12. Describe how this request fits with the institution's vision and/or strategic plan. *This question is not applicable to requests for discontinuance.*

Goals of Institution Strategic Mission	Proposed Program Plans to Achieve the Goal
<p>Mission: North Idaho College meets the diverse educational needs of students, employers, and the northern Idaho communities it serves through a commitment to student success, educational excellence, community engagement, and lifelong learning.</p> <p>This program meets three of the five strategic goals of this mission. These three goals are:</p> <ul style="list-style-type: none"> • <u>Student Success</u> - A vibrant, lifelong learning environment that engages students as partners in achieving educational goals to enhance their quality of life • <u>Educational Excellence</u> - High academic standards, passionate and skillful instruction, professional development, and innovative programming while continuously improving all services and outcomes • <u>Community Engagement</u> - Collaborative partnerships with businesses, organizations, community members, and educational institutions to identify and address changing educational needs 	<p>The Aerospace Aviation Flight program supports the general mission of the college by:</p> <ul style="list-style-type: none"> • Increasing access to educational opportunities for its students. • Responding to employer demand for graduates in a range of specializations. • Expanding the ability of North Idaho College to respond to the economic and workforce development needs in northern Idaho. <p>NIC Strategic Goals: NIC 2012-2016 Strategic Plan:</p> <p>Goal 2 - Educational Excellence, Objective 1: Evaluate, create, and adapt programs that respond to the educational and training needs of the region. The new Aviation Flight program will meet emerging needs in the state of Idaho. Employment projections for commercial pilots in Idaho and nationally is on the rise. Community Colleges can provide a complete academic experience as a partner with the FAA's required curriculum.</p> <p>Goal 3 - Community Engagement, Objective 1: Advance and nurture relationships throughout our service region to enhance the lives of the citizens and students we serve.</p> <p>The Aerospace Aviation Flight program is working with several local partners including Empire Airlines, ADVASO and the Coeur d'Alene Airport. These partners are committed to acting as industry advisors, providing work-based learning activities, feedback for curriculum development, and helping to secure additional resources.</p> <p>Goal 3 - Community Engagement, Objective 2: Demonstrate commitment to the economic/business development of the region.</p> <p>In 2011, the Idaho Aerospace Alliance (IDA) was formed to promote and expand the Idaho economy. IDA is comprised of aviation and aerospace related companies committed to growing the industry sector. The IDA endorses NIC's Aerospace programs and will assist with identification of job openings, skills and qualifications needed for employment, and act as subject matter experts, industry representatives and advisory board members.</p> <p>Goal 5 - Stewardship, Objective 1: Exhibit trustworthy stewardship of resources.</p> <p>The Aviation Flight program will be offered through a contractual partnership with an industry partner that will limit the amount of resources NIC will need to commit to the program. NIC will utilize community partnerships to secure fiscal and in-kind resources to assist in sustaining program activities. Since the curricula must remain sensitive to the evolving industry, NIC will solicit employers to invest their training budgets into the aerospace programs thereby reducing program and service replication. Tuition dollars, state funding, and industry and NIC Foundation support will sustain funding beyond the life of the grant. Please see webpages for the full North Idaho College Strategic Plan.</p>

14. Is the proposed program in your institution's Five-Year plan? Indicate below. *This question is not applicable to requests for discontinuance.*

Yes X No _____

If not on your institution's Five-Year plan, provide a justification for adding the program.

Aviation Flight - Helicopter program has just been added to NIC's five year plan. NIC is meeting the Aerospace industry's state and regional workforce growing need by providing an opportunity to train helicopter pilots.

15. Explain how students are going to learn about this program and where students are going to be recruited from (i.e., within institution, out-of-state, internationally). *For request to discontinue program, how will continuing students be advised of impending changes and consulted about options or alternatives for attaining their educational goals?*

Students will learn about this program through instructor visits to area high schools, advisory members, former students, special events such as career fairs and a local event called Hard Hats, Hammers, and Hot Dogs which is sponsored by local industry and North Idaho College. Recruiting efforts will focus primarily to the state of Idaho, and veteran students.

NIC's partner, Inland Helicopter will also be required to participate in the recruitment effort on behalf of NIC.

16. Program Resource Requirements. Using the Excel spreadsheet provided by the Office of the State Board of Education, provide a realistic estimate of costs needed for the overall program. This should only include the additional costs that will be incurred and not current costs. Include both the reallocation of existing resources and anticipated or requested new resources. Second and third year estimates should be in constant dollars. If the program is contract related, explain the fiscal sources and the year-to-year commitment from the contracting agency(ies) or party(ies). Provide an explanation of the fiscal impact of the proposed discontinuance to include impacts to faculty (i.e., salary savings, re-assignments).

Program to Begin Jan. 2016 FY16

Self Support Model

Model	Students	Sub-total	Total
Revenue:			
• Tuition	8 @ \$1,800 semester	\$14,400	
• Course fees	8 @ \$20,000 semester	\$160,000	\$174,400
Expenses:			
• Adjunct (include benefits) COSTS	\$865 @ 15 credits	\$13,200	
• Flight time costs	8 @ \$20,000	\$160,000	
• Supplies	\$1,200	\$1,200	\$174,400

Total Expenditures	\$174,400.00	\$0.00	\$174,400.00	\$0.00	\$174,400.00	\$0.00	\$523,200.00	\$0.00
Net Income (Deficit)	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00

Ongoing is defined as ongoing operating budget for the program which will become part of the base.

One-time is defined as one-time funding in a fiscal year and not part of the base.

Flight Fees are a pass through from student to Inland Helicopter. Not a college expense

**CLIENT SERVICES
CONTRACT BETWEEN
NORTH IDAHO COLLEGE
AND
INLAND HELICOPTER**

This contract is made and entered into by and between North Idaho College, hereinafter referred to as the "COLLEGE," and the below named firm, hereinafter referred to as "CONTRACTOR."

Inland Helicopter
5505 East Rutter Ave.
Spokane, WA 99212
509-534-9114
IBI: 602572842

PURPOSE

The purpose of this contract is to provide flight training to students of the COLLEGE as outlined in this contract. Due to the procedures required by the Veteran's Affairs (VA) Office and college policies, this contract requires additional approvals. It is the intent of the COLLEGE to submit this contract to the VA for VA approval for the Program.

SCOPE OF WORK

- I. The CONTRACTOR will provide services and staff, and otherwise do all things necessary, for or incidental to the performance of work as set forth below:

Provide helicopter training for those students currently enrolled at the COLLEGE.

- 1) Maintain an Idaho business license for Flight Training and operate within the state of Idaho for at least two years.
- 2) Provide flight instruction under Federal Aviation Regulations (FAR) Part 141 both dual and solo for the benefit of the students enrolled in flight certification courses. Training for COLLEGE aviation students, pursuing flight certification and ratings, shall be done in a timely manner.
- 3) Flight training and pilot debriefing shall be done during the normal work day and work weeks of the COLLEGE.
- 4) All training for certificates and ratings for Helicopter Pilots shall be done in a manner approved by the Federal Aviation Administration (FAA), under FAR Part 141, and that all aircraft utilized in such training be similarly approved.

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

- 5) The CONTRACTOR shall have flight instructor and appropriate aircraft available for scheduled training to fulfill the needs of COLLEGE aviation students in a timely manner. All aircraft shall be based at Coeur d'Alene airport. All flight operation in instruction for the specific phase of training shall commence and terminate at the respective airport unless otherwise authorized by appropriate COLLEGE officials. Overnight training flights must receive prior approval from the CONTRACTOR's chief flight instructor or the designated assistant. All aircraft administrative personnel and flight instructors necessary to fulfill COLLEGE aviation student's helicopter training requirements shall be employed by the CONTRACTOR and have received syllabus training.

- 6) The CONTRACTOR shall provide the COLLEGE with a Standard Operating Procedure (SOP) manual for approval by the COLLEGE aviation faculty. The COLLEGE may request and the CONTRACTOR must provide a revised SOP as required by the Aviation Faculty of the COLLEGE. SOP revisions must be requested by the COLLEGE after June 15th of each year and prior to August 1st of each year. Guidance for the development and revision of SOP shall be obtained from appropriate Federal Aviation Regulation FAR and Advisory Circulars (AC) and Aeronautical Information Manual (AIM). The adopted SOP shall be the policy and no changes shall be made without approval of COLLEGE aviation faculty and shall include the following:
 - a) Flight student regulations
 - b) Equipment requirements
 - c) Cost of flight training
 - d) Methods of payment
 - e) Safety procedures
 - f) Change of business operation or location
 - g) Dress code
 - h) Training areas
 - i) Training Syllabus, including specific standard procedures for conducting all the "tasks" for each course of instruction as outlined under 'Areas of Operation' in the Practical test Standards published by the Federal Aviation Administration
 - j) Auxiliary training fields
 - k) Off airport landings
 - l) Mechanical malfunctions

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

- m) Scheduling policies: Priority scheduling, no shows, waiting lists
- n) Evaluation and debriefing procedures
- o) Sample "progress sheets" to be used in student progress folders
- p) Harassment training, workplace safety, financial aid and following school policy.

A new copy of the SOP manual shall be provided to each student prior to the first training session. This SOP manual shall be a combination of the CONTRACTOR's SOP and the COLLEGE's Manual, with appropriate input from both parties.

- 7) The CONTRACTOR shall maintain a student progress folder which shall include:
 - a) Number of times (per week) each student schedules
 - b) A computerized tracking or manual tracking system of what occurred during flight to include:
 - i) Lesson number
 - ii) Completion or reason for not completing (i.e. mechanical, weather, student no show, etc.)
 - c) A written evaluation of each flight stage check will be put in the student's folder.
- 8) The CONTRACTOR agrees to the following training practices:
 - a) The COLLEGE has the right to review any student folder upon request.
 - b) The CONTRACTOR must submit to the COLLEGE Aviation program one copy of the flight records and TSA records for each student who completes or discontinues the program.
 - c) The CONTRACTOR and COLLEGE shall hold meetings within two weeks of request by either party, except where the nature of the meeting is to discuss safety issues, in which cases meeting will take place within 24 hours of request.
 - d) The COLLEGE aviation faculty has the right to monitor the CONTRACTOR'S operation and shall have the right to first refusal to administer all flight stage checks, but only flight stage checks that the COLLEGE personnel are authorized and qualified to perform.
 - e) The COLLEGE and the CONTRACTOR jointly will establish the maximum number of students on active status for the flight training each semester. The maximum number of flight training students for the semester on active status shall be determined by the

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

COLLEGE and the CONTRACTOR. The CONTRACTOR must assure that sufficient quantity and quality of instructors and aircraft are available to meet flight training obligations for COLLEGE aviation training requirements.

- f) The COLLEGE shall coordinate with the CONTRACTOR overall student management practices to include: extended delays of training, family emergencies, and discipline problems. Students have the same rights and responsibilities as other students in the aviation program regarding deficiencies or program concerns. The COLLEGE has the right to become involved in CONTRACTOR operations to avoid situations which the COLLEGE believes may be detrimental to the aviation program and/or the COLLEGE's students. This includes requiring the CONTRACTOR to adopt or revise the SOP to comply with the COLLEGE's requirement for training, provided such changes shall be consistent with FAR 141 training requirements.
 - g) The COLLEGE will provide ground school training; students will pay regular college tuition for this class.
 - h) In the event an aircraft is scheduled to be grounded for more than 15 days and there is no similar model available, funding will be reimbursed to the student and the student will pay for training with another provider.
- 9) CONTRACTOR agrees to provide the following described aircraft (helicopter) for the services set forth at the following rates:

Each Vendor Will List Out Their Equipment List and Prices	Cost Per Hour of Instruction	Cost Per Hour for Rental	Fuel Surcharge Per Hour	Estimated Miscellaneous Costs Per Semester
Robinson R22	\$30.00	\$265.00	NA	NA
Robinson R44	\$30.00	\$490.00	NA	NA
Fly It Sim	NA	\$130.00	NA	NA
Bell 206	\$30.00	\$1,020.00	NA	NA

The prices above shall be fixed for the term of the contract except when fees may be adjusted based on the cost of aviation fuel. The CONTRACTOR shall then give 60 days' written notice to any cost increase.

A fuel surcharge may be only added when and if the aviation fuel costs increase exceeds 10% of the base cost established each semester. The fuel surcharge factor is a fuel burn rate of gallons per hour. Fuel surcharges will be computed by subtracting the base cost of aviation fuel from the current cost, then multiplying by the factor and then multiplying by the hours the aircraft was rented. The base of Avgas is at the time of this contract is \$5.49/gal and Jet-A at the time of this contract is \$4.39/gal.

In no case during the course of this agreement may rates exceed those available to the general

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

public for similar equipment, service, fuel and insurance packages.

10) The CONTRACTOR further agrees to the following aircraft specifications:

- a) The CONTRACTOR must maintain a fleet of at least 1-2 training aircrafts. Current lease agreements or proof of ownership indicating the CONTRACTOR has sole use of the aircraft must be furnished at the time of contract submittal.
- b) No aircraft in the fleet shall be older than 25 years old, without special permission from the COLLEGE, or have a total airframe time in excess of 12,500 hours. The average age since manufacture of all aircraft shall not exceed 20 years.
- c) Instrument cross-country trainings shall have a minimum of the following operational equipment:
 - 1. At least one Nav/Comm
 - 2. Transponder with encoding altimeter
 - 3. IFR Certified GPS
- d) CONTRACTOR must provide detail of manufacturer and model of radio equipment prior to final contract execution and designated these to be used for instrument training.
- e) No aircraft shall be used for training purposes having malfunctioning or inoperative electrical, avionic or mechanical components unless those items have been disabled, placarded, and determined to be not required by FAA regulations for the training operation planned.

11) The CONTRACTOR will provide the bookstore a list of items for purchase to be used in flight training to include:

- a) Headset
- b) Pilot Operating Handbook
- c) Sectional Charts
- d) Terminal Charts as necessary
- e) IFR approach plates
- f) Airport Facility Directory
- g) Logbook

- h) Plotter
 - i) E6B Flight Computer
 - j) Practical Test Standards
 - k) For the helicopter licenses:
 - i. Flight training book
 - ii. FAA study guides
 - iii. Rating study guides, including oral exam guides
 - iv. Flight syllabus
 - v. Record folder
- 12) The CONTRACTOR shall be responsible for scheduling all student flight requirement invoicing the college each month. The CONTRACTOR shall monitor hours and insure that billable hours will not exceed published fees per semester. All North Idaho College students will pay a \$10.00 per hour flight fee in addition to the CONTRACTOR's regular flight fees. These fees shall be reimbursed to the COLLEGE monthly.
- 13) The CONTRACTOR will register and process all VA students enrolled in the helicopter training stage. The minimum number of students is eight (8), for the helicopter program. If this number is not met, the CONTRACTOR and the COLLEGE would have the right to request termination of this agreement.
- 14) Any changes to this contract will be coordinated with the COLLEGE's Contract Manager and the CONTRACTOR.
- 15) Notwithstanding RCW 1.12.07, such communication shall be effective upon the earlier of receipt for four (4) calendar days from mailing.
- 16) That all obligations of the parties hereto incurred or existing under terms of this agreement at the date of termination shall survive such termination.
- 17) In the event the CONTRACTOR makes a unilateral decision to discontinue the contract, the CONTRACTOR will work with the COLLEGE in order to establish teach-out options for all students currently enrolled in the program within the state of Idaho.
- 18) The COLLEGE will be fully responsible for the educational offerings (program, courses) and have complete oversight of faculty salaries, security, tuition setting and tuition refund, and educational facilities.
- 19) The COLLEGE shall establish student enrollment and fully disclose the enrollment agreement to students before payments are collected.

**INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015**

- 20) The COLLEGE shall establish student recruitment and identify field agents.
- 21) The COLLEGE, a not-for-profit institution, will maintain tax exempt status and will not engage in any activities that will negatively affect the COLLEGE's tax exempt status.
- ii. Exhibit A contains the General Terms and Conditions governing work to be performed under this contract, the nature of the working relationship between the COLLEGE and the CONTRACTOR, and specific obligations of both parties.

PERIOD OF PERFORMANCE

Subject to other contract provisions, the period of performance under this contract will be from _____ through _____.

COMPENSATION PLAN

COLLEGE shall pay an amount not to exceed the tuition allowance stated in the letter from the COLLEGE for each student based on class registration for the performance of all things necessary for or incidental to the performance of work as set forth in the Scope of Work. The \$10.00 hourly flight fees for North Idaho College students shall be reimbursed to the COLLEGE monthly. CONTRACTOR compensation for services rendered shall be based on the following raters or in accordance with the following items:

BILLING PROCEDURES:

COLLEGE will pay CONTRACTOR upon receipt of properly completed invoices, which shall be submitted to the Contract Manager not more often than monthly. The invoices shall describe and document, to the COLLEGE's satisfaction, the work performed, the progress of the student and other approved fees.

Payment shall be considered timely if made by the COLLEGE within 30 days after receipt of properly completed invoices. Payment shall be sent to the address designated by the CONTRACTOR.

The COLLEGE may, in its sole discretion, terminate the contract or withhold payments claimed by the CONTRACTOR for services rendered if the CONTRACTOR fails to satisfactorily comply with any term or conditions of this contract.

No payments in advance or in anticipation of services or supplies to be provided under this contract shall be made by the COLLEGE.

The COLLEGE shall not pay any claims for payment of services submitted more than twelve (12) months after the calendar month in which the services are performed.

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

DUPLICATION OF BILLED COSTS: The CONTRACTOR shall not bill the COLLEGE for services performed under this contract, and the COLLEGE shall not pay the CONTRACTOR, if the CONTRACTOR is entitled to payment or has been or will be paid by any other source, including grants, for that service.

DISALLOWED COSTS: The CONTRACTOR is responsible for any audit exception or disallowed costs incurred by its own organization or that of its subcontractors.

CONTRACT MANAGEMENT: The Contract Manager for each of the parties shall be the contact person for all communications and billings regarding the performance of this contract.

David Valenti Owner Inland Helicopter 5505 East Rutter Ave. Spokane, WA 99212 Phone: (509) 534-9114 Fax: (509) 534-9161 E-mail address: Inlandhelicopters.com	Chris Martin Vice President for Finance North Idaho College 1000 W. --	--

INSURANCE: The CONTRACTOR shall provide insurance coverage as set out in this section. The intent of the required insurance is to protect the state should there be any claims, suits, actions, costs, damages or expenses arising from any negligent or intentional act or omission of the CONTRACTOR or subcontractor or agents of either, while performing under the terms of this contract.

The insurance required shall be issued by an insurance company(s) authorized to do business within the state of Idaho, and shall name the state of Idaho, its agents and employees, as additional insured under the insurance policy(s). All policies shall be primary to any other valid and collectable insurance. CONTRACTOR shall instruct the insurers to give the COLLEGE 30-days advance notice of any insurance cancellation.

CONTRACTOR shall submit to the COLLEGE within 15 days of the contract effective date, a certificate of insurance, which outlines the coverage and limits defined in the Insurance Section.

CONTRACTOR shall submit renewal certificates as appropriate during the term of the contract.

The CONTRACTOR shall provide insurance coverage that shall be maintained in full force and effect during the term of this contract, as follows:

Commercial General Liability Insurance Policy

Provide a Commercial General Liability Insurance Policy, including contractual liability, written on an occurrence basis, in adequate quantity to protect against legal liability arising out of contract

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

activity but no less than \$1,000,000 per occurrence. Additionally, the CONTRACTOR is responsible for ensuring that any subcontractors provide adequate insurance coverage for the activities arising out of subcontracts.

Aviation Liability

In the event that services delivered pursuant to this contract involve the use of vehicles, owned or operated by the CONTRACTOR, automobile liability insurance shall be required. The minimum limit for automobile liability is:

\$1,000,000 per occurrence, using a Combined Single Limit for body and property damage.

Aviation Insurance

CONTRACTOR shall obtain at CONTRACTOR's expense, and keep in effect during the term of this contract, Aircraft Liability Insurance for each aircraft which includes Bodily Injury and Property Damage. Coverage shall be written on an occurrence basis. CONTRACTOR shall provide proof of insurance of not less than the following amounts as determined by Service Contract:

Per occurrence limit for any single claimant \$1,000,000. CSL sub-limit not less than \$100,000 per passenger.

ASSURANCES

COLLEGE and the CONTRACTOR agree that all activity pursuant to this contract will be in accordance with all the applicable current federal, state, and local laws, rules, and regulations.

ORDER OF PRECEDENCE

Each of the exhibits listed below are by this reference hereby incorporated into this contract. In the event of an inconsistency in this contract, the inconsistency shall be resolved by giving precedence in the following order:

- Applicable Federal and State of Idaho statutes and regulations.
- Special Terms and Conditions as contained in this basic contract instrument.
- Any other provisions, terms, or material incorporated herein by reference or otherwise incorporated.

ENTIRE AGREEMENT

This contract, including referenced exhibits, represent all the terms and conditions agreed upon by the parties. No other understandings or representations oral or otherwise regarding the subject matter of this contract shall be deemed to exist or to bind any of the parties hereto.

CONFORMANCE

If any provision of this contract violates any statute or rule of law of the state of Idaho, it is considered

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

modified to conform to that statute or rule of law.

APPROVAL

This contract shall be subject to the written approval of the COLLEGE's authorized representative and shall not be binding until so approved. The contract may be altered, amended or waived only by a written amendment executed by both parties.

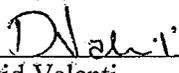

This contract is binding pending upon the approval of the Idaho State Board of Education and the Northwest Commission on Colleges and Universities (NWCCU).

THIS CONTRACT, consisting of 10 pages and is executed by the persons signature below who warrant that they have the authority to execute the contract.

IN WITNESS WHEREOF, the parties have executed this agreement as of the date written below.

TSA

*The list of SOC codes does not need to be comprehensive but should provide meaningful examples of occupations related to the program.

STUDENT LEARNING OUTCOMES

List the student learning outcomes for the program:

This program prepares students for a career in aviation flight training. All aviation helicopter flight training classes are offered through Inland Helicopter's FAA Part 141 certificate. Students are required to take all the courses listed plus any electives necessary to meet semester and program credits totals.

The program outcomes are:

Successfully meet the outcomes of FAA approved flight training curriculum consisting of approximately 240 hours of flying time.

Successfully meet the outcomes of the FAA Part 141 approved flight and ground school curriculum which includes formal classroom instruction divided among seven required subjects.

Meet the required FAA eligibility qualifications for one or more of the following to sit for an FAA exam:

- FAA approved Roto-craft (Helicopter) Student pilot License
- Private pilot License
- Commercial Pilot License
- Commercial Flight Instructor Pilot License

Become a FAA licensed pilot and enter the workforce.

Answer the following questions in the category that applies for either "New Program or Option" or "Non-Substantive Change"

NEW PROGRAM OR OPTION

1. Describe how this request is consistent with the Division of Professional-Technical Education's strategic plan.

North Idaho College's Aviation Flight Helicopter program will prepare youth or adults for careers in aviation and collaborate with industry to design and a provide high-quality program.

Synchronized system | *A coordinated, coherent system that demonstrates responsiveness and effectiveness in addressing Idaho's workforce needs 100% program license achieved.*

North Idaho College's Aviation Flight Helicopter program meets the growing workforce needs for commercial pilots and the upcoming workforce needs for the aerial unmanned vehicle industry for which Idaho received an agriculture exemption to participate in.

Industry engagement | *Business and industry are fully engaged and integrated into system operations.*

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

Revised 7/13

North Idaho College's Aviation Flight Helicopter program has received several from industry partners in letters of support of this program due to a workforce need.

Student success | Systems, services, resources, and operations support high performing students in high performing programs transitioning to employment.

Aviation pilot's license is highly specialized and meets FAA requirements for attainment. NIC will provide student access to highly qualified flight instructors who meet the FFA requirements for licensing and certification.

2. Describe the discussion with PTE and the TCLC regarding this request.

North Idaho College is scheduled to present on the May 7, 2015 agenda and has submitted draft proposals to the PTE state division office for prior review.

3. Provide advisory committee/industry input supporting this request.

North Idaho College has solicited members for an aviation advisory board and has received several letters of support. Empires Airlines, Inland Helicopter, IDOL, and NIC Work Force Training Director have all agreed to be members of the advisory board.

4. What is your plan to mitigate the impact this request will have on similar secondary and postsecondary programs (e.g. advanced learning opportunity, early college, distributed/hybrid)?

Sandpoint High School is actively engaged in an aviation club and elective classes to help students earn their sport pilot license. Aviation pilot license can be obtained by students concurrently enrolled. Pilot licenses are not restricted to adults. The northern region of Idaho does not have any other institutions of higher education that offer aviation flight programs.

NON-SUBSTANTIVE CHANGE

Changes to a program name or title changes (e.g., programs, degrees, certificates, departments, divisions, colleges, or centers), Course number/prefix change, Course title change, Credit/lab/contact hour change, Semester offered change, Catalog description change, Co-/Prerequisite change, Create new Course(s), Delete existing course(s).

1. Describe the impact this change will have on students currently enrolled in the existing program.
2. Provide advisory committee/industry input supporting this change.

**INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015**

Revised 7/13

3. What is your plan to mitigate the impact this change will have on similar secondary and postsecondary programs (e.g. advanced learning opportunity, early college, distributed/hybrid)?

COURSE TITLES, DESCRIPTIONS AND CREDITS

List all technical course titles, descriptions, and credits for this program.

COURSE	COURSE TITLE	NIC CREDIT	NIC HOURS
AEFT 101	Introduction to Flight	1	15
This course introduces the student to the aircraft, its flight manual, the basic federal aviation regulations, elementary principles of flight, aircraft operation, and NIC flight school rules. This course is mandatory for all new students. (Lecture)			
AEFT 104	Private Pilot Ground School	4	60
This course prepares the student to take the FAA private pilot knowledge examination. It includes basic navigation, weather, federal aviation regulations, NTSB reporting procedures, radio procedures, AIM advisory circulars, operating limitations, aircraft performance, principles of aerodynamics, power plants and systems, ADM and judgment, preflight action and planning. (Lecture)			
AEFT 106	Meteorology	3	45
This course is designed for pilots but is helpful for the non-aviation major to understand the basics of meteorology. A study in the nature of the atmosphere, winds, temperature, moisture, air masses and frontal systems, weather forecasting using products available from government sources. (Lecture)			
AEFT 108	Theory of Flight	3	45
This course covers basic aerodynamic theory of flight, aircraft instruments, performance, stability, control, airframe stress, structural limits, and turbo charging. (Lecture)			
AEFT 110	Commercial Pilot Ground School	3	45
This course will prepare students for the FAA commercial pilot knowledge test. Includes study of applicable FAR's, accident reporting requirements of the NTSB; basic aerodynamics and the principles of flight; meteorology and the use of weather reports and forecasts; safe and efficient operation of aircraft; weight and balance computations; use of performance charts, performance limitation; use of navigation facilities, ADM, judgment and CRM; principles and functions of aircraft systems; maneuvers, procedures and emergency operations; night and high-altitude operations; the National Airspace System. (Lecture)			
AEFT 112	Turbine Transition Ground School	1	15
This course prepares students for flight in turbine powered helicopters. Use of turbine performance charts, performance limitations; understanding of turbine aircraft specific systems including electrical, hydraulic flight controls, avionics, and powertrain. Understanding of turbine specific emergency operations. (Lecture)			
AEFT 120	Private Pilot Helicopter Stage 1	4	105
This courses covers the basic flying procedures and skills necessary for the first solo flight in a helicopter. Student will also be introduced to confined area operations, slope operations, night flying, and cross-country navigation in a helicopter. (Lecture/Lab)			

**INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015**

Revised 7/13

COURSE	COURSE TITLE	NIC CREDIT	NIC HOURS
AEFT 122	Private Pilot Helicopter Stage 2	4	105
This course will provide students with the information to gain proficiency and skill in maneuvers and navigation to the level of the Private Pilot Helicopter Practical Test standards, and will complete certification requirements for the Private Pilot Certificate – Helicopter. (Lecture/Lab)			
AEFT 124	Commercial Pilot Helicopter Stage 3	3	75
This course will provide the information for the student to gain proficiency and skill in commercial pilot scenarios and build additional cross country flight experience in a helicopter. (Lecture/Lab)			
AEFT 126	Turbine Transition Flight	2	45
This course prepares students in the basic flying procedures of a turbine powered helicopters. Use of turbine performance charts, performance limitations; understanding of turbine aircraft specific systems including electrical, hydraulic flight controls, avionics, and powertrain. Understanding of turbine specific emergency operations. (Lecture/Lab)			
AEFT 202	Instrument Ground School	3	45
This course will prepare students for the FAA instrument knowledge examination, includes: FAR's that apply to IFR; appropriate sections of AIM; air traffic control system and procedures; IFR navigation systems and instruments; use of en route and instrument approach charts, aircraft operations under IFR; procurement and use of aviation weather reports and forecasts, recognition of critical weather situations and wind shear avoidance, ADM and judgment, and CRM. (Lecture)			
AEFT 204	Aircraft Systems	3	45
This course introduces the systems of complex aircraft; fuel, hydraulic, brake, control, ignition, and electrical systems; covers nomenclature, preventive maintenance, engines, propellers, and related publications. (Lecture)			
AEFT 206	Flight Instructor Ground School	3	45
This course will cover the required areas of instructor knowledge and is designed to aid the student in passing the appropriate FAA knowledge tests. It includes the learning process and emphasizes elements of effective communication. Methods of teaching and communicating are studied and practiced, as well as how to evaluate and critique through written and oral processes. Includes practice in classroom, one-to-one, and team teaching. (Lecture)			
AEFT 230	Commercial Pilot Helicopter Stage 4	3	75
This course will provide information for the student to continue to develop the aeronautical skill and experience necessary to meet the requirements for the Commercial Pilot Certificate with a Rotorcraft category rating. (Lecture/Lab)			
AEFT 232	Instrument Pilot Helicopter Stage 5	3	75
This course will provide training in instrument flight procedures in preparation for the helicopter instrument rating. (Lecture/Lab)			

**INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015**

Revised 7/13

COURSE	COURSE TITLE	NIC CREDIT	NIC HOURS
AEFT 240	Flight Instructor	3	75
This course will prepare students for the Certified Flight Instructor rating; includes flight time and critique. (Lecture/Lab)			
AEFT 242	Flight Instructor Instrument	2	45
This course will provide the student with the knowledge, skill and experience necessary to become an instrument instructor; includes flight time and critique. (Lecture/Lab)			
MATH 123	Contemporary Math (or higher)	3	45
<p>This course models the use of mathematics in real world situations. Students will be able to apply mathematical modeling principles to a variety of practical situations including personal finance, risk assessment, inferences, path analysis, linear programming, similarity and scaling, right-triangle trigonometry, game theory, and/or exponential growth. MATH-123 is intended for liberal arts majors and satisfies the math requirement for the A.A., A.S., and A.A.S degrees.</p> <p>Additional Lab Component: 1 hour per week</p> <p>Prerequisites: MATH-025 or an appropriate score on a placement test: COMPASS Algebra 46, ACT Math 20, or SAT Math 470.</p>			
COMM 101	Introduction to Speech Communication		
<p>COMM 101: This course introduces students to what communication is and how it affects human interaction. Emphasis is on public speaking with attention to audience analysis, organizational, and delivery skills. The controlled and supportive classroom environment is an ideal setting for students to practice and perfect those communication skills of effective speaking and critical listening valued in all professions, the community, and personal relations. It is, however, a complex discipline of reading, writing, research, and performance. The course success relies strongly on college-level reading and writing abilities. This course is a requirement for both the A.S. and A.A. degrees.</p> <p>Prerequisite: Entry is based on an appropriate score on the placement test, either COMPASS E-Write > 5, COMPASS Writing > 67, ACT > 7, SAT Verbal > 440, or a grade of C- or above in ENGL-099 Lecture: 3 hours per week Recommended: ENGL 101</p>			
ENGL 101	English Composition	3	45
<p>This course prepares students for the demands of writing for a range of audiences, purposes, and contexts. Students will learn processes and strategies for writing and revising clear, precise, and accurate prose and will demonstrate their abilities in a series of academic essays, mainly expository. Students will also learn to read, analyze, synthesize, and respond to a wide range of written works. (Lecture)</p> <p>Prerequisites: Complete ENGL-099, ENGL-099A and B, or ESL-101 with a minimum grade of C-; or have the appropriate test score: COMPASS E-Write 6-8, COMPASS Writing 68-94 and Reading >80; ACT Writing 18-24 and Reading >19; SAT Writing 450-560 and Reading >470</p>

Institution North Idaho College

Program/Option Title Aviation Flight Training – Helicopter Pilot
Insert Program Name/Option Title (i.e. Business Technologies/Marketing and Management)

Degree/Certificate Advanced Technical Certificate
If a Certificate, indicate type (i.e. Technical, Advanced Technical or Postsecondary Technical)

CIP Code Number 49.0102

CIP Code Title Airline/Commercial/Professional Pilot and Flight Crew

SOC Code Examples* 53.2012 Helicopter Pilot, Aerial Crop Duster, Flight Instructor (Commercial Pilots), Charter Pilot (Commercial Pilot Certificate Required)

TSA

*The list of SOC codes does not need to be comprehensive but should provide meaningful examples of occupations related to the program.

STUDENT LEARNING OUTCOMES

List the student learning outcomes for the program:

Successfully meet the outcomes of FAA approved commercial helicopter flight curriculum consisting of approximately 220 hours of flying time.

Successfully meet the outcomes of FAA approved commercial helicopter ground school curriculum which includes formal classroom instruction divided among seven required subjects.

Meet the required FAA eligibility qualifications for one or more of the following to sit for an FAA exam:

- FAA approved Roto-craft (Helicopter) Student pilot License
- Private pilot License
- Commercial Pilot License
- Commercial Flight Instructor Pilot License

Become a FAA licensed pilot and enter the workforce.

Answer the following questions in the category that applies for either "New Program or Option" or "Non-Substantive Change"

NEW PROGRAM OR OPTION

1. Describe how this request is consistent with the Division of Professional-Technical Education's strategic plan.

North Idaho College's Aviation Flight Helicopter program will prepare youth or adults for careers in aviation and collaborate with industry to design and a provide high-quality program.

Synchronized system | *A coordinated, coherent system that demonstrates responsiveness and effectiveness in addressing Idaho's workforce needs 100% program license achieved.*

North Idaho College's Aviation Flight Helicopter program meets the growing workforce needs for commercial pilots and the upcoming workforce needs for the aerial unmanned vehicle industry for which Idaho received an agriculture exemption to participate in.

Industry engagement | *Business and industry are fully engaged and integrated into system operations.*
North Idaho College's Aviation Flight Helicopter program has received several from industry partners in letters of support of this program due to a workforce need.

**INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015**

Revised 7/13

***Student success** | Systems, services, resources, and operations support high performing students in high performing programs transitioning to employment.*

Aviation pilot's license is highly specialized and meets FAA requirements for attainment. NIC will provide student access to highly qualified flight instructors who meet the FFA requirements for licensing and certification.

2. Describe the discussion with PTE and the TCLC regarding this request.

North Idaho College is scheduled to present on the May 7, 2015 agenda and has submitted draft proposals to the PTE state division office for prior review.

3. Provide advisory committee/industry input supporting this request.

North Idaho College has solicited members for an aviation advisory board and has received several letters of support. Empires Airlines, Inland Helicopter, IDOL, and NIC Work Force Training Director have all agreed to be members of the advisory board.

4. What is your plan to mitigate the impact this request will have on similar secondary and postsecondary programs (e.g. advanced learning opportunity, early college, distributed/hybrid)?

Sandpoint High School is actively engaged in an aviation club and elective classes to help students earn their sport pilot license. Aviation pilot license can be obtained by students concurrently enrolled. Pilot licenses are not restricted to adults. The northern region of Idaho does not have any other institutions of higher education that offer aviation flight programs.

NON-SUBSTANTIVE CHANGE

Changes to a program name or title changes (e.g., programs, degrees, certificates, departments, divisions, colleges, or centers), Course number/prefix change, Course title change, Credit/lab/contact hour change, Semester offered change, Catalog description change, Co-/Prerequisite change, Create new Course(s), Delete existing course(s).

1. Describe the impact this change will have on students currently enrolled in the existing program.
2. Provide advisory committee/industry input supporting this change.

July 2, 2015

To Whom it May Concern:

I am writing in support of North Idaho College's request to start up an Aviation Flight program. The demand for commercial pilots has recently increased due to new FAA rules and an increase in commercial flights throughout North America and beyond.

The Boeing Pilot and Technical Market Outlook for 2013-2032 forecasts nearly half a million new commercial airline pilots needed to fly all the new airplanes entering the world fleet over the next 20 years. This report projects a demand for 85,700 pilots in North America. Thousands of pilots are retiring in 2015 and **beyond due to the FAA's mandatory maximum age of 65 for commercial pilots.** The demand for pilots will also be found in the budding unmanned aerial systems (UAS) industry. The FAA requires commercial UAS operators to have a private **pilot's license.**

North Idaho College (NIC) is an ideal place to offer aviation flight training. With **the new Aerospace Center of Excellence located at the Coeur d'Alene airport,** NIC has a vital relationship with airport management and businesses located on the airport that strengthens the link between its educational programs and aviation careers.

Please give your strongest consideration to **NIC's request** to start up a new Aviation Flight program.

Sincerely,

Marie Price
Director for Workforce and Community Education

Re: North Idaho College's Aviation Flight Program

To whom it may concern:

I am writing this letter in support of North Idaho College's proposal to launch a new Aviation Flight Program. Both Empire Airlines and our new sister company, Empire Unmanned have current and future needs for a substantial number of pilots. Currently we are hiring about forty pilots a year and expect that to double in the next several years.

There is an acute shortage of qualified commercial pilots not only in both the United States but worldwide. This shortage is forecast to get worse, not better over the next decade and beyond. The cost for a student to obtain a traditional four year Bachelor's Degree plus obtain all the necessary pilot ratings to allow them to be qualified to fly for an airline costs tens of thousands of dollars. This high cost is creating a substantial barrier to entry and discouraging many young people that aspire to become professional aviators.

Currently, there are no opportunities for this training either in the State of Idaho or on a regional basis. Having access to an Associates Degree in aviation and the flight training to become a commercial pilot would substantially lower the cost to the students.

It is my understanding that NIC is also including courses associated with Unmanned Aircraft Systems (UAS) and since this is the focus of Empire Unmanned, we are very interested in these courses being a part of the Aviation Flight Program.

If I can provide further information on how important this program is to aerospace in the state and to Empire Airlines please do not hesitate to contact me.

Best regards,

Tim Komberec
President/CEO

June 7, 2015

Dear Dean Silvas

I am pleased to offer a letter of support for your efforts to launch NIC's new Aviation Flight Program. I am fully supportive of this much-needed academic program in Idaho. Our state has fallen behind in all aspects of aerospace development and we are all working hard to overcome this handicap. Your efforts will directly contribute to erasing that handicap. We share your vision and know where the industry needs are and right now the entire domestic aerospace industry is in desperate need of all classes and categories of trained pilots to include Unmanned Aircraft Systems (UAS) pilots and visual observers.

This shortage of pilots is exacerbated by the recent increase in commercial pilots retirement rates – at historical rates in all air carriers. As a result of the unprecedented retirement rates, all air carriers are hiring at historical rates and the forecast for this record hiring level is expected to last over the next ten years! Your efforts to establish an aviation flight program could not be timelier. As a commercial and military pilot with over 12,000 flight hours in 17 different aircraft from single seat fighters to the Boeing 777 I can attest to the industry needs and needs within my company. We are forecasting to hire upwards of 20 unmanned pilots in the next 12 months. These pilots, as required by the FAA, must have manned flight experience to legally operate UAS/Drones in the national airspace.

As the 13th company in the United States, and the only Idaho company, authorized by the FAA to conduct legal commercial UAS/Drone flight operations, we are dedicated to the safe integration of UAS/Drone operations into our existing air traffic system. The only way we can guarantee this singular level of safety is to ensure we have a staff of professionally trained pilots. Right now we have to rely on sources outside the State of Idaho to find qualified pilots. Simply put, your program would allow us to hire homegrown Idahoan's for our pilot needs. You have our unconditional support and we urge you to continue to develop this program as quickly as possible.

CLIENT SERVICES
CONTRACT BETWEEN
NORTH IDAHO COLLEGE
AND
INLAND HELICOPTER

This contract is made and entered into by and between North Idaho College, hereinafter referred to as the "COLLEGE," and the below named firm, hereinafter referred to as "CONTRACTOR."

Inland Helicopter
5505 East Rutter Ave.
Spokane, WA 99212
509-534-9114
IBI: 602572842

PURPOSE

The purpose of this contract is to provide flight training to students of the COLLEGE as outlined in this contract. Due to the procedures required by the Veteran's Affairs (VA) Office and college policies, this contract requires additional approvals. It is the intent of the COLLEGE to submit this contract to the VA for VA approval for the Program.

SCOPE OF WORK

- I. The CONTRACTOR will provide services and staff, and otherwise do all things necessary, for or incidental to the performance of work as set forth below:

Provide helicopter training for those students currently enrolled at the COLLEGE.

- 1) Maintain an Idaho business license for Flight Training and operate within the state of Idaho for at least two years.
- 2) Provide flight instruction under Federal Aviation Regulations (FAR) Part 141 both dual and solo for the benefit of the students enrolled in flight certification courses. Training for COLLEGE aviation students, pursuing flight certification and ratings, shall be done in a timely manner.
- 3) Flight training and pilot debriefing shall be done during the normal work day and work weeks of the COLLEGE.
- 4) All training for certificates and ratings for Helicopter Pilots shall be done in a manner approved by the Federal Aviation Administration (FAA), under FAR Part 141, and that all aircraft utilized in such training be similarly approved.

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

- 5) The CONTRACTOR shall have flight instructor and appropriate aircraft available for scheduled training to fulfill the needs of COLLEGE aviation students in a timely manner. All aircraft shall be based at Coeur d'Alene airport. All flight operation in instruction for the specific phase of training shall commence and terminate at the respective airport unless otherwise authorized by appropriate COLLEGE officials. Overnight training flights must receive prior approval from the CONTRACTOR's chief flight instructor or the designated assistant. All aircraft administrative personnel and flight instructors necessary to fulfill COLLEGE aviation student's helicopter training requirements shall be employed by the CONTRACTOR and have received syllabus training.

- 6) The CONTRACTOR shall provide the COLLEGE with a Standard Operating Procedure (SOP) manual for approval by the COLLEGE aviation faculty. The COLLEGE may request and the CONTRACTOR must provide a revised SOP as required by the Aviation Faculty of the COLLEGE. SOP revisions must be requested by the COLLEGE after June 15th of each year and prior to August 1st of each year. Guidance for the development and revision of SOP shall be obtained from appropriate Federal Aviation Regulation FAR and Advisory Circulars (AC) and Aeronautical Information Manual (AIM). The adopted SOP shall be the policy and no changes shall be made without approval of COLLEGE aviation faculty and shall include the following:
 - a) Flight student regulations
 - b) Equipment requirements
 - c) Cost of flight training
 - d) Methods of payment
 - e) Safety procedures
 - f) Change of business operation or location
 - g) Dress code
 - h) Training areas
 - i) Training Syllabus, including specific standard procedures for conducting all the "tasks" for each course of instruction as outlined under 'Areas of Operation' in the Practical test Standards published by the Federal Aviation Administration
 - j) Auxiliary training fields
 - k) Off airport landings
 - l) Mechanical malfunctions

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

- m) Scheduling policies: Priority scheduling, no shows, waiting lists
- n) Evaluation and debriefing procedures
- o) Sample "progress sheets" to be used in student progress folders
- p) Harassment training, workplace safety, financial aid and following school policy.

A new copy of the SOP manual shall be provided to each student prior to the first training session. This SOP manual shall be a combination of the CONTRACTOR's SOP and the COLLEGE's Manual, with appropriate input from both parties.

- 7) The CONTRACTOR shall maintain a student progress folder which shall include:
 - a) Number of times (per week) each student schedules
 - b) A computerized tracking or manual tracking system of what occurred during flight to include:
 - i) Lesson number
 - ii) Completion or reason for not completing (i.e. mechanical, weather, student no show, etc.)
 - c) A written evaluation of each flight stage check will be put in the student's folder.
- 8) The CONTRACTOR agrees to the following training practices:
 - a) The COLLEGE has the right to review any student folder upon request.
 - b) The CONTRACTOR must submit to the COLLEGE Aviation program one copy of the flight records and TSA records for each student who completes or discontinues the program.
 - c) The CONTRACTOR and COLLEGE shall hold meetings within two weeks of request by either party, except where the nature of the meeting is to discuss safety issues, in which cases meeting will take place within 24 hours of request.
 - d) The COLLEGE aviation faculty has the right to monitor the CONTRACTOR'S operation and shall have the right to first refusal to administer all flight stage checks, but only flight stage checks that the COLLEGE personnel are authorized and qualified to perform.
 - e) The COLLEGE and the CONTRACTOR jointly will establish the maximum number of students on active status for the flight training each semester. The maximum number of flight training students for the semester on active status shall be determined by the

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

COLLEGE and the CONTRACTOR. The CONTRACTOR must assure that sufficient quantity and quality of instructors and aircraft are available to meet flight training obligations for COLLEGE aviation training requirements.

- f) The COLLEGE shall coordinate with the CONTRACTOR overall student management practices to include: extended delays of training, family emergencies, and discipline problems. Students have the same rights and responsibilities as other students in the aviation program regarding deficiencies or program concerns. The COLLEGE has the right to become involved in CONTRACTOR operations to avoid situations which the COLLEGE believes may be detrimental to the aviation program and/or the COLLEGE's students. This includes requiring the CONTRACTOR to adopt or revise the SOP to comply with the COLLEGE's requirement for training, provided such changes shall be consistent with FAR 141 training requirements.
 - g) The COLLEGE will provide ground school training; students will pay regular college tuition for this class.
 - h) In the event an aircraft is scheduled to be grounded for more than 15 days and there is no similar model available, funding will be reimbursed to the student and the student will pay for training with another provider.
- 9) CONTRACTOR agrees to provide the following described aircraft (helicopter) for the services set forth at the following rates:

Each Vendor Will List Out Their Equipment List and Prices	Cost Per Hour of Instruction	Cost Per Hour for Rental	Fuel Surcharge Per Hour	Estimated Miscellaneous Costs Per Semester
Robinson R22	\$30.00	\$265.00	NA	NA
Robinson R44	\$30.00	\$490.00	NA	NA
Fly It Sim	NA	\$130.00	NA	NA
Bell 206	\$30.00	\$1,020.00	NA	NA

The prices above shall be fixed for the term of the contract except when fees may be adjusted based on the cost of aviation fuel. The CONTRACTOR shall then give 60 days' written notice to any cost increase.

A fuel surcharge may be only added when and if the aviation fuel costs increase exceeds 10% of the base cost established each semester. The fuel surcharge factor is a fuel burn rate of gallons per hour. Fuel surcharges will be computed by subtracting the base cost of aviation fuel from the current cost, then multiplying by the factor and then multiplying by the hours the aircraft was rented. The base of Avgas is at the time of this contract is \$5.49/gal and Jet-A at the time of this contract is \$4.39/gal.

In no case during the course of this agreement may rates exceed those available to the general

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

public for similar equipment, service, fuel and insurance packages.

10) The CONTRACTOR further agrees to the following aircraft specifications:

- a) The CONTRACTOR must maintain a fleet of at least 1-2 training aircrafts. Current lease agreements or proof of ownership indicating the CONTRACTOR has sole use of the aircraft must be furnished at the time of contract submittal.
- b) No aircraft in the fleet shall be older than 25 years old, without special permission from the COLLEGE, or have a total airframe time in excess of 12,500 hours. The average age since manufacture of all aircraft shall not exceed 20 years.
- c) Instrument cross-country trainings shall have a minimum of the following operational equipment:
 1. At least one Nav/Comm
 2. Transponder with encoding altimeter
 3. IFR Certified GPS
- d) CONTRACTOR must provide detail of manufacturer and model of radio equipment prior to final contract execution and designated these to be used for instrument training.
- e) No aircraft shall be used for training purposes having malfunctioning or inoperative electrical, avionic or mechanical components unless those items have been disabled, placarded, and determined to be not required by FAA regulations for the training operation planned.

11) The CONTRACTOR will provide the bookstore a list of items for purchase to be used in flight training to include:

- a) Headset
- b) Pilot Operating Handbook
- c) Sectional Charts
- d) Terminal Charts as necessary
- e) IFR approach plates
- f) Airport Facility Directory
- g) Logbook

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

- h) Plotter
 - i) E6B Flight Computer
 - j) Practical Test Standards
 - k) For the helicopter licenses:
 - i. Flight training book
 - ii. FAA study guides
 - iii. Rating study guides, including oral exam guides
 - iv. Flight syllabus
 - v. Record folder
- 12) The CONTRACTOR shall be responsible for scheduling all student flight requirement invoicing the college each month. The CONTRACTOR shall monitor hours and insure that billable hours will not exceed published fees per semester. All North Idaho College students will pay a \$10.00 per hour flight fee in addition to the CONTRACTOR's regular flight fees. These fees shall be reimbursed to the COLLEGE monthly.
- 13) The CONTRACTOR will register and process all VA students enrolled in the helicopter training stage. The minimum number of students is eight (8), for the helicopter program. If this number is not met, the CONTRACTOR and the COLLEGE would have the right to request termination of this agreement.
- 14) Any changes to this contract will be coordinated with the COLLEGE's Contract Manager and the CONTRACTOR.
- 15) Notwithstanding RCW 1.12.07, such communication shall be effective upon the earlier of receipt for four (4) calendar days from mailing.
- 16) That all obligations of the parties hereto incurred or existing under terms of this agreement at the date of termination shall survive such termination.
- 17) In the event the CONTRACTOR makes a unilateral decision to discontinue the contract, the CONTRACTOR will work with the COLLEGE in order to establish teach-out options for all students currently enrolled in the program within the state of Idaho.
- 18) The COLLEGE will be fully responsible for the educational offerings (program, courses) and have complete oversight of faculty salaries, security, tuition setting and tuition refund, and educational facilities.
- 19) The COLLEGE shall establish student enrollment and fully disclose the enrollment agreement to students before payments are collected.

**INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015**

20) The COLLEGE shall establish student recruitment and identify field agents.

21) The COLLEGE, a not-for-profit institution, will maintain tax exempt status and will not engage in any activities that will negatively affect the COLLEGE's tax exempt status.

- II. Exhibit A contains the General Terms and Conditions governing work to be performed under this contract, the nature of the working relationship between the COLLEGE and the CONTRACTOR, and specific obligations of both parties.

PERIOD OF PERFORMANCE

Subject to other contract provisions, the period of performance under this contract will be from _____ through _____.

COMPENSATION PLAN

COLLEGE shall pay an amount not to exceed the tuition allowance stated in the letter from the COLLEGE for each student based on class registration for the performance of all things necessary for or incidental to the performance of work as set forth in the Scope of Work. The \$10.00 hourly flight fees for North Idaho College students shall be reimbursed to the COLLEGE monthly. CONTRACTOR compensation for services rendered shall be based on the following rates or in accordance with the following items:

BILLING PROCEDURES:

COLLEGE will pay CONTRACTOR upon receipt of properly completed invoices, which shall be submitted to the Contract Manager not more often than monthly. The invoices shall describe and document, to the COLLEGE's satisfaction, the work performed, the progress of the student and other approved fees.

Payment shall be considered timely if made by the COLLEGE within 30 days after receipt of properly completed invoices. Payment shall be sent to the address designated by the CONTRACTOR.

The COLLEGE may, in its sole discretion, terminate the contract or withhold payments claimed by the CONTRACTOR for services rendered if the CONTRACTOR fails to satisfactorily comply with any term or conditions of this contract.

No payments in advance or in anticipation of services or supplies to be provided under this contract shall be made by the COLLEGE.

The COLLEGE shall not pay any claims for payment of services submitted more than twelve (12) months after the calendar month in which the services are performed.

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

DUPLICATION OF BILLED COSTS: The CONTRACTOR shall not bill the COLLEGE for services performed under this contract, and the COLLEGE shall not pay the CONTRACTOR, if the CONTRACTOR is entitled to payment or has been or will be paid by any other source, including grants, for that service.

DISALLOWED COSTS: The CONTRACTOR is responsible for any audit exception or disallowed costs incurred by its own organization or that of its subcontractors.

CONTRACT MANAGEMENT: The Contract Manager for each of the parties shall be the contact person for all communications and billings regarding the performance of this contract.

--	--

INSURANCE: The CONTRACTOR shall provide insurance coverage as set out in this section. The intent of the required insurance is to protect the state should there be any claims, suits, actions, costs, damages or expenses arising from any negligent or intentional act or omission of the CONTRACTOR or subcontractor or agents of either, while performing under the terms of this contract.

The insurance required shall be issued by an insurance company(s) authorized to do business within the state of Idaho, and shall name the state of Idaho, its agents and employees, as additional insured under the insurance policy(s). All policies shall be primary to any other valid and collectable insurance. CONTRACTOR shall instruct the insurers to give the COLLEGE 30-days advance notice of any insurance cancellation.

CONTRACTOR shall submit to the COLLEGE within 15 days of the contract effective date, a certificate of insurance, which outlines the coverage and limits defined in the Insurance Section.

CONTRACTOR shall submit renewal certificates as appropriate during the term of the contract.

The CONTRACTOR shall provide insurance coverage that shall be maintained in full force and effect during the term of this contract, as follows:

Commercial General Liability Insurance Policy

Provide a Commercial General Liability Insurance Policy, including contractual liability, written on an occurrence basis, in adequate quantity to protect against legal liability arising out of contract

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

activity but no less than \$1,000,000 per occurrence. Additionally, the CONTRACTOR is responsible for ensuring that any subcontractors provide adequate insurance coverage for the activities arising out of subcontracts.

Aviation Liability

In the event that services delivered pursuant to this contract involve the use of vehicles, owned or operated by the CONTRACTOR, automobile liability insurance shall be required. The minimum limit for automobile liability is:

\$1,000,000 per occurrence, using a Combined Single Limit for body and property damage.

Aviation Insurance

CONTRACTOR shall obtain at CONTRACTOR's expense, and keep in effect during the term of this contract, Aircraft Liability Insurance for each aircraft which includes Bodily Injury and Property Damage. Coverage shall be written on an occurrence basis. CONTRACTOR shall provide proof of insurance of not less than the following amounts as determined by Service Contract:

Per occurrence limit for any single claimant \$1,000,000. CSL sub-limit not less than \$100,000 per passenger.

ASSURANCES

COLLEGE and the CONTRACTOR agree that all activity pursuant to this contract will be in accordance with all the applicable current federal, state, and local laws, rules, and regulations.

ORDER OF PRECEDENCE

Each of the exhibits listed below are by this reference hereby incorporated into this contract. In the event of an inconsistency in this contract, the inconsistency shall be resolved by giving precedence in the following order:

- Applicable Federal and State of Idaho statutes and regulations.
- Special Terms and Conditions as contained in this basic contract instrument.
- Any other provisions, terms, or material incorporated herein by reference or otherwise incorporated.

ENTIRE AGREEMENT

This contract, including referenced exhibits, represent all the terms and conditions agreed upon by the parties. No other understandings or representations oral or otherwise regarding the subject matter of this contract shall be deemed to exist or to bind nay of the parties hereto.

CONFORMANCE

If any provision of this contact violates any statute or rule of law of the state of Idaho, it is considered

9

INSTRUCTION, RESEARCH, AND STUDENT AFFAIRS
AUGUST 13, 2015

modified to conform to that statute or rule of law.

APPROVAL

This contract shall be subject to the written approval of the COLLEGE's authorized representative and shall not be binding until so approved. The contract may be altered, amended or waived only by a written amendment executed by both parties.

This contract is binding pending upon the approval of the Idaho State Board of Education and the Northwest Commission on Colleges and Universities (NWCCU).

THIS CONTRACT, consisting of 10 pages and is executed by the persons signature below who warrant that they have the authority to execute the contract.

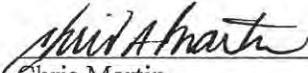

IN WITNESS WHEREOF, the parties have executed this agreement as of the date written below.

AGENCIES AND INSTITUTIONS OF THE STATE BOARD

SUBJECT

FY 2017 Line Item Budget Requests

REFERENCE

April 2015 Board approved guidance to the college and universities regarding submission of line item budget requests

June 2015 Board approved FY 2017 line items as presented

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.B.1.
Title 67, Chapter 35, Idaho Code

BACKGROUND/ DISCUSSION

At the April Board meeting, the Board directed the college and universities to develop FY 2017 line items that target the implementation of the Board's strategic plan with guidance to limit up to five line items in priority order and an aggregate amount not exceeding 10% of an institution's FY 2016 total General Fund appropriation. At the June 2015 Board meeting, the institutions and agencies presented their Line Item requests. The Board directed the Business Affairs and Human Resources Committee to review the FY 2017 budget line items and to bring recommendations back to the Board for its consideration at the regular August 2015 Board meeting. The list of Line Items summarized on page 5 are not listed in priority order. Upon final approval the line items will be included in the institution and agency budget submissions to the Legislative Services Office (LSO) and the Division of Financial Management (DFM).

IMPACT

The approved Line Items will be included with the FY 2017 budget requests and submitted to DFM and LSO for consideration by the Governor for his FY 2017 Budget recommendations and by the Joint-Finance Appropriations Committee for funding.

STAFF COMMENTS AND RECOMMENDATIONS

The Idaho state budget request process is based on Base-plus budgeting as follows:

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Base Budget: Historical budget based on years of appropriations
MCO: Maintenance of current operations; formula driven for uncontrollable factors such as general salary increases and cost inflation.
Line Items: Enhancements for new programs and initiatives

Base budgeting allows the agencies and institutions to derive a reasonable dollar estimate in order to manage their programs and staffing levels from one year to the next. This is also true for the higher education institutions whose budgets are consolidated for four year institutions and for two year community colleges.

Since the June Board meeting the Business Affairs and Human Resources (BAHR) Committee met twice to review and discuss the FY2017 line item budget requests. A common theme for the Committee was prioritizing college and university line items which support the Board's 60% Goal (e.g. intrusive advising, retention and completion).

Accordingly, BAHR moved Boise State University's (BSU) "Complete College Idaho (CCI)" line item up to priority #1, and the remaining line items down one rank. BSU has also revised the CCI line item to stay within the Board's line item request guidelines. In this revised request, BSU decreased the number of adjunct to lecturer conversions by one, and added eight new lecturer lines and eight new clinical faculty lines. BSU also increased the number of tenure-track lines from 24 to 27 and the number of advisors from two to five. The result was an increase in the request from \$3,789,858 to \$5,322,076, which equates to an overall increase of \$1,532,219. With respect to BSU's "Materials Science and Engineering Research" line item the Committee determined that it would support the cost of expanding this program with new faculty lines but would not support seeking funding for the existing nine faculty lines originally funded with the Micron grant. BSU has revised its request accordingly to represent an expansion of the PhD MSE program and to eliminate funding requests for personnel and operating expenses that were included in the original request and funded from the Micron grant. This revision includes salary and benefits for eight new faculty lines. Five of these faculty would be joint appointments between MSE and Mechanical Engineering and three would be joint appointments between MSE and Chemistry. BSU also included twelve graduate assistant lines (1.5 per faculty) and operating expense at \$8,000 for each faculty member. The changes resulted in reducing the request from \$3,039,891 down to \$1,519,000, which is a decrease of \$1,520,891. This line item is now priority #2.

BAHR asked the University of Idaho (UI) to pull its #1 line item for "Salary Competitiveness" due to indications of lack of political support for such an approach. UI replaced that line item with a "Go-On" line item which supports the Board's 60% Goal and the Complete College Idaho Plan.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

BAHR asked Idaho State University (ISU) to scale down its #1 priority line item ("Retention & Completion") to roughly half the amount and size of the original request. The Committee simply felt that while 40 advisors may be the optimal steady-state, it would be better to try to achieve that number in phases. ISU was also asked to replace its deferred maintenance line item due to indications of lack of support from the Division of Financial Management. ISU revised its request accordingly.

The Division of Professional-Technical Education (PTE) added another line item. PTE currently funds a position at CWI to do accounting work for the Professional Technical Student Organizations (PTSOs). PTE has determined they would like to bring that work in-house in 2017. In order to do so they need an FTE. The fiscal impact nets to zero.

There were no other material changes to the line items between the June and August meetings. Staff recommends approval.

BOARD ACTION

I move to approve the Line Items for the agencies and institutions as listed on Tab 1 pages 3-5, and to authorize the Executive Director to approve the MCO and Line Item budget requests for agencies and institutions due to the Division of Financial Management and Legislative Services Office on September 1, 2015.

Supports institution/agency and Board strategic plans:

This request supports the following areas in the State Board of Education's Strategic Plan:

GOAL 2: CRITICAL THINKING AND INNOVATION

The educational system will provide an environment for the development of new ideas, and practical and theoretical knowledge to foster the development of individuals who are entrepreneurial, broadminded, think critically, and are creative.

Objective A: Critical Thinking, Innovation and Creativity – Increase research and development of new ideas into solutions that benefit society.

Objective B: Innovation and Creativity – Educate students who will contribute creative and innovative ideas to enhance society.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Performance Measures:

- Percentage of students participating in internships or undergraduate research

In addition to the Board's strategic plan this request also supports the Boards Higher Education Research Strategic Plan.

Goal 4 – Enhance learning and professional development through research and scholarly activity.

Objective a – Increase the number of university and college students and staff involved in sponsored project activities.

PM – Number of undergraduate students supported by sponsored projects

PM – Number of graduate students supported by sponsored projects

PM – Number of faculty and staff involved in sponsored projects

Objective b – Increase the dissemination of research findings.

PM – Number of peer-reviewed publications (students and faculty).

PM – Number of theses and dissertations.

Description:

Research is increasingly viewed as a key factor in the future economic vitality of Idaho. It is fundamental to the mission of a university or college due to its role in knowledge discovery. On the most basic level, research strengthens a university's or college's primary product – innovative, well-educated graduates ready to enter a competitive workforce.

Undergraduate experience in research or creative activity is critical in helping students determine an area of interest and in jump-starting their careers. These students learn to work in interdisciplinary teams, explore career fields, and often discover a passion for scholarly activity they did not know existed. The collaborative nature of undergraduate research and the individual mentoring students receive from their advisors enhances the student learning experience and contributes to student retention.

Idaho's universities and colleges recognize the importance of preparing researchers of the future and are committed to incorporating undergraduate student research and creative activity into the teaching and knowledge-discovery missions of the institutions. These endeavors may include students working on faculty-led projects or on student-initiated, classroom based projects.

In faculty led research and scholarly activity, students work collaboratively with faculty to learn the discipline of creative activity with direct application to a specific project of importance to the faculty member. In class-room based research, undergraduates engage in independent or team projects to integrate theoretical learning with the world beyond the classroom.

Funds currently allocated to HERC are used to support:

(1) individual and multi-disciplinary research projects;

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- (2) extensive and rapid dissemination of the new knowledge and establishment of knowledge networks which would facilitate public, private, and academic institution interaction; and
- (3) collaborative relationships between academia and varied shareholders outside the academy.

HERC funds are used:

- (1) to maximize impact on the quality of education and economic development as a consequence of Idaho's investment in quality science, engineering, and other research.
- (2) to ensure accountability for the state's investment via demonstrable results.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

To support undergraduate experiences in research and creative activity in Idaho's institutions of higher learning, fiscal resources are requested in the amount of \$300,000 annually.

This funding will be used for but is not restricted to:

- Undergraduate research and creative activity fellowships
- Purchase of research materials
- Assistance for activities such as travel to present research findings, to visit a research site, to show creative works, or to attend professional conferences.
- Develop curricula for project based classes

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service. N/A
- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted. N/A
- c. List any additional operating funds and capital items needed. N/A

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

On-going general funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

The immediate benefit is to the students, in addition to the increased quality of the education experience that research provides for students, students learn to work in interdisciplinary teams, explore career fields. The research experience also helps our Idaho businesses who hire these students upon graduation. Research experience gives students hands on experience in their areas of study that are invaluable to their future employers.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This is the one priority item for System-wide needs this year.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Support for the SBOE Strategic Plan:

GOAL 1: A WELL EDUCATED CITIZENRY:

Objective A: Access

Performance Measure:

- *Postsecondary student enrollment by race/ethnicity/gender as compared against population.*

⇒ The funding of this request will increase access of Idaho's citizens to post-secondary education by increasing capacity at BSU, especially at the upper division level.

Objective B: Higher Level of Educational Attainment

Performance Measures:

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- *Percentage of new full-time students returning (or graduated) for second year in an Idaho public institution.*
- *Percent of Idahoans (ages 25-34) who have a college degree or certificate requiring one academic year or more of study.*

⇒ The funding of this request will have substantial impact on the level of educational attainment of Idahoans. It will:

- Increase retention by providing greater access to advisors and by increasing the proportion of courses taught by full-time faculty members.
- Increase progression to degree by removing bottlenecks and increasing capacity in high-demand programs.
- Increase the percent of Idahoans with a college degree by increasing capacity at Boise State University, the Idaho institution with the highest annual production of baccalaureate graduates.

GOAL 3: Effective and Efficient Delivery Systems

Objective A: Cost Effective and Fiscally Prudent –

Performance Measures:

- *Cost per successfully completed weighted student credit hour*
- *Average net cost to attend public 4 year institution.*

⇒ The funding of new academic support staff will increase the efficiency of delivery by BSU because department chairs will less time on administrative functions and more time on leadership, assessment and improving the effectiveness and efficiency of their academic departments and support for students.

Support for SBOE's Complete College Idaho Plan:

BSU has fully embraced the August 2010 call by the SBOE for more post-secondary graduates, and has made that call the cornerstone of strategic planning. BSU's Strategic Enrollment Plan is grounded on the goal of increasing the number of baccalaureate graduates, especially those with a substantial impact on Idaho's rate of educational attainment. BSU has consistently surpassed the goals set out by the SBOE for numbers of baccalaureate graduates. In addition, BSU has made substantial progress in increasing key measures that contribute to numbers of graduates; for example, our 6-year graduation rate increased from 30% for our 2006 cohort to 37% for our 2008 cohort.

BSU's line item request is focused on providing the capacity that is needed to continue to increase its number of baccalaureate graduates, thereby contributing to the SBOE's 60% goal in the CCI plan.

Connection with the SBOE's Program Prioritization Initiative

BSU's Program Prioritization process is connected to this request in the following ways:

- Productivity of graduates was an important component of prioritizing academic programs and departments. Any academic program with a number of graduates

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

per year below a threshold value (10 for baccalaureate programs) was required to take actions to increase productivity.

- Programs with high numbers of enrollees and graduates per faculty will be the recipients of new faculty positions.
- The principles of Program Prioritization were used as the basis for two recent actions that resulted in substantial reallocation of funding: (i) the closure of the Department of Community and Regional Planning and its academic programs; and (ii) the discontinuation of two lecturer positions and several adjunct faculty in the Department of History.

Support for BSU's Strategic Plan: Focus on Effectiveness 2012-2017

Goal #2: Facilitate the timely attainment of education goals of our diverse student population.

Performance Measures:

- *Number of degree graduates*
- *Baccalaureate graduates per FTE*
- *Freshman Retention Rate*
- *Six-year graduation rate*

⇒ The funding of this request will increase the ability of BSU to facilitate attainment of educational goals by our students by increasing capacity. It will:

- Increase retention by providing greater access to advisors and by increasing the proportion of courses taught by full-time faculty members.
- Increase progression to degree by removing bottlenecks and increasing capacity in high-demand programs.

Goal 4: Align university programs and activities with community needs.

Performance measure:

- *Number of graduates with high impact on Idaho's college completion rate:*
 - (i) Baccalaureate graduates from traditionally underrepresented groups (from rural counties and from ethnic minorities),*
 - (ii) Baccalaureate graduates who are Idaho residents, and*
 - (iii) Baccalaureate graduates who transferred from Idaho community colleges.*

⇒ The funding of this request will have substantial impact the number of graduates with high impact on Idaho's college completion rate by increasing capacity in high demand programs, by increasing access to advisors, and by removing bottlenecks to progression to degree.

Goal 5: Transform our operations to serve the contemporary mission of the university.

Performance measure:

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- *Total expense per EWA -weighted SCH delivered*
- *Number of graduates per \$100k expense*
- *Cost of education*

⇒ The funding of new academic support staff will increase the efficiency of delivery by BSU because department chairs will be more effective leaders and therefore be better able to ensure the effectiveness and efficiency of their academic departments.

Description:

The need for implementation of the Complete College Idaho Plan is encapsulated the following paragraph from a 2012 report from the Office of Performance Evaluations on reducing barriers to postsecondary education:

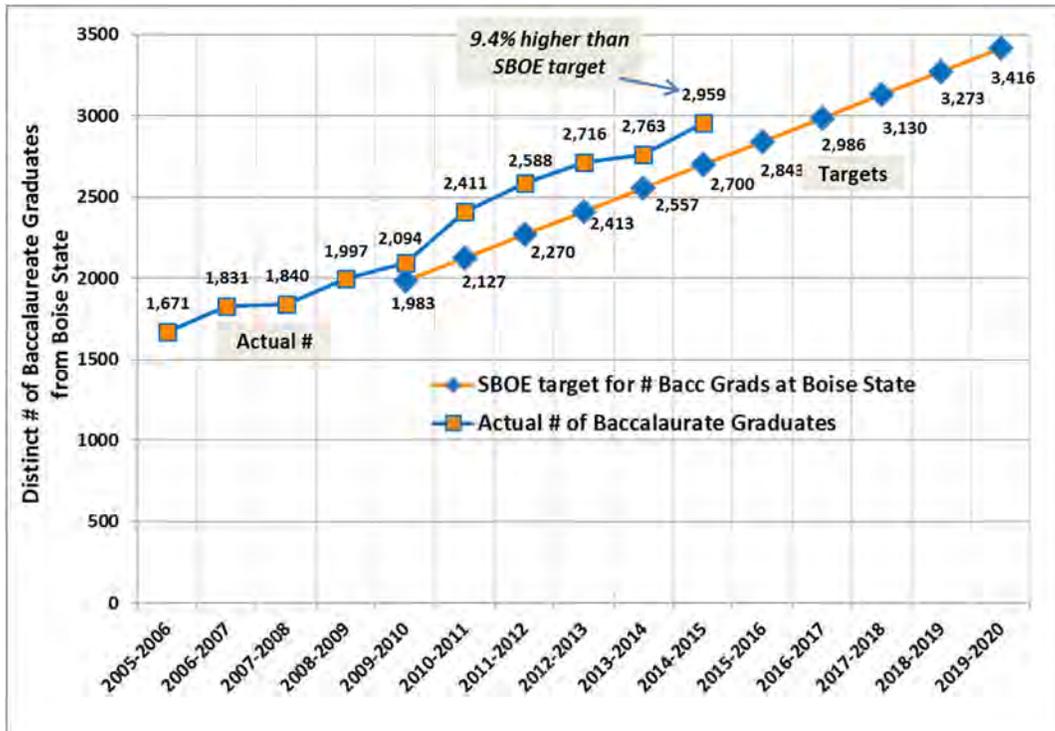

“The long-term benefits of increasing educational attainment levels of Idahoans will directly impact the creation of new businesses ... [and] the economic and social well-being of the state.”

The intent of the Complete College Idaho Plan is well-summarized by the following paragraph from the plan’s introduction:

“The state has committed to a bold agenda to transform our talent base by efficiently and effectively increasing the number of citizens with postsecondary degrees and certificates. To meet this commitment, a diverse partnership of individuals, businesses, institutions, and policymakers developed a statewide plan to achieve Idaho’s education goal. This plan mirrors Governor Otter’s commitment to a unified job creation and growth strategy, which has resulted in a focused vision for Idaho and its educational system.”

Boise State University (BSU) is highly successful in producing college graduates, thereby contributing to the educational attainment rate of Idahoans. In fact, BSU has consistently exceeded the targets that were established in August 2010 by the Idaho State Board of Education for numbers of graduates (see graph).

**BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015**

However, given our present level of state appropriations, the lack of funding of enrollment workload adjustments during years of rapid growth, and a shift in our student population to a higher proportion of upper division students, it will be difficult for BSU to continue to increase capacity and numbers of graduates without additional staffing.

Tenure-track faculty and clinical faculty are the most qualified to teach upper division courses, which are currently a bottleneck to degree progression and graduation for many students. We request funding for 27 additional tenure-track faculty members and 8 clinical faculty members to expand upper division capacity in degree programs with high student demand.

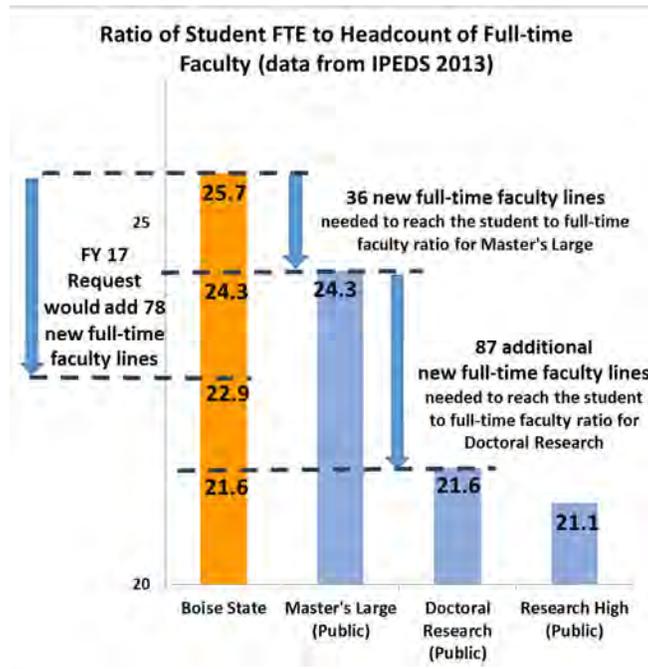

Our heavy reliance on part-time adjunct faculty to teach lower division courses is also a barrier to student progression toward degree. Full-time faculty are generally more accessible to students for outside-of-class support and advising. Full-time faculty also lead efforts to create innovative pedagogies. We request funding to reduce reliance on part-time adjunct faculty through the creation of 30 full-time Lecturer positions that would replace part-time instructional capacity with full-time instructional capacity.

Although we have made substantial progress in reducing the number of bottleneck classes at the lower division level, there remain a number of areas where additional instructional capacity at the lower division level would facilitate student progress. To provide that additional capacity, we request funding to create 8 new Lecturer positions.

The graph below shows the ratios of student FTE to full-time faculty members. The 78 full-time faculty positions in this request would move Boise State's ratio to a ratio between that of Master's-Large and Doctoral-Research Universities. Note that in the 2015

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Carnegie classifications, Boise State is likely to receive either a Doctoral Research or a Research-High classification.

Access by students to professional advisors has been shown to have a significant positive impact on student retention and reduced time to graduation. We request funds to hire two professional advisors, in order to reach a ratio of 300 lower-division students per advisor. Faculty members generally serve as advisors for upper-division students.

Finally, we will continue to restructure the administrative support of academic departments, in order to run business operations more efficiently and effectively. Restructuring and enhancing administrative support will free department chairs from tasks that could better be performed by staff members, enabling them to devote to focus on leadership and program development, student recruitment and career advising, and assessments and development of faculty, staff, and curricula.

Questions:

- 1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

BSU produces more baccalaureate graduates than any other public institution in Idaho, and does so in a more cost efficient manner than any other public institution in Idaho. However, (i) state appropriation levels have not kept pace with increasing enrollments; (ii) the State Board of Education is understandably reluctant to approve large tuition increases; and (iii) BSU's student population has shifted to more upper division and graduate students. Consequently, it has become increasingly difficult for BSU to expand capacity, in order to increase its numbers of graduates.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

The following actions are proposed to enable us to increase our ability to increase production of baccalaureate graduates:

- Increase by 27 the number of tenure-track faculty members and increase by 8 the number of clinical faculty members. Tenure track and clinical faculty members are those most qualified to teach the increased number of upper division sections needed to remove bottlenecks to degree progression and graduation.
- Convert substantial part-time teaching capacity to full-time teaching capacity by increase by 31 the number of full-time lecturer positions, resulting in a reduction in our reliance on adjunct faculty members.
- Increase our overall lower division teaching capacity by adding 8 lecturer positions
- Increase by five the number of professional advisor positions to increase student retention and graduation.
- Increase by 13 our support staff in academic departments to create more efficient and effective academic departments.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**

The following personnel will be hired with funds from this initiative.

- Twenty-seven tenure-track faculty lines, hired full-time on 9-month contracts at the assistant professor level. Salary and benefits are estimated at \$55,000 and \$22,855 per faculty member, respectively.
- Eight clinical faculty member lines, hired full-time on 9 month contracts. Salary and benefits are estimated at \$50,000 and \$21,795 per faculty member, respectively.
- Thirty-one lecturer positions that are conversions of part-time teaching capacity to full-time teaching capacity, hired full-time on 9-month contracts at the "lecturer" level. For each lecturer, salary and benefits are estimated at \$41,000 and \$19,888, respectively. Existing adjunct salary and benefits (\$23,736 and \$4,747 for a load equivalent to that taught by one lecturer) will be used to fund a portion of required salary and benefits; \$17,264 in salary and \$15,141 in benefits per lecturer will be funded by this initiative.
- Eight additional lecturer positions to provide additional instructional capacity at the lower division level. For each lecturer, salary and benefits are estimated at \$41,000 and \$19,888, respectively
- Five professional advisor positions, hired full-time on 12-month contracts. Salary and benefits are estimated at \$40,000 and \$19,676 per advisor, respectively.
- Thirteen administrative staff positions, hired full-time on 12-month contracts. Salary and benefits are estimated at \$35,000 and \$18,617 per staff member, respectively.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

The following are a small selection from among the many examples of the reallocation of resources to enhance the strength of our CCI efforts.

- The Department of Community and Regional Planning and its degree programs were discontinued, and two lecturer lines in the Department of History were discontinued.
- The College of Health Sciences shifted three FTE faculty lines from the Department of Nursing to the Department of Kinesiology and the Department of Community Health to enable them to expand capacity in the former and create a new B.S. in Public Health program in the latter. The new degree in Public Health will provide a more focused and professionally valuable degree for students interested in the health sciences, thereby increasing the number of graduates from Boise State University.
- Upgraded "Department Manager" positions were created in the Departments of English and Materials Science & Engineering via reallocation of funds; those position relieve the department chairs and faculty members of a number of administrative tasks and decisions, thereby freeing them to focus on broader issues and on instruction.

c. List any additional operating funds and capital items needed.

Each new faculty member requires additional operating expense to serve the students that will benefit from this initiative. Operating expense totaling \$191,000 is requested.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

All funds requested are ongoing.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request will serve the needs of the state of Idaho and the businesses of Idaho by producing more college graduates, thereby enhancing the state's workforce. This request will serve the needs of the citizens of Idaho by providing them with additional opportunities to successfully complete a college education, in order to build the workforce required to bring high-paying jobs to Idaho.

Without the requested funding BSU's ability to produce additional college graduates will be limited.

Supports institution/agency and Board strategic plans:

Support for the SBOE Strategic Plan:

GOAL 1: A WELL EDUCATED CITIZENRY:

Objective D: Transition – Improve the ability of the educational system to meet educational needs and allow students to efficiently and effectively transition into the workforce.

Performance Measures:

- o *Ratio of STEM to non-STEM baccalaureate degrees conferred in STEM fields*

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- *Percentage of students participating in undergraduate research.*

⇒ The funding of this request will increase access of Idaho's citizens to a premier PhD program in materials science and engineering. The initiative will also result in increased numbers of STEM undergraduate majors and in increased undergraduate research opportunities. Note that the existing performance measures do not adequately assess the value of enhanced graduate-level educational opportunities.

GOAL 2: CRITICAL THINKING AND INNOVATION

Objective A: Critical Thinking, Innovation, and Creativity

Performance Measures:

- *Institution expenditures from competitive federally funded grants*
- *Institution expenditures from competitive industry funded grants*
- *Number of sponsored projects involving the private sector.*
- *Total amount of research expenditures*

⇒ The funding of this initiative will result in increased research productivity by MSE faculty members and students, especially in federally-funded grants and industry-funded research efforts. The above performance measures do not adequately assess what will likely be an even more important benefit to the state of Idaho: increased numbers of patents and startup companies that will result from research in the program.

Support for SBOE's Complete College Idaho Plan:

The Complete College Idaho Plan is founded on the notion that increased educational attainment will result in a more highly qualified workforce, providing economic benefit to the state. This line-item request will provide Idaho industry with highly qualified PhD graduates in materials science and engineering. Although the number of graduates will be small relative to baccalaureate programs, the economic impact will be profound.

Connection with the SBOE's Program Prioritization initiative.

BSU's Program Prioritization process is connected to this request in the following ways:

- Productivity of graduates was an important component of scoring of academic programs and academic departments. Although the PhD in MSE was too new in 2013-14 to be evaluated during Program Prioritization, the program has proven itself to be highly productive and efficient in terms of numbers of students enrolled, numbers of graduates, and time to degree. Were we to go through the Program Prioritization process at this time, the PhD in MSE would place in the top quintile.
- An important measure used to evaluate academic departments is research productivity, as measured by research expenditures per faculty member. Research expenditures per faculty FTE for the Department of MSE were two-and-

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

a-half times that at peer institutions in the most recent results of the Delaware Study.

Support for BSU's Strategic Plan: Focus on Effectiveness 2012-2017

Goal 1: Create a signature, high-quality educational experience for all students.

⇒ The PhD in MSE program is poised to become the best in Idaho and one of the best in the Northwest. (At present, none of our performance measures adequately assess the value of signature graduate programs.)

Goal 3: Gain distinction as a doctoral research university.

Performance measures:

- *Total research & development expenditures*
- *Number of doctoral graduates*
- *New doctoral programs*
- *Number of peer-reviewed publications and number of citations*
- *Production of intellectual property (To be added to list of performance measures; measured via # of disclosures, licensing agreements, patents, and start-up companies.*

⇒ The funding of this request will contribute substantially to our distinction as a doctoral research university by increasing (i) research grant activity, (ii) the number of doctoral graduates, (iii) the number of publications, and (iv) the production of intellectual property.

Goal 4: Align university programs and activities with community needs.

Performance measures:

- *Number of graduates in high demand disciplines*
- *Number of STEM graduates*

⇒ The funding of this request will produce high-level graduates in a discipline that is in very high demand among local industry.

Description:

Recognizing the need for a stronger foundation in materials science in the region, the Micron Foundation donated \$13M to create a new PhD in Materials Science and Engineering (MSE) and fund it for four years.

This FY17 Line Item Request will enable BSU to expand the program, in particular enhancing the interdisciplinary foundation of the program, with permanent funding for:

- 8 new faculty lines that are jointly appointed in MSE and a partner department
- 12 new graduate assistantships

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

As stated in his letter of support for the creation of the PhD program, Dr. Du Li, TEM Laboratory Manager, Micron Technology, Inc. wrote: *“To maintain the core value of the company, we have to enhance research and development to generate better product ideas. One of the requirements to fulfill this task is the need of highly trained engineers. These qualified engineers should normally have PhD training with solid background in at least one of two disciplines in Engineering... Materials Science and Engineering is one of these disciplines and will become more and more important in the near future.”*

The PhD in MSE was created in response several factors, including: (i) demand from local employers; (ii) a significant amount of external support for materials research at Boise State including grants from the National Science Foundation, the Department of Defense, and the Department of Energy; (iii) strong, research programs involving collaborations among faculty in the Departments of Materials Science & Engineering, Physics, Chemistry, Biology; and (iv) rapid growth of the B.S. and M.S. programs in MSE at BSU. The PhD program will generate a significant number of qualified graduate students with extensive training in the key areas of the state’s high-tech economy, including semiconductor science, nanotechnology, and energy materials.

The first students entered the program in Fall of 2012 and by Fall of 2014 the program had grown to 29 students enrolled, making it the largest PhD program in engineering in the state of Idaho. The program graduated three students in FY2014.

The strength and contribution of any PhD program depends primarily on its faculty. The primary use of the Micron gift was to create new faculty lines, the value of which was described by Dr. Hussein Zbib, Professor in the School of Mechanical and Materials Engineering at Washington State University, who served as an external reviewer for the program: *“With the addition of nine new faculty members and the projected enrollment in the PhD program, the MSE at BSU will become the largest MSE department in the northwest, providing a unique opportunity to lead the region in key areas of research.”*

The hiring of eight additional new faculty members will place the program firmly and unequivocally among the best programs in the nation. Each of the new faculty members will be jointly appointed between MSE and either the Department of Chemistry and Biochemistry (3 lines) or the Department of Mechanical and Biomedical Engineering (5 lines), strengthening the interdisciplinary nature of the program. Boise State faculty members from a wide range of disciplines involved in materials research are known for their work in fighting cancer, creating new materials that withstand extreme environmental conditions, developing an extraordinary array of sensors, and advancing knowledge in a wide range of other initiatives. Research expenditures per faculty member per year average approximately \$400,000, which is comparable to the top ten programs in the nation.

Materials research at Boise State has quickly matured into an effective partner to Idaho companies, where research collaborations are resulting in leading edge applications for the use of structural DNA as a way to overcome the technical and non-technical barriers to high-volume manufacturing of nanoscale materials, devices, and systems. Boise State materials researchers are also working in close collaboration with the Idaho National Laboratory on a range of issues that affect our energy security.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The Micron Foundation provided startup funding for Boise State to create a new PhD in MSE because of (i) increased demand, both nationally and locally, for highly trained PhD level graduates in MSE and (ii) the need for research into new materials and their application.

This line-item request provides the state legislature with the opportunity to grow this important program through the allocation of permanent funds.

To do so requires ongoing funding for:

- 8 new faculty lines that are jointly appointed in MSE and a partner department
- 12 new graduate assistantships

2. What resources are necessary to implement this request?

a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

The following personnel will be funded from this initiative.

- Eight tenure-track faculty lines, hired full-time on 9-month contracts at the levels of assistant professor and associate professor. Salary and benefits average \$90,000 and \$27,471 per position, respectively. Five of the faculty members will be jointly appointed in MSE and in the Department of Mechanical and Biomedical Engineering and three will be jointly appointed in MSE and in the Department of Chemistry and Biochemistry.
- Twelve graduate assistantships (an average of 1.5 per new faculty member), each with an annual stipend of \$30,000, benefits of \$1,200 per year, and the cost of a tuition and fee waiver of \$10,536 per year.

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Using a combination of reallocated funds and funds resulting from increased enrollment, the University will fund all of the faculty, staff, and graduate assistant positions that were initially funded by the Micron Foundation.

c. List any additional operating funds and capital items needed.

Operating expense is requested in the form of tuition and fee waivers for graduate assistantships: 18 students at \$10,536 per student per year.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Operating expense at \$8,000 per new faculty member is requested to fund In addition, computers, equipment and travel funds.

A new academic building is needed and is on the University's Set A capital budget request. Fundraising is underway and a sizeable gift is in the final stages of approval.

- 3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

All funds requested are ongoing to support permanent faculty and graduate assistant lines and to provide operating and travel funds. The building is not included in this request, but is noted since this new program will be housed in that facility.

- 4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

The Treasure Valley area of Idaho has the largest concentration of advanced materials-related manufacturing companies in the state, including Micron Technology and Hewlett-Packard. A wide variety of smaller companies also need materials expertise including Quality Thermistor, Plexus, NxtEdge, Campbell Company, and PKG. The Idaho National Laboratory also employs a large group of material scientists, who are critical in maintaining the lab's leadership role in the advancement of nuclear energy and other renewable energy sources. The continued success and growth of a regional high-technology economy and the ability to attract other major companies requires a research and development base and the availability of a highly skilled technical workforce.

Although 80% of Idaho residents are high-school graduates (as compared to 75% nationwide), the state ranks near the bottom in the production of new science and engineering doctoral degrees. As a result, a large fraction of the high-tech job opportunities available within the state go to well-qualified graduates from other states. Therefore, if more Idaho residents were qualified, local employers would be interested in hiring them.

Funding this request will enable BSU to grow an already strong program. Failure to fund this request will result in lost opportunities, not only in the number of PhD graduates but in new discoveries in materials science and engineering.

Supports institution/agency and Board strategic plans:

Support for the SBOE Strategic Plan:

GOAL 1: A WELL EDUCATED CITIZENRY:

Objective B: Higher Level of Educational Attainment

⇒ The funding of this request will have substantial impact on the level of educational attainment of Idahoans. It will:

- Increase retention by providing greater variety of majors and options for students to explore areas of interest outside of their major and essentially customize their educational experience.
- Increase the percent of Idahoans with a college degree by adding new programs of interest to serve today's students and industry leaders.

Objective D: Transition

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

⇒ The funding of this request will have substantial impact on our students perception of quality of their educational experience. Further, it will allow us to react quickly to growing workforce demands and to create programs that feed the local and regional economies.

GOAL 2: Critical Thinking and Innovation

Objective A: Critical Thinking, Innovation and creativity – increase research and development of new ideas into solutions that benefit society

Objective B: Quality Instruction – increase student performance through the development, recruitment and retention of a diverse and highly qualified workforce of teachers, faculty and staff.

⇒ The funding of this request will have substantial impact on our students educational experience and their ability to think critically and tackle problems innovatively. Further, it will allow us to react quickly to growing workforce demands and to create programs that feed the local and regional economies

Support for BSU's Strategic Plan: Focus on Effectiveness 2012-2017

Goal #1: Create a signature, high-quality educational experience for all students

Performance Measures:

– *NSSE benchmark of student perception of quality of educational experience*

⇒ The funding of this request will have substantial impact on our students educational experience and their ability to think critically and tackle problems innovatively. Further, it will allow us to react quickly to growing workforce demands and to create programs that feed the local and regional economies

Goal #2: Facilitate the timely attainment of education goals of our diverse student population.

Performance Measures:

– *Number of degree graduates*

– *Freshman Retention Rate*

– *Six-year graduation rate*

– *eCampus*

⇒ The funding of this request will increase the ability of BSU to facilitate attainment of educational goals by our students by increasing capacity. It will:

– Increase retention by providing greater access to advisors and by increasing the proportion of courses taught by full-time faculty members.

– Increase progression to degree by removing bottlenecks and increasing capacity in high-demand programs.

Goal 4: Align university programs and activities with community needs.

Performance measure:

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

– *Number of graduates in high demand disciplines*

⇒ The funding of this request will have substantial impact on our students perception of quality of their educational experience. Further, it will allow us to react quickly to growing workforce demands and to create programs that feed the local and regional economies.

Support for SBOE’s Complete College Idaho Plan:

BSU has fully embraced the August 2010 call by the SBOE for more postsecondary graduates, and has made that call the cornerstone of strategic planning. Boise State’s Strategic Enrollment Plan is grounded on the goal of increasing the number of baccalaureate graduates, especially those with a substantial impact on Idaho’s rate of educational attainment. Boise State has consistently surpassed the goals set out by the SBOE for numbers of baccalaureate graduates. In addition, Boise State has made substantial progress in increasing key measures that contribute to numbers of graduates; for example, our 6-year graduation rate increased from 30% for our 2006 cohort to 37% for our 2008 cohort.

Our line item request is focused on providing greater variety of majors and options for students to explore areas of interest outside of their major and essentially customize their educational experience, which will contribute positively to enrollment, retention, academic quality and the student experience.

Connection with the SBOE’s Program Prioritization initiative.

The creation of the College of Innovation and Design (CID) was made possible in large measure by the program prioritization effort and the acknowledgement on campus that as we make way for new and innovative programming to serve students and our community, we have to review existing programming and ensure it is still relevant. Because of this process, all of the initial funding to pay for the central college administration was derived from reallocation. We expect this to be an ongoing process such that reallocation of resources to the College of Innovation and Design for unique programming will continue as time goes on. However, in order to most effectively launch our efforts in these areas and open up these services to larger numbers of students, a new state investment is needed.

Description:

Funding is being sought to support new programming for the College of Innovation & Design (CID) as well as the enhancement of existing campus programs as they transition to CID. The College of Innovation and Design is a university-wide hub focused on transforming academic programming, learning, and research at Boise State University. Leveraging the speed, collaboration, and risk-taking of a start-up, the college will inspire and support faculty, students and community members from diverse disciplines to create new pathways of learning that anticipate the demands and opportunities of our ever-changing world and workplace.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

We anticipate that teams of faculty, students and others will use this structure and the opportunity it provides to generate pioneering degrees, badges and certificates as well as design new and innovative approaches to research, community engagement efforts and other initiatives that transcend conventional university boundaries, structures or disciplines.

Specifically, funds will be used to support the new Bachelor of Science in Games, Interactive Media & Mobile (GIMM) program, to build a Bridge to Career program, and to enhance, expand and permanently fund Venture College.

Games, Interactive Media & Mobile (GIMM)

Boise State University's new Bachelor of Science in Games, Interactive Media & Mobile (GIMM) is the first degree program approved within the new College of Innovation & Design. It will produce client-side developers capable of creating immersive and interactive experiences with both software and mobile hardware. The proposed program will take advantage of emerging technological change in the mobile and gaming development industries. The GIMM program will provide a broad, comprehensive, and technologically-focused program of study that includes courses in game development, interactive media creation, mobile application development, information technology management, art, and graphic design. The program is targeted at students who are interested in working with mobile applications, interactive media, and game development as programmers, interactive developers, and interactive media project managers. The University is using local funds to initiate the program. This request is for permanent, appropriated dollars to support the program into the future.

Bridge-to-Career

The Bridge to Career project will develop ways to offer Boise State University undergraduate students with essential, complementary knowledge and skills outside their disciplinary home, thereby better preparing students for success as they transition from campus to career. The project will initially have three emphases: business literacy, technical literacy, and professional success. Other emphases, like International literacy, are also being explored.

The idea is for students to develop basic fluency in areas that will impact their ability to be hired and be successful in the workplace. The program will develop credit-based courses that will provide basic proficiency to augment a particular degree/major. For example, an Art major who plans to produce and sell individual works would benefit greatly from business literacy. An English major could benefit greatly from adding technical literacy to their skills in order to navigate the various methods used for communicating in today's society. Bridge to Career courses will be available to all students at Boise State University.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Venture College

Venture College was created at Boise State a few years ago to help Boise State students start businesses (or non-profits) while pursuing their education. It is being moved to the College of Innovation & Design so that we can enhance and expand its offerings. Specifically, Venture College will be available to 1000+ students each year, regardless of major, and will help those who have interest in testing their ideas and skills to solve complex problems, not just those who want to start businesses.

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

GIMM

Funds will be used to support faculty hires and operating expenditures in the new Bachelor of Science in Games, Interactive Media & Mobile (GIMM) program. The University is using local funds to initiate the program. This request will provide for permanent, appropriated dollars to support the program into the future.

Bridge to Career

Funding will support the cost of initial staff and faculty to offer coursework to students. Bridge to Career is being initiated with existing university resources (local funds). This request will provide for permanent, appropriated dollars to support the program into the future.

Venture College

Funding will support current staffing in Venture College and allow for additional staff to support the expansion of the program. Local funds have been supporting current staff since the program was piloted in 2013.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**
- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**
- c. List any additional operating funds and capital items needed.**

GIMM: Funds are requested for salaries and benefits for four faculty lines: one clinical associate professor, who will also serve as director, and three clinical assistant professors. Each of these positions is full-time on 9 month contract. In addition, funds are being sought to support software licensing.

Bridge-to-Career: New appropriated funding is necessary to implement this program and support a part-time director to oversee the program and a full-time instructional designer

**BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015**

to develop the courses necessary for the program. We will make substantial use of professionals in the business community to teach classes based on their own experience in the workforce. Support for these adjunct instructors is included in the request.

Venture College: Funds are requested to support new, permanent staff positions to expand Venture College beyond its current capacity so it can support entrepreneurial ventures and ideas from larger numbers of students. Specifically, the request will support six full-time staff positions.

GIMM	Salary	Fringe	Other	Total
Clinical asst professor	\$ 58,000.00	\$ 23,490.20		\$ 81,490.20

TOTAL ALL PROGRAMS				\$ 1,020,876.77

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Additional operating and capital funding needed to support the positions is being provided through reallocation of resources or local funding.

- 3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.**

All funds requested are intended to be ongoing, since most of the request is for permanent staff salaries and benefits.

- 4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

GIMM

The GIMM program's goal is to create a nationally recognized curriculum that produces developers capable of creating interactive experiences with visual design, programming, and narrative skills. The program will maintain a focus on the cutting edge of technology, and will expose students to the latest trends in the industry, thereby supporting the growth of high tech industry here in Idaho.

The proposed program will meet the needs expressed by the Boise Valley Economic Partnership, which has been organizing game development and digital media development companies in the Treasure Valley to increase awareness and attract more of the gaming industry to the state. A November, 2013, meeting of industry and university representatives was held to identify needs for growing the industry in Idaho. Below is an excerpt from the report generated at the meeting:

“Education was another important theme raised in the discussion. For the industry, education had several needs including training the next generation of artists at the universities and colleges and helping artists communicate with others outside their fields (notably architecture, engineering and medical). The industry wants the universities and colleges to grab hold of the educational needs and develop a gaming program, offering core classes in gaming. Salt Lake City, UT was one example provided that developed a focus on training and gaming. Resources and training are also needed to help artists overcome the gap in talking about projects with engineers and architects. Several indicated that the larger community could assist with that effort.”

Funding to support this effort will serve students interested in this major as well as industry which will ultimately employ our graduates.

Bridge to Career

A recent report issued by the New York Federal Reserve confirmed, through analyzing 20 years of data, that today's graduates are having a tougher time transitioning to the job market than in the past and many are accepting jobs for which they are over-qualified—low-wage or part-time work.

The challenge in today's world is whether universities are providing all the tools necessary for the long-term success of our graduates. To provide our students with more opportunities to prepare for their entry into the workplace, Boise State has created a "Bridge to Career" program that students will be able to layer onto their degrees to demonstrate organizational and managerial skills that will improve their prospects as both job applicants and successful team members in the profit or not-for-profit sectors.

Benefits to both students and employers will be significant and serve to lessen the transition from college to workforce.

Venture College

The funding request will allow expansion of the program to serve a much larger number of students (1000+ annually) and a broader set of interests and issues. This funding will support the Boise community through support for startup ventures and by providing students with assistance and guidance as they seek to create solutions to societal issues.

Select highlights since the inception of the pilot program:

- *Fifteen have achieved revenue ranging from a few hundred dollars to more than \$200,000.*
- *Ten pre-revenue entrepreneurs are continuing to test their ideas.*
- *Three concluded that their ideas will not work.*
- *One joined another entrepreneur.*
- *The others accepted full-time employment.*
- *Nine did not finish this rigorous program.*
- *Fourteen have earned the Boise State University Venture College Badge, signifying competency in the skills needed to test a business idea, including critical thinking, creativity, communications and collaboration.*
- *Six have obtained employment as a result of their Venture College experiences.*
- *Two have raised a total of \$175,000 of capital.*
- *Nine full-time-equivalent new jobs have been created.*
- *More than 400 community and business leaders agreed to serve as mentors to our entrepreneurs and as advisers to Venture College. More than 100 of them directly worked with one or more of our entrepreneurs.*

Lack of funding for these programs will slow the start of our new College endeavors and potentially limit its impact and reach to our students and the community we serve.

Supports institution/agency and Board strategic plans:

Boise State Goal 4: Align University programs and activities with community needs.

Boise State Goal 5: Transform our operations to serve the contemporary mission of the University.

Description:

Boise State University Campus Security and Police Services intends to transition from a civilian security department to a public safety department with sworn police officers, having full police powers consistent with Idaho Peace Officers Standards and Training (P.O.S.T.) certifications. According to the Bureau of Justice Statistics, nearly all (92%) U.S. four-year public colleges and universities operated their own

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

law enforcement agencies during the 2011–2012 school year. Supporting this transition would align Boise State with national best practices, as well as with our peer institutions and conference partners. Additionally, this transition supports the University's strategic plan to become a metropolitan research university of distinction, acting as a leader in higher education environment in Idaho and falling in line with the standard across the country.

By creating a Boise State University Department of Public Safety, there would be numerous benefits:

- Emphasis in community policing and problem solving through continuous and new partnerships within the campus, the surrounding community, and regional law enforcement communities.
- Ability to enforce Boise State policy and procedures.
- A customer-service focus with Department of Public Safety employees.
- A coordinated, team approach to on-campus crime prevention and investigation, including an increased focus on sexual assault cases.
- Increased training and safety presentations for the campus community.
- Increased involvement in the educational and developmental process.

Boise State would be building on the already-established relationship with local law enforcement while meeting the specialized needs of a higher education population. Boise State University police officers would be more focused on community service and connecting with students and other employees; having a better understanding of University policy and procedures, as well as federal and state laws that govern higher education institutions; and internal resources.

Boise State University will use a phased-in approach to transition our current Campus Security and Police Services department to a law enforcement agency, which would include event security and parking functions, while continuing our relationship with the Boise Police Department. Through the four phases, Campus Security and Police Services will pursue the necessary legislative changes to authorize a law enforcement agency in the higher education setting; merge with Transportation and Parking Department, as well as restructuring Campus Security and Police Services, to build the foundation for the Department of Public Safety. We would also work on ensuring adequate facilities for the expansion of the Department of Public Safety and developing the policies and procedures necessary. The final result will be a Boise State University Department of Public Safety that will not only be a leader in Idaho for campus safety and security, but will also contribute to a positive and safety environment for the campus community to study, work, and visit.

Questions:

- 1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Boise State University Campus Security and Police Services intends to transition from a civilian security department to a public safety department with sworn police officers, having full police powers consistent with Idaho Peace Officers Standards and Training (P.O.S.T.) certifications.

The Department is headed by the Executive Director of the University Security Department, who is responsible for overseeing Boise State University's security program. The rest of the security team is comprised of a Security Operations Manager, Assistant Director of Event Security, Threat Assessment and Security Analysis Manager, Security Analyst, Security Officer Supervisor, 9 full-time Security Officers and 14 part-time Security Officers. Boise State University security officers patrol the campus 24 hours a day, 7 days a week.

Base Budget:

Appropriated:	\$1,533,237
Local:	<u>\$ 599,150</u>
Total:	\$2,132,387

By Account:

Regular Salary:	\$ 630,601
Irregular Salary:	\$ 75,487
Fringe Benefits:	\$ 318,797
Operating:	\$ 113,422
Travel:	\$ 5,000
Security Contract:	<u>\$ 989,080</u>
Total:	\$2,132,387

2. What resources are necessary to implement this request?

a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

The University intends to hire 2 new full-time, benefit eligible positions and reclassify 22 full-time benefit eligible positions, through the merging of Transportation and Parking Services with the Campus Security and Police Services to create the Division of Public Safety in phase one of a multi-phased initiative. The positions would become effective July 1, 2016 if the request is approved.

- 2 position reclassification to Associate Director
- 1 position reclassification to Records Unit Manager
- 1 position reclassification to IT Security Manager
- 1 position reclassification to Community Service Manager
- 2 position reclassifications to Community Service Officer Supervisor
- 2 position reclassifications to Traffic Event Specialists Supervisor
- 13 position reclassifications to Community Services Officers
- 1 new position of Assistant Director – Emergency Management
- 1 new position of Crime Analyst

**BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015**

Personnel Costs

Position Change/New Position	Estimated Salary Amount	Estimated Fringe
Assistant Director - Emergency Management	\$58,900.00	\$23,681.00
Associate Directors (2)	\$28,800.00	\$6,000.00
Crime Analyst	\$45,000.00	\$21,100.00
CSO Manager	\$7,984.00	\$1,700.00
CSO/TES Supervisors	\$12,500.00	\$2,800.00
CSOs	\$9,700.00	\$2,500.00
Officer Overtime and Event Security	\$11,035.00	
TOTAL	\$173,919.00	\$57,781.00

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

In line with Program Prioritization findings, a new Division of Public Safety will be created by consolidating University Security and Transportation and Parking Services. The new office will be reorganized into two primary offices: Operations and Events.

During the Program Prioritization Process, several of the highest risk programs in the division were: Campus Security, Security Compliance, Emergency Preparedness, Event Security/Management, and the Parking Shuttle Program. While some of the most stable and low risk programs were in the Transportation & Parking Services areas to include, Parking Space Management, Parking & Traffic Operations, the Parking Cycle Learning Center, Parking Maintenance, and Parking Information Technology.

By restructuring the two areas, stability will be brought to high risk areas by using the structure and efficiencies already existing in low risk areas. In addition, several of the SBOE Approved Peers have similar structures and this action will continue to bring Boise State in line with our peer institutions. In review of our aspirational institutions (<http://ir.boisestate.edu/peer-institutions/>), two of the three have similar organizational structures to the proposed.

Additionally, in the event of an emergency, currently Parking Event Staff handle the evacuation of campus due to them having the man power and training to efficiently and effectively move vehicle and pedestrian traffic, clearing the way for Security and Boise Police to handle the emergency situation.

The restructuring would increase and reinforce Security's presence as necessary for the daily operations of campus. Transportation and Parking Services would become an integral operational part of campus and would be refocused. Shifting the mission of TPS is an important part of program prioritization.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

This will significantly increase the University's ability to plan for events and meet emergency needs as they arise.

In order to minimize services impact, the process will occur in four phases, with this request being the first phase.

c. List any additional operating funds and capital items needed.

Operating Expenditures	Estimated Amount
Uniforms & Equipment	\$30,000.00
Training	\$64,800.00
Radios	\$1,000.00
Office Equipment	\$5,400.00
Computer	\$4,000.00
Cell Phones/Printers	\$6,500.00
Marketing & Branding	\$7,000.00
Field Supplies	\$4,000.00
Report Exec Licenses	\$3,600.00
Individual Org Memberships	\$2,000.00
Vehicle	\$40,000.00
TOTAL	\$168,300.00

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request is the first part of a multi-phased initiative. Over the life of the life initiative the University will experience cost savings.

Boise State University will use a phased-in approach to transition our current Campus Security and Police Services department to a law enforcement agency, which would include event security and parking functions, while continuing our relationship with the Boise Police Department. Through the four phases, Campus Security and Police Services will pursue the necessary legislative changes to authorize a law enforcement agency in the higher education setting; merge with Transportation and Parking Department, as well as restructuring Campus Security and Police Services, to build the foundation for the Department of Public Safety.

Fee structure changes, revenue, and anticipated grant awards are anticipated to be minimal in the first phase of this transition.

All operating expenditures are ongoing except for the vehicle purchase (\$40,000.00)

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request serves the students, faculty, staff, and visitors of the University directly. In addition the expanded areas around campus, including the newly developed Lusk Street area will be served by the Division of Public Safety through increased security presence, faster response times, security escort services, and emergency notifications.

5. Include a Problem Statement and Solution Statement along with measurable outcomes.

Boise State University Campus Security and Police Services is currently not aligned with national best practices and peer institutions.

According to the Bureau of Justice Statistics, nearly all (92%) U.S. four-year public colleges and universities operated their own law enforcement agencies during the 2011–2012 school year. Supporting this transition would align Boise State with national best practices, as well as with our peer institutions and conference partners.

Outcomes can be measured through increased response time, officer to student ratios, security officer logs, incident reports, University compliance with Clery Act and Title IX mandates, and ability to effectively and efficiently respond to emergency situations.

6. Line-item requests should be scalable.

By using a four phased approach, the line item remains scalable.

7. Address the influence of program prioritization on the request. Did you consider reallocating funding for this line-item?

Program Prioritization was the leading reason for this request. By using a combination of reallocated resources and new line-item requests, the University can develop a Division of Public Safety that brings the University in line with peer institutions and national standards.

8. How does the request advance the Board's 60% Goal or CCI Plan?

The University has seen increased interest in the Security operations at new student orientation. Parents and students are concerned with the safety of campus. There is also increased pressure on Security to keep up with the Campus Security Act of 1990, Title, and the Jeanne Clery Act. Security Officers worked 22,625 man hours during FY 13. Most (98%) of institutions with 15,000 or more students have university employed sworn campus law enforcement officers who enforce both criminal law and university policy.

The Division of Public Safety will provide students with a safe living and learning environment that will allow them to focus on their school work, rather than safety.

Supports institution/agency and Board strategic plans:

The proposed program supports key strategies identified in the Idaho State Board of Education and Idaho State University strategic plans. In particular, the technology-enabled “early alert” system and just in time intrusive advising will significantly advance those strategies associated with Complete College Idaho and the Board’s 60% goal **by strengthening the pipeline and developing intentional advising along the K-20 continuum.**

ISU Goal 2: ACCESS AND OPPORTUNITY

Idaho State University provides diverse opportunities for students with a broad range of educational preparation and backgrounds to enter the University and climb the curricular ladder so that they may reach their intellectual potential and achieve their educational

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

goals. Objective 2.2—Students’ progression from initial enrollment to graduation is monitored, and efforts to increase enrollment, retention and completion are in place.

Through the use of a technology-enabled “early alert” system, retention advisors at Idaho State University will closely monitor individual students from admission through graduation, improving students’ ability to “climb their curricular ladders” and achieve their educational goals. All academic advising at Idaho State University will be intrusive, efficient, and targeted, providing students with just in time advising to attain their intellectual potential.

SBOE Goal 1.B: The educational system will provide opportunities for individual advancement. Increase the educational attainment of all Idahoans through participation and retention in Idaho’s educational system.

By combining technology with proactive advising, students will advance through Idaho State University more efficiently and effectively. Students will reduce the number of excess credits earned, reduce unnecessary student debt, receive vital advice in a timely manner, and decrease the number of academic missteps along the way.

Counseling services keep students in college that might otherwise stop out or drop out. This leads to enhanced retention and graduate rates for ISU. It allows ISU to meet the individual needs of students who attend ISU.

SBOE Goal 3.B: Increase the quality, thoroughness, and accessibility of data for informed decision-making and continuous improvement of Idaho’s educational system.

Early alert systems provide essential data for informed decision-making and continuous improvement with regard to student retention, persistence, and graduation. These systems help ensure that students are enrolling in the correct courses for their intended majors; provide crucial information for “at risk” populations; and deliver predictive measures to develop best practices to advance future populations of students.

Complete College Idaho:

Strengthen the Pipeline - Develop intentional advising along the K-20 continuum that links education with careers.

Through tighter alignment with Idaho high schools, ISU retention advisors will provide greater connectedness and information along Idaho’s educational continuum thereby increasing Idaho’s “go on” and completion rates.

Performance Measure:

The following are ISU’s relevant performance measures linked to strengthening the pipeline and developing intentional advising.

Positively impact time to degree by 5% over the next three years; positively impact retention rates by 5% over next three years; positively impact undergraduate degree

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

production by 5% over the next three years; increase the retention rate to 75% over the next three years; increase to 50% the number of full-time freshman students who participate in First Year Seminar and university orientation courses; and maintain sufficient access to advising.

Description:

Retention and Completion

Problem: A pressing challenge for Idaho is to increase degree and certificate completion for all individuals, of all ages, and for all socioeconomic backgrounds. Retention rates in Idaho's higher educational institutions are simply not what they need to be in order to reach Idaho's 60% goal. Idaho State University is working to improve retention rates and has seen a 6.7% retention increase for full-time freshmen students from 2010 (62.3%) to 2013 (69%). Clearly, much still needs to be accomplished in this regard.

Solution: Retention and completion must become the focus of higher education across Idaho. To this end, Idaho State University proposes to closely oversee academic student progress, using a technology-enabled "early alert" system and further provide targeted "intrusive advising" to ensure student success. This intrusive advising is part of a larger retention and completion strategy that includes; greater connectedness with Idaho high schools; strong summer bridge programs; clear 4-year degree "academic" maps; focused student cohorts within structured schedules; full-time student enrollment of 15 credits per semester; "critical path" or "milestone" course completion each semester; and increased major/field specific advising to transition students into the workplace. In essence, ISU is proposing to place *all* future and current ISU students on guided pathways to successful careers.

In order for ISU to continue to build on our recent retention and completion successes, we are proposing to purchase a technology based "early alert" system; hire a technical analyst to implement and support the system; and hire a cohort of retention advisors (20 in total) in order to fully engage with our students.

This strategy will increase our ability to track student performance in required courses and focus interventions when and where they are needed most. For example, an early alert system will inform an advisor when a student has enrolled in the wrong class for his/her particular major or if a "critical path" course is not completed on time. An advisor will then intervene decreasing the impact of the student's misstep. Further, an early alert system provides us with the ability to target "at risk" students with specific interventions for their specific needs. Enabled by technology, all academic advising will be intrusive, efficient, and targeted, providing students with just in time advising when they need it most.

In order for ISU to bring full circle our retention and completion strategy, linking education with career opportunities, we are proposing that our retention advisors not only work with high schools to increase college awareness and connectedness, but also develop discipline specific expertise to effectively provide major/program explicit academic and

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

career advising. Thus, each advisor will mentor a student from the college application process, through lower division course discovery, upper division course selection, and graduation. These retention advisors will reach out to each and every student ensuring effective, consistent, clear, and specific academic advising. In collaboration with faculty across campus, retention advisors will also teach courses focused both on university orientation and career exploration. Because each student will have one advisor from college entrance to completion, students will no longer fall through the cracks and will therefore be retained and graduate at significantly higher rates.

Projected Outcomes: Universities across the country who have implemented technology-enabled intrusive advising programs such as the one described above have shown significant increases in retention and graduation. By means of example, Georgia State University's implementation has increased its graduation rates by more than 20 percentage points (from 31.5% to 53.4%) over the last 10 years. Idaho State University anticipates comparable significant results as well.

Program Prioritization: Retention and completion initiatives were determined to be Tier 1 priorities within ISU's program prioritization process. As such, new and additional resources are to be committed to these central goals. Program prioritization fund reallocation has thus far all been committed to Tier 1 academic priorities.

Questions:

1) What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Idaho State University recommends implementing a retention and completion strategy which includes the hiring of 1 Technical/Functional Analyst (IT), a cohort of 20 Retention Advisor/Instructors, and the purchase of an "early alert" retention system such as the Student Success Collaborative (an Educational Advisory Board product). This retention team will closely oversee academic student progress, using the technology-enabled "early alert" system and provide targeted "intrusive advising" when it is most needed to ensure student retention, persistence, and graduation.

Total Budget Recommendation: Overall: \$1,565,000 comprised of the following items. Salary: \$930,000. Benefits: \$426,000. Travel: \$21,000. Materials and Supplies (including the "early alert" system yearly license): \$110,000. Communication: \$15,000, Capital Equipment (computers/workstations): \$63,000.

2) What resources are necessary to implement this request?

a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Idaho State University's retention and completion plan recommends hiring 20 Retention Advisor/Instructors, and a Technical/Functional Analyst (IT). All are full-time, 12-month positions, benefit-eligible. We would anticipate hiring the IT analyst and 10 retention

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

advisors in summer 2016. Those hired during the summer months would implement and trouble-shoot the “early alert system” throughout the summer. The final 10 retention advisors will then be hired fall 2016.

b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

We anticipate all of these individuals will be new hires.

c. List any additional operating funds and capital items needed.

As listed above, the following operating and capital funds are needed: Travel: \$21,000. Materials and Supplies (including the “early alert” yearly license fee): 110,000. Communication: 15,000. Capital (computers/workstations): 63,000. Implementation of the “early alert” system is expected to cost an additional \$50,000 in the first year. This \$50,000 will be obtained through salary savings by hiring 10 of the retention advisors in fall of 2016 rather than the summer of 2016.

3) Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request anticipates the need for ongoing funding. We expect no significant fee structure changes or grant awards in this regard. We would however, expect increased enrollment from Idaho high schools and Idaho transfer students. Increased retention and completion is a clear expectation as well.

4) Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request focuses on retention and completion for all future and current, high school through college senior, ISU students. The technology-enabled intrusive advising is part of a all-inclusive strategy that incorporates; greater connectedness with Idaho high schools; strong summer bridge programs; clear 4-year degree “academic” maps; focused student cohorts within structured schedules; full-time student enrollment of 15 credits per semester; “critical path” or “milestone” course completion each semester; and increased major/field specific advising to transition students into the workplace.

Supports institution/agency and Board strategic plans:

1) SBOE Goal 1—Well-Educated Citizenry: The educational system will provide opportunities for individual advancement. Objective D—Transition: Improve the ability of the educational system to meet educational needs and allow students to efficiently transition into the workforce.

Internship and volunteer work, along with other student opportunities, encourage students to use the knowledge they acquire in coursework in practical experiences, helping them to transition more easily into the workforce upon completion of their degrees.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

2) SBOE Goal 2—Critical Thinking and Innovation: The educational system will provide an environment for the development of new ideas, and practical and theoretical knowledge to foster the development of individuals who are entrepreneurial, broadminded, think critically, and are creative. Objective A—Critical Thinking, Innovation and Creativity: Increase research and development of new ideas into solutions that benefit society.

By combining the practical knowledge students gain in out-of-class situations such as internships, volunteer work, and other work-related experience with the more theoretical understanding from coursework, students are given the opportunity to practice creative decision-making and develop new areas for development.

3) Complete College Idaho—Leverage Partnerships: Collaboration between education with the business community, non-profit and philanthropic organizations to project and meet work force requirements and business development opportunities.

Through partnerships with organizations throughout the state, ISU would be able to provide students excellent opportunities to learn first-hand how different types of businesses run and to provide service to these organizations in a mutually beneficial relationship. Students would gain stronger experience, allowing them to be more engaged in their education and more competitive once on the job market.

4) ISU Goal 2: Access and Opportunity—ISU provides diverse opportunities for students with a broad range of educational preparation and backgrounds to enter the University and climb the curricular ladder so that they may reach their intellectual potential and achieve their educational goals. Objective 2.2—Students' progression from initial enrollment to graduation is monitored, and efforts to increase enrollment, retention and completion are in place) 2.5—Students participate in community and service learning projects and activities, student organizations, and learning communities.

Students would gain direct experience working on community and service learning projects, providing support to the community, and also gaining experience that can benefit their own long-term career goals. Students would also be able to receive support in the process of having their past experiential/work experience evaluated for possible academic credit, thereby providing access and opportunity to our non-traditional students.

5) ISU Goal 4: Community Engagement and Impact: ISU, including its outreach campuses and centers, is an integral component of the local communities, the State and the intermountain region, and benefits the economic health, business development, environment, and arts and culture in the communities it serves. Objective 4.3—ISU participates in formal and informal partnerships with other entities and stakeholders.

Through the coordinated efforts of staff to provide students opportunities with service-learning, volunteer work, internships, and other types of opportunity development, ISU will be able to engage the community directly in the work and education of our students, thereby developing clearer connections among them.

Performance Measure:

The following are ISU's relevant performance measures linked to Community Engagement and Access and Opportunity:

Positively impact retention rates by 5% over next three years; positively impact degree production by 5% over the next three years; and the number of partnerships, collaborative agreements, and contracts will increase by 5% over the next five years. In addition, we seek to increase participation in internships, service learning, and volunteer activities by our students by 5% over the next five years.

Description:

Student Opportunity Development

Problem Statement: Even as ISU's retention rate has been improving over the last several years, we continue to face the problem of retention and completion rates being lower than we aspire to. Furthermore, the university is currently unable to provide ample opportunities for undergraduates to serve in internships or do service learning or other community and professional activities, which have proven to help students acquire professional positions upon graduation. According to a survey published by *The Chronicle for Higher Education* (2012), "Employers place more weight on experience, particularly internships and employment during school vs. academic credentials including GPA and college major when evaluating a recent graduate for employment" (11). In addition, "Extracurricular activities, like professional clubs, athletics, and service, are valued more than GPA, relevance of coursework to position, and college reputation except by Executives who emphatically place more weight on coursework relevance and GPA, closely trailing college major" (11). In another recent study of one Texas university, it was determined that students who finished at least one internship while in college were 13% more likely to find full-time jobs upon graduating (*Huffington Post*, 5/27/2014).

Solution Statement: In order to better provide our students opportunities for developing abilities in problem-solving and creative thinking, which are desired in the workplace, and to give them first-hand experience to combine with their scholarly knowledge, we propose the creation of a Student Opportunity Development program. This program would place a Student Opportunity Coordinator (6 in total) in each college/division at ISU. This coordinator would work directly with students to help find them internship possibilities around the State, along with opportunities for volunteer work, international experiences in coordination with our Study Abroad program, and service learning to combine community service with academic activity. Furthermore, the coordinators would develop relationships with businesses as well as non-profit and government organizations throughout the region, helping to develop pipelines for students as they progress through their

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

academics. Not only will this help students as they complete their degrees, but these opportunities can help encourage students to stay focused on the completion of their degrees: working within the types of organizations they strive for as a career can provide additional motivation to stay focused on completing their degree.

In addition to the college/division coordinators, there will be a Student Opportunity Director who will coordinate efforts across the university. This person will also take on the role of directing our credit for prior learning / experiential credit program, working with students who come to ISU with prior work experience and seek ways to have that experience count toward college credit. The director will also be responsible for developing new programs, new service-learning courses, and providing guidance and training across the institution.

ISU has had success with our Career Path Internship program, and builds on what the CPI program accomplishes. Most of the work of the CPI program has focused on employment opportunities within ISU or with very local organizations. The Student Opportunity Development Program would coordinate a wider set of development opportunities for students and engage businesses and other outside organizations from all around the State. The program would also extend the areas of focus outside the CPI program, including academic credit for prior experiential learning, international opportunities, and a variety of service-learning and volunteer activities.

Projected Outcomes: We anticipate that through this program, we will increase the number of internships, service learning, and volunteer activities for our students 5% over the next five years. We also anticipate that this program will contribute to an increase in retention and completion, helping to attain Idaho's 60% goal.

Program Prioritization: Retention and completion initiatives were determined to be Tier 1 priorities within ISU's program prioritization process. As such, new and additional resources are to be committed to these central goals. Program prioritization fund reallocation has thus far all been committed to Tier 1 academic priorities.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Idaho State University will hire 6 Student Opportunity Coordinators (one per college/division) and one Director. These employees will work with students to help place them in internships, volunteer positions, service-learning courses, and international experiences. The director will also oversee the experiential learning program, working with students with prior work experience to determine if it can be used for academic credit. These people will also work with outside businesses, government, and non-profit organizations, traveling around the State to foster these relationships in order to develop pipelines for our students to gain access to hands-on experience.

Overall Budget: Salary: \$315,000. Benefits: 143,014. Travel: 20,000. Materials and Supplies: 15,000. Communication: 12,000. Capital Equipment (computers/workstations): 12,000

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Student Opportunity Coordinators (6) and Director (1). All are full-time, 12-month positions, benefit-eligible. We would anticipate hiring the director in summer 2016 and the coordinators in fall 2016.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

We anticipate all of these employees will be new hires.

- c. List any additional operating funds and capital items needed.

As listed in question 1, the following operating and capital amounts are needed: Travel: 20,000. Materials and Supplies: 15,000. Communication: 12,000. Capital Equipment (computers/ workstations): 12,000. The travel will primarily be used by the coordinators and directors to travel to businesses and other organizations around the state to help develop opportunities for student internships and volunteer opportunities. Other operating expenses are standard needs for a new unit.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

Although this effort is aimed at improved retention and graduation rates, and student preparation, we anticipate that once the program progresses, our focus on Student Opportunity development will become a selling point for the university and will draw in students who are looking for more first-hand experience as part of an education. In the long term, we expect this will attract students who would not otherwise consider college. We also anticipate that the employees in this program will work to develop grant funding from outside sources to further enhance the offerings to students.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Undergraduates from freshman to senior are to be served by this program. Work and service opportunities can be targeted to students at each level of progress through the university, allowing everyone from a new student to a more advanced student the chance to gain practical experience and learn more about the relevance of their academics to the workplace. When students are given such opportunities for first-hand experience, their motivation for continuing their studies will increase, thereby improving retention. If this project is not funded, we would go forward with our current processes, and not offer any

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

coordinated assistance for these types of activities. Some students would certainly continue to make use of ISU's Career Path Internship program and to find other outside professional internships, but the majority would not have the breadth of experience offered through this new program, leaving them at a disadvantage.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Goal 3, Objective 3.1 (ISU Strategic Plan 2012 – 2015)

Advance health sciences research and health professions education throughout the state to increase the quality of patient care, the number of practicing health care professionals, and to promote clinical and translational research. (SBOE Strategic Plan: Goal 1, Objectives A-D; Goal 2, A, B; Goal 3, Objectives A-C)

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

3.1: *Increase the number of students admitted to ISU's health professions programs, where capacity exists, to meet the healthcare workforce needs of Idaho.*

Performance Measure:

Number of seats available in the undergraduate, graduate, and postgraduate health programs at ISU, where capacity exists (i.e., based on assessment of projected manpower needs, funding to increase number of clinical faculty, available clinical training sites, and size of the applicant pools.)

Description:

This initiative is to request ongoing faculty and staff salaries and operating funds as well as one-time startup costs to meet the needs for expansion of program offerings at the ISU Meridian Health Science Center (HSC). These positions will also provide needed support for the current programs, future degree-completion and doctoral programs. Two new outpatient clinics will be developed at the Meridian HSC that will serve citizens in the local area, and complement the existing clinics by providing expanded opportunities for inter-professional experiences for students and patients.

The programs planned for expansion are not currently available to students in the Treasure Valley. Expansion of our programs to our Meridian campus provides convenience to students who live in the western part of Idaho, and it allows them to capitalize on the clinical placements in the Treasure Valley without having to travel. Expansion on our Meridian campus also allows us to increase our patient base for our in-house clinics.

ISU has the only Bachelor of Science (BS) in Dental Hygiene (DH) program, the only Doctor of Physical Therapy (DPT) Program in Idaho, and the only MS program in Dental Hygiene in Idaho or neighboring states. The DH graduate program boasts the highest enrollment when compared to other graduate programs across the nation.

The DPT Program typically receives >250 applications for the 24-26 seats currently available each year on our Pocatello campus. This expansion to ISU-Meridian will allow us to admit between 48-50 students per year into the DPT program. The proposed expansion will add an additional 24 DPT seats and will therefore double the number of graduates within 3-4 years.

Initially, the DH enrollment will be redistributing the current enrollment of 30 BSDH students. Twelve (12) students will be on the ISU-Meridian campus and 18 students will be on the Pocatello campus. This redistribution of BS students will allow us to increase our graduate enrollment and allow us to implement a BS completion program on our Pocatello campus. This provides opportunities for the Idaho Oral Health Institute by increasing faculty research and grantsmanship, which improves with a larger Dental Hygiene faculty.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Three faculty positions, two staff positions and group position funding are being requested to support the expansion of the BS Program in DH. Dental hygiene education requires classroom, laboratory and clinical instruction. Though the classroom instruction can be delivered through distance learning technology, the laboratory and clinical portion requires a significant number of hours of supervised instruction. Faculty to student ratios of 1:6 are used in all laboratory courses and 1:4 in all clinical courses as required by program accreditation standards. In addition to teaching, three of the requested faculty positions will have administrative responsibilities such as the Program Site Director, Clinic/Laboratory Coordination and Community and Inter-professional Care Coordination. These administrative roles are required to provide organization and management of the expanded program, provide increased support for finding and supervising inter-professional community rotations, and for managing and monitoring the dental hygiene services provided within the campus clinic. The group position funding will help support salaries for supervising dentists who are present during clinic sessions when patient care is provided and for clinical dental hygienists who assist with clinical and laboratory teaching.

One staff position is required to provide clerical support for the expanded program. The second staff position will serve as a Dental Reception Coordinator, and will be responsible for managing the clinic reception desk, patient appointments and financial accounts.

Four faculty positions, one support staff position, and adjunct salaries are being requested to support the expansion of the DPT Program. Physical therapy education requires a substantial number of hours of hands on instruction and practice. Faculty to student ratios of 1:12 are used in all laboratory courses to ensure the competence and safety of future graduates. Due to the specialization of faculty, multiple areas of clinical expertise (orthopedics, neurologic rehab, etc) are necessary onsite. In addition to the clinical areas of expertise, three of the requested faculty positions will serve administrative roles including the PT Assistant Program Director, Director of Clinical Education, and Clinic Director. These administrative roles are required to provide management of the expanded program, provide increased support for finding and supervising part-time and full-time student clinical affiliations and practicums, and for managing physical therapy service provision within one or more inter-professional clinics. The staff position is required to provide clerical support for the expanded program. The adjunct faculty salaries are required to provide instruction in highly specialized areas of clinical expertise that are not represented by the full time faculty.

2. What resources are necessary to implement this request?
 - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Academic Faculty:

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Dental Hygiene Program Site Director 12 month, full-time, benefit eligible, hire January 2017, (salary: \$72,000 + benefits: \$25,969 = Total \$97,969)

Academic DH Faculty (Clinic/Laboratory Coordinator) 12 month, full-time, benefit eligible, hire July 2017, (salary: \$65,000 + benefits: \$24,533 = Total \$89,533)

Academic DH Faculty (Community and Interprofessional Care Coordinator) 12 month, full-time, benefit eligible, hire July 2017, (salary: \$65,000 + benefits: \$24,533 = \$89,533)

Assistant DPT Program Director 12 month, full-time, benefit eligible, hire January 2017 (salary: \$90,000 + benefits: \$29,661 = Total: \$119,661)

DPT Director of Clinical Education 10 month, full-time, benefit eligible, hire July 2017 (salary: \$70,000 + benefits: \$25,559 = Total: \$95,559)

DPT Academic Faculty 9 month, full-time, benefit eligible, hire August 2017 (salary: \$70,000 + benefits: \$25,559 = Total: \$95,559)

Adjunct Faculty hire as needed during each semester to address specialized content (salary: \$88,000 + benefits: \$18,051 = Total: \$106,051)

Clinic Faculty/Staff:

DH Clinic Receptionist Coordinator 12 month, full-time, benefit eligible, hire January 2018, (salary: \$26,083 + benefits: \$16,755 = Total \$42,838)

PT Clinic Director 9 month, full-time, benefit eligible, hire August 2018 (salary: \$65,000 + benefits: \$24,533 = Total: \$89,533)

Support Staff:

DH Administrative Assistant, AA1; 12 month, benefit eligible, Hire January 2017, (salary: \$26,083 + benefits: \$16,755 = Total \$42,838)

PT Administrative/Clinic Staff AA1; 12 month, benefit eligible, Hire January 2017 (salary: \$26,083 + benefits: 16,755 = Total: \$42,838)

**BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015**

Total Ongoing Salaries and Benefits **\$911,912**

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

The current DH and PT faculty members will continue to assist in teaching the extended cohort using distance learning technology, online content, and onsite classes, clinics and laboratory sessions.

- c. List any additional operating funds and capital items needed.

An ongoing request for additional operating funds to support the expansion will cover faculty travel, communications and supplies.

The one-time capital outlay will be required during the first year to support supplying the new offices with essential items, purchasing computers and office equipment, and providing the furniture and lab equipment to support instruction in the expanded programs.

Ongoing Request for Operating Expenses

Travel (7 faculty)	\$18,000
Communications	\$80,000
Supplies	<u>\$134,000</u>

Grand Total Ongoing Request for Operating Expenses **\$232,000**

One-Time Request for Capital Outlay:

Dental Hygiene:

PC and Printer (\$2,500/person; 5 people)	\$12,500
Computers for clinic stations and xray rooms (\$2,500/14 units (12 clinic units and 2 xray)	\$35,000
Office Furniture (desk, chairs, bookcases, filing cabinets) (4,000/person 5 people)	\$ 20,000
Lab Furniture and Supplies (desks/chairs, anatomical models)	\$100,000
Educational Technology (distance learning equipment x 1)	\$90,000
Dental Hygiene Reception furniture	\$10,000
Dental Hygiene Clinic Equipment and Supplies	<u>\$270,000</u>

Total One-time Request for DH Capital Outlay: **\$537,500**

**BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015**

<i>Physical Therapy:</i>	
<i>PC and Printer (\$3,000/person; 5 people)</i>	<i>\$15,000</i>
<i>Office Furniture (desk, chairs, bookcases, filing cabinets) (4,000/person 5 people)</i>	<i>\$ 20,000</i>
<i>Lab Furniture and Supplies (treatment plinths/tables, exercise equipment, modalities, linens, desks/chairs, walking aids, anatomical models)</i>	<i>\$455,000</i>
<i>Educational Technology (distance learning equipment x 4)</i>	<i>\$360,000</i>
<i>Physical Therapy Clinic furniture</i>	<i>\$15,000</i>
<i>Physical Therapy Clinic Equipment and Supplies</i>	<i><u>\$295,000</u></i>
Total One-Time Request for PT Capital Outlay:	<u>\$1,160,000</u>
=====	
Grand Total One-Time Request for Capital Outlay	<u>\$1,697,500</u>

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

*The **ongoing requests** include salaries and benefits of \$911,912 for 7 faculty and 3 staff positions with operating expenses of \$232,000 **totaling \$1,143,912.***

*The **one-time request** for capital will support the first year set up of the expansion with capital outlay of **\$1,697,500.** Student professional fees and revenue from clinics will cover ongoing equipment replacement during subsequent years.*

The opportunities for increasing faculty research productivity and success in awarded grants improves with a larger faculty.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Idaho residents who are place bound in the Boise area yet seek a baccalaureate education to become a licensed dental hygienist benefit from this request. The ISU dental hygiene undergraduate program is the only program in the state that awards a Bachelor of Science degree in Dental Hygiene. We receive numerous annual inquires (approximately 20-25) from place bound students who want to pursue Dental Hygiene as a career, and want a Bachelor's Degree but are not able to relocate to Pocatello for the two-year duration of the program.

A proprietary school in the Treasure Valley offers an AAS dental hygiene education that is not regionally accredited and makes it difficult for students to articulate

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

earned credits with regionally accredited state institutions for these graduates to earn a baccalaureate degree. Dental hygienists holding baccalaureate degrees have the education and ability to provide oral health care in alternative settings besides private dental settings. Also, baccalaureate prepared dental hygienists have the ability to develop and maintain inter-professional relationships with other health care providers to assure the provision of comprehensive health care.

Idaho residents who seek an education to become a licensed physical therapist benefit from this request since twice the number of seats in a DPT Program will become available within the state. The DPT Program typically receives >250 applications for the 24-26 seats available each year and the program expansion will allow admitting 48-50 students per year. The cost of an in-state, 3-year, graduate program is substantially less than out-of-state or private academic institutions. Increasing the number of seats in an Idaho PT Program will provide more opportunities for Idaho residents to receive the education they desire while reducing the student debt incurred through pursuing that education.

Idaho employers seeking to hire physical therapists will benefit because the number of graduating therapists within Idaho will double within 3-4 years. There is a tremendous need for PTs in the state due to the aging population (high consumer of PT services) and the increasing general population in the state. Physical therapy graduates tend to remain within the state in which they were educated, even if they were not state residents.

Idaho residents in need of PT services will benefit because there will likely be an increased number of licensed, practicing PTs in the state within 3-4 years of expanding the program.

A reallocation of internal resources from program prioritization was evaluated. The scope of this project is to expand enrollment capacity in Physical Therapy and Dental Hygiene. The costs associated with this expansion are significantly greater than the projected savings of program prioritization reallocations.

The original proposal of ongoing operational expenditures of \$308,000 covers basic operating costs to maintain the Meridian campus. Professional Fees of \$76,000 can be used to reduce the \$308,000 adjusting the ongoing operating costs to an amount of \$232,000.

As a point of additional clarification, there will be income from a second physical therapy clinic in Meridian. This is a clinical site for students to develop and practice skill sets. This was not included in the line items proposal as the clinic income will only cover clinic staff and supplies and is forecast at a break even.

Narrative Description of the Need for Physical Therapists in Idaho

The projections for the next 10 years show that the available workforce in physical therapy will become increasingly inadequate, not only in Idaho, but also throughout the United States. Expanding the existing Doctor of Physical Therapy (DPT) Program addresses these needs by increasing the number of DPT graduates by up to 24 graduates per year. Supply of new clinicians in PT will not keep pace with increased demand, resulting in workforce shortages.[1] Nationwide, the existing academic programs do not currently have the capacity to offset the anticipated shortfall.[1] These forecasts suggest there is a great need to increase the class size of PTs who will graduate to enter the profession each year. The American Physical Therapy Association predicts there will be a shortfall of approximately 25,000 PTs nationwide by the year 2020,[1] and the US Bureau of Labor Statistics forecasts a 39% increase in available PT jobs nationally between 2010 and 2020.[2] Although some reports predict rural states like Idaho will be harder hit than coastal states,[1, 2] other PT employment projections expect the needs in most of the state of Idaho to be fairly consistent with national values, forecasting 34.7% PT job growth by 2020.[3] PT job growth in the southwest and east central regions of Idaho, however, is forecast to substantially exceed both national values and those of the rest of the state. It is estimated that in the future there will be 43 PT job openings annually in Idaho, the majority (27) of those are expected to be in the southwest region of the state.[4]

The increased demand for all health care providers will stem from multiple factors, but largely from the aging of the population, [3] which will increase the number of persons with chronic complex pathological conditions.[2] Additionally, there is an increased interest in preventive care and interventions, [3] which are services that may be provided by physical therapists. Advances in technology increase the survival rate of persons with severe birth defects and those who have sustained traumatic injuries and postoperative needs that require PT services.[2] Finally, the impact of the aging of the general population will also adversely impact the PT workforce as an ever-larger number of licensed, practicing therapists reach retirement age during the next 10 – 15 years.[6]

There is a concomitant demand for programs from the student viewpoint. The PT profession is ranked among the best jobs in the US, including a #8 (Best Job ranking by the US News & World Report for 2012), [7] and a listing as one of the ‘hot jobs’ in Idaho over both the short term and long term. Recent admissions numbers for the ISU Doctor of Physical Therapy (DPT) degree program reveal that, in each of the last two admissions cycles, the ISU DPT program received 200+ applications to fill the 24 – 26 seats available. Nearly 1/3 of those applications reviewed met the minimum requirements for program entry in each of those admissions cycles.

ISU has a history of delivering highly qualified PTs to the Idaho workforce; ISU has filled nearly 13% of all PT positions in Idaho since 1991, and 55% of ISU PT graduates remain in Idaho. About 18% of PTs in southwest Idaho are graduates of the ISU program, and 35% of ISU graduates reside in that region.

Recent Data from the Idaho Department of Labor [8] indicates high priorities in Idaho and nationally for PT graduates and practitioners. In summary; as of November 14, 2014 PT

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

is among the top occupation vacancy rates in Idaho (OT is first); in Northern Idaho PT is 11th (Speech- Language Pathologists are 1st).[9] The need for PTs is well established and Idaho has the opportunity to meet that need by doubling the number of seats within the existing, accredited program.

Narrative Description of the Need for Dental Hygienists in Idaho

One of the primary missions of the university is being the lead institution for education of health professionals. Dental Hygiene is a health profession and considered the lead dental hygiene program in the state and western region. The proposed expansion for the Dental Hygiene Bachelor of Science program is directly related to the university goals of 1) achieving academic excellence in undergraduate professional education; 2) increase the university's research profile; 3) advance health care education throughout the state; 4) prepare students to function in a global society; 5) focus institutional instructional expertise on community and societal needs. The Department of Dental Hygiene's mission and vision statements parallel the Division of Health Sciences role. Therefore, the proposed program expansion will not only serve the state of Idaho but also serve dental hygienists from other states.

The Idaho Department of Labor top 100 Hot Jobs show dental hygiene as the number four top jobs in the state. In the southwest region of Idaho, it is also the 29th fastest growing occupation out of 460 occupations listed. Ten year projections from the Bureau of Labor Statistics (BLS), estimate that employment of dental hygienists is projected to grow +33% from 2012 to 2022, much faster than the average for all occupations. (Bureau of Labor Statistics, U.S. Department of Labor, *Occupational Outlook Handbook, 2014-15 Edition*). The BLS further projects that the demand for oral health care will continue to grow as the baby-boom population ages and people keep more of their original teeth than previous generations did, coupled with the need to focus on preventive services. Therefore, settings that provide oral health care will increasingly employ dental hygienists to meet the demands.

In the "Recovery: Projections of Jobs and Education Requirements Through 2020," report from the Center on Education and the Workforce at Georgetown University, the number of jobs in Dental Hygiene will increase to 194,330 with 41% earning a Bachelor's degree. Idaho projections identified in this same report estimated a growth rate of 34% for Healthcare Professional and Technical occupation positions. This trend parallels reports that document the demand for health care providers with advanced education is increasing. Considering there are currently 332 entry-level dental hygiene programs, and only 28 programs that offer the Bachelor's degree as the entry-level degree, the demand for this dental hygiene program will continue. National agencies have issued a call to create new pathways for dental hygienists with associate degree's to obtain bachelor or master's degrees to better prepare them for the future needs of the nation. Therefore, expanding the Dental Hygiene program to the Boise Metropolitan Service Area (MSA), the most populous region of Idaho will begin to address the needs for expansion of oral health care services in the area as indicated by government agency projections.

Recently, the National Governor's Association released a report citing "lack of access to adequate oral health care services" as a growing issue, and detailed how dental hygienists can and have been used to expand care to increasingly underserved populations. ISU Dental Hygiene graduates continue to have a 100% percent

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

employment rate following graduation. Due to the expanded curriculum, ISU Dental Hygiene graduates can be employed anywhere in the United States and International.

As the first dental hygiene program in Idaho (1963), the Department has a long and esteemed history of educating the state and regions dental hygienists and providing a leadership role in the ISU Division of Health Sciences. Dental hygiene students and faculty have made significant contributions in community outreach and oral health care services to underserved citizens in southeast Idaho and continue to serve them once becoming a licensed health care provider. Having a clinical center in the western portion of the state would afford the same outreach care to underserved citizens in that region.

This expansion should advance the state economy in the Treasure Valley by advancing the field of Dental Hygiene in the area, increasing oral health care services to underserved population groups, expanding interprofessional research opportunities through the Idaho Oral Health Institute and increasing the ability to provide new pathways for dental hygienists with associate degree's to obtain bachelor or master's degrees to better prepare them for the future needs of the state and nation. Currently, there are no bachelor degree programs in this part of the state; therefore, access to dental hygiene care for citizens, especially underserved consumers, will be improved. Program expansion to the Boise area provides an opportunity for interprofessional collaboration between dentistry and dental hygiene as well as to model an integrated educational approach incorporating oral, physical, and mental health care.

Supports institution/agency and Board strategic plans:

Goal 1: A Well Educated Citizenry, Objective A: Access-Set policy and advocate for increasing access for individuals for all ages, abilities, and economic means to Idaho’s P-20 education system.

eISU and online classes are increasingly important for reaching students in geographically disparate regions. Increased online access is critical for reaching the SBOE’s 60% goal. Accessibility and testing are important to retain and improve access to individuals with particular needs to succeed. An expansion of accessibility will provide additional co-curricular and academically-related services that empower students to achieve academic and personal self-determination.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Goal 2: Critical Thinking and Innovation, Objective B: Quality Instruction-increase student performance through the development, recruitment, and retention of a diverse and highly qualified workforce of teachers, faculty, and staff.

Technology upgrades are essential for the online instructional faculty to increase and retain the numbers of students in online classes. Online learning often is less intimidating than a brick-and-mortar classroom setting and may help to increase student interaction. Students can think longer about what they want to say and add to their comments when ready. In a traditional classroom, the conversation often moves past the point where the student may be willing to comment. Instructors can be more approachable in an online setting. Students feel more comfortable talking openly with their instructors through online chats, emails, and discussion groups rather than face-to-face. Online correspondence also removes barriers to faculty access as students don't have to wait for office hours that may not be convenient for either party.

According to a study by the U.S. Department of Education, on average, students in online learning programs performed modestly better than those receiving face-to-face instruction. Using over 1,000 empirical studies, the DOE found that time was the additive that helped students perform better. The report notes benefits in studies in which online learners spent more time on task than students in the traditional classroom environment.

Goal 3: Effective and Efficient Delivery Systems, Objective A: Cost effective and Fiscally Prudent-increased productivity and cost-effectiveness.

eISU and online classes can be a more cost effective option for students and for the university with the appropriate technology and with the appropriate instructional design. Online learning helps students reduce or eliminate costs of transportation, babysitting, and other expenses incurred in a traditional classroom environment. Some online learning courses may not require physical textbooks as reading materials may be available through e-libraries and other digital publishers. Electronic textbooks offer substantial savings for students.

A 2013 study headed by William Bowen, an economist and higher education analyst, compared traditional statistics courses to ones using a hybrid or blended approach where instruction is conducted partially online. Findings estimate that for instructor compensation alone (not including the reduction in space used, for instance) the hybrid model saved 36-57% over traditional courses enrolling about 40 students per section, and 19% over the large-lecture model. The savings are created by shifting from expensive professors toward computer-guided instruction saving staffing and time. Therefore, if savings can be gained through blended courses, we expect a fully online model to be even more cost-effective and economical. Courses can be designed by academic teams with tutoring provided by adjuncts who cost much less than full-time faculty. Software can deliver content relieving faculty of this task. Further, assessment can relieve expensive faculty labor costs through software that grades both assignments and tests.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Questions:

5. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Summary:

- One Instructional Designer per college: 6.0 FTE, base salaries of \$55,000 plus benefits
- Clinical Instruction Designer/Coordinator: 1.0 FTE, base salary of \$65,000 plus benefits
- Functional Technical Support for online advising module: 1.0 FTE, base salary of \$55,000 plus benefits
- Testing Center Staffing: 2.0 FTE, base salaries of \$45,000 plus benefits.
- Training workshops & stipends for faculty: \$181,700
- Testing Center hardware and software: \$200,000
- Anti-Plagiarism software: \$75,000
- Online learning ADA Compliance: \$200,000
- Online proctoring services: \$100,000
- Learning analytics software: \$100,000
- Video/Media content management software: \$65,000
- Annual software maintenance for advising module: \$40,000
- Additional IT infrastructure: \$350,300

ADA/Accessibility

Equal access to all instructional material is a growing concern in higher education. Recent lawsuits at University of Montana, Louisiana Tech, Penn State, and others have highlighted the growing risk for higher education. The problem is exacerbated due to the growing trend of storing lectures and media online for both face-to-face classes as well as fully online classes. Giving some students the ability to easily view and review material while not affording the same opportunity to all students is at the crux of the problem.

At ISU, we use a large amount of video and media in our course instruction (captured videos, audio enhanced PowerPoint, short videos, etc.). One of the biggest liabilities we have is that almost none of these instructional materials are captioned for the hearing impaired. Captioning is very labor intensive and costly to outsource. Due to budget, expertise, and workload limitations, this issue has remained largely unaddressed to date.

Our growing online offerings mean more instructional materials are viewed by our students on their own time and away from campus. In addition, more online offerings mean more students from out of state. These students have expectations that are

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

shaped by their own environments and experiences and they may likely be more litigious in nature regarding equal access to materials.

Our funding request would fund a full-time position to oversee this compliance work, provide lecture capture and closed captioning software, as well as funding to pay for outsourced closed captioning.

Testing Center

This funding request would pay for construction/remodeling of space for a testing center, as well as hardware, software, and proctors. As our online offerings grow there is an increasing demand for secure testing.

For those not able to travel to a testing center, either ours, or a commercial facility, we are requesting funding to pay for professional distance proctoring services. Services to individuals in remote and/or rural areas are offered by a number of companies through webcams and other computer monitoring systems.

Video Network

Much of the hardware, codecs, cameras, and multipoint control unit are in need or upgrade/replacement. This funding would help keep our current video network operational and compliant.

Anti-Plagiarism Software

This funding would purchase and maintain modern software which reviews and compares essays for plagiarism.

Additional IT Infrastructure

It is a constant challenge to keep up with internet bandwidth, wireless access, and data storage space to support student learning. This funding will allow us to keep up with the demand.

1. What resources are necessary to implement this request?
 - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
 - Six Instructional Designers, base salary \$55,000 plus fringe
 - Clinical Instructional Designer/Coordinator, base salary \$65,000 plus fringe
 - Functional Technical Support for online advising module, base salary \$55,000 plus fringe

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- Two Testing Coordinators, base salary \$45,000 plus fringe
- Faculty stipends for developing online learning, \$131,700

A reallocation of internal resources from program prioritization was evaluated. However, the scope and costs associated with this expansion are significantly greater than any projected or realized savings from program prioritization reallocations.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

We anticipate all of these individuals will be new hires.

- c. List any additional operating funds and capital items needed.

Information provided above.

2. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

Ongoing expenses: Salary/fringe for ten new positions - \$762,800, faculty stipends - \$131,700, training workshops - \$50,000, Testing Center hardware and software - \$200,000, anti-plagiarism software - \$75,000, online learning ADA compliance - \$200,000, online proctoring services - \$100,000, learning analytics software - \$100,000, video/media content management software - \$65,000, yearly maintenance cost for online advising module - \$40,000, additional IT infrastructure - \$350,300.

3. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

All current and future high school through college senior, and graduate, ISU students. Particularly those individuals disadvantaged due to location, disability, or other barriers to access.

4. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Goal 1 - A Well Educated Citizenry

- Objective A: Access

Measure: Postsecondary student enrollment by race/ethnicity/gender as compared against population

Proposed Action: Targeted and personalized outreach and communication informed by demographics, native language, geographic region within Idaho, socio-economic and online behaviors to provide access for all Idahoans to higher education.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- Objective B: Higher Level of Educational Attainment

Measure: *Percent of high school students who enroll in postsecondary institution within 12 months of graduation (80 percent)*

Proposed Action: *State wide go-on enrollment ambassadors will follow up on the SBOE direct admissions letter and provide personalized advice and assistance to traditional and non-traditional students throughout the entire state to any higher education institution of interest to the student.*

Measure: *Percent of new full-time students returning for second year at an Idaho public institution (85 percent for 4 year institutions)*

Measure: *Percent of Idahoans (ages 25-34) who have a college degree (26 percent with a Baccalaureate degree by 2020)*

Proposed Action for retention and graduation: *Date informed and targeted interventions as well as augmentation of supplemental instruction and counseling services to serve the new type of students coming to UI.*

- Objective C: Adult learner Re-integration

Measure: *Number of adults enrolled in upgrade training (45,000 statewide)*

Proposed Action: *State wide go-on enrollment ambassadors will follow up on the SBOE direct admissions letter and provide personalized advice and assistance to traditional and non-traditional students throughout the entire state to any higher education institution of interest to the student. We anticipate adult learners will be a major benefactor to such a system given their lack of access to high school counselors.*

Goal 3 - Effective and Efficient Delivery Systems

- Objective A: Cost Effective and Fiscally Prudent

Measure: *Average number of credits earned at completion of degree program (130 credits or less for 4 year degree)*

Proposed Action: *Retention and intervention specialist will leverage data to develop plans to improve retention and graduation rates and couple with effective assessment to continuously monitor and improve retention. This will result in reduced time to degree and decrease credits that do not count towards completion of a degree major.*

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- Objective B: Data-informed Decision Making

Measure: Integrating UI Customer Relationship Management system with SBOE Direct Admission data sets as well as internal UI Institutional Research office to increase recruitment yield (i.e. go-on rates) and retention.

Proposed Action: Retention and intervention specialist will rely heavily on dedicated research analysts in our Institutional Research office to continuously improve student success as measured by retention and graduation rates. In addition, institutional research will move to offer training and dashboard development so that a culture of data informed decisions, assessment and continuous improvement permeates the University of Idaho.

Problem Statement:

State of Idaho “go-on” (high school to post-secondary education) and completion rates are significantly below Governor Otter and SBOE goals for an educated citizenry. To increase the numbers of students going to, and completing college, current practices and levels of support will not be sufficient.

Solution Statement:

Strategic investment in resources and personalized support for students and their families from the start of their senior year through completion of their post-secondary education will ensure stronger go-on and completion rates for Idaho residence.

Description:

It is generally agreed that Idaho’s economic future will be heavily influenced by the educational attainment of its citizens. Currently 50.2 percent of high school seniors in Idaho go on to college. Recognizing how important it is to improve Idaho’s “go-on” rate, Governor Otter and Idaho lawmakers have expressed broad support for moving this rate toward 60 percent by 2020. The Idaho State Board of Education (SBOE) has further refined those estimates seeking an 80 percent go-on rate (Goal 1.B) with 26 percent of Idaho students attaining a Baccalaureate (4 year) degree by 2020 (Goal 1.B).

To aid in achieving this goal, the SBOE will issue a letter to all senior year high school students on track to graduate informing them that they have been admitted to any/all public Idaho institutions. The customized letter will direct students to the appropriate universities and/ or colleges based on their academic performance.

Improving Results through UI Action

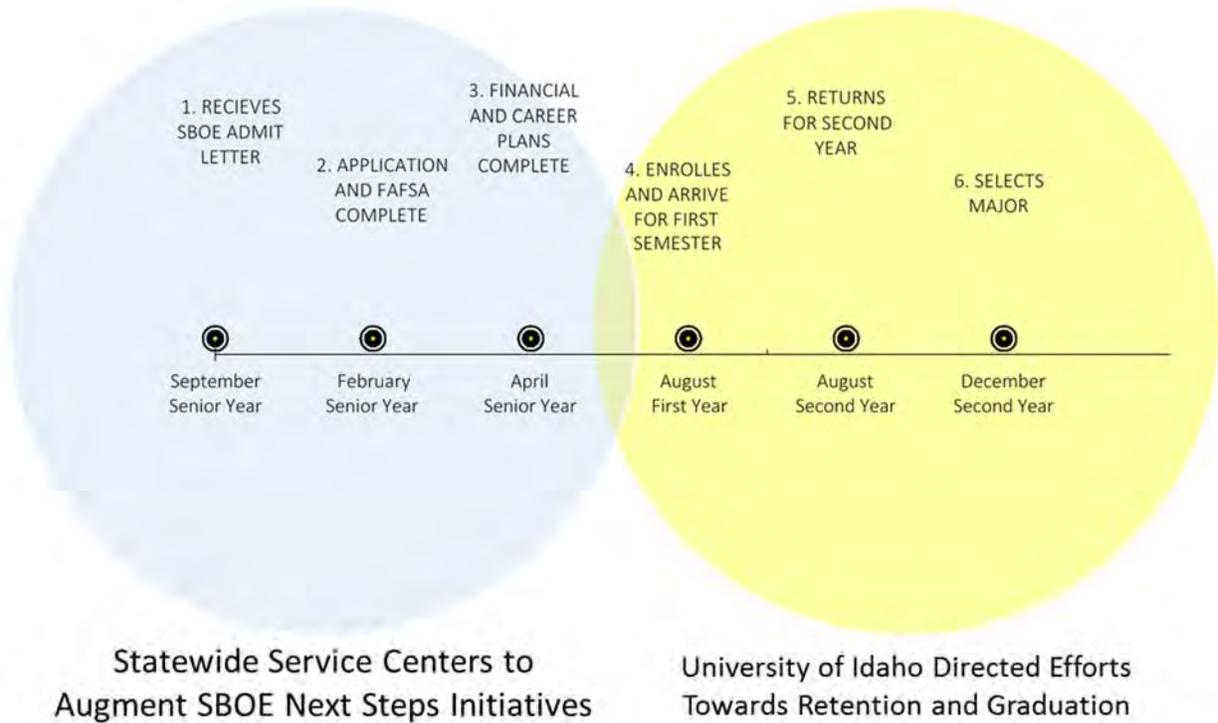

The University of Idaho (UI) is in a unique position to assist Idaho students, both high school students and adult learners, to take the next step and consider an advanced degree or certificate as articulated in the SBOE's Next Steps Idaho initiative. Our physical and community presence in essentially every county in the state positions UI to deliver assistance and advice to those interested in a degree or certificate beyond high school in a way that would provide consistency in services and at sustainable scale to allow the most efficient use of state resources. These enrollment ambassadors would be representing all higher education opportunities in the state in an agnostic fashion and would seek to find a path for a prospective student that satisfies degree objectives/career opportunities while accounting for personal constraints on cost, location and time of day for students with families, financial and other personal obligations. This part of our request seeks to serve the entire state and help to coordinate a personal touch approach to improve go-on rates within the state of Idaho.

Our premise is that the SBOE's direct admit letter only opens this conversation about continuing education beyond the high school years. The ideal progression of events to reasonably ensure a student will complete a Baccalaureate degree is shown in the figure below.

Each of the steps illustrated in the graphic has multiple points of failure that may cause leakage and prevent the attainment of state and SBOE goals. At a minimum, each student who receives a direct admission letter from the SBOE should complete three actions: 1) Go the SBOE website, 2) Apply to their institution(s) of choice (note- letter assures admission), and 3) Show up for classes. To meet the 80 percent SBOE go-on rate goal, each successive step needs to be completed by a percentage of students in excess of the goal. For example, if 93 percent of students go the website, and of those going to website 93% apply to an institution, and of those that apply 93% actually show up then we would barely make our goal with 80.4% of all students matriculating to a university or college. In like fashion, the Governor's goal of 60 percent go-on rate would require 85 percent of all students to complete each step in succession.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Typical Pathway for a Recruiting Cohort

Go-on rates are stronger in the more densely populated areas of the state than they are in the more rural or remote parts of the state. This proposal outlines UI's request for the funds necessary to augment the SBOE's direct admission initiative with our own work in order to successfully close the gap between the stated go-on goal of 80 percent and current performance (roughly 50 percent). We believe a more assertive outreach approach is needed and recommend we use our statewide presence to assist and advise any potential student (including non-traditional students and adult learners) about program offerings, financial literacy/planning, identification of career interest or academic major. In addition, there would be one-on-one assistance with the completion of admission applications (at any Idaho university or college), FAFSA (Free Application for Federal Student Aid) applications, and any other institution specific financial aid applications.

There are other important intermediate steps beyond the three initial steps mentioned above. Each of the six steps articulated in the above diagram are attainable and essential components that will allow UI and the state to achieve our goals for a college-educated citizenry. Given the cascading nature of student success and the likelihood that we will see significant numbers of a new type of student due to this new direct admission initiative, students who would not have come to UI in the past, we are requesting adequate resources to help close the potential leaks in the pipeline that exist for students who decide to join the University of Idaho. The attached table outlines in more detail the

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

anticipated failure points and our proposed mitigation strategies and resource needs for each.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

39.2 FTE positions (salary, fringe, operating support and minor capital outlay) and additional funds for surveys, public information/education and communications, application processing costs, increased supplemental instruction and tutoring services are being requested to position UI to fully meet the needs of the new types of students joining us via the direct admission, go-on program and Complete College Idaho imperatives. We need to augment and expand these student success support activities in order to address these critical strategic goals (go-on rates, retention, graduation and employment) of the state and the Governor.

2. What resources are necessary to implement this request?

a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

See attached spreadsheet

b. Note any existing human resources that will be re-directed to this new effort and how existing operations will be impacted.

We have several of these initiatives (such as BEAMS and application fee waivers) underway as pilot studies with one-time funding (Presidential and SBOE initiatives) and are seeking to move to permanent funding. No existing human resources will be re-directed to this effort; this funding request will expand support capacity in support of students wishing to go-on to a college or university and to support the student's successful transition to their major at UI.

c. List any additional operating funds and capital items needed.

No additional operating funds or capital items will be required beyond what is being requested.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

This request is for State General Fund support and does not include any other funding sources.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

The primary audience served by this request will be all Idaho high school graduates, many adult learners desiring to matriculate to a college or university as well as UI students in their first two years.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This is a high priority request item. This request is synergistic with past year CCI requests and is an emerging, high priority initiative for the SBOE (it was not yet envisioned at this time last year). Given the emerging opportunity, UI has a unique opportunity to serve the needs of the state and seeks to leverage its statewide physical presence to realize the successful implementation and execution of this Direct Admissions initiative.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

SBOE GOAL 1: A WELL EDUCATED CITIZENRY – Objective A: Access

More advising resources will allow students considering dual enrollment to have access to professional advising. It will assist students considering the University of Idaho to make informed decisions regarding degree programs and enrollment

SBOE GOAL 1: A WELL EDUCATED CITIZENRY – Objective B: Higher Level of Education Attainment

A high level of intensive, professional advising is directly linked to higher retention and completion rates”

SBOE GOAL 1: A WELL EDUCATED CITIZENRY – Objective C: Adult Learner Re-Integration

Adult learners seeking to return to college are in particular need of advising as they seek to juggle career, family, and their educational goals.

SBOE GOAL 3: EFFECTIVE AND EFFICIENT DELIVERY SYSTEMS – Objective A: Cost Effective and Fiscally Prudent

Enhanced advising will result in students completing degree programs. The University of Idaho's move to 120 credits required for many degree programs was a first step. Careful program mapping that is facilitated with intensive advising will assist students in shortening their time to degree. This encourages students to continue in degree programs and increases completion rates.

UI GOAL 4: COMMUNITY AND CULTURE – Objective A: Be a community committed to access and inclusion

Intensive advising will aid in the recruitment and retention of all students, especially those from diverse backgrounds and first generation students.

Problem Statement: The University of Idaho must increase enrollment, retention, and completion rates.

Solution Statement: Intensive advising is a best practice for addressing all of the above problems.

Performance Measures:

- Increase enrollment by 3% per year
- Increase first to second year retention by 2%
- Increase degree completion rates by 4% in 5 years
- Increase dual enrollment by 10% in two years

Discussion:

The Complete College Idaho agenda (adapted from Complete College America) makes it clear that shortening time to degree is critically important. It increases completion rates, saves students money, and puts trained college graduates into the workforce earlier. Intensive advising is a critical component of a program designed to accomplish this. Student course scheduling and degree mapping demand that competent professionals advise students regarding course selection and sequence. These services are especially vital for first generation students (almost 40% of University of Idaho students) and for students from diverse backgrounds (the fastest growing segment of the University of Idaho student population.)

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

The SBOE goal is to increase the number of students who participate in dual enrollment opportunities and to increase the number of dual enrollment credits generated in Idaho. An increase in the number of professional advisors at the University of Idaho will allow the institution to provide high school students with questions regarding dual enrollment access to pertinent advice.

There is abundant evidence that frequent and quality advising aids in retaining students. The SBOE goal is to achieve an 85% retention rate from first to second year. Additional advisors will help the University of Idaho reach and maintain this goal.

The State Board of Education goal of 26% of Idahoans holding a baccalaureate degree in the year 2020 requires high quality, high touch advising. This funding would enhance advising capabilities at the University of Idaho, especially for first and second year students—students who most utilize professional advisors and for whom excellent advising is often a deciding factor in the decision to persist at the University of Idaho.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Nine additional FTE along with sufficient support and capital outlay funding are being requested to supplement the university's existing advising function. The state partially funded this request in FY2016 providing 8.0 FTE and \$557,100 in permanent funding.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Please see the supplemental spreadsheet for details regarding positions requested. All positions are full-time benefit eligible positions. Salaries listed are estimated based on preliminary job duty information. Final pay grades will be determined by the university's Human Resources department based on full position descriptions once positions are funded and approved. Hire dates are anticipated to be FY2017 but are dependent upon successful searches.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

No existing human resources will be redirected to this effort beyond what is being requested. The funding of this request will expand the existing advising capability of the university.

- c. List any additional operating funds and capital items needed.

No additional operating funds or capital items will be required beyond what is being requested.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

This request is for State General Fund support only and does not include other funding sources.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The primary impact of this program will be on university students, most particularly first generation students who may need additional advising services in order to be successful. If this request is not funded the university will not be able to expand its intensive advising efforts which may result in fewer students successfully completing their college degree.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This was a high priority request for the university in FY2016 and was partially funded.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

GRAND TOTAL	\$501,000				\$501,000

Supports institution/agency and Board strategic plans:

SBOE GOAL 1: A WELL EDUCATED CITIZENRY – Objective B: Higher Level of Education Attainment

Internship opportunities and job placement assistance will encourage potential students to enroll in and complete a University of Idaho degree program

SBOE GOAL 1: A WELL EDUCATED CITIZENRY – Objective D: Transition

The program would enhance the ability of students to “efficiently and effectively transition into the workforce”

SBOE GOAL 2: CRITICAL THINKING AND INNOVATION – Objective A: Critical Thinking, Innovation and Creativity

A robust internship program would allow students to engage in real work experiences that would provide an opportunity for them to apply critical thinking skills, innovation, and creativity to the workplace.

UI GOAL 1: TEACHING AND LEARNING – Objective B: Develop integrative learning activities than span students’ entire university experience

Internship programs and resume building activities will span the students’ entire university experience.

UI GOAL 2: OUTREACH AND ENGAGEMENT – Objective B: Strengthen and expand mutually beneficial partnerships with stakeholders in Idaho and beyond

The internship and career placement activities will increase opportunities for faculty and students to develop new partnerships and increase experiential learning opportunities.

UI GOAL 4: COMMUNITY AND CULTURE – Objective A: Be a community committed to access and inclusion

The internship and career planning activities will enhance access through encouraging enrollment, retention, and completion.

Problem Statement: While some disciplines (Education, Business, and Engineering) have well-established internship programs, in other academic areas this is not the case. The University of Idaho’s current de-centralized career planning and internship activities do not allow the institution to maximize its relationship with Idaho and regional businesses to provide internship opportunities and career planning and placement services across the entire student body.

Solution Statement: Students completing degree programs must be “job ready.” An enhanced internship program and more intensive career planning and placement services will benefit students. Assisting students to map their course work, co-curricular activities, and internships to actual work qualifications will contribute to completion rates and job placement.

Performance Measures:

- 50% of all University of Idaho Students will participate in an internship experience
- Students from an additional 20% of academic programs will have an internship experience
- Expand the number of Idaho companies with University of Idaho interns by 20%
- Learning outcomes established for all University of Idaho internships
- Resume building available for all first year students
- Capstone courses include resume building for all University of Idaho students

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Discussion:

This request seeks funds to complete the aggressive career planning and placement program funded last year. The program includes restructuring of career services delivery to specific colleges and majors, closer alignment of academic majors to career options, as well as robust and coordinated internship programs.

The University of Idaho has launched an employment readiness program that begins in the first year of the students' experience. Students in the required first year general education course create a baseline resume. Career counselors then help students to map their coursework and other experiences to competencies that potential employers can clearly identify from student resumes. This requires intensive counseling/advising as each individual student has unique course and applied experiences.

University of Idaho students at the three regional centers—Idaho Falls, Coeur d'Alene, and Boise—require career services as well. Since these regional center locations are areas of population and business density, employment professionals in the centers are a vital component. Last year's funding created a new position in Boise. Additional funding will do the same in Idaho Falls and Coeur d'Alene and increase the career development liaison positions in Moscow to allow for a dedicated career development liaison for each college.

The State Board of Education has set a goal of 30% of students participating in an internship. This goal recognizes the high impact internships have in terms of career readiness. A successful internship program requires strong relationships with businesses in order to identify and facilitate the internship experience. Counselors are needed to match students with identified internship possibilities; help faculty, students and employers identify and monitor internship learning outcomes; and to convey University and employer expectations to students.

The University of Idaho internship program will foster career readiness. At the same time it will contribute to the state's economic development goals. First, qualified interns add value to businesses. Second, a successful internship often results in full-time employment for students which is also an economic benefit to the state.

Parents and students considering the costs of higher education are calculating return on investment. A fully developed employment readiness program will create a strong incentive for university enrollment and degree completion.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Six additional FTE along with sufficient support and capital outlay funding are being requested to supplement the university's existing Employment Readiness function. The state partially funded this request in FY2016 providing 6.0 FTE and \$506,400 in permanent funding along with \$12,000 in one-time funding for capital outlay.

2. What resources are necessary to implement this request?

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Please see the supplemental spreadsheet for details regarding positions requested. All positions are full-time benefit eligible positions. Salaries listed are estimated based on preliminary job duty information. Final pay grades will be determined by the university's Human Resources department based on full position descriptions once positions are funded and approved. Hire dates are anticipated to be FY2017 but are dependent upon successful searches.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

No existing human resources will be redirected to this effort beyond what is being requested. The funding of this request will expand the existing Employment Readiness program.

- c. List any additional operating funds and capital items needed.

No additional operating funds or capital items will be required beyond what is being requested.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

This request is for State General Fund support only and does not include other funding sources.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The Employment Readiness program's initial impact is on university students by increasing completion rates and employment success. This program also positively impacts businesses by providing interns and better prepared employees.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This was a high priority request for the university in FY2016 and was partially funded.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

SBOE GOAL 1: A WELL EDUCATED CITIZENRY - Objective A: Access

Occupancy of the old Ada County Courthouse by the Idaho Law and Justice Learning Center (a joint undertaking of the Idaho Supreme Court and the University of Idaho through its College of Law) will provide increased access to learning and education about the laws and regulations that affect the citizens of Idaho.

Performance Measure: Access for place-bound students

The Idaho Law and Justice Learning Center (ILJLC) will provide a unique opportunity for more citizens of Idaho to gain access to both civics education as well as the opportunity to earn a JD degree.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Description: The Idaho Law and Justice Learning Center (ILJLC) is a joint undertaking of the Idaho Supreme Court and the University of Idaho College of Law designed to link the public and judicial education operations of the Idaho Supreme Court, the Idaho State Law Library and the College of Law into one unified law and justice learning center in Boise. The ILJLC will be occupied and used by the parties for the following purposes:

- outreach and engagement with the general public regarding;
- the operation and management of the State Law Library;
- the delivery of judicial education by the Idaho Supreme Court; and
- the delivery by the College of Law of course offerings in Boise (currently consisting of a second and third year curriculum) through the Law School's Boise program.

The unique location of the ILJLC will permit the delivery of these efforts from a location in the heart of Idaho government – a place where laws are formulated, enacted, enforced and interpreted by the various branches of government. The ILJLC will be an important link to the citizens of Idaho by providing opportunities for law students and the citizens generally to learn about the legal history and the theoretical and practical aspects of citizenship, including the rights and duties of citizens with respect to each other and to the government.

The rental costs for the ILJLC have been set by the Idaho Department of Administration at \$337,800/year as detailed in the attached draft Memorandum of Understanding and Capitol Annex Information sheet.

SBOE GOAL 2: CRITICAL THINKING AND INNOVATION - Objective A: Critical Thinking, Innovation and Creativity

The cooperative nature and undertakings of the ILJLC will provide an environment for the development of new ideas, and practical and theoretical knowledge regarding the law to foster the development of individuals who are entrepreneurial, broadminded, think critically, and are creative in ways that will benefit society.

Performance Measures: Partnerships with private industry and area institutions.

Description: The ILJLC will allow the College of Law to better coordinate its various economic development activities with area businesses and educational institutions. Currently, the College has a concurrent degree program with Boise State University (the JD/Masters of Accountancy – Taxation), and is in the process of approving a concurrent degree program with BSU for a JD/MBA program. In addition to these in depth concurrent degree programs that will be supported by the ILJLC, the College continues to engage with area agencies and businesses through its three clinical offerings that include the Small Business Legal Clinic (offering assistance to small and start-up businesses, the Economic Development Clinic (offering assistance to local governments in encouraging economic development in their localities), and the grant-funded Low Income Taxpayer Clinic (assisting individuals with taxpayer issues with the IRS).

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

SBOE GOAL 2: CRITICAL THINKING AND INNOVATION - Objective B: Quality Instruction

The ILJLC will increase student performance through the development, recruitment, and retention of a diverse and highly qualified workforce of faculty and staff.

Performance Measures: Increase in contact hours between the ILJLC and their respective target and outreach audiences.

Description: The ILJLC will be a center for the delivery of high-quality educational programs for the judiciary, the practicing bar, law students, college students from other institutions, civic organizations, high school students, and the public generally. In addition, the ILJLC will utilize the statewide video delivery system of the Idaho Supreme Court and the University of Idaho to better deliver programs in continuing legal education, with outreach to citizens generally and the practicing bar, resulting in high quality, cost-effective educational programming throughout the State of Idaho as part of their joint outreach and engagement activities.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The amount requested is for rental costs in the remodeled Courthouse building located on the Capitol Mall. Total rent for the facility is estimated at \$337,800; \$90,000 will be covered by the Idaho Supreme Court and the remaining \$247,800 is being requested here to cover the University of Idaho portion. The legislature provided partial one-time funding for FY2016 and this request is to transition to full permanent funding.

2. What resources are necessary to implement this request?
 - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
 - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
 - c. List any additional operating funds and capital items needed.

All necessary resources have been funded to allow occupancy of the ILJLC. Note that tenant improvements to the building in the amount of approximately \$1.6 million will be funded by the University through private funds that have been secured.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

This request is for on-going State General funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The primary beneficiaries of this request will be the students of the College of Law who will be provided a focused opportunity to study law in a location near the seat of government in Idaho. As noted above, additional beneficiaries will include the judiciary, the practicing bar, college students from other institutions, civic organizations, high school students, and the public generally by reason of the various credit, professional, and outreach instruction to be delivered from the ILJLC.

If the request is not funded, then operating funds from existing and planned educational and outreach programs would need to be utilized to fund the occupancy costs for the building. This would negatively impact the planned programming at the ILJLC and could delay or eliminate some of the efforts.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

As mentioned above this request was partially funded on a one-time basis for FY2016.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

SBOE Goal 3, Objective A

UI Goal 1, Objectives A & B; UI Goal 2 Objectives A & B; UI Goal 3 Objectives A & B UI Goal 4 Objective C

A robust network infrastructure is required to provide effective and efficient delivery systems and to increase productivity and cost-effectiveness while also enabling collaboration, communication and the sharing of information across the state and across the world. Network infrastructure provides the backbone for activities that will lead to the achievement of performance metrics across many State Board of Education and University of Idaho strategic goals.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Problem Statement: Funding for network infrastructure and Internet connectivity has not kept pace with the needs to scale for increased usage, meet new needs and continually refresh equipment.

Solution Statement: Combining \$500,000 annually with currently budgeted funds, and utilizing existing personnel better through newly implemented tools, UI can fill current gaps in its network infrastructure, replace equipment on a supportable schedule and scale to meet current and future needs.

Metrics to Measure Success:

- 90% of Moscow campus building attached to the campus network at speeds of 1 Gbps or more by 2018 (currently 77%).
- Double the number of buildings currently connected to the campus core network at 10 Gbps by 2018 (currently 8) and double again by 2020.
- 90% of non-Moscow building attached to the campus network at speeds of 1 Gbps or more by 2018 (currently 61%).
- Upgrade UI's connection to IRON to 100 Gbps by 2019 (currently 10 Gbps).
- Upgrade Moscow residential facilities to complete wireless coverage by 2018.
- Provide redundant internet connections at five non-Moscow locations by 2018 (currently 0).
- Replace all Moscow campus multimode fiber with single mode fiber by 2019.
- Increase available Internet bandwidth by at least 10% annually (currently done as resources are available).
- Annual measurement: 90% or more of statewide network equipment replaced before vendor-provided end-of-life dates.
- Annual measurement: Accommodate current levels of wireless service for projected student increases
- Annual measurement: Accommodate the continued growth in wireless devices attaching to the network (currently doubling every two years)
- Additional metrics will be developed, measured and reported upon funding.

Description:

The University of Idaho's statewide data network allows for teaching, learning, research and collaboration across the state, region and the world. Through internal work and its leadership in the Idaho Regional Optical Network (IRON), UI has enabled collaboration and access across many of its locations and has provided availability to computing and data storage resources at the Idaho National Laboratory.

In order to remain competitive, it is critical that UI locations across the state be reliably connected to each other and to the external resources needed for success. UI last conducted a significant upgrade to its network infrastructure in the late 1990's. Incremental improvements in core infrastructure, equipment replacements and the introduction of a wireless network have helped UI meet basic networking needs in the last

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

decade but the increased reliance on the network, the emergence of wireless, security challenges, requirements for connectivity across the state and the needs of big data research all require a redesign and reimplementation of our wired and wireless networks as well as the funding to continue to provide updated technology to meet demands. UI currently invests approximately \$1.245M annually in the operation and support of its network but this number is not sufficient to maintain the necessary scale of the network.

The UI network is extensive. A total of 185 buildings in 14 different locations across Idaho are connected by UI managed network equipment and IRON. On the Moscow campus alone there are 154 buildings connected to the network and new construction and renovations continue to increase the required amount of network equipment. With operations in 42 of 44 Idaho counties, there are existing connectivity needs that are not yet being met, many dealing with the vital research conducted by UI. It is also critical to continue to increase the speed at which locations connect to the Moscow campus and resources on the Internet. Six of the 13 non-Moscow locations connect at less than 1 Gbps speeds, which in the near future will not be acceptable for the work being done at those locations. It will also soon be necessary to connect researchers to computing resources beyond those at INL and network upgrades will be required to connect at speeds of 100 Gbps, the standard for big data research.

Through tools and standardization, UI's network team of 6 FTE manages 1865 network devices across the 14 locations, including 1135 wireless access points. The growth in wireless usage is tremendous – in the Fall 2011 semester a peak of 2988 concurrent wireless devices connected to the University of Idaho network. In the Spring 2015 semester, the concurrent peak reached 7901 devices – a 164% increase. During the first 10 days of the Spring 2015 semester, 14,972 unique wireless devices connected to the network. Students, faculty and staff require high speed wireless coverage for academics and research and reliable, robust connectivity will require continued growth in the number of network devices and the regular upgrading of those devices. With an average life span of 5-7 years on network devices, additional funding is required to ensure that UI can continue to operate the network at the required level of quality.

The growth in utilization of the network has seen a corresponding increase in Internet bandwidth use, from 440Mb to 2290 Mb in four years – a 420% increase. Tools are used to meter bandwidth use, but new uses will continue to fuel the need for additional bandwidth. Bandwidth is used to move dig data between researchers, to accommodate telephone, email and video communications, to enable administrative and academic work and for the myriad of other ways that people utilize the Internet.

The requested annual funds will allow the current team to manage and expand the network in its reach, its speed, its reliability and its security. Over 20 different projects have been identified that will benefit the entire University community.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The request is for \$500,000 annually to be added to base funding for the support of the maintenance and upgrades to the network infrastructure that supports the statewide operations of the University of Idaho. Funds will be utilized to provide for the maintenance and expansion of network resources to accommodate continued demand for wireless connectivity, growth in Internet use, the growing importance of bid data, the ability to utilize cloud services and the necessity of collaborating across the state, the country and the world.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

No new positions are required. The existing network team is appropriately staffed to implement the technology that would be purchased through the request.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

The reoccurring nature of these funds will allow existing human resources to operate more effectively through automated monitoring, service adjustments and security improvements. Existing operations will be improved significantly through the regular implementation of improved technology.

- c. List any additional operating funds and capital items needed.

Besides the requested \$500,000 annually, no additional operating funds or capital funds are being requested.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

The request is for \$500,000 annually. The University will continue to pursue outside funding for augmentation of services (like the \$445,000 NSF grant in FY 2014) and to support specific research projects.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The University's statewide network infrastructure serves students, faculty, staff, researchers, collaborators, affiliates, guests and other constituents on a daily basis. All people that utilize computing resources affiliated with the University rely on the network to complete academic, research and administrative functions.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans: This request supports State Board Goal 1 (Well Educated Citizenry), Objective A (Provide opportunities for individual advancement), Objective B (Adult Learning Re-Integration), and Objective C (Higher Level of Educational Attainment) by providing highly qualified faculty to deliver high-demand programming and advisors to support student retention. It also supports Goal 3 (Effective and Efficient Educational System), Objective B (Alignment and Coordination) by supporting the transfer of community college students into LCSC's 4-year programs. LCSC Strategic Plan Goal 1 (Sustain and enhance excellence in teaching and learning) and Goal 2 (Optimize student enrollment and promote student success) are also supported.

Description: The nine (9) positions sought in this line item request directly support Academic and Student Affairs, the strategic initiatives of Lewis-Clark State College, and attainment of the State Board of Education's Complete College Idaho initiative and strategic plan goals. Several of these FY17 requests are those unfunded in the FY16

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

budgeting cycle. A request for faculty/ staff retention dollars will allow us to hire the most qualified faculty and staff, reduce turnover, and address salary compression.

In the last two budget cycles, Lewis-Clark State has requested funding to meet instructional needs primarily in the general education core areas, which serves both academic and professional-technical students across programs. This year's request focuses on high-performing, high-demand programs identified through the program prioritization initiative, on advising personnel necessary to ensure retention of students, and on retaining quality faculty and staff through salary augmentation.

- **Priority 1.** 1.0 FTE Veterans' Advisor: Currently the college's Veterans' Services consist of educational benefits processing, managed by a staff member who also coordinates the college's scholarship program. By adding a Veterans' Advisor position, and in anticipation of increased numbers of veterans and active-duty personnel accessing educational benefits, the college will be able to provide additional educational support, including specialized PTSD-related counseling, to these students. Total cost of the position including salary, benefits, OE, and CO is \$67,500.
- **Priority 2.** 1.0 FTE Assistant Professor, Kinesiology: This is a high growth, high demand program with a limited adjunct pool. All Kinesiology faculty are working overload to accommodate current student enrollment; there are no resources to fully implement the recently approved Exercise Science program. Total cost of salary, benefits, O.E. and C.O. is \$105,600.
- **Priority 3.** Faculty Retention Dollars: To retain a highly qualified faculty and staff workforce, the ability to address compression issues is critical. Total cost of salary and benefit is \$72,400.
- **Priority 4.** 1.0 FTE Assistant Professor, Business: This is a high growth program with an all online option. Many Business faculty are working overload to accommodate current student enrollment. Total cost of salary, benefits, O.E. and C.O. is \$105,600.
- **Priority 5.** Bilingual Advisor/ Recruiter: The State of Idaho has seen an increase in its Hispanic population and census data suggest that an increasing number of students whose families primarily speak Spanish will be remaining in Idaho to seek post-secondary opportunities. A recruiter/advisor who is fluent in Spanish will enable LCSC to facilitate access to post-secondary education for these students and their families. Total cost of the position including salary, benefits, OE, and CO is \$72,100.
- **Priority 6.** 1.0 FTE Online Instructor, Interdisciplinary Programs: There is high demand for growth in the online interdisciplinary options. No faculty are currently dedicated solely to online instruction. Total cost of salary, benefits, O.E. and C.O. is \$74,600.
- **Priority 7.** 1.0 FTE Humanities/Languages Assistant Professor: There is increasing demand for growth in the Spanish language program, as a stand-alone major and as a complement to existing professional programs such as nursing and business. Total cost of salary, benefits, O.E. and C.O. is \$74,100.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- **Priority 8.** 1.0 FTE Assistant Professor, Kinesiology: This is a high growth, high demand program with a limited adjunct pool. All Kinesiology faculty are working overload to accommodate current student enrollment; there are currently no resources to fully implement the recently approved Exercise Science program. Total cost of salary, benefits, O.E. and C.O. is \$85,100.
- **Priority 9.** 1.0 FTE Online Instructor, Interdisciplinary Programs: There is high demand for growth in the online interdisciplinary options. There are currently no faculty dedicated solely to online instruction. Total cost of salary, benefits, O.E. and C.O. is \$74,600.
- **Priority 10.** 1.0 FTE Program Advisor: Provides additional advising support for high enrollment programs and enhances student retention initiatives. Total cost of salary, benefits, O.E. and C.O. is \$62,900.

Questions:

1. What resources are necessary to implement this request?
 - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Positions are as detailed and prioritized above. All positions are 1.0 FTE, benefit-eligible positions, with anticipated hire date of August 2017. Faculty teach 24/30 credit hours/year, and engage in advising, scholarship, service and other duties as assigned by division chairs.
 - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

None.
 - c. List any additional operating funds and capital items needed.

Operating funds include \$55,000 for instructional materials and direct program support expenses, and \$9,000 total requested travel expenses for the advisor positions.

Capital Outlay includes \$27,000 for one desktop/laptop computer and office set-up for the nine requested positions.
2. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

With the exception of Capital Outlay, the request is for ongoing State General Funds.
3. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Key high-demand programs will be served by the requested faculty positions. To sustain an upward trajectory in enrollment and meet the demand for online programming, there is need for additional full-time faculty in targeted programs such as Kinesiology, Business, and Interdisciplinary Studies.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

If the request for the faculty lines is not funded, we will seek out qualified adjuncts when possible. In some program areas such as Kinesiology, adjuncts are in limited supply. Should sufficiently qualified adjunct faculty not be available, program enrollments will be limited.

Current veterans and military personnel (n = 125) will be served by the Veterans' Advisor position as will increased numbers of veterans and military personnel who are forecasted to seek post-secondary opportunities within the State of Idaho. These students will have better access and better completion rates with proper support.

A significantly increasing sector of Idaho's college-bound, college-age population will be served by the Bilingual Recruiter/Advisor and LCSC stands to increase enrollments by 30 to 50 students with the addition of this position.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

3. Security vehicles and radios	40,000				40,000
TOTAL CAPITAL OUTLAY:	\$110,000				\$110,000
T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	\$353,900				\$353,900

Supports institution/agency and Board strategic plans: This request supports State Board of Education Strategic Plan Goal 1 (“A Well Educated Citizenry”), Objective A: (“Access”) by providing a teaching, learning, and working environment which is safe, secure, and compliant with SBOE, state, and federal policies, laws, and regulations. [Note: the Board has not, to date, established Performance Measures related to campus safety and security within its current strategic plan; nevertheless safety and statutory/regulatory compliance are priorities for state and federal policy makers.]

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base? **Answer:** this request consolidates the College’s highest priority requirements to improve campus security and safety and

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

to ensure compliance with Title IX and other federal regulations which have expanded significantly as schools and universities have become a target for violence and domestic terrorism incidents. The nine components of this request (total of \$353,900), in priority order, are the following:

- **Priority 1.** Addition of a full-time security officer. Total cost of salary, benefits, O.E. (including training), and C.O. is \$53,400. LCSC currently has one security director and three security officers (supported by General Fund) to cover 24/7/365 patrol and response to situations which occur on the main campus and the College's downtown facilities.
- **Priority 2.** Increase funding for LCSC's .75 FTE (three-quarter time) Internal Auditor to full-time (addition of .25 FTE funding). This position was established as a result of a State Board mandate, and internal funds were reallocated to support the function on a half-time basis. The current staffing level is inadequate to ensure oversight of College departments' compliance with state and federal policies and regulations, verify proper internal controls over funds and resources, and adherence to sound accounting/business practices. Total cost of an extra .25 FTE is \$19,800.
- **Priority 3.** Hire a full-time Title IX Compliance Coordinator (1.0 FTE) for total cost of \$71,100 (including salary, benefits, O.E., and C.O). This area requires a dedicated, trained staff member to ensure compliance, develop/implement training, and submit required reports on Title IX (and related) issues affecting students and employees (e.g., responding to "Dear Colleague" letters and other federal mandates). The current approach (assigning these high-visibility tasks as extra duties to other full-time staff members) is neither viable nor sustainable.
- **Priority 4.** Deploy additional surveillance camera systems (with associated licenses and data storage capacity) at key external and internal sites. LCSC has self-funded a small number of indoor cameras and currently has negligible coverage of outdoor areas. These systems will be linked with Lewiston Police Department surveillance systems in the event of an emergency or crime incident requiring police response. Total cost for twenty camera systems is \$20,000.
- **Priority 5.** Fund student/employee automated emergency notification system—total ongoing cost of \$7,000 per year. LCSC has recently tested and deployed an automated notification system which sends emails, phone, and text messages to all students, employees, and local area first responders within minutes. The system has been funded on a stop-gap basis using student fees and reserves. This request would put a rapid, flexible, and sustainable capability in place.
- **Priority 6.** Add 10 additional electronic door access (programmable swipe card entry) systems at key campus locations—total cost of \$40,000 (one time). This request would leverage LCSC's internally-funded efforts to replace mechanical key entry systems at critical facilities. This capability results in significant improvements to the institution's ability to monitor entry and exit at all hours, to rapidly reprogram access for specific individuals and facilities/rooms, and to avoid the problems associated with loss or theft of mechanical keys.
- **Priority 7.** Add an Industrial Hygienist (responsible for coordination of hazardous materials tracking, storage, and disposal) to the LCSC staff—1.0 FTE for total cost

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

of \$59,200. This function cannot be adequately performed at the current time on an “extra duty” basis by instructional staff and Physical Plant personnel.

- **Priority 8.** Funding for a second, additional Security Officer (complementing the request in Priority 1, above). Total cost for this 1.0 FTE addition is estimated at \$43,400 (less than the cost of the first position, since some equipment and training costs would be shared). This position would enable five Security Officers to rotate among three shifts, to ensure 24/7/365 coverage of the campus and limited backup capability.
- **Priority 9.** One-time funding of \$40,000 to secure an additional shuttle vehicle for Security to respond to off-campus incidents and provide evening shuttle support to students traveling late at night to/from the College’s downtown facilities; acquisition of an electric cart to increase on- and near-campus incident mobility and reduce response times and transport mobility-challenged individuals; and upgrade of Security Department radio sets.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
- c. List any additional operating funds and capital items needed.

Answer: These areas were addressed in the answer to Question #1. Also see the accompanying matrix, which provides in spreadsheet format the details on each of the nine components of this request, including salary, benefits, O.E., and C.O. needs.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

Answer: All components of the request except Priority #4 (surveillance cameras), Priority #6 (electronic access swipe card entry upgrades), and Priority #9 (Security vehicles and radio upgrades) are ongoing. See attached matrix.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Answer: This request serves all students, staff, and visitors to LCSC’s campus and off-campus facilities. Funding of this request will improve the College’s ability to deter incidents, respond to emergencies, and mitigate injuries, loss of life, and damage to state property and resources.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

TOTAL CAPITAL OUTLAY:	\$11,000				\$11,000
T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	\$279,700				\$279,700

Supports institution/agency and Board strategic plans: This request supports State Board of Education Strategic Plan Goal 1 (“A Well Educated Citizenry”), Objective A: (“Access”) by providing a teaching, learning, and working environment which is safe, secure, and compliant with SBOE, state, and federal policies, laws, and regulations. [Note: the Board has not, to date, established Performance Measures related to campus safety and security within its current strategic plan; nevertheless safety and statutory/regulatory compliance are priorities for state and federal policy makers.]

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base? **Answer:** This request addresses long-time under-staffing of maintenance and custodial personnel at LCSC. The requested support will improve the College’s ability to protect and maintain its physical

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

infrastructure in good working order, address deferred maintenance needs, and provide a safe/clean learning and working environment for students and staff. The six components of this request (total request is for \$279,700), in priority order, are the following:

- **Priority 1.** Addition of an electrician (1.0 FTE, employed year-round). Currently, LCSC has only one electrician on staff who is responsible for addressing electrical needs of campus facilities comprising .75 million square feet, with the oldest average facility age of the four public four-year colleges in Idaho. The additional electrician would better enable Physical Plant to deal with its maintenance backlog and reduce reliance on outside contractors. Total cost of salary, benefits, O.E. (including recurring training), and C.O. is \$64,400.
- **Priority 2.** Hire a full-time plumber. LCSC currently has no plumbers on its maintenance staff. “DIY” maintenance/repairs and excessive reliance on private plumbers are not an efficient working approach for the campus. Total cost (salary, benefits, O.E., C.O) for an in-house plumber is \$59,300.
- **Priority 3.** Hire an additional (day shift) custodian. LCSC’s custodial staff is significantly undermanned (by at least 8-10 custodians, based on Occupancy Cost custodial coverage formulas)—this has resulted in sub-standard cleanliness conditions across many areas of campus, and day coverage of restrooms and high traffic areas is a significant issue. This position is the first and highest priority of the three additional custodial positions within this line item request. Total cost of this position is \$37,800.
- **Priority 4.** Hire additional painter. There is currently only one painter assigned to LCSC’s Physical Plant staff. This manning level is insufficient for dealing with year-round painting requests, and DIY and outside contractor use have resulted in timing, quality, and cost concerns. Total cost of adding this painter is \$42,600.
- **Priority 5.** Hire an additional (day shift) custodian. [This is the second of three additional custodian requests within this overall line item.] Rationale for this position is as described in item #3, above. Total cost of this position is \$37,800.
- **Priority 6.** Hire an additional (night shift) custodian. [This is the third of three additional custodian requests within this overall line item.] Rationale for this position is as described for item #3 above. If funded, this position could be assigned to either night, or day shift, to meet the greatest need on campus. Total cost of this position is \$37,800.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
- c. List any additional operating funds and capital items needed.

Answer: These areas are addressed in the answer to Question #1. Also see also the accompanying matrix which provides details on each of the six components of this line item request, including salary, benefit, O.E., and C.O. needs.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

Answer: All components of this request, except for \$11,000 in one-time capital outlay expenses (personal equipment and tools for maintenance personnel and custodians) are ongoing. All six requested positions are 1.0 FTE 12-month positions. The provision of General Fund dollars to fund these priority needs will support our efforts to hold student fees and tuition as low as possible. See detailed matrix.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Answer: This request serves all students, staff, and visitors to LCSC's campus and off-campus facilities. Funding of the request will improve the College's ability to sustain its physical infrastructure and facilities; avoid breakdown and red-tagging of equipment; ameliorate an area which has detracted from employee and student morale; and provide a safe and sanitary learning and working environment for our students, staff, and the members of the public and family members who visit our campus.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Overview:

Since 2006 the Division of Professional- Technical Education has lost 4 positions with no decrease in agency responsibilities. This is a 10.8% decrease in the staffing of PTE. The increased workload had contributed to high turnover in the Department with a number of staff requesting stress related time off. The turnover has left the average tenure within the department at 5.78 years. Nearly one third of the agency has been with the department less than a year with the additional third having under 5 years' experience. This high turnover has contributed to the pressure on employees and perpetuates the high turnover rate as Division employees leave for agencies and areas with a more manageable workload.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Recent changes across the country have increased the expectations of states as they work to make Professional-Technical education more relevant and aligned with the requirements of industry. The Idaho Division of PTE has a number of new initiatives to ensure that Idaho students are able to transition smoothly between schools and receive education necessary to be employed in high wage, high demand jobs. Such changes are necessary to ensure that Idaho's workforce is competitive but these initiatives also place additional demands on current PTE staff. We are asking for an additional 3 positions to help with the workload and decrease the current high turnover rate within the Division.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

We are requesting ongoing funding for 1 full-time benefited data coordinator position, 1 full time benefitted program manager position and 1 Office Specialist II position.

A data coordinator is being requested to assist with the implementation of Skill Stack, an electronic technical competency skills recognition program which will be in full implementation mode by FY 2017 and will require a full-time data analyst to work with secondary and postsecondary institutions to manage the data generated by the new program.

The program manager is required to help the agency with student organizations and redistribution of the current workload. Participation in professional-technical student organizations (PTSOs) has been identified as a critical area of performance for PTE programs and existing program managers have been focused on providing support for these programs throughout the state. With increased requirements for federal Perkins programs, the Division has identified the need for program managers to increase their program responsibility to include Perkins Performance monitoring as well. Providing an additional program manager will help distribute the workload among program managers allowing them to do on-site reviews while continuing to provide support to the PTSOs.

An Office Specialist II position is being requested to support the new program manager in their role with PTSOs and better distribute the workload of other support staff within the division.

2. What resources are necessary to implement this request?

- a. List by position:

1. Data Coordinator. Non-classified, Full-time with benefits. \$71,800
2. Program Manager, Non-classified, Full-time with benefits. \$83,800
3. Office Specialist 2, Classified Full-time with benefits. \$42,800

- b. List any additional operating funds and capital items needed.

No new operating or capital funds are needed

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.)

This is an on-going request for funding.

4. Who is being served by this request and what are the expected impacts of the funding requested?

If this request is not funded the agency will continue to see ongoing turnover which will limit the agency's ability to meet the needs of local schools and technical colleges throughout the State.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This line item was not requested in prior years.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

CAPITAL OUTLAY by summary object:					
TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	\$119,600				\$119,600

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

We are requesting funding for the Colleague Data System, which is required by the State. As the only stand-alone technical college in Idaho, EITC does not have other resources to pay for these costs in full or in part. EITC must direct funds needed for programs and maintenance to keep this data system, the cost of which goes up by 6% every year. This data system is where we draw all of our data for State and Federal reports. It is necessary for all reporting to the National Clearing House, and for the

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

State Longitudinal Data System. This system is also required to do transcripts and collect data to support our Strategic Plan Performance Measures.

2. What resources are necessary to implement this request? We would need funding for the cost of the Colleague Data System as an on-going funding source.
 - a. List by position: none
 - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted. No existing human resources will be re-directed
 - c. List any additional operating funds and capital items needed. Operating funding of \$119,520.00 would be required for the annual licensing fee.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.)

This is an on-going request for funding

4. Who is being served by this request and what are the expected impacts of the funding requested?

The entire campus, faculty, students, staff and other employees all rely on Colleague to collect data for the activities and information we provide to the State and other agencies. All of EITC is served by this funding.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This item has been requested in the past as a priority item and has been a concern for several years. With the continual increase in costs, this line item request becomes an imperative.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Description:

In the 2015 legislative session, amendments to Idaho Code 33-2205 (3) and (4) outline the intent that the Division of Professional Technical Education will coordinate with the Idaho Digital Learning Academy to provide approved online professional-technical education courses and that the division will incentivize Idaho public colleges and universities offering Professional Technical programs to align their foundational courses so as to achieve uniformity and transferability.

These initiatives were started in Fiscal Year 2015 using Division funds available for this purpose. The continuation of this project into FY 2017 will require one-time funds of \$20,000 for Horizontal Alignment efforts and \$20,000 for PTE Digital.

LUMP SUM:					
GRAND TOTAL	\$3,764,600				\$3,764,600

Overview:

The Division of Professional Technical Education funds programs at the 6 postsecondary institutions throughout the state. Years of flat funding and increased demands on Idaho students to achieve postsecondary education have resulted in long waiting lists for programs across the State and have limited Idaho employers in being able to hire qualified employees. If Idaho can't accommodate these increased educational demands it forces students to seek education out of State and can force employers to look out of state to hire the qualified employees that are needed.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Our focus is on high wage, high skill, in demand jobs, which benefit not only the students seeking the education but help to stimulate the economy by providing the necessary talent pipeline for business and industry to grow and be profitable.

The Division has identified 4 major industry areas (health care, information technology, mechatronics, and transportation) where Idaho technical colleges have student backlogs in programs and where all their graduates are hired in high wage, high skill, high demand jobs. The goal is to expand the student pipelines for these targeted programs to meet demonstrated employer demand.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

See attached.

2. What resources are necessary to implement this request?

- a. List by position:

See attached. The positions are all for direct instruction at the post-secondary institutions.

- b. List any additional operating funds and capital items needed.

See attached

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.)

This is an on-going request for funding.

4. Who is being served by this request and what are the expected impacts of the funding requested?

These funds will help address the student backlogs for these in demand programs and provide greater talent pools for industry expansion.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This line item was not requested in prior years.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Description:

As one of its major initiatives to improve secondary PTE education across the state, PTE is in the process of proposing new legislation to amend Idaho Code 33-1629 to provide incentive funding for exemplary Professional-Technical Education (PTE) secondary programs. It would provide for incentive-based funding opportunities currently available only for Agricultural and Natural Resources education programs established in 2014 (Idaho Code 33-1629) to all PTE secondary education programs.

The incentive based funding for the PTE Agricultural and Natural Resources education program is driving improvements in the quality of these education programs and this legislation would provide this same type of incentive-based funding for the other five PTE education program areas, which include: Business Management and Marketing,

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Engineering and Technology, Family and Consumer Sciences, Health Professions, and Skilled and Technical Sciences.

This performance based approach would more clearly demonstrate the return on investment provided by professional-technical education and hold PTE programs more accountable for producing results.

The performance measures and procedures for PTE program incentive based funding would be established by the Idaho Division of Professional-Technical Education.

GRAND TOTAL	0				0

Overview:

Historically the Division has funded CWI to perform accounting services for Professional Technical Student Organizations (PTSOs). This relationship is inefficient, requiring PTE program managers to work with off-site accounting services and any changes to the financial reports are being handled manually by PTE support staff. Frequently this results in a second set of accounting records being maintained at the Division. In addition, internal control of these funds is difficult to ensure since funds are maintained outside of PTE and PTE staff cannot confirm the accuracy of the records or readily research accounting discrepancies.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

We are requesting an ongoing transfer of funding from Trustee and Benefits to Personnel costs for 1 full-time benefited financial specialist to perform the accounting for the PTSOs. The overall financial impact to the State is zero.

2. What resources are necessary to implement this request?

- a. List by position:

4. Financial Specialist, Classified Full-time with benefits. \$61,400

- b. List any additional operating funds and capital items needed.

No new operating or capital funds are needed

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.)

This is an on-going request for funding that will be offset by an ongoing reduction in trustee in benefit funding. The net financial impact to the State of Idaho is zero.

4. Who is being served by this request and what are the expected impacts of the funding requested?

This request will allow the Division of PTE to better serve the PTSO boards allowing them to make sound financial decisions; will reduce the burden on PTE support staff to maintain a second set of accounting records and will allow the Division increased internal controls over PTSO funds.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This line item was not requested in prior years.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Eastern Idaho Technical College (EITC) is requesting 1 FTE Human Resources Senior. The College currently has one position in HR that is classed at the specialist level and is required to do all of the payroll plus all the employee HR function. Many of these functions are out of the individual's pay grade. It is important that the College provide adequate services for all of our employees and protect their rights. This position would be at the level to work with the other HR professionals in the State.

2. What resources are necessary to implement this request?

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

EITC would need to hire a HR Senior and use the current position of specialist to do payroll and other functions at the specialist level.

- a. List by position: Human Resources Senior Position, Pay grade M, Full time with benefits. This person would start when funding is approved
 - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted. This would be a new position at EITC.
 - c. List any additional operating funds and capital items needed. No new operating or capital funds are needed
3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.)

This is an on-going request for funding

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Employees are greatly affected by the service of the HR department. Hiring, firing, retirement, CEC and many other areas need to be covered by a well-educated HR employee. New reporting is now being required for HR departments to meet Federal guidelines. If this request is not funded, employees may not get the information to make decisions that could affect employment and retirement

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This request will replace some of those requested in previous years. We have re-evaluated some of the priorities on the EITC campus and determined that having a fully functioning HR department is very important to the institution.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Goal 1, Objective B

Higher Level of Educational Attainment – Increase the educational attainment of all Idahoans through participation in Idaho’s educational system.

Performance Measure:

1. Provide advising and other support services to minimum of 25% of the high school students enrolled in dual credit courses each year, improving purposeful progression toward certificates or degrees of value
2. Increase dual credits successfully completed by the Fall of 2017

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

3. Maintain or exceed 90% dual credit course completion rate in the face of program expansion through Fast Forward

Description:

With the original passage of the Fast Forward legislation in FY 2015 and its expansion in FY 2016, additional support is needed for dual credit students. CSI's dual credit growth was fairly static from 2009-2013, delivering 12-14,000 credits in an average year. Fast Forward has pushed this number to over 16,000 in 2014, and we anticipate a significant increase in that number as a result of the program being fully implemented

In order to properly support the growing number of dual credit students, CSI needs to revise its support system for both dual credit students and dual credit instructors. We are proposing hiring four student service generalists to provide advising, admission, registration, residency and payment process for our dual credit operations which now stand at more than 2,200 dual credit students in over 40 high schools.

Dual Credit Student Service Specialists will have an associate's degree at a minimum, with a bachelor's degree preferred and be trained in wide range of student service areas. They will be a customer service representative for all processes involving CSI with the school districts. Specifically, the Dual Credit Student Service Specialist will provide support in the following areas:

1. Provide limited on site advising along with serving as a direct resource for dual credit students, faculty and parents
2. Work with high schools, students and faculty concerning timely and accurate testing, admission and registration. This will involve on site assistance at larger schools and being available at spring advising sessions in high schools
3. Assisting high schools, students and faculty with the Fast Forward, scholarships and the process for paying. This will involve meeting with both parents and students
4. Provide training for dual credit faculty concerning the dual credit process in the areas of advising, admission, registration, payment
5. Serve as customer representatives with the technical skills to resolve various procedural and administrative issues.
6. Assist high school counselors with the dual credit process concerning eligibility, prerequisites, test score requirements and advising.
7. Follow up with enrollment and Fast Forward verification with faculty and high schools
8. Assist in calling dual credit students who have not paid or who have scholarship issues.
9. Assist Transition Coordinators/Recruiters with recruiting through site visits and student follow-up for both PTE and academic students in October and March and as available.
10. Serve as a resource for CSI department heads and CSI Dual Credit Faculty Mentors concerning non-instructional issues facing dual credit faculty.
11. Serve as a college resource for dual credit issues for admissions, registration and business office.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Dual credit will continue to be institutionalized in the admissions, records and business offices. The purpose of the Dual Credit Support Services Specialist is for CSI to be proactive in customer service and to serve this growing population. This staff will also assist in recruiting all students to CSI since they will have a relationship with high schools.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The request is for funding to develop a comprehensive approach to postsecondary dual credit educational services for high school students. The approach involves the investment of resources on the front end of a student's educational experience in order to increase program completion at the most economical price possible.

The primary purpose of this request is to provide proper support services for our dual credit program.

The base funding for salaries and benefits for the four (4) Dual Credit Student Service Specialists is \$218,800. These four support positions will be in addition to current staffing of 1.5 FTE dedicated to dual credit.

Currently we have an Associate Dean, a full-time Student Service Specialist and a part-time Dual Credit Coordinator built into our base budget at a total cost personnel cost of \$196,600.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Four (4) Dual Credit Student Service Specialists - \$36,000 salary with \$19,700 in benefits

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Dual Credit Coordinators will work with the existing CSI Admission and Recruiting functions to insure student follow-up is continuous and relevant. They will also coordinate with Advising to make sure students are taking the courses need for their majors.

- c. List any additional operating funds and capital items needed

These staff members will travel extensively to high schools to provide services on site. Travel funds of \$15,000 per year are needed. Operation expenses of \$5,000 for supplies and educational materials will also be needed.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

The entire request is for General Funds.

Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request is to improve the services we provide to dual credit students to insure they are successful in their post-secondary experience. As noted in our Performance Measures, we expect to see more students, to serve them better, and improve transition from high school to college and to increase completion rates.

If this request is not funded, we will struggle to provide adequate support for our growing number of dual credit students. Simply put, our existing staffing model is not adequate to address the breadth of this operation. We are deeply concerned students, parents, high schools and college staff will be overwhelmed by the work required to properly serve dual credit students.

4. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This is the first year for this request.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Goal 1, Objective B

Higher Level of Educational Attainment – Increase the educational attainment of all Idahoans through participation in Idaho’s educational system.

Performance Measure:

4. Increase graduation rates for the College of Southern Idaho from 18% to 28% by fiscal year 2019 (May of 2019) – IPEDs definition of graduation rate. Fall of 2015 benchmark
5. Increase retention in degree and certificate programs at the College of Southern Idaho from 50% to 60% by fiscal year 2019 (May 2019) IPEDS definition of Fall to Fall retention utilizing the Fall of 2015 as a benchmark.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

6. Increase the number of students earning degrees or certificates by 30% by fiscal year 2019 (May 2019) utilizing the Fall of 2015 as a benchmark.
7. Increase credits successfully completed by 15% by the Fall of 2017 based upon Fall of 2015 credits.

The above performance measures are in support of SBE benchmarks

1. Attain a 75% new full time student return rate for the second year in Idaho community colleges.
2. Attain 20% of head count for post-secondary unduplicated awards for certificates requiring one academic year or more of study.

Description:

The Idaho State Board of Education has set a goal of 60% of all Idahoans between the ages of 25 and 34 receiving post-secondary education or training in order to meet today's needs in the workforce. The JA and Kathryn Albertsons Foundation has also strongly supported post-secondary education through their funding initiatives and "Go On" programs.

Though bachelor's and graduate degrees are important, the community colleges feel very strongly that these goals can only be met through a combination of associate degrees, professional technical education, certificates and customized workforce training.

The proposed model is based upon successful pilot programs funded by short term grants at our institutions and proven programs successfully implemented throughout the nation. This model, based in part on Complete College Idaho, is one of career counseling, guided pathways for success (GPS), mandatory orientation, intensive and intrusive advising, redesigned remedial courses, continuous follow up and expanded tutoring. It is high touch and highly successful. From a student's perspective, it requires a significant amount of effort for a shorter period of time and a much greater probability of success.

This request is to expand resources for post-gateway high risk classes such as Biology, Chemistry, high level math, nursing, etc. based upon success ratio of the courses. This would involve hiring skilled students, part time staff and adjunct faculty to assist in these areas. Instructional coaches will be available during a wide range of open hours for these services will serve to improve completion rates. Faculty referrals to this area would result in phone calls and follow up to proactively seek out struggling students to intervene and develop a plan for success before they fail. The tutors will be housed in our newly created Student Success Center which is supervised by a full time associate dean. We expect to see immediate results in retention and course completion rates with the funding of this request.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The primary purpose of this request is to not only increase completion rates for all programs, but also to increase the number of students participating in post-secondary training. This is a direct response to both the Idaho State Board of Education 60% goal and the JA and Kathryn Albertson "Go On" campaign.

A mix of students, part-time and adjunct faculty will be provided to assist students. Full-time coordinators and other support staff are already in place for this project.

CSI currently has a \$46,000 budget for part-time peer tutors and a one (1) FTE coordinating tutoring with \$62,700 in personnel costs.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

We propose staffing the Success Center with a mix of part-time staff and adjunct faculty at a cost of approximately \$107,900. The center will be open for extended hours to all students.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

We currently only have limited tutoring and intervention services available at certain times on campus. We have already invested in an Associate Dean's position to oversee this area with the expectation of a direct impact both on course completion and retention.

- c. List any additional operating funds and capital items needed.

We are requesting \$5,000 in operating fund for supplies for the Success Center.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

The entire request is for General Funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request is to improve the services we provide to students to insure they are successful in their post-secondary experience. As noted in our Performance

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Measures, we expect to see more students, to serve them better and to increase completion rates.

If this request is not funded, we will continue to run pilot programs serving small groups of students. This will refine the development of programs, but it will not have the desired major impact on increasing enrollments and completion rates.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This is the first year for this request.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Goal 2, Objective B:

Quality Instruction – Increase student performance through the development, recruitment and retention of a diverse and highly qualified workforce of teachers, faculty and staff.

Performance Measure:

1. The designing a system of training and certification, the implementation and monitoring of this process will result of certified instructors teaching on line and hybrid courses. This will allow us to increase certified faculty by 25% per years. Currently on line course quality varies significantly due to a lack of standards, training and support.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

2. The design and implementation of broad based training and instruction in current best practices in education and pedagogy for all faculties in all disciplines will result in 25% of all faculty annually participating in formal, ongoing training. Pedagogical training and professional development will be ongoing and part of regular teacher evaluations.

Description:

This position would not only oversee quality in all of our online and hybrid course offerings, but also would assist faculty (full-time and adjunct) in bringing up courses to required levels and monitor all courses for quality. Additionally the goal of this position is to increase success rates in all courses regardless of modality through redesign and utilization of the most successful teaching techniques. Instructors in gateway courses in math and English will be targeted initially.

Through improving instruction across the board, this position will have direct impact on student success, retention and completion.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

One (1) FTE is being requested to a) improve the quality of online and hybrid course instruction, and b) develop and maintain an ongoing excellence in teaching protocol for all full and part-time faculties.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

1.0 FTE, Instructional Designer, \$70,000, Full Time, Full Benefits, Hire Date of July 1, 2016, 12 month contract

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

The new instructional designer will report to the Associate Dean of Institutional Effectiveness and work closely with instructional deans and faculty to improve the presentation, quality and completion rates for all instruction.

List any additional operating funds and capital items needed.

We are requesting \$6,000 for travel and \$5,000 for office supplies, publications and dues.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

The entire request is from the General Fund. The \$11,000 of operating expenses are on-going.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

It is critical that we maintain high quality courses with high completion rates. The instruction designer will assist faculty in the development of all courses, including an initial focus on developing a quality control protocol for hybrid and online courses.

If this request is not funded, we will have to make a decision concerning the limiting of online offerings to the number we can insure meet the quality and outcomes our students need. Moreover, institutional emphasis on professional development focusing on teaching excellence will be delayed.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This is the second year of this request. The instructional designer was a part of a consolidated top priority item for our FY 2016 request. It is not prioritized first because of the need to address the support issues for the influx of dual credit students we are experiencing.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Goal 3, Objective B: Data Informed Decision Making – increase the quality, thoroughness and accessibility of data for informed decision-making and continuous improvement of Idaho’s educational system.

Performance Measure:

1. Through the use of data analysis and continued participation with the Idaho State Board of Education, relevant, reliable, comparable data will be used in making management decisions. CSI will be able to participate in providing reports and data required by various entities. Moreover, CSI will embark on forming dashboards and utilizing predictive analytics.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Description:

The College of Southern Idaho currently has 1.5 FTE (one part-time and one full-time staff) assigned to institutional research and reporting. In addition to traditional on-going ad hoc, IPEDS and administrative management reports, we have added reporting for the state longitudinal data study, the community college Voluntary Framework for Accountability, Complete College America, new Northwest Accreditation core standards and the Student Success Initiative. The staff is also responsible for Institutional Profile Report, a 150 page book of current as compared to historical data, charts and graphs specifically for CSI, which is completed every two years.

In addition to reporting, there is a growing emphasis by the Idaho State Board of Education for institutional research staff to participate in state and national conferences. We are also experiencing a movement towards analytics for predictive data and efficiencies. Analytics can provide valuable data but it is time intensive. This is an expansion of the institutional research function.

The current staff of one full-time and one part-time person cannot keep up with this workload.

This request is for funding to hire one (1) FTE full-time institutional researcher to assist our existing time staff. This position will provide consistent support to our existing staff along with improving the process of getting needed reports for evaluation and decision making.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

A full-time institutional researcher position addresses the overwhelming amount of reporting and data analysis required both internally and externally.

Currently, we have 1.5 FTE (one full-time and one part-time staff) doing institutional research with personnel costs totaling of \$130,000.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

1.0 FTE, Institutional Researcher, \$60,000, Full Time, Full Benefits, Hire Date of July 1, 2016, 12 month contract

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

The new institutional researcher will report to the Assistant Dean of Institutional Effectiveness. The existing 1.5 FTE (one full-time and one part-time staff)

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

performing institutional research will share duties with the new position with the work being divided between them.

- c. List any additional operating funds and capital items needed.

We are requesting \$5,000 for travel and \$2,000 for office supplies, publications and dues.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

The entire request is from the General Fund. The \$7,000 of operating expenses are on-going.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The College is the prime entity being served through the utilization of data to make good decisions to efficiently provide services to students.

If this request is not funded, we will have to prioritize what we can do with the existing staff. This may mean limiting involvement in various programs, data reporting and state sponsored events. This position is critical for us move forward with predictive analytics which in turn is essential for tracking and monitoring student success.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This is the second year of this request. It was our number 3 priority in our Fy 16 budget request. The top prioritized line item – Dual Credit Support - was not a part of a previous year request. (Due to the predicted influx of dual credit students as a result of new legislation and the issues experienced in Fy 2015, Dual Credit Support is critical in providing services to these new students.)

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Goal 1, Objective B

Higher Level of Educational Attainment – Increase the educational attainment of all Idahoans through participation in Idaho’s educational system.

Performance Measure:

8. Increase retention in degree and certificate programs at North Idaho College from 54% (the 3 year average of Fall09 to Fall11) to 63%
9. Increase percentage of new students at North Idaho College who are awarded a degree or certificate from the current 20.8%.
10. Increase percentage of career program completers employed in related field from 54.9% to 65%.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

The above performance measures are in support of SBE benchmarks

3. Attain a 75% new full time student return rate for the second year in Idaho community colleges.
4. Attain 20% of head count for post-secondary unduplicated awards for certificates requiring one academic year or more of study.

Description:

The Idaho State Board of Education has set a goal of 60% of all Idahoans between the ages of 25 and 34 receiving post-secondary education or training in order to meet today's needs in the workforce. The JA and Kathryn Albertsons Foundation has also strongly supported post-secondary education through their funding initiatives and "Go On" programs.

Though bachelor's and graduate degrees are important, research continues to show these goals can only be met through a combination of associate degrees, professional technical education, certificates and customized workforce training.

The proposed model is based upon successful pilot programs funded by short term grants at our institutions and proven programs successfully implemented throughout the nation. This model, based in part on Complete College Idaho, is one of career counseling, guided pathways for success (GPS), mandatory orientation, intensive and intrusive advising, redesigned remedial courses, continuous follow up and expanded tutoring. It is high touch and highly successful. From a student's perspective, it requires a significant amount of effort for a shorter period of time and a much greater probability of success.

North Idaho College is requesting support for CCI for the following institutional priorities:

1. Coordinator Retention/Completion – 1 FTE \$60,000 salary plus \$23,696 benefits, \$2,500 operating expense and \$1,500 equipment. = \$87,696
A Coordinator for Retention/Completion will help to manage, develop and implement retention strategies to support student cohorts, and will help develop measurable goals to enhance student progress to degree completion. In addition to closely tracking student progress, the coordinator will assist with developing reports and will work with campus leaders to plan and provide support for broader campus retention efforts. The Coordinator will support instructional efforts to help sustain several grant-funded programs. This position will assist students with student services needs as they enter programs, track and aid students through their programs, and provide employment assistance as they complete programs.
2. Transition Coordinator – 1 FTE - \$45,000 plus \$20,572 benefits = \$65,572 plus \$2,500 operating expenses and \$1,500 equipment = \$69,572

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

A Transition Coordinator position will work closely with recruiting and admissions staff to help students transition from secondary to post-secondary programs. The Transition Coordinator will provide pathways coaching, will assist students in navigating through admissions and financial aid requirements, and will aid students with their education plans. Integrating the sometimes overwhelming admissions process with early advising ensures a smooth transition for students and a clear path toward timely completion of their program of study.

3. Support for Faculty engagement in intrusive advising – 5 FTE (part time and adjunct faculty) plus benefits = \$173,989.

The college has successfully implemented Intrusive Advising for at-risk students but has only been able to implement it on a small scale. Since faculty are often the first and most important point of contact for new students, they are in a position to recognize the early signs of an “at-risk” student such as sudden non-attendance or sudden failure to turn in work. Frequent faculty-student contact in and out of the classroom is the most important factor in student motivation and involvement. By providing support for faculty engagement in intrusive advising, the college can identify at-risk students early in their program thereby moving a greater number of students toward completion.

4. Expansion of Quality Matters – 1 FTE - \$60,000 plus \$23,696 benefits=\$83,696 plus \$60,000 in instructional stipends, \$52,000 operating expenses and \$1,500 in equipment = \$197,196.

The Quality Matters project at NIC is aimed at creating a continuous improvement process for assuring the quality of online instruction. The project will involve faculty, instructional designers, and staff in best practices in instructional design. The project will help to systematically ensure the quality and consistency of NIC’s online courses resulting in greater success rates for online students.

5. Faculty Professional Development - \$80,000 operating expense

Several faculty-driven curriculum process changes are underway at NIC as a result of the state-wide General Education Reform (GEM) initiative, and the adoption of the Guided Pathways approach to reducing time to graduation. The need for professional development for faculty is great so that the work continues toward identifying an explicit core with shared learning outcomes that clearly guides students toward their educational goals. NIC has begun work to review and implement a redesigned core that

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

will not simply generate more degrees, but will generate quality degrees, and to both collect and use assessment data to make core course improvements.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The request is for funding to develop a comprehensive approach to postsecondary educational services for all students. The approach involves the investment of resources on the front end of a student's educational experience in order to increase program completion at the most economical price possible. Job coaching, recruitment, orientation, placement, advising, registration and follow up services are all significantly enhanced through this proposal.

The primary purpose of this request is to not only increase completion rates for all programs, but also to increase the number of students participating in post-secondary training. This is a direct response to both the Idaho State Board of Education 60% goal and the JA and Kathryn Albertson "Go On" campaign.

The base funding for salaries and benefits for the existing staffing includes six advisors and advising Director totaling is \$338,700. This amount is in the NIC general fund. We have also have two positions funded by the Albertson's grant in the amount of \$93,000. This is grant funding.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

1.0 FTE – Transition Coordinator \$45,000, full time with benefits at \$20,572. Anticipated hire date 7/1/16. 12 month employee.

1.0 FTE Coordinator Retention/Completion \$60,000, full time with benefits at \$23,696. Anticipated hire date 7/1/16. 12 month employee

5.0 FTE Faculty/Adjunct Faculty Advisors 150 stipends at \$800/credit. Taxes and retirement only benefits. Anticipated hire date 8/15/16

1.0 FTE Instructional Designer \$60,000, full time with benefits at \$23,696. Anticipated hire date 7/1/16. 12 month contract.

0.0 FTE Faculty/Adjunct Faculty Training Stipends, \$500/faculty member for 100 faculty, taxes and retirement only. Hire Date of August 1, 2016

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

The existing NIC advising and instructional staff will train with and support these initiatives. There are already staff and faculty interested in and piloting these programs.

- c. List any additional operating funds and capital items needed.

We are requesting \$80,000 in professional development funds for instructional personnel to help the college with general education reform and to design better methods for collecting, utilizing, and sharing student learning outcomes assessment data. This work will guide students toward their educational goals.

We are requesting \$4,500 for computers for the new staff in this request as well as for office furniture.

We are requesting \$11,000 in travel, \$20,000 in supplies and \$30,000 for training and professional development for our instructional designer position. The travel is to ensure that our instructional designer and selected lead staff stay current on best practices. The \$20,000 is for providing supplies and training materials to the faculty being instructed in the new methods. The \$30,000 for professional development is to expose our faculty to innovative instruction. This will involve speakers, travel, webinars and direct instruction.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

Funding request is for state general funds. The \$4,500 for desktop computers and is a one-time start-up equipment purchase. Replacement computers will be funded from institutional funds.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request is to improve the services we provide to students to ensure they are successful in their post-secondary experience. As noted in our Performance Measures, we expect to see more students, to serve them better and to increase completion rates.

If this request is not funded, we will continue to run pilot programs serving small groups of students. This will refine the development of programs but it will not have a major effect on increasing enrollments and completion rates.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Goal 3, Objective B: Data Informed Decision Making – increase the quality, thoroughness and accessibility of data for informed decision-making and continuous improvement of Idaho’s educational system

Description:

The demand for more information to support regulatory compliance, strategic data driven decision making, ad-hoc and operational reporting needs is ever increasing. Renewed emphasis and institutional commitment and priority need to be given in the area of data development. An additional staff position in Information Technology will enable the College to markedly improve reporting and information analytics.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

This request is for a data analyst/developer. This is a general fund request. This position will provide access to a high need area for data analytics to provide tracking and benchmarking of outcomes and higher evaluation of data for new programs and initiatives.

2. What resources are necessary to implement this request?

- a. 1 FTE Data Analyst/Developer, \$78,500 salary full time with benefits at \$27,548. Anticipated hired date 7/1/17 12 month contract.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

No resources will be redirected. Existing operations will improve quality and availability of reporting to campus and constituents.

- c. List any additional operating funds and capital items needed.

\$5,000 for travel to training and meetings with other schools. \$3,000 one-time funds for a desktop computer and office furniture.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

Funding request is for state general funds. \$3,000 is for one time capital items (computer and office furniture).

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Since 2006, Information Technology has partnered with the Office of Institutional Effectiveness to develop an institutional reporting capability including a centralized, data mart reporting environment. This environment utilizes Microsoft technologies and reporting tools that came at no additional cost to the institution due to our existing campus license agreement with Microsoft.

Leveraging the Microsoft Business Intelligence suite of tools will pay great dividends to North Idaho College. The Developer position will not only assist and support the existing Information Center staff and data analysts but will further extend the college's ability to complete current information initiatives and address new analytics initiatives, taking the data mart reporting platform to a new level.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Supports institution/agency and Board strategic plans:

Goal 1, Objective A and Objective B: Access and Higher Level of Educational Attainment. North Idaho College; Goal 3, Objective 4: Enhance access to college facilities.

Description:

Enhancing the capabilities of our campus security by providing an increased visual presence and ability to respond to multiple calls will better serve our students, employees, and visitors.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Increased security personnel, campus wide exterior surveillance system, and enhanced electronic access controls. These 3 components will serve to improve the safety of our campus for students, employees, and visitors.

2. What resources are necessary to implement this request?

- a. 2 FTE Security Officers, \$64,500 salary full time with benefits at \$35,729. Anticipated hired date 7/1/17 12 month contract.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

No resources will be redirected. Existing operations will improve quality and availability of reporting to campus and constituents. The college has employed a FT school resource officer through contract with the City of Coeur d' Alene to begin addressing the need for enhanced security and ensure timely response times.

- c. List any additional operating funds and capital items needed.

\$15,000 for training. \$525,000 one-time funds for a upgrading and installing surveillance and access controls

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

Funding request is for state general funds. \$540,000 is for one time capital items).

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Students, employees, and visitors to the North Idaho College campus will experience a more safe and secure environment. If this request is not funded, we will not be able to provide the enhanced level of safety and security we hope for.

Supports institution/agency and Board strategic plans:

Goal 1, Objective A: Set policy and advocate for increasing access for individuals of all ages, abilities, and economic means to Idaho's P-20 educational system.

Description:

The Department of Education, Office for Civil Rights is widely publicizing the recent May 4, 2012 University of Montana Electronic and Information Technology (EIT) compliance complaint against the institution. The Office for Civil Rights is reminding all post-secondary institutions that the remedial actions against the University of Montana should be viewed as a template to ensure colleges are in compliance with EIT requirements and standards.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

After reviewing the Department of Education, Office for Civil Rights Resolution Agreement with the University of Montana, NIC has recognized the need to designate/hire an Electronic and Information Technology (EIT) coordinator, develop an EIT Policy and Procedure, audit all college electronic systems for accessibility compliance, and develop a priority list to begin addressing deficit areas. NIC has already identified several deficit areas through past audit activity including the need to install web content compliance software, purchase a campus wide licensing for text to speech software system, upgrade computer kiosks, information stations, copiers, learning management systems including classroom technology and multimedia, phone systems, and also provide captioning of videos and film content to ensure accessibility for students with disabilities is adequately addressed. Additionally, the EIT Coordinator would be responsible for identifying additional funding sources and grants to ensure continued electronic and information tech compliance across all NIC campuses and platforms.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

It is critical for North Idaho College to fully meet federal EIT compliance and in order to do so, both staff and capital outlay resources must be established and maintained. North Idaho College is requesting funds to expand and further develop its Electronic and Information Technology (EIT) compliance to ensure NIC systems are fully accessible for individuals with disabilities. EIT has taken on a greater emphasis relative to a recent US Department of Education, Office for Civil Rights disability discrimination complaint (OCR Reference No. 10122118), against the University of Montana on May 4, 2012, (resolution agreement attached for reference). In order to meet compliance standards, NIC must develop an EIT Accessibility Policy and Procedures, designate an EIT Coordinator who has the responsibility and commensurate authority to coordinate the College's Accessibility Policy and Procedures, perform an audit of EIT applicable systems at NIC, prioritize deficient systems, and then implement enhancement and corrective action to ensure EIT compliance. In addition to requesting base funding for an EIT coordinator position, several large scale EIT systems expenditures are also being recommended as part of this request.

2. What resources are necessary to implement this request?

- a. 1 FTE Electronic and Information Technology Coordinator, \$42,000 salary full time with benefits at \$17,460. Anticipated hired date 7/1/16 12 month contract.
- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

No resources will be redirected. Existing operations will improve by allowing disability support services to better serve students with a dedicated and appropriate resource.

- c. List any additional operating funds and capital items needed.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

\$62,000 for Network Software: HiSoftware Compliance Sheriff for Web Content Compliance Automation, (\$32,000); Campus-Wide Speech to Text Software Licensing Software Read/Write Gold (\$12,000); Transcription Costs for Video and Film Captioning (\$18,000). \$54,000 for Hardware Compliance: Access Kiosk Computer Replacements (\$18,000); Student Disability Multimedia Computer Stations upgrades for 7 sites (\$21,000); Blind and Visually Impaired Assistive Technology Lab to include 3-D printing for Tactile accommodation (\$15,000). \$12,000 for Professional development and campus education including, training on compliance with OCR Reference No. 10122118 and auditing electronic systems for compliance. In addition the request includes \$3,000 one-time funds for a desktop computer and office furniture.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

The entire request is from the General fund. \$116,000 is one time capital expenditure. Replacement, maintenance and future license renewal would be funded from other sources.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Students with documented disabilities (as defined by Section 504 of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act of 1990, and the regulations that implement those statues at 34 C.F.R. Part 104 and 28 C.F.R. Part 35) from the five northern counties and served by North Idaho College will be legally served through the implementation of the EIT coordinator and applicable systems management and upgrades. If not funded, colleges risk a similar response by the U.S. Department of Education, Office for Civil Rights as was taken against the University of Montana. Preventative and incremental adequately funded EIT adaptation towards compliance, guided by policy and procedures and facilitated by an EIT Coordinator, is preferred as opposed to immediate OCR sanction which may result in costly and immediately intervention.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

This request is connected to the CWI strategic plan's goals as follows:

Institutional Priority 1: Student Success;

Objective 3: CWI will provide support services that improve student success.

Objective 4: CWI will develop educational pathways and services to improve accessibility.

Institutional Priority 2: Employee Success;

Objective 1: Employees will have resources, information and other support to be successful in their roles.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Objective 2: CWI will provide employees with professional development, training and learning opportunities.

Institutional Priority 3: Fiscal Stability;

Objective 3: CWI will work to maintain and enhance its facilities and technology and actively plan for future space and technology needs.

Institutional Priority 4: Community Connections;

Objective 2: CWI engages in educational, cultural and organizational activities that enrich our community.

Objective 3: Expand CWI's community connections within its service area.

Having sufficient funding per Academic FTE will allow CWI to achieve these objectives.

Performance

Measure:

The College of Western Idaho will have the following outcomes to showcase the performance of each priority/goal with sufficient funding per Academic FTE:

Student Success: Increased completion and retention rates will result if CWI develops those services that will allow students to meet their full potential while also providing pathways to move further in their education and career goals. CWI will be better able to bridge the gap to make transitioning to 4 year institutions more seamless for the students.

Employee Success: Having more resources and training will help CWI employees be more successful in their roles and to facilitate easier access to those resources for all employees, much as CWI has done for the student population.

Fiscal Stability: CWI will be better able to upgrade its facilities and technology in a proactive manner to meet the ever changing needs within the marketplace for higher skills, which in turn, makes CWI the institution that stands out from the crowd and is better equipped to handle the needs of our community. By maintaining and improving the infrastructure, CWI will be prepared for any future growth and needs of the region.

Community Connections: CWI will have the ability (staff and infrastructure) to better engage the community and participate in activities that showcase the value of an education at CWI, which reinforces the need and support for the College with our community partners, both current and potential.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Description:

This request is being submitted to allow CWI to be funded at the same amount per academic full time equivalent (SFTE) student as North Idaho College (NIC) and the College of Southern Idaho (CSI).

Please see attached enrollment calculation spreadsheet for details regarding actual calculation methodology. Note: This request is for only a *portion* of the unfunded enrollment.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

CWI requests support for prior year (FY 2012, 2013, 2014 & 2015) unfunded enrollment in FY 2017.

2. What resources are necessary to implement this request?
 - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
 - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
 - c. List any additional operating funds and capital items needed.

If this request is approved, CWI would first consider the hiring of instructional faculty and/or staff. The ratio of full- to part-time (adjunct) would be determined based upon the amount appropriated. Remaining funds would be used for Operating Expenses at the college, primarily infrastructure (Facilities, utilities, and information technology) related, as determined by enrollment circumstances.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

All funds requested are Ongoing.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Existing and new students will be served with this request. Not funding this request will cause difficulties in meeting community expectations for an open access community college.

Supports institution/agency and Board strategic plans:

SBOE Goal 1, Objective B

Idaho SBOE identifies a **well-educated citizenry** as a strategic goal by increasing the educational attainment of all Idahoans through participation and retention in Idaho's educational system.

SBOE Goal 3, Objectives A and B

Idaho SBOE identifies **efficient use of educational resources** to promote effective and efficient delivery systems as a strategic goal. Objectives include demonstration of cost effectiveness and fiscal prudence, as well as engaging in data-informed decision making and continuous improvement.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

CWI Institutional Priority 1, Objectives 1, 2, 3, and 4

CWI values its students and is committed to supporting their success (in reaching their educational and/or career goals). **Student success** is College of Western Idaho's first institutional priority with the objective of improving student retention, persistence (objective 1), and degree completion (objective 2). CWI will provide support services that improve student success (objective 3). CWI will develop educational pathways and services to improve accessibility (objective 4).

Performance Measures:

SBOE: Relevant benchmarks include the percent of high school graduates who enroll in postsecondary institution within 12 months of graduation and the percent of Idahoans (ages 25-34) who have a college degree or certificate requiring one academic year or more of study.

CWI: Relevant performance measure includes improving prospect to enrolled matriculation rate to meet or exceed 20% by 2019, improving course completion rates to 80% by 2019, improving semester-to-semester persistence rates to 80% (77% for first time college students) by 2019, improving annual retention rates to 55% by 2019, and granting 750 associate degrees annually by 2019.

Advisors for Academic Programs

CWI currently employs eight (8) Advisors, two (2) Sr. Advisors, and one (1) Director to serve over 10,000 A.A. and A.S. students annually. Currently, the student-to-advisor ratio is conservatively 1000:1. For this reason, many CWI students do not receive individual advising, but are provided large group advising as part of the orientation process. Increasing the number of the advising staff by 4 FTE would result in an improved ratio of approximately 700:1 and provide students with more intentional and individual advising from the point of admission through degree completion. These additional advisor positions will allow CWI to implement a proactive and engaging advising and intervention model to address student needs, provide just-in-time intervention when support services are needed, and extended support during their academic career. A 2013 policy report titled "What matters for community college success?" suggests an student-to-advisor ratio 370:1 and further submits that "personalized guidance can allow students to gain information and decision making skills and to successfully navigate college, but community colleges often lack the resources and counselors to provide such supports. [. . .] Without adequate counseling services, students are more likely to make uninformed choices about their educational futures, are less likely to take advantage of available support services and, as a result, are arguably more likely to take longer to obtain their educational goals or stop out before completion." CWI hopes to increase advising staff over the next several years to reach a 500:1 ratio.

Park, V.; Cerven, C; Nations, J.; Nielsen, K. (2013). Policy report: What matters for community college success? Pathways to Postsecondary Success.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Alignment with Complete College Idaho's Key Strategies and Complete College America's Guided Pathways to Success (GPS) Essential Components

CCI Key Strategy

- ✓ *Strengthen the Pipeline*

GPS Essential Components

- ✓ *Intrusive, on-time advising*

Colleges can more effectively monitor student progress toward completion through a more structured student support system built around guided pathways. Innovations in technology allow student support to be targeted and customized to meet the needs of individual students. Early warning systems make it easy for institutions to track student performance in required courses and target interventions when and where they are most needed. For example, systems can automatically place a student on administrative hold and require a meeting with an advisor if a key milestone course in the student's major is not completed on schedule. Academic advisors can focus their attention almost exclusively on students most in need of services instead of spreading themselves over burdensome caseloads of all students.

<http://www.boardofed.idaho.gov/ccj.asp>

www.completecollege.org/docs/GPS_Summary_FINAL.pdf

Outcomes:

1. Improved persistence and retention rates
2. Improved degree completion
3. Achieve advising caseload ratio of 700:1
4. Implement intentional advising model so serve more individual students
5. Decline in number of students who do not meet Satisfactory Academic Progress
6. Provide greater consistency and higher accessibility to support services
7. Increase number of individual student contacts

Scalability:

This request is at scale to serve current student enrollment at CWI. CWI's advising is at base-level staffing and the advising model is currently based on a "do what you can with what you have" approach, which does not serve students as well as community college advising should. Additional personnel would allow us to scale to a model of intentional advising. Increasing CWI's advising staff by four positions will be a first step towards reaching a 500:1 goal. We can build to this over time.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Director of Education Opportunity Program

The Educational Opportunity Program (EOP) is designed provide a pathway to college success for specific student populations. The EOP is intentionally designed to improve access, retention, success, and ultimate completion of certificate and degree programs. This position will oversee the strategic direction of EOP to include the efforts of the positions listed below, tracking and analysis of data and performance measures, and programmatic assessment, as well as program expansion to include additional special populations.

Educational Opportunity Program Scalability:

CWI has identified the following populations for which it intends to develop specialized outreach and pathways to college through the Educational Opportunities Program:

- Hispanic students
- Veterans
- First Generation students
- Honors students
- Students with experiential learning (re-entering college from workplace)
- Refugees
- Prior offenders (Criminal Justice Reinvestment)
- Transfer students (to CWI from other higher ed institutions)

This request will allow CWI to take the first step towards building this outreach program.

Coordinators (2), Hispanic Pathway

CWI has chosen to focus the first EOP efforts on Hispanic students. Coordinators are responsible for the outreach to, intake of, and advising of Hispanic students on their pathway to success and college completion. Functions of these positions would include:

- Establish a connections between Hispanic students and CWI
- Enlist current CWI students to create targeted recruiting messages
- Create peer mentor model
- Work closely with communication specialist to create webpage information and to eliminate information barriers
- Create and reward leadership opportunities
- Build an outreach and advising model that addresses the entire student lifecycle, including transfer or work placement preparation
- Supervise a community of advisors who are assigned to a specific pathway

CWI serves approximately 1400 Hispanic students annually in credit programs, and over 1000 more in Basic Skills Education. CWI will create the first Hispanic Pathway Coordinator in FY16 to launch this learning community pilot. CWI aspires to become a Hispanic serving institution affiliated with Hispanic Association of Colleges and

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Universities, which requires members to serve a student population of 25% Hispanic students. These coordinator positions will be integral in expanding Hispanic outreach and support and will have a focused responsibility for recruitment and matriculation of Hispanic students into certificate and degree pathways. Additionally, these positions will help implement educational outreach to the Hispanic community to address cultural attitudes and orientations toward higher education that are specific to this population of future students and their families. These positions will also provide advising and resource guidance necessary for student success along certificate or degree pathway.

<http://cwidaho.cc/info/facts-glance>

Outcomes:

1. Increase CWI's Hispanic student population to a rate that is more reflective of our service area demographics
2. Address college readiness barriers, and provide intentional advising through students' educational experience to increase retention, persistence, and completion rates
3. Improve completion rate of Hispanic students.

Scalability:

CWI has hired its first Hispanic Pathway Coordinator. His effort will be implemented on a small scale with pilot school districts. The two additional coordinators requested here will allow CWI to scale outreach throughout Canyon and Ada counties and eventually to CWI's ten-county service area.

Data & Information Analyst

This is a position to support data collection, analysis, and reporting in support of the State of Idaho Complete College America/Complete College Idaho initiative, Voluntary Framework of Accountability (VFA), Gainful Employment, Professional Technical data collection and reporting, Integrated Postsecondary Education Data System, Statewide Longitudinal Data System, regional accreditation, and other state and federal data requirements. Internal data reporting will support data-informed decision making as college administration and the Board of Trustees make ongoing decisions about college growth and performance.

College of Western Idaho Strategic Alignment

CWI will improve student retention and persistence

- This position will be responsible for data collection and analysis in support of student retention and persistence. This includes tracking course completion rates, semester-to-semester persistence, and fall-to-fall retention. Additional duties will include support of the Community College Voluntary Framework of Accountability.

CWI will provide support services that improve student success

- The responsibility for tracking and reporting the enrollment funnel from prospect through enrollment, program completion rates, and federal reporting under the

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Integrated Postsecondary Education Data System (IPEDS) will reside with this position.

CWI will develop educational pathways and services to improve accessibility

- College prep course work, subsequent gateway course success, dual credit counts, and physical and online enrollment data tracking and analysis will be another responsibility of this position.

CWI creates and delivers educational programs and services to the community through short-term training programs which foster economic development

- This position will collect, analyze, and report data associated with Workforce Development headcounts and trends, as well as customer satisfaction information.

State Board of Education Strategic Alignment

Set policy and advocate for increasing access for individuals of all ages, abilities, and economic means to Idaho's P-20 educational system.

- This position will be responsible for collecting, analyzing, and reporting data related to demographic enrollment information and trends, and college entrant data

Increase the educational attainment of all Idahoans through participation and retention in Idaho's educational system.

- This position will be responsible for dual credit data collection, analysis, and reporting (including headcount and credits generated), subsequent post-secondary enrollment information, related college success data, and program completion/graduation information.

Improve the processes and increase the options for re-integration of adult learners into the education system.

- This position would be responsible for tracking numbers of training programs and associated enrollment data for state and federal reporting

Increased productivity and cost-effectiveness

- This position will be responsible for collecting and reporting data associated with college efficiency measures, reporting remedial education data, and academic performance information.

Increase the quality, thoroughness, and accessibility of data for informed decision-making and continuous improvement of Idaho's educational system

- This position will be responsible for completing data collection and analysis for information related to the Statewide Longitudinal Data System, and then reporting that data to the Office of the State Board of Education.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Faculty, Engineering

This program will serve degree-seeking students in the Treasure Valley. Universities in Idaho have requested that CWI implement an engineering program that would allow students to complete the first two years of study at CWI prior to transfer. This degree program will transfer to University of Idaho, Idaho State University, and Boise State University baccalaureate programs in Engineering. Department of Labor data suggests that careers in the engineering field will grow by 27% between 2011 and 2019 in Idaho. A baccalaureate degree is required for positions in engineering related fields, thus the importance of partnering with senior institutions statewide.

Alignment with Complete College Idaho's Key Strategies and Complete College America's Guided Pathways to Success (GPS) Essential Components

CCI Key Strategy

✓ *Structure for Success*

Communicate strong, clear and guaranteed statewide articulation and transfer options.

GPS Essential Components

✓ *Commitment to whole programs of study*

Students make the "big choices" of academic majors or programs — and all the other choices of necessary credits and course sequences are laid out for them. In this way, a clear path to on-time completion is prepared for them, semester by semester, all the way to graduation day.

✓ *Milestone courses (addresses intentional programmatic design)*

Degree pathways contain critical milestone courses that must be completed each semester to certify students are on track. Not only do these courses provide realistic assessments of student progress; milestones give students early signals about their prospects for success in a given field of study. This eliminates the problem of students' putting off challenging courses until the consequences of changing majors become too damaging and costly.

✓ *End-to-end design (addresses intentional programmatic design)*

GPS programs are built with the end goal in mind. Starting with the student's desired career outcome, colleges construct a sequence of relevant courses that leads students, semester by semester, to their chosen goal. Students understand from their first day on campus where their chosen pathway will take them. Aimless wandering is replaced with highly motivating and intentional routes to careers and more learning.

<http://www.boardofed.idaho.gov/cci.asp>

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

www.completecollege.org/docs/GPS_Summary_FINAL.pdf

Outcomes:

1. Intentionally designed and fully articulated degree program in Engineering (including 2+2 agreements with university partners).
2. Increase in the number of majors and graduates in this program
3. Increase in the number of transfer students to related four-year programs.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Nine (9) full-time positions are being requested.

- a. Four (4) Advisors to build towards a manageable student-to-advisor ratio with the goal of improving retention and completion rates. No institutional funding currently exists for these positions.
 - b. One (1) Director, Educational Opportunities Program to establish a department dedicated to outreach to special student populations. The Educational Opportunities Program will scale over the next several years to serve CWI's ten county region. No institutional funding currently exists for this position.
 - c. Two (2) Coordinators, Hispanic Pathway to recruit Hispanic students to CWI with the goal of reaching student enrollment that reflects the demographics of the college's service area. CWI currently employs one Hispanic Pathway Coordinator. No institutional funding currently exists for additional positions identified in this request.
 - d. One (1) Data & Information Analyst to support institutional research/institutional effectiveness functions. This would be a third position in addition to two current full-time filled positions. No institutional funding currently exists for the position identified in this request.
 - e. One (1) Faculty, Engineering to lead the development of an Associate of Science in Engineering. CWI does not currently have full-time faculty expertise in this discipline. No institutional funding currently exists for this position.
-
2. What resources are necessary to implement this request?
 - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

4.0 FTE Advisors, Academic Programs; \$33,000; FT; benefits \$18,200; July 1, 2016; 12 month permanent position (total for four positions: \$204,800)

1.0 FTE Director, Educational Opportunities Program; \$59,000; FT; benefits \$23,600; July 1, 2016; 12 month permanent position (total: \$82,600)

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

2.0 FTE Coordinators, Hispanic Pathway; \$38,000; FT; benefits \$19,300; July 1, 2016; 12 month permanent position (total for two positions: \$114,600)

1.0 FTE Data & Information Analyst; \$45,000; FT; benefits \$20,700; July 1, 2016, 12 month permanent position (total \$65,700)

1.0 FTE Faculty, Engineering; \$47,000; FT; benefits \$21,200; August 1, 2016; 9 month permanent position (total \$68,200)

b. List any additional operating funds and capital items needed.

- i. Advisors: \$3,000 in ongoing operating expense is requested to fund professional development. Due to CWI's distributed campus model and outreach efforts, \$1,000 in travel expense is requested to cover ongoing mileage costs. Total: \$16,000.
- ii. Director EOP: \$3,000 in ongoing operating expense is requested to fund professional development. Due to CWI's distributed campus model and outreach efforts, \$1,200 in travel expense is requested to cover ongoing mileage costs. Total: \$4,200.
- iii. Coordinators, Hispanic Pathway: \$3,000 in ongoing operating expense is requested to fund professional development. Due to CWI's distributed campus model and outreach efforts, \$1,200 in travel expense is requested to cover ongoing mileage costs. Total: \$8,400.
- iv. Data & Information Analyst: \$3,000 in ongoing operating funds is requested for basic office needs (e.g. copying, supplies) and training expenses, as well as \$3,000 in ongoing travel expense. Total \$6,000

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

These positions will serve current and future CWI students. This request reflects the college's efforts related to improving retention and completion rates, which will have a positive impact on revenue.

Currently, students seeking an Engineering degree must declare Liberal Arts as a major at CWI which does not provide a clear transfer degree pathway to four-year programs. As a result, CWI has difficulty retaining these students through associate degree completion. Recruitment will provide a new customer base, but CWI will also be able to retain and complete more students by offering a clearly defined pathway for new and current students.

All positions in this request, including operating expense, are ongoing. No changes will be made to fee structure; no grant awards are currently being sought for these positions.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- a. Advisors: These positions will serve current and future CWI students and addresses the college's efforts related to retention and completion. If this request is not funded, CWI will continue to create efficiencies in current processes with the staffing the college has available. We feel our current staffing model does not allow us to make a significant positive impact on student support beyond initial intake.
- b. Director, EOP and Coordinator, Hispanic Pathway: These positions are designed to provide specialize support for assisting specific populations of students; specific to this request is an emphasis on Hispanic student. Expected impact is an increase in Hispanic student enrollment, higher retention, and a higher rate of completion year-over-year. CWI has recently hired one full-time coordinator to launch Hispanic outreach in FY16, after which CWI hopes to scale this project for higher impact and broader outreach with additional staffing. If this request is not funded, CWI will delay the implementation of an Educational Opportunities Program and maintain the "one size fits all" approach to recruitment utilizing current staff. The current Hispanic Pathway Coordinator will continue to focus on limited school districts, but would not be capable of expansion throughout CWI's service area.
- c. Data & Information Analyst: This position would serve the campus community (internal customers) as well as state and federal agencies (e.g. State Board of Education, Division of Professional Technical Education, US Department of Education) through data collection, analysis, and reporting. Given the scope of current and future data requests, not filling this position causes potential delays and/or missed deadlines of time-critical state and federal reporting requirements.
- d. Faculty, Engineering: Future students seeking Associate of Science in Engineering are being served by this request. Baccalaureate programs at Idaho four-year institutions are also being served by this request. If the request is not funded, CWI will rely on internal funding for new full-time faculty positions which will impact the timeline of these degree offerings. CWI has not funded new full-time faculty positions in Academic Affairs for the past two years.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Goal I: A WELL EDUCATED CITIZENRY – Continuously improve access to medical education for individuals of all backgrounds, ages, abilities and economic means.

Objective A: Access – (SBOE) Set policy and advocate for increasing access; (WWAMI) recruit a strong medical student applicant pool for Idaho.

- *Performance Measure: the number of Idaho WWAMI medical school applicants per year, the number of funded medical student positions per year, and the ratio of Idaho applicants per funded medical student position.*

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Objective B: Transition to Workforce – Maintain a high rate of return for Idaho WWAMI graduate physicians who choose to practice medicine in Idaho.

- *Performance Measure: Cumulative Idaho WWAMI return rate for graduates who practice medicine in Idaho.*

GOAL 3. EFFECTIVE AND EFFICIENT DELIVERY SYSTEMS – Deliver medical education, training, research, and service in a manner which makes efficient use of resources and contributes to the successful completion of our medical education goals for Idaho.

Objective A: Increase medical student early interest in rural and primary care practice in Idaho.

- *Performance measure: the number of WWAMI rural summer training placements in Idaho each year.*

Objective B: Increase medical student participation in Idaho clinical rotations (clerkships) as a part of their medical education.

- *Performance measure: the number of WWAMI medical students completing clerkships in Idaho each year.*

Objective C: Support and maintain interest in primary care medicine for medical career choice.

- *Performance measure: Percent of Idaho WWAMI graduates choosing primary care specialties for residency training each year.*

Description:

This new program request is for five (5) additional positions for medical students in the Idaho WWAMI program, beginning in FY17. With the transition of twenty WSU-based WWAMI students to Spokane in FY15, the Idaho WWAMI program has capacity for additional students; additionally, because of curriculum renewal, the University of Washington School of Medicine has increased capacity for the total number of medical students. Therefore, in an effort to increase the opportunity of the sons and daughters of Idaho citizens to attend a prestigious, highly ranked medical school and to potentially increase the number of physicians providing medical services in the state of Idaho in a timely manner, this request is to increase the incoming class of WWAMI students in the fall of 2016 to a total of forty (40).

To accomplish these goals and objectives, the Idaho WWAMI program needs to be authorized and funded to admit five additional students (new entering class total of 40 Idaho WWAMI students, fall 2016). This funding would come from general appropriations

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

and dedicated funds derived from WWAMI tuition received by the University of Idaho. Specifically, new program costs are provided on page 1 of this request and would include:

1. A request to add one and a half (1.5) FTEs for faculty positions to implement curriculum renewal. This would take the form of one 0.50 FTE appointment (College Head) plus four 0.25 FTE appointments (College Faculty); 1.0 FTE would be funded from state general funds and 0.5 FTE would be derived from dedicated funds.
2. Operating expenses for educating the five additional medical students, including anatomy supplies and equipment, study resources, clinical instruction, and other program costs.

The FTE increase is requested to implement the instruction of additional subject areas of the renewed curriculum. In addition to personnel requirements, an expansion in medical student enrollment would require a modest increase in operating expenses for teaching these additional students.

This request for increased WWAMI medical student positions would be an ongoing request. It requires a commitment to not only increased funding and medical students in year 1 (FY16), but also ongoing commitments in years 2, 3, and 4 of medical school, with proportional costs in each of those years, as students move successfully through medical school toward graduation. Idaho WWAMI is currently at 35 students per year, or 140 total students in medical school. This request requires the addition of 5 students in the entering classes of FY17, FY18, FY19, and FY20 or 40 students per year, for a total of 160 Idaho WWAMI students enrolled in medical school by FY20 (Fall 2019). This initial request is relatively small. The ongoing commitment to medical education, growing the Idaho WWAMI total medical school enrollment from 140 to 160 students, is necessary for the future of Idaho communities.

This request also supports the recommendations of the State Board of Education's Medical Education Subcommittee from January, 2009; specifically, recommendations #2 (increased WWAMI students), #5 (admissions selection for rural and primary care interests), and #6 (insuring rural training rotations in Idaho as a part of students' program).

Objective D: Transition – Improve the ability of the educational system to meet educational needs and allow students to efficiently and effectively transition into the workforce.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Description:

This request is for two (2) additional positions for medical students in the University of Utah School of Medicine (UUSOM) program, beginning in FY17. This request would increase the incoming class of UUSOM students in the fall of 2016 to a total of ten (10).

This request supports the recommendations of the State Board of Education's Medical Education Subcommittee from January, 2009. Specifically, recommendation #3: "Expand the total number of medical seats for Idaho sponsored students to between 60 to 90 per year (an aggregate total of 240 to 360) as soon as practicable through partnerships with WWAMI, WICHE, University of Utah, osteopathic schools and other medical schools."

The last time Idaho UUSOM seats were expanded was in FY2002, with an increase from 6 to 8 seats per year.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

This is a request for two additional UUSOM seats in the amount of \$83,000 in Trustee & Benefits. It would require a commitment to not only increased funding and medical students in year one (FY17), but also ongoing commitments in years 2, 3, and 4 of medical school, with proportional costs in each of those years, as students move successfully through medical school toward graduation.

Idaho's cooperative agreement with UUSOM is currently at 8 students per year or 32 total medical school students. FY16 base funding is \$1,356,000 (fund source is 100% General Funds). This request would add two students in the entering classes of FY17, FY18, FY19, and FY20 or 10 students per year, for a total of 40 Idaho UUSOM students enrolled in medical school by FY20 (Fall 2019).

This initial request is relatively small. The ongoing commitment to medical education, growing the Idaho WWAMI total medical school enrollment from 32 to 40 students, is necessary for the future of Idaho communities.

2. What resources are necessary to implement this request?
 - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
No FTE are associated with this budget.
 - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
None.
 - c. List any additional operating funds and capital items needed.
None.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This request would require ongoing General Funds.

Each year the contract price for all UUSOM seats increases by an amount which is equal to the increase in the Higher Education Cost Adjustment (HECA) index published for the most recently available preceding academic year.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

All Idahoans would benefit from increasing the state's physician workforce. Consider the following statistics

Per 100k population, Idaho currently ranks:

- 47th in nation for active primary care physicians
- 49th in nation for total active physicians

Source: *AAMC 2013 State Physician Workforce Data Book*

Idaho has an aging physician workforce

- 24.6% of Idaho physicians are over age 60

96% of Idaho is a federally designated Health Professional Shortage Area for primary care.

In addition, the return on investment in terms of the economic impact of physicians in Idaho is significant:

Table 1: Total Output, Jobs, Wages & Benefits, and State and Local Taxes Supported by Physicians in Idaho, 2012

Economic Measure	Total	Per Physician
Number of Physicians	2,708	-
Output	\$3.6 billion	\$1,317,291
Jobs	27,095	10.01
Wages & Benefits	\$2,086.6 million	\$770,524
State and Local Taxes	\$132.7 million	\$48,997

Source: *The Economic Impact of Physicians in Idaho, State Report March 2014*
<http://www.idmed.org/IDAHO/images/idahodocuments/Home%20Page/IDEconImpactStudy.pdf>

Another way to look at ROI is to consider how many UUSOM graduates are practicing in Idaho. As of November 2014, the UUSOM Alumni Office reported the following estimated numbers for graduates practicing medicine in Idaho:

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Estimated Idaho Sponsored Students (1953-2014)	267
Medical School Graduates practicing in Idaho	207
Resident Graduates practicing in Idaho	54
Total	<hr/> 261

The national average for active physicians who graduated from an in-state public medical school and are practicing in-state is 46.8%.* Given that Idaho has sponsored a total of approximately 267 students at UUSOM since the inception of the contract in 1953, the fact that there are 261 UUSOM graduates currently practicing in Idaho shows that Idaho is clearly a net importer of UUSOM trained physicians.

* Source: *AAMC 2013 State Physician Workforce Data Book*

If this request is not funded, Idaho will increasingly rely upon the WWAMI program to meet the need for more physicians.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Goal 1, Objective D: Improve the ability of the educational system to meet educational needs and allow efficient and effective transition into the workforce.

Expanding graduate medical education (GME/residency) training in Idaho has been identified as an educational and funding priority in the State of Idaho: the state-funded MGT Medical Education Study (11/1/07), the Idaho Medical Association (8/10/08, 8/1/13), the Legislative Medical Education Interim Committee (11/12/08, 8/1/13), and the State Board of Education (1/26/09). The State Board of Education rank ordered ten recommendations towards expansion of medical education (1/26/09). The first of these recommendations was to “expand the development of graduate medical education (residency programs) opportunities in the State of Idaho focusing on primary care and rural practice.”

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Description:

Kootenai Health Family Medicine Coeur d'Alene Residency (KFMR) will be in the continued startup phase of our Family Medicine Residency program, in the 3rd year operations for FY 2017. The program started-up in July 2014, with 6 R1 first year residents, followed by another 6 R1 first years residents in July 2015. Next year a final six residents will be added to attain the full complement of 6 R1's, 6 R2's and 6 R3's totaling 18 residents, each to complete the full three years residency training program.

The focus of this program is to train rural family physicians for Idaho. Kootenai Health, a community owned and operated health care entity has invested significant resources into this project of developing a family medicine residency program. Kootenai Health is requesting additional support funds, through the Idaho State Board of Education, from the Idaho Legislature.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The need stated is based upon the additional costs which we will encounter related to training our residents in urban and in rural settings, preparing them to be fully functioning family physicians.

Residents must be sent to Spokane for more intense pediatric training at Providence Sacred Heart Children's Hospital, due to fact that regionally the more severely ill and injured children are transferred there for the more intense treatment needed. Specific costs encountered relate to the loss of federal Graduate Medical Education support dollars and to revenues lost, in their absence from our clinic patient care operations. Each resident will spend a total of 12 weeks in Spokane.

In addition, residents are sent to rural communities in North Idaho. Specific costs related to that experience include travel, place of residence in that community for 4 week blocks, and to specific revenues lost in our clinic patient care operations, in the absence of that resident.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

N/A

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

N/A

- c. List any additional operating funds and capital items needed.

N/A

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

Projected expenses and revenues for FY 2017

- *Kootenai Health ongoing annual investment:* *TBD by August Board meeting*
- *Federal Revenues:* *TBD by August Board meeting*
- *Family Medicine Center clinical revenues:* *TBD by August Board meeting*
- *State Appropriation (FY16):* *\$380,000 (ongoing)*
- *State Appropriations Request (FY17):* *\$180,000 (ongoing)*

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

KMFR is specifically targeting the primary care physician shortage which exists in North Idaho and secondarily targeting the fact the State of Idaho is experiencing a significant physician manpower shortage, which will definitely become more acute over the next 5 to 10 years. The State of Idaho currently ranks number 49/50 in the state's number of physicians per capita. It is projected that within 5 to 7 years, approximately 20 of the present 30 family physicians in the Kootenai County region will retire. In the state of Idaho it is projected that approximately 50% of the currently practicing family physicians will retire within the next 7 to 10 years. National research projects a 60,000 family physician shortage in the United States by the year 2020.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

N/A

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

GRAND TOTAL	87,000				87,000

Supports institution/agency and Board strategic plans:

Goal 1, Objective A. One objective of FUR is to provide unbiased data and analysis to natural resource industries statewide through the Policy Analysis Group. The College of Natural Resources has provided analysis for more than 20 years and has proven the worthiness of this resource. But there has been no capacity for economic study nor primary data collection. This was partially rectified in FY16 with creation of and funding for an economist. To further improve PAG's effectiveness, human capital is needed to support the economist with primary data collection and analysis, allowing for PAG to provide the best service possible. By funding a Research Scientist who is tasked with data collection and analysis, disciplinary and interdisciplinary scholarship will be improved—faculty and students will have more resources and more research can be done by leveraging FUR dollars to access non-FUR dollars. Stakeholder engagement will

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

increase both through research opportunities and tech transfer. Data from research, whether institutional or collaborative, will aid natural resource agencies and industries statewide as management decision are made.

Performance Measure: This will be measurable over time as more current and relevant data collection and analysis improves best management practices and increases natural resource's economic impact on the state. It is also measurable by an increase in non-FUR dollars acquired through leveraging FUR dollars.

Goal 1, Objective B: As a land-grant university, our mission includes providing relevant scholarly activity to the people of the state. In the College, that scholarly activity includes relevant analysis of data as it relates to natural resources. The College does not currently have the capacity to track economic activity and collect economic data in a comprehensive way. With the funding of an economist in FY16, the Policy Analysis Group has the ability to provide better economic information to researchers, stakeholders, legislators and the citizens of the state. Building capacity to provide the economist and other PAG staff with current and meaningful data will improve timeliness and relevancy of this information.

Performance Measure: This is measurable by the number of projects and total research dollars of the College in the period following this request. It is also measured by the number of data collection and analysis requests answered by PAG.

Goal 2, Objective A: PAG provides policy reports to a variety of entities, including the university, private industry and state government. By having a base of relevant economic data, PAG will be a greater resource for scholarly activity across the campus, industry and its related organizations such as the Idaho Forest Products Commission and the Idaho Range Commission, and state government. Stakeholders would benefit from ready access to data and analysis specific to items of high economic interest, including forest management, rangeland, Sage-grouse, wildfires and biofuels. The College can increase its already extensive involvement in all of these natural resource areas by having a Research Scientist in place.

Performance Measure: Stakeholder engagement, requests for data and analysis, volume of workshops and other structured outreach efforts will be the measure.

Goal 3, Objective A: By growing the research capacity and outreach potential of PAG, more opportunities will emerge to leverage FUR dollars for research. Student engagement, opportunities for undergraduate and graduate research and engagement with stakeholders will increase. Research on topics related to wildfire, forest management, rangeland, Sage-grouse, biofuels, oil and natural gas, and other natural resources will impact the economic stability and potential growth of Idaho.

Performance Measure: This is measured by the number of students involved in FUR-based or FUR-leveraged research and the subsequent industry and stakeholder engagement that comes from research partners.

Description:

Advancing natural resource economics research at the University of Idaho by investing in human resources.

Idaho's natural resources provide a wide variety of goods and services including timber, livestock forage, wildlife habitat, water resources, recreation opportunities, open space, as well as ecosystem services such as water purification and carbon sequestration. Forests and rangelands are vital to Idaho's economy, and the ability to serve current and future generations will be influenced by our understanding of and accounting for the contribution of forests and rangelands to our economy. FUR provides research, policy study and teaching beyond the scope of the college's traditional budget. PAG is one element of FUR, and is a state-mandated obligation of the College of Natural Resources. For more than 20 years PAG has provided policy reports to others at the university, stakeholders, industry, agencies and government. While policy papers have proven beneficial, there is no capacity to fully develop this service to include economic tracking and analysis. FY16 brought partial remedy of this shortcoming with funding for an economist. This service can be further enhanced with capacity to collect primary data and analyze natural resource economic value across the state. To date, the PAG's economic analyses have relied on secondary data sources that are typically older than desired. This research scientist position will provide the human capital necessary to systematically track the economic impact of natural resources to Idaho's economy in real time. It is vital to agencies and industries to have reliable estimates of the economic impact of wildfire, timber harvesting, grazing and water yield so they can plan their management and investment activities.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The College of Natural Resources is requesting \$87,000 in the Forest Utilization Research (FUR) budget to provide salary support, plus travel, operations, and capital equipment, for a new research scientist to enhance research capacity and document the importance of natural resources-based enterprises in Idaho's economy. These resources will enhance the capability of FUR programs to work with stakeholders and leverage additional funds from other non-state sources, both of which help strengthen traditional Idaho industries and rural communities that rely on the jobs from timber harvesting, grazing domestic livestock, and natural resource-based recreation industries. There is currently no capacity for this position.

2. What resources are necessary to implement this request?

a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

The College of Natural Resources is requesting funds sufficient to salary and benefits support for a new research scientist.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

There will not be redirection.

- c. List any additional operating funds and capital items needed.**

The request includes \$3,000 for travel, \$2,000 for operating expenses, and \$3,000 for capital equipment used to process data.

- 3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).**

Not applicable.

- 4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

The new Research Scientist will directly serve professional managers and state and private owners of Idaho forest and rangelands. Rural communities and outdoor recreation stakeholders in Idaho will benefit from understanding how economic enterprises generate income (payroll) and taxes and how economic activity will benefit rural communities, both directly (payroll and taxes) and indirectly (support roads, schools, and medical care). The position will also strengthen leverage for non-FUR dollars, benefitting faculty and students.

- 5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.**

This is our highest priority and is developed from a half-time analyst request not approved last year. It is complementary to FY16's highest priority, an economist, which was approved.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

**BUSINESS AFFAIRS AND HUMAN RESOURCES

ACTIVITY: Strategic Initiatives

Activity No.:

FUR- Sage-grouse habitat research and outreach initiative					
A: Decision Unit No: 12.02		Title: and outreach initiative		Priority Ranking 2 of 3	
DESCRIPTION	General	Dedicated	Federal	Other	Total
FULL TIME POSITIONS (FTP)	1.00				1.00
PERSONNEL COSTS:					
1. Salaries	34,300				34,300
2. Benefits	18,200				18,200
3. Group Position Funding					
TOTAL PERSONNEL COSTS:	52,500				52,500
OPERATING EXPENDITURES by summary object:					
1. Operating	30,000				30,000
TOTAL OPERATING EXPENDITURES:	30,000				30,000
CAPITAL OUTLAY by summary object:					
TOTAL CAPITAL OUTLAY:					
T/B PAYMENTS:					
LUMP SUM:					
GRAND TOTAL	82,500				82,500

Supports institution/agency and Board strategic plans:

Goal 1, Objective A. Scholarly activity and constituent engagement are both necessary as the state continues to deal with sage-grouse habitat issues, especially those related directly to grazing. This funding would provide first for faculty and student involvement in field research of grazing impacts on sage-grouse habitat. Secondly, those faculty and students would engage with stakeholders through workshops and education and community engagement to help landowners and rural communities understand options related to conserving sage-grouse habitat.

Performance Measure: This is measurable by an increase in non-FUR dollars acquired through leveraging FUR dollars. This is also measureable by number of workshops and

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

community, industry and agency people directly impacted by education and outreach efforts.

Goal 1, Objective B: Engaging communities and statewide stakeholders in range and grazing issues is already an educational component of the Rangeland Center, funded by FUR. This further extension of that effort would engage undergraduate rangeland students in addressing stakeholder needs, giving real-world experience to our academic programming.

Performance Measure: This is measureable by the number of students engaged specifically in sage-grouse research, internships, education and outreach initiatives.

Goal 2, Objective A: Engagement with state agencies and private landowners is imperative to properly address and manage sage-grouse habitat related to rangeland management and grazing. Partnerships have already been established through the Rangeland Center, but enhancement of these, outreach to new stakeholders and specific partnerships relating specifically to the topic will provide the best results for management of our natural resources while considering economic impact.

Performance Measure: Stakeholder engagement, number of workshops and other structured outreach efforts will be the measure.

Goal 3, Objective A: The Rangeland Center is poised for education and outreach to landowners across the state. Its placement with the College of Natural Resources provides a natural link for integrated activities between the Center, landowners and students. This funding would enhance those relationships and provide for students to be involved directly with industry.

Performance Measure: This is measured by the number of students involved in FUR-based or FUR-leveraged research and the subsequent industry and stakeholder engagement that comes from research partners.

Description:

Advancing natural resource economics research at the University of Idaho by investing in human resources.

Sage-grouse could be the biggest influencer of rangeland and grazing management in the next decade. Understanding the relationships between grazing and sage-grouse habitat is vital as management decisions are made. This funding would provide dollars for research, outreach and education that will be leveraged to acquire non-FUR research dollars to study this important economic and environmental issue. This funding would also provide for a person, a communications and outreach assistant, to work directly on community and stakeholder communication, develop relevant written and web materials, video, organize workshops and educational opportunities as they directly relate to sage-grouse and grazing.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Questions:

- 1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

The College of Natural Resources is requesting \$82,500 in the Forest Utilization Research (FUR) budget to provide salary support, benefits and operating expenses (including base research dollars) for research, outreach and communication of Sage-grouse habitat issues, especially those related directly to rangeland grazing and having a direct impact on the economic stability of Idaho's natural resource and agricultural industries.

- 2. What resources are necessary to implement this request?**

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**

The College of Natural Resources is requesting funds sufficient to salary and benefits support a full time communications assistant, pay grade 5.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

This position will be under the management of the college's Marketing and Communications Manager, thus providing management assets as well as technical assistance in developing materials and messaging.

- c. List any additional operating funds and capital items needed.**

This request asks for \$30,000 as base research funding, to be leveraged, as well as basic funding for development of outreach assets, including handouts, educational materials and videos.

- 3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).**

Not applicable.

- 4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?**

This request is directly impact the rangeland owners of the state. Faculty and students are also primary beneficiaries. Secondarily, all Idaho citizens will be affected by economic factors influenced by Sage-grouse habitat management decisions. If not funded, the College of Natural Resources will not have the capacity to engage stakeholders and conduct research at the level necessary to properly mitigate community and landowner concern and decision making with relevant research.

- 5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.**

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

This is our second priority, positioned under an unfunded request from FY16. This is a new position to address current economic and natural resource management issues in the state.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

GRAND TOTAL	\$88,500				\$88,500

Supports institution/agency and Board strategic plans:

Goals of FUR include teaching and learning. The University of Idaho Experimental Forest is a classroom and workplace for the students in the College of Natural Resources. Here they get hands-on field experience learning and working in forestry as part of their undergraduate education. Providing industry-quality machinery is necessary to properly prepare students for employment. The request for a CAT 305.5 compact excavator with a brushing and stumping / reforestation head attachments provides three important functions for student forestry work:

1. **Reforestation** Clearing brush to successfully regenerate stands and difficult sites in the Forest Regeneration and Silviculture classes, and for research to improve reforestation.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

2. **Fire:** Piling slash and digging fireline for the FOR 427 Prescribed Burning Lab class, wildland fire research, and fire suppression on the UI-CNR Experimental Forest.

3. **Best Management Practices:** Improving roads, replacing culverts, and developing new Best Management Practices to protect water quality in forestry activities on the UI-CNR Experimental Forest.

Description:

The University of Idaho Experimental Forest has one tractor with a backhoe mounted, but it is no longer safe nor usable. The excavator used on the University of Idaho Experimental Forest is subcontracted, as are many other activities that require heavy machinery. To best serve our students and researchers and to manage the forest, it is most effective to build our own inventory of heavy machinery. Teaching current management techniques and logging systems require modern machinery on site. This hands-on education will help train professionals who will contribute to Idaho's forest products economy.

Questions:

1. **What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?**

The College of Natural Resources is requesting a one-time capital outlay of \$88,500 for equipment to aid in relevant and employable training, scholarly activity and on-site sustainability practices.

2. **What resources are necessary to implement this request?**

- a. **List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.**

None

- b. **Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.**

N/A

- c. **List any additional operating funds and capital items needed.**

The request is for capital equipment in the form of an excavator.

3. **Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General**

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

N/A

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Students and faculty of CNR directly benefit from this funding through the use of industry-standard equipment for the best training in proper reforestation techniques, site prep and road building and water quality management. Scholarly activity will be enhanced through use of industry-standard equipment. That activity, in turn, benefits the natural resource industry statewide through scientific discovery and tech transfer and applied forest management skills.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This is priority three of three.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

This *GeoHazard Research Program* supports **Goal 1** of the IGS Strategic Plan:

OUTREACH AND ENGAGEMENT (SERVICE)

1) Achieve excellence in collecting and disseminating geologic information and mineral data to the mining, energy, agriculture, utility, construction, insurance, and financial sectors, educational institutions, civic and professional organizations, elected officials, governmental agencies, and the public. Continue to strive for increased efficiency and access to Survey information primarily through publications, Web site products, in-house collections and customer inquiries. Emphasize Web site delivery of digital products and

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

*compliance with new revision of state documents requirements (Idaho Code 33-2505).
Maintain concentrated effort to collect and preserve valuable geologic data at risk.*

Objective A: Produce and effectively deliver relevant geologic information to meet societal priorities and requirements.

Performance Measure: Number of published reports on geology/hydrogeology/**geologic hazards**/mineral and energy resources.

Objective B: Build and deliver Web site products and develop user apps and search engines.

Performance Measure: Number of IGS web site viewers and products used/downloaded.

Description:

The Idaho Geological Survey (IGS) is requesting a total of \$128,175 (\$96,675 in recurring funds and 31,500 in one time funds) to recruit, hire, and provide key equipment for a Geologic Hazards Geologist. Landslides and earthquakes are a serious geologic hazard common to many states in the United States causing loss of life and significant damage to property each year. Landslides alone cause \$3.5 billion in property damage and kill 25 to 50 people each year in the United States, according to Geology.com. The Geologic Hazard Geologist will update, maintain, and provide to the public an inventory of geologic hazards in Idaho allowing business, governmental officials, and the public to more effectively understand and manage the risk associated with earthquakes and landslides. Details of this request are provided below.

The Idaho Geological Survey is the lead state agency charged with collecting, interpreting and disseminating geologic information and mineral resource data for Idaho. The Survey accomplishes its mission through research, service, and outreach activities, with an emphasis on the practical application of geology to benefit Idaho and economic development within the state.

The state of Idaho needs a sustained geohazards program to properly assess and monitor landslides and earthquake hazards in the state and make this information widely known. The 2014 Oso landslide in western Washington resulted in the loss of 43 people, the destruction of 49 homes and dammed a local river that resulted in widespread flooding and highway closures. Idaho shares similar geology and topography as western Washington and thousands of landslides are known to exist in Idaho. Idaho's existing landslide inventory has not been re-assessed or systematically evaluated in the last 24 years. New and recently discovered landslides should be properly inventoried and assigned a risk assessment value which could help reduce the loss of human life and help preserve the state's infrastructure.

We propose a one-time capital outlay of \$31,500 to acquire a workstation with complete statewide coverage of air photos from the National Agriculture Imagery Program. This

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

approach permits a fairly rapid methodology to remotely identify landslides throughout the state and to provide recommendations for more detailed ground-based mapping projects that will lead to a comprehensive risk assessment of these hazards.

Landslides can be triggered by earthquakes resulting in a potential complex emergency management scenario due to the overlapping effects of both geologic hazards in the same general vicinity. For example, landslides triggered by an earthquake can move very quickly downslope and cause havoc to residents and infrastructure at the toe of the slope; whereas, an earthquake during the same event could potentially rupture natural gas transmission lines that result in multiple fires, topple electrical transmission towers, and cause significant structural damage to homes and buildings.

Idaho has several active fault systems which require ongoing seismic monitoring, continued maintenance and upgrade of seismic stations and routine analysis and earthquake risk assessments. Idaho lags behind other western states in performing detailed seismic analysis and earthquake risk assessments and lacks a state-funded seismic monitoring program. As a result, seismic monitoring in Idaho is not conducted with the same level of precision and accuracy as in surrounding states. Seismic monitoring and concurrent analysis has the potential to detect small earthquakes that may hold important clues about the nature and timing of potential larger events.

Geologic evidence shows that movement on faults in Idaho can potentially generate earthquakes with magnitudes as great as 7.5 with potentially catastrophic effects. The Challis area experienced a 4.9 Richter scale earthquake in January 2015 resulting in damage to home foundations and local rock falls were reported that blocked county roads and highways. This same fault structure trends southward toward Mackay and was responsible for the 1983 Borah Peak earthquake that registered 6.9 Richter scale and resulted in the deaths of two children in Challis due to falling masonry from buildings. Other regions in Idaho are also seismically active and warrant sustained monitoring, geologic risk assessment and public outreach to educate the citizens about these potential hazards.

The IGS presently lacks sufficient staff to conduct a sustained, state-wide geohazards program that focuses on landslides and earthquake hazards without jeopardizing existing geologic mapping efforts. The IGS is already obligated to conduct geologic mapping for the US Geological Survey in four regions of the state and also has mapping contracts with the Idaho Transportation Department and industry partners to help identify important economic resources of natural gas, liquid condensates and mineral resources.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

This request seeks funding for one permanent (new FTE) geologist position dedicated to landslide inventory and risk assessment, seismic monitoring and earthquake research. IGS appropriations were drastically reduced in FY10 and staffing levels for

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

essential programs have been cut to below adequate levels for providing necessary services to the public and state government. The agency presently has only one geologist with expertise in geohazards related research such as landslides and earthquakes. This state-supported geologist is heavily involved in externally funded geologic mapping efforts in southeast and southwest Idaho, all of which are critical to fulfilling the IGS mandate. While we recognize sustained geohazard monitoring and risk assessments are both a public safety issue and a necessity to assist with the protection of the State's infrastructure, it is impossible to do so without additional staff.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Full-time state funding for a Senior Geologist (Geohazards) position at a salary of \$65,000. With anticipated approval of this request, we anticipate hiring a permanent, full-time, benefit-eligible Geohazards Geologist by August 2016.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Research Geologist, a current IGS employee whose salary is covered by state funds, will reduce his geologic mapping effort to devote 5 weeks/year to landslide and seismic and earthquake related responsibilities.

GIS Analyst and Data Manager, a current IGS employee whose salary is partially covered by state funds, will reduce his GIS management effort to devote 5 weeks/year to landslide and seismic monitoring, analysis and web delivery of pertinent information.

- c. List any additional operating funds and capital items needed.

- PC and geohazards software for the new Geohazards Geologist
- High-precision 3D photogrammetry workstation and state-wide digital, aerial images from existing National Agricultural Inspection Program (NAIP)
- Travel expenses in support of field work and outreach/education activities.
- Software and hardware upgrades and maintenance for photogrammetry and seismic monitoring workstation

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

Personnel costs and travel are ongoing. Capital outlay is one time.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded, who and what are impacted?

Idaho's infrastructure, particularly roads, railroads, and water canals, are susceptible to expensive landslide damage. Both landslides and earthquakes also have the potential for catastrophic losses that could result in the deaths of Idaho's

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

citizens, potential isolation of communities whereby ingress and egress is restricted, damaged homes, and disruption of vital economic activities. Landslide risk in Idaho is increasing because of greater incidence of wildfires and relocation of human population centers and infrastructure to landslide-prone landscapes. Earthquake hazards are impossible to predict, but high precision monitoring and analysis of micro-seismic events can assist with the identification of active fault systems in the state. Precise locations of micro-seismic events that occur along the length of a fault plane are commonly used as an important measure of the potential magnitude of maximum failure on a given fault. Public awareness of micro-seismic activity and education about earthquake preparedness is an important responsibility the State has to its citizens.

Reduction of risks from both landslides and earthquake hazards begins with a comprehensive inventory of landslides and active fault systems in the state. The last statewide inventory of landslides was completed by the IGS in 1991 and it is out-of-date and lacks sufficient detail to assist with the protection of human life and infrastructure. The existing seismic network in Idaho is sparse and largely captures information associated with large events. Existing seismic monitoring of Idaho fault systems is largely done by a collaboration of neighboring states, the Idaho National Laboratory (INL) and the U.S. Geological Survey. More seismic monitoring stations are needed in strategic areas of Idaho to accurately record micro-seismic events that are too small to be felt by humans. These events are often an important indicator to document active fault systems at depth and these features could potentially pose a serious threat to the citizens of the state.

Beneficiaries of landslide and seismic monitoring and research will include county and municipal governments, state agencies (Idaho Bureau of Homeland Security, Idaho Transportation Department, The Idaho Department of Lands), and the public at large.

Impacts if funding not provided

The deadly Oso, Washington landslide disaster of March 22, 2014 underscored the need for accurate, up-to-date landslide inventories that are easily accessed and understood by the public and local jurisdictions. Sustained action over a period of years that reduces or eliminates the risk of landslide losses is needed and cost effective. As noted by the Idaho Bureau of Homeland Security “For every \$1 spent [on mitigation], \$4 in losses is prevented.....”

The existing seismic network in Idaho is sparsely distributed throughout the state and does not provide adequate statewide coverage to monitor micro-seismicity on all active fault systems. Idaho is one of few western states that do not employ a full-time dedicated person in state government devoted to the research, monitoring, analysis, risk assessment and data delivery of information from the State’s seismic network. The state currently relies on dissemination of seismic hazard information and earthquakes from the US Geological Survey, the Idaho

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

National Laboratory and a consortium of surrounding state agencies. Idaho citizens and the State's infrastructure are vulnerable by not having adequate coverage of seismic monitoring stations and a thorough and ongoing analysis of earthquake hazards.

Routine dissemination and interpretation of seismic information and public outreach and education about earthquake prone areas in the state could be improved immensely with a full-time geoscientist. This approach will permit our state's representatives to access good scientific data and recommendations so that sound public policy and safe guards can be implemented.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This request was submitted and not funded for FY 2016 and remains the highest priority request for IGS.

Supports institution/agency and Board strategic plans:

This GIS Analyst Position supports **Goal 1** of the IGS Strategic Plan:

OUTREACH AND ENGAGEMENT (SERVICE)

1) Achieve excellence in collecting and disseminating geologic information and mineral data to the mining, energy, agriculture, utility, construction, insurance, and financial sectors, educational institutions, civic and professional organizations, elected officials, governmental agencies, and the public. Continue to strive for increased efficiency and access to Survey information primarily through publications, Web site products, in-house collections and customer inquiries. Emphasize Web site delivery of digital products and compliance with new revision of state documents requirements (Idaho Code 33-2505). Maintain concentrated effort to collect and preserve valuable geologic data at risk.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Objective A: Produce and effectively deliver relevant geologic information to meet societal priorities and requirements.

Performance Measure: Number of published reports on geology/hydrogeology/geologic hazards/mineral and energy resources.

Objective B: Build and deliver Web site products and develop user apps and search engines.

Performance Measure: Number of IGS web site viewers and products used/downloaded.

Description:

The Idaho Geological Survey (IGS) is requesting a total of \$90,360 (\$87,500 in recurring funds and \$2,860 in one time funds) to recruit, hire, and provide key equipment for a Geographic Information System (GIS) Analyst. Over the past 5 years the IGS has experienced 76% increase in the number of downloaded products from the survey's web site. In addition the number of visitors to the website has increased by 111%. An additional GIS Analyst is need to ensure that IGS continues to provide timely and high quality digital geologic map data and products, geologic and technical reports, publications and geodatabases to local, state, and federal governmental entities, industry, and the public. Details of this request are provided below.

The Idaho Geological Survey is the lead state agency for the collection, interpretation, and dissemination of geologic information and mineral resource data for Idaho. The Survey accomplishes its mission through geological research, mapping and resource identification, and outreach service activities, with an emphasis on the practical application of geology to benefit Idaho and economic development within the state. Information and services that IGS provides assists with providing a strong foundation for economic development of geologic commodities such as natural gas, condensates, metallic and industrial minerals and aggregates for road construction.

The IGS is requesting a GIS Analyst position due to an increasing demand by state and federal agencies, county agencies and local municipalities, industry, the Idaho legislature and the general public for digital geologic map data and products, geologic and technical reports, publications and geodatabases. Table 1 illustrates the sharp increase in both the number of visitors and download of digital products over the last five years from the IGS website. This demand for digital products and agency services through web delivery is projected to increase over time.

Table 1 Idaho Geological Survey Website

Fiscal Year	IGS downloads from agency website	IGS visitors to agency website
2010	75,217	205,519

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

2014	132,454	434,076	
------	---------	---------	--

Currently, the IGS employs one GIS Manager that provides digital mapping assistance for staff geologists in at all three IGS offices in Moscow, Boise and Pocatello. This manager is also responsible for completion and delivery of all finished geologic map products for grant deliverables, agency publications, database design and implementation, creation of web applications for data delivery through the agency website, securing and backup of all agency files and assistance to staff with computer hardware setup and software problems. In addition to providing data and information through the agency website, the IGS is also obligated to fulfilling GIS deliverables and map products to the U.S. Geological Survey, the Idaho Transportation Department and the Idaho Bureau of Homeland Security on a routine basis.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

This request seeks funding for one permanent (new FTE) GIS Analyst position to provide high quality geologic information for state and federal agencies, county agencies and local municipalities, industry, policy makers in the Idaho legislature and the public. IGS appropriations were drastically reduced in FY10 and staffing levels for essential programs have been cut to below adequate levels for providing necessary services to the public and state government. The IGS has only one GIS Analyst that serves three agency offices across Idaho. Due to increasing demands for digital geologic map products and delivery of geologic information through web applications these critical services are in jeopardy due to inadequate staffing levels at the IGS. While we recognize dissemination of geologic information is a critical part of the agencies mission for the orderly development and stewardship of the state's resources, it is impossible to provide increasing amounts of geologic data and information over time without additional staff.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

Full-time state funding for a GIS analyst position at a salary of \$60,000. With anticipated approval of this request, we anticipate hiring a permanent, full-time, benefit-eligible GIS Analyst by August 2016.

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

The GIS Manager, a current IGS employee whose salary is covered by state funds, will provide "in house" training and supervision for the new GIS Analyst to ensure that increasing public demands for geologic information is made available through the IGS website. The GIS Manager will also provide "in house" training for the GIS Analyst to ensure that grant deliverable geologic map products and reports are

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

provided to state and federal agencies and industry partners for review and analysis in a timely manner.

- c. List any additional operating funds and capital items needed.
- PC and software for the new GIS Analyst
 - Travel expenses in support of annual GIS training for ESRI software updates

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

Personnel costs and travel are ongoing. Capital outlay is one time.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded, who and what are impacted?

The general public, state and federal agencies, county agencies and local municipalities, industry and policy makers in the Idaho legislature are all served by this request. Sound and unbiased geologic information about the state's geologic resources provides the foundation for economic development and growth in the state. From a public safety perspective, the IGS also provides limited information and analysis on geohazards such as landslides and earthquakes in Idaho. In order to provide increasing amounts of geohazard data and risk assessment information for Idaho's citizens an additional GIS staff person will be required to assist with the dissemination of information from staff geologists.

Beneficiaries of high quality geologic data and GIS products include county and municipal governments, state agencies (Idaho Bureau of Homeland Security, Idaho Transportation Department, The Idaho Department of Lands), federal agencies (US Geological Survey and Department of Energy) and the public at large.

Impacts if funding not provided

If funding is not provided and demand for geologic data and services continues to increase over time as projected, then a "short-fall" of geologic information to the public is inevitable. High quality and unbiased scientific information from the IGS is routinely provided to Idaho legislators to assist with policy decisions and to provide direction for economic development and protection of the state's resources. Yet in other circumstances, Idaho citizens may need timely and accurate geologic information to assist with placement of a water well, mineral rights and commodity questions or information about earthquakes and landslide hazards which could threaten life and property. These are but a few examples of public demand for geologic information that

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

our agency should be delivering on a continual basis. We know how to analyze and deliver the data, but we do need adequate staffing to get the job done.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

This is a new request and is the second priority of IGS.

Description:

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

The Opportunity Scholarship is Idaho's signature hybrid scholarship which factors awards based on merit and need. It is designed on a shared responsibility model with state dollars being the "last dollars". This means that a student must apply for federal aid, have a self or family contribution element before they would be eligible for the Opportunity Scholarship. In FY07 and FY08, the initial years of this program, \$20 million dollars was put into an endowment fund and \$1.925 million was designated to fund scholarships for the 2007-2008 and 2008-2009 academic years. As a result of the economic downturn during fiscal years 2010 - 2012, funds were not available to augment the endowment nor fund the ongoing scholarships. However, the Board was permitted to use the earnings from the endowment and \$1,000,000 from the corpus in those years. This allowed us to fund qualifying renewals, but new awards were limited. In FY13, the discontinuance of the federal LEAP and SLEAP scholarships freed up the state match of \$550,800 in state General Fund dollars which was reallocated to the Opportunity Scholarship. This amount combined with \$449,200 from the corpus provided a total of \$1,000,000 available for scholarships.

In FY14, Senate Bill 1027 consolidated several existing scholarships into a reconstituted Opportunity Scholarship resulting in \$1,045,800 set aside for scholarships out of the General Fund with no planned reductions to the corpus. For FY15, there was a consolidation of most scholarship funding into the Opportunity Scholarship program resulting in a total of \$5,044,800. As of June 1, 2015, there were 4,069 eligible applicants for FY16 awards. If each of those students were to receive the maximum award of amount of \$3,000 it would cost \$12.2M. There is only enough funding for approximately 1,680 students (assuming each student received the maximum \$3,000 award). As a reference point, in FY15 the average award amount was \$2,740.

This request is for \$5,000,000 from the state General Fund will leave the amount at \$3,000 per student for FY 2017. This would provide funding for \$3,000 awards 1,825 new scholarships and enough funding for an expected rate of 55% renewals for returning students.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

\$5,000,000 is requested to bring the total General Fund Opportunity Scholarship to \$10,044,800 in order to award over 1,600 new scholarships.

2. What resources are necessary to implement this request?

No additional resources are required as current staffing levels are sufficient.

3. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.).

\$5,000,000 in ongoing General Funds

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The State Board of Education has set an ambitious goal that 60% of Idahoans ages 25-34 will have a college degree or certificate by the year 2020. It is estimated that postsecondary education attainment for this adult population is approximately 41% in Idaho. One of the key drivers for meeting this goal is access. The Opportunity Scholarship is Idaho's primary scholarship for helping students afford a postsecondary education.

The value of a four-year degree is at an all-time high. The wage premium for employees with a college degree has grown significantly over the last thirty years and is higher than at any time in the past 70 years. Thus, if this request is not funded, not only could it impact the earning power of thousands of Idahoans, it will also ultimately impact the state's tax base.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Description:

The Office of the State Board of Education (OSBE) is comprised of 25.75 FTEs (only three of which are classified positions). A HR Specialist position would meet a critical unmet need of having a trained professional serve as the primary administrative support for human resource functions. Duties would include:

- Manage recruitment, hiring and orientation of new staff
- Manage employee benefits administration
- Manage annual employee performance evaluations
- Coordinate and conduct and HR training
- Advise management on HR issues and problems
- Manage the Board's defined contribution retirement plans

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

OSBE would like to job share this position with the Division of Professional-Technical Education (PTE), which also lacks a trained position dedicated to handling HR matters.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The Office of the State Board of Education (OSBE) is requesting 1.0 FTE in the form of a Human Resource Specialist position. Currently, OSBE's chief financial officer also manages human resources on the side for the office. This is a very time-consuming activity which diverts attention away from other pressing management responsibilities. In order to spread the workload, fiscal staff and the executive director's executive assistant also assist with recruitment activities on an ad hoc basis. This is an inefficient use of time for these staff and takes them away from their primary job responsibilities.

As referenced above, this position would be housed in OSBE but shared with PTE because PTE has no HR staff either. Currently, PTE provides IT help desk support for OSBE at no cost, because OSBE has no dedicated IT support staff. This request would reciprocate this cost-sharing arrangement by providing HR support at no cost to PTE. OSBE and PTE believe this is a fiscally prudent and appropriate approach to meet a pressing need for HR expertise and support in both agencies.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
Human Resource Specialist (1 FTE), Pay Grade K, full-time, non-classified, benefit eligible, hire date: July 1, 2016

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Existing human resources are currently being redirected on an ad hoc basis to address this unmet need. Currently OSBE's chief financial officer also has a HR officer responsibility. Likewise, PTE has divvied up the HR responsibilities among several of its staff. If this position were approved and funded, existing operations and staff morale would be greatly impacted because it would allow current agency staff to spend 100% of their time on their primary duties and responsibilities.

- c. List any additional operating funds and capital items needed.

\$3,000 for training and travel; \$1,000 for a computer & monitor

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

\$71,200 ongoing

\$1,000 one-time

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

The agencies of OSBE and PTE (with a combined FTE of almost 60) would be served by this request. In addition, all public postsecondary institutions would benefit because the Board sponsors and administers three separate defined contribution plans for institution employees. The OSBE CFO is the designated plan administrator for these retirement plans, but this activity needs and deserves someone who can dedicate more time and expertise to plan management.

If the position is not funded, both agencies will continue to rely internally on their own staff to pick up HR responsibilities on an as needed basis. This is an inefficient use of resources, creates moral problems due to limited new employee orientation and employee development, and carries some risk of exposure to the state when untrained staff are handling sensitive personnel matters.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Not Applicable

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

This request supports the following areas in the State Board of Education's Strategic Plan:

GOAL 1: A WELL EDUCATED CITIZENRY

Idaho's P-20 educational system will provide opportunities for individual advancement across Idaho's diverse population

Objective A: Access - Set policy and advocate for increasing access to Idaho's educational system for all Idahoans, regardless of socioeconomic status, age, or geographic location.

Objective D: Quality Education – Deliver quality programs that *foster the development of individuals who are entrepreneurial, broadminded, critical thinkers, and creative.*

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Performance Measures:

- Percent of students meeting proficient or advance placement on the Idaho Standards Achievement Test, broken out by subject area.
Benchmark: 100% for both 5th and 10th Grade students, broken out by subject area (Reading, Language Arts, Mathematics, Science)
- Average composite college placement score of graduating secondary students.
Benchmark: ACT – 24
Benchmark: SAT – 1500
- Percent of elementary and secondary schools rated as four star schools or above.
Benchmark: 100%
- Percent of students meeting college readiness benchmark on SAT in Mathematics.
Benchmark: 60%
- Gap in student achievement measures between groups with traditionally low educational attainment (traditionally underrepresented groups) and the general populace.

GOAL 3: Effective and Efficient Educational System – *Ensure educational resources are coordinated throughout the state and used effectively.*

Objective B: Quality Teaching Workforce – Develop, recruit and retain a diverse and highly qualified workforce of teachers, faculty, and staff.

- SAT/ACT scores of students in public institution teacher training programs.
Benchmark: ACT – 24
Benchmark: SAT – 1500
- Percentage of first-time students from public institution teacher training programs that pass the Praxis II.
Benchmark: 90%

Description:

This request is to create a position within the Office of the State Board of Education who will focus on K-12 Teacher Effectiveness in the state. Research has identified teachers as the number one contributors to whether or not a student is successful in their education career. In Idaho the effectiveness of our teachers is impacted by the quality of the teacher preparation programs they graduate from, our certification requirements, and the ongoing professional development and other resources provided to them once they are in the classroom. The State Board of Education not only sets the standards for all Idaho teacher preparation programs, but also approves those programs and sets the review and accountability requirements for them. The State is also responsible for establishing the certification requirements, and approves additional programs at our public universities that provide professional development and curriculum resources for our practicing teachers. To accomplish the oversight of this work a full time position needed. This position would work with the approved teacher preparations programs to assure we have the best programs available as well as work with the Department of Education's staff who

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

process applications for teacher certification and work with the Professional Standards Commission.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The Board is requesting one FTP and associated operating costs to provide additional resources and oversight towards the end of improving the effectiveness of the teachers in our public school system. New data available regarding our public school system and the performance of our students makes it increasingly critical that we takes steps now to improve the effectiveness of our new as well as existing teachers in our states K-12 system. To accomplish this will take these additional resources.

1. What resources are necessary to implement this request?
 - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
Teacher Effectiveness Program Manager (1 FTE), Pay Grade N, full-time, non-classified, benefit eligible, hire date: July 1, 2016
 - b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
We currently have one position that must cover these responsibilities as well as K-12 Accountability Issues, public school data security and strategic planning issues, STEM education initiatives and other K-12 Projects. A new position would allow us to split the duties of this current position so that all of the various areas can be given the attention they require.
 - c. List any additional operating funds and capital items needed.
The new position would require a computer as well as general office supplies and travel expenses.
2. Please break out fund sources with anticipated expenditures in the financial data matrix. (Please separate one-time vs. ongoing requests.) Non-General funds should include a description of major revenue assumption(s) (e.g. anticipated grants, etc.). Source of funds would be on-going General Funds.
3. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?
This position would provide the needed oversight and coordination of our teacher preparation programs, teacher certification requirements, and available professional development being offered by our public institutions. In doing so it would serve all of our teacher candidates going through the teacher preparation programs, existing teachers and administrators, and all of the students and parents they serve. Should the position not be funded we risk increasing the time it takes to improve the effectiveness of teachers serving our students.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

4. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.
Not applicable.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

GOAL 3: Effective and Efficient Educational System – *Ensure educational resources are coordinated throughout the state and used effectively.*

Objective A: Data-informed Decision Making - Increase the quality, thoroughness, and accessibility of data for informed decision-making and continuous improvement of Idaho’s educational system.

Description:

Idaho is in the process of implementing a P-20 to Workforce Statewide Longitudinal Data System (P-20W SLDS). The K-12 SLDS started collecting data in October 2010. The database for collecting postsecondary data was developed in the fall of 2011. Idaho is

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

now in the process of loading postsecondary data against the data elements approved by the Data Management Council.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The Office of the State Board of Education (OSBE) is requesting 1.0 FTE in the form of a SLDS Analyst position. For the past 2 ½ years OSBE has contracted with Boise State University (BSU) to provide an analyst on loan to perform SLDS analytics, including but not limited to:

- Working with the postsecondary institutions to address data issues with Extract, Transform, and Load (ETL) process
 - o Resolve data issues
 - o Determine ETL changes to improve data accuracy
 - o Determine missing lookup data
 - o Document system changes necessary to correctly load submitted files
 - o Specify program modifications to improve load process
 - o Obtain final approval on each data load
 - o Write SQL code and modify stored procedures as necessary
 - o Develop SQL Services Reporting Services reports
- Obtain and load additional data to populate lookup tables and provide reporting variables.
- Perform initial data loads.
- Create a change management process to address agreements, policies, etc.
- Work with the Data Management Council to create and document processes and procedures for managing SLDS data and data requests.
- Participate in the design of reports and the extraction of aggregate data.
- Manage the online data dictionary and ensure that all data elements, business rules, and collections are loaded and maintained.

Work continues on building-out the SLDS, and OSBE management has determined that for purposes of project management and continuity it would be preferable to simply build a SLDS analyst position into the base budget.

2. What resources are necessary to implement this request?
 - a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

SLDS Analyst (1 FTE), Pay Grade M, full-time, non-classified, benefit eligible, hire date: July 1, 2016

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

The incumbent on-loan employee would be transferred into this position.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- c. List any additional operating funds and capital items needed.
\$2,000 for training and travel

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

On-going General Funds. This position is currently being funded from the College & Universities Systemwide Needs. This funding could be transferred to the OSBE budget for a net zero fiscal impact to the General Fund.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This position is critical to the SLDS ETL process. There are no other internal resources available to perform this work. Without this position we would need to continue to work through an on-loan arrangement or engage a contractor (at a greatly increased cost). The current SLDS staff of one does not have the time available to perform these functions.

5. If this is a high priority item, list reason why unapproved Line Items from the prior year budget request are not prioritized first.

Not Applicable

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Description:

All existing labor is required to fulfill IdahoPTV's mission and performance measures under the State Board of Education.

Fund Shift – (Priority 1)

This fund shift works to ensure the sustainability of the statewide delivery system that provides a broadcast signal to nearly all regions of the entire state through highly effective funding of administrative and maintenance labor. This request shifts funding and FTPs of existing labor from dedicated funds to the general fund.

Temporary Appointment to Classified Part-Time (non-benefited) Positions – (Priority 2)

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

IdahoPTV does not currently have any classified part-time positions. This portion of the request converts existing non-benefited temporary appointment positions to non-benefited classified positions to comply with definition of statute 67-5302(33) as these positions should be considered "permanent in nature." This request does not require additional funding as it is a zero sum within the dedicated fund. However, it does require nine non-benefited part-time, .42 each, classified positions (or 3.78 total FTE).

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

Both priorities within this request restructure existing personnel costs. Priority 1 includes a fund shift of existing FTPs. Priority 2 requests nine, .42 each, classified positions (or 3.78 total FTE). All funds are currently included in the base in total.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.
- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.
- c. List any additional operating funds and capital items needed.

See attached schedule (DFM Template) for details by fund.

This request impacts personnel costs only. No operating or capital expenditures exist with this line item.

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

These personnel costs and requested part-time classified positions are ongoing.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request maintains existing operations and level of service to residents of Idaho. As personnel costs have continued to increase (PERSI, health premiums and CEC), there is a direct impact to operational funding in the absence of new sources of revenue. At the same time, operational expenses continue to increase. These trends continue to widen the gap from a sustainable level of operations.

Fund Shift – (Priority 1)

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

This helps ensure the sustainability of the administration and maintenance of the statewide delivery service that provides educational content to nearly every household in Idaho. Dedicated funds are less predictable, are not increasing, and cannot sufficiently provide for ongoing personnel cost increases.

Temporary Appointment to Part-Time Classified Positions – (Priority 2)

This is to comply with statute within the dedicated fund.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

DFM Template with position details by fund is attached.

Supports institution/agency and Board strategic plans:

Goal 1 Objective 1

Objective: To provide customers with effective job supports including adequate job training to increase employment stability and retention.

Performance Measure: To enhance the level of job preparedness services to all customers.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Description:

Vocational Rehabilitation (VR) is requesting an additional \$270,600 in State funds and \$1,000,000 in Federal funds to have a sufficient amount of funds available to pay for assessment, training, tools, education, supplies, transportation, medical and other items to assist youth with disabilities prepare for and/or secure employment. VR is a ticket to self-sufficiency for Idahoans with disabilities. It is not another welfare program. VR services for eligible Idahoans with disabilities are the enabling tools to transition from unemployment to gainful employment; from dependence to independence. For Federal fiscal year 2014, 83% of VR customers who achieved or maintained employment reported their wages as their primary means of support instead of depending on public support and family support. Not only does an investment in VR reduce the amount of public support required, it also returns funds to the State of Idaho. Based on Federal Fiscal Year 2014 data it is estimated that a State investment of \$270,600 will return over \$800,000 in direct sales tax to the State. In addition, it will increase Idaho's other taxes, such as income and gas tax, and reduce the amount of public assistance to those individuals served. This is a good investment for Idaho and unlike many other government programs it returns more dollars than are invested by the State.

The addition of \$1,270,600 in appropriations will allow Idaho to capture all of the funds allotted to it by the Federal Government. Without the State General Fund match of \$270,600, Idaho will lose \$1,000,000 in Federal funds set aside for Idaho. It will also allow VR to help more Idahoans with disabilities move into the workforce. The emphasis will be on helping students with disabilities transition into the workforce, which will provide the biggest benefit to Idaho. Currently the average age of a VR customer is 38 and ½. Involving those with disabilities at a younger age means that independence for those with disabilities will start earlier and reduce the amount of public assistance needed by them. Transitioning students to the workforce has an even bigger return on investment to the State of Idaho than mentioned above. The additional funds not only assist those in need, but also has a great return on investment for Idaho.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

IDVR is requesting additional Federal funds to be able to meet the requirements of the Federal vocational rehabilitation program. Without this increase the Division may not be able to meet the current requirements of the Vocational Rehabilitation program. If that was the case then IDVR would need to adjust how the program operates in Idaho and would not be able to serve all those who need service.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

None

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

None

- c. List any additional operating funds and capital items needed.

None

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

VR has not been using all of the Federal funds allocated to the State. The \$270,600 in General Fund appropriations will allow Idaho to capture an additional \$1 million of Federal Funds. Idaho has been remitting a portion of its allotment to other states in past years. This will allow Idaho to invest its full Federal allotment of over \$16 million in Idaho; where Idaho will receive a return on the investment. The grant funds are ongoing in subsequent years.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

This request will allow VR to continue to serve all of our customers without limiting available services. It will also allow Idaho to invest its share of this Federal grant in Idaho, where it has been returning in excess of \$3 in sales tax alone for every \$1 invested by the State.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Supports institution/agency and Board strategic plans:

Goal 1 Objective 1

Objective: To assist the agency in meeting the demand for services under the Extended Employment Services Program.

Performance Measure: Increase the number of customers being served in employment and training through the Extended Employment Services Program.

Description:

Vocational Rehabilitation (VR) is requesting an additional \$340,000 in General Fund appropriations for the Extended Employment Services (EES) program. Idahoans with

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

significant disabilities are some of the State's most vulnerable citizens. The EES program provides people with most significant disabilities employment opportunities in both non-integrated settings or with a competitive job in the community. This amount of additional funding would restore appropriations for Trustee & Benefits payments (T&B) back to 90% of the program's 2009 T&B appropriation level. As the EES program is a commitment to long-term services, when a client is eligible and approved for EES funding, the State is obligating support to the client for the long-term. In most instances these services are required for a considerable number of years, and in some instances for the entire working lifetime of the individual. Without an increase in funding, almost all current Trust and Benefit funds are being spent on maintaining those we have already committed to funding during previous years. The waiting list continues to grow with new clients. Currently, individuals can be on the wait list anywhere from 4 to 5 years. Without additional funding, current clients on the waiting list will be asked to continue to wait for much needed job training and placement services. Currently the wait list is over 300 people.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

IDVR is requesting that the EES program funding be increased to 90% of the FY 2009 level. The increase funding will reduce the number of Idahoans with significant disabilities waiting for service.

2. What resources are necessary to implement this request?

d. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

None

e. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

None

f. List any additional operating funds and capital items needed.

None

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

This is a request for ongoing additional EES program T&B funds to directly benefit those with most significant disabilities. The funding is 100% from the General Fund for this program. There is no additional revenue associated with this request.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

This request will enable employment supports for Idaho's most severely disabled citizens. At the current level of funding, all new clients are being placed on long term waiting list. This proposal will enable EES to once again begin serving new clients.

The impact is statewide. Idaho benefits when the unemployed go to work and become taxpayers and contributors to the State's economy. Without additional funds fewer Idahoans with disabilities will be able to obtain employment.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

Questions:

1. What is being requested and why? What is the agency staffing level for this activity and how much funding by source is in the base?

The Council for the Deaf and Hard of Hearing is requesting one (1) additional Full Time Employee (FTE) identified as Communication and Outreach Coordinator. The Council for the Deaf and Hard of Hearing is a unique state agency following its mission of being "*Dedicated to making Idaho a place where persons, of all ages, who are deaf or hard of hearing have an equal opportunity to participate fully as active, productive and independent citizens.*" Using the formula of 13% provided

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

by the Gallaudet Research Institute, an estimated 203,785 people in Idaho have hearing loss:

Total Idaho Population	1,567,582
Total Hearing Loss	203,785 (13%)
Severe Hearing Loss	34,486 (2.2%)
Profound Hearing Loss (deaf)	3,448 (.22%)

Currently, there are only **2** FTE's working for the Council, the Executive Director and an Administrative Assistant. With the establishment of Idaho Sound Beginnings (newborn hearing screening) children who have hearing loss are being identified earlier, baby-boomers are increasing and veterans are returning to civilian life. The aforementioned causes the need for an additional staff member to provide specific functions for the Council. The role of the Communication and Outreach Coordinator would be to increase awareness of the Council's role, services and programs throughout the state of Idaho. Strategies may include developing collaborations with community organizations, staffing exhibit tables at expos, providing training sessions, developing and disseminating information and resources, and managing external and internal communications.

One-time funds for initial office set up as desk, chair, desktop/laptop computers, monitors, warranties, and docking station is also being requested.

A one-time fund for a new laptop replacement as the current laptop is 5 years old and has shown limited functionality.

Currently there is no agency staffing for this position and no funding by source is in the base.

2. What resources are necessary to implement this request?

- a. List by position: position titles, pay grades, full or part-time status, benefit eligibility, anticipated dates of hire, and terms of service.

The title of this position is: Communications and Outreach Coordinator

Pay Grade: K

Full Time Status

Full Benefits

Anticipated Date of Hire: July 1, 2017

Terms of Service: NA

- b. Note any existing human resources that will be redirected to this new effort and how existing operations will be impacted.

Existing Human Resources would be redirected to hire candidate. If this position were approved and funded, it would allow the two current staff members to spend 100% of their time on their assigned duties.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Currently the Executive Director and Administrative Assistant are the only staff involved in providing information, workshops, presentations, and everyday operations of the Council. This position would relieve some of the burdens of the current staff to provide the necessary services dictated by Idaho Code Chapter 13, Title 33

- c. List any additional operating funds and capital items needed.

Additional operating funds:

Office lease \$200/mo	\$2,400.00 annually
Cell Phone	\$1,200.00 annually
Overnight travel ~ 10 x ~ 80	\$ 800.00 annually
Per Diem ~ 20 x 33.00	\$ 660.00 annually
Flights ~ 2 @ \$400	\$ 800.00 annually
Communication/accommodation svcs	\$10,000.00 annually

TOTAL Additional Operating Funds \$15,860.00

Capital Items

Desk	\$740.00
Chair	\$570.00
Desktop	\$650.00
Desktop Warranty	\$ 60.00
Laptop	\$970.00
Laptop Warranty	\$100.00
Docking Station	\$160.00
Monitors	\$156.00 Each
Laptop Replacement	\$1,400

Total Capital Funds \$4,806.00

3. Provide additional detail about the request, including one-time versus ongoing. Include a description of major revenue assumptions, for example, whether there is a new customer base, fee structure changes, or anticipated grant awards.

Ongoing request	\$ 90,935
One Time request	\$ 4,800.00

All funds will be from General Funds. There are no expectations of additional grant monies or federal monies. There are no external funding available that is in line with the objectives, mission and responsibilities/duties of the Council.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

If the request is not funded, CDHH will be unable to fully utilize the collaborative relationship with community organizations, local and state governmental entities, and proactively develop a presence for our Council and the programs and services provided.

4. Who is being served by this request and what are the expected impacts of the funding requested? If this request is not funded who and what are impacted?

Idaho policymakers, the legislators, local, state agencies, businesses, and the 203,785 deaf and hard of hearing citizens will be served by this request. We anticipate the population to grow. This request allows for areas that are not currently served by the limited staff of CDHH to be included in the mission of the Council.

It has been over 24 years, since the inception of the Council, without any significant increase in FTE that serves the constituents and/or stakeholders directly. For the past two decade the deaf and hard of hearing population grew and assimilated much more deeply into the society more than ever before which demands more information and resources. The current staff finds it very difficult meeting the growing demands.

If this request is not funded, Idaho's deaf and hard of hearing population will continue to be underserved.

Attach supporting documentation sufficient enough to enable the Board, Division of Financial Management, and the Legislative Budget Office to make an informed decision.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

SUBJECT

FY 2017 Capital Budget Requests

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.B.8.c. and Section V.K.

BACKGROUND/DISCUSSION

The capital projects request process is separate from the line item budget request process. The Permanent Building Fund Advisory Council (PBFAC), which is staffed by the Division of Public Works (DPW), has several major areas of focus: new, renovated or remodeled projects; Americans with Disabilities Act (ADA) projects; asbestos abatement/removal, and building demolition.

The annual capital project funding request process begins with DPW issuing a letter to agencies and institutions each spring requesting that they submit their project funding needs. DPW staff works with the agencies and institutions over the summer months to finalize requests. The State Board of Education also concurrently reviews and makes recommendations on major capital projects to PBFAC. DPW staff produces a fiscal year request notebook provided to PBFAC in early September. Agencies and institutions present their requests to PBFAC in early October. PBFAC reviews DPW staff funding recommendations and takes action on them at its November business meeting. Between the October and November PBFAC meetings, DPW staff reviews the agency presentations and consults with agencies and institutions to clarify issues. DPW staff then goes through a process of deciding which projects should be funded and what the Permanent Building Fund (PBF) allocations should be for each requesting agency and institution. Also, in the month of October, the Division of Financial Management (DFM) informs DPW of the anticipated revenue amount for the fiscal year's funding. This sum is the basis for DPW staff's allocation recommendations which are presented to PBFAC at its November meeting. Following PBFAC's review and approval of its funding recommendations for the next fiscal year, DPW staff forwards those recommendations to DFM and the Legislative Services Office for inclusion in their respective budget publications. The Governor makes a recommendation regarding major capital projects to the Legislature. The Legislature appropriates funds to DPW for specific major capital projects and funding for general alterations and repairs, and other projects statewide.

Occasionally in the past the Board has not chosen to prioritize or recommend new capital facilities to the PBFAC, but instead recommended that all funding efforts be directed primarily toward alterations & repairs, asbestos abatement, and other non-major capital items. Deferred maintenance is another critical need of the institutions, the only state funding for which is through the PBF as non-major capital items.

Institutions and agencies have prepared and submitted their FY 2017 capital budget requests to the Board office and DPW, as shown on Page 5.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

IMPACT

Only Board-approved major capital projects can be forwarded to the PBFAC. The PBFAC, Governor and Legislature will then be informed of the Board's recommendation based upon the priorities indicated (if any) at the Board's discretion.

Board Policy V.K. requires institutions and agencies to bring their six-year capital construction plan to the Board for review and approval at its regularly scheduled August meeting. The plan must span six fiscal years going forward starting at the fiscal year next. The plan only includes capital projects for which the cost is estimated to exceed one million dollars (\$1,000,000) without regard to the source of funding. Board approval of a plan will constitute notice to the Board that an institution or agency may bring a request at a later date for approval for planning and design for one or more of the projects in their approved plan. The six-year capital construction plans are included in this agenda item for Board approval.

STAFF COMMENTS AND RECOMMENDATIONS

Projects listed on the following schedule have been prioritized by each institution or agency. Many of these projects were included in the FY 2016 institution request list. The project descriptions are prepared by the institutions.

The Board may recommend some or all of the projects to PBFAC for consideration at its October 2015 meeting, or recommend no major capital funding for FY 2017 and have PBFAC concentrate on deferred maintenance, alterations and repairs, and other non-major capital projects. Previous discussions of the Board have concluded that a project's past ranking on any list should not influence future decisions about where that project should be ranked in subsequent years.

Another option available to the Board is to recommend a portion of a project or projects, for planning and design in FY 2017.

Last year PBFAC recommended funding \$2,500,000 for Boise State University's (BSU) project as the first half of the state contribution for the total \$5,000,000 request. This was the amount appropriated by the Legislature for FY 2016, so BSU is requesting the second half for FY 2017.

ISU's first priority project is for "completion" of its Meridian campus build-out in order to accommodate planned health clinic and academic program expansion. The project contemplates two phases over fiscal years 2017 and 2018. The first phase of funding

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

would be for the expansion of the Doctor of Physical Therapy (DPT) program by fall 2017. This proposed expansion is planned for AY2017-18 so the program proposal is not expected until next year. ISU noted in its Five Year Program plan that the anticipated source of funding would be a combination of new budget request, professional fees, and grants. In terms of program review and approval process for this expansion, consistent with Board policy III.G., it will be reviewed by the Council on Academic Affairs and Programs (CAAP) and then on to the Instruction, Research, and Student Affairs Committee (IRSA) and the full Board for approval. Note: the proposed DPT space would be shared with the Master of Occupational Therapy (MOT) program by fall 2018. MOT is also on ISU's Five Year Program plan. In phase two, ISU would like to expand its Bachelor of Science in Dental Hygiene program with anticipated implementation also for AY2017-18. ISU noted in its Five Year Program plan that this program would be a new budget request. In terms of program review and approval process for this program, consistent with Board policy III.G., the Executive Director can approve this expansion if the financial impact is below the \$250,000/year threshold. CAAP will have the opportunity to review the proposal and provide a recommendation. If the impact is above the \$250,000/year threshold, it would go to IRSA and then the Board for approval. Staff provides this background so the Board understands that the capital project request has a parallel academic program process that needs to be taken into consideration.

The community colleges' projects and six-year capital construction plans are not included because those projects are approved by their local boards. However, staff does make one project-specific observation regarding College of Western Idaho's (CWI) request for funding for a student union building. Board policy V.B.4 provides that "All operating costs, including personnel, utilities, maintenance, etc., for auxiliary enterprises are to be paid out of income from fees, charges, and sales of goods or services. No state appropriated funds may be allocated to cover any portion of the operating costs." CWI has excluded auxiliary space in their capital budget request.

BOARD ACTION

I move to recommend to the Permanent Building Fund Advisory Council the major capital projects on page 5 for consideration in the FY 2017 budget process.

Moved by _____ Seconded by _____ Carried Yes _____ No _____

OR

I move to recommend to the Permanent Building Fund Advisory Council the following major capital project(s), in priority order, for consideration in the FY 2017 budget process.

1. _____
2. _____
3. _____
4. _____

OFFICE OF THE STATE BOARD OF EDUCATION

**SET A
PROJECT SUMMARY
FY2017**

Project Title: Construction for
Fine Arts Building
Boise Campus

Institution/Agency: Boise State University

Brief Description: A new building for Fine Arts will achieve several goals in Boise State’s Strategic Plan by consolidating programs spread across campus into one building, fostering university and community relations, and advancing the importance of creativity in our modern high-tech economy. Programming, planning, and conceptual design and construction documents have already been prepared and have formed the basis for an overall budget. Incremental funding from Permanent Building funds is acceptable to the University.

Project Scope: 47,500- 65,500 NASF 60,000-100,000 GSF

Estimated Total Project Cost: \$35,000,000

Date Approved by State Board of Education: April 2013 (Planning)

Source of Construction Funds (by fund source and amount):

Total Project Cost

<u>Fund Source</u>	<u>Amount</u>
Permanent Building Fund	\$ 5,000,000
University & Donor Funds	\$30,000,000

Previous Appropriations

<u>Fund Source</u>	<u>Amount</u>
Permanent Building Fund – FY2016	\$ 2,500,000

Budget Year Request

<u>Fund Source</u>	<u>Amount</u>
Permanent Building Fund – FY2017	\$ 2,500,000

1. PROJECT DESCRIPTION AND JUSTIFICATION

The new Fine Arts Building will front Capitol Boulevard just north of the Micron Business and Economics Building, adding another cutting-edge presence on the most visible side of campus while helping foster university and community relationships. It will be just across the river from the Boise Art Museum and the city's cultural district. The siting is consistent with the current 2015 Campus Master Plan update, and the facility is directly in line with the core themes of the mission the State Board of Education has endorsed for the university: Provide a signature, high-quality undergraduate and graduate education experience; Foster creativity in arts and research that can be transferred to societal, economic, and cultural benefits; And extend our community commitment beyond our educational, creative, and research activities.

The building will consolidate arts programs now scattered across campus, dramatically improving the student educational experience and providing needed physical space to meet increasing student demand for arts classes. It will also address several deficiencies in space and infrastructure that were identified in the arts program's re-accreditation process. The facility will advance the importance that creativity plays in a new, modern economy and will provide the capacity for additional classes as students in traditional STEM programs (Science, Technology, Engineering and Math) elect to take creative courses to complement their studies and boost their skills and career opportunities.

The pre-planning and programming phase of this project is already underway and is being funded internally by the university. This phase will result in final programmed spaces for Fine Arts and the administrative functions of the Arts & Humanities Institute as well as determining what entities within the Fine Arts disciplines will be housed in the new building.

2. PROJECT COMPONENTS

The project will construct a new facility in the western zone of the campus. The facility will house Fine Arts and functions of the Arts and Humanities Institute. Preliminary planning activities have tentatively identified the following that will be supported by the building:

- Teaching: studios, design laboratories, classrooms, administrative and faculty offices, and spaces for student collaboration.
- Exploration: computer laboratories, centralized workshop facilities, conference rooms, and libraries for study and research; faculty/graduate studio space for creative practices.
- Innovation: multiple-use spaces containing new technologies will facilitate inventive and cross-disciplinary projects.
- Exhibition: gallery spaces for student and traveling exhibits and display areas throughout building for student artwork display and critiques.

3. ALTERNATIVES

The status quo would keep art students, their professors and mentors, and their studio and study space spread throughout campus. Today, arts-related classrooms are housed in five separate buildings, and studio and storage space spread even farther, to two other campus facilities. It would also keep the university from echoing in the arts the major recent building efforts supporting the sciences, engineering, and business and economics. Just as those efforts greatly facilitate scholarly activity and are an important way to focus community attention, constructing a Fine Arts Building will greatly facilitate creative activity and help focus community attention on the arts and the ever-increasing role of design, innovation, and creativity in the modern economy.

4. VACATED SPACES

By providing up-to-date space for the uses described above, the new building will permit departments to vacate some space currently occupied in other campus buildings. These spaces would be made available to meet the critical classroom and faculty office space needs of the other departments, including the STEM disciplines.

OFFICE OF THE STATE BOARD OF EDUCATION

**SET A
PROJECT SUMMARY
FY2017**

Project Title: Construction for
Center for Materials Science

Institution/Agency: Boise State University

Brief Description: Boise State’s Master Plan 2015 update targets the South Campus area for the science and engineering facilities called for in the Strategic Plan to boost research and creativity while creating a signature educational experience for both graduates and undergraduates. The requested funds will support partial construction of the second of four science buildings currently envisioned. This new building will house the Materials Science program, which is one of Boise State’s growing research strengths and one that connects directly to the missions and needs of the businesses leading the state’s strong tech economy.

Project Scope: 55,000- 65,000 NASF 85,000-100,000 GSF

Estimated Total Cost: \$50,000,000

Estimated Partial Construction Cost: \$10,000,000

Date Approved by State Board of Education:

Source of Construction Funds (by fund source and amount):

Permanent Building Fund

\$10,000,000

1. PROJECT DESCRIPTION AND JUSTIFICATION

The proposed building will be the second building of the master-planned science and engineering complex in the South Campus zone. The first of these projects, the 101,265-square-foot multidisciplinary Environmental Research Building is home to Geosciences, Civil Engineering, Public Policy and Administration and Political Science, as well as the environmental finance office, the Public Policy Center and the Frank Church Institute and other parts of the new School of Public Service.

Consistent with the 2005 and 2015 Campus Master Plans, the new Center for Materials Science Research will support the University initiatives to grow the STEM disciplines (Science, Technology, Engineering and Mathematics) and support Idaho's and the Boise region's tech economy, and will be part of a complex designed to promote interdisciplinary research, education, and outreach. Each building of the complex will include science and engineering laboratories and facilities appropriate to specific interdisciplinary topic areas, with departmental culture preserved in office clusters. Future buildings in this area will be planned to promote collaboration between scientists and engineers on important research problems.

The Center for Materials Science Research will focus on Materials Science Engineering and providing a catalyst to elevating that program to national prominence. A program of such stature will enhance the growth of the high tech, science and engineering-related industries and associated economic development in the Treasure Valley, Idaho and far beyond. The facility will be a major step toward achieving the first four goals outlined in Boise State's Strategic Plan, "Focus on Effectiveness," which include 1) Create a signature high-quality educational experience for all students; 2) Facilitate the timely completion of educational goals of our diverse student population; 3) Gain distinction as a doctoral research university; and 4) Align university programs and activities with community needs/

2. PROJECT COMPONENTS

The University retained a programming consultant to create a preliminary program for the building and to explore potential site locations. As currently programmed, the 85,000 to 100,000 square-foot Center for Materials Research will be a showcase for the program and will include research laboratories, teaching laboratories and associated support areas including faculty offices, staff office, graduate student spaces, seminar rooms and common areas. As currently envisioned, the building would be located on the block immediately west of the existing Engineering Building and Micron Technology Building to allow for close proximity to other collaborators

in the engineering disciplines. The facility would also allow for co-location of materials researchers from all disciplines on campus.

In addition to the Materials Science spaces, a large 250 seat lecture hall and two 80 seat classrooms have been included in the program for this building to help address the current lack of adequate large classroom spaces on the southeast portion of campus. These classrooms would be designed to support active learning, which supports lectures but also facilitates collaboration and small group work within the classrooms.

3. ALTERNATIVES

Modular facilities could possibly be utilized to provide additional research, classrooms, and offices, but the use of these temporary structures are expensive and only meet the short term needs for the institution. It would not be prudent to utilize modular buildings for research or class laboratory space. The University has purchased land in the South Campus to accommodate this new facility. Investing in temporary modular facilities would neither be cost effective nor meet academic and research needs.

4. VACATED SPACES

In addition to providing up to date laboratory, classroom, and office space for the Materials Science department this project would free up space currently occupied by that department in other campus buildings. These spaces would be made available to meet the critical classroom and faculty office space needs of other growing departments. Because planning is still in the early stages, the precise amount of space to be vacated is not defined.

FY 2017

CAPITAL IMPROVEMENT PROJECT DESCRIPTION

(New Buildings, Additions or Major Renovations)

AGENCY: **Idaho State University**

AGENCY PROJECT PRIORITY: 1

PROJECT DESCRIPTION/LOCATION: Completion of the ISU-Meridian Campus Build-out

CONTACT PERSON: Phil Moessner

TELEPHONE: 208-282-4229

PROJECT JUSTIFICATION:

(A) Concisely describe what the project is.

This request continues to incorporate space allocation efficiencies at Idaho State University (ISU) Meridian Health Science Center (HSC) to lower costs and to encourage programs to pool spaces for academic, clinical, and research functions promoting inter-professional education and minimizing duplication of resources.

The FY17 request is for a funding allocation over a two-year period to accommodate planned program expansion and help address Idaho's health professions' workforce needs. The two phases, with the 1st phase started in FY17, will be continuous in the next year, with the 2nd phase completed in FY18, to reduce budget allocation impacts.

Aligned with the State Board of Education's assignment of ISU's health sciences' mission, the Five-Year Plan for SW Idaho and Program Prioritization, as well as the Northwest Commission on Colleges and Universities Core Theme Three for ISU, Leadership in the Health Sciences, this request completes the ISU-Meridian Master Plan by building out open space on the 2nd fl. and repurposing space on the 1st fl. by:

1) Expanding Clinics:

ISU-Meridian currently houses three clinics, Counseling, Dentistry, and Speech/Language, and the Idaho Center for Disabilities Evaluation (ICDE), a contracted service with the Dept. of Health and Welfare. The ICDE provides assessment services to developmentally delayed children and adults in the western part of the state. While ICDE does not charge or collect client fees as do the clinics, the contract results in indirect fund payments to ISU and is a revenue-generating enterprise overseen by the Division of Health Sciences (DHS).

The proposed build-out will allow clinical services within DHS undergraduate and graduate programs to expand existing clinics and add new clinics providing inter-professional education and patient experiences for students as encouraged by a number of specialized professional accrediting bodies and in accordance with the ISU DHS Strategic Plan.

- a) Two clinics, Speech/Language and Counseling will be able to expand by increasing the number of clinic rooms available for patient appointments;
- b) Six new clinics will be established resulting in a total of 10 revenue-generating operations;

Physical Therapy; Occupational Therapy; Vestibular Clinic (Doctor of Physical Therapy and Doctor of Audiology students); Dental Hygiene; Medication Management, and a Wellness Center;

- c) Continued development of ISU-Meridian allows these clinics to be configured in near proximity to each other facilitating inter-professional collaboration and convenient “wrap-around” services for individuals from the community. The project design of clinic adjacencies enhances access for clients/patients and student learning outcomes providing practice in a patient-centered health care home model.

2) Expanding Physical Therapy, Occupational Therapy, and Dental Hygiene Programs:

The 1st phase for the initial year of funding is for the expansion of the Doctor of Physical Therapy (DPT) program by fall 2017 with shared usage of space by the Master of Occupational Therapy (MOT) program by fall 2018. The 2nd phase for the subsequent year of funding is for the extension of the Bachelor of Science in Dental Hygiene (BSDH) program.

This project builds the office, teaching, laboratory, and clinical spaces required for expanding three programs of study, currently only offered on the Pocatello campus to ISU-Meridian - the DPT, the MOT, and the BSDH. The institutional priority for the 1st phase is on high-demand DPT and MOT programs to address SW Idaho and statewide health care provider workforce needs. The DPT and the MOT programs have robust application pools and the proposed expansion to add cohorts located at ISU-Meridian would double the number of students admitted each year without doubling the number of faculty. The initial costs of building the infrastructure to support the DPT and MOT programs are high due to the specialized nature of training future rehabilitation professionals and meeting all of the accreditation criteria for each discipline. However, interdisciplinary collaboration and cost efficiencies are gained by building shared classroom and laboratory spaces on the 2nd floor that meet the needs of both PT and OT disciplines, including School of Rehabilitation and Communication Sciences (SRCS) offices for PT and OT, Speech-Language Pathology (SLP), and Audiology (AuD).

For the 1st phase, the request is for the following spaces to be built at ISU-Meridian:

- Build 2 large teaching laboratories that will be shared by the DPT and MOT Programs
 - Orthopedic Skills Lab: holds up to 40 students; contains furniture, equipment, and supplies consistent with PT and OT clinical examination and practice; cabinet storage; distance learning capabilities; and
 - Neuro-management/Daily Skills/Pediatrics Lab: holds up to 40 students; contains large, low mat tables, ambulatory aids, an accessible mock-up kitchen, pediatric equipment; cabinet storage; distance learning capabilities.

- Build 1 Distance Learning (DL) classroom that will be shared by DPT and MOT programs (enrollment of 24 DPT students in FY17 and 16 MOT students in FY18)
- Remodel existing Department of Communication Sciences and Disorders (CSD) academic space on the 1st floor into clinic space
 - Remodel 18 academic offices currently used by CSD into clinic spaces
 - Build new PT and OT Clinics
 - Establish Inter-professional Vestibular Clinic (DPT and AuD)
 - Expand current space available for SLP and AuD Clinics
 - Enlarge Counseling Clinic
 - Develop Medication Management Clinic
 - Remodel large Clinic Lobby into useable clinic space
- Build a minimum of 22 and a maximum of 28 new offices on the 2nd floor. The objectives include building pods of offices for PT and OT faculty members, and the relocation of faculty and staff offices for CSD which has outgrown departmental space for programmatic and clinical applications to maximize academic and clinic spaces
 - 18 offices for the displaced CSD faculty
 - 4 offices for the new PT and OT faculty
 - 6 offices for expansion of programs in DHS depending on growth needs

All of these spaces are required to meet the PT and OT accreditation agencies' requirements for equivalent didactic spaces to allow synchronous learning between cohorts in Pocatello and Meridian through various instructional delivery models, e.g., DL, as well as comparable clinical spaces to ensure each site provides an equivalent educational experience of quality.

In the 2nd phase, ISU intends to create a BSDH satellite program and relocate the Idaho Dental Education Program (IDEP) to Meridian, formulating an Oral Health Institute by adding to the existing Delta Dental of Idaho Dental Residency Clinic on the 1st floor of the facility.

For the extension of the BSDH program adjacent to and sharing space with the Dental Residency Clinic, two 40--seat DL classrooms and two computer labs will need to be relocated. The Master Plan locates the DL classrooms and one of the computer labs on the 2nd floor as a small drop-in lab, and the other, larger computer testing lab on the 1st floor.

Additionally, this request includes the build-out of clinically-based, patient-centered, research-focused areas and administrative offices for the College of Pharmacy, and ancillary spaces, including a Wellness Center, a Testing Center which meets American with Disabilities Act requirements, a Conference Room, and a Student Study area on the 2nd floor of the facility.

(B) What is the existing program and how will it be improved?

The suite of academic programs at ISU-Meridian reflects the top-tier job growth areas in the nation for healthcare providers. PT will show a 36% increase in the number of jobs nationally over the next ten years while OT will have a corresponding 29% increase. SLP and AuD will show 10-year increases of 19% and 34% respectively. Due to the growth in the number of SLP and AuD students attending these programs, the number of patients/clients served has grown steadily since the opening of ISU-Meridian in 2009.

As a consequence, there is inadequate space to provide for increased demand for clinical services. HIPAA as well as FERPA violations become more likely with CSD faculty being relegated to use classrooms, offices, and hallways for clinical treatment space. Faculty, staff, and students entering/exiting offices and communal spaces become unnecessarily aware of the patients who are attending the clinics. Replacing academic offices with expanded clinic space on the 1st floor and relocating these offices to the 2nd floor is consistent with the original plan for ISU-Meridian that locates clinics on the 1st floor in adjacent areas. Locating offices for the SRCS on the 2nd floor promotes faculty exchange and cooperation. After the remodel, SLP, AuD, Counseling, Dentistry, Dental Hygiene (34% demand), Pharmacy (14% demand), Physician Assistant (38% demand), Nursing (31% demand), PT and OT students will have efficient access to participate in clinical inter-professional education. Due to the building design, no other means for expanding clinic space is available at ISU-Meridian. Further efficiencies and benefits are gained by remodeling some of the existing space to purposefully locate clinics in adjacent locations for easy community access, inter-professional collaboration, and accessible staff support.

(C) What will be the impact on your operating budget?

The proposed clinics are revenue-generating. Also, by adding 3 year-cohorts of 24 for the DPT (72 students), and of 16 for the MOT (48 students), and 12 BSHS students annually (24 students for two-year completion program), the budget will be supported by the professional fees charged for each of these programs, along with tuition collected for augmented enrollment.

(D) What are the consequences if this project is not funded?

The ISU-Meridian Phased Renovation was approved for \$12,420,000 in the Six-Year Capital Improvement Budget, with initial occupancy in August 2009. This comprehensive Master Plan request will complete the ISU-Meridian facility build-out. Funding incremental annual requests will result in higher construction costs in the long-term. Phase 1 of the Treasure Valley Anatomy and Physiology Laboratories (TVAPL), supported by a 2013 Legislative appropriation and 50% community match, has been constructed and will be operational fall 2015. The rationale for the TVAPL construction presented to the Idaho State Legislature emphasized the necessity of these laboratories being built to meet teaching requirements for programs such as the DPT, MOT, and BSDH expanding to ISU-Meridian. Phase 2 of the TVAPL, which includes a PT Exercise Science Laboratory and an Applied Behavioral Sciences Research Laboratory to be used primarily by the SRCS, will be constructed by fall 2016. Phase 2 is a continuation of construction supported by a 2014 Legislative appropriation and 50% community match for a Bioskills Learning Laboratory in the TVAPL. If this FY17 Capital Budget Request is not funded, for ISU to meet accreditation requirements, the completed PT Exercise Science Laboratory will not become operational until academic and clinical spaces for the DPT and MOT programs are fully constructed at Meridian HSC.

FY 2017

CAPITAL IMPROVEMENT PROJECT DESCRIPTION

(New Buildings, Additions or Major Renovations)

AGENCY: Idaho State University

AGENCY PROJECT PRIORITY: 2

PROJECT DESCRIPTION/LOCATION: Replace HVAC/Ductwork, Ceiling, Seismic Compliance (3 projects: one each floor,\$2million/yr. for 3 years). Eli Oboler Library Bldg. # 50

CONTACT PERSON: Phil Moessner

TELEPHONE: 208-282-4229

PROJECT JUSTIFICATION:

(A) Concisely describe what the project is.

This project will remove the deteriorating fiberboard air ducting system, and replace it with an insulated steel duct system. This project will also replace associated ceiling and lights in the affected areas.

(B) What is the existing program and how will it be improved?

The existing fiberboard ducting is actively degrading, with resulting ductwork particulates being spread throughout the library. All surfaces within the Library, including the ceiling, are coated with deteriorated ducting material. This project will remove the existing ceiling and lighting systems, remove all fiberboard ducting, address all seismic issues with the ceiling and lighting system, and with the book stacks throughout the Library. New insulated steel ducting, ceiling systems, and lighting will be installed.

(C) What will be the impact on your operating budget?

The maintenance budget will be relieved in several areas as less custodial effort will be required to clean the Library, and repair work to deteriorating ductwork will no longer need to occur.

(D) What are the consequences if this project is not funded?

Ductwork will continue to degrade and contaminate the interior of the Library. Additional efforts will continue to be expended in an attempt to clean the library.

ESTIMATED BUDGET:

CAPITAL IMPROVEMENT PROJECT DESCRIPTION

(New Buildings, Additions or Major Renovations)

AGENCY: Idaho State University

AGENCY PROJECT PRIORITY: 3

PROJECT DESCRIPTION/LOCATION: Upgrade Heating and Cooling System/ Graveley Hall Building #15

CONTACT PERSON: Phil Moessner

TELEPHONE: 208-282-4229

PROJECT JUSTIFICATION:

(A) Concisely describe what the project is.

This project will remove the old window mounted room air conditioners and steam heat perimeter supply with a central system that addresses the need for fresh air and heating in an economical solution.

(B) What is the existing program and how will it be improved?

The existing systems are failing and costly to run and repair and replace and the air conditioning units are providing a lot of bird habitat. The new system will deliver fresh air, conditioned in a central system and augment the existing perimeter steam heating systems to cover all areas of the building. Poor piping insulation on the steam heat will be replaced so that A/C units are not being run in the winter to cool down rooms.

(C) What will be the impact on your operating budget?

The maintenance budget will be relieved in several areas as less work will be needed to maintain individual units than one building system that can be put on our centralized controls.

(D) What are the consequences if this project is not funded?

Building systems are continuing to deteriorate and require excessive maintenance and costs.

ESTIMATED BUDGET:		FUNDING:

CAPITAL IMPROVEMENT PROJECT DESCRIPTION

(New Buildings, Additions or Major Renovations)

AGENCY: Idaho State University

AGENCY PROJECT PRIORITY: 4

PROJECT DESCRIPTION/LOCATION: Asbestos Mitigation, Replace Ceiling system and Lighting/ Beckley Nursing Building #66

CONTACT PERSON: Phil Moessner

TELEPHONE: 208-282-4229

PROJECT JUSTIFICATION:

(A) Concisely describe what the project is.

This project will mitigate the asbestos in the building, with emphasis on the open plenum supply design ceiling system. The work will require asbestos mitigation and the replacement of flooring, ceilings, and other materials removed or impacted by asbestos abatement. This project will also provide for renovation of office and classroom spaces within Beckley Nursing.

(B) What is the existing program and how will it be improved?

Health and safety of building occupants and maintenance personnel. Even simple tasks of replacing ceiling tiles or replacing light bulbs can pose risks to staff.

(C) What will be the impact on your operating budget?

This project does not add square feet of functional space but will require agency to provide funding for temporary moves to accommodate the mitigating and related construction work.

(D) What are the consequences if this project is not funded?

At this time, any maintenance work on lighting or ceiling panels required asbestos monitoring, which adds labor costs and delays in service response time. Additionally, some tasks are impossible to complete within the ceiling plenum. Finally, should there be some significant roof repairs; the building may need to be evacuated. If the required roof work takes place during the academic year, the disruptions to classes and labs would be intolerable.

CAPITAL IMPROVEMENT PROJECT DESCRIPTION

(New Buildings, Additions or Major Renovations)

AGENCY: Idaho State University

AGENCY PROJECT PRIORITY: 5

PROJECT DESCRIPTION/LOCATION: Renovation of dressing room & green rooms/ Frazier Hall Building # 1

CONTACT PERSON: Phil Moessner

TELEPHONE: 208-282-4229

PROJECT JUSTIFICATION:

(A) Concisely describe what the project is.

Dressing and green room areas located beneath the stage need complete restoration. This work extends to a complete gut-and-replacement of floor, sub flooring, ceilings, walls, finishes, air circulation, electrical systems, and restroom upgrades. Remodeling and updating of the dressing areas is intended to allow for men's and women's separate areas, remodel and upgrade of makeup rooms, restrooms, laundry rooms, and hallways. Areas are not accessible or sized properly for the number of persons using the facilities; this project will address building codes requirements. Traffic flow needs to be improved. An additional shower and restroom is needed. The existing public spaces of the Bilyeu Theater have received a wonderful and needed upgrade and now it is time to bring the under stage areas up to code. There is no back stage to the theater so that the basement areas receive a lot of use. This renovation includes major upgrades to mechanical, electrical plumbing, and egress systems so that this historic venue may continue to be used.

(B) What is the existing program and how will it be improved?

Health and safety of players using the Bilyeu theater will be accomplished.

(C) What will be the impact on your operating budget?

This project does not add square feet or functional space but will address safety concerns and install more easily maintained materials and facilities, equipment and lighting upgrades.

(D) What are the consequences if this project is not funded?

Unsafe conditions will continue and egress systems are not up to code.

ESTIMATED BUDGET:		FUNDING:	
Land	\$	PBF	\$ 1,300,000
A/E fees	\$ 130,000	General Account	
Construction	\$ 1,105,000	Agency Funds	
5% Contingency	\$ 65,000	Federal Funds

FY 2017

CAPITAL IMPROVEMENT PROJECT DESCRIPTION

(New Buildings, Additions or Major Renovations)

AGENCY: Idaho State University

AGENCY PROJECT PRIORITY: 6

PROJECT DESCRIPTION/LOCATION: Replace HVAC, Fire Alarms, new ADA elevator and Restrooms/ Vocational Arts Building #46

CONTACT PERSON: Phil Moessner

TELEPHONE: 208-282-4229

PROJECT JUSTIFICATION:

(A) Concisely describe what the project is.

Vocational Arts building needs an ADA elevator. The Current lift is old and difficult to use and you have to exit the building and go outside to get into the lift enclosure.
HVAC units in the building are under-sized for the needs of the building occupants and cannot keep temperatures within standards for operation.
There are no ADA accessible Restrooms on the first floor of the building.
Access stairs to the second level need to be brought up to code.
Noisy HVAC units need to be isolated from building structures.
The main electrical feed and water service needs to be upgraded.
Nearly all finishes need to be replaced, ceilings, floors, asbestos remediated, and new lighting installed that meets code and is energy efficient.
This project addresses nearly half of the deferred maintenance needs identified in the building.

(B) What is the existing program and how will it be improved?

Code, Life, health and safety issues will be partially addressed.

(C) What will be the impact on your operating budget?

This project does not add square feet or functional space but will address safety concerns and install more easily maintained materials and facilities, equipment and lighting upgrades.

(D) What are the consequences if this project is not funded?

Unsafe conditions will continue and accessibility issues will not be addressed. Space utilization is low in this building because of the conditions. This will remain vacant.

ESTIMATED BUDGET:		FUNDING:	
Land		PBF	\$1,745,842

OFFICE OF THE STATE BOARD OF EDUCATION

SET A

PROJECT SUMMARY

Project Title: Research and Classroom Facility

Institution/Agency: University of Idaho

Brief Description:

The University of Idaho is currently in the process of the construction of the Integrated Research and Innovation Center (IRIC), a new research intensive facility comprised of sophisticated research laboratories to be located in the core of campus at the next of the College of Engineering, College of Science, College of Natural Resources and the College of Agricultural and Life Sciences. IRIC is to be completed in the fall of 2016, and it will be an exciting addition to the campus and to the university and carries with it the potential of driving the university's research profile to new heights.

The character and nature of the IRIC facility is focused on high-performance, research intensive laboratories, core laboratories to be available to all research units and researchers campus wide, collaborative spaces, etc. Precisely because IRIC is to be such a high-performance facility, it does not contain much in the way of office space and there is to be no classroom space. Including such spaces in such a systems and utilities intensive facility would not be an efficient use of resources.

Accordingly then, there is a need to provide spaces such as offices for additional research units and departments, space for grant driven activities, spaces for computational research activities, classrooms, seminar spaces, etc., in a location convenient to IRIC. These spaces will support learning, computational research, dissemination and transfer of knowledge and information, and other related support activities that may be related to, or a result of, the research activities housed within the IRIC facility. The Research and Classroom Facility will be comprised of such spaces and is to be located to the immediate southeast of IRIC on the east side of the Line Street Pedestrian Mall on the main campus of the University of Idaho.

Project Scope:

Building size:

Site and utility infrastructure
Furnishings, Fixtures and Equipment
All project fees and related expenses,
to include the demolition of the existing
structure(s) on site.

<u>Fund Source</u>	<u>Amount</u>
Permanent Building Fund	\$ 4,000,000

Date Approved by State Board of Education:

FY 2017 represents the second request for this facility.

1. PROJECT DESCRIPTION AND JUSTIFICATION

The University of Idaho has a need to design and construct a Research and Classroom Facility on an existing site to the immediate southeast of the Integrated Research and Innovation Center (IRIC) on the main campus of the University of Idaho in Moscow, Idaho. This site is located in the core of the research neighborhood of the campus, adjacent not only to the new IRIC facility, but also to the College of Engineering, College of Science, and College of Natural Resources. The College of Agricultural and Life Sciences will be one building to the west, separated by IRIC itself.

The general intent of the Research and Classroom Facility is to provide space for learning, computational research, dissemination and transfer of knowledge and information, and other related support activities that may be related to, or a result of, the research activities housed within the IRIC facility. Because the IRIC is a high-performance, systems-intensive research facility with a resultant high initial cost on a unit basis, it is a much wiser use of resources and a more efficient investment to provide spaces for learning, computational research, dissemination and transfer of knowledge and information, and other related support activities in an adjacent, less systems-intensive facility.

The Research and Classroom Facility is envisioned to house offices, and office suites, computational research space, classrooms and other support spaces in an approximately

40,000 square foot facility located at the intersection of the 7th Street and Line Street pedestrian malls on the Moscow campus. This location will allow the Research and Classroom Facility to not only support the activities and research generated within IRIC, but will also allow it to support other activities and research with the Colleges of Engineering, Science, Natural Resources, and Agricultural and Life Sciences. Further it will support activities and Research from the Office of Research and the various institutes, as well as providing additional classroom stock available for general education classroom use.

2. PROJECT COMPONENTS

The preferred site for this Research and Classroom Facility is on the east side of the Line Street Pedestrian Mall, a major north/south pedestrian circulation spine on campus, just down the hill from the Idaho Commons. A portion of the site is currently vacant, as the old 5kW electrical substation was on the site prior to its demolition a few years ago. The remainder of the site currently old the existing NAMEC facility. NAMEC is a wood framed, surplus WWII era building long slated for demolition and removal in the university's Long Range Campus Development Plan (LRCDP). NAMEC is currently occupied by the Native American Education Center and by the College Assistance Migrant Program (CAMP). Both of these functions will require relocation to a site as yet to be determined. The site is further bounded by the College of Science Building to the east, the Food Research Center to the south and the 7th Street Pedestrian Mall and the college of Engineering to the north. The site is sloped south to north and offers the opportunity for views to the north.

As mentioned, the Research and Classroom Facility is envisioned to be 40,000 square feet, minimum. It is envisioned of phase 1 of a 2 phase effort. A second phase of an additional 40,000 square feet to the south is envisioned at a yet to be determined point in the future.

Spaces within the Research and Classroom Facility will include, but may not necessarily be limited to:

- faculty offices and office suites that allow for small scale departments and research institutes to be house together in a collaborative fashion;
- computational research spaces;
- collaborative, technology rich classroom, constructed along the model of spaces prototyped in Renfrew Hall and the Teaching and Learning Center by the University of Idaho in 2013;
- research collaboration spaces and seminar rooms;
- Graduate and Research Assistant spaces;
- and other specialty research and research support spaces as determined to be required.

The Research and Classroom Facility will be designed and constructed in such a manner to support the potential future expansion of the building to accommodate additional academic programs and needs. Such additional program space would possibly include a tiered classroom, various breakout rooms, as well as reception and kitchen/dining services. The date of any such future expansion is yet to be determined and would be subject to further review and approval of the Board of Regents.

3. ALTERNATIVES

Three alternatives have been studied to date.

Alternative 1: Include This Scope within the IRIC Facility Currently Under Design and Construction

This alternative would have entailed including many, more office, office suites, classrooms, seminar rooms, etc. within the scope of the Integrated Research and Innovation Center (IRIC) currently under design and construction and schedule to open in 2016. This alternative would have placed these spaces in a systems-intensive, high-performance facility. These spaces do not need to be in such a high-performance facility and placing them there would be an inefficient use of resources. The alternative also represents a poor choice in terms of opportunity costs as these spaces would by necessity would reduce the number and size of the research laboratories and core laboratories that could be constructed within IRIC. 40,000 sf of office, office suites, classrooms, seminar rooms, etc., as described herein, and added to the IRIC scope as currently in design, would create structure too large for the IRIC site.

In addition, the IRIC facility is a \$52 mil effort, the largest single design and construction effort ever accomplished by the University of Idaho on a total dollars basis. Adding an additional scope of \$24 mil would have created an untenable and infeasible project. The university rejected this alternative.

Alternative 2: Construct Separate, Dispersed Research and Classroom Spaces in existing Buildings

This alternative consists of an attempt to identify and construct the spaces as described herein in separate, exiting facilities dispersed across campus. The university simply does not have an existing stock of unused or underused space(s) to support this alternative. Space is at a premium on campus and existing programs are often forced into inadequate space. New programs are often denied space requested for their needs. Space is an extremely limited, and limiting, resource in the current campus environment. In addition, this approach does not readily support interdisciplinary interaction and collaboration. The university rejected this alternative.

Alternative 3: Construct a Research and Classroom Facility

This option would entail constructing a single facility adjacent to the site of the IRIC facility and within immediate adjacencies of the structures that comprise the research neighborhood in the core of the Moscow Campus. Overall project expenses are expected to be less under this approach since there will be only one site and construction of a single building allows elimination of unnecessary duplication of building systems. Placing these spaces in a less systems-intensive structure will also reduce costs. Combining these spaces in a single structure will also increase collaboration amongst research and research support units. This is the university's preferred alternative.

4. VACATED SPACE

In the main, the Research and Classroom Facility is envisioned as new space to satisfy both existing, pent-up needs that are currently insufficiently housed into inadequate conditions on a "make-do" basis, and to satisfy projected research needs and support needs generated by the IRIC facility to be opened in 2016. Accordingly, there is little to no vacant space generated by

this request. Space currently used for instructional laboratories and some research laboratories that may be vacated may be reused to meet additional laboratory space demand. Other prospective uses of vacated space may be for offices and specialized learning areas including computer laboratories, seminar areas, team and group rooms, etc.

As mentioned hereinbefore, however, the design and construction of the Research and Classroom Facility on the selected site will require the demolition and removal of the existing, wood-framed NAMEC building. NAMEC is in poor repair and it is a structure that is of an inefficient size which vastly under-utilizes the site. The NAMEC building is listed as a structure to be removed under the university's adopted Long Range Campus Development Plan (LRCDP). NAMEC is currently occupied by two units and those units will need to be deployed elsewhere on campus as a part of the development of the Research and Classroom Facility. One possible option to be considered is placing these units within the new Research and Classroom Facility, however, the final location for these units is yet to be determined.

Proposed Research and Classroom Facility – Architectural Student Concept

THIS PAGE INTENTIONALLY LEFT BLANK

CAPITAL BUDGET REQUEST
FY 2017
CAPITAL IMPROVEMENT PROJECT DESCRIPTION
(New Buildings, Additions or Major Renovations)

AGENCY: **Lewis-Clark State College**

AGENCY PROJECT PRIORITY: 1

PROJECT DESCRIPTION/LOCATION: Living and Learning Complex

CONTACT PERSON: Chet Herbst

TELEPHONE: 792-2240

PROJECT JUSTIFICATION:

- (A) **Concisely describe what the project is.** Request is for a new, combined-use residential and classroom facility. The entire facility would be approximately 25,000 sq. ft. of which the College-funded dormitory space would approximately 22,000 sq. ft. and the classroom area approximately 3,000 sq. ft. Agency funding would cover all dormitory-related areas of the facility. The classroom section (four general purpose classrooms which will serve the entire campus) would be covered by PBF dollars (\$650,000 which amounts to 10.4% of the total project). The new facility (estimated 90 bed spaces and 4 classrooms) would enable LCSC to: 1) keep pace with steadily growing residential student enrollment, 2) retire and/or re-purpose dilapidated, sub-standard dorm units, and 3) provide additional multi-purpose classroom space to support instructional programs.
- (B) **What is the existing program and how will it be improved?** LCSC's residential student population has grown significantly over the past ten years. Students are currently housed in four College-owned residence halls, including Talkington Hall (built in 1930), Clark Hall (1951), Parrish House (1956), and our only modern dormitory, Clearwater Hall (2006). Current housing will accommodate only 311 students. We have a significant waiting list at the current time and have completely filled all units, including our off-campus, College-owned units. We have doubled up students where possible in rooms designed for single occupancy. Students from out of the local area who desire to enroll in LCSC programs may choose not to attend the College if suitable, safe dormitories are not available. Bringing the new living and learning facility on board will provide safe, efficient, no-frills housing for our students, expand our classroom capacity, and enable us to re-purpose older units for offices and other suitable uses.
- (C) **What will be the impact on your operating budget?** Costs of operating the dormitory portion of the facility will be covered by rent collected from student residents. Oversight of student residents will be provided by Residence Advisors (RAs) who are compensated by receiving free rooms. Custodial and upkeep costs for the classroom section of the facility would be offset with occupancy costs and institutional revenues.

(D) **What are the consequences if this project is not funded?** Without a newer facility of the type requested, access for current and future out-of-area students who seek degrees/certificates at LCSC would be limited. For first year and continuing students, the positive living and learning environment which is possible in a residential facility with integrated classrooms helps recruit and retain students and increases students' opportunities for engagement and motivation. If PBF dollars were not available to support the classroom portion of the project, the College would need to press ahead using agency funds to meet student housing needs.

PLEASE INCLUDE ANY ANTICIPATED ASBESTOS COSTS IN THE OVERALL BUDGET.

ESTIMATED BUDGET:		FUNDING:	
Land	\$0	PBF	\$650,000
A/E fees	\$312,000	General Account	\$0
Construction	\$5,505,000	Agency Funds	\$5,600,000
5% Contingency	\$313,000	Federal Funds	\$0

AGENCY: **Lewis-Clark State College**

AGENCY PROJECT PRIORITY: 2

PROJECT DESCRIPTION/LOCATION: Automotive Technology Facility Expansion

CONTACT PERSON: Chet Herbst

TELEPHONE: 792-2240

PROJECT JUSTIFICATION:

- (A) **Concisely describe what the project is.** Request is for expansion of approximately 9,000 to 12,000 additional square feet to support LCSC's highest demand automotive technology programs. The expansion would take place in the Wittman Complex, in support of our ongoing Auto Mechanics Technology, Collision Repair, and Diesel Technology programs. This upgrade to the existing facilities would enable the College to increase the capacity as well as the efficiency and quality of this group of its Professional-Technical Education programs. LCSC would provide \$500,000 in agency funds to leverage the impact of the requested \$2,000,000 in PBF dollars
- (B) **What is the existing program and how will it be improved?** LCSC's automotive technology programs have been very successful in training students for productive careers in industry. However, access to these programs has reached its limit due to physical limitations and capacity of current work stations and laboratory areas. The requested additional floor space will enable expansion of technical training in these high demand areas.
- (C) **What will be the impact on your operating budget?** Operational costs (including custodial support) for the expanded facility will be absorbed from LCSC's current operational budget—net fiscal impact will be positive, since additional revenue-generating students will be able to enroll in the program.
- (D) **What are the consequences if this project is not funded?** Without the requested expansion of the automotive technology space in Wittman Complex, enrollment in these programs will continue to be capped below actual demand levels, and students/staff will continue to operate in cramped and inefficient work areas.

PLEASE INCLUDE ANY ANTICIPATED ASBESTOS COSTS IN THE OVERALL BUDGET.

ESTIMATED BUDGET:

FUNDING:

Land	\$0	PBF	\$2,000,000
A/E fees	\$125,000	General Account	\$0
Construction	\$1,750,000	Agency Funds	\$500,000
5% Contingency	\$125,000	Federal Funds	\$0

Total	\$2,500,000	Total	\$2,500,000

Agency Head Signature: _____

Date: _____

**Capitol Budget Request
Six Year Capital Plan FY 2017 - 2022
Capital Improvement**

Agency:	College of Western Idaho	Agency Project Priority:	1
Project Description/Location:	Health Sciences Building	Nampa Campus	
Contact Person	Craig Brown		562-3279 ph

Project Justification

(A) Concisely describe the Project

New 80,072 s.f. Health Sciences Building. Existing CWI programs to be housed in this building include: dental assist, surgical technician, nursing (associate and assistant), paramedics, etc. Will include biology / chemistry labs, classrooms , study and common areas for students and faculty offices.

(B) What is the existing program and how will it be improved?

Currently, CWI has health science programs and course offerings spread across the two-county area. There is a strong need to consolidate courses and programs to allow students and faculty to focus their efforts, and to be in synergy with local health care providers. This will allow for more effective use of clinical sites.

(C) What will be the impact on your operating budget?

Impact will be additional utility, custodial and maintenance costs. CWI will request occupancy costs through a future State Board of Education and Governor/Legislative process, but will be prepared to use existing tuition revenue to maintain the new facility, if needed.

(D) What are the consequences if this project is not funded?

CWI would continue to offer health sciences and related courses at a variety of campus and center locations spread across Ada and Canyon counties.

Estimated Budget:		Funding:	
Land		PBF	\$ 34,840,000
A / E Fees	\$ 2,680,000	General Account	
Construction	\$ 26,800,000	Agency Funds	
5% Contingency	\$ 1,340,000	Federal Funds

Other			
Total	\$ 34,840,000	Total	\$ 34,840,000

Agency Head Signature: _____

Date: _____

**Capitol Budget Request
Six Year Capital Plan FY 2017 - 2022
Capital Improvement**

Agency:	College of Western Idaho	Agency Project Priority:	2
Project Description/Location:	Student Center Building	Nampa Campus	
Contact Person	Craig Brown	562-3279 ph	

Project Justification

(A) Concisely describe the Project

The Student Center Building will be located on the CWI Nampa campus and will establish a campus core focal point as outlined in the campus master plan. Completed programming reflects a 160K s.f. building that includes key services and functions including; Student Services and Resource Center, Library / Learning Commons, Food Service, Culinary Arts Center, Retail Services including Bookstore and Conference / Commons spaces.

(B) What is the existing program and how will it be improved?

The Nampa campus currently lacks services and programs which are needed to serve a rapidly growing student population. The existing library and bookstore are not on campus and are undersized for the student population served. The Culinary Arts program is currently located on the BSU campus and would be relocated and expanded to support food service and convention center activities.

(C) What will be the impact on your operating budget?

Additional operating costs will be incurred related to utilities and maintenance. Some costs will be offset through relocation of some services and programs including Culinary Arts program from BSU which will eliminate rent. Additionally, some revenue would be generated to support operations of the facility through retail and convention services.

(D) What are the consequences if this project is not funded?

A Dormitory Commission has been established and will provide a portion of the funding as reflected under Agency Funds. If the balance is not funded, additional student fee funding may have to occur and it is likely the timing of the project would be delayed. The project scope would be impacted and might include not providing some services. Additionally, relocating the Culinary Arts program from BSU would not occur as planned.

Estimated Budget:		Funding:		
Land		PBF	\$	21,000,000
A / E Fees	\$	3,600,000	General Account	
Construction	\$	36,000,000	Agency Funds	\$ 24,000,000

**BOISE STATE UNIVERSITY, IDAHO STATE UNIVERSITY &
UNIVERSITY OF IDAHO**

SUBJECT

University National Collegiate Athletic Association (NCAA) Academic Progress Rate (APR) Scores

BACKGROUND/DISCUSSION

The APR is determined by using the eligibility and retention for each student-athlete on scholarship during a particular academic year. Student-athletes are awarded points for each semester they are enrolled and for each semester they are eligible for intercollegiate competition. The single and multi-year APR is determined as a percentage of points earned divided by total points possible for that cohort with the resulting number multiplied by 1000.

The NCAA instituted the APR requirements beginning in the 2003-04 academic year. Since Fall 2007, the APR has been calculated based on four years of data. The most current year's data is added and the oldest year is removed to create a four-year rolling rate. The benchmark minimum score for each sport is 930.

IMPACT

Contemporaneous financial aid penalties can be applied if an athletic team's multi-year APR score is below 930. Teams that fall under the contemporaneous penalties risk the loss of future scholarships.

This is the ninth year institutions will be subject to historically based penalties. In the first stage of that structure, teams with single-year APRs below 900 receive a public warning. If those same teams continue to fall below the 900 cut score, they will be subject to a variety of playing and practice season restrictions, based on a formula that includes a measurement of the team's improvement over the last several years. If a team's multi-year APR falls below 930, they do not meet the minimum standard to compete for post season competition. Additionally, they incur a penalty that can vary anywhere from playing and practice restrictions to loss of scholarships.

After public warnings, penalties become progressively more severe, culminating in banning teams from postseason play.

STAFF COMMENTS AND RECOMMENDATIONS

Each institution provided a statement regarding APR and how the NCAA requirement affects the institution. Following the statement from each institution are the NCAA APR sheets for all sports at that institution.

Continuing to increase the incentive for academic achievement will help place a higher priority on the life-learning needs of the student-athletes.

BOARD ACTION

This item is for informational purposes only. Any action will be at the Board's discretion.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Boise State University
Spring 2015 NCAA Academic Progress Rate (APR) Report Summary

Ten Boise State athletic teams posted perfect single-year Academic Progress Rate (APR) scores for the 2013-14 academic year, up from nine in 2012-13.

Boise State's men's basketball, women's cross country, men's golf, women's golf, gymnastics, swimming & diving, men's tennis, women's tennis, women's track and field (outdoor) and wrestling programs recorded perfect single-year scores of 1000 during 2013-14.

For women's golf, the perfect single-year score is the fourth straight, while it is the third-straight single-year perfect score for both men's and women's tennis. Volleyball, women's golf and women's tennis each recorded perfect multi-year APR scores, tying for first nationally amongst their respective sports and leading the Mountain West.

The Boise State football team, which recorded a single-year APR score of 973, ranked tied for 10th nationally amongst Football Bowl Subdivision schools with a multi-year APR of 981. The football team has ranked in the top-10 nationally in each of the last five releases of the multi-year APR.

The Broncos' football, women's golf, women's tennis and volleyball teams each earned Public Recognition Awards for having multi-year APR scores in the top-10 percent of their respective sports nationally. The football program is one of only five in the country to receive a Public Recognition Award in each of the last five years, a list that also includes Clemson, Duke, Northwestern and Rutgers. Women's golf has received the award each of the last two years.

2013 - 2014 NCAA Division I Academic Progress Rate Public Report

Institution: Boise State University

Date of Report: 05/26/2015

This report is based on NCAA Division I Academic Progress Rate (APR) data submitted by the institution for the 2010-11, 2011-12, 2012-13 and 2013-14 academic years.

*[Note: All information contained in this report is for four academic years. Some squads may still have small sample sizes within certain sport groups. In accordance with the Family Educational Rights and Privacy Act's (FERPA's) interpretation of federal privacy regulations, data cells containing three or fewer student-athletes have been suppressed and are indicated by an * symbol. The information in this report does not reflect any changes to data made after this date.]*

The following chart represents by-sport APR averages for noted subgroups. National aggregates are based on all squads that have certified their academic data as final.

Sport (N)	Multiyear APR	2013-2014 APR	Percentile Rank within Sport	Percentile Rank with in All Sports	All Division I	Public Institutions	Private Institutions	Football Subdivision	Bowling Subdivision	Football Championship Subdivision	Division I (Non-Football)
Baseball (300)	NA	NA	NA	NA	969	965	977	972	969	967	967
Basketball (350)	951	1000	30th-40th	10th-20th	961	958	967	965	957	962	962
Cross Country (315)	945	824	10th-20th	1st-10th	977	973	986	981	975	976	976
Football (249)	981	973	90th-100th	40th-50th	956	952	966	961	952	NA	NA

* Denotes data representing three or fewer student-athletes. In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.

N/A = No APR or not applicable.

N = Number of teams represented.

¹ Denotes APR that does not subject the team to ineligibility for postseason competition based on institutional, athletics and student resources and the team's Graduation Success Rate.

² Denotes APR that does not subject the team to ineligibility for postseason competition due to the team's demonstrated academic improvement.

³ Denotes APR that does not subject the team to ineligibility for postseason competition due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to ineligibility for postseason competition. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

⁴ Denotes APR that does not subject the team to penalties due to the team's demonstrated academic improvement.

⁵ Denotes APR that does not subject the team to penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

⁶ Denotes APR based on a one year cohort, not subject to ineligibility for postseason competition and/or any penalties.

⁷ Denotes APR based on a two year cohort, not subject to ineligibility for postseason competition and/or any penalties.

⁸ Denotes that team is not subject to ineligibility for postseason competition and/or penalties based on institutional resources.

⁹ Denotes that team's APR data is under review.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Idaho State University
Spring 2015 NCAA Academic Progress Rate (APR) Report Summary

The 2013-14 one year score for the whole department ties the highest score ever at 983 (2011-12). The 983 score was up 20 points from the 2012-13 score of 963. The one year Eligibility score was the highest ever for the department with a score of 984 and the one year Retention score was also the highest ever for the department with a score of 977.

- 7 of ISU's 15 teams scored a perfect 1000
 - Women's Golf had their fifth perfect 1000 single-year score in the last 5 years and their 6th in the last 7 years. The four-year average for Women's Golf remains at a perfect 1000.
 - Men's Cross Country rebounded from their second worst year ever in 2012-13 to achieve their 7th single year 1000 in the 10 year history of the APR. Their four year score is at a 981. However, with the upper confidence boundary statistical adjustment for having less than 30 members in the cohort for the four year average, they have a four year score of a 995.
 - Men's Tennis had a perfect 1000 for their one year score to move their four year score to a 937.
 - Women's Basketball achieved a 1000 for their one year score which is the second 1000 for them in the last 3 years. Their four year score is now a 986.
 - Softball had a perfect 1000 for the second year in a row which bumps their four year score to a record 981.
 - Volleyball achieved a perfect 1000 for the 5th time in the 10 year history of the APR. The four year score for volleyball is at a 990 which ties their record for the highest four year score for them (2012-13).
 - Women's Tennis achieved a perfect 1000 for the second year in a row and for the 3rd time in the past 4 years. The 4 year score for Women's Tennis is a perfect 1000.

The 2013-14 four-year average for the whole department was the highest ever at 973 up from last year's record of 963. The four year Eligibility score was the highest ever for the department with a score of 970 and the four year Retention score was also the highest ever for the department with a score of 962

- Football had a one year score of 960 (the 3rd highest ever for Football). The four year score for football is now a 962 which is a four year record for them. The previous record was 941 for the 2009-13 four year period.
- Women's Basketball achieved a record four year score for them at a 986. The previous record was 976 for the 2009-13 four year period.
- Men's Basketball achieved a record four year score for them at 942. This is the first time for Men's Basketball to have their four year score above a 930. Their previous high for a four year score was 923 for the 2006-10 four year period.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- Men's Cross Country was given an upper confidence boundary statistical adjustment so their four year score is a 995 now.
- Men's Track Indoor achieved their highest four year Eligibility score at 962. However, their overall four year score was two points below their record of 974 (972).
- Men's Track Outdoor achieved their highest four year Eligibility score at 964.
- Women's Soccer's four year score of 981 ties last year's four year score which is a four year score record for them.
- Women's Tennis achieved their highest four year score with a 1000. The previous record was 972 for the 2009-13 four year period.
- Women's Track Indoor and Women's Track outdoor achieved their highest four year score with a 981. The previous record for Women's' Track Indoor was 974 and for Women's Track Outdoor was 975 both from the 2009-13 four year period.
- **For the first time in the history of the APR, four year scores for all of the teams at ISU are above the 930 mark.**

Summary

- 6 teams made 1 year improvements from the year before (Men's Cross Country, Men's Tennis, Men's Track Indoor, Men's Track Outdoor, Women's Basketball, Volleyball)
 - 2 teams (Women's Golf and Softball) had the same 1 year score, a perfect 1000, as the 2012-13 school year.
- 12 Teams Made 4 year improvements from the year before. (Men's Basketball, Men's Cross Country, Football, Men's Tennis, Men's Track Indoor, Men's Track Outdoor, Women's Basketball, Women's Cross Country, Softball, Women's Tennis, Women's Track Indoor, Women's Track Outdoor)
 - Women's Golf can't go any higher because they have a four year score of 1000 the last two years.
 - Women's Soccer stayed the same at 981
 - Volleyball stated the same at 990
- 7 teams saw a decrease in their 1 year scores (Men's Basketball, Football, Women's Cross Country, Women's Soccer, Women's Tennis, Women's Track Indoor, Women's Track Outdoor)
- 0 teams saw a decrease in their 4 year scores

NCAA Division I 2013 - 2014 Academic Progress Rate Institutional Report

Institution: Idaho State University

Date of Report: 11/17/2014

This report is based on NCAA Division I Academic Progress Rate (APR) data submitted by the institution for the 2010-11, 2011-12, 2012-13 and 2013-14 academic years. Institutions are encouraged to forward this report to appropriate institutional personnel on campus.

[Note: All information contained in this report is for four academic years. Some squads may still have small sample sizes within certain sport groups. In accordance with the Family Educational Rights and Privacy Act's (FERPA's) interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report for cells made up of three or fewer students without student consent.]

Sport	APR			Eligibility/Graduation		Retention	
	Multiyear Rate (N)	Multiyear Rate Upper Confidence Boundary	2013 - 2014 (N)	Multiyear Rate	2013 - 2014	Multiyear Rate	2013 - 2014
Men's Basketball	947 (48)	N/A	981 (13)	958	1000	926	962
Men's Cross Country	981 (27)	995	1000 (7)	963	1000	981	1000
Football	962 (297)	N/A	960 (78)	949	949	946	964
Men's Tennis	937 (36)	N/A	1000 (8)	969	1000	903	1000
Men's Track, Indoor	972 (111)	N/A	991 (28)	962	1000	967	981
Men's Track, Outdoor	973 (115)	N/A	991 (28)	964	1000	968	981

Women's Soccer	981 (99)	N/A	977 (23)	995	977	961	953

* Denotes data representing three or fewer student-athletes. In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.

N/A = No APR or not applicable.

N = Number of student-athletes represented.

¹ Denotes APR that does not subject the team to ineligibility for postseason competition based on institutional, athletics and student resources and the team's Graduation Success Rate.

² Denotes APR that does not subject the team to ineligibility for postseason competition due to the team's demonstrated academic improvement.

³ Denotes APR that does not subject the team to ineligibility for postseason competition due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to ineligibility for postseason competition. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

⁴ Denotes APR that does not subject the team to penalties due to the team's demonstrated academic improvement.

⁵ Denotes APR that does not subject the team to penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 930 for that team to be subject to penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

⁶ Denotes APR based on a one year cohort, not subject to ineligibility for postseason competition and/or any penalties.

⁷ Denotes APR based on a two year cohort, not subject to ineligibility for postseason competition and/or any penalties.

⁸ Denotes that team is not subject to ineligibility for postseason competition and/or penalties based on institutional resources.

⁹ Denotes APR that requires an APP Improvement Plan be created for this sport.

**BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015**

University of Idaho

Spring 2015 NCAA Academic Progress Rate (APR) Report Summary

The University of Idaho sponsors 16 NCAA sports and of those, 13 currently maintain a 4-year average of at least 940. Football and Men's Golf are the only sports below 930. Football has an 896 four-year average which is a 5-point decrease from the prior four-year average. Men's Golf has a four-year average of 926 which is a 4-point decrease from the previous four-year average.

- Idaho's average APR score, by sport, is 955.23. That is a decrease of 3.5 points compared to the prior four-year average.
- The decrease in the Football APR score was the result of losing a score of 972 from 2009-10 which was replaced with a score of 948 in 2013-14. However, the single year average for the football team increased by 110 points from 2012-13. This is the result of Coach Petrino's hard work implementing an APR improvement plan. He continues to recruit quality students and is dedicated to the academic success of his student-athletes. He is working diligently along with Athletic Academic Services to develop stronger study skills and encourage better academic performance. The team incurred level-one penalties in 2014-15, but has received a conditional waiver for the level-two penalties pending a 940 single-year APR in 2014-15 and a single-year eligibility rate of 940 in 2014-15 and implementing its improvement plan.
- Though the Men's Golf team replaced a score of 1000 in 2009-10 with a score of 1000 in 2013-14, the lack of a bonus point for 2013-14 that was present in the 2009-10 APR resulted in a decrease in the team's multiyear APR. The team has shown a steady increase in APR since 2010-11 but will still incur a level-one penalty and loss of access to post-season for 2015-16. The penalty for a level-one violation is to limit practice sessions to 5 days a week and a maximum 16 hours of countable activity per week. The team must also dedicate 4 hours per week to academic enhancement. Coach Means is already working with Athletic Academic Services to incorporate an improvement plan.

AUGUST 13, 2015

SUBJECT

Board Policy V.K. – Construction Projects – second reading

REFERENCE

June 2014	The Idaho State Board of Education (Board) approved second reading of proposed amendments to policy.
June 2015	Board approved first reading of proposed amendments to policy.

APPLICABLE STATUTES, RULE OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.K.

BACKGROUND / DISCUSSION

Pursuant to Board policy, the Board annually reviews and approves the institutions' six-year capital construction plans. All major capital projects also require prior Board approval. Some institutions present proposed capital projects within the scope of a Campus Master Plan (CMP), but this has not always been the case. Current Board policy does not require an institution to have an approved CMP.

At the April 2015 Board meeting Board staff commented that Board review and approval of campus master plans is a best practice and recommended that Board policy be amended to require institutional master plans (including expansion zones if applicable) be approved by the Board. The Board concurred and directed staff to bring forward such a requirement in the form of a policy.

IMPACT

Proposed amendments to Board policy V.K. would require an institution to develop a long range Campus Master Plan and submit it to the Board for approval. This will ensure the Board is apprised of current and long-term initiatives when reviewing major capital projects.

ATTACHMENTS

Attachment 1 – Board policy V.K. – second reading

Page 3

STAFF COMMENTS AND RECOMMENDATIONS

Board approval of a campus master plan does not constitute authority nor permission, either expressed or implied, to proceed with any real property acquisition, planning and design, or facility construction. Board policies V.I. and V.K. (which includes Board approval of six year capital construction plans) still must be complied with in order to implement the projects contemplated in a master plan.

Minor revisions based on feedback from the Board and institutions include replacing "long range" with "7-15 years" in order to better define the length and scope of the plans. The other revision adds the six-year capital construction plan to the areas of emphasis which the campus master plan should consider.

SECTION: V. FINANCIAL AFFAIRS

Subsection: K. Construction Projects

June 2014

1. Authorization Limits

Without regard to the source of funding, before any institution or agency under the governance of the Board begins to make capital improvements, either in the form of alteration and repair to existing facilities or construction of new facilities, it must be authorized based on the limits listed below. Projects requiring executive director or Board approval must include a separate budget line for architects, engineers, or construction managers and engineering services for the project cost.

Project Originally Authorized By	Original Project Cost	Cumulative Value of Change(s)	Aggregate Revised Project Cost	Change Authorized By
Local Agency	< \$500,000	Any	< \$500,000	Local Agency
Local Agency	< \$500,000	Any	\$500,000-\$1,000,000	Executive Director
Local Agency	<\$500,000	Any	> \$1,000,000	SBOE
Executive Director	\$500,000-\$1,000,000	<= \$500,000	<= \$1,000,000	Local Agency
Executive Director	\$500,000-\$1,000,000	Any	>\$1,000,000	SBOE
SBOE	> \$1,000,000	<\$500,000	Any	Local Agency
SBOE	> \$1,000,000	\$500,000-\$1,000,000	Any	Executive Director
SBOE	> \$1,000,000	>\$1,000,000	Any	SBOE

2. Major Projects - Capital Construction Plans

- a. Institutions and agencies under the governance of the Board wishing to undertake capital construction projects shall submit to the Board for its approval a six-year capital construction plan (the "Plan"). The Plan shall span six fiscal years going forward starting at the fiscal year next. The Plan shall include only capital construction projects for which the total cost is estimated to exceed one million dollars (\$1,000,000) without regard to the source of funding (hereinafter, "major projects"). A Plan shall constitute notice to the Board that an institution or agency may bring a request at a later date for Board approval of one or more of the projects included in its approved Plan. Board approval of a Plan shall not constitute approval of a project included in the Plan.
- b. Before any institution or agency under the governance of the Board solicits, accepts or commits a gift or grant in support of a specific major project, such project must first be included on the institution's or agency's Board-approved six-year Plan.
- c. If a major project is not included in a Plan and an institution or agency under the governance of the Board desires to obtain approval of the major project, before

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

seeking approval, it shall first bring an amended plan to the Board for approval at a regularly scheduled meeting of the Board. If a potential donor offers an unsolicited gift to an institution or its affiliated foundation in support of a major project which is not in an institution's or agency's Plan, prior to acceptance of the gift, the institution or agency shall notify the Board's executive director in writing of the offer, which notice shall include an explanation and justification for the exigency; a detailed statement of purpose and fiscal impact; and a summary of the terms and conditions of the gift. This notice shall also certify to the executive director that the donor understands and acknowledges that construction of the major project is subject to the review and approval of the Board.

3. Major Projects Approval Process - Design-Bid-Build Projects

a. Planning and Design

Board approval is required before any institution or agency begins planning and design on a major project carried out under the traditional "design-bid-build" method. For design-bid-build projects, planning and design encompasses the preparation of architectural and engineering documents and associated budget and schedule information through the completion of the construction documents for bidding. This approval may not be requested concurrently with any other step in the major project approval process. As part of the Board's approval process for planning and design, the Board may request the institution or agency to submit a preliminary project budget and financing plan (including pro forma financials, debt/operating expenses ratios, pledges, strategic facilities fees, and other material financial information).

b. Major Project Approval Process – Project Budget and Financing Plan

Board approval of a project budget and financing plan (including pro forma financials, debt/operating expenses ratios, pledges, strategic facilities fees, and other material financial information) is required for a major project. This approval may be requested only after completion of the design and planning process and may be requested concurrently with approval for construction.

c. Major Project Approval Process –Construction

Board approval is required to proceed with the construction of a major project. In order to obtain Board approval for construction of a major project, the Board must approve the project budget and financing plan. This approval may be requested concurrently with approval of the project's budget and financing plan.

d. Major Project Approval Process – Final Approval – Financing and Incurrence of Debt

Board approval for financing capital projects via the issuance of bonds, or incurrence of any other indebtedness, is required pursuant to Board policy V.F. for a project that has previously received approval for construction. (All other projects financed entirely without indebtedness do not need separate approval for financing.) The Board will not

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

consider concurrent requests for approval for construction and debt financing for the same project. Therefore, institutions seeking approval for project debt financing must bring a request for said approval to a Board meeting subsequent to the meeting at which project construction is approved.

4. Design-Build Projects

Although design and build projects are performed by one team, design-build contracts can also allow a series of options to proceed (or not) at the design phase and at the construction phase. The approval process for major projects using a design-build contract shall be the same as the approval process required for a design-bid-build contract. Board approval shall first be required to undertake the design and planning phase, including selection of the design-build team. For purposes of such approval, the Board may request a preliminary project budget and financing plan. This approval may not be obtained concurrently with subsequent required approvals. Once the design-build team completes the design and construction cost estimates, the institution or agency must then obtain Board approval of the project budget and financing plan and of construction of the project. If debt financing is needed, the institution or agency must submit a request for approval at a subsequent meeting of the Board in the manner set forth in paragraph 3.d., above.

5. Fiscal Revisions to Previously Approved Projects

If a project budget increases above the total Board-authorized amount by the lesser of 5% or \$500,000, then the institution or agency shall be required to seek further authorization based on the limits established in paragraph 1, above. Regardless of the authorization level required, the institution shall provide the Board with the amount and reason(s) for the cost overruns and the source of funds.

6. Project Acceptance

Projects under the supervision of the Department of Administration are accepted by the Department on behalf of the Board and the state of Idaho. Projects under the supervision of an institution or agency are accepted by the institution or agency and the project architect. Projects under the supervision of the University of Idaho are accepted by the University on behalf of the Board of Regents.

7. Statute and Code Compliance

- a. All projects must be in compliance with Section 504 of the Rehabilitation Act of 1973 and must provide access to all persons. All projects must be in compliance with applicable state and local building and life-safety codes and applicable local land-use regulations as provided in Chapter 41, Title 39, and Section 67-6528, Idaho Code.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- b. In designing and implementing construction projects, due consideration must be given to energy conservation and long-term maintenance and operation savings versus short-term capital costs.

8. Campus Master Plans

Each institution shall develop a long range ~~7-15 year~~ Campus Master Plan (CMP). The CMP shall serve as a planning framework to guide the orderly and strategic growth and physical development of an institution's campus. The CMP shall be consistent with and support the institution's current mission, core themes, and strategic plan, and six-year capital construction plan. The CMP and substantive updates thereto must be approved by the Board.

SUBJECT

Board Policy V.W. – Litigation – second reading

REFERENCE

June 2014	The Idaho State Board of Education (Board) approved an amendment to clarify the litigation limits and reporting requirements.
June 2015	The Board approved first reading of the proposed policy amendment.

APPLICABLE STATUTES, RULE OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.W.

BACKGROUND / DISCUSSION

Currently Board policy limits acceptance of service process at the Board Office to only the Executive Director.

IMPACT

This proposed amendment would extend authority to accept service of process to the Office's deputy attorneys general.

ATTACHMENTS

Attachment 1 – Board policy V.W. – second reading

Page 3

STAFF COMMENTS AND RECOMMENDATIONS

At the suggesting of Board member Lewis, the phrase “assigned to the Board” was added at the end of V.W.1.b. to clarify deputy attorneys general authorized to accept service on behalf of the Board. There were no other changes between first and second reading. Staff recommends approval.

BOARD ACTION

I move to approve the second reading of proposed amendments to Board policy V.W., Litigation, as presented in Attachment 1.

Moved by _____ Seconded by _____ Carried Yes ___ No ___

THIS PAGE INTENTIONALLY LEFT BLANK

Idaho State Board of Education
GOVERNING POLICIES AND PROCEDURES

SECTION: V. FINANCIAL AFFAIRS

Subsection: W. Litigation

~~June~~August, 20145

1. General

When a lawsuit, legal document, or other official notice is instituted against an institution and/or the Board, ~~an institution's president or its general counsel, or the executive director of the Board, is the following positions are~~ authorized to accept service of process of such matter on behalf of the institution and/or Board:

a. The institution's chief executive officer or general counsel; or

a.b. The Board's executive director or deputy attorneys general assigned to the Board.

This authority to accept service pertains only to attempted service upon the institution and/or Board, and not to any attempt to serve the Idaho secretary of state or the Idaho attorney general. An institution president or general counsel who accepts service of any matter on behalf of such institution and/or the Board pursuant to this authority must promptly forward a copy of any such matter to the Board office, and in appropriate circumstances, should also forward a copy of such matter to the State of Idaho Department of Administration, Division of Internal Management Systems, Risk Management Program.

2. Initiation of Litigation

An institution or agency under the governance of the Board may initiate a legal action with respect to any matter in which the amount in controversy does not exceed one hundred thousand dollars (\$100,000). With the prior approval of the executive director, an institution, agency, or school under the governance of the Board may initiate a legal action with respect to any matter in which the amount in controversy does not exceed two hundred thousand dollars (\$200,000). Any other proposed legal action may not be instituted without the prior approval and authorization of the Board.

a. Notwithstanding the authority to initiate litigation provided above, any legal action involving the exercise of the right of eminent domain must have the prior approval of the Board.

b. Pursuant to Idaho Code §33-3804, an institution is permitted to initiate legal action in its own name.

3. Settlement

The chief executive officer has authority to settle a legal matter involving the payment or receipt of up to one hundred thousand dollars (\$100,000) of institution or

agency funds. The executive director may authorize the settlement of a legal matter involving the payment or receipt of up to two hundred thousand dollars (\$200,000) of institution, agency, or school funds. Any settlement of a legal matter that is in excess of two hundred thousand dollars (\$200,000) in institution or agency funds must be approved by the Board prior to any binding settlement commitment.

4. Litigation Reporting by Institutions

Legal counsel for the institutions shall provide monthly attorney–client privileged litigation reports to the Board office (to the attention of the Board’s legal counsel) for distribution to members of the Board. Such reports should include a description of all claims and legal actions filed against the institution since the date of the last report (and identify legal counsel for the parties involved, for conflict analysis purposes); a summary of the current status of all claims and pending litigation; risk analysis pertaining to all such claims and pending litigation; and the settlement of any matters since the date of the last report, including settlements of matters handled by the State of Idaho Department of Administration, Division of Internal Management Systems, Risk Management Program. With respect to the reporting of a legal settlement, such report shall describe the amount of institution funds that were used, and the amount and source of any other funds that were provided in connection with such settlement, including funds from the Office of Insurance Management or from any other parties. Legal counsel for the institutions should also include in the report any significant incident occurring since the last report that is reasonably expected to give rise to a claim, as well as probable claims or legal actions the institution is aware of which have been threatened but not yet instituted.

BOISE STATE UNIVERSITY

SUBJECT

New Residential Honors College and Additional Student Housing Project

REFERENCE

April 2013	Idaho State Board of Education (Board) approves purchase of 1801 University Drive
February 2015	Board informational item on Proposed Student Housing
June 2015	Update to Board on Proposed Student Housing

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.

BACKGROUND/DISCUSSION

In July 2014 Boise State University (BSU) publicly solicited proposals for the development and operations of a residential honors college, additional student housing and related support facilities and amenities including classrooms, food service and informal gathering spaces. BSU believes this project is strategic for the recruitment, retention and overall success of our students and will provide a modern facility on centrally located and under-utilized property.

After the review of several proposals and interviews with multiple development teams, BSU had selected Education Realty Trust, Inc. (EDR) as the finalist. EDR was selected as the finalist for several reasons: 1) EDR is a major industry leader in private student housing with ownership and/or management of over 77 communities and over 42,000 student beds; 2) EDR's more than 50 years of industry experience and a market capitalization over \$2 billion provides assurances that EDR has the capabilities and resources for such a project; 3) the EDR management team has extensive experience; and 4) EDR was the only vendor offering a 100% cash equity development model which eliminates concerns that project-related debt might impact BSU's debt capacity or credit profile, directly or indirectly. Preservation of University debt capacity for future academic and research buildings was a primary objective of BSU.

Since selecting EDR as the finalist, BSU has presented this project to the Board multiple times for comments, ideas and concerns. The project has been modified and improved by incorporating most of the Board's suggestions and after significant negotiations of various financial, operational and design terms. BSU and EDR are now prepared to seek Board approval of the ground lease and operating agreement that will authorize the development and operations of this strategic project.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Project Overview (approximations subject to final design and construction):

- 656 beds
 - 168 upper division beds served with kitchenettes
 - 488 traditional beds on meal plans
 - 50/50 split between Honors College beds and traditional housing facility beds
- 7,900 gross square feet of Honors College offices, classrooms and circulation space
- 14,720 gross square feet of food service spaces
- \$39.8 million development budget
- 236,000 total gross square feet
- Project will be designed to BSU design guidelines and will incorporate sustainable design features such as on-site retention and re-use of storm water and graywater.

Since the Board update in June 2015, key changes to this project are as follows:

- EDR's total project budget has increased from \$38 million to \$39.8 million
- Total number of beds in the project has increased from an estimated 600 to 656.
- EDR has increased their payment to BSU to repurpose the John B. Barnes Towers residence hall from \$1 million to \$2 million. While the current estimate of \$2 million should be sufficient for renovation of the facility into offices, the final scope and budget for this project will be brought for Board approval at a later date.
- EDR will pay BSU an annual ground rent of \$200,000 (adjusted annually by CPI) plus 6.4% of gross project revenues.
- Due to changes in the building design and envelope, the food service space has increased in size to 14,720 gross square feet. While this adds additional cost to the project, over the 50-year lease term this larger space will provide more flexibility for BSU's future use(s) of this space. To avoid a 50-year capital lease, and to maximize the overall financial return to BSU, the university desires to purchase control and use of the dining spaces. EDR will construct the dining spaces for \$3,490,458, of which \$883,200 (\$60 per square foot) will be used for improvements to the space beyond shell and core and such improvements will be specific to BSU's design and intended food concept. BSU will purchase control and use of this space by reimbursing EDR for \$3,490,458 upon substantial completion of the project. BSU will source funds for this purchase by utilizing a \$1 to \$2 million contribution from BSU's food service provider (investment is still in negotiation) and the remainder of the funds will come from university and auxiliary reserves. The \$3.49 million budget does not include furniture, fixtures and equipment, which will be a separate project and contract.
- In consideration for additional ground rent BSU would agree to:
 - Provide annual landscaping and snow removal services to the project; and

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

- BSU will fund a \$500,000 investment into graywater retention and reuse for this project. The graywater will be reused for project and university landscaping needs. For this EDR will increase BSU's ground rent in year one by \$36,000. This increases each year, and over the 50 year lease term it represents a 10 percent return on investment for BSU (IRR method) and a net present value of \$611,872 in excess of the \$500,000 investment. In addition to the financial return, this initiative provides additional sustainable features for water conservation and will assist BSU in meeting its obligations under its National Pollutant Discharge Elimination System (NPDES) storm water discharge permit.

IMPACT

Through the ground lease and operating agreement, both BSU and EDR agreed to certain terms and conditions which create a financial and/or operational obligation. All such terms and conditions are contained in the attached agreements, but the primary terms and conditions are:

- BSU will provide approximately two-thirds of the site commonly known as University Christian Church (UCC) for the development of this project. The project will be developed according to University design guidelines and BSU reserves the right to approve the final design.
- The term of the agreement shall be for fifty years, beginning at substantial completion of construction, plus a construction term during which the project is being developed and constructed during which time no rent is paid. At the conclusion of the fifty lease years, BSU is provided free and clear ownership and title to the project including transfer of a replacement fund in which EDR invests \$200 per bed per year, with annual escalations of three percent. The balance on this account in fifty years can be used for further renewal of the project or demolition.
- EDR will use 100% cash equity to develop the project at an estimated cost of \$39.8 million and EDR shall never issue any debt associated with this project without the permission of BSU.¹
- EDR will own and operate the project built on BSU owned land and BSU will retain its ownership interest. EDR will provide the needed staff to

¹ This term of the agreement is critical because in March 2010 Moody's issued a Special Comment report on [Privatized Student Housing and Debt Capacity of US Universities](#). As explained by BSU at the April 2010 Board meeting, "The primary purpose in the Special Comment was to announce that all affiliated projects affect university credit and that the indirect debt classification is discontinued. Moody's updated their treatment of privatized student housing projects as contingent liabilities of the affiliated university. The report states that these types of projects, that are located on land owned by the university and then ground leased to a private developer, 'always affect an affiliated university's credit position because student housing is a strategic core business of most universities and an integral part of a university's student market position, financial management and capital strategy.' Further, Moody's rating approach applies to all university affiliated privatized projects, including new structures being used to finance these projects, such as equity-based models..." In other words, debt related to privatized student housing will affect the credit position and debt capacity of an institution.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

manage the daily operations of the project and EDR will be responsible for maintenance and renewal.

- BSU is responsible to provide staff and resources for the landscaping/grounds maintenance, residence life program and student support needs, including the cost of the resident advisors and resident directors.
- In all material matters, the project will be treated similarly to BSU-owned on-campus student housing, including but not limited to:
 - Project will be official on-campus housing;
 - Project will be marketed and leased on par with BSU-owned housing;
 - Rent payments can be made through student accounts;
 - When leasing to students, EDR will use BSU lease form or a form approved by BSU;
 - EDR will only rent to individuals who would also qualify for BSU-owned housing;
 - EDR residents will be subject to BSU Student Code of Conduct including an alcohol free campus;
 - Project will be served by the campus Police and Security staff;
 - EDR residents will purchase parking from BSU on the same terms and conditions as other resident students; and
 - Efforts will be taken to match technology, video, laundry and other services.
- The John B. Barnes Towers residence hall will be taken offline when the project opens for the fall 2017 term and remodeled into BSU office space. BSU has long desired to repurpose this facility into offices and this project presents that opportunity since EDR is willing to compensate BSU \$2 million for this purpose. This project will allow BSU to relocate departments currently housed in off campus space and reduce lease expenses by approximately \$350,000 per year.
- EDR will fund the development of the Honors College offices and classrooms, and BSU agrees to a ground lease reduction of \$158,000 in year one, in lieu of leasing the space.
- EDR will fund the development of the food service space and upon completion, BSU has the option to lease or purchase the space. The intent, and current language of the agreements, is for BSU and its food service vendor to share the cost and purchase use of the space and avoid a long-term lease. The development cost of the food service facility is estimated at \$3.5 million, excluding furniture, fixtures and equipment which will be separate project and contract. EDR will pay ground rent to BSU of \$498,318 in the first year. This is comprised of a guaranteed minimum ground rent of \$200,000 plus percentage ground rent as a percent of gross project revenues fixed at 6.4 percent or \$298,318. The guaranteed rent will increase each year by the Consumer Price Index as published by the US Department of Labor. The percentage rent will increase as gross project revenues increase.

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

The agreements will be entered into with EDR Boise LLC, an entity to be formed as a wholly-owned subsidiary of Education Realty Operating Partnership, LP, an affiliate of EDR. The obligations of the lease and operating agreement are guaranteed by the parent, Education Realty Operating Partnership, LP.

ATTACHMENTS

Attachment 1- Ground Lease

Page 7

Attachment 2- Operating Agreement

Page 75

STAFF COMMENTS AND RECOMMENDATIONS

As a carryover from staff comments on this agenda item from the June 2015 Board meeting, new and remaining terms within the Ground Lease of potential interest to Board members include the following:

1. Section 3.01(b): EDR would be responsible for razing all existing buildings on the former University Christian Church property, removing unsuitable soils and debris, and removal of all hazardous materials. Provided however, that if any hazardous materials are discovered on the property, the remediation of such materials is the responsibility of BSU.
2. Section 16.03: During the first 15 years of the ground lease, if BSU desires to increase the total number of beds on campus, it would have to engage a third party to conduct an analysis and follow the recommendations therefrom of the need and determination that additional housing would not adversely impact the gross revenue of the EDR project. In addition, as “a condition precedent to BSU constructing any additional on-campus housing the [EDR] project must have achieved proforma results for the prior three fiscal years.”

Additional terms within the draft Operating Agreement of potential interest to Board members include the following:

1. Section 2.05: EDR shall determine the rental rates for the residential residents and commercial tenants. BSU has the right to approve the initial resident rent rate for the first year. Thereafter, EDR will determine the resident rent rate based on not-to-exceed stipulated criteria. An “Advisory Committee” (consisting of two (2) executives of BSU (Landlord) and three (3) executives of EDR (Tenant)) can review rate increases, but “in the event of a disagreement of the Advisory Committee, Tenant’s representatives shall have the deciding vote as to student rental rates, the operating budget or the need for capital expenditures and, regardless of the composition of the Advisory Committee, the University will have the deciding vote with regard to residence life issues and student conduct.”
2. Section 2.09(e)(iv): EDR assumes all risk for non-payment of residential residents and commercial tenants.

Other material changes to the draft Ground Lease and Operating Agreement since they were last seen by the Board in June include: (1) all references to the possibility of a restaurant (“with alcoholic beverages available for consumption”)

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

being included in the project have been removed; and (2) Exhibit F (“Prohibited Commercial Uses”) has been amended to include “business serving or selling alcoholic beverages.”

Staff recommends approval.

BOARD ACTION

I move to approve the request by Boise State University to enter into the attached ground lease and operating agreement with EDR Boise LLC, a wholly-owned subsidiary of Education Realty Operating Partnership LP, including purchase of the rights to operate and control the dining facility for a cost not to exceed \$3,490,458, and to delegate authority to the Vice President for Finance & Administration to execute all relevant documents in substantial conformance with the terms herein.

TABLE OF EXHIBITS

Exhibit A – Legal Description

Exhibit B – Conceptual Drawings

Exhibit C – Easement Areas

Exhibit D – Temporary Construction Easement

Exhibit E – Development Budget

Exhibit F – Prohibited Commercial Uses

Exhibit G – Applicable University Policies

Exhibit H - Guaranty

THIS GROUND LEASE (“**Lease**”) is made _____, 2015 between the IDAHO STATE BOARD OF EDUCATION BY AND THROUGH BOISE STATE UNIVERSITY, a State of Idaho public institution of higher education (“**Landlord**” or the “**University**”) and EDR BOISE LLC, a Delaware limited liability company (“**Tenant**”), wholly-owned subsidiary of Education Realty Operating Partnership, LP, a Delaware limited Partnership (“**Guarantor**”) and affiliate of Education Realty Trust, Inc., a Maryland Corporation (“**Parent**” and together with Tenant and Guarantor and each of their respective affiliates, each a “**Tenant Party**” and collectively, the “**Tenant Parties**”).

RECITALS

A. The University is an urban campus and metropolitan research university that has experienced historical growth in enrollment, facilities and programs and has identified a need for additional on campus student housing and supporting mixed use facilities with a focus on its Residential Honors College and premium freshman housing.

B. The University’s current housing stock is insufficient to meet the current and growing demand by undergraduate students.

C. Research indicates that and the University believes that undergraduate students who live on-campus are more academically successful than those that do not and new housing will enable the University to attract and retain high quality students.

D. The University determined that it should pursue a public/private partnership arrangement to procure additional student housing and related facilities pursuant to a legal and financing structure that preserves its debt capacity for other capital projects; is self-sustaining and without recourse to or liability from any State general fund appropriations; and except as specifically provided herein with regard to termination of such structure, provides that the University’s liability shall be limited to revenues derived from the Project.

E. The University issued that certain Request for Information and Statement of Qualifications to Negotiate for the development of a residential honors college and optional supporting mixed use facilities on property owned by Boise State University dated July 14, 2014, and after conducting its vetting process, on November 17, 2014 the University notified EdR of its selection as the leading vendor under consideration for development of the Project (as hereafter defined).

F. As part of such public/private partnership, Tenant will develop one or more facilities housing 600 undergraduate student beds composed of a 300 bed residential honors college and a 300 bed freshman living learning community, with associated food service and other mixed use opportunities as agreed upon by the parties and described in Exhibit B hereto (the “**Improvements**”) located on certain real property owned by the University and located on West University Drive as described in Exhibit A (the “**Land**”), with an anticipated completion date of August 2017, and financed by EdR pursuant to EdR’s ONE PlanSM – The On-Campus Equity Plan (collectively, the “**Project**”).

G. In conjunction with the development and later operation of the Project, the University desires to lease the Land to Tenant and Tenant desires to lease the Land from the

University pursuant to the terms, conditions, covenants and provisions of this Lease and to construct Improvements upon the Land (collectively, the Land, Improvements and associated tangible personal property are referred to herein as the “**Premises**”).

H. Following development of the Project, the University and the Tenant intend that the University and Tenant will each operate portions of the Project in accordance with the terms and conditions of an Operating Agreement to be entered into between University and Tenant concurrently with this Lease (the “**Operating Agreement**”).

I. As depicted on the conceptual drawings attached hereto as **Exhibit B**, certain areas of the Premises will be designated by Tenant for the operation and use of the University pursuant to the provisions set forth herein and in the Operating Agreement, for the purpose of an honors college and University offices and/or meeting spaces. In addition, also as depicted on Exhibit B, a portion of the Premises will contain space that may be used by the University for a dining facility to be operated by the University’s or the University’s chosen third party vendor.

J. Guarantor desires to guarantee the performance of Tenant’s covenants and obligations under this Lease and the Operating Agreement by execution of a Guaranty concurrently herewith, attached hereto as Exhibit H.

K. The purpose for which Tenant is leasing the Land and constructing the Improvements is to lease the Improvements in the manner and to the persons described in Section 4.01.

AGREEMENTS

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein set forth by each party to be kept and performed, and for other good and valuable consideration, the receipt, adequacy and sufficiency of which are hereby expressly acknowledged by each party hereto, Landlord and Tenant hereby agree as follows with the intent to be legally bound. Capitalized terms not defined in the context of their first use may be located using the Index of Defined Terms which follows the signature pages to this Lease.

ARTICLE 1

PREMISES AND EASEMENT

Section 1.01 Land. Landlord is the holder of fee simple title to certain land located in Boise, Idaho which is more particularly described in Exhibit A attached to this Lease, together with all rights, easements and appurtenances thereto or in anywise belonging (the “**Land**”).

Section 1.02 Lease Grant. Landlord hereby leases to Tenant, and Tenant hereby leases from Landlord, upon and subject to the terms, conditions, covenants and provisions of this Lease, on an as-is, where-is basis, the Land, together with all rights, privileges, easements and appurtenances belonging to or in any way pertaining to the Land.

Section 1.03 Easements; License.

(a) Easements for the Term. Landlord grants to Tenant a non-exclusive easement, which shall be coterminous with the Term of this Lease for the benefit of Tenant, Tenant's invitees, licensees and all occupants under Permitted Leases and the invitees and licensees of such occupants, over and across and the right to use in connection with others for purposes of ingress and egress to and from the Premises, those areas designated as the "**Ingress and Egress Easement Areas**" on Exhibit C attached hereto (the "**Ingress and Egress Easement**"), provided such use is in accordance with all University policies and procedures applicable to such Ingress and Egress Areas. Landlord agrees to maintain and repair the Ingress and Egress Easement Areas in a first class manner and at least consistent with Landlord's maintenance and repair procedures for similar areas on the University's campus. At Tenant's request, Landlord and Tenant will execute and deliver in a form suitable for recording at the Ada County Clerk's office a further customary Easement Agreement consistent with the foregoing. Landlord and Tenant agree to reasonably cooperate with one another in good faith relative to the granting of additional easements or licenses on the Land and Landlord's adjacent property. Without limiting the generality of the foregoing, Landlord agrees to timely grant to Tenant sidewalk and or/or utility easements (including without limitation electricity, water and sewer) and licenses over and across Landlord's adjacent property as are reasonably needed for Tenant's development, construction and operation of the Premises, any and all of such additional easements to be reflected on Exhibit C.

(b) Temporary Easement. Landlord grants to Tenant a temporary exclusive easement in the areas designated as the "**Construction Easement Areas**" on Exhibit D attached hereto (the "**Construction Easement**"). The Construction Easement Areas shall be used solely for the purpose of Tenant's construction of the Improvements. Tenant shall be solely responsible for the safety and security of the Construction Easement Areas and shall provide appropriate fencing (including appropriate screening) and signage. Tenant shall repair any damage done to the Construction Easement Areas by Tenant's activities and in the case where structures are demolished by Tenant, Tenant will leave the Construction Easement Areas in a condition comparable to the immediately surrounding area. The Construction Easement is temporary and shall cease upon the Substantial Completion of the Improvements.

ARTICLE 2

TERM

The term of this Lease shall commence on the date on which the Landlord and Tenant execute and deliver this Lease (the "**Commencement Date**") and shall expire fifty (50) years after Substantial Completion of the Improvements, on the fiftieth (50th) anniversary thereof (the "**Term**"). The portion of the term from and after the Commencement Date through and until Substantial Completion of the Improvements is referred to herein as the "**Construction Term**".

ARTICLE 3

DEVELOPMENT OF IMPROVEMENTS

Section 3.01 Demolition and Abatement of Existing Improvements.

(a) The University acknowledges and agrees that as a condition for development of the Premises and in order to make the Project financially feasible, from and after the Substantial Completion of the Premises and for the duration of the Term, the University will demolish, repurpose or otherwise re-designate for a purpose other than student housing the existing undergraduate residence hall known as The John Barnes Towers. Tenant shall reimburse the University for some or all of the cost of such repurposing in the amount of Two Million Dollars (\$2,000,000), which payment shall be made along with the first payment of Base Rent.

(b) Tenant shall (i) demolish all existing building improvements on the Land, including removal of below grade construction such as basement walls, foundation walls and footings, in accordance with plans and specifications which are prepared by an architect or engineer selected by Tenant and approved by Landlord, and which are mutually approved by Landlord and Tenant; (ii) remove all unsuitable soils and debris from the Land and infill or backfill as necessary to leave the Land appropriate for the start of new construction, (iii) remove all Hazardous Materials, insofar as recommended by a Phase I or other environmental engineering report required by the environmental engineers for the Project within the existing building improvements on the Land (collectively, the “**Demolition and Abatement Work**”).

(c) In the event that, during the Demolition and Abatement Work, any subsurface Hazardous Materials are discovered on the Land, the remediation of such Hazardous Materials shall be the responsibility of Landlord in accordance with Section 17.02. If such Hazardous Materials cannot be remediated to the approval of the applicable regulatory agency without causing a delay in the Project schedule, Landlord and Tenant shall meet as soon as practicable after such fact becomes reasonably apparent and engage in good faith negotiations to resolve any issues presented by the delay caused by the discovery of the Hazardous Materials, which negotiations may include, but are not limited to, mutually acceptable modifications to the agreements set forth in this Lease that would permit Substantial Completion of the Improvements to occur by the Substantial Completion Date, or modifications to the Substantial Completion Date that would extend the anticipated expected completion date of the Improvements to the following calendar year. If Landlord and Tenant are unable to agree on appropriate modifications to this Lease following such negotiation as determined in the sole discretion of Landlord, Landlord shall be permitted to terminate this Lease in accordance with the terms of Section 3.04, and neither party shall be considered to be in default of this Lease.

(d) Upon the preliminary completion of the Demolition and Abatement Work, Tenant and Landlord shall inspect the Land and mutually agree that the Demolition and Abatement Work has been completed.

Section 3.02 Tenant’s Obligation to Construct Improvements.

(a) On behalf of Landlord and for the consideration set forth herein, Tenant shall construct the buildings, structures, improvements and fixtures on the Land (the “**Improvements**”) at Tenant’s sole cost and expense in accordance with plans and specifications approved by the University’s Associate Vice President for Campus Planning and Facilities (the “**Plans**”). Landlord shall promptly respond to each approval request received from Tenant. Following approval, any material change to the Plans is subject to the prior written approval of Landlord, which approval shall not be unreasonably withheld, conditioned or delayed. As depicted

on the conceptual drawings attached hereto as Exhibit B, the Improvements shall generally consist of two attached buildings containing 600 beds, lobby/lounge areas, study rooms, multi-purpose rooms, offices for Tenant's staff and space to be designated for use by the University (a general depiction and description of which is set forth on Exhibit B), all with appropriate furnishings and all as may be finally agreed upon and described in the Plans. Prior to commencement of construction of any of the Improvements, the Plans for such Improvements shall have been approved by the Idaho Division of Building Safety, and Tenant shall have provided a copy of such approved Plans to Landlord.

(b) Landlord makes no representations or warranties regarding the Land. Except for Landlord's Remediation Obligations (as described in Section 17.02), Landlord is not responsible to Tenant for known and unknown surface and subsurface conditions in or on the Land. Tenant agrees to design to LEED Silver status and subject to Landlord approval seek LEED Silver certification upon Substantial Completion of the Improvements. Tenant shall not be required to obtain any recertification or additional certification of LEED Silver status after the initial certification upon Substantial Completion. Tenant will provide a system for the Project that provides for the reclamation and retention of greywater (to include household wastewater and excluding toilet wastes) and retention of storm water on the Premises, such water systems can first be used for irrigation for landscaping on the Premises and any remaining water may be used by the Landlord. Landlord will reimburse Tenant for development of such system in an amount not to exceed \$500,000.

(c) The initial budget for the design, development and construction of the Improvements (as it may be amended from time to time, the "**Development Budget**") is attached hereto as Exhibit E, and sets forth the estimated development costs for the Premises, including hard costs, furniture, fixtures and equipment, design fees, development/legal/closing costs, pre-opening costs, capitalized labor cost and project travel cost (collectively, the "**Estimated Development Costs**" and once final, the "**Total Development Costs**"). Notwithstanding anything herein to the contrary, after the execution of this Lease, Landlord is precluded from making requests that would increase the Total Development Costs unless Landlord agrees to be responsible for such costs. In such case, the Landlord may elect to pay for such costs prior to Final Completion or may reduce the total Rent due from Tenant in an amount sufficient for Tenant to recoup the amount of the increase in Total Development Costs. In order to preserve the alignment of the interests of the parties, in no case will Landlord requested changes be permitted where the necessary adjustment would result in Percentage Rent of less than five percent (5%) of the Gross Revenue. Otherwise, the only increases to the Total Development Costs shall be those items that Tenant deems necessary in order to complete its obligations under this Lease in the manner required by this Lease. Any savings of the final agreed upon Total Development Costs as measured upon Final Completion of the Project will be split 50% to Landlord and 50% to Tenant and the Landlord's portion of any savings will be paid as a lump sum at Final Completion.

Section 3.03 Work Product. Upon Substantial Completion, all of the Tenant Parties' right, title and interest in and to the Plans, professional third party reports commissioned by the Tenant Parties (such as environmental, geotechnical, survey and market study), and other work products prepared by or on behalf of the Tenant Parties (such as budgets, proformas and market studies) in connection with the pre-development activities (collectively the "**Work Product**") shall become the property of the University.

Section 3.04 Covenants and Requirements of Construction.

(a) In the construction of the Improvements (sometimes referred to as the “**Work**”), Tenant:

(i) shall at its own cost and expense obtain and comply with all permits and approvals necessary for the construction of the Improvements;

(ii) shall comply with all Requirements of any Public Authority including without limitation, Environmental Laws, applicable to the Work; provided, however, that in performing the Work, and Tenant shall not be required to comply with construction standards imposed by the University on the construction of buildings by the University unless specifically noted otherwise in this Lease;

(iii) shall give prior notice to Landlord of all Tenant’s architects, engineers and general contractors to be engaged in the construction of the Improvements, permitting Landlord to object to any such engagement, provided that such objection will not be unreasonably made, conditioned or delayed;

(iv) shall perform the Work within the times provided for herein, in compliance with the Plans, in a good and workmanlike manner, and in accordance with all the provisions of this Lease;

(v) shall perform the Work in a manner not to unreasonably interfere with the University’s campus life;

(vi) shall allow Landlord unrestricted access to the Premises during the Work, including a project manager(s) designated by Landlord (and compensated by Landlord) to monitor the Work;

(vii) shall be fully and solely responsible for safety of the jobsite, the Construction Easement Areas and the immediately surrounding public areas and compliance with applicable safety laws and regulations;

(viii) shall timely pay, prior to the filing of any Liens, all proper accounts for work done or materials furnished under all contracts which it has entered into relating to the Work in accordance with the terms of the contracts and state law;

(ix) shall require the contractor to provide, on or before the commencement of the Work, the following bonds for the benefit of Tenant and Landlord, executed by a surety authorized to do business in the state in which the Premises are located and with an A.M. Best Rating of A- or better: (A) a co-obligee payment bond or a payment bond and a dual obligee rider in an amount equal to one hundred percent (100%) of the original contract price; and (B) a co-obligee performance bond or a performance bond and a dual obligee rider in an amount equal to one hundred percent (100%) of the contract price as it may be increased;

(x) shall develop a traffic plan addressing traffic interruptions during the duration of the Work. Tenant shall submit the traffic plan to the University and the Ada County

Highway District for approval promptly prior to the commencement of on-site Work at the Premises and Landlord shall approve or make modifications promptly after receipt of the traffic plan from Tenant. The traffic plan shall address all preexisting private and public automobile, bicycle and pedestrian transportation affected by the Work, including, but not limited to, access to bus stops and traffic during athletic, performing arts and other special events occurring during the duration of the Work and construction/contractor employee parking off site; and

(xi) shall provide for street cleaning, clear access to other University property, emergency vehicle access to all surrounding areas, construction staging with appropriate fencing and parking, hoisting requirements and limitations, project signage limitations, salvage items, and protection of surrounding sidewalks and existing infrastructure.

(b) No open burning of any materials or any use or storage of Hazardous Materials (except in accordance with Environmental Laws) shall be permitted on the Premises or the Construction Easement Areas.

(c) The Work on the Improvements will be limited to 8:00 a.m. to 7:00 p.m. Monday through Friday and 9:00 a.m. to 6:00 p.m. on Saturday, with no heavy construction noise prior to 8:00 a.m. or during the University's final examination periods (which periods shall be determined by the University in its sole and absolute discretion). Unless otherwise approved by Landlord, Tenant shall give seventy-two (72) hour written notice to residents and building operators prior to any utility shutdown which would affect the neighboring residential communities. No construction activity will be performed on the days of the University's commencement exercises.

(d) Any rock blasting performed on the Premises must be approved in writing by a representative designated by the University at least two (2) weeks prior to the blasting activities and in accordance with University blasting standards. All blasting activities performed by Tenant must comply with heavy construction noise work limitations and restrictions.

(e) Tenant shall require construction employees to adhere to a code of conduct approved by Landlord and in keeping with the code of conduct enforced by Landlord on other comparable construction projects undertaken by Landlord, which includes the University's policies prohibiting smoking on campus.

Section 3.05 Completion of Construction. Tenant agrees that Substantial Completion of the Improvements, in accordance with the Plans, and furnishing of the Improvements for occupancy under the Permitted Leases shall occur on or before July 31, 2017 (the "**Substantial Completion Date**"), and thereafter Tenant shall complete the construction and furnishing of the Improvements in accordance with all provisions of this Lease. If Substantial Completion and the fixturing and furnishing of the Improvements, in accordance with the Plans, have not occurred on or before the Substantial Completion Date for any reason, including but not limited to a Force Majeure Event, Tenant shall, at Tenant's expense, provide suitable housing approved by Landlord in its reasonable discretion, for all Residential Residents with whom Tenant has entered into Permitted Residential Leases and who cannot occupy the Improvements, until Substantial Completion and the fixturing and furnishing of the Improvements have occurred. Landlord agrees that it will cooperate with Tenant to house any such Residential Residents, including renting rooms

in existing University housing to Tenant. In the case of Force Majeure, Tenant shall only be required to reimburse Landlord for its actual out of pocket costs to house the displaced tenants. For any other delay not constituting Force Majeure, Tenant will pay the University's then current rental rate for any on-campus accommodations for Residential Residents. Notwithstanding anything set forth in this Lease to the contrary, if Substantial Completion of the Improvements has not occurred by the Substantial Completion Date due to the occurrence of a Force Majeure Event, the date by which Tenant must achieve Substantial Completion of the Improvements shall be extended by the number of days equal to the number of days Tenant is delayed in achieving Substantial Completion of the Improvements as a result of such Force Majeure Event; provided that in no event shall Substantial Completion of the Improvements occur later than July 31, 2017.

Section 3.06 Substantial Completion of Improvements.

(a) “**Substantial Completion**” of the Improvements shall be deemed to have occurred upon Landlord's receipt of evidence, in the form of a customary AIA certificate of the licensed architects employed by Tenant that Tenant has achieved Substantial Completion, and that:

(i) the Improvements shall have been completed in all respects in a good and workmanlike manner and in accordance with the Plans;

(ii) all building equipment and services, including utilities, heating and air conditioning systems, voice systems, data systems and video systems have been completed, are operating properly and are available for use by Tenant and Permitted Residents;

(iii) a certificate of occupancy or temporary certificate of occupancy has been issued permitting occupancy of the Improvements by Permitted Residents;

(iv) all other necessary approvals by public regulatory authorities have been given; and

(v) Tenant may enjoy beneficial use or occupancy of the Improvements and may use, operate, and maintain the Improvements in all respects, for their intended purpose, including use by Permitted Residents in accordance with the terms of the Permitted Leases.

(b) Subsequent to Substantial Completion, Tenant shall, to the extent such work is not already completed, promptly (and in any event not later than forty-five (45) days following Substantial Completion) complete the remaining grading, landscaping, debris removal and removal of surplus building material and rubbish from the Premises. Tenant shall also promptly (and in any event not later than sixty (60) days following Substantial Completion) complete and satisfy any conditions included in any temporary certificate of occupancy and achieve final completion. During such sixty (60) day period, Tenant shall perform all work in a manner that does not interfere with or disturb Permitted Residents occupying the Premises pursuant to Permitted Leases.

Section 3.07 No Bid Requirement. Tenant is not subject to Landlord's bidding rules and processes or other state law procurement standards during the construction of the Improvements. However, and to the extent required by law, Tenant agrees to promote open competitive bidding opportunities for participation by local, regional, and statewide contractors. Tenant will promote

opportunities for women and minority owned businesses. Tenant will keep Landlord informed as to how it proposes to meet these goals.

Section 3.08 Utility and Sewer Connections.

(a) Landlord and Tenant agree to jointly obtain necessary connection permits or private utilities prior to commencement of construction of the Improvements, including, but not limited to, a sanitary sewer permit. Landlord's responsibility for utilities, electric power, storm and sanitary sewers, and water lines and/or connections is expressly limited to assistance in obtaining connection permits, and, except as expressly set forth in Article 7, does not include any improvements to existing infrastructure including utilities, electric power, storm and sanitary sewers, and water lines and/or connections.

ARTICLE 4

USE OF PREMISES

Section 4.01 Tenant's Use. The primary use of the Premises is as the residential honors college for the University and as premium first year student housing and the Premises shall be designated as such by the University and Tenant for the duration of the Term. In addition to such primary use, Tenant may use the Premises generally for the co-ed housing of 8-credit or more undergraduate students and 6-credit or more graduate students enrolled at the University ("**Student Residents**"), individuals participating in, attending events at, sponsored by, sanctioned or otherwise related to the University, (all of which along with Student Residents are collectively, "**Residential Residents**"), (b) the provision of services and amenities to permitted occupants of the Premises; and (c) the leasing of any retail space in the Premises for commercial retail purposes to a subtenant (a "**Commercial Tenant**") to be approved by Landlord, in its reasonable discretion (the Residential Residents and Commercial Tenants, collectively, the "**Permitted Residents**"). Landlord shall approve the leases for the Permitted Residents (the "**Permitted Lease**"). The parties agree that Commercial Tenants shall not use the Premises for any of the uses described on Exhibit F (the "**Prohibited Commercial Uses**"). The inclusion of the list of Prohibited Commercial Uses shall not be deemed to imply that other commercial uses are reasonable, nor shall it limit Landlord's right to approve or disapprove Commercial Tenants in its reasonable discretion.

Section 4.02 University Use. EDR shall designate space in the Premises to the University for its exclusive use as an honors college and University office space as described on Exhibit B (the "**University Areas**") and the non-exclusive use of the common areas serving the University Areas, also as shown on Exhibit B. For any University Area that generates income or is primarily for the benefit of the University rather than the residents of the Project (except for the Dining Spaces, as described below), Landlord and Tenant shall agree on a reduction in the Base Rent to compensate Tenant for the loss of revenue for such designated area and the University will be responsible for a prorate share of utilities for such space. The University shall be responsible for costs associated with cabling plant, data headend equipment and distribution services required to provide Internet access to the University Areas. The University shall be responsible for providing the support and maintenance (including replacement and upgrades) for the equipment from the wall-plate out into the University Areas and Tenant shall be responsible for providing support and

maintenance (including replacement and upgrades) from the wall-plate back. Tenant shall clean, maintain and be responsible for all costs associated with the common areas serving the University Areas and the University shall be responsible for the cleaning, maintenance and costs of the University Areas, including prorated utilities based upon the percentage of square feet of the University Areas to the total Improvements.

(a) Dining Facilities and Other Food-based Retail Spaces (“Dining Spaces”).

In conjunction with the construction of the Project, Tenant at its own cost and expense will design and construct the Dining Spaces comprised of 14,720 gross square feet to a condition of a “cold dark shell” as generally defined in the industry including but not limited to: 1) an XXX AMP electrical panel with electrical service brought to the panel and connected, 2) all other utilities brought to the Dining Spaces and stubbed at a location to be determined by the University, 3) installation of any plumbing infrastructure which needs to be within the floor or foundation and stubbed at the perimeter at a location determined by the University. Tenant shall adhere to the development budget and detail as contained in Exhibit E Development Budget. If additional funds beyond the Development Budget are needed for the completion of the work specified by the University, subject to the written approval of the University, the Development Budget will be increased accordingly.

(b) Given the projected economies of scale of combining the buildout of the Dining Spaces with the overall construction of the Project, the University may elect for Tenant to design and construct improvements to the Dining Spaces, per University specifications. The cost of such improvements are currently budgeted at approximately \$60 per gross square feet of Dining Spaces and included within the Development Budget. If additional funds are needed for the completion of the work specified by the University, subject to the written approval of the University, the Development Budget will be increased accordingly.

(c) Upon substantial completion of the Dining Spaces, including the buildout improvements, the University will pay to Tenant the full sum of the final Development Budget in exchange for free and clear title, control and ownership of all improvements. Such University ownership will be in the form of a \$1 annual facility lease, such lease agreement will be an exhibit to this Lease, will be a triple-net lease as specified therein and will automatically renew unless the University provides Tenant with written confirmation of non-renewal. The term of the Dining Space lease is the same term as this Lease. Assuming 50 (1) year renewals, Tenant shall deduct fifty dollars from Tenant’s first ground lease payment as payment in full for all 50 annual dining lease renewals. At any time and at the sole discretion and expense of the University, the University may recognize its ownership of the Dining Spaces through a condominium agreement for the project which provides for the Dining Spaces as a unique condominium under University ownership. Tenant will cooperate and not unreasonably delay or withhold any actions needed for such condominiums.

(d) Any revenue derived by the University from operations of the Dining Space shall not be considered Gross Revenues, and shall be the sole revenue of the University.

ARTICLE 5

RENT

Section 5.01 Rent Commencement Date. Landlord agrees to abate rent prior to and during the Construction Term. Tenant shall have no liability for rent under this Lease until the Premises opens for occupation of Permitted Residents (such date being the “**Rent Commencement Date**”).

Section 5.02 Rent.

(a) Base Rent. Beginning on the Rent Commencement Date and continuing throughout the Term of this Lease, Tenant shall pay Landlord base rent in an amount equal to \$200,000 in the first year of operations and thereafter increasing each year by the Consumer Price Index (hereafter “**CPI**”) for All Urban Consumers, All Items, West Region (1982-1984=100) published by the Bureau of Labor Statistics of the United States Department of Labor (the “**Base Rent**”).

(b) Percentage Rent. Beginning on the Rent Commencement Date and continuing throughout the Term of this Lease, Tenant shall pay Landlord percentage rent in an amount equal to six and four-tenths percent (6.4%) of the Gross Revenue for each Fiscal Year (the “**Percentage Rent**” and along with the Base Rent, collectively, the “**Rent**”).

(c) Gross Revenue. The “**Gross Revenue**” shall consist of all revenues and other income received from the residents or the operation of the Premises, less bad debt expense all accounted for on a GAAP basis and excluding retail and dining income from spaces leased or controlled by the University such as the Dining Spaces. Gross revenue shall include, but not be limited to, rental income, fees (including application, damage, termination and all other fees charged by either Tenant or the University to Permitted Residents), vending and laundry income, all ancillary services and retail income (except retail and dining income from spaces leased or controlled by the University), and summer and holiday income. In furtherance of the foregoing, Landlord and Tenant acknowledge and agree that revenue and other income collected but not yet recognized as earned by Tenant shall not be included in Gross Revenue until such time that Tenant does recognize such revenue and other income as earned. For example, to the extent that Student Resident Rent is collected in full at the beginning of a semester, but Tenant recognizes such Student Resident Rent as earned on a monthly basis during the semester, such pre-paid Student Resident Rent would be included in Gross Revenue at the time that Tenant recognizes it as earned.

(d) Payment Date. The initial Rent shall be due on the Rent Commencement Date. Thereafter, Rent for the previous month shall be due and payable to Landlord on the twentieth (20th) day of each month of each fiscal year measured July 1 through June 30 (“**Fiscal Year**”).

Section 5.03 Net Income. As used herein for the purpose of calculating the Early Termination Fee and to assess any negative impact to the Project from changes to University Policies, the term “**Net Income**” for each Fiscal Year means the amount by which Gross Revenue exceeds Operating Expenses. Net Income shall not include any development costs or depreciation or amortization of such costs.

Section 5.04 Operating Expenses. “**Operating Expenses**” shall mean the sum of GAAP expenditures associated with the management and operation of the Project (excluding amortization and depreciation but including an aggregate per bed annual balance sheet reserve for capital repairs and replacements). Operating Expenses shall consist of the following expenses: marketing; postage and other on-site office expenses, compensation of on-site personnel; a management fee not to exceed an amount equal to three percent (3%) of Gross Revenue during such Fiscal Year (“**Management Fee**”); student amenities; utilities; data/cable; maintenance and repair of the Premises in excess of any insurance proceeds received for repair or replacement of the Premises; landscaping services; taxes; costs of insurance; Replacement Reserve Allocation and actual capital expenditures in excess of the Replacement Reserve Allocation less any insurance proceeds received for capital improvements or replacements of the Premises; payments to Landlord for Rent; and any other costs directly related to the operation of the Premises.

Section 5.05 Late Payment. If Tenant shall fail to pay the Rent or any other amount due under this Lease, when the same is due and payable, such unpaid amount shall bear interest from the due date thereof to the date of payment at the rate of ten percent (10%) per annum (“**Default Rate**”). In no event shall the default rate be higher than the legal limit. The charges under this provision shall be in addition to all of Landlord’s other rights and remedies hereunder or at law and shall not be construed as a penalty.

Section 5.06 Rent Payments. Tenant shall pay Landlord all Rent due hereunder, without offset or abatement and without previous demand, at the office of the Landlord, or at such other address as the Landlord may designate by notice to Tenant. Rent for any partial Fiscal Years or payment periods shall be prorated. If Landlord collects rent under Permitted Leases on behalf of Tenant, then, in the event that Tenant is in default hereunder for failure to pay Rent or other sums due, after the expiration of any applicable cure period, Landlord shall have the right to offset any amounts due and payable to Landlord by Tenant under this Lease against such Rent or other sums due.

Section 5.07 Net Lease. The Rent payable by Tenant under this Lease shall be net to Landlord. Except as otherwise provided in this Lease or another written contract between Landlord and Tenant, all costs, expenses and obligations of every kind and nature whatsoever relating to the Premises, which may arise or become due during the term of this Lease (the “**Expenses**”), shall be paid by the Tenant and Tenant shall indemnify and save Landlord harmless from and against the Expenses.

Section 5.08 Rent Not to Abate. Tenant’s obligation to pay Rent under this Lease shall not be affected by, nor shall the Rent abate or be diminished, reduced, rebated or refunded on account of any want of repair, destruction or damage to the Premises or the Improvements, regardless of the cause or extent of them, or for any inconvenience, discomfort, interruption of business or otherwise arising from the making of alterations, changes, additions or repairs to the Premises or the Improvements, or because of any present or future governmental laws, ordinances, requirements, orders, directives, rules or regulations, or for any other cause or reason.

Section 5.09 Landlord’s Right to Audit. Within sixty (60) days of the end of each Fiscal Year, Tenant shall provide Landlord a written statement showing the Gross Revenue for the preceding Fiscal Year containing a certification by an executive officer of the Tenant Parties of

the statement's truth, accuracy, and completeness ("**Annual Statement**"). The Landlord shall have the right, from time to time, to examine and make copies of records pertaining to the Annual Statement (a "**Rent Audit**"). Upon request of the Landlord to review such records, Tenant shall promptly provide the Landlord with electronic copies of such records reasonably requested. If the Rent Audit discloses any deficiency in the payment of Rent by Tenant ("**Deficient Amount**"), then Tenant shall promptly pay the Landlord the Deficient Amount together with interest at the Default Rate upon demand. If the Deficient Amount is greater than five percent (5%) of the actual Rent due, then Tenant shall reimburse the Landlord for the cost of the Rent Audit. If the Rent Audit shall disclose any overpayment of Rent, the Landlord shall promptly reimburse Tenant for said overpayment.

ARTICLE 6

MANAGEMENT OF THE PREMISES

The Premises shall be operated and maintained in accordance with the terms of that certain Operating Agreement entered into by and between Landlord and Tenant on even date herewith, as such Operating Agreement may be amended, restated, supplemented, replaced or extended. In the event a conflict arises between the Operating Agreement and the Lease, the terms and conditions of the Lease shall have precedence.

ARTICLE 7

LANDLORD OBLIGATIONS

Section 7.01 Generally. Without limiting the generality of the Tenant's obligations to construct, repair, manage and maintain the Premises at Tenant's sole cost and expense as set forth herein and in the Operating Agreement, Landlord has agreed to perform certain obligations and reimburse Tenant for certain expenses specifically set forth below and elsewhere in this Agreement or as may be set forth in the Operating Agreement.

Section 7.02 Landlord Repair and Maintenance Obligations. Landlord agrees that it will:

(a) maintain that portion of the sanitary sewer located on the Premises that serves the Improvements at its expense, to no lesser degree than Landlord undertakes such services or functions at similar locations on the University's campus;

(b) provide snow and ice removal services for the sidewalks and patios located within the Premises in a similar manner with its performance of such services at similar locations on the University's campus; provided, however, that Landlord shall not be responsible for the replacement or repair of any pedestrian sidewalks on the Premises;

(c) maintain the landscaping and lawns in the Premises, all in a similar manner with its performance of such services at similar locations on the University's campus; provided that the Landlord shall not be responsible for the replacement of any trees, bushes or other landscaping on the Premises.

Section 7.03 Tenant's Right to Perform Landlord's Covenants. If Tenant believes Landlord is not fulfilling its obligations with regard to the repair and/or maintenance of the Premises, then, upon reasonable advance notice under the circumstances, Tenant may perform said services and the parties shall resolve any disputes as to whether (a) Landlord has failed to fulfill the foregoing obligations and (b) if in the event that it is determined that Landlord has failed to fulfill such obligations, damages incurred by Tenant as a result of such failure, first by engaging in negotiation under Section 24.02, and if necessary by mediation under Section 24.03.

ARTICLE 8

REPAIRS, MAINTENANCE AND ALTERATIONS

Section 8.01 Repairs and Maintenance. Except for the obligations of Landlord specifically set forth herein, Tenant, at its sole cost and expense, shall keep, manage and maintain all portions of the Premises in a "**Class A Condition**" as defined by 2010-2012 BOMA Standards. Tenant's obligations apply to all interior and exterior areas of the Premises, all structural and non-structural elements, and include, but are not limited to, heating, air conditioning and ventilating systems, plumbing and electrical systems, communications systems and elevators. In addition, Tenant will provide snow and ice removal services for the sidewalks and patios located within the Premises; maintain the landscaping and lawns of the Premises; and maintain and repair the outdoor amenities installed by Tenant on the Premises. Tenant's obligations to maintain the Premises shall include the obligation to repair, restore and replace elements of the Premises from time to time in order to keep the Premises in a Class A Condition. Tenant shall maintain a schedule outlining expected future repairs, replacements and capital improvements for the Premises and the timeframe in which such matters are expected to be accomplished (the "**Repair, Replacement and Capital Improvement Schedule**"), which shall be reviewed and approved by Landlord. Tenant's obligations under this Article shall apply to all maintenance matters, ordinary and extraordinary, and foreseen and unforeseen. Any repairs performed by Tenant shall be at least equal in quality and class required for the original Work. Tenant shall manage and maintain the Premises as would a prudent owner and shall not commit, or allow any of its employees, tenants, visitors, invitees or other occupants of the Premises to commit, any waste or any nuisance on the Premises, or permit any part of the Premises to be used for any dangerous, obnoxious or offensive trade or business, and shall not permit any damaged structures to remain on the Premises for any unreasonable period of time.

Section 8.02 Alterations, Improvements and Additions. Upon completion of the construction of the Improvements, Tenant shall not make any alterations, improvements or additions to the exterior of the Premises (collectively "**Alterations**") without the prior written consent of Landlord, which consent will not be unreasonably denied, withheld, delayed or conditioned; provided, however, that the prior written consent of Landlord shall not be required for routine repairs, replacements or non-structural alterations that do not change the exterior appearance of the Premises. Tenant's request to Landlord for permission to make Alterations shall be accompanied by reasonably detailed plans and specifications in light of nature of the proposed Alterations involved, estimated costs and the identity of the contractors who shall perform the work. Landlord will promptly respond to Tenant's request and will make good faith efforts to complete its approval process within forty-five (45) days. Any alterations permitted by Landlord

shall be at least equal in quality and class to the original Work and as required for the original Work shall be consistent with permitted uses of the Premises as provided in Article 4.

Section 8.03 Capital Improvement and Replacement Schedule. Tenant shall maintain the Capital Improvement and Replacement Schedule, amending as necessary to provide an updated five (5) year outlook that forecasts the funds needed on an annual basis for capital replacement and improvements to the Premises. Tenant will provide the Capital Improvement and Replacement Schedule to Landlord for review and approval on a periodic basis and no less than annually. Each year, Tenant shall include in operating expenses a Replacement Reserve Allocation, which shall be \$200 per bed in the first year of operations of the Premises, escalating by CPI annually thereafter. Upon the expiration or earlier termination of this Lease the Replacement Reserve Allocation Excess, which is the amount by which the cumulative annual Replacement Reserve Allocation exceeds the cumulative actual capital expenditures on the Project, shall be transferred to Landlord for its use to demolish or refurbish the Project.

ARTICLE 9

TAXES AND UTILITY EXPENSES

Section 9.01 Taxes.

(a) Pursuant to applicable Idaho law, the Premises is entitled to certain tax exemptions, credits or abatements as a result of the use of the Premises for dedicated on-campus student housing for the University (the “**Tax Exemptions**”). The parties acknowledge and agree that the Premises is entitled to all benefits that result from the Tax Exemptions, and further acknowledge and agree that the financial feasibility of the Project is dependent upon the availability of the Tax Exemptions. In the event that, at any point during the Term, (i) it is determined that the Premises is not entitled to the Tax Exemptions; or (ii) the University is compelled by legal process to agree to any payments in lieu of Taxes with respect to the Premises in connection with the Tax Exemptions (and the University shall not voluntarily agree to payments in lieu of Taxes with respect to the Premises); or (iii) it is determined that the Tax Exemptions are otherwise unavailable, then the parties will work cooperatively to reach the best solution for the economic viability of the Project and affordability of students with the following options implemented in the following order: (A) the parties will explore alternate legal structures for the operation and ownership of the Premises that result in a Tax Exemption; (B) the parties will assess then current market conditions to determine if it is feasible and advisable to increase the student resident rent to offset the adverse impact of additional taxes on the Premises; and if the prior two options are not feasible or advisable, (C) Landlord and Tenant shall adjust the Base Rent in an amount equal to the annual Tax burden resulting from the denial, termination or change in expected Tax Exemption, provided, however, that if Tenant in future years is once again meeting the pro forma projections without abatement, the University shall receive all excess above Tenant’s projected IRR until it has been repaid the amount of abated rent and once each party has been made whole, rentals shall return to the rental amounts provided in the Lease with no abatement. If the sums that would have otherwise been remitted to the University as Base Rent are not sufficient to meet the tax expense, then Landlord and Tenant will agree to reductions in the Percentage Rent to equal the annual tax burden, up to the elimination of Percentage Rent. Notwithstanding the foregoing, any obligation of Landlord under this section is expressly limited by Section 27.11

hereof (Non-Recourse Agreement), and the Landlord shall have no obligation hereunder beyond the Annual Project Revenues.

(b) Notwithstanding the foregoing, on behalf of Landlord, Tenant shall pay and discharge punctually when due all taxes, if any, any payments in lieu of taxes, assessments, water and sewer rents, rates and charges, vault license fees or rentals, levies, license and permit fees and all other governmental impositions and charges of every kind and nature whatsoever, extraordinary as well as ordinary, foreseen and unforeseen, which shall be charged, levied, laid, assessed, imposed upon, become due and payable out of or in respect of, or become liens upon the whole or any part of the Premises, together with all interest and penalties, under all present or future laws, ordinances, requirements, orders, directives, rules or regulations or the federal, state, county, and city governments and of all other governmental authorities whatsoever as well as and including all payments in lieu of any of the foregoing (the “**Taxes**”). With the prior written consent of Landlord, in the Landlord’s sole and absolute discretion, Tenant may, at its sole cost and expense, seek a tax abatement, tax credit or other tax exemption that is or may become available for the Premises, other than the Tax Exemptions.

Section 9.02 Time for Payments. Tenant shall be deemed to have complied with the covenants of this Article if the Taxes are paid before any fine, penalty, interest or cost may be added to them. Tenant shall produce and exhibit to Landlord reasonable evidence of payment on Landlord’s request.

Section 9.03 Tenant’s Right to Contest Taxes. With the exception of payment in lieu of taxes or other tax abatement or bond financing related matters, which shall require the prior approval of Landlord, which may be withheld in Landlord’s sole and absolute discretion, Tenant shall have the right to contest or review, in good faith, all Taxes by appropriate legal proceedings, or in such other manner as may be appropriate; provided that Tenant shall promptly pay all Taxes when due. Tenant shall conduct the proceedings diligently, at its own cost and expense. Landlord shall execute all documents reasonably necessary for the proceedings, at Tenant’s sole cost and expense.

Section 9.04 Right to Refund of Taxes. With the exception of the Tax Exemption, any savings, credits, refunds or rebates obtained as a result of any tax abatement or other tax exemption being obtained for the Premises shall belong to Tenant for use at the Premises.

Section 9.05 Utilities. Tenant shall pay and discharge punctually all water and sewer rents, rates and charges and all charges for steam, heat, gas, hot water, electricity, light and power, and any and all other services and utilities furnished to the Premises.

ARTICLE 10

COMPLIANCE WITH APPLICABLE LAWS

Section 10.01 Compliance by Tenant.

(a) Tenant, at its sole cost and expense, shall (i) promptly comply with all present and future laws, ordinances, codes, requirements, orders, directives, rules, regulations and permits of all federal, state, county, city, and town governments, and of all other governmental

authorities, agencies, departments, boards and officers, or any other body or bodies (each, a “**Public Authority**”) which may exercise similar functions, foreseen and unforeseen, ordinary and extraordinary, applicable to the Premises or any part thereof or to its use, or to the operations or activities of Tenant, including Permitted Tenants, upon the Premises, whether in force at the commencement of the term of this Lease or passed, enacted, directed, issued or amended in the future including, without limitation, Environmental Laws, whether or not such requirements are actually imposed upon Landlord or Tenant, and whether or not compliance shall require structural changes and (ii) comply with the University policies listed on Exhibit F (the “**University Policies**”); provided, however, that Tenant shall not be required to comply with any future amendments to the University Policies within the discretion of the University, if such future amendment would cause a materially adverse economic impact on Tenant’s Net Income unless such policy is necessitated by the State Board of Education action, policy, or directive or necessary for the University to comply with laws, policies, directives or regulations applicable to the University and the Project ((i) and (ii), collectively, the “**Requirements**”). Tenant shall pay all costs, expenses, liabilities, obligations, losses, damages, fines, penalties, charges, claims and demands, including, without limitation, costs associated with administrative and judicial proceedings, and reasonable fees of architects, engineers, consultants and attorneys, that may in any manner arise from or be imposed resulting from the failure of Tenant to comply with this Article or as are imposed upon Tenant by a Public Authority. Landlord shall reasonably cooperate, without expense to Landlord, with Tenant in complying with the Requirements.

(b) Tenant shall comply with the requirements of all policies of public liability, fire and all other policies of insurance maintained by Tenant with respect to the Premises. Tenant shall promptly take steps to remedy or prevent any violation or attempted violation which is known to Tenant of the provisions of this Section by any subtenant of the Premises, including Permitted Residents.

Section 10.02 Challenge of Validity. Upon prior written notice to Landlord, Tenant shall have the right to contest by an appropriate legal action, case or proceeding (a “**Proceeding**”) diligently conducted in good faith, without cost or expense to Landlord, the validity or application of the Requirements. If compliance with the Requirements may be delayed during the Proceeding without the incurrence of any Lien, charge or liability of any kind against the Premises and without subjecting Tenant or Landlord to any liability, civil or criminal, for failure to comply with them, Tenant may delay compliance with them until the final determination of the Proceeding.

Section 10.03 Survival. The provisions of this Article 10 shall survive the expiration or earlier termination of this Lease for one (1) year, and thereafter Tenant shall have no further liability to Landlord except as otherwise expressly provided for herein.

ARTICLE 11

COVENANT AGAINST LIENS

Section 11.01 Tenant’s Obligations to Discharge. Tenant shall promptly (and in any event within twenty (20) days of the date of filing), (a) furnish a bond satisfactory for the release of any filed mechanic’s, laborer’s, or materialman’s lien, other encumbrance lien or charge upon the Premises, or any part of it (a “**Lien**”) or (b) otherwise obtain a release or discharge any Lien.

Section 11.02 Landlord's Rights to Discharge. If any Lien shall be filed against the Premises, or any part of it, and Tenant has not discharged it of record or posted a bond satisfactory to Landlord to assure its discharge in accordance with Section 11.01 within twenty (20) days after the date on which the Lien is filed, then Landlord, in addition to any other right or remedy it may have, and without waiving its rights to declare a default, may discharge the Lien of record by bonding or otherwise. Any amounts paid by Landlord in the discharge by bonding of the Lien if Tenant fails to do so as required above, including, but not limited to, penalties, interest, costs, expenses, allowances and reasonable attorney's fees shall be paid by Tenant to Landlord on demand.

Section 11.03 Tenant's Indemnification against Liens. Tenant shall indemnify and hold harmless Landlord against any and all damages, losses and expenses (including, but not limited to, penalties, interest, costs, allowances and reasonable attorney's fees) arising from or incurred as a result of any Lien or claim asserted by any third party.

Section 11.04 No Implied Consent of Landlord. Nothing in this Lease shall be construed as the consent or request of Landlord, express or implied, by inference or otherwise, to any contractor, subcontractor, laborer or materialman for the performance of any labor or the furnishing of any material for any improvement, alteration or repair of the Premises, or any part of it.

Section 11.05 Landlord's Obligations to Discharge. If, as a result of Landlord's actions, a Lien is placed against the Land, Landlord shall promptly (and in any event within twenty (20) days of the date of filing), (a) furnish a bond satisfactory for the release of the Lien, or (b) otherwise obtain a release or discharge the Lien.

Section 11.06 Tenant's Rights to Discharge. If, as a result of Landlord's actions, a Lien is placed against the Land, and Landlord has not discharged it of record or posted a bond satisfactory to Tenant to assure its discharge in accordance with Section 11.05 within twenty (20) days after the date on which the Lien is filed, then Tenant, in addition to any other right or remedy it may have, may discharge the Lien of record by bonding or otherwise. Any amounts paid by Tenant in the discharge by bonding of the Lien if Landlord fails to do so as required above, including, but not limited to, penalties, interest, costs, expenses, allowances and reasonable attorney's fees shall be paid by Landlord to Tenant on demand.

ARTICLE 12

ENTRY ON PREMISES BY LANDLORD

Subject to the rights of the Permitted Residents under the terms of the Permitted Leases, Tenant shall permit Landlord and its authorized representatives to have reasonable access to the Premises at all reasonable times for the purposes of (a) inspecting them, or (b) upon five (5) days prior notice to Tenant (except in the case of an emergency, for which no prior written notice is required), making any necessary repairs required under Article 7 of this Lease or performing any other work that may be reasonably necessary because of Tenant's Default of Tenant's obligations hereunder with respect to the making of required repairs. Landlord's right of entry shall not imply

any duty on its part to perform any repairs or work and shall not constitute a waiver of any Default of Tenant.

ARTICLE 13

ASSIGNMENT AND SUBLETTING

Section 13.01 Assignment and Subletting.

(a) Except as otherwise set forth in this Article 13, Tenant shall not assign this Lease or, except to Permitted Residents, sublet the whole or any part of the Premises, without the prior written consent of Landlord, which consent may be granted, conditioned or withheld in the Landlord's sole and absolute discretion for any reason or no reason at all, and any such purported assignment or sublease in violation of this Lease shall be null and void and of no effect. An assignment shall include any transfer of this Lease, whether voluntary or involuntary or by operation of law. Notwithstanding the foregoing, Tenant may assign this Lease to another Tenant Party (including affiliate Tenant Parties formed following the Commencement Date or joint venture entities that are controlled by a Tenant Party), so long as Guarantor (or any permitted substitute or replacement guarantor) continues to guarantee the performance of such Tenant Party in the same manner as it guarantees Tenant's obligations hereunder.

(b) The occurrence of a Change in Control of Tenant, Parent or Guarantor shall not be deemed to be an assignment of this Lease; provided that following the Change in Control, Parent or Guarantor meets the financial standards of a Qualified Assignee and assumes all of the obligations of this Lease and any other agreements related to the Premises (a "**Permitted Change in Control**"). A Permitted Change in Control shall not trigger any rights of Landlord to terminate this Lease. Landlord agrees not to seek equitable relief or take any other action to delay or hinder a Change in Control of Parent.

(c) To the extent permitted by law and subject to Landlord's termination right set forth in Section 13.02, after Substantial Completion of the Improvements and so long as there is no pending Event of Default, Tenant has the right to assign or sublet this Lease, provided all of the following conditions are satisfied (a "**Permitted Assignment**"):

- (i) the assignment or sublease is to a Qualified Assignee; and
- (ii) the use of the Premises by the Qualified Assignee shall comply with the use restrictions contained in Article 4 of this Lease and with all other terms and conditions of this Lease; and
- (iii) a Tenant Event of Default shall not exist under this Lease; and
- (iv) the Qualified Assignee, in a document reasonably satisfactory to Landlord and in recordable form, shall agree to faithfully perform and be bound by all of the terms, conditions, covenants, provisions and agreements of this Lease; and
- (v) the Qualified Assignee, in a document reasonably satisfactory to Landlord, shall agree not to finance its acquisition of the Improvements and assumption or sublease

of this Lease in a manner that would adversely impact the debt capacity or credit rating of the University, without the prior written consent of the University, which consent may be granted or withheld in the University's sole and absolute discretion; and

(vi) any sublease shall provide that it is subject to the terms and conditions of this Lease and may, at Landlord's option after the termination or expiration of this Lease, require the sublessee to attorn to Landlord.

(d) Landlord's consent to a Permitted Assignment shall be given promptly and in any case, within sixty (60) days. Landlord's consent to any assignment or sublease shall not constitute or be deemed its consent, nor constitute a waiver of the requirement of its consent, to any subsequent assignment or sublease.

(e) Tenant shall not assign any of its rights under this Lease separate from any Permitted Assignment.

(f) A Permitted Assignment shall relieve Tenant of any liability arising under this Lease for acts, errors or omissions occurring on or after the effective date of the assignment.

(g) Notwithstanding anything to the contrary contained in this Lease, no Permitted Lease shall be considered an assignment of or a sublease under this Lease requiring Landlord's consent, except as required under Article 4.

(h) For purposes of this Lease, the following terms shall have the following definitions:

(i) **"Change in Control"** shall mean a merger or consolidation of a party, or any entity which controls such party, with or into another person, corporation or other entity, in which the party, or any entity which controls such party, shall not be the surviving entity.

(ii) **"Qualified Assignee"** shall mean a person or entity unaffiliated with the Tenant Parties that, as of the date of the proposed assignment or transfer: (A) has a net worth of at least \$75,000,000 (which condition may be satisfied on a consolidated basis with an affiliate guarantor which guarantees the obligations of such entity) and (B) has at least five (5) years of experience owning, managing and operating student housing facilities comparable to the Premises, or retains a third party management company with such experience pursuant to a management agreement reasonably satisfactory to Landlord; provided that the Landlord shall have the right to approve the entity responsible for the management of the Premises following the assignment, which approval shall be reasonable under the then current circumstances; and (C) is not a Disqualified Assignee. Lessee will provide or cause to be provided to Lessor, not less than sixty (60) days before any proposed assignment, (i) a written request for approval of the proposed assignment, (ii) the name of the proposed assignee, (iii) financial statements and information regarding the proposed assignee and any proposed lease guarantor, all in form satisfactory to Lessor, and (iv) the terms of such proposed assignment.

(iii) **"Disqualified Assignee"** shall mean a proposed assignee if any of the principals or officers of the assignee or the assignee: (A) is listed on the Specially Designated Nationals and Blocked Persons List maintained by the Office of Foreign Assets Control ("OFAC")

and/or on any other list of terrorists or terrorist organizations maintained pursuant to any of the rules and regulations of OFAC or pursuant to any other applicable legal authority (such lists are collectively referred to as the “Lists”); (B) is an individual, corporation, partnership, limited liability company, unincorporated organization, government or any agency or political subdivision thereof or any other form of entity (individually or collectively as the context requires, a “Person”) who has been determined by competent authority to be a Person with whom a U.S. Person is prohibited from transacting business, whether such prohibition arises under U.S. law, regulation, executive orders or any lists published by the United States Department of Commerce, the United States Department of State including any agency or office thereof; (C) is owned or controlled by, or acts for or on behalf of, any Person on the Lists or any other Person who has been determined by competent authority to be a Person with whom a U.S. Person is prohibited from transacting business, whether such prohibition arises under U.S. law, regulation, executive orders or any lists published by the United States Department of Treasury or the United States Department of State including any agency or office thereof; or is under investigation by any governmental authority for, or has been charged with, or convicted of, money laundering, drug trafficking, terrorist-related activities, any crimes which in the United States would be predicate crimes to money laundering, or any violation of any Anti-Money Laundering Laws. For purposes hereof, “U.S. Person” means any United States citizen, any entity organized under the laws of the United States or its constituent states or territories, or any entity, regardless of where organized, with a principal place of business within the United States or any of its territories. For purposes hereof, “Anti-Money Laundering Laws” means those laws, rules, regulations, orders and sanctions, state and federal, criminal and civil, that (i) limit the use of and/or seek the forfeiture of proceeds from illegal transactions; (ii) limit commercial transactions with designated countries or individuals believed to be terrorists, narcotic dealers or otherwise engaged in activities contrary to the interests of the United States; or (iii) are designed to disrupt the flow of funds to terrorist organizations. Such laws, regulations and sanctions are deemed to include, but not be limited to: the Executive Order Number 13224 on Terrorism Financing (September 23, 2001), the Patriot Act; the Currency and Foreign Transactions Reporting Act (also known as the Bank Secrecy Act, 31), the Trading with the Enemy Act, 50 U.S.C. Appx. Section 1 *et seq.*, the International Emergency Economics Powers Act, 50 U.S.C. Section 1701 *et seq.*, and the sanction regulations promulgated pursuant thereto by OFAC, as well as laws relating to prevention and detection of money laundering in 18 U.S.C. Sections 1956 and 1957, as amended.

An assignee will also be a Disqualified Assignee under the following circumstances: (i) if it is debarred or suspended from doing business with the federal government or any state or local government or has been disbarred or suspended at any time during the five years preceding the assignment; (ii) if it has been convicted of any crime in any jurisdiction in which the possible sentence is greater than three years; (iii) if it has (A) commenced a voluntary case, or had entered against it a petition, for relief under any federal bankruptcy act or any similar petition, order or decree under any federal or state law or statute relative to bankruptcy, insolvency or other relief for debtors, (B) caused, suffered or consented to the appointment of a receiver, trustee, administrator, conservator, liquidator or similar official in any federal, state or foreign judicial or non-judicial proceedings, to hold, administer and/or liquidate all or substantially all of its property, or (C) made an assignment for the benefit of creditors.

Section 13.02 Landlord’s Right to Terminate Lease Upon Bona Fide Offer.

(a) In the event that Tenant shall receive a Bona Fide Offer at any time during the Term, Tenant shall give Landlord written notice (the “**Bona Fide Offer Notice**”) of the terms of the offer, including (i) the name and address of the proposed transferee, (ii) the consideration offered and (iii) all other material terms and conditions of the transfer. For purposes hereof, a “**Bona Fide Offer**” shall mean a written offer from a Qualified Assignee to purchase the Improvements and assume all of the Tenant Parties’ rights in and obligations under this Lease in a transaction meeting the requirements of a Permitted Assignment, which Tenant is willing to accept.

(b) Upon receipt of the Bona Fide Offer Notice, Landlord shall have the right (i) to terminate this Lease upon the payment to Tenant of an amount equal to the Bona Fide Offer, or (ii) to permit Tenant to transfer this Lease to the Qualified Assignee pursuant to the Bona Fide Offer. If Landlord wishes to terminate this Lease, then within ninety (90) days of Landlord’s receipt of the Bona Fide Offer Notice (the “**Election Period**”), Landlord shall provide Tenant with a binding offer to exercise its right to terminate this Lease upon payment of the Bona Fide Offer amount (the “Election Notice”).

(c) If Landlord elects to terminate this Lease by delivery of the Election Notice, Landlord shall pay to Tenant an amount equal to the Bona Fide Offer. Landlord’s termination of this Lease shall occur no later than one hundred eighty (180) days after Landlord’s receipt of the Bona Fide Offer Notice (such 120-day period, the “**Bona Fide Offer Termination Period**”).

(d) If Landlord (i) provides written notice to Tenant that it does not desire to terminate this Lease or fails to exercise its right to deliver the Election Notice during the Election Period; (ii) or, having properly indicated a desire to terminate this Lease, thereafter fails to terminate this Lease during the Bona Fide Offer Termination Period, Tenant may transfer this Lease to the Qualified Assignee on the terms stated in the Bona Fide Offer free from the termination right set forth in this Section 13.02; provided, however, that if such transaction is not consummated within one (1) year after the expiration of the Election Period or the Bona Fide Offer Termination Period, as applicable, Tenant’s right to transfer pursuant to such Bona Fide Offer shall expire, and the right to terminate this Lease must again be offered to Landlord pursuant to this Section 13.02.

(e) Tenant covenants that it shall accept no Bona Fide Offer or convey any of its rights in or obligations under this Lease until it has complied with the terms of this Section 13.02. Any conveyance of Tenant’s rights in and obligations under this Lease made in the absence of full satisfaction of this Section 13.02 shall be null and void and of no effect. Landlord may enforce this Section 13.02, without limitation, by injunction, specific performance or other equitable relief.

(f) Landlord’s election not to exercise its right to terminate this Lease shall not prejudice Landlord’s rights hereunder as to any further Bona Fide Offer. The terms and conditions contained in this Section 13.02 shall be binding upon the successors and assigns of Tenant.

(g) In the event such transaction is not fully consummated within the time provided for in such Bona Fide Offer, or in the event that the terms of such Bona Fide Offer are modified, then Landlord’s right to terminate this Lease shall remain in full force and effect, and

Tenant shall be obligated to submit to Landlord any such modified Bona Fide Offer or any subsequent Bona Fide Offer, in accordance with the provisions of subsection (a) of this Section 13.02.

ARTICLE 14

HOLDING OVER

In the event Tenant shall remain in occupation of the Premises after the expiration or earlier termination of this Lease, and in addition to having the right to remove the Tenant in any manner permitted by law, and in addition to all other rights Landlord may have in law, in equity, and under this Lease, Tenant shall be liable to Landlord for all Rent during any period of holdover in the amount equal to one hundred ten percent (110%) times the Rent payable immediately prior to such expiration or termination, and the tenancy created by acceptance of the rent and such holding over shall be that of a tenancy from month to month only.

ARTICLE 15

SURRENDER

Upon the expiration or earlier termination of the term of this Lease, Tenant shall, subject to the rights of Permitted Residents under Permitted Leases, quit and peacefully surrender and deliver to Landlord the possession and use of the Premises, without delay, in good order, condition and repair, except for reasonable wear and tear and free and clear of all liens, encumbrances and charges, and all rights of Tenant under this Lease and in the Improvements shall terminate and Tenant shall convey its fee interest in the Improvements to Landlord by deed pursuant to the laws of the State of Idaho. Tenant shall not remove any Personal Property, or any additions to or replacements thereof made during the Term of this Lease, and shall only remove its proprietary or confidential information and documents. Notwithstanding the termination of the Lease, Tenant shall remain liable to Landlord for any loss or damage suffered by the Landlord because of any Default of Tenant. Upon surrender, Tenant shall assign to Landlord or Landlord's designee all Permitted Leases, subleases and other agreements and rights relating to the operation or use of the Premises, or Tenant's interest in them, as Landlord may request. The provisions of this Article shall survive for one (1) year following the expiration or earlier termination of this Lease. Tenant shall cooperate with Landlord to provide any documentation reasonably requested by Landlord for surrender of the Premises to ensure that Landlord has good and lawful title to the Premises following termination of the Lease.

ARTICLE 16

SIGNS; NAMING RIGHTS; ADDITIONAL HOUSING

Section 16.01 Signs. Tenant shall not install or replace, nor permit the installation or replacement by others, of any signs or advertising matter visible from the exterior of the Premises without the prior written consent of Landlord, which consent will not be unreasonably denied, withheld, delayed or conditioned, so long as such signs conform to the University's design standards for similar signs on its campus and with the University's regulations on use of the

University name and marks. Tenant shall comply with all applicable requirements of governmental and Landlord authorities and policies having jurisdiction and shall obtain all necessary governmental approvals prior to the installation or replacement of any sign or other advertising matter permitted by Landlord.

Section 16.02 Naming Rights. Landlord shall retain all naming rights and Tenant shall cooperate with Landlord in the naming of any portion of the Premises, with Tenant being permitted to have a representative serve as an ad hoc member of the naming committee. All money related to the naming rights shall remain the Landlord's. The naming of all Improvements shall comply with Landlord's naming rights policies. Any costs related to a change in the name of the Premises after Substantial Completion shall be paid by Landlord. Tenant shall permit Landlord to install new project signs associated with naming rights at the Landlord's sole cost and expense. Such approval from Tenant for the installation of signs shall not be unreasonably withheld or delayed.

Section 16.03 Additional University On-Campus Housing. Conditioned upon Tenant meeting all of its contractual obligations with regard to the Project, if the University desires to expand the Project by three hundred (300) beds, the University shall, to the extent permitted by applicable state laws and University Purchasing Policy, offer a right of first offer to Tenant for such expansion with the goal of incorporating the additional 300 beds into this Lease and the Project Operating Agreement. The University agrees that for a period of fifteen (15) years from the first date that the Project is occupied by Student Residents, any increase in the total number of undergraduate beds on the University's campus (other than the contemplated 300 bed increase described above) will be undertaken in a commercially reasonable manner, which will include the University engaging and following the recommendations of a qualified third party, which shall be approved by Tenant, to conduct an analysis of the need for additional on-campus undergraduate student housing and a determination that such additional housing will not materially adversely impact the Gross Revenue of the Project. The University shall have the right, but not the obligation to engage in negotiations with EdR and permit EdR to make a first offer for such additional development prior to discussions with third parties. The University agrees that as a condition precedent to constructing any additional on-campus housing the Project must have achieved proforma results for the prior three Fiscal Years. In addition, any additional on-campus housing shall not be exempted for any reason, including the terms of any financing instrument, from the University's agreement to treat all on-campus housing (including the Project) on a pari passu basis with respect to room assignments and summer conferences, except as affected by student preference.

ARTICLE 17

INDEMNITY

Section 17.01 Tenant's Indemnification of Landlord.

(a) Tenant shall defend with competent counsel, indemnify and hold harmless the University, the State of Idaho, and the State Board of Education, and its trustees, officers, agents, employees and affiliated and support entities from and against any and all liabilities, obligations, losses, damages, fines, penalties, claims, demands, costs, charges and expenses, including, without limitation, reasonable fees of architects, engineers, consultants and attorneys

and costs associated with administrative and judicial proceedings incurred by Landlord relating to Tenant's obligations under this Lease, which may be imposed upon, incurred by or asserted against Landlord in connection with any of the following (collectively, the "Claims"):

(i) Any work done in, on or about the Premises or the Construction Easement Areas;

(ii) Any use, non-use, possession, occupation, condition, operation, maintenance or management of the Premises, the Construction Easement Areas or any part thereof, except where such claims are a result of the acts or omissions of Landlord or its agents, concessionaires, contractors, servants or employees;

(iii) Any act or omission of Tenant or any of its agents, concessionaires, contractors, servants, employees, or invitees excluding the acts or omissions of Landlord or its agents, concessionaires, contractors, servants or employees;

(iv) Any accident, injury or death to any person or damage to any property occurring in, on or about the Premises or the Construction Easement Areas, except resulting from the acts or omissions of Landlord or its agents, concessionaires, contractors, servants or employees; or

(v) Any failure by Tenant to perform or comply with any of the covenants, agreements, terms, provisions, conditions or limitations in this Lease required by the provisions of this Lease to be complied with or performed by Tenant.

(b) In addition to, and without limiting the generality of, the foregoing provisions of this Article, Tenant shall indemnify, and hold harmless the University, the State of Idaho, and the State Board of Education, and its trustees, officers, agents, employees and affiliated and support entities, from and against all claims which may be imposed upon, incurred by or asserted against Landlord, arising out of (i) the use, generation, storage, Release, or disposal of Hazardous Materials (defined below) on or about the Premises or the Construction Easement Areas by or on behalf of Tenant during Tenant's use of the Premises or the Construction Easement Areas including, without limitation, the cost of any required or necessary decommissioning, repair, cleanup, or remediation and the preparation of any closure or other required plans, whether such action is required or necessary prior to or following the termination of this Lease, (ii) any Release or threatened Release during Tenant's use of the Premises or the Construction Easement Areas of such Hazardous Materials at, on, to, or into the Premises or the Construction Easement Areas, including groundwater, or from the Premises or the Construction Easement Areas on, to, or into any adjoining property or other property, including groundwater, (iii) the failure by Tenant, any subtenant or any person claiming under Tenant to comply with any of the Requirements of this Lease, including without limitation all Environmental Laws, or the common law; or (iv) any and all damage to natural resources or real property and/or harm or injury to any person resulting or alleged to have resulted from (A) any Release or threatened release during Tenant's use of the Premises or the Construction Easement Areas of such Hazardous Materials in violation or breach of this Lease or any Environmental Law, and/or (B) such failure during Tenant's use of the Premises or the Construction Easement Areas to comply with, or otherwise arising under, any of the Requirements, including without limitation all Environmental Laws, or the common law.

(c) For purposes of this Lease, the following terms shall have the following definitions:

(i) **“Environmental Law”** means any applicable present or future federal, state or local law, statute, rule, regulation or ordinance relating to the regulation, pollution, preservation or protection of human health, safety, the environment, or natural resources or to emissions, discharges, Releases or threatened Releases of pollutants, contaminants, Hazardous Materials or wastes into the environment (including ambient air, soil surface water, ground water, wetlands, land or subsurface strata).

(ii) **“Hazardous Materials”** means and includes any (a) ”hazardous substances”, “pollutants” or “contaminants” (as defined in the United States Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. §9601, *et seq.* (“**CERCLA**”), or the regulations pursuant to CERCLA), including any element, compound, mixture, solution, or substance which is or may be designated pursuant to Section 102 of CERCLA; (b) all substances which are or may be designated pursuant to the Federal Water Pollution Control Act, 33 U.S.C. §1251 *et seq.* (“**FWPCA**”); (c) any hazardous waste having the characteristics which are identified under or listed pursuant to Federal Resource Conservation and Recovery Act, 42 U.S.C. §6901, *et seq.* (“**RCRA**”) or having such characteristics which shall subsequently be considered under RCRA to constitute a hazardous waste; (d) any substance containing petroleum, as that term is defined in RCRA; (e) any toxic pollutant which is or may be listed under FWPCA; (f) any hazardous air pollutant which is or may be listed under the Clean Air Act, 42 U.S.C. §7401 *et seq.*; (g) any imminently hazardous chemical substance or mixture with respect to which action has been or may be taken pursuant to the Toxic Substances Control Act, 15 U.S.C § 2601 *et seq.*; (h) any substance or mixture subject to regulation under the Federal Insecticide, Fungicide, and Rodenticide Act, 7 U.S.C. § 136 *et seq.*, (i) waste oil and other petroleum products; (j) any asbestos, urea formaldehyde, or polychlorinated biphenyls, or material which contains one or more of such substances; or (k) any other materials, chemicals, substances, products, or wastes which are now or hereafter either (i) deemed by any governmental authority with appropriate jurisdiction over Tenant to be, under any applicable Environmental Law, contaminants or pollutants, or hazardous, toxic, radioactive, ignitable, reactive, corrosive, or otherwise harmful to the environment or (ii) otherwise regulated pursuant to any applicable Environmental Law.

(iii) **“Release”** means any release, issuance, disposal, discharge, dispersal, leaching or migration into the indoor or outdoor environment or into or out of any property, including the movement of Hazardous Materials through the air, soil, surface water, ground water or property other than as specifically authorized by and in compliance with all Environmental Laws.

(d) If any action or proceeding is brought against Landlord because of any one or more of the claims described above in this Section 17.01, Tenant, at its sole cost and expense, upon written notice from Landlord, shall defend that action or proceeding by competent counsel reasonably acceptable to Landlord and approved by Landlord in writing.

Section 17.02 Landlord’s Remediation Obligations. Except as to the presence of Hazardous Materials actually discovered by Tenant in the development and construction of the

Improvements and provided for in the Plans, if Hazardous Materials are discovered on the Land during the Term of this Lease, and such Hazardous Materials are shown to have been present prior to the commencement of this Lease or such Hazardous Materials are the result of a Release caused by Landlord, Landlord will at its own expense conduct any actions necessary to remediate the Hazardous Materials on the Land to a concentration level approved by the relevant governmental authority.

Section 17.03 Survival. The provisions of this Article shall survive the expiration or earlier termination of this Lease with respect to events, acts or omissions during Tenant's Use Period.

ARTICLE 18

INSURANCE

Section 18.01 Property Insurance.

(a) During the Term, Tenant shall procure and maintain physical damage insurance covering the Premises through the policies purchased by Tenant as an Operating Expense, in an amount equal to at least one hundred percent (100%) of the replacement cost of the Premises. Such insurance shall contain broad form coverage as may be customary for like properties in the vicinity from time to time during the term of this Lease. Tenant expressly acknowledges and agrees that the replacement value must include all changes or additions necessary to meet then current building codes and applicable laws, including but not limited to Environmental Laws.

(b) At the request of Landlord, and at the sole cost and expense of Tenant as an Operating Expense, the replacement value of the Improvements shall be determined from time to time, but not more frequently than once every five (5) years, by an insurance appraiser mutually acceptable to Landlord and Tenant. Tenant shall promptly notify Landlord in writing of such determination.

(c) Tenant hereby waives any right of recovery from Landlord, the State of Idaho, the Idaho State Board of Education, its officers, and employees (collectively, the "**Landlord Parties**") and releases and discharges Landlord Parties from all claims, damages, losses or demands whatsoever which Tenant may have or acquire arising out of damage to or destruction of the Premises or Tenant's business caused by fire or other perils unless such loss or damage shall have been caused by the negligence or willful misconduct of the Landlord Parties and not covered by Tenant's insurance.

(d) Tenant shall have a waiver of subrogation clause endorsed to and made a part of its property insurance policy or policies.

(e) The insurance policies required by this Sections 18.01 shall name Landlord, the Idaho State Board of Education and the State of Idaho as an additional insured.

(f) Tenant shall be responsible from dollar one for any deductible amount for which coverage is not available under the insurance maintained pursuant this Section 18.01.

Tenant shall be permitted to increase or decrease such deductible amount from time to time on a commercially reasonable basis; provided that Tenant shall provide Landlord at least thirty (30) days prior written notice of any change in the deductible amount payable by Tenant.

Section 18.02 Other Insurance. Tenant, at its sole cost and expense, shall procure and maintain during the term of this Lease, the following policies of insurance:

- (a) Worker's Compensation and Employers Liability as required by state law;
- (b) Disability Benefits as required by law;
- (c) Customary business interruption insurance for continuing expenses including Rent described under Article 6;
- (d) Commercial General Liability written on an occurrence basis with limits of \$1,000,000 per occurrence and a \$3,000,000 aggregate including, but not limited to, coverage for bodily injury, personal injury, property damage, ongoing and completed operations, products and contractual liability referring to this Lease;
- (e) Automobile Liability with a \$1,000,000 combined single limit for bodily injury or property damage covering vehicles owned, non-owned, hired or otherwise used or furnished for the use of the Tenant, its associates, employees, representatives, volunteers or agents;
- (f) An Umbrella follow form liability insurance policy or policies that shall increase to \$50,000,000 the limits of coverage provided by the insurance required by subsections (c) and (d) of this Section 18.02; and
- (g) Professional Liability / Errors and Omissions insurance written on an occurrence basis with limits of \$1,000,000 per occurrence.

Section 18.03 Responsibility of Tenant During Construction. Prior to commencement of the construction of the Premises, Tenant at its own expense shall obtain, furnish to Landlord, or cause its contractors to obtain and furnish to Landlord, and maintain through the full completion of construction of the Improvements in accordance with all provisions of this Lease, the following policies of insurance:

- (a) Each of the policies of insurance required by subsection (a) through (e) of Section 18.02;
- (b) Architects and engineers professional liability insurance in an amount of at least \$2,000,000 covering errors and omissions, bodily injury and property damage (including contractual liability coverage with all coverage retroactive to the earlier of the date of this Lease or the commencement of professional services in relation to the Premises or the Construction Easement Areas). Architect/Engineer shall maintain this coverage for a period of three years after the date of final payment by Tenant to each architect, engineer and contractor relating to the construction of the Improvements under this Lease. This Professional Liability Insurance may be written on a claims made basis or any other basis as is expressly identified to Tenant by the University in writing. During the Term of this Lease, and annually for three (3) years after the

final payment by Tenant to each architect, engineer and contractor relating to the construction of the Improvements, each architect, engineer and contractor retained by Tenant, shall provide a certificate demonstrating that this insurance is being currently maintained, including, but not limited to, the policy's retroactive date.

(c) "All Risk" builders risk insurance for fire, flood, earthquake, terrorism, testing of mechanical or electrical devices and extended coverages on all the Premises and the Construction Easement Areas. The policy shall include Tenant, its contractors and subcontractors as named insureds and Landlord, as its interest may appear. The amount of insurance shall be 100% of full replacement cost. The policy shall contain a Consent of Occupancy endorsement, a waiver of subrogation clause in the form required by Section 18.01, and coverage for loss of income and business interruption.

Section 18.04 Evidence of Insurance – All Insurance Coverages. All insurance coverages required by this Article shall be obtained by valid and enforceable policies, in form reasonably acceptable to Landlord, issued by insurers of recognized responsibility and licensed to do business in the state in which the Premises is located. Upon the execution of this Lease, and thereafter upon Landlord's request and not less than twenty (20) days prior to the expiration dates of the policies furnished by Tenant, certificates with respect to Tenant's commercial general liability, umbrella liability, professional liability and property insurance policies and, during the period required by Section 18.04, of Tenant's builders risk insurance policy, and certificates of insurance for all other insurance coverages required by this Article, shall be delivered by Tenant to Landlord, with evidence reasonably satisfactory to Landlord of the payment of the full premiums on the policies. Tenant will name as additional insured Boise State University, the Idaho State Board of Education, and the State of Idaho.

Section 18.05 Minimal Requirements – Primary Insurance.

(a) The insurance coverages and limits required of Tenant by this Article shall be the minimum requirements of Tenant under this Lease and shall in no manner limit Tenant's liability to Landlord under this Lease. All policies of insurance described in Article 18 shall indicate any deductibles or self-insured retentions (SIR's) of no more than \$25,000 per occurrence, as may be adjusted with reasonable approval of Landlord.

(b) The insurance policies required by Sections 18.02(c),(d) (e)(f) and (g) and 18.03(b) and (c) shall name Landlord, the Idaho State Board of Education and the State of Idaho as an additional insured with respect to the obligations, indemnifications and liabilities of Tenant under this Lease. Acceptable additional insurance policy endorsements are as follows: ISO Form Additional Insured Endorsement CG 20 10 11 85, or the carrier's manuscript equivalent acceptable to the Landlord, that includes completed operations, naming Landlord as an additional insured with respect to Landlord's project name. The policies of insurance described in the preceding sentence shall be primary and non-contributory of any insurance carried by Landlord, and Tenant shall furnish to Landlord the written consent of the insurer that the policies are primary and non-contributory.

Section 18.06 Notice of Cancellation. The policies and certificates evidencing the policies of insurance shall provide for prior written notice according to the terms of the policy to Landlord

of any cancellation, non-renewal, reduction in amount or material change in insurance policy coverage.

Section 18.07 Quality of Insurance. All insurance required to be carried by Tenant by this Article 18 shall be issued by a company rated by A.M. Best with a minimum Class “IX” as to financial rating and “A” (Excellent) as to policyholder rating; provided that if such rating system ceases to be published or is converted to a different standard or otherwise revised, the required rating for the insurance carried by Tenant shall be adjusted to the equivalent rating under the revised rating system or, in no equivalent rating exists, to a standard agreed upon by Landlord and Tenant.

Section 18.08 Disbursement of Proceeds. All insurance policies required herein shall provide that any loss shall be adjusted and the proceeds paid as provided in this Lease.

Section 18.09 Deletion of Co-Insurance Requirements. Except for any insurance policies maintained pursuant to Section 18.01, any co-insurance requirements of any policy of insurance shall be deleted.

Section 18.10 Insurance Escalation Discussions. Promptly after the fifth (5th) anniversary of the Rent Commencement Date, and thereafter promptly after each subsequent fifth (5th) anniversary of the Rent Commencement Date, representatives of Landlord and Tenant shall confer with respect to the insurance coverages required to be maintained by Landlord and Tenant under this Lease and as to whether it is then commercially reasonable to increase such required insurance coverages.

ARTICLE 19

EMINENT DOMAIN

Section 19.01 Termination of Lease. If all or substantially all of the Premises shall be taken for any public or quasi-public use under any statute, by right of eminent domain or by transfer or purchase in lieu thereof (the “**Condemnation Proceedings**”), this Lease shall automatically terminate on the date title passes to or possession is taken by the taking authority, whichever occurs first. For purposes of this Article “substantially all” of the Premises shall be deemed taken if the portions not taken shall be insufficient for the continued operation by Tenant of a facility for the purposes described in Article 4.

Section 19.02 Distribution of Condemnation Proceeds. To the extent permitted by law, in the event of a taking in a Condemnation Proceeding which results in the termination of this Lease pursuant to Section 19.01, Landlord and Tenant shall cooperate in the prosecution of the Condemnation Proceeding and shall request the court or board having jurisdiction of the Condemnation Proceedings to determine the reversion value of the Land and the Tenant’s leasehold estate and the Improvements separately. The aggregate net award (the “**Net Award**”) for the taking of the of the Premises and Tenant’s rights under this Lease, after deducting all expenses and costs, including attorney’s fees, shall be payable on a pro rata basis to the extent of the funds available:

(a) To Landlord for the value of its interest in the Land so taken, subject to the encumbrances of this Lease; and

(b) To Tenant for the value of its leasehold interest and interest in the Improvements and this Lease so taken.

Section 19.03 Partial Taking. If less than substantially all of the Premises is taken (a “**Partial Taking**”), the term of this Lease shall continue, Rent shall be equitably abated and reduced in light of the portion of the Premises taken under such Partial Taking and Tenant promptly shall, at its own cost and expense, restore the Premises to as near like their condition prior to the Partial Taking as is reasonably practicable. The net award upon such a partial taking shall be paid to Landlord and Tenant in the manner and priority provided in Section 19.02 above. This Lease shall automatically terminate for the portion of the Premises taken by a Partial Taking.

Section 19.04 Landlord’s Obligation to Pay Early Termination Fee. A taking under a Condemnation Proceeding or a Partial Taking shall not trigger Landlord’s obligation to pay the Early Termination Fee unless such taking inures solely to the benefit of the University.

ARTICLE 20

LANDLORD’S RIGHT TO PERFORM TENANT’S COVENANTS

Section 20.01 Performance of Covenants. If Tenant shall fail to perform any of its obligations under this Lease, Landlord may, at its option, after the expiration of any grace or cure period available to Tenant with respect to such failure and the giving of thirty (30) days’ notice to Tenant (except where otherwise stated herein), or with such notice as is reasonable in case of an emergency, perform any of such obligations.

Section 20.02 Reimbursement of Costs and Expenses. Any moneys paid and all costs and expenses incurred by Landlord, including reasonable attorneys’ fees in the performance of Tenant’s obligations under this Lease, together with interest on such moneys at the Default Rate until paid shall be paid by Tenant to Landlord on demand.

Section 20.03 No Waiver. Landlord’s exercise of its rights under this Article shall not constitute a waiver of any other rights or remedies Landlord may have because of Tenant’s Default.

ARTICLE 21

MORTGAGES

Section 21.01 Restriction on Mortgages. Except as provided in Section 21.02 below, Tenant shall not: (i) engage in any financing or other transaction creating any mortgage or security interest upon the Premises; (ii) place or suffer to be placed any lien or other encumbrance upon the Premises; (iii) suffer any levy or attachment to be made on the Premises; or (iv) pledge, mortgage, assign, encumber, or otherwise grant a security interest in the Premises, or the rents, issues, profits or other income of the Premises, including, without limitation, any payments pursuant to, and the right to receive payment under, the Permitted Leases.

Section 21.02 Permitted Mortgages. Upon the approval of the Landlord, which approval shall be at the sole discretion of the Landlord, Tenant may encumber the Improvements (but not the Land) and/or the Gross Revenue by mortgage, deed of trust or security agreement to secure one or more loans (in each case, a **“Mortgage”**) with an Approved Mortgagee. For purposes of this Lease an **“Approved Mortgagee”** shall mean (i) a major U.S. commercial bank, a trust company or an insurance company or the U.S. branch of a foreign bank, trust company or insurance company with a Credit Rating of at least “BBB+” by S&P or “A3” by Moody’s, which is not a Disqualified Mortgagee. **“Credit Rating”** means, with respect to any Person, the rating then assigned to such Person’s unsecured, senior long-term debt obligations (not supported by third party credit enhancements), or if such Person does not have a rating for such senior unsecured long-term debt, the rating then-assigned to such Person as an issuer, corporate or similar rating. A proposed mortgagee shall be disqualified and become a Disqualified Mortgagee if:

(a) Any principal or officer of the assignee or the proposed mortgagee: (A) is listed on the Specially Designated Nationals and Blocked Persons List maintained by the Office of Foreign Assets Control (“OFAC”) and/or on any other list of terrorists or terrorist organizations maintained pursuant to any of the rules and regulations of OFAC or pursuant to any other applicable legal authority (such lists are collectively referred to as the “Lists”); (B) is an individual, corporation, partnership, limited liability company, unincorporated organization, government or any agency or political subdivision thereof or any other form of entity (individually or collectively as the context requires, a “Person”) who has been determined by competent authority to be a Person with whom a U.S. Person is prohibited from transacting business, whether such prohibition arises under U.S. law, regulation, executive orders or any lists published by the United States Department of Commerce, the United States Department of State including any agency or office thereof; (C) is owned or controlled by, or acts for or on behalf of, any Person on the Lists or any other Person who has been determined by competent authority to be a Person with whom a U.S. Person is prohibited from transacting business, whether such prohibition arises under U.S. law, regulation, executive orders or any lists published by the United States Department of Treasury or the United States Department of State including any agency or office thereof; or is under investigation by any governmental authority for, or has been charged with, or convicted of, money laundering, drug trafficking, terrorist-related activities, any crimes which in the United States would be predicate crimes to money laundering, or any violation of any Anti-Money Laundering Laws. For purposes hereof, “U.S. Person” means any United States citizen, any entity organized under the laws of the United States or its constituent states or territories, or any entity, regardless of where organized, with a principal place of business within the United States or any of its territories. For purposes hereof, “Anti-Money Laundering Laws” means those laws, rules, regulations, orders and sanctions, state and federal, criminal and civil, that (i) limit the use of and/or seek the forfeiture of proceeds from illegal transactions; (ii) limit commercial transactions with designated countries or individuals believed to be terrorists, narcotic dealers or otherwise engaged in activities contrary to the interests of the United States; or (iii) are designed to disrupt the flow of funds to terrorist organizations. Such laws, regulations and sanctions are deemed to include, but not be limited to: the Executive Order Number 13224 on Terrorism Financing (September 23, 2001), the Patriot Act; the Currency and Foreign Transactions Reporting Act (also known as the Bank Secrecy Act, 31), the Trading with the Enemy Act, 50 U.S.C. Appx. Section 1 *et seq.*, the International Emergency Economics Powers Act, 50 U.S.C. Section 1701 *et seq.*, and the sanction regulations promulgated pursuant thereto by OFAC, as well as laws relating to prevention and detection of money laundering in 18 U.S.C. Sections 1956 and 1957, as amended.

(b) if such proposed mortgagee is debarred or suspended from doing business with the federal government or any state or local government or has been disbarred or suspended at any time during the five years preceding the assignment;

(c) if such proposed mortgagee or its chief financial officer has been convicted of any crime in any jurisdiction in which the possible sentence is greater than three years

(d) if such proposed mortgagee has (A) commenced a voluntary case, or had entered against it a petition, for relief under any federal bankruptcy act or any similar petition, order or decree under any federal or state law or statute relative to bankruptcy, insolvency or other relief for debtors, (B) caused, suffered or consented to the appointment of a receiver, trustee, administrator, conservator, liquidator or similar official in any federal, state or foreign judicial or non-judicial proceedings, to hold, administer and/or liquidate all or substantially all of its property, or (C) made an assignment for the benefit of creditors.

Section 21.03 Estoppel Certificate. The Landlord agrees to execute an estoppel certificate and any other similar documentation as reasonably may be required by an Approved Mortgagee to evidence the Landlord's consent to such Mortgage. Notwithstanding any foreclosure, Tenant shall remain liable for the performance of all the terms, covenants, and conditions of the Lease that by the terms thereof are to be carried out and performed by Tenant.

Section 21.04 Unencumbered Fee. No Mortgage shall extend to or affect the fee, the reversionary interest, or the estate of the Landlord in the Premises. No Mortgage shall be binding upon the Premises until a copy thereof has been delivered to the Landlord.

Section 21.05 Future Landlord Encumbrances. Landlord acknowledges and agrees that any future mortgage, pledge or encumbrance of Landlord's interest in the Land shall be subject and subordinate to Tenant's rights in this Lease.

Section 21.06 Foreclosure. If an Approved Mortgagee or an Approved Mortgagee Affiliate (as defined below) acquires, by deed-in-lieu, at a foreclosure of its mortgage or deed of trust, or otherwise, Tenant's interest in the Premises this Lease shall continue in full force and effect provided that such Approved Mortgagee or Approved Mortgagee Affiliate provides written notice to the Landlord within five (5) days of such acquisition. The acquisition by anyone other than an Approved Mortgagee or an Approved Mortgagee Affiliate of Tenant's interest in the Premises shall require the prior written approval of the Landlord. No agent or nominee shall be appointed to operate and manage any portion of the Premises without obtaining the prior written approval of the Landlord. Such approval shall be withheld or granted under the terms and conditions described in this Lease. Notwithstanding anything to the contrary contained in this Article 21, the Landlord may withhold approval of any purchaser (other than the Approved Mortgagee or an Approved Mortgagee Affiliate) of Tenant's interest in the Premises if the Landlord determines in its sole but reasonable discretion that such purchaser's acquisition would in any material way impair the operations of the Premises. As used in this Article 21, "**Approved Mortgagee Affiliate**" means a corporation, limited liability company, or other entity that Controls, is owned and Controlled by, or is under common ownership and Control with, an Approved Mortgagee.

Section 21.07 Rights of Approved Mortgagees.

(a) For so long as a Mortgage with an Approved Mortgagee shall remain unsatisfied of record or until written notice of satisfaction of such Mortgage is given by the Approved Mortgagee to the Landlord and so long as the Landlord has approved the mortgagee in writing in accordance with Section 20.02 hereof, the provisions of this Section 21.06 shall apply to each such Approved Mortgagee. In the event of any assignment of a Mortgage or in the event of a change of address of an Approved Mortgagee or of an assignee of such Approved Mortgagee, written notice of such new name and/or address shall be promptly provided to the Landlord.

(b) No termination, cancellation, rejection, surrender, amendment or modification (other than by expiration of the Term or early termination in accordance with this Lease) of any Lease or release of the Concessionaire thereunder shall be effective as to any Approved Mortgagee unless consented to in writing by such Approved Mortgagee. Without limiting the generality of the foregoing, no rejection of any Lease by Tenant or by a trustee in bankruptcy for Tenant shall be effective as to any Approved Mortgagee unless consented to in writing by such Approved Mortgagee.

(c) The Landlord shall, on serving Tenant with any notice of any default under this Lease, simultaneously serve a copy of such notice upon any Approved Mortgagee. No such notice by the Landlord to Tenant shall be deemed to have been duly given unless and until a copy thereof has been so provided to any Approved Mortgagee in the manner specified herein. From and after the date such notice has been given to an Approved Mortgagee, such Approved Mortgagee shall have the same period, after its receipt of such notice, for remedying any default specified in such notice or causing the same to be remedied as is given to Tenant after the giving of such notice to Tenant to remedy, commence remedying or cause to be remedied the defaults specified in any such notice, but such Approved Mortgagee shall in no manner be obligated to do so. The Landlord shall accept such cure by or at the instigation of the Approved Mortgagee as if the same had been performed by Tenant. The Tenant hereby authorizes any Approved Mortgagee to take any such action as such Approved Mortgagee deems necessary to cure any such default and does hereby authorize entry upon the Premises by such Approved Mortgagee for the purpose of curing such defaults.

Section 21.08 Approved Mortgagee Rights upon Termination.

(a) In the event that the Landlord shall elect to terminate this Lease by reason of any default of Tenant under Article 25, such Approved Mortgagee shall have the right, which right shall be exercised, if at all, within thirty (30) days after such Approved Mortgagee receives notice of the Landlord's election to terminate such Lease, to postpone and extend the specified date for the termination of such Lease as fixed by the Landlord in its notice of termination for a period of not more than six (6) months, provided that such Approved Mortgagee shall, during such six (6) month period, (a) pay or cause to be paid any Rent and other payments and charges as the same become due and perform all of Tenant's other obligations under this Lease, excepting (i) obligations of Tenant to satisfy or otherwise discharge any lien, charge or encumbrance against Tenant's interest in this Lease provided that such lien, charge or encumbrance is junior in priority to the lien of the mortgage held by such Approved Mortgagee and does not affect the Landlord's fee simple interest in the Premises, and (ii) past non-monetary obligations then in default and not

reasonably susceptible of being cured by such Approved Mortgagee, and (b) if not enjoined or stayed, take steps to acquire or sell (but only to a Qualified Assignee) Tenant's interest in such Lease by foreclosure of the Mortgage or other appropriate means and prosecute the same to completion with due diligence.

(b) If at the end of such six (6) month period such Approved Mortgagee is complying with the immediately preceding paragraph and such Approved Mortgagee is prohibited by any process or injunction issued by any court of competent jurisdiction or by reason of any action in any court of competent jurisdiction from commencing or prosecuting foreclosure or other appropriate proceedings in the nature thereof, such Lease shall not then terminate, and the time for completion by such Approved Mortgagee of its proceedings shall continue so long as such Approved Mortgagee is enjoined or stayed and thereafter for so long as such Approved Mortgagee proceeds in good faith and with due diligence to complete steps to acquire or sell (but only to a Qualified Assignee) Tenant's interest in this Lease by foreclosure of the Mortgage or by other appropriate means. Nothing in this paragraph, however, shall be construed to extend this Lease beyond the original Term or to require an Approved Mortgagee to continue foreclosure proceedings after a default has been cured. In the event that such default shall be cured and the Approved Mortgagee shall discontinue such foreclosure proceedings, this Agreement and such Lease shall continue in full force and effect as if Tenant had not defaulted.

(c) In the event that an Approved Mortgagee complies with this Section 21.07 and such Approved Mortgagee acquires Tenant's right title and interest in any Lease by foreclosure or otherwise, then, upon the acquisition of Tenant's right, title and interest in this Lease by such Approved Mortgagee or an Approved Mortgagee Affiliate, or any other purchaser or assignee at a foreclosure sale or otherwise (but only if such other purchaser or assignee is a Qualified Assignee), this Agreement and such Lease shall continue in full force and effect as if Tenant had not defaulted.

ARTICLE 22

DAMAGE OR DESTRUCTION

Section 22.01 Restoration of Improvements. If the Premises or any part thereof shall be damaged or destroyed by fire or otherwise, Tenant shall promptly (and in any event no later than five (5) days following the event causing the damage or destruction) notify Landlord, and, to the extent of the insurance proceeds available for such purpose (with the funds derived from the insurance acquired pursuant to Article 18 made available for such purpose), restore, repair, replace, or rebuild the Improvements and provide substitute housing for the Permitted Residents. The restoration shall be at least equal in quality and class to the original Work, shall be performed pursuant to a design, plans and specifications each approved by Landlord, which approval the Landlord will not unreasonably deny, delay or condition, and in accordance with all provisions applicable to the Work and all other provisions of this Lease. The restoration shall be commenced within ninety (90) days from the date of the damage or destruction; provided, however, that Landlord shall grant such extensions of time for the adjustment of insurance and the preparation of the plans and specifications as reasonably may be required. The architect or engineer in charge of the restoration shall be selected by Tenant and approved in writing by Landlord. Tenant shall

diligently complete the restoration. The University will cooperate with Tenant to house any tenants displaced during such restoration in existing University housing to the extent available.

Section 22.02 No Right to Surrender; No Relief from Rent Obligations. No destruction or damage to the Premises or any part thereof shall permit Tenant to surrender this Lease or shall relieve Tenant from its obligation to pay Rent or from any of its other obligations under this Lease. Tenant waives any rights now or in the future conferred upon it by statute or otherwise to quit or surrender this Lease or to any rebate, refund, suspension, diminution, abatement or reduction of rent on account of any destruction or damage to the Premises, except as otherwise specifically provided herein.

Section 22.03 Restoration at End of Term. Notwithstanding the foregoing, during the last two (2) years of the Term, if the Improvements are damaged or destroyed and replacement would be commercially unreasonable given the then current economic housing market, Tenant shall not be obligated to repair and restore damage to the Premises and may terminate this Lease if the following conditions are satisfied: (a) Tenant shall remit to Landlord the then remaining amount of funds allocated to the capital repair and replacement balance sheet reserve; (b) Landlord shall be entitled to any insurance proceeds; and (c) Tenant shall deliver to Landlord an instrument releasing, demising, conveying and transferring to Landlord all of Tenant's rights, title and interest under this Lease.

Section 22.04 Damages for Failure to Comply with Repair Obligations. If the restoration, repair, replacement, or rebuilding of damaged or destroyed portions of the Premises is not substantially completed in accordance with Section 22.01 within a reasonable time after the date of such damage or destruction, Landlord may terminate this Lease upon thirty (30) days written notice thereof to Tenant and, in such event, Landlord shall receive the proceeds of all insurance obtained in accordance with Article 18 of this Lease to the extent such proceeds have not been expended on or committed to such restoration and Tenant shall deliver to Landlord an instrument releasing, demising, conveying and transferring to Landlord all of Tenant's rights, title and interest under this Lease.

ARTICLE 23

TITLE PROVISIONS

Section 23.01 Quiet Enjoyment. Tenant, upon payment of the Rent and the performance and observance of all covenants, warranties, agreements and conditions of this Lease on its part to be kept, shall quietly have and enjoy the Premises during the term of this Lease, without hindrance or molestation by anyone claiming by, through or under Landlord.

Section 23.02 Landlord's Title. Landlord represents and warrants to Tenant that it has fee simple title to the Land and the power and authority to execute and deliver this Lease and to carry out and perform all covenants to be performed by it.

Section 23.03 Future Landlord Encumbrances. Landlord acknowledges and agrees that any future mortgage, pledge or encumbrance of Landlord's interest in the Land or Improvements shall be subject to Tenant's rights in this Lease.

ARTICLE 24

DISPUTE RESOLUTION

Section 24.01 Dispute Resolution. In recognition of the long term nature of each party's commitment to the other and the substantial investment made by Tenant with regard to the Premises, in the event of a dispute, Landlord and Tenant agree that dispute resolution shall proceed as follows: first, negotiation as provided in Section 24.02; second, mediation, as provided in Section 24.03; and third, if the parties are still unable to resolve their dispute, the complaining party shall have all of the rights set forth in this Lease and available to such party under applicable law to pursue adjudication and resolution of the dispute ("**Dispute Resolution**"). Notwithstanding anything to the contrary herein, Landlord shall not be required to engage in negotiation under Section 24.02 or mediation under Section 24.03 prior to seeking legal redress for a Tenant Event of Default under Sections 25.01(a), (c), (d), (e), (f), (h), (i) and (j) of this Lease.

Section 24.02 Negotiation. In addition to its ongoing guidance role for the Premises, the Advisory Committee established as provided in the Operating Agreement shall serve as the first step of the dispute resolution process of the Landlord and Tenant. As to any dispute that cannot be resolved in the normal course, prior to resorting to any other remedies, the parties shall first attempt in good faith to resolve any dispute promptly by convening an in person meeting of the Advisory Committee. Any member of the Advisory Committee may give notice to the other members of any dispute not resolved in the ordinary course of business, specifying the basis of the dispute and any pertinent facts. Within fifteen (15) days after delivery of the notice, the Advisory Committee shall meet at a mutually acceptable time and place, and thereafter as often as they reasonably deem necessary, to attempt to resolve the dispute. If the Advisory Committee cannot reach unanimous consensus on the resolution of a dispute, the parties shall proceed to mediation as set forth in Section 24.03. All negotiations and materials provided pursuant to this negotiation process are confidential and shall be treated as compromise and settlement negotiations for purposes of applicable rules of evidence under applicable law and statements made by any party during negotiation may not be used against it in later proceedings if the parties fail to resolve the dispute during negotiation.

Section 24.03 Mediation. If a dispute has not been resolved by the Advisory Committee as provided above within twenty (20) days, or the parties failed to meet within fifteen (15) days after delivery of the initial notice of negotiation, the parties shall endeavor to resolve the dispute by private mediation in the city or town where the Premises is located, or the nearest feasible location. If Landlord and Tenant cannot agree upon a mediator, each shall select one name from a list of mediators maintained by any bona fide dispute resolution provider or other private mediator, and the two mediators chosen by Landlord and Tenant shall then choose a third person who will serve as mediator. The parties agree to each have a representative present at the mediation who has authority to bind it to a written settlement agreement, subject to the approval of the Board of Directors of Tenant and any consents or approvals required by legislation and regulations governing Landlord. The initial mediation session shall be held promptly (but not more than thirty (30) days following appointment of the mediator). All negotiations and materials provided pursuant to this mediation process are confidential and shall be treated as compromise and

settlement negotiations for purposes of applicable rules of evidence under applicable law. Positions and statements made by any party during mediation may not be used against it in later proceedings if the parties fail to reach a settlement agreement during mediation. Each party shall bear its own expenses and shall pay an equal share of the expenses of the mediator. Agreements reached in any mediation proceeding shall be enforceable as settlement agreements in any court having jurisdiction thereof.

Section 24.04 Further Legal Action. Except as otherwise provided in this Lease, it is the intent of the parties that these negotiation and mediation procedures shall govern any dispute under this Lease and either party shall have the right to specifically enforce the negotiation and mediation procedures before the other party may seek legal redress in a court of law. If a dispute has not been resolved by negotiation and mediation as provided in Sections 24.02 and 24.03, either party shall have the right to commence legal action. Any legal actions brought to enforce this Lease shall be brought in the courts located in Ada County, Idaho. The parties hereto each irrevocably consent to the jurisdiction of such courts.

ARTICLE 25

DEFAULT

Section 25.01 Tenant Events of Default. Any one or more of the following events shall constitute an event of default of Tenant under this Lease (a “**Tenant Event of Default**” or “**Tenant Default**”):

(a) Tenant’s failure to pay any Rent, or any other amount due hereunder, when due and payable, and the continuation of the failure to pay said obligations for thirty (30) days after written notice from Landlord to Tenant.

(b) Tenant’s failure to observe and perform any of the other terms, covenants, conditions, limitations or agreements under this Lease on Tenant’s part to be observed or performed and the continuation of the failure for a period of thirty (30) days after notice from Landlord to Tenant specifying the nature of the failure; provided that if the default involved is curable but not within thirty (30) days, then so long as Tenant shall commence the cure involved within such thirty (30) day period after notice and thereafter diligently pursue completing the cure, the time within which such cure must be completed shall be extended for the period necessary to complete the cure

(c) If Tenant, Parent or any guarantor of the performance of Tenant’s covenants and obligations under this Lease shall file a voluntary petition in bankruptcy or shall be adjudicated a bankrupt, or shall file any petition or answer seeking any reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar relief under the present or any future federal bankruptcy code or any other present or future federal, state or other bankruptcy or insolvency statute or law (collectively, “**Insolvency Laws**”), or shall seek, consent to or acquiesce in the appointment of any bankruptcy or insolvency trustee, receiver or liquidator of Tenant, Parent or any guarantor of the performance of Tenant’s covenants and obligations under this Lease, as applicable, or of all or any substantial part of its properties or of the Premises or Improvements, or

shall make a general assignment for the benefit of creditors, or be unable to pay its debts as they mature.

(d) The commencement of any action, case or proceeding against Tenant, Parent or any guarantor of the performance of Tenant's covenants and obligations under this Lease seeking (i) any reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar relief under any Insolvency Laws, or (ii) the appointment, without the consent or acquiescence of Tenant, Parent or any guarantor of the performance of Tenant's covenants and obligations under this Lease, as applicable, of any trustee, receiver or liquidator of Tenant or of all or substantially all of its properties or of the Premises, and such proceedings shall continue undismissed for a period of sixty (60) days.

(e) If Tenant shall abandon the Premises.

(f) If a Lien is filed against the Premises and Tenant fails to furnish a bond or otherwise obtain a release or discharge of the Lien as required by Article 11 of this Lease.

(g) If any warranty or representation of Tenant contained in this Lease is untrue in any material respect as of the date made.

(h) Tenant, Parent or any guarantor of the performance of Tenant's covenants and obligations under this Lease shall be dissolved or liquidated or shall be involved in proceedings towards dissolution or liquidation, except in conjunction with a permitted assignment to a Tenant Party or a Permitted Change in Control, neither of which shall constitute a Tenant Event of Default.

(i) An assignment of this Lease in violation of Article 13.

(j) Any mortgage of the Premises that is not approved by Landlord or in violation of Article 21.

Section 25.02 Chronic Default. Tenant shall be deemed in "**Chronic Default**" under this Lease if Tenant, more than three (3) times in any twenty-four (24) month period, fails to make a payment of Rent or other amount due hereunder, when due and payable or fails to observe and perform any other terms, covenants, conditions, limitations or agreements under this Lease on Tenant's part to be observed or performed (regardless of whether Tenant has timely cured). If Tenant is in Chronic Default, then Landlord shall be permitted to declare a Tenant Event of Default pursuant to Section 25.01(a) or (b) by providing written notice to Tenant and Tenant shall have no further cure periods for a default in the payment of Rent or other amount due hereunder.

Section 25.03 Remedies on Tenant Default.

(a) Upon the occurrence of a Tenant Event of Default under Sections 25.01(b) or (g) of this Lease, Landlord and Tenant shall first attempt to resolve the Tenant Default by engaging in negotiation under Section 24.02 and, if necessary, mediation under Section 24.03.

(b) Upon the occurrence of any other Tenant Event of Default, or if the negotiation and mediation provided for in Section 25.03(a) is unsuccessful, Landlord, at its option, shall have the following remedies:

(i) pursue an action for any and all actual damages incurred by or asserted against Landlord as a result of Tenant's Default, including reasonable attorney's fees incurred;

(ii) pursue an action for specific performance (except as provided in Section 13.01(b));

(iii) with respect to any defaults occurring during the construction of the Improvements, exercise any rights Landlord may have under any applicable performance bond;

(iv) subject to the rights of the Permitted Residents under Permitted Leases, terminate this Lease and the rights of Tenant hereunder and take possession of the Premises upon payment to Tenant of the Early Termination Fee at the time of the termination, less any fees resulting from the determination of the Early Termination, which shall be paid by Tenant, less any damages due to Landlord as a result of Tenant's Default, such damages to be agreed to by the parties or determined through Dispute Resolution; provided that Landlord shall not be required to pay the Early Termination Fee upon the occurrence of a Tenant Event of Default under Sections 25.01(e), (i) or (j); and for a Tenant Event of Default described in Section 25.01(f), Tenant must have failed to furnish a bond or otherwise obtain a release or discharge of the Lien within a year from the date of filing of the Lien;

(v) require Tenant to market and assign its rights in and obligations under this Lease to a Qualified Assignee at a price not less than a sum equal to the Early Termination Fee at the time of the termination, less any fees resulting from the determination of the Early Termination. In such case, Tenant will pay the costs of the marketing and assignment of its rights and obligations under this Lease and will be entitled to the proceeds from such assignment, less any damages due to Landlord as a result of Tenant's Default; provided that, before Landlord may require Tenant to assign its rights in and obligations under this Lease pursuant to this provision because of a Tenant Event of Default described in Section 25.01(a) or (b), Tenant must be in Chronic Default; and for a Tenant Event of Default described in Section 25.01(f), Tenant must have failed to furnish a bond or otherwise obtain a release or discharge of the Lien within a year from the date of filing of the Lien; and

(vi) exercise or pursue any other remedy or cause of action permitted under this Lease or available at law or in equity to recover actual damages suffered by Landlord as a result of Tenant's Event of Default.

Section 25.04 Landlord Events of Default. A "**Landlord Event of Default**" shall occur if Landlord fails to observe and perform any of the material terms, covenants, conditions, limitations or agreements under this Lease on Landlord's part to be observed or performed and the continuation of the failure for a period of thirty (30) days after notice from Tenant to Landlord specifying the nature of the failure; provided that if the default involved is curable but not within thirty (30) days, then so long as Landlord shall commence the cure involved within such thirty (30) day period after notice and thereafter diligently pursue completing the cure, the time within which such cure must be completed shall be extended for the period necessary to complete the cure.

Section 25.05 Remedies on Landlord Default. Upon a Landlord Event of Default, Landlord and Tenant shall engage in negotiation under Section 24.02 and, if necessary, mediation under Section 24.03, and, if such negotiation and mediation are unsuccessful Tenant shall have the following remedies:

- (a) pursue an action for specific performance of Landlord's obligations under this Lease;
- (b) pursue an action for any and all actual damages incurred by or asserted against Tenant as a result of Landlord's Event of Default, as may be permitted by law; and
- (c) exercise or pursue any other remedy or cause of action permitted under this Agreement or available at law or in equity to recover actual damages suffered by Tenant as a result of Landlord's Event of Default and/or seek specific performance of this Lease.

Section 25.06 Payments. If Tenant fails to make any payment due under this Lease in full when due, that portion of the payment that remains unpaid shall bear interest at the Default Rate.

Section 25.07 No Termination of Agreement During Pendency of Negotiation or Mediation. So long as the parties are engaged in good faith in negotiation under Section 24.02 or mediation under Section 24.03, no notice of termination or threatened termination of this Lease may be given by any party seeking to enforce remedies for a default under this Lease.

Section 25.08 Rights and Remedies Cumulative. Except as expressly designated as an exclusive remedy, no right or remedy contained herein is intended to be exclusive of any other right or remedy provided herein or by law, but each shall be cumulative and in addition to every other right or remedy given herein or now or hereafter existing at law or in equity or by statute.

Section 25.09 Consequential Damages. Notwithstanding anything to the contrary contained herein, Landlord and Tenant hereby agree that neither shall seek consequential damages, punitive damages, treble or other multiple damages, and damages for lost opportunity or lost profits for claims, disputes, or other matters arising out of or relating to this Lease (collectively, "Consequential Damages").

ARTICLE 26

EARLY TERMINATION OPTIONS

(a) Early Termination Options. Landlord shall have the option to terminate this Lease on the 10th anniversary date of the Rent Commencement Date, and thereafter every five (5) years, upon (i) two (2) year's prior written notice to Tenant and (ii) payment of the Early Termination Fee upon closing. Upon termination of this Lease, the Improvements, the Personal Property, and all additions, alternations and improvements thereto or replacements thereof shall be deemed to be the property of Landlord as provided in Article 14 of this Lease. "Early Termination Fee" shall mean an amount equal to the net present value of Estimated Annual Net Income for the remaining part of the Term with residual value of the Improvements of zero dollars (\$0.00), calculated utilizing a seven and a quarter percent (7.25%) discount rate minus the Replacement Reserve Allocation Excess.

(b) “**Estimated Annual Net Incomes**” shall mean the expected Net Income of Tenant each year for the remaining part of the Term calculated based on the average rate of increase of Tenant’s Net Income for the five (5) years preceding the determination of the Early Termination Fee, or the corresponding proforma amount if the Lease is terminated prior to the 5th year (the “**Estimated Net Income Percentage Increase Rate**”); provided that for purposes of calculating Estimated Net Income, the Estimated Net Income Percentage Increase Rate shall not be less than (i) the greater of three percent (3%) CPI; and (ii) shall not be greater than six percent (6%).

(c) In the event of an assignment of this Lease to a Qualified Assignee, the Early Termination Fee shall be equal to the consideration set forth in the Bona Fide Offer.

ARTICLE 27

MISCELLANEOUS

Section 27.01 University Accreditation. Tenant agrees to (a) cooperate with the University in the University’s accreditation process and (b) take all actions and do all things necessary to ensure that its possession, use, operation and management of the Premises does not negatively affect the University’s accreditation.

Section 27.02 Approvals. Tenant, at its sole expense, shall take all actions and do all things necessary to obtain, and shall make and diligently prosecute applications for all approvals, from all governmental or administrative agencies or regulatory bodies having jurisdiction, for the construction and operation of the Improvements upon the Land, including, without limitation, all site plan approvals, zoning variances, easement and franchise agreements, building permits, certificates of occupancy, and all applications for licenses, permits and permission to construct and maintain all on-site and off-site Improvements, curbcuts, and utility lines and services. Landlord shall reasonably cooperate with Tenant in such applications and appeals, if any, without expense to Landlord, provided the approvals sought are consistent with the provisions of this Lease.

Section 27.03 No Representations Regarding Use Regulations. No representation, statement, or warranty, express or implied, has been made by Landlord as to the condition of the Land, or its permitted use under applicable zoning, building, land use and similar laws, ordinances and regulations (“**Use Regulations**”). Tenant assumes all responsibility for compliance with the Use Regulations, and Landlord shall have no liability or responsibility for any defect in the Land or for any limitations upon the use of the Land.

Section 27.04 Conditions Precedent. The effectiveness of this Lease shall be subject to the approval of the Idaho State Board of Education and any additional consents or approvals required by legislation and regulations governing Landlord.

Section 27.05 Force Majeure. Neither Landlord nor Tenant shall be liable or responsible to the other party, nor be deemed to have defaulted under or breached this Lease, for any failure or delay in fulfilling or performing any term of this Lease, when and to the extent such failure or delay is caused by or results from Force Majeure. For purposes of this Agreement, Force Majeure means any event or condition beyond the reasonable control of a party which, despite its reasonable efforts to prevent, avoid, delay or mitigate, prevents, impacts or delays a party from performing its

obligations under this Lease. Force Majeure includes, but is not limited to: (a) acts of God; (b) flood, fire, hurricane, earthquake or unusually severe weather; (c) epidemic or quarantine; (d) war, invasion, hostilities (whether war is declared or not), terrorist threats or acts, explosion, riot or other civil unrest; (e) government order or law; (f) actions, embargoes or blockades in effect on or after the date of this Agreement; (g) action by any governmental authority; (h) national or regional emergency; (i) strikes, labor stoppages or slowdowns or other industrial disturbances; (j) shortage of adequate power or transportation facilities; (k) significant and severe change in the economic condition of a party related to market forces or unforeseen loss of government funding beyond the control of such party and not proximately related to such party's own actions; (l) significant increases in the price of construction labor and materials prior to commencement of the Project that are greater than the average annual increases in the last ten years; (m) failures in the banking and financial systems of the United States; and (n) other events beyond the reasonable control of the party impacted by the Force Majeure Event (the "**Impacted Party**"). The Impacted Party shall give notice as soon as practicable but in any event, within ten (10) business days of the Force Majeure Event to the other party, stating the period of time the occurrence is expected to continue. The Impacted Party shall use diligent efforts to end the failure or delay and ensure the effects of such Force Majeure Event are minimized. The Impacted Party shall resume the performance of its obligations as soon as reasonably practicable after the removal of the cause. Force Majeure events shall not excuse Tenant from the prompt payment of Rent as required under this Lease.

Section 27.06 Relationship of the Parties. This Lease shall not be deemed or construed to create or establish any partnership or joint venture or similar relationship or arrangement between the parties.

Section 27.07 Authorized Representatives. Tenant hereby appoints the following as its respective Authorized Representatives during Development of the Project: Thomas Trubiana and Steven Schnoor, and for the Management of the Facilities, Christine D. Richards, each of whom may act individually, and such other persons as may be appointed in writing by them from time to time and with prior written notice of such appointment provided to Landlord. Landlord hereby appoints Mike Sumpter, Associate Vice President of Campus Planning and Facilities as its Construction Coordination Authorized Representative and such other individual as may be appointed by Landlord from time to time.

Section 27.08 Notices. Any notice, request or other communication given or made hereunder ("**Notice**") shall be in writing and sent by either of the parties or their respective attorneys by any of the following means: (i) by registered or certified mail, return receipt requested, postage prepaid, (ii) by personal delivery, (iii) by recognized overnight delivery service for overnight delivery or (iv) by facsimile or e-mail, provided, however, that notice by facsimile or e-mail shall be promptly supplemented by delivery of notice as provided in (iii) above. Any such Notice shall be addressed to the other party at the mailing addresses, facsimile numbers or e-mail addresses set forth below, or to such other mailing addresses, facsimile numbers or e-mail addresses for each party as each party may hereafter designate by Notice given to the other party pursuant to this Section:

Section 27.09 Access to Records; Public Records Law. The parties hereto acknowledge that Idaho Public Records Law, Idaho Code Title 74, Chapter 1, as amended, allows the open inspection and copying of public records. Public records include any writing containing information relating to the conduct or administration of the public's business prepared, owned, used or retained by a State agency regardless of physical form or character. Accordingly, certain Information may be public record subject to disclosure under the Idaho Public Records Law. Information Tenant considers exempt under the Public Records Law or otherwise protected by disclosure, must be marked as "exempt" or "trade secret" on **EACH PAGE** containing such information. Only those pages identified as "trade secret" or otherwise exempt from disclosure will be exempt from disclosure and the University will honor such nondisclosure to the extent permitted by law. All other pages of the proposal will be released without review. The exemption for "trade secrets" and other exemptions from the Public Records Law are limited and information will be exempt from disclosure only to the extent the content meets the definition of trade secret or other applicable exemption in the Public Records Law. Accordingly, the University cannot guarantee information marked as "trade secret" or "exempt" will be exempt from disclosure. In addition, certain documents and materials may be required to be publicly disclosed and available for the purpose of presentation to and meetings of the Idaho State Board of Education. Tenant

acknowledges such Information shall be public to the extent required by applicable laws, regulations and policies of the Idaho State Board of Education and consents to disclosure of such Information.

Section 27.10 Confidentiality. Subject to Section 27.09, the parties acknowledge that the certain matters relating to this Agreement and the information related thereto, including without limitation any information relating to parties or their affiliates and all student records maintained by the University that are protected by the Family Rights and Education Privacy Act (FERPA), Idaho state law and/or University regulations, collectively (the “**Information**”), are confidential in nature. To the extent permitted by law, the parties covenant and agree to keep the Information confidential and will not (except as required by applicable law, regulation, or legal process, and only after compliance with provisions hereof), without the prior written consent of the other party, disclose any Information in any manner whatsoever; provided, however, that the Information may be revealed only to a party’s key employees, legal counsel and financial advisors (collectively, “**Contract Parties**”, and each individually “**Contract Party**”), each of whom shall be informed of the confidential nature of the Information, shall agree to act in accordance with the terms hereof, and shall agree to use the Information solely for the purpose of evaluating the transaction contemplated in this Agreement. In the event that a party or Contract Parties are requested pursuant to, or required by, applicable law, regulation or legal process (collectively “**Applicable Law**”) to disclose any of the Information, the applicable Contract Party shall notify the other party promptly so that such party may seek a protective order or other appropriate remedy (collectively “**Remedy**”) or, in the affected party’s sole discretion, such party may waive compliance with the terms hereof; provided, however, that the Remedy must be of a nature that a Contract Party’s failure to disclose the information will not place the Contract Party in violation of Applicable Law or otherwise expose the Contract Party to any liability for failure to disclose the Information as required by Applicable Law, and, provided further, that the Remedy must be secured not later than forty-eight (48) hours in advance of the deadline for disclosure of the Information in compliance with Applicable Law. In the event that no Remedy is obtained, or that the affected party waives compliance with the terms hereof, the Contract Party may furnish only that portion of the Information which it is advised by counsel is legally required and will exercise all reasonable efforts to obtain reliable assurance that confidential treatment will be accorded the Information. Each party shall be responsible for any breach of the covenants in this section by any Contract Party.

Section 27.11 Non-Recourse Agreement; No Recourse to State of Idaho General Fund Appropriations. No funds of the State of Idaho shall be used for any University obligation set forth in this Lease, including without limitation termination fees set forth in Article 26, or any payment or damages required of the University in case of default hereunder. In no case shall the University have any obligation or liability under this Agreement in any given year of the Term in excess of the revenues from the Project for such year (“**Annual Project Revenues**”), except for the payment of the Early Termination Fee upon termination of the Term, which may be paid by revenues from the Project escrowed for such event, general revenues of the University not otherwise encumbered, or by another third party operator of the Project, but in no case by appropriations or other funds of the State of Idaho.

Section 27.12 Interpretation. Unless otherwise specified herein: (a) the singular includes the plural and the plural the singular; (b) words importing any gender include the other genders;

(c) references to persons include their permitted successors and assigns; and (d) the headings of articles and sections contained in this Lease are inserted as a matter of convenience and shall not affect the construction of this Lease. The parties have jointly, with the advice and assistance of their respective legal counsel, participated in the negotiation and drafting of all of the terms and provisions of this Lease, and, accordingly, it is agreed that no term or provision of this Lease shall be construed in favor of or against any party by virtue of the authorship or purported authorship thereof by any party.

Section 27.13 Applicable Law. This Lease shall in all respects be governed by, and construed in accordance with the laws of the state in which the Premises are located. Venue for purposes of any actions brought under this Lease, or under any agreement or other document executed in conjunction herewith, shall be in the courts of Ada County, Idaho and the parties hereby irrevocably consent to the jurisdiction and venue of such courts.

Section 27.14 Amendment and Waiver. This Lease may be amended or changed only by written instrument duly executed by Landlord and Tenant and any alleged amendment or change which is not so documented shall not be effective as to either. The failure of either to insist in any one or more instances upon the strict performance of any one or more of the obligations of this Lease, or to exercise any election herein contained, shall not be construed as a waiver or relinquishment for the future of the performance of such one or more obligations of this Lease or of the right to exercise such election, but the same shall continue and remain in full force and effect with respect to any subsequent breach, act or omission.

Section 27.15 Severability. If any provision of this Lease or the application thereof to any person, entity or circumstance shall, for any reason and to any extent, be invalid or unenforceable but the extent of the invalidity or unenforceability does not destroy the basis of the bargain between the parties hereto as contained herein by invalidating an essential term, including but not limited to: the provision of student housing services by Tenant, the payment of Rent to the Landlord by Tenant, and the payment of the Early Termination Fee by Landlord to Tenant in the case of early termination for any reason, the remainder of this Lease and the application of such provision to other persons or circumstances shall not be affected thereby, but rather shall be enforced to the greatest extent permitted by applicable law.

Section 27.16 Entire Agreement; Further Assurances. This Lease sets forth all the covenants, promises, agreements, conditions, and understandings between Landlord and Tenant with regard to the matters set forth herein, including, but not limited to, the financial obligations relating thereto, and there are no covenants promises, agreements, conditions, or understandings, either oral or written between them as to these matters, other than as are set forth herein. The recitals, schedules and exhibits attached hereto or referred to herein are hereby incorporated herein and made a part hereof. At any time or times after the date hereof, each party shall execute, have acknowledged, and delivered to the others any and all instruments, and take any and all other actions, as the other parties may reasonably request to effectuate the transactions described herein.

Section 27.17 Multiple Counterparts. This Lease may be executed in one or more counterparts, each of which shall be an original, but all of which shall constitute but one instrument.

Section 27.18 Successors and Assigns. This Lease shall be binding on, and shall inure to the benefit of, the parties hereto and the parties' respective permitted successors and assigns.

Section 27.19 No Third Party Beneficiaries. Nothing in this Lease shall be construed to permit anyone other than Landlord and Tenant and their respective successors and permitted assigns to rely upon the covenants and agreements herein contained nor to give any such third party a cause of action (as a third party beneficiary or otherwise) on account of any nonperformance or performance hereunder.

Section 27.20 No Personal Liability. No officer, official, employee, agent or representative of either party shall be personally liable to the other party or any successor in interest, in the event of any default or breach by the party for any amount which may become due to the other party or any successor in interest, or on any obligation incurred under the terms of this Lease.

Section 27.21 Officials, Agents and Employees of State of Idaho Not Personally Liable. It is agreed by and between the parties that in no event shall any official, officer, employee or agent of the State of Idaho be in any way liable or responsible for any covenant or agreement contained in this Lease, express or implied, nor for any statement, representation or warranty made in or in any way connected with this Lease Agreement or the Premises. In particular, and without limitation of the foregoing, no full-time or part-time agent or employee of the State of Idaho shall have any personal liability or responsibility under this Lease Agreement, and the sole responsibility and liability for the performance of this Lease Agreement and all of the provisions and covenants contained in this Lease Agreement shall rest in and be vested with the Landlord.

Section 27.22 Nondiscrimination. Tenant hereby agrees to perform all of its obligations related to this Lease without discrimination on the basis of race, color, national origin, religion, sex, age, physical/mental impairment, and to comply with all relevant sections of: Title VI of the Civil Rights Act of 1964, as amended;; and The Age Discrimination Act of 1975; and to comply with pertinent amendments to these acts made during the term of this Lease Agreement. Tenant further agrees to comply with all pertinent parts of federal rules and regulations implementing these acts. Tenant hereby agrees to provide equal employment opportunity in employment and not to discriminate on the basis of race, color, national origin, religion, sex, age, physical/mental impairment, and covered veteran status to the extent required by applicable law.

Section 27.23 Construction or Renovation of Buildings. All buildings owned or maintained by any State government agency or entity, or which are constructed or renovated specifically for use or occupancy by any such agency or entity shall conform to all existing state codes, including but not restricted to, the Idaho General Safety and Health Standards, the International Building Code, the International Mechanical Code and the International Fire Code. If any conflict arises between applicable codes, the more stringent code shall take precedence. Prior to construction or remodeling of such buildings, where appropriate, construction plans shall be reviewed and approved by the Division of Building Safety, the State Fire Marshal's Office and the Permanent Building Fund Advisory Council.

Section 27.24 Long Term Energy Costs. Long-term energy costs, including seasonal and peaking demands upon the suppliers of energy, are to be a major consideration in the construction

of the Improvements. Special attention shall include energy conservation considerations including: (i) Chapter 13 of the International Building Code, 2000 Edition; (ii) use of alternative energy sources; (iii) energy management systems and controls to include effective means to monitor and maintain systems at optimal operations; and (iv) "state-of-the-art" systems and equipment to conserve energy economically. Tenant will perform energy modeling and provide those results to Landlord.

Section 27.25 Non-Smoking Buildings. All Improvements shall be designated as "non-smoking".

Section 27.26 Utility Information. Tenant agrees to provide Landlord with ongoing permission to access the utility information of the building to determine the amount of electricity and heating fuel consumed within the Premises. If Landlord is not able to access this information directly from the utility companies, Tenant agrees to furnish said information to Landlord upon request on a calendar year basis.

Section 27.27 Indoor Air Quality. Tenant agrees to develop and maintain an indoor air quality management program and to maintain it in conjunction with all construction projects in the Premises as well as on all ongoing maintenance and repairs of the Premises. Said program shall optimize and document the use of air quality compliant materials inside the Improvements to reduce the emissions from materials used in the Improvements. Ongoing indoor air quality requires the use of low or no VOC paints, solvents, adhesives, furniture and fabrics. VOC and chemical component limits shall not exceed Green Seal's Standard GS-11 requirements. Paints used on site shall be low VOC and are to be brush-applied only, spray painting is not allowed on the interior of the Building. Carpet must meet the requirements of the CRI Green Label Plus Carpet Testing Program. Carpet cushion must meet the requirements of the CRI Green Label Testing Program. Composite panels and agrifiber products must not contain added urea-formaldehyde resins. Laminate adhesives used to fabricate on-site and shop applied assemblies containing these laminate adhesives must contain no urea-formaldehyde.

Section 27.28 Certificates. As an accommodation to each other, each party shall, without charge, by written instrument duly executed and acknowledged, certify to any person, firm or corporation seeking certification of the following matters:

- (a) that this Lease has not been amended, or if it has, the substance of the amendment;
- (b) whether the Lease is in full force and effect;
- (c) the existence of any default, set-off, counterclaim, defense or Dispute Resolution regarding the resolution of any alleged default on the part of the other party;
- (d) the commencement of this Lease and the Term;
- (e) the dates to which Rent has been paid; and
- (f) any other matters that may reasonably be requested.

The certificate may be relied upon by the party requesting it and any other person, firm or corporation to whom by the terms of the certificate it may be exhibited or delivered, and the contents of the certificate shall be binding on the party which executed it.

Section 27.29 Short Form of Lease. The parties will, at the request of either one, promptly execute duplicate originals of an instrument, in recordable form, which will constitute a short form of Lease, setting forth a description of the Premises, the terms of this Lease and any other portions of the Lease, except the rental provisions, as either party may request. Tenant will pay all costs of recordation of any short form of lease.

Section 27.30 No Broker. The parties warrant and represent to each other that no real estate broker or agent was instrumental or in any way responsible in bringing about this Lease. Each party shall be responsible for any fees or compensation due any broker or agent engaged by such party.

Section 27.31 Time is of the Essence. Time is of the essence in this Lease and the performance of all obligations under this Lease.

Section 27.32 Guarantee. The performance of Tenant's covenants and obligations under this Lease shall be guaranteed by Guarantor in accordance with the guaranty by Tenant in favor of Landlord, which shall be executed simultaneously with the execution of this Lease (the "**Guaranty**") and attached hereto as Exhibit H. Guarantor shall maintain sufficient assets to fulfill its obligations under the Guaranty and if it does not, then Landlord may require Tenant to provide an additional or substitute guarantor of the Lease. All references to the Guarantor of this Lease shall also refer to any additional or substitute Guarantor, as applicable.

Section 27.33 Laws and Regulations Cited in Lease. With respect to any law or regulation cited in this Lease, the citation shall refer to the law or regulation as it may be amended from time to time, or any successor laws or regulations as the same may be renumbered or renamed from time to time.

Section 27.34. REIT Status. Landlord recognize that Tenant is owned directly or indirectly by a real estate investment trust ("**REIT**") and that such REIT must comply with a number of restrictions under the Internal Revenue Code (the "**Code**") to maintain its status as a REIT under Section 856 of the Code. Landlord agrees that Tenant will operate in a manner that will permit it to comply with all of the requirements necessary to enable the Tenant Parties to qualify as a REIT for U.S. federal income tax purposes. Landlord agrees that it shall not take any action which would cause any of the income derived by Tenant to fail to qualify as "rents from real properties" or as other qualifying income under Section 856(c)(2) of the Code without the express written approval of Tenant.

ARTICLE 28

REPRESENTATIONS AND WARRANTIES

Section 28.01 Representations and Warranties of Tenant.

(a) Tenant represents and warrants to Landlord that (i) Tenant is a limited liability company validly existing and in good standing under the laws of the State of Delaware, duly qualified and in good standing under the laws of the state in which the Premises is located, and has all requisite power and authority to carry on its business as now conducted and to execute, deliver and perform this Lease; (ii) the execution, delivery and performance of this Lease is within its power, has been authorized by all necessary action and does not contravene any provision of its certificate formation and operating agreement in effect on the date hereof; (iii) this Lease has been duly executed and delivered by an authorized person of Tenant; (iv) this Lease, assuming that it has been duly and validly executed and delivered by Landlord, is the valid and binding obligation of Tenant, enforceable against Tenant in accordance with its terms, subject to general equitable principles and applicable provisions of law related to bankruptcy, insolvency and creditors' rights generally; (v) the execution, delivery and performance by Tenant of this Lease does not conflict with or result in a breach of any of the provisions of, or constitute a default under, any bond, note or other evidence of indebtedness, indenture, mortgage, deed of trust, loan agreement or similar instrument, any lease or any other material agreement or contract by which Tenant, its activities or property is bound or any applicable law or order, rule or regulation of the court or governmental authority having jurisdiction over Tenant, its activities or property; (vi) as of the Rent Commencement Date, neither Tenant nor, to the knowledge of Tenant, Parent or Guarantor, has any current plans, or is party to any discussions, which would relate to or would result in (A) a Change of Control of Tenant, Parent or Guarantor, (B) the assignment or sublease of this Lease or (C) a sale or transfer of all or substantially all of the assets of Tenant, Parent or Guarantor; (vii) there are no lawsuits, claims, suits, or legal, administrative or other proceedings or investigations, civil or criminal, pending or, to Tenant's knowledge, threatened against or affecting Tenant, nor to Tenant's knowledge, is there any basis for any of the same; and there is no action, suit or legal, administrative or other proceeding pending or, to Tenant's knowledge, threatened which questions the legality or propriety of the transactions contemplated by this Lease; and (viii) no order, permission, consent, approval, license, authorization, registration or filing by or with any governmental authority having jurisdiction over Tenant, its activities or property is required for the execution, delivery or performance by Tenant of this Lease, and (ix) that Guarantor has and shall maintain sufficient assets to fulfill its obligations under the Guaranty; and (x) that Guarantor is a limited partnership validly existing and in good standing under the laws of the State of Delaware, and has all requisite power and authority to carry on its business as now conducted and to execute, deliver and perform the Guaranty.

Section 28.02 Representations and Warranties of Landlord. Landlord represents and warrants to Tenant that (i) it is a body corporate and politic of the State of Idaho is qualified to transact business in Boise, Idaho, and has all requisite power and authority to carry on its business as now conducted and to execute, deliver and perform this Lease; (ii) the execution, delivery and performance by Landlord of this Lease is within its power, has been authorized by all necessary action and does not contravene any provision of its governing documents or legislative authority, as in effect on the date hereof; (iii) this Lease has been duly executed and delivered by an authorized person of Landlord; (iv) this Lease, assuming that it has been duly and validly executed and delivered by Tenant, is the valid and binding obligation of Landlord, enforceable against Landlord in accordance with its terms, subject to general equitable principles and applicable provisions of law related to public entities, bankruptcy, insolvency and creditors' rights generally; (v) the execution, delivery and performance by Landlord of this Lease do not conflict with or result in a breach of any of the provisions of, or constitute a default under, any bond, note or other

evidence of indebtedness, indenture, mortgage, deed of trust, loan agreement or similar instrument, any lease or any other material agreement or contract by which Landlord, its activities or property is bound or, in the good faith belief of Landlord, and excluding any provisions of this Lease that are limited by the extent to which they are permitted by Law, for which Landlord makes no representation or warranty, any applicable law or order, rule or regulation of the court or governmental authority having jurisdiction over Landlord, its activities or property; and (vi) no order, permission, consent, approval, license, authorization, registration or filing by or with any governmental authority having jurisdiction over Landlord, its activities or property is required for the execution, delivery or performance by Landlord of this Lease.

Prohibited Commercial Uses

Without the prior written consent of the Landlord, no portion of the Premises shall be used for:

- overnight public accommodations (except to Permitted Residents)
- Community outreach organizations primarily serving non university individuals with previous criminal convictions and or mental health concerns
- retail operation as would be in violation of local business zoning standards in and adjacent to residential spaces and living quarters.
- public policy advocacy organizations (other than those composed solely of University students and/or faculty)
- political parties or campaign operations (other than those related solely to University student campaigns)
- pawn shops
- nude or semi-nude dance halls; adult bookstores; or retail operations principally featuring sexually explicit materials or services for purchase
- head shop or drug paraphernalia sales operations
- package liquor sales or sales by the drink
- tobacco sales or use operations
- religious bookstores and or specific faith advocacy operations or any operation that may reasonably be viewed as a cult in nature (except meetings of University student faith based organizations)
- illegal operations or use
- gambling operations including but not limited to: slots; card games of chance; off track horse race betting parlors or bingo
- video and/or digital computer gaming retail sales or retail operations that feature adult restricted games and/or what would be reasonably perceived as excessively or gratuitously violent and/or sexual games.
- retail operation that principally retails or wholesales non medicinal ingestible materials (liquids; pills; supplements and stimulants) that can be reasonably considered to carry health risks due to usage.
- health care providing or associated facilities
- “sub leases” to entities or operations specifically excluded under this listing or other terms of the Lease
- educational material sales which would violate student or faculty ethical standards of the University
- sales of products governed by university pouring contracts or other single vendor agreements that Tenant is bound to under the terms of the Lease
- retail operations that are principally designed to encourage acquisition of credit cards or promote other credit applications
- cafeteria (except as permitted by the Lease)
- a theatre, a bowling alley, a health spa or a fitness center (except that “movie nights” for Permitted Residents are permitted and a fitness center exclusively serving the Permitted Residents for no additional charge)
- billiard parlor open to the public
- night club, dance hall or similar place of recreation or amusement
- business serving or selling alcoholic beverages
- business whose major source of business is derived from the cashing of checks or making loans
- grocery store or supermarket, a wholesale club operation, a discount store, or a fuel station or fuel station/convenience store
- textbook retail or wholesale store
- tattoo shop
- car wash or automotive repair
- employment agency for day labor

**BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015**

ATTACHMENT 1

- mortuary or cremation
- newspaper or magazine printing, except editorial and administrative offices or retail copying and printing services
- dependent care center
- public bath
- blood bank and blood plasma center
- second-hand/used merchandise sales (except upscale consignment targeted towards University students)
- self-service laundry (except laundry facilities primarily for the use of Permitted Residents are permitted)
- public storage garages or facilities
- pharmacy
- any use which directly competes with the University's then existing retail or commercial enterprises
- no other educational or directly competing use except as permitted by the University

THIS OPERATING AGREEMENT (“**Agreement**”) is made _____, 2015 between the IDAHO STATE BOARD OF EDUCATION BY AND THROUGH BOISE STATE UNIVERSITY, a State of Idaho public institution of higher education (“**Landlord**” or the “**University**”) and EDR BOISE LLC, a Delaware limited liability company (“**Tenant**”), a Delaware limited liability company.

RECITALS

A. On _____, 2015, the Landlord and Tenant entered into that certain Ground Lease Agreement of the Premises, as it may be amended, restated, supplemented, replaced or extended (the “**Lease**”) relating to the construction, use, possession, operation and management of a co-ed student housing facility to be known as “_____” (the “**Project**”).

B. The Project is composed of one or more facilities housing 600 undergraduate student beds composed of a 300 bed residential honors college and a 300 bed freshman living learning community, with associated food service and other mixed use opportunities as agreed upon by the parties located on certain real property owned by the University and located on West University Drive, with an anticipated completion date of August 2017, and financed by EdR pursuant to EdR’s ONE PlanSM – The On-Campus Equity Plan. Certain areas of the Project will be designated by Tenant for the operation and use of the University pursuant to the provisions set forth in the Lease and herein, for the purpose of an honors college and University offices and/or meeting spaces. In addition, a portion of the Project will contain space that may be used by the University for a dining facility to be operated by the University’s or the University’s chosen third party vendor.

C. Also concurrently with the execution of this Agreement, Guarantor has agreed to guarantee the covenants and obligations of Tenant under the Lease and this Agreement pursuant to a Guaranty dated as of the date hereof, by Guarantor in favor of the University (as amended, restated, modified or otherwise supplemented from time to time, the “**Guaranty**” and together with the Lease and any other agreements between the University and Tenant related to the Lease, collectively, the “**Related Agreements**”).

D. The University shall continue to operate the existing and future undergraduate residence halls located on its campus that are not developed pursuant to the Lease or otherwise by Tenant (such existing facilities, the “**University Facilities**”). The Premises and the University Facilities, comprise the “**On-Campus Student Housing**”.

E. All terms used herein but not defined shall have the meanings given to such terms in the Lease. In the event of any conflict between this Agreement and the Lease, the Lease shall be the controlling document.

AGREEMENTS

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein set forth by each party to be kept and performed, and for other good and valuable consideration, the receipt, adequacy and sufficiency of which are hereby expressly acknowledged by each party hereto, the University and Tenant hereby agree as follows with the intent to be legally bound.

ARTICLE 1

TERM

The term of this Agreement shall be coterminous with the Lease. This Agreement may not be terminated except upon a termination of the Lease in accordance with the terms of the Lease.

ARTICLE 2

MANAGEMENT OF THE PREMISES

Section 2.01 Tenant's Management Discretion. Except as otherwise set forth in this Lease, Landlord agrees that so long as Tenant is acting in a good faith and a reasonable manner in the best interests of the operation of the Premises in accordance with the terms of this Lease and applicable University Policies, it shall not interfere with Tenant's decisions with respect to the enforcement of Permitted Leases, the operation of the Premises, and the determination of rental rates for the Premises.

Section 2.02 Advisory Committee. An advisory committee consisting of two (2) executives of Landlord and three (3) executives of Tenant will meet on a semi-annual basis to review the operations of the Premises and discuss the performance of the Premises, University activities affecting the Premises or Permitted Residents and any outstanding concerns of either Landlord or Tenant. The role of the Advisory Committee is to provide informed guidance on issues related to the parties and the Premises. The Advisory Committee shall also serve as the venue for negotiation in the first step of the formal dispute resolution process set forth in The Lease. The Advisory Committee should include individuals with decision making authority for their organization and persons who possess the background and skills to evaluate and make recommendations regarding the operation of the Premises.

Section 2.03 Management Agreement. Landlord agrees that the Premises may be operated for the purposes described in this Agreement under the terms of a management agreement not inconsistent with the terms of this Agreement and the Lease, under which EDR Management Inc., a management company affiliated with, controlled by or under common control of the Tenant Parties (the "**Manager**") manages and operates the Premises for and on behalf of Tenant for a management fee equal to three percent (3%) of the Gross Revenue.

Section 2.04 Commercial Tenant Rent. Tenant shall determine the rental rates for the Commercial Tenants in a manner that takes into account the best interests of the Project and does not conflict with existing contracts between the University and such Commercial Tenant.

Section 2.05 Permitted Resident Rent. Tenant shall determine the rental rates for the Permitted Residents as set forth herein (the "**Resident Rent Rate**"). Landlord shall have the right to approve the initial Resident Rent Rate for the first year that the Premises are occupied, such approval not to be unreasonably withheld, conditioned or delayed. Thereafter, Tenant will determine the Resident Rent Rate acting in a good faith and a reasonable manner in the best interests of the operation of the Premises in accordance with the terms of this Lease. The annual rate increases for the Resident Housing Fees may not increase by more than the greater of (a) four percent (4%) per year over the prior academic year's Resident Housing Fees; (b) the CPI Percentage Increase; and (c) the rate of increase at the University's other on-campus housing based on a three year average rent increase. In the event that Tenant is unable or unwilling to implement a Resident Housing Fee increase equal to the maximum amount permitted in a given Fiscal Year, Tenant shall be permitted to increase the Resident Housing Fees in subsequent years in order to match the actual Resident Housing Fees to the Resident Housing Fees that would have resulted if Tenant had increased the Resident Housing Fees each year by the maximum amount permitted (a "**Resident Housing Fee Increase Catch-Up**"); provided that the amount of a Resident Housing Fee Increase Catch-Up in any given year shall not exceed six percent (6%) over the prior academic year's Resident Housing Fees.

Section 2.06 Resident Rent Rate Increases. If Tenant determines a need for housing fee increases higher than permitted in Section 2.05 due to extraordinary increases in operating expenses, including but not limited to utilities and taxes or other circumstances reasonably deemed by Tenant to warrant an increase in the Resident Housing Fees, the Advisory Committee shall meet to consider such extraordinary increase in the Resident Rent Rate.

Section 2.07 Advisory Committee Disagreements. In the event a question arises over whether Tenant has made such decisions in a good faith and reasonable manner in the best interests of the operation of the Premises in accordance with the terms of this Lease, the Advisory Committee shall meet and Tenant shall provide evidence to support such rental rate including, for illustrative purposes only, factors such as rates at other comparable universities including other facilities owned or managed by Tenant or Guarantor, local student housing market comparisons, actual financial performance of the Project compared to original financial projections and/or such other objective criteria upon which such rate is based. Notwithstanding anything herein or in the Lease to the contrary, in the event of a disagreement of the Advisory Committee, Tenant's representatives shall have the deciding vote as to student rental rates, the operating budget or the need for capital expenditures and, regardless of the composition of the Advisory Committee, the University will have the deciding vote with regard to residence life issues and student conduct.

Section 2.08 Permitted Leases. Residential Residents shall occupy the Premises pursuant to a written lease in the form agreed upon by Landlord and Tenant (the "**Permitted Residential Leases**"). Commercial Tenants shall occupy the Premises pursuant to a written lease, license or sublease as negotiated by Tenant and approved by Landlord (each, a "**Permitted Commercial Lease**" and together with the Permitted Residential Leases, the "**Permitted Leases**").

Section 2.09 Leasing.

(a) Coordination. The University and the Tenant agree to coordinate the leasing process for the Premises so as to provide all residents of the University's on-campus student housing with a seamless, uniform application and leasing experience. Students will pay the same application fees, security deposits and other fees assessed to on-campus student residents. In connection therewith, the University and Tenant will align their calendars with regard to the operation of the Premises and interaction with students.

(b) Availability. Tenant will identify and allocate rooms in the Premises to the Permitted Residents. Tenant will make the Premises available for housing Residential Residents during the University's Academic Year and at Tenant's discretion, make the Premises available for rent to Residential Residents during the remaining months of the calendar year.

(c) Applications. The University shall administer and process all applications from potential residents of the Premises along with the other on-campus housing facilities and forward to Tenant all applications for the Premises. The University and Tenant shall require all potential residents to apply for housing by completing the University's standard housing application. Any application fees paid by Permitted Residents shall be included in the Gross Revenue and shall be an amount that is reasonable in comparison to other University fees and not so onerous as to discourage residence at the Premises.

(d) Room Assignments. The University and Tenant will jointly process and coordinate all room assignments for the Premises using the roommate matching program used by the University or otherwise approved by the University. Tenant will have access to the University's assignment software and Tenant will pay any costs associated with required licenses for the use of same. All on-campus housing (including the Project) shall be treated on a pari passu basis with respect to room assignments and summer conferences, except as affected by student preference.

(e) Student Rent Collection.

(i) The University agrees to collect all housing charges billed (A) by the Tenant to the Student Residents, including rent, fees, damage reimbursement and all other charges (the "**Student Resident Rent**") and (B) by the University to the residents of the University Facilities. The University shall bill Student Residents of the Tenant Facilities and residents of the University Facilities in the same manner, and the Tenants

shall direct all residents of the On-Campus Housing to remit payment for Student Resident Rent directly to the University. The University, in accordance with its customary practices and procedures, shall collect all payments made on each Student Resident's account, including funds received from third party sources that are applicable to the payment of Student Resident Rent including, but not limited to, scholarships, financial aid, grants, student loans, stipends or GI bill benefits ("**Student Resident Rent Funds**").

(ii) The University will provide Tenant visibility as to the available Student Resident Rent Funds in the form of read-only online access to the Student Resident account balances so that Tenant has access to the status of collection of Student Resident Rent Funds at all times. The University agrees to use its reasonable best efforts to keep its systems updated in a timely manner so that the information reviewed by the Tenants reflects the most up to date collection information feasibly available.

(iii) On a weekly basis (the "**Payment Date**"), the University will deliver to Tenant by ACH transfer all Student Resident Rent Funds collected, with a roster supporting the payment and detailing any delayed payments that the University is aware of that are to be made on behalf of the student towards his or her Student Resident Rent. The University and Tenant will cooperate and staff a reporting system that will provide Tenant with monthly settlement statements containing monthly period-end reconciliation to balance with period close from the University's financial system. Tenant acknowledges and agrees that all payments made by a Student Resident to the University Bursar's Office shall be allocated to the Student Resident's account in the following priority: (a) to unpaid tuition fees, whether owing for a prior semester or for an upcoming semester; (b) to unpaid mandatory student academic fees and other mandatory fees required for enrollment by any student at the University; (c) to Gross Revenue of the Premises; (d) to dining fees and related charges; and (e) to any other charges. For purposes of this Agreement, the term "**University Business Day**" means a normal University business day, not including Saturday, Sunday, any holiday observed by the University employee holiday, or any day on which the University is closed for any reason.

(iv) Tenant assumes all risk for non-payment by Permitted Residents. Tenant acknowledges that, so long as the University complies with its obligations to disburse Student Resident Rent Funds by the Payment Date and otherwise complies with this Section 2.09(e), Tenant shall have no recourse against the University for the failure of a Student Resident to pay rent when due and Tenant's sole recourse in the event of nonpayment of Student Resident Rent owed by a Student Resident under a Permitted Residential Lease shall be to proceed directly against the Student Resident as permitted by the terms of the Permitted Residential Lease, which shall contain provisions for eviction for nonpayment and other lease defaults. In addition, the University agrees to support Tenant in its collection efforts with the same methods the University uses to collect student housing fees owed by students residing in other on-campus facilities, including withholding access to grades and records, and /or not permitting enrollment in classes, until all housing related fees and charges are paid in full. Tenant may undertake such efforts as it deems appropriate to collect any unpaid Student Resident Rent, provided that any such efforts must be undertaken in the name of Tenant and not in the name of the University. Tenant may not, directly or indirectly, represent that any amount is owed to the University or that it is collecting any amount on behalf of or for the University. Without limiting any other indemnity provision herein, Tenant agrees to indemnify and hold harmless Landlord against any claim, loss, expense or damage incurred or suffered by the Landlord as a result of Tenant's collection efforts.

Section 2.10 Life & Safety.

(a) Jurisdiction. The Premises shall be served by the Boise State University Campus Security & Police Services ("**University PD**").

(b) Access. Tenant shall provide access to the Premises to the University PD that is reasonable under the circumstances of the requested entry, including access to the public areas of the Premises at all times and access to areas leased to Permitted Tenants when needed to protect the safety or security of life or

property. Tenant agrees to coordinate with the University PD in the installation of a rapid entry system (e.g., a Knox-Box system) at the Premises.

(c) Alarms. Tenant agrees to use the standard alarm systems as currently utilized by the University, or such other third-party alarm system approved by the University. Tenant will notify, or instruct its third party alarm operator to notify, the University PD, dispatch center, in the event that a fire alarm is activated at the Premises in response to which the Boise Fire Department is alerted to the alarm. Such notice shall be provided to the University PD contemporaneously with the notice provided to the Boise Fire Department.

(d) 911 Databases. The University shall assist Tenant in coordinating the correct address for the Premises. Tenant shall be responsible for placing the address for the Premises in the proper 911 databases, and shall notify the University promptly after such placement has been completed.

(e) Video Security Measures. Tenant will cooperate with the University in keeping the campus and the Premises safe and secure, which cooperation shall include, but not be limited to, taking the following actions: (i) installing and maintaining cameras or other security devices in, on or around the Premises that have been selected by the University and which are compatible with the systems used by the University to provide remote video feed of other buildings on the University's campus, so long as such systems meet Tenant's standards and the approved Project Budget; (ii) connecting such exterior cameras and devices to the University's video and security monitoring systems; and (iii) permitting the University reasonable access to all video and other data streams produced by the interior cameras and other recording devices installed at the Premises. Landlord (i) acknowledges that Tenant will not monitor any video at the Premises and (ii) agrees that the University will be responsible for any license fees associated with the University's master monitoring systems, however if an additional "seat" license is required for the added increment of a security workstation within the project, such fee shall be the responsibility of the tenant.

(f) Emergency "blue light" or Courtesy Phones. The University will install, and thereafter be responsible for the cost and upkeep of all on campus emergency "blue light" phones on the Premises.

(g) Clery Act Reporting. Tenant will cooperate with University and provide University information upon request and as necessary to comply with the University's obligations under the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (20 USC Section 1092(f)) and accompanying regulations.

Section 2.11 Residence Life.

(a) Residence Life Functions. The University will manage and provide resident life programming for Student Residents in a manner that ensures that the Student Residents are provided all the reasonable care, support and consideration that they receive in the University's other on-campus housing facilities. The Residence Life staff may include Resident Directors, Front Desk Staff, Resident Assistants, Senior Staff or other such staff members that the University determines to be in the best interest of residence life at the Premises (the "**Residence Life Staff**"). The Residence Life Staff who reside at the Premises will enter into a Permitted Resident Lease with Tenant and pay rent in the same amount and under the same conditions as the other Student Residents of the Premises. The University may at its option pay rent on behalf of any Residence Life Staff. The Residence Life Staff will cooperate with Tenant in its marketing, operation and maintenance of the Premises and shall use their best efforts to assist Tenant in maintaining the Premises in a first class manner.

(b) Meetings. Tenant will designate a representative to attend and participate in regular status meetings with the University's residence life staff and with other University staff or committees as appropriate.

(c) Code of Conduct. Tenant will require Student Residents to adhere to the University's code of student conduct including termination of a student's residency at the Premises (but not such student's remaining rent obligations) based on behavior as determined by the University's student conduct process.

Section 2.12 Marketing. The University and Tenant agree that it is in the best interest of the students of the University and the operation of the on-campus student housing that each party cooperate in good faith to coordinate the marketing of the Premises along with the other on-campus housing so that they are presented uniformly to prospective students.

(a) Joint Marketing Materials. At Tenant's request, the University will include marketing information for the Premises in the published marketing materials produced by the University for the other on-campus housing facilities (the "**On-Campus Housing Marketing Materials**"). The University and Tenant shall cooperate in good faith to determine the contents of the marketing information for the Premises included in the On-Campus Housing Marketing Materials. Tenant and the University shall agree on a budget for the portion of On-Campus Marketing Materials allocated to the Premises and Tenant shall promptly reimburse the University for any such previously approved costs that are incurred by the University.

(b) Certain Marketing Efforts. Whether the marketing materials are joint, or Tenant provides its own marketing materials, at a minimum, the University shall:

(i) permit Tenant to display brochures and sales materials in the University's housing office and wherever else the University markets on-campus housing;

(ii) send emails to current, prospective and transfer students, forwarding Tenant's marketing materials for the Premises on Tenant's behalf to the same extent that the University sends emails to current, prospective and transfer students containing marketing materials for other on-campus housing; and

(iii) the University will work with Tenant to identify appropriate summer conferences or camps to support budgeted summer revenue targets and otherwise promote summer conference and camp business at the Premises on the same basis as other on campus housing options and entitle the Premises to offer use of other on campus buildings to summer conferences and camps on the same basis as other on campus housing.

provided that, in all cases, the marketing materials and distribution method shall be approved by the University.

(c) Website Links. The University shall provide current information regarding all On-Campus Housing Marketing Materials, including the Premises, on the University's housing website, including links to a webpage for the Premises.

(d) Tours. Tenant shall cooperate in good faith with the University's Visitor Center to allow access to the interior, common spaces of the Premises as part of the tours of the University's campus conducted by the University's Visitor Center. To the extent available, during such tours Tenant shall provide access to a bedroom in the Premises for purposes of allowing prospective students of the University to view the bedrooms at the Premises. If the University requires a model unit for tours, the rent due for such model unit will be deducted from the sums payable to the University.

(e) Marketing Events. The University and Tenant shall cooperate in good faith to market the Premises during recruiting events hosted by the University at which housing options are presented to prospective students. Such events include, but are not limited to, advising conferences, merit weekends and preview nights.

(f) Non-disparagement Agreement. Tenant and the University agree that in marketing the on-campus housing, whether jointly or separately, in written materials, electronic or website communications, at Premises tours, marketing events, or otherwise, the University and Tenant shall not, and shall cause their respective employees and agents to not, disparage or otherwise negatively portray any of the on-campus housing options.

Section 2.13 Student Amenities. Student Residents shall have the same access as residents of other on-campus housing to amenities, including the ability to purchase parking, provided by the University, including but not limited to athletic, recreational or study spaces and the University's bus or shuttle system, which shall serve the Premises.

Section 2.14 Tenant's Employee Parking. Tenant's staff shall have the same parking privileges as are available to University employees.

Section 2.15 On-Campus Dining. The Student Residents will be required by the University or permitted to use the existing University dining services upon the same terms and conditions as the student residents of other on-campus housing.

Section 2.16 Compliance with Landlord Contracts. Tenant's use of the Premises shall strictly comply with all terms of the contracts and agreements listed on Exhibit ___ attached hereto, as the same may be amended, extended or renewed from time to time (the "**University Vendor Contracts**"). Landlord shall be permitted to add additional contracts to Exhibit ___ upon thirty (30) days prior written notice to Tenant; provided, however, that Tenant shall not be required to comply with (a) any future amendments to the existing University Vendor Contracts or any future University Vendor Contracts, if such future amendment or future contract would cause a materially adverse economic impact on Tenant's Net Income under this Lease, unless Tenant consents in writing to comply with such future amendment or future contract except as provided in Section 10.01 of the Lease.

Section 2.17 Information Technology.

(a) Video Services. Tenant shall provide video services to the Permitted Residents utilizing cable or satellite dish technology selected by Tenant. Video signal will be provided to the Permitted Residents via the cable plant installed in the Premises by Tenant. Tenant shall be responsible for costs associated with the cabling plant, video headend equipment and distribution services required to provide video services to the Permitted Residents. Tenant shall maintain and update the video services provided to the Permitted Residents in accordance with its obligations to maintain the Premises in a Class A Condition. The University will coordinate with Tenant so that University developed programming or designated channels are provided to the Permitted Residents on the same basis as to other students housed on campus without additional charges or fees.

(b) Provision of Bandwidth to the Tenant Facilities.

(i) Tenant, at its sole cost and expense, shall install the pathway to connect the Premises to the existing campus infrastructure to the closest point of the connection to the Premises and agreed to by the parties; provided that any portion of such installation located outside of the Premises shall follow the pathway approved by the University in its sole and absolute discretion.

(ii) The University shall provide sufficient cabling infrastructure for analog telephone services for the Premises. The University will be responsible for extending the analog cabling to the point in the Premises referred to in the Plans as the DEMARC location. At Tenant's discretion, subject to the reasonable aesthetic concerns of Landlord.

(iii) Tenant shall provide bandwidth for Internet access throughout the Premises starting at the DMARC location for use by the Permitted Residents and the Tenant's staff or Tenant may choose to provision bandwidth from a third party provider. If requested by Tenant, the University will cooperate with the Tenant's efforts to purchase bandwidth directly from Landlord's bandwidth provider. Tenant shall be responsible for costs associated with fiber and cabling plant within the Premises, data headend equipment and distribution services required to provide Internet access to the Permitted Residents (including upgrades and replacements). Tenant shall also be responsible for providing all internet, wireless internet and television support services to the Permitted Residents.

(c) Information Technology Support.

(i) The University's information technology department ("University IT") and Tenant shall cooperate to mutually develop and follow procedures that provide an environment for technical support of the Internet system at the Premises to the residents.

(ii) Tenant will provide the first line support for all calls for (A) all information technology provided to the Permitted Residents at the Tenant Facilities, including Internet system, surveillance system, audio visual, and television support; and (B) and Tier Two support for the Internet system for the University Reserved Space; and any other multi-purpose space in the Premises where official course and other instruction is conducted by University faculty and personnel.

(iii) University IT personnel will provide the first line support for all technology located in (A) the University Reserved Space; and (B) any other multi-purpose space in a Tenant Facility where official course and other instruction is conducted by University faculty and personnel, but only during such times that such course or other instruction is being conducted.

(d) Information Technology Governance.

(i) University IT and the Tenant shall share information regarding student satisfaction related to technology services at the Premises. University IT and the Tenant shall cooperate to develop a mutually acceptable and consistent approach for collecting that data, which may include conducting an annual student satisfaction survey to obtain student input regarding technology service levels.

(ii) University IT and the Tenant will meet annually to assess the service level metrics for the Internet system and student satisfaction with the technology experience at the Premises.

(iii) Tenant shall be responsible for managing the resolution of alleged violations of the Digital Millennium Copyright Act ("DMCA") by Permitted Residents of the Premises. The Tenant, and any third party service-provider of the Tenant, shall cooperate with and assist University IT in the resolution of such alleged violations, and shall take appropriate actions in connection therewith, including, but not limited to, removing the internet access of a Permitted Resident against whom a DMCA violation has been alleged, and restoring the internet access of such Permitted Resident following the resolution of the alleged DMCA violation. Tenant will inform Landlord of any residents with alleged DMCA violations and cooperate with any actions the Landlord may impose on a Permitted Resident.

(e) Access Card Reader and Electronic Locks. Tenant shall install and maintain the card reader access and electronic lock technology system for unit entry locks, exterior access and any other portions of the Premises that should be secured. Tenant will coordinate card access with the University's card access system to minimize the number of cards required for access to on campus buildings.

Section 2.18 Public Relations. Tenant and the University's public relations department will cooperate with one another regarding the dissemination of information about the Premises, Tenant or the University. The University recognizes that Tenant is part of a public company with frequent reporting requirements. The University and Tenant will not intentionally disclose information known to be damaging to the other. The University and Tenant will identify to the other party any information that is sensitive, confidential or potentially damaging to it and neither party will disclose such information without consulting with the other party.

Section 2.19 Postal and Parcel Delivery Services. The University and the Tenant shall cooperate in good faith in providing postal and parcel delivery services to Permitted Residents of the Premises.

Section 2.20 Pest Control. Tenant acknowledges that pest control prevention and an immediate response in the event of infestation, particularly with respect to members of the cimicidae family, commonly referred to as bed bugs, is critical to ensuring a clean, healthy environment for Permitted Residents of the Premises. Tenant agrees to establish a qualified third party pest control contract with a contractor that is certified in handling all pests and has a record of success in handling any particular pest problem at issue in the Premises. If desired by Tenant, the University agrees to cooperate in good faith to assist Tenant in establishing an independent contract with the University's third party pest control vendor.

Section 2.21 Other Services Provided by the Tenants.

(a) Laundry Services. No later than the start of the academic year in 2017, the University shall charge all residents of its on-campus housing for laundry services and laundry services shall be provided to Student Residents for the same fees, if any, as charged to other residents of on-campus student housing. If requested by Tenant, the University agrees to cooperate in good faith to assist Tenant in establishing an independent contract with the University's (current or future) third party laundry vendor. Tenant agrees to use its reasonable best efforts to structure the laundry machines in the Premises to accept a Student Resident's University identification card in order to access the cash account maintained by the University on behalf of the student (the "**University ID**"). Regardless of the method of payment, all laundry fees and any other revenue or savings generated by the laundry services provided by Tenant are Gross Revenues of the Project. The University shall remit the laundry machine revenues collected through the University ID to Tenant on a quarterly basis.

(b) Beverage Machines. Tenant agrees beverage machines will be operated under the University's exclusive beverage service and vending contract, provided however that the portion of revenue under such contract provided to the University, will instead be Gross Revenue of the Premises. The University shall remit the beverage machine revenues provided to the University by its beverage vendor to Tenant on an annual basis.

ARTICLE 3

INDEMNITY

Section 3.01 Tenant's Indemnification of Landlord.

(a) Tenant shall defend with competent counsel, indemnify and hold harmless the University, and its trustees, officers, agents, employees and affiliated and support entities from and against any and all liabilities, obligations, losses, damages, fines, penalties, claims, demands, costs, charges and expenses, including, without limitation, reasonable fees of architects, engineers, consultants and attorneys and costs associated with administrative and judicial proceedings incurred by Landlord as a result of Tenant's breach of its obligations under this Lease, which may be imposed upon, incurred by or asserted against Landlord in connection with any of the following (collectively, the "**Claims**"):

- (i) Any work done in, on or about the Premises;
- (ii) Any use, non-use, possession, occupation, condition, operation, maintenance or management of the Premises, except where such claims are a result of the acts or omissions of Landlord or its agents, concessionaires, contractors, servants or employees;
- (iii) Any act or omission of Tenant or any of its agents, concessionaires, contractors, servants, employees, or invitees, Landlord or its agents, concessionaires, contractors, servants or employees;
- (iv) Any accident, injury or death to any person or damage to any property occurring in, on or about the Premises or the Construction Easement Areas, except resulting from the acts or omissions of Landlord or its agents, concessionaires, contractors, servants or employees; or
- (v) Any failure by Tenant to perform or comply with any of the covenants, agreements, terms, provisions, conditions or limitations in this Lease required by the provisions of this Lease to be complied with or performed by Tenant.

Section 3.02 Survival. The provisions of this Article shall survive the expiration or earlier termination of this Lease with respect to events, acts or omissions during Tenant's Use Period.

ARTICLE 4

DISPUTE RESOLUTION

The dispute resolution procedures in the Lease shall govern any disputes related to this Agreement.

ARTICLE 5

DEFAULT

Section 5.01 Tenant Events of Default. Any one or more of the following events shall constitute an event of default of Tenant under this Operating Agreement (a "**Tenant Event of Default**" or "**Tenant Default**"):

(a) Tenant's failure to observe and perform any of the other terms, covenants, conditions, limitations or agreements under this Lease on Tenant's part to be observed or performed and the continuation of the failure for a period of thirty (30) days after notice from Landlord to Tenant specifying the nature of the failure; provided that if the default involved is curable but not within thirty (30) days, then so long as Tenant shall commence the cure involved within such thirty (30) day period after notice and thereafter diligently pursue completing the cure, the time within which such cure must be completed shall be extended for the period necessary to complete the cure

Section 5.02 Chronic Default. Tenant shall be deemed in "**Chronic Default**" under this Agreement if Tenant, more than three (3) times in any twenty-four (24) month period, fails to observe and perform any other terms, covenants, conditions, limitations or agreements under this Agreement on Tenant's part to be observed or performed (regardless of whether Tenant has timely cured). If Tenant is in Chronic Default, then Landlord shall be permitted to declare a Tenant Event of Default by providing written notice to Tenant and Tenant shall have no further cure periods for such default.

Section 5.03 Remedies on Tenant Default. The remedies for default shall be as set forth in the Lease.

ARTICLE 6

MISCELLANEOUS

Section 6.01 University Accreditation. Tenant agrees to (a) cooperate with the University in the University's accreditation process and (b) take all actions and do all things necessary to ensure that its possession, use, operation and management of the Premises does not negatively affect the University's accreditation.

Section 6.02 Conditions Precedent. The effectiveness of this Agreement shall be subject to the approval of the Idaho Board of Education and any additional consents or approvals required by legislation and regulations governing Landlord.

Section 6.03 Force Majeure. Neither Landlord nor Tenant shall be liable or responsible to the other party, nor be deemed to have defaulted under or breached this Lease, for any failure or delay in fulfilling or performing any term of this Lease, when and to the extent such failure or delay is caused by or results from Force Majeure. For purposes of this Agreement, Force Majeure means any event or condition beyond the reasonable control of a party which, despite its reasonable efforts to prevent, avoid, delay or mitigate, prevents, impacts or delays a party from performing its obligations under this Lease. Force Majeure includes, but is not limited to: (a) acts of God; (b) flood, fire, hurricane, earthquake or unusually severe weather; (c) epidemic or quarantine; (d) war, invasion, hostilities (whether war is declared or not), terrorist threats or acts, explosion, riot or other civil unrest; (e) government order or law; (f) actions, embargoes or blockades in effect on or after the date of this Agreement; (g) action by any governmental authority; (h) national or regional emergency; (i) strikes, labor stoppages or slowdowns or other industrial disturbances; (j) shortage of adequate power or transportation facilities; (k) significant and severe change in the economic condition of a party related to market forces or unforeseen loss of government funding beyond the control of such party and not proximately related to such party's own actions; (l) significant increases in the price of construction labor and materials prior to commencement of the Project that are greater than the average annual increases in the last ten years; (m) failures in the banking and financial systems of the United States; and (n) other events beyond the reasonable control of the party impacted by the Force Majeure Event (the "**Impacted Party**"). The Impacted Party shall give notice as soon as practicable but in any event, within ten (10) business days of the Force Majeure Event to the other party, stating the period of time the occurrence is expected to continue. The Impacted Party shall use diligent efforts to end the failure or delay and ensure the effects of such Force Majeure Event are minimized. The Impacted Party shall resume the performance of its obligations as soon as reasonably practicable after the removal of the cause. Force Majeure events shall not excuse Tenant from the prompt payment of Rent as required under this Lease.

Section 6.04 Relationship of the Parties. This Lease shall not be deemed or construed to create or establish any partnership or joint venture or similar relationship or arrangement between the parties.

Section 6.05 Authorized Representatives. Tenant hereby appoints the following as its respective Authorized Representatives during Development of the Project: Thomas Trubiana and Steven Schnoor, and for the Management of the Facilities, Christine D. Richards, each of whom may act individually, and such other persons as may be appointed in writing by them from time to time and with prior written notice of such appointment provided to Landlord. Landlord hereby appoints _____ as its Construction Coordination Authorized Representative and such other individual as may be appointed by Landlord from time to time.

Section 6.06 Notices. Any notice, request or other communication given or made hereunder ("**Notice**") shall be in writing and sent by either of the parties or their respective attorneys by any of the following means: (i) by registered or certified mail, return receipt requested, postage prepaid, (ii) by personal

delivery, (iii) by recognized overnight delivery service for overnight delivery or (iv) by facsimile or e-mail, provided, however, that notice by facsimile or e-mail shall be promptly supplemented by delivery of notice as provided in (iii) above. Any such Notice shall be addressed to the other party at the mailing addresses, facsimile numbers or e-mail addresses set forth below, or to such other mailing addresses, facsimile numbers or e-mail addresses for each party as each party may hereafter designate by Notice given to the other party pursuant to this Section:

Section 6.07 Access to Records; Public Records Law. The parties hereto acknowledge that Idaho Public Records Law, Idaho Code Title 74, Chapter 1, as amended, allows the open inspection and copying of public records. Public records include any writing containing information relating to the conduct or administration of the public's business prepared, owned, used or retained by a State agency regardless of physical form or character. Accordingly, certain Information may be public record subject to disclosure under the Idaho Public Records Law. Information Tenant considers exempt under the Public Records Law or otherwise protected by disclosure, must be marked as "exempt" or "trade secret" on **EACH PAGE** containing such information. Only those pages identified as "trade secret" or otherwise exempt from disclosure will be exempt from disclosure and the University will honor such nondisclosure to the extent permitted by law. All other pages of the proposal will be released without review. The exemption for "trade secrets" and other exemptions from the Public Records Law are limited and information will be exempt from disclosure only to the

extent the content meets the definition of trade secret or other applicable exemption in the Public Records Law. Accordingly, the University cannot guarantee information marked as “trade secret” or “exempt” will be exempt from disclosure. In addition, certain documents and materials may be required to be publicly disclosed and available for the purpose of presentation to and meetings of the Idaho State Board of Education. Tenant acknowledges such Information shall be public to the extent required by applicable laws, regulations and policies of the Idaho State Board of Education and consents to disclosure of such Information.

Section 6.08 Confidentiality. Subject to Section 6.01, the parties acknowledge that certain matters relating to this Agreement and the information related thereto, including without limitation any information relating to parties or their affiliates and all student records maintained by the University that are protected by the Family Rights and Education Privacy Act (FERPA), Idaho state law and/or University regulations, collectively (the “**Information**”), are confidential in nature. To the extent permitted by law, the parties covenant and agree to keep the Information confidential and will not (except as required by applicable law, regulation, or legal process, and only after compliance with provisions hereof), without the prior written consent of the other party, disclose any Information in any manner whatsoever; provided, however, that the Information may be revealed only to a party’s key employees, legal counsel and financial advisors (collectively, “**Contract Parties**”, and each individually “**Contract Party**”), each of whom shall be informed of the confidential nature of the Information, shall agree to act in accordance with the terms hereof, and shall agree to use the Information solely for the purpose of evaluating the transaction contemplated in this Agreement. In the event that a party or Contract Parties are requested pursuant to, or required by, applicable law, regulation or legal process (collectively “**Applicable Law**”) to disclose any of the Information, the applicable Contract Party shall notify the other party promptly so that such party may seek a protective order or other appropriate remedy (collectively “**Remedy**”) or, in the affected party’s sole discretion, such party may waive compliance with the terms hereof; provided, however, that the Remedy must be of a nature that a Contract Party’s failure to disclose the information will not place the Contract Party in violation of Applicable Law or otherwise expose the Contract Party to any liability for failure to disclose the Information as required by Applicable Law, and, provided further, that the Remedy must be secured not later than forty-eight (48) hours in advance of the deadline for disclosure of the Information in compliance with Applicable Law. In the event that no Remedy is obtained, or that the affected party waives compliance with the terms hereof, the Contract Party may furnish only that portion of the Information which it is advised by counsel is legally required and will exercise all reasonable efforts to obtain reliable assurance that confidential treatment will be accorded the Information. Each party shall be responsible for any breach of the covenants in this Section by any Contract Party.

Section 6.09 Non-Recourse Agreement; No Recourse to State of Idaho General Fund Appropriations. No funds of the State of Idaho shall be used for any University obligation set forth in this Lease, including without limitation termination fees set forth in Article 26, or any payment or damages required of the University in case of default hereunder. In no case shall the University have any obligation or liability under this Agreement in any given year of the Term in excess of the revenues from the Project for such year (“**Annual Project Revenues**”), except for the payment of the Early Termination Fee upon termination of the Term, which may be paid by revenues from the Project escrowed for such event, general revenues of the University, or by another third party operator of the Project, but in no case by appropriations or other funds of the State of Idaho.

Section 6.10 Interpretation. Unless otherwise specified herein: (a) the singular includes the plural and the plural the singular; (b) words importing any gender include the other genders; (c) references to persons include their permitted successors and assigns; and (d) the headings of articles and sections contained in this Lease are inserted as a matter of convenience and shall not affect the construction of this Lease. The parties have jointly, with the advice and assistance of their respective legal counsel, participated in the negotiation and drafting of all of the terms and provisions of this Lease, and, accordingly, it is agreed that no term or provision of this Lease shall be construed in favor of or against any party by virtue of the authorship or purported authorship thereof by any party.

Section 6.11 Applicable Law. This Lease shall in all respects be governed by, and construed in accordance with the laws of the state in which the Premises are located. Venue for purposes of any actions brought under this Lease, or under any agreement or other document executed in conjunction herewith, shall be in the courts of Ada County, Idaho and the parties hereby irrevocably consent to the jurisdiction and venue of such courts.

Section 6.12 Amendment and Waiver. This Lease may be amended or changed only by written instrument duly executed by Landlord and Tenant and any alleged amendment or change which is not so documented shall not be effective as to either. The failure of either to insist in any one or more instances upon the strict performance of any one or more of the obligations of this Lease, or to exercise any election herein contained, shall not be construed as a waiver or relinquishment for the future of the performance of such one or more obligations of this Lease or of the right to exercise such election, but the same shall continue and remain in full force and effect with respect to any subsequent breach, act or omission.

Section 6.13 Severability. If any provision of this Lease or the application thereof to any person, entity or circumstance shall, for any reason and to any extent, be invalid or unenforceable but the extent of the invalidity or unenforceability does not destroy the basis of the bargain between the parties hereto as contained herein by invalidating an essential term, including but not limited to: the provision of student housing services by Tenant, the payment of Rent to the Landlord by Tenant, and the payment of the Early Termination Fee by Landlord to Tenant in the case of early termination for any reason, the remainder of this Lease and the application of such provision to other persons or circumstances shall not be affected thereby, but rather shall be enforced to the greatest extent permitted by applicable law.

Section 6.14 Entire Agreement; Further Assurances. This Lease sets forth all the covenants, promises, agreements, conditions, and understandings between Landlord and Tenant with regard to the matters set forth herein, including, but not limited to, the financial obligations relating thereto, and there are no covenants promises, agreements, conditions, or understandings, either oral or written between them as to these matters, other than as are set forth herein. The recitals, schedules and exhibits attached hereto or referred to herein are hereby incorporated herein and made a part hereof. At any time or times after the date hereof, each party shall execute, have acknowledged, and delivered to the others any and all instruments, and take any and all other actions, as the other parties may reasonably request to effectuate the transactions described herein.

Section 6.15 Multiple Counterparts. This Lease may be executed in one or more counterparts, each of which shall be an original, but all of which shall constitute but one instrument.

Section 6.16 Successors and Assigns. This Lease shall be binding on, and shall inure to the benefit of, the parties hereto and the parties' respective permitted successors and assigns.

Section 6.17 No Third Party Beneficiaries. Nothing in this Lease shall be construed to permit anyone other than Landlord and Tenant and their respective successors and permitted assigns to rely upon the covenants and agreements herein contained nor to give any such third party a cause of action (as a third party beneficiary or otherwise) on account of any nonperformance or performance hereunder.

Section 6.18 No Personal Liability. No officer, official, employee, agent or representative of either party shall be personally liable to the other party or any successor in interest, in the event of any default or breach by the party for any amount which may become due to the other party or any successor in interest, or on any obligation incurred under the terms of this Lease.

Section 6.19 Officials, Agents and Employees of State of Idaho Not Personally Liable. It is agreed by and between the parties that in no event shall any official, officer, employee or agent of the State of Idaho be in any way liable or responsible for any covenant or agreement contained in this Lease, express or implied, nor for

any statement, representation or warranty made in or in any way connected with this Lease Agreement or the Premises. In particular, and without limitation of the foregoing, no full-time or part-time agent or employee of the State of Idaho shall have any personal liability or responsibility under this Lease Agreement, and the sole responsibility and liability for the performance of this Lease Agreement and all of the provisions and covenants contained in this Lease Agreement shall rest in and be vested with the Landlord.

Section 6.20 Nondiscrimination. Tenant hereby agrees to perform all of its obligations related to this Lease without discrimination on the basis of race, color, national origin, religion, sex, age, physical/mental impairment, and to comply with all relevant sections of: Title VI of the Civil Rights Act of 1964, as amended; and The Age Discrimination Act of 1975; and to comply with pertinent amendments to these acts made during the term of this Lease Agreement. Tenant further agrees to comply with all pertinent parts of federal rules and regulations implementing these acts. Tenant hereby agrees to provide equal employment opportunity in employment and not to discriminate on the basis of race, color, national origin, religion, sex, age, physical/mental impairment, and covered veteran status to the extent required by applicable law.

Section 6.21 Construction or Renovation of Buildings. All buildings owned or maintained by any State government agency or entity, or which are constructed or renovated specifically for use or occupancy by any such agency or entity shall conform to all existing state codes, including but not restricted to, the Idaho General Safety and Health Standards, the International Building Code, the International Mechanical Code and the International Fire Code. If any conflict arises between applicable codes, the more stringent code shall take precedence. Prior to construction or remodeling of such buildings, where appropriate, construction plans shall be reviewed and approved by the Division of Building Safety, the State Fire Marshal's Office and the Permanent Building Fund Advisory Council.

Section 6.22 Long Term Energy Costs. Long-term energy costs, including seasonal and peaking demands upon the suppliers of energy, are to be a major consideration in the construction of the Improvements. Special attention shall include energy conservation considerations including: (i) Chapter 13 of the International Building Code, 2000 Edition; (ii) use of alternative energy sources; (iii) energy management systems and controls to include effective means to monitor and maintain systems at optimal operations; and (iv) "state-of-the-art" systems and equipment to conserve energy economically.

Section 6.23 Non-Smoking Buildings. All Improvements shall be designated as "non-smoking" except for custodial care and full-time residential facilities. The policy governing custodial care and full-time residential facilities may be determined by the directors of such facilities.

Section 6.24 Utility Information. Tenant agrees to provide Landlord with ongoing permission to access the utility information of the building to determine the amount of electricity and heating fuel consumed within the Premises. If Landlord is not able to access this information directly from the utility companies, Tenant agrees to furnish said information to Landlord upon request on a calendar year basis.

Section 6.25 Indoor Air Quality. Tenant agrees to develop and maintain an indoor air quality management program and to maintain it in conjunction with all construction projects in the Premises as well as on all ongoing maintenance and repairs of the Premises. Said program shall optimize and document the use of air quality compliant materials inside the Improvements to reduce the emissions from materials used in the Improvements. Ongoing indoor air quality requires the use of low or no VOC paints, solvents, adhesives, furniture and fabrics. VOC and chemical component limits shall not exceed Green Seal's Standard GS-11 requirements. Paints used on site shall be low VOC and are to be brush-applied only, spray painting is not allowed on the interior of the Building. Carpet must meet the requirements of the CRI Green Label Plus Carpet Testing Program. Carpet cushion must meet the requirements of the CRI Green Label Testing Program. Composite panels and agrifiber products must not contain added urea-formaldehyde resins. Laminate adhesives

used to fabricate on-site and shop applied assemblies containing these laminate adhesives must contain no urea-formaldehyde.

Section 6.26 REIT Status. Landlord recognize that Tenant is owned directly or indirectly by a real estate investment trust (“REIT”) and that such REIT must comply with a number of restrictions under the Internal Revenue Code (the “Code”) to maintain its status as a REIT under Section 856 of the Code. Landlord agrees that Tenant will operate in a manner that will permit it to comply with all of the requirements necessary to enable the Tenant Parties to qualify as a REIT for U.S. federal income tax purposes. Landlord agrees that it shall not take any action which would cause any of the income derived by Tenant to fail to qualify as “rents from real properties” or as other qualifying income under Section 856(c)(2) of the Code without the express written approval of Tenant.

ARTICLE 7

REPRESENTATIONS AND WARRANTIES

Section 7.01 Representations and Warranties of Tenant.

(a) Tenant represents and warrants to Landlord that (i) Tenant is a limited liability company validly existing and in good standing under the laws of the State of Delaware, duly qualified and in good standing under the laws of the state in which the Premises is located, and has all requisite power and authority to carry on its business as now conducted and to execute, deliver and perform this Agreement; (ii) the execution, delivery and performance of this Agreement is within its power, has been authorized by all necessary action and does not contravene any provision of its certificate formation and operating agreement in effect on the date hereof; (iii) this Agreement has been duly executed and delivered by an authorized person of Tenant; (iv) this Agreement, assuming that it has been duly and validly executed and delivered by Landlord, is the valid and binding obligation of Tenant, enforceable against Tenant in accordance with its terms, subject to general equitable principles and applicable provisions of law related to bankruptcy, insolvency and creditors’ rights generally; (v) the execution, delivery and performance by Tenant of this Agreement does not conflict with or result in a breach of any of the provisions of, or constitute a default under, any bond, note or other evidence of indebtedness, indenture, mortgage, deed of trust, loan agreement or similar instrument, any lease or any other material agreement or contract by which Tenant, its activities or property is bound or any applicable law or order, rule or regulation of the court or governmental authority having jurisdiction over Tenant, its activities or property; (vi) as of the Rent Commencement Date, neither Tenant nor, to the knowledge of Tenant, Parent or Guarantor, has any current plans, or is party to any discussions, which would relate to or would result in (A) a Change of Control of Tenant, Parent or Guarantor, (B) the assignment or sublease of this Lease or (C) a sale or transfer of all or substantially all of the assets of Tenant, Parent or Guarantor; (vii) there are no lawsuits, claims, suits, or legal, administrative or other proceedings or investigations, civil or criminal, pending or, to Tenant’s knowledge, threatened against or affecting Tenant, nor to Tenant’s knowledge, is there any basis for any of the same; and there is no action, suit or legal, administrative or other proceeding pending or, to Tenant’s knowledge, threatened which questions the legality or propriety of the transactions contemplated by this Agreement; and (viii) no order, permission, consent, approval, license, authorization, registration or filing by or with any governmental authority having jurisdiction over Tenant, its activities or property is required for the execution, delivery or performance by Tenant of this Agreement.

Section 7.02 Representations and Warranties of Landlord. Landlord represents and warrants to Tenant that (i) it is a body corporate and politic of the State of Idaho, is qualified to transact business in Boise, Idaho, and has all requisite power and authority to carry on its business as now conducted and to execute, deliver and perform this Agreement; (ii) the execution, delivery and performance by Landlord of this Agreement is within its power, has been authorized by all necessary action and does not contravene any provision of its governing documents or legislative authority, as in effect on the date hereof; (iii) this Agreement has been duly

executed and delivered by an authorized person of Landlord; (iv) this Agreement, assuming that it has been duly and validly executed and delivered by Tenant, is the valid and binding obligation of Landlord, enforceable against Landlord in accordance with its terms, subject to general equitable principles and applicable provisions of law related to public entities, bankruptcy, insolvency and creditors' rights generally; (v) the execution, delivery and performance by Landlord of this Agreement do not conflict with or result in a breach of any of the provisions of, or constitute a default under, any bond, note or other evidence of indebtedness, indenture, mortgage, deed of trust, loan agreement or similar instrument, any lease or any other material agreement or contract by which Landlord, its activities or property is bound or, in the good faith belief of Landlord, and excluding any provisions of this Agreement that are limited by the extent to which they are permitted by the Requirements, for which Landlord makes no representation or warranty, any applicable law or order, rule or regulation of the court or governmental authority having jurisdiction over Landlord, its activities or property; and (vi) no order, permission, consent, approval, license, authorization, registration or filing by or with any governmental authority having jurisdiction over Landlord, its activities or property is required for the execution, delivery or performance by Landlord of this Agreement.

UNIVERSITY OF IDAHO

SUBJECT

Capital Project Financing Plan and Construction Phase Authorization Request,
Replace Aquaculture Research Institute facility, Moscow Campus

REFERENCE

December 19, 2013 Approval by the Board of Regents for design and
planning phase expenditures up to \$120,000.

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Sections V.K.1
and V.K.3.b, and V.K.3.c.

BACKGROUND/DISCUSSION

The Aquaculture Research Institute (ARI) has research facilities both on the University of Idaho (UI) Moscow campus and in Southern Idaho at the Hagerman Fish Culture Experiment Station. Campus ARI facilities support fish holding and experimentation, but they also provide space for faculty and staff offices, graduate student offices, conference areas, and dry lab space. These research facilities are designed to meet many research and teaching needs for faculty involved in the fisheries/aquaculture field. Fish and tank space is provided as a service to faculty from many different departments at UI and Washington State University (WSU). Fish are reared at ARI facilities for use in teaching laboratories in various courses offered through the Department of Fish and Wildlife Sciences.

The current building on Poultry Hill was originally a residential farmhouse built in the 1920s, in which the university has housed aquaculture research for the last 25 years or more. The building has many deficiencies and is in need of repairs and modernization to bring it up to current code. Repair needs include a new roof, building siding, windows, a new boiler, water and sewer service upgrades, replacement of the electrical system, and various ADA improvements. All totaled, the estimated repair costs far exceed the replacement value of the facility. This structure will be removed from service and demolished as part of this overall effort.

A new 7,500 square foot facility will provide improved capabilities and be located close to the larger cold water wet lab on the west end of campus near the Holm Research Center. Improving the ARI campus facilities will ensure longevity of important ongoing research programs and will facilitate new opportunities for current and future fisheries faculty at UI. Relocating near the existing cold water wet lab facility will increase critical mass and interaction between staff and faculty, and provide new capacity for funded research projects.

Since the Regents authorized UI to proceed with the planning and design phases, much has been accomplished. UI conducted a Request for Qualifications (RFQ)

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

process to identify a consultant team most qualified to assist the university with planning and design. Lombard Conrad Architects (LCA), of Boise, was identified and brought under contract. LCA is assisted by McMillen, also of Boise. McMillen brings specific expertise in fishery and aquaculture projects and has worked successfully with UI in the past regarding the 2010 Paradise Creek Ecosystem Restoration effort.

LCA/McMillen have worked with university faculty and staff to plan, program, and develop a conceptual design for the facility that satisfies the project needs and requirements. In parallel, UI research and academic faculty and staff have conducted an in-depth programmatic review of Aquaculture and fishery programs to ensure that the right research and academic programs are identified and planned for the facility, and the proper needs and requirements are developed in support of those programs.

The project is currently in the final stages of design development and ready to proceed into construction documents in support of an eventual bid phase and construction implementation.

IMPACT

The immediate fiscal impact of this effort is an additional \$1,680,000 to fund the construction phase. The overall project effort to include the previously authorized \$120,000 planning and design phase is anticipated to be \$1,800,000. In the planning and design phase authorization request, UI noted an intention to fund the initial costs from internal strategic reserves, with the university repaying itself through bond debt at a later date. Upon further analysis since that December 2013 request, UI now intends to fully fund the entire project from internal, central strategic reserves. Therefore, UI no longer intends to include this project in any additional bond or debt financing.

<i>Total Project</i>

STAFF COMMENTS AND RECOMMENDATIONS

This is a request for Regents' Authorization to approve the financing plan and implement the construction phase for the replacement of the existing aquaculture research facility located on Poultry Hill on the main campus of the University of

BUSINESS AFFAIRS AND HUMAN RESOURCES
AUGUST 13, 2015

Idaho. The capital project budget is estimated at \$1.8 million. If authorized, the university will proceed with the bidding, award, and construction phases of this project.

Staff recommends approval.

BOARD ACTION

I move to approve the request by the University of Idaho to implement construction phases of a Capital Project for the replacement of the Poultry Hill Aquaculture Research facility, in the amount of \$1,800,000. Authorization includes the authority to execute all necessary and requisite consulting contracts to bid, award, and fully implement the construction phase of the project.

The facility will be eligible for occupancy costs, so Legislative Services Office and the Division of Financial Management should be so notified pursuant to Board policy V.B.10.

History Narrative

- 1 Institution/Agency:** University of Idaho **Project:** Project Financing Plan and Construction Phase Authorization, Replace Aquaculture Research Facility, University of Idaho, Moscow, Idaho.
- 2 Project Description:** Planning and Design Phase for a project to replace the 90 year old farmhouse housing aquaculture research operations on Poultry Hill, on the main campus of the University of Idaho, Moscow, Idaho. The replacement facility is to be constructed approx 1/3 of a mile west of the existing structure, adjacent to another existing aquaculture research facility. The project will include site prep and improvements, construction of the new research facility, and the potential demolition of the existing aged structure.
- 3 Project Use:** Improving the aquaculture facilities will ensure longevity of important ongoing research programs and will facilitate new opportunities for current and future fisheries faculty at UI. Relocating near the larger existing fish facility will increase critical mass and interaction between staff and faculty, and provide new capacity for funded research projects.
- 4 Project Size:** Tagret 7,500 GSF

LEWIS-CLARK STATE COLLEGE

SUBJECT

Sodexo Food Services Contract Renewal

APPLICABLE STATUTES, RULE OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.I.3.a.
IDAPA 38.05.01.032

BACKGROUND / DISCUSSION

Lewis-Clark State College (LCSC) has contracted with Sodexo as the on campus food vendor since at least 1996. The last comprehensive contract, also for a five year term with subsequent one year extension provisions, was entered into in 2006. This draft renewal does not contain significant changes from the prior contract, although it does provide for a \$10,000/year payment by Sodexo to LCSC for facility and equipment upgrades. The draft renewal maintains the ability to cancel the contract with a 60 day notice. Also, there is typically an annual addendum that adjusts meal plan prices to account for inflation, etc.

Idaho higher education institutions are exempt from bidding requirements for food service operations where there is no expenditure of institutional funds. Food service revenues from students and customers are passed through the college to the vendor.

IMPACT

Based upon the amount of student meal plan fees (\$728,000 in FY 2015), the total dollar value of the contract over five years exceeds institution and executive director approval thresholds set forth in policy V.I.3.a., thus Board approval is required.

Attachment 1 – Management Agreement

Page 3

STAFF COMMENTS AND RECOMMENDATIONS

Staff recommends approval

BOARD ACTION

I move to approve the agreement between Lewis-Clark State College and Sodexo America, LLC, in substantial conformance to the form submitted to the Board in Attachment 1, and to authorize the Vice President for Finance and Administration to execute the contract and any necessary supporting documents.

Moved by _____ Seconded by _____ Carried Yes ___ No ___

THIS PAGE INTENTIONALLY LEFT BLANK

MANAGEMENT AGREEMENT

This Management Agreement ("Agreement") is made and entered into as of this 22nd day of June, 2015, by and between LEWIS-CLARK STATE COLLEGE, an Idaho educational institution ("Client"), and SODEXO AMERICA, LLC, a Delaware limited liability company ("Sodexo"), who agree as follows:

**ARTICLE I
PURPOSE OF THIS AGREEMENT**

1.1 **Purpose of Agreement.** This Agreement sets forth the terms and conditions upon which Client retains Sodexo to manage and operate Food Service for Client's students, faculty, staff, employees, visitors and invited guests.

1.2 **Independent Contractor.** Sodexo shall be an independent contractor and shall retain control over its employees and agents.

1.3 **Previous Agreements.** Client and Sodexo previously entered into an Agreement dated June 14, 2006, concerning the scope of services to be provided by Sodexo as set forth in Section 1.1 herein. This Agreement supersedes the agreements noted in the preceding sentence and any and all other previous agreements relating to the subject matter as specified in Section 1.1 herein.

1.4 **Confidentiality.** The terms and conditions of this Agreement are confidential. Client and Sodexo represent and warrant to each other that each party shall maintain the confidentiality of the terms and conditions of this Agreement, however, such restriction shall not prohibit either party from disclosing the existence of the relationship, Term of the Agreement or the projected sales volume related to the terms of the Agreement.

**ARTICLE II
DEFINITIONS**

2.1 **Accounting Period.** Sodexo's accounting calendar ordinarily contains one five week and two four week Accounting Periods in each quarter of a year.

2.2 **Charge.** A fee established by Sodexo for goods or services provided by Sodexo.

2.3 **Food Service.** The preparation, service and sale of food, beverages, goods, merchandise and other items at the Premises. Food Service shall include the following:

Resident Dining Program
Retail Sales
Catering
Concessions
Conference Meals

2.4 Gross Sales. All sales of food, beverages, goods, merchandise and services in the Food Service operation, including sales taxes.

2.5 Net Sales. All sales of food, beverages, goods, merchandise and services in the Food Service operation, excluding sales taxes.

2.6 Premises. Client's facilities on the campus of Lewis-Clark State College, including the Center for Arts and History, with the exception of its Athletic facilities.

2.7 Smallwares. Dishware, glassware, flatware, utensils and similar items.

**ARTICLE III
TERM AND EXCLUSIVITY**

3.1 Term and Termination

A. The term of the Agreement is five (5) years ("Initial Term"), commencing on July 1, 2015 and shall continue thereafter, until terminated by either party as hereinafter provided.

Client and Sodexo agree to participate in Expectations Sessions throughout the term of this Agreement with a minimum of one (1) per contract year.

B. If either party breaches a material provision hereof ("Cause"), the non-breaching party shall give the other party notice of such Cause. If the Cause is remedied within ten (10) days in the case of failure to make payment when due or sixty (60) days in the case of any other Cause, the notice shall be null and void. If such Cause is not remedied within the specific period, the party giving notice shall have the right to terminate this Agreement upon expiration of such remedy period. The rights of termination referred to in this Agreement are not intended to be exclusive and are in addition to any other rights or remedies available to either party at law or in equity.

C. Either party may terminate this Agreement, in whole or in part, at any time upon sixty (60) days' prior written notice to the other party.

3.2 Effect of Termination

A. All outstanding amounts owed Sodexo shall become due and payable immediately upon notification of termination by Client. Client shall pay Sodexo in full each week for services performed during the prior week. Such payments shall be

made no later than Friday of the week succeeding the week in which the work is performed. In the event Client fails to timely make any payment hereunder, Sodexo immediately may cease to provide Food Service.

B. If the Agreement is terminated, Client shall reimburse Sodexo for the unamortized portion of Sodexo's Investment relating to the Food Services.

3.3 Exclusive. Client grants Sodexo the exclusive right to perform Food Service on or from the Premises. Client and Sodexo may agree to exempt certain catering events from exclusivity by mutual agreement of the parties. Client grants Sodexo and its affiliates the right to bid on the procurement of furnishings, fixtures and equipment and on the provision of design services related to the Premises on terms to be agreed upon.

ARTICLE IV EMPLOYEES

4.1 Sodexo Management Employees. Sodexo shall provide management employees to supervise all Food Service employees.

4.2 Sodexo Nonmanagement Employees. All nonmanagement Food Service employees shall be Sodexo employees.

4.3 Personnel Obligations. Each party hereto shall be solely responsible for all personnel actions and all claims arising out of injuries occurring on the job regarding employees on its respective payroll. Each party shall withhold all applicable federal, state and local employment taxes and payroll insurance with respect to its employees, insurance premiums, contributions to benefit and deferred compensation plans, licensing fees and workers' compensation costs and shall file all required documents and forms. Each party shall indemnify, defend and hold the other harmless from and against any claims, liabilities and expenses related to or arising out of the indemnifying party's responsibilities set forth herein.

4.4 Agreement Not To Hire. Client shall not, without Sodexo's written consent, hire, make any agreement with, or permit the employment, in any operation providing food service, any person who has been a Sodexo management employee at the Food Service within the earlier of one (1) year after said employee terminates employment with Sodexo or within one (1) year after termination of this Agreement. Client agrees that Sodexo employees have acquired special knowledge, information, skills and contacts as a result of being employed with and trained by Sodexo. If Client hires, makes any agreement with or permits employment of any such employee, in any operation providing food service within the restricted period, it is agreed by Client that Sodexo shall suffer damages and Client shall pay Sodexo as liquidated damages an amount equal to two (2) times the annual salary of each employee hired by Client. This sum has been determined to be reasonable by both parties after due consideration of all

relevant circumstances. This provision shall survive termination of this Agreement.

4.5 Equal Opportunity and Affirmative Action Employer. Neither party shall discriminate because of race, color, religion, sex, age, national origin, disability, sexual orientation, genetic information, or veteran status, or any other basis protected by applicable law, in the recruitment, selection, training, utilization, promotion, termination, or other employment related activities concerning Food Service employees. Each party affirms that it is an equal opportunity employer. The staffing, promotion, placement or assignment of managers who work on this account must be done without any preference or limitation based on race, color, religion, sex, age, national origin, disability, sexual orientation, genetic information, veteran status, or any other basis protected by applicable law. This obligation applies to the recruitment, selection, training, utilization, promotion, termination or other employment-related activities concerning Sodexo's employees. Under no circumstances will Sodexo permit a request or suggestion by a client to place a particular manager in an account to override its non-discrimination policy.

In addition, Sodexo affirms that it is an equal opportunity and affirmative action employer, is legally responsible for all of its employment decisions affecting its own employees, which include thousands of extremely talented and diverse managers, and shall comply with all applicable federal, state and local laws and regulations, including, but not limited to, Executive Order 11246; Rehabilitation Act of 1973; Vietnam Era Veterans Readjustment Assistance Act of 1974; Civil Rights Act of 1964; Equal Pay Act of 1963; Age Discrimination in Employment Act of 1967; Immigration Reform and Control Act of 1986; Public Law 95-507; the Americans With Disabilities Act; and any additions or amendments thereto.

**ARTICLE V
INVENTORIES, PREMISES, EQUIPMENT AND MAINTENANCE**

5.1 Premises and Equipment. Client shall furnish at its expense, Premises and equipment including but not limited to kitchen equipment, suitably furnished office space, including a safe for the temporary holding of funds and fire extinguishing equipment. Sodexo shall take reasonable and proper care of the facilities and return them to Client at termination of the Agreement.

5.2 Condition of Premises and Equipment. The Premises and equipment provided by Client for use in the Food Service operation shall be in good condition and maintained by Client to ensure compliance with applicable laws concerning building conditions, sanitation, safety and health (including, without limitation, OSHA regulations). Client agrees to indemnify Sodexo against any liability or assessment, including related interest and penalties, arising from Client's breach of the aforementioned obligations, and Client shall pay reasonable collection expenses, attorneys' fees and court costs incurred in connection with the enforcement of such

indemnity. Client further agrees that any modifications or alterations to the workplace or the Premises (whether structural or non-structural) necessary to comply with any statute or governmental regulation shall be the responsibility of Client and shall be at the Client's expense. This provision shall survive the termination of this Agreement.

5.3 Sanitation and Janitorial Service. The responsibilities of the parties with respect to the usual and customary cleaning and sanitation of the Premises shall be as follows:

A. Sodexo's Responsibilities. Sodexo shall be responsible for housekeeping and sanitation in food preparation, storage and serving areas. Sodexo shall clean tops of tables and chairs in the dining area, and transport refuse to designated refuse collection areas. Twice annually, within 20 days of the last day of the spring semester and again during winter break, Sodexo shall complete deep cleaning of the food preparation and serving areas including but not limited to all equipment in the kitchen and serving area, counter tops, work surfaces, cabinets, and floors.

B. Client's Responsibilities. Client shall be responsible for housekeeping and sanitation in customer traffic areas including dining area and the cleaning of dining area floors and/or carpets and all windows, walls, ceilings, ceiling fixtures, drapes, fixtures, air ducts and hood vent systems (per local ordinance). Client shall provide and maintain adequate fire extinguishing equipment for the Premises, pest control and shall be responsible for removal of refuse from refuse collection areas. Client shall be responsible for any costs involved in setting up and cleaning the Premises for functions not managed by Sodexo.

5.4 Maintenance. Client shall, at Client's expense, provide maintenance personnel and outside maintenance services, parts and supplies required to properly maintain the Premises and Client-owned equipment.

5.5 Inventories of Food, Beverages and Supplies. Sodexo shall continue to purchase and own inventories of food, beverages, goods, merchandise and supplies. Upon termination of the Agreement, Client shall purchase from Sodexo, or shall cause the successor operator to purchase, any remaining inventories at Sodexo's then current invoiced cost.

5.6 Inventory of China and Smallwares. Client and Sodexo have inventoried all china, if any, and Smallwares owned by Client and have agreed as to required inventory levels. If at any time Sodexo is to provide additional Services not provided for herein, Client shall be responsible to increase, at its own expense, the inventories required for the additional service(s). Sodexo shall maintain the required inventory levels and charge the expense of replacements as an Operating Expense.

5.7 Vehicle. Sodexo shall provide a vehicle for use in the Food Service operation. Sodexo shall be responsible for the vehicle's gas, oil, maintenance, repair,

and automobile liability insurance.

5.8 Telephone Expenses. Sodexo shall be responsible for telephone installation costs, local and long distance telephone billings and broadband internet access.

5.9 Meal Program Identification System. Sodexo shall provide the administrative support for the meal program identification system and Client shall be responsible for all costs related to the electronic meal program identification system, including hardware, software, and on-going supplies. Sodexo and Client will determine annually an agreed amount for splitting the annual maintenance fee.

5.10 Equipment Failure. If electrical or equipment failure cause loss of refrigerated or frozen products, Client shall reimburse Sodexo for such loss based on invoice cost of the products. If Client's dishmachine equipment becomes inoperative for reason other than Sodexo's negligence, Client shall reimburse Sodexo for the cost of disposable items used in lieu of reusable items until the dishmachine equipment becomes operative.

5.11 Utilities. Client shall be responsible for the cost of utilities consumed in the Food Service operation.

5.12 Capital Equipment. Client shall provide capital equipment as required for the Services. In the event Client requests Sodexo to purchase equipment on Client's behalf for Client's facility, any equipment purchases made pursuant to this Section shall be billed at the price quoted by Sodexo and paid by Client separate from the financial arrangement detailed in Section 8.1.

**ARTICLE VI
RESIDENT DINING PROGRAM**

6.1 Service and Locations. Sodexo shall provide Food Service for Client's resident dining patrons at the Premises and at such other locations as Client and Sodexo shall agree.

6.2 Meal Plans. The following meal plans selected by Client shall be available to resident dining patrons for the 2015-2016 Academic Year:

- Meal Plan A (7 days, 14 meals per week, \$250.00 Dining Dollars)
- Meal Plan B (7 days, any 10 meals per week, \$200.00 Dining Dollars)
- Meal Plan C (7 days, any 5 meals per week, \$250.00 Dining Dollars)

Unused Dining Dollars shall carry over from Fall to Spring Semester providing that the customer purchases a valid meal plan for both semesters. Unused balances shall not be carried over after the end of Spring Semester and shall be for Sodexo's

revenues.

Two (2) guest meals shall be provided each Semester for each meal plan purchased. Guest meals may be used any time that the dining facility is open for resident dining patrons. Guest meals do not carry over from Semester to Semester.

This Agreement between Sodexo and Client provides that Client grants Sodexo the exclusive right to provide Client with meals related to meal plans, debit card points, flex points for Client to resell to its students, faculty and staff at a specified rate per meal or daily rate.

6.3 Resident Dining Rates. The following resident dining rates shall be in effect for the 2015- 2016 resident dining calendar attached as Exhibit A:

Meal Plan 1	\$13.27 per boarder per day
Meal Plan 2	\$12.87 per boarder per day
Meal Plan 3	\$ 8.87 per boarder per day

Rates for Meal Plan(s) 1,2, and 3 are for each resident dining patron for each day with a minimum number of two hundred twenty two (222) days required each academic year.

6.4 Partial Service Days. Charges for partial service days at the beginning or end of an academic term or vacation period shall be based on a fraction of the daily resident dining rate to be prorated on a daily basis as follows:

Breakfast:	1/2 of rate
Breakfast & Lunch:	2/3 of rate
Lunch & Dinner:	3/4 of rate
Dinner:	2/3 of rate
Brunch:	2/3 of rate

6.5 Guest Meals In Resident Dining Facilities. For guests, prices for meals served in resident dining facilities shall be as follows:

Breakfast:	\$8.79
Lunch:	n/a
Dinner:	\$11.50
Brunch:	\$ 8.79

Plus applicable taxes, if any.

6.6 Unscheduled Service Charges. For service not included in the resident dining rate such as service on Freshman Days, between semesters, commencement and the summer session, Sodexo shall provide Food Service at mutually agreed upon times and charges.

6.7 Seconds Policy. Unlimited servings of all food and beverage items, with the exception of steak/gourmet night entrees and special event menus, shall be available to resident dining patrons for breakfast, brunch, and dinner, under the following conditions:

A. Sodexo may limit resident dining patrons to one (1) portion of each food item and two (2) beverages the first time through the serving line. Resident dining patrons who do not exit the dining area may return to the serving line or other designated areas for seconds.

B. All food obtained by resident dining patrons from the serving line must be consumed within the dining area.

6.8 Serving Style. Except for variations agreed to by both parties hereto, all resident dining meals shall be served cafeteria-style. Sodexo encourages occasional variations from this style, provided that planning and implementation of variations are coordinated with Sodexo in advance.

6.9 Menus and Prices. Sodexo shall determine prices to be charged for food and beverages that are competitive in the local marketplace, and shall prepare menus and establish quantities and portions to be served.

6.10 Special Diets. Sodexo shall supply any medically required special diets for resident dining patrons when prescribed and approved in writing by a medical doctor and Client. If the cost of a special diet exceeds normal meal cost, the patron shall pay the difference in cost.

**ARTICLE VII
RETAIL SALES PROGRAM**

7.1 Locations. Sodexo shall provide retail products at the Premises and at such other locations as Client and Sodexo shall agree.

7.2 Retail and Concession Product Prices. Prices charged for retail and/or concession products shall be reasonable as determined by Sodexo..

7.3 Catered Functions. Prices for catered functions, including but not limited to Client or third party functions, shall be reasonable as established by Sodexo. Sodexo shall be responsible for collection of amounts due for catered functions.

7.4 Commissions. Sodexo shall pay Client a commission as follows:

Retail and Guest Meal Sales	8% of Net Sales
Jitterz Sales	8 % of Net Sales
Doks Sales	0 % of Net Sales
Warrior Sales	8 % of Net Sales
Concession Sales	25% of Net Sales (to be paid by April 30 of each year)
Catered Functions	8% of Net Sales
Third Party Functions	8% of Net Sales
Client-Sponsored Conferences	8% of Net Sales
Third Party Conferences	8% of Net Sales

Annual Baseball Net Sales

\$0-\$12,000	Guarantee of \$3000
\$12,001 and over	25% of Net Sales

(Paid by July 30 each year)

Sodexo shall prepare a statement of sales and commissions for each Accounting Period and shall submit such statement with any payment due to Client for such Accounting Period.

7.5 Equipment Fund. Commencing July 1, 2015 and continuing through June 30, 2020, providing this Agreement remains in full force and effect, Sodexo shall pay Client a Fixed Commission each Accounting period, September through June, in the amount of One Thousand Dollars (\$1000) for an annual total of Ten Thousand Dollars (\$10,000) per year and a total of Fifty Thousand Dollars (\$50,000), over the five-year period ("Equipment Fund"). The Equipment Fund shall be held by Client for the specific use of repair, replacement and renovations of the dining services. Expenditures from the Equipment Fund shall be by mutual agreement between Client and Sodexo.

7.6 Financial Offsets. Sodexo shall pay commissions due to Client at the appropriate settlement time; provided, however, that Sodexo shall first offset any past due amounts owed by Client to Sodexo including interest charges.

**ARTICLE VIII
FINANCIAL ARRANGEMENTS**

8.1 Billing. Sodexo shall submit invoices to Client for resident dining at the end of each week, based upon the number of meal plan participants. Sodexo shall submit all other billings to Client as incurred. Payments shall be due within fifteen (15) days after the invoice date. Client shall pay interest on any amount not paid when due at the lesser of one and one-half percent (1.5%) each month or the highest contractual interest rate allowed by applicable state law. Client shall reimburse Sodexo for all costs and expenses, including but not limited to, court costs, attorney's fees and collection service fees, incurred by Sodexo in collecting from Client any amount not paid when due.

8.2 Retail Sales. Sodexo shall retain all cash receipts realized from the Retail Sales operations and pay operating expenses. Any profit or loss shall be for Sodexo's account.

8.3 Right of Offset or Pre-Bill. At any time when Client is over thirty (30) days past due on any obligations to Sodexo, Sodexo shall have the right to offset, from any Surplus from the Food Service operation, or from any other sums owed by Sodexo to Client, all or any portion of such outstanding receivables.

Additionally, Sodexo shall have the right, at any time when Client is over thirty (30) days past due on any obligations to Sodexo, at Sodexo's option, to require that Client pay on a pre-billing basis at least one (1) week in advance of each Accounting Period for the estimated amount due Sodexo for that Accounting Period. The estimated amount would be adjusted and reconciled to the actual amount in the next pre-billing invoice or, if Client is no longer past due on its obligations to Sodexo, with the next invoice due under Section 8.1 above.

**ARTICLE IX
FINANCIAL ADJUSTMENTS**

9.1 Changes in Policies and Practices. The financial terms set forth in this Agreement and other obligations assumed by Sodexo hereunder are based on conditions in existence on the date Sodexo commences operations, including by way of example, Client's student population; labor, food and supply costs; and federal, state and local sales, use and excise tax. In addition, Sodexo has relied on representations regarding existing and future conditions made by Client in connection with the negotiation and execution of this Agreement. In the event of a change in the conditions or the inaccuracy or breach of, or the failure to fulfill, any representation by Client, the financial terms and other obligations assumed by Sodexo shall be renegotiated on a mutually agreeable basis to reflect such change, inaccuracy or breach.

9.2 Inflation Adjustments. There shall be an annual adjustment to financial terms to reflect, at a minimum, increases in the U.S. Department of Labor Consumer Price Index for Finished Consumer Foods ("CPI").

9.3 Financial Assumptions. The financial terms of the Agreement are based upon the following assumptions:

Board Count not less than 300 average for the dining calendar year
Operating days are: minimum of 222/year _____

In the event of a change in assumptions, the financial terms shall be subject to adjustment.

9.4 Adjustments. The financial arrangement will be adjusted to reflect additional costs incurred by Sodexo (i) in connection with the implementation of legislation or other legal requirements, including, but not limited to, the implementation of the Patient Protection and Affordable Care Act and Health Care and Education Reconciliation Act of 2010, which comprise the health care reform of 2010, or other health care rules and regulations, or any modifications thereto or (ii) increases in benefit costs paid by Sodexo on behalf of covered employees. The adjustment to the financial arrangement will be effective from the date the events of (i) and/or (ii) occur.

**ARTICLE X
GENERAL TERMS AND CONDITIONS**

10.1 Taxes.

A. Sodexo and Client shall each bill and collect sales taxes, if applicable, on all meals and services for which each respectively collects revenue from customers. Sodexo shall bill and collect sales and use taxes, if applicable, on purchases billed to Client.

B. If additional sales or use or any other types of taxes are assessed against the Food Service operation, Client shall reimburse Sodexo for such assessment and any interest and penalties, and for attorneys' fees or other costs incurred by Sodexo related to such assessment upon receipt of an invoice from Sodexo therefor; except that Client shall not be responsible for any assessment attributable to Sodexo's negligent failure to timely submit any known tax filing or report. Sodexo shall be responsible for its city, state or federal income taxes including any tax burdens or benefits arising from its operations hereunder. This provision shall survive termination of the Agreement.

10.2 Compliance with Law. Sodexo shall comply with all applicable laws, ordinances, rules and regulations relating to Food Service sanitation, safety and health, and shall maintain all necessary licenses and permits. Client shall cooperate with Sodexo to accomplish the foregoing.

Sodexo shall process credit/debit card transactions on Client's premises using Sodexo provided technology systems and broadband internet connectivity. This connectivity is to be provisioned by Sodexo and this connectivity will exist independent of the Client's existing network infrastructure. Client will grant Sodexo and its contractors access to all necessary points of demarcation for the provisioning of broadband internet connectivity and provide Sodexo with physical cabling structure necessary to extend broadband internet connectivity to the credit/debit cardholder data environment and associated hardware. Should Client be unable or unwilling to provide such cabling, Sodexo will install necessary cabling components using a Sodexo contracted vendor and will grant Sodexo and its contractor access to all necessary demarcation points and data closets in order to complete installation. Sodexo will provide network security and management, and all associated hardware, for the credit/debit cardholder environment at Client's premises through Sodexo's third-party provider. Sodexo will adhere to and maintain its network and data security practices at Client's premises in compliance with PCI DSS (Payment Card Industry Data Security Standard (<http://www.pcisecuritystandards.org>)).

10.3 Insurance. The parties shall maintain insurance as follows:

A. Workers' Compensation Insurance. Each party shall maintain workers' compensation coverage as required by state law and Employers' Liability in the amount of One Million Dollars (\$1,000,000.00) each accident covering all of its employees employed in connection with the Food Service operations.

B. Comprehensive or Commercial Insurance. Sodexo shall maintain during the term of the Agreement, Comprehensive or Commercial General Bodily Injury and Property Damage Liability Insurance with a Combined Single Limit of not less than Five Million Dollars (\$5,000,000.00) for each occurrence, including, but not limited to, Personal Injury Liability, Blanket Contractual Liability and Products Liability, covering only the operations and activities of Sodexo under the Agreement and, upon request, shall provide Client with a certificate evidencing such policies. The insurance policies shall contain covenants by the issuing company that the policies shall not be canceled without thirty (30) days' prior written notice of cancellation. Client shall be named as an additional insured under Sodexo's policies of insurance to the extent Client is indemnified pursuant to Section 10.5.

C. Property Insurance. Client shall maintain, or cause to be maintained, a system of coverage (either through purchased insurance, self-insurance, or a combination thereof) to keep the buildings, including the Premises, all property contained therein, and Client's other property insured against loss or damage from fire, explosion or other cause normally covered by special causes of loss form and builders risk property insurance policies.

10.4 Non-Sodexo Approved Vendors. Client understands that Sodexo has

entered into agreements with many vendors and suppliers of products which (i) give Sodexo the right to inspect such vendors' and suppliers' plants and/or storage facilities and (ii) require such vendors and suppliers to adhere to standards to ensure the quality of the products purchased by Sodexo for or on behalf of Client. Client may direct Sodexo to use products from non-Sodexo approved vendors.

In such instances for the mutual protection of Client and Sodexo and as required by Sodexo of its vendors, Client will require each such vendor to (i) comply with Sodexo's Product Quality Assurance Requirements attached hereto as Exhibit B and (ii) obtain from a reputable insurance company acceptable to Client and Sodexo liability insurance (including products liability coverage) and contractual liability insurance in the amount of not less than Five Million Dollars (\$5,000,000.00) for each occurrence naming Client and Sodexo as additional insureds and which insurance shall not exclude the negligence of Client or Sodexo. A certificate evidencing such insurance shall be provided to Client and Sodexo upon the request of either party. Client shall also require each such vendor to sign an indemnity certificate (acceptable to Client and Sodexo) in which such vendor shall agree to defend, indemnify, and hold harmless Client and Sodexo from and against all claims, liabilities, losses and expenses, including reasonable costs, collection expenses, and attorneys' fees which may arise as a result of using such vendor's product, except when such liability arises as a result of the sole negligence of Sodexo and/or Client. Client will require each such vendor to provide to the Sodexo General Manager detailed ingredient statements for each food item purchased. Client shall not require Sodexo to use products from non-Sodexo approved vendors until such vendor has demonstrated its ability to comply with Sodexo's Product Quality Assurance Requirements, and such insurance certificates, indemnity certificates, and ingredient statements have been provided.

In the event the Non-Sodexo Approved Vendor is unable to comply with the foregoing, Sodexo and Client shall meet to evaluate: (i) alternative vendor(s) for Sodexo and Client to utilize for the operation of the Services to replace the Non-Sodexo Approved Vendor or (ii) actions necessary to assist the Non-Sodexo Approved Vendor to become an approved vendor, or (iii) if the impediment is the lack of appropriate insurance, the need to purchase products from such Non-Sodexo Approved Vendor despite the lack of insurance coverage described above.

10.5 Mutual Indemnity. Except as otherwise expressly provided in this Agreement, Sodexo and Client shall defend, indemnify and hold each other harmless from and against all claims, liability, loss and expense, including reasonable collection expenses, attorneys' fees and court costs which may arise because of the sole negligence, misconduct, or other fault of the indemnifying party, its agents or employees in the performance of its obligations under this Agreement. Notwithstanding the foregoing, based on the representations contained in Section 10.3 above, each party hereto waives its rights, and the rights of its subsidiaries and affiliates, to recover from the other party hereto and its subsidiaries and affiliates for loss or damage to such party's building, equipment, improvements and other property of every kind and description resulting from fire, explosion or other cause normally covered in special

causes of loss form and builders risk property insurance policies. This clause shall survive termination of the Agreement.

10.6 Trade Secrets and Proprietary Information. During the term of the Agreement, Sodexo may grant to Client a nonexclusive right to access certain proprietary materials of Sodexo, including menus, signage, Food Service survey forms, software (both owned by and licensed to Sodexo), and similar items regularly used in Sodexo's business operations ("Proprietary Materials"). In addition, Client may have access to certain non-public information of Sodexo, including, but not limited to, recipes, management guidelines and procedures, operating manuals, personnel information, purchasing and distribution practices, pricing and bidding information, financial information, surveys and studies, and similar compilations regularly used in Sodexo's business operations ("Trade Secrets"). Trade Secrets shall not include (i) any information which at the time of disclosure or discovery or thereafter is generally available to and known by the public or the relevant industry (other than as a result of a disclosure directly or indirectly by Client), or (ii) any information which was available to Client on a non-confidential basis from a source other than Sodexo, provided that such source was not bound by an agreement prohibiting the transmission of such information, or (iii) any information independently developed or previously known without reference to any information provided by Sodexo.

Client shall not disseminate any Proprietary Materials or disclose any of Sodexo's Trade Secrets, directly or indirectly, during or after the term of the Agreement. Client shall not photocopy or otherwise duplicate any such material without the prior written consent of Sodexo. All Proprietary Materials and Trade Secrets shall remain the exclusive property of Sodexo and shall be returned to Sodexo immediately upon termination of the Agreement. Without limiting the foregoing, Client specifically agrees that all software associated with the operation of the Food Service, including without limitation, menu systems, food production systems, accounting systems, and other software, are owned by or licensed to Sodexo and not Client. Furthermore, Client's access or use of such software shall not create any right, title interest, or copyright in such software, and Client shall not retain such software beyond the termination of the Agreement. Any signage, servicemark or trademark proprietary to Sodexo shall remain the exclusive property of Sodexo and shall be returned to Sodexo immediately upon termination of this Agreement. In the event of any breach of this provision, Sodexo shall be entitled to equitable relief, including an injunction or specific performance, in addition to all other remedies otherwise available. This provision shall survive termination of the Agreement.

10.7 Assignment. This Agreement may not be assigned by either party without the written consent of the other, except Sodexo may, without prior approval and without being released from any of its responsibilities hereunder, assign this Agreement to any affiliate or wholly-owned subsidiary of Sodexo.

10.8 Attorneys' Fees. In the event that any action or proceeding is brought to enforce any term, covenant or condition of this Agreement, the prevailing party shall be

entitled to recover reasonable attorneys' fees, court costs and related expenses.

10.9 Notice. Any notice or communication required or permitted to be given hereunder shall be in writing and served personally, delivered by courier or sent by United States certified mail, postage prepaid with return receipt requested, addressed to the other party as follows:

To Client: Lewis-Clark State College
Attention: Chet Herbst
Vice President for Finance
500 8th Avenue
Lewiston, Idaho 83501

To Sodexo: Sodexo America, LLC
Attention: Kirt Ingram
Senior Vice President
10150 Stone Ridge Terrace
Parker, Colorado 80134

and: Sodexo America, LLC
Attention: Law Department
9801 Washingtonian Blvd., Dept. 51/899.74
Gaithersburg, Maryland 20878

and/or to such other persons or places as either of the parties may hereafter designate in writing. All such notices shall be effective when received.

10.10 Catastrophe. Neither Sodexo nor Client shall be liable for failure to perform its respective obligations under this Agreement when such failure is caused by fire, explosion, water, act of God, civil disorder or disturbance, strikes, vandalism, war, riot, sabotage, weather and energy related closings, governmental rules or regulations, failure of third parties to perform their obligations with respect to the Food Service operation, or like causes beyond the reasonable control of such party, or for real or personal property destroyed or damaged due to such causes.

10.11 Construction and Effect. A waiver of any failure to perform under this Agreement shall neither be construed as nor constitute a waiver of any subsequent failure. The article and section headings used herein are used solely for convenience and shall not be deemed to limit the subject of the articles and sections or be considered in their interpretation. Any exhibits referred to herein are made a part of this Agreement by reference, provided that in the event of a conflict between the terms of such exhibit or any other document incorporated herein, and the terms of this Agreement, the terms of the Agreement shall govern.

10.12 Amendments to Agreement. All provisions of this Agreement hereto shall

remain in effect throughout the term thereof unless the parties agree, in a written document signed by both parties, to amend, add or delete any provision. This Agreement contains all agreements of the parties with respect to matters covered herein, superseding any prior agreements and may not be changed other than by an agreement in writing signed by the parties hereto. Email correspondence shall not qualify as a written document signed by an authorized signatory.

10.13 Regulations and Access. Client shall provide Sodexo with reasonable access to, and use of, the Premises to permit Sodexo to perform its obligations under this Agreement, it being understood by the parties that Client does not grant to Sodexo the exclusive use of the Premises. Client may make reasonable regulations for the use and occupancy of the Premises and shall give Sodexo written notice thereof. Client shall have the right upon prior written notice to Sodexo, reasonable under the circumstances, to relocate all or a portion of the Premises or to withdraw a portion of the Premises. Client grants Sodexo approval to use in performance of its services on the Premises all promotional, informational or marketing activities or materials, including the names, trademarks, logos and symbols of Sodexo in order to provide the customer the complete Sodexo Experience.

IN WITNESS WHEREOF, the parties hereto have entered into this Agreement as of the date first signed or the first day of the Initial Term, whichever is sooner.

SUBJECT

Superintendent of Public Instruction Update to the State Board of Education.

REFERENCE

June 2015

The Board requested the Superintendent update them on the progress of the Mastery Based Education Committee, the Teacher Evaluation Review Committee, and the spring 2015 ISAT administration.

BACKGROUND/DISCUSSION

Superintendent of Public Instruction, Sherri Ybarra, will provide an update on the State Department of Education. In addition to the general update the Superintendent will provide an update to the Board on the progress of the Mastery Based Education Committee, the Teacher Evaluation Review Committee, the Building Safety and Bullying legislation, and the spring 2015 ISAT administration.

ATTACHMENTS

Attachment 1 - Mastery Based Education Report	Page 3
Attachment 2 - Professional Evaluation Review Committee (PERC)	Page 5

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

Mastery Based Education Committee Report

The Mastery Education Committee met June 18th and 19th in Boise and began the assigned work of House Bill 110 (2015). The goals of the committee include: identifying implementation roadblocks and possible solutions; developing recommendations related to the incubator program; assisting in conducting a statewide awareness campaign and helping to facilitate the planning and implementation of an incubator program. The overall goal of mastery education is to measure learning and performance rather than time in school.

The committee members represent the six regions of the state and are from a mix of rural/small school and larger districts. There are six teachers, seven administrators/superintendents, and five other representatives. The other representatives include a special education director, curriculum director, board member, IDLA director, and research coordinator. Their level of experience with mastery education ranges from none at all to experienced practitioners.

The meeting started with reviewing H 110 and the associated expectations. The committee started a list of frequently asked questions (FAQs) and challenges related to making major changes associated with instruction. The FAQs will be used in part when communicating with the public and will be part of the awareness campaign. The challenges discussion is the start of the solutions to potential roadblocks.

The next step was developing common definitions and language for the work to be accomplished. Mastery versus competency versus proficiency was discussed at great length, as were incubator versus pilot. The committee felt it was important to understand why the legislators chose the words they did and to make sure the difference between the various concepts can be explained.

The committee reviewed the Governor's Task Force recommendations related to mastery education. They spent time discussing each recommendation and the implications. There was agreement with most of the recommendations; however, the committee felt very strongly about local control and the recommendation to mandate implementation. The committee felt State mandates would lead to failure and pushback; whereas, allowing district choice and emphasizing successful programs would encourage change.

A majority of the first meeting was spent reviewing the existing and planned mastery programs in Idaho and other states. The committee representatives started by explaining what was happening in their school and/or district; how they arrived at the decision for mastery education; and discussed the resources they have used. They also shared the challenges they faced and their current needs. Overall, the committee was surprised at the "great number of voices" in the state implementing mastery education. There are a variety of methods for implementing mastery and it will look different in each school and district. The leaders implementing mastery said the reason for their success was their governing boards and leadership teams who provided the needed flexibility and trust to implement mastery education. Their hope was that the State would do the same.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

The discussion then expanded to mastery education in other states. Committee members spoke from personal experience about other states' initiatives and research they had conducted. Each state is approaching mastery education differently and while the name may be different, the emphasis is the same. The committee discussed the roadblocks and challenges that other states have experienced. Additionally, the committee looked at the application process and materials for other states' programs. The applications ranged from very short and simple to very extensive and complex (10 pages long for the shortest to 176 pages for the longest.) The review of other states' applications will be used for developing Idaho's.

The committee finished by working on awareness and communication messages. They worked in their "job-alike" groups and also by region. The entire committee decided that it will be important to share the same message throughout the state. "It doesn't matter where the students live in Idaho; we all want the best education for them." The committee suggested using students to help with the awareness campaign as a method for demonstrating what mastery education looks like.

The next committee meeting is scheduled for July 23 & 24, 2015. The committee will be working on answers for the FAQs; looking at the challenges, roadblocks and possible solutions; refining a draft application for the incubator program; and discussing the financial needs for the implementation of the incubator program.

Professional Evaluation Review Committee Recommendations

July 22, 2015

Below are the recommendations from the Professional Evaluation Review Committee (PERC) for the independent review of evaluations pursuant to 33-1004B Subsection 4. There are also additional recommendations for definitions and next steps in teacher evaluation.

Purpose of Teacher Evaluation

The purpose of teacher evaluation is to enhance effective teaching, student achievement and growth by utilizing a common framework, which provides a basis for:

- personnel decisions
- professional development opportunities
- recognition of teacher performance

Definitions

Fidelity (from Wikipedia framework for Program Evaluation): “the term fidelity denotes how closely a set of procedures were implemented as they were supposed to have been.”

Observation is the examination of one teaching episode. The observer documents what was seen during the teaching episode.

Evaluation is the determination of performance over a period of time. It includes multiple measures in order to make a determination of overall performance.

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

Independent Evaluation Review Process

Items to Review & Data Elements to Record

The following would be completed by the independent reviewers. This could be accomplished on site (district office), or electronically. Since evaluations are not due until May 1 of each year, the actual review would need to occur after.

Items Reviewed	Data Element
What are the components that were on the IPLP?	List components
Does the professional practice portion include all 22 components of the Charlotte Danielson Framework – Second Edition?	Yes/No
Record the levels of performance for each component?	1,2,3,4 for each component.
What are the dates of the two documented observations?	Dates
Which additional measure(s) was included to inform professional practice?	<ul style="list-style-type: none"> • Student Input • Parent Input • Portfolio • None
Which measures were used for student achievement?	<ul style="list-style-type: none"> • ISAT • Student learning objectives • Formative assessments • Teacher-constructed assessments of student growth • Pre-and post-tests • Performance based assessments • Idaho Reading Indicator • College entrance exams such as PSAT, SAT and ACT • District adopted assessment • End of course exams • Advance placement exams • None
What is the summative rating?	Summative Rating
Does the summative rating include combining professional practice (67%) and student achievement (33%)?	Yes/No

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

What is the date of the summative evaluation?	Date
Was it completed by May 1 st ?	Yes/No
Is there a written evaluation policy?	Yes/No

Additional Data to Collect

The following would be sent to all teachers and administrators in order to collect data on the implementation of the evaluation process. The data would be disaggregated and reported.

Additional Data to Gather	
Teacher Survey <ul style="list-style-type: none">• Questions that would refer to same items above.	
Administrator Survey <ul style="list-style-type: none">• Questions that would refer to same items above.	

Independent Reviewers

The following is a list of qualification for the independent reviewers and the list of possible independent reviewers.

Qualifications

- Basic understanding of Danielson Framework for Teaching
- Educational/Instructional Experience
- Understanding of Educational Assessment
- Bachelor Degree
- Proficient in Microsoft Word and Excel

List of Possible Independent Reviewers

- Teachers
- Administrators
- University Faculty/Graduate Students
- Outside Contractors
- Retired

Random Selection

The following is the process for random selection. This would be a pilot year as this is the first year that independent reviews of evaluations will be conducted.

- All selections completed randomly.
- There are approximately 800 principals and vice-principals in Idaho.
- Randomly selecting 165 principals/vice-principals will give an 85% confidence level.
- Of the 165 principals/vice-principals chosen, randomly select 2 evaluations to review.

Teacher Evaluation Next Steps

Is the Danielson Framework, the correct tool?

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

- The committee believes the Danielson Framework is the correct tool. The issue is not whether the tool is or is not the correct tool; it is whether the framework is being implemented with *fidelity*. The tool is resource intensive – hence one reason it is recognized as a valuable tool for professional growth and can be used for personnel decisions.
- PERC recommends further training in the Danielson framework for administrators AND teachers.
- PERC recommends additional funding for administrator FTE in order for administrators to be able to implement the framework with *fidelity*.

PERC Members

- Patricia Greer, Teacher, Post Falls School District
- Charlotte McKinney, Teacher, Mountain View School District
- Karen Dillon, Teacher, Nampa School District
- Susan Webb, Teacher, Jerome School District
- Blas Telleria, Director of Human Resources, Boise School District
- Peter McPherson, Superintendent, Challis School District
- Tyler Matlock, Vice-Principal, Twin Falls School District
- David Sotutu, Principal, Marsh Valley School District
- Shalene French, Director of Human Resources, Bonneville School District
- David Brinkman, School Board Chairman, Boundary School District
- Kathy Siddoway, Retired High School Principal/Education Consultant
- Jennifer Snow, Associate Dean – Teacher Education, Boise State University
- Christina Linder, Associate Dean – College of Education, Idaho State University
- Taylor Raney, Director of Teacher Education, University of Idaho

School Safety / Bullying Legislation

1. Partnership with Division of Building Safety (DBS) to expand safety inspections and assess school threats

The SDE and DBS are convening a focus group of subject matter experts to review the 2013 / 2014 threat assessment results, revise Idaho's threat assessment tool, direct the collection of threat assessment data from the 74 schools previously assessed to identify improvements made or barriers to improvements, establish statewide policies, procedures and recommendations for school safety and enhance DBS' safety / security inspection and training program. The focus group is scheduled to meet for the first time on July 21 to begin work.

2. Gather stakeholder feedback on HB 246 (bullying legislation) rulemaking

The SDE has crafted clarifications regarding the implementation of HB 246 for potential rulemaking. The clarifications include definitions, examples, thresholds for reporting and baseline activity to meet the intent of the law. The clarifications are currently under review by IEA, IASA, ISBA and NWPE. Next steps include incorporating feedback from stakeholders and compiling professional development resources to facilitate local decision-making on training providers.

SUBJECT

Proposed Rule - IDAPA 08.02.02.004.01, Rules Governing Uniformity, Incorporation by Reference/Idaho Standards for Initial Certification of Professional School Personnel

REFERENCE

April 16, 2015	Board approved amendments to the Idaho Standards for Initial Certification of Professional School Personnel adding standards for Computer Science and Engineering teachers and approved a Proposed Rule incorporating these changes by reference into IDAPA 08.02.02.004.01.
August 14, 2015	Board approved amendments to the Idaho Standards for Initial Certification of Professional School Personnel revising the Idaho Foundation and Enhancement Standards for School Counselor, Special Education Generalist, Special Education Director and School Psychologists and approved a Proposed Rule incorporating these changes by reference into IDAPA 08.02.02.004.01.
August 15, 2013	Board approved amendments to the Idaho Standards for Initial Certification of Professional School Personnel revising the English Language Arts, Gifted and Talented, Library Media Specialist, Literacy, School Administrator foundation, Principal, School Superintendent and Special Education Director standards and approved a Proposed Rule incorporating these changes by reference into IDAPA 08.02.02.004.01.

APPLICABLE STATUTE, RULE, OR POLICY

Sections 33-1254 and 33-1258, Idaho Code

BACKGROUND/DISCUSSION

The Professional Standards Commission follows a Strategic Plan of annually reviewing twenty percent (20%) of the Idaho Standards for Initial Certification of Professional School Personnel. The following endorsements were reviewed by committees of content experts and are ready for submission: Communication Arts Foundation (pg. 40), Journalism (pg. 44), Speech and Debate (pg. 48), Blended Early Childhood Education (pg. 58), Health (pg. 100), Physical Education (pg. 122), Social Studies Foundation (pg. 181), Economics (pg. 185), Geography (pg. 189), American Government/Political Science (pg. 193), History (pg. 197), Blind and Visually Impaired (pg. 209), Deaf/Hard of Hearing (pg. 219), School Psychologist (pg. 290), and School Social Worker (pg. 305). All of the listed standards and endorsements were revised to better align with national standards and best practices and then presented to the Professional Standards Commission

**Idaho Standards for Initial Certification of
Professional School Personnel
Summary & Background**

Overview of the Past Standards

The early standards for initial certification in Idaho were based on the 1989 National Association of State Directors of Teacher Education and Certification (NASDTEC) standards. These standards were "input- based", meaning a candidate was recommended for initial certification based on credits and content of courses successfully completed (transcript review).

Example - Past (input-based) Standard Format, Biological Science:

Twenty (20) semester credit hours to include at least six (6) credit hours of course work in EACH of the following areas: Botany and Zoology (some course work in physiology is also recommended).

The standards were seriously outdated, and Idaho was in danger of losing its partnership with the National Council for Accreditation of Teacher Education (NCATE), which is the nationally recognized teacher education program accreditation body. In addition to being a benchmark for program quality, NCATE partnership helps Idaho program completers gain certification reciprocity opportunities with other states.

In 2000 Idaho adopted new standards based on the Interstate New Teacher Assessment and Support Consortium (INTASC) model. These standards reflected a move to "performance-based" outcomes, meaning a candidate is recommended for initial certification based on the demonstration of what they know and are able to do.

In 2012 a committee of education experts was convened to review and revise the Idaho Core Teacher Standards. After thoughtful consideration, the committee recommended adopting the newly revised InTASC Model Core Teaching Standards (April 2011) as published. No substantive changes were recommended by the committee. The committee did recommend a formatting change to the ten InTASC Model Core Teaching Standards to match the rest of the existing Idaho Standards for Initial Certification of Professional School Personnel.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Each proposed standard is broken down into two areas:

- Knowledge (what the candidate needs to know)
- Performance (what the candidate is able to do).

The performance, therefore, is the demonstration of the knowledge and dispositions of a standard. As the demonstration of a standard, the performances will also guide a teacher-education program

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

review team when evaluating for program accreditation.

Revised Idaho Core Teacher Standards (InTASC 2011)

The "Idaho Core Teacher Standards" apply to **ALL** teacher certification areas. These are the 10 basic standards all teachers must know and be able to do, regardless of their specific content areas. These standards are described in more detail with knowledge and performances in the first section of this manual. The standards have been grouped into four general categories to help users organize their thinking about the standards: The Learner and Learning; Content; Instructional Practice; and Professional Responsibility. The summary of each standard is:

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Foundation and Enhancement Standards

The Core Teacher Standards apply to **ALL** teacher certification areas. The Foundations and/or Enhancements for each content certification area are behind the Core Standards in this manual, alphabetically.

Foundation and Enhancement Standards refer to additional knowledge and performances a teacher must know in order to teach a certain content area. The Foundation and Enhancement Standards, therefore, further "enhance" the Core Standard.

Example of content area Enhancements:

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.

In other words, Core Standard 1 basically states that the teacher must know the subject and how to create meaningful learning experiences.

Examples an Enhancement to Standard 1:

For Language Arts: The teacher integrates reading, writing, speaking, listening, viewing, and language study.

For Math: The teacher applies the process of measurement to two-and three-dimensional objects using customary and metric units.

In this way, the Idaho Core Teacher Standards, Foundation Standards and Enhancement Standards are "layered" to describe what a teacher in the content area must know and be able to do in order to be recommended to the state for initial certification.

Important enhancements for several content areas do not fall under the ten Core Teacher Standards. For example, a science teacher must provide a safe learning environment in relation to labs, materials, equipment, and procedures. This does not fall under an area that **every** teacher needs to know. Therefore, it is Standard # 11 under Science. (See the graph for further illustration and titles of additional standards in subject areas.)

In no case are there more than 12 overall standards for any subject area.

Pupil Personnel and Administrator Certification Standards

There are several certification standards for pupil personnel professionals and school administrators that are also addressed through the Idaho teacher certification processes.

- School Administrators
- School Counselors
- School Nurses
- School Psychologists
- School Social Workers

Because of the unique role of these professionals, their standards are independent of the Core Standards but are still written in the same performance-based format: Knowledge and Performances.

The Process of Idaho Standards Development and Maintenance

The move to INTASC based standards was developed in 1999 and 2000 with task groups from around the state composed of a variety of Idaho education stakeholders including teachers, higher education representatives, parents, school administrators, business people, and others.

Each task group averaged 5-10 people, for a total of over 250 participants statewide.

Members of the Idaho's MOST Standards Committee formed by the State Board of Education and standards-writing Task Groups together have dedicated a total of over 4,000 volunteer hours on development of these standards.

The Professional Standards Commission (PSC) continuously reviews/revises 20% of the standards per year. The review process involves teams of content area experts from higher education and K-12 schools. The standards are then reviewed by the PSC and presented to the Idaho State Board of Education for approval. Once approved, they are reviewed by the State Legislature and become an incorporated by reference document in State Board Rule.

The Idaho Core Teacher Standards were revised in the spring of 2012 to align with the InTASC Model Core Teaching Standards (April 2011). Starting with the 2012-2013 standards review cycle, committees of education experts were convened to review and revise the content area standards according to both current national standards and the InTASC Model Core Teaching Standards (April 2011).

Idaho Core Teaching Standards

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Core Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

** This language was written by a committee of content experts and has been adopted verbatim*

Core Teaching Standards

The standards have been grouped into four general categories to help users organize their thinking about the standards: The Learner and Learning, Content, Instructional Practice, and Professional Responsibility. This language has been adopted verbatim from the April 2011 InTASC Model Core Teaching Standards.

The Learner and Learning

Teaching begins with the learner. To ensure that each student learns new knowledge and skills, teachers must understand that learning and developmental patterns vary among individuals, that learners bring unique individual differences to the learning process, and that learners need supportive and safe learning environments to thrive. Effective teachers have high expectations for each and every learner and implement developmentally appropriate, challenging learning experiences within a variety of learning environments that help all learners meet high standards and reach their full potential. Teachers do this by combining a base of professional knowledge, including an understanding of how cognitive, linguistic, social, emotional, and physical development occurs, with the recognition that learners are individuals who bring differing personal and family backgrounds, skills, abilities, perspectives, talents and interests. Teachers collaborate with learners, colleagues, school leaders, families, members of the learners’ communities, and community organizations to better understand their students and maximize their learning. Teachers promote learners’ acceptance of responsibility for their own learning and collaborate with them to ensure the effective design and implementation of both self-directed and collaborative learning.

Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1. The teacher understands how learning occurs--how learners construct knowledge, acquire skills, and develop disciplined thinking processes--and knows how to use instructional strategies that promote student learning.
2. The teacher understands that each learner's cognitive, linguistic, social, emotional, and physical development influences learning and knows how to make instructional decisions that build on learners' strengths and needs.
3. The teacher identifies readiness for learning, and understands how development in any one area may affect performance in others.
4. The teacher understands the role of language and culture in learning and knows how to modify instruction to make language comprehensible and instruction relevant, accessible, and challenging.

Performance

1. The teacher regularly assesses individual and group performance in order to design and modify instruction to meet learners' needs in each area of development (cognitive, linguistic, social, emotional, and physical) and scaffolds the next level of development.
2. The teacher creates developmentally appropriate instruction that takes into account individual learners' strengths, interests, and needs and that enables each learner to advance and accelerate his/her learning.
3. The teacher collaborates with families, communities, colleagues, and other professionals to promote learner growth and development.

Disposition

1. The teacher respects learners' differing strengths and needs and is committed to using this information to further each learner's development
2. The teacher is committed to using learners' strengths as a basis for growth, and their misconceptions as opportunities for learning.
3. The teacher takes responsibility for promoting learners' growth and development.
4. The teacher values the input and contributions of families, colleagues, and other professionals in understanding and supporting each learner's development.

Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

1. The teacher understands and identifies differences in approaches to learning and performance and knows how to design instruction that uses each learner's strengths to promote growth.
2. The teacher understands students with exceptional needs, including those associated with disabilities and giftedness, and knows how to use strategies and resources to address these needs.
3. The teacher knows about second language acquisition processes and knows how to incorporate instructional strategies and resources to support language acquisition.
4. The teacher understands that learners bring assets for learning based on their individual experiences, abilities, talents, prior learning, and peer and social group interactions, as well as language, culture, family, and community values.
5. The teacher knows how to access information about the values of diverse cultures and communities and how to incorporate learners' experiences, cultures, and community resources into instruction.

Performance

1. The teacher designs, adapts, and delivers instruction to address each student's diverse learning strengths and needs and creates opportunities for students to demonstrate their learning in different ways.
2. The teacher makes appropriate and timely provisions (e.g., pacing for individual rates of growth, task demands, communication, assessment, and response modes) for individual students with particular learning differences or needs.
3. The teacher designs instruction to build on learners' prior knowledge and experiences, allowing learners to accelerate as they demonstrate their understandings.
4. The teacher brings multiple perspectives to the discussion of content, including attention to learners' personal, family, and community experiences and cultural norms.
5. The teacher incorporates tools of language development into planning and instruction, including strategies for making content accessible to English language learners and for evaluating and supporting their development of English proficiency.
6. The teacher accesses resources, supports, and specialized assistance and services to meet particular learning differences or needs.

Disposition

1. The teacher believes that all learners can achieve at high levels and persists in helping each learner reach his/her full potential.
2. The teacher respects learners as individuals with differing personal and family backgrounds and various skills, abilities, perspectives, talents, and interests.
3. The teacher makes learners feel valued and helps them learn to value each other.
4. The teacher values diverse languages and dialects and seeks to integrate them into his/her instructional practice to engage students in learning.

Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher understands the relationship between motivation and engagement and knows how to design learning experiences using strategies that build learner self-direction and ownership of learning.
2. The teacher knows how to help learners work productively and cooperatively with each other to achieve learning goals.
3. The teacher knows how to collaborate with learners to establish and monitor elements of a safe and productive learning environment including norms, expectations, routines, and organizational structures.
4. The teacher understands how learner diversity can affect communication and knows how to communicate effectively in differing environments.
5. The teacher knows how to use technologies and how to guide learners to apply them in appropriate, safe, and effective ways.

Performance

1. The teacher collaborates with learners, families, and colleagues to build a safe, positive learning climate of openness, mutual respect, support, and inquiry.
2. The teacher develops learning experiences that engage learners in collaborative and self-directed learning and that extend learner interaction with ideas and people locally and globally.
3. The teacher collaborates with learners and colleagues to develop shared values and expectations for respectful interactions, rigorous academic discussions, and individual and group responsibility for quality work.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

4. The teacher manages the learning environment to actively and equitably engage learners by organizing, allocating, and coordinating the resources of time, space, and learners' attention.
5. The teacher uses a variety of methods to engage learners in evaluating the learning environment and collaborates with learners to make appropriate adjustments.
6. The teacher communicates verbally and nonverbally in ways that demonstrate respect for and responsiveness to the cultural backgrounds and differing perspectives learners bring to the learning environment.
7. The teacher promotes responsible learner use of interactive technologies to extend the possibilities for learning locally and globally.
8. The teacher intentionally builds learner capacity to collaborate in face-to-face and virtual environments through applying effective interpersonal communication skills.

Disposition

1. The teacher is committed to working with learners, colleagues, families, and communities to establish positive and supportive learning environments.
2. The teacher values the role of learners in promoting each other's learning and recognizes the importance of peer relationships in establishing a climate of learning.
3. The teacher is committed to supporting learners as they participate in decision making, engage in exploration and invention, work collaboratively and independently, and engage in purposeful learning.
4. The teacher seeks to foster respectful communication among all members of the learning community.
5. The teacher is a thoughtful and responsive listener and observer.

Content

Teachers must have a deep and flexible understanding of their content areas and be able to draw upon content knowledge as they work with learners to access information, apply knowledge in real world settings, and address meaningful issues to assure learner mastery of the content. Today's teachers make content knowledge accessible to learners by using multiple means of communication, including digital media and information technology. They integrate cross-disciplinary skills (e.g., critical thinking, problem solving, creativity, communication) to help learners use content to propose solutions, forge new understandings, solve problems, and imagine possibilities. Finally, teachers make content knowledge relevant to learners by connecting it to local, state, national, and global issues.

Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The teacher understands major concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the discipline(s) s/he teaches.
2. The teacher understands common misconceptions in learning the discipline and how to guide learners to accurate conceptual understanding.
3. The teacher knows and uses the academic language of the discipline and knows how to make it accessible to learners.
4. The teacher knows how to integrate culturally relevant content to build on learners' background knowledge.
5. The teacher has a deep knowledge of student content standards and learning progressions in the discipline(s) s/he teaches.

Performance

1. The teacher effectively uses multiple representations and explanations that capture key ideas in the discipline, guide learners through learning progressions, and promote each learner's achievement of content standards.
2. The teacher engages students in learning experiences in the discipline(s) that encourage learners to understand, question, and analyze ideas from diverse perspectives so that they master the content.
3. The teacher engages learners in applying methods of inquiry and standards of evidence used in the discipline.
4. The teacher stimulates learner reflection on prior content knowledge, links new concepts to familiar concepts, and makes connections to learners' experiences.
5. The teacher recognizes learner misconceptions in a discipline that interfere with learning, and creates experiences to build accurate conceptual understanding.
6. The teacher evaluates and modifies instructional resources and curriculum materials for their comprehensiveness, accuracy for representing particular concepts in the discipline, and appropriateness for his/ her learners.
7. The teacher uses supplementary resources and technologies effectively to ensure accessibility and relevance for all learners.

8. The teacher creates opportunities for students to learn, practice, and master academic language in their content.
9. The teacher accesses school and/or district-based resources to evaluate the learner's content knowledge in their primary language.

Disposition

1. The teacher realizes that content knowledge is not a fixed body of facts but is complex, culturally situated, and ever evolving. S/he keeps abreast of new ideas and understandings in the field.
2. The teacher appreciates multiple perspectives within the discipline and facilitates learners' critical analysis of these perspectives.
3. The teacher recognizes the potential of bias in his/her representation of the discipline and seeks to appropriately address problems of bias.
4. The teacher is committed to work toward each learner's mastery of disciplinary content and skills.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

1. The teacher understands the ways of knowing in his/her discipline, how it relates to other disciplinary approaches to inquiry, and the strengths and limitations of each approach in addressing problems, issues, and concerns.
2. The teacher understands how current interdisciplinary themes (e.g., civic literacy, health literacy, global awareness) connect to the core subjects and knows how to weave those themes into meaningful learning experiences.
3. The teacher understands the demands of accessing and managing information as well as how to evaluate issues of ethics and quality related to information and its use.
4. The teacher understands how to use digital and interactive technologies for efficiently and effectively achieving specific learning goals.
5. The teacher understands critical thinking processes and knows how to help learners develop high level questioning skills to promote their independent learning.
6. The teacher understands communication modes and skills as vehicles for learning (e.g., information gathering and processing) across disciplines as well as vehicles for expressing

learning.

7. The teacher understands creative thinking processes and how to engage learners in producing original work.
8. The teacher knows where and how to access resources to build global awareness and understanding, and how to integrate them into the curriculum.

Performance

1. The teacher develops and implements projects that guide learners in analyzing the complexities of an issue or question using perspectives from varied disciplines and cross-disciplinary skills (e.g., a water quality study that draws upon biology and chemistry to look at factual information and social studies to examine policy implications).
2. The teacher engages learners in applying content knowledge to real world problems through the lens of interdisciplinary themes (e.g., financial literacy, environmental literacy).
3. The teacher facilitates learners' use of current tools and resources to maximize content learning in varied contexts.
4. The teacher engages learners in questioning and challenging assumptions and approaches in order to foster innovation and problem solving in local and global contexts.
5. The teacher develops learners' communication skills in disciplinary and interdisciplinary contexts by creating meaningful opportunities to employ a variety of forms of communication that address varied audiences and purposes.
6. The teacher engages learners in generating and evaluating new ideas and novel approaches, seeking inventive solutions to problems, and developing original work.
7. The teacher facilitates learners' ability to develop diverse social and cultural perspectives that expand their understanding of local and global issues and create novel approaches to solving problems.
8. The teacher develops and implements supports for learner literacy development across content areas.

Disposition

1. The teacher is constantly exploring how to use disciplinary knowledge as a lens to address local and global issues.
2. The teacher values knowledge outside his/her own content area and how such knowledge enhances student learning.
3. The teacher values flexible learning environments that encourage learner exploration, discovery, and expression across content areas.

Instructional Practice

Effective instructional practice requires that teachers understand and integrate assessment, planning, and instructional strategies in coordinated and engaging ways. Beginning with their end or goal, teachers first identify student learning objectives and content standards and align assessments to those objectives. Teachers understand how to design, implement and interpret results from a range of formative and summative assessments. This knowledge is integrated into instructional practice so that teachers have access to information that can be used to provide immediate feedback to reinforce student learning and to modify instruction. Planning focuses on using a variety of appropriate and targeted instructional strategies to address diverse ways of learning, to incorporate new technologies to maximize and individualize learning, and to allow learners to take charge of their own learning and do it in creative ways.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

1. The teacher understands the differences between formative and summative applications of assessment and knows how and when to use each.
2. The teacher understands the range of types and multiple purposes of assessment and how to design, adapt, or select appropriate assessments to address specific learning goals and individual differences, and to minimize sources of bias.
3. The teacher knows how to analyze assessment data to understand patterns and gaps in learning, to guide planning and instruction, and to provide meaningful feedback to all learners.
4. The teacher knows when and how to engage learners in analyzing their own assessment results and in helping to set goals for their own learning.
5. The teacher understands the positive impact of effective descriptive feedback for learners and knows a variety of strategies for communicating this feedback.
6. The teacher knows when and how to evaluate and report learner progress against standards.
7. The teacher understands how to prepare learners for assessments and how to make accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.

Performance

1. The teacher balances the use of formative and summative assessment as appropriate to support, verify, and document learning.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. The teacher designs assessments that match learning objectives with assessment methods and minimizes sources of bias that can distort assessment results.
3. The teacher works independently and collaboratively to examine test and other performance data to understand each learner's progress and to guide planning.
4. The teacher engages learners in understanding and identifying quality work and provides them with effective descriptive feedback to guide their progress toward that work.
5. The teacher engages learners in multiple ways of demonstrating knowledge and skill as part of the assessment process.
6. The teacher models and structures processes that guide learners in examining their own thinking and learning as well as the performance of others.
7. The teacher effectively uses multiple and appropriate types of assessment data to identify each student's learning needs and to develop differentiated learning experiences.
8. The teacher prepares all learners for the demands of particular assessment formats and makes appropriate accommodations in assessments or testing conditions, especially for learners with disabilities and language learning needs.
9. The teacher continually seeks appropriate ways to employ technology to support assessment practice both to engage learners more fully and to assess and address learner needs.

Disposition

1. The teacher is committed to engaging learners actively in assessment processes and to developing each learner's capacity to review and communicate about their own progress and learning.
2. The teacher takes responsibility for aligning instruction and assessment with learning goals.
3. The teacher is committed to providing timely and effective descriptive feedback to learners on their progress.
4. The teacher is committed to using multiple types of assessment processes to support, verify, and document learning.
5. The teacher is committed to making accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.
6. The teacher is committed to the ethical use of various assessments and assessment data to identify learner strengths and needs to promote learner growth.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

1. The teacher understands content and content standards and how these are organized in the curriculum.
2. The teacher understands how integrating cross-disciplinary skills in instruction engages learners purposefully in applying content knowledge.
3. The teacher understands learning theory, human development, cultural diversity, and individual differences and how these impact ongoing planning.
4. The teacher understands the strengths and needs of individual learners and how to plan instruction that is responsive to these strengths and needs.
5. The teacher knows a range of evidence-based instructional strategies, resources, and technological tools and how to use them effectively to plan instruction that meets diverse learning needs.
6. The teacher knows when and how to adjust plans based on assessment information and learner responses.
7. The teacher knows when and how to access resources and collaborate with others to support student learning (e.g., special educators, related service providers, language learner specialists, librarians, media specialists, community organizations).

Performance

1. The teacher individually and collaboratively selects and creates learning experiences that are appropriate for curriculum goals and content standards, and are relevant to learners.
2. The teacher plans how to achieve each student's learning goals, choosing appropriate strategies and accommodations, resources, and materials to differentiate instruction for individuals and groups of learners.
3. The teacher develops appropriate sequencing of learning experiences and provides multiple ways to demonstrate knowledge and skill.
4. The teacher plans for instruction based on formative and summative assessment data, prior learner knowledge, and learner interest.

5. The teacher plans collaboratively with professionals who have specialized expertise (e.g., special educators, related service providers, language learning specialists, librarians, media specialists) to design and jointly deliver as appropriate learning experiences to meet unique learning needs.
6. The teacher evaluates plans in relation to short- and long-range goals and systematically adjusts plans to meet each student's learning needs and enhance learning.

Disposition

1. The teacher respects learners' diverse strengths and needs and is committed to using this information to plan effective instruction.
2. The teacher values planning as a collegial activity that takes into consideration the input of learners, colleagues, families, and the larger community.
3. The teacher takes professional responsibility to use short- and long-term planning as a means of assuring student learning.
4. The teacher believes that plans must always be open to adjustment and revision based on learner needs and changing circumstances.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

1. The teacher understands the cognitive processes associated with various kinds of learning (e.g., critical and creative thinking, problem framing and problem solving, invention, memorization and recall) and how these processes can be stimulated.
2. The teacher knows how to apply a range of developmentally, culturally, and linguistically appropriate instructional strategies to achieve learning goals.
3. The teacher knows when and how to use appropriate strategies to differentiate instruction and engage all learners in complex thinking and meaningful tasks.
4. The teacher understands how multiple forms of communication (oral, written, nonverbal, digital, visual) convey ideas, foster self-expression, and build relationships.
5. The teacher knows how to use a wide variety of resources, including human and technological, to engage students in learning.
6. The teacher understands how content and skill development can be supported by media and technology and knows how to evaluate these resources for quality, accuracy, and effectiveness.

Performance

1. The teacher uses appropriate strategies and resources to adapt instruction to the needs of individuals and groups of learners.
2. The teacher continuously monitors student learning, engages learners in assessing their progress, and adjusts instruction in response to student learning needs.
3. The teacher collaborates with learners to design and implement relevant learning experiences, identify their strengths, and access family and community resources to develop their areas of interest.
4. The teacher varies his/her role in the instructional process (e.g., instructor, facilitator, coach, audience) in relation to the content and purposes of instruction and the needs of learners.
5. The teacher provides multiple models and representations of concepts and skills with opportunities for learners to demonstrate their knowledge through a variety of products and performances.
6. The teacher engages all learners in developing higher order questioning skills and metacognitive processes.
7. The teacher engages learners in using a range of learning skills and technology tools to access, interpret, evaluate, and apply information.
8. The teacher uses a variety of instructional strategies to support and expand learners' communication through speaking, listening, reading, writing, and other modes.
9. The teacher asks questions to stimulate discussion that serves different purposes (e.g., probing for learner understanding, helping learners articulate their ideas and thinking processes, stimulating curiosity, and helping learners to question).

Disposition

1. The teacher is committed to deepening awareness and understanding the strengths and needs of diverse learners when planning and adjusting instruction.
2. The teacher values the variety of ways people communicate and encourages learners to develop and use multiple forms of communication.
3. The teacher is committed to exploring how the use of new and emerging technologies can support and promote student learning.
4. The teacher values flexibility and reciprocity in the teaching process as necessary for adapting instruction to learner responses, ideas, and needs.

Professional Responsibility

Creating and supporting safe, productive learning environments that result in learners achieving at the highest levels is a teacher's primary responsibility. To do this well, teachers must engage in meaningful and intensive professional learning and self-renewal by regularly examining practice through ongoing study, self-reflection, and collaboration. A cycle of continuous self-improvement is enhanced by leadership, collegial support, and collaboration. Active engagement in professional learning and collaboration results in the discovery and implementation of better practice for the purpose of improved teaching and learning. Teachers also contribute to improving instructional practices that meet learners' needs and accomplish their school's mission and goals. Teachers benefit from and participate in collaboration with learners, families, colleagues, other school professionals, and community members. Teachers demonstrate leadership by modeling ethical behavior, contributing to positive changes in practice, and advancing their profession.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

1. The teacher understands and knows how to use a variety of self-assessment and problem-solving strategies to analyze and reflect on his/her practice and to plan for adaptations/adjustments.
2. The teacher know how to use learner data to analyze practice and differentiate instruction accordingly.
3. The teacher understands how personal identity, worldview, and prior experience affect perceptions and expectations, and recognizes how they may bias behaviors and interactions with others.
4. The teacher understands laws related to learners' rights and teacher responsibilities (e.g., for educational equity, appropriate education for learners with disabilities, confidentiality, privacy, appropriate treatment of learners, reporting in situations related to possible child abuse).
5. The teacher knows how to build and implement a plan for professional growth directly aligned with his/her needs as a growing professional using feedback from teacher evaluations and observations, data on learner performance, and school- and system-wide priorities.

Performance

1. The teacher engages in ongoing learning opportunities to develop knowledge and skills in order to provide all learners with engaging curriculum and learning experiences based on local and state standards.

2. The teacher engages in meaningful and appropriate professional learning experiences aligned with his/her own needs and the needs of the learners, school, and system.
3. Independently and in collaboration with colleagues, the teacher uses a variety of data (e.g., systematic observation, information about learners, research) to evaluate the outcomes of teaching and learning and to adapt planning and practice.
4. The teacher actively seeks professional, community, and technological resources, within and outside the school, as supports for analysis, reflection, and problem-solving.
5. The teacher reflects on his/her personal biases and accesses resources to deepen his/her own understanding of cultural, ethnic, gender, and learning differences to build stronger relationships and create more relevant learning experiences.
6. The teacher advocates, models, and teaches safe, legal, and ethical use of information and technology including appropriate documentation of sources and respect for others in the use of social media.

Disposition

1. The teacher takes responsibility for student learning and uses ongoing analysis and reflection to improve planning and practice.
2. The teacher is committed to deepening understanding of his/her own frames of reference (e.g., culture, gender, language, abilities, ways of knowing), the potential biases in these frames, and their impact on expectations for and relationships with learners and their families.
3. The teacher sees him/herself as a learner, continuously seeking opportunities to draw upon current education policy and research as sources of analysis and reflection to improve practice.
4. The teacher understands the expectations of the profession including codes of ethics, professional standards of practice, and relevant law and policy.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

1. The teacher understands schools as organizations within a historical, cultural, political, and social context and knows how to work with others across the system to support learners.
2. The teacher understands that alignment of family, school, and community spheres of influence enhances student learning and that discontinuity in these spheres of influence

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

interferes with learning.

3. The teacher knows how to work with other adults and has developed skills in collaborative interaction appropriate for both face-to-face and virtual contexts.
4. The teacher knows how to contribute to a common culture that supports high expectations for student learning.

Performance

1. The teacher takes an active role on the instructional team, giving and receiving feedback on practice, examining learner work, analyzing data from multiple sources, and sharing responsibility for decision making and accountability for each student's learning.
2. The teacher works with other school professionals to plan and jointly facilitate learning on how to meet diverse needs of learners.
3. The teacher engages collaboratively in the school wide effort to build a shared vision and supportive culture, identify common goals, and monitor and evaluate progress toward those goals.
4. The teacher works collaboratively with learners and their families to establish mutual expectations and ongoing communication to support learner development and achievement.
5. Working with school colleagues, the teacher builds ongoing connections with community resources to enhance student learning and wellbeing.
6. The teacher engages in professional learning, contributes to the knowledge and skill of others, and works collaboratively to advance professional practice.
7. The teacher uses technological tools and a variety of communication strategies to build local and global learning communities that engage learners, families, and colleagues.
8. The teacher uses and generates meaningful research on education issues and policies.
9. The teacher seeks appropriate opportunities to model effective practice for colleagues, to lead professional learning activities, and to serve in other leadership roles.
10. The teacher advocates to meet the needs of learners, to strengthen the learning environment, and to enact system change.
11. The teacher takes on leadership roles at the school, district, state, and/or national level and advocates for learners, the school, the community, and the profession.

Disposition

1. The teacher actively shares responsibility for shaping and supporting the mission of his/her school as one of advocacy for learners and accountability for their success.

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

2. The teacher respects families' beliefs, norms, and expectations and seeks to work collaboratively with learners and families in setting and meeting challenging goals.
3. The teacher takes initiative to grow and develop with colleagues through interactions that enhance practice and support student learning.
4. The teacher takes responsibility for contributing to and advancing the profession.
5. The teacher embraces the challenge of continuous improvement and change.

Standards for Bilingual Education and ENL (English as a New Language) Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Bilingual-ENL Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

** This language was written by a committee of content experts and has been adopted verbatim*

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands the evolution, research, and current federal and state legal mandates of bilingual and ENL education.
2. The teacher understands and knows how to identify differences and the implications for implementation in bilingual and ENL approaches and models.
3. The teacher understands and is able to distinguish between forms, functions, and contextual usage of social and academic language.
4. (Bilingual only) The teacher possesses language proficiency at the advanced level as defined in the ACTFL Proficiency Guidelines in listening, speaking, reading and writing in English and the second target language necessary to facilitate learning in the content area(s) (Federal Requirement).

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

5. (ENL only) The teacher possesses the language proficiency at the advanced level as defined in the ACTFL Proficiency Guidelines in listening, speaking, reading, and writing, in English necessary to facilitate learning of academic language in the content area(s) (Federal Requirement).
6. (Bilingual only) The teacher understands the articulatory system, various registers, dialects, linguistic structures, vocabulary, and idioms of both English and the second target language.
7. (ENL only) The teacher understands the articulatory system, various registers, dialects, linguistic structures, vocabulary, and idioms of the English language.

Performance

1. (Bilingual only) The teacher articulates in key linguistic structures and exposes students to the various registers, dialects, and idioms of English and the second target language.
2. (ENL only) The teacher is articulate in key linguistic structures and exposes students to the various registers, dialects, and idioms of the English language.
3. The teacher uses knowledge of language and content standards and language acquisition theory content areas to establish goals, design curricula and instruction, and facilitate student learning in a manner that builds on students' linguistic and cultural diversity.
4. The teacher demonstrates instructional strategies that an understanding of the variety of purposes that languages serve, distinguish between forms, functions, and contextual usage of social and academic language.
5. The teacher designs and implements activities that promote inter-cultural exploration, engaged observation, listening, speaking, reading, and writing.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Knowledge

1. The teacher understands the processes of language acquisition and development, and the role that culture plays in students' educational experiences.
2. The teacher understands the advantages of bilingualism, biliteracy, and multiculturalism.

Performance

1. The teacher plans and delivers instruction using knowledge of the role of language and culture in intellectual, social, and personal development.
2. The teacher integrates language and content instruction appropriate to the students' stages of

language acquisition.

3. The teacher facilitates students' use of their primary language as a resource to promote academic learning and further development of the second language.
4. The teacher uses effective strategies and approaches that promote bilingualism, biliteracy, and multiculturalism.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.

Knowledge

1. The teacher understands the nuances of culture in structuring academic experiences.
2. The teacher understands how a student's first language may influence second language production (ex: accent, code-switching, inflectional endings).
3. The teacher understands there is a distinction between learning disabilities/giftedness and second language development.
4. The teacher understands how and when to provide appropriate accommodations that allow students to access academic content.

Performance

1. The teacher promotes respect for diverse cultures by facilitating open discussion, treating all students equitably, and addressing individual student needs.
2. The teacher utilizes strategies that advance accuracy in students' language production and socio- culturally appropriate usage with an understanding of how these are influenced by the first language.
3. The teacher collaborates with other area specialists to distinguishes between issues of learning disabilities/giftedness and second language development.
4. The teacher provides appropriate accommodations that allow students to access academic content.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.

Knowledge

1. The teacher knows how to adapt lessons, textbooks, and other instructional materials, to be culturally and linguistically appropriate to facilitate linguistic and academic growth of language learners.

2. The teacher has a repertoire of effective strategies that promote students' critical thinking and problem solving at all stages of language development.

Performance

1. The teacher selects, adapts, creates and uses varied culturally and linguistically appropriate resources related to content areas and second language development.
2. The teacher employs a repertoire of effective strategies that promote students' critical thinking and problem solving at all stages of language development.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher understands the influence of culture on student motivation and classroom management.

Performance

1. The teacher demonstrates a culturally responsive approach to classroom management.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.

Knowledge

1. The teacher understands that language is a system that uses listening, speaking, reading, and writing for social and academic purposes.
2. The teacher understands how to design active and interactive activities that promote proficiency in the four domains of language.
3. The teacher understands the extent of time and effort required for language acquisition.

Performance

1. The teacher demonstrates competence in facilitating students' acquisition and use of language in listening, speaking, reading, and writing for social and academic purposes.
2. The teacher uses active and interactive activities that promote proficiency in the four domains of language.
3. The teacher communicates to students, their families, and stakeholders the extent of time and effort required for language acquisition.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.

Knowledge

1. The teacher understands how to incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.

Performance

1. The teacher creates and delivers lessons that incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Knowledge

1. The teacher understands variations in assessment of student progress that may be related to cultural and linguistic differences.
2. (Bilingual only) The teacher understands how to measure students' level of English language proficiency and second target language proficiency.
3. (ENL only) The teacher understands how to measure the level of English language proficiency.
4. The teacher understands the relationship and difference between levels of language proficiency and students' academic achievement.
5. The teacher is familiar with the state English language proficiency assessment.
6. The teacher knows how to interpret data and explain the results of standardized assessments to students with limited English proficiency, the students' families, and to colleagues.
7. The teacher understands appropriate accommodations for language learners being tested in the content areas.
8. The teacher understands how to use data to make informed decisions about program effectiveness.

Performance

1. The teacher selects and administers assessments suited to the students' culture, literacy and communication skills.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. The teacher uses a combination of observation and other assessments to make decisions about appropriate program services for language learners.
3. The teacher uses a combination of assessments that measure language proficiency and content knowledge respectively to determine how level of language proficiency may affect the demonstration of academic performance.
4. The teacher uses appropriate accommodations for language learners being tested in the content areas.
5. The teacher uses data to make informed decisions about program effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Knowledge

1. The teacher understands the necessity of maintaining an advanced level of proficiency, according to the ACTFL guidelines, in the language(s) used for instruction.

Performance

1. The teacher maintains an advanced level of proficiency, according to the ACTFL guidelines, in the language(s) used for instruction.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Knowledge

1. The teacher understands the benefits of family and community involvement in students' linguistic, academic, and social development.
2. The teacher understands the necessity of collegiality and collaboration to promote opportunities for language learners.

Performance

1. The teacher creates family and community partnerships that promote students' linguistic, academic, and social development.
2. The teacher collaborates with colleagues to promote opportunities for language learners.
3. The teacher assists other educators and students in promoting cultural respect and validation of students' and families' diverse backgrounds and experiences.

GLOSSARY OF TERMS

ACTFL Proficiency Guidelines

A nationally developed and agreed upon set of descriptions of what individuals can do with language in terms of speaking, writing, listening, and reading in real-world situations in a spontaneous and non-rehearsed context. For each skill, these guidelines identify five major levels of proficiency: Distinguished, Superior, Advanced, Intermediate, and Novice. The major levels Advanced, Intermediate, and Novice are subdivided into High, Mid, and Low sublevels. The levels of the ACTFL Guidelines describe the continuum of proficiency from that of the highly articulate, well-educated language user to a level of little or no functional ability. These Guidelines present the levels of proficiency as ranges, and describe what an individual can and cannot do with language at each level, regardless of where, when, or how the language was acquired. http://www.actfl.org/files/public/ACTFLProficiencyGuidelines2012_FINAL.pdf

American Council of Teachers of Foreign Languages (ACTFL)

An organization for world language professionals of K-12 and higher education

Articulatory System

The mechanism by which the sounds of a language are produced

Bilingual Education Program

An educational approach that uses two languages to promote academic success, bilingualism, biliteracy, and multiculturalism

Biliteracy

The ability to read and write in two languages

Code-switching

A change by a speaker or writer from one language or variety of language to another at the word, phrase, clause, or sentence level (TESOL, 2010)

English as a New Language (ENL)

Refers to the teaching of English to speakers of other languages

Inflectional Endings

Grammatical markers or suffixes used in standard conventional language production

Primary Language

An individual's most developed language

Register

The usage of language in a particular social context

Idaho Foundation Standards for Communication Arts Teachers

In addition to the standards listed here, communication arts teachers must meet Idaho Core Teacher Standards and one of the following: (1) Idaho Standards for Journalism Teachers or (2) Idaho Standards for Speech and Debate Teachers.

The following knowledge and performance statements for the Communication Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assured attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

** This language was written by a committee of content experts and has been adopted verbatim*

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

~~*Standard 1: Knowledge of Subject Matter – The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.*~~

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The teacher understands how values and ethics affect communication.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. The teacher understands the importance of audience analysis and adaptation in differing communication contexts.
3. The teacher knows the components and processes of communication.
4. The teacher understands the interactive roles of perceptions and meaning.
5. The teacher understands how symbolism and language affect communication.
6. The teacher understands the role of organization in presenting concepts, ideas, and arguments.
7. The teacher knows methods and steps of problem solving in communication arts.
8. The teacher understands the impact of outside social structures and institutions--including historical, political, social, economic, and cultural perspectives--on communication processes and messages.

Performance

1. The teacher emphasizes to students the importance of values and ethics relevant to the communication process in a variety of formats (e.g., speeches, interpersonal interactions, journalistic writing, social media, and debate).
2. The teacher provides instruction and practice in conducting and applying research.
3. The teacher creates lessons that stress the importance of audience analysis and adaptation.
4. The teacher presents communication as a process consisting of integral components.
5. The teacher explains various methods of organization and their effects on the communication process.
6. The teacher delivers instruction that facilitates student analysis and evaluation of message contexts, including historical, political, social, economic, and cultural perspectives.

~~*Standard 2: Knowledge of Human Development and Learning—The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*~~

~~*Standard 3: Modifying Instruction for Individual Needs—The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.*~~

~~*Standard 4: Multiple Instructional Strategies—The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.*~~

~~*Standard 5: Classroom Motivation and Management Skills – The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*~~

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

~~*Standard 6: Communication Skills – The teacher uses a variety of communication techniques including verbal, nonverbal, and media to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.*~~

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

~~*Standard 7: Instructional Planning Skills – The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.*~~

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

~~*Standard 8: Assessment of Student Learning – The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.*~~

Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

~~*Standard 9: Professional Commitment and Responsibility – The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*~~

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

- 1. The teacher understands contemporary legal standards relating to communication and media.*

Performance

1. The teacher develops learning progressions for students that embed contemporary legal standards relating to communication and media.

~~*Standard 10: Partnerships—The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.*~~

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Idaho Standards for Journalism Teachers

In addition to the standards listed here, journalism teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Communication Arts Teachers.

The following knowledge and performance statements for the journalism teacher standard are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assured attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The teacher comprehends the fundamentals of journalistic style (e.g., news, feature, and editorial writing).

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. The teacher understands the elements of design and layout.
3. The teacher understands the purposes and elements of photojournalism (e.g., composition, ~~and~~ processing).
4. The teacher understands the purposes, types, and rules of headline and caption writing.
5. The teacher possesses knowledge of interviewing skills.
6. The teacher knows how to organize and equip a production area.
7. The teacher knows how to organize and supervise a student staff (e.g., editors, writers, photographers, ~~and~~ business personnel).
8. The teacher knows how to adapt journalistic techniques to various media (e.g., radio, television, ~~and the~~ Internet).
9. The teacher understands advertising and finance.
10. The teacher knows the fundamentals of editing.
11. The teacher understands processes of effective critiquing.
12. The teacher understands journalistic and scholastic press law and ethics.
13. The teacher understands the role of journalism in democracy.

Performance

1. The teacher instructs students in the fundamentals of journalistic style across a variety of journalistic platforms.
2. The teacher ~~presents and requires students to~~ student application ~~the techniques~~ of design and layout techniques.
3. The teacher integrates the purposes and elements of photojournalism into the production process.
4. The teacher instructs students in the purposes, types, and rules of headline and caption writing.
5. The teacher provides opportunities for students to practice and use interviewing skills.
6. The teacher teaches editing skills and provides opportunities for student practice.
7. The teacher provides opportunities for students to critique and evaluate student and professional work.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

~~Standard 2: Knowledge of Human Development and Learning – The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.~~

** This language was written by a committee of content experts and has been adopted verbatim*

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

~~*Standard 1: Knowledge of Subject Matter – The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.*~~

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The teacher understands the models of interpersonal communication.
2. The teacher knows the processes and types of ~~hearing and active~~ listening.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

3. The teacher knows the nature of conflict and conflict resolution strategies in the speech process.
4. The teacher knows the dynamics of group communication (e.g., roles, functions, systems, developmental stages, ~~and~~ problem solving).
5. The teacher understands rhetorical theories and practices.
6. The teacher understands types of public speaking (e.g., informative, persuasive, ~~and~~ ceremonial).
7. The teacher understands the steps of speech preparation, rehearsal, presentation, and constructive feedback.
8. The teacher understands the necessity of adapting public speaking styles and skills to various media.
9. The teacher understands the principles of competitive debate theory (e.g., categories and styles of debate).
10. The teacher knows the theories and practices of argumentation.
11. The teacher knows the precepts of logical reasoning (e.g., syllogistic, categorical, disjunctive, ~~and~~ fallacies).
12. The teacher knows the various types of competitive speaking events (e.g., impromptu, extemporaneous, oratory, ~~and~~ debate).
13. The teacher knows how to identify and minimize communication anxiety.

Performance

1. The teacher instructs in the process of effective interpersonal communication (e.g., effective listening, components of verbal and nonverbal communication, ~~and~~ conflict resolution).
2. The teacher explains the components and dynamics of group communication and provides opportunities for student implementation.
3. The teacher provides opportunities for students to prepare, practice, and present various types of speeches.
4. The teacher provides instruction in presenting for various integrating digital media and visual displays to enhance presentations.
5. The teacher instructs in the theory, principles, and practices of debate (e.g., argumentation, logical reasoning, ~~and~~ competitive speaking).

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

6. The teacher provides opportunities for students to participate in debate and speaking events.
7. The teacher explains various methods of organization and their effects on the communication process.
8. The teacher provides strategies for assessing and minimizing communication anxiety (e.g., personal anxiety assessment, repetition, visualization).

~~*Standard 2: Knowledge of Human Development and Learning – The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*~~

~~*Standard 3: Modifying Instruction for Individual Needs – The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.*~~

~~*Standard 4: Multiple Instructional Strategies – The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.*~~

~~*Standard 5: Classroom Motivation and Management Skills – The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*~~

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

~~*interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.*~~

Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

~~*Standard 9: Professional Commitment and Responsibility – The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*~~

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

~~*Standard 10: Partnerships – The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and wellbeing.*~~

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Idaho Standards for Computer Science Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Computer Science Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. These standards were influenced and developed through use of the standards set forward by the International Society for Technology Education (ISTE) and the Computer Science Teachers' Association (CSTA).

The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1. The teacher understands digital citizenship.

Performance

1. The teacher promotes and models digital citizenship.
2. The teacher demonstrates the ability to design and implement developmentally appropriate learning opportunities supporting the diverse needs of all learners.

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

1. The teacher understands the role of language and culture in learning computer science and knows how to modify instruction to make language comprehensible and instruction relevant, accessible, and challenging.

Performance

1. The teacher demonstrates the ability to plan for equitable and accessible classroom, lab, and online environments that support effective and engaging learning.
2. The teacher demonstrates the ability to develop lessons and methods that engage and empower learners from diverse cultural and linguistic backgrounds.

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher understands how to design environments that promote effective teaching and learning in computer science classrooms and online learning environments and promote digital citizenship.

Performance

1. The teacher promotes and models the safe and effective use of computer hardware, software, peripherals, and networks.
2. The teacher develops student understanding of privacy, security, safety, and effective communication in online environments.

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The teacher understands data representation and abstraction.
2. The teacher understands how to effectively design, develop, and test algorithms.
3. The teacher understands the software development process.
4. The teacher understands digital devices, systems, and networks.
5. The teacher understands the basic mathematical principles that are the basis of computer science, including algebra, set theory, Boolean logic, coordinating systems, graph theory, matrices, probability, and statistics.
6. The teacher understands the role computer science plays and its impact in the modern world.
7. The teacher understands the broad array of opportunities computer science knowledge can provide across every field and discipline.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

8. The teacher understands the many and varied career and education paths that exist in Computer Science.

Performance

1. The teacher demonstrates knowledge of and proficiency in data representation and abstraction. The teacher:
 - i. Effectively uses primitive data types.
 - ii. Demonstrates an understanding of static and dynamic data structures.
 - iii. Effectively uses, manipulates, and explains various external data stores: various types (text, images, sound, etc.), various locations (local, server, cloud), etc.
 - iv. Effectively uses modeling and simulation to solve real-world problems
2. The teacher effectively designs, develops, and tests algorithms. The teacher:
 - i. Uses a modern, high-level programming language, constructs correctly functioning programs involving simple and structured data types; compound Boolean expressions; and sequential, conditional, and iterative control structures.
 - ii. Designs and tests algorithms and programming solutions to problems in different contexts (textual, numeric, graphic, etc.) using advanced data structures.
 - iii. Analyzes algorithms by considering complexity, efficiency, aesthetics, and correctness.
 - iv. Effectively uses two or more development environments.
 - v. Demonstrates knowledge of varied software development models and project management strategies.
 - vi. Demonstrates application of all phases of the software development process on a project of moderate complexity from inception to implementation.
3. The teacher demonstrates knowledge of digital devices, systems, and networks. The teacher:
 - i. Demonstrates an understanding of data representation at the machine level.
 - ii. Demonstrates an understanding of machine level components and related issues of complexity.
 - iii. Demonstrates an understanding of operating systems and networking in a structured computing system.

- iv. Demonstrates an understanding of the operation of computer networks and mobile computing devices.
- 4. The teacher demonstrates an understanding of the role computer science plays and its impact in the modern world. The teacher:
 - i. Demonstrates an understanding of the social, ethical, and legal issues and impacts of computing, and the attendant responsibilities of computer scientists and users.
 - ii. Analyzes the contributions of computer science to current and future innovations in sciences, humanities, the arts, and commerce.
- 5. The teacher demonstrates an understanding of the basic mathematical principles that are the basis of computer science including algebra, set theory, Boolean logic, coordinating systems, graph theory, matrices, probability, and statistics.

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

- 1. The teacher understands the academic language and conventions of computer science and how to make them accessible to students.

Performance

- 1. The teacher designs activities that require students to effectively describe computing artifacts and communicate results using multiple forms of media.
- 2. The teacher develops student understanding of online safety and effectively communicating in online environments.

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

- 1. The teacher understands the creation and implementation of multiple forms of assessment using data.

Performance

- 1. The teacher creates and implements multiple forms of assessment and uses resulting data to capture student learning, provide remediation, and shape classroom instruction.

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

1. The teacher understands the planning and teaching of computer science lessons/units using effective and engaging practices and methodologies.

Performance

1. The teacher selects a variety of real-world computing problems and project-based methodologies that support active learning.
2. The teacher provides opportunities for creative and innovative thinking and problem-solving in computer science.
3. The teacher develops student understanding of the use of computer science to solve interdisciplinary problems.

Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

1. The teacher understands the value of designing and implementing multiple instructional strategies in the teaching of computer science.

Performance

1. The teacher demonstrates the use of a variety of collaborative groupings in lesson plans/units, software projects, and assessments.
2. The teacher identifies problematic concepts in computer science and constructs appropriate strategies to address them.

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

1. The teacher has and maintains professional knowledge and skills in the field of computer science and readiness to apply it.

Performance

1. The teacher participates in, promotes, and models ongoing professional development and life-long learning relating to computer science and computer science education.

2. The teacher identifies and participates in professional computer science education societies, organizations, and groups that provide professional growth opportunities and resources.
3. The teacher demonstrates knowledge of evolving social and research issues relating to computer science and computer science education.

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

1. The teacher understands the process and value of partnerships with industry and other organizations.

Performance

1. The teacher is active in the professional computer science and industrial community.

Idaho Standards for Blended Early Childhood Education/ Early Childhood Special Education Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the ~~Early Childhood~~-Blended Early Childhood/Early Childhood Special Education Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The characteristics of development and learning of young children are integrally linked and different from those of older children and adults. Thus, programs serving young children should be structured to support those unique developmental and learning characteristics. The early childhood educator will extend, adapt, and apply knowledge gained in the professional education core for the benefit of children from birth through grade three.

** This language was written by a committee of content experts and has been adopted verbatim*

~~*Standard 2: Knowledge of Human Development and Learning – The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*~~

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1. The early childhood educator knows that family systems are inextricably tied to child development.
2. The early childhood educator understands the typical and atypical development of infants’ and ~~young~~ children’s attachments and relationships with primary caregivers.
3. The early childhood educator understands how learning occurs and that ~~young~~ children’s

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

development influences learning and instructional decisions.

4. The early childhood educator understands pre-, peri-, and postnatal development and factors, such as biological and environment conditions that affect children’s development and learning.
5. The early childhood educator understands the developmental consequences of toxic (strong, frequent, and/or prolonged) stress, ~~and~~ trauma, protective factors and resilience, and the ~~development-consequences ofn the child’s~~ mental health.
6. The early childhood educator understands and the importance of supportive relationships on the child’s learning, emotional, and social development.
7. The early childhood educator understands the role of adult-child relationships in learning and development.

Performance

1. The early childhood educator identifies pre-, peri-, and postnatal development and factors, such as biological and environment conditions that affect children’s development and learning.
2. The early childhood educator ~~addresses~~ collaborates with parents, families, specialists and community agencies to identify and implement strategies to minimize the developmental consequences of toxic (strong, frequent, and/or prolonged) stress and trauma, while increasing protective factors and resilience, ~~the development of mental health, and the importance of supportive relationships.~~
3. The early childhood educator establishes and maintains positive interactions and relationships with the child.

~~*Standard 3: Adapting Instruction for Individual Needs – The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.*~~

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

1. The early childhood educator ~~knows~~ understands aspects ~~the continuum~~ of medical care for premature development, low birth weight, ~~young~~ children who are medically fragile, and children with special health care needs, and knows the concerns and priorities associated with these medical conditions as well as their implications on child development and family resources.
2. The early childhood educator understands variations of beliefs, traditions, and values

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

~~regarding disability~~ across cultures and the effect of these on the relationships among the child, family, and their environments.

3. The early childhood educator knows the characteristics of typical and atypical development and their educational implications and effects on participation in educational and community environments.
4. The early childhood educator knows how to access information regarding specific children's needs and disability-related issues (e.g. medical, support, ~~and~~ service delivery).
5. The early childhood educator knows about and understands the purpose of assistive technology in facilitating individual children's learning differences, and to provide access to an inclusive learning environment.

Performance

1. The early childhood educator locates, uses, and shares information about the methods for the care of ~~young~~ children who are medically fragile and children with special health care needs, including the effects of technology and various medications on the educational, cognitive, physical, social, and emotional behavior of children with disabilities.
2. The early childhood educator adapts learning, language, and communication strategies for the developmental age and stage of the child, and as appropriate identifies and uses assistive technology.

~~*Standard 5: Classroom Motivation and Management Skills – The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*~~

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The early childhood educator understands the importance and use of routines as a teaching strategy.
2. The early childhood educator knows that physically and psychologically safe and healthy learning environments promote security, trust, attachment, and mastery motivation in young children.
3. The early childhood educator understands applicable laws, rules, and regulations, ~~and~~ procedural safeguards regarding behavior management planning and plan implementation for children with disabilities.
4. The early childhood educator understands principles of guidance (co-regulation, self-monitoring, and emotional regulation), applied behavioral analysis and ethical

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

considerations inherent in behavior management.

5. The early childhood educator understands crisis prevention and intervention practices relative to the setting, age, and developmental stage of the child.
6. The early childhood educator knows a variety of strategies and environmental designs that facilitate a positive social and behavioral climate.
7. The early childhood educator understands that the child's primary teacher is the parent.
8. The early childhood educator understands appropriate use of evidence-based practices that support development at all stages.

Performance

1. The early childhood educator promotes opportunities for young-all children in natural and inclusive settings.
2. The early childhood educator embeds learning objectives within everyday routines and activities.
3. The early childhood educator creates an accessible learning environment, including the use of assistive technology.
4. The early childhood educator provides training and supervision for the classroom paraprofessional, aide, volunteer, and peer tutor.
5. The early childhood educator creates an environment that encourages self-advocacy and increased independence.
6. The early childhood educator plans and implements ~~the least intrusive and intensive~~ intervention consistent with the needs of children.
7. The early childhood educator conducts functional behavior assessments and develops positive behavior supports, and creates behavior intervention plans.
8. In collaboration with the parent, the early childhood educator applies evidence-based strategies that support development at all stages in home, community, and classroom environments.

~~Standard 1: Knowledge of Subject Matter – The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.~~

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The early childhood educator knows how young—children integrate domains of development (language, cognition, social- and emotional, physical, and self-help) as well as traditional content areas of learning (e.g., literacy, mathematics, science, health, safety, nutrition, social studies, art, music, drama, ~~and~~ movement).
2. The early childhood educator understands theories, history, and models that provide the basis for early childhood education and early childhood special education practices as identified in the National Association for the Education of Young Children (NAEYC) Standards for Early Childhood Professional Preparation Programs and the Council for Exceptional Children/Division of Early Childhood Licensure and (CEC/DEC) Personnel Preparation Standards.
3. The early childhood educator understands the process of self-regulation that assists young children to identify and cope with emotions.
4. The early childhood educator understands speech and language acquisition processes in order to support emergent literacy, including pre-linguistic communication and language development.
5. The early childhood educator understands the elements of play and how play assists children in learning.
6. The early childhood educator understands nutrition and feeding relationships so children develop essential and healthy eating habits.
7. The early childhood educator understands that young—children are constructing a sense of self, expressing wants and needs, and understanding social interactions that enable them to be involved in friendships, cooperation, and effective conflict resolutions.
8. The early childhood educator understands the acquisition of self-help skills that facilitate the child’s growing independence (e.g., toileting, dressing, grooming, hygiene, eating, and sleeping).
9. The early childhood educator understands the comprehensive nature of children’s wellbeing in order to create opportunities for developing and practicing skills that contribute to healthful living and enhanced quality of life.
10. The early childhood educator has deep knowledge of the state-adopted early learning guidelines/standards and developmental indicators.

Performance

1. The early childhood educator demonstrates the application of theories and educational

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

models in early childhood education and special education practices.

2. The early childhood educator applies developmentally appropriate practices to facilitate growth towards developmental milestones and emerging foundational skills.
3. The early childhood educator differentiates fundamental knowledge practices for the acquisition of skills in English language arts, science, mathematics, social studies, the arts, health, safety, nutrition, and physical education for children from birth through age 2, ages 3-5, and grades K-3.

~~Standard 6: Communication Skills – The teacher uses a variety of communication techniques to foster learning and communication skills.~~

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

1. The early childhood educator understands critical developmental processes and knows how to facilitate the growth and development of children birth through age 8.
2. The early childhood educator recognizes the role that social and emotional development plays in overall development and learning.
3. The early childhood educator knows the multiple factors that contribute to the development of cultural competence in young children birth through age 8.
4. The early childhood educator understands how to promote the development of executive functioning in children birth through age 8 (e.g. impulse control, problem solving, exploration).
5. The early childhood educator knows the importance of facilitating emergent literacy and numeracy.
6. The early childhood educator understands the essential functions of play and the role of play in the holistic growth and development of children birth through age 8.

Performance

1. The early childhood educator adjusts language and communication strategies for the developmental age and stage of the child effectively creates and maintains an environment that facilitates overall growth and development of all children (e.g. routines, materials and equipment, schedules, building relationships, assistive technology).
2. The early childhood educator builds positive relationships with children and families and encourages cultural sensitivity among children to foster social and emotional development of all children.

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

3. The early childhood educator utilizes a play-based curriculum to facilitate the holistic development of all children and fosters the emergence of literacy, numeracy, and cognition.
4. The early childhood educator effectively utilizes explicit instruction to facilitate the development of executive functioning (e.g. impulse control, problem solving, exploration).

~~*Standard 8: Assessment of Student Learning – The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.*~~

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

1. The early childhood educator understands the legal provisions, regulations, guidelines, and ethical concerns regarding assessment of children.
2. The early childhood educator knows that developmentally appropriate assessment procedures reflect children's behavior over time and rely on regular and periodic observations and record keeping of children's everyday activities and performance.
3. The early childhood educator knows the instruments and procedures used to assess children for screening, pre-referral interventions, referral, and eligibility determination for special education services or early intervention services for birth to three years.
4. The early childhood educator knows the ethical issues and identification procedures for children with disabilities, including children from culturally and linguistically diverse backgrounds.

Performance

1. The early childhood educator assesses all developmental domains (e.g., social- and emotional, fine and gross motor, cognition, communication, ~~and~~ self-help).
2. The early childhood educator implements services consistent with procedural safeguards in order to protect the rights and ensure the participation of families and children ensures the participation and procedural safeguard rights of the parent/child when determining eligibility, planning, and implementing services.
3. The early childhood educator collaborates with families and professionals involved in the assessment process of children.
4. The early childhood educator conducts an ecological assessment and uses the information to modify various settings as needed and to integrate the children into those setting.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

5. The early childhood educator uses a diverse array of assessment strategies to assess children depending on the purpose of assessment (e.g. observation, checklists, norm-referenced).
6. The early childhood educator demonstrates culturally or linguistically diverse assessment practices and procedures used to determine eligibility of a student.

~~*Standard 7: Instructional Planning Skills – The teacher plans and prepares instruction-based upon knowledge of subject matter, students, the community, and curriculum goals.*~~

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

1. The early childhood educator understands theory and research that reflect currently recommended professional practice for working-engaging with families and children (from birth through age 2, ages 3-5, and grades K-3).
2. The early childhood educator has deep knowledge of the state-adopted early learning guidelines/standards and developmental indicators.

Performance

1. The early childhood educator designs meaningful play-child-initiated inquiry experiences and integrated learning opportunities that are scaffolded for the developmental needs of young-all children.
2. The early childhood educator assists families in identifying their resources, priorities, and concerns in relation to their children’s development and provides information about a range of family-oriented services based on identified resources, priorities, and concerns through the use of the Individualized Family Service Plans (IFSP) Individualized Education Programs (IEP).
3. The early childhood educator supports-facilitates transitions for young children and their families (e.g., hospital, home, Infant/Toddler programs, Head Start, Early Head Start, childcare programs, preschool, and primary programs).
4. The early childhood educator analyzes activities and tasks and uses procedures for determining-and monitoring children’s skill levels and progress.
5. The early childhood educator evaluates and-links children’s skill development in relation to developmental norms and state-adopted standards.

~~*Standard 4: Multiple Instructional Strategies – The teacher understands and uses a variety of instructional strategies to develop student learning.*~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

1. The early childhood educator knows the characteristics of physical environments that must vary to support the learning of children from birth through age 2, ages 3-5, and grades K-3 (e.g., schedule, routines, ~~and~~ transitions).
2. The early childhood educator understands the breadth and application of low and high assistive technology to support instructional assessment, planning, and delivery of instruction.

Performance

1. The early childhood educator uses developmentally appropriate methods to help young children develop intellectual curiosity, solve problems, and make decisions (e.g., child choice, play, small group projects, open-ended questioning, group discussion, problem solving, cooperative learning, ~~and~~ inquiry and reflection experiences).
2. The early childhood educator uses evidence-based instructional strategies (e.g., child choice, play, differentiation, direct instruction, scaffolding) that support both child-initiated and adult-directed activities.

~~*Standard 9: Professional Commitment and Responsibility – The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*~~

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

1. The early childhood educator understands the NAEYC Licensure Standards for Early Childhood Professional Preparation and the CEC/DEC Personnel Initial Preparation Standards.
2. The early childhood educator understands the code of ethics of the NAEYC, CEC/DEC, and the Idaho Code of Ethics for Professional Educators.
3. The early childhood educator understands the responsibilities as outlined in the Pre-Service Technology Standards (e.g. digital citizenship and ethical practice).

Performance

1. The early childhood educator practices behavior congruent with the NAEYC Licensure

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

Standards for Early Childhood Professional Preparation, and CEC/DEC Personnel Initial Preparation Standards, and the Idaho Code of Ethics for Professional Educators.

2. The early childhood educator practices behavior as outlined in the Pre-Service Technology Standards (e.g. digital citizenship and ethical practice).

~~*Standard 10: Partnerships—The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.*~~

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

1. The early childhood educator knows about state and national professional organizations (e.g., the National Association for the Education of Young Children (NAEYC) and the Division for Early Childhood (CEC/DEC) Code of Ethics.
2. The early childhood educator knows family systems theory and its application to the dynamics, roles, and relationships within families and communities.
3. The early childhood educator knows community, state, and national resources available for young children and their families.
4. The early childhood educator understands the role and function of the service coordinator and related service professionals in assisting families of young children.
5. The early childhood educator knows basic principles of administration, organization, and operation of early childhood programs (e.g., supervision of staff and volunteers, and program evaluation).
6. The early childhood educator knows the rights and responsibilities of parents/guardians, students, teachers, professionals, and programs as they relate to children with disabilities.
7. The early childhood educator understands how to effectively communicate and collaborate with children, parents/guardians, colleagues, and the community in a professional and culturally responsive-sensitive manner.

Performance

- ~~1. The educator practices behavior congruent with the NAEYC Code of Ethics and the Division for Early Childhood Code of Ethics.~~
21. The early childhood educator demonstrates skills in communicating, consulting and partnering with families and diverse service delivery providers (e.g., home services,

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

childcare programs, school, ~~and~~ community) to support the child's development and learning.

- 32. The early childhood educator identifies and accesses community, state, and national resources for ~~young~~ children and families.
- 43. The early childhood educator advocates for ~~young~~ children and their families.
- 54. The early childhood educator creates a manageable system to maintain all program and legal records for children.
- 65. The early childhood educator encourages and assists families to become active participants in the educational team, including setting instructional goals for and charting progress of children.
- 67. The early childhood educator demonstrates respect, honesty, caring, and responsibility in order to promote and nurture an environment that fosters these qualities.

Idaho Standards for Elementary Education Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Elementary Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

**This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands concepts of language arts and child development in order to teach reading, writing, speaking, viewing, listening, and thinking skills and to help students successfully apply their developing skills to many different situations, materials, and ideas.
2. The teacher understands the importance of providing a purpose and context to use the communication skills taught across the curriculum.
3. The teacher understands how children learn language, the basic sound structure of language, semantics and syntactics, diagnostic tools, and test data to improve student reading ability.
4. The teacher understands the fundamental concepts and the need to integrate STEM disciplines including physical, life, and earth and space Sciences, Technology, Engineering, and Mathematics as well as the applications of STEM disciplines to technology, personal and social perspectives, history, unifying concepts, and inquiry processes used in the discovery of new knowledge.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

5. The teacher understands major concepts, procedures, and reasoning processes of mathematics that define number systems and number sense, computation, geometry, measurement, statistics and probability, and algebra in order to foster student understanding and use of patterns, quantities, and spatial relationships that represent phenomena, solve problems, and manage data. The teacher understands the relationship between inquiry and the development of mathematical thinking and reasoning.
6. The teacher knows the major concepts and modes of inquiry for social studies: the integrated study of history, geography, government/civics, economics, social/cultural and other related areas to develop students' abilities to make informed decisions as global citizens of a culturally diverse, democratic society and interdependent world.
7. The teacher understands the content, functions, aesthetics, and achievements of the arts, such as dance, music, theater, and visual arts as avenues for communication, inquiry, and insight.
8. The teacher understands the comprehensive nature of students' physical, intellectual, social, and emotional well-being in order to create opportunities for developing and practicing skills that contribute to overall wellness.
9. The teacher understands human movement and physical activities as central elements for active, healthy lifestyles and enhanced quality of life.
10. The teacher understands connections across curricula and within a discipline among concepts, procedures, and applications. Further, the teacher understands its use in motivating students, building understanding, and encouraging application of knowledge, skills, and ideas to real life issues and future career applications.
11. The teacher understands the individual and interpersonal values of respect, caring, integrity, and responsibility that enable students to effectively and appropriately communicate and interact with peers and adults.

Performance

1. The teacher models the appropriate and accurate use of language arts.
2. The teacher demonstrates competence in language arts, reading, STEM disciplines, social studies, the arts, health education, and physical education. Through inquiry the teacher facilitates thinking and reasoning.
3. The teacher provides a purpose and context to use the communication skills taught. The teacher integrates these communication skills across the curriculum.
4. The teacher conceptualizes, develops, and implements a balanced curriculum that includes language arts, reading, STEM disciplines, social studies, the arts, health education, and physical education.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

5. Using his/her integrated knowledge of the curricula, the teacher motivates students, builds understanding, and encourages application of knowledge, skills, and ideas to real life issues, democratic citizenship, and future career applications.
6. The teacher models respect, integrity, caring, and responsibility in order to promote and nurture a school environment that fosters these qualities.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Knowledge

1. The teacher understands that young children's and early adolescents' literacy and language development influence learning and instructional decisions.
2. The teacher understands the cognitive processes of attention, memory, sensory processing, and reasoning, and recognizes the role of inquiry and exploration in developing these abilities.

Performance

1. The teacher designs instruction and provides opportunities for students to learn through inquiry and exploration.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Knowledge

1. The teacher understands the necessity of appropriately and effectively collaborating with grade level peers, school intervention teams, parents/guardians, and community partners to meet differentiated needs of all learners.
2. The teacher understands that there are multiple levels of intervention and recognizes the advantages of beginning with the least intrusive.

Performance

1. The teacher appropriately and effectively collaborates with grade level peers, school intervention teams, parents/guardians, and community partners to meet differentiated needs of all learners.
2. The teacher systematically progresses through the multiple levels of intervention, beginning with the least intrusive.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher understands the importance of teaching and re-teaching classroom expectations.
2. The teacher recognizes the importance of positive behavioral supports and the need to use multiple levels of intervention to support and develop appropriate behavior.

Performance

1. The teacher consistently models and teaches classroom expectations.
2. The teacher utilizes positive behavioral supports and multiple levels of intervention to support and develop appropriate behavior.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Principle 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Idaho Standards for Engineering Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Engineering Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1. The teacher understands how to design developmentally appropriate engineering activities and assignments.

Performance

1. The teacher designs and implements developmentally appropriate engineering activities and assignments.

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

1. The teacher understands students with exceptional needs, including those associated with disabilities and giftedness, and knows how to use strategies and resources to address those needs.
2. The teacher understands how and when to provide appropriate accommodations that allow students to access academic content.

Performance

1. The teacher collaborates with other area specialists to distinguish between issues of learning disabilities and giftedness.
2. The teacher provides appropriate accommodations that allow students to access academic content.

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher understands the principles of effective classroom management (e.g., strategies that promote positive relationships, cooperation, conflict resolution, and purposeful learning).
2. The teacher understands the principles of motivation, both extrinsic and intrinsic, and human behavior.
3. The teacher knows the components of an effective classroom management plan.
4. The teacher understands how social groups function and influence individuals, and how individuals influence groups.
5. The teacher understands how participation, structure, and leadership promote democratic values in the classroom.
6. The teacher understands the relationship between classroom management, school district policies, building rules, and procedures governing student behavior.

Performance

1. The teacher recognizes factors and situations that are likely to promote or diminish intrinsic motivation and knows how to help students become self-motivated.
2. The teacher establishes a positive and safe climate in the classroom and laboratory, as well as participates in maintaining a healthy environment in the school as a whole.
3. The teacher designs and implements a classroom management plan that maximizes class productivity by organizing, allocating, and managing the resources of time, space, and activities, as well as clearly communicating curriculum goals and learning objectives.
4. The teacher utilizes a classroom management plan consistent with school district policies, building rules, and procedures governing student behavior.
5. The teacher creates a learning community in which students assume responsibility for themselves and one another, participate in decision-making, work collaboratively and

independently, resolve conflicts, and engage in purposeful learning activities.

6. The teacher organizes, prepares students for, and monitors independent and group work that allows for the full and varied participation of all individuals.
7. The teacher engages students in individual and cooperative learning activities that helps the students develop the motivation to achieve (e.g., relating lessons to real-life situations, allowing students to have choices in their learning, and leading students to ask questions and pursue problems that are meaningful to them).
8. The teacher analyzes the classroom environment, making adjustments to enhance social relationships, student self-motivation and engagement, and productive work.

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The teacher understands the principles and concepts of engineering design.
2. The teacher understands the role of mathematics in engineering design and analysis.
3. The teacher understands the role of natural and physical sciences in engineering design and analysis.
4. The teacher understands the ethical issues and practices of the engineering profession.
5. The teacher understands the importance of team dynamics and project management in engineering projects.

Performance

1. The teacher applies the principles and concepts of engineering design in the solution of an engineering design problem.
2. The teacher can demonstrate the effects engineering has on the society, the environment and the global community.
3. The teacher is able to work in a learning community/project team.

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

1. The teacher understands the communication needs of diverse learners.

2. The teacher knows how to use a variety of communication tools (e.g., audio-visual technology, computers, and the Internet) to support and enrich learning opportunities.
3. The teacher understands strategies for promoting student communication skills.
4. The teacher knows the symbols, terminology, and notations specific to engineering.
5. The teacher recognizes the importance of oral and written communication in the engineering discipline.

Performance

1. The teacher is a thoughtful and responsive listener.
2. The teacher adjusts communication so that it is developmentally and individually appropriate.
3. The teacher models effective communication strategies in conveying ideas and information and in asking questions to stimulate discussion and promote higher-order thinking.
4. The teacher supports and expands student skills in speaking, writing, reading, listening, and in using other mediums, consistent with engineering practices.
5. The teacher demonstrates the ability to communicate effectively orally and in writing.
6. The teacher adjusts communication in response to cultural differences (e.g., appropriate use of eye contact and interpretation of body language).
7. The teacher uses a variety of communication tools (e.g., audio-visual technologies, computers, and the Internet) to support and enrich learning opportunities.
8. The teacher uses the symbols, terminology, and notations specific to engineering.

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

1. The teacher understands the purposes of formative and summative assessment and evaluation.
2. The teacher knows how to use multiple strategies to assess individual student progress.
3. The teacher understands the characteristics, design, purposes, advantages, and limitations of different types of assessment strategies.

4. The teacher knows how to use assessments in designing and modifying instruction.
5. The teacher knows how to select, construct, and use assessment strategies and instruments appropriate to students to measure engineering learning outcomes.
6. The teacher understands measurement theory and assessment-related concepts such as validity, reliability, bias, and scoring.
7. The teacher knows how to communicate assessment information and results to students, parents, colleagues, and stakeholders.
8. The teacher knows how to apply technology to facilitate effective assessment and evaluation strategies.

Performance

1. The teacher selects, constructs, and uses a variety of formal and informal assessment techniques to enhance the knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.
2. The teacher uses multiple assessment strategies to measure students' current level of performance in relation to curriculum goals and objectives.
3. The teacher appropriately uses assessment strategies to allow students to become aware of their strengths and needs and to encourage them to set personal goals for learning.
4. The teacher monitors student assessment data and adjusts instruction accordingly.
5. The teacher maintains records of student work and performance, and communicates student progress to students, parents, colleagues, and stakeholders.

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

1. The teacher understands how to apply knowledge regarding subject matter, learning theory, instructional strategies, curriculum development, and child and adolescent development to meet curriculum goals.
2. The teacher knows how to take into account such elements as instructional materials, individual student interests, needs, aptitudes, and community resources in planning instruction that creates an effective bridge between curriculum goals and student learning.
3. The teacher knows when and how to adjust plans to maximize student learning.

4. The teacher understands how curriculum alignment across grade levels and disciplines maximizes learning.

Performance

1. The teacher designs an engineering curriculum that aligns with high school and postsecondary engineering curricula.
2. The teacher designs curriculum to meet community and industry expectations.
3. The teacher, as an individual and a member of a team, selects and creates learning experiences that are appropriate for curriculum goals, relevant to students, and based on principles of effective instruction and performance modes.
4. The teacher creates short-range and long-range instructional plans, lessons, and activities that are differentiated to meet the developmental and individual needs of diverse students.
5. The teacher responds to unanticipated sources of input by adjusting plans to promote and capitalize on student performance and motivation.
6. The teacher develops and utilizes student assessments that align with curriculum goals and objectives.
7. The teacher modifies instructional plans based on student assessment and performance data.
8. The teacher integrates multiple perspectives into instructional planning, with attention to students' personal, family, and community experiences and cultural norms.
9. The teacher uses information from students, parents, colleagues, and school records to assist in planning instruction to meet individual student needs.

Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

1. The teacher understands how instructional strategies impact processes associated with various kinds of learning.
2. The teacher understands the techniques and applications of various instructional strategies (e.g., cooperative learning, project-based learning, problem-based learning, direct instruction, discovery learning, whole group discussion, independent study, interdisciplinary instruction, manipulatives).
3. The teacher knows how to enhance learning through the use of a wide variety of materials, human resources, and technology.

4. The teacher knows how to apply integrative STEM pedagogy.

Performance

1. The teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and student needs.
2. The teacher uses multiple teaching and learning strategies to engage students in learning.
3. The teacher uses a variety of instructional tools and resources.
4. The teacher develops learning activities that integrate content from science, technology, engineering, arts, and mathematic disciplines.
5. The teacher uses practitioners from industry and the public sector as appropriate for the content area.
6. The teacher develops a scope and sequence of instruction related to the students' prior knowledge.

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

1. The teacher is knowledgeable about the different career opportunities for engineering.
2. The teacher knows the Code of Ethics for Idaho Professional Educators.
3. The teacher knows a variety of self-assessment strategies for reflecting on the practice of teaching.
4. The teacher is aware of the personal biases that affect teaching and knows the importance of presenting issues with objectivity, fairness, and respect.
5. The teacher knows where to find and how to access professional resources on teaching and subject matter.
6. The teacher understands the need for professional activity and collaboration beyond the school.
7. The teacher knows about professional organizations within education and his/her discipline.
8. The teacher understands the dynamics of change and recognizes that the field of education is not static.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

9. The teacher knows how to use educational technology to enhance productivity and professionalism.

Performance

1. The teacher practices behavior congruent with The Code of Ethics for Idaho Professional Educators.
2. The teacher adheres to local, state, and federal laws.
3. The teacher uses a variety of sources for evaluating his/her teaching (e.g., classroom observation, student achievement data, information from parents and students, and research).
4. The teacher uses self-reflection as a means of improving instruction.
5. The teacher participates in meaningful professional development opportunities in order to learn current, effective teaching practices.
6. The teacher stays abreast of professional literature, consults colleagues, and seeks other resources to support development as both a learner and a teacher.
7. The teacher engages in professional discourse about subject matter knowledge and pedagogy.
8. The teacher uses educational technology to enhance productivity and professionalism.

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

1. The teacher is aware of community issues and needs for design opportunities.
2. The teacher is aware of the importance of professional learning communities.

Performance

1. The teacher is able to adapt lessons to address community needs using the engineering design process.
2. The teacher actively seeks out and utilizes community resources to create engaging learning opportunities.
3. The teacher collaborates with other teachers across disciplines, as well as community partners.

Glossary

Engineering: The profession in which knowledge of the mathematical and natural sciences gained by study, experience, and practice is applied with judgment to develop ways to utilize economically the materials and forces of nature for the benefit of mankind.

Engineering Design Process: A systematic problem-solving strategy, with criteria and constraints, used to develop many possible solutions to solve or satisfy human needs or wants and to narrow down the possible solutions to one final choice.

Engineering Technology: The part of the technological field that requires the application of scientific and engineering knowledge and methods combined with technical skills in support of engineering activities; it lies in the occupational spectrum between the craftsman and the engineer at the end of the spectrum closest to the engineer.

Integrative STEM: The application of technological/engineering design based pedagogical approaches to intentionally teach content and practices of science and mathematics education concurrently with content and practices of technology/engineering education. Integrative STEM Education is equally applicable at the natural intersections of learning within the continuum of content areas, educational environments, and academic levels.

Technology: Technology comprises the entire system of people and organizations, knowledge, processes, and devices that go into creating and operating technological artifacts, as well as the artifacts themselves.

Idaho Standards for English Language Arts Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the English Language Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

** These standards were aligned to the 2011 InTASC Model Core Teaching Standards and the 2012 NCTE/NCATE Standards for Initial Preparation of Teachers of Secondary English Language Arts. The language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Performance

1. Candidates demonstrate knowledge of developmental levels in reading, writing, listening, viewing, and speaking and plan for developmental stages and diverse ways of learning.
2. Candidates demonstrate knowledge about how adolescents read and make meaning of a wide range of texts (e.g. literature, poetry, informational text, and digital media).
3. Candidates demonstrate knowledge about how adolescents compose texts in a wide range of genres and formats including digital media.

Standard 2: Learning Difference - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Performance

1. Candidates demonstrate knowledge of theories and research needed to plan and implement instruction responsive to students' local, national and international histories, individual identities (e.g., race, ethnicity, gender expression, age, appearance, ability, spiritual belief, sexual orientation, socioeconomic status, and community environment), and languages/dialects as they affect students' opportunities to learn in ELA.
2. Candidates design and/or implement instruction that incorporates students' linguistic and cultural backgrounds to enable skillful control over their rhetorical choices and language practices for a variety of audiences and purposes.

Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Performance

1. Candidates use various types of data about their students' individual differences, identities, and funds of knowledge for literacy learning to create inclusive learning environments that contextualize curriculum and instruction and help students participate actively in their own learning in ELA (e.g. workshops, project based learning, guided writing, Socratic seminars, literature circles etc.).

Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Performance

1. Candidates demonstrate knowledge and use print and non-print texts, media texts, classic texts and contemporary texts, including young adult—that represent a range of world literatures, historical traditions, genres, and the experiences of different genders, ethnicities, and social classes; they are able to use literary theories to interpret and critique a range of texts.
2. Candidates demonstrate knowledge and use the conventions of English language as they relate to various rhetorical situations (grammar, usage, and mechanics); they apply the concept of dialect and relevant grammar systems (e.g., descriptive and prescriptive); they facilitate principles of language acquisition; they connect the influence of English language history on ELA content and its impact of language on society.
3. Candidates demonstrate knowledge and compose a range of formal and informal texts, taking into consideration the interrelationships among form, audience, context, and purpose; candidates understand that writing involves strategic and recursive processes across multiple stages (e.g. planning, drafting, revising, editing, and publishing); candidates use contemporary technologies and/or digital media to compose multimodal discourse.

4. Candidates demonstrate knowledge and use strategies for acquiring and applying vocabulary knowledge to general academic and domain specific words as well as unknown terms important to comprehension (reading and listening) or expression (speaking and writing).

Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Performance

1. Candidates design and/or implement instruction related to the strategic use of language conventions (grammar, usage, and mechanics) in the context of students' writing for different audiences, purposes, and modalities.
2. Candidates design and/or implement English language arts and literacy instruction that promotes social justice and critical engagement with complex issues related to maintaining a diverse, inclusive, equitable society.
3. Candidates design and/or implement instruction related to a breadth and depth of texts, purposes, and complexities (e.g., literature, digital, visual, informative, argument, narrative, poetic) that lead to students becoming independent, critical, and strategic readers, writers, speakers, and listeners.
4. Candidates design and/or implement instruction related to speaking and listening that lead to students becoming critical and active participants in conversations and collaborations.

Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Performance

1. Candidates design a range of authentic assessments (e.g., formal and informal, formative and summative) of reading and literature that demonstrate an understanding of how learners develop and that address interpretive, critical, and evaluative abilities in reading, writing, speaking, listening, viewing, and presenting.
2. Candidates design or knowledgeably select appropriate reading assessments in response to student interests, reading proficiencies, and/or reading strategies.
3. Candidates design or knowledgeably select a range of assessments for students that promote their development as writers, are appropriate to the writing task, and are consistent with current research and theory. Candidates respond to students' writing throughout the students' writing processes in ways that engage students' ideas and encourage their growth as writers over time.

4. Candidates differentiate instruction based on multiple kinds of assessments of learning in English language arts (e.g., students' self-assessments, formal assessments, informal assessments); candidates communicate with students about their performance in ways that actively involve students in their own learning.

Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Performance

1. Candidates plan instruction which, when appropriate, reflects curriculum integration and incorporates interdisciplinary teaching methods and materials which includes reading, writing, speaking, listening, and language.
2. Candidates plan standards-based, coherent and relevant learning experiences in reading that reflect knowledge of current theory and research about the teaching and learning of reading and that utilize individual and collaborative approaches and a variety of reading strategies.
3. Candidates use their knowledge of theory, research, and practice in English Language Arts to plan standards-based, coherent and relevant composing experiences that utilize individual and collaborative approaches and contemporary technologies and reflect an understanding of writing processes and strategies in different genres for a variety of purposes and audiences.
4. Candidates use their knowledge of theory, research, and practice in English Language Arts to plan standards-based, coherent and relevant learning experiences utilizing a range of different texts—across genres, periods, forms, authors, cultures, and various forms of media—and instructional strategies that are motivating and accessible to all students, including English language learners, students with special needs, students from diverse language and learning backgrounds, those designated as high achieving, and those at risk of failure.

Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Performance

1. Candidates plan and implement instruction based on ELA curricular requirements and standards, school and community contexts by selecting, creating, and using a variety of instructional strategies and resources specific to effective literacy instruction, including contemporary technologies and digital media., and knowledge about students' linguistic and cultural backgrounds.

Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Performance

1. Candidates model literate and ethical practices in ELA teaching, and engage in a variety of experiences related to ELA and reflect on their own professional practices.

Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Performance

1. Candidates engage in and reflect on a variety of experiences related to ELA that demonstrate understanding of and readiness for leadership, collaboration, ongoing professional development, and community engagement.

Idaho Standards for Gifted and Talented Education Professionals

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Gifted and Talented Education Professional Standards are widely recognized, but not all-encompassing or absolute indicators that candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

The Idaho Standards for Gifted and Talented Education Professionals incorporate the National Association for Gifted Children (NAGC) and the Council for Exceptional Children (CEC) Gifted Educator Preparation Standards (2014).

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, his/her content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

** This language was written by a committee of content experts in 2013, and has been adopted verbatim.*

Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1. Beginning gifted education professionals understand the variations in learning and development between and among individuals with exceptionalities.
2. Beginning gifted education professionals understand the social and emotional issues of individuals with gifts and talents (e.g., perfectionism, underachievement, risk taking, and asynchronous development).
3. Beginning gifted education professionals understand the theories related to the highly sensitive nature of individuals with gifts and talents.
4. Beginning gifted education professionals understand the moral and ethical challenges of individuals with gifts and talents.

5. Beginning gifted education professionals understand the need for appropriate social and emotional counseling of individuals with gifts and talents.
6. Beginning gifted education professionals understand the common misconceptions, myths and stereotypes about individuals with gifts and talents.

Performance

1. Beginning gifted education professionals demonstrate their knowledge of variations in learning and development between and among individuals with gifts and talents by creating meaningful and challenging learning experiences.
2. Beginning gifted education professionals identify, evaluate, develop, and implement strategies and resources to address the social and emotional needs of individuals with gifts and talents.
3. Beginning gifted education professionals engage students in learning opportunities that develop moral and ethical dispositions.
4. Beginning gifted education professionals advocate for individuals with gifts and talents by debunking common misconceptions, myths and stereotypes associated with giftedness.

Supporting Explanation for Standard 1:

From its roots, gifted educators have placed the learning needs of the individual at the center of gifted education instruction. Gifted educators have altered instructional variables to optimize learning for individuals with gifts and talents. Development of expertise begins with a thorough understanding of and respect for similarities and differences in all areas of human growth and development. Like all educators, beginning gifted educators first respect individuals with gifts and talents within the context of human development and Individual learning differences. Not only do beginning gifted educators understand advanced developmental milestones of individuals with gifts and talents from early childhood through adolescence, but they also understand how exceptionalities can interact with development and learning, and modify developmentally appropriate learning environments to provide relevant, meaningful, and challenging learning experiences for individuals with gifts and talents.

Standard 2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

1. Beginning gifted education professionals understand how language, culture, economic status, family background, age, gender, learning disabilities, and other disabilities can influence the learning of individuals with gifts and talents.

Performance

1. Beginning gifted education professionals identify and provide appropriate differentiated curriculum that targets individual students' needs with respect to an individual's high performing capabilities in intellectual, creative, specific academic, leadership areas, or ability in the performing or visual arts.
2. Beginning gifted education professionals use understanding of development and individual differences to respond to the needs of individuals with gifts and talents.

Supporting Explanation for Standard 2:

Beginning gifted educators understand the variation in characteristics between and among individuals with and without gifts and talents. They know exceptionalities can interact with multiple domains of human development to influence an individual's learning in school, community, and throughout life. Moreover, they understand that the beliefs, traditions, and values across and within cultures can influence relationships among and between students, their families, and the school community. Furthermore, these experiences of individuals with exceptionalities can influence the individual's ability to learn, interact socially, and live as fulfilled contributing members of the community.

Beginning gifted educators are active and resourceful in seeking to understand how primary language, culture, family, and learning disabilities interact with the individual's gifts and talents to influence academic and social abilities, attitudes, values, interests, and career and post-secondary options.

These learning differences and their interactions provide the foundation upon which beginning gifted educators differentiate instruction, create adaptations and instructional support in order to provide developmentally meaningful and challenging learning for individuals with exceptionalities.

Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. Beginning gifted education professionals understand the elements of safe, inclusive, and culturally responsive learning environments so that individuals with gifts and talents become active and effective learners and develop emotional well-being, positive social interactions, independence, and self-advocacy.

Performance

1. Beginning gifted education professionals collaborate with general educators and other colleagues to create safe, inclusive, culturally responsive learning environments that engage individuals with gifts and talents in meaningful learning activities and social interactions. They take into account individual abilities and needs and develop emotional well-being, positive social interactions, independence, and self-advocacy.

2. Beginning gifted education professionals use communication and motivational and instructional interventions to facilitate understanding of subject matter and to teach individuals with gifts and talents how to adapt to different environments and develop leadership skills.
3. Beginning gifted education professionals match their communication methods to an individual's language proficiency and cultural and linguistic differences.

Supporting Explanation for Standard 3:

Like all educators, beginning gifted educators develop safe, inclusive, culturally responsive learning environments for all students. They also collaborate with colleagues in general education and other specialized environments that develop students' gifts and talents, engaging them in meaningful learning activities that enhance independence, interdependence, and positive peer-relationships.

Beginning gifted educators modify learning environments for individual needs. Knowledge regarding an individual's language, family, culture, and other significant contextual factors and how they interact with an individual's gifts and talents guides the beginning gifted educator in modifying learning environments and providing for the maintenance and generalization of acquired skills across environments and subjects. They match their communication methods to an individual's language proficiency and cultural and linguistic differences, avoiding discrimination and stereotyping.

Beginning gifted educators structure environments to encourage self-awareness, self-efficacy, self-direction, personal empowerment, leadership, and self-advocacy of individuals with gifts and talents and directly teach them to adapt to the expectations and demands of differing environments.

Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. Beginning gifted education professionals understand the central concepts and structures of the disciplines and tools of inquiry related to the various academic content areas they teach or support.

Performance

1. Beginning gifted education professionals organize content knowledge, integrate cross – disciplinary skills, and develop meaningful learning progressions to help individuals with gifts and talents in academic subject matter and specialized content domains.

Supporting Explanation for Standards 4 & 5:

The professional knowledge base in general education has made clear that the educators' understanding of the central concepts and structures of the discipline and tools of inquiry related to the academic subject- matter content areas they teach makes a significant difference in student learning. There is good reason to generalize this conclusion to gifted educators.

Within the general curricula, beginning gifted educators demonstrate in their planning and teaching, a solid base of understanding of the theories, central concepts and principles, structures of the discipline, and tools of inquiry of the academic subject-matter content areas they teach so they are able to organize knowledge, integrate cross-disciplinary skills, develop meaningful learning progressions and collaborate with educators in:

- Using assessments to select, adapt, and create materials to differentiate instructional strategies and general and specialized curricula to challenge individuals with gifts and talents.
- Teaching the content of the general or specialized curriculum to individuals with gifts and talents across a wide range of advanced performance levels.
- Designing appropriate learning and performance modifications for individuals with gifts and talents in academic subject matter and specialized content domains that incorporate advanced, conceptually challenging, in-depth, distinctive, and complex content.

Additionally, beginning gifted educators use a variety of specialized curricula to individualize meaningful and challenging learning for individuals with exceptionalities.

Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

1. Beginning gifted education professionals understand general and specialized curriculum models to create advanced, conceptually challenging, in-depth, distinctive, and complex learning experiences across a wide range of advanced knowledge and performance levels.
2. Beginning gifted education professionals understand the responsibility of School Districts outlined in Idaho Code 33-2003, as well as the definition of Gifted/Talented Children defined in Idaho Code 33-2001-04 with respect to high performing capabilities in intellectual, creative, specific academic or leadership areas, or ability in the performing or visual arts.

Performance

1. Beginning gifted education professionals implement general and specialized curriculum to create advanced, conceptually challenging, in-depth, distinctive, and complex learning experiences across a wide range of advanced knowledge and performance levels.

2. Beginning gifted education professionals implement the components of Idaho Codes 33-2001-04 and 33-2003 with respect to individuals with high performing capabilities in intellectual, creative, specific academic or leadership areas, or ability in the performing or visual arts.

Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

1. Beginning gifted education professionals understand the appropriate use and limitations of various types of assessments.
2. Beginning gifted education professionals understand how to select and use technically sound formal and informal assessments that minimize bias.

Performance

1. Beginning gifted education professionals use pre-assessment and formative/summative assessments. They select, adapt, and create materials to differentiate strategies and create curricula that challenges and ensures growth of individuals with gifts and talents
2. Beginning gifted education professionals conduct and analyze formal and informal assessments of learning and achievement related to gifted and talented referral/nomination, identification, program planning, and other services for individuals with gifts and talents
3. Beginning gifted education professionals use assessment data to foster and document sustained growth over time of individuals with gifts and talents
4. Beginning gifted education professionals use various types of assessment data to collaborate with families and colleagues to assure appropriate, non-biased, and meaningful assessment to develop long- and short-range goals and objectives
5. Beginning gifted education professionals engage individuals with gifts and talents in assessing the quality of their own learning and performance and in providing feedback to guide them in setting future goals and objectives.

Supporting Explanation for Standard 6:

Like all educators, beginning gifted educators understand measurement theory and practice for addressing issues of validity, reliability, norms, bias, and interpretation of assessment results. Beginning gifted educators understand the policies and ethical principles of measurement and assessment related to gifted education referral/nomination, identification, planning, differentiated instruction, learning progress, and services for individuals with gifts and talents, including individuals from culturally and linguistically diverse backgrounds.

Beginning gifted educators understand the appropriate use and limitations of various types of assessments and collaborate with families and other colleagues to assure nonbiased, meaningful assessments and decision-making.

Beginning gifted educators select and use assessment information to support a wide variety of decisions within gifted education. They conduct formal and informal assessments of behavior, learning, achievement, and environments to differentiate the learning experiences and document the growth and development of individuals with gifts and talents. Moreover, they differentiate assessments to identify above level performances and to accelerate and enrich the general curriculum. Beginning gifted educators use available technologies routinely to support their assessments and employ alternative assessments such as performance-based assessment, portfolios, and computer simulations.

Using these data, beginning gifted educators make multiple types of assessment decisions including strategic adaptations and modifications in response to an individuals' constellation of social, linguistic, and learning factors in ways to minimize bias. They also use the results of assessments to develop long- range instructional plans anchored in both general and specialized curricula, and they translate these plans into carefully selected shorter-range goals and objectives to differentiate instruction. Moreover, beginning gifted educators engage individuals with gifts and talents in assessing the quality of their own learning and performance and in providing feedback to guide them in setting future goals and objectives.

Like their general education colleagues, beginning gifted educators regularly monitor the learning progress of individuals with gifts and talents in both general and specialized content and make instructional adjustments based on these data.

Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

1. Beginning gifted education professionals understand the rationale, history, philosophies, theories, definitions, and models of gifted and talented education.
2. Beginning gifted education professionals know principles of evidence-based practice and possess a repertoire of instructional strategies to enhance critical and creative thinking, problem-solving, and performance skills of individuals with gifts and talents.
3. Beginning gifted education professionals understand curriculum design that includes content, process, product, and learning environment to differentiate instruction to meet the needs of individuals with gifts and talents.
4. Beginning gifted education professionals understand how to develop curriculum in the five mandated areas: intellectual, creative, specific academic, leadership, and visual/performing arts.

Performance

1. Beginning gifted education professionals select and utilize a repertoire of evidence-based curriculum and instructional strategies to advance the learning of individuals with gifts and talents.
2. Beginning gifted education professionals use technologies to support assessment, planning, and delivery of instruction for individuals with gifts and talents.
3. Beginning gifted education professionals collaborate with families and professional colleagues in selecting, adapting, and using evidence-based strategies to promote challenging learning opportunities in general and specialized curricula.

Supporting Explanation for Standard 7:

In the selection, development, and adaptation of learning experiences for individuals with gifts and talents, beginning gifted educators consider an individual's abilities, interests, learning environments and cultural and linguistic factors to promote positive learning results in general and special curricula. Understanding these factors and curriculum models, as well as the implications of being gifted and talented, guides the educator's development of scope and sequence plans; selection, adaptation and creation of learning activities; and use of differentiated evidence-based instructional strategies.

Moreover, beginning gifted educators facilitate these actions in a collaborative context that includes individuals with gifts and talents, families, professional colleagues, and personnel from other agencies as appropriate. They are familiar with alternative and augmentative communication systems and are comfortable using technologies to support language and communication, instructional planning and individualized instruction for individuals with exceptionalities.

Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

1. Beginning gifted education professionals understand a variety of differentiated instructional strategies to advance individuals with gifts and talents.

Performance

1. Beginning gifted education professionals use and adapt a repertoire of evidence-based curriculum and instructional strategies to advance the learning of individuals with gifts and talents.
2. Beginning gifted education professionals use technologies to support instruction for individuals with gifts and talents

3. Beginning gifted education professionals emphasize the development, practice, and transfer of advanced knowledge and skills leading individuals with gifts and talents to become creative and productive citizens.
4. Beginning gifted education professionals use curriculum design that includes content, process, product, and learning environment to address the needs of individuals with gifts and talents.
5. Beginning gifted education professionals develop and deliver curriculum in five mandated areas: intellectual, creative, specific academic, leadership, and visual/performing arts.

Supporting Explanation for Standard 8:

Beginning gifted educators possess a repertoire of evidence-based strategies to differentiate and accelerate the curriculum for individuals with gifts and talents. They select, adapt, and use these strategies to promote challenging learning opportunities in general and special curricula and to modify learning environments to enhance self-awareness and self-efficacy for individuals with gifts and talents. They enhance 21st Century student outcomes such as critical and creative thinking, problem solving, collaboration, and performance skills in specific domains and allow individuals with gifts and talents opportunities to explore, develop or research their areas of interest or talent. Beginning gifted educators also emphasize the development, practice, and transfer of advanced knowledge and skills across environments throughout the lifespan leading to creative, productive careers in society for individuals with gifts and talents.

Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to evaluate continually his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

1. Beginning gifted education professionals understand how foundational knowledge, perspectives, and current issues influence professional practice and the education and treatment of individuals with gifts and talents, both in school and society.
2. Beginning gifted education professionals are aware of their own professional development needs and understand the significance of lifelong learning.

Performance

1. Beginning gifted education professionals use foundational knowledge of the field and their professional Ethical Principles and Program Standards to inform gifted education practice, to engage in lifelong learning, and to advance the profession.
2. Beginning gifted education professionals model respect for diversity, understanding that diversity is a part of families, cultures, and schools, and that complex human issues can interact with identification of individuals with gifts and talents and the delivery of gifted services.

3. Beginning gifted education professionals advance the gifted education profession through participation in professional activities, learning communities, advocacy, and mentoring.

Supporting Explanation for Standard 9:

Beginning gifted educators practice in multiple roles and complex situations across wide age and developmental ranges requiring ongoing attention to legal matters and serious consideration of professional and ethical issues. Ethical principles and Program Standards guide beginning gifted educators. These principles and standards provide benchmarks by which gifted educators practice and evaluate one another professionally.

Beginning gifted educators understand gifted education as an evolving and changing discipline based on philosophies, evidence-based principles and theories, policies, and historical points of view that continue to influence the field of gifted education and the education of and services for individuals with gifts and talents and their families in both school and society. Beginning gifted educators understand how these factors influence professional practice including assessment, instructional planning, services, and program evaluation.

Beginning gifted educators are sensitive to the aspects of diversity relating to individuals with gifts and talents and their families, how human diversity can influence families, cultures, and schools, and how these complex issues can each interact with the delivery of gifted education services. Of special significance is the growth in the number and prevalence of English Language Learners (ELL) and the provision of effective gifted education services for ELL with exceptionalities and their families.

Beginning gifted educators also understand the relationships of the organization of gifted education services to the organization of schools, school systems, and education-related agencies within the country and cultures in which they practice. They are aware of how their own and others' attitudes, behaviors, and ways of communicating can influence their practice, and use this knowledge as a foundation to inform their own personal understandings and philosophies of special education.

Beginning gifted educators engage in professional activities and participate actively in professional learning communities that benefit individuals with gifts and talents, their families, colleagues, and their own professional growth. They view themselves as lifelong learners and regularly reflect on and adjust their practice, and develop and use personalized professional development plans. They plan and engage in activities that foster their professional growth and keep them current with evidence-based practices and know how to recognize their own skill limits and practice within them.

Moreover, educators of the gifted embrace their special role as advocate for individuals with gifts and talents. They promote and advocate for the learning and wellbeing of individuals with gifts and talents across settings and diverse learning experiences.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

1. Beginning gifted education professionals understand the theory and elements of effective collaboration.
2. Beginning gifted education professionals understand the components of a district plan for individuals with gifts and talents, including philosophy, definitions, goals, program options, identification procedures, and evaluation; how to develop a district plan; and the array of program options and services available for individuals with gifts and talents.
3. Beginning gifted education professionals understand effective implementation and evaluation of gifted and talented programs.

Performance

1. Beginning gifted education professionals collaborate with families, other educators and related service providers, individuals with gifts and talents, and personnel from community agencies in culturally responsive ways to address the needs of individuals with gifts and talents across a range of learning experiences.
2. Beginning gifted education professionals serve as a collaborative resource to colleagues.
3. Beginning gifted education professionals educate parents, other family members, and colleagues about the social and emotional needs and development of gifted and talented students.
4. Beginning gifted education professionals use collaboration to promote the well-being of individuals with gifts and talents across a wide range of settings and collaborators.
5. Beginning gifted education professionals use a variety of technologies and techniques to facilitate learning and communication.
6. Beginning gifted education professionals educate colleagues, parents/guardians, and others about the common misconceptions, myths, stereotypes, and controversial issues related to gifted and talented education.
7. Beginning gifted education professionals identify and implement extension and acceleration options for individuals with gifts and talents.
8. Beginning gifted education professionals match student needs with appropriate program options and services.

Supporting Explanation for Standard 10:

One of the significant changes in education over the past several decades is the rapid growth of collaborative educational teams to address the educational needs of students. The diversity of the students, complexity of curricular demands, growing influence of technology, and the rising targets for learning outcomes in the 21st century has created the demand for teams of educators collaborating together to ensure all students are effectively learning challenging curricula.

Beginning gifted educators embrace their role as a resource to colleagues and use the theory and elements of collaboration across a wide range of contexts and collaborators.

They collaborate with their general education and other special education colleagues to create learning environments that meaningfully include individuals with gifts and talents, and that foster cultural understanding, safety and emotional wellbeing, positive social interactions, and active engagement. Additionally, beginning gifted educators use collaboration to facilitate differentiated assessment and instructional planning to advance learning of individuals with gifts and talents across a wide range of settings and different learning experiences. They routinely collaborate with other educators in developing mentorships, internships, and vocational programming experiences to address the needs of individuals with gifts and talents.

Gifted educators have long recognized the positive significance of the active involvement of individuals with gifts and talents and their families in the education process, and gifted educators involve individuals with gifts and talents and their families collaboratively in all aspects of the education of individuals with gifts and talents.

Glossary

General Curricula:

As used “general curricula,” means the academic content of the general curricula including math, reading, English/language arts, science, social studies, and the arts.

Specialized Curricula:

As used “specialized curricula,” means the content of specialized interventions or sets of interventions including but not limited to academic, strategic, communicative, social, emotional, and independent research curricula.

Special Education Services:

Special education services are personalized, i.e. individualized, services that appropriately credentialed gifted educators provide directly or indirectly to individuals with exceptionalities.

Individuals with Exceptionalities:

Individuals with exceptionalities include individuals with sensory, physical, emotional, social, cognitive differences, developmentally delays, exceptional gifts and talents; and individuals who are or have been abused or neglected; whose needs differ so as to require personalized special education services in addition to or in tandem with educational services available through general education programs and other human service delivery systems.

Instructional Strategies:

Instructional strategies as used throughout this document include interventions used in academic and specialized curricula.

Idaho Standards for Health Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Health Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

** This language was written by a committee of content experts and has been adopted verbatim.*

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

~~*Standard 5: Classroom Motivation and Management Skills – The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*~~

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher understands developmentally appropriate practices that ~~motivate~~engage students ~~to participate~~ in health-enhancing behaviors.
2. The teacher knows strategies ~~and techniques that develop positive health behavior changes in students~~ to help students develop the essential skills necessary to adopt, practice, and maintain health-enhancing behaviors (National Health Education Standards, 2nd Edition- American Cancer Society).

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Performance

1. The teacher ~~motivates~~ encourages students to ~~participate~~ incorporate positive health-enhancing behaviors inside and outside the school setting.
2. The teacher helps students learn and use personal and social behaviors that promote positive relationships (e.g., avoiding abusive relationships, using refusal skills, setting life goals, and making healthy decisions).

~~*Standard 1: Knowledge of Subject Matter – The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught, and creates learning experiences that make these aspects of subject matter meaningful for students.*~~

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The teacher understands Elementary and Secondary methods for teaching health literacy ~~and to include~~ the following content areas of health: ~~fitness and personal health; health promotion and disease prevention; prevention and care of injuries; mental and emotional health; aAlcohol, tTobacco, and & oOther dDrugs; nNutrition & Physical Activity; relationships; growth, development, and family health; consumer health; health literacy; and Injury Prevention & Safety; Mental, Emotional & Social Health; Prevention & Control of Disease; Consumer & eCommunity Health; Growth, Development & Family Life; and eEnvironmental hHealth.~~
2. The teacher understands the following health risk behaviors: ~~tTobacco, aAlcohol, and oOther dDrug use; Sexually Transmitted Diseases (STDs), including sexual behaviors that resulting in human immunodeficiency virus (HIV)–infection, other sexually transmitted diseases (STDs), and unplanned pregnancies; pPoor dDietary bBehaviors; lLack of or eExcessive pPhysical aActivity; and bBehaviors that resulting in iIntentional iInjury.~~
3. The teacher understands the relationship between health education content areas and youth risk behaviors.
4. The teacher understands ~~the concepts and components of coordinated school health, an approach where partnerships are developed within the school and community (components of coordinated school health: school environment, health education, school meals and nutrition, physical education, health services, counseling and mental health services, staff wellness, and parent/community partnerships) how to implement Common Core State Standards for Literacy in Technical Subjects (Health) for grades 6-12.~~
5. The teacher understands ~~that health is multidimensional (e.g., physical, intellectual, emotional, social, cultural, spiritual, and environmental)~~ Elementary and Secondary methods

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

for teaching Health Skills to include: Analyzing Influences; Accessing Information; Interpersonal Communication; Decision Making; Goal Setting; Practicing Health Behaviors; and Advocacy.

Performance

1. The teacher instructs students about increasing health-enhancing behaviors, ~~and about~~ resulting in the reduction of health-risk behaviors.

~~*Standard 2: Knowledge of Human Development and Learning – The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*~~

~~*Standard 3: Modifying Instruction for Individual Needs – The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.*~~

~~*Standard 4: Multiple Instructional Strategies – The teacher understands and uses a variety of instructional strategies to develop student learning.*~~

~~*Standard 6: Communication Skills – The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.*~~

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

1. The teacher ~~understands~~ recognizes that student jargon and slang associated with high-risk behaviors is ever changing.

Performance

1. The teacher identifies and defines student jargon/~~and~~ slang associated with high-risk behaviors and translates ~~these terms~~ this jargon/slang into terms inology appropriate to the educational setting.
2. The teacher facilitates responsible decision making, goal setting, and alternatives to high-risk behaviors that enhance health.
3. The teacher creates a respectful and safe learning environment that is sensitive to controversial health issues.
4. ~~The teacher applies techniques that aid in addressing sensitive issues (e.g., ground rules, question boxes, open-ended questions, and establishment of appropriate confidentiality).~~
5. ~~The teacher demonstrates the ability to use interpersonal communication skills to enhance health.~~

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

~~Standard 7: Instructional Planning Skills – The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.~~

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

1. The teacher understands ~~the differing~~ how positive evidence based community health values and practices play a role in the planning process.
2. The teacher understands how to access valid, appropriate health information and health-promoting products and services, as it relates to the planning process.
3. The teacher understands the influence of culture, media, technology, and other factors on health, as it relates to the planning process.
4. The teacher knows when and how to access valid health resources and collaborate with others to support student learning (e.g., special educators, related service providers, language learner specialists, librarians, media specialists, community organizations).

Performance

1. The teacher modifies instruction to reflect current health-related research and local health policies.
2. The teacher accesses valid, appropriate health information and health-promoting products and services.
3. The teacher analyzes the influence of culture, media, technology, and other factors on health and imbeds them in the planning process.

~~Standard 8: Assessment of Student Learning – The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.~~

Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

~~*Standard 9: Professional Commitment and Responsibility – The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*~~

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

1. The teacher knows the laws and codes specific to health education and health services to minors.

Performance

1. The teacher uses appropriate interventions following the identification, disclosure, or suspicion of student involvement in a high-risk behavior.

~~*Standard 10: Partnerships – The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.*~~

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

1. The teacher understands methods of advocating for personal, family, and community health (e.g., letters to editor, community service projects, health fairs, ~~and~~ health races/walks).

Performance

1. The teacher ~~demonstrates the ability to advocate for personal, family, and community health~~ advocates for a positive school culture toward health and health education.
(<http://www.shapeamerica.org/standards/health/>)
2. ~~The teacher works collaboratively to assess resources and advocate for a coordinated school health education program.~~

Idaho Standards for Literacy Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Literacy Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

Performance

1. Demonstrate knowledge of developmental progressions for reading and writing and how these interface with assessment and instruction to meet diverse needs of students.

Standard 2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

Performance

1. Model fair-mindedness, empathy, and ethical behavior when teaching students and working with other professionals.
2. Demonstrate an understanding of the ways in which diversity influences the reading and writing development of students, especially those who struggle to acquire literacy skills and strategies.
3. Provide students with linguistic, academic, and cultural experiences that link their communities with the school.
4. Adapt instructional materials and approaches to meet the language-proficiency needs of English learners and students who struggle to acquire literacy skills and strategies.

Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

Performance

1. Arrange instructional areas to provide easy access to books and other instructional materials for a variety of individual, small-group, and whole-class activities and support teachers in doing the same.
2. Modify the arrangements to accommodate students’ changing needs.
3. Create supportive social environments for all students, especially those who struggle to acquire literacy skills and strategies.
4. Create supportive environments where English learners are encouraged and given many opportunities to use English.
5. Understand the role of routines in creating and maintaining positive learning environments for reading and writing instruction using traditional print, digital, and online resources.
6. Create effective routines for all students, especially those who struggle to acquire literacy skills and strategies.

Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

Performance

1. Interprets major theories of reading and writing processes and development to understand the needs of all readers in diverse contexts.
2. Analyzes classroom environment quality for fostering individual motivation to read and write (e.g., access to print, choice, challenge, and interests).
3. Reads and understands the literature and research about factors that contribute to reading success (e.g., social, cognitive, and physical).
4. Demonstrates knowledge of and a critical stance toward a wide variety of quality traditional print, digital, and online resources.
5. Demonstrates knowledge of variables of text complexity and use them in the analysis of classroom materials.
6. Demonstrates knowledge of literacy skills and strategies demanded for online reading, comprehension and research.
7. Demonstrates knowledge of the key concepts of literacy components and their interconnections as delineated in the Idaho Content Standards to include, but may not be limited to; Reading (Reading for Literature , Reading for Informational text, and Reading Foundational Skills) based on grade level appropriateness and developmental needs of student(s) being addressed, Writing, Speaking and Listening, and Language.

Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

Knowledge

1. Understands how literacy (reading and writing) occurs across all subject disciplines

Performance

1. Plans instruction addressing content area literacy according to local, state, and/or national standards.

2. Uses digital resources appropriately to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.
3. Incorporates all aspects of literacy across content areas for instructional planning.

Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

*For the purposes of these standards, the term "literacy" includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

Performance

1. Demonstrate an understanding of the literature and research related to assessments and their uses and misuses.
2. Demonstrate an understanding of established purposes for assessing the performance of all readers, including tools for screening, diagnosis, progress monitoring, and measuring outcomes.
3. Recognize the basic technical adequacy of assessments (e.g., reliability, content, and construct validity).
4. Explain district and state assessment frameworks, proficiency standards, and student benchmarks.
5. Administer and interpret appropriate assessments for students, especially those who struggle with reading and writing.
6. Use multiple data sources to analyze individual readers' performance and to plan instruction and intervention.
7. Analyze and use assessment data to examine the effectiveness of specific intervention practices and students' responses to instruction.
8. Demonstrate the ability to communicate results of assessments to teachers and parents.

Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

*For the purposes of these standards, the term "literacy" includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards

Performance

1. Demonstrate an understanding of the research and literature that undergirds literacy instruction for all pre-K–12 students including the range of text types recommended by the Idaho Content Standards.
2. Develop and implement the curriculum to meet the specific needs of students who struggle with reading literacy.
3. Provide differentiated instruction and instructional materials, including traditional print, digital, and online resources that capitalize on diversity.
4. Develop instruction anchored in the concepts of text complexity that is developmentally appropriate, with special attention to struggling literacy learners and diverse learners.
5. Develop instruction that includes rich and diverse experiences in digital environments to help all learners, especially struggling readers/writers, to be successful in New Literacies.

Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards

Performance

1. Selects and modifies instructional strategies, approaches, and routines based on professional literature and research.
2. Provide appropriate in-depth instruction for all readers and writers, especially those who struggle with reading and writing.
3. As needed, adapt instructional materials and approaches to meet the language-proficiency needs of English learners and students who struggle to learn to read and write.
4. Use a variety of grouping practices to meet the needs of all students, especially those who struggle with reading and writing.

Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards

Performance

1. Promote the value of reading and writing in and out of school by modeling a positive attitude toward reading and writing with students, colleagues, administrators, and parents and guardians.
2. Demonstrate effective use of technology for improving student learning.

Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards Performance

Performance

1. Demonstrate the ability to hold effective conversations (e.g., for planning and reflective problem solving) with individuals and groups of teachers, work collaboratively with teachers and administrators.
2. Demonstrate an understanding of local, state, and national policies that affect reading and writing instruction.
3. Collaborate with others to build strong home-to-school and school-to-home literacy connections.

Idaho Standards for Mathematics Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Mathematics Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

**This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of mathematics and creates learning experiences that make these aspects of mathematics meaningful for learners.

Knowledge

1. The teacher knows a variety of problem-solving approaches for investigating and understanding mathematics.
2. The teacher understands concepts of algebra.
3. The teacher understands the major concepts of geometry (Euclidean and non- Euclidean) and trigonometry.
4. The teacher understands basic concepts of number theory and number systems.
5. The teacher understands concepts of measurement.
6. The teacher understands the concepts of limit, continuity, differentiation, integration, and the techniques and application of calculus.
7. The teacher understands the techniques and applications of statistics, data analysis, and probability (e.g., random variable and distribution functions).

8. The teacher knows how to effectively evaluate the legitimacy of alternative algorithms.
9. The teacher understands the historical and cultural significance of mathematics and the changing ways individuals learn, teach, and do mathematics.

Performance

1. The teacher incorporates the historical perspective and current development of mathematics in teaching students.
2. The teacher applies appropriate and correct mathematical concepts in creating learning experiences.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn mathematics and develop mathematical thinking, and provides opportunities that support their intellectual, social, and personal development.

Knowledge

1. The teacher knows how to make use of students' mathematical development, knowledge, understandings, interests, and experiences.
2. The teacher knows how to plan learning activities that respect and value students' ideas, ways of thinking, and mathematical dispositions.

Performance

1. The teacher encourages students to make connections and develop a cohesive framework for mathematical ideas.
2. The teacher plans and delivers learning activities that respect and value students' ideas, ways of thinking, and promotes positive mathematical dispositions.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning mathematics and creates instructional opportunities that are adapted to learners with diverse needs.

Knowledge

1. The teacher knows how to create tasks at a variety of levels of mathematical development, knowledge, understanding, and experience.

Performance

1. The teacher assists students in learning sound and significant mathematics and in developing a positive disposition toward mathematics by adapting and changing activities as needed.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.

Knowledge

1. The teacher knows how to formulate or access tasks that elicit students' use of mathematical reasoning and problem-solving strategies.
2. The teacher knows a variety of instructional strategies for investigating and understanding mathematics including problem-solving approaches.
3. The teacher understands the role of axiomatic systems and proofs in different branches of mathematics as it relates to reasoning and problem solving.
4. The teacher knows how to frame mathematical questions and conjectures.
5. The teacher knows how to make mathematical language meaningful to students.
6. The teacher understands inquiry-based learning in mathematics.
7. The teacher knows how to communicate concepts through the use of mathematical representations (e.g., symbolic, numeric, graphic, verbal, and concrete models).
8. The teacher understands the appropriate use of technology in teaching and learning of mathematics (e.g., graphing calculators, dynamic geometry software, and statistical software)

Performance

1. The teacher formulates or accesses tasks that elicit students' use of mathematical reasoning and problem-solving strategies.
2. The teacher uses a variety of instructional strategies to support students in investigating and understanding mathematics, including problem-solving approaches.
3. The teacher uses and involves students in both formal proofs and intuitive, informal exploration.
4. The teacher uses a variety of instructional strategies to develop students' use of standard mathematical terms, notations, and symbols.
5. The teacher uses and encourages the students to use a variety of representations to communicate mathematically.
6. The teacher engages students in mathematical discourse by encouraging them to make conjectures, justify hypotheses and processes, and use appropriate mathematical representations.

7. The teacher uses and involves students in the appropriate use of technology to develop students' understanding (e.g., graphing calculators, dynamic geometry software, and statistical software).

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques including verbal, nonverbal, and media to foster mathematical inquiry, collaboration, and supportive interaction in and beyond the classroom.

Knowledge

1. The teacher knows and uses appropriate mathematical vocabulary/terminology.

Performance

1. The teacher encourages students to use appropriate mathematical vocabulary/terminology.
2. The teacher fosters mathematical discourse.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Knowledge

1. The teacher knows how to assess students' mathematical reasoning.

Performance

1. The teacher assesses students' mathematical reasoning.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Standard 11: Connections among Mathematical Ideas - The teacher understands significant connections among mathematical ideas and the application of those ideas within mathematics, as well as to other disciplines.

Knowledge

1. The teacher has a broad base of knowledge and understanding of mathematics beyond the level at which he or she teaches to include algebra, geometry and measurement, statistics and data analysis, and calculus.
2. The teacher understands the interconnectedness between strands of mathematics.
3. The teacher understands a variety of real-world applications of mathematics.

Performance

1. The teacher uses and encourages students to use mathematical applications to solve problems in realistic situations from other fields (e.g. natural science, social science, business, and engineering).
2. The teacher encourages students to identify connections between mathematical strands.
3. The teacher uses and encourages students to use mathematics to identify and describe patterns, relationships, concepts, processes, and real-life constructs.

Idaho Standards for Online Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the K-12 Online Teacher Standards are widely recognized, but not all-encompassing or absolute indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The characteristics of online instruction can be vastly different from teaching in traditional face-to-face environments. Online schools and programs serving K-12 students should be structured to support the unique needs of students and teachers in online environments. The Online Teacher Standards are aligned to the Idaho Core Teacher Standards. These standards reflect the principles of Universal Design related to technology. (Universal design is “the design of products and environments to be usable by all people, to the greatest extent possible, without the need for adaptation or specialized design’.)

** This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Knowledge of Online Education - The online teacher understands the central concepts, tools of inquiry, and structures in online instruction and creates learning experiences that take advantage of the transformative potential in online learning environments.

Knowledge

1. The online teacher understands the current standards for best practices in online teaching and learning.
2. The online teacher understands the role of online teaching in preparing students for the global community of the future.
3. The online teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the field of online teaching and learning.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

4. The online teacher understands the relationship between online education and other subject areas and real life situations.
5. The online teacher understands the relationship between online teaching and advancing technologies.
6. The online teacher understands appropriate uses of technologies to promote student learning and engagement with the content.
7. The online teacher understands the instructional delivery continuum. (e.g., fully online to blended to face-to-face).

Performance

1. The online teacher utilizes current standards for best practices in online teaching to identify appropriate instructional processes and strategies.
2. The online teacher demonstrates application of communication technologies for teaching and learning (e.g., Learning Management System [LMS], Content Management System [CMS], email, discussion, desktop video conferencing, and instant messaging tools).
3. The online teacher demonstrates application of emerging technologies for teaching and learning (e.g., blogs, wikis, content creation tools, mobile technologies, virtual worlds).
4. The online teacher demonstrates application of advanced troubleshooting skills (e.g., digital asset management, firewalls, web-based applications).
5. The online teacher demonstrates the use of design methods and standards in course/document creation and delivery.
6. The online teacher demonstrates knowledge of access, equity (digital divide) and safety concerns in online environments.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Performance

1. The online teacher understands the continuum of fully online to blended learning environments and creates unique opportunities and challenges for the learner (e.g., Synchronous and Asynchronous, Individual and Group Learning, Digital Communities).
2. The online teacher uses communication technologies to alter learning strategies and skills (e.g., media literacy, visual literacy).
3. The online teacher demonstrates knowledge of motivational theories and how they are applied to online learning environments.

4. The online teacher constructs learning experiences that take into account students' physical, social, emotional, moral, and cognitive development to influence learning and instructional decisions. {Physical (e.g., Repetitive Use Injuries, Back and Neck Strain); Sensory Development (e.g., Hearing, Vision, Computer Vision Syndrome, Ocular Lock); Conceptions of social space (e.g. Identity Formation, Community Formation, Autonomy); Emotional (e.g., Isolation, cyber-bullying); Moral (i.e., Enigmatic communities, Disinhibition effect, Cognitive, Creativity)}.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.

Knowledge

1. The online teacher is familiar with legal mandates stipulated by the Americans with Disabilities Act (ADA), the Individuals with Disabilities Education Act (IDEA), the Assistive Technology Act and Section 508 requirements for accessibility.

Performance

1. The online teacher knows how adaptive/assistive technologies are used to help people who have disabilities gain access to information that might otherwise be inaccessible.
2. The online teacher modifies, customizes and/or personalizes activities to address diverse learning styles, working strategies and abilities (e.g., provide multiple paths to learning objectives, differentiate instruction, strategies for non-native English speakers).
3. The online teacher coordinates learning experiences with adult professionals (e.g., parents, local school contacts, mentors).

Standard 4: Multiple Instructional Strategies - The online teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.

Knowledge

1. The online teacher understands the techniques and applications of various online instructional strategies (e.g., discussion, student-directed learning, collaborative learning, lecture, project-based learning, forum, small group work).
2. The online teacher understands appropriate uses of learning and/or content management systems for student learning.

Performance

1. The online teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and student needs. (e.g., online teacher-gathered data and student offered feedback).

2. The online teacher uses student-centered instructional strategies to engage students in learning. (e.g., Peer-based learning, peer coaching, authentic learning experiences, inquiry-based activities, structured but flexible learning environment, collaborative learning, discussion groups, self-directed learning, case studies, small group work, collaborative learning, and guided design)
3. The online teacher uses a variety of instructional tools and resources to enhance learning (e.g., LMS/CMS, computer directed and computer assisted software, digital age media).

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Performance

1. The online teacher establishes a positive and safe climate in the classroom and participates in maintaining a healthy environment in the school or program as a whole (e.g., digital etiquette, Internet safety, Acceptable Use Policy [AUP]).
2. The online teacher performs management tasks (e.g., tracks student enrollments, communication logs, attendance records, etc.).
3. The online teacher uses effective time management strategies (e.g., timely and consistent feedback, provides course materials in a timely manner, use online tool functionality to improve instructional efficiency).

Standard 6: Communication Skills, Networking, and Community Building - The online teacher uses a variety of communication techniques including verbal, nonverbal, and media to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.

Knowledge

1. The online teacher knows the importance of verbal (synchronous) as well as nonverbal (asynchronous) communication.

Performance

1. The online teacher is a thoughtful and responsive communicator.
2. The online teacher models effective communication strategies in conveying ideas and information and in asking questions to stimulate discussion and promote higher-order thinking (e.g., discussion board facilitation, personal communications, and web conferencing).
3. The online teacher demonstrates the ability to communicate effectively using a variety of mediums.
4. The online teacher adjusts communication in response to cultural differences (e.g., wait time and authority).

Standard 7: Instructional Planning Skills - The online teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Performance

1. The online teacher clearly communicates to students stated and measurable objectives, course goals, grading criteria, course organization and expectations.
2. The online teacher maintains accuracy and currency of course content, incorporates internet resources into course content, and extends lesson activities.
3. The online teacher designs and develops subject-specific online content.
4. The online teacher uses multiple forms of media to design course content.
5. The online teacher designs course content to facilitate interaction and discussion.
6. The online teacher designs course content that complies with intellectual property rights and fair use standards.

Standard 8: Assessment of Student Learning - The online teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Performance

1. The online teacher selects, constructs, and uses a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, online teacher-made tests, performance tasks, projects, student self-assessment, peer assessment, standardized tests, tests written in primary language, and authentic assessments) to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.
2. The online teacher enlists multiple strategies for ensuring security of online student assessments and assessment data.

Standard 9: Professional Commitment and Responsibility - The online teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of online teaching.

Knowledge

1. The online teacher understands the need for professional activity and collaboration beyond school (e.g., professional learning communities).
2. The online teacher knows how educational standards and curriculum align with 21st century skills.

Performance

1. The online teacher adheres to local, state, and federal laws and policies (e.g., FERPA, AUP's).
2. The online teacher has participated in an online course and applies experiences as an online student to develop and implement successful strategies for online teaching environments.
3. The online teacher demonstrates alignment of educational standards and curriculum with 21st century technology skills.

Standard 10: Partnerships - The online teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and wellbeing.

Idaho Standards for Physical Education Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Physical Education Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

** This language was written by a committee of content experts and has been adopted verbatim.*

~~*Standard 2: Knowledge of Human Development and Learning – The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*~~

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Performance

1. The teacher assesses the ~~individual~~ skillful movement, physical activity, ~~movement~~, and exercise and fitness levels of students; ~~and makes designs~~ developmentally appropriate adaptations to instruction; and extends learning through collaboration with communities, colleagues, families and other professionals.

2. ~~The teacher promotes physical activities that contribute to good health.~~

~~*Standard 3: Modifying Instruction for Individual Needs – The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.*~~

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Performance

1. The teacher provides opportunities that incorporate individual ~~variations~~ differences (e.g., various physical abilities and limitations, culture, and gender) in skillful movement, physical activity, exercise and fitness to help students gain physical competence and confidence.

~~*Standard 5: Classroom Motivation and Management Skills – The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*~~

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher knows how to help students cultivate responsible personal and social behaviors that promote positive relationships and a productive environment in physical education and physical activity settings.
2. The teacher knows ~~strategies to help students become self-motivated in physical education~~ how to engage students in learning about the use of technology operations, concepts, and applications pertinent to healthy active lifestyles (e.g., heart rate monitors, pedometers, global positioning systems, computer software, social media).
3. ~~The teacher understands that individual performance is affected by anxiety.~~
43. The teacher understands principles of effective management in indoor and outdoor ~~movement~~ physical education and physical activity settings.

Performance

1. The teacher implements strategies, ~~lessons~~, and activities to promote positive peer relationships (e.g., caring, mutual respect, support, safety, sportsmanship, and cooperation).
2. The teacher uses strategies to motivate students to participate in physical activity inside and outside the school setting.
3. The teacher utilizes principles of effective management in indoor and outdoor ~~movement~~ physical education and physical activity settings.

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

~~*Standard 1: Knowledge of Subject Matter – The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences*~~

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

~~that make these aspects of subject matter meaningful for learners.~~

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

1. The teacher understands the ~~components of physical fitness and their relationship to a healthy lifestyle~~ relationship between skillful movement, physical activity, exercise, fitness, health outcomes, well-being and quality of life.
2. The teacher understands ~~the sequencing of motor skills (K-12)~~ that daily physical activity provides opportunities for enjoyment, challenge, self-expression, and social interaction.
3. The teacher understands the scientific foundation of physical activity (e.g., motor behavior and development, human anatomy and physiology (structure and function), exercise physiology, and bio-mechanics, principles psychosocial aspects of physical activity).
4. The teacher knows the appropriate rules, etiquette, instructional cues, ~~tactics~~ (skills and strategies) and techniques for a variety of physical education activities (e.g., aquatics, sports, games, lifetime activities, dance, rhythmical activities, and outdoor/adventure activities).
5. The teacher understands ~~that daily physical provides opportunities for enjoyment, challenge, self-expression, and social interaction~~ cultural, historical, and philosophical dimensions of physical education and physical activity.
6. ~~The teacher understands Adaptive Physical Education and how to work with students with special and diverse needs (e.g., various physical abilities and limitations, culture, and gender).~~
7. ~~The teacher understands technology operations and concepts pertinent to physical activity (e.g., heart rate monitors, pedometers, global positioning system).~~

Performance*

1. The teacher instructs students about ~~disciplinary concepts and principles related to the relationship between skillful movement, physical activities, fitness, and movement expression~~ health outcomes, well-being and quality of life.
2. The teacher instructs students in the rules, tactics, (skills, and strategies) and techniques of a variety of physical activities (e.g., aquatics, sports, games, lifelong activities, dance, rhythmical activities, and outdoor/adventure activities).
3. The teacher ~~models a variety of physical education activities (e.g., aquatics, sports, games, lifelong activities, dance, rhythmical activities, and outdoor/adventure activities)~~ instructs students in the scientific foundation of physical activity (e.g., motor behavior and

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

development, human anatomy and physiology, exercise philosophy, biomechanics, psychosocial aspects of physical activity).

4. The teacher models the use of technology operations and concepts pertinent to physical activity (e.g., heart rate monitors, pedometers, global positioning system, and computer software) fosters student reflection regarding cultural, historical and philosophical dimension of physical education and physical activity.
 5. The teacher demonstrates improvement and maintains a health enhancing level of physical fitness and physical activity throughout the program.
 6. The teacher facilitates technical demonstration and effective performance (tactics and techniques), in a variety of physical education activities (e.g., aquatics, sports, games, lifelong activities, dance, rhythmical activities, and outdoor/adventure activities).
- * Without discrimination against those with disabilities, physical education teacher candidates with special needs are allowed and encouraged to utilize a variety of accommodations and/or modifications to demonstrate competent performance concepts (modified/adapted equipment, augmented communication devices, multi-media devices) and fitness (weight training programs, exercise logs).

~~Standard 8: Assessment of Student Learning – The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.~~

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

1. The teacher ~~knows how to select and use a variety of developmentally~~ understands appropriate assessment ~~techniques~~ protocols sensitive to student needs (e.g., authentic, alternative, and traditional) congruent with physical education activity, movement, and fitness goals.

Performance

1. The teacher ~~uses a variety of developmentally~~ demonstrates appropriate assessment ~~protocols sensitive to student needs~~ techniques (e.g., authentic, alternative, and traditional) congruent with physical education activity, movement, and fitness goals.

~~Standard 6: Communication Skills – The teacher uses a variety of communication techniques to foster learning and communication skills.~~

~~Standard 7: Instructional Planning Skills – The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

1. The teacher knows a variety of management routines (e.g., time transitions, environment, space, people, and students/staff, equipment) and instructional strategies to maximize physical education activity time and student success.
2. The teacher knows how to expand the curriculum utilizing a variety of offerings, through the use of family engagement, school activities, and community resources (e.g., family fitness night, parks, golf courses, climbing walls, YMCA multi-use facility agreements, and service organizations).

Performance

1. The teacher ~~uses and assesses~~ applies a variety of management routines (e.g., space, people, time, transitions, environment, students/staff, and equipment) and curricular/instructional strategies to maximize physical education activity ~~time~~ and student success.

~~Standard 4: Multiple Instructional Strategies – The teacher understands and uses a variety of instructional strategies to develop student learning.~~

Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

1. The teacher knows multiple curricular/instructional models (e.g., sport education, teaching personal and social responsibility, outdoor education, peer teaching, fitness and wellness education, teaching games for understanding, adventure education, movement education)

Performance

1. The teacher utilizes multiple curricular/instructional models (e.g., sport education, teaching personal and social responsibility, outdoor education, peer teaching, fitness and wellness education, teaching games for understanding, adventure education, movement education)

~~Standard 9: Professional Commitment and Responsibility – The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.~~

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

1. The teacher knows how ~~his/her~~ one's own personal skillful movement, physical activity, exercise, and fitness competence and ~~activity levels may~~ understands its impact on teaching and student motivation.

Performance

1. The teacher reflects on one's own personal skillful movement, physical activity, exercise, and fitness competence and its impact on teaching and student motivation.

~~*Standard 10: Partnerships – The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.*~~

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

1. The teacher knows how to promote and advocate for healthy active schools involving physical education, physical activity before, during, and after the school day, and staff, family and community involvement.
2. The teacher knows how to promote and advocate for physical education and physical activity to students, staff, administrators, parents, school boards and community partners.

Performance

1. The teacher demonstrates a variety of strategies to promote and advocate for healthy active schools.

~~*Standard #11: Safety - The teacher provides for a safe physical education learning environment.*~~

Knowledge

1. The teacher understands the inherent ~~dangers risks~~ involved in physical ~~education~~ activities.
2. The teacher ~~understands the need to consider~~ recognizes safety considerations when planning and providing instruction.
3. The teacher ~~understands recognizes~~ the factors that influence safety in physical ~~education~~ activity settings (e.g., skill, fitness, developmental level of students, equipment, attire, facilities, travel, and weather).
4. The teacher ~~understands recognizes~~ the level of supervision required for the health and safety of ~~all~~ students in all locations (e.g., teaching areas, locker rooms, ~~and travel to off-campus~~ activities).

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

5. The teacher understands school policies regarding the emergency action plan, student injury ~~and medical treatment~~, and transportation.
- ~~6. The teacher understands the steps for providing appropriate treatment for injuries occurring in physical education activities.~~
- ~~76.~~ The teacher understands the appropriate steps when responding to safety situations.
- ~~87.~~ The teacher knows cardiopulmonary resuscitation (CPR) and first aid.

Performance

1. The teacher ~~identifies, monitors, and~~ documents safety issues when planning and implementing instruction to ensure a safe learning environment.
2. The teacher informs students of the risks associated with physical ~~education~~ activities~~y~~.
3. The teacher instructs students in appropriate safety procedures for physical ~~education~~ activities~~y~~ and corrects inappropriate actions.
4. The teacher identifies and corrects potential hazards in physical education and physical activity facilities, ~~grounds~~, and equipment.
- ~~5. The teacher identifies and follows the steps for providing appropriate treatment for injuries occurring in physical education activities.~~
- ~~6. The teacher identifies safety situations and responds appropriately.~~
- ~~75.~~ The teacher maintains CPR and first aid certification.

Glossary

Exercise – A subcategory of physical activity that is planned, structured, repetitive, and purposive in the sense that the improvement or maintenance of one of more components of physical fitness is the objective. “Exercise” and “exercise training” frequently are used interchangeably and generally refer to physical activity performed during leisure time with the primary purpose of improving or maintaining physical fitness, physical performance, or health.*

Health – A human condition with physical, social and psychological dimensions, each characterized on a continuum with positive and negative poles. Positive health is associated with a capacity to enjoy life and to withstand challenges; it is not merely the absence of disease. Negative health is associated with illness, and in the extreme, with premature death.*

Health-Enhancing Physical Activity – Activity that, when added to baseline activity, produces health benefits. Brisk walking, jumping rope, dancing, playing tennis or soccer, lifting weights,

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

climbing on playground equipment at recess, and doing yoga are all examples of health-enhancing physical activity. *

Health-Related Fitness – A type of physical fitness that includes cardiorespiratory fitness, muscular strength and endurance, body composition, flexibility, and balance.*

Moderate-Intensity Physical Activity – On an absolute scale, physical activity that is done at 3.0 to 5.9 times the intensity of rest. On a scale relative to an individual’s personal capacity, moderate-intensity physical activity is usually a 5 or 6 on a scale of 0 to 10.*

Performance-Related Fitness – Those attributes that significantly contribute to athletic performance, including aerobic endurance or power, muscle strength and power, speed of movement, and reaction time.*

Physical Activity – Any bodily movement produced by the contraction of skeletal muscle that increases energy expenditure above a basal level. In these Guidelines, physical activity generally refers to the subset of physical activity that enhances health.*

Physical Fitness – The ability to carry out daily tasks with vigor and alertness, without undue fatigue, and with ample energy to enjoy leisure-time pursuits and respond to emergencies. Physical fitness includes a number of components consisting of cardiorespiratory endurance (aerobic power), skeletal muscle endurance, skeletal muscle strength, skeletal muscle power, flexibility, balance, speed of movement, reaction time, and body composition.*

Skillful Movement – An efficient, coordinated, fluent and aesthetic goal-directed voluntary performance that consists of specific body and/or limb behaviors that have physiological and biomechanical components.

Vigorous-Intensity Physical Activity – On an absolute scale, physical activity that is done at 6.0 or more times the intensity of rest. On a scale relative to an individual’s personal capacity, vigorous-intensity physical activity is usually a 7 or 8 on a scale of 0 to 10.*

* Definitions quoted from the U.S. Department of Health and Human Services 2008 Physical Activity Guidelines for Americans at www.health.gov/paguidelines.

Pre-Service Technology Standards

All teacher candidates are expected to meet the Idaho Core Teacher Standards as well as the pre-service technology standards. Each candidate shall also meet the Foundation and Enhancement standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the pre-service technology standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards and competencies. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the competencies. These competencies reflect the principles of Universal Design related to technology. (Universal design is defined as: the design of products and environments to be usable by all people, to the greatest extent possible, without the need for adaptation or specialized design)

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions in which pre-service teachers design, develop, and evaluate technology-based learning experiences and assessments to maximize content learning in context and to develop the knowledge, skills, and attitudes identified in the National Educational Technology Standards (NETS)•for Teachers.

** This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, types of and uses of technology and creates learning experiences that make technology meaningful for learners.

Knowledge

1. Awareness of use types and usage of technology tools (i.e., 21st Century Skills; hardware; software; web-based; mobile technology).
2. Pre-service teachers understand the central concepts of technology and current standards for best practice in preparing students for the global community of the future.
3. Pre-service teachers understand how students learn and develop, and provide opportunities that support their intellectual, social, and personal development.
4. Promoting designs that engage all students of all abilities is sometimes referred to as promoting “Universal Design”.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

5. Pre-service teachers understand how students differ in their approaches to learning and how to adapt for learners with diverse needs.
6. Pre-service teachers understand how students use collaborative tools to reflect on and clarify their own thinking, planning, and creativity.
7. Pre-service teachers understand the legal and ethical use of digital information and technology, including digital etiquette and responsible social interactions.
8. Pre-service teachers understand how to use and interpret formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.
9. Pre-service teachers continuously improve their professional practice, model lifelong learning, and exhibit leadership in their school and professional community.
10. Pre-service teachers understand the importance of reflective practice.
11. Pre-service teachers understand local and global societal issues and responsibilities in an evolving digital culture and exhibit legal and ethical behavior in their professional practices.
12. Pre-service teachers understand how technology supports cultural diversity and collaboration.

Target: Knowledge competency test through a basic skills test (i.e., Cbest or PPST I for Technology Basic Competency Skills)

Performance

1. All performance indicators included with individual standards.

Note: These links provide some examples of artifacts collected in current intro to edtech and teacher pre- service programs. However, they do not necessarily demonstrate the level of exposure and knowledge we would expect of future teachers.

1. <https://sites.google.com/a/boisestate.edu/barbara-schroeder/Home>
2. <http://lesson.taskstream.com/lessonbuilder/v.asp?LID=uffph8erc0hfzozu>
3. <https://sites.google.com/a/u.boisestate.edu/browning-portfolio/home>
4. <https://sites.google.com/a/u.boisestate.edu/sylvia-portfolio/>

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Performance

1. Pre-service teachers customize and personalize learning activities with technology that include accessible instructional materials and technologies to support the learning styles, work strategies, abilities, and developmental levels of all students.

Suggested Artifact(s)

- Lesson plan or unit development
- *Target: Practicum where lesson/unit is implemented and evaluated.*

Standard 3: Adapting Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that support their intellectual, social and personal development.

Performance

1. Pre-service teachers create digital-age media and formats ensuring equal access for people of all capabilities.
2. Pre-service teachers address the diverse needs of all students by using learner-centered strategies and providing equitable access to appropriate digital tools and resources including hardware, accessible instructional materials, and online resources.

Suggested Artifact(s)

- Development of digital materials using principles of Universal Design for Learning.
- Demonstration of knowledge through product development.
- “Accessibility Features on My Computer” discussion forum.
- Virtual practicum demonstrating learner-centered strategies (i.e., Second Life).
- Assistive Technology blog post.
- Accessibility resource list.
- *Target: Practicum where lesson/unit is implemented and evaluated.*

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.

Performance

1. Pre-service teachers model and facilitate effective use of current and emerging digital tools, to locate, analyze, evaluate, and use information resources which will aid in the dissemination of content and support individual learning strategies.
2. Pre-service teachers promote student learning and creativity by creating learning experiences that include students’ use of technology tools to research and collect information online and to create a report, presentation, or other products.

3. Pre-service teachers use technology to promote student reflection to clarify their own critical thinking, planning, and creativity.
4. Pre-service teachers understand and use a variety of instructional strategies and communication techniques to develop students' critical thinking, problem solving, and performance skills.

Suggested Artifact(s)

- Web site or Internet WebQuest.
- *Target: Practicum where lesson/unit is implemented and evaluated.*

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation in a digital age.

Performance

1. Pre-service selects and demonstrates the use of technology resources that enables students to explore questions and issues of individual interest and to plan, manage, and assess their own learning.
2. Pre-service teachers develop technology enriched learning that enables all students to pursue their individual curiosities and become active participants in learning.
3. Pre-service teachers engage students in researching real-world problems and issues and evaluating diverse solutions using digital tools and resources.

Suggested Artifact(s)

- Create a WebQuest
- *Target: Pre-service collects and shares student created artifacts that demonstrate learning with technology using individual initiative and interest.*

Standard 6: Communication Skills - The teacher uses a variety of digital communication tools and strategies to foster inquiry, collaboration and supportive interaction in and beyond the classroom.

Performance

1. Pre-service teachers communicate relevant information and ideas effectively to students, parents, and peers using a variety of digital-age media (i.e. asynchronous and synchronous tools).
2. Pre-service teachers promote and model digital etiquette and responsible social interactions.

Suggested Artifact(s)

- Web site or web page communicating information about their lesson or course.
- Email communications.
- Online communications using digital tools like Web conferencing, chat or Skype.
- Letter to parents created using word processing technology.
- Set of rules developed through consensus using digital collaboration tools.
- Demonstrated participation in a social work (i.e., join a network, participate, take a screenshot of participation and share).
- *Target: Evidence of asynchronous and synchronous communications with peers, parents and students.*

Standard 7: Instructional Planning Skills - The teacher plans, prepares instruction, and integrates technology into instructional planning based upon knowledge of subject matter, students, the community, and curriculum goals.

Performance

1. Pre-service teachers plan and prepare instruction utilizing a variety of technology tools.
2. Pre-service teachers demonstrate fluency in technology systems and the transfer of current knowledge to new technologies and situations.

Suggested Artifact(s)

- Sample lesson plan that demonstrates how technology can be integrated into content area instruction (see *Handbook of Technological Pedagogical Content Knowledge (TPCK) for Educators*, 2008 - Chapter 11, Guiding Pre-service Teachers in TPCK).
- Demonstrated use of emerging or innovative technology for learning.
- Research emerging (not widely available) technology and analyze its potential impact on and implementation in the classroom.
- *Target: Practicum where lesson/unit integrating technology into instruction is implemented, observed (live or digitally recorded) and evaluated.*

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Performance

1. Pre-service teachers assess student's use of technology.
2. Pre-service teachers use technology to formally and informally assess student learning (i.e. polling, proctored test, ISAT).
3. Pre-service teachers use technology to gather and interpret assessment data to inform teaching practice and program effectiveness.

Suggested Artifact(s)

- Sample of student work assessed by candidate (i.e., Rubric created with Rubistar (or other electronic rubric creation tool).
- Electronic quiz.
- Poll created in Web Conferencing tool.
- Poll conducted using clickers.
- Electronic gradebook (spreadsheet), run basic statistics, interpretation of the data.
- *Target: Pretest, lesson, post-test, analysis, interpretation, and lesson revision based on data.*

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching, including the ethical, legal and responsible use of technology.

Performance

1. Pre-service teachers evaluate and reflect on current technology for learning research and professional practice to inform teaching practice.
2. Pre-service teachers promote the effective use of digital tools and resources.
3. Pre-service teachers promote and model digital citizenship and responsibility (i.e., digital literacy, information literacy, copyright, privacy, legal)
4. Pre-service teachers use their knowledge of subject matter, teaching and learning, and technology to facilitate experiences that advance student learning, analysis, creativity, and innovation in both face- to-face and virtual environments.
5. Pre-service teachers advocate and teach safe, legal, and ethical use of digital information and technology modeling acceptable use policies including respect for copyright, intellectual property, the appropriate documentation of sources, and strategies for addressing threats to security of technology systems, data, and information.

Suggested Artifact(s)

- Join a network devoted to technology using teachers like classroom 2.0
- Be an active member of a professional learning network
- Offer an Internet Ethics Resource for community members
- Write a letter convincing the school board to remove blocks from Internet usage at your school
- Role play scenario for social networking arguing for and against advantages/disadvantages
- View a school's acceptable use policy - demonstrate understanding
- *Target: Practicum where lesson/unit is implemented and evaluated*

Standard 10: Community and Partnerships - The teacher interacts in an innovative professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being. Models digital-age work and exhibits knowledge, skills, and abilities that are representative of a global and digital society.

Performance

1. Pre-service teachers collaborate with students, peers, parents, and community members using digital tools and resources to support student success and innovation by sharing information and supporting creativity, innovation, and improved learning outcomes.
2. Pre-service teachers *promote opportunities for students of all capabilities* to engage with other students, colleagues, and community members in either face-to-face or virtual environments (i.e., collaborative knowledge construction, participatory culture).
3. Pre-service teachers participate in and use local and global learning communities to explore creative applications of technology to improve student learning.
4. Pre-service teachers provide opportunities for students to apply communications technology resources to interact with students or experts from other communities and other countries.

Suggested Artifact(s)

- Be an active member of a professional learning network
- Create own network for learning or join with other classrooms (i.e., epal; iearn; globalschool.net; jason project; go north; NASA)
- Develop lesson that uses one of the social networks
- Use web conferencing to view a class using technology in action; create a list of items you want to integrate into teaching; reflect and incorporate practices learned into teaching
- Offer an Internet Ethics Resource for community members
- *Target: Practicum where lesson/unit integrating community and partnership is implemented and evaluated*

Idaho Foundation Standards for Professional-Technical Teachers

In addition to the standards listed here, professional-technical teachers must meet Idaho Core Teacher Standards and one of the following: (1) Idaho Standards for Agricultural Science and Technology Teachers, (2) Idaho Standards for Business Technology Teachers, (3) Idaho Standards for Family and Consumer Sciences Teachers, (4) Idaho Standards for Marketing Technology Teachers, or (5) Idaho Standards for Technology Education Teachers. Occupationally-certified teachers must meet these foundation standards for Professional-Technical teachers.

The following knowledge and performance statements for the professional-technical teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught, and creates learning experiences that make these aspects of subject matter meaningful for learners.

Knowledge

1. The teacher understands basic technological principles, processes, and skills such as design and problem solving, team decision making, information gathering, and safety.
2. The teacher understands how basic academic skills and advanced technology can be integrated into an occupational learning environment.
3. The teacher understands industry logistics, technical terminologies, and procedures for the occupational area.
4. The teacher understands industry trends and labor market needs.
5. The teacher understands workplace leadership models.
6. The teacher understands the philosophical principles and the practices of professional-technical education.

7. The teacher understands the importance of student leadership qualities in technical program areas.

Performance

1. The teacher maintains current technical skills and seeks continual improvement.
2. The teacher demonstrates specific occupational skills necessary for employment.
3. The teacher uses current terminology, industry logistics, and procedures for the occupational area.
4. The teacher incorporates and promotes leadership skills in state-approved Professional-Technical Student Organizations (PTSO).
5. The teacher writes and evaluates occupational objectives and competencies.
6. The teacher uses a variety of technical instructional resources.
7. The teacher assesses the occupational needs of the community.
8. The teacher facilitates experiences designed to develop skills for successful employment.
9. The teacher informs students about opportunities to develop employment skills (e.g., work-study programs, internships, volunteer work, and employment opportunities).

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Knowledge

1. The teacher understands the entry-level skills in the occupation.
2. The teacher understands workplace culture and ethics.
3. The teacher understands how to provide students with realistic occupational and/or work experiences.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

4. The teacher knows how to use education professionals, trade professionals, and research to enhance student understanding of processes, knowledge, and safety.
5. The teacher understands how occupational trends and issues affect the workplace.
6. The teacher understands how to integrate academic skills into technical content areas.
7. The teacher understands the role of innovation and entrepreneurship in the workplace.
8. The teacher understands integration of leadership training, community involvement, and personal growth into instructional strategies.

Performance

1. The teacher models appropriate workplace practices and ethics.
2. The teacher discusses state guidelines to aid students in understanding the trends and issues of an occupation.
3. The teacher integrates academic skills appropriate for each occupational area.
4. The teacher uses simulated and/or authentic occupational applications of course content.
5. The teacher uses experts from business, industry, and government as appropriate for the content area.
6. The teacher develops a scope and sequence of instruction related to the students' prior knowledge and that aligns with articulation requirements and course competencies.
7. The teacher integrates instructional strategies and techniques that accommodate prior student knowledge.
8. The teacher discusses innovation and the entrepreneurial role in the workforce and incorporates them where possible.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Knowledge

1. The teacher recognizes the scope and sequence of content and PTSOs across secondary and postsecondary technical curricula.
2. The teacher knows how to identify community and industry expectations and access resources.

Performance

1. The teacher designs instruction that aligns with secondary and postsecondary curricula that develops technical competencies.
2. The teacher designs instruction to meet community and industry expectations.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Knowledge

1. The teacher knows how to use information about a student's progress, including assessments, to evaluate work-readiness.
2. The teacher knows how to conduct a follow-up survey of graduates and how to use the information to modify curriculum and make program improvement.
3. The teacher understands how evaluation connects to instruction.

Performance

1. The teacher writes and evaluates occupational goals, objectives, and competencies.
2. The teacher develops clear learning objectives and creates and integrates appropriate assessment tools to measure student learning.
3. The teacher modifies the curriculum, instruction, and the program based on student progress and follow-up data from recent graduates and employers.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continually engaged in purposeful mastery of the art and science of teaching.

Knowledge

1. The teacher understands the value and impact of having a professional development plan.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. The teacher understands how sustained professionalism reflects on him or her as an educator and as a representative of his or her industry.

Performance

1. The teacher collaborates with an administrator to create a professional development plan.
2. The teacher evaluates and reflects on his or her own level of professionalism as an educator and as a representative of his or her industry.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Knowledge

1. The teacher knows the contributions of advisory committees.
2. The teacher understands the importance of using the employment community to validate occupational skills.
3. The teacher understands how to effect change in professional-technical education and in the occupational area taught.
4. The teacher knows about professional organizations within the occupational area.
5. The teacher knows how to cooperatively develop articulation agreements between secondary and postsecondary programs.
6. The teacher understands the structure of state-approved PTSOs.
7. The teacher understands the ideas, opinions, and perceptions of business and industry.

Performance

1. The teacher establishes and uses advisory committees for program development and improvement.
2. The teacher cooperates with educators in other content areas to develop appropriate instructional strategies and to integrate learning.
3. The teacher interacts with business, industry, labor, government, and the community to build effective partnerships.
4. The teacher participates in appropriate professional organizations.
5. The teacher cooperatively constructs articulation agreements.
6. The teacher incorporates an active state-approved PTSO in his or her program.

7. The teacher understands the role of PTSOs as an integral part of the total professional-technical education program.

Standard 11: Learning Environment - The teacher creates and manages a safe and productive learning environment.

Knowledge

1. The teacher understands how to dispose of waste materials.
2. The teacher understands how to care for, inventory, and maintain materials and equipment.
3. The teacher understands safety contracts and operation procedures.
4. The teacher understands legal safety issues related to the program area.
5. The teacher understands safety requirements necessary to conduct laboratory and field activities.
6. The teacher understands time and organizational skills in laboratory management.
7. The teacher is aware of safety regulations at school and work sites.
8. The teacher understands how to incorporate PTSOs as intracurricular learning experiences.

Performance

1. The teacher ensures that facilities, materials, and equipment are safe to use.
2. The teacher instructs and models safety procedures and documents safety instruction, and updates each according to industry standards.
3. The teacher demonstrates effective management skills in the classroom and laboratory environments.
4. The teacher models and reinforces effective work and safety habits.
5. The teacher incorporates PTSOs as intra-curricular learning experiences.

Standard 12: Workplace Preparation - The teacher prepares students to meet the competing demands and responsibilities of the workplace.

Knowledge

1. The teacher understands workplace employability skills and related issues.
2. The teacher understands the issues of balancing work and personal responsibilities.

3. The teacher understands how to promote career awareness.

Performance

1. The teacher designs instruction that addresses employability skills and related workplace issues.
2. The teacher discusses how to balance demands between work and personal responsibilities.
3. The teacher provides opportunities for career awareness and exploration.

Idaho Standards for Agricultural Science and Technology Teachers

In addition to the standards listed here, agricultural science and technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Professional-Technical Teachers.

The following knowledge and performance statements for the agricultural science and technology teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.

Knowledge

1. The teacher understands biological, physical, and applied sciences relative to practical solutions for the agricultural industry.
2. The teacher knows about production agriculture.
3. The teacher knows plant and animal science, agricultural business management, and agricultural mechanics, as well as computer and other technology related to these areas.
4. The teacher understands and has experience in one or more of the following specialized occupational areas:
 - a. Agricultural production and marketing
 - b. Agricultural equipment and supplies
 - c. Agriculture product processing
 - d. Ornamental horticulture and turf grass management (e.g. floriculture, greenhouse management)
 - e. Agricultural business planning and analysis
 - f. Natural resource management
 - g. Environmental science
 - h. Forestry
 - i. Small animal production and care

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

5. The teacher understands how to advise, oversee and operate a local FFA chapter and how it relates to the Idaho State and National FFA organizations.
6. The teacher understands how to organize and implement supervised agricultural experience programs including but not limited to working with parents, students, adults, and employers.
7. The teacher is familiar with the administrative duties related to being a secondary agriculture teacher (e.g., extended contract, state reporting procedures, FFA, and SAE).

Performance

1. The teacher applies natural and physical science principles to practical solutions.
2. The teacher discusses production agriculture.
3. The teacher discusses and demonstrates, as appropriate, content and best practices of plant and animal science; agricultural business management; and agricultural mechanics; and integrates computer and other technology related to these areas.
4. The teacher advises, oversees and operates a local FFA chapter in relationship to the Idaho State and National FFA organizations.
5. The teacher organizes and implements supervised agricultural experience programs including but not limited to working with parents, students, adults and employers.
6. The teacher observes administrative duties related to being a secondary agriculture teacher (e.g., extended contract, state reporting procedures, FFA, and SAE).

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Idaho Standards for Business Technology Teachers

In addition to the standards listed here, business technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Professional-Technical Teachers.

The following knowledge and performance statements for the business technology teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.

Knowledge

1. The teacher possesses a foundational level of knowledge about a broad range of business subjects, for example, accounting, business law, communications, economics, information systems, international business, management, marketing, and office administration.
2. The teacher possesses knowledge in areas related to business, career education, entrepreneurship, interrelationships in business, mathematics, and personal finance.
3. The teacher possesses knowledge of appropriate technology.
4. The teacher understands how to advise, oversee and operate a local Business Professionals of America (BPA) chapter and how it relates to the Idaho State and National BPA organizations.

Performance

1. The teacher demonstrates industry-standard skill levels required by the endorsement, for example, in accounting, business technology and office procedures.
2. The teacher effectively delivers business and business technology content at the junior high, middle school, and/or secondary levels.

3. The teacher demonstrates the efficient use of technology to accomplish tasks related to business and industry.
4. The teacher integrates BPA through intracurricular approaches in the business program of study.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Idaho Standards for Family and Consumer Sciences Teachers

In addition to the standards listed here, family and consumer sciences teachers must meet the Idaho Core Teacher Standards and Idaho Foundation Standards for Professional-Technical Teachers.

The following knowledge and performance statements for the family and consumer sciences teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.

Knowledge

1. The teacher understands the significance of family and its impact on the well-being of children, adults, and society and the multiple life roles and responsibilities in family, career, and community settings.
2. Teacher understands the impact of families' multiple roles within the home, workplace and community.
3. The teacher knows of community agencies and organizations that provide assistance to individuals and families.
4. The teacher understands how interpersonal relationships, cultural patterns, and diversity affect individuals, families, community, and the workplace.
5. The teacher understands the roles and responsibilities of parenting and factors that affect human growth and development across the life span.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

6. The teacher understands the science and practical application involved in planning, selecting, preparing, and serving food according to the principles of sound nutrition, cultural and economic needs of individuals, families, and industry; along with practices to encourage wellness for life.
7. The teacher understands the design, selection, and care of textiles and apparel products.
8. The teacher understands housing, design, furnishings, technology, and equipment needs for individuals, families, and industry.
9. The teacher understands consumer economic issues and behavior for managing individual and family resources to achieve goals at various stages of the life cycle.
10. The teacher understands resource conservation and environmental issues in relation to family and community health.
11. The teacher understands the nature of the profession and knows of careers related to family and consumer sciences.
12. The teacher understands how social media can influence communication and outcomes between individuals, family members, and community connections.
13. The teacher understands how to incorporate Family, Career and Community Leaders of America (FCCLA) as intra-curricular learning experiences.

Performance

1. The teacher demonstrates a command of instructional methodology in the delivery of family and consumer sciences content at the middle and secondary school levels.
2. The teacher integrates Family, Career and Community Leaders of America, FCCLA into family and consumer sciences instruction.
3. The teacher validates the significance of family and its impact on the well-being of children, adults, individuals and society and the multiple life roles and responsibilities in family, work career, and community settings.
4. The teacher selects and creates learning experiences that include the impact of families' multiple roles within the home, workplace and community.
5. The teacher knows of community agencies and organizations that provide assistance to individuals and families.
6. The teacher selects and creates learning experiences that include how interpersonal relationships, cultural patterns, and diversity affect individuals, families, community, and the workplace.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

7. The teacher promotes the roles and responsibilities of parenting and factors that affect human growth and development across the life span.
8. The teacher incorporates the science and practical application involved in planning, selecting, preparing, and serving food according to the principles of sound nutrition, and cultural and economic needs of individuals, and families, and industry; along with practices to encourage wellness for life.
9. The teacher demonstrates the design, selection, and care of textiles and apparel products.
10. The teacher demonstrates housing, design, furnishings, technology, and equipment needs for individuals, and families, and industry.
11. The teacher integrates consumer economic issues about and behavior for managing individual and family resources to achieve goals at various stages of the life cycle.
12. The teacher integrates resource conservation and environmental issues in relation to family and community health.
13. The teacher maintains an awareness of the nature of the profession and knows of careers related to family and consumer sciences.
14. The teacher selects and creates learning experiences on how social media can influence communication and outcomes between individuals, family members, and community connections.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Knowledge

1. The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, physical, emotional and moral development.

Performance

1. The teacher develops lessons which focus on progressions and ranges of individual variation within intellectual, social, physical, emotional and moral development and their interrelationships.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher understands individual and group motivation and behavior and creates a student centered learning environment that encourages positive social interaction, active engagement in learning, exploration of adaptive solutions, and self-motivation.

Performance

1. The teacher promotes individual and group motivation and behavior and creates a student centered learning environment that encourages positive social interaction, active engagement in learning, exploration of adaptive solutions, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Knowledge

1. The teacher understands how to apply knowledge about the current subject matter, learning theory, instructional strategies, curriculum development, evaluation, and child and adolescent development to meet curriculum goals using family and consumer sciences national standards and other resources.
2. The teacher understands how program alignment across grade levels and disciplines maximizes learning.

Performance

1. The teacher maximizes such elements as instructional materials; individual student interests, needs, and aptitudes; technology and community resources in planning instruction that creates an effective bridge between curriculum goals and students learning.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Knowledge

1. The teacher understands formal and informal comprehensive and industry assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Performance

1. The teacher uses and interprets formal and informal comprehensive and industry assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Knowledge

1. The teacher understands how to research and select relevant professional development aligned to curriculum and industry standards.

Performance

1. The teacher participates in continual relevant professional development in order to stay current in content areas.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Idaho Standards for Marketing Technology Teachers

In addition to the standards listed here, marketing technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Professional-Technical Teachers.

The following knowledge and performance statements for the marketing technology teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.

Knowledge

1. The teacher possesses a foundational level of knowledge about a broad range of business subjects for example, accounting, business law, communications, economics, information systems, international business, management, marketing, merchandising, and retailing.
2. The teacher possesses knowledge in areas related to marketing, for example, business technology, career education, entrepreneurship, mathematics, personal finance, and interrelationships in business.
3. The teacher possesses knowledge of appropriate technology.
4. The teacher understands how to advise, oversee, and operate a local DECA/Collegiate DECA professional-technical student organization as a part of the state and national organization, and its intra-curricular role in marketing education.

Performance

1. The teacher demonstrates industry-standard skill levels required by the endorsement, for example accounting, advertising, coordination techniques, and promotions.
2. The teacher effectively delivers marketing content at the junior high, middle school and/or

high school levels.

3. The teacher demonstrates the efficient use of technology to accomplish tasks related to business and industry.
4. The teacher embeds DECA/Collegiate DECA activities and curriculum through an intracurricular approach within the marketing program of study.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Standard 11: Learning Environment - The teacher creates and manages a safe and productive learning environment.

Standard 12: Workplace Preparation - The teacher prepares students to meet the competing demands and responsibilities of the workplace.

Idaho Standards for Technology Education Teachers

In addition to the standards listed here, technology education teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Professional-Technical Teachers.

The following knowledge and performance statements for the technology education teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

* This language was written by a committee of content experts and has been adopted verbatim.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.

Knowledge

1. The teacher has a basic understanding of contemporary communications; manufacturing; power, energy, and transportation; construction; electronics; computer systems; and other relevant emerging technologies.
2. The teacher understands the operation and features of a computer-aided design and computer-aided manufacturing systems.
3. The teacher understands the principles and concepts of engineering design, technology and the associated mathematics and science concepts.
4. The teacher knows the classical and contemporary elements, principles, and processes of structural systems.
5. The teacher understands industry logistics, technical terminologies and procedures for the technology occupational area.
6. The teacher understands the importance of team dynamics and the project management

process when working in the technology occupational areas.

Performance

1. The teacher demonstrates the basic skills that support the fields of communications; manufacturing; power, energy, and transportation; construction; electronics; computer technology and other relevant emerging technologies.
2. The teacher demonstrates how to install, maintain, and troubleshoot computers and peripheral equipment, telecommunications equipment, and other related technology applications.
3. The teacher demonstrates architectural and mechanical drafting and developmental skills.
4. The teacher demonstrates the various phases of the engineering design process.
5. The teacher creates opportunities for students to work collaboratively in teams and practice the project management processes related to the technology occupational areas.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Idaho Foundation Standards for Science Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Science Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

In addition to the standards listed here, science teachers must meet Idaho Core Teacher Standards and at least one of the following: (1) Idaho Standards for Biology Teachers, (2) Idaho Standards for Chemistry Teachers, (3) Idaho Standards for Earth and Space Science Teachers, (4) Idaho Standards for Natural Science Teachers, (5) Idaho Standards for Physical Science Teachers, or (6) Idaho Standards for Physics Teachers.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

**This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher knows the history and nature of science and scientific theories.
2. The teacher understands the science content within the context of the Idaho Science Content Standards within their appropriate certification.
3. The teacher understands the concepts of form and function.
4. The teacher understands the interconnectedness among the science disciplines.
5. The teacher understands the process of scientific inquiry: investigate scientific phenomena, interpret findings, and communicate results.
6. The teacher knows how to construct deeper understanding of scientific phenomena

through study, demonstrations, and laboratory and field activities.

7. The teacher understands the importance of accurate and precise measurements in science and reports measurements in an understandable way.

Performance

1. The teacher provides students with opportunities to view science in its cultural and historical context by using examples from history and including scientists of both genders and from varied social and cultural groups.
2. The teacher continually adjusts curriculum and activities to align them with new scientific data.
3. The teacher provides students with a holistic, interdisciplinary understanding of concepts in life, earth systems/space, physical, and environmental sciences.
4. The teacher helps students build scientific knowledge and develop scientific habits of mind.
5. The teacher demonstrates competence in investigating scientific phenomena, interpreting findings, and communicating results.
6. The teacher models and encourages the skills of scientific inquiry, including creativity, curiosity, openness to new ideas, and skepticism that characterize science.
7. The teacher creates lessons, demonstrations, and laboratory and field activities that effectively communicate and reinforce science concepts and principles.
8. The teacher engages in scientific inquiry in science coursework.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Knowledge

1. The teacher knows how students construct scientific knowledge and develop scientific habits of mind.
2. The teacher knows commonly held conceptions and misconceptions about science and how they affect student learning.

Performance

1. The teacher identifies students' conceptions and misconceptions about the natural world.
2. The teacher engages students in constructing deeper understandings of the natural world.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Knowledge

1. The teacher understands how to apply mathematics and technology to analyze, interpret, and display scientific data.
2. The teacher understands how to implement scientific inquiry.
3. The teacher understands how to engage students in making deeper sense of the natural world through careful orchestration of demonstrations of phenomena for larger groups when appropriate.
4. The teacher understands how to use research based best practices to engage students in learning science.

Performance

1. The teacher applies mathematical derivations and technology in analysis, interpretation, and display of scientific data.
2. The teacher uses instructional strategies that engage students in scientific inquiry and that develop scientific habits of mind.
3. The teacher engages students in making deeper sense of the natural world through careful orchestration of demonstrations of phenomena for larger groups when appropriate.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Knowledge

1. The teacher knows how to use a variety of interfaced electronic hardware and software for communicating data.
2. The teacher knows how to use graphics, statistical, modeling, and simulation software, as well as spreadsheets to develop and communicate science concepts.
3. The teacher understands technical writing as a way to communicate science concepts and processes.

Performance

1. The teacher models the appropriate scientific interpretation and communication of scientific evidence through technical writing, scientific posters, multimedia presentations, and electronic communications media.
2. The teacher engages students in sharing data during laboratory investigation to develop and evaluate conclusions.
3. The teacher engages students in the use of computers in laboratory/field activities to gather, organize, analyze, and graphically present scientific data.
4. The teacher engages students in the use of computer modeling and simulation software to communicate scientific concepts.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Knowledge

1. The teacher understands the importance of keeping current on research related to how students learn science.
2. The teacher understands the importance of keeping current on scientific research findings.

Performance

1. The teacher incorporates current research related to student learning of science into science curriculum and instruction.
2. The teacher incorporates current scientific research findings into science curriculum and instruction.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Standard 11: Safe Learning Environment - The science teacher provides for a safe learning environment.

Knowledge

1. The teacher knows how to select materials that match instructional goals as well as how to maintain a safe environment.
2. The teacher is aware of available resources and standard protocol for proper disposal of waste materials.
3. The teacher knows how to properly care for, inventory, and maintain materials and equipment.
4. The teacher is aware of legal responsibilities associated with safety.
5. The teacher knows the safety requirements necessary to conduct laboratory and field activities and demonstrations.
6. The teacher knows how to procure and use Material Safety Data Sheets (MSDS).

Performance

1. The teacher develops instruction that uses appropriate materials and ensures a safe environment.
2. The teacher creates and ensures a safe learning environment by including appropriate documentation of activities.
3. The teacher makes informed decisions about the use of specific chemicals or performance of a lab activity regarding facilities and student age and ability.
4. The teacher models safety at all times.
5. The teacher makes use of Material Safety Data Sheet (MSDS) and storage information for laboratory materials.
6. The teacher creates lesson plans and teaching activities consistent with appropriate safety considerations.
7. The teacher evaluates lab and field activities for safety.
8. The teacher evaluates a facility for compliance to safety regulations.
9. The teacher uses safety procedures and documents safety instruction.
10. The teacher demonstrates the ability to acquire, use, and maintain materials and lab equipment.

11. The teacher implements laboratory, field, and demonstration safety techniques.

Standard 12: Laboratory and Field Activities - The science teacher demonstrates competence in conducting laboratory, and field activities.

Knowledge

1. The teacher knows a broad range of laboratory and field techniques.
2. The teacher knows strategies to develop students' laboratory and field skills.

Performance

1. The teacher engages students in a variety of laboratory and field techniques.
2. The teacher uses a variety of instructional strategies in laboratory and field experiences to engage students in developing their understanding of the natural world.

Idaho Standards for Biology Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, biology teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Biology Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

**This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands that there are unifying themes in biology, including levels from molecular to whole organism.
2. The teacher knows the currently accepted taxonomy systems used to classify living things.
3. The teacher understands scientifically accepted theories of how living systems evolve through time.
4. The teacher understands how genetic material and characteristics are passed between generations and how genetic material guide cell and life processes.
5. The teacher knows biochemical processes that are involved in life functions.
6. The teacher knows that living systems interact with their environment and are interdependent with other systems.
7. The teacher understands that systems in living organisms maintain conditions necessary

for life to continue.

8. The teacher understands the cell as the basis for all living organisms and how cells carry out life functions.
9. The teacher understands how matter and energy flow through living and non-living systems.
10. The teacher knows how the behavior of living organisms changes in relation to environmental stimuli.

Performance

1. The teacher prepares lessons that help students understand the flow of matter and energy through living systems.
2. The teacher assists students in gaining an understanding of the ways living things are interdependent.
3. The teacher assists students in understanding how living things impact/change their environment and how the physical environment impacts/changes living things.
4. The teacher helps students understand how the principles of genetics apply to the flow of characteristics from one generation to the next.
5. The teacher helps students understand how genetic “information” is translated into living tissue and chemical compounds necessary for life.
6. The teacher helps students understand accepted scientific theories of how life forms have evolved through time and the principles on which these theories are based.
7. The teacher helps students understand the ways living organisms are adapted to their environments.
8. The teacher helps students understand the means by which organisms maintain an internal environment that will sustain life.
9. The teacher helps students classify living organisms into appropriate groups by the current scientifically accepted taxonomic techniques.
10. The teacher helps students understand a range of plants and animals from one-celled organisms to more complex multi-celled creatures composed of systems with specialized tissues and organs.
11. The teacher helps students develop the ability to evaluate ways humans have changed living things and the environment of living things to accomplish human purposes (e.g., agriculture, genetic engineering, dams on river systems, and burning fossil fuels).

12. The teacher helps students understand that the cell, as the basis for all living organisms, carries out life functions.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Idaho Standards for Chemistry Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, chemistry teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Chemistry Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

**This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher has a broad knowledge of mathematical principles, including calculus, and is familiar with the connections that exist between mathematics and chemistry.
2. The teacher understands the subdivisions and procedures of chemistry and how they are used to investigate and explain matter and energy.
3. The teacher understands that chemistry is often an activity organized around problem solving and demonstrates ability for the process.
4. The teacher understands the importance of accurate and precise measurements in chemistry and reports measurements in an understandable way.
5. The teacher understands the importance of accurate and precise measurements in science and reports measurements in an understandable way. CORE STANDARDS
6. The teacher knows matter contains energy and is made of particles (subatomic, atomic and molecular).

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

7. The teacher can identify and quantify changes in energy and structure.
8. The teacher understands the historical development of atomic and molecular theory.
9. The teacher knows basic chemical synthesis to create new molecules from prec? Molecules
10. The teacher understands the organization of the periodic table and can use it to predict physical and chemical properties.
11. The teacher knows the importance of carbon chemistry and understands the nature of chemical bonding and reactivity of organic molecules.
12. The teacher understands the electronic structure of atoms and molecules and the ways quantum behavior manifests itself at the molecular level.
13. The teacher has a fundamental understanding of quantum mechanics as applied to model systems (e.g., particles in a box).
14. The teacher understands the role of energy and entropy in chemical reactions and knows how to calculate concentrations and species present in mixtures at equilibrium.
15. The teacher knows how to use thermodynamics of chemical systems in equilibrium to control and predict chemical and physical properties.
16. The teacher understands the importance of research in extending and refining the field of chemistry and strives to remain current on new and novel results and applications.

Performance

1. The teacher consistently reinforces the underlying themes, concepts, and procedures of the basic areas of chemistry during instruction, demonstrations, and laboratory activities to facilitate student understanding.
2. The teacher models the application of mathematical concepts for chemistry (e.g., dimensional analysis, statistical analysis of data, and problem-solving skills).
3. The teacher helps the student make accurate and precise measurements with appropriate units and to understand that measurements communicate precision and accuracy.
4. The teacher helps the student develop strategies for solving problems using dimensional analysis and other methods.
5. The teacher helps the student understand that matter is made of particles and energy and that matter and energy are conserved in chemical reactions.
6. The teacher helps the student understand the composition of neutral and ionic atoms and molecules.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

7. The teacher helps the student learn the language and symbols of chemistry, including the symbols of elements and the procedures for naming compounds and distinguishing charged states.
8. The teacher helps the student understand the structure of the periodic table and the information that structure provides about chemical and physical properties of the elements.
9. The teacher helps the student begin to categorize and identify a variety of chemical reaction types.
10. The teacher helps the student understand stoichiometry and develop quantitative relationships in chemistry.
11. The teacher helps the student understand and apply modern atomic, electronic and bonding theories.
12. The teacher helps the student understand ionic and covalent bonding in molecules and predict the formula and structure of stable common molecules.
13. The teacher helps the student understand the quantitative behavior of gases.
14. The teacher helps the student understand and predict the qualitative behavior of the liquid and solid states and determine the intermolecular attraction of various molecules.
15. The teacher helps the student understand molecular kinetic theory and its importance in chemical reactions, solubility, and phase behavior.
16. The teacher helps the student understand the expression of concentration and the behavior and preparation of aqueous solutions.
17. The teacher helps the student understand and predict the properties and reactions of acids and bases.
18. The teacher helps the student understand chemical equilibrium in solutions.
19. The teacher helps the student understand and use chemical kinetics.
20. The teacher helps the student understand and apply principles of chemistry to fields such as earth science, biology, physics, and other applied fields.
21. The teacher helps the student learn the basic organizing principles of organic chemistry.
22. The teacher can do chemical calculations in all phases using a variety of concentration units including pH, molarity, number density, molality, mass and volume percent, parts per million and other units.

23. The teacher can prepare dilute solutions at precise concentrations and perform and understand general analytical procedures and tests, both quantitative and qualitative.
24. The teacher can use stoichiometry to predict limiting reactants, product yields and determine empirical and molecular formulas.
25. The teacher can correctly name acids, ions, inorganic and organic compounds, and can predict the formula and structure of stable common compounds.
26. The teacher can identify, categorize and understand common acid-base, organic and biochemical reactions.
27. The teacher can demonstrate basic separations in purifications in the lab, including chromatography, crystallization, and distillation.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Idaho Standards for Earth and Space Science Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, earth and space science teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the earth and space science teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

**This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher knows how local events can potentially impact local, regional, and global conditions.
2. The teacher understands the rock cycle and the classification systems for rocks and minerals.
3. The teacher understands the theory of plate tectonics and the resulting processes of mountain building, earthquakes, oceanic trenches, volcanoes, sea floor spreading, and continental drift.
4. The teacher understands the sun, moon and earth system and the resulting phenomena.
5. The teacher knows earth history as interpreted using scientific evidence.
6. The teacher understands the composition of the earth and its atmosphere.
7. The teacher understands processes of weathering, erosion, and soil development (e.g., mass wasting, spheroidal weathering, alluvial fans, physical and chemical weathering, glaciers, stream valleys, cirques, and stream terraces).

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

8. The teacher knows multiple scientific theories of the origin of galaxies, planets, and stars.
9. The teacher understands the concept of the interaction of forces and other physical science concepts about earth and astronomical change.
10. The teacher understands the flow of energy and matter through earth and astronomic systems.
11. The teacher knows the concepts of weather and climate.
12. The teacher understands ocean environments and how the physical forces on the surface of the earth interact with them.

Performance

1. The teacher helps students understand the flow of energy and matter through earth and space systems.
2. The teacher helps students understand seasonal changes in terms of the relative position and movement of the earth and sun.
3. The teacher helps students understand the causes of weather and climate in relation to physical laws of nature.
4. The teacher helps students understand the types of rocks and how they change from one type of rock to another as they move through the rock cycle.
5. The teacher helps students understand the theory of plate tectonics, including continental drift, volcanism, mountain building, ocean trenches, and earthquakes.
6. The teacher helps students understand how scientists use indirect methods, including knowledge of physical principles, to learn about astronomical objects.
7. The teacher helps students understand how accepted scientific theories about prehistoric life are developed.
8. The teacher assists students as they critically evaluate the quality of the data on which scientific theories are based.
9. The teacher helps students understand the movement of air, water, and solid matter in response to the flow of energy through systems.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Idaho Standards for Natural Science Teachers

Teachers with natural science endorsements must meet all of the following standards:

1. *Idaho Core Teacher Standards*
2. *Idaho Foundation Standards for Science Teachers AND*
3. *Idaho Standards for Biology Teachers OR*
4. *Idaho Standards for Earth and Space Science Teachers OR*
5. *Idaho Standards for Chemistry Teachers OR*
6. *Idaho Standards for Physics Teachers*

Idaho Standards for Physical Science Teachers

Teachers with physical science endorsements must meet all of the following standards:

- 1. Idaho Core Teacher Standards*
- 2. Idaho Foundation Standards for Science Teachers AND*
- 3. Idaho Standards for Chemistry Teachers OR*
- 4. Idaho Standards for Physics Teachers*

Idaho Standards for Physics Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here physics teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the physics teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

**This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands electromagnetic and gravitational interactions as well as concepts of matter and energy to formulate a coherent understanding of the natural world.
2. The teacher understands the major concepts and principles of the basic areas of physics, including classical and quantum mechanics, thermodynamics, waves, optics, electricity, magnetism, and nuclear physics.
3. The teacher knows how to apply appropriate mathematical and problem solving principles including algebra, geometry, trigonometry, calculus, and statistics in the description of the physical world and is familiar with the connections between mathematics and physics.
4. The teacher understands contemporary physics events, research, and applications.
5. The teacher knows multiple explanations and models of physical phenomena and the process of developing and evaluating explanations of the physical world.

6. The teacher knows the historical development of models used to explain physical phenomena.

Performance

1. The teacher engages students in developing and applying conceptual models to describe the natural world.
2. The teacher engages students in testing and evaluating physical models through direct comparison with the phenomena via laboratory and field activities and demonstrations.
3. The teacher engages students in the appropriate use of mathematical principles in examining and describing models for explaining physical phenomena.
4. The teacher engages student in the examination and consideration of the models used to explain the physical world.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Idaho Foundation Standards for Social Studies Teachers

Social Studies teachers must meet Idaho Core Teacher Standards and Idaho Foundations Standards for Social Studies Teachers and one of the following: (1) Idaho Standards for Economics Teachers, (2) Idaho Standards for Geography Teachers, (3) Idaho Standards for Government and Civics Teachers, (4) Idaho Standards for History Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Social Studies Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

**This language was written by a committee of content experts and has been adopted verbatim.*

~~*Standard 2: Knowledge of Human Development and Learning – The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*~~

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1. The teacher understands the influences that contribute to intellectual, social, and personal development.
2. The teacher understands the impact of ~~student~~-learner environment on student learning.

Performance

1. The teacher provides opportunities for ~~students~~-learners to engage in civic life, politics, and government.

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

~~Standard 1: Knowledge of Subject Matter – The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.~~

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The teacher has a broad knowledge base of the social studies and related disciplines (e.g., history, economics, geography, political science, behavioral sciences, ~~and~~ humanities).
2. The teacher understands ~~the ways how and why~~ various governments and societies have changed over time.
3. The teacher understands ~~ways in which~~ how and why independent and interdependent systems of trade and production develop.
4. The teacher understands the impact that cultures, religions, technologies, social movements, economic systems, and other factors have on civilizations, including their own.
5. The teacher understands the responsibilities and rights of citizens in the United States of America's political system, and how citizens exercise those rights and participate in the system.
6. The teacher understands how geography affects relationships between people, and environments over time.
7. The teacher understands ~~the appropriate use of~~ how to identify primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, ~~and~~ statistical data) in interpreting social studies concepts.

Performance

- ~~1. The teacher demonstrates chronological historical thinking.~~
21. The teacher compares and contrasts various governments and cultures in terms of their diversity, commonalities, and interrelationships.
- ~~3. The teacher integrates knowledge from the social studies in order to prepare students to live in a world with limited resources, cultural pluralism, and increasing interdependence.~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

42. The teacher incorporates current events, global perspectives, methods of inquiry and scholarly research into the curriculum.
5. The teacher uses primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, and data interpretation) when presenting social studies concepts.

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

1. The teacher incorporates current events and historical knowledge, to guide learners as they predict how people from diverse global and cultural perspectives may experience and interpret the world around them.
2. The teacher understands how to effectively analyze the use of primary and secondary sources in interpreting social studies concepts.

Performance

1. The teacher demonstrates and applies chronological historical thinking.
2. The teacher integrates knowledge from the social studies in order to prepare learners to live in a world with limited resources, cultural pluralism, and increasing interdependence.
3. The teacher uses and interprets primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables) when presenting social studies concepts.

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

1. The teacher understands strategies for clear and coherent reading, speaking, listening, and writing within the context of social studies, consistent with approved 6-12 standards.

Performance

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

1. The teacher fosters clear and coherent learner reading, speaking, listening, and writing skills within the context of social studies, consistent with approved 6-12 standards.

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

~~*Standard 3: Modifying Instruction for Individual Needs – The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.*~~

Knowledge

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

1. The teacher understands basic economic concepts and models (e.g., scarcity, opportunity cost, productive resources, voluntary exchange, ~~unemployment~~, supply and demand credit/debt, market incentives, interest rate, ~~and~~ imports/exports).
2. The teacher understands economic indicators (e.g., unemployment, inflation, GDP) in assessing the health of the economy.
- ~~23.~~ The teacher understands the functions and characteristics of money.
- ~~34.~~ The teacher understands economic systems and the factors that influence each system (e.g., culture, values, belief systems, environmental and geographic impacts, and technology).
- ~~45.~~ The teacher knows different types of economic institutions and how they differ from one another (e.g., businessmarket structures, stock markets, banking institutions, ~~and~~ labor unions).
- ~~56.~~ The teacher understands how economic institutions shaped history and influence current economic practices.
- ~~67.~~ The teacher understands the principles of sound personal finance ~~and entrepreneurship and~~ personal investment.
- ~~87.~~ The teacher understands fiscal and monetary policy.

Performance

1. The teacher demonstrates comprehension, ~~and~~ analysis, and relevance of economic principles and concepts.
2. The teacher engages ~~students~~ learners in the application of economic concepts in their roles as consumers, producers, and workers.
3. The teacher ~~uses~~ employs and promotes learner use of graphs, models, and equations to illustrate economic concepts.
4. The teacher illustrates how economic indicators influence historic and current policy.
5. The teacher provides examples of the principles of business organizations and entrepreneurship.
6. The teacher fosters understanding of the important role of economic systems on economic growth.
7. The teacher develops learner understanding of economic issues through application of cost/benefit analyses.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

8. The teacher conveys the importance and implications of the global marketplace.

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Idaho Standards for History Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here history teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the hHistory teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

**This language was written by a committee of content experts and has been adopted verbatim.*

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

~~*Standard 1: Knowledge of Subject Matter – The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.*~~

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

1. The teacher understands themes and concepts in history (e.g., exploration, expansion, migration, immigration).
2. The teacher understands the political, social, cultural, and economic responses to industrialization and technological innovation.
3. The teacher understands how international and domestic relations impacted the development of the United States of America.
4. The teacher understands how significant compromises, ~~and~~ conflicts, and events defined and continue to define the United States of America.
5. The teacher understands the political, social, cultural, and economic development of the United States of America.
6. The teacher understands the political, social, cultural, and economic development of the peoples of the world.
7. The teacher understands the impact of gender, race, ethnicity, religion, and national origin on history.
8. The teacher understands the appropriate use of primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, ~~and~~ statistical data) in interpreting social studies concepts, historical perspectives, and biases.

Performance

1. The teacher makes chronological and thematic connections between political, social, cultural, and economic ~~themes and~~ concepts.
2. The teacher incorporates the issues of gender, race, ethnicity, religion, and national origin into the examination of history.
3. The teacher facilitates student inquiry on how regarding international relationships ~~impact the United States~~.
4. The teacher relates the role of compromises and conflicts to continuity and change across time.
5. The teacher demonstrates an ability to research, analyze, evaluate, and interpret historical evidence.
6. The teacher incorporates the appropriate use of primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, statistical data) in interpreting social studies concepts, historical perspectives, and biases.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

~~Standard 2: Knowledge of Human Development and Learning – The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.~~

~~Standard 3: Modifying Instruction for Individual Needs – The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.~~

~~Standard 4: Multiple Instructional Strategies – The teacher understands and uses a variety of instructional strategies to develop student learning.~~

~~Standard 5: Classroom Motivation and Management Skills – The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.~~

~~Standard 6: Communication Skills – The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.~~

~~Standard 7: Instructional Planning Skills – The teacher plans and prepares instruction based~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

~~on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.~~

~~Standard 8: Assessment of Student Learning – The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.~~

~~Standard 9: Professional Commitment and Responsibility – The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.~~

~~Standard 10: Partnerships – The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.~~

Idaho Standards for Social Studies Teachers

Teachers with a social studies endorsement must meet the following Idaho Standards:

- 1. *Idaho Core Teacher Standards AND***
- 2. *Foundation Social Studies Standards AND***
- 3. *History Standards OR***
- 4. *Government and Civics Standards OR***
- 5. *Economics Standards OR***
- 6. *Geography Standards***

Idaho Standards for Exceptional Child Generalists

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

In addition to the standards listed here, exceptional child teachers must meet Idaho Core Teacher Standards and the Idaho Generalist Standards and may meet one of the following, if applicable: (1) Idaho Standards for Teachers of the Blind and Visually Impaired or (2) Idaho Standards for Teachers of the Deaf and Hard of Hearing.

The following knowledge and performance statements for the Generalist Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Standard 1: Learner Development and Individual Learning Differences - The teacher understands how exceptionalities may interact with development and learning and use this knowledge to provide meaningful and challenging learning experiences for individuals with exceptionalities.

Knowledge

1. The teacher understands how language, culture, and family background influence the learning of individuals with exceptionalities.
2. The teacher has an understanding of development and individual differences to respond to the needs of individuals with exceptionalities.
3. The teacher understands how exceptionalities can interact with development and learning.

Performance

1. The teacher modifies developmentally appropriate learning environments to provide relevant, meaningful, and challenging learning experiences for individuals with exceptionalities.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. The teacher is active and resourceful in seeking to understand how primary language, culture, and family interact with the exceptionality to influence the individual's academic and social abilities, attitudes, values, interests, and career and post-secondary options.

Standard 2: Learning Environments - The teacher creates safe, inclusive, culturally responsive learning environments so that individuals with exceptionalities become active and effective learners and develop emotional well-being, positive social interactions, and self-determination.

Knowledge

1. The teacher understands applicable laws, rules, regulations, and procedural safeguards regarding behavior management planning for students with disabilities.
2. The teacher knows how to collaborate with general educators and other colleagues to create safe, inclusive, culturally responsive learning environments to engage individuals with exceptionalities in meaningful learning activities and social interactions.
3. The teacher understands motivational and instructional interventions to teach individuals with exceptionalities how to adapt to different environments.
4. The teacher knows how to intervene safely and appropriately with individuals with exceptionalities in crisis (e.g. positive behavioral supports, functional behavioral assessment and behavior plans).

Performance

1. The teacher develops safe, inclusive, culturally responsive learning environments for all students, and collaborates with education colleagues to include individuals with exceptionalities in general education environments and engage them in meaningful learning activities and social interactions.
2. The teacher modifies learning environments for individual needs and regards an individual's language, family, culture, and other significant contextual factors and how they interact with an individual's exceptionality. The teacher modifies learning environment, and provides for the maintenance and generalization of acquired skills across environments and subjects.
3. The teacher structures learning environments to encourage the independence, self-motivation, self-direction, personal empowerment, and self-advocacy of individuals with exceptionalities, and directly teach them to adapt to the expectations and demands of differing environments.
4. The teacher safely intervenes with individuals with exceptionalities in crisis. Special education teachers are also perceived as a resource in behavior management that include the skills and knowledge to intervene safely and effectively before or when individuals with exceptionalities experience crisis, i.e. lose rational control over their behavior.

Standard 3: Curricular Content Knowledge - The teacher uses knowledge of general and specialized curricula to individualize learning for individuals with exceptionalities.

Knowledge

1. The teacher understands the central concepts, structures of the discipline, and tools of inquiry of the content areas they teach, and can organize this knowledge, integrate cross-disciplinary skills, and develop meaningful learning progressions for individuals with exceptionalities
2. The teacher understands and uses general and specialized content knowledge for teaching across curricular content areas to individualize learning for individuals with exceptionalities.
3. The teacher knows how to modify general and specialized curricula to make them accessible to individuals with exceptionalities.

Performance

1. The teacher demonstrates in their planning and teaching, a solid base of understanding of the central concepts in the content areas they teach.
2. The teacher collaborates with general educators in teaching or co-teaching the content of the general curriculum to individuals with exceptionalities and designs appropriate learning, accommodations, and/or modifications.
3. The teacher uses a variety of specialized curricula (e.g., academic, strategic, social, emotional, and independence curricula) to individualize meaningful and challenging learning for individuals with exceptionalities.

Standard 4: Assessment - The teacher uses multiple methods of assessment and data-sources in making educational decisions

Knowledge

1. The teacher knows how to select and use technically sound formal and informal assessments that minimize bias.
2. The teacher has knowledge of measurement principles and practices, and understands how to interpret assessment results and guide educational decisions for individuals with exceptionalities.
3. In collaboration with colleagues and families, the teacher knows how to use multiple types of assessment information in making decisions about individuals with exceptionalities.
4. The teacher understands how to engage individuals with exceptionalities to work toward quality learning and performance and provide feedback to guide them.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

5. The teacher understands assessment information to identify supports, adaptations, and modifications required for individuals with exceptionalities to access the general curriculum and to participate in school, system, and statewide assessment programs.
6. The teacher is aware of available technologies routinely used to support assessments (e.g., progress monitoring, curriculum-based assessments, etc.).
7. The teacher understands the legal policies of assessment related to special education referral, eligibility, individualized instruction, and placement for individuals with exceptionalities, including individuals from culturally and linguistically diverse backgrounds.

Performance

1. The teacher regularly monitors the learning progress of individuals with exceptionalities in both general and specialized content and makes instructional adjustments based on these data.
2. The teacher gathers background information regarding academic, medical, and social history.
3. The teacher conducts formal and/or informal assessments of behavior, learning, achievement, and environments to individualize the learning experiences that support the growth and development of individuals with exceptionalities.
4. The teacher integrates the results of assessments to develop a variety of individualized plans, including family service plans, transition plans, behavior change plans, etc.
5. The teacher participates as a team member in creating the assessment plan that may include ecological inventories, portfolio assessments, functional assessments, and high and low assistive technology needs to accommodate students with disabilities.

Standard 5: Instructional Planning and Strategies – The teacher selects, adapts, and uses a repertoire of evidence-based instructional strategies and interventions to advance learning of individuals with exceptionalities.

Knowledge

1. The teacher knows how to consider an individual’s abilities, interests, learning environments, and cultural and linguistic factors in the selection, development, and adaptation of learning experiences for individual with exceptionalities.
2. The teacher understands technologies used to support instructional assessment, planning, and delivery for individuals with exceptionalities.
3. The teacher is familiar with augmentative and alternative communication systems and a variety of assistive technologies to support the communication and learning of individuals with exceptionalities.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

4. The teacher understands strategies to enhance language development, communication skills, and social skills of individuals with exceptionalities.
5. The teacher knows how to develop and implement a variety of education and transition plans for individuals with exceptionalities across a wide range of settings and different learning experiences in collaboration with individuals, families, and teams.
6. The teacher knows how to teach to mastery and promotes generalization of learning for individuals with exceptionalities.
7. The teacher knows how to teach cross-disciplinary knowledge and skills such as critical thinking and problem solving to individuals with exceptionalities.
8. The teacher knows how to enhance 21st Century student outcomes such as critical thinking, creative problem solving, and collaboration skills for individuals with exceptionalities, and increases their self-determination.
9. The teacher understands available technologies routinely used to support and manage all phases of planning, implementing, and evaluating instruction.

Performance

1. The teacher plans and uses a repertoire of evidence-based instructional strategies in promoting positive learning results in general and special curricula and in modifying learning environments for individuals with exceptionalities appropriately.
2. The teacher emphasizes explicit instruction with modeling, and guided practice to assure acquisition and fluency, as well as, the development, maintenance, and generalization of knowledge and skills across environments.
3. The teacher matches their communication methods to an individual's language proficiency and cultural and linguistic differences.
4. The teacher utilizes universal design for learning, augmentative and alternative communication systems, and assistive technologies to support and enhance the language and communication of individuals with exceptionalities.
5. The teacher develops a variety of individualized transition plans, such as transitions from preschool to elementary school and from secondary settings to a variety of postsecondary work and learning contexts.
6. The teacher personalizes instructional planning within a collaborative context including the individuals with exceptionalities, families, professional colleagues, and personnel from other agencies as appropriate.

Standard 6: Professional Learning and Ethical Practices – The teacher uses foundational knowledge of the field and their professional Ethical Principles and Practice Standards to inform special education practice, to engage in lifelong learning, and to advance the profession.

Knowledge

1. The teacher understands how foundational knowledge and current issues influence professional practice.
2. The teacher understands that diversity is a part of families, cultures, and schools, and that complex human issues can interact with the delivery of special education services.
3. The teacher understands the significance of lifelong learning and participates in professional activities and learning communities.
4. The teacher understands how to advance the profession by engaging in activities such as advocacy and mentoring.
5. The teacher knows how to create a manageable system to maintain all program and legal records for students with disabilities as required by current federal and state laws.

Performance

1. The teacher uses professional Ethical Principles and Professional Practice Standards to guide their practice.
2. The teacher provides guidance and direction to paraeducators, tutors, and volunteers.
3. The teacher plans and engages in activities that foster their professional growth and keep them current with evidence-based practices.
4. The teacher is sensitive to the aspects of diversity with individuals with exceptionalities and their families, and the provision of effective special education services for English learners with exceptionalities and their families.

Standard 7: Collaboration – The teacher will collaborate with families, other educators, related service providers, individuals with exceptionalities, and personnel from community agencies in culturally responsive ways to address the needs of individuals with exceptionalities across a range of learning experiences.

Knowledge

1. The teacher understands the theory and elements of effective collaboration.
2. The teacher understands how to serve as a collaborative resource to colleagues.
3. The teacher understands how to use collaboration to promote the well-being of individuals with exceptionalities across a wide range of settings and collaborators.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

4. The teacher understands how to collaborate with their general education colleagues to create learning environments that meaningfully include individuals with exceptionalities, and that foster cultural understanding, safety and emotional well-being, positive social interactions, and active engagement.
5. The teacher is familiar with the common concerns of parents/guardians of students with disabilities and knows appropriate strategies to work with parents/guardians to deal with these concerns.
6. The teacher knows about services, networks, and organizations for individuals with disabilities and their families, including advocacy and career, vocational, and transition support.

Performance

1. The teacher collaborates with the educational team to uphold current federal and state laws pertaining to students with disabilities, including due process rights related to assessment, eligibility, and placement.
2. The teacher collaborates with related-service providers, other educators including special education paraeducators, personnel from community agencies, and others to address the needs of individuals with exceptionalities.
3. The teacher involves individuals with exceptionalities and their families collaboratively in all aspects of the education of individuals with exceptionalities.

Idaho Standards for Teachers of the Blind and Visually Impaired

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

In addition to the standards listed here, teachers of the blind and visually impaired must meet Idaho Core Teacher Standards.

The following knowledge and performance statements for the Standards for Teachers of the Blind and Visually Impaired are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The teacher of students with visual impairments is well versed in the foundations for education of the blind and visually impaired, the physiology and functions of the visual system, and the effect of vision impairment has on the instructional program. Further, the teacher collaboratively designs instructional strategies based on the results of specialized assessments.

** This language was written by a committee of content experts and has been adopted verbatim.*

~~*Standard 2: Knowledge of Human Development and Learning—The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*~~

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1. The teacher understands the need for students to establish proper posture body awareness, communication, self- esteem, and social skills, as described in the American Foundation for the Blind Expanded Core Curriculum (Expanded Core Curriculum).
2. The teacher knows the effects of a visual impairment on the student’s family or guardians, and the reciprocal impact on the student’s self-esteem.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

3. The teacher understands the variations in functional capabilities and the diverse implications that various eye diseases have on growth and development.

Performance

1. The teacher provides students with a means to independently access ~~and re-create~~ materials readily available to the sighted world.
2. The teacher prepares students who have visual impairments, including those with additional disabilities, to respond to societal attitudes and actions with ~~positive-appropriate~~ behavior, and self-advocacy, ~~and a sense of humor~~.
3. The teacher designs instructional experiences ~~contingent depending~~ on individual student and familial stages of acceptance of the visual impairment.
4. The teacher communicates information from the optometrist/ophthalmologist report to school personnel to confirm the educational implications of the eye condition and to ensure the student's visual strengths are used.

~~Standard 3: Modifying Instruction for Individual Needs – The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.~~

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

- ~~1.~~ The teacher knows the effects of a visual impairment on language and communication.
- ~~2~~1. The teacher knows the impact of visual disorders on learning, ~~and~~ experience, and concept development.
- ~~3~~2. The teacher knows methods for the development of special auditory, tactual, and modified visual communication skills for students with visual impairments, including those with additional disabilities (e.g., ~~Braille reading and writing, handwriting for students with low vision and signature writing for blind students, listening and compensatory auditory skills, typing and keyboarding skills, unique technology for individuals with visual impairments, and use of alternatives to nonverbal communication~~ For example: assistive technology specific for the auditory and tactual learner, such as screen readers, refreshable braille display; pre-braille skills; braille reading and writing; magnification options; tactile graphics).
- ~~4~~3. The teacher understands the terminology related to diseases and disorders of the human visual system and their impact on language, communication, cognitive, spatial concept, and psychosocial development.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

54. The teacher knows how to critique and evaluate the strengths and limitations of various types of assistive technologies.
65. The teacher knows a variety of input and output enhancements to computer technologies that address the specific access needs of students with visual impairments, including those with additional disabilities, in a variety of environments.
76. The teacher knows techniques for modifying instructional methods and materials for students with visual impairments, including those with additional disabilities, and for assisting classroom teachers in implementing these modifications.
- ~~8. The teacher knows methods to acquire special academic skills, including the use of an abacus; the use of a talking calendar; tactile graphics (including maps, charts, tables, etc.); and adapted science equipment.~~

Performance

1. The teacher teaches, writes, and reads ~~Grade 2~~ literary Braile and Nemeth (math and science) ~~codes when necessary (e.g., music, computer, and Braille), as well as music and computer braille codes.~~
2. The teacher secures specialized materials and equipment and provides training, as needed in a timely manner.
3. The teacher integrates knowledge of the visual impairment when identifying and infusing low vision devices and strategies into the curriculum, learning environments, and instructional techniques.
4. The teacher integrates ophthalmology, optometry, low vision, and functional vision evaluation/learning media assessments information to comprehensively design strategies as part of an IEP or 504.

~~*Standard 5: Classroom Motivation and Management Skills – The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*~~

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher knows and understands factors in the learning environment (e.g., physical layout, organization, teacher behavior and expectations) that affect the learning behavior of students with visual impairments.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. The teacher knows and understands strategies for creating a positive, productive learning environment that fosters student achievement.

1.3. The teacher knows and understands instructional planning and management issues (e.g., time management, caseload management, collaborative planning) related to various models and systems of service delivery (e.g., itinerant, residential, transdisciplinary teaming).

Performance

1. The teacher develops management strategies for meeting students' needs effectively and efficiently in the context of various service delivery models and systems.
2. The teacher organizes learning environments to facilitate students' acquisition of concepts and skills in, both, the general education and Expanded Core Curriculum.
3. The teacher applies organizational strategies that maximize students' ability to benefit from learning activities (e.g., strategies that help them orient themselves, move comfortably in the environment, interact positively with peers).

~~*Standard 1: Knowledge of Subject Matter – The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.*~~

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The teacher knows the historical foundations for the education of children with visual impairments, including ~~the array~~ a continuum of service options.
2. The teacher knows about consumer and professional organizations, journals, networks, and services relevant to the field of visual impairment, including deafblindness.
3. The teacher knows and understands federal laws and regulations related to the educational rights of all students with disabilities (e.g., The Americans with Disabilities Act, The Individuals with Disabilities Education Act, Section 504) and those that specifically address students who are blind or visually impaired (e.g., federal entitlements for the provision of specialized equipment and materials, such as the American Printing House for the Blind Quota Funds).
4. The teacher possesses an in-depth knowledge of the variances in the medical, federal, and state definitions of visual impairment, identification criteria, labeling issues, incidence and prevalence figures, and how each component interacts with eligibility determinations for service.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

5. The teacher knows specialized policies and resources regarding referral and placement procedures for students with visual impairments.

6. The teacher knows the effects of medications on the visual system.

~~Standard 6: Communication Skills – The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.~~

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

1. The teacher knows and understands factors that promote or hinder effective communication and collaboration with students, parents/guardians, paraprofessionals, teachers, administrators, and other school and community personnel.

2. The teacher knows and understands the collaborative roles of students, parents/guardians, classroom teachers, and other school and community personnel in planning and implementing students' IEPs, 504s and IFSPs.

3. The teacher knows and understands the roles of related service personnel (e.g., certified orientation & mobility specialists, physical therapists, school nurses, counselors, rehabilitation staff), and paraprofessionals (e.g., transcribers) in the education of students with visual impairments, including those with additional disabilities.

Performance

1. The teacher applies skills for communicating and collaborating effectively with teachers, paraprofessionals, and other school and community personnel to enhance learning opportunities for students with visual impairments, and ensures that students receive the services they need.

2. The teacher uses effective strategies for helping classroom teachers understand the effects of visual impairments on learning, for ensuring that teachers receive necessary support (e.g., training and the use of equipment, braille materials for lessons, interlined transcriptions of students' written work in braille), and for ensuring that students have full access to needed adaptations and resources.

3. The teacher works collaboratively with professionals, family members and other personnel to help provide child-centered intervention for infants, toddlers, preschoolers and school-age students with visual impairments.

4. The teacher serves as a resource for parents/guardians and others in the school and community in regard to students with visual impairments and how to promote their learning and address their needs.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

~~*Standard 8: Assessment of Student Learning – The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.*~~

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

1. The teacher knows the procedures used for screening, pre-referral, referral, and classifications of students with visual impairments, including vision screening methods, functional vision evaluation, and learning media assessment.
2. The teacher possesses an in-depth knowledge of procedures for adapting and administering assessments for the intervention, referral, and identification of students with a visual impairment, including those with additional disabilities.

Performance

1. The teacher conducts alternative as well as functional evaluations of visual, literacy, ~~pre-~~basic orientation and mobility, and educational performance.
2. The teacher uses information obtained through functional, alternative, and standardized assessments to plan, deliver, and modify instructional and environmental factors, including IEP or 504 development.

~~*Standard 7: Instructional Planning Skills – The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.*~~

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

1. The teacher ~~knows about consumer and professional organizations, journals, networks, and services relevant to the field of visual impairment~~ and understands factors in the learning environment (e.g., physical layout, organization, teacher behaviors and expectations) that affect the learning and behavior of students with visual impairments.
2. The teacher knows and understands ~~the educational implications of federal entitlements and funding, and how this relates to the provision of specialized materials and equipment resources available for individuals with visual impairments, including deaf blindness and those with additional disabilities (e.g., APH materials, textbooks, agencies).~~
3. The teacher ~~possesses an in-depth knowledge of the variances in the medical, federal, and~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

~~state definitions of visual impairment, identification criteria, labeling issues, incidence and prevalence figures, and how each component interacts with eligibility determinations for service~~ knows and understands techniques for creating and adapting instructional materials (e.g., brailled, enlarged, outlined, highlighted) for students with visual impairments.

- ~~4. The teacher knows specialized policies regarding referral and placement procedures for students with visual impairments.~~

Performance

1. The teacher organizes learning environments to facilitate students' acquisition of concepts and skills in, both, the general education and Expanded Core Curriculum.
2. The teacher uses visual, tactile, auditory and other adaptations to design multisensory learning environments that promote students' full participation and independent learning in a variety of group and individual contexts.
3. The teacher works collaboratively with the educational team to implement adaptations designed to compensate for visual impairments.

~~*Standard 4: Multiple Instructional Strategies – The teacher understands and uses a variety of instructional strategies to develop student learning.*~~

Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

1. The teacher possesses in-depth knowledge of methods, materials, and assistive technology for providing for the development of cognitive, auditory, tactual, and communication skills for the blind and visually impaired, including those with additional disabilities.
2. The teacher knows how to assist the student in related Expanded Core Curriculum skills, including developing visual, auditory, and tactile efficiency as well as ~~pre-cane~~ basic orientation and mobility skills.
3. The teacher knows how to assist the student in developing alternative organizational and study skills.
4. The teacher knows methods for providing adapted physical and recreation skills for ~~individuals~~ students who have visual impairments, including those with additional disabilities.
5. The teacher knows functional life skills instruction relevant to independent, community, and personal living and to employment for individuals with blindness, visual impairments, and co-occurring impairments, including methods for accessing printed public information, public transportation, community resources, and acquiring practical skills (e.g., keeping

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

personal records, time management, banking, emergency procedures, etc.).

6. The teacher knows strategies and resources for developing transition plans and career awareness ~~and provides vocational counseling for students who have visual impairments.~~

Performance

1. The teacher designs, sequences, implements, and evaluates modifications for daily living skills, ~~which provide for to increase~~ independence.
2. The teacher implements integrated learning experiences that are multi-sensory and encourage active participation, self-advocacy, and independence.
3. The teacher integrates knowledge of the visual impairment and co-occurring disabilities with child developmental ~~progression~~ when designing and implementing cognitive, communication, and social skills instruction.

~~*Standard 9: Professional Commitment and Responsibility – The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*~~

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

1. The teacher knows and understands ethical responsibilities of teachers of students with visual impairments (e.g., advocating for students and their families, seeking improvements in the quality of students' educational services, pursuing ongoing professional development).
2. The teacher knows and understands the functions of agencies, consumer organizations and initiatives that promote nation-wide standards of excellence for the provision of services to students with visual impairments.
3. The teacher knows and understands the functions of professional organizations, publications and activities relevant to ongoing practice and professional development in the field of visual impairment.

Performance

1. The teacher applies knowledge of research-based practices and current trends and issues in the field of visual impairment to provide students with educational programming, materials, and services they need to achieve to their full potential.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. The teacher applies knowledge of legal requirements and documentation related to issues such as referral, evaluation, eligibility criteria, due process, confidentiality and least restrictive environment.
3. The teacher applies knowledge of state requirements and professional guidelines regarding the provision of services to students with visual impairments (e.g., caseloads, funding, array of service options).

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

1. The teacher knows strategies for assisting parents/family, guardians, and other professionals, and other members of the community in planning appropriate transitions for students who have visual impairments, including those with additional disabilities.
2. The teacher knows the roles of paraprofessionals who work directly with students who have visual impairments, including those with additional disabilities, (e.g., sighted readers, transcribers, aides, ~~etc.~~) or who provide special materials to them.
3. The teacher knows ~~teacher that the~~ attitudes, expectations, and behaviors of professionals and peers will that affect the behaviors of students with visual impairments, including those with additional disabilities.
4. The teacher knows and understands The Family Education Rights and Privacy Act (FERPA).

Performance

1. The teacher collaborates with parents, guardians, and other members of the community integral to the student's learning and development.
2. The teacher clarifies the roles of paraprofessionals who work directly with students who have visual impairments, including those with additional disabilities, (e.g., readers, transcribers, aides) or who provide special materials to those students.
3. The teacher complies with FERPA.

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

Standard 11: The teacher knows how to read and produce contracted and uncontracted Literary Braille and Nemeth Codes.

Knowledge

1. The teacher knows and understands skills for reading and producing Literary Braille (uncontracted and contracted) and Nemeth Codes.
2. The teacher knows and understands the rules of the Literary Braille and Nemeth Codes, including formatting.

Performance

1. The teacher applies skills for reading and producing Literary Braille (uncontracted and contracted) and Nemeth Codes with a braille writer and slate and stylus.
2. The teacher applies the rules of the Literary Braille and Nemeth Codes when producing and adapting student work.
3. The teacher uses resources to obtain age-appropriate braille materials (e.g., APH materials, parent resources, braille production centers).

Idaho Standards for Special Education Teachers of Students Who Are Deaf/~~and/or~~ Hard of Hearing

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

In addition to the standards listed here, teachers of the deaf and hard of hearing must meet Idaho Core Teacher Standards.

The following knowledge and performance statements for the Standards for Teachers of the ~~D~~deaf and hard of hearing are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

** This language was written by a committee of content experts and has been adopted verbatim.*

~~**Standard 2: Knowledge of Human Development and Learning – The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.**~~

~~**Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.**~~

Knowledge

1. The teacher understands how etiology, age of onset, age of identification, age at provision of services, and degree of hearing loss impact status influence a student’s language development and ability to learning.
2. The teacher understands that being deaf/~~and/or~~ hard of hearing alone does not necessarily preclude normal academic development, cognitive development, or communication ability.
3. The teacher understands how learning and language development occur and the impact of instructional choices on deaf/~~and/or~~ hard of hearing students so they achieve age

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

appropriate levels of literacy, academics, and social emotional development.

Performance

1. The teacher identifies levels of language and literacy development and designs lessons and opportunities that are appropriate.
2. The teacher identifies levels of language and general academics and designs lessons and opportunities that are appropriate.
3. The teacher identifies levels of social/emotional development and designs lessons and opportunities that are appropriate.

~~*Standard 3: Modifying Instruction for Individual Needs – The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students’ diverse needs and experiences.*~~

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

1. The teacher understands how hearing ~~loss~~ status may ~~impact~~ influence student development in the following areas: (i.e., sensory, cognitive, communication, physical, behavioral, cultural, social, and emotional).
2. The teacher knows the characteristics and impacts of hearing ~~loss~~ status, and the subsequent need for alternative modes of communication and/or instructional strategies.
3. The teacher understands the need for ~~accommodation for~~ English language learning for students whose native language is American Sign Language (ASL).
4. The teacher understands the need for differentiated instruction for language learning for emergent language users.
5. The teacher understands that an Individualized Education Plan (IEP), including all current State and Federal guidelines for deaf/hard of hearing students should consider the following: communication needs; ~~and~~ the student and family’s preferred mode of communication; linguistic needs; ~~severity of hearing~~ status ~~loss~~ and potential for using ~~residual hearing auditory access~~; assistive technology; academic level; and social, emotional, and cultural needs, including opportunities for peer interactions and communication ~~(i.e., Federal Policy Guidance, October 30, 1993).~~

Performance

1. The teacher uses information concerning hearing ~~loss~~ status (i.e., sensory, cognitive, communication, linguistic needs); ~~severity of hearing loss~~; potential for using ~~residual hearing auditory access~~; academic level; social, emotional, and cultural needs; ~~and~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

~~opportunities for adapting in planning and implanting differentiated~~ instruction and peer interactions and communication.

~~*Standard 5: Classroom Motivation and Management Skills – The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*~~

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher understands the unique social and emotional needs of students who are deaf/ ~~and/or~~ hard of hearing and knows strategies to facilitate the development of healthy self-esteem and identity.
2. The teacher understands that ~~d~~Deaf cultural factors, communication ~~challenges~~, and family influences impact classroom management of students.
3. The teacher understands the role of and the relationship among the teacher, interpreter, and student.

Performance

1. The teacher designs a classroom environment to maximize opportunities for students' visual and/or auditory ~~learning~~ access.
2. The teacher ~~plans and implements instruction for students who are deaf and/or hard of hearing and have multiple disabilities~~ creates a learning environment that encourages self-advocacy and the development of a positive self-identity.
3. The teacher prepares students for the appropriate use of interpreters and support personnel.

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The teacher understands the theories, history, cultural perspectives, philosophies, and models that provide the basis for education of the deaf/ ~~and/or~~ hard of hearing.
2. The teacher knows the various educational placement options ~~that are consistent with~~

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

~~program philosophy~~ and how they ~~impact~~ influence a deaf/~~and/or~~ hard of hearing student's cultural identity and linguistic, academic, social, and emotional development.

3. The teacher understands the complex facets regarding issues related to deaf/~~and/or~~ hard of hearing individuals and working with their families (e.g., cultural and medical perspectives).

Performance

1. The teacher uses the tools, models, and strategies appropriate to the needs of students who are deaf/~~and/or~~ hard of hearing.
2. The teacher ~~communicates~~ educates others regarding the potential benefits, ~~strengths~~, and constraints of ~~educating the deaf and/or hard of hearing (e.g., the following: cochlear implants, hearing aids, other amplification usage, sign language systems, ASL, use of technologies, and communication modalities).~~

~~Standard 6: Communication Skills—The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.~~

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

1. The teacher understands the role of the interpreter and the use and maintenance of assistive ~~devices~~ technology.
2. The teacher knows resources, materials, and techniques relevant to communication choices (e.g., total communication, cued speech, ASL, ~~aural/oral~~ listening and spoken language (LSL), hearing aids, cochlear implants, augmentative and assistive equipment, FM systems, and closed captioning).

Performance

1. The teacher uses resources, materials, and techniques that promote effective instruction for students who are deaf/~~and/or~~ hard of hearing (e.g., total communication, cued speech, ASL, ~~aural/oral~~ LSL, hearing aids, cochlear implants, augmentative and assistive ~~equipment~~ technology, FM systems, and closed captioning).
2. The teacher meets and maintains the proficiency requirements of the linguistic and educational environment of the student/program. For teachers to be employed in programs where sign language is used for communication and instruction, the teacher will meet one of the following to demonstrate sign language proficiency: 1) score Intermediate Plus level or above as measured by the Sign Language Proficiency Interview (SLPI), 2) receive 3.5 or above on the Educational Interpreter Performance Assessment (EIPA), or 3) obtain the National Registry of Interpreters for the Deaf Certification (RID).

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

3. The teacher maintains a learning environment that facilitates the services of the interpreter, note taker, and other support personnel, and implementation of other accommodations.
3. The teacher ~~enables~~ provides instruction to students ~~to~~ on the effective use of appropriate support personnel and assistive technology.

~~*Standard 8: Assessment of Student Learning – The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.*~~

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

1. The teacher knows specialized terminology used in the assessment of students who are deaf ~~and/or~~ hard of hearing.
2. The teacher knows the appropriate assessment accommodations ~~for the particular degree of hearing loss.~~
3. The teacher understands the components of an adequate evaluation for eligibility, placement, and program planning decisions for students who are deaf/hard of hearing (e.g., interpreters and special tests).

Performance

1. The teacher ~~participates in the design of~~ uses appropriate assessment tools that use the natural, native, or preferred language of the student who is deaf ~~and/or~~ hard of hearing.
2. The teacher designs and uses appropriate formative assessment tools.
3. The teacher gathers and analyzes communication samples to determine nonverbal and linguistic skills of students who are deaf ~~and/or~~ hard of hearing as a function part of appropriate academic assessment.
4. The teacher uses data from assessments to inform instructional decision making to develop present levels of performance (PLOP) and IEP goals.

~~*Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.*~~

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

1. The teacher knows Federal and State special education laws (IDEA).
2. The teacher knows how to develop a meaningful and compliant IEP.

Performance

1. The teacher, as an individual and a member of a team, selects and creates learning experiences that are: aligned to State curriculum standards, relevant to students, address and align to students' IEP goals, based on principles of effective instruction and performance modes.
2. The teacher implements the IEP.

~~*Standard 4: Multiple Instructional Strategies – The teacher understands and uses a variety of instructional strategies to develop student learning.*~~

~~*Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*~~

Knowledge

1. The teacher knows how to enhance instruction through the use of technology, visual materials and experiential activities to increase outcomes for students who are deaf/~~and/or~~ hard of hearing.
2. The teacher knows how to develop instruction that incorporates critical thinking, problem solving, and performance skills.

Performance

1. The teacher ~~develops and implements best practices and strategies in relation to the degree of hearing loss to support the needs of the whole child~~evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and the unique needs of students who are deaf/hard of hearing.
2. The teacher maintains a learning environment that facilitates the services of the educational interpreter, note taker, and other support personnel, as well as other accommodations.
3. The teacher enables students who are deaf/hard of hearing to use support personnel and assistive technology.

~~*Standard 9: Professional Commitment and Responsibility – The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

1. The teacher knows The Code of Ethics for Idaho Professional Educators.
2. The teacher knows about laws affecting deaf/hard of hearing citizens and students.
3. The teacher knows a variety of self-assessment strategies for reflecting on the practice of teaching for deaf/hard of hearing students.
4. The teacher is aware of the personal biases related to the field of education of deaf/hard of hearing children that affect teaching and knows the importance of presenting issues with objectivity, fairness, and respect.
5. The teacher knows where to find and how to access professional resources on teaching deaf/hard of hearing students and subject matters, and cultural perspectives.
6. The teacher knows about professional organizations within education in general and education of deaf/hard of hearing students and understands the need for professional activity and collaboration beyond the school.
7. The teacher understands the dynamics of change and recognizes that the field of education is not static.
8. The teacher knows how to use technology to enhance productivity and professionalism.

Performance

1. The teacher practices behavior congruent with The Code of Ethics for Idaho Professional Educators.
2. The teacher adheres to local, state, and federal laws, including laws affecting deaf/hard of hearing citizens and students.
3. The teacher uses a variety of sources for evaluating his/her teaching (e.g., classroom observation, student achievement data, information from parents and students, and current research in the field of education of deaf/hard of hearing students).
4. The teacher uses self-reflection as a means of improving instruction.
5. The teacher participates in meaningful professional development opportunities in order to learn current, effective teaching practices.

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

6. The teacher stays abreast of professional literature, consults colleagues, and seeks other resources to support development as both a learner and a teacher.
7. The teacher engages in professional discourse about subject matter knowledge and pedagogy, as well as knowledge and pedagogy related to the education of deaf/hard of hearing students.
8. The teacher uses technology to enhance productivity and professionalism.

~~Standard 10: Partnerships – The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.~~

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

1. The teacher understands the roles and responsibilities of teachers and support personnel in educational practice for deaf/~~and/or~~ hard of hearing students (e.g., educational interpreters, class teachers, transliterators, tutors, note takers, and audiologist).
2. The teacher knows of available resources ~~available to help parents/guardians deal with concerns regarding educational options and communication modes/philosophies for deaf/hard of hearing children.~~
3. The teacher understands the effects of communication on the development of family relationships and knows strategies to facilitate communication with in a family that includes a students who ~~are-is~~ deaf/~~and/or~~ hard of hearing students.
4. The teacher knows the continuum of services provided by individuals and ~~by governmental and non-governmental~~ agencies in the ongoing ~~management~~ support of students who are deaf/~~and/or~~ hard of hearing.

Performance

1. The teacher facilitates the coordination of support personnel (e.g., interpreters and transliterators) and agencies to meet the communication needs of students who are deaf/~~and/or~~ hard of hearing.
2. The teacher accesses and shares information about available resources with family and community.

Teacher Leader Standards

The following knowledge and performance statements for the Standards for teacher leaders are widely recognized, but not all-encompassing or absolute, indicators that teacher leader candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

** This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Understanding Adults as Learners to Support Professional Learning Communities - The teacher leader understands how adults acquire and apply knowledge and uses this information to promote a culture of shared accountability for school outcomes that maximizes teacher effectiveness, promotes collaboration, enlists colleagues to be part of a leadership team, and drives continuous improvement in instruction and student learning.

Knowledge: The teacher leader demonstrates knowledge of:

1. The differences in knowledge acquisition and transfer for children and adults.
2. Stages of career development and learning for colleagues and application of the concepts of adult learning to the design and implementation of professional development.
3. Effective use of individual interactions, structures and processes for collaborative work including networking, facilitation, team building, and conflict resolution.
4. Effective listening, oral communication, presentation skills, and expression in written communication.
5. Research and exemplary practice on "organizational change and innovation".
6. The process of development of group goals and objectives.

Performance: The teacher leader:

1. Demonstrates knowledge and skills for high quality professional learning for individuals as well as groups and assesses teachers' content knowledge and skills throughout professional learning.
2. Improves colleagues' acquisition and application of knowledge and skills.

3. Fosters mutually respectful and productive relationships among colleagues and guides purposeful collaborative interactions, inclusive of team members' ideas and perspectives.
4. Uses effective communication skills and processes.
5. Demonstrates the ability to adapt to the contextual situation and make effective decisions, demonstrates knowledge of the role of creativity, innovation, and flexibility in the change process.
6. Facilitates development of a responsive culture with shared vision, values, and responsibility and promotes team-based responsibility for assessing and advancing the effectiveness of practice.

Standard 2: Accessing and Using Research to Improve Practice and Student Achievement - The teacher leader understands how educational research is used to create new knowledge, promote specific policies and practices, improve instructional practice and make inquiry a critical component in teacher learning and school redesign; and uses this knowledge to model and facilitate colleagues' use of appropriate research-based strategies and data-driven action plans.

Knowledge: The teacher leader demonstrates knowledge of:

1. Action research methodology.
2. Analysis of research data and development of a data-driven action plan that reflects relevance and rigor.
3. Implementation strategies for research-based change and for dissemination of findings for programmatic changes.

Performance: The teacher leader:

1. Models and facilitates relevant and targeted action research and engages colleagues in identifying research questions, designing and conducting action research to improve educational outcomes.
2. Models and facilitates analysis and application of research findings for informed decision making to improve educational outcomes with a focus on increased productivity, effectiveness and accountability.
3. Assists with application and supports dissemination of action research findings to improve educational outcomes.

Standard 3: Promoting Professional Learning for Continuous Improvement - The teacher leader understands the constantly evolving nature of teaching and learning, new and emerging technologies and changing community demographics; and uses this knowledge to promote and facilitate structured and job-embedded professional learning initiatives aligned to school improvement goals.

Knowledge: The teacher leader demonstrates knowledge of:

1. The standards of high quality professional development and their relevance to improved learning.
2. Effective use of professional development needs assessment, designs, protocols, and evaluation tools; selection and evaluation of resources appropriate to the identified need(s) along the professional career continuum.
3. The role of 21st century skills and technologies in educational practice.
4. The role of shifting cultural demographics in educational practice.

Performance: The teacher leader:

1. Accurately identifies the professional development needs and opportunities for colleagues in the service of improving education.
2. Works with staff and staff developers to design and implement ongoing professional learning based on assessed teacher and student needs and involves colleagues in development and implementation of a coherent, systemic, and integrated approach to professional development aligned with school improvement goals.
3. Utilizes and facilitates the use of technology, statewide student management system, and media literacy as appropriate.
4. Continually assesses the effectiveness of professional development activities and adjusts appropriately.

Standard 4: Facilitating Improvements in Instruction and Student Learning - The teacher leader demonstrates a deep understanding of the teaching and learning process and uses this knowledge to advance the professional skills of colleagues by being a continuous learner, modeling reflective practice based on student results, and working collaboratively with colleagues to ensure instructional practices are aligned to a shared vision, mission and goal.

Knowledge: The teacher leader demonstrates knowledge of:

1. Research-based curriculum, instruction, and assessment and their alignment with desired outcomes.
2. The Framework for Teaching, effective observation and strategies for providing instructional feedback.

3. Role and use of critical reflection in improving professional practice.

Performance: The teacher leader:

1. Recognizes, analyzes, and works toward improving the quality of colleagues' professional and instructional practices.
2. Based upon the Framework for Teaching, has proof of proficiency in recognizing effective teaching and uses effective observation techniques to identify opportunities to improve curriculum, instruction, and assessment.
3. Provides observational feedback that demonstrates the intent to improve curriculum, instruction, and assessment.
4. Develops, leads and promotes a culture of self-reflection and reflective dialogue.

Standard 5: Using Assessments and Data for School and District Improvement - The teacher leader is knowledgeable about current research on assessment methods, designing and/or selecting effective formative and summative assessment practices and use of assessment data to make informed decisions that improve student learning; and uses this knowledge to promote appropriate strategies that support continuous and sustainable organizational improvement.

Knowledge: The teacher leader demonstrates knowledge of:

1. Design and selection of suitable evaluation instruments and effective assessment practices for a range of purposes.
2. Use of formative and summative data to inform the continuous improvement process.
3. Analysis and interpretation of data from multiple sources.

Performance: The teacher leader:

1. Informs and facilitates colleagues' selection or design of suitable evaluation instruments to generate data that will inform instructional improvement.
2. Models use of formative and summative data to inform the continuous improvement process.
3. Informs and facilitates colleagues' interpretation of data and application of findings from multiple sources (e.g., standardized assessments, demographics and other).

Standard 6: Improving Outreach and Collaboration with Families and Community - The teacher leader understands that families, cultures and communities have a significant impact on educational processes and student achievement and uses this knowledge to promote frequent and more effective outreach with families, community members, business and community leaders and other stakeholders in the education system.

Knowledge: The teacher leader demonstrates knowledge of:

1. Child development and conditions in the home, culture and community and their influence on educational processes.
2. Contextual considerations of the family, school, and community and their interaction with educational processes.
3. Effective strategies for involvement of families and other stakeholders as part of a responsive culture.

Performance: The teacher leader:

1. Develops colleagues' abilities to form effective relationships with families and other stakeholders.
2. Recognizes, responds and adapts to contextual considerations to create effective interactions among families, communities, and schools.
3. Improves educational outcomes by promoting effective interaction and involvement of teachers, families, and stakeholders in the educational process.

Standard 7: Advocating for Student Learning and the Profession - The teacher leader understands how educational policy is made at the local, state and national level as well as the roles of school leaders, boards of education, legislators and other stakeholders in formulating those policies; and uses this knowledge to advocate for student needs and for practices that support effective teaching and increase student learning and to serve as an individual of influence and respect within the school, community and profession.

Knowledge: The teacher leader demonstrates knowledge of:

1. Effective identification and interpretation of data, research findings, and exemplary practices.
2. Alignment of opportunities with identified needs and how to synthesize information to support a proposal for educational improvement.
3. Local, state and national policy decisions and their influence on instruction.
4. The process to impact policy and to advocate on behalf of students and the community.

Performance: The teacher leader:

1. Identifies and evaluates needs and opportunities.
2. Generates ideas to effectively address solutions/needs.
3. Analyzes feasibility of potential solutions and relevant policy context.
4. Advocates effectively and responsibly to relevant audiences for realization of opportunities.

Idaho Standards for Teacher Librarians

In addition to the standards listed here, teacher librarians must meet Idaho Core Teacher Standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The school library is a classroom that serves as the instructional center of the school and needs the expertise of a professionally trained teacher librarian. The teacher librarian is an experienced classroom teacher with additional specialized training in the discipline of school librarianship.

In the rapidly evolving library landscape, teacher librarians promote and provide information literacy expertise in collaboration with the school community.

The management of a school library requires a special set of skills above and beyond those of a classroom teacher. Collection development and management, cataloging and resource sharing, technology use and maintenance, budgeting, ethical and effective information management, supervision of staff and volunteers, and providing ongoing professional development for staff are just some of the unique expectations for teacher librarians.

This document utilizes language and ideas adapted from the *Idaho Standards for Library Science Teachers* (2007) and the *ALA/AASL Standards for Initial Preparation of School Librarians* (2010).

Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Knowledge

1. The teacher librarian is an effective teacher with knowledge of learners and learning.
2. The teacher librarian is aware of reading and information materials in a variety of formats that support the diverse developmental, cognitive, social, emotional, and linguistic needs of K-12 students and their communities.
3. The teacher librarian recognizes the importance of developmentally appropriate and challenging learning experiences.

Performance

1. The teacher librarian develops a collection of reading and information materials in a variety of formats that support the diverse developmental, cognitive, social, emotional, and linguistic needs of K-12 students and their communities.
2. The teacher librarian collaborates with all members of the learning community to help meet individual learner needs.
3. The teacher librarian supports the staff by locating and providing resources that enable members of the learning community to become effective users of ideas and information.
4. The teacher librarian, independently and in collaboration with other teachers, designs and implements developmentally appropriate and challenging learning experiences.

Standard 2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Knowledge

1. The teacher librarian is aware of and respects the diverse cultures within the entire learning community.
2. The teacher librarian is aware of reading and information materials in a variety of formats that support the diverse cultural needs of K-12 students and their communities.
3. The teacher librarian recognizes the importance of culturally significant learning experiences.

Performance

1. The teacher librarian develops a collection of reading and information materials in a variety of formats that support the diverse cultures and communities of K-12 students.
2. The teacher librarian works with all members of the learning community to help determine and locate appropriate materials to respect their cultural diversity.

Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Knowledge

1. The teacher librarian has an understanding of evolving library spaces that provide a positive, productive learning environment, with enough time and space for all members of the learning community to access and utilize resources and technology.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. The teacher librarian knows the importance of a balanced, organized, and varied library collection that supports curricula, fulfills diverse student, staff, and community needs, and brings a global perspective into the school environment.

Performance

1. The teacher librarian creates a positive environment to promote and model the habit of lifelong reading and learning.
2. The teacher librarian supports flexible, open access for library services.
3. The teacher librarian demonstrates the ability to develop solutions for addressing physical, social and intellectual barriers to equitable access to resources and services.
4. The teacher librarian facilitates access to information in a variety of formats.
5. The teacher librarian organizes, allocates, and manages the library resources, facilities, and materials to foster a user-friendly environment.
6. The teacher librarian provides a respectful, positive, and safe climate.
7. The teacher librarian models and facilitates the effective use of current and emerging digital tools and technology.
8. The teacher librarian proactively manages the unpredictable traffic flow, accounting for academic visits, drop-in traffic, and patron visits during non-instructional times, enforcing school expectations while maintaining a positive climate.

Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Knowledge

1. The teacher librarian understands the documents and policies that promote intellectual freedom and freedom of expression.
2. The teacher librarian understands the concepts of information literacy (e.g., reading, information, media, computer, and visual literacies).
3. The teacher librarian is familiar with a wide range of children's, young adult, and professional literature in multiple formats and languages to support reading for information, pleasure, and lifelong learning.
4. The teacher librarian understands the process of cataloging and classifying library materials using professional library standards.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

5. The teacher librarian understands the process of information retrieval and resource sharing.
6. The teacher librarian understands management techniques, including time management and supervision that ensure the efficient operation of the school library.
7. The teacher librarian understands the principles of basic budget planning and collection development (e.g., selection, processing, and discarding). The teacher librarian understands the grant application process.
8. The teacher librarian understands the importance of policies and procedures that support teaching and learning in school libraries.

Performance

1. The teacher librarian adheres to the legal and ethical tenets expressed in the ALA Policy on Confidentiality of Library Records, Privacy: An Interpretation of the Library Bill of Rights, and the ALA Code of Ethics.
2. The teacher librarian teaches and models the concepts of information literacy (e.g., reading, information, media, computer, and visual literacies).
3. The teacher librarian reads, recommends, and promotes a wide and diverse range of children's and young adult literature in multiple formats that reflect cultural diversity to foster habits of creative expression and support reading for information, pleasure, and lifelong learning.
4. The teacher librarian catalogs and classifies library materials using professional library standards.
5. The teacher librarian initiates and participates in resource sharing with public, academic, and special libraries, and with networks and library consortia.
6. The teacher librarian organizes, allocates, and manages the library resources, facilities, time, activities, and materials to provide a broad range of opportunities for learning.
7. The teacher librarian administers and trains staff to ensure an effective school library program.
8. The teacher librarian utilizes best practices to plan and budget resources in a fiscally responsible manner.
9. The teacher librarian uses professional publications that provide guidance in the selection of quality materials and to maintain current awareness of the emerging in the library field.
10. The teacher librarian develops, implement, and evaluate policies and procedures that support teaching and learning in school libraries.

Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Knowledge

1. The teacher librarian understands the scope and sequence of curricula, how they interrelate, and the information resources needed to support them.
2. The teacher librarian has a wide range of cross-curricular interests and a broad set of interdisciplinary research skills.

Performance

1. The teacher librarian participates on collaborative teaching teams as a peer or leader to integrate information skills, provide access to resources, and promote effective use of technology across the curriculum.
2. The teacher librarian models multiple strategies for students, other teachers, and administrators to locate, evaluate, and ethically use information for specific purposes.
3. The teacher librarian reads, recommends, and promotes a wide and diverse range of children's and young adult literature in multiple formats that reflect cultural diversity to foster habits of creative expression and support reading for information, pleasure, and lifelong learning.
4. The teacher librarian determines collection development needs based on a variety of input, including curricula, patron input, circulation statistics, and professional reading.
5. The teacher librarian promotes appropriate use of relevant and reliable information and instruction technologies.

Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

1. The teacher librarian understands many methods of assessing the library program.
2. The teacher librarian has an awareness of a wide variety of formative and summative assessment strategies.

Performance

1. The teacher librarian communicates and collaborates with students, teachers, administrators, and community members to develop a library program that aligns resources, services, and standards with the school's mission.
2. The teacher librarian makes effective use of data and information to assess how the library

program addresses the needs of diverse communities.

3. The teacher librarian collaborates with other teachers to create student assessment opportunities in a variety of formats.

Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Knowledge

1. The teacher librarian understands how to develop and implement the school library mission, goals, objectives, policies, and procedures that reflect the mission, goals, and objectives of the school.
2. The teacher librarian understands effective principles of teaching and learning in collaborative partnership with other educators.
3. The teacher librarian acknowledges the importance of participating in curriculum development.

Performance

1. The teacher librarian develops and implements the school library mission, goals, objectives, policies, and procedures.
2. The teacher librarian identifies appropriate services, resources, and technology to meet diverse learning needs.
3. The teacher librarian includes a variety of reading and information materials in instruction and prompts students through questioning techniques to improve performance.
4. The teacher librarian collaborates with other teachers as they create, implement, and evaluate lessons, and models the use of information tools to meet the developmental and individual needs of diverse students.
5. The teacher librarian uses appropriate print and/or electronic instructional resources to design learning experiences.
6. The teacher librarian models, shares, and promotes effective principles of teaching and learning in collaborative partnership with other educators.
7. The teacher librarian engages in school improvement processes by offering professional development to other educators as it relates to library and information use.

Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

1. The teacher librarian understands how twenty-first century literacy skills support the learning needs of the school community.
2. The teacher librarian recognizes that the effective use of current and emerging digital tools to locate, analyze, evaluate, and use information resources will support researching, learning, creating, and communicating in a digital society.

Performance

1. The teacher librarian designs and adapts relevant learning experiences that engage students in authentic learning through the use of digital tools and resources.
2. The teacher librarian stimulates critical thinking through the skillful use of questioning techniques, and guides students and staff in the selection of materials and information for reading, writing, viewing, speaking, listening, and presenting.
3. The teacher librarian provides opportunities to foster higher order thinking skills and metacognition.
4. The teacher librarian provides access to information from a variety of sources to enrich learning for students and staff.
5. The teacher librarian uses appropriate instructional resources in a variety of formats to design learning experiences.
6. The teacher librarian employs strategies to integrate multiple literacies with content curriculum.
7. The teacher librarian integrates the use of emerging technologies as a means for effective and creative teaching and to support K-12 students' conceptual understanding, critical thinking and creative processes.
8. The teacher librarian collaborates with classroom teachers to reinforce a wide variety of reading instructional strategies to ensure K-12 students are able to create meaning from text.
9. The teacher librarian serves all members of the learning community as facilitator, coach, guide, listener, trainer, and mentor.

Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Knowledge

1. The teacher librarian understands the documents and policies that promote intellectual freedom and freedom of expression.
2. The teacher librarian understands the parameters of information access, resource sharing, and ownership based on principles of intellectual freedom and copyright guidelines.
3. The teacher librarian understands confidentiality issues related to library records.
4. The teacher librarian recognizes the importance of evaluating practice for improvement of the school library program.

Performance

1. The teacher librarian practices the ethical principles of the profession, advocates for intellectual freedom and privacy, and promotes and models digital citizenship and responsibility.
2. The teacher librarian educates the school community on the ethical use of information and ideas.
3. The teacher librarian uses evidence-based research to collect, interpret, and use data to improve practice in school libraries.
4. The teacher librarian models a strong commitment to the profession by participating in professional growth and leadership opportunities through membership in library associations, attendance at professional conferences, reading professional publications, and exploring Internet resources.
5. The teacher librarian uses professional publications to keep current in the field and to assist in the selection of quality materials.

Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

1. The teacher librarian understands various communication and public relations strategies.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. The teacher librarian understands the role and relationship of the school library program's impact on student academic achievement within the context of current educational initiatives.
3. The teacher librarian recognizes the value of sharing expertise with others in the field.

Performance

1. The teacher librarian models and promotes lifelong reading for purposes of seeking information, knowledge, pleasure, and learning.
2. The teacher librarian collaborates with colleagues to enhance the learning environment through improved communication techniques.
3. The teacher librarian works with colleagues to empower students with effective communication techniques and strategies.
4. The teacher librarian advocates for the school library program and the library profession.
5. The teacher librarian participates in decision-making groups to continually improve library services.
6. The teacher librarian participates on collaborative teaching teams as a peer or leader to integrate information skills, provide access to resources, and promote effective use of technology across the curriculum.
7. The teacher librarian demonstrates the ability to establish connections with other libraries and to strengthen cooperation among library colleagues for resource sharing, networking, and facilitating access to information.
8. The teacher librarian articulates the role and relationship of the school library program's impact on student academic achievement within the context of current educational initiatives.
9. The teacher librarian identifies stakeholders within and outside the school community who impact the school library program.
10. The teacher librarian advocates for school library and information programs, resources, and services.
11. The teacher librarian seeks to share expertise with others through in-service, local conferences and other venues.

Idaho Foundation Standards for Visual and Performing Arts Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Visual and Performing Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

**This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structure of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands the history and foundation of arts education.
2. The teacher understands the processes and content of the arts discipline being taught.
3. The teacher understands the relationships between the arts and how the arts enhance a comprehensive curriculum.
4. The teacher understands how to interpret, critique, and assess the arts discipline being taught.
5. The teacher understands the cultural and historical contexts surrounding works of art.
6. The teacher understands that the arts communicate, challenge, and influence cultural and societal values.
7. The teacher understands the aesthetic purposes of the arts and that arts involve a variety of perspectives and viewpoints (e.g., formalist, feminist, social, and political).

8. The teacher understands how to select and evaluate a range of artistic subject matter and ideas appropriate for students' personal and/or career interests.

Performance

1. The teacher provides students with a knowledge base of historical, critical, performance, and aesthetic concepts.
2. The teacher helps students create, understand, and become involved in the arts relevant to students' interests and experiences.
3. The teacher demonstrates technical and expressive proficiency in the particular arts discipline being taught.
4. The teacher helps students identify relationships between the arts and a comprehensive curriculum.
5. The teacher provides instruction to make a broad range of art genres and relevant to students.
6. The teacher instructs students in making interpretations and judgments about their own artworks and the works of other artists.
7. The teacher creates opportunities for students to explore a variety of perspectives and viewpoints related to the arts.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, subjects, the community, curriculum goals, and instructional strategies.

Knowledge

1. The teacher understands state standards for the arts discipline being taught and how to apply those standards in instructional planning.
2. The teacher understands that the processes and tools necessary for communicating ideas in the arts are sequential, holistic, and cumulative.

Performance

1. The teacher incorporates state standards for the arts discipline in his or her instructional planning.
2. The teacher demonstrates that the processes and uses of the tools necessary for the communication of ideas in the arts are sequential, holistic, and cumulative.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Knowledge

1. The teacher understands assessment strategies specific to the creative process.
2. The teacher understands the importance of providing appropriate opportunities for students to demonstrate what they know and can do in the arts.
3. The teacher understands how arts assessments enhance evaluation and student performance across a comprehensive curriculum (e.g., portfolio, critique, performance/presentation).

Performance

1. The teacher assesses students' learning and creative processes as well as finished products.
2. The teacher provides appropriate opportunities for students to display, perform, and be assessed for what they know and can do in the arts.
3. The teacher provides a variety of arts assessments to evaluate student performance.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Knowledge

1. The teacher understands the importance of continued professional growth in his or her discipline.

Performance

1. The teacher contributes to his or her discipline (e.g., exhibits, performances, publications, and presentations).

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Knowledge

1. The teacher understands appropriate administrative, financial, management, and organizational aspects specific to the school/district arts program and its community partners.
2. The teacher understands the unique relationships between the arts and their audiences.

Performance

1. The teacher promotes the arts for the enhancement of the school and the community.
2. The teacher selects and creates art exhibits and performances that are appropriate for different audiences.

Standard 11: Learning Environment - The teacher creates and manages a safe, productive learning environment.

Knowledge

1. The teacher knows the procedures for safely handling, operating, storing, and maintaining the tools and equipment appropriate to his or her art discipline.
2. The teacher understands the use and management of necessary performance and exhibit technologies specific to his or her discipline.

Performance

1. The teacher ensures that students have the skills and knowledge necessary to accomplish art task safety.
2. The teacher manages the simultaneous activities that take place daily in the arts classroom.
3. The teacher operates and manages necessary performance and exhibit technology specific to

**STATE DEPARTMENT OF EDUCATION

**This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher knows the history of theater as a form of entertainment and as a societal influence.
2. The teacher knows the basic theories and processes of play writing.
3. The teacher understands the history and process of acting and its various styles.
4. The teacher understands the elements and purpose of design and technologies specific to the art of theater (e.g., set, make-up, costume, lighting, and sound).
5. The teacher understands the theory and process of directing theater.

Performance

1. The teacher incorporates various styles of acting techniques to communicate character and to honor the playwright’s intent.
2. The teacher supports individual interpretation of character, design, and other elements inherent to theater.

3. The teacher demonstrates proficiency in all aspects of technical theatre.
4. The teacher is able to direct shows for public performance.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Standard 11: Learning Environment- The teacher creates and manages a safe, productive learning environment.

Knowledge

1. The teacher understands how to safely operate and maintain the theatre facility.
2. The teacher understands how to safely operate and maintain technical theatre equipment.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

3. The teacher understands OSHA and State Safety standards specific to the discipline.
4. The teacher understands how to safely manage the requirements unique to the drama classroom (e.g. stage combat, choreography, blocking, rigging, etc.)

Performance

1. The teacher can safely operate and maintain the theatre facility.
2. The teacher can safely operate and maintain technical theatre equipment.
3. The teacher employs OSHA and State Safety standards specific to the discipline.
4. The teacher can safely manage the requirements unique to the drama classroom (e.g. stage combat, choreography, blocking, rigging, etc.)

Idaho Standards for Music Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Music Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

**This language has been written by a committee of content experts and adopted verbatim.*

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge: The teacher understands and knows how to teach:

1. Singing, alone and with others, a varied repertoire of music.
2. Performing on instruments, alone and with others, a varied repertoire of music.
3. Improvising melodies, variations, and accompaniments.
4. Composing and arranging music within specified guidelines.
5. Reading and notating music.
6. Listening to, analyzing, and describing music.
7. Evaluating music and music performances.
8. Understanding relationships between music, the other arts, and disciplines outside the arts.
9. Understanding music in relation to history and culture.

Performance: The teacher is able to demonstrate and teaches:

1. Singing, alone and with others, a varied repertoire of music.
2. Performing on instruments, alone and with others, a varied repertoire of music.
3. Improvising melodies, variations, and accompaniments.
4. Composing and arranging music within specified guidelines.
5. Reading and notating music.
6. Listening to, analyzing, and describing music.
7. Evaluating music and music performances.
8. Understanding relationships between music, the other arts, and disciplines outside the arts.
9. Understanding music in relation to history and culture.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Knowledge

1. The teacher understands and knows how to design a variety of musical learning opportunities for students that demonstrate the sequential, holistic, and cumulative processes of music education.

Performance

1. The teacher is able to teach and engage students in a variety of musical learning opportunities that demonstrate the sequential, holistic, and cumulative processes of music education

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Idaho Standards for Visual Arts Teachers

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher understands a variety of media, styles, and techniques in multiple art forms.
2. The teacher has knowledge of individual artists’ styles and understands the historical movements and cultural contexts of those works.
3. The teacher understands the elements and principles of art and how they relate to quality in works of art.
4. The teacher understands art vocabulary, its relevance to art interpretation, its relationship to other art forms and to disciplines across the curriculum.
5. The teacher understands how to use the creative process (brainstorm, research, rough sketch, final product, and reflection) and how to write an artist’s statement.
6. The teacher understands the value of visual art as an expression of our culture and possible career choices.

Performance

1. The teacher applies a variety of media, styles, and techniques in multiple art forms.
2. The teacher instructs students in individual artist styles and understands historical movements and cultural context of the those work
3. The teacher applies the elements and principles of art and how they relate to quality in works of art.
4. The teacher applies art vocabulary, its relevance to art interpretation, and relationship to other art forms and to disciplines across the curriculum
5. The teacher demonstrates how to use the creative process (brainstorm, research, rough sketch, final product) and how to write an artist statement.
6. The teacher creates an emotionally safe environment for individual interpretation and expression in the visual arts.
7. The teacher makes reasoned and insightful selections of works of art to support teaching goals.
8. The teacher provides opportunities for students to collect work over time (portfolio) to reflect on their progress, and to exhibit their work.
9. The teacher creates opportunities for students to realize the value of visual art as an expression of our culture and possible career choices.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop student learning.

Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster learning and communication skills in the classroom.

Standard 7: Instructional Planning Skills - The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.

Standard 8: Assessment of Student Learning - The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine teaching effectiveness.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Idaho Standards for World Languages Teachers

All teacher candidates are expected to meet or exceed the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the World Languages Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that assures attainment of the standards and is consistent with its conceptual framework.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

** This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Knowledge of Subject Matter - The teacher understands the central concepts, tools of inquiry, and structures of the disciplines taught and creates learning experiences that make these aspects of subject matter meaningful for students.

Knowledge

1. The teacher knows the ACTFL (American Council on the Teaching of Foreign Languages) Proficiency Guidelines for listening, speaking, reading, and writing.
2. The teacher knows the target culture(s) in which the language is used.
3. The teacher understands key linguistic structures particular to the target language and demonstrates the way(s) in which they compare to English communication patterns.
4. The teacher knows the history, arts, and literature of the target culture(s).
5. The teacher knows the current social, political, and economic realities of the countries related to the target language.
6. The teacher understands how the U.S. culture perceives the target language and culture(s).
7. The teacher understands how the U.S. is perceived by the target language culture(s).
8. The teacher understands the stereotypes held by both the U.S. and target cultures and the impacts of those beliefs.

Performance

1. The teacher demonstrates advanced level speaking, reading and writing proficiencies as defined in the ACTFL Proficiency Guidelines established by the American Council on the Teaching of Foreign Languages.
2. The teacher incorporates into instruction the following activities in the target language: listening, speaking, reading, writing, and culture.
3. The teacher promotes the value and benefits of world language learning to students, educators, and the community.
4. The teacher uses the target language extensively in formal, informal, and conversational contexts and provides opportunities for the students to do so.
5. The teacher provides opportunities to communicate in the target language in meaningful, purposeful activities that simulate real-life situations.
6. The teacher systematically incorporates culture into instruction.
7. The teacher incorporates discussions of the target culture's contributions to the students' culture and vice-versa.
8. The teacher encourages students to understand that culture and language are intrinsically tied.

Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.

Knowledge

1. The teacher understands that the process of second language acquisition includes the interrelated skills of listening, speaking, reading, and writing.
2. The teacher understands that cultural knowledge is essential for the development of second language acquisition.
3. The teacher understands the skills necessary to create an instructional environment that encourages students to take the risks needed for successful language learning.
4. The teacher knows the methodologies and theories specific to second language acquisition.
5. The teacher knows university/college expectations of world languages and the life-long benefits of second-language learning.

Performance

1. The teacher uses a variety of instructional strategies that incorporate culture, listening, reading, writing and speaking in the target language.
2. The teacher integrates cultural knowledge into language instruction.
3. The teacher builds on the language learning strengths of students rather than focusing on their weaknesses.
4. The teacher uses cognates, expressions, and other colloquial techniques common to English and the target language to help further the students' understanding and fluency.
5. The teacher explains the world language entrance and graduation requirements at national colleges/universities and the general benefits of second language learning.

Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to students with diverse needs.

Knowledge

1. The teacher understands that gender, age, socioeconomic background, ethnicity, sexual orientation, religious beliefs and other factors play a role in how individuals perceive and relate to their own culture and that of others.
2. The teacher understands that students' diverse learning styles affect the process of second-language acquisition.

Performance

1. The teacher plans learning activities that enable students to grasp the significance of language and cultural similarities and differences.
2. The teacher differentiates instruction to incorporate the diverse needs of the students' cognitive, emotional and psychological learning styles.

Standard 4: Multiple Instructional Strategies - The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.

Knowledge

1. The teacher understands that world languages methodologies continue to change in response to emerging research.
2. The teacher understands instructional practices that balance content-focused and form-focused learning.

3. The teacher knows instructional strategies that foster higher-level thinking skills such as critical- thinking and problem solving.

Performance

1. The teacher uses a variety of instructional strategies based on current research to enhance students' understanding of the target language and culture.
2. The teacher remains current in second-language pedagogy by means of attending conferences, maintaining memberships in professional organizations, reading professional journals, and/or on-site and on-line professional development opportunities.
3. The teacher incorporates a variety of instructional tools such as technology, local experts, and on-line resources to encourage higher-level thinking skills.

Standard 5: Classroom Motivation and Management Skills - Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self- motivation

Knowledge

1. The teacher understands that, due to the nature of second-language acquisition, students need additional instruction in positive group/pair work and focused practice.
2. The teacher knows current practices of classroom management techniques that successfully allow for a variety of activities, such as listening and speaking, that take place in a world language classroom.

Performance

1. The teacher implements classroom management techniques that use current research-based practices to facilitate group/pair interactions and maintain a positive flow of instruction.

Standard 6: Communication Skills - The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom

Knowledge

1. The teacher understands of the extension and broadening of previously gained knowledge in order to communicate clearly in the target language.

Performance

1. The teacher uses a variety of techniques to foster fluency within the target language such as dialogues, songs, open-ended inquiry, non-verbal techniques, guided questions, modeling, role-playing, and storytelling.

Standard 7: Instructional Planning Skills -The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.

Knowledge

1. The teacher understands how to incorporate the ACTFL Standards for Foreign Language Learning of communication, cultures, connections, comparisons, and communities into instructional planning.
2. The teacher knows how to design lesson plans based on ACTFL Standards, research-based practices, and a variety of proficiency guidelines that enhance student understanding of the target language and culture.
3. The teacher knows how to design lesson plans that incorporate the scaffolding necessary to progress from basic level skills to appropriate critical and higher order thinking skills.

Performance

1. The teacher incorporates the ACTFL Standards for Foreign Language Learning of communication, cultures, connections, comparisons, and communities into instructional planning.
2. The teacher designs lesson plans based on ACTFL Standards, research-based practices, and a variety of proficiency guidelines, which enhance student understanding of the target language and culture.
3. The teacher designs lesson plans which incorporate the scaffolding necessary to progress from basic level skills to appropriate critical and higher order thinking skills.

Standard 8: Assessment of Student Learning -The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.

Knowledge

1. The teacher understands the ACTFL Proficiency Guidelines for listening, speaking, reading, and writing.
2. The teacher has the skills to assess proficiency in listening, speaking, reading, writing and culture, which is based on a continuum.
3. The teacher understands the importance of assessing the content and the form of communication.

Performance

1. The teacher motivates the students to reach level-appropriate proficiency based on ACTFL Proficiency Guidelines for listening, speaking, reading, writing, and culture.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. The teacher employs a variety of ways to assess listening, speaking, reading, writing, and culture, using both formative and summative assessments.
3. The teacher constructs and uses a variety of formal and informal assessment techniques, including tests in the primary and target languages, to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.
4. The teacher appropriately assesses for both the content and form of communication.

Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.

Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.

Knowledge

1. The teacher knows about career and other life-enriching opportunities available to students proficient in world languages.
2. The teacher knows how to provide opportunities for students and teachers to communicate with native speakers.
3. The teacher is able to communicate to the students, parents, and community members the amount of time and energy needed for students to be successful in acquiring a second language.
4. The teacher understands the effects of second language study on first language.

Performance

1. The teacher informs students and the broader community of career opportunities and personal enrichment that proficiency in a second language provides in the United States and beyond its borders.
2. The teacher provides opportunities for students to communicate with native speakers of the target language in person or via technology.
3. The teacher encourages students to participate in community experiences related to the target culture.
4. The teacher communicates to the students, parents, and community members the amount of time and energy needed for students to be successful in acquiring a second language.

Glossary of Terms

ACTFL Proficiency Guidelines - a nationally developed and agreed upon set of descriptions of what individuals can do with language in terms of speaking, writing, listening, and reading in real-world situations in a spontaneous and non-rehearsed context. For each skill, these guidelines identify five major levels of proficiency: Distinguished, Superior, Advanced, Intermediate, and Novice. The major levels Advanced, Intermediate, and Novice are subdivided into High, Mid, and Low sublevels. The levels of the ACTFL Guidelines describe the continuum of proficiency from that of the highly articulate, well-educated language user to a level of little or no functional ability. These Guidelines present the levels of proficiency as ranges, and describe what an individual can and cannot do with language at each level, regardless of where, when, or how the language was acquired.

http://www.actfl.org/files/public/ACTFLProficiencyGuidelines2012_FINAL.pdf

American Council of Teachers of Foreign Languages (ACTFL) - an organization for world language professionals of K-12 and higher education

Content-Based Instruction (CBI) - a method of teaching language where content is a means to language acquisition, and supports proficiency with challenging, informative, and complex communication

Critical thinking - an intellectually disciplined process of actively and skillfully applying, analyzing, synthesizing, and or evaluating information, which in its exemplary form transcends subject matter disciplines

Form-Focused Instruction (FFI) - attention to the formal aspects of language (grammar, spelling, intonation, etc.) and is a cognitive approach to language learning which holds that second language proficiency resides in both rule-based and exemplar-based knowledge. Rule-based knowledge consists of linguistic rules and is form-oriented, whereas the exemplar-based system consists of chunks of language: instances of language that are unanalyzed and stored as a whole in our memories.

Scaffolding - a process that enables a student to solve a problem, carry out a task, or achieve a goal which otherwise would be beyond his or her unassisted efforts including instructional, procedural, and verbal techniques. See Zone of Proximal Development (ZPD)

Zone of Proximal Development (ZPD) - the distance or cognitive gap between what a learner can do without assistance and what that learner can do with a more capable peer or skilled adult, a locus for scaffolding

Other Teacher Endorsement Areas

Several teacher endorsement areas were not individually addressed in the current standards (refer to list below), given the small number of courses offered in these specific areas.

To be recommended for endorsement in these content areas, a candidate must meet the Idaho Core Teacher Standards and any current standards of their professional organization(s).

Content/Endorsement Areas

- Humanities *
- Psychology
- Sociology

** The Idaho Standards for the Initial Certification of Teachers address content areas traditionally categorized as humanities requirements for students (e.g. music, drama, art, foreign language).*

Idaho Foundation Standards for the Preparation of School Administrators

All school administrators, including principals, special education directors, and superintendents, must meet the following Idaho Foundation Standards for School Administrators and the standards specific to their certification area at the “acceptable” level or above.

The following knowledge and performance statements for the Foundation Standards for School Administrators are widely recognized, but not all-encompassing or absolute, indicators that School Administrator candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of preparation programs to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the School Administrator’s profession is their disposition. Professional dispositions are how the Administrator views the education profession, their content area, and/or students and their learning. Every preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for Administrator dispositions.

** This language was written by a committee of content experts and has been adopted verbatim. These standards are grounded in the Educational Leadership Policy Standards: ISLLC (Interstate School Leaders Licensure Consortium) 2008, as adopted by the National Policy Board for Education Administration.*

School Climate

An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs.

Standard 1: School Culture - The School Administrator establishes a safe, collaborative, and supportive culture ensuring all students are successfully prepared to meet the requirements for tomorrow’s careers and life endeavors.

Knowledge: The School Administrator:

1. Understands the importance of eliciting feedback that measures the school and community perceptions.
2. Understands laws and policies regarding school safety and prevention by creating a detailed school safety plan, which addresses potential physical and emotional threats.
3. Understands disciplinary policies and multiple strategies for intervention that occur prior to removal of students.

4. Understands methods for responding to conflict.

Performance: The School Administrator:

1. Demonstrates ability to disaggregate school climate data to collaboratively engage faculty, staff, students, and parents in identifying concerns or threats to school safety.
2. Demonstrates ability to proactively engage staff in conflict resolution.
3. Demonstrates ability to establish rules and related consequences designed to keep students safe.
4. Demonstrates ability to individually and/or collaboratively monitor school climate by gathering data about student and staff perceptions.
5. Demonstrates ability to connect appropriate strategies and solutions to known barriers to promote a school culture of excellence, equity, and safety across all school settings.
6. Demonstrates ability to use data to monitor and improve school climate.
7. Demonstrates ability to collaborate with instructional staff and parents in creating opportunities to safely examine and address barriers to a school culture, embracing diversity.

Standard 2: Communication - The School Administrator is proactive in communicating the vision and goals of the school or district, the plans for the future, and the successes and challenges to all stakeholders.

Knowledge: The School Administrator:

1. Understands the importance of making organizational decisions based upon the mission and vision of the school and district.
2. Understands effective communication strategies.
3. Understands the importance of the school improvement plan and adjusting it based on data, including input from district and school staff.

Performance: The School Administrator:

1. Demonstrates ability to develop and monitor school goals, programs, and actions to ensure that they support the school's vision and mission.
2. Demonstrates ability to develop and facilitate a clear, timely communication plan across the school's departments to support effective and efficient school operations.
3. Demonstrates ability to lead and engage school staff and stakeholders, using multiple communication strategies.

4. Demonstrates ability to ensure that stakeholders have meaningful input in the school's vision and mission, aligning with academic and social learning goals for students.

Standard 3: Advocacy - The School Administrator advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement.

Knowledge: The School Administrator:

1. Understands the importance of inviting community input and using the input to inform decisions
2. Understands cultural diversity and its importance in the schools learning community.

Performance: The School Administrator:

1. Demonstrates the ability to develop and implement opportunities for involving community in school activities that support teaching and learning.
2. Demonstrates the ability to promote appreciation and understanding of diverse cultural opportunities and integrate them in the schools learning community.

Collaborative Leadership

An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. He or she uses research and/or best practices in improving the education program.

Standard 4: Shared Leadership - The School Administrator fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth.

Knowledge: The School Administrator:

1. Understands the importance of providing staff equal access to opportunities for learning, leadership, and advancement.
2. Understands the importance of developing and implementing distributed leadership as part of the process of shared governance.
3. Understands the importance of developing and using Professional Learning Plans to encourage professional growth and expand competencies.

Performance: The School Administrator:

1. Demonstrates the ability to use Professional Learning Plans to provide feedback on professional behavior to teachers and other staff and remediates behavior as needed.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. Demonstrates the ability to create structured opportunities for instructional staff and other staff to expand leadership through the use of reflections, mentoring, feedback, and learning plans.

Standard 5: Priority Management - The School Administrator organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities.

Knowledge: The School Administrator:

1. Understands the importance of prioritizing the use of school time to ensure that staff activities focus on improvement of student learning and school culture.
2. Understands the importance of prioritizing school time to ensure that student activities are focused on high leverage activities and school priority areas as delineated by the School Improvement Plan.
3. Applies project management to systems throughout the school and systematic monitoring and collaboration with stakeholders.
4. Understands the importance of clear and consistent processes and systems to manage change.
5. Understands the importance of school staff and other stakeholders adhering to established processes and procedures.

Performance: The School Administrator:

1. Demonstrates the ability to manage projects using lists of milestones and deadlines, and document the impact of change.
2. Demonstrates the ability to apply project management to systems and systematically monitor and collaborate with stakeholders.

Standard 6: Transparency - The School Administrator seeks input from stakeholders and takes all perspectives into consideration when making decisions.

Knowledge: The School Administrator:

1. Understands emerging issues and trends impacting families, school, and community.
2. Understands available resources in the community.
3. Understands the value of transparency regarding decision making and the allocation of resources.
4. Understands the importance of seeking input from stakeholders and takes all perspectives into consideration when making decisions.

Performance

1. Provides rationale for decisions regarding the allocation of resources.
2. Develops a plan that solicits input from all stakeholders to create and sustain a culture of collaboration, trust, learning, and high expectation.

Standard 7: Leadership Renewal - The School Administrator strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others.

Knowledge: The School Administrator:

1. Understands the roles of leadership.
2. Understands the impact of education on personal and professional opportunities, social mobility, and a democratic society.
3. Understands the political, social, cultural, and economic systems and processes that support and impact education.
4. Understands effective models and strategies of leadership as applied to the larger political, social, cultural, and economic contexts of education.

Performance: The School Administrator:

1. Creates and implements an individual professional learning plan.
2. Enhances leadership skills through collaboration with colleagues and professional development.
3. Uses feedback, surveys, and evaluations that inform professional development and improve professional practice by consistently monitoring progress.
4. Communicates results of self-reflection after evaluating his/her own practice and consults with evaluator, adjusting accordingly.
5. Uses self-reflection and data that are aligned to school and district vision and/or needs to drive improvement in leadership skills, school culture, and student learning.

Standard 8: Accountability – The School Administrator establishes high standards for professional, legal, ethical, and fiscal accountability.

Knowledge: The School Administrator:

1. Understands operational policies and procedures.
2. Understands human resources management.
3. Understands sound fiscal operations principles and issues.

4. Understands facilities maintenance and principles regarding use of space and educational suitability.
5. Understands legal issues impacting personnel, management, and operations.
6. Understands ethical frameworks and perspectives.
7. Understands the Idaho Professional Code of Ethics and the Idaho Administrators Code of Conduct.
8. Understands policies and laws related to school and district.

Performance: The School Administrator:

1. Demonstrates the ability to create a site budget that allocates available fiscal, personnel, space, and material resources in an appropriate legal and equitable manner.
2. Demonstrates the ability to develop a budget that appropriately utilizes federal funds and grant allocations.

Instructional Leadership

An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. He or she provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program.

Standard 9: Innovation – The School Administrator seeks and implements innovative and effective solutions that comply with general and special education law.

Knowledge: The School Administrator:

1. Understands that each student can learn and that varied and data-informed learning goals are an important part of the process.
2. Understands the principles of effective instruction, differentiated instruction, learning theories, motivation strategies, and positive classroom management.
3. Understands student growth and development.
4. Understands adult learning and professional development.
5. Understands the change process for systems, organizations, and individuals.
6. Understands the essential role of technology in education.

Performance: The School Administrator:

1. Provides opportunities for staff to utilize research based strategies to refine curriculum implementation and encourage purposeful innovation.
2. Engages instructional staff in collaborative analysis to plan for continuous academic improvement.
3. Ensures innovation adheres to all local, state, and federal laws and policies and regulations.

Standard 10: Instructional Vision - The School Administrator ensures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn the subject.

Knowledge: The School Administrator:

1. Understands that each student can learn and that varied and data-informed learning goals are an important part of the process.
2. Understands how to enhance the school culture and instructional programs through research, best practice, and curriculum design.
3. Understands the effective use of assessment and evaluation.
4. Understands how to develop, implement, and evaluate co-curricular and extracurricular programs that enhance student growth and character development.

Performance: The School Administrator:

1. Provides time, space, and opportunities for instruction.
2. Ensures instruction is aligned to adopted curriculum and Idaho content standards including provisions for time and resources.
3. Promotes an instructional vision that includes the process of curriculum alignment in collaboration with a systematic, continuous process to fully align the curriculum horizontally and vertically with the standards.
4. Creates an action plan for instructional improvement designed to increase student achievement.

Standard 11: High Expectations - The School Administrator sets high expectation for all students academically, behaviorally, and in all aspects of student well-being.

Knowledge: The School Administrator:

1. Understands the difference between, and the appropriate use of formative and summative assessments.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. Understands the process for developing common formative benchmark assessments or rubrics.
3. Understands how to use data to guide student instruction and tiered intervention.
4. Understands how to identify at risk students.
5. Understands the laws and regulations associated with special student populations.
6. Understands the importance of collaboration and the critical role principals play in establishing high expectations for student learning.
7. Understands the role that frequent collaboration plays in analyzing student growth data to identify critical content achievement gaps.
8. Understands various intervention strategies to be implemented to close achievement gaps.
9. Understands multiple methods for monitoring and documenting instructional practices including behavioral supports.
10. Understands the importance of implementing a comprehensive approach to learning that integrates researched based practices to address the whole child.
11. Understands essential components in the development and implementation of individual education programs, adhering to state and federal regulations.

Performance: The School Administrator:

1. Uses data to guide instruction and develop/implement appropriate interventions and student improvement plans.
2. Has used observation and evaluation methods to supervise instructional personnel.
3. Conducts student response teams that integrate research based practices to address the whole child and also seeks advice of psychologists, nurses, social workers, learning disabilities and gifted and talented specialists, speech and language pathologists, and other experts who can help address student needs.

Standard 12: Continuous Improvement of Instruction – The School Administrator uses teacher/administrator evaluation and other formative feedback mechanisms to continuously improve teacher/administrator effectiveness. The School Administrator also aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision.

Knowledge: The School Administrator:

1. Understands that the evaluation process is used to improve instructional practice.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. Understands the use of multiple measures of student performance data to improve classroom instruction.
3. Understands the role of professional learning plans during the evaluation process, using self-reflection, student growth goals and formative and summative conversations at the beginning and ending of the year to improve teacher effectiveness.

Performance: The School Administrator:

1. Collaborates with staff and teachers to create individualized professional learning plans and encourages staff to incorporate reflective goal setting practices prior to the school year.
2. Collects formative assessment and student growth data during the course of the school year to inform summative evaluation and instructional goal setting.
3. Uses data to inform school wide professional development.

Standard 13: Evaluation – The School Administrator demonstrates proficiency in assessing teacher performance based upon the Idaho adopted framework for teaching.

Knowledge: The School Administrator:

1. Understands laws and policies governing staff evaluation.
2. Understands the Idaho adopted framework for teaching.
3. Understands differentiated tools for evaluation of all staff.
4. Understands effective instructional supervision, evaluation, and due process.

Performance: The School Administrator:

1. Assesses all staff performance with accuracy and consistency.
2. Creates processes to provide formative and summative evaluation feedback to staff and teachers, informing them of the effectiveness of their classroom instruction and ways to improve their instructional practices using data to inform professional development.

Standard 14: Recruitment and Retention - The School Administrator recruits and maintains a high quality staff.

Knowledge: The School Administrator:

1. Understands laws regarding highly qualified requirements for teachers.
2. Understands laws and policies governing hiring and retaining personnel.
3. Understands multiple interview strategies and techniques for hiring teachers.
4. Understands the process and research based practices of mentoring.

Performance: The School Administrator:

1. Demonstrates appropriate use of hiring procedures in accordance with accepted practices/policies.
2. Creates a model for an effective school environment where staff is valued, teams are supported, and achievements are consistently celebrated.
3. Creates a comprehensive mentoring or coaching program designed to provide systems where teachers are supported in an individualized mentoring or coaching program.

Idaho Standards for School Superintendents

In addition to the standards listed here, school superintendents must meet Idaho Foundation Standards for School Administrators as they apply to the superintendency.

**This language was written by a committee of content experts and has been adopted verbatim.*

School Climate

An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs.

Collaborative Leadership

An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. He or she uses research and/or best practices in improving the education program.

Instructional Leadership

An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. He or she provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program.

Standard 1: Superintendent Leadership - The superintendent is the catalyst and the advocate for an effective school community; demonstrates an enhanced knowledge, thorough understanding, and performance within all six standards listed in the Idaho Foundation Standards for School Administrators; and is prepared to lead a school system with increasing organizational complexity.

Knowledge

1. The superintendent understands the dynamics of systemic change within school districts.
2. The superintendent understands the importance of questioning, innovation, and innovative thinking in order to create new educational cultures and maximize system efficiency, effectiveness, and accountability.
3. The superintendent knows the breadth of P-12 curriculum and instructional programs.
4. The superintendent knows the importance of planning, maintaining, and budgeting for adequate school facilities, personnel, support services, and effective instructional programs.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

5. The superintendent understands how to facilitate processes and activities to establish and maintain an effective and efficient governance structure for school districts.
6. The superintendent knows the role of local, regional, state, national and international partnerships in the development of educational opportunities and support services for students.
7. The superintendent understands the district's role in and responsibility for employee induction, career development, and enhancement.
8. The superintendent understands the organizational complexity of school districts, drawing from systems and organizational theory.
9. The superintendent understands the dynamics of collective bargaining, mediation, arbitration, and contract management.
10. The superintendent knows the importance of district-wide policy development and effective implementation.
11. The superintendent understands the responsibility and need to promote strategies for continuous reassessment and improved performance for each student, school, and the district as a whole.
12. The superintendent understands the responsibility and need for planning, maintaining, and budgeting for adequate school facilities, personnel, support services, and effective instructional programs.
13. The superintendent understands the importance of developing and fostering a productive relationship with the board.
14. The superintendent understands importance of working effectively in the political environment at district, local, and state levels.

Performance

1. The superintendent promotes district-wide innovation and change through the application of a systems approach.
2. The superintendent facilitates processes and engages in activities to promote an effective and efficient governance structure for school districts.
3. The superintendent fosters, creates, and sustains local, regional, state, national, and international partnerships as needed to enhance the opportunities for all learners.
4. The superintendent creates a system by which all employees have opportunities to seek career development and enhancement.

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

7. The superintendent advises the board of trustees on legal, ethical, and current educational issues and provides/encourages ongoing professional development.
8. The superintendent works effectively within the organizational complexity of school districts.
9. The superintendent develops and monitors the system for policy development and implementation in all facets of district operations.
10. The superintendent develops and implements effective plans to manage district fiscal, capital, and human resources.

Standard 2: Communication - The administrator is proactive in communicating the vision and goals of the school or district, the plans for the future, and the successes and challenges to all stakeholders.

Standard 3: Advocacy - The administrator advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement. T

Standard 4: Shared Leadership - The administrator fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth.

Standard 5: Priority Management - The administrator organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities.

Standard 6: Transparency - The administrator seeks input from stakeholders and takes all perspectives into consideration when making decisions.

Standard 7: Leadership Renewal - The administrator strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others.

Standard 8: Accountability - The administrator establishes high standards for professional, legal, ethical, and fiscal accountability.

Standard 9: Innovation - The administrator seeks and implements innovative and effective solutions that comply with general and special education law.

Standard 10: Instructional Vision - The administrator ensures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn the subject.

Standard 11: High Expectations - The administrator sets high expectation for all students academically, behaviorally, and in all aspects of student well-being.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Standard 12: Continuous Improvement of Instruction - The administrator uses teacher/administrator evaluation and other formative feedback mechanisms to continuously improve teacher/administrator effectiveness. The administrator also aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision.

Standard 13: Evaluation - The administrator demonstrates proficiency in assessing teacher performance based upon the Idaho adopted framework for teaching.

Standard 14: Recruitment and Retention - The administrator recruits and maintains a high quality staff.

Idaho Standards for Special Education Directors

In addition to the standards listed here, special education directors must meet Idaho Foundation Standards for School Administrators as they apply to special education directors.

** This language was written by a committee of content experts and has been adopted verbatim.*

School Climate

An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs.

Collaborative Leadership

An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. He or she uses research and/or best practices in improving the education program.

Instructional Leadership

An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. He or she provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program.

Standard 1: School Culture - The administrator establishes a safe, collaborative, and supportive culture ensuring all students are successfully prepared to meet the requirements for tomorrow's careers and life endeavors.

Standard 2: Communication - The administrator is proactive in communicating the vision and goals of the school or district, the plans for the future, and the successes and challenges to all stakeholders.

Standard 3: Advocacy - The administrator advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement. T

Standard 4: Shared Leadership - The administrator fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Standard 5: Priority Management - The administrator organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities.

Knowledge

1. The special education director knows about curriculum, instruction, school activities, and environments to increase program accessibility for students with special needs.
2. The special education director understands the special education processes and procedures required by federal and state laws and regulations and by school district policies.
3. The special education director understands how to manage workflow and access resources to meet the needs of staff, students, and parents.
4. The special education director understands the use of technology in referral processes, IEP Individual Education Plan development, and records management.

Performance

1. The special education director advocates for and implements curriculum, instruction, activities, and school environments that are accessible to special populations.
2. The special education director implements the special education processes and procedures required by federal, state and school district policies.
3. The special education director advocates for, seeks, and directs resources to meet staff, student and parent needs.

Standard 6: Transparency - The administrator seeks input from stakeholders and takes all perspectives into consideration when making decisions.

Standard 7: Leadership Renewal - The administrator strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others.

Standard 8: Accountability - The administrator establishes high standards for professional, legal, ethical, and fiscal accountability.

Standard 9: Innovation - The administrator seeks and implements innovative and effective solutions that comply with general and special education law.

Standard 10: Instructional Vision - The administrator ensures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn the subject.

Knowledge

1. The special education director understands the concept and best practices of least restrictive environment.
2. The special education director understands the importance of post-school outcomes and articulates a full range of services and supports for students with disabilities ages three to twenty-one to maximize their potential.
3. The special education director understands the importance of collaboration to provide general education targeted interventions.

Performance

1. The special education director collaborates with community, staff, and students to explain and implement the concepts and goals of best practice in the least restrictive environment.
2. The special education director engages in district planning processes that cultivate a shared vision for meeting the needs of all learners.

Standard 11: High Expectations - The administrator sets high expectation for all students academically, behaviorally, and in all aspects of student well-being.

Standard 12: Continuous Improvement of Instruction - The administrator uses teacher/administrator evaluation and other formative feedback mechanisms to continuously improve teacher/administrator effectiveness. The administrator aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision.

Knowledge

1. The special education director knows instructional and behavioral strategies for meeting the needs of special populations.
2. The special education director knows how to plan, write, implement, and access Individual Education Programs.
3. The special education director understands the role of assistive and adaptive technology and related services in instruction.
4. The special education director understands community-based instruction and experiences for students.
5. The special education director understands how to use data to determine instructional needs and to develop professional training to meet those needs.

6. The special education director understands statewide assessment policies.

Performance

1. The special education director serves as a resource for staff and administration concerning instructional and behavioral strategies for meeting the needs of special populations as well as allocating appropriate resources.
2. The special education director ensures that data is used to provide appropriate individualized educational programs and supports, and develops and implements services in school and community environments.
3. The special education director ensures the fulfillment of federal and state requirements related to the instruction and assessment of special populations.

Standard 13: Evaluation - The administrator demonstrates proficiency in assessing teacher performance based upon the Idaho adopted framework for teaching.

Standard 14: Recruitment and Retention - The administrator recruits and maintains a high quality staff.

Idaho Standards for School Counselors

The purpose of the standards for school counselors is to promote, enhance, and maximize the learning process. To that end, the school counselor standards facilitate school counselor performance in three broad domains: Academic Development, Career Development, and Personal/Social Development. The domains follow the 2012 American School Counselor Association (ASCA) model and are embedded within each standard as described below. All school counselor candidates are expected to meet the Idaho Standards for School Counselors as endorsed by their institution.

The following knowledge and performance statements for the School Counselors Standards are widely recognized, though not all-encompassing or absolute, indicators that School Counselors have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of preparation programs to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

Standard 1: School Counseling Programs - School counselors should possess the knowledge, abilities, skills and attitudes necessary to plan, organize, implement and evaluate a comprehensive, developmental, results-based school counseling program.

Knowledge - School counselors should articulate and demonstrate an understanding of:

1. The organizational structure and governance of the American educational system, as well as cultural, political and social influences on current educational practices.
2. The organizational structure and components of an effective school counseling program.
3. Barriers to student learning and use of advocacy and data-driven school counseling practices.
4. Leadership principles and theories.
5. Individual counseling, group counseling and classroom instruction.
6. Collaborations with stakeholders such as parents and guardians, teachers, administrators and community leaders.
7. Principles of school counseling, including prevention, intervention, wellness, education, multiculturalism, and advocacy.
8. Assessments relevant to K-12 education.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Performance - An effective school counselor is able to accomplish measurable objectives demonstrating the following:

1. Planning, organizing, implementing and evaluating a school counseling program.
2. Applying the school counseling themes of leadership, advocacy, collaboration and systemic change.
3. Using technology effectively and efficiently to plan, organize, implement and evaluate the comprehensive school counseling program.
4. Multicultural, ethical and professional competencies.
5. Identification and expression of professional and personal qualities and skills of effective leaders.
6. Advocacy for student success.
7. Collaboration with parents, teachers, administrators, community leaders and other stakeholders to promote and support student success.

Standard 2: Foundations - School counselors should possess the knowledge, abilities, skills and attitudes necessary to establish the foundations of a school counseling program.

Knowledge - School counselors should articulate and demonstrate an understanding of:

1. Beliefs and vision of the school counseling program that align with current school improvement and student success initiatives at the school, district and state level.
2. Educational systems, philosophies and theories, and current trends in education, including federal and state legislation.
3. Learning theories.
4. History and purpose of school counseling, including traditional and transformed roles of school counselors.
5. Human development theories and developmental issues affecting student success.
6. District, state, and national student standards and competencies.
7. Legal and ethical standards and principles of the school counseling profession and educational systems, including state, district and building policies.
8. The three domains of academic achievement, career planning and personal/social development.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Performance - An effective school counselor is able to accomplish measurable objectives demonstrating the following:

1. Development of the beliefs, vision, and mission of the school counseling program that align with current school improvement and student success initiatives at the school, district and state level.
2. The use of student standards, such as district, state, or national standards, to drive the implementation of a comprehensive school counseling program.
3. Application of the ethical standards and principles of the school counseling profession and adhering to the legal aspects of the role of the school counselor and the Code of Ethics for Idaho Professional Educators.
4. Responsible advocacy for school board policy, as well as local, state and federal statutory requirements in students' best interests.
5. Practices within the ethical and statutory limits of confidentiality.

Standard 3: Management - School counselors should possess the knowledge, abilities, skills and attitudes necessary to manage a school counseling program.

Knowledge - School counselors should articulate and demonstrate an understanding of:

1. Leadership principles, including sources of power and authority, and formal and informal leadership.
2. Organization theory to facilitate advocacy, collaboration and systemic change.
3. Presentation skills for programs such as teacher in-services, parent workshops and presentation of results reports to school boards.
4. Time management, including long- and short-term management, using tools such as schedules and calendars.
5. Data-driven decision making.
6. Current and emerging technologies such as use of the Internet, Web-based resources and information management systems.

Performance - An effective school counselor is able to accomplish measurable objectives demonstrating the following:

1. Self-evaluation of his/her own competencies in order to formulate an appropriate professional development plan.
2. The ability to access or collect relevant data to monitor and improve student behavior and achievement.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

3. The capability to create calendars to ensure the effective implementation of the school counseling program.
4. Coordination of activities that establish, maintain and enhance the school counseling program.

Standard 4: Delivery - School counselors should possess the knowledge, abilities, skills and attitudes necessary to deliver a school counseling program.

Knowledge - School counselors should articulate and demonstrate an understanding of:

1. The distinction between direct and indirect student services.
2. Counseling theories and techniques in different settings, such as individual planning, group counseling and classroom lessons.
3. Classroom management.
4. Principles of career and post-secondary planning.
5. Principles of working with various student populations based on characteristics, such as ethnic and racial background, English language proficiency, special needs (IEP and 504 Plans), religion, gender and income.
6. Responsive services (counseling and crisis response) including grief and bereavement.
7. How diagnoses and/or medication affects the personal, social, and academic functioning of students.

Performance - An effective school counselor is able to accomplish measurable objectives demonstrating the following:

1. Creation and presentation of a developmental school counseling curriculum addressing all students' needs based on student data.
2. Classroom management and instructional skills.
3. Encouragement of staff involvement to ensure the effective implementation of the school counseling curriculum.
4. The ability to build effective, high-quality student support programs.
5. Development of strategies to implement individual student planning, which may include strategies for appraisal, advisement, goal-setting, decision-making, social skills, transition or post-secondary planning.
6. The capability to provide responsive services, such as individual/small-group counseling and crisis response.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

7. Participation as member of the crisis team providing assistance to the school and community in a crisis.
8. Development of a list of community agencies and service providers for student referrals and understanding how to make referrals to appropriate professionals when necessary.
9. Partnerships with parents, teachers, administrators and education stakeholders for student achievement and success.
10. The ability to conduct in-service training or workshops for other stakeholders to share school counseling expertise.
11. Understanding and knowledge regarding how to provide supervision for school counseling interns consistent with the principles.
12. Skills to critically examine the connections between social, familial, emotional, and behavioral problems and academic achievement.

Idaho Standards for School Nurses

The following knowledge and performance statements for the School Nurse Standards are widely recognized, but not all-encompassing or absolute, indicators that school nurse candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a school nurse preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the school nursing profession is a candidate's disposition. Professional dispositions are how the School Nurse candidate views their profession, their content area, and/or students and their health and learning. Every School Nurse preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Nurse candidate dispositions.

** This language was written by a committee of content experts and has been adopted verbatim.*

Standard 1: Quality Assurance - The school nurse understands how to systematically evaluate the quality and effectiveness of school nursing practice.

Knowledge

1. The school nurse understands the professional, state, and local policies, procedures, and practice guidelines that impact the effectiveness of school nursing practice within the school setting.
2. The school nurse understands that school nursing practice must fall within the boundaries of scope of practice as defined by the Idaho Board of Nursing.
3. The school nurse understands how to access research and interpret data applicable to the school setting.

Performance

1. The school nurse conducts ongoing evaluations of school nursing practice.
2. The school nurse identifies the policies, procedures, and practice guidelines applicable to school nursing practice.
3. The school nurse uses research and data to monitor quality and effectiveness of school nursing practice.

Standard 2: Professional Development - The school nurse is a reflective practitioner who improves clinical skills through continual self-evaluation and ongoing education.

Knowledge

1. The school nurse understands how to improve knowledge and competency in school nursing practice.
2. The school nurse knows how to self-assess professional nursing practice.
3. The school nurse knows how to access professional resources that support school nursing practice.
4. The school nurse knows about the professional organizations that support the nursing practice.

Performance

1. The school nurse participates in professional development related to current clinical knowledge and professional issues.
2. The school nurse seeks and acts on constructive feedback regarding professional development.
3. The school nurse pursues professional development as related to professional and program goals.

Standard 3: Communication - The school nurse is skilled in a variety of communication techniques (i.e., verbal and nonverbal).

Knowledge

1. The school nurse understands the importance of effective communication with school staff, families, students, the community, and other service providers.
2. The school nurse understands problem solving and counseling techniques and crisis intervention strategies for individuals and groups.
3. The school nurse knows how to document appropriately.

Performance

1. The school nurse communicates effectively and with sensitivity to community values in a variety of settings (e.g., classroom presentations, public forums, individual interactions, written communication, and documentation).

Standard 4: Collaboration - The school nurse understands how to interact collaboratively with and contribute to the professional development of peers and school personnel.

Knowledge

1. The school nurse understands the principles of collaboration in sharing knowledge and skills with other professionals and staff.

Performance

1. The school nurse works collaboratively with nursing colleagues and school personnel to enhance professional practice and to contribute to a supportive, healthy school environment.

Standard 5: Ethics and Advocacy - The school nurse makes decisions and takes actions on behalf of students and families in an ethical, professional manner.

Knowledge

1. The school nurse understands the code of ethics adopted by the American Nurses Association and the National Association of School Nurses and the Code of Ethics for Idaho Professional Educators.
2. The school nurse knows how to advocate for students and families.

Performance

1. The school nurse performs duties in accord with the legal, regulatory, and ethical parameters of health and education.
2. The school nurse acts as an advocate for students and families.
3. The school nurse delivers care in a manner that is sensitive to student diversity.

Standard 6: Health and Wellness Education - The school nurse assists students, families, the school staff, and the community to achieve optimal levels of wellness through appropriately designed and delivered health education.

Knowledge

1. The school nurse understands developmentally appropriate health education.
2. The school nurse understands the influence of family dynamics on student achievement and wellness.
3. The school nurse understands that health instruction within the classroom is based on learning theory.
4. The school nurse understands child, adolescent, family, and community health issues.
5. The school nurse understands how health issues impact student learning.

Performance

1. The school nurse assists individual students in acquiring appropriate skills based on age and developmental levels to advocate for themselves.
2. The school nurse participates in the assessment of health education and health instructional needs of the school community.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

3. The school nurse provides health instruction within the classroom based on learning theory, as appropriate to student developmental levels and school needs.
4. The school nurse provides individual and group health instruction and counseling for and with students, families, and staff.
5. The school nurse acts as a resource person to school staff, students, and families regarding health education and health community resources.
6. The school nurse assists students in changing high-risk behaviors through education and referral.

Standard 7: Program Management - The school nurse is a manager of school health services.

Knowledge

1. The school nurse understands the principles of school nursing management.
2. The school nurse understands that program delivery is influenced by a variety of factors (e.g., cost, program diversity, staffing, and laws).
3. The school nurse knows how to teach, supervise, evaluate, and delegate to Unlicensed Assistive Personnel.
4. The school nurse knows how to identify and secure appropriate and available services and resources in the community.

Performance

1. The school nurse demonstrates the ability to organize, prioritize, and make independent nursing decisions.
2. The school nurse demonstrates the ability to plan and budget resources in a fiscally responsible manner.
3. The school nurse demonstrates leadership skills to utilize human resources efficiently.
4. The school nurse teaches, supervises, evaluates, and delegates to Unlicensed Assistive Personnel.
5. The school nurse uses appropriate technology in managing school health services.

Idaho Standards for School Psychologists

The following knowledge and performance statements for the School Psychologist Standards are widely *recognized, but not all-encompassing or absolute, indicators that School Psychologist candidates have* met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a school psychologist preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the School Psychology profession is a candidate's disposition. Professional dispositions are how the School Psychologist candidate views their profession, their content area, and/or students and their health and learning. Every School Psychology preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Psychologist candidate dispositions.

Standard 1: Assessment, Data-Based Decision Making, and Accountability - The school psychologist understands varied models and methods of assessment that yield information useful in understanding problems, identifying strengths and needs, measuring progress ~~aiding in transition activities and accomplishments of students~~ as it relates to educational and social emotional, and behavioral outcomes of students with respect for cultural and linguistic diversity.

Knowledge

1. The school psychologist understands traditional standardized norm-referenced assessment instruments.
2. The school psychologist ~~knows~~ understands alternative assessment approaches (e.g., curriculum-based, portfolio, ~~and~~ ecological).
3. The school psychologist knows understands non-test assessment procedures (e.g., observation, diagnostic interviewing, ~~and~~ reviewing records).
4. The school psychologist understands the ~~Response to Intervention (RTI) process~~ application of a multi-tiered system of support for educational and social, emotional, and behavioral needs of students.
5. The school psychologist understands correct interpretation and application of assessment data.
6. The school psychologist understands the use of assessment data as it applies to the process of transitions at Pre-K through ~~A~~ age 21 development levels.

Performance

1. The school psychologist uses various models and methods of assessment as part of a

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

systematic process to collect data and other information.

2. The school psychologist translates assessment results into the design, implementation, and accountability of empirically-based decisions about intervention and recommendations supported instruction, interventions, and educational and mental health services effective for particular situations, contexts, and diverse characteristics.
- ~~3. The school psychologist assists in creating intervention strategies linked to the assessment information.~~
43. The school psychologist ~~assists in evaluating~~ uses assessment and data collection methods to evaluate the effectiveness of interventions and recommendations.
4. The school psychologist interprets and synthesizes assessment information from a variety of sources.

Standard 2: Consultation and Collaboration - the school psychologist understands effective collaborative and consultation approaches to promote the learning and success of students.

Knowledge

- ~~1. The school psychologist knows processes of producing change in individuals and groups.~~
21. The school psychologist ~~knows various strategies and techniques of team building~~ understands varied methods of consultation in psychology and education (e.g. behavioral, problem-solving, mental health, organizational, instructional) applicable to individuals, families, groups, and systems.
- ~~3. The school psychologist knows various strategies and techniques of team decision-making.~~
42. The school psychologist ~~possesses knowledge and skills necessary to facilitate communication and collaboration with students and teams consisting of school personnel, family members, community professionals, and others~~ understands methods for effective consultation and collaboration that link home, school, and community settings.
53. The school psychologist understands factors necessary for effective interpersonal communication.
46. The school psychologist ~~knows~~ understands how to communicate effectively in oral and written form.

Performance

- ~~1. The school psychologist promotes change at the levels of the individual student, classroom, building, district, and other agencies.~~
21. The school psychologist uses effective consultation and collaboration methods to ~~facilitate the development of professional environments in schools and related settings to~~

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

~~promote the kinds of principles necessary to achieve consensus~~ develop a climate in which consensus can be achieved to promote positive student outcomes.

~~32. The school psychologist facilitates communication with students and teams consisting of school personnel, family members, community professionals, and others~~ consults and collaborates effectively in the planning, problem solving, and decision-making processes to design, implement, and evaluate educational and mental health services with respect for cultural and linguistic diversity.

~~43. The school psychologist displays positive interpersonal skills by listening, adapting, addressing ambiguity, and being professional in difficult situations.~~

~~54. The school psychologist presents and disseminates information to diverse audiences~~ effectively communicates information in oral and written form for diverse audiences, for example, parents, teachers, other school personnel, policy makers, community leaders, and/or others.

~~6. The school psychologist communicates effectively in oral and written form.~~

Standard 3: Effective Instruction and Development of Cognitive and Academic Skills - The school psychologist understands learning theories, cognitive strategies and their application to the development of effective instruction, to promote student learning while considering biological, cultural, linguistic, and social influences on educational progress.

Knowledge

1. The school psychologist ~~knows~~ understands ~~primary learning theories (e.g., behavioral, cognitive, and neuro-developmental)~~ human learning, cognition, and developmental processes with respect for cultural and linguistic diversity.

2. The school psychologist understands ~~various instructional strategies and learning styles~~ empirically supported methods in psychology and education to promote cognitive and academic skills, including those related to needs of students with diverse backgrounds and characteristics.

3. The school psychologist ~~knows~~ understands ~~principles of student-centered learning~~ evidence-based curriculum and instructional strategies that facilitate students' academic achievement.

4. The school psychologist ~~knows~~ understands ~~how to develop appropriate educational cognitive, academic, and career goals for students with different ability levels using a team approach~~ and cultural/social backgrounds.

~~5. The school psychologist understands current instructional theories and models.~~

~~65. The school psychologist knows~~ understands ~~evaluation techniques to measure instructional outcomes of intervention strategies and treatment integrity~~ assess learning and

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

instruction for using data in decision making, planning, and progress monitoring.

Performance

- ~~1. The school psychologist assists in implementing a variety of instructional methods to enhance student learning at the individual, group, and systems levels achieving academic outcomes, such as classroom instructional support, literacy strategies, home and school collaboration, instructional consultation, and other evidenced-based practices.~~
- ~~2. The school psychologist uses student-centered learning principles to help students become self-regulated learners.~~
- ~~3. The school psychologist, in collaboration with the student, parents, school personnel, and community professionals, sets individual learning goals, designs a learning process to achieve those goals, and assesses whether the goals have been achieved.~~
- ~~4. The school psychologist helps schools develop appropriate cognitive, academic, and career goals for students.~~
- ~~5. The school psychologist links assessment information to the development and implementation of instructional strategies to meet students' individual learning needs.~~
- ~~6. The school psychologist collects, maintains and shares current information and research about advances in curriculum and instruction with educators, parents, and the community.~~
- ~~72. The school psychologist uses appropriate assessment techniques to progress toward academic and career goals and assists in revising instructional methodology as necessary assessment and data-collection methods to assist in developing appropriate educational goals for students with diverse abilities and backgrounds.~~
- ~~83. The school psychologist assesses treatment integrity and efficacy of intervention strategies assists in promoting the use of evidence-based interventions with fidelity.~~

~~***Standard 4: Socialization and Development of Life Skills — The school psychologist understands human development in social, affective, behavioral, and adaptive domains and applies sound principles of behavior change within these domains.***~~

Knowledge

- ~~1. The school psychologist understands the developmental processes of socialization and life skills of students with different abilities and developmental levels.~~
- ~~2. The school psychologist understands direct and indirect intervention strategies, including counseling and consultation.~~
- ~~3. The school psychologist knows principles of behavior management.~~
- ~~4. The school psychologist understands conflict management and problem-resolution~~

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

strategies.

- ~~5. The school psychologist knows empowerment strategies for students and family support systems.~~
- ~~6. The school psychologist understands the ecological impact of learning environments on student success.~~
- ~~7. The school psychologist understands early childhood development and its impact on successful school transitions.~~

Performance

- ~~1. The school psychologist utilizes consultation and collaboration strategies with teachers, students, and families for the development of life skills.~~
- ~~2. The school psychologist uses a variety of intervention strategies consistent with developmental levels.~~
- ~~3. The school psychologist, using a problem-solving approach, collaborates with students, teachers, and families in developing behavior management plans.~~
- ~~4. The school psychologist consults in the development and evaluation of conflict-management and problem-resolution programs and activities.~~
- ~~5. The school psychologist provides mental health services to enhance appropriate student behavior.~~
- ~~6. The school psychologist facilitates students and families in developing positive socialization and life skills.~~
- ~~7. The school psychologist consults with students, families, and schools regarding the structure and organization of educational environments and how they impact learning.~~
- ~~8. The school psychologist works with families and others to promote awareness of effective early childhood development and educational services.~~

Standard 4: Student Diversity in Development and Learning - The school psychologist understands that an individual's development and learning are influenced by one or more of the following factors: biological, social, cultural, ethnic, experiential, socioeconomic, environmental, gender-related, and/or linguistic.

Knowledge

- ~~1. The school psychologist understands individual differences, abilities, and other diverse characteristics.~~

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

2. The school psychologist understands principles and research related to diversity factors for students, families, and schools, including factors related to culture, context, individual, and role differences.
3. The school psychologist understands empirically supported strategies to enhance educational services for students and families and effectively address potential influences on learning related to diversity.
4. The school psychologist understands the diversity of the continuum of educational development for students ages three through 21, including all educational service transitions.

Performance

1. The school psychologist provides educational services that promote effective functioning for individuals, families, and schools with diverse characteristics, cultures, and backgrounds across multiple contexts.
2. The school psychologist collaborates to address individual differences, strengths, backgrounds, and needs in providing services to improve educational and mental health outcomes for students.
- 4.3. The school psychologist provides culturally competent and effective practices in all areas of school psychology service delivery.

~~*Standard 5: School Psychology Practice and Professional Development – The school psychologist understands the history and foundations of the profession; various service models and methods; public policy development applicable to services for students and their families; ethical and professional standards; and legal requirements.*~~

Knowledge

1. ~~The school psychologist understands the history and foundations of school psychology and its relation to other fields.~~
2. ~~The school psychologist knows current models, methods and practices of the profession.~~
3. ~~The school psychologist knows the appropriate ethical and professional standards.~~
4. ~~The school psychologist knows current federal statutes and state statutes and regulations as they relate to students.~~
5. ~~The school psychologist understands processes and procedures for public policy development.~~
6. ~~The school psychologist knows methods to evaluate personal needs for continuing professional development.~~

Performance

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

- ~~1. The school psychologist is aware of current practices in related fields.~~
- ~~2. The school psychologist adheres to best practices of the profession.~~
- ~~3. The school psychologist uses knowledge of legal requirements to advocate for the rights and welfare of children and families.~~
- ~~4. The school psychologist promotes the improvement of public policies and practices in schools and related settings.~~
- ~~5. The school psychologist maintains certification and continues professional development.~~
- ~~6. The school psychologist identifies and pursues professional growth resulting in acquisition of new skills.~~

Standard 5: Legal, Ethical, and Professional Practice –The school psychologist understands the history and foundations of the profession, various service models and methods, and applies legal and ethical practices to advocate for the educational rights and welfare of students and families.

Knowledge

1. The school psychologist understands the history and foundations of school psychology.
2. The school psychologist understands multiple service models and methods.
3. The school psychologist understands ethical, legal, and professional standards and other factors related to professional identity, including personal biases and effective practice.
4. The school psychologist understands current federal and state statutes and regulations pertaining to educational services.
5. The school psychologist understands self-evaluation methods to determine areas for continuing professional development.

Performance

1. The school psychologist provides services consistent with ethical, legal, and professional standards.
2. The school psychologist engages in ethical and professional decision-making.
3. The school psychologist collaborates with and consults other professionals regarding legal and ethical educational practices.
4. The school psychologist applies professional work characteristics for effective practice, including respect for human diversity and social justice, communication skills, interpersonal skills, responsibility, adaptability, initiative, and dependability.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

5. The school psychologist demonstrates legal and ethical practices in communication and the use of technology.
6. The school psychologist utilizes supervision and mentoring in the development of legal and ethical professional practice.

~~*Standard 6: Student Diversity in Development and Learning – The school psychologist understands that an individual’s development and learning are influenced by one or more of the following factors: biological, social, cultural, ethnic, experiential, socioeconomic, environmental, gender-related, and/or linguistic.*~~

Knowledge

1. ~~The school psychologist understands individual differences in ability levels with respect to the development of instructional programs and other activities.~~
2. ~~The school psychologist understands how to identify needs and modify instruction to enhance learning for individual students.~~
3. ~~The school psychologist recognizes the influence that various cultures, backgrounds, and individual learning characteristics have on students and their families.~~
4. ~~The school psychologist understands how personal biases may impact decision making, instruction and influence student progress.~~
5. ~~The school psychologist knows research-based practices related to assessment and the interpretation of results that reduce various biases.~~
6. ~~The school psychologist recognizes best practices in assessments with culturally and/or linguistically diverse students.~~

Performance

1. ~~The school psychologist assists in the development of instructional programs and activities for a diverse student population.~~
2. ~~The school psychologist assists schools and families in the modification and/or accommodation of instructional practices and materials sensitive to diverse student backgrounds and needs.~~
3. ~~The school psychologist seeks opportunities to interact with students and families to learn about their strengths, needs and diverse backgrounds.~~
4. ~~The school psychologist uses appropriate assessment procedures and/or intervention strategies to meet the unique needs of each individual student.~~

Standard 6: School-Wide Practices to Promote Learning - The school psychologist understands the unique organization and culture of schools and related systems.

Knowledge

1. The school psychologist understands school and multi-tiered systems' structure, organization, and theory.
2. The school psychologist understands general and special education.
3. The school psychologist understands empirically supported school practices that promote academic outcomes, learning, social development, and mental health.

Performance

1. The school psychologist, in collaboration with others, demonstrates skills to develop and implement practices and strategies to create and maintain effective and supportive learning environments for students and others.
2. The school psychologist utilizes data-based decision making and evaluation methods, problem-solving strategies, consultation, and other services for systems-level issues, initiatives, and accountability responsibilities.

~~*Standard 7: Information and Instructional Technology - The school psychologist understands information sources, instructional resources, and technology relevant to professional practice and services for students.*~~

~~**Knowledge**~~

- ~~1. The school psychologist knows how to access a variety of information sources (e.g., Internet and professional journals).~~
- ~~2. The school psychologist knows how to use new technologies to enhance student services.~~
- ~~3. The school psychologist possesses current knowledge of instructional resources for students (e.g., instructional software and assistive technology).~~

~~**Performance**~~

- ~~1. The school psychologist uses appropriate technologies to facilitate professional performance.~~
- ~~2. The school psychologist uses technologies to facilitate student performance.~~
- ~~3. The school psychologist makes use of technology (e.g., Internet and e-mail) to access information, current research, and professional development opportunities.~~
- ~~4. The school psychologist evaluates the validity of information and resources.~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Standard 7: Interventions and Mental Health Services to Develop Social and Life Skills - The school psychologist understands human development and psychopathology, including biological, cultural, and social influences.

Knowledge

1. The school psychologist understands biological, cultural, developmental, and social influences on learning, behavior, mental health, and life skills.
2. The school psychologist understands techniques to assess socialization, mental health, and life skills and methods for using data in decision making, planning, and progress monitoring
3. The school psychologist understands evidence-based supported strategies to promote social-emotional functioning and mental health.

Performance

1. The school psychologist uses assessment and data collection methods to collaboratively develop appropriate goals for students with diverse abilities, backgrounds, strengths, and needs.
2. The school psychologist integrates behavioral supports and mental health services with academic and behavioral goals to promote positive outcomes for students.
3. The school psychologist uses empirically supported strategies to collaboratively develop and implement services at the individual, group, and/or systems levels and to enhance classroom, school, home, and community factors related to student's mental health, socialization, and learning.

Standard 8: School and Systems Organization, Policy Development, and Climate - The school psychologist understands the unique organization and culture of schools and related systems.

Knowledge

1. ~~The school psychologist understands the organization of schools and systems.~~
2. ~~The school psychologist understands principles of organizational development and systems theory as it relates to their practice.~~
3. ~~The school psychologist knows how to implement and evaluate programs that promote safe and violence-free schools and communities.~~
4. ~~The school psychologist understands leadership roles in the development and implementation of systems change.~~
5. ~~The school psychologist understands funding mechanisms available to schools and communities that support physical, educational, and mental health services.~~
6. ~~The school psychologist knows how to access resources available to address behavioral,~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

learning, mental, and physical needs.

Performance

1. The school psychologist applies principles of organizational development and systems theory to promote learning and to create climates of mutual respect, care, and support for all individuals in the system.
2. The school psychologist participates in the implementation and evaluation of programs that promote safe and violence-free schools community.
3. The school psychologist contributes to the development of school policies, agency, and community procedures that promote effective programs and services for students and families.
4. The school psychologist facilitates decision making and collaboration that fosters a commitment to effective services for students and families.
5. The school psychologist accesses available resources to address behavioral, learning, mental, and physical needs.

Standard 8: Preventive and Responsive Services – The school psychologist understands preventive and responsive services in educational settings to promote a safe school environment.

Knowledge

1. The school psychologist understands principles and research related to resilience and risk factors in learning and mental health.
- 1.2. The school psychologist understands services in schools and communities to support multi-tiered prevention, and empirically supported strategies for effective crisis response.

Performance

1. The school psychologist, in collaboration with others, demonstrates skills to promote services that enhance learning, mental health, safety, physical well-being, and resilience through protective and adaptive factors.
2. The school psychologist, in collaboration with others, demonstrates skills to implement and/or evaluate effective crisis preparation, response, and recovery.
3. The school psychologist uses assessment and data collection methods to collaboratively develop appropriate goals for and to evaluate outcomes of prevention and response activities and crisis services.

Standard 9: Prevention, Crisis Intervention, and Mental Health – The school psychologist understands human development and psychopathology biological, cultural, and social influences on human behavior.

Knowledge

- ~~1. The school psychologist knows current theory, research and best practice concerning child and adolescent development; psychopathology; biological, cultural, and social influences on behavior; societal stresses; drug and alcohol influences; crises in schools, families, and communities.~~
- ~~2. The school psychologist has knowledge of antecedents and consequences that influence students' learning and behavior problems.~~
- ~~3. The school psychologist understands strategies to address students' learning and behavior problems.~~
- ~~4. The school psychologist knows various prevention programs and crisis intervention procedures.~~
- ~~5. The school psychologist understands diverse health issues (e.g., nutrition, eating disorders, teen pregnancy, AIDS, drug and alcohol abuse, smoking, and stress-related disorders).~~

Performance

- ~~1. The school psychologist develops, implements, and evaluates prevention programs based on recognition of the antecedents to students' learning and behavior problems.~~
- ~~2. The school psychologist participates in crisis prevention, intervention, and response and collaborating with students, school personnel, families and the community.~~
- ~~3. The school psychologist participates in and promotes physical and mental health programs for children in schools and related agencies.~~
- ~~4. The school psychologist facilitates environmental and/or educational changes that support the physical and mental health of students.~~
- ~~5. The school psychologist accesses available resources to address a wide variety of behavioral, learning, mental, and physical needs.~~

Standard—109: *Home/School/Community Collaboration - The school psychologist understands how to work effectively with students, families, educators, and others in the community to promote and provide comprehensive educational services.*

Knowledge

- ~~1. The school psychologist knows how family systems influence students' cognitive, affective and social development, and academic performance.~~
- ~~2. The school psychologist understands the importance of family involvement in education.~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

- ~~3. The school psychologist knows methods to promote collaboration between parents and educators that improve student performance.~~
- ~~4. The school psychologist understands diversity issues that affect home/school collaboration.~~
- ~~5. The school psychologist knows how family, home, peer, and community factors affect learning and achievement in school.~~
- ~~6. The school psychologist knows the local community services available to support students and their families.~~
1. The school psychologist understands the characteristics of families, family strengths and needs, family culture, and family-school interactions that impact student development.
2. The school psychologist understands the psychological and educational principles and research related to family systems and their influences on students' academic, motivational, behavioral, mental health, and social characteristics.
3. The school psychologist understands empirically supported strategies to support family influences on student learning, socialization, and mental health.
4. The school psychologist understands methods to develop collaboration between families, schools, and community agencies.

Performance

- ~~1. The school psychologist applies knowledge of the influence of family systems on education to maximize student performance.~~
- ~~2. The school psychologist facilitates and supports parent participation in educational decision making activities (e.g., team meetings, schoolwide committees, and school improvement teams).~~
- ~~3. The school psychologist facilitates home-to-school communication, including assisting students and families in accessing community and school-based services.~~
- ~~4. The school psychologist uses knowledge of diversity and resources to enhance collaboration between and schools.~~
1. The school psychologist demonstrates skills, in collaboration with others, to design, implement, and evaluate services that facilitate family and school partnerships and interactions with community agencies for enhancement of academic and social-behavioral outcomes for students.

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

2. The school psychologist uses empirically supported strategies to promote effective collaboration and partnerships among parents, schools, and community agencies regarding student learning, socialization, and mental health.

Standard 140: Research and Program Evaluation - The school psychologist understands research, statistics, and evaluation methods.

Knowledge

- ~~1. The school psychologist knows the basic principles of research design and statistics used in psychological and educational research.~~
 - ~~2. The school psychologist possesses sufficient knowledge of research and statistics to interpret and evaluate published research and/or plan and conduct research.~~
 - ~~3. The school psychologist knows appropriate program evaluation strategies and techniques.~~
 - ~~4. The school psychologist understands psychometric principles that influence test selection and assessment methods.~~
 - ~~5. The school psychologist knows the strengths and weaknesses of various research methods, designs and their impact on the interpretation of findings.~~
1. The school psychologist understands research design, statistics, measurement, varied data-collection and analysis techniques.
 2. The school psychologist understands statistical and other data analysis techniques sufficient for interpretation of research and data in applied settings.
 3. The school psychologist understands program evaluation methods at the individual, group, and systems levels.

Performance

- ~~1. The school psychologist applies knowledge of the principles of research design.~~
- ~~2. The school psychologist uses an understanding of research methodology and design to evaluate the validity and relevance of others' research.~~
- ~~3. The school psychologist uses appropriate strategies when evaluating programs and interventions.~~
- ~~4. The school psychologist applies psychometric standards and principles in selecting and using assessment tools and published tests.~~
- ~~5. The school psychologist maintains, accesses, and applies a current professional knowledge base of research findings, professional literature, and best practices relevant to the job.~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

1. The school psychologist demonstrates skills to evaluate and apply research as a foundation for service delivery.
2. The school psychologist provides assistance in educational settings for analyzing, interpreting, and using empirical foundations for effective practices at the individual, group, and/or systems levels.
3. The school psychologist demonstrates skills in using various techniques and technology resources, in collaboration with others, for data collection, measurement, analysis, and program evaluation to support effective practices at the individual, group, and/or systems levels.

Idaho Standards for School Social Workers

The following knowledge and performance statements for the School Social Worker Standards are widely recognized, but not all-encompassing or absolute, indicators that School Social Worker candidates have met the standards. [These standards were adapted from the 2008 Council on Social Work Education \(CSWE\) Educational Policy and Accreditation Standards, the National Association of Social Workers \(NASW\) School Social Work Standards, and the School Social Work Association of America's National School Social Work Model: Improving Academic and Behavioral Outcomes.](#) It is the responsibility of a School Social Work preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the School Social Work profession is a candidate's disposition. Professional dispositions are how School Social Work candidates view their profession, their content area, and/or students and their health and learning. Every School Social Work preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Social Worker candidate dispositions.

*~~*This language was written by a committee of content experts and has been adopted verbatim.~~*

~~**Standard 1: Content**—The competent school social worker understands the theories and skills needed to provide individual, group, and family counseling; crisis intervention; case management; advocacy; consultation; in-service and parent education; prevention programs; conflict resolution services; and community organization and development. The school social worker utilizes these theories and skills to enhance the environment of the local educational agency (LEA).~~

~~**Knowledge: The competent school social worker:**~~

- ~~1. Has attained a master's degree in social work with a specialization in school social work from a program accredited by the Council on Social Work Education (CSWE); OR meet the following criteria:
 - ~~a. has attained a master's degree in social work from a program accredited by (CSWE),~~
 - ~~b. has taken a school social work course and,~~
 - ~~c. has completed a social work practicum in a K-12 setting or has extensive experience working with children and families.~~~~
- ~~2. Understands methods of practice, including counseling, crisis intervention, case work, and individual, group, and family therapies.~~
- ~~3. Understands and develops skills in advocacy, case management, consultation, classroom groups, and community organization.~~
- ~~4. Understands theories of normal and exceptional development in early childhood, middle childhood, adolescence, and early adulthood and their application to all students.~~

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

- ~~5. Understands the effects of mental illness on students' ability to participate in learning.~~
- ~~6. Understands the person-in-environment context of social work.~~
- ~~7. Understands the effects of biological, family, social, health, and cultural factors on human development and social functioning.~~
- ~~8. Understands characteristics and implications for education of children with academic, and/or social/emotional challenges.~~
- ~~9. Understands systems theories as they relate to classrooms, schools, families, and community.~~
- ~~10. Understands methods of advocacy on behalf of individuals, families, and school systems.~~
- ~~11. Understands the application of social learning theories to identify and develop broad-based prevention and intervention programs.~~

Performance: The competent school social worker:

- ~~1. Uses empathy in interpersonal relationships.~~
- ~~2. Uses diverse interview techniques and written communication with all persons within the student's system.~~
- ~~3. Gathers and interprets appropriate information to document and assess environmental, emotional, cultural, socioeconomic, educational, biological, medical, psychosocial, and legal factors that affect children's learning.~~
- ~~4. Makes appropriate social work assessment of typical and atypical development of students based on level of state licensure i.e., Licensed Master Social Work (LMSW) or Licensed Clinical Social Worker (LCSW).~~
- ~~5. Selects and applies empirically-based methods of intervention to enhance students' educational experience.~~
- ~~6. Demonstrates effective leadership of and participation in interdisciplinary teams.~~

~~*Standard 2: Service Delivery — The competent school social worker utilizes a variety of intervention strategies that support and enhance students' educational and emotional development.*~~

Knowledge: The competent school social worker:

- ~~1. Understands empirically-based methods of individual, group, family, and crisis counseling.~~
- ~~2. Understands empirically-based methods of social work service delivery.~~
- ~~3. Understands and develops skills in advocacy, case management, community organization,~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

~~consultation and in-service training.~~

- ~~4. Understands the application of social learning theories to identify and develop broad-based prevention and interventions, including “Response to Intervention.” (RTI)~~
- ~~5. Understands the interdisciplinary approach to service delivery within the educational environment.~~
- ~~6. Understands how to integrate content knowledge for service delivery.~~
- ~~7. Understands the role of mandated reporters and the function of the State’s child welfare agency and law enforcement interaction.~~

Performance: The competent school social worker:

- ~~1. Develops and implements empirically-based prevention and intervention plans that enable the child to “respond to intervention” (RTI).~~
- ~~2. Provides individual, group, and/or family counseling and other services to enhance success in the educational process.~~
- ~~3. Provides crisis intervention counseling and other services to the school community.~~
- ~~4. Provides consultation to teachers, administrators, parents, and community agencies.~~
- ~~5. Develops and provides training and educational programs in the school and community.~~
- ~~6. Conducts social work assessments and participates in eligibility conferences for special education and other programmatic options, students’ educational planning conferences, and conferences with parents.¹~~
- ~~7. Initiates referrals and linkages to community agencies and maintains follow-up services on behalf of identified students.~~
- ~~8. Mobilizes the resources of the school and community to meet the needs of children and their families.~~

¹~~School social workers started as and remain an integral link between school, home, and community. Those who choose this particular field of social work provide direct services, as well as specialized services such as mental health intervention, crisis management and intervention, and facilitating community involvement in the schools. Working as an interdisciplinary team member, school social workers not only continue to provide services to school children and their families, but also continue to evaluate their role and consequently modify it to meet organizational or contextual needs and changes in policies and practice.~~

~~Social work assessment is an ongoing process of data collection aimed at identifying client strengths and problems. Specifically, assessment guides treatment planning, as well as informs~~

~~intervention selection and monitoring as it relates to the social-emotional development of students in the educational system. (Mizrahi, T., Davis, L. E., & Henderson, D. M. (Eds.). (2009). *Encyclopedia of social work* (20th Ed.) Silver Springs, MD: National Association of Social Workers and Oxford University Press, Inc.)~~

- ~~9. Reports suspected child abuse and neglect to the State's child welfare agency and/or law enforcement.~~

~~**Standard 3: Planning**—*The competent school social worker designs services based upon knowledge of the educational setting, as well as information about the students, families, and community.*~~

~~**Knowledge: The competent school social worker:**~~

- ~~1. Understands learning theory and normal and exceptional development as it applies to the content and curriculum of educational planning and intervention.~~
- ~~2. Understands the process of needs assessment, referral, and resource development.~~
- ~~3. Understands how to develop long and short term empirically based intervention plans consistent with curriculum and students' diversity and strengths, life experiences, and social/emotional factors.~~
- ~~4. Understands environmental factors when planning interventions to create an effective bridge between students' experiences and goals.~~
- ~~5. Understands how to integrate and use technology for assessments, interventions, and information management.~~

~~**Performance: The competent school social worker:**~~

- ~~1. Assists in establishing expectations for student learning consistent with students' strengths and educational systems' goals.~~
- ~~2. Conducts needs assessments to plan for service delivery.~~
- ~~3. Assists students in creating long and short term plans to meet expectations for learning.~~
- ~~4. Creates and adapts from empirically-based learning opportunities and materials to provide effective interventions.~~
- ~~5. Plans interventions that integrate students' life experiences and future career goals.~~
- ~~6. Maintains relevant data to assist in planning, management and evaluation of school social work.~~
- ~~7. Collects, analyzes and interprets data to evaluate and modify interventions when necessary.~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

- ~~8. Supports approaches to learning that address individual student needs.~~
- ~~9. Integrates and uses technology for assessments, interventions, and information management.~~

~~*Standard 4: Assessment and Evaluation – The competent school social worker understands various formal and informal assessment and evaluation strategies and uses them to support the development of all students.*~~

Knowledge: The competent school social worker:

- ~~1. Understands strength-based assessments and practices that support growth and development.~~
- ~~2. Understands various types of research, measurement theory, and concepts of validity, reliability, bias, scoring, and interpretation of results.~~
- ~~3. Understands multiple empirically-based assessment techniques, such as observation, structured/clinical interviews, and standardized assessments, and their purposes, characteristics, and limitations.~~
- ~~4. Understands how to conduct social work assessment of adaptive behavior, learning styles, self-esteem, social skills, attitudes, high-risk behavior (i.e. truancy, suicide, homicide, drug and alcohol, etc.), interests, and emotional/mental health.~~
- ~~5. Understands the use of assessment as a means to evaluate the student's social-emotional/mental functioning, including:
 - ~~• The child's physical, cognitive, and social-emotional development;~~
 - ~~• Family history and factors that influence the child's overall functioning;~~
 - ~~• The child's behavior and attitude in different settings;~~
 - ~~• Patterns of interpersonal relationships in all spheres of the child's environment;~~
 - ~~• Patterns of achievement and adjustment at critical points in the child's growth and development;~~
 - ~~• Adaptive behavior and cultural factors that may influence learning.~~~~
- ~~6. Understands the social-developmental history with its focus on the student's functioning within the educational environment.~~
- ~~7. Understands the relationship between assessment, eligibility, and placement decisions, including the development of Individualized Education Programs.~~
- ~~8. Understands parent/guardian and student rights (both legal and educational) regarding assessment and evaluation.~~
- ~~9. Is familiar with the diagnostic tools used by other professionals in the school.~~
- ~~10. Understands the use of empirically-based assessment and evaluation results to develop student interventions.~~

Performance: The competent school social worker:

- ~~1. Appropriately uses a variety of non-discriminatory formal and informal tools and techniques, including observation, interview and standardized instruments to evaluate the understanding, progress, and performance of students' social-emotional development in the school environment.~~
- ~~2. Uses social work assessment results to identify student learning needs and to assist in aligning and modifying instruction and designing intervention strategies including "Response to Intervention" (RTI).~~
- ~~3. Uses empirically-based assessment and evaluation results to develop appropriate interventions, including recommendations for eligibility and placement.~~
- ~~4. Involves students in self-assessment activities to help them become aware of their strengths and needs and to establish goals.~~
- ~~5. Presents social work assessment results in an easily understandable manner.~~
- ~~6. Documents social work assessment and evaluation results.~~
- ~~7. Collaborates with parents/guardians and other professionals regarding the assessment process.~~
- ~~8. Ensures parents/guardians are informed of their rights and the rights of students regarding assessment.~~
- ~~9. Uses a variety of non-discriminatory formal and informal tools and techniques to help determine the efficacy of intervention and programs.~~

~~*Standard 5: Consultation and Collaborative Relationships: The competent school social worker develops consultative and collaborative relationships with colleagues, parents, and the community to support students' learning and well-being.*~~

Knowledge: The competent school social worker:

- ~~1. Understands the principles, practices, and processes of individual and organizational consultation.~~
- ~~2. Understands the collaborative process with parents, school personnel, community-based organizations, and agencies to enhance the student's educational functioning.~~
- ~~3. Understands the school's role within the context of the larger community.~~

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

- ~~4. Understands the variations in beliefs, traditions, and values across cultures and their effect on interactions among group members.~~
- ~~5. Understands the importance of audience and purpose when selecting ways to communicate ideas.~~
- ~~6. Understands language development, communication techniques, and the role of communication in the learning environment.~~
- ~~7. Understands that as members of interdisciplinary teams and coalitions, school social workers shall work collaboratively to mobilize the resources of local education agencies and communities to meet the needs of students and families~~
- ~~8. Understands the role of school personnel as mandated reporters of child abuse and neglect.~~

Performance: The competent school social worker:

- ~~1. Initiates, develops, and implements consultative relationships.~~
- ~~2. Models and promotes ethical practices for confidential communication.~~
- ~~3. Collaborates with colleagues, parents/guardians, and community personnel about students' needs.~~
- ~~4. Encourages relationships among colleagues to promote a positive learning environment.~~
- ~~5. Participates in collaborative decision-making and problem-solving to promote students' success.~~
- ~~6. Facilitates a collaborative relationship between general and special education systems to promote a unified system of education.~~
- ~~7. Models and promotes effective communication among group members or between groups.~~
- ~~8. Uses a variety of effective communication modes with diverse target groups.~~
- ~~9. Assist in the education of school personnel on mandated reporting of child abuse and neglect to the State's child welfare agency and/or law enforcement.~~
- ~~10. Makes mandated reports of child abuse and neglect as appropriate to the State's child welfare agency and/or law enforcement.~~

~~***Standard 6: Advocacy and Facilitation—The competent school social worker advocates and facilitates change that effectively responds to the needs of students, families, and school systems.***~~

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

Knowledge: The competent school social worker:

1. Understands the role of advocacy and facilitation at all levels of the system that affect students and their families.
2. Is familiar with available resources for students and families within the school and community.
3. Understands when and how to make referrals for programs and services at the district, community, and State levels.
4. Understands the need to improve access to services and resources.

Performance: The competent school social worker:

1. Works to empower children, their families, educators, and others to gain access to and effectively use school and community resources.
2. Identifies areas of need and accesses or advocates for the creation of resources at the state and community level.
3. Makes referrals to community and school resources.
4. Advocates for students with other members of the educational community to enhance students' functioning in the learning environment.

Standard 7: Learning Community – The competent school social worker encourages effective social interaction, active engagement in learning, and self-motivation to create a positive learning community.

Knowledge: The competent school social worker:

1. Understands principles of and strategies for effective behavior and social management within the school environment.
2. Understands how people's attitudes within the educational environment influence behavior of individuals.
3. Understands how to help students work cooperatively and productively.
4. Understands the importance of parents'/guardians' participation in fostering students' positive development.
5. Understands dispute resolution strategies.
6. Understands the goals and objectives of educational organizations.
7. Understands how to work with administrators and other school personnel to make changes within the school.

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

- ~~8. Understands how service learning and volunteerism promote the development of personal and social responsibility.~~

Performance: The competent school social worker:

- ~~1. Encourages the development of a learning community where students assume responsibility, participate in decision-making, and work independently as well as collaboratively in learning activities.~~
- ~~2. Analyzes school environments and works effectively to create/enhance a supportive and safe learning climate.~~
- ~~3. Develops strategies to encourage motivation and engagement through mutual respect and cooperation.~~
- ~~4. Develops dispute resolution programs within the school environment.~~
- ~~5. Develops needs assessments and works as a change agent to address the identified gaps in services.~~
- ~~6. Collaborates with community agencies in school-linked service learning projects or other programs.~~
- ~~7. Promotes the effective utilization of school social work services.~~
- ~~8. Promotes understanding of factors that affect the school environment and facilitates systems improvement.~~
- ~~9. Designs, implements, and evaluates programs that enhance a student's social participation in school, family, and community.~~
- ~~10. Promotes active parental/guardian participation within the educational environment.~~
- ~~11. Collaborates with community agencies to increase access to services and resources.~~

~~***Standard 8: Diversity—The competent school social worker understands the broad range of backgrounds and experiences that shape students' approaches to learning and helps create opportunities adapted to diverse populations of learners.***~~

Knowledge: The competent school social worker:

- ~~1. Understands how students' learning is influenced by culture, family, community values, individual experiences, talents, gender, sexual orientation, language, and prior learning.~~
- ~~2. Understands and identifies differences in approaches to learning and performance, including different learning styles, performance modes, and variations of perception.~~

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

- ~~3. Understands and respects the impact of cultural, racial, ethnic, socioeconomic, and gender diversity and sexual orientation in the educational environment.~~
- ~~4. Understands the issues of second language acquisition, the immigrant experience, and the need to develop strategies to support students and families.~~
- ~~5. Understands ways in which similar behaviors may have different meanings to people in different cultures.~~

Performance: The competent school social worker:

- ~~1. Facilitates a learning community in which individual differences are respected.~~
- ~~2. Practices gender equity and avoid sex role stereotyping.~~
- ~~3. Provides services that promote multi-cultural sensitivity.~~
- ~~4. Develops strategies to decrease negative effects of cultural barriers on education.~~
- ~~5. Utilizes students' diversity to enrich the educational experiences of all students.~~
- ~~6. Interprets information about students' families, cultures, and communities in assessments, interventions, and evaluations of student progress.~~
- ~~7. Utilizes appropriate social work assessment tools and empirically based intervention strategies that reflect diverse student needs.~~
- ~~8. Designs empirically based intervention strategies appropriate to student's culture, gender, sexual orientation, developmental stage, learning styles, strengths and needs.~~
- ~~9. Makes referrals for additional services or resources to assist students with diverse learning needs.~~

~~*Standard 9: Professional Conduct and Ethics – The competent school social worker understands education and social work as professions, maintains standards of professional conduct and ethics, and provides leadership to improve students' learning, safety, and well-being.*~~

Knowledge: The competent school social worker:

- ~~1. Understands the current applicable professional codes of conduct and ethical practice guidelines.~~
- ~~2. Understands federal and state laws and regulations as they pertain to ethical school social work practice.~~
- ~~3. Understands the legal and ethical principles of confidentiality as they relate to the practice~~

**STATE DEPARTMENT OF EDUCATION

AUGUST 13, 2015

interventions and program development.

Performance: The competent school social worker:

1. Uses continuing education, professional development activities, research, professional literature, observations and experiences to enhance professional growth and to guide evaluation of professional practice.
2. Maintains an awareness of personal attitudes, perspectives, strengths, and needs as they relate to professional practice.
3. Uses self-assessment and performance evaluations to identify areas for professional growth.
4. Actively seeks consultation to improve professional practice.
5. Maintains the limits and boundaries of the professional role of school social workers.
6. Participates in professional activities and organizations that promote and enhance school social work practice.

Standard 1: Foundations of the professional school social worker - The competent school social worker is an advanced practitioner trained in mental health with a masters degree in social work, who provides services related to a person's social emotional and life adjustment to school and/or society. School social workers are the link between the home, school and community in providing direct as well as indirect services that promote and support students' academic and social success.

Knowledge - The competent school social worker:

1. Understands that school social work is an area of concentration built on the knowledge and competencies of graduate level social work education.
2. Understands how to improve academic and behavioral outcomes of students.
3. Possesses skills and knowledge to ensure the delivery of scientifically supported services.
4. Knows how to promote a positive school climate and culture.
5. Knows how to maximize school-based and community resources.
6. Understands how to synthesize and apply a broad range of interdisciplinary and multidisciplinary knowledge and skills.

Performance - The competent school social worker:

1. Uses knowledge to improve academic and behavioral outcomes of students.
2. Utilizes skills and knowledge to ensure the delivery of scientifically supported services.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

3. Promotes a positive school climate and culture.
4. Maximizes school-based and community resources.
5. Synthesizes and applies a broad range of interdisciplinary and multidisciplinary knowledge and skills.

Standard 2: Engagement, Assessment, Intervention, and Evaluation - The competent school social worker engages, assesses, intervenes, and evaluates with individuals, families, groups, organizations and communities for the enhancement of student learning and the educational system.

Knowledge - The competent school social worker:

1. Understands environmental factors when planning interventions to create an effective bridge between students' experiences and goals.
2. Understands how to conduct social work assessment of adaptive behavior, learning styles, self-esteem, social skills, attitudes, high-risk behavior (i.e. truancy, suicide, homicide, drug and alcohol, etc.), interests, and emotional/mental health.
3. Understands how to help students work cooperatively and productively.
4. Understands how to interpret and utilize research to evaluate and guide professional interventions and program development.
5. Understands dispute resolution strategies.
6. Is familiar with the diagnostic tools used by other professionals in the school.
7. Understands the use of assessment as a means to evaluate the student's social- emotional/mental functioning, including:
 - a. The child's physical, cognitive, and social-emotional development.
 - b. Family history and factors that influence the child's overall functioning.
 - c. The child's behavior and attitude in different settings.
 - d. Patterns of interpersonal relationships in all spheres of the child's environment.
 - e. Patterns of achievement and adjustment at critical points in the child's growth and development.
 - f. Adaptive behavior and cultural factors that may influence learning; understands the relationship between assessment, eligibility, and placement decisions, including the development of Accommodation, Behavior, Response to Intervention (RTI) and Individualized Education Plans (IEP).

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Performance - The competent school social worker:

1. Substantively and effectively builds relationships with individuals, families, groups, organizations, and communities.
2. Uses empathy and other interpersonal skills.
3. Develops a mutually agreed-on intervention goals and objectives.
4. Collects, organizes, and interprets student data.
5. Assesses student and family strengths and limitations with the goal of improving student social, emotional, behavioral, and academic outcomes.
6. Selects and utilizes appropriate intervention strategies.
7. Initiates actions to achieve student learning outcomes.
8. Implements prevention interventions that enhance student and family capacities.
9. Helps students and families resolve problems.
10. Negotiates, mediates, and advocates for students, families and the school system.
11. Plans for and facilitates transitions and termination of services.
12. Critically analyzes, monitors, and evaluates interventions.
13. Uses diverse interview techniques and written communication with all persons within the student's environment.
14. Mobilizes the resources of the school and community to meet the needs of students and their families.
15. Assists in establishing expectations for student learning consistent with students' strengths and educational goals.

Standard 3: Knowledge of human behavior and the social environment - The competent school social worker is knowledgeable about human behavior across the life course; the range of social systems in which people live; and the ways social systems promote or deter people in maintaining or achieving health and well-being. School social workers apply pertinent theories and knowledge to understand biological, social, cultural, psychological, and spiritual development.

Knowledge - The competent school social worker:

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

1. Understands theories of normal and exceptional development in early childhood, middle childhood, adolescence, and early adulthood and their application to all students.
2. Understands the effects of mental illness on students' ability to participate in learning.
3. Understands the person-in-environment context of social work.
4. Understands the effects of biological, spiritual, legal, social, and cultural factors on human development and social functioning.
5. Understands characteristics and implications for education of children with academic, and/or social/emotional challenges.
6. Understands strength-based assessments and practices that support growth and development.
7. Understands the social-developmental history with its focus on the student's functioning within the educational environment.
8. Understands principles of and strategies for effective behavior, emotional and social management within the school environment.
9. Understands how people's attitudes within the educational environment influence behavior of individuals.
10. Understands the importance of parents'/guardians' participation in fostering students' positive development.
11. Understands the goals and objectives of educational organizations.
12. Understands how service learning and volunteerism promote the development of personal and social responsibility.

Performance - The competent school social worker:

1. Utilizes the human behavior in the social environment framework to guide processes of assessment, intervention, and evaluation with individuals, groups, families, and school system.
2. Critiques and applies knowledge to understand students in their educational, family and community environments.
3. Gathers and interprets appropriate information to document and assess environmental, emotional, cultural, socioeconomic, educational, biological, psychosocial, and legal factors that affect children's learning.
4. Develops and implements empirically-based prevention and intervention plans that enable the child to "respond to intervention" (RTI).

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

5. Provides individual, group, and/or family counseling and other services to enhance success in the educational process.
6. Provides crisis intervention counseling and other services to the school community.
7. Provides consultation to teachers, administrators, parents, and community agencies.
8. Conducts social work assessments and participates in eligibility conferences for special education and other programmatic options, students' educational planning conferences, and conferences with parents.
9. Implements appropriate areas of student IEP, accommodation, and behavior plans.
10. Initiates referrals and linkages to community agencies and maintains follow-up services on behalf of identified students.

Standard 4: Policy practice - The competent school social worker advances social and economic well-being and delivers effective social work services in the educational setting. School social workers, as systems' change agents, shall identify areas of need that are not being addressed by the local education agency and community and shall work to create services that address these needs. School social workers shall be informed about court decisions, legislation, rules and regulations, and policies and procedures that affect school social work practice, to effectively advocate for students.

Knowledge - The competent school social worker:

1. Understands the interdisciplinary approach to service delivery within the educational environment.
2. Understands parent/guardian and student rights (both legal and educational) regarding assessment and evaluation.
3. Understands the collaborative process with parents, school personnel, community-based organizations, and agencies to enhance the student's educational functioning.
4. Understands the school's role within the context of the larger community.
5. Understands the importance of audience and purpose when selecting ways to communicate ideas.
6. Understands how to work with administrators and other school personnel to make changes within the school.
7. Understands the organization and operation of safe school systems.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

8. Understands school policies and procedures as they relate to student learning, safety and well-being.

Performance - The competent school social worker:

1. Analyzes, formulates, and advocates for policies that advance social well-being for students, families, and school system.
2. Collaborates with colleagues and clients for effective policy action.
3. Educates students and parents about school, State, and Federal policies and statutes and accompanying rights and responsibilities.
4. Identifies and addresses gaps in services for students and families.
5. Engages in advocacy that seeks to ensure that all students have equal access to education and services to enhance their academic progress.

Standard 5: Environmental contexts that shape practice - Competent school social workers are informed, resourceful, and proactive in responding to evolving organizational, community, and societal contexts at all levels of practice. They recognize that the educational settings are dynamic, and use knowledge and skills to respond proactively.

Knowledge - The competent school social worker:

1. Understands systems theories as they relate to classrooms, schools, families, and community.
2. Understands the application of social learning theories to identify and develop broad-based prevention and intervention programs.
3. Understands learning theory and normal and exceptional development as it applies to the content and curriculum of educational planning and intervention.
4. Understands how to develop long- and short-term empirically-based intervention plans consistent with curriculum and students' diversity and strengths, life experiences, and social/emotional factors.
5. Understands how to integrate and use technology for assessments, interventions, and information management.
6. Understands that as members of interdisciplinary teams and coalitions, school social workers shall work collaboratively to mobilize the resources of local education agencies and communities to meet the needs of students and families.
7. Understands how to facilitate a collaborative relationship between general and special education systems to promote a unified system of education.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Performance - The competent school social worker:

1. Continuously discovers, appraises, and attends to changing locales, populations, scientific and technological developments, and emerging societal trends to provide relevant service.
2. Provides leadership in promoting sustainable changes in service delivery and practice to improve the quality of social services.
3. Facilitates collaborative relationships between general and special education systems to promote a unified system of education.
4. Develops long- and short-term empirically-based intervention plans consistent with curriculum and students' diversity and strengths, life experiences, and social/emotional factors.
5. Integrates and uses technology for assessments, interventions, and information management.

Standard 6: Empirically based practice - The competent school social worker engages in research-informed practice and practice-informed research. School social workers use practice experience to inform research, employ evidence-based interventions, evaluate their own practice, and use research findings to improve practice, policy, and social service delivery in the educational setting.

Knowledge - The competent school social worker:

1. Understands empirically-based methods of individual, group, family, and crisis counseling.
2. Understands empirically-based methods of social work service delivery.
3. Understands the process of needs assessment, referral, and resource development.
4. Understands quantitative and qualitative research.
5. Understands scientific and ethical approaches to building knowledge.
6. Understands the use of empirically based assessment and evaluation results to develop student interventions.

Performance - The competent school social worker:

1. Uses practice in the educational setting to inform future research activities.
2. Uses research evidence to inform practice in assessment, prevention, intervention and evaluation with individuals, groups, families, and the school system.
3. Uses evidence based knowledge in the development and implementation of accommodation, behavioral, RTI, and IEP plans.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

4. Collects, interprets and uses data in interdisciplinary collaboration to develop and foster academic achievement.
5. Involves students in self-assessment activities to help them become aware of their strengths and needs to establish and attain their goals.

Standard 7: Advocacy - The competent school social worker advances student, family and human rights for social and economic justice within educational settings. Each person, regardless of position in society, has basic human rights, such as freedom, safety, privacy, an adequate standard of living, health care, and education.

Knowledge - The competent school social worker:

1. Understands methods of advocacy on behalf of individuals, families, and school systems.
2. Understands the role of advocacy and facilitation at all levels of the system that affect students and their families.
3. Understands the need to improve access to services and resources.
4. Understands the forms and mechanisms of oppression and discrimination and how these factors impact student learning.
5. Recognizes the global interconnections of oppression and are knowledgeable about theories of justice and strategies to promote human and civil rights within the academic setting.

Performance - The competent school social worker:

1. Advocates for student, family and human rights and social and economic justice.
2. Engages in practices that advance social and economic justice.
3. Works to empower children, their families, educators, and others to gain access to and effectively use school and community resources.
4. Identifies areas of need and accesses or advocates for the creation of resources at the state and community level.
5. Advocates for students with other members of the educational community to enhance students' functioning in the learning environment.
6. Incorporates social justice practices in organizations, institutions, and society to ensure that these basic human rights are distributed equitably and without prejudice.

Standard 8: Diversity and cultural competence - The competent school social worker understands how diversity characterizes and shapes the human experience and is critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including age, class, color, culture, disability, ethnicity, gender, gender

identity and expression, immigration status, political ideology, race, religion, sex, and sexual orientation.

Knowledge - The competent school social worker:

1. Understands the variations in beliefs, traditions, and values across cultures and their effect on interactions among group members.
2. Understands the broad range of backgrounds and experiences that shape students' approaches to learning.
3. Understands how students' success is influenced by prior learning and the diversity factors listed above.
4. Understands and identifies differences in approaches to learning and performance, including different learning styles, performance modes, and variations of perception.
5. Understands the issues of second language acquisition and the immigrant experience.
6. Understands ways in which similar behaviors may have different meanings to people in different cultures.
7. Understands that, as a consequence of difference and diversity, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim.

Performance - The competent school social worker:

1. Considers the extent to which a culture's structures and values may oppress, marginalize, alienate, create or enhance privilege and power.
2. Gains sufficient self-awareness to eliminate the influence of personal biases and values in working with diverse groups.
3. Communicates their understanding of the importance of difference in shaping life, learning and educational experiences.
4. Actively learns from and engages those with whom they work.
5. Considers how these factors impact student learning, academic success and achievement.

Standard 9: Critical Thinking - The competent school social worker is knowledgeable about the principles of logic, scientific inquiry, and professional judgment and their implications to student learning.

Knowledge - The competent school social worker:

1. Understands how to analyze the usefulness of knowledge in specific situations.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

2. Understands how synthesis and communication of relevant information is pertinent to the educational setting.
3. Understands how to integrate content knowledge for service delivery.
4. Understands theories and methods of communication.

Performance - The competent school social worker:

1. Distinguishes, appraises, and integrates multiple sources of knowledge, including research-based knowledge, and practice wisdom.
2. Uses critical thinking and professional judgment augmented by creativity and curiosity in decision making.
3. Analyzes models of assessment, prevention, intervention, and evaluation.
4. Synthesizes and communicates relevant information as it pertains to the learning environment.
5. Uses supervision and consultation to determine best practice service delivery.
6. Utilizes theories and appropriate methods of communication when engaging a variety of audiences.

Standard 10: Ethical Practice - The competent school social worker conducts themselves ethically by applying ethical principles to guide professional practice and decision making within the educational setting.

Knowledge - The competent school social worker:

1. Understands federal and state laws and regulations as they pertain to ethical school social work practice.
2. Understands the NASW *Code of Ethics* and, as applicable, of the International Federation of Social Workers/International Association of Schools of Social Work *Ethics in Social Work, Statement of Principles*.
3. Understands the legal and ethical principles of confidentiality as they relate to the practice of school social work, (i.e. HIPPA, FERPA).
4. Understands the value base of the profession, its ethical standards, and relevant law.

Performance - The competent school social worker:

1. Maintains current knowledge of and abides by federal and State laws and regulations, with emphasis on confidentiality, and students' and families' rights.
2. Models and promotes ethical practices for confidential communication.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

3. Manages personal values in a way that allows professional values to guide practice.
4. Makes ethical decisions by applying standards of the *NASW Code of Ethics* and, as applicable, of the International Federation of Social Workers/International Association of Schools of Social Work *Ethics in Social Work, Statement of Principles*.
5. Tolerates ambiguity in resolving ethical conflicts.
6. Applies strategies of ethical reasoning to arrive at principled decisions.
7. Collaborates with other educational professionals in an interdisciplinary and ethical manner.

Standard 11: Identifies as a professional school social worker and conducts oneself accordingly - School social workers serve as representatives of the profession, its mission, and its core values. They know the profession's history. Social workers commit themselves to the profession's enhancement and to their own professional conduct and growth.

Knowledge - The competent school social worker:

1. Understands methods of practice, including counseling, crisis intervention, case work, and individual, group, and family therapies.
2. Understands and develops skills in advocacy, case management, classroom groups, community organization, consultation and in-service training.
3. Understands the role of mandated reporters and the function of the State's child welfare agency and law enforcement interaction.
4. Understands the importance of active participation and leadership in professional education and social work organizations.
5. Understands how to use supervision, consultation, collaboration, and continuing education to identify areas for ongoing professional development.
6. Understands the importance of taking responsibility for self-evaluation as a competent and ethical practitioner.
7. Understands the significance of social work history.

Performance - The competent school social worker:

1. Advocates for student and family access to social work services in the educational setting.
2. Practices personal reflection and self-correction to assure continual professional development.
3. Attends to professional roles and boundaries within the context of the educational setting.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

4. Demonstrates professional demeanor in behavior, appearance, and communication.
5. Engages in career-long learning.
6. Uses supervision and consultation.
7. Uses continuing education, professional development activities, research, professional literature, observations and experiences to enhance professional growth and to guide evaluation of professional practice.
8. Participates in professional activities and organizations that promote and enhance school social work practice.

SUBJECT

Proposed Rule Changes to IDAPA 08.02.02.016, .019, .022, .023, .024, .027, .028, .100 Rules Governing Uniformity.

APPLICABLE STATUTE, RULE, OR POLICY

Section 33-1254, 33-1258, and 33-114, Idaho Code
Idaho Administrative code, IDAPA 08.02.02 - Rules Governing Uniformity

BACKGROUND/DISCUSSION

08.02.02.016.01 IDAHO EDUCATOR CREDENTIAL Renewal Requirement – Mathematics In-Service Program

This section of rule is being amended to clarify the intent of the renewal requirements for the Mathematics In-Service Program requirement and the Idaho Comprehensive Literacy Course. The intent was to have all currently employed holders of Standard Elementary Certificates, Standard Exceptional Child Certificates, and Administrator Certificates show proof that they have successfully completed the “Mathematical Thinking for Instruction” course, as a one-time requirement to recertify. The language has been amended to clarify that the requirement is not limited by the assignment that is held at the time of recertification, but it is a condition of employment in any Idaho school district or charter school by anyone who holds the previously named certificates.

08.02.02.016.04 IDAHO EDUCATOR CREDENTIAL Renewal Requirement – Idaho Comprehensive Literacy Course

This section of rule is being amended to clarify the intent of the renewal requirements for the Idaho Comprehensive Literacy Course. The intent was to have all currently employed holders of Standard Elementary Certificates and Standard Exceptional Child Certificates show proof that they have successfully completed the Idaho Comprehensive Literacy course, as a one-time requirement to recertify. The language has been amended to clarify that the requirement is not limited by the assignment that is held at the time of recertification, but it is a condition of employment in any Idaho school district or charter school by anyone who holds the previously named certificates.

08.02.02.019 BLENDED EARLY CHILDHOOD EDUCATION/EARLY CHILDHOOD SPECIAL EDUCATION CERTIFICATE Birth through Grade 3 Endorsement, Pre-K through Grade 6 Endorsement. 08.02.02.022.08, .09 ENDORSEMENTS A – D Communication Endorsement (6-12), Computer Science Endorsement (6-12), 08.02.02.023.02, .03, .09, .12 ENDORSEMENTS E – L Economics Endorsement (6-12), Engineering Endorsement (6-12), Health Endorsement (6-12 or K-12), Journalism Endorsement (6-12), 08.02.02.024.07, .08 ENDORSEMENTS M – Z Physical Education (PE) (6-12 or K-12), Physical Education/Health. 08.02.02.027.07 PUPIL PERSONNEL SERVICES CERTIFICATE School Social Worker Endorsement. 08.02.02.028 EXCEPTIONAL CHILD CERTIFICATE Generalist Endorsement (K-12),

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

Generalist Endorsement (K-8), Generalist Endorsement (6-12), Early Childhood Special Education Endorsement (Pre-K-3)

The Professional Standards Commission (PSC) follows a Strategic Plan of annually reviewing twenty percent (20%) of the Idaho Standards for Initial Certification of Professional School Personnel. The following certificates and endorsements were reviewed by committees of content experts: Early Childhood/Early Childhood Special Education Blended Certificate, Communication, Computer Science, Economics, Engineering, Health, Journalism, Physical Education, Physical Education/Health, School Social Worker, Generalist, and Early Childhood Special Education and have been amended to bring them into alignment with the proposed standards amendments that the Board is considering for adoption and incorporation by reference in IDAPA 08.02.02.004 in a separate agenda item.

All standards and endorsements were revised to better align with national standards and best practices; then they were presented to the PSC for consideration. The PSC has recommended approval of all of the committee's proposed endorsement revisions including renaming the Early Childhood/Early Childhood Special Education Blended Certificate to Blended Early Childhood Education/Early Childhood Special Education Certificate to increase clarity regarding the intent of the certificate. Additionally, the specific Birth through Grade 3 range of the endorsement is now officially being named as an endorsement in rule. The PSC is also recommending approval of the creation of a new endorsement that will provide Idaho universities the opportunity to prepare their Blended Early Childhood Education/Early Childhood Special Education Certificate candidates to teach elementary through Grade 6, to increase the number of teachers who can teach elementary special education by meeting a few additional requirements.

There are two additional Generalist Endorsements being recommended to encourage teacher preparation candidates to consider adding a special education endorsement that will allow them to specialize in either elementary or secondary grades to help address the need for more special education teachers.

The final major change is the recommendation to eliminate the Physical Education/Health endorsement, as it is redundant. The only way to obtain the endorsement is to hold both the Physical Education and Health endorsements, which makes this combined endorsement unnecessary.

08.02.02.100.03, .04 OFFICIAL VEHICLE FOR APPROVING TEACHER EDUCATION PROGRAMS Continuing Approval.

This section of rule is being amended to update the name change of the national council that accredits teacher preparation programs, as well as to clarify that all teacher preparation programs must be reviewed at least once between full program reviews. Additionally, the payment responsibility is being shifted to create more equality between Idaho public universities that are required to be nationally accredited, and those private universities that do not elect to be nationally accredited. Idaho rule requires that all Idaho approved public and private universities be

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

reviewed according to the national standards. The majority of Idaho's colleges and universities pay to be reviewed and accredited by the approved national council. Those that opt not to pursue national accreditation still have to be reviewed according to the same national standards, but a state team must be formed to review the national standards. Colleges and universities that are nationally accredited bear the cost of this review, while non-accredited colleges or universities bear none of the cost of the national standards review. This rule will assess a fee that is comparable to, but still less than what the nationally accredited colleges/universities pay for each approved Idaho college or university that chooses to not seek national accreditation.

ATTACHMENTS

Attachment 1 – Proposed changes to IDAPA 08.02.02.016, 019, .022, .023, .024, .027, .028, .100. Page 5

STAFF COMMENTS AND RECOMMENDATIONS

As a result of the extensive 2014 rewrite of IDAPA 08.02.02 regarding teacher certification, a number of issues were identified regarding the reorganization and cleanup of these sections of Idaho Administrative Code that would need to be addressed if the tiered certification proposal was not adopted. Board staff has developed proposed amendments under a separate Proposed Rule for Board consideration. Should the Board approve both rules, Board staff will work with the Department staff to incorporate the necessary changes into both administrative rules as applicable. Board staff have discussed the need to coordinate the proposed changes with the Departments certification staff.

BOARD ACTION

I move to approve the request by the Professional Standards Commission to approve the proposed rule amendments to Idaho Administrative Code IDAPA 08.02.02.016, 019, .022, .023, .024, .027, .028, .100 Rules Governing Uniformity as submitted.

Moved by _____ Seconded by _____ Carried Yes _____ No _____

**IDAPA 08
TITLE 02
CHAPTER 02**

08.02.02 - RULES GOVERNING UNIFORMITY₁

016. IDAHO EDUCATOR CREDENTIAL.

The State Board of Education authorizes the State Department of Education to issue certificates and endorsements to those individuals meeting the specific requirements for each area provided herein. (Section 33-1201, Idaho Code)
(3-16-04)

01. Renewal Requirement - Mathematics In-Service Program. In order to recertify, the state approved mathematics instruction course titled “Mathematical Thinking for Instruction”, or another State Department of Education approved alternative course, shall be required. The “Mathematical Thinking for Instruction” course consists of three (3) credits (or forty-five (45) contact hours of in-service training). Teachers and administrators shall take one (1) of the three (3) courses developed that each teacher deems to be most closely aligned with their current assignment prior to September 1, 2014. Any teacher or administrator successfully completing said course shall be deemed to have met the requirement of Subsection 060.03.c. of this rule, regardless of whether such course is part of any official transcript. Successful completion of state approved mathematics instruction course shall be a one-time requirement for renewal of certification for those currently employed in an Idaho school district and shall be included within current requirements for continuing education for renewal. The following individuals listed in Subsection 016.01.a. through 016.01.e. shall successfully complete the “Mathematical Thinking for Instruction” course in order to recertify:
(3-20-14)

a. Each teacher holding an Early Childhood/Early Childhood Special Education Blended Certificate (Birth - Grade 3) who is employed in an ~~elementary classroom (multi subject classroom, K-8)~~ Idaho public school district or charter school;
(3-29-10)(- -)

b. Each teacher holding a Standard Elementary Certificate (K-8) who is employed in an ~~elementary classroom (multi subject classroom K-8)~~ Idaho public school district or charter school;
(3-20-14)(- -)

c. Each teacher holding a Standard Secondary Certificate (6-12) teaching in a math content classroom (grade six (6) through grade twelve (12)) including Title I who is employed in an ~~elementary classroom (multi subject classroom K-8)~~ Idaho public school district or charter school;
(3-20-14)(- -)

d. Each teacher holding a Standard Exceptional Child Certificate (K-12) who is employed in an ~~elementary classroom (multi subject classroom K-8)~~ Idaho public school district or charter school; and
(3-20-14)(- -)

e. Each school administrator holding an Administrator Certificate (Pre K-12) who is employed in an ~~elementary classroom (multi subject classroom K-8)~~ Idaho public school district or charter school, including all school district and charter administrators.
(3-20-14)(- -)

02. Out-of-State Applicants - Mathematical Thinking for Instruction. (4-4-13)

a. Out-of-state applicants shall take the state approved mathematics instruction course titled “Mathematical Thinking for Instruction” as a certification requirement. The “Mathematical Thinking for Instruction” course consists of three (3) credits (or forty-five (45) contact hours of in-service training).
(3-29-10)

b. Those individuals who qualify for an Idaho certificate through state reciprocity shall be granted a three-year, non-renewable, interim certificate to allow time to meet the Idaho Mathematics In-service program requirement.
(4-4-13)

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

03. Waiver of Mathematics In-Service Program. When applying for certificate renewal, an automatic waiver of the mathematics in-service program requirement shall be granted for any certificated individual living outside of the state of Idaho who is not currently employed as an educator in the state of Idaho. This waiver applies only as long as the individual remains outside the state of Idaho or as long as the individual is not employed as an educator in the state of Idaho. Upon returning to Idaho or employment in an Idaho public school, the educator will need to complete this requirement prior to the next renewal period. (3-20-14)

04. Renewal Requirement - Idaho Comprehensive Literacy Course. In order to recertify, a state approved Idaho Comprehensive Literacy Course shall be required. Successful completion of a state approved Idaho Comprehensive Literacy course shall be a one-time requirement for renewal of certification for those currently employed in an Idaho school district and shall be included within current requirements for continuing education for renewal. The following individuals listed in Subsection 016.04.a. through 016.04.c. shall successfully complete an Idaho Comprehensive Literacy course in order to recertify: (4-4-13)

a. Each teacher holding an Early Childhood/Early Childhood Special Education Blended Certificate (Birth - Grade 3) who is employed in an ~~elementary classroom (multi subject classroom, K-8)~~ Idaho public school district or charter school; (4-4-13)(- -)

b. Each teacher holding a Standard Elementary Certificate (K-8) who is employed in an ~~elementary classroom (K-8)~~ Idaho public school district or charter school; and (3-20-14)(- -)

c. Each teacher holding a Standard Exceptional Child Certificate (K-12) who is employed in an ~~K-12 classroom~~ Idaho public school district or charter school. (3-20-14)(- -)

05. Out-of-State Applicants - Idaho Comprehensive Literacy Course. (3-20-14)

a. Out-of-state applicants shall take a state approved Idaho Comprehensive Literacy Course as a certification requirement. (3-20-14)

b. Those individuals who qualify for an Idaho certificate through state reciprocity shall be granted a three-year, non-renewable, interim certificate to allow time to meet the Idaho Comprehensive Literacy Course requirement. (3-20-14)

017. CONTENT, PEDAGOGY AND PERFORMANCE ASSESSMENT FOR CERTIFICATION.

01. Assessments. State Board of Education approved content, pedagogy and performance area assessments shall be used in the state of Idaho to ensure qualified teachers are employed in Idaho's classrooms. The Professional Standards Commission shall recommend assessments and qualifying scores to the State Board of Education for approval. (4-2-08)

02. Out-of-State Waivers. An out-of-state applicant for Idaho certification holding a current certificate may request a waiver from the above requirement. The applicant shall provide evidence of passing a state approved content, pedagogy and performance area assessment(s) or hold current National Board for Professional Standards Teaching Certificate. (4-2-08)

03. Idaho Comprehensive Literacy Assessment. All applicants for initial Idaho certification (Kindergarten through grade twelve (12)) from an Idaho approved teacher education program must demonstrate competency in comprehensive literacy. Areas to be included as parts of the assessment are: phonological awareness, phonics, fluency, vocabulary, comprehension, writing, and assessments and intervention strategies. Each Idaho public higher education institution shall be responsible for the assessment of teacher candidates in its teacher preparation program. The assessment must measure teaching skills and knowledge congruent with current research on best literacy practices for elementary students or secondary students (adolescent literacy) dependent upon level of certification and English Language Learners. In addition the assessment must measure understanding and the ability to apply strategies and beliefs about language, literacy instruction, and assessments based on current research and best practices congruent with International Reading Association/National Council of Teachers of English standards, National

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

English Language Learner’s Association professional teaching standards, National Council for Accreditation of Teacher Education standards, and state accreditation standards. (4-7-11)

04. Technology Assessment. All applicants for initial Idaho certification (Kindergarten through grade twelve (12)) from an Idaho approved teacher education program must demonstrate proficiency in relevant technology skills and practices to enhance classroom management and instruction. Each Idaho public higher education institution shall be responsible for the assessment of teacher candidates in its teacher preparation program. The assessment must measure understanding and the ability to apply strategies and beliefs about the integration of technology based on current research and best practices congruent with the International Society for Technology in Education professional teaching standards, the National Council for Accreditation of Teacher Education standards, and state accreditation standards. (4-7-11)

018. STANDARD ELEMENTARY CERTIFICATE.

A Standard Elementary Certificate makes an individual eligible to teach grades Kindergarten (K) through eight (8), and may be issued to any person who has a bachelor’s degree from an accredited college or university and who meets the following requirements: (3-16-04)

01. General Education Requirements. Completion of the general education requirements at an accredited college or university is required. (3-30-07)

02. Professional Education Requirements. (3-30-07)

a. A minimum of twenty-four (24) semester credit hours, or thirty-six (36) quarter credit hours, in the philosophical, psychological, and methodological foundations and in the professional subject matter of elementary education, which shall include at least six (6) semester credit hours, or nine (9) quarter credit hours, in developmental reading and its application to the content area. (3-16-04)

b. At least six (6) semester credit hours, or nine (9) quarter credit hours, of elementary student teaching or two (2) years of satisfactory experience as a teacher in grades K-8. (3-16-04)

03. Additional Requirements. An institutional recommendation from an accredited college or university or verification of two (2) years of teaching experience in grades Kindergarten (K) through eight (8). (3-16-04)

04. Area of Endorsement. All individuals, who begin an Idaho approved preparation program after July 1, 2013, seeking a Standard Elementary Certificate shall complete the requirements for a subject area endorsement as outlined under requirements for a Standard Secondary Certificate. An endorsement allowing teaching of that subject through grade nine (9) or a K-12 endorsement shall be added to the Standard Elementary Certificate. (3-12-14)

05. Proficiency. Proficiency in areas noted above is measured by completion of the credit hour requirements provided herein. Additionally, each candidate shall meet or exceed the state qualifying score on approved elementary content area and pedagogy assessments. (3-16-04)

019. BLENDED EARLY CHILDHOOD EDUCATION/-EARLY CHILDHOOD SPECIAL EDUCATION ~~BLEND~~ED-CERTIFICATE.

An Blended Early Childhood/-Early Childhood Special Education ~~Blended~~-Certificate ~~is non-categorical and~~ makes an individual eligible to teach in any early childhood educational setting. ~~This certificate for youth from birth to grade three (3), including those who are at risk or have developmental delays. The Early Childhood / Early Childhood Special Education Blended Certificate~~ may be issued to any person with a bachelor’s baccalaureate degree from an accredited college or university and who meets the following minimum requirements: (3-16-04)(- -)

01. General Education Requirements. Completion of the general education requirements at an accredited college or university is required. (3-30-07)

02. ~~Professional Education Requirements~~Birth through Grade 3 Endorsement. ~~The Birth through~~

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Grade 3 endorsement allows one to teach in any educational setting birth through grade 3. To be eligible for a Blended Early Childhood/Early Childhood Special Education certificate with a Birth through Grade 3 endorsement, a candidate must have satisfied the following requirements: (3-16-04)(- -)

a. A minimum of thirty (30) semester credit hours, or forty-five (45) quarter credit hours, in the philosophical, psychological, and methodological foundations, in instructional technology, and in the professional subject matter of early childhood and early childhood-special education. The professional subject matter of early childhood and early childhood-special education shall include course work specific to the ~~young~~ child from birth through grade three (3) in the areas of child development and learning; curriculum development and implementation; family and community relationships; assessment and evaluation; professionalism; and, application of technologies. (3-16-04)(- -)

b. The required thirty (30) semester credit hours, or forty-five (45) quarter credit hours, shall include not less than six (6) semester credit hours, or nine (9) quarter credit hours, of early childhood student teaching (K-3) and field experiences birth to age 3 programs, and age 3 to age 5 programs, and three (3) semester credit hours, or four (4) quarter credit hours, of developmental reading. (3-16-04)(- -)

03. Additional Requirements. An institutional recommendation from an accredited college or university, and passage of the Idaho Comprehensive Literacy ~~Exam~~ Assessment. (3-16-04)(- -)

04. Proficiency. Proficiency in areas noted above is measured by one of the following options:

a. Option I: completion of the credit hour requirements provided here in demonstration of competency within the Idaho Standards for Blended Early Childhood Education/Early Childhood Special Education Teachers. Additionally, each candidate shall meet or exceed the state qualifying score on approved early-childhood assessments. (3-16-04)(- -)

b. Option II: Completion of a CAEP accredited program in blended early childhood education/early childhood special education birth through grade three (3). Additionally, each candidate shall meet or exceed the state qualifying score on approved early-childhood assessments. (- -)

05. Pre-K through Grade 6 Endorsement.

The Pre-K through Grade 6 endorsement allows one to teach in any Pre-K through grade 6 education setting, except in a middle school setting. This endorsement may only be added to the Blended Early Childhood Education/Early Childhood Special Education Certificate in conjunction with the Birth through Grade 3 endorsement. To be eligible for a Blended Early Childhood Education/Early Childhood Special Education Certificate with an Early Pre-K through Grade 6 endorsement, a candidate must have satisfied the following requirements: (- -)

a. Completion of a program of a minimum of twenty (20) semester credit hours in the area of Elementary Education to include course work in each of the following areas: Methodology (literacy, math, science, physical education, art); Content knowledge (math, literacy, science, health, art); Technology; Assessment; and, Field experiences in grades 4 - 6. (- -)

020. STANDARD SECONDARY CERTIFICATE.

A Standard Secondary Certificate makes an individual eligible to teach in grades six (6) through twelve (12). A Secondary Certificate may be issued to any person with a bachelor's degree from an accredited college or university and who meets the following minimum requirements: (3-16-04)

01. General Education Requirements. Completion of the general education requirements at an accredited college or university is required. (3-30-07)

02. Professional Education Requirements. (3-30-07)

a. A minimum of twenty (20) semester credit hours, or thirty (30) quarter credit hours, in the philosophical, psychological, and methodological foundations, instructional technology, and in the professional subject matter of secondary education, which must include at least three (3) semester credit hours, or four (4) quarter credit hours, of reading in the content area. (3-16-04)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

b. The required twenty (20) semester credit hours, or thirty (30) quarter credit hours, must also include at least six (6) semester credit hours, or nine (9) quarter credit hours, of secondary student teaching or two (2) years of satisfactory experience as a teacher in grades six (6) through twelve (12). (3-16-04)

03. Teaching Field Requirements. Preparation in at least two (2) fields of secondary teaching: a first teaching field of at least thirty (30) semester credit hours, or forty-five (45) quarter credit hours, and a second teaching field of at least twenty (20) semester credit hours, or thirty (30) quarter credit hours. Preparation of not less than forty-five (45) semester credit hours, or sixty-seven (67) quarter credit hours, in a single subject area may be used in lieu of the first teaching field or second teaching field requirements. (3-30-07)

04. Additional Requirements. An institutional recommendation from an accredited college or university or verification of two (2) years of teaching experience in grades six (6) through twelve (12). (3-16-04)

05. Proficiency. Proficiency in areas noted above is measured by completion of the credit hour requirements provided herein. Additionally, each candidate must have a qualifying score on an approved content area assessment in any area(s) for which the certificate or endorsement(s) will be applied. (3-16-04)

021. ENDORSEMENTS.

Holders of a Secondary Certificate or a Standard Elementary Certificate, Exceptional Child Certificate, Standard Occupational Specialist Certificate, and Advanced Occupational Specialist Certificate may be granted endorsements in subject areas as provided herein. Idaho preparation programs shall prepare candidates for endorsements in accordance with the Idaho Standards for Initial Certification of Professional School Personnel. An official statement of competency in a teaching area or field is acceptable in lieu of courses for a teaching major or minor if such statements originate in the department or division of the accredited college or university in which the competency is established and are approved by the director of teacher education of the recommending college or university. To add an endorsement to an existing credential, an individual shall complete the credit hour requirements as provided herein and shall also meet or exceed the state qualifying score on appropriate, state approved content, pedagogy and performance assessments. When converting semester credit hours to quarter credit hours, two (2) semester credit hours is equal to three (3) quarter credit hours. (4-4-13)

01. Clinical Experience Requirement. All endorsements require supervised teaching experience in the relevant content area, or a State Department of Education approved alternative clinical experience. (3-12-14)

022. ENDORSEMENTS A - D.

01. Agriculture Science and Technology (6-12). (3-16-04)

a. Forty-five (45) semester credit hours including course work in each of the following areas: agriculture education; agriculture mechanics; agriculture business management; soil science; animal science; and plant science. (3-16-04)

b. Occupational teacher preparation coursework that relates to the appropriate area(s) as provided in Sections 034 through 038. (4-4-13)

02. American Government /Political Science (6-12). Twenty (20) semester credit hours to include: a minimum of six (6) semester credit hours in American Government, six (6) semester credit hours in U.S. History Survey, and a minimum of three (3) semester credit hours in Comparative Government. Remaining course work must be selected from Political Science. Course work may include three (3) semester credit hours in World History Survey. (4-11-06)

03. Art (K-12 or 6-12). Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Visual Arts Teachers in the area of Art to include a minimum of nine (9) semester credit hours in: Foundation Art and Design. Additional course work must include at least two (2) Studio Areas and Secondary Arts Methods. To obtain an Art (K-12) endorsement, applicants holding a Secondary Certificate must complete an elementary methods course. (4-7-11)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

04. Bilingual Education (K-12). Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Bilingual Education Teachers to include all of the following: at least nine (9) upper division semester credit hours in one (1) Modern Language other than English, including writing and literature, and advanced proficiency according to the American Council on the Teaching of Foreign Languages (ACTFL) guidelines; cultural diversity; ENL/Bilingual Methods; second language acquisition theory and practice; Foundations of ENL/Bilingual Education, Federal and State Law, Testing/identification of Limited English Proficient Students; at least two (2) semester credit hours in Bilingual Practicum; and three (3) semester credit hours in a Bilingual Education related elective (ex: linguistics, critical pedagogy, parent involvement). (4-4-13)

05. Biological Science (6-12). Twenty (20) semester credit hours to include at least six (6) semester credit hours of course work in each of the following areas: Botany and Zoology. (3-16-04)

06. Business Technology Education (6-12). (3-16-04)

a. Twenty (20) semester credit hours to include course work in each of the following areas: accounting; computer and technical applications in business; economics; methods of teaching business education; Professional-Technical Student Organization (PTSO) leadership; business communication/writing; and office procedures. Additional competencies may be satisfied through the following: entrepreneurship; finance; marketing; business law; and/or career guidance. (4-4-13)

b. Occupational teacher preparation that relates to the appropriate area(s) as provided in Sections 034 through 038. (4-4-13)

07. Chemistry (6-12). Twenty (20) semester credit hours in the area of Chemistry. (3-16-04)

08. Communication (6-12). Follow one (1) of the following options: (3-16-04)

a. Option I: Twenty (20) semester credit hours to include Methods of Teaching Speech/Communications plus course work in at least four (4) of the following areas: Interpersonal Communication/Human Relations; Argumentation/Personal Persuasion; Group Communications; Nonverbal Communication; Public Speaking; Journalism/Mass Communication; and Drama/Theater Arts. (~~3-16-04~~)(- -)

b. Option II: Possess an English endorsement plus at least twelve (12) semester credit hours distributed among the following: Interpersonal Communication/Human Relations, Public Speaking, Journalism/Mass Communication, and Methods of Teaching Speech/Communication. (~~3-16-04~~)(- -)

09. Computer Science (6-12). Twenty (20) semester credit hours of course work in Computer Science, including course work in the following areas: data representation and abstraction; design, development, and testing algorithms; software development process; digital devices systems network; and the role of computer science and its impact on the modern world. (- -)

10. Drama (6-12). Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Drama Teachers, including a minimum of sixteen (16) semester credit hours in Drama or Theater Arts, including course work in each of the following: Acting, Directing, and Technical Stage Production, and four (4) semester credit hours in Communications. To obtain a Drama (6-12) endorsement, applicants must complete a comprehensive methods course including the pedagogy of acting, directing and technical theatre. (4-7-11)

023. ENDORSEMENTS E - L.

01. Earth Science (6-12). Twenty (20) semester credit hours including course work in each of the following: Earth Science, Astronomy, and Geology. (4-11-06)

02. Economics (6-12). Twenty (20) semester credit hours to include a minimum of three (3) semester credit hours of micro-economics, a minimum of three (3) semester credit hours of macro-economics, and a minimum of six (6) semester credit hours of Personal Finance/Consumer Economics/Economics Methods. Remaining course

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

work may be selected from business, economics, and/or finance course work ~~in one (1) or more of the following areas: Agriculture Science and Technology, Business Education, Economics, Family and Consumer Science, or Marketing Education.~~ (4-11-06)(- -)

03. Engineering (6-12). Twenty (20) semester credit hours of Engineering course work. (- -)

034. English (6-12). Twenty (20) semester credit hours, including three (3) semester credit hours in Linguistics/Grammar, three (3) semester credit hours in American Literature, three (3) semester credit hours in English Literature, six (6) semester credit hours in Advanced Composition, excluding the introductory sequence designed to meet general education requirements. Remaining credits must be completed in the English Department, and must include some course work in Writing Methods for Teachers of Secondary Students. (3-16-04)(- -)

045. English as a New Language (ENL) (K-12). Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for ENL Teachers to include all of the following: at least four (4) semester credit hours in a modern language other than English; Cultural Diversity; ENL Methods; Linguistics; second language acquisition theory and practice; Foundations of ENL/Bilingual Education, Federal and State Law, Testing/Identification of Limited English Proficient Students; and at least one (1) semester credit in ENL Practicum or Field Experience. (4-4-13)(- -)

056. Family and Consumer Sciences (6-12). (4-4-13)(- -)

a. Thirty (30) semester credit hours to include coursework in each of the following areas: Child/Human Development; Human/Family Relations; Directed Laboratory Experience in Childcare; Apparel and Textiles, Cultural Dress, Fashion Merchandising, or Design; Nutrition; Food Preparation, Food Production, or Culinary Arts; Housing, Interior Design, Home Management, or Equipment; Consumer Economics or Family Resource Management; Introduction to Family Consumer Sciences; Professional-Technical Student Organization (PTSO) leadership; and Integration of Family Consumer Sciences or Family Consumer Science Methods. (4-4-13)

b. Occupational teacher preparation that relates to the appropriate area(s) as provided in Sections 034 through 038. (4-4-13)

067. Geography (6-12). Twenty (20) semester credit hours including course work in Cultural Geography and Physical Geography, and a maximum of six (6) semester credit hours in World History Survey. Remaining semester credit hours must be selected from Geography. (4-11-06)(- -)

078. Geology (6-12). Twenty (20) semester credit hours in the area of Geology. (3-16-04)(- -)

089. Gifted and Talented (K-12). Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Gifted and Talented Education Teachers, to include semester credit hours in each of the following areas: Foundations of Gifted and Talented Education; Creative/Critical Thinking Skills for Gifted and Talented Students; Social and Emotional Needs of Gifted and Talented Students; Curriculum, Instruction, and Assessment for Gifted and Talented Students; Differentiated Instruction and Programing for Gifted and Talented Students; and Practicum and Program Design for Gifted and Talented Education. Remaining course work must be in the area of gifted education. (3-12-14)(- -)

109. Health (6-12 or K-12). Minimum of Twenty (20) semester credit hours to include course work in each of the following areas: Organization/Administration/Planning of a School Health Program; Health, ~~and~~ Wellness, and Behavior Change; Secondary Methods of Teaching Health, to include field experience in a traditional classroom; Mental/Emotional Health; Nutrition; Human Sexuality; Substance Use and Abuse. Remaining semester credits must be in health-related course work. To obtain a Health K-12 endorsement, applicants must complete an elementary Health methods course. (4-4-13)(- -)

101. History (6-12). Twenty (20) semester credit hours to include a minimum of six (6) semester credit hours of U.S. History Survey and a minimum of six (6) semester credit hours of World History Survey. Remaining course work must be in History. Course work may include three (3) semester credit hours in American Government.

024. ENDORSEMENTS M - Z.

01. Marketing Technology Education (6-12). (3-16-04)

a. Twenty (20) semester credit hours to include course work in each of the following areas: Marketing; Management; Economics; Coordination of Cooperative Programs; Merchandising/Retailing; Methods of Teaching Marketing Education; and Professional-Technical Student Organization (PTSO) Leadership, with remaining credit hours in Entrepreneurship; Hospitality and Tourism; Finance; or Accounting. (4-4-13)

b. Occupational teacher preparation that relates to the appropriate area(s) as provided in Sections 034 through 038. (4-4-13)

02. Mathematics - Basic (6-12). Twenty (20) semester credit hours in Mathematics including course work in Algebra, Geometry, and Trigonometry. Six (6) semester credit hours of computer programming may be substituted for six (6) semester credits in Mathematics. (3-16-04)

03. Mathematics (6-12). Twenty (20) semester credit hours including course work in each of the following areas: Geometry, Linear Algebra, Discrete Mathematics, Probability and Statistics, and a minimum of three (3) semester credit hours of Calculus. Statistics course work may be taken from a department other than the mathematics department. (4-11-06)

04. Music (6-12 or K-12). Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Music Teachers to include course work in the following: Theory and Harmony; Aural Skills, Music History; Conducting; Applied Music; and Piano Proficiency (Class Piano or Applied Piano), and Secondary Music Methods/Materials. To obtain a Music K-12 endorsement, applicants must complete an elementary music methods course. (4-7-11)

05. Natural Science (6-12). Follow one (1) of the following options: (4-7-11)

a. Option I: Must hold an existing endorsement in one of the following areas: Biological Science, Chemistry, Earth Science, Geology, or Physics; and complete a total of twenty-four (24) semester credit hours as follows: (4-7-11)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

i. Existing Biological Science Endorsement. Minimum of eight (8) semester credit hours in each of the following areas: Physics, Chemistry, and Earth Science or Geology. (4-7-11)

ii. Existing Physics Endorsement. Minimum of eight (8) semester credit hours in each of the following areas: Biology, Chemistry, and Earth Science or Geology. (4-7-11)

iii. Existing Chemistry Endorsement. Minimum of eight (8) semester credit hours in each of the following areas: Biology, Physics, and Earth Science or Geology. (4-7-11)

iv. Existing Earth Science or Geology Endorsement. Minimum of eight (8) semester credit hours in each of the following areas: Biology, Physics, and Chemistry. (4-7-11)

b. Option II: Must hold an existing endorsement in Agriculture Science and Technology; and complete twenty (20) semester credit hours with at least four (4) semester credit hours in each of the following areas: Biology, Chemistry, Earth Science or Geology, and Physics. (4-7-11)

06. Physics (6-12). Twenty (20) semester credit hours in the area of Physics. (3-16-04)

07. Physical Education (PE) (6-12 or K-12). Minimum of Twenty (20) semester credit hours to include course work in each of the following areas: [Personal and Teaching Competence in Sport, Movement, Physical Activity](#), and Outdoor Skills; Secondary PE Methods; [Administration and Curriculum, to include field experiences in physical education](#); Student Evaluation in PE; ~~Administration of a PE Program~~; Safety and Prevention of Injuries; Fitness and Wellness; PE for Special Populations; Exercise Physiology; Kinesiology/Biomechanics; ~~Sports Psychology or Sociology~~; Motor Behavior; and Current CPR and First Aid Certification. To obtain a PE K-12 endorsement, applicants must complete an elementary PE methods course. (4-4-13)(- -)

~~**08. Physical Education/Health.** Must have an endorsement in both physical education and health. (3-30-07)~~

098. Physical Science (6-12). Twenty (20) semester credit hours in the area of physical science to include a minimum of eight (8) semester credit hours in each of the following: Chemistry and Physics. (3-16-04)

109. Psychology. Twenty (20) semester credit hours in the area of Psychology. (3-16-04)

140. Social Studies (6-12). Must have an endorsement in History, American Government/Political Science, Economics, or Geography plus a minimum of twelve (12) semester credit hours in each of the remaining core endorsements areas: History, Geography, Economics, and American Government/Political Science. (3-29-10)

121. Sociology (6-12). Twenty (20) semester credit hours in the area of Sociology. (3-16-04)

132. Sociology/Anthropology (6-12). Twenty (20) semester credit hours including a minimum of six (6) semester credit hours in each of the following: Anthropology and Sociology. (3-16-04)

143. Teacher Librarian (K-12). Twenty (20) semester credit hours of coursework leading toward competency as defined by Idaho Standards for Teacher Librarians to include the following: Collection Development/Materials Selection, Literature for Children and/or Young Adults; Organization of Information (Cataloging and Classification); School Library Administration/Management; Library Information Technologies; Information Literacy; and Reference and Information Service. (3-12-14)

154. Technology Education (6-12). (3-16-04)

a. Twenty (20) semester credit hours to include course work in each of the following areas: Communication Technology; Computer Applications; Construction Technology; Electronics Technology; Manufacturing Technology; Power, Energy and Transportation and other relevant emerging technologies; and Principles of Engineering Design. (4-4-13)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

b. Occupational teacher preparation that relates to the appropriate area(s) as provided in Sections 034 through 038. (4-4-13)

165. World Language (6-12 or K-12). Twenty (20) semester credit hours to include a minimum of twelve (12) upper division credits in a specific world language taken within the last ten (10) years leading to a proficiency level as defined by a state-approved exam (for example, a passing grade on the Praxis or an Advanced level as defined by the American Council on the Teaching of Foreign Languages (ACTFL)). Course work must include two (2) or more of the following areas: Grammar, Conversation, Composition, Culture, and Literature; and course work in Foreign Language Methods. To obtain an endorsement in a specific foreign language (K-12), applicants holding a Secondary Certificate must complete an elementary methods course. (4-4-13)

025. AMERICAN INDIAN LANGUAGE (SECTION 33-1280, IDAHO CODE).

Each Indian tribe shall provide to the State Department of Education the names of those highly and uniquely qualified individuals who have been designated to teach the tribe's native language in accordance with Section 33-1280, Idaho Code. Individuals identified by the tribe(s) may apply for an Idaho American Indian Certificate as American Indian languages teachers. (4-9-09)

01. Process the Application. The Office of Indian Education at the State Department of Education will process an application that has met the requirements of the Tribe(s) for an American Indian languages teacher. (4-9-09)

02. Approval Has Been Received. Once an application with Tribal approval has been received, it will be reviewed and, if approved, it will be forwarded to the Office of Certification for a criminal history background check as required in Section 33-130, Idaho Code. The application must include a ten finger fingerprint card or scan and a forty dollar (\$40) fee for undergoing a criminal history check pursuant to Section 33-130, Idaho Code. (4-9-09)

03. Office of Certification. The Office of Certification will review the application and verify the applicant is eligible for an Idaho American Indian Certificate. The State Department of Education shall authorize an eligible applicant as an American Indian languages teacher. An Idaho American Indian Certificate is valid for not more than five (5) years. Individuals may apply for a renewal certificate. (4-9-09)

026. ADMINISTRATOR CERTIFICATE.

Every person who serves as a superintendent, a secondary school principal, or principal of an elementary school with eight (8) or more teachers (including the principal), or is assigned administrative duties over and above those commonly assigned to teachers, is required to hold an Administrator Certificate. The certificate may be endorsed for service as a school principal, a superintendent, or a director of special education and related services. Assistant superintendents are required to hold the Superintendent endorsement. Assistant principals or vice-principals are required to hold the Principal endorsement. Applicants for the Director of Special Education and Related Services endorsement will hold that endorsement on an Administrator Certificate. Proof of proficiency in evaluating teacher performance shall be required of all Administrator Certificate holders. Proof of proficiency in evaluating performance shall be demonstrated by passing a proficiency assessment approved by the State Department of Education as an initial certification requirement. Possession of an Administrator Certificate does not entitle the holder to serve as a teacher at a grade level for which the educator is not qualified or certificated. All administrator certificates require candidates to meet the following competencies of the Idaho Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership. (3-12-14)

01. School Principal Endorsement (Pre-K-12). To be eligible for an Administrator Certificate endorsed for School Principal Pre-K-12, a candidate must have satisfied the following requirements: (3-16-04)

a. Hold a master's degree from an accredited college or university. (3-16-04)

b. Have four (4) years of full-time certificated experience working with students, Pre-K-12, while under contract in an accredited school setting. (3-30-07)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

c. Have completed an administrative internship in a state-approved program, or have one (1) year of experience as an administrator in grades Pre-K-12. (3-30-07)

d. Provide verification of completion of a state-approved program of at least thirty (30) semester credit hours, forty-five (45) quarter credit hours, of graduate study in school administration for the preparation of school principals at an accredited college or university. This program shall include the competencies of the Idaho Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership. (3-12-14)

e. An institutional recommendation is required for a School Principal Pre-K-12 Endorsement. (3-16-04)

02. Superintendent Endorsement. To be eligible for an Administrator Certificate with a Superintendent endorsement, a candidate must have satisfied the following requirements: (3-16-04)

a. Hold an education specialist or doctorate degree or complete a comparable post-master's sixth year program at an accredited college or university. (3-16-04)

b. Have four (4) years of full-time certificated/licensed experience working with Pre-K-12 students while under contract in an accredited school setting. (3-30-07)

c. Have completed an administrative internship in a state-approved program for the superintendent endorsement or have one (1) year of out-of-state experience as an assistant superintendent or superintendent in grades Pre-K-12. (3-30-07)

d. Provide verification of completion of an approved program of at least thirty (30) semester credit hours, or forty-five (45) quarter credit hours, of post-master's degree graduate study for the preparation of school superintendents at an accredited college or university. This program in school administration and interdisciplinary supporting areas shall include the competencies in Superintendent Leadership, in addition to the competencies in the Idaho Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership. (3-12-14)

e. An institutional recommendation is required for a School Superintendent Endorsement. (3-16-04)

03. Director of Special Education and Related Services Endorsement (Pre-K-12). To be eligible for an Administrator Certificate endorsed for Director of Special Education and Related Services Pre-K-12, a candidate must have satisfied all of the following requirements: (3-16-04)

a. Hold a master's degree from an accredited college or university. (3-16-04)

b. Have four (4) years of full-time certificated/licensed experience working with students Pre-K-12, while under contract in a school setting. (3-16-04)

c. Obtain college or university verification of demonstrated the competencies of the Idaho Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership. (3-12-14)

d. Obtain college or university verification of demonstrated competencies in the following areas, in addition to the competencies in the Idaho Foundation Standards for School Administrators: Concepts of Least Restrictive Environment; Post-School Outcomes and Services for Students with Disabilities Ages Three (3) to Twenty-one (21); Collaboration Skills for General Education Intervention; Instructional and Behavioral Strategies; Individual Education Programs (IEPs); Assistive and Adaptive Technology; Community-Based Instruction and Experiences; Data Analysis for Instructional Needs and Professional Training; Strategies to Increase Program Accessibility; Federal and State Laws and Regulations and School District Policies; Resource Advocacy; and

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Technology Skills for Referral Processes, and Record Keeping. (3-30-07)

e. Have completed an administrative internship/practicum in the area of administration of special education and related services. (3-16-04)

f. An institutional recommendation is required for Director of Special Education and Related Services Pre-K-12 Endorsement. (3-16-04)

027. PUPIL PERSONNEL SERVICES CERTIFICATE.

Persons who serve as school counselors, school psychologists, speech-language pathologists, school social workers, school nurses and school audiologists are required to hold the Pupil Personnel Services Certificate, with the respective endorsement(s) for which they qualify. (3-16-04)

01. Counselor Endorsement (K-12). To be eligible for a Pupil Personnel Services Certificate endorsed Counselor K-12, a candidate must have satisfied the following requirements. The Pupil Personnel Services Certificate with a Counselor endorsement is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the endorsement. (5-8-09)

a. Hold a master's degree and provide verification of completion of an approved program of graduate study in school counseling from a college or university approved by the Idaho State Board of Education or the state educational agency of the state in which the program was completed. The program must include successful completion of seven hundred (700) clock hours of supervised field experience, seventy-five percent (75%) of which must be in a K-12 school setting. This K-12 experience must be in each of the following levels: elementary, middle/junior high, and high school. Previous school counseling experience may be considered to help offset the field experience clock hour requirement. (4-11-15)

b. An institutional recommendation is required for a Counselor K-12 Endorsement. (5-8-09)

02. School Psychologist Endorsement. This endorsement is valid for five (5) years. In order to renew the endorsement, six (6) professional development credits are required every five (5) years. The renewal credit requirement may be waived if the applicant holds a current valid National Certification for School Psychologists (NCSP) offered through the National Association of School Psychologists (NASP). To be eligible for initial endorsement, a candidate must complete a minimum of sixty (60) graduate semester credit hours which must be accomplished through one (1) of the following options: (3-29-12)

a. Completion of an approved thirty (30) semester credit hour, or forty-five (45) quarter credit hours, master's degree in education or psychology and completion of an approved thirty (30) semester credit hour, or forty-five (45) quarter credit hour, School Psychology Specialist Degree program, and completion of a minimum of twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist. (4-7-11)

b. Completion of an approved sixty (60) semester credit hour, or ninety (90) quarter credit hour, master's degree program in School Psychology, and completion of a minimum of twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist. (4-7-11)

c. Completion of an approved sixty (60) semester credit hour, or ninety (90) quarter credit hour, School Psychology Specialist degree program which did not require a master's degree as a prerequisite, with laboratory experience in a classroom, which may include professional teaching experience, student teaching or special education practicum, and completion of a minimum twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist. (5-8-09)

d. Earn a current and valid National Certification for School Psychologists (NCSP) issued by the

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

National Association of School Psychologists (NASP). (3-29-12)

03. School Nurse Endorsement. This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. Initial endorsement may be accomplished through completion of either requirements in Subsections 027.03.a. or 027.03.b. in addition to the requirement of Subsection 027.03.c. (3-29-10)

a. The candidate must possess a valid nursing (RN) license issued by the Idaho State Board of Nursing, and a bachelor's degree in nursing, education, or a health-related field from an accredited institution. (5-8-09)

b. The candidate must possess a valid professional nursing (RN) license issued by the Idaho State Board of Nursing and have completed nine (9) semester credit hours from a university or college in at least three (3) of the following areas: (5-8-09)

i. Health program management; (5-8-09)

- ii. Modeling, Justification, Proof and Generalization; (4-4-13)
- iii. Mathematical Knowledge for Teaching (Ball, Thames, & Phelps, 2008). (4-4-13)
- b. Experience. Completion of a minimum of three (3) years' teaching experience. (3-29-10)
- c. Provides verification of completion of a state-approved program of at least twenty (20) semester credit hours of study at an accredited college or university or a state-approved equivalent. Program shall include: (4-4-13)
 - i. Ninety (90) contact hours to include a combination of face-to-face and field-based professional development activities; and (4-4-13)
 - ii. The development and presentation of a culminating portfolio that provides evidence that knowledge gained and skills acquired are aligned with Idaho Teacher Leader Standards as follows: (4-4-13)
 - (1) Understanding Adults As Learners to Support Professional Learning Communities; (4-4-13)
 - (2) Accessing and Using Research to Improve Practice and Student Achievement; (4-4-13)
 - (3) Promoting Professional Learning for Continuous Improvement; (4-4-13)
 - (4) Facilitating Improvements in Instruction and Student Learning; (4-4-13)
 - (5) Using Assessments and Data for School and District Improvement; (4-4-13)
 - (6) Improving Outreach and Collaboration with Families and Community; and (4-4-13)
 - (7) Advocating for Student Learning and the Profession. (4-4-13)
- d. Not less than one (1) semester of successful experience as a mathematics teacher working with classroom teachers in elementary or secondary schools. (4-4-13)

030. (RESERVED)

031. JUNIOR RESERVED OFFICER TRAINING CORPS (JUNIOR ROTC) INSTRUCTORS.

01. List of Names. Each school district with a Junior ROTC program shall provide the State Department of Education with a list of the names of those individuals who have completed an official armed forces training program to qualify as Junior ROTC instructors in high schools. (4-11-06)

02. Notarized Copy. Each school district with a Junior ROTC program shall provide the State Department of Education with a notarized copy of their certificate(s) of completion. (4-11-06)

03. Authorization Letter. Upon receiving the items identified in Subsections 031.01 and 031.02, the State Department of Education shall issue a letter authorizing these individuals as Junior ROTC instructors. (4-11-06)

032. POSTSECONDARY SPECIALIST.

A Postsecondary Specialist certificate will be granted to a current faculty member whose primary employment is with any accredited Idaho postsecondary institution. To be eligible to teach in the public schools under this postsecondary specialist certificate, the candidate must supply a recommendation from the employing institution (faculty's college dean). The primary use of this state-issued certificate will be for distance education, virtual classroom programs, and for public and postsecondary partnerships. (3-26-08)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

01. Renewal. This certificate is good for five (5) years and is renewable. To renew the certificate, the renewal application must be accompanied with a new written recommendation from the postsecondary institution (faculty's college dean level or higher). (3-26-08)

02. Fees. The fee is the same as currently in effect for an initial or renewal certificate as established in Section 066 of these rules. (3-26-08)

03. Qualifications. The candidate must: (3-26-08)

a. Hold a masters degree or higher in the content area being taught; (3-26-08)

b. Be currently employed by the post secondary institution in the content area to be taught; and (3-26-08)

c. Complete and pass a criminal history check as required according to Section 33-130, Idaho Code. (3-26-08)

033. ONLINE TEACHER ENDORSEMENT (PRE-K-12).

01. Online-Teacher Endorsement. To be eligible for an Online-Teacher Endorsement (Pre-K-12), a candidate must have satisfied the following requirements: (4-7-11)

a. Meets states' professional teaching and/or licensure standards and is qualified to teach in his/her field of study. (4-7-11)

b. Provides evidence of online experience or course time both as a student and as a learner, and demonstrates online learning and teaching proficiency. (4-7-11)

c. Has completed (completes) an eight (8) week online teaching internship in a Pre-K-12 program, or have one (1) year of verifiable and successful experience as a teacher delivering curriculum online in grades Pre-K-12 within the past three (3) years. (4-7-11)

d. Provides verification of completion of a state-approved program of at least twenty (20) semester credit hours of study in online teaching and learning at an accredited college or university or a state-approved equivalent. (4-7-11)

02. Proficiency in Idaho Standards for Online Teachers. Demonstrates proficiency in the Idaho Standards for Online Teachers including the following competencies: (4-7-11)

a. Knowledge of Online Education and Human Development; (4-7-11)

b. Facilitate and Inspire Student Learning and Creativity; (4-7-11)

c. Design and Develop Digital-Age Learning Experiences and Assessments Standards; (4-7-11)

d. Model Digital-Age Work and Learning; Promote and Model Digital Citizenship and Responsibility Standards; and (4-7-11)

e. Engage in Professional Growth and Leadership. (4-7-11)

034. CERTIFICATION STANDARDS FOR PROFESSIONAL-TECHNICAL EDUCATORS.

Teachers of professional-technical classes or programs in secondary or postsecondary schools must hold an endorsement in an appropriate occupational discipline. This endorsement may be held on a Secondary Teaching Certificate or on an Occupational Specialist Certificate. For postsecondary instructors and administrators, certification

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

fees are set by the State Board for Professional-Technical Education, and application processes are managed by the Division of Professional-Technical Education. (3-16-04)

035. DEGREE BASED PROFESSIONAL-TECHNICAL CERTIFICATION.

01. Teacher Preparation Through Degreed Program. Individuals graduating from an approved occupational teacher preparation degree program qualify to teach in the following five (5) disciplines: Agricultural Science & Technology; Business Technology Education; Family & Consumer Science; Marketing Technology Education; and Technology Education. Occupational teacher preparation course work must meet the Idaho Standards for the Initial Certification of Professional School Personnel. The occupational teacher education program must provide appropriate content to constitute a major in the identified field. Student teaching shall be in an approved program and include experiences in the major field. Applicants shall have accumulated four-thousand (4,000) clock hours of related work experience or shall have completed an approved practicum in their respective field of specialization. (3-16-04)

02. Professional-Technical Administrator Certificate. The Professional-Technical Administrator certificate is required for an individual serving as an administrator, director, manager or coordinator of professional-technical education at the state, secondary or postsecondary level. Individuals must meet the following prerequisites to qualify for the Professional-Technical Administrator Certificate. Equivalence in each area will be determined on an individual basis by the State Division of Professional-Technical Education. (3-16-04)

a. Qualify for or hold an Occupational Specialist certificate or hold an occupational endorsement on the secondary teaching credential; (3-16-04)

b. Provide evidence of a minimum of three (3) years' teaching in an occupational discipline; (3-16-04)

c. Hold a masters degree; and, (3-16-04)

d. Completed at least fifteen (15) semester credits of administrative course work. Applicants must have completed: financial aspects of professional-technical education; administration of personnel; and legal aspects of professional-technical education. Additional course work can be selected from any of the following areas: administration and supervision of occupational programs; instructional supervision; administration internship; curriculum development; curriculum evaluation; research in curriculum; school community relations; communication; teaching the adult learner; coordination of work-based learning programs; and/or measurement and evaluation. (3-16-04)

e. To renew the Professional-Technical Administrator Certificate, individuals are required to complete six (6) semester hours of related course work or meet renewal requirements for professional-technical teachers. (3-16-04)

03. Work-Based Learning Coordinator Endorsement. Educators assigned to coordinate approved work-based experiences must hold the Work-Based Learning Coordinator endorsement. To be eligible, applicants must hold an occupational endorsement on the Standard Secondary Certificate or qualify for an Occupational Specialist Certificate, plus complete course work in coordination of work-based learning programs. (3-16-04)

04. Career Counselor Endorsement. The endorsement for a Career Counselor may be issued to applicants who hold a current Pupil Personnel Services Certificate endorsed Counselor K-12 and who have satisfied the following professional technical requirement: Career Pathways and Professional Technical Guidance; Principles/Foundations of Professional-Technical Education; and Theories of Occupational Choice. (3-16-04)

036. INDUSTRY BASED PROFESSIONAL-TECHNICAL CERTIFICATION.

Persons who need to hold the Occupational Specialist Certificate include: secondary educators assigned to Health Occupations Education and to Trades & Industry Education; specialized occupational areas where specific degree-granting professional technical teacher education programs do not exist; and postsecondary professional-technical educators who teach courses to 9-12 students. (3-16-04)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

01. General Requirements. Applicants must: be eighteen (18) years of age; document full-time, successful, recent, gainful employment in the area for which certification is requested; possess either a high school diploma or General Educational Development (GED) certificate; meet provisions of Idaho Code; and, verify technical skills through work experience, certification or testing as listed below. When applicable, requirements of occupationally related state agencies must also be met. Since educational levels and work experiences vary, applicants may be determined highly qualified under any one (1) of the following three (3) options: (3-16-04)

a. Have sixteen-thousand (16,000) hours of full-time, successful, recent, gainful employment in the occupation for which certification is requested. Up to forty-eight (48) months credit can be counted toward the eight (8) years on a month-to-month basis for journeyman training and/or postsecondary training successfully completed as a full-time student in an approved/approvable, postsecondary, professional-technical education program. (3-16-04)

b. Have a bachelor's degree in the specific occupation or related area, plus six-thousand (6,000) hours of full-time, successful, recent, gainful employment in the occupation. (3-16-04)

c. Meet one (1) of the following: (3-16-04)

i. Have at least journeyman level plus two (2) years of recent, full-time, gainful, related work experience. A person who has completed a formal apprenticeship program in the occupation or related area for which certification is requested. The apprenticeship must be under the direction of an employer and the Bureau of Apprenticeship and Training or an approved State Apprenticeship Agency; (3-16-04)

ii. Pass approved state or national certification/certification examination plus three (3) years of recent, full-time, gainful, related work experience (length and type of work experience in emergency services and health professions will be determined on an individual basis); or (3-16-04)

iii. Pass approved industry related certification for skill level requirements (vendor and industry specific) plus three (3) years of recent, full-time, gainful, related work experience (length and type of work experience in emergency services and health professions will be determined on an individual basis). If no competency test exists, a written recommendation from a representative occupational advisory council/committee and recorded in its minutes is required to verify occupational competence. (3-16-04)

02. Limited Occupational Specialist Certificate. This certificate is issued to individuals who are new to teaching trades and health occupations in public schools. The certificate is valid for three (3) years. (3-16-04)

a. Within the first eighteen (18) months, the holder must complete the pre-service workshop sponsored by the State Division of Professional-Technical Education and an approved course in professional technical methods and student assessment. (3-16-04)

b. Complete a new-teacher induction workshop at the state or district level. (3-16-04)

c. File a Professional Development Plan with the State Division of Professional-Technical Education. (3-16-04)

d. Within the three (3) year period of the Limited Occupational Specialist Certificate, the instructor must satisfactorily complete course work which includes competencies in four (4) of the following: Principles/Foundations of Occupational Education; Career Pathways and Guidance; Analysis, Integration, and Curriculum Development; Measurement and Evaluation; and Methods of Teaching Occupational Education. (3-16-04)

03. Standard Occupational Specialist Certificate. This certificate is issued to individuals who have completed course work equivalent to that required of the Limited Occupational Specialist Certificate. The certificate must be renewed every five (5) years, which shall include completion of six (6) semester credit hours of approved course work or verification of two hundred-forty (240) hours of approved related work experience or ninety (90) hours of attendance at approved technical conferences, institutes, or workshops or any equivalent combination thereof, and

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

file of a Professional Development Plan for the next certification period. (3-16-04)

04. Advanced Occupational Specialist Certificate. This certificate is issued to individuals who meet all the requirements outlined below: (3-16-04)

a. Meet the requirements for the Standard Occupational Specialist Certificate; (3-16-04)

b. Provide evidence of completion of a teacher training degree program or eighteen (18) semester credits of approved course work in addition to the twelve (12) semester credits required for the Standard Occupational Specialist Certificate (a total of thirty (30) semester credits); and (3-16-04)

c. File a new Professional Development Plan for the next certification period. (3-16-04)

d. This certificate must be renewed every five (5) years, which shall include completion of six (6) semester credit hours of approved course work or submit verification of two hundred-forty (240) hours of approved related work experience or ninety (90) hours of attendance at approved technical conferences, institutes and workshops or any equivalent combination thereof, and file a new Professional Development Plan for the next certification period. (3-16-04)

037. -- 041. (RESERVED)

042. ALTERNATE ROUTES TO CERTIFICATION.

The purpose of this program is to provide an alternative for individuals to become certificated teachers in Idaho without following a standard teacher education program. Alternative Routes to Certification shall allow individuals to serve as the teacher of record prior to having earned full certification status. The teacher of record is defined as the person who is primarily responsible for planning instruction, delivering instruction, assessing students formatively and summatively, and designating the final grade. Individuals who are currently employed as Para-Educators, individuals who are currently certificated to teach but who are in need of emergency certification in another area, and individuals with strong subject matter background but limited experience with educational methodology shall follow the alternate certification requirements provided herein. (4-4-13)

043. ALTERNATIVE AUTHORIZATION -- TEACHER TO NEW CERTIFICATION.

The purpose of this alternative authorization is to allow Idaho school districts to request endorsement/certification when a professional position cannot be filled with someone who has the correct endorsement/certification. Alternative authorization in this area is valid for up to three (3) years and is nonrenewable. (5-8-09)

01. Initial Qualifications. Prior to application, a candidate must hold a Bachelor's degree, and a valid Idaho teacher certificate without full endorsement in content area of need. The school district must provide supportive information attesting to the ability of the candidate to fill the position. (5-8-09)

02. Alternative Route Preparation Program. (3-20-04)

a. Option I - Teacher to New Certification/Endorsement. (5-8-09)

i. Candidate will work toward completion of the alternative route preparation program through a participating college/university, and the employing school district. Candidate must complete a minimum of nine (9) semester credits annually to be eligible for extension of up to a total of three (3) years. (3-20-04)

ii. The participating college/university shall provide procedures to assess and credit equivalent knowledge, dispositions, and relevant life/work experiences. (3-20-04)

iii. Candidate shall meet all requirements for the endorsement/certificate as provided herein. (3-20-04)

b. Option II - National Board (endorsement only). By earning National Board certification in content specific areas teachers may gain endorsement in a corresponding subject area. (5-8-09)

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

c. Option III - Master's degree or higher (endorsement only). By earning a graduate degree in a content specific area, candidates may add an endorsement in that same content area to a valid certificate. (5-8-09)

d. Option IV - Testing and/or Assessment (endorsement only). Two (2) pathways are available to some teachers, depending upon endorsement(s) already held. (5-8-09)

i. Pathway 1 - Endorsements may be added through state-approved testing and a mentoring component. The appropriate test must be successfully completed within the first year of authorization in an area closely compatible with an endorsement for which the candidate already qualifies and is experienced. Additionally requires the successful completion of a one (1)-year state-approved mentoring component. (5-8-09)

ii. Pathway 2 - Endorsements may be added through state-approved testing in an area less closely compatible with an endorsement for which the candidate already qualifies and is experienced. The appropriate test must be successfully completed within the first year of the authorization. Additionally requires the successful completion of a one (1)-year state-approved mentoring component and passing a final pedagogy assessment. (5-8-09)

044. ALTERNATIVE AUTHORIZATION -- CONTENT SPECIALIST.

The purpose of this alternative authorization is to offer an expedited route to certification for individuals who are highly and uniquely qualified in a subject area to teach in a district with an identified need for teachers in that area. Alternative authorization in this area is valid for three (3) years and is not renewable. (3-20-04)

01. Initial Qualifications. (3-20-04)

a. Prior to application, a candidate must hold a Bachelor's degree or have completed all of the requirements of a Bachelor's degree except the student teaching or practicum portion. (4-4-13)

b. The candidate shall meet enrollment qualifications of the alternative route preparation program. (3-20-04)

02. Alternative Route Preparation Program -- College/University Preparation. (3-20-04)

a. A consortium comprised of a designee from the college/university to be attended, and a representative from the school district, and the candidate shall determine preparation needed to meet the Idaho Standards for Initial Certification of Professional School Personnel. This preparation must include mentoring and a minimum of one (1) classroom observation per month until certified. (3-20-04)

b. Prior to entering the classroom, the candidate completes eight (8) to sixteen (16) weeks of accelerated study in education pedagogy. (3-20-04)

c. Candidate will work toward completion of the alternative route preparation program through a participating college/university, and the employing school district. A teacher must attend, participate in, and successfully complete an individualized alternative route preparation program as one (1) of the conditions to receive a recommendation for full certification. (3-20-04)

d. The participating college/university shall provide procedures to assess and credit equivalent knowledge, dispositions and relevant life/work experiences. (3-20-04)

e. Prior to entering the classroom, the candidate shall meet or exceed the state qualifying score on appropriate state-approved content, pedagogy, or performance assessment. (3-20-04)

045. NON-TRADITIONAL ROUTE TO TEACHER CERTIFICATION.

An individual may acquire interim certification as found in Section 015 of these rules through an approved non-traditional route certification program. (3-20-14)

01. Approval of the Program. The State Board of Education must approve any non-traditional route to teacher certification. The program must include, at a minimum, the following components: (3-20-14)

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

- a. Preassessment of teaching and content knowledge; (4-6-05)
 - b. An academic advisor with knowledge of the prescribed instruction area; and (4-6-05)
 - c. Exams of pedagogy and content knowledge. (4-6-05)
- 02. Eligibility.** Individuals who possess a bachelor's degree or higher from an institution of higher education may utilize this non-traditional route to an interim Idaho Teacher Certification. (3-20-14)
- 03. Requirements for Completion.** To complete this non-traditional route, the individual must: (3-20-14)
- a. Complete a Board approved program; (4-6-05)
 - b. Pass the Board approved pedagogy and content knowledge exams; and (4-6-05)
 - c. Complete the Idaho Department of Education Criminal History Check. (4-6-05)
- 04. Interim Certificate.** Upon completion of the certification process described herein, the individual will be awarded an interim certificate from the State Department of Education's Bureau of Certification and Professional Standards. The term of the interim certification shall be three (3) years. During the term of the interim certificate, teaching by the individual must be done in conjunction with a two (2) year a teacher mentoring program approved by the Board. The individual must complete the mentoring program during the term of the interim certificate. In the case where teachers start their mentoring program in the third year of their interim certificate, they must apply to the State Department of Education Teacher Certification Department for a waiver to complete the final year of their mentoring program for full certification. All laws and rules governing the fully certificated teachers with respect to conduct, discipline and professional standards shall apply to individuals teaching under an interim certificate. (3-20-14)
- 05. Interim Certificate Not Renewable.** Interim certification hereunder is only available on a one (1) time basis per individual. It will be the responsibility of the individual to obtain full Idaho Teacher Certification during the three (3) year interim certification term. (4-6-05)
- 06. Types of Certificates and Endorsements.** The non-traditional route may be used for first-time certification, subsequent certificates, and additional endorsements. (3-20-14)
- 046. (RESERVED)**
- 047. ALTERNATIVE AUTHORIZATION - PUPIL PERSONNEL SERVICES.**
The purpose of this alternative authorization is to allow Idaho school districts to request endorsement/certification when a position requiring the Pupil Personnel Services certificate cannot be filled with someone who has the correct endorsement/certification. The exception to this rule is the Interim School Nurse endorsement and the Interim Speech Language Pathologist endorsement. The requirements for these endorsements are already defined in Subsections 027.04 and 027.08 respectively, of these rules. (4-11-15)
- 01. Term of Validity.** Alternative authorization in this area is valid for three (3) years and will be reviewed annually and is nonrenewable. (4-2-08)
- 02. Initial Qualifications.** The applicant must complete the following: (4-2-08)
- a. Prior to application, a candidate must hold a Masters degree and hold a current Idaho license from the Bureau of Occupational Licenses in the area of desired certification; and (4-2-08)
 - b. The employing school district must provide supportive information attesting to the ability of the

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

candidate to fill the position. (4-2-08)

03. Alternative Route Preparation Program. (4-2-08)

a. The candidate must work toward completion of the alternative route preparation program through a participating college/university and the employing school district. (4-2-08)

b. The candidate must complete a minimum of nine (9) semester credits annually to be eligible for extension of up to a total of three (3) years. (4-2-08)

c. The participating college/university or the State Department of Education will provide procedures to assess and credit equivalent knowledge, dispositions, and relevant life/work experiences. (4-2-08)

d. The candidate must meet all requirements for the endorsement/certificate as provided herein. (4-2-08)

048. -- 059. (RESERVED)

060. APPLICATION PROCEDURES / PROFESSIONAL DEVELOPMENT.

01. Application for Idaho Certificate. To obtain, renew, or reinstate an Idaho certificate, the applicant will submit an application on a form supplied by the State Department of Education or the State Division of Professional-Technical Education. (3-16-04)

02. State Board of Education Requirements for Professional Growth. (4-1-97)

a. Credits taken for recertification must be educationally related to the professional development of the applicant. (4-1-97)

i. Credits must be specifically tied to content areas and/or an area of any other endorsement; or (5-8-09)

ii. Credits must be specific to pedagogical best practices or for administrative/teacher leadership; or (4-2-08)

iii. Credits must be tied to a specific area of need designated by district administration. (4-2-08)

b. Graduate or undergraduate credit will be accepted for recertification. Credit must be college transferable and completed through an accredited college or university. (4-1-97)

c. All requests for equivalent inservice training to apply toward recertification must be made through the State Department of Education upon recommendation of the board of trustees consistent with the State Department of Education guidelines. Individuals holding Professional-Technical Specialist Certificates must receive State Division of Professional-Technical Education approval of inservice training and course work prior to applying for renewal. (3-16-04)

d. At least fifteen (15) hours of formal instruction must be given for each hour of inservice credit granted. (4-1-97)

e. Recertification credits may not be carried over from one (1) recertification period to the next. (4-1-97)

f. Certificated personnel teaching in subjects outside their major area of preparation will be encouraged to complete the courses required for major certification endorsement. (4-1-97)

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

g. All credits gained through coursework taken during the validity period of the certificate and commencing prior to September 1, 2008 shall be accepted toward recertification. (5-8-09)

h. An appeals process, developed by the State Department of Education in conjunction with the Professional Standards Commission, shall be available to applicants whose credits submitted for recertification, in part or as a whole, are rejected for any reason if such denial prevents an applicant from renewing an Idaho certificate. An applicant whose credits submitted for recertification are rejected, in part or as a whole, within six (6) months of the expiration of the applicant's current certification shall be granted an automatic appeal and a temporary certification extension during the appeal or for one (1) year, whichever is greater. (5-8-09)

03. State Board of Education Professional Development Requirements. (4-1-97)

a. Districts will have professional development plans. (4-1-97)

b. All certificated personnel will be required to complete at least six (6) semester hours or the equivalent within the five (5) year period of validity of the certificate being renewed. (4-1-97)

c. At least three (3) semester credits will be taken for university or college credit. Verification will be by official transcript. (4-1-97)

061. -- 065. (RESERVED)

066. FEES.

The state department of education shall maintain a record of all certificates issued, showing names, dates of issue and renewal, and if revoked, the date thereof and the reason therefor. A nonrefundable fee shall accompany each application for a prekindergarten through grade twelve (12) certificate, alternate certificate, change in certificate or replacement as follows: (3-16-04)

01. Initial Certificate. All types, issued for five (5) years -- seventy-five dollars (\$75) (3-16-04)

02. Renewal Certificate. All types, issued for five (5) years -- seventy-five dollars (\$75). (3-16-04)

03. Alternate Route Authorization. All types, issued for one (1) year -- one hundred dollars (\$100) (3-16-04)

04. Additions or Changes During the Life of an Existing Certificate. Twenty-five dollars (\$25) (3-16-04)

05. To Replace an Existing Certificate. Ten dollars (\$10). (3-16-04)

067. -- 074. (RESERVED)

075. FINGERPRINTING AND CRIMINAL HISTORY CHECKS (SECTIONS 33-130 AND 33-512, IDAHO CODE).

All certificated and noncertificated employees and other individuals who are required by the provisions of Section 33-130, Idaho Code, must undergo a criminal history check. (4-9-09)

01. Definitions. (4-9-09)

a. Applicant. An individual applying for Idaho Certification or a certificated or non-certificated individual applying for employment. (4-9-09)

b. Break-in-Service. A voluntary or involuntary termination in employment, including retirement. (4-9-09)

c. Candidate. An individual attending a postsecondary program. (4-9-09)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

- d.** Certificated Employee. An individual who holds an Idaho education certificate and is employed in a certificated position in a LEA. (4-9-09)
- e.** Contractor. An agency, company/business, or individual that has signed a contract or agreement to provide services to an LEA and private or parochial school. (4-9-09)
- f.** Conviction. The final judgment on a verdict or finding of guilty, a plea of guilty, a plea of nolo contendere, or the sentence has been suspended, deferred, or withheld on a felony or misdemeanor as defined by Section 18-110 and Section 18-111, Idaho Code. (4-9-09)
- g.** Criminal History Check (CHC). A ten (10) finger fingerprint process to determine if an applicant has criminal arrests and convictions in Idaho, any other state, or applicable jurisdictions. (4-9-09)
- h.** Criminal History Check Result. Information resulting from processing fingerprints through the databases maintained by the Bureau of Criminal Identification (BCI), Federal Bureau of Investigation (FBI) and the Idaho Statewide Sex Offender Registry. (4-9-09)
- i.** Irregular Contact. Contact that is not on a daily or weekly basis, or has a regular scheduled interaction with students. (4-9-09)
- j.** Multiple Assignments. When an individual works in two or more LEAs or an LEA and private school simultaneously. (4-9-09)
- k.** Non-Certificated Employee. An individual employed in a non-certificated position. (4-9-09)
- l.** Open Date. The date a fingerprint card or scan is entered into the database as an electronic file. (4-9-09)
- m.** Rejected Fingerprint Cards. A fingerprint card that has been returned by the BCI, FBI or SDE for poor quality prints, lack of signature, card being older than six (6) months, or other incomplete information. (4-9-09)
- n.** Scan. The process of capturing an individual's fingerprints by an electronic process. (4-9-09)
- o.** Unsupervised Contact. Direct contact or interaction with students not under the direct supervision of a school district employee on a continuing basis in a K-12 setting. This includes contact or interaction with students in scheduled school activities that occur outside of the school or outside of normal school hours. This excludes extra-curricular trips of one-day length starting during the school day. (4-9-09)
- 02.** **Fee.** The SDE shall charge a forty dollars (\$40) fee for undergoing a criminal history check. (4-9-09)
- 03.** **Rejected Fingerprint Cards or Scans.** (4-9-09)
- a.** When a fingerprint card has been rejected a new completed fingerprint card is required. (4-9-09)
- b.** The rejected fingerprint card will be sent back to the originating LEA, private or parochial school, contractors, postsecondary program, or individual. (4-9-09)
- c.** A new fingerprint card must be completed by a law enforcement agency to ensure legible fingerprints. Both the rejected fingerprint card and the new fingerprint card must be returned to the SDE within twenty (20) calendar days. (4-9-09)
- d.** If the new fingerprint card and rejected fingerprint card are returned after the twenty (20) calendar day time period a forty dollar (\$40) fee is required to be paid. (4-9-09)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

04. Secured CHC Website. The SDE will maintain a CHC website listing the CHC results. The LEA, private or parochial school, contractor or postsecondary program may view the results or status of an applicant, employee or candidate. (4-9-09)

a. Upon a signed agreement the SDE will issue a password to access the CHC website. (4-9-09)

b. Each LEA, private or parochial school, contractor and postsecondary program will have access to the CHC secure site listing their employees, statewide substitute teacher list, newly certified list and student teacher list. (4-9-09)

05. Fingerprinting & Criminal History Checks. (4-9-09)

a. The SDE will maintain a list of newly certificated educators. Educators stay on this list for one (1) year from their individual open date. Educators on this list may be employed by a LEA without a new CHC. (4-9-09)

b. The SDE will make the final determination if an applicant is eligible for Idaho certification. (4-9-09)

c. If the SDE makes a determination that the applicant is not eligible for Idaho certification, the SDE may deny the applicant Idaho certification. Upon receiving the written denial the applicant may request a hearing pursuant to Section 33-1209, Idaho Code. (4-9-09)

06. Non-Certificated Employees. Non-certificated employees are required to complete a CHC pursuant to Section 33-130, Idaho Code. The CHC results will be posted on the CHC website for their employer to review. (4-9-09)

07. Substitute Teachers. Substitute teachers as defined in Section 33-512(15), Idaho Code, must undergo a criminal history check. The SDE shall maintain a statewide substitute teacher list. To remain on the list a substitute teacher shall undergo a criminal history check every five (5) years in accordance with Section 33-512, Idaho Code. Substitute teachers on the list do not need to complete a multiple assignment form nor are subject to break in service provisions. (4-9-09)

08. Break In Service. (4-9-09)

a. When an employee returns to any LEA after a break in service a new criminal history check must be completed. (4-9-09)

b. When an employee changes employment between LEAs a new CHC must be completed regardless of the most recent CHC. (4-9-09)

09. Postsecondary. (4-9-09)

a. The postsecondary program will submit a completed fingerprint card or scan for all candidates who are applying for student teaching, internships or practicum. (4-9-09)

b. The SDE will make a preliminary determination based on the CHC result if the candidate is eligible for certification in Idaho. This decision will be forwarded to the postsecondary program concerning the eligibility of their candidate. (4-9-09)

c. The SDE will move a candidate from the student teacher list to the newly certified list when an application for certification is approved. (4-9-09)

076. CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE).

Believing in the worth and dignity of each human being, the professional educator recognizes the supreme importance of pursuing truth, striving toward excellence, nurturing democratic citizenship and safeguarding the freedom to learn

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

and to teach while guaranteeing equal educational opportunity for all. The professional educator accepts the responsibility to practice the profession according to the highest ethical principles. The Code of Ethics for Idaho Professional Educators symbolizes the commitment of all Idaho educators and provides principles by which to judge conduct. (3-20-04)

01. Aspirations and Commitments. (3-20-04)

a. The professional educator aspires to stimulate the spirit of inquiry in students and to provide opportunities in the school setting that will help them acquire viable knowledge, skills, and understanding that will meet their needs now and in the future. (3-20-04)

b. The professional educator provides an environment that is safe to the cognitive, physical and psychological well-being of students and provides opportunities for each student to move toward the realization of his goals and potential as an effective citizen. (3-20-14)

c. The professional educator, recognizing that students need role models, will act, speak and teach in such a manner as to exemplify nondiscriminatory behavior and encourage respect for other cultures and beliefs. (3-20-14)

d. The professional educator is committed to the public good and will help preserve and promote the principles of democracy. He will provide input to the local school board to assist in the board's mission of developing and implementing sound educational policy, while promoting a climate in which the exercise of professional judgment is encouraged. (4-11-06)

e. The professional educator believes the quality of services rendered by the education profession directly influences the nation and its citizens. He strives, therefore, to establish and maintain the highest set of professional principles of behavior, to improve educational practice, and to achieve conditions that attract highly qualified persons to the profession. (4-11-06)

f. The professional educator regards the employment agreement as a pledge to be executed in a manner consistent with the highest ideals of professional service. He believes that sound professional personal relationships with colleagues, governing boards, and community members are built upon integrity, dignity, and mutual respect. The professional educator encourages the practice of the profession only by qualified persons. (4-11-06)

02. Principle I - Professional Conduct. A professional educator abides by all federal, state, and local education laws and statutes. Unethical conduct shall include the conviction of any felony or misdemeanor offense set forth in Section 33-1208, Idaho Code. (3-20-14)

03. Principle II - Educator/Student Relationship. A professional educator maintains a professional relationship with all students, both inside and outside the physical and virtual classroom. Unethical conduct includes, but is not limited to: (3-20-14)

a. Committing any act of child abuse, including physical or emotional abuse; (3-20-04)

b. Committing any act of cruelty to children or any act of child endangerment; (3-20-04)

c. Committing or soliciting any sexual act from any minor or any student regardless of age; (3-20-04)

d. Committing any act of harassment as defined by district policy; (4-11-06)

e. Soliciting, encouraging, or consummating a romantic or inappropriate relationship (whether written, verbal, virtual, or physical) with a student, regardless of age; (3-20-14)

f. Using inappropriate language including, but not limited to, swearing and improper sexual comments (e.g., sexual innuendoes or sexual idiomatic phrases); (3-20-04)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

- g.** Taking or possessing images (digital, photographic, or video) of students of a harassing, confidential, or sexual nature; (4-11-15)
- h.** Inappropriate contact with any minor or any student regardless of age using electronic media; (4-11-06)
- i.** Furnishing alcohol or illegal or unauthorized drugs to any student or allowing or encouraging a student to consume alcohol or unauthorized drugs except in a medical emergency; (3-20-14)
- j.** Conduct that is detrimental to the health or welfare of students; and (3-20-14)
- k.** Deliberately falsifying information presented to students. (3-20-14)
- 04. Principle III - Alcohol and Drugs Use or Possession.** A professional educator refrains from the abuse of alcohol or drugs during the course of professional practice. Unethical conduct includes, but is not limited to: (3-20-14)

 - a.** Being on school premises or at any school-sponsored activity, home or away, involving students while possessing, using, or consuming illegal or unauthorized drugs; (3-20-04)
 - b.** Being on school premises or at any school-sponsored activity, home or away, involving students while possessing, using, or consuming alcohol; (3-20-04)
 - c.** Inappropriate or illegal use of prescription medications on school premises or at any school-sponsored events, home or away; (4-11-06)
 - d.** Inappropriate or illegal use of drugs or alcohol that impairs the individual's ability to function; and (4-11-06)
 - e.** Possession of an illegal drug as defined in Chapter 27, Idaho Code, Uniform Controlled Substances. (3-20-04)
- 05. Principle IV - Professional Integrity.** A professional educator exemplifies honesty and integrity in the course of professional practice. Unethical conduct includes, but is not limited to: (3-20-14)

 - a.** Fraudulently altering or preparing materials for licensure or employment; (3-20-04)
 - b.** Falsifying or deliberately misrepresenting professional qualifications, degrees, academic awards, and related employment history when applying for employment or licensure; (3-20-04)
 - c.** Failure to notify the state at the time of application for licensure of past revocations or suspensions of a certificate or license from another state; (3-20-04)
 - d.** Failure to notify the state at the time of application for licensure of past criminal convictions of any crime violating the statutes or rules governing teacher certification; (3-20-14)
 - e.** Falsifying, deliberately misrepresenting, or deliberately omitting information regarding the evaluation of students or personnel, including improper administration of any standardized tests (changing test answers; copying or teaching identified test items; unauthorized reading of the test to students, etc.); (4-11-06)
 - f.** Falsifying, deliberately misrepresenting, or deliberately omitting reasons for absences or leaves; (3-20-04)
 - g.** Falsifying, deliberately misrepresenting, or deliberately omitting information submitted in the course of an official inquiry or investigation; (3-20-14)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

h. Falsifying, deliberately misrepresenting, or deliberately omitting material information on an official evaluation of colleagues; and (3-20-14)

i. Failure to notify the state of any criminal conviction of a crime violating the statutes and/or rules governing teacher certification. (3-20-14)

06. Principle V - Funds and Property. A professional educator entrusted with public funds and property honors that trust with a high level of honesty, accuracy, and responsibility. Unethical conduct includes, but is not limited to: (3-20-14)

a. Misuse, or unauthorized use, of public or school-related funds or property; (3-20-04)

b. Failure to account for school funds collected from students, parents, or patrons; (3-20-14)

c. Submission of fraudulent requests for reimbursement of expenses or for pay; (3-20-04)

d. Co-mingling of public or school-related funds in personal bank account(s); (3-20-04)

e. Use of school property for private financial gain; (3-20-14)

f. Use of school computers to deliberately view or print pornography; and, (3-20-04)

g. Deliberate use of poor budgeting or accounting practices. (3-20-04)

07. Principle VI - Compensation. A professional educator maintains integrity with students, colleagues, parents, patrons, or business personnel when accepting gifts, gratuities, favors, and additional compensation. Unethical conduct includes, but is not limited to: (3-20-14)

a. Unauthorized solicitation of students or parents of students to purchase equipment, supplies, or services from the educator who will directly benefit; (3-20-14)

b. Acceptance of gifts from vendors or potential vendors for personal use or gain where there may be the appearance of a conflict of interest; (3-20-04)

c. Tutoring students assigned to the educator for remuneration unless approved by the local board of education; and, (3-20-04)

d. Soliciting, accepting, or receiving a financial benefit greater than fifty dollars (\$50) as defined in Section 18-1359(b), Idaho Code. (3-20-14)

08. Principle VII - Confidentiality. A professional educator complies with state and federal laws and local school board policies relating to the confidentiality of student and employee records, unless disclosure is required or permitted by law. Unethical conduct includes, but is not limited to: (3-20-14)

a. Sharing of confidential information concerning student academic and disciplinary records, personal confidences, health and medical information, family status or income, and assessment or testing results with inappropriate individuals or entities; and (3-20-04)

b. Sharing of confidential information about colleagues obtained through employment practices with inappropriate individuals or entities. (3-20-04)

09. Principle VIII - Breach of Contract or Abandonment of Employment. A professional educator fulfills all terms and obligations detailed in the contract with the local board of education or education agency for the duration of the contract. Unethical conduct includes, but is not limited to: (3-20-14)

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

a. Abandoning any contract for professional services without the prior written release from the contract by the employing school district or agency; (3-20-04)

b. Willfully refusing to perform the services required by a contract; and, (3-20-04)

c. Abandonment of classroom or failure to provide appropriate supervision of students at school or school-sponsored activities to ensure the safety and well-being of students. (3-20-04)

10. Principle IX - Duty to Report. A professional educator reports breaches of the Code of Ethics for Idaho Professional Educators and submits reports as required by Idaho Code. Unethical conduct includes, but is not limited to: (3-20-14)

a. Failure to comply with Section 33-1208A, Idaho Code, (reporting requirements and immunity); (3-20-04)

b. Failure to comply with Section 16-1605, Idaho Code, (reporting of child abuse, abandonment or neglect); (4-11-06)

c. Failure to comply with Section 33-512B, Idaho Code, (suicidal tendencies and duty to warn); and (4-11-06)

d. Having knowledge of a violation of the Code of Ethics for Idaho Professional Educators and failing to report the violation to an appropriate education official. (3-20-04)

11. Principle X - Professionalism. A professional educator ensures just and equitable treatment for all members of the profession in the exercise of academic freedom, professional rights and responsibilities while following generally recognized professional principles. Unethical conduct includes, but is not limited to: (3-20-14)

a. Any conduct that seriously impairs the Certificate holder's ability to teach or perform his professional duties; (3-20-04)

b. Committing any act of harassment toward a colleague; (4-11-06)

c. Failure to cooperate with the Professional Standards Commission in inquiries, investigations, or hearings; (3-20-04)

d. Using institutional privileges for the promotion of political candidates or for political activities, except for local, state or national education association elections; (4-11-06)

e. Willfully interfering with the free participation of colleagues in professional associations; and (4-11-06)

f. Taking or possessing images (digital, photographic or video) of colleagues of a harassing, confidential, or sexual nature. (4-11-15)

077. DEFINITIONS FOR USE WITH THE CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE).

01. Administrative Complaint. A document issued by the State Department of Education outlining the specific, purported violations of Section 33-1208, Idaho Code, or the Code of Ethics for Idaho Professional Educators. (3-20-04)

02. Allegation. A purported violation of the Code of Ethics for Idaho Professional Educators or Idaho Code. (3-20-04)

03. Certificate. A document issued by the Department of Education under the authority of the State

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

Board of Education allowing a person to serve in any elementary or secondary school in the capacity of teacher, supervisor, administrator, education specialist, school nurse or school librarian (Section 33-1201, Idaho Code). (3-20-04)

04. Certificate Denial. The refusal of the state to grant a certificate for an initial or reinstatement application. (3-20-04)

05. Certificate Suspension. A time-certain invalidation of any Idaho certificate as determined by a stipulated agreement or a due process hearing panel as set forth in Section 33-1209, Idaho Code. (3-20-04)

06. Complaint. A signed document defining the allegation that states the specific ground or grounds for revocation, suspension, denial, place reasonable conditions on a certificate or issuance of a letter of reprimand (Section 33-1209(1), Idaho Code). The State Department of Education may initiate a complaint. (4-11-06)

07. Conditional Certificate. Allows an educator to retain licensure under certain stated Certificate conditions as determined by the Professional Standards Commission (Section 33-1209(10), Idaho Code). (3-20-04)

08. Contract. Any signed agreement between the school district and a certificated educator pursuant to Section 33-513(1), Idaho Code. (3-20-04)

09. Conviction. Refers to all instances regarding a finding of guilt by a judge or jury; a plea of guilt by Nolo Contendere or Alford plea; or all proceedings in which a sentence has been suspended, deferred or withheld. (3-20-04)

10. Educator. A person who holds or applies for an Idaho Certificate (Section 33-1001(16) and Section 33-1201, Idaho Code). (3-20-04)

11. Education Official. An individual identified by local school board policy, including, but not limited to, a superintendent, principal, assistant principal, or school resource officer (SRO). (3-20-04)

12. Executive Committee. A decision-making body comprised of members of the Professional Standards Commission, including the chair and/or vice-chair of the Commission. A prime duty of the Committee is to review purported violations of the Code of Ethics for Idaho Professional Educators to determine probable cause and direction for possible action to be taken against a Certificate holder. (3-20-14)

13. Hearing. A formal review proceeding that ensures the respondent due process. The request for a hearing is initiated by the respondent and is conducted by a panel of peers. (3-20-04)

14. Hearing Panel. A minimum of three (3) educators appointed by the chair of the Professional Standards Commission and charged with the responsibility to make a final determination regarding the charges specifically defined in the Administrative Complaint. (3-20-04)

15. Investigation. The process of gathering factual information concerning a valid, written complaint in preparation for review by the Professional Standards Commission Executive Committee, or following review by the Executive Committee at the request of the deputy attorney general assigned to the Department of Education. (3-20-14)

16. Minor. Any individual who is under eighteen (18) years of age. (3-20-04)

17. Not-Sufficient Grounds. A determination by the Executive Committee that there is not-sufficient evidence to take action against an educator's certificate. (3-20-14)

18. Principles. Guiding behaviors that reflect what is expected of professional educators in the state of Idaho while performing duties as educators in both the private and public sectors. (3-20-04)

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

19. Reprimand. A written letter admonishing the Certificate holder for his conduct. The reprimand cautions that further unethical conduct may lead to consideration of a more severe action against the holder's Certificate. (3-20-04)

20. Respondent. The legal term for the professional educator who is under investigation for a purported violation of the Code of Ethics for Idaho Professional Educators. (3-20-04)

21. Revocation. The invalidation of any Certificate held by the educator. (3-20-04)

22. Stipulated Agreement. A written agreement between the respondent and the Professional Standards Commission to resolve matters arising from an allegation of unethical conduct following a complaint or an investigation. The stipulated agreement is binding to both parties and is enforceable under its own terms, or by subsequent action by the Professional Standards Commission. (3-20-04)

23. Student. Any individual enrolled in any Idaho public or private school from preschool through grade 12. (3-20-04)

24. Sufficient Grounds. A determination by the Executive Committee that sufficient evidence exists to issue an Administrative Complaint. (3-20-04)

078. -- 089. (RESERVED)

090. INTERSTATE CERTIFICATION COMPACT.

Idaho participates in the Interstate Agreement of Qualification of Education Personnel. This agreement applies equally to teachers entering Idaho from another compact-member state and to teachers entering another compact-member state from Idaho. The compact applies to classroom teachers only. Trades and industries teachers are not covered by the agreement. (Section 33-4104, Idaho Code) (4-1-97)

091. -- 099. (RESERVED)

100. OFFICIAL VEHICLE FOR APPROVING TEACHER EDUCATION PROGRAMS.

(Section 33-114, Idaho Code) (4-1-97)

01. The Official Vehicle for the Approval of Teacher Education Programs. The official vehicle for the approval of teacher education programs will be the Council for the Accreditation of Educator Preparation (CAEP) approved Idaho Standards for the Initial Certification of Professional School Personnel. The Idaho Standards are based upon the accepted national standards for educator preparation and include state-specific, core teaching requirements. The State Department of Education will transmit to the head of each Idaho college or department of education a copy of all revisions to the Idaho Standards for the Initial Certification of Professional School Personnel. Such revisions will take effect and must be implemented within a period not to exceed two (2) years after notification of such revision. (3-12-14)

02. Reference Availability. The Idaho Standards for the Initial Certification of Professional School Personnel, incorporated by reference in Subsection 004.01, are available for inspection on the Office of the State Board of Education's website at www.boardofed.idaho.gov. (3-29-12)

03. Continuing Approval. (3-29-12)

a. The state of Idaho will follow the ~~National~~ Council for Accreditation of ~~Teacher Education~~ ~~Educator Preparation~~ (~~NCATE~~CAEP) model by which institutions shall pursue continuing approval through a full program review every seven (7) years. The full program review shall be based upon the Idaho Standards for Initial Certification of Professional School Personnel. (~~3-29-12~~)(- -)

b. The state of Idaho will additionally conduct focused reviews of state-specific, core teaching requirements ~~in the interim, not to exceed every third year following the~~ at least once between full program reviews. (~~3-29-12~~)(- -)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

04. Payment Responsibilities for Teacher Preparation Program Reviews. The Professional Standards Commission is responsible for Idaho teacher preparation program reviews, including assigning responsibility for paying for program reviews. To implement the reviews, it is necessary that: (4-6-05)

a. The Professional Standards Commission pay for all ~~in-state~~ expenses for state team on-site teacher preparation reviews from its budget. (4-6-05)(- -)

b. Requesting institutions pay for all ~~out-of-state~~ expenses related to on-site teacher preparation program reviews pertaining to CAEP accreditation. Institutions not seeking CAEP accreditation shall cover the costs associated with CAEP standards reviews. (4-6-05)(- -)

SUBJECT

Temporary & Proposed Rule - IDAPA 08.02.02.111, Rules Governing Uniformity
- Bullying

APPLICABLE STATUTE, RULE, OR POLICY

Section 33-1631, Idaho Code

BACKGROUND/DISCUSSION

House Bill 246 (2015) requires school districts and public charter schools to implement measures intended to prevent, identify and respond to bullying, harassment and intimidation. The requirements include the provision of ongoing professional development for all school staff members on bullying, harassment and intimidation; and the State Board of Education is tasked with determining the content of the professional development through rulemaking. Additionally, the State Board of Education is charged with setting forth guidelines in rule for the graduated series of consequences for students who commit acts of bullying, intimidation and harassment.

ATTACHMENTS

Attachment 1 – IDAPA 08.02.02.111, Bullying, Harassment and Intimidation
Prevention and Response (new section)

Page 3

STAFF COMMENTS AND RECOMMENDATIONS

Section 33-1630 [33-1631], Idaho code requires school districts and charter schools to “undertake reasonable efforts to ensure that information on harassment, intimidation and bullying of students is disseminated annually to all school personnel, parents and students, including an affirmation that school personnel are authorized and expected to intervene or facilitate intervention on behalf of students facing harassment, intimidation or bullying.” And provide ongoing professional development to all staff members to prevent, identify and respond to harassment, intimidation and bullying.”

Proposed rules have a 21 day comment period prior to returning to the Board for consideration as a Pending rule. Based on received comments and Board direction, changes may be made to Proposed rules prior to entering the Pending stage. All Pending rules will be brought back to the Board for approval prior to submittal to the Department of Administration for publication in the Idaho Administrative Rules Bulletin as a Pending Rule. Pending rules become effective at the end of the legislative session in which they are submitted unless rejected by the legislature.

Temporary rules go into effect at the time of Board approval unless an alternative effective date is specified by Board action. To qualify as a temporary rule, the rule must meet one of three criteria: provides protection of the public health, safety, or welfare; or is to come into compliance with deadlines in amendments to governing law or federal programs; or is conferring a benefit. This rule qualifies as temporary

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

rules as it brings the state in compliance with HB 246 (2015) and Section 33-1630, Idaho code.

BOARD ACTION

I move to approve the Temporary and Proposed Rule IDAPA 08.02.02.111, Rules Governing Uniformity - Bullying, Harassment and Intimidation Prevention and Response as submitted in Attachment 1.

IDAPA 08
TITLE 02
CHAPTER 02

08.02.02 - RULES GOVERNING UNIFORMITY

111. BULLYING, HARASSMENT & INTIMIDATION PREVENTION AND RESPONSE.

01. The content of ongoing professional development for school district staff related to bullying, harassment and intimidation shall include school district policies on: ()

- a. School climate and student behavior expectations; ()
- b. Definitions of bullying, harassment and intimidation with specific examples; ()
- c. Prevention strategies or programs including the identification of materials to be distributed annually to students and parents; ()
- d. Expectations and examples of staff intervention to bullying, harassment and intimidation; and ()
- e. Process for responding to bullying, harassment and/or intimidation including the reporting process for students and staff, investigation protocol, the involvement of law enforcement, related student support services and parental involvement. ()

02. School faculty and student handbooks must include information outlining at a minimum the school districts policies in referenced in subsection 111.01 of these rules. ()

03. The graduated consequences for a student who commits acts of bullying, harassment or intimidation shall include a series of measures proportional to the act(s) committed. These measures may include, but are not limited to: ()

- a. Meeting with the school counselor; ()
- b. Meeting with the school principal and parents; ()
- c. Detention, suspension or special programs; or ()
- d. Expulsion. ()

04. Students are afforded protections under the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act of 1973 as amended (Section 504), as such districts shall comply with the procedural safeguards enumerated in IDAPA 08.02.03.109.05 when

AUGUST 13, 2015

disciplining students with individualized education plans or Section 504 plans for committing acts of bullying, harassment or intimidation. ()

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

SUBJECT

Proposed Rule - IDAPA 08.02.02.120 and 121, Rules Governing Uniformity.

APPLICABLE STATUTE, RULE, OR POLICY

Sections 33-513, 33-514 and 33-515, Idaho Code
Idaho Administrative code, IDAPA 08.02.02.120 and 121, Rules Governing
Uniformity – Local Evaluation

BACKGROUND/DISCUSSION

Currently Idaho Administrative Code, IDAPA 08.02.02.120 and IDAPA 08.02.02.121 requires individuals with the responsibility of evaluating teacher and pupil personnel certificate holders to show proof of proficiency in conducting observations and evaluating effective teacher performance prior to September 1, 2018. HB296 states “the state board of education shall set forth criteria for renewal of administrator certificates, which shall include a requirement that administrator certificate holders must complete a course consisting of a minimum of three (3) semester credits in the statewide framework for teachers evaluations, such course shall include a laboratory component.” To address this new requirement Board staff will be bringing forward language in the Administrator Certificate section of administrative rule making the language requiring administrators to show proof of proficiency redundant.

Additional changes to IDAPA 08.02.02.120 include clarification that this section applies to certificated teachers and pupil personnel service certificate holders and does not include individuals holding an administrator certificate. The language “certificated personnel” could cover everyone holding an Idaho Educator Credential which includes administrators. Personnel holding an administrator certificate includes superintendents, principals and special education directors. Principal and special education directors evaluations are covered in subsection 121.

Administrative Code IDAPA 08.02.02.120 currently requires school districts to submit teacher and principal evaluation plans to the Idaho State Department of Education for approval. Section 33-1004B, Idaho Code states “a review of a sample of evaluations completed by administrators shall be conducted annually to verify such evaluations are being conducted with fidelity to the state framework for teaching evaluation. The State Department of Education shall randomly select a sample of administrators throughout the state. A portion of such administrators’ instructional staff employee evaluations shall be independently reviewed.” The Department believes the requirement for the Department to approve district teacher and principal evaluation plans is not needed because of the statutory requirement.

Rules Governing Uniformity, District Evaluations

Page 3

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

STAFF COMMENTS AND RECOMMENDATIONS

IDAPA 08.02.02.120 was originally amended in 2010 to require the school districts to adopt policies for teacher performance evaluation in which the evaluation aligned to Charlotte Danielson’s Framework for Teacher (second edition)(“Framework”) domains and components of instruction. In 2013 most districts had not complied with this requirement. At that time, the Department asked the Board to add language requiring approval of the plans by July 1, 2014 to provide additional authority for the Department to assure compliance. In a review conducted by the Department in December 2014, many school districts still had not adopted evaluations in alignment with the Framework as required. The Department anticipates they will have an updated list of school districts with approved plans prepared in October. The review language in Section 33-1004B, Idaho Code requires “A review of a sample of evaluations completed by administrators shall be conducted annually to verify such evaluations are being conducted with fidelity to the state framework for teaching evaluation.” This is a very different type of review than the approval of an evaluation policy to assure alignment with the statewide Framework.

BOARD ACTION

I move to approve the proposed rule change to IDAPA 08.02.02.120 and 121, Rules Governing Uniformity, Local District Evaluation Policy as submitted in Attachment 1.

Moved by _____ Seconded by _____ Carried Yes _____ No _____

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

120. LOCAL DISTRICT EVALUATION POLICY -- TEACHER AND PUPIL PERSONNEL CERTIFICATE HOLDERS.

Each school district board of trustees ~~must~~will develop and adopt policies for teacher and pupil personnel certificate holders ~~teacher~~ performance evaluation using multiple measures in which criteria and procedures for the evaluation of teacher and pupil personnel certificate holders ~~certificated personnel~~ are research based and aligned to Charlotte Danielson Framework for Teaching, Second Edition domains and components of instruction. The process of developing criteria and procedures for teacher and pupil personnel certificate holders ~~certificated personnel evaluation~~ ~~must~~will allow opportunities for input from those affected by the evaluation; i.e., trustees, administrators, teachers, and parents. The evaluation policy ~~must~~will be a matter of public record and communicated to the teacher and pupil personnel certificate holders ~~certificated personnel~~ for whom it is written. (3-20-14)

01. Standards. Each district evaluation model ~~must~~shall be aligned to state minimum standards that are based on Charlotte Danielson’s Framework for Teaching Second Edition domains and components of instruction. Those domains and components include:

- (3-29-10)
- a. Domain 1 - Planning and Preparation: (3-29-10)
 - i. Demonstrating Knowledge of Content and Pedagogy; (3-29-10)
 - ii. Demonstrating Knowledge of Students; (3-29-10)
 - iii. Setting Instructional Outcomes; (3-20-14)
 - iv. Demonstrating Knowledge of Resources; (3-29-10)
 - v. Designing Coherent Instruction; and (3-29-10)
 - vi. Designing Student Assessments. (3-29-12)
- b. Domain 2 - The Classroom Environment: (3-29-12)
 - i. Creating an Environment of Respect and Rapport; (3-29-10)
 - ii. Establishing a Culture for Learning; (3-29-10)
 - iii. Managing Classroom Procedures; (3-29-10)
 - iv. Managing Student Behavior; and (3-29-10)
 - v. Organizing Physical Space. (3-29-10)
- c. Domain 3 - Instruction and Use of Assessment: (3-29-10)

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

- i. Communicating with Students; (3-29-12)
- ii. Using Questioning and Discussion Techniques; (3-29-10)
- iii. Engaging Students in Learning; (3-29-10)
- iv. Using Assessment in Instruction; and (3-29-12)
- v. Demonstrating Flexibility and Responsiveness. (3-29-12)
- d. Domain 4 - Professional Responsibilities:** (3-29-10)
 - i. Reflecting on Teaching; (3-29-10)
 - ii. Maintaining Accurate Records; (3-29-10)
 - iii. Communicating with Families; (3-29-10)
 - iv. Participating in a Professional Community; (3-29-12)
 - v. Growing and Developing Professionally; and (3-29-10)
 - vi. Showing Professionalism. (3-29-10)

02. Professional Practice. ~~For evaluations conducted on or after July 1, 2013, all~~ All teacher and pupil personnel certificate holders ~~certificated instructional employees~~ must receive an evaluation in which ~~at least~~ sixty-seven percent (67%) of the evaluation results are based on Professional Practice. All measures included within the Professional Practice portion of the evaluation must be aligned to the Charlotte Danielson Framework for Teaching Second Edition. The measures included within the Professional Practice portion of the evaluation ~~must shall~~ include a minimum of two (2) documented observations annually, with at least one (1) observation being completed by January 1 of each year. In situations where teacher and pupil personnel certificate holders ~~certificated personnel~~ are unavailable for two (2) documented classroom observations, due to situations such as long-term illness, late-year hire, etc., one (1) documented classroom observation is acceptable. District evaluation models ~~must shall~~ also include at least one (1) of the following as a measure to inform the Professional Practice portion of all teacher and pupil personnel certificate holders ~~certificated instructional employee~~ evaluations: (4-11-15)

- a. Parent/guardian input; (3-20-14)
- b. Student input; and/or (3-20-14)
- c. Portfolios. (3-20-14)

03. Student Achievement. ~~For evaluations conducted on or after July 1, 2013, all~~ All teacher and pupil personnel certificate holders ~~certificated instructional employees~~, principals and

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

superintendents must receive an evaluation in which ~~at least~~ thirty-three percent (33%) of the evaluation results are based on multiple objective measures of growth in student achievement as determined by the board of trustees and based upon research. ~~For evaluations conducted on or after July 1, 2014, growth~~ Growth in student achievement as measured by Idaho's statewide assessment for Federal accountability purposes must be included. This portion of the evaluation may be calculated using current and/or past year's data and may use one (1) or multiple years of data. Growth in student achievement may be considered as an optional measure for all other school based and district based staff, as determined by the local board of trustees. (3-20-14)

04. Participants. Each district evaluation policy ~~must~~ will include provisions for evaluating all ~~teacher and pupil personnel certificate holders~~ ~~certificated employees~~ identified in Section 33-1001, Idaho Code, Subsection 16. Evaluations ~~should~~ shall be differentiated for certificated non-instructional employees and pupil personnel certificate holders in a way that aligns with the Charlotte Danielson Framework for Teaching Second Edition to the extent possible. Policies for evaluating ~~teacher and pupil personnel certificate holders~~ ~~certificated employees~~ should identify the differences, if any, in the conduct of evaluations for nonrenewable contract personnel and renewable contract personnel. (3-20-14)

05. Evaluation Policy - Content. Local school district policies ~~must~~ will include, at a minimum, the following information: (4-1-97)

a. Purpose -- statements that identify the purpose or purposes for which the evaluation is being conducted; e.g., individual instructional improvement, personnel decisions. (4-1-97)

b. Evaluation criteria -- statements of the general criteria upon which ~~teacher and pupil personnel certificate holders~~ ~~certificated personnel~~ ~~are~~ will be evaluated. (4-1-97)

c. Evaluator -- identification of the individuals responsible for appraising or evaluating ~~teacher and pupil personnel certificate holders~~ ~~certificated instructional staff and pupil personnel~~ performance. ~~The individuals assigned this responsibility shall have received training in evaluation and prior to September 1, 2018, shall demonstrate proof of proficiency in conducting observations and evaluating effective teacher performance by passing a proficiency assessment approved by the State Department of Education as a onetime recertification requirement.~~ (3-20-14)

d. Sources of data -- description of the sources of data used in conducting ~~teacher and pupil personnel certificate holders~~ ~~certificated personnel~~ evaluations. ~~For certificated instructional staff, a~~ A minimum of two (2) documented classroom observations ~~must~~ shall be included as one (1) source of data. At least one (1) of those observations must be completed prior to January 1 of each year. In situations where ~~teacher and pupil personnel certificate holders~~ ~~certificated personnel~~ are unavailable for two (2) documented classroom observations, due to situations such as long-term illness, late year hire, etc., one (1) documented classroom observation is acceptable. Parent/guardian input, student input and/or portfolios ~~must~~ shall be considered as sources of data to support professional practice. (4-11-15)

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

- e. Procedure -- description of the procedure used in the conduct of teacher and pupil personnel certificate holders ~~certificated personnel~~ evaluations. (4-1-97)
- f. Communication of results -- the method by which teacher and pupil personnel certificate holders ~~certificated personnel~~ are informed of the results of evaluation. (4-1-97)
- g. Personnel actions -- the action available to the school district as a result of the evaluation and the procedures for implementing these actions; e.g., job status change. Note: in the event the action taken as a result of evaluation is to not renew an individual's contract or to renew an individual's contract at a reduced rate, school districts should take proper steps to follow the procedures outlined in Sections 33-513 through 33-515, Idaho Code in order to assure the due process rights of all personnel. (3-20-14)
- h. Appeal -- the procedure available to the individual for appeal or rebuttal when disagreement exists regarding the results of a teacher and pupil personnel certificate holder ~~certificated personnel~~ evaluations. (4-1-97)
- i. Remediation -- the procedure available to provide remediation in those instances where remediation is determined to be an appropriate course of action. (4-1-97)
- j. Monitoring and evaluation. -- A description of the method used to monitor and evaluate the district's teacher and pupil personnel certificate holders ~~personnel~~ evaluation system. (4-1-97)
- k. Professional development and training -- a plan for ongoing training for evaluators/administrators and teacher and pupil personnel certificate holders ~~teachers~~ on the district's evaluation standards, tool and process. (3-29-10)
- l. Funding -- a plan for funding ongoing training and professional development for evaluators/administrators in evaluation. (3-29-10)
- m. Collecting and using data -- a plan for collecting and using data gathered from the evaluation tool that must ~~will~~ be used to inform professional development for teacher and pupil personnel certificate holders. ~~Aggregate data shall be considered as part of the district and individual schools Needs Assessment in determining professional development offerings.~~ (3-20-14)
- n. Individualizing teacher and pupil personnel certificate holders ~~teacher~~ evaluation rating system -- a description of the method used to combine the Professional Practice (67% of the evaluation) and Student Achievement (33% of the evaluation) to be a plan for how evaluations will be used to identify level of performance proficiency and record growth over time. ~~No later than July 1, 2013, districts~~ Districts must ~~shall have~~ established an individualized teacher and pupil personnel certificate holders ~~teacher~~ evaluation rating system with a minimum of three (3) rankings ratings used to differentiate performance of teachers and pupil personnel certificate holders including: (3-20-14)

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

- i. Unsatisfactory being equal to “1”; (3-20-14)
- ii. Basic being equal to “2”; and (3-20-14)
- iii. Proficient being equal to “3”. (3-20-14)

o. A plan for including all stakeholders including, but not limited to, teachers, board members, administrators, and parents in the development and ongoing review of their teacher and pupil personnel certificate holders ~~teacher~~ evaluation plan. (3-20-14)

06. Evaluation Policy - Frequency of Evaluation. The evaluation policy ~~must~~ shall include a provision for evaluating all teacher and pupil personnel certificate holders ~~certificated personnel~~ on a fair and consistent basis. All teacher and pupil personnel certificate holders must be evaluated at least once annually no later than May 1 of each year. (3-20-14)

07. Evaluation Policy - Personnel Records. Permanent records of each teacher and pupil personnel certificate holders ~~certificated personnel~~ evaluation ~~must~~ will be maintained in the employee’s personnel file. All evaluation records ~~must~~ will be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy (Section 33-518, Idaho Code). Local school districts ~~must~~ shall report the ~~rankings~~ ratings of individual teacher and pupil personnel certificate holders ~~certificated personnel~~ evaluations to the State Department of Education annually for State and Federal reporting purposes. The State Department of Education ~~must~~ shall ensure that the privacy of all teacher and pupil personnel certificate holders ~~certificated personnel~~ is protected by not releasing statistical data of evaluation ~~rankings~~ ratings in local school districts with fewer than five (5) teachers and by only reporting that information in the aggregate by local school district. (3-20-14)

08. Evaluation System Approval. Each school district board of trustees ~~must~~ will develop and adopt policies for teacher and pupil personnel certificate holders ~~certificated~~ performance evaluation in which criteria and procedures for the evaluation are research based and aligned with the Charlotte Danielson Framework for Teaching Second Edition. ~~By July 1, 2014,~~ An evaluation plan which incorporates all of the above elements ~~must~~ shall be submitted to the State Department of Education ~~for approval. Once approved, subsequent~~ Subsequent changes made in the evaluation system ~~must~~ shall be resubmitted ~~for approval~~ to the State Department of Education. (3-20-14)

121. LOCAL DISTRICT EVALUATION POLICY - SCHOOL PRINCIPAL.

~~For principal evaluations conducted on or after July 1, 2014, each~~ Each school district board of trustees ~~must~~ will develop and adopt policies for principal performance evaluation using multiple measures in which criteria and procedures for the evaluation of administratively ~~certificated~~ personnel serving as school principal (principal, vice-principal, assistant principal, charter administrators) are research based and aligned to the standards and requirements outlined in Subsections 121.01 through 121.07 of this rule. ~~Districts must, at a minimum, pilot such an evaluation during the 2013-2014 school year and report the results of that pilot to the State Department of Education no later than July 1, 2014, in a format determined by the Department.~~ The process of developing criteria and procedures for principal evaluation ~~must~~ will allow

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

opportunities for input from those affected by the evaluation; i.e., trustees, administrators, teachers and parents. The evaluation policy ~~must~~will be a matter of public record and communicated to the principal for whom it is written. (3-20-14)

01. Standards. Each district principal evaluation model ~~must~~shall be aligned to state minimum standards that are based on the Interstate School Leaders Licensure Consortium (ISLLC) standards, ~~and include proof of proficiency in conducting teacher evaluations using the state's adopted model, the Charlotte Danielson Framework for Teaching Second Edition. Proof of proficiency in evaluating teacher performance shall be required of all individuals assigned the responsibility for appraising, observing, or evaluating certificated personnel performance. Those responsible for measuring teacher performance are district leadership such as principals, assistant principals, special education directors, and superintendents. Proof of proficiency in evaluating performance shall be demonstrated by passing a proficiency assessment approved by the State Department of Education as a onetime recertification requirement prior to September 1, 2018. Principal evaluation standards shall additionally address the following domains and components:~~The domains and components include: (4-11-15)

a. Domain 1: School Climate - An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs. (3-20-14)

i. School Culture - Principal establishes a safe, collaborative, and supportive culture ensuring all students are successfully prepared to meet the requirements for tomorrow's careers and life endeavors. (3-20-14)

ii. Communication - Principal is proactive in communicating the vision and goals of the school or district, the plans for the future, and the successes and challenges to all stakeholders. (3-20-14)

iii. Advocacy - Principal advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement. (3-20-14)

b. Domain 2: Collaborative Leadership - An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. The educational leader uses research and/or best practices in improving the education program. (3-20-14)

i. Shared Leadership - Principal fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth. (3-20-14)

ii. Priority Management - Principal organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities.

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

(3-20-14)

iii. Transparency - Principal seeks input from stakeholders and takes all perspectives into consideration when making decisions. (3-20-14)

iv. Leadership Renewal - Principal strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others. (3-20-14)

v. Accountability - Principal establishes high standards for professional, legal, ethical, and fiscal accountability for self and others. (3-20-14)

c. Domain 3: Instructional Leadership - An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. The educational leader provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program. (3-20-14)

i. Innovation - Principal seeks and implements innovative and effective solutions that comply with general and special education law. (3-20-14)

ii. Instructional Vision - Principal insures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn. (3-20-14)

iii. High Expectations - Principal sets high expectation for all students academically, behaviorally, and in all aspects of student well-being. (3-20-14)

iv. Continuous Improvement of Instruction - Principal ~~continuously receives~~ ~~has training proof of proficiency~~ in assessing teacher performance based upon the Charlotte Danielson Framework for Teaching Second Edition. Aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision. (3-20-14)

v. Evaluation - Principal uses teacher/principal evaluation and other formative feedback mechanisms to continuously improve teacher/principal effectiveness. (3-20-14)

vi. Recruitment and Retention -Principal recruits and maintains a high quality staff. (3-20-14)

02. Professional Practice. ~~For evaluations conducted on or after July 1, 2014, all~~ ~~All~~ principals must receive an evaluation in which sixty-seven percent (67%) of the evaluation results are based on Professional Practice. All measures included within the Professional Practice portion of the evaluation must be aligned to the Domains and Components listed in Subsection 121.01.a. through 121.01.c. of this rule. ~~District evaluation models must also include at least one (1) of the following~~ ~~As as~~ a measure to inform the Professional Practice portion of all principal evaluations; ~~district evaluation models shall also include at least one (1) of the following:~~ (3-20-14)

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

- a. Parent/guardian input; (3-20-14)
- b. Teacher input; (3-20-14)
- c. Student input; and/or (3-20-14)
- d. Portfolios. (3-20-14)

03. Student Achievement. ~~For evaluations conducted on or after July 1, 2013, all~~ All teacher and pupil personnel certificate holders ~~certificated instructional employees~~, principals and superintendents must receive an evaluation in which ~~at least~~ thirty-three percent (33%) of the evaluation results are based on multiple objective measures of growth in student achievement as determined by the board of trustees and based upon research. ~~For evaluations conducted on or after July 1, 2014, growth~~ Growth in student achievement as measured by Idaho's statewide assessment for Federal accountability purposes must be included. This portion of the evaluation may be calculated using current and/or past year's data and may use one (1) or multiple years of data. Growth in student achievement may be considered as an optional measure for all other school based and district based staff, as determined by the local board of trustees. (3-20-14)

04. Evaluation Policy - Content. ~~For evaluations conducted on or after July 1, 2014,~~ local Local school district policies ~~must~~ will include, at a minimum, the following information:
(3-20-14)

a. Purpose -- statements that identify the purpose or purposes for which the evaluation is being conducted; e.g., individual ~~instructional~~ leadership improvement, personnel decisions.
(3-20-14)

b. Evaluation criteria -- statements of the general criteria upon which principals ~~are~~ be evaluated.
(3-20-14)

c. Evaluator -- identification of the individuals responsible for appraising or evaluating principal performance. ~~The individuals assigned this responsibility shall have received training in evaluation.~~
(3-20-14)

d. Sources of data -- description of the sources of data used in conducting principal evaluations. ~~Parent/guardian input, teacher input, student input and/or portfolios must be considered as sources of data to support professional practice. Proficiency in conducting observations and evaluating effective teacher performance shall be included as one (1) source of data.~~
(3-20-14)

e. Procedure -- description of the procedure used in the conduct of principal evaluations.
(3-20-14)

f. Communication of results -- the method by which principals are informed of the results of evaluation.
(3-20-14)

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

g. Personnel actions -- the action, available to the school district as a result of the evaluation, and the procedures for implementing these actions; e.g., job status change. (3-20-14)

h. Appeal -- the procedure available to the individual for appeal or rebuttal when disagreement exists regarding the results of an evaluation. (3-20-14)

i. Remediation -- the procedure available to provide remediation in those instances where remediation is determined to be an appropriate course of action. (3-20-14)

j. Monitoring and evaluation. -- A description of the method used to monitor and evaluate the district's principal evaluation system. (3-20-14)

k. Professional development and training -- a plan for ongoing training for evaluators and principals on the ~~and professional learning based upon the~~ district's evaluation standards, tool -and process. (3-20-14)

l. Funding -- a plan for funding ongoing training and professional development for evaluators of principals (3-20-14)

m. Collecting and using data -- a plan for collecting and using data gathered from the evaluation tool that should~~will~~ be used to inform professional development for principals. (3-20-14)

n. Individualizing principal evaluation rating system -- a description of the method used to combine Professional Practice (67% of the evaluation) and Student Achievement (33% of the evaluation) to ~~plan for how evaluations will~~ be used to identify level of performance proficiency and record growth over time. ~~No later than July 1, 2014, districts~~ District must ~~shall~~ have established an individualized principal evaluation rating system with a minimum of three (3) rankings-ratings used to differentiate performance of principals including: (3-20-14)

i. Unsatisfactory being equal to "1"; (3-20-14)

ii. Basic being equal to "2"; and (3-20-14)

iii. Proficient being equal to "3". (3-20-14)

o. A plan for including stakeholders including, but not limited to, teachers, board members, administrators, and parents in the development and ongoing review of their principal evaluation plan. (3-20-14)

05. Evaluation Policy - Frequency of Evaluation. The evaluation policy must ~~should~~ include a provision for evaluating all principals on a fair and consistent basis. All principals must ~~shall~~ be evaluated at least once annually no later than May 1 of each year. (3-20-14)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

06. Evaluation Policy - Personnel Records. Permanent records of each principal evaluation ~~must will~~ be maintained in the employee's personnel file. All evaluation records ~~must will~~ be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy (Section 33-518, Idaho Code). Local school districts ~~must shall~~ report the ~~rankings ratings~~ of individual ~~certificated personnel~~ principal evaluations to the State Department of Education annually for State and Federal reporting purposes. The State Department of Education ~~must shall~~ ensure that the privacy of all ~~certificated personnel principals~~ are is protected by not releasing statistical data of evaluation ~~rankings ratings~~ in local school districts with fewer than five (5) ~~principals teachers~~ and by only reporting that information in the aggregate by local school district. (3-20-14)

07. Evaluation System Approval. Each school district board of trustees ~~must will~~ develop and adopt policies for principal performance evaluation in which criteria and procedures for the evaluation are research based and aligned with state standards. ~~By July 1, 2014, an~~ An evaluation plan which incorporates all of the above elements ~~must shall~~ be submitted to the State Department of Education ~~for approval. Once approved, subsequent~~ Subsequent changes made in the evaluation system ~~must shall~~ be resubmitted ~~for approval to the State Department of Education.~~ (3-20-14)

STATE DEPARTMENT OF EDUCATION

SUBJECT

Proposed rule – IDAPA 08.02.03. Rules Governing Thoroughness, Incorporation by Reference/Amended Content Standards – Humanities and Science

REFERENCE

April 2009 Board approved updated Idaho Content Standards for Humanities and Science.

APPLICABLE STATUTE, RULE, OR POLICY

Section 33-1612, Idaho
Idaho Administrative Code, IDAPA.08.02.03 - Rules Governing Thoroughness

BACKGROUND/DISCUSSION

Idaho standards are reviewed every six years by discipline. The Humanities Standards were last reviewed in 2008 and revisions were adopted by the Board in April 2009. Groups of stakeholders from across the state including classroom teachers, university professors, arts and humanities community members, and administrators from Idaho school districts were brought together to conduct the reviews. The group broke into seven committees representing the following disciplines: dance, media arts, music, theatre, visual arts, interdisciplinary humanities, and world languages.

The fine arts committee expanded to include media arts during the review. Previous versions of the Content Standards for Humanities did not include media arts. These standards will be adopted and incorporated by reference into the Administrative Rule. All other disciplines have had standards in place since 2001. Each of the Humanities review committees produced standards in two formats: chart and outline, to best serve classroom educators. Each committee group also produced a white paper that outlines the place of each discipline in the overall curriculum and states major changes from the 2009 version of the Idaho Content Standards in the Humanities disciplines. A total of 48 people on the Executive Committee met in Boise twice for two days to create the new documents and make final recommendations for the Board's consideration.

In addition to the review of the Humanities content standards, a group of Idaho Science Educators were brought together in March and May of 2015 to review the current K-12 Idaho Content Standards for Science. Like the Idaho Content Standards for Humanities, the standards for science were last updated and adopted by the Board in April of 2009.

The Science Committee's reviews and revisions allow Idaho schools to select best-suited science standards as per local control. A cross-walk evaluation was conducted by the Idaho Science Standards Committee to determine the links between the current Idaho Standards and the National Research Council's Framework for K-12 Science Education. The committee determined the old standards lacked depth, rigor, inquiry, problem solving, and hands-on laboratory

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

experiences. Revisions to the standards are required to correspond to a changing set of requirements for science literacy.

IMPACT

The revised Humanities Content standards will allow teachers to utilize best practice in the arts, interdisciplinary humanities, and world language and incorporate not only skills but also essential understandings, essential questions, glossaries, and multiple formats for classroom use. The addition of media arts as a discipline in the fine arts will provide specific skill sets for schools to incorporate new technologies in the arts and reach a larger population of students with interests in media. The new world language standards will allow school districts to follow accepted norms in the areas of proficiencies of various levels of language practice, as these standards are not measured by a specific year, but through proficiencies students can themselves measure. The newly rewritten interdisciplinary standards provide a clearer pathway for educators to devise courses based on their own skills in the arts and humanities.

The revised Science Content standards will increase the rigor and depth of sciences courses for Idaho students and better prepare Idaho's students for the workforce and postsecondary education.

Attachment 7 – Science Content Standards	Page 327

STAFF COMMENTS AND RECOMMENDATIONS

The Board's Indian Education Committee provided recommendations to the Department of Education on additional amendments they would like considered as part of the review for the Humanities Content Standards. The review committee did not receive these recommendations until after they had completed the review and recommendations process and they were not considered as part of the amendments the Board is considering at this time.

Through a collaborative, state-led process new K–12 science standards have been developed that are rich in content and practice and arranged in a coherent manner across disciplines and grades to provide all students an internationally-benchmarked science education. These standards are referred to as the Next Generation Science Standards (NGSS) nationally and are also based on the *Framework for K–12 Science Education* developed by the National Research Council. In addition to an increase in rigor these standards were developed to prepare students for success in the workplace as well as postsecondary education.

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

Additional information about the NGSS may be found at <http://www.nextgenscience.org>. The National Research Council developed the Framework in partnership with the American Association for the Advancement of Science, and the National Science Teachers Association and are considered best practice in science education.

Proposed rules have a 21 day comment period prior to returning to the Board for consideration as a pending rule. Based on received comments and Board direction, changes may be made to proposed rules as well as the documents being incorporated by reference into the rule prior to entering the pending stage. All Pending rules will be brought back to the Board for approval prior to submittal to the Department of Administration for publication in the Idaho Administrative Rules Bulletin as a pending rule. Pending rules become effective at the end of the legislative session in which they are submitted. When documents are incorporated by reference into Administrative Rule they have the same force and effect as the regulations outlined directly within the Administrative Rule and may only be amended with Board approval through the rule making process.

BOARD ACTION

I move to approve the amended Idaho Content Standards for Humanities as submitted in Attachment 2 and 3.

Moved by _____ Seconded by _____ Carried: Yes ____ No ____

AND

I move to approve the amended Idaho Content Standards for Science as submitted in Attachment 7.

Moved by _____ Seconded by _____ Carried: Yes ____ No ____

AND

I move to approve the Proposed rule amendments to IDAPA 08.02.03, Rules Governing Thoroughness as submitted in Attachment 1.

Moved by _____ Seconded by _____ Carried: Yes ____ No ____

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

IDAPA 08
TITLE 02
CHAPTER 03

08.02.03 - RULES GOVERNING THOROUGHNESS

000. LEGAL AUTHORITY.

All rules in this Thoroughness chapter (IDAPA 08.02.03) are promulgated pursuant to the authority of the State Board of Education under Article IX, Section 2 of the Idaho Constitution and under sections 33-116, 33-118, and 33-1612, Idaho Code. Specific statutory references for particular rules are also noted as additional authority where appropriate.
(4-5-00)

001. TITLE AND SCOPE.

- 01. Title.** These rules shall be known as IDAPA 08.02.03 “Rules Governing Thoroughness.” (4-5-00)
- 02. Scope.** These rules shall govern the thorough education of all public school students in Idaho.
(4-5-00)

002. WRITTEN INTERPRETATIONS.

Any written interpretations are on file at the office of the State Board of Education at 650 West State Street, Boise, Idaho 83702.
(3-15-02)

003. ADMINISTRATIVE APPEALS.

Unless otherwise provided for in the Rules of the State Board of Education or in the State Board of Education Governing Policies and Procedures, all administrative appeals allowed by law shall be conducted pursuant to the Idaho Administrative Procedure Act and IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General.”
(4-5-00)

004. INCORPORATION BY REFERENCE.

The following documents are incorporated into this rule: (3-30-07)

01. The Idaho Content Standards. The Idaho Content Standards as adopted by the State Board of Education. Individual subject content standards are adopted in various years in relation to the curricular materials adoption schedule. Copies of the document can be found on the State Board of Education website at www.boardofed.idaho.gov. (3-29-10)

- a.** Driver Education, as revised and adopted on August 21, 2008. (3-29-10)
- b.** Health, as revised and adopted on April 17, 2009. (3-29-10)
- c.** Humanities Categories: (3-29-10)
 - i.** Visual Arts, as revised and adopted on ~~April 17, 2009~~ August 13, 2015; ~~(3-29-10)~~ ()
 - ii.** Dance, as revised and adopted on April 17, 2009; (3-29-10)
 - iii.** ~~Drama Theatre~~, as revised and adopted on ~~April 17, 2009~~ August 13, 2015; ~~(3-29-10)~~ ()
 - iv.** Interdisciplinary Humanities, as revised and adopted on ~~April 17, 2009~~ August 13, 2015; ~~(3-29-10)~~ ()

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

- v. Music, as revised and adopted on April 17, 2009; (3-29-10)
- vi. World languages, as revised and adopted on April 17, 2009. (3-29-10)
- vii. Media Arts, as adopted on August 13, 2015 ()
- d. English Language Arts, as revised and adopted on August 11, 2010. (4-7-11)
- e. Limited English Proficiency, as revised and adopted on August 21, 2008. (3-29-10)
- f. Mathematics, as revised and adopted on August 11, 2010. (4-7-11)
- g. Physical Education, as revised and adopted on April 17, 2009. (3-29-10)
- h. Science, as revised and adopted on ~~April 17, 2009~~ August 13, 2015; (3-29-10) ()
- i. Social Studies, as revised and adopted on April 17, 2009. (3-29-10)
- j. Information and Communication Technology, as revised and adopted on April 22, 2010. (4-7-11)

008. DEFINITIONS H - S.

01. ~~Interdisciplinary or~~ Integrated Assessment. Assessment based on tasks that measures a student's ability to apply concepts, principles, and processes from two (2) or more subject disciplines to a project, issue, or problem. (4-5-00)

02. International Baccalaureate (IB) - Administered by the International Baccalaureate Organization, the IB program provides a comprehensive liberal arts course of study for students in their junior and senior years of high school. IB students take end-of-course exams that may qualify for college credit. Successful completion of the full course of study leads to an IB diploma.(4-11-06)

03. Interdisciplinary Study. An approach to learning in two or more disciplines that enables students to identify and apply authentic connections and integrate essential concepts that transcend individual disciplines.

0304. Laboratory. A laboratory science course is defined as one in which at least one (1) class period each week is devoted to providing students with the opportunity to manipulate equipment, materials, specimens or develop skills in observation and analysis and discover, demonstrate, illustrate or test scientific principles or concepts. (4-11-06)

0405. Learning Plan. The plan that outlines a student's program of study, which should include a rigorous academic core and a related sequence of electives in academic, professional-technical education (PTE), or humanities aligned with the student's post graduation goals. (4-11-06)

0506. Narrative. Text in any form (print, oral, or visual) that recounts events or tells a story. (4-5-00)

0607. Norm-Referenced Assessment. Comparing a student's performance or test result to performance of other similar groups of students; (e.g., he typed better than eighty percent (80%) of his classmates.) (4-5-00)

0708. On-Demand Assessment. Assessment that takes place at a predetermined time and place. Quizzes, state tests, SATs, and most final exams are examples of on-demand assessment. (4-5-00)

0809. Performance Assessment. Direct observation of student performance or student work and professional judgment of the quality of that performance. Good quality performance assessment has pre-established

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

performance criteria. (4-5-00)

0910. Performance-Based Assessment. The measurement of educational achievement by tasks that are similar or identical to those that are required in the instructional environment, as in performance assessment tasks, exhibitions, or projects, or in work that is assembled over time into portfolio collections. (4-5-00)

1011. Performance Criteria. A description of the characteristics that will be judged for a task. Performance criteria may be holistic, analytic trait, general or specific. Performance criteria are expressed as a rubric or scoring guide. Anchor points or benchmark performances may be used to identify each level of competency in the rubric or scoring guide. (4-5-00)

1112. Phonics. Generally used to refer to the system of sound-letter relationships used in reading and writing. Phonics begins with the understanding that each letter (or grapheme) of the English alphabet stands for one (1) or more sounds (or phonemes). (4-5-00)

1213. Portfolio. A collection of materials that documents and demonstrates a student's academic and work-based learning. Although there is no standard format for a portfolio, it typically includes many forms of information that exhibit the student's knowledge, skills, and interests. By building a portfolio, students can recognize their own growth and learn to take increased responsibility for their education. Teachers, mentors, and employers can use portfolios for assessment purposes and to record educational outcomes. (4-5-00)

1314. Professional Development. A comprehensive, sustained, timely, and intensive process to improve effectiveness of teachers and administrators in raising student achievement, which: (4-4-13)

a. Aligns with rigorous state academic achievement standards, local educational agency goals, school improvement goals, effective technology integration, and Common Core standards. (4-4-13)

b. Utilizes data driven instruction using a thorough review and continual evaluation of data on teacher and student performance to define clear goals and distinct outcomes. (4-4-13)

c. Provides opportunities that are individualized enough to meet distinct and diverse levels of need for teachers and administrators. (4-4-13)

d. Is facilitated by well-prepared school administrators, coaches, mentors, master teachers, lead teachers, or third-party providers under contract with the State Department of Education, school district, or charter school, and supported by external research, expertise, or resources. (4-4-13)

e. Fosters a collective responsibility by educators within the school for improved student performance and develops a professional learning community. (4-4-13)

[1415. Project based learning. A hands-on approach to learning that encourages students to create/interpret/communicate an original work or project and assesses quality and success of learning through performance/presentation/production of that work or project.](#)

103. INSTRUCTION GRADES 1-12.

01. Instruction. Instruction is inclusive of subject matter, content and course offerings. Patterns of instructional organization are a local school district option. Schools will assure students meet locally developed standards with the state standards as a minimum.* (*This includes special instruction that allows limited English proficient students to participate successfully in all aspects of the school's curriculum and keep up with other students in the regular education program. It also includes special learning opportunities for accelerated, learning disabled students and students with other disabilities.) (4-5-00)

02. Instructional Courses. At appropriate grade levels, instruction will include but not be limited to the following: (4-11-06)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

a. Language Arts and Communication will include instruction in reading, writing, English, literature, technological applications, spelling, speech and listening, and, in elementary schools, cursive writing. (3-20-14)

b. Mathematics will include instruction in addition, subtraction, multiplication, division, percentages, mathematical reasoning and probability. (4-1-97)

c. Science will include instruction in applied sciences, earth and space sciences, physical sciences, and life sciences. (4-1-97)

d. Social Studies will include instruction in history, government, geography, economics, current world affairs, citizenship, and sociology. (4-1-97)

104. OTHER REQUIRED INSTRUCTION.

Other required instruction for all students and other required offerings of the school are: (4-1-97)

01. Elementary Schools. (4-11-06)

a. The following section outlines other information required for all elementary students, as well as other required offerings of the school:

Fine Arts (art and music)
Health (wellness)
Physical Education (fitness) (4-11-06)

b. Additional instructional options as determined by the local school district. For example:
Languages other than English
Career Awareness (4-1-97)

02. Middle Schools/Junior High Schools. (4-11-06)

a. No later than the end of Grade eight (8) each students shall develop parent-approved student learning plans for their high school and post-high school options. The learning plan shall be developed by students with the assistance of parents or guardians, and with advice and recommendation from school personnel. It shall be reviewed annually and may be revised at any time. The purpose of a parent-approved student learning plan is to outline a course of study and learning activities for students to become contributing members of society. A student learning plan describes, at a minimum, the list of courses and learning activities in which the student will engage while working toward meeting the school district's or LEA's graduation standards. The school district or LEA will have met its obligation for parental involvement if it makes a good faith effort to notify the parent or guardian of the responsibility for the development and approval of the learning plan. A learning plan will not be required if the parent or guardian requests, in writing, that no learning plan be developed. (4-11-06)

b. A student must have taken pre-algebra before the student will be permitted to enter grade nine (9). (3-12-14)

c. Other required instruction for all middle school students:
Health (wellness)
Physical Education (fitness) (4-11-06)

d. Other required offerings of the school:
Family and Consumer Science
Fine & Performing Arts
Professional Technical Education
Advisory Period (middle school only, encouraged in junior high school) (4-11-06)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

03. High Schools. (4-11-15)

a. High schools must offer a wide variety of courses to satisfy state and local graduation requirements. High schools are required to provide instructional offerings in Physical Education (fitness) and Professional Technical Education. (4-11-15)

b. High schools will annually review and update with the student the parent-approved student learning plans outlined in Subsection 104.02.a. (4-11-15)

105. HIGH SCHOOL GRADUATION REQUIREMENTS.

A student must meet all of the requirements identified in this section before the student will be eligible to graduate from an Idaho high school. The local school district or LEA may establish graduation requirements beyond the state minimum. (5-8-09)

01. Credit Requirements. The State minimum graduation requirement for all Idaho public high schools is forty-six (46) credits and must include twenty-nine (29) credits in core subjects as identified in Paragraphs 105.01.c through 105.01.i. (3-12-14)

a. Credits. (Effective for all students who enter the ninth grade in the fall of 2010 or later.) One (1) credit shall equal sixty (60) hours of total instruction. School districts or LEA's may request a waiver from this provision by submitting a letter to the State Department of Education for approval, signed by the superintendent and chair of the board of trustees of the district or LEA. The waiver request shall provide information and documentation that substantiates the school district or LEA's reason for not requiring sixty (60) hours of total instruction per credit. (3-29-10)

b. Mastery. A student may also achieve credits by demonstrating mastery of a subject's content standards as defined and approved by the local school district or LEA. (3-29-10)

c. Secondary Language Arts and Communication. Nine (9) credits are required. Eight (8) credits of instruction in Language Arts. Each year of Language Arts shall consist of language study, composition, and literature and be aligned to the Idaho Content Standards for the appropriate grade level. One (1) credit of instruction in communications consisting of oral communication and technological applications that includes a course in speech, a course in debate, or a sequence of instructional activities that meet the Idaho Speech Content Standards requirements. (3-29-10)

d. Mathematics. Six (6) credits are required. Secondary mathematics includes Applied Mathematics, Business Mathematics, Algebra, Geometry, Trigonometry, Fundamentals of Calculus, Probability and Statistics, Discrete Mathematics, and courses in mathematical problem solving and reasoning. AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering courses may also be counted as a mathematics credit if the student has completed Algebra II standards. Students who choose to take AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering may not concurrently count such courses as both a math and science credit. (3-12-14)

i. Students must complete secondary mathematics in the following areas: (3-12-14)

(1) Two (2) credits of Algebra I or courses that meet the Idaho Algebra I Content Standards as approved by the State Department of Education; (3-29-10)

(2) Two (2) credits of Geometry or courses that meet the Idaho Geometry Content Standards as approved by the State Department of Education; and (3-29-10)

(3) Two (2) credits of mathematics of the student's choice. (3-29-10)

STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015

ii. Two (2) credits of the required six (6) credits of mathematics must be taken in the last year of high school in which the student intends to graduate. For the purposes of this subsection, the last year of high school shall include the summer preceding the fall start of classes. Students who return to school during the summer or the following fall of the next year for less than a full schedule of courses due to failing to pass a course other than math are not required to retake a math course as long as they have earned six (6) credits of high school level mathematics. (3-12-14)

iii. Students who have completed six (6) credits of math prior to the fall of their last year of high school, including at least two (2) semesters of an Advanced Placement or dual credit calculus or higher level course, are exempt from taking math during their last year of high school. High School math credits completed in middle school shall count for the purposes of this section. (3-12-14)

e. Science. Six (6) credits are required, four (4) of which will be laboratory based. Secondary sciences include instruction in applied sciences, earth and space sciences, physical sciences, and life sciences. Up to two (2) credits in AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering may be used as science credits. Students who choose to take AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering may not concurrently count such courses as both a math and science credit. (3-12-14)

i. Secondary sciences include instruction in the following areas: biology, physical science or chemistry, and earth, space, environment, or approved applied science. Four (4) credits of these courses must be laboratory based. (3-29-10)

f. Social Studies. Five (5) credits are required, including government (two (2) credits), United States history (two (2) credits), and economics (one (1) credit). Courses such as geography, sociology, psychology, and world history may be offered as electives, but are not to be counted as a social studies requirement. (3-29-10)

g. **Arts and Humanities.** Two (2) credits are required. **Arts and Humanities** courses include instruction in visual arts, music, theatre, dance, media arts, or world language aligned to the Idaho content standards for those subjects. ~~Other courses such as literature, history, philosophy, architecture, or comparative world religions~~ A course in Interdisciplinary Humanities may satisfy the humanities standards if the course is aligned to the Idaho Interdisciplinary Humanities Content Standards. (3-29-10)

h. Health/Wellness. One (1) credit is required. Course must be aligned to the Idaho Health Content Standards. Effective for all public school students who enter grade nine (9) in Fall 2015 or later, each student shall receive a minimum of one (1) class period on psychomotor cardiopulmonary resuscitation (CPR) training as outlined in the American Heart Association (AHA) Guidelines for CPR to include the proper utilization of an automatic external defibrillator (AED) as part of the Health/Wellness course. (3-12-14)

i. Students participating in one (1) season in any sport recognized by the Idaho High School Activities Association or club sport recognized by the local school district, or eighteen (18) weeks of a sport recognized by the local school district may choose to substitute participation up to one (1) credit of physical education. Students must show mastery of the content standards for Physical Education in a format provided by the school district. (4-1-15)

Explore	a. Respond in movement to a variety of stimuli (for example, music/sound, text, objects, images, symbols, observed dance).	a. Explore movement inspired by a variety of stimuli (for example, music/sound, text, objects, images, symbols, observed dance, experiences) and identify the source.	a. Explore movement inspired by a variety of stimuli (for example, music/sound, text, objects, images, symbols, observed dance, experiences) and suggest additional sources for movement ideas.	a. Experiment with a variety of self-identified stimuli (for example, music/sound, text, objects, images, notation, observed dance, experiences) for movement.	a. Identify ideas for choreography generated from a variety of stimuli (for example, music/sound, text, objects, images, notation, observed dance, experiences).	a. Build content for choreography using several stimuli (for example, music/sound, text, objects, images, notation, observed dance, experiences, literary forms, natural phenomena, current news, social events).	a. Relate similar or contrasting ideas to develop choreography using a variety of stimuli (for example, music, observed dance, literary forms, notation, natural phenomena, personal experience/recall, current news or social events) and make selections to expand movement vocabulary and artistic expression .	a. Compare a variety of stimuli (for example, music, observed dance, literary forms, notation, natural phenomena, personal experience/recall, current news or social events) and make selections to expand movement vocabulary and artistic expression .	a. Implement movement from a variety of stimuli (for example, music, observed dance, literary forms, notation, natural phenomena, personal experience/recall, current news or social events) to develop dance content for an original dance study or dance.	a. Explore a variety of stimuli for sourcing movement to develop an improvisational or choreographed dance study . Analyze the process and the relationship between the stimuli and the movement.	a. Synthesize content generated from stimulus materials to choreograph dance studies or dances using original or codified movement .	a. Synthesize content generated from stimulus material. Experiment and take risks to discover a personal voice to communicate artistic intent .
	b. Explore different ways to do basic locomotor and nonlocomotor movements by changing at least one of the elements of dance .	b. Explore a variety of locomotor and non-locomotor movements by experimenting with and changing the elements of dance .	b. Combine a variety of movements while manipulating the elements of dance .	b. Explore a given movement problem . Select and demonstrate a solution.	b. Develop a movement problem and manipulate the elements of dance as tools to find a solution.	b. Construct and solve multiple movement problems to develop choreographic content.	b. Explore various movement vocabularies to transfer ideas into choreography.	b. Explore various movement vocabularies to express an artistic intent in choreography. Explain and discuss the choices made using genre-specific dance terminology .	b. Identify and select personal preferences to create an original dance study or dance. Use genre-specific dance terminology to articulate and justify choices made in movement development to communicate intent.	b. Experiment with the elements of dance to explore personal movement preferences and strengths, and select movements that challenge skills and build on strengths in an original dance study or dance.	b. Apply personal movement preferences and strengths with the movement vocabulary of several dance styles or genres to choreograph an original dance study or dance that communicates an artistic intent . Compare personal choices to those made by well-known choreographers.	b. Expand personal movement preferences and strengths to discover unexpected solutions that communicate the artistic intent of an original dance. Analyze the unexpected solutions and explain why they were effective in expanding artistic intent.

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

Creating		Anchor Standard 2: Organize and develop artistic ideas and work. Enduring Understanding: The elements of dance, dance structures, and choreographic devices serve as both a foundation and a departure point for choreographers. Essential Question(s): What influences choice-making in creating choreography?											Creating	
		Kindergarten DA:Cr2.1.K	1st DA:Cr2.1.1	2nd DA:Cr2.1.2	3rd DA:Cr2.1.3	4th DA:Cr2.1.4	5th DA:Cr2.1.5	6th DA:Cr2.1.6	7th DA:Cr2.1.7	8th DA:Cr2.1.8	HS Proficient DA:Cr2.1.I	HS Accomplished DA:Cr2.1.II	HS Advanced DA:Cr2.1.III	
Plan		a. Improvise dance that has a beginning, middle, and end.	a. Improvise a series of movements that have a beginning, middle, and end, and describe movement choices.	a. Improvise a dance phrase with a beginning, a middle that has a main idea, and a clear end.	a. Identify and experiment with choreographic devices to create simple movement patterns and dance structures (for example, AB, ABA, theme and development).	a. Manipulate or modify choreographic devices to expand movement possibilities and create a variety of movement patterns and structures. Discuss movement choices.	a. Manipulate or modify a variety of choreographic devices to expand choreographic possibilities and develop a main idea. Explain reasons for movement choices.	a. Explore choreographic devices and dance structures to develop a dance study that supports an artistic intent . Explain the goal or purpose of the dance.	a. Use a variety of choreographic devices and dance structures to develop a dance study with a clear artistic intent . Articulate reasons for movement and structural choices.	a. Collaborate to select and apply a variety of choreographic devices and dance structures to choreograph an original dance study or dance with a clear artistic intent . Articulate the group process for making movement and structural choices.	a. Collaborate to design a dance using choreographic devices and dance structures to support an artistic intent . Explain how the dance structures clarify the artistic intent .	a. Work individually and collaboratively to design and implement a variety of choreographic devices and dance structures to develop original dances. Analyze how the structure and final composition informs the artistic intent .	a. Demonstrate fluency and personal voice in designing and choreographing original dances. Justify choreographic choices and explain how they are used to intensify artistic intent .	Plan
		b. Express an idea, feeling, or image, through improvised movement moving alone or with a partner.	b. Choose movements that express an idea or emotion, or follow a musical phrase.	b. Choose movements that express a main idea or emotion, or follow a musical phrase. Explain reasons for movement choices.	b. Develop a dance phrase that expresses and communicates an idea or feeling. Discuss the effect of the movement choices.	b. Develop a dance study that expresses and communicates a main idea. Discuss the reasons and effectiveness of the movement choices.	b. Develop a dance study by selecting a specific movement vocabulary to communicate a main idea. Discuss how the dance communicates nonverbally.	b. Determine artistic criteria to choreograph a dance study that communicates personal or cultural meaning. Based on the criteria, evaluate why some movements are more or less effective than others.	b. Determine artistic criteria to choreograph a dance study that communicates personal or cultural meaning. Articulate how the artistic criteria serve to communicate the meaning of the dance.	b. Define and apply artistic criteria to choreograph a dance that communicates personal or cultural meaning. Discuss how the criteria clarify or intensify the meaning of the dance.	b. Develop an artistic statement for an original dance study or dance. Discuss how the use of movement elements, choreographic devices and dance structures serve to communicate the artistic statement .	b. Develop an artistic statement that reflects a personal aesthetic for an original dance study or dance. Select and demonstrate movements that support the artistic statement .	b. Construct an artistic statement that communicates a personal, cultural and artistic perspective.	

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

Creating		Anchor Standard 3: Refine and complete artistic work. Enduring Understanding: Choreographers analyze, evaluate, refine, and document their work to communicate meaning. Essential Question(s): How do choreographers use self-reflection, feedback from others, and documentation to improve the quality of their work?											Creating		
		Kindergarten DA:Cr3.1.K	1st DA:Cr3.1.1	2nd DA:Cr3.1.2	3rd DA:Cr3.1.3	4th DA:Cr3.1.4	5th DA:Cr3.1.5	6th DA:Cr3.1.6	7th DA:Cr3.1.7	8th DA:Cr3.1.8	HS Proficient DA:Cr3.1.I	HS Accomplished DA:Cr3.1.II	HS Advanced DA:Cr3.1.III		
Revise		a. Apply suggestions for changing movement through guided improvisational experiences.	a. Explore suggestions to change movement from guided improvisation and/or short remembered sequences.	a. Explore suggestions and make choices to change movement from guided improvisation and/or short remembered sequences.	a. Revise movement choices in response to feedback to improve a short dance study . Describe the differences the changes made in the movements.	a. Revise movement based on peer feedback and selfreflection to improve communication of artistic intent in a short dance study . Explain choices made in the process.	a. Explore through movement the feedback from others to expand choreographic possibilities for a short dance study that communicates artistic intent . Explain the movement choices and refinements.	a. Revise dance compositions using collaboratively developed artistic criteria . Explain reasons for revisions and how choices made relate to artistic intent .	a. Evaluate possible revisions of dance compositions and, if necessary, consider revisions of artistic criteria based on self-reflection and feedback of others. Explain reasons for choices and how they clarify artistic intent .	a. Revise choreography collaboratively or independently based on artistic criteria , selfreflection, and the feedback of others. Articulate the reasons for choices and revisions and explain how they clarify and enhance the artistic intent .	a. Clarify the artistic intent of a dance by manipulating choreographic devices and dance structures based on established artistic criteria and feedback from others. Analyze and evaluate impact of choices made in the revision process.	a. Clarify the artistic intent of a dance by refining choreographic devices and dance structures , collaboratively or independently using established artistic criteria , selfreflection and the feedback of others. Analyze and evaluate impact of choices made in the revision process.	a. Clarify the artistic intent of a dance by manipulating and refining choreographic devices , dance structures , and artistic criteria using self-reflection and feedback from others. Document choices made in the revision process and justify how the refinements support artistic intent .	Revise	
		b. Depict a dance movement by drawing a picture or using a symbol.	b. Depict several different types of movements of a dance by drawing a picture or using a symbol (for example, jump, turn, slide, bend, reach).	b. Depict the levels of movements in a variety of dance movements by drawing a picture or using symbols (for example, high, middle, low).	b. Depict directions or spatial pathways in a dance phrase by drawing a picture map or using a symbol.	b. Depict the relationships between two or more dancers in a dance phrase by drawing a picture or using symbols (for example, next to, above, below, behind, in front of).	b. Record changes in a dance sequence through writing, symbols, or a form of media technology.	b. Explore or invent a system to record a dance sequence through writing, symbols, or a form of media technology.	b. Investigate a recognized system to document a dance sequence by using words, symbols, or media technologies.	b. Experiment with aspects of a recognized system to document a section of a dance by using words, symbols, or media technologies.	b. Compare recognized systems to document a section of a dance using writing, symbols, or media technologies.	b. Develop a strategy to record a dance using recognized systems of dance documentation (for example, writing, a form of notation symbols, or using media technologies).	b. Document a dance using recognized systems of dance documentation (for example, writing, a form of notation symbols, or using media technologies).

Dance													
Performing	Anchor Standard 4: Select, analyze, and interpret artistic work for presentation. Enduring Understanding: Space, time, and energy are basic elements of dance. Essential Question(s): How do dancers work with space, time and energy to communicate artistic expression?												Performing
	Kindergarten	1st	2nd	3rd	4th	5th	6th	7th	8th	HS Proficient	HS Accomplished	HS Advanced	
	DA:Pr4.1.K	DA:Pr4.1.1	DA:Pr4.1.2	DA:Pr4.1.3	DA:Pr4.1.4	DA:Pr4.1.5	DA:Pr4.1.6	DA:Pr4.1.7	DA:Pr4.1.8	DA:Pr4.1.I	DA:Pr4.1.II	DA:Pr4.1.III	
Express	a. Make still and moving body shapes that show lines (for example, straight, bent, and curved), changes levels, and vary in size (large/small). Join with others to make a circle formation and work with others to change its dimensions.	a. Demonstrate locomotor and nonlocomotor movements that change body shapes, levels, and facings. Move in straight, curved, and zigzagged pathways. Find and return to place in space . Move with others to form straight lines and circles.	a. Demonstrate clear directionality and intent when performing locomotor and nonlocomotor movements that change body shapes, facings, and pathways in space. Identify symmetrical and asymmetrical body shapes and examine relationships between body parts. Differentiate between circling and turning as two separate ways of continuous directional change.	a. Judge spaces as distance traveled and use space three dimensionally. Demonstrate shapes with positive and negative space . Perform movement sequences in and through space with intentionality and focus.	a. Make static and dynamic shapes with positive and negative space . Perform elevated shapes (jump shapes) with soft landings and movement sequences alone and with others, establishing relationships with other dancers through focus of eyes.	a. Integrate static and dynamic shapes and floor and air pathways into dance sequences. Establish relationships with other dancers through focus of eyes and other body parts. Convert inward focus to outward focus for projecting out to far space.	a. Refine partner and ensemble skills in the ability to judge distance and spatial design . Establish diverse pathways, levels, and patterns in space . Maintain focus with partner or group in near and far space.	a. Expand movement vocabulary of floor and air pattern designs. Incorporate and modify body designs from different dance genres and styles for the purpose of expanding movement vocabulary to include differently designed shapes and movements for interest and contrast.	a. Sculpt the body in space and design body shapes in relation to other dancers, objects, and environment. Use focus of eyes during complex floor and air patterns or direct and indirect pathways.	a. Develop partner and ensemble skills that enable contrasting level changes through lifts, balances, or other means while maintaining a sense of spatial design and relationship. Use space intentionally during phrases and through transitions between phrases. Establish and break relationships with others as appropriate to the choreography.	a. Dance alone and with others with spatial intention. Expand partner and ensemble skills to greater ranges and skill level. Execute complex floor and air sequences with others while maintaining relationships through focus and intentionality.	a. Modulate and use the broadest range of movement in space for artistic and expressive clarity. Use inward and outward focus to clarify movement and intent. Establish and break relationships with other dancers and audience as appropriate to the dance.	
	b. Demonstrate tempo contrasts with movements that match to tempo of sound stimuli.	b. Relate quick, moderate and slow movements to duration in time. Recognize steady beat and move to varying tempi of steady beat.	b. Identify the length of time a move or phrase takes (for example, whether it is long or short). Identify and move on the downbeat in duple and triple meter. Correlate metric phrasing with movement phrasing.	b. Fulfill specified duration of time with improvised locomotor and nonlocomotor movements. Differentiate between "in time" and "out of time" to music. Perform movements that are the same or of a different time orientation to accompaniment. Use metric and kinesthetic phrasing.	b. Accompany other dancers using a variety of percussive instruments and sounds. Respond in movement to even and uneven rhythms. Recognize and respond to tempo changes as they occur in dance and music.	b. Dance to a variety of rhythms generated from internal and external sources. Perform movement phrases that show the ability to respond to changes in time.	b. Use combinations of sudden and sustained timing as it relates to both the time and the dynamics of a phrase or dance work . Accurately use accented and unaccented beats in 3/4 and 4/4 meter.	b. Vary durational approach in dance phrasing by using timing accents and variations within a phrase to add interest kinesthetically, rhythmically, and visually.	b. Analyze and select metric, kinetic, and breath phrasing and apply appropriately to dance phrases. Perform dance phrases of different lengths that use various timings within the same section. Use different tempi in different body parts at the same time.	b. Use syncopation and accent movements related to different tempi . Take rhythmic cues from different aspects of accompaniment. Integrate breath phrasing with metric and kinesthetic phrasing.	b. Perform dance studies and compositions that use time and tempo in unpredictable ways. Use internal rhythms and kinetics as phrasing tools. Dance "in the moment."	b. Modulate time factors for artistic interest and expressive acuity. Demonstrate time complexity in phrasing with and without musical accompaniment. Use multiple and complex rhythms (for example, contrapuntal and/or polyrhythmic) at the same time. Work with and against rhythm of accompaniment or sound environments .	

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

	c. Identify and apply different characteristics to movements (for example, slow, smooth, or wavy).	c. Demonstrate movement characteristics along with movement vocabulary (for example, use adverbs and adjectives that apply to movement such as a bouncy leap, a floppy fall, a jolly jump, and joyful spin).	c. Select and apply appropriate characteristics to movements (for example, selecting specific adverbs and adjectives and apply them to movements). Demonstrate kinesthetic awareness while dancing the movement characteristics.	c. Change use of energy and dynamics by modifying movements and applying specific characteristics to heighten the effect of their intent.	c. Analyze movements and phrases for use of energy and dynamic changes and use adverbs and adjectives to describe them. Based on the analysis, refine the phrases by incorporating a range of movement characteristics .	c. Contrast bound and free-flowing movements. Motivate movement from both central initiation (torso) and peripheral initiation (distal) and analyze the relationship between initiation and energy .	c. Use the internal body force created by varying tensions within one's musculature for movement initiation and dynamic expression. Distinguish between bound and freeflowing movements and appropriately apply them to technique exercises and dance phrases.	c. Compare and contrast movement characteristics from a variety of dance genres or styles . Discuss specific characteristics and use adverbs and adjectives to describe them. Determine what dancers must do to perform them clearly.	c. Direct energy and dynamics in such a way that movement is textured. Incorporate energy and dynamics to technique exercises and dance performance. Use energy and dynamics to enhance and project movements.	c. Connect energy and dynamics to movements by applying them in and through all parts of the body. Develop total body awareness so that movement phrases demonstrate variances of energy and dynamics .	c. Initiate movement phrases by applying energy and dynamics . Vary energy and dynamics over the length of a phrase and transition smoothly out of the phrase and into the next phrase, paying close attention to its movement initiation and energy.	c. Modulate dynamics to clearly express intent while performing dance phrases and choreography. Perform movement sequences expressively using a broad dynamic range and employ dynamic skills for establishing relationships with other dancers and projecting to the audience.		
Performing	Anchor Standard 5: Develop and refine artistic techniques and work for presentation. Enduring Understanding: Dancers use the mind-body connection and develop the body as an instrument for artistry and artistic expression. Essential Question(s): What must a dancer do to prepare the mind and body for artistic expression?												Performing	
	Kindergarten DA:Pr5.1.K	1st DA:Pr5.1.1	2nd DA:Pr5.1.2	3rd DA:Pr5.1.3	4th DA:Pr5.1.4	5th DA:Pr5.1.5	6th DA:Pr5.1.6	7th DA:Pr5.1.7	8th DA:Pr5.1.8	HS Proficient DA:Pr5.1.I	HS Accomplished DA:Pr5.1.II	HS Advanced DA:Pr5.1.III		
Embodiment	a. Demonstrate sameside and cross-body locomotor and nonlocomotor movements, body patterning movements, and body shapes.	a. Demonstrate a range of locomotor and non-locomotor movements, body patterning , body shapes, and directionality.	a. Demonstrate a range of locomotor and non-locomotor movements, body patterning , and dance sequences that require moving through space using a variety of pathways.	a. Replicate body shapes, movement characteristics , and movement patterns in a dance sequence with awareness of body alignment and core support.	a. Demonstrate fundamental dance skills (for example, alignment , coordination, balance, core support, kinesthetic awareness) and movement qualities when replicating and recalling patterns and sequences of locomotor and nonlocomotor movements.	a. Recall and execute a series of dance phrases using fundamental dance skills (for example, alignment , coordination, balance, core support, kinesthetic awareness , clarity of movement) to accurately execute changes of direction, levels, facings, pathways, elevations and landings, extensions of limbs, and movement transitions.	a. Embody technical dance skills (for example, alignment , coordination, balance, core support, kinesthetic awareness , clarity of movement) to accommodate physical maturational development to technical dance skills (for example, functional alignment , coordination, balance, core support, kinesthetic awareness , clarity of movement, weight shifts, flexibility/range of motion).	a. Apply body-use strategies to accommodate physical maturational development to technical dance skills (for example, functional alignment , coordination, balance, core support, kinesthetic awareness , clarity of movement, weight shifts, flexibility/range of motion) to replicate, recall, and execute spatial designs and musical or rhythmical dance phrases.	a. Embody technical dance skills (for example, functional alignment , coordination, balance, core support, clarity of movement, weight shifts, flexibility/range of motion) to retain and execute dance choreography.	a. Dance with sensibility toward other dancers while executing complex spatial, rhythmic and dynamic sequences to meet performance goals.	a. Apply body-mind principles to technical dance skills in complex choreography when performing solo, partnering, or dancing in ensemble works in a variety of dance genres and styles . Self-evaluate performances and discuss and analyze performance ability with others.			Embodiment
	b. Move safely in general space and start and stop on cue during activities, group formations, and creative explorations while maintaining personal space .	b. Move safely in general space through a range of activities and group formations while maintaining personal space .	b. Move safely in a variety of spatial relationships and formations with other dancers, sharing and maintaining personal space .	b. Adjust body-use to coordinate with a partner or other dancers to safely change levels, directions, and pathway designs.	b. Execute techniques that extend movement range, build strength, and develop endurance. Explain the relationship between execution of technique, safe body-use, and healthful nutrition.	b. Demonstrate safe body-use practices during technical exercises and movement combinations. Discuss how these practices, along with healthful eating habits, promote strength, flexibility, endurance and injury prevention.	b. Apply basic anatomical knowledge, proprioceptive feedback, spatial awareness, and nutrition to promote safe and healthful strategies when warming up and dancing.	b. Utilize healthful practices and sound nutrition in dance activities and everyday life. Discuss benefits of practices and how choices enhance performance.	b. Evaluate personal healthful practices in dance activities and everyday life including nutrition and injury prevention. Discuss choices made, the effects experienced, and methods for improvement.	b. Develop a plan for healthful practices in dance activities and everyday life including nutrition and injury prevention. Discuss implementation of the plan and how it supports personal performance goals.	b. Apply anatomical principles and healthful practices to a range of technical dance skills for achieving fluency of movement. Follow a personal nutrition plan that supports health for everyday life.	b. Research healthful and safe practices for dancers and modify personal practice based on findings. Discuss how-research informs practice.		

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

	c. Move body parts in relation to other body parts and repeat and recall movements upon request.	c. Modify movements and spatial arrangements upon request.	c. Repeat movements, with an awareness of self and others in space. Self-adjust and modify movements or placement upon request.	c. Recall movement sequences with a partner or in group dance activities. Apply constructive feedback from teacher and self-check to improve dance skills	c. Coordinate phrases and timing with other dancers by cueing off each other and responding to stimuli (for example, music, text, or lighting). Reflect on feedback from others to inform personal dance performance goals.	c. Collaborate with peer ensemble members to repeat sequences, synchronize actions, and refine spatial relationships to improve performance quality. Apply feedback from others to establish personal performance goals.	c. Collaborate as an ensemble to refine dances by identifying what works and does not work in executing complex patterns, sequences, and formations. Solve movement problems to dances by testing options and finding good results. Document self-improvements over time	c. Collaborate with peers to practice and refine dances. Develop group performance expectations through observation and analyses (for example, view live or recorded professional dancers and collaboratively develop group performance expectations based on information gained from observations).	c. Collaborate with peers to discover strategies for achieving performance accuracy, clarity, and expressiveness. Articulate personal performance goals and practice to reach goals. Document personal improvement over time (for example, journaling, portfolio, or timeline).	c. Collaborate with peers to establish and implement a rehearsal plan to meet performance goals. Use a variety of strategies to analyze and evaluate performances of self and others (for example, use video recordings of practice to analyze the difference between the way movements look and how they feel to match performance with visual affect). Articulate performance goals and justify reasons for selecting particular practice strategies.	c. Plan and execute collaborative and independent practice and rehearsal processes with attention to technique and artistry informed by personal performance goals. Reflect on personal achievements.	c. Initiate, plan, and direct rehearsals with attention to technical details and fulfilling artistic expression. Use a range of rehearsal strategies to achieve performance excellence.

Present		a. Dance for and with others in a designated space.	a. Dance for others in a space where audience and performers occupy different areas.	a. Dance for and with others in a space where audience and performers occupy different areas.	a. Identify the main areas of a performance space using production terminology (for example, stage right, stage left, center stage, upstage, and downstage).	a. Consider how to establish a formal performance space from an informal setting (for example, gymnasium or grassy area).	a. Demonstrate the ability to adapt dance to alternative performance venues by modifying spacing and movements to the performance space.	a. Recognize needs and adapt movements to performance area. Use performance etiquette and performance practices during class, rehearsal and performance. Postperformance, accept notes from choreographer and make corrections as needed and apply to future performances.	a. Recommend changes to and adapt movements to performance area. Use performance etiquette and performance practices during class, rehearsal and performance. Maintain journal documenting these efforts. Postperformance, accept notes from choreographer and apply corrections to future performances.	a. Demonstrate leadership qualities (for example commitment, dependability, responsibility, and cooperation) when preparing for performances. Use performance etiquette and performance practices during class, rehearsal and performance. Document efforts and create a plan for ongoing improvements. Postperformance, accept notes from choreographer and apply corrections to future performances.	a. Demonstrate leadership qualities (for example commitment, dependability, responsibility, and cooperation) when preparing for performances. Demonstrate performance etiquette and performance practices during class, rehearsal and performance. Postperformance, accept notes from choreographer and apply corrections to future performances. Document the rehearsal and performance process and evaluate methods and strategies using dance terminology and production terminology .	a. • Demonstrate leadership qualities (for example commitment, dependability, responsibility, and cooperation) when preparing for performances. Model performance etiquette and performance practices during class, rehearsal and performance. Implement performance strategies to enhance projection. Postperformance, accept notes from choreographer and apply corrections to future performances. Document the rehearsal and performance process and evaluate methods and strategies using dance terminology and production terminology .	a. Demonstrate leadership qualities (for example commitment, dependability, responsibility, and cooperation) when preparing for performances. Model performance etiquette and performance practices during class, rehearsal and performance. Enhance performance using a broad repertoire of strategies for dynamic projection. Develop a professional portfolio (resume, head shot, etc.) that documents the rehearsal and performance process with fluency in professional dance terminology and production terminology .	Present
		b. Select a prop to use as part of a dance.	b. Explore the use of simple props to enhance performance.	b. Use limited production elements (for example, hand props, simple scenery, or media projections).	b. Explore simple production elements (costumes, props, music, scenery, lighting, or media) for a dance performed for an audience in a designated specific performance space.	b. Identify, explore, and experiment with a variety of production elements to heighten the artistic intent and audience experience.	b. Identify, explore, and select production elements that heighten and intensify the artistic intent of a dance and are adaptable for various performance spaces.	b. Compare and contrast a variety of possible production elements that would intensify and heighten the artistic intent of the work. Select choices and explain reasons for the decisions made using production terminology .	b. Explore possibilities of producing dance in a variety of venues or for different audiences and, using production terminology , explain how the production elements would be handled in different situations.	b. Collaborate to design and execute production elements that would intensify and heighten the artistic intent of a dance performed on a stage, in a different venue, or for different audiences. Explain reasons for choices using production terminology .	b. Evaluate possible designs for the production elements of a performance and select and execute the ideas that would intensify and heighten the artistic intent of the dances.	terminology . b. Work collaboratively to produce a dance concert on a stage or in an alternative performance venue and plan the production elements that would be necessary to fulfill the artistic intent of the dance works.	b. Work collaboratively to produce dance concerts in a variety of venues and design and organize the production elements that would be necessary to fulfill the artistic intent of the dance works in each of the venues.

Dance													
Connecting	Anchor Standard 10: Synthesize and relate knowledge and personal experiences to make art. Enduring Understanding: As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning. Essential Question(s): How does dance deepen our understanding of ourselves, other knowledge, and events around us?												Connecting
	Kindergarten DA:Cn10.1.K	1st DA:Cn10.1.1	2nd DA:Cn10.1.2	3rd DA:Cn10.1.3	4th DA:Cn10.1.4	5th DA:Cn10.1.5	6th DA:Cn10.1.6	7th DA:Cn10.1.7	8th DA:Cn10.1.8	HS Proficient DA:Cn10.1.I	HS Accomplished DA:Cn10.1.II	HS Advanced DA:Cn10.1.III	
Synthesize	<p>a. Recognize and name an emotion that is experienced when watching, improvising, or performing dance and relate it to a personal experience.</p>	<p>a. Find an experience expressed or portrayed in a dance that relates to a familiar experience. Identify the movements that communicate this experience.</p>	<p>a. Describe, create, and/or perform a dance that expresses personal meaning and explain how certain movements express this personal meaning.</p>	<p>a. Compare the relationships expressed in a dance to relationships with others. Explain how they are the same or different.</p>	<p>a. Relate the main idea or content in a dance to other experiences. Explain how the main idea of a dance is similar to or different from one's own experiences, relationships, ideas or perspectives.</p>	<p>a. Compare two dances with contrasting themes. Discuss feelings and ideas evoked by each. Describe how the themes and movements relate to points of view and experiences.</p>	<p>a. Observe the movement characteristics or qualities observed in a specific dance genre. Describe differences and similarities about what was observed to one's attitudes and movement preferences.</p>	<p>a. Compare and contrast the movement characteristics or qualities found in a variety of dance genres. Discuss how the movement characteristics or qualities differ from one's own movement characteristics or qualities and how different perspectives are communicated.</p>	<p>a. Relate connections found between different dances and discuss the relevance of the connections to the development of one's personal perspectives.</p>	<p>a. Analyze a dance to determine the ideas expressed by the choreographer. Explain how the perspectives expressed by the choreographer may impact one's own interpretation. Provide evidence to support one's analysis.</p>	<p>a. Analyze a dance that is related to content learned in other subjects and research its context. Synthesize information learned and share new ideas about its impact on one's perspective.</p>	<p>a. Review original choreography developed over time with respect to its content and context and its relationship to personal perspectives. Reflect on and analyze the variables that contributed to changes in one's personal growth.</p>	Synthesize
	<p>b. Observe a work of visual art. Describe and then express through movement something of interest about the artwork, and ask questions for discussion concerning the artwork.</p>	<p>b. Observe illustrations from a story. Discuss observations and identify ideas for dance movement and demonstrate the big ideas of the story.</p>	<p>b. Respond to a dance work using an inquiry-based set of questions (for example, See, Think, Wonder). Create movement using ideas from responses and explain how certain movements express a specific idea.</p>	<p>b. Ask and research a question about a key aspect of a dance that communicates a perspective about an issue or event. Explore the key aspect through movement. Share movements and describe how the movements help to remember or discover new qualities in these key aspects. Communicate the new learning in oral, written, or movement form.</p>	<p>b. Develop and research a question relating to a topic of study in school using multiple sources of references. Select key aspects about the topic and choreograph movements that communicate the information. Discuss what was learned from creating the dance and describe how the topic might be communicated using another form of expression.</p>	<p>b. Choose a topic, concept, or content from another discipline of study and research how other art forms have expressed the topic. Create a dance study that expresses the idea. Explain how the dance study expressed the idea and discuss how this learning process is similar to, or different from, other learning situations.</p>	<p>b. Conduct research using a variety of resources to find information about a social issue of great interest. Use the information to create a dance study that expresses a specific point of view on the topic. Discuss whether the experience of creating and sharing the dance reinforces personal views or offers new knowledge and perspectives.</p>	<p>b. Research the historical development of a dance genre or style. Use knowledge gained from the research to create a dance study that evokes the essence of the style or genre. Share the study with peers as part of a lecture demonstration that tells the story of the historical journey of the chosen genre or style. Document the process of research and application.</p>	<p>b. Investigate two contrasting topics using a variety of research methods. Identify and organize ideas to create representative movement phrases. Create a dance study exploring the contrasting ideas. Discuss how the research informed the choreographic process and deepens understanding of the topics.</p>	<p>b. Collaboratively identify a dance related question or problem. Conduct research through interview, research database, text, media, or movement. Analyze and apply information gathered by creating a group dance that answers the question posed. Discuss how the dance communicates new perspectives or realizations. Compare orally and in writing the process used in choreography to that of other creative, academic, or scientific procedures.</p>	<p>b. Use established research methods and techniques to investigate a topic. Collaborate with others to identify questions and solve problems that pertain to the topic. Create and perform a piece of choreography. Discuss orally or in writing the insights relating to knowledge gained through the research process, the synergy of collaboration, and the transfer of learning from this project to other learning situations.</p>	<p>b. Investigate various dance related careers through a variety of research methods and techniques. Select those careers of most interest. Develop and implement a Capstone Project that reflects a possible career choice.</p>

Idaho State Interdisciplinary Humanities Standards

Grades 9-12

Definition	The Interdisciplinary Humanities course is a pathway for learners to discover and understand the human experience through a balanced and integrated combination of the arts and/or humanities with inclusion of two or more of the following content areas: architecture, philosophy, literature, world religions, visual and media arts, music, dance, theater, history and world languages.
Purpose	In order to prepare students both to appreciate and apply the role of the arts and humanities in critical thinking and creative problem solving, an interdisciplinary humanities course will explore the human experience through the analysis and interpretation of themes, issues, and/or movements. The Interdisciplinary Humanities course will encourage students to become lifelong explorers who discover their connectedness to the records of lived experiences outside of their own individual social and cultural context. Through the creation/interpretation/communication of an original work and through the performance/presentation/production of that work, students are able to gain new perspectives.
Design	The Interdisciplinary Humanities course should provide a well-rounded, thematic hands-on experience. The course is intended to integrate content from two or more arts and humanities disciplines. This course must be built upon the following five anchor standards: connect and compare, respond, create, present, and reflect. The standards for the Interdisciplinary Humanities course do not provide discipline content; the content should be derived from the selected disciplines.

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

STANDARDS

ANCHOR STANDARD 1	
Connect and Compare	<p>Anchor Standard 1: Connect and compare ideas, diverse cultures, and events through two or more disciplines.</p> <p>Enduring Understanding: Sources of inspiration are transformed into works that express the human experience.</p> <p>Essential Question(s): What inspires people or cultures to create? What connections and comparisons between ideas, cultures, and events can be made? What is the relationship of a work to its time/culture?</p>
Goal CC1	Understand the interdisciplinary relationships of ideas, cultures, and events.
Objective CC1.1	Develop a working vocabulary for the disciplines of study.
Objective CC1.2	Identify and articulate how a work expresses the human experience.
Goal CC2	Identify the relationship between two or more works/disciplines and how the historical contexts of ideas, cultures, and events are represented.
Objective CC2.1	Identify, in context, events and people influential in the development of historical events, movements, themes, and cultures.
Objective CC2.2	Explain how an artifact or work symbolizes and reflects a particular culture, event, theme, movement, or time period.
Goal CC3	Understand how the human experience is represented through the arts and humanities
Objective CC3.1	Identify the ways in which the structure of an art or discipline mirrors or portrays the values of society.
Objective CC3.2	Evaluate original works and how they represent a historical event, theme, movement, and/or culture.

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

ANCHOR STANDARD 2

Respond	<p>Anchor Standard 2: Respond to universal themes, issues, and/or movements that express the human experience.</p> <p>Enduring Understanding: Human experience repeats itself.</p> <p>Essential Questions(s): How do themes, issues, and/or movements shape the human experience? How do we learn from the human experience?</p>	
Goal RES1	Conduct analyses in the arts and humanities disciplines.	
	Objective RES1.1	Summarize how the human experience is expressed through the arts and humanities.
	Objective RES1.2	Interpret content knowledge from multiple perspectives and/or sources.
	Objective RES1.3	Discover how key themes, issues, and/or movements are conveyed through the arts and humanities.
ANCHOR STANDARD 3		
Create	<p>Anchor Standard 3: Create original works or unique interpretations that demonstrate knowledge of themes, issues, and/or movements that express the human experience.</p> <p>Enduring Understanding: Through the creative process, people make meaning by investigating and developing awareness of perceptions, knowledge, and experiences.</p> <p>Essential Question(s): How does creating enrich people’s lives? How do people contribute to awareness and understanding of their lives and the lives of their communities through the creative process? What role does persistence play in the creative process?</p>	
Goal CR1	Communicate in the arts and humanities disciplines through creative expression	
	Objective CR1.1	Express, through means other than expository writing, an understanding and appreciation of the arts and humanities.
	Objective CR1.2	Engage in collaborative learning to foster the creative process.
	Objective CR1.3	Create an original product that interprets and/or investigates themes, issues, and/or movements.
	Objective CR1.4	Revise, refine and develop an original work.

**STATE DEPARTMENT OF EDUCATION
AUGUST 13, 2015**

ANCHOR STANDARD 4

Present	<p>Anchor Standard 4: Convey meaning through the presentation/performance/production of an original work or unique interpretation of a work.</p> <p>Enduring Understanding: Connections between multiple disciplines are visible through the presentation/performance of original works.</p> <p>Essential Question(s): How does sharing original work deepen interdisciplinary understanding of ourselves and the human experience? How do we select the best method of performance/presentation/production to convey meaning?</p>	
Goal PR1	Perform/present/produce an original work or interpretation of a work for an audience.	
	Objective PR1.1	Combine knowledge and understanding from two or more disciplines to present/performance their original or interpreted works for an audience.
	Objective PR1.2	Convey meaning through their presentation/performance.
Goal PR2	Justify choices made in creating or interpreting a work.	
	Objective PR2.1	Apply knowledge and understanding from two or more disciplines to justify choices in the creation/interpretation of works.
	Objective PR2.2	Engage in constructive critique with peers.
ANCHOR STANDARD 5		
Reflect	<p>Anchor Standard 5: Reflect on the process of creating/interpreting/presenting a work.</p> <p>Enduring Understanding: Reflection on the creative process deepens understanding of the content and the creator.</p> <p>Essential Question(s): How is the quality of a performance/presentation/production determined? When does the creator know that a work is finished? How do the arts and humanities enhance and empower our lives?</p>	
Goal REF1	Evaluate one's own work and the works of others as reflections of the themes, issues, and/or movements addressed in the course.	
	Objective REF1.1	Utilize and apply a set of aesthetic criteria in evaluating the quality of one's own work and works of others.
	Objective REF1.2	Respond to critique and criteria to revise or justify one's own work.
Goal REF2	Reflect upon the potential of the arts and humanities to enhance and expand one's worldview.

AUGUST 13, 2015

Media Arts														
Creating	Anchor Standard 1: Generate and conceptualize artistic ideas and work. Enduring Understanding: Media arts ideas, works, and processes are shaped by the imagination, creative processes, and by experiences, both within and outside of the arts. Essential Question(s): How do media artists generate ideas? How can ideas for media arts productions be formed and developed to be effective and original?													Creating
	Kindergarten (MA:Cr1.1.1)	1 st (MA:Cr1.1.2)	2 nd (MA:Cr1.1.3)	3 rd (MA:Cr1.1.4)	4 th (MA:Cr1.1.5)	5 th (MA:Cr1.1.6)	6 th (MA:Cr1.1.7)	7 th (MA:Cr1.1.8)	8 th (MA:Cr1.1.I)	HS Proficient (MA:Cr1.1.II)	HS Accomplished (MA:Cr1.1.III)	HS Advanced		
Conceive	Discover and share ideas for media artworks using play and experimentation.	Express and share ideas for media artworks through sketching and modeling.	Discover multiple ideas for media artworks through brainstorming and improvising.	Develop multiple ideas for media artworks using a variety of tools, methods and/or materials.	Conceive of original artistic goals for media artworks using a variety of creative methods, such as brainstorming and modeling.	Envision original ideas and innovations for media artworks using personal experiences and/or the work of others.	Formulate variations of goals and solutions for media artworks by practicing chosen creative processes, such as sketching, improvising and brainstorming.	Produce a variety of ideas and solutions for media artworks through application of chosen inventive processes, such as concept modeling and prototyping.	Generate ideas, goals, and solutions for original media artworks through application of focused creative processes, such as divergent thinking and experimenting.	Use identified generative methods to formulate multiple ideas, develop artistic goals, and problem solve in media arts creation processes.	Strategically utilize generative methods to formulate multiple ideas, refine artistic goals, and increase the originality of approaches in media arts creation processes.	Integrate aesthetic principles with a variety of generative methods to fluently form original ideas, solutions, and innovations in media arts creation processes.	Conceive	
Creating	Anchor Standard 2: Organize and develop artistic ideas and work. Enduring Understanding: Media artists plan, organize, and develop creative ideas, plans, and models into process structures that can effectively realize the artistic idea. Essential Question(s): How do media artists organize and develop ideas and models into process structures to achieve the desired end product?													Creating
	Kindergarten (MA:Cr2.1.K)	1 st (MA:Cr2.1.1)	2 nd (MA:Cr2.1.2)	3 rd (MA:Cr2.1.3)	4 th (MA:Cr2.1.4)	5 th (MA:Cr2.1.5)	6 th (MA:Cr2.1.6)	7 th (MA:Cr2.1.7)	8 th (MA:Cr2.1.8)	HS Proficient (MA:Cr2.1.I)	HS Accomplished (MA:Cr2.1.II)	HS Advanced (MA:Cr2.1.III)		
Develop	With guidance, use ideas to form plans or models for media arts productions.	With guidance, use identified ideas to form plans and models for media arts productions.	Choose ideas to create plans and models for media arts productions.	Form, share, and test ideas, plans, and models to prepare for media arts productions.	Discuss, test, and assemble ideas, plans, and models for media arts productions, considering the artistic goals and the presentation.	Develop, present, and test ideas, plans, models, and proposals for media arts productions, considering the artistic goals and audience.	Organize, propose, and evaluate artistic ideas, plans, prototypes, and production processes for media arts productions, considering purposeful intent.	Design, propose, and evaluate artistic ideas, plans, prototypes, and production processes for media arts productions, considering expressive intent and resources.	Structure and critique ideas, plans, prototypes, and production processes for media arts productions, considering intent, resources, and the presentation context.	Apply aesthetic criteria in developing, proposing, and refining artistic ideas, plans, prototypes, and production processes for media arts productions, considering original inspirations, goals, and presentation context.	Apply a personal aesthetic in designing, testing, and refining original artistic ideas, prototypes, and production strategies for media arts productions, considering artistic intentions, constraints of resources, and presentation context.	Integrate a sophisticated personal aesthetic and knowledge of systems processes in forming, testing, and proposing original artistic ideas, prototypes, and production frameworks, considering complex constraints of goals, time, resources, and personal limitations.	Develop

Creating	Anchor Standard 3: Refine and complete artistic work. Enduring Understanding: The forming, integration, and refinement of aesthetic components, principles, and processes creates purpose, meaning, and artistic quality in media artworks. Essential Question(s): What is required to produce a media artwork that conveys purpose, meaning, and artistic quality? How do media artists improve/refine their work?												Creating
	Kindergarten (MA:Cr3.1.K)	1 st (MA:Cr3.1.1)	2 nd (MA:Cr3.1.2)	3 rd (MA:Cr3.1.3)	4 th (MA:Cr3.1.4)	5 th (MA:Cr3.1.5)	6 th (MA:Cr3.1.6)	7 th (MA:Cr3.1.7)	8 th (MA:Cr3.1.8)	HS Proficient (MA:Cr3.1.I)	HS Accomplished (MA:Cr3.1.II)	HS Advanced (MA:Cr3.1.III)	
Construct	a. Form and capture media arts content for expression and meaning in media arts productions.	a. Create, capture, and assemble media arts content for productions, identifying basic principles, such as pattern and repetition.	a. Construct and assemble content for unified media arts productions, identifying and applying basic principles, such as positioning and attention .	a. Construct and order various content into unified, purposeful media arts productions, describing and applying a defined set of principles, such as movement and force .	a. Structure and arrange various content and components to convey purpose and meaning in different media arts productions, applying sets of associated principles, such as balance and contrast .	a. Create content and combine components to convey expression, purpose, and meaning in a variety of media arts productions, utilizing sets of associated principles, such as emphasis and exaggeration .	a. Experiment with multiple approaches to produce content and components for determined purpose and meaning in media arts productions, utilizing a range of associated principles, such as point of view and perspective .	a. Coordinate production processes to integrate content and components for determined purpose and meaning in media arts productions, demonstrating understanding of associated principles, such as narrative structures and composition .	a. Implement production processes to integrate content and stylistic conventions for determined meaning in media arts productions, demonstrating understanding of associated principles, such as theme and unity.	a. Consolidate production processes to demonstrate deliberate choices in organizing and integrating content and stylistic conventions in media arts productions, demonstrating understanding of associated principles, such as emphasis and tone .	a. Consolidate production processes to demonstrate deliberate choices in organizing and integrating content and stylistic conventions in media arts production, demonstrating understanding of associated principles, such as continuity and juxtaposition .	a. Synthesize content, processes, and components to express compelling purpose, story, emotion, or ideas in complex media arts productions, demonstrating mastery of associated principles, such as hybridization .	Construct
	b. Make changes to the content, form, or presentation of media artworks and share results.	b. Practice and identify the effects of making changes to the content, form, or presentation, in order to refine and finish media artworks.	b. Test and describe expressive effects in altering, refining, and completing media artworks.	b. Practice and analyze how the emphasis of elements alters effect and purpose in refining and completing media artworks.	b. Demonstrate intentional effect in refining media artworks, emphasizing elements for a purpose.	b. Determine how elements and components can be altered for clear communication and intentional effects, and refine media artworks to improve clarity and purpose.	b. Appraise how elements and components can be altered for intentional effects and audience, and refine media artworks to reflect purpose and audience.	b. Improve and refine media artworks by intentionally emphasizing particular expressive elements to reflect an understanding of purpose, audience, or place.	b. Refine and modify media artworks, improving technical quality and intentionally accentuating selected expressive and stylistic elements, to reflect an understanding of purpose, audience, and place.	b. Refine and modify media artworks, honing aesthetic quality and intentionally accentuating stylistic elements, to reflect an understanding of personal goals and preferences.	b. Refine and elaborate aesthetic elements and technical components to intentionally form impactful expressions in media artworks for specific purposes, intentions, audiences and contexts.	b. Intentionally and consistently refine and elaborate elements and components to form impactful expressions in media artworks, directed at specific purposes, audiences, and contexts.	

Media Arts													
Producing	Anchor Standard 4: Select, analyze, and interpret artistic work for presentation. Enduring Understanding: Media artists integrate various forms and contents to develop complex, unified artworks. Essential Question(s): How are complex media arts experiences constructed?												Producing

Producing	Anchor Standard 5: Develop and refine artistic techniques and work for presentation. Enduring Understanding: Media artists require a range of skills and abilities to creatively solve problems within and through media arts productions. Essential Question(s): What skills are required for creating effective media artworks and how are they improved? How are creativity and innovation developed within and through media arts productions? How do media artists use various tools and techniques?												Producing
	Kindergarten (MA:Pr5.1.K)	1 st (MA:Pr5.1.1)	2 nd (MA:Pr5.1.2)	3 rd (MA:Pr5.1.3)	4 th (MA:Pr5.1.4)	5 th (MA:Pr5.1.5)	6 th (MA:Pr5.1.6)	7 th (MA:Pr5.1.7)	8 th (MA:Pr5.1.8)	HS Proficient (MA:Pr5.1.I)	HS Accomplished (MA:Pr5.1.II)	HS Advanced (MA:Pr5.1.III)	
Practice	a. Identify and demonstrate basic skills, such as handling tools, making choices, and cooperating in creating media artworks.	a. Describe and demonstrate various artistic skills and roles, such as technical steps, planning, and collaborating in media arts productions.	a. Enact roles to demonstrate basic ability in various identified artistic, design, technical, and soft skills , such as tool use and collaboration in media arts productions.	a. Exhibit developing ability in a variety of artistic, design, technical, and organizational roles, such as making compositional decisions, manipulating tools, and group planning in media arts productions.	a. Enact identified roles to practice foundational artistic, design, technical, and soft skills , such as formal technique, equipment usage, production, and collaboration in media arts productions.	a. Enact various roles to practice fundamental ability in artistic, design, technical, and soft skills , such as formal technique, production, and collaboration in media arts productions.	a. Develop a variety of artistic, design, technical, and soft skills through performing various assigned roles in producing media artworks, such as invention, formal technique, production, selfinitiative, and problem-solving.	a. Exhibit an increasing set of artistic, design, technical, and soft skills through performing various roles in producing media artworks, such as creative problemsolving and organizing.	a. Demonstrate a defined range of artistic, design, technical, and soft skills , through performing specified roles in producing media artworks, such as strategizing and collaborative communication.	a. Demonstrate progression in artistic, design, technical, and soft skills , as a result of selecting and fulfilling specified roles in the production of a variety of media artworks.	a. Demonstrate effective command of artistic, design, technical and soft skills in managing and producing media artworks.	a. Employ mastered artistic, design, technical, and soft skills in managing and producing media artworks.	Practice
	b. Identify and demonstrate creative skills, such as performing, within media arts productions.	b. Describe and demonstrate basic creative skills within media arts productions, such as varying techniques.	b. Demonstrate use of experimentation skills, such as playful practice, and trial and error, within and through media arts productions.	b. Exhibit basic creative skills to invent new content and solutions within and through media arts productions.	b. Practice foundational innovative abilities, such as design thinking , in addressing problems within and through media arts productions.	b. Practice fundamental creative and innovative abilities, such as expanding conventions , in addressing problems within and through media arts productions.	b. Develop a variety of creative and adaptive innovation abilities, such as testing constraints , in developing solutions within and through media arts productions.	b. Exhibit an increasing set of creative and adaptive innovation abilities, such as exploratory processes, in developing solutions within and through media arts productions.	b. Demonstrate a defined range of creative and adaptive innovation abilities, such as divergent solutions and bending conventions, in developing new solutions for identified problems within and through media arts productions.	b. Develop and refine a determined range of creative and adaptive innovation abilities, such as design thinking , and risk taking, in addressing identified challenges and constraints within and through media arts productions.	b. Demonstrate effective ability in creative and adaptive innovation abilities, such as resisting closure , and responsive use of failure , to address sophisticated challenges within and through media arts productions.	b. Fluently employ mastered creative and innovative adaptability in formulating lines of inquiry and solutions, to address complex challenges within and through media arts productions.	
	c. Practice, discover, and share how media arts creation tools work.	c. Experiment with and share different ways to use tools and techniques to construct media artworks.	c. Demonstrate and explore identified methods to use tools to capture and form media artworks.	c. Exhibit standard use of tools and techniques while constructing media artworks.	c. Demonstrate use of tools and techniques in standard and novel ways while constructing media artworks.	c. Examine how tools and techniques could be used in standard and experimental ways in constructing media artworks.	c. Demonstrate adaptability using tools and techniques in standard and experimental ways in constructing media artworks.	c. Demonstrate adaptability using tools and techniques in standard and experimental ways to achieve an assigned purpose in constructing media artworks.	c. Demonstrate adaptability using tools, techniques and content in standard and experimental ways to communicate intent in the production of media artworks.	c. Demonstrate adaptation and innovation through the combination of tools, techniques and content, in standard and innovative ways, to communicate intent in the production of media	c. Demonstrate the skillful adaptation and combination of tools, styles, techniques, and interactivity to achieve specific expressive goals in the production of a variety of media	c. Independently utilize and adapt tools, styles, and systems in standard, innovative, and experimental ways in the production of complex media artworks.	

Media Arts												
Responding	Anchor Standard 7: Perceive and analyze artistic work											Responding
	Enduring Understanding: Identifying the qualities and characteristics of media artworks improves one's artistic appreciation and production.											
Essential Question(s): How do we 'read' media artworks and discern their relational components? How do media artworks function to convey meaning and manage audience experience?												
	Kindergarten (MA:Re7.1.K)	1 st (MA:Re7.1.1)	2 nd (MA:Re7.1.2)	3 rd (MA:Re7.1.3)	4 th (MA:Re7.1.4)	5 th (MA:Re7.1.5)	6 th (MA:Re7.1.6)	7 th (MA:Re7.1.7)	8 th (MA:Re7.1.8)	HS Proficient (MA:Re7.1.I)	HS Accomplished (MA:Re7.1.II)	HS Advanced (MA:Re7.1.III)
Perceive	a. Recognize and share components and messages in media artworks.	a. Identify components and messages in media artworks.	a. Identify and describe the components and messages in media artworks.	a. Identify and describe how messages are created by components in media artworks.	a. Identify, describe, and explain how messages are created by components in media artworks.	a. Identify, describe, and differentiate how message and meaning are created by components in media artworks.	a. Identify, describe, and analyze how message and meaning are created by components in media artworks.	a. Describe, compare, and analyze the qualities of and relationships between the components in media artworks.	a. Compare, contrast, and analyze the qualities of and relationships between the components and style in media artworks.	a. Analyze the qualities of and relationships between the components , style, and preferences communicated by media artworks and artists.	a. Analyze and synthesize the qualities and relationships of the components in a variety of media artworks, and feedback on how they impact audience.	a. Analyze and synthesize the qualities and relationships of the components and audience impact in a variety media artworks.
	b. Recognize and share how a variety of media artworks create different experiences.	b. With guidance, identify how a variety of media artworks create different experiences.	b. Identify and describe how a variety of media artworks create different experiences.	b. Identify and describe how various forms, methods, and styles in media artworks manage audience experience .	b. Identify, describe, and explain how various forms, methods, and styles in media artworks manage audience experience .	b. Identify, describe, and differentiate how various forms, methods, and styles in media artworks manage audience experience .	b. Identify, describe, and analyze how various forms, methods, and styles in media artworks manage audience experience .	b. Describe, compare, and analyze how various forms, methods, and styles in media artworks interact with personal preferences in influencing audience experience.	b. Compare, contrast, and analyze how various forms, methods, and styles in media artworks manage audience experience and create intention.	b. Analyze how a variety of media artworks manage audience experience and create intention through multimodal perception .	b. Analyze how a broad range of media artworks manage audience experience , create intention and persuasion through multimodal perception .	b. Survey an exemplary range of media artworks, analyzing methods for managing audience experience , creating intention and persuasion through multimodal perception , and systemic communications .

Music - Composition and/or Theory Strand

Creating	Anchor Standard 1: Generate and conceptualize artistic ideas and work. Enduring Understanding: The creative ideas, concepts, and feelings that influence musicians' work emerge from a variety of sources. Essential Question(s): How do musicians generate creative ideas?			Creating
	Proficient	Accomplished	Advanced	
Imagine	MU:Cr1.1.C.Ia Describe how sounds and short musical ideas can be used to represent personal experiences, moods , visual images, and/or storylines .	MU:Cr1.1.C.IIa Describe <i>and demonstrate</i> how sounds and musical ideas can be used to represent sonic events , <i>memories</i> , visual images, <i>concepts</i> , <i>texts</i> , or storylines .	MU:Cr1.1.C.IIIa Describe and demonstrate <i>multiple ways in which</i> sounds and musical ideas can be used to represent <i>extended sonic experiences</i> or <i>abstract ideas</i> .	Imagine
Creating	Anchor Standard 2: Organize and develop artistic ideas and work. Enduring Understanding: Musicians' creative choices are influenced by their expertise, context, and expressive intent. Essential Question(s): How do musicians make creative decisions?			Creating
	Proficient	Accomplished	Advanced	
Plan & Make	MU:Cr2.1.C.Ia Assemble and organize sounds or short musical ideas to create initial expressions of selected experiences, moods , images, or storylines .	MU:Cr2.1.C.IIa Assemble and organize multiple sounds or musical ideas to create initial expressive statements of selected sonic events , <i>memories</i> , images, <i>concepts</i> , <i>texts</i> , or storylines .	MU:Cr2.1.C.IIIa Assemble and organize multiple sounds or extended musical ideas to create initial expressive statements of selected <i>extended sonic experiences</i> or <i>abstract ideas</i> .	Plan & Make
	MU:Cr2.1.C.Ib Identify and describe the development of sounds or short musical ideas in drafts of music within simple forms (such as onepart , cyclical , or binary).	MU:Cr2.1.C.IIb Describe and explain the development of sounds and musical ideas in drafts of music within a variety of simple or moderately complex forms (such as binary , rondo , or ternary).	MU:Cr2.1.C.IIIb Analyze and demonstrate the development of sounds and extended musical ideas in drafts of music within a <i>variety of moderately complex</i> or <i>complex forms</i> .	
Creating	Anchor Standard 3: Refine and complete artistic work. Enduring Understanding: Musicians evaluate, and refine their work through openness to new ideas, persistence, and the application of appropriate criteria. Essential Question(s): How do musicians improve the quality of their creative work?			Creating
	Proficient	Accomplished	Advanced	
Evaluate & Refine	MU:Cr3.1.C.Ia Identify, describe, and apply teacherprovided criteria to assess and refine the technical and expressive aspects of evolving drafts leading to final versions.	MU:Cr3.1.C.IIa Identify, describe, and apply <i>selected teacher-provided</i> or <i>personally-developed criteria</i> to assess and refine the technical and expressive aspects of evolving drafts leading to final versions.	MU:Cr3.1.C.IIIa <i>Research</i> , identify, <i>explain</i> , and apply personally-developed criteria to assess and refine the technical and expressive aspects of evolving drafts leading to final versions.	Evaluate & Refine
Creating	Enduring Understanding: Musicians' presentation of creative work is the culmination of a process of creation and communication Essential Question(s): When is creative work ready to share?			Creating
	Proficient	Accomplished	Advanced	
Present	MU:Cr3.2.C.Ia Share music through the use of notation, performance , or technology, and demonstrate how the elements of music have been employed to realize expressive intent .	MU:Cr3.2.C.IIa Share music through the use of notation, <i>solo or group performance</i> , or technology, and demonstrate and <i>describe</i> how the elements of music and compositional techniques have been employed to realize expressive intent .	MU:Cr3.2.C.IIIa Share music through the use of notation, solo or group performance , or technology, and demonstrate <i>and explain</i> how the elements of music , compositional techniques and <i>processes</i> have been employed to realize expressive intent .	Present
	MU:Cr3.2.C.Ib Describe the given context and performance medium for presenting personal works, and how they impact the final composition and presentation.	MU:Cr3.2.C.IIb Describe the <i>selected contexts</i> and performance mediums for presenting personal works, and <i>explain why</i> they <i>successfully</i> impact the final composition and presentation.	MU:Cr3.2.C.IIIb Describe a <i>variety of possible contexts</i> and <i>mediums</i> for presenting personal works, and <i>explain and compare how each could impact the success of</i> the final composition and presentation.

Music - Composition and/or Theory Strand				
Performing	Anchor Standard 4: Select, analyze, and interpret artistic work for presentation. Enduring Understanding: Performers' interest in and knowledge of musical works, understanding of their own technical skill, and the context for a performance influence the selection of repertoire. Essential Question(s): How do performers select repertoire?			Performing
	Proficient	Accomplished	Advanced	
Select	MU:Pr4.1.C.Ia Identify and select specific excerpts, passages, or sections in musical works that express a personal experience, mood , visual image, or storyline in simple forms (such as one-part, cyclical, binary).	MU:Pr4.1.C.IIa Identify and select specific passages, sections, or movements in musical works that express personal experiences and interests, moods , visual images, concepts, texts, or storylines in simple forms (such as binary, ternary, rondo) or moderately complex forms .	MU:Pr4.1.C.IIIa Identify and select specific sections, movements, or entire works that express personal experiences and interests, moods , visual images, concepts, texts, or storylines in moderately complex or complex forms .	Select
Performing	Enduring Understanding: Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance. Essential Question(s): How does understanding the structure and context of musical works inform performance?			Performing
	Proficient	Accomplished	Advanced	
Analyze	MU:Pr4.2.C.Ia Analyze how the elements of music (including form) of selected works relate to style and mood , and explain the implications for rehearsal or performance .	MU:Pr4.2.C.IIa Analyze how the elements of music (including form) of selected works relate to the style, function, and context , and explain the implications for rehearsal and performance .	MU:Pr4.2.C.IIIa Analyze how the elements of music (including form), and compositional techniques of selected works relate to the style, function, and context , and explain and support the analysis and its implications for rehearsal and performance .	Analyze
Performing	Enduring Understanding: Performers make interpretive decisions based on their understanding of context and expressive intent. Essential Question(s): How do performers interpret musical works?			Performing
	Proficient	Accomplished	Advanced	
Interpret	MU:Pr4.3.C.Ia Develop interpretations of works based on an understanding of the use of elements of music, style, and mood , explaining how the interpretive choices reflect the creators' intent .	MU:Pr4.3.C.IIa Develop interpretations of works based on an understanding of the use of elements of music, style, mood, function, and context , explaining and supporting how the interpretive choices reflect the creators' intent .	MU:Pr4.3.C.IIIa Develop interpretations of works based on an understanding of the use of elements of music (including form), compositional techniques, style, function, and context , explaining and justifying how the interpretive choices reflect the creators' intent .	Interpret
Performing	Anchor Standard 5: Develop and refine artistic techniques and work for presentation. Enduring Understanding: To express their musical ideas, musicians analyze, evaluate, and refine their performance over time through openness to new ideas, persistence, and the application of appropriate criteria. Essential Question(s): How do musicians improve the quality of their performance?			Performing
	Proficient	Accomplished	Advanced	
Rehearse, Evaluate, and Refine	MU:Pr5.1.C.Ia Create rehearsal plans for works, identifying repetition and variation within the form .	MU:Pr5.1.C.IIa Create rehearsal plans for works, identifying the form , repetition and variation within the form, and the style and historical or cultural context of the work.	MU:Pr5.1.C.IIIa Create rehearsal plans for works, identifying the form , repetition and variation within the form, compositional techniques , and the style and historical or cultural context of the work.	Rehearse, Evaluate, and Refine
	MU:Pr5.1.C.Ib Using established criteria and feedback, identify the way(s) in which performances convey the elements of music, style, and mood .	MU:Pr5.1.C.IIb Using established criteria and feedback, identify the ways in which performances convey the formal design, style, and historical/cultural context of the works.	MU:Pr5.1.C.IIIb Using established criteria and feedback, identify the ways in which performances use compositional techniques and convey the formal design, style, and historical/cultural context of the works.	
	MU:Pr5.1.C.Ic Identify and implement strategies for improving the technical and expressive aspects of multiple works.	MU:Pr5.1.C.IIc Identify and implement strategies for improving the technical and expressive aspects of varied works.	MU:Pr5.1.C.IIIc Identify, compare , and implement strategies for improving the technical and expressive aspects of multiple contrasting works.	
Performing	Anchor Standard 6: Convey meaning through the presentation of artistic work. Enduring Understanding: Musicians judge performance based on criteria that vary across time, place, and cultures. The context and how a work is presented influence the audience response. Essential Question(s): When is a performance judged ready to present? How do context and the manner in which musical work is presented influence audience response?			Performing
	Proficient	Accomplished	Advanced	
Present	MU:Pr6.1.C.Ia Share live or recorded performances of works (both personal and others'), and explain how the elements of music are used to convey intent .	MU:Pr6.1.C.IIa Share live or recorded performances of works (both personal and others'), and explain how the elements of music and compositional techniques are used to convey intent .	MU:Pr6.1.C.IIIa Share live or recorded performances of works (both personal and others'), and explain and/or demonstrate understanding of how the expressive intent of the music is conveyed.	Present
	MU:Pr6.1.C.Ib Identify how compositions are appropriate for an audience or context , and how this will shape future compositions.	MU:Pr6.1.C.IIb Explain how compositions are appropriate for both audience and context , and how this will shape future compositions.	MU:Pr6.1.C.IIIb Explain how compositions are appropriate for a variety of audiences and contexts , and how this will shape future compositions.	

Music - Composition and/or Theory Strand

Music - Composition and/or Theory Strand				
Responding	<p>Anchor Standard 7: Perceive and analyze artistic work Enduring Understanding: Individuals' selection of musical works is influenced by their interests, experiences, understandings, and purposes. Essential Question(s): How do individuals choose music to experience?</p>			Responding
	Proficient	Accomplished	Advanced	
Select	<p>MU:Re7.1.C.Ia Apply teacher-provided criteria to select music that expresses a personal experience, mood, visual image, or storyline in simple forms (such as one-part, cyclical, binary), and describe the choices as models for composition.</p>	<p>MU:Re7.1.C.IIa Apply teacher-provided or personally-developed criteria to select music that expresses <i>personal experiences and interests</i>, moods, <i>visual images, concepts, texts</i>, or storylines in simple or moderately complex forms, and describe and <i>defend</i> the choices as models for composition.</p>	<p>MU:Re7.1.C.IIIa Apply <i>researched</i> or personally developed criteria to select music that expresses personal experiences and interests, visual images, concepts, texts, or storylines in moderately complex or complex forms, and describe and <i>justify</i> the choice as models for composition.</p>	Select
Responding	<p>Enduring Understanding: Response to music is informed by analyzing context (social, cultural, and historical) and how creators and performers manipulate the elements of music. Essential Question(s): How does understanding the structure and context of music inform a response?</p>			Responding
	Proficient	Accomplished	Advanced	
Analyze	<p>MU:Re7.2.C.Ia Analyze aurally the elements of music (including form) of musical works, relating them to style, mood, and context, and describe how the analysis provides models for personal growth as composer, performer, and/or listener.</p>	<p>MU:Re7.2.C.IIa Analyze aurally <i>and/or by reading the scores of musical works</i> the elements of music (including form), compositional techniques and procedures, relating them to style, mood, and context; and <i>explain</i> how the analysis provides models for personal growth as composer, performer, and/or listener.</p>	<p>MU:Re7.2.C.IIIa Analyze aurally and/or by reading the scores of musical works the elements of music (including form), compositional techniques and procedures, relating them to <i>aesthetic effectiveness</i>, style, mood, and context; and <i>explain</i> how the analysis provides models for personal growth as composer, performer, and/or listener.</p>	Analyze
Responding	<p>Anchor Standard 8: Interpret intent and meaning in artistic work. Enduring Understanding: Through their use of elements and structures of music, creators and performers provide clues to their expressive intent. Essential Question(s): How do we discern the musical creators' and performers' expressive intent?</p>			Responding
	Proficient	Accomplished	Advanced	
Interpret	<p>MU:Re8.1.C.Ia Develop and explain interpretations of varied works, demonstrating an understanding of the composers' intent by citing technical and expressive aspects as well as the style/genre of each work.</p>	<p>MU:Re8.1.C.IIa Develop and <i>support</i> interpretations of varied works, demonstrating an understanding of the composers' intent by citing <i>the use of elements of music</i> (including form), compositional techniques, and the style/genre and context of each work.</p>	<p>MU:Re8.1.C.IIIa Develop, <i>justify</i> and <i>defend</i> interpretations of varied works, demonstrating an understanding of the composers' intent by citing the use of elements of music (including form), compositional techniques, and the style/genre and context of each work.</p>	Interpret
Responding	<p>Anchor Standard 9: Apply criteria to evaluate artistic work. Enduring Understanding: The personal evaluation of musical work(s) and performance(s) is informed by analysis, interpretation, and established criteria. Essential Question(s): How do we judge the quality of musical work(s) and performance(s)?</p>			Responding
	Proficient	Accomplished	Advanced	
Evaluate	<p>MU:Re9.1.C.Ia Describe the effectiveness of the technical and expressive aspects of selected music and performances, demonstrating understanding of fundamentals of music theory.</p>	<p>MU:Re9.1.C.IIa <i>Explain</i> the effectiveness of the technical and expressive aspects of selected music and performances, demonstrating understanding of music theory as well as compositional techniques and procedures.</p>	<p>MU:Re9.1.C.IIIa Evaluate the effectiveness of the technical and expressive aspects of selected music and performances, demonstrating understanding of <i>theoretical concepts</i> and complex compositional techniques and procedures.</p>	Evaluate
	<p>MU:Re9.1.C.Ib Describe the way(s) in which critiquing others' work and receiving feedback from others can be applied in the personal creative process.</p>	<p>MU:Re9.1.C.IIb Describe ways in which critiquing others' work and receiving feedback from others <i>have been specifically</i> applied in the personal creative process.</p>	<p>MU:Re9.1.C.IIIb Describe <i>and evaluate</i> ways in which critiquing others' work and receiving feedback from others have been specifically applied in the personal creative process.</p>	

Music - Composition and/or Theory Strand				
Connecting	Anchor Standard 10: Synthesize and relate knowledge and personal experiences to make art. Enduring Understanding: Musicians connect their personal interests, experiences, ideas, and knowledge to creating, performing, and responding. Essential Question(s): How do musicians make meaningful connections to creating, performing, and responding?			Connecting
	Proficient MU:Cn10.0.C.Ia	Accomplished MU:Cn10.0.C.IIa	Advanced MU:Cn10.0.C.IIIa	
	Demonstrate how interests, knowledge, and skills relate to personal choices and intent when creating, performing, and responding to music.	Demonstrate how interests, knowledge, and skills relate to personal choices and intent when creating, performing, and responding to music.	Demonstrate how interests, knowledge, and skills relate to personal choices and intent when creating, performing, and responding to music.	
Connecting	Anchor Standard 11: Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding Enduring Understanding: Understanding connections to varied contexts and daily life enhances musicians' creating, performing, and responding. Essential Question(s): How do the other arts, other disciplines, contexts, and daily life inform creating, performing, and responding to music?			Connecting
	Proficient MU:Cn11.0.C.Ia	Accomplished MU:Cn11.0.C.IIa	Advanced MU:Cn11.0.C.IIIa	
	Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts, and daily life.	Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts, and daily life.	Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts, and daily life.

Music - Harmonizing Instruments Strand (e.g. Guitar, Keyboard)						
Creating	Anchor Standard 1: Generate and conceptualize artistic ideas and work. Enduring Understanding: The creative ideas, concepts, and feelings that influence musicians' work emerge from a variety of sources. Essential Question(s): How do musicians generate creative ideas?					Creating
	Novice	Intermediate	Proficient	Accomplished	Advanced	
Imagine	MU:Cr1.1.H.5a Generate melodic, rhythmic, and harmonic ideas for simple melodies (such as two- phrase) and chordal accompaniments for given melodies.	MU:Cr1.1.H.8a Generate melodic, rhythmic, and harmonic ideas for melodies (<i>created over specified chord progressions or AB / ABA forms</i>) and two-to-three-chord accompaniments for given melodies.	MU:Cr1.1.H.1a Generate melodic, rhythmic, and harmonic ideas for improvisations, compositions (<i>forms such as theme and variation or 12-bar blues</i>), and three-or-more-chord accompaniments in a variety of patterns (such as arpeggio, country and gallop strumming, finger picking patterns).	MU:Cr1.1.H.1a Generate melodic, rhythmic, and harmonic ideas for compositions (<i>forms such as rounded binary or rondo</i>), improvisations , accompaniment patterns in a variety of styles , and harmonizations for given melodies .	MU:Cr1.1.H.1a Generate melodic, rhythmic, and harmonic ideas for a collection of compositions (<i>representing a variety of forms and styles</i>), improvisations in several different styles, and stylistically appropriate harmonizations for given melodies .	Imagine
Creating	Anchor Standard 2: Organize and develop artistic ideas and work. Enduring Understanding: Musicians' creative choices are influenced by their expertise, context, and expressive intent. Essential Question(s): How do musicians make creative decisions?					Creating
	Novice	Intermediate	Proficient	Accomplished	Advanced	
Plan & Make	MU:Cr2.1.H.5a Select, develop, and use standard notation or audio/video recording to document melodic, rhythmic, and harmonic ideas for drafts of simple melodies (such as two- phrase) and chordal accompaniments for given melodies.	MU:Cr2.1.H.8a Select, develop, and use standard notation and audio/video recording to document melodic, rhythmic, and harmonic ideas for drafts of melodies (<i>created over specified chord progressions or AB / ABA forms</i>) and two-to-three-chord accompaniments for given melodies.	MU:Cr2.1.H.1a Select, develop, and use standard notation and audio/video recording to document melodic, rhythmic, and harmonic ideas for drafts of improvisations, compositions (<i>forms such as theme and variation or 12-bar blues</i>), and three-or-more-chord accompaniments in a variety of patterns (such as arpeggio, country and gallop strumming, finger picking patterns).	MU:Cr2.1.H.1a Select, develop, and use standard notation and audio/video recording to document melodic, rhythmic, and harmonic ideas for drafts of compositions (<i>forms such as rounded binary or rondo</i>), improvisations , accompaniment patterns in a variety of styles , and harmonizations for given melodies .	MU:Cr2.1.H.1a Select, develop, and use standard notation and audio/video recording to document melodic, rhythmic, and harmonic ideas for drafts of compositions (<i>representing a variety of forms and styles</i>), improvisations in several different styles, and stylistically appropriate harmonizations for given melodies .	Plan & Make
Creating	Anchor Standard 3: Refine and complete artistic work. Enduring Understanding: Musicians evaluate, and refine their work through openness to new ideas, persistence, and the application of appropriate criteria. Essential Question(s): How do musicians improve the quality of their creative work?					Creating
	Novice	Intermediate	Proficient	Accomplished	Advanced
