with respect to the Series 2014 Bonds.

The Bursar of the University and the President, Vice President, Vice President for Finance and Administration, and Secretary of the Regents, and any authorized designee of the same, are, and each of them is, hereby authorized to do or perform all such acts as may be necessary or advisable to comply with this Supplemental Resolution and/or the Bond Purchase Agreement and to carry the same into effect.
The final Official Statement of the Regents for the sale of the Series 2014 Bonds, in substantially the form of the Preliminary Official Statement presented at this meeting, with such changes, omissions, insertions and revisions as the Bursar shall approve, is hereby authorized, and the Bursar shall sign such final Official Statement and deliver such final Official Statement to the Underwriter for distribution to prospective purchasers of the Series 2014 Bonds and other interested persons, which signature shall evidence such approval.

Section 2.6  Delivery of Series 2014 Bonds. The Series 2014 Bonds shall be delivered to the Underwriter upon compliance with the provisions of the Resolution, at such times and places as provided in, and subject to, the provisions of the Bond Purchase Agreement.

Section 2.7  Form of Series 2014 Bonds. The form of the Series 2014 Bonds is attached to this Supplemental Resolution as Exhibit A and is incorporated herein by this reference.

Section 2.8  Book-Entry Only System.

(a) The Series 2014 Bonds shall initially be registered on the Bond Register in the name of Cede & Co., the nominee for the Securities Depository, and no Beneficial Owner will receive certificates representing their respective interests in the Series 2014 Bonds, except in the event the Trustee issues Replacement Bonds as provided below. It is anticipated that during the term of the Series 2014 Bonds, the Securities Depository will make book-entry transfers among the DTC Participants and receive and transmit payments of principal of and interest on the Series 2014 Bonds until and unless the Trustee authenticates and delivers Replacement Bonds to the Beneficial Owners as described below. So long as any of the Series 2014 Bonds are registered in the name of Cede & Co, as nominee of the DTC, all payments with respect to principal of, premium, if any, and interest on the Series 2014 Bonds and all notices with respect to the Series 2014 Bonds shall be made and given in the manner provided in the Representations Letter.

(b) If the Securities Depository determines to discontinue providing its services with respect to the Series 2014 Bonds and the University cannot obtain a qualified successor Securities Depository, or if the University determines not to use the Book-Entry System of the Securities Depository, the University shall execute and the Trustee shall authenticate and deliver one or more Series 2014 Bond certificates (the “Replacement Bonds”) to the DTC Participants in principal amounts and maturities corresponding to the identifiable Beneficial Owners’ interests in the Series 2014 Bonds, with such adjustments as the Trustee may find necessary or appropriate as to accrued interest and previous calls for redemption, if any. In such event, all references to the Securities Depository herein shall relate to the period of time when the Securities Depository has possession of at least one Series 2014 Bond. Upon the issuance of Replacement Bonds, all references herein to obligations imposed upon or to be performed by the Securities Depository shall be deemed to be imposed upon and
performed by the Trustee, to the extent applicable with respect to such Replacement Bonds.

(c) With respect to Series 2014 Bonds registered in the name of Cede & Co. as nominee for the Securities Depository, neither the University nor the Trustee shall have any responsibility to any Beneficial Owner with respect to:

(i) the sending of transaction statements, or maintenance, supervision, or review of records of the Securities Depository;

(ii) the accuracy of the records of the Securities Depository or Cede & Co. with respect to any ownership interest in the Series 2014 Bonds;

(iii) the payment to any Beneficial Owner, or any person other than the Securities Depository, of any amount with respect to principal of, interest on, or redemption premium, if any, on the Series 2014 Bonds; or

(iv) any consent given or other action taken by the Securities Depository or Cede & Co. as owner of the Series 2014 Bonds.

(d) The University has executed and delivered to DTC the Representations Letter with respect to Bonds issued under the Resolution. Such Representations Letter is for the purpose of effectuating the initial Book-Entry System for the Series 2014 Bonds through DTC as Securities Depository and shall not be deemed to amend, supersede or supplement the terms of this Bond Resolution which are intended to be complete without reference to the Representations Letter. In the event of any conflict between the terms of the Representations Letter and the terms of this Supplemental Resolution, the terms of this Supplemental Resolution shall control. The Securities Depository may exercise the rights of a Registered Owner hereunder only in accordance with the terms hereof applicable to the exercise of such rights.

Section 2.9 Successor Securities Depository. In the event the Securities Depository resigns, is unable to properly discharge its responsibilities or is no longer qualified to act as a securities depository and registered clearing agency under the Securities and Exchange Act of 1934, as amended, or other applicable state or federal statute or regulation, the Trustee, with the written consent of the University, may appoint a successor Securities Depository, provided the Trustee receives written evidence satisfactory to the Trustee with respect to the ability of the successor Securities Depository to discharge its responsibilities. Any such successor Securities Depository shall be a securities depository which is a registered clearing agency under the Securities and Exchange Act of 1934, as amended, or other applicable state or federal statute or regulation. Upon the appointment of a successor Securities Depository, the Trustee shall cause the authentication and delivery of Series 2014 Bonds to the successor Securities Depository in appropriate denominations and form as provided herein.

Section 2.10 Submittal to Attorney General. There shall promptly be submitted to the Attorney General of the State of Idaho by the Secretary of the Regents a certified
copy of this Supplemental Resolution, together with the proceedings had in its adoption, in order that the Attorney General may examine into and pass upon the validity of the Series 2014 Bonds and the regularity of such proceedings, in the manner and with the effect specified in chapter 38 of Title 33, Idaho Code, as amended.

Section 2.11 Further Authority. The Bursar or any authorized designee thereof and such other officers of the Regents or University as may be required, are hereby authorized and directed to execute all such certificates, documents and other instruments as may be necessary or advisable to provide for the issuance, sale, registration and delivery of the Series 2014 Bonds, including, without limitation, the Official Statement and the Terms Certificate.

Section 2.12 Tax Exemption of Bonds.

(a) The Bursar is hereby authorized and directed to execute such Tax Certificates as shall be necessary to establish that (i) the Series 2014 Bonds are not “arbitrage bonds” within the meaning of Section 148 of the Code and the Regulations, (ii) the Series 2014 Bonds are not and will not become “private activity bonds” within the meaning of Section 141 of the Code, (iii) all applicable requirements of Section 149 of the Code are and will be met, (iv) the covenants of the Regents contained in this Section 2.12 will be complied with and (v) interest on the Series 2014 Bonds is not and will not become includible in gross income for federal income tax purposes under the Code and applicable Regulations.

(b) The Regents and the University covenant and certify to and for the benefit of the Series 2014 Bondholders from time to time of the Series 2014 Bonds that:

(i) the University will at all times comply with the provisions of any Tax Certificates;

(ii) the University will at all times comply with the rebate requirements contained in Section 148(f) of the Code, including, without limitation, the entering into any necessary rebate calculation agreement to provide for the calculations of amounts required to be rebated to the United States, the keeping of records necessary to enable such calculations to be made and the timely payment to the United States, of all amounts, including any applicable penalties and interest, required to be rebated;

(iii) no use will be made of the proceeds of the issue and sale of the Series 2014 Bonds, or any funds or accounts of the University which may be deemed to be proceeds of the Series 2014 Bonds, pursuant to Section 148 of the Code and applicable Regulations, which use, if it had been reasonably expected on the date of issuance of the Series 2014 Bonds, would have caused the Series 2014 Bonds to be classified as “arbitrage bonds” within the meaning of Section 148 of the Code;

(iv) the University will not use or permit the use of any of its facilities or properties in such manner that such use would cause the Series
2014 Bonds to be “private activity bonds” described in Section 141 of the Code;

(v) no bonds or other evidences of indebtedness of the University that are reasonably expected to be paid out of substantially the same source of funds as the Series 2014 Bonds have been or will be issued, sold or delivered within a period beginning 15 days prior to the sale of the Series 2014 Bonds and ending 15 days following the delivery of the Series 2014 Bonds, other than the Series 2014 Bonds; and

(vi) the University will not take any action that would cause interest on the Series 2014 Bonds to be or to become ineligible for the exclusion from gross income of the Series 2014 Bondholders of the Series 2014 Bonds as provided in Section 103 of the Code, nor will it omit to take or cause to be taken, in timely manner, any action, which omission would cause interest on the Series 2014 Bonds to be or to become ineligible for the exclusion from gross income of the Series 2014 Bondholders of the Series 2014 Bonds as provided in Section 103 of the Code.

Pursuant to these covenants, the Regents and the University obligate themselves to comply throughout the term of the issue of the Series 2014 Bonds with the requirements of Section 103 of the Code and the Regulations proposed or promulgated thereunder.

ARTICLE III

CREATION OF ACCOUNTS; APPLICATION OF SERIES 2014 BOND PROCEEDS

Section 3.1 Pledge of Pledged Revenues. Subject only to the provisions of the Resolution permitting the application thereof for the purposes and on the terms and conditions set forth herein, all of the Pledged Revenues have been and are hereby irrevocably pledged as described in Section 5.3 of the Resolution first, to the payment of the principal of, premium, if any, and interest on all Bonds Outstanding under the Resolution (including the Series 2014 Bonds), second, to the replenishment of any Debt Service Reserve Account as may be required by Section 5.5 of the Resolution, and thereafter for the purposes specified in Section 5.3D of the Resolution.

Section 3.2 Creation of Funds and Accounts. In connection with the issuance of the Series 2014 Bonds, the University hereby establishes the following funds and accounts:

(a) Within the Construction Fund, the Series 2014 Project Account to be held by the University; and

(b) the Series 2014 Costs of Issuance Fund, to be held by the University.
Section 3.3  **Application of Proceeds of Series 2014 Bonds.** Proceeds of the sale of the Series 2014 Bonds shall be applied as follows:

(a) The Project Proceeds, in the amount specified in the Terms Certificate, shall be deposited to the Series 2014 Project Account, held by the University. Upon completion of the Series 2014 Project and payment of all costs related thereto, any remaining proceeds in the Series 2014 Project Account shall be transferred by the University to the Trustee for deposit in the Debt Service Account in the Bond Fund for payment of the Series 2014 Bonds; and

(b) The amount necessary to pay the Series 2014 Costs of Issuance, in the amount specified in the Terms Certificate, shall be deposited to the Series 2014 Costs of Issuance Fund held by the University. Any balance remaining in the Series 2014 Costs of Issuance Fund, after payment of the Series 2014 Costs of Issuance, shall be deposited to the Series 2014 Project Account.

Section 3.4  **Investment of Moneys.** Any moneys in any of the funds and accounts to be established by the Trustee pursuant to this Supplemental Resolution (other than the Bond Purchase Fund) shall be invested pursuant to the terms of the Resolution.

Section 3.5  **Repayment to the Regents.** When there are no longer any Series 2014 Bonds Outstanding under the Resolution, and all fees, charges and expenses of the Trustee, and the Regents have been paid or provided for, and all other amounts payable hereunder have been paid, the Trustee shall pay to the University any amounts remaining in any fund established and held hereunder for the Series 2014 Bonds.

**ARTICLE IV**

**REDEMPTION OF SERIES 2014 BONDS**

Section 4.1  **Redemption of Series 2014 Bonds.**

(a) *Optional Redemption.* The Series 2014 Bonds shall be subject to optional redemption as described in the Terms Certificate.

(b) *Mandatory Sinking Fund Redemption.* The Series 2014 Bonds shall be subject to mandatory sinking fund redemption as described in the Terms Certificate.

Section 4.2  **Selection of Series 2014 Bonds for Redemption.** The principal amount on maturity of the Series 2014 Bonds to be redeemed shall be as specified by the University. If less than all of the Series 2014 Bonds of a series and maturity are called for redemption, the Trustee shall select the Series 2014 Bonds or any given portion thereof of such series and maturity to be redeemed by lot in such manner as it may determine. For the purpose of any such selection the Trustee shall assign a separate number for each minimum Authorized Denomination of each Series 2014 Bond of such maturity of a denomination of more than such minimum; provided, that following any such selection, the portion of such Series 2014 Bond to remain Outstanding shall be in an Authorized Denomination. The Trustee shall promptly notify the University in writing of
the numbers of the Series 2014 Bonds or portions thereof so selected for redemption. Notwithstanding the foregoing, if less than all of the Series 2014 Bonds of a maturity are to be redeemed at any time while the Series 2014 Bonds of such maturity are Book-Entry Bonds, selection of the Series 2014 Bonds to be redeemed shall be made in accordance with customary practices of DTC or any other applicable Securities Depository, as the case may be.

Section 4.3 Notice of Redemption.

(a) Unless waived by any Holder of the Series 2014 Bonds, the Trustee, for and on behalf of the University, shall give notice of the redemption of any Series 2014 Bond pursuant to the terms of the Resolution, including the following: by first class mail, postage prepaid, not less than thirty-five (35) days nor more than sixty (60) days prior to the redemption date (i) to the registered owner of such Series 2014 Bond at the address shown on the Bond Register on the date such notice is mailed and (ii) to one or more national information service that disseminate notices of redemption of obligations such as the Series 2014 Bonds. Each notice of redemption shall state the date of such notice, the Issue Date, the redemption date, the redemption price, the place of redemption (including the name and appropriate address or addresses of the Trustee) and, if less than all of the Series 2014 Bonds are to be redeemed, the distinctive certificate numbers of the Series 2014 Bonds to be redeemed and, in the case of Series 2014 Bonds to be redeemed in part only, the respective portions of the principal amount thereof to be redeemed. Each such notice shall also state that the interest on the Series 2014 Bonds designated for redemption shall cease to accrue from and after such redemption date and that on said date there will become due and payable on each of said Series 2014 Bonds the principal amount thereof to be redeemed, interest accrued thereon, if any, to the redemption date and the premium, if any, thereon (such premium to be specified) and shall require that such Series 2014 Bonds be then surrendered at the address or addresses of the Trustee specified in the redemption notice. Failure to mail the notices required by this paragraph to any Holder of any Series 2014 Bonds designated for redemption, or any defect in any notice so mailed and shall not affect the validity of the proceedings for redemption of any other Series 2014 Bonds.

(b) With respect to any notice of redemption of Series 2014 Bonds by the University, unless at the time of giving such notice the Trustee shall hold moneys sufficient to pay the principal of, premium, if any, and interest to the redemption date on the Series 2014 Bonds to be redeemed, such notice shall state that such redemption shall be conditional upon the receipt by the Trustee on or prior to the date fixed for such redemption of funds sufficient to pay the principal of, and premium, if any, and interest on, such Series 2014 Bonds to be redeemed, and that if such funds shall not have been so received said notice shall be of no force and effect, Series 2014 Bonds shall not be subject to redemption on such date and the Series 2014 Bonds shall not be required to be redeemed on such date. In the event that such notice of redemption contains such a condition and such funds are not so received, the redemption shall not be made and the Trustee shall within a reasonable time thereafter give notice, to the persons and in the manner in which the notice of redemption was given, that such funds were not so received.
Section 4.4 Partial Redemption of Series 2014 Bonds. Upon surrender of any Series 2014 Bond redeemed in part only, the Trustee shall exchange the Series 2014 Bond redeemed for a new Series 2014 Bond of like tenor and in an Authorized Denomination without charge to the Holder in the principal amount of the portion of the Series 2014 Bond not redeemed. In the event of any partial redemption of a Series 2014 Bond which is registered in the name of the Nominee, DTC may elect to make a notation on the Series 2014 Bond certificate which reflects the date and amount of the reduction in principal amount of said Series 2014 Bond in lieu of surrendering the Series 2014 Bond certificate to the Trustee for exchange. The Regents, the Trustee and the University shall be fully released and discharged from all liability upon, and to the extent of, payment of the redemption price for any partial redemption and upon the taking of all other actions required hereunder in connection with such redemption.

Section 4.5 Effect of Redemption. Notice of redemption having been duly given as aforesaid, and funds for payment of the redemption price being held by the Trustee, the Series 2014 Bonds so called for redemption shall, on the redemption date designated in such notice, become due and payable at the redemption price specified in such notice, interest on the Series 2014 Bonds so called for redemption shall cease to accrue, said Series 2014 Bonds shall cease to be entitled to any lien, benefit or security under the Resolution, and the Holders of said Series 2014 Bonds shall have no rights in respect thereof except to receive payment (but only from the funds provided in connection with such redemption) of the redemption price thereof (including interest, if any, accrued to the redemption date), without interest accruing on any funds held after the redemption date to pay such redemption price.

All Series 2014 Bonds fully redeemed pursuant to the provisions of this Article IV shall upon surrender thereof be cancelled by the Trustee, who shall deliver a certificate evidencing such cancellation to the University. The Trustee shall destroy such Series 2014 Bonds.

ARTICLE V

AMENDMENTS TO RESOLUTION

Section 5.1 The University hereby adopts the Amendments to the Resolution as further described in this Article V. The Amendments described in this Section 5.1 hereof shall take effect upon issuance of the Series 2014 Bonds.

(a) The defined terms “Activity Center Complex Fee”, “Recreation Center Fee”, “Residential Campus Development Fee” and “Student Building Fee” as used in Section 1.1 of Article I of the Resolution (including all supplements thereto) are hereby deleted as these fees have been merged into the Facility Fee.

(b) The following definition under Section 1.1 of Article I of the Resolution is hereby amended to read as follows:
“Facility Fees” shall mean such fees designated and set from time to time by the Regents and the University, imposed upon each full-time and part-time on campus student in attendance at the university for facilities at the University.

ARTICLE VI

MISCELLANEOUS

Section 6.1 Governing Law. By the acceptance of the Series 2014 Bonds, the Holders of the Series 2014 Bonds shall be deemed to agree that the rights of the Holders of the Series 2014 Bonds shall be governed by the laws of the State of Idaho.

Section 6.2 Partial Invalidity. If any one or more of the covenants or agreements, or portions thereof, provided in this Supplemental Resolution on the part of the University (or of the Trustee or of any paying agent) to be performed should be contrary to law, then such covenant or covenants, such agreement or agreements, or such portions thereof, shall be null and void and shall be deemed separable from the remaining covenants and agreements or portions thereof and shall in no way affect the validity of this Supplemental Resolution or of the Series 2014 Bonds; but the Holders of the Series 2014 Bonds shall retain all the rights and benefits accorded to them under the Act or any other applicable provisions of law.

Section 6.3 Beneficiaries. This Supplemental Resolution shall be deemed to be a contract between the Regents, the Trustee, and the Holders of the Series 2014 Bonds.

Section 6.4 Savings Clause. Except as amended by this Supplemental Resolution, the Resolution shall remain in full force and effect.

Section 6.5 Conflicting Resolutions. All resolutions or parts thereof in conflict herewith are, to the extent of such conflict, hereby repealed.

Section 6.6 Perfection of Security Interest.

(a) The Resolution creates a valid and binding pledge and assignment of security interest in all of the Pledged Revenues under the Resolution as security for payment of the Series 2014 Bonds, enforceable by the Trustee in accordance with the terms thereof.

(b) Under the laws of the State of Idaho, such pledge and assignment and security interest is automatically perfected by Section 57-234 Idaho Code, as amended, and is and shall have priority as against all parties having claims of any kind in tort, contact, or otherwise hereafter imposed on the Pledged Revenues.
ADOPTED AND APPROVED this 19th day of June, 2014.

EXHIBIT A

FORM OF SERIES 2014 BOND

Unless this certificate is presented by an authorized representative of The Depository Trust Company (55 Water Street, New York, New York) to the issuer or its agent for registration of transfer, exchange or payment, and any certificate issued is registered in the name of Cede & Co. or such other name as requested by an authorized representative of The Depository Trust Company and any payment is made to Cede & Co., ANY TRANSFER, PLEDGE OR OTHER USE HEREOF FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL since the registered owner hereof, Cede & Co., has an interest herein.

R-__________  $_______________

UNITED STATES OF AMERICA
STATE OF IDAHO
UNIVERSITY OF IDAHO
GENERAL REVENUE BONDS
SERIES 2014

Interest Rate  Maturity Date  Dated Date  CUSIP

Registered Owner:  CEDE & CO.

Principal Amount:  ___________________ DOLLARS*

KNOW ALL MEN BY THESE PRESENTS that the University of Idaho, a body politic and corporate and an institution of higher education of the State of Idaho (the "University"), for value received, hereby promises to pay, from the Bond Fund hereinafter defined, to the registered owner identified above, or registered assigns, on the maturity date specified above, the principal sum indicated above, and to pay interest thereon from the Bond Fund from the dated date hereof, or the most recent date to which interest has been paid or duly provided for, at the rate per annum specified above, payable on each Payment Date, until the date of maturity or prior redemption of this Bond.

This Bond is an obligation of the University payable solely in accordance with the terms hereof and is not an obligation, general, special, or otherwise of the State of Idaho, does not constitute a debt, legal, moral, or otherwise, of the State of Idaho, and is not enforceable against the State, nor shall payment hereof be enforceable out of any funds of the University other than the revenues, fees, and charges pledged thereto in the Resolution (defined herein). Pursuant to the Resolution, certain revenues have been pledged and will be set aside into the Bond Fund (as defined in the Resolution) to provide for the prompt payment of the principal of, interest on, and redemption price of the Bonds of which this Bond is a part. For a more particular description of the Bond Fund, the
revenues to be deposited therein, and the nature and extent of the security afforded thereby, reference is made to the provisions of the Resolution.

The principal of, premium, if any, and interest on this Bond are payable in lawful money of the United States of America to the registered owner hereof whose name and address shall appear on the registration books of the University (the “Bond Register”) maintained by the Corporate Trust Department of Wells Fargo Bank, N. A. (the “Trustee”). Interest shall be paid to the registered owner whose name appears on the Bond Register on the fifteenth day of the calendar month next preceding the interest payment date, at the address appearing on the Bond Register, and shall be paid by check or draft of the Trustee mailed to such registered owner on the due date at the address appearing on the Bond Register, or at such other address as may be furnished in writing by such registered owner to the Trustee. Principal shall be paid to the registered owner upon presentation and surrender of this Bond at the principal corporate trust office of the Trustee, on or after the date of maturity or prior redemption.

This Bond is one of a duly authorized issue of Bonds of like date, tenor, and effect, except for variations required to state numbers, denominations, rates of interest, and dates of maturity, aggregating $____________ in principal amount. The Bonds are issued pursuant to and in full compliance with the Constitution and statutes of the State of Idaho, particularly Chapter 38, Title 33, Idaho Code, and proceedings duly adopted and authorized by the Regents on behalf of the University, more particularly the Resolution adopted by the Regents on November 22, 1991, as previously amended, supplemented, and restated from time to time, including with respect to the Bonds by a Supplemental Resolution adopted by the Regents on June 19, 2014, authorizing the issuance of the Bonds (collectively, the “Resolution”). All capitalized terms used but not herein defined shall have the meanings ascribed to them in the Resolution. The Series 2014 Bonds are not secured by the Debt Service Reserve Account previously created under the Resolution.

This Bond is one of the General Revenue Bonds, Series 2014, of the University (the “Series 2014 Bonds”) issued under the provisions of Chapter 38, Title 33, Idaho Code, for the purpose of providing funds with which to (i) finance the construction and equipping of a research center and renovation of an education building and other improvements for the campus of the University (the “Series 2014 Project”) and (ii) pay issuance expenses properly incident thereto. The principal of, interest on, and redemption price of the Series 2014 Bonds are payable from revenues and funds of the University pledged therefor and certain other fees and revenues, as more particularly set forth in the Resolution.

The Series 2014 Bonds are issuable as fully registered bonds without coupons in Authorized Denominations of $5,000 or any integral multiple in excess thereof. Subject to the limitations and upon payment of the charges, if any, provided in the Resolution, Bonds may be exchanged at the Principal Office of the Trustee for a like aggregate principal amount of Series 2014 Bonds of other Authorized Denominations.
This Series 2014 Bond is transferable by the Holder hereof, in person, or by its attorney duly authorized in writing, at the Principal Office of the Trustee, but only in the manner, subject to the limitations and upon payment of the charges provided in the Resolution, and upon surrender and cancellation of this Series 2014 Bond. Upon such transfer a new fully registered Bond or Bonds of like tenor in Authorized Denominations, for the same aggregate principal amount, will be issued to the transferee in exchange herefor.

Each Bond shall bear interest from the Payment Date to which interest has been paid as of the date on which it is authenticated or, if it is authenticated on or before the Record Date for the first Payment Date, from the Issue Date; provided, however, that if, at the time of authentication of any Bond, interest is in default on Outstanding Bonds, such Bond shall bear interest from the Payment Date to which interest has previously been paid or made available for payment on the Outstanding Bonds. Both the principal of and premium, if any, on the Series 2014 Bonds shall be payable upon surrender thereof at the Principal Office of the Trustee.

Interest on the Series 2014 Bonds will be paid on each Payment Date provided that if any Payment Date is not a Business Day, such interest shall be paid as provided above on the next succeeding Business Day with the same effect as if made on the day such payment was due. Interest on the Series 2014 Bonds shall be computed upon the basis of a 360-day year, consisting of twelve 30-day months. Interest on the Series 2014 Bonds shall bear interest from and including the Issue Date until payment of the principal or redemption price thereof has been made or provided for on the due date thereof, whether at maturity, upon redemption or otherwise.

The Series 2014 Bonds are subject to redemption, [including mandatory sinking fund redemption], with notice, in whole, or in part, in Authorized Denominations, prior to their maturity date, as described in the Resolution.

**The Series 2014 Bonds are initially issued in the form of a separate single certificated fully registered Bond for each maturity and registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York (“DTC”).**

**Unless this Bond is presented by an Authorized Officer of DTC to the University or its agent for registration of transfer, exchange, or payment, and any certificate issued is registered in the name of Cede & Co. or in such other name as is requested by an Authorized Officer of DTC (and any payment is made to Cede & Co. or to such other entity as is requested by an Authorized Officer of DTC), ANY TRANSFER, PLEDGE, OR OTHER USE HEREOF FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL inasmuch as the registered owner hereof, Cede & Co., has an interest herein.**

**Upon any partial redemption of this Bond, Cede & Co., in its discretion, may request the Trustee to authenticate a new Series 2014 Bond or shall make an appropriate notation on this Bond indicating the date and amount of prepayment, except in the case of
final maturity, in which case this Bond must be presented to the Trustee prior to payment.**

**The Series 2014 Bonds shall not be transferable or exchangeable except as set forth in the Resolution.**

This Bond is transferable by the registered owner hereof in person or by his attorney duly authorized in writing upon presentation and surrender of this Bond at the principal corporate trust office of the Trustee. Upon such transfer, a new Bond, of the same denomination, maturity, and interest rate will be issued to the transferee in exchange therefor.

Reference is hereby made to the Resolution for the covenants and declarations of the University and other terms and conditions under which this Bond and the Series 2014 Bonds of this issue have been issued. The covenants contained herein and in the Resolution may be discharged by making provisions at any time for the payment of the principal of and interest on this Bond in the manner provided in the Resolution.

This Bond shall not be valid or become obligatory for any purpose or be entitled to any security or benefit under the Resolution until the Certificate of Authentication hereon shall have been manually signed by the Trustee.

**IT IS HEREBY CERTIFIED AND DECLARED** that all acts, conditions, and things required by the Constitution and statutes of the State of Idaho to exist, to have happened, been done, and performed precedent to and in the issuance of this Bond have happened, been done, and performed, and that the issuance of this Bond and the Series 2014 Bonds of this issue does not violate any Constitutional, statutory, or other limitation upon the amount of bonded indebtedness that the University may incur.
IN WITNESS WHEREOF, the Board of Regents of the University of Idaho (the “Regents”), has caused this Bond to be executed by the manual or facsimile signature of the President of the Regents and of the Bursar of the University and attested by the manual or facsimile signature of the Secretary of the Regents, and a facsimile or original of the official seal of the University to be imprinted hereon, as of the dated date set forth above.

EXHIBIT B
PARAMETERS

SERIES 2014 BONDS:

The Purchase Price for the Series 2014 Bonds shall not be less than the aggregate par amount thereof.

Principal amount not to exceed $52,000,000.

Effective True Interest Cost (TIC) not to exceed 5.50% per annum.

Underwriter’s Discount or fee not to exceed .425% of the principal amount of the Bonds plus any reoffering premium, as more fully described in the Bond Purchase Agreement.

Final Maturity not to exceed 31 years from date of issuance.
EXHIBIT C

TERMS CERTIFICATE

In connection with a Supplemental Resolution of the Regents (the “Regents”) of the University of Idaho adopted on June 19, 2014 (the “2014 Supplemental Resolution”) authorizing the issuance and sale of the Regent’s General Revenue Bonds, Series 2014 (the “Series 2014 Bonds”), the undersigned hereby executes and delivers this Terms Certificate (as such term is defined in the 2014 Supplemental Resolution) specifying certain terms of the Series 2014 Bonds:

Series 2014 Bonds:

a. Principal amount:
b. Dated Date: __________, 2014
c. Date of Delivery: ______________, 2014
d. Closing Date: ______________, 2014, or such other date agreed upon by the Underwriters and the University
e. Underwriter’s discount or fee of $_________ ($____ per $1,000 of par amount plus any reoffering premium, as more fully described in Bond Purchase Agreement)
f. Purchase Price: ___________
g. Initial Payment Date, Maturity Date(s) and Interest Rate(s):
h. Optional Redemption: The Series 2014 Bonds are [not] subject to optional redemption [as follows:

The Series 2014 Bonds maturing on or before April 1, 20___, shall not be subject to optional call or redemption prior to their stated dates of maturity. On any day on or after [April 1, 20___], at the election of the University, the Series 2014 Bonds maturing after [April 1, 20___], shall be subject to redemption, in whole or in part, in maturities selected by the University and within each maturity as selected by lot by the Trustee, at par, plus accrued interest to the redemption date.]
i. Mandatory Sinking Fund Redemption Schedule (See Attached Schedule A-1 as attached hereto)
j. Sources and Uses of Series 2014 Bond proceeds:
Executed and delivered this ________, 2014 on behalf of the Regents pursuant to the 2014 Supplemental Resolution.

THE REGENTS OF THE UNIVERSITY OF IDAHO

THE REGENTS OF THE UNIVERSITY OF IDAHO
General Revenue Bonds
Series 2014A

Ladies and Gentlemen:

The undersigned, George K. Baum & Company (the "Underwriter"), offers to enter into this Bond Purchase Agreement (this "Bond Purchase Agreement") with the Regents of the University of Idaho (the "Regents") which, upon your acceptance of this offer, will be binding upon you and upon the Underwriter. Terms used herein that are not otherwise defined herein shall have the same meanings assigned to them in the Resolution (as hereinafter defined).

This offer is made subject to your acceptance of this Bond Purchase Agreement on or before 5:00 p.m. Pacific Time, on June __, 2014, and, if not so accepted by the Regents, will be subject to withdrawal by the Underwriter upon notice delivered to the Regents at its address set forth above, at any time prior to the acceptance hereof by the Regents. This offer is also subject to the provisions included in this Bond Purchase Agreement.

1. Purchase and Sale of the Series 2014 Bonds. Upon the terms and conditions and in reliance upon the respective representations, warranties and covenants herein, the Underwriter hereby agrees to purchase from the Regents, and the Regents hereby agree to sell and deliver to the Underwriter, all (but not less than all) of the Regents' General Revenue Bonds, Series 2014A (the "Series 2014 Bonds"), at an aggregate purchase price of $___________ (the "Series 2014 Purchase Price"), representing (i) the $___________ principal amount of the Series 2014 Bonds, plus (ii) net original issue premium of $___________, minus (iii) net original issue discount of $___________, and minus (iv) an Underwriter's discount of $___________. Payment of the Purchase Price for the Series 2014 Bonds shall be made through wire transfer of immediately available federal funds to the Trustee for the account of the Regents at or prior to the Closing (as defined herein), and, upon satisfaction of the conditions for the issuance and sale of the Series 2014 Bonds set forth herein, the Series 2014 Bonds shall be released for delivery no later than the Closing (as defined herein).

The Regents acknowledge and agree that (a) the purchase and sale of the Series 2014 Bonds pursuant to this Bond Purchase Agreement is an arm's length commercial transaction between the University and the Underwriter; (b) in connection with such transaction, the Underwriter is acting solely as a principal and not as an agency or a fiduciary of the Regents; (c) the Underwriter has not assumed (individually or collectively) a fiduciary responsibility in favor of the Regents with respect to the offering of the Series 2014 Bonds or the process leading hereto (whether or not the Underwriter, or any affiliate of
the Underwriter, has advised or is currently advising the University on other matters) or any other obligation to the University except the obligations expressly set forth in this Bond Purchase Agreement; and (d) the Regents have consulted with its own legal and financial advisors to the extent it deemed appropriate in connection with the offering of the Series 2014 Bonds. Furthermore, the Regents have received and acknowledged the letter dated April 15, 2014 delivered by the Underwriter. The Regents have retained Piper Jaffray & Company as a municipal advisor in this transaction.

The Series 2014 Bonds will be issued in accordance with the provisions of the Educational Institutions Act, constituting chapter 38, Title 33, Idaho Code and Chapter 5, Title 57, Idaho Code (the "Act"), the Constitution of the State of Idaho (the "State"), and pursuant to a Supplemental Resolution with respect to the Series 2014 Bonds adopted by the Regents on June 19, 2014 (the "2014 Supplemental Resolution") supplementing that certain Resolution adopted by the Regents on November 22, 1991 (as subsequently amended and supplemented, the "Original Resolution" and, together with the 2014 Supplemental Resolution, referred to herein as the "Resolution"). The Series 2014 Bonds shall mature on April 1 in each of the years and amounts, and bear interest at the rates, all as set forth on Schedule 1 hereto and subject to further terms as are reflected in the Official Statement (as hereinafter defined).

The Regents will apply the proceeds of the Series 2014 Bonds to finance the acquisition and construction of the Integrated Research and Innovation Center, to finance the renovation of the College of Education Building and other improvements at the Moscow campus of the University of Idaho (the "University"), and to pay costs of issuance associated with the Series 2014 Bonds.

2. Authority of the Underwriter. The Underwriter hereby represents and warrants that it has full corporate power and authority to execute and deliver this Bond Purchase Agreement and to perform all acts on its part herein required.

3. Public Offering of the Series 2014 Bonds. The Underwriter agrees to make a bona fide public offering of the Series 2014 Bonds at not in excess of the initial public offering price therefor as set forth on the inside cover page of the final Official Statement, as defined below. In connection with the public offering of the Series 2014 Bonds, the Regents shall cause the preparation of the Official Statement, with completion of information relating to the interest rate, selling compensation, aggregate principal amount, delivery date, ratings and other terms of the Series 2014 Bonds depending on such matters as acceptable to the Regents and the Underwriter to reflect such terms as contemplated by this Bond Purchase Agreement and with such other additions, deletions and revisions as shall be acceptable to the Regents and the Underwriter. Copies of the Official Statement, signed by an authorized representative of the Regents will be delivered to the Underwriter within seven (7) business days of the date of this Bond Purchase Agreement, in sufficient quantity as may be reasonably requested by the Underwriter in order for the Underwriter to comply with the rules of the Municipal Securities Rulemaking Board (the "MSRB"). The Regents hereby authorize the use by the Underwriter of the Official Statement in connection with the offering of the Series 2014 Bonds to the public.

The Underwriter reserves the right (a) to over-allot or effect transactions that stabilize or maintain the market price of the Series 2014 Bonds at a level above that which might otherwise prevail in the open market, and (b) to discontinue such stabilizing, if commenced, at any time. A public offering shall include an offering to a representative number of institutional investors or registered investment companies, regardless of the number of such investors to which the Series 2014 Bonds are sold.

Following the Closing Date, the Underwriter shall submit electronically a copy of the Official Statement to the MSRB at its Electronic Municipal Market Access system in accordance with the rules of the MSRB.
The Regents agree that if, through the 25th day after the Closing Date, the Regents become aware of the occurrence of an event that might cause the Official Statement to contain an untrue statement of a material fact or to omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, to notify the Underwriter, and, if in the opinion of the Underwriter such event requires the preparation and distribution of a supplement or an amendment to the Official Statement, the Regents, at their expense, at the request of the Underwriter, shall cause such a supplement or an amendment, satisfactory to the Underwriter, to be prepared and delivered to the Underwriter in such quantities as the Underwriter may reasonably request.

4. Representations, Warranties and Agreements by the Regents. In order to induce the Underwriter to enter into this Bond Purchase Agreement, and in consideration of the foregoing and of the execution and delivery of this Bond Purchase Agreement by the Underwriter, the Regents represent and warrant to and covenant with the Underwriter that, as of the date hereof and on and as of the date of the Closing:

(a) The Regents are a body politic and corporate organized and existing under and pursuant to the Constitution and laws of the State, have full legal right, power and authority pursuant to the Constitution, the Act and the Resolution to consummate all transactions contemplated by (i) this Bond Purchase Agreement, the Resolution, the Continuing Disclosure Agreement dated as of July __, 2014 between the Regents and the Trustee, as dissemination agent (collectively, the "Regents' Documents"), the Series 2014 Bonds and any and all other agreements and instruments relating to the issuance and sale of the Series 2014 Bonds; and (ii) the Preliminary Official Statement relating to the Series 2014 Bonds, including all appendices and supplements thereto, dated June __, 2014 (the "Preliminary Official Statement") and the final Official Statement, including all appendices thereto, dated as of the date hereof (the final Official Statement, including all appendices, supplements and amendments thereto, collectively is referred to as the "Official Statement"); to enter into the Regents' Documents; to issue the Series 2014 Bonds; to approve the Official Statement; to carry out all of its obligations thereunder and to comply with the terms and conditions hereof and thereof applicable to the Regents.

(b) The Regents have duly adopted the Resolution and have duly authorized all necessary action to be taken by them for: (i) the issuance and sale of the Series 2014 Bonds upon the terms and conditions set forth herein, in the Official Statement, and in the Resolution; (ii) the approval and execution, as relevant, of each Regents' Document and the Series 2014 Bonds; and (iii) the execution, delivery or receipt of and performance of the Regents' obligations under each Regents' Document and the Series 2014 Bonds, and any and all such other agreements and documents as may be required to be executed, delivered or received by the Regents in order to carry out, effectuate and consummate the transactions contemplated herein and therein.

(c) The Regents have previously provided the Underwriter with the Preliminary Official Statement, and as of its date, the Preliminary Official Statement has been "deemed final" by the Regents for purposes of Rule 15c2-12 promulgated under the Securities Exchange Act of 1934, as amended (the "Rule").

(d) Except as disclosed in the Official Statement, the Regents have never failed to comply in all material respects with any continuing disclosure undertaking with regard to the Rule to provide annual reports or notices of material events specified in the Rule.

(e) The Regents have duly approved and authorized the execution, delivery and distribution of the Official Statement.
(f) The information contained in the Official Statement with respect to forward-looking statements and in the sections thereof titled "INTRODUCTION – The Regents and the University of Idaho" and "– Purpose of the Series 2014 Bonds," "SECURITY FOR THE SERIES 2014 BONDS," "PLAN OF FINANCE – Series 2014 Projects," "HISTORICAL PLEDGED REVENUES," "THE UNIVERSITY," "FINANCIAL OPERATIONS OF THE UNIVERSITY," "UNIVERSITY GOVERNANCE AND ADMINISTRATION," "CONTINUING DISCLOSURE" and "LITIGATION" and in Appendices A and B (collectively, all such sections and appendices are herein referred to as the "Relevant Portions") is, and at the Closing will be, true and correct in all material respects and does not, and at the Closing will not, contain any untrue or misleading statement of a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading.

(g) At the time of the Regents' acceptance hereof and (unless an event occurs of the nature described in the last paragraph of Section 3 hereof) at all times subsequent thereto during the period up to and including twenty-five (25) days after the Closing Date, the information contained in the Relevant Portions of the Official Statement does not and will not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading.

(h) If the information contained in the Relevant Portions of the Official Statement is supplemented or amended pursuant to the last paragraph of Section 3 hereof, at the time of each supplement or amendment thereto and (unless subsequently again supplemented or amended pursuant to such paragraph) at all times subsequent thereto during the period up to and including twenty-five (25) days after the Closing Date, the information contained in the foregoing sections of the Official Statement, as so supplemented or amended, will not contain any untrue statement of a material fact or omit to state any material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading.

(i) Neither the execution and delivery of any Regents' Document, the Series 2014 Bonds, nor the consummation of the transactions contemplated herein or therein or the compliance with the provisions hereof or thereof, will conflict with, or constitute on the part of the Regents a violation of, or a breach of or default under, (i) any indenture, mortgage, commitment, note or other agreement or instrument to which the Regents is a party or by which it is bound, or (ii) any existing law, statute, rule, regulation (other than any state blue sky law) or resolution or judgment, order or decree of any court or governmental agency or body having jurisdiction over the Regents or any of its activities or properties. All consents, approvals, certificates of need, authorizations and orders of governmental or regulatory authorities (other than any state blue sky authorities) which are required for the execution and delivery of, consummation of the transactions contemplated by, and compliance with the provisions of, the Regents' Documents and the Series 2014 Bonds by the Regents have been obtained or will be obtained when required.

(j) Except as is specifically disclosed in the Official Statement, there is no action, suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, public board or body, pending or, to the knowledge of the Regents, threatened against or affecting (i) the financial condition of the Regents, the University, the Series 2014 Projects, the application of the Pledged Revenues to payment of the Series 2014 Bonds or the operation by the Regents or the University of its properties, or (ii) the corporate existence of the Regents, the offices held by the members of the Regents and officers of the University and their respective rights or powers, their legal existence, or the actions taken or contemplated to be taken by them, or (iii) the transactions
contemplated in the Regents' Documents or the Series 2014 Bonds, or (iv) the validity or enforceability in accordance with their respective terms of the Series 2014 Bonds, any Regents' Document or any material agreement or instrument by which the Regents, the University or their respective properties is or may be bound, and, to the knowledge of the Regents, is there any basis therefor wherein an unfavorable decision, ruling or finding would materially adversely affect any of the foregoing described in clauses (i) through (iv).

(k) The Regents will not take or omit to take any action which will in any way cause or result in the proceeds of the sale of the Series 2014 Bonds being applied in a manner other than as provided in the Resolution or as described in the Official Statement.

(l) The Regents have not been at any time in default as to principal or interest with respect to any obligation issued by or guaranteed by the Regents or with respect to which the Regents are an obligor.

(m) The audited financial statements of the University for the periods ended June 30, 2013 and June 30, 2012 are a fair presentation of the financial position of the University, the results of the University's operations and the University's changes in its net assets for the periods specified as of the dates indicated.

(n) Except as described in the Preliminary Official Statement, since June 30, 2013, there has been no material adverse change in the condition, financial or otherwise, of the University from that set forth in the audited financial statements as of and for the period ended that date; and except as described in the Preliminary Official Statement, the University, since June 30, 2013, has not incurred any material liabilities, directly or indirectly, except in the ordinary course of the University's operations.

(o) Between the date of this Agreement and the date of the Closing, except as contemplated by the Official Statement, the Regents will not incur and will not cause the University to incur any material liabilities, direct or contingent, or enter into any material transaction, in either case other than in the ordinary course of business.

(p) As of the date of this Bond Purchase Agreement, no event of default has occurred and is continuing and no event has occurred and is continuing which with the lapse of time or the giving of notice, or both, would constitute an event of default under any instrument to which the Regents or the University is a party and which is material to the business or operations of the Regents or the University.

(q) The Regents agree to furnish or cause to be furnished such information, execute or cause to be executed such instruments and take such other action in cooperation with Underwriter's Counsel as it may reasonably request (i) in any endeavor to qualify the Series 2014 Bonds for offering and sale under the securities or "Blue Sky" laws or regulations of such jurisdictions of the United States of America as the Underwriter may request, (ii) for the application for exemption from such qualification, (iii) for the determination of the Series 2014 Bonds' eligibility for investment under the laws of such jurisdictions as the Underwriter designates and (iv) to provide for the continuance of such qualifications or exemptions in effect for so long as required for distribution or marketing of the Series 2014 Bonds, but not to exceed six (6) months after the date of Closing; provided, however, that the Regents shall not be required to qualify to do business in any jurisdiction where it is not now so qualified, or to take any such action which would subject it to general service of process in any jurisdiction where it is not now so subject.
(r) The Regents will comply and will use its best efforts to insure compliance with the applicable representations, warranties, covenants and obligations of the Regents contained in this Bond Purchase Agreement.

(s) Any certificate signed by any officer of the Regents or the University and delivered to the Underwriter shall be deemed a representation and warranty by the Regents to the Underwriter as to the truth of the statements therein contained.

5. Closing. At 9 a.m., Pacific Time, on July __, 2014, or at such other time and/or date as shall have been mutually agreed upon by the Regents and the Underwriter (the "Closing Date"), the Regents will deliver, or cause to be delivered, to the Underwriter through the facilities of DTC the Series 2014 Bonds in definitive form duly executed by the Regents and authenticated by the Wells Fargo Bank, N.A., as Trustee in accordance with the Resolution, by delivering one fully registered Bond for each maturity of the Series 2014 Bonds in the principal amount of the related maturity of the Series 2014 Bonds, registered in the name of Cede & Co., as nominee of DTC, to the Trustee as custodian for DTC; and the Underwriter will accept such delivery of the Series 2014 Bonds and pay the Purchase Price of the Series 2014 Bonds to the Trustee for the account of the Regents by wire transfer or other direct transfer of immediately available funds payable to the order of the Trustee.

The activities relating to the final execution and delivery of the Series 2014 Bonds and the final execution and delivery of the Regents' Documents and the certificates, opinions and other instruments as described in Section 7 of this Bond Purchase Agreement shall occur at the offices of Skinner Fawcett LLP, Boise, Idaho or at such other location which shall be mutually agreed upon by the Regents and the Underwriter. The payment of the Purchase Price for the Series 2014 Bonds and simultaneous delivery of the Series 2014 Bonds to the Underwriter is herein referred to as the "Closing."

The Series 2014 Bonds will be made available for inspection by the Underwriter, at such place in Boise, Idaho as the Underwriter and the Trustee shall agree, not less than 24 hours prior to the Closing. The definitive Series 2014 Bonds shall bear proper CUSIP numbers (provided, however, that neither the printing of the wrong CUSIP number on any Series 2014 Bond nor the failure to print a CUSIP number thereon shall constitute cause to refuse to accept delivery of any Series 2014 Bond).

6. Termination. The Underwriter shall have the right to terminate its obligations hereunder by notice given to the Regents prior to delivery of and payment for the Series 2014 Bonds, if at any time prior to such time:

   (a) Legislation not yet introduced in Congress shall be enacted or actively considered for enactment by the Congress, or recommended by the President of the United States of America to the Congress for passage, or favorably reported for passage to either House of the Congress by any committee of such House to which such legislation has been referred for consideration, a decision by a court of the United States of America or the United States Tax Court shall be rendered, or a ruling, regulation (proposed, temporary or final) or Official Statement by or on behalf of the Treasury Department of the United States of America, the Internal Revenue Service or other agency or department of the United States of America shall be made or proposed to be made which has the purpose or effect, directly or indirectly, of imposing federal income taxes upon interest on the Series 2014 Bonds under the Internal Revenue Code of 1986, as amended (the "Code"); or

   (b) Any other action or event shall have transpired which has the purpose or effect, directly or indirectly, of materially adversely affecting the federal income tax consequences of any of the transactions contemplated in connection herewith or contemplated by the Official
Statement, and, in the reasonable judgment of the Underwriter, materially adversely affects the market for the Series 2014 Bonds or the sale, at the contemplated offering prices (or yields), by the Regents, of the Series 2014 Bonds; or

(c) Legislation shall be enacted, or actively considered for enactment by the Congress, with an effective date on or prior to the date of Closing, or a decision by a court of the United States of America shall be rendered, or a ruling or regulation by the Securities and Exchange Commission (the "SEC") or other governmental agency having jurisdiction over the subject matter shall be made, the effect of which is that (i) the Series 2014 Bonds are not exempt from the registration, qualification or other requirements of the Securities Act of 1933, as amended and as then in effect, or the Securities Exchange Act of 1934, as amended and as then in effect, or (ii) the Resolution is not exempt from the registration, qualification or other requirements of the Trust Indenture Act of 1939, as amended and as then in effect; or

(d) A stop order, ruling or regulation by the SEC shall be issued or made, the effect of which is that the issuance, offering or sale of the Series 2014 Bonds, as contemplated herein or in the Official Statement, is in violation of any provision of the Securities Act of 1933, as amended and as then in effect, the Securities Exchange Act of 1934, as amended and as then in effect, or the Trust Indenture Act of 1939, as amended and as then in effect; or

(e) There shall exist any fact or there shall occur any event which, in the reasonable judgment of the Underwriter, either (i) makes untrue or incorrect in any material respect any statement or information contained in the Official Statement or (ii) is not reflected in the Official Statement but should be reflected therein in order to make the statements and information contained therein not misleading in any material respect and, in either such event the Regents refuse to permit the Official Statement to be supplemented to correct or supply such statement or information, or the Official Statement as so corrected or supplemented is such as, in the judgment of the Underwriter, would materially adversely affect the market for the Series 2014 Bonds or the sale, at the contemplated offering prices (or yields), by the Regents of the Series 2014 Bonds; or

(f) There shall have occurred any outbreak or escalation of hostilities, declaration by the United States of a national emergency or war or other calamity or crisis the effect of which on financial markets is such as to make it, in the reasonable judgment of the Underwriter, impractical or inadvisable to proceed with the offering or delivery of the Series 2014 Bonds as contemplated by the final Official Statement (exclusive of any amendment or supplement thereto); or

(g) Trading in the Regents' outstanding securities shall have been suspended by the Securities and Exchange Commission or trading in securities generally on the New York Stock Exchange shall have been suspended or limited or minimum prices shall have been established on such Exchange; or

(h) A banking moratorium shall have been declared either by federal or New York State authorities; or

(i) There occurs any material adverse change in the affairs, operation or financial condition of the University, except as set forth or contemplated in the Official Statement, the effect of which is, in the reasonable judgment of the Underwriter, to materially adversely affect the market for the Series 2014 Bonds or the sale, at the contemplated prices (or yields) by the Regents of the Series 2014 Bonds; or
(j) The Official Statement is not executed, approved and delivered in accordance with the terms hereof; or

(k) In the reasonable judgment of the Underwriter, the market price of the Series 2014 Bonds, or the market price generally of obligations of the general character of the Series 2014 Bonds, would be adversely affected because: (i) additional material restrictions not in force as of the date hereof shall have been imposed upon trading in securities generally by any governmental authority or by any national securities exchange, or (ii) the New York Stock Exchange or other national securities exchange, or any governmental authority, shall impose, as to the Series 2014 Bonds or similar obligations, any material restrictions not now in force, or increase materially those now in force, with respect to the extension of credit by, or the charge to the net capital requirements of, underwriters; or

(l) Any litigation shall be instituted, pending or threatened to restrain or enjoin the issuance, sale or delivery of the Series 2014 Bonds or in any way contesting or affecting any authority for or the validity of the Series 2014 Bonds, the Regents' Documents, or the existence or powers of the Regents or any of the transactions described herein or in the Official Statement; or

(m) Any underlying rating on the Series 2014 Bonds or other Bonds of the Regents which are secured by a pledge of the Pledged Revenues on a parity with the pledge of the Series 2014 Bonds thereon is reduced or withdrawn or placed on credit watch with negative outlook by any major credit rating agency.

7. Conditions to Purchase. The Underwriter has executed and delivered this Bond Purchase Agreement in reliance upon the representations, warranties and obligations of the Regents contained herein. Accordingly, the Underwriter's obligations under this Bond Purchase Agreement shall be subject to the following conditions:

(a) The representations and warranties of the Regents contained herein shall be true and correct in all material respects at the date hereof and at and as of the Closing, as if made at and as of the Closing and will be confirmed by certificates of the appropriate Regents' or University official or officials, dated the Closing Date, and the statements made in all certificates and other documents delivered to the Underwriter at the Closing pursuant hereto shall be true, complete and correct in all material respects at the Closing; and the Regents shall be in compliance with each of the warranties, agreements and covenants made by them in this Bond Purchase Agreement.

(b) At the Closing, the following conditions shall have been satisfied:

(1) the Series 2014 Bonds shall be executed by the Regents, authenticated by the Trustee and delivered to the Underwriter for purchase as described in Section 5 hereof;

(2) all actions which, in the opinion of Co-Bond Counsel and the Underwriter, shall be necessary in connection with the transactions contemplated hereby, shall have been duly taken and shall be in full force and effect;

(3) the Regents shall perform or shall have performed all of their obligations required under or specified in this Bond Purchase Agreement and the Official Statement to be performed at or prior to the Closing;
(4) all necessary resolutions and other official action of the Regents relating to the Regents' Documents and the issuance and sale of the Series 2014 Bonds, and all necessary resolutions and other official action of the Regents relating to all other agreements or documents to be executed and delivered by the Regents in connection with the issuance and sale of the Series 2014 Bonds shall have been taken and shall be in full force and effect and shall not have been amended, modified or supplemented in any material respect, except with the consent of the Underwriter;

(5) each of the Regents' Documents and the Series 2014 Bonds shall have been fully executed by the relevant parties and shall be in full force and effect;

(6) the Official Statement, executed by the Regents and in form and substance acceptable to the Underwriter, shall have been delivered to the Underwriter; and

(7) evidence satisfactory to the Underwriter of filing a report with the State Treasurer pursuant to Idaho Code Section 67-1222 shall have been delivered to the Underwriter.

(c) At or prior to the Closing, the Underwriter shall receive the following documents in such number of counterparts as shall be mutually agreeable to the Regents and the Underwriter:

(1) Certified copies of the 2014 Supplemental Resolution and all resolutions of the Regents relating to the Series 2014 Bonds and approving the execution and delivery of each Regents' Document and the Official Statement;

(2) Copies of the Series 2014 Bonds;

(4) The Official Statement executed on behalf of the Regents by their duly authorized officer;

(5) The approving opinions of Co-Bond Counsel, dated the Closing Date, in substantially the forms set forth in Appendix F to the Official Statement;

(6) Supplemental opinions of Co-Bond Counsel, dated the Closing Date, in substantially the form set forth in Exhibit A hereto;

(7) An opinion of Underwriter's Counsel, dated the Closing Date, in substantially the form acceptable to the Underwriter;

(8) A certificate of the Attorney General of the State, dated the Closing Date, relating to validity of the Series 2014 Bonds;

(9) An opinion of Counsel to the Regents and the University addressed to the Underwriter, the Regents, and Co-Bond Counsel, dated the Closing Date, in form and substance satisfactory to the Underwriter, to the effect that (i) the University is an
institution of higher education and a body politic of the State, duly and validly created and existing pursuant to the laws of the State with, and the Regents have, full legal right, power and authority to issue the Series 2014 Bonds, to adopt the Resolution, to pledge the Pledged Revenues, to enter into the Regents' Documents, and to consummate the transactions contemplated by the Resolution and the Regents' Documents, (ii) the Resolution was duly adopted by the Regents, (iii) the adoption of the Resolution by the Regents and the execution and delivery of the Regents' Documents and the performance by the Regents or the University of the transactions contemplated thereby will not conflict with or constitute a breach of, or default under, any provision of the applicable law, rule, regulation, ordinance, judgment, order or decree to which the Regents or the University is subject, or any commitment, note, agreement or other instrument to which the University or Regents is a party or by which it or any of their respective property is bound; (iv) the Relevant Portions of the Official Statement are true and correct in all material respects and do not omit to state a material fact; (v) except as disclosed in the Official Statement, there is no action, suit, proceeding, official inquiry or investigation, at law or in equity, pending or, to the knowledge of such Counsel, threatened (and there is no basis for such action, suit, proceeding, official inquiry or investigation) which (1) questions the existence or powers of the Regents or the University or any of their respective officers; (2) seeks to prohibit, restrain or enjoin the sale, issuance or delivery of the Series 2014 Bonds or the authorization, execution and delivery of the Resolution or any Regent Document or validity of the proceedings taken by the Regents in connection with the issuance of the Series 2014 Bonds; (3) affects the collection of the Pledged Revenues pledged or to be pledged to pay the principal of and interest on the Series 2014 Bonds; or (4) contests the completeness or accuracy of the Official Statement;

(10) Letters from Moody's and S&P to the effect that the Series 2014 Bonds have received ratings of ["Aa3" from Moody's and "A+" from S&P,] both of which ratings shall be in effect at Closing;

(11) A certificate of the Regents, dated the Closing Date, in substantially the form acceptable to the Co-Bond Counsel and the Underwriter;

(12) A certificate of the Trustee, dated the Closing Date, to the effect that the Trustee (i) is duly organized and validly existing under the laws of the United States of America, with full corporate trust powers, (ii) has full right, power and authority to enter into and perform the obligations under the Resolution, and (iii) has validly accepted its obligations under the Resolution, which obligations are legally valid and binding obligations of the Trustee;

(13) A certificate of the Regents, dated the Closing Date, required by Sections 7.2 (2) and 7.2(4) of the Original Resolution; and

(14) Such additional legal opinions, certificates, proceedings, instruments and other documents as Co-Bond Counsel may reasonably request to evidence compliance by the Regents with legal requirements, the truth and accuracy, as of the time of Closing, of the respective representations of the Underwriter and the Regents herein contained and the due performance or satisfaction by each of them at or prior to such time of all agreements then to be performed and all conditions then to be satisfied by each of them.

If the Regents shall be unable to satisfy the conditions to the obligations of the Underwriter contained in this Bond Purchase Agreement, or if the obligations of the Underwriter to place and accept
delivery of the Series 2014 Bonds shall be terminated for any reason permitted by this Bond Purchase Agreement, this Bond Purchase Agreement shall terminate and neither the Underwriter nor the Regents shall be under further obligation hereunder; except that the Regents' obligations to pay fees and expenses, as provided in Section 9 hereof, shall continue in full force and effect. The Underwriter shall have the right to waive any of the conditions to its obligations contained in this Bond Purchase Agreement.

8. **Survival of Representations, Warranties and Agreements.** All representations, warranties and agreements of the Regents and the Underwriter shall remain operative and in full force and effect, regardless of any investigations made by or on behalf of the Underwriter or the Regents and shall survive the Closing. The obligations of the Regents and the Underwriter under Section 9 hereof shall survive the Closing and any termination of this Bond Purchase Agreement by the Underwriter pursuant to the terms hereof.

9. **Fees and Expenses.** The Regents will pay or cause to be paid all reasonable expenses incident to the performance of its obligations under this Bond Purchase Agreement, including, but not limited to, mailing or delivery of the Series 2014 Bonds, costs of printing of the Series 2014 Bonds, the Preliminary Official Statement, the final Official Statement and any amendment or supplement to the Official Statement, fees and disbursements of Co-Bond Counsel and Underwriter's Counsel, fees and expenses of the accountants of and counsel to the Regents, any fees charged by rating agencies for the ratings of the Series 2014 Bonds, and any fees and expenses of the Trustee.

10. **Notices.** Any notice or other communication to be given to the Regents under this Bond Purchase Agreement may be given by delivering the same in writing at its address set forth above and to the attention of President and any notice or other communication to be given to the Underwriter under this Bond Purchase Agreement may be given by delivering the same in writing to George K. Baum & Company, 1400 Wewatta Street, Suite 800, Denver, Colorado 80202, Attention: Lee White, Executive Vice President.

11. **Benefit.** This Bond Purchase Agreement is made solely for the benefit of the Regents and the Underwriter (including the successors or assigns of the Underwriter) and no other person, including any purchaser of the Series 2014 Bonds, shall acquire or have any right hereunder or by virtue hereof. This Bond Purchase Agreement shall be binding upon the successor and assigns, if any, of the Regents and the Underwriter.

12. **Governing Law.** This Bond Purchase Agreement shall be governed by and construed in accordance with the laws of the State, without giving effect to its principles of conflicts of laws.

[Signature Page Follows]
13. **Effective Date.** This Bond Purchase Agreement shall become effective upon your acceptance hereof and may be executed in several counterparts, each of which shall be regarded as an original and all of which shall constitute one and the same document.

Very truly yours,

GEORGE K. BAUM & COMPANY

EXHIBIT A
Supplemental Opinion of Co-Bond Counsel

July __, 2014

George K. Baum & Company
Denver, Colorado

Re: The Regents of the University of Idaho General Revenue Bonds, Series 2014

This letter is being delivered to you pursuant to Section 7(c)(6) of the Bond Purchase Agreement (the "Purchase Agreement") dated June __, 2014 between George K. Baum & Company (the "Underwriter"), and the Regents of the University of Idaho (the "Regents"), which Purchase Agreement relates to the purchase by the Underwriter of $______________ aggregate principal amount of the Regents' General Revenue Bonds, Series 2014 (the "Series 2014 Bonds"). Capitalized terms which are used herein but which are not otherwise defined shall have the meanings assigned to them in the Purchase Agreement.

We have acted as co-bond counsel to the Regents in connection with the issuance of the Series 2014 Bonds and, in that capacity, have examined executed counterparts of the Purchase Agreement, the Resolution, the Continuing Disclosure Agreement and the Official Statement of the Regents with respect to the Series 2014 Bonds dated June __, 2014 (the "Official Statement"). We have also examined the originals or copies, certified or otherwise identified to our satisfaction, of such other documents, records and other instruments as we have deemed necessary or advisable for purposes of this letter.

On the basis of such examination, we are of the opinion as of the date hereof and under currently existing law as follows:

1. The Purchase Agreement and the Continuing Disclosure Agreement have each been duly authorized, executed and delivered by the Regents.

2. The Series 2014 Bonds are not subject to the registration requirements of the Securities Act of 1933, as amended, and the Resolution is exempt from qualification pursuant to the Trust Indenture Act of 1939, as amended.

Because the primary purpose of our professional engagement as co-bond counsel was not to establish factual matters and because of the wholly or partially nonlegal character of many determinations
involved in the preparation of the Official Statement, except with regards to the matters contained in Paragraph 3 above, we are not passing upon and do not assume any responsibility for the accuracy, completeness or fairness of any of the statements contained in the Official Statement and make no representation that we have independently verified the accuracy, completeness or fairness of any such statements. However, in our capacity as co-bond counsel, during the course of preparation of the Official Statement, we met in conferences with representatives of and counsel to the Regents and the University, your representatives and counsel, and others, during which conferences the contents of the Official Statement and related matters were discussed. Based on our participation in the above-mentioned conferences, and in reliance thereon and on the certificates and other documents herein mentioned, we advise you that no information came to the attention of the attorneys in our firm rendering legal services in such connection which caused them to believe that the Official Statement as of its date and as of the date of this letter contained or contains any untrue statement of a material fact or omitted or omits to state any material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading (except that no opinion or belief is expressed herein as to financial statements, financial, economic demographic or statistical data, forecasts, charts, estimates, projections, assumptions, expressions of opinion, any information about book-entry and The Depository Trust Company, and information contained in Appendix A, Appendix B, and Appendix E to the Official Statement).

We have on this day rendered our approving opinion as Co-Bond Counsel to the Regents with respect to the Series 2014 Bonds. You are entitled to rely on such opinion as if it were addressed to you.

This letter is furnished by us as co-bond counsel to the Regents. No attorney-client relationship has existed or exists between our firm and you in connection with the Series 2014 Bonds or by virtue of this letter. We disclaim any obligation to update this letter. This letter is delivered to you solely for your benefit and may not be relied upon by any other persons. This letter is not to be used, circulated, quoted or otherwise referred to or relied upon for any other purpose or by any other person. This letter is not intended to, and may not, be relied upon by the owners of the Series 2014 Bonds or by any party to whom it is not addressed.

Respectfully submitted,

SKINNER FAWCETT LLP

CONTINUING DISCLOSURE AGREEMENT

Between

THE REGENTS OF THE UNIVERSITY OF IDAHO

and

WELLS FARGO BANK, N.A.
as Trustee and Dissemination Agent

Dated as of July __, 2014

Relating to

$________

THE REGENTS OF THE UNIVERSITY OF IDAHO
General Revenue Bonds
Series 2014A
CONTINUING DISCLOSURE AGREEMENT

This Continuing Disclosure Agreement (this "Agreement") dated as of July __, 2014, is entered into by and between THE REGENTS OF THE UNIVERSITY OF IDAHO (the "Regents"), a body politic and corporate organized and existing under and pursuant to the Constitution and laws of the State of Idaho (the "University"), and WELLS FARGO BANK, National Association, (the "Trustee" and as more particularly defined below, the "Dissemination Agent") in connection with the issuance by the Regents of its $________ General Revenue Bonds, Series 2014A (the "Bonds"). The Bonds are being issued pursuant to a Supplemental Resolution adopted by the Regents on June 19, 2014 (the "2014 Supplemental Resolution") supplementing that certain Resolution adopted by the Regents on November 22, 1991 (as subsequently amended and supplemented and together with the 2014 Supplemental Resolution, referred to herein as the "Resolution").

The Regents covenant and agree as follows:

SECTION 1. Purpose of the Agreement. This Agreement is being executed and delivered by the Regents for the benefit of the Bondowners and in order to allow the Participating Underwriters (as defined by Rule 15c2-12) to comply with Rule 15c2-12.

SECTION 2. Definitions. In addition to the definitions set forth in the Resolution, which apply to any capitalized term used in this Agreement unless otherwise defined in this Section, the following capitalized terms shall have the following meanings:

"Annual Financial Information" means the financial information or operating data with respect to the University and the Pledged Revenues, delivered at least annually pursuant to Section 3 hereof, of the type set forth in the Official Statement, including but not limited to, such Pledged Revenues and debt service coverage information of the type set forth under the caption "HISTORICAL PLEDGED REVENUES," provided that such information shall be provided only on an actual basis, financial information and operating data set forth under the captions "SECURITY FOR THE SERIES 2014 BONDS – Tuition and Student Fees," "– Sales and Services Revenues," "– Facilities and Administrative Recovery Revenues," "– Other Operating Revenues" and "– Investment Income," "THE UNIVERSITY – Housing and Student Union Facilities," "– Employee Retirement Plan; Post Retirement Health Benefits" and "– Insurance," "FINANCIAL OPERATIONS OF THE UNIVERSITY – State Appropriations," "– Financial Assistance" and "– Schedule of Outstanding Indebtedness," the table titled "Five-Year Historical Enrollment Summary" under the caption "THE UNIVERSITY – Student Body," and the table in Appendix B titled "2014-2015 Tuition and Student Fees."

"Audited Financial Statements" means the annual financial statements for the University, prepared in accordance with generally accepted accounting principles as in effect from time to time, audited by a firm of certified public accountants.

"Bondowner" or "owner of the Bonds" means the registered owner of the Bonds, and so long as the Bonds are subject to the book-entry system, any Beneficial Owner as such term is defined in the Resolution.
"Dissemination Agent" means Wells Fargo Bank, National Association, acting in its capacity as Dissemination Agent hereunder, or any successor Dissemination Agent designated in writing by the Regents and which has filed with the Trustee under the Resolution a written acceptance of such designation.

"Events" means any of the events listed in Section 4(a) and 4(b) of this Agreement.

"MSRB" means the Municipal Securities Rulemaking Board or any other entity designated or authorized by the Securities and Exchange Commission to receive reports pursuant to Rule 15c2-12. Unless otherwise designated by the MSRB or the Securities and Exchange Commission, filings with the MSRB are to be made through the Electronic Municipal Market Access (EMMA) system of the MSRB, currently located at http://emma.msrb.org.

"Official Statement" means the final Official Statement dated June __, 2014 delivered in connection with the issue and sale of the Bonds.

"Rule 15c2-12" shall mean Rule 15c2-12 adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time.

SECTION 3. Provision of Annual Information.

(a) Commencing with the Fiscal Year ended June 30, 2014, and annually while the Bonds remain outstanding, the Regents shall provide to the Dissemination Agent Annual Financial Information and Audited Financial Statements.

(b) Such Annual Financial Information shall be provided by the Regents not later than 180 days after the end of each Fiscal Year. The Audited Financial Statements will be provided when available but in no event later than 180 days after the end of each Fiscal Year.

(c) The Regents may provide Annual Financial Information and Audited Financial Statements with respect to the University and the Pledged Revenues by specific cross-reference to other documents which have been submitted by the Dissemination Agent to the MSRB or filed with the Securities and Exchange Commission. If the document so referenced is a final official statement within the meaning of Rule 15c2-12, such final official statement must also be available from the MSRB. The Regents shall clearly identify each such other document so incorporated by cross-reference.

(d) The Dissemination Agent shall provide Annual Financial Information and Audited Financial Statements to the MSRB on or before the tenth day after the Dissemination Agent receives such Annual Financial Information and Audited Financial Statements from the Regents. The Regents shall include with each submission of Annual Financial Information to the Dissemination Agent a written representation addressed to the Dissemination Agent to the effect that the Annual Financial Information is the Annual Financial Information required by this Agreement and that it complies with the applicable requirements of this Agreement.
SECTION 4. Reporting of Events.

(a) At any time the Bonds are outstanding, in a timely manner not in excess of ten (10) business days after the occurrence of an Event, the Regents shall provide or cause to be provided to the MSRB notice of any of the following Events with respect to the Bonds:

1. Principal and interest payment delinquencies;

2. Unscheduled draws on debt service reserves reflecting financial difficulties;

3. Unscheduled draws on credit enhancements reflecting financial difficulties;

4. Substitution of credit or liquidity providers, or their failure to perform;

5. Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the Bonds, or other material events affecting the tax status of the Bonds;

6. Defeasances;

7. Rating changes;

8. Tender offers; and

9. Bankruptcy, insolvency, receivership, or similar event of the Obligated Person.

For the purposes of the event identified in paragraph (4)(a)(9) hereof, the event is considered to occur when any of the following occur: (i) the appointment of a receiver, fiscal agent or similar officer for an obligated person in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the obligated person, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or (ii) the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the obligated person.

(b) At any time the Bonds are outstanding, in a timely manner not in excess of ten (10) business days after the occurrence of an Event, the Regents shall provide or cause to be provided to the MSRB notice of any of the following Events with respect to the Bonds, if material:
(1) Non-payment related defaults;

(2) Modification to the rights of the beneficial owners of the Bonds;

(3) Bond calls;

(4) Release, substitution or sale of property securing repayment of the Bonds;

(5) The consummation of a merger, consolidation, or acquisition involving an obligated person or the sale of all or substantially all of the assets of the obligated person, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms; and

(6) Appointment of a successor or additional trustee or a change in the name of a trustee.

Whenever the Regents obtain knowledge of the occurrence of an Event specified in paragraph 4(b), the Regents shall as soon as possible determine if such Event would constitute material information for owners of Bonds.

(c) If the Regents determine that knowledge of the occurrence of an Event listed in Section 4(b) would be material, the Regents shall promptly notify the Dissemination Agent in writing. Such notice shall instruct the Dissemination Agent to report the occurrence pursuant to Section 4(d) hereof.

(d) If the Dissemination Agent has been instructed by the Regents to report the occurrence of an Event listed in Section 4(a) or Section 4(b), the Dissemination Agent shall in a timely manner not in excess of ten (10) business days after the occurrence of an Event file a notice of such occurrence with the MSRB with a copy to the Regents.

(e) The Dissemination Agent, if the Dissemination Agent is also the Trustee, shall promptly advise the Regents whenever, in the course of performing its duties as Trustee under the Resolution, it identifies an occurrence of an Event which could require the Regents to provide a notice pursuant to this Section 4; provided that the failure of the Dissemination Agent so to advise the Regents of such occurrence shall not constitute a breach by the Dissemination Agent, in its capacity as Trustee, of any of its duties and responsibilities hereunder or under the Resolution.

(f) At any time the Bonds are outstanding, the Dissemination Agent shall, without further direction or instruction from the Regents, provide in a timely manner to the MSRB notice of any failure by the Regents to provide Annual Financial Information and Audited Financial Statements (in substantially the form attached as Exhibit A to this Agreement) as specified in Section 3 hereof.

SECTION 5. Filing. The filing of Annual Financial Information, Audited Financial Statements, notices of Events or any other notice required by this Agreement shall be
effected by sending the filing or notice to the MSRB, in such designated electronic format, accompanied by such identifying information, as shall have been prescribed by the MSRB and which shall be in effect on the date of filing of such information.

SECTION 6. Concerning the Dissemination Agent.

(a) The Dissemination Agent shall not have any obligation to examine or review the Annual Financial Information and Audited Financial Statements and neither shall it have a duty to verify the accuracy or completeness of the Annual Financial Information and Audited Financial Statements.

(b) Solely for the purpose of (i) defining the standards of care and performance, including indemnification, applicable to the Dissemination Agent in the performance of its obligations under this Agreement, (ii) the manner of execution by the Dissemination Agent of those obligations, and (iii) matters of removal, resignation, succession of the Dissemination Agent under this Agreement, Article VIII of the Resolution is hereby made applicable to this Agreement as if this Agreement was (solely for this purpose) contained in the Resolution; provided that the Dissemination Agent shall have only such duties under this Agreement as are specifically set forth in this Agreement. Except as provided in Section 4(e) hereof, the Dissemination Agent shall have no duty to investigate or monitor compliance by the Regents with the terms of this Agreement. The Disseminating Agent shall have no obligation to examine or review the Annual Financial Information, Audited Financial Statements and notices of Events provided to it pursuant to the terms of this Agreement, and shall have no liability or responsibility for the form of, or the accurateness or completeness of, the Annual Financial Information, Audited Financial Statements and notices of Events disseminated by the Dissemination Agent hereunder.

Notwithstanding the provisions of Section 6 above, the Regents hereby agree to the extent permitted by law to hold harmless and to indemnify the Dissemination Agent, its employees, officers, directors, agents and attorneys from and against any and all claims, damages, losses, liabilities, reasonable costs and expenses whatsoever (including attorneys’ fees and expenses, whether incurred before trial, at trial, or on appeal, or in any bankruptcy or arbitration proceedings), which may be incurred by the Dissemination Agent by reason of or in connection with the disclosure of information in accordance with this Agreement, except to the extent such claims, damages, losses, liabilities, costs or expenses result directly from the negligence or willful misconduct of the Dissemination Agent in the performance of its duties under this Agreement. In no event shall Disclosure Agent be liable for special, indirect, or consequential losses or damages of any kind whatsoever (including but not limited to lost profits) even if Disclosure Agent has previously been advised of such losses and damages. This Section shall survive the termination of the Agreement, payment of the Bonds, and the removal or resignation of the Dissemination Agent.

SECTION 7. Term. This Agreement shall be in effect from and after the issuance and delivery of the Bonds and shall extend to the earliest of (a) the date all principal and interest on the Bonds shall have been deemed paid pursuant to the terms of the Resolution; (b) the date that the Regents shall no longer constitute an "obligated person" with respect to the Bonds within the meaning of Rule 15c2-12; and (c) the date on which those portions of Rule 15c2-12 which
require this Agreement are determined to be invalid by a court of competent jurisdiction in a non-appealable action, have been repealed retroactively or otherwise do not apply to the Bonds, which determination may be made in any manner deemed appropriate by the Regents, including by an opinion of any attorney or firm of attorneys experienced in federal securities laws selected by the Regents. The Regents shall provide a notice of any such termination with the Dissemination Agent who shall file such notice with the MSRB.

SECTION 8. Amendment; Waiver. Notwithstanding any other provision of this Agreement, the Regents may amend this Agreement, and any provision of this Agreement may be waived, if such amendment or waiver is consistent with Rule 15c2-12. Written notice of any such amendment or waiver shall be provided by the Regents to the Dissemination Agent who shall file it with the MSRB, and the Annual Financial Information shall explain the reasons for the amendment and the impact of any change in the type of information being provided. If any amendment changes the accounting principles to be followed in preparing financial statements, the Annual Financial Information for the year in which the change is made will present a comparison between the financial statement or information prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles.

SECTION 9. Additional Information. Nothing in this Agreement shall be deemed to prevent the Regents from disseminating any other information, using the means of dissemination set forth in this Agreement or any other means of communication, or including any other annual information or notice of occurrence of an event which is not an Event, in addition to that which is required by this Agreement; provided that the Regents shall not be required to do so. If the Regents choose to include any annual information or notice of occurrence of an event in addition to that which is specifically required by this Agreement, the Regents shall have no obligation under this Agreement to update such information or include it in any future annual filing or notice of occurrence of an Event.

SECTION 10. Default and Enforcement. If the Regents fail to comply with any provision of this Agreement, any Bondowner may take action to seek specific performance by court order to compel the Regents to comply with its undertaking in this Agreement; provided that any Bondowner seeking to require the Regents to so comply shall first provide at least 30 days' prior written notice to the Regents of the Regents' failure (giving reasonable details of such failure), following which notice the Regents shall have 30 days to comply and, provided further, that only the owners of no less than a majority in aggregate principal amount of the Bonds may take action to seek specific performance in connection with a challenge to the adequacy of the information provided by the Regents in accordance with this Agreement, after notice and opportunity to comply as provided herein, and such action shall be taken only in a court of jurisdiction in the State of Idaho. A DEFAULT UNDER THIS AGREEMENT SHALL NOT BE DEEMED AN EVENT OF DEFAULT UNDER THE RESOLUTION OR THE BONDS, AND THE SOLE REMEDY UNDER THIS AGREEMENT IN THE EVENT OF ANY FAILURE OF THE REGENTS TO COMPLY WITH THIS AGREEMENT SHALL BE AN ACTION TO COMPEL PERFORMANCE.

SECTION 11. Beneficiaries. The Agreement shall inure solely to the benefit of the Regents, the Participating Underwriters and owners from time to time of the Bonds, and shall create no rights in any other person or entity.

Re: The Regents of the University of Idaho, General Revenue Bonds, Series 2014 in the Principal Amount of $________________ (the “Series 2014 Bonds”).

Ladies and Gentlemen:

As University Counsel to The Regents (“Regents”) of the University of Idaho (the "University"), I have reviewed certain documents in connection with the issuance and sale by the Regents of the above-captioned bonds (the “2014 Bonds”), including the Resolution of the Regents adopted on November 22, 1991, as previously restated, amended and supplemented, and the Supplemental Resolution of the Regents dated June 19, 2014, authorizing the issuance and sale of the Series 2014 Bonds (collectively, the "Resolution"), the Preliminary Official Statement dated June __, 2014, the Official Statement dated June __, 2014 (the "Official Statement"), and such other documents as I deemed necessary to render this opinion.
Capitalized terms used as defined terms in this opinion have the meaning assigned to such terms in the Resolution. This opinion is rendered under the Bond Purchase Agreement dated June __, 2014 (the "Bond Purchase Agreement") between the Regents and George K. Baum & Company (the "Underwriter"), wherein the Regents agree to issue and sell to the Underwriter the Series 2014 Bonds.

Based upon my examination, it is my opinion that:

1. The University is an institution of higher education and a body politic of the State of Idaho, duly and validly created and existing pursuant to the laws of the State of Idaho, with, and the Regents have, full legal right, power, and authority (i) to issue bonds of the University pursuant to the Resolution; (ii) to adopt the Resolution; (iii) to enter into the Bond Purchase Agreement, the Continuing Disclosure Agreement and the other agreements contemplated or required by the Resolution and the Bond Purchase Agreement; (iv) to pledge the Pledged Revenues (as defined in the Resolution) to secure the payment of the principal of and interest on the Series 2014 Bonds; and (v) to carry out and consummate the transactions contemplated by the Resolution, the Official Statement, the Continuing Disclosure Agreement and the Bond Purchase Agreement.

2. The meeting of the Regents on June 19, 2014, at which the Supplemental Resolution was duly adopted by the Regents, was called and held pursuant to law, all public notices required by law were given, and the actions taken at the meeting, insofar as such actions relate to the Series 2014 Bonds, were legally and validly taken.

3. The adoption of the Resolution by the Regents, the execution and delivery of the Bond Purchase Agreement, the Continuing Disclosure Agreement and the other agreements contemplated or required by the Resolution, the Official Statement and Bond Purchase Agreement, and the performance by the Regents or the University of the transactions contemplated thereby will not conflict with or constitute a breach of or default under, any provision of the Idaho Constitution or laws or any applicable existing law, rule, regulation, ordinance, judgment, order or decree to which the University or the Regents is subject, or to the best of our knowledge after due inquiry, any commitment, note, agreement or other instrument to which the Regents or University is a party or by which it or any of its property is bound, or conflict with or constitute a default under or result in the creation or imposition of any security interest, lien, charge or encumbrance (other than the lien of the Resolution) on any of its assets pursuant to the provisions of any of the foregoing.

“FINANCIAL OPERATIONS OF THE UNIVERSITY,” “UNIVERSITY GOVERNANCE AND ADMINISTRATION,” “CONTINUING DISCLOSURE” and “LITIGATION” and in Appendices A and B to the Official Statement, are true and correct in all material respects and do not contain an untrue statement or omission of a material fact, it being understood that, in rendering this opinion, I am not expressing an opinion with respect to statistical data, technical and financial statements, operating statistics, and other financial data contained under these captions of the Official Statement. I hereby consent to the inclusion of my name as University Counsel to the Regents and the University in the section of the Official Statement entitled "LEGAL MATTERS" and on the cover page thereof.

5. The Regents have duly authorized the execution, delivery and performance by the Regents of the Bond Purchase Agreement and the Continuing Disclosure Agreement and such agreements are valid and binding obligations of the Regents enforceable against the Regents in accordance with their terms (subject to bankruptcy, insolvency, reorganization, moratorium and other laws affecting the rights of creditors generally and to the application of equitable remedies, if equitable remedies are sought).

6. Except as described in the Official Statement, there is no action, suit, proceeding, official inquiry or investigation, at law or in equity, pending or, to my knowledge threatened (and there is no basis for such action, suit, proceeding, official inquiry or investigation,) which (i) questions the existence or powers of the Regents or the University or the title to office of any present official of the Regents or the University; (ii) seeks to prohibit, restrain or enjoin the sale, issuance or delivery of any of the Series 2014 Bonds or the authorization, execution and delivery of the Resolution, the Bond Purchase Agreement, Continuing Disclosure Agreement and the other agreements contemplated or required by the Resolution, the Official Statement and Bond Purchase Agreement; (iii) affects the collection of the Pledged Revenues pledged or to be pledged to pay the principal of and interest on the 2014 Bonds, or the pledge of the revenue and other funds and accounts under the Resolution; (iv) contests the completeness or accuracy of the Official Statement; or (v) contests any authority for the issuance of the 2014 Bonds, and the adoption of the Resolution, or the execution and delivery of the Bond Purchase Agreement and other agreements contemplated or required by the Resolution, the Official Statement or the Bond Purchase Agreement or the validity of any proceedings taken by the Regents or the University in connection with the issuance or sale of the 2014 Bonds.

Very Truly Yours,

Kent E. Nelson
University Counsel

Re: The Regents of the University of Idaho General Revenue Bonds, Series 2014

This letter is being delivered to you pursuant to Section 7(c)(6) of the Bond Purchase Agreement (the “Purchase Agreement”) dated June __, 2014 between George K. Baum & Company (the “Underwriter”), and the Regents of the University of Idaho (the “Regents”), which Purchase Agreement relates to the purchase by the Underwriter of $____________ aggregate principal amount of the Regents’ General Revenue Bonds, Series 2014, (the “Series 2014 Bonds”). Capitalized terms which are used herein but which are not otherwise defined shall have the meanings assigned to them in the Purchase Agreement.

We have acted as co-bond counsel to the Regents in connection with the issuance of the Series 2014 Bonds and, in that capacity, have examined executed counterparts of the Purchase Agreement, the Resolution, the Continuing Disclosure Agreement and the Official Statement of the Regents with respect to the Series 2014 Bonds dated June __, 2014 (the “Official Statement”). We have also examined the originals or copies, certified or otherwise identified to our satisfaction, of such other documents, records and other instruments as we have deemed necessary or advisable for purposes of this letter.

On the basis of such examination, we are of the opinion as of the date hereof and under currently existing law as follows:

1. The Purchase Agreement, and the Continuing Disclosure Agreement have each been duly authorized, executed and delivered by the Regents.

2. The Series 2014 Bonds are not subject to the registration requirements of the Securities Act of 1933, as amended, and the Resolution is exempt from qualification pursuant to the Trust Indenture Act of 1939, as amended.

3. The statements contained in the Official Statement under the captions “INTRODUCTION—Authority for Issuance,” “Terms of the Series 2014 Bonds,” “Payment and Security for the Series 2014 Bonds,” “THE SERIES 2014 BONDS,” “SECURITY FOR THE SERIES 2014 BONDS—Pledged Revenues,” “Covenants,” “No Debt Service Reserve Account for the Series 2014 Bonds,” and “TAX MATTERS,” and in APPENDIX C, and APPENDIX F to the Official Statement insofar as the statements contained under such captions purport to summarize and/or extract certain provisions of the Series 2014 Bonds, the Resolution,
and our opinion with respect to the status of interest on the Series 2014 Bonds, present an accurate summary and/or extract of such provisions in all material respects.

Because the primary purpose of our professional engagement as co-bond counsel was not to establish factual matters and because of the wholly or partially nonlegal character of many determinations involved in the preparation of the Official Statement, except with regards to the matters contained in Paragraph 3 above, we are not passing upon and do not assume any responsibility for the accuracy, completeness or fairness of any of the statements contained in the Official Statement and make no representation that we have independently verified the accuracy, completeness or fairness of any such statements. However, in our capacity as co-bond counsel, during the course of preparation of the Official Statement, we met in conferences with representatives of and counsel to the Regents and the University, your representatives and counsel, and others, during which conferences the contents of the Official Statement and related matters were discussed. Based on our participation in the above-mentioned conferences, and in reliance thereon and on the certificates and other documents herein mentioned, we advise you that no information came to the attention of the attorneys in our firm rendering legal services in such connection which caused them to believe that the Official Statement as of its date and as of the date of this letter contained or contains any untrue statement of a material fact or omitted or omits to state any material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading (except that no opinion or belief is expressed herein as to financial statements, financial, economic demographic or statistical data, forecasts, charts, estimates, projections, assumptions, expressions of opinion, any information about book-entry and The Depository Trust Company, and information contained in Appendix A, Appendix B, and Appendix E to the Official Statement).

We have on this day rendered our approving opinion as Co-Bond Counsel to the Regents with respect to the Series 2014 Bonds. You are entitled to rely on such opinion as if it were addressed to you.

This letter is furnished by us as co-bond counsel to the Regents. No attorney-client relationship has existed or exists between our firm and you in connection with the Series 2014 Bonds or by virtue of this letter. We disclaim any obligation to update this letter. This letter is delivered to you solely for your benefit and may not be relied upon by any other persons. This letter is not to be used, circulated, quoted or otherwise referred to or relied upon for any other purpose or by any other person. This letter is not intended to, and may not, be relied upon by the owners of the Series 2014 Bonds or by any party to whom it is not addressed.

Respectfully submitted,

RE: The Regents of the University of Idaho General Revenue Bonds, Series 2014A

We have acted as co-bond counsel to the Regents of the University of Idaho (the “Regents”) in connection with the issuance by the Regents of their General Revenue Bonds, Series 2014A (the “Bonds”). The Bonds are being issued pursuant to (i) Title 57, Chapter 5 and Title 33, Chapter 38, Idaho Code, as amended and (ii) a Resolution, adopted by the Regents on November 22, 1991, as heretofore amended, supplemented, and restated, and as further supplemented and amended by a supplemental resolution of the Regents adopted on June 19, 2014 (collectively, the “Resolution”). The Bonds are being issued (i) to finance certain capital improvements of the University of Idaho (the “University”), and (ii) to pay costs of issuance associated with the Bonds. Capitalized terms not otherwise defined herein shall have the meanings set forth in the Resolution.

Our services as co-bond counsel have been limited to the preparation of the legal proceedings and supporting certificates authorizing the issuance of the Bonds under the applicable laws of the State of Idaho and to a review of the transcript of such proceedings and certificates. As to questions of fact material to our opinion, we have relied upon the certified proceedings and other certifications of public officials furnished to us without undertaking to verify the same by independent investigation. Our examination has been limited to the foregoing as they exist or are in effect as of the date hereof. Our opinion is limited to the matters expressly set forth herein, and we express no opinion concerning any other matters.

Based on our examination and the foregoing, we are of the opinion as of the date hereof and under existing laws as follows:

1. The Resolution has been duly adopted by the Regents and constitutes a valid and binding obligation of the Regents enforceable upon the Regents.
2. The Resolution creates a valid lien on the amounts pledged thereunder for the security of the Bonds.

3. The Bonds are valid and binding limited obligations of the Regents, payable solely from the Pledged Revenues and other amounts pledged therefor under the Resolution.

4. Based on an analysis of currently existing laws, regulations, decisions and interpretations, interest on the Bonds is excludable from gross income for purposes of federal income tax under existing laws as enacted and construed on the date of initial delivery of the Bonds, assuming the accuracy of the certifications of the Regents and continuing compliance by the Regents with the requirements of the Internal Revenue Code of 1986. Interest on the Bonds is not an item of tax preference for purposes of either individual or corporate federal alternative minimum tax; however interest on the Bonds held by a corporation (other than an S corporation, regulated investment company, or real estate investment trust) may be indirectly subject to federal alternative minimum tax because of its inclusion in the adjusted current earnings of a corporate holder; interest on the Bonds is exempt from State of Idaho personal income taxes;

In rendering our opinion, we wish to advise you that:

(i) The rights of the Owners of the Bonds and the enforceability thereof and of the Resolution may be subject to bankruptcy, insolvency, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors’ rights heretofore or hereafter enacted to the extent constitutionally applicable, and their enforcement may also be subject to the application of equitable principles and the exercise of judicial discretion in appropriate cases;

(ii) We express no opinion herein as to the accuracy, adequacy, or completeness of the Official Statement or any other offering material relating to the Bonds; and

(iii) Except as set forth above, we express no opinion regarding any other tax consequences relating to ownership or disposition of, or the accrual or receipt of interest on the Bonds.

Respectfully submitted,

BACKGROUND/ DISCUSSION

Integrated Research and Innovation Center

The University of Idaho (UI) is currently in the design process of an effort aimed at constructing an Integrated Research and Innovation Center (IRIC) on the Moscow campus. This proposed new building will be sited at a central location in the heart of the campus. This proposed facility will establish modern and capable science spaces supporting interdisciplinary research and provide core visualization and computing labs. The project has been cited as a key priority in our multi-year capital plans and state funding requests since 1999.

The University received a federal grant supporting conceptual planning of the facility in 2005, and subsequently hired NBBJ as the design agent through a competitive qualifications-based selection process. Initial work included a review of current campus research capabilities, and an evaluation of options to build new versus remodel existing science spaces. Site analysis and selection and initial architectural programming work followed. This initial program work and subsequent program iterations yielded a refined and tested vision of a $49M project providing state of the art new science and research space.

In December of 2012, the university achieved Board of Regents Authorization for the planning and design phases of the project. The architectural firm NBBJ was retained for the design process. NBBJ has assembled a highly competent and professional team of sub consultants and design is now well underway. The design team has completed the conceptual design, schematic design, and design development phases of the design process, and is approximately 90% complete with the construction document phase. At this point, the documents envision a three story structure of 70,800 gsf.

The design and project administration team working together has determined that the project is best delivered in two major phases. The first phase consists of site clearing, site excavation, site utilities, footings and foundations, under floor utilities, first floor slab-on-grade, and the erection of steel framing. This first phase will be funded by a $5 million contribution to the overall project by the State of Idaho through the Permanent Building Fund (PBF). Given the PBF funding, the initial phase of the project will be delivered and administered by the State of Idaho
Subsequent to the PBF funded, DPW administered phase of the project, the university will take over and administer a second phase that will complete the build-out of the project. A coordinated milestone schedule for this transfer of project administrative responsibilities is being developed in cooperation between DPW, the university and the design team. While an exact date is yet to be determined, it is generally assumed that this handoff will occur approximately late 2014/early 2015. The UI administered phase of the project will be funded through bond proceeds developed by the University of Idaho.

A rough timeline for the anticipated design and construction process, to include future board authorizations, follows:

<table>
<thead>
<tr>
<th>Date</th>
<th>Event Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dec 2012</td>
<td>Regents authorized planning and design phase, and</td>
</tr>
<tr>
<td></td>
<td>The design process was initiated</td>
</tr>
<tr>
<td>Apr 2014</td>
<td>Regents authorized project construction implementation</td>
</tr>
<tr>
<td>Jun 2014</td>
<td>Seek authorization for issuance of construction bonds</td>
</tr>
<tr>
<td>Jul 2014</td>
<td>Begin construction of the PBF funded, DPW administered phase of the project—24 months construction overall, to include building commissioning and move in</td>
</tr>
<tr>
<td>Fall 2016</td>
<td>Building operational</td>
</tr>
</tbody>
</table>

The project is expected to be funded through a combination of State of Idaho PBF funds allocated for this purpose, and agency funding.

In the December, 2012 authorization request for the planning and design phases, the university indicated that the planning and design phase expenditures of $3.6 million would be funded through the use of existing cash reserves. Further, the university indicated that those cash reserves would be restored and replenished through the proposed construction phase bond sale anticipated to occur following indebtedness authorization in June, 2014. The funding summary below and as detailed in the Capital Project Tracking Sheet reflects this intent.

This project directly supports the University’s strategic plan and its education, research, and outreach goals and is fully consistent with the University’s Long Range Campus Development Plan (LRCDP), and the Campus Infrastructure Master Plan.

**IMPACT**

This design and construction project effort is anticipated to be $49,000,000. The overall project impact, to include the pre-planning expenditures, planning and design phases, and construction is $49,938,600.
Prior Authorized Expenditures (Pre-Planning/Pre-Design)
(As reported in April, 2012)

Funding $938,600
Expenditures $936,427

College of Education Building, Renovation and Improvements

This effort is modeled after the successful asbestos remediation and whole building renovation of the former University Classroom Center (UCC), now the Teaching and Learning Center (TLC), completed at the University of Idaho in 2005. The UCC presented the very same issues associated with steel framing covered by ACM fire-proofing in an otherwise sound structure that was equipped with a non-compliant, non-ducted open plenum return HVAC system. Just as with the College of Education Building, the conclusion in the case of the UCC was that a whole-building renovation approach provided the best and most efficient solution for the University and the State. The UCC- to -TLC renovation and improvement was completed in 2005 to great success.

When complete, the project will result in the complete revitalization and renewal of the existing structure with the intent of providing a safe, clean, efficient, sustainable, aesthetic, technology capable, flexible environment in which the College of Education can deliver programs and pedagogies designed to support current, technologically-supported, educational content to the students of the College and future educational professionals on behalf of the citizens of the State of Idaho.

The University desires to proceed with the project led and administered by the State Division of Public Works. Funding is envisioned to be a combination of State Permanent Building Funds (PBF) as well as bond funds procured by the University of Idaho, and donated gifts.
University of Idaho June 18-19, 2014

New Facility and Building Renovation/Improvements Details Attachment

The design phase is now well underway. The design and project administration team working together has determined that the project is best delivered in two major phases. The first phase consists of abatement of hazardous materials and demolition and the second phase will consist of the renovation and restoration of the College of Education Building.

The abatement and demolition phase is estimated to have a performance period of 8 to 9 months given the character and the amount of contaminated materials and systems present in the existing building. Schedule constraints drive the need to begin the abatement and demolition phase during the summer of 2014. Design work on the renovation and restoration phase will continue in parallel with the implementation of the hazardous materials and demolition phase.

**Project Delivery Schedule Summary**

In general, the overall milestones anticipate that the building is off-line for renovation and unoccupied beginning mid-summer of 2014 through summer of 2016. The goal is that the renovated and improved College of Education Building will be fully functional and operational for the Fall Semester, 2016.

- June 2013  Regents authorized planning and design phase
- Apr 2014   Regents authorized project construction implementation
- Jun 2014   Seek authorization for issuance of construction bonds
- Jul 2014   Begin construction
- Fall 2016  Building operational

**IMPACT**

The immediate fiscal impact of this effort is to fund the abatement, demolition and phase costs of the project. The total budget for this project effort is currently set at $17,160,000, to include design and construction costs and appropriate and precautionary contingency allowances. This is an increase over the amount indicated in the initial Planning and Design Phases Authorization and is the result of successful fund raising efforts spearheaded by the Dean of the College of Education. This additional amount will be used to secure the full scope of the project and to ensure the desired level of fit and finish.

LEWIS-CLARK STATE COLLEGE

SUBJECT
Increase to FY2015 Athletic Limit

REFERENCE
April 2014 Idaho State Board of Education approved revised Athletic Limits for FY2015

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.X.

BACKGROUND/DISSION
Lewis-Clark State College’s (LCSC) men and women’s track and cross-country programs are flourishing. During this past year, an unprecedented number of our cross-country and track and field athletes qualified for NAIA national tournaments, and participation has increased to a total of 80 student athletes. LCSC plans to increase participation in track and cross-country by at least 20 students in FY2015. To accommodate the expansion of these programs, the College is requesting that its current General Fund limit of $993,300 be increased by $100,000 to a new total of $1,093,300.

Currently, the LCSC General Fund athletic limit, on a per-participant basis, is the lowest of any of the four-year institutions. To date, LCSC has not requested temporary or permanent increases to its General Fund athletic limit to cover Gender Equity costs. LCSC’s approach is to manage Gender Equity requirements within the Board’s basic General Fund limit, if possible. While Title IX considerations will be a key factor in recruitment of the additional student athletes, this request is not being presented as a Gender Equity proposal, per se.

Shown below are the FY2015 General Fund limits for the four institutions and the total number of participants at each of the institutions (FY2013 actual participant counts taken from the latest Intercollegiate Gender Equity Reports).

<table>
<thead>
<tr>
<th>Institution</th>
<th>Gen Fund Limit</th>
<th>Gender Equity Gen Fund Limit</th>
<th>Total Gen Fund Limit</th>

<td>$1,178,600</td>
<td>$3,850,500</td>
<td>574</td>
<td>$6,708</td>
</tr>
<tr>
<td>ISU</td>
<td>$2,671,900</td>
<td>$780,000</td>
<td>$3,451,900</td>
<td>414</td>
<td>$8,338</td>
</tr>
<tr>
<td>UI</td>
<td>$2,671,900</td>
<td>$1,021,300</td>
<td>$3,693,200</td>
<td>437</td>
<td>$8,451</td>
</tr>
<tr>
<td>LCSC</td>
<td>$993,300</td>
<td>$0</td>
<td>$993,300</td>
<td>204</td>
<td>$4,869</td>
</tr>
</tbody>
</table>
LCSC continues to operate a successful—and lean—Athletics program, while keeping below (though close to) the Board-directed athletic limits. The requested $100,000 increase in LCSC’s General Fund Athletic Limit would enable the College to support projected growth in its track/cross-country programs and would also increase enrollment and tuition revenue (as a result of 20 additional student athletes). The College is not requesting an increase in the support limit for Institutional Funds, nor is it requesting any increase to the current Student Activity Fee formula.

**IMPACT**

Approval of this request would enable LCSC to use available General Fund dollars to hire an assistant coach to support track-and-field/cross-country programs. Currently, only one paid employee supports these six programs (men and women’s cross-country, men and women’s indoor track, and men and women’s outdoor track). The remaining funds would support additional operating expenses, travel, and equipment costs associated with the expansion of the program. After expanding participation in the program to the President’s-approved target of 20 additional athletes, the new LCSC General Fund limit dollars per student ratio would remain essentially unchanged, increasing from the current level of $4,869 per participant (as shown in the graph above) to $4,880—an $11 increase.

**STAFF COMMENTS AND RECOMMENDATIONS**

If the Board were to approve LCSC’s request, the dollar limit per participant at LCSC ($4,880) would still be well below that of the next lowest institution (BSU at $6,708). Staff finds LCSC makes a reasonable case for the need to increase its General Fund limit and therefore recommends approval.
BOARD ACTION

I move to approve the request from Lewis-Clark State College to increase its FY2015 General Fund athletic limit by $100,000 resulting in a new limit of $1,093,300.

February 16, 2012 State Board Approval of First Draft of ESEA Waiver

June 20, 2012 State Board Approval of College Entrance and Placement Exam benchmarks

August 15, 2013 State Board Approval of Proposed changes to IDAPA 08.02.03.105.06(d) – graduation requirements for the Class of 2016 allow for the field test waiver to be implemented in Idaho.

November 1, 2013 State Board Approval of Pending Rule Docket No. 08.0203.1306

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Administrative Code, IDAPA 08.02.03.112 Accountability

BACKGROUND/DISCUSSION
On October 18th, 2013 Idaho received the ESEA Flexibility Part B Monitoring Report that took place August 13 - 14, 2013 by representatives of the US Department of Education. The report highlighted next steps that would need to be addressed in the state of Idaho’s amendment submission. The areas highlighted for improvement included:

- Annually report college-going and college-credit accumulation rates (Assurance 5) as defined under the State Fiscal Stabilization Fund Indicators (c)(11) and (c)(12) (Assurances 5 of ESEA Flexibility).

- Develop and Implement a State-Based System of Differentiated Recognition, Accountability, and Support.

- Priority Schools – Idaho State Department of Education (SDE) did not demonstrate that its non-SIG priority schools have met the requirements of the school leadership turnaround principle.

- Focus Schools – SDE explained that its generalized approach intentionally focuses on raising the quality of instruction for all students because SDE regards raising the quality of core instruction as its schools’ most immediate need.

- State and Local Report Cards - report cards do not contain all required information, including National Assessment of Education Progress data and highly quality teacher data. This has been corrected.
IMPACT
The Department has made the following changes to reflect peer review findings:

- The Report Card was adjusted before submission and the State-wide system of Differentiated Recognition, Accountability, and Support was handled with addressing Principle 2 components of the ESEA Flexibility waiver.

- The Board and Department are going to have to work together to make sure that during the 2014-2015 School year the K-12 State Longitudinal Data System (SLDS) and the post-secondary SLDS work together to identify and then post the rates necessary.

- Reward Schools will need to be recognized for High Achievement and Highest Growth and the SDE will work on ways to recognize and promote the success of school through providing resources for schools to share at the Department’s Title I conference and ways of promoting best practices.

- Priority Schools will have to either replace their principals if they have been there less than two years or submit a Letter of Affirmation stating why the principal will be the “turnaround principal.”

- SDE representatives will visit each Focus School each year to reflect on how the Focus School is meeting the needs of the subgroup through their interventions.

The Department has worked with representatives from the US Department of Education to find appropriate solutions to the peer review findings. If the State Board of Education does not approve the amendments to Idaho’s approved ESEA Flexibility Waiver, then the State Department of Education and the State Board of Education will need to come up with alternative solutions to the findings in the monitoring report prior to the 2014-2015 school year.

ESEA FLEXIBILITY PART B MONITORING REPORT

OVERVIEW OF ESEA FLEXIBILITY MONITORING

The U.S. Department of Education (ED) is committed to supporting State educational agencies (SEAs) as they implement ambitious reform agendas through their approved ESEA flexibility requests. Consistent with this commitment, ED has designed a monitoring process to assess an SEA’s implementation of the principles of ESEA flexibility and the State-level systems and processes needed to support that implementation.

Part B Monitoring

In Part B monitoring, SEA implementation of ESEA flexibility was reviewed across several key areas: State-level Systems and Processes, Principle 1, Principle 2, and Principle 3, as outlined in the ESEA Flexibility Part B Monitoring Protocol. In each broad area, ED identified key elements that are required under ESEA flexibility and are likely to lead to increased achievement for students. Through examination of documentation submitted by the SEA and interviews with SEA staff, ED assessed the effectiveness of implementation of ESEA flexibility by identifying the extent to which an SEA:

1. Is ensuring that implementation is occurring consistent with the SEA’s approved request and the principles and timelines of ESEA flexibility.
2. Is continuing to review and make adjustments to support implementation.
3. Is establishing systems and process to sustain implementation and improvements.

The report contains the following sections:

- **Highlights of the SEA’s Implementation.** This section identifies key accomplishments in the SEA’s implementation of ESEA flexibility.
- **Status of Implementation of ESEA Flexibility.** This section indicates whether or not the SEA has met expectations for each element of ESEA flexibility.
- **Elements Requiring Next Steps.** When appropriate, this section identifies any elements where the SEA is not meeting expectations and includes Next Steps that the SEA must take to meet expectations.
- **Recommendations to Strengthen Implementation.** This section provides recommendations to support the SEA in continuing to meet the principles and timelines of ESEA flexibility and strengthening implementation.
- **Additional Comments.** When appropriate, this section includes any additional information related to the SEA’s implementation of ESEA flexibility not included elsewhere.

**HIGHLIGHT OF IMPLEMENTATION OF ESEA FLEXIBILITY**

The SEA’s work includes the following key accomplishment relating to the implementation of ESEA flexibility and/or efforts to engage in a process of continuous review and analysis, particularly for those elements receiving a comprehensive review:

- In order to ensure a smooth transition to and implementation of college- and career-ready standards, ISDE conducted thoughtful and coordinated outreach to engage stakeholders, with a significant emphasis on school level staff.

**STATUS OF IMPLEMENTATION OF ESEA FLEXIBILITY**

<tr>
<td>Next Steps</td>
<td>Within 30 days of receipt of this report ISDE will submit a plan for ensuring that its State and local report cards are consistent with ED’s February 8, 2013 report card guidance and will submit evidence that it has updated its 2013-2014 State and local report cards.</td>
</tr>
</tbody>
</table>

**RECOMMENDATION TO STRENGTHEN IMPLEMENTATION**
The following recommendation is provided to support the SEA in continuing to meet the principles and timelines of ESEA flexibility and strengthen implementation through continuous improvement and the establishment of systems and processes to sustain implementation and improvement.

- **ISDE should consider strengthening its communication with parents and families of English Learners in order to ensure that these populations understand the implications of every component of ISDE’s ESEA flexibility request. ISDE may consider making its ESEA flexibility request and supporting documents**
available in languages other than English and/or providing translators at community meetings, within reason and as applicable.

ADDITIONAL COMMENTS

- As a result of a special referendum passed in November 2012, key components of Principle 3 of ISDE’s ESEA flexibility request were overturned. ISDE subsequently requested and ED agreed to suspend review of ISDE’s originally-submitted Principle 3, concurrent with ISDE’s assurance that it would re-submit an updated version of Principle 3 of its ESEA flexibility request. On May 15, 2013, ISDE submitted Principle 3 of its ESEA flexibility request, and, in doing so, received approval to continue to implement ESEA flexibility through the end of the 2013-2014 school year. As of the date of this monitoring report, ED has not yet peer reviewed nor approved Principle 3 of ISDE’s ESEA flexibility request. ED will address any concerns related to Principle 3 of ISDE’s ESEA flexibility request via a separate and forthcoming Principle 3 review and approval process.

- Consistent with its approved ESEA flexibility request, ISDE intends to transition to the WIDA assessment to ensure that English proficiency is determined using an assessment that is aligned to English Language Proficiency standards which correspond to college- and career-ready standards.
Dear Assistant Secretary Delisle:

I am writing on behalf of the Idaho State Board of Education to request approval to amend Idaho’s approved ESEA flexibility request. The relevant information, outlined in the *ESEA Flexibility Amendment Submission Process* document, is provided in the table below.

<table>
<thead>
<tr>
<th>Flexibility Element(s) Affected by the Amendment</th>
<th>Brief Description of Element as Originally Approved</th>
<th>Brief Description of Requested Amendment</th>

</tr>
</thead>
<tbody>
<tr>
<td><strong>Assurance 5</strong> <em>(pg. 11)</em> It will report Annually to the public on college-going and college credit-accumulation rates for all students and subgroups of students in each LEA and each public high school in the</td>
<td>Originally, Assurance 5 was not adequately addressed within the waiver submission.</td>
<td>We propose to include a high-quality plan to annually report to the public, college-going and college-credit accumulation rates for all students and all student groups in each LEA and each public high school no later than the 2014-2015 school year.</td>
<td>An annual public report of college-credit accumulation rates for all students and all student groups in each LEA and each public high school will hold districts and schools accountable for tracking the number of students who are advancing beyond high school requirements, specifically college-going and college-credit accumulation. By holding districts responsible for reporting the status of all students and all student groups,</td>
<td>With the submission of this amendment the ISDE will send an email to all LEAs inviting them to review changes made and comment as well as post a public notice on our website. At the end of the public comment period all comments received will be documented and will be considered, with the possibility of revising the amendment.</td>
</tr>

Attached to this letter is a redlined version of the pages from our approved ESEA flexibility request that would be impacted with strikeouts and additions to demonstrate how the request would change with approval of the proposed amendments. Please contact Greg Alexander at galexander@sde.idaho.gov or by phone at (208) 332-6869 if you have any questions regarding these proposed amendments.
The Idaho State Board of Education acknowledges that the U.S. Department of Education may request supplementary information to inform consideration of this request.

_______________________________________________  ________________________
Chief State School Officer                   Date
Based on your responses to the Focus School Intervention Survey:

1. Please share some of the things that you have been working on around (name an intervention checked on the survey)? Provide some evidence of the work that has been done.

2. What are some of the positive outcomes to your work?

3. As you reflect on the process, what are the challenges you have overcome?

4. As you move forward, what will be your next steps?

5. How has this process impacted the climate and culture of your school?
Based on the responses to the interview questions, indicate the amount of progress the school has made toward each intervention checked on the Focus School Intervention Survey. The interventions must be designed to meet the needs of ALL students.

*Tiered interventions are a set of interventions strategically designed to address the range of student needs within a school. For example, a school may implement a "Tier I" intervention that includes a reading program to increase literacy skills for all students in a school; a "Tier II" intervention that includes periodic screening of students identified as struggling in the "Tier I"
interventions and a more customized implementation of the "Tier I" intervention; and a "Tier III" intervention that includes a thorough diagnostic assessment of students identified as struggling even with a more customized implementation of the "Tier I" intervention and one on one support for these students. The number of tiers is not pre-determined and should be based on the needs of the students in the school.

The State, through its authorized representative, agrees to meet all principles of the ESEA Flexibility.
WAIVERS

By submitting this flexibility request, the SEA requests flexibility through waivers of the ten ESEA requirements listed below and their associated regulatory, administrative, and reporting requirements by checking each of the boxes below. The provisions below represent the general areas of flexibility requested; a chart appended to the document titled *ESEA Flexibility Frequently Asked Questions* enumerates each specific provision of which the SEA requests a waiver, which the SEA incorporates into its request by reference.

1. The requirements in ESEA section 1111(b)(2)(E)-(H) that prescribe how an SEA must establish annual measurable objectives (AMOs) for determining adequate yearly progress (AYP) to ensure that all students meet or exceed the State’s proficient level of academic achievement on the State’s assessments in reading/language arts and mathematics no later than the end of the 2013–2014 school year. The SEA requests this waiver to develop new ambitious but achievable AMOs in reading/language arts and mathematics in order to provide meaningful goals that are used to guide support and improvement efforts for the State, LEAs, schools, and student subgroups.

2. The requirements in ESEA section 1116(b) for an LEA to identify for improvement, corrective action, or restructuring, as appropriate, a Title I school that fails, for two consecutive years or more, to make AYP, and for a school so identified and its LEA to take certain improvement actions. The SEA requests this waiver so that an LEA and its Title I schools need not comply with these requirements.

3. The requirements in ESEA section 1116(c) for an SEA to identify for improvement or corrective action, as appropriate, an LEA that, for two consecutive years or more, fails to make AYP, and for an LEA so identified and its SEA to take certain improvement actions. The SEA requests this waiver so that it need not comply with these requirements with respect to its LEAs.

4. The requirements in ESEA sections 6213(b) and 6224(e) that limit participation in, and use of funds under the Small, Rural School Achievement (SRSA) and Rural and Low-Income School (RLIS) programs based on whether an LEA has made AYP and is complying with the requirements in ESEA section 1116. The SEA requests this waiver so that an LEA that receives SRSA or RLIS funds may use those funds for any authorized purpose regardless of whether the LEA makes AYP.

5. The requirement in ESEA section 1114(a)(1) that a school have a poverty percentage of 40 percent or more in order to operate a schoolwide program. The SEA requests this waiver so that an LEA may implement interventions consistent with the turnaround principles or interventions that are based on the needs of the students in the school and designed to enhance the entire educational program in a school in any of its priority and focus schools that meet the definitions of “priority schools” and “focus schools,” respectively, set forth in the document titled *ESEA Flexibility*, as appropriate, even if those schools do not have a poverty percentage of 40 percent or more.

6. The requirement in ESEA section 1003(a) for an SEA to distribute funds reserved under that section only to LEAs with schools identified for improvement, corrective action, or
The SEA requests this waiver so that it may allocate section 1003(a) funds to its LEAs in order to serve any of the State’s priority and focus schools that meet the definitions of “priority schools” and “focus schools,” respectively, set forth in the document titled *ESEA Flexibility*.

7. The provision in ESEA section 1117(c)(2)(A) that authorizes an SEA to reserve Title I, Part A funds to reward a Title I school that (1) significantly closed the achievement gap between subgroups in the school; or (2) has exceeded AYP for two or more consecutive years. The SEA requests this waiver so that it may use funds reserved under ESEA section 1117(c)(2)(A) for any of the State’s reward schools that meet the definition of “reward schools” set forth in the document titled *ESEA Flexibility*.

8. The requirements in ESEA section 2141(a), (b), and (c) for an LEA and SEA to comply with certain requirements for improvement plans regarding highly qualified teachers. The SEA requests this waiver to allow the SEA and its LEAs to focus on developing and implementing more meaningful evaluation and support systems.

9. The limitations in ESEA section 6123 that limit the amount of funds an SEA or LEA may transfer from certain ESEA programs to other ESEA programs. The SEA requests this waiver so that it and its LEAs may transfer up to 100 percent of the funds it receives under the authorized programs among those programs and into Title I, Part A.

10. The requirements in ESEA section 1003(g)(4) and the definition of a Tier I school in Section I.A.3 of the School Improvement Grants (SIG) final requirements. The SEA requests this waiver so that it may award SIG funds to an LEA to implement one of the four SIG models in any of the State’s priority schools that meet the definition of “priority schools” set forth in the document titled *ESEA Flexibility*.

Optional Flexibilities:

If an SEA chooses to request waivers of any of the following requirements, it should check the corresponding box(es) below:

11. The requirements in ESEA sections 4201(b)(1)(A) and 4204(b)(2)(A) that restrict the activities provided by a community learning center under the Twenty-First Century Community Learning Centers (21st CCLC) program to activities provided only during non-school hours or periods when school is not in session (i.e., before and after school or during summer recess). The SEA requests this waiver so that 21st CCLC funds may be used to support expanded learning time during the school day in addition to activities during non-school hours or periods when school is not in session.

12. The requirements in ESEA sections 1116(a)(1)(A)–(B) and 1116(c)(1)(A) that require LEAs and SEAs to make determinations of adequate yearly progress (AYP) for schools and LEAs, respectively. The SEA requests this waiver because continuing to determine whether an LEA and its schools make AYP is inconsistent with the SEA’s State-developed differentiated recognition, accountability, and support system included in its ESEA flexibility request. The SEA and its LEAs must report on their report cards performance against the AMOs for all
subgroups identified in ESEA section 1111(b)(2)(C)(v), and use performance against the AMOs to support continuous improvement in Title I schools that are not reward schools, priority schools, or focus schools.

13. The requirements in ESEA section 1113(a)(3)-(4) and (c)(1) that require an LEA to serve eligible schools under Title I in rank order of poverty and to allocate Title I, Part A funds based on that rank ordering. The SEA requests this waiver in order to permit its LEAs to serve a Title I-eligible high school with a graduation rate below 60 percent that the SEA has identified as a priority school even if that school does not rank sufficiently high to be served.
By submitting this application, the SEA assures that:

☑ 1. It requests waivers of the above-referenced requirements based on its agreement to meet Principles 1 through 4 of the flexibility, as described throughout the remainder of this request.

☑ 2. It will adopt English language proficiency (ELP) standards that correspond to the State’s college- and career-ready standards, consistent with the requirement in ESEA section 3113(b)(2), and that reflect the academic language skills necessary to access and meet the new college- and career-ready standards, no later than the 2013–2014 school year. (Principle 1)

☑ 3. It will develop and administer no later than the 2014–2015 school year alternate assessments based on grade-level academic achievement standards or alternate assessments based on alternate academic achievement standards for students with the most significant cognitive disabilities that are consistent with 34 C.F.R. § 200.6(a)(2) and are aligned with the State’s college- and career-ready standards. (Principle 1)

☑ 4. It will develop and administer ELP assessments aligned with the State’s ELP standards, consistent with the requirements in ESEA sections 1111(b)(7), 3113(b)(2), and 3122(a)(3)(A)(ii). (Principle 1)

☑ 5. It will report annually to the public on college-going and college credit-accumulation rates for all students and subgroups of students in each LEA and each public high school in the State. (Principle 1)

☑ 6. If the SEA includes student achievement on assessments in addition to reading/language arts and mathematics in its differentiated recognition, accountability, and support system and uses achievement on those assessments to identify priority and focus schools, it has technical documentation, which can be made available to the Department upon request, demonstrating that the assessments are administered statewide; include all students, including by providing appropriate accommodations for English Learners and students with disabilities, as well as alternate assessments based on grade-level academic achievement standards or alternate assessments based on alternate academic achievement standards for students with the most significant cognitive disabilities, consistent with 34 C.F.R. § 200.6(a)(2); and are valid and reliable for use in the SEA’s differentiated recognition, accountability, and support system. (Principle 2)

☑ 7. It will report to the public its lists of reward schools, priority schools, and focus schools at the time the SEA is approved to implement the flexibility, and annually thereafter, it will publicly recognize its reward schools. (Principle 2)
8. Prior to submitting this request, it provided student growth data on their current students and the students they taught in the previous year to, at a minimum, teachers of reading/language arts and mathematics in grades in which the State administers assessments in those subjects in a manner that is timely and informs instructional programs, or it will do so no later the deadline required under the State Fiscal Stabilization Fund. (Principle 3)

9. It will evaluate and, based on that evaluation, revise its own administrative requirements to reduce duplication and unnecessary burden on LEAs and schools. (Principle 4)

10. It has consulted with its Committee of Practitioners regarding the information set forth in its request.

11. Prior to submitting this request, it provided all LEAs with notice and a reasonable opportunity to comment on the request and has attached a copy of that notice (Attachment 1) as well as copies of any comments it received from LEAs (Attachment 2).

12. Prior to submitting this request, it provided notice and information regarding the request to the public in the manner in which the State customarily provides such notice and information to the public (e.g., by publishing a notice in the newspaper; by posting information on its website) and has attached a copy of, or link to, that notice (Attachment 3).

13. It will provide to the Department, in a timely manner, all required reports, data, and evidence regarding its progress in implementing the plans contained throughout this request.

If the SEA selects Option A or B in section 3.A of its request, indicating that it has not yet developed and adopted all guidelines for teacher and principal evaluation and support systems, it must also assure that:

14. It will submit to the Department for peer review and approval a copy of the guidelines that it will adopt by the end of the 2011–2012 school year. (Principle 3)
An SEA must meaningfully engage and solicit input from diverse stakeholders and communities in the development of its request. To demonstrate that an SEA has done so, the SEA must provide an assurance that it has consulted with the State’s Committee of Practitioners regarding the information set forth in the request and provide the following:

Please note: The following is part of an ongoing list of consultation that the Idaho State Department of Education (ISDE) is conducting throughout this process. The ISDE systematically engaged and solicited extensive, comprehensive input from stakeholders and communities before, during, and after the development of its waiver application.

1. A description of how the SEA meaningfully engaged and solicited input on its request from teachers and their representatives.

The ISDE meaningfully engaged and solicited input from teachers and their representatives throughout the process of applying for ESEA Flexibility, using focus groups, stakeholder meetings and a public website.

The Department used a series of both face-to-face and web-based strategies to gather feedback from a diverse group of stakeholders across the State of Idaho. All stakeholders in the State of Idaho – parents, teachers, administrators, board trustees, community groups, civil rights organizations, business representatives, higher education, and others – had an opportunity to offer initial ideas and then to provide feedback on the state’s draft waiver.

The following chart outlines the meetings the State conducted and specifies which meetings were conducted in person and which feedback was gathered online.

First, the ISDE held focus group discussions with five key stakeholder groups on October 19 and October 20, 2011. Each focus group consisted of six to eight individuals and lasted about 1 hour and 15 minutes. The focus group was led by an independent, third party who reviewed the waiver process and then asked for ideas and input on each section. ISDE staff was on hand to answer clarifying questions, take notes, and audio record each meeting. Each focus group consisted of community members (parents, legislators, community groups, and business community), school board trustees, local superintendents, and district-level administrators, teachers and principals, and State Board of Education members. Key educational stakeholder groups – the Idaho Education Association, the Idaho Association of School Administrators, the Idaho School Boards Association, and the Idaho Commission on Hispanic Affairs – selected participants for these focus groups.

Second, ISDE staff met with the leaders of key educational stakeholder groups, including the Idaho Education Association, the Idaho Association of School Administrators, and the Idaho School Boards Association, to gather their initial ideas and input before developing the waiver application. In addition, as a follow up to the focus group, the ISDE sent the members of the Idaho State Board of Education a list of questions about the waiver application to seek further feedback and input. ISDE staff met with the leaders of the stakeholder groups again on January 6, 2012 to review a draft of the waiver application before it was published for public comment.

Third, the ISDE built a public comment website to seek ongoing input from teachers, school administrators, parents and others in the community. The public website was advertised to Idaho’s public schools and school districts through the state’s Weekly E-Newsletter, e-mails to superintendents, e-mails to the leaders of key educational stakeholder groups, and e-mails to focus group participants. The public website was advertised to the public through a news release, newspaper stories and briefs, and the ISDE’s social media outlets (Facebook, Twitter, and blog).

Fourth, the ISDE published a draft of its waiver application on January 9, 2012. The waiver application was posted on the ISDE website at www.sde.idaho.gov and a copy was e-mailed to the following: district superintendents, school principals, district test coordinators, district federal program managers, Idaho Education Association executive director, Idaho Association of School Administrators executive director, Idaho School Boards Association executive director, Idaho Commission on Hispanic Affairs executive director, State Board of Education members, House and Senate Education Committee members, and participants of the focus groups. The ISDE opened an official public comment period of at least 21 days and requested public comments on the ISDE website or via fax or mail to give all stakeholders and the public an opportunity to comment on the draft application. Twenty-one days is the same period of time the Idaho State Board of Education allows for public comment on all administrative rules. The ISDE advertised the draft application and 21-day public comment period to educators in the state’s Weekly E-Newsletter, e-mails to superintendents and school district administrators, e-mails to the leaders of key educational stakeholder groups, and e-mails to focus group participants. The ISDE advertised the draft application and 21-day public comment period to the public through a news release, newspaper stories and briefs, and the ISDE’s social media outlets (Facebook, Twitter, and blog).
The waiver application was reviewed by the Idaho Committee of Practitioners and the Special Education Advisory Panel (SEAP) and was sent to all Title III directors. ISDE reviewed all comments received through the online website and via letters and emails through February 2. Based upon suggestion received through the public comments, ISDE revised the waiver application and addressed all concerns.

All comments, stakeholder groups and ISDE response to each can be found in Attachment 2. The specific changes enlisted in the original submission of the waiver include the following items although some of these changes have been modified due to further negotiations with the U.S. Department of Education (US ED):

1. ISDE proposed to remove LEP1, LEP2 and LEP3 students from the achievement category. LEP1 students (students new to the U.S. for the first year) are already exempted from those calculations. ISDE proposed to exempt those same students in their second and third year new to the U.S. while they are still learning the language. However, LEP2 and LEP3 students would have been required to test and would have been included in the growth-to-achievement and growth-to-achievement subgroups categories. The growth-to-achievement measures ensured schools would have these students on track to meet proficiency in three years or 10th grade, whichever comes first.

2. The growth matrix has been adjusted. This new matrix accounts the actual data of the schools in Idaho and lessens the student growth percentile requirements for those schools whose students are meeting their average growth expectations.

3. The overall star rating point span has been adjusted. There are approximately 5% of schools classified as One Star, 10% as Two Star, and 5% as Five Star with the rest distributed across Three and Four Stars.

4. Required set asides for professional development have been reduced from 20% to 10%.

5. A special provision has been made based on public comment relating to One-Star Schools on or near tribal lands and which serve a large number of Native American students. The district and school will need to demonstrate that they are continuously engaging and seeking input from the tribal community. This will be embedded in the Turnaround Plan process.

6. There will be a one-year transition period between the consequences of the previous accountability system and the new system. In the meantime, a transition plan has been outlined in Section 2.A.i. under the description of the WISE Tool, along with transitional statements regarding how the new requirements for Student and Family Support Options will be implemented.

7. ISDE clarified that the Universal Design for Learning (UDL) lesson plans were not a requirement for school districts but more clearly described the model lesson plans that teachers may submit as statewide models to be placed in Schoolnet.
8. ISDE has submitted a list of the schools and their star ratings as required in the waiver. ISDE built an application similar to the AYP appeals site and provide districts the opportunity to view and appeal any data related to the star rating in Summer 2012.

9. ISDE clarified that the waiver application does not require two evaluations annually but rather suggests that policy will be revised to require that novice or partially proficient teachers be observed at least twice annually, and that all other staff shall submit to, at least, two formative observations and/or evaluative discussions within the school year. These observations and evaluative discussions shall be used as data in completing the teacher’s one evaluation as is outlined and required by State Statute 33-514.

The Idaho State Board of Education reviewed the full original application and voted on its approval during its February 2012 meeting. Once negotiations are finalized with US ED, the Idaho State Board of Education will once again review and vote on the approval of this waiver.

The ISDE has demonstrated a great depth of outreach to a diverse group of stakeholders throughout this process. First, we spoke with stakeholder groups before creating the waiver application to gain initial ideas and input. Second, we asked for their feedback throughout the writing of the waiver application. Third, we published a draft of the state’s waiver application online before submitting it to US ED and held a month-long public comment period. In Attachment 2, ISDE included a comprehensive chart, titled “Public Comments for Suggested Change and ISDE Response.”

This chart details every comment or statement and the ISDE’s response to the concerns that stakeholder groups and individuals voiced throughout the process. All subsequent letters in Attachment 2 are addressed in this chart. We made significant changes to the State’s waiver application based on the feedback and comments we received throughout this process.

Our outreach efforts have continued even after submitting the application to US ED for review. We have met with more than 800 individuals – the leaders of key stakeholders groups and local school districts – since submitting the application in February. (See “Continued Consultation to Engage Stakeholders” table.)

¹ The ISDE estimates the audience was much larger than this direct audience of more than 800 people. We have directly reached out to leaders of educational stakeholder groups and leadership teams within local school districts who have now distributed this information to those in their organizations and districts.

² The Nampa School District represents one Idaho’s largest and most diverse school districts.

³ The Mountain Home School District represents an average sized but diverse school district in Idaho.

⁴ The Post Legislative Tour participants included, superintendents, principals, federal program directors, special education directors, business managers, school board members, teachers, policy makers and members of the media.
ISDE plans to continue this high level of outreach throughout the next year, with key meetings such as the Annual Superintendents’ Meeting on July 31, 2012; Idaho Association of School Administrators Joint Divisonal Conference on August 1-3, 2012, with superintendents, principals and special education directors; and the Idaho School Boards Association Annual Conference in November 14-16, 2012, with superintendents and school board trustees.
The Department encourages an SEA that receives approval to implement the flexibility to collaborate with the Department to evaluate at least one program, practice, or strategy the SEA or its LEAs implement under principle 1, 2, or 3. Upon receipt of approval of the flexibility, an interested SEA will need to nominate for evaluation a program, practice, or strategy the SEA or its LEAs will implement under principles 1, 2, or 3. The Department will work with the SEA to determine the feasibility and design of the evaluation and, if it is determined to be feasible and appropriate, will fund and conduct the evaluation in partnership with the SEA, ensuring that the implementation of the chosen program, practice, or strategy is consistent with the evaluation design.

☐ Check here if you are interested in collaborating with the Department in this evaluation, if your request for the flexibility is approved.
Provide an overview (about 500 words) of the SEA’s request for the flexibility that:

1. explains the SEA’s comprehensive approach to implement the waivers and principles and describes the SEA’s strategy to ensure this approach is coherent within and across the principles; and

2. describes how the implementation of the waivers and principles will enhance the SEA’s and its LEAs’ ability to increase the quality of instruction for students and improve student achievement.

In 2009, representatives of every educational stakeholder group, the Idaho State Department of Education (ISDE), the Governor’s Office, and representatives of the business community formed the Education Alliance of Idaho. For two years, this group had worked together to develop a roadmap for improving public education in Idaho. Everyone recognized a need for change. While Idaho has one of the highest high school graduation rates in the country, we have one of lowest rates of students going on to and completing postsecondary education. To compete in the 21st Century global economy, the State recognized certain policies needed to change. They created a vision statement to make Idaho a global leader, providing high-quality, cost effective education to its citizens. It also developed several goals related to transparent accountability, high standards, postsecondary credit in high school, and postsecondary preparation, participation and completion. With the unveiling of this plan, Idaho had a clear path to improving its education system.

Back then, it was clear the current education system was not flexible enough to change and accomplish these goals. Idaho Superintendent of Public Instruction Tom Luna strongly believed it was the responsibility of the State and all educational stakeholders to follow through in implementing the Alliance’s work to ensure every student graduates from high school and not only goes on to postsecondary education but does not need remediation once they get there.

Not only did the State have to change its laws and policies, but Idaho also needed a new accountability system – a system that provides better measures of student achievement and more meaningful forms of technical assistance for schools and every student population.

In 2011, Idaho reformed its public education system to meet the goals and vision of the Education Alliance of Idaho and make sure every student graduates from high school college- and career-ready. The Students Come First laws are rooted in the higher Common Core State Standards. With this foundation, the state is now creating 21st Century Classrooms in every school, ensuring every student has equal access to highly effective teaching and the best educational opportunities, and giving families immediate access to understandable information about their child’s school. Specifically, through these laws, Idaho is making historic investments in classroom technology, implementing pay-for-performance for teachers, tying performance evaluations to student growth measures, providing unprecedented funding for professional development, expanding digital learning, and paying for every high school junior to take a college entrance exam.
Now that these laws are in place and Idaho is reforming its public schools to better meet students’ needs in the 21st Century, the State must have a new accountability system that is in line with these efforts. Idaho has developed its new system of increased accountability to align with Students Come First, holding schools to a high standard by using multiple measures of student achievement including academic growth. Under this system, Idaho will still maintain one system of accountability for all schools – both Title I and non-Title I schools – to ensure the needs of all students are met.

The new accountability plan rates schools based on a five-star scale rather than Adequate Yearly Progress to give parents, patrons, and educators an accurate and meaningful measurement of school performance statewide. Five-Star and Four-Star Schools will be publicly recognized and shown as examples to other schools across the State. One-Star and Two-Star Schools will receive intensive technical assistance and oversight from the State. Staff and leaders in the school would be held accountable for the achievement of all students.

Idaho’s new accountability system also provides multiple measures of student achievement to more accurately assess how a school or district is performing. Schools are measured on proficiency, academic growth, academic growth to proficiency targets, and metrics of postsecondary and career-readiness. Through this system, the State is finally able to measure academic growth in schools, rather than only proficiency. Academic growth is a critical measure in the performance of a school, whether a student is struggling to reach proficiency or has already reached proficiency and needs more advanced opportunities.

The new system of increased accountability also holds schools and districts accountable for the achievement of all students – no matter where they live or their family background. Idaho is a large, rural state with expansive geography, remote communities and a diverse student population. The State ranks as the thirteenth-largest state in the nation geographically, spanning 83,557 square miles and two time zones. Yet, Idaho has a small population with only an estimated 1.5 million people, or 18.1 residents per square mile.

The total student population is about 282,000. Because of this, all but nine of Idaho’s forty-four counties are defined as rural, and many communities are remote.

In addition to its rural and remote nature, 50 percent of students are low-income across Idaho. Fifteen percent of our students are Hispanic, and 1.5 percent of the student population is Native American. Nine percent of students have disabilities. Six percent of students have been identified as Limited English Proficient. This geographic dispersion often has schools and districts with negligible numbers in identified subgroups. For example, 52 percent of districts have fewer than 600 students, and 60 percent of districts have fewer than three schools.

Through Students Come First, we are closing the divide between urban, rural and remote communities to ensure every student has equal access to the best educational opportunities to all. Now, the new accountability plan ensures students are receiving these educational opportunities. The new system makes sure these students are growing and achieving.
Schools will be held accountable for all students’ proficiency, growth, growth toward proficiency targets, and their achievement in reaching postsecondary and career-readiness metrics. In the growth toward proficiency targets, the State focuses on the academic performance of subgroups of students so every school is held accountable if students are not on a path to postsecondary- and career-readiness.

Finally, through this new system, Idaho teachers, principals and other educators will now have a clear understanding of how they will be evaluated for performance from year to year. Idaho has implemented a new performance evaluation system for teachers in which 50 percent of their evaluation must be based on the Danielson Framework for Teaching and 50 percent must be tied to measures of student growth. The district also must gather parent input to include in evaluations. Principal evaluations also must be tied to student achievement. Under the new accountability system, the State will develop a framework for administrator evaluations and ensure teachers and administrators receive meaningful feedback on their evaluations across Idaho.

Idaho’s new accountability system was developed with input from stakeholders throughout the process. Before crafting the accountability plan, the ISDE held focus groups with representatives of key groups, including classroom teachers, principals, superintendents, school board trustees, parents and community members. Staff from the ISDE met with representatives of Native American tribes and the Idaho Commission on Hispanic Affairs to gather their input and feedback. After developing the new accountability plan, the leaders of every stakeholder group in Idaho – the Idaho Education Association, Idaho Association of School Administrators, and Idaho School Boards Association – had an opportunity to review a draft. The plan was sent to members of the Idaho State Board of Education and every school district superintendent in the State. In addition, the State published the draft on the ISDE’s website and solicited public comment for a month. The public comments and letters received from districts and the Idaho Association of School Administrators were compiled and each was addressed. See Attachment 15, which outlines each recommendation, the group and/or groups that gave the recommendation and how ISDE addressed each.

For these reasons, Idaho’s new accountability system addresses the needs of students and families across Idaho. Through this waiver for ESEA Flexibility, Idaho will align its accountability system for schools with its statewide reform efforts and the vision and mission of the Education Alliance of Idaho. This new system of increased accountability provides a comprehensive approach to measuring student performance, holding schools and districts accountable for results and providing the necessary resources statewide to ensure every school can eventually become a Five-Star School.

Since Idaho’s ESEA Waiver was first approved in 2012, the Students Come First laws were repealed by voters; however, the Idaho Legislature and a task force of stakeholders from across the state have maintained the vision of increased accountability outlined in this waiver. First, the Idaho State Board of Education and Idaho Legislature approved a teacher evaluation system that is similar to the evaluation system that was in place under the Students Come First laws. Under the evaluation system in place today, teachers must be evaluated using a combination of growth in student achievement, observation and feedback from parents or students.
Second, Idaho’s Governor established a Task Force for Improving Education in December 2012 to explore and develop ideas to improve K-12 education in Idaho. In September 2013, the Task Force published 20 recommendations. The Legislature took action on several of these recommendations during the 2014 Legislative session. The Idaho State Board of Education has established special committees to address the implementation of the remaining recommendations. The Task Force recommendations supported many tenets of the state’s Five-Star Rating System, including advanced opportunities, growth in student achievement and strong teacher evaluations.

Annually Reports College-going and college-credit Accumulation Rates, as defined under State Fiscal Stabilization Fund Indicators (c)(11) and (c)(12) (Assurance 5 of ESEA Flexibility)- ISDE has confirmed its ability to compile data reflecting the following:

- Total number of students earning a regular high school diploma disaggregated by race, ethnicity, disability status, English proficiency and economic status for 2013-2014 high school graduates no later than the 2014-2015 school year.
- Total number of students who enrolled in any postsecondary institution within 16 months of earning a regular high school diploma for 2010-2011 high school graduates no later than the 2014-2015 school year. (State Board of Education confirmed this data will be available).
- Total number of students who graduated from high school with a regular high school diploma and enrolled in a public institution of higher education within 16 months of graduation for 2010-2011 high school graduates no later than the 2014-2015 school year (State Board of Education confirmed this data will be available).
- Data on the total number of students who earn one year of college credit within two years of enrollment in a public institution of higher education for 2010-2011 high school graduates no later than the 2015-2016 school year (State Board of Education confirmed this data will be available).

While the K-12 SLDS and postsecondary SLDS are not formally integrated, cross-tracking can occur between the two systems through each student’s unique education identification number, which remains the same as students progress from high school to postsecondary. The plan to execute these data requirements and report them to the public includes the following action steps to commence in Summer, 2014:

- Convene ISDE IT and programmatic staff along with the State Board of Education’s IT staff and establish the parameters and definitions of the data required for these reports.
- Determine timelines and format for requesting the data for these reports.
- Identify the format for reporting the information to the public by the 2014-2015 school year (except for the college credit earned within two years; longitudinal data availability in Idaho has not been in place long enough to enable reporting by the 2014-2015 school year. This can be complete by the 2015-2016 school year).
- Hold each other accountable for following the timeline established.
1.A ADOPT COLLEGE- AND CAREER-READY STANDARDS

1.A Has the SEA adopted college- and career-ready standards in at least reading/language arts and mathematics through one of the two options below?

Option A:
If the SEA has adopted college- and career-ready standards in at least reading/language arts and mathematics that are common to a significant number of States, consistent with part (1) of the definition of college- and career-ready standards, did it attach evidence that the State has adopted the standards consistent with the State’s standards adoption process? (Attachment 4)

Option B:
If the SEA has adopted college- and career-ready standards in at least reading/language arts and mathematics that have been approved and certified by a State network of institutions of higher education (IHEs), consistent with part (2) of the definition of college- and career-ready standards, did it attach:

i. Evidence that the State has adopted the standards consistent with the State’s standards adoption process (Attachment 4); and

ii. A copy of the memorandum of understanding or letter from a State network of IHEs certifying that students who meet the standards will not need remedial coursework at the postsecondary level (Attachment 5)

Option B.i: The State of Idaho adopted the Common Core State Standards officially during the 2011 legislative session. Page 4 of Attachment 4 illustrates the State Board of Education approval vote. Idaho will have full implementation of the Common Core State Standards by 2013-2014.

Option B.ii: As part of the Memorandum of Understanding for the SMARTER Balanced Assessment Consortium (see Attachment 5), all of Idaho’s public colleges and universities signed the agreement noting participation and agreement “in implementation of policies, once the high school summative assessments are implemented, that exempt from remedial courses and place into credit-bearing college courses any student who meets the Consortium-adopted achievement standard (as defined in the NIA) for each assessment and on any other placement requirement established by the IHE or IHE system.”
1.B  **Transition to College- and Career-Ready Standards**

1.B  *Is the SEA’s plan to transition to and implement college- and career-ready standards statewide in at least reading/language arts and mathematics no later than the 2013–2014 school year realistic, of high quality, and likely to lead to all students, including English Learners, students with disabilities, and low-achieving students, gaining access to and learning content aligned with such standards?*

Idaho has been involved in the development of the Common Core State Standards since 2008. Idaho Superintendent of Public Instruction Thomas Luna served on the board of directors for the Council of Chief State School Officers (CCSSO) and was active in promoting a voluntary, state-led effort to develop common core standards. Idaho adopted the Common Core State Standards in February 2011 with approval from the Idaho State Board of Education (“State Board”) and Idaho Legislature.

The State will transition to Common Core State Standards by 2013-2014. Over the next two years, the Idaho State Department of Education (ISDE) will build capacity at the State, district and school levels to ensure the transition to Common Core increases the quality of instruction in every classroom and raises achievement for all students, including English Learners, students with disabilities, and low-achieving students. The State is integrating the transition to Common Core State Standards with the implementation of other critical statewide initiatives to ensure consistency and uniformity across Idaho. For example, the State will provide professional development on the Common Core State Standards as it rolls out a new instructional management system to Idaho teachers. The State also has reformed the teacher evaluation process and will make sure Common Core State Standards are a key part of every teacher performance evaluation and the training that goes with each evaluation.

*A high-quality plan will likely include activities related to the following questions or an explanation of why one or more of the activities are not included.*

- **Does the SEA intend to analyze the extent of alignment between the State’s current content standards and the college- and career-ready standards to determine similarities and differences between those two sets of standards? If so, will the results be used to inform the transition to college- and career-ready standards?**

In 2010, staff from the ISDE worked with Idaho teachers to analyze the alignment between current Idaho Academic Content Standards and new Common Core State Standards in mathematics and English language arts. The ISDE refers to this as the “gap analysis.” It was conducted using Achieve’s Common Core Comparison Tool. The results were published on the ISDE website in July 2010. (The gap analysis is available online at [http://www.sde.idaho.gov/site/common/](http://www.sde.idaho.gov/site/common/)).
ISDE used results of the gap analysis to inform the public about Common Core State Standards and to build a plan for transitioning to the Common Core State Standards by 2013-14. The gap analysis data were shared in community meetings in Summer and Fall 2010 and also used to inform training the ISDE provided to school districts in Fall 2011 on the implementation of the Common Core State Standards. (Presentations are available online at http://www.sde.idaho.gov/site/common/.)

- Does the SEA intend to analyze the linguistic demands of the State’s college- and career-ready standards to inform the development of ELP standards corresponding to the college- and career-ready standards and to ensure that English Learners will have the opportunity to achieve the college- and career-ready standards? If so, will the results be used to inform revision of the ELP standards and support English Learners in accessing the college- and career-ready standards on the same schedule as all students?

ISDE will meet the requirements of analyzing the linguistic demands of the Common Core State Standards through its adoption of the 2012 WIDA (World-Class Instructional Design in Assessment) Standards in 2013-2014. These new English Language Development (ELD) standards will be adopted in 2013-2014 and will ensure English Language Learners (ELLs) have the opportunity to achieve Idaho’s college- and career-ready standards on the same schedule as all students. The WIDA ELD standards were aligned to the Common Core in 2011 through an alignment study that examined the linguistic demands of the Common Core State Standards.

WIDA's alignment approach is based on Dr. Gary Cook's 2006 adaptation of Dr. Norman Webb's alignment methodology. As with the Webb methodology, Cook's approach expands the concept of alignment by addressing not only content match between tests and standards but also the extent to which tests (and aligned standards) reflect the linguistic/cognitive complexity and breadth of a set of standards.

The correspondence study of the 2007 WIDA Standards to the Common Core State Standards shows a solid alignment. Idaho will adopt the new 2012 edition of the WIDA Standards, which further improves the alignment to the Common Core for an even higher correspondence. This is demonstrated clearly, in that the new 2012 strands were written to close gaps in the 2007 edition and to make correspondence more explicit and understandable to educators. Furthermore, the WIDA Standards Performance Definitions were augmented and address three major criteria present in the Common Core State Standards, one of which is linguistic complexity. The WIDA standards also have forms, conventions and vocabulary (within academic environments), which are all very closely associated with Common Core State Standards.
**Timeline for Implementing the ELD Standards**

- *Does the SEA intend to analyze the learning and accommodation factors necessary to ensure that students with disabilities will have the opportunity to achieve to the college- and career-ready standards? If so, will the results be used to support students with disabilities in accessing the college- and career-ready standards on the same schedule as all students?*

ISDE will assist school districts and public charter schools in analyzing the learning and accommodation factors necessary to ensure that students with disabilities have the opportunity to achieve college- and career-ready standards. Specifically, ISDE will work with Idaho educators, administrators, and other stakeholders in Spring 2012 to help school districts conduct gap analyses between a student’s current baseline with the Idaho Content Standards and the new Common Core State Standards. ISDE will use the results of this analysis to support students with disabilities in achieving Common Core State Standards.
For example, ISDE will provide professional development opportunities for school districts and public charter schools which are infused with and incorporate Universal Design for Learning (UDL) in instruction, technology integration, and assessment, which will in turn increase the opportunities for all students including those with disabilities to demonstrate progress toward the Common Core State Standards.

UDL is a set of principles developed by the Center for Applied Special Technologies (CAST) at www.cast.org, aimed at providing all students with equal opportunities to learn. It involves a flexible approach to instruction that can be adjusted to fit individual learning needs; by designing a learning environment and lesson plans which include opportunities for; multiple means of engagement: multiple means of representation and multiple means of representation and the “consideration” of appropriate assistive technology and accommodations. Equal access is extended to all students under UDL to include the following populations; students with disabilities, English language learners (ELL) and low-achieving students. The use of UDL principles is proposed to facilitate and assure equal access to the learning environment, technology and materials in the general education classroom and to the Common Core State Standards in all areas.

In 2011, the State passed comprehensive education reform that resulted in significant changes to Idaho Code. This included changes related to public school funding, labor relations, and the structure of Idaho classrooms. A major goal of the education reform laws, known as Students Come First, was to increase the integration of technology in every Idaho classroom over the next five years to ensure that every student has equal access to educational opportunities, no matter where they live or how they learn. Through this technology, teachers can use new tools such as text-to-speech capabilities and magnification to benefit students with special needs.

The ISDE will ensure that all schools have access to and can utilize UDL through a statewide instructional management system, known as Schoolnet. Schoolnet is a web-based platform now available to all classroom teachers and administrators at the building and district levels. Through Schoolnet, a teacher or administrator can access the Common Core State Standards and lesson plans aligned to the standards and which are UDL-compliant. In 2011-12, six school districts piloted the use of assessment tools in Schoolnet as well.

These assessment tools will be available to a majority (but not all) of Idaho’s schools and districts in the 2015-2016 school year through a competitive grant process. Eventually, all Schoolnet tools and resources will be available to every public school in Idaho in the 2016-2017 school year. The project is funded through a donation from the J.A. and Kathryn Albertson Foundation.

---

5 To be UDL-compliant, a lesson plan must meet core principles: multiple means of representation, multiple means of action, and expression, and multiple means of engagement.
In addition to access to its statewide instructional management system, Idaho is implementing new statewide assessments in 2014-15. The State is a governing partner in the SMARTER Balanced Assessment Consortium (SBAC). Through SBAC, the ISDE will implement a summative assessment to be given at the end of each school year to meet ESEA requirements. Formative assessment tools will also be available that classroom teachers can choose to use throughout the school year. Idaho plans to pilot the SBAC tests in 2013-14.

The SBAC formative tools and resources for the classroom, interim and summative assessments will be UDL-compliant. The summative and interim assessments will provide for access and accommodations for students with disabilities depending on the student’s Individual Education Plan.

Analysis of assessment data for both all students and students with disabilities (SWD) will be conducted to identify professional development needs for both general education and special education teachers throughout the State. Gap analysis from the assessment data will be used as a point of reference for further drill down and as a mechanism for root cause analysis for the development and targeting of ISDE-supported professional development projects and trainings. The use of this data will be used to support Idaho teachers in implementing effective instructional practices for SWD by providing connection to the Common Core State Standards and the student’s Individual Education Program goals. These efforts will be complemented by Idaho’s OSEP Results Work as well as the fact that OSEP moved towards Results Driven Accountability (RDA), which will emphasize the performance of SWD on statewide assessments as a means of evaluating and holding states accountable to the expectations of IDEA. The ISDE is currently using OSEP Performance Indicator 3A as its Results Focus Indicator. Indicator 3A is the combined performance of SWD on statewide assessment in both reading and math.

Application of this model to Idaho’s previous year assessment data has helped direct resources to the development of targeted trainings for Tier 2 Intervention for school teams, including both general and special education representation. For example, these targeted trainings will help districts and schools to better design interventions for all students and support them in understanding how to provide appropriate accommodations for SWD.

Does the SEA intend to conduct outreach on and dissemination of the college- and career-ready standards? If so, does the SEA’s plan reach the appropriate stakeholders, including educators, administrators, families, and IHEs? Is it likely that the plan will result in all stakeholders increasing their awareness of the State’s college- and career-ready standards?

ISDE has conducted outreach to the public and targeted stakeholder groups and will continue to do so to increase awareness as the State transitions to Common Core State Standards. Since the Common Core State Standards were published in 2009, ISDE has conducted outreach in every region of the State to ensure stakeholders are aware of the transition to college- and career-ready standards. Most of those activities are described below in detail. The overarching goal of these activities is to foster increased awareness, understanding, and ultimately the adoption of these standards.

As the standards were being developed, ISDE solicited feedback on those as well as perceived benefits of raising academic standards to a higher college- and career-ready level. In so doing, ISDE additionally sought feedback from institutions of higher education and the Idaho Business Coalition for Education Excellence (IBCEE). Of particular interest was whether the standards would effectively result in students who are prepared for postsecondary education or the workforce, without the need for remediation.

ISDE presented the Common Core State Standards to the provosts of Idaho’s institutions of higher education in July 2010 and subsequently corresponded with faculty at these institutions via e-mail. ISDE received verification from each institution of higher education that the Common Core would ensure a student meeting these standards would be prepared for postsecondary education and the workforce. In addition, every college and university president in Idaho signed a Memorandum of Understanding committing that a student who passes the State’s new assessments aligned to the Common Core State Standards will not need remediation in mathematics or English language arts. The new test is being developed through SBAC and will be implemented in 2014-15.

To expand stakeholder awareness of the Common Core, Idaho sent a team of 10 stakeholders to a national common core adoption conference in Chicago, Illinois on October 30, 2009. The conference centered on discussion of the Common Core State Standards and their implementation. Members of the team included representatives from the Idaho Education Association, the Idaho School Boards Association, the Idaho Association of School Administrators, the Idaho Legislature, the Idaho Council of Teachers of English, and the Idaho Council of Teachers of Mathematics as well as Superintendent Luna.

---

6 The Idaho Business Coalition for Education Excellence (IBCEE) is a not-for-profit organization, comprising the leaders of approximately 80 of Idaho’s largest companies, who share a common goal – better education in Idaho.
The ISDE staff conducted several regional meetings to meet with educators and parents before the Common Core State Standards were adopted. In the meetings, staff discussed the need for college- and career-ready standards like the Common Core and Idaho’s plan for transitioning to Common Core State Standards. ISDE conducted these regional meetings in Summer 2009 when the Common Core State Standards were first published and again in Summer 2010 when the State was working to adopt the standards. As noted above, in 2010, the State conducted a gap analysis comparing the Common Core State Standards to Idaho’s current content standards. (The Achieve Gap Analysis discussed earlier in this section.)

These results were presented at the regional meetings in Summer 2010 to show parents, teachers, school administrators and legislators how the Common Core State Standards were more rigorous and would better prepare Idaho students for postsecondary education and the workforce.

The ISDE staff also presented at several meetings to targeted educational stakeholder groups, such as the Idaho School Boards Association, the Idaho Association of School Administrators, professional organizations of teachers, higher education, the Idaho State Board of Education, the Idaho Workforce Development Council and the IBCEE. To officially adopt the standards, ISDE conducted additional public hearings and took in-person and written public comment during October of 2010 after initial approval from the State Board of Education on August 12, 2010. The ISDE did not alter the standards based on public comment but did incorporate strategies for implementation into ISDE plans.

The Idaho State Board of Education voted to adopt the Common Core State Standards on November 17, 2010. In January 2011, ISDE representatives presented the standards to the Idaho Legislature. The Legislature approved the standards in January 2011, which are now part of Idaho Administrative Rule.

To develop an effective implementation plan for the Common Core State Standards, the ISDE established a Common Core Leadership Group composed of mathematics and English language arts teachers, principals, superintendents, special education directors, curriculum directors, mathematics coaches, Mathematical Thinking for Instruction instructors, higher education faculty, and ISDE staff. ISDE’s content coordinators selected the members of this leadership group because these individuals demonstrated considerable leadership in mathematics, English language arts or their respective role. The leadership group met in May 2011. The group functioned as a focus group, giving ISDE staff input on how to shape a timeline for implementation as well as the tools, resources, and professional development necessary for teachers of all students including teachers of English language learners, students with disabilities and low-achieving students.
As a result of the Leadership Group meeting, the ISDE formulated a timeline for implementation and decided to host trainings with leadership teams from each school district and public charter school in Fall 2011 to begin the process of transition to Common Core.

In the District Leadership Team Workshops, districts and public charter schools had to include a superintendent, principal, curriculum director, test coordinator, and lead teacher in their team. The State reached leadership teams in more than 110 districts and public charter schools serving more than 90 percent of Idaho students. At this workshop, each team learned the overarching concepts of the Common Core, acquired a clear understanding of the implementation timeline, and determined ways in which their district could begin the implementation process. The ISDE team demonstrated the Schoolnet instructional management system, a web-based platform providing instant access to the Common Core State Standards and lesson plans aligned to the standards. The State provided PowerPoints and other materials so districts could replicate a similar training for others at the district or school level.

During April and June 2011, Idaho began a comprehensive process of “unpacking” the Common Core State Standards. The methodology used was Total Instructional Alignment (TIA). TIA\(^7\) is funded through a State Agency for Higher Education (SAHE) grant and is a cooperative effort by all the Idaho state universities.

The TIA professional development consists of a two-day facilitator training and a five-day workshop for teams of classroom teachers from participating school districts, along with faculty from Idaho colleges of education and arts and sciences.

During the training, participating K-12 teachers, school administrators, and college faculty are guided through the process of translating and aligning each Common Core Standard to specific tasks, lesson plans, and example assessment items. To date, the professional development has been provided at the Meridian School District for southwestern Idaho and at Idaho State University for the eastern part of the state. In April 2012, trainings and workshops will be held at the University of Idaho for northern Idaho.

The ISDE is working closely with the Colleges of Education in Idaho’s institutions of higher education to assist them in preparing teachers who can teach students to meet the Common Core State Standards. The Deans of the Idaho’s Colleges of Education meet not less than six times per year at the Idaho Association of Colleges of Teacher Education (IACTE).

---

\(^7\) The Total Instructional Alignment [TIA] system, developed by Lisa Carter, is a standards and instruction alignment tool. TIA work on the Common Core State Standards is funded by a SAHE grant administered by the Idaho State Board of Education and housed at Idaho State University, with many teachers statewide, particularly from eastern and southwest Idaho contributing to the effort.
In addition to the deans and/or directors of teacher preparation programs, representatives from the Idaho State Board of Education and the ISDE attend these meetings as regular non-voting members of the association. At each meeting, updates being considered by the State are shared with the entire group in order to solicit feedback.

The ISDE and State Board staff worked with three deans representing IACTE to develop a new process which the State will follow in making teacher preparation program approval decisions. This will further ensure that Common Core State Standards are integrated into teacher preparation programs and that the State Board has more oversight over the success of teacher preparation programs. The revision to the State’s process for approving teacher preparation programs requires a change in Idaho Administrative Rule which ISBE recently approved. The rule was approved by the Idaho Legislature during the 2012 Legislative Session.

Under the revisions, teacher education programs would have to show how they are implementing the Common Core State Standards into preservice programs by no later than 2014-15. The State will begin to conduct focused reviews of State-specific, core teaching requirements that may be amended if necessary to meet the goals the Idaho State Board of Education has set in its strategic plan for K-12 public schools.

The emphasis on State teacher education reviews anticipated over the next decade will include integration of technology, the use of student data to drive instruction, and the pre-service preparation that address effective K-12 practices in the teaching of the Common Core State Standards. (IDAPA 08.02.02.100).

- **Does the SEA intend to provide professional development and other supports to prepare teachers to teach all students, including English Learners, students with disabilities, and low-achieving students, to the new standards?**
  - If so, will the planned professional development and supports prepare teachers to teach to the new standards, use instructional materials aligned with those standards, and use data on multiple measures of student performance (e.g., data from formative, benchmark, and summative assessments) to inform instruction?

ISDE plans to provide professional development and ongoing support to all classroom teachers as they transition to the Common Core State Standards. Professional development opportunities will focus on all teachers as well as teachers of English language learners (ELLs), students with disabilities, and low-achieving students. To conduct these opportunities for all teachers, ISDE will integrate the professional development activities for Common Core State Standards with other statewide initiatives and strategic partnerships that are already established.
Below is a synopsis of how ISDE will provide that professional development to all classroom teachers. That is followed by a timeline for the delivery of the professional development activities.

The professional development activities that ISDE will carry out are cross-cutting. They include programs and training opportunities that focus on the system of schooling as well as targeted components of the school system. Furthermore, these activities address the capacity of different audiences as appropriate. At times, support is given to specific teachers and school leaders. In other circumstances, it is most appropriate to provide support to district leaders. And, in many cases, support is provided across job roles to ensure diffusion of the innovation or ideas included in the activity. Table 1 provides an overview of the activities, which are described in further detail below.

### Professional Development Activities

**Statewide Instructional Management System:** The J.A. and Kathryn Albertson Foundation granted ISDE $21 million to implement a statewide instructional management system, known as Schoolnet. Schoolnet is a web-based platform providing multiple tools for classroom teachers and administrators at the building and district levels. The tools include instant access to data on individual student attendance and academic achievement; access to Idaho Content Standards and
Common Core State Standards; lesson plans aligned to Common Core State Standards; and digital content aligned to standards and lesson plans. Teachers can develop their own lesson plans and share with others in their own building, district, or across the State. ISDE is using an estimated $2 million a year in grant funding from the Albertson Foundation to provide professional development to classroom teachers on how to use Schoolnet.

The Common Core State Standards have become the foundation of Idaho’s efforts to reform its education system through the passage of the Students Come First legislation in 2011.

Thus, ISDE emphasizes the alignment of content, curriculum, and lesson plans in each of the professional development activities related to Schoolnet. Statewide training focused on the Common Core State Standards and lesson plan alignment has and will continue to occur. The State is contracting with retired school district superintendents and building administrators who showed excellence during their careers to assist with this professional development. After an application process, the State selected 17 individuals who have undergone additional training in the effective use of Schoolnet. In February 2012, they were based regionally to assist each of the six pilot Schoolnet districts during the remainder of the 2011-2012 school year. In 2012-13, the State will recruit and train 20 more data coaches to offer support and assistance to other districts across Idaho. They will support teachers and school administrators through face-to-face and web-based interaction on a regular basis throughout the school year.

**Classroom Technology Integration:** As has been noted in this request for flexibility to implement a next-generation accountability system, the State passed comprehensive education reform that significantly changed Idaho Code related to public school funding, labor relations, and the structure of Idaho classrooms. (For the full text of the Students Come First laws, visit [http://www.studentscomefirst.org/bill.htm](http://www.studentscomefirst.org/bill.htm).) However, this legislation was overturned but not before significant investment in technology was realized throughout the state. A major goal of the Students Come First education initiative is to increase the integration of technology in every Idaho classroom over the next five years to ensure every student has equal access to educational opportunities, no matter where they live or how they learn. The Students Come First legislative package included: $9 million in funding in classroom technology for all grades and $4 million in professional development opportunities annually.

Through advanced technology, teachers can utilize new tools to individualize instruction for every student and help all students, including those with special needs, to achieve their learning goals.

To receive funding for advanced classroom technology, every school district and public charter school in Idaho submitted a plan to ISDE by January 2012 detailing how the classroom technology they plan to use is linked to student achievement goals, including the transition to the Common Core State Standards.
Response-to-Intervention (RTI): Idaho has scaled up implementation of RTI significantly over the past seven years. Beginning with the cohorts of schools participating in Reading First, ISDE piloted and refined the RTI model. Subsequently, virtually all school improvement efforts have been influenced by or specifically include the elements of RTI as a model for meeting the needs of all students. Most recently, Idaho has worked in partnership with the National Center on Response to Intervention (NCRTI).

NCRTI has assisted Idaho with the development and delivery of statewide training in the essential elements of RTI and implementation planning by helping build a highly effective model for continuous improvement.

The RTI model is built on a multi-level tiered prevention system that includes data-based decision-making using screening tools and progress monitoring techniques. It provides differentiation in core academic subjects.

All students are expected to be served in Tier 1, the level in which core academic instruction is provided based on State standards (i.e., the Common Core State Standards). For students who struggle and need additional time and intervention, Tier 2 provides additional opportunities for them to catch up and keep up in the core academic subject areas. Lastly, for students who are substantially behind, Tier 3 is highly intensive instruction, often stripped of any non-essential coursework, in which students are taught directly and in ways that will help them to close their achievement gaps in the quickest manner. The RTI model is well established in Idaho and also serves as an effective way to improve the instruction and outcomes for students with disabilities. It has been integrated into the State’s school improvement planning model and Title I Schoolwide Program planning process. It also forms the basis for identification of students with a Specific Learning Disability. A majority of Idaho schools and more than 80 percent of Idaho school district leadership teams have been trained in the RTI model. As the State transitions to Common Core State Standards, the RTI model will continue to serve as a highly effective vehicle that schools and districts will use to ensure all students, including students with disabilities, are achieving college- and career-ready standards.

Idaho Building Capacity Project: To better assist low-performing schools, ISDE partnered with Idaho’s three largest public universities and created a program to train and support school and district improvement coaches. More commonly referred to as Capacity Builders, these individuals work directly with school and district leadership teams to improve student achievement. Capacity Builders are veteran building and district administrators who have the requisite skill set to effect lasting change and build effective relationships with school personnel. Each university employs the services of a Regional School Improvement Coordinator who works directly with ISDE to identify Capacity Builders.
The regional coordinators provide the Capacity Builders with professional
development and then contract with them to provide services over a three-year period.
The Capacity Builders provide hands-on technical assistance linked to research-based
best practices. Their primary goal is to develop the capacity of local leaders in
understanding the characteristics of effective schools and how to manage change in a
complex school system. The Idaho Building Capacity Project was piloted in 2008 and
fully implemented statewide in 2009.

The project now serves 105 schools and districts statewide. Since its inception, the
State also has utilized Capacity Builders to implement other new statewide programs
and initiatives, such as Response to Intervention implementation grants and the
statewide longitudinal data system. ISDE provided initial training for Capacity
Builders on the Common Core State Standards in Summer 2011 and will continue to
provide more in-depth training so they can assist with the dissemination and
implementation of the Common Core in their schools and districts.

**Idaho Math Initiative:** In 2008, ISDE launched the Idaho Math Initiative, a $4
million annual statewide effort to raise student achievement in mathematics across all
K-12 grade levels. Through the Math Initiative, the State provides remediation
through a web-based supplemental mathematics instruction program for students who
are struggling, advanced opportunities for students who excel in mathematics, and a
three-credit professional development course for every mathematics teacher and
school administrator.

The Mathematical Thinking for Instruction (MTI) course was developed in
partnership with Dr. Jonathan Brendefur of Boise State University to enhance
educators’ content knowledge in mathematics and their understanding of how
students best learn mathematics. The course has been aligned to the Common Core
State Standards and will provide a strong foundation for implementing the Common
Core mathematics standards across Idaho.

All K-8 certified teachers, 9-12 mathematics teachers, and school administrators are
required to take the MTI course in order to recertify in 2014. To date, approximately
59 percent of the required teachers and administrators have completed the course. The
remainder is expected to complete the course by the end of 2012-13.

---

8 Idaho began developing its Statewide longitudinal data system in 2008. The State fully deployed the longitudinal data
system for the first year in 2010-11.

9 The following educators are required to successfully complete the MTI course prior to September 1, 2014 in order to
recertify: teachers holding Early Childhood/Early Childhood Special Education Blended Certificate (Birth - Grade 3)
employed in an elementary school classroom (multi-subject classroom, K-8); teachers holding a Standard Elementary
School Certificate (K-8); teachers holding a Standard Secondary School Certificate (6-12) teaching in a mathematics
content classroom (grade six (6) through grade twelve (12)) including Title I classrooms; teachers holding a Standard
Exceptional Child Certificate (K-12); and school administrators holding an Administrator Certificate (Pre K-12).
The course has been divided into three tracks to better serve educators, based on the grade level they teach: K-3 track focuses on early number sense, 4-8 track on rational number sense, and 6-12 track on algebraic thinking.

Through the MTI course, educators learn to develop and utilize research-based strategies to assist all students regardless of their challenges: achievement level, English language learners, and students with disabilities.

As part of the Idaho Math Initiative, ISDE has contracted with Boise State University to employ six mathematics specialists, who cover five regions statewide. During 2011-12, the regional mathematics specialists are teaching the MTI courses approximately 40 percent of their time and providing in-school support approximately 40 percent of their time. Through in-school support, they provide hands-on technical assistance to classroom teachers and school administrators as they implement the strategies learned in the MTI course. The remaining time is spent on research and administrative duties. As teachers and administrators complete the MTI course, the regional mathematics specialists will move to full-time in-school support.

These regional specialists and the Mathematics Coordinator at ISDE will assist schools and districts as they transition to Common Core State Standards through ongoing professional development and support through workshops, webinars, and a four-year unit study aligned with the Common Core and based on the Japanese model of Lesson Study.

**English Language Arts (ELA) Common Core State Standards:** A multifaceted approach, from asynchronous tools to face-to-face training, has been established with regard to professional development opportunities for transition to the Common Core State Standards (CCSS) for English Language Arts. In January 2012, the SDE established a comprehensive CCSS Toolbox for English Language Arts on the ISDE website at the following link: [http://www.sde.idaho.gov/site/common/](http://www.sde.idaho.gov/site/common/).

This site is broken into discrete modules housing a variety of resources for educators at various levels of understanding of the common core. Understanding that a key nexus of foundational principles lies in the area of analyzing and writing about more complex texts across the content areas, tools are available to show examples of the types of exercises and assessments that incorporate these skill sets that reach to highest cognitive level. In addition, this site contains links to the latest set of Performance Tasks developed by the Smarter Balanced Consortium (SBAC) for the new assessment aligned with the Common Core State Standards. These tasks embody the deeper learning experiences and the expectation that students must consistently work at a higher cognitive level so foundational to the core. SBAC tools will be continually emphasized as they come to fruition and are made available to all member states in the coming months and years. This toolbox is constantly being updated as new tools for teachers become available to strengthen implementation efforts in English Language Arts.
In addition, the ISDE has reached an agreement with the Illinois State Board of Education to share a rich and comprehensive set of electronic resources for teachers developed by Illinois to support writing instruction in the three modes of writing emphasized in the Common Core State Standards and the SBAC assessment model: informational, argumentative, and narrative. Featured, in addition to richly annotated anchor sets and practice scoring sets, are videos of actual classroom instruction tied to core writing principles. These asynchronous tools will be made available to schools and teachers.

With strategic partners (Boise State Writing Project and Northwest Inland Writing Project) the ISDE is collaborating to offer deep, hands-on learning opportunities for educators in the summer 2012. The ISDE has developed a series of four three-day workshops for district teams emphasizing the use of more complex informational text in the classroom across the curriculum.

Featuring how to select, evaluate and intertwine complex text into instruction as well as devise opportunities for students to write and speak about what they read, these teams (one ELA teacher, one teacher from another content area, and one administrator) will begin to create actual student lessons based on the Common Core State Standards.

Further, the ISDE will be providing scholarships on a regional basis to an online graduate course at Boise State University on evaluation and use of informational text aligned to the Common Core State Standards. Recipients will be required to lead study groups in their home districts to share their knowledge upon completion of the course work. The intent of the district team approach and the scholarship program is to create concentric circles of expertise transpiring from this face-to-face training system wide, thus further leveraging the impact of the training. Finally, because there is a natural progression from informational to the related but more complex argumentative mode, plans are being made to offer similar programs for argumentative writing in summer 2013 and then narrative writing, as it is very different from the other modes, in summer 2014.

In July and August 2012, ISDE staff will present at three regional Best Practices Institutes on the importance of increasing text complexity and in understanding the new definition of text complexity, which incorporates qualitative factors such as layers of meaning and complexity to structure in addition to quantitative measures such as Lexile ratings. As text complexity drives many of the changes in the approach teachers of all content areas must take to teach the ELA Common Core State Standards with fidelity, this will be the first of many professional opportunities to delve into this critical area. Also, text complexity will be presented through the lens of students creating authentic products, be they written pieces or oral presentation, based on the analysis, synthesis of text or audio visual stimuli. The audience will be teachers from all content areas and administrators, primarily curriculum directors and
principals.

Begun in the spring of 2012 and designed to continue through 2014, the 21st Century Master Teacher program is designed to support implementation of a number of ISDE initiatives (integration of technology in the classroom, the state learning management system, UDL), with implementation of the ELA-Literacy standards of the Common Core State Standards being the foundation and anchor of the entire program. In order to demonstrate best practices in instruction aligned to the ELA-Literacy Common Core State Standards, master teachers were recruited statewide and trained on how to infuse technology in the classroom, use universal design for learning and the new lesson plan template, and build lessons and units aligned to the CCSS. Via the state learning management system, Schoolnet, these exemplar lesson plans, nearly 250 from all content areas, will be shared statewide, giving teachers excellent, concrete example of how to make instructional practice change based on the new ELA-Literacy standards of the Common Core State Standards across the curriculum, helping build support for the core across the full spectrum of teachers. These master teachers will also help evaluate additional lesson plan entries and select contest winners. All these efforts will build a robust bank of lesson plans to be used across the state and refined by actual classroom use and further supported by the professional learning community capabilities of Schoolnet.

Monies are available to build and perhaps expand this critical program that braids so many initiatives for at least the next two fiscal years.

The ISDE will continue to build upon these initial efforts to create in district capacity and understanding of the Common Core State Standards for ELA that hold the promise of pulling together all instructional change across the curriculum under the umbrella of literacy owned not just by the English teacher, but by all teachers.

Idaho’s English Language Development Program: Idaho plans to adopt the WIDA (World-Class Instructional Design in Assessment) English Language Development (ELD) Standards in 2013-14. ISDE will begin the transition process in 2012-13 with public forums for communities and professional development opportunities for teachers and school administrators. ISDE will use processes currently in place to transition to and implement the new Standards.

In 2010, in an effort to better serve ELL students Statewide, ISDE conducted a needs assessment to guide the State’s policy and funding direction for ELL programs. In this assessment, ISDE examined data from the ISAT, IELA, IRI10, and Integrated Focus Visits (monitoring and technical assistance visits) provided to school districts.

---

10 ISAT – Idaho Standards Achievement Tests, the general assessment series of mathematics, reading, and language usage used to meet NCLB requirements.
IELA – Idaho English Language Assessment, the English language proficiency assessment used to meet NCLB’s Title III requirements and to assess entry, exit, and progress of English language proficiency by ELL students.
IRI – Idaho Reading Indicator, a reading assessment required by Idaho Statute to be given in K-3 twice a year to monitor students’ progress and identify achievement gaps in reading skills.
As a result of the assessment, ISDE shifted more attention to improving English Language Development (ELD) program services by developing the Idaho Toolkit and organizing ELD Standards Workshops Statewide.

To ensure consistency and better assist all districts in providing research-based ELD program services, ISDE developed the Idaho Toolkit in Fall 2011. The Idaho Toolkit provides districts with historical foundations, legal requirements for teaching ELL students, content standards, and the most current research on effective and culturally responsive programs and instructional practices for ELLs. The Toolkit is designed so school districts and charter schools can tailor it to their individual needs. ISDE also organizes regional ELD Standards workshops every year.

Through these workshops, the State assists ELL teachers, content teachers, and school administrators as they incorporate ELD standards into their instruction. This serves to ensure that ELLs have full access and opportunity to master prescribed academic content. As Idaho transitions to Common Core State Standards and WIDA Standards aligned to the Common Core, these workshops will focus on the new standards and how Idaho educators can view these standards as intricately connected rather than separate from one another. Trainers for these workshops are State-endorsed and highly qualified elementary and secondary school ELD teachers/coaches and content area teachers. ISDE has found these workshops to be particularly effective because they are provided by educators in the field who use the standards every day.

In addition to efforts already in place, the State will use State-endorsed, highly qualified elementary and secondary school ELD teachers/coaches and content area teachers to provide more targeted professional development opportunities to ensure the full implementation of WIDA standards. ISDE’s LEP Coordinator will work collaboratively with the content specialists at the State to provide specific professional development opportunities, tools, and resources for the access to and mastery of the Common Core State Standards by ELL students.

Following adoption of the WIDA standards, Idaho will also adopt a new online English Language Proficiency Assessment being developed by WIDA through a U.S. Department of Education Enhanced Assessment Grant.

National Center and State Collaborative (NCSC) GSEG Tier II Involvement:
Idaho’s involvement in the NCSC as a Tier II state participant, allows Idaho teachers of students with significant cognitive disabilities access to the Common Core State Standards aligned professional development, curriculum and instructional resources pilot tested and refined by the Tier 1 states. Idaho will have access to all NCSC products and materials before broad dissemination by 2015. Specifically, Idaho’s involvement as a Tier II state is to provide feedback on usability and outcomes of NCSC provided tools and protocols. Idaho will look to recruit a minimum of one to two cohorts, consisting of two to three teachers of students with significant cognitive disabilities who administer the ISAT-Alt, in each of our six state regions. Idaho will also look to recruit individual districts which can support district-wide
collaboration regarding the NCSC professional development, curricular, instructional and assessment tools provided. Participating cohorts and/or districts will also be asked for input on alternate assessment decisions and will be utilized in delivering regional trainings once the NCSC alternate assessment has been developed.

**Professional Development Timeline**

</table>
2011-12 School Year: Professional development activities during 2011-12 have focused on initial training opportunities to familiarize classroom teachers with the Common Core State Standards, how they can familiarize themselves with the new standards, and begin implementing the standards in their classroom if they choose.

- **Idaho Math Initiative, 2008 to 2011:** During this time, 59 percent of the required teachers and administrators have completed the three-credit Mathematical Thinking for Instruction course. The remainder is expected to complete it by the end of 2012-13. The MTI Course was designed as part of the Idaho Math Initiative in 2008. It was fully aligned to the Common Core State Standards in 2009. This course has helped ensure K-8 teachers and high school mathematics teachers are better prepared to implement the Common Core. Six regional mathematics specialists provide follow-up support to teachers as they work in the classroom.

- **iSTEM Summer Institutes, July 2011:** The iSTEM workshops consisted of three regional workshops held in Twin Falls, Nampa, and Coeur d’Alene. Teachers representing all grade levels across Idaho learned how to incorporate science, technology, engineering, and mathematics (STEM) activities into their lesson plans. ISDE presented on the Common Core State Standards at two of the three regional workshops, reaching 300 teachers at the Twin Falls and Coeur d’Alene regional workshops.

- **Idaho Summer Institute of Best Practices, August 2011:** More than 150 classroom teachers and building principals attended the two-day Summer Institute that focused on research-based best practices to incorporate in the classroom. The Institutes were held in Wendell, Idaho Falls, and Coeur d’Alene. Each session focused on hands-on implementation activities and discussion of how the Common Core aligns to the current content standards.

- **District Leadership Team Workshops, Fall 2011:** In this capacity-building effort, an ISDE team delivered training to district leadership teams consisting of a superintendent, principal, curriculum director, test coordinator, and lead teacher. The State reached more than 110 district leadership teams serving more than 90 percent of Idaho students.

At these workshops, each team learned the overarching concepts of the Common Core, a clear understanding of the implementation timeline and ways in which their district could begin the implementation process. The ISDE team demonstrated the Schoolnet instructional management system, a web-based platform providing instant access to the Common Core State Standards and lesson plans aligned to the standards.
ISDE’s Coordinated School Health team presented on their efforts to work with the Council of Chief State School Officers Health Education Assessment Project (HEAP) to develop effective health education assessment resources. Through this project, the State also will work to teach health content through literature and informational text, keeping with a major goal of Common Core to teach literacy across the disciplines.

- Online Office Hours, Spring 2012: ISDE staff are planning online office hours and short tutorials bi-monthly on selected Common Core State Standards topics. Online office hours will be open-ended webinars where teachers can join for a few minutes or for a long period of time, depending on their questions. No specific agenda is set, but this approach makes sure teachers have access to experts at ISDE’s offices.

The bi-monthly tutorials are scheduled webinars focused on a single topic. These have a set agenda with time left for questions at the end. Both online office hours and tutorials will be held after school hours to allow classroom teachers to participate. Copies will be archived and provided on the ISDE website and through Schoolnet.

- Hosted on the ISDE common core website, Common Core State Standards Toolkits specifically for teachers are being developed to be deployed in spring 2012. These Toolkits will be published on ISDE’s website in January 2012 and advertised to teachers through the monthly teacher newsletter, direct e-mails to principals, Schoolnet and professional organizations. The Toolkit will include modules organized to move incrementally from awareness to deeper understanding. Introductory material includes short video vignettes created by writers of the Common Core that underscore key principles of the standards, tutorials on the structure of the standards and critical documents supporting the need to move to the Common Core. This is followed by materials such as an in-depth deconstructed version of the standards, the alignment analysis of the Common Core to Idaho Standards, comparison of and concrete examples of what the standards look like in the classroom. Among the items are videos of sample lessons, sample curricular units, curricular maps from several sources, in-depth instruction on writing instruction and assessment, content alignment tools, criteria to guide curriculum developers and publishers, and professional development tools. Finally, a synopsis of the role of Smarter Balanced Assessment Consortium (SBAC) and implementation of the Common Core State Standards demonstrates that this next generation assessment will adhere with fidelity to all core principles and claims of the Common Core. Links to all sample SBAC item types and important documents such as the Content Specifications are included. This site will be continually updated to provide Idaho teachers with the most complete and up
to date resources as they are created or become available. These resources will also be available on Idaho’s statewide data management system, Schoolnet.

- **Summer Regional Institutes, Summer 2012:** The ISDE is planning Summer Institutes to delve more deeply into the Common Core State Standards and how a classroom teacher can transition to the new standards 2012-13 and beyond. The State has developed strategic partnerships with groups, such as the Boise State Writing Project, to provide training in specific areas of the Common Core.

  The Boise State Writing Project, for example, will provide training on writing across the curriculum including using scoring rubrics as a platform for instruction and a common language around learning, with specific tutorials around the three modes of writing emphasized by the Common Core: informative, narrative and argumentative. The Idaho Math Initiative staff will also host a Mathematics Initiative Conference that will provide deeper, hands-on work with the Common Core mathematics.

- **RTI:** The ISDE will continue to invest in building the expertise of all school staff and establishing district and school teams through the Math Initiative in order to support quality Tier 1 and Tier 2 instruction. This includes special attention to alternate approaches [differentiated instruction] in order to provide all students access to regular core curriculum.

  **2012-13 School Year:** ISDE, working with strategic partners, will provide more in-depth training on the Common Core State Standards and how Idaho classroom teachers can effectively transition to the new standards.

  - **Integrating Technology:** In Fall 2012, all high school teachers will receive a mobile computing device as the State begins to phase in its one-to-one initiative. Under this initiative, every Idaho high school will have a one-to-one ratio of mobile computing device to student and teacher by 2015-16. At the same time, the State is investing in additional technology for all classrooms with $13 million annually for technology and professional development. As Idaho’s classroom teachers work to integrate technology in the classroom, the State will partner with Boise State University to show them how advanced classroom technology can assist in transitioning to the Common Core State Standards.

    In partnership with Boise State, ISDE will create short, web-based interactive tutorials demonstrating best practices in classroom technology integration tied to the Common Core. The tutorials will emphasize Universal Design for Learning (UDL) to ensure teachers know how to individualize instruction and meet the needs of all students, including those who are English language learners, students with disabilities, or low-achieving students. All tutorials will be archived online for future use.
• Curriculum Integration: ISDE Content Coordinators for mathematics and English language arts will develop curricular protocols and training in repurposing existing curricular resources to bolster the areas needed to support a successful implementation of the Common Core. The Coordinators will work closely with ISDE’s Limited English Proficient Coordinator, Special Education team, and Statewide System of Support team to ensure that their work also meets the needs of all students, including English language learners, students with disabilities and low-achieving students.

• Model Instructional Units: ISDE Content Coordinators for mathematics and English language arts will develop model instructional units and videos of instructional best practices. The Coordinators will utilize Schoolnet to share these materials with classroom teachers across Idaho.

• Regional Math Specialists: As a vital link in providing support and extended follow-up to the common core compliant MTI training course which they will continue to teach, these specialists will deliver instructional support to in-service teachers to improve content knowledge, pedagogical knowledge, RTI, and Common Core State Standards knowledge. In addition, regional specialists will provide critical support of focused school improvement efforts to ensure high quality mathematics professional development and effective transition to the common core. The well-established structure of the MTI program, the expertise of the specialists, and the strength of the current relationships with the field built over a number of years, makes the cadre of regional specialists a potent tool in service of common core implementation.

Transition to WIDA Standards: ISDE will provide the professional development required by the WIDA (World-Class Instructional Design in Assessment) Consortia to ensure the State provides the necessary training for all teachers as they transition to new English Language Development (ELD) Standards.

• Recruit and establish regional cohorts for piloting of the National Center and State Collaborative (NCSC) tools.

• RTI: RTI The ISDE will continue to invest in building the expertise of all school staff and establishing district and school teams through the Northwest Inland Writing Project and the Boise Writing Project who provided training to more than 1,000 Idaho teachers in 2010 in order to support quality Tier 1 and Tier 2 instruction. This included special attention to alternate approaches [differentiated instruction] in order to provide all students access to regular core curriculum.
2013-2014 School Year: The 2013-14 school year is the first that Idaho’s teachers will be teaching Common Core State Standards in their classrooms. The State will offer ongoing support throughout this year.

- Regional Mathematics Specialists: This group will continue to build the capacity of teachers and school and district teams by providing additional outreach opportunities for professional development, particularly in the summer for administrators and teachers. Model lesson plans will be created and available for all individuals and teams who complete the MTI course to further bolster integration of Common Core math principles into classroom instruction.

- Implementation of WIDA Standards: ISDE will provide the professional development required by the WIDA (World-Class Instructional Design in Assessment) Consortia to ensure the State provides the necessary training for all teachers as they begin teaching the new English Language Development (ELD) Standards.

- Piloting of NCSC Tools: ISDE will use NCSC professional development, curriculum, instruction and assessment resources and tools and provide required feedback on usability and outcomes. ISDE will collect input from cohorts/districts for alternate assessment decisions in Idaho.

- RTI: An increased effort to build capacity of the school and district teams will be the cornerstone of RTI efforts. The ISDE will continue to invest in building the expertise of all school staff through the Math Initiative in order to support quality Tier 1 and Tier 2 instruction. This includes special attention to alternate approaches [differentiated instruction] in order to provide all students access to regular core curriculum.

- Smarter Balanced Assessment Consortium Training: ISDE will pilot the new assessment developed through the Smarter Balanced Assessment Consortium (SBAC). The end-of-the-year summative assessment will be fully implemented in 2014-15 school. Formative assessment tools that teachers can use throughout the school year will be available in 2014-15 as well. In 2013-14, ISDE will make SBAC-related resources available to classroom teachers, including formative and interim assessment item banks, learning progressions with embedded test items, performance tasks with annotated scoring guides. Scoring guides and examples for all constructed items and performance assessments, including practice sets and annotated scoring guides for writing assessments will be included in this suite of tools for teachers. The ISDE will provide training on these resources throughout the year.
Does the SEA intend to provide professional development and supports to prepare principals to provide strong, supportive instructional leadership based on the new standards? If so, will this plan prepare principals to do so?

ISDE has a plan to provide professional development and ongoing support to principals based on the Common Core State Standards.

The building principal is the instructional leader who plays a critical role in making the implementation of the Common Core State Standards successful and sustainable. As the instructional leader, the building principal will provide support, technical assistance, evaluation and guidance. To fulfill this role, the State will provide principals with initial professional development and ongoing support.

The State’s goal is for every building principal to be the instructional leader with a high level of knowledge of the Common Core State Standards.

To accomplish this goal, ISDE is developing a three-pronged approach that will provide face-to-face professional development for building principals, a toolkit of resources for principals to utilize during the school year, and additional training on the teacher performance evaluation process. First, in Spring 2012, ISDE will develop and publish a Toolkit for Principals on its website. The Toolkit will include an in-depth suite of materials focused on awareness and deep understanding of the standards and the important changes they demand in the creation and delivery instruction. Other critical sections will provide training on teacher evaluations and what quality instruction infused with Common Core principles looks like for all disciplines. Principals imbued with deep working knowledge of the Common Core will help drive the instructional change so essential for successful implementation. ISDE will advertise the Toolkit to principals and district superintendents through direct e-mails, newsletters, and professional organizations. In addition, the State will offer webinars in the spring on how to use the Toolkit. ISDE will hold at least three focus groups with principals in different regions of the State to get feedback on the effectiveness of the Toolkit and what, if any, improvements should be made. The State also will measure the effectiveness of the Toolkit during administrator professional development opportunities in Summer 2012.

Second, ISDE will host training opportunities for principals in Summer 2012 focused on the Common Core State Standards. These workshops will be designed to build deep knowledge of the common core and provide administrators tools to provide effective and constructive feedback via classroom observations and evaluation of lesson plans using the newly adopted UDL compliant lesson plan template. ISDE will measure the effectiveness of the trainings with pre- and post-surveys. After the trainings, ISDE will hold at least three focus groups with building principals and
instructional coaches located in certain districts and schools across the state to gather more data on school-based needs to implement the Common Core successfully.

Additionally, ISDE will host at least two focus groups with classroom teachers from different regions of Idaho to gather their feedback on what more building principals need to be effective instructional leaders and to successfully implement the Common Core. These focus groups will all be conducted by the end of September 2012, so the results can be used to shape future trainings.

Finally, by Fall 2012, ISDE will develop teacher performance evaluation protocols that incorporate the Common Core State Standards. Idaho already has a Statewide Framework for Teacher Performance Evaluations based on the Charlotte Danielson Framework for Teaching. ISDE has been providing training on this new evaluation model to teachers and school administrators since Fall 2009. Idaho school districts and public charter schools implemented this framework for the first time in 2011-12.

In Fall 2012, ISDE will provide additional training to classroom teachers and school administrators on how building principals and other evaluators should incorporate the Common Core State Standards into the teacher performance evaluation process.

The training will be a combination of face-to-face workshops and webinars offered throughout the school year.

In addition to these efforts, ISDE will ensure the Common Core State Standards are incorporated into the agendas and discussions of pre-established statewide professional learning communities for school administrators. ISDE created the Idaho Superintendents’ Network in 2009 to support the work of district leaders in improving learning outcomes for all students by focusing on the quality of instruction. Currently, 37 superintendents participate in the Network, representing one-third of superintendents statewide.

Superintendents who serve a high percentage of at-risk students receive first priority to join. Membership is limited based on funding. The group meets face-to-face four times a year. Topics for discussion in 2011-12 have included improved outcomes for students, developing a sense of purpose, working with stakeholders, district central offices and learning improvements, creating and supporting district and building-level leaders, and analyzing teaching and learning through data. ISDE’s Content Team is regularly consulted by the Superintendents’ Network staff to ensure Common Core State Standards are incorporated into the discussions regarding how these key leaders must plan and prepare for implementation.

The Principal Academy of Leadership (PALs) is a project developed by ISDE to support the work of building-level administrators in improving outcomes for all students by focusing on the quality of instruction. Approximately 35 principals participate each year in a balance of content, professional conversation, and collegial instructional rounds related directly to improving the overall effectiveness of the
Instructional Core such as those described below.

The effective leadership strands focus on:

- **Leadership Framework & Competencies:** The leadership framework is structured on the Nine Characteristics of High Performing Schools supported by McREL’s Leadership Framework and the Educational Leadership Standards (ISLLC). Turn-Around Leadership Competencies will also support the leadership framework.

- **Instructional Rounds:** A network approach of improving teaching and learning at the instructional core through calibration visits and instructional classroom observations connecting Danielson’s Framework to walk-through strategies.

- **Professional Growth & Development:** All participants complete a 360° Self-Assessment Evaluation provided by Education Impact. The information from this assessment helps each participant develop a professional growth plan to increase his or her effectiveness.

- **Collegial Connection & Collaboration:** Throughout the PALs project, there are many opportunities for all participants to network and connect through statewide summits, regional meetings, and individual coaching calls.

Because PALs is funded under the Title I-A Statewide System of Support, principals are selected based on their school’s improvement status and whether the school receives Title I-A funds. They meet four times a year in addition to conference calls and regional working sessions. New participants will be selected based on the placement of the school in the new accountability structure proposed in Idaho’s ESEA Flexibility application. Priority will be given to those in the lowest-performing schools.

- **Does the SEA propose to develop and disseminate high-quality instructional materials aligned with the new standards? If so, are the instructional materials designed (or will they be designed) to support the teaching and learning of all students, including English Learners, students with disabilities, and low-achieving students?**

According to Idaho Superintendent of Public Instruction Tom Luna’s vision, “Every parent and educator will have access to the data they need to guide instruction on a daily basis and measure the academic progress of all students via Schoolnet.” Schoolnet is Idaho’s instructional management system (IMS) that delivers longitudinal data via a student Digital Backpack which consolidates state assessment results according to a growth model.

In addition, Schoolnet provides enrollment, completion, grades, Key Performance
Indicators (KPIs), Goals & Exemplars, Formative and Summative Assessments and Reports as well as instructional materials, lesson plans and links to online resources.

Schoolnet is the online IMS provider of data-driven decision-making solutions for Idaho K-12 school districts. Schoolnet coupled with intensive training occurring summer 2012 (http://itcnew.idahotc.com/register-for-trainings.aspx), helps districts analyze data, organize curriculum, track instruction, measure performance, and report results. Districts utilize data to make informed managerial and instructional decisions at all levels for all students including English Learners, students with disabilities, and low-achieving students.

There are several components to the informed instructional decision making process. In addition to Digital Backpack data, the provision of high quality instructional materials aligned to Common Core State Standards developed according to the principles of Universal Design for Learning (UDL) assures that the needs of all students are met. Schoolnet is the portal to many different instructional resources designed to align with UDL.

High-quality digital instructional content (Discovery Education Streaming digital content) was provided through Schoolnet to every Idaho teacher and student across all Idaho classrooms in May 2012.

In addition to providing digital content hosted by Schoolnet according to the principles of UDL, Schoolnet also provides a portal for Idaho educators to an online database of lesson plans. To facilitate the uploading of lesson plans, the ISDE convened a panel of teachers and other UDL experts to design a template entitled 21st Century Classroom Lesson Plan which was developed according to the Charlotte Danielson Framework and the principles of UDL including multiple means of:

- Representation, to give diverse learners options for acquiring information and knowledge,
- Action and expression, to provide learners options for demonstrating what they know,
- Engagement, to tap into learners' interests, offer appropriate challenges, and increase motivation

The Idaho 21st Century Classroom UDL lesson plan template was designed with representation from 61 school districts, higher education institution representation as well as Idaho SDE directors and content coordinators across divisions. The template is now housed and accessible statewide within Schoolnet. Teachers log on and create lessons online then align these lessons with key subject/content words, grade level, Common Core State Standards and Idaho standards as well as appropriate links to UDL resources and materials creating a searchable 21st Century Classroom UDL lesson plan database.
As Idaho educators create 21st Century Classroom UDL lesson plans online via the lesson plan template they are required to delineate UDL requirements and differentiated instructional techniques to meet the needs of all students including English Learners, students with disabilities, and low-achieving students and incorporate college and career readiness skills according to the Common Core State Standards. Information for Idaho educators on UDL can be found at the Idaho Assistive Technology Project at:

Upon submission into the database the lesson plans will be reviewed online by a cadre of 21st Century Master Teachers specifically trained in UDL principles and exemplar best practice techniques by the ISDE and Idaho Assistive Technology Project Staff. During the spring and summer of the 2011-2012 school years this group of 50 21st Century Classroom Master Teachers are creating an exemplar library of lesson plans along with student work samples and UDL designed materials which will function as a resource for all Idaho teachers.

- Does the SEA plan to expand access to college-level courses or their prerequisites, dual enrollment courses, or accelerated learning opportunities? If so, will this plan lead to more students having access to courses that prepare them for college and a career?

Over the past five years, Idaho has significantly expanded the access to advanced opportunities for all students attending Idaho’s public high schools. First, the Idaho State Board of Education and Idaho Legislature approved new graduation requirements in 2007 for the Class of 2013. This was intended to ensure that high school graduates are better prepared for postsecondary education.

Under these new requirements, students must take three years of mathematics, three years of science, and a college entrance examination. School districts and public charter schools must offer high school students at least one advanced opportunity, such as dual credit, Advanced Placement, Tech Prep, or International Baccalaureate.

Second, over the past three years, the State has created the Idaho Education Network (IEN). This is a high-speed, broadband intranet connecting every Idaho public high school with each other and to Idaho’s institutions of higher education. The IEN was made possible through a change in Idaho Code and then by leveraging Federal, State, and private funding to invest $40 million into building. (See Idaho Code 67-5745D online at http://legislature.idaho.gov/idstat/Title67/T67CH57SECT67-5745D.htm.) In addition to providing connectivity, the IEN equipped at least one room in every

---

11 Idaho’s new high school graduation requirements are available online at http://adm.idaho.gov/adminrules/rules/idapa08/0203.pdf under IDAPA 08.02.03 104, 105, and 106.
high school with video teleconferencing equipment affording all students access to the educational opportunities they need, no matter where they live.

The possibilities of the IEN are endless, and Idaho schools are just beginning to realize the value of this project. Currently, students are using the IEN to go on virtual field trips to places like the Great Barrier Reef or the Holocaust Museum. It is largely being used to take and complete courses not currently offered in a school or district, such as dual credit and Advanced Placement courses. The Idaho State Board of Education has set a goal for students to be taking 180,000 dual credits per year by 2020. Right now, approximately 8,000 students are taking 46,134 dual credit hours statewide. The IEN will help the State meet this goal by making sure every school and district has access to these courses.

In 2011-12, more than 800 students were taking dual credits via the IEN. Eventually, the IEN also will expand to Idaho’s elementary and middle schools as well as Idaho’s community libraries.

Third, as part of comprehensive education reform laws passed in Idaho during the 2011 Legislative Session, a Dual Credit for Early Completers program was enacted. (For the full text of Idaho Code 33-1626, see http://legislature.idaho.gov/idstat/Title33/T33CH16SECT33-1626.htm.) In this program, students who complete all State high school graduation requirements, except their senior project, not later than the start of the twelfth grade are eligible to enroll in up to thirty-six (36) postsecondary credits of dual credit courses during their twelfth grade year at State expense. The State expects the program to grow in future years as students learn about the program through their schools.

Fourth, Idaho passed a new law to change the State’s public school funding formula so funds follow the student through Fractional Average Daily Attendance (ADA). Fractional ADA will first go into effect for 2012-13.

In the past, school districts received full units of funding for students attending their schools, even if students only attended part of the day.

Through Fractional ADA, the State will divide school-day funding into segments to ensure the funds follow a student if he or she chooses to supplement their traditional education at a high school with online courses, dual credit courses, or other options such as professional-technical courses at a neighboring school district. Thus, Idaho’s college and universities, other school districts, and online courses providers become eligible for a fraction of ADA funding for students participating in their courses during the school day. This will allow more students to take college-level courses, AP courses, or other courses not offered at their high school.

Finally, in the State’s new accountability system, Idaho will hold public high schools accountable for the number of students who enroll in and successfully complete advanced courses, such as dual credit, Advanced Placement, Tech Prep, or
International Baccalaureate.

Under this new system, Idaho high schools will earn more points toward becoming a Five-Star School if more students enroll in and successfully complete an advanced opportunity course\(^{12}\).

ISDE decided to make this a component of the new accountability system to encourage more school districts and high schools to offer advanced opportunities.

- Does the SEA intend to work with the State’s IHEs and other teacher and principal preparation programs to better prepare—
  - incoming teachers to teach all students, including English Learners, students with disabilities, and low-achieving students, to the new college- and career-ready standards; and
  - incoming principals to provide strong, supportive instructional leadership on teaching to the new standards?

If so, will the implementation of the plan likely improve the preparation of incoming teachers and principals?

ISDE has worked with the Idaho State Board of Education (“State Board”) and Idaho’s institutions of higher education (IHEs) to improve the preparation programs for classroom teachers and principals to ensure they have the skills and knowledge necessary to prepare all students to meet college- and career-ready standards.

ISDE and State Board staff first worked to align teacher preparation programs to the Common Core State Standards in 2011.

In August 2011, ISDE presented a proposed change in Idaho Administrative Rule to the State Board. The rule was adopted by the Board on November 3, 2011. It was approved by the House and Senate Education Committees of the Idaho Legislature in January 2012 to become effective.

The ISDE is working with institutions of higher education and other teacher preparation programs to explain the changes in the teacher preparation program approval process and how they can best meet these new requirements. (For more on IDAPA 08.02.02.100, see [http://adm.idaho.gov/adminrules/rules/idapa08/0202.pdf](http://adm.idaho.gov/adminrules/rules/idapa08/0202.pdf).)

---

\(^{12}\) In Idaho Administrative Rule, advanced opportunity courses are defined as dual credit, Advanced Placement, Tech Prep, or International Baccalaureate courses. See IDAPA 08.02.03.106.
Under the rule change, the ISDE would redesign the approval process for teacher preparation programs to ensure Colleges of Education and other preparation programs are producing candidates who have the skills and knowledge necessary to effectively teach the Common Core State Standards to all students, including English language learners, students with disabilities and low-achieving students.

The rule change provides the State Board more oversight of the teacher preparation approval process through focused reviews of preparation programs aligned to State-specific, core teaching requirements. Teacher preparation programs must demonstrate they are meeting these goals no later than 2014-15 in order to receive approval.

The State will measure the effectiveness of teacher preparation programs in two ways. First, focused reviews will be conducted in person. Once the rule change is effective, the State reviews of the preparation programs will be conducted every third year to specifically monitor candidate performance data in the following areas:

- Integration of appropriate educational technology into lesson plans and curriculum.

- Evidence of candidate knowledge and skill related to Common Core State Standards in mathematics instruction. ISDE is in the early stages of developing the framework for this evaluation, but it will include the components of the Mathematical Thinking for Instruction course for elementary school teachers, application of statistics for secondary school teachers and pre-service standards aligned to the Common Core State Standards. ISDE currently is working with groups of teachers, school administrators, and higher education faculty to develop the pre-service standards aligned to the Common Core.

- The State is using Total Instructional Alignment (TIA); another recognized professional development strategy. TIA work already has begun in Idaho and will continue in 2012 with the assistance of ISDE staff.

- Evidence of candidate knowledge and skill related to Common Core State Standards in English language arts instruction. ISDE is in the early stages of developing the framework for this evaluation, but it will include pre-service standards aligned to the Common Core State Standards as well as competencies specifically addressing the needs of English language learners and students with disabilities.
• The ISDE currently is working with groups of teachers, school administrators, and higher education faculty to develop the pre-service standards aligned to the Common Core. The State is also using the TIA methodology for this work; work already begun and which will continue in 2012 with the assistance of ISDE staff.

• Evidence of growth through clinical practice culminating in a professional development plan for the beginning teacher. Supervision of clinical practice will be aligned with the Idaho Statewide Framework for Teacher Performance Evaluations, based on the Charlotte Danielson Framework for Teaching.

Through this alignment, the State will support a continuum of growth beginning in pre-service and provide a consistent construct for supporting teachers in their development towards becoming highly effective practitioners.

Second, the State will measure the effectiveness of teacher preparation programs through the use of longitudinal data. With the Statewide longitudinal data system, Idaho can connect candidates back to the teacher preparation programs they attended. Idaho first implemented its statewide longitudinal data system in 2010-11. Thus, the first data on teacher preparation programs are expected to become available at the end of 2011-12.

This data element will be one of the multiple measures used to evaluate the success of Idaho’s Colleges of Education and other teacher preparation programs. Idaho has also participated in Stanford’s Teacher Performance Assessment Consortium (TPAC) and will continue to participate with a focus on assessing the performance of ABCTE (American Board for Certification of Teacher Excellence) candidates.

Idaho already has made significant progress in aligning the standards in the Colleges of Education and other teacher preparation programs to the Common Core State Standards through the statewide Idaho Math Initiative. The Idaho Math Initiative has been described above in considerable detail.

The ISDE and State Board now are beginning to address necessary changes to administrator preparation programs that will make sure all principals recognize their roles as instructional leaders who have the skills and knowledge necessary to prepare all students to meet college- and career-ready standards.

Currently, under Idaho Code and Idaho Administrative Rule, the State does not have authority over principal preparation programs. These are the steps the State is taking to address administrator preparation programs.

First, the ISDE has brought together stakeholders from across Idaho to develop a statewide framework for administrator evaluations. The ISDE conducted similar work
in 2008 to create a Statewide Framework for Teacher Performance Evaluations based on the Charlotte Danielson Framework for Teaching. Under Idaho Code, Idaho’s certificated staff, including administrators, must be evaluated at least annually; however, neither Code nor Administrative Rule sets standards upon which administrators will be evaluated. Therefore, evaluations vary from district to district and school to school.

In December 2011, the ISDE convened a steering committee and a larger stakeholder group to craft the framework for administrator evaluations in Idaho. The steering committee meets monthly to plan future meetings for the larger stakeholder group, evaluate past meetings from the stakeholder group and make sure the work of the stakeholder group is keeping consistent with State and Federal requirements as well as research. The stakeholder group meets monthly to work on creating the framework for administrator evaluations.

The working group is made up of the following participants: Rob Winslow, Executive Director of the Idaho Association of School Administrators; Karen Echeverria, Executive Director of the Idaho School Boards Association; Robin Nettinga, Executive Director of the Idaho Education Association; Christina Linder, Director of Certification and Professional Standards at the ISDE; Steve Underwood, Director of the Statewide System of Support at the ISDE; Becky Martin, Coordinator of Teacher Quality at the ISDE; and Rob Sauer, Deputy Superintendent of Great Teachers and Leaders Division at the ISDE.

The stakeholder group is made up of the following participants:

- Wiley Dobbs, superintendent in Twin Falls School District
- Geoff Standards, principal in Meridian School District
- Shalene French, principal in Idaho Falls School District
- Alicia Holthaus, principal in Grangeville
- Anne Stafford, teacher in Boise School District
- Nancy Larsen, teacher at Coeur d’Alene Charter Academy
- Chuck Wegner, curriculum director in Pocatello School District
- Marni Wattam, special education director in Post Falls School District
- Penni Cyr, Idaho Education Association President
- Dave Anderson, school board trustee in Oneida School District
- Mike Vuittonet, school board trustee in Meridian School District
- Cathy Canfield-Davis, higher education representative in Moscow
- Kathleen Budget, higher education representative in Boise
- Laurie Boeckel, Idaho PTA representative
- Selena Grace, Office of the State Board of Education
- Roger Brown, Office of the Governor
- Senator John Goedde, Idaho Legislature
- Senator James Hammond, Idaho Legislature
- Senator Steve Bair, Idaho Legislature
While there is consensus among stakeholders that instructional leadership will be a primary component in the State’s evaluation system, corollary performance measures have yet to be determined. The group plans on concluding its work by the end of May 2012.

At the completion of the ISDE’s work to develop a statewide framework for administrator evaluations, the State will propose redesigning the principal preparation program approval processes to ensure these programs align with statewide standards and measures. This timeline and process is fully described in Section 3 of this application.

- Does the SEA plan to evaluate its current assessments and increase the rigor of those assessments and their alignment with the State’s college- and career-ready standards, in order to better prepare students and teachers for the new assessments through one or more of the following strategies:
  
  - Raising the State’s academic achievement standards on its current assessments to ensure that they reflect a level of postsecondary readiness, or are being increased over time to that level of rigor? (E.g., the SEA might compare current achievement standards to a measure of postsecondary readiness by back-mapping from college entrance requirements or remediation rates, analyzing the relationship between proficient scores on the State assessments and the ACT or SAT scores accepted by most of the State’s 4-year public IHEs, or conducting NAEP mapping studies.)
  
  - Augmenting or revising current State assessments by adding questions, removing questions, or varying formats in order to better align those assessments with the State’s college- and career-ready standards?
  
  - Implementing another strategy to increase the rigor of current assessments, such as using the “advanced” performance level on State assessments instead of the “proficient” performance level as the goal for individual student performance or using college-preparatory assessments or other advanced tests on which IHEs grant course credits to entering college students to determine whether students are prepared for postsecondary success?

If so, is this activity likely to result in an increase in the rigor of the State’s current assessments and their alignment with college- and career-ready standards?

Idaho will focus all of its resources and efforts on moving to the next generation of assessments and building capacity at the local level to implement these new assessments.
The next generation of assessment includes, but is not limited to, Idaho’s involvement in the Smarter Balanced Assessment Consortium (SBAC). Idaho will pilot the SBAC assessments in the 2013-2014 school year and fully implement these assessments in the 2014-2015 school year. In addition to its work with SBAC, Idaho is developing a statewide item bank from which school districts and public charter schools can develop quality assessments at the local level that are aligned to the Common Core State Standards.

In November 2010, ISDE worked with more than 50 mathematics and science teachers to create end-of-course assessments in six courses: biology, earth science, physical science, pre-algebra, algebra I, and geometry. Because of this work, each subject area now has roughly 350 items in it and one complete form of each assessment. These tools now are available to all school districts and public charter schools to be used as end-of-course tests or as benchmark or interim tests throughout the school year.

Since the State received a grant from the J.A. and Kathryn Albertson Foundation to deploy an instructional management system across Idaho, the SDE also will begin loading these assessment items into the Schoolnet system (described in detail previously in this section).

The grant funding from the Albertson Foundation also is allowing ISDE to create a bank of assessment items constructed of items from other States and Idaho school districts, all of which are first aligned to the Common Core State Standards. Through the timeline below, numerous Idaho teachers will be invited to item alignment workshops to conduct the alignment and learn how to effectively use formative practices and interim assessments aligned to the Common Core State Standards. The alignment activity also will serve as an outreach and professional development opportunity as it will significantly increase teacher understanding and awareness of the Common Core.
Idaho has consulted with the Technical Advisory Committee in possible ways to gain more information on students’ performance on the Common Core State Standards by utilizing the current ISAT. One potential, still in discussion, is the possibility of coding current items, if applicable, to the Common Core State Standards and giving a holistic Common Core score to for students in addition to the current reported score. Idaho is still investigating the possibilities with the TAC.

- Does the SEA propose other activities in its transition plan? If so, is it likely that these activities will support the transition to and implementation of the State’s college- and career-ready standards?

All plans are outlined in the previous sections.
**1.C DEVELOP AND ADMINISTER ANNUAL, STATEWIDE, AlIGNED, HIGH-QUALITY ASSESSMENTS THAT MEASURE STUDENT GROWTH**

Did the SEA develop, or does it have a plan to develop, annual, statewide, high-quality assessments, and corresponding academic achievement standards, that measure student growth and are aligned with the State’s college- and career-ready standards in reading/language arts and mathematics, in at least grades 3-8 and at least once in high school, that will be piloted no later than the 2013–2014 school year and planned for administration in all LEAs no later than the 2014–2015 school year, as demonstrated through one of the three options below? Does the plan include setting academic achievement standards?

**Option A:**

*If the SEA is participating in one of the two State consortia that received a grant under the Race to the Top Assessment (RTTA) competition, did the SEA attach the Memorandum of Understanding (MOU) submitted under that competition? (Attachment 6)*

Idaho is a governing state in the Smarter Balanced Assessment Consortium. See Attachment 6 - Smarter Balanced Assessment Consortium for the Memorandum of Understanding

---

**PRINCIPLE 1 OVERALL REVIEW**

*Is the SEA’s plan for transitioning to and implementing college-and career-ready standards, and developing and administering annual, statewide, aligned high-quality assessments that measure student growth, comprehensive, coherent, and likely to increase the quality of instruction for students and improve student achievement? If not, what aspects are not addressed or need to be improved upon?*

The Idaho State Department of Education (ISDE) has built a strong plan to transition to and implement college- and career-ready standards that is sound, comprehensive, and attainable within the timelines established in the above narrative. The State has demonstrated extensive plans to strengthen professional development for current classroom teachers and principals and to align teacher and principal preparation programs with Common Core Standards. ISDE also is working with the State Board to ensure the State measures the effectiveness of teacher and principal preparation programs every year and holds these programs accountable for their outcomes.

The State is making significant progress to improve its already rigorous annual statewide assessments as it transitions to Common Core State Standards. Idaho is adding additional measures of student achievement, such as interim assessments, which classroom teachers and building principals can use throughout the school year to guide instruction and raise achievement.
for all students, including students with disabilities, English language learners and low-achieving students.

Through these efforts, Idaho is creating a consistent, comprehensive, and sustainable infrastructure that promotes quality instruction in every classroom while offering effective support to all students as they progress toward mastery of college- and career-ready standards.
ESEA Flexibility permits Idaho to build on its successes. Like others, Idaho saw increasing numbers of schools identified for improvement. This reversed beginning in 2008 and through 2011 (declining from 46%, to 40%, to 31% and 31% in each respective year), despite increasing benchmarks. Meanwhile, student achievement increased statewide from 2007 to 2011. The median combined percent of school-level student proficiency on the state test for Reading and Math increased 4.9 points for all students (to 84.7%) and 7.8 points among the economically disadvantaged (to 79.2%). Gains steadily rose each year, which is encouraging since Idaho’s 4th and 8th grade NAEP scores in these areas are equal to or statistically higher than the national average. Idaho attributes this success largely to changes in its Statewide System of Support. However, this success is not yet enough. There have been modest gains among English learners and students with disabilities. With the Common Core State Standards, achievement for all students must be raised even higher still. Therefore, Idaho will continue with a single accountability system for all schools, regardless of Title I status, using a Five-Star scale to annually evaluate and recognize school performance. The system of differentiated recognition, accountability, and support will enable the State to diagnose and more adequately meet the needs that exist in its schools and districts.

Schools and districts will be evaluated based on four metrics: absolute performance (percent of students who are proficient), student academic growth to standard for all students, academic growth to standard for equity groups, and postsecondary and career readiness. These metrics are incorporated in a compensatory framework in which schools and districts accumulate points in subdomains along a continuum of performance. Points accumulated will result in annual determinations based on a Five-Star scale. The State’s goal is to get all of its schools and districts into the highest two categories: Four and Five Stars. These are reserved for schools and districts that effectively meet the needs of all students across the various metrics of performance.

The One, Two, and Three Star categories will be used to identify schools and districts for differentiated levels of accountability and support. Support mechanisms for all schools and districts focus with the greatest intensity on the lowest-performing systems. The Statewide System of Support’s processes and programs strategically determine what the lowest-performing schools and districts need, match resources and supports to those needs, and work to build the capacity of the district in order to improve the outcomes of its schools.
2.A. DEVELOP AND IMPLEMENT A STATE-BASED SYSTEM OF DIFFERENTIATED RECOGNITION, ACCOUNTABILITY, AND SUPPORT

2.A.i. Provide a description of the SEA’s differentiated recognition, accountability, and support system that includes all the components listed in Principle 2, the SEA’s plan for implementation of the differentiated recognition, accountability, and support system no later than the 2012–2013 school year, and an explanation of how the SEA’s differentiated recognition, accountability, and support system is designed to improve student achievement and school performance, close achievement gaps, and increase the quality of instruction for students.

2.A.i.a. Did the SEA propose a differentiated recognition, accountability, and support system, and a high-quality plan to implement this system no later than 2012 school year, that is likely to improve student achievement and school performance, close achievement gaps, and increase the quality of instruction of students?

a. Does the SEA’s accountability system provide differentiated recognition, accountability, and support for all LEAs in the State and for all Title I schools in those LEAs based on (1) student achievement in reading/language arts and mathematics, and other subjects at the State’s discretion, for all students and all subgroups of students identified in ESEA section 1111(b)(2)(C)(v)(II); (2) graduation rates for all students and subgroups; and (3) school performance over time, including the performance and progress of all subgroups?

Idaho’s single accountability system is one that has a foundation in rewarding schools and districts for not only excellent performance but also strong growth and measures that indicate preparation for postsecondary and career readiness. Idaho’s focus on building local capacity to improve achievement over the course of ESEA, has illustrated that schools can make significant progress and yet are still considered failing under a restrictive definition. Safe harbor calculations do not go far enough to illustrate the kind of growth achieved by many of these schools.

An achievement-only based system provides a disincentive for focus on seemingly unachievable goals for many students and subgroups with low achievement. Conversely, the growth measures to achievement included in Idaho’s system provide a stronger focus on the possibilities for subgroups and, in turn, serve as an incentive for schools to focus on increasing subgroup performance. Idaho’s plan not only addresses achievement gaps among subgroups, but also for students who may not be members of any one of the designated groups who are low achieving. Through calculations to address growth to proficiency (see Adequate Student Growth Percentile description), students who are not making growth sufficient to get to proficiency within three years or by 10th grade, whichever comes first, are identified and schools are rated accordingly.
Idaho’s Accountability System includes four measures and plus the rate of participation in State assessments. The four measures are outlined in Table 4.

1. Reading, mathematics, and language usage achievement (proficiency) designations for all students;
2. Graduation rates for all students\(^{13}\)
3. Growth and growth toward proficiency for all students and subgroups over time: and
4. For schools with grade 12, increasing advanced opportunities and ensuring college-readiness through college entrance and placement exams.

The details that follow are organized into two main sections. First, a full description of the measures, standards, and accountability system are outlined in *Differentiated Recognition and Accountability*. Second, the *Rewards and Sanctions* section articulates the core support components to provide differentiated support systems and details the rewards, recognition, and required improvement actions.

**PART I: DIFFERENTIATED RECOGNITION AND ACCOUNTABILITY**

Idaho’s accountability metric is based on a Five-Star rating system. Idaho chose to use the star system for several reasons. First, the State believes it is important to provide easily understood information to parents and constituents about the performance of the schools and district in their community. A star rating system has been used in numerous venues with broad understanding across constituencies. Second, a system, like grading, that has become too widely associated with percentages would confine Idaho in setting its specific goals for the targets a high-achieving school and district must meet (i.e. a Five-Star school is not one that meets 90 percent of the benchmarks; the typical cut point for an A). Third, Idaho wanted a system that rewards schools and districts and creates an incentive for improvement. With a star rating system, schools deemed to be a Three-Star school can demonstrate the achievement and growth areas of exceptional performance but also focus on what it takes to reach a Four-Star and Five-Star rating without the stigma of being labeled failing overall.

Idaho has built a single system that seamlessly identifies Priority and Focus Schools as One- and Two-Star schools, respectively. The rationale and explanation of how this single identification protocol works is detailed in Sections 2D and 2E.

---

\(^{13}\) Idaho was granted a waiver due to late implementation of its longitudinal data system. The 4-year, cohort-based graduation rate will be fully implemented by 2013-14. At that time, Idaho will also be able to report subgroup graduation rates. See Attachment 13.

</tr>
</tbody>
</table>
ACHIEVEMENT

The achievement metric measures school and district performance toward the academic standards assessed on the Idaho Standards Achievement Tests (ISAT) and alternate (ISAT-Alt) in reading, language usage, and mathematics. The determination is based on the percentage of students at the proficient or advanced category. Points are given on a scale indicating higher points for a performance at proficient or advanced.

Table 5 is the point distribution for the achievement categories:

<table>
<thead>
<tr>
<th>Percent Proficient and Advanced</th>

<td></td>
<td>X * 20 (Schools with Grade 12)</td>
<td>X * 25 (All other Schools)</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The percentage of points awarded will be scaled for the total points for schools to the appropriate weighting. For example, an elementary school that receives 13/15 points will have received 86.7% of the points and will be given 22 of the 25 total points for this metric. A high school that receives the same 13/15 points will be given 17 out a total of 20 points.

GROWTH TO ACHIEVEMENT AND GROWTH TO ACHIEVEMENT SUBGROUPS

Idaho’s growth measure uses the Student Growth Percentiles (SGP; also known as the Colorado Growth Model) to create both a normative measure of growth and a criterion-based measure. This combination is an important distinction in that growth alone is an insufficient measure. Growth must become proficiency or the measure of growth provides no better measure than proficiency alone. The first measure, normative growth, provides a median growth percentile for each subject area in each school. The normative growth measure calculates a growth percentile based on comparing like students or in other words, students who have scored in the same score range on the ISAT in the previous year.

Then, considering where a student scores in the current year, he or she is given a growth percentile. The Median Student Growth Percentile (SGP) is then assigned for each subject area and to an overall median percentile for each school and district.
However, a normative measure is not sufficient without a criterion to ensure each student will eventually reach proficiency. The second measure, the criterion growth measure or Adequate Student Growth Percentile (AGP), is a further calculation for each student. The AGP calculates the required percentile of growth needed for a student to reach or maintain proficient or advanced within three years or by 10th grade, whichever comes first. These measures are calculated for students in each subject area (reading, language usage and mathematics). The Growth to Achievement and Growth to Achievement Subgroups indicators use two different scoring matrices depending on whether or not the median growth percentile of the school or subgroup meets or exceeds the adequate growth needed for that school or subgroup. Growth to Achievement and Growth to Achievement Subgroups are evaluated first based on the criterion of whether or not the growth rate is adequate for the typical or median student in the school/subgroup to reach or maintain a performance level of proficient or advanced within three years or by 10th grade, whichever comes first. Academic growth and academic growth gaps are then evaluated based on a normative comparison to other schools. The three questions below determine the targets for each school and district.

(1) What was my school or district’s median student growth percentile (SGP)?
(2) What was my school or district’s median adequate growth percentile (AGP), the growth percentile needed for the typical student in my school or district, to reach proficient or advanced within three years or by 10th grade?
(3) Did my school meet adequate growth? If yes, follow the scoring guide for “Yes, met adequate growth.” If no, follow the scoring guide for “No, did not meet adequate growth.”

Answering these questions results in a selection of a Growth to Achievement and Growth to Achievement Subgroups rating. This is due to the emphasis placed on moving students who are farther behind faster. Table 7Table 7Table 7 is the scoring guide and point allocation for each subject area for each school and district.
For example:
- What was my school’s median growth percentile in elementary math? 87
- What was my school’s median adequate growth percentile in elementary math? 83
- Did my school meet adequate growth in elementary math? Yes, my growth was adequate because my median growth percentile (SGP) in elementary math is more than my median adequate growth percentile (AGP) in math. Using the YES scoring guide, my growth in elementary math earns me FIVE points.
GROWTH TO ACHIEVEMENT

Table 8  
Growth to Achievement Distributions

<table>
<thead>
<tr>

<tr>
<td></td>
<td></td>
<td>X * 50 (All other Schools)</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The percentage of points awarded will be scaled for the total points for schools to the appropriate weighting. For example, an elementary school that receives 13/15 points will have received 86.7% of the points and will be given 43 of the total points 50 for this metric. A high school that receives the same 13/15 points will be given 26 out a total of 30 points.

GROWTH TO ACHIEVEMENT SUBGROUPS

Growth to Achievement Subgroups are calculated exactly the same as Growth to Achievement (with both the Median Student Growth Percentile and Adequate Student Growth Percentile). For this measure, those calculations are applied to the following subgroups to determine SGP and AGP noted as an “At-Risk Subgroup”:
- Free and Reduced Lunch Eligible
- Minority Students
- Students with Disabilities
- Limited English Proficient Students (LEP)

Free and Reduced Lunch (FRL) Eligible – FRL eligibility will still be used to represent the subgroup of students who live in families which are economically disadvantaged. The State is not making any change to the definition of this subgroup.

Racial and Ethnic Equity (Minority Students) – Idaho is not a very racially or ethnically diverse State; approximately 85% of the population is white. However, ISDE is strongly committed to educational equity among racial and ethnic groups. In smaller school districts, the lack of racial and ethnic diversity virtually precludes reporting by race or ethnicity group.
This has been an obstacle to equity in the past. Therefore, the State has changed two aspects of its accountability plan to particularly address the issue of masked ethnicity groups. First, the minimum N count for all metrics has been reduced from N>=34 to N>=25. Second, minority students are classified into one ethnic equity group. While combining across defined student groups is not a guarantee of attaining large enough numbers for reporting (N>=25), it increases the probability of highlighting potential disparities. Minority students are defined as all students who are coded in one of the following race categories: American Indian/Alaskan Native, Asian, Black/African American, Hawaiian/Other Pacific Islander, Hispanic or Latino, and two or more races. While these race and ethnicity categories will be combined for the accountability matrix, they will continue to be reported publicly by each individual classification.

**Students with Disabilities** – The State is not making any change to the definition of this subgroup. It is comprised of students with an Individual Education Plan (IEP) as defined by the eligibility requirements outlined in the Idaho Special Education Manual.

**Limited English Proficiency (LEP)** – Students who are defined as Limited English Proficient are determined as such through Idaho’s ELL placement test and are served through LEP programs within Idaho districts. Idaho also defines students in the U.S. school system for the first year to be LEP1 students. Currently, these students take the Idaho English Language Assessment (IELA) and, therefore, are exempted from taking the ISAT Reading and ISAT Language Usage tests; however, LEP 1 students must take the ISAT Math. The scores for LEP1 students are not included in the proficiency calculations for schools or districts. Idaho will continue this practice and the definition of LEP students will remain the same.

Due to the limited sizes of most subgroups in Idaho, Idaho will deploy the following business rules in the subgroup calculations. Idaho will calculate the Growth to Achievement Subgroups by each of the four listed subgroups (LEP, Students with Disabilities, Free and Reduced Lunch eligible students, Minority Students) into one “At-Risk Subgroup” for each school. The majority of Idaho schools do not have subgroups that meet the N>=25 threshold, so this is how Idaho is ensuring that all students who traditionally have been identified as having gaps in performance, will be accounted for by combining those four groups into one subgroup. Each student, regardless of multiple subgroup designations, shall only be counted once in the total subgroup for purposes of calculating the Growth to Achievement subcategory.

The median growth will be calculated for that total subgroup for each subject area. If a school has no subgroups, even after combining all four of the identified subgroups, the points eligible for the Growth to Achievement Subgroups shall be awarded based on the overall Growth to Achievement of the school.

This methodology uses an approach to ensure students most at risk are identified in some way. Idaho will combine the subgroups to ensure those students’ Growth to Achievement is built into the accountability matrix. Under the current system and without this grouping, it is possible and happens frequently for small subgroups of students to only be accounted for in the overall calculations and, therefore, masking their performance or gaps. In the preliminary 2010-2011 calculations, only 40 out of 630 schools met the N>=25 threshold to have subgroup reporting in all subject areas and all four subgroups.
An additional 16 schools had subgroups large enough for at least 10 of the 12 subgroup reporting categories. Conversely, with the “At-Risk” Subgroup definition, 535 out of 630 schools had a subgroup reporting in all three subject areas. This methodology includes all but 95 (15%) of Idaho schools without a subgroup reporting. For those schools without an “At-Risk” Subgroup, Idaho will employ a three-year median calculation to increase the N size and provide greater focus on subgroups. The three-year median methodology will include an additional 62 schools out of the 95 leaving only 33 schools without some kind of subgroup reporting. The three-year median will be deployed beginning with 2011-2012 data (only one year of data), adding a second year of data in 2012-2013 and the third year in 2013-2014. This is a significantly higher threshold and encompasses more attention to at-risk students than the singular group reporting and far more attention than even the Adequate Yearly Progress reporting has ever required.

To ensure focused efforts on the correct students, all ESEA subgroup performance, including all ethnicity and races, will continue to be publicly reported as is currently the practice by Idaho for groups of N>=10. Therefore, in the Idaho Report Card, schools will have public proficiency and growth reporting for all races and ethnicities, free/reduced lunch eligible, students with disabilities, and Limited English Proficient students. This reporting provides transparency and assists in highlighting the greatest needs. This reporting will also be used in building plans for One-, Two- and Three-Star Schools.

Schools will receive a report that utilizes the elements reported in Table 9 for the Star Rating system.

### Table 9
Growth to Achievement Subgroups Distribution

<table>
<thead>
<tr>

<td></td>
</tr>
</tbody>
</table>

The percentage of points awarded will be scaled for the total points for schools to the appropriate weighting. For example, a high school that receives 50/60 points will have received 83.3% of the points and will be given 17 of the 20 total points for this metric. An elementary school that receives the same 50/60 points will be given 21 out a total of 25 points.
POSTSECONDARY AND CAREER READINESS

Idaho has created a foundation for rewarding schools and districts that increase the postsecondary and career readiness of their students. In 2007, the Idaho State Board of Education (“State Board”) and Idaho Legislature approved an administrative rule (which has the force of law in Idaho) that all 11th grade students must take one of the four college entrance or placement exams (SAT, ACT, ACCUPLACER, or COMPASS) beginning with the graduating class of 2013. In 2011, Idaho signed a contract with the College Board to provide the SAT or ACCUPLACER to all 11th grade students at no cost to them.

Students who would receive a non-reportable score due to the accommodations required by their Individual Education Plan (IEP) are exempt from this rule. However, given that there are a variety of options; counselors are being trained in the best way to include all students without violating an IEP. In April 2012, Idaho administered the first round of SAT and ACCUPLACER exams. Additionally, Idaho passed legislation during the 2011 legislative session wherein the State will pay for dual credit enrollment up to 36 credits for any student who has completed all State graduation requirements prior to their senior year. Dual credit enrollment has been a focus of Idaho for several years. The State Board has set a goal for Idaho students to complete 180,000 dual credits per year. This legislation also provided the funding required to increasing the numbers by giving students greater access to dual credit opportunities. Idaho has provided a number of opportunities, but fundamentally believes that the same foundational skills in mathematics and English language arts are needed for postsecondary and career success.

Within this metric, there are three categories: 50% of the weight for graduation rate and 25% each for College Entrance and Placement Exams and Advanced Opportunities. The first, graduation rate, will be calculated using the NCES formula that is currently used by Idaho and described in the State’s approved NCLB accountability workbook. See the formula below.

\[
G = \frac{c_{10}^{\text{log}}}{g_s + d_{12} + d_{11}^{(1)}} + d_{10}^{(2)} + d_9^{(3)}
\]

Where

- \(G\) = graduation rate.
- \(c_{10}^{\text{log}}\) = four-year completion rate for state \(s\) at year \(t\).
- \(g_s\) = number of high school completers at year \(t\).
- \(d_{12}\) = number of grade 12 dropouts at year \(t\).
- \(d_{11}^{(1)}\) = number of grade 11 dropouts at year \(t-1\).
- \(d_{10}^{(2)}\) = number of grade 10 dropouts at year \(t-2\).
- \(d_9^{(3)}\) = number of grade 9 dropouts at year \(t-3\).
Idaho’s graduation rate goal is 90%. As per the agreement with the U.S. Department of Education to implement the cohort-based graduation rate in 2013-14, Idaho will switch to the cohort-based graduation rate and reset the graduation rate goal at that time. The point distribution for graduation rates is as follows:

<table>
<thead>
<tr>
<th>Graduation Rates</th>
<th>Points Eligible</th>
</tr>
</thead>
<tbody>
<tr>
<td>90% - 100%</td>
<td>10</td>
</tr>
<tr>
<td>81% - 89%</td>
<td>8</td>
</tr>
<tr>
<td>71% - 80%</td>
<td>6</td>
</tr>
<tr>
<td>61% - 70%</td>
<td>4</td>
</tr>
<tr>
<td>≤ 60%</td>
<td>2</td>
</tr>
</tbody>
</table>

The second category is College Entrance and Placement Exams. In addition to the reading and mathematics Idaho Standards Achievement Tests (ISAT) and Idaho Standards Achievement Tests-Alternate (ISAT-Alt), Idaho will also include in the metric results from the SAT, ACT, ACCUPLACER, and COMPASS. The State Board passed Idaho Administrative Code requiring all students, beginning with the graduating class of 2012-13, to take one of the four listed college entrance/placement exams by the end of their junior year (IDAPA 08.02.03.105.03).

Idaho established a benchmark score for each eligible College Entrance and Placement Exam that research has shown has the highest probability that the student will be successful in entry-level courses. For example, the College Board has established that a composite score of 1550 on the SAT indicates an increased probability of success (defined as a freshman average grade of B- or higher) in college. During the summer of 2012, the colleges and universities in Idaho convened to agree upon a set cut score for the ACCUPLACER. That score will be used for this measure. The benchmarks for the ACT and COMPASS were set at the national benchmarks determined by ACT research. All four of these benchmarks and subscore benchmarks were adopted by the State Board in June 2012. In addition, based upon the current performance of this higher, more rigorous criteria, the State Board also adopted a three-year point matrix for increased percentage of students achieving these benchmarks.

1. Benchmarks are scores that indicate a student has a strong probability of success in college courses. Remediation scores are listed for each institution and are the scores that indicate a student may need to take a remedial, non-credit bearing course.

ACT: Students who meet a Benchmark on the ACT or COMPASS have approximately a 50 percent chance of earning a B or better and approximately a 75 percent chance of earning a C or better in the corresponding college course or courses.

SAT: Students who meet a Benchmark on the SAT, which is a score of 1550 (critical reading, mathematics and writing sections combined -- 500 each section), indicates that a student has a 65 percent likelihood of achieving a B average or higher during the first year of college.

Table 11 illustrates those benchmarks. From an initial preview of the 2012 SAT data, about 25% of the students meet the benchmarks in one of two ways: 1) hitting the target for each of the subcategories (500); or 2) receiving a 1550 on the composite. In 2011, 26% of the approximately 10,500 self-selected students who took the ACT hit all four subscores.

Therefore, on the Star Rating point matrix in the first year, all 5 points possible will be awarded to schools that have 25% of their students hit the subscore or the composite benchmark for any of the four eligible tests: ACT, SAT, ACCUPLACER or COMPASS.
The points awarded scale down from there and are included in Table 11. Over the next three years, the percentage of students meeting this benchmark will increase by 10%.

* Meeting College Entrance or Placement benchmark can be met in two ways. It can be calculated as the percentage of students: 1) meeting the overall composite score, or 2) meeting all subscore benchmarks.

The third metric is Advanced Opportunities which includes both the percent of students who completed and the percent who earn a grade of C or better on an Advanced Placement (AP), International Baccalaureate (IB), dual credit, or tech prep course. Eligible students in this category are all public school juniors and seniors. The first measure considers the total number of students eligible for such courses (as defined in IDAPA 08.02.03. 106.02) to be all juniors and seniors and the percent of the eligible students who took one or more courses. The second measure is a cumulative percentage of the number of courses taken by any eligible students who completed a course. If a student takes multiple courses, the higher of the two course grades will be calculated into the matrix.

<td></td>
</tr>
</tbody>
</table>
The percentage of points awarded will be scaled for the total points for schools with a grade 12 to the appropriate weighting. For example, a high school that receives 8 points for graduation rate, 4 points for College Entrance/Placement Exams and 4 points for Advanced Opportunities with have earned weighted points of 8, 4 and 4, respectively for a total of 16/20 points. Based on the 16/20 points, the school will have received 80% of the points and will be given 24 of the 30 total points for this metric. Schools with no grade 12 will not be rated on this metric. The distribution of the points for schools without grade 12 is more heavily weighted in the first three metrics.

PARTICIPATION

All schools and districts must have at least a 95% participation rate in the State assessments for all of their students, including all subgroups, or the star rating for the school or district will be dropped to a maximum of a Three-Star rating or by one star. For example, if a school is rated a Five-Star School, but does not meet the 95% participation rate for any overall or subgroup, the school will be dropped to a Three-Star Rating.

Idaho will continue to employ the following participation rules as included in the current Accountability Workbook:

“The ninety-five percent (95%) determination is made by dividing the number of students assessed on the spring ISAT by the number of students reported on the class roster file uploaded into the Idaho System for Education Excellence (ISEE), the K-12 longitudinal data system.
1) If a school district does not meet the ninety-five percent (95%) participation target for the current year, the participation rate will be calculated by a three (3) year average of participation.
2) Students who are absent for the entire state-approved testing window because of a significant medical emergency are exempt from taking the ISAT if such circumstances prohibit them from participating. For groups of ten (10) or more students, absences for the state assessment may not exceed five percent (5%) of the current enrollment or two (2) students, whichever is greater. Groups of less than ten (10) students will not have a participation determination.”

In 2004, Idaho added to Board Rule the provision to use an average of the most recent three years to determine whether an LEA meets or exceeds the 95% requirement. IDAPA 08.02.03, Rules Governing Thoroughness, in section 03(b)1 states: “If a school district does not meet the ninety-five percent (95%) participation target for the current year, the participation rate can be calculated by the most recent two (2) year or the most recent (3) year average of participation.”

STAR RATING

All the above measures are rolled into a cumulative measure that results in a star rating of one to five. Table 15 illustrates how the star rating system is operationalized with all four of the measures.

The star rating system follows the total number of points. Districts default to the schools with Grade 12 metric unless the district does not include Grade 12.

ACCOUNTABILITY REPORT CARD

The State has historically made accountability results known at the school and district level on its website in the form of a Report Card house at [http://devapps.sde.idaho.gov/reportcard](http://devapps.sde.idaho.gov/reportcard) and [http://www.sde.idaho.gov/site/reportCard/](http://www.sde.idaho.gov/site/reportCard/). ISDE will continue this practice. The report card has included tabs that highlight Adequate Yearly Progress (AYP), general assessment results, teacher quality, and graduation rates. The Report Card will maintain this basic structure. However, the AYP tab will be replaced for each school and district with a report that displays the following data elements and information as shown in Table 18.

The Report Card for a school includes the following tabs: Assessments, Annual Measureable Objective (AMO)’s, Annual Achievement Gaps (AAG), Star Rating, School Improvement and Teacher Quality. While the State Report Card also includes: Graduation Rate and National Assessment of Education Progress (NAEP) data.
The use of this Report Card format will facilitate broader stakeholder understanding of the data metrics behind the school’s overall Star Rating. Stakeholders will be able to explore the data more deeply by visiting the other tabs that detail the underlying data, such as assessment results broken out by grade level.
PART II: REWARDS AND SANCTIONS

The primary elements of Idaho’s differentiated system of recognition, accountability, and support are:

1. Differentiated levels of rewards, sanctions, and consequences;
2. The WISE Tool Improvement Planning process;
3. Diagnostic reviews to assess local capacity, and
4. A Statewide System of Support that utilizes tiered levels of intensity and state intervention.

This section first provides a table for an overview of the rewards and sanctions at both the district and school level.

Table 19 and Table 20 explain each of the elements of the system (Recognition and Rewards, WISE Tool planning, Statewide System of Support, Family and Student Support Options, Professional Development Set Aside, and State Funding Alignment).

The ESEA website is a central location for Idaho’s ESEA Waiver resource information. The site is open to the public and houses links for: ESEA Waiver updates, quick guides, presentations, and contact resources. (http://www.sde.idaho.gov/site/eesa/).

The ESEA Prezi Presentation offers a detailed explanation of what Idaho’s new accountability plan could look like, how it would work, and what the new system could potentially offer. The presentation offers an example of how two very different schools were able to achieve the same star rating through different paths. This presentation is on the ESEA website available to everyone as a PDF document.

Two quick guides were developed to help interpret the star rating system. The first, “Quick Guide for Idaho’s Accountability Measures Star Rating System,” was designed to help administrators, educators, and district test coordinators log on to the new star rating system and understand what they were seeing. The second guide, “Interpreting the Star Rating System,” still provides an explanation of how to interpret the rating, but it leaves out the login information so that it can be given to parents.

The “Growth Percentile Flow Chart” was created to offer a visual mapping tool to explain the process of how SGP and AGP are determined. This tool offers anyone the ability to follow the process with limited knowledge and come to a basic understanding of the growth percentile calculation process.
The “How to Read Quick Guide for the Student Growth Report” was created to explain how to interpret the student growth reports that are posted on Schoolnet. These reports utilize the student’s ISAT extender scores to generate a detailed picture of the student’s abilities. The student can then be tracked from year to year, showing the teacher/parent areas of strength and areas of concern.

Idaho will create a Parent Video that will explain our Student Growth Model using media that is familiar and comfortable to the general public. Idaho will develop a video that is similar to Colorado’s Growth Model video. This video will use audio and visual content to explain to parents how SGP/AGP works and why we use it.

(www.schoolview.org/ColoradoGrowthModel2.asp)

We will create a parent brochure that is similar to the ISAT Parent Brochure. It will include a step by step overview including: what is Star Rating, how to interpret the ratings, and why do we have a rating system.

The Student Growth Model website will include a section for FAQs. Its primary design is to increase the understanding of the student growth model. There will be a link to this webpage from the ESEA website.

The Interactive chart will be included on the Student Growth website. It will provide aggregate growth data for schools and districts in an interactive format.

---

TAB 2 Page 117
school must be a Five-Star School in order to be nominated for national awards such as the National Blue Ribbon Award and Distinguished School Awards.

Both Five-Star and Four-Star schools will be publicly recognized for their achievement through media releases and through ISDE’s websites and social media outlets. Identified Distinguished schools that are Title I served are invited to share successful practices at the Title I Biennial Conference. The Statewide System of Support and Accountability departments will continue to identify Reward Schools and strengthen the plan on how to share the practices that are making them successful. As data from the Smarter Balanced Assessments come in Summer of 2015 a plan will be developed to gather data on interventions that are implemented and then determine ways for schools to share their expertise through multiple venues and opportunities.

PRIORITY AND FOCUS SCHOOLS OVERVIEW

Idaho is placing an emphasis on the accountability and support systems necessary for One- and Two-Star Schools (Priority and Focus Schools). The tables provided above for the Rewards and Sanctions Overview designation schools in the One- and Two-Star categories based on entrance and exit criteria. The Turnaround Plan and associated requirements are the expectations for One-Star Schools (i.e., Priority Schools). The Rapid Improvement Plan and associated requirements are to be implemented in Two-Star Schools (i.e., Focus Schools). Charts 1 and 2 on the following page depict the relationship between the accountability requirements and support mechanisms available to One- and Two-Star Schools.  

---

14 All schools designated as priority schools in Table 2 are priority schools for purposes of this request and must implement the interventions required of One-Star schools, regardless of their star rating. Across this request, all references to and requirements of One-Star schools apply to all schools designated as priority schools in Table 2 as well. All schools designated as focus schools in Table 2 are focus schools for purposes of this request and must implement the interventions required of Two-Star schools, regardless of their star rating. Across this request, all references to and requirements of Two-Star schools apply to all schools designated as priority schools in Table 2 as well.
Note: Educator Effectiveness is another Statewide System of Support that will be helping LEAs and Schools with their evaluation plans through the work of Principle 3. PALs is currently called NISL or Network of Innovative School Leaders. LEA expectation rectangle should include Principal as Turnaround Leader decision point.
Chart 2
Relationship of Accountability and System of Support for Two-Star Schools

Note: Educator Effectiveness is another Statewide System of Support that will be helping LEAs and Schools with their evaluation plans through the work of Principle 3. PALs is currently called NISL or Network of Innovative School Leaders.
WISE TOOL

In 2009, the national Center on Innovation and Improvement’s (CII – a center funded by the U.S. Department of Education to provide schools and districts with the information and skills they need to make wise decisions on behalf of students) asked Idaho to participate in the first cohort of the Academy of Pacesetting States. Participation in the CII Academy of Pacesetting States and the use of its tools has also served to significantly shape the evolution of the State’s model for differentiated support. The WISE Tool, an online strategic planning process, is Idaho’s version of the CII Indistar online strategic planning tool.

Idaho has divided responsibility for compliance into two areas: (a) applications for basic funding and assurances of compliance to ESEA and State requirements; and (b) planning tools for system improvement. Anything related to the former goes into our Consolidated Federal and State Grant Application (CFSGA). Anything related to the latter goes into the WISE Tool. What does not fit into the actual format of the WISE Tool, but which fits the intent of improvement planning, gets embedded within a dashboard that CII makes available when logging into the WISE Tool. CII customizes the dashboard for our State, which makes our State able to adapt quickly to new directions.

There are three levels of planning that Idaho makes available to schools and districts through the accountability and support system. The levels are differentiated to best meet the needs of the students in that school or district. The least intensive level is the AMO Continuous Improvement Plan, which Four and Five Star Schools must write SMART goals addressing areas of deficiency in their AMOs. The next intensive level is the Continuous Improvement Plan, which Three-Star Schools will utilize. The moderate level is the Rapid Improvement Plan, which Two-Star Schools will utilize. The most intensive level is the Turnaround Plan, which One-Star Schools will utilize. The planning requirements for each level are outlined in ISDE’s District and School Improvement Planning & Implementation Workbook (Full document is available online at http://www.sde.idaho.gov/site/schoolImprovement/)

AMO Continuous Improvement Plan

- **Schools** – The AMO Continuous Plan is designed for schools to address their AMO deficiency either in the WISE tool or through other documentation and then submitted to the district for approval.
- **District** – If the district only has an AMO Continuous school then they only need to send in the assurance page that the district has approved the plan.

Continuous Improvement Plan

- **Schools** -- The Continuous Improvement Plan provides the full set of indicators available through the WISE Tool. There are more than 200 indicators in the school level tool. Because schools in this level have a basic level of capacity and performance that is approaching State expectations, providing the larger set of indicators allows schools to customize and fine tune their planning without as much prescription from the State.
Districts -- The district level Continuous Improvement Plan is also designed by CII and fits within the same online planning model. It is made up of a smaller set of indicators that relate to district context or governance; leadership; and curriculum, instruction, and assessment. Districts in this planning category are allowed significant flexibility in the choice of indicators used for planning.

Rapid Improvement Plan

Schools -- The Rapid Improvement Plan is made up of a sub-set of approximately 90 indicators within the WISE Tool. These indicators are those which have been identified by CII as the highest impact indicators in order to achieve rapid improvement.

ISDE has rank-ordered these as to the most important for schools in the Focus category as defined in the ESEA Flexibility guidelines. Because these schools demonstrate the largest within school achievement gaps, the State’s theory of action is that the school system is not as healthy as it should be, and that by addressing these high-impact indicators, the school will get the most immediate return on investment.

ISDE requires schools to plan for these indicators in stages; not all of them are required in any given year. This is to promote freedom of choice (i.e., self-selection of where to start) and buy-in at the local level. It is also to facilitate true planning, rather than a compliance mindset. However, the State does review the plans and expects the plan to reflect feedback provided to the school and the district, through the Instructional Core Focus Visit, if applicable. During a Focus Visit, a group of experts from the ISDE evaluates instructional programs and the leadership and governance structure at a school and district. (See Section 2.E.iii for more detail on Focus Visits.) The State review and the use of the Focus Visit are ISDE is implementing a review of interventions of all Focus schools by December 31 of each year a school is classified as a Focus School which will ensure that the school improvement plan addresses any subgroups that are underperforming. In balancing a degree of freedom for affected schools with a degree of prescription, ISDE aims to cultivate leadership capacity so that reform is sustained in the long term.

Districts -- The district level Rapid Improvement Plan consists of the same indicators as those within the continuous improvement model. Districts in this planning category are...
allowed still allowed flexibility in the choice of indicators used for planning, but are required to address a few specific indicators deemed critical to rapid improvement.

**Turnaround Plan**

- **Schools** -- The Turnaround Plan is a hybrid of the Rapid Improvement Plan described above and the Transformation Toolkit provided by CII. The Transformation Toolkit is a companion planning process within Indistar. The indicators were designed by CII specifically as part of the changes in the School Improvement Grants (SIG) under ESEA 1003g that occurred in FY 2009. These indicators have a comprehensive focus on the strands of the turnaround principles (e.g., teachers and leaders, governance, instructional and support strategies, and learning time).

Idaho has taken a scaffolded approach to the use of the Transformation Toolkit. Idaho no longer has the Transformation Toolkit turned on for school use but has incorporated many of the indicators into the entirety of the WISE Tool indicators and Turnaround Indicators.

For schools with greater capacity, the Turnaround Plan is a combination of all the requirements for the Rapid Improvement Plan and specific portions that are extracted from the Transformation Toolkit. For contexts in which the need is more severe, the State directs the school to have a plan that solely uses the breadth and depth of the Transformation Toolkit. Districts with schools in the One-Star category are required to support the Turnaround Plan with a specific set of indicators that describe how they will oversee the transformation of the school.

For example, districts have to identify what types of governance and staffing changes will occur prior to the school completing its level of planning.

- **Districts** -- The district level Turnaround Plan is made up of the same indicators as those within the continuous improvement model. Districts in this planning category are allowed little flexibility in the choice of indicators used for planning, and are required to address a few specific indicators deemed critical to rapid improvement. Planning at this level requires local Board of Trustee action and must address specific leadership actions similar to school level Turnaround Principles.

*Summary of Planning Requirements:* The appropriate improvement plan will be matched to each school’s performance based on the Star Rating that applies to the current year as well as indications regarding how the school is progressing over time. The following table indicates how progress intersects with Star Ratings to determine which WISE Tool plan is required.

ISDE is going to pilot AdvancED’s Assist tool for Continuous Improvement Planning required schools and districts that are also up for accreditation. During this pilot the ISDE and AdvancEd are going to work together to evaluate the improvement plans and whether they meet the federal and state requirements while meeting the needs of the schools and districts to not have multiple tools to meet their needs for improving student achievement.

- All schools identified as Priority Schools in Table 2 based off of data from the 2011-2012 school year are Priority Schools for the purpose of this waiver request and must create their Turnaround Plan starting in the 2012-2013 school year regardless of their Star Rating. |

**Transition Period:** The State is holding AYP targets for use during the 2012-2013 school year while introducing the new performance framework. Schools will continue to be identified in the same way they were under NCLB until spring 2013. However, an initial Star Rating will be available to schools and districts by fall 2012. Therefore, there will be a transition period in which schools have labels under two systems. In order to provide clarity of the requirements for 2012-2013, Table 22 details how the requirements of the two systems will integrate for a one-year period. The table explains what each level of NCLB School Improvement Status is required to do depending on the star rating earned at the end of 2011-2012. The requirements balance the new and old systems to alleviate burden where possible and maintain strong accountability where performance is low.
### Table 22

### STATEWIDE SYSTEM OF SUPPORT

The Statewide System of Support (SSOS) team problem solves to find solutions to local contexts and pulls from a variety of programs and strategies to build the capacity of leaders for sustainable improvement.

The Statewide System of Support team oversees the implementation of the following services directly:

- Idaho Building Capacity Project
- Principals Academy of Leadership
- Network of Innovative School Leaders
- Superintendents Network of Support
- Response to Intervention
- Family and Community Engagement
- Instructional Core Focus Visits
- Educator Effectiveness
- WISE Tool Improvement Planning Supports – Local Peer Review

The Statewide System of Support (SSOS) is funded, as appropriate, through the state administrative set-aside for 1003(a) and 1003(g) funds. Services, such as those identified above, are provided directly to schools, when requested by the LEA as an optional part of the 1003(a) or 1003(g) funds.
1003(g) funding competitions. School Improvement Grant funds through section 1003(g) are
governed by the approved state applications on file for each fiscal year with the U.S. Department
of Education. School Improvement funds through section 1003(a) are managed according to the
waiver and amendment plan submitted to the U.S. Department of Education which is provided in
Attachment 32 (Idaho ESEA Flexibility Waiver and Amendment Request for 1003a Funds).

Idaho Building Capacity Project -- The Idaho Building Capacity (IBC) Project, began in 2008,
is a cornerstone of Idaho’s Statewide System of Support for Idaho schools and districts that are in
need of substantial improvement. Cultivation of leadership in rural and remote areas within
Idaho is a key focus. The State partners with Boise State University, Idaho State University, and
University of Idaho to serve more than 10 percent of all schools, more than 30 percent of schools
in improvement status, and more than 30 percent of the districts in the State. ISDE has delivered
this assistance to more than 60 schools in more than 40 districts each year throughout every
region of the State. Under the Idaho Accountability Plan, this project has the capacity to serve
more than just the lowest performing 15 percent, but will target and prioritize One- and Two-Star
schools.

The IBC project hires highly distinguished educators trained by the State to assist school and
district leaders. Capacity Builders (CBs) are assigned to all participating schools and districts
within the IBC network. CBs coach leaders and leadership teams through the tasks of
improvement with monthly training and assist in promoting alignment among the various parts
within the school or district system. Capacity Builders are provided with a toolkit of school
improvement resources, and, in partnership with school and district leaders, help create and
implement a customized school improvement plan.

Principals Academy of Leadership Network of Innovative School Leaders -- The Idaho
Principals Academy of Leadership Network of Innovative School Leaders (PALs NISL) project
was developed by ISDE to support the work of building level administration in improving
outcomes for all students by focusing on the quality of instruction. PALs NISL is a professional
learning community structured for building level administration to provide a learning
environment focused on increasing the effectiveness to the Instructional Core. Principals
participate in a balance of content, professional conversation, and collegial instructional rounds
related directly to instructional leadership, managing change, and improving the overall
effectiveness of the Instructional Core.

Strands of study include activities such as:
- Evaluating Leadership Frameworks and Turnaround Leadership Competencies.
- Supporting Instructional Rounds and Classroom Observations.
- Implementing personal professional growth plans based on self-evaluations.
- Networking with collegial conversation, collaboration and relationship building.

PALs NISL serves as a resource for principals in Turnaround Plan schools in order to support
and build their capacity in specific aspects of leadership. Whereas participation in IBC requires a
three-year commitment to developing the leader and leadership team capacity for improvement
in a school related to the specific context of the school’s needs, PALs NISL provides training unique to the principal regarding higher level perspectives on leadership.

**Superintendents Network of Support** -- The Idaho Superintendents Network of Support project was developed by the ISDE in partnership with Boise State University's Center for School Improvement and Policy Studies. The purpose of this project is to support the work of district leaders in improving outcomes for all students by focusing on the quality of instruction.

The network is comprised of committed superintendents who work together to develop a cohesive and dedicated leadership community focused on teaching and learning. They support each other as they bring about change and collectively brainstorm obstacles that may prevent improvement in the quality of the instruction in their districts. ISDE acts as a resource and provides the necessary research, experts, and planning to bring superintendents from across the State together to discuss self-identified issues.

Topics for discussion include:

- Improved Outcomes for Students
- Working with Stakeholders
- Transforming District Central Offices for Learning Improvements
- Creating and Supporting District and Building Level Leaders
- Analyzing Teaching and Learning through Data
- Balancing Political Forces
- Value, Ethics and Beliefs: Moral Purpose of Leadership

The Superintendents Network of Support also serves as a resource for superintendents in districts with schools that are in the One-, Two-, and Three-Star status in order to support and build their capacity in specific aspects of leadership.

**Response to Intervention/Multi-Tiered System of Support** -- Response to Intervention (RTI)/Multi-Tiered System of Support (MTSS) is a framework originally advocated by the National Association of State Directors of Special Education. RTI is a systemic approach that schools can use to better meet the needs of all learners, but it is also well suited for students with disabilities who have a Specific Learning Disability (SLD).

Idaho has intentionally increased use of RTI as a framework for continuous school improvement. RTI integrates assessment, intervention, and curriculum planning responsive to student data within a multi-level prevention system in order to maximize achievement for all students. With RTI, schools use data to identify students at risk for poor learning outcomes, monitor students’ learning progress, provide evidence-based interventions depending on a student's responsiveness, and identify students with learning or other disabilities, as defined by State law. Additionally, schools use the data gained to determine the effectiveness of intervention and core program instructional practices. Therefore, the feedback loop is able to be completed at all levels within a
school: individual students, small intervention groups, whole class performance, whole grade level performance, and whole school performance.

In addition to the historical development of RTI, in the past three years Idaho has partnered with the National Center on Response to Intervention (NCRTI) to fine-tune and scale up implementation of RTI practices as part of our Statewide System of Support.

NCRTI has helped the State to further refine its working definition of RTI in a way that can apply to all schools and districts and within all subject areas, as opposed to just with the early implementation in the area of elementary literacy. Work with NCRTI has also helped the State explicitly tie the essential components of RTI into its larger school improvement model tools and framework: the WISE Tool and the Nine Characteristics of High Performing Schools. The four essential components of RTI match up with general school improvement and aspects of the ESEA Turnaround Principles very well:

- A schoolwide, multi-tiered instructional and behavioral system for preventing student failure.
- Screening.
- Progress Monitoring.
- Data-based decision-making for instruction, movement within the multi-tiered prevention system, and identification of disabilities in accordance with State law.

The essential components of RTI and the Statewide System of Support components are tightly connected within Idaho’s system (More on Idaho’s RTI process is online at http://www.sde.idaho.gov/site/rti/.)

Family and Community Engagement -- ISDE has built a system to engage parents within the improvement process as well. The Family and Community Engagement Coordinator identifies, plans, and implements methods that would support district leaders and their schools in engaging families and the community at large in the discussion of continuous school improvement.

Idaho has partnered with the Academic Development Institute (ADI), the parent organization for the Center on Innovation and Improvement (CII), to provide the Family Engagement Tool (FET) as a resource to all Idaho schools. The FET guides school leaders through an assessment of indicators related to family engagement policies and practices.

The resulting outcome is a set of recommendations that can be embedded in the school’s improvement plan.

As described on the FET website (www.families-schools.org/FETindex.htm), the tool provides:

- A structured process for school teams working to strengthen family engagement through the school improvement plan.
- Purposeful family engagement that is linked to student learning.
Rubrics for improving district and school family engagement policies, the home-school compact, and other policies connected to family engagement.

Documentation of the school's work for the district and State.

A reservoir of family engagement resource for use by the school.

The FET is a supplemental tool that is closely aligned with the WISE Tool indicators and planning components related to engaging families and communities in academic improvement across the system. The Statewide System of Support team coordinates services among and between the various programs, such as the Idaho Building Capacity Project and others, in order to assist leaders in knowing how to engage families and their communities at large in the work of school improvement.

**Instructional Core Focus Visit** -- To determine existing capacity, the State uses the Focus Visit process, a modification of CII’s *Patterns of Practice Guide*. Focus Visits use 49 indicators from the WISE Tool and collect evidence of practices associated with substantial school improvement. Data are collected by an external team of reviewers with expertise in the characteristics of effective schools. The external team observes 100 percent of the teachers, including teachers of special populations. Observational data are collected for a sub-set of the indicators that coincide with our statewide teacher evaluation. A protocol linked to the indicators is also used to interview individuals (at least 60 percent of the certified teaching staff and all administrators) and identify recurring themes. Focus groups are conducted in each school for parents, students, non-certified staff (e.g., cooks, custodians, paraprofessionals), and teachers. All data are then analyzed and triangulated to describe the practices of the system. Resulting recommendations are made to district leadership regarding appropriate next steps, especially in the area of leadership capacity and the turnaround principles. Focus Visits recur once a year for three years to maintain a balance of positive support and pressure and to help determine further state supports and/or interventions. Since the protocol is linked to the WISE Tool, recommendations directly tie back to school and district improvement plans and processes, which enhance ongoing assistance efforts. Recommendations will also include connections to programs, technical assistance, and training opportunities that match the needs of the school or district. Table 23 illustrates some examples of opportunities the state can recommend under four key areas of the system.

**Table 23**

Sample Support, Technical Assistance, and Training Opportunities

<table>
<thead>
<tr>
<th>Teachers and Leaders</th>
</tr>
</thead>
<tbody>
<tr>
<td>- State training for teacher and administrator evaluation.</td>
</tr>
</tbody>
</table>
- Enroll in the Superintendents Network of Support.
- Enroll in the Idaho Building Capacity Project.
- Technical assistance on the alignment of pay-for-performance and other State funds with turnaround principles.

**Instructional and Support Strategies**

- Enroll school leadership in RTI training opportunities.
- Provide a Mathematical Thinking for Instruction (MTI) course to the school to align it with the Idaho Math Initiative and/or follow up visits from Regional Mathematics Specialists.
- Training on the Common Core State Standards and technical assistance with how to align curriculum, instruction, and assessment practices.
- Training in the State’s instructional management system as a support for data utilization and curricular planning.
- Technical assistance with ELL program design, training on the new WIDA standards, and technical assistance on aligning WIDA standards with RTI practices.
- Targeted training to the school or district regarding the Smarter Balanced Consortium Assessments.

**Learning Time and Support**

- Technical assistance on how to redesign the school day using extended learning and/or other opportunities (e.g., 21st Century Community Learning Centers).
- Access to and support with the Family Engagement Tool (FET).
- Technical assistance in the inclusion of families and the community in the school improvement planning and implementation process.
- School or district-wide training on Positive Behavior Intervention Supports (PBIS).

**Governance**

- Technical assistance in the design of governance policies and practices.
- Recommendations about capacity of school and/or district leadership resulting from Instructional Core Focus Visits.
- Technical assistance in the alignment of State funds (e.g., technology funds, dual credit, pay-for-performance, etc.) with turnaround principles and the policies necessary to ensure their success.

In addition to the system-wide recommendations that can be made, Focus Visits provide a diagnostic review which gives district leadership the information necessary to meet the first turnaround principle (providing strong, effective leadership). From the initial Focus Visit, the district and the SEA will have sufficient information to determine whether the principal should be replaced or has sufficient capacity. This must be reflected in the school’s Turnaround Plan.
The Focus Visit provides a depth and breadth of information about district leadership capacity as well. This assists with the State’s determinations about the potential need for changes in district leadership, and the degree to which intervention from the state is required. Due to the complexities of local control, special consideration is given to the needs of district leadership. At times, districts are in need of improvement due to governance issues that can be changed through coaching of the superintendent and cabinet level staff. For this, the State will utilize support mechanisms to provide coaching. In other contexts, district leaders (e.g., superintendents or cabinet staff) may not have the capacity or may be unresponsive to external support. In this situation, the State will work directly with the local board of trustees to make recommendations regarding staffing. Recommendations may be paired with positive or negative incentives for change, such as providing extra grant funding to solve specific concerns or withholding funding until conditions are met. In rare cases, district leaders have sufficient capacity and are responsive to supports, but they are restrained by decision making and policies of the local school board.

In severe circumstances, the State will work directly with the community to inform stakeholders about the needs of their district since only the local community can facilitate a change in trustee membership.

Under these conditions, the State reserves the right to withhold any or all federal funding for use in providing services directly to the students, families, and community of that school district in a manner that will ultimately result in turning around the performance of the district.

Such services may include, but are not limited to:
- Contracting services, such as before and after school tutoring for students
- Providing transportation of students to other school districts
- Enrolling students in a virtual charter school and redirecting funds to that school
- Reserving a percentage of funds for the State to conduct public meetings, provide public notices, and work with the public to make necessary decisions about yearly school board elections

**Educator Effectiveness** - Educator Effectiveness is a system that provides districts with standards, tools, resources and support to increase teacher and principal effectiveness in order to increase student achievement. The Educator Effectiveness Coordinator is an experienced master practitioner and administrator who performs professional work and coordinates the statewide implementation of educator effectiveness policies by integrating those policies and resources within the larger theory of action of the Statewide System of Support. The essential functions that support the Statewide System of Support are:
- Provides statewide leadership regarding the use of educator observation and evaluation practices as a component of continuous school and district improvement.
- Researches recent and effective educational strategies and interventions and aligns them with Statewide System of Support practices and procedures in order to provide effective and sustainable support to school and district leadership teams.
• Works directly with school and district leadership teams to identify areas of strength and concerns and to develop and implement school/district improvement plans that integrate educator observation and evaluation practices with resources, strategies, assessments, and evaluation procedures that will adequately address the needs of all learners.

WISE Tool Improvement Planning Supports: Local Peer Review -- ISDE supports the development of school and district leadership capacity through a State and local improvement plan review process that builds a common vision. The State expects districts to be the first line of support for the lowest performing schools and provides training to district leadership teams to fulfill this role. The State has developed a common language regarding the characteristics of effective schools that is designed into the WISE Tool and its improvement planning processes.

When school-level plans are required, the State expects districts to provide technical assistance at every point prior to submission of the plan to the State. Thus, the State provides a rubric for districts to use in the review of school plans and requires districts to submit copies of their review rubric to the State to demonstrate that assistance has been provided. The expectation is that the district will use standards of review equal to or higher than what the State has described during district training opportunities, that it will work with the school until planning and implementation meets with local standards, and that it will not submit a plan until it is of high quality. The State then conducts an independent review and returns that feedback to the district and school. Where there are differences in state and local scoring of the rubric, the State returns the plan for revisions, which creates a space for conversation around what effective practice and planning truly are and leads to determinations about the types of technical assistance the State needs to provide to the district. This design encourages a capacity building relationship between the State and district and the district and school. With this in mind, peer review of improvement plans is a critical component of the state’s accountability model. It enables collective knowledge to be built at the school, district, and State level.

Graduation Rate Considerations: Graduation rates for all students are an essential element of the Star Rating performance framework, which drives decisions about what schools and districts are required to do. For districts and schools that must submit and implement improvement plans, graduation rates will be included in the diagnostic review process and self-assessments that districts and schools do as part of the planning process. For example, the WISE Tool planning process will require leadership teams to identify areas in the performance framework (e.g., graduation rates) that are low and then develop SMART goals that are matched to the demonstrated areas of need. Those SMART goals then become a foundation for thinking about the WISE Tool plan overall for whichever version the district or school is required to submit (i.e., Continuous Improvement, Rapid Improvement, or Turnaround Plans).

Additionally, during the Focus Visit for One-Star schools, the State Support Team utilizes the data from the Star Rating performance framework as part of the analysis process. If a district or school has graduation rates that are low, the Focus Visit will take that into consideration in relation to the recommendations that are made.
Lastly, high schools that are required to submit improvement plans will have access to new indicators developed by the Center on Innovation and Improvement. If graduation rates are in need of improvement, the district and school will have specific indicators for which to include objectives and tasks in their improvement plans. For example, the following WISE Tool indicators are available to prompt improvement planning in ways that keep students on track for graduation.

- The school provides all students with academic supports (e.g., tutoring, co-curricular activities, tiered interventions) to keep them on track for graduation.
- The school provides all students extended learning opportunities (e.g., summer bridge programs, after-school and supplemental educational services, Saturday academies, enrichment programs) to keep them on track for graduation.
- The school provides all students with opportunities for content and credit recovery that are integrated into the regular school day to keep them on track for graduation.

Currently, disaggregated graduation data are unavailable. During the transition period to the new graduation calculation, Idaho will utilize disaggregated information from dropout rates in order to inform decision-making. For example, dropout rates will be used to inform Focus Visits and expectations for improvement planning. The historical disaggregated information for ethnicity dropouts can be found at the bottom of the page at this link: http://www.sde.idaho.gov/site/statistics/statistical_data.htm.

**FAMILY AND STUDENT SUPPORT OPTIONS**

Under Idaho’s ESEA Waiver, districts and schools will no longer be required to offer Supplemental Education Services (SES) and School Choice. In addition, the State will no longer require districts to set aside any percentage of the district allocation of Title I-A funds for School Choice and SES. In its place, Idaho will require its lowest performing schools and districts that are identified under the One-Star and Two-Star categories to provide a plan, within the WISE Tool, for how they will meet the needs of students who are currently not proficient and who have not made adequate growth on either the Reading, Math or Language Usage ISAT. This plan must include information on how the district or school will provide students with extended learning time and make students and parents aware of their enrollment options. These plans will be reviewed and must be approved by the ISDE to ensure that what the district and school proposes, meets the minimum qualifications and expectations for extended learning time and enrollment options. If it does not, they will be required to revise their plan to meet these expectations. One-Star and Two-Star districts and districts with One-Star and Two-Star schools must adhere to the following requirements in offering extended learning time and making students and parents aware of their enrollment options:

- The district must send notification to eligible students, as defined above, at least 14 days prior to the beginning of the first day of school that they are eligible for extended learning time and make parents and students aware of their enrollment options.
- The district must offer eligible students extended learning time and make those students and their parents aware of their enrollment options in any school within the district that is identified as a Two-Star or One-Star school.
- Enrollment options available to students and their parents include but are not limited to a district open enrollment policy as identified and governed by 33-1402 Idaho Code, Dual
Enrollment as identified and governed by 33-203 Idaho Code, Virtual Education Programs as identified in 33-1619 Idaho Code, Online Courses as identified and outlined in 33-1627 Idaho Code (Attachment 14), the Idaho Digital Learning Academy, the Idaho Education Network, and public charter schools including virtual public charter schools.

- The school leadership must evaluate the school schedule and redesign the schedule to include time for extended learning opportunities for eligible students.
- Extended learning time must occur outside of the time allotment that counts toward Average Daily Attendance. This may be before school, after school, during the summer, or within the school day if the program is designed to extend learning time beyond that which is required by the State or if it provides support during times not traditionally scheduled for classes (e.g., lunchtime).
- Extended learning time services must be provided by individuals who have a demonstrated track record of teaching students and ensuring significant academic growth (e.g., certified teachers, reading or mathematics specialists, highly qualified and experienced paraprofessionals, or external providers that have met high standards of performance).
- Extended learning time must be provided to participating eligible students for a minimum of 2 hours per week for at least 28 weeks (i.e., 56 hours of additional learning time).
- A school or district may cease extended learning time services before this time at the request of the student’s family.
- If a student demonstrates he or she is proficient in the subject area that is being covered by the extended learning time before the 56 hours are finished, a school or district may present progress monitoring and/or benchmark assessment data to the family in order to make a recommendation that the extended learning time is no longer needed. However, it is the family’s final decision regarding whether or not to continue the extended learning the entire length of time.

Transition period: The State is holding AYP targets for use during the 2012-2013 school year while introducing the new performance framework. Existing NCLB improvement timelines will continue to be in place until Spring 2013. However, in order to transition to the new accountability system, any district or school that currently is required to offer school choice may immediately take advantage of the flexibility described by the definition of enrollment options and extended learning identified in this waiver.

In other words, any school in improvement, corrective action, or restructuring may meet its obligation under the new definition for eligibility and extended learning time and enrollment options outlined in this waiver application.

Regarding students who were previous recipients of School Choice, the LEA must continue to allow such students to remain enrolled in the school of choice through the final grade level served by that school.

PROFESSIONAL DEVELOPMENT SET-ASIDE
A district will be required to set aside 10 percent of the Title I-A school allocation for any One- or Two-Star school or of the district allocation if it is a One- or Two-Star district for professional development. This set-aside will follow the same structure as that which exists for schools in school improvement, corrective action, or restructuring and for districts in improvement or corrective action. On the other hand, the district may substitute State or local funds in an amount equal to or greater than the required 10 percent of Title I-A funds, if it has reason to do so in order to promote financial flexibility. In the event that a district takes this flexibility, it will be required to submit documentation to ISDE of the amount budgeted, the amount spent, and the actual activities and expenditures out of state and local funds.

In the case of non-Title I-A funded schools in the One- and Two-Star categories, and because such schools may be contributing to the district’s inability to meet the needs of all learners, a district must demonstrate that it has devoted professional development services to that school from State or local funds or other grant funding sources (e.g., Title II-A district allocation or the district level professional development set-aside) in an amount equal to or greater than the amount that would otherwise be required if the school were operating a Title I program.

Examples of how districts or schools may use professional development set-aside funds include, but are not limited to, the following:

- Providing job-embedded coaching opportunities for teaching staff in core academic content areas.
- Providing district leadership institutes or academies focused on providing the capacity for continuous improvement and turnaround leadership.
- Training administrators who are responsible for instructional leadership and teacher evaluation on the effective use of formative teacher feedback (e.g., the Danielson Framework) and how to effectively design coaching and training opportunities in individual and group areas of weakness based on evaluation data.
- Training staff on (and monitoring the implementation of) new instructional programs and/or the use of data to inform decision making about instructional programs (e.g., Response to Intervention – RTI).
- Redesigning the collaboration structure of a school to develop better collaborative processes that will support the professional learning of staff members (e.g., professional learning communities).
- Developing staff understanding of how to effectively engage parents and the community in the improvement of academic performance across the school or district.
- Providing training and ongoing support for creating a positive school environment in important, non-academic factors, such as students’ social, emotional, and health needs (e.g., Positive Behavior Intervention Supports – PBIS).

STATE FUNDING ALIGNMENT

For schools and districts that are in the One-, Two-, or Three-Star Categories, Idaho will require annual plans to be submitted that are aligned with the improvement requirements of each context. These annual plans will be embedded into the WISE Tool as a supplemental plan on the Dashboard. ISDE will ensure alignment by including an approval process as part of the annual
review conducted of improvement plans in the WISE Tool. Specifically, the funds which must be aligned are:

- **Pay-for-Performance—Hard-to-Fill and Leadership Career Ladder Compensation Model—Leadership Awards:** In addition to salaries, teachers and leaders can earn annual bonuses for Since 2011, Idaho teachers have had at least a portion of their pay tied to performance. Now, Idaho is currently working to transition to a Career Ladder Compensation Model. The first component of the Career Ladder is Leadership Awards. The Idaho Legislature approved Leadership Awards for the FY2015 Public Schools Budget, or 2014-2015 school year. With this funding, local school districts and public charter schools can award an individual teacher anywhere from $850 to $5,838.50 in bonuses during a given year, taking on leadership duties or teaching in hard-to-fill positions. These funds are formula allocated to all districts. The district will need to ensure that, at minimum, funds used in One-, Two- or Three Star schools are aligned with the larger plan (e.g., the bonuses should be used to support the Turnaround Principles where appropriate).

- **Pay-for-Performance—Student Achievement:** Schools eligible for State distribution of Pay-for-Performance Student Achievement funds must have a plan on file with ISDE for how the entire school’s eligibility for funds will be further broken down into eligible groups of employees within the school. These funds are based on either how well schools demonstrate (a) academic growth or (b) overall student achievement.

  The formula places all schools into quartiles, with higher shares of the State allocation determined by increasingly higher performance in growth, proficiency or both. It is possible that persistently low-achieving schools will receive a share of the allocation.

- **Technology funds:** The Idaho Legislature approved a new, ongoing funding allocation for technology. In 2011 and 2012, As such, districts are were required to submit plans yearly regarding how their technology funds will be used and tied to student achievement outcomes. Now, districts and public charter schools continued to receive this ongoing funding. Districts with One-Star or Two-Star Schools are required to detail how the use of these funds specifically align with the systemic improvement necessary in each school (e.g., for a school that must implement the Turnaround Principles, the district must describe how technology will improve curriculum, instruction, assessment, data utilization, etc.

- **Dual Credit:** Idaho Since 2011, Idaho has expanded the advanced opportunities it provides to high school students across the state. In 2011, the state created the Dual Credit for Early Completers program that provides funding for secondary schools in order to pay for the costs of up to 36 credits of dual enrollment for each eligible student. Now, in addition to Dual Credit for Early Completers, the state has implemented a new program where any high school junior or senior attending public school in Idaho will have access to up to $200 their junior year or $400 their senior year to cover up to 75% of the costs of taking college-level courses or professional-technical certification exams while still in high school. Districts with schools in the One-, Two- or
Three-Star status are required to detail how they will ensure that such opportunities are provided for all eligible students, especially those at risk. The district will also be required to explain how they are using dual credit funding to improve the design of the entire school program.

- **Teacher and Administrator Evaluations:** Teacher and administrator performance evaluations in Idaho already require a strong tie to student performance metrics (at least 50%). The State will require One-, Two-, and Three-Star schools to demonstrate how the application of teacher and administrator evaluations enhances their improvement plans. Further, the WISE tool also includes criteria in which these identified schools must describe how they will strategically place teachers in the areas of highest need.

Through its annual review, ISDE will only approve district and school plans that ensure high quality alignment of these funding sources (required only of One- and Two-Star Schools i.e., Focus and Priority Schools. Plans deemed to be lacking alignment will not be approved, and districts will be expected to revise them at the district and/or school level as necessary. If a district is unable to create alignment, ISDE will provide technical assistance in how to utilize these funding sources.

**ENSURING SUFFICIENCY OF FUNDS IN PRIORITY AND FOCUS SCHOOLS (TITLE I SET-ASIDE)**

To ensure that Priority and Focus schools have sufficient funds to implement the interventions required of them, Idaho has revised the Title I set-aside requirements sought in its approved ESEA Flexibility Plan (approved September 28, 2012) which required only a 10% professional development set-aside for Priority and Focus schools. The set-aside was from the school level allocation, rather than an additional amount of funding.

This amends the plan originally approved on September 28, 2012, and revises the Title I set-aside amounts and expectations which Idaho requires for districts with Priority and Focus schools to better ensure there are sufficient funds for implementing required interventions. The 10% professional development set-aside requirements would remain in place as written in the waiver as originally approved. An additional, district-level Title I set-aside will be required for Support of Substantial Interventions (SSI). The rules for the SSI set-aside are the following:

1) A district that has one or more Priority and Focus schools identified by the State must set-aside an amount equal to the minimum school-level Title I-A allocation required in the Consolidated Federal and State Grant Application (CFSGA) or an amount equal to 10 percent of the district Title I-A budget, whichever is less, in order to support the substantial interventions required in those schools.

2) The additional allocation to support the substantial interventions required in Priority and Focus schools must be used in accordance with Title I regulations (i.e., targeted use in Targeted Assistance schools and planned schoolwide use in Schoolwide Programs).
3) The additional allocation to support the substantial interventions in Priority and Focus schools must be funded prior to allocation decisions about other Title I eligible schools in the district.

4) The additional allocation to support the substantial interventions must be set-aside for each year that a school is identified as a Priority or Focus school. The district may cease the set-aside requirement immediately after the school exits from Priority or Focus status.

These rules are designed to ensure that extra funding is provided to Priority and Focus schools in a way that infuses extra support but which also creates sustainable, realistic conditions. The average Title I-A school-level allocation in Idaho is approximately $100,000. The following scenarios are examples of how the SSI set-aside would apply.

Table 24
Example Scenarios for the SSI Set-Aside

<table>

</tr>
</tbody>
</table>

The effect of these set-aside rules would be to infuse significantly greater resources in each Priority and Focus school for the three year period, up to double the amount of Title I funds that they would have otherwise received in that same timeframe.

Schoolwide Title I programs create a more robust regulatory context for implementing the requirements of Priority and Focus schools. In the event a Priority or Focus school is currently operating a Targeted Assistance program, the State will create a process to support such a school’s transition to a Schoolwide Program, if the LEA so desires. The State already utilizes the WISE Tool for both improvement planning and Schoolwide Program planning. Therefore, a
transition process for Priority and Focus schools can be accomplished that both (a) meets the legal requirements of ESEA Section 1114 and its accompanying federal regulations and (b) builds upon the schoolwide reform efforts required of Priority and Focus schools so as to reduce burden on schools and LEAs.

OTHER STATE FACTORS THAT SUPPORT IMPROVEMENT

In addition to the work and experiences described above, Idaho has developed other tools that are intended to support the academic achievement of specific student groups.

1. $5,000,000 is allocated annually to provide remediation services for students who have not scored proficient on the ESEA accountability assessment. These funds are provided as an incentive to support school districts in their improvement efforts in that the distribution is conditioned on a match of at least one dollar in local expenditures for every two dollars in distributed State funding.

2. Another remediation program has been institutionalized providing early intervention for students in grades K-3 who are highly at risk of failing to master intended reading skills. The State has historically allocated approximately $2 million for this purpose to provide supplemental reading instruction.

3. As part of the Students Come First legislation, Idaho has placed new emphasis on paying hiring bonuses for hard to fill positions; especially those that involving work with low-achieving, special education, and limited English proficient students.

4. The Students Come First legislation also provided a mechanism to incentivize student growth in order to encourage improvement among schools with student groups that may struggle in school. School staff members are eligible for pay-for-performance bonuses when their school has performed according to set benchmarks for students’ academic growth.

5. Additionally, ISDE has partnered with the University of Idaho’s Center on Disabilities and Human Development to create the Idaho Assistive Technology Project (IATP). This project provides training and support Statewide concerning Universal Design for Learning (UDL) as it relates to lesson design and assistive technologies.

In addition to incorporating differentiated support mechanisms into the Statewide System of Support, the above are intended to document some of the more significant initiatives and projects Idaho has put into place to address the unique needs of students who are low-achieving or otherwise at risk of educational failure.

2.A.i.b. Does the SEA differentiated recognition, accountability, and support system create incentives and provide support incentives and provide support to close achievement gaps for all subgroups of students?
Idaho’s educational system provides for incentives aimed at encouraging and rewarding schools closing achievement gaps that may exist among and between groups of students. The system includes a mix of incentives intended to stimulate substantial and continuous improvement.

Idaho’s Statewide System of Support has been designed to help schools and teachers close achievement gaps that may exist between various student groups. As described in Section 2.A.i.a., the system provides for multiple support mechanisms.

The data on student performance and growth that drive identification for focus, priority, and rewards schools, include definitive information concerning the achievement and growth of all students including those with disabilities, English language learners, and those who are low-achieving.

In Idaho, schools in the Four- or Five-Star category are afforded more flexibility in relation to planning, use of discretionary funds, and participation in support activities. This serves as a positive incentive for schools to continue their improvement efforts. For example, a school that reaches the Four-Star category has demonstrated effective school performance and can choose the type of planning process for continued improvement. The school may choose to use a planning tool outside of the State system. Further, there is no requirement for notifying parents of enrollment options or extended learning time, but the school can provide same if they best serve given student needs.

Lastly, Idaho has chosen to lower the minimum number (N) for making accountability determinations regarding the achievement status of various student groups. Previously, $N \geq 34$ was the threshold. The public reporting threshold has been $N \geq 10$. ISDE will now make accountability determinations for all student, all ESEA subgroups and the At-Risk Subgroup meeting $N \geq 25$. This lowering of the threshold will serve to highlight achievement gaps that may have previously been masked by low N counts.

2.A.i.c. Does the SEA’s differentiated recognition, accountability, and support system include interventions specifically focused on improving the performance of English Learners and students with disabilities?

The Response to Intervention (RTI) framework is an integral part of Idaho’s efforts to meet the educational needs of all learners, including English language learners and students with disabilities. Idaho’s Statewide System of Support embeds the RTI conceptual framework into virtually every program and makes explicit connections to school improvement planning. For example, the clusters and indicators within the WISE Tool are aligned to the RTI framework so that schools and districts can plan for RTI while simultaneously planning for school improvement.

Using the RTI framework as part of our Statewide System of Support, ISDE works to ensure solid instruction in the core academic program for all students (Tier I), intervention and prevention support for those who need it (Tier II), and intensive support for those who are most in need (Tier III).
The State differentiates its support accordingly to assist schools and districts to meet the needs of English Language Learners (ELLs). As with students with disabilities, the State’s support programs provide training and coaching for how to meet the needs of all learners, starting with core instruction (Tier I). However, many ELLs need two types of Tier II intervention—one that is academically focused and one that is linguistically focused. ISDE has provided tools, resources, and guidance in these areas.

Similar to what has already been described above, the State’s support programs broker resources to ensure that schools and districts are matched with the supports they need. For example, if a Capacity Builder is working with local leadership and identifies a need to improve outcomes for ELLs, the Capacity Builder would connect the school or district to training opportunities and external expertise available from ISDE or institutions of higher education.

Additionally, if a school is struggling with meeting the needs of ELLs, ISDE will identify this need as it evaluates the local improvement plan. The State’s Title III Coordinator participates in review of school improvement plans in order to provide feedback for the needs of the schools and districts.

These design elements in the Statewide System of Support ensure that the needs of all ELLs are addressed, but especially in schools in the One- and Two-Star categories in which the State is working most directly.

For students with disabilities (SWDs), ISDE provides training and coaching regarding how to best support these students. The ISDE makes sure schools and districts have the support and expertise they need to best meet the needs of their students. For example, if a school in the One-Star category needs support with SWDs, the Idaho Building Capacity Project targets Capacity Builders whose area of expertise is in Special Education for that school.

Or, for example, if training in such things as secondary transitions, identification of specific learning disabilities, or supporting the instructional needs of students with significant cognitive impairments is needed, schools are connected with experts at ISDE or institutions of higher education who can provide that training.

2.A.i.d. Did the SEA provide a plan that ensures that the system will be implemented in LEAs and schools no later than the 2012-2013 school year?

Idaho is well positioned to implement this system by 2012-13 given the Students Come First legislation enacted in 2011 and as evidenced by the documentation presented elsewhere in this section. This legislation as well as initiatives such as adopting a growth model comprises the foundation of Idaho’s Next-Generation Accountability System. The Students Come First legislation has been repealed. There are only a few elements needing to be changed or accommodated within Idaho State Board of Education Rules to fully implement his system. Those requirements are identified throughout this document.

The public reporting schema (district, school, and student growth reports) is close to be finalized as are the growth components detailed in Section 2.A.a. are required for the pay for performance
laws. That reporting structure will be completely in place, as required by state law, in Summer 2012.

ISDE has determined the data analysis procedures and performance framework necessary to identify and implement the rewards and sanctions for schools and districts beginning in 2012-13. While the procedures for the identification of schools that are persistently low-performing will be new for the 2012-13 school year, the interventions and Statewide System of Support activities that will take place are built on existing programs and processes that have previously been successful in Idaho, such as the work done with the School Improvement Grant (SIG). These programs and processes will require only minor modifications, in most cases, and all of them will be ready for implementation in 2012-13.

2.A.ii Select the option that pertains to the SEA and provide the corresponding information, if any.

<table>
<thead>
<tr>
<th>Option A</th>
<th>Option B</th>
</tr>
</thead>
<tbody>
<tr>
<td>The SEA only includes student achievement on reading/language arts and mathematics assessments in its differentiated recognition, accountability, and support system and to identify reward, priority, and focus schools.</td>
<td>If the SEA includes student achievement on assessments in addition to reading/language arts and mathematics in its differentiated recognition, accountability, and support system and to identify reward, priority, and focus schools, it must:</td>
</tr>
<tr>
<td></td>
<td>a. provide the percentage of students in the “all students” group that performed at the proficient level on the State’s most recent administration of each assessment for all grades assessed; and</td>
</tr>
<tr>
<td></td>
<td>b. include an explanation of how the included assessments will be weighted in a manner that will result in holding schools accountable for ensuring all students achieve college- and career-ready standards.</td>
</tr>
</tbody>
</table>
### 2.B SET AMBITIOUS BUT ACHIEVABLE ANNUAL MEASURABLE OBJECTIVES

Select the method the SEA will use to set new ambitious but achievable annual measurable objectives (AMOs) in at least reading/language arts and mathematics for the State and all LEAs, schools, and subgroups that provide meaningful goals and are used to guide support and improvement efforts. If the SEA sets AMOs that differ by LEA, school, or subgroup, the AMOs for LEAs, schools, or subgroups that are further behind must require greater rates of annual progress.

<table>
<thead>
<tr>
<th>Option A</th>
<th>Option B</th>
<th>Option C</th>
</tr>
</thead>
<tbody>
<tr>
<td>Set AMOs in annual equal increments toward a goal of reducing by half the percentage of students in the “all students” group and in each subgroup who are not proficient within six years. The SEA must use current proficiency rates based on assessments administered in the 2010–2011 school year as the starting point for setting its AMOs.</td>
<td>Set AMOs that increase in annual equal increments and result in 100 percent of students achieving proficiency no later than the end of the 2019–2020 school year. The SEA must use the average statewide proficiency based on assessments administered in the 2010–2011 school year as the starting point for setting its AMOs.</td>
<td>Use another method that is educationally sound and results in ambitious but achievable AMOs for all LEAs, schools, and subgroups.</td>
</tr>
<tr>
<td>i. Provide the new AMOs and an explanation of the method used to set these AMOs.</td>
<td>i. Provide the new AMOs and an explanation of the method used to set these AMOs.</td>
<td>i. Provide the new AMOs and an explanation of the method used to set these AMOs.</td>
</tr>
<tr>
<td></td>
<td>i. Provide an educationally sound rationale for the pattern of academic progress reflected in the new AMOs in the text box below.</td>
<td>ii. Provide a link to the State’s report card or attach a copy of the average statewide proficiency based on assessments administered in the 2010–2011 school year in reading/language arts and mathematics for the “all students” group and all subgroups. (Attachment 8)</td>
</tr>
</tbody>
</table>
Option CA:

2.B. Option CA: Did the SEA describe another method that is educationally sound and results in ambitious but achievable AMOs for all LEAs, schools, and subgroups? set AMOs in annual equal increments toward a goal of reducing by half the percentage of students in the “all students” group and in each subgroup who are not proficient within six years?

i. Did the SEA provide the new AMOs and the method used to set these AMOs?

Annual Measurable Objectives:
The AMOs in general are imbedded in Idaho’s system with are imbedded in each of the metrics in the matrix as well as for the overall performance of schools and districts as part of the Star Rating system. The Star Rating system is a compensatory framework that serves as the primary process for making school improvement determinations. However, Idaho has established specific Annual Measurable Objectives (AMOs) to complement the Star Rating System and ensure that schools are progressing. Idaho wanted to clearly distinguish high-performing and reward schools and, therefore, intentionally set the bar for the highest eligible points at a high threshold for all metrics.

Going forward, Idaho may request to adjust these targets when three years of data has been captured and when the new Common Core State Standards assessments are administered. Given that the Idaho statewide longitudinal data system has been in existence just 2 years, a longitudinal comparison is not possible at this time. Also, some metrics, such as college entrance/placement exams were given for the first time in 2012 and so longitudinal data is not available. Therefore, all metrics that were available were set based on a 2010-11 data and current Idaho State Board of Education strategic goals. It is clear that longitudinal performance provides a more complete picture and will allow the State to set targets that more accurately reflect higher standards.

In addition to benchmarks embedded within the achievement targets, Idaho will also set an Achievement Annual Measurable Objective (AMO) using a combination of Option A and C. Table 25 AMO Targets Table 25 AMO Targets Table 25 AMO Targets Table 25 AMO Targets illustrates the progression Idaho has put into place for the AMOs that are specific to required ESEA subgroups.

</table>

To establish AMOs, Idaho calculated the percentage of students that were proficient or advanced in each subject area and sub-population in Spring 2011 and as the starting point, since these AMOs were established as an amendment to Idaho’s originally approved waiver plan for 2011-12 was set at the current AMOs for Adequate Yearly Progress as allowed under a waiver granted by the U.S. Department of Education for each subject area (reading, mathematics and language usage). The AMOs provided in Table 25 AMO Targets are then set to increase toward the goal of reducing by half the percentage of students who are not proficient within six years, of students in the “all students” group and in each subgroup who are not proficient within six years. The charts provide actual performance in 20121, the final goal that would be necessary to reduce the achievement gap by half within six years, and the
annual rate necessary to close the gap and reach the long-term goal. The annual rate is then applied to annual targets for each subject and sub-population.

**Special Rule – Safe Harbor:**
A school that is performing at some distance from the AMO target presumably is at a disadvantage in terms of the scope and magnitude of the achievement gap it must close. Theoretically, it may be making strong gains in achievement, while still not attaining the set AMOs. Therefore, Idaho will employ a “Safe Harbor” rule in the calculation of AMOs. Safe Harbor permits a school to be considered to have met the AMO for any given year if it (a) performs at or above the AMO target or (b) if it decreases the number of students performing below the proficient level by 10 percentage points in the current year compared to the previous year. The latter (option b) is Safe Harbor and is indicated by an annual performance increase of 10 percent more of the students in any given subgroup performing at the proficient or advanced level when compared to the previous school year. For example, if a the target is 94%, and if a school is performing at 70% proficient/advanced in the previous year, and if the school attains 81% proficient/advanced in the current year, then the Safe Harbor rule will show that the AMO was met through Safe Harbor. The AMO will not count against the school.

**Other Considerations for AMOs:**
Idaho has set these targets for only three years with the expectation of resetting anticipates there will be a need to revise and reset the AMO targets when the new Common Core State Standards assessment (Smarter Balanced Assessment) goes into effect (2014-2015). The AMOs will be reported on the school and district report card for all required at the overall level and for each ESEA subgroups (e.g., all students, including all races and all ethnicity groups, students with limited English proficiency, and students who are economically disadvantaged, eligible for Free or Reduced Lunch and students with disabilities and the At-Risk Subgroup.

Schools with an overall rating of Three-Star or lower will be required to build into their Continuous Improvement Plan (Three Star), Rapid Improvement Plan (Two Star) or Turnaround Plan plans, according to the Star Rating business rules. Schools in these categories will be expected to develop strategies within their improvement plans that specifically address how to meet the academic needs for reaching the AMOs for any subgroups or overall group that does not reach the target for which the AMO was missed. Further, the WISE tool indicators will be structured to focus on the AMOs in reading, language usage and mathematics. Any school with a Four or Five-Star rating that missed one or more AMOs in any given year will have to develop a locally overseen plan for how to improve performance in the missed area(s). If AMOs are missed for two consecutive years in the same subject area and by the same subgroup, the school is required to submit an AMO Continuous Improvement Plan to their state district that addresses how it will meet the needs of student subgroups for which the AMOs were missed. The district then is to submit an assurance to the state that the school has sufficiently addressed the AMO deficiency. In addition, any Five-Star School that fails to meet an AMO in any subject at the overall or subgroup level will not be eligible for the classification of a Highest Performing School.
As such, the combination of AMOs for all required ESEA subgroups with the Star Rating System requirements new rating system will actually hold more schools accountable than the existing previous ESEA framework. Under the current previous ESEA framework, 202 schools are were identified for improvement, corrective action, or restructuring. More than 400 schools were are not identified for any improvement activities. In other words, less than 35% of the schools in the State were are identified for improvement. Using the Star Rating performance framework, all schools will be held accountable. According to the 2011-2012 Star Ratings, 40% of all the State’s schools were identified for the requirements associated with the Continuous Improvement Plan (other schools – 25% of all schools), Rapid Improvement Plan (focus schools – 9% of all schools, 11% of Title I schools), or Turnaround Plan (priority schools – 5% of all schools, 5% of Title I schools). The Star Rating performance framework does not limit Idaho’s ability to hold LEAs accountable; it increases it.

To further support progress toward attainment of AMOs, any Five- and Four-Star schools that miss the AMO for their At-Risk Subgroup or have an Annual Achievement Gap (AAG) between their At-Risk Subgroup and the rest of their student population greater than that obtained by the rest of Idaho’s Two-Star Schools over two consecutive years, must submit a Continuous Improvement Plan that addresses the At-Risk Subgroup gap and the actions the school will take to improve this area of performance.

For a school to exit these requirements, the school must implement the Continuous Improvement Plan for a minimum of one year, maintain a Three-, Four- or Five-Star rating and have either meet the AMO for their At-Risk Subgroup required ESEA subgroups or have closed the Annual Achievement Gap (AAG) achievement gap between their At-Risk Subgroup and the rest of their student population to be less than Idaho’s Two-Star Schools.

Idaho expects all schools, including those that are Four-Star and Five-Star schools that do not miss AMOs for the At-Risk Subgroup, to ensure a plan is put into place to address any ESEA subgroup (N>=25) that misses the AMO target for two consecutive years. This plan could include will conform to the requirements of the a Continuous Improvement Plan that is required for Three-Star Schools or it could include a specialized plan created by the district to address the specific needs of the subgroup to improve performance. This plan will be monitored and administered by the district, and then submitted to the state.

**Other Measurable Objectives:**
Idaho’s Star Rating System has objectives that are implicit to its design and which are in addition to the required ESEA AMOs. They provide points to schools based on achievement on state tests, growth for all students on state tests, growth for at-risk students on state tests, and other post-secondary readiness metrics. Going forward, Idaho may request to adjust specific AMO targets provided above as well as the implicit objectives within the Star Rating System when three years of data has been captured and when the new Common Core State Standards assessments are administered. Given that the Idaho statewide longitudinal data system has been in existence just 2 years, a longitudinal comparison is not possible at this time. Also, some metrics, such as college entrance/placement exams were given for the first time in 2012 and so longitudinal data is not available. Therefore, all metrics that were available were set based on a 2010-11 data and current Idaho State Board of Education strategic goals. It is clear that
longitudinal performance provides a more complete picture and will allow the State to set targets that more accurately reflect higher standards. The following explains how the implicit objectives within the Star Rating System function.

**Achievement:** ISDE set the bar for excellence at a high threshold. In 2010-2011, a total of 511 schools had at least 84% of their students as proficient or advanced in reading, 139 in language usage and 290 in mathematics. A total of 6 schools received all points possible for proficiency distribution as illustrated in Table 26.

**Growth to Achievement:** The Idaho Growth Model was newly introduced to the State during 2011. Calculations for the normative growth elements have been made and Student Growth
Reports have been distributed to schools and districts. The Median Student Growth Percentiles (SGP) is a normative measure; therefore, a normative distribution is the outcome. In other words, the total median growth of schools is relative to the growth by other schools with similarly performing students in the State. However, the Adequate Student Growth Percentile (AGP) is a criterion referenced growth target that is relative to the proficiency target and the performance of each student. The necessary growth for each student is then combined for a median AGP.

The Growth to Achievement metric sets goals high for all schools. Schools with a high percentage of students who are already proficiency are still expected to make growth. The targets for schools not making the median growth percentile are higher than for those schools that are already have high achievement. Yet, the Growth to Achievement metric still allows the State to place a strong emphasis on growth for all students within the accountability system. Idaho has adapted and is using the Student Growth Percentiles and growth formula first adopted and implemented by Colorado, and strongly researched by both, the SGP author, Damian Betebenner, and Colorado’s team. Idaho’s adaptation includes use of the foundations of Colorado’s model and Adequate Student Growth Percentile (AGP) formulas for this metric as well as for Growth to Achievement Gaps metric.

Schools will be evaluated on whether the Median Student Growth Percentile (SGP) was greater than the Median Adequate Growth Percentile (AGP, considered adequate growth to get to the target within three years or by 10th grade). Schools with a SGP greater than the calculated AGP will follow one trajectory while those schools that have shown a lesser AGP than the SGP will have a steeper trajectory.

This is due to the emphasis placed on moving students who are farther behind faster. The distribution of the points for school is shown in Table 27.

| Table 27 Adequate Growth Flowchart |
Illustrated in Table 28, Table 28 is the 2010-11 Growth to Achievement point distribution among Idaho schools. Clearly, this metric will present a challenge for most Idaho schools to get to the highest point distributions with only 5% of schools that met AGP also having SGP growth high enough to earn 5 points in each subject.

Growth to Achievement Gaps: Growth to Achievement Gaps calculations are made identically to the Growth to Achievement metric except that it is also done for each subgroup performance (Free and Reduced Lunch eligible, minority students, students with disabilities, and Limited English Proficient students). Idaho uses an approach to ensure students most at risk are identified in some way. Idaho will combine the subgroups to ensure those students’ growth to achievement is built into the accountability matrix. Under the current system and without this grouping, it is possible and happens frequently for small subgroups of students to only be accounted for in the overall calculations and, therefore, masking their performance or gaps.

Shown in Table 29 is the distribution of Growth to Achievement Gaps when using 2010-11 data. This table also shows the increase in schools and districts with an At-Risk Subgroup vs. when only ESEA subgroups are used.

</table>
This metric again clearly illustrates that fewer schools and districts are at the highest point ranges showing the targets are ambitious.

**Postsecondary and Career Readiness:** The metrics in this part of the accountability matrix are embedded in the Idaho State Board of Education’s (“State Board”) strategic goals.

- Graduation Rate: The State Board set the high school graduation rate target at 90%. Therefore, the metric awards schools and districts that achieve at least 90% graduation rate with the highest amount of points. In 2010-11, the graduation rate distribution for Idaho schools and districts included 138 schools and 97 districts achieving a 90% graduation rate or better.

Conversely, the lowest point award is for a graduation rate of 60% or lower. This threshold was selected to mirror and aspect of the priority school definition in the waiver. *Table 30* details the distribution of graduation rates among Idaho schools and districts.

• College Entrance/Placement Examinations: Idaho will implement a requirement for all 11th graders to take the SAT, ACT, ACCUPLACER, or COMPASS tests in Spring 2012. At present, the only data the State has is for the self-selected population of students who have previously taken one of these tests. Presented in Table 31 are data from the past two years of performance on these exams. Starting in 2012, the State will have data for all students on one of these assessments.

</tbody>
</table>

Prior to Spring 2012, students were not required to take any of these exams. In Spring 2012, the requirement will go into effect and the State signed a contract to offer the SAT or ACCUPLACER free to all students. COMPASS composite scores were not collected by the State or available from ACT for 2009-10 or 2010-11.

Idaho established a benchmark score having the highest probability that a student will not need remediation in entry-level college mathematics and English courses and the metric will give points for the percentage of students that reach these set benchmarks. For example, the College Board has established that a composite score of 1550 on the SAT indicates an increased probability of success in college.

This benchmark will be evaluated by ISDE to determine the score where students are best prepared for college and professional technical courses at Idaho institutions of higher education. During spring 2012, the Idaho colleges and universities convened to agree upon a
set cut-score for the ACCUPLACER. That score is used for this measure. The benchmarks for the ACT and COMPASS were set based on ACT’s research on scores that demonstrate the best possibility for success in college level courses.

Given that these exams were administered to all Idaho public school students for the first time in Spring 2012, it is expected the overall performance will be lower. Also given the need to set AMOs at ambitious but achievable levels, Idaho has chosen to set the points eligible within this metric at a lower target initially. After the first two years of administration of these exams, Idaho will reevaluate the distribution of the percentage of students meeting those benchmarks and coordinate with Idaho’s colleges and universities to determine if the benchmarks need to be reconsidered.

- Advanced Opportunities is also a State Board strategic goal. As noted earlier, Idaho has not only set targets for providing more students more advanced study opportunities, but has also formalized those goals in the form of funding for up to 36 credits of dual credit enrollment for students who have met all graduation requirements before their senior year.

- Under this AMO, Idaho set two ambitious goals. First, the points available are based on the percentage of the total eligible population (defined as all juniors and seniors) taking at least one advanced study opportunity defined as an Advanced Placement (AP), International Baccalaureate (IB), dual credit, or tech prep course. The State Board’s strategic plan goals for each of these opportunities are varied. Illustrated in Table 32 are the Board’s goals, the current percentage of students engaging in advanced opportunities, and the percentage of the students taking classes in which they received a grade of C or better for the course.

</tbody>
</table>
2010-11 AP data are the percent of students taking an AP exam, not enrolled in an AP course.

Given the varied data on this metric and the low numbers of participants currently, Idaho believes that it has set an ambitious but attainable goal. Further, Idaho is committed to not only providing opportunities but to ensure that those opportunities transcend into positive outcomes for students; thus the inclusion of a passing grade. These goals will be reconsidered after two years of data are available and after evaluation of the success of offering these opportunities throughout the State.

</table>

Participation Rate: Idaho subscribes to the importance of including all students so much so that this metric was determined to override all other performance and growth by a school or district if a 95% goal is not met at all ESEA subgroups and all student levels.
Schools and districts must test 95% of all students and all subgroups in reading, mathematics and language usage. This goal was set as a continuation the current law set in Idaho Administrative Code (IDAPA 08.02.03.112.04.b).

**ii. Did the SEA provide an educationally sound rationale for the pattern of academic progress reflected in the new AMOs?**

The rationale for each target set was outlined in Section 2.B.i above. The current performance of schools as well as the increasing goals set for the State, were balanced to provide ambitious yet attainable goals throughout all the metrics. The final Star Designation for each school and district is the cumulative effect of the all the metrics and thereby validly results in the schools designated needing the greatest intervention by the State and impacted school district. As noted throughout the related description, the AMOs will be reexamined when additional data become available and goals will be reset to continue the progression of performance standards expected for the high performance for all schools and districts.

**iii. If the SEA set AMOs that differ by LEA, school, or subgroup, do the AMOs require LEAs, schools, and subgroups that are further behind to make greater rates of progress?**

Idaho does not require different AMOs for districts, schools, or subgroups. However, the Adequate Student Growth Percentile within the Growth to Achievement and Growth to Achievement Gaps metrics requires more growth by those students that are further behind in order to have made adequate growth.

**iv. Did the SEA attach a copy of the average statewide proficiency based on assessments administered in the 2010-2011 school year in reading/language arts and mathematics for the “all students” group and all subgroups? (Attachment 8)**

However, at present Idaho uses an indexing formula to calculate proficiency for Adequate Yearly Progress (AYP). Under this formula, basic students are counted as 0.5 proficient. Therefore, the percentage of proficient and advanced students is more accurately represented in Attachment 8. **Idaho no longer uses AYP so there are no indexing of students currently.**

---

### 2.C REWARD SCHOOLS

**2.C.i Describe the SEA’s methodology for identifying highest-performing and high-progress schools as reward schools.**
Currently in Idaho, two awards are given annually by the Idaho State Board of Education for the highest-performing and highest-progress schools. Both awards are based on a school’s performance on the ISAT and the ISAT-Alt. This reward system will change under Idaho’s application for ESEA Flexibility. Idaho will replace its current reward system with one based on the Star Rating System in which schools will be recognized based on two categories of recognitions: highest-performing and high-progress. All schools, including Title I schools, may attain recognition in either category. A school must be recognized in one of these categories in order to be nominated for national awards, such as the National Blue Ribbon Award or Distinguished School Awards. For 2011-2012, the reward schools will be determined based on the ESEA Flexibility definition for Highest-Performing and High-Progress schools and must be rated a Four- or Five-Star School. In 2012-2013 and beyond, the Highest-Performing and Highest-Progress reward schools will be defined through the following criteria.

**Highest-Performing Schools:**

Recognition - The Star Rating System is compensatory, meaning that to attain Four or Five Stars, a school must have high absolute performance in the all students group for Reading, Math, and Language Arts. In addition, the school must demonstrate strong performance in student growth and, where applicable, measure of secondary school success such as graduation rate.

Therefore, the Star Rating performance framework is used as the metric to determine Highest-Performing Schools. A Highest-Performing School is one that meets the following criteria:

- In the most recent three years has been rated with a Five-Star Rating for at least two out of three years, AND
- With only two years of Star Rating data, the schools must have been rated with a Five or Four Star in the past two years, rather than a Five Star in two out of the last three years.
- The remaining year attained no less than a Four-Star Rating, AND
- Meet the AMOs in all subjects for overall students and all ESEA Subgroups, AND
- Be among the top five percent of Title I schools in the all students proficiency, AND
- Be among the top ten percent of Title I schools in the proficiency gaps between the highest and lowest achieving subgroups and between the at-risk and not at-risk subgroups, AND

**High-Progress Schools:**

As with Highest-Performing Schools, High-Progress Schools will be determined using the Star Rating Performance Framework. A school that attains a rating of Three Stars or less has demonstrated areas of performance that need to be improved. Improvement over time will result in changes on the Star Rating Scale. A High-Progress School is one that has met the following criteria:

- Previously attained a Three-Star Rating or less for two or more consecutive years, AND
In the most recent two years has improved to and consecutively maintained a Four-Star Rating or better, AND
Be among the top five percent of Title I schools in the all students proficiency, AND
Be among the top third of Title I schools in the proficiency gaps between the highest and lowest achieving subgroups and between the at-risk and not at-risk subgroups, AND
Be among the top third of Title I schools in the lowest achieving subgroup proficiency and at-risk subgroup proficiency, AND
Be among the Title I schools making the most progress in increasing graduation rates.

**Financial Rewards:**

The use of Title I funds, such as those authorized under ESEA Section 1117(c)(2), in connection with the recognition of rewards schools will be limited to Title I schools receiving that recognition. Additionally, ISDE plans to conduct two focus groups (regionally) in Fall 2012 with stakeholders to solicit suggestions for additional reward strategies for High-Performing and High-Progress schools and to assess the potential support (as well as the likelihood of being able to implement same) for the additional strategies that are put forth. The goal of this effort is to determine a richer, fuller range of potential rewards.

All Highest-Performing and High-Progress schools will be granted flexibility in numerous areas. First, they may use the WISE Tool optionally, if they desire to do so, at no cost to the district or school. Second, they may access Statewide System of Support services and programs at their option. Third, they are not required to set aside Title I funds for professional development, but they are given the optional flexibility to do so. Fourth, they are not required to report on State funding alignment. In these ways, reporting burdens have been reduced for these schools and financial flexibility will be granted consistent with Title I requirements.

2.C.ii Provide the SEA’s list of reward schools in Table 2.

Idaho has produced a list of star ratings for all schools. A de-identified list of priority, focus, and reward schools are provided in Table 2. In summer 2012, Idaho provided an appeal process, in the same format as the current Adequate Yearly Progress (AYP) appeals, whereby districts reviewed the underlying data in a secure setting and appealed any discrepancies. Now that this appeal process is completed, Idaho is providing a comprehensive star rating list for the U.S. Department of Education.

2.C.iii Describe how the SEA will publicly recognize and, if possible, reward highest-performing and high-progress schools.

Five-Star Schools will be announced at the same time the ISDE announces statewide
accountability results for all schools (typically August annually). Members of the Idaho State Board of Education will publicly recognize Five-Star Schools in a schoolwide assembly in September or October of each year. Five-Star Schools will receive public recognition in three ways:

- Statewide announcement in August/September;
- Schoolwide assembly in September/October; and
- Symbol of recognition, such as a flag flown outside their school or a plaque to be hung at the school.

In addition, staff in Five-Star Schools will receive financial rewards (Title I funds will not be awarded to non-Title I schools). Idaho has implemented a statewide pay-for-performance plan for certificated staff at school buildings. One way in which staff can earn pay-for-performance bonuses is if entire schools reach specific achievement or normative growth goals. Staff in Five-Star Schools will participate in these financial rewards since they will be identified as the Highest-Performing and High-Progress schools statewide. Pay for performance legislation has been repealed with the Students Come First legislation.

In refining the awards system, ISDE has consulted extensively and will continue to consult with members of the Idaho State Board of Education, representatives of the community, and representative of districts in focus groups in determining the key ways in which to recognize schools and districts.

2.D PRIORITY SCHOOLS

2.D.i Describe the SEA’s methodology for identifying a number of lowest-performing schools equal to at least five percent of the State’s Title I schools as priority schools.

Did the SEA describe its methodology for identifying a number of lowest-performing schools equal to at least five percent of the State’s Title I schools as priority schools?

Priority Schools are identified as those schools that receive a One-Star rating as described in Section 2.A.i based on the achievement of the all students group, the growth to achievement of all students, the growth to achievement of the identified subgroups and, if a high school, through the postsecondary and career readiness measures. Through this comprehensive measure of student achievement, student growth, growth to standards, growth by students in subgroups, and how well schools are preparing students for postsecondary and career readiness, a more accurate picture is presented regarding schools that are the lowest-performing schools in Idaho. A One-Star rating does meet the ESEA Flexibility definition of “priority school,” which is a school that, based on the most recent data available, has been identified as among the lowest-performing schools in the State.

The total number of One-Star Schools in Idaho for 2012-2013 includes 5.04% or 21 of the 417 Title I schools in the State. All schools designated as priority schools in Table 2 are priority
schools for purposes of this request and must implement the interventions required of One-Star schools, regardless of their star rating. Across this request, all references to and requirements of One-Star schools apply to all schools designated as priority schools in Table 2 as well.

One-Star schools meet the definition of a priority school as found under the Peer Review Guidance. The One-Star schools, although based on a multitude of measures rather than just achievement, include the same lowest five percent of Title I schools in terms of all student proficiency, all Title I or Title I eligible school with a graduation rate of less than 60%, and the Tier I and Tier II schools currently using SIG funds to implement school intervention models with very few exceptions. Only two high schools have a < 60% graduation rate two years in a row. Both of these schools are classified as a One-Star school and, therefore, will implement the sanctions outlined for One-Star schools. Idaho’s graduation rate is lagged; therefore, 2010-2011 data is the most current data and the data being used in the 2011-2012 star rating system.

There were eight schools that received SIG funds. Of those eight, two are identified as One Star, two as a Two Star, two as Three Star, and two as a Four Star school. Given that the interventions implemented by the SIG have been in place for two years now, improvement by these schools should be expected. Further, these measures ensure that the improvement is illustrated through a continuous growth rather than just achieving the benchmark for one year. All current SIG schools are also identified as priority schools for based on 2011-2012 data regardless of their star rating.

2.D.ii Provide the SEA’s list of priority schools in Table 2.

Does the SEA’s request include a list of its priority schools? (Table 2)

As noted in 2.C.ii, Idaho has produced a list of star ratings for all schools. The aggregate data for that preliminary designation is included in Table 2. A de-identified list of priority, focus, and reward schools are provided in Table 2. In summer 2012, Idaho provided an appeal process, in the same format as the current Adequate Yearly Progress (AYP) appeals, whereby districts reviewed the underlying data in a secure setting and appealed any discrepancies. Now that this appeal process is completed, Idaho has produced a list of all One Star schools for the U.S. Department of Education. The total number of One Star Schools in Idaho for 2012-2013 includes 5.04% or 21 of the 417 Title I schools in the State. Five percent or 21 Title I schools have been identified as priority schools for the purposes of this waiver regardless of their star rating.

a. Did the SEA identify a number of priority schools equal to at least five percent of its Title I schools?

As noted in 2.C.ii, Idaho has produced a list of star ratings for all schools. The aggregate data for that designation is included in Table 2. A de-identified list of priority, focus, and reward schools are provided in Table 2. In summer 2012, Idaho provided an appeal process, in the same format
as the current Adequate Yearly Progress (AYP) appeals, whereby districts reviewed the underlying data in a secure setting and appealed any discrepancies. Now that this appeal process is completed, Idaho has produced a list of all One Star schools for the U.S. Department of Education. The total number of One Star Schools in Idaho for 2012-2013 includes 5.04% or 21 of the 417 Title I schools in the State. Five percent or 21 Title I schools have been identified as priority schools for the purposes of this waiver regardless of their star rating.

b. Did the SEA’s methodology result in the identification of priority schools that are —

(i) among the lowest five percent of Title I schools in the State based on the achievement of the “all students” group in terms of proficiency on the statewide assessments that are part of the SEA’s differentiated recognition, accountability, and support system, combined, and have demonstrated a lack of progress on those assessments over a number of years in the “all students” group;

(ii) Title I-participating or Title I-eligible high schools with a graduation rate less than 60 percent over a number of years; or

(iii) Tier I or Tier II schools under the School Improvement Grants (SIG) program that are using SIG funds to fully implement a school intervention model?

The State has verified this in the following five steps: 1) a list was created providing Star Ratings for the schools on the next generation accountability system metric described in Section 2.A.i.; 2) the Star Rating list was compared to the current Tier I and Tier II schools utilizing School Improvement Grant funds to implement a school intervention model; 3) the Star Rating list was compared to a rank ordered list of Title I schools with <60% graduation rates; 4) the Star Rating list was compared to a rank ordered list of Title I schools by the all students proficiency on ISAT reading and mathematics; 5) a cumulative chart was created to illustrate any differences in the Star Rating list with the comparison lists.

As would be expected with different metrics, there are slight differences in the lists as outlined above.

2.D.iii Describe the meaningful interventions aligned with the turnaround principles that an LEA with priority schools will implement.

Are the interventions that the SEA described aligned with the turnaround principles and are they likely to result in dramatic, systemic change in priority schools?

The interventions Idaho plans to use are aligned to the Turnaround Principles defined in ESEA Flexibility. Each intervention is designed to improve the academic achievement of students in Idaho’s One-Star Schools and will be selected based on input from families and community members. Idaho aligned its interventions to the Turnaround Principles, as defined in the ESEA
Flexibility guidance.

a. *Do the SEA’s interventions include all of the following?*

Every One-Star School is required to write a Turnaround Plan, with the assistance of the State and a turnaround coach. The school’s district and the State are responsible for making sure the school implements the Turnaround Plan effectively. If the plan is found not to be effective during the turnaround process, the One-Star School must work with its district and State to make changes accordingly.

Before the One-Star School writes a Turnaround Plan, the State conducts an Instructional Core Focus Visit. Staff from the ISDE visits the school and its district to collect evidence of practice. This evidence shapes the Turnaround Plan.

Before the One-Star School or district creates its Turnaround Plan, the district must choose one of the permissible Turnaround Models. The following are the Turnaround Model options:

- **Transformation model**, which addresses areas critical to transforming persistently low-achieving schools. These areas include: developing teacher and principal leader effectiveness (depending on the track record of the principal, this could mean replacing the current administrator), implementing comprehensive instructional reform strategies, extending learning time and creating community connections, and providing operating flexibility and sustained support.

- **Turnaround model**, which includes, among other actions, replacing the principal and rehiring up to 50% of the school’s staff, adopting a new governance structure, and implementing an instructional program that is research-based and vertically aligned from one grade to the next as well as aligned with the State’s academic standards.

  A turnaround model may also implement other strategies such as any of the required and permissible activities under the transformation model or a new school model (e.g., themed, dual language academy).

- **Restart model**, in which a district converts the district public school to a charter school or closes and reopens it under the management of an education management organization (EMO) that has been selected through a rigorous review process. Such a school is still entirely accountable to the local school board for the results it produces.

- **School closure**, in which the district closes the school and enrolls the students who attended the school in other higher-achieving schools in the district.

- **Governance Partnership Model**, in which the district partners with an external entity to implement the Turnaround Principles and transform the governance of the school. This may include:

  o Agreeing to utilize services provided directly to the district by the State in lieu of a
State takeover in which a diagnostic review is conducted and services are tailored specifically to the context of the school and district;
- Purchasing the services of a lead turnaround partner that will utilize research-based strategies, that has a proven record of success with similar schools, and which shall be a key participant and decision-maker in all aspects of developing and collaborative executing the turnaround plan;

- **Special Rule for District Charter Schools:** For a district charter school, renegotiate and significantly restructure the school's charter pending approval by the Idaho Public Charter School Commission in order to implement the Turnaround Principles or revoke the charter and close the district charter school.

After choosing a Turnaround Model, the One-Star School and its district develop a Turnaround Plan. The Turnaround Plan provides the framework for analyzing problems, identifying underlying causes and addressing instructional issues in the school and district that have led to persistently low student achievement outcomes.

The plan must incorporate strategies based on scientifically based research that will strengthen the core academic subjects in the school and address the specific academic issues that caused the school to be identified for the Turnaround Plan category.

The One-Star School must use the State’s WISE Tool to write its Turnaround Plan. The WISE (Ways to Improve School Effectiveness) Tool is a web-based system for school improvement planning. The WISE Tool is made up of **129** indicators. Each indicator is tied to research on how to effectively improve student achievement for all students, including English language learners, students with disabilities and low-achieving students.

In addition to requirements the One-Star School must implement through its Turnaround Plan, the State also places requirements on districts in which a One-Star School is identified. The district must use the WISE Tool for district improvement planning and begin implementing research-based strategies in its lowest-performing schools. Strategies may include addressing governance and staffing. Through this planning process, the State makes sure the district is responsible for the success of the One Star School and every school within the district.

The Turnaround Principles, as defined in the ESEA Flexibility guidance, are embedded in the WISE Tool indicators. During the local and state review of the Turnaround Plan in the WISE Tool, the rubric will provide a score for the plans created for each separate Turnaround Principle. Here are the ways in which improvement efforts for One-Star Schools are aligned to the Turnaround Principles:

1. **providing strong leadership by:** (1) reviewing the performance of the current principal; (2) either replacing the principal if such a change is necessary to ensure strong and effective leadership, or demonstrating to the SEA that the
The current principal has a track record in improving achievement and has the ability
to lead the turnaround effort; and (3) providing the principal with operational
flexibility in the areas of scheduling, staff, curriculum, and budget;

1- The One-Star School must evaluate the performance of the current principal
when it selects a Turnaround Model. The State conducts an Instructional Core
Focus Visit to evaluate current practices in the school and in the District.

The Focus Visit includes an analysis of the current leadership at the school
level and recommendations are made to the district leadership regarding the
performance of the principal. The district must then take the
recommendations of the State into account.

2- If the district chooses to retain the principal, it must describe its evidence and
rationale for doing so in the Transformation Toolkit indicators related to
school leadership a letter of affirmation that addresses the following:

**Letter of Affirmation from the Superintendent or School Board in support of the
current principal continuing as the turnaround leader in a Priority school should
include:**

A Letter of Assurance from a trustee approving the letter of affirmation. If the board writes
the letter of affirmation they should include the assurance within the letter.

Examples of how the principal have satisfied the seven Turnaround Principles are listed
below:

1) **Ensuring that teachers are effective and able to improve instruction** – the letter
should include confidence that the standards of teaching are being adhered to through
observations and annual evaluations of teachers. Include evidence that teachers have
been put on improvement plans when needed or other actions that address unsatisfactory
teacher performance.

2) **Redesigning the school day, week or year to include additional time for student
learning and teacher collaboration** – the letter could include discussion of how the
principal has redesigned the school schedule to meet the needs of the lowest performing
subgroups, may also include how the principal has utilized resources to provide
opportunities for teacher collaboration.

3) **Strengthening the school’s instructional program based on student needs** – the
letter could contain evidence that the principal is a regular participant in teacher
collaboration meetings and other Professional Learning Communities within the school.
It may also include how the principal uses data to analyze the specific needs of students in
order to provide interventions that have led to increased achievement.
4) **Using data to make decisions to improve student learning and to plan professional development to increase teacher effectiveness** – the letter may include evidence of how data is being used to inform professional development decisions. For instance, how the principal collects observation data in order to plan the specific professional development needed to increase teacher effectiveness in the classroom.

5) **Establishing a school environment that improves school safety and discipline** – the letter may include how discipline issues have improved during the principals tenure. It may also include supportive data and perceptions from students, staff, and/or parents communicating how safe the school currently feels.

6) **Addressing academic and non-academic factors that impact student achievement, such as student’s social, emotional and health needs** – the letter may include support from the school counselor, nurse or other student support staff. It may also include support from students, parents and/or community members on their perception that the principal is meeting the academic and non-academic needs of students.

7) **Providing ongoing opportunities for family and community engagement** – the letter may include the increased attendance rates at family and community school events. The letter might also address the ways in which the principal has encouraged families to participate in school sponsored activities.

For additional information and examples of research-based leadership practices consult the WISE Tool Indicators and WISE Ways.

Full implementation of Priority expectations will be in place for the 2014-2015 school year. Letters of Affirmation and Assurance must be received by the ISDE no later than the start of the school year for those Priority schools that are not replacing their principals.

3- Under the WISE Tool, One-Star Schools must develop a leadership team structure that addresses school governance policies and incorporates the school improvement plan into these policies. If necessary, the school should address the principal’s flexibility in the areas of scheduling, staff, curriculum and budget. Teachers in the school as well as the district and State must be involved in the development of the plan.

(ii) **ensuring that teachers are effective and able to improve instruction by:** (1) reviewing the quality of all staff and retaining only those who are determined to be effective and have the ability to be successful in the turnaround effort; (2) preventing ineffective teachers from transferring to these schools; and (3) providing job-embedded, ongoing professional development informed by the teacher evaluation and support systems and tied to teacher and student needs;

1- The One-Star School must evaluate the performance of all staff when it selects
a Turnaround Model. The State conducts an Instructional Core Focus Visit to evaluate current practices in the school and in the district. The Focus Visit includes an analysis of the current school staff and quality of instruction in the school.

2- In 2011, the State passed a law giving building principals more authority over the staff who work in their school. Under Idaho Code 33-523, principals can refuse the transfer or hire of a teacher in their school. In this way, the instructional leader of the school is empowered to prevent ineffective teachers from transferring into a One-Star School.

3- Through the school improvement planning process in the WISE Tool, One-Star Schools are required to plan for professional development based on the needs of the students in the school and the school staff. The plan must account for the relationship between classroom observations and professional development needs that targets specific areas of student performance.

The plan must include job-embedded, ongoing professional development opportunities based on the school’s evaluation and performance data. One-Star Schools are required to set aside 10% of Title I funds to support professional development activities for staff.

(iii) redesigning the school day, week, or year to include additional time for student learning and teacher collaboration;

Through the WISE Tool, a One-Star School is required to address the school schedule and additional time for student learning and teacher collaboration in its school improvement plan. Here are examples of specific indicators that schools may use to address these matters:

- Instructional Teams meet for blocks of time (4 to 6 hour blocks, once a month; whole days before and after the school year) sufficient to develop and refine units of instruction and review student learning data.
- The principal plans opportunities for teachers to share their strengths with other teachers.
- Teachers individualize instruction based on pre-test results to provide support for some students and enhanced learning opportunities for others.
- The principal spends at least 50% of his/her time working directly with teachers to improve instruction, including classroom observations.

(iv) strengthening the school’s instructional program based on student needs and ensuring that the instructional program is research-based, rigorous, and aligned with State academic content standards;

The most important factor in turning around the One-Star School is improving the quality of instruction to ensure the school is meeting the needs of every student, including English language learners, students with disabilities and low-achieving
students. Through the WISE Tool, a One-Star School is required to strengthen the school’s instructional program so it meets students’ needs, is based on research and aligned to Idaho’s content standards which now include the Common Core State Standards.

Here are examples of some of the indicators in the WISE Tool. Every indicator in the WISE Tool is tied to research. See http://www.indistar.org/about/brochure/indistarbrochure.pdf.

- Objectives are leveled to target learning to each student’s demonstrated prior mastery based on multiple points of data (i.e., unit tests and student work).
  
- Instructional Teams develop standards-aligned units of instruction for each subject and grade level.

- Units of instruction include standards-based objectives and criteria for mastery.

- The principal keeps a focus on instructional improvement and student learning outcomes.

\( \text{(v) using data to inform instruction and for continuous improvement, including by providing time for collaboration on the use of data;} \)

Through the WISE Tool, a One-Star School is required to describe its plans and implementation efforts in the use of data to inform instruction for continuous improvement. Here are a few examples of indicators in the WISE Tool that require the use of data to inform instruction and time for teachers and staff to collaborate on the use of data:

- The school’s Leadership Team regularly looks at school performance data and aggregated classroom observation data to make decisions about school improvement and professional development needs.

- Yearly learning goals are set for the school by the Leadership Team, utilizing student learning data.

- Instructional Teams use student learning data to plan instruction.

- Units of instruction include pre-/post-tests to assess student mastery of standards-based objectives.

- Unit pre-tests and post-tests are administered to all students in the grade level and subject covered by the unit of instruction.

- Teachers individualize instruction based on pre-test results to provide support for some students and enhanced learning opportunities for others.

- Teachers re-teach based on post-test results.

- Instructional Teams meet for blocks of time (4 to 6 hour blocks, once a month; whole days before and after the school year) sufficient to develop and refine units of instruction and review student learning data.

- The principal plans opportunities for teachers to share their strengths with other teachers.
Through the WISE Tool, a One-Star School is required to develop and implement a plan for a supportive learning environment that improves school safety and discipline and ensures teachers and staffs address students’ social, emotional, and health needs. Here are some of the WISE Tool indicators that address these matters:

- All teachers verbally praise students.
- All teachers interact socially with students (noticing and attending to an ill student, asking about the weekend, inquiring about the family).
- Office and support staff are trained to make the school a ‘welcoming place’ for parents.
- All teachers display classroom rules and procedures in the classroom.
- All teachers correct students who do not follow classroom rules and procedures.
- All teachers reinforce classroom rules and procedures by positively teaching them.

One-Star Schools are expected to develop and implement plans that provide ways in which the family and community can engage in the school improvement process. Specifically, the WISE Tool includes the following indicators:

- The principal offers frequent opportunities for staff and parents to voice constructive critique of the school’s progress and suggestions for improvement.
- All teachers maintain a file of communication with parents.
- All teachers systematically report to parents the student’s mastery of specific standards-based objectives.
- Professional development programs for teachers include assistance in working effectively with parents.
- All-school events include parent-child interactive activities.
- Office and support staff are trained to make the school a “welcoming place” for parents.
- The school’s Compact is annually distributed to teachers, school personnel, parents, and students.
- The “ongoing conversation” between school personnel and parents is candid.
supportive, and flows in both directions.

*American Indian Tribes - Special Provision:* For districts on or near tribal lands and with significant numbers of American Indian students enrolled in a One-Star School, the district must ensure it engages the tribe throughout the planning for the turnaround model and implementation process of the turnaround principles. ISDE will create a planning space within the WISE Tool that specifically allows the school and district to document the engagement of the local tribal community in addition to the existing planning indicators.

ISDE expects the school board to intentionally and formally seek input on policy and governance decisions regarding school turnaround and continuous support.

ISDE has a comprehensive process for ensuring alignment of the turnaround principles with the requirements expected of schools and districts. The seven turnaround principles are listed and numbered below for reference.

1. providing strong leadership by: (1) reviewing the performance of the current principal; (2) either replacing the principal if such a change is necessary to ensure strong and effective leadership, or demonstrating to the SEA that the current principal has a track record in improving achievement and has the ability to lead the turnaround effort; and (3) providing the principal with operational flexibility in the areas of scheduling, staff, curriculum, and budget;

2. ensuring that teachers are effective and able to improve instruction by: (1) reviewing the quality of all staff and retaining only those who are determined to be effective and have the ability to be successful in the turnaround effort; (2) preventing ineffective teachers from transferring to these schools; and (3) providing job-embedded, ongoing professional development informed by the teacher evaluation and support systems and tied to teacher and student needs;

3. redesigning the school day, week, or year to include additional time for student learning and teacher collaboration;

4. strengthening the school’s instructional program based on student needs and ensuring that the instructional program is research-based, rigorous, and aligned with State academic content standards;

5. using data to inform instruction and for continuous improvement, including by providing time for collaboration on the use of data;

6. establishing a school environment that improves school safety and discipline and addressing other non-academic factors that impact student achievement,
such as students’ social, emotional, and health needs; and

7. providing ongoing mechanisms for family and community engagement.

**District:**
As described in the plan, priority schools and their districts will be required to create and implement a turnaround plan that is connected with the diagnostic review that occurs during the Instructional Core Focus Visit, and which the district must oversee and approve prior to State review. To clarify the alignment process, the following draft elements are being provided. First, the basic WISE Tool plan includes many indicators at the LEA and school level. These are organized by cluster. The district has three main clusters in which planning already occurs:

A. District Context and Support for School Improvement - Improving the school within the framework of district support
B. District Context and Support for School Improvement - Taking the change process into account
C. District Context and Support for School Improvement - Clarifying district-school expectations

When a district has a school that is required to implement a turnaround plan (i.e., priority schools), the district must also plan for the following cluster of indicators:

D. District Turnaround Plan Support

This fourth cluster requires districts to create plans (i.e., objectives and tasks) and monitor implementation for the turnaround principles using the following indicators:
For each school in the turnaround plan category, the district ensures that the chosen Turnaround Model option (e.g., transformation model, Restart, etc.) reflects the particular strengths and weaknesses of the school.

The LEA examines its policies and makes modifications as needed to provide operational flexibility for principals in order to support school turnaround plans in key areas (e.g., scheduling, staff, curriculum, and budget).

The LEA reviews the capacity of principals in schools required to implement turnaround plans and determines whether an existing principal has the necessary competencies to lead the turnaround effort (e.g., based on his/her track record or leadership capacity) or whether the principal needs to be replaced with a stronger, more effective leader.

The LEA ensures that a school leadership team made up of the principal and diverse staff representatives is in place to make decisions of substance in schools required to implement turnaround plans.

For schools required to implement turnaround plans, the LEA aligns professional development with identified needs as based upon staff evaluation results, student performance, and other pertinent sources of data.

The LEA reviews the quality of all staff members in schools required to implement turnaround plans and retains only those who have the ability to support the turnaround plan.

The LEA has policies and practices in place that prevent ineffective teachers from transferring to schools that are required to implement turnaround plans.

The LEA allocates resources (e.g., financial and human capital) to support extended learning time in schools required to submit turnaround plans.

These district indicators directly align to turnaround principles 1, 2, and 3 and are in addition to planning in the general indicators of the WISE Tool in order to ensure that all turnaround principles are specifically addressed.

**School:**
At the school level, the basic WISE Tool has four clusters of indicators. They are:
A. School Leadership and Decision Making
B. Curriculum, Assessment, and Instructional Planning
C. Classroom Instruction
D. School Community

In addition to planning in the basic set of indicators, schools that must implement a turnaround plan (i.e., priority schools) must create plans (i.e., objectives and tasks) and monitor implementation for the turnaround principles using the following indicators:

<table>
<thead>
<tr>
<th>Draft School Turnaround Plan Indicators</th>
<th>Turnaround Principle #</th>
</tr>
</thead>
<tbody>
<tr>
<td>The principal reviews the quality of all staff members in schools required to implement turnaround plans and retains only those who have the ability to support the turnaround plan.</td>
<td>2</td>
</tr>
<tr>
<td>The school leadership team ensures that job-embedded, ongoing professional development is provided to teachers, which is informed by the teacher evaluation and support system and is tied to teacher and student needs.</td>
<td>2</td>
</tr>
<tr>
<td>The school leadership team evaluates the school schedule yearly and redesigns the schedule to include time for extended learning opportunities for students.</td>
<td>3</td>
</tr>
<tr>
<td>The school leadership team evaluates the school schedule yearly and redesigns the schedule to include sufficient time for teacher collaboration.</td>
<td>3</td>
</tr>
<tr>
<td>The school has established a team structure for collaboration among all teachers with specific duties and time for instructional planning.</td>
<td>3</td>
</tr>
<tr>
<td>The school leadership team ensures that the core instructional program is research-based, rigorous, and aligned with State academic content standards.</td>
<td>4</td>
</tr>
<tr>
<td>The school leadership team regularly monitors and makes adjustments to continuously improve the core instructional program based on identified student needs.</td>
<td>4</td>
</tr>
<tr>
<td>The school leadership team and staff collaboration teams have a plan for using data to inform decisions about the instructional core and continuous, system-wide improvement.</td>
<td>5</td>
</tr>
<tr>
<td>The school leadership team ensures that the school environment is safe and supportive (i.e., it addresses non-academic factors, such as social and emotional well-being).</td>
<td>6</td>
</tr>
<tr>
<td>The school leadership team provides ongoing mechanisms for families and the community to be meaningfully engaged in decisions that impact school improvement and the school environment.</td>
<td>7</td>
</tr>
</tbody>
</table>

The indicators included in the turnaround plan will reflect the turnaround principles and will be planned for at the school and district level. School plans will be reviewed for quality by district leadership. District plans will be reviewed for quality by the Statewide System of Support team. The review process will use a rubric to score the quality of the objectives, tasks, and monitoring of implementation. A rubric in draft form is attached (Attachment 29).
b. Has the SEA identified practices to be implemented that meet the turnaround principles and are likely to —

(i) increase the quality of instruction in priority schools;

Every One-Star School must submit a Turnaround Plan to the LEA and the State using the WISE Tool, a web-based school improvement planning tool. The indicators in the WISE Tool are aimed at improving student achievement through creating higher-quality instruction. Each indicator is tied to research-based practice.

(ii) improve the effectiveness of the leadership and the teaching in these schools; and

The One-Star School will improve the effectiveness of leadership and teaching by creating and implementing a Turnaround Plan and through one-on-one support from the State. The WISE Tool provides detailed steps that every One-Star School will take to improve leadership and the quality of teaching through its Turnaround Plan.

Specific indicators in the WISE Tool emphasize behavioral research regarding what effective principals must do to effect change in a school, including developing a leadership team and using data to guide instruction.

These indicators are then connected to the use of the Danielson Framework for Teaching as an evaluation tool and the analysis of student achievement data to make sure the school is getting results.

The State also puts support structures in place to customize support for each One-Star School and the LEA that oversees it. The Idaho Building Capacity Project provides an external coach to a school and its district. The ISDE selects coaches, or Capacity Builders, from a pool of retired school administrators who have demonstrated excellence in instructional leadership in the past. The Capacity Builder works with the leader and leadership team in a school and at the district level to prompt thinking, instill internal knowledge and skills, and assist the school and the district as they evaluate the effectiveness of school improvement efforts. With this one-on-one support, the State is responsive to the One-Star School’s needs and makes sure the school is effectively implementing its Turnaround Plan.
(iii) improve student achievement and, where applicable, graduation rates for all students, including English Learners, students with disabilities, and the lowest-achieving students?

The indicators that One-Star Schools must use in their Turnaround Plans are tied to research-based practices that have been proven to raise achievement for all students, including English Learners, students with disabilities, and the lowest-achieving students. Through the indicators, teachers must use data to guide and individualize instruction to meet student needs. The principal, as the instructional leader, is responsible for evaluating the classroom teacher and student achievement data to make sure goals are met for all students. The State must approve the school’s Turnaround Plan and will remain involved in monitoring student progress.

c. Has the SEA indicated that it will ensure that each of its priority schools implements the selected intervention for at least three years?

Once identified, a school will remain a One-Star School (i.e., a priority school in the Turnaround Plan status) for at least three years, unless it meets the exit criteria defined in Section 2.D.v. During that period, plans will be overseen by the district, approved by the State and monitored by both the State and the district. Schools may exit from the State requirements (i.e., plan approval, Focus Visits, Title I set-asides, extended learning time and notification of enrollment options) of priority status one year early if they meet the exit criteria of two consecutive years at a Three-Star rating or higher (after initial identification); however, they must continue to implement the turnaround principles identified in the school and district plan for a minimum of three years. If a priority school continues in this status for more than three years, the State will intervene as necessary in district leadership functions in order to ensure the school is turned around. **Table 34** depicts the entrance and exit process and the sequence of years related to the One-Star school’s Turnaround Plan requirements.

2.D.iv Provide the timeline the SEA will use to ensure that its LEAs that have one or more priority schools implement meaningful interventions aligned with the turnaround principles in each priority school no later than the 2014–2015 school year and provide a justification for the SEA’s choice of timeline.
Table 34
School Level Turnaround Plan Timeline for Entrance, Requirements, and Exit

<table>
<thead>
<tr>
<th>Plan Timeline &amp; When the Status Takes Effect</th>
<th>School Requirements</th>
<th>LEA Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>School year prior to the school year during which the first One-Star rating is earned</td>
<td>Depends on Star Rating Level</td>
<td>Depends on Star Rating Level</td>
</tr>
</tbody>
</table>

Star Ratings lag one school year behind the year in which they are earned because assessment data are produced each Spring and reported in the summer prior to the following school year. For example, if during the Spring testing window for 2011-12, a school performed in such a way as to earn a Three Star rating, the Three Star rating would go into effect for 2012-13, immediately after the Spring data are finalized and released.

2.D.iv. Is the SEA’s proposed timeline for ensuring that LEAs that have one or more priority schools implement meaningful interventions aligned with the turnaround principles in each priority school no later than the 2014-2015 school year reasonable and likely to result in implementation of the interventions in these schools?

Idaho’s proposed timeline for ensuring that districts that have one or more priority schools implement meaningful interventions aligned with the turnaround principles in
each priority school no later than the 2014-2015 school year is reasonable and is likely to result in implementation of the interventions in these schools.

The State will ensure that districts implement meaningful interventions in One-Star Schools (i.e., a Priority School) over the course of a graduated process to occur no later than 2014-2015. Because of the emphasis on district responsibility and capacity, the timeline articulates the actions that the state will take to inform districts regarding the identification of their schools. Then, the timeline allows the State sufficient time to conduct the Instructional Core Focus Visits that will be required to make determinations about leadership capacity and develop recommendations for local planning. After the recommendations from the Instructional Core Focus Visits, the timeline allows districts sufficient time to plan for district requirements, consult with families and the community, and to make important decisions regarding school governance. Once the district has completed the actions required of it, the timeline details the particulars required for school level planning.

Does the SEA’s proposed timeline distribute priority schools’ implementation of meaningful interventions aligned with the turnaround principles in a balanced way, such that there is not a concentration of these schools in the later years of the timeline?

As detailed in Table 35, the timeline targets state, district, and school activities that will occur in order that the Turnaround Principles will be implemented in schools by 2014-2015; implementation efforts will continue in 2015 and beyond. The timeline does not distribute schools differentially or save all aspects of implementation for the latter years of the timeline. All schools identified will follow the timeline on Table 34.

Fall 2014 – Spring 2015

SEA, LEA, & School

For all other schools not identified as Priority Schools in Table 2, full implementation of school level Turnaround Principles in schools that are in the Turnaround Plan category; continuous monitoring, collaboration, and support between school, district, and SEA

Spring 2015 & beyond

SEA

For all other schools not identified as Priority Schools in Table 2, monitor and support implementation of the Turnaround Principles throughout the duration of the period for which the school is identified in the Turnaround Plan category; if the school does not exit from the Turnaround Plan category, make a determination regarding State intervention at the district level

2.D.v Provide the criteria the SEA will use to determine when a school that is making significant progress in improving student achievement exits priority status and a justification for the criteria selected.

Did the SEA provide criteria to determine when a school that is making significant progress in improving student achievement exits priority status?

a. Do the SEA’s criteria ensure that schools that exit priority status have made significant progress in improving student achievement?

The exit criteria ensure One-Star Schools have made significant progress. One-Star Schools will remain under the requirements of the Turnaround Plan, once identified, for at least three years in order to fully implement the Turnaround Principles and meaningful interventions, unless they meet the exit criteria. The state has set criteria for removing a school from the One-Star School category (i.e., priority status) once it has made significant progress. The method the State will use to determine if a school or district has met its annual measurable objectives results is a rating scale of one to five stars. This annual rating includes absolute achievement and student growth.

In order to be removed from One-Star School status, a school must achieve a three-star ranking or better for two consecutive years after initial identification.

The exit criteria are based upon two consecutive years of performance in the Star Rating performance framework. The performance framework is comprised of a comprehensive set of metrics (student achievement, student academic growth, secondary opportunities, graduation, etc.). In order to move to a new level (i.e., a higher Star Rating), the school must attain higher scores across multiple measures. Thus, if a school is able to improve its performance and sustain it for two years in a row, it has demonstrated significant progress from its initial identification as one of the lowest-performing schools in the State. The State chose two consecutive years at a Three-Star Rating or better, because Four- and Five-Star schools are high performing and a Three-Star rating places the school in the typical domain of “continuous improvement” where the majority of schools will be working will with LEA oversight. A Three-Star school has demonstrated it does not have the intense need for intervention based upon its performance.
Schools identified as Priority Schools in Table 2 based off of data from the 2011-2012 school year must implement all requirements of One-Star schools starting in the 2012-2013 school year regardless of their Star Rating. To exit this Priority Status, they must implement the interventions for a minimum of three years and must obtain a Star Rating of a 3 Star or higher.

- Is the level of progress required by the criteria to exit priority status likely to result in sustained improvement in these schools?

The level of progress required is likely to result in sustained improvement. The State has determined that the exit criteria of two consecutive years achieving a Three-Star ranking or better on the annual measurable objectives is likely to result in sustained improvement. First, this is due to the fact that the school has demonstrated evidence of achievement that is not simply a one year anomaly. Rather, minimum State benchmarks have been met and the system has sustained that level of performance over time.

Second, to achieve a Three-Star rating or better, the school must be demonstrating system-wide improvement in order to impact the multiple sub-domains on the performance framework. Because the exit criteria is based on all four dimensions of the accountability system, when a school receives a higher star rating, it illustrates that the school’s performance has improved throughout and includes more than just students reaching proficiency. It includes all student and subgroup growth; growth to proficiency; and, for high schools, it also includes three measures of postsecondary and workforce readiness.

As mentioned in Table 34, if a school has not met the exit criteria by the end of the third year in priority status, the State will intervene as appropriate in district governance. If a school has not improved by that time, the district is considered to be responsible. The intervention with the district will include actions as described in Section 2.A.i.a – Part II within the context of the Instructional Core Focus Visit. The State will diagnose the level of need for a change in governance based on the process described in the Focus Visit and, along with data provided from the three years of planning that did not result in improvement, work with the district, the school board, or the community to make whatever changes are appropriate. The rationale for this theory of action is as follows. Idaho is a local control state. Therefore, while the framework of improvement is guided by State structures the vast majority of actual decisions are ultimately left in the hands of local school boards and district office leaders regarding school improvement, and the State has no authority to remove a school from a district or otherwise take it over. Similarly, the State has no authority to remove the district from the governing authority of the local board of trustees. Therefore, State actions within the context of priority schools must occur within the appropriate statutory constraints of the State’s local control context. If the State has
provided all of the technical assistance and support described in the ESEA Flexibility Plan and the school has still not met the criteria to exit from priority status after a period of three years, ISDE will consider the district leadership to have not ensured the implementation of sufficiently rigorous improvement efforts. Thus, recommendation for a change in governance at the district office will be made at the level deemed most appropriate based on the three years of data collected via the monitoring and support relationships developed with the district.
2.E FOCUS SCHOOLS

2.E.i Describe the SEA’s methodology for identifying a number of low-performing schools equal to at least 10 percent of the State’s Title I schools as “focus schools.”

Did the SEA describe its methodology for identifying a number of low-performing schools equal to at least 10 percent of the State’s Title I schools as focus schools?

Focus Schools will be identified as those Title I schools that receive a Two-Star rating as described in Section 2.A.i. Through this comprehensive measure of student achievement, student growth, growth to standards, growth by students in subgroups and how well schools are preparing students for postsecondary and career readiness, a more accurate picture is presented regarding schools that are among the lowest-performing in Idaho due to achievement gaps. A Two-Star rating does meet the ESEA definition of “focus school,” which is a Title I school in the State that, based on most recent data available, is contributing to the achievement gap in the State. All schools designated as focus schools in Table 2 are focus schools for purposes of this request and must implement the interventions required of Two Star focus schools, regardless of their star rating. Across this request, all references to and requirements of Two Star schools apply to all schools designated as focus schools in Table 2.

The total number of Two Star Schools in Idaho for 2012-2013 includes 11.2% or 47 of the 417 Title I schools in the State. Ten percent or 42 Title I schools in the State have been identified as focus schools for the purposes of this waiver regardless of their star rating.

Idaho has defined Two-Star schools as those that have low subgroup achievement and have a notable proficiency gap for subgroups. This is measured through the growth to achievement and growth to achievement subgroups, as well as subgroup proficiency.

2.E.ii Provide the SEA’s list of focus schools in Table 2.

Did the SEA include a list of its focus schools? (Table 2)

a. Did the SEA identify a number of focus schools equal to at least 10 percent of the State’s Title I schools?

As noted in 2.C.ii, Idaho has produced a list of star ratings for all schools. The aggregate data for that designation is included in Table 2. A de-identified list of priority, focus, and reward schools are provided in Table 2. In summer 2012, Idaho provided an appeal process, in the same format as the current Adequate Yearly Progress (AYP) appeals, whereby districts reviewed the underlying data in a secure setting and appealed any discrepancies. Now that this appeal process is completed, Idaho has produced a list of all Two Star schools for the U.S. Department of Education.
The total number of Two Star Schools in Idaho for 2012-2013 includes 11.2% or 47 of the 417 Title I schools in the State. Ten percent or 42 Title I schools in the State have been identified as focus schools for the purposes of this waiver regardless of their star rating.

b. In identifying focus schools, was the SEA’s methodology based on the achievement and lack of progress over a number of years of one or more subgroups of students identified under ESEA section 1111(b)(2)(C)(v)(II) in terms of proficiency on the statewide assessments that are part of the SEA’s differentiated recognition, accountability, and support system or, at the high school level, graduation rates for one or more subgroups?

ISDE identified schools based on the total points awarded in the achievement category, the points awarded for growth to achievement and growth to achievement subgroups and for high schools, graduation rate, advanced opportunities and college entrance and placement exam preparedness. This point matrix created an overall rating for the school which then placed them on the rating scale.

c. Did the SEA’s methodology result in the identification of focus schools that have:

   (i) the largest within-school gaps between the highest-achieving subgroup or subgroups and the lowest-achieving subgroup or subgroups or, at the high school level, the largest within-school gaps in the graduation rate; or

   (ii) a subgroup or subgroups with low achievement or, at the high school level, a low graduation rate?

The State has verified the subgroup performance through the following seven steps: 1) a list was created providing Star Ratings for the schools on the next generation accountability system metric described in Section 2.A.i.; 2) the Star Rating list was compared to a rank ordered list of Title I schools’ graduation rates; 3) the Star Rating list was compared to a rank ordered list of Title I schools by the size of the proficiency gaps between highest and lowest achieving subgroups in reading and mathematics; 4) the Star Rating list was compared to a rank ordered list of Title I schools by the lowest achieving subgroup proficiency on ISAT reading and mathematics; 5) the Star Rating list was compared to a rank ordered list of Title I schools by the size of the proficiency gaps between at-risk and not at-risk subgroups in reading and mathematics; 6) the Star Rating list was compared to a rank ordered list of Title I schools by the at-risk subgroup proficiency on ISAT reading and mathematics; 7) a cumulative chart was created to illustrate any differences in the Star Rating list with the comparison lists.
As noted in the introduction to this waiver, Idaho’s population precludes many schools from having reportable subgroups. Idaho has taken a strong approach in looking at subgroups through the combined At-Risk Subgroup. This approach has allowed the Star Rating system to identify gaps for students that would otherwise only be part of an overall calculation. This identification produces a different list of schools than just comparing gaps of lowest and highest performing subgroups, which only affect a small number of schools in Idaho.

**d. Did the SEA identify as focus schools all Title I-participating high schools with a graduation rate less than 60 percent over a number of years that are not identified as priority schools?**

As noted in 2.C.ii, Idaho has produced a list of star ratings for all schools. The aggregate data for that designation is included in Table 2. A de-identified list of priority, focus, and reward schools are provided in Table 2. In summer 2012, Idaho provided an appeal process, in the same format as the current Adequate Yearly Progress (AYP) appeals, whereby districts reviewed the underlying data in a secure setting and appealed any discrepancies. Now that this appeal process is completed, Idaho has produced a list of all Two Star schools for the U.S. Department of Education. The total number of Two Star Schools in Idaho for 2012-2013 includes 11.2% or 47 of the 417 Title I schools in the State. Ten percent or 42 Title I schools in the State have been identified as focus schools for the purposes of this waiver regardless of their star rating.

2.E.iii Describe the process and timeline the SEA will use to ensure that its LEAs that have one or more focus schools will identify the specific needs of the SEA’s focus schools and their students and provide examples of and justifications for the interventions focus schools will be required to implement to improve the performance of students who are the furthest behind.

**Did the SEA describe the process and timeline it will use to ensure that each LEA identifies the needs of its focus schools and their students and provide examples of and justifications for the interventions the SEA will require its focus schools to implement to improve the performance of students who are furthest behind?**

Every Two-Star School is required to write a Rapid Improvement Plan, with the assistance of the ISDE. The school’s district and the State are responsible for making sure the school implements the Rapid Improvement Plan effectively. If the plan is found not to be effective during the improvement process, the Two-Star School must work with its district and State to make changes accordingly.

Regardless of the school’s Rapid Improvement Plan, the State will require every Two-Star School to notify eligible students and their parents of enrollment options extended learning time opportunities and financial set-asides for professional development to make sure the needs of all low-achieving students are met.
Two-Star Schools must follow this guidance in the school year immediately follow their identification. (See the Timeline in Table 35 for more detailed information.)

The State will define the “professional development set-aside” as a 10 percent set-aside of Title I-A funds at either a school or district level, depending on variables at the district level that is intended to align with the professional growth needs of the staff in a school (or district) consistent with Title I requirements. Further description is provided in section 2.A.i, and rules concerning the set-aside are set forth in Attachment 12.

The Rapid Improvement Plan will provide the framework for analyzing problems, identifying underlying causes and addressing instructional issues in the school and district that have led to achievement gaps and low student achievement outcomes.

The plan must incorporate strategies based on scientifically based research that will close achievement gaps and address the specific academic issues that caused the school to be identified as a Two-Star School.

The Two-Star School must use the State’s WISE Tool to write its Rapid Improvement Plan. The WISE (Ways to Improve School Effectiveness) Tool is a web-based system for school improvement planning. The WISE Tool is made up of 88 indicators. Each indicator is tied to research on how to effectively improve student achievement for all students, including English language learners, students with disabilities and low-achieving students. Through the plan approval process, the State and district will make sure the Two-Star School has selected indicators and is implementing interventions that are proven to help the student populations affected by the school’s achievement gap(s).

While the Two-Star School must determine its current level of performance in relation to all 88 indicators within the WISE Tool, it must set priorities and create in-depth plans for a smaller, actionable sub-set of approximately 20 indicators. The Two-Star School will be expected to plan for and achieve the full set of 88 indicators within its three years of improvement. However, by creating more in-depth plans for at least 20 indicators, the school can focus on priority student populations and more effectively sustain changes in the greatest area of need.

The State also places requirements on districts in which a Two-Star School is identified. The district must support the planning and implementation processes in the Two-Star School. The ISDE monitors the district’s support efforts through a local peer review process. The district must coordinate technical assistance for the school and review the quality of the Rapid Improvement Plan created by the leadership team in the

The local peer review process applies to Focus and Priority schools and is explained in detail in section 2.A.i.
Two-Star School. The district is responsible for reviewing the plan and ensuring it is implemented effectively.

The district’s review will be documented and submitted to the ISDE, at which time a quality review will be conducted by the State to ensure the district has met its obligation to support the school.

Two-Star Schools will be required to annually review and update their Rapid Improvement Plans and resubmit these plans for the district and ISDE to approve. The ISDE will use this data to determine how effectively the Two-Star School is implementing its Rapid Improvement Plan and what, if any, adjustments need to be made. The State will work directly with the district and school to make the necessary adjustments. The ISDE will continue to monitor the district’s involvement and support to the Two-Star School through the local peer review process.

The ISDE will conduct Instructional Core Focus Visits to Two-Star Schools on an as-needed basis. In the Focus Visit\textsuperscript{20}, a small group of staff from the ISDE conducts an on-site visit to evaluate current practices in the school and in the district. To determine which schools need Focus Visits, the ISDE will analyze student achievement data from the school and district levels, along with other sources of diagnostic information such as results from federal program monitoring visits. If a Focus Visit occurs, the ISDE will expect the Two-Star School to revise its Rapid Improvement Plan to reflect the recommendations provided to the school and the district. However, at minimum an ISDE representative will visit the school by December 31\textsuperscript{st} of each year a school is classified as a Focus school. The representative will follow the Focus School Intervention Protocol (Attachment 35) to observe and discuss the progress of the subgroups for which the school was classified as Focus and then ensure that interventions are in place to address the needs of the students. The Focus School Intervention Protocol may also be found at the following website: http://www.sde.idaho.gov/site/esea/

Districts in which a Two-Star School is identified will enroll in technical assistance opportunities that the ISDE makes available, such as professional development and on-site instructional coaching. The technical assistance opportunity must be aligned with the needs of the Two-Star School. For example, if a Two-Star School in a district is struggling to meet the needs of diverse learners, the district would enroll in Response to Intervention training.

If the district determines the Two-Star School lacks leadership capacity, the district would enroll in the Idaho Building Capacity Project\textsuperscript{21}, which provides an instructional coach on site or enroll in the Network of Innovative Leaders which develops principal leadership dispositions. Through the Rapid Improvement Plan, the ISDE will ensure the district and Two-Star School select the most appropriate technical assistance available.

\textsuperscript{20} Focus Visits are described in detail in section 2.A.i.
\textsuperscript{21} More information on the IBC Project is found in section 2.A.i and at http://www.sde.idaho.gov/site/ssos/IBC.htm.
Table 36 provides a comprehensive timeline for how the State will ensure each district identifies the needs of its Two-Star School(s) to best meet the needs of the students.

The following information is to provide clarification regarding the substance and appropriateness of the interventions in focus schools. Focus schools must implement the requirements of the Rapid Improvement Plan. Schools in this category are required to implement meaningful interventions designed to improve the academic achievement of students and which must be aligned with all of the following rapid improvement plan principles.

A. Provide strong leadership and decision making procedures by (1) establishing a team structure with specific duties and time for instructional planning; (2) focusing the principal’s role on building leadership capacity, achieving learning goals, and improving instruction; and (3) aligning classroom observations with evaluation criteria and professional development.

B. Strengthen collaborative, data-driven decision making surrounding the instructional core by focusing on improved curriculum, assessment, and instructional planning in ways that (1) engage teachers in aligning instruction with standards and benchmarks; (2) engage teachers in assessing and monitoring student mastery; (3) engage teachers in differentiating and aligning learning activities; and (4) assess student learning frequently with standards-based assessments.

C. Improve classroom instruction practices by expecting and monitoring sound instructional methods that are delivered in a variety of modes and sound classroom management.

D. Cultivate higher levels of family and community engagement through effective, two-way communication between the school and home and the school and community that centers on shared responsibility for the education of all students.

These interventions are consistent with the research on effective schools, such as the Correlates of Effective Schools (Edmonds, 1982; Lezotte, 2001, 2009) and the Nine Characteristics of High Performing Schools (Shannon & Bylsma, 2007). All schools that overcome the effects of poverty and other disadvantages demonstrate these characteristics in one way or another.

The appropriateness of the specific activities of the intervention will be suited to the unique context of the school. The WISE Tool is structured around these rapid improvement plan principles. Using the WISE Tool process, schools will assess their strengths and weaknesses with the oversight of the district and in conjunction with the data that has resulted in their identification for focus school status. The assessment process includes two prongs. First, the school will complete an analysis of the data.
that resulted in their identification for focus status. Because the Idaho performance framework for the Star Rating includes multiple metrics with benchmark cut-points for each, this will entail identifying each metric in which performance in the school is unsatisfactory. The school will complete an online form each year that will be housed on the WISE Tool dashboard in which these data are identified as a focal point for improvement efforts. Second, the school will conduct an assessment of its practices compared against the WISE Tool indicators. Using the information from these two prongs, the school will create its goals and objectives in a way that aligns with the differentiated needs demonstrated within its performance data and its practices. During the review process, the district will ensure alignment between the planned interventions/actions and the demonstrated needs. For example, if the school is demonstrating low annual growth in Reading among English Language Learners, the plan will not be approved until it sufficiently addresses the performance of this subgroup. The capacity of the district to support focus schools will be supported through the state review of the plan and the Statewide System of Support Projects in which the district and school is enrolled. Technical assistance will be provided during the creation, implementation, and monitoring of the plan to ensure the interventions identified are appropriately suited to the needs within the school. For example, the State will not approve any plans that do not work to meet the needs of identified subgroups, even if the plan has been approved by the district leadership. While ISDE is looking for actions that address school improvement systemically (i.e., coherently throughout an entire school), the improvement plans must demonstrate a specific course of action that will be likely to meet the needs of any under-served populations of students.

</table>

Has the SEA demonstrated that the interventions it has identified are effective at increasing student achievement in schools with similar characteristics, needs, and challenges as the schools the SEA has identified as focus schools?

Every Two-Star School must write and implement a Rapid Improvement Plan that it develops through the WISE Tool. The WISE (Ways to Improve School Effectiveness) Tool is a web-based system for school improvement planning that is made up of 88-129 indicators. Each
indicator is tied to researched best practices on how to effectively improve student achievement for all students, including English language learners, students with disabilities and low-achieving students. Through the plan approval process, the ISDE and district will make sure the Two-Star School has selected indicators and is implementing interventions that are proven to help the student populations affected by the school’s achievement gap(s).

The ISDE will review student achievement data and other diagnostic information, such as federal program review visits, Focus School Intervention protocol, or results of Focus Visits, to determine if the Two-Star School is implementing the Rapid Improvement Plan effectively. The State will require changes be made to the plan, if necessary.

The Two-Star School and its district will be required to participate in State technical assistance opportunities, such as Response to Intervention or the Idaho Building Capacity Project that will best meet the needs of the students who are struggling in their school.

This approach has been successful at assisting Idaho schools in meeting the State’s adequate yearly progress goals; in significantly decreasing the percentage of schools identified for improvement, corrective action, and restructuring under current ESEA requirements; and for raising student achievement outcomes in general. For example, of 22 schools in the third cohort of the Idaho Building Capacity Project, the average school saw positive gains in the percent of students scoring proficient or advanced between 2009 and 2011 in both the students’ categories and the primary sub-groups for both Reading and Math. This is demonstrated in Table 37.

**Has the SEA identified interventions that are appropriate for different levels of schools (elementary, middle, high) and that address different types of school needs (e.g., all-students, targeted at the lowest-achieving students)?**

Through the development of the Rapid Improvement Plan, the Two-Star School must take into account its grade levels and individual needs. The WISE (Ways to Improve School Effectiveness) Tool is a web-based system for school improvement planning that is made up of 88 indicators. Each indicator is tied to researched best practices on how to effectively improve student achievement for all students, including English language learners, students with disabilities and low-achieving students. The indicators can be adjusted to meet a school’s individual needs, as necessary.

The ISDE and district ultimately will be responsible for approving the school’s Rapid Improvement Plan. Through this approval process, the ISDE and district will make sure the Two-Star School has selected indicators and is implementing interventions that are appropriate for its grade levels and student needs.

The ISDE and district will monitor the school’s progress and ensure the Rapid Improvement Plan is working effectively for students. If not, the plan will be adjusted to better meet students’ needs.

2.E.iv Provide the criteria the SEA will use to determine when a school that is making significant progress in improving student achievement and narrowing achievement gaps exits focus status and a justification for the criteria selected.

**Did the SEA provide criteria to determine when a school that is making significant progress in improving student achievement and narrowing achievement gaps exits focus status?**

Once identified, Two-Star Schools will remain in the Two-Star category unless they meet the exit criteria or drop into the One-Star category. Under Idaho’s accountability plan, a school
can exit from the Two-Star category once it makes enough progress to rank as a Three-Star School or higher for two consecutive years. (See Section 2.A.i. for more details on Idaho’s Star Rating System.) If a Two-Star School ranks in the One-Star category for two consecutive years, it will be required to implement the Turnaround Plan and interventions required of a One-Star School. Table 38 illustrates the sequence of events from entrance to exit related to the Rapid Improvement Plan associated with focus schools.

Schools identified as Focus Schools in Table 2 based off of data from the 2011-2012 school year must implement all requirements of Two-Star schools starting in Fall 2012 regardless of their Star Rating. To exit this Focus Status, they must implement the interventions for a minimum of three years and must obtain a Star Rating of a 3 Star or higher.

For all other Two-Star Schools, the exit criteria are based upon two consecutive years of performance in the Star Rating performance framework. The performance framework is comprised of a comprehensive set of metrics (student achievement, student academic growth, secondary opportunities, graduation, etc.). In order to move to a new level (i.e., a higher Star Rating), the school must attain higher scores across multiple measures.

Thus, if a school is able to improve its performance and sustain it for two years in a row, it has demonstrated significant progress from its initial identification as one of the lowest-performing schools in the State. The State chose two consecutive years at a Three-Star Rating or better, because Four- and Five-Star schools are high performing and a Three-Star rating places the school in the typical domain of “continuous improvement” where the majority of schools will be working with LEA oversight. A Three-Star school has demonstrated it does not have the intense need for intervention based upon its performance.

As mentioned in Table 38, if a school has not met the exit criteria by the end of the third year in focus status, the state will intervene as appropriate in district governance. If a school has not improved by that time, the district is considered to be responsible. The intervention with the district will include actions as described in Section 2.A.i.a – Part II within the context of the Instructional Core Focus Visit.

The State will diagnose the level of need for a change in governance based on the process described in the Focus Visit and, along with data provided from the three years of planning that did not result in improvement, work with the district, the school board, or the community to make whatever changes appropriate.

<td></td>
<td></td>
</tr>
</tbody>
</table>

23 Star Ratings lag one school year behind the year in which they are earned because assessment data are produced each Spring and reported in the summer prior to the following school year. For example, if during the Spring testing window for 2011-12, a school performed in such a way as to earn a Three Star rating, the Three Star rating would go into effect for 2012-13, immediately after the Spring data are finalized and released. Entrance to the requirements for Two-Star schools is based on two consecutive years in which a Two-Star rating or less is earned. In other words, the first year may be One-Star and the second Two-Star, or Two-Star then One-Star, or both years may be Two-Star in order to enter the requirements associated with Two-Star Schools that lack progress. Schools identified as Focus Schools in Table 2 based off of data from the 2011-2012 school year must implement all requirements of Two-Star schools starting in Fall 2012 regardless of their Star Rating. To exit this Focus Status, they must implement the interventions for a minimum of three years and must obtain a Star Rating of a 3 Star or higher.

a. Do the SEA’s criteria ensure that schools that exit focus status have made significant progress in improving student achievement and narrowing achievement gaps?

The performance framework by which the State evaluates progress includes measurements of proficiency, growth, growth to proficiency, and postsecondary and career readiness. To exit the Two-Star category, a school must demonstrate progress across these comprehensive measures of student achievement for two consecutive years.

Is the level of progress required by the criteria to exit focus status likely to result in sustained improvement in these schools?

Based on the State’s comprehensive accountability system, the ISDE firmly believes the exit criteria of two consecutive years achieving a Three-Star ranking will result in sustained improvement for Two-Star Schools.

These schools will have demonstrated evidence of significant increases in student achievement
across proficiency, growth, growth to proficiency, and postsecondary and career-readiness metrics for more than a single school year.
TABLE 2: REWARD, PRIORITY, AND FOCUS SCHOOLS

Provide the SEA’s list of reward, priority, and focus schools using the Table 2 template. Use the key to indicate the criteria used to identify a school as a reward, priority, or focus school.

2.F PROVIDE INCENTIVES AND SUPPORTS FOR OTHER TITLE 1 SCHOOLS

2.F Describe how the SEA’s differentiated recognition, accountability, and support system will provide incentives and supports to ensure continuous improvement in other Title I schools that, based on the SEA’s new AMOs and other measures, are not making progress in improving student achievement and narrowing achievement gaps, and an explanation of how these incentives and supports are likely to improve student achievement and school performance, close achievement gaps, and increase the quality of instruction for students.

Does the SEA’s differentiated recognition, accountability, and support system provide incentives and supports for other Title I schools that, based on the SEA’s new AMOs and other measures, are not making progress in improving student achievement and narrowing achievement gaps? Are those incentives and supports likely to improve student achievement, close achievement gaps, and increase the quality of instruction for students?

The State’s accountability system provides incentives and supports that are likely to improve student achievement, close achievement gaps, and increase the quality of instruction for all students in Idaho, including those in other Title I schools.

Idaho has developed one comprehensive system of recognition, accountability, and support that applies to all schools, regardless of Title I funding. Non-Title I schools and Title I schools not identified as One-Star or Two-Star Schools will be evaluated under the same accountability system each year. All schools will be rated based on a Five-Star scale. Schools that receive a Three-Star rating are approaching the State goals for excellence in proficiency, growth, growth to proficiency, and postsecondary and career-readiness but still have areas of improvement.

Therefore, Three-Star Schools will be required to develop and implement a Continuous Improvement Plan.

The Idaho State Department of Education (ISDE) has designed a set of options for Three-Star Schools that incentivize internal motivation among school staff by (1) giving them more operational flexibility in school improvement planning at the local level, (2) creating options for participation in State support programs at no cost, (3) permitting the schools and their districts to pursue funding flexibility related to Title I set-asides, and (4) allowing Three-Star Schools to more easily transition to Four-Star or Five-Star status. Here is a brief description of these options for Three-Star Schools.
First, the Three-Star School has more flexibility in the improvement planning process. The school will develop and implement a Continuous Improvement Plan in the WISE Tool\textsuperscript{24}, the State’s web-based school improvement planning tool. Whereas One-Star and Two-Star Schools must address plans that meet all 88 indicators in the WISE Tool, Three-Star Schools will have more flexibility and only need to address indicators that align with the school’s areas of need. The plan will be annually revised and updated. The ISDE will review the plan for effectiveness.

Second, the ISDE will offer Three-Star Schools the opportunity to participate in statewide technical assistance activities offered through the Statewide System of Support. Participation in training, leadership support networks, or intensive improvement coaching is available at no cost to the Three-Star School. For example, if the Three-Star School and the ISDE determine the school needs technical assistance in building instructional leadership within the school, then the school can participate in the Idaho Building Capacity Project. Through this project, the school will receive on-site coaching from a veteran educator for up to three years.

Third, the ISDE will give Three-Star Schools more financial flexibility as they implement their Continuous Improvement Plans. Three-Star Schools as well as Four-Star and Five-Star Schools will receive optional fiscal flexibility and will not be required to set-aside Title I-A funding for professional development according to the definitions and parameters defined in this request.\textsuperscript{25}

In addition, ISDE will ensure that Three-Star Schools are given priority in grant opportunities (prior to Four- and Five-Star Schools) to obtain additional funds to support improvement efforts, as appropriate and as permitted by grant regulations.

Fourth, the State’s accountability system creates an incentive for schools to move up to a Four-Star or Five-Star rating, where they can earn rewards and public recognition. Three-Star Schools will be able to transition more easily to the Four-Star rating or higher. Under Idaho’s accountability system, a Three-Star School can move to a new rating in just one school year.

The ISDE and districts will make sure these incentives and supports improve student achievement outcomes in Three-Star Schools. Similar to the improvement planning process for One-Star and Two-Star Schools, the district in which a Three-Star School is located will play a critical role in the development and implementation of the school’s Continuous Improvement Plan. Specifically, districts will be required to review the school’s Continuous Improvement Plans each year, provide feedback and approve the plans prior to submitting such plans to the ISDE.

\textsuperscript{24} The WISE (Ways to Improve School Effectiveness) Tool is a web-based system for school improvement planning. It is made up of 88 indicators aligned to researched best practices.

\textsuperscript{25} A complete definition and description of the set-aside is provided in Attachment 12.
ISDE will provide a specific rubric for Three-Star Schools, and the district will use this rubric to conduct peer review sessions either within the district or through partnerships with other school districts. The peer review will ensure a high-quality implementation of the Continuous Improvement Plan. The district will make online reports on its progress and support of the Three Star School through the WISE Tool. ISDE will work with Three-Star Schools by reviewing the Continuous Improvement Plan, monitoring district reports in the WISE Tool and providing schools with access to technical assistance through the Statewide System of Support.

Through these incentives and supports at the State and district levels, the State will make sure other Title I schools and non-Title I schools improve student achievement, close achievement gaps, and increase the quality of instruction for all students in Idaho.

Idaho will include AMOs in the State report card for use in setting goals and measuring progress. Additionally, objectives are inherently embedded into the Star Rating System. As described on p.137 of the state plan, the Star Rating System applies to all schools, including Title I schools. The Star Rating for each school accounts for progress in the areas of absolute student achievement, student growth from one year to the next, and postsecondary readiness. If any school is not making appropriate progress in the Star Rating performance framework, they will be identified in the One-, Two-, or Three-Star categories and will be required to abide by the associated requirements.

The requirements for these schools will include improvement plans in which areas of weak performance must be addressed (e.g., performance framework areas that need improvement or AMOs that were missed). For example, if a school misses an AMO in Reading for English Language Learners, the WISE Tool plan created must include strategies that support the improvement of this population’s performance. Specifically, schools with an overall rating of Three Star or lower will be required to build into their Continuous Improvement Plan (Three Star), Rapid Improvement Plan (Two Star) or Turnaround Plan (One Star) a plan specifically for reaching the AMOs for any subgroup or overall group that does not reach the target.

Further, the WISE tool indicators will be structured to focus on the AMOs in reading, language usage and mathematics. In addition, any Five-Star School that fails to meet an AMO in any subject at the overall or subgroup level will not be eligible for the classification of a Highest-Performing School.

Regarding schools that are not identified for focus or priority status, and which have not attained a Four- or Five-Star Rating, they are required to implement the AMO Continuous Improvement Plan requirements. The incentives and supports are already described in Section 2.F.i.

---

26 Local peer review is a process that balances local review by and assistance from the district for each school. It is assisted by quality control review processes in which the State supports the district. A full description is provided in section 2.A.
Based on peer review feedback, the State will add the following incentive to its plan. The State will include leaders from Four- and Five-Star schools in the peer review process of improvement plans as a form of recognition for reward schools and to serve as examples and support to Three-Star schools.

Section 2.F of Idaho’s plan does describe incentives and supports that are to be provided to other Title I schools that are not priority schools or focus schools. For example, Three-Star schools must plan and implement Continuous Improvement Plans and their associated requirements, such as the alignment of State funds and teacher evaluation to the improvement process. The State estimates based on 2010-2011 and 2011-2012 preliminary data that approximately 40% of schools will be rated Three-Star Schools which will be required to implement the Continuous Improvement Plan requirements.

During the 2014-2015 School Year the ISDE and AdvancEd will pilot the Assist tool as the for school improvement requirements for a limited number of 3 star schools that are also required to submit plans for accreditation. During this time the ISDE and AdvancEd along with Northwest Accreditation Council work together to identify any areas that may not be addressed with the Assist tool.

**Funding for Support of Other Title I Schools:**
As described in this section, Idaho will offer various support programs to Other Title I schools at no cost to the school. Idaho will fund participation in these programs by providing services directly, as appropriate, to Title I schools that have earned Three-Stars or less according to the Star Rating System and whose LEAs have applied for School Improvement funds under section 1003(a) of the ESEA. LEAs may request that the state hold back funding to provide services directly to their school(s) from 1003(a) as part of the annual competition process. Eligibility, priorities, and general processes governing the application process for 1003(a) funds are described in Attachment 32 (Idaho ESEA Flexibility Waiver and Amendment Request for 1003a Funds).
2.G BUILD SEA, LEA, AND SCHOOL CAPACITY TO IMPROVE STUDENT LEARNING

2.G Describe the SEA’s process for building SEA, LEA, and school capacity to improve student learning in all schools and, in particular, in low-performing schools and schools with the largest achievement gaps, including through:

i. timely and comprehensive monitoring of, and technical assistance for, LEA implementation of interventions in priority and focus schools;

ii. holding LEAs accountable for improving school and student performance, particularly for turning around their priority schools; and

iii. ensuring sufficient support for implementation of interventions in priority schools, focus schools, and other Title I schools identified under the SEA’s differentiated recognition, accountability, and support system (including through leveraging funds the LEA was previously required to reserve under ESEA section 1116(b)(10), SIG funds, and other Federal funds, as permitted, along with State and local resources).

Explain how this process is likely to succeed in improving SEA, LEA, and school capacity.

Is the SEA’s process for building SEA, LEA, and school capacity to improve student learning in all schools and, in particular, in low-performing schools and schools with the largest achievement gaps, likely to succeed in improving such capacity?

Section 2.G asks how Idaho will monitor the progress for priority and focus schools. Section 2.G.a outlines the primary components for how the State will monitor and interact with priority and focus schools. First, the improvement planning process entailed in the WISE Tool is monitored before, during, and after identification for priority and focus status. Planning is connected to the AMOs and performance framework for each school since strategies must be included for specifically reaching the AMOs for any subgroup or overall group that does not reach the target. In addition, any Five-Star School that fails to meet an AMO in any subject at the overall or subgroup level will not be eligible for the classification of a Highest-Performing School in order to maintain a focus on all students. The State evaluates the quality of the plan as does the district. Furthermore, Capacity Builders provided to priority and focus schools are responsible for working with the school and district leadership team to ensure that the planning process aligns with the needs that are demonstrated in the school’s performance data (achievement, growth, subgroup performance, graduation rates, etc.). To review the WISE Tool plans, the State uses a rubric that measures the objectives created, the tasks identified, and (after the first year) the evidence that implementation is occurring. Progress in planning and evidence is monitored yearly. Second, Star Ratings change yearly.
The district and the State monitor the changes in performance each year to ensure alignment between performance and interventions. Third, Focus Visits occur annually in One-Star schools.

The State uses this to have an onsite monitoring process that aligns with the turnaround principles.

Monitoring of the implementation takes place to ensure alignment with the planning that occurs in the WISE Tool. Fourth, technical assistance programs take place anywhere from quarterly (RTI training) to weekly (first year IBC). These programs are aligned with the Focus Visit, the WISE Tool, and the accountability system in general. Our technical assistance providers monitor the progress of schools during each interaction. For example, RTI coaches and IBC Capacity Builders regularly monitor implementation activities and provide feedback “down” the line to leadership teams at the school and district and “up” the line to personnel at the SEA.

The ISDE has described how it will build capacity at the school, district and State level through the improvement planning process, effective implementation of an improvement plan and technical assistance offered through the Idaho Statewide System of Support. All these processes are aligned with researched best practices and will be evaluated on a regular basis by the district and the State to ensure they are working effectively at the school level. If not, changes will be made accordingly to best meet the needs of the students in the school.

Idaho’s accountability system will build capacity at the State, district and school levels for the following reasons.

First, strong performance at the district level is necessary for improvement to take place the school level. The ISDE ensures that districts play a critical role in the improvement planning and implementation process. The ISDE, district and school work together to develop an improvement plan for schools. The plans will vary depending on the schools’ needs, but each entity uses the web-based WISE Tool to write and review the improvement plan. Through this planning process, the State ensures both the district and school address leadership needs.

Second, when schools participate in technical assistance activities or support programs, such as Response to Intervention training or the Idaho Building Capacity Project, the ISDE requires district leadership to enter into performance agreements that detail expectations for how the district also will be involved in the project and support the schools. To build capacity at the State level, the ISDE has formed partnerships with institutions of higher education, such as Boise State University, to successfully implement and sustain the Idaho Building Capacity Project and other critical technical assistance activities.
Third, when the ISDE conducts professional development opportunities for Response to Intervention or other programs that work to strategically meet the needs of English language learners, students with disabilities and low-achieving students, the trainings are designed to support leadership teams. The ISDE focuses on a district or school leadership team, rather than only individuals, to ensure the program is sustained.

These trainings require all district leadership roles to be present, such as the superintendent, federal programs director, LEP director, special education director, curriculum director.

Fourth, all improvement activities are tied to research. The ISDE requires districts and schools to develop improvement plans using the web-based WISE Tool because it includes indicators that are tied to research. This bolsters the improvement process because teams know how to connect their learning to the planning expectations the ISDE has put in place.

Fifth, improvement activities at the district and school levels are evaluated annually by the State and the school district to make sure the school’s improvement plan is working effectively to raise student achievement or close achievement gaps. The State and district use achievement data and other diagnostic factors, such as on-site Focus Visits or federal program review visits, to conduct the evaluation. If the plan is not working effectively, the State and district will work with the school to revise its plan or offer additional technical assistance activities aligned to the school’s needs.

In these ways, the State is making sure it is building leadership capacity at every level. The ISDE integrates a State role, district role and school role into every planning, implementation and review process. The effectiveness of this model will ensure leaders at all levels gain the knowledge and skills they need to support teaching and learning and implement continuous, substantial improvement after the State’s involvement ends.

The ISDE believes this system of accountability will work to improve student achievement and close achievement gaps because it is based on research and based on previous successes in the State. Idaho became the subject of a case study on promising practices within the Statewide System of Support in 2010. The National Center on Innovation and Improvement (CII) published *Transforming a Statewide System of Support: The Idaho Story* (Lane, 2010) highlighting how the State’s model has resulted in changed partnerships with districts and schools in a way that is contributing to improved student achievement and sustainable improvement across the State. The following is an excerpt for the findings of the study:
The original purpose of this case study was to document how Idaho had developed its statewide system of support. In the process of documenting Idaho’s story, what we found was a state that has dramatically altered its relationship with districts and schools. In three years, beginning in 2008, the Idaho Department of Education has transformed its approach to working with schools, revised (or created anew) all the tools that they use with schools around school improvement, and developed a set of institutional partners that strengthen the system, thereby contributing to the sustainability of overall improvement efforts.

Perhaps most telling is the fact that by the end of the 2010 school year, many schools and districts not identified for improvement began to request access to the same supports and assistance provided to underperforming schools...Idaho is developing a system of support for all schools, not just those identified as low performing by state and federal accountability systems (Lane, 2010).

The plans outlined in Idaho’s waiver request build on the success that the State has already experienced. Based on evidence provided by cases studies, such as the Lane (2010) study of the Idaho Statewide System of Support, and the timeframe for when the IBC program, the WISE Tool, and the other programs that are included in this plan were put into place, Idaho attributes this statewide improvement largely to its system of support. The system has a track record of improving achievement, and, therefore, has demonstrated the capacity necessary to implement the programs described.

The waiver therefore provides a more comprehensive means to implement what is needed, albeit with a shift in the performance framework. In other words, we may be focusing on different schools because of the new Star Rating performance framework, but the capacity for the planned activities already exists. For example, Idaho’s most labor intensive project, the Idaho Building Capacity Project, has served over 100 of the state’s approximately 650 schools, and more than 40 of Idaho’s school districts since January 2008. This 15% of all the schools in the entire state, not just Title I schools, and equals about 30% of Idaho’s districts. Considering the IBC Project only currently serves Title I schools that are in improvement status, the project has worked with 25% of the 400 Title I served schools in the state. Serving the priority schools and focus schools (which represent only 15% of Title I schools, or about 60 schools) would actually take less capacity than what is currently exerted. Furthermore, among IBC school sites, proficiency rates have increased substantially in the all students categories and among subgroups, as is demonstrated in Table 33.

The improvements that have been experienced in Idaho demonstrate that the capacity of the SEA, LEAs, schools, and the external partners that are involved in the work is sufficient to continue what is proposed in Idaho’s plan.
However, in order to continue improving SEA capacity, Idaho has entered into a Research Alliance with the Regional Education Laboratory (REL) at Education Northwest in Portland, OR. This alliance begins in May 2012 and continues throughout the contract period of the REL agreement with the U.S. Department of Education. The alliance is centered on evaluating the Statewide System of Support (SSOS) in order to promote continuous improvement within SSOS programs and their impact on districts and schools.

The SSOS-REL Alliance is made up of core members from the SEA who are responsible for implementing the support programs identified in this plan and receives advisory input from Idaho stakeholders in schools, districts, and institutes of higher education. This endeavor will continue to build SEA capacity and will have a direct impact on LEA capacity.

a. Is the SEA’s process for ensuring timely and comprehensive monitoring of, and technical assistance for, LEA implementation of interventions in priority and focus schools likely to result in successful implementation of these interventions and in progress on leading indicators and student outcomes in these schools?

The ISDE has described a plan to evaluate improvement plans and interventions in One-Star and Two-Star Schools on a regular basis. Every One-Star and Two-Star School must submit an improvement plan through the WISE Tool, the State’s web-based school improvement planning tool. The WISE Tool has indicators tied to research in school improvement. Each district in which a One-Star or Two-Star School is located also must develop and submit an improvement plan. All interventions must be aligned to the indicators in a school or district’s improvement plan. Here are the ways in which the improvement plans for One-Star and Two-Star Schools will be monitored:

First, the WISE Tool contains several ways in which the State and school districts can monitor improvement activities. It is accessible at the State, district and school levels so staff at all levels can coordinate planning and provide feedback. External improvement coaches, such as those provided through the Idaho Building Capacity Project, will have access to the WISE Tool to comment on improvement plans. The Tool includes timelines and self-monitoring procedures to promote internal responsibility and team planning.

Second, the ISDE and the school district are responsible for evaluating the effectiveness of the One-Star or Two-Star school’s improvement plan annually. The ISDE also will evaluate the district’s improvement plan annually.
The ISDE and district will use student achievement data and other diagnostic information, such as Focus Visits (if conducted) or federal program reviews. If a plan is not being implemented effectively, the ISDE and district will make changes to the plan or interventions offered to the school.

**Did the SEA describe a process for the rigorous review and approval of any external providers used by the SEA and its LEAs to support the implementation of interventions in priority and focus schools that is likely to result in the identification of high-quality partners with experience and expertise applicable to the needs of the school, including specific subgroup needs?**

The ISDE has described a rigorous review and approval process for external providers. The following is the process the ISDE will use.

Many of Idaho’s districts and schools are located in rural and remote areas. Thus, it is unlikely that new external providers will be available to assist One-Star or Two-Star Schools in their efforts to improve student learning. As such, ISDE does not intend to maintain a state list of newly approved providers. However, the ISDE has existing partnerships with Idaho’s three institutions of higher education (IHEs), which serve as approved external partners and have a track record of providing high-quality services in every region of Idaho.

These approved providers include the Center for School Improvement at Boise State University, the Intermountain Center for Education Effectiveness at Idaho State University, and the College of Education at the University of Idaho.

If school districts desire to utilize additional external providers, they may choose to do so at a local level. To attain State approval, the district must define the plan for services, the costs entailed and governance relationships agreed upon in each applicable One-Star or Two-Star School through the district improvement planning process, submitted to the ISDE in the WISE Tool.

The plans for other external providers will be evaluated on a case-by-case basis by the Statewide System of Support (SSOS) Leadership Team, which oversees the review and approval of all improvement plans and associated requirements. Districts plans for other external providers will be evaluated based on the degree to which they demonstrate:

- a rigorous and thorough review, or screening, of available external providers has been conducted by the district
- a rigorous and thorough bidding process has been conducted by the district, if more than one choice is available
- that the external provider’s services align with the implementation of the turnaround principles as defined in the Idaho Accountability Plan
the external provider is sufficiently qualified to provide the services necessary for implementation of the turnaround principles or associated services

If the plan for utilizing a previously unapproved external provider is found lacking, the SSOS Leadership Team will provide direct support and assistance to district leadership in the process of recruiting, screening, and selecting such providers, and then require the plan to be revised as appropriate.

b. Is the SEA’s process for ensuring sufficient support for implementation in priority schools of meaningful interventions aligned with the turnaround principles (including through leveraging funds the LEA was previously required to reserve under ESEA section 1116(b)(10), SIG funds, and other Federal funds, as permitted, along with State and local resources) likely to result in successful implementation of such interventions and improved student achievement?

The SEA’s process for ensuring sufficient support for implementation in One-Star Schools of meaningful interventions is aligned with the Turnaround Principles and likely to result in successful implementation of such interventions and improved student achievement.

The interventions, planning, and expectations for implementation that ISDE has created for schools in One-Star status are comprehensive and integrated across multiple support programs and aligned with each other.

The Turnaround Principles are embedded in the improvement planning process that all One-Star Schools must complete through the WISE Tool, a web-based school improvement planning tool with 129 different indicators. Additional actions, such as the support of effective teaching and learning through professional development and the temporary support needs of students, are enabled through leveraging district funds previously targeted to specific activities under ESEA Section 1116(b)(10).

Districts with One-Star Schools are still required to set aside funds for professional development according to the definitions provided in the Idaho Accountability Plan. Additionally, the State leverages funds through section 1003(a) and 1003(g) allocations as permitted within ESEA to deliver and provide services directly to schools and their districts as well as provide grants directly to the district to pay for other innovations at the local level. Lastly, the State has written flexibility into this waiver request with the intent of aligning other Federal funding streams, such as 21st Century Community Learning Centers, to support extended learning time for students in need of support.

An additional process the State plans to use to support successful implementation of the Turnaround Principles is the coordination of State funds to reward teachers in hard-to-fill and leadership positions. In 2011, Idaho passed comprehensive education reform laws, known as “Students Come First,” that includes a statewide
pay-for-performance plan to reward teachers for improvement student achievement, working in hard-to-fill positions and taking on leadership duties.

In the 2012-13 school year, school districts will work with teachers to develop plans to identify the hard-to-fill positions and leadership duties that should be awarded at the local level. Plans and bonuses will vary from district to district.

The State will provide funding in Fall 2013 for districts to offer rewards in these two areas to support effective teaching and leadership. For example, districts can use these funds to incentivize job-embedded instructional coaching by providing bonuses to teacher leaders. For more information on Students Come First laws, see http://www.studentscomefirst.org/bill.htm.

c. Is the SEA’s process for holding LEAs accountable for improving school and student performance, particularly for turning around their priority schools, likely to improve LEA capacity to support school improvement?

The SEA’s process for holding districts accountable for improving school and student performance, particularly for turning around One-Star Schools, is likely to improve district capacity to support school improvement.

As has been described throughout the flexibility request, Idaho has designed all of its K-12 educational support systems with significant consideration given to district leadership capacity and the ways in which districts develop and support school leadership capacity that is necessary to support school improvement.

- First, the district must be involved in the One-Star School’s improvement planning process and implementation of its improvement plan. ISDE holds districts accountable for their responsibility through multiple means, one of which is State review of school improvement plans the district has already approved via local peer review. Subsequently, ISDE will offer assistance to the district and work with them to improve the plans and/or improve the district’s capacity to help its schools improve student learning.

- Second, ISDE programs emphasize the development of district leadership capacity along with school leadership. For example, the Idaho Building Capacity Project ensures that for every participating school that is in need of improvement, there is an external Capacity Builder, or improvement coach, who also works with the district superintendent and district leadership team on improvement of the district system.

- Third, ISDE designs and delivers training opportunities for Response to Intervention and other initiatives to district leadership teams to ensure they have the capacity to implement sustainable school improvement practices. District and school leadership teams must work in tandem to achieve higher student outcomes, especially in turning around the lowest-performing schools.
PRINCIPLE 2: SUMMARY

The Idaho State Department of Education (ISDE) is seeking to maximize the flexibility being offered within ESEA in order to build on previously successful practices and move to a more comprehensive approach to improvement and accountability. The State strongly believes in the moral imperative to improve the academic outcomes of all students, but especially those most at risk. The State has experienced a reversal in the trajectory of schools identified for improvement, and ISDE has developed a plan for differentiated recognition, accountability, and support in order to capitalize on the momentum of the past few years.

The State recognizes that it still must work to improve the academic outcomes of students who are at risk. In order to differentiate between the needs of schools and districts, the State model is changing from a conjunctive system of achievement targets to a performance framework that is compensatory in nature. As such, schools and districts will be classified on a spectrum of performance, with points accumulated across multiple metrics, and will be subsequently labeled each year using a Five-Star Scale to differentiate between the highest and lowest levels of performance.

In response to the need of each school and district, the State has designed recognition opportunities, accountability requirements, and support mechanisms that appropriately match each system’s performance. In order to leverage substantial improvement in the lowest performing schools and districts, the State will provide intensive intervention and support opportunities. This comprehensive approach is developed with the intent that all schools and districts will ultimately meet high expectations and move across the Five-Star Scale into the highest levels of performance (i.e., Four- and Five-Star Status).
## PRINCIPLE 3: SUPPORTING EFFECTIVE INSTRUCTION AND LEADERSHIP

### 3.A  DEVELOP AND ADOPT GUIDELINES FOR LOCAL TEACHER AND PRINCIPAL EVALUATION AND SUPPORT SYSTEMS

Select the option that pertains to the SEA and provide the corresponding description and evidence, as appropriate, for the option selected.

</table>
iv. a description of the process used to involve teachers and principals in the development of the adopted guidelines and the process to continue their involvement in developing any remaining guidelines; and

v. an assurance that the SEA will submit to the Department a copy of the remaining guidelines that it will adopt by the end of the 2011–2012 school year (see Assurance 14).

**PRINCIPLE 3 – INTRODUCTION**

This section primarily provides an overview of work already done in Idaho around teacher evaluation, the efforts to strengthen evaluations for continuous improvement, and the processes in place to create a system for administrator evaluation:

Idaho has created, and continues to develop, statewide frameworks for performance evaluations that use multiple measures to improve the craft of teaching and instructional leadership at all levels. Under Students Come First, at least 50 percent of teacher and administrator performance evaluations must be based on student achievement. Two other required measures of educator performance are parental input and observation.

Districts must make sure that parent input is included on teacher and school-based administrator performance evaluations going forward. This data must be considered as part of the overall evaluation, however, districts have local control over by what means they collect and at what percentage they calculate parent information into the evaluation equation. Additionally, every school district is currently using the Statewide Framework for Teacher Performance Evaluations, based on the Danielson Framework for teaching. The states goal is to increase the frequency of interaction between teachers and administrators around this model, and ensure that data-gathered from evaluations informs ongoing professional growth.
Currently, the Idaho State Department of Education is working with educational stakeholder groups to develop the specifics of a statewide framework for administrator evaluations to ensure this goal.

One of the priorities of the State is to emphasize the principal’s role as an instructional leader who is proficient in assessing teacher performance and carrying out reflective conversations to promote each teacher’s growth. This work is underway and should be completed by May 2012. Once established, the State intends to use this framework to make necessary changes within administrator preparation programs, and to implement Individual Professional Performance Plans for both teachers and administrators prior to initial certification.

In March 2011, Idaho lawmakers enacted Students Come First; a significant new law mandating unprecedented change for the State’s K-12 schools. One of the three foundational pillars underlying Students Come First is dedicated to developing great teachers and leaders in Idaho, with the goal for every student to have a highly effective teacher every year of his or her schooling. At the center of this pillar is an emphasis on teacher and administrator evaluations.

These evaluations build on Idaho’s past work to create a Statewide framework for teacher performance evaluations to further ensure that all educator evaluations involve multiple measures, with at least 50 percent of the evaluation based on growth in student learning. The landmark legislation provides for the following (see Idaho Code 33-513 through 33-515 and 33-1004I), http://legislature.idaho.gov/legislation/2011/S1108.pdf and http://legislature.idaho.gov/legislation/2011/S1110.pdf:

- Educators will be evaluated based on their impact on student growth, with not less than 50 percent of academic growth accounting for an educator’s total evaluation;
- Evaluation will serve as a basis for making decisions in the areas of hiring, compensation, promotion, assignment, professional development, earning and retaining non-probationary status, and non-renewal;
- Annual performance evaluations will be made for all teachers and principals; and,
- Forced placement of teachers is prohibited. This means that no building administrator may be forced to employ a teacher released or otherwise displaced from another school within the district.

A timeline outlining key events in the development and confirmation of adoption of Idaho’s educator evaluation policy is included as Attachment 10.
The events included in this timeline illustrate a comprehensive plan that will likely lead to the development of evaluation and support systems that increase the quality of instruction for students and improve student achievement. Attachments 10 and 11 provide evidence of Idaho’s commitment to a rigorous and relevant evaluation system reflected in policy changes in all phases; from full implementation to proposed rule. Together, these changes represent a comprehensive system for evaluation that will be used for continual improvement of instruction and will meaningfully differentiate educator performance using multiple, valid measures and emphasizing student growth.

i. Evidence of the adoption of the guidelines (Attachment 11):

ii. The SEA’s plan to develop and adopt the remaining guidelines for local teacher and principal evaluation and support systems by the end of the 2011–2012 school year:

   The teacher evaluation guidelines were adopted by the Idaho Legislature in March 2011. Development and adoption of the administrator evaluation guidelines will follow the same process, with recommendations going to the State Board of Education in April 2012. The ISDE and educational stakeholder groups have discussed administrator evaluation since Idaho developed a Statewide Framework for Teacher Performance. In May 2008, the first task force was charged to develop “minimum Statewide standards for a fair, thorough, consistent and efficient system for evaluating teacher performance in Idaho.” They completed their work in April 2009 but in December 2011, the ISDE convened a Focus Group to start work in the area of crafting a Statewide Framework for Administrator Performance.

   In the first few months of this work, all stakeholders have shown strong support for the development of a rigorous framework for administrator evaluation; thus; suggesting successful adoption of the related/necessary policies in the 2011-2012 school year.

   ISDE held its first meeting with representatives from educational stakeholder groups on December 15, 2011. Participants included:
   • Administrators from both large urban and small rural districts
   • Public School Teachers
   • Central District Staff—Directors of Curriculum and Special Education
   • Idaho Education Association President
- School board trustees from both large urban and small rural districts
- Higher education representatives
- Idaho PTA representative
- Office of the State Board of Education representative
- Office of the Governor representative
- Senator John Goedde, Idaho Legislature
- Senator James Hammond, Idaho Legislature
- Senator Steve Bair, Idaho Legislature

(See Attachment 15 - Meeting Minutes from December 15, 2011)

This Focus Group will continue to meet once monthly. ISDE has created a webpage at http://www.sde.idaho.gov/site/teacherEval/ where interested stakeholders and members of the public can track the group’s progress, find links to the research and provide feedback to group members. The group plans on concluding its work by May 2012.

In addition to the Focus Group, ISDE has formed a smaller working group that will also meet monthly to plan for the larger group meetings and specifically craft related State’s policy based on stakeholder feedback. The smaller working group consists of the Executive Director of the Idaho Association of School Administrators, the Executive Director of the Idaho School Boards Association, the Executive Director of the Idaho Education Association, and ISDE staff.

(See Attachments 15 and 16 - Meeting Minutes from November 2011 and January 2012 meetings.)

The work of the Administrator Evaluation Focus Group has been completed. The State Board of Education has received an informational summary of the recommendations from the Administrator Evaluation Focus Group at the June 2012 meeting. Those recommendations have been converted into a proposed rule based on feedback from the board which will be brought back to the board at the August 2012 meeting (See Attachment 31). Throughout the process, the Administrator Evaluation Focus Group has made every effort to keep all stakeholders apprised of the work, and provide opportunities for feedback. While a number of principals and their association representatives have been directly involved in the work of the focus group, information has been disseminated to all administrators statewide updating them on the work of the focus group and the recommendations that will be made to the state board.

iii. Description of the process used to involve teachers and principals in the development of the adopted guidelines and the process to continue their involvement in developing any remaining guidelines:

Idaho values stakeholder input, even beyond teachers and principals, in developing evaluation policy, and will continue to provide avenues for input in developing remaining guidelines.
In Fiscal Year 2009, $50,000 was legislated to fund the research and development activities of the Teacher Evaluation Task Force as briefly referenced above. The task force was comprised of key stakeholders from across Idaho who shared a desire to improve education through a consistent set of statewide standards for teacher evaluation.

Teachers, parents, school administrators, school board trustees, legislators, and representatives of higher education were involved in the Teacher Performance Evaluation Task Force. The task force met initially in May 2008 with the charge of “developing minimum statewide standards for a fair, thorough, consistent and efficient system for evaluating teacher performance in Idaho.”

(See Attachment 17 – 2010 Legislative Report on the Teacher Performance Evaluation Task Force)

Key findings of the Teacher Evaluation Task Force included:

1. Idaho lacked consistency, reliability and validity in measuring teacher performance. Both the standards and procedures by which teachers were being evaluated lacked consistency from one school district to the next and often within a district from one school to another.

2. Many teachers expressed concern about the quality, fairness, consistency, and reliability of teacher evaluation systems that were being used.

3. Many school districts had spent considerable resources creating robust, research-based teacher performance evaluation models (but disparate) that were developed with stakeholders involvement.

4. Idaho’s school administrator preparation programs needed to focus more on the supervision and evaluation of teachers in a purposeful, consistent way.

5. A majority of Idaho’s school districts were utilizing a teacher performance evaluation model based on Charlotte Danielson’s Framework for teaching domains and components of instruction.

6. Idaho’s Core Teaching Standards, used in pre-service teacher education and key to the ongoing professional development for practicing teachers, were aligned with Charlotte Danielson’s Framework for teaching domains and components of instruction.

Based on task force recommendations, the Idaho State Board of Education and Idaho Legislature subsequently approved administrative rule changes to adopt a Statewide Framework for Teacher Performance Evaluations in Idaho in January 2009. (See Attachment 18 – Idaho Administrative Rule IDAPA 08.02.02.120; http://adm.idaho.gov/adminrules/rules/idapa08/0202.pdf.) The following timeline for implementation of the new Idaho teacher performance evaluation standards was then...
adopted and executed:

- **Summer 2009:** The Idaho State Department of Education began offering trainings and technical assistance on teacher performance evaluation standards. These trainings were part of the technical assistance provided by ISDE designed to assist school districts in the implementation of their new evaluation models.

- **2009-10 school year:** Districts and public charter schools worked with educational stakeholders to develop evaluation models.

- **February 2010:** Districts and public charter schools submitted their proposed models for State approval. The adopted model had to be signed by representatives from the Board of Trustees (school board members), administrators, and teachers. If a school district or public charter school was not prepared to submit their evaluation model and policy for review at that time, the ISDE had to have received evidence that progress was being made toward Fall 2011 implementation. These districts and public charter schools had to submit a letter outlining progress along with a timeline for completion.

- **Fall 2010:** At a minimum, districts and public charter schools had to begin piloting their approved Teacher Performance Evaluations:
  - Districts and public charter schools were required to submit an interim progress report to ISDE regarding plan implementation.
  - A waiver process was afforded for districts and public charter schools showing evidence of progress but needing additional time before piloting.

- **Fall 2011:** Full implementation of the teacher evaluation model.

**Technical Assistance Provided by ISDE:**
Beginning in 2010-2011, ISDE provided technical assistance to school districts and public charter schools in their efforts to implement the new teacher evaluation requirements. This technical assistance included:

- **Six face-to-face regional workshops on the Charlotte Danielson Framework.** The workshops were designed for school administrators and focused on giving them a deeper understanding of the Charlotte Danielson Framework and how to use the framework for teacher evaluation purposes.

- **A contract with Educational Impact to provide 24-hour access to online video-based professional development to all public school teachers and administrator to support understanding of the Charlotte Danielson Framework.** This online training was designed to help teachers and administrators better understand the basics of the Framework.

- **A second contract with Educational Impact was authorized for the purpose of developing a custom training program targeted specifically at administrators.**
The training centered on how to use the Danielson Framework for evaluation purposes, including examination of performance artifacts and best practices in conducting pre- and post-observation conferences. The program allows administrators to view video footage of teachers in the classroom and practice evaluating teacher performance.

- A website remains posted with links to sample school district evaluation models, sample policy language, rubrics, evaluation tools, and other guidance that can be utilized by districts as they work to develop and revise their own models.

Idaho believes that these measures have, and will continue to, significantly contribute to the development of a more able Statewide teaching workforce; one that, in turn, will be better prepared to support improved student achievement. Ongoing implementation of support allows the ISDE to continue to gather feedback about staff development needs around the State.

ISDE is currently involving teachers, school administrators, legislators, and other significant stakeholder group representatives in the development of guidelines and examples of multiple measures to assess teacher effectiveness in non-tested grades and subject areas. In April 2012, a presentation to the Evaluation Capacity Task Force by a national expert from the National Comprehensive Center on Teacher Quality presented practices being used across the states to provide research and options for initial Idaho recommendations to districts. Ultimately, in accordance with Idaho Administrative Procedures Act (IDAPA) 08.02.02.120, each LEA evaluation policy must include provisions for allowing opportunities for input and ongoing review from those affected by the evaluation; i.e., trustees, administrators and teachers. Therefore these guidelines and examples to assess teacher effectiveness in non-tested grades and subject areas will be reviewed at the local level by all stakeholders prior to adoption by the LEA. With the revisions being proposed to IDAPA 08.02.02.120, a portion of the 50% of a teacher’s evaluation that is based on growth in student achievement must be based on growth as determined by the Idaho Student Achievement Test (ISAT) and Idaho’s growth model. Local stakeholders have the authority to adopt additional growth measures that meet their unique needs and that will be differentiated based on the subject and grade level being taught. Once approved by the LEA, the revised plans will be submitted to the ISDE for review and approval for alignment to Idaho statute and administrative rule.

To solicit feedback at the state level beyond the initial role of the Capacity Task Force, all aspects of evaluation systems and models for assessing teacher effectiveness will be reviewed and revised (as necessary) even after formal adoption.

The formal State Board approval of these recommendations for appropriate measures will take place at the August 2012 board meeting and legislative approval will follow in spring 2013. Following that, the State’s Professional Standards Commission shall form an additional subcommittee to work with the State’s evaluation coordinator to
provide ongoing review and inform appropriate revisions of the State’s frameworks for educator evaluation.

The next steps in a unified effort to solidify Idaho’s policy commitment to supporting great teachers and leaders to bring about improved student achievement includes creating policy for administrator evaluations in much the same way described above for teacher evaluations. ISDE is currently involving teachers, school administrators, and legislators, and other significant stakeholder group representatives in the development of the administrator evaluation, discussed in detail above. This work and a timeline for other statewide initiatives are outlined in Table 39.

v. The SEA has checked Assurance 14.
3.A.ii—Teacher and principal evaluation and support systems for which the SEA has developed and adopted guidelines, consistent with Principle 3, are systems that meet the specified waiver criteria.

Idaho’s current educator evaluation system meets the basic waiver elements set forth in 3.A.ii a-f. It is important to note, however, that all of Idaho’s related legislation recognizes the need for flexibility in a State that is deeply committed to local control. Clarification of the degree of flexibility allowed in order to maintain the balance between consistency across the State and recognition of districts’ unique needs is addressed through the rules promulgation process. Further definition of evaluation processes and timelines will be added to Idaho Administrative Rules prior to full implementation in school year 2014-15. Each element is outlined in Table 3.A.ii(a) Implementation Timeline for Proposed Rule Changes included at the end of this section.

The evaluation systems established for Idaho educators will promote reflective practice and the development of ongoing, personalized professional development plans leading to improved support for turning around low-performing schools and measurably increased student achievement for all students.

a—Idaho’s Educator Evaluation System will be used for continual improvement of instruction.

The teacher evaluation model set forth under IDAPA 08.02.02.120 was adopted in 2010 (http://adm.idaho.gov/adminrules/rules/idapa08/0202.pdf ). A significant portion of teacher evaluation is a performance assessment, based upon the Danielson Framework for Effective Teaching. Administrative rules specifically address using this evaluation model for the purpose of improving instructional practices. Subsections m and n require school districts to report the following to ISDE in order to receive evaluation plan approval:

i.—Collecting and using data—a plan for collecting and using data gathered from the evaluation tool used to inform professional development.
ii.—A plan for how evaluations will be used to identify proficiency and define a process that identifies and assists individual educators in need of improvement.

Idaho’s longitudinal data system, Idaho System for Educational Excellence (ISEE), allows administrators to track teacher evaluations over time, and to assess the student achievement gains that may result from targeted professional development for teachers. In addition, Administrative rules charge each administrator with the responsibility for being trained in personnel evaluation and districts must commit to ongoing training and funding as follows:

i.—Evaluator—identification of the individuals responsible for appraising or evaluating certificated personnel performance. The individuals assigned this responsibility should have received training in evaluation.
ii. Professional development and training—a plan for ongoing training for evaluators/administrators and teachers on the districts evaluation standards, tool and process.

iii. Funding—a plan for funding ongoing training and professional development for administrators in evaluation.

Additionally throughout Principal 2, teacher and administrator evaluations are connected to school improvement plans. Teacher and administrator performance evaluations in Idaho already require a strong tie to student performance metrics (at least 50%). The State will require One- and Two Star schools to demonstrate how teacher and administrator evaluations enhance their improvement plans by embedding the concepts in the Rapid Improvement and Turnaround Plans.

b. Idaho’s Educator Evaluation System meaningfully differentiates performance—using at least three performance levels.

ISDE developed regulations found in IDAPA 08.02.02.120 specifically to support teachers in continual improvement of instructional practices. Currently, school districts are required only to report teacher performance evaluation information in the aggregate as “proficient” or “not proficient.” However, ISDE has since begun work on revised rules that will be legislatively approved in January 2013. Revised Idaho Administrative Rule language will require districts to implement a four-tiered rating system by the 2013-14 school year. Under the rule change, there would be four performance levels for all teachers: not proficient, basic, proficient, or distinguished. Additionally, administrator evaluations shall be reported using the same four-tiered ranking system.

c. Idaho’s Educator Evaluation System will use multiple valid measures in determining performance levels, including as a significant factor data on student growth for all students (including English Learners and students with disabilities), and other measures of professional practice (which may be gathered through multiple formats and sources, such as observations based on rigorous teacher performance standards, teacher portfolios, and student and parent surveys).

Currently, Idaho’s Students Come First legislation enacted in 2011, requires that teacher performance evaluations be based upon multiple measures to include, at minimum:

1. Growth in student achievement data (Idaho Code 33-513 through 33-415B) to be weighed at not less than 50 percent in the evaluation of every educator
2. Teacher observations using the Danielson Framework for Effective Instruction (IDAPA 08.02.02.120)
3. Parental Input (Idaho Code 33-513)
Idaho is also in the process of rewriting State policies to include these requirements through Administrative Rule:

1. Multiple measures must be used to evaluate teacher performance. (State shall create a menu of State-approved measures. Preliminary work based upon NCCTQ Research, Attachment 21—Alternative Measures of Teacher Performance)

2. Data must be gathered with sufficient frequency to provide a basis for the evaluation. (State shall create a definition for “Sufficient Frequency” and develop a sample calendar for guidance)

The State is additionally exploring effective measures related to special student population to further inform teacher evaluation policies. A primary goal for Idaho is to ensure that highly effective teachers are in place throughout the public school system, especially for our most difficult to teach students. In order for the SDE to identify effective teachers, it is first necessary to define “highly effective” teaching and then to develop efficient and practical tools to measure it in the context of special education.

The Special Educator Evaluation Project focuses on these important tasks. Beginning with the most complex issue in measurement and assessment of teacher evaluation systems (i.e., special education), this project will provide critical information and insight to some of the most difficult measurement, practical and political issues that can inform the scaling up of such a system to other certification and endorsement areas. This project is under the direction of Dr. Evelyn Johnson, in partnership with the ISDE, Boise State University, and the Lee Pesky Learning Center.

The purpose of this project, under the direction of Dr. Evelyn Wood is to develop a special educator evaluation tool that a) directly links to student outcomes; b) is grounded in Danielson’s domains; c) consists of multiple sources of data; and d) provides a system for collaboration among IHE special educator preparation programs, districts, the Idaho SDE, and the National Comprehensive Center for Teacher Quality.

To accomplish this goal, we will focus on two primary objectives:

1. Develop a definition of special educator efficacy
2. Support the state’s development of a teacher evaluation system by informing the components specific to special education teachers

Participants were recruited by coordinating with existing state projects such as the New Teacher Project, State Mentor Network and graduates of state special education preparation programs.

Developing such a special education evaluation model will enable the Idaho State Department of Education to align certification standards, teacher preparation, teacher evaluation and school improvement consistent with the guidelines for a comprehensive teacher evaluation system.
The SEA has a process for ensuring that all measures that are included in determining performance levels are valid measures, meaning measures that are clearly related to increasing student academic achievement and school performance, and are implemented in a consistent and high-quality manner across schools within an LEA:

In March 2012, a workgroup comprised of key ISDE staff, external stakeholders and consultants from the Northwest Regional Comprehensive Center will form an Evaluation Capacity Taskforce that will determine a systemic way to monitor and support a process for ensuring that all measures that are included in determining performance levels are valid measures, and can be implemented in a quality manner.

This group will focus on the development of a theory of action linked to measuring performance for both teachers and principals, supporting related professional development, and creating a process for the ISDE to monitor school district’s educator evaluation systems. The goal of the group will be to produce a Statewide system of support and accountability to ensure consistent and sustainable implementation of valid evaluation systems.

This Evaluation Capacity Taskforce will also vet various measure for grades and subjects in which assessments are not required under ESEA section 1111(b)(3), and provide a menu of options for districts to begin piloting by the 2013-14 school year:

No later than August 2012, policy created by the Evaluation Capacity Taskforce will be presented for preliminary approval through the State Board of Education. Subsequently, following the rules promulgation process, the proposed policy will go out for a period of public comment in Fall 2012. Formal Legislative approval is expected to follow in Spring 2013. This timeframe will allow districts to pilot an evaluation model incorporating all of the related statutory and administrative rule changes in the 2013-14 school year. ISDE will require that each district’s plan be submitted to the State no later than January 2014 to be reviewed and approved. Each plan must include evaluation processes and specific measures for both teacher evaluation and administrator evaluation. ISDE monitoring of school district plans will begin in Fall 2015.

For grades and subjects in which assessments are required under ESEA section 1111(b)(3), the SEA defines a statewide approach for measuring student growth on these assessments:

State Superintendent Tom Luna has long been an advocate for including student academic growth measures in gauging the success of schools and teachers.
To gain a more robust assessment of how our schools, teachers, and students are performing, Idaho will supplement proficiency scores with a new form of accountability—one that recognizes and rewards academic growth in addition to achievement. This is Idaho’s Growth Model.

Idaho’s Growth Model is the Student Growth Percentiles (SGP) framework created by Damian Betebenner and utilized by the state of Colorado. The goal of including growth in Idaho’s assessments is to maximize student progress toward college- and career-readiness. To help ensure that all students are college- and career-ready by the time they exit high school, both a definition of “readiness” and a comprehensive measurement system are needed in order to determine how well students are progressing toward that goal.

The growth model adds value to proficiency assessments because it takes into account where a student starts the year academically. By grouping students who perform similarly at the beginning of the year, we can compare a student’s growth against that of his/her academic peers over time. Idaho has also adopted a metric to ensure adequate growth to a standard. As outlined in Section 2.A.i. the Adequate Student Growth Percentile will illustrate if a student has made sufficient growth to reach proficiency within three years or by 10th grade, whichever comes first.

(iii) For grades and subjects in which assessments are not required under ESEA section 111(b)(3), the SEA plans to provide guidance to LEAs on what measures of student growth are appropriate, and establishes a system for ensuring that LEAs will use valid measures:

ISDE will convene an Evaluation Capacity Taskforce, referenced above in 3.A.e(iii). This task force will vet various means of measuring student growth in grades and subjects in which assessments are not required under ESEA section 1111(b)(3), and provide a menu of options for districts to begin piloting by the 2013-2014 school year. The Taskforce shall use as a foundation NCCTQ’s “Measuring Teachers’ Contributions to Student Learning Growth for non-tested Grades and Subjects” research and policy brief on http://www.tqsourc.org/publications/MeasuringTeachersContributions.pdf.

Once the menu of options for assessment becomes available, districts will include each measure to be used for each subject and grade as a requirement for state approval of the LEA’s evaluation plan. Final evaluation plans must be submitted to the ISDE no later than Spring 2014. LEAs that do not use state approved menu options will need to provide rationale and research to support their choice. ISDE monitoring of LEA measures and implementation shall begin in Spring 2015.
d. Idaho’s Educator Evaluation System will require the evaluation of teachers and principals on a regular basis.

Educators are required to receive a performance evaluation annually according to Idaho Code 33-514):

There shall be a minimum of one (1) written evaluation in each of the annual contract years of employment, the first portion of which shall be completed before February 1 of each year, and shall include input from parents and guardians of students as a factor. A second portion shall be included for all evaluations conducted after June 30, 2012. This second portion shall comprise at least fifty percent (50%) of the total written evaluation and shall be based on objective measure(s) of growth in student achievement. The requirement to provide at least one (1) written evaluation does not exclude additional evaluations that may be performed.

By June 30, 2013, the state will additionally create guidelines for when, and what types of data, should be collected on a regular basis to provide enough information to draw fair and consistent results with respect to the evaluation of teachers and administrators. Revisions to policy shall require that novice or partially proficient teachers shall be observed at least twice annually, and that all other staff shall submit to, at least, two formative observations and/or evaluative discussions within the school year. These observations and evaluative discussions shall be used as data in completing the teacher’s one evaluation as is outlined and required by State Statute 33-514.

e. Idaho’s Educator Evaluation System will provide clear, timely, and useful feedback, including feedback that identifies needs and guides professional development.

To ensure that the feedback informing professional development is meaningful, Idaho will design an administrator evaluation framework heavily focused on Instructional Leadership. The standards for, and definition of, an effective principal will articulate how they should lead and support instructional improvements in their buildings. In December 2011, the ISDE convened a Focus Group to start work in the area of crafting a Statewide Framework for Administrator Performance. These stakeholders will meet monthly through the Spring, and have shown strong support for the development of a rigorous framework for administrator evaluation.

The plan is to adopt temporary and proposed rule to immediately enforce policies in time to pilot administrator evaluation measures in the 2012-13 school year.
Additionally, current Administrative Rule IDAPA 08.02.02.120 requires districts to provide, for State approval, a “plan for how evaluations will be used to identify proficiency and define a process that identifies and assists teachers in need of improvement.” Plans under previous statute and rule have already been approved, but another round of approvals will be necessary once all new statewide guidelines have been formally adopted.

To further ensure that evaluation results clearly guide professional development, proposed administrative rule changes will go forth in April 2012, and will include the following language under subsection 05(n):

No later than March 01, 2014, districts shall have established an individualized teacher evaluation rating system with a ranking of not proficient, basic, proficient, and distinguished. Districts shall ensure that an Individualized Professional Performance Plan is created for each teacher based upon evaluation findings, and to be used in subsequent years as the baseline measurement for professional development and growth.

Similar language pertaining to Individualized Professional Performance Plans will appear in administrative rule guiding the evaluation of administrators (See Attachment 23 – Proposed Board Rule Change, discussed in greater depth in Section 3B).

SEA guidelines will ensure that evaluations occur with a frequency sufficient to ensure that feedback is provided in a timely manner to inform effective practice:

As stated above, Idaho code is being revised to include guidance for when and what types of data might be collected on a regular basis to provide enough information to draw fair and consistent results with respect to the evaluation of teachers and administrators. State policy will require that all staff submit to a minimum of two formative observations and evaluative discussions per year. These observations and evaluative discussions shall be used as data in completing the teacher’s one evaluation as is outlined and required by State Statute 33-514.

SEA guidelines will likely result in differentiated professional development that meets the needs of teachers:

Both principals and teachers will be held accountable for progress against goals set forth in an Individualized Professional Performance Plan. The beginning performance plan shall be established from baseline performance scores articulated as part of the initial certification requirement, implemented through teacher and administrator preparation programs.
Administrators will monitor and support individualized teacher growth over time using this plan and its subsequent revisions. Central district offices will likewise continually monitor principal performance goals, provide feedback, and adjust support for the principal as needed.

f. Idaho’s Educator Evaluation System will be used to inform personnel decisions.

Beginning with evaluations conducted during the 2011-12 school year, evaluations provide a basis for making decisions in the areas of hiring, compensation, promotion, assignment, professional development, earning, and retaining personnel. See Idaho Code 33-513 through 33-515.

The SEA’s process for ensuring that each LEA develops, adopts, pilots, and implements, with the involvement of teachers and principals, evaluation and support systems consistent with the SEA’s adopted guidelines that are likely to lead to high-quality local teacher and principal evaluation and support systems:

The SEA has developed a timeframe for the development and implementation of an educator evaluation system that involves stakeholders in the process, incorporates support and accountability for districts, and will likely lead to high-quality local teacher and principal evaluation systems. This work was begun in 2009, focusing on teacher evaluation, and has continued to evolve with the implementation of Students Come First and the recent work of the Administrator Evaluation Focus Group. A timeline of all events related to this work, past, present, and planned for the future appears below:

ISDE has a process for reviewing and approving an LEA’s teacher and principal evaluation and support systems to ensure that they are consistent with the SEA’s guidelines and will result in the successful implementation of such systems.

Every school district and public charter school first submitted its teacher evaluation model to ISDE for review and approval in February 2010. To be approved, the evaluation model had to meet the minimum Statewide standards required by Idaho laws and rules. Models must address performance levels, reliability and validity, and ongoing training and professional development. A team of reviewers at ISDE, trained in the framework, review and approve the evaluation models. (See Attachment 24 – Teacher Evaluation Standards and Requirements Rubric). Plans not approved were returned to the districts, highlighting recommendations for change. Plans were then revised and resubmitted to ISDE for review and approval. Once approved, any changes made to a district’s evaluation model must be resubmitted to ISDE.
As a result of Students Come First, school districts have begun revising evaluation plans for another round of State reviews. Additionally the ISDE is developing guidance for administrator evaluations that will be approved prior to the 2012-13 school year. These requirements will also need to be reflected in revised educator evaluation plans.

In order to allow districts to be purposeful in planning, and to maximize stakeholder input, ISDE will allow districts to use the 2012-13 school year to draft, discuss, and preliminarily adopt district policy. By the 2013-14 school year, the district’s evaluation administrator model must be implemented in a pilot form (at minimum) and final drafts of the district’s revised evaluation plan that included processes and measurements to evaluate both teachers and administrators must be submitted to ISDE for review and approval no later than January 1, 2014. (See Attachment 23 –Proposed Board Rule Change; IDAPA 08.02.02.120.08 and IDAPA 08.02.02.121.07)

ISDE’s process for ensuring that an LEA develops, adopts, pilots, and implements its teacher and principal evaluation and support systems with the involvement of teachers and principals. According to current Idaho Administrative Rule, IDAPA 08.02.02.120, school districts must implement teacher evaluation processes and support systems with the involvement of education stakeholders:

> Each school district board of trustees will develop and adopt policies for teacher performance evaluation in which criteria and procedures for the evaluation of certificated personnel are research based and aligned to Charlotte Danielson’s Framework for Teaching Second Edition domains and components of instruction. The process of developing criteria and procedures for certificated personnel evaluation will allow opportunities for input from those affected by the evaluation; i.e., trustees, administrators and teachers. The evaluation policy will be a matter of public record and communicated to the certificated personnel for whom it is written.

As part of ISDE’s review process, proof of stakeholder participation must be submitted by each district in order to qualify its educator evaluation plan for State approval. (See Attachment 24 –Teacher Evaluation Standards and Requirements Rubric). As noted above, a similar system for developing, piloting, implementing, and monitoring an evaluation framework for administrators is being crafted. ISDE will ensure that stakeholder participation is a key part of developing the State’s framework, as well as a requirement for all districts in adopting their own educator evaluation systems within this framework. The Department held its first meeting with representatives from all major educational stakeholder groups on December 15, 2011. Meetings will continue monthly to gather input that will eventually shape the administrator evaluation framework. ISDE has created a webpage where interested stakeholders and members of the public can track the group’s progress, find links to the research guiding ISDE discussions, and provide feedback. The process and timeline for this work is described in greater detail in section 3.A.i.

The SEA’s process ensures that all measures used in an LEA’s evaluation and support systems are valid, meaning measures that are clearly related to increasing student academic achievement and school performance, and are implemented in a consistent and high-quality manner across schools within an LEA.
In March 2010, the Idaho Legislature formally approved Idaho’s Statewide Framework for Teacher Performance Evaluations.

The legislation formalized requirements previously prescribed through a temporary administrative rule. In order to assist districts in adopting and piloting the system with consistency, ISDE produced and distributed implementation guidance Statewide, and posted the information on its website. (See Attachment 25—Teacher Performance Evaluation Implementation Guidelines; http://www.sde.idaho.gov/site/teacherEval/docs/implementation/Implementation%20Guidelines.doc).

The process and timeline for this work is described in greater detail in section 3.A.i.

The process ensures that all measures used in an LEA’s evaluation and support systems are valid, meaningful measures that are clearly related to increasing student academic achievement and school performance, and are implemented in a consistent and high-quality manner across schools within an LEA. As has been noted earlier, the Students Come First legislation (March 2011) further solidified the State’s commitment to developing great teachers and leaders, with the goal for every student to have a highly effective teacher every year of his or her schooling. At the center of this statute is an emphasis on valid and reliable teacher and administrator evaluations. These evaluations build on Idaho’s past work to create a Statewide framework for educator performance evaluations ensuring that all educator evaluations involve multiple measures, with at least 50 percent of the evaluation based upon growth in student achievement. These changes, preliminarily approved in 2011, await final legislative approval during the current session (See Attachment 26—Revised IDAPA 08.02.02.120 Legislative Approval 2012). In order to be approved by the State, each district’s teacher evaluation model must include the following:

- **Performance Levels:** Each school district must identify descriptors of performance levels for each domain. Examples of performance levels a district might identify include: not proficient, basic, proficient, and distinguished. In recognition of research into mastery, proficient performance in a domain is meeting 80 percent of the components. Beyond this, the ISDE will propose Board Rule change to be effective as of Spring 2012, in which all educators will be mandatorily ranked using the 4-tiered system referenced above.

- **Reliability and Validity:** Idaho’s Teacher Performance Evaluation requires that each district's evaluation tool and process be valid and reliable and utilize data to support same. Districts will report content validity data within the first year—gather input from those being evaluated on the indicators within components and domains (this meets the requirements in the Idaho Administrative Code 08.02.02.120). Reliability is demonstrated through the plan for ongoing training for evaluators to ensure that different evaluators recognize the same behaviors at the same level of performance. In addition, ISDE is piloting a certification process for ensuring inter-rater reliability among evaluators, discussed in greater detail below. Proposed board rule will also require proof of proficiency in assessing teacher performance.
Training and Professional Development: As part of each district's process and implementation of a teacher evaluation model, there must be a plan for ongoing training for evaluators/administrators as well as professional development for teachers on the district's evaluation tool and process. Beyond this, the ISDE will propose Board Rule change to be effective as of Spring 2012, in which proposed Board Rule will additionally require an Individualized Professional Performance plan to track growth and achievement.

A means for providing evidence of inter-rater reliability is being piloted through ISDE at this time. To further promote rigor and reliability in evaluations, ISDE is currently offering opportunities for school districts to pilot the Teachscape Danielson Proficiency Assessment. This is intended to achieve inter-rater reliability as it relates to evaluation based upon classroom observation (See Attachment 27—Danielson Brochure - Proficiency Assessment- http://www.teachscape.com/products/danielson-proficiency-system).

This pilot effort involves 50 administrators from northern Idaho school districts. The participants receive extensive training in conducting classroom observations, conferencing, and gathering artifacts for assessment. Each participant is then required to take a proficiency assessment to achieve certification in accurate evaluation. In January 2012, the pilot was expanded to include over 150 more administrators and teacher leaders in two additional regions of the State. The findings of this pilot will be used to inform further training and to explore building capacity across the state. (See Attachment 28—Invitation to Participiate.)

As noted in section 3A.ii(c), subsection ii. ISDE will also convene an Evaluation Capacity Taskforce charged to determine a systemic way to monitor and support districts to ensure that all measures used to determine performance are valid measures, and can be implemented in a quality manner. By March 2012, this group comprised of key ISDE staff, external stakeholders and consultants from the Northwest Regional Comprehensive Center will come together to develop a theory of action around measuring educator performance, supporting related professional development, and creating a process for ISDE to monitor school districts’ systems.

The goal of the group will be to produce a Statewide system of support and accountability that will ensure consistent and sustainable implementation of valid evaluation systems for both teachers and administrators. This work will also include compiling a menu of recommendations for measuring student growth in grades and subjects in which assessments are not required under ESEA section 1111(b)(3) that will meet State approval.

Not later than August of 2012, additional amendments to policies created by this taskforce will be presented for preliminary approval through the State Board of Education. Subsequently, following the rules promulgation process of the proposed amendments, ISDE will begin monitoring all district plans beginning in Fall 2015.
The SEA’s plan to be successful in ensuring that LEAs meet the timeline requirements by piloting evaluation and support systems no later than the 2013-2014 school year and implementing evaluation and support systems consistent with the requirements described above no later than the 2014-2015 school year.

As described throughout this document, ISDE has set forth a timeline for policy development and school district adoption that is consistent with the requirements of the ESEA Waiver Guidelines (See Attachment 23—Proposed Board Rule Change) that includes key implementation dates. As has been evidenced throughout the State’s responses to the questions set forth in this Principle, the timelines and various activities to be conducted have been determined to ensure that Idaho’s evaluation and support systems will be piloted no later than the 2013-14 school year. That will be followed by full implementation in the 2014-15 school year, if not earlier.

Timelines that reflect a clear understanding of what steps will be necessary and reflect a logical sequencing and spacing of the steps necessary to implement evaluation and support systems consistent with the required timelines.

ISDE is confident that the timeline included within this ESEA flexibility submittal is logical and reasonable. Though there is much to be done within the timeframe, there is a sense of urgency and a commitment from all stakeholder groups that makes the plan reasonable. With the implementation of the teacher evaluation, and processes for approving district evaluation plans already in place, Idaho has a good foundation on which to build, based upon successful precedent.

The greatest challenge to the timeline, however, is that at this time, funds to fully support the professional development for school districts are scarce. The state will continue to use Title IIA State Project funds to provide technical assistance and training to districts to implement evaluation systems, but without further funding the speed at which the state will be able to deeply assist and regularly monitor in every district may be slowed. The State will not compromise on fidelity of implementation; however, it is always a challenge to reach geographically removed areas. The State’s ability to secure adequate resources, outside of Title IIA, will ultimately dictate the speed of full implementation statewide.

The SEA’s plan for providing adequate guidance and other technical assistance to LEAs in developing and implementing teacher and principal evaluation and support systems that are likely to lead to successful implementation.

The ISDE is confident that the components detailed above will ensure adequate guidance and technical assistance to LEAs in developing and implementing teacher and principal evaluation and support systems that will likely lead to successful implementation. A summary of some of these key activities follow:
• **Creation of Evaluation Capacity Taskforce.** This group will focus on the development of a theory of action linked to measuring educator performance, supporting related professional development, and creating a process for the ISDE to monitor school district’s educator evaluation systems. The goal of the group will be to produce a Statewide system of support and accountability to ensure consistent and sustainable implementation of valid evaluation systems.

• **ISDE Policy Guidance.** ISDE will have all policy in place by Spring 2012 and allow districts to use the 2012-13 school year to draft, discuss, and preliminarily adopt district policy for administrator evaluation systems, as well as finalize changes to teacher evaluation systems. By the 2013-14 school year, the district’s evaluation models must be implemented in a pilot form (one school per district, at minimum) and the ISDE will establish a website to capture district reporting, and will solicit best practices from districts across the state. Final drafts of the revised educator evaluation plan must be submitted to ISDE for review and approval no later than January 1, 2014.

• **Established System for Reviewing and Approving Evaluation Plans.** Idaho’s Teacher Performance Evaluation policy requires that each school district's evaluation tool and process be valid and reliable and utilize data-based decision making practices for professional development. Any district plan that does not meet ISDE requirements is returned with comment to be revised and resubmitted.

  Districts report content validity data within the first year and gather input from those being evaluated (this meets the requirements in the Idaho Administrative Code 08.02.02.120). Reliability is demonstrated through the plan for ongoing training for evaluators to ensure that different evaluators recognize the same behaviors at the same level of performance. Proposed rule changes will further require “evidence of proficiency in evaluating teacher performance based upon the Danielson Framework for Effective Teaching.” As above, an additional round of ISDE approval will be required for all evaluation systems once all changes are in effect, and administrator evaluation plans are fully in place.

• **Face-to-Face Danielson Framework Training.** Training will be provided across the state for administrators and teacher leaders. Training in the Framework for Teaching will increase the likelihood of effective instructional leadership within schools, and ensure inter-rater reliability in performing teacher evaluations.

  A means for providing legally defensible evidence of inter-rater reliability is being piloted through ISDE at this time. To further promote rigor and reliability in evaluations, ISDE is currently offering opportunities for school districts to pilot the Teachscape Danielson Proficiency Assessment and for school leaders to become “certified” evaluators.

While funds to fully support school districts in the implementation of teacher and principal evaluations are limited, the ISDE will leverage existing resources to implement these initiatives. How far ISDE will reach, and how timely the necessary technical assistance and support can be provided as well as regular monitoring of systems adopted by districts will be dependent upon staff time and available resources.
At minimum, the statute and rule changes implemented by the State will eventually lead to successful implementation.

*Planned pilot is broad enough to gain sufficient feedback from a variety of types of educators, schools, and classrooms to inform full implementation of the LEAs evaluation and support system.*

Each school district will pilot the educator evaluation framework within their local context in the 2013-14 school year. As with the teacher evaluation system, every district was required to pilot in at least one school a year prior to full implementation. This shall also be the case with the revised teacher evaluation system and the new administrator evaluation system.

Because each school district across the state will be piloting to some degree, the ISDE is confident that the sample is broad enough, and sufficient feedback can be gathered. The ISDE will establish a website to capture district reporting, and will solicit best practices from districts across the state. Additionally, the newly established longitudinal data system will capture individual teacher evaluations from every district across the state to provide baseline data to ISDE.
3. B Idaho Department of Equation’s process for ensuring that each LEA develops, adopts, pilots, and implements, with the involvement of teachers and principals, including mechanisms to review, revise, and improve, high-quality teacher and principal evaluation and support systems consistent with the SEA’s adopted guidelines.

In an effort to ensure support from a variety of stakeholders and policymakers, the State Department of Education has included a number of Legislators, key policy makers and legislative advocates on both the Administrator Evaluation Focus Group and the Evaluation Capacity Task Force. By doing so, we ensure that we have built-in sponsors and supporters as any recommendations that come out of these committees go through our rule-making and legislative process. Because of this, and the support we have received from these policy makers, the ISDE does not believe that a contingency plan is as important as the demonstration of a willingness to adapt and improve the key elements based on the feedback and input of stakeholders.

This willingness to change will enable the process to proceed without interruption. Policy-makers included on the committees include:

- Senator John Goedde, Senate Education Committee Chair, Idaho State Senate
- Senator James Hammond, Idaho State Senate
- Senator Steve Bair, Idaho State Senate
- Roger Brown, Senior Special Assistant for Education and Government, Office of the Governor
- Allison McClintick, K-12 Education and Policy Manager, Office of the State Board of Education
- Selena Grace, Chief Academic Officer, Office of the State Board of Education,
- Penni Cyr, President, Idaho Education Association,
- Robin Nettinga, Executive Director, Idaho Education Association,
- Karen Echeverria, Executive Director, Idaho School Boards Association,
- Rob Winslow, Executive Director, Idaho Association of School Administrators

As stated throughout the waiver, the ISDE has solicited the input and involvement of all major stakeholder groups representing teachers (IEA), principals and superintendents (IASA), school board members (ISBA), parents (Idaho PTA), legislators, State Board of Education staff, higher education and other education experts. In addition, in accordance with IDAPA 08.02.02.120, all LEA teacher and principal evaluation models and policies must be developed with input and ongoing review from those affected by the evaluation: i.e., trustees, administrators and teachers. Once approved by the LEA, the revised plans will be submitted to the ISDE for review and approval for alignment to Idaho statute and administrative rule.

The recent re-organization of the ISDE to include the Division of Great Teachers and Leaders, included the creation of a new position, Evaluation Coordinator, dedicated to evaluation and educator quality. This individual is charged with leading the review and approval efforts of all teacher and principal evaluations. In spring 2013, another FTE will be added for the purpose of providing technical assistance to districts and conducting monitoring activities.

In addition, Idaho’s Professional Standards Commission shall form an additional subcommittee to work with the state’s evaluation coordinator to provide ongoing review and inform appropriate revisions of the state’s frameworks for educator evaluation.
The State purposefully chose the Danielson Framework for Teaching as the evaluation model for all Idaho teachers based upon its focus on instruction and differentiation. ISDE finds that the Framework for Teaching is specific enough to use for general education teachers, but broad enough that it is applicable to all teaching settings since it draws from instructional strategies and methods that have been proven both in the context of teaching English Learners (LEP) and students with disabilities (SWD). For example, in Domain 1 (Planning and Preparation), the framework addresses keeping student outcomes in mind. For LEP students, this would include English Language Development standards; for SWD, this would include IEP goals.

Furthermore, Domain 3 (Instruction) addresses assessing students and demonstrating responsiveness to their differentiated needs. For LEP students, this would include ensuring progress according to language development benchmarks and adjusting instruction when they are not on track; for SWD, this certainly applies to progress toward IEP goals and access to and progress toward grade level standards and the adjustment of instruction when a student is not making progress.

However, in order to ensure the long term development of high quality evaluation, ISDE is also in the research and development process of developing a more specific evaluation instruction for the wide breadth and depth of Special Education teachers. In partnership with Boise State University, a research project is underway called RESET: Recognizing the Effectiveness of Special Education Teachers. The RESET Project will develop an instrument tool based on the Danielson Framework for Teaching that expands and extrapolates some of the more specific and unique characteristics of teaching SWD who may be identified for services for any number of reasons. This research project began in Fall 2010 and will be completed in May 2013. When completed, the tool will be disseminated to Idaho LEAs for them to adopt and use at their discretion.

In regards to support, IDAPA 08.02.02.120 requires that each LEA develop a teacher evaluation model and policy that will be used to identify proficiency and define a process that identifies and assists teacher in need of improvement and to provide remediation for all teachers in those instances where remediation is determined to be an appropriate course of action. It is also required that each evaluation policy have a plan for collecting teacher evaluation data for all teachers and using that data to inform professional development.

The ISDE will have formal student growth measures based on statewide assessments (i.e., AGP, SGP) ready by the end of spring 2012 in order to include them in our accountability system and the ISDE will continue to provide training to district and school leaders on what these measures mean.

Idaho Code 33-514 requires that growth in student achievement make up 50% of a total evaluation.
With the revisions being proposed to IDAPA 08.02.02.120, a portion of the 50% of a teacher’s evaluation that is based on growth in student achievement must be based on growth as determined by the Idaho Student Achievement Test (ISAT) and Idaho’s growth model (See Attachment 29). Beyond that, LEAs have the authority to select growth measures that meet their unique needs and ISDE is providing guidance and examples of such through the work of the Evaluation Capacity Task Force.

As stated throughout the waiver, the ISDE has solicited the input and involvement of all major stakeholder groups representing teachers (IEA), principals and superintendents (IASA), school board members (ISBA), parents (Idaho PTA), legislators, State Board of Education staff, higher education and other education experts. In addition, in accordance with IDAPA 08.02.02.120, all LEA teacher and principal evaluation models and policies must be developed with input and ongoing review from those affected by the evaluation; i.e., trustees, administrates and teachers. Once approved by the LEA, the revised plans will be submitted to the ISDE for review and approval for alignment to Idaho statute and administrative rule.

The recent re-organization of the ISDE to include the Division of Great Teachers and Leaders, included the creation of a new position, Evaluation Coordinator, dedicated to evaluation and educator quality. This individual is charged with leading the review and approval efforts of all teacher and principal evaluations. In spring 2013, another FTE will be added for the purpose of providing technical assistance to districts and conducting monitoring activities. In addition, Idaho’s Professional Standards Commission shall form an additional subcommittee to work with the state’s evaluation coordinator to provide ongoing review and inform appropriate revisions of the state’s frameworks for educator evaluation.

Idaho believes that we are on track and will be able to provide sufficient training and time for implementation of the growth measures based on the ISAT and those being recommended by the Evaluation Capacity Task Force. As is stated in our timeline, Idaho LEAs will begin piloting the sample growth measures and provide feedback to the ISDE during the 2012-2013 school year with full implementation beginning in the 2014-2015 school year by districts who wish to adopt the sample growth measures developed by the Evaluation Capacity Task Force.

Dedicated Funds and Dedicated FTEs for Staffing Oversight of Evaluation and Monitoring. The Idaho State Department of Education is dedicated to supporting the ongoing work around educator evaluation and monitoring evaluation systems. The recent re-organization of the ISDE to include the Division of Great Teachers and Leaders, included the creation of a new position, Evaluation Coordinator, dedicated to evaluation and educator quality. This is just one indication of Idaho’s commitment to ensuring that our evaluation system is implemented with fidelity and will be successful.

In addition, Idaho’s Professional Standards Commission shall form an additional subcommittee to work with the state’s evaluation coordinator to provide ongoing review and inform appropriate revisions of the state’s frameworks for educator evaluation.
Title IIA State Project funds, in combination with district Title IIA funds and dedicated state funds, will keep the work on pace, and the SDE will continue to leverage partnerships with the Title I SIG division and the work of the Idaho LEADS project funded by the Alberstons Foundation. In order to further coherently integrate and distribute the need for support in this area of implementation, work surrounding teacher and administrator evaluation will be included as appropriate in the state’s accountability and support programs, such as, Idaho Building Capacity project, Superintendents Network of Support and the Principal Academy of Leadership.
Principle 3: Summary

Idaho has created, and continues to develop, statewide frameworks for performance evaluations using multiple measures to improve the craft of teaching and instructional leadership. Recent legislation guarantees that 50 percent of teacher and administrator performance evaluations will be based on student achievement, and that districts must include parent input as part of teacher and school-based administrator performance evaluations. Additionally, teacher observations are conducted consistently across the state, based on the Danielson Framework for Teaching, and are an integral part of a teacher’s overall performance evaluation. The state’s goal is to increase the frequency of interaction between teachers and administrators around this model, and ensure that data gathered from evaluations informs ongoing professional growth.

The means for capturing growth data for teachers shall begin with an Individual Professional Performance Plan that will be part of the summative evaluation completed in pre-service, prior to initial certification. This plan will be carried throughout a teacher’s career, revised with every subsequent evaluation to provide insight into, and evidence of, a teacher’s professional growth. To ensure that every teacher evaluation results in meaningful, valid feedback that will inform this professional learning plan, Idaho has made it a priority to emphasize the principal’s role as an instructional leader, proficient in assessing teacher performance and carrying out reflective conversations to promote effective classroom practice. To this end, proof of proficiency in assessing teacher performance will become a requirement of every Idaho principal.

Currently, the Idaho State Department of Education is working with educational stakeholder groups to specifically identify a full set of requirements for administrators, developing a statewide framework for administrator evaluations that will move Idaho closer to its goal to having an effective teacher in every classroom. This work is underway and should be completed by May 2012. Once established, the State intends to use this framework to make necessary changes within administrator preparation programs. A key component will be to also implement Individual Professional Performance Plans for administrators prior to initial certification.

The State will continue to assess and refine educator evaluation systems through monitoring, and is committed to creating guidance, providing technical assistance, and making policy adjustments according to research in best practices and data collected from the field. Idaho will continue to look for new partnerships and leverage existing partnerships to accomplish the highest quality and greatest possible consistency in evaluation systems across the state.
Idaho has made significant strides around teacher and principal evaluation and the efforts to strengthen evaluations for continuous improvement since 2008. In doing so, Idaho has created, and continues to refine our statewide frameworks for performance evaluations that use multiple measures to improve the craft of teaching and instructional leadership at all levels. In 2008-2009, Idaho convened a Teacher Performance Evaluation Task Force (See Attachment 17) which revised Idaho’s evaluation requirements and adopted the Charlotte Danielson Framework for Teaching as Idaho’s teacher evaluation standards. In 2010 Idaho’s Legislature approved the Students Come First reform laws that required 50 percent of a teacher’s and principal’s evaluation to be based on objective measures of growth in student achievement and required parental input to be considered as a factor. These laws were overturned through a referendum in November 2012. In 2011, Idaho convened an Administrator Evaluation Task Force that worked to adopt statewide administrator evaluation standards and requirements and in 2012, an Evaluation Capacity Task Force that worked to ensure that Idaho had the supports and resources in place to meet the requirements of the ESEA Flexibility application. Following the repeal of Idaho has made significant strides around teacher and principal evaluation and the efforts to strengthen evaluations for continuous improvement since 2008. In doing so, Idaho has created, and continues to refine our statewide frameworks for performance evaluations that use multiple measures to improve the craft of teaching and instructional leadership at all levels. In 2008-2009, Idaho convened a Teacher Performance Evaluation Task Force (See Attachment 17) which revised Idaho’s evaluation requirements and adopted the Charlotte Danielson Framework for Teaching as Idaho’s teacher evaluation standards. In 2010 Idaho’s Legislature approved the Students Come First reform laws that required 50 percent of a teacher’s and principal’s evaluation to be based on objective measures of growth in student achievement and required parental input to be considered as a factor. These laws were overturned through a referendum in November 2012. In 2011, Idaho convened an Administrator Evaluation Task Force that worked to adopt statewide administrator evaluation standards and requirements and in 2012, an Evaluation Capacity Task Force that worked to ensure that Idaho had the supports and resources in place to meet the requirements of the ESEA Flexibility application. Following the repeal of

</table>
In accordance with Section 33-514 Idaho Code and Section 33-515 Idaho Code, LEAs must evaluate all certificated employees once annually by May 1st. The evaluation shall include a minimum of two documented observations, one of which shall be completed prior to January 1 of each year. Under Idaho’s teacher and principal evaluation rules, IDAPA 08.02.02.120 and IDAPA 08.02.02.121(Attachment 34), the one evaluation is further defined. All certificated instructional employees, principals and superintendents, including instructional staff in non-tested grades and subjects, must receive an evaluation in which at least 33% of the evaluation is based off of multiple objective measures of growth student achievement. Growth in student achievement as measured by Idaho’s statewide accountability test known as the Idaho Standards Achievement Test (ISAT) must be included. Other measures must be based upon research and approved by the local board of trustees.

State Superintendent Tom Luna has long been an advocate for including student academic growth measures in gauging the success of schools and teachers. To gain a more robust assessment of how our schools, teachers, and students are performing, Idaho has adopted an accountability system that supplements proficiency scores with a new form of accountability— one that recognizes and rewards academic growth in addition to achievement. This is Idaho’s Growth Model.

Idaho’s Growth Model is the Student Growth Percentiles (SGP) framework created by Damian Betebenner and utilized by the state of Colorado. The goal of including growth in Idaho’s assessments is to maximize student progress toward college- and career-readiness. To help ensure that all students are college- and career-ready by the time they exit high school, both a definition of “readiness” and a comprehensive measurement system are needed in order to determine how well students are progressing toward that goal.

The growth model adds value to proficiency assessments because it takes into account where a student starts the year academically. By grouping students who perform similarly at the beginning of the year, we can compare a student’s growth against that of his/her academic peers over time. Idaho has also adopted a metric to ensure adequate growth to a standard. As outlined in Section 2.A.i. the Adequate Student Growth Percentile will illustrate if a student has made sufficient growth to reach proficiency within three years or by 10th grade, whichever comes first. This system of measuring growth that is used for Idaho’s accountability system will also be used by LEAs for evaluation purposes for all certificated instructional employees, principals and superintendents.

In addition to the growth that is measured by the ISAT, the Evaluation Capacity Taskforce which was formed in March 2012, came together to determine a systemic way to monitor and support a process for ensuring that all measures that are included in determining performance levels are valid measures, and can be implemented in a quality manner. This task force has vetted various means of measuring student growth in grades and subjects in which assessments are not required under ESEA section 1111(b)(3), and has provided a menu of options for districts to begin piloting by the 2013-2014 school year. The Taskforce has used as a foundation NCCTQ’s “Measuring Teachers’ Contributions to Student Learning Growth for non-tested Grades and Subjects” research and policy
LEAs must identify each measure it intends to use from the menu for each subject and grade as a requirement for state approval of the LEAs evaluation plan. LEAs choosing to utilize measures that are not on the approved list (See Attachments 19, 21 and 22), must provide rationale and research to support their choice. ISDE will review these measures for validity as part of the overall evaluation being submitted, reviewed and approved by the ISDE in accordance with IDAPA 08.02.02.120 and IDAPA 08.02.02.121. The remaining 67 percent of the evaluation is made up of what Idaho has labeled the Professional Practices portion of the evaluation. For teachers, this portion of the evaluation is aligned to the Danielson Framework for teaching. Within this portion of the evaluation, school districts must adopt evaluation models that contain at least two formative observations with at least one observation being completed by January 1 of each year. These formative observations shall be completed on forms that are aligned to the Domains and Components of the Danielson Framework for teaching. To assist LEAs in their efforts to perform and collect observation data based on the Danielson Framework, the ISDE has partnered with SchoolNet, Idaho’s Instructional Management System, to embed the Danielson Framework into an electronic rubric that will allow principals to collect, store and analyze longitudinally, the results of such evaluations. Additionally, LEAs must choose at least one additional measure of educator performance with a choice between student input, parental input or portfolios containing both elements. The data from these measures must be considered as part of the overall evaluation and factored in to the 67 percent of the evaluation that is based on professional practice. The State Department of Education will provide districts with sample forms and documents to assist in the collection of parent and student input. The online tool housed in SchoolNet will allow principals to input data from the observation as well as the results of the other required multiple measures to generate the final teacher evaluation result. Districts choosing to use instruments and forms other than those provided through SchoolNet or by the ISDE must have their instruments and forms approved by the ISDE as part of the review and approval process that will take place by July 1, 2014 as is outlined in IDAPA 08.02.02.120.

Like teachers, 67 percent of a principal’s evaluation must be based off of professional practice. For principals, this portion of the evaluation is based on and aligned to the Interstate School Leaders Licensure Consortium (ISLLC) standards. The professional practice portion of a principal’s evaluation shall also include at least one additional measure of performance with a choice between teacher input, student input, parental input or portfolios containing all elements. The data from these measures must be considered as part of the overall evaluation and factored in to the 67 percent of the evaluation that is based on professional practice. Observing principal practice is more complicated than teacher observation due to the broader, more complex outcomes and their measurement. Idaho is piloting a variety of measures for principal professional practice. This information will be shared with districts through a Principal Evaluation Guidebook and trainings to follow. The first draft of the document will be available by September 2014. In Idaho, the evaluators of principals are generally superintendents. These evaluators will be offered training on principal evaluation. The State Department of Education will provide districts with sample forms and documents to assist in the collection of teacher, parent and student input. Districts choosing to use instruments and forms other than those provided by the ISDE must have their instruments and forms approved by the ISDE as part of the review and approval process that will take place by July 1, 2014 as is outlined in IDAPA 08.02.02.121.
Additionally, principals must also demonstrate proof of proficiency in conducting teacher evaluations using the state’s adopted model, the Charlotte Danielson Framework for Teaching Second Edition. Proof of proficiency in evaluating and observing teacher performance is required of all individuals assigned the responsibility for appraising, observing or evaluating certificated personnel performance. Proof of proficiency must be demonstrated by passing a proficiency assessment approved by the ISDE as a onetime recertification requirement prior to September 1, 2018. During the 2013-2014 school year, the ISDE will sign a statewide contract to provide professional development and a proficiency assessment for all active administrators in Idaho using the Teachscape Danielson Proficiency Assessment. Any district choosing not to take part in the state sponsored proficiency assessment and choosing to develop their own proficiency assessment must receive approval from the ISDE and must have their proficiency assessment process and forms approved by the ISDE.

An important first step of creating a reliable teacher evaluation is assuring that all evaluators can provide evidence of reliable application of the tool. Idaho has invested in this step by including language in Board Rule that states “Proof of proficiency in evaluating performance shall be demonstrated by passing a proficiency assessment approved by the State Department of Education as a onetime recertification requirement prior to September 1, 2018.” This initial training is aimed at providing administrators an opportunity to have professional development provided by Idaho State Department of Education (ISDE) which will increase the likelihood of administrators being proficient before 2018 and allow administrators to include proof of proficiency in their recertification process before 2018. The ISDE offers administrators face to face training for those who may need/want more support in understanding and passing the Teachscape for Observers Proficiency Exam. This optional training is provided in different regions across Idaho and led by Danielson Group consultants.

The ISDE will provide training and models designed for districts to facilitate annual professional development for the purpose of calibration of principals/teacher evaluators scoring accuracy. Districts will be expected to use master-scored videos representing all performance levels. Calibrated videos for professional development will ensure the use of “competency is master-coded videos—videos of teachers engaged in classroom instruction that have been assigned correct scores by people with expertise in both the rubric and teaching practice.” (2013).McClellan, Ph.D., C., & Clowder Consulting, LLC.

The monitoring process for LEA evaluation plans will provide opportunities to review districts’ annual professional development that is designed to conduct accurate, consistent observations that are aligned to master-scored videos representing all performance levels.

To further ensure that the measures that are being utilized in evaluation are consistent, valid and reliable, the ISDE has developed sample calendars that will be posted to the ISDE website that provides guidance to districts on when data should be collected and what types of data should be collected to inform the evaluation (See Attachments 15 and 16). IDAPA 08.02.02.120 and IDAPA 08.02.02.121 also require that each LEA board of trustees develop and adopt policies for teacher and principal performance evaluation in which criteria and procedures for the evaluation are research based and aligned with state standards. By July 1, 2014 an evaluation plan which incorporates all of the above elements outlined in this ESEA Flexibility Application and the above referenced rules must be submitted to the State Department of Education for approval.
The review and monitoring of LEA evaluation plans includes a process for districts to reflect on their teacher and principal evaluation system and its alignment to Idaho’s teacher and principal evaluation rules, IDAPA 08.02.02.120 and IDAPA 08.02.02.121.

1. Districts will reflect on their teacher and principal evaluation system while responding to questions of alignment within a Self-Auditing Checklist. Districts will provide evidence of alignment to portions of the new rules or action items that the district will do to fully align to the new evaluation rules.
   a. One portion of the checklist includes an area for districts to provide data that includes the district’s current aggregated teacher proficiency ratings and aggregated student achievement data on Math and English Language Arts. Districts will be asked to respond to gaps in data and actions to close that gap.

2. Districts will submit their teacher and principal evaluation plans along with a completed Self-Auditing Checklist on July 1, 2014. All evaluation plans will be reviewed in comparison to the checklist and be given a rating based upon a 99-point scale. The ISDE will collect the district ratings on teacher and principal evaluation plans as baseline data and use it to inform professional development or technical assistance.

3. ISDE will return district evaluation plans with feedback on their action items/evidence. Districts will have the remaining year to work on their action items. The ISDE will offer optional support for districts that may need more technical assistance in this process.

4. Any plan that receives a rating of Moderate or Low Alignment will need to resubmit their plans on July 1, 2015. ISDE will review revised evaluation plans and provide feedback on their alignment.

5. A Teacher and Principal Evaluation Rubric will be designed based on the Self-Auditing Checklist and vetted by ISDE and regional education centers from January 2015 through January 2016.

6. A cyclical process for reviewing and monitoring district teacher and principal evaluation plans will be designed and vetted by ISDE and regional education centers from January 2015 through January 2016.

7. January 2016 through June 2016 all districts will receive training on the Teacher and Principal Evaluation Rubric and cyclical process for monitoring evaluation plans.

Table 2 includes a timeline of this process in alignment with the progression of the teacher and principal evaluation across Idaho.

Idaho’s goal in adopting these two statewide evaluation models and standards is to ensure that each LEA develops and adopts an evaluation and support systems that will improve student achievement and the quality of instruction for all students in the classroom. The evaluation systems established for Idaho educators will promote reflective practice and the development of ongoing, personalized professional development plans leading to improved support for turning around low-performing schools and measurably increasing student achievement for all students. To accomplish this, Idaho has adopted an administrator evaluation framework heavily focused on Instructional Leadership (See Attachment 11). In addition to the focus on Instructional Leadership, IDAPA 08.02.02.120 (See Attachment 34) specifically addresses using the evaluation model for the purpose of improving instructional practices and in making professional development decisions at the district, school and individual level. Subsections f, g, i, m and n of Idaho’s rule governing teacher evaluations requires school districts to report the following to ISDE in order to receive evaluation plan approval:

- Communication of results – the method by which certificated personnel is informed of the results of evaluation.
Personnel actions – the action available to the school district as a result of the evaluation and the procedures for implementing these actions; e.g. job status change. Note: in the event the action taken as a result of evaluation is to not renew an individual’s contract or to renew an individual’s contract at a reduced rate, school districts should take proper steps to follow the procedures outlined in Sections 33-513 through 33-515, Idaho Code in order to assure the due process rights of all personnel (See Attachment 26).

Remediation -- a procedure to provide remediation in those instances where remediation is determined to be an appropriate course of action
Collecting and using data -- a plan for collecting and using data gathered from the evaluation tool that will be used to inform professional development. Aggregate data shall be considered as part of the district and individual schools Needs Assessment in determining professional development offerings.

Individualizing teacher evaluation rating system -- a plan for how evaluations will be used to identify proficiency and record growth over time. No later than July 1, 2013, districts shall have established an individualized teacher evaluation rating system with a minimum of three rankings used to differentiate performance of teachers and pupil personnel certificate holders including unsatisfactory being equal to “1”, basic being equal to “2” and proficient being equal to “3”.

In conjunction with the rule, Idaho’s longitudinal data system, Idaho System for Educational Excellence (ISEE), allows administrators to track teacher evaluations over time, and to assess the student achievement gains that may result from targeted professional development for teachers. IDAPA 08.02.02.120 charges each administrator with the responsibility for being trained in personnel evaluation and districts must commit to ongoing training and funding as follows:

Evaluator -- identification of the individuals responsible for appraising or evaluating certificated instructional staff and pupil personnel performance. The individuals assigned this responsibility shall have received training in evaluation and prior to September 1, 2018, shall demonstrate proof of proficiency in conducting observations and evaluating effective teacher performance by passing a proficiency assessment approved by the State Department of Education as a onetime recertification requirement.

Professional development and training -- a plan for ongoing training and professional learning based upon the district’s evaluation standards and process.

Funding – a plan for funding ongoing training and professional development for administrators in evaluation.

To further ensure that the evaluation systems adopted by LEAs are used for continual improvement of instruction, Principal 2 of Idaho’s ESEA Flexibility application requires that teacher and administrator evaluations be connected to school improvement plans. The State will require One- and Two-Star schools to demonstrate how teacher and administrator evaluations enhance their improvement plans by embedding the concepts in the Rapid Improvement and Turnaround Plans. In addition, in a strategic move by Superintendent Luna, Idaho’s Educator Effectiveness Coordinator who is in charge of teacher and principal evaluation was moved under Idaho’s Statewide System of Support team and the Office of Teacher Certification and Professional Standards was moved into the same division as the Statewide System of Support. This shift was designed to ensure that continual improvement of instruction and teacher quality will be part of the overall school and district improvement efforts.
Throughout the process of adopting a statewide model, the Teacher Evaluation Task Force spent a significant amount of time discussing the evaluation needs of all teachers including teachers of English Learners and Students with Disabilities to ensure that all evaluations were being utilized to improve student achievement and the quality of instruction for all students. In the end, the task force purposefully chose the Danielson Framework for Teaching as the evaluation model for all Idaho teachers based upon its focus on instruction and differentiation. ISDE finds that the Framework for Teaching is specific enough to use for general education teachers, but broad enough that it is applicable to all teaching settings since it draws from instructional strategies and methods that have been proven both in the context of teaching English Learners (ELs) and students with disabilities (SWD). For example, in Domain 1 (Planning and Preparation), the framework addresses keeping student outcomes in mind. For ELs students, this would include English Language Development standards; for SWD, this would include IEP goals.

Furthermore, Domain 3 (Instruction) addresses assessing students and demonstrating responsiveness to their differentiated needs. For ELs students, this would include ensuring progress according to language development benchmarks and adjusting instruction when they are not on track; for SWD, this certainly applies to progress toward IEP goals and access to and progress toward grade level standards and the adjustment of instruction when a student is not making progress.

ISDE will create a Crosswalk of Danielson’s Framework for Teaching and World-Class Instructional Design and Assessment (WIDA) English Language Development (ELD) Framework. The ISDE includes teams of teacher-leaders who have worked on WIDA implementation within the state. This team has been in place since August 2012. The teacher-leaders will convene to create a cohesive connection between Danielson’s and WIDA. The document will include examples of best instructional practices for English Learners for teachers and administrator. The SEA will also contact the Danielson’s Group and the WIDA organization to inquire about plans that could inform the Idaho work. This information will be included in the Evaluation Guidance documents and provided to district evaluation teams. They will also receive technical assistance on the WIDA and instructional practices that teachers will use and evaluators will be trained to recognize the teachers’ use of the instructional practices for English Learners.

However, in order to ensure the long term development of high quality evaluation, ISDE is also in the research and development process of developing a more specific evaluation instruction for the wide breadth and depth of Special Education teachers. In partnership with Boise State University, a research project is underway called RESET: Recognizing the Effectiveness of Special Education Teachers. The RESET Project will develop an instrument tool based on the Danielson Framework for Teaching that expands and extrapolates some of the more specific and unique characteristics of teaching SWD who may be identified for services for any number of reasons. This research project began in Fall 2010 and will be completed in May 2013. When completed, the tool will be disseminated to Idaho LEAs for them to adopt and use at their discretion. This project is under the direction of Dr. Evelyn Johnson, in partnership with the ISDE, Boise State University, and the Lee Pesky Learning Center.
The Idaho State Department of Education has worked with educational stakeholder groups to develop every facet of the statewide frameworks for teacher and principal evaluation including groups representing teachers (IEA), principals and superintendents (IASA), school board members (ISBA), parents (Idaho PTA), legislators, State Board of Education staff, higher education and other education experts. In addition, in accordance with IDAPA 08.02.02.120 and IDAPA 08.02.02.121, all LEA teacher and principal evaluation models and policies must be developed with input and ongoing review from those affected by the evaluation; i.e., trustees, administrators, teachers and parents. Once approved by the LEA, the revised plans must be submitted to the ISDE for review and approval for alignment to Idaho statute and administrative rule.

An example of this involvement can be found in the adoption of multiple measures to assess teacher effectiveness. The ISDE involved teachers, school administrators, legislators, and other significant stakeholder group representatives in the development of guidelines and examples of multiple measures to assess teacher effectiveness in non-tested grades and subject areas. In April 2012, a presentation to the Evaluation Capacity Task Force by a national expert from the National Comprehensive Center on Teacher Quality presented practices being used across the states to provide research and options for initial Idaho recommendations to districts. Ultimately, in accordance with IDAPA 08.02.02.120, these guidelines and examples to assess teacher effectiveness in non-tested grades and subject areas will be reviewed by teachers, administrators and other local stakeholders who will make recommendations to the local school board prior to adoption by the LEA.

To further ensure that teachers and principals are involved with the development of the adopted guidelines, the above referenced rules and the changes being made to those rules just completed a formal public comment period. Through Idaho’s rule making process, all rules adopted by the Idaho State Board of Education must go through a public comment period prior to being approved in a final reading. This ensures that those individuals who are directly impacted by the rules being promulgated have a voice and an opportunity to comment on the rules. All public comments that are submitted are reviewed by the Idaho State Department of Education and the Idaho State Board of Education and considered for possible revisions prior to final approval (See Attachment 31).

In addition to the public comment opportunities, and while a number of educators and their association representatives were directly involved in the work of the different task forces and focus groups formed at the state level, those groups have worked diligently to ensure that each constituent group is well informed of the decisions and progress being made. In addition to communication efforts, they have made significant efforts to provide all constituency groups an opportunity to provide feedback. An example of this can be found in the efforts of the Educator Evaluation Task Force which surveyed constituents on the various decisions that were being made to bring Idaho’s evaluation requirements and models in line with the requirements of the ESEA Flexibility Waiver (See Attachments 18 and 20).
3.B Ensure LEAs Implement Teacher and Principal Evaluation and Support Systems

3.B Provide the SEA’s process for ensuring that each LEA develops, adopts, pilots, and implements, with the involvement of teachers and principals, including mechanisms to review, revise, and improve, high-quality teacher and principal evaluation and support systems consistent with the SEA’s adopted guidelines.

The ISDE initially required each school district and public charter school to submit its teacher evaluation model for review and approval back in February 2010. To be approved, the evaluation model had to meet the minimum statewide standards required by Idaho laws and rules. Models had to address performance levels, reliability and validity, and ongoing training and professional development. A team of reviewers at ISDE, trained in the framework, reviewed and approved the evaluation models (See Attachment 24). Plans not approved were returned to the districts, highlighting recommendations for change. Plans were then revised and resubmitted to ISDE for review and approval. Once approved, any changes made to a district’s evaluation model must be resubmitted to ISDE.

With the recently approved revisions to IDAPA 08.02.02.120 which governs teacher evaluations and the addition of IDAPA 08.02.02.121 which governs principal evaluation, each school district board of trustees will once again develop and adopt policies for teacher and principal evaluation and submit them to the ISDE for review and approval. In order to allow districts to be purposeful in planning, and to maximize stakeholder input, ISDE will allow districts to use the 2013-14 school year to draft, preliminarily adopt, pilot, discuss, and revise district policy before submitting their teacher and principal evaluation models to the ISDE for final approval by July 1, 2014. Once approved, subsequent changes made in the evaluation system shall be resubmitted for approval. This approval will utilize a similar rubric to the one used in 2010 but it will be updated and modified to reflect Idaho’s new requirements and to ensure that the multiple measures being adopted by districts are valid.

To further ensure consistency of adoption across the state and to promote rigor and reliability in evaluations, a means for providing evidence of inter-rater reliability is being piloted throughout the state. ISDE is currently offering opportunities for school districts to pilot the Teachscape Danielson Proficiency Assessment. With the intent of offering the opportunity for all administrators on a statewide contract starting July 1, 2013. This proficiency assessment is intended to achieve inter-rater reliability as it relates to evaluation based upon classroom observation (See Attachment 27).

This pilot effort involved 280 administrators and teacher leaders from a number of different districts across Idaho. The participants received extensive training in conducting classroom observations, conferencing, and gathering artifacts for assessment. Each participant was then required to take a proficiency assessment to achieve certification in accurate evaluation. The findings of this pilot will be used to inform further training and to explore building capacity across the state. (See Attachment 28)
As noted in section 3A, the ISDE convened an Evaluation Capacity Taskforce that was charged with determining a systemic way to monitor and support districts to ensure that all measures used to determine performance are valid measures and can be implemented in a quality manner. This group was comprised of key ISDE staff, external stakeholders and consultants from the Northwest Regional Comprehensive Center that come together to develop a theory of action around measuring educator performance, supporting related professional development, and creating a process for ISDE to monitor school districts’ systems. The goal of the group was to produce a Statewide system of support and accountability that will ensure consistent and sustainable implementation of valid evaluation systems for both teachers and administrators. This work included compiling a menu of recommendations for measuring student growth in grades and subjects in which assessments are not required under ESEA section 1111(b)(3) that will meet State approval (See Attachments 19, 21 and 22).

To further ensure consistency of adoption by each LEA, the ISDE has developed a timeframe for the development and implementation of an educator evaluation system that involves stakeholders in the process, incorporates support and accountability for districts, and will likely lead to high quality local teacher and principal evaluation systems. This work begun in 2009, focusing on teacher evaluation, and has continued to evolve with the implementation of Students Come First and the recent work of the Administrator Evaluation Focus Group. A timeline of all events related to this work, past, present, and planned for the future appears below:

<table>
<thead>
<tr>
<th>Timeline</th>
<th>Event(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>February 2009</strong></td>
<td>Presented Teacher Performance Evaluation recommendations to the Idaho Legislature</td>
</tr>
<tr>
<td><strong>April 2009</strong></td>
<td>The State Board of Education adopted as a temporary proposed rule the recommendations of the Teacher Performance Evaluation Task Force- IDAPA 08.02.02.120</td>
</tr>
<tr>
<td><strong>August 2009</strong></td>
<td>The ISDE sponsored Regional Trainings for Administrators on utilizing the Danielson Framework for teacher evaluation purposes. Districts worked with stakeholders to create models</td>
</tr>
<tr>
<td><strong>February 2010</strong></td>
<td>Districts were required to submit their proposal models to ISDE for review and approval. District’s model had to be signed by representatives of the Board of Trustees, administrators, and teachers</td>
</tr>
<tr>
<td><strong>2009-2010, 2010-2011 School Years</strong></td>
<td>The ISDE provided online professional development and training in the Danielson Framework for Teaching through Educational Impact.</td>
</tr>
<tr>
<td>March 2011</td>
<td>Temporary proposed Administrative Rules formally approved by the Legislature</td>
</tr>
<tr>
<td>------------</td>
<td>--------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>2010-2011 School Year</strong></td>
<td>At a minimum, districts began piloting their approved Teacher Performance Evaluations. The results of these pilots were utilized to make adjustments to their local policies, procedures and evaluation instruments.</td>
</tr>
<tr>
<td>March 2011</td>
<td>Students Come First legislation enacted requiring all districts and public charter schools to work with stakeholders to (1) adopt a policy to include student achievement data as part of their evaluation model and (2) adopt a policy to include parent input as part of their evaluation model</td>
</tr>
<tr>
<td><strong>2011-2012</strong></td>
<td>Districts begin full implementation of their teacher evaluation model. All LEA teacher evaluation models were reviewed and approved by the ISDE. All LEA teacher and principal evaluation models were collected and posted to the State’s website along with the results of all teacher and principal evaluations in accordance with the American Recovery and Reinvestment Act reporting guidance</td>
</tr>
<tr>
<td>December 2011</td>
<td>ISDE convened stakeholder group to define a framework for evaluating administrators</td>
</tr>
<tr>
<td>March 2012</td>
<td>ISDE convened an Evaluation Capacity Taskforce to formally determine a systematic way to monitor and support districts to ensure that all measures used in determining performance are valid and can be implemented in a quality manner</td>
</tr>
<tr>
<td><strong>2012-2013 School Year</strong></td>
<td>Districts began implementation of teacher evaluation models that provided for multiple measures to include, at a minimum, 50 percent student growth measures and parental input for all educators.</td>
</tr>
<tr>
<td>November 2012</td>
<td>The Students Come First laws were overturned as a result of a voter referendum. Idaho Attorney General ruled that 50% of a principal or teachers evaluation be based on objective measures of growth in student achievement and must include parental input for the 2012-2013 school year due to the fact that it was in law when contracts were signed.</td>
</tr>
<tr>
<td>Date</td>
<td>Description</td>
</tr>
<tr>
<td>------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>January 2013</td>
<td>State Department of Education convened Educator Evaluation Task Force that was designed to analyze the ESEA Flexibility requirements, compare them to Idaho’s current evaluation requirements and practices and make recommendations to the Idaho State Board of Education and the Idaho Legislature on necessary revisions to teacher and principal evaluation requirements to ensure that Idaho was in compliance with the ESEA Flexibility requirements</td>
</tr>
<tr>
<td>March 2013</td>
<td>The 2013 Idaho Legislature adopted recommendations from the Educator Evaluation Task Force that needed to be put into state statute.</td>
</tr>
<tr>
<td>April 17, 2013</td>
<td>The Idaho State Board of Education adopted as a Temporary and Proposed Rule, the recommendations of the Educator Evaluation Focus Group including the revisions to IDAPA 08.02.02.120 and the addition of IDAPA 08.02.02.121 beginning the formal promulgation of rule process. These rules were run as Temporary and Proposed which means they went in to full force and affect upon approval. The rules are currently out for public comment and will go back to the State Board for final approval at their meeting in August.</td>
</tr>
<tr>
<td>April 24, 2013</td>
<td>The rules governing teacher and principal evaluation were posted for a 30 day public comment period where anyone can provide public comment (<a href="http://www.sde.idaho.gov/site/publicComments/">http://www.sde.idaho.gov/site/publicComments/</a>).</td>
</tr>
<tr>
<td>May 2013</td>
<td>The ISDE will publish a document titled Idaho Effective Principal Evaluation Framework that can be adopted by districts as the instrument used to perform evaluations and observations of principals. This document provides districts with the a deeper understanding of the Principal Evaluation Standards that were adopted by the state and the indicators that an evaluator should be looking for at each proficiency level (See Attachment 23)</td>
</tr>
<tr>
<td>August 14, 2013</td>
<td>The State Board of Education will review the public comments collected on the teacher and principal evaluation rules and make any necessary changes to the rules based on those public comments.</td>
</tr>
<tr>
<td>Date</td>
<td>Event Description</td>
</tr>
<tr>
<td>------------------------------</td>
<td>--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>2013-2014 School Year</strong></td>
<td>Districts must implement teacher and principal evaluation models that are aligned to the revised rule, IDAPA 08.02.02.120 and the new rule, IDAPA 08.02.02.121. In order to allow districts to be purposeful in planning, and to maximize stakeholder input, ISDE will allow districts to use the 2013-14 school year to draft, preliminarily adopt, pilot, discuss, and modify district policy before submitting their teacher and principal evaluation models to the ISDE for final approval.</td>
</tr>
<tr>
<td><strong>July 1, 2013 and throughout the 2013-2014 School Year</strong></td>
<td>Administrators will have an opportunity to receive online training on the Danielson Framework and will take a proficiency assessment to demonstrate proficiency in evaluating performance on a statewide contract. ISDE will begin reviewing district proposed proficiency assessments that may also meet this requirement.</td>
</tr>
<tr>
<td><strong>2013-2014 School Year</strong></td>
<td>Institutions of Higher Education will begin piloting a process by which all principal candidates must demonstrate proof of proficiency in evaluating the performance of teachers prior to receiving an Institutional Recommendation and licensure.</td>
</tr>
<tr>
<td><strong>2014-2015 School Year</strong></td>
<td>All candidates entering a principal preparation program in 2014-2015 will be required to demonstrate proof of proficiency in evaluating the performance of teachers prior to receiving an Institutional Recommendation and licensure.</td>
</tr>
<tr>
<td><strong>2014-2015 School Year</strong></td>
<td>District will submit their teacher and principal evaluation models and policies to the ISDE for formal review and approval. ISDE will begin monitoring district implementation of models and policies.</td>
</tr>
<tr>
<td><strong>September 1, 2018</strong></td>
<td>All individuals assigned the responsibility of observing and or evaluating the performance of teachers must demonstrate proof of proficiency in evaluating the performance of teachers as a onetime recertification requirement prior to September 1, 2018.</td>
</tr>
</tbody>
</table>

To insure that LEAs adopt, pilot and implement teacher and principal evaluations and support systems with the involvement of teachers and principals, IDAPA 08.02.02.120 and IDAPA 08.02.02.121, require school districts to involve education stakeholders throughout the process:
Each school district board of trustees will develop and adopt policies for teacher performance evaluation using multiple measures in which criteria and procedures for the evaluation of certificated personnel are research based and aligned to the Charlotte Danielson Framework for Teaching Second Edition domains and components of instruction. The process of developing criteria and procedures for certificated personnel evaluation will allow opportunities for input from those affected by the evaluation; i.e., trustees, administrators, teachers and parents. The evaluation policy will be a matter of public record and communicated to the certificated personnel for whom it is written.

In addition, the evaluation policy adopted by the LEA must also include a plan for how all stakeholders will be included in the development and ongoing review of their teacher and principal evaluation plans. Stakeholders include, but are not limited to, teachers, board members, administrators and parents (See Attachment 10 and Attachment 11). To ensure that teachers and principals are involved with the development of the adopted guidelines, the ISDE, as part of its review process, will require proof of stakeholder participation in order to qualify its educator evaluation plan for approval (See Attachment 24). This rubric will be updated to reflect Idaho’s revised teacher evaluation requirements and to ensure that the multiple measures being adopted by districts are valid. A similar system for reviewing and approving a district’s principal evaluation framework is being developed as well as is outlined in Table 2.

In March 2010, the Idaho Legislature formally approved Idaho’s Statewide Framework for Teacher Performance Evaluations. The legislation formalized requirements previously prescribed through a temporary administrative rule. In order to assist districts in adopting and piloting the system with consistency, ISDE produced and distributed implementation guidance Statewide, and posted the information on its website (See Attachment 25).

Since Idaho had already adopted, piloted and implemented an evaluation and support system consistent with the requirements described in the ESEA flexibility waiver for both teachers and principals under our Students Come First laws prior to the ESEA flexibility opportunity, all schools in Idaho will have no difficulty implementing their evaluation systems by the 2014-2015 school year despite the repeal of Students Come First and the need to promulgate rules to meet the requirements. As described throughout this document, ISDE has set forth a timeline for policy development and school district adoption that is consistent with the requirements of the ESEA Waiver Guidelines that includes key implementation dates. As has been evidenced throughout the State’s responses to the questions set forth in this waiver, the timelines and various activities to be conducted have been determined to ensure that Idaho’s evaluation and support systems will be piloted no later than the 2013-14 school year with full implementation by the 2014-2015 school year. The ISDE will begin reviewing, approving and monitoring LEA teacher and principal evaluation models during the 2014-2015 school year.

The ISDE is confident that the timeline included within this ESEA flexibility submittal is logical and reasonable. Though there is much to be done within the timeframe, there is a sense of urgency and a commitment from all stakeholder groups that makes the plan reasonable. With the implementation of the teacher evaluation, and processes for approving district evaluation plans already in place, Idaho has a good foundation on which to build, based upon successful precedent.
In addition to the activities and efforts outlined throughout this ESEA flexibility request, a summary of some additional key activities that will ensure that each LEA develops and implements a teacher and principal evaluation and support systems that will likely lead to successful implementation follow:

- **ISDE Policy Guidance.** ISDE has all policies in place at this time which will allow districts to use the 2013-2014 school year to draft, preliminarily adopt, pilot, discuss and revise their district policy for principal evaluation systems, as well as finalize changes to their teacher evaluation systems. By the 2014-2015 school year, the district’s evaluation models must be fully implemented. The ISDE will establish a website to capture district reporting, and will solicit best practices from districts across the state. Final drafts of the revised educator evaluation plan must be submitted to ISDE for review and approval no later than January 1, 2014.

- **Face-to-Face Danielson Framework Training.** Training has been and will continue to be provided across the state for administrators and teacher leaders. Training in the Framework for Teaching will increase the likelihood of effective instructional leadership within schools, and ensure inter-rater reliability in performing teacher evaluations.

- A means for providing legally defensible evidence of inter-rater reliability has been piloted through ISDE this past year. To further promote rigor and reliability in evaluations, ISDE has offered the Teachscape Danielson Proficiency Assessment for school leaders to become “certified” evaluators. In addition to Title IIA State Project funds that have been utilized in the past for these efforts, an additional $300,000 has been approved by the Idaho Legislature as part of the Public Schools Budget for Fiscal Year 2014 to support the training and proficiency assessments of administrators and teacher leaders in evaluation and the Framework for Teaching statewide.

- The ISDE has set aside state general funds to begin a process by which ISDE staff will do onsite monitoring of teacher evaluation models, policies and practices as part of Idaho’s Statewide System of Support focus visits as is outlined in Principal 2 of this ESEA Flexibility Application. The ISDE will continue to leverage partnerships with Idaho’s Statewide System of Support Division in order to further support districts in their efforts to implement their teacher and principal evaluation models.

- By working with programs such as the Idaho Building Capacity project, Superintendents Network and the Network of Innovative School Leaders, all of which are described in Principle 2 of this ESEA Flexibility Application, we will coherently integrate evaluation training and support across programs throughout the state.

- In a strategic move by Superintendent Luna, Idaho’s Educator Effectiveness Coordinator, a new position created in 2011 who is in charge of teacher and principal evaluation, was moved under Idaho’s Statewide System of Support team and the Office of Teacher Certification and Professional Standards was moved into the same division as the Statewide System of Support. This shift was designed to ensure that continual improvement of instruction and teacher quality was part of the overall school and district improvement efforts.

- Idaho’s Professional Standards Commission shall form an additional subcommittee to work with the state’s Educator Effectiveness Coordinator to provide ongoing review and inform appropriate revisions of the state’s frameworks for educator evaluation.
These are just some of the examples of how Idaho is providing adequate guidance and other technical assistance to LEAs in developing and implementing teacher and principal evaluation and support systems that are likely to lead to successful implementation by LEAs.

In addition to these efforts, each school district will pilot their teacher and principal evaluation systems within their local context in the 2013-14 school year. Because each school district across the state will be piloting to some degree, the ISDE is confident that the sample is broad enough, and sufficient feedback can be gathered. The ISDE will establish a website to capture district reporting, and will solicit best practices from districts across the state. Additionally, the newly established longitudinal data system will capture individual teacher evaluations from every district across the state to provide baseline data to ISDE. The data from these pilots will be utilized to inform potential rule revisions to IDAPA 08.02.02.120 and IDAPA 08.02.02.121.

Idaho has made significant strides around teacher and principal evaluation and the efforts to strengthen evaluations for continuous improvement since 2008. In doing so, Idaho continues to create and refine our statewide frameworks for performance evaluations that use multiple measures to improve the craft of teaching and instructional leadership at all levels. Idaho’s educator evaluation system has seen dramatic change and improvements since 2008:

5. The Administrator Evaluation Focus Group and the work to adopt administrator evaluation standards (2011)
8. Governor Task Force for Improving Education (2013)

Improving educator quality has been in the center of reform in Idaho from 2008 up to this present date. This reform has taught valuable lessons to Idaho’s leaders of education. As we watch the nation and Race to The Top (RTT) states struggle to implement evaluation systems, we have learned valuable lessons. Moving quickly towards implementation does not guarantee a successful evaluation system that informs educators practice, and would likely omit the complicated measurement of an
educator’s contribution to student growth. Collection and application of reliable data that informs evaluations is complex with high stakes implication. In fact, “officials in most RTT states cited challenges related to developing and using evaluation measures, addressing teacher concerns, and building capacity and sustainability. State officials said it was difficult to design and implement rigorous student learning objectives—an alternate measure of student academic growth. In 6 states, officials said they had difficulty ensuring that principals conducted evaluations consistently.” (Race to the Top: States Implementing Teacher and Principal Evaluation Systems Despite Challenges, 2013) In one report it states “that virtually every state has had to delay implementation of its teacher evaluation systems, due to insufficient time to develop rubrics, pilot new systems, and/or train evaluators and others.” (Mismatches in Race to the Top Limit Educational Improvement: Lack of Time, Resources, and Tools to Address Opportunity Gaps Puts Lofty State Goals Out of Reach, 2013)

Idaho acknowledges that Principal Evaluation is evolving daily across the nation as research provides more insight on how to better evaluate school leaders. To this end, the Idaho Department of Education (ISDE) collaborates with the Northwest Comprehensive Center at Education Northwest, the Center on Great Teachers and Leaders, and the American Institute of Research who participates and leads current research on principal evaluation. The ISDE will continue collaboration with these teams of leaders in education and educational research. As research opens and improves in the area of evaluating principals and district leaders, Idaho will continue to align evaluation practices of school leadership to the research based evaluation practices that support our forward progression of improving evaluation in Idaho.

The progression towards an evaluation system that informs professional practice will also provide data that can inform personnel decisions and advancement opportunities for teachers and principals. We are confident that as we continue to focus on measuring and improving educators’ practices with systematic collection of data and analysis of that data, Idaho’s evaluation systems will consistently advance towards a reliable, tailored evaluation system for teachers and principals in multiple situations and settings. As Idaho moves forward with our goal to improve educator’s practices, we have created a systematic process to move towards improved evaluation systems. This growth is designed to be systematic with benchmarks and data collection and analysis to inform the continual progress towards a system that can be reliable, transparent, and include coherent weights and measures that move towards consistent weighting to accommodate local control and considerations for educators in a variety of settings. Tables 3 reflect Idaho’s efforts to progress towards a system that is valid and reliable through continual investigation and collaboration with teams of various technical experts and assessment specialist.

Idaho has considered these challenges and is committed to purposefully movement towards a more complete and reliable evaluation system to support the high stakes that are associated with teacher and principal evaluation. Idaho will move forward,
taking time to create thoughtful guidance using tested measures while collecting stakeholder feedback throughout the process with the objective of assuring a clear plan of communication is in place throughout the process. We have clear expectations for evaluators of teachers. We expect to move towards those same expectations for the evaluators of principals. However, principal evaluation is evolving from infancy which will impact Idaho’s ability to move quickly in this area. Nevertheless, this will continue to be a priority of our principal evaluation system.

**Introduction to Table 43**

Idaho recognizes the limited time that exists prior to full implementation and is prepared to provide supporting professional development, opportunities for districts to self-reflect on their evaluation systems and provide time for districts to improve their evaluation systems. We know that Idaho’s districts must trust their evaluation systems are effective in identifying effective teachers and leaders that improve student growth and achievement. Therefore, we have created a rigorous three year plan that will provide time for stakeholder input, continued piloting of evaluation systems, and systematic two-way feedback within a 3 year process. The table below provides more information on the refinement of teacher and principal evaluation in Idaho.

4. Teacher Evaluation Guidebook will support full implementation of teacher evaluation and the reliability of various measures

4. Principal Evaluation Guidebook will support full implementation of principal evaluation and the reliability of various measures.

4. ISDE will provide TA concerning the cycle and plan of reviewing and monitoring LEA Evaluation Plans; Statewide efforts to provide professional development and technical assistance to Idaho’s educators about the monitoring and review process for LEA evaluation plans

The strategic progression towards a statewide teacher and principal evaluation goes hand in hand with the transition to Idaho’s new assessment system, Smarter Balanced Assessment Consortium (SBAC). The SBAC system is not just a test. As we progress towards the full implementation of the SBAC, each stage of reliable data from the statewide assessment system will inform teacher and principal evaluation. Once SBAC is fully implemented, it will provide data from interim assessments and from summative assessment that are benchmarked to college and career readiness. This progression will provide data for Idaho’s
Growth Model that uses Student Growth Percentiles (SGP) mentioned in Section 2.A.i. These statewide measures will be included with defined district determined measures.

Considering the implications of moving too quickly in the process of developing and the implementation evaluation systems, Idaho’s strives to move beyond mere compliance of the Principle 3 of the ESEA Flexibility Waiver. It is important that we continue our efforts in molding a teacher and principal evaluation that primarily informs and improves educators’ practices that are based upon current research which is trusted to improve student growth. To that end, our continued efforts will include a system that addresses educators concerns and builds capacity with complex issues such as reliable student achievement measures with reliable measures that provides differentiation and measures school and teacher contributions to student growth.

Student Achievement (33%) will be based on statewide assessment system, Smarter Balanced Assessment Consortium (SBAC,) results as well as district determined multiple measures. SBAC results will include student growth and achievement for all grades and content areas assessed. District determined multiple measures will be used for content areas and grade levels where there is not SBAC data available (this may include first year teachers/administrators, new teacher/administrators to the state, teachers who teach in non-SBAC assessed content areas, etc.)

ISDE will create a Crosswalk of Danielson’s Framework for Teaching and World-Class Instructional Design and Assessment (WIDA) English Language Development (ELD) Framework: The ISDE includes teams of teacher-leaders who have worked on WIDA implementation within the state. This team has been in place since August 2012. The teacher-leaders will convene to create a cohesive connection between Danielson’s and WIDA. The document will include examples of best instructional practices for English Learners for teachers and administrator. The SEA will also contact the Danielson’s Group and the WIDA organization to inquire about plans that could inform the Idaho work. This information will be included in the Evaluation Guidance documents and provided to district evaluation teams. They will also receive technical assistance on the WIDA and instructional practices that teachers will use and evaluators will be trained to recognize the teachers’ use of the instructional practices for English Learners.

**Introduction to Table 44**

The ISDE Evaluation Core Team will lead and guide the continued progress of teacher and principal evaluation in Idaho. This team consists of the Statewide System of School Improvement Director, Education Effectiveness Coordinator, Title II-A Coordinator, Family and Community Engagement Coordinator, Title III & State LEP Coordinator, Director of Assessment and
Accountability, and Formative/Interim Assessment Coordinator. The ISDE Evaluation Core Team will lead Idaho’s Educator Task Force which consists of approximately 30-40 individuals from across the state that represents various stakeholders.

Table 4 reflects Idaho’s continual progression of the transition to the statewide SBAC assessment system and the systematic movement towards more accurate measures of educator quality. The purpose of this progression will be to understand the new measures and their properties that will help us design a system that more accurately identifies high or low performing educators. This progress will be complex as Idaho’s statewide assessment system is new and national evaluation research is moving forward at a rapid pace. However, Idaho is confident that as we work cooperatively with technical experts, psychometricians, and our regional education centers in considering classroom or school compositions and the weighting of these measures to adequately differentiate educator performance, we can better define educators’ contributions to student learning and growth. Idaho has recommended and provided samples of producing summative rating system for teacher and principal effectiveness. At this time it is a simple numerical calculation using Microsoft Excel that allows LEA and schools to include multiple measures which includes state assessments within the 33% of student achievement. Idaho will better define weighting of measures as we consider school and classroom composition, we will move towards measures that produce further differentiated summative ratings for teachers and principals (e.g., teachers who teach mostly low-income students, English Learners, or students with disabilities).

Idaho’s Tiered Licensure grant is led by Idaho’s Governor’s Task Force for Improving Education. (see attachment) The early steps of the grant include institutions of higher education and a few selected schools. The decisions regarding the forward movement of Tiered Licensure in Idaho will be led by the Task Force and therefore the prediction of this movement is difficult to define, at this time. The Tiered Licensure grant will pilot this year’s work and report back to the Task Force in December 2014 and the Legislature in January 2015. Consequently, the Table 4 only includes one year of progression. If the Task Force and Legislature determine it is advantageous to continue Tiered Licensure in Idaho, it will be added to Idaho’s differentiated evaluation system.

PRINCIPLE 3: SUMMARY
Idaho has created, and continues to develop statewide frameworks for performance evaluations using multiple measures to improve the craft of teaching and instructional leadership. Recent legislation and revisions to Administrative Rule guarantee that 33 percent of teacher and administrator performance evaluations will be based on student achievement, and must include growth in student achievement as measured by the Idaho Standards Achievement Test (ISAT). Additionally, teacher observations are conducted consistently across the state, based on the Danielson Framework for Teaching, and are an integral part of a teacher’s overall performance evaluation along with parental input, student input and or portfolios.

Idaho looks forward to the continued refinement of a differentiated evaluation system for teachers and principals. The ISDE teams will continue to reach out and collaborate with Idaho’s regional education centers, other technical experts, and psychometricians. The ISDE Educational Division is committed to work together with our stakeholders in increasing effective instructional practices and identification of instructional leadership that promotes student learning and strengthens students’ proficiency in college and career readiness. The plan within this document has been carefully considered as we have contemplated the goal of our work, examined resources, and studied Idaho and the nation’s progress in the area of teacher and principal evaluation. Idaho’s team has embedded checkpoints for progress to be measured and analyzed as we move forward.
Idaho is confident that the timeline provided will allow the progression towards a useful evaluation system that is based upon sound research and practices.

To ensure that every teacher evaluation results in meaningful, valid feedback that will inform professional development, Idaho has made it a priority to emphasize the principal’s role as an instructional leader; proficient in assessing teacher performance and carrying out reflective conversations to promote effective classroom practice. To further this cause, each administrator in the state of Idaho must demonstrate proof of proficiency in evaluating and observing teachers using the Danielson Framework for Teaching as a recertification requirement by September 1, 2018. The ultimate goal for the state is to increase the frequency of interaction between teachers and administrators around this model, and ensure that data gathered from evaluations is valid and reliable and informs ongoing professional growth.

The Idaho State Department of Education has worked with educational stakeholder groups to ensure that Idaho’s teacher and principal evaluation systems are consistent with the guidelines of Principle 3 of this ESEA Flexibility Waiver and the ISDE will continue to assess and refine educator evaluation systems through a system of reviewing, approving and monitoring each LEAs teacher and principle evaluation model. The ISDE is committed to creating guidance, providing technical assistance, and making policy adjustments according to research in best practices and data collected from the field. Idaho will continue to look for new partnerships and leverage existing partnerships to accomplish the highest quality and greatest possible consistency in evaluation systems across the state. Idaho will continue to revise Principle 3 of its ESEA flexibility request and its guidelines for its teacher and principal evaluation and support systems as necessary to meet all requirements of ESEA flexibility, taking into account the feedback it receives following the peer review of its Principle 3 submission.

SUBJECT
Board Policy III.P. Students, subsection 18. Student Complaints /Grievances – First Reading

REFERENCE
June 2010 Board approved second reading of amendments to Board Policy III.P.

APPLICABLE STATUTES, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section III.E.

BACKGROUND/DISCUSSION
The Federal Government has promulgated rules regarding postsecondary program integrity, non-compliance with these rules may result in an institutions loss of eligibility for Title IV funds. One of the requirements of these rules is the access to a state level complaint process for students of the institution. In administrative rule (IDAPA 08.01.11) we have a state complaint process that applies to the private postsecondary institutions that are authorized by the Board, in Board Policy III.P. Students, subsection 18. Student Complaints/Grievances we have a student complaint process that applies to those institutions under the Board’s direct governance. Board policy only applies to the community colleges when they are specifically mentioned in the policy, Board Policy III.P. does not currently specify that it applies to the community colleges. Proposed changes to Board Policy III.P. would add language specifying subsection 18. Student Complaints/Grievances applies to all public postsecondary institutions, including community colleges.

IMPACT
Approval of the proposed amendment would include community colleges students in the student complaint process currently outlined in Board policy, thereby assuring they are in compliance with the Federal Program Integrity Rules.

ATTACHMENTS
Attachment 1 – Board Policy III.P. Students – 1st Reading

STAFF COMMENTS AND RECOMMENDATIONS
During a discussion on a separate mater with the US Department of Education, it was brought to the attention of Board staff that Idaho’s community colleges may not be in compliance with the Federal Program Integrity Rules that will go into effect on July 1st. Board staff approached the three community college Presidents and offered to amend the Board Policy to specify that it included all Idaho public postsecondary institutions. All three presidents, after consultation with their staff, requested they be included in the Board’s student complaint process.
Due to the timing of the notification and the Program Integrity Rules effective date, there was not sufficient time to allow the Council on Academic Affairs and Programs to review the policy amendments as is customary with amendments in Board Policy Section III. The Instruction, Research and Academic Affairs Committee reviewed the policy at the June committee meeting.

Staff recommends approval.

BOARD ACTION

I move to approve the first reading of proposed amendments to Board policy III.P. Students, subsection 18. as submitted in Attachment 1.

Moved by _________ Seconded by _________ Carried Yes _____ No _____
Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES
SECTION: III. POSTSECONDARY AFFAIRS
SUBSECTION: P. Students  

The following policies and procedures are applicable to or for any person designated as a student at an institution under governance of the Board. A "student" means any person duly admitted and regularly enrolled at an institution under governance of the Board as an undergraduate, graduate, or professional student, on a full-time or part-time basis, or who is admitted as a non-matriculated student on or off an institutional campus.

1. Nondiscrimination

It is the policy of the Board that institutions under its governance must provide equal educational opportunities, services, and benefits to students without regard to race, color, religion, sex, national origin, age, handicap, or veterans status, including disabled veterans and veterans of the Vietnam era in accordance with:

a. Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000d et seq., which prohibits discrimination on the basis of race, color, or national origin in programs and activities receiving federal financial assistance.

b. Section 504 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. 794, which prohibits discrimination on the basis of handicap in programs and activities receiving federal financial assistance.

c. Title IX of the Education Amendments of 1972, as amended, 20 U.S.C. 1681 et seq., which prohibits discrimination on the basis of sex in education programs and activities receiving federal financial assistance.

d. The Age Discrimination Act of 1975, as amended, 42 U.S.C. 6101 et seq., which prohibits discrimination on the basis of age in programs or activities receiving federal financial assistance.

e. Chapter 59, Title 67, Idaho Code, and other applicable state and federal laws.

2. Sexual Harassment

Each institution must establish and maintain a positive learning environment for students that is fair, humane, and responsible. Sexual discrimination, including sexual harassment, is inimical to any institution.

Sexual harassment violates state and federal laws and the Governing Policies and Procedures of the Board. "Sexual harassment" means an un-welcomed sexual advance, request for sexual favors, or behavior, oral statements, or physical conduct of a sexual nature when:
a. submission to such conduct is made either explicitly or implicitly a term or condition of a student's grade, receipt of a grade, or status as a student;

b. an individual student's submission to or rejection of such conduct is used as a basis for a decision affecting the student; or

c. such conduct has the purpose or effect of substantially interfering with a student's learning or learning performance, or creating an intimidating, hostile, or offensive learning environment.

Each institution must develop and make public procedures providing for the prompt, confidential, and equitable resolution of student complaints alleging an act of sex-based discrimination, including sexual harassment.

3. Academic Freedom and Responsibility

Institutions of postsecondary education are conducted for the common good and not to further the interests of either the individual student or the institution as a whole. Academic freedom is fundamental for the protection of the rights of students in learning and carries with it responsibilities as well as rights.

Membership in an academic community imposes on students an obligation to respect the dignity of others, to acknowledge the right of others to express differing opinions, and to foster and defend intellectual honesty, freedom of inquiry and instruction, and free expression on and off the campus of an institution. Expression of dissent and attempts to produce change may not be carried out in ways which injure individuals, damage institutional facilities, disrupt classes, or interfere with institutional activities. Speakers on the campuses must not only be protected from violence but must also be given an opportunity to be heard. Those who seek to call attention to grievances must do so in ways that do not significantly impede the functioning of the institution.

Students are entitled to an atmosphere conducive to learning and to fair and even treatment in all aspects of student-teacher relationships. Teaching faculty may not refuse to enroll or teach a student because of the student's beliefs or the possible uses to which the student may put the knowledge gained from the course. Students must not be forced by the authority inherent in the instructional role to make personal or political choices.

4. Catalog and Representational Statements

Each institution will publish its official catalogue and admissions, academic, and other policies and procedures which affect students. (See also "Roles and Missions," Section III, Subsection I-2.)

Each institutional catalogue must include the following statement:
Catalogues, bulletins, and course or fee schedules shall not be considered as binding contracts between [institution] and students. The [institution] reserves the right at any time, without advance notice, to: (a) withdraw or cancel classes, courses, and programs; (b) change fee schedules; (c) change the academic calendar; (d) change admission and registration requirements; (e) change the regulations and requirements governing instruction in and graduation from the institution and its various divisions; and (f) change any other regulations affecting students. Changes shall go into force whenever the proper authorities so determine and shall apply not only to prospective students but also to those who are matriculated at the time in [institution]. When economic and other conditions permit, the [institution] tries to provide advance notice of such changes. In particular, when an instructional program is to be withdrawn, the [institution] will make every reasonable effort to ensure that students who are within two (2) years of completing graduation requirements, and who are making normal progress toward completion of those requirements, will have the opportunity to complete the program which is to be withdrawn.

No employee, agent, or representative of an institution may make representations to, or enter into any agreement with, or act toward any student or person in a manner which is not in conformity with Board Governing Policies and Procedures or the approved policies and procedures of the institution.

5. Student Records

The collection, retention, use, and dissemination of student records is subject to the requirements of the Family Educational Rights and Privacy Act of 1974, as amended, and implementing regulations. Each institution will establish policies and procedures for maintenance of student records consistent with the act and implementing regulations and will establish and make public an appeals procedure which allows a student to contest or protest the content of any item contained in his or her institutional records.

6. Residency Status - Procedure for Determination

Rules and procedures for the determination of residency status for purposes of paying nonresident tuition are found in the State Board of Education Rule Manual IDAPA 08.01.04.

7. Full-Time Students

a. Undergraduate Student

For fee and tuition purposes, a “full-time” undergraduate student means any undergraduate student carrying twelve (12) or more credits (or equivalent in audit and zero-credit registrations).
i. Student Body Officers and Appointees

For fee and tuition purposes, the president, vice president, and senators of the associated student body government are considered full-time students when carrying at least the following credit loads: (a) president, three (3) credits and (b) vice president and senators, six (6) credits.

ii. Editors

Editors of student published newspapers are recognized as full-time students when carrying a three credit load, and associate editors are recognized as full-time students when carrying a six credit load.

b. Graduate Student

For fee and tuition purposes, a “full-time” graduate student means any graduate student carrying nine (9) or more credits, or any graduate student on a full appointment as an instructional or graduate assistant, regardless of the number of credits for which such instructional or graduate assistant is registered.

8. Student Governance

The students at each institution may establish a student government constitution for their own duly constituted organization, which must be consistent with Board Governing Policies and Procedures. Each student constitution must be reviewed and approved by the Chief Executive Officer. Any amendments to the student constitution must also be reviewed and approved by the Chief Executive Officer.

9. Student Financial Aid

Each institution will establish policies and procedures necessary for the administration of student financial aid.

a. Transfer of Delinquent National Direct Student Loans. (See Section V, Subsection P)

b. Student Financial Aid Fraud

Each institution under governance of the Board should, as a matter of policy, initiate charges against individuals who fraudulently obtain or misrepresent themselves with respect to student financial aid.

10. Fees and Tuition

a. Establishment

Policies and procedures for establishment of fees, tuition, and other charges are found in Section V, Subsection R, of the Governing Policies and Procedures.
b. Refund of Fees
   Each institution will develop and publish a schedule for refund of fees in the event a student withdraws in accordance with regulations governing withdrawal.

11. Student Employees

   a. Restrictions

       No student employee may be assigned to duties which are for the benefit of personal and private gain, require partisan or nonpartisan political activities, or involve the construction, operation, or maintenance of any part of any facility which is used for sectarian instruction or religious worship. No supervisor may solicit or permit to be solicited from any student any fees, dues, compensation, commission, or gift or gratuity of any kind as a condition of or prerequisite for the student's employment.

   b. Policies and Procedures

       Each institution will develop its own policies and procedures regarding student employment, including use of student employment as a part of financial assistance available to the student. Such policies and procedures must ensure that equal employment opportunity is offered without discrimination and that wage administration is conducted in a uniform manner. Such policies also must include a statement of benefits available to student employees, if appropriate.

   c. Graduate Assistants

       Each institution is delegated the authority to appoint within the limitations of available resources graduate assistants in a number consistent with the mission of the institution. Graduate assistantships are established to supplement a graduate student's course of study, with employment appropriate to the student's academic pursuits.

       Each institution will establish its own procedures for appointment of graduate assistants which will include (a) qualifications, (b) clear and detailed responsibilities in writing, and (c) maximum number of hours expected and wages for meeting those requirements.

       Matriculation, activity, and facility fees for graduate assistants will be paid either by the student or by the department or academic unit on behalf of the student. Graduate students will be covered by appropriate insurance in accordance with institutional procedures for work-related illness or injury.

   d. Hourly or Contractual Employment

       Each institution may employ students on an hourly or contractual basis in accordance with the needs of the various departments or units, available funds, and rules of the Division of Human Resources (or the University of Idaho
12. Student Conduct, Rights, and Responsibilities

Each institution will establish and publish a statement of student rights and a code of student conduct. The code of conduct must include procedures by which a student charged with violating the code receives reasonable notice of the charge and is given an opportunity to be heard and present testimony in his or her defense. Such statements of rights and codes of conduct, and any subsequent amendments, are subject to review and approval of the chief executive officer.

Sections 33-3715 and 33-3716, Idaho Code, establish criminal penalties for conduct declared to be unlawful.

13. Student Services

Each institution will develop and publish a listing of services available to students, eligibility for such services, and costs or conditions, if any, of obtaining such services.

14. Student Organizations

Each student government association is responsible, subject to the approval of the institution's chief executive officer, for establishing or terminating student organizations supported through allocation of revenues available to the association. Expenditures by or on behalf of such student organizations are subject to rules, policies, and procedures of the institution and the Board.

15. Student Publications and Broadcasts

Student publications and broadcasts are independent of the State Board of Education and the institutional administration. The institutional administration and the State Board of Education assume no responsibility for the content of any student publication or broadcast. The publishers or managers of the student publications or broadcasts are solely liable for the content.

16. Student Health Insurance (Effective July 1, 2003)

The Board’s student health insurance policy is a minimum requirement. Each institution, at its discretion, may adopt policies and procedures more stringent than those provided herein.

   a. Health Insurance Coverage Offered through the Institution

      Each institution shall provide the opportunity for students to purchase health insurance. Institutions are encouraged to work together to provide the most cost-effective options.
effective coverage possible. Health insurance offered through the institution shall provide benefits in accordance with state and federal law.

b. Mandatory Student Health Insurance

Every full-fee paying student (as defined by each institution) attending classes in Idaho shall be covered by health insurance. Students shall purchase health insurance offered through the institution, or may instead, at the discretion of each institution, present evidence of health insurance coverage that is at least substantially equivalent to the health insurance coverage offered through the institution. Students without evidence of health insurance coverage shall be ineligible to enroll at the institution.

i. Students presenting evidence of health insurance coverage not acquired through the institution shall provide at least the following information:

1) Name of health insurance carrier
2) Policy number
3) Location of an employer, insurance company or agent who can verify coverage

ii. Each institution shall monitor and enforce student compliance with this policy.

iii. Each institution shall develop procedures that provide for termination of a student’s registration if he or she is found to be out of compliance with this policy while enrolled at the institution. Each institution, at its discretion, may provide a student found to be out of compliance the opportunity to come into compliance before that student’s registration is terminated, and may provide that a student be allowed to re-enroll upon meeting the conditions set forth herein, and any others as may be set forth by the institution.

17. Students Called to Active Military Duty

The Board strongly supports the men and women serving in the National Guard and in reserve components of the U.S. Armed Forces. The Board encourages its institutions to work with students who are called away to active military duty during the course of an academic term and provide solutions to best meet the student’s current and future academic needs. The activated student, with the instructor’s consent, may elect to have an instructor continue to work with them on an individual basis. Additionally, institutions are required to provide at least the following:

a. The activated student may elect to completely withdraw. The standard withdrawal deadlines and limitations will not be applied. At the discretion of the institution, the student will receive a “W” on his or her transcript, or no indication of enrollment in the course(s).
b. One hundred percent (100%) of the paid tuition and/or fees for the current term will be refunded, as well as a pro-rated refund for paid student housing fees, meal-plans, or any other additional fees. Provided, however, that if a student received financial aid, the institution will process that portion of the refund in accordance with each financial aid program.

18. Student Complaints/Grievances.

This subsection shall apply to the University of Idaho, Idaho State University, Boise State University, Lewis-Clark State College, Eastern Idaho Technical College, North Idaho College, the College of Southern Idaho, and the College of Western Idaho. The State Board of Education and Board of Regents of the University of Idaho, as the governing body of the state’s postsecondary educational institutions, has established the following procedure for review of institution decisions regarding student complaints/grievances shall be reviewed as follows:

a. The Board designates its Executive Director as the Board’s representative for reviewing student complaints/grievances, and authorizes the Executive Director, after such review, to issue the decision of the Board based on such review. The Executive Director may, in his/her discretion, refer any matter to the Board for final action/decision.

b. A current or former student at a postsecondary educational institution under the governance of the Board may request that the Executive Director review any final institutional decision relating to a complaint or grievance instituted by such student related to such individual's attendance at the institution. The student must have exhausted the complaint/grievance resolution procedures that have been established at the institution level. The Executive Director will not review complaints/grievances that have not been reported to the institution, or processed in accordance with the institution’s complaint/grievance resolution procedures.

c. A request for review must be submitted in writing to the Board office to the attention of the Chief Academic Officer, and must contain a clear and concise statement of the reason(s) for Board review. Such request must be received in the Board office no later than thirty (30) calendar days after the student receives the institution’s final decision on such matter. The student has the burden of establishing that the final decision made by the institution on the grievance/complaint was made in error. A request for review must include a copy of the original grievance and all proposed resolutions and recommended decisions issued by the institution, as well as all other documentation necessary to demonstrate that the student has strictly followed the complaint/grievance resolution procedures of the institution. The institution may be asked to provide information to the Board office related to the student complaint/grievance.
d. The Chief Academic Officer will review the materials submitted by all parties and make a determination of recommended action, which will be forwarded to the Executive Director for a full determination. A review of a student complaint/grievance will occur as expeditiously as possible.

e. The Board office may request that the student and/or institution provide additional information in connection with such review. In such event, the student and/or institution must provide such additional information promptly.

f. The Board’s Executive Director will issue a written decision as to whether the institution’s decision with regard to the student’s complaint/grievance was proper or was made in error. The Executive Director may uphold the institution’s decision, overturn the institution’s decision, or the Executive Director may remand the matter back to the institution with instructions for additional review. Unless referred by the Executive Director to the Board for final action/decision, the decision of the Executive Director is final.

The Board staff members do not act as negotiators, mediators, or advocates concerning student complaints/grievances.
SUBJECT
Board Policy III.Y. Advanced Opportunities – Second Reading

REFERENCE
- April 2012: Board approved the first reading of amendments to Board Policy III.Y.
- June 2012: Board approved the second reading of amendments to Board Policy III.Y.
- February 2014: Board approved the first reading of amendments to Board Policy III.Y which would allow secondary students two options for earning postsecondary credits through the technical college system.
- April 2014: Board approved first reading of additional amendments to Board Policy III.Y.

APPLICABLE STATUTES, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section III.E.

BACKGROUND/DISCUSSION
Over the last year, the Division of Professional-Technical Education (PTE), in conjunction with a stakeholder group made up of representatives from the technical colleges and industry evaluated Idaho’s TechPrep Program and has proposed amendments to the program. The “traditional” TechPrep Program contained in Board policy allowed secondary professional-technical students the opportunity to participate in a TechPrep Program that allowed them to transcribe postsecondary credits within a defined period of time at the conclusion of the program. The TechPrep Programs must have an approved articulation agreement between the high school and the postsecondary institution. This agreement outlines how the credits will transfer at the conclusion of the program. The proposed amendments would rename the program Technical Competency Credit and clarify that students participating in a Technical Competency Credit program are not concurrently enrolled in a postsecondary institution and are not granted credit or assessed the Technical Competency Credit Fee until they matriculate to institution based on the program articulation agreement. Additional changes clarify that professional-technical courses may also be dual credit courses. Professional-technical dual credit courses and teachers of these courses at the high school must meet the same standards as the equivalent courses at the technical college.

Technical Competency Credit students would not be considered postsecondary students and would not earn credits until they matriculate to a postsecondary institution. The credits earned would be based on successfully mastering the program competencies. Technical Dual Credit students, similar to Academic Dual Credits students, would be awarded at the successful completion of each course, students would be concurrently enrolled as secondary students and postsecondary students and would continue to be charged the existing dual credit fee set at the Board’s annual fee setting meeting.
IMPACT

Approval of the proposed amendment will clarify for the institutions that dual credit courses can be either academic courses or professional-technical courses and that students participating in technical competency credit (TechPrep) programs are not concurrently enrolled students.

ATTACHMENTS

Attachment 1 – Board Policy III.Y. Advanced Opportunities–2nd Reading Page 5
Attachment 2 – Tech Prep Task Force Final Report Page 15

STAFF COMMENTS AND RECOMMENDATIONS

At the April 2014 Board meeting the Board considered the second reading of Board Policy III.Y. At that time it was determined that the changes proposed between the first and second reading had been significant enough that the policy should be approved as a first reading, incorporating the additional changes, and come back to the Board as a second reading at the June Board meeting.

Additionally, Lewis-Clark State College (LCSC) expressed concerns regarding the policy itself. The language in the technical competency credit standards specifying that these students are not postsecondary students and do not receive the postsecondary credits until they matriculate would impact LCSC’s current TechPrep practices. LCSC concurrently enrolls these students as postsecondary students. The Technical Dual Credit model would allow LCSC to concurrently enroll secondary students, however, these courses would be subject to the dual credit fee. Once a student is concurrently enrolled for a specific course, the course falls under the definition of a dual credit course. In consideration of LCSC’s concerns the Board asked the Council on Academic Affairs and Programs (CAAP) to discuss the option of a variable dual credit fee and the clarifying language that Technical Competency Credit program students are not concurrently enrolled or granted postsecondary credit or assessed the Technical Competency Credit fee until they matriculate (based on the programs articulation agreement) and to bring a recommendation to the Board’s Instruction, Research, and Student Affairs (IRSA) Committee.

CAAP discussed the proposed policy amendments at their June meeting, and while they did not come to consensus on the issue of the variable dual credit fee, the majority of CAAP voted to forward the recommendation to IRSA that the Dual Credit Fee remain a single set fee as is current Board policy for dual credit courses. IRSA discussed the recommendation from CAAP and the pros and cons of a variable dual credit fee at their June committee meeting and choose to forward the second reading as outlined in Attachment 1 to the Board. The proposed second reading maintains the dual credit fee set at the Board’s April fee setting meeting and the clarification that Technical Competency Credit students are not concurrently enrolled at the postsecondary institution.
There are minor changes proposed to the working in the Technical Competency Credit section. These changes were proposed by PTE, and have been reviewed by CAAP and IRSA. These changes specify that the student guide will contain information for students specifying the difference between technical and academic credit and how a professional-technical course is part of an established professional-technical program.

Staff recommends approval.

BOARD ACTION
I move to approve the second reading of proposed amendments to Board policy III.Y. Advanced Opportunities as submitted in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
Idaho State Board of Education

GOVERNING POLICIES AND PROCEDURES

SECTION: III. POSTSECONDARY AFFAIRS

SUBSECTION: Y. Advanced Opportunities

1. Coverage

Boise State University, Idaho State University, the University of Idaho, Lewis-Clark State College, Eastern Idaho Technical College, North Idaho College, the College of Southern Idaho, and the College of Western Idaho are covered by these policies. Post-secondary programs intended for transfer come under the purview of the Board.

2. Purpose

The State Board of Education has made a commitment to improve the educational opportunities to Idaho citizens by creating a seamless system. To this end, the Board has instructed its postsecondary institutions to provide educational programs and training to their respective service regions, to support and enhance regional and statewide economic development, and to collaborate with the public elementary and secondary schools. In addition to the Board’s desire to prepare secondary graduates for postsecondary programs, the Board is also addressing advanced opportunities programs for qualified secondary students. These programs have the potential for reducing the overall costs of secondary and postsecondary programs to the students and institutions.

The primary intent of the Board is to develop a purpose of this policy is to provide program standards for advanced opportunities programs for secondary students which would:

a. Enhance their postsecondary goals;
b. Reduce duplication and provide for an easy transition between secondary and postsecondary education; and
c. Reduce the overall cost of educational services and training to the student.

3. Definitions

There are various advanced opportunities programs students may access to receive post-secondary credit for education completed while enrolled in the secondary system. Examples include Advanced Placement® (AP), dual credit courses that are taken either in the high school or on the college campus, Tech-Prep technical competency credit, and International Baccalaureate programs. For the purpose of this policy the State Board of Education recognizes four different types of advanced opportunities programs depending upon the delivery site and faculty. They are: Advanced Placement®, dual credit, Tech-Prep technical competency credit, and the International Baccalaureate program.

a. Advanced Placement® (AP)
The Advanced Placement® Program is administered by the College Board. AP students may take one or more college level courses in a variety of subjects. AP courses are not tied to a specific college curriculum, but rather follow national College Board curricula. While taking the AP exam is optional, students may earn college credit by scoring well on the national AP exams. It is up to the discretion of the individual colleges to accept the scores from the AP exams to award college credit or advanced standing.

b. Dual Credit
Dual credit allows high school students to simultaneously earn credit toward a high school diploma and a postsecondary degree or certificate. Postsecondary institutions work closely with high schools to deliver college courses that are identical to those offered on the college campus. Credits earned in a dual credit class become part of the student’s permanent college record. Students may enroll in dual credit programs taught at the high school or on the college campus. Dual credit may be earned for both academic courses and professional-technical courses. Academic dual credit refers to credits earned on a student’s secondary transcript and postsecondary transcript for a single academic dual credit course. Technical dual credit refers to credits earned on a student’s high school transcript and postsecondary transcript for the same professional-technical course.

c. International Baccalaureate (IB)
Administered by the International Baccalaureate Organization, the IB program provides a comprehensive liberal arts course of study for students in their junior and senior years of high school. IB students take end-of-course exams that may qualify for college-credit. Successful completion of the full course of study leads to an IB diploma.

d. Tech Prep—Technical Competency Credit
Professional-technical education programs are delivered through comprehensive high schools, professional-technical schools, and technical colleges. Tech Prep allows secondary professional-technical students the opportunity to simultaneously earn secondary and postsecondary technical credits. A Tech Prep course must have an approved articulation agreement between the high school and a technical college. Tech Prep is an advanced learning opportunity that provides a head start on a technical certificate or an associate of applied science degree. Technical Competency Credit provides an avenue for secondary students to document proficiency in the skills and abilities they develop in high school professional-technical programs to be evaluated for postsecondary transcription when they matriculate to a postsecondary institution. Technical Competency Credits are awarded for courses and competencies identified as eligible Technical Competency Credit through a Technical Competency Credit Agreement with at least one Idaho postsecondary institution. Eligible courses are professional-technical courses provided at the high school and approved by the postsecondary institution in advance. Students participating in a technical competency credit program are not considered postsecondary students until they matriculate to a postsecondary institution.
4. Idaho Programs Standards for Advanced Opportunities Programs

All advanced opportunities programs in the state of Idaho shall be developed and managed in accordance with these standards which were designed to help school districts, colleges and universities plan, implement, and evaluate high quality advanced opportunities programs offered to high school students before they graduate.

</tbody>
</table>

### Program Administration and Evaluation

<table>
<thead>
<tr>
<th>Admin &amp; Evaluation 1  (AE1)</th>
<th>The dual credit program practices are assessed and evaluated based on criteria established by the school, institution and State Board to include at least the following: course evaluations by dual credit students, follow-up of the dual credit graduates who are college or university freshmen, and a review of instructional practices at the high school to ensure program quality.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Admin &amp; Evaluation 2  (AE2)</td>
<td>Every course offered through a dual credit program is annually reviewed by faculty from that discipline and dual credit staff to assure that grading standards meet those in postsecondary sections.</td>
</tr>
<tr>
<td>Admin &amp; Evaluation 3  (AE3)</td>
<td>Dual credit students are assessed using the same methods (e.g. papers, portfolios, quizzes, labs, etc.) as their on-campus counterparts.</td>
</tr>
<tr>
<td>Admin &amp; Evaluation 4  (AE4)</td>
<td>A data collection system has been established based on criteria</td>
</tr>
</tbody>
</table>
Evaluation 4 (AE4) established by the high school, institution and State Board to track dual credit students to provide data regarding the impact of dual credit programs in relation to college entrance, retention, matriculation from high school and college, impact on college entrance tests, etc. A study is conducted every 5 years on dual credit graduates who are freshmen and sophomores in a college or university.

Admin & Evaluation 5 (AE 5) Costs for high school students have been established and this information is provided to students before they enroll in a dual credit course. Students pay a reduced cost per credit that is approved annually at the Board’s fee setting meeting. The approval process will consider comparable rates among institutions within the state and the cost to deliver instruction for dual credit courses.

Admin & Evaluation 6 (AE 6) Agreements have been established between the high school and the postsecondary institution to ensure instructional quality. Teacher qualifications are reviewed, professional development is provided as needed, course content and assessment expectations are reviewed, faculty assessment is discussed, student’s costs are established, compensation for the teacher is identified, etc.

Admin & Evaluation 7 (AE 7) Postsecondary institutions have carefully evaluated how to provide services to all students regardless of where a student is located.

b. Technical Dual Credit Standards for Students Enrolled in Courses Taught at the High School

Curriculum

<table>
<thead>
<tr>
<th>Curriculum 1 (C1)</th>
<th>Courses are catalogued postsecondary technical courses approved through the regular course approval process of the postsecondary institution. These courses have the same departmental designation, number, title, and credits as traditional postsecondary institution courses. These courses adhere to the same course description and course content as the postsecondary institution course.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Curriculum 2 (C2)</td>
<td>Courses are recorded on a student’s official academic record of the postsecondary institution.</td>

### Assessment

<table>
<thead>
<tr>
<th>Assessment 1 (A1)</th>
<th>Technical Dual Credit students are held to the same course content standards and standards of achievement as those expected of students in postsecondary institution courses.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assessment 2 (A2)</td>
<td>Every Technical Dual Credit course offered is annually reviewed by postsecondary institution faculty and high school program instructors to assure that postsecondary institution standards are being met.</td>
</tr>
</tbody>
</table>
Assessment 3 (A3)

Students enrolled for Technical Dual Credit are assessed and awarded credit at the same level of proficiency using the same methods as postsecondary institution students and by a process approved by the postsecondary institution.

Program Administration and Evaluation

Admin & Evaluation 1 (AE1)

Agreements are established between the high school and the postsecondary institution to ensure instructional quality. Teacher qualifications, course content, student assessment, and faculty assessment are reviewed and agreed upon by the postsecondary institution.

Admin & Evaluation 2 (AE 2)

Costs for high school students have been established and this information is provided to students before they enroll in a dual credit course. Students pay a reduced cost per credit that is approved annually at the Board’s fee setting meeting. The approval process will consider comparable rates among institutions within the state and the cost to deliver instruction for dual credit courses.

c. Dual Credit Standards for Students Enrolled in Courses at the College/University Campus (Academic and Technical Dual Credit)

A. The student is admitted by the postsecondary institution as a non-matriculating degree seeking student.

B. The student is charged the part-time credit hour fee or tuition and additional fees as established by the institution.

C. Instructional costs are borne by the postsecondary institution.

D. Four (4) semester college credits are typically equivalent to at least one (1) full year of high school credit in that subject.

E. In compliance with Idaho Code 33-5104, An institution may require prior to enrolling, the student and the student's parent/guardian must sign and submit a counseling form provided by the school district or the institution that outlines the provisions of the section of this Code. The counseling form includes written permission from the student's parent/guardian, and principal or counselor, the risks and possible consequences of enrolling in postsecondary courses, including but not limited to the impacts on future financial aid, and the consequences of failing or not completing a course in which the student enrolls. It is the responsibility of the postsecondary institution to provide advising for all students taking courses on the postsecondary campus.

F. Any high school student may make application to one of the public postsecondary institutions provided all of the following requirements are met:

The student has reached the minimum age of 16 years or has successfully completed at least one-half of the high school graduation requirements as certified by the high school.

Submission of the appropriate institutional application material for admission. Written notification of acceptance to the institution will be provided to the student after he or she submits the appropriate.
If required by institutional policy, a student must obtain approval of the college or university instructor to enroll in a course.

Those high school students meeting the above requirements will be permitted to enroll on a part-time basis or full-time basis as defined in Board policy.

G. Students seeking admission who do not meet the above requirements may petition the institution's admission committee for consideration. Students under the age of 16 enrolled in a public secondary school may seek admission to enroll in courses provided on the postsecondary campus by submitting a petition to the high school principal’s office and to the admissions office of the postsecondary institution.

c. Advanced Placement Standards

Advanced Placement (AP) courses are taught by high school teachers following the curricular goals administered by The College Board. These college level courses are academically rigorous and conclude with the optional comprehensive AP exam in May. Students taking AP courses accept the challenge of a rigorous academic curriculum, with the expectation of completing the complex assignments associated with the course and challenging the comprehensive AP exam. The AP Examination is a national assessment based on the AP curriculum, given in each subject area on a specified day at a specified time, as outlined by the College Board. Students and parents are responsible for researching the AP policy of the postsecondary institution the student may wish to attend. College/university credit is based on the successful completion of the AP exam, and dependent upon institutional AP credit acceptance policy.

Curriculum

<table>
<thead>
<tr>
<th>Curriculum 1 (C1)</th>
<th>Postsecondary institutions evaluate AP scores and award credit reflecting the pedagogical, theoretical, and philosophical orientation of the sponsoring faculty and/or academic department at the institution.</th>
</tr>
</thead>
<tbody>

<td>Curriculum 2 (C2)</td>
<td>High school credit is given for enrollment and successful completion of an AP class.</td>
</tr>
</tbody>
</table>

Faculty

<table>
<thead>
<tr>
<th>Faculty 1 (F1)</th>
<th>AP teachers shall follow the curricular materials and goals outlined by The College Board.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Faculty 2 (F2)</td>
<td>The AP teacher may attend an AP Institute before teaching the course.</td>
</tr>
</tbody>
</table>

Students/Parents

<table>
<thead>
<tr>
<th>Students 1 (S1)</th>
<th>A fee schedule has been established for the AP exam. Students and their parents pay the fee unless other arrangements have been made by the high school.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Students 2 (S2)</td>
<td>Information must be available from the high school counselor, AP coordinator or other faculty members regarding admission, course content, costs, high school credit offered and student responsibility.</td>
</tr>
</tbody>
</table>
Assessment

| Assessment 1 (A1) | Students are assessed for high school credit according to the requirements determined by the high school. |

Program Administration and Evaluation

| Admin & Evaluation 1 (AE1) | To evaluate the success of the programs and to improve services, the school district must annually review the data provided by The College Board. |
| Admin & Evaluation 2 (AE2) | The school district must carefully evaluate how to provide services to all students, regardless of family income, ethnicity, disability, or location of educational setting. |

d. **Tech Prep Technical Competency Credit Standards**

Professional-Technical Education programs in Idaho are delivered through comprehensive high schools, professional-technical schools, and the technical college system. Tech allows secondary professional-technical students the opportunity to simultaneously earn secondary and postsecondary technical credits. A Tech Prep course must have an approved articulation agreement between the high school and a postsecondary institution. Tech Prep is an advanced learning opportunity that provides a head start on a technical certificate, an associate of applied science degree, or towards a baccalaureate degree.

Curriculum

| Curriculum 1 (C1) | A Tech Prep course must have an approved articulation agreement with a postsecondary institution. The High school professional-technical courses and course content program must have competencies comparable with postsecondary institution courses technical program and be identified as eligible for Technical Competency Credit consideration through a Technical Competency Credit Agreement (e.g. articulation agreement) with a least one Idaho postsecondary institution. |
| Curriculum 2 (C2) | Secondary and postsecondary educators must agree on the technical competencies, and agree to the student learning outcomes, and level of proficiency to be demonstrated by the student. |

Faculty

| Faculty 1 (F1) | Secondary and postsecondary educators must hold appropriate professional-technical certification in the program area for which articulated credit is to be awarded. |

Students/Parents

| Students 1 (S1) | Tech Prep Technical Competency Credit students participating in this advanced opportunity are high school students, and are not enrolled in the postsecondary institution. These students are not counted as dual credit students. Postsecondary credits are not awarded until the student matriculates to the postsecondary institution. |
### Students 2 (S2)

High school students are provided with a student guide that outlines their responsibilities, guidelines for the process of transcripting postsecondary credit, credit transfer and information regarding how the technical credit will apply to postsecondary certificates and degree requirements. The student guide will include an explanation of the difference between technical and academic credit, how a professional-technical course is a part of a professional technical program sequence, and how the courses may impact their academic standing when they fully matriculate after high school.

### Students 3 (S3)

At the completion of the TechPrep course Technical Competency Credit program, the instructor will recommend identify students eligible for college credit based on their performance. To be eligible for college credit, students must receive a grade of B or complete a minimum of 80% of the competencies in the course—those who have met program competencies.

### Assessment

**Assessment 1 (A1)**

The students are assessed for high school and postsecondary technical credit according to the requirements of the articulation Technical Competency Credit agreement.

### Program Administration and Evaluation

**Admin & Evaluation 1 (AE1)**

The technical college in each region administers the Advanced Learning Partnership (ALP). The school districts in each region are members of the ALP. The Tech Prep program is administered through the six Advanced-Learning Partnerships and each of the technical colleges serves as the fiscal agent. The ALP Advisory Committee meets at least twice per school year.

**Admin & Evaluation 21 (AE21)**

Each articulation Any Technical Competency Credit agreement between a secondary professional-technical program and a postsecondary institution must be reviewed annually.

**Admin & Evaluation 2 (AE 2)**

At the time of regular admission to the postsecondary institution program, the student will be assessed a transcription fee consistent with the current Workforce Training Fee (Board Policy Section IV.R.3.a.ix.) for qualifying Technical Competency credits earned in high school.
HISTORY

In 1990, Tech Prep was included in Carl Perkins II legislation. It was intended to help more students transition from high school into postsecondary technical programs and was originally implemented as a “two plus two” articulation framework. The enactment of the Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV) required the development and implementation of programs of study and gave states the option of consolidating Tech Prep into their Basic State Grant. Consolidation of Title I and Title II made the funds subject to the allowable use criteria of Title I and eliminated the very prescriptive Tech Prep requirements of Title II. In 2011, Congress defunded Tech Prep completely.

Idaho was one of the states that chose to consolidate Title I and Title II. Reserve funds were designated for the creation and support of six regional Advanced Learning Partnerships that serve as advisory committees to the state’s professional-technical education (PTE) advanced opportunity. Tech Prep continues in Idaho as one of the advanced opportunities recognized by the State Board of Education, and is intended to provide students a head start on a technical certificate or associate of applied science degree. Articulation agreements document the alignment of competencies between secondary and postsecondary programs. To be eligible for college credit students must successfully complete 80% of the agreed upon competencies and receive recommendation from the high school instructor. Upon receiving this recommendation, students have a period of time to apply to a postsecondary institution and transcript the college credit.

It is important to note that unlike dual credit, Tech Prep students are not concurrently enrolled in the secondary and postsecondary institution, content is taught at the high school by the high school teachers, not adjunct college faculty, and as noted above, after successfully completing a secondary PTE program, students must request transcription of the credit. There are many advantages to this system. First, high school teachers do not have to meet the postsecondary requirements of adjunct faculty status which increases the number of advanced opportunities that can be offered; particularly in schools districts that may not have the masters’ degreed teachers usually required for dual credit. Second, students who may not meet the requirements for dual credit courses, have the opportunity to enroll and succeed in Tech Prep high school
programs. Lastly, students do not have to make the decision to transcript the postsecondary credits until after they have received their grades in the program and have determined whether the credits will apply to their intended postsecondary credential. This is important in that students can make decisions that do not jeopardize their financial aid future.

Data collected on the state secondary placement report showed that 66% of PTE high school PTE concentrator enrolled in college as compared to 49% of the general student population (number from National Center for Higher Education Management Systems). Unfortunately, based on data provided by the Tech Prep coordinators, less than 8% of high school PTE students transcript the technical credits they’ve earned. Students who do transcript the credits have discovered the credits do not always apply to the postsecondary credential they are seeking. For these reasons, it was decided that it was time to review the system.

Task Force

In August, 2012, Dr. Todd Schwarz, State Administrator for the Idaho Division of Professional-Technical Education (DPTE), announced the formation of a task force to analyze the current state of Idaho’s Tech Prep system.

The task force was co-chaired by Darrell Buffaloe, former Vice President at Idaho State University and Department Chair at the College of Southern Idaho, and Susan Johnson, Program Standards Coordinator for DPTE. The task force members included a cross-section of PTE stakeholders from across the state. The members of the task force were:

- Mr. Darrell Buffaloe, former Idaho State University Vice President and College of Southern Idaho Department Chair
- Mr. Jay Hummel, Superintendent, Kuna Joint District #3
- Mr. Wayne Rush, Superintendent, Emmett School District, #221
- Dr. Rob Lohrmeyer, Dean, Lewis-State College
- Mr. Doug Anderson, Department Chair, North Idaho College
- Mr. Steve Rayburn, Program Head, College of Western Idaho
- Ms. Karrie Hornbacher, Tech Prep Coordinator, College of Southern Idaho
- Ms. Suzanne Felt, Registrar, Eastern Idaho Technical College
- Ms. Laurel Grant, Certified Career Development Facilitator, Pocatello/Chubbuck School District #25
- Ms. Selena Grace, Chief Academic Officer, Office of the State Board of Education
- Ms. Angela Robinson, Vice President, Human Relations, Western States Caterpillar

DPTE staff ex officio members were:

- Dr. Todd Schwarz, State Administrator
- Dr. Vera McCrink, Associate Administrator
- Susan Johnson, Program Standards Coordinator

The task force met for the first time in September 2012. The meeting began with a review of State Board mandated benefits of all advanced opportunities which are to save students time and money in obtaining a postsecondary credential, and then the task force went to work identifying the positives and negatives aspects of the current system. By the end of the meeting everything was grouped into the following themes:
RECOMMENDATION 1—Advanced Opportunity purpose and underlying principles.

Recognize that one of the purposes of professional-technical secondary education programs is to move students on to postsecondary and be better-prepared for any postsecondary program. The PTE advanced opportunity should serve that purpose with the following considerations:

1. Keep it simple.
2. Do no harm to the student (e.g., FAFSA credits towards graduation).

RECOMMENDATION 2—Alignment.

Improve alignment between secondary and postsecondary professional-technical credit.

1. Develop clearly defined, industry-validated student learning outcomes.
2. Embed industry-validated workplace readiness skills in all PTE programs and include in all articulation agreements.
RECOMMENDATION 3—Statewide System.

Create a consistent and well-defined statewide system that serves the students.

1. Refine articulation agreement development process.

2. Whenever possible, provide for credit transferability by developing statewide articulation agreements.

3. Develop a statewide database of student learning outcomes that are the basis of articulation agreements.

4. Develop agreement on the cost and timing of transcription of postsecondary technical credits earned in high school, and the shelf life of credits (expiration date).

5. Change the name of the PTE advanced opportunity.

6. Provide secondary-postsecondary transitional advising for students and their parents.

7. Insure the relevant data fields are built into ICEE and SLDS to document student technical skill attainment.

RECOMMENDATION 4—Communication

Improve communication and promotion of the PTE advanced opportunity.

1. Develop an environment that builds trust between industry and postsecondary and secondary education.

2. Explore multiple means of communication regarding advanced learning opportunities.

3. Provide professional development for high school teachers and counselors, postsecondary faculty and student services staff.
Appendix A

Idaho Program of Study Framework
