Institutional Priority 1: Structure Student Success – The College of Western Idaho will implement a variety of programs to foster students’ success in reaching their educational and/or career goals.

Objective 1: CWI will be actively involved in college readiness efforts that prepare students for success.

Performance Measure: Promote and publicize the positive financial and personal benefits of earning a degree or certificate from a community college.

Institutional Priority 2: Develop Systems to Support Faculty and Staff – The College of Western Idaho will prioritize support for employees, which thereby maximizes student success.

Objective 1: Develop resource allocation guidelines to effectively deliver programs and services.

Performance Measure:

[To be developed]

Description:

CWI will initiate a ‘School Resource Officer (SRO)’ type program, which would be the most economical option for armed, P.O.S.T. certified law enforcement presence. This would be the most viable direction to proceed, considering the CWI two campus concept. The SRO would have oversight of all law enforcement issues, training, security assessments, and so forth.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?  
   CWI requests an additional $245,000 for armed police presence, as contracted from local police agencies. Currently, CWI does not employ armed police officers, either directly or by contract. The current staffing level for unarmed security is approximately 12 full time and 7 part time contract positions. CWI currently spends approximately $556,000 (FY 2014 dollars) for security (mostly for contract security staff).

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      This request includes two full-time, additional sworn police officers, contracted through a public law enforcement agency. It is estimated these positions would be in ‘Police Officer III – Advanced’, positions, with an hourly/annual pay rate of
$29.22/$60,778, plus benefits. These officers would be employed by a local law enforcement agency, with PERSI benefits.
b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
   No existing human resources would be redirected.
c. List any additional operating funds and capital items needed.
   It is estimated that approximately $72,000 would be needed for vehicles for the officers (paid to the local agency via contract), training, equipment, and related.
3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   Fund source is expected to be the State General Fund.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
   Students, faculty, staff and visitors would all be served by this request. Due to the distance between CWI locations, it has been the procedure of CWI Security to provide a presence at all locations while the buildings are occupied with students. In locations such as Aspen Creek where the building are in close proximity, CWI Security provides an officer for the entire site and the officer covers all 3 buildings and grounds. This would also be the case in any location that has multiple building, or a more traditional campus setting.
   If this request is not funded, CWI will have to make operational budgets cuts in order to adequately implement and meet the mandate of the State.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
   This item has not been requested in the past.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal 3, Objective A

In order to meet society’s critical needs in the area of agriculture, we must build a structure to adequately support our research and extension faculty and staff. This will require human capital to form a framework to support and enhance scientific discovery, revenue generation, dissemination of knowledge, and education of our youth. This team of support will increase our ability to be successful in the exchange of knowledge and resources and have a positive impact on Idaho and beyond.

Performance Measure: Align personnel costs with strategic plan direction to achieve a balance that is sustainable and will allow the Agricultural Research and Extension Service (ARES) to move forward to achieve our goals.
ARES is severely underfunded in personnel. We have qualified faculty and support staff to conduct research and extension activities but lack the funding needed to allow them to adequately focus in their areas of expertise. With the addition of the requested new positions, adequate funding for current positions and the addition of graduate assistantships, we expect to see a direct effect on productivity and retention (longevity of employment).

Description:

The College of Agricultural and Life Sciences, its Idaho Agricultural Experiment Station and its Cooperative Extension System face a number of major program challenges in our responsibilities to serve the people of Idaho and meet the essential needs of the State’s increasingly important agricultural industry. Among these challenges, several issues loom as extremely critical for Idaho’s agriculture and constitute program areas for which we are inadequately invested in scientific, youth development and technological resources.

The positions identified in this request would provide a structure that would assist the University of Idaho and the College of Agricultural and Life Sciences in obtaining a more competitive position in the job market and to allow faculty and staff to be in a better position to develop competitive, productive, sustained research and extension programs. The contributions from productive research and extension programs directly benefit virtually all of Idaho’s agricultural industry, communities, citizens, and stakeholders.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

We are requesting the following resources:

Salary (3 FTE) 4-H Area Extension Educator Faculty (New positions)
A nationwide longitudinal study conducted over an 8-year period by Tuft’s University documents that youth in grades 5 to 12 who are involved in out-of-school 4-H programs excel in many areas. These include academic achievement, interest in STEM programs, civic engagement, and healthy living choices.

Idaho 4-H engages over 56,000 Idaho youth (15% Hispanic) in various programs. The 4-H program is delivered in each Idaho county as a partnership between 4-H professionals and volunteers who focus on helping youth develop citizenship, healthy living, and STEM skills. We have grown youth enrollment from 30,272 in 2008 to 56,546 in 2013, and have increased the number of volunteers from 3,510 in 2008 to 5,062 in 2013. However, the 4-H Youth Development program is running at near capacity; to further expand youth involvement, three additional
faculty positions, one for each Extension district, are needed to provide program
leadership and district-wide technical support in 4-H science, healthy living and
citizenship. These faculty will train volunteers and 4-H staff and will focus on
expanding partnerships and bringing additional external resources to support the
4-H program.

Investing in the UI Extension 4-H Youth Development Program aligns directly
with UI’s Strategic Plan (Goal 3); with UI’s Core Theme of increasing
engagement and its STEM initiative, and with the College of Agricultural and Life
Sciences Strategic Plan to develop the “Transformative Youth Development
Program of Distinction”.

Salary (16.2 FTE) for Technical Support (Existing Positions)
Fully fund existing full-time technical support positions to support statewide
research and extension programs. Positions are located at all Research and
Extension Centers and in Moscow on the University of Idaho campus. Funding
for existing full-time support staff positions was reduced to 50 percent in 2010 to
meet budget reductions. This request re-establishes funding at 100 percent for
full-time support staff. Support staff assist principle investigators with research
and extension programs focused on developing and transferring knowledge of
new, improved principles and practices that will enhance Idaho’s agriculture, and
improve the lives of Idaho’s citizens. Principal responsibilities include
supervising day-to-day operations of field, greenhouse, and laboratory aspects of
programs; writing extension and research articles, reports and grant proposals,
and preparing and presenting information to stakeholders. Fully funding these
positions will significantly increase the productivity of research faculty who will
subsequently be better able to focus on strategic areas as identified in our
strategic plan as programs of distinction.

Salary (1.0 FTP) Grant Writer – Classified Staff (Level 7) New position
Enhance grant proposal competitiveness and success of College of Agricultural
and Life Sciences faculty. The position will be located in Moscow on the
University of Idaho campus and will have statewide responsibility in assisting
faculty in identifying funding sources, and preparing and submitting grant
proposals. The focus will be on grant proposals that are high value,
multidisciplinary, integrated efforts that provide significant funding to College of
Agricultural and Life Sciences faculty who will address research and extension
needs important to Idaho’s agricultural industry and Idaho’s citizens. As part of
the College’s strategic plan, we intend to increase research and extension
extramural funding from $17 million to $25 million over the next 5 years. A grant
writer is essential in identifying funding opportunities and gaining efficiencies
through coordination of effort or this ambitious goal will not be attainable. The
enhanced extramural funding will provide direct benefits to Idaho’s citizens and to
agriculture by developing and transferring knowledge of new, improved principles and practices.

Salary (1.0 FTP) Web Technician – Classified Staff (Level 5) New Position
Provide web support primarily on the websites for University of Idaho Extension, which has a presence in 42 of the 44 counties, each with a separate series of websites used to communicate to the stakeholders of that specific county. While there is a single person in each county that is trained to upload and edit information on the website, these efforts have to be coordinated and branded to appear as a cohesive unit. The Web Technician will help coordinate these efforts, provide technical support, and assure that information is readily accessible by the community and service the efforts of extension.

Salary (0.5 FTP) Marketing and Communications Manager – Classified Staff (Level 10) Partial Funding of Existing Position
As the land grant institution for the state of Idaho, it is our responsibility to not only identify problems and create solutions, but effectively communicate this to stakeholders. Although print media and websites were key to communication in the past, with advances in technology we recognize the need to expand our educational and information delivery in new ways (on-line short courses, interactive websites, blogs, social media platforms, etc.). To be successful in this arena, we must identify key personnel to coordinate these efforts across disciplines and to increase public awareness of the excellent resources CALS offers Idaho’s residents. The Marketing and Communications Manager will coordinate efforts to maximize efficiencies while increasing communications to external audiences and aligning efforts with priorities in the College of Agricultural and Life Sciences as outlined in the strategic plan.

Salary Graduate Research Assistantship Stipends (7-10 New Positions)
Graduate assistantship stipends must be provided competitively (best students) and strategically (high impact research and extension projects) to faculty located at all Research and Extension Centers and in Moscow on the University of Idaho campus. Funding for State supported graduate research assistantship stipends was reduced by 50 percent in 2010 to meet budget reductions. This request supports 7 to 10 master or Ph.D. level students. Graduate students assist faculty with research and extension programs focused on developing and transferring knowledge of new, improved principles and practices that will enhance Idaho’s agriculture, and improve the lives of Idaho’s citizens. In addition, graduate students conduct novel research important to Idaho, and are the next generation of agricultural science trained leaders.
2. What resources are necessary to implement this request?
   
a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
   
   See #1 above

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   We have redirected .75 FTP to our marketing and communications effort in order to develop a long range plan for marketing and communicating our success to stakeholders.

c. List any additional operating funds and capital items needed.

   N/A

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   100% of the requested $1,510,000 is recurring state general fund funding.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   The citizens of Idaho, the agricultural industry, and our growing export markets will be better served through improved research and extension activities if this funding request is approved. The same constituent groups will suffer if the request is not approved.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

   This request is a high priority for FY16 and will continue to be in future years due to the need to develop and disseminate information by several methods in order to reach a larger group of our stakeholders and significantly increase the opportunity for success for research and extension grant proposals submitted and awarded.

   Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal I: A WELL EDUCATED CITIZENRY – Continuously improve access to medical education for individuals of all backgrounds, ages, abilities, and economic means.

Objective A: Access – (SBOE) Set policy and advocate for increasing access; (WWAMI) recruit a strong medical student applicant pool for Idaho.

- **Performance measure**: the number of Idaho WWAMI medical school applicants per year, the number of funded medical student positions per year, and the ratio of Idaho applicants per funded medical student position.
Objective B: Transition to Workforce - Maintain a high rate of return for Idaho WWAMI graduate physicians who choose to practice medicine in Idaho.

- **Performance measure**: Cumulative Idaho WWAMI return rate for graduates who practice medicine in Idaho.

GOAL 3: Effective and Efficient Delivery Systems – Deliver medical education, training, research, and service in a manner which makes efficient use of resources and contributes to the successful completion of our medical education program goals for Idaho.

Objective A: Increase medical student early interest in rural and primary care practice in Idaho.

- **Performance measure**: the number of WWAMI rural summer training placements in Idaho each year.

Objective B: Increase medical student participation in Idaho clinical rotations (clerkships) as a part of their medical education.

- **Performance measure**: the number of WWAMI medical students completing clerkships in Idaho each year.

Objective C: Support and maintain interest in primary care medicine for medical career choice.

- **Performance measure**: Percent of Idaho WWAMI graduates choosing primary care specialties for residency training each year.

Description:

This is a request for the continuation of funding for the five Idaho TRUST (Targeted Rural Under-Served Track) students added in the FY14 Budget, who will now be continuing on into their third year of medical training in the WWAMI program at the University of Washington School of Medicine in Seattle.

The goal of the TRUST program is to provide an ongoing training connection between community workforce needs, medical education, and rural healthcare providers in Idaho. TRUST medical students will be specifically selected for their experiences and backgrounds in rural and underserved Idaho, and their commitment to returning to such communities to work as physicians where they are most needed. With a four-year curriculum that combines traditional medical training with additional classroom and clinical experiences developed around rural and underserved healthcare needs, TRUST students will develop long-term relationships with Idaho’s rural communities and physicians. The TRUST program is designed to admit, educate, place, train, and retain local Idaho students as future Idaho physicians.

Budget support for Year 3 is in the form of Trustee/Benefits payments under the WWAMI contract. No new positions, staffing, capital, or operating funds are included in
this request. The increase in State funding goes entirely for medical student education for these 5 TRUST students admitted to the Idaho WWAMI program in 2013.

Objective C: Support and maintain interest in primary care medicine for medical career choice.

- **Performance measure:** Percent of Idaho WWAMI graduates choosing primary care specialties for residency training each year.

**Description:**

This new program request is for five (5) additional positions for medical students in the Idaho WWAMI program, beginning in FY16. With the transition of twenty WSU-based WWAMI students to Spokane in FY15, the Idaho WWAMI program has capacity for additional students; additionally, because of curriculum renewal, the University of Washington School of Medicine has increased capacity for the total number of medical students. Therefore, in an effort to increase the opportunity of the sons and daughters of Idaho citizens to attend a prestigious, highly ranked medical school and to potentially increase the number of physicians providing medical services in the state of Idaho in a timely manner, this request is to increase the incoming class of WWAMI students in the fall of 2015 to a total of thirty five (35).

To accomplish these goals and objectives, the Idaho WWAMI program needs to be authorized and funded to admit five additional students (new entering class total of 35 Idaho WWAMI students, fall 2015). This funding would come from general appropriations and dedicated funds derived from WWAMI tuition received by the
University of Idaho. Specifically, new program costs are provided on page 1 of this request and would include:

1. A request to add one and a half (1.5) FTEs for faculty positions to implement curriculum renewal. This would take the form of three 0.5 FTE appointments; 1.0 FTE (two 0.5 FTE appointments) would be funded from general allocation and 0.5 FTE would be derived from dedicated funds.
2. Operating expenses for educating the five additional medical students, including anatomy supplies and equipment, study resources, clinical instruction, and other program costs.
3. Because we will be changing the curriculum beginning in the fall of 2015 to include both basic science and clinical medicine and because additional revenue from this revised program will not be forthcoming until the following fiscal year, one-time funds are requested to support the salaries clinicians that will be required to teach in the program (in the renewed curriculum, analysis of medical cases by the class will be directed by both a basic scientist and a clinician).

The FTE increase is requested to implement the instruction of additional subject areas of the renewed curriculum. In addition to personnel requirements, an expansion in medical student enrollment would require a modest increase in operating expenses for teaching these additional students.

This request for increased WWAMI medical student positions would be an ongoing request. It requires a commitment to not only increased funding and medical students in year 1 (FY16), but also ongoing commitments in years 2, 3, and 4 of medical school, with proportional costs in each of those years, as students move successfully through medical school toward graduation. Idaho WWAMI is currently at 30 students per year, or 120 total students in medical school. This request requires the addition of 5 students in the entering classes of FY16, FY17, FY18, and FY19 or 35 students per year, for a total of 140 Idaho WWAMI students enrolled in medical school by FY19 (Fall 2018). This initial request is relatively small. The ongoing commitment to medical education, growing the Idaho WWAMI total medical school enrollment from 120 to 140 students, is necessary for the future of Idaho communities.

This request also supports the recommendations of the State Board of Education's Medical Education Subcommittee from January, 2009; specifically, recommendations #2 (increased WWAMI students), #5 (admissions selection for rural and primary care interests), and #6 (insuring rural training rotations in Idaho as a part of students' program).
Supports institution/agency and Board strategic plans:

**ISU Department of Family Medicine Strategic Plan 2015- 2020**

**Strategic Planning – Mid-term (3-5 years)**

The ISU Department of Family Medicine has defined mid-term (3-5 years) and long-term (6-10 years) strategic planning components some of which are outlined below.

**GOAL 1: Access – Recruitment of physicians for Idaho**

Objectives for access

1. Maintain core residency program at 7-7-7.
   - **Performance measure:**
     - Number of residents.
   - **Benchmark:**
     - 21 residents in training.

| TOTAL CAPITAL OUTLAY:           | 0       |
| T/B PAYMENTS:                  |         |
| LUMP SUM:                      | 90,000  |

**GRAND TOTAL**

90,000
Description:
Over the last three years the ISU Family Medicine residency has solidified their expansion from 18 to 21 residents with additional administrative and faculty supervising staff to meet education and accreditation standards for the enlarged residency. Funding was originally acquired through the federal Primary Care Residency Expansion (PCRE) monies which was an initiation funding for start-up costs. The residency now has to cover the ongoing permanent maintenance costs or alternatively reduce the residency back to 18. The increased support staffing required is 1.5 FTE at a cost of $90,000 for the additional three residents to be supported and supervised for each three years of residency.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   One full time faculty to supervise 6 residents in addition to the director is the minimum supervising ratio; one to four is the ideal ratio. The FTE administrative staff ratio is equivalent and this action will bring the ratio to 4.7 FTE admin staff for 21 residents or 1 administrative staff FTE to 4.5 residents.

2. What resources are necessary to implement this request?
   a. List by position: position titles: Residency Coordinator Full time, Residency Assistant Coordinator 0.5 FTE, Non classified permanent employees
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted. None
   c. List any additional operating funds and capital items needed. None

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.)

   This is an ongoing general fund request that was initially supported by federal PCRE funds for the first five years of the implementation of the increase in resident numbers.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   6000 current Family medicine patients in South East Idaho and tens of thousands of rural Idaho patients in the future practices of the graduates of the program

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
Medical Care of Idaho’s citizens is a high priority and supersedes most unapproved items from the previous year.

**Supporting documentation**
The following is reproduced from the Accreditation Council of Graduate Medical Education’s (ACGME) Institutional requirements:

II B The Sponsoring Institution (ISU) must ensure that:

II B 2 programs Receive Adequate support for core faculty members to ensure both effective supervision and quality resident education.

II B 4 programs coordinators have sufficient support and time to effectively carry out their responsibility; and,

II B 5 resources, including space, technology, and supplies, are available to provide effective support for ACGME-accredited programs.

The ISU Family Medicine Residency respectfully submits this funding request to assist ISU FMR in meeting its ACGME requirements for maintaining a 21-resident complement.
Supports institution/agency and Board strategic plans:

**Goal 1, Objective D:** Improve the ability of the educational system to meet educational needs and allow efficient and effective transition into the workforce.

Expanding graduate medical education (GME/residency) training in Idaho has been identified as an educational and funding priority in the State of Idaho: the state-funded MGT Medical Education Study (11/1/07), the Idaho Medical Association (8/10/08, 8/1/13), the Legislative Medical Education Interim Committee (11/12/08, 8/1/13), and the State Board of Education (1/26/09). The State Board of Education rank ordered ten recommendations towards expansion of medical education (1/26/09). The first of these recommendations was to “expand the development of graduate medical education (residency programs) opportunities in the State of Idaho focusing on primary care and rural practice.”
The Family Medicine Residency of Idaho (FMRI) has produced 278 graduates since 1975, of which 150 are located in Idaho (54%). This ranks Idaho 7th in the nation in the ability to keep residents in the state they train in. Over 80% of FMRI graduates practice in Idaho or its contiguous states, and nearly 70% of those in rural or underserved areas. The high retention rate of family physicians speaks to the FMRI being a high-value program to the State of Idaho.

At any one time, FMRI has 48 family medicine residents in its three-year residency program and 3 fellows in training at over 30 different locations in Ada, Canyon, Jerome, and Twin Falls counties, as well as 28 additional rural rotation sites in nearly every other county of Idaho.

Description:
In the 2014-15 academic year, two large federal grants that helped support FMRI’s growth, the Teaching Health Center Graduate Medical Education (THC-GME) grant and the Primary Care Residency Expansion (PCRE) grant, will end. This will leave FMRI with a $1,350,000 budget shortfall. With these grants, FMRI was able to add 12 residents in the program. It is therefore imperative that Idaho steps up now to help support these residency positions or they will be lost to our program and our rural training tracks. This budget request of $411,300 will only be 30% of the shortfall, but in good faith will help stabilize FMRI so that it will not have to reduce its program from 16 residents per class to 12 per class at a time that Idaho needs this workforce the most.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
   $411,300 in ongoing General Funds is requested to help maintain the current family medicine residency cohort size of 16 residents per year for three years.
   Current state base funding for this program is $1,118,700 (T/B)

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      N/A
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      N/A
   c. List any additional operating funds and capital items needed.
      N/A

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   $411,300 in ongoing T/B General Funds is requested.
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted? Idaho ranks 49th of 50 states in regards to primary care physicians per capita and 49th of 50 states in the number of resident’s per capita training in our state. FMRI received federal grants to expand its class size and footprint in order to help Idaho meet its looming workforce crisis. This crisis has only been magnified by increased health insurance coverage and the need for timely access to high-quality primary care for all of Idaho’s citizens especially in the rural part of our state.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
N/A

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
**Supports institution/agency and Board strategic plans:**

**Goal 1, Objective D:** Improve the ability of the educational system to meet educational needs and allow efficient and effective transition into the workforce.

Expanding graduate medical education (GME/residency) training in Idaho has been identified as an educational and funding priority in the State of Idaho: the state-funded MGT Medical Education Study (11/1/07), the Idaho Medical Association (8/10/08, 8/1/13), the Legislative Medical Education Interim Committee (11/12/08, 8/1/13), and the State Board of Education (1/26/09). The State Board of Education rank ordered ten recommendations towards expansion of medical education (1/26/09). The first of these recommendations was to “expand the development of graduate medical education (residency programs) opportunities in the State of Idaho focusing on primary care and rural practice.”
Description:
Kootenai Health Family Medicine Coeur d’Alene Residency (KFMR) will be in the continued startup phase of our Family Medicine Residency program, in the 2nd year operations for FY 2016. The program started-up in July 2014, with 6 R1 first year residents. In the subsequent two years an additional six residents will be added to attain the full complement of 6 R1’s, 6 R2’s and 6 R3’ totaling 18 residents, each to complete the full three years residency training program.

The focus of this program is to train rural family physicians for Idaho. Kootenai Health, a community owned and operated health care entity has invested significant resources into this project of developing a family medicine residency program. Kootenai Health is requesting additional support funds, through the Idaho State Board of Education, from the Idaho Legislature.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
   The need stated is based upon the additional costs which we will encounter related to training our residents in urban and in rural settings, preparing them to be fully functioning family physicians.

   Residents must be sent to Spokane for more intense pediatric training at Providence Sacred Heart Children’s Hospital, due to fact that regionally the more severely ill and injured children are transferred there for the more intense treatment needed. Specific costs encountered relate to the loss of federal GME support dollars and to revenues lost, in their absence from our clinic patient care operations. Each resident will spend a total of 12 weeks in Spokane.

   In addition, residents are sent to rural communities in North Idaho. Specific costs related to that experience include travel, place of residence in that community for 4 week blocks, and to specific revenues lost in our clinic patient care operations, in the absence of that resident.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      N/A
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      N/A
   c. List any additional operating funds and capital items needed.
      N/A

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
Projected expenses and revenues for FY 2016

- Kootenai Health ongoing annual investment: $945,000
- Federal Revenues: $1,632,000
- Family Medicine Center clinical revenues: $2,321,000
- State Appropriation (FY15): $200,000 (ongoing)
- State Appropriations Request (FY16): $180,000 (ongoing)

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

KMFR is specifically targeting the primary care physician shortage which exists in North Idaho and secondarily targeting the fact the State of Idaho is experiencing a significant physician manpower shortage, which will definitely become more acute over the next 5 to 10 years. The State of Idaho currently ranks number 49/50 in the state’s number of physicians per capita. It is projected that within 5 to 7 years, approximately 20 of the present 30 family physicians in the Kootenai County region will retire. In the state of Idaho it is projected that approximately 50% of the currently practicing family physicians will retire within the next 7 to 10 years. National research projects a 60,000 family physician shortage in the United States by the year 2020.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

**GOAL 1: A WELL EDUCATED CITIZENRY**
The educational system will provide opportunities for individual advancement.

**Objective D: Transition** – Improve the ability of the educational system to meet educational needs and allow students to efficiently and effectively transition into the workforce.
Description:
The Idaho/UW Advanced Clinician Track is a four year University of Washington Psychiatry Residency program. After graduating from medical school, physicians learn psychiatry by treating patients in hospitals, emergency rooms and clinics. They train for two years in Seattle learning from world-renowned experts, then move to Idaho for their final two years learning from local experts at the Boise VA, Saint Alphonsus Hospital, Saint Luke's Hospital, Portneuf Hospital, Family Medicine Residency of Idaho and various other clinical sites. Our mission is to train excellent psychiatrists who could practice anywhere, but choose to stay in Idaho.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The Psychiatry Residency program is requesting $36,420 to cover personnel costs and General Funds, which reflects a 30% increase, to provide additional base funding support for the program. With additional money we will place our psychiatry residents in underserved communities using telepsychiatry. We will expand psychiatric coverage to those living in more remote areas of the state.

2. What resources are necessary to implement this request?

   Additional state funding will be added to funding from St Luke’s, St Alphonsus and the Boise VA hospital funding.

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      Not applicable.

   b. Note any existing human resources that will be redirected to this new effort and existing operations will be impacted.

      The additional money will be used to set up telepsychiatry rotations, working with hospitals throughout the state.

   c. List any additional operating funds and capital items needed.

      Not applicable.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   Ongoing State General Funds
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The people living in remote areas of Idaho are served by this funding request, as are all citizens who benefit from physicians’ care. If we can extend our program’s reach to all corners of Idaho, we put technology to its best use by helping people. Treating common illnesses like depression and anxiety have a positive effect on other medical illnesses like high blood pressure and diabetes. Telepsychiatry programs have a profound effect on overall physical health. If we do not fund this request, we will not be able to expand psychiatry resident care into more remote areas of our state.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
Not applicable.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal 1, Objectives A.1 and A.2; Goal 2, Objective A.1. This request will upgrade and develop university human resource competencies (faculty, staff and students) to strengthen disciplinary and interdisciplinary scholarship in forest resource economics that advances the college’s strategic themes and land-grant mission and are directly linked to FUR programs in the UI Experimental Forest and Forest Nursery complex. Scholarly modes of discovery, application and integration that address issues of importance to the citizens of Idaho will be enhanced by improving timber harvesting, forest productivity, regeneration, and management with respect to a full range of goods and services, including environmental quality as well as wood and paper products. The direct metrics of performance will be the number of CNR faculty, staff, students and constituency groups involved in scholarship or capacity building activities in forest resource economics research projects.
Goal 1, Objective B.2. Create new products, technologies, protocols and processes useful to private sector natural resource businesses such as timber harvesting and processing, consumer products manufacturing, forest regeneration and rehabilitation firms, as well as governmental and non-governmental enterprises and operating units. The direct metrics of performance will be the amount of non-FUR funding leveraged by FUR funded forest resource economics research projects.

Goal 2, Objectives A.2 and A.3. Engage with communities, governmental and non-governmental organizations through flexible partnerships that share resources and respond to local needs and expectations; in addition, foster key industry and business relationships that benefit entrepreneurship and social and economic development through innovation and technology transfer that will increase the productivity of Idaho's forests. The direct metrics of performance will be communities served and resulting documentable impacts from serving various communities, governmental and non-governmental organizations, and private businesses and landowners.

Goal 3, Objectives A.1, A.2 and A.3. Provide undergraduate, graduate and professional students with education and research opportunities in forest resource economics research and management that are integrated educational experiences with ongoing FUR and non-FUR research programs at CNR outdoor laboratories, including the University of Idaho Experimental Forest, the Forest Nursery complex, and McCall campus, and also engage alumni and stakeholders as partners in research, learning, and outreach. The direct metrics of performance will be number and diversity (as measured by variety of academic programs impacted) of courses which use full or partially FUR funded projects, facilities or equipment to educate undergraduate, graduate and professional students.

Description:

Advancing forest resource economics research at the University of Idaho by investing in human resources.

Forests cover nearly forty percent of Idaho and produce a wide variety of goods and services including timber, livestock forage, wildlife habitat, water resources, recreation opportunities, open space, as well as water purification and carbon sequestration. Forest lands are vital to Idaho’s economy, and the ability to serve current and future generations will be influenced by our understanding of the economic costs and benefits, and secondary effects, of providing a variety of goods and services from Idaho’s forests. Improving forest conditions and productive capacity through science and applied management and economics research in the current context of ecological and societal change will require analysis of newly integrative thinking and innovative practices to maintain and restore forest lands and the human communities that rely on them.
Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The College of Natural Resources is requesting $111,520 in the Forest Utilization Research (FUR) budget to provide full-time salary support, plus travel, operations, and capital equipment, for a new forest resource economics assistant professor to create research capacity to document with in-depth analysis the importance of forest-based enterprises in Idaho’s economy, including trucking and forest resource-based recreation and tourism. These resources will enhance the capability of FUR programs to work with stakeholders and leverage additional funds from other non-state sources, both of which help strengthen a traditional Idaho industry and the rural communities that long have relied upon the jobs from harvesting, transporting and processing timber into useful consumer products.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      The College of Natural Resources is requesting funds sufficient to provide full-time salary and benefits support for a new forest resource economics assistant professor.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      There will not be redirection.

   c. List any additional operating funds and capital items needed.

      The request includes $5,000 for travel, $5,000 for operating expenses, and $3,500 for capital equipment used to process data.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   Not applicable.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Research in forest resource economics using the requested resources will directly serve professional managers and state and private owners of Idaho forest lands and enhance the skills and tools to sustain and improve forest health and productivity. Rural communities and outdoor recreation stakeholders in Idaho benefit from productive forest lands that support economic enterprises, vigorous wildlife populations, fertile soils and abundant supplies of clean water.
5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

   This request has not been made previously.

   Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal 1, Objectives A.1 and A.2; Goal 2, Objective A.1. This request will upgrade and develop university human resource competencies (faculty, staff and students) to strengthen disciplinary and interdisciplinary scholarship in rangeland resource management that advances the college’s strategic themes and land-grant mission and are directly linked to FUR programs in the UI Rangeland Center. Scholarly modes of discovery, application and integration that address issues of importance to the citizens of Idaho will be enhanced by improving invasive species management, wildfire management (including hazardous fuel treatment and post-fire regeneration to discourage invasive species), and integrated wildlife management (especially greater sage-grouse). Attention to these issues will help provide a full range of goods and services, including environmental quality as well as livestock grazing. The direct metrics
of performance will be the number of CNR faculty, staff, students and constituency groups involved in scholarship or capacity building activities in rangeland resource management research projects.

Goal 1, Objective B.2. Create new products, technologies, protocols and processes useful to private sector natural resource businesses such as rangeland livestock operators, vegetation regeneration and rehabilitation firms, as well as governmental and non-governmental enterprises and operating units. The direct metrics of performance will be the amount of non-FUR funding leveraged by FUR funded rangeland resource management research projects.

Goal 2, Objectives A.2 and A.3. Engage with communities, governmental and non-governmental organizations through flexible partnerships that share resources and respond to local needs and expectations; in addition, foster key industry and business relationships that benefit entrepreneurship and social and economic development through innovation and technology transfer that will increase the productivity of Idaho's rangelands. The direct metrics of performance will be communities served and resulting documentable impacts from serving various communities, governmental and non-governmental organizations, and private businesses and landowners.

Goal 3, Objectives A.1, A.2 and A.3. Provide undergraduate, graduate and professional students with education and research opportunities in rangeland resource management research and management that are integrated educational experiences with ongoing FUR and non-FUR research programs at CNR outdoor laboratories. Faculty, staff and students will work directly with ranchers to help them solve pressing management challenges and engage alumni and stakeholders as partners in research, learning, and outreach. The direct metrics of performance will be number and diversity (as measured by variety of academic programs impacted) of courses which use full or partially FUR funded projects, facilities or equipment to educate undergraduate, graduate and professional students.

Description:

Advancing rangeland resource management research at the University of Idaho by investing in human resources.

Rangelands cover more than forty percent of Idaho and produce a wide variety of goods and services including livestock forage, wildlife habitat, water resources, recreation opportunities, open space, and ecosystem services such as water purification and carbon sequestration. The ability to serve current and future generations will be influenced by our understanding of the environmental effects of providing these goods and services because rangelands are vital to the ecological and economic health of Idaho. Improving rangeland conditions and productive capacity through science and applied management in the current context of ecological and societal change will require analysis of newly integrative thinking and innovative practices to maintain and restore rangelands and the human communities that rely on them.
Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The College of Natural Resources is requesting $107,815 in the Forest Utilization Research (FUR) budget to provide salary and fringe benefits, plus travel, operations, and capital equipment, for a new Assistant Professor to increase the research capacity of the Rangeland Center to focus on wildfire and invasive species management, especially to maintain and restore habitat for greater sage-grouse. These resources will enhance the capability of FUR programs to work with stakeholders and leverage additional funds from other non-state sources, both of which help strengthen a traditional Idaho industry and the rural communities that long have relied upon the jobs from rangeland resources, including livestock grazing, vegetation management, and recreation.

2. What resources are necessary to implement this request?

   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   The College of Natural Resources is requesting funds sufficient to provide full-time salary and fringe benefits support for a new rangeland resource management Assistant Professor.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   There will not be redirection.

   c. List any additional operating funds and capital items needed.

   The request includes $5,000 for travel, $5,000 for operating expenses, and $3,500 for capital equipment used to process data.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   Not applicable.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Rural communities and outdoor recreation stakeholders in Idaho benefit from productive forest lands that support economic enterprises, vigorous wildlife populations, fertile soils and abundant supplies of clean water.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

   This request has not been made previously.
Supports institution/agency and Board strategic plans:

This *Landslide Inventory and Hazard Research Program* support **Goal 1** of the IGS Strategic Plan:

**OUTREACH AND ENGAGEMENT (SERVICE)**

1) Achieve excellence in collecting and disseminating geologic information and mineral data to the mining, energy, agriculture, utility, construction, insurance, and financial sectors, educational institutions, civic and professional organizations, elected officials, governmental agencies, and the public. Continue to strive for increased efficiency and access to Survey information primarily through publications, Web site products, in-house collections and customer inquiries. Emphasize Web site delivery of digital...
products and compliance with new revision of state documents requirements (Idaho Code 33-2505). Maintain concentrated effort to collect and preserve valuable geologic data at risk.

Objective A: Produce and effectively deliver relevant geologic information to meet societal priorities and requirements.

Performance Measure: Number of published reports on geology/hydrogeology/geologic hazards/mineral and energy resources.

Objective B: Build and deliver Web site products and develop user apps and search engines.

Performance Measure: Number of IGS web site viewers and products used/downloaded.

Description:

Idaho Geological Survey (IGS) is the lead state agency for the collection, interpretation, and dissemination of geologic and mineral data for Idaho. The Survey accomplishes its mission through research, service, and outreach activities, with an emphasis on the practical application of geology to benefit Idaho and economic development within the state.

The state of Idaho needs a sustained hazards research program and a comprehensive, accurate, easily assessed, and updatable landslide inventory. The IGS presently lacks sufficient staff, however, to conduct and sustain a state-wide landslide inventory without jeopardizing ongoing earthquake research and geologic mapping efforts in high-priority areas such as southwest Idaho where important oil and gas exploration is taking place.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This request seeks funding for one permanent (new FTE) Research Geologist position dedicated to landslide inventory and related geologic hazard research. IGS appropriations were drastically reduced in FY10 and staffing levels for essential programs have been cut to below adequate levels. The agency presently has only one geologist with expertise in hazards-related research such as landslides and earthquakes. This state-supported geologist is heavily involved in externally funded earthquake studies and geologic mapping efforts in southeast and southwest Idaho, all of which are critical to fulfilling the IGS mandate. While we recognize the need to increase geologic hazards efforts with regard to landslide mitigation, it is impossible to do so without additional staff.

2. What resources are necessary to implement this request?
a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Salary for a new, full-time Research Geologist (faculty position). We anticipate hiring a permanent, full-time, benefit-eligible Research Geologist by July 2015.

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Research Geologist, a current IGS employee whose salary is covered by state funds, will reduce his geologic mapping effort to devote 5 weeks/year to landslide work.

GIS Data Manager, a current IGS employee whose salary is partially covered by state funds, will reduce his website management effort to devote 5 weeks/year to landslide

c. List any additional operating funds and capital items needed.

- PC and software for new Research Geologist
- High-precision 3D photogrammetry workstation and state-wide digital images from existing National Agricultural Inspection Program (NAIP)
- Travel expenses in support of field work and outreach/education activities.
- Software and hardware upgrades and maintenance for photogrammetry workstation

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

Personnel costs and travel are ongoing. Capital outlay is one time.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Idaho’s infrastructure, particularly roads, railroads, and canals, are susceptible to expensive landslide damage. These events have the potential to isolate communities, damage homes, and disrupt vital economic activities. This risk is increasing because of greater incidence of wildfires and movement of populations and infrastructure to landslide-prone landscapes. Reduction of this risk begins with a comprehensive inventory of landslides because the most accurate predictor of future landslides is the presence of past landslide activity. The last statewide inventory was conducted by the IGS in 1991. It is out-of-date and lacks sufficient detail to protect infrastructure. National inventories by the U.S. Geological Survey are even more inadequate. For example, despite a
history of costly landslides near Bonners Ferry, the U.S.G.S. landslide map shows the Idaho panhandle to be an area of low landslide incidence.

Beneficiaries of landslide research will include county and municipal governments, state agencies (Idaho Bureau of Homeland Security, Idaho Transportation Department, and Idaho Department of Lands), and the general public.

**Impacts if funding not provided**

The deadly Oso, Washington landslide disaster of March 22, 2014 underscored the need for accurate, up-to-date landslide inventories that are easily accessed and understood by the public and local jurisdictions. Sustained action over a period of years that reduces or eliminates the risk of landslide losses is needed and cost effective. As noted by the Idaho Bureau of Homeland Security:

“For every $1 spent [on mitigation], $4 in losses prevented……”

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This is the highest priority request.
Supports institution/agency and Board strategic plans:

Goal 1, Objective A

Goal 1, A Well Educated Citizenry, calls for providing opportunities for individual enhancement and Objective A, Access, advocates for increasing access for individuals of all ages, abilities, and economic means to Idaho’s P-20 educational system.

Performance Measure: Percent of need met by available need-based financial aid.

Description:
GEAR UP (Gaining Early Awareness and Readiness for Undergraduate Programs) is a federal discretionary grant program designed to increase the number of low-income students who are prepared to enter and succeed in postsecondary education. This
program provides six-year grants to states and partnerships to provide services at high-poverty middle and high schools which are designated as GEAR UP schools. GEAR UP started in Idaho in FY 2007 with the renewable scholarships starting in FY 2013.

GEAR UP allocates $852,300 per cohort to the State of Idaho. In fiscal year 2016 there will be three cohorts requiring funding. The GEAR UP selection and funding is based on a student’s financial need, academic merit, and participation in GEAR UP. The scholarship rules require the minimum award is not less than the applicant’s Pell Grant amount. The Pell amount is currently $5,730. The 2015 spending authority allows for 297 total students in the three cohorts to be funded at full Pell amounts. Looking ahead to FY 2016, FY 2017, and FY 2018, there will be three cohorts in 2016 at $852,300 per cohort for a total of $2,556,900 which will fund 446 students. In 2017 two cohorts require funding for a total of $1,704,600 and 297 students. And the final year 2018 one cohort of 152 students for a request of $852,300 will be required. One variable that changes this projection is the Pell funding amount. If the Pell amount is increased by the federal government in 2016, 2017, or 2018 then the current request has the potential to not cover the minimum Pell requirement. The money not expended stays in the GEAR UP fund, so it is prudent to request the full amount allocated by GEAR UP.

The appropriation for FY 2015 is $1,704,600. This request is to increase the spending authority for the GEAR UP program in FY 2016 one-time by $852,300.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
   
   This request reflects an increase of $852,300 in one-time federal funds spending authority for GEAR UP scholarships. This request does not affect staffing levels.

2. What resources are necessary to implement this request?
   
   No additional resources are required as current staffing levels are sufficient.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   
   Federal spending authority with grant funds already awarded.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
   
   GEAR UP is designed to increase the number of low-income students from high-poverty middle and high schools that are prepared to enter and succeed in postsecondary education. GEAR UP provides students an opportunity to apply for a 4-year renewable scholarship based upon financial need and level of participation in the program and funding for participating students to prepare for and take the ACT test. The GEAR UP Program will serve over 5,500 students in Idaho during the life of the grant.
5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Opportunity Scholarship. In FY07 and FY08, the initial years of this program, $20 million dollars was put into an endowment fund and $1.925 million was designated to fund scholarships for the 2007-2008 and 2008-2009 academic years. Approximately 700 students each year have received this renewable scholarship with the majority of students receiving the maximum award of $3,000.

As a result of the financial difficulties during FY10-FY12, funds were not available to fund neither the endowment nor the ongoing scholarships, however, the Board was permitted to use the earnings from the endowment and $1,000,000 from the corpus in those years. This allowed us to fund qualifying renewals, but new awards were limited. In FY13, the discontinuance of the federal LEAP and SLEAP scholarships freed up the state match of $550,800 in state General Fund dollars which was reallocating to the Opportunity Scholarship. This amount combined with $449,200 from the corpus provided a total of $1,000,000 available for scholarships.

In FY14, Senate Bill 1027 consolidated several existing scholarships into a reconstituted Opportunity Scholarship resulting in $1,045,800 set aside for scholarships out of the general fund with no planned reductions to the corpus. The Scholarships Committee planned use of existing funds in FY15 calls for a consolidation of most scholarship programs into the Opportunity Scholarship program resulting in a total of $5,277,300 which will fund over 1,500 students with a scholarship. More scholarships may be funded depending on the average award amount.

This request is for $4,322,700 from the state General Fund to bring the total amount to $9,600,000 for FY 2016. This would provide 2,000 new scholarships and enough funding for an expected rate of 50% renewals for the second year returning students. The goal is to increase the Opportunity Scholarship over the next three years to be able to fund 2,000 new scholarships and 1,000 renewals as shown in the table on the next page.

Opportunity Scholarship

Plan to Increase Awards to 2,000 new scholarships per year
Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   $4,322,700 is requested to bring the total General Fund Opportunity Scholarship to $9,600,000 in order to award 2,000 new scholarships fund renewals estimated at 50% of the prior year new awards.

2. What resources are necessary to implement this request?

   No additional resources are required as current staffing levels are sufficient.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   $4,322,700 in ongoing General Funds

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   The State Board of Education has set an ambitious goal that 60% of Idahoans ages 25-34 will have a college degree or certificate by the year 2020. It is estimated that postsecondary education attainment for this adult population is currently at 40%. One of the key drivers for meeting this goal is access. The Opportunity Scholarship is Idaho’s primary scholarship for helping students afford a postsecondary education.

   The value of a four-year degree is at an all-time high. The wage differential between those with a four-year degree and those with a high school degree has grown to 81% -- higher than at any time in the past 90 years. Thus, if this request is not funded, not only could it impact the earning power of thousands of Idahoans, it will also ultimately impact the state’s tax base.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

   N/A

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

IMNH Strategic Plan Goals 1, 3, and 5

**GOAL 1: Virtual Museum.** Our virtual museum will be a key tool for overcoming the growing challenges involved in making physical visits to our gallery and activities. It will help spread awareness of and access to the benefits of our work, including research and educational programs. We will strive to have the entire museum collection online and accessible from anywhere in the world, in the next five years. This will require considerable funding from outside resources. We will immediately begin writing grant proposals to U.S. government agencies and philanthropic foundations in order to begin implementation of the Virtual Museum.
A. **GOAL 3: Upgrade collections functions.** IMNH houses more than 500,000 natural and cultural objects. These irreplaceable items are central to our research, exhibitions and educational work. They must be properly prepared, inventoried, preserved and stored following current best practices. We will purchase and deploy new storage systems that will help us make more efficient use of collections storage space.

B. **GOAL 5. Develop and support programs for K-12, higher-education and the general public.** Much of what we do is for the benefit of K-12 education. Since 1990, more than 50,000 K-12 students have come through our doors. We also have long provided a number of popular, informal science-education programs that enrich learners of all ages and backgrounds — school and community groups, individuals and families alike — through direct experience with science. To sustain and build on these successes in a cost-effective manner, the museum must build infrastructure that enables planning for efficient and effective expansion of educational programs. We hope that by more effectively aligning our exhibits and educational programs with Idaho’s K-12 curriculum, we will improve the relevance of our work to the K-12 system. We see our “virtual museum” initiative doing a great deal to mitigate the access issues schools face today as well.

**Description:**

One time funding is requested for two multiprocessor graphics workstations for processing 3D imagery and creating virtual tours of museum collections; for two computer and projector combinations for public/student access to the virtual collections as part of our emphasis on virtual museums in STEM education, and for industrial shelving units for the curation and storage of IMNH collections as part of our emphasis on museum best practices.

These items are critical to fulfilling our mission as Idaho’s State Museum of Natural History. They directly meet the objectives in three of our goals as stated in the strategic plan.

**Questions:**

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Two multiprocessor graphics workstations for processing 3D imagery and creating virtual tours of museum collections. Extremely powerful workstations are required

Industrial shelving units for the curation and storage of IMNH collections as part of our emphasis on museum best practices.

Two computer and projector combinations for public/student access to the virtual collections as part of our emphasis on virtual museums in STEM education.
2. What resources are necessary to implement this request?

All resources are current and implementation will be part of normal employee activities. No re-assignment or additional resources are necessary for implementation.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

This request is for one-time General Funds

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Items 1 and 3 directly impact our ability to serve the IMNH collections and educational programs to the people of Idaho. Funded, the IMNH serves all of Idaho, unfunded, the IMNH serves only those who can visit Pocatello and the IMNH facility.

Item 2 directly impacts our ability to care for the State of Idaho collections in the care of the IMNH. We currently have inadequate storage conditions for many of the collections and these units will assist in solving that problem.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Not applicable.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

This request to add additional business consultants at the Idaho Small Business Development Center supports:

- Governor Otter’s “Accelerate Idaho” initiative by empowering business creation, expansion and innovation through high-quality, no-cost business consulting.
- The State Board of Education’s objectives for adult learners through individualized coaching of small business owners and entrepreneurs.
- The State Board of Education’s objective to prepare students for entering the workforce by providing experiential learning through class projects and internships with small business clients.
- Boise State University’s core theme for community commitment.
- The Boise State College of Business and Economics’ goal to support economic development through collaboration with public and private organizations.

The host college and university goals for outreach to communities and support of economic development.

Description:
The Idaho Small Business Development Center has been providing no-cost consulting and coaching to Idaho’s small businesses and entrepreneurs since 1986 through a network of 6 offices hosted by Idaho’s colleges and universities. This request enhances the Idaho Small Business Development Center’s resources to help small business start, grow and prosper by adding 4 FTEs for business consulting. Funding will be distributed between each of the existing offices to support businesses in rural areas, businesses new to exporting and businesses with an innovation as their competitive advantage.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
   $298,100 is being requested to add 4 FTEs to the Idaho Small Business Development Center network. $290,100 is for salary and fringe and $8,000 is for travel so that personnel can travel to rural areas and also travel to local and national conferences for professional development.

   The request is for ongoing funding that would be added to the base.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      Positions will be Business Consultants in all 8 locations. Two offices will receive funding for new part-time non-benefit eligible hires. Five offices will receive funding to increase hours for existing benefit eligible positions. The State Office will receive funding to leverage with SBA funding to hire a new full-time position for assistance to technology/innovation companies statewide. (See Funding Distribution Calculations attachment for more details.)

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      The only existing human resources that are impacted are those positions that will have increased hours.

   c. List any additional operating funds and capital items needed.

      The request includes $8,000 in travel funds ($1,000 per position) to support professional development at twice yearly internal conferences, an annual national professional development conference and for travel to rural areas.
3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

Please see the table above and the Funding Distribution Calculations attachment.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This initiative will accelerate business creation and expansion in Idaho by providing Idaho’s entrepreneurs and small business owners with no-cost individualized coaching and assistance to improve their skills and success. The Idaho SBDC has a proven 28-year track record of achieving an average return on investment of 4:1. Idaho SBDC clients consistently outperform their peers with clients’ sales routinely 5 times that of the average small business in Idaho (see attached Impact Report).

Small businesses are the engine of the economy and responsible for creating 60–80% of the net new jobs. The focus is on innovative companies and companies new to exporting. Technology/innovation firms typically create higher paying positions and companies engaged in exporting are bringing additional wealth into the state. Strong partnerships are already in place so that there is no duplication of services.

The goal of this initiative is to grow Idaho’s economy. Expected annual impacts after the first year of development are:

- 16 new businesses started
- 100 jobs created
- $2 million increase in sales
- $2 million capital raised
- 15 companies new to exporting
- 15 companies with innovations/technologies
- 10% growth in economic impacts in rural Idaho

If this request is not funded, the increased growth for Idaho’s businesses will not be realized.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

No prior year request.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
services

consulting  Our primary service is no-cost confidential consulting tailored to individual businesses’ needs. Our coaches are available by appointment and help solve even the most complex problems. Most have MBAs or a related degree and have owned their own small business. 1,678 clients served in 2013.

training  We offer a continual schedule of affordable trainings designed to teach practical business skills. Our consultants and local business professionals serve as instructors. Classes compliment coaching sessions and help clients progress even faster. 2,517 attended trainings in 2013.

resources  The SBDC serves as the focal point for coordinating with other programs and services, both public and private, to bring additional expertise and resources for client assistance. We also help clients build a strong team of professionals to support the business.

---
Description:
Currently the Public Charter School Commission (PCSC) the PCSC authorizes 35 schools. Thirty-three schools are currently in operation and two are scheduled to open in the fall of 2014 (there are also three unapproved petitions under consideration). In addition, new public charter schools may be authorized each year. The number of authorized schools has increased to the point where 2.5 people simply can no longer provide support to the Commission and manage the day to day oversight of the schools. For example, lack of adequate staff makes it impossible to conduct thorough reviews of chartered schools without obvious or reported deficiencies. Absent thorough reviews, staff is unable to advise charter school boards and the PCSC regarding areas in need of improvement and ultimately provide data-driven, context-based recommendations regarding renewal or non-renewal. As a result, the PCSC’s ability to fulfill its mission of maintaining high standards, upholding school autonomy, and protecting students and taxpayers is compromised.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
2. The Public Charter School Commission (PCSC) requests 1.5 FTE in the form of a full-time program manager position and a half AA2 position.

Current staffing for this program is 2.5 FTE. Beginning in FY2015 source of funds is 100% Public Charter Authorizer fees, prior to that it was General Funds. PCSC needs an additional professional level staff position to facilitate the oversight of all schools authorized by the PCSC. This position would act at the direction of the executive level staff person to evaluate, report, and respond to school performance. This would include analysis of school finances and academic results, evaluation of compliance and governance, and frequent communication with schools and stakeholders. Additionally, this position would be responsible for gathering information and supporting PCSC meetings, appeals, and hearings.

PCSC currently has a 0.50 FTE for administrative support. PCSC needs to move this to a full-time position in order to manage the increased workload associated with staff work oversight of 35 schools.

Nationally, statewide charter school authorizing commissions average 0.44 FTE per school (Source: Authorizing Roadmap: National Perspectives on Quality Authorizing, 2013 Report by National Association of Charter School Authorizing Senior Advisor Nelson Smith). To match average national staffing levels, the PCSC would have more than 15 FTE.

In order to accommodate necessary growth in staffing, ongoing funding is also requested for increased lease space.
3. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
   Program Manager (1 FTE), Pay Grade N (80% of policy = $27.80), full-time, non-classified, benefit eligible, hire date: July 1, 2015
   Administrative Assistant II (0.50 FTE), Pay Grade I, classified, benefit eligible, hire date: July 1, 2015

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
   The current half-time AA2 position supporting this program would be moved to full-time.

   c. List any additional operating funds and capital items needed.
   $12,500 in ongoing operating expenses is requested for 1,000/SF lease space in the Borah building. Unlike other Capitol Mall office space, all space in Borah rent for $11.19 per SF. Ongoing OE is also needed to lease a photocopier.

4. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
   On-going General Funds

5. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Approximately 11,700 students are served by the 35 PCSC-chartered schools. Lack of adequate PCSC staffing levels has a material impact on oversight to help ensure the delivery of quality education at these taxpayer funded schools.

6. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
   Not Applicable

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Description:

Idaho has been approved as part of the State Authorization Reciprocity Agreement (SARA) through the Western Interstate Commission for Higher Education (WICHE). SARA is an agreement among member states, districts and territories that establishes comparable national standards for interstate offering of postsecondary distance education courses and programs. It is intended to make it easier for students to take online courses offered by postsecondary institutions based in another state. SARA is overseen by a National Council and administered by four regional education compacts.

Any degree-granting institution based in the United States, holding proper authorization from Congress, a U.S. state or a federally recognized Indian tribe and holding accreditation from an accrediting association recognized by the U.S. Secretary of Education is eligible to apply to its home state to participate in SARA if that state is a SARA member. For more information: http://nc-sara.org/what-does-institution-do
Institutions that wish to apply for Idaho State Authorization must register by completing an application, paying a state fee to the Idaho State Board of Education and receive a confirmation of their authorization status. An institution seeking approval to operate under the terms and standards of SARA must meet the requirements of application. Idaho will be charging an application fee of $1,500.00. The application fee is due when application is submitted. Registrations for state approval are voluntary, however institutions can only apply to their home state. Private institutions operating out of multiple states apply to the state of their headquarters.

The following table is an estimate of the annual application fees for public, private and exempt institutions in Idaho. Possible uses of these funds include staffing to assist with complaints and to conduct investigations.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   Spending authority is requested in order to use the fees generated through this program. Staffing levels have not been estimated at this time and will be provided in August. The current Miscellaneous Funds spending authority is not sufficient for this new program.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      No FTP is requested at this time.
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      It is unknown at this time the long-term human resource needs to review applications, respond to complaints and conduct investigations.
   c. List any additional operating funds and capital items needed.
      OSBE is requesting $21,000 in Miscellaneous Funds spending authority which is the total estimated amount of fees under the State Authorization Reciprocity Agreement.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   $21,000 ongoing Miscellaneous Funds

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Idaho students will benefit by make it easier for them to take online courses offered by postsecondary institutions based in another state by establishing comparable national standards for interstate offerings of postsecondary distance education courses and programs.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

   Not Applicable

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

ongoing series would be produced in a collaborative effort with the Idaho Historical Society and other educational institutions.

For the 2009 legislative session, both the State Board of Education and Governor Otter recommended funding for the Idaho Experience Line Item request. For the 2010 legislative session, this request was approved by the State Board of Education.

Questions:
1. What is being requested and why?

Idaho Public Television proposes to preserve and enhance Idaho’s heritage by producing two historical documentaries and related Web sites annually, and to make them available to students, teachers and the Idaho public. We will work closely with educators to align the series with Idaho’s school curriculum and to present the material in ways that is both engaging and accurate. This is an exceptional opportunity for us to capture and examine the history of our state so that we can help educate and inform Idaho’s citizens, both our youth and adults.

To date, there are no other known efforts to produce comprehensive multi-media documentaries about influential Idahoans and the forces that shaped our state. Idaho Public Television is uniquely positioned to be able to take on such a task. Our past efforts to do so have produced award winning documentaries such as ASSASSINATION: IDAHO’S TRIAL OF THE CENTURY and the recently released CAPITOL OF LIGHT. Both films have been widely praised for their fascinating and comprehensive portrayal of Idaho’s history.

Using these programs as a template, each new documentary will be broadcast several times throughout the state, with unlimited off-air record rights for educational institutions. Enhanced DVDs and web-based media of the programs will be available to the Idaho Commission for Libraries for circulation to libraries throughout Idaho via interlibrary loan. The documentaries will be closed-captioned for the hearing impaired and a companion Web site will be developed to take the program beyond the television screen and enhance educational opportunities for Idaho’s teachers and students.

Working together with the Idaho State Historical Society and Idaho’s universities and colleges, we will help to conserve Idaho’s heritage by preserving valuable, unique documents and artifacts that are presently stored in the partners’ collections but are unusable because of their fragile condition.

In addition to State of Idaho contributions to this effort, Idaho Public Television will seek additional resources to enhance and expand this effort. As mentioned above, we have already been approached by funders interested in supporting this idea.
What is the agency staffing level for this activity and how much funding by source is in the base?

N/A

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   PTV Producer/Director, pay grade L, full-time, classified, anticipated hire date July 1, 2015, salary cost estimated at $57,886; benefited with benefit costs estimated at $23,058, position ongoing.

   PTV Writer/Reporter/Producer, pay grade L, full-time, classified, anticipated hire date July 1, 2015, salary cost estimated at $57,886; benefited with benefit costs estimated at $23,058, position ongoing.

   PTV Director/Videographer, pay grade J, full-time, classified, anticipated hire date July 1, 2015, salary cost estimated at $45,781; benefited with benefit costs estimated at $20,443, position ongoing.

   Group Position at $25,000 to aid as an Associate Producer.
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   The primary human resources that will be redirected are portions of time from the Executive Producer and Production Manager for oversight of the series. In addition, existing technical/engineering, promotional and administrative (primarily fiscal) personnel support. The series will utilize existing equipment, studios, production control, and editing suites.

   c. List any additional operating funds and capital items needed.

   IdahoPTV will need new computers for use by the new positions along with workspace modifications.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumptions (e.g. anticipated grants, etc.).

   N/A

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
The population of Idaho would be impacted most. There are historical issues unique to Idaho that should be documented for a viewing audience. Idaho schools would be benefitted by the extensive Web site planned for this series and DVDs, web streaming, and on-air programming would be distributed by IdahoPTV. Certain programs from this series may have regional and national broadcast potential.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

N/A

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:
Goal 2 Objective 5

Objective: IDVR will maintain a comprehensive system of personnel development (CSPD) standard for IDVR counselors.

Benchmark: Vocational Rehabilitation Counselors will maintain all CSPD standards for their position annually and all Vocational Rehabilitation Specialist positions will be in compliance with the agency’s standard to reach CSPD in FFY 2014.

IDVR will have trouble meeting this standard without this increase because we are having trouble recruiting counselors that meet this standard because of the low salary. We lose many counselors to Health and Welfare agencies because their pay for equivalent positions start $3 an hour higher than ours.
Description:
IDVR is requesting funds to increase funding for our Vocational Rehabilitation Counselors (VRC) positions to a level that is still $1.50 an hours less than an equivalent position in Health and Welfare. IDVR will evaluate this effect and if it is still having difficulty retaining staff will request in the future a comparable salary to other state agencies with positions requiring a Master’s in a similar field.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
IDVR has 68 VRCs and 8 Regional Managers in the agency, besides the other staff of the agency. These VRCs provide the most essential service IDVR offers Counseling and Guidance. It is critical for IDVR to achieve its goals that we have high quality VRCs. Unfortunately IDVR has had trouble hiring VRCs that meet the criteria as laid out in our Comprehensive System of Personnel Development that is a part of our State Plan that is submitted to the Rehabilitation Services Administration. Our VRCs are required to have or be able to sit to become Certified Rehabilitation Counselor (CRC). This requirement means that they have a Master’s in Rehabilitation Counseling or a Master’s in a similar field and 18 hours of graduate level studies in vocational rehabilitation. This severely limits our pool of candidates. In addition IDVR has lost many VRCs to other state agencies that pay substantially more for a similar education.

Staffing level for this function is currently 76.0 FTP VR Counselors and Regional Managers at a cost of $5,297,000, split between $1,065,000 from general funds, $62,600 from dedicated funds and $4,169,400 from federal funds.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      IDVR currently has 76 non-classified positions in the field offices that would be impacted. Position titles are Vocational Rehabilitation Counselors and Regional Managers all of them full-time with benefits.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      No existing human resources will be redirected.

   c. List any additional operating funds and capital items needed.
      No additional operating funds or capital outlay is needed.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
The federal grant is sufficient to fund up to 78.7% of this cost and those funds are currently being returned to the federal agency because the 21.3% non-federal share is insufficient.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request ultimately makes it so IDVR can serve our customers better. By being able to recruit and retain quality VRCs IDVR will reduce the impacts of overstaffed caseloads that result in diminished services as well as unnecessary changes between counselors that stagnates progress for the customer.

If this request is not funded IDVR will face considerable difficulty recruiting and retaining VRCs throughout the state. We have already had a lot of difficulty hiring VRCs in certain parts of the state.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

Goal 1 Objective 1

Objective: To provide customers with effective job supports including adequate job training to increase employment stability and retention.

Performance Measure: To enhance the level of job preparedness services to all customers.
Description:
IDVR is requesting $1,200,000 in Federal funds to have a sufficient amount of funds available to pay for assessment, training, tools, education, supplies, transportation, medical and other items to assist people with disabilities prepare for, secure, retain or regain employment.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?
IDVR is requesting additional Federal funds to be able to meet the requirements of the Federal vocational rehabilitation program. In FY 2014 the Division’s budget was reduced by $2 million dollars in Federal funds to more accurately reflect what the Division had actually spent on the program in FY 2012. However, services increased by 7% in FY 2013 and through March of 2014 services had increased another 13%. Without this increase the Division may not be able to meet the current requirements of the Vocational Rehabilitation program. If that was the case then IDVR would need to adjust how the program operates in Idaho and would not be able to serve all those who need service.

1. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
      None
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
      None
   c. List any additional operating funds and capital items needed.
      None

2. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).
IDVR has not been using all of the Federal funds allocated to the State, but has been remitting available funds back to the Federal Government. The $1.2 million in Federal funds is available to be used for this purpose.

3. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
This request will allow IDVR to continue to serve all of our customers without limiting available services.

4. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The Council for the Deaf and Hard of Hearing is requesting one (1) additional FTE identified as Communication and Outreach Coordinator. The Council for the Deaf and Hard of Hearing is a unique state agency following its mission of being “Dedicated to making Idaho a place where persons, of all ages, who are deaf or hard of hearing have an equal opportunity to participate fully as active, productive and independent citizens.” Using the formula of 13% provided by the Gallaudet Research Institute, an estimated 203,785 people in Idaho have hearing loss:
Currently, there are only 2 FTE’s working for the Council, the Executive Director and an Administrative Assistant. With the establishment of Idaho Sound Beginnings (newborn hearing screening) children who have hearing loss are being identified earlier, baby-boomers are increasing and veterans are returning to civilian life. The aforementioned causes the need for an additional staff member to provide specific functions for the Council. The role of the Communication and Outreach Coordinator would be to increase awareness of the Council’s role, services and programs throughout the state of Idaho. Strategies may include developing collaborations with community organizations, staffing exhibit tables at expos, providing training sessions, developing and disseminating information and resources, and managing external and internal communications.

One-time funds for initial office set up as desk, chair, desktop/laptop computers, monitors, warranties, and docking station is also being requested.

Currently there is no agency staffing for this position and no funding by source is in the base.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      The title of this position is: Communications and Outreach Coordinator
      Pay Grade: K
      Full Time Status
      Full Benefits
      Anticipated Date of Hire: July 1, 2016
      Terms of Service: NA

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

      Existing Human Resources would be redirected to hire candidate. If this position were approved and funded, it would allow the two current staff members to spend 100% of their time on their assigned duties.

      Currently the Executive Director and Administrative Assistant are the only staff involved in providing information, workshops, presentations, and everyday operations of the Council. This position would relieve some of the
burdens of the current staff to provide the necessary services dictated by Idaho Code Chapter 13, Title 33

c. List any additional operating funds and capital items needed.

Additional operating funds:

Office lease $200/mo $2,400.00 annually
Cell Phone $1,200.00 annually
Overnight travel ~ 10 x ~ 80 $800.00 annually
Per Diem ~ 20 x 33.00 $660.00 annually
Flights ~ 2 @ $400 $800.00 annually
Communication/accommodations services $10,000.00 annually

TOTAL Additional Operating Funds $15,860.00

Capital Items

Desk $740.00
Chair $570.00
Desktop $650.00
Desktop Warranty $60.00
Laptop $970.00
Laptop Warranty $100.00
Docking Station $160.00
Monitors $156.00 Each

Total Capital Funds $3,406.00

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

Ongoing request $86,400
One Time request $3,400.00

All funds will be from General Funds. There are no expectations of additional grant monies or federal monies. There are no external funding available that is in line with the objectives, mission and responsibilities/duties of the Council.

If the request is not funded, CDHH will be unable to fully utilize the collaborative relationship with community organizations, local and state governmental entities, and proactively develop a presence for our Council and the programs and services provided.
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Idaho policymakers, the legislators, local, state agencies, businesses, and the 203,785 deaf and hard of hearing citizens will be served by this request. We anticipate the population to grow. This request allows for areas that are not currently served by the limited staff of CDHH to be included in the mission of the Council.

It has been over 23 years, since the inception of the Council, without any significant increase in FTE that serves the constituents and/or stakeholders directly. For the past two decades the deaf and hard of hearing population grew and assimilated much more deeply into the society more than ever before which demands more information and resources. The current staff finds it very difficult meeting the growing demands.

If this request is not funded, Idaho’s deaf and hard of hearing population will continue to be underserved.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

N/A. No request for FTE was presented on our line item last year.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
SUBJECT
FY 2016 Capital Budget Requests

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.B.8.c. and Section V.K.

BACKGROUND/DISCUSSION
The capital projects request process is separate from the line item budget request process. The Permanent Building Fund Advisory Council (PBFAC), which is staffed by the Division of Public Works (DPW), has several major areas of focus: new, renovated or remodeled projects; Americans with Disabilities Act (ADA) projects; asbestos abatement/ removal, and building demolition.

The annual capital project funding request process begins with DPW issuing a letter to agencies and institutions each spring requesting that they submit their project funding needs. DPW staff works with the agencies and institutions over the summer months to finalize requests. The State Board of Education also concurrently reviews and makes recommendations on major capital projects to PBFAC. DPW staff produces a fiscal year request notebook provided to PBFAC in early September. Agencies and institutions present their requests to PBFAC in early October. PBFAC reviews DPW staff funding recommendations and takes action on them at its November business meeting. Between the October and November PBFAC meetings, DPW staff reviews the agency presentations and consults with agencies and institutions to clarify issues. DPW staff then goes through a process of deciding which projects should be funded and what the Permanent Building Fund (PBF) allocations should be for each requesting agency and institution. Also, in the month of October, the Division of Financial Management (DFM) informs DPW of the anticipated revenue amount for the fiscal year's funding. This sum is the basis for DPW staff's allocation recommendations which are presented to PBFAC at its November meeting. Following PBFAC's review and approval of its funding recommendations for the next fiscal year, DPW staff forwards those recommendations to DFM and the Legislative Services Office for inclusion in their respective budget publications. The Governor makes a recommendation regarding major capital projects to the Legislature. The Legislature appropriates funds to DPW for specific major capital projects and funding for general alterations and repairs, and other projects statewide.

In recent years the Board has not always chosen to prioritize or recommend new capital facilities to the PBFAC. Several times the Board has instead recommended that all funding efforts be directed primarily toward alterations & repairs, asbestos abatement, and other non-major capital items.

Institutions and agencies have prepared and submitted their FY 2016 capital budget requests to the Board office and DPW, as shown on Page 5.
IMPACT

Only Board-approved major capital projects can be forwarded to the PBFAC. The PBFAC, Governor and Legislature will then be informed of the Board’s recommendation based upon the priorities indicated (if any) at the Board’s discretion.

Board Policy V.K. requires institutions and agencies to bring their six-year capital construction plan to the Board for review and approval at its regularly scheduled August meeting. The plan must span six fiscal years going forward starting at the fiscal year next. The plan only includes capital projects for which the cost is estimated to exceed one million dollars ($1,000,000) without regard to the source of funding. Board approval of a plan will constitute notice to the Board that an institution or agency may bring a request at a later date for approval for planning and design for one or more of the projects in their approved plan. The six-year capital construction plans are included in this agenda for Board approval.

STAFF COMMENTS AND RECOMMENDATIONS

Projects listed on the following schedule have been prioritized by each institution or agency. Many of these projects were included in the FY 2015 institution request list. The project descriptions are as prepared by the institutions and previously submitted to DPW.

The Board may recommend some or all of the projects to PBFAC for consideration at its October 2014 meeting, or recommend no major capital funding for FY 2016 and have PBFAC concentrate on alterations and repairs and other non-major capital projects. Previous discussions of the Board have concluded that a project’s past ranking on any list should not influence future decisions about where that project should be ranked.

Another option available to the Board is to recommend a portion of a project or projects, for planning and design in FY 2016.

The community colleges’ six-year capital construction plans are not included because those projects are approved by their local boards.

Staff does make one project specific observation regarding CWI’s request for funding for a student union building. Board policy V.B.4 provides that “All operating costs, including personnel, utilities, maintenance, etc., for auxiliary enterprises are to be paid out of income from fees, charges, and sales of goods or services. No state appropriated funds may be allocated to cover any portion of the operating costs.” While the policy
does not apply to community colleges and is silent on construction of auxiliary facilities, it seems persuasive.

**BOARD ACTION**

I move to recommend to the Permanent Building Fund Advisory Council the major capital projects on page 5 for consideration in the FY 2016 budget process.

Moved by __________ Seconded by ___________ Carried Yes _____ No _____

**OR**

I move to recommend to the Permanent Building Fund Advisory Council the following major capital project(s), in priority order, for consideration in the FY 2016 budget process.

1. ___________________________
2. ___________________________
3. ___________________________
4. ___________________________

Moved by __________ Seconded by ___________ Carried Yes _____ No _____

**OR**

I move to recommend no major capital funding for FY 2016 and have the Permanent Building Fund Advisory Council concentrate upon Alterations and Repairs and other non-major projects.

Moved by __________ Seconded by ___________ Carried Yes _____ No _____

**AND**

I move to approve the six-year capital construction plans for Boise State University, Idaho State University, University of Idaho, Lewis-Clark State College, and Eastern Idaho Technical College.

Moved by __________ Seconded by ___________ Carried Yes _____ No _____

SET A
PROJECT SUMMARY
FY2016

Project Title: Construction for Fine Arts Building Boise Campus

Institution/Agency: Boise State University

Brief Description: A new building for Fine Arts will achieve several goals in Boise State’s Strategic Plan by consolidating programs spread across campus into one building, fostering university and community relations, and advancing the importance of creativity in our modern high-tech economy. Programming, planning, and conceptual design and construction documents have already been prepared and have formed the basis for an overall budget. Incremental funding from Permanent Building funds is acceptable to the University.

Project Scope: 47,500 - 65,500 NASF 60,000-100,000 GSF

Estimated Total Project Cost: $35,000,000

Date Approved by State Board of Education: April 2013 (Planning)

Source of Construction Funds (by fund source and amount):

1. **PROJECT DESCRIPTION AND JUSTIFICATION**

The new Fine Arts Building will front Capitol Boulevard just north of the Micron Business and Economics Building, adding another cutting-edge presence on the most visible side of campus while helping foster university and community relationships. It will be just across the river from the Boise Art Museum and the city’s cultural district. The siting is consistent with the current Campus Master Plan, and the facility is directly in line with the core themes of the mission the State Board of Education has endorsed for the university: Provide a signature, high-quality undergraduate and graduate education experience; Foster creativity in arts and research that can be transferred to societal, economic, and cultural benefits; And extend our community commitment beyond our educational, creative, and research activities.

The building will consolidate arts programs now scattered across campus, dramatically improving the student educational experience and providing needed physical space to meet increasing student demand for arts classes. It will also address several deficiencies in space and infrastructure that were identified in the arts program’s re-accreditation process. The facility will advance the importance that creativity plays in a new, modern economy and will provide the capacity for additional classes as students in traditional STEM programs (Science, Technology, Engineering and Math) elect to take creative courses to complement their studies and boost their skills and career opportunities.

The pre-planning and programming phase of this project is already underway and is being funded internally by the university. This phase will result in final programmed spaces for Fine Arts and the administrative functions of the Arts & Humanities Institute as well as determining what entities within the Fine Arts disciplines will be housed in the new building.

2. **PROJECT COMPONENTS**

The project will construct a new facility in the western zone of the campus. The facility will house Fine Arts and functions of the Arts and Humanities Institute. Preliminary planning activities have tentatively identified the following that will be supported by the building:

- **Teaching**: studios, design laboratories, classrooms, administrative and faculty offices, and spaces for student collaboration.
- **Exploration**: computer laboratories, centralized workshop facilities, conference rooms, and libraries for study and research; faculty/graduate studio space for creative practices.
- **Innovation**: multiple-use spaces containing new technologies will facilitate inventive and cross-disciplinary projects.
- **Exhibition**: gallery spaces for student and traveling exhibits and display areas throughout building for student artwork display and critiques.
3. **ALTERNATIVES**

   The status quo would keep art students, their professors and mentors, and their studio and study space spread throughout campus. Today, arts-related classrooms are housed in five separate buildings, and studio and storage space spread even farther, to two other campus facilities. It would also keep the university from echoing in the arts the major recent building efforts supporting the sciences, engineering, and business and economics. Just as those efforts greatly facilitate scholarly activity and are an important way to focus community attention, constructing a Fine Arts Building will greatly facilitate creative activity and help focus community attention on the arts and the ever-increasing role of design, innovation, and creativity in the modern economy.

4. **VACATED SPACES**

   By providing up-to-date space for the uses described above, the new building will permit departments to vacate some space currently occupied in other campus buildings. These spaces would be made available to meet the critical classroom and faculty office space needs of the other departments, including the STEM disciplines. Because planning is in the early stages, the precise amount of space to be vacated is not yet defined.
OFFICE OF THE STATE BOARD OF EDUCATION

PROJECT SUMMARY
FY2016

Project Title: Design and Construction for Science & Research Building #2 Boise Campus

Institution/Agency: Boise State University

Brief Description: Boise State’s Master Plan targets the South Campus area for the science and engineering facilities called for in the Strategic Plan to boost research and creativity while creating a signature educational experience for both graduates and undergraduates. The requested funds will pay for planning, design, and partial construction of the second of four science buildings currently envisioned.

Project Scope: 65,000-78,000 NASF 100,000-120,000 GSF

Estimated Total Cost: $60,000,000

Estimated Total Design and Partial Construction Cost: $10,000,000

Date Approved by State Board of Education:

Source of Construction Funds (by fund source and amount):

1. PROJECT DESCRIPTION AND JUSTIFICATION

The proposed building will be the second building of the master-planned four-building science and engineering complex in the South Campus zone. The first of these projects, the 101,265-square-foot Environmental Research Building, was recently completed and is now home for Geosciences, Civil Engineering, Public Policy and Administration and Political Science, as well as a community and regional planning program, the environmental finance office, the Public Policy Center and the Frank Church Institute.

Consistent with the 2005 Campus Master Plan, the new science research building will support STEM disciplines (Science, Technology, Engineering and Mathematics) and will be part of a complex designed to promote interdisciplinary research, education, and outreach. Each building of the complex will include science and engineering laboratories and facilities appropriate to specific interdisciplinary topic areas, with departmental culture preserved in office clusters. The buildings will be planned to promote collaboration between scientists and engineers on important research problems. Laboratories and work areas will be an open design with state of the art flexibility to permit rapid and inexpensive reconfiguration in response to changes in research participants, project needs, and extramural funding. In addition to research spaces, this facility will also provide classrooms and teaching laboratories to expand student learning opportunities and student capacity.

Current thinking is that this second building will focus on Chemistry, Physics, and/or Materials Science Engineering. In addition to planning the building, the future relationships and interactions of all science and engineering departments will be examined to determine the optimum set of adjacencies in the four building complex. This planning will help ensure that decisions regarding the particular building design will support the vision put forth in the Master Plan of an integrated science and engineering complex.

2. PROJECT COMPONENTS
This proposed facility blends academic and research units from Chemistry, Physics, and/or Materials Science Engineering. The new building will support graduate and undergraduate academic programs in these disciplines and promote interdisciplinary research. Program elements for this project include core research facilities such as research labs, teaching labs, offices, and administrative space. The new building will also support the Materials Science PhD program and STEM education strategy by providing state of the art teaching and research labs that promote graduate and undergraduate participation.

3. ALTERNATIVES

Modular facilities could possibly be utilized to provide additional research, classrooms, and offices, but the use of these temporary structures are expensive and only meet the short term needs for the institution. It would not be prudent to utilize modular buildings for research or class laboratory space. The University has purchased land in the South Campus to accommodate this new facility. Investing in temporary modular facilities would neither be cost effective nor meet academic and research needs.

4. VACATED SPACES

In addition to providing up to date laboratory, classroom, and office space for several academic departments, this project would permit the aforementioned departments to vacate some space currently occupied in other campus buildings. These spaces would be made available to meet the critical classroom and faculty office space needs of other growing departments. Because planning is in the early stages, the precise amount of space to be vacated is not defined. The expansion and relocation of other departments into vacated spaces in the historic center of campus is consistent with the Master Plan, which calls for that area to become a center for liberal arts, education, and research.

<thead>
<tr>
<th>PROJECT DESCRIPTION/LOCATION: Expansion of the Dental Hygiene program to ISU-Meridian according to the Phased Master Plan</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>CONTACT PERSON: Dr. Bessie Katsilometes</th>
<th>TELEPHONE: 373-1708</th>
</tr>
</thead>
</table>

### PROJECT JUSTIFICATION:

<table>
<thead>
<tr>
<th>(A) Concisely describe what the project is.</th>
</tr>
</thead>
<tbody>
<tr>
<td>To create a Bachelor of Science (BS) in Dental Hygiene (DH) satellite program and expand the Idaho Oral Health Institute to the ISU Meridian Health Science Center (HSC). On the SBOE 5-year plan, DH was scheduled to bring its BS satellite program to the HSC in 2014. The plan is to take DL classrooms #508 and #509, computer labs #504 and #505, and four offices off line and construct new clinic in these areas. Part of the project funding will be used to relocate these to new spaces constructed elsewhere in the building per the master plan.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>(B) What is the existing program and how will it be improved?</th>
</tr>
</thead>
<tbody>
<tr>
<td>The DH program is accredited by the American Dental Association Commission of Dental Accreditation. DH program expansion to ISU Meridian will enhance inter-professional and interdepartmental collaboration with the Idaho Advanced Education in General Dentistry (IAGD) Residency and other professional health programs. The IAGD Residency/ISU Family Dentistry Clinic relocated and expanded to the Meridian HSC in August 2011 with 5,200 sq. ft. of space which was designed to be adjacent to DH for shared resources. In the ISU-Meridian Master Plan, 4,800 sq. ft. of space is allocated for DH. The DH program expansion includes 12 operatories for 24 enrolled students, opportunities for clinical research and preventive oral health care services.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>(C) What will be the impact on your operating budget?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Operating costs will be funded by DH clinic revenues.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>(D) What are the consequences if this project is not funded?</th>
</tr>
</thead>
<tbody>
<tr>
<td>The BS in DH will not be made available in the Boise Metropolitan Service Area (MSA), the most populous region of Idaho. ISU’s DH program is the only BS degree option in the state; fulfilling ISU’s statewide mission as the health sciences education leader presupposes expanding the DH program to the Boise MSA. Further, an opportunity to provide inter-professional collaboration between dentistry and dental hygiene will be forgone if the DH satellite program is not expanded.</td>
</tr>
</tbody>
</table>
Also, the opportunity to enhance the model for an integrated educational approach incorporating oral, physical, and mental health by adding the DH program component at ISU Meridian will be unrealized. Proprietary schools in the Boise MSA are offering AAS dental hygiene education that is not regionally accredited and which makes it difficult for students to articulate credits earned.

CAPITAL BUDGET REQUEST  
FY 2016  
CAPITAL IMPROVEMENT PROJECT DESCRIPTION 
(New Buildings, Additions or Major Renovations)

AGENCY: Idaho State University  AGENCY PROJECT PRIORITY:  2

PROJECT DESCRIPTION/LOCATION: Eli Oboler Library

CONTACT PERSON: Phil Moessner  TELEPHONE: 208-282-4229

PROJECT JUSTIFICATION:

(A) Concisely describe what the project is.  
This project will remove the deteriorating fiberboard air ducting system, and replace it with an insulated steel duct system. This project will also address all seismic needs within the ceiling system and book stacks throughout the Library.

(B) What is the existing program and how will it be improved?  
The existing fiberboard ducting is actively degrading, with resulting ductwork particulates being spread throughout the library. All surfaces within the Library, including the ceiling, are coated with deteriorated ducting material. This project will remove the existing ceiling and lighting systems, remove all fiberboard ducting, address all seismic issues with the ceiling and lighting system, and with the book stacks throughout the Library. New insulated steel ducting, ceiling systems, and lighting will be installed.

(C) What will be the impact on your operating budget?  
The maintenance budget will be relieved in several areas as less custodial effort will be required to clean the Library, and repair work to deteriorating ductwork is no longer needed.

(D) What are the consequences if this project is not funded?  
Ductwork will continue to degrade and contaminate the interior of the Library. Additional efforts will continue to be expended in an attempt to clean the library.

ESTIMATED BUDGET:

CAPITAL IMPROVEMENT PROJECT DESCRIPTION
(New Buildings, Additions or Major Renovations)

AGENCY: Idaho State University
AGENCY PROJECT PRIORITY: 3

PROJECT DESCRIPTION/LOCATION: Graveley Hall upgrade HVAC

CONTACT PERSON: Phil Moessner
TELEPHONE: 208-282-4229

PROJECTJUSTIFICATION:

(A) Concisely describe what the project is.
This project will remove the old window mounted room air conditioners and steam heat perimeter supply with a central system that addresses the need for fresh air and heating in an economical solution.

(B) What is the existing program and how will it be improved?
The existing systems are failing and costly to run and repair and replace and the air conditioning units are providing a lot of bird habitat. The new system will deliver fresh air, conditioned in a central system and augment the existing perimeter steam heating systems to cover all areas of the building. Poor piping insulation on the steam heat will be replaced so that A/C units are not being run in the winter to cool down rooms.

(C) What will be the impact on your operating budget?
The maintenance budget will be relieved in several areas as less work will be needed to maintain individual units than one building system that can be put on our centralized controls.

(D) What are the consequences if this project is not funded?
Building systems are continuing to deteriorate and require excessive maintenance and costs.

ESTIMATED BUDGET:

<td></td>
<td></td>
</tr>
<tr>
<td>CONTACT PERSON:</td>
<td>Phil Moessner</td>
<td>TELEPHONE:</td>
<td>208-282-4229</td>
</tr>
</tbody>
</table>

**PROJECT JUSTIFICATION:**

(A) **Concisely describe what the project is.**

This project will mitigate the asbestos in the building, with emphasis on the open plenum supply design ceiling system. The work will require asbestos mitigation and the replacement of flooring, ceilings, and other materials removed or impacted by asbestos abatement. This project will also provide for renovation of office and classroom spaces within Beckley Nursing.

(B) **What is the existing program and how will it be improved?**

Health and safety of building occupants and maintenance personnel. Even simple tasks of replacing ceiling tiles or replacing light bulbs can pose risks to staff.

(C) **What will be the impact on your operating budget?**

This project does not add square feet of functional space but will require agency to provide funding for temporary moves to accommodate the mitigating and related construction work.

(D) **What are the consequences if this project is not funded?**

At this time, any maintenance work on lighting or ceiling panels required asbestos monitoring, which adds labor costs and delays in service response time. Additionally, some tasks are impossible to complete within the ceiling plenum. Finally, should there be some significant roof repairs; the building may need to be evacuated. If the required roof work takes place during the academic year, the disruptions to classes and labs would be intolerable.

CAPITAL BUDGET REQUEST
FY 2016
CAPITAL IMPROVEMENT PROJECT DESCRIPTION
(New Buildings, Additions or Major Renovations)

AGENCY: Idaho State University
AGENCY PROJECT PRIORITY: 5

PROJECT DESCRIPTION/LOCATION: Frazier Hall Renovation of dressing rooms & green rooms

CONTACT PERSON: Phil Moessner
TELEPHONE: 208-282-4229

PROJECT JUSTIFICATION:

(A) **Concisely describe what the project is.**
Dressing and green room areas located beneath the stage need complete restoration. This work extends to a complete gut-and-replacement of floor, sub flooring, ceilings, walls, finishes, air circulation, electrical systems, and restroom upgrades. Remodeling and updating of the dressing areas is intended to allow for men’s and women’s separate areas, remodel and upgrade of makeup rooms, restrooms, laundry rooms, and hallways. Areas are not accessible or sized properly for the number of persons using the facilities; this project will address building codes requirements in this regard. Traffic flow needs to be improved. An additional shower and restroom is needed. The existing public spaces of the Bilyeu Theater have received a wonderful and needed upgrade and now it is time to bring the under stage areas up to code. There is no back stage to the theater so that the basement areas receive a lot of use. This renovation includes major upgrades to mechanical, electrical, plumbing, and egress systems so that this historic venue may continue to be used.

(B) **What is the existing program and how will it be improved?**
Health and safety of players using the Bilyeu theater will be accomplished.

(C) **What will be the impact on your operating budget?**
This project does not add square feet of functional space but will address safety concerns and install more easily maintained materials and facilities, equipment and lighting upgrades.

(D) **What are the consequences if this project is not funded?**
Unsafe conditions will continue and egress systems are not up to code.

OFFICE OF THE STATE BOARD OF EDUCATION

SET A

PROJECT SUMMARY

Project Title: Northern Idaho Collaborative Education Facility

Institution/Agency: North Idaho College, Lewis Clark State College, University of Idaho

Brief Description:
North Idaho College, Lewis Clark State College, and the University of Idaho envision the creation of an education corridor in Coeur d'Alene stretching along the banks of the Spokane River and adjacent to North Idaho College. Higher Education programmatic growth in the Coeur d'Alene area will be concentrated in this education corridor. Additional facilities and resources are needed to service the growing population and the corresponding demand for access to higher education programs and content. The collaboration potential afforded by co-location of three institutions of higher education in this proposed facility will provide increased access and higher education opportunities for students of all levels in the area.

1. PROJECT DESCRIPTION AND JUSTIFICATION

North Idaho College, Lewis Clark State College, and the University of Idaho propose a collaborative facility housing units of each institution to be located on property owned by the North Idaho College Foundation and leased to North Idaho College. Such a collaborative facility will allow North Idaho College, Lewis Clark State College, and the University of Idaho to consolidate programs located in various facilities at one location and better serve the citizens of the area, each institution in accordance with the corresponding role and mission statements. The proximity of this location to North Idaho College is of an advantage as it provides the ability and opportunity to leverage the existing facilities of North Idaho College and to develop collaborative joint programs with North Idaho College faculty and staff.

2. PROJECT COMPONENTS

This facility will be approximately 20,000 gross square feet and will house classrooms and faculty and staff offices, along with ancillary support spaces. The preliminary cost estimate for the building is $6,420,800. The State provided $420,800 in FY09 funding to the University of Idaho to support initial programming and pre-design work. The initial programming and pre-design phase was initiated, however, it was placed in a hiatus status while the three institutions began discussion aimed at a revised conceptualization of the facility as a much smaller facility than that which was initially envisioned.

Once restarted, work products from the pre-design phase will include detailed program definition, site analysis and feasibility review, infrastructure needs and impacts, room data sheets, adjacency diagrams, and a refined project cost estimate.
For FY 2016, North Idaho College, Lewis Clark State College, and the University of Idaho are jointly requesting $4,000,000 from the state funding via the Permanent Building Fund to support completion of the design and construction documents for the facility. North Idaho College, Lewis Clark State College, and the University of Idaho will seek to jointly raise a total of $2,000,000 in gifted funds through their respective capital campaigns to complete the funding picture.

The facility will be designed and constructed in such a manner to support the potential future expansion of the building to accommodate additional academic programs and needs. Such additional program space would possibly include a tiered classroom, various breakout rooms, as well as reception and kitchen/dining services. The date of any such future expansion is yet to be determined and would be subject to further review and approval of the Board of Regents.

3. VACATED SPACE

North Idaho College and Lewis Clark State College expect to vacate a number of temporary modular facilities once the new facility is completed.
### CAPITAL PROJECT COST AND FUNDING SOURCE SUMMARY

**Project Title:** Northern Idaho Collaborative Education Facility

**Building Statistics:**
- NASF: TBD
- GSF: 20,000
- Net to Gross: Target 75%

PROJECT SUMMARY

Project Title: Research and Classroom Facility

Institution/Agency: University of Idaho

Brief Description:
The University of Idaho is currently in the process of the design and construction of the Integrated Research and Innovation Center (IRIC), a new research intensive facility comprised of sophisticated research laboratories to be located in the core of campus at the next of the College of Engineering, College of Science, College of Natural Resources and the College of Agricultural and Life Sciences. IRIC is to be completed in the fall of 2016, and it will be an exciting addition to the campus and to the university and carries with it the potential of driving the university’s research profile to new heights.

The character and nature of the IRIC facility is focused on high-performance, research intensive laboratories, core laboratories to be available to all research units and researchers campus wide, collaborative spaces, etc. Precisely because IRIC is to be such a high-performance facility, it does not contain much in the way of office space and there is to be no classroom space. Including such spaces in such a systems and utilities intensive facility would not be an efficient use of resources.

Accordingly then, there is a need to provide spaces such as offices for additional research units and departments, space for grant driven activities, spaces for computational research activities, classrooms, seminar spaces, etc., in a location convenient to IRIC. These spaces will support learning, computational research, dissemination and transfer of knowledge and information, and other related support activities that may be related to, or a result of, the research activities housed within the IRIC facility. The Research and Classroom Facility will be comprised of such spaces and is to be located to the immediate southeast of IRIC on the east side of the Line Street Pedestrian Mall on the main campus of the University of Idaho.

Date Approved by State Board of Education:
FY 2016 represents the first request for this facility.

1. PROJECT DESCRIPTION AND JUSTIFICATION
The University of Idaho has a need to design and construct a Research and Classroom Facility on an existing site to the immediate southeast of the Integrated Research and Innovation Center (IRIC) on the main campus of the University of Idaho in Moscow, Idaho. This site is located in the core of the research neighborhood of the campus, adjacent not only to the new IRIC facility, but also to the College of Engineering, College of Science, and College of Natural Resources. The College of Agricultural and Life Sciences will be one building to the west, separated by IRIC itself.

The general intent of the Research and Classroom Facility is to provide space for learning, computational research, dissemination and transfer of knowledge and information, and other related support activities that may be related to, or a result of, the research activities housed within the IRIC facility. Because the IRIC is a high-performance, systems-intensive research facility with a resultant high initial cost on a unit basis, it is a much wiser use of resources and a more efficient investment to provide spaces for learning, computational research, dissemination and transfer of knowledge and information, and other related support activities in an adjacent, less systems-intensive facility.

The Research and Classroom Facility is envisioned to house offices, and office suites, computational research space, classrooms and other support spaces in an approximately
40,000 square foot facility located at the intersection of the 7th Street and Line Street pedestrian malls on the Moscow campus. This location will allow the Research and Classroom Facility to not only support the activities and research generated within IRIC, but will also allow it to support other activities and research with the Colleges of Engineering, Science, Natural Resources, and Agricultural and Life Sciences. Further it will support activities and Research from the Office of Research and the various institutes, as well as providing additional classroom stock available for general education classroom use.

2. PROJECT COMPONENTS
The preferred site for this Research and Classroom Facility is on the east side of the Line Street Pedestrian Mall, a major north/south pedestrian circulation spine on campus, just down the hill from the Idaho Commons. A portion of the site is currently vacant, as the old 5kW electrical substation was on the site prior to its demolition a few years ago. The remainder of the site currently old the existing NAMEC facility. NAMEC is a wood framed, surplus WWII era building long slated for demolition and removal in the university’s Long Range Campus Development Plan (LRCDP). NAMEC is currently occupied by the Native American Education Center and by the College Assistance Migrant Program (CAMP). Both of these functions will require relocation to a site as yet to be determined. The site is further bounded by the College of Science Building to the east, the Food Research Center to the south and the 7th Street Pedestrian Mall and the college of Engineering to the north. The site is sloped south to north and offers the opportunity for views to the north.

As mentioned, the Research and Classroom Facility is envisioned to be 40,000 square feet, minimum. It is envisioned of phase 1 of a 2 phase effort. A second phase of an additional 40,000 square feet to the south is envisioned at a yet to be determined point in the future.

Spaces within the Research and Classroom Facility will include, but may not necessarily be limited to:

- faculty offices and office suites that allow for small scale departments and research institutes to be house together in a collaborative fashion;
- computational research spaces;
- collaborative, technology rich classroom, constructed along the model of spaces prototyped in Renfrew Hall and the Teaching and Learning Center by the University of Idaho in 2013;
- research collaboration spaces and seminar rooms;
- Graduate and Research Assistant spaces;
- and other specialty research and research support spaces as determined to be required.

The Research and Classroom Facility will be designed and constructed in such a manner to support the potential future expansion of the building to accommodate additional academic programs and needs. Such additional program space would possibly include a tiered classroom, various breakout rooms, as well as reception and kitchen/dining services. The date of any such future expansion is yet to be determined and would be subject to further review and approval of the Board of Regents.
3. ALTERNATIVES
Three alternatives have been studied to date.

Alternative 1: Include This Scope within the IRIC Facility Currently Under Design and Construction

This alternative would have entailed including many, more office, office suites, classrooms, seminar rooms, etc. within the scope of the Integrated Research and Innovation Center (IRIC) currently under design and construction and schedule to open in 2016. This alternative would have placed these spaces in a systems-intensive, high-performance facility. These spaces do not need to be in such a high-performance facility and placing them there would be an inefficient use of resources. The alternative also represents a poor choice in terms of opportunity costs as these spaces would by necessity would reduce the number and size of the research laboratories and core laboratories that could be constructed within IRIC. 40,000 sf of office, office suites, classrooms, seminar rooms, etc., as described herein, and added to the IRIC scope as currently in design, would create structure too large for the IRIC site.

In addition, the IRIC facility is a $49.7 mil effort, the largest single design and construction effort ever accomplished by the University of Idaho on a total dollars basis. Adding an additional scope of $24 mil would have created an untenable and infeasible project. The university rejected this alternative.

Alternative 2: Construct Separate, Dispersed Research and Classroom Spaces in existing Buildings

This alternative consists of an attempt to identify and construct the spaces as described herein in separate, exiting facilities dispersed across campus. The university simply does not have an existing stock of unused or underused space(s) to support this alternative. Space is at a premium on campus and existing programs are often forced into inadequate space. New programs are often denied space requested for their needs. Space is an extremely limited, and limiting, resource in the current campus environment. In addition, this approach does not readily support interdisciplinary interaction and collaboration. The university rejected this alternative.

Alternative 3: Construct a Research and Classroom Facility

This option would entail constructing a single facility adjacent to the site of the IRIC facility and within immediate adjacencies of the structures that comprise the research neighborhood in the core of the Moscow Campus. Overall project expenses are expected to be less under this approach since there will be only one site and construction of a single building allows elimination of unnecessary duplication of building systems. Placing these spaces in a less systems-intensive structure will also reduce costs. Combining these spaces in a single structure will also increase collaboration amongst research and research support units. This is the university's preferred alternative.

4. VACATED SPACE
In the main, the Research and Classroom Facility is envisioned as new space to satisfy both existing, pent-up needs that are currently insufficiently housed into inadequate conditions on a "make-do" basis, and to satisfy projected research needs and support needs generated by the IRIC facility to be opened in 2016. Accordingly, there is little to no vacant space generated by
this request. Space currently used for instructional laboratories and some research laboratories that may be vacated may be reused to meet additional laboratory space demand. Other prospective uses of vacated space may be for offices and specialized learning areas including computer laboratories, seminar areas, team and group rooms, etc.

As mentioned hereinbefore, however, the design and construction of the Research and Classroom Facility on the selected site will require the demolition and removal of the existing, wood-framed NAMEC building. NAMEC is in poor repair and it is a structure that is of an inefficient size which vastly under-utilizes the site. The NAMEC building is listed as a structure to be removed under the university's adopted Long Range Campus Development Plan (LRCDP). NAMEC is currently occupied by two units and those units will need to be deployed elsewhere on campus as a part of the development of the Research and Classroom Facility. One possible option to be considered is placing these units within the new Research and Classroom Facility, however, the final location for these units is yet to be determined.

July 2014
CAPITAL BUDGET REQUEST
FY 2016
CAPITAL IMPROVEMENT PROJECT DESCRIPTION
(New Buildings, Additions or Major Renovations)

AGENCY: Lewis-Clark State College
AGENCY PROJECT PRIORITY: 1

PROJECT DESCRIPTION,LOCATION: Northern Idaho Collaborative Education Facility

CONTACT PERSON: Chet Herbst
TELEPHONE: (208) 792-2240

PROJECT JUSTIFICATION:

(A) Concisely describe what the project is. The NICEF will be an approximately 20,000 square foot facility, configured to facilitate expansion in future phases, which will support LCSC, NIC, and UI programs on the NIC campus in Coeur d'Alene (CdA). The facility will provide shared classrooms, offices, and common service areas to support students from all three institutions. This is a joint request by LCSC, UI, and NIC, carrying forward preliminary design work on the joint facility which was initiated under UI Project #09-254. The estimated $6,000,000 cost of this project would be covered by $2,000,000 in Agency funds and $4,000,000 in PBF dollars. NIC has already made substantial investments using Agency funds to prepare the site on which the joint NICEF structure will be located.

(B) What is the existing program and how will it be improved? LCSC programs in CdA (serving approximately 500 students) are being delivered from leased space in Harbor Center (a converted restaurant located north of the NIC campus) and from leased classrooms above the NIC library. Instruction and student support service delivery is fragmented. Student services are delivered at multiple, separate locations, including some locations remote from the center of student activity on the NIC campus. The proposed joint facility will enable the three institutions to pool resources efficiently and provide "one stop" service to LCSC, UI, and NIC students, with consolidated staff support in a single, optimal location. The joint facility will accommodate LCSC's growing enrollment in the region in a collaborative facility which will support community college, baccalaureate, and graduate training throughout Northern Idaho.

(C) What will be the impact on your operating budget? Consolidation of services within the proposed joint facility will create economies of scale to more efficiently support instruction. Approval of the joint project would obviate the need for separate facilities in the area for LCSC, UI, and NIC, which, if pursued separately, would have combined costs far in excess of the cost of the proposed joint facility.
(D) **What are the consequences if this project is not funded?** The existing, temporary facilities for LCSC students in CdA cannot continue to meet the growing demand for student programs in the area. Without new infrastructure, access to higher education in the area would have to be capped or curtailed. This collaborative joint project—the first of its type among the three participating institutions—would be a highly effective and efficient use of Permanent Building Fund (as well as Agency) dollars, avoiding expenditures for separate, duplicative facilities.

Agency Head Signature:  

Date: 6-27-14
PROJECT JUSTIFICATION:

(A) Concisely describe what the project is. This project would upgrade classroom, conference, and office spaces in Spalding Hall. Upgrades would include energy-efficient windows and doors, improved lighting, flooring repairs, re-carpeting, and HVAC and electrical improvements.

(B) What is the existing program and how will it be improved? Spalding Hall supports the faculty, staff, and students of three LCSC instructional divisions: Education and Kinesiology, Humanities, and Social Sciences. The offices of the Dean of Academic Programs are also located within the building. The 20,000 square foot facility was built in 1924 and has not been remodeled since 1977, when localized repairs were necessary after a fire in the basement. The roof of the building was previously replaced through a separate DPW project (#13-151). Under the proposed project for FY2016, installation of energy-efficient windows and doors, hanging ceilings, carpet replacement, whiteboards, projection equipment, HVAC, and electrical/lighting improvements will restore this antiquated, inefficient building so that it can adequately support academic operations.

(C) What will be the impact on your operating budget? Upgrade of the facility will increase energy efficiency and support increased productivity for the users of the building. The proposed upgrades should not result in increased ongoing operating costs for the facility.

(D) What are the consequences if this project is not funded? The modest improvements proposed as part of this project would enable the College to provide a safe and efficient environment for students and staff while avoiding the costs which would be incurred if the facility were to be demolished and replaced with a new fully-functional building.
[Spalding Hall upgrade, continued.]

Capital Improvement Project Description
(New Buildings, Additions or Major Renovations)

AGENCY: North Idaho College  AGENCY PROJECT PRIORITY: 2

PROJECT DESCRIPTION/LOCATION: Professional Technical Building

CONTACT PERSON: Sarah Garcia  TELEPHONE: 208-769-3340

PROJECT JUSTIFICATION:
(A) Concisely describe what the project is. To construct a new Professional Technical Building to create additional space for existing programs, expansion of new professional technical education programs, and to partner with local school districts to provide facilities to support their professional technical education programs as well.

(B) What is the existing program and how will it be improved? Currently there are business and professional programs, health professions and trades an industry programs. These programs are near capacity with 12% of the student body enrolled in those programs. Nationally, 40% or more enrollments would be in these programs. Construction of this facility would expand professional technical education opportunities, keep up with rapid changes in technology, and increase student enrollments.

(C) What will be the impact on your operating budget? Would increase in the areas of staffing, utilities and maintenance costs.

(D) What are the consequences if this project is not funded? In coming and continuing students, local businesses and industries, and local public school districts would not be able to rely on NIC to provide expanded programs or enrollments.

CAPITAL BUDGET REQUEST
FY 2016
CAPITAL IMPROVEMENT PROJECT DESCRIPTION
(New Buildings, Additions or Major Renovations)

AGENCY: College of Western Idaho  AGENCY PROJECT PRIORITY: 1

PROJECT DESCRIPTION/LOCATION: Health Sciences Building / Nampa Campus

CONTACT PERSON: Craig Brown  TELEPHONE: 562-3279

PROJECT JUSTIFICATION:

(A) Concisely describe what the project is.
New 80,072 square ft. health sciences building. Existing CWI programs to be housed in this building include: dental assisting, surgical technician, nursing (Associate and assistant), paramedic, etc. Will include biology/chemistry laboratories, classrooms, study and common areas for students, and faculty offices.

(B) What is the existing program and how will it be improved?
Currently, CWI has health science programs and course offerings spread across the two-county area. There is a strong need to consolidate courses and programs to allow students and faculty to focus their efforts, and to be in synergy with local health care providers. This will allow for more effective use of clinical sites.

(C) What will be the impact on your operating budget?
Impact will be additional utility, custodial and maintenance costs. CWI will request Occupancy Costs through a future State Board of Education and Governor/Legislative process, but will be prepared to use existing tuition revenue to maintain the new facility, if needed.

(D) What are the consequences if this project is not funded?
CWI would continue to offer health science and related courses at a variety of campus and center locations spread across Ada and Canyon Counties.

CAPITAL IMPROVEMENT PROJECT DESCRIPTION
(New Buildings, Additions or Major Renovations)

AGENCY: College of Western Idaho
AGENCY PROJECT PRIORITY: 2

PROJECT DESCRIPTION/LOCATION: Student Center Building / Nampa Campus

CONTACT PERSON: Craig Brown
TELEPHONE: 562-3279

PROJECT JUSTIFICATION:

(A) Concisely describe what the project is.
The Student Center Building will be located on the CWI Nampa campus and will establish a campus core focal point as outlined in the campus master plan. Completed programming reflects a 160K sf. building that includes key services and functions including; Student Services and Resource Center, Library/ Learning Commons, Food Service, Culinary Arts Center, Retail Services including Bookstore and Conference/ Commons spaces.

(B) What is the existing program and how will it be improved?
The Nampa campus currently lacks services and programs which are needed to serve a rapidly growing student population. The existing library and bookstore are not on campus and are undersized for the student population served. The Culinary Arts program is currently located on the BSU campus and would be relocated and expanded to support food service and convention center activities.

(C) What will be the impact on your operating budget?
Additional operating costs will be incurred related to utilities and maintenance. Some costs will be offset through relocation of some services and programs including the Culinary Arts program from BSU which will eliminate rent. Additionally, some revenue would be generated to support operations of the facility through retail and convention services.

(D) What are the consequences if this project is not funded?
A Dormitory Commission has been established and will provide a portion of funding as reflected under Agency Funds. If the balance is not funded, additional student fee funding may have to occur and it is likely the timing of the project would be delayed. The project scope would be impacted and might include not providing some services. Additionally, relocating the Culinary Arts program from BSU would not occur as planned.

SUBJECT
University National Collegiate Athletic Association (NCAA) Academic Progress Rate (APR) Scores

BACKGROUND/DISCUSSION
The APR is determined by using the eligibility and retention for each student-athlete on scholarship during a particular academic year. Student-athletes are awarded points for each semester they are enrolled and for each semester they are eligible for intercollegiate competition. The APR is calculated by taking the number of possible points and dividing that number by the total number of points earned from retention and eligibility over the same period of time.

The NCAA instituted the APR requirements beginning in the 2003-04 academic year. Since Fall 2007, the APR has been calculated based on four years of data. The most current year's data is added and the oldest year is removed to create a four-year rolling rate. The benchmark minimum score for each sport is 930.

IMPACT
Contemporaneous financial aid penalties can be applied if an athletic team's APR score is below 930. Teams that fall under the contemporaneous penalties risk the loss of future scholarships.

This is the eighth year institutions will be subject to historically based penalties. In the first stage of that structure, teams with APRs below 900 receive a public warning. If those same teams continue to fall below the 900 cut score, they will be subject to a variety of playing and practice season restrictions, based on a formula that includes a measurement of the team’s improvement over the last several years.

After public warnings, penalties become progressively more severe, culminating in banning teams from postseason play.

STAFF COMMENTS AND RECOMMENDATIONS
Each institution provided a statement regarding APR and how the NCAA requirement affects the institution. Following the statement from each institution are the NCAA APR sheets for all sports at that institution.

Continuing to increase the incentive for academic achievement will help place a higher priority on the life-learning needs of the student-athletes.

BOARD ACTION
This item is for informational purposes only. Any action will be at the Board’s discretion.
Nine Boise State athletic teams posted perfect single-year Academic Progress Rate (APR) scores, and four Bronco programs ranked at the top of the Mountain West (MW) in multi-year scores in the most recent release by the NCAA.

The Boise State men's cross country, men's golf, men's tennis, softball, soccer, swimming and diving, volleyball, women's golf and women's tennis programs each recorded perfect single-year scores of 1,000 for the 2012-13 year.

For men's cross country, volleyball and women's golf, this marks the third-straight year the programs have achieved perfect scores. Men's tennis, softball, soccer and women's tennis have recorded perfect scores in each of the last two years.

The Broncos' swimming and diving program (991) led the MW, while the football (988), softball (983) and women's golf (1,000) teams tied for the league high. Additionally, the football team ranked tied for fourth-nationally, and the women's golf team ranked tied for first-nationally.

Boise State's football and women's golf teams each earned Public Recognition Awards for having multi-year APR scores in the top-10 percent of their respective sports nationally. The football team is one of only five programs nationally to receive a Public Recognition Award in each of the last four years (Clemson, Duke, Northwestern and Rutgers). The award was the first for the Broncos' women's golf team.
THIS PAGE INTENTIONALLY LEFT BLANK
This report is based on NCAA Division I Academic Progress Rate (APR) data submitted by the institution for the 2009-10, 2010-11, 2011-12 and 2012-13 academic years.

[Note: All information contained in this report is for four academic years. Some squads may still have small sample sizes within certain sport groups. In accordance with the Family Educational Rights and Privacy Act's (FERPA's) interpretation of federal privacy regulations, data cells containing three or fewer student-athletes have been suppressed and are indicated by an * symbol. The information in this report does not reflect any changes to data made after this date.]

The following chart represents by-sport APR averages for noted subgroups. National aggregates are based on all squads that have certified their academic data as final.

The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to ineligibility for postseason competition. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

4 Denotes APR that does not subject the team to penalties due to the team's demonstrated academic improvement.

5 Denotes APR that does not subject the team to penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

6 Denotes APR based on a one year cohort, not subject to ineligibility for postseason competition and/or any penalties.

7 Denotes APR based on a two year cohort, not subject to ineligibility for postseason competition and/or any penalties.

8 Denotes that team is not subject to ineligibility for postseason competition and/or penalties based on institutional resources.

9 Denotes that team's APR data is under review.
Idaho State University
Spring 2014 NCAA Academic Progress Rate (APR) Report Summary

The 2012-13 one year score for the whole department was the second highest ever at 963. The 963 score was down 20 points from the 2011-12 score of 983. The one year Eligibility score was the second highest ever for the department with a score of 972 (record is 974 in 2011-12 school year) and the one year Retention score was the second highest ever for the department with a score of 964 (record is 965 in 2011-12 school year).

The 2012-13 four-year average for the whole department was the highest ever at 963 up from last year’s record of 950.

- 6 of ISU’s 15 teams scored a perfect 1000
  - Women’s Golf had their fourth perfect 1000 single-year score in the last 4 years and their 5th in the last 6 years. This propelled their four-year average up to a 1000.
  - Men’s Basketball had their highest score ever and a perfect 1000 for the first time ever.
  - Women’s Cross Country (WCC) had their 4th 1000 in the history of APR and the second in 4 years. With the bonus point earned, WCC actually had a one year score of 1016.
  - Softball had their highest score ever and a perfect 1000 for the first time ever. This score propelled them above a 930 for the four year score for the first time ever
  - Women’s Soccer had their highest score ever and a perfect 1000 for the first time ever. The four year score of 981 is the highest ever for women’s soccer.
  - Women’s Tennis had their 4th 1000 in history which propelled them to the highest four year score in their history at 972.

- Football had a one year score of 975 (the 2nd highest ever for Football) and saw their 4 year score go above 930 for the first time ever. The four year score for football is now a 941 which is a record for Football.
- Women’s Basketball had their second highest single year score ever at a 983 which propelled their four year score to a record 976.
- Both Women’s Indoor and Outdoor track had their highest one year scores at 994 for both. This beat their previous records of 992 in the 2006-07 school year. The four year score for Women’s Indoor Track is the highest ever at 972 while the four year score for Women’s Outdoor Track is also the highest ever at 975.
- Of the teams on the ISU campus, only Men’s Basketball (918) has 4 year scores below the 930 mark. All teams at Idaho State are above the 900 score mark.
- 8 teams made 1 year improvements from the year before (Men’s Basketball, Men’s Tennis, Women’s Cross Country, Softball, Soccer, Women’s Tennis, Women’s Track Indoor and Women’s Track Outdoor)
• 11 Teams Made 4 year improvements from the year before. (Men’s Basketball, Football, Women’s Basketball, Women’s Cross Country, Women’s Golf, Women’s Soccer, Softball, Women’s Tennis, Women’s Track Indoor, Women’s Track Outdoor, Volleyball)

• 6 teams saw a decrease in their 1 year scores (Men’s Cross Country, Football, Men’s Track Indoor, Men’s Track Outdoor, Women’s Basketball, Volleyball)

• 4 teams saw a decrease in their 4 year scores (Men’s Cross Country, Men’s Tennis, Men’s Track Indoor, Men’s Track Outdoor)
2012 - 2013 NCAA Division I Academic Progress Rate
Public Report

Institution: Idaho State University
Date of Report: 05/06/2014

This report is based on NCAA Division I Academic Progress Rate (APR) data submitted by the institution for the 2009-10, 2010-11, 2011-12 and 2012-13 academic years.

[Note: All information contained in this report is for four academic years. Some squads may still have small sample sizes within certain sport groups. In accordance with the Family Educational Rights and Privacy Act’s (FERPA’s) interpretation of federal privacy regulations, data cells containing three or fewer student-athletes have been suppressed and are indicated by an * symbol. The information in this report does not reflect any changes to data made after this date.]

The following chart represents by-sport APR averages for noted subgroups. National aggregates are based on all squads that have certified their academic data as final.

* Denotes data representing three or fewer student-athletes. In accordance with FERPA’s interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.

NA = No APR or not applicable.
N = Number of teams represented.
1 Denotes APR that does not subject the team to ineligibility for postseason competition based on institutional, athletics and student resources and the team’s Graduation Success Rate.
2 Denotes APR that does not subject the team to ineligibility for postseason competition due to the team’s demonstrated academic improvement.
3 Denotes APR that does not subject the team to ineligibility for postseason competition due to the squad-size adjustment. The “upper confidence boundary” of a team’s APR must be below 930 for that team to be subject to ineligibility for postseason competition. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.
4 Denotes APR that does not subject the team to penalties due to the team’s demonstrated academic improvement.
5 Denotes APR that does not subject the team to penalties due to the squad-size adjustment. The “upper confidence boundary” of a team’s APR must be below 930 for that team to be subject to penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.
6 Denotes APR based on a one year cohort, not subject to ineligibility for postseason competition and/or any penalties.
7 Denotes APR based on a two year cohort, not subject to ineligibility for postseason competition and/or any penalties.
8 Denotes that team is not subject to ineligibility for postseason competition and/or penalties based on institutional resources.
9 Denotes that team’s APR data is under review.
10 Denotes that team’s APR data is under review.

* Denotes data representing three or fewer student-athletes. In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.

N/A = No APR or not applicable.

1 Denotes APR that does not subject the team to ineligibility for postseason competition based on institutional, athletics and student resources and the team's Graduation Success Rate.

2 Denotes APR that does not subject the team to ineligibility for postseason competition due to the team's demonstrated academic improvement.

3 Denotes APR that does not subject the team to ineligibility for postseason competition due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to ineligibility for postseason competition. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

4 Denotes APR that does not subject the team to penalties due to the team's demonstrated academic improvement.

5 Denotes APR that does not subject the team to penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

6 Denotes APR based on a one year cohort, not subject to ineligibility for postseason competition and/or any penalties.

7 Denotes APR based on a two year cohort, not subject to ineligibility for postseason competition and/or any penalties.

8 Denotes that team is not subject to ineligibility for postseason competition and/or penalties based on institutional resources.

9 Denotes that team's APR data is under review.

* Denotes data representing three or fewer student-athletes. In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.

N/A = No APR or not applicable.

1 Denotes APR that does not subject the team to ineligibility for postseason competition based on institutional, athletics and student resources and the team's Graduation Success Rate.

2 Denotes APR that does not subject the team to ineligibility for postseason competition due to the team's demonstrated academic improvement.

3 Denotes APR that does not subject the team to ineligibility for postseason competition due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to ineligibility for postseason competition. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

4 Denotes APR that does not subject the team to penalties due to the team's demonstrated academic improvement.

5 Denotes APR that does not subject the team to penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

6 Denotes APR based on a one year cohort, not subject to ineligibility for postseason competition and/or any penalties.

7 Denotes APR based on a two year cohort, not subject to ineligibility for postseason competition and/or any penalties.

8 Denotes that team is not subject to ineligibility for postseason competition and/or penalties based on institutional resources.

9 Denotes that team's APR data is under review.
University of Idaho
Spring 2014 NCAA Academic Progress Rate (APR) Report Summary

The University of Idaho sponsors 16 NCAA sports and of those, 14 currently maintain a 4-year average of at least 940. Football and Men’s Golf are the only sports below 940. Football has a 901 four-year average which is an 18-point decrease from the prior four-year average. Men’s Golf has a four-year average of 930. That number has increased 14 points from the previous four-year average.

- Idaho’s average APR score, by sport, is 958.73. That is a decrease of 2.58 points compared to the prior four-year average.
- The decrease in the Football APR score was the result of losing a score in the 900+ range from 2008-09 which was replaced with an 800+ score in 2012-13. The drop in scores was a combination of lost retention points associated with a coaching staff change. The coaching staff also chose to remove several athletes for disciplinary reasons or who were not performing academically. The administration supported these decisions. Coach Petrino is recruiting quality students and is dedicated to the academic success of his student-athletes. He is working diligently along with Athletic Academic Services to develop stronger study skills and encourage better academic performance. The team is projected to attain a 960 single year APR for 2013-14.
THIS PAGE INTENTIONALLY LEFT BLANK
This report is based on NCAA Division I Academic Progress Rate (APR) data submitted by the institution for the 2009-10, 2010-11, 2011-12 and 2012-13 academic years.

[Note: All information contained in this report is for four academic years. Some squads may still have small sample sizes within certain sport groups. In accordance with the Family Educational Rights and Privacy Act's (FERPA's) interpretation of federal privacy regulations, data cells containing three or fewer student-athletes have been suppressed and are indicated by an * symbol. The information in this report does not reflect any changes to data made after this date.]

The following chart represents by-sport APR averages for noted subgroups. National aggregates are based on all squads that have certified their academic data as final.

* Denotes data representing three or fewer student-athletes. In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.
N/A = No APR or not applicable.
N = Number of teams represented.
1 Denotes APR that does not subject the team to ineligibility for postseason competition based on institutional, athletics and student resources and the team's Graduation Success Rate.
2 Denotes APR that does not subject the team to ineligibility for postseason competition due to the team's demonstrated academic improvement.
3 Denotes APR that does not subject the team to ineligibility for postseason competition due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to ineligibility for postseason competition. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.
4 Denotes APR that does not subject the team to penalties due to the team's demonstrated academic improvement.
5 Denotes APR that does not subject the team to penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.
6 Denotes APR based on a one year cohort, not subject to ineligibility for postseason competition and/or any penalties.
7 Denotes APR based on a two year cohort, not subject to ineligibility for postseason competition and/or any penalties.
8 Denotes that team is not subject to ineligibility for postseason competition and/or penalties based on institutional resources.
9 Denotes that team is not subject to penalties based on the low resource APR limit of 910.

* Denotes data representing three or fewer student-athletes. In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.

N/A = No APR or not applicable.

N = Number of teams represented.

1 Denotes APR that does not subject the team to ineligibility for postseason competition based on institutional, athletics and student resources and the team's Graduation Success Rate.

2 Denotes APR that does not subject the team to ineligibility for postseason competition due to the team's demonstrated academic improvement.

3 Denotes APR that does not subject the team to ineligibility for postseason competition due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to ineligibility for postseason competition. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

4 Denotes APR that does not subject the team to penalties due to the team's demonstrated academic improvement.

5 Denotes APR that does not subject the team to penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

6 Denotes APR based on a one year cohort, not subject to ineligibility for postseason competition and/or any penalties.

7 Denotes APR based on a two year cohort, not subject to ineligibility for postseason competition and/or any penalties.

8 Denotes that team is not subject to ineligibility for postseason competition and/or penalties based on institutional resources.

9 Denotes that team's APR is under review.

10 Denotes APR that does not subject the team to penalties based on the low resource APR limit of 910.

1. Specific information on the playing and practice season penalty may be located in the APP General Summary document located on the Reports tab within the APP data collection portal.
2. The team is also subject to a penalty that was previously conditionally waived; however, the team failed to meet the condition and the penalty must now be imposed.
3. Denotes that team is not subject to ineligibility for postseason competition based on institutional, athletics and student resources and the team’s Graduation Success Rate.
4. Denotes that team is not subject to ineligibility for postseason competition based on institutional, athletics and student resources and the team’s Graduation Success Rate.
5. The team’s Level One penalty has been waived.
6. The team’s Level Two penalty has been waived.
7. The team is subject to a penalty that was previously conditionally waived; however, the team failed to meet the condition and the penalty must now be imposed.
8. The team’s Postseason ineligibility has been waived.
9. The team’s penalty waiver request is pending.
10. Denotes that team’s APR data is under review.
SUBJECT
Board policy V.E. – Gifts & Affiliated Foundations – first reading

APPLICABLE STATUTES, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Sections V.E.

BACKGROUND / DISCUSSION
Several universities are developing proposals for research foundations. However, “technology transfer organizations” are specifically excluded from Board policy V.E. on governance and formation of affiliated foundations. As such, there is no extant Board policy governing research and/or technology transfer affiliated entities. Board staff, in consultation with institution counsel, has determined that Board policy V.E. can simply be amended to facilitate the inclusion of research foundations and technology transfer organizations under the existing policy on foundations.

IMPACT
The requirement for a Board-approved foundation operating agreement under current policy would apply to research and technology transfer foundations, including review and re-approval of said agreements every three years.

ATTACHMENTS
Attachment 1 – Board policy V.E. – first reading Page 3

STAFF COMMENTS AND RECOMMENDATIONS
Board staff provided the institutions’ general counsel and vice president for research ample opportunity to review and comment on the proposed amendments. The consensus is that using the existing framework for governance of affiliated foundations is the most straightforward approach. This will provide the Board with the appropriate level of oversight while providing the institutions flexibility to develop research or tech transfer foundations to meet their own unique needs.

Staff recommends approval.

BOARD ACTION
I move to approve the first reading of proposed amendments to Board Policy V.E. Gifts & Affiliated Foundations, as presented in Attachment 1.

Moved by________________ Seconded by________________ Carried Yes____ No____
1. Purpose of the Policy

a. The Board recognizes the importance of voluntary private support and encourages grants and contributions for the benefit of the institutions and agencies under its governance. Private support for public education is an accepted and firmly established practice throughout the United States. Tax-exempt foundations are one means of providing this valuable support to help the institutions and agencies under the Board’s governance raise money through private contributions. Foundations are separate, legal entities, tax-exempt under Section 501(c) of the United States Internal Revenue Code of 1986, as amended, associated with the institutions and agencies under the Board’s governance. Foundations are established for the purpose of raising, receiving, holding, and/or using funds from the private sector for charitable, scientific, cultural, educational, athletic, or related endeavors that support, enrich, and improve the institutions or agencies. The Board wishes to encourage a broad base of support from many sources, particularly increased levels of voluntary support. To achieve this goal, the Board will cooperate in every way possible with the work and mission of recognized affiliated foundations.

b. The Board recognizes that foundations:

i. Provide an opportunity for private individuals and organizations to contribute to the institutions and agencies under the Board’s governance with the assurance that the benefits of their gifts supplement, not supplant, state appropriations to the institutions and agencies;

ii. Provide assurance to donors that their contributions will be received, distributed, and utilized as requested for specified purposes, to the extent legally permissible, and that donor records will be kept confidential to the extent requested by the donor and as allowed by law;

iii. Provide an instrument through which alumni and community leaders can help strengthen the institutions and agencies through participation in the solicitation, management, and distribution of private gifts; and

iv. Aid and assist the Board in attaining its approved educational, research, public service, student loan and financial assistance, alumni relations, and financial development program objectives.

c. The Board, aware of the value of tax-exempt foundations to the well being of the institutions and agencies under the Board’s governance, adopts this policy with the following objectives:
i. To preserve and encourage the operation of recognized foundations associated with the institutions and agencies under the Board’s governance; and

ii. To ensure that the institutions and agencies under the Board’s governance work with their respective affiliated foundations to make certain that business is conducted responsibly and according to applicable laws, rules, regulations, and policies, and that such foundations fulfill their obligations to contributors, to those who benefit from their programs, and to the general public.

2. Institutional Foundations

The foregoing provisions are designed to promote and strengthen the operations of foundations that have been, and may be, established for the benefit of the public colleges and universities in Idaho. The intent of this policy is to describe general principles that will govern institutional relationships with their affiliated foundations. It is intended that a more detailed and specific description of the particular relationship between an institution and its affiliated foundation will be developed and committed to a written operating agreement, which must be approved by the Board. Technology transfer organizations, including the Idaho Research Foundation, are not subject to this policy. For application of this policy to affiliated research foundations and technology transfer organizations, including the Idaho Research Foundation, see paragraph 6 below.

a. Board Recognition of Affiliated Foundations

i. The Board may recognize an entity as an affiliated foundation if it meets and maintains the requirements of this policy. The chief executive officer of each institution must ensure that any affiliated foundation recognized by the Board ascribes to these policies. The Board acknowledges that it cannot and should not have direct control over affiliated foundations. These foundations must be governed separately to protect their private, independent status. However, because the Board is responsible for ensuring the integrity and reputation of the institutions and their campuses and programs, the Board must be assured that any affiliated foundation adheres to sound business practices and ethical standards appropriate to such organizations in order to assure the public that the foundation is conducting its mission with honesty and integrity.

ii. Upon the effective date of this policy, the institution chief executive officer shall provide a list of current affiliated foundations and an implementation plan to bring each foundation before the Board to be formally recognized as a nonprofit corporation or affiliated foundation to benefit a public college or university in Idaho, for one or more of the purposes previously described in this policy. Each foundation shall be brought into substantial conformance
with these policies and, upon so doing, the institution shall provide prompt notice to the Board in order that the Board may recognize the affiliated foundation. Upon recognition by the Board, the organization of the nonprofit corporation or foundation is ratified, validated, and confirmed, and it shall be deemed to have been organized as if its organization had taken place under authority of this policy. Likewise, any new foundations established subsequent to implementation of this policy must be brought to the Board for formal recognition before such foundation begins operations.

b. General Provisions Applicable to all Affiliated Foundations recognized by the Board

i. All private support of an institution not provided directly to such institution shall be through a recognized affiliated foundation. While an institution may accept gifts made directly to the institution or directly to the Board, absent unique circumstances making a direct gift to the institution more appropriate, donors shall be requested to make gifts to affiliated foundations.

ii. Each affiliated foundation shall operate as an Idaho nonprofit corporation that is legally separate from the institution and is recognized as a 501(c)(3) public charity by the Internal Revenue Service. The management and control of a foundation shall rest with its governing board. All correspondence, solicitations, activities, and advertisements concerning a particular foundation shall be clearly discernible as from that foundation, and not the institution.

iii. The institutions and foundations are independent entities and neither will be liable for any of the other’s contracts, torts, or other acts or omissions, or those of the other’s trustees, directors, officers, members, or staff.

iv. It is the responsibility of the foundation to support the institution at all times in a cooperative, ethical, and collaborative manner; to engage in activities in support of the institution; and, where appropriate, to assist in securing resources, to administer assets and property in accordance with donor intent, and to manage its assets and resources.

v. Foundation funds shall be kept separate from institution funds. No institutional funds, assets, or liabilities may be transferred directly or indirectly to a foundation without the prior approval of the Board except as provided herein. Funds may be transferred from an institution to a foundation without prior Board approval when:

1) A donor inadvertently directs a contribution to an institution that is intended for the foundation. If an affiliated foundation is the intended
recipient of funds made payable to the Board or to an institution, then such funds may be deposited with or transferred to the affiliated foundation, provided that accompanying documents demonstrate that the foundation is the intended recipient. Otherwise, the funds shall be deposited in an institutional account, and Board approval will be required prior to transfer to an affiliated foundation; or

2) The institution has gift funds that were transferred from and originated in an affiliated foundation, and the institution wishes to return a portion of funds to the foundation for reinvestment consistent with the original intent of the gift.

vi. Transactions between an institution and an affiliated foundation shall meet the normal tests for ordinary business transactions, including proper documentation and approvals. Special attention shall be given to avoiding direct or indirect conflicts of interest between the institution and the affiliated foundation and those with whom the foundation does business. Under no circumstances shall an institution employee represent both the institution and foundation in any negotiation, sign for both the institution and foundation in a particular transaction, or direct any other institution employee under their immediate supervision to sign for the related party in a transaction between the institution and the foundation.

vii. Prior to the start of each fiscal year, an affiliated foundation must provide the institution chief executive officer with the foundation’s proposed annual budget, as approved by the foundation’s governing board.

viii. Each foundation shall conduct its fiscal operations to conform to the institution’s fiscal year. Each foundation shall prepare its annual financial statements in accordance with Government Accounting Standards Board (GASB) or Financial Accounting Standards Board (FASB) principles, as appropriate.

ix. Institution chief executive officers shall be invited to attend all meetings of an affiliated foundation’s governing board in an advisory role. On a case by case basis, other institution employees may also serve as advisors to an affiliated foundation’s governing board, as described in the written foundation operating agreement approved by the Board.

x. The foundation, while protecting personal and private information related to private individuals, is encouraged, to the extent possible or reasonable, to be open to public inquiries related to revenue, expenditure policies, investment performance and/or other information that would normally be open in the conduct of institution affairs.
xi. A foundation’s enabling documents (e.g., articles of incorporation and bylaws) and any amendments are to be provided to the institution. These documents must include a clause requiring that in the event of the dissolution of a foundation, its assets and records will be distributed to its affiliated institution, provided the affiliated institution is a qualified charitable organization under relevant state and federal income tax laws. To the extent practicable, the foundation shall provide the institution with an advance copy of any proposed amendments, additions, or deletions to its articles of incorporation or bylaws. The institution shall be responsible for providing all of the foregoing documents to the Board.

xii. Foundations may not engage in activities that conflict with federal or state laws, rules and regulations; the policies of the Board; or the role and mission of the institutions. Foundations shall comply with applicable Internal Revenue Code provisions and regulations and all other applicable policies and guidelines.

xiii. Fund-raising campaigns and solicitations of major gifts for the benefit of an institution by its affiliated foundation shall be developed cooperatively between the institution and its affiliated foundation. Before accepting contributions or grants for restricted or designated purposes that may require administration or direct expenditure by an institution, a foundation will obtain the prior approval of the institution chief executive officer or a designee.

xiv. Foundations shall obtain prior approval in writing from the institution chief executive officer or a designee if gifts, grants, or contracts include a financial or contractual obligation binding upon the institution.

xv. Foundations shall make clear to prospective donors that:

1) The foundation is a separate legal and tax entity organized for the purpose of encouraging voluntary, private gifts, trusts, and bequests for the benefit of the institution; and

2) Responsibility for the governance of the foundation, including investment of gifts and endowments, resides in the foundation’s governing board.

xvi. Institutions shall ensure that foundation-controlled resources are not used to acquire or develop real estate or to build facilities for the institution’s use without prior Board approval. The institution shall notify the Board, at the earliest possible date, of any proposed purchase of real estate for such purposes, and in such event should ensure that the foundation coordinates its efforts with those of the institution. Such notification to the Board may be
through the institution’s chief executive officer in executive session pursuant to Idaho Code 67-2345 (1) (c).

c. Foundation Operating Agreements

Each institution shall enter into a written operating agreement with each recognized foundation that is affiliated with the institution. Operating agreements must be signed by the chairman or president of the foundation’s governing board, and by the institution chief executive officer. The operating agreement must be approved by the Board prior to execution and must be re-submitted to the Board every three (3) years, or as otherwise requested by the Board, for review and re-approval. Foundation operating agreements shall establish the operating relationship between the parties, and shall, at a minimum, address the following topics:

i. Institution Resources and Services.

1) Whether, and how, an institution intends to provide contract administrative and/or support staff services to an affiliated foundation. When it is determined that best practices call for an institution employee to serve in a capacity that serves both the institution and an affiliated foundation, then the operating agreement must clearly define the authority and responsibilities of this position within the foundation. Notwithstanding, no employee of an institution who functions in a key administrative or policy making capacity (including, but not limited to, any institution vice-president or equivalent position) shall be permitted to have responsibility or authority for foundation policy making, financial oversight, spending authority, investment decisions, or the supervision of foundation employees. The responsibility of this position within the foundation that is performed by an institution employee in a key administrative or policy making capacity shall be limited to the coordination of institution and affiliated foundation fundraising efforts, and the provision of administrative support to foundation fundraising activities.

2) Whether, and how, an institution intends to provide other resources and services to an affiliated foundation, which are permitted to include:

a) Access to the institution’s financial systems to receive, disburse, and account for funds held (with respect to transactions processed through the institution’s financial system, the foundation shall comply with the institution’s financial and administrative policies and procedures manuals);
b) Accounting services, to include cash disbursements and receipts, accounts receivable and payable, bank reconciliation, reporting and analysis, auditing, payroll, and budgeting;

c) Investment, management, insurance, benefits administration, and similar services; and

d) Development services, encompassing research, information systems, donor records, communications, and special events.

3) Whether the foundation will be permitted to use any of the institution's facilities and/or equipment, and if so, the details of such arrangements.

4) Whether the institution intends to recover its costs incurred for personnel, use of facilities or equipment, or other services provided to the foundation. If so, then payments for such costs shall be made directly to the institution. No payments shall be made directly from a foundation to institution employees in connection with resources or services provided to a foundation pursuant to this policy.

1) Guidelines for receiving, depositing, disbursing and accounting for all funds, assets, or liabilities of a foundation, including any disbursements/transfers of funds to an institution from an affiliated foundation. Institution officials into whose department or program foundation funds are transferred shall be informed by the foundation of the restrictions, if any, on such funds and shall be responsible both to account for them in accordance with institution policies and procedures, and to notify the foundation on a timely basis regarding the use of such funds.

2) Procedures with respect to foundation expenditures and financial transactions, which must ensure that no person with signature authority shall be an institution employee in a key administrative or policy making capacity (including, but not limited to, an institution vice-president or equivalent position).

3) The liability insurance coverage the foundation will have in effect to cover its operations and the activities of its directors, officers, and employees.

4) Description of the investment policies to be utilized by the foundation, which shall be conducted in accordance with prudent, sound practice to ensure that gift assets are protected and enhanced, and that a reasonable return is achieved, with due regard for the fiduciary responsibilities of the
foundations's governing board. Moreover, such investments must be consistent with the terms of the gift instrument.

5) Procedures that will be utilized to ensure that institution and foundation funds are kept separate.

6) Detailed description of the organization structure of the foundation, which addresses conflict of interest in management of funds and any foundation data.

iii. Foundation Relationships with the Institutions

1) The institution's ability to access foundation books and records.

2) The process by which the institution chief executive officer, or designee, shall interact with the foundation’s board regarding the proposed annual operating budget and capital expenditure plan prior to approval by the foundation’s governing board.

3) Whether, and how, supplemental compensation from the foundation may be made to institutional employees. Any such payments must have prior Board approval, and shall be paid by the foundations to the institutions, which in turn will make payments to the employee in accordance with normal practice. Employees shall not receive any payments or other benefits directly from the foundations.

iv. Audits and Reporting Requirements.

1) The procedure foundations will utilize for ensuring that regular audits are conducted and reported to the Board. Unless provided for otherwise in the written operating agreement, such audits must be conducted by an independent certified public accountant, who is not a director or officer of the foundation. The independent audit shall be a full scope audit, performed in accordance with generally accepted auditing standards.

2) The procedure foundations will use for reporting to the institution chief executive officer the following items:

a) Regular financial audit report;

b) Annual report of transfers made to the institution, summarized by department;
c) Annual report of unrestricted funds received, and of unrestricted funds available for use in that fiscal year;

d) A list of foundation officers, directors, and employees;

e) A list of institution employees for whom the foundation made payments to the institution for supplemental compensation or any other approved purpose during the fiscal year, and the amount and nature of that payment;

vf) A list of all state and federal contracts and grants managed by the foundation; and

g) An annual report of the foundation’s major activities;

h) An annual report of each real estate purchase or material capital lease, investment, or financing arrangement entered into during the preceding foundation fiscal year for the benefit of the institution; and

i) An annual report of any actual litigation involving the foundation during its fiscal year, as well as legal counsel used by the foundation for any purpose during such year. This report should also discuss any potential or threatened litigation involving the foundation.

v. Conflict of Interest and Code of Ethics and Conduct.

A description of the foundation’s conflict of interest policy approved by the foundation’s governing board and applicable to all foundation directors, officers, and staff members, and which shall also include a code of ethics and conduct. Such policy must assure that transactions involving the foundation and the personal or business affairs of a trustee, director, officer, or staff member should be approved in advance by the foundation’s governing board. In addition, such policy must provide that directors, officers, and staff members of a foundation disqualify themselves from making, participating, or influencing a decision in which they have or would have a financial interest. Finally, such policy must assure that no director, trustee, officer, or staff member of a foundation shall accept from any source any material gift or gratuity in excess of fifty dollars ($50.00) that is offered, or reasonably appears to be offered, because of the position held with the foundation; nor should an offer of a prohibited gift or gratuity be extended by such an individual on a similar basis.

3. Foundations for Other Agencies
Other agencies under the Board's jurisdiction may establish foundations to accept gifts made for the benefit of the agencies' operating purposes. These agencies are subject to the same policies as the institutional foundations. However, agency foundations with annual revenues less than $100,000 are not required to obtain an independent audit. These agencies must instead submit an annual report to the Board of gifts received and the disposition of such gifts.

4. Idaho Educational Public Broadcasting System Foundations and Friends Groups

Foundations and Friends groups that exist for the benefit of the Idaho Educational Public Broadcasting System (IEPBS) are required by Federal Communications Commission (FCC) regulations to have specific spending authority designated by the Board. Audits of the IEPBS Foundation and Friends groups will be conducted by the State Legislative Auditor.

a. By action of the Board, the Idaho Educational Public Broadcasting System Foundation, Inc., has been designated to accept gifts made for the benefit of public television in the state of Idaho. The Foundation will conduct its activities in a manner consistent with the Federal Communications Commission (FCC) regulations and the FCC license held by the Board.

b. By action of the Board, the Friends of Channel 4, Inc., has been designated to accept gifts made for the Benefit of KAID TV, Channel 4. The Friends of Channel 4, Inc., will conduct its activities in a manner consistent with the Federal Communications Commission (FCC) regulations and the FCC license held by the Board.

c. By action of the Board, the Friends of Channel 10, Inc., has been designated to accept gifts made for the benefit of KISU TV, Channel 10. The Friends of Channel 10, Inc., will conduct its activities in a manner consistent with the Federal Communications Commission (FCC) regulations and the FCC license held by the Board.

d. By action of the Board, the Friends of KUID, Inc., has been designated to accept gifts made for the benefit of KUID TV, Channel 12. The Friends of Channel 12, Inc., will conduct its activities in a manner consistent with the Federal Communications Commission (FCC) regulations and the FCC license held by the Board.

5. Acceptance of Direct Gifts

Notwithstanding the Board’s desire to encourage the solicitation and acceptance of gifts through affiliated foundations, the Board may accept donations of gifts, legacies, and devises (hereinafter "gifts") of real and personal property on behalf of
the state of Idaho that are made directly to the Board or to an institution or agency under its governance. Gifts worth more than $250,000 must be reported to and approved by the executive director of the Board before such gift may be expended or otherwise used by the institution or agency. Gifts worth more than $500,000 must be approved by the Board. The chief executive officer of any institution or agency is authorized to receive, on behalf of the Board, gifts that do not require prior approval by the executive director or the Board and that are of a routine nature. This provision does not apply to transfers of gifts to an institution or agency from an affiliated foundation (such transfers shall be in accordance with the written operating agreement between the institution or agency and an affiliated foundation, as described more fully herein).

The Board wishes to encourage research and technology transfer and the corresponding economic development potential for the state of Idaho. The Board acknowledges that independent, affiliated foundations operating to support an institution’s research and technology transfer efforts can be useful tools to provide institutions with avenues for engagement with the private sector as well as with public and private entities interested in funding research, funding technology transfer and promoting spin-off enterprises arising from institutional intellectual property. Such affiliated foundations should operate substantially within the framework for philanthropic affiliated foundations set out in paragraph 1 and 2 of this policy, with such variances as are reasonable based on the nature of the anticipated function of the specific foundation.

a. The public college and universities may affiliate with non-profit entities which generally meet the criteria set forth in paragraph 2.b. of this policy and which operate for the purpose of supporting the research and technology transfer efforts of one or more of the institutions.

b. Research and Technology Transfer Foundation Operating Agreements. The requirement of a foundation operating agreement under paragraph 2.c. of this policy shall also apply to foundations supporting research and technology transfer. Institutions proposing to affiliate with a particular foundation may propose reasonable variances from specific requirements under paragraph 2.c. based upon the anticipated function of the foundation, provided that any such variances are specifically identified by the institution in materials presented to the Board when requesting approval of the foundation.
SUBJECT
Board policy V.T. – Fee Waivers – second reading

REFERENCE
June 2014 Idaho State Board of Education (Board) approved first reading of Policy V.T.

APPLICABLE STATUTES, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Sections V.T. and V.R.
Idaho Code § 33-3717C

BACKGROUND / DISCUSSION
Staff and the institutions have developed a report showing all fee waivers and discounts which lists the Board policy section associated with each waiver or discount listed. As noted in the report, however, some of the “waivers” do not have specific Board authority. Idaho Code only authorizes the Board to grant a full or partial waiver of tuition or fees for nonresident students. Three of the “waivers” listed in the report are for the benefit of resident students and therefore are not allowed under law.

The proposed amendment to Board policy allows for institutions to request Board approval to enter into contracts or agreements to offer courses at a discounted special fee rate.

IMPACT
For FY 2013, the cumulative dollar value of all waivers and discounts for all four institutions was over $58 million. The dollar value of the three “waivers” in question was $208,925. The immediate fiscal impact of the policy amendment is neutral because the amendment clarifies and codifies current practice with respect to the three fee discounts.

Attachment 1 – Board policy V.T. – second reading Page 3

STAFF COMMENTS AND RECOMMENDATIONS
There were no changes between first and second reading. Staff recommends approval.

BOARD ACTION
I move to approve the second reading of proposed amendments to Board Policy V.T. Fee Waivers, as presented in Attachment 1.

Moved by____________ Seconded by____________ Carried Yes____ No___
1. Purpose and Authority for Fee/Tuition Waivers

   a. Definition

       A fee/tuition waiver shall mean a reduction of some or all of the approved fees/tuition specified in Section V, Subsection R, attributable to a particular student as the cost for attending an Idaho institution of higher education.

   b. Purpose

       The purpose in authorizing fee/tuition waivers includes but is not limited to the achievement of the following strategic objectives:

       i. The enhancement of education opportunities for Idaho residents;
       ii. To promote mutually beneficial cooperation and development of Idaho communities and nearby communities in neighboring states;
       iii. To contribute to the quality of educational programs; and
       iv. To assist in maintaining the cost effectiveness of auxiliary operations in Idaho institutions of higher education.

   c. Authority

       An institution shall not waive any of the applicable fees/tuition specified in Section V, Subsection R., unless specifically authorized in this subsection. Special fees are not defined as a fee waiver. Employee/Spouse/Dependent, Senior Citizen, In-Service Teacher Education, and Workforce Training Credit fees as authorized pursuant to Board policy V.R. do not constitute waivers.

2. Waiver of Nonresident Fees/Tuition

   Nonresident fees/tuition may be waived for the following categories:

   a. Graduate/Instructional Assistants

       Waivers are authorized for students employed as graduate assistants appointed pursuant to Section III, Subsection P.11.c.

   b. Students Participating in Intercollegiate Athletics

       For the purpose of improving competitiveness in intercollegiate athletics, the universities are authorized up to two hundred twenty-five (225) waivers per semester and, Lewis-Clark State College is authorized up to one hundred ten (110) waivers per semester. The institutions are authorized to grant additional waivers, not to exceed ten percent (10%) of the above waivers, to be used exclusively for post-eligibility students.
c. Waivers to Meet Other Strategic Objectives

The chief executive officer of each institution is authorized to waive nonresident fees/tuition for students, not to exceed the equivalent of six percent (6%) of the institution's total full-time equivalent enrollment. The criteria to be followed in granting such nonresident waivers shall be as follows:

i. A waiver may be granted to place a nonresident student in an institutional program only when there is sufficient capacity in the program to meet the needs of Idaho resident students; and

ii. A waiver may be granted only when its use is fiscally responsible to place a nonresident student in an institutional program in order to meet a strategic state and/or institutional need, as identified by the chief executive officer of the institution.

d. National Student Exchange Program - Domestic

Waivers are authorized for nonresident students participating in this program.

e. Western Interstate Commission for Higher Education

Waivers are authorized for nonresident students participating in the Western Interstate Commission for Higher Education Professional Student Exchange Program and the Graduate Student Exchange Program. An institution may include a participating nonresident student in its enrollment workload adjustment calculation, provided the figure does not exceed the maximum approved for an institution by the Board.

f. Institution Agreements

An institution may request Board approval of agreements with other entities resulting in special fees if it is shown to meet a strategic or workforce need (e.g. reaching an underserved or isolated population) or to help facilitate collaboration between the public institutions as it relates to enrollment and course/degree completion. The discounted dollar value of these special fees shall be reported to the Board, for inclusion in the annual discounts and waivers report, in a format and time to be determined by the Executive Director.

SUBJECT
Board policy V.X. – Intercollegiate Athletics – second reading

REFERENCE
April 2014 The Idaho State Board of Education (Board) approved
FY 2015 Athletics Limits
June 2014 Board approved first reading of Policy V.X.

APPLICABLE STATUTES, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.X.

BACKGROUND / DISCUSSION
At its April meeting, the Board determined it would no longer need to approve the
athletics limits but instead let the formulas set out in policy calculate the annual
change to the limits. The proposed changes remove the requirement that
athletics limits be approved by the Board.

IMPACT
The Board would review but no longer approve the annual athletics limits. The
Board would still be able to increase the limits at its discretion.

ATTACHMENTS
Attachment 1 – Board policy V.X. – Second reading Page 3

STAFF COMMENTS AND RECOMMENDATIONS
There were no changes between first and second reading. Staff recommends
approval.

BOARD ACTION
I move to approve the second reading of proposed amendments to Board policy
V.X. Intercollegiate Athletics, as presented in Attachment 1.

Moved by____________ Seconded by____________ Carried Yes____ No____
1. Philosophy

The Board reaffirms the role of intercollegiate athletics as a legitimate and significant component of institutional activity. The responsibility for and control of institutional activities in this area rest with the Board.

In the area of intercollegiate athletics, the Board seeks to establish programs which:

a. provide opportunities for student athletes to attend college and participate in athletic programs while pursuing and completing academic degrees;

b. reflect accurately the priorities and academic character of its institutions;

c. fuel school spirit and community involvement;

d. serve the needs of the institutions as they seek, through their athletic programs, to establish fruitful and sustaining relationships with their constituencies throughout the state and nation; and

e. actively and strategically progress toward compliance with Title IX of the Higher Education Amendments Act of 1972.

Given these goals, the Board has a continuing concern and interest in the academic success of student athletes, the scope and level of competition, and the cost of athletic programs administered by its institutions. Consequently, the Board will, from time to time in the context of this policy statement, promulgate, as necessary, policies governing the conduct of athletic programs at its institutions.

2. Policies

The day-to-day conduct of athletic programs is vested in the institutions and in their chief executive officers. Decision making at the institutional level must be consistent with the policies established by the Board and by those national organizations and conferences with which the institutions are associated. In the event that conflicts arise among the policies of these governance groups, it is the responsibility of the institution’s chief executive officer to notify the Board in a timely manner. Likewise, any knowledge of NCAA or conference rule infractions involving an institution should be communicated by the athletic department to the chief executive officer of the institution.

The Board recognizes that the financing of intercollegiate athletics, while controlled at the institutional level, is ultimately the responsibility of the Board itself. In assuming that responsibility, the sources of funds for intercollegiate athletics shall be defined in the following categories:

a. State General Funds – means state General Funds (as defined in section 67-1205, Idaho Code) appropriated to the institutions.
b. Student Athletic Fee Revenue – means revenue generated from the full-time and part-time student activity fee that is dedicated to the intercollegiate athletics program pursuant to policy V.R.3.b.ii.

c. Program Funds – means revenue generated directly related to the athletic programs, including but not limited to ticket sales/event revenue, tournament/bowl/conference receipts, media/broadcast receipts, concessions/parking/advertisement, game guarantees and foundation/booster donations.

d. Institutional Funds – means any funds generated by the institution outside the funds listed in a., b. and c. above. Institutional Funds do not include tuition and fee revenue collected under policy V.R.3. Examples of Institutional Funds include, but are not limited to, auxiliaries, investment income, interest income, vending, indirect cost recovery funds on federal grants and contracts, and administrative overhead charged to revenue-generating accounts across campus.

3. Funds allocated and used by athletics from the above sources are limited as follows:

a. State General Funds –

   i. The limit for State General Funds shall be allocated in two categories: General Funds used for athletics and General Funds used to comply with Title IX.

   ii. The Board set the following FY 2013 General Fund limits:

   1) General Funds for Athletics:
      a) Universities $2,424,400
      b) Lewis-Clark State College $901,300

   2) General Funds for Gender Equity:
      a) Boise State University $1,069,372
      b) Idaho State University $707,700
      c) University of Idaho $926,660
      d) Lewis-Clark State College $0

   iii. The methodology for computing the limits for both categories of State General Funds shall be to calculate the rate of change for the next fiscal year ongoing State General Funds compared to the ongoing State General Funds in the current fiscal year, and then apply the rate of change to both limits approved by the Board in the previous year. Such limits shall be approved annually by the Board.
b. Institutional funds –
   i. The Board set the following FY 2013 limits:

   1) Boise State University    $ 386,100
   2) Idaho State University    $ 540,400
   3) University of Idaho       $ 772,100
   4) Lewis-Clark State College $ 154,300

   ii. The methodology for computing the limits for Institutional Funds shall be to calculate the rate of change for the next fiscal year ongoing Appropriated Funds compared to the ongoing Appropriated Funds in the current fiscal year, and then apply the rate of change to the limit approved by the Board in the previous year. **Such limits shall be approved annually by the Board.** For purposes of this paragraph, “Appropriated Funds” means all funds appropriated by the Legislature to the institutions, including but not limited to, State General Funds, endowment funds, and appropriated tuition and fees.

c. Student Activity Fee Revenue – shall not exceed revenue generated from student activity fee dedicated for the athletic program. Institutions may increase the student fee for the athletic program at a rate not more than the rate of change of the total student activity fees.

d. Program funds – the institutions can use the program funds generated, without restriction.

   The president of each institution is accountable for balancing the budget of the athletic department on an annual basis. In accounting for the athletic programs, a fund balance for the total athletic program must be maintained. In the event that revenue within a fiscal year exceeds expenses, the surplus would increase the fund balance and would be available for future fiscal years. In the event that expenses within a fiscal year exceed revenue, the deficit would reduce the fund balance. If the fund balance becomes negative, the institutions shall submit a plan for Board approval that eliminates the deficit within two fiscal years. Reduction in program expenditures and/or increase revenue (program funds only) can be used in an institutional plan to eliminate a negative fund balance. If substantial changes in the budget occur during the year resulting in a deficit for that year, the president shall advise the Board of the situation at the earliest opportunity.

   Donations to athletics at an institution must be made and reported according to policy V.E. The amount of booster money donated to and used by the athletic department shall be budgeted in the athletic department budget.

   It is the intent of the Board that increases in program revenues should be maximized before increases to the athletic limits under subsection 3 will be considered.
4. Gender Equity

a. Gender equity means compliance with Title IX of the Higher Education Amendments Act of 1972 which prohibits discrimination on the basis of gender in any education program or activity receiving federal financial assistance, including athletics. Congress delegated authority to promulgate regulations (34 C.F.R. §106.41) for determining whether an athletics program complies with Title IX. The U.S. Department of Education, through its Office of Civil Rights (OCR) is responsible for enforcing Title IX.

b. Title IX measures gender equity in athletics in three distinct areas: participation, scholarships, and equivalence in other athletics benefits and opportunities.

c. The chief executive officer of each institution shall prepare a gender equity report for review and formal approval by the Board in a format and time to be determined by the Executive Director. The gender equity report will show the status of an institution’s compliance with Title IX. The gender equity report will show the changes to the athletics programs necessary to comply with Title IX over time.

The Board requires that the institutions adopt certain reporting requirements and common accounting practices in the area of intercollegiate athletic financing. The athletic reports shall contain revenues, and expenditures, in the detail prescribed by the Board office, including all revenue earned during a fiscal year. A secondary breakdown of expenditures by sport and the number of participants will also be required. The fund balances as of June 30 shall be included in the report. The general format of the report will be consistent with the format established by the Executive Director. The revenue and expenditures reported on these reports must reconcile to the NCAA Agreed Upon Procedures Reports that are prepared annually and reviewed by the external auditors. The institutions will submit the following reports to the Board:

a. The institutions shall submit an operating budget for the upcoming fiscal year beginning July 1 in a format and time to be determined by the Executive Director.
   i. Actual revenues and expenditures for the fiscal year most recently completed.
   ii. Estimated revenues and expenditures for the current fiscal year.
   iii. Proposed operating budget for the next budget year beginning July 1.

b. The following fiscal year’s financial information will be reported by each institution in a format and time to be determined by the Executive Director:
   i. Actual revenues and expenditures for the prior four (4) fiscal years
   ii. Estimated revenues and expenditures for the current fiscal year.
SUBJECT
University of Idaho, Boise State University, Idaho State University (Institution's) Intellectual Property Policies

REFERENCE
October 2010  Board approved First Reading of Board Policy V.M. Intellectual Property
December 2010 Board approved Second Reading of Board Policy V.M. Intellectual Property
June 2012  Board considered institution specific IP policies and requested additional amendments to Board Policy V.M. Intellectual Property
April 2013  Board approved First Reading of Board Policy V.M. Intellectual Property
June 2013  Board approved Second Reading of Board Policy V.M. Intellectual Property
February 2014  Board considered the institutions Intellectual Property Policies and requested the institutions do additional work with staff and a subcommittee of the Board prior to bring the policies back for further consideration

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.M.

BACKGROUND/DISCUSSION
The Board’s intellectual property (IP) policy together with the institutions’ own IP and technology transfer policies establishes the legal basis for the institutions to claim, disclaim, transfer, or convey intellectual property.

The Board’s IP policy was amended in 2010 to address concerns by industry that the previous Board policy was vague regarding the Board’s versus an institution’s claim of ownership, and an institution’s authority in transferring, conveying, or disclaiming those ownership rights. Board policy V.M. requires the institutions IP policies cover specific areas and be approved by the Board. In June of 2012 the institutions presented their policies to the Board. During this meeting the Board discussed additional feedback received from business and industry indicating that there were still barriers to working with the institutions. At this time the Board postponed the approval of the institutions’ IP policies and requested the Instruction, Research, and Student Affairs (IRSA) committee do additional work on the Board’s policy regarding this mater. At the June 2013 Board meeting the Board approved additional amendments to Board Policy V.M. including the incorporation of the technology transfer guidelines.

At the February 2014 regular Board meeting the institutions brought forth their updated policies for Board approval. At this time it was felt that the policies could
use additional work to bring them into closer compliance with Board policy V.M. A subcommittee of the Board, consisting of Board Members Lewis and Goesling formed to work with the institutions to provide further guidance on changes the Board would like to see in the institution policies. The institutions have worked closely with Board staff and have received feedback from the Board subcommittee on amendments to their policies. The institutions have incorporated the feedback into their policies and are bringing them forward for Board consideration.

IMPACT
Approval of the submitted policies will bring the institutions into compliance with Board Policy V.M. Intellectual Property.

STAFF COMMENTS AND RECOMMENDATIONS
Board Policy V.M. requires the institutions to establish policies setting out technology transfer administration, including evaluating, financing, assignment, marketing, protection, and the division and use of royalties. Institutional policies must provide for institutional ownership in circumstances including, but not limited to, the following:

1. In cases of specific contracts providing for institutional ownership,
2. In cases where the constituent institution or sponsor may employ personnel for the purpose of producing a specific work,
3. Where institutional ownership is deemed necessary in order to reflect the contribution of the institution to the work, or
4. Where a sponsored agreement requires institutional ownership.

Further, each institution’s technology transfer policy must at a minimum include:

1. The name of the institutional position (or office) with the authority and responsibility for carrying out the policy and binding the institution contractually.
2. Policy and plans for patent acquisition (i.e. who initiates, who pays the lawyers, and an enumeration of the duties, responsibilities, and a process for settling disputes).
3. The range of allowable institutional involvement in the transfer process (i.e. from licensing to acceptance of institutional ownership interests, continued development in institutional facilities for the benefit of the licensee, and business planning or production assistance).

4. The requirement that institution employees and other persons subject to this Board policy make an assignment of rights to the institution (including future rights) in intellectual property to which the Board claims ownership by its policy and/or the institution claims ownership by its institutional policy and in any related applications for legal protection of such intellectual property.

Board staff have worked closely with the institutions and have found the policies to be in compliance with Board policy V.M. Intellectual Property. Staff recommends approval.

BOARD ACTION
I move to approve the intellectual property policies of the University of Idaho, Boise State University and Idaho State University as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No ______
Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES
SECTION: V. FINANCIAL AFFAIRS
Subsection: M. Intellectual Property  
June 2013

1. Objectives and Purposes

The State Board of Education, on behalf of the State of Idaho, and the Board of Regents, on behalf of the University of Idaho, (hereinafter collectively referred to as the “Board”) recognizes intellectual property, including patentable inventions and copyrightable works, may be the natural outgrowth of the educational, research, and outreach missions of Idaho’s postsecondary education institutions. The Board is dedicated to promoting the beneficial use of such intellectual property for Idaho and the nation. This intellectual property policy seeks to balance the institutional obligation to preserve open access and inquiry with the concomitant obligation to foster and advance the dissemination and use of institutional intellectual property for the public benefit, which may occur through development of protectable discoveries and inventions through rigorous scientific investigation and research, and the development, acquisition, and licensing of patents and other intellectual property for the economic growth and development of Idaho and the nation.

In furtherance of this objective, institutions when assigning, transferring, selling or licensing inventions, or patents or other intellectual property owned by the institutions, shall do so:

a. to entities that make, market and sell products or services or that contractually agree to do so in connection with the licensed or transferred intellectual property;

b. where the primary purpose of such assignment, transfer, sale or license directly aids and promotes the further development and commercialization of licensed products or services by such entity, and is not intended primarily for the purpose of further licensing or sublicensing such invention or patent to third parties for monetary gain only;

c. where necessary for the institution to perform or have performed sponsored research or other institutional activities, including compliance with applicable requirements of law or contract associated with such research or other activity; or

d. where the transferee is a non-profit entity engaged in research and education and the assignment, transfer, sale or license promotes further research and education for the public good and does not unduly impact use of the intellectual property to contribute to economic growth and development.

Any such transfer of institution intellectual property shall be made in accordance with the Idaho Institution Technology Licensing Guidelines, adopted by the Board June 2013.

2. Intellectual Property
a. Definition. Intellectual property includes, but is not limited to, any invention, discovery, creation, know-how, trade secret, technology, scientific or technological development, plant variety, research data, mark, design, mask work, work of authorship, and computer software regardless of whether subject to protection under patent, trademark, copyright or other laws.

b. Claim of ownership interest. The Board, on behalf of the State of Idaho, through and by Idaho’s postsecondary educational institutions under the governance of the Board (hereinafter referred to as “institutions”) claims ownership of any intellectual property developed under any of the following circumstances:

i. Arising from any work performed by an employee of any institution during the course of their duties to the institution;

ii. Arising from any use by an employee of an institution or other person use of Board or institution resources not openly available to members of the general public including, but not limited to, laboratories, studios, equipment, production facilities, office space, personnel, or specialized computing resources; or

iii. Arising from any work performed by an employee of an institution under contract in a program or project sponsored by an institution or between institutions or a closely related research foundation.

c. Disclaimer of ownership interest. The Board claims no ownership interest in any intellectual property developed by the employee(s) or other person(s), including but not limited to contractor(s) of an institution under the following circumstances:

i. When the work is performed outside the assigned duties of the employee/other person; and

ii. When the employee/other person is without benefit of Board or institution facilities except libraries.

d. Policy review. Institutional policies setting out technology transfer administration, including evaluating, financing, assignment, marketing, protection, and the division and use of royalties, as well as amendments thereto, must be submitted to the Board for its review and approval.

e. Condition of employment. Institution employees and contractors, as a condition of employment or contract, shall adhere to this policy and the Board approved institutional policy on intellectual property and shall assign to the institution all right, title, and interest in intellectual property to which the Board claims ownership under this policy or the institution claims ownership under its
institutions policy and shall assign any related applications for legal protection of such intellectual property.

3. Copyrights

a. Notwithstanding Section 2.c. of this Policy, when institution employees/other persons are specially ordered or commissioned to produce specific work, the institution reserves the right to seek and obtain registration of copyright for such works in the name of the State of Idaho or the institution or to use such work without securing a copyright registration.

b. Except as noted in Section 3.a. above, neither the Board nor any institution is required to claim an ownership interest in works submitted for publication, performance or display by institution employees/other persons. Instead, institutions subject to this policy may elect, by contract or institutional policy, to claim an interest in copyrightable material produced, in whole or part, by their employees or other persons subject to this policy. Institutional policy shall provide for institutional ownership in circumstances including, but not limited to, the following:

i. In cases of specific contracts providing for institutional ownership,

ii. In cases where the constituent institution or sponsor may employ personnel for the purpose of producing a specific work,

iii. Where institutional ownership is deemed necessary in order to reflect the contribution of the institution to the work, or

iv. Where a sponsored agreement requires institutional ownership.

4. Intellectual Property Transfer

a. The Board delegates to the institutions the right to transfer, convey, license, or disclaim, in accordance with the Institution Technology Licensing Guidelines, rights in intellectual properties developed within each respective institution. This policy allows the institutions to effect knowledge transfer and foster economic growth and development. Under this policy, each respective institution may:

i. Grant any or all intellectual property rights to affiliated research foundations for further development or transfer.

ii. Sell, assign, transfer, or exclusively or non-exclusively license intellectual property rights owned by the institution to for-profit, non-profit, and/or governmental entities that make, market and sell products or services or that contractually agree to do so in connection with the transferred or licensed intellectual property, or where the primary purpose of such assignment,
transfer, sale or license directly aids and promotes the further development of the intellectual property or commercialization of products or services or the underlying intellectual property by such entity. However, such assignment, transfer, sale or license to third parties must not be for monetary gain only.

iii. Sell assign, transfer, or exclusively or non-exclusively license to institution employees or other persons subject to this policy.

iv. Collect and disburse license payments in accordance with institutional policy to inventors and their departments and colleges, as well as to their institutions.

v. Permit institutional employees the right to participate in ownership and governance of for-profit, non-profit, and/or governmental entities that licensed institutional intellectual property to produce and market products and technology based on or derived from the license of the intellectual property, subject to the conflict of interest policies set forth in Idaho State Board of Education Governing Policies and Procedures, Section I.G. and II.Q.

b. Each institution shall develop an institutional policy on technology transfer. At a minimum, an institution’s policy shall include:

i. The name of the institutional position (or office) with the authority and responsibility for carrying out the policy and binding the institution contractually.

ii. Policy and plans for patent acquisition (i.e., who initiates, who pays the lawyers, and an enumeration of the duties, responsibilities, and a process for settling debates).

iii. The range of allowable institutional involvement in the transfer process (i.e., from licensing to acceptance of institutional ownership interests, continued development in institutional facilities for the benefit of the licensee, business planning or production assistance).

iv. The requirement that institution employees and other persons subject to this Board policy make a present assignment to the institution of rights, including future rights, in intellectual property to which the Board claims ownership by this policy and/or the institution claims ownership by its institutional policy and in any related applications for legal protection of such intellectual property.

c. At the request of the Board the appropriate officer of each institution shall report on technology transfer activities that have occurred at the institution and the general effectiveness of the institution in deploying technology. Institutions should report performance data through the annual Association of University Technology Licensing survey. The report shall also indicate whether any
employees of the institution or its respective research foundation have a financial interest in the entity to which the intellectual property rights were conveyed. Terms of any license or technology transfer contract will be made available in confidence upon request for inspection by the Board.
Idaho State Board of Education  
Institution Technology Licensing Guidelines  
Adopted June 2013

The Idaho State Board of Education (Board) recognizes that institutions must share intellectual property with the public for the betterment of society. To provide a set of operating guidelines for such technology transfer, the Board has adopted these guidelines, derived from the “Nine Points” publication produced by the Association of Institution Technology Managers (AUTM) and the “University Licensing Guidelines” adopted by the Regents of the University of California.

The College and Universities under the Board’s governance (hereinafter collectively “institutions” or “institution”) share certain core values that can and should be maintained to the fullest extent possible in all technology transfer agreements. The purpose of licensing institution intellectual property (IP) rights and materials is to: encourage the practical application of the results of institution research by industry for the broad public benefit; meet our obligations to sponsors of institution research; build research relationships with industry partners to enhance the research and educational experience of researchers and students; stimulate commercial uptake and investment; stimulate economic development; and ensure an appropriate return of taxpayer investments in institution research. Financial returns from technology licensing provide additional support for research and education, an incentive for faculty retention, and support of the institution technology transfer program. Institutions are charged to pursue these objectives in licensing institution IP. In carrying out these objectives, institutions are called upon to make complex licensing decisions based upon a multiplicity of facts and circumstances and by applying their professional experience, in consideration of the following guidelines. It is incumbent of the institutions to analyze each licensing opportunity individually in a manner that reflects the business needs and values of their institution, but at the same time, to the extent appropriate, also to bear in mind the concepts articulated herein when crafting agreements with industry. Multiple factors must be considered in each transaction, such as: the nature and stage of development of the technology; the breadth and complexity of the potential fields of use; the product development path and timeline; the extent of intellectual property protection; the relevant markets and market niches; specific campus practices; unique needs of prospective licensees; ethical considerations for the use of future products; and emerging issues, among other elements. All factors require careful consideration in developing a relationship with a prospective licensee, and the institution needs flexibility to address each of these issues. Further, the result of any one licensing decision may or may not be appropriate to another similar situation, as changes in knowledge and individual factors should be taken into consideration for each case-specific circumstance.

In all cases, the institution reserves the right, to the fullest extent permitted by Board policy and law, to exercise its discretion over decisions regarding its choice of licensee, the extent of rights licensed, and/or a refusal to license to any party.
GUIDELINES

1. The primary objective in developing a patenting and licensing strategy for an invention should be to support the education, research, and public benefit mission of the institution.

The institution recognizes the need for and desirability of broad utilization of the results of institution research, not only by scholars but also for the general public benefit, and acknowledges the importance of the patent system in providing incentives to create practical applications that achieve this latter goal.

In addition, with respect to federally-funded inventions (which comprise a large portion of the institution's invention portfolio), the Bayh-Dole Act (35 U.S.C. 200-212) requires the institution's use of the patent system to promote the utilization of inventions arising from federally supported research, to encourage maximum participation of small business firms, to promote collaboration between commercial concerns, nonprofits and universities and to promote free enterprise without unduly encumbering future research and discovery. As such, the institution is responsible for crafting a technology management strategy that supports the education, research, and public service mission of the institution. This requires establishing a balance of priorities between the timely transfer of technology to industry for commercialization while preserving open access to research results for use by the institution and the research community.

A primary licensing decision is whether to license exclusively or non-exclusively. The institution should consider licensing either non-exclusively, or exclusively within specific fields-of-use when an invention is broad in scope and can be used in multiple industries as well as for a platform technology that could form the basis of new industries. In general, institutions should consider granting exclusive licenses to inventions that require significant investment to reach the market or are so embryonic that exclusivity is necessary to induce the investment needed to develop and commercialize the invention or when the technology requires a company willing to dedicate financial resources and the additional research to realize the commercial potential. Finally, as noted below, exclusive licensing must have performance milestones connected to the continuation of such exclusivity.

Alternatively, an exclusive "field-of-use" license is a way to create market incentives for one company while enabling the institution to identify additional licensees to commercialize the invention in additional markets. In some cases, a limited-term exclusive license that converts to a non-exclusive license can be an effective strategy to meet the public benefit objective. Further, special consideration should be given to the impact of an exclusive license on uses of a technology that may not be appreciated at the time of initial licensing. A license grant that encompasses all fields of use for the life of the licensed patent(s) may have negative consequences if the subject technology is found to have unanticipated utility. This possibility is particularly troublesome if the licensee is not able or willing to develop the technology in fields outside of its core business. Institutions are encouraged to use approaches that balance a licensee’s legitimate commercial needs against the university’s goal (based on its educational mission
and the public interest) of ensuring broad practical application of the fruits of its research programs.

Finally, the licensing strategy should ensure prompt broad access to unique research resources developed by the institution. To preserve the ability of the institutions to perform research, ensuring that researchers are able to publish the results of their research in dissertations and peer-reviewed journals and that other scholars are able to verify published results without concern for patents, the institution should consider reserving rights in all fields of use, even if the invention is licensed exclusively to a commercial entity, for themselves and other non-profit and governmental organizations. This is designed to practice inventions and to use associated information and data for research and educational purposes, including research sponsored by commercial entities and to transfer research materials and results to others in the non-profit and governmental sectors. Clear articulation of the scope of reserved rights is critical.

2. **Institution must meet existing third party obligations**

Research projects increasingly involve a multiplicity of third party agreements and relationships. For some inventions, the institution will have existing licensing obligations to a company or other research partner based upon contractual commitments made under sponsored research, material transfer, database access, inter-institutional, or other third-party IP agreements. Institutions shall seek to identify all licensing obligations to third parties so that such obligations can be met. While the inventor(s) should be required to identify these obligations at the time of disclosure to the institution, the institution is encouraged to verify the completeness or accuracy of the inventor(s) obligations.

Direct discussions with the inventor(s) and/or review of system-wide and local contract and grant databases may help determine whether the appropriate agreements are identified. Careful review of these agreements is critical to understanding the nuances of any third party obligations. Copies of any relevant agreements should be retained in the licensing file for future reference and to document the basis for decisions affecting the status of such third party obligations.

In addition, the institution should evaluate any other factors that may affect the institution's right to license the invention. The institution should investigate whether an inventor's disclosed invention entails a possible claim to prior ownership rights by a third party based upon the inventor's previous or current outside activities, for example, consulting arrangements, visiting scientist agreements, inventor start-up companies, and other contract obligations, particularly in light of court decisions (e.g. Stanford v. Roche, Fed Cir., 2009).

3. **The selected licensee should be capable of bringing the invention to the marketplace and the license should be structured in a manner that encourages technology development and use.**

The institution should seek licensees capable of bringing the invention to the marketplace in a timely manner. While often only one potential licensee comes forward for any given institution invention, the institution should nevertheless assess the potential licensee's technical, managerial and financial capability to commercialize the technology. From a programmatic perspective, licensing preference
should be given to small business concerns, when appropriate, pursuant to federal law and regulations, provided such small businesses appear capable of bringing the technology to the marketplace.

Institutions should use care when licensing multiple technologies, invention portfolios, or a single technology with multiple variant applications to a single commercial organization to ensure that the licensing strategy meets the institution's desire to maximize public benefit.

In selecting a licensee, the institution, should consider whether the potential licensee:

- has a general business plan that delineates a clear strategy to commercialize the invention
- has or can secure the technical, financial and personnel resources to develop and commercialize the invention in a timely manner
- has experience relevant to developing and commercializing the invention
- has appropriate marketing capabilities
- possesses a strong desire and commitment to make the product/technology a success
- is able to meet any regulatory requirements needed to commercialize the technology
- has, or can develop sufficient capacity to satisfy the market demand for the technology
- demonstrates commitment to the institution’s invention in light of other technologies competing for resources in the company
- has goals that generally align with those of the institution with respect to public benefit

The institution should obtain and retain documents that address the licensee’s ability to bring the technology to the market. In the case of a start-up company, not all factors necessary to commercialize the technology may be present at the outset. The institution should consider whether the start-up has an appropriate level of resources and technical capabilities, given the development stage of the company and the nature of the invention, as well as whether the start-up has the potential to acquire the necessary resources to successfully develop and market the technology in a timely manner.

Institutions also need to be mindful of the impact of granting overly broad exclusive rights and should strive to grant just those rights necessary to encourage development of the technology. Performance milestones are a necessary part of any license, and are even more import in exclusive licenses.

In situations where an exclusive license is warranted, it is important that licensees commit to diligently develop the technology to protect against a licensee that is unable or unwilling to move an innovation forward. In long-term exclusive licenses, diligent development should be well-defined and regularly monitored during the exclusive term of the agreement and should promote the development and broad dissemination of the licensed technology. Ideally, objective, time-limited performance milestones are set, with termination or non-exclusivity (subject to limited, but reasonable, cure provisions) as the penalty for breach of the diligence obligation.

Another means of ensuring diligent development, often used in conjunction with milestones, is to require exclusive licensees to grant sublicenses to third parties to address unmet market or public
health needs (“mandatory sublicensing”) and/or to diligently commercialize new applications of the licensed rights. Such a requirement could also be implemented through a reserved right of the licensor to grant direct licenses within the scope of the exclusive grant to third parties based on unmet need. In such situations, it is important to ensure that the parties have a common understanding of what constitutes a new application or unmet need for the purpose of implementing such a provision.

3.A. Future Improvements

Although licensees often seek guaranteed access to future improvements on licensed inventions, the obligation of such future inventions may effectively enslave a faculty member’s research program to the company, thereby exerting a chilling effect on their ability to receive corporate and other research funding and to engage in productive collaborations with scientists employed by companies other than the licensee – perhaps even to collaborate with other academic scientists. In particular, if such future rights reach to inventions made elsewhere in the university, researchers who did not benefit from the licensing of the original invention may have their opportunities restricted as well, and may be disadvantaged economically relative to the original inventors if the licensing office has pre-committed their inventions to a licensee.

For these reasons, exclusive licensees should not automatically receive rights to “improvement” or “follow-on” inventions. Instead, as a matter of course, licensed rights should be limited to existing patent applications and patents, and only to those claims in any continuing patent applications that are (i) fully supported by information in an identified, existing patent application or patent and (ii) entitled to the priority date of that application or patent.

In the rare case where a licensee is granted rights to improvement patents, it is critical to limit the scope of the grant so that it does not impact uninvolved researchers and does not extend indefinitely into the future. It is important to further restrict the grant of improvements to inventions that are owned and controlled by the licensor institution - i.e., (i) not made by the inventor at another institution, should they move on or (ii) co-owned with, or controlled by, another party. One refinement to this strategy would be to limit the license to inventions that are dominated by the original licensed patents, as these could not be meaningfully licensed to a third party, at least within the first licensee’s exclusive field. As was discussed earlier, appropriate field restrictions enable the licensing not only of the background technology, but also of improvements, to third parties for use outside the initial licensee’s core business. In all cases, a license to improvements should be subject to appropriate diligent development requirements.

It should be recognized, however, that not all “improvements” have commercial potential (for example, they may not confer sufficient additional benefit over the existing technology to merit the expense of the development of new or modified products), in which case a licensee might not wish to develop them. In general, it may be best simply not to patent such improvements.

4. The license agreement should include diligence terms that support the timely development, marketing, and deployment of the invention.
The institution should include diligence provisions in a license agreement to ensure that the licensee develops and commercializes the invention in a timely manner, especially when an invention is exclusively licensed. The institution’s commitment to public benefit is not met by allowing an invention to languish due to a licensee’s lack of commitment, “shelving” the technology to protect its competing product lines, or inadequate technical or financial resources. Appropriate diligence provisions are invention-specific and will vary depending on the circumstances. Common diligence obligations that an institution should consider include:

- the amount of capital to be raised (for a start-up) or the amount of funding committed (for an existing business) by the company to support the technology’s development.
- specific dates by which the licensee must achieve defined milestones, such as: secure levels of regulatory approval; make a working prototype; initiate beta testing of a licensed product; receive formal market/customer feedback; achieve specific prototype performance thresholds (such as efficiency or size); establish a production facility; first sell the commercial product; or achieve a certain level of sales.

To ensure that the institution continues to manage its technologies as assets for the public’s benefit, clearly defined diligence provisions allow verification of the licensee’s compliance with its diligence obligations. Therefore, the licensing agreement language should be sufficiently specific so that both parties can determine whether the diligence obligations have been met. Further, the license should provide a remedy for failure to meet diligence obligations, such as termination of the license or, in the case of an exclusive license, a reduction to a non-exclusive license.

5. *The license agreement should be approved as to legal integrity and consistency.*

In order to ensure that the institution has the right to enter into licensing discussion, the institution should ensure that the inventors have signed an agreement that acknowledges the institutions patent policy, and institution claim of ownership of inventions under the Policy, and/or an actual Assignment Agreement that confirms the institution's ownership in the invention and that includes a present assignment of invention rights.

In determining the rights that can be granted in a license agreement, the institution should ask the inventors about past and present sponsors of their research, material providers, and independent consulting and other agreements (e.g., visitor, confidentiality, etc.) they have signed that could be related to the invention to determine if conflicting obligations exist between such agreements and the proposed license.

The institution shall ensure that the provisions of the license agreement are reviewed and approved by the institution Office of General Counsel, and comply with institution policies with regard to legal integrity and consistency, including the following concerns:

5.A. *Use of Name:*

The institution shall ensure that the license agreement prohibits the use of the institution's name, or the names of its employees, to promote the licensee or its products made under the
license agreement, unless specifically approved by authorized institution personnel. The license may provide limited use of the institution's name where required by law, to give effective legal notice such as a copyright mark, or to make a statement of fact regarding the origin of plant material.

5.B. Indemnification:

The institution shall ensure that the license agreement contains an indemnification provision under which the licensee assumes all responsibility for any product or other liability arising from the exercise of the license covering the invention. The licensee should assume all responsibility as it has complete control over product development while the institution only provides rights under the patents it holds.

5.C. Limitation of Liability:

The institution shall ensure that the license agreement contains a provision that limits the institution's liability for any damages that may result from the licensee's acts under the license agreement (e.g., intellectual property infringement, lost profits, lost business, cost of securing substitute goods, etc.).

5.D. Insurance:

The institution shall ensure that the license agreement requires the licensee to carry sufficient insurance or have an appropriate program of self-insurance to meet its obligations to protect the institution, and provide evidence of such.

5.E. Limited Warranty:

The institution shall ensure that the license agreement contains a limited warranty provision stating that nothing in the license shall be construed as (i) a warranty or representation regarding validity, enforceability, or scope of the licensed patent rights; (ii) a warranty or representation that any exploitation of the licensed patent rights will be free from infringement of patents, copyrights, or other rights of third parties; (iii) an obligation for the institution to bring or prosecute actions or suits against third parties for patent infringement except as provided in the infringement provision of the license; (iv) conferring by implication, estoppel, or otherwise any license or rights under any patents or other rights of institution other than the licensed patent rights, regardless of whether such patents are dominant or subordinate to the licensed patent rights; and (v) an obligation to furnish any new developments, know-how, technology, or technological information not provided in the licensed patent rights.

5.F. Patent Prosecution:

The institution shall ensure that the license agreement contains a patent prosecution provision that stipulates the institution will diligently prosecute and maintain the patent rights using counsel of its choice who will take instructions solely from the institution. The institution will use
reasonable efforts to amend any patent application to include claims requested by the Licensee. For an exclusive license, all such costs will be borne by the licensee. For non-exclusive licenses, a common practice is for each licensee to pay a pro-rata share of such costs.

5.G. Patent Infringement:

The institution shall ensure that an exclusive license agreement contains a patent infringement provision that stipulates that neither the institution nor the licensee will notify a third party (including the infringer) of infringement or put such third party on notice of the existence of any patent rights without first obtaining consent of the other party; with additional language that addresses infringement notification process, participation, control and prosecution of the suit, and payment of costs and sharing of awarded damages.

5.G.1. Infringement Action Considerations

In considering enforcement of their intellectual property, it is important that universities be mindful of their primary mission to use patents to promote technology development for the benefit of society. All efforts should be made to reach a resolution that benefits both sides and promotes the continuing expansion and adoption of new technologies. Litigation is seldom the preferred option for resolving disputes.

However, after serious consideration, if a university still decides to initiate an infringement lawsuit, it should be with a clear, mission-oriented rationale for doing so—one that can be clearly articulated both to its internal constituencies and to the public. Ideally, the university’s decision to litigate is based on factors that closely track the reasons for which universities obtain and license patents in the first place, as set out elsewhere in this paper. Examples might include:

- Contractual or ethical obligation to protect the rights of existing licensees to enjoy the benefits conferred by their licenses; and
- Blatant disregard on the part of the infringer for the university’s legitimate rights in availing itself of patent protection, as evidenced by refusal on the part of the infringer to negotiate with or otherwise entertain a reasonable offer of license terms.

As is true of patents generally, the majority of university-owned patents are unlicensed. With increasing frequency, university technology transfer offices are approached by parties who wish to acquire rights in such ‘overstock’ in order to commercialize it through further licenses. These patent aggregators typically work under one of two models: the ‘added value’ model and the so-called ‘patent troll’ model.

Under the added value model, the primary licensee assembles a portfolio of patents related to a particular technology. In doing so, they are able to offer secondary licensees a complete package that affords them freedom to operate under patents perhaps obtained from multiple sources. As universities do not normally have the resources to identify and in-license relevant patents of
importance, they cannot offer others all of the rights that may control practice (and, consequently, commercialization) of university inventions. By consolidating rights in patents that cover foundational technologies and later improvements, patent aggregators serve an important translational function in the successful development of new technologies and so exert a positive force toward commercialization. For example, aggregation of patents by venture capital groups regularly results in the establishment of corporate entities that focus on the development of new technologies, including those that arise from university research programs. To ensure that the potential benefits of patent aggregation actually are realized, however, license agreements, both primary and secondary, should contain terms (for example, time-limited diligence requirements) that are consistent with the university’s overarching goal of delivering useful products to the public.

In contrast to patent aggregators who add value through technology-appropriate bundling of intellectual property rights, there are also aggregators (the ‘patent trolls’) who acquire rights that cut broadly across one or more technological fields with no real intention of commercializing the technologies. In the extreme case, this kind of aggregator approaches companies with a large bundle of patent rights with the expectation that they license the entire package on the theory that any company that operates in the relevant field(s) must be infringing at least one of the hundreds, or even thousands, of included patents. Daunted by the prospect of committing the human and financial resources needed to perform due diligence sufficient to establish their freedom to operate under each of the bundled patents, many companies in this situation will conclude that they must pay for a license that they may not need. Unlike the original patent owner, who has created the technology and so is reasonably entitled to some economic benefit in recognition for its innovative contribution, the commercial licensee who advances the technology prior to sublicensing, or the added value aggregator who helps overcome legal barriers to product development, the kind of aggregator described in this paragraph typically extracts payments in the absence of any enhancement to the licensed technology. Without delving more deeply into the very real issues of patent misuse and bad-faith dealing by such aggregators, suffice it to say that universities would better serve the public interest by requiring their licenses to operate under a business model that encourages commercialization and does not rely primarily on threats of infringement litigation to generate revenue.

A somewhat related issue is that of technology ‘flipping’, wherein a non-aggregator licensee of a university patent engages in sublicensing without having first advanced the technology, thereby increasing product development costs, potentially jeopardizing eventual product release and availability. This problem can be addressed most effectively by building positive incentives into the license agreement for the licensee to advance the licensed technology itself – e.g., design instrumentation, perform hit-to-lead optimization, file an IND. Such an incentive might be to decrease the percentage of sublicense revenues due to the university as the licensee meets specific milestones.

5.H. Third Party Obligations and Conflicts of Interest:
Technology transfer offices should be particularly conscious and sensitive about their roles in the identification, review and management of conflicts of interest, both at the investigator and institutional levels. Licensing to a start-up founded by faculty, student or other university inventors raises the potential for conflicts of interest; these conflicts should be properly reviewed and managed by academic and administrative officers and committees outside of the technology transfer office. A technology licensing professional ideally works in an open and collegial manner with those directly responsible for oversight of conflicts of interest so as to ensure that potential conflicts arising from licensing arrangements are reviewed and managed in a way that reflects well on their university and its community. Ideally, the university has an administrative channel and reporting point whereby potential conflicts can be non-punitively reported and discussed, and through which consistent decisions are made in a timely manner.

5.1. Export Controls

Institution technology transfer offices should have a heightened sensitivity about export laws and regulations and how these bodies of law could affect university licensing practices. Licensing “proprietary information” or “confidential information” can affect the “fundamental research exclusion” (enunciated by the various export regulations) enjoyed by most university research, so the use of appropriate language is particularly important. Diligence in ensuring that technology license transactions comply with federal export control laws helps to safeguard the continued ability of technology transfer offices to serve the public interest.

6. The institution should receive fair consideration in exchange for the grant of commercial licensing rights.

The institution should ensure that institution receives fair consideration for commercial licenses of its inventions (as public assets created using public funds, supplies, equipment, facilities, and/or staff time) to private entities. Generally, the value of the consideration received by the institution should be based on the licensee’s sale or distribution of licensed products or licensed services by the licensee. Other factors that impact the negotiation of the institution’s consideration may include:

- the type of technology and industry
- the stage of development and market consideration
- the perceived value to the licensee’s business and competitive position (“must-have” vs. “nice-to-have”)
- the market potential, contribution of the technology to market penetration, and market sector dynamics (i.e. growing, static, declining?)
- the projected cost and risk of product development and marketing
- the competitive advantage over alternative products; is the invention a seminal “game-change” one or an incremental improvement?
- the likelihood of competing technologies
- the net profit margin of the anticipated product
- comparable prices for similar technologies or products
• the scope and enforceability of the institution’s patent claims, extent of freedom-to-operate required, and years remaining on patent term
• the projected decrease in the cost of production or R&D expenditures
• the scope of license (exclusive/nonexclusive, narrow/broad fields of use, U.S./non-U.S.)
• the opportunity for accelerated time to market based upon the necessity for meeting a critical public need.

In general, the fair consideration to the institution should be in cash, but other forms of consideration may be accepted in partial lieu of cash fee(s) such as equity in the company (discussed below). The form of such consideration negotiated by the institution may vary widely based on case-specific factors.

The institution should consider including some or all of the following elements as part of the consideration:

6.A. Reimbursement of institution’s patent costs:

The licensee pays for domestic and/or foreign patent applications either through an up-front fee that covers past and future costs and/or through a requirement to reimburse past, present and future costs upon invoicing by the institution. Where the technology is licensed to multiple parties, reimbursement may be done on a pro-rata basis. Full reimbursement by an exclusive licensee is standard institution practice.

6.B. License Issue fee:

The licensee pays a fee to the institution upon final execution of the license agreement either in a lump sum or on an agreed upon schedule. The amount of this fee should reflect the value of the invention at the time it is made available to the licensee. Such fees range widely, depending on the circumstance. Under some circumstances, the issue fee for small companies or start-ups may be partially postponed until sufficient investment capital is secured, or may be replaced in part by the institution’s acceptance of equity in the company (see Equity below).

6.C. Running royalties:

The licensee pays ongoing consideration to the institution in the form of a running (or earned) royalty, typically calculated as a percentage of net sales or use of licensed products or services that incorporate the technology. Such royalties should not be "capped" at a pre-determined dollar level, as the institution should share fully in the success of any commercial use of technology made available to the licensee. In some rare cases, a running royalty value may be difficult to assess due to the particular market and the type of products being developed. In such cases a fixed amount for each unit of licensed product sold or a one-time or annual fee may be contemplated, where the fee should reflect the value of the invention over the projected length of patent protection (both U.S. and foreign).
6.D. Annual maintenance fee/minimum annual royalty:

The licensee pays an annual license maintenance fee which serves as a form of diligence and represents the licensee's continuing interest in and a financial commitment to commercialize the invention. A minimum annual royalty begins in the first year of commercial sales and serves not only as a diligence obligation but also incentivizes the licensee to achieve sales generating royalties that meet or exceed the minimum annual royalty. Typically, annual maintenance fees cease after commercial sales begin when they are replaced by the minimum annual royalty. Minimum annual royalties, if paid in advance, are generally creditable against the running royalty due that year. The institution may use these fees singly, in combination, or not at all as judgment dictates, however, including such fees not only creates diligence obligations but also provides annual income to support the institution's research and education mission.

6.E. Sublicensing fees:

Under an exclusive license where the licensee is permitted to transfer rights to third parties (a sublicense), the licensee pays the institution consideration for sales or use of licensed products or services by its sublicensees. The institution should receive a fair share of all consideration, including royalty and non-royalty income, received by the licensee from the sublicensee. It is institution practice not to include sublicensing rights under its non-exclusive licenses as the granting of such rights could place the licensee in direct licensing competition with the institution, except in those cases where the sublicensee's activities are necessary for the sublicensor to commercialize the licensed technology (e.g., sublicensee is a contract research organization or contract manufacturer providing a vital component to the sublicensor necessary for the licensed technology, etc.).

6.F. Equity:

To encourage commercialization of institution technology, the institution may accept equity in a company as partial consideration for invention licensing in a manner consistent with Board and institution policies. This option may be particularly useful in working with small or startup companies where financial considerations limit the company's and its investors' willingness to pay cash to the university for licensing costs, such as license issue fees and annual maintenance fees. When accepting equity, institutions should consider the risk-adjusted value of equity and the potential loss of value associated with dilution of equity.

6.G. Other:

The institution may negotiate forms of consideration other than those described above, such as milestone payments upon the completion of certain licensed product development events or upon financing or investment triggers (e.g., investment rounds, merger or acquisition, or a public stock offering). Other unique exchanges of value occasionally may be appropriate forms of fair consideration. The institution should note, however, that such non-monetary forms of consideration (other than equity) fall outside the royalty-sharing provisions of the institution Patent Policy. The institution should take care to not designate research funding as a form of
consideration in a license as license income is subject to the royalty-sharing provisions of the institution Patent Policy whereas research funding is not consideration for a license but is fixed at a level to pay for the cost of conducting the research (Singer v. The Regents, 1996).

Finally, the institution should be aware that "overly-aggressive" negotiation of financial consideration may impede commercialization of an invention and may not be consistent with certain research sponsor guidelines (e.g., Federal, State, or non-profit extramural sponsorship policies). However, undervaluing a commercial license reduces the additional monetary support for research and education and compromises the principle of seeking a fair return on the public asset that is the institution's technology. The institution should weigh all appropriate factors discussed above in crafting a commercial license to create an optimal structure and fair consideration.

7. The license agreement should support the academic principles of the institution.

The institution should ensure that the provisions of the license agreement support the institution's academic teaching and research mission, including the following concerns:

7.A. Open Dissemination of Research Results and Information:

License agreements with external parties shall not limit the ability of institution researchers to disseminate their research methods and results in a timely manner. The most fundamental tenet of the institution is the freedom to interpret and publish, or otherwise disseminate, research results to support knowledge transfer and maintain an open academic environment that fosters intellectual creativity.

7.B. Accessibility for Research Purposes:

The institution should ensure that the license agreement protects the ability of institution researchers, including their student and research collaborators, to use their inventions in future research, thus protecting the viability of the institution's research programs. The institution has a commitment to make the results of its research widely available through publication and open distribution of research products for verification and ongoing research. The institution also seeks to foster open inquiry beyond the interests of any one research partner, particularly where the invention is a unique research tool. One way in which the institution addresses this is through the retention in the license agreement of the institution's right to use and distribute inventions to other non-profit research institutions for research and educational purposes.

7.C. Broad Access to Research Tools:

Consistent with the NIH Guidelines on Research Tools, principles set forth by various charitable foundations that sponsor academic research programs and by the mission of the typical university to advance scientific research, universities are expected to make research tools as broadly available as possible. Such an approach is in keeping with the policies of numerous peer-reviewed scientific journals, on which the scientific enterprise depends as much as it does
on the receipt of funding: in order to publish research results, scientists must agree to make unique resources (e.g., novel antibodies, cell lines, animal models, chemical compounds) available to others for verification of their published data and conclusions.

Through a blend of field-exclusive and non-exclusive licenses, research tools may be licensed appropriately, depending on the resources needed to develop each particular invention, the licensee’s needs and the public good. The drafting of such an exclusive grant should make clear that the license is exclusive for the sale, but not use, of such products and services; in doing so, the university ensures that it is free to license non-exclusively to others the right to use the patented technology, which they may do either using products purchased from the exclusive licensee or those that they make in-house for their own use.

8. All decisions made about licensing institution inventions should be based upon legitimate institutional academic and business considerations and not upon matters related to personal financial gain.

It is important that the institution conduct the technology transfer process, including patenting, marketing, and licensing in a manner that supports the education, research, and public service missions of the institution over individual financial gain.

Because institutions and inventors may have the opportunity to influence institution business decisions in ways that could lead to personal gain or give advantage to associates or companies in which they have a financial interest, the institution and the inventor must comply with existing Board policy, institution policy and State law concerning such potential conflicts of interest. Under Board policy and State conflict of interest law, any institution employee or representative is prohibited from making, participating in making, or influencing an institution decision (including selection of licensees and other decisions made in the course of commercializing institution technology) in which they have a personal financial interest. Certain specific actions may be taken, however, consistent with Board policy, institution policy and State law, to allow participation in the licensing process by such inventors. An inventor's expectancy of receiving money or equity as inventor share under the institution Patent Policy is not a disqualifying financial interest.

For institutions who have a personal financial interest in potential licensees, this situation can be readily managed by having the invention case assigned for management to another institution without a financial interest. For inventors who have a personal financial interest in potential licensees, another individual with appropriate scientific and technical background may be able to carry out the duties and responsibilities typically handled by the inventor. In both cases, personal disqualification requirements would need to be satisfied under Board policy, institution policy and State law.

Institution inventors, however, may not be able to reasonably remove themselves from involvement in the process under disqualification requirements as their expertise and input may be essential to successful technology transfer. It may be necessary for the inventor to work
closely with the institution and with potential licensees, or involve themselves in companies that are potential licensees, with the objective of commercializing institution inventions, even when they have a personal financial interest. It is in this context, when the inventor is involved in the process, that the selection of a licensee and other commercialization decisions may have the potential to raise concerns about conflicts of interest. Some inventor contributions to the licensing process are primarily technical advice and do not constitute "participation in" or "attempting to influence" a licensing decision under State conflict of interest law. They are called "ministerial." An action is ministerial, even if it requires considerable expertise and professional skill, if there is no discretion with respect to the outcome. Thus an inventor can provide technical or scientific information about an invention where necessary without being considered to be participating in a licensing decision. This exception, however, does not apply to technical tasks such as most data gathering or analysis in which the inventor makes professional judgments which can affect the ultimate decision in question.

Therefore, the institution and inventor(s) should discuss: i) the disqualification option; ii) an approach to and level of inventor involvement in the technology transfer process; iii) compliance with Board policy, institution policy and State law concerning potential conflicts of interest; and (iv) where helpful, these institution Licensing Guidelines.

In general, the role in the technology transfer process of any inventor who has a personal financial interest in a potential licensee should be kept to the minimum necessary to successfully achieve the institution's objectives in patenting, marketing, and licensing. When an inventor has a personal financial interest in a potential licensee and does not fully disqualify him or herself from involvement in the process, an independent substantive review (Licensing Decision Review - LDR) and recommendation concerning the licensee selection and other licensing decisions is required. Thus, both the institution and the inventor should understand that the extent to which the inventor is involved in the technology transfer process may be a factor in the considerations and ultimate recommendations of the LDR body. The LDR body, composed of one or more qualified individuals with appropriate expertise, knowledge and professional judgment, must independently check the original data and analysis upon which recommendations for the selection of licensees and for other licensing determinations were made by the institution and make its own independent recommendations concerning those decisions. The LDR may be performed by the a institution committee responsible for review and management of conflicts of interest; such committee, when undertaking an LDR, should have the expertise, knowledge and professional judgment required of the LDR body under these Guidelines.

The institution must ensure that disclosure and management of potential inventor conflicts of interest are handled in accordance with institution policy. By doing so, the institution can help ensure that the inventor may continue to participate in the technology development process while remaining in compliance with institution policies and State law in this area. Future issues may arise, such as an inventor's desire to bring technology back to the institution for further testing, development, and purchase for use in the lab as the licensee further develops the technology. If the institution becomes aware of such issues, the institution should ensure that other institution officials impacted by such activities on the part of the inventor (e.g., procurement, C&G office, Conflict of Interest review board, etc.) are educated about the rationale and processes needed for a successful technology transfer program.
9. Technology-specific Considerations

The following guidance supports a general understanding of the objectives, practices and issues involved in the institution licensing program with respect to specific technologies. The licensing strategies described herein are not intended to be applied in an absolute or mechanical manner. Each licensing decision is unique and a matter of professional judgment. The institution's ALOs retain complete discretion in choosing the appropriate licensee and technology management strategy for its technologies.

9.A. Research Tools

In determining an appropriate licensing strategy for an invention that is used primarily as a research tool, the institution should analyze if further research, development and private investment are needed to realize this primary usefulness. If it is not, publication, deposition in an appropriate databank or repository, widespread non-exclusive licensing, or electing not to file a patent application may be the appropriate strategy. Where private sector involvement is necessary to assist in maintaining (including reproducing), and/or distributing the research tool, where further research and development are needed to realize the invention's usefulness as a research tool, or where a licensee has the ability to enhance the usefulness, usability, or distribution of the research tool, licenses should be crafted with the goal of ensuring widespread distribution of the final research tool to the research community. Any such license should also contain a provision preserving the institution's ability to continue to practice the licensed invention and allow other educational and non-profit institutions to do so for educational and research purposes. If carefully crafted, exclusive licensing of such an invention, such as to a distributor that will sell the tool or to a company that will invest in the development of a tool from the nascent invention, could support the institution's objectives.

One particular concern is royalties assessed on sales of products that are developed using (directly or indirectly) an institution invention that is a research tool ("reach-through" royalties), rather than assessed on products actually incorporating the institution invention. The institution should note that reach-through royalties may impede the scientific process or create unreasonable restrictions on research and therefore generally should be avoided. Licensing of research tools should encourage prompt and broad access through a streamlined process. For NIH-funded inventions, see the NIH "Principles and Guidelines for Recipients of NIH Research Grants and Contracts on Obtaining and Disseminating Biomedical Research Resources."

9.B. Global Health

While many of the licensing strategies discussed below are presented in the context of global health issues, such strategies are equally applicable to other current and future emerging technologies that can be used to support humanitarian efforts in underprivileged populations (e.g., clean water, sustainable sources of energy, food sources, etc.).
As innovative healthcare technologies are discovered and, after meeting extensive development and regulatory hurdles, introduced as publicly available therapeutic or diagnostic products, the ability of underprivileged populations to access and afford these technologies may be constrained by price or distribution. In particular, healthcare and agricultural products may not be readily accessible and affordable to the world's poorest people in developing countries and as a public institution striving to uphold its public benefit mission, the institution should consider such public benefit and broad societal needs when developing licensing strategies for such technologies.

Developing "successful practices" is an evolving process, particularly for an issue as complex as balancing access by developing countries to biomedical products with ensuring timely and appropriate development and commercialization of the product. Such practices demand creative and flexible rather than rigid approaches. Entirely new business models coupled with nuanced intellectual property management strategies may be needed to produce the desired outcomes. Each situation is unique and must be addressed based on its own fact pattern to encourage licensees to make the substantial and risky investment necessary to develop biomedical products. Without appropriate and timely investments, the healthcare technology may never be developed into a product, thus eliminating access by all patients. A prescriptive approach may discourage licensees because of a perceived need to overcome too many obstacles in product development. Institutions frequently need to balance conflicting objectives and must be able to make compromises in the interest of moving a technology forward.

As part of the institution's public benefit mission, the institution should carefully consider patenting and licensing strategies that promote access to essential medical and agricultural innovations in developing countries. Although a multitude of downstream factors may affect the accessibility and affordability of essential technologies in developing countries, e.g. healthcare infrastructure, poverty, food security, international treaties and laws, sanitation, energy, and political stability, it remains possible for the institution to impart a profound life-changing impact in the developing countries through humanitarian patenting and licensing strategies.

One patenting strategy that the institution and its licensee might pursue is to limit patent protection to those developed countries with a healthcare infrastructure that can afford the healthcare products and not seek patent protection in developing countries thereby allowing other manufacturers to freely practice the technology. Some examples of alternate licensing strategies to consider could be: (i) inclusion in a license agreement of mechanisms to allow third parties to create competition that affects or lowers prices in developing countries, create incentive mechanisms for widespread distribution of the licensed product, or reserve a right for the institution to license third parties under specific humanitarian circumstances, (ii) inclusion of license terms requiring mandatory sublicensing to generic or alternative manufacturers in a developing country or a program that requires the distribution of the healthcare product at low or no cost to underprivileged populations with assurance that the licensee will continue to develop, manufacture and distribute the product to all such populations; and (iii) inclusion of uniquely crafted diligence provisions or other creative pricing tied to the patient's ability to afford the technology that are consistent with sponsor's march-in rights provision (if applicable).

Financial terms for products that address diseases that disproportionately affect developing countries should, where possible, facilitate product availability in the country of need. At a minimum,
the financial terms should recognize the low profitability of such products. The institution could also
consider foregoing royalties on products distributed in such countries or requiring the licensee to
sublicense other companies if the licensee is unwilling to invest in the development of a product
distribution network within that country.

To be most effective in promoting global health, the institution needs to pursue creativity and consider
a wide variety of patenting and licensing strategies, since the most impactful approach in one situation
may fail in others. Prescriptive guidelines dictating limited strategies could be particularly detrimental
to achieving the institution's goals of public benefit. Creative patenting and licensing strategies
addressing global health should focus on effectiveness and should aim to achieve the greatest impact
worldwide.

9.C. Software

Because of the cross-over of software and other digital media between the patent and copyright
policies, licensing of these technologies are less straight-forward than simple patent or copyright
licenses. In addition, under institution Copyright Policy, an institution may have implemented
procedures and supplementary local policies regarding licensure, disposition of royalty income, and
other rights related to copyrights. As such, copyright licensing practices will vary from institution to
institution.

9.D. Diagnostics

Licensing clinical diagnostics technologies, regardless of type (genetic or otherwise), should balance
the need of the licensee to achieve a fair return on investment with the public's need to have the test as
broadly available as possible, including enabling patients to obtain a second opinion by accessing the
test from an alternative provider. Licenses should also reserve the right for the academic
community to use the diagnostic for research purposes, including studying and independently
validating the test and employing it to advance medical research. The institution will need to take
into account that licensees can elect to commercialize the technology (i) as an FDA-approved kit
sold to end-users, (ii) as a testing service business using an in-house Laboratory Developed Test (LDT)
subject to the Clinical Laboratory Improvement Amendments (CLIA) of 1988 administered by the
Centers for Medicare and Medicaid Services, or (iii) a sequential combination of (i) and (ii) whereby
the licensee initially enters the market to generate near-term revenue with an LDT-based testing
service and subsequently obtains market approval via the costlier and lengthier FDA review process to
market a kit for sale. Licensor's that have academic medical centers need to structure their licenses to
take into account the needs of their own clinical laboratories to insure affordable access to the
licensee's FDA-approved kit or to have the right to provide an LDT in their CLIA labs (either as a
carve-out or an affordable sublicense from the licensee).

For markets that can reasonably support two diagnostics developers (e.g. melanoma), the institution
should consider co-exclusive licensing. However, for more limited markets, in order to assure
maximum availability and multiple sources, the institution might consider such approaches as (i) a time-
limited exclusive license that automatically converts to a nonexclusive license after several years, or
(ii) a license grant for the exclusive right to sell and a non-exclusive right to make and use the
patented technology. In this way the licensor can be the sole provider of an FDA-approved kit while clinical labs that cannot afford the kit can still serve patient needs with their own LDTs.

Lastly it is important to appreciate that whereas a single-source provider of an FDA-approved kit provides patients with a uniform, consistent product, LDTs developed by different clinical labs (commercial and academic) may vary in performance quality and have different degrees of false-positive and false-negative results. Thus a given patient's diagnostic outcome could vary depending on which CLIA lab performs the test.

However, ensuring test availability from more than one source can mitigate the variability from center-to-center.

9.E. Genetic Resources/Traditional Knowledge

Country laws or international treaties may influence licensing decisions where inventions are derived from genetic resources or traditional knowledge. The institution should investigate all project sponsored or collaborative research agreements, including material transfer agreements, to identify if any genetic resource or traditional knowledge was used in making the invention and if any specific requirements apply to the use of such resources. In some situations, the requirement may be attached to a collection permit or a visa document.

Even in the absence of such laws, treaties or contractual requirements, the institution should carefully consider biodiversity issues and negotiate individual agreements that recognize the origin or source of the material. Where possible, such agreements should consider benefit sharing arrangements with indigenous and custodial communities or governments in consideration for access to such biological material or traditional knowledge.

9.F Emerging Technologies

Over time, whole new fields of technology and innovation will emerge that will raise new issues for consideration. As with any emerging technology area, the evolution of "successful practices" will require careful and conscientious decisions that may vary from previously released guidance. The institution should thoughtfully consider how best to address these emerging issues so as to optimally manage institution-developed technologies for public benefit.

10. Assignment of Ownership of Institution Intellectual Property

Under certain circumstances, the institution may be required by federal law to assign rights in institution intellectual property to the federal government. In those instances when the institution determines that it is not interested in pursuing protection and commercialization, the institution may also find it necessary, under federal law and institutional policy, or desirable, in the absence of legal or contractual requirements, to assign rights in institution intellectual property to the original institution inventor(s) or author(s). In such cases, the assignment of institution intellectual property is considered appropriate. These Guidelines presume, however, that licensing is the most appropriate mechanism for commercialization of the public asset that is the
institution’s intellectual property. Except with respect to assignments to those board-approved research foundations affiliated with the institution, assignment of institution intellectual property to a third party, for commercialization or use by the third party, should be a rare occurrence. Any such assignment should be negotiated on a case-by-case basis, dependent on unique circumstances that demonstrate that a license is not appropriate, and should be made only with the approval of the institution president, or his or her designee. In no case should the institution make a present assignment of future rights in institution intellectual property.
COPYRIGHTS, PROTECTABLE DISCOVERIES AND OTHER INTELLECTUAL PROPERTY RIGHTS

PREAMBLE: This section outlines UI policy concerning copyrights, as they arise from university research. Particularly this section discusses the assignment of ownership to such copyrights. This section was part of the 1979 Handbook but was revised in a significant way 1) in July of 1992 to reflect changes in applicable federal law, 2) in January of 1995 by the addition of subsection C-5 to reflect the change in the Regents' intellectual property and conflict of interest rule (former IDAPA 08.01.09.101.03c), and 3) in 2007 to update terminology and add clarity to the rights and obligations of the University and of its employees and students in dealing with intellectual property, and in 2008 edited to reflect the restructuring of technology transfer functions from Idaho Research Foundation to the Office of Technology Transfer. In 2009 revisions were made to B-2 to comply with federal law. Unless otherwise noted, the text is as of July 1996. This policy was revised in July of 2014 for consistency with the revised intellectual property policy of the Board of Regents of the University of Idaho. For more information, contact the Research Office (208-885-6651). [ed. 7-98, rev. 2-07, 4-08, 7-09, 07-14]

C. Protectable Discoveries
D. Dispute Resolution
E. Special Arrangements for Federal, State, and Private Grants
F. Record-Keeping
G. Present Assignment of Rights in Intellectual Property

A. INTRODUCTION. The UI encourages the creation of scholarly works as an integral part of its mission. UI participation in the development, marketing, and dissemination of educational materials has as its aim the improvement of the quality, effectiveness, and efficiency of student learning and of faculty and staff development. The UI recognizes its obligation to transfer technology and useful discoveries to society. With respect to all types of intellectual property, the rights and obligations of UI, its employees and students and other third parties shall be governed by this policy. To the extent permitted by this policy, individuals may enter into contracts with UI to address intellectual
property, in which case the contract terms shall control, provided that the contract was entered into in a manner consistent with this policy.

A-1. DEFINITIONS. For purposes of this Section 5300 and Section 5400, the following terms shall have the following meanings:

a. “electronic” shall mean relating to technology having electrical, digital, magnetic, wireless, optical, electromagnetic, or similar capabilities.

b. “written” or “in writing” shall include information created, generated, sent, communicated, received, or stored by electronic means, including without limitation email, telecopy, and facsimile transmissions.

c. “natural person or persons” means natural person or persons involved in the creation or development of intellectual property.

d. “designated agent” means the person or entity acting on behalf of the UI, within the scope of and under authorization through a written agreement between the person or entity and UI, to protect, commercialize, other otherwise transfer rights in intellectual property subject to this policy and to, as authorized by the UI, to enforce rights in such intellectual property. A designated agent of the University may include, by way of example and not limitation, a UI-affiliated foundation approved by the Regents of the University of Idaho and acting under an operating agreement between UI and the foundation.

B. COPYRIGHTS. UI participation in the development of copyrightable works raises questions concerning the ownership and use of materials in which UI has become an active and intentional partner through substantial investment of resources. This policy is established to clarify the rights of the natural person or persons and the UI regarding ownership and use of copyrightable materials in the absence of a valid written agreement between the natural person or persons and UI. The UI acknowledges the right of faculty and staff members and students to prepare and publish certain materials that are copyrightable in the name of the natural person or persons and that may generate royalty income for the natural person or persons.

B-1. Coverage. The types of materials to which this policy applies include:

a. Study guides, tests, syllabi, bibliographies, texts, books, and articles.

b. Films, filmstrips, photographs, slides, charts, transparencies, illustrations, and other visual aids.

c. Programmed instructional materials.

d. Audio and video recordings.

e. Simultaneously recorded live audio and video broadcasts.
f. Dramatic, choreographic, and musical compositions.

g. Pictorial, graphic, and sculptural works.

h. Computer software, including computer programs, procedural design documents, program documents, and databases as defined below: [ed. 7-00]

(1) “Computer program” means a set of instructions that direct a computer to perform a sequence of tasks.

(2) “Procedural design document” refers to material that describes the procedural steps involved in the creation of a computer program.

(3) “Program document” refers to material created for the purpose of aiding the use, maintenance, or other interaction with a computer program.

(4) “Data base” means a collection of data elements grouped together in an accessible format.

i. Other copyrightable materials, including materials generated in the production of any of the above works.

B-2. Assignment of Ownership. UI employees and students retain all rights in the copyrightable materials they create except in the cases of “UI-Sponsored Materials” as defined in Subsection B-2-b below, materials subject to grant of a non-exclusive license to UI for public access as described in Subsection B-2-c below, materials covered by a Grant or Contract as discussed in Subsection E below, and materials covered by a valid written agreement between the natural person or persons and the UI as discussed in Subsection B-5 below. Faculty members, staff members, and students shall, consistent with Subsection G, assign rights in copyrightable materials claimed by UI under the above-identified exceptions and shall co-operate with reasonable requests from UI for the creation of any documents and records needed to vest and memorialize UI’s rights, if any. [rev. 7-09]

a. Retention of Rights. Except as otherwise provided in Subsection B-2, above,, the natural person or persons retain the rights to: (1) copyrightable works produced while on sabbatical leave; (2) study guides and similar works; and (3) works prepared as part of the general obligation to produce scholarly or other creative works of the natural person or persons, such as, but not limited to articles, books, musical compositions, and works of art. [rev. 7-09]

b. UI-Sponsored Materials. Materials are “UI-Sponsored Materials” within the meaning of this policy, and shall be and are assigned to UI consistent with Subsection G, if the natural person or persons: (1) prepared the work as part of his or her employment duties at UI, excluding those traditional scholarly or other
creative works identified in B-2-a; (2) was specially ordered or commissioned in writing by UI or one of its distinct units to develop the work; (3) received extra pay from UI to prepare the specific materials pursuant to a valid written agreement providing that the extra pay is consideration for the preparation of the specific materials; (4) received release time from regular duties, not including sabbatical leave, to produce the specific materials; or (5) made “substantial use” of UI resources in the creation or development of the specific materials, provided however that the use of UI resources openly available to the public shall not be considered “substantial use” of UI resources.

c. University Non-exclusive License for Public Access. In order to permit UI to comply with public access mandates established by federal law or federal agency or university policy (e.g., the National Institutes of Health Public Access Policy, Division G, Title II, Section 218 of PL 110-161 [Consolidated Appropriations Act, 2008]) and related terms and conditions of research agreements, UI employees and students accepting research grants or contracts from, and conducting research from United States federal agencies do hereby grant UI an irrevocable, non-exclusive, non-transferable, non-commercial, royalty-free license in copyrightable materials produced as a result of such research, such license to be used solely to comply with public access mandates. This grant of non-exclusive license is deemed by UI to be a special arrangement for federal grants and contracts, per Subsection E below, and is not subject to the disposition of rights described in B-2-b or to negotiation under Section B-5 below. [add. 7-09]

B-3. UI Administration of UI Sponsored Materials. Absent a valid written agreement otherwise, UI Sponsored Materials are to be registered in the name of the Regents of the University of Idaho or its’ assignee. UI, through the provost or his or her designee, has the right to file registrations of UI Sponsored copyrightable works. Additionally, UI, through the provost or the provost’s designee, may market, protect, transfer, convey, license, or otherwise derive income from University-Sponsored Materials. The provost, or designee, shall undertake evaluation, protection, transfer, and commercialization of UI Sponsored Materials consistent with this policy and the policies of the Board of Regents of the University of Idaho, including but not limited to Idaho State Board of Education Policy Section V. Financial Affairs, Subsection M. Intellectual Property and the related Idaho State Board of Education Institution Technology Licensing Guidelines. In light of the university’s educational mission and its role in the creation of the copyrightable materials, when entering into agreements to transfer, convey, or license the copyrightable works, the university may retain an irrevocable, non-exclusive, non-transferable, royalty-free license in University-Sponsored Materials.

B-4. Royalties and Income.

a. Out of the gross receipts from royalties and other income from sale or licensing of UI Sponsored Materials, the UI, college, department, other unit, or UI’s
designated agent may recover reasonable expenses that it incurred in the development, marketing, or dissemination of the materials.

b. Absent a valid written agreement to the contrary, the net proceeds are distributed as follows: 40 percent to the natural person or persons, 40 percent to UI or its designated agent, and 20 percent to the college or service unit of the natural person or persons. In the event that any UI Sponsored Material is a jointly authored work, the portion of the net proceeds allocated to the natural person or persons, 40 percent, shall be divided among the original authors of the UI Sponsored Material and the portion of the net proceeds allocated to the college or service unit of the natural person or persons, 20 percent, shall be divided among the appropriate colleges and/or service units. At least half of the share allocated to the college or other unit is given to the department of the natural person or persons for use in furtherance of its goals.

c. Allocation and distribution of any royalties or other income from a jointly authored work constituting UI Sponsored Material and to which ownership vests in UI and another third party shall be made in accordance with a written agreement between UI and the third party. UI’s portion of royalties or other income distributed to UI pursuant to such an agreement shall be distributed within UI following the schedule set forth in Section B-4(b), unless subject to a prior agreement between UI and the UI original author(s) of such works.

B-5. Written Agreements.

a. The provost, or designee, represents UI in negotiating agreements with the natural person or persons pursuant to this policy. The natural person or persons who authored the copyrightable material may negotiate with the provost and arrive at a mutually agreeable contract. The provost consults with the dean or departmental administrator of the department of the natural person or persons in drafting these agreements. (For purposes of this policy, “dean” includes persons with equivalent administrative capacities.)

b. Valid written agreements concerning copyright ownership, use of copyrighted materials, and distribution of royalties and income from copyrightable works which are entered into by one or more natural person or persons and the provost, or designee, supersede the provisions of this Section 5300. To be valid, such agreements must (1) comply with the terms of any relevant Grants or Contracts as discussed in Subsection E below, (2) comply with the policies of the UI Board of Regents, and 3) comply with Idaho state and federal law. [rev. 4-08]

c. The provost, or designee, represents UI in negotiating and exercising agreements with third parties with respect to the transfer and/or commercialization of UI Sponsored Materials.
B-6. Use of UI-Sponsored Materials. Use of UI Sponsored Materials under this policy is subject to the following conditions:

a. For as long as any natural person or persons involved in the creation or development of UI Sponsored Materials remains a UI employee or student, such natural person or persons may, in a professionally appropriate manner, propose revisions of the material.

B-7. Protection.

a. Allegations of unauthorized use or copyright infringement of UI Sponsored Materials should be made to the Intellectual Property Committee for investigation. The committee will recommend appropriate action to the provost.

b. If such action is initiated by UI alone or in concert with the natural person or persons, the costs are borne by UI or UI’s agent. Proceeds from the action in excess of costs are shared as provided in Subsection B-4-b.

c. If the natural person or persons involved in the creation or development of the allegedly infringed intellectual property desires to institute a suit and UI decides not to act, UI will co-operate either by assigning to the natural person or persons such rights as are necessary for the natural person or persons to pursue redress or by some other reasonable method acceptable to UI. The costs of the suit will be born by the natural person or persons desiring to sue, who will also obtain any monetary relief obtained from the alleged infringer due to the prosecution of the suit.

B-8. Liability. Defense of claims against UI employees arising from creation, development or use will be governed by the Idaho Tort Claims Act.

B-9. Waiver. Any person involved in the development of copyrightable materials governed by Section 5300 B waives any claim that otherwise legal use of the material by UI, its agents, employees, or distinct units, creates legal liability by UI, its agents, employees, or distinct units on any theory of indirect liability for allegedly infringing actions of third parties. [ed. 4-08]

C. PROTECTABLE DISCOVERIES. “Protectable Discoveries," for purposes of this Section 5300 is defined to include anything which might be protected by utility patent, plant patent, design patent, plant variety protection certificate, maskwork, or trade secret. All Protectable Discoveries made by UI employees or students at any of its facilities in the course of programs carried on by UI or made by persons in the course of working on such programs or projects under contracts or agreements with UI belong to UI. The natural person or persons involved in the creation or development of such Protectable Discoveries shall and do(es) hereby assign to UI, as required by Subsection...
G., all such (1) Protectable Discoveries, (2) applications for legal protection of such Protectable Discoveries, and (3) utility patents, plant patents, design patents, and plant variety protection certificates resulting from such Protectable Discoveries. Absent a valid written agreement to the contrary, any Protectable Discoveries made by UI employees, students, or such other natural person or persons identified above with the use of facilities (other than those resources openly available to the public) owned by UI or made available to it for project or research purposes are deemed to have been made in the course of working on a research program or project of UI.

C-1. Ownership by Other Than UI. A Protectable Discovery conceived and reduced to practice by a natural person or persons wholly on his or her own time outside of his or her duties at UI and without the use of UI facilities (other than those resources openly available to the public) belongs to that natural person or persons, even though it falls within the field of competence relating to the person’s UI position. This provision also allows any Protectable Discovery made by a natural person or persons in the course of private consulting services carried out by the person in conformance with the UI’s policy on professional consulting and additional workload [see 3260] to be assigned to the consulting sponsor.

C-2. UI Processes. All Protectable Discoveries made by a natural person or persons in the course of working on a UI research program or project must be submitted to the Office of Technology Transfer (OTT). If a Protectable Discovery is accepted by OTT for development, management, marketing, licensing, or assignment in any manner for the purposes of this policy, OTT must ensure that such property is conveyed, assigned, or transferred to UI. OTT shall have full power to manage such rights and to enter into contracts and licenses concerning such rights, including the right to join in agreements with other nonprofit intellectual property-management entities. At its discretion, UI shall, through OTT, initiate and control the prosecution of patents on or otherwise secure the legal protection of Protectable Discoveries subject to assignment to UI under this policy. OTT shall be responsible for financing associated with such Protectable Discoveries, including but not limited to the payment of legal fees associated with the prosecution and/or protection of such Protectable Discoveries. In those circumstances in which OTT decides to seek legal protection for Protectable Discoveries, OTT shall provide direction to and shall be responsible for payment of legal counsel engaged by UI. OTT may, however, enter into alternate arrangements for legal protection of Protectable Discoveries by third parties, through written agreement with such third parties. OTT shall undertake protection and commercialization of Protectable Discoveries consistent with this policy and the policies of the Board of Regents of the University of Idaho, including but not limited to Idaho State Board of Education Policy Section V. Financial Affairs, Subsection M. Intellectual Property and the related Idaho State Board of Education Institution Technology Licensing Guidelines. [rev. 7-97, 7-06, 4-08]

a. Upon submission of intellectual property to OTT, OTT must make a formal written decision to pursue commercialization for that property within three months.
If OTT does not file for protection of the intellectual property within eighteen months of the date the disclosure was submitted, the rights shall be evaluated for return to the inventors. If OTT submits a provisional patent application for intellectual property protection, a “full” and non-provisional patent application must be submitted within nine months of the date of the submission of the provisional patent. [add. 7-97; ed. 7-98, rev. 4-08]

b. The OTT shall submit semi-annual reports, as long as UI owns the property, to both the inventor/natural person or persons of and to the college or center where the inventor(s) are located. The report will include on 1) the status of the application until such time that protection is granted, 2) the marketing activities for the property being serviced, and 3) an accounting for funds received from the property. In the event that OTT has been unsuccessful in transferring a property or filing a patent application within three years after its first acceptance, OTT must notify the college or center and inventor(s) in writing. [add. 7-97, rev. 7-06, 4-08]

c. If OTT determines not to pursue commercialization of a Protectable Discovery, the University may elect, subject to controlling federal law, including but not limited to 37 CFR 401 (“Bayh-Dole”), to reconvey, assign and transfer the Protectable Discovery to the natural person or persons (inventors) involved in the creation of the intellectual property. [rev. 4-08]

d. OTT may, in furtherance of the dissemination, use, or commercialization of UI Protectable Discoveries, engage in a range of activities including but not limited to: granting exclusive or non-exclusive licenses; assigning rights in Protectable Discoveries; entering into contracts with third parties to provide controlled access to information concerning Protectable Discoveries, materials closely related to Protectable Discoveries, or Protectable Discoveries; negotiating for acceptance of an equity interest by the Idaho Research Foundation in a company licensing a Protectable Discovery; offering guidance with respect to business planning; or making University facilities available for further development of licensed UI Protectable Discoveries or business incubation, subject to contract.

C-3. Proceeds. OTT will make provision to share the net proceeds, management, and licensing of any Protectable Discovery as follows: [ed. 4-08]

a. Legal and development expenses incurred by OTT will be reimbursed first out of the net proceeds, prior to any distributions. [rev. 4-08]

b. Absent a valid written agreement to the contrary, the net proceeds in excess of legal and development expenses shall be distributed as follows: 40 percent to the natural person or persons; 40 percent to OTT; and 20 percent to the college or service unit of the natural person or persons. At least half of the share allocated to the college or other unit is given to the department of the natural person or persons for use in furthering its goals. [rev. 4-08]
C-4. Ownership Questions. Questions as to the ownership of a Protectable Discovery or division of proceeds between persons involved in development of such discoveries and departments are referred in the first instance to the Intellectual Property Dispute Committee. The disputes will be decided in accordance with Section 5300(D).

D. DISPUTE RESOLUTION. From time to time, disputes will inevitably occur concerning ownership of the intellectual property (copyrights and Protectable Discoveries) contemplated in this Section 5300. Resolution of such disputes shall be achieved by the following procedure:

D-1. Intellectual Property Dispute Committee. The Intellectual Property Dispute Committee (IPD Committee) shall be an Ad Hoc Committee formed when necessary by appointments made by the Provost, in consultation with the Chair of Faculty Senate and the President of the Graduate and Professional Student Association (GPSA). Normally the IPD Committee shall be composed of five faculty members and two graduate students. The Provost shall appoint the chair from among the faculty members. In the event the GPSA shall fail to appoint one or more student members, the IPD Committee may nonetheless be formed by the Provost and conduct business without the GPSA student representatives. [ed. 1-10]

D-2. Recommendation by the Intellectual Property Dispute Committee. The IPD Committee considers, investigates, and makes recommendations toward resolution of disputes concerning (1) ownership of copyrightable materials and Protectable Discoveries, and (2) allegations or unauthorized use or copyright infringement of UI Sponsored Materials. It reviews all relevant evidence submitted to it before making its recommendation to the provost. The IPD Committee’s recommendation is to be made no later than 60 days after receiving the matter for consideration. The IPD Committee’s recommendation is determined by a majority of all its members voting by secret ballot at a meeting at which over one-half its appointed members are present. No member may participate in any matter in which his or her ownership rights are being determined.

D-3. Decision by the Provost. After receiving the recommendation of the IPD Committee, the provost makes a decision concerning ownership or infringement. The provost’s decision is made no later than 30 days after receiving the IPD Committee’s recommendation. That decision is transmitted in writing to the natural person or persons and to his or her departmental administrator and dean.

D-4. Appeal of the Decision of the Provost. The decision of the Provost may be appealed to the President of the University. Further appeals shall be made as from any other decision of an administrative body under the laws of the State of Idaho in effect from time to time.
E. SPECIAL ARRANGEMENTS. Nothing in this policy shall prevent UI from accepting research grants from, and conducting research for, agencies of the United States upon terms and conditions under applicable provisions of federal law or regulations that require a different disposition of rights in any form of intellectual property. Moreover, nothing herein shall prevent cooperative arrangements with other agencies of the state of Idaho for research. Where receipt of a grant in support of research from any nonprofit agency or group may be dependent upon acceptance of terms and conditions of the established intellectual property policy of the grantor that differ from those stated herein, UI may specifically authorize acceptance of such grant upon such terms and conditions. UI may also specifically authorize contractual arrangements with an industrial sponsor for different disposition of rights in any form of intellectual property resulting from its sponsored research. UI may assign and license intellectual property rights to any organization, company, or commercial entity, regardless of whether that organization, company, or commercial entity is a sponsor. Provided however, that the terms of any such contractual arrangements must comply with the policies and guidelines of the SBOE and with Idaho state and federal laws.

F. RECORD-KEEPING. See Section 5500 for record-keeping procedures that are recommended in order to safeguard the property rights of UI or the faculty member in research and potentially patentable results.

G. PRESENT ASSIGNMENT OF RIGHTS IN INTELLECTUAL PROPERTY. All intellectual property to which UI claims ownership by this policy shall belong to UI, and UI employees, students, and other persons subject to this policy do hereby assign to UI all rights, including future rights, in intellectual property to which UI claims ownership by this policy or as otherwise required by policy of the UI Board of Regents, and in any related application for legal protection of such intellectual property. Any person assigning intellectual property to UI subject to this Section G. shall cooperate fully with UI in in preserving, perfecting, and protecting legal rights associated with such assigned intellectual property. Such cooperation may include, but is not limited to the execution, of confirmatory assignment to the University of particular intellectual property.

A. COPYRIGHTS, PROTECTABLE DISCOVERIES AND OTHER INTELLECTUAL PROPERTY RIGHTS

Purpose:
To establish ownership of copyrights, protectable discoveries and other intellectual property rights and to provide guidelines for the distribution of income received for the sale of those works. While the university claims ownership of intellectual property on behalf of the State Board of Education, the underlying purpose of such claim of ownership is to foster and advance the development of intellectual property through rigorous scientific investigation and research, and to develop, acquire and license intellectual property for the economic growth and development of Idaho and the nation.

Additional Authority:
Idaho State Board of Education Governing Policies and Procedures §V.M.
University Policy #1110 (Conflict of Interest and Commitment)
Idaho State Board of Education Institution Technology Licensing Guidelines

Scope:
Faculty, Staff, Students and Student-Employees.

Responsible Party:
Division of Research and Economic Development, 426-5732
Provost and Vice President for Academic Affairs (the Provost), 426-1212

Definitions:
Computer Program - A set of instructions that direct a computer to perform a sequence of tasks.

Copyrightable Works - Anything protectable by copyright, such as:

1. Study guides, tests, syllabi, course materials, bibliographies, texts, books, and traditional scholarly publications.
2. Films, filmstrips, photographs, slides, charts, transparencies, illustrations, and other visual aids.
4. Audio and video recordings.
5. Simultaneously recorded live audio and video broadcasts.

7. Pictorial, graphic, and sculptural works.

However, Computer software, including computer programs, procedural design documents, program documents, and databases as defined below shall be treated for purposes of this policy as a Protectable Discovery and not as Copyrightable Works.

Course Materials - Any materials prepared by an instructor for use in teaching a course offered by Boise State to its students, including lectures, lecture notes, syllabi, study guides, bibliographies, visual aids, images, diagrams, multimedia presentations, examinations, web-ready content and educational software. These exclude University-Sponsored Materials and University-Directed Materials.

Database - A collection of data elements grouped together in an accessible format.

Electronic - Relating to technology having electrical, digital, magnetic, wireless, optical, electromagnetic, or similar capabilities.

‘Employee’ or ‘Employees’ – Faculty, staff, or student-employees of the university.

Natural Person(s) - Individuals or business entities involved in the creation, invention or development of intellectual property. This term is construed broadly as including producers of creative works in the arts and sciences and creators of literary or scholarly writing.

Net Proceeds - The gross receipts from royalties and all other income from the license, option, sale, lease or rental of Intellectual Property minus (a) the monies specifically directed within the license, option, sale, lease or rental agreement for additional sponsored research or development activities and (b) the amount recovered by the university for reasonable expenses incurred in the development, marketing, protection, registration or dissemination of the materials, including legal expenses.

Procedural Design Document - Material that describes the procedural steps involved in the creation of a computer program.

Program Document - Material created for the purpose of aiding the use, maintenance, or other interaction with a computer program.

Protectable Discoveries - Anything that might be protected by utility patent, plant patent, design patent, plant variety protection certificate, maskwork, or trade secret and
computer software, including computer programs, procedural design documents, program documents, and databases as defined above.

Significant Additional University Support - University assistance that does not include the mere use of library resources, workshops, or university personal computers but may include stipends, significant assistance of university-provided instructional designers or other resources not openly available to employees or students.

University-Sponsored Materials - Copyrightable materials produced by employees or students where the Natural Person(s) made use of state or university resources not openly available to members of the general public in the creation or development of the specific materials. These exclude traditional scholarly publications and Course Materials written by faculty for courses offered by the university to its students.

University-Directed Materials - Copyrightable materials produced by employees where the Natural Person(s) developed the material as part of the course and scope of their specific employment duties. These exclude traditional scholarly publications and Course Materials written by faculty for courses offered by the University to its students.

‘Written’ or ‘in writing’ – Shall include information created, generated, sent, communicated, received, or stored by electronic means, including without limitation email, telecopy, and facsimile transmissions.

POLICY

I. Policy Statement

As an integral part of its mission, Boise State University encourages the creation of scholarly works. University participation in the development, marketing, and dissemination of educational and research materials aims for the improvement of the quality, effectiveness, and efficiency of student learning and of faculty and staff development.

The university must protect the investment of public resources that provide for the development of useful discoveries while ensuring that such knowledge is utilized for the betterment of Idaho and the nation. The rights and obligations of Boise State University, its employees and students and other third parties shall be governed by this policy and Idaho State Board of Education (SBOE) Governing Policies and Procedures, including but not limited to SBOE Governing Policy §V.M., and the Idaho State Board of Education Institution Technology Licensing Guidelines with respect to all types of intellectual property.
II. Arrangements for Federal, State, and Private Funding

Nothing in this policy shall prevent the university from accepting funding from, and conducting sponsored projects for, agencies of the United States Government upon terms and conditions under applicable provisions of federal law or regulations that require a different disposition of rights in any form of intellectual property, including Course Materials. Moreover, nothing herein shall prevent cooperative arrangements with other agencies of the State of Idaho for sponsored projects.

Where receipt of funding in support of a sponsored project from any nonprofit agency or group may be dependent upon acceptance of terms and conditions of the established intellectual property policy of the grantor that differ from those stated herein, the university may specifically authorize acceptance of such funding upon such terms and conditions. The university may also specifically authorize contractual arrangements with an industrial sponsor for different disposition of rights in any form of intellectual property, including Course Materials, resulting from a sponsored project. The terms and conditions of any of the above contractual arrangements must comply with the policies and guidelines of the SBOE and with Idaho state and federal laws.

III. Copyrightable Works

A. General Provisions

This policy clarifies the rights of Natural Person(s) and the university regarding ownership and use of Copyrightable Works. The university acknowledges the right of employees and students to prepare and publish copyrightable materials in the name of the natural person and that such publication may generate royalty income.

Employees and students retain all rights in the copyrightable materials they create except in the cases of:

1. University-Sponsored Materials,
2. University-Directed Materials,
3. Materials subject to grant of a non-exclusive license to the university for educational use or public access as described below,
4. Materials created through a sponsored project and covered by a grant, funding agreement or contract as discussed above in section II, and
5. Materials covered by a valid written agreement between the Natural Person(s) and the university as discussed below.
Employees and students shall cooperate with reasonable university requests for any documents and records needed to vest and memorialize the university’s rights.

Notwithstanding anything to the contrary in this policy, to permit the university to comply with public access mandates established by state or federal law or regulations and the related terms and conditions of sponsored activity agreements, employees and students accepting grants, funding or contracts from, and conducting sponsored research or other activities for United States Government agencies grant the university an irrevocable, non-exclusive, non-transferable, royalty-free license in copyrightable materials produced as a result of such sponsored activities.

B. Course Materials

The provisions of this section apply in the absence of a written agreement between the employee and Boise State.

1. For courses offered by the university to its students, Course Materials are not University-Sponsored or University-Directed Materials and are generally the property of the Natural Person(s). Such Natural Person(s) may use their Course Materials in any way that does not violate university or SBOE policy.

2. Occasionally, Course Materials are created with Significant Additional University Support. If a Natural Person(s) creates Course Materials with Significant Additional University Support, the Natural Person(s) retain ownership of the Course Materials, but they grant to the university a perpetual, fully paid-up, royalty-free, nonexclusive, sublicensable worldwide license to use, copy, distribute, display, perform, and create derivative works of such Course Materials. The university will share the Net Proceeds, if any, from the sublicense of these Course Materials to other academic institutions once yearly as follows: 40 percent to the Natural Person(s) and 60 percent to Boise State University.

3. If the Natural Person(s) are expressly commissioned by the university to create certain Course Materials, either as part of the required workload or in exchange for additional financial consideration, those Course Materials shall not be owned by the Natural Person(s) but shall be the exclusive property of the university and such Natural Person(s) irrevocably assign to the university all right, title and interest, worldwide to those Course
Materials, applications for legal protection of such Course Materials and copyrights resulting from the creation of such Course Materials.

4. The Provost is responsible for the development, management, marketing, and licensing of all Course Materials for which the university claims rights under this policy, and shall have full power to manage such rights and to enter into contracts and licenses concerning such rights.

C. University-Directed Materials

University-Directed Materials are owned by Boise State University and must be registered in the name of the university. Natural Person(s) who produce University-Directed Materials irrevocably assign to the university all right, title and interest worldwide to University-Directed Materials, applications for legal protection of such University-Directed Materials and copyrights resulting from the creation of such University-Directed Materials.

University may use University-Directed Materials for any lawful purpose of the university and shall retain all income derived from the University-Directed Materials.

D. University-Sponsored Materials

University-Sponsored Materials are owned by Boise State University and must be registered in the name of the university. Natural Person(s) who produce University-Sponsored Materials irrevocably assign to the university all right, title and interest worldwide to University-Sponsored Materials, applications for legal protection of such University-Sponsored Materials and copyrights resulting from the creation of such University-Sponsored Materials.

The university may register, protect, transfer, convey, license, or otherwise derive income from University-Sponsored Materials. In light of the university’s educational mission and its role in the creation of the copyrightable materials, when entering into agreements to transfer, convey, or license the copyrightable works, the university may retain an irrevocable, non-exclusive, non-transferable, royalty-free license in University-Sponsored Materials.

1. Royalties and Income

Net Proceeds derived from University-Sponsored Materials are distributed once yearly by the university, through its Division of Research and Economic Development (“Research Division”) as
follows: 40 percent to the Natural Person(s) and 60 percent to Boise State University.

2. Use of University-Sponsored Materials

Use of University-Sponsored Materials is subject to the following conditions:

a) “Use” means use by anyone employed by the university, or attending the university as a student, while acting within the scope of their employment or academic enterprise, or any agent of the university acting within the scope of their agency, either directly or through a grant or contract, or by any university department.

b) Use of University-Sponsored Materials for any lawful purpose of the university does not require the prior approval or notification of any of the Natural Person(s). However, for as long as any Natural Person(s) involved in the creation or development of the University-Sponsored Materials remains a university employee or student, they may propose revisions to the material in a professionally appropriate manner.

E. Waiver

Any person involved in the development of copyrightable materials governed by this policy waives any claim that otherwise legal use of the material by the university, its agents, employees or students creates legal liability by the university, its agents, employees or students on any theory of indirect liability for allegedly infringing actions of third parties.

IV. Protectable Discoveries

A. General Provisions; Irrevocable Assignment

Unless specifically provided otherwise, Protectable Discoveries are the property of Boise State University. All Protectable Discoveries, and any data or tangible materials that are associated with or embody Protectable Discoveries, discovered, developed, conceived, or reduced to practice by university employees through work performed within the scope of their duties at the university, by university employees or other persons using university resources not openly available to members of the general public, or by university employees or other persons through work performed under contracts or agreements with the university are the property of the university, effective immediately as of the time such
Protectable Discoveries are discovered, developed, conceived, or reduced to practice. Such persons, whether university employees or other persons subject to this Subsection, irrevocably assign to the university all right, title, and interest, worldwide to Protectable Discoveries, applications for legal protection of such Protectable Discoveries, and utility patents, plant patents, design patents, and plant variety protection certificates, or copyrights resulting from such Protectable Discoveries and shall cooperate with reasonable university requests for any documents and records needed to vest and memorialize the university's rights. Protectable Discoveries made by university employees or such other persons, and for which the university does not expressly disclaim ownership under this policy, are deemed to have been made under the conditions identified above for which ownership is claimed by and all rights in such Protectable Discoveries are assigned to the university. University employees must refrain from performing any act or entering into any agreement that would impair or attempt to defeat the university's rights in any Protectable Discovery.

Protectable Discoveries made by students, and without the use of university resources beyond those associated with normal coursework, will remain the property of the students, except when a Protectable Discovery is made in the course of employment at the university, or results from work directly related to employment responsibilities at the university, or from work or research performed under a grant or sponsorship.

A Protectable Discovery discovered, developed, or conceived and reduced to practice by university employees wholly on their own time, completely outside the scope of their duties at the university, and without the use of any university facilities (other than library resources) shall belong to that person, even though it falls within the field of competence relating to the natural person's university position. Any Protectable Discovery made by a university employee in the course of private consulting services carried out by the employee in conformance with the university's policy on professional consulting may be assigned to the consulting sponsor.

B. Royalties and Income

Net Proceeds derived from Protectable Discoveries are distributed by the university once yearly through its Research Division as follows: 40 percent to the Natural Person(s) and 60 percent to Boise State University. This is done in order to foster and advance scientific investigation and research at the university and to further the development of other intellectual property in order to spur the economic growth of Idaho and the nation.
V. University Processes

A. The Research Division is responsible for the development, management, marketing, licensing, and financing (such as the initial payment of legal fees) associated with the protection or registration of all Copyrightable Works and Protectable Discoveries (collectively "Intellectual Property") for which the university claims ownership under this policy, except for Course Materials. All such Intellectual Property must be disclosed to the Research Division. The Research Division has full power, responsibility, and authority to manage such rights and to enter into all contracts and licenses, including assignments, concerning such rights subject to SBOE policies and in accordance with the Idaho State Board of Education Institution Technology Licensing Guidelines.

B. Upon disclosure of Intellectual Property to the Research Division, the Research Division will communicate, as soon as practicable, its determination of whether the university wishes to pursue commercialization and/or a patent or other legal protection. The Research Division shall make reasonable efforts to complete its review and convey its determination to the Natural Person(s) disclosing the Intellectual Property within three (3) months after receiving a full and complete disclosure of the Intellectual Property.

1. If Boise State does not wish to pursue commercialization and/or patent or other formal legal protection for the Intellectual Property, the Research Division may, when allowable by any sponsored research agreements under which the Intellectual Property was disclosed, enter into a royalty-bearing license in accordance with the Idaho State Board of Education Institution Technology Licensing Guidelines for rights to the Intellectual Property with the Natural Person(s) within sixty (60) days of the date on which the determination not to pursue commercialization or formal protection of the Intellectual Property was conveyed to the Natural Person(s). In any such license, the licensee shall be responsible for all expenses, including legal expenses, relating to the Intellectual Property going forward and for the repayment of any costs and legal fees expended by the university in its prior efforts, if any, to protect or commercialize the Intellectual Property.

2. If Boise State decides to pursue commercialization and/or patent or other legal protection for the Intellectual Property, the Research Division shall when reasonable:

a) File a patent application and/or other legal protection documents within sixty (60) days of the date on which the
determination to pursue legal protection for the Intellectual Property was conveyed to the Natural Person(s);

b) Work with the Natural Person(s) to develop the terms and conditions of any license to the Intellectual Property;

c) Work with the Natural Person(s) to understand and communicate what reasonable expenses shall be deducted from any gross proceeds of the licensing agreement.

d) Not less than annually and for so long as Boise State owns the Intellectual Property, provide reports to the college or center with which the Natural Person(s) are affiliated regarding the Intellectual Property. The report will include (a) the status of any application until such time that protection is granted, (b) the marketing activities for the Intellectual Property being serviced, and (c) an accounting for funds received from the Intellectual Property. If the Research Division is unsuccessful in commercializing a property within three years after its first acceptance, the Research Division must notify the college or center in writing.

3. Boise State may, subject to state laws and to SBOE policies and in accordance with the Idaho State Board of Education Institution Technology Licensing Guidelines, negotiate terms and enter into contracts and licenses, including assignments, concerning the licensing, commercialization, or further development of Intellectual Property. This may include a grant of any or all Intellectual Property or license contract consideration to an affiliated research foundation.

VI. Protection

A. Allegations of unauthorized use or infringement of university owned Intellectual Property should be made to the Intellectual Property Dispute Committee for investigation. The committee will recommend appropriate action to the VP for Research.

B. If an infringement action is initiated by the university, the costs shall be borne by the university and are considered a reasonable expense of protecting the discovery. Proceeds from the action in excess of costs and other expenditures are shared as provided above.
C. Where the university is the owner of the Intellectual Property, only the university may initiate an infringement action notwithstanding the royalty interest of the Natural Person(s). In such matters, the decision of the university is final and the university will owe no recourse to the Natural Person(s) for such decision.

D. When licensing or conveying an interest in university owned Intellectual Property, the university will only license or convey interest when the Intellectual Property is to be further developed, used, or used to produce products for the good of society. The university will not license or convey for the sole or primary purpose of monetary gain or bringing an infringement action.

VII. Other Intellectual Property Rights

All intellectual property rights of the university, including other intellectual property rights not specifically referred to within this Policy, are to be treated in accordance with state law, SBOE Governing Policies and Procedures §V.M. and the Idaho State Board of Education Institution Technology Licensing Guidelines.

VIII. Dispute Resolution

Occasionally, disputes will arise concerning ownership of the Intellectual Property contemplated in this policy. Resolution of such disputes shall be achieved by the following procedure:

A. Intellectual Property Dispute Committee

The Intellectual Property Dispute Committee (“IPD Committee”) is an Ad Hoc Committee formed when necessary by appointments made by the VP for Research. Such appointments will be made by the VP for Research in consultation with the Provost if the matter in dispute involves Course Materials. The IPD Committee shall be composed of five (5) individuals and must include both university faculty and staff members. The VP for Research shall appoint the chair from among the committee members. Additionally, the university’s Office of the General Counsel shall appoint an ex officio representative to the IPD Committee.

The IPD Committee considers, investigates, and makes recommendations toward resolution of disputes concerning (1) ownership of copyrightable materials and Protectable Discoveries, and (2) allegations of unauthorized use or copyright infringement of University-Sponsored Materials. It reviews all relevant evidence submitted to it before making its recommendation to the VP for Research. The IPD Committee’s recommendation shall be
made no later than sixty (60) days after receiving the matter for consideration. The IPD Committee’s recommendation is determined by a majority of all its members voting by secret ballot at a meeting at which over one-half its appointed members are present. No member may participate in any matter in which their ownership rights are being determined.

B. Decision by the VP for Research

After receiving the recommendation of the IPD Committee, the VP for Research makes a decision concerning ownership or infringement. Such decision will be made by the VP for Research in consultation with the Provost if the matter in dispute involves Course Materials. The VP for Research’s decision is made no later than thirty (30) days after receiving the IPD Committee’s recommendation. That decision is transmitted in writing to the Natural Person(s) and to their departmental administrator and dean.

C. Appeal

The decision of the VP for Research may be appealed to the President of the university. The decision of the President shall be the final decision of the university.

Policy # 7010

POLICY INFORMATION
Major Functional Area (MFA): Office for Research and Economic Development
Policy Title: Intellectual Property Policy
 Responsible Executive (RE): Vice President for Research & Economic Development
 Sponsoring Organization (SO): Division for Innovation
Dates: Effective Date: June 12, 2012
Revised: __________, 2014
Annual Review: __________, 2014

I. INTRODUCTION
Idaho State University (ISU) is a Carnegie-classified doctoral research high institution committed to fostering an environment that encourages excellence in teaching, the creation of meaningful scholarly works, and research, both fundamental and applied, in areas that advance science, knowledge and solve real world problems faced by industry and society.

ISU recognizes that partnering with industry, governmental, and community entities is essential to:
- encourage the practical application of the results of institution research by industry for the broad public benefit;
- meet our obligations to sponsors of institution research;
- build research relationships with industry partners to enhance the research and educational experience of researchers and students;
- stimulate commercial uptake and investment;
- stimulate economic development; and
- ensure an appropriate return of taxpayer investments in our research.

Financial returns from technology licensing provide additional support for research and education, an incentive for faculty retention, and support of our technology transfer program. Successfully executing these initiatives will improve the quality and effectiveness of student learning and faculty development, enhance the reputation of ISU and the State of Idaho, and promote welfare and economic development of our community, state and the world.

ISU recognizes its obligation to comply with Section V.M. of the Governing Policies and Procedures of the Idaho State Board of Education (the “Board”) regarding intellectual property, and the Guidelines adopted thereunder. (Board policy and the Guidelines may be found at http://www.boardofed.idaho.gov). ISU, its employees and students and related third parties, are governed by this policy regarding all types of intellectual property rights and obligations.

II. POLICY STATEMENT
This Intellectual Property Policy applies to all ISU faculty, staff and students, as well as third parties performing work for ISU. It addresses ownership rights and revenue sharing for intellectual property. This Section is deemed to be a part of the conditions of employment for every employee of ISU, including faculty, staff and student employees, and of the conditions of enrollment and attendance for every student.

III. AUTHORITY AND RESPONSIBILITIES

Enforcement of this policy and the determination of whether a work falls within this policy is the responsibility of the Vice President for Research and Economic Development (VPR&ED) with assistance from ISU General Counsel and the Division for Innovation (DI). The DI is responsible for the protection, management, marketing, licensing of all intellectual property (defined below) for which ISU claims ownership under this policy.

IV. DEFINITIONS

For purposes of this policy, the following terms shall be defined as:

A. “copyrightable work,” means anything which constitutes an original work of authorship fixed in a tangible medium of expression and includes scholarly, professional and creative works.

B. “intellectual property” includes all types of intellectual property recognized under applicable law, including but not limited to any invention, discovery, creation, know-how, trade secret, technology, scientific or technological development, plant variety, research data, mark, design, mask work, work of authorship, and computer software regardless of whether subject to protection under patent, trademark, copyright or other applicable laws. The term “intellectual property” is to be construed broadly as including creative works in the arts and sciences and literary or scholarly writing.

C. “ISU-Sponsored Materials” is defined in Section VI.B.1 below.

D. “protectable discoveries,” means anything that might be protected by utility patent, process patent, plant patent, design patent, mask work, or trade secret.

E. “scholarly, professional and creative work” includes a pedagogical, scholarly, literary, or artistic work created by a faculty member (including full-time, part-time, and adjunct faculty members) as part of traditional academic activity. Scholarly, professional and creative works include, but are not limited to, books, journal articles, reviews, course syllabi, tests, course assignments, monographs, scholarly papers, musical compositions, works of art, computer programs, unpublished manuscripts, and recordings or transcriptions of lectures or performances. Scholarly, professional and creative works do include protectable discoveries.

F. “written” or “in writing” includes information created, generated, sent, communicated, received, or stored by electronic means, including without limitation email, telecopy, and facsimile transmissions.

V. PROCEDURES TO IMPLEMENT

The DI, under the direction of the VPR&ED, works with ISU faculty, staff, students, and industry and government partners to identify, protect, market and license intellectual property owned by ISU under this policy. The DI and the VPR&ED have the overall authority and responsibility for carrying out this policy and negotiating and signing contracts relating to the matters stated herein. In addition, the Provost and other applicable ISU Vice Presidents have the authority to negotiate and sign written contracts relating to certain copyrightable works under this policy as stated in Section VI.C.

VI. COPYRIGHTABLE WORKS

ISU acknowledges the right of faculty, staff members and students to prepare and publish scholarly, professional and creative works. Except as provided herein, ISU does not claim an ownership interest in such works.
A. **Ownership.** Under U.S. copyright law, an employer is presumed to own the copyright in a work created by an employee acting within the course and scope of employment. However, consistent with academic tradition, and to encourage scholarly work, ISU specifically disclaims its copyrights in the scholarly, professional, and creative works of its faculty and staff, except for “ISU-Sponsored Materials” as defined below. Except as provided below, faculty, staff members, and students retain ownership of the copyrights in the scholarly, professional and creative works they create, subject to the provisions in B. These include, but are not limited to such materials as books, workbooks, study guides, monographs, articles, and other works including music and performances, whether embodied in print, electronic format, or in other media. Ownership rights to copyrightable works created by third parties under contract with ISU will be as provided in the written contract under which the work is created. Any such contract must be in writing and signed by a person authorized to sign contracts on behalf of ISU.

B. **Exceptions.** ISU claims ownership in copyrightable works created by faculty, staff and students in the following situations:

1. **“ISU-Sponsored Materials”** Copyrightable works are “ISU-Sponsored Materials” if:
   a. they are commissioned for use by the University; or

   b. they are created by employees if the production of the materials is a specific responsibility of the position for which the employee is hired; or

   c. they are sponsored works, which are works resulting from internal grants (work created as a result of an agreement between the University and the creator(s) of the work) and external grants (work created as a result of an agreement between an external sponsor and the University). This provision does not apply to grants to perform research where the production of copyrightable materials is ancillary to the purpose of the grant. Employees and students continue to own the copyright to scholarly and other publications that present the findings of research, subject to the provisions of subsection 1 herein; or

   d. they are created by faculty, staff members, or students with the use of substantial University resources which are specifically provided to support the production of copyrightable materials. “Substantial University resources” is defined as funding, technical equipment, the paid time of other employees, or other resources over and above those which are regularly and customarily available to faculty, staff, and students as part of their regular employment or their regular academic enterprise or studies). Limited secretarial support, uses of the library for which special charges are not normally made, and the staff member’s own time (except as covered by subsections 1.a. and 1.b. herein) shall not be considered substantial University resources for purposes of this policy. Examples of “ISU-sponsored materials” which were created with the use of substantial university resources include recorded lectures or classroom presentations, audiovisual works, or other materials prepared for use in online or distance learning programs. (Note that in such instances, ISU’s claim of copyright ownership would apply only to the recorded material, and not to underlying lecture notes, research, published matter, etc., unless specifically provided otherwise in the agreement required below.) Other instances in which ISU could claim copyright ownership because of the use of substantial University resources are possible. In most cases, ISU will clarify copyright ownership in a written agreement with the creators, as set forth below, prior to committing substantial University resources.
e. Prior to the use of substantial University resources in the development of educational materials, the University shall enter into a written agreement with the author setting forth the terms of

(1) copyright ownership,

(2) division of net income from external sale, and

(3) use, revision and maintenance.

f. In the unusual circumstance in which materials are developed through the use of substantial University resources without an agreement, the University may, in its discretion, claim copyright ownership and/or a share of royalties.

2. Works covered by a valid written contract between the creator(s) and ISU as discussed in Section VI.C; and

3. Works covered by a research grant, as discussed in Section XI.

With respect to all of the copyrightable works to which ISU claims ownership under this Section, all persons, whether ISU employees or other persons subject to this Section, agree to assign and hereby irrevocably assign to ISU all right, title, and interest to such copyrightable works. ISU employees have a duty to refrain, and hereby agree to refrain, from any act that would impair or defeat ISU rights in any such copyrightable work.

C. Written Contracts with Faculty, Staff, Students and/or Third Parties. The VPR&ED or his/her designee represents ISU in negotiating contracts with any faculty member(s) creating or developing copyrightable works for ISU. Contracts with ISU staff members, students or with third parties involving the creation or development of copyrightable works may be entered into with the appropriate ISU Vice President for the functional unit paying for the work, or his or her designee. Any such contracts concerning creation of copyrighted works, including ownership, use, licensing, and distribution of royalties and income from copyrightable works supersede the other provisions of this Section. To be valid, such contracts must (1) comply with the terms of any relevant grants or contracts as discussed in Section XI below, (2) comply with the policies of Idaho State University, and (3) comply with Idaho state and federal law, including Section V.M. of the Governing Policies and Procedures of the Board.

D. Use of ISU-Sponsored Materials. Use of ISU-Sponsored Materials under this policy is subject to the following conditions:

1. Internal Use. Internal use is use by anyone employed by ISU, or attending ISU as a student, while acting within the scope of his or her employ or academic enterprise, or any agent of ISU acting within the scope of his or her agency, either directly or through a grant or contract, or by any ISU unit. Internal use of ISU-Sponsored Materials for the same general purpose for which they were developed, and revision of such materials, does not require the prior approval or notification of any of the creators. For as long as any creator remains an ISU employee or student, he or she may propose revisions of the material.

2. External Use. External use is any use other than that defined above. Licensing or sale of ISU-Sponsored Materials for external use must be preceded by a valid written contract between ISU or ISU’s designated agent and the licensee, specifying the conditions of use.

E. University Non-exclusive License for Public Access. In order to permit ISU to comply with public access mandates established by federal law or federal agency or university policy (e.g. the National Institutes of Health Public Access Policy, Division G, Title II, Section 218 of PL 110-161
[Consolidated Appropriations Act, 2008]) and related terms and conditions of research contracts, faculty, staff, and students accepting research grants or contracts from, and conducting research from United States federal agencies hereby grant ISU an irrevocable, non-exclusive, non-transferable, non-commercial, royalty-free license in copyrightable works produced as a result of such research, such license to be used solely to comply with public access mandates. This grant of non-exclusive license is deemed by ISU to be a special arrangement for federal grants and contracts, per Section XI, and is not subject to the disposition of rights described in VI.B or to negotiation or change in contracts entered into under Section VI.C.

F. Cooperation Required. Faculty members, staff members, and students must cooperate with reasonable requests from ISU for the creation of any documents and records needed to vest and memorialize ISU’s rights (whether ownership or licensing rights), if any, in copyrightable works.

G. Registration of Copyrightable Works. Absent a valid written contract otherwise, ISU-Sponsored Materials are to be registered in the name of the Idaho State University or its assignee. ISU or its designee has the right to file registrations of ISU-Sponsored Materials.

H. Liability. When either ISU or a faculty or staff member or student involved in the creation or development of works copyrighted by ISU or its assignee is alleged to have violated personal or property rights, ISU or its designated agent will assume responsibility for the defense against such allegation and the satisfaction of any judgment rendered against ISU or the faculty or staff member or student, except insofar as liability of governmental entities is limited by Idaho Code §6-903 as currently written or later amended.

I. Waiver. Any person involved in the development of copyrightable works governed by Section VI.B waives any claim that otherwise legal use of the work by ISU, its agents, employees, or units, creates legal liability for ISU, its agents, employees, or units on any theory of liability for any allegedly infringing actions of third parties.

J. Materials Protectable by Both Patent and Copyright Laws. Materials that may be protected under both patent and copyright laws (such as computer software) shall be treated as Protectable Discoveries and shall be subject to the disposition of ownership and the process for commercialization described in Section VII.

VII. PROTECTABLE DISCOVERIES

For purposes of this Section VII, the term “ISU employees” includes faculty members, staff members and student employees.

A. Claim of Ownership.

1. ISU Employees and Third Parties Performing Work for ISU: Effective immediately as of the time they are discovered, developed, conceived, or reduced to practice, all Protectable Discoveries, and any data or tangible materials that are associated with or embody Protectable Discoveries, shall be the property of ISU if they are discovered, developed, conceived, or reduced to practice:

   a. by ISU employees through work performed within the scope of their duties at ISU;
   b. by ISU employees or other persons using ISU resources not openly available to members of the general public; or
   c. by ISU employees or other persons through work performed under contracts with ISU.

2. Non-employee Students

   a. Undergraduate Students: Protectable Discoveries made by undergraduate students, and without the use of ISU resources beyond those associated with normal coursework, will remain the property of the students, except when a Protectable Discovery is made in the
course of employment at ISU, or results from work directly related to employment responsibilities at ISU or from work or research performed under a grant or other sponsorship, or is undertaken with another person who has a duty to make or has made an assignment to ISU under this policy.

b. Graduate Students: Protectable Discoveries made by graduate students in the course of employment at ISU or through research carried out as part of a post-baccalaureate or doctoral degree or other non-degree program, or resulting from work directly related to the graduate student’s employment, training or research responsibilities at ISU, or from work or research performed under a grant or other sponsorship, or undertaken with another person who has a duty to make or has made an assignment to ISU under this Section, shall be the property of ISU and shall be subject to this Section. Any Protectable Discoveries arising from a thesis or dissertation submitted as a part of the requirements for a degree shall be subject to this Section.

3. Assignment. All persons, whether ISU employees or other persons subject to this Section, agree to assign and do hereby irrevocably assign to ISU all right, title, and interest to Protectable Discoveries, applications for legal protection of such Protectable Discoveries, and utility patents, process patents, plant patents, design patents, and plant variety protection certificates, or copyrights resulting from such Protectable Discoveries. ISU employees have a duty to refrain, and hereby agree to refrain, from any act that would impair or defeat ISU rights in any Protectable Discovery.

B. Ownership by Other than ISU. A Protectable Discovery discovered, developed, or conceived and reduced to practice by ISU employees or other persons wholly on their own time, outside the scope of their duties at ISU, not performed under contracts with ISU, and without the use of ISU facilities (other than library resources) shall belong to that person, even if it falls within the field of competence relating to the person’s ISU position. This provision also allows any Protectable Discovery made by an ISU employee in the course of private consulting services carried out by the employee in conformance with ISU’s policy on professional consulting and additional workload to be assigned to the consulting sponsor.

C. Disclosure, Protection and Commercialization Processes.

1. DI is responsible for the development, management, marketing, licensing of all Protectable Discoveries for which ISU claims ownership under this policy. DI will manage Protectable Discoveries in the best interests of the state, the Board and ISU. This may include the generation of revenue, but nothing in this policy is to be interpreted as a requirement that revenue be maximized for individual creators.

2. All Protectable Discoveries must be disclosed to DI. Inventors and creators can disclose Protectable Discoveries using the disclosure form available on the DI website at http://www.isu.edu/research/innovation/.

3. Upon disclosure of a Protectable Discovery to DI, DI will evaluate the Protectable Discovery to determine the appropriate way to protect and manage it. For example, DI will evaluate whether the Protectable Discovery should be protected by trade secret, whether a patent application is warranted, or whether more research is required before a decision can be made. In making this determination, DI will take into account applicable legal standards, the degree of completion of the research or discovery, the expenses associated with the various means of protecting the Protectable Discovery, and the market for and estimated returns from commercializing the Protectable Discovery. DI will communicate, as soon as practicable, its determination regarding whether ISU wishes to pursue commercialization and/or a patent or
other legal protection. DI shall make reasonable efforts to complete its review and convey its determination to the person disclosing a Protectable Discovery within three (3) months after receiving a full and complete disclosure of the Protectable Discovery.

4. For so long as ISU owns the Protectable Discovery, DI will respond to reasonable requests for information from the persons involved in the invention of the Protectable Discovery and the college or center where the inventor(s) are located. Such information may include: a) the status of the application until such time that protection is granted, b) the marketing activities for the property being serviced, and c) an accounting for funds received from the property.

5. ISU’s marketing and commercialization efforts may include, at the discretion of the DI, transfer of an interest in the Protectable Discovery to an affiliated research foundation established for the purpose of commercialization of intellectual property. Any such transfer shall be made in a manner consistent with this Policy and the applicable policies of the State Board.

6. If DI determines not to pursue commercialization of a Protectable Discovery, ISU may elect, at its sole discretion and subject to controlling federal law including but not limited to 37 C.F.R. §401 (“Bayh-Dole”), to reconvey, assign, and transfer the Protectable Discovery to those person(s) involved in its creation.

D. Ownership Questions. Questions as to the ownership of a Protectable Discovery or division of proceeds between persons involved in development of such discoveries and departments are referred in the first instance to the VPR&ED. The disputes will be decided in accordance with Section IX.

VIII. ROYALTIES AND INCOME
DI will make provision to share the net proceeds, management, protection, and licensing expenses of any Protectable Discoveries created by an ISU employee as follows:

A. Expenses. Legal, development, marketing, or other expenses incurred by ISU in relation to the intellectual property will be paid by ISU. Any net proceeds received by ISU from licensing the intellectual property will be first used to reimburse these expenses, prior to any distributions.

B. Distribution of Net Proceeds. Absent a valid written contract to the contrary, the net proceeds from licensing Protectable Discoveries created by an ISU employee or student and owned by ISU pursuant to Section VII.A are distributed as follows: 40 percent to the employee and/or student inventor(s), 40 percent to the ISU Office for Research and Economic Development, and 20 percent to the college(s) or service unit(s) of the inventor(s).

IX. DISPUTE RESOLUTION
From time to time, disputes occur concerning ownership or other matters relating to the intellectual property contemplated in this policy. Resolution of such disputes shall be achieved by the following procedure:

A. Submission to the VPR. Any disputes under this policy will be submitted to the VPR&ED for consideration and resolution. The VPR&ED may, but is not required to, form an Intellectual Property Dispute Committee to investigate and make a recommendation to the VPR&ED regarding the dispute. The Committee members may include faculty members, graduate students, and/or individuals outside of ISU and will be appointed by the VPR&ED. After receiving the recommendation of the Committee, if one is formed or, if such a committee is not formed, after reviewing the available information, the VPR&ED will make a decision concerning the matter and will transmit his/her decision in writing to the inventor(s), to their departmental administrator and dean, and to the Provost.

B. Appeal of the Decision of the VPR&ED. The decision of the VPR&ED may be appealed to the President of ISU. Further appeals shall be made as from any other decision of an administrative body under the laws of the State of Idaho in effect from time to time.
X. PROTECTION
From time to time, allegations of unauthorized use or infringement of intellectual property owned by ISU under this policy may occur. The handling of such allegations shall be as follows:
A. Allegations should be forwarded to the VPR&ED for investigation. The VPR&ED, with the assistance of the Office of General Counsel, will investigate and may form an ad hoc committee made up of faculty, staff, graduate students, and/or outside persons. After investigation, the VPR&ED will recommend appropriate action to the President.
B. If an enforcement action is initiated by ISU alone or in concert with the inventor(s), the costs will be borne as may be agreed upon by ISU and inventors. Proceeds from the action will be first used to reimburse the expenses associated with the enforcement action, prior to any distributions. Any additional proceeds will be distributed as provided in Section VIII.B.
C. If the inventor(s) desire to institute a suit and ISU decides not to act, ISU will cooperate either by assigning to the inventor(s) such rights as are necessary for the inventor(s) to pursue redress or by some other reasonable method acceptable to ISU. The costs of the suit will be borne by the inventor(s) desiring to sue, who will also obtain any monetary relief obtained from the alleged infringer due to the prosecution of the suit.

XI. SPECIAL ARRANGEMENTS FOR FEDERAL, STATE, AND PRIVATE GRANTS
Nothing in this policy shall prevent ISU from accepting research grants from, and conducting research for, agencies of the United States upon terms and conditions under applicable provisions of federal law or regulations that require a different disposition of rights in any form of intellectual property. Moreover, nothing herein shall prevent cooperative arrangements with other state of Idaho or local agencies for research. Where receipt of a grant in support of research from any nonprofit agency or group may be dependent upon acceptance of terms and conditions of the established intellectual property policy of the grantor that differ from those stated herein, ISU may specifically authorize acceptance of such grants upon such terms and conditions. ISU may also specifically authorize contractual arrangements with industrial sponsors for different disposition of rights in any form of intellectual property resulting from its sponsored research. Provided however, that the terms of any such contractual arrangements must comply with the policies and guidelines of the SBOE and with Idaho state and federal laws.

XII. RECORD-KEEPING.
All ISU employees and/or departments involved in creating, preserving, or managing intellectual property as defined herein shall develop and follow appropriate record-keeping procedures and shall retain all documents as required by law and applicable State Board and ISU record retention policies.

XIII. REQUIRED ISU EMPLOYEE IP CONTRACTS
Attached are documents that all employees agree to as a condition of employment at ISU:
Attachment A Employment Agreement Concerning Intellectual Property;
Attachment C Disclosure of Invention Work in Progress; and
Attachment D Disclosure of Prior Contracts.
To be used for students and/or third parties involved in research:
Attachment B Memorandum of Understanding Regarding Research Participation and University Intellectual Property Rights;

XIV. ATTACHMENTS
Attachment A Employment Agreement Concerning Intellectual Property;
Attachment B Memorandum of Understanding Regarding Research Participation and University Intellectual Property Rights;  
Attachment C Disclosure of Invention Work in Progress; and  
Attachment D Disclosure of Prior Contracts.

EMPLOYMENT AGREEMENT CONCERNING INTELLECTUAL PROPERTY

PREAMBLE: ISU uses the following form of employment agreement concerning intellectual property.

ADDITIONAL NOTICE: ISU uses the Memorandum of Understanding form of agreement concerning intellectual property with non-employee students and third parties participating in ISU research activities. This allows the non-employee student to participate in ISU’s patent/copyright income distribution program.

Employment Agreement Regarding Intellectual Property

Between

The Idaho State University and _________________________

Pursuant to those policies, I hereby agree to the following:

A. With regard to Protectable Discoveries which include but are not limited to discoveries potentially protectable as a utility patent, plant patent, design patent, plant variety protection certificate, mask work, and trade secret:

   A-1. I understand that under ISU Intellectual Property Policy (the “IP Policy”), ISU owns all Protectable Discoveries discovered, developed, conceived, or reduced to practice by ISU employees through work performed within the scope of their duties at ISU, by ISU employees using ISU resources not openly available to members of the general public, or by ISU employees or other persons through work performed under contracts with ISU.

   A-2. Consistent with my obligations under the IP Policy, as a condition of my employment by ISU, I do hereby irrevocably assign to ISU all right, title, and interest to all Protectable Discoveries discovered, developed, conceived, or reduced to practice by me through work performed within the scope of my duties at ISU, using ISU resources not openly available to members of the general public, or through work performed under contracts with ISU, except to the extent ISU has expressly waived its claim of ownership in writing.

   A-3. I will disclose to ISU’s Division for Innovation (DI) all Protectable Discoveries subject to a claim of ownership by ISU under the IP Policy. If in doubt about the ownership or protectability of a discovery, I will confer with DI.

   A-4. I will exercise my best efforts in providing relevant documentation and will participate in actions to affirm and/or secure the rights, title and interests of ISU in such Protectable Discoveries.
A-5. I will refrain from any actions that would diminish or defeat ISU’s rights in Protectable Discoveries, including any action which might create a statutory bar preventing grant of patent on an otherwise patentable invention. I recognize that publication, public use, sale or offering for sale of such Protectable Discovery may create a statutory bar. When in doubt, I will consult with DI.

B. With regard to copyrightable works, as defined in the IP Policy:

I acknowledge that copyrightable works that I create may be the property of ISU, as explained in the IP Policy. I acknowledge that I have read these provisions and agree to them. Consistent with my obligations under the IP Policy, as a condition of my employment by ISU, I do hereby irrevocably assign to ISU all right, title, and interest to any copyrightable works to which ISU claims ownership under the IP Policy. I will cooperate with reasonable requirements of ISU to promptly assign or confirm in writing any possible right I might otherwise have in any copyrightable work when such right belongs to ISU according to the IP Policy.

C. I agree to inform all students and visiting scholars wishing to participate in my university research programs, about the ISU “Memorandum of Understanding Regarding Research Participation and ISU Intellectual Property Rights” available from the DI. I will not allow any student or visiting scholar to participate in my university research program who has not signed a copy of the “Memorandum of Understanding Regarding Research Participation and ISU Intellectual Property Rights” or an alternative document negotiated between ISU’s DI and the individual.

D. Attached to this contract are Disclosure of Invention Work in Progress, and Disclosure of Prior Contracts (together the “Disclosures”). The Disclosures set forth inventions and/or work with prior employers or firms with which I currently consult that may be Protectable Discoveries. The work referenced in the Disclosures is excluded specifically from ISU’s ownership claims so long as no ISU facilities (other than library resources) are used in further development of the works referenced in the Disclosures.

E. I acknowledge that I am under no consulting or other obligation to any third person, organization or corporation that is in conflict with ISU’s Research Policies or this Intellectual Property Agreement with respect to rights to Protectable Discoveries or copyrightable works. [NOTE - Any individual who believes that she/he cannot comply with this provision must contact either ISU Office for Research and Economic Development or Division for Innovation.]

Attachment B  
Memorandum of Understanding Regarding Research Participation  
And ISU Intellectual Property Rights

This memorandum of understanding is entered into by _____________________, a student or third party at Idaho State University (“participant”), ____________ , a professor/researcher at Idaho State University (“faculty”), and Idaho State University (“ISU”). The participant is involved in research activities or enrolled in __________________________________________, which may involve working on research or design projects. These activities or projects may or may not result in the development of intellectual property in which Idaho State University and/or a sponsor may have a proprietary interest. Therefore, it is important that the participant, faculty, and ISU have a full understanding of the participant’s rights and obligations regarding these proprietary interests, and intellectual property. This memorandum sets forth the understanding of the parties.

A. The participant acknowledges receipt of copies of the relevant intellectual property policies of the State Board of Education and the ISU Intellectual Property Policy.

B. The participant agrees to promptly disclose any discoveries he/she makes that may be protectable under any intellectual property theory, including but not limited to patent, copyright, mask work, and trade secret.

C. The participant has the right to submit any thesis, dissertation, or other academic product based upon or resulting from their work as part of the fulfillment of the requirements for obtaining an undergraduate, masters, or doctoral degree from ISU resulting from collaboration with ISU provided that such submission is done in a manner that does not create a statutory bar to the later grant of patent rights in an otherwise protectable discovery.

D. As a condition of and in exchange for the opportunity to participate in these projects and the right to receive royalties, the participant does hereby irrevocably assign to ISU all right, title, and interest to any copyrightable works relating to these projects and any Protectable Discoveries (as defined in the ISU Intellectual Property Policy), applications for legal protection of such Protectable Discoveries, and including but not limited to utility patents, process patents, plant patents, design patents, and plant variety protection certificates resulting from these projects. This assignment vests rights in ISU as provided for in ISU’s Intellectual Property Policy and is subject to the participant’s right to share in royalties in the same manner as employees of ISU. Participant agrees to cooperate with reasonable requirements of ISU to promptly assign or confirm in writing any possible right participant might otherwise have in any copyrightable work or Protectable Discovery when such right belongs to ISU according to the IP Policy.

BOISE STATE UNIVERSITY

SUBJECT
Agreement with Collegiate Licensing Company

REFERENCE
June 2007 Board approved 10 year agreement between Boise State University and the Collegiate Licensing Company

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies and Procedures, Section V.I.3.

BACKGROUND/DISCUSSION
In 2007, Boise State University (BSU) entered into an agreement to use Collegiate Licensing Company (CLC) as its agent for licensing Boise State University logo merchandise. The original contract was for 10 years with a post term penalty payment provision. BSU has renegotiated better terms with CLC, including removal of the post term penalty payment provision.\(^1\)

All companies that manufacture products bearing BSU trademarks pay a royalty fee based upon the wholesale cost of the product. CLC manages this process and collects the royalties. The royalties are paid to BSU and then the remaining balance is retained by CLC as fees. Boise State University, the University of Idaho and Idaho State University all currently use CLC as their licensing agent.

Under the prior contract, the royalty percentages were 70% of the first $100,000, 75% of the next $100,000, 80% of the next $50,000, and 82.5% of all revenue in excess of $250,000. The term was for 10 years with a post term payment equal to the prior year’s commission payment to CLA. There were no early termination rights absent an incurable breach of contract.

Under the current contract and under the proposed contract, BSU requires licensees to comply with CLC’s Labor Codes of Conduct and also requires licensees to join the Fair Labor Association to protect the conditions for the workers who will help create BSU licensed goods.

The term of the current agreement expires June 30, 2016.

\(^1\) The 2007 agreement provided that upon termination or expiration of the agreement all rights of CLC shall terminate except that CLC shall continue to receive royalty payments “for a period of one year following termination or expiration of this Agreement on all license agreements in effect as of the date of termination or expiration of this Agreement, regardless of when such license agreements expire.”
IMPACT

Last year (FY 2014), under the prior contract, gross royalties collected by CLC for Boise State merchandise were $928,588. Of that, BSU received $744,835 and CLC retained $183,753.

The proposed contract is for an initial term of five years with an option for an additional five years, at which point the royalty rate are subject to renegotiation. During the initial term, BSU will receive 82.5% of gross royalties collected by CLC. If the renewal option is exercised, CLC and BSU will negotiate in good faith a mutually fair rate; if the parties cannot agree on a rate and if BSU’s gross royalties are between $1.5 million and $2 million, the default increased royalty payable to BSU will be 85% of gross royalties.

At any point between the end of contract year four (4) and prior to the end of contract year nine (9), BSU may give one (1) year notice to terminate without cause. Upon such termination, the CLC commission will be increased by 5 percent for the final year. There will be no post term payment due to CLC.

If the contract reaches its natural expiration in year 10, there will be no reduction in BSU’s royalties and no post term payment will be due.

ATTACHMENTS

Attachment 1 – Proposed Contract Page 3
Attachment 2 – Current Contract Page 13

STAFF COMMENTS AND RECOMMENDATIONS

This proposed contract reflects a significant renegotiation of material terms to the benefit of BSU. BSU’s royalty take will increase to 82.5% of gross revenue as opposed to a tiered royalty schedule which maxed out at 82.5%. In addition, the contract eliminates any post term payment and prohibition of early termination rights.

Staff recommends approval.

BOARD ACTION

I move to approve the request by Boise State University to enter into the proposed contract with the Collegiate Licensing Company for licensing and marketing of logo merchandise for a term commencing retroactively on July 1, 2014 and terminating June 30, 2019, in substantial conformance with the agreement submitted to the Board as Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
AGENCY AGREEMENT

This is an Agreement between Boise State University, an institute of higher education of the state of Idaho, having its principal place of business at 1910 University Drive, Boise, Idaho 83725 ("University") and Collegiate Licensing Company, LLC, a limited liability company of the state of Georgia, having its principal place of business at 1075 Peachtree Street, Suite 3300, Atlanta, Georgia, 30309 ("CLC").

Whereas, University is the owner of certain Indicia, as hereinafter defined; and

Whereas, CLC desires to act as University’s exclusive agent to license the use of the Indicia, as hereinafter defined, in connection with the marketing of various articles of merchandise and to conduct certain Promotions, as hereinafter defined; and

Whereas, University desires to appoint CLC to act as University’s exclusive agent to license the use of the Indicia in such manner as to preserve the integrity, character and dignity of University and maintain the reputation of the Indicia as designating high quality merchandise.

Now, therefore, in consideration of the premises and the mutual promises and covenants herein contained, the parties hereto agree as follows:

1. DEFINITIONS - In addition to the terms defined elsewhere in this Agreement, as used in this Agreement, the following terms shall have the following respective meanings:

   (a) “Indicia” means the names and identifying indicia of the University including, without limitation, the trademarks, service marks, trade dress, team names, nicknames, abbreviations, city/state names in the appropriate context, slogans, designs, colors, uniform and helmet designs, distinctive landmarks, logographics, mascots, seals and other symbols associated with or referring to the University. Indicia includes those shown in Appendix A, modifications of the Indicia approved for use by the University, and any other names or identifying indicia adopted and approved for use by the University.

   (b) “Territory” means the United States of America, its territories, and possessions, and the Commonwealth of Puerto Rico, as well as United States military bases abroad.

   (c) “Licensed Articles” means products that contain the Indicia.

   (d) “Premium” means any article given free or sold at less than the usual selling price, for the purpose of increasing the sale, promoting or publicizing any other product or any service, including incentives for sales force, trade or consumer.

   (e) “Promotion” means any activity involving the presentation of Indicia through advertising, publicity, or other means of exposure, in or on merchandise, Premiums, point of purchase displays, print, electronic or any other medium.
(f) “Annual Revenue” means the revenue received by CLC resulting from the use of the Indicia, during the period of July 1st to June 30th of any year of this Agreement (“Contract Year”).

2. GRANT OF AGENCY - University appoints CLC as University’s exclusive agent to appoint licensees to use the Indicia on Licensed Articles and Premiums sold or distributed through approved channels in the Territory and to conduct Promotions in the Territory, in the manner, set forth in this Agreement. Notwithstanding the foregoing, this grant of agency shall not be exclusive, or shall not apply, with respect to any item of merchandise, Indicia, and/or company listed in Appendix B, and/or to any company doing business in a location listed in Appendix B, in accordance with the indications set forth in Appendix B. CLC shall work with the University to continue to grow and develop the University licensing program taking into account its distinct approach to licensing and its academic, athletic and business affairs as an institution of higher education. Notwithstanding any of the terms herein, University shall have full decision making over every aspect of its licensing program. CLC agrees that the artwork and licensee approval system and the retail intelligence reporting system will not be of a lesser standard than currently provided to University, and that CLC will continue to make improvements to its systems. CLC will continue to provide transparent reporting regularly, being no less than once per quarter on or around the payment accounting dates set out in Section 4 (a) below, and in addition ad hoc reporting at University’s reasonable request, in a manner that enables the University to properly manage its trademark licensing program. CLC agrees that it will provide high caliber account team of equal or better quality as currently being provided to University.

3. APPROVALS - CLC agrees that it will license the use of the Indicia only in connection with merchandise and promotions of the kind or character approved by the University. CLC acknowledges that if merchandise sold by licensees were of inferior quality in design, material or workmanship, the substantial goodwill that the University possesses in the Indicia may be impaired. Accordingly, CLC undertakes that the licensing and marketing will be done in such a way as to preserve the integrity, character and dignity of University and that the items of merchandise shall be of good quality.

   (a) CLC shall require licensees to submit items of merchandise and designs for approval prior to distribution or sale, either electronically via MyiCLC or as a sample or prototype of the actual product (hereinafter “Submissions”). CLC shall, in turn, inspect the Submissions, and then shall transmit or forward the Submissions to the University for its review in accordance with subparagraph 3(b).

   (b) Recognizing the time constraints of production schedules, University shall have two weeks from its receipt of a Submission to approve or disapprove said Submission, and if approved, with no further comment from the University, the Submission shall be deemed as accepted to serve as an example of quality for that item. In the event that the University fails to notify CLC of its decision within the two-week period, CLC will have the right to approve said Submission upon notice to the University, unless otherwise notified by the University.

   (c) CLC will submit to University for its approval all Promotions developed by CLC, as well as any Premiums related to said Promotions.
4. PAYMENTS

(a) With regard to Annual Revenue received by CLC resulting from use of the Indicia including, without limitation, royalties, minimum guarantee payments and advance payments from licensees during the Initial Term of this Agreement, as that term is defined in Section 11, CLC shall pay to University eighty two and one-half percent (82.5%) of all Annual Revenue during the Initial Term. Upon exercise by the University of the option to extend the Initial Term, as provided in Section 11, the parties shall agree to negotiate in good faith a mutually fair rate. In the event that the parties do not agree to such a rate, and provided that the Annual Revenue falls between $1.5 million and $2 million in the final Contract Year of the Initial Term, CLC shall increase the rate payable to the University to eighty five percent (85%) of all Annual Revenue for the remaining Contract Years. Payments hereunder shall be made to University quarterly within one month following each calendar quarter and shall be accompanied by a report setting forth activities resulting in said revenue and any other information as appropriate to enable an independent determination of the amounts due hereunder. CLC shall keep records of operations hereunder for at least four years after the date of payment and shall make such records reasonably available during normal business hours for examination by a representative of University to the extent necessary to verify the payments herein provided.

(b) In the event that the University exercises its termination right, per Section 11, after the 4th Contract Year of this Agreement, the CLC revenue share provided in Section 4(a) will be increased by 5% (and the University share accordingly reduced by 5%) for the final Contract Year of this Agreement.

(c) During each Contract Year of this Agreement, CLC shall pay for the University’s licensing director and one additional staff member to visit CLC’s office in Atlanta, Georgia to meet with the staff, analyze the current status and discuss the strategic initiatives of the licensing program. CLC shall also pay for the University’s licensing director and one additional staff member to attend the annual CLC seminar. CLC shall make and pay for all travel and accommodation directly.

(d) To the extent permitted by law, the University agrees that it will not disclose the terms of Paragraph 4 hereof to other colleges and universities without the prior consent of CLC, which consent shall not be unreasonably withheld.

5. MANNER OF PAYMENT - All amounts payable to University shall be paid in United States dollars by check made payable to Boise State University, and sent to Director of Trademark Licensing and Enforcement (currently Ms. Rachael Bickerton), Office of Trademark Licensing, Boise State University, 1910 University Drive, Boise, Idaho 83725.

6. LEGAL

(a) CLC agrees that, in any matter against a third party arising out of or related to this Agreement, except when University and CLC have conflicting interests, University shall have the sole right, in University’s discretion, to decide whether to file and prosecute an action or lawsuit, to control the prosecution or defense of any action or lawsuit in which University and CLC are named
parties, to appeal any judgment adverse to University as a joint or individual party, or to compromise or settle any potential or pending action or lawsuit. CLC further understands and agrees that University shall have the sole right, in University's discretion, to select and retain counsel for any of these purposes. University agrees to consult with CLC before making any final decision in any matter in which University and CLC are aligned against a third party, and University further agrees that it shall not commit CLC to the terms of any compromise or settlement which would make CLC wholly or partly responsible for the payment of money to a third party without the prior written consent of CLC, which shall not be unreasonably withheld.

(b) CLC agrees to provide, at reasonable cost to be borne by University, any evidence, documents, and testimony which may be requested by University to assist in the filing, prosecution, settlement, or appeal of any action or lawsuit, or potential action or lawsuit, in any court or in any state or federal agency, against any third party arising out of or related to this Agreement or in the defense by University of any action against University by any third party arising out of or related to this Agreement, and CLC shall join as a party plaintiff or defendant with University at University's request. In the event CLC is joined in any of said actions, either as party plaintiff or party defendant, it is understood that any expenses incurred by CLC in connection therewith, shall be paid by CLC and University shall have no liability for paying said expenses.

(c) University shall pay the costs and expenses of any action or lawsuit in any court or in any state or federal agency when University is a party thereto against a third party in any matter arising out of or related to this Agreement. Any award of attorneys' fees in any action in any court or in any state or federal agency shall be paid solely to University, and CLC shall not share therein. Any damages or profits ordered to be paid to University by any third party in any matter arising out of or related to this Agreement will, to the extent that such damages or profits are actually collected by University, be first retained by University to reimburse University fully for all costs and expenses incurred in the action or lawsuit, including compensation for the time spent by University's employees in connection with the action or lawsuit, and any remaining money, to the extent that it is compensation for royalties otherwise payable, will be divided between University and CLC as specified in Paragraph 4 of this Agreement.

7. NOTIFICATION OF CLAIMS - In the event that either University or CLC learns or becomes aware that any third party has made or may make a claim against University or CLC for any matter arising out of or related to this Agreement, the party learning or becoming aware of such actual or potential claim shall notify the other by telephone or email on the same day, and shall follow such notification with a full written report within 48 hours to be sent both by email and by United States Postal Service mail, certified and with return receipt requested.

8. INQUIRIES - University agrees that, if any potential licensee or other party directs an inquiry to University regarding Licensed Articles, Promotions, Premiums or other trademark use or licensing related issues, such inquiry will be forwarded to CLC for a response. CLC agrees that, upon receiving any inquiry from a potential licensee, whether from University or directly from such potential licensee, CLC will handle said licensee request in an expeditious manner.

9. RELATIONSHIP OF PARTIES - Nothing herein shall give CLC any right, title, or interest in
any Indicia of the University except the limited interest specifically stated in this Agreement, and all use by any licensee of any of the Indicia shall inure to the benefit of University. Neither CLC nor any licensee is empowered to state or imply, either directly or indirectly, that CLC or any licensee or any activities other than those pursuant to this Agreement and licenses issued pursuant to this Agreement are supported, endorsed or sponsored by University, and upon the direction of University, express disclaimers to that effect will be issued. Nothing herein shall be construed to place the parties in the relationship of partners or joint venturers, nor shall any similar relationship be deemed to exist between them.

10. INDEMNIFICATION - University shall have no liability for any item manufactured or sold by a licensee, and CLC shall require all licensees to indemnify and hold harmless University and officers, employees, servants, and agents thereof from any and all liability caused by or arising from workmanship, material or design of any item manufactured or sold under any Indicia pursuant to a license granted pursuant to this Agreement. CLC shall require of each licensee that it have and maintain liability insurance sufficient to cover all foreseeable product liability claims. University shall not be liable to CLC or to any licensee, as the result of activities by CLC or any licensee hereunder for infringement of any patent, copyright, or trademark belonging to any third party, or for damages or costs involved in any proceeding based upon any such infringement, or for any royalty or obligation incurred by CLC or any licensee because of any patent, copyright or trademark held by a third party except where Indicia is used as expressly authorized in this Agreement.

11. TERM - This Agreement shall have an effective date of July 1, 2014 and shall expire on June 30, 2019 (the “Initial Term”), unless sooner terminated or extended in accordance with the provisions hereof. This Agreement shall automatically be extended for additional yearly periods, through June 30, 2024, under the same terms and conditions unless either party shall give twelve (12) months written notice of termination by July 1 of the 4th Contract Year or by July 1 of any subsequent Contract Year.

12. TERMINATION OR EXPIRATION - Upon termination of this Agreement as provided in Section 11 above, CLC shall continue to receive compensation outlined in Paragraph 4 for the final Contract Year following notice of termination pursuant to Section 11.

13. DEFAULT - If either University or CLC shall fail to perform any of the material terms or conditions of this Agreement and such material breach shall not have been cured within thirty (30) days after the non-defaulting party has given written notice thereof, the non-defaulting party shall have the right to terminate this Agreement, without prejudice to the right of compensation for losses and damages.

14. INSOLVENCY - To the extent then permitted by law, this Agreement shall be terminated immediately if CLC shall make any assignment for the benefit of creditors, or shall file any petition under the Bankruptcy Act for reorganization, or file a voluntary petition of bankruptcy, or be adjudicated bankrupt or insolvent, or if any receiver is appointed for its business or property, or if any trustee in bankruptcy or insolvency shall be appointed under the laws of the United States or of the several states.
15. **NOTICES** - All notices and statements to be given and all payments to be made, shall be given or made to the parties at their respective addresses set forth herein, unless notification of a change of address is given in writing. Unless otherwise provided in the Agreement, all notices shall be sent by certified mail, return receipt requested with a copy sent by facsimile, the receipt of which is confirmed by confirmation document; email, confirmed by email receipt confirmation notice; or nationally recognized overnight delivery service that provides evidence of delivery, and shall be deemed to have been given at the time they are sent.

16. **SEVERABILITY** - In the event any portion of this Agreement is declared invalid or unenforceable for any reason, such portion is deemed severable herefrom and the remainder of this Agreement shall be deemed and remain fully valid and enforceable.

17. **NONASSIGNABILITY** - This Agreement and any rights herein granted are personal to CLC and shall not be assigned, sublicensed or encumbered without University’s written consent except that the Agreement and rights may be assigned along with CLC’s entire business in licensing the marks of universities, provided the obligations of the Agreement are assumed by the assignee.

18. **INTEGRATED AGREEMENT** - This Agreement constitutes the entire agreement and understanding between the parties hereto and specifically cancels, terminates and supersedes any prior agreement or understanding relating to the subject matter hereof between the University and CLC. There are no representations, promises, agreements, warranties, covenants or understandings other than those contained herein. None of the provisions of this Agreement may be waived or modified except expressly in writing and signed by both parties. However, failure of either party to require the performance of any term in this Agreement or the waiver by either party of any breach thereof shall not prevent subsequent enforcement of such term nor be deemed a waiver of any subsequent breach. Paragraph headings are for convenience only and shall not add to or detract from any of the terms or provisions of this Agreement. When necessary for appropriate meaning, a plural shall be deemed to be the singular and a singular shall be deemed to be the plural.

19. **APPLICABLE LAW; JURISDICTION AND VENUE** - This Agreement shall be construed in accordance with the laws of the state of Idaho. Any legal proceeding instituted between the parties to this Agreement shall be in the courts of the County of Ada, State of Idaho, and each of the parties agrees to submit to the jurisdiction of such courts.

20. **APPROVAL OF AGREEMENT** - This Agreement shall be subject to approval by the Idaho State Board of Education.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized representatives.

APPENDIX A
LICENSED INDICIA

BOISE STATE UNIVERSITY is the owner of all rights, title and interest in and to the following Indicia, which includes trademarks, service marks, trade names, designs, logos, seals and symbols.

PAGE 1
APRIL 1, 2013

IN ADDITION TO THE INDICIA SHOWN ABOVE, ANY INDICIA ADOPTED HEREAFTER AND USED OR APPROVED FOR USE BY BOISE STATE UNIVERSITY SHALL BE DEEMED TO BE ADDITIONS TO THE INDICIA AS SHOWN ABOVE AND SHALL BE SUBJECT TO THE TERMS AND CONDITIONS OF THE AGREEMENT.

NOTE: The marks of Boise State University are controlled under a licensing program administered by The Collegiate Licensing Company. Any use of these marks will require written approval from The Collegiate Licensing Company.

SCHOOL COLORS:

- Primary Colors:
  - Royal Blue
  - Orange

- Secondary Colors:
  - Black
  - White

- Tertiary Colors:
  - Light Gray
  - Royal Gray

ADDITIONAL INFORMATION:

- The primary mark or color is to be used on all products.
- The secondary marks or colors may be used on any product, as determined by Boise State University.

In addition to the Indicia shown above, any Indicia adopted hereafter and used or approved for use by Boise State University shall be deemed to be additions to the Indicia as shown above and shall be subject to the terms and conditions of the Agreement.

Note: The marks of Boise State University are controlled under a licensing program administered by The Collegiate Licensing Company. Any use of these marks will require written approval from The Collegiate Licensing Company.
APPENDIX B

EXCEPTIONS

The University concurs in the basic concept that no user of its marks and logos should be exempt from royalty payments and will make every good faith effort to comply with this concept. However, the University reserves the right to exempt any user from royalty payments if circumstances warrant that it would be in the best interests of the University, and does not unduly impact CLC’s ability to generate royalties under this Agreement. The exceptions are set forth below.

- University purchases for internal consumption.
- Boise State Bookstore – stationery items and school supplies only.
- License plates issued through the Idaho Department of Vehicles
- Merchandise produced under University’s crafter license program
- Non-merchandise licensing agreements such as corn mazes, sponsorship agreements and the like.
AGENCY AGREEMENT

This is an Agreement between Boise State University, an agency of the state of Idaho, having its principal place of business at Boise, Idaho 83725 ("University") and The Collegiate Licensing Company, a corporation of the state of Georgia, having its principal place of business at 290 Interstate North, Suite 200, Atlanta, Georgia 30339 ("CLC").

Whereas, University is the owner of certain designations including designs, trademarks, service marks, logographics, symbols and other Indicia, as hereinafter defined; and

Whereas, CLC desires to act as University’s exclusive agent to license the use of one or more of the Indicia, as hereinafter defined, in connection with the marketing of various articles of merchandise and to conduct certain Promotions, as hereinafter defined; and

Whereas, University desires to appoint CLC to act as University’s exclusive agent to license the use of the Indicia in such manner as to preserve the integrity, character and dignity of University and maintain the reputation of the Indicia as designating high quality merchandise.

Now, therefore, in consideration of the premises and the mutual promises and covenants herein contained, the parties hereto agree as follows:

1. DEFINITIONS - For the purposes hereof:

   (a) “Indicia” means the designs, trademarks, service marks, logographics and symbols which have come to be associated with the University including those set forth in Appendix A hereto.

   (b) “Territory” means the United States of America, its territories, and possessions, and the Commonwealth of Puerto Rico, as well as United States military bases abroad.

   (c) “Premium” means any article given free or sold at less than the usual selling price, for the purpose of increasing the sale, promoting or publicizing any other product or any service, including incentives for sales force, trade or consumer.

   (d) “Promotion” means any activity involving the presentation of Indicia through advertising, publicity, or other means of exposure, in or on merchandise, Premiums, point of purchase displays, print, electronic or any other medium.

   (e) “Annual Revenue” means the revenue received by CLC resulting from the use of the Indicia, during the period of July 1st to June 30th of any year of this Agreement.

2. GRANT OF AGENCY - Subject to the limitations of Paragraph 4, University appoints CLC as University’s exclusive agent to appoint licensees to use the Indicia on merchandise sold through retail channels in the Territory and to conduct Promotions in the Territory in the manner, but only in the manner, hereinafter set forth.
3. APPROVALS - CLC agrees that it will permit the use of the Indicia only in connection with merchandise and promotions of the kind or character approved by the University. CLC acknowledges that if merchandise sold by licensees were of inferior quality in design, material or workmanship, the substantial goodwill that the University possesses in the Indicia may be impaired. Accordingly, CLC undertakes that the marketing will be done in such a way as to preserve the integrity, character and dignity of University and that the items of merchandise shall be of high quality. To assure the implementation of the stated purposes, CLC will:

(a) For merchandise of the types described in Appendix B attached hereto, CLC will inspect a sample of the merchandise, and shall submit to the University for its approval in accordance with subparagraph 3(c), specification descriptions of the merchandise, photographs thereof, and, if amenable, sample swatches. In addition, when appropriate, on a rotating basis with other universities being represented by CLC with regard to the same merchandise, CLC may submit actual samples to one or more of said other universities. If approved by the University and if CLC believes that the sample is of the quality contemplated by this Agreement, CLC may approve the sample as the prototype of merchandise for production and sale.

(b) For merchandise of types not described in Appendix B or for which the indicia to be used thereon depart significantly from the Indicia in Appendix A, CLC shall, before it permits the sale or distribution of any item of merchandise, furnish to University free of cost, for its approval, a sample of each item of merchandise.

(c) Recognizing the time constraints of production schedules, University shall have two weeks from receipt of a sample for approval in which to reject said sample, and in the absence of rejection, or upon earlier written acceptance, the sample shall be deemed as accepted to serve as an example of quality for that item. Only items manufactured in accordance with the corresponding samples accepted hereunder, and which have substantially the same relative quality position in the marketplace as do the samples thereof, may be permitted to bear the Indicia. However, CLC may furnish to University a further sample of any item of merchandise for which a change in quality, style and/or appearance is desired, and University shall have two weeks from receipt thereof in which to reject the further sample in writing; failure to reject will be deemed to be approval of the further sample as an example of quality for that item of merchandise.

(d) CLC will submit to University for its approval all Promotions developed by CLC.

4. EXCEPTIONS - The grant of Paragraph 2 shall not be exclusive, or shall not apply with respect to any item of merchandise, Indicia, and/or company listed in Appendix C hereto, and/or to any company doing business in a location listed in Appendix C, in accordance with the indications set forth in Appendix C.
5. **PAYMENTS**

(a) With regard to Annual Revenue received by CLC resulting from use of the Indicia including, without limitation, royalties, minimum guarantee payments and licensing fees from licensees during the Term, and any extensions and/or renewals, of this Agreement, CLC shall pay to University seventy percent (70%) of the first one hundred thousand dollars ($100,000), seventy five percent (75%) of the next one hundred thousand dollars ($100,000), eighty percent (80%) of the next fifty thousand dollars ($50,000), and eighty two and one-half percent (82.5%) of all revenue in excess of two hundred fifty thousand dollars ($250,000). Payments hereunder shall be made to University quarterly within thirty (30) days following each calendar quarter and shall be accompanied by a report setting forth activities resulting in said revenue and any other information as appropriate to enable an independent determination of the amounts due hereunder. CLC shall keep records of operations hereunder for at least four years after the date of payment and shall make such records reasonably available during normal business hours for examination by a representative of University to the extent necessary to verify the payments herein provided.

(b) To the extent permitted by law, the University agrees that it will not disclose the terms of Paragraph 5 hereof to other colleges and universities without the prior consent of CLC, which consent shall not be unreasonably withheld.

6. **MANNER OF PAYMENT** - All amounts payable to University shall be paid in United States dollars by check made payable to Boise State University, and sent to Mr. Brad Larrondo, Assistant Athletic Director, Boise State University, 1910 University Drive, Boise, Idaho 83725-1020.

7. **LEGAL**

(a) CLC understands and agrees that, except when University and CLC have conflicting interests, University shall have the sole right, in University’s discretion, to control the prosecution or defense of any action or lawsuit in which University and CLC are named parties, to decide whether to file and prosecute an action or lawsuit, or to appeal any judgment adverse to University as a joint or individual party, or to compromise or settle any potential or pending action or lawsuit, in any matter against a third party arising out of or related to this Agreement. CLC further understands and agrees that University shall have the sole right, in University’s discretion, to select and retain counsel for any of these purposes. University agrees to consult with CLC, to the extent that it is feasible and not prejudicial to University’s interest, before making any final decision in any matter in which University and CLC are aligned against a third party, and University further agrees that it shall not commit CLC to the terms of any compromise or settlement which would make CLC wholly or partly responsible for the payment of money to a third party without the prior written consent of CLC, which shall not be unreasonably withheld.

(b) CLC undertakes and agrees to provide, at reasonable cost to be borne by University, any evidence, documents, and testimony which may be requested by University to assist in the filing,
prosecution, settlement, or appeal of any action or lawsuit, or potential action or lawsuit, in any court or in any state or federal agency, against any third party arising out of or related to this Agreement or in the defense by University of any action against University by any third party arising out of or related to this Agreement, and CLC shall join as a party plaintiff or defendant with University at University’s request. In the event CLC is joined in any of said actions, either as party plaintiff or party defendant, it is understood that any expenses incurred by CLC in connection therewith, shall be paid by CLC and University shall have no liability for paying said expenses.

(c) University shall pay the costs and expenses of any action or lawsuit in any court or in any state or federal agency when University is a party thereto against a third party in any matter arising out of or related to this Agreement. Any award of attorneys’ fees in any action in any court or in any state or federal agency shall be paid solely to University, and CLC shall not share therein. Any damages or profits ordered to be paid to University by any third party in any matter arising out of or related to this Agreement will, to the extent that such damages or profits are actually collected by University, be first retained by University to reimburse University fully for all costs and expenses incurred in the action or lawsuit, including compensation for the time spent by University’s employees in connection with the action or lawsuit, and any remaining money, to the extent that it is compensation for royalties otherwise payable, will be divided between University and CLC as specified in Paragraph 5 of this Agreement.

8. NOTIFICATION OF CLAIMS - In the event that either University or CLC learns or becomes aware that any third party has made or may make a claim against University or CLC for any matter arising out of or related to this Agreement, the party learning or becoming aware of such actual or potential claim shall notify the other by telephone on the same day, and shall follow such telephonic notification with a full written report within 48 hours.

9. INQUIRIES - University agrees that, if any potential licensee of any Indicia directs an inquiry to University, such inquiry will be forwarded to CLC for a response. CLC agrees that, upon receiving any inquiry from a potential licensee, whether from University or directly from such potential licensee, CLC will handle said licensee request in an expeditious manner.

10. RELATIONSHIP OF PARTIES - Nothing herein shall give CLC any right, title, or interest in any Indicia of the University except the limited interest specifically stated in this Agreement, and all use by any licensee of any of the Indicia shall inure to the benefit of University. Neither CLC nor any licensee is empowered to state or imply, either directly or indirectly, that CLC or any licensee or any activities other than those pursuant to this Agreement and licenses issued pursuant to this Agreement are supported, endorsed or sponsored by University, and upon the direction of University, express disclaimers to that effect will be issued. Nothing herein shall be construed to place the parties in the relationship of partners or joint venturers, nor shall any similar relationship be deemed to exist between them.
11. INDEMNIFICATION - University shall have no liability for any item manufactured or sold by a licensee, and CLC shall require all licensees to indemnify and hold harmless University and officers, employees, servants, and agents thereof from any and all liability caused by or arising from workmanship, material or design of any item manufactured or sold under any Indicia pursuant to a license granted pursuant to this Agreement. CLC shall require of each licensee that it have and maintain liability insurance sufficient to cover all foreseeable product liability claims. University shall not be liable to CLC or to any licensee, as the result of activities by CLC or any licensee hereunder for infringement of any patent, copyright, or trademark belonging to any third party, or for damages or costs involved in any proceeding based upon any such infringement, or for any royalty or obligation incurred by CLC or any licensee because of any patent, copyright or trademark held by a third party except where Indicia is used as expressly authorized in this Agreement.

12. TERM - This Agreement shall begin on July 1, 2006 and shall expire on June 30, 2016, unless sooner terminated or extended in accordance with the provisions hereof. This Agreement shall automatically be extended for additional yearly periods under the same terms and conditions unless either party shall give written notice of termination at least ninety (90) days prior to the end of the respective period.

13. TERMINATION OR EXPIRATION - Upon termination or expiration of this Agreement, all rights of CLC shall forthwith terminate except that CLC shall continue to receive compensation outlined in Paragraph 5 for a period of one year following termination or expiration of this Agreement on all license agreements in effect as of the date of termination or expiration of this Agreement, regardless of when such license agreements expire. However, CLC shall not have the right to receive such compensation in the event that the University terminates the Agreement as a result of a breach of the Agreement by CLC, or if CLC terminates the Agreement for any reason.

14. CORRESPONDENCE OF LICENSES - The term of any license granted by CLC shall, as far as feasible, terminate no later than the termination of this Agreement.

15. DEFAULT - If either University or CLC shall fail to perform any of the material terms or conditions of this Agreement and such material breach shall not have been cured within thirty (30) days after the non-defaulting party has given written notice thereof, the non-defaulting party shall have the right to terminate this Agreement, without prejudice to the right of compensation for losses and damages.

16. INSOLVENCY - To the extent then permitted by law, this Agreement shall be terminated immediately if CLC shall make any assignment for the benefit of creditors, or shall file any petition under the Bankruptcy Act for reorganization, or file a voluntary petition of bankruptcy, or be adjudicated bankrupt or insolvent, or if any receiver is appointed for its business or property, or if any trustee in bankruptcy or insolvency shall be appointed under the laws of the United States or of the several states.
17. NOTICES - All notices and statements to be given and all payments to be made hereunder, shall be given or made at the respective addresses of the parties as set forth above unless notification of a change of address is given in writing. Any notice shall be sent by registered or certified mail, or by mailgram, telex, TWX, telegram, or facsimile, and shall be deemed to have been given at the time it was mailed or transmitted.

18. SEVERABILITY - In the event any portion of this Agreement is declared invalid or unenforceable for any reason, such portion is deemed severable herefrom and the remainder of this Agreement shall be deemed and remain fully valid and enforceable.

19. NONASSIGNABILITY - This Agreement and any rights herein granted are personal to CLC and shall not be assigned, sublicensed or encumbered without University’s written consent except that the Agreement and rights may be assigned along with CLC’s entire business in licensing the marks of universities, provided the obligations of the Agreement are assumed by the assignee.

20. INTEGRATED AGREEMENT - This Agreement constitutes the entire agreement and understanding between the parties hereto and cancels, terminates and supersedes any prior agreement or understanding relating to the subject matter hereof between the University and CLC. There are no representations, promises, agreements, warranties, covenants or understandings other than those contained herein. None of the provisions of this Agreement may be waived or modified except expressly in writing and signed by both parties. However, failure of either party to require the performance of any term in this Agreement or the waiver by either party of any breach thereof shall not prevent subsequent enforcement of such term nor be deemed a waiver of any subsequent breach. Paragraph headings are for convenience only and shall not add to or detract from any of the terms or provisions of this Agreement. When necessary for appropriate meaning, a plural shall be deemed to be the singular and a singular shall be deemed to be the plural.

21. APPLICABLE LAW - This Agreement shall be construed in accordance with the laws of the state of Idaho.

22. APPROVAL OF AGREEMENT – This Agreement may not take effect until it has been approved by the Idaho State Board of Education.

BOISE STATE UNIVERSITY

SUBJECT
Alumni and Friends Center Development and Occupancy Agreement

REFERENCE
February 2008 The Idaho State Board of Education (Board) approved University/Foundation Land Exchange Agreement
February 2013 Board approved modification to University/Foundation Land Exchange Agreement

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Sections V.E.2.b.v, vi, xvi and V.I.2

BACKGROUND/DISCUSSION
In 2008 the Board approved a land exchange agreement between Boise State University (BSU) and the Boise State University Foundation. A modification to that agreement was approved by the Board in 2013. The purpose of the land exchange agreement was to provide the Foundation ownership of and the opportunity to redevelop the project site for the future Alumni and Friends Center. BSU, the Foundation, and the Alumni Association share a common mission to engage the community to support BSU, including its students and alumni. This new facility will not only provide much needed office space for BSU, Foundation and Alumni Association staff, but it will also provide modern meeting and event spaces for enhanced community engagement activities. This facility will be a prominent building near the east entrance to the campus and represents a significant improvement to BSU campus.

The Alumni and Friends Center is not a BSU project and is being funded by donations and other funds secured by the Foundation; however, BSU will occupy a large percentage of the facility and the commitment required for such use requires Board approval.

Attachment 1 is an “Agreement for the Development, Occupancy, Ownership and Use of the Alumni and Friends Center” detailing the financial and operational commitments for which BSU seeks Board approval.

The proposed commitment is very similar to the Board approved transaction for the Ron and Linda Yanke Family Research Park. In that transaction the Foundation raised private donations and issued debt to secure the facility. The cost of the Foundation’s debt was passed through to BSU in the form of an annual lease payment. The BSU was then responsible for the lease payment, operations and maintenance of the facility. When the Foundation’s debt was fully
serviced, the lease payments ceased and ownership of the Yanke facility was deeded to BSU.

Similarly, the Foundation and Alumni Association have secured considerable private donations for the Alumni and Friends Center (approximately $7 million), but the project needs an additional $5 million to be fully funded.

**IMPACT**

The Foundation intends to secure a maximum of $5 million in debt (less if more is fundraised) to finance the remainder of the funds needed for this project. The Foundation has worked closely with BSU in soliciting financing bids from local financial institutions. The current leading bid is a proposed ten year, fixed interest rate loan, at an annual interest rate of 2.32%. Those terms, when applied to a $5 million loan amount, result in an annual loan payment of approximately $566,000. This information is based on a bid received June 25, 2014. The Foundation will not enter into the loan agreement until Board approval of Attachment 1. As such the interest rate quoted for the loan is subject to market conditions and may change.

The Foundation’s cost of debt will be passed through to BSU in the form of an annual lease payment. After ten annual lease payments (assuming a ten-year fully amortized loan), the Foundation’s debt will be fully serviced and the Foundation will deed the property to BSU.

In addition to the annual lease payment, BSU is responsible to operate and maintain the facility. The Foundation’s property, building, and Agreement (Attachment 1) with BSU may be used as security for the loan.

**ATTACHMENTS**

Attachment 1 - Occupancy, Ownership and Use Agreement Page 5

**STAFF COMMENTS AND RECOMMENDATIONS**

The referenced Agreement provides that in the event the Foundation finances unmet project costs, the “Foundation will make reasonable efforts to finance the debt on the most favorable terms available.” If required by the lender, BSU would guaranty the loan, subordinate to “any obligations that are a priority to any secured creditors of BSU.”

In addition to lease payments sufficient to pay down principal and interest on the loan, the Agreement commits BSU to pay as additional rent (i) “any loan fees, or other costs, fees and expenses associated with the financing of … design and construction;” and (ii) expenses incurred in excess of project costs, including insurance and property taxes.

Whereas the Foundation exists for the benefit of BSU, the terms of this proposed Agreement are reasonable. Staff recommends approval.
BOARD ACTION

I move to authorize Boise State University to enter into the University/Foundation Development, Occupancy, Ownership and Use Agreement in substantial conformance with the document as presented in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
AGREEMENT FOR THE DEVELOPMENT, OCCUPANCY, OWNERSHIP AND USE OF THE ALUMNI AND FRIENDS CENTER

THIS AGREEMENT is made and entered into this _____ day of __________, 2014 (“Effective Date”), by, among, and between BOISE STATE UNIVERSITY, an agency and institution of higher education of the State of Idaho (the “University”) and BOISE STATE UNIVERSITY FOUNDATION, INC., an Idaho nonprofit corporation separate and independent from Boise State University but existing solely to engage in activities designed to support and benefit University (the “Foundation”), and the BOISE STATE UNIVERSITY ALUMNI ASSOCIATION, INC., an Idaho nonprofit corporation (the “Alumni Association”).

RECITALS

WHEREAS, consistent with its purpose to engage in activities designed to support and benefit University, University, Foundation, and Alumni Association have completed a Real Property Exchange and Charitable Contribution Agreement (“Exchange Agreement”) to exchange properties which resulted in the Foundation’s ownership of certain parcels of real property formerly owned by University and Alumni Association, and described more fully on Exhibit A hereto (the “Foundation Property”); and

WHEREAS, the three parties are mutually interested in the development of the Foundation Property by virtue of construction by the Foundation of a new “Alumni and Friends Center” building or alternatively named building and other improvements (the “Building”) on the Foundation Property as contemplated by State Board of Education formal action on February 21, 2013 at its regular meeting; and

WHEREAS, upon Foundation’s completion of the Building and upon the occurrence of the Foundation incurring debt to cover a portion of the construction costs, the parties have agreed that a portion of the Building’s office or other space will be leased from the Foundation to University; and

WHEREAS, at a point in the future, the University, Foundation, and Alumni Association have further agreed that the Foundation will deed the Foundation Property (to the real property and improvements including the Building) back to the University, and that University will likewise lease a portion of the Building back to the Foundation; and

WHEREAS, the parties have agreed that the Alumni Association shall have certain rights to use the Building; and
WHEREAS, these Recitals shall be limited by and construed to be in accordance with the terms and conditions contained in the body of the Agreement set forth below.

AGREEMENT

NOW THEREFORE, in consideration of the mutual covenants, conditions, agreements and obligations contained herein, University, Foundation and Alumni Association agree as follows:

1. Design and Construction Costs.
The Building will be designed and constructed by the Foundation upon the Foundation Property at an estimated total project cost of $12,000,000 ("Project Cost"). Approximately $7,000,000 has, as of the date of execution, been received by the Foundation from generous donors and is being held and reserved, and shall be applied to the total construction cost of the Building and other improvements (collectively, the “Project”). The remaining balance of approximately $5,000,000 is anticipated to be raised either by continued donations or through the use of a loan or other debt instrument.

2. Aid and Assistance; Design Collaboration; Compliance with University Design Standards.
   a. University agrees to cooperate with and assist the Foundation during the City of Boise permitting process for design and construction of the Building. Notwithstanding University’s agreement to cooperate with and assist Foundation, Foundation acknowledges and agrees that University is not responsible for the outcome of such permitting process, and all final decisions regarding design and construction, and permitting responsibility, rest with the Foundation.
   
   b. Preliminary design plans for the Building are attached as Exhibit B. Foundation will collaborate with University and Alumni Association in the continued development of the design of the Building, including but not limited to Building exterior design (including, without limitation, Building elevation, materials, color, canopy sections and other pertinent details), Building density, and Building height. The final design and construction of the new Building will meet the design and guideline standards established by University Architectural & Engineering Services.

3. Construction Costs and Financing; University Guaranty
In the event Foundation receives a loan or otherwise incurs debt to fund the remaining unmet construction costs of approximately $5,000,000, Foundation will make reasonable efforts to finance the debt on the most favorable terms available, and the debt may be structured in any manner, including but not limited to traditional or balloon financing or tax-exempt bond financing. The University shall guaranty the loan, upon the request of the Foundation if required by the lender or if such guaranty would result in more favorable financing terms. Execution by the University of any of guaranty documents required by this Section shall not create any obligations that are a priority to
any secured creditors of the University. Foundation will apply all future donations to the Building which are not otherwise restricted, less any gift or administration fees or related costs, to the repayment of the principal until such time as the debt is repaid, and University shall pay all other amounts due to principal and interest due and owing during the term of the loan and upon maturity of the loan in consideration for the University’s lease of the University Office Space, as further set forth in Section 5 below.

4. Construction
Foundation will begin construction of the Building to have approximately 39,000 square feet within one (1) year following the Effective Date of this Agreement, unless it is necessary in the Foundation’s reasonable discretion to extend the construction commencement date.

5. Lease of a Portion of Building to University if Foundation Incurs Debt.
In the event Foundation incurs debt to fund the remaining unmet construction costs (the “Debt Obligation”), Foundation shall lease the “University Office Space,” defined as all of the Building except the Foundation Office Space (defined below) and provide the University with the quiet enjoyment of the University Office Space pursuant to the terms set forth herein (the “University Lease”). The Foundation shall retain office space within the Building that is adequate to accommodate its staff (the “Foundation Office Space”) in an amount generally consistent with the Foundation’s historical usage of space per staff member, and any dispute concerning such allocation shall be resolved in accordance with Section 11 of this Agreement. The Lease shall contain the following terms and conditions:

a. In consideration for the leased University Office Space, University shall pay lease payments (the “Lease Payments”) which shall be sufficient to pay the amount of principal, if any, including any mandatory prepayment or redemption, and interest on the Foundation’s Debt Obligation coming due on the next applicable payment date.

b. In addition, the University shall pay as additional rent, within a reasonable timeframe after receipt of an invoice therefor from the Foundation: (i) any loan fees or other costs, fees and expenses associated with the financing of the Foundation’s design and construction of the Building, and (ii) any and all expenses incurred by the Foundation in excess of the Project Costs in connection with the Building’s construction (“Additional Expenses”), including, without limitation, any insurance costs paid by the Foundation, closing costs associated with the purchase of the Property, and any property tax(es) against the Property assessed, incurred and/or becoming due and payable, provided that the Foundation will incur no such Additional Expenses without the prior consent of the University, and such consent will not be unreasonably withheld and shall be provided as timely as possible.

c. The University’s obligations under the Lease, including the Lease Payments and Additional Rent, shall be subordinate to the University’s existing and future
secured obligations, including but not limited to general obligation bonds or student fee revenue bonds issued by the University.

d. University will take immediate possession of the University Office Space upon completion of the Building and issuance of a certificate of occupancy. The University will remain in continuous, uninterrupted possession and control of the University Office Space until the Debt Obligation is fully paid and discharged. The University shall not assign the Lease or sublet the University Office Space, except as follows: University may assign or sublet portions of the University Office Space during the term of this Agreement to entities it partners with on projects related to a University purpose, so long as (i) any use of the University Office Space by any third party is in compliance with the terms of this Agreement, including without limitation subsection (c) below with regard to Permitted Use, and (ii) the Foundation provides prior consent to the lease or sublease of the University Office Space, which consent will not be unreasonably withheld.

e. The University acknowledges and agrees that the Building may be used only for the purposes set forth herein, which are primarily for University Advancement and alumni-related purposes (the “Permitted Use”), and such incidental uses related to the Permitted Use including (without limitation) (i) faculty meetings, (ii) community informational meetings, and (iii) general office use in direct support of the educational and University Advancement endeavors. Additionally, during the term of the lease, University’s use of the Building and University Office Space shall at all times be in compliance with all law applicable to the University and the Foundation, and any applicable donor agreements.

f. The Foundation shall secure property and premise liability insurance for the Foundation Property, and the University shall, as part of the Additional Expenses, reimburse the Foundation all costs paid for such insurance. To the extent any loss on or of the Foundation Property is not covered by the Foundation’s insurance, University shall bear all risk of loss of the improvements on the Foundation Property. If the Building or any other improvements are destroyed or rendered unusable by an event covered by the Foundation’s insurance, the proceeds of such insurance shall belong to the Foundation.

g. To the extent permitted by applicable law and subject to the limitations of Idaho Code Sections 6-901-6-929, the Idaho Tort Claims Act, University does hereby agree to indemnify and defend the Foundation from and against any and all claims in any way related to the Property or its use by the University or any person or entity. This indemnification is intended to be construed as broadly as possible, and shall relate to any claims whatsoever involving the Foundation Property and its use, extending, without limitation, to claims that result from the University’s breach of any provision in this Agreement as well as claims that do not result from the University’s breach of any provision herein. Nothing in this Agreement shall be construed as to obligate the University beyond the limits of the Idaho Tort Claims Act or waive the University’s sovereign immunity.
h. University shall be responsible for all maintenance, janitorial, utility, repair and operational expenses of the Foundation Property and Building. The University shall use its sole discretion in what maintenance or repair is required and shall perform the same at its own expense; provided, however, that the University shall keep the Foundation Property and Building in good operating condition at all times, and agrees to promptly repair and restore Foundation Property and Building to a condition as good as received by the University from the Foundation or as thereafter improved, reasonable wear and tear excepted. All costs, utilities, assessments or any other obligation associated with the use and occupation of the Foundation Property and Building shall be borne by the University.

i. The University shall maintain and operate the Foundation Property and Building in accordance with all applicable laws, rules, codes and regulations of any applicable governmental entity(ies), including without limitation the Americans With Disabilities Act of 1990, as amended from time to time (the “ADA”). The University shall not enter into any change of use of the Foundation Property and Building, whether approved by the Foundation or not, if such change in use would result in increased liability of the Foundation under the ADA or any shifting of liability between the University and the Foundation as a result of any such change of use. University shall indemnify and hold the Foundation harmless from and against any and all claims arising from non-compliance or alleged non-compliance with the provisions of the ADA in effect during the term of the lease, including any extensions and renewals, due to the University’s changes or alterations to the Foundation Property and Building and/or the passageways, pedestrian walkways, sidewalks or parking, and from and against all costs, attorney fees, expenses and liabilities incurred in or from any such claim.

j. University may make such changes or improvements to the Foundation Property and Building only with the written consent of the Foundation.

k. University shall have the right to provide exterior signage upon the Foundation Property and the Building in its reasonable discretion, so long as the signage is in accordance with all applicable laws and regulations and in accordance with any naming rights granted by the University to any donors in recognition of charitable gifts.

l. Foundation shall have no duty whatsoever as landlord for the condition of the University Office Space and all such duties or responsibilities are hereby assumed by the University. The Foundation’s sole duties are those specifically set forth herein.

6. Term of University Lease
In the event the Foundation incurs debt for any unmet construction costs, the term of University tenancy shall begin on the date such debt is incurred, and will terminate upon payment in full of the Debt Obligation in accordance with the provisions of this Agreement. In the event no debt is incurred, the Foundation Property and Building will be deeded in fee simple to University upon completion of the construction of the Building in accordance with the terms below.
7. **Deed to Property and Improvements – Foundation Tenancy**
In the event that (i) the Foundation determines that no debt financing is necessary to complete the Building due to receipt of adequate donations, or (ii) the Foundation incurs debt for any unmet construction costs and the principal and interest on the loan or debt is paid in full by the Foundation and/or University, then, in either case, the Foundation will immediately deed the Foundation Property and Building in fee simple to the University for an amount of ten dollars in accordance with the following terms and conditions:

a. Foundation shall prepare and record all legal documents University may require to evidence ownership and conveyance of the Foundation Property, the Building, and any other improvements upon the Foundation Property.

b. Ownership will be conveyed without lien(s), deed(s) of trust, loan(s), or any other form of lien or other encumbrance. Foundation’s personal property will not be considered improvements and will not be conveyed.

c. Upon conveyance to the University, University shall be solely responsible for any and all costs associated with the Foundation Property and Building, including without limitation, all operational, janitorial, insurance, property taxes, maintenance, utility, and repair costs.

d. Following the date of the recordation of ownership by University, Foundation may remain in and occupy the Foundation Office Space as a tenant of University, subject to the terms and conditions herein, and University decisions related to the use of the Building. Sole discretion shall be afforded to the University in determining the length of the tenancy and any additional terms of the tenancy if the University decides, in its discretion to repurpose the Building or a portion thereof, and subject to subsection (f) below.

e. The lease and use of the Foundation Office Space and parking will be in compliance with all law applicable to the University or the Foundation and in accordance with that certain Memorandum of Understanding between Boise State University Foundation and Boise State University dated February 14, 2012 and that Support Agreement between the Foundation and the University dated July 1, 2010.

f. The term of the lease of the Foundation Office Space shall be until (i) University provides 180 days written notice terminating Foundation’s tenancy in the event that University decides, in its reasonable discretion to repurpose the Building or a portion thereof, provided, however, that any repurposing shall be made in accordance with the stated and acknowledged goal of keeping the Foundation, Alumni Association, and University Advancement in the same facility; or (ii) Foundation provides 180 days written notice to University that it is terminating its tenancy. In the event the Building is sold, repurposed, or destroyed during its ownership, University shall make good faith efforts to provide similar use rights and privileges to the Foundation in reasonably
comparable space to aid and benefit the Foundation in its mission to “engage in activities designed to support and benefit Boise State University.”

g. Foundation shall have reasonable use of any event or large meeting space and kitchen within the Building at no cost, following normal request and notification procedures established by the University, subject to the terms and conditions stated herein, including but not limited to those established in Section 8 below.

h. University may make such changes or improvements to the Foundation Property and Building as it sees fit, provided, however, that if such changes or improvements alter the Foundation Office Space occupied during its tenancy term, the University shall first obtain the written consent of the Foundation.

i. University shall continue to have the right to provide signage upon the Foundation Property and the Building in its sole discretion, so long as the signage is in accordance with all applicable laws and regulations and in accordance with any naming rights granted by the University to any donors in recognition of charitable gifts, so long as such naming is in compliance with University and Idaho State Board of Education policies.

j. Foundation may, during its tenancy, provide reasonable advance notice not less than 60 days in advance, to request expansion of its leased space to reasonably accommodate and provide adequate office space for its staff in an amount generally consistent with the Foundation's historical usage of space per staff member. Any dispute concerning such allocation or expansion request shall be resolved in accordance with Section 11 of this Agreement. Foundation shall be solely responsible for any build-out costs of the additional space.

8. Use of Building by Alumni Association. During the Foundation and University ownership and tenancy, the Foundation and University agree to locate all University Alumni Relations employees within the Building in an effort to centrally locate and co-locate University Advancement, Foundation, and Alumni Relations personnel. The Alumni Association will also enjoy, at no cost, priority use of first floor event space, large meeting spaces, conference room space, the kitchen, and the common area surrounding the Building following normal request and notification procedures established by the University. “Priority use,” as that phrase is used herein, means that Alumni Association events, gatherings and functions shall have priority over and shall displace all other prior planned events, gatherings and functions in the first floor spaces identified above where there is no detriment (other than the inconvenience of its function’s displacement) to the other reserving party. If there is a detriment to the other reserving party, and the use conflict cannot be resolved at the staff level, then the Foundation Chief Operating Officer, an Alumni Association Executive Committee representative, and the Vice President for Advancement will jointly determine which event takes place in the space on the conflict date. In the event the Building is sold, repurposed, or destroyed during its ownership, University shall make good faith efforts to provide similar use rights and privileges to the Alumni Association in reasonably comparable space to aid and benefit the Alumni Association in its mission to “connect,
celebrate, and engage alumni and friends of the University to build lifelong relationships that support the future of the University."

9. **Parking.**

   a. Alumni Association, in entering into the Exchange Agreement referenced herein, has deeded ownership of property to the Foundation, which property includes a total of 30 parking spaces (29 plus 1 ADA accessible space) immediately in front of the existing Alumni Association building. In order to reasonably protect the parking revenues and privileges associated with those spaces after the construction of the Alumni and Friends Center, during the Foundation’s ownership and the University’s tenancy of the Building, the Foundation and the University agree and acknowledge herein that revenues derived from operation, rental and use of 30 spaces within the Building parking lot during limited periods of use - football home games, basketball home games, special events, and Alumni Association gatherings and functions (“Game and Event Parking”) - will be and remain with the Alumni Association. Thereafter, during the University’s ownership of the Building, use and/or revenues derived from the operation, rental, and use of such 30 spaces for Game and Event Parking will be provided by the University to the Alumni Association subject to an annually revocable Parking Agreement with the University. Nothing herein shall restrict the Foundation’s use and University’s use and revenue collection related to these same parking spaces during regular business hours and any other time which does not conflict with a scheduled use of the Game and Event Parking spaces by the Alumni Association in accordance with any Parking Agreement in effect.

   b. During the Foundation’s ownership of the Building, the University and Foundation agree and acknowledge herein that Game and Event Parking revenues derived from operation, rental and use of an additional 30 spaces within the Building parking lot shall inure to the benefit of the Foundation, to the extent they do not conflict with the Alumni Association’s rights under subsection (a) above. The Alumni Association shall rent and collect revenues for the Foundation’s 30 spaces, and shall remit such revenue to the Foundation (net any related expenses). Thereafter, during the University’s ownership of the Building, use and/or revenues derived from the operation, rental, and use of such 30 spaces for Game and Event Parking will be provided to the Foundation, subject to an annually revocable Parking Agreement with the University, and during the term of the Parking Agreement, the Alumni Association shall continue to rent and collect revenues for the Foundation’s 30 spaces, and shall remit such revenue to the Foundation (net any related expenses). Nothing herein shall restrict the Foundation and University’s use of these same parking spaces and all parking spaces on the property during regular business hours and any other time which does not conflict with a scheduled use of the spaces by the Alumni Association pursuant to subsection (a) above.

   c. During the Foundation and the University’s ownership and tenancy, during normal business hours, all parking surrounding the Building shall be used by the University in accordance with its normal parking procedures, provided that (i)
Foundation and BSU employees working in the Building shall be given priority to park in the spaces surrounding the Building (as opposed to parking elsewhere on campus), and (ii) not less than 5 parking spaces will be sought to be designated for visitor use.

Any notice to be given hereunder shall be given by personal delivery or by depositing such notice in the United States Mail first class postage prepaid, and addressed to the respective party at the following address:

a. University:
   Kevin Satterlee, Vice President, Campus Operations & General Counsel
   Boise State University
   Administration Building, Ste. 214
   1910 University Dr.
   Boise, Idaho 83725

   Laura Simic, Vice President, Advancement
   Boise State University
   1910 University Dr.
   Boise, Idaho 83725

   With a copy to:
   Matt Wilde, Deputy General Counsel
   Boise State University – MS 1002
   1910 University Dr.
   Boise, Idaho 83725

b. Foundation:
   Chris Anton, Chief Operating Officer

   2225 University Drive
   Boise, Idaho 83706

c. Alumni Association
   Estevan Andrade, Executive Director
   Boise State University Alumni Association, Inc.
   1910 University Dr.
   Boise, ID 83725-1035
Each party shall give notice to the other parties of any change of their address for the purpose of this section by giving written notice of such change to the other in the manner herein provided.

11. Default, Cure, and Litigation. The parties agree that litigation between the parties arising from the terms of this Agreement would be a waste of resources. As such, the parties agree that any disputes or defaults that arise from this Agreement will be resolved in the following manner. Resolution of any dispute will be sought to be resolved in good faith by the appropriate staff of each of the parties. However, if any party shall default in any way upon its respective obligations to another party or parties under this Agreement, the defaulting party shall have a period of 60 days from the date of written notice from the non-defaulting party within which to cure any default. Upon an uncured default of this Agreement by the defaulting party, the matter will be referred to the Chief Operating Officer of the Foundation, the Executive Director of the Alumni Association, and the Vice President for University Advancement to resolve the dispute. If these parties cannot resolve the dispute or default, then it will be referred to the Chair of the Foundation, the President of the Alumni Association, and the President of the University. If they are unable to resolve the dispute or default, the parties shall hire a mutually acceptable mediator to help resolve it. If and only if all the above steps are followed in sequence and the dispute or default remains unresolved or uncured, either party shall have the right to initiate litigation.

12. Time Is Of The Essence: The parties hereto acknowledge and agree that time is strictly of the essence with respect to each and every term, condition and provision hereof, and that the failure to timely perform any of the obligations hereunder shall constitute a breach of and a default under this Agreement by the party so failing to perform.

13. Binding Upon Successors: This Agreement shall be binding upon and inure to the benefit of the parties’ respective successors, assigns and personal representatives. This Agreement shall run with the Foundation Property.

14. Effective Date. This Agreement shall be effective upon the date fully executed.

15. Invalid Provisions. If any provision of this Agreement is held not valid, such provision shall be deemed to be excised there from and the invalidity thereof shall not affect any of the other provisions contained herein.

16. No Agency. University acknowledges that Foundation and Alumni Association are acting as principals in all the transactions contemplated by this Agreement and in no way shall either be deemed an agent of University. Neither the Foundation nor Alumni Association shall have any obligations to University as an agent of University, nor shall University have any obligations to Foundation or Alumni Association as a principal of Foundation or Alumni Association.
17. **Attorney Fees.** Should suit be brought to enforce or interpret any part of this Agreement, the prevailing party shall be entitled to recover as an element of its costs and not as damages, reasonable attorney fees to be fixed by the court.

18. **Governing Law.** This Agreement shall be interpreted under and governed by the laws of the State of Idaho.

19. **State Board Approval.** This Agreement’s provisions and terms, and the validity and enforceability of the same, including but not limited to the provisions contained in Sections 3 and 5. a. herein, are expressly conditioned and contingent upon formal approval by the State Board of Education. In the event that this Agreement’s provisions and terms are not expressly approved by the State Board of Education as required, then the parties hereto shall be fully released and discharged from any obligation contained within this Agreement, and this Agreement shall be of no further force or effect.
IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first above written.

BOISE STATE UNIVERSITY

SUBJECT
Amendment to Multi-Media and Marketing Rights Agreement for Boise State University Athletics

REFERENCE
October 2009 The Idaho State Board of Education (Board) approved multi-media and sports marketing agreement with Learfield Sports Marketing (Learfield)

December 2009 Board approved changes to the Learfield multi-media and sports marketing agreement

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies and Procedures, Section V.I.6.b

BACKGROUND/DISCUSSION
In 2009, Boise State University (BSU) entered into a multimedia and sports marketing agreement with Learfield. The original contract was reached via a public bid process followed by final negotiations with the winning bidder, Bronco Sports Properties, LLC, a subsidiary of Learfield Communications. The original Agreement was for seven years commencing July 1, 2010, with three further one year options, each exercisable at Boise State’s option.

BSU has elected to exercise its option to extend the term for three years through June 30, 2020 and to further extend the term through June 30, 2025. In consideration for the extended term, Learfield has agreed to provide BSU additional considerations as outlined below.

IMPACT
The new term of the Agreement shall be July 1, 2013 through June 30, 2025 and is worth a total of $42,440,000. The full value of the Learfield arrangement to BSU is set forth below.
Guaranteed Royalty Fee for the Term as follows and as compared to the current contract terms:

Total Current Contract value $10,408,000
Total Current Contract value with Extension Years is $19,263,000
Total New Contract value is $44,058,000

* Current capital stipend continues through 2017 in the New Contract.
** In the Current Contract the bonus for the extension year would be $500,000.
***In the New Contract the cash bonus for the long term contract is $750,000.

Additionally, Learfield will pay bonus payments to BSU on the following occurrences:

- For football (the greater of the following applicable payments):
  a. If the team appears in a College Football Playoff series Access Bowl = $100,000;
  b. If the team appears in the College Football Playoff = $200,000;
  c. If the team wins the College Football Championship Game, a one-time payment of $300,000.

- For Men’s basketball:
  a. If the team appears in the field of 4 teams in the NCAA Basketball Championship Tournament (the “Final Four”), a one-time payment of $100,000.
STAFF COMMENTS AND RECOMMENDATIONS

This proposed contract reflects the exercise of an option to extend the term and a significant renegotiation of royalties to the benefit of BSU as noted above. The contract amendment also provides for a one-time “Bonus Payment” to BSU in consideration for the contract extension. The bonus amount totals $1,100,000 to be paid in the form of $750,000 cash and $350,000 as a waiver of Learfield's credit against the royalty fee.

The contract would also commit BSU to providing Learfield with additional revenue opportunities and in-kind benefits as follows: (i) right to sell additional sponsor logo on the Taco Bell Area floor; (ii) media suite in Albertsons Stadium; (iii) one football coaches club membership; and (iv) one basketball Hardwood Club membership.

Staff recommends approval.

BOARD ACTION

I move to approve the request by Boise State University to enter into the proposed amendment to the multi-media and marketing rights agreement with Bronco Sports Properties, a subsidiary of Learfield Communications as submitted.

Moved by __________Seconded by __________Carried Yes _____  No ____
THIS AMENDMENT (“Amendment”) is made and entered as of the ___ day of ___________ 2014 with an effective date of July 1, 2013 (“Effective Date”) by and between Boise State University (“University”) and Bronco Sports Properties, LLC (“Learfield”), a Missouri limited liability company qualified to do business in Idaho and a wholly owned subsidiary of Learfield Communications, Inc. This Amendment amends that certain Multi-Media Rights Agreement between University and Learfield that had an effective date of July 1, 2010 (“Agreement”).

BACKGROUND

A. University and Learfield have been operating under the Agreement.

B. University has elected to exercise its option to extend the term of the Agreement for the three (3) years through June 30, 2020 and to further extend the term through the period ending June 30, 2025.

C. In consideration of University extending the term of the Agreement through June 30, 2025, Learfield has agreed to provide University additional consideration as more particularly described in this Amendment.

D. Capitalized terms used in this Amendment shall have the same meaning as those terms have in the Agreement unless otherwise stated.

NOW, THEREFORE, in consideration of the foregoing Background and other valuable consideration, University and Learfield amend the Agreement by this Amendment as follows:

1. **Term of Agreement.** The term of the Agreement will be from July 1, 2013 through June 30, 2025 (“Term”).

2. **Third Tier Television Rights.** The provisions of Section 2.6 (Third Tier Television Rights) are deleted from the Agreement. If at any time during the Term, the television broadcast rights for University athletic events revert to the University from the Mountain West Conference (or any other athletic conference with which University is affiliated during the term of the Agreement), Learfield shall be granted the exclusive rights to such broadcasts for the remainder of the Term with additional payments to University in an amount to be negotiated in good faith at such time. In the event, the parties cannot reach agreement, the exclusive rights to such broadcasts shall no vest in Learfield but shall remain the property of the University.

3. **Digital Media Rights.** Throughout the Term, Learfield shall have the exclusive sponsorship rights associated with “Digital Media Rights” which means all University official athletic platforms including...
browser-based websites, mobile web and mobile applications, social media channels such as Facebook, Twitter and Instagram, e-mail and other digital marketing, in-venue digital screens and platforms and all digital distribution of content to the extent such rights do not interfere with any rights reserved by the Mountain West Conference (or any other athletic conference with which University is affiliated during the term of the Agreement) or its chosen platform provider.

4. **Capital Subsidy Payments.** In addition to the Capital Stipend payments through June 30, 2017, Learfield will make capital subsidy payments in the amount of $100,000 on July 1 in each Athletic Year beginning with the 2015 – 2016 Athletic Year and continuing through the 2024 – 2025 Athletic Year for University to use for capital improvements to assets within University Athletic venues that may provide sponsorship opportunities. This Capital Subsidy Payment can be used for such items as the purchase and installation of a center-hung videoboard in the Taco Bell Arena or other mutually agreeable venue enhancements. Sponsorship opportunities created by a new center-hung videoboard or any other mutually agreeable asset procured with the Capital Subsidy Payment will be mutually agreed upon between Learfield and University and when agreed upon will be sponsorship rights belonging exclusively to Learfield with no increase in the Guaranteed Royalty Fee. Any revenue collected by Learfield from these rights shall however be included in the calculation of AGR.

5. **Additional Rights.** In addition to all of the multi-media rights granted to Learfield under the Agreement and this Amendment, throughout the Term, University grants Learfield the following additional rights on an exclusive basis, subject to NCAA rules, regulations or restrictions:
   
i. The right to sell an additional sponsor logo on the Arena floor;
   
ii. A media suite in Albertsons Stadium for shared use by Learfield at no charge. University will, consistent with past practices, provide Learfield with use of the media suite number 621 at no charge for home football games;
   
iii. One (1) football coaches club membership at no charge to Learfield; and
   
iv. One (1) Basketball Hardwood Club Membership at no charge to Learfield.

6. **Tickets.** Locations of tickets to be provided to Learfield by University for home basketball games shall be materially improved over the locations of those tickets in the 2012 – 2013 Athletic Year.

7. **Guaranteed Royalty Fee.** Subject to the provisions of Paragraph 10 below, the Guaranteed Royalty Fee for the Term shall be as follows:
<table>
<thead>
<tr>
<th>Athletic Year</th>
<th>Guaranteed Royalty Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>2013 – 2014</td>
<td>$2,410,000</td>
</tr>
<tr>
<td>2014 – 2015</td>
<td>$2,735,000</td>
</tr>
<tr>
<td>2015 – 2016</td>
<td>$2,860,000</td>
</tr>
<tr>
<td>2016 – 2017</td>
<td>$2,935,000</td>
</tr>
<tr>
<td>2017 – 2018</td>
<td>$3,300,000</td>
</tr>
<tr>
<td>2018 – 2019</td>
<td>$3,400,000</td>
</tr>
<tr>
<td>2019 – 2020</td>
<td>$3,500,000</td>
</tr>
<tr>
<td>2020 – 2021</td>
<td>$3,700,000</td>
</tr>
<tr>
<td>2021 – 2022</td>
<td>$3,900,000</td>
</tr>
<tr>
<td>2022 – 2023</td>
<td>$4,100,000</td>
</tr>
<tr>
<td>2023 – 2024</td>
<td>$4,300,000</td>
</tr>
<tr>
<td>2024 – 2025</td>
<td>$4,500,000</td>
</tr>
</tbody>
</table>

8. **Revenue Sharing.** The Revenue Share Hurdle during the Term shall be as follows:

<table>
<thead>
<tr>
<th>Athletic Year</th>
<th>Revenue Share Hurdle</th>
</tr>
</thead>
<tbody>
<tr>
<td>2013 – 2014</td>
<td>$4,795,000</td>

<td>$5,645,000</td>
</tr>
<tr>
<td>2015 – 2016</td>
<td>$5,895,000</td>
</tr>
<tr>
<td>2016 – 2017</td>
<td>$6,045,000</td>
</tr>
<tr>
<td>2017 – 2018</td>
<td>$6,775,000</td>
</tr>
<tr>
<td>2018 – 2019</td>
<td>$6,975,000</td>
</tr>
<tr>
<td>2019 – 2020</td>
<td>$7,175,000</td>
</tr>
<tr>
<td>2020 – 2021</td>
<td>$7,575,000</td>
</tr>
<tr>
<td>2021 – 2022</td>
<td>$7,975,000</td>
</tr>
<tr>
<td>2022 – 2023</td>
<td>$8,375,000</td>
</tr>
<tr>
<td>2023 – 2024</td>
<td>$8,775,000</td>
</tr>
<tr>
<td>2024 – 2025</td>
<td>$9,175,000</td>
</tr>
</tbody>
</table>

9. **Trade.** Trade associated with Nike shall be increased to $7,500.00 per year.

10. **Bonus Payment.** No later than July 31, 2018, Learfield will pay University a one-time bonus of $1,100,000 (“Bonus Amount”) as and for University’s extension of the Term of the Agreement as set forth in this Amendment with $750,000 of the Bonus Amount (“Cash Payment”) paid in cash with the remainder of the Bonus Amount ($350,000) considered paid by Learfield waiving its claim to a $350,000 credit against the Guaranteed Royalty Fee in the 2013 – 2014 Athletic Year which by this Amendment, Learfield hereby agrees to do.

11. **Additional Incentives.** Section 7.3.4 of the Agreement (Television Promotion) is deleted from the Agreement.

12. **Notices.** All references to the Director of Intercollegiate Athletics in Section 8.11 of the Agreement shall mean Mark Coyle or his successor.
13. **Relationship of Amendment to Agreement.** Except as set forth in this Amendment, the Agreement is hereby ratified and confirmed upon its original terms and conditions. If, however, there is any discrepancy, conflict or variance between the terms and conditions of this Amendment and the terms and conditions of the Agreement, this Amendment shall in all events control.

14. **Preapproval of Signage and Partnerships.** Before installation or use, Learfield must seek University’s written approval of any and all temporary or permanent signage, electronic or otherwise, and may not utilize in any way signage that is not approved by University in its sole discretion. Learfield must seek and receive University’s written approval of any and all partnerships prior to entering into any agreement or contract, express or implied, and shall not enter into any partnerships without the express written consent of the University in its sole discretion. The written approval from University required under this paragraph 14 may be in electronic or paper form.

15. **National Exposure Bonus Payments.** In addition to all other monies due University and obligations of Learfield under the Agreement and this Amendment, the following monies shall be paid by Learfield to University:

   i. For football (the greater of the following applicable payments):
      a. Each and every time University football team is invited to appear in the College Football Access Bowls, Learfield will pay University a one-time payment of $100,000 on the following June 1;
      b. Each and every time University football team appears in the College Football Playoffs, Learfield will pay University a one-time payment of $200,000 on the following June 1;
      c. Each and every time University football team wins the College Football Championship Game, Learfield will pay University a one-time payment of $300,000 on the following June 1.
   
   ii. For Men’s basketball:
      a. Each and every time University appears in the field of 4 teams in the NCAA Basketball Championship Tournament (the “Final Four”), Learfield will pay University a one-time payment of $100,000.

**IN WITNESS WHEREOF,** the University and Learfield have entered into this Amendment as of the Effective Date.

MULTI-MEDIA RIGHTS AGREEMENT

THIS MULTI-MEDIA RIGHTS AGREEMENT ("Agreement" or "Contract") is made and entered as of the 1st day of November, 2009, by and between BOISE STATE UNIVERSITY ("University"), and BRONCO SPORTS PROPERTIES, LLC ("Learfield"), a Missouri limited liability company qualified to do business in Idaho and wholly owned by LEARFIELD COMMUNICATIONS, INC.

BACKGROUND TO AGREEMENT

A. This Agreement is intended to set forth the rights, duties, responsibilities of University and Learfield with respect to the "Multi-Media Rights" associated with University’s inter-collegiate athletic programs. These Multi-Media Rights are being granted to Learfield pursuant to University’s Request for Proposal Number TS09-054 and University’s February 18, 2009 letter as its Notice of Intent to Award TS09-054 (collectively the "RFP").

B. For purposes of this Agreement, the Term "Multi-Media Rights" shall mean the exclusive sponsorship and marketing rights, as hereinafter set forth, with exceptions as set forth within, to inventory, including, but not limited to, print, media, sponsorships, existing or new temporary or permanent signage, and other promotional and sponsorship rights for football, men’s and women’s basketball games, softball, wrestling, gymnastics, tennis and other inter-collegiate sports; and, if University is granted such rights from host venue, promotional rights for all games played at neutral venues where University is designated as the home team; radio and satellite play-by-play broadcast rights for football, men’s and women’s basketball games, softball games and any other collegiate sports as may be agreed between the parties and radio
and satellite broadcast rights for coach’s shows; and selected television broadcast rights for football and men’s and women’s basketball; official athletic website sponsorship; at event corporate hospitality; at event impact; and any other sponsor-related or promotional rights to University’s inter-collegiate athletic programs that are particularly described in this Agreement or that may be subsequently agreed to between the Parties as well as all the inventory which is available to University’s intercollegiate athletic programs for the 2008 - 2009 University fiscal year. For the avoidance of doubt, the rights granted herein relate to varsity intercollegiate teams and do not include club or intramural teams. For the further avoidance of doubt, the rights granted herein are not exclusive with respect to electronic newsletters, it being agreed and understood that University as well may produce or distribute an electronic newsletter, but University agrees that if it produces or distributes an electronic newsletter primarily relating to Athletics, other than the existing magazine entitled “The Blue” which is produced in print and made available electronically in pdf format, it cannot contain any commercial underwriting or commercial sponsorship or advertising of any kind. University agrees that Touch Fall Marketing, the publishers of The Blue magazine shall be solely responsible for soliciting advertising for the magazine and University shall not solicit advertising on Touch Fall Marketing’s behalf.

NOW, THEREFORE, in consideration of the promises and the mutual covenants contained herein and the foregoing Background, University and Learfield (individually the “Party” and jointly the “Parties”) agree as follows:
AGREEMENT

1.1 Term of Agreement. This Agreement is effective on the date signed by both Parties and shall continue until June 30, 2017 (“Initial Term”) unless otherwise terminated as provided herein. Each contract year of the Agreement shall commence on July 1 and end on June 30 and such period shall sometimes hereafter be referred to as “Athletic Year.” University shall:

(i) have three (3) options to extend the Initial Term of this Agreement for an additional one (1) year period each option through June 30, 2018, June 30, 2019 and June 30, 2020 respectively (“Extended Period(s)”). If University wishes to extend this Agreement for the Extended Period(s) it shall notify Learfield no later than June 30, 2015 of University’s intent to exercise its option to extend the term of this Agreement for the first Extended Period and no later than June 30, 2016 and 2017 respectively for the next two Extended Periods; or

(ii) in its sole discretion shall choose to extend the Initial Term of this Agreement for an additional three (3) year period (“Extended Period”) at one time in lieu of three (3) separate one (1)-year options. If University wishes to extend this Agreement for the three year Extended Period it shall notify Learfield not later than June 30, 2015 of University’s intent to exercise its option to extend the term of this Agreement for the three year Extended Period.

If the term of this Agreement is extended to include the Extended Period(s), then the terms and conditions of this Agreement during the Extended Period(s) shall remain the same as those during the Initial Term except as otherwise stated in this Agreement. Notwithstanding the fact that each contract year begins on July 1, the University acknowledges and agrees that Learfield’s rights and obligations under this Agreement begin on July 1, 2010 (“Effective Date”), but that Learfield will begin its efforts prior to the Effective Date and will expend
substantial amounts of time, effort and resources to fulfill its obligations under this Agreement. The “term” of this Agreement including the Initial Period and the Extended Period(s) is sometimes hereafter collectively referred to as the “Term”.

1.2 Mutual Cooperation. Throughout the Term of the Agreement, it is the Parties’ intention to cooperate to maximize the opportunities to promote the University’s Athletic program and that will foster growth in both the amounts and the potential sources of revenue under this Agreement. To that end, the Parties, including University’s Director of Athletics (and/or his/her designee) will meet, as they mutually agree is necessary, to discuss the rights and inventory granted to Learfield and any unexpected problems arising therefrom to arrive at mutually satisfactory solutions. The General Manager of BRONCO SPORTS PROPERTIES, LLC will be encouraged to attend regularly scheduled University Athletic Department Administrative Staff meetings and will meet no less than once a month with University’s Director of Athletics or his/her designee at times mutually agreeable to the Parties. In addition, University will use reasonable efforts to clearly and concisely define for University’s staff the specific roles and responsibilities which Learfield will undertake with University’s Athletic Department, including, but not limited to, any agreements Learfield enters into with University’s coaches which Learfield and University mutually determine will help to promote the University’s Athletic program and maximize revenue generating opportunities. Learfield will not enter into any agreement with a University coach without prior consultation with and approval from the University’s Director of Athletics and University shall be responsible for coaches’ compensation in its sole discretion. Learfield will keep University informed on a regular basis and/or upon request by University of its sponsorship and marketing plans as well as its current activities. In consideration of fostering a mutually beneficial environment for
both parties, Learfield agrees that it shall keep University informed of its negotiations with potential partners and shall consult with University regarding new potential partners that it wishes to approach and/or rights that it intends to offer.

1.3 Additional Multi-Media Rights. Although this Agreement includes specific rights granted to Learfield, it is agreed that from time to time opportunities for additional Multi-Media Rights may arise or be created that might not have been contemplated or specifically mentioned in this Agreement, including, but not limited to, Learfield finding additional ways to leverage the existing inventory or with new inventory ("Additional Rights"). If the nature of the Additional Rights requires the addition of a significant item of inventory that did not already exist in a University athletic venue in any format, being an alteration that affects the appearance of the venue and/or requires material expenditure ("Material Inventory Alteration"), then Learfield will notify University of such new inventory item in order to obtain University’s approval of such new inventory item. The parties will negotiate in good faith to arrive at a financial model for any Material Inventory Alteration that is funded other than from the Capital Stipend and which includes the allocation of costs between the Parties and the resulting inclusion of revenue from the Material Inventory Alteration in the “AGR” as hereafter defined. For the avoidance of doubt, if, for example, a new ribbon board is installed in Bronco Stadium at a cost to either party of $250,000.00, the cost incurring party shall first recover its cost of the ribbon board from revenue generated from the ribbon board before any revenue from the ribbon board is included in the calculation of AGR.
2.1 Grant of Exclusive Radio Broadcast Rights. Throughout the Term, University grants to Learfield, subject to any restrictions and modifications set forth by this Agreement, the exclusive rights to make or cause to be made live radio (including satellite radio, high definition radio, Spanish radio broadcasts and audio podcasts) broadcasts of all exhibition, pre-season, regular-season and post-season games for football, men’s and women’s basketball games and softball games and any other inter-collegiate sports as may be agreed with University. All of such broadcast rights shall be exclusive to Learfield and shall also include any game or games selected for broadcasting by any local, regional or national radio network, subject, however, to any currently existing rules governing University as a result of its affiliation with the Western Athletic Conference (“WAC”), the Pacific Ten Conference for wrestling (“PAC 10”) or any other conference to which University is affiliated during the Term or the National Collegiate Athletic Association (“NCAA”) which could limit such exclusivity granted to Learfield hereunder. Rights to post-season conference and national tournaments are exclusive of all other individual and independent networks except those officially designated as origination stations or networks by radio stations considered by University as part of the radio following the opposing team involved in the game being broadcast. University acknowledges that broadcast rights to post-season conference and national tournaments is important to Learfield’s revenue, and if such rights are not available to Learfield, then University shall negotiate in good faith with Learfield for a fair and equitable reduction in Learfield’s Guaranteed Royalty Fee during the time the rights are unavailable. Notwithstanding the exclusive rights granted to Learfield under this Section 2.1, and subject to University’s approval, a University student station may broadcast games, but only on a low power radio station which will not carry any commercial underwriting or commercial sponsorship or
advertising of any kind for such varsity intercollegiate game that will materially compete with
the rights granted to Learfield hereunder and only if University has first consulted with
Learfield in respect of the same.

Learfield shall use its best efforts to provide the widest exposure in the most
professional manner relative to all broadcasts and at the very least shall be no less exposure
and of no less quality than historically provided by or on behalf of University during the 2008
– 2009 Athletic Year. Without limitation to the foregoing, Learfield agrees that it shall use
commercially reasonable efforts to increase the radio coverage of women’s basketball. If at
anytime during the Term, Learfield decides to pay for the production, operational and
distribution costs of the Bronco radio network (collectively the “Production Costs”) which in
turn is expected to increase the revenue opportunities from the radio broadcasts, Learfield shall
be entitled to deduct the Production Costs it incurs in calculating the AGR, as hereafter
defined, provided that it has first consulted with University with respect to its decision to
undertake the Production Costs and University has agreed to the Production Cost budget.
Provided that the costs and budget are in line with those of any other universities represented
by Learfield or its affiliated companies of equal or greater stature than University with no
extenuating circumstances that do not apply to University (“Comparable Learfield Schools”),
University shall not withhold approval.

2.2 Radio On-Air Talent. Learfield will employ, at its own expense, or subcontract
with other approved providers, any and all personnel Learfield deems necessary to conduct
broadcasts covered by the Agreement. Final selection of all air talent for all games, including,
but not limited to pre-game, post-game, coaches’ shows and other events to be broadcast must
have the approval of University which approval will not be unreasonably withheld. The
University shall also have the right to request removal of a particular on-air talent if it, in its reasonable discretion, deems such removal necessary. The parties agree to discuss in good faith the removal of such on-air talent and allocation of costs or expenses related thereto. Notwithstanding the foregoing, University agrees to be responsible for all normal, reasonable and ordinary replacement costs unless adequate cause exists for such removal. Learfield shall be solely responsible for all employment related costs or liabilities.

2.3 Radio Programming. At the sole cost and expense of Learfield, Learfield shall produce, originate, broadcast and distribute the following radio programming in a quality at least commensurate to the quality of broadcasts historically provided during the 2008 - 2009 Athletic Year with state-of-the-art equipment and quality:

A. Football and Men’s and Women’s Basketball Games. Learfield will provide live broadcasts in the State of Idaho with emphasis in Boise, Nampa, Caldwell, Twin Falls, Idaho Falls, Pocatello, McCall and Lewiston of each (i) regular-season and post-season game for University varsity football, which may include the spring football game or any others if applicable, whether the same are played in Boise or elsewhere; and (ii) each regular-season and post-season men’s basketball game whether the same are played in Boise or elsewhere and (iii) any exhibition men’s basketball games if applicable. Each broadcast shall include pre-game and post-game shows with live or taped, as available, coaches’ interviews, in addition to comprehensive description of game action. Learfield will use its best efforts to provide live broadcasts of each regular season and post-season women’s basketball games to be no less than University’s historical level provided during the 2008 - 2009 Athletic Year of live broadcasts of such games. Learfield shall pay for all costs associated with the operation and production and shall be responsible for obtaining any and all necessary clearances of each broadcast.
hereunder.

B. Coaches' Radio Shows. Learfield will produce, sell and commercially distribute a weekly coaches' radio show for football and men's basketball and make all shows available to the Bronco Sports Network subject to technical restraints. For the purposes of this Agreement the "Bronco Sports Network" shall be no less that the radio coverage provided to University during the 2008 - 2009 Athletic Year. Learfield will produce and clear a combined total of approximately thirty (30) football and men's basketball weekly coaches' shows each year that will be not less than sixty (60) minutes in length per show. University will make available and provide the services of the head coaches of each such coaches' show. Further, Learfield is hereby granted the exclusive rights, at its option, to produce coaches' radio shows for other sports. University shall require coaches to be in attendance at each show agreed to under such contracts, provided the time commitments undertaken by each such coach is consistent with the coach's primary coaching responsibilities and each coach's contract with the University. In the event that a coach is not available, University and Learfield, shall agree to a suitable alternative being either coach's participation by telephone or by substitution of an assistant coach. Notwithstanding the foregoing, University shall use best efforts to provide the head coaches live participation in such shows. Any compensation of the coaches in respect of such shows shall be in the sole discretion of the University but in no event shall Learfield be responsible for a coach's compensation. Notwithstanding the provisions of the preceding sentence to the contrary, if University wishes that Learfield pay part or all of a coach's compensation, it shall notify Learfield in writing of the amount of a coach's compensation that it wishes Learfield to pay ("Coach's Compensation Amount") and Learfield shall pay the Coach's Compensation Amount in two equal payments at the times that Learfield pays the
University its Guaranteed Royalty Fee (December 31 and June 30). Learfield shall then deduct from the Guaranteed Royalty Fee the Coach’s Compensation Amount which will be a credit against the Guaranteed Royalty Fee then owed by Learfield to the University. Learfield may sell a specific placement of any or all of the coaches’ shows at a location to be determined and University will make the coach available at such location. Such coaches’ shows shall be held at the Stueckle Sky Center on campus, unless the parties mutually agree otherwise, Learfield must provide a compelling reason, which may be a financial reason, for the coaches’ show to be held at a different location, such as a local restaurant or other campus or off-campus location but shall also ensure that University does not lose revenue by such change of venue, for example through increased transportation costs and/or loss of food and beverage revenue. In such instance, Learfield will make every effort to ensure that such location shall be convenient to Boise State University and its coaches. University reserves the right to refuse a location if the location is inconsistent with the University’s goals, mission or image or if the location is too inconvenient.

C. **Other radio programming.** Learfield shall also provide other radio programming, live or taped as applicable, to be no less than provided to University historically during the 2008 - 2009 Athletic Year and as required in the contract between Peak Broadcasting and University dated July 12, 2008 (“Existing Radio Contract”) a copy of which has been provided to Learfield as part of the RFP.

D. **Technical Requirements.** Learfield shall satisfy University as to all technical requirements, including, but not limited to, digital quality, which are necessary to adequately broadcast University athletic events and coaches’ shows in a manner no less than provided historically during the 2008 - 2009 Athletic Year and as is reasonable to be expected as
equipment and technology develops during the Term.

E. University Promotional Time. Learfield shall provide University with, or shall procure for University, promotional air time in kind and other marketing and promotional commitments during broadcasts of the game of a level no less than provided to University for its own use (rather than its sponsors’ use) historically during the 2008-2009 Athletic Year to the greater of the amount it had received historically during the 2008-2009 Athletic Year or two (2) thirty (30) second spots for University institutional (rather than Athletics) promotional matters only. Learfield shall also provide University with, or shall procure for University, promotional air time in kind and other marketing and promotional commitments on the flagship station(s) outside of game broadcasts of a level no less than provided to University for its own use (rather than its sponsors’ use) historically during the 2008-2009 Athletic Year.

F. Learfield shall record all radio broadcasts and shall provide University with a copy of all broadcasts and programs created hereunder. All rights in and to the broadcasts and programs shall cease at the expiration of this Agreement and shall revert to University.

G. University shall be considered the copyright owner of, and be entitled to receive all copyright royalty fees in any form allowed by law attributable to, the use or broadcast of the sporting events, preview shows, coach’s shows and other programming produced by or on behalf of Learfield hereunder and University shall be entitled to all royalties, fees or other income (excluding, however, any sponsorship or advertising income which shall be included in the AGR as hereinafter defined) which may be attributable to the use of said broadcast material and recordings and Learfield will provide any assistance needed by University to implement any use of said material other than by radio transmission.

H. Notice of the University copyright shall be included as part of every event
broadcast made pursuant to this Agreement. The notice shall consist of the symbol “©” or the word “copyright” followed by the year that the event is first broadcast and the name “Boise State University” in every broadcast or medium of delivery.

2.4 Additional Radio Broadcast Rights. Notwithstanding anything contained in Section 2.1 through 2.3 to the contrary, it is agreed that from time to time forms or methods of additional distribution rights of the aforementioned radio programming may arise or be created that might not have been contemplated, might not have existed as of the date of this Agreement or specifically mentioned in this Agreement, and these rights shall be subsequently included in the rights granted to Learfield based upon the approval of the University, which approval will not be unreasonably withheld, and the Net Revenue from such rights shall be added to the AGR. Without limiting the foregoing, Learfield shall use commercially reasonable efforts to secure satellite and high definition radio transmission at no charge to the University and Learfield shall offer regular audio podcasts at a frequency and level to be agreed with University. All rights in and to the broadcasts and programs shall cease at the expiration of this Agreement and shall revert to University.

2.5 Football, Men's Basketball and Women's Basketball Coaches' Television Shows.

A. Learfield shall have the exclusive rights to broadcast and sell sponsorships in weekly coaches’ television shows for football, men’s basketball and women’s basketball.

B. Learfield will produce and clear a total of no less than twelve (12) football and no less than twelve (12) men’s basketball weekly coaches’ shows each year that will be not less than thirty (30) minutes in length per show. Compensation of coaches, if any, will be paid by University but Learfield shall be responsible for all other costs relating to production and
distribution of the shows. Any compensation of the coaches in respect of such shows shall be in the sole discretion of the University. In no event shall Learfield be responsible for any compensation of coaches. Notwithstanding the provisions of the preceding sentence to the contrary, if University wishes that Learfield pay part or all of a coach’s compensation, it shall notify Learfield in writing of the amount of a coach’s compensation that it wishes Learfield to pay and Learfield shall pay the Coach’s Compensation Amount in two equal payments at the times that Learfield pays the University its Guaranteed Royalty Fee (December 31 and June 30). Learfield shall then deduct from the Guaranteed Royalty Fee the Coach’s Compensation Amount which will be a credit against the Guaranteed Royalty Fee then owed by Learfield to the University. Parties may agree to proceed with coaches’ television shows for any other sports outside of those mentioned above and the net revenue (gross revenue less expenses such as production and distribution for the shows, provided such costs and/or budget have been agreed with University and if the costs and budget are in line with other Comparable Learfield Schools, University shall not witheld approval.) in relation to such additional sports shows shall be included in the AGR as hereinafter defined. Learfield may sell a specific placement of the coaches’ show. Such coaches’ shows shall be held at the Stueckle Sky Center on campus, unless the parties mutually agree otherwise. Learfield must provides a compelling reason, which may be a financial reason, for the coaches’ show to be held at a different location, such as a or at a broadcast studio of Learfield’s choice which is convenient to University’s campus but shall also ensure that University does not lose revenue by such change of venue, for example through increased transportation costs and/or loss of food and beverage revenue. University shall require coaches to be in attendance at each show agreed to under such contracts, provided the time commitments undertaken by each such coach is consistent with the
coach’s primary coaching responsibilities and each coach’s contractual obligations to the University. Coaches will be encouraged but shall not be required to attend coaches’ shows in person if the show is broadcast from outside the Boise, Idaho area. In this regard, it is agreed that a period of time which is sufficient for the production of a thirty-minute weekly coaches’ television show will not unduly interfere with a coach’s primary responsibilities to University. Notwithstanding the foregoing, Learfield will make every effort to ensure that the location of the coaches’ shows shall be convenient to Boise State University and its coaches. University reserves the right to refuse a location if the location is inconsistent with the University’s goals, mission or image or if the location is too inconvenient.

2.6 Third Tier Television Broadcast Rights.

A. University agrees to license Learfield the exclusive rights to broadcast television play-by-play programming which is not otherwise prohibited by University’s affiliation with the WAC, the PAC 10 for wrestling, or any other conference to which University is affiliated during the Term or the NCAA (“Third Tier Television Rights”). Such Third Tier Television Rights include football, men’s and women’s basketball and any other University intercollegiate sport, preview shows, a video season ticket podcast, replay shows and video magazine shows. Learfield will be responsible for all costs relating to the production and broadcast of such Third Tier Television Rights and Learfield shall retain all revenue generated from the Third Tier Television Rights and such revenue will be included in the calculation of AGR. Subject to the provisions of Section 4.2 below, these Third Tier Television Broadcasts shall be aired live or with a reasonable tape-delay as agreed with University. The live televising of home football and basketball games shall be at the discretion of the University.
based on ticket sales and sell-out policies and the University shall have the right, in its sole
discretion to request a tape-delay broadcast of any home game accordingly.

B. Notwithstanding anything herein, Learfield agrees that BRONCOvision shall be
the exclusive video streaming venue for all University home and away events, unless and until
agreed otherwise with University. Learfield or the applicable television broadcaster shall be
provided a link to BRONCOvision from its applicable website.

C. University Promotional Time. Learfield shall provide University with, or shall
procure for University, promotional air time in kind and other marketing and promotional
commitments during broadcasts of the game of a level no less than provided to University for
its own use (rather than its sponsors’ use) historically during the 2008 - 2009 Athletic Year to
the greater of the amount it had received historically during the 2008 - 2009 Athletic Year, and
as required in the contract between Belo Corporation (KTVB Media Group) and University
dated June 30th, 2005 (“Existing TV Contract”) a copy of which was provided to Learfield as
part of the RFP, or two (2) thirty (30) second spots for University institutional (rather than
Athletics) promotional matters only. Learfield shall also provide University with, or shall
procure for University, promotional air time in kind and other marketing and promotional
commitments on the flagship station(s) outside of game broadcasts of a level no less than
provided to University for its own use (rather than its sponsors’ use) historically during the
2008 - 2009 Athletic Year.

D. Learfield shall record all television broadcasts and shall provide University with a
copy of all broadcasts and programs created hereunder. All rights in and to the television
broadcasts and programs shall cease at the expiration of this Agreement and shall revert to
University.
E. University shall be considered the copyright owner of, and be entitled to receive all copyright royalty fees in any form allowed by law attributable to, the use or broadcast of the sporting events, preview shows, coach’s shows and other programming produced by or on behalf of Learfield hereunder and University shall be entitled to all royalties, fees or other income (excluding, however, any sponsorship or advertising income, which shall be shall be included in the AGR as hereinafter defined) which may be attributable to the use of said broadcast material and recordings and Learfield will provide any assistance needed by University to implement any use of said material other than by television transmission.

F. University shall own the copyright of and in all broadcasts (live or delayed) and recordings of events or shows covered by this Agreement. Notice of the University copyright shall be included as part of every event broadcast made pursuant to this Agreement. The notice shall consist of the symbol “©” or the word “copyright” followed by the year that the event is first broadcast and the name “Boise State University” in every broadcast or medium of delivery.
2.7 Miscellaneous Terms Applicable to Coaches. Subject to the coaches’ pre-existing contractual sponsorship obligations, University will require its coaches to cooperate with Learfield should Learfield need to obtain an endorsement that is beneficial in promoting the University’s Athletic program and maximizing the income from the rights granted under this Agreement; nevertheless, Learfield acknowledges that coaches shall not be required to endorse a particular product. University will use its best efforts to prevent its coaches from participating, directly or indirectly, in the endorsement of any product or service that competes with the products or services offered by Learfield’s sponsors. Except as set forth herein, and subject to each coach’s contractual obligations to University, University will require its coaches to cooperate with Learfield to accommodate reasonable requests of Learfield for its sponsors (such as special appearances, autographs, and letter-writing). Any coaches’ endorsements by Learfield must conform to University, WAC, PAC 10 (wrestling only), or any other conference to which University is affiliated during the Term and NCAA rules and guidelines.

2.8 Video/DVD Rights. If Learfield and University mutually agree that a season ending or other highlight audio-visual program (being video, DVD and/or other audio-visual medium as agreed with University) (together defined as “Video Program”) is warranted for a particular University team, Learfield shall, at its expense, produce or cause to be produced and sell or cause to be sold, such Video Program at Learfield’s cost and Learfield shall retain all of the revenue derived therefrom provided that the Net Revenue (gross revenue in excess of the cost of producing and selling the Video Program provided such costs and/or budget have been agreed with University and if the costs and budget are in line with any other Comparable Learfield Schools, University shall not withhold approval.) shall be considered part of the

BAHR - SECTION II

17

TAB 10 Page 27
AGR. University shall approve the content and artwork of any and all Video Programs.

2.9 Athletic Internet Site and Internet Video Streaming and e-Commerce.

A. While University will control and produce the University’s official athletic website, University hereby licenses Learfield the exclusive rights to all sponsorship revenue generating opportunities which now or in the future may exist on the University’s Official Athletics Website (“OAS”) (http://broncosports.com), including, but not limited to, all rights to sell sponsorships in the form of company logos and messages on University’s OAS, audio streaming of sponsorship messages and direct internet access to other websites as well as all other sponsorship opportunities which now or in the future may exist in the future on the OAS. All resulting gross revenue derived by Learfield from these rights shall be added into the calculation of the AGR. All other rights relating to the OAS, including but not limited to audio and visual streaming, subscription member services, fundraising, auctions, merchandising, ticket and event revenue and editorial content shall be retained by University. University shall be responsible for providing editorial content on the OAS. Notwithstanding anything contained in this Section 2.9 to the contrary, Learfield acknowledges that the University presently has an existing relationship with Jump TV (host of the OAS) and until and unless such relationship is terminated, Learfield shall not have the right to manage, produce or further develop the OAS unless separately agreed with University. However, University will provide Learfield with the opportunity to have input on decisions regarding the OAS but shall not be obligated to implement Learfield’s suggestions. Upon termination of University’s agreement with Jump TV, University, with input from Learfield, shall have the right to select Jump TV’s successor but University shall not be obligated to grant such rights to Learfield. In the event that Learfield is granted the right to manage the OAS and/or the audio or video streaming,
Learfield shall negotiate the contract with an appropriate website hosting company and pay the then applicable hosting fee for the OAS ("Hosting Fee"). The Hosting Fee shall not be deducted from the Guaranteed Royalty Fee set forth in Section 4.1 and the resulting revenue shall be treated separately from the AGR hereunder.

B. Learfield shall have the exclusive right to publish and distribute an Official Sports Report ("OSR"), daily e-mails of up-to-date and unique news to University fans and constituents. To assist Learfield in its marketing and distribution efforts of the OSR, subject to the applicable data privacy laws and at Learfield’s cost, University agrees to distribute such OSR and other Learfield news to its database or e-mail addresses of season ticket holders, and individual game ticket purchasers, athletic department donors and boosters. University will use reasonable efforts to have such OSR distributed to the database or email addresses of the University’s alumni association. Learfield acknowledges that University does not control the University alumni association’s database or email addresses and that Learfield will be responsible for any costs associated with such distribution.

2.10 Game Program and Schedule Card Production and Sponsorship Rights.

2.10.1 Football; Men’s and Women’s Basketball. Learfield shall have the exclusive right to print, publish, distribute and sell sponsorship space in football, men’s and women’s basketball programs (or similar game day publications) for all home games and matches played by University and those designated as home games or matches although played or conducted on a neutral site, during its regular seasons and schedule cards for the other sports (collectively the aforementioned programs and roster cards are referred to herein as “Game Publications”).

2.10.2 Matters Relating to All Programs. All costs of printing and distributing all athletic game programs will be the responsibility of Learfield. The quality
and quantity of the game programs will be not less than what has historically been produced by or on behalf of University on a per-game basis for University based on sales demand and no less than the quantity and quality specified in Attachment B of the RFP. University shall be responsible for providing all written content and editing thereof that is required for each Game Publication and will work with Learfield to determine the design of Game Publications and in some instances will be responsible for design elements of the Game Publications. University retains final control of all content and design of its Game Publications but will not have control over sponsorships in Game Publications which control will belong exclusively to Learfield, provided that University has agreed to the percentage of space in the respective Game Publication made available to the sponsors in aggregate. University shall be responsible for supplying Learfield or its printer with Game Publication content not less than 30 business days prior to a Game Publication’s publication for “static” pages and not less than five (5) business days for “change” pages. Learfield will provide University with a mutually agreeable reasonable number of complimentary Game Publications, to be no less than five hundred (500) copies in respect of football Game Publications and one hundred (100) in respect of the other Game Publications. University shall have the right to purchase at cost additional copies of Game Publications for its own use from Learfield. Learfield shall charge University no more than its actual printing cost in respect of such additional copies. In addition to the sponsorship revenue from Game Publications, Learfield will retain any game day vending revenue from Game Publication sales which shall be included in the calculation of the AGR. Learfield and University will review and mutually agree upon the sales price, quantity and format of the respective Game Publications for the upcoming season no less than once a year.
2.11 Sponsorship Signage.

A. Except as otherwise set forth in this Agreement, University grants Learfield the exclusive rights to sell sponsorships on all the existing as well as all the future permanent signage (electronic or otherwise) and temporary signage in all University athletic venues, including, but not limited to,

- Bronco Stadium
- Taco Bell Arena

B. If, during the Term, University decides to install new electronic or enhance existing electronic signage or install new videoboards or enhance existing videoboards at any of its athletic venues (collectively the “New Signage”), Learfield will have input into the New Signage in order that Learfield can manage the sponsorships which will result from the New Signage and Learfield will retain all revenue from the New Signage sponsorship sales where such New Signage was paid for out of the Capital Stipend and such revenue shall be included in the calculation of the AGR. If the University decides to install New Signage over and above that which is funded by the Capital Stipend, before so doing it shall agree with Learfield how it shall be funded and how the revenue shall be treated hereunder.

C. The above foregoing notwithstanding, University reserves the rights to utilize signage (electronic or otherwise) for such reasonable amounts of time as agreed upon by Learfield for pre-game, half-time, quarter breaks, game time-outs or post-game for University’s need to promote University sports, the University or University events or accomplishments, or athletically-related activities as deemed reasonably necessary by University but in no event for any commercial underwriting or commercial sponsorship or advertising of any kind, other than for the University Bookstore and for hotel and automobile
lease/transport trade partners as agreed with Learfield, and subject to the provisions of Section 6.1 of this Agreement, in any event to be no more than historically provided to University Bookstore and such hotel and automobile lease/transport trade partners during the 2008 - 2009 Athletic Year.

2.11.1 Athletic Venue Sponsorship Rights. The specific athletic venue sponsorship rights will include, but not be limited to, the following signage:

Bronco Stadium ("Stadium"):
- Main scoreboard permanent panels
- Main scoreboard tri-vision panels
- Fascia signage
- Field level signage and banners
- Façade, Tunnel and Concourse Signage
- On-field logo, with University’s approval and provided that this does not adversely affect the turf
- Message Center Displays
- Promotions that involve sponsors at all events, provided that the University has agreed to such promotions
- Press conference backdrops
- Coaches’ headsets
- Football goal post pads
- Exterior marquee and signage
- Video board features, promotions, replay swipes, PSAs and billboards
- Digital signage (when available in the future)
➢ Sound system cover
➢ Concession signs
➢ Cold air balloon signage
➢ Temporary signage
➢ Television monitors (Bronco Vision)
➢ Field Goal Nets (if such nets can be installed without detriment to spectators view and without damage to the track and field facilities)
➢ Virtual signage during telecast (subject to any rights retained by the WAC/ESPN)
➢ Sideline Cooling Systems
➢ Sideline Equipment Crates
➢ Sideline employees (e.g., chain crew, managers, etc.) clothing and equipment, as permitted (i) by the University’s agreement with Nike or the applicable apparel contract at that time and (ii) the applicable Conference rules.
➢ Cup Holders, if available
➢ Other opportunities as approved by University

Taco Bell Arena Signage:
➢ Rights to the center hung scoreboard signage
➢ Rights to the University’s main scoreboard and panels and auxiliary boards
➢ Rights to the University’s LED displays, if available in the future
➢ Scoreboard, fascia and vomitory displays
➢ Scorers’ table, press row and baseline table advertising panels (rotational, digital, or static)
➢ University and opposing team bench chair backs and kick plates
Message center displays
Video advertising displays
Basketball goal posts padding
Basketball backboard supports (goal profile)
Team entry canopies/signage
Playing surface logo opportunities, as approved by the University
Shot clock advertising panels
Suite Signage
Virtual signage during telecast
Courtside, rotational and permanent signage
End wall permanent and rotational signage
Upper corner sponsor panels
Mezzanine permanent and rotational signage
Exterior marquee and signage
Temporary signage and displays
Static signage opportunities that either currently exist or which Learfield may elect to sell in and around concession areas, facility entries/exits, restrooms, concourses, portal entries/exits into seating areas
Concession, concourse and lobby displays
Plastic souvenir cups and concession (food) containers subject to University’s existing arrangements with its pouring rights partner and/or concession provider
Courtside employees, not to include scorer’s table personnel (e.g., ball boys, managers, etc.) clothing and equipment as permitted (i) by the University’s
agreement with Nike or the applicable apparel contract at that time and (ii) the applicable Conference rules.

- Scoreboard signage in the practice area
- Blimp signage
- Profile Signage (on top of basket supports)
- Other opportunities as approved by University

All Taco Bell Arena signage sponsorship must be subject to the existing agreement between the University and Taco Bell primarily that sponsorship shall not be sold to a competitor of Taco Bell. Furthermore, such sponsorship shall be in respect of athletic events only and sponsors shall acknowledge that their respective signage may be covered or obscured at a non-Athletic event and/or at an athletic event that is not controlled by University such as a NCAA tournament. Learfield acknowledges that University has a separate arrangement with Taco Bell Arena and therefore agrees to consult with University with regard to all Taco Bell Arena signage and inventory and rights granted therein. Notwithstanding the foregoing sentence, the Taco Bell Arena Signage referred to above, shall be available to Learfield in accordance with the terms of this Agreement.

Other Sports Venues:

- Main scoreboard ad panels
- Any sideline and end-line advertising panels
- Message center displays
- Video advertising displays
- Public address announcements
University and opposing team dugout and bench signage

Temporary or permanent playing surface logo opportunities

Static signage opportunities that either currently exist or which Learfield may elect to sell in and around concession areas, facility entries/exits, restrooms, concourses, portal entries/exits into seating areas

Temporary signage and displays for special events

Plastic souvenir cups and concession (food) containers subject to University’s existing arrangements with its pouring rights partner and/or concession provider

Other opportunities as reasonably approved by University

Press Backdrop

Any signage other than the aforementioned signage shall be subject to consultation with University and further subject to the provisions of Section 1.3 above in respect of Additional Rights and/or Material Inventory Alteration.

For the avoidance of doubt, marketing, merchandising, sponsorship, signage, media and commercial rights for events on or within University’s facilities that are hosted by other third party organizations or organizations within University that are not related to the Athletic Department, are excluded from this Agreement. Learfield may not enter into contracts with sponsors that prevent University, its Alumni or the University Foundation, from contracting with competitive sponsors for non-University Athletics events, regardless of where the events are held. Furthermore, where University shares facilities with a third party, for example the softball field, the rights granted herein shall only apply Athletic Department events.
2.11.2 Existing Message Board, Videoboard Rights, and Public Address Announcements. University grants Learfield the exclusive rights to secure sponsors for announcements, messages and videoboard displays on existing public address, electronic ribbon boards, scoreboards or videoboards including, but not limited to, out of town scores, trivia, statistics, features, segments, replays, commercial logo branded messages and contests. University will provide Learfield and its sponsors the necessary reasonable production and execution support needed for such announcements and messages at no cost to Learfield. The amount of necessary production and execution support provided will be reasonable and commensurate to that amount provided by University for University sponsors in the past. Any production and execution support over and above these reasonable amounts will be billed to Learfield by University at prevailing rates.

2.11.3 Maintenance of Sponsorship Signage, Message Boards and Videoboards. Learfield shall be responsible for all costs and expenses relative to any copy or art changes for replacement of existing signage. University will be responsible for the maintenance of both the existing and any new permanent signage and equipment, including the videoboards, rotating signage and static signage. University will also be responsible for payment of the game-day video board production charges. University will use all reasonable efforts to ensure that all such signage will be repaired in a timely manner in order to make such signage fully functional and operational.

2.11.5 New Inventory Items. It is understood and acknowledged that from time to time University may wish to install new items or upgrade existing items which are capable of adding to the inventory available under this Agreement or enhancing the existing inventory ("New Inventory Items"). All of the New Inventory shall be marketed and sold exclusively by
Learfield and the Net Revenue received by Learfield from any New Inventory Items shall be included in the calculation of the AGR each year, provided that such costs have been mutually agreed with University. Notwithstanding the foregoing, if any New Inventory Items are paid for by the University from funds other than the Capital Stipend, University and Learfield shall first agree how such New Inventory Items are to be funded and whether any of the increased revenue is to be paid directly to University to compensate for the expenditure over and above the Capital Stipend.

2.11.6 Temporary Signage. University, at no additional cost or expense, agrees to help facilitate Learfield obtaining the exclusive rights to sell or create temporary signage opportunities at University games or events which occur at a neutral venue. Any such temporary signage shall be paid for, erected, maintained and operated at the sole cost and expense of Learfield. All of the revenue received by Learfield from any temporary signage shall be included in the calculation of the AGR each year.

2.12 Promotional Items and Events. Throughout the Term, University grants Learfield the exclusive rights to the following promotional items and events:

2.12.1 Printed Promotional Item Rights. Learfield will have the exclusive right to sell sponsorships on all University printed promotional items relating to Athletics including, but not limited to, team rosters, ticket backs, parking passes, roster cards, ticket applications and mailer inserts, ticket envelopes, posters, sports calendars, fan guides, trading cards and schedule cards ("Printed Materials"). University and Learfield will mutually agree on an annual basis upon the sponsors, content and amounts of Printed Materials. However, the quantity (numbers produced) and quality will be no less than was being produced by or for University historically unless and until such Printed Materials can be replicated in all or in part
electronically e.g. electronic ticketing and such advertising space is no longer available.

University will be responsible for the design of Printed Materials. Learfield shall provide the sponsors logos and materials together with the necessary rights for University to reproduce such logos and materials in a format and timeframe as reasonably requested by University as needed to produce the Printed Materials in a timely manner. The cost of printing the Printed Materials will be at a level consistent with the historical cost and will be the responsibility of Learfield and shall not be deducted from the AGR.

2.12.2 Game Sponsorship and Promotional Sponsorship Rights. Learfield will have, at a minimum, the right to secure sponsors for pre-game, game “time-outs”, half-time, and quarter breaks sponsored promotional activities and special game day on-field and on-court promotions or contests as well as official game sponsorships. University reserves the right to use, at no cost and expense to Learfield, a reasonable amount of time to be agreed upon by Learfield during any pre-game, game “time-outs”, half-time, and quarter breaks for University’s need to promote University’s fundraising efforts, development projects, sports, upcoming University events or accomplishments, subject to Section 6.1 of this Agreement, the University Bookstore and such hotel and automobile lease/transport trade partners or athletically related activities. Promotional activities may include, but are not limited to, premium item giveaways, fan contests on the field, floor, or in the stands, sponsored entertainment acts, product samplings, inflatables, games, temporary signage, coupons and free product distribution and product displays; provided, however, this is not intended to exclude approved University student organizations’ fundraising activities and other similar on-field/on-court recognition which do not have any commercial endorsement which in all events is strictly prohibited. By the first day of December of each year, Learfield will coordinate and
discuss with University an annual game/event promotions sales plan for the following athletic year. University will provide Learfield with all reasonable assistance in the sponsorship, promotions and implementation/facilitation as needed during these game-related activities. At University’s reasonable request, Learfield will respect the University’s environmental sustainability efforts and other applicable mission goals and/or policies when entering into promotional activities.

2.12.3 Game Day Hospitality Rights.

A. Learfield shall have the exclusive rights to all corporate hospitality tents and group ticket sales related to corporate hospitality tents ("Hospitality Rights"). The Net Revenue, if any, derived from Hospitality Rights shall be included in the calculation of the AGR. Learfield shall be responsible for payment of costs associated with Hospitality Rights, subject to sub-section B below.

B. Hospitality Tent. University shall provide to Learfield, at no cost to Learfield, space for hospitality tents or any alternative facility for its clients at all University home football games as well as all football games played at a neutral site if University is designated as the home team and as the home team retains such rights. In all instances, University shall approve the location of the Hospitality Tent or alternative facility. The current hospitality area is the Keith & Catherine Stein Plaza by the Caven-Williams Sports Complex.

C. Learfield acknowledges and agrees that the activities of the University Alumni Association are excluded from this Agreement. The Alumni Association may host corporate hospitality and/or tailgate events which may be sponsored provided that these are held off-campus. The Alumni Association is currently located on University Drive but not on University owned land.
2.12.4 Fan Festival Rights. In addition to those rights described in Section 2.12.2, Learfield shall have the exclusive right to sell sponsorships, sponsorship packages (including tickets, meal and beverage vouchers) and corporate involvement for any existing interactive fan festival or related activities, that it creates with the approval of the University, such approval not to be withheld unreasonably, as well as those that University creates in the future with Learfield’s approval, not to be withheld unreasonably. The Net Revenue from such events shall be included in the calculation of the AGR. The following are examples of at-event impact sponsorship inventory which will be available throughout the Term exclusively to Learfield but such examples are not intended to be the only available inventory:

- Product displays
- Sampling, couponing and free product distribution to fans attending University events
- Title and/or rivalry sponsorships of University Athletic events
- Presenting sponsorships of University Athletic events
- Pre-game post-game, half-time and timeout in-arena/stadium, on-court/field promotions, contests, mascot appearances, corporate recognition/presentations, and/or giveaways
- Plastic souvenir cups and concession (food) containers, subject to University’s existing arrangements with its pouring rights partner and/or concession provider.
- Mascot/Cheerleader appearances
- Inflatables/games
- Kid’s Club sponsorships (subject to the existing arrangements between University Athletics Department and University Bookstore)
- Varsity team tournaments and special events
Ancillary entertainment opportunities such as half-time shows, etc.

Midnight Madness-type events

For the avoidance of doubt, nothing herein shall prevent University from offering such events, without sponsorship, and on consultation with Learfield if such event involves a third party company for example a licensed merchandise retailer, and any revenue shall not be included in the calculation of the AGR.

2.12.5 Licensing Opportunities & Retail Promotions. Commensurate with historical broadcast and sponsorship agreements, and subject to existing licensing agreements, University grants Learfield the right to use University’s name, trademarks, service marks, logos or symbols as identified at Schedule 2.12.5 on a royalty free basis to Learfield and its sponsors with regard to any promotions, sponsorships, commercial endorsements, or any other marketing activities covered in this Agreement; provided, however, that (i) University has approval, not to be unreasonably withheld or delayed, of all artwork produced by Learfield and/or sponsors, media partners and other third parties with whom Learfield contracts in accordance with this agreement, that bear the University’s name, team name and/or other trademarks including University’s logos, the blue field and other indicia that identify the University such as the college colors of blue and orange and the mascot and (ii) Learfield agrees that the sale or distribution of University logo bearing merchandise by Learfield or a sponsor is prohibited unless such merchandise is acquired through a supplier licensed by the University or the University Bookstore, and all such merchandise or designs shall have first been approved by the Director of Trademark Licensing, such consent not to withheld unreasonably. For the avoidance of doubt, no party is permitted to sell product or services on
University campus except through the University Bookstore without University approval. If a sponsor wishes to distribute a product or service on University campus, whether as a giveaway or for a fee, Learfield shall first consult with University and University shall have right of approval over such distribution, not to be unreasonably withheld. Learfield shall have the right to offer to sponsors the ability to enter into retail promotions, which make use of a University logo, such as using the University logo in point of sale materials ("Specific Sponsorships"). Learfield shall have the right to sell Specific Sponsorships throughout the Term of this Agreement and shall consult with University in respect of the same. The style and presentation of the Specific Sponsorship shall be submitted in writing or via email to the Director of Trademark Licensing for approval. If Learfield does not receive an approval or non-approval within seven (7) business days of its submission, the style and presentation of the Specific Sponsorship will be deemed approved by the University.

Learfield and those Learfield sponsors of University will have the right to use tickets in their retail promotions and all their projects which are related to Learfield’s rights under this Agreement. Subject to the Exclusions and Excluded Sponsorships referred to in sections 3.9 and 3.10 respectively, the Parties agree not to allow the use of athletic event tickets for promotional purposes that specifically compete with Learfield’s sponsorship sales efforts ("Restriction") by all other parties without the approval of University and Learfield, not to be unreasonably withheld. To the extent possible, University agrees to place an appropriate notice on all athletic event tickets in order to give effect to the Restriction.

2.13 Rivalry Series. The Parties will cooperate in the development of additional promotional marketing opportunities, including, but not limited to, the right to market and/or create one or more corporate-sponsored rivalry series for all athletic events. Specific details of
any new rivalry series events will require the approval of the University in its sole discretion. Any rivalry series which is created by Learfield as well as all neutral site games whose rights belong to University and not the other team shall be Learfield’s rights on an exclusive basis, including sponsorships, game sponsorships, print rights and all other promotional items. Notwithstanding the foregoing, and subject only to reciprocal rights granted to the rival school, University shall retain all rights in and to, including merchandise rights, the Rivalry Series which shall continue beyond the Term. As part of any future agreement for a neutral site game whose rights belong to University, University will not permit the solicitation of any University/Learfield client in a major sponsorship category (including, but not necessarily limited to, telephone, insurance, banking, and automobile), and will not permit the solicitation of any competitor of Learfield client in a major sponsorship category, for a title sponsorship and secondary or “presenting” sponsorship.

2.14 Relocation of a University Home Game. If during the Term, one of the University’s home football games is moved to a neutral location or to the visiting team’s location (“Displaced Game”), a fair and equitable reduction in the Guaranteed Royalty Fee and a corresponding adjustment to the Revenue Share Hurdle amounts shall be negotiated in good faith by the parties in recognition of the sponsorship revenue affected which results from a Displaced Game; provided, however, if the Displaced Game is replaced in the same season with another home game involving another team in the University’s conference or a team which is comparable in stature, national prominence of its program or national ranking to the team which is involved in the Displaced Game or a team which is a traditional rival of University, then there shall not be any reduction in the Guaranteed Royalty Fee or any increase in the Revenue Share Hurdle Amount.
3.1 Tickets and Parking Passes. Throughout the Term, University shall provide Learfield, at no cost to it, the number of tickets and parking passes specified in Schedule 3.1, which shall be no less than the same historical number of season and individual tickets in the same or better historical locations to football, men’s and women’s basketball games and other University intercollegiate games which were provided or allocated to sponsors, as well as TV and radio broadcast providers and rights holders, for the 2008 - 2009 Athletic Year. Said tickets and parking passes shall be of the same or better quality as to locations previously provided by University. In addition, Learfield shall have the right to purchase additional tickets from University, if available, the quality of which will be based upon availability and the tickets afforded the highest level of donor status by University (“Additional Tickets”). The price for the Additional Tickets shall be the lowest available price charged by University for the same quality of ticket together with the associated Bronco Athletic Association fees and any other dues required for third party purchase of the applicable tickets. Learfield shall have the right to purchase additional parking passes from University, if available, at the lowest available price charged by University.

During each year of the Agreement, University will provide Learfield the right to purchase up to 200 bowl game tickets; 24 men’s and women’s WAC Conference Basketball all session tournament tickets; 30 men’s and women’s basketball NCAA first- and second-round tickets; 30 NCAA men’s and women’s regional tickets; and 50 Men’s and Women’s Final Four tickets, provided that University is participating in the applicable game. The quality of the tickets allocated to Learfield will be proportional to the quality of the total tickets made available to University. If, for example, one-third of University’s tickets are in the lower level
of the WAC Tournament, one-third of Learfield’s allocation of tickets will be in the lower level, as well. University will provide parking passes at cost to Learfield on an “as available” basis. In addition, University will provide at no cost to Learfield, four (4) VIP parking passes to all University athletic events (football passes are for reserved spots) and two VIP reserved spots through the University’s Club seat program for football. Notwithstanding the foregoing, University shall be able to give away tickets in return for operational services provided to University and other trade provided that such activity does not impinge upon the sponsor rights granted to Learfield hereunder.

3.2 No Existing Agreements. University represents and warrants that it has not executed any advertising or sponsorship agreements, which extend past the 2009 - 2010 Athletic Year. If there are any advertising or sponsorship agreements which extend beyond the 2009 – 2010 Athletic Year, including the St. Luke’s-Idaho Elks Agreement, such agreements and the revenue therefrom shall belong to Learfield, excluding the Boise Office Equipment Agreement which University will not renew or extend and will receive the revenue therefrom through June 30, 2011. Except for the Boise Office Equipment agreement through the 2010 – 2011 Athletic Year only, any revenue that University receives from an advertising or sponsorship agreement which extends past the 2009-2010 Athletic Year shall be paid to Learfield by University, failing which, the amount of such revenue shall be deducted from the Guaranteed Royalty Fee.

3.3 Credentials; Parking and Travel:

University will also provide all-access credentials and parking on all game days for Learfield’s staff members and, from time to time, members of its senior staff.

A. To the extent that there are seats and sufficient capacity, and subject to
University's head coach’s approval, University will pay for the travel expenses for Learfield’s radio crew (consisting of 3 persons) on the team’s charter to such away football games in which University’s teams appear but Learfield will be responsible for the broadcasting crew's hotel, per diem, and if applicable, commercial airline or vehicular travel, expenses. Learfield shall use best efforts to ensure that such radio crew comply with University's policies and guidelines with respect to their attendance on such charter and University reserves the right to prohibit such radio crew from such charter flights if the radio crew does not follow the University’s policies and guidelines. If available, University will further provide Learfield with space on any chartered aircraft carrying University’s football team for up to four (4) persons and a Learfield staff member for Learfield’s client development, provided that all such persons shall comply with University’s policies and guidelines with respect to their attendance on such charter. University shall charge Learfield for such seats at cost.

B. Notwithstanding anything hereunder, all seats on any charter flights shall be subject to University’s approval and subject to University’s operational needs and also the respective coach’s approval.

C. Learfield shall be responsible for all costs in association with the broadcasting crew including hotel, per diem, commercial airline or vehicular travel, expenses for all other games.

3.4 Office Space. University acknowledges and agrees that Learfield’s performance under this Agreement and the resulting benefits to University will be better enhanced if Learfield is provided office space on the campus of University, preferably near or within University’s Athletic Department. University will provide appropriate office space and the use of existing office furniture in a University athletic facility to Learfield during the Term of
the Agreement ("Leased Premises") at no additional cost to Learfield. Any changes or enhancements relative to the Leased Premises and furniture therein shall be at the sole cost and expense of Learfield, and shall be at the prior written consent of University. The Leased Premises shall be of a size and quality to accommodate four (4) full-time Learfield employees and one intern. Learfield may hire additional personnel in consultation with University. University will establish telephone and internet access to Learfield in the Leased Premises at no cost to Learfield; however, Learfield will be responsible for reimbursing all related charges other than the set up fees including but not limited to the monthly charges and long distance toll charges. In addition, Learfield will be responsible for paying for out-of-pocket expenses such as office supplies. University will pay for all utilities relating to the Leased Premises. If Learfield needs to expand its staff to carry out its responsibilities under this Agreement, subject to availability, University shall use its best effort to provide Learfield additional office space, rent-free, to accommodate such need in reasonable proximity to Learfield’s Leased Premises, or in different space large enough to accommodate all of Learfield’s needs. Learfield shall comply with all labor laws and regulations as specified further in section 8.20 below.

3.5 Efficient operation. Except as otherwise provided in this Agreement, Learfield will furnish all labor, management, supplies, and equipment necessary to fulfill its obligations herein; provided, however University will provide non-financial assistance for sponsorship fulfillment and execution at no expense to Learfield (such as the implementation of an on-field or on-court contest during pre-game, halftime or a time-out, provided that such assistance required is reasonable and within University’s staffing capacity). Learfield shall provide the necessary number of staff personnel as are reasonably required for Learfield to
perform its obligations under this Agreement. It is anticipated that Learfield will require four (4) staff personnel including a General Manager with at least 7 years of applicable experience. University shall have the right to approve the General Manager, which approval will not be unreasonably withheld so long as the General Manager has sufficient prior experience to carry out his duties and responsibilities and shall be consulted in respect of all staff to be hired by Learfield to work for Bronco Sports Properties.

3.6 Permits. Learfield will be financially responsible for obtaining all required permits, licenses, and bonds to comply with pertinent University rules and policies and municipal, county, state and federal laws, and will assume liability for all applicable taxes including but not restricted to sales, income and property taxes.

3.7 Successful Performance. Recognizing that successful performance of this Agreement is dependent on mutual cooperation between the Parties, Learfield will meet periodically with University to review Learfield’s operations pursuant this Agreement and make necessary adjustments. Learfield will at all times recognize that University is a State university and Athletics is only part of the institution and therefore, Learfield will take this fact into account as part of its mutual cooperation with University.

3.8 Blogs. University acknowledges and agrees that it is the exclusive right of Learfield to provide ongoing, regular and real time coverage of University athletic events which not only includes the game itself but also includes pre-game, half-time, quarter breaks and post-game broadcasts (“Game Coverage”). University further acknowledges that the right to provide any type of commercial sponsorship or promotion in such “game coverage” on a blog or other similar means which features, describes, includes or discusses any University team in action as it occurs or “Game Coverage” (including any pre-games, half-time, quarter
breaks or post-game) is an exclusive right belonging solely to Learfield ("Blog Sponsorship"). This Blog shall be made available on University’s OAS and nothing herein shall prevent University from writing its own blog(s) provided that no University written blog relating primarily to Athletics may contain any type of commercial underwriting or commercial sponsorship or advertising of any kind. If either University or Learfield become aware of any third party blog which includes blog or blog-type Game Coverage or Blog Sponsorship or a blog which violates the Conference Policy (collectively a "Violating Blog"), University will act reasonably to attempt to arrive at a satisfactory solution to eliminate the Violating Blog. Notwithstanding the foregoing, failure by University to eliminate a Violating Blog shall not be considered a material breach of this Agreement.

3.9 Exclusions. Learfield acknowledges that none of the revenue associated with the agreements as referenced in Schedule 3.9 to this Agreement ("Excluded Agreements") shall belong to Learfield; provided, however, Learfield shall have the right to pursue and sell to those Excluded Agreement parties additional sponsorship opportunities not specifically covered by the terms of the Excluded Agreements.

3.10 Excluded Sponsorships. Notwithstanding anything contained in this Agreement to the contrary, Learfield agrees that it shall not sell the following categories of sponsorship or sell any advertising right to any company that engages in the following businesses throughout the Term of this Agreement, unless otherwise agreed to by University, which approval may be withheld in University’s sole discretion for no reason:

- Gambling (except the State authorized lottery). Establishments which provide gambling but also have other recognized sources of income such as a spa and resort are permissible sponsors so long as the sponsorship makes no reference to
the gambling aspects of the establishment.

- All Liquor (except that television broadcasts may include paid for advertising, but not sponsorship, from malt beverage or wine companies)
- Prophylactics
- Feminine hygiene products
- Tobacco products
- Sexually explicit materials.
- Adult entertainment
- Religious and/or political materials
- Ammunition and firearms
- Competitors of University which for purposes of this Agreement shall be limited only to other higher education institutions or competitors of the University Bookstore/Bronco Shop being including but not limited to bookstores and fan stores such as the Blue & Orange Store.
- Material that could be considered defamatory, obscene, profane, vulgar or otherwise socially unacceptable or offensive to the general public or may cause harm to student-athlete health, safety and welfare
- Advertising that may bring discredit to the purposes, values, principles or mission of the NCAA or University or may negatively impact the interests of intercollegiate athletics or higher education.

Learfield agrees that in exercise of its rights granted hereunder, it shall ensure that any advertising, sponsorship or other representation of the University shall be mindful of and
consistent with the good image, message and reputation of the University. Furthermore Learfield shall use reasonable efforts to ensure that all sponsors, advertisers, media partners and other parties with whom Learfield enters into arrangements with in accordance with the terms of this agreement, shall be mindful of and consistent with the good image, message and reputation of the University and that promotion or recognition of such third party will not materially distort or impair the presentation and image of the University, its Athletics program and the respective teams.

4.1 Guaranteed Royalty Fee. As payment for the rights licensed under this Agreement, Learfield will pay University a Guaranteed Royalty Fee in such amounts as set forth below. The Guaranteed Royalty Fee described below is based upon all of the following assumptions being completely accurate (collectively the “Assumptions”): (a) that at a minimum, the inventory available to Learfield for sponsorship sales shall be not less than the inventory which was available for sponsorship sales for the 2008-2009 Athletic Year and will include all the signage inventory available in the Taco Bell Arena including the signage sold to Cactus Pete, Jiffy Lube, Chevron and the Boise Airport (“Base Sponsorship Inventory”); (b) all of the exclusive rights described under this Agreement are available to Learfield throughout the Term; (c) all of the historical sales information provided by University to Learfield is accurate and the amounts set forth in the agreements between the University and its sponsors and advertisers are collected in full by University; and (d) except for the Excluded Agreements (but not the Boise Office Equipment Agreement), there are no advertising or sponsorship agreements which extend past the 2009-2010 Athletic Year. If any or all of the Assumptions do not occur, are not accurate or do not remain in effect for the entire Term of the Agreement,
then University shall negotiate in good faith with Learfield for a fair and equitable reduction in Learfield’s Guaranteed Royalty Fee, save that in the event that the Assumptions in subparagraph (a) or (c) above are not accurate the Guaranteed Royalty Fee will be adjusted downward on a dollar-for-dollar basis accordingly. If the Base Sponsorship Inventory or elements are materially reduced or eliminated, University will either replace inventory or alleviate those issues specifically identified by Learfield in writing associated with such inventory to Learfield’s reasonable satisfaction failing which the Guaranteed Royalty Fee will be adjusted downward on a dollar for dollar basis. All Guaranteed Royalty Fees owed by Learfield shall be paid one-half on December 31 and one-half on June 30 of each Athletic Year with a final distribution of any income derived through the agreed AGR formula or other adjustments made on or before August 31st of the following Athletic Year.

* This amount reflects a $50,000 reduction to accommodate the University’s retention of that amount from the last year of the University’s contract with Boise Office Equipment.
2018 – 2019  $2,785,000  
2019 – 2020  $2,860,000

4.2 Reduction to Guaranteed Royalty Fee. Notwithstanding anything contained in this Agreement to the contrary, a fair and equitable reduction in the Guaranteed Royalty Fee Payment will be agreed upon by Learfield and University if any one or all of the following events occur and thereby reduce Learfield’s revenue during the Term of this Agreement, which reduction will be negotiated in good faith by the Parties unless another manner of reduction is otherwise provided in this Agreement:

A. University’s football, men’s or women’s basketball team incurs sanctions which prevent the team from appearing in conference championship games or post season conference tournaments, NCAA, or NIT tournaments (basketball) or playoff/bowl games (football):

B. The men’s football, men’s basketball or women’s basketball program is eliminated or substantially curtailed; or

C. Should any acts of terrorism, acts of state or the United States, strikes, labor shortages, epidemics or any natural disaster, including, but not limited to, flood, fire, earthquake, tornado, hurricane or extremely severe weather condition, drought, loss of power, whether or not resulting from a natural disaster, prevent a University game being played at its originally scheduled athletic venue. However, the Parties recognize that it is preferred that University reschedule a game at a different date or time in an effort to keep the game as a home game instead of moving the location of the game to the visiting team’s home venue or moving the game to a neutral venue; or

D. If Learfield is not permitted to sell any and all categories of sponsorships not specifically prohibited herein, or to sell to any and all sponsors other than those specifically
excluded herein, or to continue to sell all inventory managed or sold by Learfield at any time during the Term of this Agreement, or should the NCAA, the WAC or the University disapprove of any commercial inventory, category, or sponsor that had been previously allowed by the NCAA, the WAC or University for any reason other than compliance with policies, regulations and laws which existed as of the date of the RFP, and such disallowance results in a material deviation in the type, kind or quantity of inventory provided to Learfield and University fails, upon receipt of written notice from Learfield of such a deviation, to cure such deviation within sixty (60) days of such notice, in such case, and both parties have used best efforts to mitigate the material deviation, the University agrees in advance that, pursuant to Section 4.1, then University shall negotiate in good faith with Learfield for a fair and equitable reduction in Learfield’s Guaranteed Royalty Fee based upon the amount of commercial sponsorship or sponsorship dollars that were lost due to the exclusion of said sponsor or inventory; or

E. All of the events described in this Section 4.2 and elsewhere in this Agreement which give rise to a reduction in the Guaranteed Royalty Fee are hereafter singularly referred to as an “Adjustment Event” and collectively as “Adjustment Events”. Examples of Adjustment Events are:

- the NCAA eliminates malt beverage advertising and Learfield is able to show that it has been financially adversely affected by such decrease;
- the Base Sponsorship Inventory is reduced or adjusted;
- Learfield is prohibited from selling specific sponsorships which were sold by University at the same or higher historical levels; and
- a decrease in the number of games available through Third Tier Television
Rights from that which was historically available and Learfield is able to show that it has been financially adversely affected by such decrease. Provided however that University exercising its approval rights shall not be considered an “Adjustment Event”, unless it was an approval right that was not to be unreasonably withheld and University was unreasonable in its withholding of such approval.

4.3 Conference Change. Notwithstanding anything contained in this Agreement to the contrary, a fair and equitable increase in the Guaranteed Royalty Fee Payment may be negotiated in good faith and agreed upon by Learfield and University if University’s men’s football, men’s basketball or women’s basketball is moved to a conference other than WAC and/or the WAC becomes a BCS Conference during the Term of this Agreement.

5.1 Revenue Sharing. In addition to the annual Guaranteed Royalty Fee, Learfield will pay University, on or before August 31st of the following Athletic Year, 50% of collected Adjusted Gross Revenue (“AGR”) that exceeds the Revenue Share Hurdle set forth below (“Revenue Share Amount”). Any amounts collected after August 31st of each Athletic Year will be added to the calculation of AGR for the applicable year and paid when collected. AGR is defined as collected gross revenue (defined as total cash revenue, billed and collected, less agency commissions and third party rights fees such as NCAA or NIT related sponsorship fees) as well as all other direct out-of-pocket promotional costs such as tickets and client fulfillment expenses provided that all such costs have first been approved by University.

<table>
<thead>
<tr>
<th>Athletic Year</th>
<th>Revenue Share Hurdle</th>
</tr>
</thead>
<tbody>
<tr>
<td>2010 – 2011</td>
<td>$3,885,000</td>
</tr>
<tr>
<td>2011 – 2012</td>
<td>$4,035,000</td>
</tr>
</tbody>
</table>
2012 - 2013 $4,335,000
2013 - 2014 $4,445,000
2014 - 2015 $4,485,000
2015 - 2016 $4,635,000
2016 - 2017 $4,785,000

If this Agreement is extended for the Extended Period(s), the Revenue Share Hurdle Amount shall be as following during each Extended Period:

2017 - 2018 $4,935,000
2018 - 2019 $5,085,000
2019 - 2020 $5,235,000

Notwithstanding anything contained in this Section 5.1 or elsewhere in this Agreement to the contrary, if an Adjustment Event or Adjustment Events occur, the Revenue Share Hurdle amounts set forth above will likewise be adjusted to reflect the loss of revenue derived by Learfield under this Agreement. The amount of such adjustment shall be negotiated in good faith by the Parties.

6.1 Trade. In addition to the promotion benefits referenced in section 7.3 below, Learfield will use its best efforts to renew for University during each year of the Term up to the same amount of non-media in-kind-trade benefits in exchange for sponsorship rights which exists in the 2008 - 2009 Athletic Year which is valued at $150,000 ("Threshold Amount"). For the avoidance of doubt, University shall be responsible for any trade, including hotel and
automobile lease/transport trade whereby University exchanges tickets for goods or services in kind, but shall not give such partners any rights in inventory granted to Learfield under this Agreement other than that which has been provided to them historically and which shall be in consultation with Learfield. Learfield will also use its best efforts to secure during each year of the Term at least $150,000 of additional in-kind-trade benefits in exchange for advertising or sponsorship rights granted hereunder above the Threshold Amount ("Additional Trade Amount"). The Threshold Amount and the Additional Trade Amount shall be referred to herein as the "Total Trade Amount". University shall have approval of all such trade agreements, which approval will not be unreasonably withheld. All trade must be for University's athletic marketing purposes only and will not be affected by any trade obtained by the University. Any in-kind-trade renewed or secured by Learfield will not reduce the amount of cash donations or contributions. Learfield reserves the right to substitute alternative inventory to current trade customers if those customers are otherwise displacing cash paying customers with University's approval, which approval will not be unreasonably withheld. In the event that Learfield does not obtain in-kind trade benefits for University of value up to the Total Trade Amount, University shall have the right to enter into in-kind trade agreements with third parties without further recourse to Learfield.

7.1 Extension Bonus.

(i) If University exercises all three (3) of its one year options to extend the Term of this Agreement to include the Extended Period, as set out in Section 1.1(i) above, Learfield will pay University an extension bonus in the aggregate amount of $500,000 once University exercises the third one year option, to be paid no earlier than July 1, 2017;
(ii) If University exercises one option for an extension of three years to extend the Term of this Agreement to include the Extended Period, as set out in Section 1.1(ii) above, Learfield will pay University an extension bonus in the aggregate amount of $500,000 on July 1, 2015.

7.2 Capital Stipend. Beginning August 31, 2011, Learfield will provide University with a capital stipend of One Million Dollars ($1,000,000) ("Capital Stipend"). Such Capital Stipend shall be payable ratably over the remaining Athletic Years of the Initial Term or as otherwise agreed with University, such approval not to be unreasonably withheld and consistent with both University and Learfield’s goals to provide significant capital improvements to University Athletics’ venues. University agrees that all of the Capital Stipend shall be expended by University toward its procurement of new University athletic venue sponsorship assets which will provide Learfield with additional sources of revenue opportunities and venue enhancements. By way of example, the Capital Stipend could be used by the University to help fund new video boards in the Stadium and/or in the Taco Bell Arena, or new scoreboards or LED or reader boards for football and basketball. All sponsorship opportunities with respect to all of these assets shall belong exclusively to Learfield and all revenue generated therefrom shall belong exclusively to Learfield and shall be included in the calculation of AGR. University agrees that Learfield shall have input into the final decisions regarding which new assets will be installed in which athletic venue with the Capital Stipend as well as input into the “value engineering” of the sponsorship elements associated with these assets. University agrees that it will use its best efforts to use the Capital Stipend to purchase (or assist in the purchase) of assets or inventory at the athletic venue which is sold out on a regular basis or where the inventory at an athletic venue is already maximized (only the
Stadium or the Taco Bell Arena).

7.3 Additional Incentives.

7.3.1 Outdoor Sponsorships. Learfield will provide University throughout the Term through Lamar Outdoor the same amount of billboard sponsorships historically provided to University during the 2008 - 2009 Athletic Year.

7.3.2 Radio Promotion. Learfield will provide University throughout the Term not less than the amount of radio promotion offered by the University's flagship station historically provided to University during the 2008 - 2009 Athletic Year.

7.3.4 Television Promotion. Learfield will provide University throughout the Term not less than the same amount of television promotion provided by television station KTVB historically provided to University during the 2008 - 2009 Athletic Year.

7.3.5 Print and Newspaper Promotion. Learfield will provide to University throughout the Term not less than the same amount of newspaper promotion provided by the Idaho Statesman and if possible, the amount of sponsorship currently provided by Yellow Pages and Impact.

7.4 DVD Guarantee: In consideration for the rights granted under section 2.8 above, Learfield shall pay to University a “DVD Guarantee”. This DVD Guarantee shall be calculated by taking the average of the annual revenue received by the Athletics Department of the University in respect of its football DVDs for the football seasons 2005/06 through 2009/2010 excluding, however from the calculation, the highest annual payment and the lowest annual payment received during that time period (“Initial DVD Guarantee Amount”). Annual shall mean calendar year. In addition to the Initial DVD Guarantee Amount, if Learfield produces and sells a football DVD, Learfield shall pay University an additional payment, if
any, computed as follows: From the gross revenue collected by Learfield from DVD video sales there shall be subtracted therefrom the following: (i) approved production and distribution costs which shall be deemed approved if they are consistent with production and distribution costs incurred by Learfield or its Affiliates at other universities; and (ii) the Initial DVD Guarantee. University shall then receive 75% of the resulting amount, if any, and Learfield shall retain 25% of the resulting amount, if any. In no event however shall any of the revenue from DVD video sales be included in the calculation of AGR.

8.1 General Terms and Conditions. The terms and conditions contained in this Agreement will govern and will take precedence over any different or additional terms and conditions which Learfield or University may have included in any documents attached to or accompanying this Agreement, in the RFP and the response thereto or any letters between the Parties thereafter. Any handwritten changes on the face of this document will be ignored and have no legal effect unless initialed by both Parties.

8.2 Choice of Law, Forum Selection, Entire Agreement and Amendment. This Agreement will be construed under Idaho law (without regard for choice of law considerations). This Agreement and the Schedules attached hereto constitutes the entire agreement and understanding of the Parties and replaces any prior or contemporaneous agreement, whether written or oral, including, but not limited to the RFP. No amendments to this Agreement will be effective unless in writing and signed by the Parties. The State courts located in Ada County, Boise, Idaho, shall have exclusive jurisdiction over any disputes relative to this Agreement.
8.3 Assignment. Learfield may not assign any rights or obligations of this Agreement without the prior approval of University, which approval will not be unreasonably withheld. In the event of any assignment, Learfield shall remain responsible for its performance and that of any assignee. This Agreement will be binding upon Learfield, or its successors and assigns, if any. Any assignment attempted to be made in violation of this Agreement will be void. Notwithstanding anything contained in this Section 8.3 to the contrary, Learfield will have the right to assign this Agreement and its rights and obligations hereunder to an entity it either controls (owns more than 50%) or manages.

8.4 Termination. Either party may terminate this Agreement in whole or in part for cause upon ninety (90) days written notice if the other party fails to comply with any material term or condition of this Agreement, becomes insolvent or files for bankruptcy protection, or fails to comply in a material way with the requirements of this Agreement. Notwithstanding anything contained in this Section 8.4, the terminating party must state with particularity the specific matters of the other party's non-compliance, whereupon the other party shall have ninety (90) days to cure such matters, or such longer period if said other party is diligently pursuing a cure. In the event of any material noncompliance on the part of Learfield, Learfield shall continue to pay its Guaranteed Royalty Fee under this Agreement unless Learfield's noncompliance is a result in whole or in part by the actions or inactions of University; provided, however if University elects to administer the rights herein itself, any amounts collected by University from such rights in respect of contracts entered into by Learfield shall offset Learfield's obligation to pay the Guaranteed Royalty Fee by such amounts.

8.5 Independent Contractor. Learfield will perform its duties hereunder as an independent contractor and not as an employee of University. Neither Learfield nor any agent
or employee of Learfield will be or will be deemed to be an agent or employee of University. Learfield will pay when due all required employment taxes and income tax withholding, including all federal and state income tax and any monies paid pursuant to this Agreement. Learfield and its employees are not entitled to tax withholding, worker’s compensation, unemployment compensation, or any employee benefits, statutory or otherwise from University. Learfield will be solely responsible for the acts of Learfield, its employees and agents. Learfield shall provide worker’s compensation for all its employees and indemnify and hold University harmless therefrom.

8.6 Non-Waiver. No waiver by any party of any default or nonperformance will be deemed a waiver of subsequent default or nonperformance.

8.7 Audit and Retention of Books and Records. University will have the right upon reasonable notice to Learfield, (not more than once per year, and once during the three years following the termination of this Agreement) to inspect and copy such books, records, and documents (in whatever medium they exist) related to the collection of monies, payment of expenses and calculating of the AGR hereunder. Learfield will make such items available for inspection during normal business hours at such location as Learfield’s financial books and records are maintained. All such items will be retained by Learfield during the term of this Agreement and for a period of five (5) years after the delivery of the goods and/or services. Any items relating to a claim arising out of the performance of this Agreement will be retained by Learfield, its agents and subcontractors, if any, until the later of the date when the claim has been resolved or five (5) years after the date of final payment under this Agreement. As part of its right of inspection and copying and not in addition thereto, University will have the right to conduct a formal audit or hire an independent auditor to audit such records. Learfield agrees to
cooperate with the audit and provide access to all books and records required to verify AGR. In the event that such audit reveals unpaid monies due the University, Learfield shall make immediate payment of balances owed with plus interest, calculated at the rate of six percent (6%) per annum, calculated from the date such amount originally became due under this Agreement. In the event any such discrepancy is in excess of Fifty Thousand Dollars ($50,000.00), Learfield shall also reimburse University for the reasonable costs associated with such inspection, including but not limited to, reasonable attorney's fees and legal costs incurred in connection therewith.

8.8 University Information; Learfield Information. Learfield agrees that any information it receives during the course of its performance, which concerns the personal, financial, or other affairs of University, its regents, trustees, directors, officers, or employees will be kept confidential and in conformance with all state and federal laws relating to privacy. University agrees that any information it receives from Learfield under this Agreement which concerns the personal, financial or other affairs of Learfield, its members, stockholders, officers, directors, employees and sponsors including, but not limited to, sales summaries, revenue sharing reports, settle-up documents and any other documents relating to the reporting of financial and sales information by Learfield to University will be kept confidential and in conformance with all state and federal laws relating to privacy.

8.9 Insurance. At all times during its performance under this Agreement, Learfield will obtain and keep in force, at its own cost, comprehensive general and professional liability and general liability insurance, including coverage for death, bodily or personal injury, property damage, including product liability, libel and slander, media and broadcasting liability and automobile coverages, with limits of not less than $1,000,000 each claim and $1,000,000
each occurrence along with business interruption insurance coverage. All certificates evidencing such insurance, will be provided to University upon its request, will name University and its trustees, directors, officers and employees as additional insureds, and will provide for notification to University within at least thirty (30) days prior to expiration or cancellation of such insurance. Learfield represents that it has and will maintain during the Term worker's compensation insurance to the extent required by Idaho law.

8.10 Indemnification. Learfield agrees to defend, indemnify and hold harmless the State of Idaho, the University, their trustees, directors, officers, employees and agents from all liability, injuries, claims or damages (including claims of bodily injury or property damage) and loss, including costs, expenses, and attorneys' fees, which arise from the negligent acts and omissions of Learfield, its employees, officers and agents under this Agreement. Subject to the limits of liability specified in Idaho Code 6-901 through 6-929 known as the Idaho Tort Claim Act, the University agrees to defend, indemnify and hold harmless Learfield, its members, employees, officers, directors and agents from all liabilities, injuries, claims or damages (including claims of bodily injury or property damage) and loss, including costs and expenses, and attorneys' fees, which arise from the negligent acts or omissions of University, its trustees, directors, officers faculty, students, employees and agents. In the event of litigation by any party to enforce the terms and conditions of this Agreement, the prevailing party will be awarded costs and reasonable attorneys' fees.

8.11 Notices/Administration. Except as otherwise provided in this Agreement, all notices, requests and other communications that a party is required or elects to deliver will be in writing and delivered personally, or by facsimile or electronic mail (provided such delivery is confirmed), or by a recognized overnight courier service or by United States mail, first-class,
certified or registered, postage prepaid, return receipt requested, to the other party at its address set forth below or to such other addresses as such party may designate by notice given pursuant to this section:

8.12 Severability. If any provision of this Agreement is invalid or unenforceable with respect to any party, the remainder of the Agreement, or the application of such provision to persons other than those as to which it is held invalid or unenforceable, will not be affected and
each provision of the remainder of the Agreement will be valid and be enforceable to the fullest extent permitted by law.

8.13 Survivability. The terms, provisions, representations, and warranties contained in this Agreement that by their sense and context are intended to survive the performance thereof by any of the parties hereunder will so survive the completion of performance and termination of this Agreement, including the making of any and all payments hereunder.

8.14 Force Majeure. No Party will be considered to be in default of its delay or failure to perform its obligations herein when such delay or failure arises out of causes beyond the reasonable control of the Party. Such causes may include, but are not restricted to, acts of God or the public enemy, including, but not limited to, acts of terrorism, acts of state or the United States in either its sovereign or contractual capacity, fires, floods, epidemics, strikes and unusually severe weather; but in every case, delay or failure to perform must be beyond the reasonable control of and without the fault or negligence of the Party.

8.15 Counterparts. This Agreement may be executed in two counterparts, each of which shall be deemed an original, and both of which will constitute one Agreement.

8.16 Non-Solicitation by University. University agrees that during the Term of this Agreement, and for a period of twenty-four (24) months, after its termination, irrespective of the reason for its termination, shall not directly or indirectly, hire or solicit an officer, general manager, assistant general manager, or account executive of Learfield or encourage any such person to terminate its relationship with Learfield without first obtaining consent from Learfield. University acknowledges that its breach of this section shall entitle Learfield to injunctive relief.
8.17 Headings. The headings of the sections of this Agreement are used for convenience only and do not form a substantive part of the Agreement.

8.18 Injunctions. In addition to any other remedies permitted by law, should any Party violate the terms set forth herein, the violating party shall be entitled to injunctive relief against the other to restrain any further violation of these provisions. Should any Party be successful in this endeavor, the other party shall pay all costs and expenses associated therewith, including reasonable attorney’s fees.

8.19 University’s Representations and Warranties Regarding Learfield’s Rights Under this Agreement. University represents and warrants to Learfield that (a) University has the absolute right to grant and license the rights described in this Agreement to Learfield and provide Learfield and/or its sponsors all of the benefits described in this Agreement as well as those benefits at the historical levels provided by University to sponsors, (collectively the “Licensed Rights and Benefits”); (b) there are no oral or written agreements, contracts, options or other documents of any kind which University has entered into which would in any way impair or inhibit Learfield from exercising the Licensed Rights and Benefits on an exclusive basis; (c) University is authorized to timely carry out and/or fulfill any obligation of University to Learfield under this Agreement; and (d) Throughout the Term, except as otherwise specifically provided in this Agreement, University shall not directly or indirectly grant any third party any of the Licensed Rights and Benefits granted to Learfield under this Agreement. Notwithstanding anything contained in this Agreement to the contrary, if University materially breaches the provisions of this Section 8.19, an adjustment to the Guaranteed Royalty Fee and the Guaranteed Naming Rights Fee that Learfield will pay University under this Agreement shall be negotiated in good faith in order to recognize and account for the revenue that cannot
be obtained by Learfield as a result of such material breach. Notwithstanding the foregoing, and notwithstanding anything in this Agreement, in the event that a University department other than the Athletics department enters into a sponsorship or advertising agreement, in association with an Athletic event and held on campus (a “Non-Athletics Activity”) that could compromise the rights granted herein by University to Learfield, such action shall not be deemed a material breach hereunder provided that the Athletics department uses best efforts to prevent such non-Athletics Activity reoccurring or ensuring that such Non-Athletics Activity does not compromise Learfield’s rights in the future.

8.20 Code of Fair Practices. Learfield shall not discriminate against any employee or applicant for employment because of race, color, religion, sexual orientation, gender identification, marital status, national origin, sex, age, or physical or mental disability, or status as a US veteran. Learfield shall take affirmative action to ensure that applicants are employed and that the employees are treated during employment without regard to their race, creed, color, religion, national origin, sex, age, or physical or mental disability or status as a Vietnam-era/disabled veteran, except where it relates to a bona fide occupational qualification. Such action shall include but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or terminations; rates of pay or other forms of compensation; and selection for training, including apprenticeship. If applicable to this Agreement, Learfield shall comply with the provisions of Federal Executive Order 11246 as amended by Executive Order 11375. In the event of Learfield’s non-compliance with the above non-discrimination clause of this contract or with any of the aforesaid regulations, this contract may be canceled, terminated or suspended in whole or in part and Learfield may be declared ineligible for further contracts with the University. In addition, the University may
take such further action, and such other sanctions may be imposed and remedies invoked, as provided by the laws of Idaho.

8.21 Laws and FCC Regulations Learfield agrees to, and shall ensure that its partners, abide by all laws of the Federal government, the State of Idaho and any other state, municipal or governmental entity associated with its activities under this Agreement. It further agrees it will be responsible for securing and paying for all permits necessary to fulfill its obligations under this Agreement. Learfield agrees to operate, and ensure that its media partners operate, both radio and television network activities in strict compliance with all applicable Federal Communication Commission regulations and all rules and regulations of the WAC Conference or any other applicable conference, as well as, the National Collegiate Athletic Association.

9.0 Miscellaneous.

9.1 "Best Efforts" whether or not such term is capitalized shall mean a diligent, reasonable and good faith effort by a Party to accomplish an objective, but does not require its accomplishment. Such degree of effort will take into account unanticipated events and the exigencies of continuing business, but does not require that events or exigencies be overcome at all costs. It only requires that commercially reasonable efforts be exercised within a reasonable time to overcome any hurdles and accomplish the objective, allowing the Party to give reasonable consideration to its own interests.

9.2 "Net Revenue" whether or not such term is capitalized shall mean Gross Revenue less those costs incurred by Learfield and agreed by University, provided that if the costs and budget are in line with those of any other Comparable Learfield Schools, as defined in Section 2.1 above, University shall not withhold approval.
9.3 Whenever consent or approval is required, unless otherwise provided herein, the consent or approval shall not be unreasonably withheld. Learfield agrees that in exercise of its rights granted hereunder, it shall ensure that any advertising, sponsorship or other representation of the University shall be mindful of and consistent with the good image, message and reputation of the University. Furthermore Learfield shall ensure that all sponsors, advertisers, media partners and other parties with whom Learfield enters into arrangements with in accordance with the terms of this agreement, shall be mindful of and consistent with the good image, message and reputation of the University and that promotion or recognition of such third party will not distort or impair the presentation and image of the University, its Athletics program and the respective teams.

9.4 At the request of University, Learfield shall provide a copy of all fully executed advertising and sponsorship contracts to University’s Director of Athletics or his/her designee responsible for marketing.

9.5 No contract entered into by Learfield with a sponsor shall exceed the term of this Agreement, unless approved by University. Potential sponsorship contracts extending past the term of this Agreement are to be brought to University. All sponsorship contracts that extend beyond the Agreement Term stated in this Agreement shall include language that automatically assigns and transfers the contract to University, should the Agreement terminate, be terminated consistent with this Agreement, or not be retained by Learfield due to a competitive bid process.

9.6 Learfield agrees it will not contractually restrict the ability of University to enter into business transactions with a sponsor or a competing business of a sponsor. Agreements cannot preclude other non-athletic events that utilize competing sponsors from being scheduled
in University venues and/or facilities including Taco Bell Arena and Bronco Stadium. Learfield may not enter into beverage pour rights contracts for University’s facilities, beverage sponsorship contracts for University or beverage advertising contracts that reference University’s athletic teams, facilities or events. Learfield may not enter into any contracts or agreements which could conflict with University’s apparel contract with Nike (or the applicable provider).

It is understood that apparel and affinity card contracts will be maintained by the University and are not a part of this Agreement. Nothing contained in this Agreement shall prevent University from contracting for sponsorships, acknowledgments and fund raising activities, when such agreements are not associated with the University’s Athletic Department, facilities, and teams.

10.1 Intellectual Property Both parties agree that University owns the intellectual property rights associated with the University, its athletic teams, its facilities and the associated events and broadcasts. The ownership of intellectual property, which results from activities associated with this Agreement, will remain with University. Each party shall retain ownership of any of its patents copyrights, trademarks, or intellectual property developed prior to the Effective Date of this Agreement. University shall also retain ownership of any patents copyrights, trademarks, or intellectual property developed by University or jointly developed after the Effective Date of this Agreement.

10.2 Use of University Marks: Learfield agrees that the broadcast and advertisement intellectual property rights defined herein shall belong to University. University will maintain all right, title and ownership in its name, trademarks, service marks, logos, symbols, college
colors and other licensed indicia ("University Marks and Indicia"). No rights may be obtained for trademark ownership of the University marks. Upon dissolution or expiration of this Agreement, all use of these items by Learfield shall cease. Learfield agrees that it shall comply with any and all style guidelines and use policies of the University in respect of University Marks and Indicia as may be amended from time to time.

10.3 Commercial Advertising. University reserves the right to charge royalty fees for uses of University Marks or Indicia in respect of any items sold at retail (which shall not be permitted without University’s prior approval).

[Rest of page left blank intentionally]
IN WITNESS WHEREOF, the Parties have entered into this Agreement as of the Effective Date specified above.

SCHEDULE 3.9

LIST OF EXCLUDED AGREEMENTS

Nike apparel contract
Coca-Cola pouring rights contract
Boise Office Equipment (expires June 30, 2011) (University will not renew or extend this agreement)
Agri-Beef – Stueckle Sky Center agreement
IDaho State University

Subject
Request for an investment of additional funding into the athletic program.

Applicable statute, rule, or policy
Idaho State Board of Education Governing Policies & Procedures, Section V.X.

Background/Discussion
Idaho State University (ISU) Athletics has been very successful over the years despite receiving the lowest subsidy of any school in the Big Sky Conference. The athletics program has achieved academic success and compliance with gender equity and Title IX requirements. It has also funded a number of significant athletic infrastructure improvements. Nevertheless, athletics has experienced very little competitive success in two of the major men’s revenue-generating sports, football and basketball, primarily due to resource restrictions on recruiting funds. These sports’ current lack of competitive success is adversely impacting ticket sales, admissions, donations, and student life.

To overcome resource restrictions and the adverse impacts of achieving little competitive success in two of the major revenue-generating sports, the University is requesting approval to provide an investment of institutional funds into its athletic program in a manner in which we believe is consistent with the spirit of Idaho State Board of Education philosophy and policy. This request enables a necessary investment of resources required to jumpstart ISU’s athletic program, while having no effect on student tuition and fees and academic programs.

Impact
Additional investment of institutional funds in the amount of $250,000 a year for each of the next three years to provide athletics with increased operating resources. $175,000 each year will be used to boost national and regional recruiting efforts in football ($65,000), men's basketball ($45,000), women's basketball ($45,000), volleyball ($10,000), and softball ($10,000) to attract impactful-level student athletes. $75,000 each year will be used for infrastructure and marketing improvements and for capital equipment purchases to provide our student athletes with increased athletic and academic support.

Attachments
Attachment 1 – Athletic Support Letters from Alumni and Donors

Staff Comments and Recommendations
The Board has had a long standing policy on limiting athletics spending to ensure athletics programs did not take an increasingly larger share of state appropriated funds, institutional funds, and/or tuition. The Board has always emphasized an institution look to raise program revenues before requesting increases to these
limits. Staff recognizes, however, that program revenue growth is largely dependent upon fielding competitive athletic teams and events. Budgetary reliance on program revenue in the absence of competitive athletic programs could lead to a death spiral for the institution’s athletics program itself.

To put the requested dollar amount in context, Athletics will spend approximately $224k on recruiting in FY 2015. The proposed investment of $175K identified specifically for recruiting is an increase of approximately 78% in recruiting expense. ISU’s FY 2015 athletics operating budget is $11,173,500 which puts the $750k total investment ($250,000 a year) at ~2.2% of budget.

*Staff recommends approval of a three-year temporary increase in athletics funding and further recommends ISU provide an annual report to the Athletics Committee on the impact of this increased investment and plans for sustainability.*

**BOARD ACTION**

I move to waive Board policy V.X.3.b. and to approve the request by Idaho State University to temporarily increase its institutional funds limit by an amount not to exceed $250,000 annually for a period of three years (FY 2015 – 2017) in support of its athletics program, and to direct ISU to provide an annual report to the Athletics Committee on the impact of the increased investment and plans for sustainability.

Boise, Idaho 83720

Dear Members of the Board:

I have learned that President Vailas and other Idaho State University leaders are working with you to help improve the competitive position of the Bengals in the Big Sky Conference by providing a more stable funding base for the athletic program. As a proud ISU Bengal alum, I am writing to support those efforts.

Most of my career was spent working in intercollegiate athletics. It began as ISU Student Body President in 1966-67, working with Dubby Holt to procure student funding for the Minidome—now Holt Arena. From 1971-76, I had the privilege of being ISU Alumni Director.

In 1976, I moved to the University of New Mexico to become Director of the Lobo Club, followed by three years at SDSU as Assistant Director of Athletics. I was named Director of Athletics at Oregon in 1984, Nebraska in 1992, and Texas A&M University in 2003.

I learned at a young age that in athletics, just like in business, if you are undercapitalized, you have almost no chance of being successful competing against well-financed competitors. Until I recently retired, I had access to all the national budget information of most of the Division 1 athletic programs (private schools don't share that information). I always noticed that Idaho State ranked near the bottom both nationally and in the Big Sky Conference. I'm so pleased to learn that you and other statewide leaders are considering changing that for Idaho State.

I truly believe that your positive actions on behalf of the Bengals will not only bring renewed spirit to the campus and alumni worldwide, but also increased financial support to the entire university. Athletics is the front porch for the university; a successful athletic program creates a feeling of pride and family for everyone associated with the institution. Thank you for your efforts.

Sincerely,

Bill Byrne

Boise, ID 83720-0037

Dear Members of the State Board of Education:

I understand that President Vailas and other officials of Idaho State University (ISU) are working with you to develop an enhanced program of University investment in the Athletic Department at ISU. I write today to commend your efforts in providing that support.

I never participated as a member of any intercollegiate athletic team, but I loved the great experience, as a student, of attending the many and varied athletic events. Since leaving ISU, my entire professional career was away from Idaho and the University. However, soon after graduation, I became a donor to the Athletic Department and for many years that was my primary continued contact with the University. Like it has for so many others, the Athletic Department served as the front door to my involvement with my alma mater even though I could only rarely attend any games. This involvement led to a closer contact with many of the academic departments and enabled me to get an understanding of the University’s needs. While I continue to donate to the Athletic Department, most of my extensive volunteer work has been for other parts of the University and my monetary donations to other parts of the University dwarf my donations to the Athletic Department. None of this would have occurred without my contact with ISU Athletics. As a past Chair and President of the ISU Foundation, I can tell you that my story is far from unique when it comes to donors to the University. That is why I have encouraged President Vailas to do all that he can to make the University more competitive in the Big Sky Conference. Our performance, especially in football and basketball, has had a negative impact on general University fundraising. I am so pleased with the efforts that Dr. Vailas and Jeff Tiguey, the Athletic Director, have made in bringing up the academic and behavioral standards in the department. They have built a strong base and it’s time that we invest to help the program become more competitive. That goal is reasonable with the help that you are contemplating providing.

For the last several years, as an Idaho resident, I have followed your work with interest and I especially appreciate your efforts to make higher education affordable and achievable for a much larger proportion of our high school graduates. I think this new initiative is completely compatible with that goal.

I would be remiss if I failed to once more thank you for your service to the students of Idaho State University and indeed to students at all of Idaho’s institutions of higher learning. Your efforts are making for a much better Idaho.

Very truly yours,

Michael J. Byrne

Dear Members of the State Board of Education:

It is my understanding that Dr. Arthur Vailas, President of Idaho State University, has made a proposal to the State Board of Education to boost funding to the Department of Intercollegiate Athletics. I fully support this effort.

The University has made some great improvements to the Department of Athletics in recent years. Thanks to the efforts of fundraisers and private donations from the community, Idaho State University now has a new softball field, a new outdoor practice field, a new playing surface in Holt Arena, as well as remodeled locker rooms for several sports.

Idaho State University is near the bottom of the Big Sky institutions in athletics funding from state sources, and I believe that we need to support President Vailas' efforts to use reserve funds to help provide a positive return on ISU's athletic success, fundraising, and community relations. Sports are such an important part of any University, and increased funding can help Idaho State University raise the level of all of their sports, which will enhance community relations and fundraising.

Thank you for your serious consideration in this matter.

Sincerely,

Sylvia J. Papenberg
July 10, 2014

Idaho State Board of Education
P.O. Box 83720
Boise, ID 83720-0037

Dear Members of the State Board of Education:

We are aware that Dr. Arthur Vailas, President of Idaho State University, has approached the Idaho State Board of Education with a proposal to provide additional funds to Idaho State University’s Department of Intercollegiate Athletics. We support his proposal.

In recent years, the University has made significant improvements in the Department, particularly in the enhancement of facilities through private fundraising efforts. Idaho Central Credit Union has helped to fund a new basketball floor for Holt Arena, renovations to the floor and environment at Reed Gymnasium, and a community practice field south of Holt Arena. Other private contributors have also contributed to various other efforts. The fruits of those efforts are beginning to show, but we believe much more can be accomplished.

ISU is very near the bottom of all Big Sky Conference institutions in funding for athletics. In order to remain competitive in the Big Sky, we support President Vailas’ efforts to use some reserves to help boost investment in the department. We believe those efforts will provide a pronounced return on that investment, most notably in athletic success, community relations and engagement, fundraising, and in the overall brand of the athletic department at an outstanding university.

We thank you for your consideration of his proposal.

Sincerely,

Kent Oram, CEO
July 7, 2014

Idaho State Board of Education
P.O. Box 83720
Boise, ID 83720-0037

Dear Members of the State Board of Education:

I was recently made aware that Dr. Arthur Vailas, President of Idaho State University, has approached the Idaho State Board of Education with a proposal to help boost some additional Idaho State University investment in the Department of Intercollegiate Athletics. I am in support of this effort, and believe it is vital to the continued success of our athletic programs.

In recent years the University has made significant improvements in the Department of Athletics, particularly in the enhancement of facilities through private fundraising efforts. The community has also stepped up to the plate in that endeavor, helping to fund various projects of importance to Idaho State University athletics. Included among these projects are a new softball field, a new practice field for outdoor sports, new playing surface in Holt Arena, and remodeled locker rooms to name a few. The fruits of those efforts are beginning to show, but I believe much more can be accomplished. In order to remain competitive in the Big Sky Conference, I support President Vailas’ efforts to use some reserves to help boost investment in the department. I believe those efforts will provide a pronounced return on that investment, most notably in athletic success, community relations and engagement, fundraising, and in the overall brand of the athletic department at an outstanding university.

I thank you for your consideration of his proposal, and sincerely ask for your Board’s support with this needed request.

Regards,

Troy V. Bell, President/ C.E.O
July 9, 2014

Idaho State Board of Education
P.O. Box 83720
Boise, ID 83720-0037

Dear Members of the State Board of Education:

We, the undersigned, understand that Dr. Arthur Vailas, President of Idaho State University, has rendered a proposal to raise the investment cap in the Department of Intercollegiate Athletics to the Idaho State Board of Education.

It is well known that the Big Sky Conference is very competitive and currently ISU ranks near the bottom of all conference institutions in athletic funding from state sources. Much effort has gone into enhancing the university’s athletic facilities through private fundraising as exhibited by a new softball complex, a new practice field for outdoor sports, a new playing surface for Holt Arena and remodeled locker rooms, but much more can be accomplished if Dr. Vailas’ proposal were approved.

In recent years, the football team has been forced to play “money” games with larger universities to help subsidize the athletic budget. The results of those contests are often one sided and unfair to the athletes participating. We all know that athletic success is a key element to exposure, community relations, fund raising and the overall brand of the university.

We support Dr. Vailas’ efforts to use some reserves to further invest in Idaho State University’s athletic program. Thank you for your consideration in this proposal.

Respectfully,

Don Neves

Jim Koetter

BACKGROUND/ DISCUSSION

Request Summary
This is a request for Regents’ authorization to implement the construction phase for tenant improvements as part of an overall project in Boise commonly known as the Idaho Law and Justice Learning Center (ILJLC).

General Background
Since the fall of 2010, the College of Law has operated its third-year program in Boise in the Idaho Water Center Building, a modern educational facility that houses University of Idaho graduate programs in law, education, agriculture, and engineering as well as entities engaged in research on water and public lands.

In 2011, the Idaho Supreme Court and the UI entered into a MOU under which the Supreme Court co-located the Idaho State Law Library with the UI’s law program in Boise. Pursuant to this arrangement, the State Law Library is currently located at the Idaho Water Center Building.

Facility planners for the Boise programs anticipated early on that the Department of Administration would renovate the existing old Ada County Courthouse in Boise, and that the renovated facility would house (i) the educational and outreach programs of the College of Law and the State Judiciary, and (ii) the State Law Library as managed and operated by the College of Law.

The State has funded a number phases of renovation and restoration of the old Courthouse ($5M to date), with the final $1M phase of work expected to be funded in FY 2015. The state Division of Public Works (DPW) has completed 4 previous phases of this overall renovation effort, and the final phase of construction (Phase 5) is getting underway in the very near future. DPW is currently in design work for Phase 5, and desires to bid the project in September, 2014.

The University of Idaho College of Law has raised over $1.6 million for tenant improvements, as a supplement to state funding. DPW intends to include the UI funded tenant improvements as part of DPW’s Phase 5 of building renovations in FY 2015. The DPW portion of Phase 5 is authorized through the appropriate processes governing DPW operations and project administration. Regents’ authorization for the construction of the College’s tenant improvements is required before DPW initiates Phase 5.

The College of Law and the State Law Library plan to move to the ILJLC upon completion of the renovation and tenant improvements, targeted for August, 2015. Until these improvements are completed, the College of Law and the State Law Library will continue to operate out of the Idaho Water Center.
IMPACT
The fiscal impact is estimated at $1,600,000 for the University of Idaho, College of Law and State Law Library tenant improvements at the ILJLC.

The project funding for the tenant improvements to create the Idaho Law and Justice Learning Center is provided through private donations.

ATTACHMENTS
Attachment 1 – Capital Project Tracking Sheet Page 5

STAFF COMMENTS AND RECOMMENDATIONS
This project contemplates the College paying for all tenant improvements to the space it will occupy. Upon completion, the College will lease the old Courthouse space from the state at the standard rate for office space on the Capitol Mall (currently $10.74 /sf). Board policy provides that space must be owner-occupied in order to be eligible to request funding for occupancy costs (i.e. those costs associated with occupying a facility including custodial, utility, and maintenance costs as defined in Board policy V.B.10.). As such, UI has requested the equivalent of occupancy costs as budget line item for FY 2016.

Staff recommends approval.

BOARD ACTION
I move to approve the request by the University of Idaho to implement the construction phase for the tenant improvements at the Idaho Law and Justice Learning Center in the amount of $1,600,000 pursuant to the estimated budget set forth in the materials submitted.

SUBJECT  
Board Policy III.P. Students, subsection 18. Student Complaints /Grievances – Second Reading

REFERENCE  
June 2010 Board approved second reading of amendments to Board Policy III.P.
June 2014 The Board approved the first reading of proposed amendments to Board Policy III.P.

APPLICABLE STATUTES, RULE OR POLICY  
Idaho State Board of Education Governing Policies & Procedures, Section III.P.

BACKGROUND/DISCUSSION  
The Federal Government promulgated rules regarding postsecondary program integrity; non-compliance with these rules may result in an institution’s loss of eligibility for Title IV funds. A requirement of these rules is to provide access to a state level complaint process for students of the institution. Administrative rule (IDAPA 08.01.11) provides a state complaint process that applies to the private postsecondary institutions that are authorized by the Board. Board Policy III.P, Students, subsection 18, Student Complaints/Grievances, provides a student complaint process that applies to those institutions under the Board’s direct governance. However, Board policy only applies to the community colleges when they are specifically mentioned in the policy, and currently Board Policy III.P does not specify that it applies to the community colleges. Proposed changes would include the community colleges in the Board’s student complaint process.

IMPACT  
Approval of the proposed amendment would cover the community colleges in the Board’s student complaint process.

ATTACHMENTS  
Attachment 1 – Board Policy III.P. Students – 2nd Reading

STAFF COMMENTS AND RECOMMENDATIONS  
Staff currently follows the student complaint process outlined in Board Policy III.P. when community college students contact the Board office with a grievance. There have been no changes between the first and second reading.

Staff recommends approval.

BOARD ACTION  
I move to approve the second reading of proposed amendments to Board policy III.P. Students, subsection 18. as submitted in Attachment 1.

Moved by ___________ Seconded by __________ Carried Yes _____ No ______
Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES
SECTION: III. POSTSECONDARY AFFAIRS
SUBSECTION: P. Students  

The following policies and procedures are applicable to or for any person designated as a student at an institution under governance of the Board. A "student" means any person duly admitted and regularly enrolled at an institution under governance of the Board as an undergraduate, graduate, or professional student, on a full-time or part-time basis, or who is admitted as a non-matriculated student on or off an institutional campus.

1. Nondiscrimination

It is the policy of the Board that institutions under its governance must provide equal educational opportunities, services, and benefits to students without regard to race, color, religion, sex, national origin, age, handicap, or veterans status, including disabled veterans and veterans of the Vietnam era in accordance with:

   a. Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000d et seq., which prohibits discrimination on the basis of race, color, or national origin in programs and activities receiving federal financial assistance.

   b. Section 504 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. 794, which prohibits discrimination on the basis of handicap in programs and activities receiving federal financial assistance.

   c. Title IX of the Education Amendments of 1972, as amended, 20 U.S.C. 1681 et seq., which prohibits discrimination on the basis of sex in education programs and activities receiving federal financial assistance.

   d. The Age Discrimination Act of 1975, as amended, 42 U.S.C. 6101 et seq., which prohibits discrimination on the basis of age in programs or activities receiving federal financial assistance.

   e. Chapter 59, Title 67, Idaho Code, and other applicable state and federal laws.

2. Sexual Harassment

Each institution must establish and maintain a positive learning environment for students that is fair, humane, and responsible. Sexual discrimination, including sexual harassment, is inimical to any institution.

advance, request for sexual favors, or behavior, oral statements, or physical conduct of a sexual nature when:

a. submission to such conduct is made either explicitly or implicitly a term or condition of a student's grade, receipt of a grade, or status as a student;

b. an individual student's submission to or rejection of such conduct is used as a basis for a decision affecting the student; or

c. such conduct has the purpose or effect of substantially interfering with a student's learning or learning performance, or creating an intimidating, hostile, or offensive learning environment.

Each institution must develop and make public procedures providing for the prompt, confidential, and equitable resolution of student complaints alleging an act of sex-based discrimination, including sexual harassment.

3. Academic Freedom and Responsibility

Institutions of postsecondary education are conducted for the common good and not to further the interests of either the individual student or the institution as a whole. Academic freedom is fundamental for the protection of the rights of students in learning and carries with it responsibilities as well as rights.

Membership in an academic community imposes on students an obligation to respect the dignity of others, to acknowledge the right of others to express differing opinions, and to foster and defend intellectual honesty, freedom of inquiry and instruction, and free expression on and off the campus of an institution. Expression of dissent and attempts to produce change may not be carried out in ways which injure individuals, damage institutional facilities, disrupt classes, or interfere with institutional activities. Speakers on the campuses must not only be protected from violence but must also be given an opportunity to be heard. Those who seek to call attention to grievances must do so in ways that do not significantly impede the functioning of the institution.

Students are entitled to an atmosphere conducive to learning and to fair and even treatment in all aspects of student-teacher relationships. Teaching faculty may not refuse to enroll or teach a student because of the student's beliefs or the possible uses to which the student may put the knowledge gained from the course. Students must not be forced by the authority inherent in the instructional role to make personal or political choices.

4. Catalog and Representational Statements

Each institution will publish its official catalogue and admissions, academic, and other policies and procedures which affect students. (See also "Roles and Missions," Section III, Subsection I-2.)

Each institutional catalogue must include the following statement:
Catalogues, bulletins, and course or fee schedules shall not be considered as binding contracts between [institution] and students. The [institution] reserves the right at any time, without advance notice, to: (a) withdraw or cancel classes, courses, and programs; (b) change fee schedules; (c) change the academic calendar; (d) change admission and registration requirements; (e) change the regulations and requirements governing instruction in and graduation from the institution and its various divisions; and (f) change any other regulations affecting students. Changes shall go into force whenever the proper authorities so determine and shall apply not only to prospective students but also to those who are matriculated at the time in [institution]. When economic and other conditions permit, the [institution] tries to provide advance notice of such changes. In particular, when an instructional program is to be withdrawn, the [institution] will make every reasonable effort to ensure that students who are within two (2) years of completing graduation requirements, and who are making normal progress toward completion of those requirements, will have the opportunity to complete the program which is to be withdrawn.

No employee, agent, or representative of an institution may make representations to, or enter into any agreement with, or act toward any student or person in a manner which is not in conformity with Board Governing Policies and Procedures or the approved policies and procedures of the institution.

5. Student Records

The collection, retention, use, and dissemination of student records is subject to the requirements of the Family Educational Rights and Privacy Act of 1974, as amended, and implementing regulations. Each institution will establish policies and procedures for maintenance of student records consistent with the act and implementing regulations and will establish and make public an appeals procedure which allows a student to contest or protest the content of any item contained in his or her institutional records.

6. Residency Status - Procedure for Determination

Rules and procedures for the determination of residency status for purposes of paying nonresident tuition are found in the State Board of Education Rule Manual IDAPA 08.01.04.

7. Full-Time Students

a. Undergraduate Student

For fee and tuition purposes, a “full-time” undergraduate student means any undergraduate student carrying twelve (12) or more credits (or equivalent in audit and zero-credit registrations).
i. Student Body Officers and Appointees

For fee and tuition purposes, the president, vice president, and senators of
the associated student body government are considered full-time students
when carrying at least the following credit loads: (a) president, three (3)
credits and (b) vice president and senators, six (6) credits.

ii. Editors

Editors of student published newspapers are recognized as full-time students
when carrying a three credit load, and associate editors are recognized as
full-time students when carrying a six credit load.

b. Graduate Student

For fee and tuition purposes, a “full-time” graduate student means any graduate
student carrying nine (9) or more credits, or any graduate student on a full
appointment as an instructional or graduate assistant, regardless of the number
of credits for which such instructional or graduate assistant is registered.

8. Student Governance

The students at each institution may establish a student government constitution for
their own duly constituted organization, which must be consistent with Board Governing
Policies and Procedures. Each student constitution must be reviewed and approved by
the Chief Executive Officer. Any amendments to the student constitution must also be
reviewed and approved by the Chief Executive Officer.

9. Student Financial Aid

Each institution will establish policies and procedures necessary for the administration
of student financial aid.

a. Transfer of Delinquent National Direct Student Loans. (See Section V,
Subsection P)

b. Student Financial Aid Fraud

Each institution under governance of the Board should, as a matter of policy,
initiate charges against individuals who fraudulently obtain or misrepresent
themselves with respect to student financial aid.

10. Fees and Tuition

a. Establishment

Policies and procedures for establishment of fees, tuition, and other charges are
found in Section V, Subsection R, of the Governing Policies and Procedures.
b. Refund of Fees
Each institution will develop and publish a schedule for refund of fees in the event a student withdraws in accordance with regulations governing withdrawal.

11. Student Employees

a. Restrictions

No student employee may be assigned to duties which are for the benefit of personal and private gain, require partisan or nonpartisan political activities, or involve the construction, operation, or maintenance of any part of any facility which is used for sectarian instruction or religious worship. No supervisor may solicit or permit to be solicited from any student any fees, dues, compensation, commission, or gift or gratuity of any kind as a condition of or prerequisite for the student's employment.

b. Policies and Procedures

Each institution will develop its own policies and procedures regarding student employment, including use of student employment as a part of financial assistance available to the student. Such policies and procedures must ensure that equal employment opportunity is offered without discrimination and that wage administration is conducted in a uniform manner. Such policies also must include a statement of benefits available to student employees, if appropriate.

c. Graduate Assistants

Each institution is delegated the authority to appoint within the limitations of available resources graduate assistants in a number consistent with the mission of the institution. Graduate assistantships are established to supplement a graduate student's course of study, with employment appropriate to the student's academic pursuits.

Each institution will establish its own procedures for appointment of graduate assistants which will include (a) qualifications, (b) clear and detailed responsibilities in writing, and (c) maximum number of hours expected and wages for meeting those requirements.

Matriculation, activity, and facility fees for graduate assistants will be paid either by the student or by the department or academic unit on behalf of the student. Graduate students will be covered by appropriate insurance in accordance with institutional procedures for work-related illness or injury.

d. Hourly or Contractual Employment

Each institution may employ students on an hourly or contractual basis in accordance with the needs of the various departments or units, available funds,
and rules of the Division of Human Resources (or the University of Idaho classified employee system) or federal guidelines when work-study funds are used.

12. Student Conduct, Rights, and Responsibilities

Each institution will establish and publish a statement of student rights and a code of student conduct. The code of conduct must include procedures by which a student charged with violating the code receives reasonable notice of the charge and is given an opportunity to be heard and present testimony in his or her defense. Such statements of rights and codes of conduct, and any subsequent amendments, are subject to review and approval of the chief executive officer.

Sections 33-3715 and 33-3716, Idaho Code, establish criminal penalties for conduct declared to be unlawful.

13. Student Services

Each institution will develop and publish a listing of services available to students, eligibility for such services, and costs or conditions, if any, of obtaining such services.

14. Student Organizations

Each student government association is responsible, subject to the approval of the institution’s chief executive officer, for establishing or terminating student organizations supported through allocation of revenues available to the association. Expenditures by or on behalf of such student organizations are subject to rules, policies, and procedures of the institution and the Board.

15. Student Publications and Broadcasts

Student publications and broadcasts are independent of the State Board of Education and the institutional administration. The institutional administration and the State Board of Education assume no responsibility for the content of any student publication or broadcast. The publishers or managers of the student publications or broadcasts are solely liable for the content.

16. Student Health Insurance (Effective July 1, 2003)

The Board’s student health insurance policy is a minimum requirement. Each institution, at its discretion, may adopt policies and procedures more stringent than those provided herein.

a. Health Insurance Coverage Offered through the Institution

Each institution shall provide the opportunity for students to purchase health insurance. Institutions are encouraged to work together to provide the most cost
effective coverage possible. Health insurance offered through the institution shall provide benefits in accordance with state and federal law.

b. Mandatory Student Health Insurance

Every full-fee paying student (as defined by each institution) attending classes in Idaho shall be covered by health insurance. Students shall purchase health insurance offered through the institution, or may instead, at the discretion of each institution, present evidence of health insurance coverage that is at least substantially equivalent to the health insurance coverage offered through the institution. Students without evidence of health insurance coverage shall be ineligible to enroll at the institution.

i. Students presenting evidence of health insurance coverage not acquired through the institution shall provide at least the following information:

1) Name of health insurance carrier
2) Policy number
3) Location of an employer, insurance company or agent who can verify coverage

ii. Each institution shall monitor and enforce student compliance with this policy.

iii. Each institution shall develop procedures that provide for termination of a student’s registration if he or she is found to be out of compliance with this policy while enrolled at the institution. Each institution, at its discretion, may provide a student found to be out of compliance the opportunity to come into compliance before that student’s registration is terminated, and may provide that a student be allowed to re-enroll upon meeting the conditions set forth herein, and any others as may be set forth by the institution.

17. Students Called to Active Military Duty

The Board strongly supports the men and women serving in the National Guard and in reserve components of the U.S. Armed Forces. The Board encourages its institutions to work with students who are called away to active military duty during the course of an academic term and provide solutions to best meet the student’s current and future academic needs. The activated student, with the instructor’s consent, may elect to have an instructor continue to work with them on an individual basis. Additionally, institutions are required to provide at least the following:

a. The activated student may elect to completely withdraw. The standard withdrawal deadlines and limitations will not be applied. At the discretion of the institution, the student will receive a “W” on his or her transcript, or no indication of enrollment in the course(s).
b. One hundred percent (100%) of the paid tuition and/or fees for the current term will be refunded, as well as a pro-rated refund for paid student housing fees, meal-plans, or any other additional fees. Provided, however, that if a student received financial aid, the institution will process that portion of the refund in accordance with each financial aid program.

18. Student Complaints/Grievances.

This subsection shall apply to the University of Idaho, Idaho State University, Boise State University, Lewis-Clark State College, Eastern Idaho Technical College, North Idaho College, the College of Southern Idaho, and the College of Western Idaho. The State Board of Education and Board of Regents of the University of Idaho, as the governing body of the state’s postsecondary educational institutions, has established the following procedure for review of institution decisions regarding student complaints/grievances shall be reviewed as follows:

a. The Board designates its Executive Director as the Board’s representative for reviewing student complaints/grievances, and authorizes the Executive Director, after such review, to issue the decision of the Board based on such review. The Executive Director may, in his/her discretion, refer any matter to the Board for final action/decision.

b. A current or former student at a postsecondary educational institution under the governance of the Board may request that the Executive Director review any final institutional decision relating to a complaint or grievance instituted by such student related to such individual's attendance at the institution. The student must have exhausted the complaint/grievance resolution procedures that have been established at the institution level. The Executive Director will not review complaints/grievances that have not been reported to the institution, or processed in accordance with the institution's complaint/grievance resolution procedures.

c. A request for review must be submitted in writing to the Board office to the attention of the Chief Academic Officer, and must contain a clear and concise statement of the reason(s) for Board review. Such request must be received in the Board office no later than thirty (30) calendar days after the student receives the institution’s final decision on such matter. The student has the burden of establishing that the final decision made by the institution on the grievance/complaint was made in error. A request for review must include a copy of the original grievance and all proposed resolutions and recommended decisions issued by the institution, as well as all other documentation necessary to demonstrate that the student has strictly followed the complaint/grievance resolution procedures of the institution. The institution may be asked to provide information to the Board office related to the student complaint/grievance.
d. The Chief Academic Officer will review the materials submitted by all parties and make a determination of recommended action, which will be forwarded to the Executive Director for a full determination. A review of a student complaint/grievance will occur as expeditiously as possible.

e. The Board office may request that the student and/or institution provide additional information in connection with such review. In such event, the student and/or institution must provide such additional information promptly.

f. The Board’s Executive Director will issue a written decision as to whether the institution’s decision with regard to the student’s complaint/grievance was proper or was made in error. The Executive Director may uphold the institution’s decision, overturn the institution’s decision, or the Executive Director may remand the matter back to the institution with instructions for additional review. Unless referred by the Executive Director to the Board for final action/decision, the decision of the Executive Director is final.

The Board staff members do not act as negotiators, mediators, or advocates concerning student complaints/grievances.
BOISE STATE UNIVERSITY

SUBJECT
Approval of New Master of Arts in Political Science program

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section III.G.

BACKGROUND/DISCUSSION
Boise State University (BSU) proposes to create a new program that will award a Master of Arts in Political Science degree. The proposed program will be offered face-to-face in BSU’s regional service area.

The curriculum will contain four major components: (i) quantitative methodology coursework will provide students with skills needed to tackle data-driven problems that require critical thinking; (ii) content coursework to provide students with a sophisticated understanding of the principal theoretical, analytical, and methodological approaches used within the discipline of political science; (iii) research skills, gained either through production of a thesis or a professional research project, and (iv) writing competence, gained through significant amounts of writing during their graduate career.

The University of Idaho (UI) and Idaho State University (ISU) each offers an MA in Political Science to meet regional need in the service areas of those two institutions.

There are several reasons for BSU to offer the proposed program:
- Although UI and ISU offer MA in Political Science programs, neither program is available to students in the Treasure Valley. The proposed program is necessary to meet the needs of BSU’s service region. Boise is the largest Metropolitan Statistical Area (MSA) in the Intermountain West and the Pacific Northwest without a graduate program in political science.
- It is logical to co-locate a graduate program in political science in Boise, the center of government, business, and non-profit organizations for the state of Idaho, where: (i) there is a need for educational opportunities for employees and educators; and (ii) there are many opportunities for students to be exposed to the workings of government as interns and to contribute to the work carried out by staffs of government agencies.
- The proposed program will meet the needs of: (i) those planning to become high school teachers or instructors at two-year colleges; (ii) current high school teachers who wish to continue their education in political science; (iii) working professionals who seek to improve their qualifications (e.g., quantitative methodology) through additional education; and (iv) those wishing to prepare for entry into a Ph.D. program in political science, public administration, or other related area of advanced study.
The program will provide policy-relevant research for governments, citizens, businesses, and non-profit organizations in the Treasure Valley and beyond.

The program will be a key component of BSU’s proposed School of Public Service by providing coursework and research opportunities that will complement and support the new Ph.D. program in Public Policy and Administration, the well-established Masters in Public Administration, and the new Masters in Community and Regional Planning program at Boise State University. In addition, the proposed program will provide a pipeline of applicants for the Ph.D. program in Public Policy and Administration.

BSU projects that, annually, approximately 20 students will begin the program and 13 to 14 will graduate. Ability to enroll and graduate that number of students is supported by several lines of evidence.

- On the order of 100 BSU students graduate with a BA in Political Science each year. Sixty-seven percent of students responding to a survey of upper division students indicated interest in applying to the proposed MA in Political Science program.
- In the Boise area are many professionals and educators for whom an MA in Political Science would provide an important educational opportunity.
- The faculty members of the Department of Political Science have very strong research records, and therefore will be attractive to out-of-state students interested in doing research in the particular scholarly areas of those faculty members.

Although labor statistics project annual openings for approximately 30 “political scientists” in Idaho, such a projection is a substantial underestimate of need for the program for two reasons. First, an MA in Political Science will be an appropriate degree for a range of positions in government, business, and non-profits that extends well beyond the confines of “political scientist.” Second, according to responses to queries at three institutions with similar programs, only 1/3 of graduates enter positions in government or private business; the remaining 2/3 either find jobs in academic settings or go on to pursue advanced studies in political science or social science.

IMPACT

BSU plans to invest reallocated resources, primarily from salary savings, to hire a lecturer; such a hire will enable reallocation of a portion of the teaching capacity of several tenured/tenure-track faculty members in a quantity sufficient to offer the coursework necessary for the proposed program. A recent external review of the Political Science Department found that the depth and breadth of faculty expertise are more than sufficient to support an excellent bachelor’s program and an excellent master’s program. The addition of the lecturer position will provide the necessary instructional capacity to offer both programs.
STAFF COMMENTS AND RECOMMENDATIONS

Boise State University (BSU) proposes to create a new program granting a Master of Arts in Political Science. The proposed program will require 30 credits of graduate coursework. BSU believes there is sufficient market need to provide over 20 new students per year, based on information from Department of Labor statistics and from a survey of potential students. In addition, BSU is located at the center of government and population for the state, and therefore has access to a large number of potential students. Finally, BSU has designed into its program a market that might otherwise go untapped: BSU undergraduate political science students will be able to pursue an accelerated 4+1 master’s program, in which they will enter the MA program with 6 graduate-level credits earned as seniors in the BA Political Science program.

BSU’s request to create a new MA in Political Science is consistent with their Service Region Program Responsibilities and their Five-year Plan for Delivery of Academic Programs in the Southwest Region.

Institutions under the Board’s governance implemented a prioritization of programs process consistent with Dickeson’s prioritization principles. BSU applied this process only to existing programs. Therefore the proposed MA in Political Science, although it was on BSU’s five year plan prior to the initiation of program prioritization, was not proposed as a result of the process. However, the outcomes of the process confirmed that the Department of Political Science has a high-performing baccalaureate program and therefore is a good candidate for offering a master’s program.

Pursuant to III.Z., no institution has the Statewide Program Responsibility for Political Science. Currently, the UI and ISU offer graduate programs in Political Science. The following represents current program offerings:

<table>

</table>
The proposal went through the program review process and was presented to the Council on Academic Affairs and Programs (CAAP) on July 17, 2014. Both the UI and ISU expressed concerns regarding duplication of programs currently being offered at respective institutions. CAAP discussed the concerns at length and determined that BSU has demonstrated a need for the graduate program in their service region. They also concluded that program duplication may be necessary in order for institutions to meet service region program responsibilities. With that said, CAAP agreed to support the proposed MA in Political Science based on the regional needs identified by BSU.

Additionally, BSU determined that if the program does not meet the goal of 12 graduates per year, the resources invested in the program will be withdrawn. For this reason, staff believes that there is sufficient justification for BSU to offer this program.

The proposed program was presented to the Instruction, Research, and Student Affairs (IRSA) at their July 31, 2014 meeting.

Board staff and IRSA recommend approval.

**BOARD ACTION**

I move to approve the request by Boise State University to create a new Master of Arts in Political Science.

Before completing this form, refer to Board Policy Section III.G., Program Approval and Discontinuance. This proposal form must be completed for the creation of each new program and each program discontinuation. All questions must be answered.

1. Describe the nature of the request. Will this program be related or tied to other programs on campus? Please identify any existing program, option that this program will replace. If this is a request to discontinue an existing program, provide the rationale for the discontinuance. Indicate the year and semester in which the last cohort of students was admitted and the final term the college will offer the program. Describe the teach-out plans for continuing students.

Boise State University proposes the creation of a new program leading to the degree of “Master of Arts in Political Science.”

The proposed program will expose the student to the important substantive debates within the subfields of American Government and Politics, Comparative Politics, and International Affairs, as well as train the student in the use of research methodologies.

Boise State University is located in the capital city of Idaho, a region that is one of the fastest growing in the United States. In an increasingly competitive marketplace, graduate education is becoming more valuable – and in some fields, necessary. A survey of undergraduate students in political science identified a high demand for a master’s program in political science at Boise State. Many of our students are interested in the advantage that advanced training can bring them in the local workplace; these students are not willing to leave the Treasure Valley to pursue graduate work, which means that the proposed MA will prepare individuals planning to work locally. In addition, other students are interested in pursuing a master’s degree to further develop their skills and make them more attractive to Ph.D. programs throughout the United States. Students holding a master’s degree will be better prepared to further Idaho’s goals in business, education, and governance.

The program will also provide an important professional development opportunity for secondary education teachers. Given the growing demand for high school teachers to deliver courses that are comparable to lower-division university courses, the proposed program will be of direct benefit to high school teachers and their students.

The proposed program will augment the new Ph.D. program in the Department of Public Policy and Administration at Boise State. The political science faculty will be able to offer graduate courses supporting the Ph.D. program, and political science graduate students will benefit from interaction with the program’s Ph.D. students.

2. List the objectives of the program. The objectives should address specific needs the program will meet. They should also identify and the expected student learning outcomes and achievements. This question is not applicable to requests for discontinuance.

The College of Social Sciences and Public Affairs is responsible for the state-wide mission in Public Affairs. The proposed MA program in Political Science advances this mission in four (4) specific ways.

(A) The proposed program is designed to meet the educational and professional needs of the following groups of students: (1) those wishing to prepare for a Ph.D. degree in Political Science, Public Administration, or other advanced study (thus, the MA will serve as a pipeline
school teachers or instructors in two-year colleges who wish to continue their education in political science; (3) working professionals who seek to improve their qualifications through additional education.

(B) The proposed MA program will provide coursework and research opportunities that will complement and support the new Ph.D. program in Public Administration, the well-established Masters in Public Administration, and the new Masters in Community and Regional Planning program at Boise State University. Providing faculty expertise in political science will enrich our students as well as students in these other programs. By establishing an MA in political science, it is our expectation that we will build the necessary support to improve the quality of the Ph.D. program as well as permit Ph.D. students to complete their doctoral programs in a more timely fashion. In addition, our faculty members have extensive international expertise, which will be a benefit to the Ph.D. program. Our MA program will serve as an important pipeline for the Ph.D. program in public policy.

(C) The proposed MA program will help inculcate a graduate research culture among the three departments cited above. We expect to enroll 15 students in the first year of the program and an additional 20 in the second year of the program, which means that these 35 students will be part of a growing graduate body on campus.

(D) The proposed program will provide an additional source of research expertise for Idaho’s citizens, public servants, and legislators. Our faculty members regularly conduct research on “real world” problems, which should assist citizens and policymakers in a complex and changing environment.

The Program Intended Learning Outcomes are as follows:

(A) Quantitative Methodology

Students will take at least one course in advanced statistical methods, which will prepare them to conduct high-level statistical analysis. Graduates of the MA program will be able develop research projects through which they are able use complex statistical techniques to analyze a wide-range of outcomes. We currently have students graduating with a B.S. in Political Science go on to governmental and private jobs that require proficiency in data analysis, and these employers find our students to be valuable assets. Advanced education in these areas make our students more competitive in the job market and allow us to provide employers the caliber of students that they need in tackling data-driven problems that require critical thinking.

(B) Content

Students will develop a sophisticated understanding of the principal theoretical, analytical, and methodological approaches used within the discipline of political science. Having these skills will enable the graduate to produce better quality research reports. Graduates will be equipped to carry out policy and political analyses that draw on multiple lines of argumentation and evidence.

(C) Research Skills

There are two culminating experiences in the proposed MA program. These will allow graduates to demonstrate their mastery of a significant literature in political science and state-of-the-art analytical techniques.
a. Thesis: The thesis option will give Ph.D.-bound students the ability to produce an article of publishable quality. This will significantly advance their research skills as well as make them much more competitive as they apply to Ph.D. programs.

b. Professional Research Project: Students pursuing this option will design a research project that enables them to simultaneously advance their research and professional interests. For example, high school teachers might choose to develop a project that allows them to restructure their curriculum to take advantage of new content, research methodologies, and theoretical approaches. A professional, working for the state of Idaho or for a local non-profit organization, might work on a research project that applies their new skills to a specific policy problem.

(D) Writing

Students enrolled in this proposed program will be expected to do a significant amount of writing. It is our expectation that the writing skills of the students will improve significantly, thereby allowing them to become better professionals.

3. Briefly describe how the institution will ensure the quality of the program (i.e., program review). Will the program require specialized accreditation (it is not necessary to address regional accreditation)? If so, please identify the agency and explain why you do or do not plan to seek accreditation. This question is not applicable to requests for discontinuance.

The following measures will ensure the high quality of the proposed program:

(A) Regional Institutional Accreditation: Boise State University is regionally accredited by the Northwest Commission on Colleges and Universities (NWCCU). Regional accreditation of the university has been continuous since initial accreditation was conferred in 1941. Boise State University is currently accredited at all degree levels (A, B, M, D).

(B) Program Review: Internal program evaluations will take place every five years as part of the normal departmental review process conducted by the Office of the Provost. This process requires a detailed self-study (including outcome assessments) and a comprehensive review and site visit by external evaluators.

(C) Graduate Policy and Procedure: The proposed program will adhere to all applicable policies and procedures of the Graduate College as developed and approved by the graduate faculty of the university through its representatives on the Graduate Council.

(D) Association with existing, high quality programs: The proposed Masters in Political Science capitalizes on the synergy of four distinct but complementary graduate programs. In addition to the proposed MA in Political Science, Boise State offers a Ph.D. in Public Policy and Administration, a professionally-accredited Master of Public Administration, and a Master in Community and Regional Planning. Students enrolled in the Political Science master’s program will be able to take discipline-specific courses to fine-tune skills and knowledge specific to political science, and they will also have the opportunity to take classes in the other three “sister” graduate programs, which will expand the breadth of their knowledge. Political Science faculty will work closely with faculty members in the Departments of Public Policy and Administration and Community and Regional Planning to ensure that the courses offered in the four graduate programs will complement and reinforce the strength of each department.
(E) High-quality faculty: The proposed program will draw upon highly regarded faculty members who are nationally and internationally recognized as experts in their field of study. Over the past 15 years our faculty members have published in the top political science journals (American Political Science Review, American Journal of Politics, Journal of Politics, Comparative Politics, and Journal of World Development), and have published with faculty members from other universities (Ohio State University, University of Iowa, University of South Carolina, University of Colorado), demonstrating our links to the broader academic debates. In addition, our faculty members have won research grant awards from the National Science Foundation, Social Sciences and Humanities Council of Canada, Fulbright Commission, and the Olin Foundation. Our research-orientation complements our success in the classroom, which will extend to the proposed Master’s program. Among our distinguished faculty, members include: John Freemuth, who was named “Idaho Professor of the Year” by the Carnegie Foundation and Gary Moncrief, who was Boise State University’s Foundation Research Scholar. Our political science faculty members have been selected nine times as “Distinguished Professor” by a Boise State University “Top Ten Scholar.”

Specialized accreditation is not available for political science graduate programs.

4. **List new courses that will be added to your curriculum specific for this program.** Indicate number, title, and credit hour value for each course. Please include course descriptions for new and/or changes to courses. *This question is not applicable to requests for discontinuance.*

- **POLS 500** American Government and Politics (3 credits)
- **POLS 505** Comparative Politics (3 credits)
- **POLS 506** World Politics (3 credits)
- **POLS 508** Quantitative Research Methodology (3 credits)

**American Politics**
- **POLS 512** Political Parties, Campaigns and Elections (3 credits)
- **POLS 513** American Presidency (3 credits)
- **POLS 514** Legislative Behavior (3 credits)
- **POLS 516** Institutions and Citizenship and Contemporary Thought (3 credits)
- **POLS 518** Judicial Decision Making (3 credits)
- **POLS 520** Contemporary Issues in American Politics (3 credits)

**Comparative Politics/International Relations**
- **POLS 523** Foreign Policy Analysis (3 credits)
- **POLS 525** Civil War and Terrorism (3 credits)
- **POLS 526** Democratization (3 credits)
- **POLS 528** Advanced International Political Economy (3 credits)
- **POLS 531** Contemporary Issues in World Politics (3 credits)
- **POLS 586** Independent Study (3 credits)
- **POLS 591** Graduate Thesis (6 credits)

**Proposed Catalog Statement:**
1. **POLS 500** **AMERICAN GOVERNMENT AND POLITICS** (3-0-3) (F/S). Examination of theoretical and methodological approaches used to explain institutional, political culture and political processes throughout the American regime. PREREQ: Graduate Standing, or PERM/INST.
2. **POLS 505 COMPARATIVE POLITICS (3-0-3)(F/S).** This seminar focuses on the principal theoretical, methodological and analytical approaches developed in the subfield of comparative politics to explain variation in economic development, regime type, and state capacity. PREREQ: Graduate Standing or PERM/INST.

3. **POLS 506 WORLD POLITICS (3-0-3)(F/S).** Examination of theoretical and methodological approaches in understanding relations between state, sub-national, non-state, and international actors. PREREQ: Graduate Standing, or PERM/INST.

4. **POLS 508 QUANTITATIVE RESEARCH METHODOLOGY (3-0-3)(F/S).** This seminar provides instruction on bivariate and multivariate modeling of political behavior.

5. **POLS 512 POLITICAL PARTIES, CAMPAIGNS, AND ELECTIONS (3-0-3)(F/S).** This seminar studies theoretical and methodological approaches useful in understanding the roles political parties play in politics and policy making and the structure and function of campaigns and elections. PREREQ: Graduate Standing, or PERM/INST.

6. **POLS 513 AMERICAN PRESIDENCY (3-0-3)(F/S).** This seminar provides a multi-faceted examination of the contending approaches to the study of the American presidency. PREREQ: Graduate Standing, or PERM/INST.

7. **POLS 514 LEGISLATIVE POLITICS (3-0-3)(F/S).** Analyzes the structure and function of legislatures at the state and national level. PREREQ: Graduate Standing, or PERM/INST.

8. **POLS 516 INSTITUTIONS, CITIZENSHIP, AND CONTEMPORARY THOUGHT (3-0-3)(F/S).** Examines liberal thought through writings of classical, progressive and contemporary liberals with emphasis on political institutions, relation of individual to community, the basis of human rights and the basis for political justification and obligation. PREREQ: Graduate Standing, or PERM/INS. PREREQ: Graduate Standing, or PERM/INST.

9. **POLS 518 JUDICIAL DECISION MAKING (3-0-3)(F/S).** Analysis of the theoretical arguments and empirical evidence surrounding the determinants of judicial decisions, with particular emphasis on the decisions made by appellate court judges. PREREQ: Graduate Standing, or PERM/INST.

10. **POLS 520 CONTEMPORARY ISSUES IN AMERICAN POLITICS (3-0-3)(F/S).** Examination of theoretical and methodological approaches to understanding recent developments in American politics. Students to explore areas of contemporary relevance that fall beyond or across the scope of other courses in the degree program. PREREQ: Graduate Standing, or PERM/INST.

11. **POLS 523 FOREIGN POLICY ANALYSIS (3-0-3)(F/S).** Theories of foreign policy choice, construction, and implementation by states. Individual, bureaucratic, organizational, state, and other perspectives. Students evaluate problems faced by major and minor powers. PREREQ: Graduate Standing, or PERM/INST.

12. **POLS 525 CIVIL WAR AND TERRORISM (3-0-3)(F/S).** Analysis of the theoretical and empirical causes of non-state actors using force against states and civilians in both domestic and international spheres. PREREQ: Graduate Standing, or PERM/INST.

13. **POLS 526 DEMOCRATIZATION (3-0-3)(F/S).** This seminar explores current theory and empirical observations in the areas of democratic regime change and consolidation. PREREQ: Graduate Standing, or PERM/INST.

14. **POLS 528 ADVANCED INTERNATIONAL POLITICAL ECONOMY (3-0-3)(F/S).** Examination of theoretical and methodological approaches to understanding the relationships between politics and economics in the international sphere. PREREQ: Graduate Standing, or PERM/INST.

15. **POLS 530 STATE INSTITUTIONS AND CIVIL SOCIETY (3-0-3)(F/S).** Examination of state formation and historical development of civil society. An emphasis on the interrelated nature of state and civil society development. PREREQ: Graduate Standing or PERM/INST.

16. **POLS 531 CONTEMPORARY ISSUES IN WORLD POLITICS (3-0-3)(F/S).** Examination of theoretical and methodological approaches to understanding recent developments in international relations or comparative politics. PREREQ: Graduate Standing, or PERM/INST.
5. Please provide the program completion requirements to include the following and attach a typical curriculum to this proposal as Appendix A. For discontinuation requests, will courses continue to be taught?

<table>
<thead>
<tr>
<th>Credit hours in required courses:</th>
<th>9</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credit hours required in support courses:</td>
<td></td>
</tr>
<tr>
<td>Credit hours in required electives:</td>
<td>15</td>
</tr>
<tr>
<td>Credit hours for thesis or professional project:</td>
<td>6</td>
</tr>
<tr>
<td>Total credit hours required for completion:</td>
<td>30</td>
</tr>
</tbody>
</table>

6. Describe additional requirements such as preliminary qualifying examination, comprehensive examination, thesis, dissertation, practicum or internship, some of which may carry credit hours included in the list above. This question is not applicable to requests for discontinuance.

The proposed program will have two tracks:

(A) Students selecting the thesis track will be required to complete 6 credit hours of thesis work. It is our expectation that students will produce a publishable-quality article that they can submit to a peer-reviewed journal. Students may also choose to produce a thesis that is more in line with the traditional monograph. This track is aimed at students interested in pursuing doctoral studies.

(B) The “Directed Professional Project” track is aimed at working professionals and students who will not pursue a doctorate. Students will develop a project that is applicable in their current environment. For example, high school teachers could develop new content modules that improve their classroom experiences. Professionals working for the state of Idaho could conduct an in-depth project on a topic related to their professional responsibilities. The specifics of each project will be negotiated between each student and a faculty member.

7. Identify similar programs offered within Idaho or in the region by other colleges/universities. If the proposed request is similar to another state program, provide a rationale for the duplication.

March 16, 2012
The University of Idaho and Idaho State University each offer an MA and Ph.D. in Political Science on their home campuses. The justification for offering a third MA in Political Science in the state of Idaho is as follows:

(A) The program is necessary to serve the needs of place-bound residents of Boise State’s service region who cannot easily access the graduate political science programs at either the University of Idaho or Idaho State University. The Boise metropolitan area is the largest Metropolitan Statistical Area (MSA) in the Intermountain West and Pacific Northwest to not have a graduate program in political science. The proposed program will meet the educational and professional needs of three groups of students: (1) those planning to become high school teachers or instructors in two-year colleges, as well as current high school teachers and who wish to continue their education in political science; (2) working professionals who seek to improve their qualifications through additional education, and (3) those wishing to prepare for a Ph.D. degree in political science, Public Administration or other advanced study.

(B) The program will provide policy relevant research for governments, citizens, and non-profits organizations in the Treasure Valley, the State of Idaho, the Western part of the US and Canada as well as internationally. Our faculty (Drs. Allen, Burkhart, Freemuth, Hausegger, Kinney, Moncrief, Touchton, Vaughn, Wampler, Yenor) already conduct research on topics that are relevant to policymakers and citizens in these geographical areas. It is our expectation that there will be a significant increase in the amount of research conducted as our MA students will conduct original research on local issues. The strong research record of the Department of Political Science will likely be a strong draw for potential students, as they will know that a high quality MA program will enhance their professional development. The Political Science Department’s most recent external review argued that the caliber of the faculty was under-utilized by not having a MA program; the addition of a MA will enhance the department, the university, and the region.

(C) The program will strengthen Boise State University’s Ph.D. in Public Policy, the only Ph.D. program in the College of Social Sciences and Public Affairs, which has the lead statewide responsibility for public affairs education in Idaho. Our faculty is nationally and internationally recognized for their policy and scholarly expertise. The MA in POLS will expand the areas of expertise available to Ph.D. students and contribute to improvements in the overall quality of the dissertation as well as helping Ph.D. students move through the program in a timely fashion.
Please note that Boise State University, Idaho State University and the University of Idaho all have Masters of Public Administration (MPA) programs. These programs are not included in the chart above because they are professional programs designed to prepare students for jobs in the public sector.

8. Describe the methodology for determining enrollment projections. If a survey of student interest was conducted, attach a copy of the survey instrument with a summary of results as Appendix B. This question is not applicable to requests for discontinuance.

A survey of student interest in a Masters of Political Science program was conducted during the Fall Semester of 2010. Faculty submitted the attached questionnaire (Appendix B) to students in upper-division undergraduate Political Science classes to gauge the factors involved in giving consideration to applying to the program, curriculum interests, and other matters. There were 116 responses to the survey. In response to the question "The Department of Political Science is proposing a master's degree in Political Science. Would you consider applying to this proposed program?" 67% of the respondents said "Yes". Of these respondents, roughly equal percentages would consider specializing their graduate studies in either American Government or International Relations (41% and 42% respectively). Within the American Government specialization, the top sub-specializations were the courts (31% of respondents) and public policy (25%). The factors considered by the respondents to be the most important factors include the diversity of specializations of study offered, the affordability of the program, and the quality of the program. The top goals for respondents pursuing a master's degree were helping secure employment, a stepping-stone toward a Ph.D., and an interest in studying political science further. Given the evidentiary amount of interest in the program, we estimate initial enrollment per the table below.

Additionally, during the past decade, our faculty has received much anecdotal evidence of interest among the student body and community members for a master's program, through conversations, letters and email inquiries.

The program will serve three distinct student groups:
1. "Accelerated Full-time" students will be recruited from the ranks of BA in Political Science students, will have completed 6 graduate credits during their BA career and thus will need only 24 credits to complete the MA program, and will complete 12 credits in each of two semesters. Attrition per semester is estimated at 0.05.
2. "Regular Full-time" students will be students who will enter the program with no graduate credits, and will complete 12 credits in each of the first two semesters then 6 credits in a final semester. Attrition per semester is estimated at 0.1.
3. "Part-time" students will complete on average 4.5 credits per semester, requiring on average 3.5 years to complete their degrees. Attrition per semester is estimated at 0.2.

The first table below shows the projected enrollments of each of the student groups. The second shows the projected number of graduates.

### Enrollment and Graduates

Enrollment and graduates are essential factors in determining the success of a program. Using the chart below, provide a realistic estimate of enrollment at the time of program implementation and over a three year period based on availability of students meeting the criteria referenced above. Include part-time and full-time (i.e., number of majors and other relevant data) by institution for the proposed program, last three years beginning with the current year and the previous two years. Also, indicate the projected number of graduates and graduation rates.

March 16, 2012

Page 10
Discontinuities. Using the chart below include part-time and full-time (i.e., number of majors or other relevant data) by institution for the proposed discontinuation, last three years beginning with the current year and previous two years. Indicate how many students are currently enrolled in the program for the previous two years, to include number of graduates and graduation rates.

10. Will this program reduce enrollments in other programs at your institution? If so, please explain.

In general, the new MA in Political Science will complement, rather than compete with, the longstanding MPA and the new Ph.D. in Public Policy and Administration. Prospective MPA students are usually in-service professionals or other individuals who are seeking an administrative or management track in public service. The MA in Political Science is likely to appeal to individuals who want specific theoretical content in political science (e.g., a secondary teacher or journalist). Because applicants to the Ph.D. will usually have a Master's degree, the MA in Political Science will serve as a source of applicants for the Ph.D. program. Currently, the occasional student applies for the MPA when s/he instead might have preferred graduate work in political science, therefore, we estimate on average one student per year will be a "shifting enrollment."

11. Provide verification of state workforce needs such as job titles requiring this degree. Include State and National Department of Labor research on employment potential. Using the chart below, indicate the total projected job openings (including growth and replacement demands in your regional area, the state, and nation. Job openings should represent positions which require graduation from a program such as the one proposed. Data should be derived from a source that
can be validated and must be no more than two years old. This question is not applicable to requests for discontinuance.

<table>
<thead>
<tr>
<th></th>

<td>29</td>
<td>29</td>
</tr>
<tr>
<td>Nation</td>
<td>5,690</td>
<td>5,735</td>
<td>5,780</td>
</tr>
</tbody>
</table>

a. Describe the methodology used to determine the projected job openings. If a survey of employment needs was used, please attach a copy of the survey instrument with a summary of results as Appendix C.

National workforce needs come from the "Political Scientists" chapter of the U.S. Bureau of Labor Statistics publication "Occupational Outlook Handbook" (U.S. Department of Labor, 2010) and are extrapolated from 2010. State workforce needs are extrapolated from the national figures based upon Idaho’s workforce population as a percentage share of the U.S. workforce population. Local (regional) figures are extrapolated from the State figures based upon approximately 50% of Idaho’s population residing in the 10 county service area of Boise State.

Additionally, we surveyed three peer institutions during the spring of 2013 with programs that are comparable to our proposed program: the University of Montana, Portland State University, and the University of Wyoming. These programs reported that approximately 1/3 of their graduates advance to their Ph.D. studies in political science or social science; 1/3 find jobs in academic settings such as college and university lecturers and instructors, program directors, and supervisors; and 1/3 find employment in governmental positions or private business.

b. Describe how the proposed change will act to stimulate the state economy by advancing the field, providing research results, etc.

According to the report "Boise City-Nampa MSA Employment and Industry Analysis: Collegiate Employment / Workforce Readiness Report, Part I" (Boise State University, May 2013), the strongest emerging sectors of the MSA economy are "Educational Services" and "Professional, Scientific, and Technical Services" (p. 51). Master of Political Science graduates fit these job profiles.

According to the report "Work-Life Earnings by Field of Degree and Occupation for People With a Bachelor’s Degree: 2011" (Tiffany Julian, U.S. Census Bureau, October 2012), master’s degree earners have a significant earnings advantage over bachelor’s degree earners, and can on average expect to earn $2,834 million over their working lifetime, approximately $334,000 more than bachelor’s degree earners can in the social sciences.

Given that there is an evident pattern of demand in the state capital for Master of Political Science graduates, and their evidently increased earnings potential, we believe that the economy of the State of Idaho will improve in measurable terms with the creation of a Master of Political Science program at Boise State University.

March 16, 2012
Page 12

IRSA

TAB 2 Page 16
c. Is the program primarily intended to meet needs other than employment needs, if so, please provide a brief rationale.

The Master of Political Science program will also support graduates advancing to Ph.D. programs in Public Policy and Political Science, who will contribute to disciplinary knowledge through their dissertation research, conference paper presentations, and referred publications.

12. Will any type of distance education technology be utilized in the delivery of the program on your main campus or to remote sites? Please describe. This question is not applicable to requests for discontinuance.

No

13. Describe how this request is consistent with the State Board of Education’s strategic plan and institution’s role and mission. This question is not applicable to requests for discontinuance.

Those outcomes will serve the following aspects of the SBOE strategic plan:

**GOAL 1: A WELL EDUCATED CITIZENRY**

The educational system will provide opportunities for individual advancement.

- **Objective A: Access** [The proposed program will provide access to a valuable program relevant to a wide range of students and professionals]

- **Objective C: Adult Learner Re-integration** – [The proposed program will meet the needs of professionals seeking additional education.]

**GOAL 2: CRITICAL THINKING AND INNOVATION**

The educational system will provide an environment for the development of new ideas, and practical and theoretical knowledge to foster the development of individuals who are entrepreneurial, broadminded, think critically, and are creative. [The proposed program will contribute important understanding of state and local governmental processes.]

The following bolded passages show the relevance of the program to Boise State University's Mission:

*Boise State University is a public, metropolitan, research university offering an array of undergraduate and graduate degrees and experiences that foster student success, lifelong learning, community engagement, innovation and creativity. Research and creative activity advance new knowledge and benefit students, the community, the state and the nation. As an integral part of its metropolitan environment the university is engaged in professional and continuing education programming, policy issues, and promoting the region's economic vitality and cultural enrichment.*

Boise State University has been designated the lead institution for public affairs in the state of Idaho by the State Board of Education. The proposed MA in Political Science will help Boise State and the College of Social Sciences and Public Affairs meet its goals on contributing to public affairs in the state of Idaho. Our faculty work on research projects is of great relevance to local, regional, national and international communities. The MA in
Political Science will allow our faculty to work with graduate students to help them to contribute to the vitality of public affairs.

14. Describe how this request fits with the institution's vision and/or strategic plan. This question is not applicable to requests for discontinuance.

<table>
<thead>
<tr>
<th>Goals of Institution Strategic Plan</th>
<th>Proposed Program Plans to Achieve the Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Goal 1 – Create a signature, high quality educational experience for all students.</td>
<td>Our program MA program will graduate between 15 and 20 MA students on a yearly basis. The program will provide support to the new Ph.D. program, the MPA program and the MCRP program.</td>
</tr>
<tr>
<td>Goal 1 – Create a signature, high quality educational experience for all students.</td>
<td>The Department of Political Science at Boise State University enjoys a well-deserved reputation as having faculty who are committed, excellent teachers. Our students win university-wide awards on a regular basis and our faculty members have, for the past 15 years, consistently been recognized at the university-level for excellence.</td>
</tr>
<tr>
<td>Goal 3 – Gain distinction as a doctoral research university.</td>
<td>The Department of Political Science at Boise State University enjoys a well-deserved reputation as having faculty who are actively engaged in cutting-edge research that impacts their chosen fields of study.</td>
</tr>
<tr>
<td>Goal 4 – Align university program and activities with community needs.</td>
<td>Our faculty members are engaged in university, local, regional, national and international projects. These projects leverage the knowledge and commitment of faculty members. Our extensive engagement will help our graduate students develop new networks that will help them on an individual level.</td>
</tr>
</tbody>
</table>

15. Is the proposed program in your institution’s Five-Year plan? Indicate below. This question is not applicable to requests for discontinuance.  
   Yes X  No ___

16. Explain how students are going to learn about this program and where students are going to be recruited from (i.e., within institution, out-of-state, internationally). For requests to discontinue a program, how will continuing students be advised of impending changes and consulted about options or alternatives for attaining their educational goals?

Our initial recruitment efforts will be focused on current and former students in the Treasure Valley. We will recruit seniors from Boise State University, College of Idaho, and Northwest Nazarene University. We will also recruit in local school districts, at high school and junior high/middle school levels. We will also recruit in the non-profit and public sectors, seeking out potential students. Following the first recruitment phase, we will expand recruitment across Idaho and the Intermountain West.

17. In accordance with Board Policy III.G., an external peer review is required for any new doctoral program. Attach the peer review report as Appendix D.

Not applicable
18. Program Resource Requirements.

Total FTE Personnel Cost reallocated: $54,600.00 $0.00 $55,350.00 $0.00 $56,700.00 $0.00 $174,450.00 $0.00
Total FTE Personnel Cost reallocated FTE: $11,610.00 $0.00 $27,596.70 $0.00 $27,596.70 $0.00 $58,403.40 $0.00

Notes:
II.1A "Reallocated funds" represent funds reallocated internal to the university.
II.1B "Reallocated FTE" represents faculty and administrative FTE reallocated to the program.
II.2A New funding for a lecturer beginning at $40k per year, to teach 8 3-credit courses per year.
IIIA.2B Reallocated FTE from faculty members listed in section 18a. FTE equivalent to 8 courses per year will be covered by the lecturer, therefore only 2 courses per year (beginning in year 2) worth of FTE need be reallocated to the new program.
IIIA.3 Administrative FTE covered by 0.1FTE of reallocated faculty effort.
IIIA.7 Support personnel: eallocated 0.1FTE of an administrative assistant at $28k salary.
III8 Fringe calculated at 35%

### a. Personnel Costs

**Faculty and Staff Expenditures**

Project for the first three years of the program the credit hours to be generated by each faculty member (full-time and part-time), graduate assistant, and other instructional personnel. Also indicate salaries. After total student credit hours, convert to an FTE student basis. Please provide totals for each of the three years presented. Salaries and FTE students should reflect amounts shown on budget schedule.

</tbody>
</table>

Project the need and cost for support personnel and any other personnel expenditures for the first three years of the program.

**Administrative Expenditures**

Describe the proposed administrative structure necessary to ensure program success and the cost of that support. Include a statement concerning the involvement of other departments, colleges, or other institutions and the estimated cost of their involvement in the proposed program.
For FY15, 16, 17:

<table>
<thead>
<tr>
<th>Name, Position &amp; Rank</th>
<th>Annual Salary Rate</th>
<th>FTE Assignment to this Program</th>
<th>Value of FTE Effort to this Program</th>
</tr>
</thead>
<tbody>
<tr>
<td>MA Program Director, Dr. Lori Hausegger</td>
<td>58,177</td>
<td>.1</td>
<td>5,818</td>
</tr>
</tbody>
</table>

**Operating Expenditures**

Briefly explain the need and cost for operating expenditures (travel, professional services, etc.)

Operating expenses totaling approximately $3,000 per year will be used for advertising, travel, and miscellaneous.

**b. Capital Outlay**

(1) Library resources

(a) Evaluate library resources, including personnel and space. Are they adequate for the operation of the present program? If not, explain the action necessary to ensure program success.

The recent expansion of library resources and access to the ICPSR database meets most of our MA programs needs. We will continue to work to ensure access to necessary journals and databases.

(b) Indicate the costs for the proposed program including personnel, space, equipment, monographs, journals, and materials required for the program.

We will be able to implement the MA program with the addition of one full-time lecturer.

For off-campus programs, clearly indicate how the library resources are to be provided.

Not Applicable

(2) Equipment/Instruments

Describe the need for any laboratory instruments, computer(s), or other equipment. List equipment, which is presently available and any equipment (and cost) which must be obtained to support the proposed program.

None

**d. Revenue Sources**

(1) If funding is to come from the reallocation of existing state appropriated funds, please indicate the sources of the reallocation. What impact will the reallocation of funds in support of the program have on other programs?
The reallocation of funds necessary to hire the full-time lecturer and for operating expenses will primarily come from salary savings. Beginning year two, 0.2 FTE of tenured faculty time will be reallocated to the program.

(2) If the funding is to come from other sources such as a donation, indicate the sources of other funding. What are the institution’s plans for sustaining the program when funding ends?

(3) If an above Maintenance of Current Operations (MCO) appropriation is required to fund the program, indicate when the institution plans to include the program in the legislative budget request.

(4) Describe the federal grant, other grant(s), special fee arrangements, or contract(s) to fund the program. What does the institution propose to do with the program upon termination of those funds?

(5) Provide estimated fees for any proposed professional or self-support program.

- PUBADM 542 Science, Democracy and the Environment
- PUBADM 560 State and Local Government Policy and Administration

**THESIS:** Students selecting the thesis will register for 6 credits of POLS 599 Thesis and will complete a thesis under the supervision of either their graduate advising committee or a committee developed specifically for the thesis. | 6 |

**Total Credit Hours** | 30 |
APPENDIX B
RESULTS OF A NEEDS ASSESSMENT SURVEY
FOR A MASTERS DEGREE IN POLITICAL SCIENCE
The survey was administered to upper division Political Science students
during the Fall Semester of 2010.
Note: percentages may not add to 100 due to both omitted answers and rounding.

Selected questions only:

1. Are you considering attending graduate school after you have earned your bachelor's degree?
   a. Yes, I am considering attending a Master’s program – 42 (36%)
   b. Yes, I am considering attending a Ph.D. program – 8 (7%)
   c. Yes, I am considering attending Law School – 47 (41%)
   d. No, I am not considering attending graduate school – 16 (14%)

2. If you are not considering graduate school, what are your plans after you complete your undergraduate work?
   a. Work in government related area at the state level – 6 (5%)
   b. Work in government related area at the federal level – 20 (17%)
   c. Work in private business – 8 (7%)
   d. Teach at high school level – 5 (4%)
   e. Other – 8 (7%)

3. Are you considering the Master’s in Public Administration offered by Boise State University?
   a. Yes – 17 (15%)
   b. No – 95 (82%)

4. The Department of Political Science is proposing a Master’s degree in Political Science. Would you consider applying to this proposed program?
   a. Yes, I would consider applying to it. – 78 (67%)
   b. No, I would not consider applying to it. – 32 (28%)

If you answered "a." for question 4, then please answer the following questions and hand this sheet and the Scantron sheet back in. If you answered "b." for question 4, then please hand this sheet and the Scantron back in and do not answer any further question.

5. If you are interested in a graduate program what area of study most closely matches the focus you would like to pursue in a Master’s program?
   a. International relations – 33 (28%)
   b. Comparative politics – 5 (4%)
   c. Political theory – 9 (8%)
   d. American politics – 34 (29%)

6. What is your second area of interest?
   a. International relations – 14 (12%)
   b. Comparative politics – 25 (22%)
   c. Political theory – 17 (15%)
   d. American politics – 21 (18%)
e. I only have one area of interest – 3 (3%)

7. If you answered American Politics for either questions 9 or 10 which of the following areas most closely matches your interests?
   a. State and local politics – 11 (9%)
   b. Public policy – 16 (14%)
   c. Congress – 12 (10%)
   d. Courts – 20 (17%)
   e. Presidency – 3 (3%)

8. Which of the following factors would you consider to be the most important factor in your decision to apply to the Boise State University graduate program in Political Science?
   a. Cost of the program – 23 (20%)
   b. Convenience of location – 4 (3%)
   c. Quality of the faculty – 14 (12%)
   d. Desire to conduct research – 5 (4%)
   e. Areas of study offered – 31 (27%)
   f. Availability of funding as a GA or TA – 4 (3%)

9. Which of the following factors would you consider to be the least important factor in your decision to apply to the Boise State University graduate program in Political Science?
   a. Cost of the program – 8 (7%)
   b. Convenience of location – 29 (26%)
   c. Quality of the faculty – 3 (3%)
   d. Desire to conduct research – 20 (18%)
   e. Areas of study offered – 3 (3%)
   f. Availability of funding as a GA or TA – 17 (15%)

10. What would be your goal in pursuing a Master’s degree?
    a. A step towards earning a PhD – 20 (17%)
    b. An advanced degree to help with the job market – 35 (30%)
    c. An interest in studying political science further – 20 (17%)
    d. Other reason(s) – 5 (4%)

11. What would be your ideal course schedule in a Master’s program?
    a. Classes offered during the morning – 24 (21%)
    b. Classes offered in the afternoon – 17 (15%)
    c. Classes offered from 4PM – 7PM – 18 (16%)
    d. Classes offered after 6PM – 17 (15%)
BOISE STATE UNIVERSITY

SUBJECT
Approval of a new STEM Institute

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section III.G.

BACKGROUND/DISCUSSION
Boise State University (BSU) proposes to create a new STEM Institute to facilitate education and research in Science, Technology, Engineering, and Mathematics (STEM) disciplines. The STEM Institute will have four sub-units to cover the spectrum of STEM initiatives: K-12 Education Pipeline, Higher Education, Industry Partnerships and Research, and Assessment Center.

The objectives of the proposed institute are:
- Create opportunities to develop, support, and implement STEM education and research initiatives in Idaho, the region and nationally.
- Collaborate and coordinate among STEM programs and projects at Boise State University to increase efficiency, capacity and effectiveness.
- Advocate, coordinate, and support new and existing programs and services that enhance student success in STEM fields.
- Build model collaborative and integrated programs with industry and support existing programs that promote economic development through workforce development as well as applied research support.
- Seek to provide innovative approaches to solving educational needs related to STEM that are transformational and beyond traditional programs.

The proposed institute will be located on BSU’s Boise campus, and will build on the success of the existing STEM Station, serving as a central coordinating and support structure for activities having to do with STEM Education. BSU is very active in K-20 STEM education, with more than 25 STEM initiatives in the past five years that have attracted more than $12M in external funding. Three examples of existing STEM initiatives include:

- IDoTeach, an innovative collaboration among the Colleges of Arts and Sciences, Engineering and Education to prepare secondary mathematics and science teachers, and is the first replication site in the region of the highly effective University of Texas UTeach program.
- Pacific Northwest Louis Stokes Alliance for Minority Participation (LSAMP) supports bachelor’s degree attainment among students from underrepresented minority students in STEM. In its first four years (2009-2013) of participation in LSAMP, Boise State has achieved a 72%
increase in enrollment and 153% increase in degree attainment of underrepresented minority students.

- **WIDER PERSIST** (Promoting Education Reform through Strategic Investments in Systemic Transformation), a $2M award in September 2013 from the National Science Foundation grant to increase evidence-based best teaching and learning practices in foundational STEM courses.

The University of Idaho (UI), Idaho State University (ISU), and Lewis-Clark State College (LCSC) also are also active in STEM Education initiatives. Examples are the UI’s NSF-funded Strategies Project-Back to the Earth engages 4-6th graders and their teachers in STEM learning on Indian reservations, ISU’s S-STEM Scholarships in Chemistry open doors to financially needy students who might otherwise not have resources to complete a college degree, and LCSC hosts STEM institutes for teachers and has K-12 STEM camps.

**IMPACT**

BSU will use approximately $115,000 yearly ongoing reallocated funding for the position of Executive Director and one-half of Operating Expense. The remaining Operating Expense and five additional positions will be funded by grants, at an estimated approximately $275,000 to $335,000 annually.

**ATTACHMENTS**

Attachment 1 – STEM Institute proposal

**STAFF COMMENTS AND RECOMMENDATIONS**

Boise State University (BSU) proposes to create a new STEM Institute, which will support STEM education and research. ISU and UI also offer a number of initiatives that support STEM education and research. In many cases, those initiatives represent substantial collaborative efforts among BSU, UI, and ISU. The attached proposal contains a listing of STEM initiatives at the three Idaho universities.

The proposal went through the program review process and was presented to the Council on Academic Affairs and Programs (CAAP) on July 17, 2014. CAAP supported the proposed institute and recommended forwarding to the Instruction, Research, and Student Affairs (IRSA) committee on July 31, 2014. Staff notes that the fiscal impact for the proposed institute surpasses the threshold for Executive Director approval and is being forwarded to the Board for its consideration consistent with Board Policy III.G.

Staff believes that the proposed STEM Institute will help facilitate education and research in much needed STEM fields, and its creation is therefore justified. Board staff, CAAP, and IRSA recommend approval as presented.
BOARD ACTION

I move to approve the request by Boise State University to create a new STEM Institute.

Moved by __________ Seconded by __________ Carried Yes _____ No ______
Idaho State Board of Education
Proposal for Other Academic Program Activity and Professional-Technical Education

Before completing this form, refer to Board Policy Section III.G., Program Approval and Discontinuance. This proposal form must be completed for the creation of each new program and each program discontinuation. All questions must be answered.

1. **Describe the nature of the request.** Will this program/option be related or tied to other programs on campus? Please identify any existing program, option that this program will replace. **If this is request to discontinue an existing program, provide the rationale for the discontinuance.** Indicate the year and semester in which the last cohort of students was admitted and the final term the college will offer the program. Describe the teach-out plans for continuing students.

Boise State University proposes the creation of a new institute: The STEM Institute. The STEM (Science, Technology, Engineering, and Mathematics) Institute builds on the success of the existing STEM Station and a wide range of STEM initiatives and STEM education research programs at Boise State University. The STEM Institute will serve as a central coordinating and support structure for activities having to do with STEM Education.

The vision of the Boise State STEM Institute is to 1) increase the quality, quantity and diversity of students graduating in STEM fields, 2) actively contribute to the knowledge base of STEM education theories, practices and impacts, and 3) collaborate with industry partners for economic development. This vision recognizes and supports the global, national and regional relevance and need for quality STEM professionals who are positioned to create and influence future innovations and technologies that benefit society.

The vision will be achieved through the following: 1) collaborative research and quality educational programs in STEM effective educational practices and teacher preparation programs, 2) outreach and partnerships with K-12, informal STEM education centers, industry, and government, and higher education institutions, and 3) industry partnerships.

The STEM Institute will have four sub-units to cover the spectrum of STEM initiatives: K-12 Education Pipeline, Higher Education, Industry Partnerships and Research, and Assessment Center.

Boise State has established itself as a leader in K-20 STEM education, with more than 25 STEM initiatives in the past five years that have attracted more than $12 M in external funding. Existing STEM initiatives that demonstrate Boise State's STEM education leadership include:

- **iDoTeach**, an innovative collaboration among the College of Arts and Sciences, College of Engineering and College of Education to prepare secondary mathematics and science teachers. iDoTeach is the first replication site in the Pacific Northwest and the Rocky Mountain region of the highly effective University of Texas UTeach program.

- Pacific Northwest Louis Stokes Alliance for Minority Participation (LSAMP) supports bachelor's degree attainment among students from underrepresented minority students in STEM. In its first four years (2009-2013) of participation in LSAMP, Boise State has achieved a 72% increase in enrollment and 153% increase in degree attainment of underrepresented minority students. Strong connections to community colleges are a priority of this initiative.

- **WIDER PERSIST** (Promoting Education Reform through Strategic Investments in Systemic Transformation), a $2M award in September 2013 from the National Science Foundation grant to increase evidence-based best teaching and learning practices in
foundational science, technology, engineering and math (STEM) courses. Applying an intentional change process is a unique element of this project and puts Boise State in the national spotlight for education reform.

- More than 20 additional major initiatives and research projects are in place that affect K-12 STEM education, higher education initiatives and community partnerships.

Creating a STEM Institute will leverage these extensive programs and enable Boise State to attain further grants and pursue additional initiatives address the demand for quality STEM graduates. The following figure illustrates the growth in STEM educational initiatives funded by NSF at Boise State University during the period between August 2009 and March 2014. A number of other initiatives involve partnerships with NASA, U.S. Department of Education, Idaho Department of Education, National Institutes of Health, and others.

![Growth in Active NSF STEM Education Research & Initiatives](image)

2. **List the objectives of the program.** The objectives should address specific needs (industry) the program will meet. They should also identify the expected student learning outcomes and achievements. *This question is not applicable to requests for discontinuance.*

- Create opportunities to develop, support, and implement STEM education and research initiatives in Idaho, the region and nationally
- Collaborate and coordinate among STEM programs and projects at Boise State to increase efficiency, capacity and effectiveness
- Advocate, coordinate, and support new and existing programs and services that enhance student success in STEM fields.

*October 18, 2012*

*Page 3*
• Build model collaborative and integrated programs with industry and support existing programs that promote economic development through workforce development as well as applied research support
• Seek to provide innovative approaches to solving educational needs related to STEM that are transformational and beyond traditional programs

The STEM Institute will consolidate and expand already-existing STEM educational work at Boise State University. The following figures illustrate some of the successes achieved by Boise State in the realm of STEM education.

The following two figures illustrate (i) the dramatic growth in overall STEM enrollment at Boise State over the last five years and (ii) the even more dramatic growth in STEM enrollment of underrepresented minorities over the last three years.

3. Briefly describe how the institution will ensure the quality of the program (i.e., program review). Will the program require specialized accreditation (it is not necessary to address regional accreditation)? If so, please identify the agency and explain why you do or do not plan to seek accreditation. This question is not applicable to requests for discontinuance.

The STEM Institute will be reviewed regularly by the Boise State Centers and Institutes Committee utilizing the Division of Research and Economic Development protocol for institutes and centers, Boise State Policy #5000.

4. List new courses that will be added to curriculum specific for this program. Indicate number, title, and credit hour value for each course. Please include course descriptions for new and/or changes to courses. Attach a Scope and Sequence, SDPTE Form Attachment B, for professional-technical education requests. This question is not applicable to requests for discontinuance.

October 18, 2012
Page 4
5. Please provide the program completion requirements and attach to this proposal as Appendix A. This question is not applicable to requests for discontinuance.

| Credit hours required in major: |
| Credit hours required in minor: |
| Credit hours in institutional general education or core curriculum: |
| Credit hours in required electives: |
| **Total credit hours required for completion:** |

6. Identify similar programs offered within Idaho or in the region by other colleges/universities. If the proposed request is similar to another state program, provide a rationale for the duplication. Institutions do not need to complete this section for PTE programs. This question is not applicable to requests for discontinuance.

Idaho institutions of higher education have been intentional about creating STEM programs that serve K-lifelong learning needs regionally and beyond. There are dozens of excellent outreach and education programs with a specific scientific or audience focus. For example University of Idaho’s NSF-funded Strategies Project-Back to the Earth engages 4-6th graders and their teachers in STEM learning on Indian reservations. Boise State’s e-Camps provide opportunities for middle school and high school students from underrepresented backgrounds to explore STEM. And Idaho State University’s Energy Systems in Technology Education Center provides extensive resources for K-12 teachers and students, with an energy workforce focus.

Current STEM projects and programs that have a broader focus with involvement from Idaho universities include the following:

<table>
<thead>
<tr>
<th><strong>Integrative or Comprehensive STEM Program</strong></th>
<th><strong>Specific Focus</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>K-12/Community</strong></td>
<td></td>
</tr>
<tr>
<td>Idaho STEM Pipeline, funded by the NSF Idaho EPSCoR, a web clearinghouse on K-12, higher education and community outreach programs in Idaho, hosted at University of Idaho</td>
<td>Clearinghouse for community connections to STEM programs, including many at Idaho universities</td>
</tr>
<tr>
<td>Idaho Science and Aerospace Scholars teaches a broad range of science, technology, engineering, and mathematics (STEM) skills aligned with Idaho Content Standards</td>
<td>High school juniors in Idaho with focus on STEM and space exploration</td>
</tr>
<tr>
<td>iSTEM, a coordinated statewide effort by the State Department of Education, Idaho educators, businesses and industry to support K-12 STEM with a focus on teacher professional development</td>
<td>K-12 STEM teachers</td>
</tr>
<tr>
<td>TRiO pre-college preparation programs focused on</td>
<td>Lower income, first generation</td>
</tr>
<tr>
<td>STEM such as Idaho State University’s TRiO STEM Day and disabled pre-college students</td>
<td>University of Idaho Micron STEM Education Research Initiative, a statewide project to discover factors affecting STEM learning in Idaho, with a focus on ties to global competitiveness</td>
</tr>
<tr>
<td>NASA Idaho Space Grant Consortium provides a range of informal and formal education programs and research throughout Idaho; all Idaho higher education institutions participate</td>
<td>K-lifelong STEM education with aeronautical and aerospace foci</td>
</tr>
</tbody>
</table>

**Higher Education**

| University of Idaho STEM Initiative features the Micron STEM Education Research Initiative as a signature project and has developed a strategic plan to bring together UI STEM programs and projects; includes a Director of STEM Education | UI strategic planning for STEM |
| Native American focused programs include NSF Alliance for Graduate Education with the Professoriate (University of Idaho), SNAAP: Strengthening Native American Access to the Professoriate (Idaho State University), and Indigenous Program for STEM Research and a Regional Native Network of Graduate Education (UI Idaho) | Native American Ph.D. or grad students in STEM |
| Complete College America Guided Pathways to Success in STEM Careers is a technical assistance grant in partnership with the Idaho State Board of Education, Idaho’s three universities and College of Southern Idaho | Develop and achieve STEM degree completion goals |
| Student research experiences are funded through a variety of programs, often in an integrative manner, for all three universities, via a variety of programs such as NSF Research Experiences for Undergraduates, NSF EPSCoR, and National Institutes of Health INBRE program | Student research experiences in STEM at Idaho institutions |
| NSF Graduate Fellows in K-12 STEM Education has been implemented at all three Idaho universities to partner STEM graduate students with formal and informal K-12 education programs and schools | STEM grad students connecting with K-12 formal and informal STEM education |
| NSF Scholarships for STEM students have been provided for specific majors of undergraduates at all three Idaho Universities through the S-STEM program or the CyberCorps Scholarships for Service Program | Undergraduate students in selected STEM majors |
| STEM Station at Boise State University integrates and extends the work of about 25 STEM initiatives/programs and research projects on everything from higher education teaching practice to K-12 teacher preparation to community outreach | K-12 to lifelong learning with primary focus on higher education research on teaching and learning and STEM student success |

* This list is intended to represent the breadth of integrative STEM initiatives with

7. Describe the methodology for determining enrollment projections. If a survey of student interest was conducted, attach a copy of the survey instrument with a summary of results as Appendix B. This question is not applicable to requests for discontinuance.

N/A

8. Enrollment and Graduates. Provide a realistic estimate of enrollment at the time of program implementation and over three year period based on availability of students meeting the criteria referenced above. Include part-time and full-time (i.e., number of majors or other relevant data) by institution for the proposed program, last three years beginning with the current year and the previous two years. Also, indicate the number of graduates and graduation rates.

N/A

Discontinuations. Using the chart below include part-time and full-time (i.e., number of majors or other relevant data) by institution for the proposed discontinuation, last three years beginning with the current year and previous two years. Indicate how many students are currently enrolled in the program for the previous two years to include number of graduates and graduation rates.

N/A

October 18, 2012

Page 7
9. **Will this program reduce enrollments in other programs at your institution?** If so, please explain.
   
The STEM Institute will support degree attainment, graduate school matriculation and retention among STEM majors at Boise State University, and therefore will have positive impact on enrollments in STEM programs.

10. **Provide verification of state workforce needs such as job titles requiring this degree.**
    Include State and National Department of Labor research on employment potential. *This question is not applicable to requests for discontinuance.*

    Using the chart below, indicate the total projected job openings (including growth and replacement demands in your regional area, the state, and nation. Job openings should represent positions which require graduation from a program such as the one proposed. Data should be derived from a source that can be validated and must be no more than two years old. *This question is not applicable to requests for discontinuance.*

    STEM degrees are in high demand in Idaho and are listed as “hot jobs” by the Idaho Department of Labor.

a. Describe the methodology used to determine the projected job openings. If a survey of employment needs was used, please attach a copy of the survey instrument with a summary of results as Appendix C.

We used Idaho Department of Labor reports and US Department of Labor reports.

b. Describe how the proposed change will act to stimulate the state economy by advancing the field, providing research results, etc.

The STEM Institute will help to increase the number and level of preparation in STEM graduates. The institute will support STEM related industry through partnerships in applied research.

c. Is the program primarily intended to meet needs other than employment needs, if so, please provide a brief rationale.

11. Will any type of distance education technology be utilized in the delivery of the program on your main campus or to remote sites? Please describe. This question is not applicable to requests for discontinuance.

N/A

12. Describe how this request is consistent with the State Board of Education's strategic plan and institution's role and mission. This question is not applicable to requests for discontinuance.

GOAL 1: A WELL EDUCATED CITIZENRY The educational system will provide opportunities for individual advancement.

October 18, 2012

Page 9
Objective B: Higher Level of Educational Attainment – Increase the educational attainment of all Idahoans through participation and retention in Idaho’s educational system.

→ The STEM Institute will increase participation in and success in STEM educational programs

Objective D: Transition – Improve the ability of the educational system to meet educational needs and allow students to efficiently and effectively transition into the workforce.

→ The STEM Institute will coordinate support for high schools to encourage and prepare students in STEM fields, foster evidence-based pedagogy by STEM teachers, and cultivate applied experiences for college students throughout their academic degree.

GOAL 2: CRITICAL THINKING AND INNOVATION The educational system will provide an environment for the development of new ideas, and practical and theoretical knowledge to foster the development of individuals who are entrepreneurial, broadminded, think critically, and are creative.

Objective A: Critical Thinking, Innovation and Creativity – Increase research and development of new ideas into solutions that benefit society.

→ The STEM Institute will, through industry partnerships and engaged faculty, will cultivate applied experiences. Experiences may include research, service to information science centers, and outreach to youth.

GOAL 3: Effective and Efficient Delivery Systems – Ensure educational resources are used efficiently.

Objective C: Administrative Efficiencies – Create cross institutional collaboration designed to consolidate services and reduce costs in non-competitive business processes.

→ The STEM Institute will provide consultation infrastructure to support research, coordination to implement program elements of grants, and serve as a clearinghouse for resources and expertise.

13. Describe how this request fits with the institution’s vision and/or strategic plan. This question is not applicable to requests for discontinuance.

Relevance of the STEM Institute to the University’s Mission Statement is indicated by Bolding. Boise State University is a public, metropolitan research university an array of undergraduate and graduate degrees and experiences that foster student success, lifelong learning, community engagement, innovation and creativity. Research and creative activity advance new knowledge and benefit student the community, the state and the nation. As an integral part of its metropolitan environment the university is engaged in professional and continuing education programming, policy issues, and promoting the region’s economic vitality and cultural enrichment.

changes and consulted about options or alternatives for attaining their educational goals?

N/A

16. Program Resource Requirements. Using the Excel spreadsheet provided by the Office of the State Board of Education, provide a realistic estimate of costs needed for the overall program. This should only include the additional costs that will be incurred and not current costs. Include both the reallocation of existing resources and anticipated or requested new resources. Second and third year estimates should be in constant dollars. If the program is contract related, explain the fiscal sources and the year-to-year commitment from the contracting agency(ies) or party(ies). Provide an explanation of the fiscal impact of the proposed discontinuance to include impacts to faculty (i.e., salary savings, re-assignments).

**Ongoing** is defined as ongoing operating budget for the program which will become part of the base.

**One-time** is defined as one-time funding in a fiscal year and not part of the base.

**Budget Notes:**
- A.1 and B.1. Reallocated funding within the university will fund the position of the executive director.
- A.6 and B.1. Grant funding will fund the additional positions: Management Assistant, Project Director, Diversity Coordinator, ISAMP Outreach & CWI Liaison, and Faculty Associate Assessment Director.
- A.6. and B.2. Operating Expenses will be funded half by grants and half by appropriated.
LEWIS-CLARK STATE COLLEGE

SUBJECT
Lewis-Clark State College Faculty Constitution

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section III.C.2.

BACKGROUND/DISCUSSION
Board Policy III.C.2 states that faculty at each institution will establish written bylaws, a constitution, and necessary procedures, which are subject to approval by the Chief Executive Officer and the Board.

The Constitution of the Faculty is set out in the policy and procedures manual of Lewis-Clark State College (LCSC). The proposed revisions address the apportionment of the Faculty Senate, standing committee structure of the Faculty Senate, quorum for meetings of the Faculty, and update of titles to reflect the current organizational structure of LCSC. The proposed number of faculty senators is fixed for each instructional division, replacing apportionment based on size of instructional division. The proposed number of standing committees is reduced by three to six. The responsibilities of the committees have been redistributed to reduce duplication of effort and even out workload. The proposed quorum for meetings of the Faculty is reduced from one third to one fifth of its membership.

The proposed amendments were reviewed and approved by President Fernandez on July 8, 2014.

IMPACT
Approval of the amendments will allow LCSC to implement committee structure changes.

ATTACHMENTS
Attachment 1 – Proposed LCSC Policy 1.104 (Faculty Constitution) Page 3

STAFF COMMENTS AND RECOMMENDATIONS
The proposed changes to the Faculty Constitution restructure many of the Standing Committees. This includes the discontinuance of the Administrative Procedures Committee, the Faculty Development Committee, and the Technology Advisory Committee. Additionally, under the proposed changes, the two student appointees will become ex-officio members.

The Constitution was last reviewed and approved by LCSC in March 2009. This is the first time it is being presented to the Board.
Staff recommends approval.

**BOARD ACTION**

I move to approve the proposed changes to the Lewis-Clark State College Faculty constitution as set forth in the materials submitted to the Board as attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
SECTION I. GENERAL

SUBJECT: CONSTITUTION OF THE FACULTY OF LEWIS-CLARK STATE COLLEGE

Background: Used by faculty to discharge responsibility for internal government.

Point of Contact: The President, the Provost, and the Faculty Senate are responsible for monitoring this policy.

Other LCSC offices directly involved with implementation of this policy, or significantly affected by the policy: Faculty Association, Chair of the Faculty Senate, Administrative Procedures Committee

Date of approval by LCSC authority: March, 2009

Date of State Board Approval:

Date of Most Recent Review: March, 2009

Summary of Major Changes incorporated in this revision to the policy: Committee structure, Faculty Senate Apportionment, division structure, and clarification of parliamentary procedures.

PREAMBLE

We, the Faculty of Lewis-Clark State College, in order to discharge our responsibilities for internal government entrusted to us by the Idaho State Board of Education (hereafter referred to as Idaho SBOE), do hereby adopt and declare this constitution to be the basic document under which we shall discharge those responsibilities, consonant with the established policies of the Idaho SBOE. Any provision of this constitution that falls below the minimum standards set by the Idaho SBOE policy is inapplicable.

ARTICLE I—GENERAL PROVISIONS

Section 1. Idaho State Board of Education. The Idaho SBOE is vested by Article IX of the Constitution of the State of Idaho with all powers necessary or convenient to govern the College in all its aspects. The Idaho SBOE is the final authority for actions of the Faculty. Policy actions taken by the Faculty are subject to the final approval of the Idaho SBOE.

Section 2. President of the College. The President shall be president of the Faculty, or of the several faculties, within her or his institution and the chief executive of the instructional force in all of the institution's departments or divisions. She or he shall have authority, subject to Idaho SBOE policies, to give general direction to the instruction, research, and services of the institution. She or he shall make all recommendations concerning employment of faculties and other personnel of the institution. She or he shall be responsible to the Idaho SBOE for the administration and enforcement of all rules and regulations of the institution promulgated within the policies adopted by the Idaho SBOE:
INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 14, 2014

A. The President, with the advice of the Faculty, shall determine from time to time the internal and functional organization of the institution. She or he, or her or his designee, shall be an ex officio member of all committees, councils, and boards necessary to the operation of the institutional program and the immediate government of the institution.

B. The President, with the advice of the Faculty, shall have the right to veto any action, resolution, or recommendation of the Faculty, provided, however, that any issue so vetoed upon a two-thirds (2/3) vote of the Faculty present and voting at a regular meeting of the Faculty Association must be referred to the Idaho SBOE for consideration.

C. The President shall have all the rights, prerogatives, and responsibilities, which normally accrue to the position. She or he shall be responsible to the Idaho SBOE.

D. The chief executive shall select her or his own staff, subject to the required approval of the Idaho SBOE for all appointments.

Section 3. The Faculty of the College. The Faculty of the College consists of full-time lecturers, instructors, assistant professors, associate professors, professors, exempt and instructional personnel teaching at least six (6) credits or twelve (12) contact hours per week for three (3) or more of the previous six (6) semesters, the President, Provost, Vice Presidents, Deans, instructional Division Heads, and Registrar.

Section 4. Associate Faculty Members. Faculty members with emeritus status, exempt instructional personnel teaching at least one (1) credit per year but not listed as Faculty in Section 3, and such other administrative officers as the President may designate in writing are Associate Faculty members.

Section 5. The Faculty Association. The Faculty Association of Lewis-Clark State College is hereby established as the body representing the electoral interest of the Faculty. The Faculty of the College are voting members of the Faculty Association; Associate Faculty members are members of the Faculty Association with voice, but without vote. The Faculty Association, acting in partnership with the President, is responsible for establishing educational policies and participating in institutional government (as defined in Article III of this document). The Faculty Association communicates with the Idaho SBOE through the President, the Provost, and the Chair of the Faculty Association. The responsibilities of the Faculty Association are carried out through the various committees of the Faculty Association, the Faculty Senate, and the assembled Faculty Association.

Section 6. The Faculty Senate. The Faculty Senate is empowered to act for the Faculty in all matters pertaining to the immediate governance and improvement of the College. The Faculty Senate is responsible to and reports to the Faculty Association and through the President to the Idaho SBOE, per LCSC’s organizational structure. It will establish and review policies for promotion and merit, as well as sabbatical and professional leaves; make curriculum decisions; and protect the well-being of the students.

A. Structure. The Faculty Senate shall be constituted as follows:

1. Members of the Senate must be regular members of the Faculty Association.

2. Each Division of the college engaged in instruction shall elect two (2) Senators to the Senate excepting the Library that shall elect one (1) representative in the Senate for
every seven (7) or fraction of seven (7) budget line faculty positions. Each representative Senator for each a Division shall be a faculty member regular member of the Faculty Association with his or her primary appointment in that Division. Divisions are defined as the Library and those instructional units that are chaired by a Division ChairpersonChair. In addition, Student ServicesAffairs shall have one (1) representative Senator. The number of representative faculty positions within a division will be determined by the Faculty Senate Chair in concert with the Provost.

3. Senators are elected by their divisions. Division Chairs are responsible to identify Senate members and disperse this information to the Faculty Chair.

42. Two (2) students are appointed by the President of the Associated Students of Lewis-Clark State College (ASLCSC). They will be ex-officio members with voice but without vote have voting privileges.

53. The President, or the President's designated representative, Registrar, American Association of University Professors (AAUP) representative the Chair of the Curriculum Committee, and Past Faculty ChairpersonChair shall be an ex-officio members (with voice, but without vote) in the Faculty Senate.

B. Officers. Each year by the end of spring semester, the Faculty Association shall elect a ChairpersonChair and a ChairpersonChair-Elect from the Faculty to take office the day following spring graduation. The ChairpersonChair and the ChairpersonChair-Elect are also ChairpersonChair and ChairpersonChair-Elect of the Faculty Senate. Also, each year a Secretary from the Faculty shall be appointed by the ChairpersonChair, subject to confirmation by the Faculty Association.

1. Responsibilities of the ChairpersonChair are to:

a. be the official leader and voice of the Faculty Association;

b. represent the Faculty Association at the Idaho SBOE meetings dealing with higher education;

c. preside at Faculty Association meetings which she or he calls;

d. preside at or appoint the ChairpersonChair-elect to preside at all meetings of the Faculty Senate;

e. be an ex-officio member of all committees with voice, but without vote;

f. appoint the Secretary of the Faculty Association, subject to confirmation by the Faculty Association;

g. call regular meetings of the Faculty Senate during the academic year;

h. ensure a quorum of 50% plus one (1) Faculty Senate members are present prior to conducting official business;

i. perform all other duties pertaining to this office, as they arise;
j. act as a Chair of the Chairperson Chairs for the standing committees of the Senate;

k. chair the Faculty Senate Cabinet and the Budget-Liaison, Planning, and Assessment Committee;

l. be a member of the Idaho Council of Higher Education Faculty.

2. Compensation to the Chairperson:

   a. The Chairperson shall receive a stipend equal to one (1) month’s salary, which is to be paid over the term of the Chairperson’s regular contract payment.

   b. The Chairperson shall receive a 50% release time from normal teaching duties during his or her term.

   (1) Upon the mutual agreement of the Chairperson, Provost, Chairperson’s Division Chair, Chairperson-elect, and Chairperson-elect’s Division Chair, the Chairperson and Chairperson-elect may elect to receive release from normal teaching duties in a combination that will provide for a smooth transition from year to year. For example: Fall Semester, Chairperson 50%; Spring Semester, Chairperson 25% and Chairperson-elect 25%, or some other combination as agreed upon by all of the above parties.

   c. The Provost’s Office shall provide budget support for travel to Idaho SBOE meetings, Idaho Council of Higher Education meetings, and other engagements mandated by the regular responsibilities of the Chairperson.

3. Responsibilities of the Chairperson-Elect are to:

   a. assume the duties and responsibilities of the Chairperson in the absence of the Chairperson;

   b. perform all other duties pertaining to this office, and other such duties as may be assigned by the Chairperson or by the Faculty Association;

   c. chair the Faculty Affairs Committee;

   d. serve on the College Foundation Board Committee;

   e. be a member of the Budget Liaison, Planning, and Assessment Committee;

   f. be a member of the Faculty Senate Cabinet;

4. Responsibilities of the Past Chairperson are to:

   a. chair the Administrative Procedures Committee;

   b. be a member of the Budget, Planning, and Assessment Committee;

   c. be a member of the Faculty Senate cabinet;
d. be an ex-officio member of the Faculty Senate.

5. Responsibilities of the Secretary/Treasurer are to:

a. maintain an accurate record of all meetings of the Faculty Association and the Faculty Senate;

b. send a copy of the Faculty Association meeting and the Faculty Senate meeting minutes to the Provost, Faculty and Archivist;

c. maintain records of and report on Faculty dues payments and expenditures made from those funds.

C. Term of Office.

1. Faculty Senators. Faculty Senators are encouraged to serve for three (3) years.

2. Faculty Chairperson. The Chairperson will serve one (1) year as the Chair, and one (1) year as the immediate Past Chair. In the event of a resignation by the Chairperson, the immediate Past Chairperson will assume the responsibilities of the Chairperson for the remainder of the term.

3. Chairperson-Elect. The Chairperson-Elect will serve one (1) year as Chairperson-Elect and the following year will serve as the Chairperson. In the event of a resignation by the Chairperson-Elect, an Association meeting will be held within a month of the resignation for the purpose of electing a new Chairperson-Elect.

4. With mutual agreement between the Faculty ChairpersonChair and the ChairpersonChair-Elect, and upon election by the Faculty Association, the Faculty ChairpersonChair and ChairpersonChair-Elect may serve an additional one (1) year term.

5. Secretary/Treasurer. The Secretary/Treasurer will serve a term of one (1) year. This term may be repeated.

A. Section 7. Parliamentary Procedure. All official business conducted by the Faculty Association, the Faculty Senate, and all Standing Committees shall follow the current edition of Robert’s Rules of Order.

ARTICLE II—FACULTY ASSOCIATION MEETINGS

Section 1. Meetings. Meetings of the Faculty Association may be called with five (5) school days notice by the President or by the ChairpersonChair of the Faculty Association, or in the absence of the ChairpersonChair, by the ChairpersonChair-Elect of the Faculty Association, or upon the written petition of ten (10) Faculty members. There will be at least four (4) meetings during the college year. The President and the ChairpersonChair, respectively, are expected to call at least two (2) meetings each. The President, (or her or his designee), shall preside at all meetings of the Faculty Association which the President has called, and the ChairpersonChair or ChairpersonChair-Elect shall preside at all meetings they have called.

Section 2. Secretary-Treasurer. The Secretary-Treasurer of the Faculty Association shall be the Secretary-Treasurer of the Faculty Senate subject to confirmation by the Faculty Association.
Section 3. Quorum. A quorum shall consist of not less than one third (1/3) or one fifth (1/5) of the members of the Faculty Association (as defined in Article 1, Section 5.) Proxy votes must be presented in writing to the Secretary of the Faculty. Proxy votes will not count in the calculation of a quorum. By majority vote of the members present, a written poll of the Faculty of the College may replace a voice or written vote. The written poll must be issued within two (2) working days of the request and returned within seven (7) working days of the request.

Section 4. Agenda. An agenda listing all subjects to be voted on by the Faculty Association, other than routine matters, shall be issued to all members of the Faculty at least two (2) days in advance of each meeting of the Faculty Association, except as provided in clause E of this section.

A. Responsibility. The President shall be responsible for and shall issue the agenda when she or he has called the meeting. The Faculty Association Chairperson (or Chairperson-Elect in the absence of the Chairperson) shall be responsible for and issue the agenda when the Chairperson (or Chairperson-Elect) has called the meeting.

B. Agenda Items. Individual members of the College community who wish to suggest items for the agenda shall submit them to the President if the President has called the meeting, or to the Chairperson (or Chairperson-Elect) if the Chairperson (or Chairperson-Elect) has called the meeting. No items may be considered under this clause, unless presented within the proper time limit (see Article II, Section 4 for Agenda and Article II, Section 4, E. Agenda for Emergency Meetings), or unless the presiding officer considers the matter at hand "routine" business.

C. Resolutions Requiring Action. Ten (10) or more members of the College community desiring to submit a resolution which requires action at the next Faculty Association meeting shall submit the signed resolution to the President at least three (3) school days prior to the meeting. Such resolutions shall be published in full and included with the agenda.

D. Proposed Changes of Written Policies or Regulations. Any proposed change in written policy or regulation which requires action at the next Faculty Association meeting must be published in full with the agenda, or final action on the proposal must be delayed until the next Faculty Association meeting.

E. Agenda for Emergency Meetings. If circumstances require an emergency meeting of the total Faculty, the President or the Faculty Association Chairperson shall declare the emergency, and thus call the meeting. In such circumstances, the agenda may be limited to items approved by the President, if the President calls the meeting, or by the Chairperson if the Chairperson calls the meeting, and should be published not less than two (2) school days prior to the emergency meeting. Policy actions taken at emergency meetings require an approving vote of two-thirds (2/3) of the members of the total Faculty in attendance at the emergency meeting. A quorum, as indicated in Article II, Section 3, must be present to conduct any business. None of the rules stipulated in this clause may be suspended or altered.

ARTICLE III—RESPONSIBILITIES OF THE FACULTY

Subject to the authority of the Idaho SBOE and in keeping with the role and mission of the College, the Faculty recognizes and accepts its responsibilities for the immediate governance of the College, including, but not restricted to:
Section 1. Standards for Admission. The Faculty, in concert with the Director of Admissions/Registrar, shall establish minimum standards for admission to the College and its various units.

Section 2. Academic Standards. The Faculty shall establish academic standards to be maintained by all students in the College and its various units.

Section 3. Courses, Curricula, Graduation Requirements, Degrees. The Faculty shall establish and approve courses of instruction, curricula, degrees offered, and graduation requirements.

Section 4. Scholarships, Honors, Awards, Financial Aid. The Faculty shall establish general principles in accordance with which privileges such as scholarships, honors, awards, and financial aids shall be accepted and allocated.

The Faculty may review the standards established for the allocation of such privileges.

Section 5. Conduct of Students. The Faculty is responsible for establishing rules and regulations governing the conduct of students on the campus and at authorized College activities. Rules and regulations established by the committees shall conform to established law and standards of due process, and shall be subject to review by the Faculty Senate and the President, as well as review and final approval by the Idaho SBOE. Students shall have the right of formal appeal from decisions of the College officials and bodies to the Hearing Board, the President, and the Idaho SBOE.

Section 6. Student Participation. The students shall be given representation on Faculty committees and in the Faculty Senate.

Section 7. Selection of Administrative Officers. The Faculty shall assist the Idaho SBOE in the selection of the President and shall assist the President in the selection of other administrative officers of the College.

Section 8. Governance of Divisions. The Faculty shall establish general standards to guarantee the rights of the Faculty to participate in the governance of their respective divisions and in the selection of their respective Division ChairpersonChairs.

Section 9. Faculty Welfare. The Faculty, through the Faculty Senate and other standing Faculty committees, shall select a standing committee to establish criteria for salaries, working conditions, benefits, appointments, promotion, tenure, dismissal, academic freedom, leaves, and related matters, insofar as they are not in conflict with Idaho SBOE policy, and shall, in concert with the Provost, provide for a program of Faculty development.

Section 10. Budget. Members of the Faculty shall participate in budgetary matters at the Divisional and College level. It is expected that the President will seek advice and counsel from the Faculty on budgetary policies, which could significantly affect existing divisions of the College by including two (2) Budget Liaison Committee members in all Budget Committee meetings through the academic year. The Chairperson of the Budget Liaison Committee shall designate the two (2) members who will attend each meeting.

Section 11. Organization of the College. The Faculty shall advise and assist the President and the Idaho SBOE in establishing, reorganizing, or discontinuing administrative and academic units of the College.
Section 12. Committee Structure. The Faculty shall establish and maintain all college-wide standing and special committees, subcommittees, councils, and boards as specified in Article IV, and similar bodies necessary to the internal governance of the College, and provide for the appointment or election of members of such bodies. The section does not apply to ad hoc committees of a fact-finding nature to advise the President or to committees established by the President, or designee, for delegated administrative tasks.

ARTICLE IV—COMMITTEES

Section 1. General Provisions.

A. The word "committees" is a general term describing all committees, sub-committees, councils, boards, and similar bodies.

B. The Faculty Senate appoints all standing committees other than those reserved to the President or designee.

C. The President is responsible for appointing ad hoc committees of a fact-finding nature to advise her or him and to appoint committees made up solely of administrators; the President, or designee, may also appoint committees for delegation of administrative tasks.

D. The establishment, discontinuance, or restructuring of a standing committee requires a constitutional amendment, except for committees required by Idaho SBOE policy or eliminated by the Idaho SBOE.

E. Unless otherwise indicated, no standing committee will be chaired by the administrative officer who is substantially responsible for implementing the policies or recommendations of the committee.

F. Committee Chairpersons are rotated so that no committee comes to be identified with one (1) individual.

G. The President of the College, or her or his designee, and the Chairperson of the Faculty, or her or his designee, are members ex-officio, with voice, but without vote on all committees.

H. Divisions for purposes of committee membership are defined as the Library and those instructional units that are chaired by a Division Chair.

I. The tenure of individual members on standing committees may not be terminated within her or his stated term of office except for cause and with the concurrence of the Faculty Senate.

J. Committees meet on the call of the Chairperson. Committees may be convened by one-half (1/2) of the members on the committee with one (1) day written notice to all other members. All committees will be convened by the second last week of September. A quorum for committee meetings shall consist of 50% plus one (1) committee member.

K. Proxy votes are not permitted.

L. Unless otherwise provided, all committee assignments terminate on September 1 of the year of termination.
INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 14, 2014

ML. Standing committees shall keep minutes and shall distribute them to all members on the committee, the Chairperson of the Faculty, and to the Senate Webmaster. Minutes shall be posted electronically on the Faculty Senate website.

NM. All committees shall have the power to appoint subcommittees in addition to those spelled out in this constitution for a specific purpose within the realm of that standing committee's function.

Section 2. Standing Committees of the Faculty Senate—General Information.

A. Appointment. The Faculty Senate will appoint all Faculty members on campus-wide Committees. Administrative members will be appointed by the President of the College, or designee, and student members will be appointed by Student Body President, or designee.

B. Reporting.

1. Each committee will make progress reports to the Senate when such reports are requested by the Senate Chairperson. These may be written or oral reports, should identify time and place of committee meetings, and should describe current status as well as future goals of the committee.

2. Recommendations for Senate action should be printed and distributed to Senate members prior to the Senate meetings at which they will be presented.

C. Rules of Procedure. Each committee will set its own rules of procedure and submit them to the Senate for approval.

DC. Meetings. Meetings will be open to general faculty except when such open meetings would be an infringement of individual rights.

ED. Terms of Office. A term consists of one (1) year.

F. Committee Chair. The Standing Committee Chair or the Faculty Senate will be members of Faculty Senate as a representative for her or his Division.

Section 3. Standing Committees of the Faculty Senate.

A. Faculty Affairs Committee.

1. Function. The responsibilities are to:

a. be responsible to recommend and monitor policies regarding evaluation, promotion, tenure and merit of the Faculty;

b. conduct a continuing study of salaries, professional problems, welfare, retirement practices, and working conditions of members;

c. Coordinate and facilitate faculty development grants, sabbaticals, and offerings in concert with the Provost.
e. cooperate and make joint recommendations with Administrative Procedures committee for the solution of problems common to the Faculty and the staff.

2. Structure.

a. The Faculty Affairs Committee will consist of one (1) faculty member from each division and one ex-officio (1) representative from Student Services Affairs with voice but without vote.

b. The Chair-Elect of the Faculty Senate is the chair of the Faculty Affairs Committee, per Article I.6.B.3.c., with voice but without vote. If the Chair-Elect is serving as the Division’s representative on the committee, the chair will provide the Division’s vote. In no instance shall any Division have more than one vote on the committee.

B. Student Affairs Committee.

1. Function. The responsibilities are to:

a. be responsible for recommending college policy and monitoring implementation thereof in areas related to student life and student affairs, including but not limited to: student financial aid, housing, student organizations, student health, student judicial affairs, student recreation, placement, campus union activities, counseling, and student development;

b. establish academic standards to be maintained by all students in the College and its various units.

2. Structure.

a. one (1) faculty member from each Division. The Student Affairs Committee will consist of at least four (4) faculty members. Each division may send one representative. Other members of the committee include at least one (1), but no more than two (2), students, one (1) Student Services Affairs representative, and one (1) administration representative. The student, the Student Affairs representative, and the administration representative will be ex-officio members of the committee with voice but without vote. In cases where a division or other group is not represented on the committee, such division or group shall nonetheless be responsible for remaining current on all Committee business.

b. The Past Chair of the Faculty Association is the chair of the Student Affairs Committee, per Article I.6.B.4.a., with voice but without vote. If the Past Chair is serving as the Division’s representative on the committee, the Past Chair will provide the Division’s vote. In no instance shall any Division have more than one vote on the committee.

C. Administrative Procedures Committee.

1. Function. The responsibilities are to:

a. review and make recommendations to the Faculty Senate and appropriate administrators pertaining to the calendar and to existing or new proposals related to College policies, rules, and procedures;
b. assist in communicating and clarifying procedures for Faculty, staff, and students.

2. Structure.

The Administrative Procedures Committee will consist of at least four (4) faculty members. Each division may send one representative. Other members of the committee (if they choose to participate) may include one (1) student, one (1) Student Services representative and one (1) administration representative. In cases where a division or other group is not represented on the committee, such division or group shall nonetheless be responsible for remaining current on all Committee business.

DC. Curriculum Committee.

1. Function. The responsibilities are to:

a. generate or review all proposals pertaining to curriculum decisions, including instructional programs and courses;

b. recommend action on curriculum matters to the Faculty Senate.

2. Structure.

The Curriculum Committee shall consist of one (1) Faculty member from each division, the Registrar, the Provost or designee, and two (2) students.

a. The Curriculum Committee will consist of one (1) Faculty member from each division, the Registrar, a representative from the Registrar’s office to serve in the capacity of secretary for the committee, the Provost or designee, and one (1) student. The Registrar, the representative from the Registrar’s office, the Provost or designee and the student will be ex-officio members of the committee with voice but without vote.

b. The chair of the Curriculum Committee will be a faculty member elected by the Curriculum Committee each spring to serve for the following academic year. The Chair of the Curriculum Committee will be an ex officio member of the Faculty Senate. If a faculty member becomes chair of the Curriculum Committee and the Division appoints an additional divisional representative, then the committee chair will have voice but no vote; in no instance shall any Division have more than one vote on the committee.

ED. General Education Committee

1. Function. The responsibilities of the General Education Committee are to:

a. Review and recommend changes in General Education throughout the College and in the General Education Core Curriculum.

b. Monitor the effectiveness of General Education throughout the College and the General Education Core Curriculum.

c. Publicize, promote, and advocate for General Education among the students, faculty, and staff of the College.
d. Maintain an ongoing study of general education philosophies and models nationwide; and

e. Coordinate college-wide actions to maintain the relevance of General Education in a changing society.

2. Structure

The General Education Committee will consist of five (5) faculty elected by the Faculty Association. Each member will serve a five-year term, elected one per year. The members must be selected from five (5) different divisions. The chair of the committee will be elected annually by the committee from among the members of the committee.

F. Faculty Development Committee.

1. Function. The responsibilities are to:

Coordinate and facilitate faculty development offerings in concert with the Provost. Faculty development is defined as the process of enhancement for each faculty member who desires to improve her or his role as teacher, scholar, and/or contributor to community development.

2. Structure.

The Faculty Development Committee shall consist of one (1) faculty member to serve on the Faculty Development Committee. The Provost will be a member of the Committee with voice and vote.

G. Budget Liaison Committee.

1. Function. The responsibilities are to:

Serve as a communication link among the Faculty Senate, Divisions, and President regarding budgetary priorities and problems, planning, and assessment.

2. Structure.

The Budget Liaison Committee shall consist of one (1) member elected from each division, the Past Faculty Association Chairperson, the Faculty Association Chairperson-elect, and the Faculty Association Chairperson who shall serve as Chairperson of the Budget Liaison Committee.

a. The Budget, Planning, and Assessment Committee will consist of one (1) Faculty member from each Division, the Past Chair, and the Chair-elect. If the Past Chair or the Chair-Elect is serving as a Division’s representative on the committee, that individual will provide that Division’s vote. In no instance shall any Division have more than one vote on the committee.

b. The Chair of the Faculty Association shall serve as Chair of the Budget, Planning, and Assessment Committee, per Article I.6.B.1.h, with voice but without vote. If the Chair is serving as the Division’s representative on the committee, the Chair will provide the Division’s vote. In no instance shall any Division have more than one vote on the committee.
H. Technology Advisory Committee.

1. Function. The responsibilities are to:
   a. recommend to the Faculty Senate and the President, to the Provost, to the appropriate other administrator(s), or to the Director of Information Technology, policies and procedures related to computing technology and related technology matters;
   b. make recommendations concerning policies and procedures affecting college-wide computing and related technology;
   c. solicit Faculty, staff, student, and administrative views concerning computer policies and procedures related to college-wide computing and related technology;
   d. review short-term and long-term plans related to college-wide computing and related technology;
   e. increase communications about issues, policies, and procedures related to college-wide computing and related technology;
   f. present a report to the Faculty Senate and the President at the end of each academic year that describes significant changes to LCSC computing facilities and services and summarizes the need for computing and information technology to be addressed in short-term and long-term plans.

2. Structure.

   The committee will be composed of one (1) faculty or instructional staff from each division. The chair of the committee will be a member of the Faculty Senate.

IF. Faculty Senate Cabinet.

1. Function. The responsibilities are to:
   a. serve as a clearinghouse for issues to be assigned to committees;
   b. assist the Faculty Chair in attending meetings, communicating with campus groups, and monitoring policy implementation;
   c. provide an advisory function for the Faculty Chair on a weekly basis.

2. Structure.

   The Faculty Chair Cabinet will consist of the following members: the Faculty Chair (also the Cabinet Chair), the Faculty Chair-Elect, the Secretary/Treasurer, the Senator Chairperson of each standing committee, and the Past Faculty Chair.

Section 4. Hearing Board.
A. Function. In accordance with grievance procedures as stated in the Policy and Procedures Manual, the Hearing Board shall serve as the institutional board of appeals for Faculty and students. Upon request it shall review all policy changes, testing them for consistency with the constitution. The Board shall seek such information from students, Faculty, administration, and the Idaho SBOE, as it may deem necessary to accomplish its task. It shall also conduct a continuing review of the constitution committee structure and functions, communicating its findings to the Faculty Association annually.

B. Structure.

1. Membership. The Hearing Board shall be composed of seven (7) members (the majority of whom shall be tenured): three (3) members from the faculty elected by the Faculty Association; three (3) members from the Faculty appointed by the President; and one (1) Division Chair appointed by the Faculty Senate. Three (3) alternate members will be designated: one (1) appointed by the President and two (2) appointed by the Faculty Senate.

2. Chair. The Chair shall be elected each year from the members of the Hearing Board. A Hearing Chair shall be elected for each hearing from the members of the Hearing Board. The Hearing Chair shall not be the Division Chair member of the Hearing Board.

3. Students. In cases involving students, four (4) students shall be included, with voice and vote, in the hearing board membership. The students shall be appointed by the ASLCSC President.

C. Term of Service. Membership of the Hearing Board for the subsequent academic year shall be determined prior to the last day of the spring semester. Each member shall serve for two (2) college years, except in the initial year after the adoption of this policy when the Chair, three (3) members and one (1) alternate member shall serve for a term of two (2) years and when three (3) members and two (2) alternate members shall serve for a term of one (1) year.

Section 5. Standing Tenure and Promotion Review Committee (STPRC) for academic faculty.

A. Function. The responsibilities are to:

1. uphold the philosophy toward tenure/promotion as set forth in the Policy and Procedures Manual;

2. establish, review, and monitor tenure/promotion criteria, policies, and procedures;

3. in conjunction with the Provost’s office, notify in writing faculty who are eligible to apply for tenure/promotion and provide “Request for Tenure/Promotion Evaluation” forms along with a list of contents required for the Tenure/Promotion File;

4. meet with new hires and discuss tenure/promotion process;

5. oversee and approve formation of the Individual Tenure and Promotion Committees;

6. review all applications for tenure/promotion and forward its recommendations to the applicant, the Division Chair, the Dean, the applicant's Individual Tenure and Promotion Committee, and the Provost;
7. plan annual recognition for newly tenured/promoted Faculty;

8. oversee the periodic performance review process.

B. Structure. The seven-member STPRC will be constituted as follows: six (6) tenured faculty members (each from a different academic division), and a Chair elected by the Faculty Association at its spring meeting. Three (3) of the STPRC faculty members must hold full-professor rank.

C. Term of Service. All members will serve three-year terms. No member may serve more than one (1) consecutive term. A tenured Faculty member, elected by the Faculty Association, will serve as Chair for a one-year term and will vote in the event of a tie. No Faculty member may serve on the STPRC during an academic year when her or his own application is being considered.

D. No member of the STPRC may serve on an Individual Tenure/Promotion Committee for academic faculty.

E. In consultation with the Provost, the Committee will review its own membership for areas of conflict of interest.

Section 6. Standing Promotion Review Committee (SPRC) for professional-technical faculty.

A. Function. The responsibilities are to:

1. uphold the philosophy toward promotion as set forth in the Policy and Procedures Manual;

2. establish, review, and monitor promotion criteria, policies, and procedures;

3. in conjunction with the Provost’s office, notify in writing faculty who are eligible to apply for promotion and provide “Request for Tenure/Promotion Evaluation” forms along with a list of contents required for the Promotion File;

4. meet with new hires and discuss promotion process;

5. oversee and approve formation of the Individual Promotion Committees;

6. review all applications for promotion and forward its recommendations to the applicant, the Division Chair, the Dean, the applicant's Individual Promotion Committee, and the Provost;

7. plan annual recognition for newly promoted Faculty.

B. Structure. The five-member SPRC will be constituted as follows: one (1) faculty member at the assistant professor level, one (1) faculty member at the associate professors level, one (1) faculty member at the full-professor level, one (1) faculty member at any rank, and a Chair. All members will be elected at the spring meeting of the Faculty Association.

C. Term of Service. The associate professor faculty member will serve a three-year term; the assistant and full-professor faculty members will serve a one-year term. No member may serve more than one (1) consecutive term. A Faculty member, within the Committee, elected by the Faculty Association, will serve as Chair for a one-year term and will vote in the event of a tie. No
Faculty member may serve on the SPRC during an academic year when her or his own application is being considered.

D. No member of the SPRC may serve on an Individual Promotion Committee for professional-technical faculty.

E. In consultation with the Provost, the Committee will review its own membership for areas of conflict of interest.

ARTICLE V—AMENDMENT OF THIS CONSTITUTION

This constitution may be amended by a two-thirds (2/3) vote of the members of the Faculty Association, as defined in Article 1, Section 3, in attendance at a regular meeting, a quorum being present. Proposed amendments must have been published in full with the agenda at least one (1) week prior to the meeting or must have been presented in writing at the Faculty Association meeting previous to the one in which the vote is to be taken. Amendments to this constitution are subject to review and approval by the Idaho SBOE.
SUBJECT
Accreditation Process and Status

REFERENCE
August 2013 The Board was provided with an overview of the accreditation process and the status of where each institution is in the process.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section III.M.

BACKGROUND/DISCUSSION
Every institution accredited by the Northwest Commission on Colleges and Universities (NWCCU) is required to conduct a thorough self-evaluation at different stages to address Standards for Accreditation. In 2010, NWCCU implemented changes to the accreditation review process from a five and ten-year review cycle to a seven-year cycle. The seven-year cycle includes Five Standards and three separate reporting requirements.

The Year One report includes a thorough self-evaluation on Standard One, Mission, Core Themes, and Expectations. There is no on-site visit associated with this stage of reporting; however, a committee of evaluators reviews the report and develops a report of findings.

The Year Three report was recently amended by NWCCU, which changed the Three Year reporting requirement to a Mid-cycle evaluation. The process requires institutions to conduct a self-evaluation on its assessment efforts and to develop a report to include three parts: Part I provides an overview of the entire assessment plan; Part II includes representative examples of assessment process from beginning to end; and Part III includes an evaluative overview in light of Parts I and II.

The intent of the Mid-Cycle Evaluation is to determine an institution’s readiness to provide evidence (outcomes) of mission fulfillment and sustainability in Year Seven. Additionally, it will assist institutions in determining if the process of outcomes assessment will lead them to a successful Year Seven self-evaluation and peer evaluation. There is a visit associated with this stage of reporting. This includes a day and half on-site visit by two evaluators and is attended by senior leadership and those involved in the process. The evaluators have a closing conversation with the institution to share their findings. The Board of Commissioners reviews the self-evaluation and the peer evaluation to determine whether the self-evaluation is acceptable or unacceptable.

The Year Seven report includes a comprehensive self-evaluation on Standards Two (Resources and Capacity), Three (Institutional Planning), Four (Core Theme Planning, Assessment, and Improvement), and Five (Mission Fulfillment,
Adaptation, Sustainability). There is an on-site visit associated with the Year Seven Self-Evaluation. Peer evaluators from other accredited institutions study the institution’s report and conduct an on-site evaluation on all Standards. Evaluators will prepare a Year Seven Peer-Evaluation Report of findings and a Confidential Recommendation. A draft of the evaluation report is sent to the institution’s chief executive officer who is given the opportunity to correct errors of fact. Once finalized, it is submitted to the Commission office. Evaluators will submit the Confidential Recommendation to the Commission, which is considered to be advisory. Institutions are afforded an opportunity to provide Commissioners with a written response to the Peer-Evaluation Report.

IMPACT
This information will provide an update to the Board on changes to the accreditation process and where the institutions currently are in that process.

ATTACHMENTS
Attachment 1 – Accreditation Status by Institution Page 3

STAFF COMMENTS AND RECOMMENDATIONS
There are two institutions scheduled for a Year Seven Self-Evaluation and onsite visit. Idaho State University is scheduled in Fall 2014, followed by the University of Idaho, which is scheduled for Spring 2015. Board Policy III.M., requires at a minimum, that the Board’s Executive Director (or designee) and three Board members visit the NWCCU self-study team during each seven-year visitation to an institution. As part of the accreditation visit process, Board members will evaluate key elements of the accreditation self-study, the report and findings from the visiting team, and formal actions from NWCCU, and consider their implications for an institution’s strategic goals, mission, and resources.

Boise State University, Lewis-Clark State College, and College of Western Idaho are scheduled for a Mid-Cycle Evaluation in Fall 2014. Board member participation for the Mid-Cycle evaluation is determined by the Board’s Executive Director upon consultation with the NWCCU review team.

SUBJECT
Consolidation of North Gem and Grace School Districts

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Code Sections 33-310, 33-310A, and 33-311

BACKGROUND/DISCUSSION
Patrons (voters) of North Gem and Grace School Districts have submitted a plan of proposed consolidation of their school districts to the Board for approval. If the Board approves the consolidation, under Idaho Code, 33-311, the matter will be submitted to the electorate of the two districts for a vote. The two small school districts are contiguous, located both located in Caribou County, not separated by geographic barriers, and have both struggled to offer desired educational programs. 15.1 miles separates the two high schools.

Jason Hancock, former Deputy Chief of Staff for the Idaho State Department of Education (Department), attended the hearings as the public hearing officer. Transcripts of testimony received at the hearings is attached. Most of the testimony in Grace was generally supportive, while the testimony in North Gem was more skeptical. The transcripts indicate that Mr. Hancock explained that consolidation might offer economies of scale benefits by eliminating duplication of administrative efforts.

Under Idaho's public school funding formula, the proposed combined school district would not lose state funding as a result of consolidation, so long as existing schools are maintained in their current locations. The combined district might save money by consolidating administrative functions.

IMPACT
If consolidation is approved by the Board, the Idaho State Department of Education will notify each district’s board of county commissioners and they shall enter an order calling for an election on the question of approval or disapproval. The notice, election, and canvassing shall be held in the manner and form of Title 34, Idaho Code.

Upon voter approval of the proposed consolidation, the districts proposing to consolidate shall become sub-districts of the new district as if they had been created under the provisions of Idaho Code, Section 33-351.

STATE DEPARTMENT OF EDUCATION
AUGUST 14, 2014

STAFF COMMENTS AND RECOMMENDATIONS

Idaho Code, Section 33-310 allows for the boards of trustees of two (2) or more contiguous school districts to submit to the state board of education a plan for the consolidation of their districts into a single new district. The statutory requirements for submission of a petition for consolidation to the State Board of Education are set forth below. If the Board approves consolidation, then the proposal will proceed to the electorate for a vote. Staff comments on the completion of the requirements for submission of the proposed plan to the Board, as of April 2, 2014, are italicized.

(1) A map or maps showing the boundaries of the proposed new district, the boundaries of the component consolidating districts, the location of existing schoolhouses or other facilities of the component districts, the proposed trustee zones, and the proposed transportation routes if any. A map showing consolidation has been submitted.

(2) A legal description of the boundaries of the proposed new school district and of the trustee zones proposed, with estimates of the population in each such zone. A legal description for the proposed combined district has been submitted.

(3) The assessed value of taxable property of each component consolidating district and of the entire proposed new district. Taxable values have been submitted.

(4) Outstanding general obligation bonds of any component consolidating district, sinking funds accumulated, and estimated proceeds of sinking fund levies in process of collection. The submitted materials indicate that there are no outstanding obligations.

(5) Whether any component district has established a plant facilities reserve fund, and if so the amount on hand in such fund, the obligations against the fund, and the levy being made for such fund together with estimate of the proceeds of such levy in process of collection. The submitted materials do not indicate whether the districts have established reserve funds, but do indicate that “[a]ny money in plant facilities reserve fund of former district will be used to pay down any bond dept, otherwise funds go into the new plant facilities reserve fund.”

(6) The amount of any outstanding and unpaid bonds that will become the obligation of the subdistricts, pursuant to Idaho Code, Section 33-311 after the application of any plant facility reserve funds, pursuant to Idaho Code, Section 33-901. The plan shall also show for each subdistrict the estimated amount of state subsidies to be received, the estimated bond levy rate and the year in which the last levy will be made. The submitted materials indicate that there are no bond obligations for with district.

(7) If a joint district, the designation of the home county. Caribou County.

(9) How the property, real and personal, of former districts shall vest in the new district. The submitted materials indicate that all properties currently held in each existing district will vest in a new consolidated district.

(10) Before submitting any proposal for consolidating school districts to the state board of education, the board of trustees of each proposing district must hold a hearing on the proposal. Notice of the time and place of such hearing shall be given, by each such district, by two (2) publications in a newspaper of general circulation in the district, the first and last publications being not less than six (6) days apart. At such hearings, any school district elector or taxpayer of the district may appear and be heard, and may request any information from the board of trustees, concerning the proposed consolidation. Records of the hearings shall be entered in the minutes of each board of trustees and shall be included with the plan of proposed consolidation if and when it is submitted to the state board of education. The Board of Trustees of each district called and held a public hearing. Hearing transcripts are attached. The public hearing for North Gem School District was held April 16, 2014 and the public hearing for Grace School District was held April 17, 2014. Testimony was taken at the hearings. It is not clear from materials submitted whether proper notice of the hearings was provided.

BOARD ACTION

I move to approve the Consolidation Plan for North Gem and Grace School Districts as submitted and forward the plan to the local electorate for a vote.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
IN THE DISTRICT COURT OF THE SIXTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF CARIBOU

IN RE:
Consolidation Finding Public
Hearing North Gem

TRANSCRIPT OF TAPED PROCEEDINGS
Public Hearing
April 16, 2014

BE IT REMEMBERED that this matter came on for public hearing on April
16, 2014, before the North Gem School District, In Bancroft, Idaho, County of
Caribou.

Consolidation Finding Public Hearing
Bancroft, Idaho
Wednesday, April 16, 2014

PROCEEDINGS

JASON: ...Boise and Bancroft dialed in as far as time

7
goes, I’ve got it inside of about a five minute window of how
8
long it takes me to get here, as long as it’s not snowing
9
which is never a given when you drive to Eastern Idaho. We
10
were in Idaho Falls for our post-legislative tour here a
11
couple of weeks ago and drove through a blizzard getting
12
there so I guess it’s the old joke about there being four
13
seasons in Eastern Idaho; the seasons of almost winter,
14
winter, still winter and road construction. So the purpose
15
of tonight’s hearing which I’ll kind of M.C. is to have a
16
public hearing for people in the North Gem School District to
17
come and give their testimony on the proposal to have a
18
consolidation of the North Gem’s School District and the
19
Grace School District. Now the rules in State Law that lay
20
down who is allowed to come and testify at this hearing is
21
that you have to be either an elector, i.e. a voter here in
22
the North Gem School District or you have to be a property
23
tax payer of the North Gem School District, so basically you
24
either live here and you are a voter or you at least own
25
property within the school district. So either of those
types of folks can come and testify. What we will have 
people do just so it’s part of the hearing record, since this 
is being recorded is when I call your name, and you come up 
here, I’ll just ask you to state your name and your home 
address if you are one of those voters here within the North 
Gem School District. If you are a property owner you don’t 
live here and you want to testify, just give the address of 
the property that you own here in the North Gem School 
District. And I think what we are going to do because we 
have got the - about seventeen people signed up here it looks 
like. If you do want to testify, you do need to sign-up, so 
there is a sign-up sheet up here and feel free to come up and 
put your name on it and we’re going to give each person who 
wants to come forward a maximum of five minutes to speak. 
You don’t have to speak that long but you can if you want 
too. And then we have a timer down here that will tell us 
when you have hit your five minute limit. As always, keep it 
civil and we’re going to actually start off having the 
Chairman of the committee that’s been formulating this 
consolidation plan come up and just give a brief little 
overview of kind of where everybody is at - where this plan 
is at this point. I think most of you have received 
something like this in the mail so you have had a chance to 
look at it but Troy if you would come up and give a little 
overview, where things are at right now.
TROY: Thank you Jason I appreciate your willingness to come here and be here with us tonight. As Jason has mentioned, I'm the chairman of the Grace school board but when this process began through the petitioning process we formed a committee that consisted of two board members from Grace, two board members from the North Gem school Board and then two community members from each district. And as a we've gone through the process we met, if I remember correctly there is approximately nine questions that are required by State Law that we have to answer as we submit a plan to the State board of Education that they will then review and use that information plus the information that they collect from tonight's meeting and tonight and tomorrow night's meeting at the Grace meeting. Those two will be recorded, the information will be gathered and all of that information will be submitted along with essentially the consolidation finding letter that we mailed out earlier to you. So, if I may ask? Did everyone at least have an opportunity to see this in the mail? You should have received this, if not contact a member of the consolidation committee or one of the school board members and get this because this was essentially the information that will be presented with the plan to go to the State. So, in that, we have tried to be as informative as possible and yet the consolidation committee does consist of members that have
differing viewpoints and so anything that's of an opinion of course, we didn't include. We tried to maintain a factual concept going forward. I am going to review though this, just briefly for you but as I mentioned before, you can read that in detail and get your information their but really probably you should try to at this meeting because if you could have a question, tonight is the night to pose your question or any other information that you may have that you want to have presented to the State Board of Education. Tonight is your night to be able to present that.

The first question essentially that we wanted to answer as a committee is "What does consolidation mean?" Apparently, both districts share a superintendent and so a consolidated district could provide additional opportunities to combine other administrative services. It does not require combining schools. And I think that is an important factor to remember. Protection if student enrollment declines. And what that basically means is that the State Law says that if two districts consolidate the separate funding levels that each district are receiving right now it maintained at that level. So if our enrollment drops in either school district, the funding level stays at that - what we are currently receiving for a period of seven years. Now if enrollment increases, then of course the funding increases along with the additional enrollment that's there.
1 But that is maintained for that seven year period. The
2 other opportunity is that State incentive – there is a
3 statute out there for bonding and as you’re well aware of
4 bonding is for building new structures and new facilities.
5 And the statute of structures that in essence they will – I’m
6 trying to how to state this in a summary form. They’ve taken
7 the property tax added it up and - Statewide and basically
8 gave it an index of 1.0 and then each district is evaluated
9 upon that formula and then they are given an index number.
10 So, North Gem’s District has an index number of approximately
11 .97, Grace has an index of approximately .84 and when you
12 combine those two districts, if the patrons decide to
13 consolidate and make a combined district our number would be
14 .91 and so essentially what that would mean is that if we
15 bonded at that point without the additional incentive the
16 State provides, essentially every hundred dollars we spent
17 toward bond the state would pay nine dollars of that hundred
18 dollars for the difference there 1.0 subtract the .91. But
19 the incentive that State has provided beyond that is a .25
20 added on to that so we take that nine plus the .25 we have a
21 .34 so in essence if we consolidate – a community decided to
22 pass a bond, every hundred dollars that we spend in essence
23 the State would kick in and they would pay thirty-four
24 dollars of that. Am I, understanding that correct, Jason?
25 (response is not audible) So that is the way the State law is
1 currently structured there. So that is an opportunity that
2 we could both communities could benefit from. Another factor
3 that comes into play, right now the Grace School District as
4 you are aware has two elementary schools. The Grace
5 Elementary and the Thatcher Elementary and right now, we have
6 the higher funding for a new (inaudible) than Thatcher
7 because it is over ten miles away from the District Office in
8 Grace and so that provides us a little bit higher funding
9 level and we found out the hard way that when we started to
10 commit more kids to Grace, we lost some funding and it has
11 taken us a while to restructure that and so we actually do
12 try to fill the Thatcher building to capacity to take
13 advantage of that. Well that same structure exists not only
14 for elementary at ten miles apart but the same structure
15 includes High School as well and they have to be fifteen
16 miles apart in order to qualify for that funding. Well crazy
17 google maps, North Gem and Grace are 15.1 miles apart and so
18 they would qualify to receive that funding. And then the
19 last bullet under that "What consolidation would mean?"
20 Right now to be honest with you, we are burning out our
21 superintendent and I think it would be a good thing to see if
22 that wouldn’t be an option to not only consolidate his work
23 load but there are some other opportunities as far as
24 administrative services involved there. Essentially if
25 consolidation is - if consolidation were to pass, and the
communities decided not to, that they didn’t like it after
whatever time frame it may be there are still laws or
statutes available that we could essentially go through the
process to deconsolidate. So that is an option, that’s out
there. Other things that are required are basically to –
that we have to submit what the district boundaries are as
well as send what the trustees own boundaries would be. And
the trustees’ is – are just in a general idea basically, if
you go down highway 30 it is really based upon population.
All the trustees zones – there is two zones that would
represent North Gem. Three zones that would represent the
current Grace area and so they do split pretty much at the
almost a sixty forty as far as population base is concerned
for those trustee zones. Sixty percent reside in Grace,
fifty percent in North Gem.

At the bottom, there is an assessed value of taxable
property in each district and combined districts. And
basically, what that boils down to is that if you – if we
even right now, I guess you guys are probably already
familiar with when you handle (inaudible) new building
possible bonding. You’re allowed to spend so much based upon
the property value that’s within your district. Your
district is just over five million dollars and the Grace
district is just over eight and so a combined capacity would
just a little bit over thirteen nine to be bonded for to
improve our schools. Okay, some other questions that we had to send into the State, "Are there any outstanding bonds?" and so we put "as of April 2 there is zero dollars in bonds for both districts." Currently, right now there, the other question is, 'If there is a plant facility reserve fund?" Basically, that fund just goes into a new plant facilities fund. There's no obligations - the home county would of course be Caribou County. The name that we've picked as a consolidation committee is the North Gem - Grace Joint School District number 147. And that's just based off of combining Districts, that's the easiest way to do it. The numbering just basically - just to make other people aware joint means that we actually have part of Franklin County in our District. And so that's why the word joint, comes after it, it is not because we have joined as districts. If you look at Grace's name, it is currently "Grace Joint School District," is because there is part of Caribou and Franklin County. In our particular area, we have a number of 140 through 147 is available and so we just picked 147. Since 148, 149 and 150 are used up in the County already. And then that letter just basically talks about - it kind of goes in the same detail I mentioned about the bonding on the financial funding. There are questions regarding, teachers, administrators and trustees. There is nothing that says that any employees will be let go. As a consolidated district,
the new district administration had the opportunity to offer a severance package to up to 10% of the employees. And that severance package would be paid for by the State. And as part of that if a teacher is offered a package, they don’t have to take it and they - there is no way that it would affect their future employment. Our class sizes in funding was another question and based upon the consolidation committee’s plan that it’s in our best interest to leave things as are - all of the funding and so forth based on class sizes would remain the same. And it is the same with administrators to - right now we have 2.75 administrators Grace and then how many (inaudible) for North Gem. So in essence we would as a combined district we would be allowed to have 3.75 administrators, as a full time equivalent positions. And then the last bunch - basically, a new school board is essentially made from the existing two school boards. Each school board would get together and select two members from each district and so those - then those four members come together and they would pick a fifth member from the remaining six individuals of the existing board. Those five individuals would be up for election. Two from each area, the first year, two from district the next year and then that fifth person would be up on the third year. And of course those are four year terms and then you are aware that - a new school, in order to be bonded, requires a two-thirds
majority or sixty seven percent there and just consolidation just FYI - that requires a fifty percent majority not just a majority - so fifty percent within each district have to approve consolidation for it to happen. So it can't be a seventy in Grace or a thirty in North Gem and not that that would happen - it's nothing like that so. Fifty plus one vote have to be approved in North Gem as well as fifty percent plus one vote in Grace has to make it so that consolidation would be approved. Hopefully that - not too much.

JASON: Thank you Troy. Okay we'll get next to the public testimony and I'm just going to go down the list that I have here and everybody's got five minutes, if there are questions that come up, as part of the testimony, I'll do my best to answer those questions, although, some of the questions may be more appropriate for somebody from the committee that's been looking at this consolidation plan, answer them, if it's about the specifics of the plan. So the first name I have here is Karen Perkins.

Go ahead and we'll have the public testimony here on the microphone because we are recording all of this for posterity.

KAREN: Okay, excuse me I'm kind of hoarse today. The only things that I have are - are primarily questions is this the time to voice these questions?
JASON: You can ask questions.

KAREN: Okay

TROY: For the recording, state your name and...

JASON: Name and address.

KAREN: Oh. Okay. This is Karen Lee Perkins, I live out in Chesterfield, our address out there is 2698 Nipper Road. I was wondering what the main reason is that we need to change the status quo, I mean what’s wrong with the way that we’re doing it? I’ve heard several things, some are a little hot, you know about why but what are the facts of it. Why do we need to change?

JASON: Well the process that you are going through right now with this consolidation committee and coming up with a plan and sending it on to the State Board is actually something that’s required by State Law when you have enough people sign a petition from two adjacent school districts to have this process go forward. Sometimes it goes forward because two school districts, the school boards get got together and decide they want to do this but there is also this mechanism where people, citizens can petition and if enough of them sign it then - then it goes forward. So this is - at this point basically a mandatory process that you have to go through and you have to send a plan to the state board. Now the State Board of Education, they can say thumbs up or thumbs down on the plan and if they say thumbs down
then that’s the end of it. If they say thumbs up, go ahead
then it comes back to the two school districts and each
school district votes on it and it has to get a majority of
each. So if you - if you don’t want to see it go forward,
then...

KAREN: I just wanted to know what would be the reasons
that were not alright the way we are. The main reason I’ve
heard the people don’t like the old building and I wanted to
know if they don’t like it have there been any feasibility
studies done on what - you know on what actually would make
it easier for this building to function in today’s age it was
built back in 1983. You know what is being talked about,
what would be the cause, have there been any estimates
brought in as to what they need to do to this building. And
the other thing is I’ve wondered if they couldn’t you know
bring in portable classroom if for some reason they need an
adjunct. I understand this building is only being used in
partial capacity as it is and I don’t know about Grace but
I’d sure like to hear something from Grace say you know what
their - what their primary reasons are. I mean their
building old or they just don’t like what, about it?

JASON: Certainly some of the general reasons that you
see school districts look at consolidation or consider it are
you know sometimes it’s financial reasons, like if there are
facility needs in both districts, there’s pretty significant
State incentive for districts that have recently consolidated, where the State basically pays for an extra twenty-five percent of the bond repayment costs. So, it's a way to lessen the burden on the property tax payers if you happen to have two adjacent school districts that both have some facility needs. You know that one reason, sometimes they'll look at it for reasons of efficiency that it's less costly often times to have one administration rather than two administrations. And sometimes Districts will look at it because they've had declining enrollment and by putting the districts together it's a way to combine resources and maintain some programs. Those are just some of the reasons why districts in the past have looked at it. I'm less familiar with the details of your facility issues here but can kind of speak generally to why districts tend to look at these.

KAREN: Well what I was hoping would happen is if for some reason Grace has an issue, you can't use their building, for some reason we cannot use all or part of our building depending on what the issues are. I was wondering if it wouldn't actually been - be a benefit to all of us to build one new building rather than two new buildings and that way we'd be sharing the expenses of it rather than one district having to come up with a really large sum of money and I think Grace is a lot like Chesterfield - I think Grace is a
1 lot like Chesterfield to know a lot of the farmers this is
2 not their best year.
3 JASON: That would be something that the new - if you
4 had a consolidation, that the new school board would need to
5 take up. Would be those facility issues and there is some
6 analysis that would need to be done there because there are
7 some financial advantages in terms of the State operational
8 funding that you get. There are some advantages in
9 maintaining those two separate schools 15.1 miles apart.
10 Because the State provides funding based on attendance and
11 the attendance is divided by a series of divisors and that
12 creates these units of funding from the State and the devisor
13 table is set up so that it doesn’t take as many students to
14 create a unit of funding, in a small district as it does in a
15 large district. So like in the Meridian School District
16 where my kids go to school, it takes twenty three kids in
17 fourth, fifth or sixth grade to create a unit of funding from
18 the State. In a very small district it takes only twelve and
19 with those two secondary schools, being over fifteen miles
20 apart they get to be counted separately and that means that
21 you are looking at them as two smaller individual units and
22 you tend to get a smaller divisor that way. And so you get a
23 little bit of an enhanced funding profile from the State. If
24 you put them together then the populations are combined and
25 you get a little bit larger divisor and so you are getting
bit less money per student. So you know the new district
would need to kind of run the numbers on that and look at it
and say okay, is there you know are there some economies that
we get by putting them together in a new school that is
enough to offset the State funds that we would lose.
I think what the committee’s been looking at so far is
maintaining the two separate facilities because of that State
funding stream. The next person on the list is Lisa Wellard.
LISA: You just answered my question, so I don’t have a
comment.
JASON: Okay, take a pass on Lisa. Next after that Mike
Wilde.
MIKE: Mike Wilde, 215 North Roosevelt Avenue, Bancroft.
My concerns, I haven’t been here that long, so I hate to
speak for any of you that have been here this long but the
thing that had bothered when we were going for the school —
voted on to have this new school — this tore down or
whatever. What I received in the mail read totally different
then when I was going to the voting box to vote on and this
said voting on is to upgrade this building verses tearing it
down and starting another one. So that is what the two
different things that I got out of it. I could vote for
because it did — the first thing I got didn’t mean what the
second one — what I got and so what I guess I am asking is on
this deal here moving forward, I’d like to know upfront
basically what it is going to cost myself and I’m sure that other people would like to know that and have a true number instead of something that is thrown out there to find out down the road it’s a lot more than it was going to be. So we could figure out as tax payers how we are going to do that by paying the rest of the stuff we are already paying by other administration we’ve got going on. Thank you.

VOICE: Did you want to say something Jamie

VOICE: Well Mike and

VOICE: I’m not familiar with your bond election you just had.

JASON: Just in reference to the bond, the ballet. We had Zions Bank - does our ballet for us. They submit that through the district to the county and they took our last propel and instead of changing the wording, it was the last proposal which was renovation of parts of this building and new construction on the end. But the proposal an in the last bond election was build new and separate from this facility and tear it down. And so the next ballet will read to that effect that it will be for new construction. So is that - that’s your question?

MIKE: From what it said from what - (inaudible)

JASON: Sure.

MIKE: It was totally different.

JASON: that will be - that would be changed - on the
1 next one.
2 MIKE: Alright.
3 JASON: Okay, next name on the list is Tad Jensen. If
4 you'll give your address.
5 TAD: 164 West Second South, here in Bancroft. My
6 concerns or questions are you know, when and if this comes
7 about and there if an election towards this, who sees to it
8 that everything is done up front, honest. You know, who is in
9 charge of, who says who can vote and who can't, that sort of
10 thing. My opinion, there has been some inconsistencies in
11 the bond election and things going around and I just want to
12 know who is in charge of making sure everything is done is
13 upfront and right.
14 JASON: That would be the County Clerk.
15 VOICE: The County
16 JASON: The County Clerk. Right. That didn't used to be
17 the case. It used to be the school districts ran their own
18 elections but here just in the last couple of years there was
19 an election consolidation law, passed by the State where
20 everything was put under the County Clerk, so in the case of
21 an election like this for North Gem. It would be the Caribou
22 County Clerk, would conduct that election at your usual
23 polling places and then for the Grace school District, it
24 would be both the Caribou County Clerk and the Franklin
25 County Clerk because they go over the County line.
TAD: Am I, I'm just wondering if I am incorrect in understanding that there were some indiscretions or some inconsistencies that went on? You know I will rest.

JASON: Okay the next person signed up is Eric Christensen. If you would give your address that would be great.

ERIC: Oh, sure. 155 South First East, I just want to state and thank the committee for taking for time and doing what they do and letting (inaudible) present to the state school board. I'll answer a question for a person who signed the petition, why I think this is a process that needs to be gone through and that is because it gives us, it educates us and what is out there for our kids, it educates us on what kind of funding is available, it gives us an opportunity to make a good wise decision on more than one side of the table.

I feel we haven't always been heard on different options and I don't think that's on any part of being ignorant or rude or anything on that point but I think they just didn't want to listen because they didn't want to find out what was out there and that's my own opinion.

But I think it is important to know what's available. What can benefit the classrooms, what can benefit our children and I believe our school board does that here, I really do. I think they want the best for our kids and I want to compliment them on that. But I also think we haven't
looked at every option and I thank you for being patient with us. So I hope that you look and get knowledge and good information and I appreciate all information that is out there and learn it and then make a logical decision. Whatever works for you and I encourage everybody to vote? Whether you agree or disagree with what is on the ballot, vote your conscience and then live with what we have to live with. Thank you.

JASON: Thank you Eric. Next person signed up is Mark Priestly.

MARK: I live at 1740 Lund Road. My question is, I’ve heard a lot of things going around about the thirty-four percent or thirty-five percent that the State will match as far as buildings and bond elections. The way I see it in order to get that we have to consolidate districts, am I correct?

JASON: That is correct.

MARK: Okay, which leaves us still with a building issue here in Bancroft, but in order to get that funding, we would be consolidated as a district and then the majority vote would have to come from Grace and Bancroft both?

JASON: That is correct. It would be a consolidated vote. Now there is and this is kind of an obscure dusty corner of Idaho Code that I am not aware has ever actually been used. There is a provision for a school district that
operates more than one high school to create a bonding sub-
district if they want too. I don’t necessarily recommend, I
don’t necessarily recommend that nobody has ever done it.
But there is that option if you wanted to have the people in
North Gem. You now pay for improvements to the High School
here and the people in Grace pay for the improvements to the
High School there, you could do that, but like I said,
nobody’s ever done that. We have a fairly limited number of
school districts with more than one high school anyway. But
generally speaking, yah, you’d have a bond election go before
the whole school district so presumably, if the Grace people
are looking at this, I’m guessing they have some facility
needs too. And so that’s you know – when you have these
districts that have been consolidated from multiple
communities, that’s kind of been the recipe for how you have
a successful bond, is that there’s some facility needs here,
there is some facility needs there and all of those needs
kind of get wrapped into that one bond.

MARK: Okay. The next questions, is there any facility
needs in Grace that we haven’t been told about? Because, I
haven’t heard any of it; but, the question that I asked or am
wondering, if it’s a building issue just here in Bancroft,
what benefits are the people in Grace going to get from a
building here in Bancroft?

JASON: Yah – I can – I think if – when you get done, we
1 could have Troy, who is the Chairman of the Grace School Board, I think could probably answer that as to what they are looking at as far as their facilities down there.

4 MARK: Cause I look at it and think, what benefits is it going to be for Grace, to bond and build a building here in Bancroft? I don’t think that they would vote for it.

7 JASON: And that’s why when Cache County has been successful with their bonds in the past they have kind of had a chicken in every bucket approach and you know they have I think four or five high schools. In their district, every little town has a high school. So, you know they have always made sure that they addressed the needs in each community and that’s how they have been able to get it through. You know certainly the advantage if you know, if Grace does have some facility needs and can be wrapped those things into the bond too is that you know obviously the state pays a lot bigger chunk of the bill, rather than the local property tax payers.

18 So that’s the primary advantage.

19 MARK: Alright, I’d like to see the break down as far as how much that is going to be as far as taxes are going to go up. I’d like to see what the breakdown and how much and how much that is going to be per acre or per individual, before we - before we look at that option as just reaching out and grabbing funding. Is it - if it’s even going to pass. I don’t think it will.
JASON: Troy do you want to step up and answer that question?

TROY: Why don’t we go ahead and let everyone else ask any questions they may have and then I can possibly cover that at the end.

JASON: Okay. You want to accumulate your answers?

TROY: Oh, right.

JASON: Okay. We’ll do that then, that’s fine. The next person signed up is Janice Millward. Just give your address.

JANICE: Okay, my address is 2792 Kelly Toponce, Bancroft. Argument for consolidation which merges districts and centralize or manage them - manage that rests primarily on two presumed (inaudible). The physical efficiency and a higher quality education, contemporary research does not support claims about wide spread benefits of consolidation. According to a recent study of consolidations of schools districts - of schools and districts entitled, “What research says and what it means.” Research suggests that impoverished reigns in particular often benefit from smaller schools and districts and they can suffer irreversible damage if consolidation occurs. In two-thousand eleven a brief was published by National Education Policy Center. The research also raises doubts about the benefits of consolidation. Policies that promote school consolidation are more likely to
do - are likely to do more harm than good concluded the researchers. Most State's that decide to ignore the research and push district or school consolidation usually use the combination of either direct or indirect financial incentives. Some of the more common sticks and carrots used by States promote consolidation; is to structure, the school funding formula in ways that directly or indirectly provide more money for larger districts or schools. It's the (inaudible) that forces communities with small schools and districts to provide a larger share of funding if they want to maintain their school. This can put enormous pressure on the local tax system and in some cases pit communities against each other. Small schools work, not just because they are small but because their size provides greater opportunities for students to excel in the context of the manageable caring, cohesive, and safe environment. The limitations of a small district are few, the advantages are many. The curricular limitations of a small school are eliminated by providing distance learning technologies in a small school district by facilitating these technologies it strikes down myths related to school and district size. The whole rational for more opportunities in a consolidated district disappears. According to the rural school and community trust, they make the point that because population sparseness, that defines rural areas, small schools and small
districts, do in many instances have higher per pupil cost. But consolidation
does not eliminate these costs, it tends to shift them. For expenditures such as
transportation, for district from students, to more bureaucracy and decreased
parent involvement. Many districts have found residents less willing to support
increased school taxes after consolidation in part because of this over promoted
safe and even reduced tax burden. Schools are essential components of rural
economic and social communities and in efforts to prevent the loss of population
and wealth from rural areas, consolidation may not immediate result in the closing of schools but it often
does. Are you willing to leave it up to a new school board on whether to consolidate our schools or bond for a new one. Both Grace and Bancroft both need schools and we have to still get a super majority of people who may not have the same goals and investment in our community as our own patrons. It is difficult to pass a bond under any condition, as we already know. Are you willing to take that gamble? To me the devil is in the details. Our school is the anchor of our community, it is governed by adults who are closely connected and responsive to our students and we have the opportunity to participate in supporting sports, booster clubs, volunteering and involvement in decision making. According to a report of the Idaho Legislature, they examined the feasibility of consolidating districts and found that
consolidating three types of services, purchasing of
supplies, transportation and staff development could yield
potential savings. These are possible without the need for
consolidation. Our district has already taken steps to - for
cost saving measures. We already share a superintendent.
And I think we should consider these other measures to
approve physical efficiency. If we consolidate there are
many unknowns as to the future of our school. We would have
to pass a bond within three years to benefit from the state
incentives, with a supermajority. Given the difficulty we
have had trying to pass a bond, there is little evidence to
assume that this would happen. That being said, what are any
viable options should a bond not pass? Also, it would be up
to the new school board whether or not to even propose a
bond. We have the power to decide our future and what is
best for our children and our communities. Whether to build
a new school or to consolidate and it all depends on what
vision you have for our future.

JASON: Thank you Janice. The next name on the list is
June Angus.

JUNE: June Angus, 1147 oops, 1146 Lundgren Canyon Road.
I don’t even know where I live. As I sit in this building,
I get very nervous, because the structure report shows that
this building is not viable. And that’s what makes me
nervous. I get nervous sitting here. If I had a child in
this school, I would move them, because this is not a safe
building. The structural study showed that it was not a safe
building. I don’t worry about earthquakes as much as I worry
about other things, like a beam falling or a fire; and this
building is not viable. If, we did district consolidation,
which I know a fair amount about; the district could hold -
we could have a school here but a K-12 school would have to
be built, in order to maintain what we have now. That’s a
fact, this building is not viable for students, we have been
told that and yet it might last for a hundred years. But
this is an unknown and a chance we take with our children.
It would take us one death of a child to cause us to be
concerned, and you know I closed a school in Ames Iowa and I
didn’t have as much turmoil as this has been. And it is very
interesting to hear and to listen to what people have to say.
I think this was a good study. I - district - by doing
districts you keep your own identity, but you would not keep
your own identity if you were not a K-12 in this build - in
this school - to have a K-12 school here. That’s the only
way that you can keep the North Gem identity. There might be
an elementary school here, that’s possible but that would not
keep the North Gem identity. The other thing that really
concerns me, I go to legislature every year and I have talked
to school districts, small districts all over the state of
Idaho. I have listened, I have talked to legislatures. The
problem that we have with bonds, there has been very few
bonds passed in the last ten years for building buildings.
The ones that have been built are big ones like Idaho Falls,
Boise, Meridian, Nampa. Those are where the buildings - the
bonds have passed. In passing a bond, most of the school
districts I would say - all of the school districts who have
ran bonds have had to run it more than one time; sometimes
four or five, before it passes. By doing that, yes, if you
consolidate, you have three years to consolidate and build
buildings with this - with the percentage of help from the
state. I don’t believe that will happen folks, because the
first - it takes time for people organize this and to get it
passed. I do not believe - I think there would be slim to
none that you could pass a bond in the three year period.
Know the communities, because people are concerned about the
tax impact, no matter what it is. No matter where you live,
how much property you have, that’s a concern. It doesn’t
matter whether the building here costs this much or the
building here costs this much. Yes the State of Idaho has a
lot of poor buildings. I think the legislature needs to do
something about this. I’ve talked to them many times - the
State needs to help the Districts, and I think that it would
be very - if that’s what you’re bidding on - if you are going
to vote, and think you are going to save all that money in
that three year period. I think you are dreaming, and that’s
my concern because it may never happen. But to keep your
identity as a district this is - we would have to have a K-12
school here and it could not be in this building. This has
not been condemned, it has not been condemned but if you
study carefully the structural study of the entire building,
you would realize this is not safe for children. Thank you.

JASON: Thank you, June. The next name that I have, is
Ted Barnes.

TED: Ted Barnes and I live over at 290 South Second
West. I moved up here in 1967 and watched this town go
downhill slowing all through the years. Where our school is
the number one employer here, I feel, if we lose our school
out of this area, it’s going to do nothing but damage to us.
Know I work for the road and bridge department for years and
I believe our kids are a lot better off in this school than
they are out on those highways. You talk about that road
from Boise to here. That’s nothing. But our kids are a lot
safer in here than they are out on these roads. Another
thing, my wife and I moved up here from Malad in 1966 we’re
Malad Dragons and we didn’t care for Grace then and we still
don’t. (Cheering and laughter)

JASON: Thank you Ted for the local color. The next
name that I’ve got is Malissa Barfuss.

MALISSA: Malissa Barfuss, 154 East Davids Drives. As
of the vote thing, they might have fixed some of it, from
what I understand though as long as you are in school, you
would never have to have lived in Bancroft a day in your life
to vote. Right! We have people that have never lived, don’t
own land here and there voting to decide where our schools
are going. So anybody that goes to ISU, you want to vote,
vote in Bancroft, send your mail here and you can vote here.
And you can decide what we do with our schools. So, that
answers your question, Tad.

I have lots of questions, so if you want to write them
down and answer them. Levy’s: right now we do a hundred
thousand dollar Levy, Grace does a hundred fifty thousand
dollar Levy – put those together, do we get to vote on our
own Levies, pay for our own Levies separately. Do we have to
vote on a new two hundred fifty thousand dollar Levy to go
through? Because that is how you maintain your schools right
now. That’s questions one, do we do that together or
separate.

VOICE: I can answer that it would be combined as a two
hundred and fifty thousand dollar Levy.

MALISSA: So we would now vote on a two hundred and
fifty thousand dollar Levy, instead of a –
VOICE: it would be assessed district wide.
MALISSA: Okay, second question is, what happens after
enrollment drops after seven years?

VOICE: What happens then is there’s a provision in
state law that basically says that instead of dropping to the
new level that is reflected by the attendance that you have,
it basically drops half way to that point.
MALISSA: So how do we fund our schools when it drops
halfway?
VOICE: It would drop halfway from that protected level
down to whatever the new level was.
MALISSA: Alright so how do we fund our schools, if it
we lose that money?
VOICE: If you had lost say twenty percent of your
students over those seven years, it would drop ten percent.
Although, I guess I would point out that if you don't
consolidate, and you lost twenty percent of your students
you'd lose twenty percent of your funding.
MALISSA: But do we - right we do, but as a small
district anyway, we'd get bonuses because we are so little
right. Right?
VOICE: And you would continue too after consolidation
unless they decided to knock all the buildings down and build
one big building. But if they were maintaining or building
new buildings in the two communities, the funding, those
sparsity factors that you get for having remote schools, you
would continue to get, because the two towns are just over
fifteen miles apart.
MALISSA: So we would still be the same - we'd still
that — a two A school — it would be the same size even if we combined. So we would be the same funding even if we combined. So the advantage would be only the thirty-seven percent that they will give us if we can get together and pass a bond that’s three-fourths percent. That’s the only advantage?

VOICE: There’s that there’s the you know seven year protection which you don’t get if you are on your own separately and then kind of a fifty percent protection that you get after that which you also don’t get if you are on your own.

MALISSA: Okay, when we vote on this consolidation thing do we do it as one district two schools, or one district, one school? Is it going to be separate vote or is it just going to be a consolidation vote?

VOICE: The consolidation vote would have to pass by a majority in both school districts.

MALISSA: No, but I mean do we get to choose if we are going to keep our schools separate or if we are one school?

VOICES: No.

MALISSA: We vote for consolidation, period, right?

VOICE: You vote for consolidation and then it is the school board which is made up of the existing school board members that would make decisions.

MALISSA: The teacher’s pay? Do they all get paid
exactly the same? Because they are not getting paid the same
now, so if you consolidated would they all get to get the
same pay?
JASON: They would likely all get the same pay, I'm not
not aware
MALISSA: So it would have to go up?
JASON: I'm not aware of any school districts that have
separately salary - separate salary schedules for different
buildings and so I would think that the new school board
would adopt one salary schedule.
MALISSA: It's supposed to have the district building
here because that way the Thatcher elementary and the Grace
elementary would get more money for their schools. What
would happen to Bancroft elementary, they would get the
funding and we wouldn't?
JASON: Actually, really the way that it works it really
doesn't matter what town you put the district headquarters in
that - because the -
MALISSA: You just told me that it was more than ten
miles away -
JASON: More than fifteen.
MALISSA: No. Elementary, we are talking elementary.
You said because the elementaries were more than 10.1 miles
away that the district office being away from them they would
funded higher if - for those two schools and in fact that's
what you said right?

JASON: Here is the benefit that you’ll get by being so many miles away. The benefit you get is that your attendance gets counted for that school as if it were a separate school district.

MALISSA: Right.

JASON: And so –

MALISSA: So you’re going to lump all of that money together

JASON: So if – so if you – so if you put the – the district headquarters in Bancroft, well the – the – only have one elementary school in Bancroft it’s not being combined with anything.

MALISSA: Right.

JASON: And then the one in Grace is at least ten miles away from the elementary and the district office here so it’s funded separately.

MALISSA: So they are going get funded right?

JASON: And then the one in Thatcher is also at least ten miles away from the next nearest elementary and district office.

MALISSA: And they get funded more?

JASON: So they get funded separately too as if they were three separate school districts.

MALISSA: I understand consolidation because I’m from
Bancroft, I'm from Star Valley High School, so I get consolidation. I think that you're selling your vote for a chance at thirty-seven percent. You're selling your (inaudible) for a chance at thirty-seven percent.

JASON: Thank you MaLisa. Next name on my list here.

Hailey Perry.

HAILEY: I have a - oh - I'm Hailey Perry. I live at 140 South Third West, Bancroft. My question, I was confused on the pay for the employees. Is the - I'm currently an employee in Bancroft and I have one kid in school now and one coming. I have two jobs here so does that mean - I'm not a teacher. I'm not a secretary. I'm the janitor and a cheerleading coach. That were, two part-time jobs. Am I part of that? If we consolidate or would I have to reapply for my job and hope I get it?

JASON: I think if there is - you know - there's still a school here so there's still going to be jobs in this school. You know really when you combine a school district, the positions that tend to get looked at are usually more in the - on the administrative side. You know - that's where you sometimes have some opportunities for efficiency but you know in the - in the more classified type positions often not as much there because you know there really - those - those jobs many of them are really tied to the school building and as long as you've got a school building operating, there you
need some people to do that work, so – you know that’s a –
those things are decisions of the school board.

HAILEY: So I’m leaving my job and my kids’ future in
the hands of Grace if we consolidate? Because I don’t think
they are going to vote for schools in Bancroft. Thank you.

JASON: Thank you Hailey. Next name that I’ve got is
Melanie Hatch.

MELANIE: 3023 Chesterfield Road, Bancroft. I don’t
really have a lot to say but just sitting here listening. I
think that just the consolidation studies have to be looked
at for every different school and ours is very different.
Our situations are different from the huge schools and that’s
what this community has been doing and they’ve done – they’ve
spent a lot of time – what they’ve looked into. Basically,
their plan in general is to just keep everything how it is.
Keep a school in Bancroft, keep a school in Grace but we do
benefit from the extra funding for the bonding which is huge
and do have that seven year protection because we all know
that class sizes are going down, so that is a benefit.

I have another thing that gets to me is it’s Grace
verses Bancroft. It’s not Grace verses Bancroft. If we are
one district, we are going to be doing what’s good for them –
what’s good for us. If their school – if we are not going to
vote on their school if it’s just to benefit them, we’re
going to want to benefit them and us. I don’t really have
anything else.

JASON: Thank you Melanie. Next is David Banks.

DAVID: I’m David Banks 3229 Banks Road, Chesterfield.

My question is – is the 15.1 miles set in stone?

JASON: Uhm.

DAVID: Or do we maybe pass consolidation and somebody measures it and it’s 14.99. I want to know if it is set in stone? (laughter)

JASON: The – you know – we all

DAVID: (inaudible)

JASON: have – yah the fifteen mile limit is set in

State law.

DAVID: I know but your 15.1 that you’re talking about.

Is somebody going to come drive it?

JASON: the 15.1 measure, that’s – you know what we do...

DAVID: Because I can get to Grace faster than fifteen miles. And maybe if they don’t want to pay it are they going to say it’s 14.99 and not pay?

JASON: We have looked at the map and

DAVID: Well that’s my question – is it set in stone

(inaudible).

JASON: Yah, we – we looked at the map and tried to find the shortest route and google mapped it and it said. 15.1 and so that’s what we would go by.

DAVID: Okay, that is my question. I didn’t want to get
it then they say 14.99.

JASON: Yah.

DAVID: Now my other question is in the consolidation study, I just had a question. I didn’t see any improvements in academics, in that whole study. Nothing changed. And I thought that’s what we were trying to do was improve academic. It looks like to me it’s all about money. And in my opinion, I’ve never found free money and I don’t think there is free money. (Clapping)

JASON: Thank you David. Next I’ve got Christopher Banks.

CHRISTOPHER: Christopher Banks, 3231 Banks Road, Chesterfield. Mr. Hancock, I have one question for you. This money is mandated but has it been appropriated or does it still have to go through (inaudible)?

JASON: If you are talking about the extra assistance for the bond.

CHRISTOPHER: For the thirty-five percent.

VOICE: Yah. The way that that works is you know there’s different components within the public schools budget and most of the money consists of what we call statutory distributions and then you have earmarks and things like that but most of it is statutory and so what ends up happening with the statutory money is that you know the legislature when it sets the appropriation for public schools they do the
best job that they can. And we help them with that in estimating what those costs are going to be in the next year because you know they are driven by a State law formula of some kind and you just don’t know from one year to the next. You know which districts are going to pass bonds or how many kids are going to show up and things like that and so we kind of – we tracked the trends and we appropriate based on those trends. Now, sometimes we are high, sometimes we’re low.

But the legislature here about ten year ago and I helped them do this - set up something called the public education stabilization fund. You know which has worked really well and what that has done is that rather than kind of leave it to chance whether there is enough money in the school’s budget to cover everything that it is supposed to cover is they just say, you know look – the stuff that we’re required to fund by law, we’re going to fund. And we are going to take it off the top of the appropriation for public schools. And if – if there’s more money in that appropriation than we need to fund all of these formula’s and we have a little money left over. We’re going to put it into this fund. And on the flip side if we have to send out more money than we expected to for any of these statutory items then we are going to go to that fund and get it. That fund has sixty-three million dollars in it right now. So you know we’ve never had to – we’ve never had to short anybody and if
we did have to short people, you know theoretically if that ever were to happen, which I don’t expect it too with a fund that large but if it did, you know we’re - I mean - we’re typically off anywhere from maybe zero to fourteen dollar - fourteen million dollar in any given year. And if we did have to go and - if we ran out of money it would end up shorting the discretionary funds that districts get - not this stream of money - this comes off the (inaudible)

CHRISTOPHER: I guess my concern is - is that if there is sixty-three million dollars sitting in the state of Idaho why can we not then improve this issue of education in Idaho instead of what we are doing now. Also the other two comments that I have - if anybody would like a copy of that building study that was done by Keller and Associates, I have hard copies and I have it digitally, so I’d love to hand it to you if you’d like to see it. And the third thing I’d like to say is - is I’ve been taught and raised to stand on my own two feet and take care of myself and I hope that we can stand up on our own two feet and take care of ourselves. (clapping)

JASON: Thank you Chris. Next person signed up is John Banks.

JOHN: I wasn’t sure that I wanted to talk, but I signed it anyway. One question I have is - is I was at the board meeting the night this petition was presented to the board. This petition said the reason that we are doing this that
North Gem is not giving the kids a good education. That's not what's being said here. So where did it change? I want to know that. The other thing is Melanie, I understand what you are saying its Grace verses North Gem it's been that way for years but we are friends with people from Grace, I respect the people from Grace. I do not feel that by consolidating the school that we are going to gain anything. The reason is five million dollars. How are we going to fund - how much the joint -

VOICES: Thirteen.

JOHN: Thirteen? How many buildings can you build for thirteen million? Think about it. How many buildings can you build for thirteen million? One thing is - is I have a lot of ancestors that have grown up in this valley. I walked into the school down here, I see a plaque on the wall and my granddad was on their. As a school board member when they built the school - the newest part of the school. He gave up a lot for me, I feel like I need to give up a lot for others. I don't have any kids in school right now. I don't. I have a grandchild, I hope comes to here but I just don't feel that we have the answers we need right now to say, that we could pass consolidation. You can pass it but what's - where's the guarantees. That's what I want to know - what is going to happen if we consolidate. I need to know them answers before I can vote. If I can't answer those questions, how am I
supposed to be an informed voter? I’ve been left out because
I didn’t sign a petition. I don’t know what the discussions
have been - I don’t know. I’ve heard a lot of rumor what the
discussions are, I don’t know what they are. I’ve been told
where I work, we’re the laughing stock of the County. We
are! We are the laughing stock. We can’t get along with
ourselves how are we going to get along with two districts?
And all - the only thing I ask is vote, vote your conscience,
think of what you are going to lose or what you are going to
gain. I’ll respect you - I’ll shake your hand - I will not
judge anybody but I want you to realize that about - this
community is divided, very bad right now. And that is the
saddest thing that I have seen, is how divided it has been.
And that’s all I’ve got to say.

JASON: Thank you John. Next person signed up is Ralph
Peterson.

RALPH: Ralph Peterson, 170 South 300 West, here in
Bancroft. First of all I want to begin - my first thing I
have on my list is following what John said. The most
important thing to me is the community and the people in it.
I have people I respect very much who think as I do. I have
people I respect very much who think quite differently. Most
important is how we treat each other. We can disagree
without being disagreeable. That’s the number one thing in
my mind, I just want you to know that. The second thing that
is most important to me is to have a school here in Bancroft.
That is very important to me. It is identity of the
community and I think it is important. As I looked at this,
I do have the one question. It says, what does consolidation
mean - it does not require combining schools also it doesn’t
forbid combining schools - because we cannot do that. I’m
wondering, I don’t think so but I’m going to ask. Is it
possible to have as part of the consolidation plan something
that says that if we don’t get a school here in three years
the consolidation is null and void? In know there is a way
to undo it - that’s a whole lot different way than putting it
in the proposal in the first place. Do you know?

JASON: Yah, there’s is not a - (tapping)
RALPH: Want to borrow mine?
JASON: I’ll speak loud. (laughter) There’s not a -
there’s not a legal mechanism to put what I guess you would
call a poison pill in consolidation that would automatically
undo it if this and this and that didn’t happen. There is a
process for deconsolidating Districts which you could go
through, but you would have to go through that process.
RALPH: Right, thank you. Something has been said here
a little bit about the educational - the education for the
two schools. Quite frankly, if you look at it both schools
rank very high; so, I don’t think there is a problem. I
don’t think that the education is the case. I think there
are other things - I mean you can look at extra-curricular activities. There's pros and cons I would worry about fewer of our students participating because that is what would happen. Our teams might be better in sports but there'll be some who play sports in both schools who would not be able to make the team when they consolidate a school.

And the last thing that I'm going to put out there to be very - very careful of consolidation may be the most expensive option. If there is consolidation, and there's not a school built here, starting in eight the amount of funding per student is going to drop dramatically. Yah, there's some safeguards but that amount is going to drop dramatically. How's that money going to be made up? Forever, higher taxes.

That's the only way to do it, that's the concern I have, I'm not saying that it's going to happen. I'm saying that that is a real possibility that could happen. But I want to go back as I finish one last thing. However, you think is not as important as how you treat those that are with you and those that are against you. Thank you.

JASON: Thank you Ralph. Next name is Chris Knox.

CHRIS: I'm Chris Knox, 950 Miles Road, Chesterfield.

First of all, I kind of wanted to discuss a little bit some of the things that have already been said. Jason, you talked about some general reasons for consolidation and one of the first things was financial and what Chris Banks brought up

Transcript of Consolidation Finding Public Hearing, April 16, 2014
about the appropriation and so forth, I think the guarantee,
well if anything is guaranteed the most guaranteed part of
the appropriation is the twenty-five percent, is that
correct? So the additional, could be variable that brings us
to thirty-four. Are we guaranteed thirty-four for sure?

JASON: No, there actually both of those are – it's
through the same program so it's all guaranteed funding.

CHRIS: Okay so it comes to thirty-four percent. But
that leads us to several if’s and if we – if we do pass a
bond both in the school here in Bancroft. That does not mean
we cannot continue to research and discuss the benefits and
draw backs of consolidation that have been raised. We can
pass the bond, build a school here and still discuss
consolidation. That door is not shut by passing the bond,
however, passing a bond here in Bancroft to build a new
school is the only way that we can guarantee that a school -
a K through 12 school will exist, going forward here in
Bancroft. By introducing the issue of consolidation, we’ve -
a situation has been created when which several scenarios
could play out and there’s four possible scenarios. One is
if the bond to build a school here in Bancroft should fail
again and a subsequent vote for consolidation should fail.
We’re left with an antiquated school and a need build a new
one at a higher construction rate and inflated interest rate.
So I know there are a lot of people that – that are voting
down the bond because they think this three year idea of getting the State money and passing the bond after its validation ends in three is going to save them a ton of money. I think that’s a little bit - there is a misconception there. But there is no guarantee we would end up with a school. If the bond fails and a vote of consolidation passes, then any future bond vote to construct schools in the new consolidated district would be subject to vote of all of the residents within the district. Bancroft residents would be significantly in the minority and we find ourselves - we could possibly find ourselves liable to pay for a bond for schools to be built in Grace; which has already been discussed. If we pass a bond here to build a K through 12 school the issue of consolidation can still go forward. We could still consolidate but we are guaranteed then they are not going to - you know we’re building a K through 12 school here - it’s going to be a new school - it’s already bonded for, that school will exist. I mean at least as long as this one - at least for the hundred years this one has existed and then they can have this argument again. If the bond passes, we are assured of a school in Bancroft, regardless of what the outcome of consolidation is and that - that’s the main point.

The arguments by - for the defeat of the bond and the pursuit of consolidation maintain that bonds passed in three
year following consolidation are subject to the twenty-five percent or thirty-four percent of said bond being paid by the State, which is true however, there are if’s to this reasoning. First it’s assumes consolidation would pass in both districts. So again, if you sure are not passing the bond at this point because you think you are going to save that money. It still has to pass in both districts. Second, it has to be approved - any new bond going forward would then have to be approved by two-thirds majority of voters in the new combined district within three years. So, I think Jan spoke to that - that there’s a lot of if’s to that. Thirdly, it assumes - so there are several assumptions here. That a new consolidated school board representing Grace with a majority of voters and Bancroft in the minority would vote to build a school in Bancroft. Well funds might possibly be designated for an elementary school in Bancroft, it’s highly doubtful that grades six through twelve would be house here. In addition to the many hurdles’ to clear this process would take several years. If successful, the cost of construction and higher interest rates would mean getting less value for dollars spent. Another question - well to go back to Jason’s questions first of all - you talked about efficiency but the discussion has been I think, was it Troy - I’m sorry I don’t know you. Was that the plan, although there is no way you can guarantee this which is what’s come up over and over
again. The - a school and I'm hoping you're saying a K
through 12 school would be kept in Bancroft. I'm not sure
where we get the efficiency benefit if we are in fact going
to keep all of the schools. And thirdly, the - other - the
third benefit you said general was to share administration
and my question there is, who do - we have on administrative
staff if we have all of these schools still. Besides the
superintendent, that we already share how many staff does the
superintendent have under him that the super - the
superintendent staff not individual school staff?

JASON: Is that a question?

CHRIS: Well there are two. Transportation directors,
food service coordinators, curriculum directors - those are
the - those are the people.

CHRIS: So it's - there's not a necessarily a great
savings on those.

JASON: Those - that would be -

CHRIS: And what would happen to those people - again we
are back to losing jobs if we - you know if we go forward
with that. The mistake on the ballet, I think has been
explained. The bond cost was another question. There has
been a lot of confusion over the individual costs to tax
payers - if we bond for a new school here in Bancroft. Again
regardless of consolidation, that can come later. There is a
vote May twentieth for a bond to build a new school here in
1. Bancroft. My understanding is if a consolidation by the time it passes its way through the State, (inaudible) and ends up to a vote it would be probably this fall?

JASON: I would think that the very quickest you could have a vote back here is in August.

CHRIS: In August, okay.

JASON: That would be the very quickest.

CHRIS: Okay, so we have a bond vote before we have a consolidation vote, basically.

JASON: If you have a bond vote scheduled for May.

CHRIS: We have one scheduled for May.

JASON: Then you would.

CHRIS: Yah, so that's what I - the point I am making is that we have a bond vote. If we pass the bond, we can still vote yes on consolidation. If we think that's a great idea. We don't have to be against that. But then we know we have a school here for at least the next however long our school holds up - a hundred years.

But there has been confusion over the cost to the tax payers of the bond. Right now we are proposing this forty-eight - four thousand - million eight hundred thousand general obligation bond to be repaid over twenty years. It requires a tax increase of .00345. That means that you take your tax assessment. Whatever, your latest assessment was on your property value because there has been a tremendous
amount of rumor out there. That taxes are going up some huge
percentage amount and people are throwing around crazy
numbers. If this - everybody can do this math it's not hard
to do. You get your latest tax assessment for whatever your
property is worth and multiply that by point zero, zero three
four five and you will know how much your taxes are going up.
Don't be listening to scare tactics or people telling you
that you know it's going to cost a tremendous amount. As
John was saying there's an investment I think to be made in
the future of education. Can I take his question?

JASON: Is that on the amount that the county assessor
tells you or the half amount that you actually pay?

CHRIS: That's your assessed value of your property.
The total assessed value of your property. What your
property is worth to you know as assessed by the - by the
county assessor.

JASON: Okay.

CHRIS: So just - we need - we need to clear things up
and just use that formula and then everybody can do their own
math. It's not that hard. You can - everybody has a
calculator. Okay. (talking inaudible) I'm the end. I'm the
last aren't I?

JASON: actually you are that's why I was kind of
cutting you some slack.

CHRIS: Well the only other thing that I wanted to
mention was the idea that has come up that you can undo consolidation. Two of the things you have to do to undo consolidation are bonds passed utilizing consolidation incentives, which is the whole - I think - why a lot of people are for consolidations. They think they want this new school here but they think they are going to save money. Any bonds passed utilizing consolidation incentives from the State have to be paid back. If we decide to unconsolidated and that’s not - there’s no statute of limitations on that as far as this says. And secondly that it has be voted on and approved by the majority of both communities. Now North Gem has grown over the last several years. We’re not in decline. We are growing. So this is more of an absorption than a consolidation, in my opinion. So I would be very doubtful that the majority of both these communities would every - would choose to undo consolidation. Thank you.

JASON: Thank you Chris. Now there were a couple of - well first - you know, is there anybody who wanted to sign up or who didn’t get signed up? Okay. There were a couple of questions that Troy I was hoping you could get up and address. One was on addressing what are the facility needs in Grace, right now if you were to run a combined bond for the consolidated district. What would you be looking at putting in there for Grace? And then also just the question that came up a couple of times about kind of what’s the -
what's the plan for academic improvement.

TROY: Okay. Where to start? Tell me your first question - I can run - I'm a single question guy and I

JASON: I'm a famous mono tasker in my office, myself, you cannot ask me to do two things at once, so.

TROY: Yah

JASON: The first question was just on the facility needs in Grace and what kind of - you know one of the things that you would be looking at putting in a combined bond issue for a consolidated district for Grace.

TROY: Okay, the facility needs in Grace are very similar to North Gem. You just haven't heard us talk about it because we have not started to talk about it. There's a let's see Thatcher elementary was built in 1919 if I remember correctly. Grace elementary 1938, Grace High School is 1951, if I remember but I'm not quite sure there. So our infrastructure is old. Delay and I might actually kind of address the second question. The question was about the academic improvements. As a consolidation committee, as we looked at the different variations that we thought might be opportunities out there, as well as looking at the infrastructures slash the opportunity that both districts provide for our kids. As you're well aware, both schools are five star schools. Our teachers, our administrations does - do an excellent job of educating our kids with the resources
that they are provided with the - everything else that they
have to deal with day by day as far as the funding levels and
what’s provided from the State. You know both of our
communities are really blessed in that manner. But the - it
boils down to that yes Grace, needs, the infrastructure as
well as - as much as North Gem does. Just in the last three
years that I’ve been on the board - you’ll probably have to
correct me Jamie on numbers, if I’m wrong or not. The very
first year, we ended up replacing the roof on Thatcher
Elementary because it had some serious issues there. We’ve
had some boiler issues and if I remember or if on average we
spent anywhere from forty to eighty thousand dollars just in
maintenance costs in the last three years to maintain our
physical facilities. So I see that if we build new
facilities in both communities that wouldn’t (inaudible)
disappear or be very minimized in that aspect which would in
my opinion offset the hundred fifty thousand override Levy
that we have per year as well as the hundred thousand
override Levy that you have in your community as well. The
next item as far as the bonding; I’m not aware of any other
place that you could go and receive a thirty percent plus
return on your investment that we would receive in bonding
with the - to the capacity that both districts would have
combined. Let me review those numbers for you a little bit.
Currently, right now, North Gem has a bonding capacity based
on the value of your property in your community. Your
district could go out bond up to one - five point one million
dollars just a little bit over that. But - and you're well
aware of your district - your building is currently being
proposed is four point eight million. With four point eight
million as your current building, I have in my calculations
at a four percent interest rate for twenty years. A person
who owned a hundred thousand dollar home or property value
would be paying roughly a hundred and eighty-two dollars per
year. So if somebody else has different numbers there
correctly me please because I'm not sure if that is correct.

VOICE: (inaudible) to the assessor's office and he told
me it was three hundred forty-five dollars per hundred
thousand bonding. But there is very few who has a hundred
thousand dollar house. By the time you pay for the circuit
breaker and everything else, so that's with that was the max
- I think it was three forty-five per hundred thousand.

TROY: Three forty-five.

VOICE: That's what the assessor told me.

TROY: That's what he told yah. Okay.

VOICE: The bond at what they wanted.

TROY: Alright, well I'll have to get my numbers
reviewed because I've got different numbers here -

VOICE: It's a hundred eighty-two. (inaudible - many
voices speaking at once)
TROY: Yah, that’s what I was going to say. I am working off of a spreadsheet that Zion’s bank has provided.

VOICE: Correct.

TROY: And so.

VOICE: That’s what they told me at the assessor’s office.

TROY: Okay, alright so once again we’re trying to go off of this. Let me actually throw out this one more thing too. If I may, because this is stuff that I’m going to say in tomorrow night’s meeting at Grace and I don’t know if you are going to be there or not. There is a lot of concern in North Gem about losing K through 12 – personally, I’m not concerned about it because I don’t believe in building a building out in the middle, I don’t believe in pulling people from their own community. You also have some leverage. The voting population in the way the new trustee zones would be divided, you’d in essence have forty percent of combined population if that makes sense. So forty percent is your community, sixty percent of course what the Grace community has into that consolidated effort. And so if a new – if a board comes forward and proposes to say hey guys we’re not going to build a K through 12 in North Gem. We are just going to save – we’re going to ship everything to Grace, I think you have the power to kill it. Just like the bonding is currently taking place. Because you require sixty-seven
percent and it requires two-thirds for majority in order to
pass that bond and so I honestly - I don’t believe that
anything can happen there. My own personal opinion, I like a
lot of people in both communities and I think there’s - we
hold a lot more similarities than differences and I even like
a lot of people in Malad too so. (Laughter) Go ahead.

VOICE: Can you figure out something for me - if we
passed the bond before we vote on consolidation, and then we
decide - and then we consolidate who’s responsible for that
bond? Is Grace going to help us pay it?

TROY: No, what happens there is that if North Gem
passes the bond before consolidation is approved then - and
if you consolidate as a district after that then what happens
is North Gem becomes what is called a sub-district and that
bonding debt is retained with that property and so in essence
there is no sharing.

VOICE: (inaudible) we would be paying for the bond
plus?

TROY: Yah, and I’ve - and so you know in my own - I
don’t know if I should say this or not - I personally
wouldn’t want to go down that path. I wouldn’t want to in
essence because we need buildings in Grace, I wouldn’t want
that double taxation in essence to hit North Gem. If that’s
an appropriate way to say it.

VOICE: (inaudible) Everybody should think about whether
to pass this bond or not - (inaudible)

TROY: Let me, Yah, let me keep going through and see if
I can answer this and - the - so in essence you’ve got 60/40
you’ve got there - there is another question I wanted to
answer I wanted to answer regarding teacher’s funding level,
Grace currently pays their teachers the same funding rates
that North Gem does and that just with the State we don’t pay
them more, we don’t pay them less, we can’t so, there is no
differences there as far as teachers and so forth. They’re
paid on that scale that’s provided by the State. So, I guess
back to my other question, like I say, I’m a hard guy to keep
on one task here. The combined bonding capacity for North
Gem is at 5.1 currently with Grace is right at just barely
over 8 million. And so a combined bonding capacity for both
of them is 13.1 million. So in essence what would happen
with that being the case - if we were to bond - if there
wasn’t this incentive to build and we went at say a 12.8
million - if we wanted to you know to say let’s go ahead and
build K through 12 in North Gem and then let’s take care of
one major building or two, whatever, you know like I say I
have no idea how much we would be able to do, whether we
would at that point we’ve got to come up with the decision -
do we want to keep two separate elementaries because that
incentive for the ten mile distance technically would not be
there as a consolidated district, so would we want to just
build one building would we want to do some improvements to
the High School to make sure that it can go along for another
twenty years? Those are the questions that would have to
answered and I agree we can’t guarantee that but you know in
pure numbers I’m looking at it as saying I have no idea where
we can invest our money to receive a thirty percent return
and to be honest with you, it’s not money that we are being
given because we’re all tax payers and we’ve all paid towards
that sixty-three million dollars, it’s not that we’re getting
a free hand out coming back it’s just that we’re getting the
money that we’ve already put towards it and so maybe another
way to look at it.

VOICE: So if – if we were bonded at the highest level
as a combined district how much would that break down per
hundred thousand dollars?

TROY: I have a spreadsheet here, it’s got all of those
formulas built into it. I’ve played with it from anywhere
from 12.8 million up to the full 3.1. Taking your in – I
don’t recommend going clear to 3.1 because we have no idea no
interest rate is going to do there. Because even just a one
percent flux can change that dollar amount by twelve dollars
in essence, so if you move from the 4 percent to the 5
percent your taxes go up twelve dollars each year just from
the interest rate so for the new board to move forward with
this, it needs to be done quick, in my opinion. And
1 definitely think we can do it. One just a second, let me,
2 I’m, like I say I’m - got to keep moving here so or I’ll lose
3 my train of thought again. To answer the question of what we
4 would be spending if we had a bonding effort to go through
5 for 12.8 million, with that twenty-five percent incentive
6 from the State and of course you know our combined
7 consolidated district to .91, so that puts us down to that
8 .66 index level and drawing that into the play a 12.8 million
9 dollar bond would cost a tax payer a hundred and thirty-seven
10 dollars each year for twenty years. Under that bonding
11 effort. Like I say, there’s - the different things that need
12 to take place there. Jason did I answer everything?
13 JASON: Unless you had anything more on the academic
14 side or if you want to have Jamie say something?
15 VOICE: I got the last side.
16 VOICE: Oh, I have a question.
17 TROY: Oh, I’m sorry.
18 JASON: Yah, I think that if we want to have – if people
19 want to speak, I mean this is a public hearing I mean this is
20 a public testimony here so we’d like to have people come and
21 sign up. You know we have the sign up list – we’ve gotten
22 all the way through it, it wasn’t. I mean it’s set up as a
23 public testimony, so if you want to come in and sign up, we
24 can take more testifiers, we’re all still here.
25 VOICE: Well under hearing rules number seven it says at
the conclusion of the speaker comments, each member when recognized by the (inaudible) officers shall be allowed to questioned...

JASON: Fire away. (Laughter)

VOICE: After the answers to the questions answered (inaudible) - so

JASON: Go for it.

VOICE: you cannot go off on his opinions.

TROY: Oh, I'm sorry, let's take it up.

VOICE: (inaudible) so I've got a question -

VOICE: Go ahead.

VOICE: You said and I understand what you are saying - that at forty percent, even though we're the minority forty / sixty, that we would have the ability to hold (inaudible) if you will so that we can make sure a K-12 in the community but we have this narrow (inaudible) your window for one things, so if we - if we choose to that to try hold, to try to make sure we have the school, we all lose. (inaudible) prove it - because the costs are going up all the time.

TROY: You know that's

VOICE: So we don't have that (inaudible) because we lose too.

(Several inaudible voices)

TROY: Well, I - well that's one thing and that's a differing opinion. I - I'm just - I'm optimistic that we
could - we could do it so. You know that’s one thing that
I’m excited about this process due to the fact that question
about consolidation has been in both communities for decades
and in my opinion - this is my second term serving on the
board - I never ever thought it was my right to make a
decision of this magnitude for communities, so I’m excited
about this opportunity. If you vote it down, that’s fine, we
just move forward. But it’s not my right as board to - for
us to come together as boards and say - look at it - maybe we
don’t want to do it and we just break it off - so that part
of the petitions moving forward and taking place, in my
opinion is nice because it has never gotten to point to where
we’ve actually said hey there is thirty-seven percent in
North Gem that want to do it. The other sixty-three or so
don’t want to do it and we just - we go on as - as separate
districts. But then the question’s answered to me and I can
move forward as a board member to represent my patrons and do
what - I’m hoping is in their best interest but before as a
board, I can - you know we can all go off the rumor mills and
so.

VOICE: But you’re told that you should (inaudible) for
- the as you should listen to your constituents and vote the
way they want you too. Not the way that you think is the
best for the school?

TROY: No - no I’m not voting.
1. VOICE: No (inaudible) (laughter)
2. VOICE: You said that - that you feel like you should
3. (inaudible) say and then go back to (inaudible)
4. TROY: Well it's just that it's always come forward and
5. at some point in time, because the boards have come together,
6. the board - one board or another has the right to brake it
7. off.
8. VOICE: I just remember being at a school board meeting
9. where I (inaudible) and told you do not listen to
10. constituents do what you feel is right. I - (inaudible)
11. VOICE: I just this (inaudible)
12. TROY: Go ahead.
13. VOICE: You say you have three properties in the Grace
14. area that need improvement and we have one here. And we of
15. course decide consolidate as (inaudible) that thirteen
16. million dollars you're talking about gets (inaudible), who
17. makes sure that we - who gets what we need here? (inaudible
18. voices) are we going to get most of it or are we going are we
19. going to get (inaudible voices)
20. TROY: Alright - and see that's essentially - it's a new
21. board which in essence is the two boards coming combined.
22. You know five members of those two boards so - if you want to
23. go down that argument - it's just a matter, do you trust your
24. board. I can't answer that it's an emotional issue. Next
25. question or can I sit down?
VOICE: I’ve got a question.

TROY: I’m sorry, go ahead.

VOICE: Let’s clear this up - if we consolidate with Grace, and they said we can go ahead and build a new school here in Bancroft it would cost us and including Grace’s buildings it would cost us a hundred thirty-four dollars per hundred thousand.

TROY: A hundred and thirty-seven if you went at those numbers.

VOICE: A hundred thirty-seven per hundred thousand.

TROY: Yah.

VOICE: If we go on our own and build our own school here it is going to cost more than three hundred and forty-five dollars per hundred thousand.

VOICE: No, no - (several inaudible voices)

TROY: A hundred and eighty-two

VOICE: well times 3.349 by zero zero point three four times a hundred thousand - what do you get?

VOICE: three point five - but he’s using a whole different formula - (inaudible)

TROY: Yah, that’s a different formula.

VOICE: (several inaudible voices people talking over the top of each)

TROY: The number that, I think the number that that county assessor was an actual total county tax, it’s not the
amount that's actually going towards the school building. So
the number that I have here is the actual numbers going
towards the school building. The number that the county
assessor probable told yah (inaudible) is the ... 
VOICE: I don't know, I just went in and asked so that I
could be informed and they told me that is what is was.
TROY: Yah so - and so that's the actual county tax rate
- that would be the total tax but the numbers that we're
quoting tonight is the amount that would be actually taxed to
pay for that building.
VOICE: just say apples to apples did you get your two
numbers
TROY: My two numbers?
VOICE: per one hundred thousand? (inaudible voices)
TROY: Yah, my two numbers if - as a consolidated
district, it that twenty-five percent incentive as not
available at a twelve point eight million dollar bond we
would be paying a hundred and eighty-eight dollars per
hundred thousand. So with that twenty-five percent we’re
paying a hundred and thirty-seven per hundred. So -
VOICE: Gentry may I ask you a question?
VOICE: Sure -
VOICE: However ever - how many other districts are
using this formula in their - in the process?
JASON: Right now today, there are none.
VOICE: that’s what I thought.

JASON: The - it’s a relatively newer law it was passed back in - I want to say 04 or 05. We have - you know we haven’t had any consolidations since the -

VOICE: Not many has - used it.

JASON: Right - because nobody has consolidated in the last eight or nine years. (inaudible several voices at once)

VOICE: the first person that does it, they are going to change it a lot.

VOICE: (inaudible voices)

TROY: Any other questions? Just raise your hand. It’s nice to see everyone hear that’s interested and trying to gather as much education as you can without dealing with the emotions and the rumor mill. So appreciate you coming tonight and asking the questions.

JASON: Yah, thank you everybody for coming down and this was a great turn out and thanks for everybody you know keeping it so professional and civil. This is a great community. Thank you.

PUBLIC HEARING WAS ADJOURNED
CERTIFICATE OF TRANSCRIPTION

STATE OF IDAHO

County of Caribou

I, SHARON L. WELLS, Deputy Clerk and authorized independent contract transcriber for the Sixth Judicial District in Soda Springs, Idaho, County of Caribou, as the undersigned do hereby certify:

That she correctly and accurately transcribed and typed the above transcript numbered from 1 to 66 from the digital recording of the Public Hearing presided over by the North Gem School District by moderator Jason Hancock, in Bancroft, Idaho, County of Caribou; which was digitally recorded on April 16, 2014 in the above entitled action or proceeding.

Dated at Soda Springs, Idaho, this 16th day of May, 2014.

SHARON L. WELLS, Transcriber
Caribou County Deputy Clerk
Sixth Judicial District
IN THE DISTRICT COURT OF THE SIXTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF CARIBOU

IN RE:
Consolidation Finding Public
Hearing Grace

TRANSCRIPT OF TAPED PROCEEDINGS
Public Hearing
April 17, 2014

BE IT REMEMBERED that this matter came on for public hearing on April
17, 2014, before the Grace School District, In Grace, Idaho, County of
Caribou.

Consolidation Finding Public Hearing
Grace, Idaho
Thursday, April 17, 2014

PROCEEDINGS

JASON: Thank you for coming out, my name is Jason Hancock. I'm the Deputy Chief of Staff of the State Department of Education and I've been asked to come and out here and help with running this meeting and also help answer any questions that might come up. I've worked around these consolidation laws in the State of Idaho for a little while now, so if you have questions, I can maybe help do that.

The purpose of tonight's meeting this is a meeting that is actually required by State Law as part of the consolidation study process. Is once there is a plan that has been put together on a study for consolidation there is to be a public hearing held in each of the communities, each of the school districts involved and so we had one last night in Bancroft and now we are going to have tonight's in Grace. And the rules under State Law for who is allowed to testify is basically, any elector so any voter in the Grace School District or anybody who owns property in the Grace School District. Those are the folks that are allowed to come forward and say their peace and ask questions.

Before we get into the testimony and I've got several
1. people signed up here and there’s still some sign-up sheets
2. in the lobby, so if you want to sign up and you aren’t signed
3. up yet, you can go ahead and do that and we’ll run off of
4. that list. But before we get into that I’m going to ask Troy
5. to come forward and giving you just a brief overview of what
6. the consolidation committee has been working on and some of
7. the particulars of the plan, Troy?

TROY: I’d first like to thank everybody for coming
here tonight to find out more information to help us all know
what direction we would like to go with this process. Before
I begin, first of all, as a committee, we have been meeting
and trying to answer the questions that are required by the
State to send into the State Board of Education. And in that
process we’ve put together a letter and we sent that out to
all of the patrons in both districts and my first question
is, “Has everyone had the opportunity to at least receive it
in the mail?” Maybe and they may not have read it. If you
have not had the opportunity to or have not seen this piece,
I - grab me or any member of the consolidation committee
afterwards and we need to make sure that you get a copy. As
Jason has mentioned - is - this - this meeting is required by
State Law. The process is that we get together as a
consolidation committee after those petitions were turned in.
The consolidation committee consists of two members from the
Grace Board, two members the North Gem Board and then two
communities or excuse me two members from each community to represent them. So, I'm just going to try to overview some of the things that are in that letter. And basically the questions that are required there. Probably the things that are of interest to you what does consolidation actually mean?

What is going to allow for us is to have additional opportunities to combine other administrative services. This does not mean we will be combining schools. Basically, all of the infrastructure that's currently in place if both districts were to maintain - be maintained after consolidation if it was approved. The other thing that consolidation provides is that seven years after, approved consolidation funding is held at (inaudible) levels so if our enrollment where to drop as a combined district our funding would not drop for a period of seven years. If our enrollment were to increase during that seven year period the funding would increase to equalize - what would be received as a normal district anyway. So that is a - one thing that happens there. The other item that takes place if consolidation is approved is that if any bonding effort proposals are passed within a three year period after consolidation, there is an incentive provided by the State to help with that bond effort and it is significant as we have talked about you know a little bit later.

The other opportunity that we have as a consolidated
1 district is that currently right now Grace takes advantage of
2 a higher funding formula because we have two elementary
3 schools that are more than ten miles apart and that's part of
4 a State Statute. And because Grace elementary and Thatcher
5 elementary are eleven miles apart, we actually have a higher
6 funding formula for - that we receive compensation for there.
7 State statute also provides higher funding level for
8 secondary schools that are more than fifteen miles apart and
9 so with Grace and North Gem they're actually listed at being
10 15.1 miles apart, so there would be a higher funding formula
11 utilized to reimburse us in that manner too.
12 The other last item that we have listed is that
13 currently right now, we're sharing a superintendent amongst
14 both districts and that requires a lot of redundant work on
15 our superintendent part to hit duplicate meetings and a lot
16 of extra work load there that would definitely help up his
17 burden there as well. There is essentially nine questions
18 required by the State to - that we have to submit to the
19 State Board of Education. One required is the - what the
20 District boundaries would be, what trustee zones would be,
21 what the school bus routes are, you may have noticed when you
22 walked in the front door there is a large map out there that
23 shows those proposed trustee zones and boundaries. It asks
24 what the assessed property value of each district is and then
25 what it would be combined. That is on the letter there.
Essentially, one of the main advantages are incentives for consolidation is the possibility of taking advantage of the State incentive for bonding issues if we are buildings and as a separate districts, Grace has a — what’s called a bonding capacity based upon the property value within our own district — we have a bonding capacity of up to a little bit over eight million dollars. North Gem’s bonding capacity is just a little over five point one million dollars. And so if we were to combine as a consolidated district our bonding capacity would be a little bit over thirteen million dollars. Currently right now the State requires also that if we have any current bonds that we need to declare those to the State Board of Education, neither district as of this date have any bonding requirements to meet. It also asks about the plant facility reserve fund and basically, that money would just be rolled into the new district and utilized just as it is in each separate district right now. The designation of the home county of course would be Caribou County. But our official name would be as a new proposed district — would be the North Gem hyphen Grace Joint School District number 147, is what we have proposed. Many people don’t realize or understand that the joint school district does not imply two separate being consolidated. What that actually refers to is you look at the Grace — Grace’s name right now, it is the Grace Joint School District 148. And that is just due to the
fact that our district boundaries over line two counties and
that's where the joint name comes from and so any time that
you have more than one county involved it is a joint school
district.

Those are basically the questions that have to be
submitted to the State. What we will go ahead and do, I'll
end at that point Jason will continue on there and may come
back up here later to answer your additional question when
you have them.

JASON: Thanks Troy. So the way we did this in Bancroft
last night and we will go ahead and do it tonight, as I have
a list of folks who signed up, so I'll call people down, if
could just identify yourself and your address, or if you are
someone who lives outside the District but owns property here
the address of the property you own. And then we gave
everybody - or try to keep people to five minutes each, no
more than five minutes each, for your statement and you can
ask questions if you like and we'll try to answer them. I'll
answer if I can or Troy or Jamie or whoever is the best
person to answer it. So we'll start the hearing part of that
and then what we did last is when we got done, through the
list, we just asked if there were any questions in general
and let people just kind of raise their hand and who would
answer questions as much as we could.

So the first person I have signed up Ann Matthews?
ANN: Pass.

JASON: Pass? Colleen Benson?

COLLEEN: After being involved here for a number of years, and having gone through this a few times with the school district, this is the first time and it may have been presented last time but that they presented the opportunity for us to keep separate schools. And to consolidate and keep the funding where, at the level that it is now or will be at the end of that seven years. Having grown up in a small school district but larger than this, I know what the disadvantages are when you attend college. And I feel like, we need to give these kids every opportunity to be competitive in the workforce, not all of them are going to have the opportunity to come back and work on the family farm. That time has changed and I feel like we can best serve the children of our area by giving them opportunities. I feel like we have good staffs that do the best that they can with the resources that they have then if we combine that I see that as a positive opportunity and I would encourage that if you have any questions or do not understand that you would talk to members of the committee to get clarification and to not necessarily listen to rumors because there are some humdingers out there that are really very incorrect and they make it seem scary but I think there was a time when we became a joint school district there were lots of little
schools in this valley and those before us determined that
that would be the best thing for the children and we can work
together to make this successful and helpful. So we aren’t
sending these kids to school without the tools that they
need. So that’s – sorry about that Colleen Benson, 306 East
Center, Grace, Idaho. Thank you.

JASON: Thank you Colleen. And just as a comment, I
guess, you’re – you’re in really a uniquely good position as
she mentioned the idea of having the consolidation that kept
all of the existing schools intact. Because of how the State
funding is structured to were – you know there are some
advantages in smallness basically. There’s more funding
provided per student essentially, if you’re in a smaller
district that if you are in a district like Meridian where my
kids go to school and so there’s an advantage in having these
different school attendance units counted separately and
because the schools in Grace and Bancroft are 15.1 miles
apart, and the State limit for secondary schools is fifteen
miles, it means that if you keep those two schools going
after a consolidation, they would both continue to receive
funds as if they were separate school districts anyway. So
there would be no loss of funds going forward based on having
them consolidated. That’s not always the case. Some
districts, when they consolidate, like when Minidoka County
consolidated, they brought everything together into one high
school and they don't get as much money per student as you get here. Cassia County right across the river when they consolidated, all of those small towns retained their high schools and some of them are remote enough each other that they continue to get this separate district funding and so that is something that because of your distances involved you have that opportunity to maintain that funding level. Which is not always the case, when you have two districts that are inside - where the schools are inside that fifteen mile limit. The next person I have on my list here is Courtney Smith.

COURTNEY: Courtney Smith, 2153 Burton Canyon Road. I initially signed this cause I thought you had to sign this just in case you wanted to comment later but I'll say something now. I guess, I ended up signing the petition initially because I think the perks of this, I think originally as people were looking at possible educational advantages if we were to combine schools. Would we have any type of a educational benefit as far as more curriculum and something like that - having spent eleven years in Pocatello, I thought it was kind of impressive that some of those kids are graduating with associates degrees from Idaho State at the same time as High School and they had the option so, I was for this at least looking into it option wise and I think the consolidation committee did their very best to look at
options as far as combining high schools but feedback from
the communities choose - I think the very second best great
option for us as far as keeping things the way they are - but
consolidating districts and giving us advantages financially
so that we can utilize the current tools, we have more to a
better advantage but I don’t know, I think it is a great
opportunity for us to kind of sit and listen and take
advantage of the incentive - the bond incentive that’s out
there and basically with combining buying power, getting more
bang for your buck, I know the little small hospitals in this
area, do the same thing, they’re in a co-op so that they have
more buying power with stuff moving forward, so a little
hospital like Caribou Memorial needs a new MRI machine, they
don’t have to put that bill individually they buy as a co-op
and they have little more buying power to buy expensive tools
like that which may not even be feasible in the -
individually instead (inaudible)- so maybe the same things
would apply here and consolidation could help straighten that
out a little bit. But - anyway there is my two cents.

JASON: The next name that I have on the list is Keith
Jorgenson.

KEITH: It is kind of like Court, where I was hoping to
wait to the end on one of these; I thought you had to sign in
if you wanted to say something. But I did write down a
couple of comments. My name of Keith Jorgensen I live at 503
Bench Lego Road in Grace Idaho. I apologize for not going last night (inaudible) too. A couple of questions I do have for the committee that's been put together on this consolidation, I would like to fill their recommendation. I figure they've probably have done more research on it than anybody here, I know they have more than I have. I'd like to hear what their stand is. If we are still two for a joint district, but are separate are we still playing Grace against Bancroft, Bancroft against Grace - I don't know it might be a mute-point but I'm kind of an athletic guy so I guess I'm asking. So where do we go from here on - those a question I had for you sir. I know there's a - I heard a petition or bond being voted on in Bancroft. Or is this going to be voted on the County, I've read several things. I don't know what the time frame is or where we go on consolidation and if we do consolidate and Bancroft chooses to build a new school or North Gem what does that do to Grace tax base, as we as a community? I know we had property in both districts - that will be affected I do understand the thirty-four percent saving and buying power of the court. It's talking about - I think you're increasing our vote and I do believe that this is a positive move. I think consolidation is a good thing, I think that you are going to be here and come you should then state your opinion at least let people know where you stand and I do feel it is a positive move, me personally
(inaudible). Thank you.

JASON: Thank you, I think I can talk a little bit to kind of the next steps and that is once the committee has finalized a consolidation plan, they will forward that to the State Board of Education and they'll take it up for review. The State Board can either approve the plan or they can deny the plan. If they deny the plan, then that's the end of it. At least for now, that's not to say there couldn't be further consolidation efforts in the future. But if they do approve the plan then it does come back to the two districts for vote and that vote would be conducted by the County Clerk's just like any other election. It has to pass in both School Districts in order to be approved.

So even if you have a situation where it was sixty percent yes in Grace and forty-nine percent yes in North Gem and the combined total was over fifty percent that would still not be approved because it hadn't been approved in North Gem. If consolidation is approved you do then get that three year window where if the newly consolidation district does pass any school bonds within three years after consolidation, you get an extra twenty-five percent bump in your State subsidy that you get on the repayment of that payment of that bond. And so as a combined district, I think the numbers in the plan show that you would normally come in for a nine percent subsidy from the State, so with that bonus
you would get a thirty-four percent subsidy. The State would basically being paying for thirty-four percent of the bond repayment cost and then the newly consolidated district all the combined tax payers would be responsible for the other sixty-six percent. Now that’s a year to year calculation, that index so it can change a little bit from year to year but that plus twenty-five percent factor remains in place through the life of that bond.

And the next name I’ve got on here is Mark Matthews.

MARK: You just answered my question.

JASON: Okay. Are there any other — are there any folks that signed up in the lobby on one of the other sheets that was left out there that aren’t on this list that wish to testify? Okay. I think we are at the question and answer phase then, which I see a hand raised back here.

BRANTLEY: This is for you Mr. Hanncock, I’m actually on the building committee, my name Brantley Hatch, I actually live over in Bancroft, Chesterfield. If we pass a bond or say if we consolidate if we consolidate and then pass a bond and we take advantage of the thirty-four percent from the State, how soon do we have to use the money to build a school? Does the State have a requirement on that?

JASON: Question is, how long do you have to use the money if you pass a bond as a consolidated district and you have that state subsidy. The way it works is that the State
Subsidy actually comes in form of assistance in the bond repayment costs. So it’s not - if does not include that thirty-four percent of the bond amount. You have the State paying thirty-four percent of the bill that you will hang on for twenty years or however many years that bond is run for.

So you know how long we’ve had to use the money, those bond proceeds is no different than any other bond. So it’s - it’s just like a normal bond in that regard, you go and issue the bonds, when you are ready to use the money. And then you repay it back on a schedule and when you go to repay it back year by year is when those State subsidies come into the district.

Any other questions, yes in the back.

SHELDON: I’ve got kind of a follow up with Keith Jorgensen’s question as far as athletics and my - I’d like clarification with Grace and North Gem right now we have a combined wrestling team until we get to a district tournament or State tournament and then we have to participate separately at a higher level in districts than what our school size actually is. Would this change if we did a consolidation district? Is there any rules that will actually let us compete as a true team, as joined together and not have to separate at the State level?

JASON: Yah, I think the question you have there is
about you know having to do with combining of teams for athletics is really an I.H.S.A.A. issue. The Idaho High School Activities Association and how their rules work. I don’t think that the fact that if you combine the two districts into a consolidated district, really changes anything about how that works if you still got two separate high schools.

Sheldon: I think the issues you have there and the challenges you have, which frankly to me sounds pretty unfair as far how I.H.S.A.A. has that set up, where they make you compete at the higher level as if you are a combined team but don’t actually let you compete as a combined team that - that really makes no sense. But that is an issue with I.H.S.A.A. so you know you would have to work that group to give them to change their rules, because that does seem unfair but the consolidation shouldn’t have any impact on that. Any other questions? Don’t be shy.

Was there anything that you wanted to add Troy, you kind of indicated you might?

TROY: Yah, Yah.

JASON: Okay, I think this is your chance.

TROY: Kind of gave you the same sill I gave North Gem, although you probably - (rumbling inaudible) we’ll see how it goes.

North Gem had a lot of concerns and questions as far
what would happen. As a consolidation committee, we've
looked at various different options and opportunities just
for everyone's clarification and what not. Most schools are
considered a five star school so we've got- for all the
resources and stuff that we've got excellent teachers and
they're doing a great job of educating our kids with the
opportunities that we currently have in each separate school.

One of the questions, I don't recall. Let's see maybe
Jason, maybe you asked it. What is the plan? Essentially,
what that letter states there as far as moving forward, it to
keep everything as is amongst the two - all the different
schools and so forth. What - a question that was asked in
North Gem was - we never heard of it? Grace wanting any
buildings - or anything so, why would they want to pass a
bond to help us with our building? So I clarified to them
last night that our intent is if consolidation is approved we
would move forward full force in doing our best to maximize
the bonding capacity that we have as consolidated districts
to - to improve them and rebuild our infrastructures.

Within the last three years, I'm in my second term as a
School Board member and within the last three years we spent
roughly forty to eighty thousand dollars every year toward
various physical facilities, issues and improvements and so
the - the maintenance requirements for our buildings are
fairly high and as you are well aware, we have had to do
supplemental levies in order to maintain the status quo, essentially. So, I do believe that if we can get new infrastructure, if major renovations we need to do our own High School and so forth to make sure that it could last another twenty plus that we would be in really good shape to move forward and provide the type of - types of education that I think a lot of us would like to see our kids have in the community.

In regards to the bonding efforts - a lot of people like to know, what does that really mean? What does - in North Gem what is passing a 4.8 million dollar bond to them mean to the homeowners to the farmers, so forth. We'll take their case cause they are actually move - trying to go through and trying to get their bond passed - what does that mean to them as far as a property owner in North Gem. With that bond - if they were to pass it, essentially you have a homeowner that had a hundred thousand dollar home would essentially see an increase in their taxes of approximately a hundred and eighty-two dollars. If we were to go through - I just - I've got a spreadsheet here that I received from a bank that has been helping North Gem and I've put in some different very - various numbers as a combined district - we would have a total bonding capacity of 3.1 million dollars -

VOICE: Thirteen.

TROY: Oh, sorry - thank you. Thirteen - I just about
cropped it in half. And so with that being there, if we went
and say we wanted to do new schools or improvements to
schools both in North Gem and Grace and that totaled up to be
12.8 million dollars then without the incentive that the
State provides to a combined district we would be paying
roughly a hundred and eighty-eight dollars per hundred
thousand dollars of property value to make that happen but
with the incentive that the State offers with that extra
twenty-five percent, that payment would in essence be a
hundred and thirty-six dollars. And so with all things
considered there, you could kind of see that - what North Gem
is facing now verses what potential opportunity in the future
by consolidating districts and rebuilding our infrastructure
there is a huge potential saving there. I also voiced my
opinion and I lost my opinion here tonight.

Essentially, we're at a - in that - that index of
course with the incentive (inaudible) of .66 so I'm not aware
of anywhere that we can receive roughly a thirty percent
return over twenty years on any kind of investment that we do
and that's just a tangible investment. I'm not sure where -
how you would do a nontangible investment of the education
our kids would receive. Norm?

Norm: You mentioned State money on the high school but
we're considering at (inaudible)

TROY: Okay - Dave and I have talked a little bit about
this. I haven’t — as a Board we have not talked about anything. I haven’t even talked about it with Jamie. So this is my opinion straight off the cuff so.

My opinion is that if consolidation does happen we would not do away with Thatcher school for sure because there is an added increase there to maintain separate schools at an elementary level. Just a second Carl, I’ll come back to you here. With a consolidated effort as a Board we haven’t talked about whether we would rotate or keep our individual elementary schools I don’t have an opinion on that. Honestly, I am kind of torn there. You know I went to elementary school there, I have — I’ve got four generations essentially that went to Thatcher elementary all the way from my Grandfather on up to my kids, so. We have to discuss it as a Board as well as either way my intent to probably by our June meeting in our June Board meeting. This will begin the process of start and put together some kind of a building committee or something to begin to look at these things to see if we truly need to look at it, whether consolidation happens or not. What can we do to move forward as a separate district, we still do have a way better incentive there with the State because our index is .84, so I imagine the State would pay roughly sixteen dollars for hundred dollars that we spent toward building. That is how that worked, but there are definitely issues that need to take place there. Let me
1 think if I have covered everything there. Carl did you have a
2 question?
3 CARL: I'm just wondering - other than the bonding
4 capacity, is that going to allow more opportunities for the
5 children as - when I graduated oh I'm (inaudible) about
6 (inaudible) years ago, we had mechanics shop, we had home
7 ec. shop, the home ec. departments. The consolidation goes
8 though, is going to provide more opportunities for the
9 students? Other than bond that we've been talking about?
10 TROY: Okay, As a consolidation committee we have not -
11 we discussed it various different ideas of what potentially
12 could happen. Anywhere to combining school to keeping the
13 status quo or doing what's called (inaudible) or concept
14 school - concept has been under close (inaudible).
15 It - that particular area requires a lot more research,
16 there is - there is nothing there that we have been able to
17 find outs, that's going to provide a lot of additional
18 opportunities, Dave and I since we both serve on the
19 consolidation committee, we have talked about a couple of
20 options or items that might be of a possibility and that
21 would be that the different teachers that we have that have
22 the capacity or capability of teaching some of the advanced
23 courses and so forth as of - we haven't approached our own
24 board about it but we've - we had wondered within ourselves
25 if it would be possible to maybe have that particular teacher
maybe teach one semester in one district or one building and then the next semester they would teach that advanced subject in another area and that would allow - you know that particular subject or subjects that would be - to be shared by both buildings. So that’s one item - one item that we had there to help us to continue to improve on that five star rating.

Kathlyn: So this consolidation is right now just talking about district consolidation, not necessarily consolidating the High Schools you know an opportunity students this is just simply to consolidate the Districts.

TROY: That is correct.

KATHLYN: or is this also you have too - for when your plan - your proposal plan, do you have to include that kind of stuff or is it just district?

TROY: That - those - that kind of information is really something that if the committee wants to include it in the consolidation and it’s not one of the legally required elements, so - so it’s not something that you have to decide know, it’s nothing something that you have to send to the State Board but you can. You know, you’re really talking about the way this committee is looking at it anyway, is consolidation plan is kind of on that model where the communities all still retain their schools but you have consolidation at the District level, so you are not
1 duplicating district administrative functions. One of the
2 things that you that districts that use that model will
3 sometimes do, is they’ll look at I just call it programmatic
4 consolidation. So if you have – and this would be for things
5 that are really outside the core subject areas, because you
6 know everybody’s got to teach English, everybody’s got to
7 teach math, everybody’s got to teach history. But to the
8 extent that you may have some additional offer and it’s kind
9 of above and beyond those basic offerings in the two high
10 schools. Sometimes there are opportunities where you can
11 look and see that you’ve got some duplication of those extra
12 offerings, that you can well rather than pay for that program
13 here and pay for it here, let’s just have it in one place and
14 then we’ll use the money we freed up from that and maybe
15 create a new offering in the other school. We’re not
16 financially able to do right now. So sometimes those
17 opportunities do come up. That’s certainly something that
18 this committee could look at. Certainly, something that this
19 committee could look at. Certainly, something the new
20 consolidated School District Board could look at too.
21
22 KATHLYN: So, with that I guess this is a special
23 meeting for both of you guys, with that when you’re talking
24 about sports, it sounds like unless it’s a consolidated high
25 school – there is not a whole lot of change, sports wise and
26 maybe an elective wise. We are still competing either
against each other or competing against other schools separately. Is that what, I’m understanding? Cause it’s just consolidated districts not consolidated high school?

TROY: That’s correct.

JASON: Yah, that’s correct.

KATHLYN: So to alleviate this – to help with solution, we want – we either want to consolidate high school but have satellite buildings for different subjects?

TROY: It won’t happen if you do that. Just do to the emotions and the fears that are at North Gem. It won’t happen.

KATHLYN: So in Grace, we’re trying to consolidate the district but – so basically we’re looking at the incentive from the bond is really what we are looking for now?

TROY: That – that’s – that’s in my opinion – in my opinion that’s part where you (inaudible)

MR. TOLMAN: I have a question, I’m Troy Tolman from Bancroft and the majority of the vibration, the chatter that I’ve been hearing from those who are against this consolidation maybe want to maintain their identity as North Gem Cowboys. And so my question is, will they still be North Gem Cowboys and Grace Grizzlies or will it have to change and be – will they lose their identity and have to be considered as Grace Grizzlies, if they’re going to be two high schools?

TROY: They – they are two separate high schools and
we'll maintain and (inaudible) two separate high school.

MR. TOLMAN: So they will maintain their identity as North Gem Cowboys?

TROY: Yah, yes - you cannot have two have buildings and have one mascot (inaudible) so.

MR. TOLMAN: Okay, thank you.

TROY: Any other questions? If I may before..

KC: (inaudible)I'm just curious - so following up on this - so the real advantage to Grace joining in this consolidation effort is if we choose to build a school it'll save us twenty-five percent (inaudible) for the State right?

TROY: (Noise indicating a positive response to understand)

KC: it never - it all pretty much stays the same is what I'm hearing.

TROY: There's - there could be some administrative efficiencies at the District level to so and - possibly program efficiencies to a certain districts efficient, too.

Yah, question back here?

ERIC S.: It says for the seven years, you receive the same kind of thing. What happens after the seven years? Like what cut back or..

TROY: That is another primary advantage of maintaining this - the building infrastructure as is for right now - is to get that higher funding formula that that schools receive
at an elementary for being more than ten miles apart, and then the secondary level for being more than fifteen miles apart. That's why your funding, there's after the seven year time period it's - nothing changes essentially, if our enrollment stays the same as well.

ERIC S.: (inaudible) the second - this didn't get cleared up last night in the North Gem meeting. The seven year protection, stays in place and then after the seven years, you still receive half again as much, if you were receiving before for forever, can you clarify that.

JASON: I'll go ahead and yah, I'll clarify that. Basically, as a consolidated district, because of the distances involved where you know Thatcher Elementary is over ten miles away from Grace Elementary and over ten miles away from District office. The elementary in Bancroft is over ten miles away from Grace. The high school, secondary grades in Bancroft if over ten - over fifteen miles from Grace, and so basically, the correct funding formula stays in place so continue to count those attendance units separately.

Which is advantageous for you, now where the seven year thing comes in is - there is a provision in the State law that says that when districts consolidate that for a seven year period after they've consolidate they can receive basically no less funding than they receive as separate districts prior to consolidation. Now that provision was
really put in place primarily as a - as kind of a buffer or
protection for districts that might have consolidated where
the schools in the two districts were closer together than
yours are or inside those ten and fifteen mile limits because
that could potentially lead for a drop in funding from the
State, and so the seven year protection was put in.

And there was another provision added here about eight
or nine years ago that says, after seven years rather than -
it dropping to whatever level the new consolidation district
would be at, it only drops halfway to that level. But like I
said, that’s probably not relevant in this consolidations
case, because even the seven year (inaudible) provision
because your schools are all far enough apart they’re going
to be continued - they will continue to be counted separately
as long as those schools exist in those locations. Now it is
possible and this is the only - the only way that - that kind
of protection feature would come into play is if the
consolidated school district where to lose a significant
amount of enrollment at any of those attendance units at any
of those schools. That - that could in the normal course of
things lead to a reduction in State funding because it’s
attendance driven. And so that seven year protection, it
could potentially kick in and protect you from some loss of
enrollment for a seven year period. But that would really be
the only application in your case.
ANGIE: I have a question, you mentioned 12.8 million. How many buildings would build? When you are looking at that number what would be planning on doing with that number?

TROY: I took something that underneath wasn’t maximum bonding capacity because we don’t know what interest rates will be like and how long it would take to get it in place. So I just wanted you know to keep a little bit of reserve there, we have talked about it as a Board. We will definitely still keep the North Gem building in the plan and we’d have to as a Grace - that’s why I was saying that we - we plan or propose to up it each year and I’d like to personally as a chair begin the report to see what - what would - what would we as a district - whether we stay - become consolidated or whether we stay separate. We need to begin and get a better long term forecast by isolating this as patrons and constituents - know where we will be going in the long term.

ANGIE: But certainly, that, but that 12.8 that would certainly leave more than one building - the one building that is under proposal now.

TROY: Oh yah.

ANGIE: And for fifty bucks less for hundred six dollars, right? Is that - did I understand that correctly?

TROY: As far as a tax payer claim on that, yah.

ANGIE: Yah, wow that’s a lot of value.
TROY: Yah.

ERIC C.: If this State School Board looks at this and approves it. What is the soonest it could be on the ballet?

TROY: Good question, the soonest this could possibly be on the ballet would be August. And that’s if the State Board took it right away and got it on their June agenda. It could potentially be back in front of the voters in August. If they don’t get into their June agenda, then you’re probably talking about a November vote. And I think the - you know the one on the bonding issue and how much would be available just based on the numbers I concurred with. 4.8 million - kind of being the amount that’s slated for North Gem and give the bonding capacity that will leave about 8 million dollars of bonding potentially available for facilities in Grace.

COURTNEY: So I know, that it’s completely spent and into the distant point-in-time but I know where North Gem is headed with their school and that’s great, I think they need a better facility. Would be in Grace be looking at an elementary school before we move to anything else? I know it’s speculation but is that the first place that we would be going is for elementary school before we go anywhere else?

TROY: In my opinion Courtney, yes it would be. Yah, we the building attached was built in nineteen nineteen if I recall, right. The Grace elementary was nineteen thirty -

VOICES: Twenty-eight.
TROY: Nineteen Twenty-eight, so. Again - and so yes we have old facilities and that's where we've decided - I guess maybe you could kind of back up I guess maybe you can kind of back up - in my own personal opinion, I've thrown out way too much personal opinions probably here.

(inaudible) on capacity here, I - with the condition and support that we - our high school is I can see that doing renovation with the high school (inaudible), but elementary is going to be focused on here in Grace too.

MR. TOLEMAN: Just to clarify, I am in favor of consolidation but I hear a lot of chatter and those who are not - I think the biggest fear that come up honestly is that if we consolidate Grace gets three votes and we get two and if we choose not to build a new school or wait until after we consolidate just to take advantage of that the fear is that the three to two vote, we won't get a new school in Bancroft, they'll vote and they'll say well let's fix the Grace school, let's fix the Thatcher, let's fix everything in Grace and Bancroft and will be left out. And this has happened before - because, I believe in the Cassia school district, Oakley is the same situation, Oakley was told they would get a new school and then when vote - when they consolidated they have not getting' any money for repairs or anything. And I don't know if that's true or not it's a rumor I heard.

But the biggest fear that they have in North Gem

Transcript of Consolidation Finding Public Hearing, April 17, 2014
against this consolidation is that we will consolidate, you
guys will both come - (inaudible) - and end up busing our
kids over to here. And that’s the biggest fear that
everybody against it has. So they are putting a lot of faith
and trust in the Grace people to be able to take care of use
over there and there’s too many that don’t need to happen.

TROY: Do you want me to address that or

JASON: Actually, I can take it - it’s kind of a numbers
answer, which I’m a former budget analyst so anytime I can
answer with numbers instead of words that’s where I like to
go. The three Grace Trustees in a consolidated district are
going to have to play ball with North Gem, because when you
get right down to it, forty percent of the voters are in
North Gem and if that new consolidated school board votes
three to two to put a bond in front of the voters that
doesn’t nothing for North Gem and puts all of the money into
the schools in the former Grace school district, I would be
surprised if they got any votes for that bond out of North
Gem and puts all of the money into the schools in the former
Grace school district, I would be surprised if they got any
votes for the at bond out of North Gem and since you need a
two-thirds vote to pass, and some people just will vote
against bonds anyway, you’re always going to have some no
votes. Even in the District or the area attendance area of
the school that’s going to benefit from the bond you will
have no votes. You always have that and then you add too
that the forty percent from North Gem who would have no
reason what so ever to vote for that bond. It’s a recipe for
a bond to fail. There’s no way that you could pass a bond
that way. Know in Cassia District Oakley is a small enough
percentage of the votes because you’ve got I think four high
schools over there and Oakley is a pretty small community, it
is theoretically possible for the other communities could
pass a bond over all those no votes in Oakley. But with a
sixty forty ratio here there is no way, you’re going to have
to have buy in for both districts.

MR. TOLEMAN: Thank you.

TROY: Any other questions.

KC: (inaudible) the numbers here on the money is the
thirty-two thousand and the thirty-two million hit, it then
drops down, is that taking into account homeowners exemption
part of their hundred thousand.

TROY: Yes.

KC: Is that where the number comes from?

TROY: Uuh.

KC: So still the bulks going to hit (inaudible)

TROY: Yes.

KC: (inaudible) I’ll ask that question after you answer
this one. I was actually at a

TROY: It is something that’s slightly off topic but I
can but I have written down so go ahead and finish.

KC: And to answer some of these other questions, I can understand Bancroft's identity issue but I can't see, I better not say what I was going to say. To me it was like a convertible.

JASON: I just wanted to add because it had come up earlier about Thatcher and remote school funding that that - that remote school funding would put - continue regardless of whether the district were consolidated or not because it's more than ten miles from Grace to Thatcher. As long as there is a school. An elementary school down in Thatcher whether the district is consolidated or not there will continue to be that additional funding that would flow for that remote school status.

SHELDON: Did anyone clarify what the outcome is - is this bond that North Gem has on the table right now. If they pass that and then we consolidate is that got clarified and how that repayment takes place. Once you consolidate districts. JASON: Yah, if they pass their bond in May then I don't know this is my opinion I guess but there would be very little at that point for the people in North Gem in my mind to vote for a consolidation because they cannot consolidate and then gain that subsidy for that bond. That bond is already passed, it would have been passed prior to consolidation and so it would not be eligible for the extra
State subsidy. And what's more when the - if the school
district consolidated - if you have one of the two school
districts coming into the consolidated district has existing
debt, which North Gem would have, those tax payers within the
current North Gem district are entirely responsible for
retiring that debt and so what actually gets created is
what's called a school bond sub district within the
consolidated district to where those property owners within
the former North Gem school district would continue to pay
property taxes for the next twenty years or however many
years it was until that bond was paid off. So in my opinion
if the - if the bond in bond in North Gem in May, they really
have very little reason to vote for consolidation at that
point.

SHELLY: Just to clarify, besides - if we consolidated
districts besides the increase in bonding capacity there's an
increase in funding so that there would be even more money
for more education you know - educational fund moves being.

JASON: The additional State funding comes in that bond
subsidy really because of the locations of your schools and
how far are apart from each other, the State Funding system
would basically continue to be the same as it is now. The -
you know where you can potentially get some savings on the
operating side is if you have costs that are currently being
duplicated at the district administrative level and you don't
need two certain functions and can combine them. It's not that you're getting more money from the State, it's that you're having to spend less money at your local - let alone some of those administrative functions and repurpose those dollars into other things. Any questions?

SHERMAN: Back here.

JASON: Yes.

SHERMAN: Has anybody ever analyzed the administrative savings that might be derived by joining the two districts and could that money be used to hire extra teachers and or (inaudible) new curriculum or something?

JASON: I'll let Troy answer the has anyone looked at, I'll say from the State funding perspective, the money that you get from the State for administrative costs for administrative staffing. You are not required to send (inaudible) administration. So, from the standpoint of what the funding screens are and what you're allowed to use it for you can repurpose those dollars to other things that is legal. But Troy if you want to talk about how much you have looked into that.

TROY: As a consolidation committee we have not looked into the potential savings there. And verbally discussed that there are currently, you know we currently shared a secret position right now. There is discussion right now that food services, transportation, maintenance, those are
1 areas that potential positions could be combined. And then
2 there may be some others at program level but I honestly, we
3 haven’t looked at it and I cannot provide any kind of an
4 answer about what that potentially could do to stay in that
5 direction.
6        JASON: Any other questions? I don’t see anyone else.
7        VOICE: Yah,
8        JASON: Oh, one I see.
9        BRYAN: I cannot remember in the paper, my wife just
10 mentioned this, but can you kind of explain that the
11 faculty it said something about offering – offering
12 severance and can you just kind of expound on that a
13 little bit.
14        TROY: Okay, there’s a State statute that if a
15 consolidated effort if it passed the administration
16 could come forward and it could offer a – an incentive
17 for certified people to – I don’t know it’s not
18 necessarily retired but it’s just to not work anymore
19 and that incentive is essentially an individual is
20 being paid forty thousand dollars for their salary for
21 that position the State would pay fifty-five percent.
22 As an incentive of that – what they received. However,
23 yah, did I say that – it’s fifty-five percent.
24        VOICES: (inaudible)
25        TROY: they can offer that up to ten percent of the
combined employee there. (inaudible) Okay, ten percent of the employees at fifty-five percent. And you don’t have to accept that offer it does not have any (inaudible) future that’s why (inaudible) it decides to decline that. That is an option if it were needed in the case of what we are looking at I did not see that that would be utilized. (inaudible) Yah, what Mr. Brady is referring to is that after consolidated district we are putting together with that effect within that seven year period the teachers or the class size and note what is in fact if we maintain what we currently have right now, if we’re not affected after the seven years. So, other than the potential of that duplication at the district level we had mentioned earlier.

JASON: And just to clarify, an individual could take one of those severances and could continue to work for another district. The only real prohibition is they can’t come back and work for the District, the newly consolidated district from which they took the severance for a one year period. So they have to stay out a year or go work for another district.

STEVE: Okay, I’d like to follow-up. Let’s suppose I’m a teacher here and I guess, what I am getting at, is how do you determine who it is. I haven’t been here
that long but you offered me this severance pay I take it and then I go to Soda but I'm a pretty good teach let's suppose, is that not a problem?

JASON: (Inaudible) If you're going (inaudible) severance package.

VOICES: (Laughter)

JASON: It's at the discretion of the Board of Trustees to make the offer; it's not subject to (inaudible) bargaining or anything like that.

STEVE: So there's not bargaining (inaudible several voices)

JASON: It's at the discretion of the Board of Trustees, they can offer it if they want too. They can offer it to whomever they want too. They cannot offer it. And nobody is obligated to accept so they cannot force somebody out through that offer. They can just make the offer.

VOICE: (Inaudible question)

MIKE: Okay, so through the consolidation though, is what you are telling me is, if the school stayed the same, okay, nobody is going to lose their job, correct? They do have the option to take that out but nobody is going to lose their jobs.

JASON: That is correct. In fact I don't. Once again we're not consolidating buildings or anything
like that

MIKE: Right.

JASON: But we want to maintain the opportunity that our kids have so.

MIKE: The reason I asked that question is there was concern in Bancroft, you know through just gossip and all this other stuff, that everybody just - you know a lot of people would lose their jobs. And so far I haven't seen that. So I just wanted to clarify.

JASON: Thank You. Courtney?

COURTNEY: That (inaudible) It sounds like to me, if I am hearing this correctly, everything is going to stay the same - you're going to need the same amount of lunch ladies and the same amount of bus driver's and nobody loses jobs because you still need to fill those positions and so in essence nobody has to be asked to leave because if they leave then you've got a vacancy in a position now.

TROY: Yah, yep.

COURTNEY: Where getting funding and we're not combining buildings or doing anything in that manner,

TROY: We haven't actually looked at you know classified positions as far as you mentioned bus driver's. I have no idea as far whether we included bus driver's in that direction because we have not
1 experienced - (inaudible) I agree, to simply sit down
2 and analyze you know what kind of year would
3 (inaudible) and so forth so. That point where you
4 (inaudible) up to.
5 VOICE: (inaudible)
6 TROY: Yah, that all I can say we would still gain
7 a little people for this make sure that they would
8 function.
9 KC: So in short, we’re basically consolidating for
10 new paint and new buildings. Educationally, we’re
11 really not consolidating anything. We’re not going to
12 join teachers; we’re not going to consolidate
13 athletics.
14 TROY: Not unless the other consolidation committee
15 (inaudible) currently at this point with what we’ve
16 evaluated we have not seen any advantages of combining
17 services in that manner. To make things happen that
18 would be an advantage.
19 KC: Well they keep saying the educational
20 advantage and I don’t know if they paint a new room,
21 that’s wonderful and nice but a new car doesn’t get you
22 there any quicker than an old one. You know, I guess
23 I’m changing my tune just a little bit because you guys
24 may have heard that. You know I just I don’t know I
25 guess I’ll speak here as (inaudible) speak it to you
any later. I’ve always thought we should consolidate
tenth, eleventh and twelfth I don’t care if it be in
Bancroft of here, just cuz the kids can drive and can
communicate. And I think that you get to this where
you can have kids you can have college credit courses.
You can get to a higher level of education. But just
to consolidate to buy paint I can see the free money
there but I also can see these farmers my tax base will
double at least. If you go to (inaudible) it’s going
to be spent.

JASON: Yah

VOICE: And that has some truth to it.

JASON: Yah, we are trying to be as transparent as
we can. All I can tell you there is that when we go
into some point but there is an opportunity here to
reduce that rate. I don’t know, I know that’s not a lot
but you know. Did you have a question Curtis?

CURTIS: On the academic side, I’ve seen a lot of
rings and I don’t know our percent was based off of in
Idaho. Is that the high school is the number one in
the State and I hope they still are. In the report
that I saw our elementary was a certain high level. I
guess one question is based a hundred percent off
academics (inaudible coughing) what was it based off
of. Next question moving forward setting a stop – the
district as a whole or still based off of schools?

Does anybody know?

VOICE: that’s still done.

TROY: Yah, it is entirely academic factors. That we look and its different factors in the High School verses the elementary school. But those are all school based analyses.

LORA: For consolidation to pass does it need a simple majority or does it mean two-thirds like the bond?

TROY: It is simple majority for consolidation effort to take place in each district, yes. Bonding effort is two-thirds majority.

JASON: I want to make sure, I’m not going to see any questions in the back, I’ve got lights in my eyes here and some of the back corners are little harder to see. I don’t see any hands raised so. Alright. Thank you very much for coming out. We’ve some great questions and Troy do you have any last words?

TROY: Thank you for coming out, and thank you.

RONDO: Can I make a comment?

JASON: Sure.

RONDO: I think most of you know

JASON: You’ve got to turn the recorder off though, cause you’re not (inaudible – laughter)
RONDO: That's fine, my point is for somebody that wants to consolidate, it's ironic that all the roads into town are broken or the bridges are torn up.

      (laughter)

JASON: I heard that we were going; you've got to stop that.

VOICE: Yah, (laughter)

JASON: Thank you everyone for coming tonight, appreciate your (inaudible) interest here.

PUBLIC HEARING WAS ADJOURNED
CERTIFICATE OF TRANSCRIPTION

STATE OF IDAHO  
) ss.

County of Caribou  

I, SHARON L. WELLS, Deputy Clerk and authorized independent contract transcriber for the Sixth Judicial District in Soda Springs, Idaho, County of Caribou, as the undersigned do hereby certify:

That she correctly and accurately transcribed and typed the above transcript numbered from 1 to 45 from the digital recording of the Public Hearing presided over by Jason Hanncock and Troy McCurdy, in Grace, Idaho, County of Caribou; which was digitally recorded on April 17, 2014 in the above entitled action or proceeding.

Dated at Soda Springs, Idaho, this 22nd day of May, 2014.

[Signature]

SHARON L. WELLS, Transcriber
Caribou County Deputy Clerk
Sixth Judicial District
To whom it may concern:

We wish to inform patrons of North Gem and Grace School Districts about proceedings that have taken place after the submission of petitions to consolidate North Gem and Grace School Districts. On February 24, 2014, a meeting was led by Jason Hancock, who is a representative from the Idaho State Department of Education. He explained the steps required by law, to complete the consolidation process started by patrons of Grace and North Gem. Jason Hancock provided an overview of the possibility of several options for consolidation, the financial opportunities provided by state law and reviewed specific items that had to be answered and presented to the state Board of Education by May 24, 2014.

A committee consisting of two school board members and two petitioners from each district were selected to present a plan of consolidation. The intent of this letter is to answer the required questions for you and clarify information, such as: what does consolidation mean, what process needs to take place for consolidation to happen, the affect this may have on teachers and administration and funding opportunities provided by state law. The committee did it’s best to collect and present all factual information available.

Where the consolidation process was started by petition, neither school board has the power to stop the process. The following steps are required:

1) **A public hearing will be held for North Gem Residents on April 16th @ 7 p.m.** in the North Gem auditorium.
   a) At such hearing, any school district elector or taxpayer of the district may appear and be heard, and may request any information from the board of trustees, concerning the proposed consolidation. Records of the hearings shall be entered in the minutes of each board of trustees and shall be included with the plan of proposed consolidation.

2) **A public hearing will be held for Grace Residents on April 17th @ 7 p.m.** in the Gem Valley Performing Arts Center.
   a) At such hearings, any school district elector or taxpayer of the district may appear and be heard, and may request any information from the board of trustees, concerning the proposed consolidation. Records of the hearings shall be entered in the minutes of each board of trustees and shall be included with the plan of proposed consolidation.

3) The proposed plan of consolidation, along with records of the hearings, will be submitted to the State Board of Education for approval.

4) If approved, the county commissioners will be notified and an election will be scheduled on the next available election date.

*All Idaho statutes referenced can be read in their entirety following the links provided at http://www.accessidaho.org.*
What does consolidation mean?
Both districts currently share a Superintendent. A consolidated district would provide:

- additional opportunities to combine other administrative services
- does not require combining schools
- Protection if student enrollment declines. Funding from the state would be maintained at a level consistent with the two districts existing levels before consolidation for a period of 7 years
- additional state funding incentive for building schools (bonding) if passed within 3 years of consolidation
- An opportunity to utilize a higher funding reimbursement formula from the state for elementary students in buildings 10 or more miles from district office. The same applies for secondary students in buildings 15 or more miles from the district office. North Gem is 15.1 miles from Grace High School. It would be best to have the district office located at North Gem to utilize the higher funding formula in the 8th year after consolidation.
- Removal of redundant workload for superintendent and allow him to be more effective with staff, students and patrons.

What if consolidation doesn’t work?
Idaho statute 33-312 lists the steps required to separate back into individual districts.

- The boundaries must be contiguous
- Any bonds for buildings within district must not exceed allowed percentages of property values.
- Any bonds passed utilizing consolidation incentives received from state must be paid back.
- Voted on and approved by majority of each community.

Items below are required by the State Board of Education.
(see Idaho Statute 33-310)

Map or maps showing boundaries of new district.
See the attached map titled “School District 148 and 149 Trustee Zone Census Block”.

The population is divided where two trustee zones comprise the North Gem School District and three zones in the Grace School District representing 39.92% and 60.08% of the consolidated district population, respectively. Zone populations vary between zones by no more than 12, the largest populated zone with 293.
Legal Description of boundaries of proposed school district and trustee zones, and population estimate for each zone.

**Combined District Boundary:**
BEGINNING at the Northeast corner of Township 5 South, Range 38 East, Boise Meridian; thence South to the Southeast corner of Township 5 South, Range 38 East; thence East to the Northeast corner of Section 1, Township 6 South, Range 39 East; thence South to the Southeast corner of Township 6 South, Range 39 East; thence East to the Northeast corner of Section 5, Township 7 South, Range 40 East; thence South to the Southeast corner of Section 32 of said Township and Range; thence East 4 miles to the Northeast corner of Section 1, Township 8 South, Range 40 East; thence South to the Southeast corner of said Township and Range; thence South 3 miles to the Northwest corner of Section 19, Township 9 South, Range 41 East; thence East 1 mile; thence South 3 miles; thence East 5 miles to the West boundary of Bear Lake County; thence Southerly following said boundary line to the South line of Township 12 South; thence West 9 miles to the Northwest corner of Section 2, Township 13 South, Range 40 East; thence South ½ mile; thence East 1 mile; thence South 2 ½ miles to the Southeast corner of Section 14, Township 13 South, Range 40 East; thence West 4 miles; thence North 3 miles; thence West 1 mile; thence East ½ mile; thence North 1 mile; thence West ½ mile; thence North 7 ½ miles to the east ¼ corner of Section 13, Township 11 South, Range 39 East; thence West 3 miles; thence North 2 ½ miles; thence West 1 mile, more or less, to the summit of the Portneuf Mountains; thence in a northwesterly direction along the summit to its intersection with the west line of Section 29, Township 10 South, Range 39 East; thence North to the Northwest corner of Section 5, said Township and Range; thence East to the south ¼ corner of Section 35, Township 9 South, Range 39 East, and the Fort Hall Correction Line; thence following the Bannock-Caribou County line in a Northwesterly direction to its intersection with the South line of Section 14, Township 8 South, Range 38 East; thence following the Bannock-Caribou County line in a Westerly, Southwesterly, Northerly and Northeasterly direction to its intersection with the Bingham-Caribou County line; thence East on the Bingham-Caribou County line to the Northeast corner of Township 5 South, Range 38 East, the True Point of Beginning.

**TRUSTEE ZONE 1**
**Population:** 291
BEGINNING at the Northeast corner of Township 5 South, Range 38 East, Boise Meridian; thence South to the Southeast corner of Township 5 South, Range 38 East; thence East to the Northeast corner of Section 1, Township 6 South, Range 39 East; thence South 2 ½ miles, more or less to the centerline of the Cow Camp Road; Thence Southwesterly along said centerline to the Northeast corner of Section 33, of said Township and Range; thence South along the centerline of the Chesterfield Road to the Southeast corner of Section 10, Township 7 South, Range 39 East; thence along the centerline of Stalker Road to the Northwest corner of Section 18, of said Township and Range; thence South to the point of intersection with the Shipley Road; thence West along the centerline of the Shipley Road to the point of intersection with the Kelly Toponce Roads; thence Southerly along the centerline of the Kelly Toponce Road to the point of intersection with the old Highway 30; thence Southwesterly along the centerline of the old Highway 30 to the point of intersection on the South boundary line of Section 16, Township 8 South, Range 38 East; thence following the Bannock-Caribou County line in a Westerly, Southwesterly, Northerly and Northeasterly direction to its intersection with the Bingham-Caribou County, Idaho line; thence East on the Bingham-Caribou County, Idaho line to the Northeast corner of Township 5 South, Range 38 East, the True Point of Beginning.
TRUSTEE ZONE 2:

BEGINNING at a point of intersection on the East boundary line of Section 13, Township 6 South, Range 39, East, Boise Meridian, with the centerline of Cow Camp Road; thence South to the Southeast corner of Township 6 South, Range 39 East; thence East to the Northeast corner of Section 5, Township 7 South, Range 40 East; thence South to the Southeast corner of Section 32 of said Township and Range; thence East 4 miles to the Northeast corner of Section 1, Township 8 South, Range 40 East; thence South to the Southeast corner of said Township and Range; thence South 2 miles, more or less, to a point of intersection on the centerline of Highway 30; thence along the centerline of said highway Westerly and Southwesterly to a point of intersection on the Bannock-Caribou County line; thence following the Bannock-Caribou County line in a Northwesterly direction to its intersection with the South line of Section 14, Township 8 South, Range 38 East; thence following the Bannock-Caribou County line in a Westerly direction to its intersection on the centerline of the old Highway 30; thence Northerly along said centerline to the point of intersection with the Kelley Toponce Road; thence Northerly along the centerline of said road to the point of intersection with the Shipley Road; thence Easterly along the centerline of said road to the point of intersection with the Stalker Road; thence Easterly along the centerline of said road to the point of intersection with the Chesterfield Road; thence Northerly along the centerline of Chesterfield Road to the Northeast corner of Section 33, of Township 6 South, Range 39 East; thence along the centerline of the Cow Camp Road in a Northeasterly direction to the True Point of Beginning.

TRUSTEE ZONE 3:

BEGINNING at the Northeast corner of Section 18, Township 9 South, Range 40 East, Boise Meridian, the same being the intersection of the Highway 30 and Hegstrom Road; thence Southerly 5 miles along the centerline of said Hegstrom Road to the point of intersection with Turner Road; thence Easterly 4 miles along the centerline of said Road to the point of intersection with Cinder Pit Road; thence South 1 mile along the centerline of said road to the point of intersection with the One Mile Road; thence East ½ miles along the centerline of said Road to the point of intersection with the Highway 34; thence Southerly along the centerline of said Highway to the Northeast corner of Section 36, Township 11 South, Range 40 East; thence West along the North boundary of said Section 36 to a point of intersection on the centerline of the Bear River; thence Southerly along the centerline of said River to a point of intersection on the South boundary of Township 11 South; thence West along the North boundary of Franklin County, Idaho to the Southwest corner of said Township 11 South, Range 40 East; thence North 3 ½ miles to the east ¼ corner of Section 13, Township 11 South, Range 39 East; thence West 3 miles; thence North 2 ½ miles; thence West 1 mile, more or less, to the summit of the Portneuf Mountains; thence in a northwesterly direction along the summit to its intersection with the west line of Section 29, Township 10 South, Range 39 East; thence North to the Northwest corner of Section 5, said Township and Range; thence East to the south ¼ corner of Section 35, Township 9 South, Range 39 East, and the Fort Hall Correction Line; thence following the Bannock-Caribou County line in a Northerly direction to its intersection with the centerline of Highway 30; thence Northeasterly and Easterly along said centerline to the True Point of Beginning.
**TRUSTEE ZONE 4:**

**POPULATION: 293**

BEGINNING at the Northwest corner of Section 17, Township 9 South, Range 40 East, Boise Meridian, the same being the intersection of the Highway 30 and Hegstrom Road; thence Easterly along the centerline of said Highway 5 miles to the point of intersection on the East boundary line of Section 13, Township 6 South, Range 39, East, Boise Meridian; thence South to the Northwest corner of Section 19, Township 9 South, Range 41 East; thence East 1 mile; thence South 3 Miles; thence East 5 miles to the West boundary of Bear Lake County, Idaho; thence Southerly following said boundary line to the North boundary of Franklin County, Idaho; thence West along said boundary to the South ¼ corner of Section 31, Township 11 South, Range 41 East; thence North ½ of a mile; thence West ¼ mile; thence North ¾ mile; thence West ¼ mile to the Northwest corner of said Section; thence Northerly along the centerline of Highway 34 to the point of intersection with One Mile Road; thence West ½ mile along the centerline of said Road to the point of intersection with the Cinder Road; thence Northerly 1 mile along the centerline of said Road to the intersection with the Turner Road; thence Westerly 4 miles along the centerline of said Road to the point of intersection with the Hegstrom Road; thence Northerly 5 miles along the centerline of said Road to the True Point of Beginning.

**TRUSTEE ZONE 5:**

**POPULATION: 290**

BEGINNING at the Northwest corner of Section 6, Township 12 South, Range 40 East, Boise Meridian; thence Easterly along the North boundary of Franklin County, Idaho, to a point of intersection with the centerline of the Bear River; thence Northerly along the centerline of said River to a point of intersection on the North boundary of Section 36, Township 11 South, Range 40 East; thence Easterly ¼ mile along the North boundary of Section 31, Township 11 South, Range 41 East; thence South ¼ mile; thence East IA mile; thence South ¾ mile to the South IA corner of said Section; thence Easterly along the North boundary of Franklin County, Idaho to a point of intersection on the West boundary of Bear Lake County, Idaho; thence Southerly following said boundary line to the South line of Township 12 South; thence West 9 miles to the Northwest corner of Section 2, Township 13 South, Range 40 East; thence South ½ mile; thence East 1 mile; thence South 2 ½ miles to the Southeast corner of Section 14, Township 13 South, Range 40 East; thence West 4 miles; thence North 3 miles; thence West 1 mile; thence North 1 mile; thence East ½ mile; thence North 1 miles; thence West ½ mile; thence North 4 miles to the True Point of Beginning.

Outstanding Bonds of both districts, sinking funds accumulated, and estimated sinking fund levies in process of collection.
As of April 2, 2014: $0 for both districts.

Whether each district has a plant facilities reserve fund, the fund balances, obligations against the funds.
Any money in plant facilities reserve fund of former district will be used to pay down any bond debt, otherwise funds go into the new plant facilities reserve fund. *(Idaho Statute 33-901)*

Amount of any unpaid bond obligations.
As of April 2, 2014: $0 for each district.

Designation of the Home County.
Caribou County

Official name and number of proposed district.
The proposed district name would be:
North Gem – Grace Joint School District #147

How the property of the current districts, real and personal will vest in the new district.
All properties currently held in each existing district will vest in a new consolidated district.

Other questions with factual information available:

Financial Funding
Idaho law guarantees that the funding for a consolidated district cannot drop below the combined level that the two districts received before consolidation for a period of seven years. *(Idaho Statute 33-1003)*

Any district formed by consolidation that passes a bond with in three years after consolidation receives a value index adjustment under the Bond Levy Equalization, causing the state to pay at the district's actual value index minus twenty-five hundredths (.25= 25%) of the bond repayment costs over the life of the bond. The property value index of North Gem (.98=2%) and Grace school districts (.84=16%) combined is (.91=9%). Adding the incentive provided after consolidation, the state will pay 34% (25%+9%) of a proposed bond if passed within 3 years of consolidation. *(33-906 & 33-906B)*

Teachers, Administrators and Trustees

Will employees be let go or cut?
Idaho law allows the school board of a newly consolidated district to offer a one-time severance payment to a maximum of 10% of employees. Any offer made to teachers can be refused and will not affect future employment. *(Idaho Statute 33-521)*
Class sizes and funding?
Maintaining the schools as they currently are with no changes to combine schools will provide the same level of funding as what is currently being received by each individual district after the seven year period.

Funding for administrators
Funding for administrators is based on number of pupils taught. The number of administrator positions currently allocated to each district will be the same number allocated to a consolidated district. (*Idaho Statute 33-1004*)

How is a new school board created?
Two existing board members from each district will be on the board. Those four members chosen will vote on the fifth board member selected from the remaining board members. (*Idaho Statute 33-505*)

New Schools: Who decides?
Any options for new schools would be proposed by the new school board. Any bonding necessary for proposed schools requires 66.67% approval of school district patrons.

We remind all residents of the public hearings:

**North Gem Residents**
April 16th @ 7 p.m.
North Gem auditorium

**Grace Residents**
April 17th @ 7 p.m.
Gem Valley Performing Arts Center
To whom it may concern:

We wish to inform patrons of North Gem and Grace School Districts about proceedings that have taken place after the submission of petitions to consolidate North Gem and Grace School Districts. On February 24, 2014, a meeting was led by Jason Hancock, who is a representative from the Idaho State Department of Education. He explained the steps required by law, to complete the consolidation process started by patrons of Grace and North Gem. Jason Hancock provided an overview of the possibility of several options for consolidation, the financial opportunities provided by state law and reviewed specific items that had to be answered and presented to the state Board of Education by May 24, 2014.

A committee consisting of two school board members and two petitioners from each district were selected to present a plan of consolidation. The intent of this letter is to answer the required questions for you and clarify information, such as: what does consolidation mean, what process needs to take place for consolidation to happen, the affect this may have on teachers and administration and funding opportunities provided by state law. The committee did it’s best to collect and present all factual information available.

Where the consolidation process was started by petition, neither school board has the power to stop the process. The following steps are required:

1) A **public hearing will be held for North Gem Residents on April 16th @ 7 p.m.** in the North Gem auditorium.
   a) At such hearing, any school district elector or taxpayer of the district may appear and be heard, and may request any information from the board of trustees, concerning the proposed consolidation. Records of the hearings shall be entered in the minutes of each board of trustees and shall be included with the plan of proposed consolidation.

2) A **public hearing will be held for Grace Residents on April 17th @ 7 p.m.** in the Gem Valley Performing Arts Center.
   a) At such hearings, any school district elector or taxpayer of the district may appear and be heard, and may request any information from the board of trustees, concerning the proposed consolidation. Records of the hearings shall be entered in the minutes of each board of trustees and shall be included with the plan of proposed consolidation.

3) The proposed plan of consolidation, along with records of the hearings, will be submitted to the State Board of Education for approval.

4) If approved, the county commissioners will be notified and an election will be scheduled on the next available election date.

*All Idaho statutes referenced can be read in their entirety following the links provided at [http://www.accessidaho.org](http://www.accessidaho.org).*

Brantly Hatch
Grace – (Committee Chair) Troy McCurdy*, Dave Kendall*, Andrea Smith, Jeremy Stoddard

Board Members (*)
What does consolidation mean?
Both districts currently share a Superintendent. A consolidated district would provide:

- additional opportunities to combine other administrative services
- does not require combining schools
- Protection if student enrollment declines. Funding from the state would be maintained at a level consistent with the two districts existing levels before consolidation for a period of 7 years
- additional state funding incentive for building schools (bonding) if passed within 3 years of consolidation
- An opportunity to utilize a higher funding reimbursement formula from the state for elementary students in buildings 10 or more miles from district office. The same applies for secondary students in buildings 15 or more miles from the district office. North Gem is 15.1 miles from Grace High School. It would be best to have the district office located at North Gem to utilize the higher funding formula in the 8th year after consolidation.
- Removal of redundant workload for superintendent and allow him to be more effective with staff, students and patrons.

What if consolidation doesn’t work?
Idaho statute 33-312 lists the steps required to separate back into individual districts.

- The boundaries must be contiguous
- Any bonds for buildings within district must not exceed allowed percentages of property values.
- Any bonds passed utilizing consolidation incentives received from state must be paid back.
- Voted on and approved by majority of each community.

Items below are required by the State Board of Education.
(see Idaho Statute 33-310)

Map or maps showing boundaries of new district.
See the attached map titled “School District 148 and 149 Trustee Zone Census Block”.

The population is divided where two trustee zones comprise the North Gem School District and three zones in the Grace School District representing 39.92% and 60.08% of the consolidated district population, respectively. Zone populations vary between zones by no more than 12, the largest populated zone with 293.
Legal Description of boundaries of proposed school district and trustee zones, and population estimate for each zone.

Outstanding Bonds of both districts, sinking funds accumulated, and estimated sinking fund levies in process of collection.
As of April 2, 2014: $0 for both districts.

Whether each district has a plant facilities reserve fund, the fund balances, obligations against the funds.
Any money in plant facilities reserve fund of former district will be used to pay down any bond debt, otherwise funds go into the new plant facilities reserve fund. (Idaho Statute 33-901)

Amount of any unpaid bond obligations.
As of April 2, 2014: $0 for each district.

Designation of the Home County.
Caribou County

Official name and number of proposed district.
The proposed district name would be:
North Gem – Grace Joint School District #147

How the property of the current districts, real and personal will vest in the new district.
All properties currently held in each existing district will vest in a new consolidated district.

Other questions with factual information available:

Financial Funding
Idaho law guarantees that the funding for a consolidated district cannot drop below the combined level that the two districts received before consolidation for a period of seven years. (Idaho Statute 33-1003)

Any district formed by consolidation that passes a bond with in three years after consolidation receives a value index adjustment under the Bond Levy Equalization, causing the state to pay at the district’s actual value index minus twenty-five hundredths (.25= 25%) of the bond repayment costs over the life of the bond. The property value index of North Gem (.98=2%) and Grace school districts (.84=16%) combined is (.91=9%). Adding the incentive provided after consolidation, the state will pay 34% (25%+9%) of a proposed bond if passed within 3 years of consolidation. (33-906 & 33-906B)

Teachers, Administrators and Trustees

Will employees be let go or cut?
Idaho law allows the school board of a newly consolidated district to offer a one-time severance payment to a maximum of 10% of employees. Any offer made to teachers can be refused and will not affect future employment. (Idaho Statute 33-521)
Class sizes and funding?
Maintaining the schools as they currently are with no changes to combine schools will provide the same level of funding as what is currently being received by each individual district after the seven year period.

Funding for administrators
Funding for administrators is based on number of pupils taught. The number of administrator positions currently allocated to each district will be the same number allocated to a consolidated district. (*Idaho Statute 33-1004*)

How is a new school board created?
Two existing board members from each district will be on the board. Those four members chosen will vote on the fifth board member selected from the remaining board members. (*Idaho Statute 33-505*)

New Schools: Who decides?
Any options for new schools would be proposed by the new school board. Any bonding necessary for proposed schools requires 66.67% approval of school district patrons.

Gem Valley Performing Arts Center
Community Petition
for
Consolidation of SD 148 and SD 149
based off of
33-310A., Idaho Code

We, registered voters from School Districts No. 148 and 149, create this petition for the consideration of consolidation of School Districts No. 148 and 149.

We are aware of Title 33-310A., Idaho Code and the liberties and requirements for this petition.

We are also aware of the events scheduled to take place in the upcoming months. One of these events is an election for a 4.8 million dollar bond for 20 years scheduled to take place on the eleventh (11) of March, 2013 for the North Gem School District No. 149.

The bond election was requested from the North Gem School District No. 149 Board of Trustees to the Caribou County Court House. The options that will be held on the ballot include: the option to pass the 4.8 million dollar bond, or vote against the bond. However, the other options that are, and have been, addressed to the community are not stated for the ballot. One of these options is the option of consolidating with a neighboring school district(s).

We, as registered voters residing within district boundaries of Districts No. 148 and 149, request for consideration in consolidating these two districts.

We petition that the option of the consideration of consolidation of these two districts—District No. 148 and 149—be added to the ballot for the eleventh (11) of March, 2013 election.

In addition, we hereby include in our petition the following information. We have followed the requirements and liberties described in Title 33-310A., Idaho Code.

Title 33-310A., Idaho Code states, "five per cent (5%) or more of the registered voters from each of two (2) or more contiguous school districts, when such districts coincide with election precincts, or, a number of registered voters equal to fifteen per cent (15%) or more of the aggregate number of votes cast at the last three (3) elections for school trustees in each of the school districts, may petition in writing proposing the consolidation of their districts into a single new district."

The requirements of such a petition are then stated again in Title 33-310A., Idaho Code: "One (1) copy of such petition shall be presented to the board of trustees of each district included in the proposed consolidation. The petition shall contain:

1. The names and addresses of the petitioners;
2. A map or maps showing the boundaries of the proposed new district, the boundaries of the component consolidating districts, the location of existing schoolhouses or facilities of the component districts, the proposed trustee zones, and the proposed transportation routes, if any."

We include the requirements listed above and in Title 33-310A., Idaho Code, along with the names and addresses of the petitioners attached to this petition.

SUBJECT
Temporary and Proposed - Rule IDAPA 08.02.01.400 – Rules Governing Administration.

APPLICABLE STATUTE, RULE, OR POLICY
Section 33-133, Idaho Code

BACKGROUND/DISCUSSION
IDAPA 08.02.01.400.01.b and .c was last amended in 1997. This section of Administrative Rule outlines the formula for reimbursement to the school district for Exceptional Child Support Units. The current language contains two technical errors in the descriptor for the numbers used in calculating the reimbursement. The proposed changes would correct the technical errors.

IMPACT
There is no fiscal impact because the state has already been reimbursing at the correct rate.

ATTACHMENTS
Attachment 1 – Proposed changes to IDAPA 08.02.03.400

STAFF COMMENTS AND RECOMMENDATIONS
The Board office received a request that the Exceptional Child Support Units calculation be reevaluated and potentially adjusted based on the current numbers of students who meet the criteria for inclusion in the calculation. Board staff forwarded the request to the Department of Education for evaluation and recommendation to the Board. Due to the current resources in the Department of Education the analysis was not able to be completed in time for a Proposed rule amendment for the Board to consider this year.

The current formula in Administrative Rule is based on 6% of students in grades kindergarten through grade six (K-6) and 5.5% of students in grades seven through twelve (7-12) falling within this category. Current data from the Department indicates that for the 2013 child count and fall enrollment the percentages of children that would fall under this category are:

- Elementary (K-6) – 8.10%
- Secondary (7-12) – 8.57%

The Department is proposing at this time that only a technical correction be made to the Administrative rule fixing error in the descriptive text of the multiplier in the form of a Temporary and Proposed Rule. Since the Department is already calculating and distributing the funds correctly the Temporary rule is unnecessary.
BOARD ACTION
    I move to approve the Temporary and Proposed rule amendment to IDAPA 08.02.03.400, as submitted

    Moved by __________ Seconded by __________ Carried Yes _____ No _____
400. SPECIAL EDUCATION FUNDING FOR DISTRICTS WITH APPROVED PROGRAMS.

01. Reimbursement for Exceptional Child Support Units. State reimbursement provided by exceptional child support units is based on the following formula: (4-1-97)

   a. Preschool students will generate funding based upon the weekly hours and minutes they are enrolled in special education. (4-1-97)

   b. From the fall elementary enrollment of kindergarten through grade six (K-6), subtract elementary residential facility students and multiply the result by six one-hundredths (.006). Add the elementary residential facility students to the product. (Section 33-1002(4), Idaho Code.) (4-1-97)

   c. From the fall regular secondary enrollment of grades seven through twelve (7-12), subtract secondary residential facility students and multiply the result by fifty-five one-hundredths thousandths (.055). Add the secondary residential facility students to the product. (Section 33-1002(4), Idaho Code.) (4-1-97)

   d. Add the juvenile detention facility students to the total. (4-1-97)

   e. Use the exceptional child divisor to determine the number of exceptional child units. Secondary programs with a smaller divisor may use the smaller divisor for their secondary computation. (4-1-97)

   f. Elementary and secondary exceptional child support units will be calculated using one hundred percent (100%) Average Daily Attendance (ADA); the ADA will be subtracted from their respective regular elementary and secondary administrative unit for computing the support unit. (4-1-97)

02. Contracting for Educational and Related Services. (Section 33-2004, Idaho Code) (4-1-97)

   a. A school district which contracts for special education services with another agency may claim reimbursement up to a maximum amount of state funding, as annually determined by the State Department of Education, less the district’s certified annual tuition rate. When any agency contracts for the education of exceptional children, all such children will be enrolled in the district of their residence and the agency will certify to the home school district the daily record of attendance of such student. (4-1-97)

   b. For special education contracts between local school districts, the district receiving service will pay the district providing service the amount of the providing district’s local annual tuition rate as certified under the provision of Idaho Code. The school district providing service will include students served within such contract within the total number of special education students used to calculate exceptional education support units. Charges for additional costs may be negotiated between the districts. (4-1-97)

   c. The State Department of Education will determine if public and private schools and facilities meet state standards for an approved special education program. Any agency aggrieved by the Department of Education’s final decision may appeal that decision to the State Board of Education. (4-1-97)
SUBJECT

Proposed Rule - IDAPA 08.02.02.004, Rules Governing Uniformity, Incorporation by Reference.

Proposed standards revisions to the Idaho Standards for Operating procedures for Idaho Public Driver Education Programs.

APPLICABLE STATUTE, RULE, OR POLICY

Sections 33-1254 and 33-1258, Idaho Code

BACKGROUND/DISCUSSION

Standards Revisions

The Professional Standards Commission follows a Strategic Plan of annually reviewing twenty percent (20%) of the Idaho Standards for Initial Certification of Professional School Personnel. The following endorsements were reviewed by committees of content experts in the fall of 2013 and the spring of 2014 and are ready for submission: School Counselor, Special Education Generalist, Special Education Director and School Psychologist. All standards and endorsements were revised to better align with national standards and best practices, and then presented to the Professional Standards Commission for consideration. The Professional Standards Commission has recommended approval of all of the committee’s proposed revisions including renaming the Library Science/Library Media Specialist standards and endorsement to Teacher Librarian.

A public school district may contract with an approved private driving school to provide a driver education program. In order to assure a quality program, maintain student records and proper reporting to the Idaho State Department of Education, specific wording was added to the standards regarding contracting.

IMPACT

Approval of the Idaho Standards for Initial Certification of Professional School Personnel will bring the standards up to date with current best practices in the listed areas. Approval of the Driver Education Program standards will provide clarity to the reporting requirements.

ATTACHMENTS

Attachment 1 – Proposed rule changes to IDAPA 08.02.02.004 Rules Governing Uniformity

Attachment 2 – Proposed revisions to the Idaho Standards for Initial Certification of Professional School Personnel.

Attachment 2 – Proposed revisions to the Operating procedures for Idaho Public Driver Education Programs.
STAFF COMMENTS AND RECOMMENDATIONS

When standards are incorporated by reference into Administrative Rule they have the force and effect of law and may only be amended through the rule making process.

BOARD ACTION

I move to approve the proposed revisions to the Idaho Foundation and Enhancement Standards for: School Counselor, Special Education Generalist, Special Education Director and School Psychologists as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the proposed standards revisions to the Idaho Standards for Operating procedures for the Idaho Public Driver Education Programs, Incorporated by Reference, as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the Proposed Rule amendments to IDAPA 08.02.02.04.01, Rules Governing Uniformity, Incorporation By Reference as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
004. INCORPORATION BY REFERENCE.
The State Board of Education adopts and incorporates by reference into its rules: (5-8-09)

03. Operating Procedures for Idaho Public Driver Education Programs as approved on August 15, 2013. The Operating Procedures for Idaho Public Driver Education Programs are available at the Idaho State Department of Education, 650 W. State St., Boise, Idaho, 83702 and can also be accessed electronically at http://www.sde.idaho.gov/site/driver_edu/forms_curriculum.htm. (3-20-14)

Idaho Standards for Initial Certification of Professional School Personnel

Summary & Background

Overview of the Past Standards

The early standards for initial certification in Idaho were based on the 1989 National Association of State Directors of Teacher Education and Certification (NASDTEC) standards. These standards were "input-based", meaning a candidate was recommended for initial certification based on credits and content of courses successfully completed (transcript review).

Example - Past (input-based) Standard Format, Biological Science:

Twenty (20) semester credit hours to include at least six (6) credit hours of course work in EACH of the following areas: Botany and Zoology (some course work in physiology is also recommended).

The standards were seriously outdated, and Idaho was in danger of losing its partnership with the National Council for Accreditation of Teacher Education (NCATE), which is the nationally recognized teacher education program accreditation body. In addition to being a benchmark for program quality, NCATE partnership helps Idaho program completers gain certification reciprocity opportunities with other states.

In 2000 Idaho adopted new standards based on the Interstate New Teacher Assessment and Support Consortium (INTASC) model. These standards reflected a move to "performance-based" outcomes, meaning a candidate is recommended for initial certification based on the demonstration of what they know and are able to do.

In 2012 a committee of education experts was convened to review and revise the Idaho Core Teacher Standards. After thoughtful consideration, the committee recommended adopting the newly revised InTASC Model Core Teaching Standards (April 2011) as published. No substantive changes were recommended by the committee. The committee did recommend a formatting change to the ten InTASC Model Core Teaching Standards to match the rest of the existing Idaho Standards for Initial Certification of Professional School Personnel.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Each proposed standard is broken down into two areas:
- Knowledge (what the candidate needs to know)
- Performance (what the candidate is able to do).

The performance, therefore, is the demonstration of the knowledge and dispositions of a standard. As the demonstration of a standard, the performances will also guide a teacher-education program review team when evaluating for program accreditation.
Revised Idaho Core Teacher Standards (InTASC 2011)

The “Idaho Core Teacher Standards” apply to ALL teacher certification areas. These are the 10 basic standards all teachers must know and be able to do, regardless of their specific content areas. These standards are described in more detail with knowledge and performances in the first section of this manual. The standards have been grouped into four general categories to help users organize their thinking about the standards: The Learner and Learning; Content; Instructional Practice; and Professional Responsibility. The summary of each standard is:

**Standard #1: Learner Development.** The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

**Standard #2: Learning Differences.** The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

**Standard #3: Learning Environments.** The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

**Standard #4: Content Knowledge.** The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

**Standard #5: Application of Content.** The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

**Standard #6: Assessment.** The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.

**Standard #7: Planning for Instruction.** The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.
Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.
Foundation and Enhancement Standards

The Core Teacher Standards apply to **ALL** teacher certification areas. The Foundations and/or Enhancements for each content certification area are behind the Core Standards in this manual, alphabetically.

Foundation and Enhancement Standards refer to additional knowledge and performances a teacher must know in order to teach a certain content area. The Foundation and Enhancement Standards, therefore, further "enhance" the Core Standard.

**Example of content area Enhancements:**

**Standard #1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.**

*In other words, Core Standard #1 basically states that the teacher must know the subject and how to create meaningful learning experiences.*

**Examples an Enhancement to Standard #1:**

- **For Language Arts:** The teacher integrates reading, writing, speaking, listening, viewing, and language study.

- **For Math:** The teacher applies the process of measurement to two-and three-dimensional objects using customary and metric units.

In this way, the Idaho Core Teacher Standards, Foundation Standards and Enhancement Standards are "layered" to describe what a teacher in the content area must know and be able to do in order to be recommended to the state for initial certification.

Important enhancements for several content areas do not fall under the ten Core Teacher Standards. For example, a science teacher must provide a safe learning environment in relation to labs, materials, equipment, and procedures. This does not fall under an area that every teacher needs to know. Therefore, it is Standard # 11 under Science. (See the graph for further illustration and titles of additional standards in subject areas.)

In no case are there more than 12 overall standards for any subject area.
Pupil Personnel and Administrator Certification Standards

There are several certification standards for pupil personnel professionals and school administrators that are also addressed through the Idaho teacher certification processes.

- School Administrators
- School Counselors
- School Nurses
- School Psychologists
- School Social Workers

Because of the unique role of these professionals, their standards are independent of the Core Standards but are still written in the same performance-based format: Knowledge and Performances.

The Process of Idaho Standards Development and Maintenance

The move to INTASC based standards was developed in 1999 and 2000 with task groups from around the state composed of a variety of Idaho education stakeholders including teachers, higher education representatives, parents, school administrators, business people, and others.

Each task group averaged 5-10 people, for a total of over 250 participants statewide.

Members of the Idaho's MOST Standards Committee formed by the State Board of Education and standards-writing Task Groups together have dedicated a total of over 4,000 volunteer hours on development of these standards.

The Professional Standards Commission (PSC) continuously reviews/revises 20% of the standards per year. The review process involves teams of content area experts from higher education and K-12 schools. The standards are then reviewed by the PSC and presented to the Idaho State Board of Education for approval. Once approved, they are reviewed by the State Legislature and become an incorporated by reference document in State Board Rule.

The Idaho Core Teacher Standards were revised in the spring of 2012 to align with the InTASC Model Core Teaching Standards (April 2011). Starting with the 2012-2013 standards review cycle, committees of education experts were convened to review and revise the content area standards according to both current national standards and the InTASC Model Core Teaching Standards (April 2011).
Idaho Core Teaching Standards

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Core Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim

Core Teaching Standards

The standards have been grouped into four general categories to help users organize their thinking about the standards: The Learner and Learning, Content, Instructional Practice, and Professional Responsibility. This language has been adopted verbatim from the April 2011 InTASC Model Core Teaching Standards.

The Learner and Learning

Teaching begins with the learner. To ensure that each student learns new knowledge and skills, teachers must understand that learning and developmental patterns vary among individuals, that learners bring unique individual differences to the learning process, and that learners need supportive and safe learning environments to thrive. Effective teachers have high expectations for each and every learner and implement developmentally appropriate, challenging learning experiences within a variety of learning environments that help all learners meet high standards and reach their full potential. Teachers do this by combining a base of professional knowledge, including an understanding of how cognitive, linguistic, social, emotional, and physical development occurs, with the recognition that learners are individuals who bring differing personal and family backgrounds, skills, abilities, perspectives, talents and interests. Teachers collaborate with learners, colleagues, school leaders, families, members of the learners’ communities, and community organizations to better understand their students and maximize their learning. Teachers promote learners’ acceptance of responsibility for their own learning and collaborate with them to ensure the effective design and implementation of both self-directed and collaborative learning.
Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1. The teacher understands how learning occurs--how learners construct knowledge, acquire skills, and develop disciplined thinking processes--and knows how to use instructional strategies that promote student learning.

2. The teacher understands that each learner’s cognitive, linguistic, social, emotional, and physical development influences learning and knows how to make instructional decisions that build on learners’ strengths and needs.

3. The teacher identifies readiness for learning, and understands how development in any one area may affect performance in others.

4. The teacher understands the role of language and culture in learning and knows how to modify instruction to make language comprehensible and instruction relevant, accessible, and challenging.

Performance

1. The teacher regularly assesses individual and group performance in order to design and modify instruction to meet learners’ needs in each area of development (cognitive, linguistic, social, emotional, and physical) and scaffolds the next level of development.

2. The teacher creates developmentally appropriate instruction that takes into account individual learners’ strengths, interests, and needs and that enables each learner to advance and accelerate his/her learning.

3. The teacher collaborates with families, communities, colleagues, and other professionals to promote learner growth and development.

Disposition

1. The teacher respects learners’ differing strengths and needs and is committed to using this information to further each learner’s development.
2. The teacher is committed to using learners’ strengths as a basis for growth, and their misconceptions as opportunities for learning.

3. The teacher takes responsibility for promoting learners’ growth and development.

4. The teacher values the input and contributions of families, colleagues, and other professionals in understanding and supporting each learner’s development.

**Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.**

**Knowledge**

1. The teacher understands and identifies differences in approaches to learning and performance and knows how to design instruction that uses each learner’s strengths to promote growth.

2. The teacher understands students with exceptional needs, including those associated with disabilities and giftedness, and knows how to use strategies and resources to address these needs.

3. The teacher knows about second language acquisition processes and knows how to incorporate instructional strategies and resources to support language acquisition.

4. The teacher understands that learners bring assets for learning based on their individual experiences, abilities, talents, prior learning, and peer and social group interactions, as well as language, culture, family, and community values.

5. The teacher knows how to access information about the values of diverse cultures and communities and how to incorporate learners’ experiences, cultures, and community resources into instruction.

**Performance**

1. The teacher designs, adapts, and delivers instruction to address each student’s diverse learning strengths and needs and creates opportunities for students to demonstrate their learning in different ways.
2. The teacher makes appropriate and timely provisions (e.g., pacing for individual rates of growth, task demands, communication, assessment, and response modes) for individual students with particular learning differences or needs.

3. The teacher designs instruction to build on learners’ prior knowledge and experiences, allowing learners to accelerate as they demonstrate their understandings.

4. The teacher brings multiple perspectives to the discussion of content, including attention to learners’ personal, family, and community experiences and cultural norms.

5. The teacher incorporates tools of language development into planning and instruction, including strategies for making content accessible to English language learners and for evaluating and supporting their development of English proficiency.

6. The teacher accesses resources, supports, and specialized assistance and services to meet particular learning differences or needs.

**Disposition**

1. The teacher believes that all learners can achieve at high levels and persists in helping each learner reach his/her full potential.

2. The teacher respects learners as individuals with differing personal and family backgrounds and various skills, abilities, perspectives, talents, and interests.

3. The teacher makes learners feel valued and helps them learn to value each other.

4. The teacher values diverse languages and dialects and seeks to integrate them into his/her instructional practice to engage students in learning.

*Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

**Knowledge**
1. The teacher understands the relationship between motivation and engagement and knows how to design learning experiences using strategies that build learner self-direction and ownership of learning.

2. The teacher knows how to help learners work productively and cooperatively with each other to achieve learning goals.

3. The teacher knows how to collaborate with learners to establish and monitor elements of a safe and productive learning environment including norms, expectations, routines, and organizational structures.

4. The teacher understands how learner diversity can affect communication and knows how to communicate effectively in differing environments.

5. The teacher knows how to use technologies and how to guide learners to apply them in appropriate, safe, and effective ways.

Performance

1. The teacher collaborates with learners, families, and colleagues to build a safe, positive learning climate of openness, mutual respect, support, and inquiry.

2. The teacher develops learning experiences that engage learners in collaborative and self-directed learning and that extend learner interaction with ideas and people locally and globally.

3. The teacher collaborates with learners and colleagues to develop shared values and expectations for respectful interactions, rigorous academic discussions, and individual and group responsibility for quality work.

4. The teacher manages the learning environment to actively and equitably engage learners by organizing, allocating, and coordinating the resources of time, space, and learners’ attention.

5. The teacher uses a variety of methods to engage learners in evaluating the learning environment and collaborates with learners to make appropriate adjustments.

6. The teacher communicates verbally and nonverbally in ways that demonstrate respect for and responsiveness to the cultural backgrounds and differing perspectives learners bring to the learning environment.
7. The teacher promotes responsible learner use of interactive technologies to extend the possibilities for learning locally and globally.

8. The teacher intentionally builds learner capacity to collaborate in face-to-face and virtual environments through applying effective interpersonal communication skills.

Disposition

1. The teacher is committed to working with learners, colleagues, families, and communities to establish positive and supportive learning environments.

2. The teacher values the role of learners in promoting each other’s learning and recognizes the importance of peer relationships in establishing a climate of learning.

3. The teacher is committed to supporting learners as they participate in decision making, engage in exploration and invention, work collaboratively and independently, and engage in purposeful learning.

4. The teacher seeks to foster respectful communication among all members of the learning community.

5. The teacher is a thoughtful and responsive listener and observer.
Content

Teachers must have a deep and flexible understanding of their content areas and be able to draw upon content knowledge as they work with learners to access information, apply knowledge in real world settings, and address meaningful issues to assure learner mastery of the content. Today’s teachers make content knowledge accessible to learners by using multiple means of communication, including digital media and information technology. They integrate cross-disciplinary skills (e.g., critical thinking, problem solving, creativity, communication) to help learners use content to propose solutions, forge new understandings, solve problems, and imagine possibilities. Finally, teachers make content knowledge relevant to learners by connecting it to local, state, national, and global issues.

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The teacher understands major concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the discipline(s) s/he teaches.

2. The teacher understands common misconceptions in learning the discipline and how to guide learners to accurate conceptual understanding.

3. The teacher knows and uses the academic language of the discipline and knows how to make it accessible to learners.

4. The teacher knows how to integrate culturally relevant content to build on learners’ background knowledge.

5. The teacher has a deep knowledge of student content standards and learning progressions in the discipline(s) s/he teaches.

Performance

1. The teacher effectively uses multiple representations and explanations that capture key ideas in the discipline, guide learners through learning progressions, and promote each learner’s achievement of content standards.

2. The teacher engages students in learning experiences in the discipline(s) that encourage learners to understand, question, and analyze ideas from diverse perspectives so that they master the content.

4. The teacher stimulates learner reflection on prior content knowledge, links new concepts to familiar concepts, and makes connections to learners’ experiences.

5. The teacher recognizes learner misconceptions in a discipline that interfere with learning, and creates experiences to build accurate conceptual understanding.

6. The teacher evaluates and modifies instructional resources and curriculum materials for their comprehensiveness, accuracy for representing particular concepts in the discipline, and appropriateness for his/her learners.

7. The teacher uses supplementary resources and technologies effectively to ensure accessibility and relevance for all learners.

8. The teacher creates opportunities for students to learn, practice, and master academic language in their content.

9. The teacher accesses school and/or district-based resources to evaluate the learner’s content knowledge in their primary language.

Disposition

1. The teacher realizes that content knowledge is not a fixed body of facts but is complex, culturally situated, and ever evolving. S/he keeps abreast of new ideas and understandings in the field.

2. The teacher appreciates multiple perspectives within the discipline and facilitates learners’ critical analysis of these perspectives.

3. The teacher recognizes the potential of bias in his/her representation of the discipline and seeks to appropriately address problems of bias.

4. The teacher is committed to work toward each learner’s mastery of disciplinary content and skills.
Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

1. The teacher understands the ways of knowing in his/her discipline, how it relates to other disciplinary approaches to inquiry, and the strengths and limitations of each approach in addressing problems, issues, and concerns.

2. The teacher understands how current interdisciplinary themes (e.g., civic literacy, health literacy, global awareness) connect to the core subjects and knows how to weave those themes into meaningful learning experiences.

3. The teacher understands the demands of accessing and managing information as well as how to evaluate issues of ethics and quality related to information and its use.

4. The teacher understands how to use digital and interactive technologies for efficiently and effectively achieving specific learning goals.

5. The teacher understands critical thinking processes and knows how to help learners develop high level questioning skills to promote their independent learning.

6. The teacher understands communication modes and skills as vehicles for learning (e.g., information gathering and processing) across disciplines as well as vehicles for expressing learning.

7. The teacher understands creative thinking processes and how to engage learners in producing original work.

8. The teacher knows where and how to access resources to build global awareness and understanding, and how to integrate them into the curriculum.
Performance

1. The teacher develops and implements projects that guide learners in analyzing the complexities of an issue or question using perspectives from varied disciplines and cross-disciplinary skills (e.g., a water quality study that draws upon biology and chemistry to look at factual information and social studies to examine policy implications).

2. The teacher engages learners in applying content knowledge to real world problems through the lens of interdisciplinary themes (e.g., financial literacy, environmental literacy).

3. The teacher facilitates learners’ use of current tools and resources to maximize content learning in varied contexts.

4. The teacher engages learners in questioning and challenging assumptions and approaches in order to foster innovation and problem solving in local and global contexts.

5. The teacher develops learners’ communication skills in disciplinary and interdisciplinary contexts by creating meaningful opportunities to employ a variety of forms of communication that address varied audiences and purposes.

6. The teacher engages learners in generating and evaluating new ideas and novel approaches, seeking inventive solutions to problems, and developing original work.

7. The teacher facilitates learners’ ability to develop diverse social and cultural perspectives that expand their understanding of local and global issues and create novel approaches to solving problems.

8. The teacher develops and implements supports for learner literacy development across content areas.

Disposition

1. The teacher is constantly exploring how to use disciplinary knowledge as a lens to address local and global issues.

2. The teacher values knowledge outside his/her own content area and how such knowledge enhances student learning.

3. The teacher values flexible learning environments that encourage learner exploration, discovery, and expression across content areas.
Instructional Practice

Effective instructional practice requires that teachers understand and integrate assessment, planning, and instructional strategies in coordinated and engaging ways. Beginning with their end or goal, teachers first identify student learning objectives and content standards and align assessments to those objectives. Teachers understand how to design, implement and interpret results from a range of formative and summative assessments. This knowledge is integrated into instructional practice so that teachers have access to information that can be used to provide immediate feedback to reinforce student learning and to modify instruction. Planning focuses on using a variety of appropriate and targeted instructional strategies to address diverse ways of learning, to incorporate new technologies to maximize and individualize learning, and to allow learners to take charge of their own learning and do it in creative ways.

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.

Knowledge

1. The teacher understands the differences between formative and summative applications of assessment and knows how and when to use each.

2. The teacher understands the range of types and multiple purposes of assessment and how to design, adapt, or select appropriate assessments to address specific learning goals and individual differences, and to minimize sources of bias.

3. The teacher knows how to analyze assessment data to understand patterns and gaps in learning, to guide planning and instruction, and to provide meaningful feedback to all learners.

4. The teacher knows when and how to engage learners in analyzing their own assessment results and in helping to set goals for their own learning.

5. The teacher understands the positive impact of effective descriptive feedback for learners and knows a variety of strategies for communicating this feedback.

6. The teacher knows when and how to evaluate and report learner progress against standards.

7. The teacher understands how to prepare learners for assessments and how to make accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.
Performance

1. The teacher balances the use of formative and summative assessment as appropriate to support, verify, and document learning.

2. The teacher designs assessments that match learning objectives with assessment methods and minimizes sources of bias that can distort assessment results.

3. The teacher works independently and collaboratively to examine test and other performance data to understand each learner’s progress and to guide planning.

4. The teacher engages learners in understanding and identifying quality work and provides them with effective descriptive feedback to guide their progress toward that work.

5. The teacher engages learners in multiple ways of demonstrating knowledge and skill as part of the assessment process.

6. The teacher models and structures processes that guide learners in examining their own thinking and learning as well as the performance of others.

7. The teacher effectively uses multiple and appropriate types of assessment data to identify each student’s learning needs and to develop differentiated learning experiences.

8. The teacher prepares all learners for the demands of particular assessment formats and makes appropriate accommodations in assessments or testing conditions, especially for learners with disabilities and language learning needs.

9. The teacher continually seeks appropriate ways to employ technology to support assessment practice both to engage learners more fully and to assess and address learner needs.

Disposition

1. The teacher is committed to engaging learners actively in assessment processes and to developing each learner’s capacity to review and communicate about their own progress and learning.

2. The teacher takes responsibility for aligning instruction and assessment with learning goals.
3. The teacher is committed to providing timely and effective descriptive feedback to learners on their progress.

4. The teacher is committed to using multiple types of assessment processes to support, verify, and document learning.

5. The teacher is committed to making accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.

6. The teacher is committed to the ethical use of various assessments and assessment data to identify learner strengths and needs to promote learner growth.

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

1. The teacher understands content and content standards and how these are organized in the curriculum.

2. The teacher understands how integrating cross-disciplinary skills in instruction engages learners purposefully in applying content knowledge.

3. The teacher understands learning theory, human development, cultural diversity, and individual differences and how these impact ongoing planning.

4. The teacher understands the strengths and needs of individual learners and how to plan instruction that is responsive to these strengths and needs.

5. The teacher knows a range of evidence-based instructional strategies, resources, and technological tools and how to use them effectively to plan instruction that meets diverse learning needs.

6. The teacher knows when and how to adjust plans based on assessment information and learner responses.
7. The teacher knows when and how to access resources and collaborate with others to support student learning (e.g., special educators, related service providers, language learner specialists, librarians, media specialists, community organizations).

Performance

1. The teacher individually and collaboratively selects and creates learning experiences that are appropriate for curriculum goals and content standards, and are relevant to learners.

2. The teacher plans how to achieve each student’s learning goals, choosing appropriate strategies and accommodations, resources, and materials to differentiate instruction for individuals and groups of learners.

3. The teacher develops appropriate sequencing of learning experiences and provides multiple ways to demonstrate knowledge and skill.

4. The teacher plans for instruction based on formative and summative assessment data, prior learner knowledge, and learner interest.

5. The teacher plans collaboratively with professionals who have specialized expertise (e.g., special educators, related service providers, language learning specialists, librarians, media specialists) to design and jointly deliver as appropriate learning experiences to meet unique learning needs.

6. The teacher evaluates plans in relation to short- and long-range goals and systematically adjusts plans to meet each student’s learning needs and enhance learning.

Disposition

1. The teacher respects learners’ diverse strengths and needs and is committed to using this information to plan effective instruction.

2. The teacher values planning as a collegial activity that takes into consideration the input of learners, colleagues, families, and the larger community.

3. The teacher takes professional responsibility to use short- and long-term planning as a means of assuring student learning.

4. The teacher believes that plans must always be open to adjustment and revision based on learner needs and changing circumstances.
Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

1. The teacher understands the cognitive processes associated with various kinds of learning (e.g., critical and creative thinking, problem framing and problem solving, invention, memorization and recall) and how these processes can be stimulated.

2. The teacher knows how to apply a range of developmentally, culturally, and linguistically appropriate instructional strategies to achieve learning goals.

3. The teacher knows when and how to use appropriate strategies to differentiate instruction and engage all learners in complex thinking and meaningful tasks.

4. The teacher understands how multiple forms of communication (oral, written, nonverbal, digital, visual) convey ideas, foster self-expression, and build relationships.

5. The teacher knows how to use a wide variety of resources, including human and technological, to engage students in learning.

6. The teacher understands how content and skill development can be supported by media and technology and knows how to evaluate these resources for quality, accuracy, and effectiveness.

Performance

1. The teacher uses appropriate strategies and resources to adapt instruction to the needs of individuals and groups of learners.

2. The teacher continuously monitors student learning, engages learners in assessing their progress, and adjusts instruction in response to student learning needs.

3. The teacher collaborates with learners to design and implement relevant learning experiences, identify their strengths, and access family and community resources to develop their areas of interest.

4. The teacher varies his/her role in the instructional process (e.g., instructor, facilitator, coach, audience) in relation to the content and purposes of instruction and the needs of learners.
5. The teacher provides multiple models and representations of concepts and skills with opportunities for learners to demonstrate their knowledge through a variety of products and performances.

6. The teacher engages all learners in developing higher order questioning skills and metacognitive processes.

7. The teacher engages learners in using a range of learning skills and technology tools to access, interpret, evaluate, and apply information.

8. The teacher uses a variety of instructional strategies to support and expand learners’ communication through speaking, listening, reading, writing, and other modes.

9. The teacher asks questions to stimulate discussion that serves different purposes (e.g., probing for learner understanding, helping learners articulate their ideas and thinking processes, stimulating curiosity, and helping learners to question).

Disposition

1. The teacher is committed to deepening awareness and understanding the strengths and needs of diverse learners when planning and adjusting instruction.

2. The teacher values the variety of ways people communicate and encourages learners to develop and use multiple forms of communication.

3. The teacher is committed to exploring how the use of new and emerging technologies can support and promote student learning.

4. The teacher values flexibility and reciprocity in the teaching process as necessary for adapting instruction to learner responses, ideas, and needs.

Professional Responsibility

Creating and supporting safe, productive learning environments that result in learners achieving at the highest levels is a teacher’s primary responsibility. To do this well, teachers must engage in meaningful and intensive professional learning and self-renewal by regularly examining practice through ongoing study, self-reflection, and collaboration. A cycle of continuous self-improvement is enhanced by leadership, collegial support, and collaboration. Active engagement in professional learning and collaboration results in the discovery and implementation of better practice for the purpose of improved
teaching and learning. Teachers also contribute to improving instructional practices that meet learners’ needs and accomplish their school’s mission and goals. Teachers benefit from and participate in collaboration with learners, families, colleagues, other school professionals, and community members. Teachers demonstrate leadership by modeling ethical behavior, contributing to positive changes in practice, and advancing their profession.

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

1. The teacher understands and knows how to use a variety of self-assessment and problem-solving strategies to analyze and reflect on his/her practice and to plan for adaptations/adjustments.

2. The teacher knows how to use learner data to analyze practice and differentiate instruction accordingly.

3. The teacher understands how personal identity, worldview, and prior experience affect perceptions and expectations, and recognizes how they may bias behaviors and interactions with others.

4. The teacher understands laws related to learners’ rights and teacher responsibilities (e.g., for educational equity, appropriate education for learners with disabilities, confidentiality, privacy, appropriate treatment of learners, reporting in situations related to possible child abuse).

5. The teacher knows how to build and implement a plan for professional growth directly aligned with his/her needs as a growing professional using feedback from teacher evaluations and observations, data on learner performance, and school- and system-wide priorities.
Performance

1. The teacher engages in ongoing learning opportunities to develop knowledge and skills in order to provide all learners with engaging curriculum and learning experiences based on local and state standards.

2. The teacher engages in meaningful and appropriate professional learning experiences aligned with his/her own needs and the needs of the learners, school, and system.

3. Independently and in collaboration with colleagues, the teacher uses a variety of data (e.g., systematic observation, information about learners, research) to evaluate the outcomes of teaching and learning and to adapt planning and practice.

4. The teacher actively seeks professional, community, and technological resources, within and outside the school, as supports for analysis, reflection, and problem-solving.

5. The teacher reflects on his/her personal biases and accesses resources to deepen his/her own understanding of cultural, ethnic, gender, and learning differences to build stronger relationships and create more relevant learning experiences.

6. The teacher advocates, models, and teaches safe, legal, and ethical use of information and technology including appropriate documentation of sources and respect for others in the use of social media.

Disposition

1. The teacher takes responsibility for student learning and uses ongoing analysis and reflection to improve planning and practice.

2. The teacher is committed to deepening understanding of his/her own frames of reference (e.g., culture, gender, language, abilities, ways of knowing), the potential biases in these frames, and their impact on expectations for and relationships with learners and their families.

3. The teacher sees him/herself as a learner, continuously seeking opportunities to draw upon current education policy and research as sources of analysis and reflection to improve practice.

4. The teacher understands the expectations of the profession including codes of ethics, professional standards of practice, and relevant law and policy.
Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

1. The teacher understands schools as organizations within a historical, cultural, political, and social context and knows how to work with others across the system to support learners.

2. The teacher understands that alignment of family, school, and community spheres of influence enhances student learning and that discontinuity in these spheres of influence interferes with learning.

3. The teacher knows how to work with other adults and has developed skills in collaborative interaction appropriate for both face-to-face and virtual contexts.

4. The teacher knows how to contribute to a common culture that supports high expectations for student learning.

Performance

1. The teacher takes an active role on the instructional team, giving and receiving feedback on practice, examining learner work, analyzing data from multiple sources, and sharing responsibility for decision making and accountability for each student’s learning.

2. The teacher works with other school professionals to plan and jointly facilitate learning on how to meet diverse needs of learners.

3. The teacher engages collaboratively in the schoolwide effort to build a shared vision and supportive culture, identify common goals, and monitor and evaluate progress toward those goals.

4. The teacher works collaboratively with learners and their families to establish mutual expectations and ongoing communication to support learner development and achievement.

5. Working with school colleagues, the teacher builds ongoing connections with community resources to enhance student learning and wellbeing.

6. The teacher engages in professional learning, contributes to the knowledge and skill of others, and works collaboratively to advance professional practice.
7. The teacher uses technological tools and a variety of communication strategies to build local and global learning communities that engage learners, families, and colleagues.

8. The teacher uses and generates meaningful research on education issues and policies.

9. The teacher seeks appropriate opportunities to model effective practice for colleagues, to lead professional learning activities, and to serve in other leadership roles.

10. The teacher advocates to meet the needs of learners, to strengthen the learning environment, and to enact system change.

11. The teacher takes on leadership roles at the school, district, state, and/or national level and advocates for learners, the school, the community, and the profession.

Disposition

1. The teacher actively shares responsibility for shaping and supporting the mission of his/her school as one of advocacy for learners and accountability for their success.

   The teacher respects families’ beliefs, norms, and expectations and seeks to work

2. collaboratively with learners and families in setting and meeting challenging goals.

3. The teacher takes initiative to grow and develop with colleagues through interactions that enhance practice and support student learning.

4. The teacher takes responsibility for contributing to and advancing the profession.

5. The teacher embraces the challenge of continuous improvement and change.
Standards for Bilingual Education and
ENL (English as a New Language) Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Bilingual-ENL Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands the evolution, research, and current federal and state legal mandates of bilingual and ENL education.

2. The teacher understands and knows how to identify differences and the implications for implementation in bilingual and ENL approaches and models.

3. The teacher understands and is able to distinguish between forms, functions, and contextual usage of social and academic language.
4. (Bilingual only) The teacher possesses language proficiency at the advanced level as defined in the ACTFL Proficiency Guidelines in listening, speaking, reading and writing in English and the second target language necessary to facilitate learning in the content area(s) (Federal Requirement).

5. (ENL only) The teacher possesses the language proficiency at the advanced level as defined in the ACTFL Proficiency Guidelines in listening, speaking, reading, and writing, in English necessary to facilitate learning of academic language in the content area(s) (Federal Requirement).

6. (Bilingual only) The teacher understands the articulatory system, various registers, dialects, linguistic structures, vocabulary, and idioms of both English and the second target language.

7. (ENL only) The teacher understands the articulatory system, various registers, dialects, linguistic structures, vocabulary, and idioms of the English language.

Performance

1. (Bilingual only) The teacher is articulate in key linguistic structures and exposes students to the various registers, dialects, and idioms of English and the second target language.

2. (ENL only) The teacher is articulate in key linguistic structures and exposes students to the various registers, dialects, and idioms of the English language.

3. The teacher uses knowledge of language and content standards and language acquisition theory content areas to establish goals, design curricula and instruction, and facilitate student learning in a manner that builds on students’ linguistic and cultural diversity.

4. The teacher demonstrates instructional strategies that an understanding of the variety of purposes that languages serve, distinguish between forms, functions, and contextual usage of social and academic language.

5. The teacher designs and implements activities that promote inter-cultural exploration, engaged observation, listening, speaking, reading, and writing.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.
Knowledge

1. The teacher understands the processes of language acquisition and development, and the role that culture plays in students’ educational experiences.

2. The teacher understands the advantages of bilingualism, biliteracy, and multiculturalism.

Performance

1. The teacher plans and delivers instruction using knowledge of the role of language and culture in intellectual, social, and personal development.

2. The teacher integrates language and content instruction appropriate to the students’ stages of language acquisition.

3. The teacher facilitates students’ use of their primary language as a resource to promote academic learning and further development of the second language.

4. The teacher uses effective strategies and approaches that promote bilingualism, biliteracy, and multiculturalism.

**Standard 3: Modifying Instruction for Individual Needs** - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.

Knowledge

1. The teacher understands the nuances of culture in structuring academic experiences.

2. The teacher understands how a student’s first language may influence second language production (ex: accent, code-switching, inflectional endings).

3. The teacher understands there is a distinction between learning disabilities/giftedness and second language development.

4. The teacher understands how and when to provide appropriate accommodations that allow students to access academic content.
Performance

1. The teacher promotes respect for diverse cultures by facilitating open discussion, treating all students equitably, and addressing individual student needs.

2. The teacher utilizes strategies that advance accuracy in students’ language production and socioculturally appropriate usage with an understanding of how these are influenced by the first language.

3. The teacher collaborates with other area specialists to distinguish between issues of learning disabilities/giftedness and second language development.

4. The teacher provides appropriate accommodations that allow students to access academic content.

**Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.**

Knowledge

1. The teacher knows how to adapt lessons, textbooks, and other instructional materials, to be culturally and linguistically appropriate to facilitate linguistic and academic growth of language learners.

2. The teacher has a repertoire of effective strategies that promote students’ critical thinking and problem solving at all stages of language development.

Performance

1. The teacher selects, adapts, creates and uses varied culturally and linguistically appropriate resources related to content areas and second language development.

2. The teacher employs a repertoire of effective strategies that promote students’ critical thinking and problem solving at all stages of language development.

**Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.**

Knowledge

1. The teacher understands the influence of culture on student motivation and classroom management.
Performance

1. The teacher demonstrates a culturally responsive approach to classroom management.

*Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.*

Knowledge

1. The teacher understands that language is a system that uses listening, speaking, reading, and writing for social and academic purposes.

2. The teacher understands how to design active and interactive activities that promote proficiency in the four domains of language.

3. The teacher understands the extent of time and effort required for language acquisition.

Performance

1. The teacher demonstrates competence in facilitating students’ acquisition and use of language in listening, speaking, reading, and writing for social and academic purposes.

2. The teacher uses active and interactive activities that promote proficiency in the four domains of language.

3. The teacher communicates to students, their families, and stakeholders the extent of time and effort required for language acquisition.

*Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.*
Knowledge

1. The teacher understands how to incorporate students’ diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.

Performance

1. The teacher creates and delivers lessons that incorporate students’ diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Knowledge

1. The teacher understands variations in assessment of student progress that may be related to cultural and linguistic differences.

2. (Bilingual only) The teacher understands how to measure students’ level of English language proficiency and second target language proficiency.

3. (ENL only) The teacher understands how to measure the level of English language proficiency.

4. The teacher understands the relationship and difference between levels of language proficiency and students’ academic achievement.

5. The teacher is familiar with the state English language proficiency assessment.

6. The teacher knows how to interpret data and explain the results of standardized assessments to students with limited English proficiency, the students’ families, and to colleagues.

7. The teacher understands appropriate accommodations for language learners being tested in the content areas.

8. The teacher understands how to use data to make informed decisions about program effectiveness.
Performance

1. The teacher selects and administers assessments suited to the students’ culture, literacy and communication skills.

2. The teacher uses a combination of observation and other assessments to make decisions about appropriate program services for language learners.

3. The teacher uses a combination of assessments that measure language proficiency and content knowledge respectively to determine how level of language proficiency may affect the demonstration of academic performance.

4. The teacher uses appropriate accommodations for language learners being tested in the content areas.

5. The teacher uses data to make informed decisions about program effectiveness.

*Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*

Knowledge

1. The teacher understands the necessity of maintaining an advanced level of proficiency, according to the ACTFL guidelines, in the language(s) used for instruction.

Performance

1. The teacher maintains an advanced level of proficiency, according to the ACTFL guidelines, in the language(s) used for instruction.

*Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.*

Knowledge

1. The teacher understands the benefits of family and community involvement in students’ linguistic, academic, and social development.

2. The teacher understands the necessity of collegiality and collaboration to promote opportunities for language learners.

Performance

1. The teacher creates family and community partnerships that promote students’ linguistic, academic, and social development.

2. The teacher collaborates with colleagues to promote opportunities for language learners.
3. The teacher assists other educators and students in promoting cultural respect and validation of students’ and families’ diverse backgrounds and experiences.
GLOSSARY OF TERMS

ACTFL Proficiency Guidelines
A nationally developed and agreed upon set of descriptions of what individuals can do with language in terms of speaking, writing, listening, and reading in real-world situations in a spontaneous and non-rehearsed context. For each skill, these guidelines identify five major levels of proficiency: Distinguished, Superior, Advanced, Intermediate, and Novice. The major levels Advanced, Intermediate, and Novice are subdivided into High, Mid, and Low sublevels. The levels of the ACTFL Guidelines describe the continuum of proficiency from that of the highly articulate, well-educated language user to a level of little or no functional ability. These Guidelines present the levels of proficiency as ranges, and describe what an individual can and cannot do with language at each level, regardless of where, when, or how the language was acquired. http://www.actfl.org/files/public/ACTFLProficiencyGuidelines2012_FINAL.pdf

American Council of Teachers of Foreign Languages (ACTFL)
An organization for world language professionals of K-12 and higher education

Articulatory System
The mechanism by which the sounds of a language are produced.

Bilingual Education Program
An educational approach that uses two languages to promote academic success, bilingualism, biliteracy, and multiculturalism

Biliteracy
The ability to read and write in two languages

Code-switching
A change by a speaker or writer from one language or variety of language to another at the word, phrase, clause, or sentence level (TESOL, 2010)

English as a New Language (ENL)
Refers to the teaching of English to speakers of other languages

Inflectional Endings
Grammatical markers or suffixes used in standard conventional language production
STATE DEPARTMENT OF EDUCATION
AUGUST 14, 2014

Primary Language
An individual’s most developed language.

Register
The usage of language in a particular social context

Idaho Foundation Standards for Communication Arts Teachers

In addition to the standards listed here, communication arts teachers must meet Idaho Core Teacher Standards and one of the following: (1) Idaho Standards for Journalism Teachers or (2) Idaho Standards for Speech and Debate Teachers.

The following knowledge and performance statements for the Communication Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assured attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.

Knowledge
1. The teacher understands how values and ethics affect communication.

2. The teacher understands the importance of audience analysis and adaptation in differing communication contexts.

3. The teacher knows the components and processes of communication.

4. The teacher understands the interactive roles of perceptions and meaning.

5. The teacher understands how symbolism and language affect communication.
6. The teacher understands the role of organization in presenting concepts, ideas, and arguments.

7. The teacher knows methods and steps of problem solving in communication arts.

**Performance**

1. The teacher emphasizes to students the importance of values and ethics relevant to the communication process (e.g., speeches, interpersonal interactions, journalistic writing, and debate).

2. The teacher provides instruction and practice in conducting and applying research.

3. The teacher creates lessons that stress the importance of audience analysis and adaptation.

4. The teacher presents communication as a process consisting of integral components.

5. The teacher explains various methods of organization and their effects on the communication process.

*Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*

*Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.*

*Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.*

*Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*

*Standard 6: Communication Skills - The teacher uses a variety of communication techniques including verbal, nonverbal, and media to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.*
Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well being.
Idaho Standards for Journalism Teachers

In addition to the standards listed here, journalism teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Communication Arts Teachers.

The following knowledge and performance statements for the journalism teacher standard are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assured attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim

**Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.**

Knowledge

1. The teacher comprehends the fundamentals of journalistic style (e.g., news, feature, and editorial writing).

2. The teacher understands the elements of design and layout.

3. The teacher understands the purposes and elements of photojournalism (e.g., composition and processing).

4. The teacher understands the purposes, types, and rules of headline and caption writing.

5. The teacher possesses knowledge of interviewing skills.
6. The teacher knows how to organize and equip a production area.

7. The teacher knows how to organize and supervise a student staff (e.g., editors, writers, photographers, and business personnel).

8. The teacher knows how to adapt journalistic techniques to various media (e.g., radio, television, and the Internet).

9. The teacher understands advertising and finance.

10. The teacher knows the fundamentals of editing.

11. The teacher understands processes of effective critiquing.

12. The teacher understands journalistic law.

**Performance**

1. The teacher instructs students in the fundamentals of journalistic style.

2. The teacher presents and requires students to apply the techniques of design and layout.

3. The teacher integrates the purposes and elements of photojournalism into the production process.

4. The teacher instructs students in the purposes, types, and rules of headline and caption writing.

5. The teacher provides opportunities for students to practice and use interviewing skills.

6. The teacher teaches editing skills and provides opportunities for student practice.

7. The teacher provides opportunities for students to critique and evaluate student and professional work.
Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques including verbal, nonverbal, and media to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well being.
Idaho Standards for Speech and Debate Teachers

In addition to the standards listed here, speech and debate teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Communication Arts Teachers.

The following knowledge and performance statements for the speech and debate teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assured attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim

**Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.**

**Knowledge**

1. The teacher understands the models of interpersonal communication.

2. The teacher knows the processes of hearing and listening.

3. The teacher knows the nature of conflict and conflict resolution strategies in the speech process.

4. The teacher knows the dynamics of group communication (e.g., roles, functions, systems, developmental stages, and problem solving).

5. The teacher understands rhetorical theories and practices.
6. The teacher understands types of public speaking (e.g., informative, persuasive, and ceremonial).

7. The teacher understands the steps of speech preparation, rehearsal, presentation, and constructive feedback.

8. The teacher understands the necessity of adapting public speaking styles and skills to various media.

9. The teacher understands the principles of competitive debate theory (e.g., categories and styles of debate).

10. The teacher knows the theories and practices of argumentation.

11. The teacher knows the precepts of logical reasoning (e.g., syllogistic, categorical, disjunctive, and fallacies).

12. The teacher knows the various types of competitive speaking events (e.g., impromptu, extemporaneous, oratory, and debate).

13. The teacher knows how to identify and minimize communication anxiety.

**Performance**

1. The teacher instructs in the process of effective interpersonal communication (e.g., effective listening, components of verbal and nonverbal communication, and conflict resolution).

2. The teacher explains the components and dynamics of group communication and provides opportunities for student implementation.

3. The teacher provides opportunities for students to prepare, practice, and present various types of speeches.

4. The teacher provides instruction in presenting for various media.
5. The teacher instructs in the theory, principles, and practices of debate (e.g., argumentation, logical reasoning, and competitive speaking).

6. The teacher provides opportunities for students to participate in debate and speaking events.

7. The teacher explains various methods of organization and their effects on the communication process.

8. The teacher provides strategies for minimizing communication anxiety.

**Standard 2: Knowledge of Human Development and Learning -** The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

**Standard 3: Modifying Instruction for Individual Needs -** The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.

**Standard 4: Multiple Instructional Strategies -** The teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.

**Standard 5: Classroom Motivation and Management Skills -** The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

**Standard 6: Communication Skills -** The teacher uses a variety of communication techniques including verbal, nonverbal, and media to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.

**Standard 7: Instructional Planning Skills -** The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

**Standard 8: Assessment of Student Learning -** The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.
Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well being.
Idaho Standards for Blended Early Childhood Education/
Early Childhood Special Education Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Early Childhood Blended Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The characteristics of development and learning of young children are integrally linked and different from those of older children and adults. Thus, programs serving young children should be structured to support those unique developmental and learning characteristics. The early childhood educator will extend, adapt, and apply knowledge gained in the professional education core for the benefit of children from birth through grade three.

* This language was written by a committee of content experts and has been adopted verbatim

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.

Knowledge

1. The educator knows how young children integrate domains of development (language, cognition, social-emotional, physical, and self-help) as well as traditional content areas of learning (e.g., literacy, mathematics, science, health, safety, nutrition, social studies, art, music, drama, and movement).

2. The educator understands theories, history, and models that provide the basis for early childhood education and early childhood special education practices as identified in NAEYC Licensure and DEC Personnel Standards.
3. The educator understands the process of self-regulation that assists young children to identify and cope with emotions.

4. The educator understands language acquisition processes in order to support emergent literacy, including pre-linguistic communication and language development.

5. The educator understands the elements of play and how play assists children in learning.

6. The educator understands nutrition and feeding relationships so children develop essential and healthy eating habits.

7. The educator understands that young children are constructing a sense of self, expressing wants and needs, and understanding social interactions that enable them to be involved in friendships, cooperation, and effective conflict resolutions.

8. The educator understands the acquisition of self-help skills that facilitate the child’s growing independence (e.g., toileting, dressing, grooming, hygiene, eating, and sleeping).

9. The educator understands the comprehensive nature of children’s well being in order to create opportunities for developing and practicing skills that contribute to healthful living and enhanced quality of life.

Performance

1. The educator demonstrates the application of theories and educational models in early childhood education and special education practices.

2. The educator applies fundamental knowledge of English language arts, science, mathematics, social studies, the arts, health, safety, nutrition, and physical education for children from birth through age 2, ages 3-5, and grades K-3.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.
Knowledge

1. The educator knows that family systems are inextricably tied to child development.

2. The educator understands the typical and atypical development of infants’ and young children’s attachments and relationships with primary caregivers.

3. The educator understands how learning occurs and that young children’s development influences learning and instructional decisions.

4. The educator understands pre-, peri-, and postnatal development and factors, such as biological and environment conditions that affect children’s development and learning.

5. The educator understands the developmental consequences of stress and trauma, protective factors and resilience, the development of mental health, and the importance of supportive relationships.

Performance

1. The educator identifies pre-, peri-, and postnatal development and factors, such as biological and environment conditions that affect children’s development and learning.

2. The educator addresses the developmental consequences of stress and trauma, protective factors and resilience, the development of mental health, and the importance of supportive relationships.

Standard 3: Adapting Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Knowledge

1. The educator knows aspects of medical care for premature development, low birth weight, young children who are medically fragile, and children with special health care needs, and knows the concerns and priorities associated with these medical conditions as well as their implications on child development and family resources.

2. The educator understands variations of beliefs, traditions, and values regarding disability across cultures and the effect of these on the relationships among the child, family, and their environments.
3. The educator knows the characteristics of typical and atypical development and their educational implications and effects on participation in educational and community environments.

4. The educator knows how to access information regarding specific children’s needs and disability-related issues (e.g., medical, support, and service delivery).

Performance
1. The educator locates, uses, and shares information about the methods for the care of young children who are medically fragile and children with special health care needs, including the effects of technology and various medications on the educational, cognitive, physical, social, and emotional behavior of children with disabilities.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Knowledge
1. The educator knows the characteristics of physical environments that must vary to support the learning of children from birth through age 2, ages 3-5, and grades K-3 (e.g., schedule, routines, and transitions).

Performance
1. The educator uses developmentally appropriate methods to help young children develop intellectual curiosity, solve problems, and make decisions (e.g., child choice, play, small group projects, open-ended questioning, group discussion, problem solving, cooperative learning, and inquiry and reflection experiences).

2. The educator uses instructional strategies that support both child-initiated and adult-directed activities.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Knowledge
1. The educator understands the importance of routines as a teaching strategy.

2. The educator knows that physically and psychologically safe and healthy learning environments promote security, trust, attachment, and mastery motivation in young children.
3. The educator understands applicable laws, rules, regulations, and procedural safeguards regarding behavior management planning and plan implementation for children with disabilities.

4. The educator understands applied behavioral analysis and ethical considerations inherent in behavior management.

5. The educator understands crisis prevention and intervention practices.

6. The educator knows a variety of strategies and environmental designs that facilitate a positive social and behavioral climate.

**Performance**

1. The educator promotes opportunities for young children in natural and inclusive settings.

2. The educator embeds learning objectives within everyday routines and activities.

3. The educator creates an accessible learning environment, including the use of assistive technology.

4. The educator provides training and supervision for the classroom paraprofessional, aide, volunteer, and peer tutor.

5. The educator creates an environment that encourages self-advocacy and increased independence.

6. The educator implements the least intrusive and intensive intervention consistent with the needs of children.

7. The educator conducts functional behavior assessments and develops positive behavior supports.

*Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.*
Performance

1. The educator adjusts language and communication strategies for the developmental age and stage of the child.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Knowledge

1. The educator understands theory and research that reflect currently recommended professional practice for working with families and children (from birth through age 2, ages 3-5, and grades K-3).

Performance

1. The educator designs meaningful play experiences and integrated learning opportunities for development of young children.

2. The educator assists families in identifying their resources, priorities, and concerns in relation to their children’s development and provides information about a range of family-oriented services based on identified resources, priorities, and concerns through the use of the Individualized Education Programs (IEP).

3. The educator supports transitions for young children and their families (e.g., hospital, home, Infant/Toddler programs, Head Start, Early Head Start, childcare programs, preschool, and primary programs).

4. The educator analyzes activities and tasks and uses procedures for determining and monitoring children’s skill levels and progress.

5. The educator evaluates and links children’s skill development to that of same age peers.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Knowledge

1. The educator understands the legal provisions, regulations, guidelines, and ethical concerns regarding assessment of children.
2. The educator knows that developmentally appropriate assessment procedures reflect children’s behavior over time and rely on regular and periodic observations and record keeping of children’s everyday activities and performance.

3. The educator knows the instruments and procedures used to assess children for screening, pre-referral interventions, referral, and eligibility determination for special education services or early intervention services for birth to three years.

4. The educator knows the ethical issues and identification procedures for children with disabilities, including children from culturally and linguistically diverse backgrounds.

**Performance**

1. The educator assesses all developmental domains (e.g., social-emotional, fine and gross motor, cognition, communication, and self-help).

2. The educator implements services consistent with procedural safeguards in order to protect the rights and ensure the participation of families and children.

3. The educator collaborates with families and professionals involved in the assessment of children.

4. The educator conducts an ecological assessment and uses the information to modify various settings as needed and to integrate the children into those setting.

**Standard 9: Professional Commitment and Responsibility** - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

**Knowledge**

1. The educator understands NAEYC Licensure and DEC Personnel Standards.

**Performance**

1. The educator practices behavior congruent with NAEYC Licensure and DEC Personnel Standards.
**Standard 10: Partnerships** - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

**Knowledge**

1. The educator knows the National Association for the Education of Young Children (NAEYC) and the Division for Early Childhood (DEC) Code of Ethics.

2. The educator knows family systems theory and its application to the dynamics, roles, and relationships within families and communities.

3. The educator knows community, state, and national resources available for young children and their families.

4. The educator understands the role and function of the service coordinator and related service professionals in assisting families of young children.

5. The educator knows basic principles of administration, organization, and operation of early childhood programs (e.g., supervision of staff and volunteers, and program evaluation).

6. The educator knows the rights and responsibilities of parents/guardians, students, teachers, professionals, and programs as they relate to children with disabilities.

7. The educator understands how to effectively communicate and collaborate with children, parents/guardians, colleagues, and the community in a culturally responsive manner.

**Performance**

1. The educator practices behavior congruent with the NAEYC Code of Ethics and the Division for Early Childhood Code of Ethics.

2. The educator demonstrates skills in communicating, consulting and partnering with families and diverse service delivery providers (e.g., home services, childcare programs, school, and community) to support the child’s development and learning.

3. The educator identifies and accesses community, state, and national resources for young children and families.
4. The educator advocates for young children and their families.

5. The educator creates a manageable system to maintain all program and legal records for children.

6. The educator encourages and assists families to become active participants in the educational team, including setting instructional goals for and charting progress of children.

7. The educator demonstrates respect, honesty, caring, and responsibility in order to promote and nurture an environment that fosters these qualities.
Idaho Standards for Elementary Education Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Elementary Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands concepts of language arts and child development in order to teach reading, writing, speaking, viewing, listening, and thinking skills and to help students successfully apply their developing skills to many different situations, materials, and ideas.

2. The teacher understands the importance of providing a purpose and context to use the communication skills taught across the curriculum.

3. The teacher understands how children learn language, the basic sound structure of language, semantics and syntactics, diagnostic tools, and test data to improve student reading ability.
4. The teacher understands the fundamental concepts and the need to integrate STEM disciplines including physical, life, and earth and space Sciences, Technology, Engineering, and Mathematics as well as the applications of STEM disciplines to technology, personal and social perspectives, history, unifying concepts, and inquiry processes used in the discovery of new knowledge.

5. The teacher understands major concepts, procedures, and reasoning processes of mathematics that define number systems and number sense, computation, geometry, measurement, statistics and probability, and algebra in order to foster student understanding and use of patterns, quantities, and spatial relationships that represent phenomena, solve problems, and manage data. The teacher understands the relationship between inquiry and the development of mathematical thinking and reasoning.

6. The teacher knows the major concepts and modes of inquiry for social studies: the integrated study of history, geography, government/civics, economics, social/cultural and other related areas to develop students’ abilities to make informed decisions as global citizens of a culturally diverse, democratic society and interdependent world.

7. The teacher understands the content, functions, aesthetics, and achievements of the arts, such as dance, music, theater, and visual arts as avenues for communication, inquiry, and insight.

8. The teacher understands the comprehensive nature of students’ physical, intellectual, social, and emotional well-being in order to create opportunities for developing and practicing skills that contribute to overall wellness.

9. The teacher understands human movement and physical activities as central elements for active, healthy lifestyles and enhanced quality of life.

10. The teacher understands connections across curricula and within a discipline among concepts, procedures, and applications. Further, the teacher understands its use in motivating students, building understanding, and encouraging application of knowledge, skills, and ideas to real life issues and future career applications.

11. The teacher understands the individual and interpersonal values of respect, caring, integrity, and responsibility that enable students to effectively and appropriately communicate and interact with peers and adults.

**Performance**

1. The teacher models the appropriate and accurate use of language arts.
2. The teacher demonstrates competence in language arts, reading, STEM disciplines, social studies, the arts, health education, and physical education. Through inquiry the teacher facilitates thinking and reasoning.

3. The teacher provides a purpose and context to use the communication skills taught. The teacher integrates these communication skills across the curriculum.

4. The teacher conceptualizes, develops, and implements a balanced curriculum that includes language arts, reading, STEM disciplines, social studies, the arts, health education, and physical education.

5. Using his/her integrated knowledge of the curricula, the teacher motivates students, builds understanding, and encourages application of knowledge, skills, and ideas to real life issues, democratic citizenship, and future career applications.

6. The teacher models respect, integrity, caring, and responsibility in order to promote and nurture a school environment that fosters these qualities.

**Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.**

**Knowledge**

1. The teacher understands that young children’s and early adolescents’ literacy and language development influence learning and instructional decisions.

2. The teacher understands the cognitive processes of attention, memory, sensory processing, and reasoning, and recognizes the role of inquiry and exploration in developing these abilities.

**Performance**

1. The teacher designs instruction and provides opportunities for students to learn through inquiry and exploration.

**Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.**
Knowledge

1. The teacher understands the necessity of appropriately and effectively collaborating with grade level peers, school intervention teams, parents/guardians, and community partners to meet differentiated needs of all learners.

2. The teacher understands that there are multiple levels of intervention and recognizes the advantages of beginning with the least intrusive.

Performance

1. The teacher appropriately and effectively collaborates with grade level peers, school intervention teams, parents/guardians, and community partners to meet differentiated needs of all learners.

2. The teacher systematically progresses through the multiple levels of intervention, beginning with the least intrusive.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher understands the importance of teaching and re-teaching classroom expectations.

2. The teacher recognizes the importance of positive behavioral supports and the need to use multiple levels of intervention to support and develop appropriate behavior.

Performance

1. The teacher consistently models and teaches classroom expectations.

2. The teacher utilizes positive behavioral supports and multiple levels of intervention to support and develop appropriate behavior.
Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Principle 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Standards for English Language Arts Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the English Language Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* These standards were aligned to the 2011 InTASC Model Core Teaching Standards and the 2012 NCTE/NCATE Standards for Initial Preparation of Teachers of Secondary English Language Arts. The language was written by a committee of content experts and has been adopted verbatim.

The Learner and Learning

Standard #1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Performance

1. Candidates demonstrate knowledge of developmental levels in reading, writing, listening, viewing, and speaking and plan for developmental stages and diverse ways of learning.

2. Candidates demonstrate knowledge about how adolescents read and make meaning of a wide range of texts (e.g. literature, poetry, informational text, and digital media).

3. Candidates demonstrate knowledge about how adolescents compose texts in a wide range of genres and formats including digital media.
Standard #2: Learning Difference - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Performance

1. Candidates demonstrate knowledge of theories and research needed to plan and implement instruction responsive to students’ local, national and international histories, individual identities (e.g., race, ethnicity, gender expression, age, appearance, ability, spiritual belief, sexual orientation, socioeconomic status, and community environment), and languages/dialects as they affect students’ opportunities to learn in ELA.

2. Candidates design and/or implement instruction that incorporates students’ linguistic and cultural backgrounds to enable skillful control over their rhetorical choices and language practices for a variety of audiences and purposes.

Standard #3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Performance

1. Candidates use various types of data about their students’ individual differences, identities, and funds of knowledge for literacy learning to create inclusive learning environments that contextualize curriculum and instruction and help students participate actively in their own learning in ELA (e.g. workshops, project based learning, guided writing, Socratic seminars, literature circles etc.).

Content Knowledge

Standard #4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Performance

1. Candidates demonstrate knowledge and use print and non-print texts, media texts, classic texts and contemporary texts, including young adult—that represent a range of world literatures, historical traditions, genres, and the experiences of different genders, ethnicities, and social classes; they are able to use literary theories to interpret and critique a range of texts.

2. Candidates demonstrate knowledge and use the conventions of English language as they relate to various rhetorical situations (grammar, usage, and mechanics); they apply the concept of dialect
and relevant grammar systems (e.g., descriptive and prescriptive); they facilitate principles of
language acquisition; they connect the influence of English language history on ELA content and
its impact of language on society.

3. Candidates demonstrate knowledge and compose a range of formal and informal texts, taking into
consideration the interrelationships among form, audience, context, and purpose; candidates
understand that writing involves strategic and recursive processes across multiple stages (e.g.
planning, drafting, revising, editing, and publishing); candidates use contemporary technologies
and/or digital media to compose multimodal discourse.

4. Candidates demonstrate knowledge and use strategies for acquiring and applying vocabulary
knowledge to general academic and domain specific words as well as unknown terms important to
comprehension (reading and listening) or expression (speaking and writing).

**Standard #5: Application of Content - The teacher understands how to connect concepts and use
differing perspectives to engage learners in critical thinking, creativity, and collaborative problem
solving related to authentic local and global issues.**

**Performance**

1. Candidates design and/or implement instruction related to the strategic use of language conventions
(grammar, usage, and mechanics) in the context of students’ writing for different audiences, purposes,
and modalities.

2. Candidates design and/or implement English language arts and literacy instruction that promotes
social justice and critical engagement with complex issues related to maintaining a diverse, inclusive,
equitable society.

3. Candidates design and/or implement instruction related to a breadth and depth of texts, purposes, and
complexities (e.g., literature, digital, visual, informative, argument, narrative, poetic) that lead to
students becoming independent, critical, and strategic readers, writers, speakers, and listeners.

4. Candidates design and/or implement instruction related to speaking and listening that lead to students
becoming critical and active participants in conversations and collaborations.

**Instructional Practice**

**Standard #6: Assessment - The teacher understands and uses multiple methods of assessment to engage
learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's
decision making.**
Performance

1. Candidates design a range of authentic assessments (e.g., formal and informal, formative and summative) of reading and literature that demonstrate an understanding of how learners develop and that address interpretive, critical, and evaluative abilities in reading, writing, speaking, listening, viewing, and presenting.

2. Candidates design or knowledgeably select appropriate reading assessments in response to student interests, reading proficiencies, and/or reading strategies.

3. Candidates design or knowledgeably select a range of assessments for students that promote their development as writers, are appropriate to the writing task, and are consistent with current research and theory. Candidates respond to students’ writing throughout the students’ writing processes in ways that engage students’ ideas and encourage their growth as writers over time.

4. Candidates differentiate instruction based on multiple kinds of assessments of learning in English language arts (e.g., students’ self-assessments, formal assessments, informal assessments); candidates communicate with students about their performance in ways that actively involve students in their own learning.

Standard #7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Performance

1. Candidates plan instruction which, when appropriate, reflects curriculum integration and incorporates interdisciplinary teaching methods and materials which includes reading, writing, speaking, listening, and language.

2. Candidates plan standards-based, coherent and relevant learning experiences in reading that reflect knowledge of current theory and research about the teaching and learning of reading and that utilize individual and collaborative approaches and a variety of reading strategies.

3. Candidates use their knowledge of theory, research, and practice in English Language Arts to plan standards-based, coherent and relevant composing experiences that utilize individual and collaborative approaches and contemporary technologies and reflect an understanding of writing processes and strategies in different genres for a variety of purposes and audiences.

4. Candidates use their knowledge of theory, research, and practice in English Language Arts to plan standards-based, coherent and relevant learning experiences utilizing a range of different texts—across genres, periods, forms, authors, cultures, and various forms of media—and instructional strategies that are motivating and accessible to all students, including English language learners, students with special needs, students from diverse language and learning backgrounds, those designated as high achieving, and those at risk of failure.
Standard #8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Performance

1. Candidates plan and implement instruction based on ELA curricular requirements and standards, school and community contexts by selecting, creating, and using a variety of instructional strategies and resources specific to effective literacy instruction, including contemporary technologies and digital media, and knowledge about students’ linguistic and cultural backgrounds.

Professional Responsibility

Standard #9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Performance

1. Candidates model literate and ethical practices in ELA teaching, and engage in a variety of experiences related to ELA and reflect on their own professional practices.

Standard #10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Performance

1. Candidates engage in and reflect on a variety of experiences related to ELA that demonstrate understanding of and readiness for leadership, collaboration, ongoing professional development, and community engagement.
Idaho Standards for Gifted and Talented Education Professionals

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Gifted and Talented Education Professional Standards are widely recognized, but not all-encompassing or absolute indicators that candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

The Idaho Standards for Gifted and Talented Education Professionals incorporate the National Association for Gifted Children (NAGC) and the Council for Exceptional Children (CEC) Gifted Educator Preparation Standards (2014).

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, his/her content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts in 2013, and has been adopted verbatim.

**Standard #1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.**

Knowledge

1. Beginning gifted education professionals understand the variations in learning and development between and among individuals with exceptionalities.

2. Beginning gifted education professionals understand the social and emotional issues of individuals with gifts and talents (e.g., perfectionism, underachievement, risk taking, and asynchronous development).
3. Beginning gifted education professionals understand the theories related to the highly sensitive nature of individuals with gifts and talents.

4. Beginning gifted education professionals understand the moral and ethical challenges of individuals with gifts and talents.

5. Beginning gifted education professionals understand the need for appropriate social and emotional counseling of individuals with gifts and talents.

6. Beginning gifted education professionals understand the common misconceptions, myths and stereotypes about individuals with gifts and talents.

Performance

1. Beginning gifted education professionals demonstrate their knowledge of variations in learning and development between and among individuals with gifts and talents by creating meaningful and challenging learning experiences.

2. Beginning gifted education professionals identify, evaluate, develop, and implement strategies and resources to address the social and emotional needs of individuals with gifts and talents.

3. Beginning gifted education professionals engage students in learning opportunities that develop moral and ethical dispositions.

4. Beginning gifted education professionals advocate for individuals with gifts and talents by debunking common misconceptions, myths and stereotypes associated with giftedness.

Supporting Explanation for Standard #1:

From its roots, gifted educators have placed the learning needs of the individual at the center of gifted education instruction. Gifted educators have altered instructional variables to optimize learning for individuals with gifts and talents. Development of expertise begins with a thorough understanding of and respect for similarities and differences in all areas of human growth and development. Like all educators, beginning gifted educators first respect individuals with gifts and talents within the context of human development and Individual learning differences. Not only do beginning gifted educators understand advanced developmental milestones of individuals with gifts and talents from early childhood through adolescence, but they also understand how exceptionalities can interact with development and learning, and modify developmentally appropriate learning environments to provide relevant, meaningful, and challenging learning experiences for individuals with gifts and talents.

Standard #2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.
Knowledge

1. Beginning gifted education professionals understand how language, culture, economic status, family background, age, gender, learning disabilities, and other disabilities can influence the learning of individuals with gifts and talents.

Performance

1. Beginning gifted education professionals identify and provide appropriate differentiated curriculum that targets individual students’ needs with respect to an individual’s high performing capabilities in intellectual, creative, specific academic, leadership areas, or ability in the performing or visual arts.

2. Beginning gifted education professionals use understanding of development and individual differences to respond to the needs of individuals with gifts and talents.

Supporting Explanation for Standard #2:

Beginning gifted educators understand the variation in characteristics between and among individuals with and without gifts and talents. They know exceptionalities can interact with multiple domains of human development to influence an individual’s learning in school, community, and throughout life. Moreover, they understand that the beliefs, traditions, and values across and within cultures can influence relationships among and between students, their families, and the school community. Furthermore, these experiences of individuals with exceptionalities can influence the individual’s ability to learn, interact socially, and live as fulfilled contributing members of the community.

Beginning gifted educators are active and resourceful in seeking to understand how primary language, culture, family, and learning disabilities interact with the individual’s gifts and talents to influence academic and social abilities, attitudes, values, interests, and career and post-secondary options.

These learning differences and their interactions provide the foundation upon which beginning gifted educators differentiate instruction, create adaptations and instructional support in order to provide developmentally meaningful and challenging learning for individuals with exceptionalities.

*Standard #3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

Knowledge

1. Beginning gifted education professionals understand the elements of safe, inclusive, and culturally responsive learning environments so that individuals with gifts and talents become active and effective learners and develop emotional well-being, positive social interactions, independence, and self-advocacy.
Performance

1. Beginning gifted education professionals collaborate with general educators and other colleagues to create safe, inclusive, culturally responsive learning environments that engage individuals with gifts and talents in meaningful learning activities and social interactions. They take into account individual abilities and needs and develop emotional well-being, positive social interactions, independence, and self-advocacy.

2. Beginning gifted education professionals use communication and motivational and instructional interventions to facilitate understanding of subject matter and to teach individuals with gifts and talents how to adapt to different environments and develop leadership skills.

3. Beginning gifted education professionals match their communication methods to an individual’s language proficiency and cultural and linguistic differences.

Supporting Explanation for Standard #3:

Like all educators, beginning gifted educators develop safe, inclusive, culturally responsive learning environments for all students. They also collaborate with colleagues in general education and other specialized environments that develop students’ gifts and talents, engaging them in meaningful learning activities that enhance independence, interdependence, and positive peer-relationships.

Beginning gifted educators modify learning environments for individual needs. Knowledge regarding an individual’s language, family, culture, and other significant contextual factors and how they interact with an individual’s gifts and talents guides the beginning gifted educator in modifying learning environments and providing for the maintenance and generalization of acquired skills across environments and subjects. They match their communication methods to an individual’s language proficiency and cultural and linguistic differences, avoiding discrimination and stereotyping.

Beginning gifted educators structure environments to encourage self-awareness, self-efficacy, self-direction, personal empowerment, leadership, and self-advocacy of individuals with gifts and talents and directly teach them to adapt to the expectations and demands of differing environments.

Standard #4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. Beginning gifted education professionals understand the central concepts and structures of the disciplines and tools of inquiry related to the various academic content areas they teach or support.

Performance

1. Beginning gifted education professionals organize content knowledge, integrate cross-disciplinary skills, and develop meaningful learning progressions to help individuals with gifts and talents in academic subject matter and specialized content domains.
Supporting Explanation for Standards #4 & #5:

The professional knowledge base in general education has made clear that the educators’ understanding of the central concepts and structures of the discipline and tools of inquiry related to the academic subject-matter content areas they teach makes a significant difference in student learning. There is good reason to generalize this conclusion to gifted educators.

Within the general curricula, beginning gifted educators demonstrate in their planning and teaching, a solid base of understanding of the theories, central concepts and principles, structures of the discipline, and tools of inquiry of the academic subject-matter content areas they teach so they are able to organize knowledge, integrate cross-disciplinary skills, develop meaningful learning progressions and collaborate with educators in:

- Using assessments to select, adapt, and create materials to differentiate instructional strategies and general and specialized curricula to challenge individuals with gifts and talents.

- Teaching the content of the general or specialized curriculum to individuals with gifts and talents across a wide range of advanced performance levels.

- Designing appropriate learning and performance modifications for individuals with gifts and talents in academic subject matter and specialized content domains that incorporate advanced, conceptually challenging, in-depth, distinctive, and complex content.

Additionally, beginning gifted educators use a variety of specialized curricula to individualize meaningful and challenging learning for individuals with exceptionalities.

Standard #5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

1. Beginning gifted education professionals understand general and specialized curriculum models to create advanced, conceptually challenging, in-depth, distinctive, and complex learning experiences across a wide range of advanced knowledge and performance levels.

2. Beginning gifted education professionals understand the responsibility of School Districts outlined in Idaho Code 33-2003, as well as the definition of Gifted/Talented Children defined in Idaho Code 33-2001-04 with respect to high performing capabilities in intellectual, creative, specific academic or leadership areas, or ability in the performing or visual arts.
Performance

1. Beginning gifted education professionals implement general and specialized curriculum to create advanced, conceptually challenging, in-depth, distinctive, and complex learning experiences across a wide range of advanced knowledge and performance levels.

2. Beginning gifted education professionals implement the components of Idaho Codes 33-2001-04 and 33-2003 with respect to individuals with high performing capabilities in intellectual, creative, specific academic or leadership areas, or ability in the performing or visual arts.

Standard #6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

1. Beginning gifted education professionals understand the appropriate use and limitations of various types of assessments.

2. Beginning gifted education professionals understand how to select and use technically sound formal and informal assessments that minimize bias.

Performance

1. Beginning gifted education professionals use pre-assessment and formative/summative assessments. They select, adapt, and create materials to differentiate strategies and create curricula that challenges and ensures growth of individuals with gifts and talents.

2. Beginning gifted education professionals conduct and analyze formal and informal assessments of learning and achievement related to gifted and talented referral/nomination, identification, program planning, and other services for individuals with gifts and talents.

3. Beginning gifted education professionals use assessment data to foster and document sustained growth over time of individuals with gifts and talents.

4. Beginning gifted education professionals use various types of assessment data to collaborate with families and colleagues to assure appropriate, non-biased, and meaningful assessment to develop long- and short-range goals and objectives.

5. Beginning gifted education professionals engage individuals with gifts and talents in assessing the quality of their own learning and performance and in providing feedback to guide them in setting future goals and objectives.

Supporting Explanation for Standard #6:
Like all educators, beginning gifted educators understand measurement theory and practice for addressing issues of validity, reliability, norms, bias, and interpretation of assessment results. Beginning gifted educators understand the policies and ethical principles of measurement and assessment related to gifted education referral/nomination, identification, planning, differentiated instruction, learning progress, and services for individuals with gifts and talents, including individuals from culturally and linguistically diverse backgrounds.

Beginning gifted educators understand the appropriate use and limitations of various types of assessments and collaborate with families and other colleagues to assure nonbiased, meaningful assessments and decision-making.

Beginning gifted educators select and use assessment information to support a wide variety of decisions within gifted education. They conduct formal and informal assessments of behavior, learning, achievement, and environments to differentiate the learning experiences and document the growth and development of individuals with gifts and talents. Moreover, they differentiate assessments to identify above level performances and to accelerate and enrich the general curriculum. Beginning gifted educators use available technologies routinely to support their assessments and employ alternative assessments such as performance-based assessment, portfolios, and computer simulations.

Using these data, beginning gifted educators make multiple types of assessment decisions including strategic adaptations and modifications in response to an individual’s constellation of social, linguistic, and learning factors in ways to minimize bias. They also use the results of assessments to develop long-range instructional plans anchored in both general and specialized curricula, and they translate these plans into carefully selected shorter-range goals and objectives to differentiate instruction. Moreover, beginning gifted educators engage individuals with gifts and talents in assessing the quality of their own learning and performance and in providing feedback to guide them in setting future goals and objectives.

Like their general education colleagues, beginning gifted educators regularly monitor the learning progress of individuals with gifts and talents in both general and specialized content and make instructional adjustments based on these data.

**Standard #7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.**

**Knowledge**

1. Beginning gifted education professionals understand the rationale, history, philosophies, theories, definitions, and models of gifted and talented education.

2. Beginning gifted education professionals know principles of evidence-based practice and possess a repertoire of instructional strategies to enhance critical and creative thinking, problem-solving, and performance skills of individuals with gifts and talents.

3. Beginning gifted education professionals understand curriculum design that includes content, process, product, and learning environment to differentiate instruction to meet the needs of individuals with gifts and talents.
4. Beginning gifted education professionals understand how to develop curriculum in the five mandated areas: intellectual, creative, specific academic, leadership, and visual/performing arts.

Performance

1. Beginning gifted education professionals select and utilize a repertoire of evidence-based curriculum and instructional strategies to advance the learning of individuals with gifts and talents.

2. Beginning gifted education professionals use technologies to support assessment, planning, and delivery of instruction for individuals with gifts and talents.

3. Beginning gifted education professionals collaborate with families and professional colleagues in selecting, adapting, and using evidence-based strategies to promote challenging learning opportunities in general and specialized curricula.

Supporting Explanation for Standard #7:

In the selection, development, and adaptation of learning experiences for individuals with gifts and talents, beginning gifted educators consider an individual’s abilities, interests, learning environments and cultural and linguistic factors to promote positive learning results in general and special curricula. Understanding these factors and curriculum models, as well as the implications of being gifted and talented, guides the educator’s development of scope and sequence plans; selection, adaptation and creation of learning activities; and use of differentiated evidence-based instructional strategies.

Moreover, beginning gifted educators facilitate these actions in a collaborative context that includes individuals with gifts and talents, families, professional colleagues, and personnel from other agencies as appropriate. They are familiar with alternative and augmentative communication systems and are comfortable using technologies to support language and communication, instructional planning and individualized instruction for individuals with exceptionalities.

Standard #8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

1. Beginning gifted education professionals understand a variety of differentiated instructional strategies to advance individuals with gifts and talents.

Performance

1. Beginning gifted education professionals use and adapt a repertoire of evidence-based curriculum and instructional strategies to advance the learning of individuals with gifts and talents.
2. Beginning gifted education professionals use technologies to support instruction for individuals with gifts and talents.

3. Beginning gifted education professionals emphasize the development, practice, and transfer of advanced knowledge and skills leading individuals with gifts and talents to become creative and productive citizens.

4. Beginning gifted education professionals use curriculum design that includes content, process, product, and learning environment to address the needs of individuals with gifts and talents.

5. Beginning gifted education professionals develop and deliver curriculum in five mandated areas: intellectual, creative, specific academic, leadership, and visual/performing arts.

Supporting Explanation for Standard 8:

Beginning gifted educators possess a repertoire of evidence-based strategies to differentiate and accelerate the curriculum for individuals with gifts and talents. They select, adapt, and use these strategies to promote challenging learning opportunities in general and special curricula and to modify learning environments to enhance self-awareness and self-efficacy for individuals with gifts and talents. They enhance 21st Century student outcomes such as critical and creative thinking, problem solving, collaboration, and performance skills in specific domains and allow individuals with gifts and talents opportunities to explore, develop or research their areas of interest or talent. Beginning gifted educators also emphasize the development, practice, and transfer of advanced knowledge and skills across environments throughout the lifespan leading to creative, productive careers in society for individuals with gifts and talents.

Standard #9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to evaluate continually his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

1. Beginning gifted education professionals understand how foundational knowledge, perspectives, and current issues influence professional practice and the education and treatment of individuals with gifts and talents, both in school and society.

2. Beginning gifted education professionals are aware of their own professional development needs and understand the significance of lifelong learning.

Performance

1. Beginning gifted education professionals use foundational knowledge of the field and their professional Ethical Principles and Program Standards to inform gifted education practice, to engage in lifelong learning, and to advance the profession.
2. Beginning gifted education professionals model respect for diversity, understanding that diversity is a part of families, cultures, and schools, and that complex human issues can interact with identification of individuals with gifts and talents and the delivery of gifted services.

3. Beginning gifted education professionals advance the gifted education profession through participation in professional activities, learning communities, advocacy, and mentoring.

**Supporting Explanation for Standard #9:**

Beginning gifted educators practice in multiple roles and complex situations across wide age and developmental ranges requiring ongoing attention to legal matters and serious consideration of professional and ethical issues. Ethical principles and Program Standards guide beginning gifted educators. These principles and standards provide benchmarks by which gifted educators practice and evaluate one another professionally.

Beginning gifted educators understand gifted education as an evolving and changing discipline based on philosophies, evidence-based principles and theories, policies, and historical points of view that continue to influence the field of gifted education and the education of and services for individuals with gifts and talents and their families in both school and society. Beginning gifted educators understand how these factors influence professional practice including assessment, instructional planning, services, and program evaluation.

Beginning gifted educators are sensitive to the aspects of diversity relating to individuals with gifts and talents and their families, how human diversity can influence families, cultures, and schools, and how these complex issues can each interact with the delivery of gifted education services. Of special significance is the growth in the number and prevalence of English Language Learners (ELL) and the provision of effective gifted education services for ELL with exceptionalities and their families.

Beginning gifted educators also understand the relationships of the organization of gifted education services to the organization of schools, school systems, and education-related agencies within the country and cultures in which they practice. They are aware of how their own and others’ attitudes, behaviors, and ways of communicating can influence their practice, and use this knowledge as a foundation to inform their own personal understandings and philosophies of special education.

Beginning gifted educators engage in professional activities and participate actively in professional learning communities that benefit individuals with gifts and talents, their families, colleagues, and their own professional growth. They view themselves as lifelong learners and regularly reflect on and adjust their practice, and develop and use personalized professional development plans. They plan and engage in activities that foster their professional growth and keep them current with evidence-based practices and know how to recognize their own skill limits and practice within them.
Moreover, educators of the gifted embrace their special role as advocate for individuals with gifts and talents. They promote and advocate for the learning and wellbeing of individuals with gifts and talents across settings and diverse learning experiences.

**Standard #10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.**

**Knowledge**

1. Beginning gifted education professionals understand the theory and elements of effective collaboration.

2. Beginning gifted education professionals understand the components of a district plan for individuals with gifts and talents, including philosophy, definitions, goals, program options, identification procedures, and evaluation; how to develop a district plan; and the array of program options and services available for individuals with gifts and talents.

3. Beginning gifted education professionals understand effective implementation and evaluation of gifted and talented programs.

**Performance**

1. Beginning gifted education professionals collaborate with families, other educators and related service providers, individuals with gifts and talents, and personnel from community agencies in culturally responsive ways to address the needs of individuals with gifts and talents across a range of learning experiences.

2. Beginning gifted education professionals serve as a collaborative resource to colleagues.

3. Beginning gifted education professionals educate parents, other family members, and colleagues about the social and emotional needs and development of gifted and talented students.

4. Beginning gifted education professionals use collaboration to promote the well-being of individuals with gifts and talents across a wide range of settings and collaborators.

5. Beginning gifted education professionals use a variety of technologies and techniques to facilitate learning and communication.

6. Beginning gifted education professionals educate colleagues, parents/guardians, and others about the common misconceptions, myths, stereotypes, and controversial issues related to gifted and talented education.
7. Beginning gifted education professionals identify and implement extension and acceleration options for individuals with gifts and talents.

8. Beginning gifted education professionals match student needs with appropriate program options and services.

**Supporting Explanation for Standard #10:**

One of the significant changes in education over the past several decades is the rapid growth of collaborative educational teams to address the educational needs of students. The diversity of the students, complexity of curricular demands, growing influence of technology, and the rising targets for learner outcomes in the 21st century has created the demand for teams of educators collaborating together to ensure all students are effectively learning challenging curricula.

Beginning gifted educators embrace their role as a resource to colleagues and use the theory and elements of collaboration across a wide range of contexts and collaborators.

They collaborate with their general education and other special education colleagues to create learning environments that meaningfully include individuals with gifts and talents, and that foster cultural understanding, safety and emotional wellbeing, positive social interactions, and active engagement. Additionally, beginning gifted educators use collaboration to facilitate differentiated assessment and instructional planning to advance learning of individuals with gifts and talents across a wide range of settings and different learning experiences. They routinely collaborate with other educators in developing mentorships, internships, and vocational programming experiences to address the needs of individuals with gifts and talents.

Gifted educators have long recognized the positive significance of the active involvement of individuals with gifts and talents and their families in the education process, and gifted educators involve individuals with gifts and talents and their families collaboratively in all aspects of the education of individuals with gifts and talents.
Glossary

General Curricula:
As used “general curricula,” means the academic content of the general curricula including math, reading, English/language arts, science, social studies, and the arts.

Specialized Curricula:
As used “specialized curricula,” means the content of specialized interventions or sets of interventions including but not limited to academic, strategic, communicative, social, emotional, and independent research curricula.

Special Education Services:
Special education services are personalized, i.e. individualized, services that appropriately credentialed gifted educators provide directly or indirectly to individuals with exceptionalities.

Individuals with Exceptionalities:
Individuals with exceptionalities include individuals with sensory, physical, emotional, social, cognitive differences, developmentally delays, exceptional gifts and talents; and individuals who are or have been abused or neglected; whose needs differ so as to require personalized special education services in addition to or in tandem with educational services available through general education programs and other human service delivery systems.

Instructional Strategies:
Instructional strategies as used throughout this document include interventions used in academic and specialized curricula.
Idaho Standards for Health Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Health Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught, and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands Elementary and Secondary methods for teaching health and the following content areas of health: fitness and personal health; health promotion and disease prevention; prevention and care of injuries; mental and emotional health; alcohol, tobacco, and other drugs; nutrition; relationships; growth, development, and family health; consumer health; health literacy; and community and environmental health.

2. The teacher understands the following health risk behaviors: tobacco, alcohol, and other drug use; sexual behaviors that result in human immunodeficiency virus (HIV) infection, other sexually transmitted diseases (STDs), and unplanned pregnancies; poor dietary behaviors; lack of or excessive physical activity; and behaviors that result in intentional injury.

3. The teacher understands the relationship between health education content areas and youth risk behaviors.
4. The teacher understands the concepts and components of coordinated school health, an approach where partnerships are developed within the school and community (components of coordinated school health: school environment, health education, school meals and nutrition, physical education, health services, counseling and mental health services, staff wellness, and parent/community partnerships).

5. The teacher understands that health is multidimensional (e.g., physical, intellectual, emotional, social, cultural, spiritual, and environmental).

Performance

1. The teacher instructs students about increasing health-enhancing behaviors and about reducing health-risk behaviors.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher understands developmentally appropriate practices that motivate students to participate in health-enhancing behaviors.

2. The teacher knows strategies and techniques that develop positive health behavior changes in students.
Performance
1. The teacher motivates students to participate in positive health-enhancing behaviors inside and outside the school setting.

2. The teacher helps students learn and use personal and social behaviors that promote positive relationships (e.g., avoiding abusive relationships, using refusal skills, setting life goals, and making healthy decisions).

_Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom._

Knowledge
1. The teacher understands student jargon and slang associated with high-risk behaviors.

Performance
1. The teacher identifies and defines student jargon and slang associated with high-risk behaviors and translates these terms into terms appropriate to the educational setting.

2. The teacher facilitates responsible decision making, goal setting, and alternatives to high-risk behaviors that enhance health.

3. The teacher creates a respectful learning environment that is sensitive to controversial health issues.

4. The teacher applies techniques that aid in addressing sensitive issues (e.g., ground rules, question boxes, open-ended questions, and establishment of appropriate confidentiality).

5. The teacher demonstrates the ability to use interpersonal communication skills to enhance health.

_Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies._

Knowledge
1. The teacher understands the differing community health values and practices.
2. The teacher understands how to access valid, appropriate health information and health-promoting products and services.

3. The teacher understands the influence of culture, media, technology, and other factors on health.

Performance

1. The teacher modifies instruction to reflect current health-related research and local health policies.

2. The teacher accesses valid, appropriate health information and health-promoting products and services.

3. The teacher analyzes the influence of culture, media, technology, and other factors on health.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Knowledge

1. The teacher knows the laws and codes specific to health education and health services to minors.

Performance

1. The teacher uses appropriate intervention following the identification, disclosure, or suspicion of student involvement in a high-risk behavior.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.

Knowledge

1. The teacher understands methods of advocating for personal, family, and community health (e.g. letters to editor, community service projects, health fairs, and health races/walks).
Performance

1. The teacher demonstrates the ability to advocate for personal, family, and community health.

2. The teacher works collaboratively to assess resources and advocate for a coordinated school health education program.
Idaho Standards for Literacy Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Literacy Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard #1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

Performance

1. Demonstrate knowledge of developmental progressions for reading and writing and how these interface with assessment and instruction to meet diverse needs of students.
Standard #2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

Performance

1. Model fair-mindedness, empathy, and ethical behavior when teaching students and working with other professionals.

2. Demonstrate an understanding of the ways in which diversity influences the reading and writing development of students, especially those who struggle to acquire literacy skills and strategies.

3. Provide students with linguistic, academic, and cultural experiences that link their communities with the school.

4. Adapt instructional materials and approaches to meet the language-proficiency needs of English learners and students who struggle to acquire literacy skills and strategies.

Standard #3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards

Performance

Performance

1. Arrange instructional areas to provide easy access to books and other instructional materials for a variety of individual, small-group, and whole-class activities and support teachers in doing the same.

2. Modify the arrangements to accommodate students’ changing needs.

3. Create supportive social environments for all students, especially those who struggle to acquire literacy skills and strategies.

4. Create supportive environments where English learners are encouraged and given many opportunities to use English.

5. Understand the role of routines in creating and maintaining positive learning environments for reading and writing instruction using traditional print, digital, and online resources.
6. Create effective routines for all students, especially those who struggle to acquire literacy skills and strategies.

**Standard #4: Content Knowledge** - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards*

**Performance**

1. Interprets major theories of reading and writing processes and development to understand the needs of all readers in diverse contexts.

2. Analyzes classroom environment quality for fostering individual motivation to read and write (e.g., access to print, choice, challenge, and interests).

3. Reads and understands the literature and research about factors that contribute to reading success (e.g., social, cognitive, and physical).

4. Demonstrates knowledge of and a critical stance toward a wide variety of quality traditional print, digital, and online resources.

5. Demonstrates knowledge of variables of text complexity and use them in the analysis of classroom materials.

6. Demonstrates knowledge of literacy skills and strategies demanded for online reading, comprehension and research.

7. Demonstrates knowledge of the key concepts of literacy components and their interconnections as delineated in the Idaho Content Standards to include, but may not be limited to; Reading (Reading for Literature , Reading for Informational text, and Reading Foundational Skills) based on grade level appropriateness and developmental needs of student(s) being addressed, Writing, Speaking and Listening, and Language.

**Standard #5: Application of Content** - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards*

**Performance**
Knowledge

1. Understands how literacy (reading and writing) occurs across all subject disciplines

Performance

1. Plans instruction addressing content area literacy according to local, state, and/or national standards.

2. Uses digital resources appropriately to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

3. Incorporates all aspects of literacy across content areas for instructional planning.

Standard #6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher’s and learner’s decision making.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards

Performance

1. Demonstrate an understanding of the literature and research related to assessments and their uses and misuses.

2. Demonstrate an understanding of established purposes for assessing the performance of all readers, including tools for screening, diagnosis, progress monitoring, and measuring outcomes.

3. Recognize the basic technical adequacy of assessments (e.g., reliability, content, and construct validity).

4. Explain district and state assessment frameworks, proficiency standards, and student benchmarks.

5. Administer and interpret appropriate assessments for students, especially those who struggle with reading and writing.

6. Use multiple data sources to analyze individual readers’ performance and to plan instruction and intervention.

7. Analyze and use assessment data to examine the effectiveness of specific intervention practices and students’ responses to instruction.

8. Demonstrate the ability to communicate results of assessments to teachers and parents.
Standard #7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards

Performance

1. Demonstrate an understanding of the research and literature that undergirds literacy instruction for all pre-K–12 students including the range of text types recommended by the Idaho Content Standards.

2. Develop and implement the curriculum to meet the specific needs of students who struggle with reading literacy.

3. Provide differentiated instruction and instructional materials, including traditional print, digital, and online resources that capitalize on diversity.

4. Develop instruction anchored in the concepts of text complexity that is developmentally appropriate, with special attention to struggling literacy learners and diverse learners.

5. Develop instruction that includes rich and diverse experiences in digital environments to help all learners, especially struggling readers/writers, to be successful in New Literacies.

Standard #8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards
Performance

1. Selects and modifies instructional strategies, approaches, and routines based on professional literature and research.

2. Provide appropriate in-depth instruction for all readers and writers, especially those who struggle with reading and writing.

3. As needed, adapt instructional materials and approaches to meet the language-proficiency needs of English learners and students who struggle to learn to read and write.

4. Use a variety of grouping practices to meet the needs of all students, especially those who struggle with reading and writing.

Standard #9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards Performance

Performance

Performance

1. Promote the value of reading and writing in and out of school by modeling a positive attitude toward reading and writing with students, colleagues, administrators, and parents and guardians.

2. Demonstrate effective use of technology for improving student learning.

Standard #10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards Performance
Performance

1. Demonstrate the ability to hold effective conversations (e.g., for planning and reflective problem solving) with individuals and groups of teachers, work collaboratively with teachers and administrators.

2. Demonstrate an understanding of local, state, and national policies that affect reading and writing instruction.

3. Collaborate with others to build strong home-to-school and school-to-home literacy connections.
Idaho Standards for Mathematics Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Mathematics Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

**Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of mathematics and creates learning experiences that make these aspects of mathematics meaningful for learners.**

**Knowledge**

1. The teacher knows a variety of problem-solving approaches for investigating and understanding mathematics.

2. The teacher understands concepts of algebra.

3. The teacher understands the major concepts of geometry (Euclidean and non-Euclidean) and trigonometry.

4. The teacher understands basic concepts of number theory and number systems.
5. The teacher understands concepts of measurement.

6. The teacher understands the concepts of limit, continuity, differentiation, integration, and the techniques and application of calculus.

7. The teacher understands the techniques and applications of statistics, data analysis, and probability (e.g., random variable and distribution functions).

8. The teacher knows how to effectively evaluate the legitimacy of alternative algorithms.

9. The teacher understands the historical and cultural significance of mathematics and the changing ways individuals learn, teach, and do mathematics.

Performance
1. The teacher incorporates the historical perspective and current development of mathematics in teaching students.

2. The teacher applies appropriate and correct mathematical concepts in creating learning experiences.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn mathematics and develop mathematical thinking, and provides opportunities that support their intellectual, social, and personal development.

Knowledge
1. The teacher knows how to make use of students’ mathematical development, knowledge, understandings, interests, and experiences.

2. The teacher knows how to plan learning activities that respect and value students’ ideas, ways of thinking, and mathematical dispositions.

Performance
1. The teacher encourages students to make connections and develop a cohesive framework for mathematical ideas.
2. The teacher plans and delivers learning activities that respect and value students’ ideas, ways of thinking, and promote positive mathematical dispositions.

**Standard 3: Modifying Instruction for Individual Needs** - The teacher understands how students differ in their approaches to learning mathematics and creates instructional opportunities that are adapted to learners with diverse needs.

**Knowledge**

1. The teacher knows how to create tasks at a variety of levels of mathematical development, knowledge, understanding, and experience.

**Performance**

1. The teacher assists students in learning sound and significant mathematics and in developing a positive disposition toward mathematics by adapting and changing activities as needed.

**Standard 4: Multiple Instructional Strategies** - The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.

**Knowledge**

1. The teacher knows how to formulate or access tasks that elicit students’ use of mathematical reasoning and problem-solving strategies.

2. The teacher knows a variety of instructional strategies for investigating and understanding mathematics including problem-solving approaches.

3. The teacher understands the role of axiomatic systems and proofs in different branches of mathematics as it relates to reasoning and problem solving.

4. The teacher knows how to frame mathematical questions and conjectures.

5. The teacher knows how to make mathematical language meaningful to students.

6. The teacher understands inquiry-based learning in mathematics.
7. The teacher knows how to communicate concepts through the use of mathematical representations (e.g., symbolic, numeric, graphic, verbal, and concrete models).

8. The teacher understands the appropriate use of technology in teaching and learning of mathematics (e.g., graphing calculators, dynamic geometry software, and statistical software)

Performance
1. The teacher formulates or accesses tasks that elicit students’ use of mathematical reasoning and problem-solving strategies.

2. The teacher uses a variety of instructional strategies to support students in investigating and understanding mathematics, including problem-solving approaches.

3. The teacher uses and involves students in both formal proofs and intuitive, informal exploration.

4. The teacher uses a variety of instructional strategies to develops students’ use of standard mathematical terms, notations, and symbols.

5. The teacher uses and encourages the students to use a variety of representations to communicates mathematically.

6. The teacher engages students in mathematical discourse by encouraging them to make conjectures, justify hypotheses and processes, and use appropriate mathematical representations.

7. The teacher uses and involves students in the appropriate use of technology to develop students’ understanding (e.g., graphing calculators, dynamic geometry software, and statistical software).

*Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*

*Standard 6: Communication Skills - The teacher uses a variety of communication techniques including verbal, nonverbal, and media to foster mathematical inquiry, collaboration, and supportive interaction in and beyond the classroom.*

Knowledge
1. The teacher knows and uses appropriate mathematical vocabulary/terminology.

**Performance**

1. The teacher encourages students to use appropriate mathematical vocabulary/terminology.

2. The teacher fosters mathematical discourse.

*Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.*

*Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.*

**Knowledge**

1. The teacher knows how to assess students’ mathematical reasoning.

**Performance**

1. The teacher assesses students’ mathematical reasoning.

*Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*

*Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.*

*Standard 11: Connections among Mathematical Ideas - The teacher understands significant connections among mathematical ideas and the application of those ideas within mathematics, as well as to other disciplines.*

**Knowledge**

1. The teacher has a broad base of knowledge and understanding of mathematics beyond the level at which he or she teaches to include algebra, geometry and measurement, statistics and data analysis, and calculus.

2. The teacher understands the interconnectedness between strands of mathematics.
3. The teacher understands a variety of real-world applications of mathematics.

Performance

1. The teacher uses and encourages students to use mathematical applications to solve problems in realistic situations from other fields (e.g. natural science, social science, business, and engineering).

2. The teacher encourages students to identify connections between mathematical strands.

3. The teacher uses and encourages students to use mathematics to identify and describe patterns, relationships, concepts, processes, and real-life constructs.
Idaho Standards for Online Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the K-12 Online Teacher Standards are widely recognized, but not all-encompassing or absolute indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The characteristics of online instruction can be vastly different from teaching in traditional face-to-face environments. Online schools and programs serving K-12 students should be structured to support the unique needs of students and teachers in online environments. The Online Teacher Standards are aligned to the Idaho Core Teacher Standards. These standards reflect the principles of Universal Design related to technology. (Universal design is “the design of products and environments to be usable by all people, to the greatest extent possible, without the need for adaptation or specialized design”.)

*This language was written by a committee of content experts and has been adopted verbatim.

Standard #1: Knowledge of Online Education - The online teacher understands the central concepts, tools of inquiry, and structures in online instruction and creates learning experiences that take advantage of the transformative potential in online learning environments.

Knowledge
1. The online teacher understands the current standards for best practices in online teaching and learning.

2. The online teacher understands the role of online teaching in preparing students for the global community of the future.
3. The online teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the field of online teaching and learning.

4. The online teacher understands the relationship between online education and other subject areas and real life situations.

5. The online teacher understands the relationship between online teaching and advancing technologies.

6. The online teacher understands appropriate uses of technologies to promote student learning and engagement with the content.

7. The online teacher understands the instructional delivery continuum. (e.g., fully online to blended to face-to-face).

**Performance**

1. The online teacher utilizes current standards for best practices in online teaching to identify appropriate instructional processes and strategies.

2. The online teacher demonstrates application of communication technologies for teaching and learning (e.g., Learning Management System [LMS], Content Management System [CMS], email, discussion, desktop video conferencing, and instant messaging tools).

3. The online teacher demonstrates application of emerging technologies for teaching and learning (e.g., blogs, wikis, content creation tools, mobile technologies, virtual worlds).

4. The online teacher demonstrates application of advanced troubleshooting skills (e.g., digital asset management, firewalls, web-based applications).

5. The online teacher demonstrates the use of design methods and standards in course/document creation and delivery.

6. The online teacher demonstrates knowledge of access, equity (digital divide) and safety concerns in online environments.
Standard #2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Performance

1. The online teacher understands the continuum of fully online to blended learning environments and creates unique opportunities and challenges for the learner (e.g., Synchronous and Asynchronous, Individual and Group Learning, Digital Communities).

2. The online teacher uses communication technologies to alter learning strategies and skills (e.g., Media Literacy, visual literacy).

3. The online teacher demonstrates knowledge of motivational theories and how they are applied to online learning environments.

4. The online teacher constructs learning experiences that take into account students’ physical, social, emotional, moral, and cognitive development to influence learning and instructional decisions. (Physical (e.g., Repetitive Use Injuries, Back and Neck Strain); Sensory Development (e.g., Hearing, Vision, Computer Vision Syndrome, Ocular Lock); Conceptions of social space (e.g., Identity Formation, Community Formation, Autonomy); Emotional (e.g., Isolation, cyber-bullying); Moral (i.e., Enigmatic communities, Disinhibition effect, Cognitive, Creativity)).

Standard #3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.

Knowledge

1. The online teacher is familiar with legal mandates stipulated by the Americans with Disabilities Act (ADA), the Individuals with Disabilities Education Act (IDEA), the Assistive Technology Act and Section 508 requirements for accessibility.

Performance

1. The online teacher knows how adaptive/assistive technologies are used to help people who have disabilities gain access to information that might otherwise be inaccessible.

2. The online teacher modifies, customizes and/or personalizes activities to address diverse learning styles, working strategies and abilities (e.g., provide multiple paths to learning objectives, differentiate instruction, strategies for non-native English speakers).
3. The online teacher coordinates learning experiences with adult professionals (e.g., parents, local school contacts, mentors).

**Standard #4: Multiple Instructional Strategies - The online teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.**

**Knowledge**

1. The online teacher understands the techniques and applications of various online instructional strategies (e.g., discussion, student-directed learning, collaborative learning, lecture, project-based learning, forum, small group work).

2. The online teacher understands appropriate uses of learning and/or content management systems for student learning.

**Performance**

1. The online teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and student needs. (e.g., online teacher-gathered data and student offered feedback).

2. The online teacher uses student-centered instructional strategies to engage students in learning. (e.g., Peer-based learning, peer coaching, authentic learning experiences, inquiry-based activities, structured but flexible learning environment, collaborative learning, discussion groups, self-directed learning, case studies, small group work, collaborative learning, and guided design)

3. The online teacher uses a variety of instructional tools and resources to enhance learning (e.g., LMS/CMS, computer directed and computer assisted software, digital age media).

**Standard #5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.**

**Performance**

1. The online teacher establishes a positive and safe climate in the classroom and participates in maintaining a healthy environment in the school or program as a whole (e.g., digital etiquette, Internet safety, Acceptable Use Policy [AUP]).
2. The online teacher performs management tasks (e.g., tracks student enrollments, communication logs, attendance records, etc.).

3. The online teacher uses effective time management strategies (e.g., timely and consistent feedback, provides course materials in a timely manner, use online tool functionality to improve instructional efficiency).

**Standard #6: Communication Skills, Networking, and Community Building - The online teacher uses a variety of communication techniques including verbal, nonverbal, and media to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.**

**Knowledge**

1. The online teacher knows the importance of verbal (synchronous) as well as nonverbal (asynchronous) communication.

**Performance**

1. The online teacher is a thoughtful and responsive communicator.

2. The online teacher models effective communication strategies in conveying ideas and information and in asking questions to stimulate discussion and promote higher-order thinking (e.g., discussion board facilitation, personal communications, and web conferencing).

3. The online teacher demonstrates the ability to communicate effectively using a variety of mediums.

4. The online teacher adjusts communication in response to cultural differences (e.g., wait time and authority).

**Standard #7: Instructional Planning Skills - The online teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.**

**Performance**

1. The online teacher clearly communicates to students stated and measurable objectives, course goals, grading criteria, course organization and expectations.

2. The online teacher maintains accuracy and currency of course content, incorporates internet resources into course content, and extends lesson activities.
3. The online teacher designs and develops subject-specific online content.

4. The online teacher uses multiple forms of media to design course content.

5. The online teacher designs course content to facilitate interaction and discussion.

6. The online teacher designs course content that complies with intellectual property rights and fair use standards.

Standard #8: Assessment of Student Learning - The online teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Performance

1. The online teacher selects, constructs, and uses a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, online teacher-made tests, performance tasks, projects, student self-assessment, peer assessment, standardized tests, tests written in primary language, and authentic assessments) to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.

2. The online teacher enlists multiple strategies for ensuring security of online student assessments and assessment data.

Standard #9: Professional Commitment and Responsibility - The online teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of online teaching.

Knowledge

1. The online teacher understands the need for professional activity and collaboration beyond school (e.g. professional learning communities).

2. The online teacher knows how educational standards and curriculum align with 21st century skills.

Performance
1. The online teacher adheres to local, state, and federal laws and policies (e.g., FERPA, AUP’s).

2. The online teacher has participated in an online course and applies experiences as an online student to develop and implement successful strategies for online teaching environments.

3. The online teacher demonstrates alignment of educational standards and curriculum with 21st century technology skills.

*Standard #10: Partnerships - The online teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well being.*
Idaho Standards for Physical Education Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Physical Education Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.*

**Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.**

**Knowledge**

1. The teacher understands the components of physical fitness and their relationship to a healthy lifestyle.

2. The teacher understands the sequencing of motor skills (K-12).

3. The teacher understands human anatomy and physiology (structure and function), exercise physiology, and bio-mechanical principles.

4. The teacher knows the appropriate rules, etiquette, instructional cues, and skills for physical education activities (e.g., aquatics, sports, games, lifetime activities, dance, rhythmical activities, and outdoor/adventure activities).
5. The teacher understands that daily physical provides opportunities for enjoyment, challenge, self-expression, and social interaction.

6. The teacher understands Adaptive Physical Education and how to work with students with special and diverse needs (e.g., various physical abilities and limitations, culture, and gender).

7. The teacher understands technology operations and concepts pertinent to physical activity (e.g. heart rate monitors, pedometers, global positioning system).

**Performance**

1. The teacher instructs students about disciplinary concepts and principles related to physical activities, fitness, and movement expression.

2. The teacher instructs students in the rules, skills, and strategies of a variety of physical activities (e.g., aquatics, sports, games, lifelong activities, dance, rhythmical activities, and outdoor/adventure activities).

3. The teacher models a variety of physical education activities (e.g., aquatics, sports, games, lifelong activities, dance, rhythmical activities, and outdoor/adventure activities).

4. The teacher models the use of technology operations and concepts pertinent to physical activity (e.g. heart rate monitors, pedometers, global positioning system, and computer software).

*Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*

**Performance**

1. The teacher assesses the individual physical activity, movement, and fitness levels of students and makes developmentally appropriate adaptations to instruction.

2. The teacher promotes physical activities that contribute to good health.
Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Performance

1. The teacher provides opportunities that incorporate individual variations in movement to help students gain physical competence and confidence.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher knows how to help students cultivate responsible personal and social behaviors that promote positive relationships and a productive environment in physical education settings.

2. The teacher knows strategies to help students become self-motivated in physical education.

3. The teacher understands that individual performance is affected by anxiety.

4. The teacher understands principles of effective management in indoor and outdoor movement settings.

Performance

1. The teacher implements strategies, lessons, and activities to promote positive peer relationships (e.g., mutual respect, support, safety, sportsmanship, and cooperation).

2. The teacher uses strategies to motivate students to participate in physical activity inside and outside the school setting.

3. The teacher utilizes principles of effective management in indoor and outdoor movement settings.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster

STATE DEPARTMENT OF EDUCATION
AUGUST 14, 2014

SDE

TAB 4 Page 114
Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Knowledge
1. The teacher knows a variety of management (e.g., space, people, and equipment) and instructional strategies to maximize physical education activity time and student success.

2. The teacher knows how to expand the curriculum through the use of community resources (e.g., golf courses, climbing walls, YMCA, and service organizations).

Performance
1. The teacher uses and assesses management (e.g., space, people, and equipment) and instructional strategies to maximize physical education activity time and student success.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Knowledge
1. The teacher knows how to select and use a variety of developmentally appropriate assessment techniques (e.g., authentic, alternative, and traditional) congruent with physical education activity, movement, and fitness goals.

Performance
1. The teacher uses a variety of developmentally appropriate assessment techniques (e.g., authentic, alternative, and traditional) congruent with physical education activity, movement, and fitness goals.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Knowledge
1. The teacher knows how his/her personal physical fitness and activity levels may impact teaching and student motivation.
Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Standard 11: Safety - The teacher provides for a safe physical education learning environment.

Knowledge
1. The teacher understands the inherent dangers involved in physical education activities.

2. The teacher understands the need to consider safety when planning and providing instruction.

3. The teacher understands the factors that influence safety in physical education activity settings (e.g., skill, fitness, developmental level of students, equipment, attire, facilities, travel, and weather).

4. The teacher understands the level of supervision required for the health and safety of all students in all locations (e.g., teaching areas, locker rooms, and travel to off-campus activities).

5. The teacher understands school policies regarding student injury and medical treatment.

6. The teacher understands the steps for providing appropriate treatment for injuries occurring in physical education activities.

7. The teacher understands the appropriate steps when responding to safety situations.

8. The teacher knows cardiopulmonary resuscitation (CPR) and first aid.

Performance
1. The teacher identifies, monitors, and documents safety issues when planning and implementing instruction to ensure a safe learning environment.

2. The teacher informs students of the risks associated with physical education activities.
3. The teacher instructs students in appropriate safety procedures for physical education activities and corrects inappropriate actions.

4. The teacher identifies and corrects potential hazards in physical education facilities, grounds, and equipment.

5. The teacher identifies and follows the steps for providing appropriate treatment for injuries occurring in physical education activities.

6. The teacher identifies safety situations and responds appropriately.

7. The teacher maintains CPR and first aid certification.
Pre-Service Technology Standards

All teacher candidates are expected to meet the Idaho Core Teacher Standards as well as the pre-service technology standards. Each candidate shall also meet the Foundation and Enhancement standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the pre-service technology standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards and competencies. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the competencies. These competencies reflect the principles of Universal Design related to technology. (Universal design is defined as: the design of products and environments to be usable by all people, to the greatest extent possible, without the need for adaptation or specialized design)

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions in which pre-service teachers design, develop, and evaluate technology-based learning experiences and assessments to maximize content learning in context and to develop the knowledge, skills, and attitudes identified in the National Educational Technology Standards (NETS) for Teachers.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, types of and uses of technology and creates learning experiences that make technology meaningful for learners.

Knowledge

1. Awareness of use types and usage of technology tools (i.e. 21st Century Skills; hardware; software; web-based; mobile technology).

2. Pre-service teachers understand the central concepts of technology and current standards for best practice in preparing students for the global community of the future.
3. Pre-service teachers understand how students learn and develop, and provide opportunities that support their intellectual, social, and personal development.

4. Promoting designs that engage all students of all abilities is sometimes referred to as promoting “Universal Design”.

5. Pre-service teachers understand how students differ in their approaches to learning and how to adapt for learners with diverse needs.

6. Pre-service teachers understand how students use collaborative tools to reflect on and clarify their own thinking, planning, and creativity.

7. Pre-service teachers understand the legal and ethical use of digital information and technology, including digital etiquette and responsible social interactions.

8. Pre-service teachers understand how to use and interpret formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

9. Pre-service teachers continuously improve their professional practice, model lifelong learning, and exhibit leadership in their school and professional community.

10. Pre-service teachers understand the importance of reflective practice.

11. Pre-service teachers understand local and global societal issues and responsibilities in an evolving digital culture and exhibit legal and ethical behavior in their professional practices.

12. Pre-service teachers understand how technology supports cultural diversity and collaboration.

Target: Knowledge competency test through a basic skills test (i.e. Cbest or PPST I for Technology Basic Competency Skills)

Performance
1. All performance indicators included with individual standards.
Note: These links provide some examples of artifacts collected in current intro to edtech and teacher pre-service programs. However, they do not necessarily demonstrate the level of exposure and knowledge we would expect of future teachers.

1. https://sites.google.com/a/boisestate.edu/barbara-schroeder/Home
3. https://sites.google.com/a/u.boisestate.edu/browning-portfolio/home
4. https://sites.google.com/a/u.boisestate.edu/sylvia-portfolio/

**Standard 2: Knowledge of Human Development and Learning -** The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

**Performance**

1. Pre-service teachers customize and personalize learning activities with technology that include accessible instructional materials and technologies to support the learning styles, work strategies, abilities, and developmental levels of all students.

**Suggested Artifact(s)**

- Lesson plan or unit development
- *Target: Practicum where lesson/unit is implemented and evaluated.*

**Standard 3: Adapting Instruction for Individual Needs -** The teacher understands how students differ in their approaches to learning and creates instructional opportunities that support their intellectual, social and personal development.

**Performance**

1. Pre-service teachers create digital-age media and formats ensuring equal access for people of all capabilities.

2. Pre-service teachers address the diverse needs of all students by using learner-centered strategies and providing equitable access to appropriate digital tools and resources including hardware, accessible instructional materials, and online resources.

**Suggested Artifact(s)**

- Development of digital materials using principles of Universal Design for Learning.
● Demonstration of knowledge through product development.
● “Accessibility Features on My Computer” discussion forum.
● Virtual practicum demonstrating learner-centered strategies (i.e., Second Life).
● Assistive Technology blog post.
● Accessibility resource list.
● Target: Practicum where lesson/unit is implemented and evaluated.

Standard # 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.

1. Pre-service teachers model and facilitate effective use of current and emerging digital tools, to locate, analyze, evaluate, and use information resources which will aid in the dissemination of content and support individual learning strategies.

2. Pre-service teachers promote student learning and creativity by creating learning experiences that include students’ use of technology tools to research and collect information online and to create a report, presentation, or other products.

3. Pre-service teachers use technology to promote student reflection to clarify their own critical thinking, planning, and creativity.

4. Pre-service teachers understand and use a variety of instructional strategies and communication techniques to develop students' critical thinking, problem solving, and performance skills.

Suggested Artifact(s)

● Web site or Internet WebQuest.
● Target: Practicum where lesson/unit is implemented and evaluated.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation in a digital age.

Performance

1. Pre-service selects and demonstrates the use of technology resources that enables students to explore questions and issues of individual interest and to plan, manage, and assess their own learning.
2. Pre-service teachers develop technology enriched learning that enables all students to pursue their individual curiosities and become active participants in learning.

3. Pre-service teachers engage students in researching real-world problems and issues and evaluating diverse solutions using digital tools and resources.

**Suggested Artifact(s)**

- Create a WebQuest

  *Target: Pre-service collects and shares student created artifacts that demonstrate learning with technology using individual initiative and interest.*

**Standard #6: Communication Skills - The teacher uses a variety of digital communication tools and strategies to foster inquiry, collaboration and supportive interaction in and beyond the classroom.**

**Performance**

1. Pre-service teachers communicate relevant information and ideas effectively to students, parents, and peers using a variety of digital-age media (i.e. asynchronous and synchronous tools).

2. Pre-service teachers promote and model digital etiquette and responsible social interactions.

**Suggested Artifact(s)**

- Web site or web page communicating information about their lesson or course.
- Email communications.
- Online communications using digital tools like Web conferencing, chat or Skype.
- Letter to parents created using word processing technology.
- Set of rules developed through consensus using digital collaboration tools.
- Demonstrated participation in a social work (i.e., join a network, participate, take a screenshot of participation and share).

  *Target: Evidence of asynchronous and synchronous communications with peers, parents and students.*
Standard #7: Instructional Planning Skills - The teacher plans, prepares instruction, and integrates technology into instructional planning based upon knowledge of subject matter, students, the community, and curriculum goals.

Performance

1. Pre-service teachers plan and prepare instruction utilizing a variety of technology tools.

2. Pre-service teachers demonstrate fluency in technology systems and the transfer of current knowledge to new technologies and situations.

Suggested Artifact(s)

- Sample lesson plan that demonstrates how technology can be integrated into content area instruction (see *Handbook of Technological Pedagogical Content Knowledge (TPCK) for Educators*, 2008 - Chapter 11, Guiding Pre-service Teachers in TPCK).
- Demonstrated use of emerging or innovative technology for learning.
- Research emerging (not widely available) technology and analyze its potential impact on and implementation in the classroom.
- Target: Practicum where lesson/unit integrating technology into instruction is implemented, observed (live or digitally recorded) and evaluated.

Standard #8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Performance

1. Pre-service teachers assess student’s use of technology.

2. Pre-service teachers use technology to formally and informally assess student learning (i.e. polling, proctored test, ISAT).

3. Pre-service teachers use technology to gather and interpret assessment data to inform teaching practice and program effectiveness.
Suggested Artifact(s)

- Sample of student work assessed by candidate (i.e., Rubric created with Rubistar (or other electronic rubric creation tool).
- Electronic quiz.
- Poll created in Web Conferencing tool.
- Poll conducted using clickers.
- Electronic gradebook (spreadsheet), run basic statistics, interpretation of the data.
- Target: Pretest, lesson, postest, analysis, interpretation, and lesson revision based on data.

**Standard #9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching, including the ethical, legal and responsible use of technology.**

**Performance**

1. Pre-service teachers evaluate and reflect on current technology for learning research and professional practice to inform teaching practice.

2. Pre-service teachers promote the effective use of digital tools and resources.

3. Pre-service teachers promote and model digital citizenship and responsibility (i.e., digital literacy, information literacy, copyright, privacy, legal)

4. Pre-service teachers use their knowledge of subject matter, teaching and learning, and technology to facilitate experiences that advance student learning, analysis, creativity, and innovation in both face-to-face and virtual environments.

5. Pre-service teachers advocate and teach safe, legal, and ethical use of digital information and technology modeling acceptable use policies including respect for copyright, intellectual property, the appropriate documentation of sources, and strategies for addressing threats to security of technology systems, data, and information.

**Suggested Artifact(s)**

- Join a network devoted to technology using teachers like classroom 2.0
- Be an active member of a professional learning network
- Offer an Internet Ethics Resource for community members
- Write a letter convincing the school board to remove blocks from Internet usage at your school
- Role play scenario for social networking arguing for and against advantages/disadvantages
- View a school’s acceptable use policy - demonstrate understanding
- Target: Practicum where lesson/unit is implemented and evaluated
Standard 10: Community and Partnerships - The teacher interacts in an innovative professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being. Models digital-age work and exhibits knowledge, skills, and abilities that are representative of a global and digital society.

Performance

1. Pre-service teachers collaborate with students, peers, parents, and community members using digital tools and resources to support student success and innovation by sharing information and supporting creativity, innovation, and improved learning outcomes.

2. Pre-service teachers promote opportunities for students of all capabilities to engage with other students, colleagues, and community members in either face-to-face or virtual environments (i.e., collaborative knowledge construction, participatory culture).

3. Pre-service teachers participate in and use local and global learning communities to explore creative applications of technology to improve student learning.

4. Pre-service teachers provide opportunities for students to apply communications technology resources to interact with students or experts from other communities and other countries.

Suggested Artifact(s)

- Be an active member of a professional learning network
- Create own network for learning or join with other classrooms (i.e. epal; iearn; globalschool.net; jason project; go north; NASA)
- Develop lesson that uses one of the social networks
- Use web conferencing to view a class using technology in action; create a list of items you want to integrate into teaching; reflect and incorporate practices learned into teaching
- Offer an Internet Ethics Resource for community members
- Target: Practicum where lesson/unit integrating community and partnership is implemented and evaluated
Idaho Foundation Standards for Professional-Technical Teachers

In addition to the standards listed here, professional-technical teachers must meet Idaho Core Teacher Standards and one of the following: (1) Idaho Standards for Agricultural Science and Technology Teachers, (2) Idaho Standards for Business Technology Teachers, (3) Idaho Standards for Family and Consumer Sciences Teachers, (4) Idaho Standards for Marketing Technology Teachers, or (5) Idaho Standards for Technology Education Teachers. Occupationally-certified teachers must meet these foundation standards for Professional-Technical teachers.

The following knowledge and performance statements for the professional-technical teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

**Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught, and creates learning experiences that make these aspects of subject matter meaningful for learners.**

**Knowledge**

1. The teacher understands basic technological principles, processes, and skills such as design and problem solving, team decision making, information gathering, and safety.

2. The teacher understands how basic academic skills and advanced technology can be integrated into an occupational learning environment.

3. The teacher understands industry logistics, technical terminologies, and procedures for the occupational area.

4. The teacher understands industry trends and labor market needs.

5. The teacher understands workplace leadership models.

6. The teacher understands the philosophical principles and the practices of professional-technical education.

7. The teacher understands the importance of student leadership qualities in technical program areas.
Performance
1. The teacher maintains current technical skills and seeks continual improvement.
2. The teacher demonstrates specific occupational skills necessary for employment.
3. The teacher uses current terminology, industry logistics, and procedures for the occupational area.
4. The teacher incorporates and promotes leadership skills in state-approved Professional-Technical Student Organizations (PTSO).
5. The teacher writes and evaluates occupational objectives and competencies.
6. The teacher uses a variety of technical instructional resources.
7. The teacher assesses the occupational needs of the community.
8. The teacher facilitates experiences designed to develop skills for successful employment.
9. The teacher informs students about opportunities to develop employment skills (e.g., work-study programs, internships, volunteer work, and employment opportunities).

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Knowledge
1. The teacher understands the entry-level skills in the occupation.
2. The teacher understands workplace culture and ethics.
3. The teacher understands how to provide students with realistic occupational and/or work experiences.
4. The teacher knows how to use education professionals, trade professionals, and research to enhance student understanding of processes, knowledge, and safety.
5. The teacher understands how occupational trends and issues affect the workplace.
6. The teacher understands how to integrate academic skills into technical content areas.

7. The teacher understands the role of innovation and entrepreneurship in the workplace.

8. The teacher understands integration of leadership training, community involvement, and personal growth into instructional strategies.

Performance
1. The teacher models appropriate workplace practices and ethics.

2. The teacher discusses state guidelines to aid students in understanding the trends and issues of an occupation.

3. The teacher integrates academic skills appropriate for each occupational area.

4. The teacher uses simulated and/or authentic occupational applications of course content.

5. The teacher uses experts from business, industry, and government as appropriate for the content area.

6. The teacher develops a scope and sequence of instruction related to the students’ prior knowledge and that aligns with articulation requirements and course competencies.

7. The teacher integrates instructional strategies and techniques that accommodate prior student knowledge.

8. The teacher discusses innovation and the entrepreneurial role in the workforce and incorporates them where possible.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.
Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Knowledge
1. The teacher recognizes the scope and sequence of content and PTSOs across secondary and postsecondary technical curricula.
2. The teacher knows how to identify community and industry expectations and access resources.

Performance
1. The teacher designs instruction that aligns with secondary and postsecondary curricula that develops technical competencies.
2. The teacher designs instruction to meet community and industry expectations.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Knowledge
1. The teacher knows how to use information about a student’s progress, including assessments, to evaluate work-readiness.
2. The teacher knows how to conduct a follow-up survey of graduates and how to use the information to modify curriculum and make program improvement.
3. The teacher understands how evaluation connects to instruction.

Performance
1. The teacher writes and evaluates occupational goals, objectives, and competencies.
2. The teacher develops clear learning objectives and creates and integrates appropriate assessment tools to measure student learning.
3. The teacher modifies the curriculum, instruction, and the program based on student progress and follow-up data from recent graduates and employers.
Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continually engaged in purposeful mastery of the art and science of teaching.

Knowledge
1. The teacher understands the value and impact of having a professional development plan.
2. The teacher understands how sustained professionalism reflects on him or her as an educator and as a representative of his or her industry.

Performance
1. The teacher collaborates with an administrator to create a professional development plan.
2. The teacher evaluates and reflects on his or her own level of professionalism as an educator and as a representative of his or her industry.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.

Knowledge
1. The teacher knows the contributions of advisory committees.
2. The teacher understands the importance of using the employment community to validate occupational skills.
3. The teacher understands how to effect change in professional-technical education and in the occupational area taught.
4. The teacher knows about professional organizations within the occupational area.
5. The teacher knows how to cooperatively develop articulation agreements between secondary and postsecondary programs.
6. The teacher understands the structure of state-approved PTSOs.
7. The teacher understands the ideas, opinions, and perceptions of business and industry.
Performance

1. The teacher establishes and uses advisory committees for program development and improvement.

2. The teacher cooperates with educators in other content areas to develop appropriate instructional strategies and to integrate learning.

3. The teacher interacts with business, industry, labor, government, and the community to build effective partnerships.

4. The teacher participates in appropriate professional organizations.

5. The teacher cooperatively constructs articulation agreements.

6. The teacher incorporates an active state-approved PTSO in his or her program.

7. The teacher understands the role of PTSOs as an integral part of the total professional-technical education program.

Standard 11: Learning Environment - The teacher creates and manages a safe and productive learning environment.

Knowledge

1. The teacher understands how to dispose of waste materials.

2. The teacher understands how to care for, inventory, and maintain materials and equipment.

3. The teacher understands safety contracts and operation procedures.

4. The teacher understands legal safety issues related to the program area.

5. The teacher understands safety requirements necessary to conduct laboratory and field activities.

6. The teacher understands time and organizational skills in laboratory management.
7. The teacher is aware of safety regulations at school and work sites.

8. The teacher understands how to incorporate PTSOs as intracurricular learning experiences.

**Performance**

1. The teacher ensures that facilities, materials, and equipment are safe to use.

2. The teacher instructs and models safety procedures and documents safety instruction, and updates each according to industry standards.

3. The teacher demonstrates effective management skills in the classroom and laboratory environments.

4. The teacher models and reinforces effective work and safety habits.

5. The teacher incorporates PTSOs as intracurricular learning experiences.

*Standard 12: Workplace Preparation - The teacher prepares students to meet the competing demands and responsibilities of the workplace.*

**Knowledge**

1. The teacher understands workplace employability skills and related issues.

2. The teacher understands the issues of balancing work and personal responsibilities.

3. The teacher understands how to promote career awareness.

**Performance**

1. The teacher designs instruction that addresses employability skills and related workplace issues.

2. The teacher discusses how to balance demands between work and personal responsibilities.

3. The teacher provides opportunities for career awareness and exploration.
Idaho Standards for Agricultural Science and Technology Teachers

In addition to the standards listed here, agricultural science and technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Professional-Technical Teachers.

The following knowledge and performance statements for the agricultural science and technology teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.

Knowledge

1. The teacher understands biological, physical, and applied sciences relative to practical solutions for the agricultural industry.

2. The teacher knows about production agriculture.

3. The teacher knows plant and animal science, agricultural business management, and agricultural mechanics, as well as computer and other technology related to these areas.

4. The teacher understands and has experience in one or more of the following specialized occupational areas:

   a. Agricultural production and marketing
b. Agricultural equipment and supplies

c. Agriculture product processing

d. Ornamental horticulture and turf grass management (e.g. floriculture, greenhouse management)

e. Agricultural business planning and analysis

f. Natural resource management

g. Environmental science

h. Forestry

i. Small animal production and care

5. The teacher understands how to advise, oversee and operate a local FFA chapter and how it relates to the Idaho State and National FFA organizations.

6. The teacher understands how to organize and implement supervised agricultural experience programs including but not limited to working with parents, students, adults, and employers.

7. The teacher is familiar with the administrative duties related to being a secondary agriculture teacher (e.g. extended contract, state reporting procedures, FFA, and SAE).

Performance

1. The teacher applies natural and physical science principles to practical solutions.

2. The teacher discusses production agriculture.

3. The teacher discusses and demonstrates, as appropriate, content and best practices of plant and animal science; agricultural business management; and agricultural mechanics; and integrates computer and other technology related to these areas.

4. The teacher advises, oversees and operates a local FFA chapter in relationship to the Idaho State and National FFA organizations.

5. The teacher organizes and implements supervised agricultural experience programs including but not limited to working with parents, students, adults and employers.

6. The teacher observes administrative duties related to being a secondary agriculture teacher (e.g. extended contract, state reporting procedures, FFA, and SAE).
Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Standards for Business Technology Teachers

In addition to the standards listed here, business technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Professional-Technical Teachers.

The following knowledge and performance statements for the business technology teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.

Knowledge

1. The teacher possesses a foundational level of knowledge about a broad range of business subjects, for example, accounting, business law, communications, economics, information systems, international business, management, marketing, and office administration.

2. The teacher possesses knowledge in areas related to business, career education, entrepreneurship, interrelationships in business, mathematics, and personal finance.

3. The teacher possesses knowledge of appropriate technology.

4. The teacher understands how to advise, oversee and operate a local Business Professionals of America (BPA) chapter and how it relates to the Idaho State and National BPA organizations.
Performance

1. The teacher demonstrates industry-standard skill levels required by the endorsement, for example, in accounting, business technology and office procedures.

2. The teacher effectively delivers business and business technology content at the junior high, middle school, and/or secondary levels.

3. The teacher demonstrates the efficient use of technology to accomplish tasks related to business and industry.

4. The teacher integrates BPA through intracurricular approaches in the business program of study.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.
Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Standards for Family and Consumer Sciences Teachers

In addition to the standards listed here, family and consumer sciences teachers must meet the Idaho Core Teacher Standards and Idaho Foundation Standards for Professional-Technical Teachers.

The following knowledge and performance statements for the family and consumer sciences teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.

Knowledge

1. The teacher understands the significance of family and its impact on the well-being of children, adults, and society and the multiple life roles and responsibilities in family, career, and community settings.

2. Teacher understands the impact of families’ multiple roles within the home, workplace and community.

3. The teacher knows of community agencies and organizations that provide assistance to individuals and families.

4. The teacher understands how interpersonal relationships, cultural patterns, and diversity affect individuals, families, community, and the workplace.

5. The teacher understands the roles and responsibilities of parenting and factors that affect human growth and development across the life span.
6. The teacher understands the science and practical application involved in planning, selecting, preparing, and serving food according to the principles of sound nutrition, cultural and economic needs of individuals, families, and industry; along with practices to encourage wellness for life.

7. The teacher understands the design, selection, and care of textiles and apparel products.

8. The teacher understands housing, design, furnishings, technology, and equipment needs for individuals, families, and industry.

9. The teacher understands consumer economic issues and behavior for managing individual and family resources to achieve goals at various stages of the life cycle.

10. The teacher understands resource conservation and environmental issues in relation to family and community health.

11. The teacher understands the nature of the profession and knows of careers related to family and consumer sciences.

12. The teacher understands how social media can influence communication and outcomes between individuals, family members, and community connections.

13. The teacher understands how to incorporate Family, Career and Community Leaders of America (FCCLA) as intracurricular learning experiences.

**Performance**

1. The teacher demonstrates a command of instructional methodology in the delivery of family and consumer sciences content at the middle and secondary school levels.

2. The teacher integrates Family, Career and Community Leaders of America, FCCLA into family and consumer sciences instruction.

3. The teacher validates the significance of family and its impact on the well-being of children, adults, individuals and society and the multiple life roles and responsibilities in family, work career, and community settings.

4. The teacher selects and creates learning experiences that include the impact of families’ multiple roles within the home, workplace and community.

5. The teacher knows of community agencies and organizations that provide assistance to individuals and families.

6. The teacher selects and creates learning experiences that include how interpersonal relationships, cultural patterns, and diversity affect individuals, families, community, and the workplace.
7. The teacher promotes the roles and responsibilities of parenting and factors that affect human growth and development across the life span.

8. The teacher incorporates the science and practical application involved in planning, selecting, preparing, and serving food according to the principles of sound nutrition, and cultural and economic needs of individuals, and families, and industry; along with practices to encourage wellness for life.

9. The teacher demonstrates the design, selection, and care of textiles and apparel products.

10. The teacher demonstrates housing, design, furnishings, technology, and equipment needs for individuals, and families, and industry.

11. The teacher integrates consumer economic issues about and behavior for managing individual and family resources to achieve goals at various stages of the life cycle.

12. The teacher integrates resource conservation and environmental issues in relation to family and community health.

13. The teacher maintains an awareness of the nature of the profession and knows of careers related to family and consumer sciences.

14. The teacher selects and creates learning experiences on how social media can influence communication and outcomes between individuals, family members, and community connections.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Knowledge

1. The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, physical, emotional and moral development.

Performance

1. The teacher develops lessons which focus on progressions and ranges of individual variation within intellectual, social, physical, emotional and moral development and their interrelationships.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.
Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher understands individual and group motivation and behavior and creates a student centered learning environment that encourages positive social interaction, active engagement in learning, exploration of adaptive solutions, and self-motivation.

Performance

1. The teacher promotes individual and group motivation and behavior and creates a student centered learning environment that encourages positive social interaction, active engagement in learning, exploration of adaptive solutions, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Knowledge

1. The teacher understands how to apply knowledge about the current subject matter, learning theory, instructional strategies, curriculum development, evaluation, and child and adolescent development to meet curriculum goals using family and consumer sciences national standards and other resources.

2. The teacher understands how program alignment across grade levels and disciplines maximizes learning.

Performance

1. The teacher maximizes such elements as instructional materials; individual student interests, needs, and aptitudes; technology and community resources in planning instruction that creates an effective bridge between curriculum goals and students learning.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.
Knowledge

1. The teacher understands formal and informal comprehensive and industry assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Performance

1. The teacher uses and interprets formal and informal comprehensive and industry assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Knowledge

1. The teacher understands how to research and select relevant professional development aligned to curriculum and industry standards.

Performance

1. The teacher participates in continual relevant professional development in order to stay current in content areas.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Standards for Marketing Technology Teachers

In addition to the standards listed here, marketing technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Professional-Technical Teachers.

The following knowledge and performance statements for the marketing technology teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.

Knowledge

1. The teacher possesses a foundational level of knowledge about a broad range of business subjects for example, accounting, business law, communications, economics, information systems, international business, management, marketing, merchandising, and retailing.

2. The teacher possesses knowledge in areas related to marketing, for example, business technology, career education, entrepreneurship, mathematics, personal finance, and interrelationships in business.

3. The teacher possesses knowledge of appropriate technology.

4. The teacher understands how to advise, oversee, and operate a local DECA/Collegiate DECA professional-technical student organization as a part of the state and national organization, and its intracurricular role in marketing education.
Performance

1. The teacher demonstrates industry-standard skill levels—required by the endorsement, for example accounting, advertising, coordination techniques, and promotions.

2. The teacher effectively delivers marketing content at the junior high, middle school and/or high school levels.

3. The teacher demonstrates the efficient use of technology to accomplish tasks related to business and industry.

4. The teacher embeds DECA/Collegiate DECA activities and curriculum through an intracurricular approach within the marketing program of study.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who...
demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.

Standard 11: Learning Environment - The teacher creates and manages a safe and productive learning environment.

Standard 12: Workplace Preparation - The teacher prepares students to meet the competing demands and responsibilities of the workplace.
Idaho Standards for Technology Education Teachers

In addition to the standards listed here, technology education teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Professional-Technical Teachers.

The following knowledge and performance statements for the technology education teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.

Knowledge

1. The teacher has a basic understanding of contemporary communications; manufacturing; power, energy, and transportation; construction; electronics; computer systems; and other relevant emerging technologies.

2. The teacher understands the operation and features of a computer-aided design and computer-aided manufacturing systems.

3. The teacher understands the principles and concepts of engineering design, technology and the associated mathematics and science concepts.

4. The teacher knows the classical and contemporary elements, principles, and processes of structural systems.
5. The teacher understands industry logistics, technical terminologies and procedures for the technology occupational area.

6. The teacher understands the importance of team dynamics and the project management process when working in the technology occupational areas.

Performance
1. The teacher demonstrates the basic skills that support the fields of communications; manufacturing; power, energy, and transportation; construction; electronics; computer technology and other relevant emerging technologies.

2. The teacher demonstrates how to install, maintain, and troubleshoot computers and peripheral equipment, telecommunications equipment, and other related technology applications.

3. The teacher demonstrates architectural and mechanical drafting and developmental skills.

4. The teacher demonstrates the various phases of the engineering design process.

5. The teacher creates opportunities for students to work collaboratively in teams and practice the project management processes related to the technology occupational areas.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.
Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Foundation Standards for Science Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Science Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

In addition to the standards listed here, science teachers must meet Idaho Core Teacher Standards and at least one of the following: (1) Idaho Standards for Biology Teachers, (2) Idaho Standards for Chemistry Teachers, (3) Idaho Standards for Earth and Space Science Teachers, (4) Idaho Standards for Natural Science Teachers, (5) Idaho Standards for Physical Science Teachers, or (6) Idaho Standards for Physics Teachers.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher knows the history and nature of science and scientific theories.

2. The teacher understands the science content with in the context of the Idaho Science Content Standards within their appropriate certification.
3. The teacher understands the concepts of form and function.

4. The teacher understands the interconnectedness among the science disciplines.

5. The teacher understands the process of scientific inquiry: investigate scientific phenomena, interpret findings, and communicate results.

7. The teacher knows how to construct deeper understanding of scientific phenomena through study, demonstrations, and laboratory and field activities.

8. The teacher understands the importance of accurate and precise measurements in science and reports measurements in an understandable way.

Performance

1. The teacher provides students with opportunities to view science in its cultural and historical context by using examples from history and including scientists of both genders and from varied social and cultural groups.

2. The teacher continually adjusts curriculum and activities to align them with new scientific data.

3. The teacher provides students with a holistic, interdisciplinary understanding of concepts in life, earth systems/space, physical, and environmental sciences.

4. The teacher helps students build scientific knowledge and develop scientific habits of mind.

5. The teacher demonstrates competence in investigating scientific phenomena, interpreting findings, and communicating results.

6. The teacher models and encourages the skills of scientific inquiry, including creativity, curiosity, openness to new ideas, and skepticism that characterize science.

7. The teacher creates lessons, demonstrations, and laboratory and field activities that effectively communicate and reinforce science concepts and principles.

8. The teacher engages in scientific inquiry in science coursework.
**Standard 2: Knowledge of Human Development and Learning -** The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

**Knowledge**

1. The teacher knows how students construct scientific knowledge and develop scientific habits of mind.

2. The teacher knows commonly held conceptions and misconceptions about science and how they affect student learning.

**Performance**

1. The teacher identifies students’ conceptions and misconceptions about the natural world.

2. The teacher engages students in constructing deeper understandings of the natural world.

**Standard 3: Modifying Instruction for Individual Needs -** The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

**Standard 4: Multiple Instructional Strategies -** The teacher understands and uses a variety of instructional strategies to develop student learning.

**Knowledge**

1. The teacher understands how to apply mathematics and technology to analyze, interpret, and display scientific data.

2. The teacher understands how to implement scientific inquiry.

3. The teacher understands how to engage students in making deeper sense of the natural world through careful orchestration of demonstrations of phenomena for larger groups when appropriate.

4. The teacher understands how to use research based best practices to engage students in learning science.
Performance

1. The teacher applies mathematical derivations and technology in analysis, interpretation, and display of scientific data.

2. The teacher uses instructional strategies that engage students in scientific inquiry and that develop scientific habits of mind.

3. The teacher engages students in making deeper sense of the natural world through careful orchestration of demonstrations of phenomena for larger groups when appropriate.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Knowledge

1. The teacher knows how to use a variety of interfaced electronic hardware and software for communicating data.

2. The teacher knows how to use graphics, statistical, modeling, and simulation software, as well as spreadsheets to develop and communicate science concepts.

3. The teacher understands technical writing as a way to communicate science concepts and processes.

Performance

1. The teacher models the appropriate scientific interpretation and communication of scientific evidence through technical writing, scientific posters, multimedia presentations, and electronic communications media.

2. The teacher engages students in sharing data during laboratory investigation to develop and evaluate conclusions.

3. The teacher engages students in the use of computers in laboratory/field activities to gather, organize, analyze, and graphically present scientific data.
4. The teacher engages students in the use of computer modeling and simulation software to communicate scientific concepts.

**Standard 7: Instructional Planning Skills** - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

**Standard 8: Assessment of Student Learning** - Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

**Standard 9: Professional Commitment and Responsibility** - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

**Knowledge**

1. The teacher understands the importance of keeping current on research related to how students learn science.

2. The teacher understands the importance of keeping current on scientific research findings.

**Performance**

1. The teacher incorporates current research related to student learning of science into science curriculum and instruction.

2. The teacher incorporates current scientific research findings into science curriculum and instruction.

**Standard 10: Partnerships** - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.

**Standard 11: Safe Learning Environment** - The science teacher provides for a safe learning environment.
Knowledge

1. The teacher knows how to select materials that match instructional goals as well as how to maintain a safe environment.

2. The teacher is aware of available resources and standard protocol for proper disposal of waist materials.

3. The teacher knows how to properly care for, inventory, and maintain materials and equipment.

4. The teacher is aware of legal responsibilities associated with safety.

5. The teacher knows the safety requirements necessary to conduct laboratory and field activities and demonstrations.

6. The teacher knows how to procure and use Material Safety Data Sheets (MSDS).

Performance

1. The teacher develops instruction that uses appropriate materials and ensures a safe environment.

2. The teacher creates and ensures a safe learning environment by including appropriate documentation of activities.

3. The teacher makes informed decisions about the use of specific chemicals or performance of a lab activity regarding facilities and student age and ability.

4. The teacher models safety at all times.

5. The teacher makes use of Material Safety Data Sheet (MSDS) and storage information for laboratory materials.

6. The teacher creates lesson plans and teaching activities consistent with appropriate safety considerations.

7. The teacher evaluates lab and field activities for safety.
8. The teacher evaluates a facility for compliance to safety regulations.

9. The teacher uses safety procedures and documents safety instruction.

10. The teacher demonstrates the ability to acquire, use, and maintain materials and lab equipment.

11. The teacher implements laboratory, field, and demonstration safety techniques.

**Standard 12: Laboratory and Field Activities** - The science teacher demonstrates competence in conducting laboratory, and field activities.

**Knowledge**
1. The teacher knows a broad range of laboratory and field techniques.

2. The teacher knows strategies to develop students’ laboratory and field skills.

**Performance**
1. The teacher engages students in a variety of laboratory and field techniques.

2. The teacher uses a variety of instructional strategies in laboratory and field experiences to engage students in developing their understanding of the natural world.
Idaho Standards for Biology Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, biology teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Biology Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands that there are unifying themes in biology, including levels from molecular to whole organism.

2. The teacher knows the currently accepted taxonomy systems used to classify living things.

3. The teacher understands scientifically accepted theories of how living systems evolve through time.

4. The teacher understands how genetic material and characteristics are passed between generations and how genetic material guide cell and life processes.
5. The teacher knows biochemical processes that are involved in life functions.

6. The teacher knows that living systems interact with their environment and are interdependent with other systems.

7. The teacher understands that systems in living organisms maintain conditions necessary for life to continue.

8. The teacher understands the cell as the basis for all living organisms and how cells carry out life functions.

9. The teacher understands how matter and energy flow through living and non-living systems.

10. The teacher knows how the behavior of living organisms changes in relation to environmental stimuli.

**Performance**

1. The teacher prepares lessons that help students understand the flow of matter and energy through living systems.

2. The teacher assists students in gaining an understanding of the ways living things are interdependent.

3. The teacher assists students in understanding how living things impact/change their environment and how the physical environment impacts/changes living things.

4. The teacher helps students understand how the principles of genetics apply to the flow of characteristics from one generation to the next.

5. The teacher helps students understand how genetic “information” is translated into living tissue and chemical compounds necessary for life.

6. The teacher helps students understand accepted scientific theories of how life forms have evolved through time and the principles on which these theories are based.

7. The teacher helps students understand the ways living organisms are adapted to their environments.
8. The teacher helps students understand the means by which organisms maintain an internal environment that will sustain life.

9. The teacher helps students classify living organisms into appropriate groups by the current scientifically accepted taxonomic techniques.

10. The teacher helps students understand a range of plants and animals from one-celled organisms to more complex multi-celled creatures composed of systems with specialized tissues and organs.

11. The teacher helps students develop the ability to evaluate ways humans have changed living things and the environment of living things to accomplish human purposes (e.g., agriculture, genetic engineering, dams on river systems, and burning fossil fuels).

12. The teacher helps students understand that the cell, as the basis for all living organisms, carries out life functions.

**Standard 2: Knowledge of Human Development and Learning -** The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

**Standard 3: Modifying Instruction for Individual Needs -** The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

**Standard 4: Multiple Instructional Strategies -** The teacher understands and uses a variety of instructional strategies to develop student learning.

**Standard 5: Classroom Motivation and Management Skills -** The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

**Standard 6: Communication Skills -** The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

**Standard 7: Instructional Planning Skills -** The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.
Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Standards for Chemistry Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, chemistry teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Chemistry Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher has a broad knowledge of mathematical principles, including calculus, and is familiar with the connections that exist between mathematics and chemistry.

2. The teacher understands the subdivisions and procedures of chemistry and how they are used to investigate and explain matter and energy.

3. The teacher understands that chemistry is often an activity organized around problem solving and demonstrates ability for the process.
4. The teacher understands the importance of accurate and precise measurements in chemistry and reports measurements in an understandable way.

5. The teacher understands the importance of accurate and precise measurements in science and reports measurements in an understandable way. CORE STANDARDS

6. The teacher knows matter contains energy and is made of particles (subatomic, atomic and molecular).

7. The teacher can identify and quantify changes in energy and structure.

8. The teacher understands the historical development of atomic and molecular theory.

9. The teacher knows basic chemical synthesis to create new molecules from prec? Molecules

10. The teacher understands the organization of the periodic table and can use it to predict physical and chemical properties.

11. The teacher knows the importance of carbon chemistry and understands the nature of chemical bonding and reactivity of organic molecules.

12. The teacher understands the electronic structure of atoms and molecules and the ways quantum behavior manifests itself at the molecular level.

13. The teacher has a fundamental understanding of quantum mechanics as applied to model systems (e.g., particles in a box).

14. The teacher understands the role of energy and entropy in chemical reactions and knows how to calculate concentrations and species present in mixtures at equilibrium.

15. The teacher knows how to use thermodynamics of chemical systems in equilibrium to control and predict chemical and physical properties.

16. The teacher understands the importance of research in extending and refining the field of chemistry and strives to remain current on new and novel results and applications.
Performance

1. The teacher consistently reinforces the underlying themes, concepts, and procedures of the basic areas of chemistry during instruction, demonstrations, and laboratory activities to facilitate student understanding.

2. The teacher models the application of mathematical concepts for chemistry (e.g., dimensional analysis, statistical analysis of data, and problem-solving skills).

3. The teacher helps the student make accurate and precise measurements with appropriate units and to understand that measurements communicate precision and accuracy.

4. The teacher helps the student develop strategies for solving problems using dimensional analysis and other methods.

5. The teacher helps the student understand that matter is made of particles and energy and that matter and energy are conserved in chemical reactions.

6. The teacher helps the student understand the composition of neutral and ionic atoms and molecules.

7. The teacher helps the student learn the language and symbols of chemistry, including the symbols of elements and the procedures for naming compounds and distinguishing charged states.

8. The teacher helps the student understand the structure of the periodic table and the information that structure provides about chemical and physical properties of the elements.

9. The teacher helps the student begin to categorize and identify a variety of chemical reaction types.

10. The teacher helps the student understand stoichiometry and develop quantitative relationships in chemistry.

11. The teacher helps the student understand and apply modern atomic, electronic and bonding theories.

12. The teacher helps the student understand ionic and covalent bonding in molecules and predict the formula and structure of stable common molecules.
13. The teacher helps the student understand the quantitative behavior of gases.

14. The teacher helps the student understand and predict the qualitative behavior of the liquid and solid states and determine the intermolecular attraction of various molecules.

15. The teacher helps the student understand molecular kinetic theory and its importance in chemical reactions, solubility, and phase behavior.

16. The teacher helps the student understand the expression of concentration and the behavior and preparation of aqueous solutions.

17. The teacher helps the student understand and predict the properties and reactions of acids and bases.

18. The teacher helps the student understand chemical equilibrium in solutions.

19. The teacher helps the student understand and use chemical kinetics.

20. The teacher helps the student understand and apply principles of chemistry to fields such as earth science, biology, physics, and other applied fields.

21. The teacher helps the student learn the basic organizing principles of organic chemistry.

22. The teacher can do chemical calculations in all phases using a variety of concentration units including pH, molarity, number density, molality, mass and volume percent, parts per million and other units.

23. The teacher can prepare dilute solutions at precise concentrations and perform and understand general analytical procedures and tests, both quantitative and qualitative.

24. The teacher can use stoichiometry to predict limiting reactants, product yields and determine empirical and molecular formulas.

25. The teacher can correctly name acids, ions, inorganic and organic compounds, and can predict the formula and structure of stable common compounds.
26. The teacher can identify, categorize and understand common acid-base, organic and biochemical reactions.

27. The teacher can demonstrate basic separations in purifications in the lab, including chromatography, crystallization, and distillation.

**Standard 2: Knowledge of Human Development and Learning** - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

**Standard 3: Modifying Instruction for Individual Needs** - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

**Standard 4: Multiple Instructional Strategies** - The teacher understands and uses a variety of instructional strategies to develop student learning.

**Standard 5: Classroom Motivation and Management Skills** - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

**Standard 6: Communication Skills** - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

**Standard 7: Instructional Planning Skills** - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

**Standard 8: Assessment of Student Learning** - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

**Standard 9: Professional Commitment and Responsibility** - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.
Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.
Idaho Standards for Earth and Space Science Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, earth and space science teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the earth and space science teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

**Standard 1: Knowledge of Subject Matter** - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

**Knowledge**

1. The teacher knows how local events can potentially impact local, regional, and global conditions.

2. The teacher understands the rock cycle and the classification systems for rocks and minerals.

3. The teacher understands the theory of plate tectonics and the resulting processes of mountain building, earthquakes, oceanic trenches, volcanoes, sea floor spreading, and continental drift.

4. The teacher understands the sun, moon and earth system and the resulting phenomena.
5. The teacher knows earth history as interpreted using scientific evidence.

6. The teacher understands the composition of the earth and its atmosphere.

7. The teacher understands processes of weathering, erosion, and soil development (e.g., mass wasting, spheroidal weathering, alluvial fans, physical and chemical weathering, glaciers, stream valleys, cirques, and stream terraces).

8. The teacher knows multiple scientific theories of the origin of galaxies, planets, and stars.

9. The teacher understands the concept of the interaction of forces and other physical science concepts about earth and astronomical change.

10. The teacher understands the flow of energy and matter through earth and astronomic systems.

11. The teacher knows the concepts of weather and climate.

12. The teacher understands ocean environments and how the physical forces on the surface of the earth interact with them.

**Performance**

1. The teacher helps students understand the flow of energy and matter through earth and space systems.

2. The teacher helps students understand seasonal changes in terms of the relative position and movement of the earth and sun.

3. The teacher helps students understand the causes of weather and climate in relation to physical laws of nature.

4. The teacher helps students understand the types of rocks and how they change from one type of rock to another as they move through the rock cycle.

5. The teacher helps students understand the theory of plate tectonics, including continental drift, volcanism, mountain building, ocean trenches, and earthquakes.
6. The teacher helps students understand how scientists use indirect methods, including knowledge of physical principles, to learn about astronomical objects.

7. The teacher helps students understand how accepted scientific theories about prehistoric life are developed.

8. The teacher assists students as they critically evaluate the quality of the data on which scientific theories are based.

9. The teacher helps students understand the movement of air, water, and solid matter in response to the flow of energy through systems.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.
Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Standards for Natural Science Teachers

Teachers with natural science endorsements must meet all of the following standards:

1. *Idaho Core Teacher Standards*

2. *Idaho Foundation Standards for Science Teachers AND*

3. *Idaho Standards for Biology Teachers OR*

4. *Idaho Standards for Earth and Space Science Teachers OR*

5. *Idaho Standards for Chemistry Teachers OR*

6. *Idaho Standards for Physics Teachers*
Idaho Standards for Physical Science Teachers

Teachers with physical science endorsements must meet all of the following standards:

1. *Idaho Core Teacher Standards*

2. *Idaho Foundation Standards for Science Teachers AND*

3. *Idaho Standards for Chemistry Teachers OR*

4. *Idaho Standards for Physics Teachers*
Idaho Standards for Physics Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here physics teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the physics teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands electromagnetic and gravitational interactions as well as concepts of matter and energy to formulate a coherent understanding of the natural world.

2. The teacher understands the major concepts and principles of the basic areas of physics, including classical and quantum mechanics, thermodynamics, waves, optics, electricity, magnetism, and nuclear physics.

3. The teacher knows how to apply appropriate mathematical and problem solving principles including algebra, geometry, trigonometry, calculus, and statistics in the description of the physical world and is familiar with the connections between mathematics and physics.
4. The teacher understands contemporary physics events, research, and applications.

5. The teacher knows multiple explanations and models of physical phenomena and the process of developing and evaluating explanations of the physical world.

6. The teacher knows the historical development of models used to explain physical phenomena.

**Performance**

1. The teacher engages students in developing and applying conceptual models to describe the natural world.

2. The teacher engages students in testing and evaluating physical models through direct comparison with the phenomena via laboratory and field activities and demonstrations.

3. The teacher engages students in the appropriate use of mathematical principles in examining and describing models for explaining physical phenomena.

4. The teacher engages student in the examination and consideration of the models used to explain the physical world.

**Standard 2: Knowledge of Human Development and Learning -** The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

**Standard 3: Modifying Instruction for Individual Needs -** The teacher understands and uses a variety of instructional strategies to develop student learning.

**Standard 4: Multiple Instructional Strategies -** The teacher understands and uses a variety of instructional strategies to develop student learning.

**Standard 5: Classroom Motivation and Management Skills -** The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

**Standard 6: Communication Skills -** The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.
Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Foundation Standards for Social Studies Teachers

Social Studies teachers must meet Idaho Core Teacher Standards and Idaho Foundations Standards for Social Studies Teachers and one of the following: (1) Idaho Standards for Economics Teachers, (2) Idaho Standards for Geography Teachers, (3) Idaho Standards for Government and Civics Teachers, (4) Idaho Standards for History Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Social Studies Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

Standard I: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher has a broad knowledge base of the social studies and related disciplines (e.g., history, economics, geography, political science, behavioral sciences, and humanities).

2. The teacher understands the ways various governments and societies have changed over time.

3. The teacher understands ways in which independent and interdependent systems of trade and production develop.

4. The teacher understands the impact that cultures, religions, technologies, social movements, economic systems, and other factors have on civilizations.
5. The teacher understands the responsibilities and rights of citizens in the United States political system, and how citizens exercise those rights and participate in the system.

6. The teacher understands geography affects relationships between people, and environments over time.

7. The teacher understands the appropriate use of primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, and statistical data) in interpreting social studies concepts.

Performance
1. The teacher demonstrates chronological historical thinking.

2. The teacher compares and contrasts various governments and cultures in terms of their diversity, commonalties, and interrelationships.

3. The teacher integrates knowledge from the social studies in order to prepare students to live in a world with limited resources, cultural pluralism, and increasing interdependence.

4. The teacher incorporates current events, global perspectives, and scholarly research into the curriculum.

5. The teacher uses primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, and data interpretation) when presenting social studies concepts.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Knowledge
1. The teacher understands the influences that contribute to intellectual, social, and personal development.

2. The teacher understands the impact of student environment on student learning.
Performance

1. The teacher provides opportunities for students to engage in civic life, politics, and government.

*Standard 3: Modifying Instruction for Individual Needs* - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

*Standard 4: Multiple Instructional Strategies* - The teacher understands and uses a variety of instructional strategies to develop student learning.

*Standard 5: Classroom Motivation and Management Skills* - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

*Standard 6: Communication Skills* - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

*Standard 7: Instructional Planning Skills* - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

*Standard 8: Assessment of Student Learning* - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

*Standard 9: Professional Commitment and Responsibility* - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

*Standard 10: Partnerships* - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Standards for Economics Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here Economics teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Economics teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands basic economic concepts and models (e.g., scarcity, productive resources, voluntary exchange, unemployment, supply and demand credit/debt, market incentives, interest rate, and imports/exports).

2. The teacher understands the functions of money.

3. The teacher understands economic systems and the factors that influence each system (e.g., culture, values, belief systems, environmental and geographic impacts, and technology).
4. The teacher knows different types of economic institutions and how they differ from one another (e.g., business structures, stock markets, banking institutions, and labor unions).

5. The teacher understands how economic institutions shaped history and influence current economic practices.

6. The teacher understands the principles of sound personal finance and entrepreneurship.

7. The teacher understands fiscal and monetary policy.

Performance
1. The teacher demonstrates comprehension and analysis of economic principles and concepts.

2. The teacher engages students in the application of economic concepts in their roles as consumers, producers, and workers.

3. The teacher uses graphs, models, and equations to illustrate economic concepts.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.
Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Standards for Geography Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here Geography teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Geography teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge
1. The teacher understands the spatial organization of peoples, places, and environments.

2. The teacher understands the human and physical characteristics of places and regions.

3. The teacher understands the physical processes that shape and change the patterns of earth’s surface.

4. The teacher understands the reasons for the migration and settlement of human populations.
5. The teacher understands how human actions modify the physical environment and how physical systems affect human activity and living conditions.

6. The teacher understands the characteristics and functions of globes, atlases, maps, map projections, aerial photographs, satellite images, global positioning systems (GPS), geographic information systems (GIS), newspapers, journals, and databases.

**Performance**

1. The teacher uses past and present events to interpret political, physical, and cultural patterns.

2. The teacher relates the earth’s dynamic physical systems and its impact on humans.

3. The teacher relates population dynamics and distribution to physical, cultural, historical, economic, and political circumstances.

4. The teacher relates the earth’s physical systems and varied patterns of human activity to world environmental issues.

5. The teacher uses geographic resources (e.g., globes, atlases, maps, map projections, aerial photographs, satellite images, global positioning systems (GPS), geographic information systems (GIS), newspapers, journals, and databases).

**Standard 2: Knowledge of Human Development and Learning -** The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

**Standard 3: Modifying Instruction for Individual Needs -** The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

**Standard 4: Multiple Instructional Strategies -** The teacher understands and uses a variety of instructional strategies to develop student learning.
Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Standards for Government and Civics Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here government and civics teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the government and civics teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands the relationships between civic life, politics, and government.

2. The teacher understands the foundations of government and constitutional and principles of the United States political system.

3. The teacher understands the organization of local, state, federal, and tribal governments, and how power and responsibilities are organized, distributed, shared, and limited as defined by the United States Constitution.
4. The teacher understands the importance of international relations (e.g., evolution of foreign policy, national interests, global perspectives, international involvements, human rights, economic impacts, and environmental issues).

5. The teacher understands the role of public policy in shaping the United States political system.

6. The teacher understands the civic responsibilities and rights of all individuals in the United States (e.g., individual and community responsibilities, participation in the political process, rights and responsibilities of non-citizens, and the electoral process).

7. The teacher understands the characteristics of effective leadership.

**Performance**

1. The teacher promotes student engagement in civic life, politics, and government.

2. The teacher demonstrates comprehension and analysis of the foundations and principles of the United States political system and the organization and formation of the United States government.

3. The teacher demonstrates comprehension and analysis of United States foreign policy and international relations.

4. The teacher integrates global perspectives into the study of civics and government.

*Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*

*Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.*

*Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.*
Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Standards for History Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here history teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the history teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

*This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands themes and concepts in history (e.g., exploration, expansion, migration, immigration).

2. The teacher understands the political, social, cultural, and economic responses to industrialization and technological innovation.

3. The teacher understands how international relations impacted the development of the United States.

4. The teacher understands how significant compromises and conflicts defined and continue to define the United States.
5. The teacher understands the political, social, cultural, and economic development of the United States.

6. The teacher understands the political, social, cultural, and economic development of the peoples of the world.

7. The teacher understands the impact of gender, race, ethnicity, religion, and national origin on history.

8. The teacher understands the appropriate use of primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, and statistical data) in interpreting social studies concepts.

Performance

1. The teacher makes connections between political, social, cultural, and economic themes and concepts.

2. The teacher incorporates the issues of gender, race, ethnicity, religion, and national origin into the examination of history.

3. The teacher facilitates student inquiry on how international relationships impact the United States.

4. The teacher relates the role of conflicts to continuity and change across time.

5. The teacher demonstrates an ability to research, analyze, and interpret history.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.
Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Standards for Social Studies Teachers

Teachers with a social studies endorsement must meet the following Idaho Standards:

1. Idaho Core Teacher Standards AND

2. Foundation Social Studies Standards AND

3. History Standards OR

4. Government and Civics Standards OR

5. Economics Standards OR

6. Geography Standards
Idaho Standards for Special Education Exceptional Child Generalists

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

In addition to the standards listed here, special education exceptional child teachers must meet Idaho Core Teacher Standards and the Idaho Generalist Standards and may meet one of the following, if applicable: (1) Idaho Standards for Teachers of the Blind and Visually Impaired or (2) Idaho Standards for Teachers of the Deaf and Hard of Hearing.

The following knowledge and performance statements for the Special Education Generalist Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

**Standard 1: Knowledge of Subject Matter**—The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

**Knowledge**

1. The teacher understands the theories, history, philosophies, and models that provide the basis for special education practice.

2. The teacher understands concepts of language arts in order to help students develop and successfully apply their skills to many different situations, materials, and ideas.
3. The teacher understands major concepts, procedures, and reasoning processes of mathematics in order to foster student understanding.

**Performance**

1. The teacher demonstrates the application of theories and research-based educational models in special education practice.

2. The teacher implements best practice instruction across academic and non-academic areas to improve student outcomes.

**Standard 2: Knowledge of Human Development and Learning**—The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

**Knowledge**

1. The teacher understands how the learning patterns of students with disabilities may differ from the norm.

**Performance**

1. The teacher uses research-supported instructional strategies and practices (e.g., functional embedded skills approach, community-based instruction, task analysis, multi-sensory strategies, and concrete/manipulative techniques) to provide effective instruction in academic and nonacademic areas for students with disabilities.

**Standard 3: Modifying Instruction for Individual Needs**—The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

**Knowledge**

1. The teacher understands strategies for accommodating and adapting curriculum and instruction for students with disabilities.

2. The teacher knows the educational implications of exceptional conditions (e.g., sensory, cognitive, communication, physical, behavioral, emotional, and health impairments).
3. The teacher knows how to access information regarding specific student needs and disability-related issues (e.g., medical, support, and service delivery).

**Performance**

1. The teacher individualizes instruction to support student learning and behavior in various settings.

2. The teacher accesses and uses information about characteristics and appropriate supports and services for students with high and low incidence disabilities and syndromes.

3. The teacher locates, uses, and shares information on special health care needs and on the effects of various medications on the educational, cognitive, physical, social, and emotional behavior of students with disabilities.

**Standard 4: Multiple Instructional Strategies** — The teacher understands and uses a variety of instructional strategies to develop student learning.

**Knowledge**

1. The teacher understands individualized skills and strategies necessary for positive support of academic success (e.g., comprehension, problem solving, organization, study skills, test taking, and listening)

2. The teacher understands the developmental nature of social skills.

3. The teacher understands that appropriate social skills facilitate positive interactions with peers, family members, educational environments, and the community.

4. The teacher understands characteristics of expressive and receptive communication and the effect this has on designing social and educational interventions.

**Performance**

1. The teacher demonstrates the ability to teach students with disabilities in a variety of educational settings.

2. The teacher designs, implements, and evaluates instructional programs that enhance a student’s participation in the family, the school, and community activities.
2. The teacher advocates for and models the use of appropriate social skills.

3. The teacher provides social skills instruction that enhances student success.

4. The teacher creates an accessible learning environment through the use of assistive technology.

5. The teacher demonstrates the ability to implement strategies that enhance students’ expressive and receptive communication.

**Standard 5: Classroom Motivation and Management Skills** — The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

**Knowledge**

1. The teacher understands applicable laws, rules, regulations, and procedural safeguards regarding behavior management planning for students with disabilities.

2. The teacher understands applied behavioral analysis and ethical considerations inherent in behavior management (e.g., positive behavioral supports, functional behavioral assessment, behavior plans).

3. The teacher understands characteristics of behaviors concerning individuals with disabilities (e.g., self-stimulation, aggression, non-compliance, self-injurious behavior).

4. The teacher understands the theories and application of conflict resolution and crisis prevention/intervention.

3. The teacher understands that students with disabilities may require specifically designed strategies for motivation and instruction in socially appropriate behaviors and self-control.
Performance

1. The teacher modifies the learning environment (e.g., schedule, transitions, and physical arrangements) to prevent inappropriate behaviors and enhance appropriate behaviors.

2. The teacher coordinates the implementation of behavior plans with all members of the educational team.

3. The teacher creates an environment that encourages self-advocacy and increased independence.

4. The teacher demonstrates a variety of effective behavior management techniques appropriate to students with disabilities.

5. The teacher designs and implements positive behavior intervention strategies and plans appropriate to the needs of the individual student.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Knowledge

1. The teacher understands the characteristics of normal, delayed, and disordered communication and their effect on participation in educational and community environments.

2. The teacher knows strategies and techniques that facilitate communication for students with disabilities.

Performance

1. The teacher uses a variety of verbal and nonverbal communication techniques to assist students with disabilities to participate in educational and community environments.

2. The teacher supports and expands verbal and nonverbal communication skills of students with disabilities.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Knowledge
1. The teacher understands curricular and instructional practices used in the development of academic, social, language, motor, cognitive, and affective skills for students with disabilities.

2. The teacher understands curriculum and instructional practices in self-advocacy and life skills relevant to personal living and participation in school, community, and employment.

3. The teacher understands the general education curriculum and state standards developed for student achievement.

**Performance**

1. The teacher develops comprehensive, outcome-oriented Individual Education Plans (IEP) in collaboration with IEP team members.

2. The teacher conducts task analysis to determine discrete skills necessary for instruction and to monitor student progress.

3. The teacher evaluates and links the student’s skill development to the general education curriculum.

4. The teacher develops and uses procedures for monitoring student progress toward individual learning goals.

5. The teacher uses strategies for facilitating maintenance and generalization of skills across learning environments.

6. The teacher, in collaboration with parents/guardians and other professionals, assists students in planning for transition to post-school settings.

7. The teacher develops opportunities for career exploration and skill development in community-based settings.

8. The teacher designs and implements instructional programs that address independent living skills, vocational skills, and career education for students with disabilities.

9. The teacher considers issues related to integrating students with disabilities into and out of special centers, psychiatric hospitals, and residential treatment centers and uses resources accordingly.
Standard 8: Assessment of Student Learning — The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Knowledge

1. The teacher understands the legal provisions, regulations, and guidelines regarding assessment of students with disabilities.

2. The teacher knows the instruments and procedures used to assess students for screening, prereferral interventions, and following referral for special education services.

3. The teacher understands how to assist colleagues in designing adapted assessments.

4. The teacher understands the relationship between assessment and its use for decisions regarding special education service and support delivery.

5. The teacher knows the ethical issues and identification procedures for students with disabilities, including students from culturally and linguistically diverse backgrounds.

6. The teacher knows the appropriate accommodations and adaptations for state and district assessments.

Performance

1. The teacher analyzes assessment information to identify student needs and to plan how to address them in the general education curriculum.

2. The teacher collaborates with families and professionals involved in the assessment of students with disabilities.

3. The teacher gathers background information regarding academic, medical, and social history.

4. The teacher uses assessment information in making instructional decisions and planning individual programs that result in appropriate placement and intervention for all students with disabilities, including those from culturally or linguistically diverse backgrounds.
5. The teacher facilitates and conducts assessments related to secondary transition planning, supports, and services.

6. The teacher participates as a team member in creating the assessment plan that may include ecological inventories, portfolio assessments, functional assessments, and high and low assistive technology needs to accommodate students with disabilities.

_Standard 9: Professional Commitment and Responsibility—The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching._

_Performance_

1. The teacher practices within the Council for Exceptional Children Code of Ethics and other standards and policies of the profession.

_Standard 10: Partnerships—The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being._

_Knowledge_

1. The teacher understands current federal and state laws pertaining to students with disabilities, including due process rights related to assessment, eligibility, and placement.

2. The teacher understands variations of beliefs, traditions, and values regarding disability across cultures and the effect of these on the relationship among the student, family, and school.

3. The teacher knows the rights and responsibilities of parents/guardians, students, teachers, professionals, and schools as they relate to students with disabilities.

4. The teacher is aware of factors that promote effective communication and collaboration with students, parents/guardians, colleagues, and the community in a culturally responsive manner.

5. The teacher is familiar with the common concerns of parents/guardians of students with disabilities and knows appropriate strategies to work with parents/guardians to deal with these concerns.
6. The teacher knows the roles of students with disabilities, parents/guardians, teachers, peers, related service providers, and other school and community personnel in planning and implementing an individualized program.

7. The teacher knows how to train or access training for paraprofessionals.

8. The teacher knows about services, networks, and organizations for individuals with disabilities and their families, including advocacy and career, vocational, and transition support.

**Performance**

1. The teacher facilitates communication between the educational team, students, their families, and other caregivers.

2. The teacher trains or accesses training for paraprofessionals.

3. The teacher collaborates with team members to develop effective student schedules.

4. The teacher communicates the benefits, strengths, and constraints of special education services.

5. The teacher creates a manageable system to maintain all program and legal records for students with disabilities as required by current federal and state laws.

6. The teacher encourages and assists families to become active participants in the educational team (e.g., participating in collaborative decision making, setting instructional goals, and charting progress).

7. The teacher collaborates and consults with the student, the family, peers, regular classroom teachers, related service personnel, and other school and community personnel in integrating students with disabilities into various learning environments.

8. The teacher communicates with regular classroom teachers, peers, the family, the student, administrators, and other school personnel about characteristics and needs of students with disabilities.

9. The teacher participates in the development and implementation of rules and appropriate consequences at the classroom and school wide levels.
Standard 1: Learner Development and Individual Learning Differences - The teacher understands how exceptionalities may interact with development and learning and use this knowledge to provide meaningful and challenging learning experiences for individuals with exceptionalities.

Knowledge

1. The teacher understands how language, culture, and family background influence the learning of individuals with exceptionalities.

2. The teacher has an understanding of development and individual differences to respond to the needs of individuals with exceptionalities.

3. The teacher understands how exceptionalities can interact with development and learning.

Performance

1. The teacher modifies developmentally appropriate learning environments to provide relevant, meaningful, and challenging learning experiences for individuals with exceptionalities.

2. The teacher is active and resourceful in seeking to understand how primary language, culture, and family interact with the exceptionality to influence the individual’s academic and social abilities, attitudes, values, interests, and career and post-secondary options.

Standard 2: Learning Environments - The teacher creates safe, inclusive, culturally responsive learning environments so that individuals with exceptionalities become active and effective learners and develop emotional well-being, positive social interactions, and self-determination.

Knowledge

1. The teacher understands applicable laws, rules, regulations, and procedural safeguards regarding behavior management planning for students with disabilities.

2. The teacher knows how to collaborate with general educators and other colleagues to create safe, inclusive, culturally responsive learning environments to engage individuals with exceptionalities in meaningful learning activities and social interactions.

3. The teacher understands motivational and instructional interventions to teach individuals with exceptionalities how to adapt to different environments.
4. The teacher knows how to intervene safely and appropriately with individuals with exceptionalities in crisis (e.g., positive behavioral supports, functional behavioral assessment and behavior plans).

Performance

1. The teacher develops safe, inclusive, culturally responsive learning environments for all students, and collaborates with education colleagues to include individuals with exceptionalities in general education environments and engage them in meaningful learning activities and social interactions.

2. The teacher modifies learning environments for individual needs and regards an individual’s language, family, culture, and other significant contextual factors and how they interact with an individual’s exceptionality. The teacher modifies learning environment, and provides for the maintenance and generalization of acquired skills across environments and subjects.

3. The teacher structures learning environments to encourage the independence, self-motivation, self-direction, personal empowerment, and self-advocacy of individuals with exceptionalities, and directly teach them to adapt to the expectations and demands of differing environments.

4. The teacher safely intervenes with individuals with exceptionalities in crisis. Special education teachers are also perceived as a resource in behavior management that include the skills and knowledge to intervene safely and effectively before or when individuals with exceptionalities experience crisis, i.e., lose rational control over their behavior.

Standard 3: Curricular Content Knowledge - The teacher uses knowledge of general and specialized curricula to individualize learning for individuals with exceptionalities.

Knowledge

1. The teacher understands the central concepts, structures of the discipline, and tools of inquiry of the content areas they teach, and can organize this knowledge, integrate cross-disciplinary skills, and develop meaningful learning progressions for individuals with exceptionalities.

2. The teacher understands and uses general and specialized content knowledge for teaching across curricular content areas to individualize learning for individuals with exceptionalities.

3. The teacher knows how to modify general and specialized curricula to make them accessible to individuals with exceptionalities.

Performance
1. The teacher demonstrates in their planning and teaching, a solid base of understanding of the central concepts in the content areas they teach.

2. The teacher collaborates with general educators in teaching or co-teaching the content of the general curriculum to individuals with exceptionalities and designs appropriate learning, accommodations, and/or modifications.

3. The teacher uses a variety of specialized curricula (e.g., academic, strategic, social, emotional, and independence curricula) to individualize meaningful and challenging learning for individuals with exceptionalities.

**Standard 4: Assessment - The teacher uses multiple methods of assessment and data-sources in making educational decisions**

**Knowledge**

1. The teacher knows how to select and use technically sound formal and informal assessments that minimize bias.

2. The teacher has knowledge of measurement principles and practices, and understands how to interpret assessment results and guide educational decisions for individuals with exceptionalities.

3. In collaboration with colleagues and families, the teacher knows how to use multiple types of assessment information in making decisions about individuals with exceptionalities.

4. The teacher understands how to engage individuals with exceptionalities to work toward quality learning and performance and provide feedback to guide them.

5. The teacher understands assessment information to identify supports, adaptations, and modifications required for individuals with exceptionalities to access the general curriculum and to participate in school, system, and statewide assessment programs.

6. The teacher is aware of available technologies routinely used to support assessments (e.g., progress monitoring, curriculum-based assessments, etc.).

7. The teacher understands the legal policies of assessment related to special education referral, eligibility, individualized instruction, and placement for individuals with exceptionalities, including individuals from culturally and linguistically diverse backgrounds.
Performance

1. The teacher regularly monitors the learning progress of individuals with exceptionalities in both general and specialized content and makes instructional adjustments based on these data.

2. The teacher gathers background information regarding academic, medical, and social history.

3. The teacher conducts formal and/or informal assessments of behavior, learning, achievement, and environments to individualize the learning experiences that support the growth and development of individuals with exceptionalities.

4. The teacher integrates the results of assessments to develop a variety of individualized plans, including family service plans, transition plans, behavior change plans, etc.

5. The teacher participates as a team member in creating the assessment plan that may include ecological inventories, portfolio assessments, functional assessments, and high and low assistive technology needs to accommodate students with disabilities.

Standard 5: Instructional Planning and Strategies – The teacher selects, adapts, and uses a repertoire of evidence-based instructional strategies and interventions to advance learning of individuals with exceptionalities.

Knowledge

1. The teacher knows how to consider an individual’s abilities, interests, learning environments, and cultural and linguistic factors in the selection, development, and adaptation of learning experiences for individual with exceptionalities.

2. The teacher understands technologies used to support instructional assessment, planning, and delivery for individuals with exceptionalities.

3. The teacher is familiar with augmentative and alternative communication systems and a variety of assistive technologies to support the communication and learning of individuals with exceptionalities.

4. The teacher understands strategies to enhance language development, communication skills, and social skills of individuals with exceptionalities.
5. The teacher knows how to develop and implement a variety of education and transition plans for individuals with exceptionalities across a wide range of settings and different learning experiences in collaboration with individuals, families, and teams.

6. The teacher knows how to teach to mastery and promotes generalization of learning for individuals with exceptionalities.

7. The teacher knows how to teach cross-disciplinary knowledge and skills such as critical thinking and problem solving to individuals with exceptionalities.

8. The teacher knows how to enhance 21st Century student outcomes such as critical thinking, creative problem solving, and collaboration skills for individuals with exceptionalities, and increases their self-determination.

9. The teacher understands available technologies routinely used to support and manage all phases of planning, implementing, and evaluating instruction.

Performance

1. The teacher plans and uses a repertoire of evidence-based instructional strategies in promoting positive learning results in general and special curricula and in modifying learning environments for individuals with exceptionalities appropriately.

2. The teacher emphasizes explicit instruction with modeling, and guided practice to assure acquisition and fluency, as well as, the development, maintenance, and generalization of knowledge and skills across environments.

3. The teacher matches their communication methods to an individual’s language proficiency and cultural and linguistic differences.

4. The teacher utilizes universal design for learning, augmentative and alternative communication systems, and assistive technologies to support and enhance the language and communication of individuals with exceptionalities.

5. The teacher develops a variety of individualized transition plans, such as transitions from preschool to elementary school and from secondary settings to a variety of postsecondary work and learning contexts.
6. The teacher personalizes instructional planning within a collaborative context including the individuals with exceptionalities, families, professional colleagues, and personnel from other agencies as appropriate.

**Standard 6: Professional Learning and Ethical Practices** – *The teacher uses foundational knowledge of the field and the their professional Ethical Principles and Practice Standards to inform special education practice, to engage in lifelong learning, and to advance the profession.*

**Knowledge**

1. The teacher understands how foundational knowledge and current issues influence professional practice.

2. The teacher understands that diversity is a part of families, cultures, and schools, and that complex human issues can interact with the delivery of special education services.

3. The teacher understands the significance of lifelong learning and participates in professional activities and learning communities.

4. The teacher understands how to advance the profession by engaging in activities such as advocacy and mentoring.

5. The teacher knows how to create a manageable system to maintain all program and legal records for students with disabilities as required by current federal and state laws.

**Performance**

1. The teacher uses professional Ethical Principles and Professional Practice Standards to guide their practice.

2. The teacher provides guidance and direction to paraeducators, tutors, and volunteers.

3. The teacher plans and engages in activities that foster their professional growth and keep them current with evidence-based practices.

4. The teacher is sensitive to the aspects of diversity with individuals with exceptionalities and their families, and the provision of effective special education services for English learners with
exceptionalities and their families.

**Standard 7: Collaboration – The teacher will collaborate with families, other educators, related service providers, individuals with exceptionalities, and personnel from community agencies in culturally responsive ways to address the needs of individuals with exceptionalities across a range of learning experiences.**

**Knowledge**

1. The teacher understands the theory and elements of effective collaboration.

2. The teacher understands how to serve as a collaborative resource to colleagues.

3. The teacher understands how to use collaboration to promote the well-being of individuals with exceptionalities across a wide range of settings and collaborators.

4. The teacher understands how to collaborate with their general education colleagues to create learning environments that meaningfully include individuals with exceptionalities, and that foster cultural understanding, safety and emotional well-being, positive social interactions, and active engagement.

5. The teacher is familiar with the common concerns of parents/guardians of students with disabilities and knows appropriate strategies to work with parents/guardians to deal with these concerns.

6. The teacher knows about services, networks, and organizations for individuals with disabilities and their families, including advocacy and career, vocational, and transition support.

**Performance**

1. The teacher collaborates with the educational team to uphold current federal and state laws pertaining to students with disabilities, including due process rights related to assessment, eligibility, and placement.

2. The teacher collaborates with related-service providers, other educators including special education paraeducators, personnel from community agencies, and others to address the needs of individuals with exceptionalities.

3. The teacher involves individuals with exceptionalities and their families collaboratively in all aspects of the education of individuals with exceptionalities.
Idaho Standards for Teachers of the Blind and Visually Impaired

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

In addition to the standards listed here, teachers of the blind and visually impaired must meet Idaho Core Teacher Standards.

The following knowledge and performance statements for the Standards for Teachers of the Blind and Visually Impaired are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The teacher of students with visual impairments is well versed in the foundations for education of the blind and visually impaired, the physiology and functions of the visual system, and the effect of vision impairment has on the instructional program. Further, the teacher collaboratively designs instructional strategies based on the results of specialized assessments.

*This language was written by a committee of content experts and has been adopted verbatim.

**Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.**

**Knowledge**

1. The teacher knows the historical foundations for the education of children with visual impairments, including the array of service options.

2. The teacher knows the effects of medications on the visual system.
Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Knowledge

1. The teacher understands the need for students to establish proper posture, communication, self-esteem, and social skills.

2. The teacher knows the effects of a visual impairment on the student’s family and the reciprocal impact on the student’s self-esteem.

3. The teacher understands the variations in functional capabilities and the diverse implications that various eye diseases have on growth and development.

Performance

1. The teacher provides students with a means to independently access and re-create materials readily available to the sighted world.

2. The teacher prepares students who have visual impairments to respond to societal attitudes and actions with positive behavior, self-advocacy, and a sense of humor.

3. The teacher designs instructional experiences contingent on student and familial stages of acceptance of the visual impairment.

4. The teacher communicates information from the optometrist/ophthalmologist report to school personnel to confirm the educational implications of the eye condition and to ensure the student’s visual strengths are used.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Knowledge
1. The teacher knows the effects of a visual impairment on language and communication.

2. The teacher knows the impact of visual disorders on learning and experience.

3. The teacher knows methods for the development of special auditory, tactual, and modified visual communication skills for students with visual impairments (e.g., Braille reading and writing, handwriting for students with low vision and signature writing for blind students, listening and compensatory auditory skills, typing and keyboarding skills, unique technology for individuals with visual impairments, and use of alternatives to nonverbal communication).

4. The teacher understands the terminology related to diseases and disorders of the human visual system and their impact on language, cognitive, spatial concept, and psychosocial development.

5. The teacher knows how to critique and evaluate the strengths and limitations of various types of assistive technologies.

6. The teacher knows a variety of input and output enhancements to computer technologies that address the specific access needs of students with visual impairments in a variety of environments.

7. The teacher knows techniques for modifying instructional methods and materials for students with visual impairments and for assisting classroom teachers in implementing these modifications.

8. The teacher knows methods to acquire special academic skills, including the use of an abacus; the use of a talking calendar; tactile graphics (including maps, charts, tables, etc.); and adapted science equipment.

**Performance**

1. The teacher teaches, writes, and reads Grade 2 literary Braille and Nemeth codes when necessary (e.g., music, computer, and Braille).

2. The teacher secures specialized materials and equipment in a timely manner.

3. The teacher integrates knowledge of the visual impairment when identifying and infusing low vision devices and strategies into the curriculum, learning environments, and instructional techniques.

4. The teacher integrates ophthalmology, optometry, low vision, and functional vision evaluation information to comprehensively design strategies as part of an IEP.
Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Knowledge
1. The teacher possesses in-depth knowledge of methods, materials, and assistive technology for providing for the development of auditory, tactual, and communication skills for the visually impaired.

2. The teacher knows how to assist the student in developing visual, auditory, and tactile efficiency as well as pre-cane mobility skills.

3. The teacher knows how to assist the student in developing alternative organizational and study skills.

4. The teacher knows methods for providing adapted physical and recreation skills for individuals who have visual impairments.

5. The teacher knows functional life skills instruction relevant to independent, community, and personal living and to employment for individuals with visual impairments, including methods for accessing printed public information, public transportation, community resources, and acquiring practical skills (e.g., keeping personal records, time management, banking, emergency procedures, etc.).

6. The teacher knows strategies for developing transition plans and career awareness and provides vocational counseling for students who have visual impairments.

Performance
1. The teacher designs, sequences, implements, and evaluates modifications for daily living skills, which provide for independence.

2. The teacher implements integrated learning experiences that are multi-sensory and encourage active participation, self-advocacy, and independence.

3. The teacher integrates knowledge of the visual impairment and developmental progression when designing and implementing communication and social skills instruction.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.
Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Knowledge

1. The teacher knows about consumer and professional organizations, journals, networks, and services relevant to the field of visual impairment.

2. The teacher understands the educational implications of federal entitlements and funding, and how this relates to the provision of specialized materials and equipment.

3. The teacher possesses an in-depth knowledge of the variances in the medical, federal, and state definitions of visual impairment, identification criteria, labeling issues, incidence and prevalence figures, and how each component interacts with eligibility determinations for service.

4. The teacher knows specialized policies regarding referral and placement procedures for students with visual impairments.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.
Knowledge

1. The teacher knows the procedures used for screening, pre-referral, referral, and classifications of students with visual impairments, including vision screening methods, functional vision evaluation, and learning media assessment.

2. The teacher possesses an in-depth knowledge of procedures for adapting and administering assessments for the intervention, referral, and identification of students with a visual impairment.

Performance

1. The teacher conducts alternative as well as functional evaluations of visual, literacy, pre-cane mobility, and educational performance.

2. The teacher uses information obtained through functional, alternative, and standardized assessments to plan, deliver, and modify instructional and environmental factors, including IEP development.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.

Knowledge

1. The teacher knows strategies for assisting parents/guardians and other professionals in planning appropriate transitions for students who have visual impairments.

2. The teacher knows the roles of paraprofessionals who work directly with students who have visual impairments (e.g., sighted readers, transcribers, aides, etc.) or who provide special materials to them.

3. The teacher knows teacher attitudes, expectations, and behaviors that affect the behaviors of students with visual impairments.
Idaho Standards for Special Education Teachers of Students Who Are Deaf and/or Hard of Hearing

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

In addition to the standards listed here, teachers of the deaf and hard of hearing must meet Idaho Core Teacher Standards.

The following knowledge and performance statements for the Standards for Teachers of the Deaf and hard of hearing are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands the theories, history, philosophies, and models that provide the basis for education of the deaf and/or hard of hearing.

2. The teacher knows the various educational placement options that are consistent with program philosophy and how they impact a deaf and/or hard of hearing student’s cultural identity and linguistic, academic, social, and emotional development.
3. The teacher understands the complex facets regarding issues related to deaf and/or hard of hearing individuals and working with their families (e.g., cultural and medical perspectives).

Performance
1. The teacher uses the tools, models, and strategies appropriate to the needs of students who are deaf and/or hard of hearing.

2. The teacher communicates the benefits, strengths, and constraints of educating the deaf and/or hard of hearing (e.g., cochlear implants, hearing aids, other amplification usage, sign language systems, use of technologies, and communication modalities).

**Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.**

Knowledge
1. The teacher understands how etiology, age of onset, and degree of hearing loss impact a student’s language development and ability to learn.

2. The teacher understands that being deaf and/or hard of hearing alone does not necessarily preclude normal academic development, cognitive development, or communication ability.

3. The teacher understands how learning and language development occur and the impact of instructional choices on deaf and/or hard of hearing students so they achieve age appropriate levels of literacy.

Performance
1. The teacher identifies levels of language and literacy development and designs lessons that are appropriate.

**Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.**

Knowledge
1. The teacher understands how hearing loss may impact student development (i.e., sensory, cognitive, communication, physical, behavioral, social, and emotional).

2. The teacher knows the characteristics and impacts of hearing loss, and the subsequent need for alternative modes of communication and/or instructional strategies.
3. The teacher understands the need for accommodation for English language learning for students whose native language is American Sign Language (ASL).

4. The teacher understands that an IEP for deaf/hard of hearing students should consider the following: communication needs and the student and family’s preferred mode of communication; linguistic needs; severity of hearing loss and potential for using residual hearing; academic level; and social, emotional, and cultural needs, including opportunities for peer interactions and communication (i.e., Federal Policy Guidance, October 30, 1993).

**Performance**

1. The teacher uses information concerning hearing loss (i.e., sensory, cognitive, communication, linguistic needs); severity of hearing loss; potential for using residual hearing; academic level; social, emotional, and cultural needs; and opportunities for adapting instruction and peer interactions and communication.

**Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.**

**Knowledge**

1. The teacher knows how to enhance instruction through the use of visual materials and experiential activities to increase outcomes for students who are deaf and/or hard of hearing.

**Performance**

1. The teacher develops and implements best practices and strategies in relation to the degree of hearing loss to support the needs of the whole child.

**Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.**

**Knowledge**

1. The teacher understands the unique social and emotional needs of students who are deaf and/or hard of hearing and knows strategies to facilitate the development of healthy self-esteem.

2. The teacher understands that deaf cultural factors, communication challenges, and family influences impact classroom management of students.
3. The teacher understands the role of and the relationship among the teacher, interpreter, and student.

**Performance**

1. The teacher designs a classroom environment to maximize opportunities for students’ visual and/or auditory learning.

2. The teacher plans and implements instruction for students who are deaf and/or hard of hearing and have multiple disabilities.

3. The teacher prepares students for the appropriate use of interpreters.

*Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.*

**Knowledge**

1. The teacher understands the role of the interpreter and the use and maintenance of assistive devices.

2. The teacher knows resources, materials, and techniques relevant to communication choices (e.g., total communication, cued speech, ASL, aural/oral, hearing aids, cochlear implants, augmentative and assistive equipment, FM systems, and closed captioning).

**Performance**

1. The teacher uses resources, materials, and techniques that promote effective instruction for students who are deaf and/or hard of hearing (e.g., total communication, cued speech, ASL, aural/oral, hearing aids, cochlear implants, augmentative and assistive equipment, FM systems, and closed captioning).

2. The teacher maintains a learning environment that facilitates the services of the interpreter, note taker, and other support personnel, and other accommodations.

3. The teacher enables students to use support personnel and assistive technology.

*Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.*

*Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.*

210
Knowledge

1. The teacher knows specialized terminology used in the assessment of students who are deaf and/or hard of hearing.

2. The teacher knows the appropriate accommodations for the particular degree of hearing loss.

3. The teacher understands the components of an adequate evaluation for eligibility, placement, and program planning decisions for students (e.g., interpreters and special tests).

Performance

1. The teacher participates in the design of appropriate assessment tools that use the natural, native, or preferred language of the student who is deaf and/or hard of hearing.

2. The teacher gathers and analyzes communication samples to determine nonverbal and linguistic skills of students who are deaf and/or hard of hearing as a function of appropriate academic assessment.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.

Knowledge

1. The teacher understands the roles and responsibilities of teachers and support personnel in educational practice for deaf and/or hard of hearing students (e.g., educational interpreters, class teachers, transliteraters, tutors, note takers, and audiologist).

2. The teacher knows resources available to help parents/guardians deal with concerns regarding educational options and communication modes/philosophies for deaf/hard of hearing children.

3. The teacher understands the effects of communication on the development of family relationships and knows strategies to facilitate communication with students who are deaf and/or hard of hearing students.
4. The teacher knows the services provided by individuals and by governmental and non-governmental agencies in the ongoing management of students who are deaf and/or hard of hearing.

Performance

1. The teacher facilitates the coordination of support personnel (e.g., interpreters and transliteraters) to meet the communication needs of students who are deaf and/or hard of hearing.
Teacher Leader Standards

The following knowledge and performance statements for the Standards for teacher leaders are widely recognized, but not all-encompassing or absolute, indicators that teacher leader candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

**Standard 1: Understanding Adults as Learners to Support Professional Learning Communities** - The teacher leader understands how adults acquire and apply knowledge and uses this information to promote a culture of shared accountability for school outcomes that maximizes teacher effectiveness, promotes collaboration, enlists colleagues to be part of a leadership team, and drives continuous improvement in instruction and student learning.

**Knowledge: The teacher leader demonstrates knowledge of:**

1. The differences in knowledge acquisition and transfer for children and adults.

2. Stages of career development and learning for colleagues and application of the concepts of adult learning to the design and implementation of professional development.

3. Effective use of individual interactions, structures and processes for collaborative work including networking, facilitation, team building, and conflict resolution.

4. Effective listening, oral communication, presentation skills, and expression in written communication.

5. Research and exemplary practice on “organizational change and innovation”.

6. The process of development of group goals and objectives.
Performance: The teacher leader:

1. Demonstrates knowledge and skills for high quality professional learning for individuals as well as groups and assesses teachers’ content knowledge and skills throughout professional learning.

2. Improves colleagues’ acquisition and application of knowledge and skills.

3. Fosters mutually respectful and productive relationships among colleagues and guides purposeful collaborative interactions, inclusive of team members’ ideas and perspectives.

4. Uses effective communication skills and processes.

5. Demonstrates the ability to adapt to the contextual situation and make effective decisions, demonstrates knowledge of the role of creativity, innovation, and flexibility in the change process.

6. Facilitates development of a responsive culture with shared vision, values, and responsibility and promotes team-based responsibility for assessing and advancing the effectiveness of practice.

Standard 2: Accessing and Using Research to Improve Practice and Student Achievement -

The teacher leader understands how educational research is used to create new knowledge, promote specific policies and practices, improve instructional practice and make inquiry a critical component in teacher learning and school redesign; and uses this knowledge to model and facilitate colleagues’ use of appropriate research-based strategies and data-driven action plans.

Knowledge: The teacher leader demonstrates knowledge of:

1. Action research methodology.

2. Analysis of research data and development of a data-driven action plan that reflects relevance and rigor.

3. Implementation strategies for research-based change and for dissemination of findings for programmatic changes.

Performance: The teacher leader:

1. Models and facilitates relevant and targeted action research and engages colleagues in identifying research questions, designing and conducting action research to improve educational outcomes.

2. Models and facilitates analysis and application of research findings for informed decision making to improve educational outcomes with a focus on increased productivity, effectiveness and accountability.

3. Assists with application and supports dissemination of action research findings to improve educational outcomes.
Standard 3: Promoting Professional Learning for Continuous Improvement - The teacher leader understands the constantly evolving nature of teaching and learning, new and emerging technologies and changing community demographics; and uses this knowledge to promote and facilitate structured and job-embedded professional learning initiatives aligned to school improvement goals.

Knowledge: The teacher leader demonstrates knowledge of:

1. The standards of high quality professional development and their relevance to improved learning.
2. Effective use of professional development needs assessment, designs, protocols, and evaluation tools; selection and evaluation of resources appropriate to the identified need(s) along the professional career continuum.
3. The role of 21st century skills and technologies in educational practice.
4. The role of shifting cultural demographics in educational practice.

Performance: The teacher leader:

1. Accurately identifies the professional development needs and opportunities for colleagues in the service of improving education.
2. Works with staff and staff developers to design and implement ongoing professional learning based on assessed teacher and student needs and involves colleagues in development and implementation of a coherent, systemic, and integrated approach to professional development aligned with school improvement goals.
3. Utilizes and facilitates the use of technology, statewide student management system, and media literacy as appropriate.
4. Continually assesses the effectiveness of professional development activities and adjusts appropriately.

Standard 4: Facilitating Improvements in Instruction and Student Learning - The teacher leader demonstrates a deep understanding of the teaching and learning process and uses this knowledge to advance the professional skills of colleagues by being a continuous learner, modeling reflective practice based on student results, and working collaboratively with colleagues to ensure instructional practices are aligned to a shared vision, mission and goal.

Knowledge: The teacher leader demonstrates knowledge of:

1. Research-based curriculum, instruction, and assessment and their alignment with desired outcomes.
2. The Framework for Teaching, effective observation and strategies for providing instructional feedback.
3. Role and use of critical reflection in improving professional practice.
Performance: The teacher leader:

1. Recognizes, analyzes, and works toward improving the quality of colleagues’ professional and instructional practices.

2. Based upon the Framework for Teaching, has proof of proficiency in recognizing effective teaching and uses effective observation techniques to identify opportunities to improve curriculum, instruction, and assessment.

3. Provides observational feedback that demonstrates the intent to improve curriculum, instruction, and assessment.

4. Develops, leads and promotes a culture of self-reflection and reflective dialogue.

Standard 5: Using Assessments and Data for School and District Improvement - The teacher leader is knowledgeable about current research on assessment methods, designing and/or selecting effective formative and summative assessment practices and use of assessment data to make informed decisions that improve student learning; and uses this knowledge to promote appropriate strategies that support continuous and sustainable organizational improvement.

Knowledge: The teacher leader demonstrates knowledge of:

1. Design and selection of suitable evaluation instruments and effective assessment practices for a range of purposes.

2. Use of formative and summative data to inform the continuous improvement process.

3. Analysis and interpretation of data from multiple sources.

Performance: The teacher leader:

1. Informs and facilitates colleagues’ selection or design of suitable evaluation instruments to generate data that will inform instructional improvement.

2. Models use of formative and summative data to inform the continuous improvement process.

3. Informs and facilitates colleagues’ interpretation of data and application of findings from multiple sources (e.g., standardized assessments, demographics and other).

Standard 6: Improving Outreach and Collaboration with Families and Community - The teacher leader understands that families, cultures and communities have a significant impact on educational processes and student achievement and uses this knowledge to promote frequent and more effective outreach with families, community members, business and community leaders and other stakeholders in the education system.

Knowledge: The teacher leader demonstrates knowledge of:
1. Child development and conditions in the home, culture and community and their influence on educational processes.

2. Contextual considerations of the family, school, and community and their interaction with educational processes.

3. Effective strategies for involvement of families and other stakeholders as part of a responsive culture.

**Performance: The teacher leader:**

1. Develops colleagues’ abilities to form effective relationships with families and other stakeholders.

2. Recognizes, responds and adapts to contextual considerations to create effective interactions among families, communities, and schools.

3. Improves educational outcomes by promoting effective interaction and involvement of teachers, families, and stakeholders in the educational process.

*Standard 7: Advocating for Student Learning and the Profession - The teacher leader understands how educational policy is made at the local, state and national level as well as the roles of school leaders, boards of education, legislators and other stakeholders in formulating those policies; and uses this knowledge to advocate for student needs and for practices that support effective teaching and increase student learning and to serve as an individual of influence and respect within the school, community and profession.*

**Knowledge: The teacher leader demonstrates knowledge of:**

1. Effective identification and interpretation of data, research findings, and exemplary practices.

2. Alignment of opportunities with identified needs and how to synthesize information to support a proposal for educational improvement.

3. Local, state and national policy decisions and their influence on instruction.

4. The process to impact policy and to advocate on behalf of students and the community.

**Performance: The teacher leader:**

1. Identifies and evaluates needs and opportunities.

2. Generates ideas to effectively address solutions/needs.

3. Analyzes feasibility of potential solutions and relevant policy context.

4. Advocates effectively and responsibly to relevant audiences for realization of opportunities.
Idaho Standards for Teacher Librarians

In addition to the standards listed here, teacher librarians must meet Idaho Core Teacher Standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The school library is a classroom that serves as the instructional center of the school and needs the expertise of a professionally trained teacher librarian. The teacher librarian is an experienced classroom teacher with additional specialized training in the discipline of school librarianship.

In the rapidly evolving library landscape, teacher librarians promote and provide information literacy expertise in collaboration with the school community.

The management of a school library requires a special set of skills above and beyond those of a classroom teacher. Collection development and management, cataloging and resource sharing, technology use and maintenance, budgeting, ethical and effective information management, supervision of staff and volunteers, and providing ongoing professional development for staff are just some of the unique expectations for teacher librarians.

This document utilizes language and ideas adapted from the Idaho Standards for Library Science Teachers (2007) and the ALA/AASL Standards for Initial Preparation of School Librarians (2010).

Standard #1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1. The teacher librarian is an effective teacher with knowledge of learners and learning.

2. The teacher librarian is aware of reading and information materials in a variety of formats that support the diverse developmental, cognitive, social, emotional, and linguistic needs of K-12 students and their communities.
3. The teacher librarian recognizes the importance of developmentally appropriate and challenging learning experiences.

**Performance**

1. The teacher librarian develops a collection of reading and information materials in a variety of formats that support the diverse developmental, cognitive, social, emotional, and linguistic needs of K-12 students and their communities.

2. The teacher librarian collaborates with all members of the learning community to help meet individual learner needs.

3. The teacher librarian supports the staff by locating and providing resources that enable members of the learning community to become effective users of ideas and information.

4. The teacher librarian, independently and in collaboration with other teachers, designs and implements developmentally appropriate and challenging learning experiences.

*Standard #2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*

**Knowledge**

1. The teacher librarian is aware of and respects the diverse cultures within the entire learning community.

2. The teacher librarian is aware of reading and information materials in a variety of formats that support the diverse cultural needs of K-12 students and their communities.

3. The teacher librarian recognizes the importance of culturally significant learning experiences.

**Performance**

1. The teacher librarian develops a collection of reading and information materials in a variety of formats that support the diverse cultures and communities of K-12 students.

2. The teacher librarian works with all members of the learning community to help determine and locate appropriate materials to respect their cultural diversity.

*Standard #3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*
Knowledge

1. The teacher librarian has an understanding of evolving library spaces that provide a positive, productive learning environment, with enough time and space for all members of the learning community to access and utilize resources and technology.

2. The teacher librarian knows the importance of a balanced, organized, and varied library collection that supports curricula, fulfills diverse student, staff, and community needs, and brings a global perspective into the school environment.

Performance

1. The teacher librarian creates a positive environment to promote and model the habit of lifelong reading and learning.

2. The teacher librarian supports flexible, open access for library services.

3. The teacher librarian demonstrates the ability to develop solutions for addressing physical, social and intellectual barriers to equitable access to resources and services.

4. The teacher librarian facilitates access to information in a variety of formats.

5. The teacher librarian organizes, allocates, and manages the library resources, facilities, and materials to foster a user-friendly environment.

6. The teacher librarian provides a respectful, positive, and safe climate.

7. The teacher librarian models and facilitates the effective use of current and emerging digital tools and technology.

8. The teacher librarian proactively manages the unpredictable traffic flow, accounting for academic visits, drop-in traffic, and patron visits during non-instructional times, enforcing school expectations while maintaining a positive climate.

Standard #4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The teacher librarian understands the documents and policies that promote intellectual freedom and freedom of expression.

2. The teacher librarian understands the concepts of information literacy (e.g., reading, information, media, computer, and visual literacies).
3. The teacher librarian is familiar with a wide range of children’s, young adult, and professional literature in multiple formats and languages to support reading for information, pleasure, and lifelong learning.

4. The teacher librarian understands the process of cataloging and classifying library materials using professional library standards.

5. The teacher librarian understands the process of information retrieval and resource sharing.

6. The teacher librarian understands management techniques, including time management and supervision that ensure the efficient operation of the school library.

7. The teacher librarian understands the principles of basic budget planning and collection development (e.g., selection, processing, and discarding). The teacher librarian understands the grant application process.

8. The teacher librarian understands the importance of policies and procedures that support teaching and learning in school libraries.

**Performance**

1. The teacher librarian adheres to the legal and ethical tenets expressed in the ALA Policy on Confidentiality of Library Records, Privacy: An Interpretation of the Library Bill of Rights, and the ALA Code of Ethics.

2. The teacher librarian teaches and models the concepts of information literacy (e.g., reading, information, media, computer, and visual literacies).

3. The teacher librarian reads, recommends, and promotes a wide and diverse range of children’s and young adult literature in multiple formats that reflect cultural diversity to foster habits of creative expression and support reading for information, pleasure, and lifelong learning.

4. The teacher librarian catalogs and classifies library materials using professional library standards.

5. The teacher librarian initiates and participates in resource sharing with public, academic, and special libraries, and with networks and library consortia.

6. The teacher librarian organizes, allocates, and manages the library resources, facilities, time, activities, and materials to provide a broad range of opportunities for learning.
7. The teacher librarian administers and trains staff to ensure an effective school library program.

8. The teacher librarian utilizes best practices to plan and budget resources in a fiscally responsible manner.

9. The teacher librarian uses professional publications that provide guidance in the selection of quality materials and to maintain current awareness of the emerging in the library field.

10. The teacher librarian develops, implement, and evaluate policies and procedures that support teaching and learning in school libraries.

**Standard #5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.**

**Knowledge**

1. The teacher librarian understands the scope and sequence of curricula, how they interrelate, and the information resources needed to support them.

2. The teacher librarian has a wide range of cross-curricular interests and a broad set of interdisciplinary research skills.

**Performance**

1. The teacher librarian participates on collaborative teaching teams as a peer or leader to integrate information skills, provide access to resources, and promote effective use of technology across the curriculum.

2. The teacher librarian models multiple strategies for students, other teachers, and administrators to locate, evaluate, and ethically use information for specific purposes.

3. The teacher librarian reads, recommends, and promotes a wide and diverse range of children’s and young adult literature in multiple formats that reflect cultural diversity to foster habits of creative expression and support reading for information, pleasure, and lifelong learning.

4. The teacher librarian determines collection development needs based on a variety of input, including curricula, patron input, circulation statistics, and professional reading.
5. The teacher librarian promotes appropriate use of relevant and reliable information and instruction technologies.

**Standard #6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.**

**Knowledge**
1. The teacher librarian understands many methods of assessing the library program.
2. The teacher librarian has an awareness of a wide variety of formative and summative assessment strategies.

**Performance**
1. The teacher librarian communicates and collaborates with students, teachers, administrators, and community members to develop a library program that aligns resources, services, and standards with the school's mission.
2. The teacher librarian makes effective use of data and information to assess how the library program addresses the needs of diverse communities.
3. The teacher librarian collaborates with other teachers to create student assessment opportunities in a variety of formats.

**Standard #7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.**

**Knowledge**
1. The teacher librarian understands how to develop and implement the school library mission, goals, objectives, policies, and procedures that reflect the mission, goals, and objectives of the school.
2. The teacher librarian understands effective principles of teaching and learning in collaborative partnership with other educators.
3. The teacher librarian acknowledges the importance of participating in curriculum development.

**Performance**
1. The teacher librarian develops and implements the school library mission, goals, objectives, policies, and procedures.
2. The teacher librarian identifies appropriate services, resources, and technology to meet diverse learning needs.

3. The teacher librarian includes a variety of reading and information materials in instruction and prompts students through questioning techniques to improve performance.

4. The teacher librarian collaborates with other teachers as they create, implement, and evaluate lessons, and models the use of information tools to meet the developmental and individual needs of diverse students.

5. The teacher librarian uses appropriate print and/or electronic instructional resources to design learning experiences.

6. The teacher librarian models, shares, and promotes effective principles of teaching and learning in collaborative partnership with other educators.

7. The teacher librarian engages in school improvement processes by offering professional development to other educators as it relates to library and information use.

**Standard #8: Instructional Strategies** - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

**Knowledge**

1. The teacher librarian understands how twenty-first century literacy skills support the learning needs of the school community.

2. The teacher librarian recognizes that the effective use of current and emerging digital tools to locate, analyze, evaluate, and use information resources will support researching, learning, creating, and communicating in a digital society.
Performance

1. The teacher librarian designs and adapts relevant learning experiences that engage students in authentic learning through the use of digital tools and resources.

2. The teacher librarian stimulates critical thinking through the skillful use of questioning techniques, and guides students and staff in the selection of materials and information for reading, writing, viewing, speaking, listening, and presenting.

3. The teacher librarian provides opportunities to foster higher order thinking skills and metacognition.

4. The teacher librarian provides access to information from a variety of sources to enrich learning for students and staff.

5. The teacher librarian uses appropriate instructional resources in a variety of formats to design learning experiences.

6. The teacher librarian employs strategies to integrate multiple literacies with content curriculum.

7. The teacher librarian integrates the use of emerging technologies as a means for effective and creative teaching and to support K-12 students' conceptual understanding, critical thinking and creative processes.

8. The teacher librarian collaborates with classroom teachers to reinforce a wide variety of reading instructional strategies to ensure K-12 students are able to create meaning from text.

9. The teacher librarian serves all members of the learning community as facilitator, coach, guide, listener, trainer, and mentor.

Standard #9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

1. The teacher librarian understands the documents and policies that promote intellectual freedom and freedom of expression.

2. The teacher librarian understands the parameters of information access, resource sharing, and ownership based on principles of intellectual freedom and copyright guidelines.
3. The teacher librarian understands confidentiality issues related to library records.

4. The teacher librarian recognizes the importance of evaluating practice for improvement of the school library program.

**Performance**

1. The teacher librarian practices the ethical principles of the profession, advocates for intellectual freedom and privacy, and promotes and models digital citizenship and responsibility.

2. The teacher librarian educates the school community on the ethical use of information and ideas.

3. The teacher librarian uses evidence-based research to collect, interpret, and use data to improve practice in school libraries.

4. The teacher librarian models a strong commitment to the profession by participating in professional growth and leadership opportunities through membership in library associations, attendance at professional conferences, reading professional publications, and exploring Internet resources.

5. The teacher librarian uses professional publications to keep current in the field and to assist in the selection of quality materials.

*Standard #10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

1. The teacher librarian understands various communication and public relations strategies.

2. The teacher librarian understands the role and relationship of the school library program's impact on student academic achievement within the context of current educational initiatives.

3. The teacher librarian recognizes the value of sharing expertise with others in the field.
Performance

1. The teacher librarian models and promotes lifelong reading for purposes of seeking information, knowledge, pleasure, and learning.

2. The teacher librarian collaborates with colleagues to enhance the learning environment through improved communication techniques.

3. The teacher librarian works with colleagues to empower students with effective communication techniques and strategies.

4. The teacher librarian advocates for the school library program and the library profession.

5. The teacher librarian participates in decision-making groups to continually improve library services.

6. The teacher librarian participates on collaborative teaching teams as a peer or leader to integrate information skills, provide access to resources, and promote effective use of technology across the curriculum.

7. The teacher librarian demonstrates the ability to establish connections with other libraries and to strengthen cooperation among library colleagues for resource sharing, networking, and facilitating access to information.

8. The teacher librarian articulates the role and relationship of the school library program's impact on student academic achievement within the context of current educational initiatives.

9. The teacher librarian identifies stakeholders within and outside the school community who impact the school library program.

10. The teacher librarian advocates for school library and information programs, resources, and services.

11. The teacher librarian seeks to share expertise with others through in-service, local conferences and other venues.
Idaho Foundation Standards for Visual and Performing Arts Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Visual and Performing Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structure of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge
1. The teacher understands the history and foundation of arts education.

2. The teacher understands the processes and content of the arts discipline being taught.

3. The teacher understands the relationships between the arts and how the arts enhance a comprehensive curriculum.

4. The teacher understands how to interpret, critique, and assess the arts discipline being taught.

5. The teacher understands the cultural and historical contexts surrounding works of art.
6. The teacher understands that the arts communicate, challenge, and influence cultural and societal values.

7. The teacher understands the aesthetic purposes of the arts and that arts involve a variety of perspectives and viewpoints (e.g., formalist, feminist, social, and political).

8. The teacher understands how to select and evaluate a range of artistic subject matter and ideas appropriate for students’ personal and/or career interests.

**Performance**

1. The teacher provides students with a knowledge base of historical, critical, performance, and aesthetic concepts.

2. The teacher helps students create, understand, and become involved in the arts relevant to students’ interests and experiences.

3. The teacher demonstrates technical and expressive proficiency in the particular arts discipline being taught.

4. The teacher helps students identify relationships between the arts and a comprehensive curriculum.

5. The teacher provides instruction to make a broad range of art genres and relevant to students.

6. The teacher instructs students in making interpretations and judgments about their own artworks and the works of other artists.

7. The teacher creates opportunities for students to explore a variety of perspectives and viewpoints related to the arts.

*Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*

*Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.*
Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, subjects, the community, curriculum goals, and instructional strategies.

Knowledge
1. The teacher understands state standards for the arts discipline being taught and how to apply those standards in instructional planning.

2. The teacher understands that the processes and tools necessary for communicating ideas in the arts are sequential, holistic, and cumulative.

Performance
1. The teacher incorporates state standards for the arts discipline in his or her instructional planning.

2. The teacher demonstrates that the processes and uses of the tools necessary for the communication of ideas in the arts are sequential, holistic, and cumulative.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.
Knowledge
1. The teacher understands assessment strategies specific to the creative process.

2. The teacher understands the importance of providing appropriate opportunities for students to demonstrate what they know and can do in the arts.

3. The teacher understands how arts assessments enhance evaluation and student performance across a comprehensive curriculum (e.g. portfolio, critique, performance/presentation).

Performance
1. The teacher assesses students’ learning and creative processes as well as finished products.

2. The teacher provides appropriate opportunities for students to display, perform, and be assessed for what they know and can do in the arts.

3. The teacher provides a variety of arts assessments to evaluate student performance.

*Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*

Knowledge
1. The teacher understands the importance of continued professional growth in his or her discipline.

Performance
1. The teacher contributes to his or her discipline (e.g., exhibits, performances, publications, and presentations).

*Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.*
Knowledge
1. The teacher understands appropriate administrative, financial, management, and organizational aspects specific to the school/district arts program and its community partners.

2. The teacher understands the unique relationships between the arts and their audiences.

Performance
1. The teacher promotes the arts for the enhancement of the school and the community.

2. The teacher selects and creates art exhibits and performances that are appropriate for different audiences.

Standard 11: Learning Environment - The teacher creates and manages a safe, productive learning environment.

Knowledge
1. The teacher knows the procedures for safely handling, operating, storing, and maintaining the tools and equipment appropriate to his or her art discipline.

2. The teacher understands the use and management of necessary performance and exhibit technologies specific to his or her discipline.

Performance
1. The teacher ensures that students have the skills and knowledge necessary to accomplish art task safety.

2. The teacher manages the simultaneous activities that take place daily in the arts classroom.

3. The teacher operates and manages necessary performance and exhibit technology specific to his or her discipline in a safe manner.
Idaho Standards for Drama Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Drama Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. *This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher knows the history of theater as a form of entertainment and as a societal influence.

2. The teacher knows the basic theories and processes of play writing.

3. The teacher understands the history and process of acting and its various styles.

4. The teacher understands the elements and purpose of design and technologies specific to the art of theater (e.g., set, make-up, costume, lighting, and sound).

5. The teacher understands the theory and process of directing theater.
Performance

1. The teacher incorporates various styles of acting techniques to communicate character and to honor the playwright’s intent.

2. The teacher supports individual interpretation of character, design, and other elements inherent to theater.

3. The teacher demonstrates proficiency in all aspects of technical theatre.

4. The teacher is able to direct shows for public performance.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.
Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Standards 11: Learning Environment - The teacher creates and manages a safe, productive learning environment.

Knowledge
1. The teacher understands how to safely operate and maintain the theatre facility.

2. The teacher understands how to safely operate and maintain technical theatre equipment.

3. The teacher understands OSHA and State Safety standards specific to the discipline.

4. The teacher understands how to safely manage the requirements unique to the drama classroom (e.g. stage combat, choreography, blocking, rigging, etc.)

Performance
1. The teacher can safely operate and maintain the theatre facility.

2. The teacher can safely operate and maintain technical theatre equipment.

3. The teacher employs OSHA and State Safety standards specific to the discipline.

4. The teacher can safely manage the requirements unique to the drama classroom (e.g. stage combat, choreography, blocking, rigging, etc.)

Idaho Standards for Music Teachers
All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Music Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

*This language has been written by a committee of content experts and adopted verbatim.

**Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.**

**Knowledge: The teacher understands and knows how to teach:**

1. Singing, alone and with others, a varied repertoire of music.

2. Performing on instruments, alone and with others, a varied repertoire of music.

3. Improvising melodies, variations, and accompaniments.

4. Composing and arranging music within specified guidelines.

5. Reading and notating music.

6. Listening to, analyzing, and describing music.
7. Evaluating music and music performances.

8. Understanding relationships between music, the other arts, and disciplines outside the arts.

9. Understanding music in relation to history and culture.

**Performance: The teacher is able to demonstrate and teaches:**

1. Singing, alone and with others, a varied repertoire of music.

2. Performing on instruments, alone and with others, a varied repertoire of music.

3. Improvising melodies, variations, and accompaniments.

4. Composing and arranging music within specified guidelines.

5. Reading and notating music.

6. Listening to, analyzing, and describing music.

7. Evaluating music and music performances.

8. Understanding relationships between music, the other arts, and disciplines outside the arts.

9. Understanding music in relation to history and culture.

*Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*

*Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.*

237
Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Knowledge

1. The teacher understands and knows how to design a variety of musical learning opportunities for students that demonstrate the sequential, holistic, and cumulative processes of music education.

Performance

1. The teacher is able to teach and engage students in a variety of musical learning opportunities that demonstrate the sequential, holistic, and cumulative processes of music education.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.

*This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands a variety of media, styles, and techniques in multiple art forms.

2. The teacher has knowledge of individual artists’ styles and understands the historical movements and cultural contexts of those works.

3. The teacher understands the elements and principles of art and how they relate to quality in works of art.

4. The teacher understands art vocabulary, its relevance to art interpretation, its relationship to other art forms and to disciplines across the curriculum.
5. The teacher understands how to use the creative process (brainstorm, research, rough sketch, final product, and reflection) and how to write an artist’s statement.

6. The teacher understands the value of visual art as an expression of our culture and possible career choices.

**Performance**

1. The teacher applies a variety of media, styles, and techniques in multiple art forms.

2. The teacher instructs students in individual artist styles and understands historical movements and cultural context of those work.

3. The teacher applies the elements and principles of art and how they relate to quality in works of art.

4. The teacher applies art vocabulary, its relevance to art interpretation, and relationship to other art forms and disciplines across the curriculum.

5. The teacher demonstrates how to use the creative process (brainstorm, research, rough sketch, final product) and how to write an artist statement.

6. The teacher creates an emotionally safe environment for individual interpretation and expression in the visual arts.

7. The teacher makes reasoned and insightful selections of works of art to support teaching goals.

8. The teacher provides opportunities for students to collect work over time (portfolio) to reflect on their progress, and to exhibit their work.

9. The teacher creates opportunities for students to realize the value of visual art as an expression of our culture and possible career choices.
Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.
Idaho Standards for World Languages Teachers

All teacher candidates are expected to meet or exceed the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the World Languages Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that assures attainment of the standards and is consistent with its conceptual framework.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the disciplines taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher knows the ACTFL (American Council on the Teaching of Foreign Languages) Proficiency Guidelines for listening, speaking, reading, and writing.

2. The teacher knows the target culture(s) in which the language is used.

3. The teacher understands key linguistic structures particular to the target language and demonstrates the way(s) in which they compare to English communication patterns.

4. The teacher knows the history, arts, and literature of the target culture(s).
5. The teacher knows the current social, political, and economic realities of the countries related to the target language.

6. The teacher understands how the U.S. culture perceives the target language and culture(s).

7. The teacher understands how the U.S. is perceived by the target language culture(s).

8. The teacher understands the stereotypes held by both the U.S. and target cultures and the impacts of those beliefs.

Performance

1. The teacher demonstrates advanced level speaking, reading and writing proficiencies as defined in the ACTFL Proficiency Guidelines established by the American Council on the Teaching of Foreign Languages.

2. The teacher incorporates into instruction the following activities in the target language: listening, speaking, reading, writing, and culture.

3. The teacher promotes the value and benefits of world language learning to students, educators, and the community.

4. The teacher uses the target language extensively in formal, informal, and conversational contexts and provides opportunities for the students to do so.

5. The teacher provides opportunities to communicate in the target language in meaningful, purposeful activities that simulate real-life situations.

6. The teacher systematically incorporates culture into instruction.

7. The teacher incorporates discussions of the target culture’s contributions to the students’ culture and vice-versa.

8. The teacher encourages students to understand that culture and language are intrinsically tied.
Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Knowledge

1. The teacher understands that the process of second language acquisition includes the interrelated skills of listening, speaking, reading, and writing.

2. The teacher understands that cultural knowledge is essential for the development of second language acquisition.

3. The teacher understands the skills necessary to create an instructional environment that encourages students to take the risks needed for successful language learning.

4. The teacher knows the methodologies and theories specific to second language acquisition.

5. The teacher knows university/college expectations of world languages and the life-long benefits of second-language learning.

Performance

1. The teacher uses a variety of instructional strategies that incorporate culture, listening, reading, writing and speaking in the target language.

2. The teacher integrates cultural knowledge into language instruction.

3. The teacher builds on the language learning strengths of students rather than focusing on their weaknesses.

4. The teacher uses cognates, expressions, and other colloquial techniques common to English and the target language to help further the students’ understanding and fluency.

5. The teacher explains the world language entrance and graduation requirements at national colleges/universities and the general benefits of second language learning.
Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to students with diverse needs.

Knowledge

1. The teacher understands that gender, age, socioeconomic background, ethnicity, sexual orientation, religious beliefs and other factors play a role in how individuals perceive and relate to their own culture and that of others.

2. The teacher understands that students’ diverse learning styles affect the process of second-language acquisition.

Performance

1. The teacher plans learning activities that enable students to grasp the significance of language and cultural similarities and differences.

2. The teacher differentiates instruction to incorporate the diverse needs of the students’ cognitive, emotional and psychological learning styles.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.

Knowledge

1. The teacher understands that world languages methodologies continue to change in response to emerging research.

2. The teacher understands instructional practices that balance content-focused and form-focused learning.

3. The teacher knows instructional strategies that foster higher-level thinking skills such as critical-thinking and problem solving.
Performance

1. The teacher uses a variety of instructional strategies based on current research to enhance students’ understanding of the target language and culture.

2. The teacher remains current in second-language pedagogy by means of attending conferences, maintaining memberships in professional organizations, reading professional journals, and/or on-site and on-line professional development opportunities.

3. The teacher incorporates a variety of instructional tools such as technology, local experts, and on-line resources to encourage higher-level thinking skills.

Standard 5: Classroom Motivation and Management Skills - Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation

Knowledge

1. The teacher understands that, due to the nature of second-language acquisition, students need additional instruction in positive group/pair work and focused practice.

2. The teacher knows current practices of classroom management techniques that successfully allow for a variety of activities, such as listening and speaking, that take place in a world language classroom.

Performance

1. The teacher implements classroom management techniques that use current research-based practices to facilitate group/pair interactions and maintain a positive flow of instruction.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom

Knowledge

1. The teacher understands of the extension and broadening of previously gained knowledge in order to communicate clearly in the target language.
Performance

1. The teacher uses a variety of techniques to foster fluency within the target language such as dialogues, songs, open-ended inquiry, non-verbal techniques, guided questions, modeling, role-playing, and storytelling.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.

Knowledge

1. The teacher understands how to incorporate the ACTFL Standards for Foreign Language Learning of communication, cultures, connections, comparisons, and communities into instructional planning.

2. The teacher knows how to design lesson plans based on ACTFL Standards, research-based practices, and a variety of proficiency guidelines that enhance student understanding of the target language and culture.

3. The teacher knows how to design lesson plans that incorporate the scaffolding necessary to progress from basic level skills to appropriate critical and higher order thinking skills.

Performance

1. The teacher incorporates the ACTFL Standards for Foreign Language Learning of communication, cultures, connections, comparisons, and communities into instructional planning.

2. The teacher designs lesson plans based on ACTFL Standards, research-based practices, and a variety of proficiency guidelines, which enhance student understanding of the target language and culture.

3. The teacher designs lesson plans which incorporate the scaffolding necessary to progress from basic level skills to appropriate critical and higher order thinking skills.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.
Knowledge

1. The teacher understands the ACTFL Proficiency Guidelines for listening, speaking, reading, and writing.

2. The teacher has the skills to assess proficiency in listening, speaking, reading, writing, and culture, which is based on a continuum.

3. The teacher understands the importance of assessing the content and the form of communication.

Performance

1. The teacher motivates the students to reach level-appropriate proficiency based on ACTFL Proficiency Guidelines for listening, speaking, reading, writing, and culture.

2. The teacher employs a variety of ways to assess listening, speaking, reading, writing, and culture, using both formative and summative assessments.

3. The teacher constructs and uses a variety of formal and informal assessment techniques, including tests in the primary and target languages, to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.

4. The teacher appropriately assesses for both the content and form of communication.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.

Knowledge

1. The teacher knows about career and other life-enriching opportunities available to students proficient in world languages.

2. The teacher knows how to provide opportunities for students and teachers to communicate with native speakers.
3. The teacher is able to communicate to the students, parents, and community members the amount of time and energy needed for students to be successful in acquiring a second language.

4. The teacher understands the effects of second language study on first language.

Performance

1. The teacher informs students and the broader community of career opportunities and personal enrichment that proficiency in a second language provides in the United States and beyond its borders.

2. The teacher provides opportunities for students to communicate with native speakers of the target language in person or via technology.

3. The teacher encourages students to participate in community experiences related to the target culture.

4. The teacher communicates to the students, parents, and community members the amount of time and energy needed for students to be successful in acquiring a second language.
Glossary of Terms

**ACTFL Proficiency Guidelines** - a nationally developed and agreed upon set of descriptions of what individuals can do with language in terms of speaking, writing, listening, and reading in real-world situations in a spontaneous and non-rehearsed context. For each skill, these guidelines identify five major levels of proficiency: Distinguished, Superior, Advanced, Intermediate, and Novice. The major levels Advanced, Intermediate, and Novice are subdivided into High, Mid, and Low sublevels. The levels of the ACTFL Guidelines describe the continuum of proficiency from that of the highly articulate, well-educated language user to a level of little or no functional ability. These Guidelines present the levels of proficiency as ranges, and describe what an individual can and cannot do with language at each level, regardless of where, when, or how the language was acquired. [http://www.actfl.org/files/public/ACTFLProficiencyGuidelines2012_FINAL.pdf](http://www.actfl.org/files/public/ACTFLProficiencyGuidelines2012_FINAL.pdf)

**American Council of Teachers of Foreign Languages (ACTFL)** - an organization for world language professionals of K-12 and higher education

**Content-Based Instruction (CBI)** - a method of teaching language where content is a means to language acquisition, and supports proficiency with challenging, informative, and complex communication

**Critical thinking** - an intellectually disciplined process of actively and skillfully applying, analyzing, synthesizing, and or evaluating information, which in its exemplary form transcends subject matter disciplines

**Form-Focused Instruction (FFI)** - attention to the formal aspects of language (grammar, spelling, intonation, etc.) and is a cognitive approach to language learning which holds that second language proficiency resides in both rule-based and exemplar-based knowledge. Rule-based knowledge consists of linguistic rules and is form-oriented, whereas the exemplar-based system consists of chunks of language: instances of language that are unanalysed and stored as a whole in our memories.

**Scaffolding** - a process that enables a student to solve a problem, carry out a task, or achieve a goal which otherwise would be beyond his or her unassisted efforts including instructional, procedural, and verbal techniques. See Zone of Proximal Development (ZPD)

**Zone of Proximal Development (ZPD)** - the distance or cognitive gap between what a learner can do without assistance and what that learner can do with a more capable peer or skilled adult, a locus for scaffolding
Other Teacher Endorsement Areas

Several teacher endorsement areas were not individually addressed in the current standards (refer to list below), given the small number of courses offered in these specific areas.

To be recommended for endorsement in these content areas, a candidate must meet the Idaho Core Teacher Standards and any current standards of their professional organization(s).

Content/Endorsement Areas

- Humanities *
- Psychology
- Sociology

* The Idaho Standards for the Initial Certification of Teachers address content areas traditionally categorized as humanities requirements for students (e.g. music, drama, art, foreign language).
Idaho Foundation Standards for the Preparation of School Administrators

All school administrators, including principals, special education directors, and superintendents, must meet the following Idaho Foundation Standards for School Administrators and the standards specific to their certification area at the “acceptable” level or above.

The following knowledge and performance statements for the Foundation Standards for School Administrators are widely recognized, but not all-encompassing or absolute, indicators that School Administrator candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of preparation programs to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the School Administrator’s profession is their disposition. Professional dispositions are how the Administrator views the education profession, their content area, and/or students and their learning. Every preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for Administrator dispositions.

* This language was written by a committee of content experts and has been adopted verbatim. These standards are grounded in the Educational Leadership Policy Standards: ISLLC (Interstate School Leaders Licensure Consortium) 2008, as adopted by the National Policy Board for Education Administration.

School Climate

An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs.

Standard 1: School Culture - The School Administrator establishes a safe, collaborative, and supportive culture ensuring all students are successfully prepared to meet the requirements for tomorrow’s careers and life endeavors.

Knowledge: The School Administrator:

1. Understands the importance of elicitng feedback that measures the school and community perceptions.

2. Understands laws and policies regarding school safety and prevention by creating a detailed school safety plan, which addresses potential physical and emotional threats.

3. Understands disciplinary policies and multiple strategies for intervention that occur prior to removal of students.

**Performance: The School Administrator:**

1. Demonstrates ability to disaggregate school climate data to collaboratively engage faculty, staff, students, and parents in identifying concerns or threats to school safety.

2. Demonstrates ability to proactively engage staff in conflict resolution.

3. Demonstrates ability to establish rules and related consequences designed to keep students safe.

4. Demonstrates ability to individually and/or collaboratively monitor school climate by gathering data about student and staff perceptions.

5. Demonstrates ability to connect appropriate strategies and solutions to known barriers to promote a school culture of excellence, equity, and safety across all school settings.

6. Demonstrates ability to use data to monitor and improve school climate.

7. Demonstrates ability to collaborate with instructional staff and parents in creating opportunities to safely examine and address barriers to a school culture, embracing diversity.

**Standard 2: Communication - The School Administrator is proactive in communicating the vision and goals of the school or district, the plans for the future, and the successes and challenges to all stakeholders.**

**Knowledge: The School Administrator:**

1. Understands the importance of making organizational decisions based upon the mission and vision of the school and district.

2. Understands effective communication strategies.

3. Understands the importance of the school improvement plan and adjusting it based on data, including input from district and school staff.

**Performance: The School Administrator:**

1. Demonstrates ability to develop and monitor school goals, programs, and actions to ensure that they support the school’s vision and mission.

2. Demonstrates ability to develop and facilitate a clear, timely communication plan across the school’s departments to support effective and efficient school operations.
3. Demonstrates ability to lead and engage school staff and stakeholders, using multiple communication strategies.

4. Demonstrates ability to ensure that stakeholders have meaningful input in the school’s vision and mission, aligning with academic and social learning goals for students.

**Standard 3: Advocacy - The School Administrator advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement.**

**Knowledge: The School Administrator:**

1. Understands the importance of inviting community input and using the input to inform decisions

2. Understands cultural diversity and its importance in the schools learning community.

**Performance: The School Administrator:**

1. Demonstrates the ability to develop and implement opportunities for involving community in school activities that support teaching and learning.

2. Demonstrates the ability to promote appreciation and understanding of diverse cultural opportunities and integrate them in the schools learning community.

**Collaborative Leadership**

An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. He or she uses research and/or best practices in improving the education program.

**Standard 4: Shared Leadership - The School Administrator fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth.**
Knowledge: *The School Administrator:*

1. Understands the importance of providing staff equal access to opportunities for learning, leadership, and advancement.

2. Understands the importance of developing and implementing distributed leadership as part of the process of shared governance.

3. Understands the importance of developing and using Professional Learning Plans to encourage professional growth and expand competencies.

Performance: *The School Administrator:*

1. Demonstrates the ability to use Professional Learning Plans to provide feedback on professional behavior to teachers and other staff and remediates behavior as needed.

2. Demonstrates the ability to create structured opportunities for instructional staff and other staff to expand leadership through the use of reflections, mentoring, feedback, and learning plans.

*Standard 5: Priority Management - The School Administrator organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities.*

Knowledge: *The School Administrator:*

1. Understands the importance of prioritizing the use of school time to ensure that staff activities focus on improvement of student learning and school culture.

2. Understands the importance of prioritizing school time to ensure that student activities are focused on high leverage activities and school priority areas as delineated by the School Improvement Plan.

3. Applies project management to systems throughout the school and systematic monitoring and collaboration with stakeholders.

4. Understands the importance of clear and consistent processes and systems to manage change.

5. Understands the importance of school staff and other stakeholders adhering to established processes and procedures.
Performance: The School Administrator:

1. Demonstrates the ability to manage projects using lists of milestones and deadlines, and document the impact of change.

2. Demonstrates the ability to apply project management to systems and systematically monitor and collaborate with stakeholders.

Standard 6: Transparency - The School Administrator seeks input from stakeholders and takes all perspectives into consideration when making decisions.

Knowledge: The School Administrator:

1. Understands emerging issues and trends impacting families, school, and community.

2. Understands available resources in the community.

3. Understands the value of transparency regarding decision making and the allocation of resources.

4. Understands the importance of seeking input from stakeholders and takes all perspectives into consideration when making decisions.

Performance

1. Provides rationale for decisions regarding the allocation of resources.

2. Develops a plan that solicits input from all stakeholders to create and sustain a culture of collaboration, trust, learning, and high expectation.

Standard 7: Leadership Renewal - The School Administrator strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others.

Knowledge: The School Administrator:

1. Understands the roles of leadership.

2. Understands the impact of education on personal and professional opportunities, social mobility, and a democratic society.

3. Understands the political, social, cultural, and economic systems and processes that support and impact education.
4. Understands effective models and strategies of leadership as applied to the larger political, social, cultural, and economic contexts of education.

**Performance: The School Administrator:**

1. Creates and implements an individual professional learning plan.

2. Enhances leadership skills through collaboration with colleagues and professional development.

3. Uses feedback, surveys, and evaluations that inform professional development and improve professional practice by consistently monitoring progress.

5. Uses self-reflection and data that are aligned to school and district vision and/or needs to drive improvement in leadership skills, school culture, and student learning.

**Standard 8: Accountability – The School Administrator establishes high standards for professional, legal, ethical, and fiscal accountability.**

**Knowledge: The School Administrator:**

1. Understands operational policies and procedures.

2. Understands human resources management.

3. Understands sound fiscal operations principles and issues.

4. Understands facilities maintenance and principles regarding use of space and educational suitability.

5. Understands legal issues impacting personnel, management, and operations.

6. Understands ethical frameworks and perspectives.

8. Understands policies and laws related to school and district.

**Performance: The School Administrator:**

1. Demonstrates the ability to create a site budget that allocates available fiscal, personnel, space, and material resources in an appropriate legal and equitable manner.

2. Demonstrates the ability to develop a budget that appropriately utilizes federal funds and grant allocations.
Instructional Leadership

An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. He or she provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program.

Standard 9: Innovation – The School Administrator seeks and implements innovative and effective solutions that comply with general and special education law.

Knowledge: The School Administrator:

1. Understands that each student can learn and that varied and data-informed learning goals are an important part of the process.

2. Understands the principles of effective instruction, differentiated instruction, learning theories, motivation strategies, and positive classroom management.

3. Understands student growth and development.

4. Understands adult learning and professional development.

5. Understands the change process for systems, organizations, and individuals.

6. Understands the essential role of technology in education.

Performance: The School Administrator:

1. Provides opportunities for staff to utilize research based strategies to refine curriculum implementation and encourage purposeful innovation.

2. Engages instructional staff in collaborative analysis to plan for continuous academic improvement.

3. Ensures innovation adheres to all local, state, and federal laws and policies and regulations.

Standard 10: Instructional Vision - The School Administrator ensures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn the subject.

Knowledge: The School Administrator:

1. Understands that each student can learn and that varied and data-informed learning goals are an important part of the process.

2. Understands how to enhance the school culture and instructional programs through research, best practice, and curriculum design.
3. Understands the effective use of assessment and evaluation.

4. Understands how to develop, implement, and evaluate co-curricular and extracurricular programs that enhance student growth and character development.

**Performance: The School Administrator:**

1. Provides time, space, and opportunities for instruction.

2. Ensures instruction is aligned to adopted curriculum and Idaho content standards including provisions for time and resources.

3. Promotes an instructional vision that includes the process of curriculum alignment in collaboration with a systematic, continuous process to fully align the curriculum horizontally and vertically with the standards.

4. Creates an action plan for instructional improvement designed to increase student achievement.

**Standard 11: High Expectations - The School Administrator sets high expectation for all students academically, behaviorally, and in all aspects of student well-being.**

**Knowledge: The School Administrator:**

1. Understands the difference between, and the appropriate use of formative and summative assessments.

2. Understands the process for developing common formative benchmark assessments or rubrics.

3. Understands how to use data to guide student instruction and tiered intervention.

4. Understands how to identify at risk students.

5. Understands the laws and regulations associated with special student populations.

6. Understands the importance of collaboration and the critical role principals play in establishing high expectations for student learning.

7. Understands the role that frequent collaboration plays in analyzing student growth data to identify critical content achievement gaps.

8. Understands various intervention strategies to be implemented to close achievement gaps.

10. Understands the importance of implementing a comprehensive approach to learning that integrates researched based practices to address the whole child.

11. Understands essential components in the development and implementation of individual education programs, adhering to state and federal regulations.

**Performance: The School Administrator:**

1. Uses data to guide instruction and develop/implement appropriate interventions and student improvement plans.

2. Has used observation and evaluation methods to supervise instructional personnel.

3. Conducts student response teams that integrate research based practices to address the whole child and also seeks advice of psychologists, nurses, social workers, learning disabilities and gifted and talented specialists, speech and language pathologists, and other experts who can help address student needs.

**Standard 12: Continuous Improvement of Instruction – The School Administrator uses teacher/administrator evaluation and other formative feedback mechanisms to continuously improve teacher/administrator effectiveness. The School Administrator also aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision.**

**Knowledge: The School Administrator:**

1. Understands that the evaluation process is used to improve instructional practice.

2. Understands the use of multiple measures of student performance data to improve classroom instruction.

3. Understands the role of professional learning plans during the evaluation process, using self-reflection, student growth goals and formative and summative conversations at the beginning and ending of the year to improve teacher effectiveness.

**Performance: The School Administrator:**

1. Collaborates with staff and teachers to create individualized professional learning plans and encourages staff to incorporate reflective goal setting practices prior to the school year.

2. Collects formative assessment and student growth data during the course of the school year to inform summative evaluation and instructional goal setting.

3. Uses data to inform school wide professional development.

Knowledge: The School Administrator:

1. Understands laws and policies governing staff evaluation.
2. Understands the Idaho adopted framework for teaching.
3. Understands differentiated tools for evaluation of all staff.
4. Understands effective instructional supervision, evaluation, and due process.

Performance: The School Administrator:

1. Assesses all staff performance with accuracy and consistency.
2. Creates processes to provide formative and summative evaluation feedback to staff and teachers, informing them of the effectiveness of their classroom instruction and ways to improve their instructional practices using data to inform professional development.

Standard 14: Recruitment and Retention - The School Administrator recruits and maintains a high quality staff.

Knowledge: The School Administrator:

1. Understands laws regarding highly qualified requirements for teachers.
2. Understands laws and policies governing hiring and retaining personnel.
3. Understands multiple interview strategies and techniques for hiring teachers.
4. Understands the process and research based practices of mentoring.

Performance: The School Administrator:

1. Demonstrates appropriate use of hiring procedures in accordance with accepted practices/policies.
2. Creates a model for an effective school environment where staff is valued, teams are supported, and achievements are consistently celebrated.
3. Creates a comprehensive mentoring or coaching program designed to provide systems where teachers are supported in an individualized mentoring or coaching program.
Idaho Standards for School Superintendents

In addition to the standards listed here, school superintendents must meet Idaho Foundation Standards for School Administrators as they apply to the superintendency.

*This language was written by a committee of content experts and has been adopted verbatim.

School Climate
An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs.

Collaborative Leadership
An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. He or she uses research and/or best practices in improving the education program.

Instructional Leadership
An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. He or she provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program.

Standard 1: Superintendent Leadership - The superintendent is the catalyst and the advocate for an effective school community; demonstrates an enhanced knowledge, thorough understanding, and performance within all six standards listed in the Idaho Foundation Standards for School Administrators; and is prepared to lead a school system with increasing organizational complexity.

Knowledge
1. The superintendent understands the dynamics of systemic change within school districts.
2. The superintendent understands the importance of questioning, innovation, and innovative thinking in order to create new educational cultures and maximize system efficiency, effectiveness, and accountability.

3. The superintendent knows the breadth of P-12 curriculum and instructional programs.

4. The superintendent knows the importance of planning, maintaining, and budgeting for adequate school facilities, personnel, support services, and effective instructional programs.

5. The superintendent understands how to facilitate processes and activities to establish and maintain an effective and efficient governance structure for school districts.

6. The superintendent knows the role of local, regional, state, national and international partnerships in the development of educational opportunities and support services for students.

7. The superintendent understands the district’s role in and responsibility for employee induction, career development, and enhancement.

8. The superintendent understands the organizational complexity of school districts, drawing from systems and organizational theory.

9. The superintendent understands the dynamics of collective bargaining, mediation, arbitration, and contract management.

10. The superintendent knows the importance of district-wide policy development and effective implementation.

11. The superintendent understands the responsibility and need to promote strategies for continuous reassessment and improved performance for each student, school, and the district as a whole.

12. The superintendent understands the responsibility and need for planning, maintaining, and budgeting for adequate school facilities, personnel, support services, and effective instructional programs.

13. The superintendent understands the importance of developing and fostering a productive relationship with the board.
14. The superintendent understands importance of working effectively in the political environment at
district, local, and state levels.

Performance
1. The superintendent promotes district-wide innovation and change through the application of a systems
   approach.

2. The superintendent facilitates processes and engages in activities to promote an effective and efficient
governance structure for school districts.

3. The superintendent fosters, creates, and sustains local, regional, state, national, and international
   partnerships as needed to enhance the opportunities for all learners.

4. The superintendent creates a system by which all employees have opportunities to seek career
   development and enhancement.

7. The superintendent advises the board of trustees on legal, ethical, and current educational issues and
   provides/encourages ongoing professional development.

8. The superintendent works effectively within the organizational complexity of school districts.

9. The superintendent develops and monitors the system for policy development and implementation in all
   facets of district operations.

10. The superintendent develops and implements effective plans to manage district fiscal, capital, and
    human resources.

Standard 2: Communication - The administrator is proactive in communicating the vision and goals of
the school or district, the plans for the future, and the successes and challenges to all stakeholders.

Standard 3: Advocacy - The administrator advocates for education, the district and school, teachers,
parents, and students that engenders school support and involvement. T

Standard 4: Shared Leadership - The administrator fosters shared leadership that takes advantage of
individual expertise, strengths, and talents, and cultivates professional growth.
Standard 5: Priority Management - The administrator organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities.

Standard 6: Transparency - The administrator seeks input from stakeholders and takes all perspectives into consideration when making decisions.

Standard 7: Leadership Renewal - The administrator strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others.

Standard 8: Accountability - The administrator establishes high standards for professional, legal, ethical, and fiscal accountability.

Standard 9: Innovation - The administrator seeks and implements innovative and effective solutions that comply with general and special education law.

Standard 10: Instructional Vision - The administrator ensures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn the subject.

Standard 11: High Expectations - The administrator sets high expectation for all students academically, behaviorally, and in all aspects of student well-being.

Standard 12: Continuous Improvement of Instruction - The administrator uses teacher/administrator evaluation and other formative feedback mechanisms to continuously improve teacher/administrator effectiveness. The administrator also aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision.

Standard 14: Recruitment and Retention - The administrator recruits and maintains a high quality staff.
Idaho Standards for Special Education Directors

In addition to the standards listed here, special education directors must meet Idaho Foundation Standards for School Administrators as they apply to special education directors.

* This language was written by a committee of content experts and has been adopted verbatim.

School Climate

An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs.

Collaborative Leadership

An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. He or she uses research and/or best practices in improving the education program.

Instructional Leadership

An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. He or she provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program.

**Standard 1: School Culture** - The administrator establishes a safe, collaborative, and supportive culture ensuring all students are successfully prepared to meet the requirements for tomorrow’s careers and life endeavors.

**Standard 2: Communication** - The administrator is proactive in communicating the vision and goals of the school or district, the plans for the future, and the successes and challenges to all stakeholders.

**Standard 3: Advocacy** - The administrator advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement.
Standard 4: Shared Leadership - The administrator fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth.

Standard 5: Priority Management - The administrator organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities.

Knowledge
1. The special education director knows about curriculum, instruction, school activities, and environments to increase program accessibility for students with special needs.

2. The special education director understands the special education processes and procedures required by federal and state laws and regulations and by school district policies.

3. The special education director understands how to manage workflow and access resources to meet the needs of staff, students, and parents.

4. The special education director understands the use of technology in referral processes, IEP Individual Education Plan development, and records management.

Performance
1. The special education director advocates for and implements curriculum, instruction, activities, and school environments that are accessible to special populations.

2. The special education director implements the special education processes and procedures required by federal, state and school district policies.

3. The special education director advocates for, seeks, and directs resources to meet staff, student and parent needs.

Standard 6: Transparency - The administrator seeks input from stakeholders and takes all perspectives into consideration when making decisions.
Standard 7: Leadership Renewal - The administrator strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others.

Standard 8: Accountability - The administrator establishes high standards for professional, legal, ethical, and fiscal accountability.

Standard 9: Innovation - The administrator seeks and implements innovative and effective solutions that comply with general and special education law.

Standard 10: Instructional Vision - The administrator ensures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn the subject.

Knowledge
1. The special education director understands the concept and best practices of least restrictive environment.

2. The special education director understands the importance of post-school outcomes and articulates a full range of services and supports for students with disabilities ages three to twenty-one to maximize their potential.

3. The special education director understands the importance of collaboration to provide general education targeted interventions.

Performance
1. The special education director collaborates with community, staff, and students to explain and implement the concepts and goals of best practice in the least restrictive environment.

2. The special education director engages in district planning processes that cultivate a shared vision for meeting the needs of all learners.

Standard 11: High Expectations - The administrator sets high expectation for all students academically, behaviorally, and in all aspects of student well-being.

Standard 12: Continuous Improvement of Instruction - The administrator uses teacher/administrator evaluation and other formative feedback mechanisms to continuously improve teacher/administrator
effectiveness. The administrator aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision.

Knowledge

1. The special education director knows instructional and behavioral strategies for meeting the needs of special populations.

2. The special education director knows how to plan, write, implement, and access Individual Education Programs.

3. The special education director understands the role of assistive and adaptive technology and related services in instruction.

4. The special education director understands community-based instruction and experiences for students.

5. The special education director understands how to use data to determine instructional needs and to develop professional training to meet those needs.

6. The special education director understands statewide assessment policies.

Performance

1. The special education director serves as a resource for staff and administration concerning instructional and behavioral strategies for meeting the needs of special populations as well as allocating appropriate resources.

2. The special education director ensures that data is used to provide appropriate individualized educational programs and supports, and develops and implements services in school and community environments.

3. The special education director ensures the fulfillment of federal and state requirements related to the instruction and assessment of special populations.

Standard 14: Recruitment and Retention - The administrator recruits and maintains a high quality staff.
Idaho Standards for School Counselors

The purpose of the standards for school counselors is to promote, and enhance, and maximize the learning process. To that end, the school counselor standards facilitate school counselor performance in three broad domains: Academic/Technical Development, Career Development, and Personal/Social Development. The domains follow the 2012 American School Counselor Association (ASCA) model and are embedded within each standard as described below. All school counselor candidates are expected to meet the Idaho Standards for School Counselors as endorsed by their institution.

The following knowledge and performance statements for the School Counselors Standards are widely recognized, but though not all-encompassing or absolute, indicators that School Counselors have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of preparation programs to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the School Counselor’s profession is their disposition. Professional dispositions are how the School Counselor views the education profession, their content area, and/or students and their learning. Every preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Counselor dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Standards of Practices—The school counselor understands the history and foundations of the counseling profession; various counseling theories and techniques; cultural sensitivity; advocacy of public policy applicable to services for students and their families; professional ethics and legal standards and requirements; and continued professional development

Knowledge

1. The school counselor understands the Idaho Comprehensive School Counseling Program Model.

2. The school counselor understands the history and foundations of school counseling and related fields.

3. The school counselor understands a variety of counseling theories and techniques.

4. The school counselor understands the dynamics of cultural diversity.

5. The school counselor knows the importance of advocacy.
6. The school counselor knows the appropriate ethical and legal standards and requirements.

7. The school counselor knows the importance of continued professional development.

8. The school counselor knows how to access community resources and professionals to aid students and their families.

Performance
1. The school counselor uses appropriate individual and group counseling skills in each domain, (i.e., academic/technical development, career development, and personal/social development).

2. The school counselor uses appropriate intervention strategies.

3. The school counselor uses appropriate consulting, collaborating, and team building skills within each domain.

4. The school counselor adheres to the appropriate school counseling role as described in the Idaho Comprehensive School Counseling Program Model.

5. The school counselor maintains certification and engages in continued professional development.

6. The school counselor adheres to professional, ethical, and legal standards.

7. The school counselor identifies and accesses appropriate community resources and professionals to aid students and their families.

Standard 1: School Counseling Programs - School counselors should possess the knowledge, abilities, skills and attitudes necessary to plan, organize, implement and evaluate a comprehensive, developmental, results-based school counseling program.

Knowledge - School counselors should articulate and demonstrate an understanding of:
1. The organizational structure and governance of the American educational system, as well as cultural, political and social influences on current educational practices.
2. The organizational structure and components of an effective school counseling program.

3. Barriers to student learning and use of advocacy and data-driven school counseling practices.

4. Leadership principles and theories.

5. Individual counseling, group counseling and classroom instruction.

6. Collaborations with stakeholders such as parents and guardians, teachers, administrators and community leaders.

7. Principles of school counseling, including prevention, intervention, wellness, education, multiculturalism, and advocacy.

8. Assessments relevant to K-12 education.

Performance - An effective school counselor is able to accomplish measurable objectives demonstrating the following:

1. Planning, organizing, implementing and evaluating a school counseling program.

2. Applying the school counseling themes of leadership, advocacy, collaboration and systemic change.

3. Using technology effectively and efficiently to plan, organize, implement and evaluate the comprehensive school counseling program.

4. Multicultural, ethical and professional competencies.

5. Identification and expression of professional and personal qualities and skills of effective leaders.

6. Advocacy for student success.
7. Collaboration with parents, teachers, administrators, community leaders and other stakeholders to promote and support student success.

**Standard 2: Academic/Technical Development Domain** - The school counselor understands the knowledge, attitudes, and skills that contribute to effective lifelong learning.

**Knowledge**

1. The school counselor knows developmental theories.

2. The school counselor understands various learning styles.

3. The school counselor understands family systems and their impact on learning.

4. The school counselor understands educational systems.

5. The school counselor is familiar with P-16 curriculum and its relationship to lifelong learning.

6. The school counselor understands how diversity influences lifelong learning.

**Performance**

1. The school counselor identifies and engages students in activities that demonstrate how changing preferences affect life goals.

2. The school counselor meets the standards in the Idaho Comprehensive School Counseling Program Model in the Academic/Technical Development Domain.

**Standard 2: Foundations** - School counselors should possess the knowledge, abilities, skills and attitudes necessary to establish the foundations of a school counseling program.

**Knowledge** - School counselors should articulate and demonstrate an understanding of:

1. Beliefs and vision of the school counseling program that align with current school improvement and student success initiatives at the school, district and state level.

2. Educational systems, philosophies and theories, and current trends in education, including federal and state legislation.
3. Learning theories.

4. History and purpose of school counseling, including traditional and transformed roles of school counselors.

5. Human development theories and developmental issues affecting student success.

6. District, state, and national student standards and competencies.

7. Legal and ethical standards and principles of the school counseling profession and educational systems, including state, district and building policies.

8. The three domains of academic achievement, career planning and personal/social development.

**Performance** - An effective school counselor is able to accomplish measurable objectives demonstrating the following:

1. Development of the beliefs, vision, and mission of the school counseling program that align with current school improvement and student success initiatives at the school, district and state level.

2. The use of student standards, such as district, state, or national standards, to drive the implementation of a comprehensive school counseling program.

3. Application of the ethical standards and principles of the school counseling profession and adhering to the legal aspects of the role of the school counselor and the Code of Ethics for Idaho Professional Educators.

4. Responsible advocacy for school board policy, as well as local, state and federal statutory requirements in students’ best interests.

5. Practices within the ethical and statutory limits of confidentiality.

**Standard 3: Academic/Technical Development Domain** – The school counselor understands and uses strategies that assist students in achieving academic/technical success and satisfaction.
Knowledge

1. The school counselor knows a variety of decision-making and problem-solving models.

2. The school counselor understands how attitudes and behaviors relate to successful learning.

3. The school counselor understands models of time management, task management, and study skills.

4. The school counselor knows the importance of personal choice and responsibility.

5. The school counselor knows a variety of assessments and interpretation techniques and understands their role in educational planning.

Performance

1. The school counselor uses information on how personal criteria and environmental conditions influence the process of educational decision making and the development of life goals.

2. The school counselor implements related curriculum and activities focused on the effects of education, work, and family on individual decision making.

3. The school counselor models time management and task management skills.

4. The school counselor presents and disseminates information on appropriate study skills necessary for academic success at each level.

5. The school counselor uses a variety of assessments and interpretation techniques for educational planning.

6. The school counselor integrates the most appropriate technology available into the counseling program; uses this technology to optimize program administration and to meet student needs; and models the use of this technology for students and colleagues.

Standard 3: Management - School counselors should possess the knowledge, abilities, skills and attitudes necessary to manage a school counseling program.
Knowledge - School counselors should articulate and demonstrate an understanding of:

1. Leadership principles, including sources of power and authority, and formal and informal leadership.
2. Organization theory to facilitate advocacy, collaboration and systemic change.
3. Presentation skills for programs such as teacher in-services, parent workshops and presentation of results reports to school boards.
4. Time management, including long- and short-term management, using tools such as schedules and calendars.
5. Data-driven decision making.
6. Current and emerging technologies such as use of the Internet, Web-based resources and information management systems.

Performance - An effective school counselor is able to accomplish measurable objectives demonstrating the following:

1. Self-evaluation of his/her own competencies in order to formulate an appropriate professional development plan.
2. The ability to access or collect relevant data to monitor and improve student behavior and achievement.
3. The capability to create calendars to ensure the effective implementation of the school counseling program.
4. Coordination of activities that establish, maintain and enhance the school counseling program.

Standard 4: Academic/Technical Development Domain – The school counselor understands the relationship among personal qualities, education and training, and the world of work.

Knowledge
1. The school counselor knows appropriate goal setting techniques.
2. The school counselor understands the process of establishing short- and long-range goals.

3. The school counselor understands the process of identifying specific strategies to accomplish life goals.

Performance

1. The school counselor uses skills to access knowledge of self and work in order to develop education and training goals.

2. The school counselor engages students in establishing short- and long-range goals.

3. The school counselor identifies specific strategies to accomplish life goals (e.g., acquisition of knowledge, skills, and abilities necessary for success).

Standard 4: Delivery - School counselors should possess the knowledge, abilities, skills and attitudes necessary to deliver a school counseling program.

Knowledge - School counselors should articulate and demonstrate an understanding of:

1. The distinction between direct and indirect student services.

2. Counseling theories and techniques in different settings, such as individual planning, group counseling and classroom lessons.

3. Classroom management.

5. Principles of working with various student populations based on characteristics, such as ethnic and racial background, English language proficiency, special needs (IEP and 504 Plans), religion, gender and income.

6. Responsive services (counseling and crisis response) including grief and bereavement.

7. The principles of academic and behavioral interventions.
8. How diagnoses and/or medication affects the personal, social, and academic functioning of students.

**Performance** - An effective school counselor is able to accomplish measurable objectives demonstrating the following:

1. Creation and presentation of a developmental school counseling curriculum addressing all students’ needs based on student data.

2. Classroom management and instructional skills.

3. Encouragement of staff involvement to ensure the effective implementation of the school counseling curriculum.

4. The ability to build effective, high-quality student support programs.

5. Development of strategies to implement individual student planning, which may include strategies for appraisal, advisement, goal-setting, decision-making, social skills, transition or post-secondary planning.

6. The capability to provide responsive services, such as individual/small-group counseling and crisis response.

7. Participation as member of the crisis team providing assistance to the school and community in a crisis.

8. Development of a list of community agencies and service providers for student referrals and understanding how to make referrals to appropriate professionals when necessary.

9. Partnerships with parents, teachers, administrators and education stakeholders for student achievement and success.

10. The ability to conduct in-service training or workshops for other stakeholders to share school counseling expertise.
11. Understanding and knowledge regarding how to provide supervision for school counseling interns consistent with the principles.

12. Skills to critically examine the connections between social, familial, emotional, and behavioral problems and academic achievement.

**Standard 5: Academic/Technical Development Domain — The school counselor understands the relationship of academics to life in the community and at home.**

**Knowledge**

1. The school counselor understands the effects that values and lifestyle have on academics.

2. The school counselor understands that the needs of the community affect life choices.

3. The school counselor understands how local, state, and global economies affect individuals.

**Performance**

1. The school counselor describes the importance of learning as it affects values and lifestyle.

2. The school counselor links the needs of the community to students’ life choices.

3. The school counselor communicates the effects of local, state, and global economies on student planning.

**Standard 6: Career Development Domain — The school counselor knows the skills necessary to investigate the world of work in relation to knowledge of self and to make informed career decisions.**

**Knowledge**

1. The school counselor knows career development theories.

2. The school counselor understands the value of self-awareness in career decision-making.

3. The school counselor knows how to research and obtain career information.

4. The school counselor knows how to evaluate and interpret career information.
5. The school counselor understands the risks and rewards within various career options.

6. The school counselor understands the skills, behaviors, and attitudes necessary for the world of work.

7. The school counselor knows how to identify post-high school options.

Performance
1. The school counselor uses and evaluates research and information resources to obtain career information.

2. The school counselor facilitates understanding of the value of self-awareness in career decision making.

3. The school counselor gathers and dispenses information to identify post-high school options.

4. The school counselor identifies risks and rewards of various career options.

5. The school counselor disseminates information on prospective employers, organization structures, and employer expectations.

6. The school counselor promotes networking, negotiating, and mentoring in career development.

Standard 7: Career Development Domain — The school counselor understands strategies to achieve career success and satisfaction.

Knowledge
1. The school counselor knows education, training, and career decision-making strategies.

2. The school counselor understands the effects of education, work, and family values on individual career decisions.

3. The school counselor recognizes that personal and environmental conditions affect decision making.

4. The school counselor understands personal consequences of making and not making decisions.

Performance
1. The school counselor describes criteria for making personal decisions about education, training, and career goals.
2. The school counselor describes the effects of education, work, and family values on individual career decisions.

3. The school counselor identifies personal and environmental conditions that affect decision making.

4. The school counselor helps students understand personal consequences of making and not making decisions.

5. The school counselor creates and implements collaborative learning experiences to enhance student career awareness and decision making.

Standard 8: Career Development Domain—The school counselor understands the skills for locating, maintaining, and advancing in a job.

Knowledge
1. The school counselor understands job placement services.

2. The school counselor knows job search and acquisition techniques.

3. The school counselor knows strategies, behaviors, and attitudes that support career advancement.

4. The school counselor understands what strategies, behaviors, and attitudes are necessary for personal success in the world of work.

Performance
1. The school counselor collaborates with teachers, parents/guardians, administrators, and community members to present age-appropriate career awareness information.

2. The school counselor identifies job placement services.

3. The school counselor presents information for both job search and job acquisition.

4. The school counselor helps students develop awareness of strategies, behaviors, and attitudes that support career advancement.
5. The school counselor integrates the most appropriate technologies available into career awareness, exploration, and development.

**Standard 9: Career Development Domain** —The school counselor understands diversity and transition issues in today’s workforce.

**Knowledge**

1. The school counselor knows how to stay abreast of trends and changes in the world of work.

2. The school counselor understands the historical perspective of work and industry and how it relates to today’s diverse workforce.

3. The school counselor understands the effects of stereotyping on education, work environments, and community.

4. The school counselor understands behaviors, attitudes, and skills that work to eliminate stereotyping in education, work environments, and the community.

5. The school counselor knows that transition issues are an ongoing aspect of career development throughout life.

6. The school counselor understands how to use assistive devices and technology to accommodate students with disabilities.

7. The school counselor understands laws and regulations related to students with disabilities.

**Performance**

1. The school counselor disseminates information using various methods regarding recent changes in the diverse workforce.

2. The school counselor models behaviors, attitudes, and skills that work to eliminate stereotyping in education, work environments, and the community.

3. The school counselor creates awareness of transition issues and strategies for lifelong career development.

4. The school counselor disseminates information about the role of assistive devices and technology.
5. The school counselor disseminates information on the laws and regulations related to students with disabilities.

Standard 10: Personal/Social Development Domain — The school counselor knows the attitudes, knowledge, and interpersonal skills necessary to help students understand and respect self and others.

Knowledge
1. The school counselor understands the dynamics of interpersonal interests, abilities, and skills.

2. The school counselor understands the importance of expressing feelings, behaviors, and ideas in an appropriate manner.

3. The school counselor understands how behavior influences the feelings and actions of others.

4. The school counselor understands the relationship between personal behavior and self-concept.

5. The school counselor understands diverse life roles.

6. The school counselor understands environmental influences on behavior.

Performance
1. The school counselor assists students in identifying personal interests, skills, and abilities.

2. The school counselor collaborates with parents/guardians, school personnel, and community professionals in the development of students’ self-concept.

3. The school counselor engages the student in identifying and understanding how behaviors influence the feelings and actions of others.

4. The school counselor enables the student to recognize the relationship between personal behavior and self-concept.

5. The school counselor provides counseling services to enhance understanding of life roles and environmental influences on personal growth and behaviors.

Standard 11: Personal/Social Development Domain — The school counselor understands the process of making decisions, setting goals, and taking necessary action to achieve goals.
Knowledge
1. The school counselor understands how personal beliefs and attitudes, goal setting, and problem solving affect decision making.

2. The school counselor knows that the learning and development process is continuous and involves a series of choices.

3. The school counselor knows the skills of decision making, goal setting, and problem solving.

4. The school counselor understands how expectations of others affect personal/social, academic/technical, and career decisions.

5. The school counselor knows how individual characteristics may influence achieving personal/social, academic/technical, and career goals.

Performance
1. The school counselor uses a variety of strategies to demonstrate how personal beliefs and attitudes affect decision making.

2. The school counselor helps students understand that learning and development are continuous processes with a series of choices.

3. The school counselor engages students in decision making, goal setting, and problem solving.

4. The school counselor helps students recognize how the expectations of others affect personal/social, academic/technical, and career decisions.

5. The school counselor describes how individual characteristics may influence achieving personal/social, academic/technical, and career goals.

Standard 12: Personal/Social Development Domain—The school counselor understands safety and survival skills.

Knowledge
1. The school counselor understands the importance of identifying feelings, symptoms of stress, abuse, addiction, depression, and appropriate coping skills.
2. The school counselor knows negotiating, problem solving, and conflict resolution skills.

3. The school counselor understands the process of personal change.

4. The school counselor understands the process of human growth and development.

5. The school counselor knows strategies for personal safety and survival skills.

Performance

1. The school counselor describes and demonstrates problem solving, conflict resolution, coping skills, and feeling identification.

2. The school counselor collaborates with school personnel, parents/guardians, and community members to develop and deliver personal safety and survival skills strategies.

3. The school counselor describes the relationship between personal well-being and the process of human growth and development.

4. The school counselor facilitates empowering students and their families to identify the relationship among rules, laws, safety, and the protection of individual rights.
Idaho Standards for School Nurses

The following knowledge and performance statements for the School Nurse Standards are widely recognized, but not all-encompassing or absolute, indicators that school nurse candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a school nurse preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the school nursing profession is a candidate’s disposition. Professional dispositions are how the School Nurse candidate views their profession, their content area, and/or students and their health and learning. Every School Nurse preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Nurse candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

**Standard 1: Quality Assurance - The school nurse understands how to systematically evaluate the quality and effectiveness of school nursing practice.**

**Knowledge**

1. The school nurse understands the professional, state, and local policies, procedures, and practice guidelines that impact the effectiveness of school nursing practice within the school setting.

2. The school nurse understands that school nursing practice must fall within the boundaries of scope of practice as defined by the Idaho Board of Nursing.

3. The school nurse understands how to access research and interpret data applicable to the school setting.

**Performance**

1. The school nurse conducts ongoing evaluations of school nursing practice.

2. The school nurse identifies the policies, procedures, and practice guidelines applicable to school nursing practice.
3. The school nurse uses research and data to monitor quality and effectiveness of school nursing practice.

**Standard 2: Professional Development - The school nurse is a reflective practitioner who improves clinical skills through continual self-evaluation and ongoing education.**

**Knowledge**

1. The school nurse understands how to improve knowledge and competency in school nursing practice.

2. The school nurse knows how to self-assess professional nursing practice.

3. The school nurse knows how to access professional resources that support school nursing practice.

4. The school nurse knows about the professional organizations that support the nursing practice.

**Performance**

1. The school nurse participates in professional development related to current clinical knowledge and professional issues.

2. The school nurse seeks and acts on constructive feedback regarding professional development.

3. The school nurse pursues professional development as related to professional and program goals.

**Standard 3: Communication - The school nurse is skilled in a variety of communication techniques (i.e., verbal and nonverbal).**

**Knowledge**

1. The school nurse understands the importance of effective communication with school staff, families, students, the community, and other service providers.

2. The school nurse understands problem solving and counseling techniques and crisis intervention strategies for individuals and groups.
3. The school nurse knows how to document appropriately.

**Performance**
1. The school nurse communicates effectively and with sensitivity to community values in a variety of settings (e.g., classroom presentations, public forums, individual interactions, written communication, and documentation).

**Standard 4: Collaboration - The school nurse understands how to interact collaboratively with and contribute to the professional development of peers and school personnel.**

**Knowledge**
1. The school nurse understands the principles of collaboration in sharing knowledge and skills with other professionals and staff.

**Performance**
1. The school nurse works collaboratively with nursing colleagues and school personnel to enhance professional practice and to contribute to a supportive, healthy school environment.

**Standard 5: Ethics and Advocacy - The school nurse makes decisions and takes actions on behalf of students and families in an ethical, professional manner.**

**Knowledge**
1. The school nurse understands the code of ethics adopted by the American Nurses Association and the National Association of School Nurses and the Code of Ethics for Idaho Professional Educators.

2. The school nurse knows how to advocate for students and families.

**Performance**
1. The school nurse performs duties in accord with the legal, regulatory, and ethical parameters of health and education.

2. The school nurse acts as an advocate for students and families.
3. The school nurse delivers care in a manner that is sensitive to student diversity.

_Standard 6: Health and Wellness Education - The school nurse assists students, families, the school staff, and the community to achieve optimal levels of wellness through appropriately designed and delivered health education._

**Knowledge**

1. The school nurse understands developmentally appropriate health education.

2. The school nurse understands the influence of family dynamics on student achievement and wellness.

3. The school nurse understands that health instruction within the classroom is based on learning theory.

4. The school nurse understands child, adolescent, family, and community health issues.

5. The school nurse understands how health issues impact student learning.

**Performance**

1. The school nurse assists individual students in acquiring appropriate skills based on age and developmental levels to advocate for themselves.

2. The school nurse participates in the assessment of health education and health instructional needs of the school community.

3. The school nurse provides health instruction within the classroom based on learning theory, as appropriate to student developmental levels and school needs.

4. The school nurse provides individual and group health instruction and counseling for and with students, families, and staff.

5. The school nurse acts as a resource person to school staff, students, and families regarding health education and health community resources.

6. The school nurse assists students in changing high-risk behaviors through education and referral.
Standard 7: Program Management - The school nurse is a manager of school health services.

Knowledge
1. The school nurse understands the principles of school nursing management.

2. The school nurse understands that program delivery is influenced by a variety of factors (e.g., cost, program diversity, staffing, and laws).

3. The school nurse knows how to teach, supervise, evaluate, and delegate to Unlicensed Assistive Personnel.

4. The school nurse knows how to identify and secure appropriate and available services and resources in the community.

Performance
1. The school nurse demonstrates the ability to organize, prioritize, and make independent nursing decisions.

2. The school nurse demonstrates the ability to plan and budget resources in a fiscally responsible manner.

3. The school nurse demonstrates leadership skills to utilize human resources efficiently.

4. The school nurse teaches, supervises, evaluates, and delegates to Unlicensed Assistive Personnel.

5. The school nurse uses appropriate technology in managing school health services.
Idaho Standards for School Psychologists

The following knowledge and performance statements for the School Psychologist Standards are widely recognized, but not all-encompassing or absolute, indicators that School Psychologist candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a school psychologist preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the School Psychology profession is a candidate’s disposition. Professional dispositions are how the School Psychologist candidate views their profession, their content area, and/or students and their health and learning. Every School Psychology preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Psychologist candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

**Standard 1: Assessment, Data-Based Decision Making, and Accountability** - The school psychologist understands varied models and methods of assessment that yield information useful in understanding problems, identifying strengths and needs, measuring progress aiding in transition activities and accomplishments of students.

**Knowledge**

1. The school psychologist understands traditional standardized norm-referenced assessment instruments.

2. The school psychologist knows alternative assessment approaches (e.g., curriculum-based, portfolio, and ecological).

3. The school psychologist knows non-test assessment procedures (e.g., observation, diagnostic interviewing, and reviewing records).

4. The school psychologist understands the Response to Intervention (RTI) process.
5. The school psychologist understands correct interpretation and application of data.

6. The school psychologist understands the process of transitions at Pre-K through Age 21 development levels.

Performance
1. The school psychologist uses various models and methods of assessment as part of a systematic process to collect data and other information.

2. The school psychologist translates assessment results into empirically-based decisions about intervention and recommendations.

3. The school psychologist assists in creating intervention strategies linked to the assessment information.

4. The school psychologist assists in evaluating the effectiveness of interventions and recommendations.

Standard 2: Consultation and Collaboration - The school psychologist understands effective collaborative and consultation approaches to promote the learning and success of students.

Knowledge
1. The school psychologist knows processes of producing change in individuals and groups.

2. The school psychologist knows various strategies and techniques of team building.

3. The school psychologist knows various strategies and techniques of team decision-making.

4. The school psychologist possesses knowledge and skills necessary to facilitate communication and collaboration with students and teams consisting of school personnel, family members, community professionals, and others.
5. The school psychologist understands factors necessary for effective interpersonal communication.

6. The school psychologist knows how to communicate effectively in oral and written form.

Performance

1. The school psychologist promotes change at the levels of the individual student, classroom, building, district, and other agencies.

2. The school psychologist uses consultation and collaboration to facilitate the development of professional environments in schools and related settings to promote the kinds of principles necessary to achieve consensus.

3. The school psychologist facilitates communication with students and teams consisting of school personnel, family members, community professionals, and others.

4. The school psychologist displays positive interpersonal skills by listening, adapting, addressing ambiguity, and being professional in difficult situations.

5. The school psychologist presents and disseminates information to diverse audiences.

6. The school psychologist communicates effectively in oral and written form.

Standard 3: Effective Instruction and Development of Cognitive and Academic Skills - The school psychologist understands learning theories, cognitive strategies and their application to the development of effective instruction to promote student learning.

Knowledge

1. The school psychologist knows primary learning theories (e.g., behavioral, cognitive, and neuro developmental).

2. The school psychologist understands various instructional strategies and learning styles.
3. The school psychologist knows principles of student-centered learning.

4. The school psychologist knows how to develop appropriate cognitive, academic, and career goals for students with different ability levels using a team approach.

5. The school psychologist understands current instructional theories and models.

6. The school psychologist knows evaluation techniques to measure instructional outcomes of intervention strategies and treatment integrity.

Performance

1. The school psychologist assists in implementing a variety of instructional methods to enhance student learning at the individual, group, and systems levels.

2. The school psychologist uses student-centered learning principles to help students become self-regulated learners.

3. The school psychologist, in collaboration with the student, parents, school personnel, and community professionals, sets individual learning goals, designs a learning process to achieve those goals, and assesses whether the goals have been achieved.

4. The school psychologist helps schools develop appropriate cognitive, academic, and career goals for students.

5. The school psychologist links assessment information to the development and implementation of instructional strategies to meet students’ individual learning needs.

6. The school psychologist collects, maintains and shares current information and research about advances in curriculum and instruction with educators, parents, and the community.

7. The school psychologist uses appropriate assessment techniques to progress toward academic and career goals and assists in revising instructional methodology as necessary.
8. The school psychologist assesses treatment integrity and efficacy of intervention strategies.

*Standard 4: Socialization and Development of Life Skills – The school psychologist understands human development in social, affective, behavioral, and adaptive domains and applies sound principles of behavior change within these domains.*

**Knowledge**

1. The school psychologist understands the developmental processes of socialization and life skills of students with different abilities and developmental levels.

2. The school psychologist understands direct and indirect intervention strategies, including counseling and consultation.

3. The school psychologist knows principles of behavior management.

5. The school psychologist knows empowerment strategies for students and family support systems.

6. The school psychologist understands the ecological impact of learning environments on student success.

7. The school psychologist understands early childhood development and its impact on successful school transitions.

**Performance**

1. The school psychologist utilizes consultation and collaboration strategies with teachers, students, and families for the development of life skills.

2. The school psychologist uses a variety of intervention strategies consistent with developmental
levels.

3. The school psychologist, using a problem-solving approach, collaborates with students, teachers, and families in developing behavior management plans.

4. The school psychologist consults in the development and evaluation of conflict-management and problem-resolution programs and activities.

5. The school psychologist provides mental health services to enhance appropriate student behavior.

6. The school psychologist facilitates students and families in developing positive socialization and life skills.

7. The school psychologist consults with students, families, and schools regarding the structure and organization of educational environments and how they impact learning.

8. The school psychologist works with families and others to promote awareness of effective early childhood development and educational services.

Standard 5: School Psychology Practice and Professional Development - The school psychologist understands the history and foundations of the profession; various service models and methods; public policy development applicable to services for students and their families; ethical and professional standards; and legal requirements.

Knowledge

1. The school psychologist understands the history and foundations of school psychology and its relation to other fields.

2. The school psychologist knows current models, methods and practices of the profession.

3. The school psychologist knows the appropriate ethical and professional standards.
4. The school psychologist knows current federal statues and state statutes and regulations as they relate to students.

5. The school psychologist understands processes and procedures for public policy development.

6. The school psychologist knows methods to evaluate personal needs for continuing professional development.

Performance

1. The school psychologist is aware of current practices in related fields.

2. The school psychologist adheres to best practices of the profession.

3. The school psychologist uses knowledge of legal requirements to advocate for the rights and welfare of children and families.

4. The school psychologist promotes the improvement of public policies and practices in schools and related settings.

5. The school psychologist maintains certification and continues professional development.

6. The school psychologist identifies and pursues professional growth resulting in acquisition of new skills.

Standard 6: Student Diversity in Development and Learning - The school psychologist understands that an individual’s development and learning are influenced by one or more of the following factors: biological, social, cultural, ethnic, experiential, socioeconomic, environmental, gender-related, and/or linguistic.

Knowledge

1. The school psychologist understands individual differences in ability levels with respect to the development of instructional programs and other activities.
2. The school psychologist understands how to identify needs and modify instruction to enhance learning for individual students.

3. The school psychologist recognizes the influence that various cultures, backgrounds, and individual learning characteristics have on students and their families.

4. The school psychologist understands how personal biases may impact decision making, instruction and influence student progress.

5. The school psychologist knows research-based practices related to assessment and the interpretation of results that reduce various biases.

6. The school psychologist recognizes best practices in assessments with culturally and/or linguistically diverse students.

Performance

1. The school psychologist assists in the development of instructional programs and activities for a diverse student population.

2. The school psychologist assists schools and families in the modification and/or accommodation of instructional practices and materials sensitive to diverse student backgrounds and needs.

3. The school psychologist seeks opportunities to interact with students and families to learn about their strengths, needs and diverse backgrounds.

4. The school psychologist uses appropriate assessment procedures and/or intervention strategies to meet the unique needs of each individual student.

Standard 7: Information and Instructional Technology - The school psychologist understands information sources, instructional resources, and technology relevant to professional practice and services for students.
Knowledge
1. The school psychologist knows how to access a variety of information sources (e.g., Internet and professional journals).

2. The school psychologist knows how to use new technologies to enhance student services.

3. The school psychologist possesses current knowledge of instructional resources for students (e.g., instructional software and assistive technology).

Performance
1. The school psychologist uses appropriate technologies to facilitate professional performance.

2. The school psychologist uses technologies to facilitate student performance.

3. The school psychologist makes use of technology (e.g., Internet and e-mail) to access information, current research, and professional development opportunities.

4. The school psychologist evaluates the validity of information and resources.

Standard 8: School and Systems Organization, Policy Development, and Climate - The school psychologist understands the unique organization and culture of schools and related systems.

Knowledge
1. The school psychologist understands the organization of schools and systems.

2. The school psychologist understands principles of organizational development and systems theory as it relates to their practice.

3. The school psychologist knows how to implement and evaluate programs that promote safe and violence-free schools and communities.
4. The school psychologist understands leadership roles in the development and implementation of systems change.

5. The school psychologist understands funding mechanisms available to schools and communities that support physical, educational, and mental health services.

6. The school psychologist knows how to access resources available to address behavioral, learning, mental, and physical needs.

Performance
1. The school psychologist applies principles of organizational development and systems theory to promote learning and to create climates of mutual respect, care, and support for all individuals in the system.

2. The school psychologist participates in the implementation and evaluation of programs that promote safe and violence-free schools community

3. The school psychologist contributes to the development of school policies, agency, and community procedures that promote effective programs and services for students and families.

4. The school psychologist facilitates decision making and collaboration that fosters a commitment to effective services for students and families.

5. The school psychologist accesses available resources to address behavioral, learning, mental, and physical needs.

Standard 9: Prevention, Crisis Intervention, and Mental Health - The school psychologist understands human development and psychopathology biological, cultural, and social influences on human behavior.

Knowledge
1. The school psychologist knows current theory, research and best practice concerning child and adolescent development; psychopathology; biological, cultural, and social influences on behavior; societal stresses; drug and alcohol influences; crises in schools, families, and
communities.

2. The school psychologist has knowledge of antecedents and consequences that influence students’ learning and behavior problems.

3. The school psychologist understands strategies to address students’ learning and behavior problems.

4. The school psychologist knows various prevention programs and crisis intervention procedures.

5. The school psychologist understands diverse health issues (e.g., nutrition, eating disorders, teen pregnancy, AIDS, drug and alcohol abuse, smoking, and stress-related disorders).

Performance

1. The school psychologist develops, implements, and evaluates prevention programs based on recognition of the antecedents to students’ learning and behavior problems.

2. The school psychologist participates in crisis prevention, intervention, and response and collaborating with students, school personnel, families and the community.

3. The school psychologist participates in and promotes physical and mental health programs for children in schools and related agencies.

4. The school psychologist facilitates environmental and/or educational changes that support the physical and mental health of students.

5. The school psychologist accesses available resources to address a wide variety of behavioral, learning, mental, and physical needs.

Standard 10: Home/School/Community Collaboration - The school psychologist understands how to work effectively with students, families, educators, and others in the community to promote and provide comprehensive educational services.
Knowledge

1. The school psychologist knows how family systems influence students’ cognitive, affective and social development, and academic performance.

2. The school psychologist understands the importance of family involvement in education.

3. The school psychologist knows methods to promote collaboration between parents and educators that improve student performance.

4. The school psychologist understands diversity issues that affect home/school collaboration.

5. The school psychologist knows how family, home, peer, and community factors affect learning and achievement in school.

6. The school psychologist knows the local community services available to support students and their families.

Performance

1. The school psychologist applies knowledge of the influence of family systems on education to maximize student performance.

2. The school psychologist facilitates and supports parent participation in educational decision-making activities (e.g., team meetings, schoolwide committees, and school improvement teams).

3. The school psychologist facilitates home-to-school communication, including assisting students and families in accessing community and school-based services.

4. The school psychologist uses knowledge of diversity and resources to enhance collaboration between and schools.

Standard 11: Research and Program Evaluation - The school psychologist understands research, statistics, and evaluation methods.
Knowledge

1. The school psychologist knows the basic principles of research design and statistics used in psychological and educational research.

2. The school psychologist possesses sufficient knowledge of research and statistics to interpret and evaluate published research and/or plan and conduct research.

3. The school psychologist knows appropriate program evaluation strategies and techniques.

4. The school psychologist understands psychometric principles that influence test selection and assessment methods.

5. The school psychologist knows the strengths and weaknesses of various research methods, designs and their impact on the interpretation of findings.

Performance

1. The school psychologist applies knowledge of the principles of research design.

2. The school psychologist uses an understanding of research methodology and design to evaluate the validity and relevance of others’ research.

3. The school psychologist uses appropriate strategies when evaluating programs and interventions.

4. The school psychologist applies psychometric standards and principles in selecting and using assessment tools and published tests.

5. The school psychologist maintains, accesses, and applies a current professional knowledge base of research findings, professional literature, and best practices relevant to the job.
Idaho Standards for School Social Workers

The following knowledge and performance statements for the School Social Worker Standards are widely recognized, but not all-encompassing or absolute, indicators that School Social Worker candidates have met the standards. It is the responsibility of a School Social Work preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the School Social Work profession is a candidate’s disposition. Professional dispositions are how School Social Work candidates view their profession, their content area, and/or students and their health and learning. Every School Social Work preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Social Worker candidate dispositions.

*This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Content - The competent school social worker understands the theories and skills needed to provide individual, group, and family counseling; crisis intervention; case management; advocacy; consultation; in-service and parent education; prevention programs; conflict resolution services; and community organization and development. The school social worker utilizes these theories and skills to enhance the environment of the local educational agency (LEA).

Knowledge: The competent school social worker:

1. Has attained a master’s degree in social work with a specialization in school social work from a program accredited by the Council on Social Work Education (CSWE); OR meet the following criteria:
   (1) has attained a master’s degree in social work from a program accredited by (CSWE),
   (2) has taken a school social work course and,
   (3) has completed a social work practicum in a K-12 setting or has extensive experience working with children and families.

2. Understands methods of practice, including counseling, crisis intervention, case work, and individual, group, and family therapies.

3. Understands and develops skills in advocacy, case management, consultation, classroom groups, and community organization.
4. Understands theories of normal and exceptional development in early childhood, middle childhood, adolescence, and early adulthood and their application to all students.

5. Understands the effects of mental illness on students’ ability to participate in learning.

6. Understands the person-in-environment context of social work.

7. Understands the effects of biological, family, social, health, and cultural factors on human development and social functioning.

8. Understands characteristics and implications for education of children with academic, and/or social/emotional challenges.

9. Understands systems theories as they relate to classrooms, schools, families, and community.

10. Understands methods of advocacy on behalf of individuals, families, and school systems.

11. Understands the application of social learning theories to identify and develop broad-based prevention and intervention programs.

Performance: The competent school social worker:

1. Uses empathy in interpersonal relationships.

2. Uses diverse interview techniques and written communication with all persons within the student's system.

3. Gathers and interprets appropriate information to document and assess environmental, emotional, cultural, socioeconomic, educational, biological, medical, psychosocial, and legal factors that affect children's learning.

4. Makes appropriate social work assessment of typical and atypical development of students based on level of state licensure i.e., Licensed Master Social Work (LMSW) or Licensed Clinical Social Worker (LCSW).

5. Selects and applies empirically-based methods of intervention to enhance students' educational experience.

6. Demonstrates effective leadership of and participation in interdisciplinary teams.

Standard 2: Service Delivery - The competent school social worker utilizes a variety of intervention strategies that support and enhance students’ educational and emotional development.
Knowledge: The competent school social worker:

1. Understands empirically-based methods of individual, group, family, and crisis counseling.

2. Understands empirically-based methods of social work service delivery.

3. Understands and develops skills in advocacy, case management, community organization, consultation and in-service training.

4. Understands the application of social learning theories to identify and develop broad-based prevention and interventions, including “Response to Intervention.” (RTI)

5. Understands the interdisciplinary approach to service delivery within the educational environment.

6. Understands how to integrate content knowledge for service delivery.

7. Understands the role of mandated reporters and the function of the State’s child welfare agency and law enforcement interaction.

Performance: The competent school social worker:

1. Develops and implements empirically-based prevention and intervention plans that enable the child to “respond to intervention” (RTI).

2. Provides individual, group, and/or family counseling and other services to enhance success in the educational process.

3. Provides crisis intervention counseling and other services to the school community.

4. Provides consultation to teachers, administrators, parents, and community agencies.

5. Develops and provides training and educational programs in the school and community.
6. Conducts social work assessments and participates in eligibility conferences for special education and other programmatic options, students’ educational planning conferences, and conferences with parents.¹

7. Initiates referrals and linkages to community agencies and maintains follow-up services on behalf of identified students.

8. Mobilizes the resources of the school and community to meet the needs of children and their families.

9. Reports suspected child abuse and neglect to the State’s child welfare agency and/or law enforcement.

¹ School social workers started as and remain an integral link between school, home, and community. Those who choose this particular field of social work provide direct services, as well as specialized services such as mental health intervention, crisis management and intervention, and facilitating community involvement in the schools. Working as an interdisciplinary team member, school social workers not only continue to provide services to school children and their families, but also continue to evaluate their role and consequently modify it to meet organizational or contextual needs and changes in policies and practice.

Standard 3: Planning - The competent school social worker designs services based upon knowledge of the educational setting, as well as information about the students, families, and community.

Knowledge: The competent school social worker:

1. Understands learning theory and normal and exceptional development as it applies to the content and curriculum of educational planning and intervention.

2. Understands the process of needs assessment, referral, and resource development.

3. Understands how to develop long- and short-term empirically-based intervention plans consistent with curriculum and students' diversity and strengths, life experiences, and social/emotional factors.

4. Understands environmental factors when planning interventions to create an effective bridge between students' experiences and goals.

5. Understands how to integrate and use technology for assessments, interventions, and information management.

Performance: The competent school social worker:

1. Assists in establishing expectations for student learning consistent with students’ strengths and educational systems’ goals.

2. Conducts needs assessments to plan for service delivery.

3. Assists students in creating long- and short-term plans to meet expectations for learning.

4. Creates and adapts from empirically-based learning opportunities and materials to provide effective interventions.

5. Plans interventions that integrate students' life experiences and future career goals.

6. Maintains relevant data to assist in planning, management and evaluation of school social work.

7. Collects, analyzes and interprets data to evaluate and modify interventions when necessary.
8. Supports approaches to learning that address individual student needs.

9. Integrates and uses technology for assessments, interventions, and information management.

**Standard 4: Assessment and Evaluation** - The competent school social worker understands various formal and informal assessment and evaluation strategies and uses them to support the development of all students.

**Knowledge: The competent school social worker:**

1. Understands strength-based assessments and practices that support growth and development.

2. Understands various types of research, measurement theory, and concepts of validity, reliability, bias, scoring, and interpretation of results.

3. Understands multiple empirically-based assessment techniques, such as observation, structured/clinical interviews, and standardized assessments, and their purposes, characteristics, and limitations.

4. Understands how to conduct social work assessment of adaptive behavior, learning styles, self-esteem, social skills, attitudes, high-risk behavior (i.e. truancy, suicide, homicide, drug and alcohol, etc.), interests, and emotional/mental health.

5. Understands the use of assessment as a means to evaluate the student's social-emotional/mental functioning, including:
   - The child’s physical, cognitive, and social-emotional development;
   - Family history and factors that influence the child’s overall functioning;
   - The child’s behavior and attitude in different settings;
   - Patterns of interpersonal relationships in all spheres of the child’s environment;
   - Patterns of achievement and adjustment at critical points in the child’s growth and development;
   - Adaptive behavior and cultural factors that may influence learning.

6. Understands the social-developmental history with its focus on the student's functioning within the educational environment.
7. Understands the relationship between assessment, eligibility, and placement decisions, including the development of Individualized Education Programs.

8. Understands parent/guardian and student rights (both legal and educational) regarding assessment and evaluation.

9. Is familiar with the diagnostic tools used by other professionals in the school.

10. Understands the use of empirically-based assessment and evaluation results to develop student interventions.

**Performance: The competent school social worker:**

1. Appropriately uses a variety of non-discriminatory formal and informal tools and techniques, including observation, interview and standardized instruments to evaluate the understanding, progress, and performance of students’ social-emotional development in the school environment.

2. Uses social work assessment results to identify student learning needs and to assist in aligning and modifying instruction and designing intervention strategies including “Response to Intervention” (RTI).

3. Uses empirically-based assessment and evaluation results to develop appropriate interventions, including recommendations for eligibility and placement.

4. Involves students in self-assessment activities to help them become aware of their strengths and needs and to establish goals.

5. Presents social work assessment results in an easily understandable manner.

6. Documents social work assessment and evaluation results.

7. Collaborates with parents/guardians and other professionals regarding the assessment process.

8. Ensures parents/guardians are informed of their rights and the rights of students regarding assessment.
9. Uses a variety of non-discriminatory formal and informal tools and techniques to help determine the efficacy of intervention and programs.

_Sandard 5: Consultation and Collaborative Relationships: The competent school social worker develops consultative and collaborative relationships with colleagues, parents, and the community to support students’ learning and well-being._

**Knowledge: The competent school social worker:**

1. Understands the principles, practices, and processes of individual and organizational consultation.

2. Understands the collaborative process with parents, school personnel, community-based organizations, and agencies to enhance the student's educational functioning.

3. Understands the school’s role within the context of the larger community.

4. Understands the variations in beliefs, traditions, and values across cultures and their effect on interactions among group members.

5. Understands the importance of audience and purpose when selecting ways to communicate ideas.

6. Understands language development, communication techniques, and the role of communication in the learning environment.

7. Understands that as members of interdisciplinary teams and coalitions, school social workers shall work collaboratively to mobilize the resources of local education agencies and communities to meet the needs of students and families.

8. Understands the role of school personnel as mandated reporters of child abuse and neglect.

**Performance: The competent school social worker:**

1. Initiates, develops, and implements consultative relationships.

2. Models and promotes ethical practices for confidential communication.

3. Collaborates with colleagues, parents/guardians, and community personnel about students’ needs.
4. Encourages relationships among colleagues to promote a positive learning environment.

5. Participates in collaborative decision-making and problem-solving to promote students’ success.

6. Facilitates a collaborative relationship between general and special education systems to promote a unified system of education.

7. Models and promotes effective communication among group members or between groups.

8. Uses a variety of effective communication modes with diverse target groups.

9. Assist in the education of school personnel on mandated reporting of child abuse and neglect to the State’s child welfare agency and/or law enforcement.

10. Makes mandated reports of child abuse and neglect as appropriate to the State’s child welfare agency and/or law enforcement.

Standard 6: Advocacy and Facilitation - The competent school social worker advocates and facilitates change that effectively responds to the needs of students, families, and school systems.

Knowledge: The competent school social worker:

1. Understands the role of advocacy and facilitation at all levels of the system that affect students and their families.

2. Is familiar with available resources for students and families within the school and community.

3. Understands when and how to make referrals for programs and services at the district, community, and State levels.

4. Understands the need to improve access to services and resources.

Performance: The competent school social worker:

1. Works to empower children, their families, educators, and others to gain access to and effectively use school and community resources.
2. Identifies areas of need and accesses or advocates for the creation of resources at the state and community level.

3. Makes referrals to community and school resources.

4. Advocates for students with other members of the educational community to enhance students’ functioning in the learning environment.

Standard 7: Learning Community - The competent school social worker encourages effective social interaction, active engagement in learning, and self-motivation to create a positive learning community.

Knowledge: The competent school social worker:

1. Understands principles of and strategies for effective behavior and social management within the school environment.

2. Understands how people’s attitudes within the educational environment influence behavior of individuals.

3. Understands how to help students work cooperatively and productively.

4. Understands the importance of parents'/guardians’ participation in fostering students’ positive development.

5. Understands dispute resolution strategies.

6. Understands the goals and objectives of educational organizations.

7. Understands how to work with administrators and other school personnel to make changes within the school.

8. Understands how service learning and volunteerism promote the development of personal and social responsibility.
Performance: The competent school social worker:

1. Encourages the development of a learning community where students assume responsibility, participate in decision-making, and work independently as well as collaboratively in learning activities.

2. Analyzes school environments and works effectively to create/enhance a supportive and safe learning climate.

3. Develops strategies to encourage motivation and engagement through mutual respect and cooperation.

4. Develops dispute resolution programs within the school environment.

5. Develops needs assessments and works as a change agent to address the identified gaps in services.

6. Collaborates with community agencies in school-linked service learning projects or other programs.

7. Promotes the effective utilization of school social work services.

8. Promotes understanding of factors that affect the school environment and facilitates systems improvement.

9. Designs, implements, and evaluates programs that enhance a student’s social participation in school, family, and community.

10. Promotes active parental/guardian participation within the educational environment.

11. Collaborates with community agencies to increase access to services and resources.

Standard 8: Diversity - The competent school social worker understands the broad range of backgrounds and experiences that shape students’ approaches to learning and helps create opportunities adapted to diverse populations of learners.

Knowledge: The competent school social worker:

1. Understands how students' learning is influenced by culture, family, community values, individual experiences, talents, gender, sexual orientation, language, and prior learning.
2. Understands and identifies differences in approaches to learning and performance, including different learning styles, performance modes, and variations of perception.

3. Understands and respects the impact of cultural, racial, ethnic, socioeconomic, and gender diversity and sexual orientation in the educational environment.

4. Understands the issues of second language acquisition, the immigrant experience, and the need to develop strategies to support students and families.

5. Understands ways in which similar behaviors may have different meanings to people in different cultures.

Performance: The competent school social worker:

1. Facilitates a learning community in which individual differences are respected.

3. Provides services that promote multi-cultural sensitivity.

4. Develops strategies to decrease negative effects of cultural barriers on education.

5. Utilizes students' diversity to enrich the educational experiences of all students.

6. Interprets information about students’ families, cultures, and communities in assessments, interventions, and evaluations of student progress.

7. Utilizes appropriate social work assessment tools and empirically-based intervention strategies that reflect diverse student needs.

8. Designs empirically-based intervention strategies appropriate to student’s culture, gender, sexual orientation, developmental stage, learning styles, strengths and needs.
9. Makes referrals for additional services or resources to assist students with diverse learning needs.

**Standard 9: Professional Conduct and Ethics - The competent school social worker understands education and social work as professions, maintains standards of professional conduct and ethics, and provides leadership to improve students’ learning, safety, and well-being.**

**Knowledge: The competent school social worker:**

1. Understands the current applicable professional codes of conduct and ethical practice guidelines.

2. Understands federal and state laws and regulations as they pertain to ethical school social work practice.

3. Understands the legal and ethical principles of confidentiality as they relate to the practice of school social work, (i.e. HIPPA, FERPA).

4. Understands the organization and operation of safe school systems.

5. Understands school policies and procedures as they relate to student learning, safety and well-being.

6. Understands legal issues in education, with special emphasis on: persons with disabilities, child welfare, mental health, confidentiality, and students’ and families’ rights.

7. Understands the importance of active participation and leadership in professional education and social work organizations.

**Performance: The competent school social worker:**

1. Follows the professional code of conduct and ethical practice guidelines referred to in Standard 9, Knowledge Indicator 1.

2. Maintains current knowledge of and abides by federal and State laws and regulations, with emphasis on persons with disabilities, child welfare, mental health, confidentiality, and students’ and families’ rights.

3. Participates in district activities such as policy design, curriculum design, staff development, and organizations involving parent/guardians and students.
4. Abides by current legal directives, school policies, and procedures.

5. Promotes the rights of all students in a safe environment.

6. Models and promotes ethical practices for confidential communication.

**Standard 10: Professional Development - The competent school social worker actively seeks opportunities to grow professionally.**

**Knowledge: The competent school social worker:**

1. Understands the importance of taking responsibility for self-evaluation as a competent and ethical practitioner.

2. Understands the impact of personal strengths and needs on service delivery.

4. Understands how to use supervision, consultation, collaboration, and continuing education to identify areas for on-going professional development.

5. Understands how to interpret and utilize research to evaluate and guide professional interventions and program development.

**Performance: The competent school social worker:**

1. Uses continuing education, professional development activities, research, professional literature, observations and experiences to enhance professional growth and to guide evaluation of professional practice.

2. Maintains an awareness of personal attitudes, perspectives, strengths, and needs as they relate to professional practice.

4. Actively seeks consultation to improve professional practice.

5. Maintains the limits and boundaries of the professional role of school social workers.

6. Participates in professional activities and organizations that promote and enhance school social work practice.

   EDUCATION PROGRAMS ..................................................... 16

7.0 PUBLIC SCHOOL DISTRICTS CONTRACTING WITH
   A PRIVATE DRIVING SCHOOL .............................................. 16
IDAPA 08.02.02.004
PUBLIC DRIVER EDUCATION
All Idaho public Driver Education programs operated by a public school district comply with the requirements in this document. Sections one (1) through six (6) only apply to those programs that public school districts operate directly and do not apply to any public school district that contract with a private driving business licensed by the Idaho Bureau of Occupational Licensing. Section seven (7) only applies to public school districts that contract with private driving businesses licensed by the Idaho Driving Businesses Licensure Board.

1.0 PUBLIC DRIVER EDUCATION STUDENT REQUIREMENTS

1.1 Enrolled Students

1.1.1 An individual between the ages of 14 ½ and 21 may enroll in an Idaho public driver education and training program.

1.1.2 Students under the age of 18 must provide a Verification of Compliance Form from their school to prove that they are currently enrolled in school.

1.1.3 An Idaho driver training permit must be purchased before the student participates in any instruction.

1.1.4 Students enrolled in a home school program must be in compliance with the requirements of the Idaho State Department of Education. The student must be in a home school program for at least (1) year prior to obtaining a driver education permit.

1.2 Transfer Students From Out Of State

1.2.1 Students completing driver education in another state must have met or exceeded Idaho’s minimum requirements of thirty (30) classroom hours, six (6) behind-the-wheel hours, and six (6) observation hours to qualify for or to complete the six (6) month supervised instruction period in Idaho. The documentation must be on an official school form, signed by the instructor or administrator.

1.2.1.1 Online coursework is not transferable unless it meets or exceeds INACOL standards (International Association for K-12 Online Learning). On-line coursework can only replace the (30) classroom hours. Driving and observation time cannot be replaced with simulated driving or on-line classroom hours.

1.2.2 Students who have completed thirty (30) hours of classroom instruction in another state but fewer than six (6) hours of in-car instruction and less than six (6) hours of observation may complete the in-car instruction and observation in Idaho.

1.3 Student Transfers

1.3.1 If a student transfers out with a valid reason (illness, injury, etc.), the student list must show the student as “transferred out” to keep the permit valid. The school must hold onto the permit until that student can be “transferred in” to another class.
1.4 Failure/Removal from a Public Driver Education Program

1.4.1 Students may be removed from or fail a Public Driver Education program for reasons that include, but are not limited to, the following:

1.4.1.1 Not having purchased a permit before any instruction takes place.
1.4.1.2 Excessive tardiness or absences.
1.4.1.3 Attitude and/or behavior that detracts from safe driving or a positive driver education classroom environment.
1.4.1.4 Cheating (whether sharing or receiving answers or work without permission.)
1.4.1.5 Violation of Idaho’s alcohol/age laws during driver education, while driving or not, will cancel the instruction permit and result in failing driver education.
1.4.1.6 Any violation of the driver education permit including driving without the instructor during the period of time the course is being offered.
1.4.1.7 Use of a mobile or electronic device during instruction without the instructor’s permission.
1.4.1.8 A student in violation of any school or district policy shall not be permitted to enroll or complete driver education.

1.5 Students with Special Needs

1.5.1 If a student has an Individualized Education Program (IEP), the IEP team should develop goals and objectives to determine if the student will need special accommodations in driver education and training. Once enrolled, every effort should be made to adapt lesson materials to the student's specific needs (Individuals with Disabilities Education Act, IDEA; PL101-476). Students not eligible for special education services should consult with the district's school staff responsible for determining under the IDEA if the student could qualify and receive services under Section 504.

1.5.2 Public driver education programs will have procedures in place to assist instructors in identifying students with special needs.

1.5.3 The school shall provide appropriate accommodations when necessary. No accommodations can be made that compromise public safety.

2.0 PUBLIC PROGRAM INSTRUCTIONAL REQUIREMENTS

2.1 Classroom Environment

2.1.1 If the classroom is not located in a public school building, a Certificate of Maximum Occupant Load from the state fire marshal, local fire department, or local planning and zoning agency must be submitted. The classroom must, in addition to fire and safety approval, meet the standards required by the American with Disabilities Act.

2.1.2 The classroom environment will be conducive to learning, free from any disturbing influences and used exclusively for driver education instruction during the classroom period.
2.2 Minimum Hours and Days

2.2.1 All Idaho public driver education and training courses shall include a minimum of thirty (30) clock hours of classroom instruction, six (6) clock hours of behind-the-wheel instruction and six (6) clock hours of observation.

2.2.2 With the exception of the approved Idaho INACOL online course, the thirty (30) clock hours of classroom instruction requires face-to-face interaction with the instructor.

2.2.3 Homework assignments completed outside the classroom shall not be counted in the thirty (30) clock hours of classroom instruction.

2.2.4 Students shall be regularly scheduled for concurrent and sequential classroom and behind-the-wheel instruction. Every student will receive instruction for the required number of hours.

2.2.5 Each behind-the-wheel lesson shall be taught in the classroom prior to practicing the lesson during behind-the-wheel instruction.

2.2.6 Classroom instruction shall not be substantially completed or completed before starting in-car practice.

2.2.7 Before students begin behind the wheel instruction on a public roadway, they will first be given classroom instruction for the basics of: approaching the vehicle with awareness; orientation to controls; use of vision to control the vehicle; proper use of the steering wheel; accelerator and brake control; turning left and right; signs, signals, and markings; and rules of the road.

2.2.8 A maximum of thirty-six (36) students shall be scheduled per class.

2.2.9 Classroom instruction shall not exceed ten (10) hours in a seven day period.

2.2.10 Classroom instruction shall not exceed three (3) hours and twenty (20) minutes per day.

2.2.11 Instruction shall not begin earlier than 6 a.m. or end later than 10 p.m.

2.3 Behind the Wheel Driving Time

2.3.1 The optimum time each student will be behind the wheel is sixty (60) minutes or less per day.

2.3.1.1 When it is in the best interest of the program, students may drive a maximum of ninety (90) minutes per day in two forty-five (45) minute intervals. These intervals must be separated by a break or period of observation of at least forty-five (45) minutes.

2.3.2 Each student shall not receive more than three (3) hours of in-car instruction in a seven day period.

2.3.3 Behind the wheel lessons shall not begin earlier than 6 a.m. or end after 10 p.m.

2.3.4 Drive time shall not include time spent driving to pick up or drop off students unless the route meets the objective of the drive lesson.

2.3.5 Each drive must have specific, written objectives.

2.3.6 Detailed feedback will be provided to each student after each drive.

2.4 Observation Time

2.4.1 Students may observe from the rear seat for a maximum of three (3) hours per day.
2.4.2 Instructors will provide lessons to engage observing students in each drive lesson.
2.4.3 Students may complete the observation time with a parent or legal guardian when the instructor and parent/guardian agrees that it is in the best interest of the student.

2.5 Vehicle Occupants

2.5.1 Only the instructor and student driver may occupy the front seats.
2.5.2 In-car instruction shall include not less than two (2) or more than three (3) students in the car.
   2.5.2.1 While not recommended, one student may be scheduled for in-car instruction when it is determined to be in the best interest of the student. This exception shall have prior written permission from the parent or legal guardian.
2.5.3 No person shall occupy a rear seat unless involved as a student, parent/guardian, instructor or student enrolled in a driver education teacher preparation course, translator, administrator or designee, or supervisor of the driver-training program.

2.6 Multiple-Car Driving Range

2.6.1 Two (2) hours of driving on a multiple-car driving range may be substituted for one (1) hour of behind the wheel instruction. Multiple-car instruction may be substituted for not more than three (3) of the total six (6) hours required for behind-the-wheel hours.

2.7 Simulation Instruction

2.7.1 Simulators may be used for supplemental instruction only and not for any part of the six (6) hours of behind-the-wheel or observation time.

2.8 Distance Learning Courses

2.8.1 Students taking the classroom portion of Driver Education online must find and hire a local certified in-car instructor prior to beginning the course.
2.8.2 Students must purchase a permit before being allowed to participate in any classroom or in-car instruction.
2.8.3 Approved online Driver Education courses must meet or exceed the INACOL standards (International Association for K-12 Online Learning) for online learning and be approved by the Idaho State Department of Education.
3.0 PUBLIC PROGRAM INSTRUCTOR REQUIREMENTS

3.1 Definition of a Public Driver Education Instructor

3.1.1 A public driver education instructor is an individual who is licensed by the Idaho State Department of Education to teach the classroom instruction and behind-the-wheel phase of driver education in the public school system.

3.2 Age

3.1.1 Idaho public driver education instructors must be at least twenty-one (21) years of age.

3.3 Driver’s License

3.2.1 Applicants for an original or renewal public driver education instructor license shall possess a valid class A-D driver license and have a satisfactory driving record. A driving record will be determined satisfactory only if the applicant has not:
- received a court suspension or revocation that is not traffic related.
- been convicted of a traffic violation that carries a mandatory suspension or revocation of the driver's license within the preceding thirty-six (36) months.
- been convicted of more than one (1) occasion of any moving traffic violation within any twelve (12) month period of the previous thirty-six (36) months.
- been convicted for any moving traffic violation causing a fatal traffic collision.
- been convicted for driving while his/her driver's license was revoked or suspended within the past five (5) years.
- been convicted for driving under the influence of a controlled substance within the past five (5) years.

3.2.2 Out-of-state residents working in the Idaho public school system must submit a state-issued copy of their driving record from their home state.

3.4 Education

3.4.1 Applicants for an original public driver education instructor license must have completed at least four (4) semester credit hours in a state-approved driver education licensing course.

3.4.2 Applicants for an original public license must have a valid Idaho educator credential or verified previous instructor experience.

3.4.3 Licensed instructors moving to Idaho from another state must take and pass the State of Idaho Driver Education Certification Exam with a grade of 80% or higher. If an applicant fails the exam, the Idaho Driver Education Licensing course must be taken.

3.4.4 Idaho public driver education instructors who have let their licenses lapse must either attend fifteen (15) hours of driver education professional development or take and pass the Idaho Driver Education Licensing Course’s final exam with a grade of 80%, if the applicant fails the written final exam, they must retake the Idaho Driver
Education Licensing Course or wait to attend fifteen (15) hours of driver education professional development.

3.4.5 New public driver education instructor applicants must submit a sealed Idaho Transportation Department (ITD) skills test that has been administered by an ITD skills tester within the past twelve (12) months, with a passing score of not more than seven (7) penalty points. The applicant must wait three (3) days before retesting.

3.4.5.1 At the discretion of the Idaho State Department of Education, a re-examination of a knowledge or skills test may be required for a license renewal.

3.4.6 Instructors who once had a valid teaching credential may continue to teach driver education without having to keep their teaching credential current.

3.5 Medical Examination

3.5.1 Public driver education and training instructors shall have a medical examination that meets the Federal Motor Carriers Safety Regulations (49 CFR 391.41-391.49).

3.5.2 The medical examination shall be completed within three (3) months preceding the application.

3.5.3 The medical examination report must indicate whether the applicant has any ailment, disease, or physical or mental disabilities that may cause momentary or prolonged lapses of consciousness or control, which is or may become chronic. Applicants must not be suffering from a physical or mental disability or disease that may prevent the applicant from maintaining reasonable and ordinary control over a motor vehicle or that could impair the applicant’s ability to drive safely or instruct automobile drivers.

3.5.4 The medical examination must be renewed upon expiration, and a copy of the official form sent to the Idaho State Department of Education.

3.5.5 Public driver education instructors who cannot pass a physical may request permission to teach the classroom portion of the course only when they turn in a copy of their medical exam.

3.6 Professional Development

3.6.1 Public driver education instructors must complete eight (8) hours of professional development training every year. Professional development hours will be accepted if for the purpose of enhancing instructional knowledge and skills in support of teaching best practices.

3.6.2 Professional development training, other than state offered workshops, must be pre-approved by the Idaho State Department of Education and may be obtained through a state agency, college or university, or professional education organization. Professional development training may be selected from independent study courses and may also include Continuing Education Units (CEUs) approved by the Idaho State Department of Education.
3.7 License Renewal

3.7.1 The School district must submit the Public School Annual Program Plan Packet listing all instructors to be licensed for their district to teach driver education. Instructors are licensed each July 1st for a period of twelve (12) months.

3.7.2 Instructors are responsible to make sure their licensing requirements, including medical exam and professional development, are current.

3.8 Criminal History Check

3.8.1 Anyone affiliated with teaching public driver education must have a current criminal history check on file at the Idaho State Department of Education on an official SDE form.

3.8.2 If an employee remains continuously employed with a district, an additional criminal history check is not required. However, when a person begins employment with another district or if there is a break in service, a new criminal history check is required.

3.8.3 If an instructor works for two or more districts at the same time and a criminal history check has been done within the past three (3) months, an SDE Multiple Assignment Form may be filled out and one background check used for all schools on the form.

3.8.4 An individual convicted of a misdemeanor or felony crime against a child is not eligible for public driver education licensing.

3.8.5 A public driver education instructor convicted of a misdemeanor or felony crime against a child will lose his or her current driver education license.

3.9 Driving Under the Influence (D.U.I.)

3.9.1 If a public driver education instructor is convicted of a D.U.I. while holding a public driver education instructor’s license, the license will be immediately revoked for a period of not less than five (5) years from the date of conviction.

3.9.2 If a conviction for D.U.I. has occurred within the past five (5) years, the individual with the conviction will not be eligible for a public driver education instructor’s license until five (5) years from the date of conviction.

3.9.3 Refusal to take an evidentiary test will result in instructor license revocation for a period of five (5) years.

3.9.4 An individual with more than one D.U.I. is not eligible for a public driver education instructor’s license.

4.0 PUBLIC PROGRAM COURSE ADMINISTRATION

4.1 Annual Application to Operate Packet

4.1.1 All public driver education programs, including those contracting with a private driving school, must submit an Annual Program Plan to the Idaho State Department of Education for approval no less than thirty (30) days prior to the start of the first class of the fiscal year.
4.2 Student Lists

4.2.1 All public driver education programs must submit a Final Student List provided by the SDE to their local Department of Motor Vehicles (DMV) within three (3) days after a course ends.

4.2.2 Course end dates on the final student lists must be the same date students begin their six (6) months of supervised driving.

4.3 Reimbursement

4.3.1 All public driver education programs must report all income generated by student fees and district expenses to the Idaho State Department of Education on the Reimbursement Form.

4.3.2 Public School Programs may choose to file a claim for reimbursement within forty-five (45) days after each class ends or submit all classes at once, annually.

4.3.3 Claims for reimbursement must include final student lists with instructors signature for each course taught.

4.3.4 Any public driver education program that fails to meet the standards within this document shall not be entitled to reimbursement.

4.3.5 Public school districts may include the cost of instructor training and required medical examinations for its instructors on their Reimbursement Form.

4.3.6 Two or more districts may cooperate in offering driver education and training. However, only one school district may submit a Reimbursement Form. All adjustments for payment of expenses will be between the cooperating districts.

4.3.7 If a student fails, the student can re-enroll in another class, providing the student purchases a new Driver-Training Permit. The student may again be added to another Reimbursement Form.

4.3.8 Public schools are eligible for full reimbursement at the current rate for each student that completes the required thirty (30) hours of classroom, six (6) hours of driving, and six (6) hours of observation.

4.3.8.1 Public schools will be reimbursed half the current reimbursement rate for students who complete more than fifteen (15) but fewer than thirty (30) hours of classroom.

4.3.9 Claims for on-line classroom reimbursement must be an approved online Driver Education course that meet or exceed the INACOL standards (International Association for K-12 Online Learning) for online learning and be approved by the Idaho State Department of Education.

4.4 Students outside a School District

4.4.1 Students enrolled in any Idaho public school district may enroll in driver education and training outside their home district with approval from both districts.
4.5 Student Records

4.5.1 At the end of the course, the student’s driving logs shall be included in the student’s record and maintained by the school. All original student records shall be maintained for a minimum of five years, including students who passed, failed, withdrew, cancelled or transferred. Each student’s record shall include:
- student’s full name, address, telephone number;
- driver training permit number;
- attendance records;
- behind-the-wheel driving log;
- quizzes and tests grade results;
- final grades.

4.5.2 Students will be given a certificate of completion upon passing a public Idaho driver education course.

4.5.3 Original student records shall be made in ink and updated after each lesson.

4.5.4 The original records shall be made available to the Idaho State Department of Education upon request.

4.5.5 Loss, mutilation, or destruction of records must be reported immediately to the Idaho State Department of Education by affidavit, stating the date the records were lost, destroyed, or mutilated; the circumstances involving the loss, destruction or mutilation; the agency to which it was reported, name of the law enforcement officer or fire department official, case number, and the date of the report.

4.6 Collision/Incident Report

4.6.1 Within two (2) weeks following any incident involving a public driver training vehicle, the school district must submit a current SDE Collision/Incident Report Form to the Idaho State Department of Education.

4.6.2 All driver training vehicles involved in a collision will be required to file a report with the appropriate police agency. The school district will provide a copy of the police report to the Idaho State Department of Education.

4.6.3 Any student driver who is convicted of a traffic violation resulting in a crash while holding a driver education permit may have their permit revoked. If the license is revoked, the student must purchase another permit and take the class at a later date.

4.7 Driving Logs

4.7.1 A driving log for each student shall be maintained by the instructor and include the following minimum information: (1) student name, (2) driver training permit number, (3) home phone number, (4) emergency contact name and phone number, (5) instructor's name, (6) date and clock time of each drive, (7) skills taught, (8) driving time, (9) instructor remarks, (10) student initials verifying time/date for each drive and observation, (11)
final behind-the-wheel grade, (12) total driving time, and (13) special accommodations if used (hand controls, a seat cushion, etc.).

4.8 Instructor Cell Phone and Mobile Device Use During Instruction

4.8.1 Instructor cell phone use while a student is driving shall be limited to emergency purposes only.

4.9 Assessments

4.9.1 The standards for passing a public driver education and training program shall be clearly set forth in writing to students prior to starting the course of instruction.

4.9.2 Students shall be assessed in the following three (3) areas: knowledge, skills, and attitude. A student who fails in any one of these three areas shall fail the entire course.

4.9.3 Each student shall be assessed for knowledge and understanding of the classroom lessons with quizzes that require students to list, define, describe, identify, demonstrate, explain, compare, predict, estimate, or solve.

4.9.4 Successful completion for the course is earning a grade of 80% or higher.

4.9.5 A final knowledge test will be administered at the completion of the course.

4.9.6 A final behind-the-wheel skills test will be administered that measures the essential skills required for operating a motor vehicle safely on public roadways.

4.10 Parental Involvement

4.10.1 Contact with each student’s parent or guardian is required at least once during the course.

4.10.1.1 Contact may be by phone, email, mail, or in person for on-line classes.

4.10.1.2 Instructors will conduct at least one parent night with each driver education class. Parents/Guardian must attend prior to the student receiving their supervised instruction permit.

4.11 Make-Up Policy

4.11.1 The school will have a written policy for missed coursework and driving.

4.11.2 A make-up policy shall ensure that all required hours of instruction and course content are completed. Students will not be allowed to make up missed lessons in a scheduled classroom session unless the lesson missed is being taught. Make-up lessons may be provided on an individual basis.

4.11.3 The school may charge an extra fee for missed coursework and driving.

4.12 Curriculum
4.12.1 An Idaho public driver education and training program’s classroom and behind the wheel essential knowledge and skills shall meet or exceed those in the most recent *Idaho Public Driver Education Curriculum Guide*.

4.12.2 Idaho public driver education programs may create their own curricular materials as long as they meet or exceed the most recent *Idaho Public Driver Education Curriculum Guide*.

4.12.3 Idaho public driver education programs must meet or exceed the most current *Idaho Teen Driver Education and Training Program Content Standards and Benchmarks*.

4.12.4 The *Idaho Public Driver Education Curriculum Guide* will be based on nationally accepted standards and best practices.

4.12.5 A school’s curriculum may be audited as part of a regular review.

4.13 Lesson Plans

4.13.1 Each instructor shall have lesson plans for the lesson they are teaching in the classroom and/or behind the wheel based upon the program’s approved curriculum content outline. Lesson plan content shall meet or exceed the most current *Idaho Public Driver Education Curriculum Guide*.

4.14 Student Instructional Materials

4.14.1 Each student shall have access to instructional materials to read and study during the course. The instructional material shall be equal to or exceed the content of current state-adopted driver education textbooks and be compatible with the school’s curriculum content outline.

4.14.2 Textbooks, if used, shall be selected from the list adopted by the Idaho State Department of Education.

4.15 Idaho Driver’s Manual

4.15.1 Each student shall have access to a current copy of the *Idaho Driver’s Manual*. The manual shall not be used as the only source of instructional material, but shall be used as an aid for instruction on Idaho’s traffic laws, rules of the road, driver licensing and vehicle registration.

4.16 Practice Guide/Log

4.16.1 Each student and their parent or legal guardian shall be informed of the requirements of the Graduated Driver Licensing laws and provided a *Supervised Driving Guide Book* and driving log for their use during the required six (6) months of the Graduated Driver Licensing practice period.
5.0 PUBLIC DRIVER EDUCATION VEHICLE REQUIREMENTS

5.1 Vehicle Type

5.1.1 Only passenger vehicles may be used. All motor vehicles used for in-car instruction shall be properly registered in compliance with the Idaho Transportation Department’s vehicle registration laws and be maintained in safe operating condition.

5.2 Vehicle Use

5.2.1 If any of the mileage will be included for reimbursement and a vehicle is not used exclusively for driver training, the school will maintain a mileage log. The log will remain on file with the driver education program’s expenses.

5.3 Annual Vehicle Inspection

5.3.1 Before a vehicle is used for instruction, a certified mechanic must inspect the vehicle using the Vehicle Inspection Form provided by the Idaho State Department of Education.

5.3.2 Vehicles not passing the inspection shall be placed out of service until the needed repairs are made and the vehicle is re-inspected by a certified mechanic using the Vehicle Inspection Form.

5.3.3 Annual inspections expire on June 30 each year.

5.3.4 Inspections serve to verify the integrity of the vehicle’s critical safety components that are necessary to ensure that the vehicle is in safe operating condition.

5.3.5 Following any motor vehicle crash involving the vehicle, the public driver training school shall withdraw the vehicle from the fleet and not use it for instruction until it has passed a new mechanical inspection. This new inspection must be submitted to the Idaho State Department of Education before the vehicle can be returned to service.

5.3.6 Mechanics may use the Vehicle Inspection Form provided by the Idaho State Department of Education or their own, provided it meets or exceeds the inspection standards recommended by the American Association of Motor Vehicle Administrators.

5.3.7 A dual brake must be included in the inspection.

5.3.8 A copy of the Annual Vehicle Inspection must be included in the Annual Program Plan.

5.4 Required Vehicle Equipment
5.4.1 All motor vehicles used to practice driving lessons shall be equipped with a dual control brake pedal within easy reach of the instructor and capable of bringing the vehicle to a stop in accordance with Idaho Code §49-933(7).

5.4.2 Driver training vehicles shall be equipped with:
   - Operating safety belts and all occupants in the driver-training vehicle shall be properly secured in a safety belt when the vehicle is moving.
   - An inside rear view mirror for the exclusive use of the instructor.
   - Side-view mirror on each side of the vehicle, adjusted for the driver’s use.

5.4.3 Signs and/or lettering that can be seen from outside the vehicle to the rear and both sides of the vehicle.
   5.4.3.1 The signs and/or letters will be of contrasting colors so as to be clearly readable at one hundred feet in clear daylight.
   5.4.3.2 Signs and/or lettering to the rear and sides will have “STUDENT DRIVER,” “DRIVER EDUCATION,” or “DRIVING SCHOOL” with not less than 2 ½ inch high lettering.
   5.4.3.3 Signs and/or lettering to both sides of the vehicle will have the name of the school or school district with not less than two-inch (2) high lettering.
   5.4.3.4 All signs and/or lettering must be safely secured while the vehicle is in motion.
   5.4.3.5 When replacing worn or installing new signs, the lettering will comply with these standards.

5.4.4 Vehicles used on a multiple car, off-street “range” are not required to be equipped with a dual control brake, car signage, or rear-view mirror for the instructor.

5.5 Vehicle Insurance

   5.5.1 Insurance coverage shall be maintained in full force and effect while the vehicle is used for driver training and will meet the requirements in Idaho Statute §6-924. The current statute states the policy will have a limit of not less than $500,000 for bodily or personal injury, death, or property damage or loss as the result of any one (1) occurrence or accident, regardless of the number of persons injured or the number of claimants.

6.0 MONITORING AND REVIEWING PUBLIC DRIVER EDUCATION PROGRAMS

6.1 The Idaho State Department of Education may review public driver education classroom and behind-the-wheel instruction and program records for compliance with department instructional, statutory, and regulatory requirements.

6.2 Complaints against a public driver education program or instructor will result in an investigation and/or compliance review.

6.3 Reviewed public schools and/or instructors will be given feedback in areas they are doing well in and areas they can improve in.
6.4 Public schools and/or instructors that are out of compliance with policy will be put on an improvement plan that provides the support and time necessary to make the suggested or required changes that come from a review.

6.5 Public schools and/or instructors that refuse or fail to make the necessary changes to be in compliance within the agreed upon timeframe will not be eligible for reimbursement or be able to offer a program until they are back in compliance.

7.0 PUBLIC SCHOOL DISTRICTS CONTRACTING WITH A PRIVATE DRIVING SCHOOL

7.1 Public school districts may contract with a private driving school to provide a driver education and training program. To qualify for reimbursement, the district A public school district that qualifies for reimbursement shall have a written contract with the approved private driving school to provide classroom instruction and/or behind-the-wheel instruction. The contract will specify the responsibilities of each party, and be renewed annually. If the value of the contract is in excess of twenty-five thousand dollars ($25,000) in a fiscal year the school district must procure such services in accordance with Idaho Code 67-2801 through 67-2809.

7.1.1 Contracts must be renewed annually.

7.2 A copy of the contract shall be included in the annual program plan submitted by the school district to the Idaho State Department of Education at least thirty (30) days prior to a program starting for that fiscal year.

7.3 To be eligible for reimbursement the public school must show a direct expense equal to or greater than the reimbursable amount of $125 per student and/or show the contractor has a reduced fee for instruction more than or equal to $125.00 per student. The students’ driver education instruction fees must be paid directly to the public school that is requesting reimbursement.

7.4 The school district is responsible for ensuring that the contractor is teaching content that meets or exceeds the Idaho State Board of Education approved public driver education content standards and benchmarks.

7.5 All private contractors must have a valid license as issued by the Idaho Driving Businesses licensure board.

7.6 All record keeping and required reporting to the Idaho State Department of Education shall be completed by the school district.

7.7 All student records are the property and responsibility of the school district.

7.8 In accordance with the state statute 33-512, schools districts shall ensure that all private driver education instructors who are contracting with a public school and who will have unsupervised contact with students, have a current criminal history check on an official SDE fingerprint card on file at the Idaho State Department of Education. School districts will also be responsible for cross-checking all private driver education instructors working as contractors for the school district against the statewide sex offender register.
Federal law prohibits discrimination on the basis of race, color, religion, sex, national origin, age, or disability in any educational programs or activities receiving federal financial assistance. (Title VI and VII of the Civil Rights Act of 1964; Title IX of the Educational Amendments of 1972; Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990.)

It is the policy of the Idaho State Department of Education not to discriminate in any educational programs or activities or in employment practices.

Inquiries regarding compliance with this nondiscriminatory policy may be directed to the State Superintendent of Public Instruction, P.O. Box 83720, Boise, Idaho 83720-0027, (208) 3326800, or to the Director, Office of Civil Rights, Department of Education, Washington, D.C.
SUBJECT
Temporary Rule- IDAPA 08.02.02.004, Rules Governing Uniformity,
Incorporation by Reference.

Proposed standards revisions to the Idaho Standards for Operating procedures for Idaho Public Driver Education Programs.

APPLICABLE STATUTE, RULE, OR POLICY
Sections 33-1701 through 33-1708, Idaho Code

BACKGROUND/DISCUSSION
A public school district may contract with an approved private driving school to provide a driver education program. In order to assure a quality program, maintain student records and proper reporting to the Idaho State Department of Education, specific wording is being added to the standards regarding contracting.

In the accounting process for fiscal year 2014 it has come to the Department’s attention that the rules governing school districts contracting with private driving schools needs to be more specific. We have found several public schools that were not properly bidding their driving education contracts and in most cases not bidding the contract. During the auditing process it was also found that private companies claiming state funds were not holding classes at the contracting public school, not instructing students enrolled at the contracting school, and directly collecting funds from the student.

The intent of state reimbursement for $125 per student for driver education is to reduce the cost to parents by offsetting the expense the public school incurs that is providing the program. By adding more specific language in the rule the Idaho State Department of Education can guarantee the funding will be used for a public school that incurs an expense for the program and/or directly reduces the fee to parents, thereby making driver education more accessible to all teens.

ATTACHMENTS
Attachment 1 – Temporary Rule changes to IDAPA 08.02.02.004.03, Rules Governing Uniformity

STAFF COMMENTS AND RECOMMENDATIONS
Temporary rules must meet one of three requirements, conveying a benefit, for public good or safety, or to come into compliance with a State or Federal law or requirement. Temporary rules take effect once they are approved by the Board or at a time specified by the Board at the time of approval, they have no public comment period prior to taking effect. The Department would like to implement the proposed changes to the Procedures for Drivers Education Program standards on approval of the Board and is promulgating a separate Temporary Rule to that effect. The changes to the Standards for Initial Certification do not
meet the requirements of a Temporary rule, thereby requiring the Proposed and Temporary rule to be approved separately.

BOARD ACTION

I move to approve the Temporary Rule amendment to IDAPA 08.02.02.004, Rules Governing Uniformity, Incorporation By Reference, as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No ____
08.02.02 - RULES GOVERNING UNIFORMITY

004. INCORPORATION BY REFERENCE.
The State Board of Education adopts and incorporates by reference into its rules: (3-20-14)

03. Operating Procedures for Idaho Public Driver Education Programs as approved on August 15, 2013. The Operating Procedures for Idaho Public Driver Education Programs are available at the Idaho State Department of Education, 650 W. State St., Boise, Idaho, 83702 and can also be accessed electronically at http://www.sde.idaho.gov/site/driver_edu/forms_curriculum.htm. (3-20-14)(___)
SUBJECT
Proposed Rule - IDAPA 08.02.02.027, .028, .030, .047, .076 Rules Governing Uniformity.

APPLICABLE STATUTE, RULE, OR POLICY
Section 33-1254, 33-1258, and 33-114, Idaho Code
Idaho Administrative code, IDAPA 08.02.02 - Rules Governing Uniformity

BACKGROUND/DISCUSSION
08.02.02.027.01 PUPIL PERSONNEL SERVICES CERTIFICATE Counselor Endorsement (K-12). 08.02.02.028.02, Early Childhood Special Education Endorsement (Pre-K-3), Hearing Impairment Endorsement (K-12), Visual Impairment Endorsement (K-12).

The Professional Standards Commission follows a Strategic Plan of annually reviewing twenty percent (20%) of the Idaho Standards for Initial Certification of Professional School Personnel. The following endorsements were reviewed by committees of content experts in the fall of 2013 and the spring of 2014 and are ready for submission: School Counselor, Special Education Blind & Visually Impaired, and Special Education Hearing Impaired. All standards and endorsements were revised to better align with national standards and best practices; then presented to the Professional Standards Commission for consideration. The Professional Standards Commission has recommended approval of all of the committee’s proposed endorsement revisions including renaming the Hearing Impaired standards and endorsement to Deaf/Hard of Hearing to more accurately reflect medical and field terminology.

08.02.02.030. SUPERVISOR/COORDINATOR OF SPECIAL EDUCATION ENDORSEMENT.
This section of rule is being removed. There are no state approved preparation standards for this endorsement, nor are any Idaho Higher Education Institutions preparing candidates to fill this endorsement.

08.02.02.047. ALTERNATIVE AUTHORIZATION – PUPIL PERSONNEL SERVICES.
This clarification to rule is necessary in order to reflect the addition of the Interim Speech Language Pathologist endorsement and to clarify that districts do not need to declare an emergency to request alternative authorization for these interim certificates.

08.02.02.076. CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE).
This clarification to rule is necessary to increase clarity regarding the types of inappropriate images covered under this rule.
IMPACT
Approval of the proposed changes will update language used in describing the endorsements and update requirements with current best practices. Additional changes to the ethics section add greater clarity to Principle II and Principle X.

08.02.02 - RULES GOVERNING UNIFORMITY

027. PUPIL PERSONNEL SERVICES CERTIFICATE.
Persons who serve as school counselors, school psychologists, speech-language pathologists, school social workers, school nurses and school audiologists are required to hold the Pupil Personnel Services Certificate, with the respective endorsement(s) for which they qualify. (3-16-04)

01. Counselor Endorsement (K-12). To be eligible for a Pupil Personnel Services Certificate endorsed Counselor K-12, a candidate must have satisfied the following requirements. The Pupil Personnel Services Certificate with a Counselor endorsement is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the endorsement. (5-8-09)

a. Hold a master's degree and provide verification of completion of an approved program of graduate study in school guidance and counseling from a college or university approved by the Idaho State Board of Education or the state educational agency of the state in which the program was completed. The program must include successful completion of seven hundred (700) clock hours of supervised field experience, seventy-five percent (75%) of which must be in a K-12 school setting. Substantial amounts of this K-12 experience must be in each of the following levels: elementary, middle/junior high, and high school. Previous school counseling experience may be considered to help offset the field experience clock hour requirement. (5-8-09)

b. An institutional recommendation is required for a Counselor K-12 Endorsement. (5-8-09)

02. School Psychologist Endorsement. This endorsement is valid for five (5) years. In order to renew the endorsement, six (6) professional development credits are required every five (5) years. The renewal credit requirement may be waived if the applicant holds a current valid National Certification for School Psychologists (NCSP) offered through the National Association of School Psychologists (NASP). To be eligible for initial endorsement, a candidate must complete a minimum of sixty (60) graduate semester credit hours which must be accomplished through one (1) of the following options: (3-29-12)

a. Completion of an approved thirty (30) semester credit hour, or forty-five (45) quarter credit hours, master's degree in education or psychology and completion of an approved thirty (30) semester credit hour, or forty-five (45) quarter credit hour, School Psychology Specialist Degree program, and completion of a minimum of twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist. (4-7-11)

b. Completion of an approved sixty (60) semester credit hour, or ninety (90) quarter credit hour, master's degree program in School Psychology, and completion of a minimum of twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist. (4-7-11)

c. Completion of an approved sixty (60) semester credit hour, or ninety (90) quarter credit hour, School Psychology Specialist degree program which did not require a master's degree as a prerequisite, with laboratory experience in a classroom, which may include professional teaching experience, student teaching or special education practicum, and completion of a minimum twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist. (5-8-09)

d. Earn a current and valid National Certification for School Psychologists (NCSP) issued by the National Association of School Psychologists (NASP). (3-29-12)
03. **School Nurse Endorsement.** This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. Initial endorsement may be accomplished through completion of either requirements in Subsections 027.03.a. or 027.03.b. in addition to the requirement of Subsection 027.03.c. (3-29-10)

   a. The candidate must possess a valid nursing (RN) license issued by the Idaho State Board of Nursing, and a bachelor’s degree in nursing, education, or a health-related field from an accredited institution. (5-8-09)

   b. The candidate must possess a valid professional nursing (RN) license issued by the Idaho State Board of Nursing and have completed nine (9) semester credit hours from a university or college in at least three (3) of the following areas:

      i. Health program management; (5-8-09)

      ii. Child and adolescent health issues; (5-8-09)

      iii. Counseling, psychology, or social work; or (5-8-09)

      iv. Methods of instruction. (5-8-09)

   c. Additionally, each candidate must have two (2) years’ full-time (or part-time equivalent) school nursing, community health nursing, or any area of pediatric, adolescent, or family nursing experience. (5-8-09)

04. **Interim Endorsement - School Nurse.** This certificate will be granted for those who do not meet the educational and/or experience requirements but who hold a valid professional nursing (RN) license in Idaho. An Interim Certificate - will be issued for three (3) years while the applicant is meeting the educational requirements, and it is not renewable. (3-29-10)

05. **Speech-Language Pathologist Endorsement.** This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. Initial endorsement will be issued to candidates who possess a master’s degree from an accredited college or university in a speech/language pathology program approved by the State Board of Education, and who receive an institutional recommendation from an accredited college or university. (3-16-04)

06. **Audiology Endorsement.** This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. Initial endorsement will be issued to candidates who possess a master’s degree from an accredited college or university in an audiology program approved by the State Board of Education, and who receive an institutional recommendation from an accredited college or university. (3-16-04)

07. **School Social Worker Endorsement.** This endorsement is valid for five (5) years. Six (6) credit hours are required every five (5) years in order to renew the endorsement. Initial endorsement may be accomplished through possession of a social work certificate issued by the Idaho Bureau of Occupational Licenses, an institutional recommendation, and completion of one (1) of the following options: (3-16-04)

   a. A master's degree in social work from an Idaho college or university approved by the State Board of Education, or a master's degree in social work from an out-of-state college or university. The program must be currently approved by the state educational agency of the state in which the program was completed. (3-16-04)

   b. A master's degree in guidance and counseling, sociology, or psychology plus thirty (30) semester credit hours of graduate work in social work education, including course work in all the following areas: understanding the individual; casework method; field placement; social welfare programs and community resources; and research methods. (3-16-04)

08. **Interim Endorsement - Speech Language Pathologist.** This certificate will be granted for those
who do not meet the educational requirements but who hold a bachelor’s degree in Speech language pathology and are pursuing a master’s degree in order to obtain the pupil personnel services certificate endorsed in speech language pathology. An Interim Certificate will be issued for three (3) years while the applicant is meeting the educational requirements, and it is not renewable. (3-29-10)

028. EXCEPTIONAL CHILD CERTIFICATE.
Holders of this certificate work with children who have been identified as having an educational impairment. (3-16-04)

01. General Education Requirements. Completion of the general education requirements at an accredited college or university is required. (3-30-07)

02. Generalist Endorsement (K-12). The Generalist K-12 endorsement is non-categorical and allows one (1) to teach in any K-12 special education setting. This endorsement is valid for five (5) years. Six (6) credit hours are required every five (5) years for renewal. Regardless of prior special education experience, all initial applicants must provide an institutional recommendation that an approved special education program has been completed, with field work to include an internship and student teaching in a special education setting. To be eligible for an Exceptional Child Certificate with a Generalist K-12 endorsement, a candidate must have satisfied the following requirements:

a. Completion of a baccalaureate degree from an accredited college or university. (3-16-04)

b. Completion, in an Idaho college or university, of a program in elementary, secondary, or special education currently approved by the Idaho State Board of Education, or completion, in an out-of-state college or university, of a program in elementary, secondary, or special education currently approved by the state educational agency of the state in which the program was completed. (3-16-04)

c. Completion of thirty (30) semester credit hours in special education, or closely related areas, as part of an approved special education program. (3-16-04)

d. Each candidate must have a qualifying score on an approved core content assessment and a second assessment related to the specific endorsement requested. (3-16-04)

03. Early Childhood Special Education Endorsement (Pre-K-3). The Early Childhood Special Education (Pre-K-3) endorsement is non-categorical and allows one to teach in any Pre-K-3 special education setting. This endorsement may only be added to the Standard Exceptional Child Certificate in conjunction with the Generalist K-12 endorsement and is valid for five (5) years. Six (6) credit hours are required every five (5) years for renewal. To be eligible for an Exceptional Child Certificate with an Early Childhood Special Education (Pre-K-3) endorsement, a candidate must have satisfied the following requirements:

a. Completion of a program of a minimum of twenty (20) semester credit hours in the area of Early Childhood Education to include course work in each of the following areas: Child development and behavior with emphasis in cognitive-language, physical, social and emotional areas, birth through age eight (8); Curriculum and program development for young children ages three to eight (3-8); Methodology: planning, implementing and evaluating environments and materials for young children ages three to eight (3-8); Guiding young children's behavior: observing, assessing and individualizing ages three to eight (3-8); Identifying and working with atypical young children ages three to eight (3-8) Parent-teacher relations; and, Field work to include an internship and student teaching at the Pre-K-3 grades. (4-7-11)

04. Deaf/Hard of Hearing Impairment Endorsement (K-12). Completion of a minimum of thirty-three (33) semester credit hours in the area of deaf/hard of hearing impairment with an emphasis on instruction for students who use sign language or completion of a minimum thirty-three (33) semester credit hours in the area of deaf/hard of hearing with an emphasis on instruction for students who use listening and spoken language. An institutional recommendation specific to this endorsement is required. To be eligible for an Exceptional Child Certificate with a Deaf/Hard of Hearing Impaired endorsement, a candidate must have satisfied the following requirements:

(4-11-06)( - - )
STATE DEPARTMENT OF EDUCATION  
AUGUST 14, 2014

05. Visual Impairment Endorsement (K-12). Completion of a program of a minimum of thirty (30) semester credit hours in the area of Visual Impairment. Must receive an institutional recommendation specific to this endorsement from an accredited college or university.

a. Completion of a baccalaureate degree from an accredited college or university; (4-11-06)

b. Completion of a program from an Idaho college or university in elementary, secondary, or special education currently approved by the Idaho State Board of Education; or (4-11-06)

c. Completion of a program from an out-of-state college or university in elementary, secondary, or special education currently approved by the state educational agency of the state in which the program was completed; (4-11-06)

d. Completion of a program of a minimum of thirty-three (33) semester credit hours in the area of Deaf/Hard of Hearing Impairment. Must receive an institutional recommendation specific to this endorsement from an accredited college or university. (4-11-06)

dc. Completion of a program of a minimum of thirty (30) semester credit hours in the area of Visual Impairment. Must receive an institutional recommendation specific to this endorsement from an accredited college or university. (4-11-06)

d. Each candidate must have a qualifying score on an approved core content assessment and a second assessment related to the specific endorsement requested. (4-11-06)

029. CONSULTING TEACHER/TEACHER LEADER ENDORSEMENT.
Consulting teachers provide technical assistance to teachers and other staff in the school district with regard to the selection and implementation of appropriate teaching materials, instructional strategies, and procedures to improve the educational outcomes for students. Candidates who hold this endorsement are teacher leaders who will facilitate the design and implementation of sustained, intensive, and job-embedded professional learning based on identified student and teacher needs. This endorsement is valid for five (5) years and is renewable based upon successful completion and verification of an additional four (4) semester credits beyond those required for standard certification renewal. The additional credits shall be taken for university or college credit consistent with the Individual Professional Learning Plan (IPLP). (4-4-13)

01. Special Education Consulting Teacher - Eligibility for Endorsement. To be eligible for a Special Education Consulting Teacher endorsement on the Standard Exceptional Child Certificate, the Early Childhood /Early Childhood Special Education Blended Certificate (Birth-Grade 3), the Standard Elementary Certificate or the Standard Secondary Teaching Certificate, a candidate must have satisfied the following requirements: (3-29-10)
a. Education Requirements. Qualify for or hold a Standard Exceptional Child Certificate and qualify for or hold a Standard Elementary Certificate, Standard Secondary Certificate, or Early Childhood/Early Childhood Special Education Blended Certificate (Birth-Grade 3), and hold a master's degree or an approved fifth year program as defined by the Idaho State Board of Education, and have demonstrated content competencies in the following areas:

i. Assessment of learning behaviors; (4-4-13)

ii. Individualization of instructional programs based on educational diagnosis; (4-4-13)

iii. Behavioral and/or classroom management techniques; (4-4-13)

iv. Program implementation and supervision; (4-4-13)

v. Knowledge in use of current methods, materials and resources available and management and operation of media centers; (4-4-13)

vi. Ability in identifying and utilizing community or agency resources and support services; and (4-4-13)

vii. Counseling skills and guidance of professional staff. (4-4-13)

b. Experience. Completion of a minimum of three (3) years’ teaching experience, at least two (2) years of which must be in a special education classroom setting. (3-16-04)

c. Provides verification of completion of a state-approved program of at least twenty (20) semester credit hours of study at an accredited college or university or a state-approved equivalent. Program shall include:

i. Ninety (90) contact hours to include a combination of face-to-face and field-based professional development activities; and (4-4-13)

ii. The development and presentation of a culminating portfolio that provides evidence that knowledge gained and skills acquired are aligned with Idaho Teacher Leader Standards as follows: (4-4-13)

   (1) Understanding Adults As Learners to Support Professional Learning Communities; (4-4-13)

   (2) Accessing and Using Research to Improve Practice and Student Achievement; (4-4-13)

   (3) Promoting Professional Learning for Continuous Improvement; (4-4-13)

   (4) Facilitating Improvements in Instruction and Student Learning; (4-4-13)

   (5) Using Assessments and Data for School and District Improvement; (4-4-13)

   (6) Improving Outreach and Collaboration with Families and Community; and (4-4-13)

   (7) Advocating for Student Learning and the Profession. (4-4-13)

d. Not less than one (1) semester of successful experience as a special education teacher working with classroom teachers in elementary or secondary schools. (4-4-13)

02. Mathematics Consulting Teacher - Eligibility for Endorsement. To be eligible for a Mathematics Consulting Teacher endorsement on the Standard Elementary Certificate, Standard Secondary Certificate, Standard Exceptional Child Certificate, or Early Childhood/Early Childhood Special Education Blended Certificate (Birth-Grade 3), a candidate must have satisfied the following requirements: (3-29-10)
a. Education Requirements. Qualify for or hold a Standard Elementary Certificate, Standard Secondary Certificate, Standard Exceptional Child Certificate, or Early Childhood/Early Childhood Special Education Blended Certificate (Birth-Grade 3) and have demonstrated content competencies. Coursework and content domains required include the full series of Mathematics Thinking for Instruction (MTI), Number and Operation, Geometry, Algebraic Reasoning, Measurement and Data Analysis, and Statistics and Probability which are centered on the following emphases:

i. Structural Components of Mathematics; (4-4-13)

ii. Modeling, Justification, Proof and Generalization; (4-4-13)

iii. Mathematical Knowledge for Teaching (Ball, Thames, & Phelps, 2008). (4-4-13)

b. Experience. Completion of a minimum of three (3) years’ teaching experience. (3-29-10)

c. Provides verification of completion of a state-approved program of at least twenty (20) semester credit hours of study at an accredited college or university or a state-approved equivalent. Program shall include:

i. Ninety (90) contact hours to include a combination of face-to-face and field-based professional development activities; and (4-4-13)

ii. The development and presentation of a culminating portfolio that provides evidence that knowledge gained and skills acquired are aligned with Idaho Teacher Leader Standards as follows: (4-4-13)

   (1) Understanding Adults As Learners to Support Professional Learning Communities; (4-4-13)

   (2) Accessing and Using Research to Improve Practice and Student Achievement; (4-4-13)

   (3) Promoting Professional Learning for Continuous Improvement; (4-4-13)

   (4) Facilitating Improvements in Instruction and Student Learning; (4-4-13)

   (5) Using Assessments and Data for School and District Improvement; (4-4-13)

   (6) Improving Outreach and Collaboration with Families and Community; and (4-4-13)

   (7) Advocating for Student Learning and the Profession. (4-4-13)

d. Not less than one (1) semester of successful experience as a mathematics teacher working with classroom teachers in elementary or secondary schools. (4-4-13)

030. SUPERVISOR/COORDINATOR OF SPECIAL EDUCATION ENDORSEMENT.—(RESERVED)

01. Special Education Support. Supervisors/coordinators of special education support the district administrative team in ensuring that district practice is in compliance with the requirements of the Individuals with Education Disabilities Act. The assigned duties may include the evaluation of related services staff; supervision of the operations of special education programs within a school district; technical assistance and training to district staff and parents; assistance with student placement decisions; and representation for the school district regarding special education matters with other agencies and with the State Department of Education. (4-11-06)

02. Endorsement. To be eligible for this endorsement on the Standard Exceptional Child Certificate or the Pupil Personnel Certificate endorsed for School Psychologist, Speech-Language Pathologist or Social Worker, a candidate must complete a master’s degree program; have verification of a minimum of three (3) years of experience in a special education setting; and obtain college or university verification of demonstrated competencies...
in special education administration, supervision of instruction and counseling parents of exceptional children.  

031. JUNIOR RESERVED OFFICER TRAINING CORPS (JUNIOR ROTC) INSTRUCTORS.

01. List of Names. Each school district with a Junior ROTC program shall provide the State Department of Education with a list of the names of those individuals who have completed an official armed forces training program to qualify as Junior ROTC instructors in high schools.  

02. Notarized Copy. Each school district with a Junior ROTC program shall provide the State Department of Education with a notarized copy of their certificate(s) of completion.  

03. Authorization Letter. Upon receiving the items identified in Subsections 031.01 and 031.02, the State Department of Education shall issue a letter authorizing these individuals as Junior ROTC instructors.

032. POSTSECONDARY SPECIALIST.

A Postsecondary Specialist certificate will be granted to a current faculty member whose primary employment is with any accredited Idaho postsecondary institution. To be eligible to teach in the public schools under this postsecondary specialist certificate, the candidate must supply a recommendation from the employing institution (faculty’s college dean). The primary use of this state-issued certificate will be for distance education, virtual classroom programs, and for public and postsecondary partnerships.

01. Renewal. This certificate is good for five (5) years and is renewable. To renew the certificate, the renewal application must be accompanied with a new written recommendation from the postsecondary institution (faculty’s college dean level or higher).

02. Fees. The fee is the same as currently in effect for an initial or renewal certificate as established in Section 066 of these rules.

03. Qualifications. The candidate must:

a. Hold a masters degree or higher in the content area being taught;  

b. Be currently employed by the post secondary institution in the content area to be taught; and  

c. Complete and pass a criminal history check as required according to Section 33-130, Idaho Code.

033. ONLINE TEACHER ENDORSEMENT (PRE-K-12).

01. Online-Teacher Endorsement. To be eligible for an Online-Teacher Endorsement (Pre-K-12), a candidate must have satisfied the following requirements:

a. Meets states’ professional teaching and/or licensure standards and is qualified to teach in his/her field of study.  

b. Provides evidence of online experience or course time both as a student and as a learner, and demonstrates online learning and teaching proficiency.  

c. Has completed (completes) an eight (8) week online teaching internship in a Pre-K-12 program, or have one (1) year of verifiable and successful experience as a teacher delivering curriculum online in grades Pre-K-12 within the past three (3) years.  

d. Provides verification of completion of a state-approved program of at least twenty (20) semester credit hours of study in online teaching and learning at an accredited college or university or a state-approved...
02. **Proficiency in Idaho Standards for Online Teachers.** Demonstrates proficiency in the Idaho Standards for Online Teachers including the following competencies:

a. Knowledge of Online Education and Human Development;

b. Facilitate and Inspire Student Learning and Creativity;

c. Design and Develop Digital-Age Learning Experiences and Assessments Standards;

d. Model Digital-Age Work and Learning; Promote and Model Digital Citizenship and Responsibility Standards; and

e. Engage in Professional Growth and Leadership.

034. **CERTIFICATION STANDARDS FOR PROFESSIONAL-TECHNICAL EDUCATORS.**

Teachers of professional-technical classes or programs in secondary or postsecondary schools must hold an endorsement in an appropriate occupational discipline. This endorsement may be held on a Secondary Teaching Certificate or on an Occupational Specialist Certificate. For postsecondary instructors and administrators, certification fees are set by the State Board for Professional-Technical Education, and application processes are managed by the Division of Professional-Technical Education.

035. **DEGREE BASED PROFESSIONAL-TECHNICAL CERTIFICATION.**

01. **Teacher Preparation Through Degreed Program.** Individuals graduating from an approved occupational teacher preparation degree program qualify to teach in the following five (5) disciplines: Agricultural Science & Technology; Business Technology Education; Family & Consumer Science; Marketing Technology Education; and Technology Education. Occupational teacher preparation course work must meet the Idaho Standards for the Initial Certification of Professional School Personnel. The occupational teacher education program must provide appropriate content to constitute a major in the identified field. Student teaching shall be in an approved program and include experiences in the major field. Applicants shall have accumulated four-thousand (4,000) clock hours of related work experience or shall have completed an approved practicum in their respective field of specialization.

02. **Professional-Technical Administrator Certificate.** The Professional-Technical Administrator certificate is required for an individual serving as an administrator, director, manager or coordinator of professional-technical education at the state, secondary or postsecondary level. Individuals must meet the following prerequisites to qualify for the Professional-Technical Administrator Certificate. Equivalence in each area will be determined on an individual basis by the State Division of Professional-Technical Education.

a. Qualify for or hold an Occupational Specialist certificate or hold an occupational endorsement on the secondary teaching credential;

b. Provide evidence of a minimum of three (3) years’ teaching in an occupational discipline;

c. Hold a masters degree; and,

d. Completed at least fifteen (15) semester credits of administrative course work. Applicants must have completed: financial aspects of professional-technical education; administration of personnel; and legal aspects of professional-technical education. Additional course work can be selected from any of the following areas: administration and supervision of occupational programs; instructional supervision; administration internship; curriculum development; curriculum evaluation; research in curriculum; school community relations; communication; teaching the adult learner; coordination of work-based learning programs; and/or measurement and
To renew the Professional-Technical Administrator Certificate, individuals are required to complete six (6) semester hours of related course work or meet renewal requirements for professional-technical teachers. (3-16-04)

**03. Work-Based Learning Coordinator Endorsement.** Educators assigned to coordinate approved work-based experiences must hold the Work-Based Learning Coordinator endorsement. To be eligible, applicants must hold an occupational endorsement on the Standard Secondary Certificate or qualify for an Occupational Specialist Certificate, plus complete course work in coordination of work-based learning programs. (3-16-04)

**04. Career Counselor Endorsement.** The endorsement for a Career Counselor may be issued to applicants who hold a current Pupil Personnel Services Certificate endorsed Counselor K-12 and who have satisfied the following professional technical requirement: Career Pathways and Professional Technical Guidance; Principles/Foundations of Professional-Technical Education; and Theories of Occupational Choice. (3-16-04)

**036. INDUSTRY BASED PROFESSIONAL-TECHNICAL CERTIFICATION.** Persons who need to hold the Occupational Specialist Certificate include: secondary educators assigned to Health Occupations Education and to Trades & Industry Education; specialized occupational areas where specific degree-granting professional technical teacher education programs do not exist; and postsecondary professional-technical educators who teach courses to 9-12 students. (3-16-04)

**01. General Requirements.** Applicants must: be eighteen (18) years of age; document full-time, successful, recent, gainful employment in the area for which certification is requested; possess either a high school diploma or General Educational Development (GED) certificate; meet provisions of Idaho Code; and, verify technical skills through work experience, certification or testing as listed below. When applicable, requirements of occupationally related state agencies must also be met. Since educational levels and work experiences vary, applicants may be determined highly qualified under any one (1) of the following three (3) options: (3-16-04)

a. Have sixteen-thousand (16,000) hours of full-time, successful, recent, gainful employment in the occupation for which certification is requested. Up to forty-eight (48) months credit can be counted toward the eight (8) years on a month-to-month basis for journeyman training and/or postsecondary training successfully completed as a full-time student in an approved/approvable, postsecondary, professional-technical education program. (3-16-04)

b. Have a bachelor's degree in the specific occupation or related area, plus six-thousand (6,000) hours of full-time, successful, recent, gainful employment in the occupation. (3-16-04)

c. Meet one (1) of the following:

i. Have at least journeyman level plus two (2) years of recent, full-time, gainful, related work experience. A person who has completed a formal apprenticeship program in the occupation or related area for which certification is requested. The apprenticeship must be under the direction of an employer and the Bureau of Apprenticeship and Training or an approved State Apprenticeship Agency; (3-16-04)

ii. Pass approved state or national certification/certification examination plus three (3) years of recent, full-time, gainful, related work experience (length and type of work experience in emergency services and health professions will be determined on an individual basis); or (3-16-04)

iii. Pass approved industry related certification for skill level requirements (vendor and industry specific) plus three (3) years of recent, full-time, gainful, related work experience (length and type of work experience in emergency services and health professions will be determined on an individual basis). If no competency test exists, a written recommendation from a representative occupational advisory council/committee and recorded in its minutes is required to verify occupational competence. (3-16-04)

**02. Limited Occupational Specialist Certificate.** This certificate is issued to individuals who are new to teaching trades and health occupations in public schools. The certificate is valid for three (3) years. (3-16-04)
Within the first eighteen (18) months, the holder must complete the pre-service workshop sponsored by the State Division of Professional-Technical Education and an approved course in professional technical methods and student assessment.

(3-16-04)

b. Complete a new-teacher induction workshop at the state or district level.

(3-16-04)

c. File a Professional Development Plan with the State Division of Professional-Technical Education.

(3-16-04)

d. Within the three (3) year period of the Limited Occupational Specialist Certificate, the instructor must satisfactorily complete course work which includes competencies in four (4) of the following: Principles/Foundations of Occupational Education; Career Pathways and Guidance; Analysis, Integration, and Curriculum Development; Measurement and Evaluation; and Methods of Teaching Occupational Education.

(3-16-04)

03. Standard Occupational Specialist Certificate. This certificate is issued to individuals who have completed course work equivalent to that required of the Limited Occupational Specialist Certificate. The certificate must be renewed every five (5) years, which shall include completion of six (6) semester credit hours of approved course work or verification of two hundred-forty (240) hours of approved related work experience or ninety (90) hours of attendance at approved technical conferences, institutes, or workshops or any equivalent combination thereof, and file of a Professional Development Plan for the next certification period.

(3-16-04)

04. Advanced Occupational Specialist Certificate. This certificate is issued to individuals who meet all the requirements outlined below:

(3-16-04)

a. Meet the requirements for the Standard Occupational Specialist Certificate;

(3-16-04)

b. Provide evidence of completion of a teacher training degree program or eighteen (18) semester credits of approved course work in addition to the twelve (12) semester credits required for the Standard Occupational Specialist Certificate (a total of thirty (30) semester credits); and

(3-16-04)

c. File a new Professional Development Plan for the next certification period.

(3-16-04)

d. This certificate must be renewed every five (5) years, which shall include completion of six (6) semester credit hours of approved course work or submit verification of two hundred-forty (240) hours of approved related work experience or ninety (90) hours of attendance at approved technical conferences, institutes and workshops or any equivalent combination thereof, and file a new Professional Development Plan for the next certification period.

(3-16-04)

037. -- 041. (RESERVED)

042. ALTERNATE ROUTES TO CERTIFICATION.
The purpose of this program is to provide an alternative for individuals to become certificated teachers in Idaho without following a standard teacher education program. Alternative Routes to Certification shall allow individuals to serve as the teacher of record prior to having earned full certification status. The teacher of record is defined as the person who is primarily responsible for planning instruction, delivering instruction, assessing students formatively and summatively, and designating the final grade. Individuals who are currently employed as Para-Educators, individuals who are currently certificated to teach but who are in need of emergency certification in another area, and individuals with strong subject matter background but limited experience with educational methodology shall follow the alternate certification requirements provided herein.

(4-4-13)

043. ALTERNATIVE AUTHORIZATION -- TEACHER TO NEW CERTIFICATION.
The purpose of this alternative authorization is to allow Idaho school districts to request endorsement/certification when a professional position cannot be filled with someone who has the correct endorsement/certification. Alternative authorization in this area is valid for up to three (3) years and is nonrenewable.

(5-8-09)
01. **Initial Qualifications.** Prior to application, a candidate must hold a Bachelor’s degree, and a valid Idaho teacher certificate without full endorsement in content area of need. The school district must provide supportive information attesting to the ability of the candidate to fill the position. (5-8-09)

02. **Alternative Route Preparation Program.** (3-20-04)
   a. **Option I - Teacher to New Certification/Endorsement.** (5-8-09)
      i. Candidate will work toward completion of the alternative route preparation program through a participating college/university, and the employing school district. Candidate must complete a minimum of nine (9) semester credits annually to be eligible for extension of up to a total of three (3) years. (3-20-04)
      ii. The participating college/university shall provide procedures to assess and credit equivalent knowledge, dispositions, and relevant life/work experiences. (3-20-04)
      iii. Candidate shall meet all requirements for the endorsement/certificate as provided herein. (3-20-04)
   b. **Option II - National Board (endorsement only).** By earning National Board certification in content specific areas teachers may gain endorsement in a corresponding subject area. (5-8-09)
   c. **Option III - Master’s degree or higher (endorsement only).** By earning a graduate degree in a content specific area, candidates may add an endorsement in that same content area to a valid certificate. (5-8-09)
   d. **Option IV - Testing and/or Assessment (endorsement only).** Two (2) pathways are available to some teachers, depending upon endorsement(s) already held. (5-8-09)
      i. Pathway 1 - Endorsements may be added through state-approved testing and a mentoring component. The appropriate test must be successfully completed within the first year of authorization in an area closely compatible with an endorsement for which the candidate already qualifies and is experienced. Additionally requires the successful completion of a one (1)-year state-approved mentoring component. (5-8-09)
      ii. Pathway 2 - Endorsements may be added through state-approved testing in an area less closely compatible with an endorsement for which the candidate already qualifies and is experienced. The appropriate test must be successfully completed within the first year of the authorization. Additionally requires the successful completion of a one (1)-year state-approved mentoring component and passing a final pedagogy assessment. (5-8-09)

044. **ALTERNATIVE AUTHORIZATION -- CONTENT SPECIALIST.**
The purpose of this alternative authorization is to offer an expedited route to certification for individuals who are highly and uniquely qualified in a subject area to teach in a district with an identified need for teachers in that area. Alternative authorization in this area is valid for three (3) years and is not renewable. (3-20-04)

01. **Initial Qualifications.** (3-20-04)
   a. Prior to application, a candidate must hold a Bachelor’s degree or have completed all of the requirements of a Bachelor’s degree except the student teaching or practicum portion. (4-4-13)
   b. The candidate shall meet enrollment qualifications of the alternative route preparation program. (3-20-04)

02. **Alternative Route Preparation Program -- College/University Preparation.** (3-20-04)
   a. A consortium comprised of a designee from the college/university to be attended, and a representative from the school district, and the candidate shall determine preparation needed to meet the Idaho Standards for Initial Certification of Professional School Personnel. This preparation must include mentoring and a minimum of one (1) classroom observation per month until certified. (3-20-04)
b. Prior to entering the classroom, the candidate completes eight (8) to sixteen (16) weeks of accelerated study in education pedagogy. (3-20-04)

c. Candidate will work toward completion of the alternative route preparation program through a participating college/university, and the employing school district. A teacher must attend, participate in, and successfully complete an individualized alternative route preparation program as one (1) of the conditions to receive a recommendation for full certification. (3-20-04)

d. The participating college/university shall provide procedures to assess and credit equivalent knowledge, dispositions and relevant life/work experiences. (3-20-04)

e. Prior to entering the classroom, the candidate shall meet or exceed the state qualifying score on appropriate state-approved content, pedagogy, or performance assessment. (3-20-04)

045. NON-TRADITIONAL ROUTE TO TEACHER CERTIFICATION.
An individual may acquire interim certification as found in Section 015 of these rules through an approved non-traditional route certification program. (3-20-14)

01. Approval of the Program. The State Board of Education must approve any non-traditional route to teacher certification. The program must include, at a minimum, the following components: (3-20-14)

a. Preassessment of teaching and content knowledge; (4-6-05)

b. An academic advisor with knowledge of the prescribed instruction area; and (4-6-05)

c. Exams of pedagogy and content knowledge. (4-6-05)

02. Eligibility. Individuals who possess a bachelor’s degree or higher from an institution of higher education may utilize this non-traditional route to an interim Idaho Teacher Certification. (3-20-14)

03. Requirements for Completion. To complete this non-traditional route, the individual must: (3-20-14)

a. Complete a Board approved program; (4-6-05)

b. Pass the Board approved pedagogy and content knowledge exams; and (4-6-05)

c. Complete the Idaho Department of Education Criminal History Check. (4-6-05)

04. Interim Certificate. Upon completion of the certification process described herein, the individual will be awarded an interim certificate from the State Department of Education’s Bureau of Certification and Professional Standards. The term of the interim certification shall be three (3) years. During the term of the interim certificate, teaching by the individual must be done in conjunction with a two (2) year a teacher mentoring program approved by the Board. The individual must complete the mentoring program during the term of the interim certificate. In the case where teachers start their mentoring program in the third year of their interim certificate, they must apply to the State Department of Education Teacher Certification Department for a waiver to complete the final year of their mentoring program for full certification. All laws and rules governing the fully certificated teachers with respect to conduct, discipline and professional standards shall apply to individuals teaching under an interim certificate. (3-20-14)

05. Interim Certificate Not Renewable. Interim certification hereunder is only available on a one (1) time basis per individual. It will be the responsibility of the individual to obtain full Idaho Teacher Certification during the three (3) year interim certification term. (4-6-05)

06. Types of Certificates and Endorsements. The non-traditional route may be used for first-time...
certification, subsequent certificates, and additional endorsements. (3-20-14)

046. (RESERVED)

047. ALTERNATIVE AUTHORIZATION - PUPIL PERSONNEL SERVICES.
The purpose of this alternative authorization is to allow Idaho school districts to request emergency endorsement/certification when a position requiring the Pupil Personnel Services certificate cannot be filled with someone who has the correct endorsement/certification. The exception to this rule is the Interim School Nurse endorsement and the Interim Speech Language Pathologist endorsement. The requirements for these endorsements are already defined in Subsection 027.034 and 027.08 respectively of these rules. (4-2-08)

01. Term of Validity. Alternative authorization in this area is valid for three (3) years and will be reviewed annually and is nonrenewable. (4-2-08)

02. Initial Qualifications. The applicant must complete the following: (4-2-08)
   a. Prior to application, a candidate must hold a Masters degree and hold a current Idaho license from the Bureau of Occupational Licenses in the area of desired certification; and (4-2-08)
   b. The employing school district must provide supportive information attesting to the ability of the candidate to fill the position. (4-2-08)

03. Alternative Route Preparation Program. (4-2-08)
   a. The candidate must work toward completion of the alternative route preparation program through a participating college/university and the employing school district. (4-2-08)
   b. The candidate must complete a minimum of nine (9) semester credits annually to be eligible for extension of up to a total of three (3) years. (4-2-08)
   c. The participating college/university or the State Department of Education will provide procedures to assess and credit equivalent knowledge, dispositions, and relevant life/work experiences. (4-2-08)
   d. The candidate must meet all requirements for the endorsement/certificate as provided herein. (4-2-08)

048. -- 059. (RESERVED)

060. APPLICATION PROCEDURES / PROFESSIONAL DEVELOPMENT.

01. Application for Idaho Certificate. To obtain, renew, or reinstate an Idaho certificate, the applicant will submit an application on a form supplied by the State Department of Education or the State Division of Professional-Technical Education. (3-16-04)

02. State Board of Education Requirements for Professional Growth. (4-1-97)
   a. Credits taken for recertification must be educationally related to the professional development of the applicant. (4-1-97)
      i. Credits must be specifically tied to content areas and/or an area of any other endorsement; or (5-8-09)
      ii. Credits must be specific to pedagogical best practices or for administrative/teacher leadership; or (4-2-08)
      iii. Credits must be tied to a specific area of need designated by district administration. (4-2-08)
b. Graduate or undergraduate credit will be accepted for recertification. Credit must be college transferable and completed through an accredited college or university. (4-1-97)

c. All requests for equivalent inservice training to apply toward recertification must be made through the State Department of Education upon recommendation of the board of trustees consistent with the State Department of Education guidelines. Individuals holding Professional-Technical Specialist Certificates must receive State Division of Professional-Technical Education approval of inservice training and course work prior to applying for renewal. (3-16-04)

d. At least fifteen (15) hours of formal instruction must be given for each hour of inservice credit granted. (4-1-97)

e. Recertification credits may not be carried over from one (1) recertification period to the next. (4-1-97)

f. Certificated personnel teaching in subjects outside their major area of preparation will be encouraged to complete the courses required for major certification endorsement. (4-1-97)

g. All credits gained through coursework taken during the validity period of the certificate and commencing prior to September 1, 2008 shall be accepted toward recertification. (5-8-09)

h. An appeals process, developed by the State Department of Education in conjunction with the Professional Standards Commission, shall be available to applicants whose credits submitted for recertification, in part or as a whole, are rejected for any reason if such denial prevents an applicant from renewing an Idaho certificate. An applicant whose credits submitted for recertification are rejected, in part or as a whole, within six (6) months of the expiration of the applicant’s current certification shall be granted an automatic appeal and a temporary certification extension during the appeal or for one (1) year, whichever is greater. (5-8-09)

03. State Board of Education Professional Development Requirements. (4-1-97)

a. Districts will have professional development plans. (4-1-97)

b. All certificated personnel will be required to complete at least six (6) semester hours or the equivalent within the five (5) year period of validity of the certificate being renewed. (4-1-97)

c. At least three (3) semester credits will be taken for university or college credit. Verification will be by official transcript. (4-1-97)

061. -- 065. (RESERVED)

066. FEES.
The state department of education shall maintain a record of all certificates issued, showing names, dates of issue and renewal, and if revoked, the date thereof and the reason therefor. A nonrefundable fee shall accompany each application for a prekindergarten through grade twelve (12) certificate, alternate certificate, change in certificate or replacement as follows: (3-16-04)

01. Initial Certificate. All types, issued for five (5) years -- seventy-five dollars ($75). (3-16-04)

02. Renewal Certificate. All types, issued for five (5) years -- seventy-five dollars ($75). (3-16-04)

03. Alternate Route Authorization. All types, issued for one (1) year -- one hundred dollars ($100). (3-16-04)

04. Additions or Changes During the Life of an Existing Certificate. Twenty-five dollars ($25). (3-16-04)
05. **To Replace an Existing Certificate.** Ten dollars ($10). (3-16-04)

067. -- 074. (RESERVED)

075. **FINGERPRINTING AND CRIMINAL HISTORY CHECKS (SECTIONS 33-130 AND 33-512, IDAHO CODE).**
All certificated and noncertificated employees and other individuals who are required by the provisions of Section 33-130, Idaho Code, must undergo a criminal history check. (4-9-09)

01. **Definitions.**

*a.* Applicant. An individual applying for Idaho Certification or a certificated or non-certificated individual applying for employment. (4-9-09)

*b.* Break-in-Service. A voluntary or involuntary termination in employment, including retirement. (4-9-09)

*c.* Candidate. An individual attending a postsecondary program. (4-9-09)

*d.* Certificated Employee. An individual who holds an Idaho education certificate and is employed in a certificated position in a LEA. (4-9-09)

*e.* Contractor. An agency, company/business, or individual that has signed a contract or agreement to provide services to an LEA and private or parochial school. (4-9-09)

*f.* Conviction. The final judgment on a verdict or finding of guilty, a plea of guilty, a plea of nolo contendere, or the sentence has been suspended, deferred, or withheld on a felony or misdemeanor as defined by Section 18-110 and Section 18-111, Idaho Code. (4-9-09)

*g.* Criminal History Check (CHC). A ten (10) finger fingerprint process to determine if an applicant has criminal arrests and convictions in Idaho, any other state, or applicable jurisdictions. (4-9-09)

*h.* Criminal History Check Result. Information resulting from processing fingerprints through the databases maintained by the Bureau of Criminal Identification (BCI), Federal Bureau of Investigation (FBI) and the Idaho Statewide Sex Offender Registry. (4-9-09)

*i.* Irregular Contact. Contact that is not on a daily or weekly basis, or has a regular scheduled interaction with students. (4-9-09)

*j.* Multiple Assignments. When an individual works in two or more LEAs or an LEA and private school simultaneously. (4-9-09)

*k.* Non-Certificated Employee. An individual employed in a non-certificated position. (4-9-09)

*l.* Open Date. The date a fingerprint card or scan is entered into the database as an electronic file. (4-9-09)

*m.* Rejected Fingerprint Cards. A fingerprint card that has been returned by the BCI, FBI or SDE for poor quality prints, lack of signature, card being older than six (6) months, or other incomplete information. (4-9-09)

*n.* Scan. The process of capturing an individual’s fingerprints by an electronic process. (4-9-09)

*o.* Unsupervised Contact. Direct contact or interaction with students not under the direct supervision of a school district employee on a continuing basis in a K-12 setting. This includes contact or interaction with students in scheduled school activities that occur outside of the school or outside of normal school hours. This
excludes extra-curricular trips of one-day length starting during the school day. (4-9-09)

02. **Fee.** The SDE shall charge a forty dollars ($40) fee for undergoing a criminal history check. (4-9-09)

03. **Rejected Fingerprint Cards or Scans.** (4-9-09)
   a. When a fingerprint card has been rejected a new completed fingerprint card is required. (4-9-09)
   b. The rejected fingerprint card will be sent back to the originating LEA, private or parochial school, contractors, postsecondary program, or individual. (4-9-09)
   c. A new fingerprint card must be completed by a law enforcement agency to ensure legible fingerprints. Both the rejected fingerprint card and the new fingerprint card must be returned to the SDE within twenty (20) calendar days. (4-9-09)
   d. If the new fingerprint card and rejected fingerprint card are returned after the twenty (20) calendar day time period a forty dollar ($40) fee is required to be paid. (4-9-09)

04. **Secured CHC Website.** The SDE will maintain a CHC website listing the CHC results. The LEA, private or parochial school, contractor or postsecondary program may view the results or status of an applicant, employee or candidate. (4-9-09)
   a. Upon a signed agreement the SDE will issue a password to access the CHC website. (4-9-09)
   b. Each LEA, private or parochial school, contractor and postsecondary program will have access to the CHC secure site listing their employees, statewide substitute teacher list, newly certified list and student teacher list. (4-9-09)

05. **Fingerprinting & Criminal History Checks.** (4-9-09)
   a. The SDE will maintain a list of newly certificated educators. Educators stay on this list for one (1) year from their individual open date. Educators on this list may be employed by a LEA without a new CHC. (4-9-09)
   b. The SDE will make the final determination if an applicant is eligible for Idaho certification. (4-9-09)
   c. If the SDE makes a determination that the applicant is not eligible for Idaho certification, the SDE may deny the applicant Idaho certification. Upon receiving the written denial the applicant may request a hearing pursuant to Section 33-1209, Idaho Code. (4-9-09)

06. **Non-Certificated Employees.** Non-certificated employees are required to complete a CHC pursuant to Section 33-130, Idaho Code. The CHC results will be posted on the CHC website for their employer to review. (4-9-09)

07. **Substitute Teachers.** Substitute teachers as defined in Section 33-512(15), Idaho Code, must undergo a criminal history check. The SDE shall maintain a statewide substitute teacher list. To remain on the list on the list a substitute teacher shall undergo a criminal history check every five (5) years in accordance with Section 33-512, Idaho Code. Substitute teachers on the list do not need to complete a multiple assignment form nor are subject to break in service provisions. (4-9-09)

08. **Break In Service.** (4-9-09)
   a. When an employee returns to any LEA after a break in service a new criminal history check must be completed. (4-9-09)
When an employee changes employment between LEAs a new CHC must be completed regardless of the most recent CHC. (4-9-09)

09. **Postsecondary.** (4-9-09)

a. The postsecondary program will submit a completed fingerprint card or scan for all candidates who are applying for student teaching, internships or practicum. (4-9-09)

b. The SDE will make a preliminary determination based on the CHC result if the candidate is eligible for certification in Idaho. This decision will be forwarded to the postsecondary program concerning the eligibility of their candidate. (4-9-09)

c. The SDE will move a candidate from the student teacher list to the newly certified list when an application for certification is approved. (4-9-09)

076. **CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE).**

Believing in the worth and dignity of each human being, the professional educator recognizes the supreme importance of pursuing truth, striving toward excellence, nurturing democratic citizenship and safeguarding the freedom to learn and to teach while guaranteeing equal educational opportunity for all. The professional educator accepts the responsibility to practice the profession according to the highest ethical principles. The Code of Ethics for Idaho Professional Educators symbolizes the commitment of all Idaho educators and provides principles by which to judge conduct. (3-20-04)

01. **Aspirations and Commitments.** (3-20-04)

a. The professional educator aspires to stimulate the spirit of inquiry in students and to provide opportunities in the school setting that will help them acquire viable knowledge, skills, and understanding that will meet their needs now and in the future. (3-20-04)

b. The professional educator provides an environment that is safe to the cognitive, physical and psychological well-being of students and provides opportunities for each student to move toward the realization of his goals and potential as an effective citizen. (3-20-14)

c. The professional educator, recognizing that students need role models, will act, speak and teach in such a manner as to exemplify nondiscriminatory behavior and encourage respect for other cultures and beliefs. (3-20-14)

d. The professional educator is committed to the public good and will help preserve and promote the principles of democracy. He will provide input to the local school board to assist in the board’s mission of developing and implementing sound educational policy, while promoting a climate in which the exercise of professional judgment is encouraged. (4-11-06)

e. The professional educator believes the quality of services rendered by the education profession directly influences the nation and its citizens. He strives, therefore, to establish and maintain the highest set of professional principles of behavior, to improve educational practice, and to achieve conditions that attract highly qualified persons to the profession. (4-11-06)

f. The professional educator regards the employment agreement as a pledge to be executed in a manner consistent with the highest ideals of professional service. He believes that sound professional personal relationships with colleagues, governing boards, and community members are built upon integrity, dignity, and mutual respect. The professional educator encourages the practice of the profession only by qualified persons. (4-11-06)

02. **Principle I - Professional Conduct.** A professional educator abides by all federal, state, and local education laws and statutes. Unethical conduct shall include the conviction of any felony or misdemeanor offense
set forth in Section 33-1208, Idaho Code. (3-20-14)

03. **Principle II - Educator/Student Relationship.** A professional educator maintains a professional relationship with all students, both inside and outside the physical and virtual classroom. Unethical conduct includes, but is not limited to:

   a. Committing any act of child abuse, including physical or emotional abuse; (3-20-04)
   b. Committing any act of cruelty to children or any act of child endangerment; (3-20-04)
   c. Committing or soliciting any sexual act from any minor or any student regardless of age; (3-20-04)
   d. Committing any act of harassment as defined by district policy; (4-11-06)
   e. Soliciting, encouraging, or consummating a romantic or inappropriate relationship (whether written, verbal, virtual, or physical) with a student, regardless of age; (3-20-14)
   f. Using inappropriate language including, but not limited to, swearing and improper sexual comments (e.g., sexual innuendoes or sexual idiomatic phrases); (3-20-04)
   g. Taking or possessing inappropriate images (digital, photographic, or video) of students of a harassing, confidential, or sexual nature; (3-20-14)
   h. Inappropriate contact with any minor or any student regardless of age using electronic media; (4-11-06)
   i. Furnishing alcohol or illegal or unauthorized drugs to any student or allowing or encouraging a student to consume alcohol or unauthorized drugs except in a medical emergency; (3-20-14)
   j. Conduct that is detrimental to the health or welfare of students; and (3-20-14)
   k. Deliberately falsifying information presented to students. (3-20-14)

04. **Principle III - Alcohol and Drugs Use or Possession.** A professional educator refrains from the abuse of alcohol or drugs during the course of professional practice. Unethical conduct includes, but is not limited to:

   a. Being on school premises or at any school-sponsored activity, home or away, involving students while possessing, using, or consuming illegal or unauthorized drugs; (3-20-04)
   b. Being on school premises or at any school-sponsored activity, home or away, involving students while possessing, using, or consuming alcohol; (3-20-04)
   c. Inappropriate or illegal use of prescription medications on school premises or at any school-sponsored events, home or away; (4-11-06)
   d. Inappropriate or illegal use of drugs or alcohol that impairs the individual’s ability to function; and (4-11-06)
   e. Possession of an illegal drug as defined in Chapter 27, Idaho Code, Uniform Controlled Substances. (3-20-04)

05. **Principle IV - Professional Integrity.** A professional educator exemplifies honesty and integrity in the course of professional practice. Unethical conduct includes, but is not limited to:

   a. Fraudulently altering or preparing materials for licensure or employment; (3-20-04)
b. Falsifying or deliberately misrepresenting professional qualifications, degrees, academic awards, and related employment history when applying for employment or licensure; (3-20-04)

c. Failure to notify the state at the time of application for licensure of past revocations or suspensions of a certificate or license from another state; (3-20-04)

d. Failure to notify the state at the time of application for licensure of past criminal convictions of any crime violating the statutes or rules governing teacher certification; (3-20-14)

e. Falsifying, deliberately misrepresenting, or deliberately omitting information regarding the evaluation of students or personnel, including improper administration of any standardized tests (changing test answers; copying or teaching identified test items; unauthorized reading of the test to students, etc.); (4-11-06)

f. Falsifying, deliberately misrepresenting, or deliberately omitting reasons for absences or leaves; (3-20-04)

g. Falsifying, deliberately misrepresenting, or deliberately omitting information submitted in the course of an official inquiry or investigation; (3-20-14)

h. Falsifying, deliberately misrepresenting, or deliberately omitting material information on an official evaluation of colleagues; and (3-20-14)

i. Failure to notify the state of any criminal conviction of a crime violating the statutes and/or rules governing teacher certification. (3-20-14)

06. Principle V - Funds and Property. A professional educator entrusted with public funds and property honors that trust with a high level of honesty, accuracy, and responsibility. Unethical conduct includes, but is not limited to:

a. Misuse, or unauthorized use, of public or school-related funds or property; (3-20-14)

b. Failure to account for school funds collected from students, parents, or patrons; (3-20-14)

c. Submission of fraudulent requests for reimbursement of expenses or for pay; (3-20-04)

d. Co-mingling of public or school-related funds in personal bank account(s); (3-20-04)

e. Use of school property for private financial gain; (3-20-14)

f. Use of school computers to deliberately view or print pornography; and, (3-20-04)

g. Deliberate use of poor budgeting or accounting practices. (3-20-04)

07. Principle VI - Compensation. A professional educator maintains integrity with students, colleagues, parents, patrons, or business personnel when accepting gifts, gratuities, favors, and additional compensation. Unethical conduct includes, but is not limited to:

a. Unauthorized solicitation of students or parents of students to purchase equipment, supplies, or services from the educator who will directly benefit; (3-20-14)

b. Acceptance of gifts from vendors or potential vendors for personal use or gain where there may be the appearance of a conflict of interest; (3-20-04)

c. Tutoring students assigned to the educator for remuneration unless approved by the local board of education; and, (3-20-04)
d. Soliciting, accepting, or receiving a financial benefit greater than fifty dollars ($50) as defined in Section 18-1359(b), Idaho Code. (3-20-14)

08. Principle VII - Confidentiality. A professional educator complies with state and federal laws and local school board policies relating to the confidentiality of student and employee records, unless disclosure is required or permitted by law. Unethical conduct includes, but is not limited to:

a. Sharing of confidential information concerning student academic and disciplinary records, personal confidences, health and medical information, family status or income, and assessment or testing results with inappropriate individuals or entities; and (3-20-04)

b. Sharing of confidential information about colleagues obtained through employment practices with inappropriate individuals or entities. (3-20-04)

09. Principle VIII - Breach of Contract or Abandonment of Employment. A professional educator fulfills all terms and obligations detailed in the contract with the local board of education or education agency for the duration of the contract. Unethical conduct includes, but is not limited to:

a. Abandoning any contract for professional services without the prior written release from the contract by the employing school district or agency; (3-20-04)

b. Willfully refusing to perform the services required by a contract; and, (3-20-04)

c. Abandonment of classroom or failure to provide appropriate supervision of students at school or school-sponsored activities to ensure the safety and well-being of students. (3-20-04)

10. Principle IX - Duty to Report. A professional educator reports breaches of the Code of Ethics for Idaho Professional Educators and submits reports as required by Idaho Code. Unethical conduct includes, but is not limited to:

a. Failure to comply with Section 33-1208A, Idaho Code, (reporting requirements and immunity); (3-20-04)

b. Failure to comply with Section 16-1605, Idaho Code, (reporting of child abuse, abandonment or neglect); (4-11-06)

c. Failure to comply with Section 33-512B, Idaho Code, (suicidal tendencies and duty to warn); and (4-11-06)

d. Having knowledge of a violation of the Code of Ethics for Idaho Professional Educators and failing to report the violation to an appropriate education official. (3-20-04)

11. Principle X - Professionalism. A professional educator ensures just and equitable treatment for all members of the profession in the exercise of academic freedom, professional rights and responsibilities while following generally recognized professional principles. Unethical conduct includes, but is not limited to: (3-20-14)

a. Any conduct that seriously impairs the Certificate holder’s ability to teach or perform his professional duties; (3-20-04)

b. Committing any act of harassment toward a colleague; (4-11-06)

c. Failure to cooperate with the Professional Standards Commission in inquiries, investigations, or hearings; (3-20-04)

d. Using institutional privileges for the promotion of political candidates or for political activities,
except for local, state or national education association elections; (4-11-06)

e. Willfully interfering with the free participation of colleagues in professional associations; and (4-11-06)

f. Taking or possessing inappropriate images (digital, photographic or video) of colleagues of a harassing, confidential, or sexual nature; (3-20-14)
SUBJECT
Proposed Rule IDAPA 08.02.02.120, .121 – Rules Governing Uniformity - Educator Evaluations

REFERENCE
August 15, 2013  Board approved revisions to IDAPA 08.02.02.120, and addition of .121 - Educator Evaluations
October 18, 2012  Board approved of ESEA Waiver

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Administrative Code, IDAPA 08.02.02.120, .121

BACKGROUND/DISCUSSION
In August 2014, the Board approved revisions in IDAPA 08.02.02.120 and a new section of rule, IDAPA 08.02.02.121, in order to meet the required elements of teacher and principal evaluation models in Principle 3 of the ESEA Waiver.

In an effort to clarify the intent of the rule as well as meet the needs of varying situations, the following revisions are proposed for Board approval:

- In IDAPA 08.02.02.120, include the option of one (1) classroom observation in situations where the teacher is unavailable for two (2) classroom observations.
- In IDAPA 08.02.02.121, clarify those responsible for measuring teacher performance.

IMPACT
If the State Board of Education does not approve the changes, Idaho school administrators will be required to include two (2) classroom observations regardless of the situation and specific administrator staff will not be identified as responsible for measuring teacher performance.

ATTACHMENTS
Attachment 1 – Proposed Rule changes to IDAPA 08.02.02.120, .121  Page 3

BOARD ACTION
I move to approve Proposed Rule amendments to IDAPA 08.02.02.120, .121 as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
08.02.02 - RULES GOVERNING UNIFORMITY

120. LOCAL DISTRICT EVALUATION POLICY -- TEACHER AND PUPIL PERSONNEL CERTIFICATE HOLDERS.

Each school district board of trustees will develop and adopt policies for teacher performance evaluation using multiple measures in which criteria and procedures for the evaluation of certificated personnel are research based and aligned to Charlotte Danielson Framework for Teaching Second Edition domains and components of instruction. The process of developing criteria and procedures for certificated personnel evaluation will allow opportunities for input from those affected by the evaluation; i.e., trustees, administrators, teachers, and parents. The evaluation policy will be a matter of public record and communicated to the certificated personnel for whom it is written.

01. Standards. Each district evaluation model shall be aligned to state minimum standards that are based on Charlotte Danielson’s Framework for Teaching Second Edition domains and components of instruction. Those domains and components include:

   a. Domain 1 - Planning and Preparation:
      i. Demonstrating Knowledge of Content and Pedagogy;
      ii. Demonstrating Knowledge of Students;
      iii. Setting Instructional Outcomes;
      iv. Demonstrating Knowledge of Resources;
      v. Designing Coherent Instruction; and
      vi. Designing Student Assessments.

   b. Domain 2 - The Classroom Environment:
      i. Creating an Environment of Respect and Rapport;
      ii. Establishing a Culture for Learning;
      iii. Managing Classroom Procedures;
      iv. Managing Student Behavior; and
      v. Organizing Physical Space.
02. Professional Practice. For evaluations conducted on or after July 1, 2013, all certificated instructional employees must receive an evaluation in which at least sixty-seven percent (67%) of the evaluation results are based on Professional Practice. All measures included within the Professional Practice portion of the evaluation must be aligned to the Charlotte Danielson Framework for Teaching Second Edition. The measures included within the Professional Practice portion of the evaluation shall include a minimum of two (2) documented observations annually, with at least one (1) observation being completed by January 1 of each year. In situations where certificated personnel are unavailable for two (2) documented classroom observations due to situation such as long-term illness, late year hire, etc., one (1) documented classroom observation is acceptable. District evaluation models shall also include at least one (1) of the following as a measure to inform the Professional Practice portion of all certificated instructional employee evaluations:

   a. Parent/guardian input;

   b. Student input; and/or

   c. Portfolios.

03. Student Achievement. For evaluations conducted on or after July 1, 2013, all certificated instructional employees, principals and superintendents must receive an evaluation in which at least thirty-three
percent (33%) of the evaluation results are based on multiple objective measures of growth in student achievement as determined by the board of trustees and based upon research. For evaluations conducted on or after July 1, 2014, growth in student achievement as measured by Idaho's statewide assessment for Federal accountability purposes must be included. This portion of the evaluation may be calculated using current and/or past year's data and may use one (1) or multiple years of data. Growth in student achievement may be considered as an optional measure for all other school based and district based staff, as determined by the local board of trustees. (3-20-14)

04. **Participants.** Each district evaluation policy will include provisions for evaluating all certificated employees identified in Section 33-1001, Idaho Code, Subsection 16. Evaluations shall be differentiated for certificated non-instructional employees and pupil personnel certificate holders in a way that aligns with the Charlotte Danielson Framework for Teaching Second Edition to the extent possible. Policies for evaluating certificated employees should identify the differences, if any, in the conduct of evaluations for nonrenewable contract personnel and renewable contract personnel. (3-20-14)

05. **Evaluation Policy - Content.** Local school district policies will include, at a minimum, the following information:

   a. **Purpose --** statements that identify the purpose or purposes for which the evaluation is being conducted; e.g., individual instructional improvement, personnel decisions. (4-1-97)

   b. **Evaluation criteria --** statements of the general criteria upon which certificated personnel will be evaluated. (4-1-97)

   c. **Evaluator --** identification of the individuals responsible for appraising or evaluating certificated instructional staff and pupil personnel performance. The individuals assigned this responsibility shall have received training in evaluation and prior to September 1, 2018, shall demonstrate proof of proficiency in conducting observations and evaluating effective teacher performance by passing a proficiency assessment approved by the State Department of Education as a onetime recertification requirement. (3-20-14)

   d. **Sources of data --** description of the sources of data used in conducting certificated personnel evaluations. For certificated instructional staff, a minimum of two (2) documented classroom observations shall be included as one (1) source of data. At least one (1) of those observations must be completed prior to January 1 of each year. In situations where certificated personnel are unavailable for two (2) documented classroom observations due to situation such as long-term illness, late year hire, etc., one (1) documented classroom observation is acceptable. Parent/guardian input, student input and/or portfolios shall be considered as sources of data to support professional practice. (3-20-14)

   e. **Procedure --** description of the procedure used in the conduct of certificated personnel evaluations. (4-1-97)

   f. **Communication of results --** the method by which certificated personnel are informed of the results of evaluation. (4-1-97)

   g. **Personnel actions --** the action available to the school district as a result of the evaluation and the procedures for implementing these actions; e.g., job status change. Note: in the event the action taken as a result of evaluation is to not renew an individual’s contract or to renew an individual’s contract at a reduced rate, school
districts should take proper steps to follow the procedures outlined in Sections 33-513 through 33-515, Idaho Code in order to assure the due process rights of all personnel. (3-20-14)

h. Appeal -- the procedure available to the individual for appeal or rebuttal when disagreement exists regarding the results of certificated personnel evaluations. (4-1-97)

i. Remediation -- the procedure available to provide remediation in those instances where remediation is determined to be an appropriate course of action. (4-1-97)

j. Monitoring and evaluation. -- A description of the method used to monitor and evaluate the district’s personnel evaluation system. (4-1-97)

k. Professional development and training -- a plan for ongoing training for evaluators/administrators and teachers on the districts evaluation standards, tool and process. (3-29-10)

l. Funding -- a plan for funding ongoing training and professional development for administrators in evaluation. (3-29-10)

m. Collecting and using data -- a plan for collecting and using data gathered from the evaluation tool that will be used to inform professional development. Aggregate data shall be considered as part of the district and individual schools Needs Assessment in determining professional development offerings. (3-20-14)

n. Individualizing teacher evaluation rating system -- a plan for how evaluations will be used to identify proficiency and record growth over time. No later than July 1, 2013, districts shall have established an individualized teacher evaluation rating system with a minimum of three (3) rankings used to differentiate performance of teachers and pupil personnel certificate holders including:

   i. Unsatisfactory being equal to “1”; (3-20-14)

   ii. Basic being equal to “2”; and (3-20-14)

   iii. Proficient being equal to “3”. (3-20-14)

o. A plan for including all stakeholders including, but not limited to, teachers, board members, administrators, and parents in the development and ongoing review of their teacher evaluation plan. (3-20-14)

06. Evaluation Policy - Frequency of Evaluation. The evaluation policy shall include a provision for evaluating all certificated personnel on a fair and consistent basis. (3-20-14)

07. Evaluation Policy - Personnel Records. Permanent records of each certificated personnel evaluation will be maintained in the employee’s personnel file. All evaluation records will be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy (Section 33-518, Idaho Code). Local school districts shall report the rankings of individual certificated personnel evaluations to the State Department of Education annually for State and Federal reporting purposes. The State Department of Education shall ensure that the privacy of all certificated personnel is protected by not releasing statistical data of evaluation
rankings in local school districts with fewer than five (5) teachers and by only reporting that information in the aggregate by local school district. (3-20-14)

08. Evaluation System Approval. Each school district board of trustees will develop and adopt policies for teacher and pupil personnel certificated performance evaluation in which criteria and procedures for the evaluation are research based and aligned with the Charlotte Danielson Framework for Teaching Second Edition. By July 1, 2014, an evaluation plan which incorporates all of the above elements shall be submitted to the State Department of Education for approval. Once approved, subsequent changes made in the evaluation system shall be resubmitted for approval. (3-20-14)

121. LOCAL DISTRICT EVALUATION POLICY - SCHOOL PRINCIPAL. For principal evaluations conducted on or after July 1, 2014, each school district board of trustees will develop and adopt policies for principal performance evaluation using multiple measures in which criteria and procedures for the evaluation of administratively certificated personnel serving as school principal are research based and aligned to the standards and requirements outlined in Subsections 121.01 through 121.07 of this rule. Districts must, at a minimum, pilot such an evaluation during the 2013-2014 school year and report the results of that pilot to the State Department of Education no later than July 1, 2014, in a format determined by the Department. The process of developing criteria and procedures for principal evaluation will allow opportunities for input from those affected by the evaluation; i.e., trustees, administrators, teachers and parents. The evaluation policy will be a matter of public record and communicated to the principal for whom it is written. (3-20-14)

01. Standards. Each district principal evaluation model shall be aligned to state minimum standards based on the Interstate School Leaders Licensure Consortium (ISLLC) standards and include proof of proficiency in conducting teacher evaluations using the state’s adopted model, the Charlotte Danielson Framework for Teaching Second Edition. Proof of proficiency in evaluating teacher performance shall be required of all individuals assigned the responsibility for appraising, observing, or evaluating certificated personnel performance. Those responsible for measuring teacher performance include contracted district leadership such as, principals, assistant principals, special education directors and superintendents. Proof of proficiency in evaluating performance shall be demonstrated by passing a proficiency assessment approved by the State Department of Education as a onetime recertification requirement prior to September 1, 2018. Principal evaluation standards shall additionally address the following domains and components:

   a. Domain 1: School Climate - An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs. (3-20-14)

      i. School Culture - Principal establishes a safe, collaborative, and supportive culture ensuring all students are successfully prepared to meet the requirements for tomorrow’s careers and life endeavors. (3-20-14)

      ii. Communication - Principal is proactive in communicating the vision and goals of the school or district, the plans for the future, and the successes and challenges to all stakeholders. (3-20-14)

      iii. Advocacy - Principal advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement. (3-20-14)
b. Domain 2: Collaborative Leadership - An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. The educational leader uses research and/or best practices in improving the education program.

   i. Shared Leadership - Principal fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth.

   ii. Priority Management - Principal organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities.

   iii. Transparency - Principal seeks input from stakeholders and takes all perspectives into consideration when making decisions.

   iv. Leadership Renewal - Principal strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others.

   v. Accountability - Principal establishes high standards for professional, legal, ethical, and fiscal accountability for self and others.

c. Domain 3: Instructional Leadership - An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. The educational leader provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program.

   i. Innovation - Principal seeks and implements innovative and effective solutions that comply with general and special education law.

   ii. Instructional Vision - Principal insures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn.

   iii. High Expectations - Principal sets high expectation for all students academically, behaviorally, and in all aspects of student well-being.

   iv. Continuous Improvement of Instruction - Principal has proof of proficiency in assessing teacher performance based upon the Charlotte Danielson Framework for Teaching Second Edition. Aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision.

   v. Evaluation - Principal uses teacher/principal evaluation and other formative feedback mechanisms to continuously improve teacher/principal effectiveness.

   vi. Recruitment and Retention -Principal recruits and maintains a high quality staff.
02. Professional Practice. For evaluations conducted on or after July 1, 2014, all principals must receive an evaluation in which sixty-seven percent (67%) of the evaluation results are based on Professional Practice. All measures included within the Professional Practice portion of the evaluation must be aligned to the Domains and Components listed in Subsection 121.01.a. through 121.01.c. of this rule. As a measure to inform the Professional Practice portion of all principal evaluations, district evaluation models shall also include at least one (1) of the following:

   a. Parent/guardian input;
   b. Teacher input;
   c. Student input; and/or
   d. Portfolios.

03. Student Achievement. For evaluations conducted on or after July 1, 2013, all certificated instructional employees, principals and superintendents must receive an evaluation in which at least thirty-three percent (33%) of the evaluation results are based on multiple objective measures of growth in student achievement as determined by the board of trustees and based upon research. For evaluations conducted on or after July 1, 2014, growth in student achievement as measured by Idaho’s statewide assessment for Federal accountability purposes must be included. This portion of the evaluation may be calculated using current and/or past year’s data and may use one (1) or multiple years of data. Growth in student achievement may be considered as an optional measure for all other school based and district based staff, as determined by the local board of trustees.

04. Evaluation Policy - Content. For evaluations conducted on or after July 1, 2014, local school district policies will include, at a minimum, the following information:

   a. Purpose -- statements that identify the purpose or purposes for which the evaluation is being conducted; e.g., individual instructional leadership, personnel decisions.
   b. Evaluation criteria -- statements of the general criteria upon which principals be evaluated.
   c. Evaluator -- identification of the individuals responsible for appraising or evaluating principal performance. The individuals assigned this responsibility shall have received training in evaluation.
   d. Sources of data -- description of the sources of data used in conducting principal evaluations. Proficiency in conducting observations and evaluating effective teacher performance shall be included as one (1) source of data.
   e. Procedure -- description of the procedure used in the conduct of principal evaluations.
   f. Communication of results -- the method by which principals are informed of the results of evaluation.
g. Personnel actions -- the action, available to the school district as a result of the evaluation, and the procedures for implementing these actions; e.g., job status change. (3-20-14)

h. Appeal -- the procedure available to the individual for appeal or rebuttal when disagreement exists regarding the results of an evaluations. (3-20-14)

i. Remediation -- the procedure available to provide remediation in those instances where remediation is determined to be an appropriate course of action. (3-20-14)

j. Monitoring and evaluation. -- A description of the method used to monitor and evaluate the district’s principal evaluation system. (3-20-14)

k. Professional development and training -- a plan for ongoing training and professional learning based upon the district’s evaluation standards and process. (3-20-14)

l. Funding -- a plan for funding ongoing training and professional development for evaluators of principals. (3-20-14)

m. Collecting and using data -- a plan for collecting and using data gathered from the evaluation tool that will be used to inform professional development for principals. (3-20-14)

n. Individualizing principal evaluation rating system -- a plan for how evaluations will be used to identify proficiency and record growth over time. No later than July 1, 2014, districts shall have established an individualized principal evaluation rating system with a minimum of three rankings used to differentiate performance of principals including:

i. Unsatisfactory being equal to “1”; (3-20-14)

ii. Basic being equal to “2”; and (3-20-14)

iii. Proficient being equal to “3”. (3-20-14)

o. A plan for including stakeholders including, but not limited to, teachers, board members, administrators, and parents in the development and ongoing review of their principal evaluation plan. (3-20-14)

05. Evaluation Policy - Frequency of Evaluation. The evaluation policy should include a provision for evaluating all principals on a fair and consistent basis. All principals shall be evaluated at least once annually no later than May 1 of each year. (3-20-14)

06. Evaluation Policy - Personnel Records. Permanent records of each principal evaluation will be maintained in the employee’s personnel file. All evaluation records will be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy (Section 33-518, Idaho Code). Local school districts shall report the rankings of individual certificated personnel evaluations to the State Department of Education annually for State and Federal reporting purposes. The State Department of Education shall ensure that the privacy of all certificated personnel is protected by not releasing statistical data of evaluation rankings in local
school districts with fewer than five (5) teachers and by only reporting that information in the aggregate by local school district. (3-20-14)

07. Evaluation System Approval. Each school district board of trustees will develop and adopt policies for principal performance evaluation in which criteria and procedures for the evaluation are research based and aligned with state standards. By July 1, 2014, an evaluation plan which incorporates all of the above elements shall be submitted to the State Department of Education for approval. Once approved, subsequent changes made in the evaluation system shall be resubmitted for approval. (3-20-14)
SUBJECT
Temporary and Proposed Rule - IDAPA 08.02.03.104 - Physical Education and Professional Technical Education

REFERENCE
November 1, 2013   Board approved Pending Rule amending high school graduation requirements

APPLICABLE STATUTE, RULE, OR POLICY
Section 33-118, Idaho Code, Idaho Administrative Code, IDAPA 08.02.03.104

BACKGROUND/DISCUSSION
IDAPA 08.02.03, subsection 104. sets out other required instruction in elementary schools, middle schools/junior high schools, and high schools. The language pertaining to other instruction in high school was amended in 2006 making it effective for all students who graduated prior to January 1, 2012. These changes were part of the high school redesign efforts by the Board. At the same time subsection 105 was amended to increase the specific credit requirements for graduation and move the required parent-approved student learning plan development to “no later than the eighth grade”. This section also included a further subsection that outlined other required instructional offerings of high schools. When subsection 03. was no longer effective and removed from Administrative Rule, the further subsection was also removed, eliminating the requirement that high schools provide instructional offering in physical education, humanities, professional technical education, family and consumer science, fine and performing arts, and languages of than English. While IDAPA 08.02.03, subsection 105 list specific credit requirements for humanities, including world languages and performing arts, it does not include credit requirements for physical education or professional-technical education.

The proposed rule change will restore language regarding other required instructional offering of the high school to include Physical Education and Professional-Technical Education.

Additionally, at the recommendation of the High Expectations subcommittee, clarifying language is being added to ensure learning plans are reviewed annual throughout a student's high school career, as intended by the language contained regarding the learning plans in the middle schools/junior high schools section.

IMPACT
Approval of the proposed rule amendments would reinstate the requirement that high schools offer physical education and professional-technical education and clarify that the learning plans created in middle school/junior high must be reviewed annual throughout the student’s high school experience.

Attachment 1 – Temporary-Proposed changes to IDAPA 08.02.03.104 Page 3

BOARD ACTION
I move to approve the Temporary and Proposed Rule amendments to IDAPA 08.02.03.104 – Other Required Instruction, as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
08.02.03 - RULES GOVERNING THOROUGHNESS

104. OTHER REQUIRED INSTRUCTION.
Other required instruction for all students and other required offerings of the school are: (4-1-97)

01. Elementary Schools. (4-11-06)
   a. The following section outlines other information required for all elementary students, as well as other required offerings of the school:
      Fine Arts (art and music)
      Health (wellness)
      Physical Education (fitness) (4-11-06)
   b. Additional instructional options as determined by the local school district. For example:
      Languages other than English
      Career Awareness (4-1-97)

02. Middle Schools/Junior High Schools. (4-11-06)
   a. No later than the end of Grade eight (8) each students shall develop parent-approved student learning plans for their high school and post-high school options. The learning plan shall be developed by students with the assistance of parents or guardians, and with advice and recommendation from school personnel. It shall be reviewed annually and may be revised at any time. The purpose of a parent-approved student learning plan is to outline a course of study and learning activities for students to become contributing members of society. A student learning plan describes, at a minimum, the list of courses and learning activities in which the student will engage while working toward meeting the school district’s or LEA’s graduation standards. The school district or LEA will have met its obligation for parental involvement if it makes a good faith effort to notify the parent or guardian of the responsibility for the development and approval of the learning plan. A learning plan will not be required if the parent or guardian requests, in writing, that no learning plan be developed. (4-11-06)
   b. A student must have taken pre-algebra before the student will be permitted to enter grade nine (9). (3-12-14)
   c. Other required instruction for all middle school students:
      Health (wellness)
      Physical Education (fitness) (4-11-06)
   d. Other required offerings of the school:
      Family and Consumer Science
      Fine & Performing Arts
      Professional Technical Education
      Advisory Period (middle school only, encouraged in junior high school) (4-11-06)

03. High Schools
   a. High schools must offer a wide variety of courses to satisfy state and local graduation requirements. High schools are required provide instructional offerings in:
      Physical Education (fitness)
      Professional-Technical Education
   b. High schools will annually review and update with the student the parent-approved student learning plans outlined in subsection 104.02.a.
SUBJECT
Temporary Rule - IDAPA 08.02.03.105 – Rules Governing Thoroughness

REFERENCE
November 1, 2013  Board approved Pending Rule amending high school graduation requirements
March 12, 2014  2014 Legislature approved

APPLICABLE STATUTE, RULE, OR POLICY
Section 33-118, Idaho Code, Idaho Administrative Code, IDAPA 08.02.03.105

BACKGROUND/DISCUSSION
IDAPA 08.02.03.105.01.i: At the request of the Legislature, an addition to the substitution clause for one credit of physical education for graduation is clarified. Student participation in one (1) season in any sport recognized by Idaho High School Activities Association or club sport recognized by the local school district, or eighteen (18) weeks of a sport recognized by the local school district may choose to substitute participation up to one (1) credit of physical education to include a clause ensuring the student show mastery of the content standards in a format provided by the district.

IDAPA 08.02.03.105.03.b.iii currently states: students may elect an exemption in grade eleven (11) from the college entrance exam requirement if: Enrolled for the first time in grade twelve (12) at an Idaho high school after the spring statewide administration of the college entrance exam. This should be corrected from spring to fall. The spring administration is for seniors and the College Board does not allow students to test outside of their grade level group.

IDAPA 08.02.03.105.05: the word “required” is removed because this section applies to any class the student is taking.

IDAPA 08.02.03.105.06 as Idaho continues to transition to higher standards, Idaho’s graduation requirement must be considered. Currently, the State Board of Education requires students to pass the 10th grade Idaho Standards Achievement Tests (ISAT) to graduate. The Board made accommodations for the Class of 2016 as students took the field test. For the class of 2017, the Department recommends students are required to take the test.

In 2010, the State Board of Education removed the requirement for students to pass the ISAT science test in 10th grade. At that time, the Department began work on replacing the science test with a more appropriate measure of science knowledge in the form of an end of course assessment. Tests in biology and chemistry were developed and field tested. Starting with the class of 2017 (sophomores in 2014-2015), students will be required to take either biology or chemistry.
IMPACT

IDAPA 08.02.03.105.i - The student would be responsible to provide evidence of mastery of the Idaho State Physical Education Standards to receive one (1) Physical Education credit. The district will provide the format appropriate to document the student’s mastery of the standards for Physical Education.

IDAPA 08.02.03.105.03.b.iii - If not approved, we will not be in compliance with the College Board.

IDAPA 08.02.03.105.05 – Clarification of the meaning.

IDAPA 08.02.03.105.06 – Continuation of the transition to higher standards as it relates to graduation requirements.

BOARD ACTION

I move to approve the Temporary amendments to IDAPA 08.02.03.105, High School Graduation Requirements, as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
08.02.03 - RULES GOVERNING THOROUGHNESS

105. HIGH SCHOOL GRADUATION REQUIREMENTS.
A student must meet all of the requirements identified in this section before the student will be eligible to graduate from an Idaho high school. The local school district or LEA may establish graduation requirements beyond the state minimum. (5-8-09)

01. Credit Requirements. The State minimum graduation requirement for all Idaho public high schools is forty-six (46) credits and must include twenty-nine (29) credits in core subjects as identified in Paragraphs 105.01.c. through 105.01.i. (3-12-14)

a. Credits. (Effective for all students who enter the ninth grade in the fall of 2010 or later.) One (1) credit shall equal sixty (60) hours of total instruction. School districts or LEA’s may request a waiver from this provision by submitting a letter to the State Department of Education for approval, signed by the superintendent and chair of the board of trustees of the district or LEA. The waiver request shall provide information and documentation that substantiates the school district or LEA’s reason for not requiring sixty (60) hours of total instruction per credit. (3-29-10)

b. Mastery. A student may also achieve credits by demonstrating mastery of a subject’s content standards as defined and approved by the local school district or LEA. (3-29-10)

c. Secondary Language Arts and Communication. Nine (9) credits are required. Eight (8) credits of instruction in Language Arts. Each year of Language Arts shall consist of language study, composition, and literature and be aligned to the Idaho Content Standards for the appropriate grade level. One (1) credit of instruction in communications consisting of oral communication and technological applications that includes a course in speech, a course in debate, or a sequence of instructional activities that meet the Idaho Speech Content Standards requirements. (3-29-10)

d. Mathematics. Six (6) credits are required. Secondary mathematics includes Applied Mathematics, Business Mathematics, Algebra, Geometry, Trigonometry, Fundamentals of Calculus, Probability and Statistics, Discrete Mathematics, and courses in mathematical problem solving and reasoning. AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering courses may also be counted as a mathematics credit if the student has completed Algebra II standards. Students who choose to take AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering may not concurrently count such courses as both a math and science credit. (3-12-14)

i. Students must complete secondary mathematics in the following areas:
(1) Two (2) credits of Algebra I or courses that meet the Idaho Algebra I Content Standards as approved by the State Department of Education; (3-29-10)
(2) Two (2) credits of Geometry or courses that meet the Idaho Geometry Content Standards as approved by the State Department of Education; and (3-29-10)
(3) Two (2) credits of mathematics of the student’s choice. (3-29-10)

ii. Two (2) credits of the required six (6) credits of mathematics must be taken in the last year of high school in which the student intends to graduate. For the purposes of this subsection, the last year of high school shall include the summer preceding the fall start of classes. Students who return to school during the summer or the following fall of the next year for less than a full schedule of courses due to failing to pass a course other than math
are not required to retake a math course as long as they have earned six (6) credits of high school level mathematics.

(3-12-14)

iii. Students who have completed six (6) credits of math prior to the fall of their last year of high school, including at least two (2) semesters of an Advanced Placement or dual credit calculus or higher level course, are exempt from taking math during their last year of high school. High School math credits completed in middle school shall count for the purposes of this section.

(3-12-14)

e. Science. Six (6) credits are required, four (4) of which will be laboratory based. Secondary sciences include instruction in applied sciences, earth and space sciences, physical sciences, and life sciences. Up to two (2) credits in AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering may be used as science credits. Students who choose to take AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering may not concurrently count such courses as both a math and science credit.

(3-12-14)

i. Secondary sciences include instruction in the following areas: biology, physical science or chemistry, and earth, space, environment, or approved applied science. Four (4) credits of these courses must be laboratory based.

(3-12-14)

f. Social Studies. Five (5) credits are required, including government (two (2) credits), United States history (two (2) credits), and economics (one (1) credit). Courses such as geography, sociology, psychology, and world history may be offered as electives, but are not to be counted as a social studies requirement.

(3-29-10)

g. Humanities. Two (2) credits are required. Humanities courses include instruction in visual arts, music, theatre, dance, or world language aligned to the Idaho content standards for those subjects. Other courses such as literature, history, philosophy, architecture, or comparative world religions may satisfy the humanities standards if the course is aligned to the Idaho Interdisciplinary Humanities Content Standards.

(3-29-10)

h. Health/Wellness. One (1) credit is required. Course must be aligned to the Idaho Health Content Standards. Effective for all public school students who enter grade nine (9) in Fall 2015 or later, each student shall receive a minimum of one (1) class period on psychomotor cardiopulmonary resuscitation (CPR) training as outlined in the American Heart Association (AHA) Guidelines for CPR to include the proper utilization of an automatic external defibrillator (AED) as part of the Health/Wellness course.

(3-12-14)

i. Physical Education. Students participating in one (1) season in any sport recognized by the Idaho High School Activities Association or club sport recognized by the local school district, or eighteen (18) weeks of a sport recognized by the local school district may choose to substitute participation up to one (1) credit of physical education. Students must show mastery of the content standards for physical education in a format provided by the school district.

(3-12-14)

02. Content Standards. Each student shall meet locally established subject area standards (using state content standards as minimum requirements) demonstrated through various measures of accountability including examinations or other measures.

(3-29-10)

03. College Entrance Examination. (Effective for all public school students who enter grade nine (9) in Fall 2012 or later.)

(3-12-14)

a. A student must take one (1) of the following college entrance or placement examinations before the end of the student’s eleventh grade year: SAT, ACT, or Compass. A student who misses the statewide administration of the college exam during the student's grade eleven (11) for one (1) of the following reasons, may take the examination during their grade twelve (12) to meet this requirement:

(3-12-14)

i. Transferred to an Idaho school district during grade eleven (11);

(3-12-14)

ii. Was homeschooled during grade eleven (11); or

(3-12-14)

iii. Missed the spring statewide administration of the college entrance exam dates for documented
medical reasons.  

b. A student may elect an exemption in grade eleven (11) from the college entrance exam requirement if the student is:

   i. Enrolled in a special education program and has an Individual Education Plan (IEP) that specifies accommodations not allowed for a reportable score on the approved tests;

   ii. Enrolled in a Limited English Proficient (LEP) program for three (3) academic years or less; or

   iii. Enrolled for the first time in grade twelve (12) at an Idaho high school after the spring fall statewide administration of the college entrance exam.

   (3-12-14)

c. Students who are eligible to take an alternate assessment may take the ACCUPLACER Placement exam during their senior year to meet the college entrance exam graduation requirement.

   (3-12-14)

04. Senior Project. A student must complete a senior project by the end of grade twelve (12). The project must include a written report and an oral presentation. Additional requirements for a senior project are at the discretion of the local school district or LEA.

   (3-12-14)

05. Middle School. A student will have met the high school content and credit area requirement for any required high school course if:

   a. The student completes such course with a grade of C or higher before entering grade nine (9);

   b. The course meets the same content standards that are required in high school; and

   c. The course is taught by a properly certificated teacher who meets the federal definition of highly qualified for the course being taught.

   (3-12-14)

d. The student shall be given a grade for the successful completion of that course and such grade and the number of credit hours assigned to the course shall be transferred to the student's high school transcript. Courses taken in middle school appearing in the student's high school transcript, pursuant to this subsection, shall count for the purpose of high school graduation. However, the student must complete the required number of credits in all high school core subjects as identified in Subsections 105.01.c. through 105.01.h. except as provided in 105.01.d.iii.

   (3-12-14)

06. Proficiency. Each student must achieve a proficient or advanced score on the grade ten (10) Idaho Standards Achievement Test (ISAT) in math, reading and language usage in order to graduate. Students who receive a proficient or advanced score on the grade ten (10) ISAT while in grade nine (9) may bank the score for purposes of meeting their graduation requirement. A student who does not attain at least a proficient score prior to graduation may appeal to the school district or LEA, and will be given an opportunity to demonstrate proficiency of the content standards through some other locally established plan. School districts or LEAs shall adopt an alternate plan and provide notice of that plan to all students who have not achieved a proficient or advanced score on the Grade 10 Idaho Standards Achievement Test by the fall semester of the student’s junior year. All locally established alternate plans used to demonstrate proficiency shall be forwarded to the State Board of Education for review and information. Alternate plans must be promptly re-submitted to the Board whenever changes are made in such plans.

   (3-12-14)

   a. Before entering an alternate measure, the student must be:

   (4-2-08)
i. Enrolled in a special education program and have an Individual Education Plan (IEP); or (3-20-04)

ii. Enrolled in an Limited English Proficient (LEP) program for three (3) academic years or less; or (3-20-04)

iii. Enrolled in the fall semester of the senior year. (3-20-04)

b. The alternate plan must:

i. Contain multiple measures of student achievement; (4-7-11)

ii. Be aligned at a minimum to tenth grade state content standards; (4-7-11)

iii. Be aligned to the state content standards for the subject matter in question; (4-7-11)

iv. Be valid and reliable; and (4-7-11)

v. Ninety percent (90%) of the alternate plan criteria must be based on academic proficiency and performance. (4-7-11)

c. A student is not required to achieve a proficient or advanced score on the ISAT if:

i. The student received a proficient or advanced score on an exit exam from another state that requires a standards-based exam for graduation. The state’s exit exam must approved by the State Board of Education and must measure skills at the tenth grade level and be in comparable subject areas to the ISAT; (5-8-09)

ii. The student completes another measure established by a school district or LEA and received by the Board as outlined in Subsection 105.06; or (3-29-10)

iii. The student has an IEP that outlines alternate requirements for graduation or adaptations are recommended on the test; (5-8-09)

iv. The student is considered an LEP student through a score determined on a language proficiency test and has been in an LEP program for three (3) academic years or less; (5-8-09)

d. Those students who will graduate in 2016 and have not received a proficient or advanced score on the ISAT in grade nine (9), will be required to complete an alternative plan for graduation, as designed by the district, including the elements prescribed in Subsection 105.06.b. and may enter the alternate path prior to the fall of their senior year. (3-12-14)

e. Students who graduate in 2017 are required to complete the ISAT in grade eleven (11) in mathematics and English language usage. (____)

f. Students who graduate beginning in 2017 are required to complete an end of course assessment provided by the state in either biology or chemistry. The end of course assessment must be given at the end of the student’s instruction in either biology or chemistry.

07. **Special Education Students.** A student who is eligible for special education services under the Individuals With Disabilities Education Improvement Act must, with the assistance of the student’s Individualized Education Program (IEP) team, refer to the current Idaho Special Education Manual for guidance in addressing graduation requirements. (4-11-06)

08. **Foreign Exchange Students.** A foreign exchange student may be eligible for graduation by completing a comparable program as approved by the school district or LEA. (4-11-06)
SUBJECT
Proposed Rule - IDAPA 08.02.03.105 – Rules Governing Thoroughness

REFERENCE
November 1, 2013  Board approved Pending Rule amending high school graduation requirements
March 12, 2014  2014 Legislature approved

APPLICABLE STATUTE, RULE, OR POLICY
Section 33-118, Idaho Code, Idaho Administrative Code, IDAPA 08.02.03.105

BACKGROUND/DISCUSSION
IDAPA 08.02.03.105.i - At the request of the Legislature, the substitution clause for one credit of physical education for graduation is clarified. Student participation in one (1) season in any sport recognized by Idaho High School Activities Association or club sport recognized by the local school district, or eighteen (18) weeks of a sport recognized by the local school district may choose to substitute participation up to one (1) credit of physical education to include a clause ensuring the student show mastery of the content standards in a format provided by the district.

IDAPA 08.02.03.105.03.b.iii - The rule currently states: students may elect an exemption in grade eleven (11) from the college entrance exam requirement if: Enrolled for the first time in grade twelve (12) at an Idaho high school after the spring statewide administration of the college entrance exam. This should be corrected from spring to fall. The spring administration is for seniors and the College Board does not allow students to test outside of their grade level group.

IDAPA 08.02.03.105.05 - This rule currently contains the word required. It is being removed because it is too vague and this is meant for any class the student is enrolled that meets teacher certification requirements and content standards.

IDAPA 08.02.03.105.06.e-.k - This rule makes changes to high school graduation requirements in regards to testing. This docket adds Idaho Standards Achievement Tests (ISAT) requirements to the previous docket for the class of 2018 and beyond, as well as a graduation requirement for biology and chemistry in the form of End of Course Assessments.

Idaho high school students have been required to pass the ISAT since the class of 2006. The previous requirement was for students to pass the 10th grade ISAT at a proficient level prior to receiving a diploma. The Board passed the requirement in 2003 with Legislative approval in 2004. The graduation requirement was phased in over three years. As Idaho continues to transition to higher standards, Idaho’s graduation requirement must be retooled. The new ISAT will be a true college and career ready test and given for graduation in the
student’s junior year. Previously, the Board made accommodations for the Class of 2016 as students took the field test. For the class of 2017, the Department recommends students are required to take the test in 11th grade and phase in the graduation requirement similar to the phase in when the graduation requirement was initiated in 2006. The class of 2018 will be required to pass the ISAT in math and English language usage at a 9th grade level. The class of 2019 will be required to pass the math and English language usage ISAT at a 10th grade level and then the class of 2020 must pass at the college and career level. The rule also allows for students who are advanced to create a mastery element in the requirement. Therefore, students who can pass the ISAT in 9th or 10th grade at an 11th grade college and career ready level will be except from taking the ISAT in the future and their graduation requirement is met.

In 2010, the State Board of Education removed the requirement for students to pass the ISAT science test in 10th grade. At that time, the Department began work on replacing the science test with a more appropriate measure of science knowledge in the form of an End of Course assessment. Tests in biology and chemistry were developed and field tested. For the class of 2017 (sophomores in 2014-2015) and class of 2018, students will be required to take either biology or chemistry. Beginning in the class of 2019, students will be required to pass the EOC in biology or chemistry.

IMPACT

IDAPA 08.02.03.105.i - The student would be responsible to provide evidence of mastery of the Idaho State Physical Education Standards to receive one (1) Physical Education credit. The district will provide the format appropriate to document the student’s mastery of the standards for Physical Education.
IDAPA 08.02.03.105.03.b.iii - If not approved, we will not be in compliance with College Board regulations.
IDAPA 08.02.03.105.05 – Clarification of the meaning.
IDAPA 08.02.03.105.06.e-.k - The class of 2018 and beyond, students must take and pass the ISAT at defined levels for graduation. Students in the class of 2018 are also required to take an end of course assessment (EOC) in biology or chemistry. The class of 2019 will be required to pass the EOC.

BOARD ACTION

I move to approve Proposed Rule amendments to IDAPA 08.02.03.105, High School Graduation Requirements, as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
08.02.03 - RULES GOVERNING THOROUGHNESS

105. HIGH SCHOOL GRADUATION REQUIREMENTS.
A student must meet all of the requirements identified in this section before the student will be eligible to graduate from an Idaho high school. The local school district or LEA may establish graduation requirements beyond the state minimum. (5-8-09)

01. Credit Requirements. The State minimum graduation requirement for all Idaho public high schools is forty-six (46) credits and must include twenty-nine (29) credits in core subjects as identified in Paragraphs 105.01.c. through 105.01.i. (3-12-14)

a. Credits. (Effective for all students who enter the ninth grade in the fall of 2010 or later.) One (1) credit shall equal sixty (60) hours of total instruction. School districts or LEA’s may request a waiver from this provision by submitting a letter to the State Department of Education for approval, signed by the superintendent and chair of the board of trustees of the district or LEA. The waiver request shall provide information and documentation that substantiates the school district or LEA’s reason for not requiring sixty (60) hours of total instruction per credit. (3-29-10)

b. Mastery. A student may also achieve credits by demonstrating mastery of a subject’s content standards as defined and approved by the local school district or LEA. (3-29-10)

c. Secondary Language Arts and Communication. Nine (9) credits are required. Eight (8) credits of instruction in Language Arts. Each year of Language Arts shall consist of language study, composition, and literature and be aligned to the Idaho Content Standards for the appropriate grade level. One (1) credit of instruction in communications consisting of oral communication and technological applications that includes a course in speech, a course in debate, or a sequence of instructional activities that meet the Idaho Speech Content Standards requirements. (3-29-10)

d. Mathematics. Six (6) credits are required. Secondary mathematics includes Applied Mathematics, Business Mathematics, Algebra, Geometry, Trigonometry, Fundamentals of Calculus, Probability and Statistics, Discrete Mathematics, and courses in mathematical problem solving and reasoning. AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering courses may also be counted as a mathematics credit if the student has completed Algebra II standards. Students who choose to take AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering may not concurrently count such courses as both a math and science credit. (3-12-14)

i. Students must complete secondary mathematics in the following areas: (3-12-14)

(1) Two (2) credits of Algebra I or courses that meet the Idaho Algebra I Content Standards as approved by the State Department of Education; (3-29-10)

(2) Two (2) credits of Geometry or courses that meet the Idaho Geometry Content Standards as approved by the State Department of Education; and (3-29-10)

(3) Two (2) credits of mathematics of the student’s choice. (3-29-10)

ii. Two (2) credits of the required six (6) credits of mathematics must be taken in the last year of high school in which the student intends to graduate. For the purposes of this subsection, the last year of high school shall include the summer preceding the fall start of classes. Students who return to school during the summer or the following fall of the next year for less than a full schedule of courses due to failing to pass a course other than math
are not required to retake a math course as long as they have earned six (6) credits of high school level mathematics. (3-12-14)

iii. Students who have completed six (6) credits of math prior to the fall of their last year of high school, including at least two (2) semesters of an Advanced Placement or dual credit calculus or higher level course, are exempt from taking math during their last year of high school. High School math credits completed in middle school shall count for the purposes of this section. (3-12-14)

e. Science. Six (6) credits are required, four (4) of which will be laboratory based. Secondary sciences include instruction in applied sciences, earth and space sciences, physical sciences, and life sciences. Up to two (2) credits in AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering may be used as science credits. Students who choose to take AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering may not concurrently count such courses as both a math and science credit. (3-12-14)

i. Secondary sciences include instruction in the following areas: biology, physical science or chemistry, and earth, space, environment, or approved applied science. Four (4) credits of these courses must be laboratory based. (3-12-14)

f. Social Studies. Five (5) credits are required, including government (two (2) credits), United States history (two (2) credits), and economics (one (1) credit). Courses such as geography, sociology, psychology, and world history may be offered as electives, but are not to be counted as a social studies requirement. (3-29-10)

g. Humanities. Two (2) credits are required. Humanities courses include instruction in visual arts, music, theatre, dance, or world language aligned to the Idaho content standards for those subjects. Other courses such as literature, history, philosophy, architecture, or comparative world religions may satisfy the humanities standards if the course is aligned to the Idaho Interdisciplinary Humanities Content Standards. (3-29-10)

h. Health/Wellness. One (1) credit is required. Course must be aligned to the Idaho Health Content Standards. Effective for all public school students who enter grade nine (9) in Fall 2015 or later, each student shall receive a minimum of one (1) class period on psychomotor cardiopulmonary resuscitation (CPR) training as outlined in the American Heart Association (AHA) Guidelines for CPR to include the proper utilization of an automatic external defibrillator (AED) as part of the Health/Wellness course. (3-12-14)

i. Students participating in one (1) season in any sport recognized by the Idaho High School Activities Association or club sport recognized by the local school district, or eighteen (18) weeks of a sport recognized by the local school district may choose to substitute participation up to one (1) credit of physical education. Students must show mastery of the content standards for Physical Education in a format provided by the school district. (3-12-14)

02. Content Standards. Each student shall meet locally established subject area standards (using state content standards as minimum requirements) demonstrated through various measures of accountability including examinations or other measures. (3-29-10)

03. College Entrance Examination. (Effective for all public school students who enter grade nine (9) in Fall 2012 or later.) (3-12-14)

a. A student must take one (1) of the following college entrance or placement examinations before the end of the student’s eleventh grade year: SAT, ACT, or Compass. A student who misses the statewide administration of the college exam during the student's grade eleven (11) for one (1) of the following reasons, may take the examination during their grade twelve (12) to meet this requirement: (3-12-14)

i. Transferred to an Idaho school district during grade eleven (11); (3-12-14)

ii. Was homeschooled during grade eleven (11); or (3-12-14)

iii. Missed the spring statewide administration of the college entrance exam dates for documented
medical reasons. (3-12-14)

b. A student may elect an exemption in grade eleven (11) from the college entrance exam requirement if the student is:

i. Enrolled in a special education program and has an Individual Education Plan (IEP) that specifies accommodations not allowed for a reportable score on the approved tests; (3-12-14)

ii. Enrolled in a Limited English Proficient (LEP) program for three (3) academic years or less; or (3-12-14)

iii. Enrolled for the first time in grade twelve (12) at an Idaho high school after the spring fall statewide administration of the college entrance exam. (3-12-14)(_____)

c. Students who are eligible to take an alternate assessment may take the ACCUPLACER Placement exam during their senior year to meet the college entrance exam graduation requirement. (3-12-14)

c. Students who are eligible to take an alternate assessment may take the ACCUPLACER Placement exam during their senior year to meet the college entrance exam graduation requirement. (3-12-14)

04. Senior Project. A student must complete a senior project by the end of grade twelve (12). The project must include a written report and an oral presentation. Additional requirements for a senior project are at the discretion of the local school district or LEA. (3-12-14)

05. Middle School. A student will have met the high school content and credit area requirement for any required high school course if:

a. The student completes such course with a grade of C or higher before entering grade nine (9); (3-12-14)

b. The course meets the same content standards that are required in high school; and (3-12-14)

c. The course is taught by a properly certificated teacher who meets the federal definition of highly qualified for the course being taught. (3-12-14)

d. The student shall be given a grade for the successful completion of that course and such grade and the number of credit hours assigned to the course shall be transferred to the student's high school transcript. Courses taken in middle school appearing in the student's high school transcript, pursuant to this subsection, shall count for the purpose of high school graduation. However, the student must complete the required number of credits in all high school core subjects as identified in Subsections 105.01.c. through 105.01.h. except as provided in 105.01.d.iii. (3-12-14)

06. Proficiency. Each student must achieve a proficient or advanced score on the grade ten (10) Idaho Standards Achievement Test (ISAT) in math, reading and language usage in order to graduate. Students who receive a proficient or advanced score on the grade ten (10) ISAT while in grade nine (9) may bank the score for purposes of meeting their graduation requirement. A student who does not attain at least a proficient score prior to graduation may appeal to the school district or LEA, and will be given an opportunity to demonstrate proficiency of the content standards through some other locally established plan. School districts or LEAs shall adopt an alternate plan and provide notice of that plan to all students who have not achieved a proficient or advanced score on the Grade 10 Idaho Standards Achievement Test by the fall semester of the student’s junior year. All locally established alternate plans used to demonstrate proficiency shall be forwarded to the State Board of Education for review and information. Alternate plans must be promptly re-submitted to the Board whenever changes are made in such plans. (3-12-14)

a. Before entering an alternate measure, the student must be: (4-2-08)
i. Enrolled in a special education program and have an Individual Education Plan (IEP); or (3-20-04)

ii. Enrolled in an Limited English Proficient (LEP) program for three (3) academic years or less; or (3-20-04)

iii. Enrolled in the fall semester of the senior year. (3-20-04)

b. The alternate plan must: (4-7-11)

i. Contain multiple measures of student achievement; (4-7-11)

ii. Be aligned at a minimum to tenth grade state content standards; (4-7-11)

iii. Be aligned to the state content standards for the subject matter in question; (4-7-11)

iv. Be valid and reliable; and (4-7-11)

v. Ninety percent (90%) of the alternate plan criteria must be based on academic proficiency and performance. (4-7-11)

c. A student is not required to achieve a proficient or advanced score on the ISAT if: (5-8-09)

i. The student received a proficient or advanced score on an exit exam from another state that requires a standards-based exam for graduation. The state’s exit exam must approved by the State Board of Education and must measure skills at the tenth grade level and be in comparable subject areas to the ISAT; (5-8-09)

ii. The student completes another measure established by a school district or LEA and received by the Board as outlined in Subsection 105.06; or (3-29-10)

iii. The student has an IEP that outlines alternate requirements for graduation or adaptations are recommended on the test; (5-8-09)

iv. The student is considered an LEP student through a score determined on a language proficiency test and has been in an LEP program for three (3) academic years or less; (5-8-09)

d. Those students who will graduate in 2016 and have not received a proficient or advanced score on the ISAT in grade nine (9), will be required to complete an alternative plan for graduation, as designed by the district, including the elements prescribed in Subsection 105.06.b. and may enter the alternate path prior to the fall of their senior year. (3-12-14)

e. Students who graduate in 2017 are required to complete the ISAT in grade eleven (11) in mathematics and English language usage. (____)

f. Students who graduate in 2018 are required to pass the ISAT in grade eleven (11) in mathematics and English language usage at a grade nine (9) proficiency level. (____)

g. Students who graduate in 2019 are required to pass the ISAT in grade eleven (11) in mathematics and English language usage at a grade ten (10) proficiency level. (____)

h. Students who graduate in 2020 are required to pass the ISAT in grade eleven (11) in mathematics and English language usage at a college and career level proficiency of grade eleven (11). (____)

i. Beginning with the class of 2018, any student who passes the ISAT in mathematics and English language usage at a grade eleven (11) proficiency level while in grade nine (9) or grade ten (10) shall not be required to take the ISAT again. (____)
Students who graduate beginning in 2017 are required to complete an End of Course Assessment (EOC) provided by the state in either biology or chemistry after completion of the course.

Beginning with the class of 2019, students are required to pass an End of Course Assessment in biology or chemistry.

07. Special Education Students. A student who is eligible for special education services under the Individuals With Disabilities Education Improvement Act must, with the assistance of the student’s Individualized Education Program (IEP) team, refer to the current Idaho Special Education Manual for guidance in addressing graduation requirements.

08. Foreign Exchange Students. A foreign exchange student may be eligible for graduation by completing a comparable program as approved by the school district or LEA.

College & Career Ready Graduation Requirements

Class of 2017: Takes ISAT in 11th grade, no passing requirement

Class of 2018: Takes ISAT in 11th grade, must pass with 9th grade level

Class of 2019: Takes ISAT in 11th grade, must pass with 10th grade level

Class of 2020: Takes ISAT in 11th grade, must pass with 11th grade level

*Any student who passes the ISAT in high school at the 11th grade college & career ready level will be exempt from future tests.
SUBJECT
Temporary and Proposed Rule - IDAPA 08.02.03.111 - Rules Governing Thoroughness.

REFERENCE
May 8, 2009 Board approved Rule for accommodations or adaptions for Limited English Proficient (LEP) students
June 16, 2014 Board approved Proposed Rule amendment for clarification and accuracy of the terms identified by the Smarter Balanced Assessment Consortium. Those terms are designated supports and/or accommodations for LEP students.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Administrative code, IDAPA 08.02.03.111

BACKGROUND/DISCUSSION
IDAPA rule 08.02.03.111.04.c – Assessment in the Public Schools. The use of accommodations/adaptions for LEP students must accurately reflect the Designated Supports and Accommodations as referenced in the Smarter Balanced Assessment Consortium (SBAC) guidelines. Changes are made to require that if a need for designated supports and/or accommodation is indicated in the LEP student’s Educational Learning Plan (ELP), they will be provided at for the assessment. In addition, science end of course assessments have been added to the list of required assessments.

IMPACT
If approved, students will continue to have an Educational Learning Plan with designated supports and accommodations for use in daily classroom and for the annual ISAT assessment that align with the Smarter Balanced Assessment Consortium guidelines. There will be no noticeable change for students by removing the previous language. In addition, high school students will take an End of Course assessment in biology or chemistry in lieu of the science Idaho Standards Achievement Tests. This will not increase state testing, but will rather replace the previous science test to a more appropriate measure of student understanding.

BOARD ACTION
I move to approve the Temporary and Proposed Rule change to IDAPA 08.02.03.111 – Assessment in the Public Schools, as submitted.

Moved by __________ Seconded by __________ Carried Yes ______ No______
111. ASSESSMENT IN THE PUBLIC SCHOOLS.

01. Philosophy. Acquiring the basic skills is essential to realization of full educational, vocational and personal/social development. Since Idaho schools are responsible for instruction in the basic scholastic skills, the State Board of Education has a vested interest in regularly surveying student skill acquisition as an index of the effectiveness of the educational program. This information can best be secured through objective assessment of student growth. The State Board of Education will provide oversight for all components of the comprehensive assessment program. (4-2-08)

02. Purposes. The purpose of assessment in the public schools is to: (3-15-02)

a. Measure and improve student achievement; (3-15-02)

b. Assist classroom teachers in designing lessons; (3-15-02)

c. Identify areas needing intervention and remediation, and acceleration; (3-15-02)

d. Assist school districts in evaluating local curriculum and instructional practices in order to make needed curriculum adjustments; (3-15-02)

e. Inform parents and guardians of their child’s progress; (3-15-02)

f. Provide comparative local, state and national data regarding the achievement of students in essential skill areas; (3-15-02)

g. Identify performance trends in student achievement across grade levels tested and student growth over time; and (3-15-02)

h. Help determine technical assistance/consultation priorities for the State Department of Education. (3-15-02)

03. Content. The comprehensive assessment program will consist of multiple assessments, including, the Idaho Reading Indicator (IRI), the National Assessment of Educational Progress (NAEP), the Idaho English Language Assessment, the Idaho Standards Achievement Tests (ISAT), the Idaho Alternate Assessment, and a college entrance exam. (3-29-12)

04. Testing Population. All students in Idaho public schools, grades kindergarten through twelve (K-12), are required to participate in the comprehensive assessment program approved by the State Board of Education and funded. (4-2-08)

a. All students who are eligible for special education shall participate in the statewide assessment program. (4-6-05)

b. Each student’s individualized education program team shall determine whether the student shall participate in the regular assessment without accommodations, the regular assessment with accommodations or adaptations, or whether the student qualifies for and shall participate in the alternate assessment. (4-6-05)
c. Limited English Proficient (LEP) students, as defined in Subsection 112.04.d.iv., who receive a score below the fluent level on the Idaho English Language Assessment and have an Education Learning Plan (ELP), shall be given the ISAT with accommodations or adaptations as outlined in the ELP. Students can be categorized as LEP students for two (2) years after testing proficient on the language proficiency test and exiting the LEP program. LEP students who do not have an ELP or a language acquisition score will be given the regular ISAT without accommodations or adaptations. may receive designated supports and/or accommodations for the ISAT assessment, if need has been indicated by the LEP student’s Educational Learning Plan (ELP) team. The team shall outline the designated supports and/or accommodations in an ELP prior to the assessment administration. Designated supports and/or accommodations shall be familiar to the student and used throughout the school year during instruction and for other assessments. LEP students who are enrolled in their first year of school in the United States may take the IELA in lieu of the ISAT, but will still be required to take the ISAT (Mathematics and Science). ISAT with accommodations or adaptations as determined by the language proficiency score and ELP. Such LEP students will be counted as participants for the ninety-five percent (95%) participation target, as described in Subsection 112.04. However, such LEP students are not required to be counted for AYP accountability purposes in determining proficiency, as described in Subsection 112.03. (5-8-09)

05. Scoring and Report Formats. Scores will be provided for each subject area assessed and reported in standard scores, benchmark scores, or holistic scores. Test results will be presented in a class list report of student scores, building/district summaries, content area criterion reports by skill, disaggregated group reports, and pressure sensitive labels as appropriate. Information about the number of students who are eligible for special education who participate in regular and alternate assessments, and their performance results, shall be included in reports to the public if it is statistically sound to do so and would not disclose performance results identifiable to individual students. (4-7-11)

a. Effective April 1, 2009, all students taking the Idaho Standards Achievement Test (ISAT) must have a unique student identifier. (4-7-11)

b. Districts must send all assessment results and related communication to parents within three (3) weeks of receipt from the state. (4-7-11)

06. Comprehensive Assessment Program. The State approved comprehensive assessment program is outlined in Subsections 111.06.a. through 111.06.l. Each assessment will be comprehensive of and aligned to the Idaho State Content Standards it is intended to assess. In addition, districts are responsible for writing and implementing assessments in those standards not assessed by the state assessment program. (4-2-08)

a. Kindergarten - Idaho Reading Indicator, Idaho Alternate Assessment, Idaho English Language Assessment. (4-2-08)

b. Grade 1 - Idaho Reading Indicator, Idaho Alternate Assessment, Idaho English Language Assessment. (4-2-08)

c. Grade 2 - Idaho Reading Indicator, Grade 2 Idaho Standards Achievement Tests, Idaho Alternate Assessment, Idaho English Language Assessment. (4-2-08)

d. Grade 3 - Idaho Reading Indicator, Grade 3 Idaho Standards Achievement Tests, Idaho Alternate Assessment, Idaho English Language Assessment. (4-2-08)

e. Grade 4 - National Assessment of Educational Progress, Grade 4 Idaho Standards Achievement Tests, Idaho Alternate Assessment, Idaho English Language Assessment. (3-29-12)

f. Grade 5 - Grade 5 Idaho Standards Achievement Tests, Idaho Alternate Assessment, Idaho English Language Assessment. (3-29-12)

g. Grade 6 - Grade 6 Idaho Standards Achievement Tests, Idaho Alternate Assessment, Idaho English Language Assessment. (3-29-12)
h. Grade 7 - Grade 7 Idaho Standards Achievement Tests, Idaho Alternate Assessment, Idaho English Language Assessment. (3-29-12)

i. Grade 8 - National Assessment of Educational Progress, Grade 8 Idaho Standards Achievement Tests, Idaho Alternate Assessment, Idaho English Language Assessment. (3-29-12)

j. Grade 9 - Grade 9 Idaho Standards Achievement Tests, Idaho Alternate Assessment, Idaho English Language Assessment. (3-29-12)

k. Grade 10 - High School Idaho Standards Achievement Tests, Idaho Alternate Assessment, Idaho English Language Assessment. (4-2-08)

l. Grade 11 - High School Idaho Standards Achievement Tests (as applicable), Idaho English Language Assessment, college entrance exam. (3-29-12) (___)

m. Grade 12 - National Assessment of Educational Progress, Idaho English Language Assessment. (4-2-08)

n. Students who complete biology or chemistry are required to take an End of Course Assessment provided by the state and administered by the district. (___)

n.o. Students who achieve a proficient or advanced score on a portion or portions of the ISAT, or the Idaho Alternate Assessment, offered in their tenth grade year or later are not required to continue taking that portion or portions. (5-8-09) (___)

07. Comprehensive Assessment Program Schedule. (5-3-03)

a. The Idaho Reading Indicator will be administered in accordance with Section 33-1614, Idaho Code. (3-15-02)

b. The National Assessment of Educational Progress will be administered in timeframe specified by the U.S. Department of Education. (3-15-02)

c. The Idaho Standards Achievement Tests will be administered twice annually in the Fall and Spring in a time period specified by the State Board of Education. (5-3-03)

d. The Idaho Alternate Assessment will be administered in a time period specified by the State Board of Education. (4-2-08)

e. The Idaho English Language Assessment will be administered in a time period specified by the State Board of Education. (4-2-08)

08. Costs Paid by the State. Costs for the following testing activities will be paid by the state: (4-1-97)

a. All consumable and non-consumable materials needed to conduct the prescribed statewide comprehensive assessment program; (3-15-02)

b. Statewide distribution of all assessment materials; and (3-29-12)

c. Processing and scoring student response forms, distribution of prescribed reports for the statewide comprehensive assessment program. (3-29-12)

09. Costs of Additional Services. Costs for any additional administrations or scoring services not included in the prescribed statewide comprehensive assessment program will be paid by the participating school districts. (3-15-02)
10. **Services.** The comprehensive assessment program should be scheduled so that a minimum of instructional time is invested. Student time spent in testing will not be charged against attendance requirements. (3-15-02)

11. **Test Security, Validity and Reliability.** Test security is of the utmost importance. To ensure integrity of secure test items and protect validity and reliability of test outcomes, test security must be maintained. School districts will employ security measures in protecting statewide assessment materials from compromise. Each individual who has any opportunity to see test items must sign a state-provided confidentiality agreement, which the district must keep on file in the district for at least two (2) years. Documentation of security safeguards must be available for review by authorized state and federal personnel. (4-2-08)

a. All ISAT paper and pencil test booklets will be boxed and shipped to the test vendor to be counted no later than two (2) weeks after the end of the testing window. (3-20-04)

b. The ISAT will be refreshed each year to provide additional security beginning with grades four (4) eight (8) and ten (10) in 2007. Items will be refreshed for grades three (3) and seven (7) in 2008; grades five (5) and six (6) in 2009; and grades two (2) and nine (9) in 2010. (3-20-04)

c. Any assessment used for federal reporting shall be independently reviewed for reliability, validity, and alignment with the Idaho Content Standards. (4-2-08)

12. **Demographic Information.** Accurate demographic information must be submitted as required for each test to assist in interpreting test results. It may include but is not limited to race, sex, ethnicity, and special programs, (Title I, English proficiency, migrant status, special education status, gifted and talented status, and socio-economic status). (4-2-08)

13. **Dual Enrollment.** For the purpose of non-public school student participation in non-academic public school activities as outlined in Section 33-203, Idaho Code, the Idaho State Board of Education recognizes the following: (3-15-02)

a. The Idaho Standards Achievement Tests (grades 3-9 and High School). (3-29-12)

b. A portfolio demonstrating grade level proficiency in at least five (5) of the subject areas listed in Subsections 111.13.b.i. through 111.13.b.vi. Portfolios are to be judged and confirmed by a committee comprised of at least one (1) teacher from each subject area presented in the portfolio and the building principal at the school where dual enrollment is desired. (4-6-05)

i. Language Arts/Communications. (3-15-02)

ii. Math. (3-15-02)

iii. Science. (3-15-02)

iv. Social Studies. (3-15-02)

v. Health. (3-15-02)

vi. Humanities. (3-15-02)
SUBJECT
Temporary and Proposed Rule - IDAPA 08.02.03.112 – Rules Governing Thoroughness

REFERENCE
April 6th, 2005          Board approved Rule for definition of Limited English Proficient (LEP)
June 16th, 2014         Board approved Proposed Rule amendment for clarification and accuracy in definition for Limited English Proficient (LEP)

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Administrative code, IDAPA 08.02.03.112

BACKGROUND/DISCUSSION
The proposed revisions to IDAPA08.02.03.112.04.d.iv – Accountability, is to clarify that a limited English proficient (LEP) student is a student who does not score “proficient” on the approved test and meets one of the other listed criteria.

IMPACT
If approved, districts will have a uniform definition for LEP students. The impact for students is great, as the current language is arbitrary and could limit the number of students who are identified as LEP.

ATTACHMENTS
Attachment 1 - Proposed Rule changes to 08.02.03.112.04.d.iv

BOARD ACTION
I move to approve the Temporary and Proposed rule amendment to IDAPA 08.02.03.112. – Accountability, as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No______
112. ACCOUNTABILITY.
The provisions in this section apply for the purposes of meeting the “No Child Left Behind” Act and the state of Idaho accountability requirements. (3-20-04)

01. ISAT Student Achievement Levels. There are four (4) levels of student achievement for the ISAT: Below Basic, Basic, Proficient, and Advanced. Definitions for these levels of student achievement are adopted by reference in Subsection 004.05. (4-2-08)

02. IELA Language Proficiency Levels. There are five (5) levels of language proficiency for students testing on the Idaho English Language Assessment: beginning, advanced beginning, intermediate, early fluent, and fluent. Definitions for these levels of language proficiency are adopted by reference in Subsections 004.02 and 004.04. (4-2-08)

03. Adequate Yearly Progress (AYP).

a. Proficiency is defined as the number of students scoring proficient or advanced on the spring on-grade level ISAT. (3-20-04)

b. The State Department of Education will make AYP determinations for schools and districts each year. Results will be given to the districts at least one (1) month prior to the first day of school. (4-7-11)

c. The baseline for AYP will be set by the Board and shall identify the amount of growth (percentage of students reaching proficiency) required for each intermediate period.

04. Adequate Yearly Progress (AYP) Definitions. For purposes of calculating and reporting adequate yearly progress, the following definitions shall be applied. (3-20-04)

a. Full Academic Year (continuous enrollment).

i. A student who is enrolled continuously in the same public school from the end of the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included in the calculation to determine if the school achieved AYP in proficiency. A student is continuously enrolled if he/she has not transferred or dropped-out of the public school. Students who are serving suspensions are still considered to be enrolled students. (4-7-11)

ii. A student who is enrolled continuously in the school district from the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included when determining if the school district has achieved AYP. (4-2-08)

iii. A student who is enrolled continuously in a public school within Idaho from the end of the first eight (8) weeks or fifty-six (56) calendar days of the school year through the state approved spring testing administration period, not including the make-up portion of the test window, will be included when determining if the state has achieved AYP. (4-2-08)

b. Participation Rate. (3-20-04)

i. Failure to include ninety-five percent (95%) of all students and ninety-five percent (95%) of
students in designated subgroups automatically identifies the school as not having achieved AYP. The ninety-five percent (95%) determination is made by dividing the number of students assessed on the Spring ISAT by the number of students reported on the class roster file for the Spring ISAT.

(3-20-04)

(1) If a school district does not meet the ninety-five percent (95%) participation target for the current year, the participation rate can be calculated by the most current three (3) year average of participation. (4-6-05)

(2) Students who are absent for the entire state-approved testing window because of medical reasons or are homebound are exempt from taking the ISAT if such circumstances prohibit them from participating. Students who drop out, withdraw, or are expelled prior to the beginning of the final makeup portion of the test window are considered exited from the school. (4-7-11)

ii. For groups of ten (10) or more students, absences for the state assessment may not exceed five percent (5%) of the current enrollment or two (2) students, whichever is greater. Groups of less than ten (10) students will not have a participation determination. (3-20-04)

c. Schools.

i. An elementary school includes a grade configuration of grades Kindergarten (K) through six (6) inclusive, or any combination thereof. (3-20-04)

ii. A middle school is a school that does not meet the definition of an elementary school and contains grade eight (8) but does not contain grade twelve (12). (4-6-05)

iii. A high school is any school that contains grade twelve (12). (3-20-04)

iv. The accountability of public schools without grades assessed by this system (i.e., K-2 schools) will be based on the third grade test scores of the students who previously attended that feeder school. (3-20-04)

v. A “new school” for purposes of accountability is a wholly new entity receiving AYP determinations for the first time, or a school with a significant student population change as a result of schools being combined or geographic boundaries changing, or a result of successful school restructuring sanctioned by the Office of the State Board of Education. (4-7-11)

d. Subgroups. Scores on the ISAT must be disaggregated and reported by the following subgroups:

(3-20-04)

i. Race/Ethnicity - Black/African American, Asian, Native Hawaiian/Pacific Islander, White, Hispanic/Latino Ethnicity, American Indian/Alaska Native. (3-20-04)

ii. Economically disadvantaged - identified through the free and reduced lunch program. (3-20-04)

iii. Students with disabilities - individuals who are eligible to receive special education services through the Individuals with Disabilities Education Act (IDEA). (3-20-04)

iv. Limited English Proficient - individuals who do not score proficient on the state-approved language proficiency test and meet one of the following criteria: (4-6-05)

(1) Individuals whose native language is a language other than English; or (4-6-05)

(2) Individuals who come from environments where a language other than English is dominant; or (4-6-05)

(3) Individuals who are American Indian and Alaskan natives and who come from environments where a language other than English has had a significant impact on their level of English language proficiency, and who, by reason thereof, have sufficient difficulty speaking, reading, writing, or understanding the English language.
to deny such individuals the opportunity to learn successfully in classrooms, where the language of instruction is English.  

(4-6-05)

e. Graduation Rate. The State Board of Education will establish a target for graduation. All high schools must meet the target or make sufficient progress toward the target each year, as determined by the State Board of Education. The graduation rate will be disaggregated by the subpopulations listed in Subsection 112.04.d. in the event the “safe harbor” is invoked by the school/district.  

(4-7-11)

f. Additional Academic Indicator. The State Board of Education will establish a target for an additional academic indicator. All elementary and middle schools must maintain or make progress toward the additional academic indicator target each year. The additional academic indicator target will be disaggregated by the subpopulations listed in Subsection 112.04.d. in the event the “safe harbor” is invoked by the school/district. By 2014, the schools/districts must meet the target.

05. Annual Measurable Achievement Objectives (AMAOs). Local school districts are responsible for ensuring district progress of Limited English Proficient (LEP) students in their acquisition of English. Progress and proficiency are measured by the IELA and determined based on three (3) AMAOs:  

(4-2-08)

a. Annual increases in the percent or number of LEP students making progress in acquiring English language proficiency;  

(4-2-08)

b. Annual increases in the percent or number of LEP students attaining English language proficiency by the end of the school year; and  

(4-2-08)

c. Each school district must make Adequate Yearly Progress for LEP students on the spring ISAT.  

(4-2-08)
SUBJECT
Temporary and Proposed Rule IDAPA 08.02.03.115 – New student data elements for inclusion in the state student data system

APPLICABLE STATUTE, RULE, OR POLICY
Section 33-133, Idaho Code

BACKGROUND/DISCUSSION
During the 2014 Legislative Session, Senate Bill 1372 was passed that included an emergency clause, becoming Section 33-133, Idaho Code. The law provides the following criteria for student data elements proposed for inclusion in the student data system: (1) any new student data collection proposed by the Idaho State Board of Education becomes a provisional requirement to allow districts and their local data system vendors the opportunity to meet the new requirement; and (2) the Idaho State Board of Education must submit any new provisional student data collection to the governor and the legislature for their approval within one (1) year in order to make the new student data a permanent requirement through the administrative rule process.

The data elements necessary for inclusion in the 2014-2015 school year are all additions to the monthly Idaho System for Educational Exchange (ISEE) data upload. One is an addition to the “Student Demographics” file and the other four are additions to the “Student Course Enrollment File.” Four of the five proposed data elements support the changes made within the Advanced Opportunities (previously titled Dual Credit for Early Completers) program outlined in Section 33-1626, Idaho Code, which is designed for students who have completed the state high school graduation requirements, with the exception of the senior project and math in the final year of high school, by no later than the beginning of the their final semester or trimester.

Advanced Opportunities
Specific data elements include:
1. New field in the Student Demographics file to indicate if the student is private or home schooled. This new field is a yes/no flag indicating if the student is private or home schooled for the majority of their education and also currently enrolled taking one or more courses at a school district.
2. New field in the Student Course Enrollment file to indicate the name of the provider school.
3. New field in the Student Course Enrollment file to indicate the name of the instructor.
4. New field in the Student Course Enrollment file to indicate if the course provides an examination that provides college credit bearing qualifications at the end of the course.
5. New field in the Student Course Enrollment file to indicate what type of college credit bearing examination is taken for the course.
Private or Home Schooled Flag:
The purpose for the addition is to separate the current “PH” (indicating the student was a private or home schooled student) grade level option set so that students can be identified as whether they are a private/homeschooled student as well as the proper grade level for testing. This additional item is requested by the Public School Finance Team for correct allocation of funds.

Provider School Name:
The purpose for the addition is to indicate the name of the institution that is providing instruction of a non-regular course, i.e. virtual or distance education. The field is necessary to collect the public or private out-of-state or private in-state institutions where students may be taking courses under the dual credit and/or $200/$400 reimbursement programs. Institutions issuing credit must be accredited by a recognized higher education accrediting body. This addition item has been required by the Advanced Opportunities team for use in accurate calculation of payments for the programs.

Provider Instructor Name:
The purpose for the addition is to indicate the name of the actual instructor within an institution that is providing instruction of a non-regular course, i.e. virtual or distance education. The field is necessary to collect the public or private out-of-state or private in-state institutions where students may be taking courses under the dual credit and/or $200/$400 reimbursement programs. Not only must institutions issuing the credit must be an accredited institution, but also the actual instructor must be highly qualified to instruct the class and have the necessary articulation agreements in place to issue college credits. This additional item is required by the Advanced Opportunities team for use in accurate calculation of payments for the programs.

Examination to be taken flag:
The purpose for the addition is to add a flag (yes/no) to indicate if a course has a specific examination that requires payment to sit for the examination. The field is necessary to identify and calculate the examination reimbursement payments for dual credit and/or the $200/$400 reimbursement programs. This additional item is required by the Advanced Opportunities team for use in the accurate calculation of payments for the program.

Examination Type:
The purpose for the addition is to add a field that will collect the type of college credit bearing examination that a student is taking. An option set has been established for districts to choose which type of examination is associated with a specific Advanced Opportunity course. The field is necessary to identify the type of examination and the payment necessary for the students taking the examination. This additional item is required by the Advanced Opportunities team for use in the accurate calculation of payment for the program.
IMPACT

The new data elements will provide the information necessary to accurately identify students, staff and educational institutions participating in various programs offered by the Idaho State Department of Education. It will also provide the information necessary to calculate the accurate payments to be sent to the school districts to reimburse students and/or parents for the associated costs with the programs.

BOARD ACTION

I move to approve the Temporary and Proposed rule amendments to IDAPA 08.02.03, as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
115. **DATA COLLECTION.**

The State Department of Education will collect the required information from participating school files for state and federal reporting and decision-making. The enrollment data collection will contain all data as listed on the State Department of Education’s website under “required data elements” information about the enrollment of the student attributes such as unique student identifier, active special education, Limited English Proficient (LEP), migrant, grade level, gender, race, and free/reduced lunch status. The collection will be done monthly for any period of time in which students are receiving educational instruction or services provided by a state public school and/or charter in mid-October, early February, and May (end of the testing window). Each participating school is required to verify and assure the accuracy and completeness of the data submitted in the files.

(5-8-09)(____)

---

01. **NEW DATA ELEMENTS IN STATE STUDENT DATA SYSTEM**

To meet the requirements of Idaho Code 33-133.3 the following data elements will be added to the monthly ISEE data upload beginning in the 2014-2015 school year.

a. **Private or Home Schooled Flag in the Student Demographics File.** To indicate if the student is Private or Home Schooled as well as proper grade level for testing for use in correct allocation of funds. (____)

b. **Provider School Name Field in the Student Course Enrollment File.** To indicate the name of the institution providing instruction of a non-regular course, i.e. virtual or distance education. For use in accurate calculation of payment for Advanced Opportunity Program payments. (____)

c. **Instructor Name Field in the Student Course Enrollment File.** To indicate the name of the actual instructor within an institution that is providing instruction of a non-regular course, i.e. virtual or distance education. For use in accurate calculation for Advanced Opportunity Program payments. (____)

d. **Examination to be Taken Flag in the Student Course Enrollment File.** To indicate if a course has a specific examination that requires payment to sit for the examination. To identify and accurately calculate the examination reimbursement payments for the Advanced Opportunities Program. (____)

e. **Examination Type Field in the Student Course Enrollment File.** To collect the type of college credit bearing examination that a student is associated with a specific Advanced Opportunity course to identify the type of examination and the payment necessary as part of the Advanced Opportunity Program to accurately calculate payment for the program. (____)

SUBJECT
Proposed Amendments to Idaho’s ESEA Flexibility Amendment

REFERENCE
February 16, 2012  State Board Approval of First Draft of ESEA Waiver
October 17, 2012  The U.S. Department of Education approves Idaho’s ESEA Waiver
February 18, 2014  The U.S. Department of Education approved a one-year waiver for 2013-2014 to allow all schools to field test.
June 19, 2014  State Board Approves Idaho’s revisions to the ESEA Waiver as it relates to educator evaluations and school improvement plans.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Administrative Code, IDAPA 08.02.03.112 - Accountability

BACKGROUND/DISCUSSION
On February 18th, 2014 the US Department of Education approved a one-year waiver for 2013-2014 to allow schools to field test all students, except those eligible for alternate assessments based on alternate achievement standards, on assessments developed by the Smarter Balanced Assessment Consortium in lieu of Idaho Standards Achievement Tests which were no longer in aligned to current standards. Because the field test was intended for cut-score setting, no scores and proficiency levels were provided for 2013-2014.

Star Rating System and School Improvement Status
The Elementary Secondary Act (ESEA) Flexibility Waiver was initially approved by the US Department of Education in 2012. The waiver allowed Idaho to create a new accountability system, a Five-Star Rating system, to measure school performance based on multiple measures including growth to standards.

The possible impact of missing 2013-2014 scores on the system has been discussed with the Star Rating Committee, comprised of 17 stakeholders including principals, superintendents, and testing coordinators. The committee has met multiple times over the past year and has reviewed the proposal the Board is now considering.

Because of the missing scores, annual student growth percentiles (SGP) cannot be calculated, although technically biennial growth (using two years of data) can be calculated. However, evaluating annual school performance using biennial growth was determined to be neither preferable, nor acceptable because of multiple factors. Additionally, removing the growth to standards measure from
the system, due to the missing annual student growth could result in loss of system credibility. As a result, the Star Rating Committee and the Department recommended that no star rating to be calculated in 2014-2015. This will allow star ratings to reset in 2015-2016 when both adequate yearly growth and student growth can be calculated.

Even with the suspension of Star Rating determinations, Idaho will maintain a single accountability system for all schools, see Attachment 1. Priority, Focus, and High Achieving Reward schools will continue to be identified in 2014-2015. All schools are still held accountable of meeting Annual Measurable Objectives (AMOs), Annual Achievement Gaps (AAGs), 95 percent participation rates, and new cohort graduation rate target. Based on the school improvement status, schools are required to write and implement different levels of plans.

There will be public reporting of all other elements in the star rating including proficiency, graduation rates, advanced opportunities, and SAT scores.

If approved, the plan will be sent to the US Department of Education as a waiver to Idaho’s approved ESEA Flexibility Waiver. In addition, the Department continues to meet with the Star Rating Committee and will bring changes to calculations to the 2015-2016 Star Rating system to the State Board of Education in October.

**IMPACT**

If not approved by the State Board of Education, Star Ratings will be invalid as adequate growth will not be able to calculated, which could result in loss of system credibility.

If approved, cut scores will be gradually introduced for graduation requirement purposes.

**BOARD ACTION**

I move to approve Idaho’s addendum for the ESEA Flexibility Waiver as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
Accountability SY 2014-2015

Divisions of Assessment, Accountability and School Improvement

Proposed Star Rating and Growth Recommendations

- No Star Rating Calculation for SY1516
  - Allows for resetting the star rating to align to the new standards and new assessments
- No Star Rating Carryover from SY1213
  - This rating reflects old standards and the old tests
- Calculate Biennial SGP (Student Growth Percentile)
- Create Student Growth Report
- Equate Smarter Balanced Scores to ISAT
Growth

Growth Review - SGP

• With 2015 Smarter Balanced scores,
  – Biennial Student Growth Percentile (SGP) can be calculated
    • Peers are formed based on previous years’ ISAT math and reading test scores
      – Correlation of 0.93 between ISAT reading and ISAT Language Usage
    • Some states have always calculated biennial growth between 8th and 10th grade
Growth Review - AGP

- With 2015 Smarter Balanced scores,
  - Adequate Growth Percentile (AGP) cannot be calculated
  - In order to make growth predictions, we first need to understand the probability distribution and growth toward proficiency

Calculating Biennial SGP

- Pros:
  - Positive Growth (1st through 99th Percentile)
  - Progress Indicator of Idaho Core Implementation
  - Independent from Score and Proficiency Level

- Cons:
  - Challenging Interpretation
  - Possible Misuse of Data due to Missing Year and Changing Assessments
    - i.e. Use for Teacher Evaluation, Accountability Ratings
  - Possible Technical Difficulties
    - i.e. Measurement Bias, Floor Effect, Subject Changes
School Improvement Status, Priority/Focus/Reward Schools
School Improvement Status Requirements

- Reward: Top 5% of Title I Schools
- Priority: Bottom 5% of Title I Schools
- Focus: Bottom 10% of Title I Schools

- Bottom 40% of all schools will submit a Continuous, Rapid, or Turnaround plan
- Top 60% of all schools that miss the AMO Target(s) will write an AMO Continuous plan

Proposed School Improvement Status Identification Process

1. Rank All Schools based on Some Criteria*
2. SIG School? (yes = no)
3. Top 60%? (yes = no)
4. Met All AMOs? (yes = no)
5. Title I School? (yes = no)
6. Bottom 15%? (yes = no)
7. Bottom 5%? (yes = no)
8. Reward School? (yes = no)
9. No Plan Required

*Reward School is also eligible for Blue Ribbon Award
*Eligible for Distinguished School Award
Other Accountability Discussions

Review of Other Previous Recommendations

- Publish Post Secondary Data on Report Card
  - Graduation Rates, SAT/ACT; Dual Credit/AP, etc.
- Calculate AMO/AAG Targets based on SY1415 ISAT (Smarter Balanced)
  - Annual Measurable Objectives
  - Annual Achievement Gaps
Proposed SY1415 Testing Grade Recommendations

- Grades 3-10 in Math and English language arts
  - This would include a combined score of the computer adaptive test and the performance tasks
- Grade 3-8 and 11 for ISAT-Alt
- Grade 5, 7, for ISAT and ISAT-Alt Science
- EOCs in biology/chemistry

Optional Grade 11 Testing SY1415

- Grade 11 Smarter Balanced
  - Optional for SY14/15
  - College and Career Readiness Measure
  - College Remediation (or not)
  - Peer comparisons across states, not just within Idaho
  - Opportunity for schools to evaluate implementation of standards and preparation of students
College & Career Ready Graduation Requirements

Class of 2017 ➔ Takes ISAT in 11th grade, no passing requirement

Class of 2018 ➔ Takes ISAT in 11th grade, must pass with 9th grade level

Class of 2019 ➔ Takes ISAT in 11th grade, must pass with 10th grade level

Class of 2020 ➔ Takes ISAT in 11th grade, must pass with 11th grade level

*Any student who passes the ISAT in high school at the 11th grade college & career ready level will be exempt from future tests.

Next Steps
Next Steps - 2014

- Present at Superintendents’ Meeting (August 7th)
- August 13, 14 State Board Meeting
- Waiver Addendum (due in early Fall 2014)
- Graduation Rate Goals/Targets Setting (August 2014)
- Achievement Level Setting (October 2014)

Next Steps - 2015

- AMOs/AAGs Targets and Goal Setting (June 2015)
- Equating Smarter Balanced Scores (July 2015)
- Appeals for Accountability (July 2015)
- Release ISAT Scores and ISRs with Growth Reports and Equating Tables (August 2015)
- Update of Report Card Website to Reflect Accountability Changes (August 2015)

Deborah Delisle
Assistant Secretary
400 Maryland Ave., SW
Washington, DC 20202

Dear Assistant Secretary Delisle,

I am writing on behalf of the Idaho State Board of Education (Idaho SBOE) to request to waive certain statutory and regulatory requirements of Title I, Part A of the Elementary and Secondary Education Act of 1965, as amended (ESEA). Specifically, the Idaho SBOE is asking that instead of assigning a Star Rating (Five Star Scale) based on the Spring 2015 Smarter Balanced Assessment (SBA) but that it identify Reward, Focus and Priority Title I schools based on the required achievement expectations as well as report on performance against Annual Measureable Objectives as expected in ESEA sections 1111(h)(1)(C)(ii) and 1111(h)(2)(B). School Improvement expectations going into the 2015-2016 would be based achievement and a chart identifying plan types on the criteria established within Idaho’s Waiver as approved July 15, 2014 (Chart I Attached). Idaho’s Star rating system is based on having Student Growth Percentiles (SGP) and comparing those to Adequate Growth Percentile (AGP) and while the SBA will provide the SGP for individual students the concern for assigning AGP based on two years is a concern for establishing credibility with the system. Idaho State Department of Education will follow ESEA section 1111(b)(3)(C)(xii), which requires the provision of individual student interpretive, descriptive and diagnostic reports that include information regarding achievement on State assessments to parents, teachers and principals as soon as is practically possible after an assessment is given.

Idaho SBOE ensures that at least 95% of all students in tested grades will participate in the SBA or the current alternate assessment for students with the most significant cognitive disabilities in the tested grades. Idaho will also properly notify all LEAs and schools how they will be identified for school improvement for the 2015-2016 school year. In regards to School Improvement plans all Title and Non-Title schools are under one system in Idaho but Title I schools that fall into certain categories are identified as follows in accordance with ESEA Flexibility guidance for Priority, Focus and Reward schools. Chart I that is attached identifies schools in the top 60% based on achievement ranking of the SB Math and English/Language Arts assessments. If you have any questions or would like to have a narrative of the chart and how improvement plans are determine, Idaho would be willing to comply within the Accountability Addendum as well as answer any questions.

IDAHO STATE UNIVERSITY

SUBJECT
Formation of Idaho State University Intellectual Property Foundation, Inc.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Sections V.E. and V.M.
Idaho State Board of Education Institution Technology Licensing Guidelines

BACKGROUND/DISCUSSION

Summary of Proposal
Idaho State University (ISU) requests authority to establish the Idaho State University Intellectual Property Foundation, Inc. (IPF) to facilitate the beneficial use of the ISU’s intellectual property for Idaho and the nation. IPF will take steps to make technology transferred to it from the ISU commercially feasible. This proposal follows nationally competitive and successful approaches to research commercialization.

IPF will work with the ISU to identify technology with commercial potential. Such technology, as represented by intellectual property, will be transferred to IPF pursuant to State Board of Education (State Board) policies. IPF will take steps to commercialize the technology and generate revenue therefrom. Such revenue may result from various sources, including, without limitation, royalties, licenses, operations, and equity positions. The IPF will commercialize ISU technology through licensing agreements drafted in compliance with State Board policy and the Institution Technology Licensing Guidelines. In return for the license, IPF may either receive royalties and/or equity, depending on the circumstances and taking into consideration how to best bring the ISU technology to market. IPF will be prohibited from taking majority ownership positions in companies and will not be involved in the operations of any company in which it holds equity.

ISU will initially support the creation and operation of the IPF through its annual budgeting process. It is anticipated that when it is self-sustaining, IPF will be funded through revenue generated from commercializing ISU’s technology. Initially, IPF’s staff will consist of an Executive Director and a minimum of support personnel. The IPF Board of Directors will be charged with keeping IPF’s operating costs to a minimum.

Rationale
The overarching rationale behind this proposal is to create a mechanism that facilitates and expedites the translation of basic research into the private sector.
It accomplishes this by creating a separate non-profit “intellectual property foundation” that will a) identify potential clients of ISU’s intellectual property (IP), b) facilitate client investment in ISU technology or technology development, and c) commercialize ISU IP via appropriate mechanisms. A major focus of the IPF and its Board of Directors will be to aggressively foster activities that bolster Idaho companies, create new Idaho companies, attract new business opportunities to Idaho, and add jobs to the Idaho economy in a manner consistent with its purpose to support ISU. Furthermore, the IPF Board of Directors will be charged with ensuring that ISU’s research and educational mission is paramount in their decision making process.

Delineation of Functions between Office for Research & Economic Development and Intellectual Property Foundation

The Office for Research and Economic Development (ORED) encourages and assists in the development and protection of IP developed by ISU faculty, staff and students. The office promotes the transfer of technology in an effort to provide benefit and support to ISU’s academic mission, enhance the urban and state economy, and provide general public access to ISU’s IP in a manner that is consistent with the university’s academic principles. The office has the additional mission to identify, develop and establish relationships with business, industry and trade groups (preferably in Idaho, but not limited thereto) for joint programs of mutually beneficial economic impact to both parties and the State of Idaho. The office should not be involved in negotiating business deals with the private sector, in the generation and submission of Small Business Innovation Research/Small Business Technology Transfer (SBIR/STTR) grants, or the formation of new companies.

The ORED has primary responsibility for the following aspects of ISU technology development and transfer:

- Promotes the creation of knowledge through the research programs at ISU;
- Assists the knowledge creators and the university to “package” such created knowledge into manageable units (i.e. IP), and assists research personnel in completing the Invention/Discovery Disclosure Form;
- Provides expertise to the university on actions appropriate to protect the university’s ownership of such IP; and
- Identifies and implements opportunities for extracting value by the successful commercial exploitation of such IP.

The overall goal of the ORED is to promote the development of ISU’s intellectual property and to enable the maximum value therein to be transferred to the commercial and economic community within the state. Recapture of economic or monetary value to the university is important, as such recaptured value enables
the growth and expansion of funded research activities. However, it is of lesser value than the maximization of university contributed economic impact.

**Role of the Intellectual Property Foundation**

The proposed IPF will be an Idaho nonprofit corporation and will apply for tax exempt status under Internal Revenue Code section 501(c)(3). The IPF is proposed to support ISU’s research activities by serving as a resource as ISU secures investments and grants from individuals, private organizations and public agencies, and obtains contracts with such individuals or entities for the performance of sponsored research, development, or other programs by the university. If the IPF helps negotiate research grants or contracts, the grants and contracts will be provided to the university, which is solely responsible for the fiscal administration of the grants. Thus, the research of the university will remain under the domain of ISU providing an important delineation of function.

A board comprised of five directors originally will manage the IPF. Two directors will be ISU employees appointed by ISU’s president and the three remaining directors will be from the private sector. The initial IPF board and successors to the ISU employee directors will be appointed by ISU’s president with successor private-sector directors appointed by the IPF Board of Directors.

The IPF Board of Directors will be charged to protect, as a function of their operational parameters, the best interests of ISU. This includes taking steps to reduce legal exposure and risk to ISU’s reputation and taking steps to maximize revenue transferred to ISU in terms of grants, contracts, and licensing revenue. The means to accomplish this will vary on a case-by-case basis depending on an analysis of a variety of factors such as whether licensing intellectual property, working with an existing company to support research, or using the technology to start a new company best accomplishes the purposes for which the IPF is created. This analysis will also include consideration of the market structure associated with the intellectual property. The expertise of the IPF Board will be essential in determining the best strategy for commercializing the technology.

**Focus on Technology Transfer**

The operating agreement (to be entered into between the IPF and ISU) and the IPF bylaws will expressly require that the IPF abide by applicable State Board policies, procedures, and guidelines, ISU policies, and state and federal law, and act only in a manner consistent with these policies and laws.

In particular, when selecting licensee’s for ISU technology, the IPF will consider whether the potential licensee:

a. has a general business plan that delineates a clear strategy to commercialize the invention
b. has or can secure the technical, financial and personnel resources to develop and commercialize the invention in a timely manner
c. has experience relevant to developing and commercializing the invention
d. has appropriate marketing capabilities
e. possesses a strong desire and commitment to make the technology a success
f. is able to meet any regulatory requirements needed to commercialize the technology
g. has, or can develop, sufficient capacity to satisfy the market demand for the technology
h. demonstrates commitment to ISU’s invention in light of other technologies competing for resources in the company
i. has goals that align with those of ISU with respect to public benefit

IMPACT
ISU will facilitate the creation and operation of the IPF as necessary through its internal budgeting processes until the IPF becomes self-supporting. This support will involve provision of services to the IPF directly and through loaned ISU employees or, when necessary, through the direct expenditure or transfer of funds. If funds are transferred to the IPF by ISU, such transfer will be made pursuant to a line of credit in favor of ISU and upon terms satisfactory to ISU.

It is expected that revenue generated by a combination of contracts, licensing arrangements, investments in early- and mid-stage technologies, and equity positions in new companies will allow the IPF to become self-supporting. The IPF Executive Director and IPF Board of Directors will oversee the operation and management of the IPF with self-sufficiency as a primary goal.

Exhibit D – Bylaws Page 37

STAFF COMMENTS AND RECOMMENDATIONS
This is a request by ISU to approve the creation of an Intellectual Property Foundation, the purpose of which is “to support the education, research, and public service functions of the University through commercializing intellectual property created by the University.” Creation of this nonprofit corporation will also allow the IPF to take an equity position in an entity (e.g. small company or start-ups) as partial consideration for invention licensing. The Operating Agreement stipulates, however, that the IPF will only take a minority ownership position in companies in order to limit possible exposure to liability. The Operating Agreement is modeled after the applicable provisions of the State Board’s Gifts and Affiliated Foundations policy V.E., and includes a clause that the Agreement shall be submitted to the State Board for review and approval at least every three years.
With regard to start-up costs associated with the operations of IPF, the operating agreement provides the ISU may provide administrative services and facilities to IPF “for reasonable consideration” and “may, from time to time, transfer funds to the University as part of IPF’s mission in support of the University.” Any transferred funds would be considered “a line of credit that the IPF will be contractually required to repay, after it becomes self-supporting....” The Operating Agreement does not indicate whether interest will be charged to the IPF on the line of credit, nor does the agreement provide a date by which the IPF must achieve self-sufficiency. Nevertheless, staff believes the agreement contains adequate controls by providing that “proposed funding requirements for the IPF will be determined on an annual basis as part of the operating budget process, but presented to the State Board for approval in a separate review.”

Staff has had extensive discussions with ISU counsel and vice president for research, having thoroughly reviewed several iterations of the proposal over the past six months. Material concerns and suggestions from staff have been addressed by ISU in this version of the proposal before the Board.

Staff finds that the IPF is in compliance with ISU’s proposed IP policy, the latter having been submitted for concurrent review by the Board as a separate agenda item.

Staff recommends approval.

**BOARD ACTION**

I move to approve the request by Idaho State University to participate in the formation of the Idaho State University Intellectual Property Foundation and to enter into the proposed Operating Agreement (which includes as exhibits draft forms of the Loaned Employee Agreement, Services Agreement, Articles of Incorporation and Bylaws) in substantial conformance with the documents submitted to the Board in Attachment 1.

Moved by ____________ Seconded by ____________ Carried Yes _____ No ______
This agreement ("Operating Agreement") is entered into effective as of the _____ day of ________________, 2014, by and between Idaho State University ("University") and Idaho State University Intellectual Property Foundation, Inc. ("IPF"). The University and IPF are sometimes collectively referred to herein separately as a "Party" and collectively as the "Parties.

WHEREAS, IPF is a nonprofit corporation incorporated on ________________, pursuant to the Idaho Nonprofit Corporation Act;

WHEREAS, IPF will become a tax-exempt entity under Section 501(c)(3) of the Internal Revenue Code;

WHEREAS, IPF’s purpose and mission is to support the education, research, and public service functions of the University;

WHEREAS, IPF and the University desire to set forth in writing various aspects of their relationship with respect to IPF’s commercialization of ISU technology;

WHEREAS, the Idaho State Board of Education (collectively the "State Board") has promulgated Policies, Procedures, and Guidelines applicable to the commercialization of University intellectual property (these polices, procedures, and guidelines as currently constituted and the successor policies, procedures, and guidelines thereto are referred to herein collectively as "State Board Policies and Procedures");

WHEREAS, IPF and the University intend for this agreement to be the written operating agreement required by the State Board.

NOW THEREFORE, in consideration of the mutual covenants and undertakings herein, the University and IPF hereby agree as follows:

ARTICLE I

IPF’S PURPOSES
A. IPF’s purpose is to support the education, research, and public service functions of the University through commercializing intellectual property created by the University.

B. In carrying out its purpose IPF shall not engage in activities that conflict with (1) federal or state laws, rules and regulations (including, but not limited to all applicable provisions of the Internal Revenue Code and corresponding Federal Treasury Regulations); (2) applicable State Board Policies and Procedures; and/or (3) the role and mission of the University.

C. The IPF will always keep in mind the fact that it is organized to support and further the interests of the University and will, as it pursues the commercialization of intellectual property, take steps to protect the University from legal exposure and risk to its reputation.

D. The IPF Board of Directors shall keep operating costs to a minimum and ensure that ISU’s research and educational mission and ISU’s best interests are paramount in their decision making process.

ARTICLE II

IPF’S ORGANIZATIONAL DOCUMENTS

IPF shall provide copies of its Articles of Incorporation and Bylaws to the University. IPF shall not amend or revoke its Articles of Incorporation or Bylaws without the written approval of the University and the State Board of Education.

ARTICLE III

UNIVERSITY RESOURCES AND SERVICES

A. University Employees.

1. Liaison: The University's Vice President for Research and Economic Development shall serve as the University's liaison to IPF (the "Liaison"). The duties and responsibilities of the Liaison are as follows:

a. The Liaison shall be responsible for communicating with IPF regarding the University’s activities and programs relevant to IPF’s mission and for coordinating any administrative support provided by the University to IPF.

b. The Liaison shall report on behalf of the University to IPF’s Board of Directors regarding the University's research efforts with regard to IPF. The Liaison may also report other information to IPF’s Board of Directors that is pertinent to the common goals of the University and IPF.
2. The University and IPF may elect to enter into agreements for the loaning of employees to IPF by the University pursuant to terms substantially similar to the Loaned Employee Agreement attached as Exhibit “A.” Subject to the Loaned Employee Agreement, the loaned employees shall report to the IPF Board and the Executive Director of IPF. IPF will reimburse the University for the salary of the loaned employee pursuant to the Loaned Employee Agreement or as otherwise determined by the agreement of the Parties.

3. Limited Authority of University Employees. Notwithstanding the foregoing provisions, no University employee other than an employee loaned to IPF shall be permitted to have responsibility or authority for IPF policy making, financial oversight, spending authority, investment decisions, or the supervision of IPF employees, provided however University employees appointed to the IPF Board of Directors shall have authority to act as such within the laws of the state of Idaho governing conflicts of state officials as well as the policies of the IPF Board of Directors regarding conflicts.

4. IPF Executive Director. The IPF Executive Director shall be an employee of the IPF and shall not be a loaned employee of the University.

B. Support Staff Services and Facilities. The University may provide administrative support in financial, accounting, and research compliance services to IPF and the use of the University’s office space and other facilities as set forth in the Service Agreement attached hereto as Exhibit “B” (“Service Agreement”). Except as specifically provided otherwise herein, all University employees who provide support services to IPF shall remain University employees under the direction and control of the University, unless it is agreed that the direction and control of any such employee will be vested with IPF in a Loaned Employee Agreement. The IPF will pay the University for the services and facilities provided to IPF pursuant to the Service Agreement or as otherwise determined by the agreement of the Parties.

C. No IPF Payments to University Employees. Notwithstanding any provision of this Agreement to the contrary, IPF shall not make any payments directly to a University employee in connection with any resources or services provided to IPF pursuant to this Article, provided however, nothing in this paragraph C shall limit or prohibit formal joint appointments of employees between the University and IPF under which IPF pays the percentage of salary and employee benefits allocated to IPF under the joint appointment agreement.

ARTICLE IV

MANAGEMENT AND OPERATION OF IPF

A. Grants. IPF may apply for grants and contracts, such as, without limitation, Small Business Innovation Research grants. However, IPF will not apply for
any grants without the prior approval of the University’s Vice President for Research and Economic Development. IPF will not directly conduct research activities though it may contract with the University or other entities for the University or other entities to provide research services. All contracts to which the IPF is a party shall provide that IPF is an entity distinct and separate from the University.

B. **Focus on Technology Transfer.** The IPF will abide by State Board Policies and Procedures, applicable University policies, and state and federal law and act only in a manner consistent with the same. In particular, in pursuing commercialization of University technology, IPF will act in a manner consistent with the University’s overarching goal of delivering useful products to the public. The IPF will pursue commercialization of University technology in a manner that encourages commercialization rather than generating revenue primarily through threats of patent infringement litigation (“patent trolls”) or “flipping” technology. The IPF will carefully review the State Board Policies and Procedures, which provide detailed directions on these issues, and act only in a manner consistent therewith.

C. **Fund Transfers and Charitable Fundraising.**

1. IPF may, from time to time, transfer funds to the University as part of IPF’s mission in support of the University. The University may direct IPF to transfer such funds to the Idaho State University Foundation, Inc., in which case such funds will be subject to Idaho State University Foundation, Inc. policies and procedures. IPF’s Treasurer or other individual to whom such authority has been delegated by IPF’s Board of Directors shall be responsible for transferring funds as authorized by IPF’s Board of Directors. All transfers and expenditures described in this Section must comply with section 501(c)(3) of the Internal Revenue Code and be consistent with IPF’s mission to support of the University.

2. Charitable Fundraising. IPF will not solicit for the donation of charitable contributions to be held by IPF. If a donor approaches IPF with the intention of making a charitable contribution to IPF, IPF will instruct such donor to contribute such funds to the Idaho State University Foundation, Inc.

D. **IPF Contracts, Expenditures, and Financial Transactions.**

1. Signature Authority for Contracts. The IPF Board of Directors may grant to IPF personnel signature authority for contracts to which IPF is a party pursuant to IPF’s bylaws. The IPF shall notify the University in writing of those parties given signature authority.

2. IPF designates the IPF Chair and Treasurer as the individuals with signature authority for IPF in all financial transactions. IPF’s Treasurer may also delegate signature authority on a temporary basis consistent with IPF’s Bylaws to another IPF employee, an employee loaned to IPF, or an IPF Board member who is not a University employee. In no event may the person with IPF signature authority for
financial transactions be a University employee, unless such individual is an employee who is loaned to IPF.

3. Expenditures. All expenditures of IPF shall be consistent with the purposes of IPF and applicable laws, contracts, and grants as the case may be.

E. **Transfer of University Financial Assets to IPF.** The University may transfer funds to the IPF until it becomes self-supporting to aid the IPF in pursuing its purpose and to allow it to fulfill its responsibilities hereunder. Proposed funding requirements for the IPF will be determined on an annual basis as part of the operating budget process, but presented to the State Board for approval in a separate review. These funding transfers will constitute a line of credit that the IPF will be contractually required to repay, after it becomes self-supporting and on a schedule as proposed by the University and approved by the State Board in the annual review.

F. **Transfer of University Intellectual Property to the IPF.** The University may transfer intellectual property to the IPF. All such transfers of intellectual property will be made pursuant to State Board Policies and Procedures, University policy, and state and federal law. Such transfers shall be made pursuant to a written agreement detailing the financial arrangement between the Parties applicable to the intellectual property transferred.

G. **Separation of Funds.** All IPF assets (including bank and investment accounts) shall be held in separate accounts in the name of IPF using IPF’s Federal Employer Identification Number. The financial records of IPF shall be kept using a separate chart of accounts and shall be kept in a secured database that is protected by separate password-only access.

H. **Insurance.** IPF shall maintain insurance to cover the operations and activities of its Directors, Officers and employees. IPF shall also maintain general liability coverage.

I. **Organizational Documents.** IPF’s Articles of Incorporation are attached hereto as Exhibit "C" and IPF’s Bylaws, which are attached at Exhibit "D." IPF agrees to provide copies of such Articles and Bylaws as well as any subsequent amendments to such documents to the University immediately upon request. IPF agrees that its Articles of Incorporation and Bylaws shall not be amended or revoked without the written approval of the University and State Board of Education.

J. **Conflicts of Interest.** IPF, in its bylaws has adopted a written policy addressing the manner IPF will address conflict of interest situations.

K. **Equity Positions and Cash Investments.** IPF is prohibited from taking majority ownership positions in companies and will not be involved in the operations of any company in which it holds equity. IPF shall not use funds that it receives from the University to make a cash investment in any company in return for equity.
L. **Lease or Purchase of Real Property.** IPF may lease or purchase real property only if such lease or purchase is consistent with IPF’s purposes and obligations as described herein.

**ARTICLE V**

**IPF’S RELATIONSHIP WITH THE UNIVERSITY**

A. **Joint Participation.** The parties hereto recognize that joint participation and regular interaction among employees of both IPF and University is beneficial and encouraged. This may include service on committees, councils, review Boards and/or other activities identified by either party for the mutual benefit and interest of both parties.

B. **University’s Representation on IPF’s Board.** The University will be allowed representation on IPF’s Board of Directors as set forth in the Bylaws as attached hereto. Provided, however, the University’s representation on the IPF Board shall not constitute a majority of the IPF Board.

C. **Executive Director Reporting.** The IPF Executive Director shall act under the supervision of and report to the IPF Board subject to any applicable Loaned Employee Agreement.

D. **Cost Recovery.** The parties shall allocate costs associated with reciprocative operations in a fair and equitable manner so that the full and independent costs of such operations can be recovered by the respective parties.

E. **Export Control.** IPF shall be responsible for all matters pertaining to export controls.

F. **Subsequent Agreements.** The parties hereto anticipate that they may enter into subsequent written agreements on a project by project basis setting forth the parties’ respective duties and obligations in regard to such projects. As such, the parties hereto acknowledge and agree that any such agreement shall govern for the purpose of any such specified project. Provided, however, that if there is a conflict between the terms of the Operating Agreement and the terms of a subsequent agreement, the terms of the Operating Agreement will be controlling and supersede any inconsistent terms in the subsequent agreement.

G. **Access to Records.** The University shall have reasonable access to the financial and accounting records of IPF upon providing three (3) days written notice to IPF. All access by the University of such records shall be made in accordance with applicable laws. In addition, upon request of IPF, the University shall execute a proprietary and confidentiality agreement and instruct its agents and employees that all confidential information of IPF shall be protected from disclosure.
H. Records Management.

1. IPF shall be responsible for maintaining all permanent records of IPF including but not limited to IPF’s Articles, Bylaws and other governing documents, all necessary documents for compliance with IRS regulations, and all other IPF records as required by applicable laws.

2. IPF’s Board of Directors shall foster an atmosphere of openness in its operations, consistent with the prudent conduct of its business. The parties understand that IPF is not a public agency or a governing body as defined in the Idaho Code and the Idaho Open Meeting Law and Access to Public Records statutes. Nothing in this Operating Agreement shall be construed as a waiver of IPF’s right to assert exemption from these statutes.

I. Identification of Source. IPF shall be clearly identified as the source of any correspondence, activities and advertisements emanating from IPF.

J. Establishing IPF’s Annual Budget. IPF shall provide the University with IPF’s proposed annual operating budget and capital expenditure plan (if any) prior to the date of IPF’s Board of Directors meeting at which IPF’s Board of Directors will vote to accept such operating budget.

K. Attendance of the University’s President at IPF’s Board of Directors Meetings. IPF may invite the University’s President to attend meetings of IPF’s Board of Directors and the University’s President may act in an advisory capacity in such meetings. The University’s President may serve as an Ex-Officio member of IPF’s Board of Directors.

L. Supplemental Compensation of University Employees. No University employee shall receive direct payments, compensation, or other benefits from IPF, provided that IPF may pay for those benefits which are necessary for its normal course of operation, including, but not limited to, travel and continuing professional education. Any such payment must be paid by IPF to the University and the University shall then pay or reimburse the employee in accordance with the University’s normal practice. No University employee shall receive any payments or other benefits directly from IPF. Provided however, nothing in this sub-section shall limit or prohibit formal joint appointments of employees between the University and IPF under which IPF pays the percentage of salary and employee benefits allocated to IPF under the joint appointment agreement.

ARTICLE VI

AUDITS AND REPORTING REQUIREMENTS

A. Fiscal Year. IPF and the University shall have the same fiscal year.
B. **Annual Audit.** IPF shall have an annual financial audit conducted in accordance with Government Accounting Standards Board or Financial Accounting Standards Board principles as appropriate. The audit shall be conducted by an independent certified public accountant who is not a Director or Officer of IPF. Such audit shall be conducted at the same or similar time as the University audit and shall be reported to IPF’s Board of Directors. Such audit reports shall contain IPF’s financial statements and the auditor’s independent opinion regarding such financial statements. The annual audit reports shall be submitted to the University’s Office of Finance and Administration in sufficient time to incorporate the same into the State of Idaho’s Comprehensive Annual Financial Review statements.

C. **Reports to University Vice President for Research and Economic Development.** On an annual basis and as otherwise requested by the University, IPF shall provide a written report to the University Vice President for Research and Economic Development (with a copy to the University Vice President for Finance and Administration) setting forth the following items:

1. a report of IPF transfers made to the University, summarized by University department;
2. a list of all of IPF’s Officers, Directors, and employees;
3. a list of University employees for whom IPF made payments to the University for approved purpose during the fiscal year, and the amount and nature of each payment;
4. a list of all contracts entered into by IPF;
5. a quarterly report of IPF’s activities and strategic direction; and
6. a report of any actual litigation involving IPF during its fiscal year, identification of legal counsel used by IPF for any purpose during such year, and identification of any potential or threatened litigation involving IPF limited to the extent necessary to protect attorney-client privilege and litigation strategy.

**ARTICLE VII**

**CONFLICT OF INTEREST AND CODE OF ETHICS AND CONDUCT**

A. **Conflicts of Interest Policy Statement.** IPF, in its bylaws has adopted a written policy addressing the manner IPF will address conflict of interest situations.

B. **Dual Representation.** Under no circumstances may a University employee represent both the University and IPF in any negotiation, sign for both Parties in transactions, or direct any other University employee under their immediate
supervision to sign for the related Party in a transaction between the University and IPF. This shall not, however, prohibit University employees from drafting transactional documents that are subsequently provided to IPF for IPF's independent review, approval and use.

C. **Contractual Obligation of University.** IPF shall not enter into any contract that would impose a financial or contractual obligation on the University without first obtaining the prior written approval of the University. If such contract deals primarily with technology transfer or sponsored programs, the contract approval process shall be administered under procedures developed by the University Office for Research and Economic Development.

D. **Acquisition or Development or Real Estate.** IPF shall not acquire or develop real estate for the University's use or otherwise build facilities for the University's use unless the University first obtains the approval of the State Board. In the event of a proposed purchase of real estate for such purposes by IPF, the University shall notify the State Board, at the earliest possible date, of such proposed purchase for such purposes. Furthermore, any such proposed purchase of real estate for the University's use shall be a coordinated effort of the University and IPF. Any notification by the University to the State Board required pursuant to this Section may be made through the State Board's chief executive Officer in executive session as permitted pursuant to Idaho Code Section 67-2345(1)(c).

**ARTICLE VIII**

**GENERAL TERMS**

A. **Effective Date.** This Agreement shall be effective on the date set forth above.

B. **Right to Terminate.** This Operating Agreement shall terminate upon the mutual written agreement of both Parties. In addition, either Party may, upon 90 days prior written notice to the other, terminate this Operating Agreement, and either Party may terminate this Operating Agreement in the event the other Party defaults in the performance of its obligations and fails to cure the default within 30 days after receiving written notice from the non-defaulting Party specifying the nature of the default. Notwithstanding any other provision herein, if either party terminates this Operating Agreement, contractual obligations with third parties incurred by IPF will be transferred to the University to the extent allowed by law and Idaho State Board of Education policy. The Parties agree that in the event this Operating Agreement shall terminate, they shall cooperate with one another in good faith to negotiate a new agreement within six (6) months. In the event negotiations fail, the Parties will initiate the Dispute Resolution mechanism described below to further attempt to negotiate a new agreement. Termination of this Operating Agreement shall not constitute or cause dissolution of IPF, provided however, in the event a new operating agreement is not achieved upon completion of the dispute resolution process, the association between
IPF and the University will be ended, and IPF will cease all references to Idaho State University in its name and with respect to its operations other than as is necessary to complete projects or contracts pending as of the final date of the dispute resolution process.

C. **Dispute Resolution.** The Parties agree that in the event of any dispute arising from this Operating Agreement, they shall first attempt to resolve the dispute by working together with the appropriate staff members of each of the Parties. If the staff cannot resolve the dispute, then the dispute will be referred to IPF’s Chair and the University's President. If IPF’s Chair and the University's President cannot resolve the dispute, then the dispute will be referred to IPF’s Chair and the State Board for resolution. If the dispute is not resolved by the aforementioned Parties, the University and IPF shall submit the dispute to mediation by an impartial third party or professional mediator mutually acceptable to the Parties. If and only if all the above mandatory steps are followed in sequence and the dispute remains unresolved, then, in such case, either Party shall have the right to initiate litigation arising from this Operating Agreement. In the event of litigation, the prevailing Party shall be entitled, in addition to any other rights and remedies it may have, to reimbursement for its expenses, including court costs, attorney fees, and other professional expenses.

D. **Distribution of Assets upon Termination of Agreement or Dissolution of IPF.** Upon termination of this Agreement or dissolution of IPF, whichever first occurs, IPF shall transfer the balance of all property, intellectual property, and assets of IPF to the University or an organization designated by the University. This will be done in a manner consistent with its Articles of Incorporation, which state that “upon dissolution or final liquidation, the assets of the Corporation remaining after discharge of the debts and obligations of the Corporation shall be distributed exclusively to Idaho State University or to such other charitable, scientific, literary, or educational organizations designated by Idaho State University that are tax exempt under Internal Revenue Code §501(c)(3).”

E. **Board Approval of Operating Agreement.** Prior to the Parties' execution of this Operating Agreement, an unexecuted copy of this Operating Agreement must be approved by the State Board. Furthermore, this Operating Agreement, including any subsequent modifications and restatements of this Operating Agreement, shall be submitted to the State Board for review and approval no less frequently than once every three (3) years or more frequently if otherwise requested by the State Board.

F. **Modification.** Any modification to the Agreement or Exhibits hereto shall be in writing and signed by both Parties.

G. **Providing Documents to and Obtaining Approval from the University.** Unless otherwise indicated herein, whenever documents are to be provided to the University or whenever the University's approval of any action is required, such documents shall be provided to, or such approval shall be obtained from
an individual to whom such authority has been properly delegated by the University's President.

H. **Providing Documents to and Obtaining Approval from IPF.** Unless otherwise indicated herein, whenever documents are to be provided to IPF or whenever IPF's approval of any action is required, such document shall be provided to, or such approval shall be obtained from, IPF's Board of Directors or an individual to whom such authority has been properly delegated by IPF's Board of Directors.

I. **Notices.** Any notices required under this agreement may be mailed or delivered as follows:

To the University:

Idaho State University  
Attn: Vice President for Research and Economic Development  
921 South 8th Avenue, Stop ______  
Pocatello, Idaho 83209

With copy to:

Idaho State University  
Attn: Idaho State University President  
921 South 8th Avenue, Stop ______  
Pocatello, Idaho 83209

Idaho State University  
Office of General Counsel  
Attn: General Counsel  
921 South 8th Avenue, Stop 8410  
Pocatello, Idaho 83209

To IPF:

IPF

J. **No Joint Venture.** At all times and for all purposes of this Operating Agreement, the University and IPF shall act in an independent capacity and not as an agent or representative of the other Party.

K. **Liability.** The University and IPF are independent entities and neither shall be liable for any of the other's contracts, torts, or other acts or omissions, or those of the other's trustees, Directors, Officers, members or employees.
L. **Indemnification.** IPF agrees to indemnify, defend and hold the University, its Officers, Directors, agents and employees harmless from and against any and all losses, liabilities, and claims, including reasonable attorney's fees arising out of or resulting from the willful act, fault, omission, or negligence of IPF, its employees, contractors, or agents in performing its obligations under this Operating Agreement.

M. **Assignment.** This Agreement is not assignable by either Party, in whole or in part.

N. **Governing Law.** This Agreement shall be governed by the laws of the State of Idaho.

O. **Articles, Sections, Subsections and Subparagraphs.** This Agreement consists of text divided into Articles that are identified by roman numeral (for example Article I), Sections that are identified by an uppercase letter followed by a period (for example A.), subsections that are identified by a number followed by a period (for example 1.) and subparagraphs that are identified by a lowercase letter followed by a period (for example a.). The organization is hierarchical meaning that a reference to a division of the document includes all of its subsections (for example a reference to a Section includes the Section and all of its subsections and subparagraphs).

P. **Severability.** If any provision of this Agreement is held invalid or unenforceable to any extent, the remainder of this Agreement is not affected thereby and that provision shall be enforced to the greatest extent permitted by law.

Q. **Entire Agreement.** This Agreement constitutes the entire agreement among the Parties pertaining to the subject matter hereof, and supersedes all prior agreements and understandings pertaining thereto.

R. **Cooperation of the Parties.** The parties hereto agree to do all acts and things necessary to make, execute and deliver any and all written instruments as shall from time to time be reasonably required to carry out the terms and conditions of this Agreement.

[The remainder of this page is intentionally left blank.]
IN WITNESS WHEREOF, the University and IPF have executed this agreement on the above specified date.

AGREEMENT FOR LOANED EMPLOYEE

This Agreement for Loaned Employee (Agreement) is entered into by and between IDAHO STATE UNIVERSITY, an Idaho institution of higher education and body politic and corporate, and the Idaho State University Intellectual Property Foundation, Inc. (IPF), an Idaho non-profit Corporation, and is effective the _____ day of ________________, 2014.

BACKGROUND

A. IPF has asked the University to make certain university employees available to IPF for fulfilling various operational requirements of IPF.

B. University has agreed to loan its employee ______________ (Loaned Employee) to IPF to act in the capacity of ______________________ for IPF pursuant to the terms of this Agreement.

AGREEMENT

The parties agree as follows:

1. Relationship between Loaned Employee and University.

   a. Status. At all times under this Agreement, Loaned Employee shall be an [**classified or exempt**] [**fiscal or academic**] year employee of the University subject to all applicable policies and procedures of the University and the State Board of Education. IPF shall have control over all aspects of Loaned Employee’s day to day work and Loaned Employee shall devote 100% of his or her working time to performing services for IPF. Notwithstanding the foregoing, IPF may discipline the Loaned Employee for cause, which may include taking action up to and including termination of this Agreement, such discipline and determination of cause to be in accordance with IPF policies and procedures and applicable law. The parties acknowledge that University and Loaned Employee have agreed and acknowledged that Loaned Employee’s contract with the University is contingent upon continuation of this Agreement and in the event this Agreement is terminated Loaned Employee’s contract with the University will also terminate. Loaned Employee will be considered a loaned employee under the worker’s compensation law of the State of Idaho.
b. **Compensation.** University shall pay Loaned Employee a [*fiscal or academic*] year salary rate of $__________, payable on the regular bi-weekly paydays of the University and subject to adjustment in accordance with the University's regular policies and procedures. Loaned Employee will be entitled to University benefits to the same extent and on the same terms as other full-time University employees of her/his classification. IPF shall pay University for this cost as provided in Section 3 below.

c. **Travel Expenses.** University shall reimburse directly to Loaned Employee costs incurred for IPF travel that is approved in advance by IPF or the University. IPF shall pay University for this cost as provided in Section 3 below.

d. **No Prohibition on Leasing Employee to IPF.** University represents and warrants to IPF that there is no agreement with Loaned Employee nor any University policy of procedure (including, without limitation, any agreement, policy, or rule of the State Board of Education or the University) that prohibits the University from leasing Loaned Employee to IPF pursuant to the terms of this Agreement. University further represents and warrants that Loaned Employee is eligible for benefits as a full-time leased employee under the term of all applicable University benefit plans.

2. **Relationship between IPF and Loaned Employee.**

   a. **Supervision.** Loaned Employee will work under the supervision and direction of, and will report directly to, the IPF Executive Director or their designee, who shall determine their duties to perform work for IPF.

   b. **Performance Evaluations.** IPF will evaluate the performance of Loaned Employee on an annual basis at a time consistent with the annual reviews of exempt employees at the University. IPF will provide University with a copy of any written documentation regarding the evaluation within fourteen (14) days after the evaluation is complete.

3. **Relationship between IPF and University.**

   a. **Lease of Loaned Employee.** During the term of this Agreement, so long as Loaned Employee is employed by University, University shall make available to IPF the full time services of Loaned Employee, subject to University’s continued employment of Loaned Employee. The furnishing of Loaned Employee shall not be considered a professional service of the University to IPF, nor shall University be considered a contractor of IPF.

   b. **University to Provide Salary and Benefits.** As indicated above, University shall provide Loaned Employee with a [*fiscal or academic*] year salary rate of $____________ and other University benefits to the
same extent and on the same terms as other full-time University employees of her/his classification. University shall be responsible for all facets of payroll and benefits administration with respect to Loaned Employee, including, without limitation, withholding and payment of payroll taxes, unemployment compensation, worker’s compensation coverage, social security, and providing any fringe and welfare benefit programs for Loaned Employee.

c. **Reimbursement of Salary and Benefits by IPF.** IPF will reimburse University for one hundred percent (100%) of the University’s total cost of Loaned Employee’s salary and benefits and any reimbursable costs such as travel expenses. University shall maintain accurate books and account records reflecting the actual cost of all items of direct cost for which payment is sought under this Agreement. At all reasonable times, IPF shall have the right to inspect and copy said books and records, which the University agrees to retain for a minimum period of five (5) years following the termination of this Agreement.

d. **Review of Loaned Employee’s Status/Discipline/Termination for Cause.** Loaned Employee shall at all times remain an employee of University. Accordingly, University shall have the power to evaluate, discipline, and terminate Loaned Employee in its discretion and in accordance with any of its policies, procedures, or agreements between University and Loaned Employee. As provided above, IPF will conduct an annual review of Loaned Employee. IPF will provide a copy of any documents related to its evaluation to the University no later than fourteen (14) days after the evaluation is completed. Based on its annual review of Loaned Employee’s performance, IPF may discipline the Loaned Employee for cause, which may include taking action up to and including termination of this Agreement, such discipline and determination of cause to be in accordance with IPF policies and procedures and applicable law. If IPF makes such a determination, IPF shall provide notice to the University that it will no longer lease the services of Loaned Employee effective as of the date specified in the notice with a reasonable amount of detail as to the reason IPF is discontinuing the services of Loaned Employee.

e. **Indemnification by IPF for Acts of Loaned Employee.** University shall have no liability to IPF for loss or damage directly resulting from the fault, negligence, misconduct, or other acts of the Loaned Employee while Loaned Employee is performing activities on behalf of or at the direction of IPF. IPF therefore agrees to release, defend, indemnify and hold harmless the state of Idaho, University, its governing Board, Officers, employees, and agents from and against any and all claims, demands, losses, damages, costs, expenses, and liabilities for injuries (including death) to persons and for damages to property (including damage to property of IPF
or others) arising out of or in connection with the activities of the Loaned Employee performed on behalf of or at the direction of IPF. Notwithstanding the foregoing, both parties may maintain any liability insurance coverage as it shall deem appropriate with respect to liabilities arising out of the acts or omissions of Loaned Employee.

f. **Compliance with Employment Discrimination Laws.** IPF agrees to comply with all laws regarding employment discrimination, including, without limitation, the Americans with Disabilities Act, Age Discrimination in Employment Act, Title VII of the Civil Rights Act, the Equal Pay Act, and the Idaho Human Rights Act with respect to Loaned Employee as if Loaned Employee were an employee of IPF. IPF shall notify University within five (5) days of any claim by Loaned Employee alleging a violation of any laws relating to employment discrimination. IPF shall indemnify, defend, and hold University harmless from any claims or losses resulting from IPF’s failure to comply with any applicable employment discrimination laws.

4. **General Terms.**

   a. **Term, Termination.** The term that University shall lease Loaned Employee to IPF shall extend to _________________, which is the term of employment specified in Loaned Employee’s contract as an employee of the University, unless it is terminated earlier upon the occurrence of any of the following:

      i. Notice to University Due to Loaned Employee Performance Problems. Pursuant to Section 3 above, IPF may discipline Loaned Employee by taking action up to and including termination of this Agreement for cause based on its annual review of Loaned Employee’s performance or any interim review or concerns regarding Loaned Employee’s performance. If IPF makes such a determination, IPF shall provide notice to the University that it will no longer lease the services of Loaned Employee effective as of the date specified in the notice with a reasonable amount of detail as to the reason IPF is discontinuing the services of Loaned Employee.

      ii. Termination in the Event of Default. Either party may terminate the lease of Loaned Employee by University to IPF upon the material default of the other’s performance provided that the non-defaulting party first provides the other with at least ten (10) days notice of the default and an opportunity to cure such default within the notice period.
iii. Discontinued Employment of Loaned Employee by University. The lease of Loaned Employee to IPF shall automatically terminate if Loaned Employee is no longer an employee of University for any reason.

The parties may extend the term of this Agreement at any time upon mutual agreement for a new term that is equal to the term of the Loaned Employee’s renewed employment contract with the University, if any. IPF is under no obligation to extend the term of this Agreement for a new term, however, (in order to be consistent with the University policies which call for at least 60 days notice if the University will not renew the Loaned Employee’s employment agreement) in the event IPF determines that it will not agree to an extension of the term of this Agreement, IPF will give University notice of its intention not to extend the term of this Agreement at least 60 days prior to the expiration of the term of this Agreement.

b. No Third Party Beneficiaries. The parties acknowledge that there are no intended third party beneficiaries of this Agreement. Without limiting the foregoing, this Agreement shall not be construed as a promise of continuing employment to Loaned Employee, who remains subject to all applicable State Board of Education and University policies, including but not limited to policies regarding nonrenewal of fixed term appointments and termination or discipline.

c. Governing Law. This Agreement will be governed by the laws of the State of Idaho as an agreement to be performed within the State of Idaho. The venue for any legal action under this Agreement shall be in Bannock County, Idaho.

d. Notice. Any notice under this Agreement shall be in writing and be delivered in person or by public or private courier service (including U.S. Postal Service Express Mail) or certified mail with return receipt requested, or by facsimile. All notices shall be addressed to the parties at the following addresses or at such other addresses as the parties may from time to time direct in writing:

To IPF:

Idaho State University Intellectual Property Foundation, Inc.
Attn: Executive Director
To University:

Idaho State University  
Attn: Vice President for Research and Economic Development  
921 South 8th Avenue, Stop 8130  
Pocatello, Idaho 83209

With copy to:

Idaho State University  
Office of General Counsel  
Attn: General Counsel  
921 South 8th Avenue, Stop 8410  
Pocatello, Idaho 83209

Notice shall be deemed given on its date of mailing, faxing, or upon written acknowledgment of its receipt by personal delivery, whichever shall be earlier.

e. **Waiver.** Waiver by either party of any breach of any term, covenant or condition herein contained shall not be deemed to be a waiver of such term, covenant or condition, or any subsequent breach of the same or any other term, covenant or condition herein contained.

f. **Attorney’s Fees.** In the event an action is brought to enforce any of the terms, covenants or conditions of this Agreement, or in the event this Agreement is placed with an attorney for collection or enforcement, the successful party to such action or collection shall be entitled to recover from the losing party a reasonable attorney’s fee, together with such other costs as may be authorized by law.

g. **Assignment.** Neither party shall assign this Agreement with the prior written consent of the other.

h. **Amendments.** This Agreement may not be modified or amended except by an agreement in writing signed by both of the parties.

i. **Acknowledgement by Employee.** This Agreement shall not be effective until it is executed by University and IPF and acknowledged by Loaned Employee pursuant to the signature blocks below.

[The remainder of this page is intentionally left blank.]
The parties have executed this Agreement effective as of the date set forth above.

Acknowledgment by Loaned Employee:

Loaned Employee, by their signature below, acknowledges the terms of this Agreement between University and IPF and agrees that they are an employee of the University that are loaned to IPF pursuant to the terms of this Agreement. Loaned Employee further acknowledges that they are a “loaned employee” pursuant to all state workers compensation laws. Accordingly, Loaned Employee acknowledges and agrees that in the event of any work-related injury that is covered by workers compensation insurance held for the benefit of Loaned Employee by University, Loaned Employee will be precluded from recovering damages from IPF for such injury in accordance with applicable state workers compensation laws.

FORM OF SERVICE AGREEMENT

SERVICES AGREEMENT

THIS SERVICES AGREEMENT (Agreement) is entered into by and between IDAHO STATE UNIVERSITY, a state educational institution, and a body politic and corporate organized and existing under the Constitution and laws of the state of Idaho (“University”), and IDAHO STATE UNIVERSITY INTELLECTUAL PROPERTY FOUNDATION, INC., an Idaho non-profit Corporation (“IPF”), and shall be effective as of the _____ day of _______________, 2014.

A. The University agrees to provide to IPF the following administrative, financial, and accounting support services.

   1. Administrative support for IPF’s general accounting and operations, including cash, receivables, and disbursement processing, preparation of financial statement and work papers for external audit, support for IPF Audit Committee, and support for IPF tax return filing.

   2. Administrative support for IPF through the University Human Resources Office, including payroll and benefits management.

   3. Support for matters pertaining to export controls.

B. All University employees who provide support services to the IPF under this Agreement shall remain University employees under the direction and control of the University.

C. The University will supply the facilities, equipment, software and operating supplies necessary for the University employees supplying the above support services to IPF, the nature and location of which shall be in the University’s discretion. In addition, the University shall furnish office space and office equipment for use by employees loaned to IPF by the University, the nature and location of which shall be subject to agreement of the parties.

D. IPF will pay directly to the University a reasonable consideration for the services, facilities, equipment, software and operating supplies provided to IPF pursuant to this Service Agreement.

E. The Parties acknowledge that support services provided by the University to IPF hereunder are intended to continue only so long as is necessary for IPF to become a fully self-sufficient operational entity. As IPF gains in self-sufficiency,
services provided hereunder may be assumed by IPF operations and discontinued by the University all as per the agreement of the Parties.

This Agreement shall be effective as of the date set forth above and shall continue in annual terms matched to the University’s fiscal year until terminated by either party. This Agreement may be terminated by either party upon written notice of termination, such termination to be effective 30 days after notice thereof. This Agreement shall also terminate at the same time as any termination of the Operating Agreement between the University and the IPF dated _________________, 2014. In the event of termination, all obligations of the parties hereto shall cease as of the date of termination except for obligations for payment or reimbursement which accrued prior to the date of termination.

EXHIBIT C

FORM OF ARTICLES OF INCORPORATION

ARTICLES OF INCORPORATION
OF
IDAHO STATE UNIVERSITY INTELLECTUAL PROPERTY FOUNDATION, INC.

The undersigned, being over the age of eighteen (18) years, and for the purpose of forming a nonprofit Corporation under the provisions of the Idaho Nonprofit Corporation Act, Title 30, Chapter 3 of the Idaho Code, hereby certifies and adopts the following Articles of Incorporation:

ARTICLE ONE

The name of the Corporation is the IDAHO STATE UNIVERSITY INTELLECTUAL PROPERTY FOUNDATION, INC. and its existence shall be perpetual.

ARTICLE TWO

The address of the registered office of the Corporation in the state of Idaho is ______________________________ and the name of the registered agent at that address is ________________________.

ARTICLE THREE

The name and mailing address of the incorporator of the Corporation is ____________________________.

ARTICLE FOUR

1. The Corporation is formed for scientific, educational, and charitable purposes for the benefit of the University and, subject thereto, for the purpose of engaging in any lawful act for which a nonprofit Corporation may be organized under Title 30, Chapter 3 of the Idaho Code and under Section 501(c)(3) of the Internal Revenue Code, which include but are not otherwise limited to the following:

   i. Acquiring and disseminating knowledge, supporting the education, research, and public service functions of the Idaho State University.

   ii. Executing, administering, letting and performing any and all contracts, subcontracts and agreements desirable and proper in order to perform and complete the activities of the Corporation including, without
limitation, contracts and agreements with Idaho State University and other entities.

iii. Acquiring facilities by lease, purchase, or otherwise, and operating such as may be desirable in order to carry out the charitable, scientific, literary, research, educational, and service programs both of the Corporation and the University.

iv. Receiving real and personal property from public and private sources, receiving grants and other monies from agencies of the United States, grants, contributions and endowments from foundations, public and private corporations, and the general public, without limitation.

v. Employing personnel and engaging contractors and consultants in order to accomplish the purposes of the Corporation.

vi. Using and/or applying the whole, or any part of, the resources generated by the Corporation exclusively for charitable, scientific, literary, or educational purposes to benefit the Corporation and the University.

2. Stock will not be issued. If and when the Corporation is dissolved, its assets will be distributed pursuant to the provisions of Article Ten. None of the assets will be distributed to private individuals.

3. The Corporation will not have members.

ARTICLE FIVE

The Corporation will seek a federal tax exemption as defined under Internal Revenue Code § 501(c)(3). If the Corporation is granted tax-exempt status, it will take those steps required to retain tax exempt status and will refrain from activities forbidden by Internal Revenue Code § 501(c)(3).

ARTICLE SIX

At all times, the Corporation’s investments and investment policy will be consistent with its nonprofit purpose, and income and assets will be generated only to carry out its nonprofit purposes.

ARTICLE SEVEN

1. The number of Directors of this Corporation shall be fixed in the Bylaws and may be changed from time to time by amending the Bylaws.
2. The Corporation shall have Officers as provided in the Bylaws. Such Officers shall be elected or appointed by the Directors of the Corporation at such time and in such manner and for such terms as may be prescribed in the Bylaws. The Officers and Directors of the Corporation will not be personally liable for the Corporation’s debts and liabilities and their personal property is exempt from seizure or levy to pay obligations of the Corporation.

3. The powers of the Corporation will include all powers granted by the state of Idaho to nonprofit Corporation’s including those set forth pursuant to Title 30, Chapter 3 of the Idaho Code. In addition, the Corporation’s powers shall include the following, to the extent not prohibited by the state of Idaho or federal law:

   a. To solicit, collect, receive, hold, invest, distribute, and disburse funds in the form of donations, gifts, bequests, and subscription;

   b. The power to accept gifts from individuals, corporations and foundations in furtherance of the Corporation’s nonprofit purposes; and

   c. To borrow funds with or without security, on terms at least as favorable as those offered on the open market, to carry out the Corporation’s nonprofit purpose as authorized by the Corporation’s Directors.

Notwithstanding the foregoing, the Corporation’s powers shall be limited as follows:

   i. The Corporation shall not have nor exercise any power of authority expressly, by interpretation or by operation of law, nor shall it directly or indirectly engage in any activity that would prevent it from qualifying and continuing to qualify as a tax exempt entity.

   ii. No part of the assets or net earnings of the Corporation shall ever inure to the benefit of or be distributable to its Directors, Officers, or other private persons, except that the Corporation shall be authorized and empowered to pay reasonable compensation for services actually rendered and to make reimbursement in reasonable amounts for expenses actually incurred.
4. The initial Directors of this Corporation shall be five (5) in number and their names and addresses are as follows:

_______________________________________________________
_______________________________________________________
_______________________________________________________
_______________________________________________________
_______________________________________________________
_______________________________________________________

5. The term of the initial Directors shall be until the first annual meeting of the Corporation or until their successors are appointed as provided in the Corporation’s Bylaws.

ARTICLE EIGHT

The Corporation’s Board of Directors shall not be individually liable for the debts or obligations of the Corporation. Furthermore, no Director or Officer of the Corporation shall be personally liable to the Corporation for civil claims arising from acts or omissions made in the performance of his or her duties, unless the acts or omissions are the result of intentional misconduct.

ARTICLE NINE

The organization’s Articles of Incorporation and Bylaws may only be altered, amended, repealed, or new Articles of Incorporation or Bylaws adopted as provided in the organization’s Bylaws.

ARTICLE TEN

Upon dissolution or final liquidation, the assets of the Corporation remaining after discharge of the debts and obligations of the Corporation shall be distributed exclusively to Idaho State University or to such other charitable, scientific, literary, or educational organizations designated by Idaho State University that are tax exempt under Internal Revenue Code § 501(c)(3).

ARTICLE ELEVEN

The undersigned, being the incorporator, for the purpose of forming a Corporation to do business both within and without the state of Idaho, and pursuant to the Idaho Non-Profit Corporation Act, does hereby make and file these Articles of Incorporation and does hereby declare and certify that this is her or his act and deed and that the facts herein stated are true.
In witness whereof, these Articles of Incorporation are executed in duplicate on the _____ day of _________________, 2014.

EXHIBIT D

BYLAWS
OF
IDAHO STATE UNIVERSITY INTELLECTUAL PROPERTY FOUNDATION, INC.

ARTICLE ONE
GUIDING PHILOSOPHY

The Directors, Officers, and employees of the Corporation will strive to:

1. Promote ethical work standards where the highest quality of achievement is aspired to and expected.

2. Appoint and retain the highest caliber of staff that can be attracted where integrity, intelligence, self-motivations, expertise, performance, commitment, and fairness are prime considerations.

3. Create an efficient operation in which each individual expeditiously performs multiple tasks, as needed, to maximize quality output at the most attractive cost-performance tradeoff.

4. Create a stimulating, challenging, and fair work environment in which individuals are able to learn and advance professionally.

5. Foster the commercialization of Idaho State University (University) technology through endeavors with public and private enterprises including institutions of learning, private businesses, individuals, and government agencies, leading to the dissemination and application of knowledge, discoveries, inventions, and technology for the public good.

6. Enhance the ability of University to meet its mission and goals by cooperative use of Corporation and University resources including facilities, faculty, researchers, staff, and students.

7. Abide by policies, procedures, and guidelines of the Idaho State Board of Education applicable to the commercialization of University intellectual property the Idaho State Board of Education (these policies, procedures, and guidelines as currently constituted and the successor policies, procedures, and guidelines thereto are referred to herein collectively as "State Board Policies and Procedures"), applicable ISU policy, state and federal law and act only in a manner consistent with these policies and laws.

8. In pursuing commercialization of University technology, IPF will act in a manner consistent with the University’s overarching goal of delivering useful products to the public. The IPF will pursue commercialization of University technology in a
manner that encourages commercialization rather than generating revenue primarily through threats of patent infringement litigation ("patent trolls") or "flipping" technology. The IPF will carefully review the State Board Policies and Procedures, which provide detailed directions on these issues, and act only in a manner consistent therewith.

ARTICLE TWO
BOARD OF DIRECTORS

1. **Number.** The number of Directors on the IPF Board of Directors shall be five (5).

2. **Ex Officio Directors on the Board.** Ex Officio Directors on the IPF Board shall include the University’s President and the Corporation’s Executive Director and other key persons as approved by a majority vote of the Board of Directors. Ex Officio Directors shall not count against the number of Directors allowed in these Bylaws. Provided, however, the number of Ex Officio Directors shall not exceed five (5) and Ex Officio Directors shall not be entitled to vote on any matter coming before the Board of Directors.

3. **Manner of Selection and Vacancies.**
   
   a. Two University employees must always be on the IPF Board of Directors, provided, however, the University’s representation on the Board of Directors shall not constitute a majority of the full membership on the Board.
   
   b. Appointments to name successor IPF Board members or fill Board vacancies shall be made by the Board of Directors, provided, however, that the President of the University shall appoint successors to, or make appointments to fill vacancies for, those Directors who were University employees when appointed.

4. **Term.** Each Director, whether by initial appointment or appointment to a vacancy, shall serve for a term of three (3) to eight (8) as designated by the Chair of the IPF Board of Directors. The Chair shall manage the length and/or start dates of terms to preclude, to the extent possible, more than three (3) new Directors being appointed in any one year. A person filling a vacancy is eligible for reappointment in the same manner as set forth in paragraph 3 above. A Director may resign at any time by delivering a written resignation to the Executive Director, a Vice President, or the Recording Secretary. Unless otherwise specified therein, such resignation shall take effect upon delivery. Any Director may be removed by majority vote of the Board of Directors, upon adequate opportunity for hearing before the Board of Directors.
5. **Actions by the IPF Board.**

   a. The Directors shall only act as a Board, and the individual Directors shall have no power as such. At all meetings of the Board of Directors, the presence of a majority of the then total appointed and acting number of Directors shall be necessary and sufficient to constitute a quorum for transacting business. Except as otherwise required herein, in the Articles of Incorporation, or by statute, the action of a majority of the Directors present at any properly called meeting at which a quorum is present shall be the act of the IPF Board of Directors. Additionally, though not taken at a regular or special meeting, the Board of Directors’ action shall be valid and binding if reduced to writing and signed by each Director. Provided, however, such writing must be transmitted to the Secretary within ten (10) business days and attached to the minutes of the next meeting of the Board of Directors.

   b. The IPF Board of Directors provides oversight and direction for the Corporation’s policies, procedures and resource allocations, makes recommendations for the development of Corporation projects, assists in the development of effective relationships between the University and various Corporation programs, and seeks to enhance and strengthen the research capabilities at the University.

   c. Ex Officio Directors have all rights of participation and discussion and contribution, except for voting at meetings of the Board of Directors. Provided, however, they may be excluded from specific matters by the Chair of the Board of Directors or by majority vote of the Board.

   d. The property, affairs, and business of the Corporation shall be subject to oversight by the Board of Directors.

   e. The IPF Board of Directors may from time to time organize standing or ad hoc committees to provide greater insight into specific areas for which the Corporation’s Board of Directors is responsible. Said committees are to be chaired by a Director and serve with other Directors and non-Directors who have expertise relating to specific committee responsibilities. Committee Chair or member assignments may change at any time as approved by the Board of Directors.

6. **Conflict of interest.**

   a. The Director is considered to have a conflict of interest if: (1) the Director has existing or potential financial or other interest in the matter before the Board, which might reasonably appear to impair the Director’s independent, unbiased judgment in the discharge of his or her responsibilities; or the Director is aware that a family member, or any organization of which the family member is an officer, director, employee,
member, partner, trustee or controlling stockholder, has existing or potential financial interests in any matter before the Board.

b. Any possible conflict of interest on the part of any Director or Officer shall be disclosed to the Board of Directors and made a matter of record either through an annual procedure or when the interest becomes relevant to any matter before the Board.

c. Any Director having a possible conflict of interest regarding a matter before the Board shall not vote or use his or her personal influence on the matter. Such Director shall not be counted in determining the meeting quorum regarding actions related to the potential conflict. The minutes of the meeting shall reflect such disclosure, abstention from voting, and the resulting quorum for action on the matter. The foregoing requirements are not be construed as preventing the Director from briefly stating his or her position in the matter, or from answering questions from other Director since his or her knowledge may be of assistance. Provided, however, the Director may not participate in any debate regarding the matter.

d. This paragraph shall not prohibit a Director, or an organization in which a Director has a financial interest from pursuing a Corporation purchase or contract.

7. Meetings.

a. Regular meetings. The IPF Board of Directors shall meet quarterly unless otherwise determined by the Board. Directors may appear by telephone or streaming video if approved by the Chair. The first regular meeting held during the first quarter of each fiscal year shall be the annual meeting. The specific time and place of each regular meeting shall be fixed by the Chair of the Board of Directors. The purpose of the regular Board meeting should be to establish or update policies, appoint Officers, review finances, review ongoing programs, plan and prioritize future directions, and perform any other appropriate functions as necessary for business operations as allowed pursuant to state and federal law. Directors, Ex Officio Directors, and Officers are invited to submit agenda items to the Recording Secretary or Chair of the Board of Directors fifteen (15) days prior to the subject quarterly meeting date. Ten (10) days prior to the meeting date the Recording Secretary shall give written those of the time, place and location of such meaning to each Director. The Chair of the Board of Directors shall prepare an agenda for issuance by the Recording Secretary with said notice.

b. Special meetings. Special meetings, in addition to a regular meeting, may be called by the Chair of the Board of Directors, or by written request to the Recording Secretary from a majority of the Directors. Written notice of
the time, place and subject matter of each special meeting shall be given to each Director at least ten (10) days before the meeting date.

8. **Leadership of the Board.** The Corporation’s Board may elect, by a majority vote, a Chair and Vice Chair, and may appoint a Recording Secretary.

   a. **Chair.** The Chair of the Corporation’s Board shall serve to carry out the goals and objectives of the Corporation, and shall:

      i. Have and exercise general charge and supervision of the affairs of the Corporation and the Corporation’s Board.

      ii. Provide oversight and guidance to the Corporation’s Executive Director or designee who is responsible for the administration of the affairs of the Corporation. Do and perform such other duties as assigned by the Board.

   b. **Vice Chair.** The Vice Chair of the Corporation’s Board shall serve to carry out the goals and objectives of the Corporation, and shall, in the absence of the Chair of the Corporation’s Board, carry out all obligations and responsibilities assigned by the Chair.

      i. Do and perform such other duties as assigned by the Chair.

      ii. Do and perform such other duties as assigned by the Board.

   c. **Recoding secretary.** The Recording Secretary may also serve as Administrative Assistant. Duties shall include:

      i. Prepare and distribute notices, agendas, waivers and minutes of all Board meetings.

      ii. Keep records containing the name of all Directors, Ex Officio Directors and Officers of the Corporation, including their place of residence.

      iii. Perform such other duties as assigned by the Chair.

   d. **Administrative assistant.** The administrative assistant may also serve as Recording Secretary. Duties shall include:

      i. Have custody of and maintain the corporate books, documents, archives and papers as instructed.

      ii. File all reports required by Idaho law.
iii. Perform such other duties as assigned by the Corporation’s President or Chair.

9. **No Director Compensation.** The Directors shall serve without compensation, but reasonable expenses incurred may be reimbursed when expended for and in the interest of the Corporation under guidelines adopted by the IPF Board of Directors.

**ARTICLE THREE**

**OFFICERS**

1. **Membership.** Corporation Officers may consist of an Executive Director, Treasurer, and as many Vice Presidents as the Board may point. One person may hold more than one position as appointed by the Board. Provided, however, no person holding two or more offices may act in or execute any instrument in the capacity of more than one office.

2. **Appointment.** Corporation Officers shall be appointed and or reappointed at an annual meeting of the Board of Directors and each shall serve until resignation, removal, or until a successor is appointed. A vacancy may be filled by the Board at a regular or special meeting.

3. **Removal.** Any Officer may be removed by majority vote of the Board at either a special meeting or regular meeting.

4. **Salaries.** The salaries or other compensation of Officers shall be reviewed annually, adjusted if necessary and approved by the Board or designated committee. No Officer shall be prevented from receiving salary or compensation by reason of the fact that they are also Director.

5. **Surety bonds.** If required by the Board, an Officer shall execute to the Corporation a bond in such amount and with such surety or sureties as directed, contingent upon the faithful performance of such Officer’s duties, including responsibility for negligence and for the accounting of all property, monies, or securities of the Corporation which may come into his or her hands.

6. **Duties and authority.** Responsibilities and authority of Officers shall be as follows:

   a. Executive Director. The Executive Director of the Corporation serves at the will of the Board. The duties of the Executive Director include:

      i. Direct day-to-day business affairs of the Corporation consistent with the direction of the Board.
ii. Advise, guide and direct the employees or representatives of the Corporation as they carry out the Corporation’s plans and programs, ensuring consistency with Board approved policy and procedure.

iii. Exercise signature authority required by law to commit the Corporation and its assets and resources to the achievement of its mission, limited only by the articles of incorporation, these Bylaws and Idaho law.

iv. Oversee the human resources of the Corporation to assure that each individual is fairly treated in all aspects of their career.

v. Formulate policies for consideration and ratification by the Board.

vi. Establish goals and objectives for the Corporation and ensure that operations are being carried out in concurrence with stated goals.

vii. Oversee the adequacy and soundness of the Corporation’s financial structure.

viii. Represent the Corporation with the University, funding agencies and the community.

ix. The Executive Director shall report to the Board.

b. Vice President. Duties of the Vice President, if any, shall be as determined by the Board.

c. Treasurer. Duties of the Treasurer include:

i. Have custody of all funds, property and securities of the Corporation.

ii. File or cause to be filed all financial, business and tax reports required by federal or state tax codes.

iii. Execute and issue leases, invoices, receipts, vouchers and checks and make payment on behalf of the Corporation.

iv. Keep accurate and full account of monies and obligations of the Corporation, and make such records available to the Board or other Officer at reasonable times upon request.

v. Have such other powers and duties as the Executive Director and Board may determine or as delegated and assigned by the Chair.
ARTICLE FOUR
EXECUTION OF INSTRUMENTS

1. **Contracts.** All contracts which are to be executed by the Corporation shall be signed by someone authorized by Company policies such as the Executive Director. Any contract that would bind the University must be reviewed and approved in accordance with the Operating Agreement between the Corporation and the University.

2. **Other instruments.** Other instruments such as promissory notes, drafts, checks, endorsements and leases shall be signed by the Officers or individuals as determined by resolution of the Board.

3. **Classified contracts.** Contracts of a classified nature shall be handled and signed by those with specific and appropriate clearances. The Board may, by resolution, authorize such classified contracts to be managed and controlled by the Executive Director.

4. **Loans.** No loan or advance shall be contracted on behalf of the Corporation. No negotiable paper or other evidence of its obligation under any loan or advance shall be issued in the Corporation’s name. No property of the Corporation shall be mortgaged, pledged, hypothecated, or transferred as security for payment of any loan, advance, indebtedness, or liability of the Corporation unless and except as expressly authorized by resolution of the Board.

ARTICLE FIVE
VOTING UPON STOCK OF OTHER CORPORATIONS

Unless otherwise ordered by the Corporation’s Board of Directors, the Executive Director shall have full power and authority on behalf of the Corporation to vote either in person or by proxy at any meeting of the stockholders of any Corporation in which the Corporation may hold stock.

ARTICLE SIX
FEDERAL TAX EXEMPTION

The Corporation will seek a federal tax exemption as defined under Internal Revenue Code § 501(c)(3). If the Corporation becomes tax exempt, it will perform all acts required to retain tax-exempt status and will refrain from any activities forbidden by Internal Revenue Code § 501(c)(3). The Corporation will not solicit charitable contributions.

ARTICLE SEVEN
LIABILITY AND INDEMNIFICATION
1. Directors, Ex Officio Directors, Officers and employees of the Corporation shall not be individually or personally liable for the debts or obligations of the Corporation and shall be indemnified by the Corporation against all financial loss, damage, costs, and expenses incurred by or imposed upon them in connection with or resulting from any civil or criminal action, suit, proceeding, claim of investigation in which they may be involved by reason of any action taken or omitted to be taken by them in good faith as a Director, Ex Officio Director, Officer, or employee of the Corporation.

2. Provided, however, the indemnification set forth above is subject to the condition that a majority of the Board, provided a quorum is present, who are not parties to such action, suit proceeding, claim of investigation or, if there be no such quorum, independent counsel selected by a quorum of the entire Board, shall be of the opinion that the involved person or persons exercised and used the same degree of care and skill as a prudent person would have exercised or used under the circumstances, or that such person took or omitted to take such action in reliance upon advice of counsel of the Corporation, or upon information furnished by a Director or Officer of the Corporation, and accepted in good faith and prudence by such person.

3. The indemnification set forth above shall inure to the benefit of the heirs, executors, and personal representative of any Director, Officer or employee and shall not be exclusive of any other rights to which such person may be entitled by law or equity or under any resolution adopted by the Board.

ARTICLE EIGHT
INDEPENDENT AUDIT AND FISCAL YEAR

After the close of each fiscal year, the Corporation's Board of Directors shall cause an audit, as required by law or as directed by the Board, of all Corporation assets and accounts to be made. The fiscal year of the Corporation shall be the same as that of the University.

ARTICLE NINE
ITEMS OF VALUE

Funds, grants, property, intellectual property, rights, claims, and every other item of value received, acquired, or developed by the Corporation shall be held by the Corporation and invested, sold, reinvested, marketed, or otherwise managed under the direction of the Board.

INSTITUTIONS OF THE STATE BOARD

SUBJECT
FY 2015 Supplemental: Fiscal Impact of Guns on Campus Law

APPLICABLE STATUTE, RULE, OR POLICY
Senate Bill 1254 (2014)
Idaho Code §18-3302J
Idaho Code §18-3309

BACKGROUND/DISCUSSION
The 2014 Legislature passed S1254 which reinforced the rights of citizens with certain concealed carry weapons permits to carry guns on Idaho college and university campuses. This law materially changes the security roles and responsibilities at the Idaho higher education institutions. Provisions of the new law will require additional resources in order to ensure the safety of officers, students, faculty and the public.

IMPACT
The fiscal note to S1254 provided that “There is a de minimus fiscal impact associated with posting signage at public entertainment facilities.” However, when S1254 came before the Senate for final consideration, Senator Cameron, Chairman of the Senate Finance Committee, challenged the fiscal note under the provisions of Joint Rule 18.

Joint Rule 18 reads as follows: Statement of Purpose and Fiscal Notes. -- No bill shall be introduced in either house unless it shall have attached thereto a concise statement of purpose and fiscal note. The contact person for the statement of purpose and fiscal note shall be identified on the document. A statement of purpose or fiscal note is not a statement of legislative intent nor intended for any use outside of the legislative process. The statement of purpose and fiscal note applies only to a bill as introduced, and does not necessarily reflect any amendment to the bill that may be adopted. No bill making an appropriation, increasing or decreasing existing appropriations, or requiring a future appropriation, or increasing or decreasing revenues of the state or any unit of local government, or requiring a significant expenditure of funds by the state or a unit of local government, shall be introduced unless it shall have attached thereto a fiscal note. This note shall contain an estimate of the amount of such appropriation, expenditure, or change under the bill. The fiscal note shall identify a full fiscal year's impact of the legislation. Statements of purpose and fiscal notes may be combined in the same statement. All statements of purpose and fiscal notes shall be reviewed for compliance with this rule by the committee to which the bill is assigned. A member may challenge the sufficiency of a statement of purpose or fiscal note at any time prior to passage, except upon introduction. Nothing in this rule shall prohibit a statement of purpose or fiscal note from being revised. (emphasis added)
The institutions will use existing resources and current cooperative partnerships with local law enforcement; however, the institutions have determined that additional resources will be required to protect students, faculty, staff and members of the public on the institutions’ campuses. Some enhancements include access controls and surveillance systems, additional security personnel, and ongoing training.

ATTACHMENTS
Attachment 1 – BSU FY15 Supplemental Page 5
Attachment 2 – ISU FY15 Supplemental Page 7
Attachment 3 – UI FY15 Supplemental Page 11
Attachment 4 – CWI FY15 Supplemental Page 15
Attachment 5 – NIC FY15 Supplemental Page 19

STAFF COMMENTS AND RECOMMENDATIONS
The President’s Council met on August 5, 2014 and determined it was necessary and appropriate to request a FY 2015 supplemental appropriation to address the actual fiscal impact of responding to S1254. Only Lewis-Clark State College and College of Southern Idaho opted not to request additional funding. All ongoing and one-time funds are being requested as a supplemental in FY 2015 except for College of Western Idaho (CWI) which is requesting $162,600 for FY 2015 and an annualized amount of $115,300 for FY 2016.

The agenda for FY 2016 line items (BAHR Finance Tab 1) contains campus security budget line items for Boise State University, College of Western Idaho and North Idaho College only. If the Board approves the FY 2015 supplemental budget requests as submitted, those will be in lieu of the corresponding FY 2016 line items request with the exception of College of Western Idaho’s FY 2016 line item which would need to be reduced to $115,300. If the Board does not approve the FY 2015 supplemental requests, staff recommends the Board approve the campus security line times at Boise State University, Idaho State University, University of Idaho and North Idaho College at the amount submitted in this agenda, and to increase the request by College of Western Idaho to a total of $277,900.

BOARD ACTION
I move to approve the FY 2015 supplemental appropriation requests for Boise State University, Idaho State University, University of Idaho, College of Western Idaho and North Idaho College as submitted, to eliminate the corresponding FY 2016 line items for Boise State University and North Idaho College in the BAHR Finance Tab 1 agenda, and to reduce the College of Western Idaho’s FY 2016 line to $115,300.

Moved by _________ Seconded by _________ Carried Yes _____ No _____

OR
BOARD ACTION

I move to approve the requested funding for campus security at Boise State University, Idaho State University, University of Idaho and North Idaho College as FY 2016 line items in the amount submitted in this agenda, to revise the request by the College of Western Idaho to a total of $277,900, and to eliminate the corresponding FY 2016 line items for Boise State University and North Idaho College in the BAHR Finance Tab 1 agenda.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
The primary mission of Boise State University’s Security Department is to provide a safe and secure campus environment. Senate Bill 1254 was passed into law and concealed weapons on campus are allowed on campus with the beginning of FY 2015. Further, Senate Bill 1254 expressly prohibits firearms in campus dormitories or a venue hosting 1,000 people or more. This prohibition requires an enhanced access control program that necessitates metal detection capability at entrances. This capability requires additional trained security personnel, as well as armed campus security personnel to
handle the resulting weapons situations. The impact is a substantial increase in security costs for FY 2015 and beyond.

This Supplemental Funding Request includes the following:

- Permanent funding for 10 FTE with salaries and fringe benefits totaling $903,785. These positions include an Asst. Director Event Security, Chief of Campus Police and Public Safety, Director of Emergency Management, Security Technology Manager, 3 armed officers, 1 Security Supervisor, 1 Unarmed Officer, and Admin. Support.
- One-time funding to cover the purchase of metal detectors, hand held wands, signage, screeners, 1 new security vehicle and ballistic vests for personnel. These include costs incurred for game day security needs at Albertson’s Stadium and other major events held on campus totaling $443,448.
- Permanent funding for ongoing training exercises and other operating expenses totaling $45,000.

Supports institution/agency and Board strategic plans:

Goal ______________ [e.g. Goal 1, Objective 3]

[Insert narrative here.]

Performance Measure: ________________________________________________

[Insert narrative here.]
Description:

Security enhancements required to implement the new guns-on-campus law. Legal changes to reinforce the rights of citizens with certain concealed carry permits to bear arms on campuses in Idaho changes the security environment at ISU. Portions of the new law make it a crime to carry weapons, with or without a permit, into certain facilities on campus. Enforcement of this provision will require additional equipment to detect and prevent entry of weapons, as well as apprehension of violators of the law. Additionally, there is a significantly increased risk that campus security officers will encounter situations where individuals will be armed. In order to ensure the safety of officers, students, faculty and the public, it is essential that officers be provided the appropriate equipment, training, and support staff to address allegations of violation of the law, intercede with violators, and respond to emergency situations. This request provides for these essential requirements, including the arming of campus patrol officers.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   This is a new requirement based on newly enacted laws. There is no base funding.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
   c. List any additional operating funds and capital items needed.

   Personnel: Hiring of four senior security officers (pay grade G), six dispatch officers (pay grade F), and one emergency manager (non-classified); and the upgrade of four existing security officers (pay grade F) to senior security officers (pay grade G) to enable arming of junior officers.

   Equipment and Supplies: One-time purchase of metal detectors for banned facilities, firearms for patrol officers, and personal protective/response equipment for new officers.

   Training: Recurring annual personnel training and certification related to new duties and responsibilities inherent in implementation of the new law.
3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

All expenses require new appropriated general funds totaling $798,700 split between one-time costs of $185,000 and recurring annual costs totally $613,700.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Students, faculty, staff and visitors at the Pocatello, Idaho Falls, and Meridian campuses are being served by this request. The funding will provide enhanced training, provide greater protection to the campus and purchase associated equipment.

Failure to fund this request may put the campus community at an increased risk in the event of violations of the new law and/or of violent emergency situations. The university might also be at legal risk of failing to comply with enforcement of the new law, and for inadequate response to events as outlined in existing laws including the Clery Act.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This is a new requirement and was not requested in previous budgets.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
The Office of Public Safety and Security within the University of Idaho is focused on creating and maintaining a safe environment for the University community and those who visit. The University engages with internal and external stakeholders to create effective and efficient safety and security programs that enhance the living, learning and working experience at the University of Idaho.

In light of this commitment to a safe environment the University of Idaho has carefully considered the potential impacts of Senate Bill 1254 on campus safety and security. The University will continue to contract with the Moscow Police Department to provide an armed presence on campus as well as additional support as needed in the event of
any type of security issue or other emergency. This existing contractual arrangement does not require any additional state resources and takes advantage of the Moscow Police Department’s existing presence on campus and the location of its headquarters only minutes away from the Moscow campus.

In addition to utilizing the existing relationship with the Moscow Police Department the University is requesting state funding to invest in a more comprehensive campus security surveillance system as well as expanded non-armed security presence on campus. These improvements will increase the overall safety of the campus regardless of the nature of the security issue or emergency.

Questions:
1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   The University of Idaho is requesting $275,000 in on-going and $305,300 in one-time funding to purchase a security surveillance system, expand the scope of its current security contract and provide additional training to contracted security personnel as related to friendly intervention with firearms.

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

      This request includes on-going funding for one full-time benefit eligible Security System Manager position ($75,000 salary plus benefits).

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   c. List any additional operating funds and capital items needed.

      Ongoing operating funding of $165,000 is being requested to expand the current security contract (currently with Allied Barton) to provide additional ongoing training and add two additional security officers for expanded coverage for campus dispatch and surveillance monitoring. Ongoing funding of $35,000 is being requested for annual security system maintenance.

      One-time funding totaling $305,300 is being requested for 291 new security cameras, related software licenses, management software, servers and upgrades to existing systems. This expanded system will cover the entries/exits of all primary facilities.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   This request is 100% State General Funds.
4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   This request serves the University community including students, faculty, staff and all who visit the University of Idaho campus.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
Supports institution/agency and Board strategic plans:

**Idaho SBOE Goal 1, Objectives A**

**GOAL 1: A WELL EDUCATED CITIZENRY** *The educational system will provide opportunities for individual advancement.*

**Objective A: Access** – Set policy and advocate for increasing access for individuals of all ages, abilities, and economic means to Idaho’s P-20 educational system.

CWI Goal 1, Objectives 1; Goal 2, Objective 1

Institutional Priority 1: Structure Student Success – The College of Western Idaho will implement a variety of programs to foster students’ success in reaching their educational and/or career goals.

Objective 1: CWI will be actively involved in college readiness efforts that prepare students for success.

Performance Measure: Promote and publicize the positive financial and personal benefits of earning a degree or certificate from a community college.

Institutional Priority 2: Develop Systems to Support Faculty and Staff – The College of Western Idaho will prioritize support for employees, which thereby maximizes student success.

Objective 1: Develop resource allocation guidelines to effectively deliver programs and services.

Performance Measure:

[To be developed]

Description:

CWI will initiate a ‘School Resource Officer (SRO)’ type program, which would be the most economical option for armed, P.O.S.T. certified law enforcement presence. This would be the most viable direction to proceed, considering the CWI two campus concept. The SRO would have oversight of all law enforcement issues, training, security assessments, and so forth.

The program is requested to begin in March 2014 (FY 2015), and continue at the same level in FY 2016.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

   CWI requests a total of $277,900 for armed police presence, as contracted from local police agencies. Of that total amount, $162,600 is requested in fiscal year 2015 as a Supplemental Appropriation. Twelve months of operation is requested in Line Item 12.03.

   Currently, CWI does not employ armed police officers, either directly or by contract. The current staffing level for unarmed security is approximately 12 full time and 7 part
time contract positions. CWI currently spends approximately $556,000 (FY 2014 dollars) for security (mostly for contract security staff).

2. What resources are necessary to implement this request?
   a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

   This request includes two full-time, additional sworn police officers, contracted through a public law enforcement agency. It is estimated these positions would be in 'Police Officer III – Advanced', positions, with an hourly/annual pay rate of $29.22/$60,778, plus benefits. These officers would be employed by a local law enforcement agency, with PERSI benefits.

   The Supplemental Appropriation assumes four months of operation in FY 2015, and twelve months of operation in FY 2016.

   b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

   No existing human resources would be redirected.

   c. List any additional operating funds and capital items needed.

   It is estimated that approximately $100,000 would be needed for vehicles for the officers (paid to the local agency via contract), training, equipment, and related. These vehicles would be purchased by the contracting agencies; CWI would include the amount in the initial payment to the contracting agencies.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

   Fund source is expected to be the State General Fund.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

   Students, faculty, staff and visitors would all be served by this request. Due to the distance between CWI locations, it has been the procedure of CWI Security to provide a presence at all locations while the buildings are occupied with students. In locations such as Aspen Creek where the building are in close proximity, CWI Security provides an officer for the entire site and the officer covers all 3 buildings and grounds. This would also be the case in any location that has multiple building, or a more traditional campus setting.

   If this request is not funded, CWI will have to make operational budgets cuts in order to adequately implement and meet the mandate of the State.
5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
   This item has not been requested in the past.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Performance Measures:

**Narrative Support:** Since the passing of SB 1254, allowing concealed weapons on campus, the safety of our college campuses have come into question. Increased training and personnel within our campus security department along with the installation of surveillance cameras and expanding the capability for securing areas of campus through electronic access will serve to make our campus safer.

**Description:** Enhancing the capabilities of our campus security by providing an increased visual presence and ability to respond to multiple calls will better serve our students, employees, and visitors.

**Questions:**

1. **What is being requested and why?**
   
   Increased security personnel, campus wide exterior surveillance system, and enhanced electronic access controls. These 3 components will serve to improve the safety of our campus for students, employees, and visitors.

2. **What is the agency staffing level for this activity and how much funding by source is in the base?**
   
   We are requesting 2 full-time, benefitted staff positions. 100% of the funding for this position is base.

3. **What resources are necessary to implement this request**
   
   N/A

4. **Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).**
   
   All anticipated expenditures would be state general funds. $540,000 would be one-time funds for capital purchases.

5. **Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted**
   
   Students, employees, and visitors to the North Idaho College campus will experience a more safe and secure environment. If this request is not funded, we will not be able to provide the enhanced level of safety and security we hope for.

6. **If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.**
This request is being made due to the implementation of SB1245. Previously requested line items are a lower priority within the North Idaho College mission and strategic plan.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.
UNIVERSITY OF IDAHO

SUBJECT
College of Agricultural and Life Sciences university courses offered to high school students for dual credit

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section III Y. Advanced Opportunities.

BACKGROUND/DISCUSSION
The stated intention of dual credit in Board policy is the offering of high quality courses that meet the standards of post-secondary credit for students in high schools. The University of Idaho College of Agricultural and Life Sciences developed courses that meet the required quality and rigor for university course credit. These are catalogued courses and have been offered in partnership with high school agriculture teachers for several years.

These courses are used only for the purpose of providing entry knowledge and skills for high school students. Board policy states that the courses must have the same content as degree courses; these courses do not meet that criteria.

The College of Agricultural and Life Sciences faculty are working to bring the offerings used for dual credit purpose fully in line with Board policy.

IMPACT
Courses are currently scheduled for high school students for the fall 2014 semester. Removal of these courses from the high school dual credit offerings impacts the ability of school districts to provide an appropriate course schedule for students in the fall semester. Additionally, the change in schedule may have an impact on the State Board of Education 60% college completion goal.

STAFF COMMENTS AND RECOMMENDATIONS
In early 2013, Board staff notified the College of Agricultural and Life Sciences (CALS) that many of their dual credit courses were not compliant with Board Policy III.Y. Since then, consecutive Chief Academic Officers have requested the courses be brought into compliance. The CALS has repeatedly said they are working to bring the courses into compliance. In spring 2014, the CALS enrolled high school students in the noncompliant courses and now request this waiver so those students may take the courses this fall. Board Staff recommends two things. First, staff recommends a one semester waiver of Board Policy III.Y – effective Fall 2014. Second, if the courses are not compliant prior to the enrollment period for Spring 2015, staff recommends that CALS notify the partner high schools and other relevant parties to make clear students will not be able to enroll in the courses for dual credit until the courses are compliant with Board Policy III.Y.
BOARD ACTION

I move to approve the request by the University of Idaho for a waiver of Board policy III.Y. Advanced Opportunities, subsection 4, as it applies to the University's College of Agricultural and Life Sciences dual credit courses for the Fall 2014 semester, and direct University staff to work with Board staff to bring the courses into compliance prior to the end of the Fall 2014 term.
