STATE BOARD OF EDUCATION MEETING  
August 13-14, 2014  
Idaho State University  
Pond Student Union Building  
Salmon River Suite  
1065 South Cesar Chavez Avenue  
Pocatello, Idaho

Wednesday, August 13, 2014, 1:00 p.m., Idaho State University, Pocatello, Idaho

BOARDWORK
1. Agenda Review / Approval  
2. Minutes Review / Approval  
3. Rolling Calendar

OPEN FORUM

WORK SESSION
IRSA/BAHR
A. Program Prioritization

Thursday, August 14, 2014, 8:00 a.m., Idaho State University, Pocatello, Idaho

OPEN FORUM

CONSENT AGENDA

BAHR
1. BAHR – Section I – Optional Retirement Plan Amendments  
2. BAHR – Section I – Boise State University – 403(b) Supplemental Retirement Plan – New Participant  
3. BAHR – Section II – Idaho State University – Enterprise Resource Planning Hardware Replacement Purchase  
4. BAHR – Section II – University of Idaho – AT&T License Agreement – Theophilus Tower

IRSA
5. Quarterly Report: Programs and Changes Approved by Executive Director
6. Higher Education Research Council Appointment
7. Agenda Item Pulled

PPGA
8. Bi-monthly Report: University Approved Alcohol Permits
9. Indian Education Committee Appointment

SDE
10. Adoption of Curricular Materials
11. Teacher Preparation Program Review Team Report – Lewis-Clark State College
12. Teacher Certification/Endorsement Program Approval – University of Idaho New Endorsement

PLANNING, POLICY & GOVERNMENTAL AFFAIRS
1. Idaho State University Annual Report
2. Presidents' Council Report
3. Division of Professional-Technical Education Annual Report
4. Amendment to Board Policy, Bylaws – Second Reading
5. Data Management Council – Policies and Procedures
7. Pending Rule – Docket 08-0501-1401 – Seed and Plant Certification
8. Proposed Rule – Docket 08-0111-1401 – Registration of Postsecondary Institutions and Proprietary Schools

BUSINESS AFFAIRS & HUMAN RESOURCES

Section I – Human Resources
1. Amendment to Board Policy Section II.H. – Coaching Personnel – Second reading
2. University of Idaho – Multi-Year Employment Agreement – Director of Track and Field and Cross Country

Section II – Finance (1hrs 50 min)
1. FY 2016 Line Items
2. FY2016 Capital Budget Requests
3. Intercollegiate Athletic Reports – NCAA Academic Progress Rate (APR) Scores
4. Amendment to Board Policy Section V.E. – Gifts & Affiliated Foundations – First Reading
5. Amendment to Board Policy Section V.T. – Fee Waivers - Second Reading –
6. Amendment to Board Policy Section V.X. – Intercollegiate Athletics - Second Reading
7. Boise State University, Idaho State University, University of Idaho – Intellectual Property Policies
8. Boise State University – Collegiate Licensing Company Contract
9. Boise State University – Alumni and Friends Center Development and Occupancy Agreement
10. Boise State University – Learfield Contract Amendment
11. Idaho State University – Athletic Program Funding Proposal
12. University of Idaho – Idaho Law and Justice Learning Center Project

INSTRUCTION, RESEARCH & STUDENT AFFAIRS
1. Amendment to Board Policy III.P, Students- Second Reading
2. Boise State University- Master of Political Science
3. Boise State University- Stem Institute
4. Lewis-Clark State College-Constitution
5. Accreditation Update

DEPARTMENT OF EDUCATION
1. Superintendent’s Update
2. Consolidation of North Gem and Grace School Districts
3. Proposed Rule – 08.02.01.400 – Special Education Funding
4. Proposed Rule - IDAPA 08.02.02.004 - Inc. By Reference, PSC and Driver Ed
5. Temporary Rule - IDAPA 08.02.02.004 – Standards Revision to Idaho Public Driver Education, Inc. By Ref
6. Proposed Rule - IDAPA 08.02.02.027, .028, .030, .047, .076 – Endorsements
7. Proposed Rule - IDAPA 08.02.02.120, .121 -Educator Evaluations
8. Temporary and Proposed Rule – IDAPA 08.02.03.104 – Physical Education and Professional Technical Education
9. Temporary Rule – IDAPA 08.02.03.105 Graduation Requirements
10. Proposed Rule – IDAPA 08.02.03.105 Graduation Requirements
11. Temporary and Proposed Rule – IDAPA 08.02.03.111 – Assessment in the Public Schools – Limited English Proficient
12. Temporary and proposed rule – IDAPA 08.02.03.112 – Accountability in the Public Schools – Limited English Proficient
13. Temporary and proposed rule – IDAPA 08.02.03.115 – State Student Data System
14. Proposed amendments to Idaho’s ESEA Flexibility Waiver

LATE ITEMS

BAHR
1. Idaho State University – Intellectual Property Foundation Formation Proposal
2. FY15 Supplemental Requests – Additional

IRSA

If auxiliary aids or services are needed for individuals with disabilities, or if you wish to speak during the Open Forum, please contact the Board office at 334-2270 no later than two days before the meeting. While the Board attempts to address items in the listed order, some items may be addressed by the Board prior to or after the order listed.
1. **Agenda Approval**

   Changes or additions to the agenda

2. **Minutes Approval**

   **BOARD ACTION**

   I move to approve the minutes from the June 18-19, 2014 regular Board Meeting as submitted.

3. **Rolling Calendar**

   **BOARD ACTION**

   I move to set August 19-20, 2015 as the date and Idaho State University as the location for the August 2015 regularly scheduled Board meeting and to amend the date for the February 2015 regularly scheduled Board meeting to February 18-19, 2015.
A regularly scheduled meeting of the State Board of Education was held June 18-19, 2014 at Eastern Idaho Technical College (EITC), Room 6163/6164 in Idaho Falls, Idaho.

Present:
Emma Atchley, President               Milford Terrell
Rod Lewis, Vice President              Bill Goesling
Don Soltman, Secretary                 Richard Westerberg
Tom Luna, State Superintendent

Wednesday, June 18, 2014

The Board met in rooms 6163/6164 at Eastern Idaho Technical College in Idaho Falls, Idaho. Board President Atchley called the meeting to order at 2:00 p.m. Mr. Terrell and Mr. Lewis arrived at 2:10 p.m.

BOARDWORK

1. Agenda Review / Approval

BOARD ACTION

M/S (Soltman/Goesling): To approve the agenda as amended adding the two executive session items. The motion carried unanimously 5-0. Mr. Soltman pointed out that the two items were not included in the original posting because Board staff was only made aware of the items after the agenda was posted; they are of a time sensitive nature. The agenda was amended and reposted on June 16, 2014. Mr. Terrell and Mr. Lewis were absent from voting.

Mr. Luna also requested that the agenda be rearranged Thursday morning to cover the State Department of Education’s items first, as it was necessary for him to leave the meeting early. There were no objections to reordering the agenda for Thursday’s meeting.

2. Minutes Review / Approval

BOARD ACTION

M/S (Soltman/Westerberg): To approve the minutes from the April 16-17, 2014 regular Board meeting, the May 14-15 Board Retreat, and the June 2, 2014 special Board meeting as submitted. The motion carried unanimously 5-0. Mr. Terrell and Mr. Lewis were absent from voting.

3. Rolling Calendar
BOARD ACTION

M/S (Soltman/Goesling): To set May 20-21, 2015 as the date and Boise, Idaho as the location for
the 2015 Board Retreat, and to set June 17-18, 2015 as the date and the College of Southern Idaho
as the location for the June 2015 regularly scheduled Board meeting. The motion carried
unanimously 5-0. Mr. Terrell and Mr. Lewis were absent from voting.

Dr. Goesling indicated the change to the May Board retreat dates would enable better Board member
attendance at institution graduations.

CONSENT AGENDA

M/S (Soltman/Westerberg): To approve the Consent Agenda as presented. The motion carried
unanimously 5-0. Mr. Terrell and Mr. Lewis were absent from voting.

Business Affairs & Human Resources (BAHR)

1. Boise State University – Revision to Law Enforcement Contract with Boise Police Department

BOARD ACTION

By unanimous consent to authorize Boise State University to enter into a revised law enforcement
and security services annual contract with the Boise City Police Department with a retroactive
effective date of October 1, 2013, in substantial conformance with the contract as presented in
Attachment 1, and to authorize the vice president for finance and administration to execute the
contract.

2. University of Idaho – Land Lease with State of Idaho at the US Sheep Experiment Station

BOARD ACTION

By unanimous consent to approve grazing lease with the Idaho Department of Lands in
substantial conformance to the forms submitted to the Board in Attachment 1, and to authorize
the University’s Vice President for Finance and Administration to execute such documents.

3. University of Idaho – Ellucian/Banner Software Maintenance Agreement Extension

BOARD ACTION

By unanimous consent to approve the request by the University of Idaho to extend a maintenance
agreement with Ellucian for the University’s Banner system in substantial conformance to the
Proposed Maintenance Agreement Extension submitted to the Board in Attachment 1.

4. University of Idaho – Disposal of Real Property – Latah County

BOARD ACTION

By unanimous consent to approve the request by the University of Idaho to dispose of three (3)
acres of undeveloped forest land for a selling price of $33,000 and to pay transaction costs as set
forth in the Purchase and Sale Agreement submitted to the Board; and further to authorize the
Vice President for Finance and Administration, and Bursar of the University of Idaho to execute all
necessary transaction documents for closing the sale.

5. University of Idaho – Building Management Services Contract for the Idaho Water Center

BOARD ACTION
By unanimous consent to approve the agreement between the University of Idaho and Oppenheimer Development Corporation, in substantial conformance to the form submitted to the Board in Attachment 1.

Planning Policy & Governmental Affairs (PPGA)

6. State Rehabilitation Council - Bylaws

BOARD ACTION

By unanimous consent to approve the revised Bylaws of the State Rehabilitation Council as presented in Attachment 1.

7. State Rehabilitation Council – Member Appointment

BOARD ACTION

By unanimous consent to approve the appointment for Lucas Rose to the Vocational Rehabilitation State Rehabilitation Council as a representative for Business/Industry and Labor for a term of three years effective July 1, 2014 through June 30, 2017.

By unanimous consent to approve the appointment of Alison Lowenthal to the Vocational Rehabilitation State Rehabilitation Council as a representative for the Department of Education for a term of three years effective July 1, 2014 and ending June 30, 2017.

8. Indian Education Committee Appointments

BOARD ACTION

By unanimous consent to appoint Ms. Dani Hansing to the Idaho Indian Education Committee as the College of Southern Idaho representative, effective immediately and to conclude on June 30, 2018.

9. Boise State University – Alcohol Permit for 2014 Home Football Games – Stueckle Sky Center

BOARD ACTION

By unanimous consent to approve the request by Boise State University to allow the sale of alcohol in the Sky Center during the 2014 home football season, Famous Idaho Potato Bowl, the 2015 Spring Game, and potentially a conference championship game as set forth in this request, and in compliance with Board Policy I.J.

10. Boise State University – Alcohol Permit for 2014 Home Football Games – Caven Williams Complex

BOARD ACTION

By unanimous consent to approve the request by Boise State University to allow alcohol service during the 2014 football season in the Caven Williams Sports Complex as submitted in Attachment 2 and 3 and under the conditions outlined in Board Policy Section I.J. subsection 2.c.

11. Idaho State University – Alcohol Permit for 2014 Home Football Games

BOARD ACTION

By unanimous consent to approve the request by Idaho State University to establish secure areas
as specified in Attachment 2 and 3, for the purpose of allowing alcohol service during pre-game activities in full compliance with Board Police I.J. during the September 13, 2014 and November 22, 2014 Bengal home football games.

12. University of Idaho – Alcohol Permit for 2014 Home Football Games – Pre-Game Events

BOARD ACTION

By unanimous consent to approve the request by the University of Idaho to allow alcohol service during the 2014 football season in the North Kibbie Field, Student Activities Field, Idaho Commons Building and the Menard Law Building foyer under the conditions outlined in Board policy section I.J. subsection 2.c.

13. University of Idaho – Alcohol Permit for 2014 Home Football Games – Club Seating

BOARD ACTION

By unanimous consent to approve the request by the University of Idaho to allow alcohol service during the 2014 football season and during the spring 2015 football scrimmage, in the Litehouse Center/Bud and June Ford Club Room located in the ASUI-Kibbie Activity Center under the conditions outlined in Board Policy I.J. subsection 2.c.

14. President Approved Alcohol Permits

A list of approved permits by Institution was included for review in the Board materials.

State Department of Education (SDE)

15. Request for Waiver of 103% Student Transportation Funding Cap

BOARD ACTION

By unanimous consent to approve Garden Valley School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2014 of 143% for a total of $36,327 in additional funds from the public school appropriation.

By unanimous consent to approve Highland School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2014 of 123% for a total of $10,422 in additional funds from the public school appropriation.

By unanimous consent to approve Moscow School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2014 of 123% for a total of $46,602 in additional funds from the public school appropriation.

By unanimous consent to approve Orofino School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2014 of 120% for a total of $16,117 in additional funds from the public school appropriation.

By unanimous consent to approve Plummer-Worley School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2014 of 113% for a total of $13,404 in additional funds from the public school appropriation.

By unanimous consent to approve St. Maries School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2014 of 108% for a total of $11,945 in additional funds from the public school appropriation.

16. Transport Students Less Than One-and-One-Half Miles for the 2013-2014 School Year
BOARD ACTION

By unanimous consent to approve ninety-nine school districts (99) and ten (10) charter schools for approval to transport students less than one and one-half miles as listed in Attachment 1.

17. Professional Standards Commission Appointments

BOARD ACTION

By unanimous consent to appoint Donna Sulfridge as a member of the Professional Standards Commission, representing Elementary Classroom Teachers, for the remainder of a three-year term effective immediately and ending June 30, 2015.

PLANNING, POLICY & GOVERNMENTAL AFFAIRS

1. Eastern Idaho Technical College (EITC) – Progress Report

Dr. Steve Albiston welcomed the Board to EITC for the June meeting and provided a progress report of Eastern Idaho Technical College’s strategic plan to the Board. He pointed out their strategic plan’s point of interest and indicated that EITC is the only state supported stand alone postsecondary professional technical college in Idaho. He reported that their strategic plan is in alignment with the Board’s strategic plan and they are revising their plan to align with the expectations of the Northwest Commission of Colleges and Universities (NWCCU) in support of EITC’s mission, vision, and core themes. The revised plan will be submitted to the Board in April 2015.

He remarked on the importance of adult basic education (ABE) services to EITC’s strategic plan. He pointed out that EITC has reached all of the state academic targets for ABE students during this past year. He commented that the retention of students is also important to their strategic plan, and EITC continues to reach over 80% of full time students returning; their benchmark is 85%. EITC’s training and positive placements rates have also increased. They are short of meeting their benchmark, but the trend shows an upward slope. Dr. Albiston reviewed FY2013 enrollment numbers, pointing out the number of student enrollment in tech prep has piqued and is trending downward.

Fall 2013 enrollment by division is in three main areas which include business, office and technology; health professions; and trades and industry. Dr. Albiston shared the age ranges of students attending EITC with the main group being around 27 years old. He also pointed out well over half of EITC students are female. Special programs include a fire service technology program transferred to EITC. He highlighted a few points from their special/health programs, and indicated the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting approved the EITC surgical technology core curriculum. Also, their medical assisting AAS accreditation was reaffirmed. He also shared a short video.

Related to economic development, EITC plays an important role in growing Idaho Falls. He commented on some of EITC’s collaborations with groups such as Doug Andrus Distribution, Idaho State University, and the University of Idaho.

Ms. Atchley asked for more information on the advanced manufacturing. Dr. Albiston responded that it will focus on fabrication manufacturing.

2. President’s Council Report

Dr. Bert Glandon, President of the College of Western Idaho, provided a report to the Board on the Council’s meetings from May 6 and June 3, 2014. He chaired the June meeting for Dr. Dunlap. Dr. Glandon reviewed the discussion items from the two meetings which included the Albertson’s Foundation Continuous Enrollment Project, legislative ideas which included a recommendation for a placeholder for the autonomy bill to allow for the four-year institutions to opt out of the risk management pool, and the use of state HR services. The Smarter Balanced Assessment Consortium (SBAC) was discussed and it was
decided the item should be reviewed by both CAAP and IRSA committees. The fourth discussion item was regarding the JFAC tour and workforce development panel. The fifth discussion item was related to the state contract for management learning systems.

Dr. Glandon indicated the informational items included an announcement that the State Higher Education Executive Officers (SHEEO) would be meeting in Boise July 7-11, and encouraged presidents to attend portions of that meeting. He reported that Idaho BS degree production is now at 26%, associate’s degrees at 10%, and those achieving a certificate are at 5%. The third information item was that the Northwest Accrediting Association expressed concern that the Board policy measuring credit transferability may be out of compliance with the Northwest Commission on Colleges and Universities (NWCCU) expectations. The IRSA Committee will be reviewing this item.

Mr. Terrell asked about credit transferability for students from community colleges to any of the other institutions, indicating he has received some complaints that credits are not being transferred. He indicated those students were military students. Dr. Glandon responded that the question of the courses transferring is no issue. The issue is where the credits transfer in relation to the degree. Dr. Kustra offered some additional remarks on the situation. Dr. Schimpf responded that the articulation agreements are still being developed and in some cases the learning outcomes from one course are not at the level required for the other program. Mr. Terrell requested that contact information be sent to Dr. Rush from all the institutions related to this matter.

3. Idaho Public Television (IPTV) Annual Report

IPTV General Manager Ron Pisaneschi, provided a report to the Board. Mr. Pisaneschi provided an overview of the program structure of IPTV that included a summary of the statewide delivery system and the educational content. Related to content and services, they are proud to report they are the #1 most viewed PBS station per capita. On-line access via desktop and mobile devices is becoming a more popular trend, but video viewing is still mostly done via television. He reported on IPTV’s awards, which includes 45 national and regional awards so far in 2014. Outdoor Idaho continues to be one of the most popular programs viewed. He remarked on a critical success factor being high quality programs.

One of IPTV’s goals for the next year is to grow endowment to $5 million by the end of 2015. They are currently at over $4 million. Mr. Pisaneschi reported on some of their content partnerships which include relations with Idaho universities, K-12 overnight and the learning channel, weekly children’s education content, and on-line resources for teachers and students. There are 70,000+ free resources available to classrooms in Idaho. IPTV is are also part of the EPSCoR project and provides media and training for scientists, along with other services. IPTV has also recently been involved in the Educate Idaho initiatives. He reviewed many of IPTV’s local productions and shared a short video clip on the science series for children. They also provide video streaming and archiving for Idaho in Session for the legislative session.

Mr. Pisaneschi reviewed IPTV’s budget and FY 2015 appropriations. One of the issues facing them is that funding levels are where they were at 15 years ago. FY 2014 includes a $400K shift from one time capitol funding into ongoing OE expenses. Risks to IPTV include they have $24 million in state assets and already $17 million of it is depreciated.

Mr. Pisaneschi reviewed their highly complex delivery system and where the transmitters are located. Some of their challenges include equipment reaching its “end of life,” so lease payments will increase substantially. He reviewed the fact that congress authorized the FCC to have a spectrum auction. This is important because the FCC will find new channels and pay costs of channel changes for transmitters but not translators. He pointed out additional challenges from this auction/repacking situation, including that translators are not subject to funding by the FCC. Additionally, the new translator frequencies are not guaranteed – transmitter moves can bump translators. This could result in there may not be enough channels to go around. He reported that part of the FY 2016 budget request includes seeking staffing and start up funding for the first three years for The Idaho Experience and they intend to raise private funds to take over operational costs thereafter.
Mr. Lewis asked if the Board may help with the criteria for the Idaho Debates in the future. Mr. Pisaneschi indicated it would be possible and they would welcome the assistance. Mr. Lewis recommended a Board member or a staff member work more closely with IPTV on the debate criteria in the future. Ms. Atchley indicated they would take that suggestion under advisement.

4. Albertson’s Foundation – Continuous Enrollment

Mr. Westerberg introduced Dr. Bruce Schultz from the J.A. and Kathryn Albertson Foundation (Foundation) who presented a report on the Continuous Enrollment Initiative Project (Project) to the Board. Dr. Rush pointed out that the project that will be described directly addresses the Board’s initiative and goals, particularly the Board’s 60% goal.

Dr. Schultz indicated the Guided Pathways to Success project was initiated in 2011 with five Idaho community and technical colleges. He discussed the results of the three year project, indicating that the goal of the initiative was to test new ways to help non-traditional students to succeed. The approach was to provide intense personal academic advice and counsel, to teach college navigational skills, to match students with trained peer mentors, to group students together in learning communities, and to constantly monitor success. They also provided accelerated remediation in courses such as math and English.

Dr. Schultz introduced Jody Woodhouse, a nontraditional student in the program, who provided some remarks about the program. Mr. Woodhouse extended heartfelt thanks for the program, the scholarship opportunities, and indicated that he is now a mentor for the Connects to Success program. He remarked on the relationships with the instructors and the structure a cohort provides.

Dr. Schultz provided some recommendations on behalf of the Foundation that included funding incentives; that students can complete as soon as possible at the lowest cost possible to help address student debt; that an inventory of current student recruitment approaches are taken to determine whether they hinder access to underserved and non-traditional students; that support practices are adopted and embedded through Idaho’s higher education system; and that more private-public partnerships are developed to provide student scholarships, internships and other opportunities.

Mr. Soltman asked if the program would continue on in some form. Dr. Schultz responded they are in a three year funding cycle presently and the short answer is yes. Dr. Goesling asked how the success stories are being shared throughout the institutions. Dr. Schultz responded that they have invested in media production to share and demonstrate outcomes of certain practices. He remarked on the interest by the institutions to increase opportunities for non-traditional students.

Mr. Terrell thanked Dr. Schultz for providing this information and expressed real appreciation for this project. Ms. Atchley thanked the Albertson’s Foundation for their efforts to improve Idaho’s education and expressed appreciation for their support and work. Mr. Westerberg pointed out that there are line items in the BAHR agenda that support this program.

5. 2015 Legislative Ideas

BOARD ACTION

M/S (Westerberg/Soltman): To approve the legislative ideas as described with the exception of item 6 and item 9 and to authorize the Executive Director to submit these and additional proposals as necessary through the Governor’s legislative process. The motion carried unanimously 7-0.

M/S (Goesling/): To include as a legislative idea for this coming legislative season the concept for ongoing deferred maintenance costs. Motion withdrawn.

M/S (Goesling/): To include as a legislative idea for this coming legislative season the recommendations from the Albertson’s Foundation as presented earlier. Motion withdrawn.

Mr. Westerberg indicated to the Board why he exempted items 6 and 9 from the motion. Dr. Goesling
asked for discussion on deferred maintenance and requested it as one of the legislative ideas. Mr. Freeman confirmed that during the BAHR agenda they would discuss line item requests which includes a $10 million request related to deferred maintenance.

Dr. Goesling urged the Board to consider the recommendations heard earlier from the Albertson’s Foundation and make them part of the legislative ideas. Mr. Westerberg pointed out that the line item requests from the community colleges include requests to grow that program discussed during the Albertson’s Foundation presentation. Ms. Atchley reminded the Board that the legislative ideas items would be developed further and returned to the Board in the future.

Ms. Bent from the Board office provided descriptive summaries of the ten (10) legislative ideas that are being proposed:

1) 8 in 6 Program
A technical change that adds clarification that the Bureau of Indian Education (BIE) schools in Idaho may participate in the 8 in 6 Program as long as all other eligibility requirements are met. Currently the BIE oversees two schools in Idaho; the Shoshone-Bannock Jr./Sr. High School and the Coeur d’Alene Tribal School.

2) Workforce Reporting
This legislative Idea would be developed in conjunction with the Department of Labor and would require employers to report occupancy codes and number of hours worked. Should this legislation pass, Board staff would be able to report the number of students graduating from our public institutions that work in their specific field as well as determine if they are working full-time or part-time. Currently the data is limited to the Industry Code, which only allows us to determine if graduates are working at a company that that is in their field of study, and not if the actual position they hold is relevant to their degree or certificate.

3) State Residency for Tuition Purposes
This section has been amended several times over the year to address specific issues. This amendment would streamline the process for determining residency for tuition purposes and to specify that all students who graduate from an Idaho high school and attend a public postsecondary institution within a specified timeframe would be eligible for in-state tuition.

4) Nursing Education Program Approval
This includes an amendment to language that removes the requirement that the Board must approve in curriculum change in a nursing program (private or public) that may alter existing articulation agreements between educational institutions. The Board would continue to approve program changes at the public institution as specified in Board policy.

5) Charter School Financial Support
This change will affect the authorizer fee formula. This past legislative session there was legislative interest in appropriating General Funds to supplement the Public Charter School Commission’s (PCSC) FY 2015 budget. However, since the authorizer fee is calculated off of “all moneys appropriated,” an additional appropriation of General Funds would have also resulted in an increase in the authorizer fee the following year. The proposed legislation would amend the authorizer fee formula to include only those funds appropriated from the Public Charter School Authorizers fund rather than all appropriated moneys. The proposed amendment would also change the authorizer fee payment deadline from February 15 to March 15. Data needed to calculate the fee are not typically available from the State Department of Education in time to invoice the schools and receive payment by February 15.

There were questions related to the charter school funding and how the authorizer fees are calculated. Mr. Freeman clarified that the intent of the legislation is to decouple the funding sources and explained the changes. Mr. Freeman pointed out there is not a direct fiscal impact from it. He clarified that if the legislation were to pass and if there were state general funds appropriated to the PCSC, there would not be a resulting fee increase to the schools, which is what they are trying to accomplish.
6) Proprietary School Registration
This is a change that would clarify that proprietary schools which do not collect any tuition or fees up front (only until after instruction has been provided) would be exempt from the surety bond requirement.

Mr. Lewis asked for clarification of this item and what the surety bond covers. Ms. Bent clarified the details of the item and indicated the surety bond covers the costs to the students should the school go out of business before the program is completed. Dr. Rush pointed out that there is not a quality component in place now to protect students. Mr. Lewis recommended talking in the future about protecting the rights of students further.

7) Transfer of Surplus Property
This change amends language to include property owned by the State Board of Education to the list of exempt property. This would clarify that the Board would not have to go through the Land Board process when disposing of surplus property. Section 33-107, Idaho Code already gives the Board the authority to “acquire, hold and dispose of title, rights and interests in real and personal property.”

8) Risk Management – Opt Out
Last year the Board ran legislation that would allow the four-year institutions to opt-out of state administrative services. While the bill did not pass as a total package, there was some support for the individual components of the bill. This proposal would use the language developed as part of last year’s University Administrative Flexibility bill regarding Risk Management and would allow the institutions to opt out of state Risk Management.

9) Human Resource Services – Opt Out
Last year the Board ran legislation that would allow the four-year institutions to opt-out of state administrative services. While the bill did not pass as a total package, there was some support for the individual components of the bill. This proposal would use the language developed as part of last year’s University Administrative Flexibility bill regarding State Human Resource Services and would allow the institutions to opt-out of these services.

Dr. Goesling asked if this would require additional funding at the institutions in the form of hiring additional personnel to support these functions. Ms. Bent clarified that the institutions are already fully staffed in the Human Resource department, and in some sense there is a duplication of efforts with services provided by the state. Mr. Westerberg provided some additional clarification for items 8 and 9.

10) Governor’s Task Force Recommendations
These are recommendations made by the Governor’s Task Force on Education and amendments would be made to the education support program in Title 33, Chapter 10 to establish a funding model for school districts for certificated staff that would be variable based on a three tiered system. Initial estimated cost is approximately $250 million. The current implementation plan envisions a 5-6 year phase-in of approximately $40 million per year.

11) Contract Category Timing
This would align current Idaho Code regarding the timing of eligibility for teacher continuing contracts with timing for eligibility for tier 2 (professional tier) on the proposed tiered certification model.

12) Additional Legislative Ideas from Subcommittees
A place holder for additional legislative ideas developed by the subcommittees was established to implement the recommendations of the Governor’s Task Force. Currently the subcommittees are exploring possible legislation on:
  • Streamline and consolidation of advanced opportunities statute
  • Modification to the strategic planning statute
  • Consolidation of reporting requirements
  • Funding model
  • Counseling/Advising
6. Institution/Agency Strategic Plans

BOARD ACTION

M/S (Westerberg/Terrell): To approve the 2015-2019 (FY2016-FY2020) Institution, Agency, and Special/Health Program strategic plans as submitted. The motion carried unanimously 7-0.

Mr. Westerberg indicated the attached strategic plans include the updated plans submitted by the institutions as well as the agency and special and health programs strategic plans submitted to the Board in April.

Mr. Lewis recommended not having to digest all the strategic plans at once and recommended looking for a way to break up the portions into more manageable portions. Mr. Westerberg responded that PPGA would try to address that task and provide the institutions plans with the attention they deserve.

7. Amendment to Board Policy – By-Laws – First Reading

BOARD ACTION

M/S (Westerberg/Goesling): To approve the first reading to Board Bylaw and the Audit Committee Charter, as presented in Attachment 1 and Attachment 2, respectively. The motion carried unanimously 7-0.

Ms. Bent reviewed the item and stated there were a few edits to this policy based on the discussion with the Board during the February meeting. Staff has done a thorough review of the entire bylaws and the proposed amendments take into consideration the comments from the Board during the February Board meeting; the amendments proposed by the Audit Committee; and additional amendments that clean up existing language in the bylaws and remove sections that are already specified in Idaho code. Ms. Bent reviewed the changes in their entirety for the Board. The details of the policy changes were included in the agenda materials for thorough review by the Board members.

Mr. Lewis expressed concern about there being a specific number of members required for a quorum instead of “the majority”. Dr. Rush indicated that previous Board legal counsel had done a fair amount of research on the language, and there was a strong reason for suggesting that the courts would interpret the current statute to mean that a quorum is not less than five Board members.

Mr. Lewis also suggested that the Board President should determine the location of the Board meetings rather than the Board or the executive director.

Mr. Lewis asked about the level of vote required for certain motions. Dr. Rush clarified that Robert’s Rules of Order provides clarity on different levels of voting. Mr. Lewis felt that the Board should specify what kinds of actions require what level of vote. Ms. Atchley asked if there are situations that require a 2/3 vote. Mr. Westerberg pointed out that this is a first reading and the concerns of Mr. Lewis would be addressed.

Mr. Lewis wanted to also ensure the Board had the ability to hire and fire the independent auditors, and recommended that the Board clarify that it shall be the approving body for hiring independent auditors.

Mr. Lewis also asked why the Executive Committee was removed. Mr. Westerberg indicated it has not been used in several years, and cautioned on the dangers of having a committee of only four members. Mr. Lewis was in agreement with its removal.

8. Amendment to Board Policy – Section I.R. Security – Second Reading

BOARD ACTION

M/S (Westerberg/Soltman): To approve the second reading of Board Policy I.R. as submitted in
9. School District Model Data Security Policy

Ms. Bent provided a brief review of Senate Bill 1372 which was passed during the 2014 legislative session. This bill created Section 33-133, Idaho Code. Pursuant to Idaho Code, the State Board of Education is required to develop a model policy for school districts and public charter schools that will govern data collection, access, security, and use of such data. The final policy will be presented to the Board in August for final consideration. Passage of this item in August will bring the State Board into compliance with state law and provide school districts and public charter schools with the required policy to be in compliance with state law.

Ms. Atchley requested Carson Howell provide an update on status of the model policy. Mr. Howell responded that they have received feedback from various entities and are presently compiling that information for presentation to the Board in August.

10. University of Idaho – Faculty Staff Handbook Amendment – Faculty Rank/Promotion

BOARD ACTION

M/S (Westerberg/Goesling): To approve changes to University of Idaho faculty policies as set forth in the materials submitted to the Board. The motion carried unanimously 7-0.

11. University of Idaho – Faculty Staff Handbook Amendment – Faculty Constitution

M/S (Lewis/Terrell): To support the president, Dr. Staben, in his authority in making decisions in this matter. Motion withdrawn.

Mr. Westerberg requested unanimous consent to defer any action on this item to tomorrow morning’s meeting. There were no objections.

BOARD ACTION (Thursday, June 18, 2014)

M/S (Westerberg/Lewis): To support the alternative language proposed by the University Administration relating to matters as set out in PPGA Tab 11, page 3. The Board states its concern for the changes proposed by the University of Idaho Faculty Senate for insertion in Article IV of the University of Idaho Constitution of the University Faculty and University policy in Faculty Staff Handbook 3160. The motion carried unanimously 7-0.

Dr. Staben and Kent Nelson from the University of Idaho provided a recap for the Board on this information item. Dr. Staben pointed out there are two related changes, one to the faculty constitution which must be approved by the Board, and one change to policy. The changes are strongly supported by the Faculty Senate and ensure academic freedom in faculty governance.

Dr. Staben indicated they do have reservations to the policy, and the change to the Faculty Constitution. They proposed an alternative to the faculty which is included in the agenda materials. That alternative was unable to receive a second vote when discussed at the Faculty Senate. He indicated they wanted the Board to be aware of the item and also seeks its input. Dr. Staben indicated that in terms of process, he has 60 days to approve or disapprove the changes after the vote of the Faculty Senate. If the changes are approved, they will go before the Board at the next meeting. If they are disapproved, they go through a different process at the campus.

Dr. Staben pointed out some of the concerns, indicating it allows faculty the ability to discuss policy and governance without any restraint, which in turn could be disruptive. Dr. Staben felt this rule does not serve the faculty well. He felt they should be able to voice their opinions in an appropriate way, but he felt this may disrupt their own governances. Mr. Westerberg also pointed out it shields individuals from disruptive actions. Mr. Lewis asked if the Board should pass a motion in support of the president in this
specific matter.

Dr. Goesling requested additional comment from Dr. Staben. Dr. Staben responded that he could approve this policy and leave it to the Board for decision, or disapprove this policy. He indicated it is a difficult choice in either potentially alienating the Board or alienating his faculty. Mr. Lewis further explained his motion in that he wants to show the institution president Board support for his decision making authority.

Mr. Westerberg recommended a revised motion on this item at the start of Thursday’s meeting and to defer any action until that time. There were no objections.

12. Temporary/Proposed Rule – School District Strategic Planning

BOARD ACTION

Mr. Westerberg requested unanimous consent to defer the action on this item until tomorrow morning at the beginning of the meeting. There were no objections to the request.

BOARD ACTION (Thursday, June 18, 2014)

M/S (Westerberg/Soltman): To amend subsection 02. Reimbursement Eligibility of the temporary proposed rule as follows:

• To add a requirement to subsection b. Documentation of Training to require validation of training attendance;
• To specify that the requirement in subsection c. Format, that the majority of the Board members attend the training, only applies to strategic planning training; and
• In subsection d. Trainer Qualifications, to reduce the required years of experience to two years. The motions carried unanimously 7-0.

AND

M/S (Westerberg/Soltman): To approve the temporary proposed rule as amended. The motions carried unanimously 7-0.

Ms. Bent provided an explanation of the temporary rule, that if approved will provide school districts and charter schools with the information they need to hire eligible trainers to conduct their professional development and develop their strategic plans in an attempt to meet the September deadline. In the statute, the Board is required to maintain a list of qualified trainers, which will be located on the Board’s website. Feedback from the School Boards Association indicated they are uncomfortable with the three year experience requirement and would prefer that it be one year. She also pointed out that with this temporary rule, the official public comment period has not been observed. The Board would not be able to amend it until it is a pending rule. This means that if the rule is amended at a later date, it could cause problems for districts if a trainer was hired that didn’t meet revised qualifications.

Mr. Luna expressed concern about the temporary rule going into effect so quickly. He expressed concern specifically with the language that the majority of the School Board members need to be present in order to receive reimbursement. He felt it seemed logical related to strategic planning but not necessarily to training given that there may be new school board members. He commented that the three year experience level may need to be set lower as well. He pointed out that he would like to see some sort of validation that if a district is being reimbursed for training, that they actually had participated in the training. His clarified that just registering for the training is not enough to qualify for reimbursement. The trainer should have some sort of sign off on the training. Ms. Bent responded that there have been discussions with legislators and other individuals and their intent was that the training would be more than
just conference-style training – the training would be specific to the district and individual needs. Additionally, the three year requirement was based on the suggested level of quality of trainers. Mr. Luna suggested that the annual School Boards Association meeting would be a good resource for training.

Ms. Bent recommended an amendment to section 2.D.ii., that they have “X” number of years, and that the “majority of board members present” sentence would be removed. Mr. Luna expressed that two years is a reasonable number, but is concerned about the feedback on the limited number of trainers that would meet that qualification. He recommended the language be were revised to say one year for 2014-2015 and two years thereafter. Mr. Westerberg felt one year would be too low of a hurdle. There was a short amount of additional discussion. Mr. Westerberg recommended a revised motion on the item at the start of Thursday’s meeting and to defer any action until that time. There were no objections.

EXECUTIVE SESSION (Closed to the Public)

1. Boise State University

BOARD ACTION

M/S (Lewis/Soltman): Pursuant to Idaho Code section 67-2345 to convene in Executive Session to:
1. Consider personnel matters under subsection (1)(a); and to
2. Deliberate regarding the acquisition of an interest in real property under subsection (1)(c); and to
3. Consider records that are exempt from public disclosure under subsection (1)(d); and to
4. Communicate with legal counsel regarding litigation under subsection (1)(f).

A roll call vote was taken and the motion carried unanimously 7-0.

BOARD ACTION

M/S (Westerberg/Luna): To go out of Executive Session at 6:47p.m. The motion carried unanimously 7-0.

Thursday June 18, 2014, 8:00 a.m., Eastern Idaho Technical College, Room 6163/6164, Idaho Falls, Idaho.

The Board reconvened at EITC for regular business. Board President Emma Atchley called the meeting to order at 8:30 a.m. MST and thanked EITC for its hospitality. Ms. Atchley indicated today’s agenda would be altered to consider PPGA items 11 and 12 from yesterday’s agenda. Those items would be addressed first, then the agenda would move to the State Department of Education portion.

President Atchley presented Board member Soltman with an honorary gavel for his service on the Board, and as past Board President. She also presented Board member Terrell with an honorary plaque for his service on the Board for the last 13 years, from 2003-2014. Mr. Terrell is resigning from the Board effective June 30, 2014. Mr. Terrell offered remarks of great appreciation for his service on the Board, for the tremendous work of the Board staff, and the good work, goals and achievements of the State Board of Education. He encouraged Board members to continue to work thoughtfully for the good of the children in Idaho.

Mr. Lewis expressed a heartfelt thanks to Mr. Terrell for his years of service on the Board, and the privilege of working with him. He remarked on Mr. Terrell’s ability to get to the bottom of issues in a tactful, thoughtful, and determined way.
At this time, the Board revisited items 11 and 12 from the Planning, Policy and Governmental Affairs portion of the agenda from yesterday’s meeting, after which it moved to the State Department of Education’s agenda items.

[For meeting minute and context purposes, the discussion and subsequent motions on PPGA items 11 and 12 remain in order with the agenda.]

STATE DEPARTMENT OF EDUCATION

1. Superintendent’s Update

Superintendent Tom Luna provided an update from the State Department of Education. He remarked that the first wave of the Smarter Balanced Assessment Consortium (SBAC) field testing is complete. They surveyed and have received around 11,000 responses and those results are being compiled presently. The testing went well and there were very few technical glitches. The students were exposed to the test and initial responses have been very positive. Responses included that the students were more engaged than on a multiple choice test and they liked being able to explain and work through their answers. There is still concern about the length of the test with the school schedule. The largest challenge has been coordinating students in and out of the testing lab. He encouraged Board members to visit schools and talk to administrators.

Mr. Luna also reported on the second year of technology grants for one-to-one technology. The reports on success have been positive. There have been 99 applications totaling $26 million and there is $3 million left to distribute. Mr. Luna commented that it is obvious there is a demand for one-to-one technology, and that the technology is having a positive impact.

Mr. Luna reported on tiered licensure and he reported they have one more meeting scheduled with the committee. They are beginning the work on literacy and will be making future reports to the Board.

Ms. Atchley asked about concerns for young students and keyboarding skills. Mr. Luna remarked that adults responded that it is a problem, but student responses were different, and pointed out that it was not a problem such as was reported by parents. The students did not report that keyboarding is a struggle.

2. ESEA Waiver Amendment

BOARD ACTION

M/S (Luna/Terrell): To approve Idaho’s application for the ESEA Flexibility Waiver amendment as submitted in Attachment 2. The motion carried unanimously 7-0.

Mr. Luna introduced the item indicating the Department has worked with representatives from the US Department of Education to find appropriate solutions to the peer review findings. He indicated they believe the changes to the waiver will make it better for Idaho. Mr. Soltman asked what would happen if the amendments were not approved. Mr. Luna explained that would result in a default of the waiver, and result to resorting back to No Child Left Behind conditions. 100% of the schools would not be making AYP and there would no longer be a five star rating system. Drastic changes would result at the schools. Mr. Soltman asked how long they will be operating on waivers. Mr. Luna responded as long as they are required and the law is reauthorized.

Ms. Atchley pointed out a typographical error in the second paragraph on p. 278 of the agenda materials, where the second half of the paragraph was duplicated.

OPEN FORUM

Ms. Carol Perry addressed the Board expressing public concerns regarding postsecondary and advanced opportunities. She named several reasons to not pass the amendment on tech prep today, which is
Board Policy Section III.Y., Advanced Opportunities. She felt the changes to the policy would only cause confusion for students and parents. She remarked on articulation difficulties between institutions, the shelf life of the credits, and the matriculation language contained in the policy. She felt there would be unnecessary hurdles placed in front of students and expressed concern for military students and how changes to this policy would affect them.

BUSINESS AFFAIRS & HUMAN RESOURCES (BAHR)
Section I – Human Resources

1. Chief Executive Officer Employment Agreements/Terms

BOARD ACTION

M/S (Lewis/Terrell): To approve the amended employment agreement for Dr. Robert Kustra as President of Boise State University. The motion carried unanimously 7-0.

M/S (Lewis/Terrell): To approve the amended employment agreement for Dr. Chuck Staben as President of University of Idaho. The motion carried unanimously 7-0.

M/S (Lewis/Terrell): To approve the amended employment agreement for Dr. Art Vailas, as President of Idaho State University. The motion carried unanimously 7-0.

M/S (Lewis/Terrell): To approve the amended employment agreement for Dr. Tony Fernandez as President of Lewis-Clark State College. The motion carried unanimously 7-0.

M/S (Lewis/Terrell): To approve the amended term sheet for Dr. Steve Albiston as President of Eastern Idaho Technical College. The motion carried unanimously 7-0.

M/S (Lewis/Terrell): To approve the amended term sheet for Dr. Mike Rush as Executive Director of the Idaho State Board of Education, to authorize a one-time bonus in the amount of $3,000, and to approve an hourly rate of $60.60 (annual salary of $126,048). The motion carried unanimously 6-0. Mr. Luna was absent from voting.

Mr. Lewis pointed out that with regard to the Executive Director’s term sheet, it is being discussed with the Governor’s office and would return to the Board at a later time. Just after lunch, they passed the motion on Dr. Rush’s term sheet.

2. Amendment to Board Policy – Section II.H. – Coaching Personnel – First Reading

BOARD ACTION

M/S (Lewis/Goesling): To approve the first reading of Board Governing Policy and Procedures II.H., Coaches and Athletic Directors, with all revisions as presented. The motion carried unanimously 7-0.

M/S (Lewis/Soltman): To approve the amendments to the model coach’s contract as submitted. The motion carried unanimously 7-0.

BOARD ACTION

M/S (Lewis/Terrell): To approve the request by Boise State University to enter into a revised five-year employment agreement with Leon Rice as Head Men’s Basketball Coach for a term expiring on March 31, 2019 at a base salary of $596,573 and such base salary increases and supplemental compensation provisions in substantial conformance with the terms of the agreement set forth in
Attachment 3. The motion carried unanimously 7-0.

4. Boise State University (BSU) – Multi-Year Employment Agreement – Head Women’s Tennis Coach

BOARD ACTION

M/S (Lewis/Terrell): To approve the request by Boise State University to enter into a three-year employment contract with Sherman Beck Roghaar as Head Women’s Tennis Coach beginning on July 1, 2014 and ending on June 30, 2017, with a starting base salary of $52,398 and such base salary increases and supplemental compensation provisions in substantial conformance with the terms of the agreement set forth in Attachment 1. The motion carried unanimously 7-0.

5. Idaho State University (ISU) – Multi-Year Employment Agreement – Head Men’s Basketball Coach

BOARD ACTION

M/S (Lewis/Terrell): To approve the request by Idaho State University to enter into a two-year, eleven month employment agreement with William L. Evans, Head Men’s Basketball Coach, for a term commencing on June 23, 2014 and terminating May 9, 2017, at a base salary of $104,811.20 and supplemental compensation provisions in substantial conformance with the terms of the agreement set forth in Attachment 1. The motion carried unanimously 7-0.

Mr. Lewis pointed out that the Board members should have received information containing revised terms to the contract. Mr. Freeman reported that the changes outlined the academic incentive pay be based on the APR national score rather than a percentage.

6. Idaho State University (ISU) – Multi-Year Employment Agreement – Head Women’s Basketball Coach

BOARD ACTION

M/S (Lewis/Terrell): To approve the request by Idaho State University to execute a two-year, eleven month employment agreement with Seton Sobolewski, Head Women’s Basketball Coach for a term commencing June 23, 2014 and terminating May 9, 2017 at a base salary of $98,196.80 and supplemental compensation provisions in substantial conformance with the terms of the agreement set forth in Attachment 1. The motion carried unanimously 7-0.

Mr. Lewis pointed out that the Board members should have received information containing revised terms to the contract. Mr. Freeman reported that the changes outlined that the academic incentive pay be based on the APR national score rather than a percentage.

Ms. Atchley asked if the contracts conformed to the model contract. Mr. Freeman responded they do conform to the model policy.

7. Idaho State University (ISU) – Multi-Year Employment Agreement – Head Women’s Volleyball Coach

BOARD ACTION

M/S (Lewis/Terrell): To approve the request by Idaho State University to execute a two-year, eleven month employment agreement with Chad Teichert, Head Women’s Volleyball Coach, for a term commencing June 23, 2014 and terminating January 20, 2017 at a base salary of $62,337.68 and supplemental compensation provisions in substantial conformance with the terms of the agreement set forth in Attachment 1. The motion carried unanimously 7-0.

8. University of Idaho (UI) – Multi-Year Employment Agreement – Head Women’s Soccer Coach
BOARD ACTION

M/S (Lewis/Terrell): To approve the University of Idaho’s three-year employment contract with Derek Pittman, Head Women’s Soccer Team Head Coach for a term commencing June 20, 2014 through June 19, 2017, at a base salary of $40,019.20 and supplemental compensation provisions in substantial conformance with the terms of the agreement set forth in Attachment 1. The motion carried unanimously 7-0.

Mr. Lewis indicated they had a recommendation to raise the academic incentive for APR. Ron Smith from the University of Idaho responded that they vetted the item through the Athletic Committee and this is the result of what was agreed to in committee. Mr. Freeman pointed out the details of the APR averages and the committee was in agreement with this motion in consideration this is a new coach.

BUSINESS AFFAIRS & HUMAN RESOURCES (BAHR)
Section II – Finance

1. FY 2015 Operating Budgets

BOARD ACTION

M/S (Lewis/Terrell): To approve the FY 2015 operating budgets for the Office of the State Board of Education, Idaho Public Television, Division of Vocational Rehabilitation, College and Universities, Postsecondary Professional-Technical Education, Agricultural Research & Extension Service, Health Education Programs and Special Programs, as presented. The motion carried unanimously 7-0.

Mr. Freeman provided a brief overview of the operating budgets. He pointed out on Tab 1, page 32, the personnel cost summaries. Board policy delegates to the president’s the authority to hire personnel. The only personnel the Board approves is the hiring of coaches. Mr. Freeman pointed out this is the only time the Board has to see how many FTE’s the institutions have added.

Mr. Freeman also pointed out that on page 41, under Health Education Programs, line 4 is the WWAMI Medical Education Program, where the FY 15 budget number is lower than the FY 14 number. He pointed out that in FY 15 the legislature took the student fees out of the budget as no longer appropriated. It is an anomaly and appears to be a decrease. There is actually an experienced increase because of the addition of the five new WWAMI seats. He pointed out there is no net decrease, and in fact there is a net increase.

2. Athletics – FY 2015 Operating Budget Reports

BOARD ACTION

M/S (Lewis/Terrell): To accept the Athletics Operating Budget reports for Boise State University, Idaho State University, University of Idaho and Lewis-Clark State College, as presented. The motion carried unanimously 7-0.

Mr. Lewis noted a shortfall with Idaho State University and expected they would correct it quickly.

At this time the meeting recessed for a 15 minute break.

3. FY 2016 Line Items

BOARD ACTION

M/S (Lewis/Terrell): To direct the BAHR Committee to review the FY 2016 budget line item requests as listed on Tab 3, pages 3 and 4, and to report recommendations back to the Board at
the August 14, 2014 meeting. The motion carried unanimously 7-0.

Mr. Freeman pointed out the line item categories that the Board approved at its April meeting. He provided a high level summary at the system wide level. The line items go to BAHR for an in depth review in July and to the Board in August. They are due to the Governor September 1. Complete line item details were provided to the Board members in their agenda materials.

Mr. Freeman pointed out Complete College Idaho (CCI) is a major priority and discussed the requests prepared by the institutions. Those requests were aligned with the CCI plan. Mr. Westerberg commented that he realizes each institution has taken a different approach to CCI, but the spend isn’t proportional to the enrollment. He was concerned it was so divergent between institutions and recommended the BAHR Committee take a deeper look at it, suggesting a common methodology.

Mr. Freeman indicated the next major item deals with deferred maintenance and reviewed those details. He pointed out that the need is far more than the institutions will ever be appropriated for deferred maintenance; they intend to submit a request for $10 million for deferred maintenance costs. Mr. Freeman pointed out that there is an effective process in place for deferred maintenance and major capitol projects whereby the institutions submit a list that is reviewed by staff and also by the Permanent Building Fund Council to the Division of Public Works (DPW), and DPW is tasked with divvying out the funds appropriated to the institutions. Then, DPW works as far down that list as they can.

Mr. Freeman briefly reviewed the philanthropic matching program which was proposed in the President’s Council meeting. He discussed salary competitiveness and where the various institutions rank. He commented that the BAHR Committee will need to consider how it will want to further develop the comparison so it is more “apples-to-apples” with regard to the benchmarks.

Mr. Freeman also highlighted a few areas specific to some of the institutions. There are currently three campuses that have line items addressing the guns-on-campus legislation recently passed. Mr. Freeman recommended additional discussion in the BAHR Committee on the institution-specific initiatives and specifically guns-on-campus.

Mr. Westerberg asked BAHR to consider what the total request ought to be for line items from the institutions. Mr. Lewis indicated the committee would take that into consideration.

Mr. Freeman also pointed out that the four-year institutions are requesting a 5% base increase to offset effects from the recession.

Under the Health Education programs and WWAMI, Mr. Freeman identified the continuation of the four-year build-out on the WWAMI seats, and pointed out the line item for an additional five new seats. Currently the program is at 30 seats per year. The request will bring the WWAMI seats to 35 per year. There are also requests from the residency programs for on-going base funding to offset federal grant dollars that have gone away.

Mr. Freeman discussed the request for funding of the Opportunity Scholarship and indicated the award doesn’t meet the demand. The Board office is also requesting funding for an additional program manager position with the Charter Commission.

Dr. Goesling asked about the veterinarian education program. Mr. Freeman responded it is a joint program with the University of Idaho and Washington State University, and it provides for 44 students at 11 students per year. Dr. Goesling asked about the return on our investment and if the dollars would be better spent at the WWAMI program. Mr. Freeman indicated he would provide information on the program for Dr. Goesling outside of the meeting.

4. Amendment to Board Policy – Section V.R. – Establishment of Fees – First Reading

BOARD ACTION
M/S (Lewis/Goesling): To approve the first reading of proposed amendments to Board policy Section V.R., Establishment of Fees, with all revisions as presented. The motion carried unanimously 7-0.

Mr. Lewis requested the financial vice presidents of the institutions to participate in the discussion. Mr. Freeman indicated that there was interest in exploring the special course fees and whether they are being used for the purpose originally assessed. The Audit Committee asked for an internal audit of the special course fees. The current Board policy on special course fees was not specific enough for the auditors to audit against. Therefore, they were directed to develop policy specific to the special course fees in order to have something specific to audit against.

Mr. Westerberg asked what would change in the process with the acceptance of this policy. Mr. Freeman responded the Audit Committee would review the fees. Mr. Lewis clarified it would be to help keep special course fees in check and to define what a special course fee is and that an auditor may determine whether or not the fee meets the definition of a special course fee.

Mr. Fletcher expressed some concerns on the policy, which he felt could be easily addressed by the BAHR Committee. Ms. Atchley indicated that if the financial vice presidents would like to have additional input, there would be time made to do it between now and the next reading. She expressed that the differences between how institutions determine special fees is confusing and the idea is to make those course fees transparent. She recommended the Audit Committee have a session on this policy. Mr. Fletcher recommended a joint meeting between the provosts, the vice presidents of finance, and the internal auditors. Mr. Smith echoed those remarks. Ms. Atchley indicated the Audit Committee chair would take that request under consideration, and include the BAHR chair in the discussion.

5. Amendment to Board Policy – Section V.T. – Fee Waivers – First Reading

BOARD ACTION

M/S (Lewis/Goesling): To approve the first reading of proposed amendments to Board Policy V.T. Fee Waivers, with all revisions as presented in Attachment 2. The motion carried unanimously 7-0.

BOARD ACTION

M/S (Lewis/Terrell): To approve the following special fees as listed:
- Students attending multiple Idaho public institutions
- Idaho National Laboratory (UI)
- BYU-Idaho - University of Idaho

The motion carried unanimously 7-0.

Mr. Freeman provided a brief explanation of the item and pointed out that the institutions provide a report that attempts to quantify the value of the waivers the institutions are granting to students. Board staff recommended amending policy to allow institutions to enter into in to these types of agreements subject to Board approval.

6. Amendment to Board Policy – Section V.X. – Intercollegiate Athletics – First Reading

BOARD ACTION

M/S (Lewis/Terrell): To approve the first reading of proposed amendments to Board policy V.X. Intercollegiate Athletics, with all revisions as presented in Attachment 1. The motion carried unanimously 7-0.

7. Amendment to Board Policy – Section V.I. – Real and Personal Property and Services – Second Reading
BOARD ACTION

M/S (Lewis/Terrell): To approve the second reading of proposed amendments to Board Policy V.I. Real and Personal Property and Services. The motion carried unanimously 7-0.

8. Amendment to Board Policy – Section V.K. – Construction Projects – Second Reading

BOARD ACTION

M/S (Lewis/Terrell): To approve the second reading of proposed amendments to Board Policy V.K. Real and Personal Property and Services as presented. The motion carried unanimously 7-0.

9. Amendment to Board Policy – Section V.W. – Litigation – Second Reading

BOARD ACTION

M/S (Lewis/Terrell): To approve the second reading of Idaho State Board of Education Governing Policies & Procedures V.W. – Litigation as submitted. The motion carried unanimously 7-0.

At this time, item #13 was moved up on the agenda as a time sensitive matter related to bond issuance.

BOARD ACTION

M/S (Lewis/Terrell): To approve the request by the University of Idaho for a Supplemental Resolution for issuance of the Series 2014 bonds and to approve the projects financed thereby as necessary for the proper operation of the University of Idaho and economically feasible, the title of which is as follows:

A SUPPLEMENTAL RESOLUTION of the Regents of the University of Idaho authorizing the issuance and sale of General Revenue Bonds, Series 2014, in the principal amount of up to $52,000,000 (the “Series 2014 Bonds”), authorizing the execution and delivery of a Bond Purchase Agreement, Continuing Disclosure Agreement, Preliminary Official Statement, Final Official Statement and other documents, and providing for other matters relating to the authorization, issuance, sale and payment of the Series 2014 Bonds. A roll call vote was required and taken, and the motion passed unanimously 7-0.

Mr. Smith from the University of Idaho provided a summary of the bond issuance and the request, indicating they are seeking authorization to sell general revenue bonds not to exceed $52 million. The bonds are to finance two construction projects; the Integrated Research Innovation Center and the renovation of the College of Education.

They are asking for a not to exceed interest rate of 5.5%. Their ratings have been affirmed through Moody’s and S&P as AA through stable. Final maturity of the bonds is not to exceed 31 years. The debt service for these bonds has been budgeted within the operational budget of the institution and no additional increase in student tuition or fees is required.

10. Boise State University – Agreement for Football Stadium Naming Rights with Albertson’s

BOARD ACTION

M/S (Lewis/Terrell): To waive Board Policy I.K. and approve Boise State University’s request to name the BSU football stadium “Albertsons Stadium” and to approve the Naming Rights Agreement as presented. The motion passed unanimously 7-0.

Mr. Satterlee from BSU provided a brief summary of the item and reported on the terms of the agreement.
In 2009, Boise State University (BSU) entered into a multimedia and sports marketing agreement with Learfield. At that time, a naming rights agreement for the football stadium was contemplated as part of the contract awarded to Learfield.

The University has since entered into negotiations with Albertsons for the naming rights to the football stadium. Under the proposed agreement, Bronco Stadium would be renamed “Albertsons Stadium.” In exchange for stadium naming rights, Albertsons will make annual payments to the University totaling $12.5 million over the fifteen year term. Of the $12.5 million, $100,000 will support the new Alumni Center.

11. Boise State University – Facility Lease with Gardner and Company

BOARD ACTION

M/S (Lewis/Soltman): To approve the request by Boise State University to enter into a lease agreement with Gardner and Company for the initial term plus all allowable extension periods per the terms of the lease, in substantial conformance with the lease agreement as presented in Attachment 1. The motion passed unanimously 6-0. Mr. Terrell refrained from voting.

Before the discussion of the item ensued, Dr. Kustra offered some praise and remarks toward Mr. Terrell in his service to the Board. He credited Mr. Terrell with building relationships and bringing people together in alliances of various kinds. He thanked Mr. Terrell for his leadership and mentorship for the Board and for institutions.

Dr. Kustra introduced the item and introduced Dr. Mark Rudin and Ms. Stacy Pearson to discuss the details. He reported that Gardner and Company (“Gardner”), a private developer, has approached Boise State University (BSU) with a proposal that provides BSU with an opportunity to own or lease space in its new downtown development at a reduced cost. He pointed out this is a good price and will help better serve students. He commented there is great demand for more students and indicated that with the increase in faculty and students and this will assist with that. He remarked that the proposal calls for BSU to co-locate portions of its Computer Science Department in the new development to be located near technology firms in the downtown area.

Ms. Pearson echoed some of Dr. Kustra’s remarks about the downtown location and that the proposal was carefully vetted. There is collaboration with industry and a strong interest for the types of jobs the computer science department prepares students for. Ms. Pearson indicated there has been an increase in computer science grant funding. She pointed out the space needs for the College of Engineering. She highlighted the project information details and that it will provide 370,000 gross square feet which includes two buildings. The University will occupy 53,549 gross square feet comprised of two complete floors, the second and third floors of the Clearwater Building and a small portion of the Centre Building. Ms. Pearson shared some drawings of the proposed buildings as a visual aid and pointed out who the project partners and co-tenants will be. Lease terms have been negotiated, and it has annual purchase options. It is an annual lease with a tenant improvement exit option. She reviewed under what conditions the tenant improvement cost would be paid should BSU stay in the facility long term.

Ms. Pearson reviewed the purchase terms offered at $169.99 per square foot that includes $2.67M in developer investment into tenant specific improvements. It includes price risk and interest expense through construction and, the purchase price being due in two years. They believe the purchase price option is good and that the lease is a good deal. They are presently seeking approval of the land board lease.

Dr. Rudin commented that BSU has been hearing that they have not been producing enough graduates to meet workforce needs. He remarked on the benefit of iGEM grant money which will help with graduation rates in the computer science area. He pointed out the graduate problem doesn’t just include Idaho, that it is a nationwide shortage.

Mr. Lewis expressed concern about parking for students. Ms. Pearson responded that they are working...
on it and paying careful attention to the issue. She indicated they are assured by the downtown entities that there is adequate parking if they want to purchase it, and it would be discounted parking for BSU. Gardner Company is also looking at procuring additional parking. She indicated they would have additional information available soon. She did say the downtown parking would be more expensive than the parking on campus, but they are working to keep those costs down and will provide additional information. Ms. Atchley echoed that parking and its cost is a real concern. Mr. Lewis urged a direction to a clear path toward the parking situation. Ms. Pearson discussed some of the parking options and clarified that the Gardner Group is looking at two options. One is purchasing an existing parking garage, and one is to build a parking area. How the Gardner Group intends to proceed is not clear yet, as well as the other parking options. She also pointed out there will be a shuttle that runs back and forth to the campus regularly.

There was additional discussion about parking. Ms. Pearson indicated that with today’s action it would approve proceeding with the first year lease. Dr. Kustra expressed his comfort and confidence in the opportunities for reasonable parking options for faculty, staff and students. Mr. Satterlee provided additional remarks about parking. Mr. Lewis requested that information be summarized and provided to the Board.

At this time, Mr. Luna left the meeting, and the group recessed for a lunch break.

12. Idaho State University (ISU) – Report of the Bengal Pharmacy LLC

Arlo Luke, ISU Foundation President, Rex Force, ISU College of Pharmacy, and John Gregory, CFO of the Foundation, provided a report to the Board. They were joined by Kent Tingey, ISU VP for University Advancement.

Mr. Luke expressed great appreciation for the Board’s approval of the Bengal Pharmacy, LLC (Pharmacy). He reviewed the rationale for the Pharmacy, and its goals to generate revenue, provide educational experience to students and provide a research laboratory for faculty and students.

Mr. Luke reported that the Pharmacy startup has experienced delays as well as opportunities, and they don’t expect to take the loss in start-up that was originally projected. Mr. Force reported that the Foundation authorized up to $400,000 for start-up and they have used $308,000 YTD. Their first year revenue projected at $315,000 and the first year projected net operating loss is at $28,420 which is considerably lower than their original loss projection of $153,068.

Mr. Luke reported on the progress of the Pharmacy and that they are achieving profitability. Mr. Force reported that they are on track with the educational mission of the Pharmacy. He said the Pharmacy’s direction is also providing a platform for grant applications. Mr. Luke reported some of the challenges and opportunities at the Pharmacy. Some of the challenges have included technical upgrades. Opportunities include insurance contracting and a partnership with a pharmacy owner in Arco. Mr. Force added that the Bengal Pharmacy LLC is an exciting model for rural area pharmacies.

14. Lewis-Clark State College – FY 2015 Athletic Limit Increase

BOARD ACTION

M/S (Lewis/Goesling): To approve the request from Lewis-Clark State College to increase its FY2015 General Fund athletic limit by $100,000 resulting in a new limit of $1,093,300. The motion carried 6-0. Mr. Luna was absent from voting.

Chet Herbst reported that they are requesting an increase of $100,000, of which the net effect would be to keep at about the same average per participant basis, and the expenditures would be used to hire an assistant coach. Dr. Goesling indicated that Board staff finds LCSC has made a reasonable case for the need to increase its General Fund limit and recommended approval.

At this time, Mr. Freeman requested a moment of personal privilege to express some heartfelt comments.
regarding Mr. Terrell and his service on the Board.

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS

1. Amendment to Board Policy – Section III.P. – Students – First Reading

BOARD ACTION

M/S (Soltman/Westerberg): To approve the first reading of proposed amendments to Board policy III.P. Students, subsection 18. as submitted in Attachment 1. The motion carried unanimously 6-0. Mr. Luna was absent from voting.

Mr. Soltman indicated that approval of the proposed amendment would include community college students in the student complaint process currently outlined in Board policy, thereby assuring they are in compliance with the Federal Program Integrity Rules.

2. Amendment to Board Policy III.Y., Advanced Opportunities – Second Reading

BOARD ACTION

M/S (Soltman/Westerberg): To approve the second reading of proposed amendments to Board policy III.Y. Advanced Opportunities as submitted in Attachment 1. The motion failed due to a tie. Dr. Goesling, Mr. Terrell and Mr. Lewis voted nay on the motion. Mr. Luna was absent from voting. The item was returned to the IRSA Committee for further work.

Mr. Soltman indicated approval of the proposed amendment will clarify for the institutions that dual credit courses can be either academic courses or professional-technical courses and that students participating in technical competency credit (TechPrep) programs are not concurrently enrolled students.

Mr. Terrell requested discussion on the item as it relates to the military students. Mr. Soltman requested Dr. Schwarz provide comment on the item. Dr. Schwarz responded that most of the specific issues regarding operation can be addressed through PTE in coordinating consistency in operation. He indicated they do not feel there would be barriers to military students.

Ms. Bent offered comments that they are looking to have the transfer of these credits to be more consistent throughout the system and more transparent to students. Dr. Mathias responded that CAAP did discuss the issue at their May meeting and none of the institutions changed their position.

Dr. Schwarz pointed out that this policy is different from where it was when it was originally crafted and overall that it has evolved for the better. Dr. Goesling requested comment from LCSC. LCSC President Dr. Tony Fernandez summarized the history of the program and the amendments to the policy. He commented that when the new policy was put together they disagreed with some of the changes in the second reading. They are concerned that the changes to the policy will affect the tech prep and PTE student numbers. He indicated that LCSC does not support the proposed change in policy.

Mr. Terrell was concerned about taking away from students who want to go to school by charging $65 per credit hour. He asked why they would want to undo what LCSC is doing by not charging the students and absorbing the cost themselves.

Ms. Bent remarked on the complication of this policy and the biggest confusion is the merging of dual credit and tech prep courses. Dual credit courses remain $65. What used to be called tech prep is currently $10 per credit. The difference is that the previous policy was vague on tech prep courses. The change to the tech prep section specifies the students are not concurrently enrolled which takes the students from LCSC into a different category.

Mr. Soltman reviewed what each of the committees recommended. Mr. Terrell recommended the IRSA Committee review the policy one more time before a motion is made on the policy. Mr. Soltman pointed
out that the $65 was decided upon in committee and he would prefer to vote on the motion. Dr. Mathias added some clarifying comments to the discussion. Dr. Goesling expressed allowing the institutions the flexibility to decide on the rates.

After some further discussion, the item was returned to the IRSA Committee for additional work with particular attention to effect on military students.

There being no further business, a motion to adjourn was entertained.

**M/S (Terrell/Goesling): To adjourn the meeting at 2:08 p.m.** The motion carried unanimously 6-0.

SUBJECT
Program Prioritization Results

REFERENCE
May 2013 The Board directed institutions to institute a prioritization of programs process consistent with Dickeson’s prioritization principles, and further directed the institutions to use a quintile prioritization approach and communicate to the Board the criteria and weighting to be used after consultation with their respective campuses.

June 2013 The Board approved the program prioritization proposals for Idaho State University, Boise State University, and University of Idaho as presented.

August 2013 The Board approved the program prioritization proposal for Lewis-Clark State College as presented.

October 2013 The Board was presented with an update on program prioritization.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section III.H., Governor Otter’s Zero Base Budgeting (ZBB) Mandate

BACKGROUND/DISCUSSION
At the Board’s May 2013, retreat Dr. Robert Dickeson, author of Prioritizing Academic Programs and Services: Reallocating Resources to Achieve Strategic Balance, facilitated a discussion on setting priorities for the Idaho higher education system. Dr. Dickeson walked the Board through the process of planning and structuring a program prioritization effort. As a result, the Board directed institutions to institute a prioritization of programs process consistent with Dickeson’s prioritization principles.

The Board, with input from several institution presidents and provosts, agreed to a framework for initiating program prioritization on each of the campuses to include proposed outcomes and targets for each outcome. Institutions were asked to develop proposed criteria to be used to evaluate programs and the weighting for their criteria. Institutions presented proposals for initiating a program prioritization process to the Board in June and August of last year. The Board approved proposals for the University of Idaho, Idaho State University, Boise State University, and Lewis-Clark State College.

On April 15, 2014, a joint meeting of the Council on Academic Affairs and Programs and the Financial Vice Presidents was held to discuss the framework
for presenting program prioritization results to the Board. Four key areas were identified to help validate for the Board the efficacy of the initiative.

- Rigor of the process
- Fulfillment of zero-base budgeting principles
- Achievement of impactful outcomes
- Sustainability of process improvements

Guidance was provided for content to be included or addressed in both the oral and written presentations at the August Board meeting. Each institution will provide an oral presentation to include their respective overarching goals, measurement criteria and units of program analysis, number of programs evaluated and how many programs were placed in each quintile, explanation of common factors that led to programs landing in the top or bottom quintile, lessons learned and actions taking place to include considerations of sustainability.

The written reports will include: (i) a narrative of the process explaining the level of rigor applied; (ii) key process documents such as templates and surveys used to collect data; (iii) key milestones and dates throughout the process; (iv) number of programs in each quintile; (v) number of programs held harmless and why; (vi) key outcomes and recommendations; and (vii) timelines for next steps. The written report will also contain all aspects of the oral presentation.

IMPACT

Program prioritization requires the institutions to conduct an evaluation of programs and services with specific and tangible objectives (goals), and with a focus on specific evaluation criteria rather than generalized across-the-board cuts. Implementation of program prioritization based on Dickeson's framework provides the Board with assurances of consistency and presents the institutions with a unique opportunity to evaluate old paradigms that may no longer make sense, with a specific focus on their Mission, Core Themes and Strategic Plans. This process will provide a method to objectively review program efficiency and effectiveness. Based on the outcome of the program prioritization process “decisions can be made that, at the minimum, inform future budget decisions, and can also lead to enrichment of some programs that are under-resourced while at the same time reducing or even eliminating still others.”1

Finally, program prioritization serves a critical dual purpose by fulfilling the requirements of the Governor’s ZBB mandate.

1 Dickeson, R.C. Making Metrics Matter: How to Use Indicators to Govern Effectively, 2013
STAFF COMMENTS AND RECOMMENDATIONS
For the past nine months Program Prioritization has been a standing agenda item for the Instruction, Research, and Student Affairs (IRSA) and Business Affairs and Human Resources (BAHR) committees. This provided Board members with a regular checkpoint and institutions with a forum for technical questions and inter-institutional comparison and dialog.

Per the Guidance Memo referenced above and included as Attachment 1, a system-wide summary of requested findings and outcomes follows:

Hold Harmless

For Idaho State University (ISU), University of Idaho (UI) and Lewis-Clark State College (LCSC) no academic or non-academic programs were exempt from the program prioritization process. Instructional programs less than three years old were excused from Boise State University’s (BSU) Program Prioritization because of insufficient data to evaluate. In addition, eight secondary education programs were excluded from BSU’s analysis, but will be evaluated jointly by the subject area departments and the College of Education. Evaluation of these programs will be completed and action plans developed by May, 2015.

Sustainability

BSU plans to sustain the benefits of systematic assessment, focusing in particular on the following four areas:

1. Follow-up on implementation of program prioritization action plans
2. Enhance capability to analyze and make use of data on unit and organizational performance
3. Enhance evaluation of instructional programs and academic departments (e.g. refinement of metrics, enhanced assessment of learning outcomes, enhanced periodic review process, etc.)
4. Enhance Evaluation of Administrative and Support Programs to ensure that they will enable an outside reviewer to evaluate the overall effectiveness and efficiency of the unit

ISU Office of Institutional Research stood up a server and built an online application in order to manage the program prioritization input and analysis. ISU’s Program Viability System will be used on-going. “The University will continue to refine its institutional expectations for Program Prioritization in the years ahead. ... A continued use of Program Prioritization will enforce the need to continually assess the quality and necessity of University programs for the benefit of the State of Idaho and its citizens.” ISU has already incorporated program prioritization into its budget development process.

UI’s report is silent on sustaining elements of the program prioritization process.

“LCSC [indicates they] will maintain the College-wide assessment teams and program review protocols, strengthened during this past review cycle, and incorporate ‘lessons learned’ from the Board’s prioritization initiative. Interventions based on the major reviews and action plans, will be implemented with an eye toward sustainability.” In particular, LCSC credited the program prioritization process with exposing gaps in data at the program level and the existence of multiple data sets on campus creating “confusion as to which data sets are official.”
Institution Reports

Idaho State University (ISU) carried out a thorough and inclusive program prioritization process. Major reviews of programs and recommendations have occurred. It is noteworthy that ISU’s process included an extensive effort by senior leadership to vet preliminary recommendations with stakeholders prior to providing final recommendations and the development of a three-phased implementation plan. All programs landing in the fifth quintile have required action plans (consolidate, restructure or eliminate). ISU Academic Affairs has also aligned its budget process with program prioritization.

ISU’s program prioritization of its non-academic programs used a separate set of metrics unique to these programs. It was an iterative process starting with program directors, moving up through each level of management until final approval by the appropriate vice president. ISU ultimately identified 16 programs “for potential program prioritization actions.”

The University of Idaho (UI) listed as one of its overarching goals to review those programs previously placed on a “watch list” during the institution’s 2008-09 program review process. UI also identified review of “other programs found to be low priorities” as a key goal. It would appear that as part of the current program prioritization process, UI watch listed some additional academic programs. Additional clarity is needed about this watch list. What level of review will watch-listed programs be subjected to and are they being ‘watched’ against a predetermined list of benchmarks? Why are they only being watched and not, like the other programs, restructured, consolidated, eliminated, or invested in? It does not appear the UI has adopted final recommendations or developed firm action plans for all programs.

Boise State University’s (BSU) program prioritization process was clearly detailed and documented. The process included an element of increased rigor whereby underproductive programs, based on a threshold number of graduates, were subjected to greater scrutiny. The University identified 22 programs not in the fifth quintile but with a low number of graduates. These programs “were required to develop plans to increase their number of graduates to a level above” an identified threshold value. For instructional degree programs in the 5th quintile “an action plan was developed for programs that describe the substantive change (reinvent, redesign, restructure or phase out).” Degree programs in the 2nd, 3rd or 4th quintiles were required to “develop plans for improvement.” In addition, all programs with low numbers of graduates were required to provide an improvement plan.

Lewis-Clark State College (LCSC) integrated the program prioritization principles into an existing assessment process. Clarification is needed regarding the relationship between LCSC’s annual assessment cycle at LCSC and the program prioritization process. Specifically, LCSC’s report states that prior to this
“program prioritization process, 163 programs” were included in the “annual assessment cycle at LCSC.” However, only 115 programs were prioritized here. This raises the question of what happened to the 48 programs included in the last program assessment cycle but omitted from this prioritization process? Additional clarity is also needed about how LCSC developed and applied the quintiling process. While the criteria used to guide prioritization are articulated, their respective weights were not.

LCSC programs assigned to quintile 5 require major program review with “explicit direction” from the vice president, dean and department chair. “Review plans with outcome and timelines are due in October 2014.” Quintile 4 programs require an action plan addressing areas for improvement to be identified through the college’s assessment processes. These action plans and timelines are also due by October 2014.

**Board Processes & Implementation**

After the August presentations, the Board and/or the institutions may determine to make programmatic changes based on the program prioritization results. Board staff proposes the following process which may require a one-time waiver of Board policy III.G.:

1. An institution desiring to discontinue a program or consolidate programs may do so *en masse* with one letter of notification as an agenda item to the Board for approval.

2. An institution desiring to split an existing program will be required to submit a program proposal through the regular program review process for approval.

3. An institution desiring to create a new program must follow standard procedures consistent with Board Policy III.G and submit a program proposal through the regular program review process.

Staff recommends the Board request institutions provide a one-year follow-up report on implementation.

**BOARD ACTION**

I move to approve the program prioritization process executed by Idaho State University as fulfillment of the Governor’s zero-base budgeting mandate, and to direct the University to work with IRSA and BAHR to begin implementation of recommendations as set forth in Attachment 2.

Re: Guidance Memo – Program Prioritization Deliverables for August Board Work session

On April 15, 2014, members of CAAP and the Financial Vice Presidents met to discuss the framework for presenting the results of the program prioritization process. Specifically, participants discussed what should be included in both the written reports (due to the Board Office by July 14, 2014) and the oral presentations planned for the August 2014 Board Meeting. This memorandum outlines the conclusions drawn and expectations moving forward. In this memorandum, the word “program” covers both academic and non-academic programs.

We identified four key areas which will help validate for the Board the efficacy of the Program Prioritization initiative:

- Rigor of the process
- Fulfillment of Zero-base Budgeting principles
- Achievement of impactful outcomes
- Sustainability of process improvements

Oral Presentations should be up to **30 minutes in length** (not including questions) and include:

1. The institution’s overarching goals (*i.e.* desired outcomes).
2. The measurement criteria and the units of program analysis.
3. How many programs were evaluated and how many programs were placed in each quintile.
4. For those programs in either the top or bottom quintile, please generally explain the common factors that led to their current placement.
5. What lessons were learned (*e.g.* implications to the institution, future application, etc.) and what actions are being taken, including considerations of sustainability.
Written Reports must include everything from the Oral Presentations, as well as:

6. A narrative of the process explaining the level of rigor applied.
7. Key (blank) process documents including templates and surveys used to collect the data. If applicable, please include a link to the web application.
8. Key milestones and dates throughout the process.
9. The aggregate number of programs in each quintile.
10. Was there a hold harmless predetermination for any program(s), and if so, why?
11. Key outcomes and recommendations.
12. Timelines for next steps. This should delineate:
   a. What immediate steps have already been taken, if any?
   b. What steps will occur in the future (i.e. phased or out-year changes)? This may require an overview of what steps are co-dependent on the actions of others, such as the Board or NWCCU, or what steps are contingent upon further analysis and review by the institution.
   c. Process improvements (e.g. eliminate duplication, outsource, centralize services, etc.)

Executive Summary

Idaho State University’s Office of Academic Affairs approached academic program prioritization with the goal of supporting Idaho State University’s strategic initiatives, strategic plan, and institutional mission and core themes through appropriation of resources based on prioritization of programs. The intent of our process was to strengthen programs and enhance student opportunity.

The Office of Academic Affairs engaged in a twelve-month, data-driven analysis of all academic units and programs as outlined in its Program Prioritization process and timeline documentation. Our process utilized the Dickeson model, as directed by the Board in May 2013. The Office of Academic Affairs employed an evaluation and program scoring matrix based on the Dickeson criteria that was approved by the Faculty Senate, Council of Deans, and the Board. The Office of Institutional Research provided the project support for Program Prioritization in Academic Affairs, and additional resources were housed in Institutional Research to manage the considerable additional workload of building a database system (see Appendix C for details on the Program Viability System) that will be used on-going, beyond the Board mandate of Program Prioritization. Key process documents, including templates and surveys, used to collect the data are provided in Appendices A: Definition & Instructions, B: Score Sheet for Academic Programs and C: Scoring Sheet.

Academic Affairs utilized a continuous feedback model for the evaluation of the Program Prioritization data and report process. This process began September 2, 2013, when Faculty Senate ranked the Dickeson Criteria and reported the results of their ranking to the Deans’ Council on September 10, 2013 at which time Faculty Senate leadership and the Dean’s Council finalized the Program Prioritization Evaluation Matrix, scoring mechanism, and weights. The evaluation matrix was approved by the State Board of Education at their regular October meeting. Program Prioritization has been a standing agenda item at the weekly Deans’ Council meetings since August 2013.

Following the approval of the matrix, Academic Affairs created a report template to be completed by each program. All Academic Affairs program directors and chairs were asked to complete the Program Prioritization Template (template and instructions included as Appendix A) and to define the key linkages between the University’s mission and Core Themes, and using the Viability Report System for data. The unit/level of analysis generally took place at the college and programmatic level, with some programs
further refining the level of analysis to the degree level. Some programs were combined into a single unit because of budgets and the challenges of separating budgets.

The analysis consisted of a three-tiered process as follows:
(i) Program Chairs/Directors completed the program reports and the initial scoring.
(ii) Deans evaluated the Chairs/Directors recommendations and then provided the second scoring. Included in the analysis, colleges and programs provided an action plan for every low-scoring program.
(iii) The final review and analysis of the prior recommendations from the Chairs/Directors and Deans as well as a review of the program-level data was conducted by the Provost, Vice Provost and Associate Vice Presidents during February and March 2014.

This then resulted in Preliminary Program Prioritization Recommendations that were delivered to the Council of Deans for the feedback and response. Academic Affairs aligned its budget process with Program Prioritization and presented its budget to the ISU Special Budget Consultation Committee in early April 2014. Academic Affairs asked all academic units to provide additional information, cost savings, and feedback on the Academic Affairs recommendations in late April; these were due back to Academic Affairs in June 2014.

Program Chairs/Directors completed the program reports and the initial scoring, then the Deans evaluated the Chairs/Directors recommendations and then provided the second scoring. Included in the analysis, colleges and programs provided an action plan for every low-scoring program. The final review and analysis of the prior recommendations from the Chairs/Directors and Deans as well as a review of the program-level data was conducted by the Provost, Vice Provost and Associate Vice Presidents during February and March 2014. This then resulted in Preliminary Program Prioritization Recommendations that were delivered to the Council of Deans for the feedback and response. Academic Affairs aligned its budget process with Program Prioritization and presented its budget to the ISU Special Budget Consultation Committee in early April 2014. Academic Affairs asked all academic units to provide additional information, cost savings, and feedback on the Academic Affairs recommendations in late April; these were due back to Academic Affairs in June 2014.

Idaho State University evaluated 270 academic programs. All programs were evaluated and none were held harmless. As part of the program review and analysis process, academic programs were combined into 177 individual program-level evaluations. This resulted in programs being divided into the following five quintiles: Q1) 36, Q2) 35, Q3) 35, Q4) 35, and Q5) 36. Results of which quintile a program was placed was determined based on the quantitative and qualitative assessment conducted by the colleges. The academic programs utilized a scoring matrix that included the following categories and weighting: Demand (30%), Quality (30%), Revenue and Cost (20%), and Impact & History (20%), which resulted in a score (for a total amount possible 100%). The descriptors for each of the categories in the matrix can be found in Appendix A.
Academic Affairs also evaluated its non-academic programs, which included the Office of Institutional Research, Office of the Registrar, Library, Graduate School, Early College, Museum, Wellness Center, and the Student Success Center (University Honors Program, TRIO, University Tutoring, Disability Services, and Central Academic Advising). These units used the ISU Non-Academic Programs Analysis Template, and made recommendations for changes to Academic Affairs in February 2014. These recommendations have been analyzed and will be folded into the Academic Affairs implementation plan for the academic program recommendations.

The final analysis and recommendations for academic programs included identification of 75 low quintile programs with required Action Plans (program consolidations, restructures, or eliminations), and four (4) Improvement Plans for low quintile programs. In addition, there were eight (8) expansions identified, and the creation of four (4) new programs – for more than 90 programmatic recommendations. Since the internal deadline of February 14, 2014, there have been an additional 29 program changes identified and requested, bringing the current total to 104 programmatic changes.

Timeline and next steps follow a three-phased approach to accomplish the results and recommendations of Program Prioritization. Items identified under Phase I may require minor approvals, which will be sought during the FY2015 year for implementation in the 2015-2016 catalog year. Phase II requires approval by multiple agencies (SBOE, NWCCU) and approvals will be sought during FY 2015 and 2016 for implementation during the 2016-2017 catalog year. Phase III requires approval by multiple agencies (SBOE, NWCCU) and approvals will be sought during FY 2016 and 2017 for implementation during the 2017-2018 catalog year. The Office of Academic Affairs generated the Program Actions Spreadsheet, based on the State Board of Education’s Five Year Plan format, which will be used to implement the three-year, phased approach to Program Prioritization Action Plans (see Appendix D).

The Office of Academic Affairs hired a consultant to assist with implementation of the Program Prioritization recommendations. This work began with the Deans’ Retreat in July 2014. As part of that retreat, there were three areas of focus: Session I: Exploring Program Prioritization- ISU & WSU, Session II: Framing the Future, and Session III: Leading ISU Forward.

The results of the retreat have provided a framework moving forward with proposed changes at the campus, college, and program level. These efforts have formed the basis for Idaho State University’s strategic planning process for its revised strategic plan, which will launch in January 2015. The Program Viability System will assist colleges and Academic Affairs in conducting on-going assessment of program productivity, demand, and highlight areas of need.
Academic Program Prioritization Process Narrative

Goal:
Support Idaho State University strategic initiatives, institutional mission, strategic plan and core themes through appropriation of resources based on prioritization of programs.

Process and Rigor:
The Office of Academic Affairs at Idaho State University has engaged in a twelve-month, data-driven analysis of all of its academic units and programs as outlined in its Program Prioritization process and timeline documentation. Our process utilized the Dickeson Model, as directed by the Idaho State Board of Education in May 2013. The Office of Academic Affairs employed an evaluation and program scoring matrix based on the Dickeson criteria that was approved by the Faculty Senate, Council of Deans, and the State Board of Education. The Office of Institutional Research provided the project support for Program Prioritization in Academic Affairs, and additional resources were housed in Institutional Research to manage the considerable additional workload.

Academic Affairs utilized a continuous feedback model for the evaluation of the Program Prioritization data and report process:

- Faculty Senate ranked the Dickeson Criteria during the week of September 2, 2013 and reported the results of their ranking to the Deans’ Council on September 10, 2013.
- The deans met with faculty and constituents during August to prepare to rank the criteria. The deans ranked the Dickeson Criteria during an Academic Affairs Program Prioritization workshop on September 3, 2013.
- Faculty Senate leadership and the Deans’ Council finalized the Program Prioritization Evaluation Matrix, scoring mechanism, and weights on September 10, 2013. The evaluation matrix was approved by the State Board of Education at their regular October meeting. Program Prioritization has been a standing agenda item at the weekly Deans’ Council meetings since August 2013.
- Academic Affairs created a database system (the Viability Report System), utilizing staff in Institutional Research, to provide all of the program-level data needed for the evaluation matrix
directly to program directors and chairs. The Viability Report System went live for log-in access in December 2013.

- Following the approval of the matrix, Academic Affairs created a report template to be completed by each program. All Academic Affairs program directors and chairs were asked to complete the Program Prioritization Template (template and instructions included as Appendix A) and to define the key linkages between the University’s mission and Core Themes, and using the Viability Report System for data. This template was submitted to College Deans for analysis using a Score Sheet divided out by Department and Program (Score Sheet example included as Appendix B p.17-18). Deans were asked to enter a weighted average for all of the key areas (Demand – 30%, Quality – 30%, Revenue & Cost – 20%, and Impact & History – 20%), which resulted in a score (total amount possible was 100%).

- Following the completion of the program reports, each program chair and/or director and dean scored the programs, and deans submitted the scoring sheets to Academic Affairs.

- Colleges and programs provided an Action Plan for every low-scoring program.

- Program reports, score sheets, and action plans were due to the Office of the Provost and Vice President for Academic Affairs on February 14, 2014.

- The Provost, Vice Provost and Associate Vice Presidents reviewed and evaluated all of the reports, score sheets and recommendations during February and March 2014. A master quintiled list of all academic programs was created from the score sheets.

- Academic Affairs aligned its budget process with Program Prioritization and presented its budget to the Special Budget Consultation Committee in early April 2014.

- Academic Affairs presented its process and overview of its recommendations to the Vice Presidents, President Vailas, Faculty Senate, and the Council of Deans during March and April 2014.

- Academic Affairs asked all academic units to provide additional information, cost savings, and feedback on the Academic Affairs recommendations in late April; these were due back to Academic Affairs in June 2014.

- During June 2014, Academic Affairs compiled all of the additional information, feedback, and cost analyses and created a Program Actions Spreadsheet, based on the feedback from units, of all Program Prioritization recommendations.

**Results and Implementation:**

Idaho State University is on schedule with Program Prioritization. All programs have been analyzed using the viability indicators; all programs have been scored at the program and college/division level; programs have been quintiled; and programs have created action plans for every program in the fifth quintile.
Program Prioritization recommendations have been collated, divided into three Phases based on approval timelines and catalog deadlines, and sent back to Colleges, Departments and Programs for cost analysis, program proposal development, and revision for final recommendations. All program proposals, cost analyses, and revisions were due to Academic Affairs on June 1, 2014 for preparation for submission to the Office of the State Board of Education.

Academic Affairs has generated the Program Actions Spreadsheet, which will be used to implement the three-year, phased approach to Program Prioritization Action Plans.

Academic Affairs has hired a consultant to assist with implementation, beginning with the Deans’ Retreat in July 2014.
Academic Program Prioritization Implementation Timeline

[July 4, 2014 Revision]

May 15, 2013: Robert Dickeson presented a workshop to the Idaho State Board of Education.

May 16, 2013: The Idaho State Board of Education approved a motion to direct the four-year Idaho institutions “to institute a prioritization of programs process consistent with Dickeson’s prioritization principles and ... to use a quintile prioritization approach and communicate to the Board the criteria and weighting to be used after consultation with their respective campuses” (Office of the Idaho State Board of Education Memo, May 17, 2013).

June 2013: Academic Affairs notified the Council of Deans and Faculty Senate leadership that all of the Idaho four-year public institutions had been directed by the Idaho State Board of Education to institute a Program Prioritization process modeled on the Robert Dickeson model.

June 2013: Academic Affairs produced a Program Prioritization Resources document and shared it with the Council of Deans.

June 2013: Academic Affairs presented preliminary plan for Academic Program Prioritization at the June 2013 Idaho State Board of Education meeting, as directed by the Board. Preliminary plan was accepted without change.

July 2013: Program Prioritization added as a standing agenda item for Council of Deans.

July 2013: Program Prioritization preliminary template discussed at the Council of Deans.

August 2013: Program Prioritization template and Viability Indicators presented and discussed at the President’s Retreat with Vice Presidents, Associate Vice Presidents, and Deans present.

August 2013: Deans requested feedback from their colleges/division regarding the Program Prioritization preliminary template.

August 2013: Academic Affairs presented Program Prioritization documents (charge from the Idaho State Board of Education, resources, and preliminary template) at a Faculty Senate meeting.
August 2013: Academic Affairs asked Faculty Senate for feedback on the criteria/indicators used on the preliminary template.

August 2013: Institutional Research created implementation plan for delivery of the Viability Indicators via a web-based system.

September 2013: All criteria and indicators were revised/chosen through a process of feedback and revision with the Council of Deans and the Faculty Senate. Both the Faculty Senate and the Council of Deans ranked the Dickeson criteria.

October 2013: Program Prioritization updates delivered at the Idaho State Board of Education meeting in Lewiston, Idaho. Idaho State University cleared to continue with implementation plan.

October 2013: Institutional Research built the online application for Program Prioritization, and worked with Information Technology (IT) to install appropriate servers for the Program Prioritization process.

October 2013: Council of Deans directed to begin working with units (in advance of the online delivery of the Viability Indicators) to complete the qualitative data sections of the program prioritization template.

November 2013: Program Prioritization web site created and posted.

November 8, 2013: Access to the Program Prioritization Plan Phase I (P4I) template provided to deans for dissemination to units.

December 2013: Units complete P4I template in accordance with Division/College deadlines.

December 16, 2013: Units receive access to the quantitative data (Viability Indicators).

January 2014: Units will complete the Program Prioritization Microsoft Word template. Follow the instructions below to access the Academic Program Viability Data:

1. Log into BengalWeb
2. Select the Academics tab
3. Click on the Institutional Research Internal Website link in the Institutional Research channel

January 2014: Units deliver all Program Prioritization reports to Deans based on Division/College deadlines.
FEBRUARY 14, 2014: All Academic and Non-Academic Program Prioritization college/division rankings and recommendations due to the Provost.

February 19-21: Provost, Vice Provost and Associate Vice Presidents meet in Meridian to review rankings and finalize recommendations.

March 3, 2014: Academic Affairs presents recommendations to Faculty Senate for feedback/discussion.

March 4, 2014: Academic Affairs presents recommendations to Deans Council for feedback/discussion.

March 14, 2014: Final recommendations due from Academic Affairs to President.

March 14, 2014: Provost presents Academic Affairs Program Prioritization to the President and Vice Presidents of Idaho State University.

March 31, 2014: Provost presents Academic Affairs Program Prioritization update to State Board of Idaho member Richard Westerberg at Idaho State University.

April 7, 2014: Academic Affairs sends it recommendations to Deans and Colleges for feedback, and asks for additional information, including cost analyses for all action plans.

June 1, 2014: Additional feedback from Deans and Colleges due to Academic Affairs, after consultation with units and constituents.

June-July 2014: Academic Affairs analyses additional information from Deans and Colleges and completes report for submission to the State Board of Education.

July 8-9, 2014: Academic Affairs holds Program Prioritization Retreat with Deans and Colleges. Dr. Jane Sherman facilitates the discussion as an outside expert and consultant on Program Prioritization implementation.

July 14, 2014: Academic Affairs Program Prioritization report due to Office of the State Board of Education.

August 2014: Academic Affairs presents Academic Program Prioritization presentation to the State Board of Education at the August State Board meeting in Pocatello.

September-December 2018: Implementation of Phased Implementation Plan for all impacted programs (three phases of implementation planned through 2018). Necessary approvals for program changes will be submitted to the State Board of Education and the Northwest Commission for Colleges and Universities.
Program Prioritization Presentation for the State Board of Education
Goal:

Support strategic initiatives, institutional mission, strategic plan and core themes through appropriation of resources based on prioritization of programs and the needs of students.
System for Review and Feedback:

Faculty Senate ranked the Dickeson Criteria during the week of September 2, 2013 and reported the results of their rankings to the Deans' Council on September 10, 2013.

The deans met with faculty and constituents during August to prepare to rank the criteria. The deans ranked the Dickeson Criteria during an Academic Affairs Program Prioritization workshop on September 3, 2013.

The deans and the Faculty Senate leadership worked together to make changes to the Dickeson Criteria matrix, which was approved by the SBOE in October.

Program Prioritization Action Plan

Professional Technical Education Programs

Civil Engineering Technology: This program will increase recruiting efforts and explore new recruiting methods in an attempt to increase enrollment, to include radio and television advertising. Placement has been weak due to the economic downturn and the decrease in new construction. As the economy strengthens, this program expects demand for these jobs to increase, since companies and government agencies have put off construction projects that are becoming critically important to complete. A very high percentage of Idaho Surveyors are over the age of 55. As they begin to retire, there will be more opportunity for graduates over the next ten years than may be indicated in current data. This program is exploring ways to become more cost efficient, including possibly discontinuing the adjunct instructor contract and looking for cooperative partnerships with the Computer Aided Design Drafting Technology program.

Computer Aided Design Drafting Technology: This program will increase recruiting efforts and explore new recruiting methods in an attempt to increase enrollment. Expectations for increased job demand are also tied to the economy for this program. Recent changes in curriculum and faculty make it more cost efficient. The program discontinued summer session instruction and changed program entry points to fall only, allowing the program to run with one fewer faculty members. The two remaining faculty contracts will be reduced from 11 to nine months. Cooperative partnerships between this program and others with Computer Aided Design, drafting, or blueprint reading components, are being explored to include the recently approved Advanced Manufacturing Technology program.
Program Prioritization Plan

Academic Programs

Action Reports Include:

*Program and Administrative Restructures, Consolidations, Program Improvement Plans, New Programs, Program Eliminations, and other innovations*
All reports and data have been reviewed at every level (January – February 2014)

Programs did an excellent job of reviewing programs and making substantive recommendations
Program Prioritization Plan
Academic Programs

March through June 2014:

Academic Affairs updated the Vice Presidents, President, Council of Deans, and Faculty Senate

Colleges were asked to analyze the cost/benefit of their recommendations and seek constituent input

Academic Affairs made recommendations to the Colleges that were vetted at the College/Division level
June-August 2014:

Academic Affairs received feedback from all Colleges regarding its recommendations and finalized the Action Plans Document for all academic units on June 1.

Academic Affairs hosted an external consultant to assist with the implementation plan in July 2014.

Implementation of Three-Year Phased Plan will begin in August 2014.
Program Prioritization Plan

Academic Programs

Academic Affairs will continue to improve the Indicator Data System (Viability Reports) and will provide data on an annual basis.
Appendix A:

Program Prioritization
Definition & Instructions
Academic Programs

Template
I. Overview

Many institutions and state systems have launched program prioritization plans under the guidance or influence of Robert Dickeson’s model as represented in his book, Prioritizing Academic Programs and Services: Reallocating Resources to Achieve Strategic Balance (Jossey-Bass, 2010). Robert Dickeson presented a workshop to the Idaho State Board of Education on May 15, 2013. On May 16, 2013, the Idaho State Board of Education approved a motion to direct the four-year Idaho institutions “to institute a prioritization of programs process consistent with Dickeson’s prioritization principles and ... to use a quintile prioritization approach and communicate to the Board the criteria and weighting to be used after consultation with their respective campuses” (Office of the Idaho State Board of Education Memo, May 17, 2013). Academic Affairs has implemented a campus-wide process that aligns the Idaho State University Viability Report and the ISU Strategic Plan with a program prioritization model based on the Dickeson framework.

II. Instructions for Program Prioritization

The following criteria and viability indicators will be used to create the Academic Program Prioritization & Weighting Analysis Criteria table below. The numbers in each cell match the description below.

![Program Prioritization](image)
Enter your responses for the Program Prioritization criteria in the boxes below.

**Demand Row**

### #1-Demand (row) & ISU Viability Indicator (column)

**ISU Viability Indicator definition – Internal & External Demand** – The criterion of internal demand can be accomplished by rating the relative dependence the campus has on the program (Dickeson, 2010-p.74-75). The external demand criterion seeks to assess the need for and attractiveness of the program, usually driven by national statistics (Dickeson, 2010-p.72-74). The Georgetown study of Idaho jobs is one such national statistic.

**Georgetown Study Idaho Jobs**

This report uses data provided by Georgetown University’s Georgetown Public Policy Institute Center on Education and the Workforce which projects the number of job openings in Idaho. The Office of Institutional Research at Idaho State University mapped specific jobs from the raw data from Georgetown University to programs/departments. The complete report can be found at [http://cew.georgetown.edu/recovery2020/](http://cew.georgetown.edu/recovery2020/)

### #2 – Demand (row) & Opportunity Analysis (column)

**Opportunity Analysis definition** – This criterion seeks to capitalize on areas that the university may not have considered previously. It seeks to enable faculty and staff to actualize a fundamental reality: what was done in the past was appropriate for the past, but the world today is different, and we must commit ourselves to preparing our graduates for their future. Potential areas and ideas may have a great impact on the university’s future. For example: what about cooperative or collaborative relationships with other departments? With other
institutions? What external environmental factors affect the institution in such ways that opportunities are created? (Dickeson, 2010-p.86-87)

[Type your response here]

#3 – Demand (row) & Size, Scope, Productivity (column)

Size, Scope, Productivity definition – This criterion looks at real qualitative numbers. For example: What is the number of faculty, staff, and students required to be a designated department? Does information analysis suggest opportunities for consolidation or restructuring? (Dickeson, 2010-p.80-81)

[Type your response here]

#4 – Demand (row) & Core Themes (column)

1. Fill in Yes/No box (using Text Highlight Color) to answer which of the ISU Mission Statement and Core Themes 1-4 apply.

2. Then enter narrative text (in the box below) which defines the key linkages between the program and the University’s mission and Core Themes.

Yes □/No □  ISU Mission Statement: The mission of Idaho State University is to advance scholarly and creative endeavors through the creation of new knowledge, cutting-edge research, innovative artistic pursuits and high-quality academic instruction; to use these qualities to enhance technical, undergraduate, graduate, and professional education, health care, and other services provided to the people of Idaho, the Nation, and the World; and to develop citizens who will learn from the past, think critically about the present, and provide leadership to enrich the future in a diverse, global society.

Yes □/No □  CORE THEME ONE: LEARNING AND DISCOVERY - Idaho State University promotes an environment that supports learning and discovery through the many synergies that can exist among teaching, learning, and scholarly activity.

Yes □/No □  CORE THEME TWO: ACCESS AND OPPORTUNITY - Idaho State University provides opportunities for students with a broad range of educational preparation and backgrounds to enter the university and climb the curricular ladder so that they may reach their intellectual potential and achieve their goals and objectives.
Yes □/No □  CORE THEME THREE: LEADERSHIP IN THE HEALTH SCIENCES - Idaho State University values its established statewide leadership in the health sciences with primary emphasis in the health professions. We offer a broad spectrum of undergraduate, graduate, and postgraduate training. We deliver health-related services and patient care throughout the State in our clinics and postgraduate residency training sites. We are committed to meeting the health professions workforce needs in Idaho. We support professional development, continuing education, and TeleHealth services. We are active in Health Sciences research.

Yes □/No □  CORE THEME FOUR: COMMUNITY ENGAGEMENT AND IMPACT - Idaho State University, including its outreach campuses and centers, is an integral component of the local communities, the State and the intermountain region. It benefits the economic health, business development, environment, and culture in the communities it serves.

What are the key linkages between your program and the University’s Mission & Core Themes?

#18 – DEMAND Points (column)

<table>

PV = Program Viability  
AI = Activity Insight

To access Program Viability or Activity Insight follow the directions below:

1. Log into BengalWeb  
2. Click on the Academics tab  
3. Select the Institutional Research Internal Website link for Program Viability or the Activity Insight link in the Institutional Research channel
Quality definition – Quality of Outcomes and Quality of Inputs – The inputs criterion seeks to address the quality of the program’s contributions and evaluate the processes in place to take advantage of the following resources: faculty and staff, percentage of instruction offered by full-time faculty, students, curriculum, and adaptability to technology. Quality outcomes are based on the resources it will take to make a viable program that produces well-rounded graduates ready for the job market (Dickeson, 2010-p.75-79).

Opportunity Analysis definition – This criterion seeks to capitalize on areas that the university may not have considered previously. It seeks to enable faculty and staff to actualize a fundamental reality: what was done in the past was appropriate for the past, but the world today is different, and we must commit ourselves to preparing our graduates for their future. Potential areas and ideas may have a great impact on the university’s future. For example: what about cooperative or collaborative relationships with other departments? With other institutions? What external environmental factors affect the institution in such ways that opportunities are created? (Dickeson, 2010-p.86-87)

Size, Scope, Productivity definition – This criterion looks at real qualitative numbers. For example: What is the number of faculty, staff, and students required to be a designated department? Does information analysis suggest opportunities for consolidation or restructuring? (Dickeson, 2010-p.80-81)
#8 – Quality (row) & Core Themes (column)

1. Fill in Yes/No box (using Text Highlight Color) to answer which of the ISU Mission Statement and Core Themes 1-4 apply.

2. Then enter narrative text (in the box below) which defines the key linkages between the program and the University’s mission and Core Themes.

Yes □/No □  
**ISU Mission Statement:** The mission of Idaho State University is to advance scholarly and creative endeavors through the creation of new knowledge, cutting-edge research, innovative artistic pursuits and high-quality academic instruction; to use these qualities to enhance technical, undergraduate, graduate, and professional education, health care, and other services provided to the people of Idaho, the Nation, and the World; and to develop citizens who will learn from the past, think critically about the present, and provide leadership to enrich the future in a diverse, global society.

Yes □/No □  
**CORE THEME ONE: LEARNING AND DISCOVERY** - Idaho State University promotes an environment that supports learning and discovery through the many synergies that can exist among teaching, learning, and scholarly activity.

Yes □/No □  
**CORE THEME TWO: ACCESS AND OPPORTUNITY** - Idaho State University provides opportunities for students with a broad range of educational preparation and backgrounds to enter the university and climb the curricular ladder so that they may reach their intellectual potential and achieve their goals and objectives.

Yes □/No □  
**CORE THEME THREE: LEADERSHIP IN THE HEALTH SCIENCES** - Idaho State University values its established statewide leadership in the health sciences with primary emphasis in the health professions. We offer a broad spectrum of undergraduate, graduate, and postgraduate training. We deliver health-related services and patient care throughout the State in our clinics and postgraduate residency training sites. We are committed to meeting the health professions workforce needs in Idaho. We support professional development, continuing education, and TeleHealth services. We are active in Health Sciences research.

Yes □/No □  
**CORE THEME FOUR: COMMUNITY ENGAGEMENT AND IMPACT** - Idaho State University, including its outreach campuses and centers, is an integral component of the local communities, the State and the intermountain region. It benefits the economic health, business development, environment, and culture in the communities it serves.

[What are the key linkages between your program and the University’s Mission & Core Themes?]
#18 – QUALITY Points (column)

Revenue & Cost

#9 – Revenue & Cost (row) & ISU Viability Indicator (column)

<table>
<thead>
<tr>
<th>Revenue &amp; Cost: ISU Viability Indicator (Narrative)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Tuition and Fees [PV]</td>
</tr>
<tr>
<td>2. Local Fund Revenue [PV]</td>
</tr>
<tr>
<td>3. Grant Funding [PV]</td>
</tr>
<tr>
<td>4. Expenditures [PV]</td>
</tr>
<tr>
<td>5. Cost per Credit Hour [PV]</td>
</tr>
</tbody>
</table>

Revenue & Costs definition – Resources can be generated from enrollment, research grants, fundraising, equipment grants, other sources and potential revenue. Relationships (program-specific, university-corporate, economic development, joint ventures, etc.), for example, may yield many community, state and world benefits that cannot be measured with money, but benefit students greatly. Resources are sometimes more important than money (Dicksen, 2010-p.81-84).

#10 – Revenue & Cost (row) & Opportunity Analysis (column)

<table>
<thead>
<tr>
<th>Revenue &amp; Costs: Opportunity Analysis (Narrative)</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Qualitative Indicators</td>
</tr>
</tbody>
</table>

Opportunity Analysis definition – This criterion seeks to capitalize on areas that the university may not have considered previously. It seeks to enable faculty and staff to actualize a fundamental reality: what was done in
the past was appropriate for the past, but the world today is different, and we must commit ourselves to preparing our graduates for their future. Potential areas and ideas may have a great impact on the university’s future. For example: what about cooperative or collaborative relationships with other departments? With other institutions? What external environmental factors affect the institution in such ways that opportunities are created? (Dickeson, 2010-p.86-87)

#11 – Revenue & Cost (row) & Size, Scope, Productivity (column)

**Size, Scope, Productivity definition** – This criterion looks at real qualitative numbers. For example: What is the number of faculty, staff, and students required to be a designated department? Does information analysis suggest opportunities for consolidation or restructuring? (Dickeson, 2010-p.80-81)

#12 – Revenue & Cost (row) & Core Themes (column)

1. Fill in Yes/No box (using Text Highlight Color) to answer which of the ISU Mission Statement and Core Themes 1-4 apply.
2. Then enter narrative text (in the box below) which defines the key linkages between the program and the University’s mission and Core Themes.

**Yes □/No □ ISU Mission Statement:** The mission of Idaho State University is to advance scholarly and creative endeavors through the creation of new knowledge, cutting-edge research, innovative artistic pursuits and high-quality academic instruction; to use these qualities to enhance technical, undergraduate, graduate, and professional education, health care, and other services provided to the people of Idaho, the Nation, and the World; and to develop citizens who will learn from the past, think critically about the present, and provide leadership to enrich the future in a diverse, global society.

**Yes □/No □ CORE THEME ONE: LEARNING AND DISCOVERY** - Idaho State University promotes an environment that supports learning and discovery through the many synergies that can exist among teaching, learning, and scholarly activity.
CORE THEME TWO: ACCESS AND OPPORTUNITY - Idaho State University provides opportunities for students with a broad range of educational preparation and backgrounds to enter the university and climb the curricular ladder so that they may reach their intellectual potential and achieve their goals and objectives.

CORE THEME THREE: LEADERSHIP IN THE HEALTH SCIENCES - Idaho State University values its established statewide leadership in the health sciences with primary emphasis in the health professions. We offer a broad spectrum of undergraduate, graduate, and postgraduate training. We deliver health-related services and patient care throughout the State in our clinics and postgraduate residency training sites. We are committed to meeting the health professions workforce needs in Idaho. We support professional development, continuing education, and TeleHealth services. We are active in Health Sciences research.

CORE THEME FOUR: COMMUNITY ENGAGEMENT AND IMPACT - Idaho State University, including its outreach campuses and centers, is an integral component of the local communities, the State and the intermountain region. It benefits the economic health, business development, environment, and culture in the communities it serves.

**Impact & History**

#13 – Impact & History (row) & ISU Viability Indicator (column)

- Scholarship/Research [AI]
- Alumni Support
- Program’s Distinction [PV]

Impact & History definition – Consider why the program was established and what were the institution’s original expectations? Has the program adapted to meet changing demands: locally, regionally, and nationally.
since its inception? Is the program still able to produce well rounded students according to today’s job market and expectations? (Dickeson, 2010-p.71-72) and (Dickeson, 2010-p.84-85)

#14 – Impact & History (row) & Opportunity Analysis (column)

**Opportunity Analysis definition** – This criterion seeks to capitalize on areas that the university may not have considered previously. It seeks to enable faculty and staff to actualize a fundamental reality: what was done in the past was appropriate for the past, but the world today is different, and we must commit ourselves to preparing our graduates for their future. Potential areas and ideas may have a great impact on the university’s future. For example: what about cooperative or collaborative relationships with other departments? With other institutions? What external environmental factors affect the institution in such ways that opportunities are created? (Dickeson, 2010-p.86-87)

#15 – Impact & History (row) & Size, Scope, Productivity (column)

**Size, Scope, Productivity definition** – This criterion looks at real qualitative numbers. For example: What is the number of faculty, staff, and students required to be a designated department? Does information analysis suggest opportunities for consolidation or restructuring? (Dickeson, 2010-p.80-81)

#16 – Impact & History (row) & Core Themes (column)

**Impact & History: Core Themes (Popup window)**

1. Check which of the ISU Mission Statement and Core Themes 1-4 apply.
2. Enter narrative text which defines the key linkages between the program and the university's mission and core themes that you checked.
1. Fill in Yes/No box (using Text Highlight Color) to answer which of the ISU Mission Statement and Core Themes 1-4 apply.

2. Then enter narrative text (in the box below) which defines the key linkages between the program and the University’s mission and Core Themes.

Yes □/No □  **ISU Mission Statement:** The mission of Idaho State University is to advance scholarly and creative endeavors through the creation of new knowledge, cutting-edge research, innovative artistic pursuits and high-quality academic instruction; to use these qualities to enhance technical, undergraduate, graduate, and professional education, health care, and other services provided to the people of Idaho, the Nation, and the World; and to develop citizens who will learn from the past, think critically about the present, and provide leadership to enrich the future in a diverse, global society.

Academic Programs
Key Outcomes and Recommendations
&
Key Outcomes Action Plan
Academic Affairs Key Outcomes and Recommendations

Program Prioritization Recommendations for Academic Programs

PRELIMINARY RECOMMENDATIONS
PRESENTED TO THE COUNCIL OF DEANS ON APRIL 8, 2014

LEGEND:

**Yellow Highlighting**: Approvals obtained or none needed; incorporated into current budget cycle for implementation during FY 2015. Catalog Year 2014-2015.

**Phase I**: Approvals needed, but may be in process. Approvals will be sought during FY 2015 for implementation for Catalog Year 2015-2016.

**Phase II**: Approvals needed, often by multiple agencies (including SBOE and NWCCU). Approvals will be sought during FY 2015 or FY 2016 for implementation for Catalog Year 2016-2017.

**Phase III**: Approvals needed, often by multiple agencies (including SBOE and NWCCU). If approved, Academic Affairs will seek implementation during FY 2016 for inclusion in the 2017-2018 Catalog Year.

Academic Affairs makes the following general recommendations:

Increase recruiting in every college. Develop recruiting plan for each college. Utilize workload to engage faculty in recruiting. **Phase I**

Audit of reduced tuition employee students (five dollar credit hour) in graduate programs. **Phase I**

Treat the General Education Program as an Academic Affairs program for the purposes of data collection, analysis, and strategic planning. **Phase I**
Continue to reform Remedial Education in conjunction with the State Board of Education’s 60% Goal. Scale up Remedial Pilot Project by Fall 2015. **Currently in Progress; PHASE I.**

Create centralized budget for all non-specialized accreditation activities; audit/analyze budgets and spending for specialized accreditation. **PHASE I**

Centralize the purchasing of specialized software packages within Academic Affairs. **PHASE I**

In anticipation of expansion for Twin Falls, AA recommends that a single UBO for all outreach centers be assigned that would work with one financial tech for Meridian, one for Idaho Falls, and one for Twin Falls. It is the intent that all hiring in the Colleges and outreach centers be supportive and in alignment with the Five-Year Plan. **PHASE III**

**Division of Health Sciences:** Academic Affairs has eleven specific recommendations that include: two program improvement plans; one elimination; four restructures; two consolidations; and two expansions.

1) Support the DHS recommendation that the School of Nursing evaluate the curriculum in its baccalaureate degree program, including the baccalaureate completion portion of their curriculum to make the program more financially competitive with other available programs in the state. The investment and the expansion of this program to Twin Falls and Idaho Falls could generate revenue for the institution. **RESTRUCTURE**
   a. **PHASE I; FY 2016; Catalog Year 2015-2016; Curriculum Redesign Required; Internal Approvals.**

2) Support DHS recommendation that a full redesign of the basic natural and physical sciences associated with the health professional programs occur. **RESTRUCTURE**
   MULTIPLE PROGRAMS IMPACTED IN COLLEGE OF SCIENCE AND ENGINEERING.
   a. **PHASE II; FY 2017; Catalog Year 2016-2017; Curriculum Redesign Required; Internal Approvals; May require SBOE and NWCCU approvals.**

3) Support DHS recommendation that the Health Education and Public Health programs combine into a single department with a single chair to improve the efficiency of the administration of the programs and assure that curricular overlap across the two programs is minimized. **CONSOLIDATION**
   a. **PHASE I; FY 2016; Catalog Year 2015-2016; Notification of the SBOE required.**

4) Support DHS recommendation that Fire Services Administration and Emergency Management move from College of Technology to DHS with the Paramedic Science to be incorporated into an Emergency Services Department. AA further recommends the
programs be monitored for enrollment numbers as the changes take place, and to explore a self-support model for long-term sustainability. **CONSOLIDATION**

a. **PHASE I; FY 2015; Catalog Year 2015-2016; Notification of the SBOE required; IN PROCESS.**

b. **COST REDUCTION:** DHS is calculating possible savings in administration costs.

5) Support DHS recommendation that the Dental Hygiene Program move forward with plans to locate in Meridian. Rather than splitting the program of 30 into two 15 cohorts, AA recommends a study for the expansion of a full cohort to Meridian (or, the move of a cohort to Twin Falls). This move will increase ISU’s presence in the Treasure Valley and improve our applicant rate. AA further recommends DHS identify ways to generate more revenue to increase faculty, and that DHS explore a self-support model for long-term sustainability. **EXPANSION**

a. **PHASE II; FY 2017; Catalog Year 2016-2017; Approvals from Specialized Accréditor, SBOE, NWCCU.**

b. Evaluate possible self-support model to manage faculty support needed for expansion.

6) AA recommends DHS develop a Program Improvement Plan for the Bachelor of Science in Educational Interpreting. AA supports the DSH plan to develop a medical interpreting component to the program. **RESTRUCTURE/PROGRAM IMPROVEMENT PLAN**

a. **PHASE I; FY 2015; Catalog Year 2015-2016; Internal Approvals; SBOE notification may be required for curricular change.**

7) AA supports DHS recommendation that the BS in Educational Interpreting move to the Meridian campus. **RESTRUCTURE**

a. **PHASE I; FY 2015; Catalog Year 2015-2016; Specialized Accréditor, SBOE, NWCCU approvals/notification required.**

8) AA recommends additional study and possible closure of the Associate degree in Sign Language Studies. **PROGRAM IMPROVEMENT PLAN/ELIMINATION**

a. **PHASE I; FY 2015 (PROGRAM IMPROVEMENT PLAN); Catalog Year 2015-2016; SBOE, NWCCU approvals and teach-out plan approvals required.**

9) Support DHS recommendation that Medical Laboratory Science Program be expanded to the Idaho Falls/Rexburg area. **EXPANSION**

a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE, NWCCU notification required.**

**Arts and Letters:** Academic Affairs has eleven specific recommendations and one overall recommendation to the College that include: ten eliminations, one program improvement plan,
and a review to be conducted of all minors with low-enrollment (e.g., Latino Studies, Folklore) and a program improvement plan developed for each (or elimination/consolidation of the minors).

1) Support A&L recommendation to discontinue the Bachelor of University Studies. This will produce savings in advising and faculty time. **ELIMINATION**
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**

2) Support A&L recommendation to discontinue the Bachelor of Art in French. This will produce savings that can be reallocated to higher demand languages. **ELIMINATION**
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**

3) Support A&L recommendation to discontinue the Bachelor of Art in German. This will produce savings that can be reallocated to higher demand languages. **ELIMINATION**
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**

4) Support A&L recommendation to discontinue the Interdisciplinary MA degree offerings in the Humanities and Social Science fields. **AT LEAST THREE ELIMINATIONS**
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; approvals under investigation.**

5) AA recommends A&L develop a Program Improvement Plan for the School of Performing Arts. This plan should specifically address low retention and graduation rates as well as focus on increased donor activity and potential prospects. **SCHOOL IMPROVEMENT PLAN**
   a. **PHASE I; FY 2015.**

6) AA recommends that A&L consolidate and/or eliminate the Bachelor of Arts or the Bachelor of Science in Political Science rather than maintain both a BA and BS, since the curriculum is identical. **ELIMINATION**
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**

7) AA recommends that A&L consolidate and/or eliminate the Bachelor of Arts or the Bachelor of Science in Theatre rather than maintain both a BA and BS, since the curriculum is identical. **ELIMINATION**
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE and NWCCU approvals required; SBOE and NWCCU teach-out plan approvals required.**
8) AA recommends consolidation and elimination of either the Master of Arts in Anthropology or the Master of Science in Anthropology. This will result in a cost savings in faculty committee time. **ELIMINATION**
   a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; NWCCU notification required; SBOE and NWCCU teach-out plan approvals required.**

9) AA recommends elimination of the Communication and Rhetorical Studies undergraduate degree program as part of the ongoing plan to create the Communication, Media & Persuasion consolidated undergraduate degree within the newly consolidated department. **ELIMINATION**
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE and NWCCU approvals required; SBOE and NWCCU teach-out plan approvals required.**

10) AA recommends the review and program improvement plans for all low-enrolled minors in the College of Arts and Letters (Folklore, Latino Studies). College will evaluate options including curricular consolidation and/or elimination. **PROGRAM IMPROVEMENT/ELIMINATION/CONSOLIDATION**
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE notification required.**

**Science & Engineering:** Academic Affairs has twelve specific recommendations to the College that include: five eliminations, two consolidations, three restructures and two expansions.

1) AA recommends the CoSE develop a common academic core for first two years of engineering and eliminate the course codes for mechanical, electrical, civil, and nuclear and replace them with ENGR. This would result in cost efficiencies, and greater transparency and transferability for students. **RESTRUCTURE**
   a. **PHASE II; FY 2016; Catalog Year 2016-2017; Internal approvals required; Specialized Accrreditior approvals may be required.**

2) AA supports CoSE recommendation to create a B.S. degree in Applied Electrical Engineering, which will be a joint program between the Electrical Engineering Department and the College of Technology. This will provide graduates greater opportunity and increase the economic impact in the region. **EXPANSION**
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval required.**

3) AA recommends that CoSE evaluate and revise the curriculum of the Engineering and Applied Science doctoral program to better meet the needs of students and the market. Program will be offered in full in Idaho Falls. **RESTRUCTURE/EXPANSION**
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; Internal approvals required.**

4) AA supports the CoSE recommendation that a biomedical core transfer to the Meridian campus. This restructure will strengthen and support the Anatomy and Physiology Lab...
and expansion of health profession programs in the Treasure Valley. AA further recommends that for all future biology hires that biomedical become the top priority, followed by microbiology. **RESTRUCTURE**

a. **PHASE I; FY 2015; Internal approvals required.**

5) AA recommends that the Master of Natural Science in Biology be eliminated and consolidated into a single Master of Natural Science degree that will include curricular alignment. AA further recommends the development of a recruitment plan. This will reduce costs through a single faculty advisor. **ELIMINATION**

a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**

6) AA recommends that the Master of Natural Science in Physics be eliminated and consolidated into a single Master of Natural Science degree that will include curricular alignment. AA further recommends the development of a recruitment plan. This will reduce costs through a single faculty advisor. **ELIMINATION**

a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**

7) AA recommends that the Master of Natural Science in Geology be eliminated and consolidated into a single Master of Natural Science degree that will include curricular alignment. AA further recommends the development of a recruitment plan. This will reduce costs through a single faculty advisor. **ELIMINATION**

a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**

8) AA recommends that the Master of Natural Science in Chemistry be eliminated and consolidated into a single Master of Natural Science degree that will include curricular alignment. AA further recommends the development of a recruitment plan. This will reduce costs through a single faculty advisor. **ELIMINATION**

a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; SBOE and NWCCU teach-out plan approvals required.**

9) AA recommends that CoSE create a consolidated, interdisciplinary Master of Natural Science for use for all CoSE disciplines. Students from eliminated programs may be transitioned to the new program. **CONSOLIDATION**

a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required.**

10) AA recommends that CoSE create a consolidated, interdisciplinary Associate of Science degree for use for all CoSE science disciplines, and eliminate the other A.S. degrees in the College. **CONSOLIDATION**

a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required.**
11) AA recommends that CoSE eliminate the A.S. degree in Geology, and create an interdisciplinary A.S. degree in Science. **ELIMINATION**
   a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required.**

**College of Education:** Academic Affairs has one general recommendation to the College to evaluate its thirty-six Secondary Education degrees, and seven specific recommendations that include two eliminations, three restructures and the creation of two new programs.

1) AA recommends that the College analyze the curriculum and structure of its thirty-six Secondary Education degrees. Efficiencies for Departments, Colleges, and students may result from consolidation or restructuring of these degree options, and through the reexamination of their location in the curriculum. AA recommends that this analysis be conducted in conjunction with the Content Areas, and within the context of national data regarding content, state endorsement requirements, and accreditation requirements. **UP TO 36 CONSOLIDATIONS/RESTRUCTURES/ELIMINATIONS**
   a. **PHASE III; FY 2016; Catalog Year 2016-2017 OR 2017-2018; SBOE, NWCCU approvals required; additional approvals may be required (including the Idaho State Department of Education).**

2) AA recommends that the College enhance its web site and other marketing venues to highlight Alternate Route and Accelerated Program options leading to teacher education certification, and clearly define and catalog the route to certification for current bachelor degree holders, or bachelor-seeking students who are not enrolled in the College of Education. Create an additional curriculum or course structure if needed to support students with existing bachelor degree.
   a. **PHASE I; FY 2015; Internal Approvals May be Required; SBOE and State Department of Education approvals may be needed.**

3) AA recommends the development of a Master of Art in Teaching (MAT) that would meet the needs of the Magic Valley and Wood River Valley markets. **NEW PROGRAM**
   a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; additional approvals may be required.**

4) AA recommends the creation of an on-line secondary education teacher certification program. **RESTRUCTURE, NEW PROGRAM**
   a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required; additional approvals may be required.**

5) AA supports CoE recommendation to eliminate the Master of Education with Child and Family Studies Emphasis. **ELIMINATION**
   a. **PHASE II; FY 2016; Catalog Year 2016-2017; SBOE approval required.**
6) AA recommends that CoE eliminate either the BA or the BS degree in General Family and Consumer Sciences. **ELIMINATION**  
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval required; other approvals may also be required.**

7) AA recommends that CoE restructure and renew the Intermountain Center for Educational Effectiveness and include all regional consultants with collaborative research, outreach and development opportunities for faculty. **RESTRUCTURE**  
   a. **PHASE I; FY 2015; in progress. Salary savings reallocated to other programs within the College of Education.**

8) AA accepts the CoE recommendation to restructure and revitalize the Instructional Design PhD Program to include interdisciplinary concentration areas. This restructure supports recommendations made by external reviewers. **RESTRUCTURE**  
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE letter required; cost savings possible.**

**College of Business:** Academic Affairs has six specific recommendations to the College that include: two restructures, two eliminations, one expansion and the creation of one new program.

1) AA recommends that the transfer of the Economics program from the College of A&L to the CoB be completed, that curriculum streamlining be continued, and that CoB develop an enrollment and degree completion improvement plan for Economics. **RESTRUCTURE**  
   a. **PHASE I; FY 2015; Catalog Year 2014-2015; SBOE approval obtained; in process.**

2) AA recommends CoB pursue the creation of additional business health care programs, including emphases areas and the Healthcare Informatics master’s degree. AA further recommends that this unique program be offered in the Magic Valley. **NEW PROGRAM/EXPANSION**  
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval needed; other approvals may be needed.**

3) AA supports the College of Business recommendation to merge the Department of Management and the Department of Marketing into a single administrative unit, The Department of Management and Marketing. There are only 3.5 FTE in the Department of Marketing and it is not cost effective for the CoB to support a course release and a stipend for a Chair to oversee the remaining 2.5 FTE. **RESTRUCTURE**  
   a. **PHASE I; FY 2015; cost savings include the course release and chair stipend.**
4) AA supports the CoB recommendation to eliminate the Double Major in Management and Marketing. This elimination has been proposed and accepted by the CoB's Undergraduate Curriculum Committee as well as the University's Undergraduate Curriculum Council. The introduction of the "Flexible BBA" has negated the necessity for the dual major. **ELIMINATION**
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE notification required.**

5) AA supports the CoB recommendation that the Native American Business Administration emphasis be reconsidered. The College of Business no longer has a faculty member with this expertise area, and the two Management courses focusing on Native American enterprise have not been offered in some time. **ELIMINATION**
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE notification required.**

**College of Technology:** Academic Affairs has two general recommendations to the College in accordance with the Idaho State Division of Professional Technical Programs. In addition, Academic Affairs has two specific recommendations including one restructure and one elimination.

1) AA acknowledges that the CoT has eliminated more than a dozen programs in the past several years as part of their program review required by the Division of Professional Technical Education and the Idaho State Board of Education. CoT is currently adding new programs as recommended. **ELIMINATIONS/NEW PROGRAMS**
   a. **PHASE I; approvals obtained during FY 2014; in process for Catalog Year 2014-2015.**

2) AA recommends that CoT continue to consider elimination of small, under-subscribed programs in accordance with the Division of Professional Technical Education guidelines. **ELIMINATIONS**
   b. **PHASE II, FY 2016, Catalog Year 2016-2017, PTE and SBOE approvals required.**

3) AA recommends that the Geomatics Program name be changed to better reflect its focus, and that ties with Civil Engineering be strengthened in terms of both partnerships and curriculum. AA recommends that the Geomatics program in Meridian be eliminated. **RESTRUCTURE/ELIMINATION**
   c. **PHASE II, FY 2016, Catalog Year 2016-2017, SBOE approval required, SBOE and NWCCU teach-out approvals required. MOU with CWI, BSU or other partnering institution may mitigate teach-out need.**
ISU Meridian Campus: Academic Affairs has three specific recommendations to the Meridian campus that include: two eliminations, and two restructures. Further, AA will conduct a desk audit of classified staff support.

1) AA recommends elimination of all non-health related programs in Meridian, and that the B.S. Geomatics Technology and MPE in Athletic Administration (due to competition from BSU) be considered for retraction to the Pocatello campus. **TWO ELIMINATIONS**  
   a. **PHASE I; FY 2015; Catalog Year 2015-2016; SBOE approval needed; MOU with Boise State needed.**

2) AA recommends that the Meridian Campus establish additional administrative supports for all clinical health professions. **RESTRUCTURE**  
   a. **PHASE III; FY 2017; SBOE and NWCCU notifications may be needed. Space and moving needs also incurred.**

   a. **PHASE II; Internal Approvals Needed; SBOE Approvals Needed.**

ISU Idaho Falls Campus: Academic Affairs has four specific recommendations to the Idaho Falls Campus that include: two restructures, one expansion, and the creation of one new program. Line commission recommends creation of polytechnic institution in Idaho Falls (appendix item).

1) AA recommends the Idaho Falls Campus transition from primarily offering the first two years of lower division undergraduate courses to providing bachelor’s and graduate degrees in Engineering, Health Care, Business, Education, and the Liberal Arts. AA further recommends that faculty located at this campus have primary research emphasis in the areas of Engineering, Science, Energy, and Forensics. **RESTRUCTURE**  
   a. **PHASE I, PHASE II, PHASE III**

2) AA recommends the Idaho Falls Campus expand the following existing programs: **EXPANSION**  
   a. Health Care, BSN Completion **PHASE I**  
   b. Engineering, Nuclear, Mechanical, Civil, Electrical, and Computer Science in a two- phased approach. **PHASE I**—all existing Bachelor of Art undergraduate and graduate programs to the campus; and **PHASE II**—expand all relevant existing Engineering programs to Idaho Falls.  
   c. Education, Secondary Education certificate. **PHASE I, PHASE II**  
   d. Business, BBA, MBA, and MAcc. **PHASE I**
e. Liberal Arts basic undergraduate degrees with faculty research emphasis on energy related areas. **PHASE I**

3) AA recommends the Idaho Falls Campus establish Forensic Science programs complimentary with INL and their Homeland Security focus. (Revisit the idea NWRCL would be located in Idaho and ISU would be premiere institution in relationship to the crime lab.) Accomplish through joint appointments with INL and restructuring. Work with Office of Research for implementation. **NEW PROGRAMS**
   a. **PHASE III; FY 2017; Catalog Year 2016-2017; SBOE and NWCCU approvals needed. Space needed.**

12) AA recommends the Idaho Falls Campus continue to increase the number of partnership master’s degrees with BYU-I (3+2, 4+1). **RESTRUCTURE/EXPANSION**
   a. **PHASE I; FY 2015-FY 2016; MOUs in process; Catalog Years 2015-2016, 2016-2017; SBOE approvals needed for MOUs and Programs; other approvals may be needed.**

**ISU Twin Falls Campus:** Academic Affairs recommends significantly expanding ISU-Twin Falls programs to better meet the needs of ISU’s Magic Valley service region. Idaho State University has served the Magic Valley for fifty years. Magic Valley’s demographic profile supports this strategy, as the Magic Valley is projected to grow dramatically during the next decade. The 2010 U.S. Federal Census reported that the counties of the Magic Valley had a combined population of 185,790, or nearly 12% of Idaho’s population.

1) AA recommends that the Twin Falls Campus expand its current Twin Falls offerings (21 programs), and programs in the following areas through partnerships with CSI. **EXPANSION:**
   a. Selected Health Care Programs
   b. Education Bachelor and Graduate Degree Programs
   c. Healthcare Administration and Informatics
   d. Liberal Arts and Sciences, basic upper-division undergraduate
      i. **PHASE II; FY 2016; Catalog Year 2016-2017; some additional approvals may be needed.**

2) AA recommends that the Twin Falls Campus develop space (a new building) and increase staffing in support of academic programs. **EXPANSION**
   a. **PHASE II; FY 2015-FY 2016; Catalog Year 2016-2017.**

3) AA recommends that the Twin Falls Campus explore expansion of Education and other programs to the CSI/Blaine County Campus in the Wood River Valley, as determined by current study/pilot. **EXPANSION**
a. **PHASE I; FY 2015; currently in process.**

The Recommendations from Academic Affairs have been entered into the Key Recommendations and Action Plan spreadsheet. All further changes/updates to Program Prioritization will be reflected in that document.

Idaho State University Strategic Plan
Idaho State University Strategic Plan

Mapping Our Future:
Leading in Opportunity and Innovation

2015-2019
Idaho State University
Strategic Plan
2015-2019

Vision: Leading in Opportunity and Innovation

Mission

The mission of Idaho State University is to advance scholarly and creative endeavor through the creation of new knowledge, cutting-edge research, innovative artistic pursuits and high-quality academic instruction; to use these achievements to enhance technical, undergraduate, graduate, and professional education, health care services, and other services provided to the people of Idaho and the nation; and to develop citizens who will learn from the past, think critically about the present, and provide leadership to enrich the future in a diverse, global society.

Idaho State University is a public research institution which serves a diverse population through its broad educational programming and basic, translational, and clinical research. Idaho State University serves and engages its communities with health care clinics and services, professional technical training, early college opportunities, and economic development activities. The University provides leadership in the health professions and related biomedical and pharmaceutical sciences, as well as serving the region and the nation through its environmental science and energy programs.

STRATEGIC PLAN GOALS AND OBJECTIVES

Goal 1: LEARNING AND DISCOVERY – Idaho State University promotes an environment that supports learning and discovery through the many synergies that exist among teaching, learning, research and scholarly activities.

Objective 1.1 ISU provides a rich learning environment, in and out of the classroom.

Performance Measures
1.1.1 Number of online course sections offered.
1.1.2 Number of students participating in Career Path Internships.
1.1.3 Number of high school students participating in ISU dual credit courses.

Benchmarks:
1.1.1 900 course sections
1.1.2 600 CPI students
1.1.3 1,800 dual credit students

Objective 1.2 ISU provides a dynamic curriculum to ensure programs are current, relevant, and meet student and workforce needs.
Performance Measure:
1.2.1 Number of certificate and degree programs begun/expanded/revised; and number of certificate and degree programs discontinued.

Benchmark:
1.2.1 Number of new programs approximately equal to number of programs discontinued.

Objective 1.3 Undergraduate and graduate students participate in undergraduate teaching.

Performance Measures
1.3.1 Number of graduate assistantships and fellowships with teaching responsibilities.
1.3.2 Number of students employed as English, math, and content area tutors.

Benchmarks:
1.3.1 Increase graduate teaching assistants by 10 over the next 3 years.
1.3.2 Maintain adequate numbers of tutors to meet student need.

Objective 1.4 Undergraduate and graduate students engage in research and creative/scholarly activity.

Performance Measures
1.4.1 Number of students employed to work with a faculty member on research/creativity activities.
1.4.2 Number of students who participate each year in ISU’s research symposia.

Benchmarks:
1.4.1 Increase by 3% per year for next five years.
1.4.2 Increase to 250 students per year.

Objective 1.5 The core faculty is actively engaged in research and creative/scholarly activity.

Performance Measures
1.5.1 Faculty scholarly productivity, as demonstrated by the number of publications, juried shows, exhibits, performances, and other scholarly activities.
1.5.2 Number of proposals submitted for external funding, number funded, and total amount of funding received.

Benchmarks:
1.5.1 This is a new performance measure; data will be obtained from Activity Insight, to be implemented fall 2013 (this is an electronic curriculum vitae and workload program).
1.5.2 Increase the number of proposals submitted, number funded and total amount of funding by 3% per year for next 5 years.

Objective 1.6 Graduates of ISU’s programs are well prepared to enter the workforce and/or continue their education at the graduate and professional levels.

Performance Measures
1.6.1 Pass rates on professional licensure and certification exams.
1.6.2 Placement rates of graduates from academic, professional, and professional-technical programs.

Benchmarks:
1.6.1 Maintain pass rates at or above the national averages for each program where national data are available.
1.6.2 Maintain placement rates at or above the national averages for each program where national data are available.
Goal 2: ACCESS AND OPPORTUNITY – Idaho State University provides diverse opportunities for students with a broad range of educational preparation and backgrounds to enter the University and climb the curricular ladder so that they may reach their intellectual potential and achieve their educational goals.

Objective 2.1 Support services provided to enhance retention are utilized by students.

Performance Measures

2.1.1 Number of face-to-face advising contacts provided to undergraduate students by the central academic advising office.
2.1.2 Number of full-time freshmen students who participate in First Year Seminar and ACAD courses.
2.1.3 Average amount of need-based and merit-based financial aid/scholarships awarded to students.
2.1.4 Number of hours the content area tutoring, math and writing centers are utilized.

Benchmarks:

2.1.1 Maintain sufficient access to Central Academic Advising.
2.1.2 Increase to 50% over the next 3 years.
2.1.3 To be determined (based on changes in federal and state financial aid/scholarship programs).
2.1.4 To be determined (based on SBOE changes to the remedial education delivery models).

Objective 2.2 Students’ progression from initial enrollment to graduation is monitored, and efforts to increase enrollment, retention and completion are in place (e.g., targeted recruitment, optimal scheduling of courses, early warning system to help students in need, etc.).

Performance Measures (red text indicates 2013-2014 SBOE-required measures for all institutions)

2.2.1 Average time to degree completion by college for full-time and part-time students.
2.2.2 Retention rates from freshman to sophomore and sophomore to junior years, for full-time and part-time students.
2.2.3 Cost per weighted credit hour to deliver undergraduate education.
2.2.4 Completion of undergraduate certificates (1 year or greater) and degrees per $100,000 of education and related spending (i.e., full cost of instruction and student services, plus the portion of institutional support and maintenance assigned to instruction).
2.2.5 Total degree production (split by undergraduate/graduate).
2.2.6 Unduplicated headcount of graduates and percent of graduates to total unduplicated headcount (split by undergraduate/graduate).
2.2.7 Total full-time new and transfer students that are retained or graduate the following year (excluding death, military service, and mission).

Benchmarks:

2.2.1 Positively impact time to degree by 5% over next 3 years.
2.2.2 Positively impact retention rates by 5% over next 3 years.
2.2.3 Positively impact by 5% over next 3 years.
2.2.4 Positively impact this ratio by 5% over next 3 years.
2.2.5 Increase undergraduate and graduate awards by 5% over the next 3 years.
2.2.6 Positively impact this ratio by 5% over next 3 years.
2.2.7 Increase retention rate to 75% over the next 3 years.

Objective 2.3 Students who require remedial coursework are successful in completing their
Objective 2.3 Certificate or degree programs.

Performance Measures

2.3.1 Percent of students who successfully complete required remedial courses.

2.3.2 Retention rates (fall to fall) of students who complete remedial courses.

Benchmarks:

2.3.1 To be determined based on changes to be made by the SBOE on remediation delivery models.

2.3.2 Increase retention rate to 70% over the next 3 years.

Objective 2.4 Students who enter with college credits earned while in high school (dual credit) are successful in completing their certificate or degree programs.

Performance Measures

2.4.1 Total number of students enrolled in ISU’s Early College program, and total number of credits earned.

Benchmark:

2.4.1 Increase total number of students (unduplicated headcount) to 1,800, and increase total student credit hours generated to 10,800 over the next 3 years.

Objective 2.5 Students participate in community and service learning projects and activities, student organizations, and learning communities.

Performance Measures

2.5.1 Number of student organizations, and annual number of students participating in those organizations.

Benchmarks:

2.5.1 Increase number of students participating in student organizations to 4,500 over next 3 years.

Goal 3 THREE: LEADERSHIP IN THE HEALTH SCIENCES – Idaho State University values its established leadership in the health sciences with primary emphasis in the health professions. We offer a broad spectrum of undergraduate, graduate, and postgraduate training. We deliver health-related services and patient care throughout the State in our clinics and postgraduate residency training sites. We are committed to meeting the health professions workforce needs in Idaho. We support professional development, continuing education, and TeleHealth services. We are active in Health Sciences research.

Objective 3.1 A broad array of health professions certificate and degree programs are offered, many statewide.

Performance Measures

3.1.1 Number of certificate and degree programs offered, and number of students enrolled, in ISU’s health professions programs.

3.1.2 Percent of graduates of ISU health professions programs who obtain employment in Idaho.

3.1.3 Pass rates on clinical licensure and certification exams in the health professions.

Benchmarks:

3.1.1 Maintain number of health professions programs offered, and maintain enrollments at or near program capacity.
3.1.2 To be determined (Data to be obtained in the future from the State Longitudinal Data System (SLDS).

3.1.3 Maintain pass rates at or above the national averages, where national data is available.

**Objective 3.2** ISU serves the State, the public, and its health professions students through its clinics and other community health venues.

**Performance Measures**
3.2.1 Number of patient visits to ISU clinics and clinical services.
3.2.2 Number of people served by ISU’s community health fairs and screening events.

**Benchmarks:**
3.2.1 Number of patient visits will increase by 5% over the next 3 years.
3.2.2 Number of people attending these events will increase by 5% over the next 3 years.

**Objective 3.3** ISU faculty and students engage in basic, translational, and clinical research in the health sciences.

**Performance Measures**
3.3.1 Number of faculty engaged in research in the health and biomedical sciences.
3.3.2 Amount of external funding received for health-related and biomedical research.
3.3.3 Number of students participating in clinical research/scholarly activity as part of their degree program.

**Benchmarks:**
3.3.1 Increase to 40 faculty over the next 3 years.
3.3.2 Funding will increase by 3% per year over the next 3 years.
3.3.3 Increase to 750 students over the next 3 years.

**Goal 4: COMMUNITY ENGAGEMENT AND IMPACT** — Idaho State University, including its outreach campuses and centers, is an integral component of the local communities, the State and the intermountain region, and benefits the economic health, business development, environment, and arts and culture in the communities it serves.

**Objective 4.1** ISU directly contributes to the economic well-being of the State, region, and communities it serves.

**Performance Measure:**
4.1.1 Total economic impact of the University.

**Benchmark:**
4.1.1 Total economic impact will increase by 5% over the next 5 years.

**Objective 4.2** Campus resource conservation efforts have been initiated; and students and faculty conduct research in the areas of environment and in energy to benefit the State.

**Performance Measure:**
4.2.1 Resource conservation efforts initiated.

**Benchmark:**
4.2.1 ISU’s efforts to conserve campus resources will continue to be developed.
Objective 4.3  ISU participates in formal and informal partnerships with other entities and stakeholders.

Performance Measure:
4.3.1  Number of active ISU partnerships, collaborative agreements, and contracts with public agencies and private entities.

Benchmark:
4.3.1  Number of partnerships, collaborative agreements, and contracts will increase by 5% over the next 5 years.

Goal 5: STEWARDSHIP OF INSTITUTIONAL RESOURCES – The University has policies and procedures in place to ensure the effective and efficient use of its internal resources to address its infrastructure requirements and to meet the needs of its various constituent groups.

Objective 5.1  The institutional reserves meet the Board’s expectations based on best practices.

Performance Measures:
5.1.1  Level of Institutional reserves as a percent of total operating budget.

Benchmark:
5.1.1  The institution maintains or exceeds reserves of 5% of total budget.

Objective 5.2  The institution continually assesses and periodically reviews its utilization of resources.

Performance Measure:
5.2.1  Number of academic, co-curricular, and non-academic program/unit reviews completed each year.

Benchmark:
5.2.1  All academic, co-curricular, and non-academic programs/units will be reviewed at least once every five years.
Key External Factors
(BEYOND DIRECT CONTROL OF IDAHO STATE UNIVERSITY)

Funding

Many Idaho State University strategic goals and objectives assume on-going and sometimes substantive additional levels of State legislative appropriations. Availability of state revenues, upon which appropriation levels depend, can be uncertain from year to year. Similarly, while gubernatorial and legislative support for ISU efforts are significant, priorities set by those bodies vary from year to year, affecting planning for institutional initiatives and priorities. When we experience several successive years of deep reductions in state appropriated funding, as has occurred in the recent past, it makes it increasingly difficult to plan for and implement strategic growth.

Legislation/Rules

Beyond funding considerations, many institutional and SBOE policies are embedded in state statute and are not under institutional control. Changes to statute desired by the institution are accomplished according to state guidelines. Proposed legislation, including both one-time and ongoing requests for appropriated funding, must be supported by the Governor, gain approval in the germane legislative committees, and pass both houses of the Legislature.

The recent directives related to creation of the Student Longitudinal Data System, revision of general education and remedial education, common core standards, Smarter Balance Assessment, Complete College America/Idaho, the 60% Goal, zero-based budgeting, performance-based funding, and the additional financial and institutional research reporting requirements have required the reallocation of staff resources and time and effort to comply.

Institutional and Specialized Accreditation Standards

The Northwest Commission on Colleges and Universities (NWCCU), our regional accreditation body, recently initiated a new 7-year review cycle and a set of new standards. Similarly, the specialized accrediting bodies for our professional programs periodically make changes to their accreditation standards and requirements, which we must address.

ISU has the largest number of degree programs with specialized accreditation among the state institutions, which significantly increases the workload in these programs due to the requirements for data collection and preparation of periodic reports. The programs in the health professions are reliant on the availability of clerkship sites in the public and private hospitals, clinics, and medical offices within the state and region. The potential for growth in these programs is dependent on maintaining the student to faculty ratios mandated by the specialized accrediting bodies, as well as the availability of a sufficient number of appropriate clerkship sites for our students.
Federal Government

A great deal of educational and extramural research funding for ISU and the SBOE is provided by the federal government. Funding is often tied to specific federal programs and objectives, and therefore can greatly influence both education policy and extramurally-funded research agendas at the state and the institutional levels. The recent decrease in funding for Pell Grants has had a negative impact on need-based financial aid for our students. The impact of the sequestration-mandated federal budget reductions initiated in early 2013 will likely have a negative impact on higher education.

Local/Regional/National/Global Economic Outlook

Conventional wisdom has long tied cyclic economic trends to corresponding trends in higher education enrollments. While some recent factors have caused this long relationship to be shaken in terms of funding students have available for higher education, in general the perceived and actual economic outlooks experienced by students continues to affect both recruitment into our colleges and universities as well as degree progress and completion rates. A greater proportion of our students must work and therefore are less able to complete their education in a timely manner.

Principles of Program Prioritization

Program Prioritization is a model in which the institution engages in efforts to rank and prioritize its programs in order to reallocate resources from lower priority programs to higher priority ones. The goal of the Program Prioritization initiative was to manage and allocate our financial resources in ways that will best meet the needs of our students and community. The Program Prioritization model is based upon Dr. Robert Dickeson’s book, *Prioritizing Academic Programs and Services: Reallocating Resources to Achieve Strategic Balance*. Dickeson is a national leader in higher education and has served in administrative posts at three universities and was the past president of the University of Northern Colorado.

The Idaho State Board of Education, with input from several institution presidents and provosts, agreed to a framework for initiating Program Prioritization on each of the Idaho university campuses. The institutions were asked to develop the following:

- Proposed outcomes (i.e. an overall goal of what they hoped to achieve from the program prioritization process).

- Targets for each outcome (e.g. a specific reallocation of resources in support of the outcome).

- In addition, institutions were to develop proposed weighted criteria to be used to evaluate programs.

- Institutions were directed to group programs into quintiles such that those in the top 20% may be eligible for reallocated funds while those in the bottom 20% will require further review, assessment, and an action plan to determine what options will be taken.

How ISU Program Prioritization Has Achieved the Essence of Zero-Base Budgeting

The State of Idaho’s Division of Financial Management defines Zero-Base Budgeting (ZBB) as “a budgeting process wherein base budget cost centers are 1) identified, 2) justified, and then 3) prioritized and 4) aligned for the most efficient and effective fulfillment of an agency’s strategic plan and statutory mission” ([http://dfm.idaho.gov/st_agency_guide/zbb/ZBB_Presentation7-12.pdf](http://dfm.idaho.gov/st_agency_guide/zbb/ZBB_Presentation7-12.pdf)). ISU has addressed each of the 4 major goals of the Governor’s ZBB initiative through the process of Program Prioritization as outlined in the steps below.

1) Identification of Programs

All departments and units have identified programs (i.e. referred to as “decision units” in ZBB) for review. A program is defined by Dickeson as any activity or collection of activities that consumes resources (dollars, people, time, space, and equipment).
2) Justification of Program Existence

All departments and units have answered a collection of surveys and questionnaires for each of their programs addressing key factors and criteria weighted according to their relative importance to the University’s mission, core themes, and the existence of any federal or state mandates. Fiscal discipline and operational efficiency were emphasized throughout the process. Any programs that were not considered essential to the University’s mission were placed in lower quintiles and in some cases, action steps were required that might include program mergers, consolidations, or eliminations.

3) Prioritization of Programs

All non-academic departments and units have scored, ranked, and quintiled their programs based upon a methodology designed specifically for non-academic programs.

4) Alignment For the Most Efficient and Effective Fulfillment of ISU’s Strategic Plan and Statutory Mission

All departments and units have created action plans for all programs in quintile five including quantified savings. On March 14, 2014, Program Prioritization results were presented by each respective vice president to the President. The presentations summarized which programs were identified in quintile five, the action plans for each of these programs, and the identified savings for each vice presidential unit. On April 1 and 2, 2014, the Special Budget Consultation Committee (SBCC) budget hearings were held where each vice president presented his/her fiscal year 2015 proposed budget including the results and savings identified from Program Prioritization. This process will enable ISU to reallocate its resources from lower-performing programs into higher-performing programs that are essential to the University’s mission and strategic plan. This is consistent with the goals of ZBB.

Institution’s Program Prioritization Goals and Outcomes

ISU has established two key objectives that the University is funding as a result of Program Prioritization:

1) An ongoing university-wide compensation plan for faculty and staff at an average preferred target level of 1.5% per year in annual ongoing compensation increases, or a minimum target level of 1.5% per year, in annual one-time special merit compensation payments.

2) Ongoing student programs for maximizing student success in terms of access, opportunity, and retention, with a focus on additional scholarship funding for this purpose.
Additionally, the University intends to align its programs to support its mission, vision, core themes, strategic plan, and mandates, discover process improvements, and achieve operational efficiencies as the result of Program Prioritization.

**Identification of Programs**

According to Dickeson, a program is defined as any activity or collection of activities that consumes resources (dollars, people, time, space, or equipment). Non-academic program directors identified each budget in his or her reporting area and the services, programs, and activities that make up each budget. In some cases, these activities themselves may be subdivided further into additional programs. However, in order to not produce more programs than can be reasonably evaluated in our first pass of this new program prioritization process, areas were encouraged to keep programs broadly defined.

Then, the program directors of each of the functional units that comprise each non-academic vice presidential unit identified the major and significant activities that consume resources as advised by the Methodology for Quintiling Non-Academic Programs document (included as Appendix A).

Each program director also used his/her professional judgment in determining which activities were major and significant to identify programs. The program directors’ identification and selection of programs was reviewed and approved at each level of management until receiving final approval by the appropriate vice president and, ultimately, the President.

**Measurement Criteria Used for Analyzing, Reviewing, and Ranking Programs**

For non-academic programs, in an assessment of the experiences of five other higher education institutions, we found that surveys were used to assess key non-academic Program Prioritization factors. The approach of one of these institutions, Seattle Central Community College, was specifically endorsed by Dickeson. The survey approach developed at ISU was uniquely adapted to the needs of ISU and addresses the following six major areas:

- Key Goals and Objectives
- Key Services Provided to Customers
- Key Processes
- Organization Review
- Budgeting and Planning
- Opportunities for Savings or Additional Investments
Based on the six major areas above, the following five criteria and their respective weights were developed by the University and used to analyze, review, and rank non-academic programs into quintiles:

1. Cost Effectiveness (budget vs. actual, productivity, performance) (25% weight)
2. Importance to the Institution (mission, vision, core themes, strategic plan, mandates) (20% weight)
3. Demand (internal, external) (20% weight)
4. Quality (input, outcomes, how well delivered, research, student retention) (20% weight)
5. Opportunity (collaboration, resource sharing, savings, improvements) (15% weight)

In addition, Student Affairs used the following criteria for ranking programs:

a. Federal, state, local laws or statutes; SBOE Policy; NWCCU Mandates
b. Services that directly contribute to recruitment, admission, retention, and graduation as measured by the number of students served
c. Services that provide an essential life function or need, e.g., health, safety, shelter (Maslow’s Hierarchy), contiguous to campus and non-mobile students
d. Services that help students pay for their education
e. Services that enhance co-curricular learning and engagement beyond the classroom
f. Services that eliminate barriers to enrollment
g. Services that provide educational outreach to the greater Southeastern Idaho community
h. CAS (Council on the Advancement of Standards for Higher Education) standards of best practice for student affairs (http://www.cas.edu/standards)

_Hold Harmless Predeterminations_

Regardless of the quintile score computed, if programs are required by federal or state mandates, then that program was held harmless from elimination and could not be ranked in quintile five. However, this did not preclude the program from going through the Program Prioritization analysis, review, and ranking process to attempt to identify opportunities for efficiency, effectiveness, and improving demand
and quality. None of the University’s programs conducted within the authority of the non-academic vice presidents were excluded from this process.

**Top/Bottom Quintile Common Factors That Led To A Program’s Current Placement**

All of the non-academic programs identified by ISU were assigned to one of the five quintiles. Programs were assigned a higher (or top) quintile ranking generally due to the following factors: 1) programs classified as essential to the University’s mission, 2) required by either NWCCU, federal, state, SBOE policy, or local mandates, 3) in high demand, 4) cost effective, or 5) non-financial factors (e.g. quality). For example, programs such as payroll processing, building maintenance, and IT security were considered essential to the University’s mission and in high demand, and, as a result, were ranked in the top quintile.

Programs were assigned a lower (or bottom) quintile ranking generally due to the following factors: 1) programs considered non-essential to the University’s mission, 2) not required by NWCCU, federal, state, or SBOE mandates, 3) in low demand, 4) not cost effective, or 5) responsibilities could be shifted to other programs to eliminate redundant programs, duplication of effort, or to achieve operational efficiencies. For example, the intracampus mail center was ranked in the bottom quintile as its costs exceeded its revenues and, therefore, the decision was made to merge the mail center with the Total Copy Center to achieve operational efficiencies and an immediate cost savings.

**A Narrative of the Program Prioritization Process**

For non-academic programs, the Program Prioritization process was comprised of three major steps: program analysis, program review, and program ranking. This approach was used for the Office of Finance and Administration, University Advancement, Athletics, the Office of Research and Economic Development, and Student Affairs.

1. **Program Analysis**

   Each program director answered a series of questions addressing the six major areas and five measurement criteria for non-academic programs (included as Appendix A).

2. **Program Review**

   Based on the questionnaires completed by program directors in the previous step, each program director assigned a score to each program based on whether the program exceeds, meets, or does not achieve its measurement criteria. Each of the measurement criteria was weighted according to its relative importance to achieve a total weighted program score.

3. **Program Ranking**
Each program director used the weighted score(s) from the Program Review as a guide to rank and assign each of the programs to a quintile. The program directors’ program rankings were reviewed and approved at each level of management until receiving final approval by the appropriate vice president. Results for each vice presidential unit were reported to the President in the format shown in Appendix E.

**Action Plans for Programs in Quintile Five and Integration With the Budget Process**

For each program identified in quintile five, the responsible vice presidential unit(s) created action plans including strategies to consolidate or eliminate programs and the quantified cost savings identified for each action. On March 14, 2014, Program Prioritization materials summarized by vice presidential unit were presented in written form and through oral presentations by each of the university vice presidents to the President.

On April 1 and 2, 2014, the Special Budget Consultation Committee (SBCC) budget hearings were held where each vice president presented his/her fiscal year 2015 proposed program-prioritized budget including the results and savings identified from his/her Program Prioritization review.

**Key Outcomes and Recommendations**

ISU identified 16 non-academic programs for potential program prioritization actions. If fully implemented, these actions may result in cumulative savings of over $760,000 for the University during the three fiscal years from 2015 through 2017.

**Immediate Steps Taken**

Idaho State University has successfully completed its Program Prioritization campus-wide review. Actions are already underway to implement the action plans identified by Program Prioritization for identifying and reallocating savings. University vice presidents, in consultation with their teams, are preparing plans to implement the action plans and recommendations identified by Program Prioritization in their respective areas of responsibility.

To date, Finance and Administration has identified over $360,000 of potential cost savings expected to be sustainable for the foreseeable future. The Assistant Director of Financial Aid position in Idaho Falls has been eliminated and the person in that position has retired. The Idaho Falls reporting structure has been revised in that the financial aid staff reports directly to the Director of Student Services, and professional coverage is being provided by a staff member from Pocatello once per week. In Information Technology, personnel position eliminations in three vacant ERP training positions have been completed. Electronic Repair and Services’s telecommunications responsibilities have been shifted to NeTel and Electronic Repair and Services has been merged with the Total Copy Center.
The intracampus mail service and Total Copy Center responsibilities have been merged and are now under one manager.

As a result of Program Prioritization, Student Affairs is now more closely monitoring attendance at University sponsored community events for the public to determine the need and interest for these events. Student Affairs also has established revenue-generating goals for its quintile five programs.

**Planned Future Actions**

In Finance and Administration, legacy software systems (particularly HP1) will be phased out by December 2014, which is expected to result in cumulative savings for the University during the three fiscal years from 2015 through 2017.

**Steps Co-Dependent On the Actions of Others or Contingent Upon Further Analysis and Review**

In Finance and Administration, the Campus Cable infrastructure in IT is no longer being actively supported, which should result in annual maintenance cost savings. When the equipment is no longer operational, it is not expected to be replaced. A proposal was made in March to close down the Twin Falls video classrooms and computer lab that were expected to yield savings from materials and supplies. However, that proposal was not implemented because it was determined that Twin Falls is an essential market for the University’s plans to increase student enrollment and plans are currently underway to expand our educational offerings in that location. In addition, IT may also discontinue its security awareness program, resulting in materials and supplies savings, but the decision was made to postpone this reduction at this time and will be further analyzed and reviewed.

At present, Purchasing Services and Facilities Services both employ a storekeeper. It was proposed in March to consider moving all University Stores operations to Facilities Services, resulting in savings through the reduction of one storekeeper position. This proposed action is contingent upon further analysis and review.

In March, a proposal was made to eliminate the energy and sustainability program in Facilities Services resulting in a potential materials and supplies savings. This proposed action is contingent upon further analysis and review.

The Diversity Resource Center is expected to be merged into the Gender Resource Center increasing operational efficiencies and resulting in savings in materials and supplies when the merger is fully implemented.

Student Affairs has indicated some of its quintile five programs (Bengal Newspaper, KISU-FM, the Bengal Dancers, and Summer Activities) were targeted for further analysis and review. Consultation with and
input from newly elected ASISU student leaders is necessary before identifying the next steps in the review process.

**Process Improvements Identified**

In *Finance and Administration*, the actions implemented in Financial Aid will provide a clearer reporting structure and better management oversight of the federal Quality Assurance process, consolidation of the outreach efforts to local high schools, and bring the processing of consortium agreements fully into the Pocatello office. In addition, a formal plan is being developed in Information Technology for transitioning away from computer labs.

**Lessons Learned**

At a university-wide level, Program Prioritization can help ISU to manage and allocate its financial resources in ways that will best meet the needs of our students and community. It can provide data for better program planning and funding allocation decisions, integrate planning efforts, and reallocate resources from lower to higher priorities, thereby making institutional and State of Idaho missions operational. This process can create an environment of accountability at the departmental level, encouraging department heads to deliver process improvement and cost savings ideas from the bottom-up. It emphasizes the importance of using a range of metrics in measuring program performance and can support our efforts to commit funds to projects and programs with the highest potential return on investable dollars. Further, it reinforces the concept of fiscal discipline across the institution and the understanding that funding for additional resource requests will need to come from a reallocation of existing resources.

The University will continue to refine its institutional expectations for Program Prioritization in the years ahead. Program Prioritization provides a means for a greater infusion of performance metrics into institutional budgeting decisions. In general, there seems to be a cultural resistance to eliminating programs that, while interesting or useful, do not contribute to overall organizational success. Program Prioritization also provides a means to allow the institution to make its programs self-supporting and to adjust funding levels as necessary as demand increases or decreases for the programs. It was further noted that some units looked at Program Prioritization as a cost cutting exercise, while others viewed it strictly as a review to reallocate current programs without cost cutting. A thorough, well thought out, and consistent approach throughout the University with clear language and goals will be essential to ensure a high quality review on an annual basis.

In summary, the Program Prioritization exercise provides a constructive and consistent way to assess the effectiveness and efficiency of programs across department and division boundaries. A continued use of Program Prioritization will enforce the need to continually assess the quality and necessity of University programs for the benefit of the State of Idaho and its citizens.
APPENDIX A – METHODOLOGY FOR QUINTILING NON-ACADEMIC PROGRAMS

Methodology for Quintiling Non-Academic Programs

The first step towards non-academic program prioritization by way of the attached questionnaire will be to have each non-academic area identify its respective programs to be reviewed. Once the programs for evaluation are identified and reviewed, the following criteria and weights will be used to rank non-academic programs into quintiles:

- 25% - Cost-Effectiveness (budget vs. actual, productivity, performance)
- 20% - Importance to the institution (mission, vision, strategic plan, core themes, mandates)
- 20% - Demand (internal, external)
- 20% - Quality (input, outcomes, how well delivered)
- 15% - Opportunity (collaboration, resource sharing, savings, improvements)

Each program will be scored from 1 to 5 for each of the above criteria according to the following scale:

1. Does not meet criteria
2. Slightly meets criteria
3. Meets criteria
4. Slightly exceeds criteria
5. Exceeds criteria

The score (1-5) for each criteria will be converted to a weighted score according to the importance of the criteria. Under this methodology, the maximum score a program could receive is 5 and the lowest is 1. For instance, a program receiving a 5 (exceeds criteria) for each of the five criteria at their respective weights, would receive a total weighted score of 5 because the weights total 100% (100% x 5 = 5). Or, a program receiving a 1 (does not meet criteria) for each of the five criteria at their respective weights, would receive a total weighted score of 1 (100% x 1 = 1). To better illustrate this scoring methodology, following is an example of how an intermediate non-academic program could be scored:

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Weight</th>
<th>Score</th>
<th>Weighted Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost-Effectiveness</td>
<td>0.25</td>
<td>1</td>
<td>0.25</td>
</tr>
<tr>
<td>Institutional Importance</td>
<td>0.20</td>
<td>4</td>
<td>0.80</td>
</tr>
<tr>
<td>Demand</td>
<td>0.20</td>
<td>4</td>
<td>0.80</td>
</tr>
<tr>
<td>Quality</td>
<td>0.20</td>
<td>2</td>
<td>0.40</td>
</tr>
<tr>
<td>Opportunity</td>
<td>0.15</td>
<td>3</td>
<td>0.45</td>
</tr>
<tr>
<td><strong>Total Weighted Score</strong></td>
<td></td>
<td></td>
<td><strong>2.70</strong></td>
</tr>
</tbody>
</table>
Each program will sum to a total weighted score that will enable categorization into quintiles with the following rankings:

1. Programs needing enrichment.
2. Programs needing a higher level of continued support.
3. Programs needing a neutral or similar level of continued support.
4. Programs needing a lower level of continued support.
5. Programs requiring further review, assessment, and action plan to determine what options will be taken.

The following scores will determine which quintiles the program will fall into:

<table>
<thead>
<tr>
<th>Score</th>
<th>Quintile</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.21 – 5.00</td>
<td>1. Programs needing enrichment</td>
</tr>
<tr>
<td>3.41 – 4.20</td>
<td>2. Programs needing a higher level of continued support</td>
</tr>
<tr>
<td>2.61 – 3.40</td>
<td>3. Programs needing a neutral or similar level of continued support</td>
</tr>
<tr>
<td>1.81 – 2.60</td>
<td>4. Programs needing a lower level of continued support</td>
</tr>
<tr>
<td>1.00 – 1.80</td>
<td>5. Programs requiring further review, assessment, and action plan to determine what options will be taken</td>
</tr>
</tbody>
</table>

In the previous example illustrating how an intermediate program could be scored, the example program received a weighted score of 2.70. This score places the program in quintile three, a program needing a neutral or similar level of continued support.
APPENDIX B – ADMINISTRATIVE (NON-ACADEMIC) PROGRAM REVIEW

Idaho State University

Administrative (Non-Academic) Program Review
for University Program Prioritization¹

Program Name: ____________________________

Administrator: ____________________________ Department/Unit: ____________________________

Program Definition: any activity or collection of activities that consumes resources
(i.e. dollars, people, time, space, equipment)

For your responsible area, please identify the major, significant activities that consume resources and complete this questionnaire for each of these programs. For example, in the Controller’s Office there is the general accounting department that has major, significant activities such as accounts payable, collections, financial reporting, travel, and cash management that will qualify as separate programs within the single area of general accounting. In some cases, these activities themselves may be subdivided further into additional programs. The major, significant activities are the programs that will be reviewed through program prioritization by use of this questionnaire. Identify your programs to be reviewed as those that are major activities consuming significant resources. Please keep in mind that on our first pass with this new program prioritization process, areas are encouraged to keep programs broadly defined, so as not to produce more programs that can be reasonably evaluated.

1. Key Goals and Objectives:
   - Organizational structure and performance

1.a. Is this program mandated federally?

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
<th>Provide Details</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

¹ Adapted from materials obtained from Seattle Central Community College, Washington State University, College of Micronesia, and the University of Central Oklahoma.
1. Is this program mandated by the state?

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
<th>Provide Details</th>
</tr>
</thead>
</table>

1.c. Is this program required because of obligations other than federal or state?

If the program is required by previously signed contracts or agreements, identify the party or parties involved in the agreement, the date and history of the agreement, and the date of expiration of the agreement.

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
<th>Provide Details</th>
</tr>
</thead>
</table>

1.d. Is this program essential to the operation of the university?

<table>
<thead>
<tr>
<th>Yes</th>
<th>No</th>
<th>Provide Details</th>
</tr>
</thead>
</table>

ISU Mission Statement
The mission of Idaho State University is to advance scholarly and creative endeavors through the creation of new knowledge, cutting-edge research, innovative artistic pursuits and high-quality academic instruction; to use these qualities to enhance technical, undergraduate, graduate, and professional education, health care, and other services provided to the people of Idaho, the Nation, and the World; and to develop citizens who will learn from the past, think critically about the present, and provide leadership to enrich the future in a diverse, global society.

Core Themes
Learning and Discovery, Access and Opportunity, Leadership in the Health Sciences, and Community Engagement and Impact.

1.e. How does this program support the mission, vision, strategic plan, core themes, and institutional objectives of the university?

Provide Details
1.f. How is the program’s performance reviewed? By whom? How often?

<table>
<thead>
<tr>
<th>Methods of Reviewing Performance</th>
<th>Person/Group Reviewing Method</th>
<th>How Often is Success Reviewed</th>

APPENDIX D – KEY MILESTONES AND DATES DURING THE PROCESS – NON-ACADEMIC PROGRAMS

1/10/2014 – Program directors forwarded Program Prioritization documents to unit heads and directors

1/27/2014 – Unit heads and directors reviewed and approved the Program Prioritization documents

2/14/2014 – Recommendations for prioritization and reallocation were forwarded to vice presidents

3/3/2014 – Vice presidents reviewed and finalized recommendations for prioritization and reallocation

3/12/2014 – Vice presidents’ Program Prioritization results were due to the President (written reports)

3/14/2014 – Vice presidents presented Program Prioritization results to the President (oral presentations)

3/27/2014 – Vice presidents’ proposed budgets (reflecting the assigned budget targets) and SBCC budget presentations were due to ISU’s Budget Office

4/1-2/2014 – Fiscal year 2015 budget presentations were made to the Special Budget Consultation Committee (SBCC)

4/7/2014 – SBCC finalized ISU’s fiscal year 2015 program-prioritized budget and forwarded its recommendations to the President

4/30/2014 – ISU completed its final draft of the fiscal year 2015 program-prioritized budget for Idaho State Board of Education (SBOE) approval
APPENDIX E – PROGRAM PRIORITIZATION RESULTS BY VICE PRESIDENTIAL UNIT

Program Prioritization Results
By Vice President Unit

Vice President Unit/Area:

Vice President:

Number of Programs Identified and Reviewed:

Please Describe How You Identified Programs for Program Prioritization Analysis:

Please Describe the Methodology Used for Reviewing, Analyzing, and Ranking Your Unit’s Programs:

Please Describe Any Other Criteria, Other Than Those Identified by the Institution, You Used for Program Prioritization (Criteria Identified by Institution: Cost-Effectiveness, Importance to the Institution, Demand, Quality, Opportunity, Revenue & Cost, Impact & History):

ON THE NEXT FIVE PAGES, PLEASE PROVIDE THE FINALIZED LIST OF YOUR UNIT’S PRIORITIZED PROGRAMS BY QUINTILE
QUINTILE 1: Programs Possibly Needing Enrichment (Highest Priority)

Program Prioritization Results Summary

Please Describe the Results of Your Program Prioritization Analysis Specifying the Existing Programs or Activities Can Be Done More Efficiently, Streamlined, or Eliminated:

Please Summarize Your Action Plan for Each Quintile 5 Program:

Please Identify the Amount of Resources by Program Identified for Reallocation, Reduction, or Elimination. What is the Amount for Current Period Savings? What is the Amount for On-going or Over-time, Phased Savings? (Projection If Necessary):

Please Describe Other Specific Recommendations Identified Through the Program Prioritization Process:

How Will Your Program Prioritization Results Be Incorporated Into Your Budget Proposal?
Program Prioritization Report to the Idaho State Board of Education
August 6, 2014

The below report summarizing the results of program prioritization activities over the last year in responding to guidelines distributed May 15, 2014 and subsequent instruction at the July IRSA meeting in preparation for the August Board Work Session.

1. The institution’s overarching goals (i.e. desired outcomes).

The three institutional goals established for this program prioritization process, which the University of Idaho internally referred to as Focus for the Future, were:

**Prioritized Faculty Hiring.** All new and vacated full-time faculty positions would be invested in high-level University strategic priorities, including “cluster hires” that advance select disciplinary and interdisciplinary efforts, student success, research revenue opportunities, accreditation achievement, and solutions to the most important societal problems. All academic units, including academic units in which the new or vacated faculty positions originate, would be required to make investment proposals according to priority areas identified by the Dickeson-based prioritization process for academic programs. No faculty investments would be made in low priority areas. Faculty resources would be used strategically to advance higher University and State of Idaho priorities. Investments would reflect all dimensions of the University of Idaho’s mission: teaching, scholarship, outreach, and engagement.

**Program Review.** A rigorous review would be conducted of programs placed on a “watch” list during the University’s previous prioritization process, as well as other programs found to be low priorities according to the criteria used in the current prioritization process. Such programs would be considered for remediation if they are indispensable to a core mission, and if specific remediation steps can be taken cost-effectively; otherwise, they would be considered for closure or consolidation, and resources will be aligned with higher priorities.

**Enhanced Operational Efficiency.** We would review the efficiency in administrative units and “programs” as defined in the State Board’s directive (and accompanying staff memorandum). These units and “programs” would be evaluated according to the same process and criteria used in the academic unit prioritization process, to the extent they are applicable directly or by analogy. Particular attention would be paid to opportunities for University-wide centralization or decentralization and standardization of equipment and procedures (e.g., information technology, personnel administration, and fiscal management). The timing of the evaluation of nonacademic units and “programs” might have been affected by the pace at which the academic programs were evaluated, because the academic program array would determine in part the distribution of administrative support for the academic programs.
2. The measurement criteria and the units of program analysis.

As was described in the June 2013 report to the State Board of Education/University of Idaho Board of Regents, the University of Idaho implemented, and has been using Dickerson’s concept of program prioritization since 2008 – 2009 when all of our academic programs were assessed as part of our ongoing assessment and continuous improvement efforts. To be clear, our process was not solely his evaluation scheme, but the concepts were foundational. In order to apply a common set of criteria to all academic and non-academic programs as well as administrative and operating units, we refined our understanding of the criteria and adopted the following definitions for our review:

- **Centrality.** The program is central to the mission and future of the University of Idaho as a land-grant, national, research institution. The program is responsive to the vision and strategic plan of the University and to important stakeholders throughout Idaho.

- **External Demand.** The current and future demand for program graduates, research, scholarship, and outreach is strong; the program plays a unique role in the state and stakeholders seek the expertise of the program faculty.

- **Internal Demand.** The program is relied upon by other programs outside the department for coursework, scholarly collaborations, grant collaborations, or core services.

- **Quality.** The program contributes to the national and international reputation of the University, and the work of the faculty is nationally and internationally recognized as significant. Faculty achievements in teaching, research, professional service, and outreach are nationally recognized. The program enables student success through the demonstrated achievement of established UI learning outcomes. It provides students with high quality learning experiences that offer integrated learning opportunities and skill building for addressing complex problems. The program enhances the quality of the learning experience through diversity of students, faculty, and staff.

- **Size and Scope.** The program includes a critical mass of faculty and provides a program to a significant number of students.

- **Productivity.** On a per FTE basis, the program produces significant numbers (when compared to appropriate peers) of graduates, student credit hours, scholarly products or performances, and outreach events and participants.

- **Cost Effectiveness.** The program expenditures relative to the various productivity measures are comparable to similar programs at other national research institutions. Evidence indicates that the funds invested in the program produce a healthy mix of student enrollment, research activity and funding, and other income.

- **Impact.** The outreach work of the program has produced significant changes in the practices or conditions of key stakeholder audiences. The program’s research, teaching, and outreach components contain mutually-beneficial outcomes. The program is responsive to the vision and strategic plan of the University and to relevant stakeholders throughout Idaho.

- **Synergies.** The program is engaged in cooperative interactions across departments or other administrative units both within the University of Idaho and/or with groups outside the UI that enhance quality and/or productivity providing clear benefits to students and/or faculty. Complex problems are addressed with interdisciplinary strength.
The above criteria were weighted, and the following definitions were developed for scoring:

1 – Poor Alignment. The program does not effectively support the criterion statement
2 – Moderate Alignment. The program moderately supports some of the characteristics in the criterion statement
3 – Good Alignment. The program generally supports the characteristics of the criterion statement
4 – Strong Alignment. The program strongly supports nearly all of the characteristics of the criterion statement
5 – Highest Alignment. The program convincingly supports all of the characteristics of the criterion statement

3. How many programs were evaluated and how many programs were placed in each quintile.

The University of Idaho applied the criteria and evaluation metrics to 358 programs. Scores to two decimals ranged from 1.00 to 5.00. Leadership initially placed programs in quintiles based upon those scores then academic degree programs with the lowest enrollment were assigned to the 5th quintile.

<table>
<thead>
<tr>
<th>Number of programs by type</th>
<th>Preliminary /Absolute Quintiles (reverse of scoring)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>1st</td>
</tr>
<tr>
<td>Academic Programs</td>
<td></td>
</tr>
<tr>
<td>(degrees, certificates &amp; majors)</td>
<td>46</td>
</tr>
<tr>
<td>Academic and Student Support Programs/Units</td>
<td>17</td>
</tr>
<tr>
<td>Non-Academic Programs/Units</td>
<td>15</td>
</tr>
<tr>
<td>Total</td>
<td>78</td>
</tr>
</tbody>
</table>
The data was then re-examined and leadership assigned quintiles based on a combination of rubric scores and the qualitative components of the review. These final/relative quintiles normalized the data and created five distinct groups that were representative of the rubric scores, metrics such as enrollment and expenditures, and extensive qualitative data.

</tbody>
</table>

4. For those programs in either the top or bottom quintile, please generally explain the common factors that led to their current placement.

Our application of the weighted criteria informed quintile placement. Centrality, or lack thereof, in terms of the University of Idaho’s historic land grant mission and the institution’s position as a comprehensive research institution were clearly a major factor. The other emphasis was on program quality. This aligns well with the State Board of Education/University of Idaho Board of Regents intention related to program prioritization, that it fulfills the requirements of zero based budgeting. Certainly the allocation of resources to programs and conversely the decision to not do so were major contributing factors to quintile placement.

5. What lessons were learned (e.g. implications to the institution, future application, etc.) and what actions are being taken, including considerations of sustainability.

The process resulted in several key conclusions. First, despite reduced state allocations over the last several years the University continues to fulfill its historic land grant mission and quality remains high. While this rigorous process did highlight some programs that were under-performing and/or no longer of central importance—the most noteworthy conclusion for various constituencies was a recognition of a deep commitment to quality and a higher level of accomplishment than community members hypothesized prior to completion of the process. Consequently, one implication for the University is a widespread dedication to purposeful communication regarding the University of Idaho’s people and programs and their considerable
positive impact upon Idaho, the nation, and the world. A second lesson learned was that forward-looking leadership demands that the institution stay the course in terms of making changes that enhance the quality of our programs and ensure that they align strongly with our mission as a land-grant, national, research institution. Third, the University of Idaho community must own its own destiny if the institution’s second 125 years is to continue the impressive trajectory of the previous 125 years. Fourth, the Focus for the Future program prioritization work at the University of Idaho pointed to a number of crucial areas that cross or transcend “programs” but are nonetheless areas that demand attention. These include compliance, information technology, interdisciplinary programs, financial aid, and procurement.

Since 2008 the University of Idaho has been committed to program prioritization as a means of assessing and continually aligning programs, activities and resources with the mission and goals of the institution. Focused program prioritization efforts over the last year strengthen and build upon our institutional process. President Chuck Staben’s arrival, the launch of a national search for a permanent provost and executive vice president, and the restructuring of our Institutional Research Office provide an opportunity for implementing a long-term strategy for ongoing review of both academic and non-academic programs. We will continue to use the shared governance approved criteria in place since 2008 and the weighting established as part of the current program prioritization process, and we will continue to refine the data sets required for program prioritization.

6. A narrative of the process explaining the level of rigor applied.

This comprehensive review of all programs advanced the work accomplished in 2008 as it tested the effectiveness of earlier program review and expanded it through inclusion of non-academic programs in addition to a thorough and rigorous review of our academic programs.

The University of Idaho’s shared governance tradition dictated the institution’s program prioritization process. The year-long program prioritization process—Focus for the Future—therefore included broad participation from various constituencies and representing the more than 70 University locations around the state of Idaho. A session that included more than 100 University leaders resulted in definitions of the program prioritization criteria and consensus regarding the weight of each of the criteria (centrality, external demand, internal demand, quality, size and scope, productivity, cost effectiveness, impact, and synergies). Various units worked for approximately one month in order to compile a working list of programs. University leadership assessed this list and compiled a list of 358 programs and units for evaluation. Program stakeholders engaged in comprehensive conversations regarding appropriate metrics. Although not apparent at the outset, these activities turned out to be incredibly valuable as units reflected upon their work, evaluation methodology, and national best practices and benchmarks. Gathering the data at a complex institution demanded significant effort from the entire University of Idaho community. Program leaders then compiled complete program reports using the nine established criteria. Unit leaders conducted their own assessments that included evaluating the data, metrics, and conclusions from program leader reports. Vice presidents reviewed this work. A January 13-14, 2014 retreat allowed leadership to consider all of the reports. Following considerable discussion, the retreat resulted in the formation of 6
work groups tasked with further fine-tuning of the data and reports, providing a more holistic consideration of both. Incorporating the results of these parallel efforts, the Interim Provost and Executive Vice President communicated proposed actions to the university community on April 23, 2014. Colleges and other units conducted all inclusive meetings to discuss the April 23 proposals and provided minutes of these meetings to the executive leadership. Approximately 350 people provided comments on the Focus for the Future website. President Chuck Staben met with stakeholder groups that requested a meeting and conducted in depth conversation with his leadership team. President Staben issued final Focus for the Future/Program Prioritization decisions on July 1, 2014.

7. Key process documents including templates and surveys used to collect the data. If applicable, please include a link to the web application.

Attached are seven documents developed for this process:
   1. Program Scoring Rubric
   2. Summary Report for Academic Departments
   3. Summary Report for Academic Programs
   4. Summary Report for All Colleges
   5. Summary Report for All Programs
   6. Summary Report for Sub-Units
   7. Summary Report for All Units

8. Key milestones and dates throughout the process.

9. The aggregate number of programs in each quintile.

Of the 358 programs reviewed, 62 were placed in the first (top) quintile, 68 were placed in the second quintile, 70 were placed in the third quintile, 92 were placed in the fourth quintile, and 66 were placed in the fifth (lowest) quintile.
10. Was there a hold harmless predetermination for any program(s), and if so, why?

In an effort to honor the principles of zero-based budgeting, nothing was exempt from this process. All divisions and all programs (academic and non-academic) statewide were included in the review with the exception of externally-funded programs such as grants and contracts.

11. Key outcomes and recommendations.

Below is a summary of the findings and plans we have as a result of this review. Several recommendations have already been implemented. Others require further consideration or time for implementation. Many of the proposed changes will generate savings, while some are efficiencies whose impact is difficult to assess directly. One is a significant investment essential to enhance safety and to minimize institutional risk. We expect that financial effects of these changes will occur primarily in the next fiscal year and later.

Non-Academic Programs:
- Create greater efficiencies in administrative personnel processes such as payroll, worker’s compensation self-insurance, hiring (implemented People Admin), and revised classification system
- Assess electronic purchasing practices for potential resource savings
- Close or change selected auxiliary operations such as the campus pharmacy (closed-services available locally)
- Consolidate select IT functions including technology/electronics purchases. Plan to be developed in 2014-15
- Reorganize and invest in University compliance functions
- Evaluate institutionally based financial aid for net tuition savings
- Fully fund the Vandal Scholarship Fund (Athletic Scholarships) through fundraising
- Close the Office of Community Partnerships
- Transfer Student Sustainability Center to Facilities
- Assess assignments of Development Officers
- Invest in Enrollment Management and Marketing

Academic Programs:
- Evaluate vacant faculty lines for strategic hiring; evaluate affiliate faculty assignments
- Move interdisciplinary programs to colleges
  - Bioinformatics and Computational Biology to the College of Science
  - Bioregional Planning to the College of Art & Architecture
  - Environmental Science and Waters of the West to the College of Natural Resources (continue consultation in Fall 2014)
  - Neuroscience to the Department of Biology, College of Science
- Move the Biological and Agricultural Engineering degree programs to the College of Engineering
- Close Bio-energy unit in Boise
- Restructure Department of Conservation Social Sciences in College of Natural Resources

12. Timelines for next steps. This should delineate:

a. What immediate steps have already been taken, if any?

The University of Idaho has completed the following:
- Instituted new employee classification system designed to address salary compression and fairness issues
- Implemented the PeopleAdmin talent management system
- Closed the campus pharmacy ($260,000)
- Closed the Office of Community Partnerships ($480,000)
- Transferred the Student Sustainability Center to Facilities
- Moved Bioinformatics and Computational Biology to the College of Science
- Moved Bioregional Planning to the College of Art & Architecture
- Reexamined our options for funding our Other Post-Employment Benefits (OPEB) ($1,300,000)

b. What steps will occur in the future (i.e. phased or out-year changes)? This may require an overview of what steps are co-dependent on the actions of others, such as the Board or NWCCU, or what steps are contingent upon further analysis and review by the institution.

Many of the below initiatives require faculty participation in planning and implementing the changes. Some may require the letter to the State Board of Education Office and
communication with NWCCU. We anticipate notifications to be complete by December 31, 2014.

<table>
<thead>
<tr>
<th>Action</th>
<th>Timeline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Move/restructure administration of degree programs</td>
<td>• Action plans due September 30, 2014</td>
</tr>
<tr>
<td>Consolidate degree programs</td>
<td>• Action plans due September 30, 2014</td>
</tr>
<tr>
<td>Eliminate degree programs</td>
<td>• Action plans due September 30, 2014</td>
</tr>
<tr>
<td>Conservation Social Sciences</td>
<td>• Action plans due September 30, 2014</td>
</tr>
</tbody>
</table>
| Benefit reviews (beyond OPEB mentioned above)     | • Compile a list of programs for review and prioritize by September 1, 2014  
• Complete reviews by February 1, 2015 
• Implement changes as allowable depending on the restrictions of each program. |
| Invest in Compliance Functions                    | • Establish operating budgets and transfer funds by September 15, 2014   
• Make staff hires by December 31, 2014            |
| Enrollment Management                             | • Develop an annual business plan and transfer of funds by December 31, 2014 |
| Marketing                                         | • Develop an annual business plan and transfer of funds by December 31, 2014 |
| Degree programs on the watch list                 | • Develop action plans for approval by the Provost no later than December 1, 2014  
• Report on implementation of action plan by June 15, 2015 |
| All programs in the 4th final/relative quintile   | • Develop action plans for improvement no later than December 1, 2014 for Provost’s approval  
• Report on implementation of action plan by June 15, 2015 |

c. Process improvements (e.g. eliminate duplication, outsource, centralize services, etc.)

The University of Idaho has launched initiatives to examine and refine various processes. The anticipated completion date for this work in June 30, 2015.
• Assess electronic purchasing/procurement practices for potential savings
• Consolidate selected IT functions including technology/electronics purchases
• Evaluate institutionally based financial aid
• Develop a plan to fully fund the Vandal Scholarship Fund through private sources

Executive Summary:

Between June 2013 and July 2014, as directed by the Idaho State Board of Education, Boise State University engaged in the process known as “Program Prioritization” using methodology modified from that of the primary exponent of the process, Robert Dickeson. The primary goal of Program Prioritization, as outlined by Dickeson, is to increase alignment of resources with institutional priorities; the State Board established the additional goal of program improvement.

For the first time ever, all programs were put on the table and evaluated at the same time. This model of evaluation enabled us to make comparisons among programs and require substantial changes from a significant proportion of them.

We identified a total of 651 programs at the university: 163 degree and graduate certificate programs, 198 minors, emphases, options, and alternate degrees, 45 academic departments, and 245 administrative and support programs. A total of 70 programs were excluded from evaluation, primarily instructional programs that are less than three years old. Of the 135 degree and graduate certificate programs evaluated, 29 (21.5%) were placed in the fifth quintile, requiring them to make substantive changes. Another 22 degree and graduate certificate programs were flagged for a low number of graduates, requiring them to increase productivity. Of the 242 administrative and support programs evaluated, 47 (19.4%) were placed in the fifth quintile, requiring them to make substantive changes.

Our process was open and participatory. Each division oversaw and carried out the process in the programs within that division. Administrative and support programs were tasked with developing metrics to effectively measure the four criteria (relevance, quality, productivity, and efficiency). For some programs, well-established metrics were further refined for use in Program Prioritization. For others, Program Prioritization required that metrics be developed for the first time. Academic departments, faculty members, and the faculty senate were actively involved in the development of metrics used to evaluate instructional programs and academic departments. Numerous public presentations and a website were used to keep the campus community informed during the process.

Our process was logical and sensible. When evaluating and making decisions about programs, we paid attention to the context of the university, that is, the maturity of the institution and needs of the region. We also incorporated initiatives already underway to ensure alignment of those initiatives with any new actions. The four criteria established to guide evaluation of programs are simple and straightforward, are easy to remember and apply, and provided substantial utility in their application. We were careful in our interpretation and the application to decision-making of the metrics used in the process. Finally, although programs assigned to the bottom quintile are required to make substantial changes in order to meet specified outcomes, it was often the programs themselves that had the responsibility to determine the best way to meet those outcomes.
Our process was comprehensive. Every effort was made to ensure that all university programs were evaluated, including those that might have been excluded because of separate governance or absence of a state appropriation.

Our process was rigorous and impactful. Underlying that rigor was the understanding that without it, the process would have little external or internal credibility. We avoided cosmetic changes, that is, we avoided changes that lacked tangible impact.

Our process is sustainable. We will integrate Program Prioritization with our strategic plan, Focus on Effectiveness, and with regional accreditation, which requires that we create an ongoing, systematic structure for measurement of institutional and unit-level effectiveness.

Program Prioritization presented an opportunity to restructure colleges in order to better align with University initiatives and to increase synergy among units.

- The creation of a new School of Public Service consisting of five departments from the College of Social Sciences and Public Affairs will be finalized. The dean of the school will report to the Provost.
- The School of Social Work will move from the College of Social Sciences and Public Affairs to the College of Health Sciences.
- The remaining departments and programs in the College of Social Sciences and Public Affairs will be relocated to the College of Arts and Sciences.
- The College of Social Sciences and Public Affairs will be discontinued.
- A new School of Allied Health will be created within the College of Health Sciences; the new School will contain three departments currently in the College of Health Sciences and one department (Kinesiology) moved from the College of Education.
- The Department of Bilingual Education in the College of Education will be dissolved and tenured faculty absorbed into the Department of Literacy; that department will be renamed the Department of Literacy, Language, and Culture.

Results of Program Prioritization pertaining to instructional programs and academic departments can be summarized as follows:

- Evaluation of degree programs and graduate certificates resulted in 29 programs assigned to the fifth quintile; four will be discontinued and the remaining 25 must make substantial changes increase their productivity, relevance, quality and/or efficiency.
- Eighty additional degree and certificate programs were assigned to the second, third, or fourth quintiles and are required to make improvements. Of those eighty, 22 were flagged for a low number of graduates, and are therefore required to specifically make changes to increase production of graduates.
- Evaluation of minors, emphases, options, and alternate degrees resulted in 76 programs being flagged for low numbers of graduates. Of those, 43 will make substantial changes in curriculum and/or recruiting to increase the number of graduates, 16 will be consolidated or discontinued, and 17 will remain as they are.
- Thirteen academic departments are required to make changes that address causes of relatively low progress-to-degree and causes of instructional cost per credit hour that are relatively high at Boise State.
The following is a selection of notable outcomes from the evaluation of administrative and support programs:

- University Health Services will be moved from the Division of Student Affairs to the College of Health Sciences to align with the college’s academic programs and create teaching and research clinic opportunities. This will allow students to gain additional exposure to real-world instructional situations and faculty members will be able to augment their instruction and research through actual practice within their professions.
- Resources will be reallocated from the Meridian Center and relatively low-demand regional sites at Gowen Field and Mountain Home to staffing and instruction for: (i) degree completion programs housed at the College of Western Idaho and (ii) AfterWork programs that serve non-traditional students.
- Albertson Library will (i) eliminate an associate dean position and reallocate the resulting resources to library content and (ii) make shifts in subscription and changes to purchasing policy that will enable the reallocation of $183k to other library content.
- Research Computing will centralize services for support of cyber infrastructure for research to maximize support to researchers. A central model of support is the emerging trend in higher education research intensive institutions. The University is investing $132,500 to hire a research computing professional to provide greater support for research activity, including data analysis, visualization, and GIS support.
- The Sign Shop (Campus Facilities) and the Print Shop (OIT) will be structurally reassigned to Communications and Marketing to create new efficiencies and enhance their ability to manage and service the brand expectations across the university.
- In the division of University Advancement, an associate vice president position will be dissolved and the salary savings will be reallocated to further research and analytic capacity as well as to hire additional gift officers.
- Creation of a new Office of Public Safety will lower the University’s overall safety risk. By consolidating University Security; Transportation and Parking Services; and Environmental Health, Safety and Sustainability (EHSS); the University will have increased ability to plan for events and meet emergency needs as they arise, placing the responsibility for evacuation of campus traffic with parking event staff, clearing the way for university security and Boise Police to handle emergency situations.
- The Office of Academic Technologies is being restructured into two new units: (i) a Learning Technologies Solutions unit within the Office of Information Technology will focus on providing leading-edge technological infrastructure to support learning; (ii) a unit within the Center for Teaching and Learning will focus on design of courses with the intentional incorporation of technology.
- Routine maintenance across campus performed centrally by Facilities Operations and Maintenance will be funded centrally rather than through interdepartmental billing. Central funding will reduce associated bureaucratic activities and provide for a more consistent and flexible maintenance program across campus. Resulting savings in academic departments will be available for use to enhance their work with students.
- The Story Initiative will be eliminated as a stand-alone initiative and moved to the Arts and Humanities Institute. Funds associated with the directorship will be reallocated.
Introduction

Objectives of the Process

At the onset of Program Prioritization, we established these objectives to guide our work.

Objective #1: Engage in a process of sufficient rigor and impact to serve as an acceptable proxy for zero-based budgeting and result in meaningful changes at the University. The University does not want Program Prioritization to be a flurry of activity with no measurable impact. Instead, it is important that we achieve meaningful changes that include: (i) reallocation of resources to better align them with institutional priorities, in order to better serve our constituency; and (ii) substantial improvements in academic and administrative/support programs.

Objective #2: Pay attention to the context of the university. Boise State is a relatively young institution that provides the bulk of university programming to a growing metropolitan area. Several mission-central and high-demand programs are in start-up or early-growth mode.

Objective #3: Use a process that is fair and open. It was important that the process involve the campus community, be applied in a fair manner, and be transparent to stakeholders.

Objective #4: Look beyond changes to individual programs. Program Prioritization is by its nature focused on individual “programs” and not on the University as a whole. That said, we were fully aware that evaluation of individual programs would lead to a number of broad-scale changes that impacted multiple programs and required changes to organizational structure. As we will continue our analysis and planning on a university-wide scale we will make use of our newly acquired knowledge of individual programs as a foundation for future change.

Objective #5: Pay attention to initiatives already underway. Initiatives such as the PeopleSoft Renovation Project are making substantial changes to system infrastructure. Any actions resulting from Program Prioritization must be aligned with those initiatives.

Objective #6: Sustain the value of Program Prioritization. To gain the most value from Program Prioritization it was important that the process not be a one-time event. Instead, the University is integrating the Program Prioritization process into several ongoing planning and assessment activities. The process: (i) provides an opportunity to refine, and in some cases newly identify, enduring metrics that meaningfully evaluate unit-level effectiveness; (ii) will strengthen already-existing assessment processes and identify where new processes are necessary; (iii) will help us achieve Goal 5 of our strategic plan, which focuses on reinvention of business processes; (iv) meshes well with regional accreditation, which requires the creation of an ongoing, systematic structure for measurement of institutional and unit-level effectiveness. Standard 4.A.1 is especially relevant:

“The institution engages in ongoing systematic collection and analysis of meaningful, assessable, and verifiable data—quantitative and/or qualitative, as appropriate to its indicators of achievement—as the basis for evaluating the accomplishment of its core theme objectives.”
Administration of and Participation in the Process

A central committee with representatives from most divisions provided coordination and commonality of process across the university. However, each division undertook customization and control of Program Prioritization, as described in the Methodology section that follows. We believe this approach led to substantial “buy-in” that would not have occurred had the process been completely standardized at a university-wide level. Furthermore, the approach increased rigor and effectiveness by accounting for variation among divisions in role and business processes.

The central coordinating committee was the primary conduit of communication to the campus, providing a website with FAQs and other materials (see prioritization.boisestate.edu), delivering presentations to various constituencies, and holding working sessions to assist units in the process.

There was substantial participation by a variety of campus constituents in ad hoc meetings, surveys, presentations, workshops, evaluation committees, and report development. Importantly, the metrics for evaluation were developed with substantial input from those closest to the workings of the programs, not solely by high-level administrators.
Methodology

Delineation of “Programs”

“Programs” to be evaluated were first delineated within each division. A total of 651 “programs” were identified.

Instructional “programs” were delineated at two levels. The first level consisted of minors, emphases, options, undergraduate certificates and alternate degrees. Such programs were addressed first in order to simplify the work of the second level, which consisted of all degree and graduate certificate programs. Furthermore, as subsets of degrees, elimination of first-level programs would not typically provide funding reallocation without eliminating the second-level (degree) programs within which they reside. Table I summarizes the numbers of various types of instructional programs. Academic departments as a whole were evaluated separately using methods and metrics similar to those used for instructional programs.

<table>

</thead>
<tbody>
<tr>
<td>Minors, emphases, options, undergraduate certificates, alternate degrees</td>
</tr>
<tr>
<td>Degree and graduate certificate programs</td>
</tr>
<tr>
<td>Academic Departments</td>
</tr>
</tbody>
</table>

Administrative and Support Programs consist of all programs at the university that are not academic departments or instructional programs. Delineation was done within each division and typically involved substantial discussion to achieve the appropriate scale of analysis and action for each program. In some cases the delineation of programs was modified based on insights gained during Program Prioritization. Table II summarizes the numbers of programs in each division.

Exclusions from the Process (“Hold Harmless Predeterminations”)

The following programs were either excluded from Program Prioritization or were evaluated using a modified process.

- Instructional programs less than three years old were excused from Program Prioritization because of insufficient data to evaluate.
Eight secondary education programs were excluded from analysis, but will be evaluated jointly by the subject area departments and the College of Education. Because many of these programs have low numbers of graduates, they would likely have ended up in a low quintile. However, they generally require few additional resources to offer, therefore, their termination would not have resulted in significant cost savings. Evaluation of these programs will be completed and action plans developed by May, 2015.

Associates degree programs were not evaluated because their discontinuance would have no effect on resources.

Criteria Used to Guide Evaluation of Programs
We distilled the ten criteria presented in Dickeson’s model into five that we believed would best guide our evaluation of programs and be robust for academic programs, as well as administrative and support programs. Four criteria were used in the initial evaluation of programs: relevance, quality, productivity, and efficiency. The fifth criterion, opportunity analysis, was used during the development of action plans.

- **Relevance**: Alignment with university mission and strategic plan; essentiality to core functions of the university; demand for program or service; alignment of service with needs.
- **Quality**: Evidence of success in achieving goals; evidence of assessment and improvement; distinctiveness and reputational impact.
- **Productivity**: Output or production per investment of time or resources.
- **Efficiency**: Here defined to reflect the operational effectiveness of the program. For example, a key component of efficiency for an instructional program is the ability of students to progress toward degree in a timely manner.
- **Opportunity Analysis**: A description of enhancements that can be made to address unmet needs and/or better advance the goals of the university.

Metrics and Evaluation of Instructional Programs and Academic Departments

**Minors, emphases, options, and alternate degrees**

Initial evaluation of minors, emphases, options, and alternate degrees was done to simplify subsequent consideration of entire degree programs and to prevent their use as easy-to-discard programs that might protect entire degree programs from more thorough scrutiny and subsequent action.

Programs in this group were evaluated based primarily on the criterion of Productivity, and secondarily on Relevance. Graduate level emphases, options, and alternate degrees were flagged if the average number of graduates per year over the last three years was less than three. Undergraduate level emphases, options, certificates, and alternate degrees were flagged
if the average number of graduates per year over the last three years was less than five. Owners of flagged programs were required to submit a plan that: (i) is designed to increase the number of graduates; (ii) justifies the continued existence of the program given the low number of graduates; or (iii) discontinues the program. Minors, emphases, options, and alternate degrees that were not flagged were further considered as part of the associated degree program (i.e., degree programs are comprised of all emphases, options, and alternate degrees).

**Academic Degree and Graduate Certificate Programs**

Because there is substantial consistency in functionality of academic programs and academic departments, it was feasible to develop a common set of metrics for application to both. The subset of metrics used to evaluate degree and graduate certificates is summarized in Table III. The development of metrics was an iterative process that incorporated feedback from faculty, department chairs, and deans. The metrics include quantitative measures (e.g., # of graduates) as well as student and alumni surveys and other qualitative data focused on relevance and quality.

</tbody>
</table>

Quantitative and student survey data for instructional programs was assembled by the University’s Office of Institutional Research. Direct instructional cost per student credit hour was benchmarked against the University of Delaware’s National Study of Instructional Costs and Productivity ([http://www.udel.edu/IR/cost/](http://www.udel.edu/IR/cost/)). Qualitative data was evaluated by teams of faculty members using pre-determined rubrics (see Appendix VI) to score department responses to the essay questions listed in Table III. A key metric used to evaluate the quality of
each program was a description of how the learning outcomes of the program are assessed. Each such Program Assessment Report was evaluated by a team of faculty members using the pre-determined rubric.

For headcounts and numbers of graduates, data were compared within degree type. For student survey data, all programs at the same “level” (i.e., undergraduate or graduate) in a given department received the same score. Cost per student credit hour and several similar metrics were necessarily calculated at the department level; therefore, all programs within a department received the same score for those metrics.

Additionally, instructional degree programs were flagged if their average annual number of graduates was below a specified threshold: fewer than 10 per year for baccalaureate degrees; fewer than five per year for master’s degrees and graduate certificates; and fewer than three per year for doctoral programs.

Using the data for each metric and the weightings of each of the criteria (relevance 26.2%; quality 28.5%; productivity 23.2%; efficiency 22.0%), a single numerical score was calculated for each program. Within each college, the overall scores for programs within that college were ranked and percentiles calculated. Those percentiles provided a rough-cut for consideration of quintile placement by the dean, with the lowest 20% being in the lowest quintile, the next 20% being in the fourth quintile, and so on. Descriptions of the quintiles are as follows:

- Top Quintile: Best practice.
- Middle three quintiles: categorized by the specific challenges identified for each program:
  - Improve productivity and/or efficiency
  - Improve quality and/or relevance category
  - Improve productivity and/or efficiency and improve quality and/or relevance.
- Bottom Quintile: needs substantial change (e.g., reinvent, restructure, phase out)

Initial categorization of programs, program context, and potential for change were discussed by the Deans Council, then discussed extensively by the deans, associate deans, and department chairs within each college. Colleges and departments were then tasked with the following:

- For the 20% of programs in the “substantive change” category an action plan was developed for each program that describes the substantive change (reinvent, redesign, restructure, or phase out) that would be implemented for that program (see template in Appendix VII).
- The top 20% of programs were excused from further consideration, although some colleges required that those programs also create a plan for improvement.
- The 60% of programs in the middle three quintiles were asked to develop plans for improvement to address the specific challenges identified by the data.
- Colleges making broad scale changes involving multiple programs were asked to complete a broad-scale action plan.
- Any program that was flagged for a low annual number of graduates was required to specifically address the way in which it will increase the number of graduates to a defined level.
**Academic Departments**

The set of metrics used to evaluate academic departments included, and was substantially broader than, the set used to evaluate degree and graduate certificate programs. Several metrics pertaining to productivity and efficiency were benchmarked against the University Delaware’s National Study of Instructional Costs and Productivity. Metrics were also derived by consolidation or averaging of the scores of the instructional programs offered by that department. Table IV depicts the metrics used.

Research and creative activity per T/TT FTE
Community service per T/TT FTE |

For each metric, each academic department was also given a university-wide percentile score. The resulting information was used for two purposes. First, it provided broad context for the evaluation of degree and graduate certificate programs. Second, the metrics were examined for patterns pertaining to instructional efficiency, teaching load, productivity, and progression to degree of students. Departments and deans have been tasked with further exploring those patterns and outlining a plan of action to rectify identified deficiencies. Finally, 13 of 45 departments have been given a list of tasks to be completed over the next year and goals to be reached over the next three years, all associated with the results of program prioritization.
Metrics and Evaluation of Administrative and Support Programs

For Administrative and Support programs, each program developed a written report that contains information in response to the prompts listed in Table V. For those prompts in the second column, specific metrics were developed as follows: each program underwent an iterative process in which metrics were proposed, reviewed, discussed, and revised. Resulting metrics were reviewed by division leadership to ensure that they would provide adequate information for review and placement of programs into quintiles. Several workshops supported the development of effective metrics (See Appendix). For those questions in the third column, programs provided written responses.

| Table V. Questionnaire Prompts Used for Evaluation of Administrative and Support Programs |
|--------------------------------|------------------------------------------------------------------------------------------------|
| **Criterion** | **Aspects scored based on metrics, benchmarked against peers as possible** | **Aspects scored based on written response** |
| Relevance | • What is the demand for the program’s services? | • Alignment with and support of the University’s mission, strategic plan, and core themes.  
• External mandates that will affect demand?  
• Required for compliance?  
• Essentiality of services/functions provided  
• Who is served?  
• Overlap with function of other units? |
| Quality | • How are quality and effectiveness assessed?  
• What measures are used and with what regularity?  
• How well are functions executed and services provided?  
• Evidence demonstrating how well the services meet the needs of customers | • Actions to improve quality of services such as training for personnel?  
• Other factors affecting quality, e.g., turnover, complexity of role, etc.? |
| Productivity | • How is the program’s impact measured?  
• What evidence demonstrates the volume of work performed?  
• How well does the program perform compared to benchmarks? | • What improvements could be made to save on labor or to improve the product/services? |
| Efficiency | • National benchmark data comparing resources of the program with national averages | • Scope of duties performed by this program  
• Operations or collaborations that generate revenue or result in cost savings  
• Anticipated changes that will affect efficiency in the near future  
• Opportunities for savings or additional investments |
The report for each program was then scored, typically by a committee using a predetermined rubric (see Appendix II). Scoring committees typically consisted of a set of divisional leaders and often included selected participants from outside the division. The resulting scores were used to rank programs for placement into one of five quintiles, generally described as follows:

- **Top Quintile**: Best practice, candidate for expansion.
- **Middle three quintiles**: Improvement required, at varying levels depending on quintile.
- **Bottom Quintile**: Candidate for substantial change (e.g., reinvent, restructure, phase out)

Scores, initial quintile placement, program context, and potential actions for each program were discussed extensively by the leadership group of each division. That discussion led to an initial determination of specific actions to be required of each program.

Each proposed action can be categorized into one of three dimensions, as illustrated in the adjacent figure:

- Changes to organizational structure
- Improvement to processes and procedures
- Investment or divestment of resources

The vice president of the division then finalized the actions proposed for each program and prepared the report as described in the following section.

**Presidential Approval of Proposed Actions**

Each vice president prepared for the President of the University a summary report of the Program Prioritization process and results for his/her division, which included the following components:

- Executive summary
- Overview of methodology to confirm rigor
- Listings of programs arranged in quintiles
- Proposed changes to organizational structure
- Proposed improvements
- Proposed savings, elimination of programs, reallocations, and investments

The President reviewed and provided feedback before approval of the reports. Under the President’s direction, each vice president is charged with overseeing the implementation of actions identified during Program Prioritization.

---

**Notes:**
- DUE dates are shown with ◄ to indicate due dates.
- Each step in the process is color-coded for visual clarity.
- The table outlines the key milestones and dates for the instructional programs and academic departments.

---

**Synthesis and Final Decisions:**
- Synthesis and final decisions are noted for the President and Executive Team.

---

**Changes:**
- The table structure has been adjusted to better reflect the flow of activities and due dates.
- Color-coding has been added to highlight different stages of the process.

---

**References:**
- The data is organized to provide a clear view of the timeline and responsibilities within the academic institution.

**INSTRUCTION, RESEARCH AND STUDENT AFFAIRS**  
AUGUST 13, 2014
Results and Discussion for Instructional Programs and Academic Departments

**Instructional Programs**

*Minors, Emphases, Options, Alternate Degrees, and Undergraduate Certificates*

For minors, emphases, options, undergraduate certificate, and alternate degrees, 35 programs were less than three years old and excluded from further consideration. Four programs were deferred to the degree program stage because of minimal differences between the two alternate degrees. Seventy-six of the 163 remaining programs were flagged for a low annual number of graduates.

Forty-three programs will make substantial changes to increase the number of graduates, generally through increased recruiting and/or streamlining of curriculum. Seventeen programs gave adequate justification, based on relevance and cost, for being kept as is.

Sixteen programs will be consolidated or discontinued: (i) four emphases will be discontinued in the BA Special Education, the Master of Health Sciences, and the minor in Spanish; (ii) the minor in Civil Engineering will be discontinued; (iii) nine emphases within the BS Biology will be consolidated into four and six emphases within the BA Theatre Arts will be consolidated into one.

**Degree and Graduate Certificate Programs**

As noted above and depicted in Table IX, three groups of degree/graduate certificate programs were not evaluated in Program Prioritization: (i) associates degree programs were excluded; (ii) nine secondary education programs, most with low enrollments, will be evaluated as a group over the next year by the College of Education and the relevant subject-area departments; and (iii) programs newer than 3 years old were not evaluated. One hundred thirty-five programs were evaluated.

<td>19.3%</td>
</tr>
</tbody>
</table>

Table XI summarizes the primary criteria responsible for a program being assigned to the fifth quintile. The most common deficiency was productivity, typically resulting from a low number of graduates. The other three criteria were approximately equal in their importance as a cause of assignment to the fifth quintile: (i) low scores for relevance were caused by low enrollment (an indicator of demand), low student satisfaction with the preparation provided by their degree program, insufficient changes made to meet students and community needs, low success of or demand for graduates, and/or lack of contribution to the University mission and strategic plan; (ii) low scores for quality were caused by low student satisfaction with quality and/or a poor program assessment report; and (iii) low scores for efficiency were caused by relatively difficult progression through the degree.

Table XI. Causes of Placement into the Fifth Quintile

<table>
<thead>
<tr>
<th>Number of Fifth-Quintile Programs with relatively low scores in Criterion (out of 29 programs)</th>

<th>Productivity</th>
<th>Efficiency</th>
</tr>
</thead>
<tbody>
<tr>
<td>19</td>
<td>17</td>
<td>23</td>
<td>16</td>
<td></td>
</tr>
</tbody>
</table>

The following are examples of actions that are planned to remedy the challenges identified by Program Prioritization. All programs in the fifth quintile will be re-evaluated at the end of fiscal year 2017.
Four programs will be discontinued and resources made available by those discontinuations will be reallocated to other programs.

Eight programs must specifically improve their assessment of learning outcomes, in order to evaluate and ensure quality.

Nine programs will be restructured by either adding an emphasis or option to attract more students, or consolidating programs in order to streamline the options for students and provide a more robust faculty.

Three programs will restructure their curriculum to make it more efficient for students to progress through the program.

Five programs will increase recruitment in order to increase enrollments and production of graduates, with specific targets established.

Table XII depicts the flagging of programs for low numbers of graduates. The farthest right column details 22 programs that were not in the fifth quintile but had a low number of graduates. Thus, in addition to the 29 fifth-quintile programs that developed plans for substantive action, 22 additional programs with a low number of graduates were required to develop plans to increase their number of graduates to a level above the threshold value (10 for baccalaureate, five for master’s and graduate certificate, and three for doctoral).

**Academic Departments and their Organization**

**Evaluation of Academic Departments**

Metrics regarding academic departments were examined for patterns pertaining to student progression to degree, instructional costs, and teaching load of faculty members. Areas of concern were identified by the Provost for thirteen departments, and those departments were asked to develop plans for corrective actions. The following are the primary types of actions:

- Address causes of relatively low progress-to-degree as evidenced by low proportion of students graduating each year, low retention of juniors and seniors in the major, and/or high average credits at graduation.
- Address causes of instructional cost per credit hour that are relatively high at Boise State and student credit hours per faculty member that are relatively low relative to other departments at Boise State.
Table XIII depicts the numbers of departments in each category.

Table XIII. Results of Evaluation of Academic Departments

**Broad-scale Organizational Changes**

Program Prioritization presented an opportunity to restructure colleges in order to better align with University initiatives and increase synergy among units.

- The creation of a new School of Public Service consisting of five departments from the College of Social Sciences and Public Affairs will be finalized. The dean of the school will report to the Provost.
- The School of Social Work will move from the College of Social Sciences and Public Affairs to the College of Health Sciences.
- The remaining departments and programs in the College of Social Sciences and Public Affairs will be organizationally moved to the College of Arts and Sciences.
- The College of Social Sciences and Public Affairs will be discontinued.
- A new School of Allied Health will be created within the College of Health Sciences; the new School will contain three departments currently in the College of Health Sciences and one department (Kinesiology) moved from the College of Education.
- The Department of Bilingual Education in the College of Education will be dissolved and tenured faculty absorbed into the Department of Literacy; that department will be renamed the Department of Literacy, Language, and Culture.

The following figure depicts the structure of the academic units of the Division of Academic Affairs as of Fall, 2015. Departments and programs that were moved are underlined.
Results and Discussion for Administrative and Support Programs

Division of Campus Operations and General Counsel

Programs within the Division of Campus Operations and General Counsel are organized as depicted in the following diagram.

![Diagram of Division of Campus Operations and General Counsel]

Key context, challenges, and overarching themes:

Five themes emerged from the analysis of divisional programs:

- Program Prioritization reaffirmed that there is relatively high risk in the broad area of public safety. In particular, both federal regulations and the reality of operating a university campus in an urban area have resulted in a noticeable need for police and public safety enhancements.
- Presently, the business operations offices in the division are decentralized; substantial opportunity exists for increased coordination, consistency, and efficiency.
- Several key operations in the division rely on the generation of local funds. A change in that focus, as well as selective investment of appropriated funds, will provide services more in tune with the needs of the campus.
- Compliance with federal and state regulations remains an area of growing focus and necessary investment at institutions of higher education.

Quintiles

Program Prioritization resulted in assignment of programs into quintiles as depicted in Table XIV.

<table>
<thead>
<tr>
<th>Quintile assignments</th>
<th>Total Evaluated</th>
</tr>
</thead>
<tbody>
<tr>

<td>Second</td>
</tr>
<tr>
<td># of programs in quintile</td>
<td>7</td>
</tr>
<tr>
<td>Percent of total in quintile</td>
<td>20.0%</td>
</tr>
</tbody>
</table>
Examples of Planned Actions

The following are examples of actions planned to occur as a result of Program Prioritization:

- The business operations of Facilities, Operations, and Maintenance (FOAM) will be integrated into a single business operations unit at the division level, producing substantial increases in effectiveness and efficiency. The new divisional unit will also provide coordination among business operations across the division.

- Creation of a new Office of Public Safety will lower the University’s overall safety risk. It will be created by consolidating University Security, Transportation and Parking Services, and Environmental Health, Safety and Sustainability (EHSS). These units will be organized into three primary offices: EHSS, Operations, and Events. As an example of the impact of this change, the University will have increased ability to plan for events and meet emergency needs as they arise, placing the responsibility for evacuation of campus traffic with parking event staff and clearing the way for university security and Boise Police to handle emergency situations.

- Presently, some of the work and maintenance provided to academic departments and others on campus by FOAM is funded by the units receiving the work. In the future most of this work will be funded centrally with occupancy funds. As a result, the red tape associated with these activities can be greatly reduced and FOAM will be able to respond much more quickly and flexibly to the needs of departments. In addition, there will be a reduction in outlay of funds from academic and administrative units of approximately $840,000 between FY13 and FY15.

- FOAM will be restructured into a zoned maintenance operation, which is the model used by several peer institutions. The new model moves the operation from reactive to proactive and will provide long term cost savings through more efficient services.

- In order to increase productivity and efficiency of the Contracts Program under General Counsel a Contracts Officer will be hired, allowing for expansion of intellectual property management.
Division of Finance and Administration

The administrative and support programs of the Division of Finance and Administration are organized as depicted in following diagram.

Key context, challenges, and overarching themes:

Five themes emerged from the analysis of divisional programs:

- Program Prioritization reaffirmed the benefits the University would gain were it to achieve administrative independence from, and/or flexibility for certain processes required by, various State agencies because many of these processes are manual and duplicative, do not result in operating or financial improvements and in some cases are outdated and inflexible.
- Federal and state compliance requirements have a major impact on the function of the division; in fact, forty-nine percent of programs within the division were created for the purpose of maintaining compliance. Although there is often an inverse relationship between regulation (compliance) and efficiency, our compliance efforts are continually scrutinized to avoid inserting unnecessary processes when implementing compliance improvements. Note that many of the divisional compliance functions share responsibilities with the Office of Institutional Compliance in the Division of Campus Operations and General Counsel.
- Taking a cross-divisional view of business process and administrative systems will produce improvements and efficiencies of a magnitude not otherwise attainable.
- Program Prioritization identified a number of opportunities for cross-divisional consolidation of services, such as support for research computing and classroom technology.
- Major upgrades to the PeopleSoft enterprise systems will enable a substantial number of business process improvements, resulting in greatly improved administrative efficiency and effectiveness of business processes and systems for campus end users.
- Program Prioritization provided the opportunity to reexamine, refine, and strengthen the metrics used by each of our programs to assess effectiveness and efficiency.
Quintiles
Program Prioritization resulted in assignment of programs into quintiles as depicted in Table XV.

</tbody>
</table>

Percent in quintile

Boise State Tickets will be merged into Treasury Services and its director position eliminated. In addition, the program will narrow its focus to on-campus ticketing services unrelated to athletics or the entertainment venues. Taco Bell Arena, the Morrison Center and Athletics will outsource ticketing and manage their own operations and customer service activities.

Early in Program Prioritization a new administrative unit was formed: Systems and Process Improvement. It is comprised of Finance Special Projects, Finance Systems, and Student Financials Systems, and is responsible for leveraging technology improvements to improve services, including identifying and implementing process efficiencies, improving understanding and awareness of policies and procedures and providing data analysis and monitoring to be used by management. Their primary responsibility is to maximize our investment in administrative systems and relieve administrative burdens and redundancies campus-wide.

Student Financials was moved from the Controller to Treasury Services to take advantage of Treasury’s cash management expertise, strengthen payment card industry standards compliance, and coordinate accounts receivable to better manage cash flow and collections. The merging of these operations will provide for more responsive and efficient processes when managing the large volume of revenues and transactions that flow through the various systems.

Human Resources Processing was recently combined with Payroll Services under a single manager to ensure standardization of data entry, in order to better support federal research effort reporting issues and leverage improvements from the revamping of PeopleSoft.

Research Computing will centralize services for support of cyber infrastructure for research to maximize support to researchers. A central model of support is the emerging trend in higher education research-intensive institutions. The University is investing $132,500 to hire a research computing professional to provide greater support for research activity, including data analysis, visualization, and GIS support.
Reports to the Office of the President

The programs reporting to the Office of the President are organized as depicted in following diagram.

![Diagram of Reports to the Office of the President]

Key context, challenges, and overarching themes:

Three themes emerged from the analysis of divisional programs:

- The majority of programs in this umbrella have strong customer service functions and ties to the brand and image of the University. Therefore, reallocations, investments, and structural realignments will increase the quality in several areas and result in enhanced reputation and constituent relations.
- Program Prioritization identified a number of opportunities for cross-divisional consolidation of operations, such as facilities maintenance, gift processing, and news programming.
- Maintaining up-to-date facilities and equipment is a costly challenge for several programs.

Quintiles

Program Prioritization resulted in assignment of programs into quintiles as depicted in Table XVI.

<table>
<thead>
<tr>

<td>17</td>
</tr>
<tr>
<td>% of total in quintile</td>
<td>30% 23% 18% 11% 18%</td>
</tr>
</tbody>
</table>

Examples of Planned Actions

The following are examples of actions planned to occur as a result of Program Prioritization:

- Campus partnerships in facilities operations and event management will be developed to improve efficiency and effectiveness of facilities operations in athletics and result in savings and potentially increased revenue to the overall athletic program.
- Centralization and consolidation of gift processing at Boise State Radio with the rest of campus will result in reduced administrative functions and allow reallocation of staff time to fundraising.
• The associate director for government relations position will be redefined to serve more critical needs in community relations.
• Transfer of university policy management from the President’s Office to the General Counsel’s office will create synergy with functions already assigned to the General Counsel’s office related to policy interpretation and compliance.
• A new investment in a shared position focused on journalism education will enhance the curriculum offered to students majoring in Communications, and will contribute to the news services and programming provided by Boise State Public Radio.
• Transfer of two programs currently outside of this umbrella – the sign shop and the print shop – to the division of Communications and Marketing will enhance their ability to manage and service the brand expectations of the university and needs of divisions across campus.
• Investments in additional staff and resources will enhance the quality and productivity of the division of Communications and Marketing and ensure that web and audio/visual services remain strong.
• Internal reallocations to support increased travel, training and an increase in staff will further strengthen already strong compliance and business functions in the Department of Athletics.
Division of Research and Economic Development

The programs of the Division of Research and Economic Development are organized as depicted in following diagram.

![Diagram of Division of Research and Economic Development]

Key context, challenges, and overarching themes:

Four themes emerged from the analysis of divisional programs:

- Each office in the division is understaffed in comparison to peer institutions. The mission and strategic plan of the University calls for continued growth in research. Our continued success in that realm (as evidenced by a doubling of research expenditures over the last several years) will require new resources as well as a more efficient use of existing resources.
- A sustained assessment program is needed in all units of the division to provide information needed for improvement, in order to ensure high-quality customer service.
- Better interoffice coordination and communication will increase divisional effectiveness and efficiency.
- Process improvements in the area of agreements and contracting are needed.

Quintiles

Program Prioritization resulted in assignment of programs into quintiles as depicted in Table XVII.

<table>
<thead>
<tr>
<th># of programs in quintile</th>
<th>First</th>
<th>Second</th>
<th>Third</th>
<th>Fourth</th>
<th>Fifth</th>
<th>Total Evaluated</th>
</tr>
</thead>

<td>1</td>
<td>1</td>
<td>2</td>
<td>1</td>
<td>1</td>
<td>6</td>
</tr>
<tr>
<td>% of total in quintile</td>
<td>16.7%</td>
<td>16.7%</td>
<td>33.3%</td>
<td>16.7%</td>
<td>16.7%</td>
<td></td>
</tr>
</tbody>
</table>

Note: Three programs underwent initial evaluation but were not placed into quintiles and are not included in the table above: The CAES Energy Efficiency Research Initiative and the Energy Policy Institute will be included in the next round of evaluation of Centers and Institutes. The Venture College is too new to have sufficient data to provide a robust evaluation.
Examples of Planned Actions

The following are examples of actions planned to occur as a result of Program Prioritization:

- The Story Initiative will be eliminated as a stand-alone initiative and will move to the Arts and Humanities Institute. Funds associated with the director position will be reallocated.
- The Office of Technology Transfer has improved efficiencies, enabling reallocation of one FTE.
- The division office will receive one reallocated FTE to support economic development activities.
- The division office will receive two additional FTE to serve as project coordinators in research development and grant writing. One FTE will be reallocated (from above) and the second will result from a University allocation during the FY2015 budgeting process.
Division of Student Affairs

The administrative and support programs of the Division of Student Affairs are organized as depicted in following diagram.

Key context, challenges, and overarching themes:

- Many of the units in the division have direct interactions with students and, consequently, have substantial influence on how students perceive the university. Therefore, it is important that units of the division pay particular attention to the quality of service provided to students.

- Program Prioritization identified a number of opportunities for cross-divisional coordination and/or consolidation of operations, such as facilities maintenance. For example, Student Affairs is investigating a potential restructuring of facilities maintenance, custodial, and conference service functions for its auxiliary units to align with those in the Division of Campus Operations and General Counsel and Intercollegiate Athletics.

- A number of very strong cross-dependencies exist between programs in the division and those in the Division of Academic Affairs. In a number of cases, effectiveness of programs will depend on the strength of collaborative relationships.

- Many of the programs in the division have a strong history in assessing program effectiveness. Program Prioritization provided the opportunity to build on that foundation and to develop assessment structures where they did not yet exist.

Quintiles

Program Prioritization resulted in assignment of programs into quintiles as depicted in Table XIII.

| Table XIII. Quintile Assignments in the Division of Student Affairs |
|---------------------------------------------------------------|------------------|----------------|----------------|----------------|----------------|
| Quintile assignments | Total Evaluated |
|---------------------|-----------------|----------------|----------------|----------------|----------------|
| Number of programs in quintile | 9 | 16 | 12 | 12 | 10 | 59 |
| Percent of total in quintile | 15.3% | 27.1% | 20.3% | 20.3% | 16.9% |
Examples of Planned Actions

The following are examples of actions planned to occur as a result of Program Prioritization:

- Move University Health Services from the Division of Student Affairs to the College of Health Sciences, in order to align with the college’s academic programs and create teaching and research clinic opportunities. This will enable students to gain additional exposure to real world instructional situations, and faculty members will be able to augment their instruction and research through actual practice within their professions.

- Consolidate International Student Services with Multicultural Student Services, in order to improve service to students by providing stronger leadership and a shift in focus from awareness programs to retention activities.

- In order to increase effectiveness in the delivery of scholarship funds to students: (i) realign personnel to create a position with strategic oversight of scholarships; and (ii) invest in a software package that will provide better management of funds and increase efficiency of delivery.

- Reorganize and repurpose the IT support unit entitled “Campus Community” by moving PeopleSoft support functions to the Office of Information Technology and data support and analysis to the Office of Enrollment Services.

- Strategically use facilities and assignment of office space to co-locate student service units, e.g., Disability Resource Center with Veteran’s Service, in order to increase administrative efficiencies, improve access, and enhance opportunities for training to meet the changing needs of students.
Division of University Advancement

The programs of the Division of University Advancement are organized as depicted in following diagram. Note that the University Foundation and the Division of University Advancement are connected via a Memorandum of Agreement and a shared mission, but not by formal reporting lines.

Key context, challenges, and overarching themes:

Three themes emerged from the analysis of divisional programs:

- Benchmarking against national studies consistently shows that fundraising and related donor and alumni functions at Boise State are under-budgeted, under-staffed, and have a higher return on investment than similar universities. This highlights a tremendous opportunity cost. Two specific areas understaffed are gift officers and research staff.
- The division routinely gathers and reports multiple types of data, analysis, and benchmarking information to a variety of agencies. However, Program Prioritization revealed that the division does not make optimal use of that data to support decision making or to improve understanding of the division’s contribution to academics.
- The results of Program Prioritization were consistent with recent consultant reports, business process reviews, and the proposed philanthropy growth plan.
- A number of opportunities exist to make use of social media and other electronic communication strategies to increase donor responsiveness and better connect with alumni.

Quintiles

Program Prioritization resulted in assignment of programs into quintiles as depicted in Table XIX.

Examples of Planned Actions

The following are examples of actions planned to occur as a result of Program Prioritization. The redistribution and investment of approximately $500,000 is estimated to yield an increase in annual income of more than $7 million.

- Dissolve an associate vice president position and reallocate resources to other functions.
- Invest reallocated funds in additional research and analytic capacity, especially in the area of data mining, in order to increase the number of identified potential donors and the productivity of gift officers.
- Invest reallocated and new university funds in the hiring of four additional gift officers over three years to increase overall productivity of the division. Distribute gift officers according to college prospect pool-giving capacity and periodically measure and report the return on investment in these positions.
- Implement findings of surveys of Boise State Alumni attitudes to guide alumni programming, communication, and annual giving strategies.
- Broaden responsibilities of the Foundation Chief Operating Officer to include those of Chief Investment Officer, in order to save consultant fees. Transition the Foundation from an actively managed fund to a passive index fund, in order to save annual investment fees.
Division of Academic Affairs

The administrative and support programs of the Division of Academic Affairs that were evaluated during Program Prioritization are organized as depicted in the following diagram.

![Diagram of Division of Academic Affairs]

**Key context, challenges, and overarching themes:**

Five themes emerged from the analysis of divisional programs:

- Many programs have strong interdependence with programs in other divisions. Cross-divisional initiatives and processes are challenging and require substantial collaboration among individuals that do not share reporting lines.
- Several programs have a strong connection to students, and will therefore color student perceptions of the university and affect student success. Several such programs are substantially under-resourced compared to peer institutions.
- Program Prioritization reinforced the centrality and importance of our Foundational Studies Program for undergraduate majors.

**Quintiles**

Program Prioritization resulted in assignment of programs into quintiles as depicted in Table XX.

<table>
<thead>
<tr>
<th>Quintile Assignments in the Administrative and Support Programs of the Division of Academic Affairs</th>
</tr>
</thead>
<tbody>
<tr>
<td>Quintile assignments</td>
</tr>
<tr>
<td># of programs in quintile</td>
</tr>
<tr>
<td>% of total in quintile</td>
</tr>
<tr>
<td>Total Evaluated</td>
</tr>
</tbody>
</table>

**Examples of Planned Actions**

The following are examples of actions planned to occur as a result of Program Prioritization:

- The Office of Academic Technologies will be restructured into two new units: (i) a Learning Technologies Solutions unit within the Office of Information Technology will focus on providing leading-edge technological infrastructure to support learning; and (ii) a unit within the Center for Teaching and Learning will focus on design of courses with the intentional incorporation of technology.
- Resources will be reallocated from the Meridian Center and relatively low-demand regional sites at Gowen Field and Mountain Home to staff (i) degree completion programs
housed at the College of Western Idaho and (ii) AfterWork programs that serve non-traditional students.

- Albertson Library will: (i) eliminate an associate dean position and reallocate the resources to library content; and (ii) make shifts in subscription and changes to purchasing policy that enable the reallocation of $183k to other library content.
- The Graduate College will restructure its front office and thesis/dissertation staff to improve operations with the use of funds reallocated from retirement salary savings and operating expense.
- Service Learning, International Learning, and Student Research will be co-located and integrated to align the applied learning opportunities with the university learning outcomes; streamline the in-take, orientation, reflection and assessment process for students and partners; and enhance faculty development in these areas.
Centers and Institutes  
(Divisions of Academic Affairs and Research & Economic Development)

Key context, challenges, and overarching themes:

- Evaluation of Centers and Institutes was well underway before Program Prioritization was initiated. Fortunately, it was reasonable to modify the Centers and Institutes evaluation process to mesh with Program Prioritization.

- A number of Centers and Institutes operate on very small budgets and could have considerably greater impact with additional investment in infrastructural support. Program Prioritization has provided information that will help the university to prioritize such investments.

Quintiles

Program Prioritization resulted in assignment of programs into quintiles as depicted in Table XXI.

<table>
<thead>
<tr>
<th>Table XXI. Quintile Assignments of the Centers and Institutes of the University</th>
</tr>
</thead>
<tbody>
<tr>
<td>Quintile assignments</td>
</tr>
<tr>
<td># of programs in quintile</td>
</tr>
<tr>
<td>Percent of total in quintile</td>
</tr>
</tbody>
</table>

Note: Eight additional centers, institutes, core facilities, and laboratories were initially evaluated, but were deemed to not be true centers or institutes as defined by BSU Policy 5000. Instead these entities are, for example, service centers, and instructional support units. Several were evaluated in other parts of this report.

Categories of Planned Actions

- **First Quintile**: In general, these programs are doing very well. No actions are required, but improvements and/or expansions were suggested, where appropriate.

- **Second Quintile**: In general, these programs are also doing well, but suggestions made by the review committee were more substantial. Examples of suggested changes include: (i) strengthen the relationship between a Center and the associated academic department to ensure value is added; (ii) Increase student involvement; and (iii) involve a broader community of faculty.

- **Third Quintile**: Programs in this quintile are required to submit a new business plan within one year to ensure financial viability.

- **Fourth Quintile**: Programs in this quintile are required to provide a new business plan within one year to ensure financial viability. In addition, each program is required to develop a new strategy to increase the impact of the Center/Institute. Examples of issues raised are: (i) a need to substantially increase involvement of faculty from a variety of disciplines; and (ii) a need to broaden extramural grant support.

- **Fifth Quintile**: Programs in the fifth quintile are required to be substantially improved or they will be discontinued.
Sustaining the Process, Lessons Learned, and Next Steps

In many ways, Program Prioritization is not new to Boise State University. Many programs undergo regular and rigorous evaluation. Programs are discontinued if they are undersubscribed and new programs are created to serve identified needs in the community. Programs and departments are reorganized as needed to improve operations and implement efficiencies.

That said, we can always do more. We used Program Prioritization as an opportunity to scrutinize all operations, structures, and programs together in a systematic fashion, in order to identify ways to improve them and realign resources. Now that the year-long process has come to a close, we will make every attempt to sustain the benefits of systematic assessment.

Aspects of the process especially relevant to its long-term sustainability:

- For the first time ever, all programs were put on the table and evaluated at the same time. This model of evaluation enabled us to make comparisons among programs and require substantial changes from a significant proportion of them.

- We have identified metrics for evaluating the efficiency and effectiveness of all administrative and support programs. For some programs, well-established metrics were further refined for use in Program Prioritization. For others, Program Prioritization required that metrics be developed for the first time. The next step is to ensure that all metrics are effective and robust.

- We refined metrics for academic departments and instructional programs and used them as a basis for requiring action. The next step is to further refine the metrics and focus on those that are the most meaningful and robust.

- Although Program Prioritization focused on individual programs, the process brought to light opportunities that involve multiple programs.
  - We made significant changes to organizational structure, in some cases involving cross-divisional shifts of programs and/or responsibilities. The next step is to institutionalize the process for periodically examining organizational structure for the purpose of maximizing the effectiveness and efficiency of the University.
  - There are a number of strong interdependencies among programs that reside within different reporting structures, highlighting the need to ensure collaboration among those programs.
  - There are a number of duplicative functions, for example, several facilities maintenance and IT support operations on campus, indicating the need to research additional opportunities for consolidation.

- Because the process focused on individual programs, it was not explicitly tied to campus-wide issues such as diversity and campus climate. We must continue to develop initiatives in those realms, in addition to the work associated with Program Prioritization.

In the sections that follow we describe four areas in which we must focus our activity, in order to ensure the long-term sustainability of the benefits gained from Program Prioritization.
1. Follow-up on Implementation of Program Prioritization Action Plans

As a way of tracking implementation of the actions outlined in divisional reports to the President, each division will create a checklist of key actions proposed for each program, categorized by (i) reorganization, (ii) improvement, and (iii) resource investment/savings. Each action will have a time-frame ascribed to it. The Office of the President will evaluate progress on implementation as part of the yearly evaluation of each Vice President. The checklists will provide a mechanism to communicate to the campus community the changes brought about by Program Prioritization and ensure that actions are taken.

2. Enhance Our Analytic Capability

Key to our making the most of Program Prioritization will be the expansion of all aspects of our capability to analyze and make use of data on unit and organizational performance.

Refinement and Finalization of Metrics

First, we must refine and finalize the assessment metrics to be used going forward. As we do so we will pay attention to a quote attributed to Albert Einstein, “Not all that counts can be counted; not all that can be counted counts.” That is, we will not use a metric merely because it is convenient and easily measured, rather it must effectively measure the targeted criterion.

As required by NWCCU accreditation, we have developed key performance indicators (KPIs) to assess university-wide performance in terms of our four core themes: undergraduate education, graduate education, research and creative activity, and community engagement. And we have developed KPIs to assess our progress in meeting the goals of our strategic plan, Focus on Effectiveness 2012-17, as well as our Strategic Enrollment plan. As a next step, we will ensure that the three sets of KPIs are consistent where it makes sense. More importantly, we will carefully evaluate the KPIs to ensure they are effective indicators of success.

Refinement and finalization of metrics for academic departments, instructional programs, administrative and support programs are discussed below.

Data Integrity and Quality

Each of the elements above (metrics, reports, and analytical tools) is only valuable if the underlying data is accurate and consistent. Two broad strategies are underway in this realm.

First, data held within core systems is presently being scrutinized, and in some cases converted to new structures, in order to provide a better foundational base for reporting. Examples of improvements from projects underway include:

- The revised core configuration within the Human Resource PeopleSoft system will address consistency of data elements. Data is being scrubbed and converted to eliminate errors. For example, should a student employee who teaches be counted as an adjunct instructor or a student?
- A data dictionary for end users will facilitate understanding of which data elements will provide the information required to develop metrics or answer questions correctly.
• Processes are under development that will eliminate manual interpretation and data entry in the Human Resource system, thereby improving data accuracy.
• An analysis of the current chart of accounts is addressing the evolving complexity of the University. As the organization moves from a traditional “siloed” hierarchy to a more collaborative cross-divisional operation, data must be easily accessible to facilitate analyses. Security structures must still allow diverse views into the data.

Second, the University has recently created a Data Quality Council that has the charge, “To improve data quality and promote consistency in the definition and use of data at Boise State University.” The Council will: (i) identify data quality issues that hinder accurate and consistent data applications; (ii) define clear and commonly-used structures, models, definitions, and processes to support coordination and collaboration, effective decision-support, and efficient use of University resources around data quality; (iii) provide guidance and recommendations concerning our institutional data needs, including how we identify and capture data elements; and (iv) ensure access to data needed by various units at the University.

**Reporting the Data**

We will increase the availability and utility of metrics in several ways. First, we will create a series of dashboards to increase the visibility of our university-wide KPIs, in order to better inform the public and campus community of our progress and performance. The KPIs will, by definition, constitute our “official reporting,” helping with consistency of data definitions and vertical alignment from high level KPIs to unit performance.

Second, we will standardize periodic reporting to ensure that units are gathering appropriate data for their metrics and fully understand which metrics are focused on what criteria when measuring performance.

An important consideration for all metrics is ensuring the availability of data needed to evaluate programs. For all academic departments, instructional programs, and many administrative and support units, the data warehouse will be key, and we must ensure that (i) the appropriate data is extracted from PeopleSoft, (ii) other non-PeopleSoft data sources are pulled into the data warehouse, and (iii) the reports created to make the data available are accurate and useful.

**Development of Tools and Operational Reports**

The importance of enhancing our analytic capacity is greater than simply measuring our performance: it will increase effectiveness by supporting operations and decision making.

Development of specific analytic tools, each consisting of a set of interrelated reports and analyses, will help us to focus on and solve particular challenges. For example, this spring we are developing several analytic tools focused on increasing student success. Additional analytic tools are required to maximize the efficiency of course offerings and reduce the impact of bottleneck courses.

Enhancement of operational reporting will increase the effectiveness of our units. Reports must provide accurate and timely data in a form that is understandable and user-friendly.
Data to Information to Insight

As important as ensuring easy access to accurate data is ensuring that the data is used wisely. Thus, we will focus on building knowledge from data, increasing understanding of the meaning of data, drawing appropriate conclusions, and advancing a culture of data-informed decision making.

3. Enhance Evaluation of Instructional Programs and Academic Departments

Refinement of Metrics

During the next year, refinement and finalization of metrics for academic departments and programs will focus on ensuring: (i) the utility of the metrics in accurately evaluating the relevance, quality, productivity, and efficiency of departments/programs; (ii) the alignment of metrics across instructional programs, departments, colleges, and university; and (iii) the quality of the data being used for each metric.

Enhanced Assessment of Learning Outcomes

Key to ensuring the quality of our instructional programs is the use of a rigorous process of assessment of expected learning outcomes, in order to improve program quality and student learning. It is important to note that the assessment of learning outcomes is a primary focus of regional accreditation. At Boise State, two sets of learning outcomes must be assessed:

- University Learning Outcomes (ULOs) fall into the following categories: written and oral communication (ULOs 1-2); critical inquiry, innovation, and teamwork (ULOs 3-4); civic and ethical foundations (ULOs 5-6); and disciplinary specific learning outcomes (ULOs 7-11). Students are expected to achieve these outcomes through coursework in the Foundational Studies Program, and through coursework and activities in the major, as well as co-curricular activities.
- Program Learning Outcomes (PLOs) are defined by individual instructional programs as the set of skills and knowledge that should have been mastered by a graduate of the program.

The University is in the midst of implementing an ePortfolio program using the software package “Digication,” which will provide a structure for assessing ULOs and PLOs. ePortfolios enable students to show instructors, employers, graduate schools, and other students the knowledge and expertise attained. They are creative, powerful, and flexible digital tools that provide showcases of students' coursework, activities, and ideas and that encourage students to curate artifacts of their learning and reflect on these activities.

Creation and Discontinuation of Instructional Programs

The following actions will help ensure that instructional programs are relevant, high quality, productive, and efficient, discontinuing (or reinventing) those that are not.

- A new College of Innovation and Design will serve a key role in creating new academic programs that are relevant to the needs of society and our students. Often, the needs of society evolve more quickly than change can occur within a specific discipline. The
college will breach the constraints of individual disciplines by facilitating the creation of transdisciplinary academic programs that pull together knowledge and skills from multiple disciplines. The college has begun its work with an initial Request for Proposals for undergraduate degree programs, certificates, minors, or badges. Twenty-four proposals were received and it is anticipated that several new programs will be developed as a result.

- As part of our Strategic Enrollment Plan, we are in the process of developing methods to identify the instructional programs in which we should invest to fulfill the goals of (i) producing college graduates to help the state achieve the 60% goal of Complete College Idaho and (ii) producing college graduates that fulfill the needs of society. The criteria used include: (i) capacity for additional students; (ii) cost efficiency; (iii) societal need and student demand; and (iv) ability of students to progress to graduation in a timely fashion.
- Thresholds for average annual number of graduates from instructional programs will be established along the lines of those used for flagging programs during Program Prioritization. Instructional programs with a three year running average number of graduates less than the threshold value will be required to take action to increase the number of graduates or be discontinued, unless there is a compelling reason to keep a program that produces relatively few graduates.

**Enhanced Periodic Review Process**

Presently, each academic department is required to go through Periodic Review every five years. The process involves: (i) supplying a wide range of data to the department, including the number of graduates, enrollments, and student survey information; (ii) preparation by the department of a self-study that addresses instructional programs, research, and service; (iii) evaluation of the program by external reviewers; and (iv) preparation of an action plan to address any weaknesses and opportunities identified by the reviewers.

The Periodic Review process will be revised as follows:

- Metrics supplied at the beginning of the process will be expanded, standardized, and coordinated with annual reports supplied to the departments.
- Metrics will be put in the context of (i) other departments at the university and (ii) peers from the Delaware Study, where appropriate.
- Metrics will be subjected to a preliminary self-study analysis by the Provost’s Office to identify specific concerns that need to be addressed in the self-study. Areas of focus of that analysis will include: (i) low progress to graduation; (ii) low student satisfaction with the program and/or faculty, as indicated by surveys; (iii) weak assessment of program expected learning outcomes; (iv) low teaching loads in the context of research/creative activity output; (v) high instructional costs relative to peers; (vi) low number of graduates per faculty member; and (vii) small average class size.
- As part of the self-study, departments will be required to develop action plans to address specific concerns raised by the above analysis. For some areas of concern a more in-depth analysis might be required, such a review of curriculum structure, looking for unnecessary prerequisites or other requirements.
4. Enhance Evaluation of Administrative and Support Programs

Refinement of Metrics

Refinement and finalization of unit-level and department-level metrics for administrative and support programs is a challenge because of the high amount of variation among units in their functions and outputs. As noted earlier, all programs developed metrics. However, an examination of those metrics revealed that some were measures of activity instead of impact. Therefore, during 2014-15 we will undertake a campus-wide evaluation of the set of metrics for each unit to ensure that, taken together, they will enable an outside reviewer to evaluate the overall effectiveness and efficiency of the unit. Metrics will also be evaluated for alignment with, and contribution to, university-wide KPIs.

Continued Implementation of Focus on Effectiveness 2012-17

Goal 5 of the University’s strategic plan reads, “Transform our operations to serve the contemporary mission of the university.” One of the strategic projects developed as part of the implementation of *Focus on Effectiveness* is entitled “Achieve Institutional Effectiveness through Comprehensive and Systematic Assessment” and is described as follows:

> *This project will create a structure to ensure systematic and sustained assessment, at both the unit and university levels, of our effectiveness as an institution. Assessment will be used to improve our performance, understand the impact of those improvements, and to hold ourselves accountable.*

The implementation of this strategic project was purposely delayed until after Program Prioritization was complete. Program Prioritization has provided the foundation for the implementation of this project, which will develop a key method to sustain the benefits we have gained during the process.

As part of finalizing implementation of the “comprehensive and systematic assessment” strategic project, we will undertake the following:

- Refine and finalize unit-level metrics as described above.
- Develop a periodic reporting framework tied to the Annual Planning and Budget Process.
  - Each unit at the university will report on its performance and improvements made during the past year.
  - Each division will provide an evaluation of the performance and improvements reported by each unit in that division.
- Develop a periodic review cycle, similar to that used by academic departments, which will provide each unit with the opportunity to take an in-depth look at its operations and performance. The review will focus on alignment with the university’s mission, contribution to the core themes, unit effectiveness and efficiency, and improvements made.

Another part of the implementation of this strategic project will focus on cross-unit and cross-divisional business processes, functions, and operations. There are two common challenges: (i) too often cross-unit processes affect and have tasks divided among the units, but no one unit owns and is ultimately responsible for ensuring the effectiveness and efficiency of the entire
process (ii) there is often insufficient bandwidth in existing units to engage in all that is required for process improvement. Two examples illustrate how our work at the cross-unit level will occur.

- We will use the new Systems and Process Improvement (S&PI) unit recently formed in the Division of Finance and Administration as a model for facilitating process improvement in other divisions. S&PI functions by: (i) doing much of the legwork required to enable process improvement, including identification of processes in need of improvement, analysis of relevant policies and procedures, and providing data analysis and monitoring; and (ii) bringing together key individuals to work through the existing process and design improvements.

- Another of our strategic projects, “Strengthening the Structure and Operations of Academic Departments,” involves partnership primarily between the Divisions of Academic Affairs and Finance and Administration. A consultant’s report has identified a number of actions that would greatly increase the effectiveness of academic departments by (i) restructuring the support staff within departments and colleges, and (ii) increasing the leadership role of department chairs.

Regional Accreditation

The new standards for regional accreditation by the Northwest Commission on Colleges and Universities focus on providing evidence of mission fulfillment. Each university is required to develop a set of core themes that elaborate on a key aspect of the mission; Boise State’s core themes are Undergraduate Education, Graduate Education, Research and Creative Activity, and Community Commitment. This process requires institutions to develop an assessment structure that demonstrates institution-level performance relative to the university mission, and unit-level effectiveness and alignment with that mission.

Two NWCCU standards give guidance.

The overall description for Standard Two: Resources and Capacity reads:

*By documenting the adequacy of its resources and capacity, the institution demonstrates the potential to fulfill its mission, accomplish its core theme objectives, and achieve the intended outcomes of its programs and services, wherever offered and however delivered. Through its governance and decision-making structures, the institution establishes, reviews regularly, and revises, as necessary, policies and procedures that promote effective management and operation of the institution.*

The 89 specific elements of Standard 2 each address a specific aspect of the resources and capacity of the university. In some cases the element requires a specific action for compliance, but in many cases the element specifically addresses the effectiveness of a particular unit or set of units at the university in helping the university accomplish its mission. The following element demonstrates this sort of language.

*2.D.10 The institution designs, maintains, and evaluates a systematic and effective program of academic advisement to support student development and success. Personnel responsible for advising students are knowledgeable of the curriculum, program*
requirements, and graduation requirements and are adequately prepared to successfully fulfill their responsibilities. Advising requirements and responsibilities are defined, published, and made available to students.

This and other elements specifically require that units within the university have working systems to evaluate their effectiveness.

Standard Four (Effectiveness and Improvement) provides guidance on a broader scale, requiring the institution to “regularly and systematically [collect] data related to clearly defined indicators of achievement, [analyze] those data, and [formulate] evidence-based evaluations of the achievement of core theme objectives.” The following elements of Standard Four are particularly relevant:

4.A.1 The institution engages in ongoing systematic collection and analysis of meaningful, assessable, and verifiable data—quantitative and/or qualitative, as appropriate to its indicators of achievement—as the basis for evaluating the accomplishment of its core theme objectives.

4.A.2 (first part) The institution engages in an effective system of evaluation of its programs and services, wherever offered and however delivered, to evaluate achievement of clearly identified program goals or intended outcomes.

4.B.1 Results of core theme assessments and results of assessments of programs and services are: a) based on meaningful institutionally identified indicators of achievement; b) used for improvement by informing planning, decision making, and allocation of resources and capacity; and c) made available to appropriate constituencies in a timely manner.

These elements require that we create an ongoing, systematic structure for measurement of institutional and unit-level effectiveness, and that we use the resulting information to continue to improve the University.
Appendices: Key Process Documents (following pages)

I. Academic Metrics .......................................................... 46
II. Template and Rubric for Report from Administrative and Support Units ..... 56
III. Template and Rubric for Degree and Graduate Cert Programs ............... 62
IV. Program Assessment Report and Rubric .......................................................... 67
V. Template for Action Plan for Degree and Graduate Cert Programs .......... 70
VI. Templates for Minors, Emphases, Options, Alternate Degrees................. 72
VII. Centers and Institutes Reporting Form ......................................................... 77
Criteria: Five criteria will be used to evaluate programs. The first four (relevance, quality, productivity, and efficiency) will be used for initial categorization. The fifth criterion (opportunity analysis) will be used to inform decisions on specific actions.

- Relevance: Alignment with university mission and strategic plan; essentiality to core functions of the university; demand for program or service; alignment of service with needs.

- Quality: Evidence of success in achieving goals; evidence of assessment and improvement; distinctiveness and reputational impact.

- Productivity: Output or production per investment of time or resources.

- Efficiency: Here defined to reflect the operational effectiveness of the program. For example, for an instructional program, a key component of efficiency is ability of students to progress in a timely manner.

- Opportunity Analysis: A description of enhancements that can be made to address unmet needs and/or better advance the goals of the university.

Weighting: The relative “weight” given to each of the criteria. Weightings are to-be-determined.

Data/Information Sources: Metrics in the tables that follow are in two categories corresponding to the source.

- “Data from IR” will be data provided, in easy to use format, by the Office of Institutional Research. The primary source of that data will be the Data Warehouse. Departments will be given the opportunity to verify that data.

- “Info from Dept” will be information provided by the department, and will consist of (i) qualitative and quantitative information in response to specific prompts (ii) additional information that the department regards relevant, and (iii) contextual information to help ensure that information provided by Institutional Research is interpreted correctly.

Key acronyms: IR: Office of Institutional Research; SCH: Student Credit Hours; FTE: Full time equivalent.
**Scales of Analysis:** Programs will be evaluated at three scales:
- Each emphasis or option, each minor, and each alternate degree (e.g., M.S. and M.Engr.)
- Each degree and certificate program (with all emphases, options, and alternate degrees consolidated within the appropriate degree program).
- Each academic department.

In the process of Program Prioritization, “Programs” should be defined in a way that facilitates the assessment and improvement of discrete university functions or activities. The three scales of analysis listed above are appropriate for academic departments. For each scale, deans will compare and make action-oriented decisions using a different set of metrics. There is substantial overlap in the functionality of those three scales; consequently, the analyses and subsequent actions will also overlap. In particular, degree/certificate program metrics roll up to constitute one of six components of department function. Those elements are: (i) offering of degree & certificate programs, (ii) other instructional activity, e.g., Disciplinary Lens courses and service courses for other departments, (iii) research and creative activity, (iv) service and community outreach, (v) advising and graduation success, and (vi) department administrative structure and support.

---

**Emphasis & Minor Scale Metrics: Applied to each emphasis, options, minor, and alternate degree (e.g., M.S. vs. M.Engr.).**

Note: Some emphases and options are distinct enough from other program components and popular enough that they are candidates for becoming separate degree programs. Those emphases/options should be evaluated using “instructional program scale metrics” below.

### Department Scale (continued)

**Opportunity Analysis: What changes could be made to increase impact?**

Examples of potential items to include:

• Proposal to create a new transdisciplinary academic program.
• Identification of barriers to success (in all aspects of department function)
• As reasonable, proposals for solution to those barriers (including, as possible, budget-neutral solutions)
• Proposal for internal shift of resources to produce greater impact
• Proposal for department-level and/or broader scale reorganization/restructuring to increase university impact and/or efficiency.
• Proposal for increased impact with additional investment
Notes:
“Additional considerations & context” and “Improvements/innovations, additional considerations, & context” are prompts for the department to do three things:

- In those cells where information on innovations/improvements is not already sought, the department may describe any key innovations and improvements made that are relevant to that cell (e.g., describe innovations/improvements in the cell focused on relevance of research/creative activity).
- The department should provide context for data provided by Institutional Research so as to prevent misinterpretation of the data by individuals unfamiliar with the context of the department. A very simple example would be to note that a paucity of graduates is the result of the newness of a program.
- It is impossible to list in this document every possible type of evidence a department might bring to bear regarding its relevance, quality, productivity, and efficiency. Departments are encouraged to provide additional evidence such as surveys conducted by the department, benchmark data specific to the discipline, information from professional accreditation reviews, and description of impacts on particular student populations (e.g., underrepresented groups), etc.

Note 1: If there are courses that are required only by a particular emphasis/minor, then a department typically must continue to offer those courses if it continues to offer the emphasis/minor. This information will be relevant if there are few graduates from that emphasis/minor and if enrollments in those courses are overly small.

Note 2: The alumni survey has been offered for decades. For the last two administrations of the alumni survey, the response rates have been: 2007-2008 graduates administered in 2009-10 - 42%; 2009-2010 graduates administered in 2011-12 - 54%. The survey is administered every other year to graduates who are one year out. The 2013-14 survey of 2011-12 graduates was sent out in early October, 2013, and results will be available to be used in the process. Graduate students and undergraduates will be reported separately. Results of the survey will only be used when there are sufficient responses to provide relatively reliable information.

Note 3: Responses to the following questions: i) “How well did BSU prepare you for your current employment?” ii) “How well did BSU prepare you for graduate/professional school?” iii) “How often are you using knowledge and skills acquired at BSU in your job?”

Note 4: Responses to the following: “How much did your major/academic department contribute to your current level of engagement in in the following:” “community service or volunteer work;” “involvement in community or civic organizations, church activities, etc.;” “voting in local, state, or national elections;” and “attending arts and cultural events.” Four answers varying from “extensively” to “little or none.” Note that this question was added for the Fall 2013 Alumni Survey only, and so sample sizes may be lower than for other questions.

Note 6: The graduating student survey has been conducted since 1996; the response rates from the last three administrations of the survey are as follows: Fall 10 - SP 11, 52%; Fall 11- SP 12, 42%; Fall 12-SP 13, 39%. Three years of data will be combined to give better sample sizes. Graduate students and undergraduates will be reported separately. Results of the survey will only be used when there are sufficient responses to provide relatively reliable information.

Note 7: Responses to the following questions: i) “How well did BSU prepare you for your current employment?” ii) “How well did BSU prepare you for graduate/professional school?” iii) “How often are you using knowledge and skills acquired at BSU in your job?”

Note 8: Responses to the following two statements: i) “Faculty were outstanding teachers”; ii) “Faculty members were genuinely interested in the welfare of the students.”

Note 9: Responses to the following questions: i) “If you could start over again would you choose the same major at Boise State?” ii) “Would you recommend to current students that they select your major program at Boise State?”

Note 10: Analysis will be limited to students graduating with a single degree/single major and focused on native students (i.e., those that did not transfer).

Note 11: The reason that the attrition and time to degree measure are focused on doctoral programs is that many of our master’s programs are professional programs, such as the MBA, which serve a population that includes many part-time students. Attrition and time to degree are not good measures of programs with substantial numbers of part-time students.

Note 12: Measured as proportion of juniors enrolled in a major at 10th day fall semester who re-enroll the following fall in a major in the same department.

Note 13: Departments have the opportunity to describe innovations/improvements made to increase the productivity/efficiency of their offering of degree programs, and to provide evidence of the success of those efforts. Three potential examples: (i) streamlining of the curriculum to enable student to progress in a timely fashion, thereby reducing the number of credits at graduation and the rate of graduation of those students, (ii) reducing the number of very low enrollment “boutique” classes offered for the major, thereby increasing the efficient use of faculty FTE and increasing the per-FTE number of credits offered and number of graduates, (iii) streamlining the curriculum, while maintaining quality of the program, to enable a department to devote additional FTE to research. Note that innovations/improvements regarding quality and relevance were asked about at the degree/certificate program level.

Note 14: Responses regarding the following statement: “A number of courses covered the same material and were redundant.”

Note 15: Responses regarding the following statement: “Many department courses were not offered at the right time for me.”

Note 16: This measure will quantify the offering, by a department, of courses that are so small that they require an inordinate investment of faculty time for the instructional value of the course. An analogous situation is the use by Extended Studies of enrollment thresholds below which a class does not “make” because there is not enough income from the course to justify its offering. In the case of program prioritization, the thresholds will be lower and will focus on lecture and lab courses, and will exclude classes focused on individual students (e.g., directed research, independent study, private
lessons, etc.). The specific thresholds are yet to be developed; the undergraduate threshold will be higher than the graduate threshold.

Note 17: “The Delaware Study” is the informal title of the “National Study of Instructional Costs and Productivity,” which is administered by the University of Delaware. Additional information can be found at http://www.udel.edu/IR/cost/brochure.html. The study provides national benchmark information on four aspects of department function: teaching loads of tenured/tenure track faculty members, proportion of undergraduate teaching carried out by regular faculty members, cost per credit hour, and externally funded research per faculty member. Departments will be provided with the raw data used to produce the ratios for their departments so that the data may be verified.

Note 18: Undergraduate teaching proportion by full time faculty members is calculated as the percent of total undergraduate credit hours that are taught by full time faculty members. “… as a percent of peer” is then calculated. Note that the peer group is not Boise State’s SBOE approved peer group, but is instead the set of all public universities that are classified as “research” (which includes the Carnegie Basic classifications at the doctoral level) or “comprehensive” (which includes the Carnegie Basic classifications at the master’s level).

Note 19: Initial ratio is calculated as total student credit hours at all levels per budgeted costs (including local and appropriated funds) of the instructional personnel who offered those credit hours. The ratio is then compared to peer data at the level that best matches the department: “Research” for departments that offer doctoral degrees and “Comprehensive” for those departments that do not offer doctoral degrees. “Cost of instruction as a percent of peer” is then calculated. Note that the peer group is not Boise State’s SBOE approved peer group, but is instead the set of all public universities that are classified as “research” (which includes the Carnegie Basic classifications at the doctoral level) or “comprehensive” (which includes the Carnegie Basic classifications at the master’s level).

Note 20: Includes credits taught by a department’s faculty member in courses not offered by the department, e.g., University Foundation courses, cross-listed courses, and college-level courses (e.g., MBA or ENGR).

Note 21: Digital Measures reports will quantify numbers of peer-reviewed publications, other publications, exhibitions, performances, etc. For artistic performances, exhibitions, etc., the level of the venue can be used to give an approximation of quality and impact, and the same applies to presentations at conferences. For publications, the options are more limited. Peer-reviewed vs. not peer-reviewed is one way to determine quality/impact. However, Digital Measures does not include such quantifications as impact factor. Department Chairs will have the opportunity to identify research/creative activity of high impact/quality.

Note 22: The initial ratio is calculated as research expenditures per tenured/tenure track faculty FTE. The ratio is then compared to peer data at the level that best matches the department: “Research” for departments that offer doctoral degrees and “Comprehensive” for those departments that do not offer doctoral degrees. “Cost of instruction as a percent of peer” is then calculated. Note that the peer group is not Boise State’s SBOE approved peer group, but is instead the set of all public universities that are classified as “research” (which includes the Carnegie Basic classifications at the doctoral level) or “comprehensive” (which includes the Carnegie Basic classifications at the master’s level). Note that this ratio is only calculated for those departments for which the appropriate peer ratio is greater than $0 per faculty member.
Note 23: This measure will compensate, to a certain extent, for the fact that another metric, research expenditures, is assigned to the department of the Principal Investigator, with the result that if a Co-Principal Investigator is in a different department, the Co-PI’s department would receive no credit for that grant. The “collaboration” measure will consist the percentage of a department’s grants that involve collaboration with PIs or Co-PIs in other departments.

Note 24: A community partnership can be contrasted with community outreach (see next note), and focuses on collaboration that results in benefits to both the community and the campus. The definition of community partnerships as used by the Carnegie Foundation is “collaborative interactions with community and related scholarship for the mutually beneficial exchange, exploration, and application of knowledge, information, and resources.”

Note 25: Community outreach can be contrasted with community partnership (see previous note), and consists of the university providing some sort of resource or service to the community. The definition as used by the Carnegie Foundation is “the application and provision of institutional resources for community use with benefits to both campus and community.”

Note 26: Responses to the following statements: “I received sound academic advice;” “My advisor: Is a helpful, effective advisor whom I would recommend to other students.”

Note 27: Responses to the following statements: “There was good communication between faculty and students regarding student needs/concerns”; ii) “Many opportunities existed outside of class for interactions between students and faculty”; iii) “The interactions and discussions with my peers in the department were a major source of motivation and support.”

Note 28: Responses to the following question: “While a student at Boise State University, did you meet with an advisor at least every year?”

Note 29: Responses to the following statement: “I had to delay graduation because of course availability.”

Note 30: Analysis will be limited to students graduating with a single degree/single major. Average credits at graduation will be analyzed in two ways: (i) The average credits at graduation will be calculated for students who began at Boise State (i.e., “native” students). This will provide a relative measure of how easily a student can progress to a degree here. (ii) The differential between native students and transfer students in number of credits at graduation will be calculated. This will provide a relative measure of the difficulty a student has in transferring credits for the major.
Administrative & Support Program Review Questionnaire (Program Assessment Report) for University Program Prioritization

Step 1: Please identify the program. A program is any activity or collection of activities that consumes resources (i.e., dollars, people, time, space, equipment, etc.). For your responsible area, please identify the major, significant activities that consume resources and complete one questionnaire for each of these programs. A program may follow org chart guidelines (i.e., a department) or a function (i.e., compliance). Collectively, all activities within an area must be represented within a program. Please keep in mind that areas are encouraged to keep programs broadly defined, so as not to produce more programs that can be reasonably evaluated.

1.a. Program Name/Description. Please provide a 3 to 5 sentence description of the program.
1.b. Administrator:
1.c. Department/Unit:
1.d. Please identify the number of FTE in this program. Attach an organization chart, if applicable.
1.e. What are the total costs of the program by funding source (local, appropriated, one-time, etc.) and expense category (salaries, O&E, travel, etc., excluding capital expenses)? Itemize major operating expenses associated with university wide contracts.

Step 2: Relevance. This measure is intended to demonstrate the importance of the Administrative/support program and how that program is aligned with and supports the mission and strategic plan of the university. In addition, this criterion measures the, overall essentiality and demand for its function.

2.a. Please describe how this program and its elements align and support the University’s mission and strategic plan.
2.b. Is this this program required? If so, please elaborate using specific examples as evidence.
2.c. Are there current or proposed state, regional, or local mandates, or new policies or laws that impact external/internal demand for the program services or operations?
2.d. What are the essential services/functions your program provides?
2.e. What is the demand for these services? And, how is that demand measured? How do you expect the demand change in the future and what are the drivers of that change?
2.f. For whom are the services/functions provided? Who are the direct, indirect and primary customers?
2.g. Are there any internal or outsourced programs/units providing similar services? If so, how do the services offered by this program differ from theirs?

Step 3: Quality. This measure is intended to identify the ability of the administrative or support program to meet its stakeholder needs, including evidence of the quality of services performed and how the services provided align with customer expectations.

3.a. How do you assess the quality and effectiveness of what you do?
3.b. What measures do you use and with what regularity?
3.c. How effective/well are functions executed and services provided? Please provide evidence from assessment measures to demonstrate how well the services provided by the program meet the expectations of the customers, including survey results, etc.
3.d. Please elaborate on personnel related occurrences within the program that have an impact to quality of services provided such as training for personnel, staff turnover, complexity of role, expertise, etc.

**Step 4: Productivity.** This measure is intended to assess not only the quantity of the output of the program, but the overall impact of the work. In addition, the measure includes a scan of potential improvements that could influence overall productivity.

4.a. What are the measures by which you measure program impact?

4.b. Please provide evidence from measures that demonstrate the volume of work performed by this program, such as average turnaround times, and average backlogs.

4.c. Please provide national benchmark data addressing how the resources of the program compare with national averages. Please describe why/how the benchmark was selected as the most appropriate.

4.d. Are there improvements that could be made to save on labor or to improve the product/services offered in the following categories? If so, describe in detail the efficiencies that could be gained.
   - a. Technology improvements.
   - b. Business process improvements.
   - c. Collaborative opportunities.

**Step 5: Efficiency.** This measure is intended to demonstrate the amount of work being performed and how resourcefully those tasks are performed.

5.a. Please describe the scope of duties performed for this program. Please provide information in major categories and percentage of effort.

5.b. Please provide national benchmark data addressing how the resources of the program compare with national averages. Please describe why/how the benchmark was selected as the most appropriate.

5.c. Does the program have any operations or collaborations that generate revenue (both direct and indirect) or result in cost savings (both direct and indirect)? If yes, please describe and quantify.

5.d. Are there anticipated changes that will affect efficiency of the program in the near future?

5.e. Have opportunities for savings or additional investments been identified? If yes, please describe.

**Step 6: Opportunity Analysis.** This measure is intended to provide an opportunity to address unmet needs and potential for changes/enhancements to the program that would advance the goals of the university.

6.a. Does the program have unmet needs? How do you know?

6.b. What would the program accomplish if additional resources were made available? What type of investment would be needed and what is the estimated impact?

6.c. What risk factors impact your ability to deliver essential services (funding, staffing, facilities/space, etc.)?

6.d. Do you have resources available to reallocate to another area?

6.e. Please provide information that is relevant to the evaluation of the program that is not included in the questions provided above.
# Supporting Documentation Matrix

Template: Program Prioritization for Degree and Graduate Certificate Programs

The purpose of this document is to gather, from department chairs, a portion of the information that will be used in the Program Prioritization Process to score and categorize Degree and Graduate Certificate programs.

Department Chairs: please follow the “steps” below, filling out one “template” for each of your degree/graduate certificate programs. Background on the process can be found at: https://docs.google.com/a/boisestate.edu/file/d/0By29C1z0atzBbDlMVmF6NzB3cE0/edit and in other files at http://president.boisestate.edu/prioritization/academic-programs/.

Emphases, options, and alternate degrees are not treated as separate entities; they are consolidated. Minors have already been considered. Associates degree programs will not be evaluated. New programs, initiated within the last three years, will not be evaluated.

Step One: Note the program name in the header. The program named in the header will be the subject of the rest of this document. So whenever, this document says “this program” it is referring to the program listed in the header.

Step Two: Take a look at pertinent data.

1. The data can be found in your department’s folder on the Program Prioritization shared drive. In general, each department will have access only to its own data.

2. “Grads per year in all degree programs w flags.pdf” lists five years of graduates from each degree program and the average for the last three years. Averages less than threshold numbers are “flagged” for further attention.

3. “(your dept name) degree program data.xlsx” contains all of the quantitative data referred to below.

Step Three: Take this shortcut if discontinuing or consolidating this program.

DISCONTINUING OR CONSOLIDATING?? If your department has already decided to discontinue or consolidate this program (and if such a plan is agreed to by your dean and the Provost), then complete the information in this box. If the action is a simple discontinuation, then do not complete the remainder of this form. If the action is a consolidation of this program with another, then work with the Vice Provost for Academic Planning to create and fill out a single form for the consolidated programs.

Describe proposed action>

What is the rationale for this action?>

Describe in general terms any resources ($$ and/or FTE) that will be reallocated as a result of this action>

Step Four: Provide an overview context for the program. Briefly describe the history of this particular program. Is it new? Have there been substantial recent changes? How does it fit into the broader context of your department’s offerings? (100 words max)

Response>

Step Five: Provide responses to prompts below. Also take note of the other information that will be used to derive scores for this program.
The information that departments provide below (in the “response” boxes) will be used to develop scores that will form part of the basis for initial categorization of degree/certificate programs. Those responses will be scored via rubrics; the rubric is available in your department’s folder on the Program Prioritization shared drive.

Quantitative info from the Office of Institutional Research will form the other part of the basis for initial categorization of degree/certificate programs. That data will be normalized by converting either to deciles or z-scores based on the set of programs of the same degree level offered at Boise State. This quantitative data may be found in your department’s Program Prioritization shared drive folder in the file “(your dept name) degree program data.xlsx.”

Please adhere to the word limits given before each “response” box.

A. Relevance

1. Quantitative information for this section that is being provided separately:
   - # of juniors and seniors as measure of student demand.
   - Alumni survey results regarding: (i) preparation for employment & continued education and (ii) contribution to civic engagement

2. Contribution to mission, core themes, strategic plan. Describe the importance of this particular program in the department’s contribution to the University’s mission, core themes, and strategic plan ([http://academics.boisestate.edu/strategic-plan/](http://academics.boisestate.edu/strategic-plan/)). One way to think about this question is to ask: “What would be lost to the university if this particular program were discontinued?” (200 words max)

   Response>

3. Changes made to meet needs. Describe significant changes that have recently (i.e., the last several years) been made to this program to better meet the needs of students, the community, etc., and to increase relevance to national trends and initiatives. If you have an advisory board, briefly describe its function in maintaining relevance of the program. (200 words max)

   Response>

4. Evidence of success of and specific demand for graduates. As available, provide information on community & national demand, job placement rates, and placement in professional & graduate schools. Comment on relevance of degree to the development both of discipline-specific abilities and of discipline-independent abilities (e.g., [http://career.boisestate.edu/collegiate-employmentworkforce-readiness/](http://career.boisestate.edu/collegiate-employmentworkforce-readiness/)) see section on “Skills Critical to Initial Success…” (250 words max)

   Response>

B. Quality

1. Quantitative information for this section that is being provided separately:
   - Graduating Student Survey results regarding (i) satisfaction with major and (ii) perceptions re: faculty
   - Alumni survey results regarding satisfaction with major
2. **Program distinctiveness and impact on university reputation.** Describe (as applicable) how this program is distinctive from programs in the same or similar discipline(s) at other universities. Describe how this program contributes to the local and national reputation of the university. (200 words max)

Response>

3. **As described in Step Six, complete (and submit with this document) the separate document entitled “Program Assessment Report.”**

### C. Productivity

1. **Quantitative information for this section that is being provided separately:**
   - # of graduates per year

### D. Efficiency

1. **Quantitative information for this section that is being provided separately:**
   - Annual baccalaureate graduates per FTE of juniors and seniors
   - Average total credits at graduation for baccalaureate graduates
   - Time to degree and attrition from program (doctoral programs only)

---

**Step Six: Complete (and submit with this document) the separate document entitled “Program Assessment Report.”**

Assessment of program intended learning outcomes is an important aspect of ensuring the quality of our academic programs. In fact, if one were to choose one aspect of a university that our university accrediting agency (Northwest Commission on Colleges and Universities [NWCCU]) cares most about, it would be the assessment of program intended learning outcomes.

1. The Program Assessment Report will serve two purposes:
   - It will be evaluated as part of the Program Prioritization process as a measure of program quality.
   - It will be used to document program assessment for our Year 3 Report that is due to the NWCCU in September 2014.

2. The Program Assessment Report will be evaluated using a rubric, which is appended to the Report template. The resulting rubric scores will be included with other scores in Step Five (above) in determining initial categorization of programs. Additionally, information from rubric scoring will be provided to departments as a basis for improvement of their overall assessment structure. If needed, departments will be supported in that effort with workshops, consultations, etc.

**Step Seven: Provide context, additional information, and opportunity analysis.**

The information in this step will be used by the Dean of your college as he/she contemplates the categorization of your programs. (That categorization will be based, initially, on the scores that came from Steps Five and Six above.)

### A. Relevance

If desired, provide (i) context for the information referred to in Step Five and/or (ii) additional information that indicates the relevance of this particular program. (200 words max)
B. Quality

If desired, provide (i) context for the information referred to in Steps Five and Six and/or (ii) additional information that indicates the quality of this particular program. (200 words max)

Response>

C. Productivity

If desired, provide (i) context for the information referred to in step Five and/or (ii) additional information that indicates the productivity of this particular program. If a program is “flagged” in the file “Grads per year in all degree programs w flags.pdf”, that fact should be addressed here. Examples of what might be discussed regarding flagged programs: Why is there a low number of graduates? Is that number acceptable? (200 words max)

Response>

D. Efficiency

If desired, provide (i) context for the information referred to in Part 2 and/or (ii) additional information that indicates the efficiency of this particular program. (200 words max)

Response>

E. Opportunity Analysis:

Describe proposed changes to the program that would increase its impact. If a program is “flagged,” how will you address the low number of graduates?

Examples of the sorts of items a department might propose: (i) Proposal to facilitate timely graduation of students, e.g., by streamlining curriculum, reducing bottlenecks, etc., (ii) Proposal to enhance quality and/or relevance of program, (iii) Proposal to increase productivity/efficiency of program, and (iv) Proposal to reduce, restructure, or phase out a program to produce more overall impact per investment and/or to simplify student programmatic choices. (400 words max)

Response>

Step Eight: Submit completed documents. The deadline for submission of completed documents is February 7. Once you have finalized this document, save it in the folder entitled “Final Submitted” within your department’s folder on the Program Prioritization shared drive. Within that folder you should save the following documents:

- One completed “Template: Program Prioritization for Degree and Graduate Certificate Programs” for each of your degree/certificate programs being evaluated (recall that the following are excluded from evaluation: new programs and associates degree programs).
- One completed “Program Assessment Report” for each of your degree/certificate programs being evaluated.
**Instructional Program Review Rubric – DRAFT 12.16.13**

<table>
<thead>
<tr>
<th>Criteria and specific prompt</th>
<th>Beginning or Limited</th>
<th>Developing or Moderate</th>
<th>Proficient or Exemplary</th>
<th>Reviewer Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Contribution to mission, core themes, University strategic plan</td>
<td>Difficult or unable to discern the connection of the program to the University’s mission or strategic direction.</td>
<td>Connections to the University’s mission and core themes are apparent. The program serves a moderately important role in achieving the strategic direction of the University.</td>
<td>Clear, compelling integration with and contribution to multiple aspects of the university’s mission and core themes. Program plays keystone role in achieving the strategic direction of the University.</td>
<td></td>
</tr>
<tr>
<td>Changes made to meet needs</td>
<td>The program has not demonstrated the ability to adapt to changing needs OR changes are unclear, unfocused, haphazard.</td>
<td>The program has made changes to increase its relevance, although connection of those changes to student/community needs and/or national trends may be difficult to discern.</td>
<td>Demonstrates clear responsiveness and adaptability to meet changing needs of students and the community. Changes are linked to clearly identified needs determined by national trends, community/student needs, and experts in the field (e.g., advisory board), etc.</td>
<td></td>
</tr>
<tr>
<td>Evidence of success of and specific demand for graduates</td>
<td>The demand for the program’s graduates is stagnant, declining, or unknown. Placement in employment and/or further education is weak. Development of intended relevant knowledge/skills/abilities not a focus.</td>
<td>The program’s graduates are or are anticipated to be in moderate demand. Placement in employment and/or further education is solid. Development of intended relevant knowledge/skills/abilities is a focus.</td>
<td>The program’s graduates are or are anticipated to be in high demand, and there is clear and compelling evidence of the need. Placement in relevant employment and/or graduate/professional schools is exemplary. Development of intended discipline-specific and discipline-independent skills/abilities is a major focus.</td>
<td></td>
</tr>
<tr>
<td>Quality</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Program Intended Learning Outcomes, Methods, Findings, Implications, Actions</td>
<td></td>
<td></td>
<td></td>
<td>(Evaluated via a separate rubric attached to Program Assessment Reports)</td>
</tr>
<tr>
<td>Program distinctiveness and impact on University reputation</td>
<td>Distinctiveness is limited or is difficult to discern. Not a contributor to the reputation of the University.</td>
<td>The program is well rated and/or has demonstrated moderate reputational success among peer programs. Solid contributor to the reputation of the University.</td>
<td>The program is nationally/regionally distinctive, top-rated, and/or has demonstrated a high level of reputational success among peer programs. Plays a key role in the reputation (locally and/or nationally) of the University.</td>
<td></td>
</tr>
</tbody>
</table>
Program Assessment Report

**Instructions:** Complete the matrix below and then respond to the two open-ended questions beneath the matrix.

<table>
<thead>
<tr>
<th>List the Intended Learning Outcomes (one per row)</th>
<th>Methods Used to Assess Outcomes</th>
<th>Key Findings</th>
<th>Implications &amp; Actions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Learner-centered statements of what students will know, be able to do, and value or appreciate as a result of completing the program.</td>
<td>What type(s) of evidence are being used to determine whether the outcome has been achieved?</td>
<td>On the whole, what have you found out about student learning in each of the intended learning outcomes areas?</td>
<td>Provide examples of how findings have been used to make changes to the curriculum, specific courses, and/or to the pedagogy used in the program.</td>
</tr>
<tr>
<td>1.</td>
<td>Mark “x” for all that apply</td>
<td></td>
<td></td>

(Add rows as necessary)

Please describe what is going well in the assessment of this program? What are the highpoints or noteworthy accomplishments? (100 words max)

Note: Responses to this question will not be rated with the rubric; they will provide information on the program’s successes, be used to identify best practices, and assist in University accreditation reporting.

Response>

Identified improvements: What next steps should be taken to better assess learning in this program or improve the assessment process? (150 words max)

Response>
## Rubric for Evaluating Program Assessment Reports

<table>
<thead>
<tr>
<th>Category</th>
<th>Deficient (0)</th>
<th>Beginning (1-3)</th>
<th>Developing (4-6)</th>
<th>Proficient (7-9)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>1. Program Intended Learning Outcomes</strong></td>
<td>- No evidence of intended learning outcomes.</td>
<td>- Outcomes are incomplete, overly detailed, disorganized, or not measurable.</td>
<td>- Most outcomes are clearly defined or the intent is easily discernable.</td>
<td>- Clearly written, measurable, and manageable number of outcomes.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- May focus on the process or delivery of education (e.g., doing group activities) rather than student learning (e.g., demonstrating the ability to work with diverse groups).</td>
<td>- Include at least two of the domains of learning (knowledge, skills, and dispositions).</td>
<td>- Include all domains of learning: knowledge, skills, and dispositions.</td>
</tr>
<tr>
<td></td>
<td>* Learner-centered statements of what students will know, be able to do, and value or appreciate as a result of completing the program.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>2. Methods</strong></td>
<td>- No evidence of any methods used.</td>
<td>- Methods are mismatched, inappropriate, or otherwise do not provide evidence linked to the intended learning outcomes.</td>
<td>- Use of at least one direct measure</td>
<td>- Multiple direct measures are used</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- No use of direct measures or an overreliance on indirect measures.</td>
<td>- Some use of indirect measures</td>
<td>- Indirect measures are used</td>
</tr>
<tr>
<td><strong>3. Findings</strong></td>
<td>- No findings or analysis presented.</td>
<td>- There is disconnect between the outcomes, the data gathered, and results reported.</td>
<td>- Findings are reported that address outcomes and evaluate student achievement of them.</td>
<td>- Methods used provide sufficient information to guide improvements to the program.</td>
</tr>
<tr>
<td><strong>4. Implications and Actions</strong></td>
<td>- No information provided.</td>
<td>- Limited evidence that findings are used to “close the loop” (i.e., to improve the curriculum, individual courses, pedagogy, etc.)</td>
<td>- Some evidence that findings are used to “close the loop” (i.e., to improve the curriculum, individual courses, pedagogy, etc.).</td>
<td>- Findings are used to “close the loop” – (i.e., to improve the curriculum, individual courses, pedagogy, etc.).</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- No actions are documented or there are too many plans to reasonably manage.</td>
<td>- At least one action has been documented or planned with sufficient detail, timelines, etc.</td>
<td>- Multiple actions have been implemented or detailed plans for implementing identified changes have been provided.</td>
</tr>
<tr>
<td><strong>5. Identified Improvements</strong></td>
<td>- No improvements are identified.</td>
<td>- Stated improvements are unclear, lack specificity, or are otherwise insufficient for moving the program forward in the assessment of student learning.</td>
<td>- Stated improvements are clear and likely to move the program forward in its learning outcomes assessment.</td>
<td>- Stated improvements are clear and well-conceived and will move the program forward in its learning outcomes assessment.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>- Plan(s) to address the improvements are drafted.</td>
<td>- Plan(s) for implementing these improvements contain sufficient detail (timeline, persons responsible, etc.).</td>
</tr>
</tbody>
</table>
**Analysis**

**Step 1: Analyze and Identify Challenges**

Concisely analyze and identify the specific challenges of this program based on the criteria percentile averages and/or underlying metrics. If the program was “flagged” for low number of graduates, include that information. (Please limit to ~200 words)

**Step 2 (optional): Describe program’s context related to its challenges**

Identify conditions or factors needed to understand this program's circumstances. Take care to explain the relevant factors, rather than dismissing the data or making excuses. (Please limit to ~200 words)

**Action Plan**

Describe the actions your department will take in light of program prioritization data to improve the program in question. You may address the same criterion or different criteria at each level.

I. **Department-level Actions**

   A. **Actions already in progress.**
   
   Describe current, ongoing actions by the department that are addressing the challenges described above. What are the expected outcomes? What is the timeline? (Please limit to ~300 words.)

   B. **Proposed future actions**
   
   Formulate one (or more as needed) substantive internal department strategy to improve the program's performance; determine a timeline for instituting the described change(s) and the person or group responsible for implementation. Identify the trade-offs in current operations that will be necessary to implement this strategy. How will the proposed strategy or strategies result in mitigation/improvement of your specific challenge(s) over time? How will you know when you've been successful? (Please limit to ~400 words.)

   C. **Flagged programs**
   
   If this program is flagged for low number of graduates and if it is not the intent of under-way and proposed actions (described in the preceding sections) to increase the number of graduates to a level beyond the flagging threshold, then please provide a justification of why it is reasonable to continue to offer a program with a relatively low number of graduates. (Please limit to 200 words)
II. College-level Partnerships (optional)

Colleges need to support departments seeking to improve their programs. Describe at least one strategy where other departments within your College or the College-level administration and staff might support your work. Determine a timeline for instituting the described change(s) and the person or group responsible for its implementation. Identify the trade-offs in current operations that will be necessary to implement this strategy. How will the proposed strategy result in mitigation/improvement of your specific challenge over time? (Please limit to 200 words)

III. Changes at the University level that would help fix the problem (optional)

If appropriate, offer recommendations for changes/improvements outside the College (whether in other Colleges or outside Academic Affairs) that would mitigate/improve the program’s challenges. Specifically, how would the requested changes lead to improvement? (Please limit to 200 words).

IV. Reallocation of Resources

As part of the University’s report to the SBOE, we need to describe resource reallocations that we have made as part of the program prioritization process. “Resource reallocation” can involve a shift in funding, in personnel (including redirecting effort of who or parts of FTEs of faculty/staff), or in space.

Please briefly describe resource reallocations that you made since June 2013, or that you plan to make in the future, in the process of implementing the actions described in this document. List only the more substantial of reallocations; an exhaustive list is not necessary.

<table>
<thead>
<tr>
<th>Reallocation amount</th>
<th>Type of Reallocation (FTE, time &amp; effort, funds, etc.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Program Prioritization of Emphases and Options: BA in XXXXXXXXXXXXXXXX

This process evaluates only the emphases and options of degree programs. The entire degree program (with all emphases/options consolidated) will be evaluated in a more extensive process.

Students are often confused by an overly diverse array of choices. In addition, a complexity of emphases/options may beget a complexity of course offerings, which may in turn beget a decreased frequency of offering of required courses and overly small enrollments, which may in turn beget a slower rate of completion and lower departmental efficiency. So, all else equal: Simpler is better.

<table>
<thead>
<tr>
<th>Degree: BA XXXXXXX</th>
<th>Annual Graduates from each Emphasis/Option</th>
<th>“Flagged” if &lt;5</th>
<th>Proposed action for each flagged emphasis: “Discontinue” or “Transform” or “Keep as is” from #2 below</th>
</tr>
</thead>
<tbody>
<tr>
<td>Emphasis/Option</td>
<td>2008-09</td>
<td>2009-10</td>
<td>2010-11</td>
</tr>
<tr>
<td>XXXXXX Opt 1</td>
<td>4</td>
<td>5</td>
<td>9</td>
</tr>
<tr>
<td>XXXXXX Opt 2</td>
<td>1</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>XXXXXX Opt 3</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Overall Structure and Context: Describe the reasoning behind offering the diversity of emphases/options shown above. Do the original reasons for creating the set of emphases/options still hold? Are changes warranted? (limit to no more than 150 words)

Response>

For “Flagged” emphases/options only, answer the following.

1. Provide additional information regarding each of the “flagged” emphases/options.
   a. How many courses in total are required only by flagged emphases/options?

<table>
<thead>
<tr>
<th># courses</th>
<th>Level of course</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>100-level courses</td>
</tr>
<tr>
<td></td>
<td>200-level courses</td>
</tr>
<tr>
<td></td>
<td>300-level courses</td>
</tr>
<tr>
<td></td>
<td>400-level courses</td>
</tr>
<tr>
<td></td>
<td>Graduate-level courses</td>
</tr>
</tbody>
</table>

   If there are such courses, describe the budgetary impact of continuing to offer those courses to support the offering of the flagged program(s).

Response>

2. Proposed Actions for Flagged Emphases/Options. Choose one of the following three types of action for EACH flagged emphasis. You may refer to groups of emphases/options if convenient.
   a. Possible Action 1: Discontinue flagged emphasis/emphases. Either consolidate emphases or discontinue emphasis/emphases so that a student would graduate with a generic degree without an emphasis.
List the emphasis/emphases that will fall in this category and describe the specific changes that you propose.

Response>

b. **Possible Action 2: Transform/enhance/reorient/reinvent flagged emphasis/emphases to increase enrollments and graduates.**
List the flagged emphasis/emphases that you propose for this category and describe the specific enhancements, etc. that you propose. Be specific enough so that your plan can be evaluated, but limit descriptions for each emphasis to no more than 100 words.

Response>

c. **Possible Action 3: Leave the emphasis or group of emphases as is, unchanged in name(s) and substance.**
List each flagged emphasis that you propose for this category, and justify why it should be left as is. What is the relevance? What need does it fill? What would be lost if we discontinue it? Limit response for each emphasis to no more than 100 words.

Response>

List the emphasis/emphases that will fall in this category and describe the specific changes that you propose.

Response>

b. Possible Action 2: Transform/enhance/reorient/reinvent flagged emphasis/emphases to increase enrollments and graduates.
List the flagged emphasis/emphases that you propose for this category and describe the specific enhancements, etc. that you propose. Be specific enough so that your plan can be evaluated, but limit descriptions for each emphasis to no more than 100 words.

Response>

c. Possible Action 3: Leave the emphasis or group of emphases as is, unchanged in name(s) and substance.
List each flagged emphasis that you propose for this category, and justify why it should be left as is. What is the relevance? What need does it fill? What would be lost if we discontinue it? Limit response for each emphasis to no more than 100 words.

Response>
Program Prioritization of Alternate Graduate Degrees within a Plan:

MA and M.S. in XXXXXX

This process evaluates only situations where within a particular plan (or “major” or “program”), there exist two alternate degrees (e.g., MS in Kinesiology and Master of Kinesiology). The entire degree program (with alternate degrees consolidated) will be evaluated in a more extensive process.

Alternate degrees in a graduate program typically exist to serve two different audiences: an academic audience with the MA or MS, and a professional audience with the discipline included within the degree name (e.g., Master of Kinesiology).

<table>
<thead>
<tr>
<th>Degrees: MA and M.S. XXXXXXX</th>
<th>Annual Graduates from each degree</th>
<th>“Flagged” if &lt;3</th>
<th>Proposed action for each flagged emphasis: “Discontinue” or “Transform” or “Keep as is” from #2 below</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alternate degrees</td>
<td>2008-09  2009-10  2010-11  2011-12  2012-13</td>
<td>Average for last 3 years</td>
<td></td>
</tr>
<tr>
<td>MA</td>
<td>2       2       0       0       0</td>
<td>0.0</td>
<td>&gt;</td>
</tr>
<tr>
<td>MS</td>
<td>7       10      7       7       15</td>
<td>9.7</td>
<td></td>
</tr>
</tbody>
</table>

*Overall Structure and Context:* Describe the reasoning behind offering the alternate degrees. Do the original reasons for creating the set of alternate degrees still hold? Are changes warranted? (limit to no more than 150 words)

Response>

For “Flagged” alternate degrees only, answer the following.

1. Provide additional Information regarding the “flagged” alternate degrees.
   
   How many, if any, courses in total are required *only* by a flagged alternate degree?

<table>
<thead>
<tr>
<th># courses</th>
<th>Level of course</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Graduate-level courses</td>
</tr>
</tbody>
</table>

   If there are such courses, describe the budgetary impact of continuing to offer those courses to support the offering of the flagged program(s).

   Response>

2. Proposed Actions for Flagged alternate degrees. Choose one of the following three alternatives for any flagged alternate degree.
   
   a. Possible Action 1: Discontinue the flagged alternate degree or consolidate alternate degrees because there is not sufficient need to justify the present situation.
      
      Describe the specific change(s) that you propose.
      
      Response>

   b. Possible Action 2: Transform/enhance/reorient/reinvent flagged alternate degree to increase enrollments and graduates.
      
      Describe the specific enhancements, etc. that you propose. Be specific enough so that your plan can be evaluated, but limit your response to no more than 150 words.
      
      Response>

   c. Possible Action 3: Leave the set of alternate degrees as is.
      
      If you propose to keep a flagged alternate degree, please provide a brief explanation of why it is important to do so. Limit response to no more than 100 words.
      
      Response>
Boise State University
Center, Institute, or Core Facility Reporting Form

Name of Center, Institute, or Core Facility:
Date Reporting Form completed:

For the purpose of periodic review per the University Policy for Centers, Institutes, and Core Facilities, please briefly describe your Center, Institute, or Core Facility administratively and relate it to the following domains (quality, viability, and effectiveness):

1. Administrative
   a. Staffing
      i. Director - include name(s), and release time (FTE) dedicated for the Center, Institute, or Core Facility; Staffing and Organizational Structure - include all other staff and release time of each (FTE) dedicated for the Center, Institute, or Core Facility; AND current space for operations and future space needs
      ii. Center, Institute, or Core Facility reporting authority (e.g., Dean's office, Department Chair, Administrative Board)

2. Quality
   a. Context
      i. Brief Chronological History
      ii. Mission
      iii. Examples of consistency with the University’s “Charting the Course” strategic plan
      iv. Plans for the future

3. Viability
   a. Investment by the University [e.g., budgeted monies and/or release time granted, ongoing appropriated commitment from college(s), department(s)]
   b. External Funding Awarded for fiscal years __________

4. Effectiveness (Outcomes)
   a. Examples of ‘outputs’ generated from the Center, Institute or Core Facility over the last two years (e.g., publications, presentations, invited lectures, technical reports, student support, Graduate assistantships awarded, number of people served, policies developed)
   b. Evidence of enhancement provided to the associated academic unit(s) and college(s) by the Center, Institute, or Core Facility [e.g., increased interest, applications, enrollments to associated academic unit(s), increased service to community members, articles in newspapers and other publications, increased research productivity, increased visibility, increased quality of academic degree program(s)]
Introduction

In May 2013, the Idaho State Board of Education (SBOE) directed the universities and Lewis-Clark State College to engage in a Program Prioritization process (Dickeson, 2013) to fulfill the Governor’s 2008 mandate for zero-base budgeting. Institutions were asked to develop proposed outcomes or overall goals for what they hoped would be achieved in the prioritization process, along with specific targets. Weighed criteria to be used in the evaluation of programs were also required. The term program included any activity or collection of activities that consumes resources. Both instructional and non-instructional programs were to be considered in the prioritization process.

The SBOE has requested responses in four key areas to validate the efficacy of the program prioritization initiative. The four areas are:

- Rigor of the process
- Fulfillment of Zero-base Budgeting principles
- Achievement of impactful outcomes
- Sustainability of process improvements

In this written report, Lewis-Clark State College (LCSC) details its program prioritization process and responds to the twelve (12) specific questions posed by the Board.

1. Institution’s overarching goals (i.e. desired outcomes).

Lewis-Clark State College identified four (4) over-arching goals/ outcomes of the program prioritization process which align with the goals of our updated Strategic Plan. The goals are closely aligned with LC’s mission and core themes.

Mission Statement
Lewis-Clark State College is a regional state college offering instruction in the liberal arts and sciences, professional areas tailored to the educational needs of Idaho, applied technical programs which support the local and state economy and other educational programs designed to meet the needs of Idahoans.

Core Themes
1. Connecting Learning to Life Through Academic Programs
2. Connecting Learning to Life Through Professional-Technical Programs
3. Connecting Learning to Life Through Community Programs

Goals
1. Sustain and enhance excellence in teaching and learning. Goal 1 focuses on strengthening courses, programs and curricula in alignment with our Core Themes, ensuring the General Education Core achieves its expected outcomes, optimizing technology-based course delivery
and associated resources, maximizing interactions between faculty and students outside the classroom, recruiting and retaining highly qualified and diverse faculty and staff, and providing a safe, healthy and positive teaching-learning environment.

2. **Optimize student enrollment and promote student success.** Goal 2 includes ensuring marketing efforts to prospective students are focused, retaining and graduating a diverse student body, and maximizing student satisfaction and engagement.

3. **Strengthen and expand collaborative relationships and partnerships.** Goal 3 emphasizes increasing volunteer, internship and career placement opportunities for students, collaborating with business and industries for the beneficial exchange of knowledge and resources, increasing engagement of alumni for the advancement of the college, and advancing the college within the community, with business and political leaders and current and future donors.

4. **Leverage resources to maximize institution strength and efficiency.** Goal 4 focuses on the allocation/ reallocation of funds to support priorities and program areas significant in meeting the role and mission of the institution, assessing/ modifying the organizational structure and institutional processes to ensure the most effective use of resources, improving of campus buildings and grounds, creating a timetable for the sustainable acquisition and replacement of technology and infrastructure, and identifying and securing public and private funding in support of strategic initiatives.

There were no pre-determined limits established regarding the amount of resource potentially available for internal reallocation. Rather than elimination of programs, a premise of program prioritization at LCSC was identifying efficiencies in processes and opportunities for restructuring which ensure the quality and integrity of programs and of the institution.

2. Measurement criteria and the units of program analysis.

To establish evaluation criteria, input was solicited from faculty, staff, students and the President’s Assessment Council. The criteria were applied to both instructional and non-instructional programs. Additionally, indicators and suggested data sources were identified. A detailing of the five (5) criteria and indicators can be found in the appendix. Briefly, the criteria and select indicators are:

1. Impact, justification and overall essentiality of the program
   a. Connection to the mission, state/ federally mandated, uniqueness of program
2. Quality of program outcomes
   a. Benchmarks, indicators of success (specific per program including pass rates, transfer, placement in graduate/ professional programs), and employer satisfaction
3. External Demand
   a. Enrollment demand/ trends, regional needs
4. Internal Demand
   a. Support to other internal programs, general education support, role in student retention
5. Net Revenue
   a. Program funding sources, budget allocation, student hours generated, and key ratios
3. Number of programs evaluated and placed in each quintile.

Prior to initiation of the program prioritization process, 163 programs participated in the annual assessment cycle at LCSC. A program was defined as any activity or collection of activities that engaged in the college Unit Assessment process. Program prioritization and preparation for the Northwest Commission on Colleges and Universities (NWCCU) Mid-Cycle report provided the opportunity to review units identified as ‘programs’ and make adjustments. In total, 115 programs were quintiled. This reduction in programs resulted in several gains for the institution, including stronger collaboration within units, enabling them to evaluate themselves as a whole rather than as a set of independent parts, more useful and informative data comparisons, and time savings for programs and others across campus (Directors, Deans, VPs, Institution Planning, Research and Assessment).

For each of the five (5) quintiles, action language was identified and programs were assigned to quintiles based on the action level required. The numbers of programs assigned to each action category/ quintile was based on Board guidance.

Action language for the quintiles:

<table>
<thead>
<tr>
<th>Q</th>
<th>Expected Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Highly successful: Seek additional resources</td>
</tr>
<tr>
<td>2</td>
<td>Highly successful: Sustain current support</td>
</tr>
<tr>
<td>3</td>
<td>Successful: Areas for enhancement identified</td>
</tr>
<tr>
<td>4</td>
<td>Multiple elements needing improvement</td>
</tr>
<tr>
<td>5</td>
<td>Needs or is undergoing major review/ restructure</td>
</tr>
</tbody>
</table>

4. For those programs in either the top or bottom quintile, please generally explain the common factors that led to their current placement.

To translate quintile categories into action, we assigned language to each quintile which describes the expected action (as noted above in the table).

- Programs assigned to quintile #1 are those which are highly successful with a strong track record of achievement based on program indicators/ benchmarks, and for which additional resources would further enhance the program’s success.
  a. Instructional programs: Instructional programs in quintile one (1) are programs which meet or exceed programmatic benchmarks and are in high demand by students. With a modest infusion of resources, programs in quintile one (1) may be able to serve more students, yielding more graduates in high demand areas. Instructional/ student support programs were also assigned to quintile 1. These programs provide service to students across campus in support of student success and retention. Service delivery can be enhanced with additional fiscal or personnel resources.
  b. Non-Instructional programs: Programs which provide service broadly to either students or campus departments or are federally/ state mandated were assigned to quintile 1. These programs are highly effective and are ones for which enhanced resources could yield a greater level of service to students.
• Programs assigned to quintile five (5) were those determined to be in need of a major program review and/or restructuring.
  a. Instructional programs: Instructional programs assigned to quintile five (5) included programs with a track-record of declining or low enrollments, those which appear to overlap with other majors/programs, or instructional programs and support programs requiring major review given changing SBOE policy or based on significant personnel, accreditation, or programmatic changes.
  b. Non-Instructional programs: Non-instructional programs allotted to quintile five (5) are primarily programs which do not directly support the college’s mission but provide service to the community, or those programs valued by the community for which alternative funding structures/sources are under consideration.

5. What lessons were learned (e.g. implications to the institution, future application, etc.) and what actions are being taken, including considerations of sustainability.

Lessons learned:
• Data at the program level are sparser and less informative than we would have liked, and Divisions/departments keep ‘shadow’ databases so there’s confusion as to which data sets are official. We have initiated several changes to address this issue including participation in the Delaware Study which will provide some programmatic and program-level comparison data related to costs. We are working with our data management system provider, Ellucian, to reduce reliance on shadow databases and more fully and completely utilize our software system.
• Continued streamlining and refinement of our program and institution level assessment practices is needed, with emphasis on data analysis and actions based on assessment findings.
• LCSC’s assessment and resource allocation system provides a mechanism for implementation and tracking of action steps, action plans, and major review outcomes.

6. A narrative of the process explaining the level of rigor applied.
• Program prioritization criteria and indicators were crafted into a questionnaire. Criteria were developed based on input from faculty, staff, students, and the President’s Assessment Council. The criteria were designed for application to both instructional and non-instructional programs. Additionally, indicators and suggested data sources were identified.
• Division/departmental level data were prepared and provided to instructional programs; for instructional programs, only institutional research-generated data was permitted in responding to the program prioritization questions. Administrative and support programs were charged with utilizing internally generated data and trends.
• Substantive portions of the process include:
  ▪ Programs completed the prioritization questionnaire; to ensure consistency, only institutionally provided data was applied in the responses. At each step in the prioritization process, programs were provided an opportunity for a narrative explanation or elaboration
to ensure administration fully understood the role and function of each program and its relative strengths and weaknesses. Programs (instructional and non-instructional) were also tasked to note additional types of data that would be most useful in supporting ongoing assessment.

- Programs shared their program prioritization questionnaire results within departments.
- Next level supervisors reviewed and provided feedback on the questionnaire.
- All questionnaires were posted to the Institutional Planning, Research and Assessment (IPRA) intranet website for review by campus stakeholders.
- Questionnaire responses were assigned numeric value and quintiled.
- The quintiles were reviewed with the Deans/Department Directors.
- Quintiles were finalized and approved by the President.
- A memorandum detailing the process and general outcome was distributed to faculty, staff and students.
- Timelines for completion of major program reviews and action plans were established.

7. Key (blank) process documents including templates and surveys used to collect the data. If applicable, please include a link to the web application.

Key process documents can be found in the Appendix, including:
- Table of quintiles and indicators
- Program prioritization questionnaire
- GANTT chart/Timeline/Implementation graphic

Web links to key LCSC processes/documents are noted here:
- Institutional Planning, Research and Assessment for assessment documents/dates:
  http://intranet.lcsc.edu/ir/IRintranet/Assessment%20Forms%20and%20Instructions.html
- Provost’s web page for campus information on Program Prioritization:
  http://www.lcsc.edu/provost/program-prioritization/

8. Key milestones and dates throughout the process.

To establish a timeline for completion of program prioritization and track process, a GANTT chart was developed. Progress was tracked on a monthly basis and reported regularly to Faculty Senate, Deans’ Council, President’s Assessment Council, and President’s Cabinet. It was also posted to the program prioritization web page. The GANTT chart is located in the Appendix.

9. The aggregate number of programs in each quintile.

The following tables detail the number and percentages of instructional and non-instructional programs in each quintile/action area.
Q | Expected Action                                               | N=115 | Requirement        |
---|---------------------------------------------------------------|-------|-------------------|
1  | Highly successful: Seek additional resources                  | 23    | Resource plan     |
2  | Highly successful: Sustain current support                    | 23    | Aspirational goals|
3  | Successful: Areas for enhancement identified                  | 23    | Action Plan       |
4  | Multiple elements needing improvement                          | 23    | Action Plan       |
5  | Needs or is undergoing major review/ restructure              | 23    | Review → Action Plan |

10. Was there a hold harmless predetermination for any program(s), and if so, why?

In total, 115 instructional and non-instructional LC programs were prioritized into quintiles, including athletics, professional-technical programs, institutional planning, research and assessment, and the auxiliary enterprises. No programs were held harmless.

11. Key outcomes and recommendations.
   - See #5 for Lessons Learned
   - Major program review and action plan required for quintile 5 programs
     
     All programs in quintile 5 have received explicit direction from the designated VP, Dean and department chair regarding some elements/expected outcomes of the required program review. Restructuring of some programs, processes, and departments is expected based on the major reviews. Review plans with outcomes and timelines are due in October 2014.

   - Action plans required for quintile 3 and 4 programs
     
     Quintile 3 and 4 programs require an *action plan* which addresses areas for improvement identified through the usual college assessment processes. The action plans will be based on explicit direction/expected outcomes from the designated VP, Dean and department chair. Action plans and timelines are due in October 2014. Quintile 4 action plans will address multiple elements where quintile 3 plans may be focused primarily on one key area.

   - Resource plan/Aspirational goals required for quintile 1 and 2 programs
     
     During the annual budgeting process, quintile 1 programs will develop a plan focused on resources needed to enhance program delivery or grow the program. Quintile 2 programs will craft a plan which includes aspirational goals such as growth targets, future collaborations, alternative delivery of programs, etc. Plans/goals are due October 2014.

12. Timelines for next steps.
   a. What immediate steps have already been taken, if any?

     **Immediate steps**, actions and restructuring are already in process as a result of the prioritization and program review process. Examples:

     - Instructional Division Support Lab: reassigned one staff to the Information Technology department to better serve the technology needs of the entire campus community;
relocated lab in closer proximity to the instructional division; enhanced focus in support of program assessment and support to student interns and community partners (SU14).

- Summer School: Created a Program Guidance Initiative committee to assess the current summer school structure and offerings & create a slate of options for reconfiguration. Committee work completed with expected implementation SU15.
- Dental Hygiene: Explore options for partnering with an in-state school (In process).
- Region II Outreach Centers: Explore opportunities for Outreach Centers to better support students matriculating/ going on to college (FA14).
- Grant-funded Student Support Services: Explore possible synergies between grant funded student support services to save on overhead costs; use any resources saved to expand grant activity by increasing direct contact with secondary students (AY14-15).
- College Assessment: Streamline assessment processes, explore mechanisms to ensure accurate, shared data; identify mechanisms for gathering more program level data; reduce dependency on shadow databases (begin FA14).
- College Communications/ Information Technology: Reorganization with web development relocated to IT.

b. What steps will occur in the future (i.e. phased or out-year changes)? This may require an overview of what steps are co-dependent on the actions of others, such as the Board or NWCCU, or what steps are contingent upon further analysis and review by the institution.

Examples of future steps resulting from the prioritization process include:

- Any program restructuring is contingent upon the major program reviews. Decisions are pending until reviews are completed and reviewed by administration.
- Accreditation by NACEP for Dual Credit: To strengthen LCSC’s Dual Credit program, we will initiate the accreditation process beginning FA14. Based on the data requirements, accreditation is anticipated in approximately a 2-year timeframe.
- SBOE/ DPTE action will be required if instructional programs are restructured.
- NWCCU / SBOE/ DPTE teach-out plans if programs are closed or modified.

c. Process improvements (e.g. eliminate duplication, outsource, centralize services, etc.)

Examples of process improvements resulting from the prioritization process include:

- One-Stop Shop for Financial Aid, Admissions & Registrar’s office to streamline student access to critical resources: These major student services offices and associated processes are being reconfigured (physical and personnel) SU14 to enhance accessibility to students.
- Merging of student advising for both academic and professional-technical programs into centralized model: All academic programs have participated in a centralized advising system for the past 3 semesters. This model has been highly successful. Beginning FA14, PTE
students will participate as well, reducing duplication of services, allowing better utilization of staff, and improving student access to needed services

- Anticipated: Possible merging of Dual Credit and Tech Prep functions to better serve secondary students.

Summary

Lewis-Clark State College’s faculty, staff and administration are committed to our mission and meeting the educational needs of students in our service region. We strive to offer high quality, relevant programming to positively contribute to Idaho’s economy.

The program prioritization process provided an opportunity to review all college programs, and was and will be helpful in making well-informed decisions on the allocation and reallocation of college resources. As major reviews are conducted and action plans are crafted, efficiencies in programming and processes is expected.

</table>
| 1. Impact, justification, and overall essentiality of the program | • Is this program mandated by Federal, State, or Idaho State Board of Education policy?  
• Is the program part of the college's mission? What is the connecting relationship between this program and achievement of the institution’s mission?  
• Does the program enhance the college's reputation and benefit the institution?  
• Does the program respond to a unique societal need that the institution values; to what extent does this program help the institution differentiate itself from other colleges and universities?  
• In the last 2 years, has the context changed in which the program is expected to operate? | Mission statement  
• Strategic plan  
• Potential to be state or regional leader  
• Political influence  
• Long-term need vs. short-term demand |
| 2. Quality of program outcomes                        | • What are the program’s indicators of success/ benchmarks and to what degree are they met?  
• What other examples of exemplary performance do program students/ graduates demonstrate?  
• How successful are program graduates in attaining graduate and professional school admission?  
• What are the degrees of student, alumni, employer, and advisory board satisfaction?  
• For two year and transfer programs, did students articulate well into upper-division success at LCSC or the receiving institutions?  
• How successful are program graduates in finding employment in the area in which they studied? | Pass rates, graduation rates, employment rates  
• Measures of grad satisfaction  
• Transfer/ acceptance rates to grad/ prof pg  
• Recognition/ Awards  
• Employer satisfaction  
• Alumni support  
• Faculty Awards |
|                                                      | • Define the program’s external (primary) customers/ stakeholders. To what degree are they served by the program?                                                                                       | U.S. and Idaho DOL projections |
| 3. External demand for the program | • What is the likely potential for future enrollment and/or demand for the program (Department of Labor projections; regional/national projections)?  
• What other forces are at work in the surrounding environment that affect this program? Include any state/federal demands/requirements  
• Do external demands suggest that the institution continue this program?  
• Has the enrollment in the program remained steady, declined, or grown over the last five years; are there more students interested in the program than can be served? | • Enrollments  
• IPEDS reports  
• College Board data  
• Employer feedback  
• Student application info  
• Offer to acceptance rate |
| 4. Internal demand for the program | • Define the program’s internal (secondary) customers/stakeholders. To what degree are they served by the program?  
• What is the relationship of this program to the success of other programs?  
• In what ways would other programs suffer, or possibly fail, without the service courses offered by this program?  
• What proportion of enrollments are for major, minor, general studies, or service purposes?  
• What role does this program play in student retention? | • Enrollments  
• Programs that support majors, minors of other programs  
• SCH generated by major, minor, gen ed and service courses  
• Projections of future demand |
| 5. Net Revenue | • Number of personnel directly supporting program.  
• Budget allocated for the program.  
• How many students (clients, customers, patrons) are being served? Attendance at performances?  
• Degrees or certificates awarded?  
• What is the number of student credit hours generated?  
• Number of students managed under program/projects overseen by program?  
• Ratios: certificates or degrees/faculty or personnel; credit hrs/budget/personnel/students.  
• What are the programs funding sources?  
• Does the program generate income to assist with any of the costs of operation? Does the program provide services to another program that does generate revenue?  
• Does the program receive outside funding (grants; state agencies)?  
• Are any funds the institution receives specifically tied to the success of the program? | • IPRA data sets  
• IPEDS reports  
• Performance Measures report  
• Grants  
• Budget reports  
• Costs per FTE student  
• Special program fee income |
Unit Assessment Document (UAD) Template
Part D—Annual Program Assessment Report
January 2014

UAD General Instructions: Submit your Unit Assessment Document (UAD) draft and any supporting documents in Microsoft Word/Excel-compatible format—PDF files will not be accepted. Use 1.5 inch left margin for “portrait” orientation pages and 1.5 inch top margin for “landscape” orientation pages. Copies of the President’s assessment guidance, UAD formats, timelines, program data, PGs, FAAC information, previous years’ UADs, etc., are available on the IPRA “assessment and planning information” intranet website. If you have questions related to the program assessment process or UAD formats, please contact your supervisor or IPRA at 792-2162.

Purpose: Part D is prepared by each unit at LCSC to report on annual program assessment findings. Part D documents are reviewed by higher level supervisors as well as by LCSC assessment committees—Division/Department Assessment Committees (DACs) and Functional Area Assessment Committees (FAACs). In cases where a major, multi-year program review (for example, a specialized accreditation evaluation) has taken place during the year, the Part D will be used to summarize/complement the results of the more extensive program assessment.

This year’s Part D template includes a questionnaire which addresses the five criteria in LCSC’s SBOE-approved Program Prioritization rubric, i.e.:

1) centrality/essentiality of the program to LCSC’s mission
2) quality of program outcomes
3) external (primary customer/stakeholder) demand
4) internal (secondary customer/stakeholder) demand
5) resources/efficiency (net costs/revenues)

Part D is also used to show the impact of the assessment process on the planning/budgeting process. It documents actions which have been taken in response to previous assessment cycle findings, and it provides a forecast on anticipated recommendations related to resources (personnel, equipment, space, facilities, etc.) and policies/procedures for consideration during the next UAP planning cycle.

Due Date: Program Assessment Monitors will submit Part D reports to the next higher supervisory level (e.g., to division chairs for most academic and professional-technical instructional programs; to deans or vice-presidents if that is the next supervisory level above the program assessment monitor; or to the President for Direct Reporting Units) by 5:00 pm, February 14, 2014. Upon receipt, supervisors will consolidate and email copies of the Part D reports from their units to IPRA for posting on the “assessment and planning information” intranet website. Supervisors are responsible for ensuring that all updates made to UADs during the course of the year are forwarded to IPRA so that the most current versions are posted.

Part D Template: Note—the format below is to be used for all instructional and non-instructional programs. Deans and Vice Presidents may provide additional instructions which are applicable only to their respective units. Check with your supervisor for any special instructions before filling in your Part D. Strive for clear and concise reports. Instructions and examples in blue text should be deleted before submitting your report.
Name of Unit (Reporting Chain): [Example: Humanities Division (Acad. Programs)]

Program:

Program Assessment Monitor:

Date Submitted and Period Covered by the Report: [Part D normally reflects program performance over the current academic/fiscal year. Indicate if the report is for a different period.]

Current as of: [Leave blank. Supervisors enter date in red when updates are made.]

Brief Program Description: [Provide a brief snapshot of the program. What are its key components, sub-functions and purposes? Who are the primary customers and stakeholders? Are there external agencies that regularly assess the program?]

Program Objectives, Performance Measures, Benchmarks, and Results:
[Note: For this year’s assessment cycle, the above list of items is duplicated in the Program Prioritization Questionnaire section on Criterion #2, “Quality of Program Outcomes.” As a short-cut, Program Assessment Monitors may omit listing these items twice and state: “See the list of program objectives, performance measures, benchmarks, and results in the response to Criterion #2 in the Program Prioritization Questionnaire.”]

[List the following for each program objective. The first three items—Objectives, Performance Measures, and Objectives—should reflect the Part B list for the program.]

- Program Objective
- Performance Measure(s) for the objective
- Benchmark(s) for the objective (performance target you established to measure success)
- Results: Actual/projected outcome, and whether benchmark was attained.
- Remarks, if needed

Other program performance results or ratios (not listed in Part B), if any, which you used to assess the program (including any data or ratios requested by your functional area supervisory chain). [If any of these additional or assigned measures pertain to one of the five criteria in the Program Prioritization Questionnaire, do not repeat here but state “See Program Prioritization Questionnaire.”]

Examples:
A. Total student credit hours.
B. Student credit hours passed.
C. Student major count.
D. Total certificates/degrees awarded.
E. Number of requisitions processed.
F. Student financial aid dollars distributed.
G. Adjunct appropriation for 2013.

Program Prioritization Questionnaire

Criterion 1: Impact, justification, and overallessentiality of the program

Which of the following most accurately describes the program? (Select A, B, or C)
A. This program is mandated by Federal, State, or Idaho State Board of Education policy (cite specific code or policy reference in remarks, below) and/or is assessed to be absolutely essential to carrying out LCSC’s assigned mission and strategic plan.

B. This program makes an important contribution to LCSC’s ability to carry out its assigned mission and primary areas of emphasis, but its objectives could potentially be achieved by other programs or the function(s) could be out-sourced to other agencies. Were this program not in place, there might be negative (but not “fatal”) impacts to essential LCSC programs and services.

C. The program supports or complements other core functions at LCSC but is non-essential. While the program is a benefit to the institution and its stakeholder base, it is not considered essential in its own right, nor is it essential to the support of one of LCSC assigned primary emphasis area programs.

Check one of the following:  A. _____ B. _____ C. _____

Justification: Briefly outline your rationale for suggesting a rating of A, B, or C, above. For mandatory programs (those which you propose should be in category “A”), cite the applicable statute or policy which supports that rating. For programs in Category B (important, but not absolutely essential) describe the connecting relationship between this program and achievement of the institution’s mission or to essential LCSC programs and services.

Other Remarks: [If desired, you may also include an additional remarks paragraph which addresses the following considerations. Does the program enhance the college’s reputation and benefit the institution? Does it respond to a unique societal need that the institution values or help the institution differentiate itself from the crowd of other colleges and universities? In the past two years, has the context changed in which the program is expected to operate?]

Criterion 2: Quality of Program Outcomes

Step 1: Summarize the objectives for the program; the methods (assessment tools, metrics, benchmarks, targets) you use to determine whether the outcomes of the program are meeting the stated objectives; and the results of your assessment of the program’s performance this year.

[List the following for each program objective. The first three items—Objectives, Performance Measures, and Objectives—should reflect the Part B list for the program.]

- Program Objective
- Performance Measure(s) for the objective
- Benchmark(s) for the objective (performance target you established to measure success)
- Results: Actual/projected outcome, and whether benchmark was attained.
- Remarks, if needed

Step 2: Based on the results of the assessment tools/metrics above, which of the following statements most accurately describes the program.
A. The program consistently achieves its objectives and meets or exceeds its established targets/benchmarks.

B. The program is approaching its established performance benchmarks and there is a positive trend line indicating it will meet and sustain its targeted level of performance.

C. The program is not currently meeting its defined objectives/targets/benchmarks. Recent trend line of performance is flat or negative.

Check one of the following: A. ___ B. ___ C. ___

Justification: Briefly outline your rationale for suggesting a rating of A, B, or C, above. Keep narrative brief, but provide enough detail for reviewers outside your unit to determine what criteria are being used to define program success, and whether the program’s goals are being attained.

Other Remarks: [If desired, you may also include an additional remarks paragraph which addresses the following considerations. What examples of exemplary performance does the program demonstrate? What are the degrees of student, alumni, and employer satisfaction? For two-year and transfer programs, did students articulate well into upper-division success at LCSC or the receiving institutions? How successful are program graduates in seeking graduate and professional admission?]

Criterion 3: External demand for the program

Step 1: Define the “external” or “primary” stakeholders for this program (as distinct from any internal or secondary stakeholders described under Criterion #4, “Internal/Secondary Demand”).

Step 2: Based on your external or primary stakeholder base, as defined above, which of the following most accurately describes the program?

A. This program directly serves or impacts all or nearly all of the stakeholders in the defined external or primary target population. [Example: all LCSC students (3,000 students representing 90% of the targeted population of all degree-seeking students), all Professional-Technical Students, all community attendees at LCSC Athletic Events, all LCSC employees].

B. This program directly serves or impacts greater than one half of the stakeholders in the defined external or primary target population. [Example: about one-half to two-thirds of students who live in the Residence Halls, half of the employees on main campus, etc.]
C. This program serves a selected number of stakeholders (less than one half) within the defined external or primary stakeholder base. [Example: this program typically supports 5% of LCSC students who participate in domestic and/or overseas exchange programs, or 10% of LCSC employees who need special physical accommodations in their work area].

Check one of the following: A. ___  B. ___  C. ___

Justification: Briefly outline your rationale for suggesting a rating of A, B, or C above. In your response, indicate the absolute (approximate when no real numbers are available) number of stakeholders served, as well as the percentage of the targeted external or primary stakeholder base which that number represents. When applicable, use data specified by your supervisor. Cite data source documents.

Other Remarks: [If desired, you may also include an additional remarks paragraph which addresses the following considerations. Has the enrollment/use of this program remained steady, declined, or grown over the last five years? Are there more students interested in the program than can be served? What is the likely potential for future enrollment in/use of the program? What other forces are at work in the surrounding environment that affects this program? Do external demands suggest that the institution continue this program?]

Criterion 4: Internal demand for the program

Step 1: Define the “internal” or “secondary” stakeholders for this program (as distinct from the external or primary stakeholders described above under Criterion #3, “External/Primary Demand”), if applicable.

Step 2: Based on your internal or secondary stakeholder base, as defined above, which of the following most accurately describes the program?

A. This program directly serves or impacts all or nearly all of the stakeholders in the defined internal or secondary target population

B. This program directly serves or impacts more than one half of the stakeholders in the defined internal or secondary population.

C. This program serves a selected number of stakeholders (less than one half) within the defined internal or secondary stakeholder base. Use category “C” for programs which do not have a significant secondary stakeholder base.

Check one of the following: A. ___  B. ___  C. ___

Justification: Briefly outline your rationale for suggesting a rating of A, B, or C, above. Describe the absolute numbers (approximate when no real numbers are available) as well as the percentage of
people served within your defined external or primary stakeholder base. Whenever available, use data provided by IPRA. Cite data source documents.

Other Remarks: [If desired, you may also include an additional remarks paragraph which addresses the following considerations. What is the relationship of this program to the success of other programs? What proportion of enrollments are for major, minor, general studies, or service purposes? What programs would suffer, or possibly fail, without the service courses offered by another program? What role does this program play in student retention? ]

Criterion 5: Net Revenue/Cost Factors

Step 1: Input Analysis: Review and confirm personnel/budget/output metrics provided for this program by IPRA, the Budget Office, and, if applicable, your supervisor.

- Number of personnel (non-duplicated, based on proportion of time spent on program) directly supporting the program.
- Budget allocated for the program (PC, OE, CO, and IH costs) and source of funds (General Education, Professional-Technical Education, Local, Grants/Auxiliaries, Gifts, Program Revenues).

Step 2: Output Analysis: Review and confirm the key output numbers for your program (including any measures specified by Administration in consultation with Division/Department supervisors, Deans, etc.):

- Output measure 1: (example: student credit hours passed)
- Output measure 2: (example: number of students majoring in program).
- Output measure 3: (example: number of students who received a certificate)
- Output measure 4: (example: number of student cases managed under program)
- Output measure 5: (example: number of projects overseen by program)

Step 3: Ratio Analysis: Review and confirm the ratios of inputs/outputs or outputs/inputs derived from the above data:

- Ratio 1: (example: number of certificates/degrees awarded annually divided by number of faculty/personnel assigned to the program)
- Ratio 2: (example: number of credit hours passed in the program divided by the funds budgeted to support the program)
- Ratio 3: (example: number of personnel directly supporting the program divided by the number of students majoring in the program)

Step 4: Which of the following statements most closely describes the funding model for your program?

A. This program relies primarily on appropriated funds (General Education, Professional-Technical Education, and/or student fees) to sustain its operations.
B. This program depends upon appropriated funding, but generates a significant percentage (greater than 30% of total budget) from external sources such as federal or state grants, private gifts, or resources provided to the program by a collaborating institution.

C. This program is a self-supporting or auxiliary type operation which receives between zero and ten percent of its operating dollars from appropriated funds.

Check one of the following:  A. ___  B. ___  C. ___

Justification/Remarks: If desired, briefly explain or provide additional comments related to your selection of “A, B, or C” above, or to any of the input measures, output measures, or input/output ratios.

____________________ (End of Questionnaire Section)

RESULTS

Briefly summarize the results of your annual program review using the three categories listed below (strengths, opportunities for improvement, and other insights/findings). How well is the program meeting the goals you have established to meet the needs of your students, customers, and/or other stakeholders? What actions are you taking (or recommending for action) to improve the program, based on your assessment findings?

[Provide a brief, clear, executive summary of the results of your program review. If a lengthy, more detailed assessment report also was prepared (e.g., in response to a specialized accreditation evaluation), cross-reference this in your remarks—do not need to repeat all details of an extensive program review in this report if documented elsewhere. Remember that unit supervisors, division chairs, deans, vice presidents, and colleagues from other functional areas, etc., will read your report—strive to make your report comprehensible to lay readers.]

Strengths: Which aspects of the program are going well? What do you see as positive trends? What are the program’s success stories, and to what do you attribute that success? What positive feedback have you received from students, customers, auditors, and other stakeholders? Did any program changes you made in response to last year’s assessment findings have a positive impact?

Opportunities for Improvement: What areas need improvement within the program? What program or process weakness did you observe? Are there areas for improvement that require assistance from outside sources (resources, expertise, process/policy revisions, training)?

Other Insights/Findings/Comments: What other significant findings emerged from your annual program assessment? Did you develop any specific suggestions or recommendations for improving your program or other programs/processes at LCSC which support your program?

Impact on Upcoming Planning Cycle: Briefly comment on any findings that may impact next fall’s strategic planning and Unit Action Plan process. Outline any other key points that should be elevated through your supervisory chain to the administration or to sister-units.

## BOARD ACTION

I move to approve the Consent Agenda as presented.

Moved by __________ Seconded by __________ Carried Yes ______ No ______
SUBJECT
Optional Retirement Plan (ORP)

REFERENCE
December 2011 Amendments to bring the ORP into compliance with federal tax law
October 2012 Amendments to clarify ORP cash withdrawal provisions

APPLICABLE STATUTES, RULE OR POLICY
Idaho Code 33-107A, 107B
Idaho State Board of Education Governing Policies & Procedures, Section II.K

BACKGROUND / DISCUSSION
In its review of the ORP for purposes of issuing a favorable determination letter, the Internal Revenue Service (IRS) requested two technical amendments to the ORP document.

First, the IRS requested an amendment to define the term "leased employee," which appears in the definition of "Eligible Employee" in section 1.8. The amendment defines the term "leased employee" according to tax laws.

Second, the IRS also requested an amendment to clarify the ORP’s definition of "compensation" for purposes of tax laws that limit contributions to the Plan to a maximum of 100% of a participant's "compensation" per year. The amendment defines "compensation" for this purpose as wages subject to income tax withholding (plus some elective deferrals that laws exclude from wages for tax withholding). This definition is one of several optional definitions of "compensation" permitted by applicable U.S. Treasury Regulations.

IMPACT
The first amendment will not affect ORP operations because it is merely a clarification of an existing ORP provision.

Likewise, the second amendment will not affect ORP operations because (i) the ORP provides for contributions at a rate well below 100% of a participant's compensation; and (ii) the ORP’s definition of "compensation" for purposes other than this tax law limit will remain unchanged.

ATTACHMENTS
Attachment 1 – Amendments to Optional Retirement Plan document Page 3

STAFF COMMENTS AND RECOMMENDATIONS
Board tax counsel prepared amendments to the ORP consistent with the IRS request. The amendments were submitted by Board tax counsel to the IRS
earlier this summer subject to approval by the Board. Board counsel and staff received a letter dated July 1, 2014 from the IRS with notification of initial approval of the ORP determination letter application.

Staff recommends approval.

BOARD ACTION
I move to approve the amendments to the Optional Retirement Plan as set forth in Attachment 1.

Moved by____________ Seconded by____________ Carried Yes____ No____
AMENDMENTS TO
IDAHO STATE BOARD OF EDUCATION OPTIONAL RETIREMENT PLAN
IN RESPONSE TO IRS DETERMINATION LETTER REVIEW

1. Amend Plan section 1.8 as follows, effective January 1, 2008:

Replace the sentence "The term Eligible Employee shall not include any leased employee deemed to be an employee of the Institution as provided in Code section 414(n)" with the following:

The term Eligible Employee shall not include a "leased employee" as defined in Code section 414(n), which defines a "leased employee" as any person (other than an employee of the recipient) who pursuant to an agreement between the recipient and any other person ("leasing organization") has performed services for the recipient (or for the recipient and related persons determined in accordance with Code section 414(n)(6)) on a substantially full time basis for a period of at least one year, and such services are performed under primary direction or control by the recipient.

2. Add the following to the end of Plan section 4.8, effective January 1, 2008:

(b) Solely for purposes of applying Code section 415 limits, compensation is defined as wages within the meaning of Code section 3401(a), plus amounts that would be included in wages but for an election under Code section 125(a), 132(f)(4), 402(e)(3), 402(h)(1)(B), 402(k) or 457(b), all as described in Treas. Reg. section 1.415(c)-2.
BOISE STATE UNIVERSITY

SUBJECT
New 403(b) Supplemental Retirement Plan participant

REFERENCE
June 2011 Idaho State Board of Education (Board) approved 403(b) Supplemental Retirement Plan
August 2013 Board approved technical amendments to Plan document
February 2014 Board approved changes to Plan contribution rates

APPLICABLE STATUTE, RULE, OR POLICY
Sections 33-107C and 59-513 Idaho Code

BACKGROUND/DISCUSSION
Boise State University (BSU) requests approval to add Kenneth Petersen, Ph.D., the new dean of the College of Business and Economics, as a participant in the Board’s 403(b) Supplemental Retirement Plan.

Dr. Petersen served in the United States Navy and Navy Reserve for 17 years, earning his doctorate in operations and sourcing management in 1999 from Michigan State University. He has held faculty positions at University of Oregon, Arizona State University, Colorado State University and University of Tennessee, where he served as the John H. “Red” Dove Professor of Supply Chain Management.

IMPACT
Participation in the 403(b) Supplemental Retirement Plan is an important recruitment and retention tool for the University. Dr. Petersen contributed to a supplemental retirement plan with his former employer; he would like to continue that practice at Boise State University.

Dr. Petersen’s contribution rates will mirror Dr. Kustra and Mark Coyle’s contribution rates for the balance of 2014; thereafter, in accordance with plan amendments approved by the Board in February 2014, all participant contribution rates will adjust to 3.5 percent for employer contributions and 2.5 percent employee contributions.

ATTACHMENTS
Attachment 1 -- Supplemental Retirement 403(b) Plan Appendix A Page 3
STAFF COMMENTS AND RECOMMENDATIONS

The only Board-approved participants currently in the plan are university presidents, two coaches and an athletic director. There are no deans or other administrators participating in the plan at this time. Offering this benefit is really a business decision for the institution in terms of how much they are willing to pay in the form of deferred compensation in support of recruitment and retention efforts.

Staff recommends approval.

BOARD ACTION

I move to approve the request by Boise State University to add Kenneth Petersen as a participant to the 403(b) Supplemental Retirement Plan as presented in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
APPENDIX A

ELIGIBLE EMPLOYEES

The contribution percentages listed in this Appendix A are set by a formula established by the Employer. Each Eligible Employee has not exercised any control, direct or indirect, over the contribution percentages listed in this Appendix A.

1. For Calendar Years 2011 and 2012 the Contributions Amounts (as referenced in Section 2.5) shall be as follows:

<table>
<thead>
<tr>
<th>Employee</th>
<th>Employer Contribution</th>
<th>Mandatory Employee Contribution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Robert Kustra</td>
<td>3.46%</td>
<td>2.60%</td>

CONSENT AGENDA
AUGUST 14, 2014

IDAHO STATE UNIVERSITY

SUBJECT
Enterprise Resource Planning Hardware Replacement

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.I.

BACKGROUND/DISCUSSION
The servers that currently run on the core software of Idaho State University’s (ISU) Banner Enterprise Resource Planning (ERP) system were purchased in the spring of 2007. They have served the University well over the past seven years, but are near the end of their useful life.

After extensive analysis of many options for a new hardware platform for these core University services, the University proposes to purchase equipment to replace these servers. The servers and associated network and storage equipment represent the current state of the art for modern enterprise operations. The proposed solution also enhances the business continuity/disaster recovery plans of the University by dividing the servers between two existing computer operations centers on campus. All purchases will be made in conformance with state purchasing policies and procedures. Most purchases will be made from vendors on existing state contracts.

IMPACT
The total estimated cost for the purchase of these servers and associated system software licenses, including three years of maintenance, is $1,418,244, funded by appropriated funds.

ATTACHMENTS
Attachment 1 – Summary of project costs Page 3
Attachment 2 – Budgetary quote for servers, network equipment, and storage from Presidio Page 4
Attachment 3 – Budgetary quote for VMWare licenses from Dell Page 14
Attachment 4 – Budgetary quote for Oracle linux licenses from Dell Page 16
Attachment 5 – Budgetary quote for Commvault backup licenses from ASG Page 18

STAFF COMMENTS AND RECOMMENDATIONS
Staff recommends approval.
BOARD ACTION

I move to approve the request by Idaho State University to replace Enterprise Resource Planning (ERP) hardware at an estimated cost not to exceed $1,418,244, funded by appropriated funds.

Additional Terms
The following terms and conditions ("Additional Terms") shall govern this ORDER/PROPOSAL unless a valid Master Services & Product Agreement has been executed between the parties for professional services and/or product and is in force at the time this ORDER/PROPOSAL is executed, in which case the terms of the Master Services & Product Agreement shall govern to the extent that they are inconsistent with this ORDER/PROPOSAL.

1. Purchase Orders, Invoicing, Payment and Acceptance. Any purchase order submitted by CLIENT in connection with this ORDER/PROPOSAL shall be deemed subject to these Additional Terms and this ORDER/PROPOSAL. Unsigned, electronically submitted purchase orders shall be deemed to include CLIENT’s electronic signature and shall be binding to the extent accepted by PRESIDIO. PRESIDIO’s performance of such purchase order shall not constitute Presidio Networked Solutions Group, LLC’s (“Presidio Networked Solutions Group, LLC” or “PRESIDIO”) acceptance of new or different terms, including pre-printed terms on such order. In absence of a purchase order, CLIENT agrees that its signature below grants PRESIDIO the right to invoice CLIENT and authorizes payment to PRESIDIO for the amounts owed. Further, CLIENT represents that PRESIDIO can rely on such CLIENT signature for payment. PRESIDIO shall invoice CLIENT for the Products and/or Services in accordance with the terms stated in the ORDER/PROPOSAL. The price included herein reflects a 3% discount for payment by cash, check or wire transfer. This discount will not apply in the event that CLIENT pays using a credit card or debit card. CLIENT shall make payment to PRESIDIO within thirty (30) days from the date of invoice. Except for taxes due on PRESIDIO’s net income, CLIENT shall pay all taxes. PRESIDIO reserves the right to bill CLIENT for additional work requested by CLIENT and performed by PRESIDIO, and for applicable expenses incurred by PRESIDIO pursuant to providing such additional services, which are not described in this ORDER/PROPOSAL. Unless otherwise indicated in this ORDER/PROPOSAL, CLIENT agrees that staff augmentation services and services performed on a time and materials basis shall be deemed accepted as performed. Unless otherwise indicated in this ORDER/PROPOSAL, Projects shall be deemed accepted upon the earlier of PRESIDIO’s receipt a signed Project Completion and Acceptance document which has been signed and dated by an authorized representative of CLIENT, or sixty (60) calendar days from the date of the delivery of the final Project deliverable.

2. Purchase of Product. All Products delivered to CLIENT hereunder shall be shipped FOB origin, freight collect. Title and risk of loss shall pass to CLIENT at point of origin. Products shall be deemed accepted upon delivery.

3. Limitations of Warranties. PRESIDIO warrants that Services shall be provided by competent personnel in accordance with applicable professional standards. ALL PRODUCTS PROVIDED BY PRESIDIO ARE PROVIDED "AS IS," WITH ALL FAULTS. PRESIDIO MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. ANY AND ALL ORIGINAL EQUIPMENT MANUFACTURER (OEM) WARRANTIES, CERTIFICATIONS AND GUARANTEES, IF ANY, ARE PASSED THROUGH TO CLIENT.

4. Intellectual Property. CLIENT acknowledges that PRESIDIO, its vendors, and/or its licensors retain all patents and/or copyrights in and to all proprietary data, processes and programs, if any, provided in connection with Services performed hereunder; any PRESIDIO software provided to CLIENT as part of the Services provided shall be subject to the vendor's, licensor's or OEM's copyright and licensing policy. To the extent such software is prepared by PRESIDIO, it is provided by nontransferable, nonexclusive license for CLIENT's internal use only, subject strictly to the terms and conditions of this Agreement, and shall be accompanied by termination or expiration of this Agreement. CLIENT shall not duplicate, use or disclose for the benefit of third parties, reverse engineer or decompile any such software.

5. Confidential Information. The parties agree that Confidential Information means any information disclosed by the disclosing party to the receiving party, either directly or indirectly, in writing, orally or by inspection of tangible objects (including without limitation documents, prototypes, samples, plant and equipment, "CLIENT" lists or other "CLIENT" information not known to the public), which is designated as "Confidential," "Proprietary" or some similar designation, or is the type of information which should reasonably be recognized as Confidential or Proprietary. The receiving party shall not use any Confidential Information of the disclosing party for any purpose except to evaluate and engage in discussions concerning this Proposal. Each party agrees to protect the other party's Proprietary and Confidential Information to the same extent that it protects its own Proprietary and Confidential Information but with no less than a reasonable degree of care.

6. Limitation of Liability. IN NO EVENT SHALL PRESIDIO BE LIABLE TO CLIENT FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, EXEMPLARY, OR PUNITIVE DAMAGES OF ANY KIND WHATSOEVER, ARISING IN CONTRACT, TORT OR OTHERWISE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. PRESIDIO’S ENTIRE LIABILITY AND CLIENT’S EXCLUSIVE REMEDY FOR DAMAGES FROM ANY CAUSE WHATSOEVER, INCLUDING, BUT NOT LIMITED TO, NONPERFORMANCE OR MISREPRESENTATION, AND REGARDLESS OF THE FORM OF ACTIONS, SHALL BE LIMITED TO THE AMOUNT WHICH HAS BEEN ACTUALLY PAID TO PRESIDIO BY CLIENT FOR SERVICES AND/OR PERFORMANCE HEREUNDER. Without limiting the foregoing, PRESIDIO will have no responsibility for the adequacy or performance of (i) any third party software provided to PRESIDIO under this agreement; (ii) any hardware, and (iii) any services provided by any third party.

7. Non-Solicitation Provision. During the term of this ORDER/PROPOSAL and for twelve (12) months thereafter, neither party will solicit for a permanent or other position any employee or subcontractor of the other party to whom that party was introduced as a result of this ORDER/PROPOSAL. Should a party solicitor and/or hire such an employee or contractor from the other party, the soliciting and/or hiring party shall pay to the other party an administrative fee equal to 1 year's salary of the employee's new salary at the soliciting and/or hiring party's new company.

8. Equal Opportunity/Affirmative Action Employer. PRESIDIO is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, age, color, religion, gender, national origin, disability, sexual orientation, or veteran status.

9. Export Law Compliance. CLIENT has been advised that all Products purchased hereunder and PRESIDIO Confidential Information are subject to the Export Law Compliance. CLIENT agrees to comply with all applicable United States export control laws, and regulations, as from time to time amended, including without limitation, the laws and regulations administered by the United States Department of Commerce and the United States Department of State.

10. Document Control/Responsibility. CLIENT is responsible for maintaining its own procedures for the reconstruction of lost or altered files, backup or saving of data or programs to the extent deemed necessary by CLIENT and for actually reconstructing any lost or altered files, data or programs. PRESIDIO assumes no responsibility for the protection of CLIENT’s data. PRESIDIO is not liable for damage to software or data caused by use of the computer's hardware equipment. CLIENT agrees that it shall have the sole responsibility for safeguarding the software and data during service work performed by PRESIDIO. PRESIDIO is not liable for software damage due to any outside factor, i.e. software virus.

11. Force Majeure. Neither party shall be liable for any failure or delay in performance of its obligations hereunder where such performance is prevented or delayed by causes beyond its reasonable control, including without limitation, flood, war, embargo, strike or other labor dispute, riot, acts of God or the intervention of any government authority.

12. Choice of Law and Venue. The parties will attempt to settle any claim or controversy arising under this ORDER/PROPOSAL through consultation and negotiation in good faith and a spirit of mutual cooperation. This ORDER/PROPOSAL and all matters relating thereto shall be governed exclusively by the substantive law of the State of Texas. Any dispute relating directly or indirectly to this ORDER/PROPOSAL or any other contract or agreement between the parties which cannot be resolved through the process of consultation and negotiation shall be brought in a court of competent jurisdiction in Dallas County, Texas, that being the exclusive venue for any dispute between or any claims held by any of the parties to this ORDER/PROPOSAL.

13. CLIENT Credit. As an inducement to provide the Services and/or the Products, CLIENT hereby represents and warrants that it is solvent, that it pays its obligations as they come due. CLIENT agrees that PRESIDIO that PRESIDIO has the right to obtain the credit history of the applicant and
authorizes PRESIDIO to secure such information by its signature herein.

14. Financing. In the event CLIENT finances the Products and/or Services on the ORDER/PROPOSAL via a lease, CLIENT shall remain ultimately responsible for all payments to PRESIDIO and for providing all requisite information and documentation to the third party financing/leasing company.

15. Miscellaneous. This ORDER/PROPOSAL constitutes the entire agreement of the parties and supersedes all prior written or oral agreements, representations and understandings relating to the subject matter hereof, with the exception of a valid Master Services and Product Agreement between the parties under the terms of which this ORDER/PROPOSAL shall be incorporated. This ORDER/PROPOSAL shall not be amended or modified except by written instrument signed by the parties. Should additional work beyond the scope of the Services detailed herein by PRESIDIO be requested by CLIENT, fees for such additional Services will be negotiated with CLIENT prior to performing such work and will be memorialized in writing between the Parties by utilizing a Project Change Request form ("PCR") or an additional ORDER/PROPOSAL, as appropriate. PRESIDIO will invoice CLIENT for any additional work performed and expenses incurred which are not described in this ORDER/PROPOSAL. The Parties agree that neither may assign its rights or duties under this contract without the prior written consent of the other Party, which consent shall not be unreasonably withheld. Each party has had an opportunity to consult with advisors of its own choosing, including legal counsel and/or accountants and has been advised regarding the legal and/or tax effects of this document.

16. Severability. The provisions of this Agreement are severable. If any provision of this Agreement or its application to any person or circumstance is ever held by any court of competent jurisdiction to be invalid for any reason, the remainder of this Agreement and the application of such provision or part of this Agreement to other persons or circumstances shall not be affected.

Each party has had an opportunity to consult with advisors of its own choosing, including legal counsel and/or accountants and has been advised regarding the legal and/or tax effects of this ORDER.

**Statement of Conditions**  
The information in this document is believed to be accurate. However, Dell assumes no responsibility for inaccuracies, errors, or omissions, and shall not be liable for direct, indirect, special, incidental, or consequential damages resulting from any such error or omission. Dell is not responsible for pricing or other errors, and reserves the right to cancel orders arising from such errors. Dell may make changes to this proposal including changes or updates to the products and services described, including pricing, without notice or obligation.

**Terms of Sale**  
This quote is valid for 30 days unless otherwise stated. Unless you have a separate written agreement that specifically applies to this order, your order will be subject to and governed by the following agreements, each of which are incorporated herein by reference and available in hardcopy from Dell at your request:

- If this purchase is for your internal use only: Dell’s Commercial Terms of Sale (www.dell.com/CTS), which incorporate Dell’s U.S. Return Policy (www.dell.com/returnpolicy) and Warranty (www.dell.com/warrantyterms).
- If this purchase is intended for resale: Dell’s Reseller Terms of Sale (www.dell.com/resellerterms).
- If this purchase includes services: in addition to the foregoing applicable terms, Dell’s Service Terms (www.dell.com/servicecontracts/global).

You acknowledge having read and agree to be bound by the foregoing applicable terms in their entirety. Any terms and conditions set forth in your purchase order or any other correspondence that are in addition to, inconsistent or in conflict with the foregoing applicable online terms will be of no force or effect unless specifically agreed to in a writing signed by Dell that expressly references such terms.

**Additional Terms for Public Customers**  
If you are a department, agency, division, or office of any district, state, county or municipal government within the United States (“Public Customer”), the following terms (“Public Customer Terms”) apply in addition to the foregoing terms:

- A. If any portion of the foregoing terms and conditions (or any terms referenced therein) is prohibited by law, such portion shall not apply to you. Notwithstanding anything to the contrary, the End User License Agreements shall take precedence in all conflicts relevant to your use of any software. B. By placing your order, you confirm that (1) you are a contracting officer or other authorized representative of Public Customer with authority to bind the Public Customer to these terms and conditions, and (2) you have read and agree to be bound by these terms and conditions.

**Pricing, Taxes, and Additional Information**  
All product, pricing, and other information is valid for U.S. customers and U.S. addresses only, and is based on the latest information available and may be subject to change. Dell reserves the right to cancel quotes and orders arising from pricing or other errors. Sales tax on products shipped is based on your “Ship To” address, and for software downloads is based on your “Bill To” address. Please indicate any tax-exempt status on your PO, and fax your exemption certificate, including your Customer Number, to the Dell Tax Department at 800-433-9023. Please ensure that your tax-exemption certificate reflects the correct Dell entity name: Dell Marketing L.P. Note: All tax quoted above is an estimate; final taxes will be listed on the invoice. If you have any questions regarding tax please send an e-mail to Tax_Department@dell.com.

For certain products shipped to end-users in California, a State Environmental Fee will be applied to your invoice. Dell encourages customers to dispose of electronic equipment properly. All information supplied to IDAHO STATE UNIV for the purpose of this proposal is to be considered confidential information belonging to Dell.

**About Dell**  
Dell Inc. listens to customers and delivers innovative technology and services they trust and value. Uniquely enabled by its direct business model, Dell is a leading global systems and services company and No. 34 on the Fortune 500. For more information, visit www.dell.com.

TAB 3 Page 18
SUBJECT
License Agreement with AT&T Wireless Services

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.I.5.b(1)

BACKGROUND/DISCUSSION
Since 2001 AT&T had been permitted, through a prior license agreement, to install and maintain transmission equipment on the rooftop of the University of Idaho’s (UI) Theophilus Tower. This equipment is used by AT&T to provide its customers with wireless personal communication service in the surrounding area.

The original agreement provided for an annual payment of $9,600 to UI and the agreement could be terminated by either party by at least one year’s prior notice. The site has been periodically updated to install newer technology for personal phone and data use. The existing license did not provide for escalations in the use fee. The University has proposed and AT&T has tentatively agreed to revise the terms of this agreement primarily to increase the annual fee paid to $24,000/yr. The proposed agreement also provides AT&T with permission to use the building rooftop for five years with the ability for AT&T to extend for two additional five year periods. These renewal periods provide fee increases of 15% to UI for each of the two extensions.

IMPACT
The University will receive a substantial increase in payment to extend the license agreement and the installations do not interfere with University operations in this student residential building.

ATTACHMENTS
Attachment 1 – Proposed License

STAFF COMMENTS AND RECOMMENDATIONS
Staff recommends approval.
BOARD ACTION

I move to approve the request by the University of Idaho for authority to grant a five year license to AT&T Wireless Services in substantial conformance to the form submitted to the Board in Attachment 1 and to authorize the University's Vice President for Finance and Administration to execute the license and any related documents.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
LICENSE AGREEMENT

This License Agreement ("Agreement") is made between the Board of Regents of the University of Idaho, a state educational institution, and a body politic and corporate organized and existing under the Constitution and laws of the state of Idaho ("Grantor"), and New Cingular Wireless PCS, LLC, a Delaware limited liability company, successor in interest to AT&T Wireless Services of Idaho, Inc., d/b/a AT&T Wireless, an Idaho Corporation, having a mailing address of 575 Morosgo Drive NE, Suite 13-F, West Tower, Atlanta, GA 30324 ("Grantee"), collectively the “Parties”.

RECITALS

A. WHEREAS, Grantor and Grantee (or its predecessor in interest) entered into that certain License Agreement on August 1, 2001 ("Existing License") for purposes of installing, operating, and maintaining “a personal communications service systems facility at 1001 Paradise Creek St, Moscow ID 83844 ("Site").

B. WHEREAS, the Parties hereby mutually agree to terminate the Existing License agreement and replace with this Agreement.

C. WHEREAS, Grantee wishes to install, operate, and maintain equipment necessary for purposes of operating a personal communications service systems specified in Exhibit 1-A and 2-A ("Equipment") on the roof of Grantor’s Site known as Theophilus Tower.

B. WHEREAS, Grantor wishes to grant and Grantee wishes to receive a license for purposes of installing, operating, and maintaining Equipment all on the terms and conditions set forth herein;

WHEREFORE, Parties agree as follows:

TERMS AND CONDITIONS

1. Grant; Site. Subject to the conditions, limitations, and restrictions set forth herein and the rules, procedures, and policies of the Grantor, the Grantor does hereby grant to Grantee a non-exclusive license to install, operate, replace, modify, and maintain Equipment on the Site for the purpose of broadcasting, and for the transmission and reception of communication signals. The Parties recognize and agree that nothing in this Agreement is intended or shall be construed to be an easement or the granting of an interest in real property beyond permission to use as provided herein.

2. Access to Premises. Grantee may gain periodic access to the Site by calling (208) 885-7379. Except in cases of emergency ("emergency" meaning the existing or imminent disruption of Grantee’s permitted service without immediate access), all scheduling for access and the actual access shall occur between 8 am to 4 pm Monday through Friday, excluding University of Idaho holidays. Such non-emergency access shall be requested at least 48 hours prior to the planned time for requested access. Subject to specific Grantor approval, such approval not to be unreasonably withheld, conditioned or delayed, Grantee shall have rights of ingress and egress to the Site for the purposes of installing, inspecting, repairing, maintaining, operating, servicing or removing Grantee’s Equipment. However, prior to entrance into or onto the building, Grantee’s agent or contractor shall provide photo
identification identifying the person as an employee of the Grantee or Grantee’s contractor or subcontractor. Upon notification and identification as provided herein, an employee or agent of Grantor shall arrange for Grantee to enter the Site. Grantor may require Grantee and its employees, agents, and contractors be accompanied by an employee or agent of Grantor at all times while Grantee and its employees, agents, and contractors are inside, on, or about Grantor’s property or at the Site. At no cost to Grantee, Grantor shall provide Grantee with the necessary temporary parking permits to facilitate Grantee’s access. Grantor shall not have unsupervised access to Grantee’s Equipment, except in the event of an emergency as reasonably determined by Grantor.

3. Term of License. The license granted hereunder shall commence on September 1, 2014 (the "Commencement Date"), and shall terminate on August 31, 2019 ("Initial Term"). This Agreement will automatically renew for two (2) additional five (5) year term(s) (each five (5) year term shall be defined as an “Extension Term”), upon the same terms and conditions unless Grantee notifies Grantor in writing of Grantee’s intention not to renew this Agreement at least sixty (60) days prior to the expiration of the Initial Term or then existing Extension Term. The Initial Term and any Extension Terms are collectively referred to as the Term ("Term").

4. Fees and Expenses. Within sixty (60) calendar days following the Commencement Date and no later than August 31 of each subsequent year of the Term, Grantee shall pay to Grantor a use fee of Twenty Four Thousand and 00/100 Dollars ($24,000.00) per year for the Initial Term, and then Twenty Seven Thousand Six Hundred Dollars ($27,600.00) per year for the first five year Extension Term, and then Thirty One Thousand Seven Hundred Forty Dollars ($31,740.00) per year for the second five year Extension Term (the "Use Fee"), which fee amount is inclusive of and shall cover electricity expenses typical for such installation and use. Use Fees for any fractional year shall be prorated. Use Fees, and/or any other charges or expenses owed by Grantee shall be payable to “Bursar, University of Idaho”, and mailed to the attention of Auxiliary Services, University of Idaho, 875 Perimeter Dr MS 2014, Moscow ID 83844-2014 or such other person as Grantor shall provide to Grantee by written notice. Failure to pay the Use Fee and/or any charges or expenses assessed or incurred hereunder on or before the due date shall constitute a default by Grantee, and, in addition to all other remedies of the Grantor, Grantee shall pay late charges equal to ten (10) percent of the amount past due plus simple interest on the amount due equal to one (1) percent per month until paid.

5. Use of Site.
   a. Subject to Grantor’s prior written approval, such approval not to be unreasonably withheld conditioned or delayed, Grantee shall have the right to install, maintain, and operate Equipment specified in Exhibit 1-A and 2-A on the Site. All of Grantee's construction and installation work and any subsequent work shall be performed at Grantee's sole cost and expense and in a good and workmanlike manner and shall be subject to Grantor's prior written approval of Grantee’s submitted installation plan. Grantor’s review shall include, but not be limited to timing of installation, method of installation, location of Equipment on the Site (to the extent they may vary from the initial installation specification and diagrams of Exhibit 1-A and 2-A) including the location of any equipment placed at some distance from the rooftop Site. Grantee shall submit information regarding appearance, attachment to the Site, the above and below ground wiring or cabling plan, the method and time of access for installation and facility or landscape restoration plan as well as any other information reasonably required by Grantor to determine the acceptability of Grantee’s proposed installation. Should such information be adequate, Grantor shall provide acknowledgement of its approval to Grantee in writing within 15 days. Title to Equipment shall be held by Grantee. All Equipment shall remain Grantee's personal property and are not fixtures (except any prior or future improvements to the building’s electrical system performed by Grantee and such improvements shall
remain and become the property of Grantor upon installation). Grantee shall have the right to remove all Equipment at its sole expense on or before the expiration of this Agreement or its earlier termination, provided, Grantee restores the Premises and the routes used for access to the Premises to the condition that existed at the Commencement Date, reasonable wear and tear excepted.

b. Electricity shall be provided by Grantor. Unless failure or interruption of utility service is caused by the intentional act or omission of Grantor, Grantor shall not be liable in damages or otherwise for any failure or interruption of any utility service being furnished to the Site. No such failure or interruption, whether resulting from a casualty or otherwise, shall entitle Grantee to terminate this Agreement or to abate the Use Fee Grantee is required to make under this Agreement, unless such failure or interruption is caused by the intentional act or omission of Grantor. For the purposes of this Section “intentional act” shall not include events of failure or interruption required due to emergency or repair needs as reasonably determined by the Grantor. To the extent any interruption can be scheduled or otherwise anticipated, Grantor shall provide Grantee with no less than seventy-two hour notice prior to such interruption. No written approval or notice shall be required for emergency use of generators provided by Grantee.

c. Grantor may require Grantee to take reasonable steps for installation of new equipment (including, but not limited to, prescribing a color and shape that blends with the Premises) to camouflage Equipment so that Equipment does not detract from the appearance of Site.

d. Grantor reserves the right, upon one hundred and twenty (120) days prior written notice to Grantee, to relocate Equipment to another suitable site within Grantor’s property (“Alternate Site”). The size, location and dimensions of the Alternate Site shall be mutually approved by the Parties prior to relocation as suitable for the purpose of operating telecommunication facilities and shall not materially diminish the signal pattern of Equipment or impair or in any manner diminish the quality of communications service provided by Grantee. In the event Grantee does not accept such Alternate Site proposed by Grantor, Grantee may terminate this Agreement effective one hundred eighty (180) days from the date of Grantor’s notice to relocate from Site. The costs of relocating (or removing) Equipment to the approved Alternative Site (or from Grantor’s property if Grantor does not accept Alternate Site) are the responsibility of Grantee. In the event Grantor orders relocation of Equipment to an Alternate Site as provided herein, Grantor shall pay Grantee $2500, with said amount to be paid as a deduction in the subsequent year’s Use Fee (or paid directly to Grantee within thirty days of Grantee’s removal of Equipment from Grantor’s property if Grantor does not accept Alternate Site).

e. Grantee shall obtain all required permits and regulatory approvals prior to installation of Equipment. Costs for any such permits or approvals shall be the sole responsibility of Grantee or Grantee’s agents.

f. Grantee shall not erect any signs (except as required by law), display any banners, or exhibit any type of promotional materials on or near the Site. Warning signs regarding Equipment may be permitted by Grantor upon written request by Grantee.

g. Grantee shall operate Equipment in a manner that will not cause interference to Grantor and lessees, licensees, or occupants of the building. All operations of Grantee shall comply with all Federal Communications Commission ("FCC") requirements and other applicable federal, state, and local laws, rules, regulations, and ordinances. Grantor may consider Grantee’s or Grantee’s contractor’s or subcontractor’s breach of this provision a material breach of the Agreement. Grantee
will resolve any technical interference problems with other equipment or services located at or near the Site, whether installed as of the Commencement Date or at a later date during the Term of this Agreement. In the event that a technical interference problem arises, Grantee will work with Grantor to resolve the problem immediately in a mutually satisfactory manner. However, if a mutually satisfactory resolution cannot be agreed upon, the Grantor may, in its sole judgment, make the final determination of the manner in which the problem shall be resolved.

h. Grantee shall maintain Equipment and Site in good working condition. However, Grantee shall not be required to make any repairs to the Site unless such repairs shall be necessitated by reason of an act or omission of Grantee.

i. Nothing in this Agreement shall preclude Grantor from entering into similar agreements with other parties. Grantee shall not cause or permit any other communications service provider, alternative local carrier, or other third party owned or controlled facilities or equipment to be installed without the express written permission of Grantor.

j. Grantee shall restore any landscaping or facility damaged by access for installation or subsequent maintenance, repair, operation, service, modification, or removal of Grantee’s Equipment.

k. Grantee shall use caution in preparing the Site for utility placement or trenching (if any is required). In particular, the Parties recognize that standard locating measures may not reveal all previously placed utilities or other objects. As such, Grantee shall take all necessary precautions to prevent damaging any concealed/buried utilities and infrastructure that is likely present within the Site and adjoining grounds and Grantee shall instruct its construction crew to use caution and appropriate methods in order to avoid severing or damaging existing utilities or other objects from existing systems.

6. **Grantor's Access to Premises.** Grantor shall at all times have access to and the right to inspect the Premises and the Grantee Facilities. Grantor shall not have unsupervised access to Equipment, except in the event of emergency.

7. **Taxes.** If personal property or other taxes are assessed, Grantee shall pay any portion of such taxes attributable to the Equipment.

8. **Termination.**

   a. This Agreement may be terminated without further liability on thirty (30) days prior written notice by either party upon a default of any covenant or term hereof by the other party, which default is not cured within thirty (30) days of receipt of written notice of default, however if the nature of the default is such that it cannot be cured within thirty (30) days then no default will be deemed to exist so long as the defaulting party commences to cure the default within the thirty (30) day period and diligently prosecutes the same with reasonable diligence, provided that the grace period for any monetary default is thirty (30) days from receipt of written notice; or by Grantee for any or no reason, provided Grantee delivers written notice of early termination to Grantor.

   b. Upon termination or expiration of this Agreement, Grantee, at its own expense, shall remove the Grantee Facilities and restore the Site to the condition that existed prior to Grantee’s installation of Equipment, reasonable wear and tear excepted. In the event Grantee
terminates this Agreement early for reasons other than default by Grantor, Grantee shall not be reimbursed for previously paid Use Fee, but such termination shall terminate all future Grantee obligations regarding subsequent years’ Use Fee.

9. **Destruction or Condemnation.** If Grantee chooses not to terminate this Agreement upon destruction or condemnation, the Use Fee shall be reduced or abated in proportion to the actual reduction or abatement of use of the Site until such time as the damage is repaired or Site replaced.

10. **Indemnity.** Grantee and Grantee’s agents and subcontractors shall, to the fullest extent permitted by law, indemnify, defend and save Grantor, its successors, assigns, and agents harmless from any and all claims, liabilities, losses, costs, charges, or expenses which Grantor may incur as a result of any act or omission of the Grantee, Grantee’s agents, contractors, and subcontractors in their use of the Site under this Agreement or any other action in relation to this Agreement. If any action, claim or demand is made against Grantor for any act or omission of the Grantee, its agents, contractors and subcontractors, the Grantee agrees to assume the expense and shall pay all costs, charges, attorneys' fees, settlements, judgments or other expenses incurred by or obtained against Grantor, and also, including all attorneys' fees and costs associated with any appeal proceeding. This indemnification shall survive the termination of this Agreement for claims, liabilities, losses, costs, charges, or expenses occurring after termination but attributable to the uses authorized by this Agreement.

Subject to the limits of liability specified in Idaho Code 6-901 through 6-929, known as the Idaho Tort Claims Act, Grantor shall hold Grantee, its agents and assigns, harmless from and/or against claims, damages, and liabilities (including reasonable attorney's fees) that may be suffered or incurred and that arise as a direct result of and which are caused by the University's performance under this Agreement. This does not apply when such claims, damages, and liabilities are the result of negligent acts, errors, omissions or fault on the part of Grantee, its agents or assigns—including conditions of Grantor’s premises, or when the claim or suit is made against Grantee by the University, the State of Idaho, or any of its agencies. Except for claims arising from its own acts of gross negligence or intentional misconduct, Grantor will not have any liability for personal injury or death, loss of revenue due to discontinuance of operations at the Site, or imperfect communications operations experienced by Grantee for any reason. The obligations pursuant to this Section 10 shall survive the termination or expiration of this Agreement. Grantee shall promptly notify the University of Idaho, Attn: Risk Management Officer, 875 Perimeter Dr MS 3162, Moscow ID 83844-3162, of any such claim of which it has knowledge and shall cooperate fully with Grantor or its representatives in the defense of the same. Grantor’s liability coverage is provided through a self-funded liability program. Limits of liability are $500,000 Combined Single Limits, which amount is the Grantor’s limit of liability under the Idaho Tort Claims Act.

11. **Insurance.** Grantee and Grantee’s contractors and subcontractors are required to carry the types and limits of insurance shown in this Section 11, and provide Grantor with a Certificate of Insurance executed by a duly authorized representative of each insurer, showing compliance with these insurance requirements. Certificates from Grantee and Grantee’s contractor and subcontractors shall be provided (7) seven days prior to Grantee’s use of Grantor’s property. All insurers shall have a Best’s rating of “A minus V” or better and be eligible to do business in Idaho. All policies required shall be written as primary policies and not contributing to nor in excess of any coverage Grantor may choose to maintain. All required liability policies shall...
include State of Idaho and the Regents of the University of Idaho as an additional insured. Grantor’s additional insured status shall (i) be limited to bodily injury, property damage or personal and advertising injury caused, in whole or in part, by Grantee, its employees, agents or independent contractors; (ii) not extend to claims for punitive or exemplary damages arising out of the acts or omissions of Grantor, its employees, agents or independent contractors or where such coverage is prohibited by law or to claims arising out of the gross negligence of Grantor, its employees, agents or independent contractors; and, (iii) not exceed Grantee’s indemnification obligation under this Agreement, if any. Certificates shall be mailed to: 875 Perimeter Dr MS 3162, Moscow ID 83844-3162, Attn: Risk Management. All required policies shall contain waiver of subrogation coverage or endorsements. Failure of Grantor to demand such certificate or other evidence of full compliance with these insurance requirements or failure of Grantor to identify a deficiency from evidence that is provided shall not be construed as a waiver of Grantee’s obligation to maintain such insurance. Failure to maintain the required insurance may result in termination of this Agreement at Grantor’s option. By requiring insurance herein, Grantor does not represent that coverage and limits will necessarily be adequate to protect Grantee and such coverage and limits shall not be deemed as a limitation on Grantee’s liability under the indemnities granted to Grantor in this License. Grantee shall at its sole cost and expense, procure and maintain insurance of the types and in the amounts described below:

a. Commercial General and or Umbrella excess Liability Insurance: Grantee and Grantee’s contractors and subcontractors while working hereunder shall maintain commercial general liability (CGL) and, if necessary, commercial umbrella insurance with a limit of not less than $1,000,000 each occurrence and $2 million in the aggregate. CGL insurance shall be written on standard ISO occurrence form (or a substitute form providing equivalent coverage) and shall cover liability arising from premises, operations, independent contractors, products-completed operations, personal injury and advertising injury, sudden and accidental pollution for third parties, and contractual liability coverage.

b. Commercial Auto Insurance: Grantee and Grantee’s agents, contractors and subcontractors while working hereunder shall maintain a Commercial Auto policy with a Combined Single Limit of $1,000,000. Coverage shall include Non-Owned and Hired Car coverage.

c. Personal property: In no event shall Grantor be liable for any damage to or loss of personal property sustained by Grantee or Grantee’s agents or contractors, whether or not insured, even if such loss is caused by the negligence of Grantor, its employees, officers or agents.

d. Workers’ Compensation: Where required by law, Grantee and Grantee’s agents, contractors and subcontractors shall maintain all statutorily required coverages including Employer’s Liability. Grantee is responsible for collecting Certificates of Insurance evidencing Workers Compensation coverage from Grantee’s agents and subcontractors, and for forwarding such Certificates to Grantor.

Notwithstanding the forgoing, Grantee may, in its sole discretion, self insure any of the required insurance under the same terms as required by this Agreement. In the event Grantee elects to self-insure its obligation under this Agreement to include Grantor as an additional insured, the following conditions apply:

(i) Grantor shall promptly and no later than thirty (30) days after notice thereof provide Grantee with written notice of any claim, demand, lawsuit, or the like for which it seeks coverage
pursuant to this Section and provide Grantee with copies of any demands, notices, summonses, or legal papers received in connection with such claim, demand, lawsuit, or the like:

   (i) Grantor shall not settle any such claim, demand, lawsuit, or the like without the prior written consent of Grantee; and

   (ii) Grantor shall fully cooperate with Grantee in the defense of the claim, demand, lawsuit, or the like.

12. **Waiver of Subrogation.** Grantor and Grantee release each other and their respective principals, employees, representatives, and agents, from any claims for damage to any person or to the Site or to the Equipment thereon or to the Site caused by, or that result from, risks insured against under property insurance policies carried by the parties and in force at the time of any such damage. Grantor and Grantee shall cause each property insurance policy or equivalent obtained by them to provide that the insurance company or equivalent waives all right of recovery by way of subrogation against the other in connection with any damage covered by any policy.

13. **Assignment and Sub-licensing.** Grantee may not assign, sublicense, or otherwise transfer all or any part of its interest in this Agreement or the license granted herein without the prior written consent of Grantor, such consent not to be unreasonably withheld, conditioned or delayed, provided however that Grantee may assign or otherwise transfer upon written notice to Grantor, but without consent such interest to its parent company, any subsidiary, “partner or affiliate” (partner or affiliate is defined as “any party licensed, approved or permitted by the FCC to share Grantee’s radio frequency spectrum and signal”) or to any successor-in-interest or entity acquiring a controlling interest in its stock or assets. Grantee may not permit any other entity or individual to use the Site or Equipment without the prior written consent of Grantor.

14. **Hazardous Substances.** Grantee agrees that it will not use, generate, store, or dispose of any Hazardous Material on, under, about, or within the Site or Grantor’s property in violation of any law or regulation. As used in this paragraph, “Hazardous Material” shall mean petroleum or any petroleum product, asbestos, any substance known by the U. S. Government or the State of Idaho to cause cancer and/or reproductive toxicity, and/or any substance, chemical, or waste that is identified as hazardous, toxic, or dangerous in any applicable federal, state, or local law or regulation.

15. **Attorneys’ Fees.** In the event of any controversy, claim or action being filed or instituted between the parties to this Agreement to enforce the terms and conditions of this Agreement or arising from the breach of any provision hereof, the prevailing party will be entitled to receive from the other party all costs, damages, and expenses, including reasonable attorneys' fees, incurred by the prevailing party, whether or not such controversy or claim is litigated or prosecuted to judgment. The prevailing party will be that party who was awarded judgment as a result of trial or arbitration, or who receives a payment of money from the other party in settlement of claims asserted by that party.

16. **Notice.** Any notice under this Agreement shall be in writing and be delivered in person or by public or private courier service (including U.S. Postal Service Express Mail) or certified mail with return receipt requested, to be effective when properly sent and received, refused or returned undelivered. All notices shall be addressed to the parties at the following addresses or at such other addresses as the parties may from time to time direct in writing:

The Grantor: Regents of the University of Idaho
ATTACHMENT 1

The Grantee: New Cingular Wireless PCS, LLC
Attn: Network Real Estate Administration
Re: Cell Site #: ID29D; Cell Site Name: Moscow Dormitory (ID)
Fixed Asset #: 10075841
575 Morosgo Drive NE, 13F, West Tower
Atlanta, GA 30324

Re: Cell Site #: ID29D; Cell Site Name: Moscow Dormitory (ID)
Fixed Asset #: 10075841
208 S. Akard Street
Dallas, TX 75202-4206

17. Entire Agreement; Modification. This Agreement (and its attachments, if any) constitutes the entire understanding between the parties with respect to the subject matter hereof and may not be amended except by an agreement signed by an authorized representative of Grantee and an authorized representative of Grantor.

18. Governing Law; Forum. This Agreement shall be governed by and construed under the laws of the state of Idaho. The venue for any action brought to enforce this Agreement or otherwise shall be in the court of competent jurisdiction in Latah County, Idaho.

19. Non-Use of Names and Trademarks. Grantee shall not use the name, trade name, trademark, or other designation of the Grantor, or any contraction, abbreviation, or simulation of any of the foregoing, in any advertisement, for any commercial or promotional purpose, or for any other purpose (other than in performing under this Agreement) without the Grantor’s prior written consent in each case.

20. Paragraph Headings. The paragraph headings in this Agreement are inserted for convenience only and shall not be construed to limit or modify the scope of any provision of this Agreement.

21. Non-Waiver. The delay or failure of either party to exercise any of its rights under this Agreement for a breach thereof shall not be deemed to be a waiver of such rights, nor shall the same be deemed to be a waiver of any subsequent breach, either of the same provision or otherwise.

22. Force Majeure. Any prevention, delay or stoppage due to strikes, lockouts, labor disputes, acts of God, inability to obtain labor or materials or reasonable substitutes therefore, governmental restrictions, governmental regulations, governmental controls, enemy or hostile governmental action, civil commotion, fire or other casualty, and other causes beyond the reasonable control of the party obligated to perform (except for financial ability), shall excuse the performance,
23. **Nondiscrimination and Affirmative Action.**

   A. Grantee shall not discriminate against any employee or applicant for employment in the performance of this Agreement, with respect to tenure, terms, conditions or privileges of employment, or any matter directly or indirectly related to employment, because of race, sex, color, religion, age, status as disabled or a veteran, or physical or mental handicaps, national origin or ancestry. Breach of this covenant may be regarded as a material breach of this Agreement. Grantee certifies that it does not, and will not maintain segregated facilities or accommodations on the basis of race, color, religion or national origin. Regarding any position for which an employee or an applicant is qualified, the Grantee agrees to take affirmative action to employ, train, advance in employment, and retain individuals in accordance with applicable laws and regulations including:

   1. For nondiscrimination based on race, color, religion, sex or national origin, this includes, but is not limited to, the U.S. Constitution, and Parts II and IV of Executive Order 11246, September 24, 1965 (30 FR 12319). Grantee disputes related to compliance with its obligations shall be handled according to the rules, regulations, and relevant orders of the Secretary of Labor (See 41 CFR 60-1.1).

   2. For nondiscrimination based on Disabled or Vietnam Veterans this includes, but is not limited to, the Vietnam Era Veterans Readjustment Assistance Act of 1972, as amended (38 U.S.C. 4012)(the Act); Executive Order 11701, January 24, 1973 (38 CFR 2675, January 29, 1973); and the regulations of the Secretary of Labor (41 CFR Part 60-250).

   3. For nondiscrimination based on the Handicapped this includes, but is not limited to, Section 503 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 793)(the Act); Executive Order 11758, January 15, 1974; and the regulations of the Secretary of Labor (41 FR Part 60- 741).

   4. For nondiscrimination based on Age this includes, but is not limited to, Executive Order 11141, February 12, 1964 (29 CFR 2477).

   B. Grantee shall include the terms of this clause in every subcontract or purchase order exceeding $50,000 which is related to the performance and obligations under this Agreement and shall act as specified by the Department of Labor to enforce the terms and implement remedies.

24. **Institution’s Rules, Regulations, and Instructions.** Grantee shall follow and comply with all rules and regulations of the Grantor and the reasonable instructions of Grantor's personnel. The Grantor reserves the right to require the removal of any worker it deems unsatisfactory for any reason.

25. **Representations and Warranties.** Grantee represents and warrants the following: (a) that it is financially solvent, able to pay its debts as they mature, and possessed of sufficient working capital to perform its obligations hereunder; (b) that it may legally conduct business in Idaho, that is properly licensed by all necessary governmental and public and quasi-public authorities having jurisdiction over it and the services, equipment, and goods required hereunder, and that it has or will obtain all licenses and permits required by law; (c) that in performing the services called for hereunder Grantee will not be in breach of any agreement with a third party; and (d) that it has inspected the
property and the Site and that the same are suitable and adequate in all respects for Grantee's operations under this Agreement.

26. **Binding Effect.** This Agreement is for the benefit only of the parties hereto and shall be binding on and inure to the benefit of the successors and permitted assignees of the respective parties.

27. **Time of Essence.** All times provided for in this Agreement, or in any other document executed hereunder, for the performance of any act will be strictly construed, time being of the essence.

28. **No Joint Venture.** Nothing contained in this agreement shall be construed as creating a joint venture, partnership, or agency relationship between the parties.

29. **Entity Authority.** Each individual executing this Agreement on behalf of an entity represents and warrants that he or she is duly authorized to execute and deliver this Agreement on behalf of said entity in accordance with duly adopted organizational documents or agreements and if appropriate a resolution of the entity, and that this Agreement is binding upon said entity in accordance with its terms.

IN WITNESS WHEREOF, the authorized representatives of the parties have executed this Agreement:

GRANTOR: Board of Regents of the University of Idaho, a state educational institution, and a body politic and corporate organized and existing under the Constitution and laws of the state of Idaho

GRANTEE: New Cingular Wireless PCS, LLC, a Delaware limited liability company

By: AT&T Mobility Corporation
Its: Manager

Quarterly Report: Programs and Changes Approved by Executive Director

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies and Procedures, Section III.G.8.a., Postsecondary Program Approval and Discontinuance

BACKGROUND/DISCUSSION
In accordance with Board Policy III.G.3.b.i.(2) and 4.b, prior to implementation the Executive Director may approve any new, modification, and/or discontinuation of academic or professional-technical programs, with a financial impact of less than $250,000 per fiscal year prior to implementation.

Consistent with Board Policy III.G.8.a., “The Office of the State Board of Education shall report quarterly to the State Board of Education all program approvals and discontinuations approved by the Executive Director.” The Board office is providing a report of program changes, additions, and discontinuations from Idaho’s public colleges and universities that were approved between April 2014 and June 2014 by the Executive Director.

Higher Education Research Council Appointments

REFERENCE
- December 2011: Board appointed Peter Midgley to the Higher Education Research Council for a three (3) year term.
- May 2012: Board appointed Dr. David Hill to the Higher Education Research Council as the INL Representative.
- April 2013: Board appointed Bill Cannon to the Higher Education Research Council for a three (3) year term.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies and Procedures, Section III.W., Higher Education Research Council Policy

BACKGROUND/DISCUSSION
The Higher Education Research Council (HERC) is responsible for implementing the Board's research policy and provides guidance to Idaho's four-year public institutions for a statewide collaborative effort to accomplish goals and objectives set forth in Policy. HERC also provides direction for and oversees the use of research funding provided by the Legislature to promote research activities that will have a beneficial effect on the quality of education and the economy of the State.

HERC consists of the Vice Presidents of Research from Boise State University, Idaho State University, and the University of Idaho and a representative of Lewis-Clark State College; a representative of the Idaho National Laboratory (INL); and three (3) non-institutional representatives, with consideration of geographic, private industry involvement and other representation characteristics.

Dr. Hill has served on HERC as the INL representative since 2012. With his recent appointment to the State Board of Education, it has left an opening for a new INL representative on HERC. Staff contacted INL for a nomination, INL has forwarded Dr. Kelly Beierschmitt's name for consideration.

Dr. Kelly Beierschmitt is the Deputy Laboratory Director for Nuclear and Laboratory Operations. With more than 26 years of experience in engineering, nuclear and materials research & development, production, and operations management. Previously, he was responsible for the management of Oak Ridge National Laboratory’s neutron sciences R&D portfolio, including the operation of the Spallation Neutron Source, the world’s most powerful pulsed neutron source, and the High Flux Isotope Reactor. He also was Oak Ridge National Laboratory, in Tennessee, director of Environment, Safety, Health and Quality. He has worked at
the Pantex Plant and Pacific Northwest National Laboratory. He holds a doctorate in industrial engineering (risk, reliability engineering) from Texas Tech University and a bachelor’s degree in engineering mathematics from West Texas A&M University. He is a registered professional engineer and a member of the American Nuclear Society and other professional societies.

STAFF COMMENTS AND RECOMMENDATIONS
HERC discussed the nomination at their July 28th meeting and recommends approval. Staff recommends approval.

BOARD ACTION
I move to appoint Dr. Kelly Beierschmitt to the Higher Education Research Council, effective immediately.

Moved by___________ Seconded by___________ Carried Yes_____ No_____
SUBJECT
Alcohol Permits - Issued by University Presidents

APPLICABLE STATUTE, RULE, OR POLICY

BACKGROUND/DISCUSSION
The chief executive officer of each institution may waive the prohibition against possession or consumption of alcoholic beverages only as permitted by, and in compliance with, Board policy. Immediately upon issuance of an Alcohol Beverage Permit, a complete copy of the application and the permit shall be delivered to the Office of the State Board of Education, and Board staff shall disclose the issuance of the permit to the Board no later than the next Board meeting.

The last update presented to the Board was at the June 2014 Board meeting. Since that meeting, Board staff has received fourteen (14) permits from Boise State University, ten (10) permits from Idaho State University, thirteen (13) permits from the University of Idaho, and two (2) permits from Lewis-Clark State College.

Board staff has prepared a brief listing of the permits issued for use. The list is attached for the Board’s review.

CONSENT AGENDA
AUGUST 14, 2014

SUBJECT
Board Policy I.P. Idaho Indian Education Committee, Nominations

REFERENCE

- February 21, 2013: The Board approved the first reading of Board Policy I.P. combining the Higher Education and K-12 Indian Education Committees
- April 18, 2013: The Board approved the second reading of Board Policy I.P. combining the Higher Education and K-12 Indian Education Committees
- December 19, 2013: The Board approved members of the Idaho Indian Education Committee.
- June 18, 2014: The Board approved the appointment of Dani Hansing to the Committee.

BACKGROUND/DISCUSSION

The purpose of the Board’s Indian Education Committee is “to advocate for American Indian students, act as an advisory body to the State Board of Education and the State Superintendent of Public Instruction, and serve as a link between the American Indian Tribes”.

The Idaho Indian Education Committee consists of 19 members appointed by the Board and includes the following consistent with Board Policy I.P.

- One representative from each of the eight public postsecondary institutions
- One representative from each of the five tribal chairs or designee
- One representative from each of the five tribal education affiliations (K-12)
- One representative from each of the two Bureau of Indian Education schools
- One representative from the State Board of Education, as an ex-officio member

The Coeur d’Alene Tribe and Nez Perce Tribe have forwarded Ms. Kathy Albin and Mr. Bill Picard’s names forward for consideration respectively to fill the vacant seats.

IMPACT

The proposed appointments replace the Nez Perce Tribe and Coeur d’Alene Tribe representatives on the Committee.

ATTACHMENTS

- Attachment 1 – Current Committee Membership
- Attachment 2 – Nomination Letters

STAFF COMMENTS AND RECOMMENDATIONS
Mr. Justin Marsh representing the Coeur d’Alene Tribe is no longer with the Tribal Education Department. Ms. Kathy Albin has been identified to replace Mr. March and to serve as the K-12 tribal education representative on the Indian Education Committee. Additionally, Mr. Joel Moffett did not seek reappointment to the Nez Perce Tribal Council and the Council determined to forward another nomination. Mr. Bill Picard was identified to replace Mr. Moffett and to serve as the Tribal Chair designee on the Committee.

If approved, Ms. Albin would complete the current term of Mr. March which runs from July 1, 2013 - June 30, 2016 and Mr. Picard would complete the current term of Mr. Moffett which runs from July 1, 2013 - June 30, 2018.

Board staff recommends approval.

BOARD ACTION
I move to appoint Ms. Kathy Albin, representing the Coeur d’Alene Tribe K-12 tribal education representative and Mr. Bill Picard, representing the Nez Perce Tribe to the Idaho Indian Education Committee, effective immediately.

Moved by __________ Seconded by __________ Carried Yes _____ No ______
State Board of Education
Indian Education Committee

Dr. Yolanda Bisbee is the Director of the College Assistance Migrant Program at the University of Idaho (UI). Term: July 1, 2013 – June 30, 2017.

Dear Ms. Grace and Ms. Sanchez,  

The purpose of this letter is to notify you of some changes in staffing that we have had recently, which will impact who we have representing the Coeur d’Alene Tribe to the Indian Education Committee.

Dr. Chris Meyer, Director of Education for the Coeur d’Alene Tribe will continue to serve as our designated representative on the Indian Education Committee. However, effective immediately, Kathy Albin will be replacing Justin Marsh as the Coeur d’Alene Tribe’s K-12 representative on the committee. Kathy can be reached at (208) 686-1800 or via email at kalbin@cdatribe-nsn.gov.

Thank you in advance for making the appropriate changes on your end. We look forward to hearing of the continued progress of the committee.

Sincerely,

Chief J. Allan  
Chairman, Coeur d’Alene Tribe
July 1, 2014

Dr. Christopher Mathias
Chief Academic Officer
Office of the State Board of Education
650 W. State St., Rm 307
Boise, ID 83720-0037

Dear Dr. Mathias:

The Nez Perce Tribal Executive Committee (NPTEC) selected Bill Picard to replace Joel Moffett on the Idaho Indian Education Advisory Board at their June 24, 2014 meeting. The selection was made per resolution no. NP 14-340 (attached) and is effective immediately and will remain in effect until Mr. Picard is replaced by NPTEC resolution.

Mr. Picard may be reached by telephone at 208-832-2253, Ext. 3695 or via e-mail at bpicard@nezperce.org. If you have any questions regarding this appointment or require additional information, please contact Rachel Edwards, NPTEC Executive Assistant at 208-621-3685 or via e-mail at rachele@nezperce.org. Thank you.

Sincerely,

Silas C. Whitman
Chairman

/re
RESOLUTION

WHEREAS, the Nez Perce Tribal Executive Committee has been empowered to act for and on behalf of the Nez Perce Tribe, pursuant to the Revised Constitution and By-Laws, adopted by the General Council of the Nez Perce Tribe, on May 6, 1961 and approved by the Acting Commissioner of Indian Affairs on June 27, 1961; and

WHEREAS, on January 12, 2010, Joel T. Moffett was appointed to the State of Idaho Indian Education Committee by resolution NP 10-123; and

WHEREAS, there is a need to replace Joel T. Moffett; and

WHEREAS, Bill Picard is qualified to fill Joel T. Moffett’s position on the State of Idaho Indian Education Committee.

NOW, THEREFORE, BE IT RESOLVED, that the Nez Perce Tribal Executive Committee (NPTEC) hereby appoints Bill Picard, to the State of Idaho Indian Education Committee; and

BE IT FINALLY RESOLVED, that Bill Picard will serve on the Idaho Indian Education Committee until replaced by resolution.

CERTIFICATION

The foregoing resolution was duly adopted by the Nez Perce Tribal Executive Committee meeting in Special Session, June 24, 2014 in the Richard A. Halfmoon Council Chambers, Lapwai, Idaho, a quorum of its Members being present and voting.

BY: Brooklyn D. Baptiste, Secretary

ATTEST:

Silas C. Whitman, Chairman
SUBJECT
Adoption of curricular materials and related instructional materials as recommended by the Curricular Materials Selection Committee.

APPLICABLE STATUTE, RULE, OR POLICY
Section 33-118, Idaho Code
Idaho Administrative Code 08.02.03.128

BACKGROUND/DISCUSSION
The Administrative Rules of the State Board of Education, IDAPA 08.02.03.128.01.02 describe the adoption process for curricular materials as an adoption cycle of six (6) years. Curricular materials are defined as "textbook and instructional media including software, audio/visual media and internet resources" (Idaho Code 33-118A). Idaho is a multiple adoption state. The Curricular Materials Selection Committee is charged with the responsibility to screen, evaluate, and recommend curricular materials for adoption by the State Board of Education.

For 2014, the main adoption cycle is curricular materials in the subject area of Professional-Technical Education. Interim adoption clause allows for submissions in the subject area of English Language Arts 6-12. Annual adoption continues for Limited English Proficiency and Computer Applications.

This year the curricular materials review week was held June 16-20, 2014. Sixty-seven content area specialists assisted the ten standing committee members in the evaluation of the curricular materials.

ATTACHMENTS
Attachment 1 - 2014 Curricular Materials Recommendations Document Page 3

BOARD ACTION
I move to approve the adoption of Professional-Technical Education, English Language Arts 6-12, Limited English Proficiency and Computer Applications curricular materials and related instructional materials as recommended by the Curricular Materials Selection Committee as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No ______
2014
Curricular Materials
Recommendations

Curricular Materials Adoption Process

THE IDAHO STATE DEPARTMENT OF EDUCATION
TOM LUNA
STATE SUPERINTENDENT OF PUBLIC INSTRUCTION
INTRODUCTION

The State Curricular Materials Selection Committee is pleased to submit the following materials for your consideration for adoption in the state of Idaho. The 2014 Session called for reviewing curricular materials in the main subject area of Professional-Technical Education and interim materials in 6-12 English Language Arts/Literacy. Annual materials include Computer Applications and Limited English Proficiency.

Several of these materials have accompanying electronic instructional media. Others are deliverable via CD-ROM or the Internet.

The Curricular Materials Selection Committee considers their work an important contribution to the educational process in Idaho. This Committee reflects the diversity of Idaho’s population both geographically and philosophically. Occasionally the approval of a certain material is not a unanimous decision by the Committee.
The Curricular Materials adoption process has its basis in Idaho Code (33-118, 333-118A). It is further defined in the Administrative Rules of the State Board of Education (SBOE), IDAPA 08.02.03, subsection 128.

The Adoption Process in Idaho provides for the continuous review and evaluation of new curricular materials. This process ensures that Idaho schools have quality products available to purchase at a guaranteed low price, and equal availability to all Idaho school districts. This process maintains local control in the choice of instruction materials by providing multiple lists of approved materials. The adoption process also provides, through a contract with each publisher, a contract price that is good for the length of the adoption cycle. This ensures quality for each school district and allows for the best materials at the lowest possible price for Idaho’s schools. It is recommended that districts choose materials from the list of vetted and approved materials. School districts are not required to choose materials from this list.

Idaho adopts materials in the areas of reading, research based reading, literature, drivers education, science, health, handwriting, mathematics, business education, career education, counseling, social studies, English, applied English, spelling, dictionary, thesaurus, speech, journalism, world, languages, art, drama, music, healthy life styles, professional technical education, business computer applications (adopted annually), and limited English proficiency (adopted annually).

Materials are adopted in Idaho on a six-year rotating schedule. Publishers have an additional one-year following the main adoption year to submit new copyrights for a particular content area, allowing each of the content area submissions a total of two years. The intent of the adoption process is to generally approve all materials meeting the established criteria and to reject those items that are considered unsuitable for use in their designated subject area.
Curricular materials in Idaho are defined as textbooks and instructional media including software, audio/visual media and Internet resources (Idaho Code 33-118A). Idaho is a multiple adoption state and adopts a number of materials in a designated subject area from a variety of publishing companies. This is consistent with the belief that a variety of materials has value and usefulness to the schools.

The Curricular Materials Selection Committee, which is appointed by the SBOE, has the responsibility of overseeing the adoption process for the state. The Executive Secretary to this Committee is an employee of the State Department of Education (SDE).

The membership on the Selection Committee consists of representatives from the following areas:

- the state’s four colleges of education
- secondary administrator
- elementary administrator
- secondary teachers
- elementary teachers
- district school board member
- representative from private/parochial schools
- parent representatives
- member who is not a public school educator nor trustee
- content area specialist from the SDE
- representative from the Division of Professional-Technical Education
- the Executive Secretary
Curricular Materials Adoption Procedures

All members are appointed by the SBOE for a five-year term with the exception of the SDE content coordinator and the representative from Professional-Technical Education who serve for one year. Current Committee members are listed in this publication.

The Committee, assisted by Professional-Technical Education, English Language Arts, Limited English Proficiency, and Computer Application specialists from throughout the state, met for five days in June to review and correlate all materials to the Common Core State Standards and/or the Idaho Content Standards and specific course requirements. This meeting followed a one month remote review process. The Committee votes on the materials and those recommended are forwarded to the SBOE for official adoption for Idaho Schools. All meetings of the Committee are open to the public.

Following formal adoption (August 2014), contracts are mailed to the publishing companies (August 2014). After the return of signed contracts, the listing of newly adopted materials is published by December 3, 2014 in the annual Adoption Guide found on the Internet at:

http://www.sde.idaho.gov/site/curricular_materials/adoption_guide.htm

A state curriculum library is maintained at Caxton Printers as required by Idaho Code 118A. Adopted materials are housed in this library and available to the public. In addition, seven (7) Regional Centers maintain libraries of adopted materials that are available to the public as well as college students and local schools. The Regional Centers are located as follows:

- N.L. Terteling Library
  College of Idaho
  Caldwell, Idaho

- Albertson Library
  Boise State University
  Boise, Idaho

- David O. McKay Library
  Brigham Young University-Idaho
  Rexburg, Idaho

- Curriculum Library
  Lewis-Clark State College
  Lewiston, Idaho

- Riley Library
  Northwest Nazarene University
  Nampa, Idaho

- Instructional Materials Technology Ctr
  University of Idaho
  Moscow, Idaho

- Instructional Materials Center
  Idaho State University
  Pocatello, Idaho

Citizens of Idaho may request the Committee to reconsider any material under adoption. A form titled Textbook Adoption Process: Request for Reconsideration of Materials is available from the SDE. The Committee considers all requests and maintains the right to either recommend continued adoption or removal of materials from the adopted list.

Recommendations

Curricular Materials Recommendations - Regular Adoptions
It was moved by Tara Drexler, seconded by Kristi Enger, and carried that the curricular materials listed and marked as approved in the Subject Area Review Books for the Regular Adoption of Professional-Technical Education materials and their accompanying manuals, guides, keys, and where indicated, instructional software, be recommended by the Idaho State Curricular Materials Selection Committee to the Idaho State Board of Education for adoption and use in the public schools of Idaho in accordance with the policies and regulations of the Idaho State Board of Education.

Curricular Materials Recommendations – Annual Adoptions
It was moved by Stacey Jensen, seconded by Darlene Dyer, and carried that the curricular materials listed and marked as approved in the Subject Area Review Books for the Annual Adoption of Computer Applications and Limited English Proficiency materials and their accompanying manuals, guides, keys, and where indicated, instructional software, be recommended by the Idaho State Curricular Materials Selection Committee to the Idaho State Board of Education for adoption and use in the public schools of Idaho in accordance with the policies and regulations of the Idaho State Board of Education.

Curricular Materials Recommendations - Interim Adoptions
It was moved by Laree Jansen, seconded by Lisa Olsen, and carried that the curricular materials listed and marked as approved in the Subject Area Review Books for the Interim Adoption of 6-12 ELA/Literacy materials and their accompanying manuals, guides, keys, and where indicated, instructional software, be recommended by the Idaho State Curricular Materials Selection Committee to the Idaho State Board of Education for adoption and use in the public schools of Idaho in accordance with the policies and regulations of the Idaho State Board of Education.

Adjournment
Motion for adjournment was made by Laree Jansen, seconded by a Unanimous Vote, and carried to adjourn the meeting on June 20, 2014.

Respectfully submitted,
Kathy Gauby
Executive Secretary
Professional-Technical Education

Notes:
Should be used with small engines course not Ag Power. Strength: good picture on front cover. Weaknesses: hard to read and confusing diagrams. Black and white (and blue) colors not engaging, too technical, high level reading, would work better in a tech school or industry.

Key Features:
POWER EQUIPMENT ENGINE TECHNOLOGY (PEET) has been written to make the learning experience enjoyable with easy-to-read-and-understand chapters and over 600 illustrations to assist visual learners with content comprehension. Give yourself a head-start in today’s world with PEET – giving you the knowledge you need with a solid education prior to working in the field.

- Excellent use of full-color illustrations and photos, and an easy-to-read writing style is used to cover varying degrees of student comprehension.
- The text does a great job of introducing electrical theory. The foundation this textbook sets with its basic maintenance and troubleshooting will serve students well as they move into more advanced courses.
- An exceptionally organized layout of chapters provides a more logical read than that of other books with similar content.
- This book never misses a beat, with amazing attention to detail and descriptive narrations with up-to-date and accurate information.
- An extra all-encompassing student workbook facilitates learning and the application of knowledge and skills.

**Notes:** Very comprehensive. Use for Advanced and Intro Welding. Some sections too advanced for this course.

**Strengths:**
- Very comprehensive, use for advanced and intro welding, great pictures and charts, durable, power point, test bank.
- Weaknesses: overwhelming, some sections too advanced for this course, smaller print size.

**Key Features:**
WELDING: PRINCIPLES AND APPLICATIONS, 7E has been updated to include new welding processes, technologies, techniques and practices. It also contains hundreds of new and updated photographs and illustrations, as well as environmental and conservation tips. Your students will find tight shots of actual welds that will help them quickly learn a variety of different welding processes used today.
- Includes hundreds of new and updated photographs and line art.
- Includes environmental and conservation tips.
- Includes new welding processes and technologies.
- Contains expanded material on processes such as Plasma Cutting, Flux Cored Arc Welding, and Gas Metal Arc Welding.
- Contains new chapters that include Shop Math, Reading Technical Drawings, and Fabricating Techniques and Practices.
- Covers the most current welding technologies, so your students can feel confident that they are well-prepared for entering today's welding field.
- Includes a newly revised companion Study Guide/Lab Manual that makes it easy for your students to gain hands-on welding practice.

**Notes:** Very comprehensive. Covers several ag content areas. Good pictures and diagrams. Great high school book. Contains plans. Don’t have to teach in order- can jump around. Good teacher resources. Overbearing because so large- could intimidate students.

**Key Features:**
This trusted text provides a thorough introduction to agricultural mechanics, covering fundamental mechanical and engineering theory, common tools and materials, and a wide range of practical applications. Units explore essential topics such as career opportunities, shop orientation and procedures, woodworking and metal working, tool fitting, project planning, cutting and welding, paints and paint application, power mechanics, electrical wiring, plumbing, hydraulics, concrete and masonry, and agricultural structures.

- Expanded coverage of safety using power hand tools, stationary power equipment and other areas has been added.
- The Relevant Websites at the end of each unit have been updated to provide clearer search information in the event web links change or become out of date.
- This proven text provides a comprehensive and engaging introduction to agricultural mechanics, exploring basic mechanical and engineering theory, essential tools and materials, and a wide range of real-world projects.
- The text features dedicated chapters on dozens of critical topics, including metal and career selection, wood and metal working, tool identification, project planning, cutting and welding, paints and paint application, power mechanics, electrical wiring, plumbing, hydraulics, concrete and masonry, and agricultural structures.

**Notes:** The parts this textbook covers, it does an excellent job. Would need to add job or employment information and safety. Strengths: very good examples, very good step by step instructions, very good resources. Weaknesses: not much job information, not much general safety information, no welding addressed.

**Key Features:**
- Based on industry standards developed by the National Association of Home Builders and its Home Builders Institute, this comprehensive text covers the essentials of residential construction carpentry, including tools and materials, rough carpentry, and exterior and interior finish carpentry ensuring professional success on any jobsite.
- A new introduction covers industry-related topics, such as business practices, ethical and legal issues, career goals, customer service, and construction trends, as well as trade-specific career goals and career profiles of professionals working in the field.
- Updated content includes new material on heat loss and insulation, and revised coverage of power tools, blueprints, codes, building layout, insulation, and wall finish.
- “Green Tip” and “Green Checklist” boxes offer students insights into important environmentally friendly and energy-efficient industry trends and practices they will likely encounter as working professionals.
- Know Your Codes” prompts students to research local and regional building codes, providing excellent practice for a critical on-the-job skill.

<tr>
<td>Collision Repair and Refinishing: A Foundation Course for Technicians</td>
<td>9781133601876</td>
</tr>
</tbody>
</table>

**Notes:** An instructor should have no problem implementing this text to their whole program. Very organized and full of detailed info.

**Key Features:**
- COLLISION REPAIR AND REFINISHING: A FOUNDATION COURSE FOR TECHNICIANS, 2E covers all the major areas of collision repair and refinishing as outlined by NATEF. In-depth coverage includes structural and non-structural analysis and damage repair, welding, painting and refinishing, paint chemistry, sacrificial coatings for corrosion resistance, mechanical & electrical systems, and more. The logical progression of topics and easy-to-understand writing style are perfect for students with little or no prior exposure to collision repair.
- This is the first collision repair book written for 21st century students.
- Collision Repair and Refinishing: A Foundation Course for Technicians, 2e is comprehensive, well illustrated and completely up to date with the latest technologies.
- Expanded coverage of writing a resume, developing interview skills, and other skills needed that will help your students secure their first job.
- New content on mechanical and electrical components.
- Chapters revised to cover new and emerging technologies.
### Notes:
Textbook is a good resource for a component to the course. However, as a stand-alone text for the amount of standards being taught, it would not be enough. Strengths: Text would be a great reference material for both student and instructor. Weaknesses: It lacks instructor resources that would allow a new teacher to enhance student learning. Lack of student resources.

**Key Features:**
*FIREFIGHTER SAFETY AND SURVIVAL* introduces and explains the history and principles of the 16 Firefighter Life Safety Initiatives. This text was developed using the Fire and Emergency Services Higher Education (FESHE) outcomes and outlines from the Firefighter Safety and Survival model curriculum.

- Approved Methodologies: Correlates directly with the 16 Fire and Life Safety Initiatives from the National Fallen Firefighters Foundation (NFFF) and the Fire and Emergency Services of Higher Education (FESHE) outcomes.
- Real-World Material: Easy-to-read, realistic situations help firefighters of all ranks absorb the concepts and apply them in their profession.
- Alternative Applications: Examples of safety problems and solutions from other industries where high risk, life safety, and human response all come into play demonstrate different ways to analyze risk-benefit theories, implement standard procedures, and promote a safety culture.
- Hands-on Activities: Activities of varying levels encourage students to apply safety theories and concepts to the realistic scenarios they may see in their own specific careers.
- Life-Saving and Life-Changing Ideas: Packed with new and evolving ideas, Firefighter Safety and Survival gives both seasoned professionals and rookies the knowledge and tools they need to make a difference in their departments without sacrificing cherished, longstanding traditions.
**Notes:** Good resource for hydraulic valves and electric motors. Strengths: Electric motor section, hydraulic valve, good illustrations. Weaknesses: Idaho code 54-1003 limits how much the electrical content can be applied legally in Idaho. (Maintenance electrician) Chapter sequence in electrical was not in the order we would teach them in. Rigging section is outdated, specifically use of wire rope clips. Disjointed when explaining center of gravity. Illustration was five pages past explanation. No teachers Guide/Edition, no job/skill/resume writing at all, no development of leadership skills.

**Key Features:**

INDUSTRIAL MAINTENANCE, Second Edition, provides a strong foundation in all five major areas of industrial maintenance, including general, mechanical, electrical, welding, and preventive maintenance. In addition to essential information on safety, tools, industrial print reading, and electrical theory, this comprehensive text includes a detailed exploration of modern machinery and equipment to help you understand, diagnose, troubleshoot, and maintain a wide variety of industrial machines.

- The Second Edition has been thoroughly updated to reflect current equipment, standards, and practices in industrial maintenance, including new information on ladders and scaffolds, rigging and mechanical installations, link- and V-belts, rotary actuators, electrical equipment (boxes, enclosures, conduit bodies and fittings, and busways), transformer configurations, 9- and 12-lead motor connections, solenoids, solid-state motor protectors, compact fluorescent and LED lighting, and more.

- A new, visually striking, full-color layout offers greatly enhanced visual appeal to engage students’ interest, while more than 700 photos and illustrations help reinforce important or complex concepts and enable students to ground chapter contents in a practical, real-world context.

- Eye-catching safety and caution features draw students’ attention to important information related to job safety and potentially dangerous work-related situations.

<td>Introduction to Law Enforcement and Criminal Justice</td>
<td>Hess/Hess/Orthmann/Cho</td>
<td>2015</td>
<td>9-12</td>
<td>9781285444321</td>
<td>Recommended as a resource/supplemental program for Law Enforcement</td>
</tr>
</tbody>
</table>
Notes: Good book for a college student. Resource supplement only for 9-12. Layout is clear, consistent and understandable. Love the career profile stories. Internet assignments for advanced learning-independent learning. Discussion questions provide deep level thinking. On-line data base uses new technology. Good use of vocabulary and terms. Good history/current events. Terms on side of text- great. Books for law enforcement class only- not fire, EMS or Corrections. Report Writing, fraud, domestic abuse and courtroom procedures are lacking. Readability and content is college and career prepared. Level is too high for 9-12. Recommend as resource only. Does not follow PTE curriculum for all 4 classes, law enforcement only.

Key Features:
This comprehensive and practical book covers law enforcement and the criminal justice system as a whole (including courts, corrections, and juvenile justice) in one easy-to-understand volume. You'll find a realistic and relevant "boots on the street" perspective, real world examples in every chapter, and up-to-date information on a wide range of today's hottest topics, the Towards Zero Death (TZD) traffic safety initiative, rapid DNA profiling, CompStat Plus, warrantless searches of vehicles, hacktivism, iPads/tablets and geolocation "pinging" communication devices in the field, joint terrorism task forces (JTTFs), and more.

- New material has been added on the results of the Philadelphia Foot Patrol Experiment, joint terrorism task forces (JTTFs), the Toward Zero Deaths (TZD) traffic safety initiative, hacktivism, technology in policing (SpotShotter gunshot detection, rapid DNA profiling, communication devices in the field such as iPads/tablets, and geolocation "pinging"), and more.
- The most recent statistics on criminal justice system employment and expenditures; crime, criminal events, and victimization; red-light running fatalities, work zone fatalities, seat belt use, alcohol-impaired driving and distracted driving; community policing and intelligence-led policing; post-conviction exonerations based on DNA evidence; and more are included.
- Additional case studies bring the material to life.
- New career profiles showcase the day-to-day work of a blood spatter expert, a crime scene investigator, and a child safety educator from the Jacob Wetterling Resource Center.

**Notes:** Concise, easy to use, good diagrams, key terms. Needs to be in color, paperback. Not much for teacher resources.

**Key Features:**
MASONRY SKILLS, Seventh Edition, provides a comprehensive, reader-friendly guide to the masonry trade, covering fundamental principles, basic practices, advanced techniques, and new trends and developments in both residential and commercial masonry.

- A focus on greener and more sustainable building practices are highlighted in the text where applicable, offering insight into this growing industry trend.
- Current industry requirements, such as OSHA (Occupational Safety & Health Administration) and the BIA (Brick Industry Association), ensure that masons comply with the latest standards and best practices.
- New and enhanced projects encourage application of the techniques presented in each unit and enable aspiring masons to practice important skills.
- Reader-friendly approach is complemented by a sleek new design, two full-color sections, and brand new photos to enhance learning.
- Teaching and learning is enhanced through supporting materials, including an Instructor Resources CD and a Companion website featuring tools for the instructor and student.

Notes: Cutter geometry and graphics. Good quality pictures and graphs.

Key Features:
- Packed with detailed examples and illustrations, PRECISION MACHINING TECHNOLOGY, 2e delivers the ideal introduction to today's machine tool industry, equipping readers with a solid understanding of fundamental and intermediate machining skills. Completely aligned with the National Institute of Metalworking Skills (NIMS) Machining Level I Standard, the book fully supports the achievement of NIMS credentials.
  - Packed with real-world illustrations, PRECISION MACHINING TECHNOLOGY, 2e offers a thorough introduction to the field of precision machining as it is practiced today.
  - Completely updated to full Texas standards, the new edition covers the latest practices and developments from the field.
  - The expanded appendix includes new reference material and machining data, offering students a wealth of additional resources.
  - Reflecting real-world practice, expansive cutting tool coverage offers the most up-to-date information available.
  - New coverage of teamwork and leadership helps equip students with the tools to succeed in today's workplace.

Notes: Text was sent for 6-7 grades Family and Consumer Science – Life and Career Explorations; this text would be useful for 9-12 grades Family and Consumer Science – Career and Personal Development. The reading level and topics are of higher complexity than a 6-7 grade level. Text should also be considered for Individualized Occupational Training (IOT) 9-12 grades. Publisher lists grade level for 9-12.

Strengths: Consistent formatting; Up-to-date technology techniques including blogging activities for students; Real People/Real Career information was very good; Real Life Focus information was helpful; Online application includes résumé builder, interactive behavioral interview experience, and videos with interview tips and techniques; Additional web connections were referenced; Questions for students to consider aid in higher level thinking; Learning from others assignments encouraged higher level thinking; Activities throughout the book were appropriate and included problem solving; Test generator included – Exam View; Student access to tests online or via print from Exam View; The Resource CD provided many activities in Career Interests and Exploration.

Weaknesses: Little information was provided for Health and Safety: a. Personal health and wellness practices. b. Personal health, safety, and wellness practices in the workplace. Relation to laws, but no relation to employee responsibilities. The purple and green backdrop dots behind the text starting on page 4 and continuing throughout the book could make the text difficult to read/focus on. The Resource CD focused most activities on Career Interests and Exploration, and very few others to cover the remaining standards. Could be used for Career and Personal Development or IOT.
### Key Features:

Investigating Your Career, 3E offers students an opportunity to direct their attention toward an area of interest that might develop into a career path while also identifying high school and college course offerings related to their career choices.

- **SOCIAL NETWORKING** – As it becomes the way the 21st Century communicates today, a new lesson on social networking has been added. The topic is also infused throughout the chapters.
- **PERSONAL FINANCE** - A new chapter covers budgeting, checking and savings accounts, saving and paying for education, and credit and debit cards.
- **BLOG** – An activity at the end of each chapter leads to a blog project at the end of each part. The part projects then lead to a capstone blog activity at the end of the book giving students the opportunity to put learning into practice.
- **PLANNING A CAREER IN . . .** features that introduce each chapter correlate to the 16 CAREER CLUSTERS and present the employment outlook, possible job titles, and needed skills and education associated with a career in that cluster.
- **ALTERNATE WAYS OF WORKING** - New lessons has been added on entrepreneurship, global career opportunities, flex schedules and more providing opportunities for students to learn in multiple ways.

**MAKE ACADEMIC CONNECTIONS** provides the integrated curriculum activities that show students how advertising concepts relate to other courses of study.

</table>

**Notes:** The book seems like a great book. It doesn’t align with our content and would be great in a different class. We could use it as a supplemental material for nutrition units. Strengths: Very strong in nutrition units. We enjoyed the activities at the end of each chapter. Weaknesses: doesn’t include most of our standards, doesn’t include our needs for students to be prepared to cook in a lab.

**Key Features:**

NUTRITION & DIET THERAPY11E is an updated introduction to the essentials of nutrition concepts, good health and client care that will provide you with a solid foundation in nutrition. This book addresses misconceptions presented in the media about the link between good nutrition and good health and will enable you to more effectively help your clients improve their nutrition and overall health.

- Contains newly revised chapters and research.
- New - vitamin D3 recommendations and current research for all ages about the importance of increasing vitamin D3 intake.
- New - diet quality of children in America, new information on ADHD and diet, and expanded information on eating disorders.
- New - information on weight management across the lifecycle and obesity trends in kids and adults.
- New - an expanded list of oral medications used to treat diabetes, and a new chart of insulin currently available to treat diabetes.
- New information on Americans with diabetes, an expanded list of oral medications used to treat diabetes, and a new chart of insulin currently available to treat diabetes.

| Nutrition & Diet Therapy, Instructor Companion Website | 9781133959953 |
### Notes:
Strong online resources. Talks about financial security—savings, investing, and insurance. Education and financial security link between them. Does not provide MAC resources. The macro economic factors are not there. Does not promote higher order thinking.

### Key Features:
Learn how to plan and manage your personal finances, achieve a financially successful life, and take responsibility as a citizen. PERSONAL FINANCIAL LITERACY, Second Edition, is aligned with the Jump$tart Coalition's National Standards for Personal Financial Literacy. The personal focus of this course makes it relevant and meaningful to all; in particular, to those just starting down the path to personal financial independence.

- All features include a question or activity for application of topic.
- Exploring Careers link contents more closely to the sixteen career clusters.
- Net Bookmark is a short feature that provides chapter-related activities to be completed using online research.
- Take Action is a feature that provides an opportunity to synthesize the concepts by participating in an ongoing project throughout the text.

<td>Emergency Medical Technician Exam Review</td>
</tr>
</tbody>
</table>

**Notes:** Not up to date, in scope of practice CPR questions some content areas were weak, did have good use of vocabulary throughout with clear questions. Not a textbook- Exam Review Only. Strengths: Good use of vocabulary throughout booklet. Questions were clear with simple expectations. Weaknesses: Exam book only. Not a textbook. Questions do not validate WREMT skill sheets. ALS questions in CPR not BLS. Out of scope of practice. Not enough geriatric problems. Some content was on the slim side. Not enough critical thinking questions or pathophysiology questions.

**Key Features:** With over 1,500 practice questions, the second edition of Emergency Medical Technician Exam Review is essential for anyone planning a career as an EMT. Designed to prepare students for the certification exam, questions are based on the EMT level of the National EMS Educational Standards and follow the American Heart Association Guidelines for ECC and CPR.

- Follows the National EMS Education Standards and the American Heart Association Guidelines for ECC and CPR to evaluate students on the latest techniques and required competencies.
- Includes newly developed questions that reflect the current standards, practices, and technology from the field so students are prepared for the exam – and beyond.
- Offers two thoroughly revised, full-length, practice exams as well as all-new Skill Sheets, both designed to simulate state and national certification exams.
- Focuses on specific topic-by-topic questions to ensure mastery of content.

**Notes:** Extremely user-friendly. Up-to-date and good accurate explanations. Strengths: Separate skill practice explanations are great. Get the feeling it is extremely user-friendly even upon first exposure. Weaknesses: Students cannot access text online nor can they access study materials without a copy of student disk.

**Key Features:**
HEALTH SCIENCE 8th edition continues to be the all in one resource for introductory coursework in the health science curriculum. Organized in two parts, the first section of the book presents foundational information required to enter a broad range of health professions, such as infection control, first aid, and professionalism. The second provides fundamental entry-level skills by specific careers, including medical assisting, dental assisting, and more.

- Provides more than 800 newly updated photos and illustrations that enhance learning and clarify technical content.
- Includes a new chapter on Medical Math that allows you to apply math concepts in health science careers.
- Career information has been updated and organized according to the Health Science Career Clusters.
- Includes many updates such as new viruses that can become potential sources of epidemics and pandemics, new health care careers, technological changes in health care and electronic medical records, information on the Patient Protection and Affordable Care Act and much more.
- Includes revisions to the section on cardiopulmonary resuscitation (CPR) to meet the American Heart Association's new 2010 standards for health care professionals.
### Key Features:
- Includes the newest, cutting-edge facts and advances in Sports Medicine and Athletic Training.
- Follows the six domains of athletic training: prevention; recognition; evaluation and assessment; immediate care; treatment; rehabilitation and reconditioning; organization and administration; and professional development and responsibility.
- Contains a more thorough depth and coverage of anatomy and physiology.
- Offers discussion and insight into a wide range of careers related to Sports Medicine.
- Ancillary materials, including seven newly developed 3-D animations visually present AC sprain and rotator cuff injury, ACL sprain, inversion sprain, hamstring strain, taping of the ankle and Achilles tendon, and head injuries with a focus on concussions.

### Notes:
- Good for high school level of this type of course. Quizzes in workbook good for Formative Assessments.
- Teacher and student texts can stand alone. Supplementals are a plus, but not absolutely necessary.
- Strengths: Great visual materials. Layout is smooth.

### Introduction to Sports Medicine and Athletic Training

</table>

**Notes:** Very organized and comprehensive. Excellent pathophysiology. Exceptional test banks. Set up for Blackboard, Angel, Moodle, and SCORM. No teacher edition submitted, paperback only. Supplementary materials flash based, difficult to access on iPads.

**Key Features:** Makes A&P fun and easy to study. A student-friendly writing style, the author is well known in the way she makes complex information easier to understand. Bright beautiful art work within the text gives students a great view of exactly what they are learning. Chapter Review Podcasts, Cases Studies, and extra exercises to review.

</tr>
</tbody>
</table>

**Notes:** Learning objectives were only found on student website. Assumes all students have internet access. Addition of Human Bio exceeds current performance practices. Arrangement of concepts with visual diagrams very effective. Great for visual learners. Leadership opportunities were only found under house calls in teacher manual. Online text available with premium package. Lacking higher level thinking activities and questions. Really liked heartsongs. Think students will really enjoy format. "Key topics" at the end of the chapter not as comprehensive as learning objectives. There is a general discussion of learning styles in the instruction manual. No clear instructional plans. Can only access online activities with Adobe Flash based system. Excludes iPad users. No teacher edition submitted. No glossary.
**Key Features:** Beginning with an overview of the body, including its chemical and cellular structures, then progress to one-of-a-kind portrayals of each body system, grouped by function. A wealth of full-color illustrations, figures, sidebars, helpful hints, and easy-to-read descriptions make information crystal clear. Each unique page spread provides an entire unit of understanding, breaking down complex concepts into easy-to-grasp sections.

</table>

**Notes:** Flashcards helpful, although not outstanding. Test Bank and Power Points are helpful, although not engaging. Missing a lot of important elements. Skills not presented in measurable format - need charts, graphs, etc. Book does not capture interest easily. No color, no pictures.

**Key Features:** Introduces students to the health care environment in which they will be working. Covers communication, cultural sensitivity, human body basics, assessing the patient, ethical and legal aspects, and securing a job. Health Professions career overviews presented in concise tables.

<td>Roth, Fisher, Gauthier</td>
<td>2012</td>
<td>9-12</td>
<td></td>
<td>Highly Recommended as a comprehensive program for Small Gas Engines, Small Engine Repair</td>
</tr>
</tbody>
</table>
### Notes:
Strengths: Clear pictures and graphics - easy to understand, especially carburetors, manageable size, comprehensive - goes through engine, could be for intermediate and advanced students. Weaknesses: online textbook hard to read and navigate, no general intro on use and importance of small engines, no teacher edition with notes.

**Key Features:** *Small Gas Engines* explores the principles of small gasoline engine design, construction, and operation. It also presents a detailed overview of small engine maintenance, troubleshooting, service, rebuilding, and repair. In addition, *Small Gas Engines* includes extensive coverage of outdoor power equipment applications and the specialized service related to each type of equipment.

### Key Features:
*Small Gas Engines* explores the principles of small gasoline engine design, construction, and operation. It also presents a detailed overview of small engine maintenance, troubleshooting, service, rebuilding, and repair. In addition, *Small Gas Engines* includes extensive coverage of outdoor power equipment applications and the specialized service related to each type of equipment.

### Publisher | Title of Material | Author | Copyright | Grade Level | ISBN | Correlation
--- | --- | --- | --- | --- | --- | ---

**Notes:** Strengths: Design process, electronics, manufacturing, online resources. Weaknesses: Leadership, transportation, robotics, residential and industrial construction.

**Key Features:** *Engineering Fundamentals* provides a complete introduction to the field, starting with the design process and then reviewing, in-depth, nine of the top disciplines. For each discipline, career options, educational requirements, basic math and science principles, and real-world applications are presented. The content fully supports STEM initiatives and an activity-based curriculum.

<td>Video: Digital Communication &amp; Production</td>
<td>Stinson</td>
<td>2013</td>
<td>9-12</td>
<td></td>
<td>Recommended as a component program for Video Editing Technology</td>
</tr>
</tbody>
</table>
**Notes:** This text is a great text for an “Intro to Video” course, focusing on video production techniques. If the broadcasting classes are part of a comprehensive program (including live studio production), the teacher may want to opt for a more comprehensive text. There is no mention of television history, and very little time spent on ethics and safety. The visuals are strong and the layout of the text is pleasing, with sidebars and boxes of useful information, “chunked” in small, interesting blurbs. Overall, it’s pretty complete and accurate in the topic it covers, but it’s lacking an entire component on broadcasting.

**Key Features:** *Video: Digital Communication & Production* addresses the needs of students who want to pursue a career in video production, as well as those that want to produce professional-quality videos for personal use. It provides a comprehensive introduction to creating videos with topics such as preproduction planning, camera system operation, lighting, audio, directing, and postproduction. Digital equipment and processes are featured.

<td>2012</td>
<td>9-12</td>
<td>978-1-60525-819-5</td>
<td>Recommended as a comprehensive program for Broadcast and Video Technologies</td>
</tr>
</tbody>
</table>

**Notes:** While text covers a comprehensive program, some material is dated. The text does not spend a lot of time on the philosophy of video production. The content focuses on live studio production and does not explore careers outside of that realm.

**Key Features:** *Television Production & Broadcast Journalism* prepares students to work in the industry by providing an overview of the equipment, job responsibilities, and techniques involved with both studio and remote location work. The activities and processes involved with each phase of production are presented. Broadcast journalism coverage includes ethics and news judgment, news writing, and conducting interviews.

</tr>
</tbody>
</table>

**Notes:** Meets criteria for objectives, content and organization of publication.

**Key Features:** *Auto Collision Repair and Refinishing*, written by an ASE-Certified Master Collision Repair Technician, details the latest techniques in the field in addition to traditional procedures. Content is organized around ASE's Collision Repair & Refinish Certification Tests (B Series) in order to provide students and experienced technicians an exam preparation tool. This comprehensive textbook includes an extensive chapter on estimating, providing instruction on this valued, real-world task. It also details repair techniques for mechanical systems, such as brake systems and cooling systems.

<td>Recommended as a comprehensive program for Automotive Technology</td>
</tr>
</tbody>
</table>
Notes: Strengths: Great illustrations and diagrams. This text drew my eyes and interest right off. I like the job sheets. Weaknesses: Large size- better if divided into related sections. Little or no diesel emission info. - no DEF info.

Key Features: Modern Automotive Technology is a comprehensive textbook organized around the ASE automobile test areas that supports career readiness for those wishing to pursue a job in the automotive industry. It details the construction, operation, diagnosis, service, and repair of late-model automobiles and light trucks. Using a building block approach, students first learn the fundamentals of automotive systems and then progress gradually to complex diagnostics and service procedures. Updated content throughout the textbook, including a new Fundamentals of Electricity and Electronics section and a new Superchargers and Turbochargers chapter, prepares students to service today’s vehicles.

<td>978-1-61960-375</td>
<td>Recommended as a component program for Welding</td>
</tr>
</tbody>
</table>
**Notes:** The text has a lot of good information and we feel it would make a great resource but did not meet enough of the content standards. Strengths: Layout of the whole book is nice. Weaknesses: no mention of MSOS, no posted evacuation procedures. No hand tool usage. No mention of material list for Mech. Drawings. Nothing on fasteners tables and charts, no section on fabrication and layout, OFW-OFC- way too much content.

**Key Features:** *Modern Welding* is the comprehensive text of choice for student learning. It presents the fundamentals, equipment, and techniques required for the most common welding and cutting processes used commercially. The text also covers underwater welding and cutting, robotic welding, and heat treatments. Step-by-step procedures along with detailed illustrations make welding easy to understand for new students. Terms used throughout the text conform to AWS Standard A3.0M/A3.0:2010. Several chapters explain the welding workplace and the how-to's for career success.

**Notes:** Strengths: This text met all the objectives. The layout is very good. Chapter reviews encourage leadership and higher order of thinking. The online companion website had great activities as well. Weaknesses: The information is very limited and basic. There is not a lot of depth of information. The text jumps around and information doesn’t flow in all places.

**Key Features:** *Exploring Life and Career* explores the issues facing students and provides the information needed to make wise decisions. The text addresses topics such as personal development, relationships with family and friends, career options, healthful living, relating to peers, dealing with family crises, and managing family living. Students gain critical-thinking skills while they learn about alternatives to different situations so they can make the best choices for themselves. College and career readiness activities are included.

<td>9-12</td>
<td>978-1-60525-617-7</td>
<td>Recommended as a comprehensive program for Food Production, Management and Service, Advanced Food Production, Management and Service</td>
</tr>
</tbody>
</table>

**Notes:** Strengths: Excellent visuals and graphics; step by step processes; integration of Common Core, STEM; online materials compliment text for assessment, practice, concepts; video clips for visual learners; student guide writing, reviewing key concepts, terminology; multi pedagogy styles and techniques; knife skills; lab book objectives. Weaknesses: not conversational- dry materials; scratch vs. speed preparations methods not explained in text; key areas of appetizers, hors d’oeuvres not mentioned or covered; no QR codes; lab book not in sequence with textbook; lab book rubrics is not thorough.

**Key Features:** *The Culinary Professional* provides the comprehensive instruction students need to be successful in a culinary arts career. It covers culinary techniques in addition to the identification of foods and equipment used in a professional kitchen and the knowledge and skills needed to manage a foodservice operation. Career readiness activities and multiple features, including ethics, prepare students for the workplace. Common Core content is included. The text is adaptable to courses of any length.
### Notes:
- We thought it was an excellent book! We would have loved a teacher edition to help higher level thinking for students.
- Strengths: experiments in the back; great graphics; excellent lab book with charts, vocab. Building, games, evaluation data, and analyzing data.
- Weaknesses: never had any FCCLA reference; jumped around a lot. No consistency in sequence; critical thinking questions could have been on a higher level; no background knowledge at the beginning of the text.

### Key Features:
*Principles of Food Science* demonstrates how the laws of science are at work in the preparation of food, both at home and in industry. By studying nutrients and other food components, students learn basic chemistry concepts, including the structure of atoms, different forms of energy, and water’s role as the universal solvent. The text covers macronutrients, micronutrients, and micro components; the positive and negative effects of microbes on foods; and food preservation and packaging.
**Notes:** Strengths: Chapter objectives; Common Core strategies at end of chapter; clear graphics; ethics promoted in every chapter to soft skills learning; going green graphics; study guide- integrated learning strategies using math, vocab, charts, research, scenarios. CD: Teacher resources include rubrics for participation, teaching strategies, correlates common core standards, answers to student workbook, lesson plans; Weaknesses: lack of questioning in chapters with side articles; no reference to FCCLA, more common core math and questioning throughout all chapters; no problem solving scenarios questioning, link resources- would have been helpful to know more with QR codes or other. CD: no assessments in teacher resource CD- have to purchase separately.

**Key Features:** *Hospitality Services* presents students with the opportunity to learn about food and beverage, lodging, travel, tourism, and recreation. The business aspects of these areas are covered, including human resources, accounting, sales, and marketing. Additionally, the roles, responsibilities, and required skills of individuals choosing hospitality as a career path are included.

**Notes:** Strengths: All standards are covered. It is a comprehensive overview of Nutrition and Foods. Chapter Reviews include helpful and varied activities that develop common core skills and critical thinking skills. Online site is appealing. Weaknesses: Basic ingredients and examples of recipes using them in recipes are not covered. The importance and facilitation of family meal time is not covered.

**Key Features:** *Guide to Good Food* provides an in-depth look at how to select, store, prepare, and serve nutritious, appealing dishes. Menus and recipes with easy-to-follow, step-by-step directions and nutritional analyses are included. Food-related careers are profiled in every chapter, and Career Success features are found throughout.

</table>

**Notes:** Meets many, but not all, of the IOT standards. Pages of text have too much visual clutter with cartoon and photo integration, tabs, colors, and borders. Online functionality supports text and provides project-based learning for students. Text available online completely with search function. Strengths: Online access supports text with projects, activities, videos, etc. Many related and beneficial projects are introduced in the text Job interview information is detailed. Guide on page xvi explains procedures with project format. Reading Skills Handbook on page xxiv-xxvii is excellent. Hybrid text and online features are beneficial for modern student learning. Weaknesses: Military careers are not explored within the text. Career exploration is limited within the text, project online must be completed. Establishing short and long range goals is not present within the text. Networking, negotiating, and mentoring in careers are very limited within the text. Benefits, contact personnel, and hiring practices are very limited within the text. Multiple topics touched very briefly, not a lot of in-depth, critical thinking pieces outside of the encouraged projects. Some of the picture integration with the text is overwhelming, too much going on; cartoons present a more juvenile than professional approach (ie. depiction of dress of students on cover, etc.) No résumé example in text; could not locate on online access. No teacher search feature online outside of online textbook. **Key Features: Succeeding in Life and Career** is an advanced comprehensive text designed to help teens adjust to change, especially as they become young adults. A lifespan development chapter provides understanding of how people change over time, from newborn to older adult. Career readiness is stressed, and each of the 16 career clusters is explored along with related jobs and their requirements for success. Skills development, financial literacy, healthy lifestyles, housing, and transportation topics are also included.

<td>978-1-60525-626-9</td>
<td></td>
</tr>
</tbody>
</table>

**Notes:** We recommend for content area of Young Living, grades 6-8, but it is lower level thinking. Higher level thinking skills and technology integrations are limited in this addition. Not recommended for Teen Living, 9-12 as publisher suggests.

Strengths: Meets content standards; well organized; well linked to the companion website; we loved the connection to FCCLA; the reading prep section at the beginning of the chapter is useful; liked web activities and loved the option of printable version. Weaknesses: The text is information or knowledge-based, not inquiry based; e-book version needs to be more interactive with vocab and other links; needs more cultural integration beyond pictures; technology needs to be integrated throughout the textbook. For example, social media, text communication, etc.; in some school districts, the required plug-ins will be a huge problem without tech. administrative authority.

**Key Features:** *Preparing for Life and Career* is an intermediate, teen-focused comprehensive text that guides students in developing the skills needed for success as they become more independent. Unit subjects such as relationships, careers, nutrition, clothing, and transportation are covered by chapters divided into short, easy-to-understand sections. Interpersonal communications, consumer education, getting a job, caring for children, preparing foods, and sewing skills are included.

CONSENT - SDE

TAB 10 Page 43
Notes: Lot of higher level thinking activities, analyzing and evaluating data, great labs, doable, and inexpensive. Lessons broken down into sections with vocab & assessments. Lesson plans for every chapter. Differentiation guidelines and sample rubrics. Excellent graphics. Lots of group work. Multiple cultures represented. Strengths: Section on scientific method & research; History of medicine, physics & forces that affect the body. Internet resources exceptional.

Key Features: *Introduction to Anatomy and Physiology* is a brand new, beautifully illustrated anatomy and physiology textbook program written and designed for high school students. The text includes thorough, accurate coverage of all the body systems in an inviting, accessible format that chunks chapter information into manageable lessons for the beginning anatomy and physiology student. An abundance of study aids, such as learning objectives, lesson summaries, vocabulary-building exercises, hands-on activities, real-world applications, and extensive assessment opportunities increase students' ability to succeed in this challenging course.

</tr>
</tbody>
</table>
Notes: Career Clusters Handbook included in back of text. The text is available online with search functionality for the 27 chapters. Instructor’s Edition includes materials for presentations. QR Codes take students directly to Goodheart-Willcox textbook website. Strengths: Fundamental understanding of Economic System. Writing is strong, matter-of-fact. Clean presentation. Chapter 18 included a section on Labor Unions that was informative and unbiased. Accompanying student workbook is helpful with practice of presented ideas. Covers 100% of IOT Standards. Weaknesses: Sequence of information does not flow well, ie: job seeking is presented before career investigation. Little résumé information is available in text. Text is very long in comparison to the other texts reviewed. Index referenced pages were noted to be incorrect, ie: “Case” for the Case Studies shows pages 53 and 94, however there are no Case Studies on these pages.

Key Features: With School to Career, students will learn personal skills, decision-making skills, and employability skills that will help create a foundation for independence. Skills for success, such as teamwork and problem solving, communicating on the job, and leadership are also covered. Students will have an opportunity to research and learn about careers using Career Clusters to define their future goals. A Career Clusters Handbook, which describes each of the 16 clusters and lists jobs under the pathways, appears at the back of the text. As part of the learning process, students will assess their skills and abilities to help make decisions about a career that is a good fit. Students will learn about college and other postsecondary programs that might help them reach their goals.

<td>Recommended as a component program</td>
</tr>
</tbody>
</table>
Notes: Recommended as a component for Adult Living Personal Finance Unit. Strengths: The students like it. Well organized. Like all the activities and great technology is used. It is full of extremely important and relevant info. Videos are engaging. Love guided notes in the workbook. Weaknesses: It may be cost prohibitive to purchase workbooks every year for every class/student. It would be very helpful to add an index to find information and put page numbers on web resources. Add global economic price to fully meet standards and incorporate cultural diversity. Need to add information about careers related to finance.

Key Features:
Dave Ramsey, Rachel Cruze, and other experts teach through engaging video segments
Chapters include topics like saving, budgeting, investing, going to college debt free, the history of personal finance, careers and taxes, and giving.
We've included more than 100 classroom activities to encourage practice and keep students engaged
A brand new 600+ page digital Teacher's Guide and a 272-page print Teacher's Guide, plus a computerized test bank, are now included
Students have access to a new blended learning site with calculators, tools and resources

</tbody>
</table>
**Notes:** Strengths: Book is very detailed, project oriented, good integration with ICS, online and technology very good, could be used by multiple disciplines and courses, good integration of career information, reading guide. Weaknesses: Out of date software, high level reading might be difficult for struggling readers.

**Key Features:** Glencoe's *Business and Personal Finance* is a comprehensive, rigorous course that provides a solid foundation for financial literacy and reinforces core academic and economic curriculum standards. Available both in print and online.

- Features a new economics unit to meet NBEA Economics standards as well as the National Standards for Economics Education
- Includes correlations to NBEA Personal Finance standards
- Academic skills practice is integrated throughout
- Research-based reading strategies are integrated throughout to help students improve their reading comprehension skills
- College and Career Readiness features help students prepare for life after high school.
- Math features in every chapter present problem scenarios, examples, formulas, and solutions. Students apply what they learned to a follow-up problem structured around the same concept. A math appendix helps students reinforce and build basic math skills.
- High interest features engage students and help them to enhance their understanding of key concepts. These include: Document Detective, Careers That Count, and Around the World, Economics and You, and Common Cents.
- Chapter and Unit Projects are designed to support the Perkins Act mandates for rigor, relevance, and relationships.
- Each section ends with a 1-page section review and each chapter ends with a 4-page chapter review. These include various types of activities designed to help students review and recall key concepts and think critically about real-life financial scenarios.
- PDF resources available on the Online Learning Center include rubrics, graphic organizers, career and college readiness worksheets, economics activities, case studies, answer keys, visual summaries, and interactive games.

</table>
Notes: Meets many, but not all, of the IOT standards. Pages of text have too much visual clutter with cartoon and photo integration, tabs, colors, and borders. Online functionality supports text and provides project-based learning for students. Text available online completely with search function. Strengths: Online access supports text with projects, activities, videos, etc. Many related and beneficial projects are introduced in the text. Job interview information is detailed. Guide on page xvi explains procedures with project format. Reading Skills Handbook on page xxiv-xxvii is excellent. Hybrid text and online features are beneficial for modern student learning. Weaknesses: Military careers are not explored within the text. Career exploration is limited within the text, project online must be completed. Establishing short and long range goals is not present within the text. Networking, negotiating, and mentoring in careers are very limited within the text. Benefits, contact personnel, and hiring practices are very limited within the text. Multiple topics touched very briefly, not a lot of in-depth, critical thinking pieces outside of the encouraged projects. Some of the picture integration with the text is overwhelming, too much going on; cartoons present a more juvenile than professional approach (i.e. depiction of dress of students on cover, etc.) No résumé example in text; could not locate on online access. No teacher search feature online outside of online textbook.

Key Features: Succeeding in the World of Work is an innovative, project-based curriculum that combines print and online components in a unique blended platform that uses online projects, interactive activities, and other dynamic assets like videos to bring concepts to life. Students use McGraw-Hill Connect™ to interact with the content, apply what they have learned, and connect with each other and their instructors. The Teacher Edition of Succeeding in the World of Work provides a wealth of teaching suggestions and ideas designed to motivate and involve students and assist teachers in reaching students of all levels of ability and backgrounds. There are suggestions for discussion starters, universal access activities, skills practice with leveled instruction, writing practice, and critical thinking.

</tr>
</tbody>
</table>

**Notes:**

**Overall Notes:** As per the publisher, the Career Companions are “designed to accompany the Workforce Connects Workplace Skills series.” However, no additional books were sent. Upon internet investigation, it appears there is an online program, yet, no log-in information was provided. Additionally, the publisher states, “Career Companions can fit into any curriculum schedule as a supplemental resource for students. These books are wonderful resources to use to learn about many different careers. However, students would need worksheets, other specific assignments, and/or an accompanying textbook in order to meet all the standards. The information may be contained within them, but some of the specific standards are obviously not met. These are great companion books, but may need to be updated frequently for changes in career outlooks. **Strengths:** Consistent formatting. First half of book is exploring the careers available within the career field. Second half of book is building and applying skills for career field. **Weaknesses:** Not a complete resource for classroom purposes; needs supplemental information and/or text. Occupation growth outlook will be outdated in 2018. Only a print format, no online version available per publisher.

**Key Features:** Career Companions help students explore and prepare for careers within the 16 national career clusters. McGraw-Hill Workforce's Career Companions series provides up-to-date career information and contextualized skill practice to help learners succeed in the 21st century workforce. Each book in the series provides information and resources to help learners explore and prepare for careers within one of the 16 career clusters. The first part of each book is devoted to introducing the cluster. The second part offers learners and jobseekers the opportunity to apply essential workplace skills in cluster-specific situations. In today's competitive and ever-changing workplace, the industry knowledge and skill proficiency offered by the Career Companion series gives jobseekers and learners an advantage to help them reach their career goals.

**Notes:** Geared well toward online or “flipped” classrooms. We noticed and confirm that an initial training session for instructors is encouraged. Book definitely has a specific layout that is perhaps non-traditional. Strengths: 21st Century Comments, Common Core links. Weaknesses: Teacher resources were not accessible for review. Book layout is overwhelming at first glance because of the non-traditional format.

**Key Features:**
Features in each chapter include:
- Communication & Collaboration activities
- STEM Connection (Medical Math and Medical Science)
- Virtual Labs (online science concept practice)
- Preventive Care & Wellness; 21st Century Skills
- Safety; Online Explorations; Online Procedures (animated)
- Chapter Summary review
- Critical Thinking/Problem Solving questions
- Online activities assessment projects

**Notes:** Publisher recommended for 6-8 grade level; consensus agreed appropriate age level. Product was submitted for 9-12 grade Individualized Occupational Training; not recommended for this program nor grade level. Product is recommended for 6-8 grade Family Consumer Sciences - Life and Career Exploration. Strengths: Fun games are interactive on the web-based curriculum. Students can create personalized avatars and explore different areas across the United States while exploring career cluster areas. Classes can be added by instructor and assignments/information can be added to them. Students gain points for activities and assessments that can be utilized in Avatar Mart. Videos provide real-world look at occupations. Weaknesses: No exit button on program once running. Need Adobe Flash Player to utilize program; when attempted on iPad, it is an unsupported program. Points were accrued during games, however participants were unable to keep points to utilize in the avatar store (possibly due to type of access?)No search feature when online in student e-text; index is high level topics, no way to quickly access videos and other content. Information provided must be viewed sequentially (even if you have completed a section prior, you cannot skip to another section if you return).

**Key Features:** *Exploring Careers*, the targeted option for 6-8 students, is an all new, completely online program that lets students explore their career options through a fun and engaging game-like format. The travel theme takes students to different cities to explore each of the 16 career clusters. Dynamic and interactive, *Exploring Careers* helps students to develop self-awareness, workplace skills, and knowledge about career options through project-based learning. Each of the career explorations includes portfolio building projects, culminating with the creation of an individualized learning plan that students can use to choose their career path. This new edition gives middle school students the opportunity to explore various career areas and introduces them to the realities involved in today’s rapidly changing workplace. The text emphasizes the foundation skills and workplace competencies necessary for workplace success. The fourth edition has been updated to include all 16 of the US Department of Education career clusters.

<tr>
<td>McGraw-Hill School Education LLC</td>
<td>McGraw-Hill's Pre-Engineering Essentials</td>
</tr>
</tbody>
</table>

**Notes:** Highly recommended as a book for Pre-Engineering Class with emphasis on future engineers. Limited material for combined Pre-Engineering and Tech classes. They publish another book for that type of class. Junior High Level. Not high school level, does not meet all standards. Inadequate in addressing non engineering technology.

**Key Features:** McGraw-Hill Pre-Engineering Essentials is a comprehensive middle school/early high school project-based learning program that uses Web 2.0 capabilities to teach basic principles of Engineering. Focusing on the Engineering Design Process, the program explores the design world through hands-on collaborative projects. Our program features several online resources for teachers, including a teacher annotated edition, answer key, PowerPoint slides, EZ Test, lesson plans, and chapter-specific professional development videos that model project-based learning. Pre-Engineering is a comprehensive teaching and learning package.

The material is available in print and online. Either the print student edition or the e-book is required along with the online applications to teach the course.
### Notes:
Strengths: excellent Appendix for reference, current information exceeds content standards material, strong career/finance section, writing is focus for student workbook; FCCLA, leadership and technology used throughout text, common Core strategies integrated in text. Weaknesses: low quality images, paper rips easily, thin paper, images bleed through paper, printing defects found, small print; surveys in student workbook are low level thinking; no access provided for online line teacher resources; plug ins needed to use online student materials; low depth foods and nutrition section; pictures depict kids younger than target audience; teen living textbooks should not include “considering marriage or parenthood” sections - replace with relationships and move marriage/parenthood sections to Adult Living curriculum.

### Key Features:
- Presents 21st Century Skills (critical thinking, problem solving, productivity, etc.) and how they are used within the five critical areas of responsible living:
  - Family
  - Peers
  - School
  - Work
  - Community
- Provides a contemporary, engaging style that speaks to today’s student.
- An integrated approach teaches how life skills are interdependent.
- The Personal Academic Plan teaches students the value of staying in school, highlights dropout risk factors, and provides intervention strategies for teachers.
- Reinforces personal financial literacy skills throughout the text.
- In depth coverage of each topic designed to meet state Family and Consumer Sciences standards.
- Includes numerous FCCLA (Family, Career and Community Leaders of America) activities and projects.
- The exclusive Teacher’s Wraparound Edition provides point-of-use notes, strategies and teaching tips.
## Personal Financial Literacy

**Madura, et al**

- **Copyright:** 2014
- **Grade Level:** 9-12
- **Correlation:** Recommended as a resource/supplemental program

**Notes:** Appropriate for an extended resource room or adapted learning setting. Does well within narrow focus area. Math integration. Lacks sufficient breadth to stand alone. Little differentiation.

**Key Features:**

- **Up-to-date** Thoroughly revised to include new and updated coverage of FICA withholdings, current tax issues, health care legislation, the “Great Recession” and the global economy, credit scoring, and more.
- **Fully correlated to all relevant national and state standards** Designed to meet state standards as defined by JumpStart and National Business Education Association Standards.
- **Common Core** Mathematics, reading, writing, and technology standards are reinforced through newly revised features.
- **Real-World Situations** *Personal Financial Literacy* is filled with examples, stories, and applications designed to grab the attention of today's students.
- **Assessment** A rich array of features allows for multiple assessment opportunities while providing students the chance to employ critical thinking, math, cross-disciplinary, ethical reasoning, and team-building skills.

### Additional Resources

## The Nursing Assistant

**Pulliam**

- **Copyright:** 2012
- **Grade Level:** 9-12
- **Correlation:** Recommended as a comprehensive program

**Publisher:** Pearson Education, Inc., publishing as Prentice Hall
Notes: Outdated CPR. Good sequence of text then visuals of skills. Good example of charting in skills pictures. Chapter ending texts are too simple. Online textbook access is a one use textbook only- 5 per book bought. Not a year to year use. Strengths: Like pictures- especially diagram on p 53- pathogens and disease. Text flows well with skills sheets immediately following reading material. How to chart after every skill. Excellent. Weaknesses: CPR not current AHA current standards. Standards changed in 2010. Questions at end of the chapters are too simple, not challenging enough.

Key Features:

- The Student Edition includes on-page glossary terms, charting examples, rationales for all procedures, multiple-choice questions, and more.

- The new edition is fully updated for the newest CDC and OSHA guidance for hand cleaning and infection control, and to reflect other relevant federal laws, including HIPAA.

- The Companion Website (www.myhealthprofessionskit.com) and Student CD-ROM provide additional resources such as case studies, web links, study tips, and more. The Instructor’s Resource CD-ROM includes an image bank and PowerPoint presentations.

- The program includes four sets of certification-style multiple-choice questions (one in the Student Edition; one in the Student Activity Guide; and two on the Companion Website or Student CD-ROM) to help students prepare for the certification exam.

</table>
Notes: Cost is of some concern due to the amount of supplemental materials. The authors need to seriously review chapter 19 in regard to the profession of Athletic Training. It is misrepresented w/PT Aide. See NATA.org. for more info. Strengths: Very thorough. Teacher wrap-around version. Weaknesses: Higher reading level could present a challenge for some students.

Key Features:
- Promotes better understanding of careers, medical terminology, anatomy and physiology, and diseases and disorders.
- Provides more student activities than any other program, including a “bell ringer” activity at the beginning of each lesson.
- Reinforces math, science, and language arts concepts throughout, including assessment with grading rubrics.
- Emphasizes employability skills and professionalism.
- Prepares students for the challenges of life in today’s fast-paced work environment.
- Includes a Student CD-ROM with engaging videos on employability skills and professional profiles.

<td>Introduction to Automotive Service</td>
<td>Halderman, et al</td>
<td>2013</td>
<td>9-12</td>
<td></td>
<td>Recommended as a resource/supplemental program</td>
</tr>
</tbody>
</table>
Notes: Very basic. Intro level only. This would be a good resource. Not a stand alone text.

Key Features: 
Introduction to Automotive Service has been created specifically for high school students beginning their automotive education. This book serves to lay a foundation of automotive knowledge upon which students will continue to build throughout their education. It provides a comprehensive introduction to the systems of the modern automobile, basic services, and maintenance procedures as well as rudiments of diagnostics.

The Student Edition is designed to fulfill the requirements of the ASE general service technician certification or any basic automotive introductory course. It covers shop safety, use of service information, automotive careers, use of power tools, hand tools and shop equipment, automotive electronics and electricity, engine performance, brakes, steering and suspension, manual drive train, automatic drive train, and air conditioning. This lavishly illustrated textbook also includes excellent coverage of hybrids, alternative fuels, and emission controls.

<td>Carpentry Level 1</td>
<td>NCCER</td>
<td>2014</td>
<td>9-12</td>
<td>Recommended as a component program</td>
<td></td>
</tr>
</tbody>
</table>
Notes: What this textbook covers, it does a great job. It must be used with other books in the series. (Part of 4 books.)

Strengths: Covers working with others and soft skills needed pretty well. Building materials well covered - materials, fasteners, & adhesives. Modules and section well done with good review questions and quizzes, trade terms, appendixes. Section & Contents well done. Blueprint reading well covered. Hand & power tools - good use & maintenance. Framing well covered, explained, good visual examples. Rough carpentry very well done. Weaknesses: Table of contents is not complete. Employability weak, but they have a textbook before level 1 which may cover this info. Safety in general is specific. Intro book may go into detail of general safety. No blueprint drawing. Concrete forms - no practical or examples. Concrete reinforcing, not covered. Exterior siding not all aspects covered. Insulation & vapor barriers very basic. Interior walls & finishes, cabinets & special built ins, and welding not covered. Job coordination only talks about that it needs to happen, very basic.

Key Features:
Carpentry Fundamentals Level 1, Trainee Guide, hardcover, 4/E; 225 Hours (includes 72.5 hours of Core Curriculum which is a prerequisite for Level 1 completion).

Module contents includes: Orientation to the Trade; Building Materials, Fasteners & Adhesives; Hand & Power Tools; Introduction to Construction Drawings, Specifications, and Layout; Floor Systems; Wall Systems; Ceiling Joist and Roof Framing; Basic Stair Layout; Introduction to Building Envelope Systems. Trainee Guide features include full color illustrations & photos, step-by-step instructions, Inside Track Tricks of the Trade from master carpenters, Think About It scenarios to help students apply theory to real-world experiences, Case Histories, and Profiles in Success boxes which share the advice of successful carpenters. 

Note: Core Curriculum is an integral part of all Level 1 material and must be completed in order for students to get NCCER recognized credentials for Level 1 completion.
| Notes: | Strengths: Good information. Good illustrations, steps. Weaknesses: Organization. |
| Key Features: Masonry Level 1, Trainee Guide, hardcover, 3/E; 185 Hours (includes 72.5 hours of Core Curriculum which is a prerequisite for Level 1 completion). |
| Module contents includes: Introduction to Masonry; Masonry Safety; Masonry Tools & Equipment; Measurements, Drawings & Specifications; Mortar and Masonry Units & Installation Techniques. |
| Trainee Guide features include: illustrations & photos, full color insert, step-by-step instructions, Inside Track Tricks of the Trade from master carpenters, Think About It scenarios to help students apply theory to real-world experiences, Case Histories, and Profiles in Success boxes which share the advice of successful masons. |
| Note: Core Curriculum is an integral part of all Level 1 material and must be completed in order for students to get NCCER recognized credentials for Level 1 completion. |

**Notes:** Teacher component is difficult to navigate. Program provides standards that could be taught; however, it does not teach many of the skills that were mentioned. If this program were used, it would be best for a reading intervention to give the kids the opportunity for more informational reading texts. Meets some CCSS for reading informational texts, but very few other standards. (Student) materials are user-friendly and easy to navigate.

**Key Features:**

*TeenBiz3000*® is a differentiated online literacy solution for grades 6-8 that reaches every student at his or her individualized Lexile®/reading level. Importantly, TeenBiz closely aligns with the objectives of the Common Core State Standards to give students the content area literacy skills they need to succeed on the standards and prepare for college and career.

Powered Achieve3000's LevelSet™ Lexile assessment tool and proprietary software engine that distributes assignments to the entire class, but tailors them according to each student's reading level. By doing so, TeenBiz enables all students to make continual progress and improvement.

- **TeenBiz3000 (75-125 Students; min. 50 students per building)**
- **TeenBiz3000 (126-250 Students; min. 50 students per building)**
- **TeenBiz3000 (251-375 Students; min. 50 students per building)**
- **TeenBiz3000 (376-500 Students; min. 50 students per building)**
- **TeenBiz3000 (500+ Students; min. 50 students per building)**

### Notes:
This is a good supplemental resource for language, writing, and reading of informational texts. It does not meet the non-negotiables or Idaho core. Adequate text for study and practice of writing w/good emphasis of rhetorical modes and grammar. Readings at back of book are narrative essays.

### Key Features:
With carefully crafted instruction, engaging student models, and plentiful practice exercises, this best-selling text continues to provide the most effective paragraph-essay level writing instruction available.
- A new method for personal error tracking includes a chapter on proofreading techniques and tools for tracking individual errors. A removable error-pattern chart for student use and targeted proofreading strategies for every grammar and spelling chapter encourage students to identify and avoid their own most frequently made errors.
- Five new, high-interest reading selections by diverse, well-respected authors include Ellen Goodman on multitasking, Malcolm Gladwell on the role of hard work in success, and Jhumpa Lahiri on her experience of moving between two cultural worlds.
- Thorough and engaging critical-thinking coverage includes more Thinking and Writing Together activities, now called “Teamwork: Critical Thinking and Writing” and “Teamwork: Critical Viewing and Writing” to emphasize the role of visual analysis in critical literacy. The AIE also offers additional Teaching Tips focusing on critical thinking.

### The Hodges Harbrace Handbook

**Publisher:** Cengage Learning  
**Author:** Glenn  
**Copyright:** 2013  
**Grade Level:** 11-12  
**ISBN:** 9781133435655  
**Notes:** This book would be a great supplement to use in a classroom. This text is good for writing and language.

**Key Features:**
- **THE HODGES HARBRACE HANDBOOK, 18E,** guides student writers in developing their understanding of the rhetorical situation. This understanding enables even those students with minimal experience or confidence in their writing to learn to write more effectively—to choose the most pertinent information, arrange it well, and use the most appropriate language when writing for an audience.
  
- This comprehensive text situates all discussion of writing—grammar, mechanics, style, diction, invention, drafting, revising, and research—around rhetorical concerns, providing a unifying theme that is easy for students to follow and supports their development of essential writing skills.
- Chapters 1–7 have been revised to make grammar concepts more accessible to students with little background studying the English language and to help them practice and improve those areas they often find difficult.
- Chapter 35, "Online Writing," helps students compose effective, well-designed Web documents, while Chapter 42, "Writing in Business," includes a discussion and new example of creating and delivering effective PowerPoint® presentations as well as guidance on business writing essentials such as letters, reports, applications, and résumés.

**Recommended as a resource/supplemental program**

---

### Perrine’s Literature: Structure, Sound & Sense

**Publisher:** Cengage Learning  
**Author:** Johnson  
**Copyright:** 2015  
**Grade Level:** 9-12  
**ISBN:** 9781285462349  
**Recommended as an AP literature and composition resource/supplemental program**
Notes: This text is a solid work for what is required in AP12. There are a few sections that are lacking, but as a whole this text will greatly enhance the AP course in preparation for the exam.

Key Features:
Written for students beginning a serious study of literature, the text introduces the fundamental elements of fiction, poetry, and drama in a concise and engaging way, addressing vital questions that other texts tend to ignore, such as "Is some literature better?" and "How can it be evaluated?"

- The twelfth edition reflects an increased focus on contemporary writers likely to be more familiar and appealing to a broad range of students. New stories include multiple works by such authors as Flannery O'Connor, Joyce Carol Oates, Emily Dickinson, and Robert Frost. Contemporary poets Billy Collins, Seamus Heaney, Sharon Olds, and Pulitzer Prize-winning and National Book Award-winning poet Mary Oliver are represented, as are dramatists Jane Martin and Wendy Wasserstein.
- Short stories new to the volume include works by Bernard Malamud, best-selling novelist Elizabeth Berg, and 2009 Pulitzer Prize winner Elizabeth Strout, author of a novel in stories (OLIVE KITTERIDGE). Joyce Carol Oates's "A Brutal Murder in a Public Place" and Edgar Allan Poe's "The Cask of Amontillado" (replacing "The Tell-Tale Heart") also appear for the first time.
- This edition includes a "Contemporary Collection" of five poets, whose inclusion in the anthology is identified by a boxed format in the table of contents. They include Billy Collins, Seamus Heaney, Sharon Olds, Linda Pastan, and, for the first time, Pulitzer Prize-winning poet Natasha Trethewey. The twelfth edition also has a "Featured Poets" section that includes John Donne from the Renaissance, John Keats (new) and Emily Dickinson from the nineteenth century, and Robert Frost and Elizabeth Bishop (new) from the modern era.

</table>
**Notes:** When evaluating this text against standards, it does not meet many standards that require a wide variety of standards to be met (i.e. technology, writing genres). This is primarily because the textbook is focused on fiction—both reading and responding. The materials that are provided are excellent and will support the AP teacher and classroom.

**Key Features:**
This concise, authoritative classic remains essential and compelling for today's readers, providing a complete overview of the essential elements of fiction, along with a diverse selection of important and engaging stories to illustrate them.

- There are 10 new stories, including one each by James Joyce and Flannery O'Connor in the Featured Writers section.
- Several contemporary stories have replaced older selections, expanding the range of included readings, enabling a broader geographical sampling, and providing greater appeal to a wider range of today's students.
- This edition has classic stories by Edgar Allan Poe, F. Scott Fitzgerald, Charlotte Perkins Gilman, and a major voice in African-American fiction, James Baldwin, as well as recent stories by writer Elizabeth Berg and by writer, academic, and Pulitzer Prize winner Elizabeth Strout.
- Other new stories include works by James Baldwin, F. Scott Fitzgerald, Anton Chekhov, Charlotte Perkins Gilman, Elizabeth Berg, Bernard Malamud, Edgar Allan Poe, and Elizabeth Strout.

**Notes:** Not ideal for new AP teachers because there is very little for instructional strategies. This text would be a good supplemental piece as it only addresses poetry.

**Key Features:** Both a concise introduction to poetry and an anthology, this classic best-seller succinctly covers the basics of poetry with chapters on the elements of poetry (imagery, figurative language, allusion, tone, rhythm and meter, pattern, etc.), unique materials for evaluating poetry, exemplary poetry selections that you’ll enjoy reading, and exercises and study questions that help you understand each selection.

- An expanded collection of Featured Poets, each represented by a sufficient number of works to support study of them as an individual artist. For 14e, the number of poems previously included per poet has been reduced somewhat to permit the addition of two additional poets. The new collection features the poems of John Donne from the Renaissance, John Keats and Emily Dickinson from the 19th century, and Robert Frost and Elizabeth Bishop from the twentieth century.
- An updated portfolio of contemporary poets presents six or seven poems by each of five contemporary poets: Billy Collins, Seamus Heaney, Sharon Olds, Pulitzer Prize-winning poet Natasha Trethewey, and National Book Award finalist Linda Pastan.
- An expanded collection of Featured Poets, each represented by a sufficient number of works to support study of them as an individual artist. For 14e, the number of poems previously included per poet has been reduced somewhat to permit the addition of two additional poets. The new collection features the poems of John Donne from the Renaissance, John Keats and Emily Dickinson from the 19th century, and Robert Frost and Elizabeth Bishop from the twentieth century.

Notes: Excellent program.

Key Features:
LITERATURE: READING, REACTING, WRITING, Eighth Edition, remains the most useful and student-friendly introduction to literature text available. The text includes a comprehensive guide to writing about literature with full coverage of critical thinking, argument, and the writing process.

- This comprehensive text features the broadest selection of literature available, with every story, poem, and play carefully chosen for its appeal to a range of instructors and students, while abundant critical, cultural, and contextual material demystifies literature by helping students understand the world in which it was created.
- A new Chapter 11, "Fiction Sampler: Graphic Fiction," engages students with a broad range of visual narratives from the literary canon.
- Updated sampler chapters in fiction, poetry, and drama showcase representative selections from four popular literary subgenres, involving students in the variety and diversity of literature through brief, accessible works.
- A new, innovative visual glossary appears throughout Part 3, "Poetry," clarifying and illuminating unfamiliar terms and concepts within poems.
- A new student paper, "The Literary Merit of Video Games," in Chapter 5 illustrates an effective literary argument, and a new student essay exam answer in Chapter 8 offers a useful model for writing under pressure.

Notes: This would function well for a range of new to experienced teachers. Recommend all supplemental materials for a complete program.

Key Features:
READINGS FOR WRITERS has been the preeminent rhetorical reader for the freshman composition course. This bestseller continues its tradition of providing comprehensive coverage of the writing and research process, while also offering a wide variety of appealing readings. With more than 100 selections from a broad range of topics and genres, this text offers something to spark excitement in any developing writer.

- This edition features a streamlined presentation as well as enhanced coverage of critical thinking throughout.
- Twelve new professional readings and four new student essays engage students with a range of topics and voices, and many new images help students understand the effects and uses of visual rhetoric.
- Two new issues for critical thinking and debate--self-image and online dating--as well as updated issues for critical thinking and debate throughout should jumpstart vigorous debates that stimulate writing.
- Updated coverage of MLA and APA documentation styles in Part Four, "Special Writing Projects," helps students correctly apply the latest citation guidelines when writing in various disciplines. This section also features a new annotated student MLA research paper on copyright law and Google Book Search.
- A new "Pointer from a Pro" feature throughout offers pithy writing advice from writers who have perfected their craft.

Notes: Would require teacher intervention.

Key Features:
THE RIVER READER, 11th Edition is a collection of expository essays arranged by rhetorical modes: narration and description, process and analysis, comparison and contrast, division and classification, definition, cause and effect, and persuasion and argument. A final thematic unit illustrates all of these modes.

- A new casebook, "The Family," presents variations on the theme of the family. The eight essays and one short story, which are arranged to repeat the patterns presented in the seven rhetorical chapters, illustrate how such strategies enable a writer to investigate a theme from a variety of perspectives.
- An eight-page, full-color photographic essay, "Images of The Family," emphasizes the power of images to evoke ideas and insights. Each image is followed by a writing assignment that encourages students to connect what they see with what they read and plan to write.
- An updated chapter on documenting sources includes a new student sample that incorporates the 2009 MLA update.
- From the simple to the more complex, a range of readings appears throughout the text, while paired readings offer pro and con perspectives on hot topics.
- An introductory section promotes active reading, with Guidelines for Reading an Essay, a sample analysis of an essay, and Guidelines for Writing an Essay. Accompanying questions concerning purpose, audience, and strategy help students think critically about writing.

**Notes:** No teacher’s edition; however, the writing activities are suitable for instruction.

**Key Features:**
THE ESSAY CONNECTION is a provocative, timely collection of rhetorically arranged essays by professional and student writers. It stimulates critical thinking on ethical, social, and political issues, enabling students to make connections and write with an informed viewpoint. Essays range from the personal to the scientific and cover a variety of modes--narration, process analysis, comparison and contrast, and persuasion--to prompt students’ interest in different disciplines and genres.

- For every study question set, Bloom supplies new post-reading writing prompts: “Journal Writing”; “Mixed Modes” (asks students to examine how selections incorporate multiple rhetorical strategies); “Dialogues” (asks students to consider links between the piece they just read and one or more others in the text that feature similar themes or literary techniques); and “Second Look” (asks students to interpret visuals on their own and in the context of the reading).
- The tenth edition contains 90 selections: 22 are new, including additional new visual selections (a mix of cartoons and graphic essays, op-art pieces, and photos) and two poems.
- The addition of many more visuals within individual selections are new to this edition.
- Bloom provides streamlined yet comprehensive coverage of the writing and revision processes, including two new “casebook” chapters on Identity and World Peace.
- Engaging visuals throughout the text stimulate students’ motivation to learn and illustrate the complex issues within the chapters.

<td></td>
<td>Highly Recommended as a comprehensive program</td>
</tr>
</tbody>
</table>
The Houghton Mifflin Harcourt Collections program is a Grades 6–12 literature textbook series that is a comprehensive resource for addressing all expectations of the Common Core State Standards for English Language Arts. Rich, engaging, and complex texts are the program’s anchor—challenging and supporting all students to become critical and close readers. The program fosters success in writing across varied genres through models of effective writing and provides ample opportunities for speaking and writing about texts.

Collections offers complex and rigorous texts, in a print, digital, or blended approach, that reflect the CCSS grade-level bands and represents the spiraling ladder of text complexity among grades 6-12. Text selections in the primary component of Collections, the Student Edition, are based on the comprehensive text complexity bands and include Lexile scores, qualitative aspects, and reader and task expectations, as well as appeal for students. The secondary component, the Close Reader, focus students on specific topics for text-based study, with related selections included in the program.

Text complexity rubrics for each selection in the program are included in the Teacher’s Edition so that teachers can clearly identify the complexity characteristics ascribed to a particular selection in either the Student Edition or the Close Reader. By incorporating varied genres of texts and extended texts, as prescribed by Common Core State Standard 10 for ELA, the program ensures that students have the experiences with a wide variety of texts needed to learn analysis skills for independent reading and comprehension of challenging texts. The rich variety of texts adds real-world application and relevance to the readings.

A full page of instruction follows each selection in the Student Edition. This information addresses the CCSS focus and asks students to re-enter the text multiple times, citing specific textual evidence to support their analysis. Students are then asked a comprehensive set of higher order thinking skills questions that focus on textual analysis and require specific textual evidence in the responses. These Analyzing the Text questions are answered in their Student eEdition and are available for teacher review. Close Read Screencasts provide an audio and visual model of an analytical conversation about the text. These conversations focus entirely on the text itself, providing a rich and supportive scaffold for each anchor text and also providing a model of how students can converse with others or analyze a text independently.

Differentiated guidance and support is available for students with developmental differences and learning styles. The goal for Collections is that each and every student has access to complex texts as required by CCSS. Collections features ongoing assessment and performance tasks that allow for teachers to monitor students’ progress and content mastery. Prescriptive remediation and re-teaching lessons are provided for students who struggle with mastery through the online assessment and re-teaching options. Students will be automatically assigned to Interactive Level Up tutorials, GrammarNotes instruction, WordSharp, and re-teaching worksheets, depending on their need for instruction. Teacher reporting is explicit and allows for individual learning prescriptions.

In the Teacher’s Edition, additional differentiation notes regarding scaffolding instruction for complex texts for Struggling Learners (Reteach), Advanced Learners (Enrich), and English Learners are included so that each student will have successful encounters with the complex texts in the program. The convenience for teachers is that the scaffolding suggestions for all selections in both the Student Edition and Close Reader are included and integrated at point-of-use in the all-in-one Teacher’s Edition.

Students are engaged in a variety of digital activities that include different modalities of learning to better reach the full range of readers. The Digital Collections for writing, speaking, and listening include engaging and interactive lessons with drag-and-drop features and game-like completion tools. Each is completed at the student’s own pace and provides immediate feedback on learning. Students are engaged in the analysis of complex text, writing, and using the speaking, listening, and writing Digital Collections for comprehensive standards coverage. The Integrated Student eBook offers a zoom feature that allows low-vision students to have access to text.

Students can access their notes, annotations, and text markings stored in myNotebook to complete Performance Tasks. Using the collaborative writing tool myWriteSmart, students may then draft and revise their responses, getting feedback from their teacher and peers as they complete the project. The finished written products are stored in each student’s digital Portfolio.

The fyi website at hmfyi.com is an ideal asset to address students’ interest and knowledge as well as their love of technology. Designed for students, the website offers a variety of interactive web tools, social media, and a reference desk. The site bears a logo: a heart and a speech bubble with an arrow pointing to the right. A student can search for a specific topic.

</table>
The Houghton Mifflin Harcourt Collections program is a Grades 6–12 literature textbook series that is a comprehensive resource for addressing all expectations of the Common Core State Standards for English Language Arts. Rich, engaging, and complex texts are the program's anchor—challenging and supporting all students to become critical and close readers. The program fosters success in writing across varied genres through models of effective writing and provides ample opportunities for speaking and writing about texts.

Collections offers complex and rigorous texts, in a print, digital, or blended approach, that reflect the CCSS grade-level bands and represents the spiraling ladder of text complexity among grades 6-12. Text selections in the primary component of Collections, the Student Edition, are based on the comprehensive text complexity bands and include Lexile scores, qualitative aspects, and reader and task expectations, as well as appeal for students. The secondary component, the Close Reader, focus students on specific topics for text-based study, with related selections included in the program.

**Text complexity rubrics** for each selection in the program are included in the Teacher's Edition so that teachers can clearly identify the complexity characteristics ascribed to a particular selection in either the Student Edition or the Close Reader. By incorporating varied genres of texts and extended texts, as prescribed by Common Core State Standard 10 for ELA, the program ensures that students have the experiences with a wide variety of texts needed to learn analysis skills for independent reading and comprehension of challenging texts. The rich variety of texts adds real-world application and relevance to the readings.

A full page of instruction follows each selection in the Student Edition. This information addresses the CCSS focus and asks students to re-enter the text multiple times, citing specific textual evidence to support their analysis. Students are then asked a comprehensive set of higher order thinking skills questions that focus on textual analysis and require specific textual evidence in the responses. These **Analyzing the Text** questions are answered in their Student eEdition and are available for teacher review. **Close Read Screencasts** provide an audio and visual model of an analytical conversation about the text. These conversations focus entirely on the text itself, providing a rich and supportive scaffold for each anchor text and also providing a model of how students can converse with others or analyze a text independently.

Differentiated guidance and support is available for students with developmental differences and learning styles. The goal for Collections is that each and every student has access to complex texts as required by CCSS. Collections features ongoing assessment and performance tasks that allow for teachers to monitor students’ progress and content mastery. Prescriptive remediation and re-teaching lessons are provided for students who struggle with mastery through the online assessment and re-teaching options. Students will be automatically assigned to Interactive Level Up tutorials, GrammarNotes instruction, WordSharp, and re-teaching worksheets, depending on their need for instruction. Teacher reporting is explicit and allows for individual learning prescriptions.

In the Teacher's Edition, additional differentiation notes regarding scaffolding instruction for complex texts for Struggling Learners (Reteach), Advanced Learners (Enrich), and English Learners are included so that each student will have successful encounters with the complex texts in the program. The convenience for teachers is that the scaffolding suggestions for all selections in both the Student Edition and Close Reader are included and integrated at point-of-use in the all-in-one Teacher’s Edition.

Students are engaged in a variety of digital activities that include different modalities of learning to better reach the full range of readers. The Digital Collections for writing, speaking, and listening include engaging and interactive lessons with drag-and-drop features and game-like completion tools. Each is completed at the student’s own pace and provides immediate feedback on learning. Students are engaged in the analysis of complex text, writing, and using the speaking, listening, and writing Digital Collections for comprehensive standards coverage. The Integrated Student eBook offers a zoom feature that allows low-vision students to have access to text.

Students can access their notes, annotations, and text markings stored in myNotebook to complete Performance Tasks. Using the collaborative writing tool myWriteSmart, students may then draft and revise their responses, getting feedback from their teacher and peers as they complete the project. The finished written products are stored in each student’s digital Portfolio.

The fyi website at hmhfyi.com is an ideal asset to address students’ interest and knowledge as well as their love of student-centered digital experiences, and provides rich, engaging, and challenging texts that mirror the common core standards for ELA.

The Houghton Mifflin Harcourt Collections program is a Grades 6–12 literature textbook series that is a comprehensive resource for addressing all expectations of the Common Core State Standards for English Language Arts. Rich, engaging, and complex texts are the program’s anchor—challenging and supporting all students to become critical and close readers. The program fosters success in writing across varied genres through models of effective writing and provides ample opportunities for speaking and writing about texts.

Collections offers complex and rigorous texts, in a print, digital, or blended approach, that reflect the CCSS grade-level bands and represents the spiraling ladder of text complexity among grades 6-12. Text selections in the primary component of Collections, the Student Edition, are based on the comprehensive text complexity bands and include Lexile scores, qualitative aspects, and reader and task expectations, as well as appeal for students. The secondary component, the Close Reader, focus students on specific topics for text-based study, with related selections included in the program.

Text complexity rubrics for each selection in the program are included in the Teacher's Edition so that teachers can clearly identify the complexity characteristics ascribed to a particular selection in either the Student Edition or the Close Reader. By incorporating varied genres of texts and extended texts, as prescribed by Common Core State Standard 10 for ELA, the program ensures that students have the experiences with a wide variety of texts needed to learn analysis skills for independent reading and comprehension of challenging texts. The rich variety of texts adds real-world application and relevance to the readings.

A full page of instruction follows each selection in the Student Edition. This information addresses the CCSS focus and asks students to re-enter the text multiple times, citing specific textual evidence to support their analysis. Students are then asked a comprehensive set of higher order thinking skills questions that focus on textual analysis and require specific textual evidence in the responses. These Analyzing the Text questions are answered in their Student eEdition and are available for teacher review. Close Read Screencasts provide an audio and visual model of an analytical conversation about the text. These conversations focus entirely on the text itself, providing a rich and supportive scaffold for each anchor text and also providing a model of how students can converse with others or analyze a text independently.

Differentiated guidance and support is available for students with developmental differences and learning styles. The goal for Collections is that each and every student has access to complex texts as required by CCSS. Collections features ongoing assessment and performance tasks that allow for teachers to monitor students’ progress and content mastery. Prescriptive remediation and re-teaching lessons are provided for students who struggle with mastery through the online assessment and re-teaching options. Students will be automatically assigned to Interactive Level Up tutorials, GrammarNotes instruction, WordSharp, and re-teaching worksheets, depending on their need for instruction. Teacher reporting is explicit and allows for individual learning prescriptions.

In the Teacher's Edition, additional differentiation notes regarding scaffolding instruction for complex texts for Struggling Learners (Reteach), Advanced Learners (Enrich), and English Learners are included so that each student will have successful encounters with the complex texts in the program. The convenience for teachers is that the scaffolding suggestions for all selections in both the Student Edition and Close Reader are included and integrated at point-of-use in the all-in-one Teacher’s Edition.

Students are engaged in a variety of digital activities that include different modalities of learning to better reach the full range of readers. The Digital Collections for writing, speaking, and listening include engaging and interactive lessons with drag-and-drop features and game-like completion tools. Each is completed at the student’s own pace and provides immediate feedback on learning. Students are engaged in the analysis of complex text, writing, and using the speaking, listening, and writing Digital Collections for comprehensive standards coverage. The Integrated Student eBook offers a zoom feature that allows low-vision students to have access to text.

Students can access their notes, annotations, and text markings stored in myNotebook to complete Performance Tasks. Using the collaborative writing tool myWriteSmart, students may then draft and revise their responses, getting feedback from their teacher and peers as they complete the project. The finished written products are stored in each student’s digital Portfolio.

The fyi website at hmhfyi.com is an ideal asset to address students’ interest and knowledge as well as their love of digital content. Students can access their notes, annotations, and text markings stored in myNotebook to complete Performance Tasks. Using the collaborative writing tool myWriteSmart, students may then draft and revise their responses, getting feedback from their teacher and peers as they complete the project. The finished written products are stored in each student's digital Portfolio.

</table>
The Houghton Mifflin Harcourt Collections program is a Grades 6–12 literature textbook series that is a comprehensive resource for addressing all expectations of the Common Core State Standards for English Language Arts. Rich, engaging, and complex texts are the program’s anchor—challenging and supporting all students to become critical and close readers. The program fosters success in writing across varied genres through models of effective writing and provides ample opportunities for speaking and writing about texts.

Collections offers complex and rigorous texts, in a print, digital, or blended approach, that reflect the CCSS grade-level bands and represents the spiraling ladder of text complexity among grades 6-12. Text selections in the primary component of Collections, the Student Edition, are based on the comprehensive text complexity bands and include Lexile scores, qualitative aspects, and reader and task expectations, as well as appeal for students. The secondary component, the Close Reader, focus students on specific topics for text-based study, with related selections included in the program.

Text complexity rubrics for each selection in the program are included in the Teacher's Edition so that teachers can clearly identify the complexity characteristics ascribed to a particular selection in either the Student Edition or the Close Reader. By incorporating varied genres of texts and extended texts, as prescribed by Common Core State Standard 10 for ELA, the program ensures that students have the experiences with a wide variety of texts needed to learn analysis skills for independent reading and comprehension of challenging texts. The rich variety of texts adds real-world application and relevance to the readings.

A full page of instruction follows each selection in the Student Edition. This information addresses the CCSS focus and asks students to re-enter the text multiple times, citing specific textual evidence to support their analysis. Students are then asked a comprehensive set of higher order thinking skills questions that focus on textual analysis and require specific textual evidence in the responses. These Analyzing the Text questions are answered in their Student eEdition and are available for teacher review. Close Read Screencasts provide an audio and visual model of an analytical conversation about the text. These conversations focus entirely on the text itself, providing a rich and supportive scaffold for each anchor text and also providing a model of how students can converse with others or analyze a text independently.

Differentiated guidance and support is available for students with developmental differences and learning styles. The goal for Collections is that each and every student has access to complex texts as required by CCSS. Collections features ongoing assessment and performance tasks that allow for teachers to monitor students’ progress and content mastery. Prescriptive remediation and re-teaching lessons are provided for students who struggle with mastery through the online assessment and re-teaching options. Students will be automatically assigned to Interactive Level Up tutorials, GrammarNotes instruction, WordSharp, and re-teaching worksheets, depending on their need for instruction. Teacher reporting is explicit and allows for individual learning prescriptions.

In the Teacher's Edition, additional differentiation notes regarding scaffolding instruction for complex texts for Struggling Learners (Reteach), Advanced Learners (Enrich), and English Learners are included so that each student will have successful encounters with the complex texts in the program. The convenience for teachers is that the scaffolding suggestions for all selections in both the Student Edition and Close Reader are included and integrated at point-of-use in the all-in-one Teacher’s Edition.

Students are engaged in a variety of digital activities that include different modalities of learning to better reach the full range of readers. The Digital Collections for writing, speaking, and listening include engaging and interactive lessons with drag-and-drop features and game-like completion tools. Each is completed at the student’s own pace and provides immediate feedback on learning. Students are engaged in the analysis of complex text, writing, and using the speaking, listening, and writing Digital Collections for comprehensive standards coverage. The Integrated Student eBook offers a zoom feature that allows low-vision students to have access to text.

Students can access their notes, annotations, and text markings stored in myNotebook to complete Performance Tasks. Using the collaborative writing tool myWriteSmart, students may then draft and revise their responses, getting feedback from their teacher and peers as they complete the project. The finished written products are stored in each student’s digital Portfolio.

The website at hmfy.com is an ideal asset to address students’ interest and knowledge as well as their love of technology. The Digital Collections drop features and game options is an ideal asset to address students’ interest and knowledge as well as their love of technology.

The Houghton Mifflin Harcourt Collections program is a Grades 6–12 literature textbook series that is a comprehensive resource for addressing all expectations of the Common Core State Standards for English Language Arts. Rich, engaging, and complex texts are the program’s anchor—challenging and supporting all students to become critical and close readers. The program fosters success in writing across varied genres through models of effective writing and provides ample opportunities for speaking and writing about texts.

Collections offers complex and rigorous texts, in a print, digital, or blended approach, that reflect the CCSS grade-level bands and represents the spiraling ladder of text complexity among grades 6-12. Text selections in the primary component of Collections, the Student Edition, are based on the comprehensive text complexity bands and include Lexile scores, qualitative aspects, and reader and task expectations, as well as appeal for students. The secondary component, the Close Reader, focus students on specific topics for text-based study, with related selections included in the program.

Text complexity rubrics for each selection in the program are included in the Teacher's Edition so that teachers can clearly identify the complexity characteristics ascribed to a particular selection in either the Student Edition or the Close Reader. By incorporating varied genres of texts and extended texts, as prescribed by Common Core State Standard 10 for ELA, the program ensures that students have the experiences with a wide variety of texts needed to learn analysis skills for independent reading and comprehension of challenging texts. The rich variety of texts adds real-world application and relevance to the readings.

A full page of instruction follows each selection in the Student Edition. This information addresses the CCSS focus and asks students to re-enter the text multiple times, citing specific textual evidence to support their analysis. Students are then asked a comprehensive set of higher order thinking skills questions that focus on textual analysis and require specific textual evidence in the responses. These Analyzing the Text questions are answered in their Student eEdition and are available for teacher review. Close Read Screencasts provide an audio and visual model of an analytical conversation about the text. These conversations focus entirely on the text itself, providing a rich and supportive scaffold for each anchor text and also providing a model of how students can converse with others or analyze a text independently.

Differentiated guidance and support is available for students with developmental differences and learning styles. The goal for Collections is that each and every student has access to complex texts as required by CCSS. Collections features ongoing assessment and performance tasks that allow for teachers to monitor students’ progress and content mastery. Prescriptive remediation and re-teaching lessons are provided for students who struggle with mastery through the online assessment and re-teaching options. Students will be automatically assigned to Interactive Level Up tutorials, GrammarNotes instruction, WordSharp, and re-teaching worksheets, depending on their need for instruction. Teacher reporting is explicit and allows for individual learning prescriptions.

In the Teacher’s Edition, additional differentiation notes regarding scaffolding instruction for complex texts for Struggling Learners (Reteach), Advanced Learners (Enrich), and English Learners are included so that each student will have successful encounters with the complex texts in the program. The convenience for teachers is that the scaffolding suggestions for all selections in both the Student Edition and Close Reader are included and integrated at point-of-use in the all-in-one Teacher’s Edition.

Students are engaged in a variety of digital activities that include different modalities of learning to better reach the full range of readers. The Digital Collections for writing, speaking, and listening include engaging and interactive lessons with drag-and-drop features and game-like completion tools. Each is completed at the student’s own pace and provides immediate feedback on learning. Students are engaged in the analysis of complex text, writing, and using the speaking, listening, and writing Digital Collections for comprehensive standards coverage. The Integrated Student eBook offers a zoom feature that allows low-vision students to have access to text.

Students can access their notes, annotations, and text markings stored in myNotebook to complete Performance Tasks. Using the collaborative writing tool myWriteSmart, students may then draft and revise their responses, getting feedback from their teacher and peers as they complete the project. The finished written products are stored in each student's digital Portfolio.

</table>
The Houghton Mifflin Harcourt Collections program is a Grades 6–12 literature textbook series that is a comprehensive resource for addressing all expectations of the Common Core State Standards for English Language Arts. Rich, engaging, and complex texts are the program’s anchor—challenging and supporting all students to become critical and close readers. The program fosters success in writing across varied genres through models of effective writing and provides ample opportunities for speaking and writing about texts.

Collections offers complex and rigorous texts, in a print, digital, or blended approach, that reflect the CCSS grade-level bands and represents the spiraling ladder of text complexity among grades 6-12. Text selections in the primary component of Collections, the Student Edition, are based on the comprehensive text complexity bands and include Lexile scores, qualitative aspects, and reader and task expectations, as well as appeal for students. The secondary component, the Close Reader, focus students on specific topics for text-based study, with related selections included in the program.

Text complexity rubrics for each selection in the program are included in the Teacher’s Edition so that teachers can clearly identify the complexity characteristics ascribed to a particular selection in either the Student Edition or the Close Reader. By incorporating varied genres of texts and extended texts, as prescribed by Common Core State Standard 10 for ELA, the program ensures that students have the experiences with a wide variety of texts needed to learn analysis skills for independent reading and comprehension of challenging texts. The rich variety of texts adds real-world application and relevance to the readings.

A full page of instruction follows each selection in the Student Edition. This information addresses the CCSS focus and asks students to re-enter the text multiple times, citing specific textual evidence to support their analysis. Students are then asked a comprehensive set of higher order thinking skills questions that focus on textual analysis and require specific textual evidence in the responses. These Analyzing the Text questions are answered in their Student eEdition and are available for teacher review. Close Read Screencasts provide an audio and visual model of an analytical conversation about the text. These conversations focus entirely on the text itself, providing a rich and supportive scaffold for each anchor text and also providing a model of how students can converse with others or analyze a text independently.

Differentiated guidance and support is available for students with developmental differences and learning styles. The goal for Collections is that each and every student has access to complex texts as required by CCSS. Collections features ongoing assessment and performance tasks that allow for teachers to monitor students’ progress and content mastery. Prescriptive remediation and re-teaching lessons are provided for students who struggle with mastery through the online assessment and re-teaching options. Students will be automatically assigned to Interactive Level Up tutorials, GrammarNotes instruction, WordSharp, and re-teaching worksheets, depending on their need for instruction. Teacher reporting is explicit and allows for individual learning prescriptions.

In the Teacher’s Edition, additional differentiation notes regarding scaffolding instruction for complex texts for Struggling Learners (Reteach), Advanced Learners (Enrich), and English Learners are included so that each student will have successful encounters with the complex texts in the program. The convenience for teachers is that the scaffolding suggestions for all selections in both the Student Edition and Close Reader are included and integrated at point-of-use in the all-in-one Teacher’s Edition.

Students are engaged in a variety of digital activities that include different modalities of learning to better reach the full range of readers. The Digital Collections for writing, speaking, and listening include engaging and interactive lessons with drag-and-drop features and game-like completion tools. Each is completed at the student’s own pace and provides immediate feedback on learning. Students are engaged in the analysis of complex text, writing, and using the speaking, listening, and writing Digital Collections for comprehensive standards coverage. The Integrated Student eBook offers a zoom feature that allows low-vision students to have access to text.

Students can access their notes, annotations, and text markings stored in myNotebook to complete Performance Tasks. Using the collaborative writing tool myWriteSmart, students may then draft and revise their responses, getting feedback from their teacher and peers as they complete the project. The finished written products are stored in each student’s digital Portfolio.

The fyi website at hmfyi.com is an ideal asset to address students’ interest and knowledge as well as their love of reading. Houghton Mifflin Harcourt Digital Collections is an ideal asset to address students’ interest and knowledge as well as their love of reading.

</table>
The Houghton Mifflin Harcourt Collections program is a Grades 6–12 literature textbook series that is a comprehensive resource for addressing all expectations of the Common Core State Standards for English Language Arts. Rich, engaging, and complex texts are the program’s anchor—challenging and supporting all students to become critical and close readers. The program fosters success in writing across varied genres through models of effective writing and provides ample opportunities for speaking and writing about texts.

Collections offers complex and rigorous texts, in a print, digital, or blended approach, that reflect the CCSS grade-level bands and represents the spiraling ladder of text complexity among grades 6-12. Text selections in the primary component of Collections, the Student Edition, are based on the comprehensive text complexity bands and include Lexile scores, qualitative aspects, and reader and task expectations, as well as appeal for students. The secondary component, the Close Reader, focus students on specific topics for text-based study, with related selections included in the program.

Text complexity rubrics for each selection in the program are included in the Teacher's Edition so that teachers can clearly identify the complexity characteristics ascribed to a particular selection in either the Student Edition or the Close Reader. By incorporating varied genres of texts and extended texts, as prescribed by Common Core State Standard 10 for ELA, the program ensures that students have the experiences with a wide variety of texts needed to learn analysis skills for independent reading and comprehension of challenging texts. The rich variety of texts adds real-world application and relevance to the readings.

A full page of instruction follows each selection in the Student Edition. This information addresses the CCSS focus and asks students to re-enter the text multiple times, citing specific textual evidence to support their analysis. Students are then asked a comprehensive set of higher order thinking skills questions that focus on textual analysis and require specific textual evidence in the responses. These Analyzing the Text questions are answered in their Student eEdition and are available for teacher review. Close Read Screencasts provide an audio and visual model of an analytical conversation about the text. These conversations focus entirely on the text itself, providing a rich and supportive scaffold for each anchor text and also providing a model of how students can converse with others or analyze a text independently.

Differentiated guidance and support is available for students with developmental differences and learning styles. The goal for Collections is that each and every student has access to complex texts as required by CCSS. Collections features ongoing assessment and performance tasks that allow for teachers to monitor students’ progress and content mastery. Prescriptive remediation and re-teaching lessons are provided for students who struggle with mastery through the online assessment and re-teaching options. Students will be automatically assigned to Interactive Level Up tutorials, GrammarNotes instruction, WordSharp, and re-teaching worksheets, depending on their need for instruction. Teacher reporting is explicit and allows for individual learning prescriptions.

In the Teacher’s Edition, additional differentiation notes regarding scaffolding instruction for complex texts for Struggling Learners (Reteach), Advanced Learners (Enrich), and English Learners are included so that each student will have successful encounters with the complex texts in the program. The convenience for teachers is that the scaffolding suggestions for all selections in both the Student Edition and Close Reader are included and integrated at point-of-use in the all-in-one Teacher’s Edition.

Students are engaged in a variety of digital activities that include different modalities of learning to better reach the full range of readers. The Digital Collections for writing, speaking, and listening include engaging and interactive lessons with drag-and-drop features and game-like completion tools. Each is completed at the student’s own pace and provides immediate feedback on learning. Students are engaged in the analysis of complex text, writing, and using the speaking, listening, and writing Digital Collections for comprehensive standards coverage. The Integrated Student eBook offers a zoom feature that allows low-vision students to have access to text.

Students can access their notes, annotations, and text markings stored in myNotebook to complete Performance Tasks. Using the collaborative writing tool myWriteSmart, students may then draft and revise their responses, getting feedback from their teacher and peers as they complete the project. The finished written products are stored in each student's digital Portfolio.

The fyi website at hmfyi.com is an ideal asset to address students’ interest and knowledge as well as their love of reading.

### Notes:

- **6th grade**: Study Sync is a supplemental program due to the fact it is still unfinished. Text units, lesson plans, and skills units are still missing for a large part of the 6th grade scope and sequence. **7th grade**: Overall easy to use and well-organized. (Would like to see) a parent component and more adaptations for ELL students. **8th grade**: Overall this is a very thorough and valuable material but it is incomplete. Many of the units and text are unavailable. The pedagogy and processes are consistent with the CCSS and create many opportunities for teachers and students to engage in the standards. **9th**: Units are not complete. Did not find any evidence of language or writing instruction. **10th**: Entire workds aren’t covered. Limited developed units. **11th**: Does not address language standards. No full texts explored, though segments are interesting and useful. All library items do not have lesson plans. Some ELL lesson support w/templates. **12th**: Not enough fully developed units.

### Key Features:

- An extensive, Multimedia Library of hundreds of Common Core and Lexile®-leveled texts, both fiction and nonfiction.
- Common Core Assignments and Assessments with teacher-created lessons, writing prompts, and assessment tools.
- Online Writing Platform with Peer Review that improves reading, writing, and critical thinking skills and increases the amount of time students spend engaged with subject matter from all curricular areas.
- Award-Winning Video Lessons with explicit instruction and engaging models of academic discussion and collaboration.
- Weekly Writing Practice with StudySync Blasts that challenge students to analyze topics of current cultural significance while writing for a real-world audience.
- Flexible Instructional Models for scaffolding, differentiated instruction, and multiple assessments.

English Language Arts/ Writing
**Notes:** No ebook or practice book mentioned. Writing rubrics with each writing unit.

**Key Features:** *Strategies for Writers “Next General Assessment”* Edition meets 100% of the Writing and writing-based Language CCSS and prepares students to successfully apply writing skills on performance-based next generation writing assessments.

*Strategies for Writers* is a flexible writing and grammar solution that prepares all students to be confident, proficient and effective 21st century writers, ready for next generation assessments, college and career. Students learn strategies for using the six traits of writing at every step of the writing process to:

- Thoughtfully communicate and support opinions (opinion or argument writing)
- Efficiently examine complex ideas (informative/explanatory writing)
- Thoroughly convey experiences and events, both real and imagined (narrative writing)

The blend of integrated print and online resources allows teachers to customize lessons and differentiate instruction to meet student needs. Easy-to-use technology tools and games encourage student engagement in writing and grammar.

English Language Arts/Literacy LEP
6-12 Dictionary
### Notes:
Words are by category ie: school words, color words, family, community, clothing, jobs, etc. More applicable for ELL general use. Not really a dictionary per se as in giving a definition or in alphabetical order.

### Key Features:
- "Words in Context" shows how the language is actually used through accessible, contextualized readings.
- "Word Partnerships" helps students use high-frequency word patterns and collocations like a native speaker.
- "Words in Action" provides practice with new words through classroom activities.
- The Lesson Planner, with 342 fully developed lesson plans, provides extensive multilevel support for the busy teacher.
- The Activity Bank CD-ROM, included in the Lesson Planner, contains reproducible activity masters that can be customized for individual and classroom use.
- The Audio CDs allow students to improve listening and pronunciation skills with recordings of the target vocabulary and "Words in Context.
- Beginning and Intermediate Workbooks reinforce and consolidate classroom instruction with vocabulary, listening, and grammar practice.

Limited English Proficiency
**Insider** is an intensive reading program for middle school students. The program is built to help all students achieve success on the Common Core with National Geographic content paired with multicultural literature using either a digital or print pathway.

*Inside* is structured around five levels: Fundamentals Volume 1, Fundamentals Volume 2, Level A, Level B, and Level C. The fundamental levels incorporate the basics of reading, language, and writing, whereas Levels A, B, and C provide more in depth coverage of literacy and language. At any level your students will be exposed to three types of age appropriate texts: instructional, complex, and independent. A balance of informational texts and literature are provided throughout the program. Students are engaged with paired selections from a wide variety of genres for including: National Geographic articles, narrative nonfiction, expository texts, digital genres, arguments, contemporary literature, and classics. The program also features Common Core exemplars as well as multicultural characters and authors.

Selections in *Inside* are divided into manageable chunks. Key vocabulary is highlighted. Labels, captions, graphics and callouts support comprehension for all students. Frequent comprehension checks with questions focused on text evidence help to focus the reader. Selection recordings and fluency models are provided to aid students in listening and reading comprehension while increasing reading and language levels. Leveled Libraries, Content Libraries, and Complex Text Libraries provide students with multiple resources to access text at different reading and language levels. Multi-level strategies are provided throughout instruction to help students at all levels understand the content, text features, comprehension skills and vocabulary. Assessment tools to monitor progress and make instructional decisions for individual students allow teachers to make accommodations and modifications at point of use.

*Inside* features a full array of assessments including those to prepare students for Common Core testing. Assessments throughout the school year monitor progress, determine student gains, and measure end of level progress. The eAssessment platform enables teachers to administer tests online and have immediate access to results and re-teaching prescriptions. The program also gives teachers and administrators access to graphic reports and multiple views of student performance. Placement tests measure phonics and decoding ability, determine reading level, and aid in program level placement. During and after instruction, Quick Checks, Selection Tests, and Unit Tests are provided for timely information to target instruction, measure skills mastery, monitor progress, and inform teachers on reteaching prescriptions, if necessary. Finally, Summative Assessments, Reading Lexile Gains Tests, and Reading Fluency Measures provide information on mid- and end-year achievement.

Program contains additional materials for different levels for both student and teacher.

Inside Phonics Reading Practice Book

Assessment Handbook
Notes: We highly recommend for levels 2-5. It clearly addresses WIDA and CCSS.

Key Features: Inside is an intensive reading program for middle school students. The program is built to help all students achieve success on the Common Core with National Geographic content paired with multicultural literature using either a digital or print pathway.

Inside is structured around five levels: Fundamentals Volume 1, Fundamentals Volume 2, Level A, Level B, and Level C. The fundamental levels incorporate the basics of reading, language, and writing, whereas Levels A, B, and C provide more in depth coverage of literacy and language. At any level your students will be exposed to three types of age appropriate texts: instructional, complex, and independent. A balance of informational texts and literature are provided throughout the program. Students are engaged with paired selections from a wide variety of genres for including: National Geographic articles, narrative nonfiction, expository texts, digital genres, arguments, contemporary literature, and classics. The program also features Common Core exemplars as well as multicultural characters and authors.

Selections in Inside are divided into manageable chunks. Key vocabulary is highlighted. Labels, captions, graphics and callouts support comprehension for all students. Frequent comprehension checks with questions focused on text evidence help to focus the reader. Selection recordings and fluency models are provided to aid students in listening and reading comprehension while increasing reading and language levels. Leveled Libraries, Content Libraries, and Complex Text Libraries provide students with multiple resources to access text at different reading and language levels. Multi-level strategies are provided throughout instruction to help students at all levels understand the content, text features, comprehension skills and vocabulary. Assessment tools to monitor progress and make instructional decisions for individual students allow teachers to make accommodations and modifications at point of use.

Inside features a full array of assessments including those to prepare students for Common Core testing. Assessments throughout the school year monitor progress, determine student gains, and measure end of level progress. The eAssessment platform enables teachers to administer tests online and have immediate access to results and re-teaching prescriptions. The program also gives teachers and administrators access to graphic reports and multiple views of student performance. Placement tests measure phonics and decoding ability, determine reading level, and aid in program level placement. During and after instruction, Quick Checks, Selection Tests, and Unit Tests are provided for timely information to target instruction, measure skills mastery, monitor progress, and inform teachers on reteaching prescriptions, if necessary. Finally, Summative Assessments, Reading Lexile Gains Tests, and Reading Fluency Measures provide information on mid- and end-year achievement.

Program contains additional materials for different levels for both student and teacher

The fundamental levels incorporate the basics of reading, language, and writing, whereas Levels A, B, and C provide more in depth coverage of literacy and language. At any level your students will be exposed to three types of age appropriate texts: instructional, complex, and independent. A balance of informational texts and literature are provided throughout the program. Students are engaged with paired selections from a wide variety of genres for including: National Geographic articles, narrative nonfiction, expository texts, digital genres, arguments, contemporary literature, and classics. The program also features Common Core exemplars as well as multicultural characters and authors.

Selections in *Inside* are divided into manageable chunks. Key vocabulary is highlighted. Labels, captions, graphics and callouts support comprehension for all students. Frequent comprehension checks with questions focused on text evidence help to focus the reader. Selection recordings and fluency models are provided to aid students in listening and reading comprehension while increasing reading and language levels. Leveled Libraries, Content Libraries, and Complex Text Libraries provide students with multiple resources to access text at different reading and language levels. Multi-level strategies are provided throughout instruction to help students at all levels understand the content, text features, comprehension skills and vocabulary. Assessment tools to monitor progress and make instructional decisions for individual students allow teachers to make accommodations and modifications at point of use.

*Inside* features a full array of assessments including those to prepare students for Common Core testing. Assessments throughout the school year monitor progress, determine student gains, and measure end of level progress. The eAssessment platform enables teachers to administer tests online and have immediate access to results and re-teaching prescriptions. The program also gives teachers and administrators access to graphic reports and multiple views of student performance. Placement tests measure phonics and decoding ability, determine reading level, and aid in program level placement. During and after instruction, Quick Checks, Selection Tests, and Unit Tests are provided for timely information to target instruction, measure skills mastery, monitor progress, and inform teachers on reteaching prescriptions, if necessary. Finally, Summative Assessments, Reading Lexile Gains Tests, and Reading Fluency Measures provide information on mid- and end-year achievement. Program contains additional materials for different levels for both student and teacher.

**Notes:** Vocabulary highlighted in text questions in margins. Engaging material. Grammar after each text and writer’s workshop. Science and social studies present in the materials. Units build upon themselves. Very systematic. Essential questions and skills are spiraled.

**Key Features:** Edge is a leveled core reading/language arts program designed for mainstream students, ESL students, and striving readers in grades 9-12. Edge will help Prepare all students for college and career success with dynamic National Geographic content and authentic multicultural literature. Teachers will have relevant and motivating content. Students will be prepared for CCSS success and teachers and students will be provided with systematic and focused materials. Edge will provide many opportunities to build language and literacy with robust instruction and accessible instructional selections. Texts include visuals to help students understand the text, background building activities, manageable reading chunks, text-dependent questions, frequent comprehension checks, and restatements of difficult words and idioms. Students will be exposed to authentic literature and informational texts written at grade-level complexity which include short, high-quality, high-interest texts that merit reading and re-reading, paragraph numbers to support students in citing text evidence, and interactive versions of texts to support note-taking. Writing is integrating into the reading to help students make connections with multiple, short writing opportunities and in-depth writing projects and include writing to support text evidence, writing traits with argumentative, expository and narrative tasks, and writing about literature. National Geographic's digital platform, myNGconnect.com, will enhance instruction and practice. Digital Edge is a complete resource that will engage all students and compliment instruction and enhance the learning experience. Teachers are also offered multiple assessment opportunities to determine reading levels, place students into differentiated groups, monitor progress, reteach, and show success. A digital option is also provided for eAssessment which includes online tests, reports and individualized reteaching prescriptions. Program contains additional materials for different levels for both student and teacher.

Texts include visuals to help students understand the text, background building activities, manageable reading chunks, text-dependent questions, frequent comprehension checks, and restatements of difficult words and idioms. Students will be exposed to authentic literature and informational texts written at grade-level complexity which include short, high-quality, high-interest texts that merit reading and re-reading, paragraph numbers to support students in citing text evidence, and interactive versions of texts to support note-taking. Writing is integrating into the reading to help students make connections with multiple, short writing opportunities and in-depth writing projects and include writing to support text evidence, writing traits with argumentative, expository and narrative tasks, and writing about literature. National Geographic’s digital platform, myNGconnect.com, will enhance instruction and practice. Digital Edge is a complete resource that will engage all students and complement instruction and enhance the learning experience. Teachers are also offered multiple assessment opportunities to determine reading levels, place students into differentiated groups, monitor progress, reteach, and show success. A digital option is also provided for eAssessment which includes online tests, reports and individualized reteaching prescriptions. Program contains additional materials for different levels for both student and teacher.

<td>PATHWAYS: READING AND WRITING</td>
</tr>
</tbody>
</table>
**Notes:** The Reading and Writing Units do not correspond with the Listening, Speaking & Critical Thinking units. On their own, they are excellent supplemental materials. There is no placement exam to place students in the right level.

**Key Features:** Program contains different levels

*Pathways* is a new academic skills program from National Geographic Learning, with separate Reading and Writing, and Listening and Speaking strands. Using powerful content, images, and video from National Geographic, *Pathways* provides learners with the language and critical thinking skills needed to be successful in the academic classroom. This innovative program provides learners with a pathway to academic success!

Pathways: Reading, Writing, and Critical Thinking
- Clear connections between reading and writing skills help students master both skills naturally.
- Academic reading skills and strategies, embedded in the unit tasks, prepare students to comprehend a variety of realistic academic texts.
- Step-by-step writing instruction with integrated grammar and vocabulary provides instruction and practice on a variety of rhetorical forms.

Consistent integrated critical thinking tasks develop learners’ ability to evaluate, analyze, and synthesize information from a wide range of sources.

</table>
**Notes:** The Reading and Writing Units do not correspond with the Listening, Speaking & Critical Thinking units. On their own, they are excellent supplemental materials. There is no placement exam to place students in the right level.

**Key Features:** Program contains different levels

*Pathways* is a new academic skills program from National Geographic Learning, with separate Reading and Writing, and Listening and Speaking strands. Using powerful content, images, and video from National Geographic, *Pathways* provides learners with the language and critical thinking skills needed to be successful in the academic classroom. This innovative program provides learners with a pathway to academic success!

- A clear pathway from formal presentations to student-to-student interactions helps students become active, informed listeners in lectures and conversations.
- Communication skills are taught and practiced through realistic contexts designed to model the academic classroom.
- Presentation skills, including organization, preparation, and delivery techniques, are introduced and practiced in every unit, sharpening learners’ ability to interact in different academic settings.

Consistent integrated critical thinking tasks develop learners’ ability to evaluate, analyze, and synthesize information from a wide range of sources.

Notes: The Scholastic 3D program is an excellent program to use with intermediate, early fluent, and long term ELL students. The program is strong in instructional routines including language frames and vocabulary strategies. It is specifically geared towards current issues. The curriculum, however, offers no electronic books and very few kid friendly electronic resources.

Key Features: Developed by Dr. Kate Kinsella, one of the nation’s leading scholars on instruction and achievement of secondary English learners, English 3D is an English language development program designed to ensure proficiency in the “language of school”—the academic vocabulary, speaking, listening, and writing vital to success in school and life.

English 3D Course II
- Engages students cognitively and linguistically in every lesson phase through structured, accountable responses and consistent, interactive instructional routines.
- Teaches high-leverage, portable academic language, including vocabulary, syntax, and grammar that students can apply in academic and social contexts.
- Engages students with authentic informational texts that present real-world issues relevant to teens’ lives.
- Improves scholarly demeanor, study skills, and habits through modeling, accountability, encouragement, and high expectations.
- Equips students with the language, knowledge, and skills to tackle the informational reading and writing demands of state and Common Core standards and assessments.
- Improves speaking and listening skills through daily opportunities for accountable class discussions, peer collaboration, and group presentations.
- Makes regular connections between course work and the demands of college and the workplace.
- Develops academic writing skills in summarizing, justification, argument, and research.

**Notes:** Adobe Dreamweaver CS6 Revealed would be a component of a broader computer class. It would be one of many softwares used to give the students strategies in the career class. An excellent software and text.

**Key Features:** ADOBE DREAMWEAVER CS6 REVEALED combines vibrant, full-color illustrations and clear, step-by-step tutorials to help readers master the industry-standard web development software; coverage encompasses the current interface, new features, core functionality, cutting-edge trends, and fundamental design principles that will serve readers well throughout their careers.

- This comprehensive text covers all of the latest Adobe® Dreamweaver® CS6 tools—including new HTML5 layouts, multiscreen support, media queries, CSS3 standards, W3C validator support, and more.
- Throughout the text, tools and features new to CS6 are highlighted with a special icon, making it easy for readers familiar with previous releases to focus on content unique to the new version of the software. Similarly, Power User Shortcuts offer tips and techniques to encourage rapid learning and efficient use of the software.
- A highly visual, full-color design—including abundant screen shots and real-life examples of web development projects—makes it easier for readers to connect chapter content, tutorials, and exercises to hands-on software applications.
- Additional tools and content—including text, image, HTML5, Flash, and video files—are available online to help users apply what they learn by developing web content, including a complete website.

**Notes:** Adobe Illustrator would be a component of a broader career computer class. It would be one of many softwares used to give students strategies and skills. This is an excellent software and text.

**Key Features:** ADOBE ILLUSTRATOR CS6 REVEALED offers you comprehensive coverage in all areas of Adobe® Illustrator®. Beginning with fundamental concepts and progressing to in-depth exploration of the software’s full set of features, these step-by-step lessons offer you a guided tour of all the program’s great features

- Contains updated exercises and extensive coverage of new CS6 features, including a dynamic new interface and dramatic upgrades for pattern making and automatic image tracing.
- Includes four-color graphics that vividly illustrate key features and concepts.
- Includes online source files for all exercises in the book and gives your students visual step-by-step guidance when working through the application.
- Your students are encouraged to build a portfolio by completing the projects at the end of each chapter, many of which give them the opportunity to explore and express their unique creative talents.

</tr>
</tbody>
</table>
**Notes:** Interactive Media Design would be an excellent component of a broader computer class. It would be one of many softwares used to give students skills and strategies in a career class. This is an excellent software and text.

**Key Features:** INTERACTIVE MEDIA DESIGN AND DEVELOPMENT WITH ADOBE CS6 is a must-have learning resource for today's generation of digital content creators! Its hands-on approach to interactive media design, development, and process implementation puts you in charge of an actual interactive media project from start to finish, following a one-person workflow to create rich digital content with the latest principles and processes.

- Inclusive Approach: While focusing on tools and processes from Adobe Creative Suite 6, the book also discusses lower-cost tools and open source software alternatives wherever appropriate to give students a complete perspective of possible design options.
- Timeless Practices: A solid overview of interface design principles, as well as usability, accessibility, and copyright considerations presents processes and concepts that remain effective as software and applications continue to evolve.
- Enlightening Features: "How We Did It" examples, "It's Your Turn" exercises, and "More to Explore" suggestions deliver media basics in text, visuals, animation, audio, and video while adding depth to chapter readings.
- One-Person Workflow: The book's comprehensive guidelines for planning, designing, and managing an interactive media project help students create an actual project from start to finish, developing all components from scratch. This real-world experience develops hands-on, repeatable skills while demonstrating the thought processes involved in any successful, complex project.

**Notes:** Great resource for students learning Adobe Indesign CS6, only, no other technologies or programs.

**Key Features:** Graphic design professionals and design students alike have embraced Adobe InDesign as the industry standard for page layout software—and they're mastering it with ADOBE INDESIGN CS6 REVEALED. A thorough, in-depth exploration of the latest release, this highly visual book covers all the fundamental concepts, starting with the workspace and proceeding logically and intuitively to more advanced topics.

- Includes extensive coverage of new CS6 features: Exporting a Grayscale PDF, the Content Collector Tool, and the Alternate Layout utility for working on multiple documents in one file.
- Visually appealing with full-color graphics that illustrate key concepts and skills.
- Includes hands-on projects throughout the text that put software knowledge into a real-world design context.
- Online data files for all exercises in the book give your students visual step-by-step guidance when working through the application.
- Provides your students with clear instruction on how to work in InDesign using either Mac or PC platforms.

**Notes:** Adobe Photoshop would be a component of a broader computer class. It would be one of many softwares used to give students strategies in the career class. An excellent software and text.

**Key Features:** Adobe Photoshop has long provided cutting edge technology for sophisticated digital editing, and ADOBE PHOTOSHOP CS6 REVEALED provides a solid foundation for those looking to learn this industry-standard program.

- Covers all the latest Photoshop CS6 tools—including the customizable UI, layer filtering, the Content-Aware Patch tool, 3D Extrude, Blur lab, Preview & Crop Box, Character and Paragraph Styles, and Adobe Revel.
- All new features are highlighted throughout the text with a new features icon.
- Guides readers through the fundamentals of Photoshop CS6 with extensive tutorials and sophisticated exercises.
- Progresses from basic to advanced Photoshop techniques so that readers can build on the skills they acquire as they work their way through the book.
- Emphasizes the how and why behind each Photoshop tool to help readers excel at design as well as master the software.

Notes: Adobe Photoshop CS6 Comprehensive Concepts and Techniques would be an excellent component for a broader computer class. It would be one of many softwares used to give students strategies and skills in a career class. This is an excellent software and text, but not for integrating other technologies or programs.

Key Features: Part of the highly successful Shelly Cashman series, ADOBE® PHOTOSHOP® CS6: COMPREHENSIVE follows the proven Shelly Cashman step-by-step, screen-by-screen approach to learning the Photoshop CS6 software.

- All of the new CS6 features are covered, including the new Content-Aware Patch and Move, the new Crop Tool, the new Blur gallery and more!
- End of Chapter exercises provide a variety of reinforcement opportunities to ensure student retention.
- Keeps students visually engaged as each chapter presents a real-world, photo scenario with current topics and new CS6 features.
- Superior reference materials make it easy for students to quickly look up or find additional information in the text.
- A step-by-step, screen-by-screen approach allows students to successfully learn and retain information to be used in their personal and professional lives.

Computer Concepts: Illustrated Introductory
Oja/Parsons 2013 9-12
9781133626169

Notes: Computer Concepts is a very basic book. It is written as a self-help; have a question; look it up and get an answer. Would make a good classroom help for teachers to go to first, before going to their IT department.

Key Features: Computer Concepts Illustrated is designed to help students learn and retain the most relevant and essential information about computers and technology in today's digital world! This edition has been revised to cover the latest important computing trends and skills, but maintains the pedagogical and streamlined design elements that instructors and students know and love about the Illustrated Series.

- Updated content on the latest computer and technology trends and skills to ensure coverage of the most relevant and essential information.
- Highly visual streamlined layout presents topics on two facing pages and appeals to a wide variety of learning style.
- Comprehensive coverage includes detailed lessons on important computer concepts and the newest technology trends.
- Ample end of unit exercises provide review, practice, and assessment opportunities.

</tr>
</thead>
</table>

**Notes:** Not program specific. Usable in all computer literacy basic classes.

**Key Features:** COMPUTER LITERACY BASICS: A COMPREHENSIVE GUIDE TO IC3 provides an introduction to computer concepts and skills, which maps to the newest Computing Core Certification (IC3) standards. Designed with new learners in mind, this text covers Computing Fundamentals, Key Applications, and Living Online – everything students need to pass the IC3 exam, and finish the course as confident computer users.

- Certified for IC3 GS4 standards.
- Updated content to cover Windows 8 and Office 2013.
- Will still be compatible with Windows 7, and will include a Windows 7 Appendix.
- New “Explore and Solve” end of lesson projects that cover advanced level skills and encourage students’ critical thinking skills.
- IC3 Pretests at the conclusion of each Module.
- Updated to map to the exam objectives for the latest Internet and Computing Core Certification (IC3) standards.

**CONSENT**

**AUGUST 14, 2014**
### Notes:
The book teaches students the use of three software programs. Well organized to learn step-by-step. Good web resources and DVDs. But this does not include the career components, group work/collaboration (real world) or digital citizenship. Only good for those using CS6 Adobe.

### Key Features:
The DESIGN COLLECTION REVEALED provides comprehensive step-by-step instruction and in-depth explanation for three of today's most widely used design and layout programs: Adobe® InDesign® CS6, Adobe® Photoshop® CS6, and Adobe® Illustrator® CS6. You will gain practical experience with the software as you work through end-of-chapter learning projects and step-by-step tutorials.

- InDesign includes coverage of new CS6 features: Exporting a Grayscale PDF, the Content Collector Tool, and the Alternate Layout utility for working on multiple documents in one file.
- Photoshop chapters will introduce you to several new and updated features including customizing the UI, MiniBridge enhancements, layer filtering and Character and Paragraph styles.
- Illustrator chapters cover several new CS6 features, including a dynamic new interface and dramatic upgrades for pattern making and automatic image tracing.

### DESIGN COLLECTION REVEALED: ADOBE INDESIGN CS6, PHOTOSHOP CS6, & ILLUSTRATOR CS6, Instructor's Companion Website

**9781133608097**

### Notes:
Good layout to teach students a collection of software. Well organized book, logical sequence that takes students through the learning process. Good resources included, but does not include digital citizenship, collaboration, real world activities. Only good if using Adobe CS6 software.

### Key Features:
This invaluable, all-in-one guide provides a thorough introduction to web design and development with Adobe Dreamweaver® CS6, Adobe Flash® CS6, and Adobe Fireworks®CS6. In addition to detailed information on the current interface, features, and functionality of each program, the text includes step-by-step tutorials and hands-on projects to help readers master industry-leading software while honing practical skills with real-world relevance.

- Coverage of new and updated Dreamweaver CS6 features including HTML5, CSS3, and Multiscreen Preview and Media Queries.
- Updated Flash coverage includes new lessons to develop mobile applications (for smartphones and tablets) including creation of apps and testing apps on your mobile device, and lessons on how to develop AIR applications that can run on computers, mobile devices and televisions.
- Fireworks® chapters feature new coverage of enhancements to color selection, stroke and fill, gradients and styles.
- Includes an all-new chapter on using the Adobe file management application, Adobe Bridge, to manage all assets for any Creative Suite project.

### MICROSOFT OFFICE 2013: ADVANCED

**Vermaat**

**2014**

**9-12**

**9781285166322**

**Recommended as a component program**

**Notes:** Continues from Introductory, although no other technologies or programs are used as the only source. The Introductory book covers that. This is for Advanced Microsoft products only.

**Key Features:** With Microsoft Office 2013, we're continuing our history of innovation by enhancing our proven pedagogy to reflect the learning styles of today's students. In this text you'll find features that are specifically designed to engage students, improve retention, and prepare them for future success.

- Now, when students complete projects they are told WHY each step in the process is necessary, in addition to being told what they will be doing and how to accomplish each task.
- New mini-roadmaps are provided throughout each chapter, visually showing students where they are in the process of completing the chapter project.
- Critical thinking has been expanded throughout the text. Consider This boxes throughout each chapter provide thought-provoking questions and problem-solving activities. Chapter-ending Consider This: Plan Ahead boxes and Consider This: Your Turn assignments engage students in critical thinking and problem-solving skills to create their own solutions. Plus, every student assignment ends with a question that requires students' thoughts and opinions.
- New emphasis on personalization asks students to include a personal detail in their solutions to every chapter project and assignment, ensuring that each student solution will be unique.
| Cengage Learning | MICROSOFT OFFICE 2013: ILLUSTRATED INTRODUCTORY | Beskeen | 2014 | 9-12 | 9781285088457 | Key Features: Focused approach and user-friendly format, the Illustrated Series engages both computer rookies and hot shots in mastering MICROSOFT OFFICE 2013 applications quickly and efficiently. Skills are accessible and easy-to-follow thanks to the Illustrated Series' hallmark 2-page layout, which allows students to see an entire task in one view.

- Concise, to-the-point instruction helps students of all levels learn essential skills for using Microsoft Office 2013—including Word, Excel, Access, PowerPoint, as well as Windows 8, Internet Explorer 10, Outlook and essential computer concepts.
- Completely updated to reflect new features and enhancements in Microsoft Office 2013.
- New! Learning outcomes for each 2-page lesson mapped to assessments, including SAM Assessment and SAM Projects.
- New! Design improvements help keep students engaged and on track.
- New! Capstone appendix provides additional exercises for reinforcement and assessment.
- Updated appendix on SkyDrive and Microsoft Office Web Apps help students learn to use Office in the cloud. |

| Cengage Learning | THE VIDEO COLLECTION REVEALED: ADOBE PREMIERE PRO, AFTER EFFECTS, AUDITION AND ENCORE CS6 | Keller | 2013 | 9-12 | 9781133815006 | Recommended as a component program |

Notes: Could use more collaborative, work-based activities and a career component.
### Notes:
This is a good book and layout to teach students the use of Adobe Premiere Pro CS6, After Effects CS6, Adobe Audition CS6, and Encore CS6. Software is difficult to learn, but the book is well organized, logical sequence that takes students through the learning process. Good web resources, and 3 DVDs are also included.

### Key Features:
The all new THE VIDEO COLLECTION REVEALED: ADOBE PREMIERE PRO, AFTER EFFECTS, AUDITION AND ENCORE CS6 introduces your students to these exciting video applications and will help them create polished, professional work.

- Uses the newly-designed workspace in Premiere Pro and updated Premiere Pro terminology.
- Updated coverage of Warp Stabilizer to remove camera jitters in After Effects.
- Comprehensively covers the four primary Adobe CS6 video editing applications.
- Updated to take advantage of round-trip editing between Premiere Pro and Audition.
- Uses the newly-designed workspace in Premiere Pro and updated Premiere Pro terminology.

### THE VIDEO COLLECTION REVEALED: ADOBE PREMIERE PRO, AFTER EFFECTS, AUDITION AND ENCORE CS6 Instructor Resources

SUBJECT
Lewis-Clark State College – Idaho State Program Approval Review Team Report and the National Council for the Accreditation of Teacher Education (NCATE) Accreditation Report

APPLICABLE STATUTE, RULE, OR POLICY
Section 33-114 and 33-1258, Idaho Code
Idaho Administrative code, IDAPA 08.02.02 section 100- Official Vehicle for the Approval of Teacher Education Programs

BACKGROUND/DISCUSSION
The purpose of the on-site review was to determine whether candidates at Lewis-Clark State College meet state standards for beginning teachers. The review was conducted by an eight-member state program approval team accompanied by two state observers.

The standards used to validate the Institutional Report were the State Board of Education– approved Idaho Standards for the Initial Certification of Professional School Personnel. State Board–approved knowledge and performance indicators, as well as rubrics, were used to assist team members in determining how well standards are being met.

Core standards, as well as individual program enhancement standards, were reviewed. Only foundational and enhancement standards are subject to approval. Core standards are not subject to approval, since they permeate all programs but are not in themselves a program.

Team members looked for a minimum of three applicable pieces of evidence to validate each standard, including but not limited to: course syllabi, minutes of relevant scheduled meetings, candidate evaluations and letters of support, additional evaluations both formal and informal, blog posts and comments, advising checklists, class assignments and reports, Praxis II test results, as well as partial and completed education Teacher Performance Assessments (edTPA). In addition to this documentation, team members conducted interviews with candidates, completers, university administrators, university faculty, PreK-12 principals and cooperating teachers.

A written state team report was submitted to the unit, which has the opportunity to submit a rejoinder regarding any factual item in the report or identify any area that might have been overlooked by the team. No rejoinder was submitted.

During its March 6, 2014 meeting, the Professional Standards Commission (PSC) voted to approve the state team report and recommends to the State Board approval of the following programs: Elementary Education, English Language Arts, Reading (Literacy), Physical Education, Health Education,
Mathematics, Social Studies (Foundation Standards), History, Science (Foundation Standards), and Gifted and Talented.

Five programs are recommended for conditional approval. The Special Education program was not able to show that it was meeting all of the performance standards. The Biology, Chemistry, and Earth and Space Science programs showed evidence that they were positioned to offer viable programs, but there was not enough performance evidence in the foundation standards to show proof of implementation. Their Bilingual and English as a New Language program does not have any completers yet, so there was minimal evidence to review. The conditionally approved programs will undergo focused visits within three years to determine if the conditions have been met and if the program is eligible for approval.

IMPACT
In order to maintain their state approved status, and produce graduates eligible for Idaho teacher certification, Lewis-Clark State College must offer a teacher preparation program adequately aligned to both NCATE and State Standards.

ATTACHMENTS
Attachment 1 – State Program Approval Review Team Report with NCATE Accreditation Report
Attachment 2 – NCATE Accreditation Letter

STAFF COMMENTS AND RECOMMENDATIONS
This section will be completed by Board staff.

BOARD ACTION
I move to accept the State Team Report, and grant program approval of Elementary Education, English Language Arts, Reading (Literacy), Physical Education, Health Education, Mathematics, Social Studies (Foundation Standards), History, Science (Foundation Standards), and Gifted and Talented at Lewis-Clark State College.

Moved by __________ Seconded by __________ Carried Yes _____ No _____.

I move to accept the State Team Report, and grant conditional approval of the Special Education, Biology, Chemistry, Earth and Space Science, and English as a New Language programs at Lewis-Clark State College.

Moved by __________ Seconded by __________ Carried Yes _____ No _____.

INTRODUCTION

Lewis-Clark State College (LCSC) has a century-long history of preparing professional educators. Established by an act of the Idaho State Legislature in 1893, the college was originally designated the Lewiston Normal School, reflecting its early mission as a teacher training facility. In 1963, the legislature granted the then Lewis-Clark Normal School its current status as a four-year undergraduate institution. Its present name, Lewis-Clark State College, was authorized by the Legislature and governing board in 1971, making the college the last public normal school in the United States.

The purpose of the on-site review was to determine if sufficient evidence was presented indicating that candidates at Lewis-Clark State University meet state standards for beginning teachers. The review was conducted by a seven member state program approval team accompanied by two state observers. The standards used to validate the Institutional Report were the State Board of Education–approved Idaho Standards for the Initial Certification of Professional School Personnel. State Board–approved knowledge and performance indicators, as well as rubrics, were used to assist team members in determining how well standards are being met. Core standards as well as individual program foundational and enhancement standards were reviewed. Core standards are not subject to approval, since they permeate all programs, but are not in themselves, a program.

Team members looked for a minimum of three applicable pieces of evidence to validate each standard. These evidences included but were not limited to: course syllabi, class assignment descriptions, assignment grading rubrics, candidate evaluations and letters of support, additional evaluations, both formal and informal, program course requirement lists, actual class assignments, Praxis II test results, and electronic portfolio entry evidence. Some observations of candidates teaching through PreK-12 site visits and video presentations were also used. In addition to this documentation, team members conducted interviews with candidates, completers, college administrators, college faculty, PreK-12 principals, and cooperating teachers.

To assist the reader, the report includes language recommended by the National Council for the Accreditation of Teacher Education, a national accrediting agency. Specifically, to assist the reader, the terms below are used throughout the report as defined below:

Candidate – a student enrolled at the Lewis-Clark State College.
Student – an individual enrolled in an Idaho PreK-12 public school
Unit – the institution’s teacher preparation program
NCATE – National Council for the Accreditation of Teacher Education

In addition two other notations may be found in the report that are unique to Lewis-Clark State College and therefore need to be defined:

OSTE – On site teacher evaluator, or OSTE, is the unit name utilized for what is more commonly known as a cooperating teacher.
PACE Program – This is the unit acronym utilized for its on-line and partial on-line degree options. Evidence was evaluated from both traditional candidates as well as PACE program candidates to ensure that standards were being met, no matter which option the candidate chose.

Idaho Core Teacher Standards

State Program Approval Rubric for Teacher Preparation Programs

Candidate Performance Relative to the Idaho Standards

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubrics describe three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Elements identified in the rubrics provide the basis upon which the State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Core Teacher Standards (and Idaho Teacher Standards for specific preparation areas).

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge
1. The teacher understands the Idaho Student Achievement Standards in his/her discipline(s).
2. The teacher understands the role of the discipline in preparing students for the global community of the future.
3. The teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the discipline taught.
4. The teacher understands the relationship of disciplinary knowledge to other subject areas and to real-life situations.
5. The teacher understands the relationship between the discipline and basic technology operations and concepts.

<table>
<thead>
<tr>
<th>Element</th>
<th>Unacceptable</th>
<th>Acceptable</th>
<th>Target</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1 Knowledge Understanding Subject Matter</td>
<td></td>
<td>X</td>
<td></td>
</tr>
</tbody>
</table>
1.1 Elementary and Secondary Education Program Phases guidelines, required coursework syllabi, Praxis scores, interviews with completers, cooperating teachers, principals, and graduate and school administrator follow-up survey data all provide evidence that teacher candidates demonstrate adequate knowledge of the content that they plan to teach and understand the ways new knowledge in the content area is discovered. One hundred percent of candidates meet the qualifying scores on Idaho State Board required academic examinations prior to their final internship and 93% receive a passing score on the first try of taking the exam. Principals and cooperating teacher interviews indicate that LCSC interns are very well prepared in the content area they are planning to teach in.

Performance
1. The teacher utilizes the Idaho Student Achievement Standards to identify appropriate content.
2. The teacher presents information that is accurate and relevant.
3. The teacher effectively links discipline concepts to students’ prior learning and makes connections to everyday life and the global community.
4. The teacher presents differing viewpoints, theories, ways of knowing, and methods of inquiry in his or her teaching of subject matter.
5. The teacher evaluates teaching resources and curriculum materials for their accuracy, comprehensiveness, and usefulness for representing particular ideas and concepts.
6. The teacher engages students in generating knowledge and testing hypotheses according to the methods of inquiry and standards of evidence used in the discipline.
7. The teacher develops and uses curricula that encourage students to recognize, question, and interpret ideas from diverse perspectives.
8. The teacher creates and implements interdisciplinary learning opportunities that allow students to integrate knowledge, skills, and methods of inquiry.
9. The teacher integrates content representing a diversity of cultures, ethnic backgrounds, family lifestyles, and disabilities.
10. The teacher models new technologies and integrates them into instruction.

<table>
<thead>
<tr>
<th>Element</th>
<th>Unacceptable</th>
<th>Acceptable</th>
<th>Target</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.2 Performance Making Subject Matter Meaningful</td>
<td></td>
<td>X</td>
<td></td>
</tr>
</tbody>
</table>

1.2 Candidate portfolio samples, candidate, principal, and cooperating teacher interviews, and observations indicate that teacher candidates are able to create learning experiences that make the content taught meaningful to students. One principal commented that the fact that University faculty serve as the supervisors when candidates are placed within the local school system allows them to coordinate what the candidate is learning in the University classroom and applying within the Pk-12 classrooms within which they are teaching. Her comment was that is a “constant cycle of learning, reflection and refinement.”

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.
Knowledge
1. The teacher understands multiple perspectives on how learning occurs.
2. The teacher understands that students’ physical, social, emotional, moral, and cognitive development influence learning and instructional decisions.
3. The teacher knows progressions and ranges of individual variation within physical, social, emotional, moral, and intellectual development and their interrelationships.
4. The teacher understands how students’ conceptual frameworks and misconceptions regarding an area of knowledge can influence their learning.

2.1 Elementary and Secondary Education Program Phases guidelines, required coursework syllabi, Praxis scores, required course assignments and scoring rubrics, and graduate and school administrator follow-up survey data all provide evidence that teacher candidates demonstrate an adequate understanding of how students learn and develop.

Performance
1. The teacher assesses individual and group performance in order to design instruction that meets all students’ needs.
2. The teacher stimulates student reflection and teaches students to evaluate and be responsible for their own learning.
3. The teacher identifies levels of readiness in learning and designs lessons that are developmentally appropriate.
4. The teacher creates a positive learning environment that supports students’ self-confidence and competence across all developmental areas.

2.2 Candidate portfolio samples, lesson plan samples, required course assignments, interviews with cooperating teachers, candidates, and interns as well as observations indicate that teacher candidates provide opportunities to support students’ developmental stages and growth.
Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are modified for students with diverse needs.

Knowledge
1. The teacher understands and knows how to identify differences in approaches to learning and performance and how to design instruction that considers students’ strengths and needs as a basis for growth.
2. The teacher knows about areas of exceptionality (e.g., learning disabilities, visual and perceptual difficulties, emotional and behavioral problems, physical and cognitive delays, and giftedness).
3. The teacher knows strategies to support the learning of students whose first language is not English.
4. The teacher understands how students’ learning is influenced by individual experiences, and prior learning as well as by language, culture, family and community values, and socioeconomic background.

3.1 Praxis scores, course assignment and rubric examples from SE322, course syllabi, Elementary and Secondary Program Phases guidelines, and interviews with cooperating teachers, principals, and faculty indicate that teacher candidates demonstrate an adequate understanding of how students differ in their approaches to learning.

Performance
1. The teacher identifies and designs instruction appropriate to students’ stages of development, strengths, needs, and cultural backgrounds.
2. The teacher makes modifications to lessons for individual students who have particular learning differences or needs.
3. The teacher accesses appropriate services or resources to meet students’ needs.
4. The teacher uses information about students’ families, cultures, and communities as a basis for connecting instruction to students’ experiences.
5. The teacher creates a learning community in which individual differences are respected.
6. The teacher persists in helping all students achieve success.

3.2 SE322 course assignment samples and reflections, portfolio samples, and intern observations indicate that teacher candidates are able to modify instructional opportunities to support students with diverse needs.

*Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.*

**Knowledge**

1. The teacher understands how instructional strategies impact processes associated with various kinds of learning.
2. The teacher understands the techniques and applications of various instructional strategies (e.g., cooperative learning, direct instruction, discovery learning, whole group discussion, independent study, interdisciplinary instruction, manipulatives, and sheltered English).
3. The teacher knows how to enhance learning through the use of a wide variety of materials, human resources, and technology.

4.1 Elementary and Secondary Program Phases guidelines, required course syllabi, course assignment guidelines and rubrics, as well as cooperating teacher interviews indicate that teacher candidates demonstrate an adequate understanding of instructional strategies including cooperative learning, lecture, action research, individual projects, and paired projects. It was noted however that there may be a weakness in the English Language Learner instructional strategies. Interviews indicated that this topic might be covered in ED330 and possibly SE322 however syllabi and assignment evidence was not found to support the conversation.

**Performance**

1. The teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and student needs.
2. The teacher uses multiple teaching and learning strategies to engage students in learning.
3. The teacher uses a variety of instructional tools and resources (e.g., computers, audio-visual technologies, new technologies, local experts, primary documents and artifacts, texts, reference books, literature, and other print documents).

<table>

4.2 Candidate and cooperating teacher interviews, portfolio evidences, assignment evidence, and observations indicate that teacher candidates use a variety of instructional strategies in their planning and actual teaching. Cooperating teachers indicate the candidates are well versed in using strategies including whole group, small group, individual work, and technology.

**Standard 5: Classroom Motivation and Management Skills** - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

**Knowledge**
1. The teacher understands the principles of effective classroom management (e.g., strategies that promote positive relationships, cooperation, conflict resolution, and purposeful learning).
2. The teacher understands the principles of motivation, both extrinsic and intrinsic, and human behavior.
3. The teacher recognizes factors and situations that are likely to promote or diminish intrinsic motivation and knows how to help students become self-motivated.
4. The teacher knows the components of an effective classroom management plan.
5. The teacher understands how social groups function and influence individuals, and how individuals influence groups.
6. The teacher understands how participation, structure, and leadership promote democratic values in the classroom.
7. The teacher understands the relationship between classroom management, school district policies, and building rules and procedures governing student behavior.

</table>

5.1 Required course syllabi, perusing course assignment requirements and rubrics, as well as interviews with faculty, cooperating teachers, and completers indicate that evidence that teacher candidates demonstrate an adequate understanding of the principles of motivation and management for safe and productive student behavior. It was noted from several syllabi that management and motivation strategies were stressed in several required courses.

**Performance**
1. The teacher establishes a positive and safe climate in the classroom and participates in maintaining a healthy environment in the school as a whole.
2. The teacher designs and implements a classroom management plan that maximizes class productivity by organizing, allocating, and managing the resources of time, space, and activities and by clearly communicating curriculum goals and objectives.
3. The teacher utilizes a classroom management plan consistent with school district policies and building rules and procedures governing student behavior.

4. The teacher creates a learning community in which students assume responsibility for themselves and one another, participate in decision-making, work collaboratively and independently, resolve conflicts, and engage in purposeful learning activities.

5. The teacher organizes, prepares students for, and monitors independent and group work that allows for the full and varied participation of all individuals.

6. The teacher engages students in individual and cooperative learning activities that help them develop the motivation to achieve (e.g., relating lessons to real-life situations, allowing students to have choices in their learning, and leading students to ask questions and pursue problems that are meaningful to them).

7. The teacher analyzes the classroom environment, making adjustments to enhance social relationships, student self-motivation and engagement, and productive work.

<table>

</table>

5.2 Portfolio evidence, required course assignments, and interviews with cooperating teachers, candidates, and faculty indicate that teacher candidates are able to create, manage, and modify learning environments to ensure they are safe and productive. Management and even motivation are often difficult skills for candidates to attain prior to their internship. However, the program organization and emphasis at LCSC seems to have managed to alleviate many of the motivation and management issues that candidates often face.

**Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.**

**Knowledge**

1. The teacher understands communication theory and the role of language in learning.
2. The teacher understands the communication needs of diverse learners.
3. The teacher knows how to use a variety of communication tools (e.g., audio-visual technology, computers, and the Internet) to support and enrich learning opportunities.
4. The teacher understands strategies for promoting student communication skills.

</table>
6.1 Course assignment requirements, portfolio examples, cooperating teacher interviews, Praxis scores, interview and written interview data and comments, all provide evidence that teacher candidates demonstrate and adequate ability to model and use communication skills appropriate to professional settings. Most submitted assignments suggest that candidates are held to a high standard regarding grammar, spelling, and writing skills.

**Performance**
1. The teacher is a thoughtful and responsive listener.
2. The teacher adjusts communication so that it is age and individually appropriate.
3. The teacher models effective communication strategies in conveying ideas and information and in asking questions to stimulate discussion and promote higher-order thinking.
4. The teacher supports and expands student skills in speaking, writing, reading, and listening, and in using other mediums.
5. The teacher demonstrates the ability to communicate effectively orally and in writing.
6. The teacher adjusts communication in response to cultural differences (e.g., appropriate use of eye contact and interpretation of body language).
7. The teacher uses a variety of communication tools (e.g., audio-visual technologies, computers, and the Internet) to support and enrich learning opportunities.

<td>X</td>
<td></td>
</tr>
</tbody>
</table>

6.2 Portfolio examples, lesson plan and other assignment examples, interviews with candidates, completers, and college faculty, as well as observations of candidates during their internships provide evidence that teacher candidates create learning experiences that promote student learning and communication skill. Several candidate portfolio examples show evidence of student work requiring all aspects of the literacy process including speaking and listening.

**Standard 7: Instructional Planning Skills** - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.

**Knowledge**
1. The teacher understands how to apply knowledge about subject matter, learning theory, instructional strategies, curriculum development, and child and adolescent development to meet curriculum goals.
2. The teacher knows how to take into account such elements as instructional materials; individual student interests, needs, and aptitudes; and community resources in planning instruction that creates an effective bridge between curriculum goals and student learning.
3. The teacher knows when and how to adjust plans to maximize student learning.
4. The teacher understands how curriculum alignment across grade levels and disciplines maximizes learning.
7.1 Course assignment requirements, assignment examples, syllabi, and cooperating teacher interviews indicate that teacher candidates demonstrate an adequate understanding of how to plan and prepare instruction based upon consideration of knowledge of subject matter, students, the community, and curriculum goals. Candidates are expected to create thorough lesson plans throughout their program phases. Some of the lesson plans are taught in a micro-teaching situation to their peers and others are actually taught out in a classroom. Whether actually taught or not, the lesson planning skills seem to be developed from an early point in the program and throughout.

**Performance**
1. The teacher, as an individual and a member of a team, selects and creates learning experiences that are appropriate for curriculum goals, relevant to students, and based on principles of effective instruction and performance modes.
2. The teacher creates short-range and long-range instructional plans, lessons, and activities that are differentiated to meet the developmental and individual needs of diverse students.
3. The teacher responds to unanticipated sources of input by adjusting plans to promote and capitalize on student performance and motivation.
4. The teacher establishes student assessments that align with curriculum goals and objectives.
5. The teacher develops instructional plans based on student assessment and performance data.
6. The teacher integrates multiple perspectives into instructional planning with attention to students’ personal, family, and community experiences and cultural norms.
7. The teacher uses information from students, parents, colleagues, and school records to assist in planning instruction to meet individual student needs.

7.2 Cooperating teacher and candidate interviews as well as portfolio samples, and video evidence of candidates teaching lessons indicate that teacher candidates are able to plan and prepare instruction based upon consideration of subject matter, students, the community, and curriculum goals. One cooperating teacher even commented that candidates were better versed in the new Idaho Core Standards than they themselves were. Another interview indicated that candidates were able to plan and prepare instruction using information they had about the high percentage of free and reduced lunch qualified students within the classroom.
Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Knowledge
1. The teacher understands the purposes of formative and summative assessment and evaluation.
2. The teacher knows how to use multiple strategies to assess individual student progress.
3. The teacher understands the characteristics, design, purposes, advantages, and limitations of different types of assessment strategies.
4. The teacher knows how to use assessments in designing and modifying instruction.
5. The teacher knows how to select, construct, and use assessment strategies and instruments appropriate to students and their learning outcomes (e.g., Direct Writing and Math Assessments, end of course assessments, ISAT).
6. The teacher understands measurement theory and assessment-related concepts such as validity, reliability, bias, and scoring.
7. The teacher knows how to communicate assessment information and results to students, parents, colleagues, and others.
8. The teacher knows how to apply technology to facilitate effective assessment and evaluation strategies.

</thead>
<tbody>
<tr>
<td>8.1 Knowledge Assessment of Student Learning</td>
<td></td>
<td>X</td>
<td></td>
</tr>
</tbody>
</table>

8.1 Ed318 course syllabi, portfolio evidence, course assignments, and faculty interviews indicate that teacher candidates demonstrate an adequate understanding of formal and informal student assessment strategies to evaluate and advance student performance. Candidates complete several assignments which allow them to create assessments and analyze and disaggregate the data from these assessments. Internship lesson evaluation evidence did seem to indicate that candidates are evaluated on how they monitor the effectiveness of the lesson as well as how they monitor and adjust the lesson.

Performance
1. The teacher selects, constructs, and uses a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, teacher-made tests, performance tasks, projects, student self-assessment, peer assessment, standardized tests, and tests written in primary language) to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.
2. The teacher uses multiple assessment strategies to measure students’ current level of performance in relation to curriculum goals and objectives.
3. The teacher evaluates the effect of instruction on individuals and the class as a whole using a variety of assessment strategies.
4. The teacher appropriately uses assessment strategies to allow students to become aware of their strengths and needs and to encourage them to set personal goals for learning.
5. The teacher monitors student assessment data and adjusts instruction accordingly.
6. The teacher maintains records of student work and performance, and communicates student progress to students, parents, colleagues, and others.
7. The teacher utilizes technology to facilitate a variety of effective assessment and evaluation strategies.

<tbody>
<tr>
<td>8.2 Performance</td>
<td>X</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Using and Interpreting Program and Student Assessment Strategies</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

8.2 Portfolio evidences, required assignment reflections, candidate, faculty, and cooperating teacher interviews as well as candidate lesson plan evaluations indicate that teacher candidates use and interpret formal assessment strategies to evaluate and advance student performance. There is less adequate evidence and documentation of informal assessment strategies being used to evaluate and advance student performance. In addition there was an inadequate amount of evidence that teacher candidates were able to use formal and informal assessment strategies to evaluate and determine teaching effectiveness. Faculty interviews indicated that candidates adjust lessons based on information from assessments as well as using assessment evidence to help determine teaching effectiveness. However, reflections and portfolio evidences seem to lack the documentation of this.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Knowledge
1. The teacher knows The Code of Ethics for Idaho Professional Educators.
2. The teacher knows a variety of self-assessment strategies for reflecting on the practice of teaching.
3. The teacher is aware of the personal biases that affect teaching and know the importance of presenting issues with objectivity, fairness, and respect.
4. The teacher knows where to find and how to access professional resources on teaching and subject matter.
5. The teacher understands the need for professional activity and collaboration beyond the school.
6. The teacher knows about professional organizations within education and his or her discipline.
7. The teacher understands the dynamics of change and recognizes that the field of education is not static.
8. The teacher knows how to use technology to enhance productivity and professionalism.
9.1 Required course syllabi, course assignments, rubrics for assignments, as well as interviews with candidates, faculty, and cooperating teachers indicate that candidates demonstrate an adequate ability to be reflective practitioners who are committed to their profession. Faculty interviews indicate that the faculty themselves work deliberately to model themselves as reflective practitioners. Reflections on lessons, units, and assessments are built into the program phases from the beginning.

**Performance**
1. The teacher practices behavior congruent with The Code of Ethics for Idaho Professional Educators.
2. The teacher adheres to local, state, and federal laws.
3. The teacher uses a variety of sources for evaluating his/her teaching (e.g., classroom observation, student achievement data, information from parents and students, and research).
4. The teacher uses self-reflection as a means of improving instruction.
5. The teacher participates in meaningful professional development opportunities in order to learn current, effective teaching practices.
6. The teacher stays abreast of professional literature, consults colleagues, and seeks other resources to support development as both a learner and a teacher.
7. The teacher engages in professional discourse about subject matter knowledge and pedagogy.
8. The teacher uses technology to enhance productivity and professionalism.

9.2 Candidate observations, video lesson observations, faculty, principal, and cooperating teacher interviews as well as graduate and principal follow up survey data indicate that candidates display an adequate ability to engage in purposeful mastery of the art and science of teaching.

**Standard 10: Partnerships** - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Knowledge
1. The teacher understands the relationships between schools, families, and the community and how such relationships foster student learning.
2. The teacher knows the structure and the historical and political context of local, state, and national educational systems and the role of education in society.
3. The teacher knows that factors other than the formal education system (e.g., socioeconomic status, culture, and family) influence students’ lives and learning.
4. The teacher knows how to plan for the effective use of professionals, paraprofessionals, volunteers, and peer tutors.
5. The teacher understands laws related to students’ rights and teachers’ responsibilities.
6. The teacher knows how to respond respectfully to a parent, community members, or another educator in conflict situations.
7. The teacher understands the importance of interacting in a professional manner in curricular and extracurricular settings.
8. The teacher knows signs of emotional distress, child abuse, substance abuse, and neglect in students and how to follow the procedures to report known or suspected abuse or neglect to the appropriate authorities.
9. The teacher understands the social, ethical, legal, and human issues surrounding the use of technology in schools.

</tbody>
</table>

10.1 Required course syllabi, internship handbooks, course assignment descriptions, and faculty interviews indicate that teacher candidates know how to professionally and effectively collaborate with colleagues, parents, and other members of the community to support students’ learning and well-being. It was evident throughout the visit that professionalism and forming educational partnerships was of paramount importance to the Division of Education. The team found multiple examples of candidate evidence of partnerships.

Performance
1. The teacher uses information about students and links with community resources to meet student needs.
2. The teacher actively seeks to develop productive, cooperative, and collaborative partnerships with parents/guardians in support of student learning and well-being.
3. The teacher effectively uses professionals, paraprofessionals, volunteers, and peer tutors to promote student learning.
4. The teacher respects the privacy of students and the confidentiality of information.
5. The teacher works with colleagues, other professionals, parents, and volunteers to improve the overall school learning environment for students.
6. The teacher develops rapport with students (e.g., talks with and listens to students and is sensitive and responsive to clues of distress).
7. The teacher acts as an advocate for students.
8. The teacher applies an understanding of the social, ethical, legal, and human issues surrounding the use of technology in schools.

</table>

10.2 Candidate observations, interviews with cooperating teachers, faculty, candidates and completers, as well as lesson and unit plan reflections provide in-depth evidence that teacher candidates interact in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being. Multiple comments were heard regarding candidates who went above and beyond to learn more about students’ interests and activities in order to plan learning to better meet the needs of their students. Many comments during interviews also alluded to the fact that college faculty, candidates, and cooperating teachers easily and effectively form partnerships for the betterment of the students they serve. Partnerships and professionalism are obviously highly valued throughout the programs the state team evaluated.
Elementary Education

State Program Approval Rubric for Teacher Preparation Programs

Candidate Performance Relative to the Idaho Standards

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards/principles set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubric describes three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Performance indicators provide the lens through which the State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Standards for Elementary Teachers.

Standards 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge
1. The teacher understands concepts of language arts and child development in order to teach reading, writing, speaking, viewing, listening, and thinking skills and to help students successfully apply their developing skills to many different situations, materials, and ideas.
2. The teacher understands the importance of providing a purpose and context to use the communication skills taught across the curriculum.
3. The teacher understands how children learn language, the basic sound structure of language, semantics and syntactics, diagnostic tools, and test data to improve student reading ability.
4. The teacher understands the fundamental concepts and the need to integrate STEM disciplines including physical, life, and earth and space Sciences, Technology, Engineering, and Mathematics as well as the applications of STEM disciplines to technology, personal and social perspectives, history, unifying concepts, and inquiry processes used in the discovery of new knowledge.
5. The teacher understands major concepts, procedures, and reasoning processes of mathematics that define number systems and number sense, computation, geometry, measurement, statistics and probability, and algebra in order to foster student understanding and use of patterns, quantities, and spatial relationships that represent phenomena, solve
problems, and manage data. The teacher understands the relationship between inquiry and the development of mathematical thinking and reasoning.

6. The teacher knows the major concepts and modes of inquiry for social studies: the integrated study of history, geography, government/civics, economics, social/cultural and other related areas to develop students’ abilities to make informed decisions as global citizens of a culturally diverse, democratic society and interdependent world.

7. The teacher understands the content, functions, aesthetics, and achievements of the arts, such as dance, music, theater, and visual arts as avenues for communication, inquiry, and insight.

8. The teacher understands the comprehensive nature of students’ physical, intellectual, social, and emotional well-being in order to create opportunities for developing and practicing skills that contribute to overall wellness.

9. The teacher understands human movement and physical activities as central elements for active, healthy lifestyles and enhanced quality of life.

10. The teacher understands connections across curricula and within a discipline among concepts, procedures, and applications. Further, the teacher understands its use in motivating students, building understanding, and encouraging application of knowledge, skills, and ideas to real life issues and future career applications.

11. The teacher understands the individual and interpersonal values of respect, caring, integrity, and responsibility that enable students to effectively and appropriately communicate and interact with peers and adults.

1.1 Interviews with teacher candidates, college supervisors and cooperating teachers, analyzing candidate lesson plans and course syllabi, provide evidence that teacher candidates demonstrate an adequate knowledge of elementary subject content, and understand the importance of integrated curriculum. The program provides evidence that candidates understand the relationship between inquiry and the development of thinking and reasoning.

**Performance**

1. The teacher models the appropriate and accurate use of language arts.

2. The teacher demonstrates competence in language arts, reading, STEM disciplines, social studies, the arts, health education, and physical education. Through inquiry the teacher facilitates thinking and reasoning.

3. The teacher provides a purpose and context to use the communication skills taught. The teacher integrates these communication skills across the curriculum.

4. The teacher conceptualizes, develops, and implements a balanced curriculum that includes language arts, reading, STEM disciplines, social studies, the arts, health education, and physical education.
5. Using his/her integrated knowledge of the curricula, the teacher motivates students, builds understanding, and encourages application of knowledge, skills, and ideas to real life issues, democratic citizenship, and future career applications.

6. The teacher models respect, integrity, caring, and responsibility in order to promote and nurture a school environment that fosters these qualities.

1.2 Interviews with teacher candidates, college supervisors and cooperating teachers, analyzing candidate lesson plans and portfolios, provide evidence that teacher candidates demonstrate an adequate ability to use materials, instructional strategies and/or methods that illustrate and promote relevance and real life application, making learning experiences and subject matter meaningful. The program provides evidence that candidates teach using inquiry and exploration.

**Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.**

**Knowledge**

1. The teacher understands that young children’s and early adolescents’ literacy and language development influence learning and instructional decisions.

2. The teacher understands the cognitive processes of attention, memory, sensory processing, and reasoning, and recognizes the role of inquiry and exploration in developing these abilities.

</tbody>
</table>

2.1 Interviews with teacher candidates, college supervisors and cooperating teachers, candidate lesson plans and course syllabi, provide evidence that teacher candidates demonstrate an understanding of how young children and early adolescents learn. The program provides evidence that candidates understand the role of cognition, inquiry and exploration in learning.

**Performance**

1. The teacher designs instruction and provides opportunities for students to learn through inquiry and exploration.
2.2 Interviews with teacher candidates, college supervisors and cooperating teachers, candidate lesson plans and portfolios and observations all provide evidence that teacher candidates demonstrate adequate knowledge of how young children and early adolescents learn. The program provides evidence that candidates design instruction and provide opportunities for students to learn through inquiry and exploration.

**Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.**

**Knowledge**

1. The teacher understands the necessity of appropriately and effectively collaborating with grade level peers, school intervention teams, parents/guardians, and community partners to meet differentiated needs of all learners.

2. The teacher understands that there are multiple levels of intervention and recognizes the advantages of beginning with the least intrusive.

<table>

</table>

3.1 Interviews with teacher candidates, college supervisors and cooperating teachers, as well as candidate lesson plans and course syllabi, provide evidence that teacher candidates demonstrate adequate understanding of how students differ in their approaches to learning. Candidates are required to take three courses under the topic of individual needs. Two of these courses are utilized during their two different internship sessions so that on-going learning can take place while candidates are practicing in the field.

**Performance**

1. The teacher appropriately and effectively collaborates with grade level peers, school intervention teams, parents/guardians, and community partners to meet differentiated needs of all learners.

2. The teacher systematically progresses through the multiple levels of intervention, beginning with the least intrusive.
Element | Unacceptable | Acceptable | Target
--- | --- | --- | ---
3.2 Performance Modifying Instruction for Individual Learning Needs | | X | |

3.2 Interviews with teacher candidates, college supervisors and cooperating teachers, analyzing candidate lesson plans and observations, provide evidence that teacher candidates demonstrate the ability to modify instructional opportunities to support students with diverse needs. Again, the fact that candidates take SE428 and SE431 Adaptive Teaching K-8 during their internship really allows them to modify instruction as needed by individual learners.

**Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.**

**Knowledge**
1. The teacher understands the importance of teaching and re-teaching classroom expectations.
2. The teacher recognizes the importance of positive behavioral supports and the need to use multiple levels of intervention to support and develop appropriate behavior.

5.1 Interviews with teacher candidates, college supervisors and cooperating teachers, analyzing candidate lesson plans and course syllabi, provide evidence that teacher candidates demonstrate an adequate understanding of the principles of motivation and management for safe and productive student behavior.

**Performance**
1. The teacher consistently models and teaches classroom expectations.
2. The teacher utilizes positive behavioral supports and multiple levels of intervention to support and develop appropriate behavior.
5.2 Interviews with teacher candidates, college faculty, principals and cooperating teachers, observations, as well as observation survey data, provide evidence that teacher candidates demonstrate the ability to create, manage, and modify learning environments to ensure they are safe and productive. Many of those interviewed indicated that candidates were very capable of managing classroom behavior from their first day in the classroom.

State Program Approval Rubric for Teacher Preparation Programs

Candidate Performance Relative to the Idaho Standards

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards/principles set the criteria by which teacher preparation programs are reviewed for state program approval.

In addition to the standards listed here, special education teachers must meet Idaho Core Teacher Standards and the Idaho Generalist Standards and may meet one of the following, if applicable: (1) Idaho Standards for Teachers of the Blind and Visually Impaired or (2) Idaho Standards for Teachers of the Deaf and Hard of Hearing.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubric describes three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Performance indicators provide the lens through which the State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Standards for Special Education Generalist Teachers.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge
1. The teacher understands the theories, history, philosophies, and models that provide the basis for special education practice.
2. The teacher understands concepts of language arts in order to help students develop and successfully apply their skills to many different situations, materials, and ideas.
3. The teacher understands major concepts, procedures, and reasoning processes of mathematics in order to foster student understanding.

<table>

<th>Acceptable</th>
<th>Target</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1 Knowledge Subject Matter and Structure of the Discipline</td>
<td></td>
<td>X</td>
<td></td>
</tr>
</tbody>
</table>
1.1 Praxis II scores, required coursework syllabi, course projects and exams all provide evidence that teacher candidates demonstrate adequate understanding of the benefits, strengths, and constraints of theories and educational models in special education practice.

**Performance**
1. The teacher demonstrates the application of theories and research-based educational models in special education practice.
2. The teacher implements best practice instruction across academic and non-academic areas to improve student outcomes.

<table>
<thead>
<tr>

<td></td>
<td></td>
</tr>
</tbody>
</table>

1.2 Required course projects during practicum experiences, interviews with faculty and candidates, and portfolio entries provides evidence that teacher candidates demonstrate an adequate ability to apply the theories and educational models of special education practice.

**Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.**

**Knowledge**
1. The teacher understands how the learning patterns of students with disabilities may differ from the norm.

<table>
<thead>
<tr>
<th>Element</th>
<th>Unacceptable</th>
<th>Acceptable</th>
<th>Target</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.1 Knowledge Understanding Human Development and Learning</td>
<td>X</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

2.1 Field experience journals, syllabi and interviews with faculty. The program provides evidence that teacher candidates demonstrate adequate understanding of how the learning patterns of students with disabilities may differ from the norm.

**Performance**
1. The teacher uses research-supported instructional strategies and practices (e.g., functional embedded skills approach, community-based instruction, task analysis, multi-sensory strategies, and concrete/manipulative techniques) to provide effective instruction in academic and nonacademic areas for students with disabilities.
2.2 IEP assignments, adaptation projects, candidate interviews and candidate internship evaluations provide evidence that teacher candidates demonstrate an adequate ability to use research-supported, developmentally and age-appropriate instructional strategies and practices, to provide effective instruction in academic and non-academic areas for students with disabilities.

**Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to students with diverse needs (same as Core Rubrics).**

**Knowledge**
1. The teacher understands strategies for accommodating and adapting curriculum and instruction for students with disabilities.
2. The teacher knows the educational implications of exceptional conditions (e.g., sensory, cognitive, communication, physical, behavioral, emotional, and health impairments).  
3. The teacher knows how to access information regarding specific student needs and disability-related issues (e.g., medical, support, and service delivery).

<table>
<thead>
<tr>
<th>Element</th>
<th>Unacceptable</th>
<th>Acceptable</th>
<th>Target</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.1 Knowledge Understanding of Individual Learning Needs</td>
<td></td>
<td>X</td>
<td></td>
</tr>
</tbody>
</table>

3.1 Analysis of resource exploration papers, syllabi and chapter scaffolds indicate that teacher candidates demonstrate an adequate understanding of educational implications of exceptional conditions and strategies for accommodating and adapting curriculum and instruction for students with disabilities. Evidence did seem to be more available regarding individual learning needs in the area of literacy than other areas.

**Performance**
1. The teacher individualizes instruction to support student learning and behavior in various settings.
2. The teacher accesses and uses information about characteristics and appropriate supports and services for students with high and low incidence disabilities and syndromes.
3. The teacher locates, uses, and shares information on special health care needs and on the effects of various medications on the educational, cognitive, physical, social, and emotional behavior of students with disabilities.
3.2 Required tutoring reports, the assigned adaptive project, and interviews with faculty indicate that teacher candidates demonstrate an adequate ability to individualize instruction and provide support for student learning.

**Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.**

**Knowledge**
1. The teacher understands individualized skills and strategies necessary for positive support of academic success (e.g., comprehension, problem solving, organization, study skills, test taking, and listening)
2. The teacher understands the developmental nature of social skills.
3. The teacher understands that appropriate social skills facilitate positive interactions with peers, family members, educational environments, and the community.
4. The teacher understands characteristics of expressive and receptive communication and the effect this has on designing social and educational interventions.

4.1 Syllabi, individualized instruction courses and interviews with faculty provides evidence that teacher candidates demonstrate an adequate understanding of how to design and implement instructional programs to support academic development of students with disabilities. However, the program provides no evidence that teacher candidates demonstrate an adequate understanding of how to design and implement instructional programs to provide support in the social development of students with disabilities.

**Performance**
1. The teacher demonstrates the ability to teach students with disabilities in a variety of educational settings.
2. The teacher designs, implements, and evaluates instructional programs that enhance a student’s participation in the family, the school, and community activities.
3. The teacher advocates for and models the use of appropriate social skills.
4. The teacher provides social skills instruction that enhances student success.
5. The teacher creates an accessible learning environment through the use of assistive technology.
6. The teacher demonstrates the ability to implement strategies that enhance students’ expressive and receptive communication.

<table>

</table>

4.2 Tutoring reports, analysis of adaptive projects, and cooperating teacher interviews provide evidence that teacher candidates demonstrate an adequate ability to design and implement instructional programs to support academic development of students with disabilities. However, the program provides no evidence that teacher candidates demonstrate an adequate ability to design and implement instructional programs to support social development of students with disabilities.

**Standard 5: Classroom Motivation and Management Skills** - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

**Knowledge**
1. The teacher understands applicable laws, rules, regulations, and procedural safeguards regarding behavior management planning for students with disabilities.
2. The teacher understands applied behavioral analysis and ethical considerations inherent in behavior management (e.g., positive behavioral supports, functional behavioral assessment, behavior plans).
3. The teacher understands characteristics of behaviors concerning individuals with disabilities (e.g., self-stimulation, aggression, non-compliance, self-injurious behavior).
4. The teacher understands the theories and application of conflict resolution and crisis prevention/intervention.
5. The teacher understands that students with disabilities may require specifically designed strategies for motivation and instruction in socially appropriate behaviors and self-control.

<table>

</table>
5.1 Behavior Intervention Plans, Behavioral assessment assignments, and interview with faculty indicate teacher candidates demonstrate adequate knowledge of theories of behavior concerning students with disabilities.

**Performance**

1. The teacher modifies the learning environment (e.g., schedule, transitions, and physical arrangements) to prevent inappropriate behaviors and enhance appropriate behaviors.
2. The teacher coordinates the implementation of behavior plans with all members of the educational team.
3. The teacher creates an environment that encourages self-advocacy and increased independence.
4. The teacher demonstrates a variety of effective behavior management techniques appropriate to students with disabilities.
5. The teacher designs and implements positive behavior intervention strategies and plans appropriate to the needs of the individual student.

<table>

6.2 The program provides little or no evidence that teacher candidates demonstrate an adequate ability to use a variety of verbal and nonverbal communication techniques. In addition, little or no evidence is provided that teacher candidates demonstrate an adequate understanding of strategies and techniques that facilitate communication for students with disabilities. These performances would include verbal communication techniques that expand the communication skills of students with disabilities.

**Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals (same as Core Rubrics).**

**Knowledge**
1. The teacher understands curricular and instructional practices used in the development of academic, social, language, motor, cognitive, and affective skills for students with disabilities.
2. The teacher understands curriculum and instructional practices in self-advocacy and life skills relevant to personal living and participation in school, community, and employment.
3. The teacher understands the general education curriculum and state standards developed for student achievement.
Element | Unacceptable | Acceptable | Target
--- | --- | --- | ---
7.1 Knowledge Instructional Planning Skills in Connection with Knowledge of Subject Matter and Curriculum Goals |  | X |  

7.1 Tutoring reports, adapted lesson plans and interviews with faculty indicate that teacher candidates demonstrate an adequate understanding of curricular and instructional practices used in the development of skills for students with disabilities.

**Performance**

1. The teacher develops comprehensive, outcome-oriented Individual Education Plans (IEP) in collaboration with IEP team members.
2. The teacher conducts task analysis to determine discrete skills necessary for instruction and to monitor student progress.
3. The teacher evaluates and links the student’s skill development to the general education curriculum.
4. The teacher develops and uses procedures for monitoring student progress toward individual learning goals.
5. The teacher uses strategies for facilitating maintenance and generalization of skills across learning environments.
6. The teacher, in collaboration with parents/guardians and other professionals, assists students in planning for transition to post-school settings.
7. The teacher develops opportunities for career exploration and skill development in community-based settings.
8. The teacher designs and implements instructional programs that address independent living skills, vocational skills, and career education for students with disabilities.
9. The teacher considers issues related to integrating students with disabilities into and out of special centers, psychiatric hospitals, and residential treatment centers and uses resources accordingly.

| Element | Unacceptable | Acceptable | Target
--- | --- | --- | ---
7.2 Performance Instructional Planning Skills in Connection with Students’ Needs and Community Contexts |  | X |  

7.2 Internship portfolios, interviews with faculty, and an interview with a cooperating teacher indicate that teacher candidates are unable to demonstrate an adequate ability to design and
implements individualized instructional programs for students with disabilities. There was a lack of evidence available that candidates actually designed and monitored programs for students with disabilities.

**Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.**

**Knowledge**
1. The teacher understands the legal provisions, regulations, and guidelines regarding assessment of students with disabilities.
2. The teacher knows the instruments and procedures used to assess students for screening, pre-referral interventions, and following referral for special education services.
3. The teacher understands how to assist colleagues in designing adapted assessments.
4. The teacher understands the relationship between assessment and its use for decisions regarding special education service and support delivery.
5. The teacher knows the ethical issues and identification procedures for students with disabilities, including students from culturally and linguistically diverse backgrounds.
6. The teacher knows the appropriate accommodations and adaptations for state and district assessments.

8.1 Internship syllabi, transition assessment assignments, and candidate interviews provide evidence that teacher candidates demonstrate an adequate understanding of the instruments and procedures that comply with legal and ethical concerns regarding the assessment of students with disabilities.

**Performance**
1. The teacher analyzes assessment information to identify student needs and to plan how to address them in the general education curriculum.
2. The teacher collaborates with families and professionals involved in the assessment of students with disabilities.
3. The teacher gathers background information regarding academic, medical, and social history.
4. The teacher uses assessment information in making instructional decisions and planning individual programs that result in appropriate placement and intervention for all students with disabilities, including those from culturally or linguistically diverse backgrounds.
5. The teacher facilitates and conducts assessments related to secondary transition planning, supports, and services.
6. The teacher participates as a team member in creating the assessment plan that may include ecological inventories, portfolio assessments, functional assessments, and high and low assistive technology needs to accommodate students with disabilities.

**Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being (same as Core Rubrics).**

**Knowledge**
1. The teacher understands current federal and state laws pertaining to students with disabilities, including due process rights related to assessment, eligibility, and placement.
2. The teacher understands variations of beliefs, traditions, and values regarding disability across cultures and the effect of these on the relationship among the student, family, and school.
3. The teacher knows the rights and responsibilities of parents/guardians, students, teachers, professionals, and schools as they relate to students with disabilities.
4. The teacher is aware of factors that promote effective communication and collaboration with students, parents/guardians, colleagues, and the community in a culturally responsive manner.
5. The teacher is familiar with the common concerns of parents/guardians of students with disabilities and knows appropriate strategies to work with parents/guardians to deal with these concerns.
6. The teacher knows the roles of students with disabilities, parents/guardians, teachers, peers, related service providers, and other school and community personnel in planning and implementing an individualized program.
7. The teacher knows how to train or access training for paraprofessionals.
8. The teacher knows about services, networks, and organizations for individuals with disabilities and their families, including advocacy and career, vocational, and transition support.

Performance
1. The teacher facilitates communication between the educational team, students, their families, and other caregivers.
2. The teacher trains or accesses training for paraprofessionals.
3. The teacher collaborates with team members to develop effective student schedules.
4. The teacher communicates the benefits, strengths, and constraints of special education services.
5. The teacher creates a manageable system to maintain all program and legal records for students with disabilities as required by current federal and state laws.
6. The teacher encourages and assists families to become active participants in the educational team (e.g., participating in collaborative decision making, setting instructional goals, and charting progress).
7. The teacher collaborates and consults with the student, the family, peers, regular classroom teachers, related service personnel, and other school and community personnel in integrating students with disabilities into various learning environments.
8. The teacher communicates with regular classroom teachers, peers, the family, the student, administrators, and other school personnel about characteristics and needs of students with disabilities.
9. The teacher participates in the development and implementation of rules and appropriate consequences at the classroom and school wide levels.

**Areas for Improvement:**

Standard 4: Little or no evidence that teacher candidates demonstrate an adequate understanding, and ability to design and implement instructional programs to support social development of students with disabilities.

Standard 5: Little or no evidence that teacher candidates demonstrate an adequate ability to develop and implement positive behavior supports for students with disabilities.

Standard 6: Little or no evidence that teacher candidates demonstrate an adequate understanding of strategies and techniques that facilitate communication for students with disabilities. In addition, little or no evidence that teacher candidates demonstrate an adequate ability to use a variety of verbal and nonverbal communication techniques that expand the communication skills of students with disabilities.

Standard 7: Little or no evidence that teacher candidates demonstrate an adequate ability to design and implement individualized instructional programs for students with disabilities in the following areas: task analysis to determine discrete skills necessary for instruction and to monitor student progress; develops and uses procedures for monitoring student progress toward individual learning goals; and strategies for facilitating maintenance and generalization of skills across learning environments.
English Language Arts

State Program Approval Rubric for Teacher Preparation Programs

Candidate Performance Relative to the Idaho Standards

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers relative to the standards. The rubric is designed to be used with each content-specific preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubric describes three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Performance indicators provide the lens through which the State Program Approval Team evaluates the institution’s provided evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Standards for Initial Preparation of Professional School Personnel.

Principle 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the English language arts and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge
1. The teacher understands that reading, writing, speaking, listening, viewing, and language study are interrelated.
2. The teacher understands the elements of effective writing such as audience, purpose, organization, development, voice, coherence, emphasis, unity, and style.
3. The teacher understands the conventions of standard written language, i.e., grammar, punctuation, capitalization, and spelling.
4. The teacher understands a variety of literary and nonliterary forms (e.g., novels, plays, poetry, essays, technical writing, and film).
5. The teacher understands how literature functions as artistic expression and as a reflection of human experience.
6. The teacher understands the nature and conventions of multicultural literatures, literary devices, and methods of literary analysis and criticism.
7. The teacher understands how culture and history influence literature, literary recognition, and curriculum selections.
8. The teacher understands the social and historical implications of print and nonprint media.
9. The teacher understands the history of the English language.
10. The teacher understands how children learn language, the basic sound structure of the English language, semantics, syntax, and usage.
11. The teacher understands reading as a developmental process.
12. The teacher knows that writing is an act of discovery and a form of inquiry, reflection, and expression.
13. The teacher understands that composition is a recursive process that includes brainstorming, drafting, revising, editing for correctness and clarity, and publishing; that the process will vary with the individual and the situation; and that learning to write is a developmental process.
14. The teacher recognizes the student’s need for authentic purposes, audiences, and forms of writing.
15. The teacher understands the appropriate selection, evaluation, and use of primary and secondary sources in research processes.

1.1 Interviews with cooperating teachers, Praxis II scores, checking student files, interviewing candidates, and perusing student work samples provide evidence that teacher candidates possess knowledge of English language arts, including the nature, value, and approaches to a variety of literary texts, print and non-print media, composing processes, and language study.

**Performance**
1. The teacher uses skills and knowledge congruent with current research on best practices for teaching reading and writing.
2. The teacher integrates reading, writing, speaking, listening, viewing, and language study.
3. The teacher builds a reading, writing, listening, speaking, and viewing community in which students respond, interpret, and think critically.
4. The teacher instructs student on the conventions of standard written language, i.e., grammar, punctuation, capitalization, and spelling.
5. The teacher reviews, interprets, evaluates, and selects content presented by print and nonprint media and models these processes for students.
6. The teacher integrates information from traditional, technical, and electronic sources for critical analysis and evaluation by students.
7. The teacher helps students with their understanding of a variety of literary and nonliterary forms and genres.
8. The teacher presents social, cultural, and historical significance of a variety of texts and connects these to students’ experiences.
9. The teacher demonstrates the writing process as a recursive and developmental process.

</table>

2.2 Interviewing language arts teacher candidates, analyzing teacher lesson plans, and interviewing cooperating teachers provide little or no evidence that teacher candidates demonstrate an adequate ability to recognize students’ levels of language maturity and identify strategies to promote growth.
Principle 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.

Knowledge
1. The teacher knows a variety of classroom strategies for improving fluency, comprehension, and critical thinking (e.g., strategies for discussion, peer editing, critical analysis and interpretation, inquiry, oral presentations, SSR, and brainstorming).
2. The teacher understands reading comprehension strategies (e.g., organizing information, visualizing, making connections, using context clues, building background knowledge, predicting, paraphrasing, summarizing, questioning, drawing conclusions, synthesizing, and making inferences) for enabling students with a range of abilities to understand, respond to, and interpret what they read.
3. The teacher is familiar with a variety of strategies for promoting student growth in writing.

<table>

</tbody>
</table>

4.1 Interviews with cooperating teachers, interviews with candidates, Praxis II scores, checking student files, and perusing student work samples provide evidence that teacher candidates demonstrate adequate knowledge of a variety of instructional strategies needed to develop students’ critical thinking, problem solving, and performance skills at varying literacy levels.

Performance
1. The teacher effectively uses comprehension strategies.
2. The teacher incorporates a variety of analytical and theoretical approaches in teaching literature and composition.
3. The teacher monitors and adjusts strategies in response to individual literacy levels.
4. The teacher creates logical sequences for reading, writing, speaking, listening, viewing, and language study.
5. The teacher uses students’ creations and responses as part of the instructional program.
6. The teacher builds a reading, writing, listening, speaking, and viewing community in which students respond, interpret, and think critically (e.g., engages students in discussion, inquiry, and evaluation).
7. The teacher enriches and expands the students’ language resources for adapting to diverse social, cultural, and workplace settings.
8. The teacher provides opportunities for students to create authentic responses to cultural, societal, and workplace experiences.
4.2 Interviewing language arts teacher candidates, analyzing teacher lesson plans, and interviewing cooperating teachers provide evidence that teacher candidates demonstrate an adequate ability to use a variety of basic instructional strategies to develop students’ critical thinking, problem solving, and performance skills; and engage students through a variety of language activities (e.g. reading, writing, speaking, listening) and teaching approaches (e.g. small group, whole-class discussion, projects).

**Principle 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.**

**Knowledge**

1. The teacher knows methods of assessing students’ written and oral communication skills and reading performance (e.g., holistic, analytic, and primary trait scoring; portfolios of student work; projects; student self-assessment; peer assessment; journals; rubrics; reading response logs; reading inventories; reflective and formal writing; student/teacher-developed guidelines; exhibitions; oral and dramatic presentations; and the Idaho State Direct Writing Assessment).

</table>

9.2 Observing language arts teacher candidates, analyzing teacher lesson plans, and interviewing cooperating teachers demonstrate an adequate ability to engage in reading and writing for professional and personal growth and an awareness of professional organizations and resources for English language arts teachers, such as the National Council of Teachers or English.

**Recommended Action on English Language Arts Program:**

- X Approved
- Approved Conditionally
- Not Approved
Areas for Improvement:

An increased focus on identifying student language abilities and levels and in addressing student individual needs will go far in correcting Principle 2.2: Knowledge of Human Development and Learning. Additionally, candidates should demonstrate in their work samples and artifacts a more in-depth knowledge of accommodations and differentiation.
State Program Approval Rubric for Teacher Preparation Programs

Candidate Performance Relative to the Idaho Standards

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubrics describe three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Elements identified in the rubrics provide the basis upon which the State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Core Teacher Standards (and Idaho Teacher Standards for specific preparation areas).

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge
1. The teacher understands the relationships and roles of the components of a balanced literacy program, which encompasses: a) oral language development and its role in the emergence of writing and reading; b) phonological awareness, phonics, structural and morphemic analysis; semantic, syntactic, and pragmatic systems of language, and their relation to reading and writing processes; c) language patterns, vocabulary, comprehension and critical thinking; and d) development of fluency (rate and accuracy).
2. The teacher knows the methods of literacy instruction congruent with a balanced literacy program.
3. The teacher understands that reading is a process of constructing meaning.
4. The teacher knows a variety of research-based instructional strategies to enhance student comprehension of narrative, expository, and technical information (e.g. metacognition, self-monitoring, visualization, accessing prior knowledge, analyzing text structure, summarizing, predicting, previewing, clarifying, and paraphrasing).
5. The teacher understands strategies for developing and extending vocabulary in narrative, expository and technical information, encompassing, but not limited to wide-reading, direct vocabulary instruction, and systematic word analysis: etymology, morphology, orthography.
6. The teacher understands the relationships between reading, writing, speaking, listening, and viewing.
7. The teacher understands why it is important for developing literacy skills to read aloud to students.
8. The teacher is familiar with a wide range of children’s literature encompassing all genres.

<table>

<td></td>
<td></td>
</tr>
</tbody>
</table>

1.1 Interviews with cooperating teachers, students and professors, syllabi, Praxis II scores, ICLA test scores, and perusing student work samples provide evidence that teacher candidates demonstrate in-depth knowledge and understanding of English language arts, including the nature, value, and approaches to a variety of literary texts, print and non-print media, composing processes, and language study.

**Performance**
1. The teacher applies the components of pre-reading and reading instruction in authentic classroom settings in accordance with individual student performance.
2. The teacher articulates and demonstrates knowledge of various research-supported approaches to pre-reading and decoding instruction (e.g. synthetic, analytic, explicit, implicit, embedded, and analogy-based).
3. The teacher articulates and demonstrates a variety of research-based instructional strategies to enhance student comprehension of narrative, expository, and technical information (e.g. metacognition, visualization, accessing prior knowledge, analyzing text structure, summarizing, predicting, previewing, clarifying, and paraphrasing).
4. The teacher implements strategies for developing and extending vocabulary in narrative, expository and technical information (e.g., wide-reading, direct vocabulary instruction, systematic word analysis - etymology, morphology, orthography).
5. The teacher utilizes the reciprocal relationships among reading, writing, speaking, listening, and viewing to build student literacy skills.
6. The teacher provides literacy lessons and opportunities congruent with best research practices.
7. The teacher reads aloud to children.

</table>

1.2 Interviewing reading teacher candidates, university supervisors and analyzing candidate lesson plans, provide evidence that teacher candidates demonstrate an adequate ability to use resources and learning activities that support instructional and curriculum goals that reflect effective teaching practice, and accurately reflect language arts content.
Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Knowledge
1. The teacher knows historical and current research as it relates to reading.
2. The teacher understands the significance of home language and culture on the development of literacy in the classroom.

<table>
<thead>

2.2 Interviews with cooperating teachers and student candidates, syllabi, and perusing student work samples provide evidence that teacher candidates demonstrate an adequate ability to implement cognitively compatible strategies in developing reading instruction, utilize the home language and culture of students to foster the development of literacy in the classroom.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are modified for students with diverse needs.
Knowledge
1. The teacher understands research-based best practices in prevention identification, intervention, and remediation of reading difficulties.
2. The teacher understands methods for accelerating and scaffolding the students’ development of reading strategies.
3. The teacher understands the impact of learning disabilities, giftedness, and language histories on literacy development.

<table>

</tbody>
</table>

3.2 Interviews with cooperating teachers, faculty and candidates, review of course syllabi and perusing student work samples provides evidence that teacher candidates demonstrate an adequate ability to use resources and learning activities that support curriculum goals to structure reading instruction and differentiated reading in response to student performance.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Knowledge
1. The teacher understands that specific literacy difficulties are not a basis for excluding students from classroom interactions that develop higher-level skills.
4.1 Interviews with cooperating teachers, faculty and candidates, review of course syllabi and perusing student work samples provides evidence that teacher candidates demonstrate an adequate understanding that specific literacy difficulties are not a basis for excluding students from classroom interactions that develop higher-level skills.

**Performance**
1. The teacher incorporates literacy instruction into all academic content areas in ways that engage each student.

4.2. Interviews with cooperating teachers, faculty and candidates, review of course syllabi and perusing student work samples provides evidence that teacher candidates demonstrate the ability to integrate literacy instruction and development into all academic content areas in an engaging manner.

**Standard 5: Classroom Motivation and Management Skills** - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

**Knowledge**
1. The teacher understands the power of literacy as it relates to academic success and life-long learning.
2. The teacher understands the importance of extensive reading in a variety of genres for developing literacy skills.
5.1 Interviews with cooperating teachers, faculty and candidates, review of course syllabi and perusing student work samples provides evidence that teacher candidates demonstrate an adequate understanding of literacy as it relates to academic success, and the importance of extensive reading in a variety of genres.

**Performance**
1. The teacher advocates extensive reading for information and for pleasure.
2. The teacher demonstrates the power of literacy as it relates to academic success and life-long learning.

8.1 Interviews with cooperating teachers, faculty and candidates, review of course syllabi and perusing student work samples shows sufficient evidence was not provided to verify an adequate understanding of the use of assessment for different literacy purposes, as well as, how to choose, administer and interpret multiple assessments pertaining to reading.

**Performance**

1. The teacher gathers and interprets data from multiple assessments to plan instruction, taking into consideration the student characteristics and instructional history.
2. The teacher collects and utilizes data from multiple sources to inform instruction.
3. The teacher uses assessment to increase students’ awareness of their literacy strengths and needs and to encourage them to set personal goals for learning.
4. The teacher uses literacy assessment data to evaluate instructional effectiveness and to guide professional development.
5. The teacher advocates that the needs of every student are accurately represented in assessment data.

State Program Approval Rubric for Teacher Preparation Programs

Candidate Performance Relative to the Idaho Standards

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers relative to the standards. The rubric is designed to be used with each content-specific preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubric describes three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Performance indicators provide the lens through which the State Program Approval Team evaluates the institution’s provided evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Standards for Initial Preparation of Professional School Personnel.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge
1. The teacher understands the following content areas of health: fitness and personal health; health promotion and disease prevention; prevention and care of injuries; mental and emotional health; alcohol, tobacco, and other drugs; nutrition; relationships; growth, development, and family health; consumer health; health literacy; and community and environmental health.
2. The teacher understands the following health risk behaviors: tobacco, alcohol, and other drug use; sexual behaviors that result in human immunodeficiency virus (HIV) infection, other sexually transmitted diseases (STDs), and unplanned pregnancies; poor dietary behaviors; lack of or excessive physical activity; and behaviors that result in intentional injury.
3. The teacher understands the relationship between health education content areas and youth risk behaviors.
4. The teacher understands the concepts and components of coordinated school health, an approach where partnerships are developed within the school and community (components of coordinated school health: school environment, health education, school meals and nutrition, physical education, health services, counseling and mental health services, staff wellness, and parent/community partnerships).
5. The teacher understands that health is multidimensional (e.g., physical, intellectual, emotional, social, cultural, spiritual, and environmental).
1.1 Analyzing Praxis data and syllabi, perusing candidate portfolios and projects, along with interviews with faculty and teacher candidates provides evidence that teacher candidates demonstrate adequate understanding of health education; the importance of engaging students in identification of health risk behaviors; and the ability to describe for students the ways new knowledge in a content area is applied.

**Performance**

1. The teacher instructs students about increasing health-enhancing behaviors and about reducing health-risk behaviors.

1.2 Analysis of candidate unit plans, observation of candidate field work, and interviews with faculty and teacher candidates provides evidence that teacher candidates adequately instruct the students about health-enhancing behaviors, recognize the importance of modeling health-enhancing behaviors, and create learning environments that respect and are sensitive to controversial health issues.

**Standard 5: Classroom Motivation and Management Skills** - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

**Knowledge**

1. The teacher understands developmentally appropriate practices that motivate students to participate in health-enhancing behaviors.
2. The teacher knows strategies and techniques that develop positive health behavior changes in students.
5.1 Analysis of syllabi, perusing of teacher candidate work and interviews with faculty and candidates provides evidence that teacher candidates demonstrate adequate understanding of the principles of and strategies for motivating students to participate in physical activity and other health-enhancing behaviors, and classroom management for safe physical activity and health-enhancing behaviors.

**Performance**
1. The teacher motivates students to participate in positive health-enhancing behaviors inside and outside the school setting.
2. The teacher helps students learn and use personal and social behaviors that promote positive relationships (e.g., avoiding abusive relationships, using refusal skills, setting life goals, and making healthy decisions).

<table>
<thead>
<tr>
<th>Element</th>

</table>

5.2 Analysis of candidates unit and lesson plans, observation of candidate field work, along with interviews with faculty and teacher candidates provides adequate evidence that teacher candidates demonstrate an adequate ability to introduce, manage, and promote, health-enhancing behaviors related to personal and social choices.

**Standard 6: Communication Skills -** The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.

**Knowledge**
1. The teacher understands student jargon and slang associated with high-risk behaviors.

<table>
<thead>
<tr>

6.1 Analysis of syllabi and Praxis scores along with examining candidate work and interviews with faculty and teacher candidates provides evidence that teacher candidates demonstrate an adequate understanding of how to model and use communication skills appropriate to the target audience and the terminology and slang associated with the at-risk behaviors.
Performance
1. The teacher identifies and defines student jargon and slang associated with high-risk behaviors and translates these terms into terms appropriate to the educational setting.
2. The teacher facilitates responsible decision making, goal setting, and alternatives to high-risk behaviors that enhance health.
3. The teacher creates a respectful learning environment that is sensitive to controversial health issues.
4. The teacher applies techniques that aid in addressing sensitive issues (e.g., ground rules, question boxes, open-ended questions, and establishment of appropriate confidentiality).
5. The teacher demonstrates the ability to use interpersonal communication skills to enhance health.

<table>

</table>

6.2 Observation of candidate presentations, analysis of lesson plans and interviews with faculty and candidates provides evidence that teacher candidates demonstrate an adequate ability to create safe and sensitive learning experiences that promote student input, communication, and listening skills which facilitate responsible decision making and alternatives to high-risk behavior.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.

Knowledge
1. The teacher understands the differing community health values and practices.
2. The teacher understands how to access valid, appropriate health information and health-promoting products and services.
3. The teacher understands the influence of culture, media, technology, and other factors on health.

State Program Approval Rubric for Teacher Preparation Programs

Candidate Performance Relative to the Idaho Standards

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers relative to the standards. The rubric is designed to be used with each content-specific preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubric describes three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Performance indicators provide the lens through which the State Program Approval Team evaluates the institution’s provided evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Standards for Initial Preparation of Professional School Personnel.

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubrics are used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubrics describe three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Elements identified in the rubrics provide the basis upon which a State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho Standards. The institution is expected to provide information about candidate performance related to the Idaho Core Teacher Standards (and Idaho Teacher Standards for specific preparation areas).

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of mathematics and creates learning experiences that make these aspects of mathematics meaningful for students.
Knowledge
1. The teacher understands the historical and cultural significance of mathematics and the changing ways individuals learn, teach, and do mathematics.
2. The teacher understands concepts of algebra.
3. The teacher understands the major concepts of geometry (Euclidean and non-Euclidean) and trigonometry.
4. The teacher understands basic concepts of number theory.
5. The teacher understands concepts of measurement.
6. The teacher understands the concepts of limit, continuity, differentiation, integration, and the techniques and application of calculus.
7. The teacher understands the techniques and applications of statistics and data analysis (e.g., random variable, distribution functions, and probability).

1.1 Interviews with candidates, cooperating teachers, and college faculty, Praxis II scores, course syllabi, course catalog, and samples of candidate work including portfolios and lesson plans provide evidence that teacher candidates demonstrate an in-depth understanding of mathematics, by meeting all of the knowledge indicators as delineated in the Idaho Standards for Mathematics Teachers.

Performance
1. The teacher incorporates the historical perspective and current development of mathematics in teaching students.
2. The teacher applies concepts of number, number theory, and number systems.
3. The teacher uses numerical computation and estimation techniques and applies them to algebraic expressions.
4. The teacher applies the process of measurement to two- and three-dimensional objects using customary and metric units.
5. The teacher uses descriptive and inferential statistics to analyze data, make predictions, and make decisions.
6. The teacher uses concepts and applications of graph theory, recurrence relations, matrices, and combinatorics.

1.2 Analyzing lesson plans, assessments and evaluations provide evidence that teacher candidates demonstrate an adequate ability to create meaningful learning experiences as delineated in the Idaho Standards for Mathematics Teachers.

**Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.**

**Knowledge**

1. The teacher knows how to formulate and pose problems, how to access a large repertoire of problem-solving strategies, and how to use problem-solving approaches to investigate and understand mathematics.
2. The teacher understands the role of axiomatic systems and proofs in different branches of mathematics as it relates to reasoning and problem solving.
3. The teacher knows how to frame mathematical questions and conjectures.
4. The teacher knows how to make mathematical language meaningful to students.
5. The teacher understands inquiry-based learning in mathematics.
6. The teacher knows how to communicate concepts through the use of mathematical representations (e.g., symbolic, numeric, graphic, verbal, and concrete models).
7. The teacher understands the appropriate use of technology in teaching and learning of mathematics (e.g., graphing calculators, dynamic geometry software, and statistical software).

4.1 Cooperating teachers, college faculty and candidate interviews, analyzing lesson plans, student work, and syllabi provide evidence that teacher candidates demonstrate adequate understanding of a variety of mathematical instructional strategies as delineated by the knowledge indicators in the Idaho Standards of Mathematics Teachers.

**Performance**

1. The teacher formulates and poses problems, uses different strategies to solve problems to verify and interpret results, and uses problem-solving approaches to investigate and understand mathematics.
2. The teacher uses both formal proofs and intuitive, informal exploration.
3. The teacher develops students’ use of standard mathematical terms, notations, and symbols.
4. The teacher communicates mathematics through the use of a variety of representations.
5. The teacher engages students in mathematical discourse by encouraging them to make conjectures, justify hypotheses, and use appropriate mathematical representations.
6. The teacher uses technology appropriately to develop students’ understanding (e.g., graphing calculators, dynamic geometry software, and statistical software).
4.2 Performance Application of Multiple Learning Strategies

8.2 Performance Interviews with cooperating teachers and candidates, analyzing lesson plans, student work samples and rubrics provide evidence that teacher candidates demonstrate an adequate ability to assess students’ mathematical reasoning.

Standard 11: Connections among Mathematical Ideas – The teacher understands significant connections among mathematical ideas and their applications of those ideas within mathematics, as well as to other disciplines.

Knowledge
1. The teacher has a broad base of knowledge and understanding of mathematics beyond the level at which he or she teaches to include algebra, geometry and measurement, statistics and data analysis, and calculus.
2. The teacher understands the interconnectedness between strands of mathematics.
3. The teacher understands mathematical modeling as a way to understand the world (e.g., in natural science, social science, business, and engineering).
4. The teacher understands the relationship between geometric concepts and real-life constructs.

State Program Approval Rubric for Teacher Preparation Programs

Candidate Performance Relative to the Idaho Standards

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers relative to the standards. The rubric is designed to be used with each content-specific preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubric describes three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Performance indicators provide the lens through which the State Program Approval Team evaluates the institution’s provided evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Standards for Initial Preparation of Professional School Personnel.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge
1. The teacher understands the components of physical fitness and their relationship to a healthy lifestyle.
2. The teacher understands the sequencing of motor skills (K-12).
3. The teacher understands human anatomy and physiology (structure and function), exercise physiology, and bio-mechanical principles.
4. The teacher knows the appropriate rules, etiquette, instructional cues, and skills for physical education activities (e.g., aquatics, sports, games, lifetime activities, dance, rhythmical activities, and outdoor/adventure activities).
5. The teacher understands that daily physical provides opportunities for enjoyment, challenge, self-expression, and social interaction.
6. The teacher understands Adaptive Physical Education and how to work with students with special and diverse needs (e.g., various physical abilities and limitations, culture, and gender).
7. The teacher understands technology operations and concepts pertinent to physical activity (e.g. heart rate monitors, pedometers, global positioning system).

1.1 Examination of Syllabi, and Praxis scores, analysis of teacher candidate lesson plans and cooperating teacher, faculty and candidate interviews provides evidence that teacher candidates demonstrate an adequate understanding of the components of physical fitness and their relationship to a healthy lifestyle; human anatomy and physiology (structure and function), exercise physiology appropriate rules, etiquette, instructional cues, and skills for physical education activities; Adaptive Physical Education and how to work with special and diverse student needs; and the sequencing of motor skills (K-12); opportunities for enjoyment, challenge, self-expression, and social interaction; and technology operations and concepts pertinent to physical activity.

**Performance**
1. The teacher instructs students about disciplinary concepts and principles related to physical activities, fitness, and movement expression.
2. The teacher instructs students in the rules, skills, and strategies of a variety of physical activities (e.g., aquatics, sports, games, lifelong activities, dance, rhythmical activities, and outdoor/adventure activities).
3. The teacher models a variety of physical education activities (e.g., aquatics, sports, games, lifelong activities, dance, rhythmical activities, and outdoor/adventure activities).
4. The teacher models the use of technology operations and concepts pertinent to physical activity (e.g. heart rate monitors, pedometers, global positioning system, and computer software).

1.2 Analysis of Praxis scores and syllabi, along with examination of candidate lesson plans and interviews with cooperating teachers, faculty, and teacher candidates provides evidence that teacher candidates demonstrate an adequate ability to create learning experiences that make physical education meaningful to students.

**Standard 2: Knowledge of Human Development and Learning** - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.
Performance
1. The teacher assesses the individual physical activity, movement, and fitness levels of students and makes developmentally appropriate adaptations to instruction.
2. The teacher promotes physical activities that contribute to good health.

<table>

3.2 Analysis of candidate lesson and unit plans, observation of candidate field work, along with interviews with faculty, cooperating teachers and candidates provides evidence that teacher candidates demonstrate an adequate ability to create opportunities that incorporate individual variations to movement and to help students gain physical competence and positive self-esteem.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Knowledge
1. The teacher knows how to help students cultivate responsible personal and social behaviors that promote positive relationships and a productive environment in physical education settings.
2. The teacher knows strategies to help students become self-motivated in physical education.
3. The teacher understands that individual performance is affected by anxiety.
4. The teacher understands principles of effective management in indoor and outdoor movement settings.

5.2 Observation of Teacher Candidates, perusing student work, and interviews of Completers, Faculty Cooperating Teachers and Teacher Candidates provides evidence that teacher candidates demonstrate an adequate ability to effectively manage physical activity in indoor and outdoor settings and promote positive peer relationships and appropriate motivational strategies for participation in physical activity.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.
Knowledge
1. The teacher knows a variety of management (e.g., space, people, and equipment) and instructional strategies to maximize physical education activity time and student success.
2. The teacher knows how to expand the curriculum through the use of community resources (e.g., golf courses, climbing walls, YMCA, and service organizations).

7.2 Observation of teacher candidate field work, analysis of teacher candidate lesson and unit plans, and interviews with faculty, cooperating teachers, and teacher candidates provides evidence that teacher candidates demonstrate an adequate ability to plan and prepare instruction to maximize physical education activity time and student success and to utilize community resources to expand the curriculum.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.
Knowledge
1. The teacher knows how to select and use a variety of developmentally appropriate assessment techniques (e.g., authentic, alternative, and traditional) congruent with physical education activity, movement, and fitness goals.

<table>

8.2 Analysis of Teacher Candidate unit and lesson plans, Candidate field work, and interviews with Cooperating Teachers, Faculty, and Teacher Candidates provides evidence that teacher candidates demonstrate an adequate ability to use a variety of developmentally appropriate assessment techniques (e.g., authentic, alternative, and traditional) congruent with physical education activity, movement, and fitness goals to evaluate student performance and determine program effectiveness.

Standard 9: Professional Commitment and Responsibility- The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Knowledge
1. The teacher knows how his/her personal physical fitness and activity levels may impact teaching and student motivation.
9.1 Analysis of syllabi, observation of teacher candidate presentation, perusing teacher candidate lesson and unit plans, and interviews with candidates, faculty, and cooperating teachers provides evidence that teacher candidates demonstrate an adequate understanding of how his/her personal physical fitness and activity levels may impact teaching and student motivation.

**Standard 11: Safety – The teacher provides for a safe learning environment.**

**Knowledge**
1. The teacher understands the inherent dangers involved in physical education activities.
2. The teacher understands the need to consider safety when planning and providing instruction.
3. The teacher understands the factors that influence safety in physical education activity settings (e.g., skill, fitness, developmental level of students, equipment, attire, facilities, travel, and weather).
4. The teacher understands the level of supervision required for the health and safety of all students in all locations (e.g., teaching areas, locker rooms, and travel to off-campus activities).
5. The teacher understands school policies regarding student injury and medical treatment.
6. The teacher understands the steps for providing appropriate treatment for injuries occurring in physical education activities.
7. The teacher understands the appropriate steps when responding to safety situations.
8. The teacher knows cardiopulmonary resuscitation (CPR) and first aid.

11.1 Analysis of course catalog, examination of Teacher Candidate test results and lesson plans, and interviews with Cooperating Teachers, Faculty, recent Completers and Teacher Candidates provides evidence that teacher candidates demonstrate an adequate understanding of CPR, first aid, and factors that influence safety in physical education activity settings and the supervision and response required.

**Performance**
1. The teacher identifies, monitors, and documents safety issues when planning and implementing instruction to ensure a safe learning environment.
2. The teacher informs students of the risks associated with physical education activities.
3. The teacher instructs students in appropriate safety procedures for physical education activities and corrects inappropriate actions.
4. The teacher identifies and corrects potential hazards in physical education facilities, grounds, and equipment.
5. The teacher identifies and follows the steps for providing appropriate treatment for injuries occurring in physical education activities.
6. The teacher identifies safety situations and responds appropriately.
7. The teacher maintains CPR and first aid certification.

State Program Approval Rubric for Teacher Preparation Programs

Candidate Performance Relative to the Idaho Standards

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards/principles set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubrics describe three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments, rather than as an element-by-element checklist. Elements identified in the rubrics provide the basis upon which a State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho Standards. The institution is expected to provide information about candidate performance related to the Idaho Core Teacher Standards (and Idaho Teacher Standards for specific preparation areas).

In addition to the standards listed here, science teachers must meet Idaho Core Teacher Standards and at least one of the following: (1) Idaho Standards for Biology Teachers, (2) Idaho Standards for Chemistry Teachers, (3) Idaho Standards for Earth and Space Science Teachers, (4) Idaho Standards for Natural Science Teachers, (5) Idaho Standards for Physical Science Teachers, or (6) Idaho Standards for Physics Teachers. Rubrics for these standards are listed after the rubrics for the Foundation Standards for Science Teachers.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge
1. The teacher knows the history and nature of science and scientific theories.
2. The teacher understands that all sciences are related.
3. The teacher understands the concepts of form and function.
4. The teacher understands the interconnectedness among the science disciplines.
5. The teacher understands the process of scientific inquiry.
6. The teacher knows how to investigate scientific phenomena, interpret findings, and communicate information to students.
7. The teacher knows how to effectively engage students in constructing deeper understanding of scientific phenomena through lessons, demonstrations, and laboratory and field activities.
1.1 Knowledge
Subject Matter and Structure of Science

1.1 Syllabi, interviews with faculty, candidates, and cooperating teacher, and student work samples provide evidence that teacher candidates demonstrate an adequate understanding of their science content and the nature of scientific knowledge and how to articulate the importance of engaging in the process of science. Course syllabi reflect adequate content knowledge through traditional science coursework. Upper division and field based classes (Field Ecology, Ornithology, Mammology and Geology) have students participating in the scientific process in the field.

Performance
1. The teacher provides students with opportunities to view science in its cultural and historical context by using examples from history and including scientists of both genders and from varied social and cultural groups.
2. The teacher continually adjusts curriculum and activities to align them with new scientific data.
3. The teacher provides students with a holistic, interdisciplinary understanding of concepts in life, earth systems/space, physical, and environmental sciences.
4. The teacher helps students build scientific knowledge and develop scientific habits of mind.
5. The teacher demonstrates competence in investigating scientific phenomena, interpreting findings, and communicating information to students.
6. The teacher models and encourages the skills of scientific inquiry, including creativity, curiosity, openness to new ideas, and skepticism that characterize science.
7. The teacher creates lessons, demonstrations, and laboratory and field activities that effectively communicate and reinforce science concepts and principles.
8. The teacher engages in scientific inquiry in science coursework.

1.2 Performance
Making Science Meaningful

1.2 Syllabi, interviews with faculty, candidates, and cooperating teacher, and student work samples provide little or no evidence that teacher candidates demonstrate an adequate ability to create learning experiences that make the concepts of science, tools of inquiry, structure of scientific knowledge, and the processes of science meaningful to students through the use of materials and resources that support instructional goals and learning activities, including laboratory and field activities, that are consistent with curriculum goals and reflect principles of effective instruction.
Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Knowledge
1. The teacher knows how students construct scientific knowledge and develop scientific habits of mind.
2. The teacher knows commonly held conceptions about science and how they affect student learning.

<table>

</tbody>
</table>

2.2 Syllabi, interviews with faculty, candidates, and cooperating teacher, and student work samples provide little or no evidence that teacher candidates demonstrate an adequate ability to carry out activities that facilitate students' conceptual development in science.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.

Knowledge
1. The teacher understands how to apply mathematics and technology to analyze, interpret, and display scientific data.
2. The teacher understands how to implement scientific inquiry.
3. The teacher understands how to engage students in making deeper sense of the natural world through careful orchestration of demonstrations of phenomena for larger groups when appropriate.

<table>
<thead>

4.2 Syllabi, interviews with faculty, candidates, and cooperating teacher, and student work samples provide evidence that teacher candidates demonstrate an adequate ability to appropriately use models, simulations, laboratory and field activities, and demonstrations for larger groups, where appropriate, to facilitate students' critical thinking, problem solving, and performance skills.

**Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.**

**Knowledge**
1. The teacher knows how to use a variety of interfaced electronic hardware and software for communicating data.
2. The teacher knows how to use graphics, statistical, modeling, and simulation software, as well as spreadsheets to develop and communicate science concepts.
3. The teacher understands technical writing as a way to communicate science concepts and processes.

<table>
<thead>
<tr>

6.1 Syllabi, interviews with faculty, candidates, and cooperating teacher, and student work samples provide evidence that teacher candidates demonstrate an adequate knowledge of how to use standard forms of scientific communications in their fields (i.e., graphs, technical writing, results of mathematical analysis, scientific posters, and multimedia presentations). We felt the following projects/labs were exemplars of this standard: Organic Chemistry II Research project, Bio 181 Allelopathy and the Geology projects.

**Performance**
1. The teacher models the appropriate scientific interpretation and communication of scientific evidence through technical writing, scientific posters, multimedia presentations, and electronic communications media.
2. The teacher engages students in sharing data during laboratory investigation to develop and evaluate conclusions.
3. The teacher engages students in the use of computers in laboratory/field activities to gather, organize, analyze, and graphically present scientific data.
4. The teacher engages students in the use of computer modeling and simulation software to communicate scientific concepts.

11.1 Interviews with cooperating teachers and principals, faculty, candidates and perusing artifacts and student work samples provide evidence that teacher candidates demonstrate an in-depth knowledge of material selection, safety, waste disposal, care and maintenance of materials and equipment, legal responsibilities associated with safety, safety requirements for laboratory, field activities, and demonstrations, and the procurement and use of Material Safety Data Sheets (MSDS).

**Performance**

1. The teacher develops instruction that uses appropriate materials and ensures a safe environment.
2. The teacher creates and ensures a safe learning environment by including appropriate documentation of activities.
3. The teacher makes informed decisions about the use of specific chemicals or performance of a lab activity regarding facilities and student age and ability.
4. The teacher models safety at all times.
5. The teacher makes use of Material Safety Data Sheet (MSDS) and storage information for laboratory materials.
6. The teacher creates lesson plans and teaching activities consistent with appropriate safety considerations.
7. The teacher evaluates lab and field activities for safety.
8. The teacher evaluates a facility for compliance to safety regulations.
9. The teacher uses safety procedures and documents safety instruction.
10. The teacher demonstrates the ability to acquire, use, and maintain materials and lab equipment.
11. The teacher implements laboratory, field, and demonstration safety techniques.

</tbody>
</table>

12.2 Interviews with cooperating teachers and principals, faculty, candidates and perusing artifacts and student work samples provide evidence that teacher candidates engage students in experiencing the phenomena they are studying by means of laboratory and field exercises.
Areas for Improvement:

Artifacts, candidate interviews and faculty interviews indicate LCSC is providing secondary science candidates with a solid traditional science education. Additionally, the structure of student portfolios and the investigation and field research experiences embedded in some of the science coursework indicate that LCSC is aware of and making an effort to transition to the recently adopted Standards for Science Teachers. However, we can find no evidence that candidates are making this actionable in their practice. This is a general trend throughout the artifacts and interviews. It may be a function of the small number of candidates in this program.

Even though evidence, such as syllabi and interviews, reveal that candidates read about the importance of understanding misconceptions (How Students Learn), we do not find evidence that candidates are demonstrating their knowledge of commonly held misconceptions either in writing lesson plans, nor is it embedded in their teaching or reflections.

Evidence of “engaging students in scientific inquiry” is largely scripted labs.

While candidates read both about recent development in their field and about how people learn science, there is no evidence that students incorporate current research into their lesson plans, teaching, or reflection about teaching.
Idaho Standards for Biology

**Principle 1: Knowledge of Biology - The teacher understands the central concepts, tools of inquiry, and structures of Biology and creates learning experiences that make these aspects of Biology meaningful for students.**

**Knowledge**
1. The teacher understands that there are unifying themes in biology, including levels from molecular to whole organism.
2. The teacher knows the currently accepted taxonomy systems used to classify living things.
3. The teacher understands scientifically accepted theories of how living systems evolve through time.
4. The teacher understands that genetic material and characteristics are passed between generations.
5. The teacher knows biochemical processes that are involved in life functions.
6. The teacher knows that living systems interact with their environment and are interdependent with other systems.
7. The teacher understands that systems in living organisms maintain conditions necessary for life to continue.
8. The teacher understands the cell as the basis for all living organisms and how cells carry out life functions.
9. The teacher understands how matter and energy flow through living and non-living systems.
10. The teacher knows how the behavior of living organisms changes in relation to environmental stimuli.

1.1 Interviews with cooperating teachers and principals, faculty, candidates and perusing artifacts and student work samples provide evidence that teacher candidates demonstrate adequate of understanding of biology content and the nature of biological knowledge

**Performance**
1. The teacher prepares lessons that help students understand the flow of matter and energy through living systems.
2. The teacher assists students in gaining an understanding of the ways living things are interdependent.
3. The teacher assists students in understanding how living things impact/change their environment and how the physical environment impacts/changes living things.
4. The teacher helps students understand how the principles of genetics apply to the flow of characteristics from one generation to the next.
5. The teacher helps students understand how genetic “information” is translated into living tissue and chemical compounds necessary for life.

6. The teacher helps students understand accepted scientific theories of how life forms have evolved through time and the principles on which these theories are based.

7. The teacher helps students understand the ways living organisms are adapted to their environments.

8. The teacher helps students understand the means by which organisms maintain an internal environment that will sustain life.

9. The teacher helps students classify living organisms into appropriate groups by the current scientifically accepted taxonomic techniques.

10. The teacher helps students understand a range of plants and animals from one-celled organisms to more complex multi-celled creatures composed of systems with specialized tissues and organs.

11. The teacher helps students develop the ability to evaluate ways humans have changed living things and the environment of living things to accomplish human purposes (e.g., agriculture, genetic engineering, dams on river systems, burning fossil fuels, seeding clouds, and making snow).

12. The teacher helps students understand that the cell, as the basis for all living organisms, carries out life functions.

Idaho Standards for Chemistry

Principle 1: Knowledge of Chemistry - The teacher understands the central concepts, tools of inquiry, and structures of Chemistry and creates learning experiences that make these aspects of Chemistry meaningful for students.

Knowledge
1. The teacher understands the fundamental components and procedures of chemistry and how they interact to create a holistic understanding of matter and energy.
2. The teacher knows the fundamental principles of chemistry, including kinetic molecular theory, periodicity and atomic structure, solutions, stoichiometry, and chemical reactions.
3. The teacher knows organic chemistry, inorganic chemistry, analytic chemistry, physical chemistry, and biochemistry.
4. The teacher has a broad knowledge of mathematical principles, including calculus, and is familiar with the connections that exist between mathematics and chemistry.
5. The teacher knows alternative explanations and models of chemistry concepts.

Idaho Standards for Earth and Space Science

**Principle 1: Knowledge of Earth and Space Science** - The teacher understands the central concepts, tools of inquiry, and structures of Earth and Space Science and creates learning experiences that make these aspects of earth and space science meaningful for students.

**Knowledge**

1. The teacher knows how local events can potentially impact local, regional, and global conditions.
2. The teacher understands the rock cycle and the classification systems for rocks and minerals.
3. The teacher understands the interaction among mountain building, earthquakes, oceanic trenches, volcanoes, and continental drift as explained by the theory of plate tectonics.
4. The teacher understands the relationship between the sun, moon and earth in explaining phenomena.
5. The teacher knows earth history as interpreted using scientific evidence.
6. The teacher understands the composition of the earth and its atmosphere.
7. The teacher understands the processes of erosion, weathering, and soil development (e.g., mass wasting, spheroidal weathering, alluvial fans, physical and chemical weathering, glaciers, stream valleys, cirques, and stream terraces).
8. The teacher knows the multiple scientific theories of the origin of galaxies, planets, and stars.
9. The teacher understands the concept of the interaction of forces and other physical science concepts about earth and astronomical change.
10. The teacher understands the flow of energy and matter through earth and astronomical systems.
11. The teacher knows the concepts of weather and climate.
12. The teacher understands ocean environments and how the physical forces on the surface of the earth interact with them.

**Performance**

1. The teacher helps students understand the flow of energy and matter through earth and space systems.
2. The teacher helps students understand seasonal changes in terms of the relative position and movement of the earth and sun.
3. The teacher helps students understand the causes of weather and climate in relation to physical laws of nature.
4. The teacher helps students understand the types of rocks and how they change from one type of rock to another as they move through the rock cycle.
5. The teacher helps students understand the theory of plate tectonics, including continental drift, volcanism, mountain building, ocean trenches, and earthquakes.
6. The teacher helps students understand how scientists use indirect methods, including knowledge of physical principles, to learn about astronomical objects.
7. The teacher helps students understand how accepted scientific theories about prehistoric life are developed.
8. The teacher assists students as they critically evaluate the quality of the data on which scientific theories are based.
9. The teacher helps students understand the movement of air, water, and solid matter in response to the flow of energy through systems.

State Program Approval Rubric for Teacher Preparation Programs

Candidate Performance Relative to the Idaho Standards

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers relative to the standards. The rubric is designed to be used with each content-specific preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubric describes three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Performance indicators provide the lens through which the State Program Approval Team evaluates the institution’s provided evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Standards for Initial Preparation of Professional School Personnel.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge
1. The teacher has a broad knowledge base of the social studies and related disciplines (e.g., history, economics, geography, political science, and humanities).
2. The teacher understands the ways various governments and societies have changed over time.
3. The teacher understands ways in which independent and interdependent systems of trade and production develop.
4. The teacher understands the impact that cultures, religions, technologies, vision/structure for social justice, and other factors have on worldwide historical processes.
5. The teacher understands the responsibilities and rights of citizens in the United States political system, and how citizens exercise those rights and participate in the system.
6. The teacher understands that geography enables people to comprehend the relationships between people, places, and environments over time.
7. The teacher understands the principles and processes of a democratic society.
8. The teacher knows the appropriate use of primary and secondary sources (i.e., documents, maps, graphs, charts, tables, and statistical data) in interpreting social studies concepts.
1.1 Interviews with cooperating teachers, candidates, Praxis II scores, checking student files, and perusing student work samples provide evidence that teacher candidates demonstrate in-depth knowledge and understanding of the social studies disciplines (i.e., history, economics, geography, and political science) that they plan to teach and the ways new knowledge in social studies disciplines is discovered; the ways various governments and societies have changed over time; and the impact that cultures, religions, technologies, vision/structure of social justice, and other factors have on historical processes.

**Performance**

1. The teacher provides opportunities to trace and analyze chronological periods and to examine the relationships of significant historical concepts.
2. The teacher encourages and guides investigation of various governments and cultures in terms of their diversity, commonalities, and interrelationships.
3. The teacher integrates knowledge from the social sciences and the humanities in order to prepare students to live in a world with limited resources, ethnic diversity, cultural pluralism, and increasing interdependence.
4. The teacher incorporates current events, global perspectives, and scholarly research into the curriculum.
5. The teacher uses primary and secondary sources (i.e., documents, maps, graphs, charts, tables, and data interpretation) when presenting social studies concepts.

1.2 Interviewing teacher candidates, analyzing lesson plans, and interviewing cooperating teachers provide evidence that teacher candidates demonstrate an adequate ability to create learning experiences that provide opportunities to trace and analyze chronological periods and to examine the relationships of significant historical concepts; encourage and guide investigation of various governments and cultures in terms of their diversity, commonalities, and interrelationships; and incorporate current events, global perspectives and scholarly research into the curriculum; and integrate social sciences and humanities knowledge in order to prepare students to live in a world with limited resources, ethnic diversity, cultural pluralism.

**Standard 2: Knowledge of Human Development and Learning** - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.
Knowledge
1. The teacher understands how leadership, group, and cultural influences contribute to intellectual, social, and personal development.
2. The teacher understands the impact of civic engagement on student learning.

<table>
<thead>
<tr>
<th>Element</th>
<th>Unacceptable</th>
<th>Acceptable</th>
<th>Target</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.1 Knowledge Understanding Human Development and Learning</td>
<td></td>
<td>X</td>
<td></td>
</tr>
</tbody>
</table>

2.1 Interviews with cooperating teachers, Praxis II scores, checking student files, and perusing student work samples provide evidence that teacher candidates demonstrate an adequate understanding of how leadership, groups, and cultures influence intellectual, social, and personal development.

Performance
1. The teacher provides opportunities for students to engage in civic life, politics, and government.

<table>
<thead>
<tr>
<th>Element</th>
<th>Unacceptable</th>
<th>Acceptable</th>
<th>Target</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.2 Performance Provide Opportunities for Development</td>
<td>X</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

2.2 Interviewing teacher candidates, analyzing teacher lesson plans, and interviewing cooperating teachers provide little or no evidence that teacher candidates demonstrate an adequate ability to provide students with opportunities for engagement in civic life, politics, and government relevant to the social sciences. Candidates demonstrate a high level of content knowledge; however, artifacts and interviews provided minimal evidence of activities that showed student interaction with the content of the lesson in a meaningful way.

Areas for Program Improvement:
An increased focus in methods classes on candidate driven activities that promote student interaction will go far in correcting Standard 2.2: Knowledge of Human Development and Learning. Additionally, candidates should demonstrate in their work samples and artifacts a more in-depth knowledge of accommodations and differentiation.
History

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge
1. The teacher understands themes and concepts in history (e.g., exploration, expansion, migration, immigration).
2. The teacher understands the political, social, cultural, and economic responses to industrialization and technological innovation.
3. The teacher understands how international relations impacted the development of the United States.
4. The teacher understands how significant conflicts defined and continue to define the United States.
5. The teacher understands the political, social, cultural, and economic development of the United States.
6. The teacher understands the political, social, cultural, and economic development of the peoples of the world, both Western and non-Western.
7. The teacher understands the impact of gender, race, ethnicity, religion, and national origin on history.

<table>

</tbody>
</table>

1.1 Interviews with cooperating teachers, Praxis II scores, checking student files, and perusing student work samples provide evidence that teacher candidates demonstrate an adequate understanding of historical themes and concepts; the political, social, cultural, and economic development of the United States and the world; how the development of the United States is related to international relations and significant conflicts; and the impact of gender, race, ethnicity, religion, and national origin on history.

Performance
1. The teacher provides opportunities for students to make connections between political, social, cultural, and economic themes and concepts.
2. The teacher enables students to incorporate the issues of gender, race, ethnicity, religion, and national origin into their examination of history.
3. The teacher facilitates student inquiry on how international relationships impact the United States.
4. The teacher relates the role of conflicts to continuity and change across time.

Bilingual Education and ENL (English as a New Language)

Candidate Performance Relative to the Idaho Standards

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubric is used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubrics describe three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Elements identified in the rubrics provide the basis upon which the State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho standards. The institution is expected to provide information about candidate performance related to the Idaho Core Teacher Standards (and Idaho Teacher Standards for specific preparation areas).

Knowledge

1. The teacher understands the evolution, research, and current practices of bilingual and ENL education.
2. The teacher knows the key linguistic structures, articulatory system, and vocabulary of the English language.
3. The teacher understands and knows how to identify differences in bilingual programs and ENL approaches (Bilingual: dual language, maintenance, transitional, early and late exit, etc.; ENL: sheltered English, academic support, tutorial, extended day, etc.).
4. The teacher understands the variety of purposes that languages serve, distinguishing between functions and contextual usage of social and academic language.
5. (Bilingual only) The teacher possesses the language competency and fluency in listening, speaking, reading and writing, and vocabulary in English and a second language necessary to facilitate learning in the content area(s) (Federal Requirement).
6. (ENL only) The teacher possesses the language competency and fluency in listening, speaking, reading, and writing, and vocabulary in English and/or a second language necessary to facilitate learning in the content area(s) (Federal Requirement)
7. (Bilingual only) The teacher understands the various registers, dialects, structures, vocabulary, and idioms of both English and a second language.
8. (ENL only) The teacher understands the various registers, dialects, structures, vocabulary, and idioms of the English language.
1. Program requirements outlined in the catalogue, syllabi, and student assignments including Storybook-based Observation and Analysis of Child’s Language Sample were reviewed as artifacts of Standard 1.1. Each provide evidence that teacher candidates will be able to demonstrate adequate knowledge of language and content standards and language acquisition theory content areas to establish goals, design curricula and instruction, and facilitate student learning in a manner that builds on students’ linguistic and cultural diversity.

**Performance**

1. The teacher demonstrates the key linguistic structures, articulatory system and vocabulary of the English language.
2. The teacher uses knowledge of content areas to establish goals, design curricula and instruction, and facilitate student learning in a manner that builds on students’ linguistic and cultural diversity.
3. The teacher demonstrates an understanding of the variety of purposes that languages serve, distinguishing between functions and contextual usage of social and academic language.
4. (Bilingual only) The teacher designs and implements activities that promote cultural exploration, listening, speaking, reading, and writing skills in both languages.
5. (Bilingual only) The teacher uses both English and students’ new languages during instruction and facilitates students’ use of both languages in the learning process.
6. (ENL only) The teacher designs and implements activities that promote observation, listening, speaking, reading, and writing skills in English.

1.2 Program is currently without completers – no evidence of performance was available to reviewers.

**Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.**

**Knowledge**

1. The teacher understands the processes of language acquisition and development, and culture and the role these processes play in students’ educational experiences.
2. The teacher understands the advantages of bilingualism.
2.1 Program requirements outlined in the catalogue, syllabi, and student assignments including ED 436 Conversation with a Non-Native Speaker of English and Playing with Playful Literature assignments were reviewed as artifacts of Standard 2.1. Each provided evidence that teacher candidates understand the processes of language acquisition and development, and culture and the role these processes play in students’ educational experiences. The evidence further demonstrates that candidates understand the advantages of biliteracy.

**Performance**
1. The teacher plans and delivers instruction using knowledge of the impact of language and culture on human development.
2. The teacher integrates language and content instruction appropriate to the students’ stages of language acquisition.
3. The teacher facilitates students’ use of their primary language as a resource to promote academic learning.
4. The teacher uses strategies and approaches that promote biliteracy and English language acquisition.

2.2 Program is currently without completers – no evidence of performance was available to reviewers.

**Standard 3: Modifying Instruction for Individual Needs-** The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.

**Knowledge**
1. The teacher understands the nuances of culture in structuring academic experiences.
2. The teacher understands the distinction between issues of learning disabilities and English language development.

3.1 Program requirements outlined in the catalogue, syllabi, and student assignments including ED 439 Special Education Issues in the Assessment of CLD Students and ED 434 Building Background assignments were reviewed as artifacts of Standard 3.1. Each provided evidence that teacher candidates demonstrate an adequate understanding of the nuances of culture in structuring academic experiences as well as the distinction between issues of learning disabilities and English language development.

**Performance**
1. The teacher promotes respect for diverse cultures by facilitating open discussion, treating all students equitably, and addressing individual student needs.
2. The teacher distinguishes between issues of learning disabilities and English language development.

Recommended Action on Bilingual Education and ENL Program:

- Approved
- Approved Conditionally
- Not Approved

Areas for Improvement:

For Focused Review, it will be necessary for program to be aligned to most current ENL standards as found on State Department of Education website.
Gifted and Talented Education

State Program Approval Rubric for Teacher Preparation Programs

Candidate Performance Relative to the Idaho Standards

The Idaho Standards for Initial Certification provide the framework for the approval of educator preparation programs. As such, the standards set the criteria by which teacher preparation programs are reviewed for state program approval.

The following rubrics are used to evaluate the extent to which teacher preparation programs prepare teachers who meet the standards. The rubric is designed to be used with each individual preparation program (i.e., Elementary, Special Education, Secondary English, Secondary Science–Biology, etc.).

Consistent with NCATE accreditation standards, the rubrics describe three levels of performance (i.e., unacceptable, acceptable, and target) for each of the Idaho Standards for Initial Certification. The rubric shall be used to make holistic judgments. Elements identified in the rubrics provide the basis upon which a State Program Approval Team evaluates the institution’s evidence that candidates meet the Idaho Standards. The institution is expected to provide information about candidate performance related to the Idaho Core Teacher Standards (and Idaho Teacher Standards for specific preparation areas).

*Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.*

**Knowledge**
1. The teacher understands the rationale, history, philosophies, and definitions of gifted and talented education.
2. The teacher understands the unique characteristics and needs of the gifted and talented student from early childhood through adulthood.
3. The teacher knows the common misconceptions, myths, and stereotypes about gifted and talented students.
4. The teacher knows the common controversial issues in gifted and talented education.
5. The teacher understands the Idaho State Gifted and Talented Mandate (Code 33-2003) and the five mandated talent areas: specific academic, intellectual, creativity, leadership, and visual/performing arts.
6. The teacher understands the components of a district plan for gifted and talented students, including philosophy, definitions, goals, program options, identification procedures, and evaluation, and how to develop a district plan for gifted and talented students.
7. The teacher understands effective administration and evaluation of gifted and talented programs.
1.1 Review of program requirements per college catalog, course syllabi and candidate work samples shows evidence that candidates demonstrate adequate knowledge of the components of gifted and talented education, including student characteristics, philosophy, definitions, goals, program options, identification procedures, and evaluation.

**Performance**
1. The teacher educates colleagues, parents/guardians, and others about the common misconceptions, myths, stereotypes, and controversial issues related to gifted and talented education.
2. The teacher uses the district’s plan for gifted and talented students to optimize educational opportunities for students.
3. The teacher demonstrates the ability to effectively administer and evaluate gifted and talented programs.

1.2 Review of program requirements per college catalog, course syllabi and candidate work samples shows evidence that teacher candidates demonstrate an adequate ability to implement the components of gifted and talented education.

**Standard 2: Knowledge of Human Development and Learning** - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

**Knowledge**
1. The teacher understands the social and emotional issues of gifted and talented students (e.g., perfectionism, underachievement, risk taking, and asynchronous development).
2. The teacher understands the theories related to the highly sensitive nature of the gifted and talented student.
3. The teacher understands the moral and ethical challenges of the gifted and talented student.
4. The teacher understands the need for appropriate social and emotional counseling of gifted and talented students.
2.1 Review of program requirements per college catalog, course syllabi and candidate work samples shows evidence that teacher candidates demonstrate an adequate understanding of social and emotional issues and challenges of gifted and talented students.

**Performance**
1. The teacher identifies, evaluates, develops, and implements strategies to address the social and emotional needs of the gifted and talented student.
2. The teacher identifies and evaluates resources to address the social and emotional development of the gifted and talented student.

2.2 Review of program requirements per college catalog, course syllabi and candidate work samples shows evidence that teacher candidates demonstrate an adequate ability to identify, evaluate, develop, and implement strategies to address the social and emotional needs of the gifted and talented student.

**Standard 3: Modifying Instruction for Individual Needs** - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are modified for students with diverse needs and experiences.

**Knowledge**
1. The teacher understands the exceptional needs of gifted and talented students from diverse populations (e.g., limited-English students, students with disabilities, very young children, and students from a particular culture).
3.1 Review of program requirements per college catalog, course syllabi and candidate work samples shows evidence that teacher candidates demonstrate an adequate understanding of the exceptional needs of gifted and talented students and how to pace delivery of curriculum and instruction consistent with their needs.

**Performance**
1. The teacher identifies and provides appropriate activities for the exceptional needs of gifted and talented students from diverse populations.

3.2 Review of program requirements per college catalog, course syllabi and candidate work samples shows evidence that teacher candidates demonstrate an adequate ability to identify and provide appropriate activities and instructional pace for the exceptional needs of gifted and talented students.

**Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.**

**Knowledge**
1. The teacher understands the characteristics of highly creative and highly intellectual students.
2. The teacher understands the definitions and theories of intelligence and creativity.

4.1 Review of program requirements per college catalog, course syllabi and candidate work samples shows evidence that teacher candidates demonstrate an adequate understanding of instructional strategies appropriate for the gifted and talented student.

**Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.**
Knowledge
1. The teacher understands a variety of curriculum models (e.g., Renzulli, Kaplan, and Tomlinson).
2. The teacher understands instructional strategies appropriate for the gifted and talented student (e.g., curriculum compacting, flexible grouping, tiered assignments, and independent studies).
3. The teacher understands curriculum design that includes content, process, product, and learning environments commensurate with the abilities of gifted and talented students.
4. The teacher understands how to develop curriculum in the five mandated talent areas: specific academic, intellectual, creativity, leadership, and visual/performing arts.
5. The teacher understands the array of program options and services available to gifted and talented students.

</table>

7.1 Review of program requirements per college catalog, course syllabi and candidate work samples shows evidence that teacher candidates demonstrate an adequate understanding of curriculum design and how to apply differentiated instruction appropriate for gifted and talented students.

Performance
1. The teacher implements a variety of gifted and talented curriculum models (e.g., Renzulli, Kaplan, and Tomlinson).
2. The teacher implements instructional strategies appropriate for the gifted and talented student (e.g., curriculum compacting, flexible grouping, tiered assignments, and independent studies).
3. The teacher designs curriculum that includes content, process, product, and learning environments commensurate with the abilities of gifted and talented students.
4. The teacher develops curriculum for the five mandated talent areas: specific academic, intellectual, creativity, leadership, and visual/performing arts.
5. The teacher identifies and implements extension and acceleration options for gifted and talented students.
6. The teacher matches student needs with appropriate program options and services.

SUBJECT
University of Idaho; Proposed Online Teaching Endorsement and English as a New Language Endorsement Programs.

APPLICABLE STATUTE, RULE, OR POLICY
Section 33-114 and 33-1258, Idaho Code
Idaho Administrative code, IDAPA 08.02.02 section 100- Official Vehicle for the Approval of Teacher Education Programs

BACKGROUND/DISCUSSION
Online Teaching Endorsement
The field of online teaching and learning is showing an annual dramatic increase giving need for teachers having hands-on experience in the online environment as both student and teacher. The State of Idaho, recognizing this demand and desiring to assure qualified teachers in online programs, has implemented an Online Teaching Endorsement to support teacher certification in the content areas. This endorsement includes both coursework and internship in the online environment, identifying ten widely accepted state standards that must be met.

The Standards Committee of the Professional Standards Commission (PSC) conducted a New Program Approval Desk Review of the Online Teaching Endorsement program proposed by U of I. Through the comprehensive presentation, the Standards Committee gained a clear understanding that all of the Idaho Standards for Online Teachers would be met and/or surpassed through the proposed program.

During its May 2014 meeting, the Professional Standards Commission voted to recommend Conditional Approval of the proposed Online Teaching Endorsement program offered through U of I. With the conditionally approved status, U of I may admit candidates to the Online Teaching Endorsement program, and will undergo full approval once there are program completers.

English as a New Language Endorsement
The demand for English as a New Language (ENL) teachers has continued to increase in Idaho. In order to help meet the current demand, U of I has submitted a proposal to offer an ENL endorsement program.

The Standards Committee of the Professional Standards Commission (PSC) conducted a New Program Approval Desk Review of the ENL Endorsement program proposed by U of I. Through the comprehensive presentation, the Standards Committee gained a clear understanding that all of the Idaho Standards for ENL Teachers would be met and/or surpassed through the proposed program.

During its May 2014 meeting, the Professional Standards Commission voted to recommend Conditional Approval of the proposed Online Teaching Endorsement
program offered through U of I. With the conditionally approved status, U of I may admit candidates to the Online Teaching Endorsement program, and will undergo full approval once there are program completers.

IMPACT
In order to maintain status as an Idaho approved program and produce graduates eligible for Idaho teacher certification, U of I must have all new programs reviewed for State approval.

STAFF COMMENTS AND RECOMMENDATIONS
This section will be completed by Board staff.

BOARD ACTION
I move to accept the Professional Standards Commission recommendation to conditionally approve the Online Teaching Endorsement program offered through the University of Idaho.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to accept the Professional Standards Commission recommendation to conditionally approve the English as a New Language Endorsement program offered through the University of Idaho.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
Proposed K-12 Online Teaching Endorsement Program of Study

University of Idaho
Department of Curriculum and Instruction

Submitted by:
Corinne Mantle-Bromley
Dean, College of Education

The Department of Curriculum and Instruction at the University of Idaho seeks approval to implement an Online Teaching Endorsement (OTE) program of study. As a major preparer of Idaho teachers, the University of Idaho can greatly increase the online teaching competency of Idaho’s teacher workforce by implementing this program of study as an initial endorsement area for teacher education students or as an add-on endorsement area to practicing teachers.

This program of study would consist of three (3) existing undergraduate courses and four (4) new graduate level courses targeted at senior-level teacher education students and practicing teachers. The twelve (12) Masters-level credits associated with this endorsement could be applied to a Master’s degree.

Required courses would include the following:

CTE 104: Input Technologies for the 21st Century (3 Credits)
Skill development in microcomputer applications and input technologies. Course content is reflective of current trends in Business Education programs. Skills include but are not limited to document preparation, intermediate to advanced keyboarding, voice recognition, exposure to emerging technologies as well as review of foundational skills. Recommended Preparation: Minimum typing speed of 25 wpm.

CTE 111: Computer Skills (3 Credits)
Fundamentals of computing; modules on telecommunications, hardware and software components, basic computing applications, and current computing trends.

**EDCI 410: Technology, Teaching and Learning (2 Credits)**
Specific methods, research, and strategies providing proficiency in relevant technology skills and practices to enhance classroom management and instruction.

**EDCI 5X1: Theoretical Foundations of Online Learning (3 Credits)**
This course provides an overview of theoretical issues surrounding online learning, including considerations of new technologies, socio-cultural diversity, learning theories, pedagogical approaches, and emerging trends.

**EDCI 5X2: Online Course Design (3 Credits)**
This course teaches students the course design process and provides them with opportunities to design, develop, and evaluate online course modules.

**EDCI 5X3: Open Education (3 Credits)**
This course addresses ethical, legal, and behavioral issues related to online learning, including social participation, copyright, internet safety, and etiquette and provides students with opportunities to apply their knowledge to practice.

**EDCI 595: Practicum in Online Learning (3 Credits)**
This practicum is taught in conjunction with Idaho Distance Learning Academy (IDLA) and provides students with opportunities to teach and assess K12 students in an authentic online setting.

Through these courses, students will build and demonstrate necessary knowledge, dispositions, and skills as aligned with the Idaho Standards for Online Teachers. A detailed alignment map of course artifacts and performance assessments to online teaching standards is provided in the Framework for Teaching table.

UNIVERSITY CURRICULUM COMMITTEE  
Curriculum Change Form

**Instructions**: Clearly mark all changes using Track Change or strikethroughs for deletions and underlines for additions. Following the approval of the appropriate college curriculum committee, a single representative for the college will e-mail the completed form to the Academic Publications Editor in the Registrar's Office, ctibbals@uidaho.edu for review by the University Curriculum Committee (UCC).

**Deadline**: This form must be submitted to the Academic Publications Editor by October 15th for inclusion in the next available General Catalog and to be available for scheduling beginning with the next summer semester.

### Rationale Information

Rationale for approval of this request; include any relevant assessment information pertinent to the proposed change in this program:

As more teaching is moved to online and hybrid settings, it is essential that the Idaho teacher workforce is prepared to effectively teach online, and as a major preparer of Idaho teachers, the University of Idaho can greatly increase the online teaching competency of Idaho’s teacher workforce by implementing this program of study as an initial endorsement area for teacher education students or as an add-on endorsement area to practicing teachers.

This program of study would consist of three (3) existing undergraduate courses and four (4) new graduate level courses targeted at senior-level teacher education students and practicing teachers. The twelve (12) Masters-level credits associated with this endorsement could be applied to a Master’s degree.

Through these courses, students will build and demonstrate necessary knowledge, dispositions, and skills as aligned with the Idaho Standards for Online Teachers, and successful completion will exemplify their ability to teach effectively in online settings.

### Cross- and Joint-List Status

**Cross-listed** course are offered between two or more academic units on campus, such as a course offered in both Conservation Social Science and Political Science. **Joint-listed** courses are offered between two or more levels, such as undergraduate and graduate. A course may be both cross-listed and joint-listed. Clearly mark all changes using Track Change or strikethroughs for deletions and underlines for additions.

| Cross-listed Course(s): | N/A |
| Joint-listed Course(s): | N/A |
| Date the affected Units approved of this change: | N/A |

### Cooperative Course Approval (If Applicable)
Cooperatively offered courses are open to students from an approved participating institution. These students are not required to pay the UI’s tuition, but the students are responsible for any other course fees. Students participating in these courses must be degree-seeking students at their home institution.

Statement of Purpose

Co-operative programs are based on one or more of the following criteria:

- **Strengthen the academic program** -- by providing access to complementary or unique program components (faculty, facilities, or other program related information or materials).
- **Support partnerships** -- funded research/grants.
- **Provide efficiencies** -- resource and/or fiscal efficiencies that would not otherwise be available.

EDCI 595. Practicum in Online Learning

Fall 2014 – Days TBD – Time TBD
3 Credits
Class Meeting Place: Online

Instructor: Royce Kimmons, PhD
Office Location: SUB 041B
Phone: 208-885-7537
Email: royce@uidaho.edu
Office Hours: By Appointment

Reasonable accommodations are available for students who have documented temporary or permanent disabilities. All accommodations must be approved through Disability Support Services located in the Idaho Commons Building, Room 306 in order to notify your instructor(s) as soon as possible regarding accommodation(s) needed for the course.

- 885-6307

- website at <www.access.uidaho.edu>

College Vision

Idaho’s Leader in Lifelong Learning and Healthy Lifestyles.

We seek teaching, learning, and living that transforms, invigorates, and nurtures. We expand lasting knowledge centered in local and global communities.

College Mission

The University of Idaho’s College of Education is the state’s flagship and land-grant research college focused on the preparation of professionals for schools, the movement sciences, and workforce counselors and educators. From our commitment to develop leaders in these fields emerges our responsibility to enhance the scientific, social, economic, and cultural assets of the state and develop solutions for complex problems.

We deliver on our commitment through focused, interdisciplinary excellence in teaching, research, outreach, and engagement in a collaborative environment at our residential main campus and our regional centers. Consistent with the land-grant ideal, our outreach activities serve the state and at the same time strengthen our teaching, scholarly, and creative capacities.

Our teaching and learning include undergraduate, graduate and professional education offered through both resident instruction and extended delivery. Our scholarly and creative activities promote K-12
academic achievement, human development and wellness, global awareness, and progress in professional practice.

**Conceptual Framework**
University of Idaho educators CARE. Together we develop as scholar practitioners who value and professionally apply and advance:

- Cultural Proficiency;
- Assessment, Teaching, and Learning;
- Reflective Scholarship & Practice; and,
- Engagement in Community Building & Partnerships.

**Course Description**
This practicum is taught in conjunction with Idaho Distance Learning Academy (IDLA) and provides students with opportunities to teach and assess K12 students in an authentic online setting.

This course serves as the final course for the Curriculum & Instruction Department’s Online Teaching Endorsement. All other endorsement courses are prerequisites for this course.

**Course Goal and Expectations**

**Course Objectives**

*As taken from the Idaho Standards for Online Teachers [ISOT].*

Students will:

- Understand the central concepts, tools of inquiry, and structures in online instruction and create learning experiences that take advantage of the transformative potential in online learning environments (ISOT #1).
- Understand how students learn and develop, and provide opportunities that support their intellectual, social, and personal development (ISOT #2).
- Understand how students differ in their approaches to learning and create instructional opportunities that are adapted to learners with diverse needs (ISOT #3).
- Understand and use a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills (ISOT #4).
- Understand individual and group motivation and behavior and create a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation (ISOT #5).
- Use a variety of communication techniques including verbal, nonverbal, and media to foster inquiry, collaboration, and supportive interaction in and beyond the classroom (ISOT #6).
- Plan and prepare instruction based upon knowledge of subject matter, students, the community, and curriculum goals (ISOT #7).
- Understand, use, and interpret formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness (ISOT #8).
• Become reflective practitioners who demonstrate a commitment to professional standards and are continuously engaged in purposeful mastery of the art and science of online teaching (ISOT #9).
• Interact in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well being (ISOT #10).

Goals of Curriculum and Instruction

• **Philosophy and Educational Organizations** – CI Masters degree graduates have a comprehensive understanding of the philosophical, historical, social, political and cultural understanding of schools and society.
• **Curriculum** – CI Masters degree graduates understand that curriculum should be relevant, engaging, challenging, and integrative for the learner. They know how to select, adapt and reflect on theories and engage in reflective practices in light of curriculum standards, theories, models and learners.
• **Instruction** – CI Masters degree graduates understand the principles of instruction know a wide variety of teaching strategies and learning theories and incorporate relevant technologies while teaching core concepts, skills of inquiry, problem posing/solving, collaboration, and communication to facilitate student learning.
• **Assessment and Evaluation** – CI Masters degree graduates analyze and understand the various roles of multiple types of assessments for monitoring, evaluating and responding to student learning; they understand, develop, use and critique formal, informal, and performance assessment techniques, including local, state, and national assessment systems to improve student learning.
• **Research** – CI Masters degree graduates, as critical consumers of educational research, appreciate the role of educational research for informing practice. M.Ed. graduates develop the skills to conduct classroom research. M.S. graduates, as producers of educational research, collect and analyze data, and formally share their research findings.
• **Diversity** – CI Masters degree graduates understand human diversity as a valued component of educational systems; understand how to appropriately engage with diverse population; effectively structure learning experiences with diverse population; and effectively engage with diverse populations of students, parents, and colleagues.
• **Subject Knowledge** – CI Masters degree students demonstrate their knowledge of the content that they teach through the admissions requirements and/or through content coursework that is included in the degree.

Required Readings and Learning Resources

This course does not have any established reading assignments, though the instructor may provide supplemental readings as necessary.

Optional Readings and Learning Resources

Given the nature of this course’s materials, available resources and understandings change and evolve rapidly. For this reason, optional reading materials and other media (e.g., videos) will be made available to students periodically.

Learning Activities and Assignments

CONSENT AGENDA  
AUGUST 14, 2014
This practicum will focus on the student practicing skills in an authentic K12 online learning context.

Performance tasks and assessments will be completed during the course of the semester. Performance tasks for this course with accompanying standards include:

- **Mentor support and reflection**
  - OTE.10.P.1: The online teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well being.
  - OTE.5.P.2: The online teacher performs management tasks (e.g., tracks student enrollments, communication logs, attendance records, etc.).
  - OTE.6.P.1: The online teacher is a thoughtful and responsive communicator.
  - OTE.7.P.2: The online teacher maintains accuracy and currency of course content, incorporates internet resources into course content, and extends lesson activities.
  - OTE.8.P.1: The online teacher selects, constructs, and uses a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, online teacher-made tests, performance tasks, projects, student self-assessment, peer assessment, standardized tests, tests written in primary language, and authentic assessments) to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.
  - OTE.8.P.2: The online teacher enlists multiple strategies for ensuring security of online student assessments and assessment data.
  - OTE.9.P.1: The online teacher adheres to local, state, and federal laws and policies (e.g., FERPA, AUP’s).

- **Student Formal Assessment**
  - OTE.8.P.1: The online teacher selects, constructs, and uses a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, online teacher-made tests, performance tasks, projects, student self-assessment, peer assessment, standardized tests, tests written in primary language, and authentic assessments) to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.
  - OTE.8.P.2: The online teacher enlists multiple strategies for ensuring security of online student assessments and assessment data.

- **Student Informal Assessment**
  - OTE.8.P.1: The online teacher selects, constructs, and uses a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, online teacher-made tests, performance tasks, projects, student self-assessment, peer assessment, standardized tests, tests written in primary language, and authentic assessments) to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.
  - OTE.8.P.2: The online teacher enlists multiple strategies for ensuring security of online student assessments and assessment data.

- **Module delivery**
  - OTE.1.P.2: The online teacher demonstrates application of communication technologies for teaching and learning (e.g., Learning Management System [LMS], Content Management System [CMS], email, discussion, desktop video conferencing, and instant messaging tools).
  - OTE.1.P.5: The online teacher demonstrates the use of design methods and standards in course/document creation and delivery.
• OTE.2.P.1: The online teacher understands the continuum of fully online to blended learning environments and creates unique opportunities and challenges for the learner (e.g., Synchronous and Asynchronous, Individual and Group Learning, Digital Communities).

• OTE.2.P.2: The online teacher uses communication technologies to alter learning strategies and skills (e.g., Media Literacy, visual literacy).

• OTE.3.P.2: The online teacher modifies, customizes and/or personalizes activities to address diverse learning styles, working strategies and abilities (e.g., provide multiple paths to learning objectives, differentiate instruction, strategies for non-native English speakers).

• OTE.3.P.3: The online teacher coordinates learning experiences with adult professionals (e.g., parents, local school contacts, mentors).

• OTE.4.D.3: The online teacher promotes student reflection using collaborative tools to reveal and clarify students? conceptual understanding and thinking, planning, and creative processes.

• OTE.4.P.2: The online teacher uses student-centered instructional strategies to engage students in learning. (e.g., Peer-based learning, peer coaching, authentic learning experiences, inquiry-based activities, structured but flexible learning environment, collaborative learning, discussion groups, self-directed learning, case studies, small group work, collaborative learning, and guided design)

• OTE.4.P.3: The online teacher uses a variety of instructional tools and resources to enhance learning (e.g., LMS/CMS, computer directed and computer assisted software, digital age media).

• OTE.5.P.1: The online teacher establishes a positive and safe climate in the classroom and participates in maintaining a healthy environment in the school or program as a whole (e.g., digital etiquette, Internet safety, Acceptable Use Policy [AUP]).

• OTE.5.P.3: The online teacher uses effective time management strategies (e.g., timely and consistent feedback, provides course materials in a timely manner, use online tool functionality to improve instructional efficiency).

• OTE.6.P.1: The online teacher is a thoughtful and responsive communicator.

• OTE.6.P.2: The online teacher models effective communication strategies in conveying ideas and information and in asking questions to stimulate discussion and promote higher-order thinking (e.g., discussion board facilitation, personal communications, and web conferencing).

• OTE.6.P.3: The online teacher demonstrates the ability to communicate effectively using a variety of mediums.

• OTE.6.P.4: The online teacher adjusts communication in response to cultural differences (e.g., wait time and authority).

• OTE.7.P.1: The online teacher clearly communicates to students stated and measurable objectives, course goals, grading criteria, course organization and expectations.

• OTE.8.P.1: The online teacher selects, constructs, and uses a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, online teacher-made tests, performance tasks, projects, student self-assessment, peer assessment, standardized tests, tests written in primary language, and authentic assessments) to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.

• Module delivery reflection

• OTE.1.P.1: The online teacher utilizes current standards for best practices in online teaching to identify appropriate instructional processes and strategies.
- OTE.2.P.3: The online teacher demonstrates knowledge of motivational theories and how they are applied to online learning environments.
- OTE.2.P.4: The online teacher constructs learning experiences that take into account students' physical, social, emotional, moral, and cognitive development to influence learning and instructional decisions. (Physical (e.g., Repetitive Use Injuries, Back and Neck Strain); Sensory Development (e.g., Hearing, Vision, Computer Vision Syndrome, Ocular Lock); Conceptions of social space (e.g., Identity Formation, Community Formation, Autonomy); Emotional (e.g., Isolation, cyber-bullying); Moral (i.e. Enigmatic communities, Disinhibition effect, Cognitive, Creativity)).
- OTE.4.P.1: The online teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and student needs. (e.g., online teacher-gathered data and student offered feedback).
- OTE.5.P.2: The online teacher performs management tasks (e.g., tracks student enrollments, communication logs, attendance records, etc.).
- OTE.5.P.3: The online teacher uses effective time management strategies (e.g., timely and consistent feedback, provides course materials in a timely manner, use online tool functionality to improve instructional efficiency).
- OTE.8.P.2: The online teacher enlists multiple strategies for ensuring security of online student assessments and assessment data.
- OTE.9.P.1: The online teacher adheres to local, state, and federal laws and policies (e.g., FERPA, AUP’s).

Online teaching statement, Phase 2
- OTE.1.D.1: The online teacher realizes that online education is not a fixed body of knowledge but is complex and ever evolving.
- OTE.1.D.2: The online teacher has enthusiasm for online education and the potential to positively impact student learning.
- OTE.1.P.6: The online teacher demonstrates knowledge of access, equity (digital divide) and safety concerns in online environments.
- OTE.3.D.1: The online teacher is familiar with legal mandates stipulated by the Americans with Disabilities Act (ADA), the Individuals with Disabilities Education Act (IDEA), the Assistive Technology Act and Section 508 requirements for accessibility.
- OTE.4.D.1: The online teacher promotes student autonomy, independence and responsibility for lesson mastery.
- OTE.4.D.2: The online teacher promotes, supports, and models creative and innovative thinking, and inventiveness.
- OTE.6.D.1: The online teacher recognizes the importance of verbal (synchronous) as well as nonverbal (asynchronous) communication.
- OTE.9.D.1: The online teacher recognizes his/her professional responsibility to contribute to the effectiveness, vitality, and self-renewal of the teaching profession as well as to his/her online school and community.

Field Work
This course will not include any field work.

Grading Policy
Attendance and participation will account for 20% of the final grade.
Reading reflections and responses will account for 20% of the final grade.

Performance tasks will account for 60% of the final grade.

Final grades and all graded assignments will use the following scale:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>90-100</td>
</tr>
<tr>
<td>B</td>
<td>80-89</td>
</tr>
<tr>
<td>C</td>
<td>70-79</td>
</tr>
<tr>
<td>D</td>
<td>65-69</td>
</tr>
<tr>
<td>F</td>
<td>0-64</td>
</tr>
</tbody>
</table>

**Academic Integrity**

The University of Idaho has as one of its core values the ideal of academic honesty and integrity. University of Idaho students live and work in a collegiate community which emphasizes their responsibility for helping to determine and enforce appropriately high standards of academic conduct. The faculty of the University of Idaho expects all students to adhere to the highest standards of academic honesty, and to refrain from any action which infringes upon academic freedom of other members of the academic community. Please refer to the University of Idaho - Student Code of Conduct Article II-Academic Honesty.

**Suggested Course Schedule of Activities Format**

The instructor and students will co-construct the course schedule of activities (along with due dates for major assignments and readings) on the first day of class.

**University of Idaho Classroom Learning Civility Clause**

In any environment in which people gather to learn, it is essential that all members feel as free and safe as possible in their participation. To this end, it is expected that everyone in this course will be treated with mutual respect and civility, with an understanding that all of us (students, instructors, professors, guests, and teaching assistants) will be respectful and civil to one another in discussion, in action, in teaching, and in learning.

Should you feel our classroom interactions do not reflect an environment of civility and respect, you are encouraged to meet with your instructor during office hours to discuss your concern. Additional resources for expression of concern or requesting support include the Dean of Students office and staff (5-6757), the UI Counseling & Testing Center’s confidential services (5-6716), or the UI Office of Human Rights, Access, & Inclusion (5-4285).

**University of Idaho (UI) Nondiscrimination Policy**
It is UI policy to prohibit and eliminate discrimination on the basis of race, color, national origin, religion, sex, sexual orientation and gender identity/expression, age, disability, or status as a Vietnam-era veteran. This policy applies to all programs, services, and facilities, and includes, but is not limited to, applications, admissions, access to programs and services, and employment. Such discrimination is prohibited by titles VI and VII of the Civil Rights Act of 1964, title IX of the Educational Amendments of 1972, sections 503 and 504 of the Rehabilitation Act of 1973, the Vietnam Era Veterans' Readjustment Assistance Act of 1974, the Age Discrimination Act of 1975, the Age Discrimination in Employment Act Amendments of 1978, the Americans with Disabilities Act of 1990, the Civil Rights Act of 1991, other federal and state statutes and regulations, and university commitments (see Faculty Staff Handbook (FSH) 3060). Sexual harassment violates state and federal law and policies of the Board of Regents, and is expressly prohibited, as stated in FSH 3220. The University of Idaho also prohibits discrimination on the basis of sexual orientation, as stated in FSH 3215. The entire FSH can be accessed online at http://www.webs.uidaho.edu/fsh. Questions or concerns about the content and application of these laws, regulations or University policy may be directed to: the Office of Human Rights, Access & Inclusion (208-885-4285); Regional Office for Civil Rights, U.S. Department of Education in Seattle (206-220-7900); Equal Employment Opportunity Commission, Seattle District Office (206-220-6883); or Pacific Regional Office of Federal Contract Compliance Programs, U.S. Department of Labor in San Francisco (415-848-6969). Complaints about discrimination or harassment should be brought to the attention of the Office of Human Rights, Access & Inclusion (885-4285). Retaliation for bringing forward a complaint is prohibited by FSH 3810.

**Library Resources (On Campus Classes)**

As a UI student, you not only have access to valuable print and electronic resources from the university's library, but you also have the ability to set up a personalized reference appointment with one of the librarians. If you have assignments or research questions and aren't sure how to make the most of library resources, feel free to contact the College of Education liaison librarian with questions: Rami Attebury, 885-2503, rattebur@uidaho.edu. As always, you may also stop by the reference desk anytime Monday to Thursday 9 to 9, Friday 9 to 5, and Sunday 1-9, 208-885-6584, or visit http://www.lib.uidaho.edu for email or IM assistance.

**Library Resources (Distance Education/Centers Classes)**

As a UI student from outside of Moscow, you have access to valuable electronic and print resources from the university's library. To learn more about using library resources from a distance, visit the library's Off-Campus Access webpage at http://www.lib.uidaho.edu/offcampus/index.html. Live reference/research assistance is available Monday to Thursday 9 a.m. to 9 p.m., Friday 9 a.m. to 5 p.m., and Sunday 1 to 9 p.m. Just call 208-885-6584, email libref@uidaho.edu, text 208-856-0814, or IM from http://www.lib.uidaho.edu. In addition, please feel free to contact the College of Education liaison librarian, Rami Attebury, directly at 208-885-2503 or rattebur@uidaho.edu.
**Instructions:** Clearly mark all changes using Track Change or strikethroughs for deletions and underlines for additions. Following the approval of the appropriate college curriculum committee, a single representative for the college will e-mail the completed form to the Academic Publications Editor in the Registrar's Office, ctibbals@uidaho.edu for review by the University Curriculum Committee (UCC).

**Deadline:** This form must be submitted to the Academic Publications Editor by October 15th for inclusion in the next available General Catalog and to be available for scheduling beginning with the next summer semester.

</table>
Cooperatively offered courses are open to students from an approved participating institution. These students are not required to pay the UI’s tuition, but the students are responsible for any other course fees. Students participating in these courses must be degree-seeking students at their home institution.

Statement of Purpose

Co-operative programs are based on one or more of the following criteria:

- **Strengthen the academic program** -- by providing access to complementary or unique program components (faculty, facilities, or other program related information or materials).
- **Support partnerships** -- funded research/grants.
- **Provide efficiencies** -- resource and/or fiscal efficiencies that would not otherwise be available.

College Vision

Idaho’s Leader in Lifelong Learning and Healthy Lifestyles.

We seek teaching, learning, and living that transforms, invigorates, and nurtures. We expand lasting knowledge centered in local and global communities.

College Mission

The University of Idaho’s College of Education is the state’s flagship and land-grant research college focused on the preparation of professionals for schools, the movement sciences, and workforce counselors and educators. From our commitment to develop leaders in these fields emerges our responsibility to enhance the scientific, social, economic, and cultural assets of the state and develop solutions for complex problems.

We deliver on our commitment through focused, interdisciplinary excellence in teaching, research, outreach, and engagement in a collaborative environment at our residential main campus and our regional centers. Consistent with the land-grant ideal, our outreach activities serve the state and at the same time strengthen our teaching, scholarly, and creative capacities.

Our teaching and learning include undergraduate, graduate and professional education offered through both resident instruction and extended delivery. Our scholarly and creative activities promote K-12
academic achievement, human development and wellness, global awareness, and progress in professional practice.

Conceptual Framework
University of Idaho educators CARE. Together we develop as scholar practitioners who value and professionally apply and advance:

- Cultural Proficiency;
- Assessment, Teaching, and Learning;
- Reflective Scholarship & Practice; and,
- Engagement in Community Building & Partnerships.

Course Description
This course provides an overview of theoretical issues surrounding online learning, including considerations of new technologies, socio-cultural diversity, learning theories, pedagogical approaches, and emerging trends.

Course Goal and Expectations

Course Objectives

As taken from the Idaho Standards for Online Teachers [ISOT].

Students will:

- Understand the central concepts, tools of inquiry, and structures in online instruction and create learning experiences that take advantage of the transformative potential in online learning environments (ISOT #1).
- Understand how students learn and develop, and provide opportunities that support their intellectual, social, and personal development (ISOT #2).
- Understand how students differ in their approaches to learning and create instructional opportunities that are adapted to learners with diverse needs (ISOT #3).
- Understand and use a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills (ISOT #4).
- Use a variety of communication techniques including verbal, nonverbal, and media to foster inquiry, collaboration, and supportive interaction in and beyond the classroom (ISOT #6).
- Plan and prepare instruction based upon knowledge of subject matter, students, the community, and curriculum goals (ISOT #7).
- Understand, use, and interpret formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness (ISOT #8).
- Become reflective practitioners who demonstrate a commitment to professional standards and are continuously engaged in purposeful mastery of the art and science of online teaching (ISOT #9).

Goals of Curriculum and Instruction
• **Philosophy and Educational Organizations** – CI Masters degree graduates have a comprehensive understanding of the philosophical, historical, social, political and cultural understanding of schools and society.

• **Curriculum** – CI Masters degree graduates understand that curriculum should be relevant, engaging, challenging, and integrative for the learner. They know how to select, adapt and reflect on theories and engage in reflective practices in light of curriculum standards, theories, models and learners.

• **Instruction** – CI Masters degree graduates understand the principles of instruction know a wide variety of teaching strategies and learning theories and incorporate relevant technologies while teaching core concepts, skills of inquiry, problem posing/solving, collaboration, and communication to facilitate student learning.

• **Assessment and Evaluation** – CI Masters degree graduates analyze and understand the various roles of multiple types of assessments for monitoring, evaluating and responding to student learning; they understand, develop, use and critique formal, informal, and performance assessment techniques, including local, state, and national assessment systems to improve student learning.

• **Research** – CI Masters degree graduates, as critical consumers of educational research, appreciate the role of educational research for informing practice. M.Ed. graduates develop the skills to conduct classroom research. M.S. graduates, as producers of educational research, collect and analyze data, and formally share their research findings.

• **Diversity** – CI Masters degree graduates understand human diversity as a valued component of educational systems; understand how to appropriately engage with diverse population; effectively structure learning experiences with diverse population; and effectively engage with diverse populations of students, parents, and colleagues.

• **Subject Knowledge** – CI Masters degree students demonstrate their knowledge of the content that they teach through the admissions requirements and/or through content coursework that is included in the degree.

**Required Readings and Learning Resources**

This course espouses the values of open education and utilizes open educational resources to achieve its objectives. As such, all necessary reading materials will be provided to students at no cost.

Students will complete reading assignments on the following topics (addressing the listed standards):

• Theories of online learning
  - OTE.1.K.3: The online teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the field of online teaching and learning.
  - OTE.4.K.1: The online teacher understands the techniques and applications of various online instructional strategies (e.g., discussion, student-directed learning, collaborative learning, lecture, project-based learning, forum, small group work).

• Emerging standards
  - OTE.1.K.1: The online teacher understands the current standards for best practices in online teaching and learning.
  - OTE.1.K.2: The online teacher understands the role of online teaching in preparing students for the global community of the future.
  - OTE.9.K.2: The online teacher knows how educational standards and curriculum align with 21st century skills.
Informal and lifelong learning
  - OTE.9.K.1: The online teacher understands the need for professional activity and collaboration beyond school (e.g., professional learning communities).

UDL and AIMS
  - OTE.3.D.1: The online teacher is familiar with legal mandates stipulated by the Americans with Disabilities Act (ADA), the Individuals with Disabilities Education Act (IDEA), the Assistive Technology Act and Section 508 requirements for accessibility.
  - OTE.3.P.1: The online teacher knows how adaptive/assistive technologies are used to help people who have disabilities gain access to information that might otherwise be inaccessible.

Motivational theories
  - OTE.2.P.3: The online teacher demonstrates knowledge of motivational theories and how they are applied to online learning environments.

Constructivism, constructionism, and online learning
  - OTE.1.K.3: The online teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the field of online teaching and learning.
  - OTE.1.K.5: The online teacher understands the relationship between online teaching and advancing technologies.
  - OTE.4.K.1: The online teacher understands the techniques and applications of various online instructional strategies (e.g., discussion, student-directed learning, collaborative learning, lecture, project-based learning, forum, small group work).

Technology, society, and education
  - OTE.1.K.2: The online teacher understands the role of online teaching in preparing students for the global community of the future.
  - OTE.1.K.3: The online teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the field of online teaching and learning.
  - OTE.1.K.4: The online teacher understands the relationship between online education and other subject areas and real-life situations.
  - OTE.1.K.5: The online teacher understands the relationship between online teaching and advancing technologies.

Best practices for online teaching
  - OTE.1.K.1: The online teacher understands the current standards for best practices in online teaching and learning.
  - OTE.1.K.6: The online teacher understands appropriate uses of technologies to promote student learning and engagement with the content.
  - OTE.1.K.7: The online teacher understands the instructional delivery continuum. (e.g., fully online to blended to face-to-face).
  - OTE.4.K.1: The online teacher understands the techniques and applications of various online instructional strategies (e.g., discussion, student-directed learning, collaborative learning, lecture, project-based learning, forum, small group work).
  - OTE.6.D.1: The online teacher recognizes the importance of verbal (synchronous) as well as nonverbal (asynchronous) communication.
  - OTE.9.K.2: The online teacher knows how educational standards and curriculum align with 21st century skills.

History of online learning
o OTE.1.K.2: The online teacher understands the role of online teaching in preparing students for the global community of the future.

o OTE.1.K.3: The online teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the field of online teaching and learning.

o OTE.1.K.4: The online teacher understands the relationship between online education and other subject areas and real life situations.

o OTE.1.K.5: The online teacher understands the relationship between online teaching and advancing technologies.

Optional Readings and Learning Resources

Given the nature of this course’s materials, available resources and understandings change and evolve rapidly. For this reason, optional reading materials and other media (e.g., videos) will be made available to students periodically.

Learning Activities and Assignments

Students will attend synchronous online class sessions and group meetings (e.g., working groups and discussion groups). Attendance will be taken for these meetings and will count toward the final attendance and participation grade.

Students will reflect on their reading assignments in blogs and via other asynchronous media and will respond to one another. These reflections and responses will be graded for completeness.

Performance tasks will be completed during the course of the semester and may require individual completion or team completion. Performance tasks for this course with accompanying standards include:

- Motivational analysis
  o OTE.2.P.3: The online teacher demonstrates knowledge of motivational theories and how they are applied to online learning environments.

- Motivational blended lesson plan transformation
  o OTE.1.P.4: The online teacher demonstrates application of advanced troubleshooting skills (e.g., digital asset management, firewalls, web-based applications).
  o OTE.2.P.3: The online teacher demonstrates knowledge of motivational theories and how they are applied to online learning environments.
  o OTE.4.D.2: The online teacher promotes, supports, and models creative and innovative thinking, and inventiveness.
  o OTE.4.P.2: The online teacher uses student-centered instructional strategies to engage students in learning. (e.g., Peer-based learning, peer coaching, authentic learning experiences, inquiry-based activities, structured but flexible learning environment, collaborative learning, discussion groups, self-directed learning, case studies, small group work, collaborative learning, and guided design)
  o OTE.4.P.3: The online teacher uses a variety of instructional tools and resources to enhance learning (e.g., LMS/CMS, computer directed and computer assisted software, digital age media).
  o OTE.7.P.1: The online teacher clearly communicates to students stated and measurable objectives, course goals, grading criteria, course organization and expectations.
- OTE.7.P.2: The online teacher maintains accuracy and currency of course content, incorporates internet resources into course content, and extends lesson activities.
- OTE.7.P.3: The online teacher designs and develops subject-specific online content.
- OTE.7.P.4: The online teacher uses multiple forms of media to design course content.
- OTE.9.P.3: The online teacher demonstrates alignment of educational standards and curriculum with 21st century technology skills.

- **UDL blended lesson plan transformation**
  - OTE.2.P.4: The online teacher constructs learning experiences that take into account students’ physical, social, emotional, moral, and cognitive development to influence learning and instructional decisions. (Physical (e.g., Repetitive Use Injuries, Back and Neck Strain); Sensory Development (e.g., Hearing, Vision, Computer Vision Syndrome, Ocular Lock); Conceptions of social space (e.g., Identity Formation, Community Formation, Autonomy); Emotional (e.g., Isolation, cyber-bullying); Moral (i.e., Enigmatic communities, Disinhibition effect, Cognitive, Creativity)).
  - OTE.3.P.1: The online teacher knows how adaptive/assistive technologies are used to help people who have disabilities gain access to information that might otherwise be inaccessible.
  - OTE.3.P.2: The online teacher modifies, customizes and/or personalizes activities to address diverse learning styles, working strategies and abilities (e.g., provide multiple paths to learning objectives, differentiate instruction, strategies for non-native English speakers).
  - OTE.4.P.3: The online teacher uses a variety of instructional tools and resources to enhance learning (e.g., LMS/CMS, computer directed and computer assisted software, digital age media).
  - OTE.7.P.1: The online teacher clearly communicates to students stated and measurable objectives, course goals, grading criteria, course organization and expectations.
  - OTE.7.P.2: The online teacher maintains accuracy and currency of course content, incorporates internet resources into course content, and extends lesson activities.
  - OTE.7.P.3: The online teacher designs and develops subject-specific online content.
  - OTE.7.P.4: The online teacher uses multiple forms of media to design course content.
  - OTE.8.P.1: The online teacher selects, constructs, and uses a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, online teacher-made tests, performance tasks, projects, student self-assessment, peer assessment, standardized tests, tests written in primary language, and authentic assessments) to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.
  - OTE.9.P.3: The online teacher demonstrates alignment of educational standards and curriculum with 21st century technology skills.

- **Online teaching statement, Phase 1**
  - OTE.2.P.4: The online teacher constructs learning experiences that take into account students’ physical, social, emotional, moral, and cognitive development to influence learning and instructional decisions. (Physical (e.g., Repetitive Use Injuries, Back and Neck Strain); Sensory Development (e.g., Hearing, Vision, Computer Vision Syndrome, Ocular Lock); Conceptions of social space (e.g., Identity Formation, Community Formation, Autonomy); Emotional (e.g., Isolation, cyber-bullying); Moral (i.e., Enigmatic communities, Disinhibition effect, Cognitive, Creativity)).
OTE.3.P.1: The online teacher knows how adaptive/assistive technologies are used to help people who have disabilities gain access to information that might otherwise be inaccessible.

OTE.3.P.2: The online teacher modifies, customizes and/or personalizes activities to address diverse learning styles, working strategies and abilities (e.g., provide multiple paths to learning objectives, differentiate instruction, strategies for non-native English speakers).

OTE.4.P.3: The online teacher uses a variety of instructional tools and resources to enhance learning (e.g., LMS/CMS, computer directed and computer assisted software, digital age media).

OTE.7.P.1: The online teacher clearly communicates to students stated and measurable objectives, course goals, grading criteria, course organization and expectations.

OTE.7.P.2: The online teacher maintains accuracy and currency of course content, incorporates internet resources into course content, and extends lesson activities.

OTE.7.P.3: The online teacher designs and develops subject-specific online content.

OTE.7.P.4: The online teacher uses multiple forms of media to design course content.

OTE.8.P.1: The online teacher selects, constructs, and uses a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, online teacher-made tests, performance tasks, projects, student self-assessment, peer assessment, standardized tests, tests written in primary language, and authentic assessments) to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.

OTE.9.P.3: The online teacher demonstrates alignment of educational standards and curriculum with 21st century technology skills.

Field Work

This course will not include any field work.

Grading Policy

Attendance and participation will account for 20% of the final grade.

Reading reflections and responses will account for 20% of the final grade.

Performance tasks will account for 60% of the final grade.

Final grades and all graded assignments will use the following scale:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>90-100</td>
</tr>
<tr>
<td>B</td>
<td>80-89</td>
</tr>
<tr>
<td>C</td>
<td>70-79</td>
</tr>
<tr>
<td>D</td>
<td>65-69</td>
</tr>
<tr>
<td>F</td>
<td>0-64</td>
</tr>
</tbody>
</table>
Academic Integrity

The University of Idaho has as one of its core values the ideal of academic honesty and integrity. University of Idaho students live and work in a collegiate community which emphasizes their responsibility for helping to determine and enforce appropriately high standards of academic conduct. The faculty of the University of Idaho expects all students to adhere to the highest standards of academic honesty, and to refrain from any action which infringes upon academic freedom of other members of the academic community. Please refer to the University of Idaho - Student Code of Conduct Article II-Academic Honesty.

Suggested Course Schedule of Activities Format

The instructor and students will co-construct the course schedule of activities (along with due dates for major assignments and readings) on the first day of class.

University of Idaho Classroom Learning Civility Clause

In any environment in which people gather to learn, it is essential that all members feel as free and safe as possible in their participation. To this end, it is expected that everyone in this course will be treated with mutual respect and civility, with an understanding that all of us (students, instructors, professors, guests, and teaching assistants) will be respectful and civil to one another in discussion, in action, in teaching, and in learning.

Should you feel our classroom interactions do not reflect an environment of civility and respect, you are encouraged to meet with your instructor during office hours to discuss your concern. Additional resources for expression of concern or requesting support include the Dean of Students office and staff (5-6757), the UI Counseling & Testing Center’s confidential services (5-6716), or the UI Office of Human Rights, Access, & Inclusion (5-4285).

University of Idaho (UI) Nondiscrimination Policy

It is UI policy to prohibit and eliminate discrimination on the basis of race, color, national origin, religion, sex, sexual orientation and gender identity/expression, age, disability, or status as a Vietnam-era veteran. This policy applies to all programs, services, and facilities, and includes, but is not limited to, applications, admissions, access to programs and services, and employment. Such discrimination is prohibited by titles VI and VII of the Civil Rights Act of 1964, title IX of the Educational Amendments of 1972, sections 503 and 504 of the Rehabilitation Act of 1973, the Vietnam Era Veterans’ Readjustment Assistance Act of 1974, the Age Discrimination Act of 1975, the Age Discrimination in Employment Act Amendments of 1978, the Americans with Disabilities Act of 1990, the Civil Rights Act of 1991, other federal and state statutes and regulations, and university commitments (see Faculty Staff Handbook (FSH) 3060). Sexual harassment violates state and federal law and policies of the Board of Regents, and is expressly prohibited, as stated in FSH 3220. The University of Idaho also prohibits discrimination on the basis of sexual orientation, as stated in FSH 3215. The entire FSH can be accessed online at http://www.webs.uidaho.edu/fsf. Questions or concerns about the content and application of these laws, regulations or University policy may be directed to: the Office of Human Rights, Access & Inclusion (208-885-4285); Regional Office for Civil Rights, U.S. Department of Education in Seattle (206-220-7900);

**Library Resources (On Campus Classes)**

As a UI student, you not only have access to valuable print and electronic resources from the university's library, but you also have the ability to set up a personalized reference appointment with one of the librarians. If you have assignments or research questions and aren’t sure how to make the most of library resources, feel free to contact the College of Education liaison librarian with questions: Rami Attebury, 885-2503, rattebur@uidaho.edu. As always, you may also stop by the reference desk anytime Monday to Thursday 9 to 9, Friday 9 to 5, and Sunday 1-9, 208-885-6584, or visit http://www.lib.uidaho.edu for email or IM assistance.

**Library Resources (Distance Education/Centers Classes)**

As a UI student from outside of Moscow, you have access to valuable electronic and print resources from the university's library. To learn more about using library resources from a distance, visit the library’s Off-Campus Access webpage at http://www.lib.uidaho.edu/offcampus/index.html. Live reference/research assistance is available Monday to Thursday 9 a.m. to 9 p.m., Friday 9 a.m. to 5 p.m., and Sunday 1 to 9 p.m. Just call 208-885-6584, email libref@uidaho.edu, text 208-856-0814, or IM from http://www.lib.uidaho.edu. In addition, please feel free to contact the College of Education liaison librarian, Rami Attebury, directly at 208-885-2503 or rattebur@uidaho.edu.
**Instructions**: Clearly mark all changes using Track Change or strikethroughs for deletions and underlines for additions. Following the approval of the appropriate college curriculum committee, a single representative for the college will e-mail the completed form to the Academic Publications Editor in the Registrar's Office, ctibbals@uidaho.edu for review by the University Curriculum Committee (UCC).

**Deadline**: This form must be submitted to the Academic Publications Editor by October 15th for inclusion in the next available General Catalog and to be available for scheduling beginning with the next summer semester.

### Submission Information

### Cross- and Joint-List Status

Cross-listed course are offered between two or more academic units on campus, such as a course offered in both Conservation Social Science and Political Science. Joint-listed courses are offered between two or more levels, such as undergraduate and graduate. A course may be both cross-listed and joint-listed. Clearly mark all changes using Track Change or strikethroughs for deletions and underlines for additions.

| Add, Drop, or Change of Status: | N/A |
| Cross-Listed Course(s): | N/A |
| Joint-Listed Course(s): | N/A |
| Date the affected Units approved of this change: | N/A |
Cooperatively offered courses are open to students from an approved participating institution. These students are not required to pay the UI’s tuition, but the students are responsible for any other course fees. Students participating in these courses must be degree-seeking students at their home institution.

Statement of Purpose

Co-operative programs are based on one or more of the following criteria:

- **Strengthen the academic program** -- by providing access to complementary or unique program components (faculty, facilities, or other program related information or materials).
- **Support partnerships** -- funded research/grants.
- **Provide efficiencies** -- resource and/or fiscal efficiencies that would not otherwise be available.

EDCI 5X2. Online Course Design
Fall 2014 – Days TBD – Time TBD
3 Credits
Class Meeting Place: Online
Instructor: Royce Kimmons, PhD
Office Location: SUB 041B
Phone: 208-885-7537
Email: royce@uidaho.edu
Office Hours: By Appointment

Reasonable accommodations are available for students who have documented temporary or permanent disabilities. All accommodations must be approved through Disability Support Services located in the Idaho Commons Building, Room 306 in order to notify your instructor(s) as soon as possible regarding accommodation(s) needed for the course.

College Vision
Idaho’s Leader in Lifelong Learning and Healthy Lifestyles.

We seek teaching, learning, and living that transforms, invigorates, and nurtures. We expand lasting knowledge centered in local and global communities.

College Mission
The University of Idaho’s College of Education is the state’s flagship and land-grant research college focused on the preparation of professionals for schools, the movement sciences, and workforce counselors and educators. From our commitment to develop leaders in these fields emerges our responsibility to enhance the scientific, social, economic, and cultural assets of the state and develop solutions for complex problems.

We deliver on our commitment through focused, interdisciplinary excellence in teaching, research, outreach, and engagement in a collaborative environment at our residential main campus and our regional centers. Consistent with the land-grant ideal, our outreach activities serve the state and at the same time strengthen our teaching, scholarly, and creative capacities.

Our teaching and learning include undergraduate, graduate and professional education offered through both resident instruction and extended delivery. Our scholarly and creative activities promote K-12
academic achievement, human development and wellness, global awareness, and progress in professional practice.

**Conceptual Framework**
University of Idaho educators **CARE**. Together we develop as scholar practitioners who value and professionally apply and advance:

- Cultural Proficiency;
- Assessment, Teaching, and Learning;
- Reflective Scholarship & Practice; and,
- Engagement in Community Building & Partnerships.

**Course Description**
This course teaches students the course design process and provides them with opportunities to design, develop, and evaluate online course modules.

*Theoretical Foundations of Online Learning* is a prerequisite for this course.

**Course Goal and Expectations**

**Course Objectives**

*As taken from the Idaho Standards for Online Teachers [ISOT].*

Students will:

- Understand the central concepts, tools of inquiry, and structures in online instruction and create learning experiences that take advantage of the transformative potential in online learning environments (ISOT #1).
- Understand how students learn and develop, and provide opportunities that support their intellectual, social, and personal development (ISOT #2).
- Understand and use a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills (ISOT #4).
- Use a variety of communication techniques including verbal, nonverbal, and media to foster inquiry, collaboration, and supportive interaction in and beyond the classroom (ISOT #6).
- Plan and prepare instruction based upon knowledge of subject matter, students, the community, and curriculum goals (ISOT #7).
- Understand, use, and interpret formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness (ISOT #8).
- Become reflective practitioners who demonstrate a commitment to professional standards and are continuously engaged in purposeful mastery of the art and science of online teaching (ISOT #9).

**Goals of Curriculum and Instruction**

- *Philosophy and Educational Organizations* – CI Masters degree graduates have a comprehensive understanding of the philosophical, historical, social, political and cultural understanding of schools and society.
• **Curriculum** – CI Masters degree graduates understand that curriculum should be relevant, engaging, challenging, and integrative for the learner. They know how to select, adapt and reflect on theories and engage in reflective practices in light of curriculum standards, theories, models and learners.

• **Instruction** – CI Masters degree graduates understand the principles of instruction know a wide variety of teaching strategies and learning theories and incorporate relevant technologies while teaching core concepts, skills of inquiry, problem posing/solving, collaboration, and communication to facilitate student learning.

• **Assessment and Evaluation** – CI Masters degree graduates analyze and understand the various roles of multiple types of assessments for monitoring, evaluating and responding to student learning; they understand, develop, use and critique formal, informal, and performance assessment techniques, including local, state, and national assessment systems to improve student learning.

• **Research** – CI Masters degree graduates, as critical consumers of educational research, appreciate the role of educational research for informing practice. M.Ed. graduates develop the skills to conduct classroom research. M.S. graduates, as producers of educational research, collect and analyze data, and formally share their research findings.

• **Diversity** – CI Masters degree graduates understand human diversity as a valued component of educational systems; understand how to appropriately engage with diverse population; effectively structure learning experiences with diverse population; and effectively engage with diverse populations of students, parents, and colleagues.

• **Subject Knowledge** – CI Masters degree students demonstrate their knowledge of the content that they teach through the admissions requirements and/or through content coursework that is included in the degree.

**Required Readings and Learning Resources**

This course espouses the values of open education and utilizes open educational resources to achieve its objectives. As such, all necessary reading materials will be provided to students at no cost.

Students will complete reading assignments on the following topics (addressing the listed standards):

- **Best practices for course design**
  - OTE.1.K.1: The online teacher understands the current standards for best practices in online teaching and learning.
  - OTE.1.K.6: The online teacher understands appropriate uses of technologies to promote student learning and engagement with the content.
  - OTE.1.K.7: The online teacher understands the instructional delivery continuum. (e.g., fully online to blended to face-to-face).
  - OTE.4.K.1: The online teacher understands the techniques and applications of various online instructional strategies (e.g., discussion, student-directed learning, collaborative learning, lecture, project-based learning, forum, small group work).
  - OTE.6.D.1: The online teacher recognizes the importance of verbal (synchronous) as well as nonverbal (asynchronous) communication.
  - OTE.9.K.2: The online teacher knows how educational standards and curriculum align with 21st century skills.

- **Methods of online assessment**
o OTE.1.K.3: The online teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the field of online teaching and learning.

o OTE.1.K.6: The online teacher understands appropriate uses of technologies to promote student learning and engagement with the content.

• The great media debate
  o OTE.1.K.3: The online teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the field of online teaching and learning.
  o OTE.1.K.6: The online teacher understands appropriate uses of technologies to promote student learning and engagement with the content.

• Models of blended learning
  o OTE.1.K.7: The online teacher understands the instructional delivery continuum. (e.g., fully online to blended to face-to-face).
  o OTE.6.D.1: The online teacher recognizes the importance of verbal (synchronous) as well as nonverbal (asynchronous) communication.

• Systems of course delivery
  o OTE.4.K.2: The online teacher understands appropriate uses of learning and/or content management systems for student learning.

Optional Readings and Learning Resources

Given the nature of this course’s materials, available resources and understandings change and evolve rapidly. For this reason, optional reading materials and other media (e.g., videos) will be made available to students periodically.

Learning Activities and Assignments

Students will attend synchronous online class sessions and group meetings (e.g., working groups and discussion groups). Attendance will be taken for these meetings and will count toward the final attendance and participation grade.

Students will reflect on their reading assignments in blogs and via other asynchronous media and will respond to one another. These reflections and responses will be graded for completeness.

Performance tasks will be completed during the course of the semester and may require individual completion or team completion. Performance tasks for this course with accompanying standards include:

• Course module design
  o OTE.2.P.1: The online teacher understands the continuum of fully online to blended learning environments and creates unique opportunities and challenges for the learner (e.g., Synchronous and Asynchronous, Individual and Group Learning, Digital Communities).
  o OTE.4.D.3: The online teacher promotes student reflection using collaborative tools to reveal and clarify students’ conceptual understanding and thinking, planning, and creative processes.
  o OTE.4.P.2: The online teacher uses student-centered instructional strategies to engage students in learning. (e.g., Peer-based learning, peer coaching, authentic learning
experiences, inquiry-based activities, structured but flexible learning environment, collaborative learning, discussion groups, self-directed learning, case studies, small group work, collaborative learning, and guided design)
- OTE.7.P.1: The online teacher clearly communicates to students stated and measurable objectives, course goals, grading criteria, course organization and expectations.
- OTE.7.P.3: The online teacher designs and develops subject-specific online content.
- OTE.7.P.4: The online teacher uses multiple forms of media to design course content.
- OTE.7.P.5: The online teacher designs course content to facilitate interaction and discussion.
- OTE.7.P.6: The online teacher designs course content that complies with intellectual property rights and fair use standards.

- Course module introductory video
  - OTE.6.P.3: The online teacher demonstrates the ability to communicate effectively using a variety of mediums.
  - OTE.7.P.1: The online teacher clearly communicates to students stated and measurable objectives, course goals, grading criteria, course organization and expectations.
  - OTE.7.P.2: The online teacher maintains accuracy and currency of course content, incorporates internet resources into course content, and extends lesson activities.
  - OTE.7.P.4: The online teacher uses multiple forms of media to design course content.

- Course module development
  - OTE.1.P.2: The online teacher demonstrates application of communication technologies for teaching and learning (e.g., Learning Management System [LMS], Content Management System [CMS], email, discussion, desktop video conferencing, and instant messaging tools).
  - OTE.1.P.3: The online teacher demonstrates application of emerging technologies for teaching and learning (e.g., blogs, wikis, content creation tools, mobile technologies, virtual worlds).
  - OTE.2.P.2: The online teacher uses communication technologies to alter learning strategies and skills (e.g., Media Literacy, visual literacy).
  - OTE.4.P.3: The online teacher uses a variety of instructional tools and resources to enhance learning (e.g., LMS/CMS, computer directed and computer assisted software, digital age media).
  - OTE.7.P.3: The online teacher designs and develops subject-specific online content.
  - OTE.8.P.1: The online teacher selects, constructs, and uses a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, online teacher-made tests, performance tasks, projects, student self-assessment, peer assessment, standardized tests, tests written in primary language, and authentic assessments) to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.
  - OTE.8.P.2: The online teacher enlists multiple strategies for ensuring security of online student assessments and assessment data.

- Course module evaluation
  - OTE.1.P.1: The online teacher utilizes current standards for best practices in online teaching to identify appropriate instructional processes and strategies.
  - OTE.4.P.1: The online teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and student needs. (e.g., online teacher-gathered data and student offered feedback).
OTE.9.P.2: The online teacher has participated in an online course and applies experiences as an online student to develop and implement successful strategies for online teaching environments.

Field Work

This course will not include any field work.

Grading Policy

Attendance and participation will account for 20% of the final grade.

Reading reflections and responses will account for 20% of the final grade.

Performance tasks will account for 60% of the final grade.

Final grades and all graded assignments will use the following scale:

<table>
<thead>

Academic Integrity

The University of Idaho has as one of its core values the ideal of academic honesty and integrity. University of Idaho students live and work in a collegiate community which emphasizes their responsibility for helping to determine and enforce appropriately high standards of academic conduct. The faculty of the University of Idaho expects all students to adhere to the highest standards of academic honesty, and to refrain from any action which infringes upon academic freedom of other members of the academic community. Please refer to the University of Idaho - Student Code of Conduct Article II-Academic Honesty.

Suggested Course Schedule of Activities Format

The instructor and students will co-construct the course schedule of activities (along with due dates for major assignments and readings) on the first day of class.

University of Idaho Classroom Learning Civility Clause

In any environment in which people gather to learn, it is essential that all members feel as free and safe as possible in their participation. To this end, it is expected that everyone in this course will be treated
with mutual respect and civility, with an understanding that all of us (students, instructors, professors, guests, and teaching assistants) will be respectful and civil to one another in discussion, in action, in teaching, and in learning.

Should you feel our classroom interactions do not reflect an environment of civility and respect, you are encouraged to meet with your instructor during office hours to discuss your concern. Additional resources for expression of concern or requesting support include the Dean of Students office and staff (5-6757), the UI Counseling & Testing Center’s confidential services (5-6716), or the UI Office of Human Rights, Access, & Inclusion (5-4285).

University of Idaho (UI) Nondiscrimination Policy

It is UI policy to prohibit and eliminate discrimination on the basis of race, color, national origin, religion, sex, sexual orientation and gender identity/expression, age, disability, or status as a Vietnam-era veteran. This policy applies to all programs, services, and facilities, and includes, but is not limited to, applications, admissions, access to programs and services, and employment. Such discrimination is prohibited by titles VI and VII of the Civil Rights Act of 1964, title IX of the Educational Amendments of 1972, sections 503 and 504 of the Rehabilitation Act of 1973, the Vietnam Era Veterans' Readjustment Assistance Act of 1974, the Age Discrimination Act of 1975, the Age Discrimination in Employment Act Amendments of 1978, the Americans with Disabilities Act of 1990, the Civil Rights Act of 1991, other federal and state statutes and regulations, and university commitments (see Faculty Staff Handbook (FSH) 3060). Sexual harassment violates state and federal law and policies of the Board of Regents, and is expressly prohibited, as stated in FSH 3220. The University of Idaho also prohibits discrimination on the basis of sexual orientation, as stated in FSH 3215. The entire FSH can be accessed online at http://www.webs.uidaho.edu/fs. Questions or concerns about the content and application of these laws, regulations or University policy may be directed to: the Office of Human Rights, Access & Inclusion (208-885-4285); Regional Office for Civil Rights, U.S. Department of Education in Seattle (206-220-7900); Equal Employment Opportunity Commission, Seattle District Office (206-220-6883); or Pacific Regional Office of Federal Contract Compliance Programs, U.S. Department of Labor in San Francisco (415-848-6969). Complaints about discrimination or harassment should be brought to the attention of the Office of Human Rights, Access & Inclusion (885-4285). Retaliation for bringing forward a complaint is prohibited by FSH 3810.

Library Resources (On Campus Classes)

As a UI student, you not only have access to valuable print and electronic resources from the university's library, but you also have the ability to set up a personalized reference appointment with one of the librarians. If you have assignments or research questions and aren’t sure how to make the most of library resources, feel free to contact the College of Education liaison librarian with questions: Rami Attebury, 885-2503, rattebur@uidaho.edu. As always, you may also stop by the reference desk anytime Monday to Thursday 9 to 9, Friday 9 to 5, and Sunday 1-9, 208-885-6584, or visit http://www.lib.uidaho.edu for email or IM assistance.

Library Resources (Distance Education/Centers Classes)

As a UI student from outside of Moscow, you have access to valuable electronic and print resources from the university's library. To learn more about using library resources from a distance, visit the
library’s Off-Campus Access webpage at http://www.lib.uidaho.edu/offcampus/index.html. Live reference/research assistance is available Monday to Thursday 9 a.m. to 9 p.m., Friday 9 a.m. to 5 p.m., and Sunday 1 to 9 p.m. Just call 208-885-6584, email libref@uidaho.edu, text 208-856-0814, or IM from http://www.lib.uidaho.edu. In addition, please feel free to contact the College of Education liaison librarian, Rami Attebury, directly at 208-885-2503 or rattebur@uidaho.edu.
### Instructions
Clearly mark all changes using Track Change or strikethroughs for deletions and underlines for additions. Following the approval of the appropriate college curriculum committee, a single representative for the college will e-mail the completed form to the Academic Publications Editor in the Registrar's Office, ctibbals@uidaho.edu for review by the University Curriculum Committee (UCC).

**Deadline:** This form must be submitted to the Academic Publications Editor by October 15th for inclusion in the next available General Catalog and to be available for scheduling beginning with the next summer semester.

### Cross- and Joint-List Status

**Cross-listed** courses are offered between two or more academic units on campus, such as a course offered in both Conservation Social Science and Political Science. **Joint-listed** courses are offered between two or more levels, such as undergraduate and graduate. A course may be both cross-listed and joint-listed. Clearly mark all changes using Track Change or strikethroughs for deletions and underlines for additions.

Cooperatively offered courses are open to students from an approved participating institution. These students are not required to pay the UI's tuition, but the students are responsible for any other course fees. Students participating in these courses must be degree-seeking students at their home institution.

Statement of Purpose

Co-operative programs are based on one or more of the following criteria:

- **Strengthen the academic program** -- by providing access to complementary or unique program components (faculty, facilities, or other program related information or materials).
- **Support partnerships** -- funded research/grants.
- **Provide efficiencies** -- resource and/or fiscal efficiencies that would not otherwise be available.

Rationale and Assessment Information

Rationale for approval of this request; include an explanation of how the department will manage the added workload of this new course and any relevant assessment information that applies to this course:

This will serve as a required course of the Curriculum & Instruction Department’s new Online Teaching Endorsement and will be taught by a newly-hired Assistant Professor of Learning Technologies whose sole teaching emphasis will be this endorsement.

College Vision

Idaho’s Leader in Lifelong Learning and Healthy Lifestyles.

We seek teaching, learning, and living that transforms, invigorates, and nurtures. We expand lasting knowledge centered in local and global communities.

College Mission

The University of Idaho’s College of Education is the state’s flagship and land-grant research college focused on the preparation of professionals for schools, the movement sciences, and workforce counselors and educators. From our commitment to develop leaders in these fields emerges our responsibility to enhance the scientific, social, economic, and cultural assets of the state and develop solutions for complex problems.

We deliver on our commitment through focused, interdisciplinary excellence in teaching, research, outreach, and engagement in a collaborative environment at our residential main campus and our regional centers. Consistent with the land-grant ideal, our outreach activities serve the state and at the same time strengthen our teaching, scholarly, and creative capacities.

Our teaching and learning include undergraduate, graduate and professional education offered through both resident instruction and extended delivery. Our scholarly and creative activities promote K-12
academic achievement, human development and wellness, global awareness, and progress in professional practice.

Conceptual Framework
University of Idaho educators CARE. Together we develop as scholar practitioners who value and professionally apply and advance:

- Cultural Proficiency;
- Assessment, Teaching, and Learning;
- Reflective Scholarship & Practice; and,
- Engagement in Community Building & Partnerships.

Course Description
This course addresses ethical, legal, and behavioral issues related to online learning, including social participation, copyright, internet safety, and etiquette and provides students with opportunities to apply their knowledge to practice.

*Theoretical Foundations of Online Learning* is a prerequisite for this course.

Course Goal and Expectations

Course Objectives

As taken from the *Idaho Standards for Online Teachers [ISOT]*.

Students will:

- Understand the central concepts, tools of inquiry, and structures in online instruction and create learning experiences that take advantage of the transformative potential in online learning environments (ISOT #1).
- Understand how students learn and develop, and provide opportunities that support their intellectual, social, and personal development (ISOT #2).
- Understand how students differ in their approaches to learning and create instructional opportunities that are adapted to learners with diverse needs (ISOT #3).
- Understand and use a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills (ISOT #4).
- Understand individual and group motivation and behavior and create a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation (ISOT #5).
- Use a variety of communication techniques including verbal, nonverbal, and media to foster inquiry, collaboration, and supportive interaction in and beyond the classroom (ISOT #6).
- Plan and prepare instruction based upon knowledge of subject matter, students, the community, and curriculum goals (ISOT #7).
- Become reflective practitioners who demonstrate a commitment to professional standards and are continuously engaged in purposeful mastery of the art and science of online teaching (ISOT #9).
• Interact in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well being (ISOT #10).

Goals of Curriculum and Instruction

• **Philosophy and Educational Organizations** – CI Masters degree graduates have a comprehensive understanding of the philosophical, historical, social, political and cultural understanding of schools and society.

• **Curriculum** – CI Masters degree graduates understand that curriculum should be relevant, engaging, challenging, and integrative for the learner. They know how to select, adapt and reflect on theories and engage in reflective practices in light of curriculum standards, theories, models and learners.

• **Instruction** – CI Masters degree graduates understand the principles of instruction know a wide variety of teaching strategies and learning theories and incorporate relevant technologies while teaching core concepts, skills of inquiry, problem posing/solving, collaboration, and communication to facilitate student learning.

• **Assessment and Evaluation** – CI Masters degree graduates analyze and understand the various roles of multiple types of assessments for monitoring, evaluating and responding to student learning; they understand, develop, use and critique formal, informal, and performance assessment techniques, including local, state, and national assessment systems to improve student learning.

• **Research** – CI Masters degree graduates, as critical consumers of educational research, appreciate the role of educational research for informing practice. M.Ed. graduates develop the skills to conduct classroom research. M.S. graduates, as producers of educational research, collect and analyze data, and formally share their research findings.

• **Diversity** – CI Masters degree graduates understand human diversity as a valued component of educational systems; understand how to appropriately engage with diverse population; effectively structure learning experiences with diverse population; and effectively engage with diverse populations of students, parents, and colleagues.

• **Subject Knowledge** – CI Masters degree students demonstrate their knowledge of the content that they teach through the admissions requirements and/or through content coursework that is included in the degree.

Required Readings and Learning Resources

This course espouses the values of open education and utilizes open educational resources to achieve its objectives. As such, all necessary reading materials will be provided to students at no cost.

Students will complete reading assignments on the following topics (addressing the listed standards):

• Connectivism
  • OTE.1.K.2: The online teacher understands the role of online teaching in preparing students for the global community of the future.
  • OTE.1.K.3: The online teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the field of online teaching and learning.
  • OTE.1.K.4: The online teacher understands the relationship between online education and other subject areas and real life situations.
o OTE.4.K.1: The online teacher understands the techniques and applications of various online instructional strategies (e.g., discussion, student-directed learning, collaborative learning, lecture, project-based learning, forum, small group work).

- Open educational resources
  o OTE.1.K.3: The online teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the field of online teaching and learning.
  o OTE.4.K.2: The online teacher understands appropriate uses of learning and/or content management systems for student learning.

- Personal learning networks
  o OTE.1.K.4: The online teacher understands the relationship between online education and other subject areas and real life situations.
  o OTE.1.K.5: The online teacher understands the relationship between online teaching and advancing technologies.
  o OTE.10.P.1: The online teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well being.
  o OTE.4.K.1: The online teacher understands the techniques and applications of various online instructional strategies (e.g., discussion, student-directed learning, collaborative learning, lecture, project-based learning, forum, small group work).
  o OTE.4.K.2: The online teacher understands appropriate uses of learning and/or content management systems for student learning.
  o OTE.9.K.1: The online teacher understands the need for professional activity and collaboration beyond school (e.g. professional learning communities).

- Personal learning environments
  o OTE.1.K.5: The online teacher understands the relationship between online teaching and advancing technologies.
  o OTE.4.K.1: The online teacher understands the techniques and applications of various online instructional strategies (e.g., discussion, student-directed learning, collaborative learning, lecture, project-based learning, forum, small group work).
  o OTE.4.K.2: The online teacher understands appropriate uses of learning and/or content management systems for student learning.
  o OTE.9.K.1: The online teacher understands the need for professional activity and collaboration beyond school (e.g. professional learning communities).

Optional Readings and Learning Resources

Given the nature of this course’s materials, available resources and understandings change and evolve rapidly. For this reason, optional reading materials and other media (e.g., videos) will be made available to students periodically.

Learning Activities and Assignments

Students will attend synchronous online class sessions and group meetings (e.g., working groups and discussion groups). Attendance will be taken for these meetings and will count toward the final attendance and participation grade.

Students will reflect on their reading assignments in blogs and via other asynchronous media and will respond to one another. These reflections and responses will be graded for completeness.
Performance tasks will be completed during the course of the semester and may require individual completion or team completion. Performance tasks for this course with accompanying standards include:

- Discussion leadership and reflection
  - OTE.1.P.2: The online teacher demonstrates application of communication technologies for teaching and learning (e.g., Learning Management System [LMS], Content Management System [CMS], email, discussion, desktop video conferencing, and instant messaging tools).
  - OTE.1.P.3: The online teacher demonstrates application of emerging technologies for teaching and learning (e.g., blogs, wikis, content creation tools, mobile technologies, virtual worlds).
  - OTE.1.P.5: The online teacher demonstrates the use of design methods and standards in course/document creation and delivery.
  - OTE.10.P.1: The online teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well being.
  - OTE.3.P.3: The online teacher coordinates learning experiences with adult professionals (e.g., parents, local school contacts, mentors).
  - OTE.4.D.3: The online teacher promotes student reflection using collaborative tools to reveal and clarify students' conceptual understanding and thinking, planning, and creative processes.
  - OTE.5.P.1: The online teacher establishes a positive and safe climate in the classroom and participates in maintaining a healthy environment in the school or program as a whole (e.g., digital etiquette, Internet safety, Acceptable Use Policy [AUP]).
  - OTE.5.P.3: The online teacher uses effective time management strategies (e.g., timely and consistent feedback, provides course materials in a timely manner, use online tool functionality to improve instructional efficiency).
  - OTE.6.P.1: The online teacher is a thoughtful and responsive communicator.
  - OTE.6.P.2: The online teacher models effective communication strategies in conveying ideas and information and in asking questions to stimulate discussion and promote higher-order thinking (e.g., discussion board facilitation, personal communications, and web conferencing).
  - OTE.6.P.3: The online teacher demonstrates the ability to communicate effectively using a variety of mediums.
  - OTE.6.P.4: The online teacher adjusts communication in response to cultural differences (e.g., wait time and authority).
  - OTE.7.P.5: The online teacher designs course content to facilitate interaction and discussion.

- Online debate
  - OTE.1.K.3: The online teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the field of online teaching and learning.
  - OTE.10.P.1: The online teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well being.
OTE.5.P.1: The online teacher establishes a positive and safe climate in the classroom and participates in maintaining a healthy environment in the school or program as a whole (e.g., digital etiquette, Internet safety, Acceptable Use Policy (AUP)).

OTE.6.P.1: The online teacher is a thoughtful and responsive communicator.

OTE.6.P.2: The online teacher models effective communication strategies in conveying ideas and information and in asking questions to stimulate discussion and promote higher-order thinking (e.g., discussion board facilitation, personal communications, and web conferencing).

OTE.6.P.3: The online teacher demonstrates the ability to communicate effectively using a variety of mediums.

OTE.6.P.4: The online teacher adjusts communication in response to cultural differences (e.g., wait time and authority).

Open educational resource evaluation

OTE.1.P.1: The online teacher utilizes current standards for best practices in online teaching to identify appropriate instructional processes and strategies.

OTE.1.P.5: The online teacher demonstrates the use of design methods and standards in course/document creation and delivery.

OTE.2.P.4: The online teacher constructs learning experiences that take into account students’ physical, social, emotional, moral, and cognitive development to influence learning and instructional decisions. (Physical (e.g., Repetitive Use Injuries, Back and Neck Strain); Sensory Development (e.g., Hearing, Vision, Computer Vision Syndrome, Ocular Lock); Conceptions of social space (e.g., Identity Formation, Community Formation, Autonomy); Emotional (e.g., Isolation, cyber-bullying); Moral (i.e., Enigmatic communities, Disinhibition effect, Cognitive, Creativity)).

OTE.3.D.1: The online teacher is familiar with legal mandates stipulated by the Americans with Disabilities Act (ADA), the Individuals with Disabilities Education Act (IDEA), the Assistive Technology Act and Section 508 requirements for accessibility.

OTE.3.P.1: The online teacher knows how adaptive/assistive technologies are used to help people who have disabilities gain access to information that might otherwise be inaccessible.

Create your own OER library

OTE.1.P.4: The online teacher demonstrates application of advanced troubleshooting skills (e.g., digital asset management, firewalls, web-based applications).

OTE.1.P.6: The online teacher demonstrates knowledge of access, equity (digital divide) and safety concerns in online environments.

OTE.7.P.2: The online teacher maintains accuracy and currency of course content, incorporates internet resources into course content, and extends lesson activities.

OTE.7.P.3: The online teacher designs and develops subject-specific online content.

OTE.7.P.4: The online teacher uses multiple forms of media to design course content.

OTE.7.P.6: The online teacher designs course content that complies with intellectual property rights and fair use standards.

Open educational resource development

OTE.1.P.2: The online teacher demonstrates application of communication technologies for teaching and learning (e.g., Learning Management System [LMS], Content Management System [CMS], email, discussion, desktop video conferencing, and instant messaging tools).
The online teacher demonstrates application of emerging technologies for teaching and learning (e.g., blogs, wikis, content creation tools, mobile technologies, virtual worlds).

The online teacher modifies, customizes and/or personalizes activities to address diverse learning styles, working strategies and abilities (e.g., provide multiple paths to learning objectives, differentiate instruction, strategies for non-native English speakers).

The online teacher uses a variety of instructional tools and resources to enhance learning (e.g., LMS/CMS, computer directed and computer assisted software, digital age media).

The online teacher designs and develops subject-specific online content.

The online teacher designs course content that complies with intellectual property rights and fair use standards.

The online teacher has participated in an online course and applies experiences as an online student to develop and implement successful strategies for online teaching environments.

Field Work

This course will not include any field work.

Grading Policy

Attendance and participation will account for 20% of the final grade.

Reading reflections and responses will account for 20% of the final grade.

Performance tasks will account for 60% of the final grade.

Final grades and all graded assignments will use the following scale:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>90-100</td>
</tr>
<tr>
<td>B</td>
<td>80-89</td>
</tr>
<tr>
<td>C</td>
<td>70-79</td>
</tr>
<tr>
<td>D</td>
<td>65-69</td>
</tr>
<tr>
<td>F</td>
<td>0-64</td>
</tr>
</tbody>
</table>

Academic Integrity

The University of Idaho has as one of its core values the ideal of academic honesty and integrity. University of Idaho students live and work in a collegiate community which emphasizes their responsibility for helping to determine and enforce appropriately high standards of academic conduct. The faculty of the University of Idaho expects all students to adhere to the highest standards of
academic honesty, and to refrain from any action which infringes upon academic freedom of other members of the academic community. Please refer to the University of Idaho - Student Code of Conduct Article II-Academic Honesty.

Suggested Course Schedule of Activities Format

The instructor and students will co-construct the course schedule of activities (along with due dates for major assignments and readings) on the first day of class.

University of Idaho Classroom Learning Civility Clause

In any environment in which people gather to learn, it is essential that all members feel as free and safe as possible in their participation. To this end, it is expected that everyone in this course will be treated with mutual respect and civility, with an understanding that all of us (students, instructors, professors, guests, and teaching assistants) will be respectful and civil to one another in discussion, in action, in teaching, and in learning.

Should you feel our classroom interactions do not reflect an environment of civility and respect, you are encouraged to meet with your instructor during office hours to discuss your concern. Additional resources for expression of concern or requesting support include the Dean of Students office and staff (5-6757), the UI Counseling & Testing Center’s confidential services (5-6716), or the UI Office of Human Rights, Access, & Inclusion (5-4285).

University of Idaho (UI) Nondiscrimination Policy

It is UI policy to prohibit and eliminate discrimination on the basis of race, color, national origin, religion, sex, sexual orientation and gender identity/expression, age, disability, or status as a Vietnam-era veteran. This policy applies to all programs, services, and facilities, and includes, but is not limited to, applications, admissions, access to programs and services, and employment. Such discrimination is prohibited by titles VI and VII of the Civil Rights Act of 1964, title IX of the Educational Amendments of 1972, sections 503 and 504 of the Rehabilitation Act of 1973, the Vietnam Era Veterans' Readjustment Assistance Act of 1974, the Age Discrimination Act of 1975, the Age Discrimination in Employment Act Amendments of 1978, the Americans with Disabilities Act of 1990, the Civil Rights Act of 1991, other federal and state statutes and regulations, and university commitments (see Faculty Staff Handbook (FSH) 3060). Sexual harassment violates state and federal law and policies of the Board of Regents, and is expressly prohibited, as stated in FSH 3220. The University of Idaho also prohibits discrimination on the basis of sexual orientation, as stated in FSH 3215. The entire FSH can be accessed online at http://www.webs.uidaho.edu/fsi. Questions or concerns about the content and application of these laws, regulations or University policy may be directed to: the Office of Human Rights, Access & Inclusion (208-885-4285); Regional Office for Civil Rights, U.S. Department of Education in Seattle (206-220-7900); Equal Employment Opportunity Commission, Seattle District Office (206-220-6883); or Pacific Regional Office of Federal Contract Compliance Programs, U.S. Department of Labor in San Francisco (415-848-6969). Complaints about discrimination or harassment should be brought to the attention of the Office of Human Rights, Access & Inclusion (885-4285). Retaliation for bringing forward a complaint is prohibited by FSH 3810.

Library Resources (On Campus Classes)
As a UI student, you not only have access to valuable print and electronic resources from the university's library, but you also have the ability to set up a personalized reference appointment with one of the librarians. If you have assignments or research questions and aren’t sure how to make the most of library resources, feel free to contact the College of Education liaison librarian with questions: Rami Attebury, 885-2503, rattebur@uidaho.edu. As always, you may also stop by the reference desk anytime Monday to Thursday 9 to 9, Friday 9 to 5, and Sunday 1-9, 208-885-6584, or visit http://www.lib.uidaho.edu for email or IM assistance.

**Library Resources (Distance Education/Centers Classes)**

As a UI student from outside of Moscow, you have access to valuable electronic and print resources from the university's library. To learn more about using library resources from a distance, visit the library's Off-Campus Access webpage at http://www.lib.uidaho.edu/offcampus/index.html. Live reference/research assistance is available Monday to Thursday 9 a.m. to 9 p.m., Friday 9 a.m. to 5 p.m., and Sunday 1 to 9 p.m. Just call 208-885-6584, email libref@uidaho.edu, text 208-856-0814, or IM from http://www.lib.uidaho.edu. In addition, please feel free to contact the College of Education liaison librarian, Rami Attebury, directly at 208-885-2503 or rattebur@uidaho.edu.
Submitted by:
Paul Gathercoal, Ph.D.
Professor & Chair,
Curriculum & Instruction Department

The Department of Curriculum and Instruction at the University of Idaho seeks approval to revise the current ESL program of study to meet current Idaho teacher certification standards.

This program of study would consist of four (4) three-credit hour courses and two (2) four credit courses which would address all necessary Idaho Language Development standards within a 20-credit hour program. By keeping the endorsement to 20-credit hours, students would be allowed to both complete the endorsement while enrolled as undergraduates and to apply coursework to a Master’s degree in Curriculum and Instruction if desired.

Required courses would include the following:

**EDCI 302 Teaching Culturally Diverse Learners (4 cr):** An examination of cultural and linguistic diversity in classrooms. Explores strategies for creating the culturally inclusive classroom that values diversity and supports student success. Examines the use of instructional planning as a tool for motivation and classroom management. Includes 45 hours of practicum in K-12 classrooms.

**Engl 441/Anth 441 Introduction to the Study of Language (3 cr):** Surveys of sound patterns, morphological processes and syntactic structures; questions of language acquisition, variation, and history; exercises from a variety of languages, with emphasis on American English.

**EDCI 4xx/5xx Introduction to ENL (3 cr):** In this course, students will be introduced to the evolution, research, and current federal and state legal mandates of ENL education, the processes of language acquisition and development, and the role that culture plays in students’ educational experiences. The students will begin to apply Language Acquisition Theory to their lesson planning, aligning their instruction to ELD and CCSS.

**EDCI 431 and 441 (for secondary education majors) OR EDCI 320 and 409 (for elementary education majors) (4 cr):**

**EDCI 431 Secondary English Methods (3 cr):** Specific methods, research, curricula, and media in teaching Secondary English Methods.

**EDCI 441 Secondary English Practicum (1 cr):** Implementation of Secondary English methods, research, curricula and technology in secondary classrooms. Course will include 30 hours in grade 6-12 classrooms and 15 hours of associated scheduled activities.

**EDCI 320 Teaching Reading and Literacy (3 cr):** Foundations of literacy and the methods and strategies involved in the teaching of reading. Topics include: phonological awareness, phonemic awareness, and phonics; vocabulary; fluency; comprehension.

**EDCI 409 Integrated Methods Practicum II (1 cr):** Implementation of literacy and arts methods, research, curricula, and technology in elementary classrooms. Course will include 30 hours in K-8 classrooms and 15 hours of associated scheduled activities.

**EDCI 4xx/5xx ENL Methods (3 cr):** In this course, students will learn how to incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards. Students will learn how to measure the
level of English Language Proficiency, become familiar with the state English Language Proficiency assessment, and learn how to interpret data and explain the results of standardized assessments to students with limited English proficiency, the students' families, and to colleagues.

**EDCI 4xx/5xx ENL Practicum (3 cr):** Guided observation, supervised instruction, and comprehensive team and independent teaching of English Language Learners in school settings.

Through these courses, students will build and demonstrate necessary knowledge, dispositions, and skills as aligned with the Idaho Standards for teaching English as a New Language. A detailed alignment map of course artifacts and performance assessments to English Language Development teaching standards is provided in the attached Framework for Teaching table.
### Framework for Teaching Domain # 1: Planning and Preparation

*(Correlated to Idaho Core Teacher Standards 1, 2, and 7)*

- Demonstrating knowledge of content and pedagogy
- Demonstrating knowledge of students
- Selecting instructional goals
- Designing coherent instruction
- Assessing student learning

#### Standard #1: Knowledge of Subject Matter

*The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.*

7. The teacher understands appropriate accommodations for language learners being tested in the content areas.

8. The teacher understands how to use data to make informed decisions about program effectiveness.
UNIVERSITY CURRICULUM COMMITTEE
Curriculum Change Form

Instructions: Clearly mark all changes using Track Change or strikethroughs for deletions and underlines for additions. Following the approval of the appropriate college curriculum committee, a single representative for the college will e-mail the completed form to the Academic Publications Editor in the Registrar’s Office, ctibals@uidaho.edu for review by the University Curriculum Committee (UCC).

Deadline: This form must be submitted to the Academic Publications Editor by October 15th for inclusion in the next available General Catalog and to be available for scheduling beginning with the next summer semester.

Curriculum Information

Degree: |
Major: |
Minor: |
Academic Certificate: |

English as a Second New Language

Curriculum:

A teaching major in English as a second new language is not offered.

21-20 Credit English as a Second New Language Teaching Minor

Modern foreign language (100-level or above) (4 cr)

Cultural diversity (i.e. Anth 261) (3 cr)

EDCI 302 (4 cr)

EDCI 431 and EDCI 441 (4 cr) OR EDCI 320 and EDCI 409 (4 cr)

English language and linguistics course (e.g., Engl 441 or Anth 441) (3 cr)

Introduction to ENL (EDCI 4XX/5XX) (3 credits)

ESL methods (EDCI 437/EDCI 447) (4 cr)

ENL methods (EDCI 4XX/EDCI 5XX) (3 cr)

Theory, philosophical foundations, testing/identification of limited English proficient students, or applied linguistics in ESL (i.e. Engl 441, Engl 442 or Engl 443) (3 cr)

Practicum or field experience in ESNL (i.e. EDCI 402, EDCI 597) (43 cr)

At least one course in English language and linguistics (Engl 441, Engl 442, Engl 443) (3 cr)

Electives to total 21 credits (Anth 427/Soc 427 Racial and Ethnic Relations is recommended)
### Rationale Information

Rationale for approval of this request; include any relevant assessment information pertinent to the proposed change in this program:

|These changes will help meet Idaho State standards for teacher endorsement in ENL. While the English department offers courses that primarily prepare students to teach adults in an overseas setting, currently these courses do not meet the state requirements for preparing teachers to instruct and pass assessments required to teach English Language Learners in K-12 settings in the United States in general and Idaho in particular.|

Standard 1: Knowledge of Subject Matter:
The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful to students

Knowledge

1. The teacher understands the evolution, research, and current federal and state legal mandates of ENL education X
2. The teacher understands and knows how to identify differences and the implications for implementation in ENL approaches and models X X
3. The teacher understands and is able to distinguish between forms, functions, and contextual usage of social and academic language. X

5. The teacher possesses the language proficiency at the advanced level as defined in the ACTFL Proficiency Guidelines in listening, speaking, reading, and writing, in English necessary to facilitate learning of academic language in the content area(s) (Federal Requirement)

7. The teacher understands the articulatory system, various registers, dialects, linguistic structures, vocabulary, and idioms of the English language. X

Performance

2. The teacher is articulate in key linguistic structures and exposes students to the various registers, dialects, and idioms of the English language

3. The teacher uses knowledge of language and content standards and language acquisition theory content areas to establish goals, design curricula and instruction, and facilitate student learning in a manner that builds on students' linguistic and cultural diversity.
4. The teacher demonstrates instructional strategies that an understanding of the variety of purposes that languages serve, distinguish between forms, functions, and contextual usage of social and academic language.

5. The teacher designs and implements activities that promote inter-cultural exploration, engaged observation, listening, speaking, reading, and writing.

**Standard 2: Knowledge of Human Development and Learning**

The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

**Knowledge**

1. The teacher understands the processes of language acquisition and development, and the role that culture plays in students' educational experiences. 

2. The teacher understands the advantages of bilingualism, biliteracy, and multiculturalism

   |   |   | 
   |---|---|---|
   | X | X | X |

**Performance**

1. The teacher plans and delivers instruction using knowledge of the role of language and culture in intellectual, social, and personal development.

2. The teacher integrates language and content instruction appropriate to the students' stages of language acquisition.

3. The teacher facilitates students' use of their primary language as a resource to promote academic learning and further development of the second language.

4. The teacher uses effective strategies and approaches that promote bilingualism, biliteracy, and multiculturalism.
Standard 3: Modifying Instruction for Individual Needs- the teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.

Knowledge

1. The teacher understands the nuances of culture in structuring academic experiences.  

2. The teacher understands how a student's first language may influence second language production (ex: accent, code-switching, inflectional endings).  

3. The teacher understands there is a distinction between learning disabilities/giftedness and second language development.  

4. The teacher understands how and when to provide appropriate accommodations that allow students to access academic content.  

Performance

1. The teacher promotes respect for diverse cultures by facilitating open discussion, treating all students equitably, and addressing individual student needs.  

2. The teacher utilizes strategies that advance accuracy in students' language production and socio-culturally appropriate usage with an understanding of how these are influenced by the first language.  

3. The teacher collaborates with other area specialists to distinguish between issues of learning disabilities/giftedness and second language development.  

4. The teacher provides appropriate accommodations that allow students to access academic content.  

Standard 4: Multiple Instructional Strategies- The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.

Knowledge

...
1. The teacher knows how to adapt lessons, textbooks, and other instructional materials, to be culturally and linguistically appropriate to facilitate linguistic and academic growth of language learners.

2. The teacher has a repertoire of effective strategies that promote students' critical thinking and problem solving at all stages of language development

Performance

1. The teacher selects, adapts, creates and uses varied culturally and linguistically appropriate resources related to content areas and second language development.

2. The teacher employs a repertoire of effective strategies that promote students' critical thinking and problem solving at all stages of language development.

Standard 5: Classroom Motivation and Management Skills- The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher understands the influence of culture on student motivation and classroom management.

Performance

1. The teacher demonstrates a culturally responsive approach to classroom management.

Standard 6: Communication Skills- The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.

Knowledge
1. The teacher understands that language is a system that uses listening, speaking, reading, and writing for social and academic purposes.

2. The teacher understands how to design active and interactive activities that promote proficiency in the four domains of language.

3. The teacher understands the extent of time and effort required for language acquisition.

Performance

1. The teacher demonstrates competence in facilitating students' acquisition and use of language in listening, speaking, reading, and writing for social and academic purposes.

2. The teacher uses active and interactive activities that promote proficiency in the four domains of language.

3. The teacher communicates to students, their families, and stakeholders the extent of time and effort required for language acquisition.

Standard 7: Instructional Planning Skills-
The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.

Knowledge

1. The teacher understands how to incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.

Performance

1. The teacher creates and delivers lessons that incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.
Standard 8: Assessment of Student Learning- The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness,

Knowledge

1. The teacher understands variations in assessment of student progress that may be related to cultural and linguistic differences. X X

3. The teacher understands how to measure the level of English Language Proficiency X X

4. The teacher understands the relationship and difference between levels of language proficiency and students' academic achievement. X X

5. The teacher is familiar with the state English Language Proficiency assessment X X

6. The teacher knows how to interpret data and explain the results of standardized assessments to students with limited English proficiency, the students' families, and to colleagues. X X

7. The teacher understands appropriate accommodations for language learners being tested in the content areas. X

8. The teacher understands how to use data to make informed decisions about program effectiveness. X

Performance

1. The teacher selects and administers assessments suited to the students' culture, literacy and communication skills.

2. The teacher uses a combination of observation and other assessments to make decisions about appropriate program services for language learners.

**College Vision**
The College of Education envisions being a leading, diverse, nationally recognized educational community. Our caring faculty members and innovative curriculum are:

- Preparing professionals through integrated programs grounded in research
- Generating and evaluating knowledge through disciplinary and interdisciplinary scholarship
- Informing professional practice and community life through the exchange and utilization of knowledge

Together, our college community is achieving this vision through a culture of openness, innovation, and collaboration.

**College Mission**
The College of Education enriches lives by advancing excellence in research and practice in education, leadership, and applied human arts and sciences (adopted January 27, 2005).

**Conceptual Framework**
University of Idaho educators CARE. Together we develop as scholar practitioners who value and professionally apply and advance:

- Cultural Proficiency;
- Assessment, Teaching, and Learning;
- Reflective Scholarship & Practice; and,
- Engagement in Community Building & Partnerships.

**Course Description**
This course is part of planned program of studies in the College of Education at the University of Idaho. In this course, students will learn how to incorporate students’ diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards. Students will learn how to measure the level of English Language Proficiency, become familiar with the state English Language Proficiency assessment, and learn how to interpret data and explain the results of standardized assessments to students with limited English proficiency, the students' families, and to colleagues.

**Prerequisite(s)**
Admission to teacher education program.

**Course Goals and Expectations**
By the end of this course, students will be able to plan and implement methods of instruction for English language learners in a k-12 grade setting.

**Course Objectives**
1. Understand and know how to identify differences and the implications for implementation in ENL approaches and models
2. The teacher understands and is able to distinguish between forms, functions, and contextual usage of social and academic language.
3. Understand the processes of language acquisition and development, and the role that culture plays in students' educational experiences.
4. The teacher understands the nuances of culture in structuring academic experiences.
5. Understand how a student's first language may influence second language production (ex: accent, code-switching, inflectional endings)
6. Understand there is a distinction between learning disabilities/giftedness and second language development
7. The teacher knows how to adapt lessons, textbooks, and other instructional materials, to be culturally and linguistically appropriate to facilitate linguistic and academic growth of language learners.
8. Understand how and when to provide appropriate accommodations that allow students to access academic content.
9. The teacher has a repertoire of effective strategies that promote students’ critical thinking and problem solving at all stages of language development
10. The teacher understands the influence of culture on student motivation and classroom management.
11. Understand that language is a system that uses listening, speaking, reading, and writing for social and academic purposes.
12. The teacher understands how to design active and interactive activities that promote proficiency in the four domains of language.
13. Understand the extent of time and effort required for language acquisition.
14. Understand how to incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.
15. Understand variations in assessment of student progress that may be related to cultural and linguistic differences.
16. Understand how to measure the level of English Language Proficiency.
17. Understand the relationship and difference between levels of language proficiency and students' academic achievement.
18. Be familiar with the state English Language Proficiency assessment.
19. The teacher understands appropriate accommodations for language learners being tested in the content areas.
20. Know how to interpret data and explain the results of standardized assessments to students with limited English proficiency, the students' families, and to colleagues.
21. Use multiple instructional strategies, including the principles of second language acquisition, to address student academic language ability levels and cultural and linguistic backgrounds and show positive impact on student learning.
22. The teacher understands how to use data to make informed decisions about program effectiveness.
23. Apply principles of differentiated instruction, including theories of language acquisition, stages of language, and academic language development, in the integration of subject matter across the content areas of reading, mathematical, scientific, and aesthetic reasoning.
24. Implement appropriate classroom instruction and management principles, processes and practices to foster a safe, positive, student-focused learning environment, including sheltered instruction connected to communities within the classroom and the school instruction.
25. Plan and/or adapt standards-based curricula that is personalized to the diverse needs of each student.
26. Plan and/or adapt student-centered curricula that engages students in a variety of culturally responsive, developmentally, and age appropriate strategies.

**Teacher Preparation Standards**

1. **Knowledge of Subject Matter:** The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and can create learning experiences that make these aspects of subject matter meaningful for students.
2. **Knowledge of Human Development and Learning:** The teacher understands how children learn and develop, and can provide learning opportunities that support their intellectual, social and personal development.
3. **Adapting Instruction for Individual Needs:** The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to diverse learners.
4. **Multiple Instructional Strategies:** The teacher understands and uses a variety of instructional strategies to encourage students’ development of critical thinking, problem solving, and performance skills.
5. **Classroom Motivation and Management:** The teacher uses an understanding of individual and group motivation and behavior to create a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.
6. **Communication Skills:** The teacher uses knowledge of effective verbal, nonverbal, and media communication techniques to foster active inquiry, collaboration, and supportive interaction in the classroom.

7. **Instructional Planning Skills:** The teacher plans instruction based upon knowledge of subject matter, students, and curriculum goals.

8. **Assessment of Student Learning:** The teacher understands and uses formal and informal assessment strategies to evaluate and ensure the continuous intellectual, social, and physical development of the learner.

9. **Professional Commitment and Responsibility:** The teacher is a reflective practitioner who continually evaluates the effects of his/her choices and actions on others (students, parents, and other professionals in the learning community) and who actively seeks out opportunities to grow professionally.

10. **Partnerships:** The teacher fosters relationships with school colleagues, parents, and agencies in the larger community to support students’ learning and well-being.

**Teacher Education Dispositions**

- Attends regularly.
- Meets timeline commitments.
- Dress/Appearance is appropriate and professional.
- Maintains appropriate relationships with peers.
- Scholar-practitioner demonstrates adequate content knowledge that is current.
- Engaged, full participation and takes initiative.
- Maintains confidentiality and is ethical.
- Maintains appropriate relationships with students.
- Committed to and facilitates student's learning in a safe climate.
- Maintains appropriate relationships with teachers, administration, parents, and community members.
- Respects and advocates for diversity.
- Responds appropriately to feedback and is flexible.
- Written work communicates clearly and accurately, and is in Standard English.
- Verbal communication is clear, accurate, appropriate to the situation, and conventions used are standard for speaking situations.

**Required Readings and Learning Resources:**

- Books on Reserve in IMTC or on loan from the instructor
- Other required readings as assigned (either handouts or on reserve)

**Student Behavior:** Please refrain from bringing in food for consumption during class. Beverages are ok. No cell phone use, surfing the net, texting, or otherwise off-task and distracting behavior, please.

**Academic Integrity:**
The University of Idaho has as one of its core values the ideal of academic honesty and integrity. University of Idaho students live and work in a collegiate community which emphasizes their responsibility for helping to determine and enforce appropriately high standards of academic conduct.
The faculty of the University of Idaho expects all students to adhere to the highest standards of academic honesty, and to refrain from any action which infringes upon academic freedom of other members of the academic community. Please refer to the University of Idaho - Student Code of Conduct Article II-Academic Honesty.

Using resources to help you design your own lesson plans and units is, of course, acceptable. However, your work needs to be primarily your own. Cite your sources if you adapt ideas. Lifting entire lessons, units, or even “chunks” of material is not acceptable. See me if in doubt. Plagiarism in any form is unacceptable and will result in a failing grade for this course and a report to the appropriate university officials.

Nondiscrimination Policy
The University of Idaho has a policy of nondiscrimination on the basis of race, color, religion, national origin, sex, age, disability or status as a Vietnam era veteran. This policy applies to all programs, services, and facilities, and includes, but is not limited to, applications, admissions, access to programs and services, and employment. Such discrimination is prohibited by titles VI and VII of the Civil Rights Act of 1964, title IX of the Education Amendments of 1972, sections 503 and 504 of the Rehabilitation Act of 1973, the Vietnam Era Veterans' Readjustment Assistance Act of 1974, the Age Discrimination Act of 1975, the Age Discrimination in Employment Act Amendments of 1978, the Americans With Disabilities Act of 1990, the Civil Rights Act of 1991, the Rehabilitation Act Reauthorization of 1992 and other state and federal laws and regulations. Sexual harassment violates state and federal law and policies of the Board of Regents, and is expressly prohibited, as stated in Faculty Staff Handbook (FSH) 3220. The University of Idaho also prohibits discrimination on the basis of sexual orientation, as stated in FSH 3215. The entire FSH can be accessed online at http://www.webs.uidaho.edu/fsb. Questions or concerns about the content and application of these laws, regulations or University policy may be directed to: April Preston, Human Rights Compliance Officer (885-4213); Gloria Jensen, Coordinator of Disability Support Services (885-7200); Regional Office for Civil Rights, U.S. Department of Education in Seattle (206-220-7900); Equal Employment Opportunity Commission, Seattle District Office (206-220-6883); or Pacific Regional Office of Federal Contract Compliance Programs, U.S. Department of Labor in San Francisco (415-848-6969). Complaints about discrimination or harassment should be brought to the attention of the UI Human Rights Compliance Office (885-4212 or anbutler@uidaho.edu). Retaliation for bringing forward a complaint is prohibited by FSH 3810.

Library Resources (On Campus Classes)
As a UI student, you not only have access to valuable print and electronic resources from the university's library, but you also have the ability to set up a personalized reference appointment with one of the librarians. If you have assignments or research questions and aren’t sure how to make the most of library resources, feel free to contact the College of Education liaison librarian with questions: Rami Attebury, 885-2503, rattebur@uidaho.edu. As always, you may also stop by the reference desk anytime Monday to Thursday 9 to 9, Friday 9 to 5, and Sunday 1-9, 208-885-6584, or visit http://www.lib.uidaho.edu for email or IM assistance.

Library Resources (Distance Education/Centers Classes)
As a UI student from outside of Moscow, you have access to valuable electronic and print resources from the university’s library. To learn more about using library resources from a distance, visit the library’s Off-Campus Access webpage at http://www.lib.uidaho.edu/offcampus/index.html. Live reference/research assistance is available Monday to Thursday 9 a.m. to 9 p.m., Friday 9 a.m. to 5 p.m.,
Overview of Signature Assignments and Teacher Knowledge Standards  
(AKA: What do I have to do, when is it due, and how much is it worth)

1. **Weekly positive and professional participation in in class activities, projects, presentations, discussions, and literature circles:** (30% of grade; Due: weekly; Meets Standards 1, 2, 3, 4, 5, 6, 7, 8, & 9).

   We are a community of learners, and as such it is essential that you come to class prepared and that you engage positively with your peers in classroom activities and discussions. This means that you should 1.) come to class on time and participate actively the entire session (e.g. not using your laptop, tablet, cell phone, etc. for texting, browsing, facebooking, networking, calling, completing work for other classes; not participating in side discussions, working on other assignments, or sleeping during class), and 2.) Have completed the reading assignments before class and show your comprehension through participation in quizzes, discussions and in-class activities.  
   **You will earn up to 10 points for each day of class, totaling 300 points.**

2. **Learning Logs (Initial Response to Reading):** (20% of grade; Due: weekly; Meets Standards 1, 2, 3, 4, 8, & 9).

   You will be writing reflections that are one to two typed double spaced each, no longer! This activity requires you to read and respond to the assigned chapters/article/pages for each class meeting. Make certain I can tell that you read the assignment. At the end of the chapters are writing prompts. You may use these or the more general questions below.

   If you have difficulty organizing your thinking about an assigned reading you might want to consider the following questions as you reflect on the reading:

   a. What parts of the reading did you agree or disagree with? Why did you agree or disagree with those parts?

   b. As you read, did you get a sense that any of your previous concepts of or beliefs about teaching or instruction were changing? Which ones and how were they changing?

   c. How can you apply the concepts or ideas in the reading you your classroom or grade level? What bridges or barriers might exist that would help or hurt your implementation of the concepts presented in the reading?

   d. What parts of the reading were most/least interesting to you? Why were they interesting or not interesting?
e. What is the most important concept in this reading for a classroom teacher to remember? Explain why you think this concept is the most important to be remembered.

For each Learning Log you will be scored on a 2-1-0 scale.

2 = Thoughtful response that clearly demonstrates an understanding of the reading. No errors in MUGS (Mechanics, Usage, Grammar, Spelling)

1 = I would like to read more in quantity and/or quality. It is not clear to me that you completely understood and/or completed the reading. Errors in MUGS.

0 = Not submitted on time or at all.

You will earn up to 2 points for each response, totaling 24 points.

4. Comprehensive three-four week unit: DO NOT submit the same plan you did for Content Area Reading. This should be a NEW unit. (50% Meets Standards 1, 2, 3, 4, 5, 6, 7, & 8).

Each student will create an original, comprehensive, four-five week unit plan that addresses the Common Core Language Arts standards and Idaho Language Arts or Speech/Drama standards for the secondary grade level (grades 6-12) of his or her choice. To receive full credit for this assignment, the unit plan must include the following:

a) Specific and comprehensive lesson plans for each day of the four week unit, for a 5 day week, 50 minute class, including
   • English Language Development Standards and Common Core Content standards that apply (number and brief header descriptor)
   • Observable/measurable language objectives for each level of language acquisition.
   • Specific plans for formative and summative assessment. Your use of appropriate assessments ought to reflect your understanding of Bloom’s taxonomy and the relevant verbs describing what you expect your students to know and be able to do at the end of your lesson
   • Materials and equipment needed; websites and videos listed if applicable
   • Specific reading, writing, listening and speaking methodology appropriate for language level and objectives

b) A variety of instructional approaches with limited use of teacher presentation/direct instruction.
Ad a Course Form

Instructions: Clearly mark all changes using Track Change or strikethroughs for deletions and underlines for additions. Following the approval of the appropriate college curriculum committee, a single representative for the college will e-mail the completed form to the Academic Publications Editor in the Registrar's Office, ctibbals@uidaho.edu for review by the University Curriculum Committee (UCC).

Deadline: This form must be submitted to the Academic Publications Editor by October 15th for inclusion in the next available General Catalog and to be available for scheduling beginning with the next summer semester.

Cross- and Joint-List Status

Cross-listed course are offered between two or more academic units on campus, such as a course offered in both Conservation Social Science and Political Science. Joint-listed courses are offered between two or more levels, such as undergraduate and graduate. A course may be both cross-listed and joint-listed. Clearly mark all changes using Track Change or strikethroughs for deletions and underlines for additions.

| Add, Drop, or Change of Status: |          |
| Cross-Listed Course(s):        |          |
| Joint-Listed Course(s):        |          |
| Date the affected Units approved of this change: |          |
Cooperative Course Approval (If Applicable)

Cooperatively offered courses are open to students from an approved participating institution. These students are not required to pay the UI’s tuition, but the students are responsible for any other course fees. Students participating in these courses must be degree-seeking students at their home institution.

Statement of Purpose

Co-operative programs are based on one or more of the following criteria:

- **Strengthen the academic program** -- by providing access to complementary or unique program components (faculty, facilities, or other program related information or materials).
- **Support partnerships** -- funded research/grants.
- **Provide efficiencies** -- resource and/or fiscal efficiencies that would not otherwise be available.

| Add, Drop, or Change of Status: |
| Cooperative Institution: |
| Rationale for request: |

Rationale and Assessment Information

Rationale for approval of this request; include an explanation of how the department will manage the added workload of this new course and any relevant assessment information that applies to this course:

This course will help meet Idaho State standards for teacher endorsement in ENL. While the English department offers a course that primarily prepares students to teach adults in an overseas setting, this course will prepare students for teaching in a K-12 setting, and will focus on preparing students to meet the state certification English Language Development as well as the Common Core standards. A new faculty member was hired in 2013 with a position description that includes developing and teaching this and other courses necessary for teacher certification in ENL, so the course can be managed with the current School of Education resources.

**College Vision**
The College of Education envisions being a leading, diverse, nationally recognized educational community. Our caring faculty members and innovative curriculum are:

- Preparing professionals through integrated programs grounded in research
- Generating and evaluating knowledge through disciplinary and interdisciplinary scholarship
- Informing professional practice and community life through the exchange and utilization of knowledge

Together, our college community is achieving this vision through a culture of openness, innovation, and collaboration.

**College Mission**
The College of Education enriches lives by advancing excellence in research and practice in education, leadership, and applied human arts and sciences (adopted January 27, 2005).

**Conceptual Framework**
University of Idaho educators CARE. Together we develop as scholar practitioners who value and professionally apply and advance:

- Cultural Proficiency;
- Assessment, Teaching, and Learning;
- Reflective Scholarship & Practice; and,
- Engagement in Community Building & Partnerships.

**Course Description**
In this course, students will be introduced to the evolution, research, and current federal and state legal mandates of ENL education, the processes of language acquisition and development, and the role that culture plays in students' educational experiences. The students will begin to apply Language Acquisition Theory to their lesson planning, aligning their instruction to ELD and CCSSI.

**Prerequisite(s):** Admittance into Teacher Education

**Course Goals and Expectations**
Upon successful completion of the course, teacher candidates will be able to meet the following Idaho Standards for English as a New Language teachers, as evidenced by oral, written, and performance assessments:

1. Understand the evolution, research, and current federal and state legal mandates of ENL education
2. Understand and know how to identify differences and the implications for implementation in ENL approaches and models
3. Understand the processes of language acquisition and development, and the role that culture plays in students' educational experiences.
4. Understand the advantages of bilingualism, biliteracy, and multiculturalism
5. Understand how a student's first language may influence second language production (ex: accent, code-switching, inflectional endings)
6. Understand there is a distinction between learning disabilities/giftedness and second language development
7. Understand how and when to provide appropriate accommodations that allow students to access academic content.
8. Understand that language is a system that uses listening, speaking, reading, and writing for social and academic purposes.
9. Understand the extent of time and effort required for language acquisition
10. Understand how to incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.
11. Understand variations in assessment of student progress that may be related to cultural and linguistic differences.
12. Understand how to measure the level of English Language Proficiency
13. Understand the relationship and differences between levels of language proficiency and students’ academic achievement.
14. Be familiar with the state English Language Proficiency assessment
15. Know how to interpret data and explain the results of standardized assessments to students with limited English proficiency, the students’ families, and to colleagues.

16. Use multiple instructional strategies, including the principles of second language acquisition, to address student academic language ability levels and cultural and linguistic backgrounds and show positive impact on student learning.

17. Apply principles of differentiated instruction, including theories of language acquisition, stages of language, and academic language development, in the integration of subject matter across the content areas of reading, mathematical, scientific, and aesthetic reasoning.

18. Implement appropriate classroom instruction and management principles, processes and practices to foster a safe, positive, student-focused learning environment, including sheltered instruction connected to communities within the classroom and the school instruction.

19. Plan and/or adapt standards-based curricula that is personalized to the diverse needs of each student.

20. Plan and/or adapt student-centered curricula that engages students in a variety of culturally responsive, developmentally, and age appropriate strategies.
Teacher Preparation Standards

1. **Knowledge of Subject Matter:** The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and can create learning experiences that make these aspects of subject matter meaningful for students.

2. **Knowledge of Human Development and Learning:** The teacher understands how children learn and develop, and can provide learning opportunities that support their intellectual, social and personal development.

3. **Adapting Instruction for Individual Needs:** The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to diverse learners.

4. **Multiple Instructional Strategies:** The teacher understands and uses a variety of instructional strategies to encourage students’ development of critical thinking, problem solving, and performance skills.

5. **Classroom Motivation and Management:** The teacher uses an understanding of individual and group motivation and behavior to create a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

6. **Communication Skills:** The teacher uses knowledge of effective verbal, nonverbal, and media communication techniques to foster active inquiry, collaboration, and supportive interaction in the classroom.

7. **Instructional Planning Skills:** The teacher plans instruction based upon knowledge of subject matter, students, and curriculum goals.

8. **Assessment of Student Learning:** The teacher understands and uses formal and informal assessment strategies to evaluate and ensure the continuous intellectual, social, and physical development of the learner.

9. **Professional Commitment and Responsibility:** The teacher is a reflective practitioner who continually evaluates the effects of his/her choices and actions on others (students, parents, and other professionals in the learning community) and who actively seeks out opportunities to grow professionally.

10. **Partnerships:** The teacher fosters relationships with school colleagues, parents, and agencies in the larger community to support students’ learning and well-being.

Teacher Education Dispositions

- Attends regularly.
- Meets timeline commitments.
- Dress/Appearance is appropriate and professional.
- Maintains appropriate relationships with peers.
- Scholar-practitioner demonstrates adequate content knowledge that is current.
- Engaged, full participation and takes initiative.
- Maintains confidentiality and is ethical.
- Maintains appropriate relationships with students.
- Committed to and facilitates student’s learning in a safe climate.
- Maintains appropriate relationships with teachers, administration, parents, and community members.
- Respects and advocates for diversity.
- Responds appropriately to feedback and is flexible.
- Written work communicates clearly and accurately, and is in Standard English.
Verbal communication is clear, accurate, appropriate to the situation, and conventions used are standard for speaking situations.

Required Readings and Learning Resources:
- Other required readings as assigned (either handouts or on reserve)

Assignments
The following assignments will make up your final course grade:

1.) Active, positive participation and in-class activities, discussions, and quizzes: 25%
2.) Strategy facilitation: 25%
3.) Strategy handout: 25%
4.) Differentiated lesson plan: 25%

2) Active Participation and in-class activities, discussions, and quizzes: It is essential that you not only attend, on-time, but that you actively participate in all class discussions, activities, and assignments. Attendance will be taken, and unexcused absences, excessive absences, consistent tardiness, or failure to promptly submit all assigned projects will result in reduction of the final grade. Late assignments will be reduced by 5% per day. Should you be ill or have a personal emergency, you must notify me in a timely and professional fashion. *(Meets Objectives 1, 2, 3, 4, 5, 6, 7, 8).*

3) Strategy facilitation: There are many research-based ELL and Academic Language strategies, and we cannot practice them all. You can, however, learn to uses certain strategies as exemplars for your own teaching. This “workshop” approach will help you to not only become very familiar with a strategy, but also give you another opportunity to practice your teaching/leading a class. You will be choosing a strategy from either the ones provided in class from the Schmidt & Ma (2006) and Herrell and Jordan (2008) texts, the GLAD strategies you learned, or, if you have had experience observing or using an ELL strategy in your classroom, you may choose to facilitate one of those instead. After you have chosen your strategy, you will prepare and facilitate a fifteen-twenty minute workshop for your classmates. You must in some way incorporate the ELD standard(s) you are addressing and identify adaptations for various language levels. Your classmates will be your “students,” actively participating in the strategy, and should therefore come away from your facilitation with a better understanding of the strategy and ideas for involving their students in the strategy in their own classrooms. *(Meets Objectives 1, 2, 3, 4, 5, 6, 7, 8)*

Strategy handout: Along with the facilitation of a strategy, you will create a one page handout detailing the strategy presented in class. You will post the handout to the wiki, so all students will have access to a crib-sheet version of the strategies presented in class. Your handout should include the following:

a) Name of strategy
b) ELD standard(s) addressed
c) Language level adaptations
d) Materials needed
e) Description of strategy
f) Steps for how to facilitate this strategy
g) Any other useful information

In all cases, the handout should be attractive, professional and clear enough that your peers are able to easily and effectively use them in their future current and/or future classrooms. **(Meets Objectives 1, 2, 3, 4, 5, 6, 7, 8)**

4) **Lesson plan and reflection:** You will create a lesson plan, including materials and assessments, that is aligned with the ELD and Common Core Standards and that identifies accommodations for each level of English Language Acquisition. **(Meets Objectives 1, 2, 3, 4, 5, 6, 7, 8)**

**Student Behavior:** Please refrain from bringing in food for consumption during class. Beverages are ok. No cell phone use, surfing the net, texting, or otherwise off-task and distracting behavior, please.

**Academic Integrity:**
The University of Idaho has as one of its core values the ideal of academic honesty and integrity. University of Idaho students live and work in a collegiate community which emphasizes their responsibility for helping to determine and enforce appropriately high standards of academic conduct. The faculty of the University of Idaho expects all students to adhere to the highest standards of academic honesty, and to refrain from any action which infringes upon academic freedom of other members of the academic community. Please refer to the University of Idaho - **Student Code of Conduct Article II-Academic Honesty.**

Using resources to help you design your own lesson plans and units is, of course, acceptable. However, your work needs to be primarily your own. **Cite your sources** if you adapt ideas. Lifting entire lessons, units, or even “chunks” of material is not acceptable. See me if in doubt. Plagiarism in any form is unacceptable and will result in a failing grade for this course and a report to the appropriate university officials

**Nondiscrimination Policy**
The University of Idaho has a policy of nondiscrimination on the basis of race, color, religion, national origin, sex, age, disability or status as a Vietnam era veteran. This policy applies to all programs, services, and facilities, and includes, but is not limited to, applications, admissions, access to programs and services, and employment. Such discrimination is prohibited by titles VI and VII of the Civil Rights Act of 1964, title IX of the Education Amendments of 1972, sections 503 and 504 of the Rehabilitation Act of 1973, the Vietnam Era Veterans' Readjustment Assistance Act of 1974, the Age Discrimination Act of 1975, the Age Discrimination in Employment Act Amendments of 1978, the Americans With Disabilities Act of 1990, the Civil Rights Act of 1991, the Rehabilitation Act Reauthorization of 1992 and other state and federal laws and regulations. Sexual harassment violates state and federal law and policies of the Board of Regents, and is expressly prohibited, as stated in Faculty Staff Handbook (FSH) 3220. The University of Idaho also prohibits discrimination on the basis of sexual orientation, as stated in FSH 3215. The entire FSH can be accessed online at [http://www.webs.uidaho.edu/fsh](http://www.webs.uidaho.edu/fsh).

UNIVERSITY CURRICULUM COMMITTEE
Add a Course Form

**Instructions:** Clearly mark all changes using Track Change or strikethroughs for deletions and underlines for additions. Following the approval of the appropriate college curriculum committee, a single representative for the college will e-mail the completed form to the Academic Publications Editor in the Registrar’s Office, ctibals@uidaho.edu for review by the University Curriculum Committee (UCC).

**Deadline:** This form must be submitted to the Academic Publications Editor by October 15th for inclusion in the next available General Catalog and to be available for scheduling beginning with the next summer semester.

### Submission Information

### Cross- and Joint-List Status

**Cross-listed** course are offered between two or more academic units on campus, such as a course offered in both Conservation Social Science and Political Science. **Joint-listed** courses are offered between two or more levels, such as undergraduate and graduate. A course may be both cross-listed and joint-listed. Clearly mark all changes using Track Change or strikethroughs for deletions and underlines for additions.

| Add, Drop, or Change of Status: |  |
| Cross-Listed Course(s): |  |
| Joint-Listed Course(s): |  |
| Date the affected Units approved of this change: |  |
Cooperative Course Approval (If Applicable)

Cooperatively offered courses are open to students from an approved participating institution. These students are not required to pay the UI’s tuition, but the students are responsible for any other course fees. Students participating in these courses must be degree-seeking students at their home institution.

Statement of Purpose

Co-operative programs are based on one or more of the following criteria:

- **Strengthen the academic program** -- by providing access to complementary or unique program components (faculty, facilities, or other program related information or materials).
- **Support partnerships** -- funded research/grants.
- **Provide efficiencies** -- resource and/or fiscal efficiencies that would not otherwise be available.

<table>

<tbody>
<tr>
<td>Cooperative Institution:</td>
</tr>
<tr>
<td>Rationale for request:</td>
</tr>
</tbody>
</table>

**Rationale and Assessment Information**

Rationale for approval of this request; include an explanation of how the department will manage the added workload of this new course and any relevant assessment information that applies to this course:

This course will help meet Idaho State standards for teacher endorsement in ENL. This course is different from the currently offered Modern Foreign Language Methods because it focuses on preparing students to teach English Language Learners in K-12 settings and differentiating instruction within the core content in order to meet the diverse learning needs of English Language Learners in public schools. This course will also focus on preparing students to meet the state certification English Language Development and Common Core standards. A new faculty member was hired in 2013 with a position description that includes developing and teaching this and other courses necessary for teacher certification in ENL, so the course can be managed with the current School of Education resources.

CONSENT AGENDA  
AUGUST 14, 2014
Minutes

Curriculum & Instruction Department Meeting
May 2, 2014

Minutes

Ingrid moved and Andrea seconded to approve the minutes. Motion passed.

Program Reports

CTE – Allen – Businesss & Marketing position hire is in negotiations in the Dean’s office; updating the FY15 PTE Grant; C&I updates; Assessment System and collection of CTE data; Praxis II; PTE Summer Conference is in June.

Elem Ed – Paul – Social Science search; fall & summer schedule; UI assessment system; focus group results; Advising 101; Praxis II; UledTPA; Endorsements; Complete final dispositions; endorsed a draft endorsement policy; addition to the teacher ed application form.

Sec Ed – John D. – Natural Science endorsement; ENL endorsement; Masters+Cert; Assessment course syllabus; UledTPA results; fall meeting schedule.

Ed Core – Ingrid – Social Science search; Shelley’s resignation; fall and summer schedule; UI assessment system; UledTPA; focus group results; all-college meeting.

Adv Studies – Anne K. – Masters+Cert; doctoral program course rotation; much the same as all other programs; new PC for next year is Melissa McConnell.

Spec Ed – Terry – Focus group results; adding special ed generalist standards; Master’s program handbook; prerequisite policy; specialized internship; approved one applicant for fall.

Secondary English as a New Language Endorsement

This was approved as a 12-credit endorsement; it needs to be 20. Janine has added EDCI 302 plus English Methods and Practicum or elementary literacy methods and practicum.

John D. moved to approve and Ingrid seconded. Motion passed.
Searches

Social Science Faculty

The search committee has made a recommendation to the Dean, who is in negotiations.

Business and Marketing Ed Faculty

The search committee has made a recommendation to the Dean, who is in negotiations.

Financial Tech

Shelley has resigned. A search will be underway soon to hire a new person.

Paul is proposing that we use the position description as laid out in the by-laws.

Summer and Fall 2014

Take one more look and let Teresa know about problems.

Our numbers are a bit down right now.

Endorsements

Elementary Certification with Secondary Endorsement Policy recommendation.

Option C – Special Ed Certification path is not possible, so it will be removed from the draft.

Sally wrote a proposed policy to add an endorsement for someone with an existing Idaho certificate, which was passed at the Elementary Ed meeting, with some word-smithing.

Allen moved to approve. Ingrid seconded.

Can a student do one 30-minute video to go for more than one additional endorsement? Ostensibly, yes. Keep in mind that these are students we are not familiar with, as they are returning for an additional endorsement after being a teacher for a period of time, so we want solid proof before recommending these additional endorsements.

In front of live P-12 students.

Motion passed with four abstentions.

2013 C&I Strategic Plan Evaluation Report

Everyone was asked to contribute to this. Our number of contributors is double last year’s, but only half of what could have been.

Paul shared the narrative evaluation.

Culture & Climate is our biggest need. This is an area we’ll need to work on for next year.
Some ideas have been thrown out at program meetings earlier today. Outside expertise; brown bags; tap into some of Matt Wappett’s work.

Let Paul know if you have ideas for addressing Culture and Climate.

**UI Assessment System**

Make sure your programs have done all the necessary data collection (i.e., focus groups). Everything is due by September 15.

Dan developed a guide for your reference.

**End of Academic Year Travel Funds**

If you overspent, please apply to Paul by giving him your receipts and proof of presentation.

Please let Paul know if you are going to spending money in May, June, or July so that Paul doesn’t redistribute that money.

*Shadow $$$*

Shadow dollars could be used for graduate student travel, as they can earn shadow dollars. Can be used on travel (preferably technology), technology, peripherals, and instructional materials.

**UledTPA Results**

Paul shared the results and Sally’s summary.

**Praxis II Changes**

We’ve discussed this at length and the Elementary Ed meeting. We did discover that they have until August 2015 to finish if they’re taking the old exam.

**Mental Health First Aid**

Teresa reported on the Mental Health First Aid training that she, Twila, and Julie W. attended. The presentation is attached to the agenda.

**Final Words**

**Targhee Move**

Patricia met with us and shared more information.

SUBJECT
Idaho State University (ISU) Annual Progress Report

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section I.M.3.

BACKGROUND/DISCUSSION
This agenda item fulfills the Board’s requirement for Idaho State University to provide a progress report on the institution’s strategic plan, details of implementation, status of goals and objectives and information on other points of interest in accordance with a schedule and format established by the Board’s Executive Director.

IMPACT
Idaho State University’s strategic plan drives the College’s integrated planning; programming, budgeting, and assessment cycle and is the basis for the institution’s annual budget requests and performance measure reports to the State Board of Education, the Division of Financial Management and the Legislative Services Office.

ATTACHMENTS
Attachment 1 – Annual Progress Report

BOARD ACTION
This item is for informational purposes only. Any action will be at the Board’s discretion.
Idaho State University (ISU) Annual Progress Report:

Theme: Investment in ISU System

I. Introduction:
- As the state’s only Carnegie research university, Idaho State has educational centers across southeast Idaho, including Idaho Falls, Pocatello, Twin Falls and Meridian. Each of these centers foster excellence in teaching, research and service for the state.
- Integrated support systems and processes: Financial aid, admissions, advancement, academic programs (cost effectiveness)

II. Comprehensive University with a health care mission (Teaching)
- ISU’s academic offerings include more than 275 academic and certificate programs – more than any other institution in the state
  - Early College
  - College Prep
    - Bridge and START programs
  - Certificates & professional-technical education support SBOE’s 60% completion goal and fulfilling industry demands
  - Undergraduate programs support varying backgrounds of students
    - Primarily Idaho students
    - Support Services (Benny’s pantry, daycare, etc)
    - Retention data/graduation
  - Graduate programs in key areas such as health care, energy and education
    - Accreditation (only fully-accredited, University-affiliated residency program)
    - Education

III. Research opportunities support economic development and learning (Research)
- Research grants have direct impact on Idaho’s economy
  - NSF grant = $3.8M
  - NIH grant = $1.8M
  - Naval Research grant = $2.2M
- Nuclear/energy
- Biomedical/isotopes
- Geosciences
- Research licenses/patents
- ISU’s clinical research – leader in health care
IV. Changing lives in Idaho (Service)
- ISU produces health professionals in 8 of top 11 most-needed areas
- Number of patient visits in ISU clinics
  - Last year we offered more than 54,000 patient visits in our 12 health-teaching clinics
- Leader in health care and patient advocacy
- Forefront of health care in state:
  - A&P Lab in Meridian (public/private partnership)
  - Arco Telepharmacy
    - Video (2 minutes)

V. Conclusion: Time to invest in Idaho (and ISU)
PRESIDENTS’ COUNCIL

SUBJECT
Presidents’ Council Report

BACKGROUND/DISCUSSION
President Joe Dunlap, North Idaho Community College President and current chair of the Presidents’ Council, will give a report on the recent activities of the Presidents’ Council and answer questions. The Presidents’ Council last met on August 5th, 2014.

In addition to updating the Board on recent activities of the Council, the Presidents will update the Board on their campus security plans.

ATTACHMENTS

Attachment 8 – Eastern Idaho Technical College  Page 878

BOARD ACTION
This item is intended for informational purposes only. Any action will be at the Board’s discretion.
In light of growing campus safety concerns, and recent legislation regarding the concealed carry of weapons on college campuses, North Idaho College has implemented the following initiatives:

- Contracting with Coeur d’Alene Police Department for a full time School Resource Officer
- Implementing new all-campus emergency alert software
- Outfitting current security force with ballistic vests

These are in addition to our existing “Campus Emergency Response and Crisis Protocols” which are updated annually and available upon request.
STATEMENT
In an effort to provide a safe and positive educational environment, North Idaho College prohibits the possession or use of weapons on College property or at College activities.

WEAPONS POLICY
Possession or use of weapons (as defined in the associated procedure), including firearms, while upon properties owned or controlled by the College or where College activities occur, is prohibited. Exceptions to this weapons policy exist where authorized by state law or where specifically authorized by North Idaho College. Violations of this policy may result in discipline, including, as applicable, student suspension or expulsion, termination of employment or exclusion from the College. Violators may also be subject to prosecution under applicable laws.
INTENT
It is the intent of NIC’s Weapons Policy to ensure a safe and positive educational environment at North Idaho College. The College prohibits the possession or use of weapons on College property or at College activities, subject to the limitations imposed by state and federal law and as expressly authorized by North Idaho College.

ENFORCEMENT
The Vice President for Student Services or his designee will enforce the Weapons Policy through the Office of Campus Security and/or other law enforcement personnel.

GENERAL PROHIBITION
The possession or use of weapons, including firearms, while upon properties owned or controlled by the College or where College activities occur, is prohibited.
Procedure # 7.04.01

Exceptions
The following situations are exceptions to the general prohibition of weapons at North Idaho College:

1. The lawful possession of weapons by law enforcement officers or officials.
2. Weapons in the possession of North Idaho College security officers while acting pursuant to the express written authority of the Vice President for Student Services or his designee.
3. Individuals required to possess weapons in order to Participate in programs sanctioned by the College.
4. The lawful possession, carrying, or transporting of firearms or Ammunition concealed on a person licensed under section 18-3302H or 18-3302K, Idaho Code, regarding enhanced concealed carry permit holders and qualified retired law enforcement officers.
   A. Individuals authorized under Idaho Code 18-3302H or 18-3302K are not permitted to carry firearms in the North Idaho College Residence Hall, Boswell Hall, or Christianson Gymnasium. Entrances to these facilities will be clearly posted for the prohibition of firearms.
   B. It is unlawful for a person to be under the influence of alcohol or drugs and carry a firearm in a concealed manner.

The Vice President for Student Services or his designee may grant further written exceptions.

PRIVATELY OWNED PROPERTY
Individuals must also comply with all posted signs and occupancy rules on private property being leased and used by NIC.

NIC DAYCARE
All individuals must comply with Idaho Department of Health and Welfare or other applicable authorities regarding the handling and storage of weapons.

EMPLOYMENT
Unless an employee is required by the Vice President for Student Services to carry a firearm as a part of that employee’s job duties, any possession or use of a firearm is not within the course and scope of employment with the College.

VIOLATION
Any College employee, student or member of the public who has been found in violation of this policy may be subject to disciplinary action including, as applicable, student suspension or expulsion, termination of employment or exclusion from the
College. Violators may also be subject to prosecution under applicable laws.

DEFINITIONS
1. Weapon: means a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, appears to be or is readily capable of causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than 2 1/2 inches in length.
2. Firearm: as defined by Idaho Code section 18-3302H.
3. Ammunition: means ammunition or cartridge cases, primers, bullets, or propellant powder designed for use in any firearm.
4. Concealed: means that the firearm is located on an individual’s body (or immediate extensions thereof such as a purse or backpack), is not readily ascertainable and is hidden from the ordinary sight of another person. A firearm is not concealed when it is viewable by another person, even if the revealing of the firearm is inadvertent and/or unintentional by the carrier.
FAQs for Enhanced Concealed Carry at North Idaho College

NIC leadership remains very committed to maintaining a safe work and learning environment. Threatening use or brandishing of concealed-carry weapons (or any other weapons) will not be tolerated. Please be aware that carrying a legal, concealed weapon is not, in and of itself, a disruptive or threatening act. While concealed-permit holders may have familiarity and be at ease carrying a loaded weapon, it’s asked that they be aware that many people on our campus are not familiar with handguns and are uncomfortable in their presence.

Be advised that the campus is obliged to follow this law to the letter and is not at liberty to enact policies or provisions that violate it. Any changes to the law would have to come through the state legislative process.

This Question and Answer page has been prepared to provide clarification on how the law works on the campus.

Q | What concealed carry guidelines are permit holders required to follow in order to sufficiently conceal a weapon?

Only enhanced concealed-carry permit holders are allowed to carry a weapon on campus. An enhanced concealed-carry permit requires additional firearm training such as instruction on firearms law conducted by a law enforcement officer, instruction on self-defense principles, live-fire training that includes firing a minimum of 98 rounds, and basic concepts of safe/responsible use of handguns.

The law does not define what concealed means, but permit holders must ensure that the weapon is located on the individual’s body (or their immediate belongings, such as a purse or backpack) and is not readily ascertainable. A firearm is not concealed when it is viewable by another person in ordinary observation.

Q | What weapons are covered under the concealed-carry permit?

Only firearms are covered by the statute. A firearm is a pistol, revolver, or other handgun the length of the barrel which, not including any revolving, detachable, or magazine breech, does not exceed 12 inches. All other weapons – rifles, semi-automatic weapons, knives and other edged weapons – are still not permitted on campus.
Q | Who has the authority to ask an employee or student who is carrying a concealed weapon if he or she has the appropriate permit?

Anyone is permitted to ask, but the individual asked is not required to reply unless asked by law enforcement.

Q | What does it mean to “brandish” a weapon? If someone is brandishing a weapon, what actions should be taken?

“Brandishing” is displaying a weapon in a threatening manner. If you see anyone brandishing a weapon, call the law enforcement at 911 immediately and take precautions to protect yourself (evacuate the area or retreat behind a locked door depending on the circumstances).

Q | What responsibility does an enhanced concealed-carry permit holder have to keep his or her weapon absolutely concealed? Are they violating the terms of their permit if someone gets a glimpse of their weapon?

A person with a concealed-carry permit must ensure that their weapon is concealed. If a firearm is partially viewable the authorities will be contacted and the person may be removed from campus. Any brandishing of a weapon is absolutely prohibited and will result in automatic removal from campus.

Q | Can a student who legally possesses a concealed handgun be excluded from the classroom on the grounds that the student’s presence and his or her concealed weapon constitutes a class disruption?

No. The mere act of concealing a handgun with the appropriate permit as authorized by law is not in and of itself a disruption of class activity. Enhanced concealed-carry permit holders should not be excluded from class under any supposition that their presence alone is a “disruption.” Another person’s adverse reaction to someone carrying a handgun in accordance with the concealed carry act is not grounds to eject the permit-holder from the classroom.

However, if the weapon is visible, the student may be removed from the campus/classroom until appropriate personnel have assessed the situation. Contact security with any questions.
Q | Can faculty ask a student who holds a concealed-carry permit to report that status to them?

While faculty can ask a student who has a concealed-carry permit to report that status to them, students are not required to provide this information to a faculty member. Any voluntary reporting of concealed-carry permit status by a student to a faculty member should be done privately. **Faculty should not, under any circumstances, coerce students into complying with their requests or pressure them to answer concealed carry queries.**

Q | Can staff or student employees bring a concealed weapon everywhere on campus?

No. Individuals are not permitted to carry firearms in the NIC Residence Hall, Boswell Hall, Christianson Gymnasium or Lakeside Center (NIC Children’s Center). Entrances to these facilities will be clearly posted regarding the prohibition of firearms.

Q | Can a supervisor request a list of employees who have received a concealed-carry permit?

No. The name of individuals with concealed-carry permits is not a matter of public record.

Q | Are there certain areas of the campus where, due to the nature of the work and/or workspace, an employee or student would be prohibited from carrying a concealed weapon (e.g., labs, daycare centers, and off-campus facilities)?

**General Campus:**

The only places on NIC’s main campus where concealed firearms are not permitted are the NIC Residence Hall, Boswell Hall, Christianson Gymnasium and Lakeside Center (NIC Children’s Center). An individual that is properly permitted may carry a concealed firearm in labs and other classrooms on campus.

**Lakeside Center (NIC Children’s Center):**

The Idaho Department of Health and Welfare separately regulates firearms in daycare facilities. An individual may carry a concealed firearm at NIC’s Children’s Center during drop-off or pick-up of a child. Aside from pick-up and drop-off, staff and parents are not permitted to carry concealed weapons and must keep their firearms in a locked container that is inaccessible to children. Ammunition must be kept in a separate locked container. These rules apply at all times when children are present.
Private Facilities Being Rented by NIC:

Not all locations being used by NIC are owned by the college. Private owners may prohibit the carrying of concealed weapons on their property. Students must first look to see if the building they are entering has signage prohibiting the concealed carry of weapons.

Q | Under what circumstances can a supervisor tell employees they cannot bring a concealed weapon into the office?

There are no circumstances in which issuing this kind of directive would be permitted. Appointing authorities and supervisors may ask all employees to voluntarily not bring legal concealed carry weapons into the workplace, but they cannot require it or otherwise coerce their employee(s) through the workplace relationship to comply with the request.

Unless expressly required to do so by the Vice President for Student Services, the carrying (and use) of concealed weapons by employees is not within the course and scope of employment at NIC.

Q | Can employees bring a concealed weapon to a meeting (e.g., staff meetings, disciplinary meetings, performance coaching/evaluation meetings, trainings, campus resource consultations, and interviews)?

Yes. If the employee has a valid, enhanced concealed-carry permit and the weapon is concealed in accordance with the law. For assistance in any situation of concern, such as a performance review, please contact the Office of Human Resources at Ext. 3304.

Q | If I see someone carrying a weapon on campus, should I call the police?

Yes. The safest course of action is to call the Coeur d’Alene Police by dialing “911,” followed by calling NIC Security at 769-3310. They will respond and make contact with an individual to determine if that person has a concealed-carry permit and is carrying a weapon legally. All concealed-carry permit holders are required to carry their permits on their person if they are also carrying their weapon.

Q | Can concealed carry permit holders bring their gun to a concert, athletic event, or performance?

No. All weapons (including concealed firearms) are prohibited in Boswell Hall, and Christianson Gymnasium. All weapons are also prohibited in the NIC Residence Hall.

Notes
College of Southern Idaho  
Major Emergency Guidelines*  
Emergency Response Team  
Revised August 2013

The basic emergency procedures outlined in this guide are designed to minimize local effects of disaster or other emergency situations upon the college and community through appropriate deployment and use of available personnel, facilities, and equipment, and to enhance the protection of lives and property through effective use of CSI campus resources.

Whenever an emergency affecting the campus reaches proportions THAT CANNOT BE HANDLED BY ROUTINE MEASURES, the President, or a designee, may declare a state of emergency and these contingency guidelines may be implemented. There are two general types of emergencies that may result in the implementation of this plan: (1) large-scale disorder and (2) large-scale natural or man-made disasters. Since an emergency may be sudden and without warning, these procedures are designed to be flexible to accommodate contingencies of various types of magnitudes. These procedures apply to all personnel, buildings and grounds operated by the college, to include those outside the college campus. Table-topics and field exercises will be used for training. This plan will be examined annually.

The authority to declare a campus state of emergency rests with the College President or designee.

Under ideal conditions the implementation of this Emergency Response Plan will be in three (3) phases: Advance Warning, Emergency-in-Progress and Post-Emergency/Recovery.

Advance Warning Phase:
- First Person on scene calls 911 or Security x6605.
- Security notifies President’s office.
- He, or his designee, decides whether or not to enact emergency plan.
- If enacted, emergency response team is activated and control center established.
- Planning and communication decisions are made and implemented.
- Appropriate areas notified.
- Essential services personnel are called in or retained.
- Precautionary evacuations are performed.

Emergency-in-Progress Phase:
- Director of Physical Facilities, or designee, maintains communication with Emergency Response Committee and outside safety services.
- Emergency response team activated, if no advance-phase.
- Provide First Aid, as needed.
- Provide Fire suppression, as needed.
- Initiate Damage Control operations.
- Manage employee and student issues.
- Take law enforcement and crime prevention measures as necessary.
• Provide continual feedback to control center.

Post Emergency/Recovery Phase:

• Continue first aid as needed.
• Restore damaged or lost utility services.
• Provide or manage emergency repair of structural damage.
• Remove fallen trees, debris from lines, roads, etc.
• Call back additional personnel.
• Deal with employee and student issues for continued operation of college.
• Provide debriefings for working teams and for employees.

CSI system telephones require power. Please see Page 17 for a list of phones that have direct outside connections. The outside phone lines would work if the power was on outside of CSI.

Types of emergencies covered by the emergency manual are:

• Fire or Explosion
• Reporting injuries and accidents
• Medical Emergencies
• Earthquake, flood, tornado, extreme weather
• Hazardous materials leaks/spills
• Bomb threat
• Crime in progress
• Power failure
• Disruptive persons/events
• Evacuation of persons with disabilities
• Exposure to blood or bodily fluids
• Mental Health Emergencies
• Active Shooter Situation
• Inclement Weather Closure

Details of above can be found at CSI Security web site:  http://www.csi.edu/security

Major Emergency:
Any incident, potential or actual, which affects an entire building or buildings, and/or will interrupt or disrupt the overall operations of the College.

Outside emergency services will probably be required, as well as major response from campus support services, and major policy considerations and decisions will usually be required from Administration. Examples include power outage, fire, snow emergency, bomb threat, hazmat spill, and civil disruption.

Disaster:
Any event or occurrence that seriously impairs or halts the operation of the College.
In some cases mass personnel casualties and severe property damage may be sustained. A coordinated effort of all campus resources is required to manage the situation effectively. Examples include total campus blackout, nuclear disaster, and sustained, severe weather.

Citywide disaster center:
The Gym has been designated by the Red Cross as a care center in the event of a large disaster, provided the gym is not critically needed by the college. **Do NOT use facilities as temporary morgues.**

*Parts of this plan were based on information from the web sites and printed materials of the Twin Falls School District, Idaho State University, Boise State University, Washington State University, and Bucknell University.*

**The First 30 Minutes**
What is done in the first thirty minutes of an emergency is crucial in determining people’s perception of the crisis and how it was handled.

- Have the appropriate person handle the situation. The President, or a designee, should take charge of the situation, implementing the emergency plan.
- The President, or a designee, will notify the emergency team.
- The Emergency Response team will meet in the President’s board room or, in case of power failure, the Meyerhoeffer Building that has generator capability.
- Under the circumstances, define the problem.
- Consider the options; act decisively to ensure the health and safety of students and employees and the protection of property.
- Communicate with employees; keep the news media informed.
- Decide if employees stay on campus and/or students stay in classes.
- Periodically update the students in the classrooms. Avoid having large group meetings.
- The community will be interested. To allay fears and demonstrate competence in handling the situation, get accurate information out through the news media
- Implement an Emergency Assessment and Information Sheet.
- Review tasks and begin plan implementation.
- Coordinate as appropriate with County Local Emergency Planning Team. To activate the LEPC, request them when calling 911.
- Any incident that has a potential for adverse publicity concerning the college should be reported promptly to the President.
- The authority to declare a campus state of emergency rests with the President or his designee.

---

**Emergency Assessment & Information Sheet**

Brief description of emergency:
Actions completed:

Who now knows about the emergency?

Assessment of damage or harm:
To people:
   Number of people involved
   How many accounted for
   Injuries
   Evacuation needed?  ____Yes  ____No

To buildings:
   Briefly describe damage:

Further damage potential:

Other facilities at risk:

What do you project will happen in the next two hours?

News media:
   Are media on site?  ____Yes  ____No
   Who?
   How many?

____ Insurance/claims (VP of Administration)
____ Legal (President)
____ Damage Assessment Team Long-Term Follow-up
___ After-hours Phone Tree (CSI first on site)

___ Others

Your name:

Time: Phone Number:

EMERGENCY RESPONSE TEAM

This is the core college-site team that will supervise all Emergency Response efforts. This team will also coordinate the work of sub-teams. The team should consist of, but not be limited to, the
President of CSI, the Executive VP of Instruction, VP of Administration, VP of P&D, Dean of IT, Director of HR, Director of Physical Plant, Public Safety Director, PIO, Dean of Students, Director of Counseling, and Administrative Assistant to the President.

The order of command is: President and in his absence Executive VP, VP of Administration, or VP of P & D. An emergency command center will be established in the President’s Board Room. In case of a power outage, the command center will be set up in the Meyerhoeffer building, which has generator backup.

Check the resources you need (each team member should have a backup designee noted on this list):

___ Emergency Director (President of CSI; backup: Exec. VP)
- Declares and ends emergency;
- In charge of, and initiates, the Emergency Response Team;
- Processes all information, makes all final decisions and directs all media requests;
- Assigns appropriate responsibilities to Emergency Coordinator(s);
- Serves as liaison with, city officials and community agencies;
- Works with Director of Physical Plant and others in assessing emergency and preparing college’s specific response; and
- Directs long-term follow-up as needed.

___ Emergency Coordinator(s) (Exec VP of Instruction; Director of HR) One coordinator remains in Command Center at all times and is relieved by another coordinator.
- Responsible for overall coordination of all campus emergency teams as directed by the President;
- Notifies members of the team, advising them of the nature of the emergency;
- Collects information from these teams for the President (who is doing what, how to contact them and the latest status);
- Sees that all collected information is written for ease in transition from one coordinator to another;
- Coordinates food service as necessary;
- Coordinates procurement of emergency supplies and materials;
- Coordinates employee volunteers as appropriate;
- Exec. VP manages instructional related issues.

___ Facility Emergency Coordinator (Director of Physical Plant; Asst. Dir.)
- Notifies President of emergency;
- Coordinates campus emergency response and resource teams for facilities;
- Takes immediate and appropriate action to safeguard records as necessary;
• If phones are down, establishes, with IT, emergency communication network using hand-held
radios or cell phones;
• Notifies and communicates with emergency agencies as needed, for CSI emergencies and for
community-wide emergencies;
• Assists in use of emergency equipment, handles supplies and manages safe use of available
utilities;
• Surveys critical areas and secures, or cleans up, area as needed;
• Identifies and seals off contaminated areas
• Reports chemical spills and/or releases to appropriate regulatory agency as required
• Controls main shut-off valves for gas, water, electricity, etc;
• Takes preventative measures to minimize hazards that may result from broken or downed
lines;
• Provides equipment and personnel to perform shutdown procedures, hazardous area control,
barricades, damage assessment, debris clearance, emergency repair and equipment
protection;
• Surveys campus facilities for structural damage pursuant to allowing reoccupation
• Assists with claims, record keeping and disbursement as necessary;
• Provides vehicles for movement of personnel and supplies;
• Plans a warning system to be used during a power failure
• Keeps command center apprised of situation.

CSI Incident Commander (Public Safety Director; Security Supervisor)
• Serves as liaison with public safety officials and maintains communication with them

• Takes immediate and appropriate action to protect life and property
* Provides physical security and access control for campus buildings and grounds
* Directs the actions of security teams
* May serve as the CSI representative at the public agency command post as part of the
Incident Command System (ICS)
* Arranges and coordinates required public safety services
* May act either in the field leading CSI’s emergency response efforts, maintaining liaison at
the public agency incident command post or operating out of the CSI Command Center
* Ensures the initiation of the various emergency mass notification systems (siren, group phone
intercom, phone/runner tree and RAVE)
* Coordinates with members of the CSI Safety Committee as necessary
* Keeps the CSI Command Center apprised of the situation
* Serves as the CSI representative to the Twin Falls County Local Emergency Planning
Committee
* Accomplishes an annual review of this plan and communicates updates to team members

Internal telecommunications Communications (VP of Administration; Dean of IT)
• Provides for dissemination of information within college through IT, phone trees, runners,
etc. (including the use of Building Safety Coordinators);
• Manages control to internal IT systems;
• Directs telephone inquiries to PIO, HR or Student Activities as appropriate;
- Works with facility coordinator to establish emergency communication network;
- Keeps command center apprised of situation.

___Human Resources (Director of HR; HR Department)
- Provides for the emotional and psychological well-being of employees, both during and after an emergency;
- Coordinates critical stress debriefing opportunities for employees and teams;
- Monitors their reactions to the emergency and coordinates for employees, with VP of Administration, up-to-date information regarding the emergency;
- Teams with VP of P & D, Advising, CND and EAP (MVRMC Health OCC) to assess and form action plan to assist employees in other areas of need, including on-campus care;
- Coordinates medical assistance for injured employees through Select Health;
- Coordinates next-of-kin notifications if required;
- Provides guidelines for next-of-kin notifications;
- Provides to team an accurate accounting of total number of persons injured, type of injuries sustained, current disposition of the injured, current status of family notifications;
- Assigns an HR staff member to assist dependents of injured employees, such as with insurance, EAP and workers compensation phone numbers;
- Assists with personal identification;
- Provides advice on uses of college human resources or human resource regulations;
- Keeps command center apprised of situation;

___Student Services (Dean of Students & Director of Advising)
- Provides for the emotional and psychological well-being of the students, both during and after emergency;
- Coordinates critical stress debriefing opportunities for students;
- Coordinates, with VP of P & D, availability of available shelter operations;
- Assists in the safety needs of the students;
- Arranges move of dorm residents to other areas, if necessary;
- Keeps command center apprised of situation.

___Medical/Student Health (Dean of Students; Director HSHS)
- May include setting up temporary First Aid Station;
- Coordinates campus emergency medical resources with local operations;
- Maintains liaison with Red Cross medical response personnel, as appropriate; (IRC requires a nurse on site – if they provide medical services);
- Keeps command center apprised of situation.

___Media relations (PIOs)
- Receives and coordinates all media requests;
- Provides for dissemination of information outside the school, under the direction of the President, and issues press releases;
- Designates a central location for meeting of media personnel with college representatives;
- Prepares formal announcements for entire college;
- Keeps command center apprised of situation.
• Assists Public Safety Director in initiating emergency mass notifications

Transportation Coordination (Director of Physical Plant and VP of Administration)
• May include transportation of employees and students to safe areas;
• May include transportation of emergency team members to and from homes;
• May include use of Trans IV;
• Keeps command center apprised of situation.

College Conversion to Public Shelter (VP of P & D and Director of HR)
• During major city wide or area emergencies, the President will determine if possible or feasible to have the college available as a mass care center;
• Emergency facility use will not commence until the primary responsibilities of student welfare and safety have been resolved;
• If the college is needed during school hours, dismiss all classes and release students, unless the emergency does not allow such action;
• Some employees may be asked to stay on-site and help prepare the school to serve as a first-aid station or care center;
• If the school is needed after school hours, the President will be notified at home;
• The President, or a designee should alert needed employees, using the phone tree;
• The President and PIO will provide information to the news media indicating the affected on-campus buildings;
• Coordinates with Red Cross and other supporting agencies, including LEPC;
• Coordinates with HR and Dean of Students, the care of employees and students who may be stranded, or staying, on campus;
• Keeps command center apprised of situation.

Food & Housing service (VP of P & D)
• May include mass care;
• May include employees and students on campus;
• May include emergency teams;
• Keeps command center apprised of situation.

Dorms (Dean of Students and VP of P & D)
• Coordinates use of dorms for student care, or as appropriate, other mass care;
• Keeps command center apprised of situation.

Recorder (Administrative Asst to President; Administrative Assistant, HR)
• Stays with the President and keeps notes as to what transpires throughout the day;
• Acts as a reminder to the President and creates documentation for reference and later review of team process.

Safety Committee Members
• Assists in safety training in buildings prior to emergencies;
• Serves as telephone tree, or runners, during work hours.

Damage Assessment Team (Director of Physical Plant)
• Assesses damage to college facilities;
- Keeps command center apprised of situation.

___Risk Management (VP of Administration)
- Notify insurance underwriters and appropriate state offices of disaster;
- Identifies property damage and assigns values.
Protocol for Security Responses to the Dorm (Eagle Hall)

There are several reasons why a security response would be required to the Dorms: the normal walkthroughs, a medical call, request for assistance from a law enforcement agency, a reported drug or liquor violation, a reported mental health emergency, a fire/trouble alarm, a request to admit a resident to his/her room, or other reported criminal/disciplinary issues. Each of these issues requires an appropriate response and adequate documentation from CSI Security as follows:

1. Fire Alarm
   a. Respond as in any other building – ensure that occupants have evacuated
   b. Go to the main fire panel and ascertain the source of the alarm. The fire annunciation panel adjacent to the front doors should be checked first for the location of the alarm in the building.
   c. Determine if there is fire or smoke or other indication of what created alarm
   d. If no fire/smoke/odor, call alarm company or Fire Dispatch to cancel fire department response – silence audible alarm
   e. Determine which smoke detector was activated – blow out (air can is in the office) or replace unit as necessary
   f. If Fire Department arrives allow them to reset the fire panel – Security will reset only if Fire Department does not respond and it is assured that there is no evidence of fire or smoke.
   g. Allow occupants back into the facility
   h. Document alarm and its disposition on the fire alarm clipboard, a blotter entry and if there was actually a fire - in the Crime/Fire Log and an entry in the Judicial Action system

2. Medical Call
   a. Ascertain medical status of victim – provide first aid as required
b. Request EMS response if indicated by victim’s condition (determine whether a call to 911 has already been made)

c. Assist EMS personnel as needed

d. Provide transportation to Physician’s Immediate Care or to St. Luke’s only for minor medical issues. Do not transport for any potential life threatening issue

e. Document the incident on a formal Incident Report and enter it into the Judicial Action System by the end of your shift

3. Request by Law Enforcement for Assistance

   a. Provide requested assistance if possible

   b. Notify Dorm Resident Manager (RM) and/or Resident Assistants (RA) if available. If they are not available contact the Security Supervisor or Director of Public Safety for specific guidance.

   c. Ascertain all pertinent information as to the purpose of the request, the subject of the request, the officers’ identity and a case number if available.

   d. Prepare at a minimum a blotter entry and more likely a formal Incident Report depending on the type of issue involved.

4. Reported Drug Violation

   a. Interview the reporting party – try to determine the probable cause for believing that a drug related violation has occurred

   b. Advise RM and/or RAs as appropriate. Enter a resident’s room only with the RM or RA unless an emergency situation exists

   c. If drugs are present or there is a reasonable belief that they are or have been present, immediately contact TFPD for assistance

   d. Obtain names of all parties involved

   e. Attempt to isolate the incident and request that all parties remain until the PD arrives. Have them remain outside of their room if at all possible in order to preserve any evidence

   f. Do not utilize physical force to detain parties

   g. Try to retain a chain of custody for any illegal substances found and release to law enforcement
h. A search of a resident’s room should only be conducted with the RM or RA present and then based upon probable cause that an illegal activity is ongoing in the room. If time permits contact the Security Supervisor or Public Safety Director for guidance.

i. Document this action completely in a formal Incident Report and enter it into the Judicial Action System

5. Reported Liquor (Disciplinary or Law) Violation – Not all alcohol disciplinary violations will involve Security. Security should always be notified, however, in the case of illegal activity e.g. underage drinking. In either case a Judicial Action report must be prepared either by the Dorm Director or Security.

a. Interview reporting party and any other individuals with information on the issue.

b. Minors under the age of 21 possessing, drinking or being under the influence of alcohol is a crime – call for TFPD assistance immediately

c. Confiscate any alcoholic beverage obtained and release it to the PD as evidence.

d. Search a resident’s room only in the presence of the RM or RA (except in emergency circumstances) and on sufficient probable cause.

e. If the individual(s) possessing the alcohol are 21 (obtain identification from all subjects) or older they need to be told that alcoholic beverages are not allowed on the CSI campus, the alcohol is to be poured out or removed from the campus by the individual(s). Ensure that sufficient information is obtained for a subsequent report

f. If the individual;(s) attempt to leave the campus by car the license plate information and a description of the car needs to be furnished to TFPD Dispatch for their follow-up action.

g. In any case if the individuals are not cooperative or exhibit signs of public intoxication the PD should be immediately called for assistance.

h. Prepare a formal Incident Report and enter into the Judicial Action System

6. Mental Health Emergency
a. Interview the reporting party, victim and other individuals having information on the issue. Always try to work with the RM or an available RA.

b. Contact TFPD or Emergency Medical Services for assistance as needed

c. Transport the victim to a medical facility only in extreme cases where no other means of transportation are available. Consult with Security Supervision should this occur.

7. Request for Resident to be Let Into Room
a. The preference is for the RM or RA to perform this function if available. If no Dorm staff is available to perform this function Security may open the door for the resident if they can produce some evidence as to ownership of the room (Driver’s License, Student ID, something with their name on it inside the room, etc. If the occupant requesting entry cannot produce any form of identification to verify that they live in that room Student Activities can be contacted for assistance in verifying the individual.

b. This activity should be documented via a blotter entry

8. Any report of a missing student living in the Dorm should be brought to the attention of the Security Supervisor and the Public Safety Director immediately. There are specific actions that must be initiated in such cases.

9. All incidents at the Dorm must be thoroughly documented in most cases by a formal Incident Report and then entered into the Judicial Action System. The Security Supervisor or in her absence the Public Safety Director should be immediately apprised of any significant incident involving the Dorm or its residents.

10. The decision to trespass a student from the dorm should be made by either the Dorm Director or the Dean of Students. Decisions regarding non-students will be handled by Security. If the decision is made to trespass an individual from the Dorm ensure that an official Trespass Notice is issued and determine whether the trespass should cover only the Dorm or the entire CSI campus. Guidance for this action should always be obtained
from the Security Supervisor or the Public Safety Director (especially in the case of a student being evicted from the Dorm).
BOMB THREAT MANAGEMENT PLAN

A. Receipt of Threat
   a. Bomb threats may be received in various ways, although the majority are
      received by telephone. It is very important to compile as much information as
      possible from the caller.
   b. The questions contained in the CSI Emergency Procedures Manual Bomb Threat
      section shall be utilized to gather and record critical information from a
      telephoned threat.
   c. There are two primary reasons why a bomb threat is made:
      i. The caller has knowledge or believes that a bomb has been or will be
         placed and wants to minimize injury and property damage.
      ii. The caller wants to create anxiety and panic that will disrupt normal
          activities. The vast majority of calls are of this type and are false but no
          bomb threat can be discredited without an adequate investigation.
   d. The person receiving the call should not discuss it in their work area. They should
      immediately notify CSI Security at X6605. CSI Security will then notify local law
      enforcement and appropriate CSI officials who are members of the Emergency
      Response Team.

B. Command Center
   a. Upon receipt of a bomb threat, CSI Security shall notify the members of the
      Emergency Response Team to assemble in an appropriate location outside of the
      emergency impact area to initiate the implementation of the protocol contained
      in the Major Emergency Guidelines (Revised October 2023) document. This
      location would be the President’s Board Room unless the emergency impact
      area includes this building.

C. Threat Assessment
   a. In determining the optimal course of action, all of the information concerning
      the threat must be considered. The U.S. Department of Homeland Security
      categorizes threats as Low-Risk, Medium-Risk and High-Risk. All bomb threats
      must be taken seriously and carefully analyzed.
      i. Low-Risk: This type of threat lacks realism. The probable motive is to
         cause disruption. The threat is vague and nonspecific. The information
         contained within the threat is inconsistent, implausible, or lacks detail.
         The caller might be known and/or has made previous threatening calls.
         The threat was discovered rather than delivered (e.g. a threat written on
         a wall).
ii. Medium-Risk: There is an increased level of realism and/or specificity. This is the type of threat that could be carried out, although it may not appear to be entirely realistic. The threat is more direct and feasible. Wording in the threat suggests that the perpetrator has given some thought as to how the act will be carried out. The threat may include indications of a possible place and time. There may be some indirect reference indicating that the perpetrator has taken some preparatory actions. There may be some indication that the perpetrator has details regarding the availability of components needed to make a bomb.

iii. High-Risk: This threat is very specific and realistic. The threat poses an immediate and serious danger. The threat is direct, specific and realistic. The threat language may contain names of victims, a specific time for detonation and/or a location of the device. The perpetrator may provide his/her identity or group affiliation. The threat suggests that concrete steps have been taken toward carrying out the threat. The perpetrator may make statements indicating that they have practiced with explosives/weapons or have had an intended victim(s) under surveillance. The perpetrator may display significant knowledge of the campus and its facilities. This level of threat would include those where there is a very short time frame given until stated detonation.

b. Other questions should be asked/answered when conducting a threat assessment:
   i. Have there been any national or local bomb incidents or threats in the recent past?
   ii. Has a hostile student, staff or faculty member been disciplined, suspended or terminated recently?
   iii. Have any rumors been circulating concerning any individual connected to the campus threatening to harm others?
   iv. Has the campus received any recent correspondence from an individual who has complained or was angry about any campus issue?

D. Decision Making
   a. Based upon an analysis of all available information as described above, administration officials have five possible alternatives
      i. Conduct a low profile (covert) search of the exterior grounds and general building areas with security and other designated personnel.
      ii. Conduct a more comprehensive (overt) search having all staff/faculty members search their work areas in addition to the search of the public areas and grounds.
iii. Search with a partial evacuation of only the alleged impacted area.
iv. Evacuate after the search is complete.
v. Evacuate immediately

b. The actions taken as described above should be taken in number order based upon the results of the threat assessment; e.g. D(a)(i) should be considered for Low-Risk threats and then D(a)(ii) through v for threats ranging from Medium to High.

E. Searches

a. The decision to search and the scope of the search should be determined upon the level of risk (Low, Medium or High) and the amount of time given by the caller for the bomb to detonate.
b. If the threat is High on the risk scale and only a short time given until the alleged detonation, it is advisable to get everyone out of a targeted building/area with only the exit routes being searched by security personnel.
c. If the threat is of a lower risk and sufficient time is given either a covert search of the targeted premises should be conducted by CSI staff (Security Maintenance and Building administrative staff) or an overt search by faculty/staff in their respective work areas.
d. In conducting a search (or when staff/faculty are scanning their work areas) they should be looking for anything that is suspicious (doesn’t belong in the room/area, wasn’t there earlier in the day, looks out of place to be in that area/room, etc.)
e. An area being searched should be divided into three levels of examination to ensure a complete sweep; from floor to waist level, waist to chin height and then chin height to the ceiling.
f. If a suspicious object is identified during a search, it must not be touched, tampered with or moved. CSI Security or law enforcement on scene should be notified immediately with the object’s location and a description. Cell phone and two-way radios should not be utilized in the immediate vicinity of a suspicious object. A search should continue even of one suspicious object is identified as it may not be the only device planted in the area.
g. Searchers should not change the environment in the area/room being searched. Do not turn off or on water, gas or anything utilizing electricity.

F. Evacuation

a. The decision to evacuate will be the responsibility of CSI administration. Law enforcement will, however, make recommendations as to the timing and scope of an evacuation.
b. The decision to evacuate is based upon many of the same factors that are discussed above under the topic of Searches: the threat assessment, time availability and scope of the threat (one building or the entire campus).

c. If a full or partial evacuation is ordered Security will search evacuation routes to determine their safety prior to any evacuation.

d. The decision as to evacuation will be transmitted to the affected campus population via the RAVE Emergency Communication System, the CSI Campus Alert Group Phone System and/or the Emergency Situation Phone/Runner Tree.

e. The order to evacuate shall include the instruction that all evacuees shall remove all personal items, e.g. purses, backpacks, bags, etc.)

f. The incident will be declared over only after a threat assessment is complete and analyzed, a search has been conducted with negative results, an evacuation (if ordered) has been accomplished, a sufficient timeframe has elapsed since the stated time for the item to detonate and any law enforcement investigation has been concluded. CSI administration will again make this decision with law enforcement input/guidance.
COLLEGE OF WESTERN IDAHO

Board Policy 4340 Safety
Adoption History: 2/21/12; revised 10/16/12; revised 2/4/13; revised 7/15/14
Implementation: AP4341 Campus Disruptions and Violence; AP4342 Firearms and Weapons; AP4343 Incendiary Devices, Explosives and Fireworks; AP4344 Identifying Workplace Hazards; AP4345 Correction of Workplace Hazards; AP4346 Hazardous Materials Communication; AP4347 Injury and Illness Prevention; AP4348 Injuries and Illness Reporting

The President shall establish administrative procedures to ensure the well-being of students, employees and the public as well as proper stewardship of college assets. These procedures shall prohibit the possession or use of weapons on the College of Western Idaho (CWI) property or at CWI activities by students, faculty, staff or visitors except for authorized law enforcement officers, authorized campus security officers, and persons exempt under Idaho State law. “Persons exempt under Idaho State law” means any person licensed to carry a concealed weapon under Idaho Code Sections 18-3302H or 18-3302K.

Administrative Procedure 4342 Firearms and Weapons
Board Policy 4340 Safety
Adoption History: 7/15/14
References: Idaho Code Title 18, Chapter 33; Title 18 U.S. Code, Sections 921, 926 and 930; Idaho State Board of Education Policy (Section I, Subsection R - Campus Safety)

Definitions:
- Weapons: These include firearms, knives, explosives, or other items which are capable of inflicting serious injury.
- Properties owned or controlled by the College: These include all College owned or leased buildings and surrounding areas such as sidewalks, driveways and parking lots. This policy applies to those operating College vehicles, regardless of whether they are on College property at the time.

Procedure: The possession, wearing, carrying, transporting, or use of weapons, including firearms, while upon properties owned or controlled by the College of Western Idaho (CWI) or where CWI activities occur, is prohibited, except for authorized law enforcement officers, authorized campus security officers, and persons exempt under Idaho State law. “Persons exempt under Idaho State law” means any person licensed to carry a concealed weapon under Idaho Code Sections 18-3302H or 18-3301K. Because weapons are capable of inflicting serious injury and pose a clear risk to persons and property, violations of this policy may result in suspension or termination from CWI and prosecution under appropriate laws.

Violations: Possession or use of any unauthorized weapon on College property or during College activities is a violation of this policy. Such violation may result in disciplinary action up
to and including suspension or termination from CWI and prosecution under appropriate city, state, or federal laws.

**Individual Exceptions:** Prior specific written permission from the Director, Facilities Management to bring any weapon on campus may be obtained for certain activities or legitimate purposes, i.e., class projects or demonstrations, or displays of antique firearms or art objects.

**Program Exceptions:** Some students or instructors regularly use tools which fall under the definition of weapons. Such tools, when applied directly to a legitimate use in College programs, are exempt from this policy. Questions are to be directed to the Director, Facilities Management.
Frequently Asked Questions (FAQ’s):

- **What type of permit does someone need to hold in order to carry a weapon legally on campus?**
  - On March, 2014, The State of Idaho passed SB 1254 into law. This law permits individuals who are qualified retired law enforcement officers under Idaho Statute 18-3302H, or who hold an “enhanced” concealed carry license under Idaho Statute 18-3302K, to legally carry concealed weapons on campus.

- **What is considered “concealed” in terms of weapons?**
  - A “concealed weapon” means a weapon which is carried upon one’s person and is not in plain view or discernable by ordinary observation.

- **Where does a weapon need to be in order to be legally considered “concealed”? Can a weapon be in a backpack or purse, or does it need to be directly on a person’s body or within reaching distance of the person?**
  - The law does not expressly state where a weapon needs to be in order to be considered “concealed.” As noted above, the weapon cannot be in plain view or discernable by ordinary observation. Further, the weapon must be on the license holder’s person or in close proximity as to be readily accessible for immediate use. It is CWI’s position that this means that the weapon must be on the license holder’s person or within reaching distance such as in his or her purse, backpack, book bag, or jacket or other clothing.

- **What constitutes an unconcealed firearm?**
  - If any part of a concealed weapon is in plain view or discernable by another person by ordinary observation, the weapon is not considered concealed. This may be a violation of the law and is a violation of CWI policy. Campus security should be notified when a person has failed to conceal his/her weapon.

- **What should be done if it is suspected someone is carrying a concealed weapon?**
  - If you suspect someone is carrying a weapon, but there is not a perceived threat and the weapon is not visible, then there is no need to take any actions.

- **What should be done if someone feels intimidated by any person they believe is carrying a weapon?**
  - If there is not an immediate threat, we would ask you to contact campus security; if there is an immediate threat, then you should contact 911.

- **Will CWI have armed security officers?**
  - No—CWI will not have armed security guards. Your safety is of the utmost importance. If you feel you are in imminent danger, please call 911. Please report other concerns to campus security, who will call the police if necessary.

- **Is there going to be a storage location for weapons?**
  - No—CWI will not have a storage facility on any of the campus locations. Individuals choosing to concealed carry will be responsible for weapons and their concealment at all times.

- **What is campus security’s role?**
  - Campus security will work with police to determine if a student, staff member, faculty or visitor on campus is lawfully carrying a weapon. They will also escort individuals off campus and work with local law enforcement officials, as needed.

- **When should someone call the police and who should call the police?**
  - If someone suspects a violation, they should alert Campus Security, who will contact local police. In an emergency, you should always contact 911.
If I live in the Aspen Creek apartments can I possess a firearm, if authorized to do so under state law?

- The Aspen Creek Apartments are not affiliated with CWI. Anyone wishing to possess a firearm at this location will need to be authorized under state law and will also have to follow their tenant agreement for such.

Can I carry my concealed weapon on the premise of any buildings leased to CWI (this includes space at the Boise State University Campus, the Aspen Creek Business Park and the Black Eagle Business Park)?

- Currently these locations do not have language in their lease agreements with CWI that prohibits the legal carrying of a weapon on their premises. CWI allows licensed persons to carry a concealed weapon on property leased by CWI.

Enhanced Carrier Specific Questions:

- Can a weapon be stored in a vehicle? If so, how?
  - If you are authorized to carry a concealed weapon under Idaho state law and CWI’s weapons policy, you may transport a firearm in your personal vehicle if the firearm is on your person and is concealed. If you store your weapon in your vehicle, it must be concealed and either disassembled or unloaded. Open carrying, even in a vehicle, is not permitted.

- Does a student, instructor or staff member have to inform College administration when they are carrying a concealed weapon?
  - No – Under the law, carrying a concealed weapon does not need to be reported to CWI personnel. However, a carrier must present appropriate credentials when requested to do so by law enforcement personnel or campus security.

- As a student, instructor or staff member who is authorized to carry a concealed weapon on campus, am I allowed to carry my concealed weapon during my practicum or clinical hours at any offsite clinic?
  - Any separate business entity has likely established a policy regarding the use or carrying of weapons at their location. The policies of that organization or business entity apply as to whether concealed firearms are, or are not, permitted to be carried on their premises.

  - If I am able, under the law, to carry on campus, can I keep my firearm in my office desk?
    - No – This would not meet the legal requirement of the firearm being “readily accessible for immediate use.”

*Notes:

- Conceived carry and enhanced carry licenses are different. An individual must be a qualified retired law enforcement officer under Idaho Statute 18-3302H, or have an “enhanced” concealed carry license under Idaho Statute 18-3302K, in order to legally carry a concealed weapon on campus.
- Federal and state laws differ on weapons laws and can be prosecuted separately as such. It is up to a licensed permit carrier to know their responsibilities and rights under state and federal law.
- FAQ’s will be updated as needed to reflect questions directed to CWI Administration.
The mission of the Boise State University Campus Security Department is to serve the campus community with professionalism, integrity and respect. We are committed to provide a safe and secure environment for students, staff, faculty and visitors.

The Campus Security and Police Services Department intent is to transition from an unarmed security department to a public safety department with armed security officers due to recently passed legislation allowing guns on campus. Currently the department is made up of an Executive Director, Security Analysis and Threat Assessment Manager, Security Analyst, Emergency Manager, Security Operations Manager, Senior Security Officer Supervisor and seven full-time Senior Security Officers. The transition will be implemented in three phases and is estimated to be complete by Fiscal Year 2018.

The first phase will focus on leadership, policy and infrastructure development. The second and third phases will incrementally develop the program through increased security officer staffing, training and logistical assets. Once the transition is successfully completed the security department will have the necessary resources to provide a safe and secure campus in an ever-changing environment.

PHASE I - BUILD THE PROGRAM – Leadership and Structure
Fiscal Year 2015 (July 2014 – June 2015)

The first year of transition will focus on building the leadership, policy and structure of the department. At this phase, the security officers will not be armed. Management will write policies and procedures which will guide the department toward its future goals. Professional staff will continue to build emergency management and campus security programs to form a comprehensive public safety operation. That operation will initiate a controlled transition into an armed security capability. During the early stages of this period, the major areas of development will focus on building campus security, event security and emergency management programs. This transition will require extensive research, development and approvals of policies, procedures, manuals and training programs for building a unit within an existing unarmed security operation that will have authority and training to carry firearms. The security department will also research and begin procurement of equipment and supplies required to train, equip and arm security officers.

The changes included in Phase I will provide the leadership and assets necessary to begin the transition to an armed security force.

PHASE II – TRANSITION THE PROGRAM
Fiscal Year 2016 (July 2015 – June 2016)

The second phase of transition will continue to build the department through additional staff hiring. The security department will initiate a process to train and certify qualified candidates to carry firearms while on duty. Completed and approved policies and procedures will support the initiation of this
training phase. During this period, procurement of approved firearms, ammunition and tactical equipment will be required.

The department will focus on adding positions needed in emergency management and security. These include a Security Compliance Specialist, Senior Security Officer Supervisor and six additional Senior Security Officers. These positions will complete the transition in staffing growth for the department. The additional capacity is required to provide the University with appropriate response to security threats, preventative safety measures and emergency preparedness.

Additionally, the department will need to procure equipment and training to provide adequate resources to respond to weapons on campus. Additional equipment that will be needed include ballistic vests, firearms and accessories, 700 MHz radios and a new security vehicle. All armed security officers will be required to successfully complete weapons carry certification.

**PHASE III – COMPLETE PROGRAM TRANSITION**  
**Fiscal Year 2017 (July 2016 – June 2017)**

The third phase will see the implementation of the steps prepared for in the previous stages, and allow for assessment and revisions to the program as needed. The new security program will staff at least one armed and one unarmed officer 24-hours a day, seven days a week, with increased staffing during peak times. Boise Police Department will continue to provide law enforcement response as well as a dispatch and investigations service. The end result of this complex transition from a security department to an armed public safety department will be to provide the best security and safety operation. This transition will produce a more comprehensive and robust coverage of our campus and events on campus for our students, faculty, staff and visitors.
MEMORANDUM

TO: Idaho State Board of Education
FROM: David Alexander, General Counsel
DATE: August 5, 2014
SUBJECT: ISU Campus Security Plan

PRIVILEGED AND CONFIDENTIAL

The Board has requested a discussion of campus security plans during the August board meetings. Please accept the following memorandum and the attached documents as ISU's submission.

To comply with the SBOE policy on campus security plans, ISU has created a series of documents that collectively provided the guidance essential to ensuring the security of campus and our constituents. These documents include ISU's Policies and Procedures, ISU Public Safety Operations Manual, and ISU Clery Report. Our security plans have been recently reviewed and certified by the Idaho Chiefs of Police Association (ICOPA).

The Operations Manual was thoroughly revised in recent months to prepare for the audit by ICOPA, a professional organization representing Idaho's law enforcement agencies. ISU's Public Safety Office, although it is not a law enforcement agency, requested the ICOPA audit of its operations, policies, and procedures. It is principally by means of such audits that ICOPA certifies that a law enforcement agency operates according to the highest standards.

Attached as Exhibit 1 is the letter received July 7, 2014, recognizing Idaho State University Public Safety as an ICOPA Accredited Agency. ISU is believed to be the only entity not a law enforcement agency to be granted this distinction.

Also attached are a draft of Idaho State's Annual Security and Fire Safety Report (the Clery Report), and a copy of the Operations Manual, which together constitute a more accurate statement of existing security arrangements than would a formal security plan.

The Clery Report, attached as Exhibit 2, covers the following areas of interest to campus security planning:

- Department Of Public Safety Description And Mission Statement
- Campus Policing, Security Policies And Interagency Cooperation

ISU is an Equal Opportunity Employer
Reporting Crime And Other Emergencies
- Missing Persons Policies and Procedures
- Monitoring And Recording Criminal Activity At Off-Campus Locations
- Access To Campus Facilities
- Security Considerations In The Maintenance Of Campus Facilities
- Timely Warnings of Emergencies
- Emergency Response And Evacuation Plan
- Crime Prevention And Safety Awareness
- Substance Abuse Policy
- Sexual Assault And Violent Crimes, Prevention And Response
- Workplace (Campus) Violence Prevention
- Campus Fire Safety
- Housing Fire Systems
- Fire Systems for All Other ISU Buildings
- Fire Safety Policies
- Fire Safety Equipment And Smoke Detectors
- Fire Evacuation Procedures And Drills
- Fire Safety Training And Education
- Reporting A Fire
- Plans For Future Improvements In Fire Safety

The Public Safety Operations Manual, attached as Exhibit 3, includes detailed information for the use of ISU's Department of Public Safety, including:

- General Orders (Chapter I) including employee responsibility and job descriptions, relationships with local police departments, and organizational structure; safety escorts and transportation of civilians; detailed procedures for responding to specific security issues, such as mission persons, bomb threats, fire alarms, hazardous materials, service of warrants and civil process; and searches and seizures;

- Administration of the Public Safety Office (Chapter II), including disposition of cases submitted to local jurisdictions for prosecution, and policies for issuance of citations;

- Operations (Chapter III), including use of force, use of firearms, arrests, citations, and diversion; patrol procedures; nuclear reactor security; animal control; alcohol and illegal drug policies and procedures; emergency vehicle operations, including policies for pursuits, traffic stops, DUIS, vehicle inspections, and handling of stolen vehicles; handling of prisoners; accident investigations; criminal investigations; evidence processing; handling of informants; hostage situations; and protection of visiting dignitaries;

- Training (Chapter IV);

- Communications (Chapter V), including dispatching of calls (ISU's Public Safety dispatchers are integrated with the Bannock County dispatch system); communication security; the emergency messaging system; notification of public utilities, fire departments, and highway department when required;
• Special Programs (Chapter VI), including citizen ride-alongs, community service officers, community policing and crime prevention; victim and witness assistance; coordination with social service agencies; and special events; and

• Equipment (Chapter VII).

ISU's Policies and Procedures for Public Safety, which are currently undergoing a complete review and rewrite, include the following:

• emergency response and recovery plan
• hazardous waste policies
• plans for dealing with pandemic influenza
• parking; emergency evacuations
• locking and unlocking procedures for campus buildings
• bomb threats
• Bengal Card access control
• harassing phone calls
• animals on campus.

ISU recently updated its firearms policy to comport with the Board policy adopted following passage of Idaho Code Section 18-3309. ISU’s policy ensures compliance with the often-conflicting requirements of the new law and other federal and state laws and regulations. A copy of the ISU firearms policy is attached as Exhibit 4.

The ISU Public Safety Office is currently preparing for a national Emergency Management accreditation audit scheduled for February 2015.

Additional information relating to crime prevention, personal safety, and incident reporting can be found on the Public Safety website, http://www.isu.edu/pubsafe.

Please advise whether you require additional information.
This Operations Manual is prepared to inform employees of Idaho State University Department of Public Safety of the operating rules, policies and procedures of the Department. While it is intended to be as complete as possible, it is not inclusive and properly adopted and approved rules, policies and/or procedures may be omitted but still be operational as if they were included. Any rule, policy and/or procedure, including rights, obligations and benefits arising here from or pertaining hereto, may be altered, amended and/or deleted from time to time at the discretion of the Director.

Appendix A–List of Acronyms .....................................................................................................................
PURPOSE AND SCOPE

The purpose of this document is to establish the responsibilities and authorities of the ISU Department of Public Safety. This procedure is applicable to all employees of the ISU Department of Public Safety. The Mission Statement, Code of Ethics and Oath of Office are posted in the squad room entrance. Copies of the signed forms will be filed in the employee’s personnel file.

MISSION OF THE IDAHO STATE UNIVERSITY PUBLIC SAFETY DEPARTMENT

The philosophy of Idaho State University is that the requirements of security on campus can best be met through the public safety concept. This concept establishes the responsibility of the Department of Public Safety as ensuring the campus is a safe place for all its personnel. The Department of Public Safety takes advantage of new technology in fulfilling security, fire protection, and industrial safety requirements.

The ISU Department of Public Safety is charged with campus security and public safety in its broadest sense. The Director of Public Safety is charged with developing the policies and procedures for carrying out the University Public Safety Program. (The Director will report directly to the Vice President of the Facilities Services.) A Safety Committee is established to assist in the development of policy. The Committee will be advisory to the Director of Public Safety, the Administration, and the Academic Community in matters concerning public safety.

The mission of the Department of Public Safety is (1) to provide a peaceful and secure environment from the threat of physical harm, property loss, and disruptive activity; and (2) to promote mutual cooperation and conflict resolution in establishing a positive social atmosphere in which effective learning can take place.

The ISU Department of Public Safety will maintain a close liaison with appropriate off-campus agencies and organizations to assure a close working relationship for response to crises in any form. It is charged with the development and maintenance of a communication system which shall be readily available at all times to all segments of the college community in time of emergency. Further, this communication
system should facilitate rapid response on the part of the ISU Public Safety officers as well as provide an efficient mechanism in calling for assistance from allied agencies.

The ISU Department of Public Safety will maintain, as a high priority, a program of continued advancement in security training for all members of its Department and will require a high level of training in all elements of public safety for its officers.

The ISU Department of Public Safety is not a law enforcement agency. It will rely on the Pocatello Police Department to provide law enforcement authority to enforce the laws of the State of Idaho and City Ordinances on University property within the city limits of Pocatello. Agreements between the Pocatello Police Department and the ISU Department of Public Safety will establish response and jurisdictions of specific incidents.

**WE VALUE PEOPLE**

We believe that we are primarily responsible for our future and the future of Idaho State University. The University is people—not computers, programs, or machinery. What we as people do, how well we do it, and our motivation to do it is all Public Safety and the University has to offer our customers. Mutual trust in our judgment and ability as members of this University—making each other successful is what it's all about.

Our collective strengths can profoundly influence our success as an organization. These strengths include assertiveness, creative positive thinking, conscientiousness, initiative, persistence, and an overriding concern for the safety and wellbeing of our fellow employees, students, and the public. To help ensure the success of Public Safety and the University, each of us at every level must continually strive to make ISU the best it can be by our individual efforts and by helping our fellow employees do likewise.

To test if we are helping our fellow employees and ourselves reach our full potential, there are three simple questions each of us should continually ask:

* **Am I doing everything possible to support my fellow employee** (i.e., by providing recognition, praise, constructive criticism, communication, job satisfaction)?

* **Am I doing everything within my position to help provide employees with a supportive work environment and equitable material incentives** (i.e., training, compensation)?

* **Am I doing everything possible to maximize my own potential** (i.e., by doing more than required, seeking more responsibility, pursuing training and educational opportunities, being innovative)?
WE VALUE INTEGRITY AND ETHICS

We believe that integrity and ethics are the cornerstones of everything we do. We demonstrate and reinforce our belief in these qualities by conducting business honorably and honestly, promoting trust and respect for each other, encouraging open, honest, and frank communication, working from a fundamental and shared sense of rightness and by reinforcing these values in others. The practice of integrity also requires that we keep our promises, meet our commitments, and ensure safety in our actions and decisions (i.e., quality, cost, schedule, responsiveness, safety).

Although this imperative may sound high-minded, there are three questions about any action or decision we should continually ask ourselves to give us guidance and direction:

* **Is the action or decision legal?** Will I be violating civil law, criminal law, or University policy?

* **Is the action or decision balanced?** Is every effort made to consider the effects of this action or decision on all concerned?

* **How will it make me feel about myself?** Will it make me proud? Would I feel good if my decision was published in the newspaper? Would I feel good if my family knew it?
PLANNING, POLICY AND GOVERNMENTAL AFFAIRS
AUGUST 14, 2014

Idaho State University
Department of Public Safety

Title: General Orders
Authority and Responsibility

Chapter: I
Section: 1.2

Approval:
Revision No.: 05
Review Date: March 13, 2014
Issue Date: 07/96

Authority and Responsibility

1.2.1 Authority

Idaho State University is a "body politic and corporate" of the State of Idaho whose government and control are vested in the State Board of Education, which by statute (Section 33-3003 Idaho Code), acts as its Board of Trustees (Board). The Board has several enumerated powers found in Section 33-3006, Idaho Code, which include the authority to adopt rules and regulations for its own government and for that of Idaho State University; employ a president and with his advice appoint such assistants, deans, instructors, specialists, and other employees as required; to prescribe the courses of programs and study and requirements for admission, and to have at all times general supervision and control of all property belonging to the University.

A. The State Board of Education - Powers and Duties:

1. Perform all duties prescribed for it by the school laws of the state;

2. Acquire, hold and dispose of title, right and interests in real and personal property;

3. Have general supervision, through its executive departments and offices, of all entities of public education supported in whole or in part by state funds;

4. Delegate to its executive secretary, to its executive officer, or to other administrators as the Board may appoint, such powers as said officers require to carry out the policies, orders and directives of the Board;

5. The state board shall, through its executive departments and officers, enforce the school laws of the state;

6. Study the educational conditions and needs of the state and recommend to the legislature needed changes in existing laws or additional legislation.
B. The President: The President is the chief administrative officer of the University and is delegated authority by the Board:

1. To supervise the administration of all operations of the University;
2. To be the executive head of the instructional force in all its departments;
3. To give general direction to the instruction and research programs of the various schools and colleges;
4. To serve as professional advisor to the Board;
5. To determine with the advice of the faculty and approval of the Board, the internal and functional organization of the University;
6. To be responsible for the functioning of all committees, councils, and boards; and
7. Serve as ex-officio member of all such groups, to refer to the Board for consideration, recommendations of the University faculty or faculty of the Applied Technology School, which has received a two-thirds favorable vote in a referendum by the appropriate faculty and to perform such other duties as, may, from time to time, be designated by the Board.

C. The Director of Public Safety is the executive authority and administrative head of ISU’s Department of Public Safety, and is responsible for planning, organization, direction and external relations. These responsibilities embrace prevention of criminality, repression of crime, apprehension of offenders, recovery of property, and regulation of non-criminal conduct. The final responsibility for determining departmental policies rests with the Director of Public Safety. The Director of Public Safety is also fully responsible for the complete discharge of all duties imposed on the Director by law and ordinance of the ISU President, Idaho State Board of Education or the Governor of Idaho.

If a situation warrants the need for legal counsel the Director of Public Safety, the Associate Vice President of Facilities Services or the Vice President of Finance and Administration will be contacted prior to contacting ISU's General Counsel Department. After hours contact information for General Counsel will be maintained on the Dispatch call out list and the emergency response notification list.

**1.2.2 Reporting**

Beginning with the Director each officially recognized supervisory position has reporting to it an identified number of employees, usually of varying job descriptions which are shown on the Departmental organizational chart.
1.2.3 Supervisor Responsibility

Each of the supervisory personnel are fully accountable for the performance of the employees under their immediate control and shall fulfill the responsibilities of a supervisor in accordance with the rules, regulations, policies, and directives of the Department, the ISU Policies and Procedures, and all applicable University code of conduct procedures. Each supervisory member shall attempt to make themselves aware of the special talents or outstanding conduct of any subordinates and give such behavior appropriate recognition.

1.2.4 Commensurate Authority

Each employee within the Department has been given a specific job responsibility and task established by the Department.

Officers are given specific legal responsibilities and authority and they are accountable for their individual actions.

Employees with supervisory assignments have the responsibility to make the necessary decisions affecting subordinates. This responsibility is in accordance with actual or delegated authority to handle disciplinary matters up to the recommendation of suspension, demotion, or termination. Only the Director can demote, suspend without pay, or terminate any employee.

1.2.5 Supervision of Employees

All employees will be assigned to a division. Employees are responsible for reporting to a specified supervisor. Employees will be responsible to only one supervisor at a given time.

1.2.6 Span of Control

Each employee of the Department shall be assigned to an immediate supervisor. To establish numbers per supervisor is difficult. However, no supervisor will have more than 12 employees reporting directly to him or her except for a special detail. Personnel are assigned in accordance with job functions.

1.2.7 Discretion

Officers are sworn to uphold and enforce laws and regulations impartially, without hesitation or reservation. Such activity consists of good judgment, effective use of common sense, and a working knowledge of the law.

Each officer must make a determination as to the practicality and appropriateness of his/her actions and must judge their discretion in matter of arrests, warnings, referring, or diverting offenders. The officer’s discretion is based on practicality and appropriateness, taking into account the offense(s), facts and circumstances of each incident individually.
1.2.8 Employee Responsibilities

Every employee will adhere to, uphold, and be held accountable for their individual actions as well as all rules, codes of conduct, and ethics adopted by the University and the Department while on and off-duty.

If an employee has been assigned a computer login and password, that password is not to be given to anyone except those who have been authorized by the Director. This also includes combinations to the doors.

Each employee is delegated certain authority and is responsible for that actual or delegated authority. The following are descriptions of job positions and responsibilities.

A. Director of Public Safety

Class Purpose

This position is responsible for directing and coordinating the overall operation of Idaho State University’s Public Safety Department which is responsible for protecting the students, faculty, staff, visitors and property of the University, and provides a safe learning environment. The position works effectively with University executives, faculty and staff at all levels, students and external constituencies, and is flexible and experienced in managing departmental activities and staff.

Principal Accountabilities

1. Maintains overall responsibility for the development and implementation of approved security, safety and parking procedures and policies for the safety and security of students, University employees, University property and others.

2. Acts as liaison between Public Safety, the University and, local, state, federal law enforcement agencies and fire departments in Pocatello, Idaho Falls and Boise, as well as outreach sites throughout the state.

3. Provides leadership to address the safety needs of a diverse campus environment.

4. Educates the campus community concerning criminal activity through comprehensive campus safety/crime prevention and public relations programs.

5. Analyzes statistical data pertaining to criminal activity and implement programs and procedures to resolve the problem.

6. Ensures compliance with federal and state crime reporting requirements, such as Clery.

7. Oversees the Security, Safety, Parking and Bengal Card units of the Department.
8. Plans and develops parking space, taking into account user needs, municipal laws and the University's Master Plan; to improve customer service, assesses the need for repairs and design changes, and ensures that the work required is carried out.

9. Establishes university parking and traffic enforcement policies and rules, and oversees the implementation of parking permits.

10. Directs investigations of all incidents and recommends corrective action to resolve and prevent recurrence.

11. Plans and manages an operating budget through which various sectors of the department can run efficiently.

12. Oversees the selection, training, supervision and evaluation of all Public Safety employees.

13. Conducts reviews of operations, technical equipment and personnel skills.

14. Establishes fire safety policies and procedures.

15. Oversees the coordination and maintenance of the campus fire alarm system (in conjunction with the campus Safety Officer), intrusion alarm system and cctv systems.

16. Manages the University's emergency response plan, and serves as the primary Incident Commander for all emergency response functions for the campus.

General Information

This position requires a mature individual who possesses the ability to think independently, use sound reasoning and judgment, and function in an autonomous capacity.

It will require the ability to communicate effectively both orally and in writing; ability to organize work effectively; initiative, and the ability to react to emerging security problems.

The Director must demonstrate sensitivity toward the broad and fluctuating base of institutional concerns which directly relate to his/her duties.

Minimum Qualifications

- Bachelor's Degree in a related field.

- Experience in a supervisory management position in a security or law enforcement department.
• Graduate of a POST Academy Program is a plus.

• Professional development and training certifications in emergency management from FEMA, NEMA or related agencies is a plus.

• Must pass a rigorous background investigation.

• Must possess a current valid driver’s license.

B. **Public Safety Captain Full-Time**

**Class Purpose**

To be accountable for coordinating and supervising the campus security force in all its tasks.

**Principal Accountabilities**

1. Ensure each shift has sufficient manpower by assigning and maintaining the on-duty watch.

2. Responsible for the smooth operation of the security department by counseling assigned officers.

3. Provide a positive public image of the security department by promptly and courteously responding to citizen’s complaints/questions.

4. Responsible for the proficient performance of officers through on the job training/instruction.

5. Ensure an adequate supply of equipment by regular inspections of vehicles and related security items. This includes budgeting for new equipment.

6. Ensures the effective utilization of assigned investigative personnel through case assignments, reviewing significant policies and issues with subordinate officers, and with counseling and constructive performance evaluations.

7. Contributes to the resolution of unsolved crimes within the campus and protection of the public from repeat incidents by directing and evaluating timely and thorough investigations of pending cases and appropriate arrest or other disposition of suspects and cases.

8. Contributes to the speedy and effective resolution of pending investigations by assigning specific offenses to investigative personnel most qualified to effectively process those offenses.

9. Contributes to the professional growth and performance of subordinates through periodic performance evaluations, counseling and training, and advice concerning improved investigative
and law enforcement and security techniques, and the changing laws and policies impacting law enforcement and security.

10. Ensures appropriate and effective security response to difficult, complex, or sensitive investigations by personally directing and monitoring initial follow-up investigative actions in cooperation with other University departments and law enforcement officials.

11. Ensures that assigned personnel effectively assist in appropriate disposition of all cases and that all case documentation is accurate and complete, through continuous review of all case reports, discussion with officers, University officials, and prosecutorial authorities, and training and advice in effective court testimony.

12. Ensures effective follow-up of citizen complaints regarding actions of subordinates by directing and reviewing investigations of questioned incidents and directing appropriate corrective actions.

13. Ensures that evidence gathered for trial or hearing is secure and meets chain of custody requirements for court or hearing admissibility through procedures to safeguard, identify, and access all relevant evidence.

14. Ensures compliance with Department rules, regulations, and procedures, prepares shift schedules, and directs staff training.

15. Ensures adequate coverage for staff special events to include, but not limited to, athletic events, dances, parades, block parties, outdoor activities and other events/activities.

16. Oversees the Field Training Officers and directs the Training Officers activities.

17. Monitors and coordinates Crime Prevention programs.

18. Acts for the Public Safety Director in his/her absence.

General Information

1. This position reports to the Director of Public Safety.

2. Lieutenants, Sergeants, and Public Safety Officers report to this position.

3. This position was established to provide leadership and counseling to officers in patrol and parking.

4. Some typical challenges include, but are not limited to: (1) plan, organize, direct, and control the division; (2) interpret Departmental policies and rules; (3) advise subordinates on current problems, instructions, outlines of policy and other matters of importance affecting the day-to-
day operation; (4) inspect programs within the division to appraise their effectiveness and assess general conformance to orders, rules and regulations; (5) develop solutions and meet changing needs within the campus and the Department; and (6) coordinate activities with the other divisions within the Department. This position may assume the duties of the Director of Public Safety in his absence.

5. This position functions mainly within an office environment; however, may be called upon to perform duties as a street officer. These instances would subject this position to all the hazards involved in security work.

6. This position uses all the equipment for the suppression of crime, in addition to standard security equipment.

7. This position receives direction from the Director of Public Safety; however, there is latitude to plan daily functions within established guidelines. This position has the authority to administer suspensions and oral and written disciplinary action.

8. Internal contacts include Director of Public Safety, Departmental personnel, and other departments on campus. External contacts include the general public, other law enforcement agencies, and state and county officials.

9. Responds to such emergencies as fires, nuclear reactor accidents, and hazardous material spills, operates and maintains vehicles, enforces regulations and laws, makes arrests, conducts investigations, testifies.

10. This position must be a classified employee, have 24 months in rank, maintain a performance standard of at least “meets performance standards”, and satisfy all current prescribed criteria (i.e., promotional exams) prior to advancement to the next higher rank.

Minimum Qualifications

1. Must possess at least five years (60 months) experience in police &/or security work.

2. Must possess two years of college education or its equivalent.

3. Must have completed or be currently enrolled in the ISU Law Enforcement Program and pass the Idaho POST tests for police certification or equivalent.

4. Must have completed or be currently enrolled in a POST Academy Applied Technology law enforcement Reserve officer training, EVITS Security, or another department recognized law enforcement or security training program.
5. Good knowledge of University policies, rules and regulations, Department objectives, policies and procedures, first aid, fire and safety hazards, crime prevention and safety awareness programs and techniques.

6. Considerable knowledge of supervising through subordinate supervisors and evaluating their performance, directing and coordinating enforcement actions with various agencies, developing and monitoring a department budget and recommending policy and procedure changes.

7. Must possess a valid driver’s license.

8. Pass an oral interview.

9. Final approval by the Director of Public Safety.

C. **Public Safety Lieutenant Full-Time**

Class Purpose

To be accountable for the protection of life and property within the boundaries of the ISU campus by directing the effective and fair enforcement of applicable criminal and traffic laws and regulations, and the timely detection and response to threats to public safety for assigned shifts. Acts for the Public Safety supervisor in his/her absence, assist in the oversight and coordination of the crime prevention programs, and oversees the field officer training program and directs the training Sergeant’s activities.

Principal Accountabilities

1. Contribute to the safety and security of persons and property within the boundaries of the campus through the efficient deployment of personnel and by directing patrol of assigned areas and the provision of appropriate response to conditions or persons needing assistance, attention, or correction.

2. Contribute to the professional growth and performance of subordinates through periodic performance evaluations, counseling, training and advice concerning improved security techniques, and the changing laws and policies impacting security.

3. Ensure appropriate and effective security response to difficult, complex, or sensitive incidents by personally directing and monitoring initial security response and the follow-up investigative actions in cooperation with other agencies where appropriate.

4. Ensure that assigned personnel effectively assist in appropriate judicial disposition of campus incidents through the campus judicial system.
5. Ensure effective follow-up of citizen complaints regarding actions of subordinates by directing and reviewing investigations of questioned incidents and directing appropriate corrective action.

6. Enhance the Department's ability to serve and educate the public and deter criminal activities through positive personal community and public relationships, rendering personal assistance and counsel to citizens where advisable, and by fostering such actions among subordinates.

7. Maintain and improve personal and subordinates knowledge of new and improved security techniques and the changing laws and regulations impacting security work by participating and directing on the job training sessions and completing self-study courses.

8. Ensure that equipment down time for assigned shifts is minimized by directing safety and maintenance checks and requesting appropriate repair and maintenance of vehicles and security equipment.

9. Interprets civil and criminal laws; reviews staff reports and activity logs to insure standards are met; develops and oversees safety training; updates manuals and procedures; participates in planning for staff, equipment, and material needs; collects and analyzes data on traffic accidents, enforcement activities, and related matters; surveys existing enforcement activities and projects future needs; coordinates enforcement activities with other law enforcement agencies; directs patrols based on prevention and accident reports and may direct special patrols.

10. Supervises security staff; assigns work, sets priorities, and evaluates performance; insures compliance with Department rules, regulations, procedures, and standards; conducts inspections to ensure operational readiness, coordinates training schedules, and conducts training in the class and in the field.

11. Responds to such emergencies as fires, nuclear reactor accidents, and hazardous material spills; operates and maintains vehicles; enforces regulations and laws, makes arrests, conducts investigations; testifies.

12. Speaks to University groups, maintains liaison between other law enforcement agencies, public officials, and media; participates in civil defense planning.

13. Contributes to the resolution of unsolved crimes within the campus and protection of the public from repeat incidents by directing and performing timely and thorough investigations of pending cases and appropriate arrest or other disposition of suspects.

General Information

1. This position reports to the patrol Captain. The primary function of this position is the directing of all personnel on an assigned shift. This position acts as the shift commander for these personnel.

2. Incumbents in this position spend a portion of their work time in an office environment. However, incumbents must also spend a considerable amount of time in the field. In that environment, incumbents are exposed to all types of weather, the occasional need for physical exertion, occasional exposure to hostile, dangerous, or diseased persons with the intermittent need to utilize force to resist threats of bodily harm. Sometimes are required to drive in undesirable driving conditions.

3. Incumbents in this position work pursuant to general Departmental policies and guidelines. Deployment of subordinate personnel and review of their work is done within those basic guidelines. Within general guidelines, incumbents have the authority to design single-use plans and to implement appropriate disciplinary action when necessary, but hiring and firing decisions are referred to superior officers. Major and sensitive issues and incidents are also referred to superior officers.

4. Incumbents will concentrate efforts in a broad range of investigations and will work on a variety of cases involving many different investigative activities.

5. This position must be a classified employee, have 24 months in rank, maintain a performance standard of at least “meets performance standards”, and satisfy all current prescribed criteria (i.e., promotional exams) prior to advancement to the next higher rank.

Minimum Qualifications

1. Experience: must have background knowledge in supervising, scheduling, evaluating the performance of personnel, understand investigating techniques, and be proficient in report writing.

2. Good knowledge of University policies, rules, and regulations, Department objectives, policies, and procedures, first aid, fire and safety hazards, crime prevention and safety awareness programs and techniques.

3. Considerable knowledge of investigative techniques and procedures, laws of arrest and seizure, rules of evidence and court procedures, enforcement of University civil and criminal codes and the legal rights of citizens, and security and law enforcement training.

4. Must possess a valid driver’s license.

5. Must possess an Associate’s Degree or two years (48 credit hours) of college.
6. Minimum five years (60 months) experience in police/security or administrative experience.

7. Complete a paragraph detailing what plans and goals one has if one is promoted.

8. Pass a review of work history including any positive and negative contacts.

9. Must have completed or be currently enrolled in the ISU Law Enforcement Program and passed the Idaho POST tests for Police certification or equivalent.

10. Must have completed or be currently enrolled in a POST Academy Applied Technology law enforcement Reserve officer training, EVITS Security, or another department recognized law enforcement or security training program.

11. Pass an oral interview.

12. Final approval by the Director of Public Safety.

D. Public Safety Sergeant Full-Time

Class Purpose

To be accountable for the protection of life and property within the boundaries of the ISU campus through effective and fair enforcement of applicable criminal and traffic laws and ordinances, University regulations, and the timely detection and response to threats to public safety. This position will be responsible for maintaining officer training programs and officer certification requirements.

Principal Accountabilities

1. Contributes to the safety and security of persons and property within the campus boundaries by supervising and participating in the patrol of assigned areas, and providing appropriate response to conditions or persons needing assistance, attention, or correction.

2. Ensure the effective deployment of personnel on assigned shifts and case assignments by reviewing significant policies and issues with subordinates, and through counsel and constructive performance evaluations.

3. Assists in the appropriate judicial disposition of suspected felons, misdemeanants, and violators of University regulations by reviewing officers' reports and preparing reports concerning own activities to ensure accurate and complete documentation of criminal cases, violations of University regulations, and by directing and providing effective court or hearing testimony as required.
4. Enhance the Department of Public Safety's ability to serve and educate the public and deter criminal activity through positive personal, community, and public relationships, by rendering personal assistance and counsel to citizens where advisable, and by fostering such conduct by subordinates.

5. Maintain and improve personal knowledge, and that of the subordinates, concerning new and improved security techniques and the changing laws and regulations affecting security work and law enforcement by participating in on-the-job training sessions, completing self-study courses, providing effective training to subordinates, and coordinating training schedules.

6. Ensure that down time for assigned security and vehicle equipment is minimized by supervising safety and maintenance checks and requesting appropriate repair and maintenance of that equipment.

7. Reviews ongoing programs and makes recommendations to improve them; maintains and ensures availability of equipment and supplies; coordinates activities with other law enforcement agencies; prepares and makes presentations to the campus community; may act in the absence of the Lieutenant or Captain.

8. Supervises public safety staff; reviews reports, assigns tasks, sets priorities and evaluates performance; ensures compliance with Department rules, regulations, procedures, and standards.

9. Responds to emergencies such as hazardous material spills, bomb threats, fires, nuclear reactor alarms, enforces laws and regulations, conducts investigations, and assists in crime prevention and safety awareness programs. Coordinates response to emergencies between local response teams and the University.

10. Speaks to University groups, maintains liaison between other law enforcement agencies, public officials, and the media.

11. Contributes to the resolution of unsolved crimes within the boundaries of the campus, and protection of the public from repeat incidents by directing and performing timely and thorough investigations of pending cases and appropriate arrest or other disposition of suspects.

12. Organizes and maintains officer training records, ensures that officer’s certification and training requirements are met and that an ongoing training program meets the training requirements and the needs of the Department and any state or federal laws.

13. Coordinates with the field training officer to ensure that new employees are properly trained.
General Information

1. This position reports to the Public Safety Lieutenant. Reporting to this position are the Public Safety officers and student officers. This position may act as a shift commander.

2. Incumbents in this position utilize all security equipment including: motor vehicles, 2-way radios and other communication equipment. Additionally, incumbents in this position utilize computer terminals.

3. Incumbents in this position spend some time in an office environment. However, they must also spend a considerable amount of time in the field. In that environment incumbents are exposed to all types of weather, the occasional need for physical exertion, occasional exposure to hostile, dangerous or diseased persons with the intermittent need to utilize force to resist threats of bodily harm. Sometimes are required to drive in undesirable driving conditions.

4. Incumbents in this position work pursuant to general Department policies and guidelines. Deployment of subordinate personnel and review of their work is done within those basic guidelines.

5. Incumbents will conduct a broad range of investigations and will work on a variety of cases involving many different investigative activities.

6. Incumbents will maintain training records and ensure that the training needs and requirements of the Department are met.

7. This position must be a classified employee, have 24 months in rank, maintain a performance standard of at least “meets performance standards”, and satisfy all current prescribed criteria (i.e., promotional exams) prior to advancement to the next higher rank.

Minimum Qualifications

1. Possess a valid Idaho driver’s license.

2. Must possess an Associate’s Degree or two years (48 credit hours) of college.

3. Minimum five years (60 months) police/security or administrative experience. Two years (48 credit hours) of college education may be substituted for one year of experience.

4. Good knowledge of fire hazards, safety hazards, first aid procedures, and security procedures such as key and crowd control, investigating techniques, crime prevention and training practices, and needs of the Department of Public Safety as well as training requirements.
5. Considerable knowledge of investigative techniques and procedure; laws of arrest, search and seizure, rules of evidence and court procedures; enforcement of University civil and criminal codes and the legal rights of citizens.

6. Pass a review of work history including any positive and negative contacts.

7. Complete a paragraph detailing what plans and goals one has if promoted.

8. Must have completed or be currently enrolled in the ISU Law Enforcement Program and passed the Idaho POST tests for Police certification or equivalent.

9. Must have completed or be currently enrolled in a POST Academy Applied Technology law enforcement reserve officer training, EVITS Security, or another department recognized law enforcement or security training program.

11. Final approval by the Director of Public Safety.

E. Public Safety Officer (Corporal) Full-Time

Class Purpose

To be accountable for the protection of life and property within the boundaries of the ISU campus through effective and fair enforcement of applicable criminal and traffic laws and ordinances, University regulations, and the timely detection and response to threats to public safety.

Principal Accountabilities

1. Contributes to the safety and security of persons and property within the campus boundaries by patrolling assigned areas and providing appropriate third class officer response to conditions or persons needing assistance, attention, or correction.

2. Contributes to the protection of persons and property from criminal activity through timely and prompt response to felonies and misdemeanors, violations of University regulations and arrest, or other appropriate disposition of criminal suspects in accordance with all applicable criminal and civil procedural laws, rules and regulations of the University.

3. Assist in the appropriate judicial disposition of suspected felons and misdemeanants through accurate and complete documentation of criminal cases or violations and effective court or hearing testimony as required.
4. Enhance the Department of Public Safety’s ability to serve and educate the public and deter criminal activity through positive personal, community and public relationships and by rendering personal assistance and counsel where advisable.

5. Maintain and improve personal knowledge of advanced police and security techniques and the changing laws and regulations affecting police or security work by participating in on-the-job training sessions and completing self-study courses.

6. Ensure that vehicles remain in good working order through regular maintenance checks and requesting necessary services and repairs.

General Information

1. This position reports to the shift commander.

2. This position must be a classified employee, maintain a performance standard of at least “meets performance standards”, have 24 months in present rank, and satisfy all current prescribed criteria (i.e., promotional exams) prior to advancement to the next higher rank.

3. The primary function of this position is to protect the public, enforce parking regulations and criminal laws and ordinances, and effectively deter criminal activities within the campus boundaries. This position may provide general guidance to less experienced second and third class Public Safety officers.

4. Incumbents in this position utilize a variety of security equipment. That equipment includes motor vehicles, vehicle unlocking tools, jumper cables, equipment utilized to subdue and detain suspects, communication equipment, and investigative tools.

5. Typical challenges encountered by this position include subduing and arresting (where necessary) dangerous or hostile individuals, utilizing only necessary force; assisting in difficult or complicated investigations of crimes; maintaining personal knowledge and awareness of the changing criminal laws and regulations applicable to security work; and helping to establish and maintain a positive public relations atmosphere enabling the Department to better serve the public.

6. The conditions under which this position performs its basic functions include: all types of weather; frequent exposure to hostile, dangerous, or diseased persons; occasional physical exertion to apprehend subjects or physical threats; sometimes have to drive in undesirable conditions.

7. This position functions in accordance with a myriad of laws and ordinances affecting police and security work at the federal, state, and local levels. Departmental policies and procedures exist to cover most recurring situations; however, the need occasionally arises for incumbents to react to new situations not covered by those policies and procedures. Incumbents refer most
situations not covered to a ranking officer for resolution. Patrol areas and cases are assigned by superiors. Reports of cases processed are reviewed by superiors.

Minimum Qualifications

1. The following knowledge and abilities, however acquired:
   a. Minimum 2½ years (30 months) police/security or administrative experience. Two years (48 credit hours) may be substituted for one year of experience.
   b. Good knowledge of fire hazards, safety hazards, first aid procedures, and security procedures such as key and crowd control, traffic control, and patrol procedures.
   c. Has demonstrated the ability to handle cases and citations, be dependable, solve problems, understand and use crime prevention techniques, follow oral and written instructions, understand policies and procedures, write legible narrative reports, interact effectively with the public in stressful situations, and maintain constant awareness for hazardous conditions.
   d. Physical ability to visually observe activities in an assigned area both day and night, patrol an assigned area on foot, subdue and restrain a resisting adult, and carry an incapacitated adult down stairs and out of a building.

2. Must have completed or be currently enrolled in the ISU Law Enforcement Program and passed the Idaho POST tests for Police certification or equivalent.

3. Must have completed or be currently enrolled in a POST Academy Applied Technology law enforcement reserve officer training, EVITS Security, or another department recognized law enforcement or security training program.

4. Possess a valid Idaho driver’s license.

5. Pass a review of work history including any positive and negative contacts.

6. Pass an oral interview.

7. Final approval by the Director of Public Safety.
F. **Public Safety Officer Full-Time**

**Class Purpose**

To be accountable for the protection of life and property within the boundaries of the ISU campus through effective and fair enforcement of applicable criminal laws, traffic laws, University regulations, and the timely detection and response to threats to public safety.

**Principal Accountabilities**

1. Contributes to the safety and security of persons and property within the campus boundaries by patrolling assigned areas and providing appropriate Public Safety officer response to conditions or persons needing assistance, attention, or correction.

2. Contributes to the protection of persons and property from criminal activity through timely and prompt response to felonies and misdemeanors, violations of University regulations and arrest, or other appropriate disposition of criminal suspects in accordance with all applicable criminal and civil procedural laws, rules and regulations of the University.

3. Assist peers or supervisors in the appropriate judicial disposition of suspected felons and misdemeanants through accurate and complete documentation of criminal cases and violators of University regulations by providing effective court or hearing testimony as required.

4. Enhance the Department of Public Safety's ability to serve and educate the public and deter criminal activity through positive personal, community and public relationships, by assisting senior officers, and rendering personal assistance and counsel to citizens where advisable.

5. Maintain and improve personal knowledge of basic police and security techniques and the changing laws and regulations affecting police and security work by participating in on-the-job training sessions and completing self-study courses.

6. Ensure that vehicles remain in good running order through regular maintenance checks and requesting necessary services and repairs.

**General Information**

1. This position reports to the shift commander.

2. This position must be a classified employee and maintain a performance standard of at least “meets performance standards” prior to the advancement to the next higher rank.

3. The primary functions of this position are to protect the public, enforce parking regulations and criminal laws and ordinances, and effectively deter criminal activities within the campus boundaries.
4. Incumbents in this position utilize a variety of security equipment. That equipment includes motor vehicles, vehicle unlocking tools, jumper cables, equipment utilized to subdue and detain suspects, communication equipment, and investigation tools.

5. Typical challenges encountered by this position include subduing and arresting dangerous or hostile individuals, utilizing only necessary force; assisting in difficult or complicated investigations of crimes; maintaining personal knowledge and awareness of the changing criminal laws applicable to security work; and helping to establish and maintain a positive public relations atmosphere enabling the Department to better serve the public. In critical or more complex situations, this position may be subordinate to first or second class officers or other ranking Public Safety personnel.

6. The conditions under which this position performs its basic functions include: all types of weather; frequent exposure to hostile, dangerous, or diseased persons; occasional physical exertion to apprehend subjects or respond to physical threats; sometimes have to drive in undesirable conditions.

7. This position functions in accordance with a myriad of laws and ordinances affecting security work at the federal, state, and local levels. Departmental policies and procedures exist to cover most recurring situations; however, the need occasionally arises for incumbents to react to new situations not covered by these policies and procedures. Patrol areas and cases are assigned by superiors. Incumbents refer most situations not covered by procedures or standing work orders to a ranking officer for resolution. Reports of cases processed are reviewed by superiors.

Minimum Qualifications

1. The following knowledge and abilities, however acquired:

   a. Good knowledge of fire hazards.

   b. Some knowledge of basic first aid procedures, safety hazards, and security procedures such as key and crowd control, traffic control, and patrol procedures.

   c. Demonstrated ability to follow oral and written instructions, policies, and procedures, write legible narrative reports, interact effectively with the public in stressful situations, and maintain constant awareness for hazardous conditions.

   d. Physical ability to visually observe activities in an assigned area both day and night, patrol an assigned area on foot, subdue and restrain a resisting adult, and carry an incapacitated adult down stairs and out of a building.

2. Must have completed or be currently enrolled in the ISU Law Enforcement Program and passed the Idaho POST tests for Police certification or equivalent.
3. Must have completed or be currently enrolled in a POST Academy Applied Technology law enforcement reserve officer training, EVITS Security, or another department recognized law enforcement or security training program.

4. Possess a valid Idaho driver’s license.

5. Pass an oral interview.

6. Final approval by the Public Safety Director.

G. **Public Safety Officer 2nd Class**

**Class Purpose**

To be accountable for the protection of life and property within the boundaries of the ISU campus through effective and fair enforcement of applicable criminal and traffic laws and ordinances, University regulations, and the timely detection and response to threats to public safety.

**Principal Accountabilities**

1. Contribute to the safety and security of persons and property within the campus by patrolling assigned areas and providing appropriate Public Safety officer response to conditions or persons needing assistance, attention, or correction.

2. Contributes to the protection of persons and property from criminal activity through timely and prompt response to felonies and misdemeanors, violations of University regulations and arrest, or other appropriate disposition of criminal suspects in accordance with all applicable criminal and civil procedural laws, rules and regulations of the University.

3. Assist peers or supervisors in the appropriate judicial disposition of suspected felons, misdemeanants, and violators through accurate and complete documentation of criminal cases or violations and effective court or hearing testimony as required.

4. Enhance the Department of Public Safety's ability to serve and educate the public and deter criminal activity through positive personal, community and public relationships and by assisting superiors and/or rendering personal assistance and counsel to citizens where advisable.

5. Maintain and improve personal knowledge of fundamental security and police techniques and the changing laws and regulations affecting security and police work by participating in on-the-job training sessions and completing self-study courses.
6. Ensure that vehicles remain in good running order through regular maintenance checks and requesting necessary services and repairs.

General Information

1. This position reports to the shift commander.

2. This position must be a classified employee, have 12 months in present rank, and maintain a performance standard of at least “meets performance standards” to advancement to the next higher rank.

3. The primary functions of this position are to protect the public, enforce parking regulations and criminal laws and ordinances, and effectively deter criminal activities within the campus boundaries.

4. Incumbents in this position utilize a variety of security equipment. That equipment includes motor vehicles, vehicle unlocking tools, jumper cables, equipment utilized to subdue and detain suspects, communication equipment, and investigative tools.

5. Typical challenges encountered by this position include subduing and arresting (where necessary) dangerous or hostile individuals, utilizing only necessary force; assisting in difficult or complicated investigations of crimes; maintaining personal knowledge and awareness of the changing criminal laws and regulations applicable to security and police work; and helping to establish and maintain a positive public relations atmosphere enabling the Department to better serve the public.

6. In critical or more complex situations this position may be subordinate to first class officers or other ranking Public Safety personnel.

7. The conditions under which this position performs its basic functions include: all types of weather; frequent exposure to hostile, dangerous, or diseased persons; occasional physical exertion to apprehend subjects or respond to physical threats; sometimes have to drive in undesirable conditions.

8. This position functions in accordance with a myriad of laws, ordinances and regulations affecting police and security work at the federal, state, and local levels. Departmental policies procedures exist to cover most recurring situations; however, the need occasionally arises for incumbents to react to new situations not covered by those policies and procedures. Patrol areas and cases are assigned by superiors. Incumbents refer most situations not covered by procedures or standing work orders to a ranking officer for resolution. Reports of cases processed are reviewed by superiors.
Minimum Qualifications

1. The following knowledge and abilities, however acquired:
   a. Good knowledge of fire hazards, safety hazards, first aid procedures, and security procedures such as key and crowd control, traffic control, and patrol procedures.
   b. Has demonstrated the ability to follow oral and written instructions, policies, and procedures, write legible narrative reports, interact effectively with the public in stressful situations, and maintain constant awareness for hazardous conditions.
   c. Physical ability to visually observe activities in an assigned area both day and night, patrol an assigned area on foot, subdue and restrain a resisting adult, and carry an incapacitated adult down stairs and out of a building.

2. Must have completed or be currently enrolled in the ISU Law Enforcement Program and passed the Idaho POST tests for Police certification or equivalent.

3. Must have completed or be currently enrolled in a POST Academy Applied Technology law enforcement reserve officer training, EVITS Security, or another department recognized law enforcement or security training program.

4. Possess a valid Idaho driver’s license.

5. Pass an oral interview.

6. Final approval by the Public Safety Director.

H. Student Public Safety Officer—Lieutenant

Class Purpose

To be accountable for the protection of life and property within the boundaries of the ISU campus through effective and fair enforcement of applicable criminal laws, traffic laws and University regulations and the timely detection and response to threats to public safety.

Principal Accountabilities

1. Contributes to the safety and security of persons and property within the campus boundaries by patrolling assigned areas and providing appropriate Public Safety officer response to conditions or persons needing assistance, attention, or correction.
2. Enhance the Department of Public Safety's ability to serve and educate the public and deter criminal activity through positive personal, community and public relationships and by assisting senior officers and/or rendering personal assistance and counsel to citizens where advisable.

3. Maintain and improve personal knowledge of basic police and security techniques and the changing laws and regulations affecting police and security work by participating in on-the-job training sessions and completing self-study courses.

General Information

1. This position reports to the shift commander.

2. The primary functions of this position are to protect the public, enforce parking regulations and criminal laws and ordinances, and effectively deter criminal activities within the campus boundaries.

3. Incumbents in this position utilize a variety of security equipment. That equipment includes motor vehicles, vehicle unlocking tools, jumper cables, equipment utilized to subdue and detain suspects, and communication equipment.

4. This position must maintain a performance standard of at least “meets performance standards”, have 24 months in present rank, and satisfy all current prescribed criteria (i.e., promotional exams) prior to advancement to the next higher rank.

Minimum Qualifications

1. Minimum five years (60 months) experience in police &/or security.

2. Must be currently enrolled in or have completed the ISU Law Enforcement Program.

3. Pass a work history review including any positive or negative contacts.

4. Possess a valid driver's license.

5. Considerable knowledge in enforcement of University regulations, crime prevention, campus parking, and legal rights of citizens.

6. Pass an oral interview.

7. Final approval by the Director of Public Safety.
I. **Student Public Safety Officer—Sergeant**

**Class Purpose**

To be accountable for the protection of life and property within the boundaries of the ISU campus through effective and fair enforcement of applicable criminal laws, traffic laws, and University regulations and the timely detection and response to threats to public safety.

**Principal Accountabilities**

1. Contributes to the safety and security of persons and property within the campus boundaries by patrolling assigned areas and providing appropriate Public Safety officer response to conditions or persons needing assistance, attention, or correction.

2. Enhance the Department of Public Safety's ability to serve and educate the public and deter criminal activity through positive personal, community and public relationships, by assisting senior officers, and rendering personal assistance and counsel to citizens where advisable.

3. Maintain and improve personal knowledge of basic police and security techniques and the changing laws and regulations affecting police and security work by participating in on-the-job training sessions and completing self-study courses.

**General Information**

1. This position reports to the shift commander.

2. The primary functions of this position are to protect the public, enforce parking regulations and criminal laws and ordinances, and effectively deter criminal activities within the campus boundaries.

3. Incumbents in this position utilize a variety of security equipment. That equipment includes motor vehicles, vehicle unlocking tools, jumper cables, equipment utilized to subdue and detain suspects, and communication equipment.

4. This position must maintain a performance standard of at least “meets performance standards”, have 24 months in present rank, and satisfy all current prescribed criteria (i.e., promotional exams) prior to advancement to the next higher rank.

**Minimum Qualifications**

1. Must have been advanced to Corporal for at least one semester. Police or other security experience may be substituted.

2. Pass a work history review including any positive or negative contacts.
3. Must be currently enrolled in or have completed the ISU Law Enforcement Program.

4. Possess a valid driver’s license.
5. Pass an oral interview.

6. Final approval by the Director of Public Safety.

J. **Student Public Safety Officer–Corporal**

**Class Purpose**

To be accountable for the protection of life and property within the boundaries of the ISU campus through effective and fair enforcement of applicable criminal laws, traffic laws, and University regulations and the timely detection and response to threats to public safety.

**Principal Accountabilities**

1. Contributes to the safety and security of persons and property within the campus boundaries by patrolling assigned areas and providing appropriate Public Safety officer response to conditions or persons needing assistance, attention, or correction.

2. Enhance the Department of Public Safety's ability to serve and educate the public and deter criminal activity through positive personal, community and public relationships, by assisting senior officers, and rendering personal assistance and counsel to citizens where advisable.

3. Maintain and improve personal knowledge of basic police and security techniques and the changing laws and regulations affecting police and security work by participating in on-the-job training sessions and completing self-study courses.

**General Information**

1. This position reports to the shift commander.

2. The primary functions of this position are to protect the public, enforce parking regulations and criminal laws and ordinances, and effectively deter criminal activities within the campus boundaries.

3. Incumbents in this position utilize a variety of security equipment. That equipment includes motor vehicles, vehicle unlocking tools, jumper cables, equipment utilized to subdue and detain suspects, and communication equipment.
4. This position must maintain a performance standard of at least “meets performance standards”, have 24 months in present rank, and satisfy all current prescribed criteria (i.e., promotional exams) prior to advancement to the next higher rank.

Minimum Qualifications

1. Minimum one year (12 months) experience in police/security.

2. Pass a work history review including any positive or negative contacts.

3. Must be currently enrolled in or have completed the ISU Law Enforcement program.

4. Possess a valid driver's license.

5. Pass an oral interview.

6. Final approval by the Director of Public Safety.

K. **Student Public Safety Officer**

Class Purpose

To be accountable for the protection of life and property within the boundaries of the ISU campus through effective and fair enforcement of applicable criminal laws, traffic laws, and University regulations and the timely detection and response to threats to public safety.

Principal Accountabilities

1. Contributes to the safety and security of persons and property within the campus boundaries by patrolling assigned areas and providing appropriate Public Safety officer response to conditions or persons needing assistance, attention, or correction.

2. Enhance the Department of Public Safety's ability to serve and educate the public and deter criminal activity through positive personal, community and public relationships, by assisting senior officers, and rendering personal assistance and counsel to citizens where advisable.

3. Maintain and improve personal knowledge of basic police and security techniques and the changing laws and regulations affecting police and security work by participating in on-the-job training sessions and completing self-study courses.
General Information

1. This position reports to the shift commander.

2. The primary functions of this position are to protect the public, enforce parking regulations and criminal laws and ordinances, and effectively deter criminal activities within the campus boundaries.

3. Incumbents utilize a variety of security equipment. That equipment includes motor vehicles, vehicle unlocking tools, jumper cables, equipment utilized to subdue and detain suspects, and communication equipment.

4. This position must maintain a performance standard of at least “meets performance standards”, have 24 months in present rank, and satisfy all current prescribed criteria (i.e., promotional exams) prior to advancement to the next higher rank.

Minimum Qualifications

1. The following knowledge and abilities, however acquired:
   a. Good knowledge of fire hazards.
   b. Some knowledge of basic first aid, safety hazards, and security procedures such as key and crowd control, traffic control, and patrol procedures.
   c. Physical ability to visually observe activities in an assigned area both day and night and patrol an assigned area on foot.

2. Must be currently enrolled in or have completed the ISU Law Enforcement Program.
3. Possess a valid driver’s license.
4. Pass an oral interview.
5. Final approval by the Director of Public Safety.

1.2.9 Employee Job Descriptions

Written job descriptions exist for full-time Public Safety employee positions and can be accessed on the Idaho Division of Human Resources website: (http://dhr.idaho.gov/dhrapp/stateJobs/JobDescriptions.aspx)

Job Descriptions for student employees can be accessed on the ISU Human Resources web Page at www.isu.edu/humanr/employment.shtml. All personnel are encouraged to periodically review their job descriptions and to make suggestions to their supervisor or commander concerning any changes they believe should be made in the description.
Department Goals

1.3.1 Goals

A. To insure the continued operation of the University in reaching its teaching, learning, and research responsibilities.

B. To build and maintain a high level of cooperation between the University community and the Department, to identify problems that impact the quality of life, to devise strategies to address those problems, and to work together to solve them.

C. To maintain a high level of cooperation between the Department and other law enforcement and external governmental agencies.

D. To insure that the Department's authority is used in an ethical, legal, constitutional, and humanistic manner.

E. To provide regulatory parking and traffic operations.

F. To provide a crime prevention and safety program that identifies problems unique to the University setting and promotes their solutions.

G. To review and implement all new legislation and court decisions pertinent to the Department.

H. To provide advice and counsel to all parts of the University community concerning parking, protection, safety, or security.

I. To investigate all offenses and potentially disruptive situations.

J. To provide adequate security for all University facilities, events, or equipment.
K. To keep the University President informed.

L. To insure records and statistics are accurate and maintained.

### 1.3.2 Programs That Implement Department Goals

Campus Patrol - Prevent crime, disruptions, and provide immediate response to calls for assistance.

**Crime Prevention and Safety** - Identify problems and educate the University community in self-protection and industrial safety programs and measures.

**Investigations** - Identify and report the facts on all calls for service.

**Traffic and Parking** - Register, monitor, and regulate parking and traffic on University property.

**Security** - Provide protection for University facilities, events, and equipment.

**Enforcement** - to enforce all University regulations and policies and to enforce the laws of the State of Idaho as required.

**Recruitment and Training** - to select, train, and update Departmental personnel in all aspects of their jobs.

**Records** - to collect, maintain, and evaluate all registration, service, and investigative records.

**Industrial Safety** - to investigate industrial accidents, identify industrial safety concerns, recommend corrective action, maintain safety records, and evaluate safety programs.

The Department is committed to establishing goals and objectives for the Department. To facilitate the annual evaluation of the goals and objectives, it is necessary to solicit input from all members of the agency to successfully accomplish this task.

### 1.3.3 Departmental Input

Each unit supervisor is requested to solicit constant input from employees throughout the year. By December 1 of each year, the unit supervisors, via the chain of command, shall submit to the Director suggestions for the Department's next year's goals and objectives.

The director will review the recommendations and by January 1 will establish the goals and objectives for the Department for the next calendar year.
The established goals and objectives shall be distributed to all Departmental employees in the form of a Special Directive from the Director.

Goals and objectives for the Department shall be published in the annual report.

1.3.4 Unit Goals and Objectives

Each unit within the Department may be required to submit individual goals and objectives. These goals and objectives will be developed at the discretion of each supervisor and will follow the mission and goals of the Department.

1.3.5 Evaluation of Goals and Objectives

The Director shall periodically throughout the year meet with each unit supervisor to review accomplishments toward achieving the goals and objectives of the Department.

Each division supervisor is required to submit an annual written analysis to the Director concerning the progress made to meet the established Departmental goals and objectives within each division. The report will include successes and difficulties in meeting the established goals.

Budgets, strategic planning, business plans and daily operations of the department will be prepared in consideration of the mission and goal statement of the department, and will be reviewed annually by the Captain or his designee.

The report will include documentation and analysis of staffing levels to determine if changes are needed to meet the organizational goals and objectives and University needs.

These reports will be presented to the Director by the end of January of each year.

The analysis and recommendations need to be completed before March first of each year to comply with the budget submission timelines.
Oath of Office/Code of Ethics

1.4.1 Policy

All officers are required to read and adhere to the Oath of Office in order to serve as an officer. All employees of the Department are responsible for upholding the principles as described in the Law Enforcement Code of Ethics. (See Chapter I Section 1.4.3). The Mission Statement, Code of Ethics and Oath of Office are posted in the squad room entrance. Copies of the signed forms will be filed in the employee’s personnel file.

1.4.2 Oath of Office

All officers shall swear or affirm to adhere to the principles of the Oath of Office as a condition of employment. This oath will become a part of each officer’s regular training file as well as the officer’s permanent personnel file.

The Department Captain is responsible for ensuring all new officers hired by the Department read the Oath of Office and sign an Operations Manual Receipt as they complete their initial pre-employment paperwork.

1.4.3 Code of Ethics

The Department is committed to the principles of the Law Enforcement Code of Ethics as established by the International Association of Chiefs of Police (IACP).

NOTE: ISU Department of Public Safety is not an agency of sworn police officers. Idaho state law prohibits loyalty oaths of Public Safety officers in that they are not sworn officers. The Department of Public Safety, however, requires the Public Safety officer to sign and adhere to all rules, regulations, principles and practices as outlined in the Operations Manual, which contains a copy of an oath of office.
**Law Enforcement Code of Ethics**

As an employee of the Department of Public Safety, my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all to liberty, equality and justice.

I will keep my private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or to my agency; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities, or friendships to influence my decision. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and accept it as a public trust to be held so long as I am true to the ethics of the Department. I will never engage in acts of corruption or bribery, nor will I condone such acts by other officers. I will cooperate will all legally authorized agencies and their representatives in the pursuit of justice. I know that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession, law enforcement.

Violations of the Code of Ethics by any member of the Department may result in disciplinary action(s).

1.4.4 **Operations Manual Receipt on Code of Ethics**

**OATH OF OFFICE**

I, ______________________ do solemnly swear that I will support the Constitution of the United States of America, and the Constitution and Laws of the state of Idaho, and the laws, ordinances, and policies of Idaho State University, and the Rules and Regulations of Idaho State University Department of Public Safety and I will well and faithfully discharge the duties of the office of security officer, Idaho State University Department of Public Safety, to which I have been appointed according to law and to the best of my ability.

Notice: By offering this oath of office and requiring a signature, no written or implied contract for employment or continued employment is being offered. For any reason that I am found to be incapable, unqualified or unfit for employment or continued employment, or my best efforts to comply with the required obligations, responsibilities, duties, and task performances associated with this oath are unsatisfactory, I am subject to removal.

Signature __________________________________________

ISU Public Safety Operations Manual
General Orders – Oath of Office/Code of Ethics

Chapter I—Section 1 Page 35
1.4.5 Mission Acceptance Form

Our Mission

To affirmatively promote, preserve and deliver a feeling of security, safety and quality services to members of our community as set forth in our Mission Statement

This mission is a commitment to quality performance from all members. It is critical that all members understand, accept and be aligned with the responsibilities established by this mission. It provides the foundation upon which all operational decisions and organizational directives will be based. Directives include rules, regulations, operating policies, procedures and practices.

This mission represents the commitment of this administration to the concepts of quality performance management. In other words, members are expected to work consistently in a quality manner in the daily performance of those duties, job responsibilities and work tasks associated with this mission. Quality manner means that performance outcomes comply with the performance standards established for this agency and for each member associated with this agency. Examples of performance standards include the oath of office, code of ethics, agency rules, policies, procedures, directives, general and supervisory orders, work productivity and performance behavior.

Each member is required to accept the responsibility for the achievement of this mission and publicly register his or her commitment to it and to the concepts of quality service.

Registered Acceptance by ______________________________________

Date ___________________________________________
Closed Circuit Television Monitoring and Recording

1.5.1 Purpose

The purpose of this directive is to establish guidelines for the Idaho State University Public Safety Department (ISUPS) relative to the use of closed circuit television (CCTV) cameras.

1.5.2 Policy

It shall be the policy of ISUPS to utilize CCTV cameras to monitor and record public areas to ensure the safety and security of the University community. Further, ISUPS shall abide by the Idaho State University Policy for Closed Circuit Television Monitoring and Recording of Public Areas for Safety and Security Purposes.”

1.5.3 Scope

This directive shall affect all sworn and non-sworn employees who use, or supervise the use of the ISUPS CCTV system.

1.5.4 Use of CCTV Equipment

A. The use of CCTV equipment shall be limited to legitimate safety and security purposes, including but not limited to:

1. Property and Building Protection: building perimeter, entrances and exits, lobbies and corridors, receiving docks, special storage areas, laboratories, cashier locations, ATM/CVC machines, emergency telephones.
2. Alarm Verification: Intrusion alarms, exit door controls, hold-up alarms.

3. Video Patrol of Public Areas: Transit stops, parking lots, public street and intersections, shopping areas.

4. Criminal Investigation: Crimes against persons and property.

5. Monitoring of Access Control Systems: Monitor and record restricted access transactions at entrances to buildings and other areas.

6. Monitoring of Pedestrian and Vehicle Traffic Activity

B. The use of CCTV SHALL NOT be utilized for:

1. Profiling: The practice of targeting individuals based on characteristics of race, gender, ethnicity, sexual orientation, disability or other classifications.

2. Targeting of Individuals.

1.5.5 Public Safety Responsibilities

A. All Public Safety employees shall be guided by the Public Safety Standard operating Procedures relative to the operation of CCTV equipment.

B. The Public Safety Supervisor shall be notified immediately whenever any suspicious, criminal or life-threatening activity is observed, and appropriate police personnel shall be dispatched. In the absence of a Public Safety Supervisor, a patrol supervisor shall be notified by police radio.

C. All observations, notifications, and actions taken shall be documented, in detail, in the Computer Aided Dispatch (CAD) system.

D. Public Safety is the department authorized to oversee and coordinate the use of CCTV monitoring for safety and security purposes at the University. All University areas using CCTV monitoring are responsible for implementing this policy in their respective operations. Public Safety has primary responsibility for disseminating the policy and assisting other units in implementing the policy and procedures.

E. The Director of Public Safety has the responsibility to authorize all CCTV monitoring for safety and security purposes at the University. All new installations will follow Public Safety operating principles. All existing CCTV monitoring systems will be evaluated for compliance with this policy.

F. Public Safety will monitor new developments in the relevant law and in security industry practices to ensure that CCTV monitoring at the University is consistent with the highest standards and protections.
G. A CCTV monitoring committee, known as the ISU Safety Committee, will be responsible to assure that Public Safety adheres to established policy and procedure in the use of CCTV.

H. The CCTV monitoring committee members will serve as established by the rules of the Safety Committee. An individual may appeal an adverse decision by the CCTV monitoring committee through existing University appeal mechanisms.

I. The CCTV monitoring committee will review camera locations to insure the perimeter of view of fixed location cameras conforms to this policy. The proposed location of permanent CCTV cameras will be provided to the CCTV monitoring committee for review and published in the EXTRA before installation. A list of all University owned or controlled camera locations will be published semiannually in the EXTRA and made available by Public Safety to anyone requesting the list.

The location of temporary cameras to be used for special events will be reviewed by the CCTV monitoring committee for approval and published in the EXTRA before the event if possible.

(Note: “temporary cameras” does not include mobile video equipment of hidden surveillance cameras used for criminal investigations.)

Included with the list of CCTV camera locations will be a general description of the technology employed and the capabilities of the cameras.

Students and staff entering certain sensitive locations on campus may have an increased concern for privacy and confidentiality. In order to prevent a possible chilling effect on the use of service at these locations, concerned persons may petition the CCTV monitoring committee to forgo the installation of a proposed camera or for the removal of an existing camera. The CCTV monitoring committee will determine the appropriateness of an installation weighing the concerns of the person(s) making the requests and the safety and security for the entire community.

In recognizing students may also have an enhanced expectation of privacy in the hallways and lounges of residence facilities, CCTV monitoring for safety and security purposes will not be used in residential hallways and lounges unless the Director of Public Safety determines the specific safety/security risk exists.

The CCTV monitoring committee will review complaints regarding camera locations and determine whether the CCTV monitoring policy is being followed. The committee should weigh whether the potential increment in community security outweighs any likely infringement of individual privacy.

J. The CCTV monitoring committee, with the Director of Public Safety, will review all requests received by the Public Safety Department to release recordings obtained through CCTV monitoring. No releases of CCTV recordings will occur without authorization by the Director of
Public Safety and the CCTV monitoring committee. Excluded from reviews by the CCTV monitoring committee are releases of recordings directly related to a criminal investigation, arrest or subpoena. The CCTV monitoring committee may also approve release of CCTV Recordings only for legitimate purposes, such as to protect the University and its members from lawsuits or harm. A unanimous vote of the committee is necessary to approve the release of Recordings. Any release of Recordings will be recorded on a written log.

K. Any member of the CCTV monitoring committee may audit Public Safety’s CCTV monitoring operations, including video recording storage, at any time without prior notice.

L. The Chair of the Safety Committee will report to the Safety Committee at least four (4) times per year describing all requests for camera locations and release of Recordings and disposition of those requests.

M. The CCTV monitoring committee will review this policy annually and recommend revisions if needed.

### 1.5.6 Recording Management Policy and Procedures

#### A. Recording Security

1. Access to videos and video recording equipment is limited to:
   
   a. The University Senior Staff
   
   b. University CCTV Safety Committee Members
      
      1) A list of current committee members will be posted in the Public Safety Operations Center and will be updated annually.
      
      2) Panel members will be given full cooperation and access to all CCTV monitoring areas and recording storage areas.
      
      3) ISUPS command personnel will be notified immediately whenever a committee member requests to inspect a CCTV monitoring or recording storage area.
      
      4) All committee inspection will be noted on the dispatch radio log.
      
      5) Anyone requesting to view video recordings shall be instructed to contact the ISU Public Safety Director between 9:00 am and 5:00 pm, Monday through Friday.
c. Under no circumstances will alarm monitoring operators or supervisors be permitted access to video recordings or video recording equipment, without the Director’s approval.

d. A Video Recording Control Log shall be maintained by the Public Safety Department and shall be reviewed daily by the Security System Administrator. The Video Recording Control Log will be kept in the Security System Administrator’s office and will not be removed for any reason.

e. Recording Audits and Inventory shall be performed by the Director of Public Safety. Random audits shall be conducted by the CCTV monitoring committee.

B. Image Storage

1. Each recording will be labeled and identified prior to arrival at Public Safety. Public Safety personnel will not alter these recordings.

2. Recordings will remain in the video recording system and only be removed by the Director of Public Safety.

3. Video clips will not be archived unless approved by the Director of Public Safety.

C. Changing, Erasing, and Reusing of Recordings

1. Only authorized Public Safety managers may change stored recordings or operate video recording equipment.

2. An entry will be made on the ISUPS Sending and Receiving Sheet reflecting that the appropriate recording(s) were changed, that all recordings have been accounted for, and that the recording storage area is secure.

3. **This task shall NOT be delegated**

D. Review and Dissemination of Information

1. All personnel will adhere to the Idaho State University Policy for Closed Circuit Television Monitoring and Recording of Public Areas for Safety and Security Purposes.

2. Only authorized management, police and detective personnel are permitted to review or remove recordings.

3. Authorized personnel wishing to view or remove a video recording for any reason must enter all required information in the Video Recording Control Log. All entries must be complete and legible.
4. Video recordings must be returned to storage and secured by the end of each business day, unless they have been subpoenaed or permission is obtained from the Director of Public Safety.

5. Duplication of recordings or printing of images from video recordings is prohibited unless approved by the Director of Public Safety.

6. Conversion of recorded images from digital to analog formats is prohibited unless approved by the Director of Public Safety.

E. Performance Evaluation

1. Public Safety dispatch supervisory personnel will periodically and without prior notice have CCTV operators demonstrate their knowledge and understanding of relevant policies, procedures, and technical skills.

2. The Public Safety Department shall be notified of any performance or operational issues or deficiencies.

3. The Public Safety Department shall have primary responsibilities for initiating remedial action.

F. Impairment

1. Under no circumstances shall anyone, except professional factory trained service technicians attempt to service, repair, or tamper with any of the CCTV or video recording equipment.

2. The Public Safety Department shall have primary responsibilities for initiating remedial action.

G. System/Equipment Failure

1. Upon the failure of a CCTV component, CCTV monitoring personnel shall immediately notify the Public Safety Supervisor.

2. If the failure is contained to an individual component, the Public Safety Supervisor shall notify the CCTV manager during their regular business hours. If the failure occurs after hours, the Public Safety Supervisor shall document the equipment failure on the log and request that the Public Safety Department is notified the following business day.

3. If the failure is system wide, the Public Safety Supervisor shall document the failure on the log and immediately notify Public Safety personnel utilizing the Emergency Contact Callout List, located in the binder at the alarm monitoring console inside the dispatch operations center.
1.5.7 **Compliance**

Violations of this directive, or portions thereof, may result in disciplinary action.

1.5.8 **Officers Assigned to Other Agencies**

Officers of this department assigned to or assisting other law enforcement agencies will be guided by this directive.

1.5.9 **Application**

This directive constitutes departmental policy, and is not intended to enlarge the employer’s or an employee’s civil or criminal liability in any way. It shall not be construed as the creation of a higher legal standard of safety or care in evidentiary sense with respect to third party claims insofar as the employer’s or employee’s legal duty as imposed by law. Violations of policy will only form the basis for departmental administrative sanctions. Violations of law will form the basis for civil and criminal sanctions in a recognized judicial setting.

1.5.10 **General Principles**

A. Public Safety is committed to enhancing the quality of life of the campus community by integrating the best practices of public policing with state-of-the-art technology. A critical component of a comprehensive security plan using state-of-the-art technology is closed circuit television (CCTV).

B. The purpose of CCTV monitoring of public areas by security personnel is to deter crime and to assist Public Safety in protecting the safety and property of the University community. Any diversion of security technologies and personnel for other purposes (i.e., CCTV monitoring of political or religious activities, or employee and/or student evaluations) would undermine the acceptability of these resources for critical safety goals and is therefore prohibited by this policy.

C. Video monitoring for security purposes will be conducted in a professional, ethical and legal manner. Personnel involved in video monitoring will be appropriately trained and continuously supervised in the responsible use of technology. Violations of procedures for video monitoring referenced in this policy will result in disciplinary action consistent with the rules and regulations governing employees of the University.

D. Information obtained through video monitoring will be used exclusively for security and law enforcement purposes. Information obtained through video monitoring will only be released when authorized by the Director of Public Safety according to the procedures established in this policy.
E. Video monitoring of public areas for security purposes will be conducted in a manner consistent with all existing University policies, including the Non Discrimination Policy, the Sexual Harassment Policy, Open Expression Guidelines and other relevant policies. The code of Practice for video monitoring prohibits monitoring based on the characteristics and classifications contained in the Non-Discrimination Policy (e.g., race, gender, sexual orientation, national origin, disability, etc.)

F. Video monitoring of public areas for security purposes at the University is limited to uses that do not violate the reasonable expectation of privacy as defined by law.

G. To maintain an informed University community, ISU Public Safety will periodically disseminate written materials describing the purpose and location of CCTV monitoring and the guidelines for its use. The location of outdoor CCTV cameras monitored by Public Safety will be published in the Student newspaper, EXTRA.

H. Information obtained in violation of this policy may not be used in a disciplinary proceeding against a member of the University faculty, staff or student body.

1.5.11 Procedures

A. All operators and supervisors involved in video monitoring of public areas will perform their duties in accordance with this policy developed by Public Safety.

B. Public Safety management will assure that responsible and proper camera monitoring practices by control operators is continuous.

C. Public Safety will post signs at appropriate locations. Sign will state, “This public area is monitored by security cameras for personal safety and property protection.”

D. Public Safety will limit camera positions and views of residential housing. Any view given to the housing will be no greater than what is available with unaided vision. Furthermore, the view of residential housing facility must not violate the standard of “reasonable expectation of privacy.”

E. Public Safety operations and other monitoring centers will be configured to prevent camera operators from tampering with or duplicating recorded information.

F. Recorded video will be stored for a period not to exceed 30 days and will then be erased, unless retained as part of a criminal investigation or court proceedings (criminal or civil), or other bona fide use as approved by the Director of Public Safety and the CCTV monitoring committee.

G. Video recordings will be stored in a secure location with access by authorized personnel only.
H. Camera control operators will conduct video observation of areas only in plain view of others situated in the public area viewable to the public.

I. Camera control operators will be trained in the technical, legal, and ethical parameters of appropriate camera use.

J. Camera control operators will receive a copy of this policy and provide written acknowledgment that they have read and understood its contents.

K. Camera control operators will receive training in cultural awareness.

L. Camera control operators will not monitor individuals based on characteristics of race, gender, ethnicity, sexual orientation, disability, or other classifications protected by the University's Non-Discrimination Policy. Camera control operators will monitor based on suspicious behavior, not individual characteristics.

M. Camera control operators will not spot and continuously view people becoming intimate in public areas.

N. Camera control operators will not view private rooms or areas through windows.

O. Mobile video, portable hidden cameras and recording equipment may be used in investigations. Mobile video equipment will only be used in non-criminal investigations in specific instances as authorized by the Director of Public Safety, the University Attorney or the President of the University.

### 1.5.12 CCTV Camera/Video Review Procedures

**Logging In**
Log into the Vicon/ CCTV system, if not already logged in (The logo looks should be located on the desktop. It has a blue circle and a white flower form in the middle and should be label CCTV). At this time, the systems in Dispatch log in automatically.

**Locating Cameras**
You can find cameras two ways

- a. Site List Tab
- b. Groups Tab

If you are attempting to see a full DVR system (consisting of 16 cameras), make sure you select the 4x4 box, located in the lower right hand corner.
Once you have the 16 camera box option (4x4), you should be able to drag the individual DVRs or the groups over to the screen. Remember, if there are more than 16 cameras, you will only see the first 16 cameras listed under the groups section. To see what is selected, click on the folder to maximize.

**PTZs**
To use the functions of the PTZ, you must select the cameras specialized with the PTZ capabilities. At this time, the following list of PTZs cameras are as follows:

a. **Garrison**, pointed at the intersection of Memorial and Martin Luther King Jr Way.
b. **Rendezvous**, located on top of the Rendezvous Building. It is currently pointed at the crosswalk located northeast of the building.
c. **Business Administration**, located at the top of the BA building. It is currently pointed at the intersection of MLK Jr and South 8th Ave.
d. **Holt Arena**, located inside on the South side of the Arena.
e. **Holt Arena North**, located on the outer north side of the Holt Arena.
f. **Holt Arena South**, located on the outer south side of the Holt Arena, pointing at the practice field.
g. **Public Safety**, located on the Public Safety bldg. It is currently pointed at the “I.”
h. **Bennion North**, located on the top of the Bennion Building. This camera is pointed at the north parking lot.
i. **Bennion South**, located on the top of the Bennion Building. This camera is pointed at the South parking lot.
j. **CHE**, located on the top of the CHE building. This camera is facing the parking lot.
k. **CAES**, this camera is pointed on the front entrance of the CAES building.
l. **Ballard PTZs**, located on the top of the RISE building in the directions as listed below:
   - North East Corner
   - South East Corner
   - North West Corner
   - South West Corner

In order to work the PTZ cameras, do as follows:

a. Pull over the PTZ.
b. Select the one square or double click on the camera view.
c. If it is not already selected, select the PTZ tab. This tab is located on the lower left hand corner above the box. Once selected, you should see a red box with a plus and minus signed located in the middle of the camera view.
d. In order to move the camera side to side, click on your mouse, either right or left of the box. This depends on the direction you want to move it. Most of the PTZs have the ability to go a full 360 degrees. Remember that if you click farther away from the box, the faster the camera will move in that direction. Also, remember that due to a network issue, Holt has a slight delay.
e. If you need zoom in on the frame, click your mouse over the plus sign box. This will allow you to get closer to whatever object you are attempting to look at.
f. If you need to zoom out of the frame, click your mouse over the minus sign. This will allow you to move further away. The camera can only zoom out so far.
g. Please remember that when you are done using the PTZ to put it back to Pre-set1 or where the Director wants it currently pointed.

### Viewing Past Footage

Remember that footage is limited to a maximum of around 30 days, give or take.

You can view old footage a number of ways, as listed below:

a. **Right Click**
   - You may right click on the individual camera you wish to view old film.
   - Once you have done this a, a menu should pop up. Select either:
     - “Start Playback From Time..” Once this is selected, you will be given the option to select a certain day on a calendar and then a time frame to start, on the bottom of the screen.
     - For a certain time frame or for a quick playback ranging from 30 seconds to 30 minutes select “Start Quick Playback From:” and then your quick time.
     - For either of these two options, your camera with time selected should then appear next to the current camera view.

b. **Playback**
   - Select the playback button, found below the cameras being viewed.
   - Select the DVR (with the computer icon) on the left hand side and maximize.
   - Select Audio/Video and maximize.
   - Select the DVR with the white and blue box and maximize to view all cameras listed under it.
   - Select the camera in which you want to watch and either drag to the screen on the right or double click, so that the camera is then listed on the right hand side.

On the main screen, you will see a time bar on both the upper left and right hand corners. The left time represents the start time and the right time represents your end time. The bottom left hand time box should be the same time as the upper left hand corner, to make sure you are viewing the same start time.

### 1.5.13 Examples of Video Monitoring and Recording of Public Areas

Legitimate safety and security purposes include, but are not limited to, the following:
Protection of building and property:
Building perimeters, entrances and exits, lobbies and corridors, receiving docks, special storage areas, laboratories, cashier locations, etc.

Monitoring of access control systems:
Monitor and record restricted access transactions at entrances to buildings and other areas.

Verifications of security alarms:
Intrusion alarms, exit door controls, hold-up alarms, etc.

Video patrol of public areas:
Transit stops, parking lots, public (enclosed and unenclosed) streets, shopping areas, vehicle intersections, etc.

Criminal investigations:
Robbery, burglary, and theft surveillance.

Protection of pedestrians:
Monitor pedestrian and vehicle traffic and vehicles in traffic areas at intersections.
Memorandum of Understanding

This memorandum of understanding is to formalize an agreement between ISU PUBLIC SAFETY management and staff regarding use of departmental computers, technological devices and information. In addition, this memorandum also covers responsibilities and duties related to patrol personnel.

1. Once the default settings for office equipment have been determined and established, they are not to be changed without approval from management.
2. No unauthorized programs are to be loaded onto any departmental computer. This includes, but is not limited to, screen savers, games, technical programs.
3. Downloading of Internet executable files (files ending in .exe) is PROHIBITED unless approved by management.
4. Your computer usage is to be of a professional nature in accordance with the Governor’s Executive Order, No. 2001-12, Statewide Policies on Computer, The Internet and Electronic Mail Usage by State Employees. This includes, but is not limited to, NO GAMBLING and NO PORNOGRAPHY.
5. I understand that my email and computer usage, including visited internet sites may be monitored at any time.
6. Under no circumstances will CCTV cameras be used to peer or intrude into the personal lives and/or business of any employee or student except as specified in the departmental policy and procedure, which I have read and understand.
7. All information obtained through your course of employment is confidential and cannot be used except for official business, or released outside of our department without management approval, except as specified by FERPA and department policy. This includes, but is not limited to information contained on the mainframe (i.e.: ticket information), Spillman, CCTV cameras, Bengal Card system, criminal information, incident reports, conversations relative to any of the aforementioned areas.
8. All patrol officers will adhere to all rules, regulations, principles and practices as outlined in the ISU Public Safety Operations Manual. The Operations Manual is available to all patrol officers on the Public Safety share drive in pdf form and in printed copy kept in the Associate Trainer’s Office.
9. Patrol officers will conduct all responsibilities of their assigned shift. This will include making all required building checks, enforcing traffic laws by making traffic stops, conducting parking enforcement with parking citations, participating in the RAD program, and protect campus with crime prevention activities and assisting with special events and other agency activities.
10. Patrol officers will contact the Director of Security for incidents involving activity in which incident may potentially jeopardize the safety or wellbeing of our campus.
11. Violation of the terms of this agreement is grounds for immediate termination.

Code of Conduct

All members of the Department are required to establish and maintain a working knowledge of all laws, rules, and regulations in force at the University, the rules and policies of the Department and orders of the Department. Rules covered in this section are specified in Idaho Personnel Code Section 19. Copies will be made available to employees.

1.6.1 Bias-Based Profiling

The ISU Public Safety Department must be sensitive to the image that our department projects to the community. Our commitment to community policing requires that we foster trust in order to be successful in building partnerships with our community. Faculty, staff and students will not engage in problem solving with a public safety department they do not trust. With this in mind the intent of the public safety department is to build trust by adopting a policy of no bias-based profiling.

Bias-based profiling is the selection of individuals based on a broad set of criteria, which casts suspicion on an entire class of people without any individualized suspicion of the particular person being stopped. This includes, but is not limited to race, ethnic background, gender, disability, sexual orientation, religion, economic status, age, cultural group, national origin or other identifiable groups.

ISU’s Public Safety Department and its members do not condone the use of any bias-based profiling in any of its programs. Any action based on the characteristics above or other than the actions of the individual(s), may lead to violations of constitutional rights of those we serve, undermine the legitimate law enforcement efforts and lead to claims of civil rights violations. Bias-based profiling fosters distrust of the law enforcement community and invites legislative action, judicial intervention, and media scrutiny.

All ISU Public Safety Department member enforcement contacts will be the result of probable cause or reasonable suspicion as appropriate to the activity. All department employees will treat all people with whom they have contact equally.

Unless one or more of these characteristics are part of an identifying description of a possible suspect, any consideration of these characteristics in deciding whether to stop, question, search, or arrest a person constitutes profiling and is expressly prohibited.
Any member of the department that witnesses a violation of this policy will report that violation to
his/her supervisor. The supervisor will forward that information up the chain of command to the Chief
of Police with recommendations for corrective action.

An annual administrative review of agency practices and citizen concerns/complaints will be conducted
by the Captain to ensure compliance with this policy.

All department personnel will receive training in regards to bias-based profiling.

**1.6.2 Application of Orders, Rules, and Regulations**

Standards of conduct established in these general orders shall apply and be adhered to by all members
of the Department and shall apply at all times while employed.

**1.6.3 Obedience of Laws and Regulations**

Members shall observe and obey all federal and state laws, policies, and procedures of the University,
the Board of Education, and orders of the Department.

**1.6.4 Reporting Violations of Laws, Policy and Procedure, Rules, or Orders**

Members knowing of other employees violating laws, ordinances, or rules of the Department, or
disobeying orders, shall report the violation to the Director by officer’s report through the chain of
command.

**1.6.5 Standard of Conduct**

Members shall conduct their private and professional lives in such a manner as to avoid adverse
reflection upon themselves as members of the Department. *(See Code of Ethics in IPC 19.A.l.e. and
General Orders Chapter I Section 1.4).*

**1.6.6 Insubordination**

The deliberate refusal of any member to obey a lawful order given by a superior shall constitute
insubordination and may be subject to disciplinary action.
1.6.7 Non-Discrimination

Non-Discrimination Policy - It is the policy of Idaho State University to provide equal employment opportunities to applicants and equal benefits to employees without regard to race, color, national origin, religion, sex, age, disability, or veteran's status in accordance with the applicable State and Federal laws.

Equal Employment Opportunity Policy - The policy of Idaho State University is to pursue a continuing program of specific positive practices designated to achieve the realization of equal employment opportunity without regard to race, color, national origin, religion, sex, age, disability, or veteran status in accordance with the applicable State and Federal laws.

The Public Safety Department will not tolerate discrimination in any form by any member. Any discrimination that is alleged will be investigated and handled in a fair and expedient manner.

ISU’s EEO/Affirmative Action Grievance Committee will review complaints of discrimination by all University employees or applicants for employment to the University pursuant to the procedures in Part 4, Section V.F of ISU Policies and Procedures.

1.6.8 Conduct toward Superiors, Subordinate Officers, and Associates

Members shall treat superiors, subordinates, and associates with fairness and respect. They shall be courteous and civil at all times in their relationships with one another. A member will refrain from speaking negatively of any nationality, race, gender, or religion not just toward an associate, but snide remarks in the presence of an associate (office setting). A member will refrain from using coarse, violent, profane, insolent, or disrespectful language.

1.6.9 Criticism of Department

Members shall not publicly criticize or ridicule the Department, its policies, or other members by talking, writing, or expressing in any other manner, where such action is:

A. Defamatory;
B. Obscene;
C. Unlawful;
D. Or tends to impair the operation of the Department by interfering with its efficiency, interfering with the ability of supervisors to maintain discipline, or having been made with reckless disregard for truth or falsity.
1.6.10  Conduct toward the Public

A. Members shall be courteous and orderly in their dealings with the public. They shall perform their duties quietly, avoiding harsh, violent, profane, or insolent language or gestures and shall remain calm regardless of provocation to do otherwise.

B. Will not express any prejudice concerning race, religion, politics, national origin, life style, or similar characteristics.

C. Members shall not, at any time or for any reason, willfully subject any person or animal to cruel treatment, nor willfully neglect any necessary humane action which circumstances may require.

C. Employees shall address each other by title or in a professional manner when in public.

1.6.11  Impartial Attitude

All members shall remain completely impartial toward and treat fairly all persons coming to the attention of the Department.

A member will truthfully answer all questions specifically directed and narrowly related to the scope of employment and operations of the Department which may be asked of him upon order of the Director, the Director's designee, or a superior officer.

1.6.12  Identification

A member will carry his identification card on his person at all times, except when impractical or dangerous to his safety or to an investigation. He will furnish his name and identification number to any person requesting that information when he is on-duty or while holding himself out as having official capacity, except when the withholding of such information is necessary for the performance of their duties or is authorized by proper authority.

1.6.13  Acceptance of Gifts, Gratuities, Fees, Loans, or Rewards

A. Employees shall not accept any gifts, gratuities, loans, fee, or other item of value, the acceptance of which might tend to influence directly or indirectly the actions of the employee or any other members or employees in any matters of police business, or which might cast an adverse reflection on the Department.

B. Members shall not accept nor solicit any gifts, gratuities, loans, or rewards directly or indirectly, from any person who is:

1. Liable for arrest.
2. In custody.

3. After discharge from custody.

C. Neither shall they engage in any business transaction with any person in custody nor during an official contact.

D. Employees are prohibited from buying or selling anything of value from or to any:

1. Complainant/victim.

2. Witness.

3. Defendant/prisoner.

4. Or any other person involved in a case which has come to their attention or which arose out of their Departmental employment except as may be specifically authorized by the Director.

1.6.14 Contributions

No contribution or subscription shall be made by any member for the benefit of another member without the consent of the Director.

1.6.15 Debts

Members shall make a sincere and reasonable effort to pay their debts promptly.

1.6.16 Prohibited Activity On-Duty

Members are prohibited from engaging in the following activities while on-duty:

A. Sleeping.

B. Loafing.

C. Idling - members shall not sleep on-duty and at all times shall be attentive to their duties.

D. Conducting private business.

E. Carrying any articles which distract from the proper performance of duty.

F. Drinking intoxicating beverages in uniform.
G. Internet games, downloads.

H. Watching T.V.

I. Gabbing in Dispatch Center.

J. Using Spillman for other than Official Business.

The preceding examples shall not be construed to be all-inclusive.

1.6.17 Loitering

A. All members on-duty or in uniform shall not enter taverns, theaters, or other places except to perform an official task. Members may eat in a restaurant where alcoholic beverages are sold but may not drink alcoholic beverages while in uniform.

B. Employees off-duty or not performing Departmental business and not on any official standby status shall not loiter in Departmental areas.

1.6.18 Use of Alcohol, Intoxicants, or Drugs

A. A member will not consume intoxicating beverages while in uniform or on-duty, except in the performance of duty while acting under proper and specific orders from a superior officer.

B. A member will not appear for duty, or be on-duty, while under the influence of an intoxicant to any degree whatsoever, or with an odor of an intoxicant on his/her breath.

C. No member, while on-duty, shall use depressant, stimulant, or hallucinogenic drugs other than those prescribed by a physician, and then only with the knowledge of their immediate supervisor.

D. No member shall drink or purchase any alcoholic beverage while on-duty or in uniform if off-duty. No officer in plain clothes shall drink or purchase any alcoholic beverages while on-duty except when necessary in the performance of duty and then only with the prior written approval of the supervisor and with a copy of the written approval being immediately forwarded to the Director. Members receiving permission to drink alcoholic beverages on-duty shall do so in a manner that does not prohibit them from taking necessary duty actions.

E. No members while off-duty shall consume intoxicating beverages or drugs to the extent they engage in illegal activity or that it results in impairment, intoxication, or obnoxious or offensive behavior which discredits them or the Department, or renders the member unfit to report for their next regular tour of duty or special assignment.
1.6.19 Intoxicants on Departmental Premises

No member shall store or bring into any department facility or vehicle alcoholic beverages, controlled substances, narcotics, or hallucinogens except for an official purpose. Items held as evidence shall be properly stored and identified according to current policy.

1.6.20 Smoking While On-Duty

Smoking is prohibited on all property wholly owned, leased or operated by Idaho State University. This consists of all buildings, including residence halls, all grounds, including exterior open spaces, parking lots, on-campus sidewalks, University-owned streets, driveways, athletic and practice facilities and recreational spaces; and in all University-owned or leased vehicles.

Smoking is hereby defined as the burning of tobacco or any other material in any type of smoking equipment, including but not restricted to cigarettes, cigars or pipes.

1.6.21 Misrepresentation and/or Falsification

No member shall, in official capacity, willfully misrepresent any matter, sign any false official statement or report, commit perjury, or give false testimony before any court, grand jury, board, commission, official hearing, or Departmental inquiry.

1.6.22 Consorting

A. Members of the Department will avoid personal associations with persons who have been convicted of a felony, under criminal investigation or indictment, or who have an open and notorious reputation in the community for felonious criminal or immoral behavior, except in the discharge of their official duties. Deviation from this policy may be granted by the Director.

B. Members shall not solicit a person's identification for personal reasons.

C. Members shall refrain from personal advances toward victims, complainants, or any person known to the member as a result of official business, while on-duty. No official document shall be used to contact a person for personal reasons.

1.6.23 Gambling

A member will not engage or participate in any form of illegal gambling at any time, except in the performance of duty or while acting under proper and specific orders from a supervisor.
1.6.24 Property/Evidence - Abandoned, Found, Safekeeping, Etc.

Evidence, abandoned, and found property maintained for safekeeping and any other property/evidence received by a member of this Department shall not be used or converted to personal use by any member of the Department. Requests for conversion to Departmental use may be made to the Director via the chain of command.

1.6.25 Departmental Property

Members will not misuse or abuse Department equipment. Any loss or damage to Departmental property shall be immediately reported to the on-duty supervisor both verbally and in writing. Any employee guilty of neglect or willful damage of such property may, at the discretion of the Director or as recommended by a Board of Inquiry, be responsible for the cost of its replacement and repair (total or partial) in addition to any disciplinary action.

1.6.26 Reporting for Duty

Members shall be punctual in reporting for duty at the time and place designated by their supervisors. Failure to report on time for duty may be deemed neglect of duty. Members shall be responsible for notifying their supervisor in advance of any absence from duty. If the supervisor is not available, the dispatcher will be notified of the absence. Communications shall make written notice of the absence and forward that notice to the employee’s supervisor.

1.6.27 Roll Call

Unless otherwise directed, members shall report to daily roll call at the time and place specified and be properly uniformed and equipped. They shall give careful attention to all orders and information provided and available.

Uniformed personnel shall be prepared to respond to any call for service while attending roll call.

1.6.28 Relief

A member will report to the squad room in person at the expiration of his tour of duty, unless exceptional procedure is authorized by a superior officer. A member assigned to duty at a specific location may be excluded from this requirement.

A member will not leave his assigned duty post during a tour of duty except when authorized by proper authority.
Officers will not leave their assigned post, patrol, or duty assignment until officially relieved by the oncoming shift officer. If the relief officer does not arrive within five minutes of the official end of shift, the duty officer is to notify the Public Safety supervisor and write an official report of the incident.

1.6.29   Reporting to Supervisors

A. Members shall keep their supervisors informed of any unusual activity, situation, or problem with which the Department would logically be concerned.

B. An employee shall notify the supervisor in writing any time there is involvement as a witness, victim, or suspect in any situation under investigation by another law enforcement agency.

C. Any employee involved as a plaintiff or defendant in any civil action resulting from official activity as a Department member shall report this fact in writing by officer’s report to the Director via the chain of command.

1.6.30   Reports and Records

No member shall knowingly delay the filing of a report, alter, remove, or falsify any official records, nor cause inaccurate, misleading, or false information to be entered into any Departmental book, record, or report.

A member will submit each report on time and in accordance with established Departmental procedure. A report submitted by a member will be truthful and complete, and no member will knowingly enter or cause to be entered any inaccurate, false, or improper information. “On time” is defined as the completion of the shift during which any phase of an investigation is completed.

1.6.31   Confidentiality

Members shall consider the operations and official business of the Department to be confidential. They shall not discuss these matters with anyone outside the Department except in accordance with Departmental procedures.

1.6.32   Business Cards

Business cards which refer to the Department shall be used by members only in conjunction with official business.
1.6.33 Posted Orders

Any order posted on an official bulletin board or distributed through any other official channel over the signature of the Director shall have effect as, and be construed as part of these rules and regulations.

1.6.34 Bulletin Boards

A. Notices or announcements posted on bulletin boards within the Department shall pertain to the business of the Department or be otherwise approved by the Director.

B. No member shall mark, alter, or damage any item posted on a bulletin board unless necessary.

C. Each item placed in the daily bulletin or radio log will conform with the Department of Public Safety orders. All officers are required to read the daily bulletin at the beginning of their shift.

1.6.35 Duty and Off-Duty Defined

Members of the Department shall have regular hours assigned to them for active duty and when not so employed shall be considered "off-duty."

1.6.36 Call Out

During "off-duty" time, members of the Department shall be subject to call out duty or standby duty as deemed necessary by the Director.

1.6.37 Action While Off-Duty

An officer shall act in an official capacity off-duty according to proper state statute if the action will safeguard life.

A. If an officer is off-duty and observes an incident requiring police action and life is not endangered, the incident shall be reported to the department of jurisdiction for action.

B. Any officer action off-duty shall immediately be reported to the on-duty supervisor. A written report shall be submitted by the officer involved within 24 hours to the Director via officer’s report and the chain of command. An initial written report shall be made by the on-duty supervisor to the Director by the end of the shift.
1.6.38 Security Violations

Stealing, altering, forging, releasing to unauthorized persons, or tampering with any kind of Department record, report, equipment, citation, or any form of electronically transmitted information shall be cause for disciplinary action up to, and including, termination.

1.6.39 Court - Absence

If for any reason any member of the Department cannot attend court, notification of the proper authority of the intended absence must be made. It is always the responsibility of the employee to advise the proper authority if a court notice is received which conflicts with duty schedule, vacation, or other commitments.

1.6.40 Court Preparation

All members shall have the cases in which they are concerned properly prepared and all property which is to be used in evidence suitably arranged for court.

1.6.41 Court - Testifying for the Defendant

Any member subpoenaed to testify for the defense in any criminal action or hearing shall notify the office of the County/City Attorney upon receipt of the subpoena and shall insure that their supervisor is notified of the same.

1.6.42 Court - Order of Appearance

If an employee is notified of court cases that conflict with each other, the preference for court appearances shall be:

A. District, including Grand Jury.
B. Magistrate Court.
C. Another agency's case outside Bannock County.

The officer shall be responsible for making the proper notifications in a timely manner.

1.6.43 Failure to Appear for Court

Any employee who fails to appear for a scheduled court case, who had previous notice of the case will be subject to disciplinary action.

Repeated violations: Disciplinary action up to and including termination.
1.6.44 Appearance in Court

A member will testify with the strictest accuracy, confining himself to the case being heard and neither suppress nor overstate the slightest circumstances with a view of favoring or discrediting any person. Attendance at court or hearings as required by subpoena or official request is an official duty. Permission to omit this duty must be obtained from the prosecuting attorney or the administrative official handling the case. When appearing in court, either the official uniform or appropriate businesslike attire must be worn.

A member will present a neat and clean appearance, avoiding any mannerism which might imply disrespect. A member of the Department concerned with the case will be punctual in attendance. He will have each case prepared properly and all evidence ready for presentation. A member will give the utmost attention and respect toward the magistrate or hearing official at all times.

1.6.45 Tardy Regulation and Penalty

All employees shall be subject to the following disciplinary procedure in any instance where tardiness, without good cause, occurs in connection with a required attendance or work schedule.

A. First tardy within 12 months: Oral warning by supervisor/PPR entry.
B. Second tardy within 12 months: Written reprimand from supervisor.
C. Third tardy within 12 months: Disciplinary suspension/disciplinary probation.
D. Fourth tardy within 12 months: Dismissal.

Documentation reflecting reason for tardiness and time late shall be submitted by the employee using the appropriate Officer’s Report Form.

1.6.46 Damaged/Inoperative Property or Equipment

Members shall notify their immediate supervisor, or the on-duty supervisor of any defects or hazardous conditions existing in any Departmental equipment or property. The supervisor investigating the incident shall submit an endorsement on the appropriate Officer’s Report Form and forward it to the Director through the chain of command.

This section does not apply to routine maintenance problems with vehicles.

1.6.47 Usage and Accountability for Supplies and Equipment

All members of the Department shall be held responsible for proper usage of Departmental equipment. The employee is responsible and accountable for all Departmental issued equipment at all times.
1.6.48 Surrender of Departmental Property

Members are required to surrender all Departmental property in their possession upon separation from service. If an employee fails to return non-expendable items, a requirement will be made to reimburse the Department for the fair market value of the article(s). Criminal charges may be pursued for items that are not returned. The Director will make the final determination.

1.6.49 Care of Department Buildings and Property

Members shall not mark, mar, or deface any surface in any Departmental building. No material will be affixed in any way to any wall in departmental buildings without specific authorization.

No political posters, bumper stickers, or campaign material shall be affixed to any Departmental bulletin board, wall, locker, or floor of the Department.

1.6.50 Department Lockers & Locks

ISU Public Safety will provide each patrol officer with their own locker, lock and key. While the locker is under the control of the individual officer, it is to be kept neat, clean and not to be used for any purpose that may cause embarrassment or discredit to the department.

Officers will be allowed to personalize their lockers by posting stickers and personal items on their lockers so long as the items adorning their locker are not offensive to anyone and are not so extreme as to cause the department to spend time or money restoring the locker to its original condition.

The Public Safety Department will maintain key access for each individual locker. Routine locker inspections will be conducted to maintain good order and discipline. The inspections will not be taken lightly and will be done for the following reasons:

A. When sanitary conditions of a locker have deteriorated to the point that it begins to negatively impact the other officers in the locker room.

B. Use of the locker for any illegal purpose or in violation of University policy.

C. Retrieval of equipment left in the locker that is imperative to conducting regular business.

In all situations where an employee will have their locker accessed, attempts will be made to have the employee present at the time their locker is opened.

The lockers, locks and keys are the property of the department and are to be returned in the same condition as when they were issued. Officers will not:

A. Have additional keys made for the department lock.
B. Cut the department lock from the department locker

In the event that an officer needs access to their personal locker and they do not have their issued key, they will contact the patrol supervisor or other supervisor to open their locker.

1.6.51 Articles for Publication

Members of the Department shall not make public addresses or write materials for publication concerning the affairs of the Department without first obtaining permission from the Director or his designee.

1.6.52 Public Appearances

Members of the Department who are requested to appear before a public group to represent any topic relating to the operations of the Department shall obtain permission from a supervisor.

1.6.53 Testimonials

Members shall not seek personal publicity in the course of their employment. They shall not permit their names or photographs to be used to endorse any product, service, or individual which is in any way connected to or with the Department or University without permission of the Director.

1.6.54 Correspondence

Members shall not correspond in the name of the Department without permission from the Director or his designee.

All correspondence going forth from the Department shall go out under the signature of the Director as follows:

Stephen Chatterton
Director

_____________________

(Author)
(Title)

Official letterhead stationary shall be used only for Official Departmental Correspondence.
1.6.55  **Official Information**

Personnel taking classes at the University or elsewhere shall not use, without approval, information contained in official files of the Department for the purpose of making reports, written or oral, or for use in any other academic project without the prior approval of the Director.

No member of the Department may respond to any requests for information regarding crime trends, statistics, or any other type of information contained in the official files of Department unless a request is of an official nature for the use of University officials. All requests for information by students, staff, faculty, or other persons not officials of the University, shall be directed to the Director or his designee.

The Department publishes an annual report, as well as all the current crime statistics as reported to Department via the Uniform Crime Report or the Consolidated Monthly Report. This report may be quoted.

Any crime statistics published by the Department are considered public information and may be distributed at any time. Informational sheets are available through the Sergeant assigned to crime prevention.

1.6.56  **Forwarding Communications**

A. Any member of the Department receiving written communication for transmission to a higher Departmental command shall in every case forward such communication without delay. Members receiving a communication from a subordinate directed to a higher command shall endorse it indicating approval, disapproval, or acknowledgment. The date and time of review shall also be indicated on the document.

B. Employees are responsible for following the chain of command for all officer’s reports and memorandums. These two forms of communication should be addressed accordingly and should only include the supervisors involved. No communication should be addressed to the Director unless specifically required, or as a matter of policy or procedure.

C. Supervisors are required to review memorandums and officer’s reports and forward them up the chain of command as necessary.

1.6.57  **Department Address - Use of**

Members shall not use the Department as a mailing address for private purposes nor routinely receive personal mail at the Department. The Departmental address shall not be used on any employee’s motor vehicle registration, operator’s license, or any other official document.
1.6.58 Maintenance of Telephone and Address

All members of the Department shall maintain a telephone in their residence.

All members shall have a permanent local address on file with the Department.

1.6.59 Change of Address or Telephone Number

All members of the Department shall inform the Director within 24 hours of any change of address or telephone number. The Director shall make the changes on the official Department roster and notify Communications of the change. Notification to the Director shall be made via officer’s report via the chain of command.

An officer will have a telephone in his residence and will notify his superior officer within 24 hours of any change of telephone number. A member’s personal telephone number is considered confidential information unless stated otherwise by the member in writing.

1.6.60 Department Telephones

The use of Departmental telephones is restricted to official business.

No member shall make or cause to be made long-distance telephone calls charged to the Department which are for personal business.

1.6.61 Collect Call - Incoming

Collect calls can no longer be made to the Department.

1.6.62 Pagers

Selected personnel will be issued Pagers for notification requirements.

1.6.63 Labor Activity

No member in uniform shall enter any building, structure, or premises where posters or persons have been placed to indicate a labor dispute in progress, except as necessary in the performance of duty as required. Officers at the scene of a labor dispute shall remain strictly impartial and shall not accept any gratuities from the parties involved.
1.6.64  Strike or Work Stoppage

Members shall not engage in or conduct a work stoppage or strike. The term "strike" means:

The concerted failure to report for duty, the willful absence from one's position, the stoppage of work, or the abstinence in whole or in part from the full, faithful, and proper performance of the duties of employment, for the purpose of inducing, influencing, or coercing a change in the condition, or compensation, or rights, privileges, or obligations of employment.

The techniques of “sick call,” “blue flu,” or “mass resignation,” are specifically included in the definition of a “strike” under this definition.

Employees taking part in such action will be subject to disciplinary action.

1.6.65  Abuse of Position

A member will not use his official position, official identification cards, or badges:

A. For personal or financial gain.

B. For obtaining privileges not otherwise available to him except in the performance of duty.

C. For avoiding consequences of an illegal act.

D. A member will not lend to another person his identification card or badge or permit the identification card to be reproduced without the approval of the Director of Public Safety.

1.6.66  Violation of a Rule
