STATE BOARD OF EDUCATION MEETING
August 12-13, 2015
Idaho State University
1311 E Central Dr,
Meridian, Idaho

Wednesday, August 12, 2015, 1:00 p.m.

BOARDWORK
1. Agenda Review / Approval
2. Minutes Review / Approval
3. Rolling Calendar

OPEN FORUM

WORK SESSION
IRSA
A. Academic Five-year Plans

PPGA
B. Board Operations and Planning

Thursday, August 13, 2015, 8:00 a.m.

OPEN FORUM

CONSENT AGENDA
PPGA
1. President Approved Alcohol Permits
2. Accountability Oversight Committee Appointments

SDE
3. Adoption of Curricular Materials
4. Professional Standards Commission Appointment
5. Secondary School Accreditation Report
PLANNING, POLICY & GOVERNMENTAL
1. Idaho State University Annual Report
2. Presidents' Council Report
3. Division of Professional-Technical Education Annual Report
4. Governor's Task Force Recommendations Update
5. Idaho Business for Education – 60% Attainment Goal/Task Force Recommendations Implementation
6. Literacy Committee Report and Recommendations
7. Compulsory Attendance Report
8. Proposed Rule IDAPA 08.01.09, GEARUp Scholarship
9. Proposed Rule IDAPA 08.01.13, Opportunity Scholarship
10. Proposed Rule IDAPA 08.02.01, Continuous Improvement Plans
11. Proposed Rule IDAPA 08.02.02, Teacher Certification
12. Proposed Rule IDAPA 08.02.03, Graduation Requirements – Proficiency, Middle School Credits
13. Proposed Rule IDAPA 08.02.03, Advanced Opportunities
14. Proposed Rule IDAPA 08.02.05, Seed Certification
15. Proposed Rule IDAPA 47.01.01 Vocational Rehabilitation, Incorporation by Reference

INSTRUCTION, RESEARCH & STUDENT AFFAIRS
1. Amendment to Board Policy – Section III.G. – Postsecondary Program Approval and Discontinuance – First Reading
2. Amendment to Board Policy – Section III.P. – Students – First Reading
3. Amendment to Board Policy – Section III.U. - Telecommunications – Repeal – First Reading
4. Amendment to Board Policy – Section III.Z. – Planning and Coordination of Academic Programs and Courses – Second Reading
5. Direct Admissions
6. Boise State University – Online Master of Social Work
7. Idaho State University – Master of Science in Health Informatics

BUSINESS AFFAIRS & HUMAN RESOURCES
Section II – Finance
1. FY 2017 Line Items
2. FY 2017 Capital Budget Requests
3. Intercollegiate Athletic Reports – NCAA Academic Progress Rate (APR)
4. Amendment to Board Policy – Section V.K. – Construction Projects – Second Reading
5. Amendment to Board Policy – Section V.W. – Litigation – Second Reading
6. Boise State University – Residential Honors College and Additional Student Housing Project – Ground Lease and Operating Agreement with EDR Boise, LLC
7. Item Pulled
8. University of Idaho – Aquaculture Research Institute Facility Project – Financing Plan and Construction Phase
9. Lewis-Clark State College – Multi-Year Food Service Contract –

DEPARTMENT OF EDUCATION
1. Superintendents Update
2. Proposed Rule IDAPA 08.02.02.004, Rules Governing Uniformity - Incorporation by Reference – Standards for Initial Certification of Professional School Personnel
3. Proposed Rule IDAPA 08.02.02, Rules Governing Uniformity – Teacher Certification - Various
4. Temporary/Proposed Rule IDAPA 08.02.02.111, Rules Governing Uniformity - Bullying
5. Proposed Rule IDAPA 08.02.02.120-121, Rules Governing Uniformity – Local District Evaluation Policy
6. Proposed Rule IDAPA 08.02.03.004.01, Rules Governing Thoroughness – Incorporation by Reference – Content Standards – Humanities and Science
8. Temporary/Proposed Rule IDAPA 08.02.03.109, Rules Governing Thoroughness – Special Education
9. Proposed Rule IDAPA 08.02.03.128, Rules Governing Thoroughness – Curricular Materials Selection – Subject Areas
10. Temporary/Proposed Rule IDAPA 08.02.03, Rules Governing Thoroughness – Idaho English Language Assessment – various subsections
If auxiliary aids or services are needed for individuals with disabilities, or if you wish to speak during the Open Forum, please contact the Board office at 334-2270 no later than two days before the meeting. While the Board attempts to address items in the listed order, some items may be addressed by the Board prior to or after the order listed.
1. **Agenda Approval**

Changes or additions to the agenda

**BOARD ACTION**

I move to approve the agenda as posted

2. **Minutes Approval**

**BOARD ACTION**

I move to approve the minutes from the June 17-18, 2015 Regular Board Meeting, June 23, 2015 Special Board Meeting, and the July 31, 2015 Special Board Meeting as submitted.

3. **Rolling Calendar**

**BOARD ACTION**

I move to set August 10-11, 2016 as the date and Idaho State University as the location for the August 2016 regularly scheduled Board meeting.
A special meeting of the State Board of Education was held July 31, 2015 in the large conference room of the Office of the State Board of Education, Len B. Jordan Building, in Boise, Idaho. Board President Don Soltman presided and called the meeting to order at 3:00 pm Mountain Time. A roll call of members was taken.

Present:
Don Soltman, President
Emma Atchley, Vice President
Critchfield
Bill Goesling, Secretary
Sherri Ybarra, State Superintendent

Absent:
Richard Westerberg

STATE DEPARTMENT OF EDUCATION (Department)

1. ESEA Waiver Request

BOARD ACTION

M/S (Ybarra/Hill): To approve Idaho’s ESEA Flexibility Waiver with additions and deletions as noted. A roll call vote was taken and the motion carried unanimously 6-0.

Superintendent Ybarra introduced the item and provided some background for the Board members. She introduced Tim McMurray, Pete Kohler, and Marcia Beckman from her office who were on the team who worked on the Elementary and Secondary Education Act (ESEA) waiver and were present for discussion and any questions. Ms. Ybarra clarified that this is a one year waiver and discussed why the U.S. Department of Education is moving toward a one year waiver. The U.S. Department of Education wants more of a focus on on-going assessments. She pointed out some states leading...
the way in innovation include New Hampshire, Kentucky and Georgia, and states are moving toward mastery based educational systems. She indicated there is a placeholder in the waiver for a new accountability model which has not been thoroughly developed yet. The timeline is that a rough draft will be due to the Federal Government in January and the final version will be due in March; it will only be approved for one year at a time. Ms. Critchfield asked where Board review would fit into the timeline. Ms. Ybarra responded that the Department would present a rough draft to the Board at the December meeting. Mr. Soltman requested a final version to the Board by February. Ms. Ybarra acknowledged that request.

Ms. Ybarra clarified the three main concepts of the waiver are still the same which include pausing the accountability model until it is decided what will work best, removing the sanctions for not complying with AYP, and discontinuing the statewide instructional management system and returning it to the local district level. Accountability is still in place which includes identifying focus and priority schools and rewards schools.

OTHER BUSINESS

There being no further business, a motion to adjourn was entertained.

M/S (Goesling/Critchfield): To adjourn the meeting at 3:38 p.m. The motion carried unanimously.
A special meeting of the State Board of Education was held June 23, 2015 in the large conference room of the Office of the State Board of Education, Len B. Jordan Building, in Boise, Idaho. Board President Don Soltman presided and called the meeting to order at 2:30 pm Mountain Time. A roll call of members was taken.

**Present:**
Don Soltman, President
Richard Westerberg
Emma Atchley, Vice President
Debbie Critchfield
Bill Goesling, Secretary

**Absent:**
Sherri Ybarra, State Superintendent
Dave Hill

**BUSINESS AFFAIRS & HUMAN RESOURCES (BAHR)**

1. Boise State University – Contract for Athletic Director

**BOARD ACTION**

M/S (Lewis/Goesling): To approve the request by Boise State University to enter into a five (5) year employment agreement with Curt Apsey, Athletic Director, commencing on August 1, 2015 and terminating on July 31, 2020, at a salary of $331,500 and supplemental compensation provisions as set forth in Attachment 1, including revisions discussed and described by Kevin Satterlee during the meeting. A roll call vote was taken and the motion carried unanimously 6-0.

Mr. Lewis introduced the item indicating that Boise State University is requesting approval of a contract for a new Athletic Director. The current Athletic Director, Mark...
Coyle, announced his resignation on June 19, 2015 to be effective July 2, 2015. To maintain stability and continuity in the program, the University has recruited Curt Apsey to be the new Athletic Director.

Dr. Goesling reported from the Athletics Committee that they had met and discussed the contract earlier today. He requested BSU Legal Counsel Kevin Satterlee walk the Board members through the highlights of the contract. Mr. Satterlee indicated the terms of the contract are very similar to current Athletic Director’s contract. The salary and incentives are the same as the current Athletic Director, and the term of the proposed agreement is for five years. The base salary is $331,500, and incentives were outlined in the agenda materials provided to Board members. Mr. Satterlee pointed out the revised liquidated damages provisions of the contract, Section 5.3.3., have been changed to $200,000 for years one and two, $100,000 for years three and four, and $50,000 for the fifth year should Mr. Apsey end his contract early. One additional change is that the automobile provided as part of the compensation will be subject to and in accordance with Board policy.

Ms. Critchfield asked when BSU was alerted of the departure. Dr. Kustra responded he received the call Friday evening from Mr. Coyle that he had accepted an offer from Syracuse University. He reported that Mr. Coyle has been very up front when other institutions have contacted him and Dr. Kustra indicated he was not surprised by the call.

For the benefit of the Board, Mr. Lewis reported that is viewed as a very good selection by BSU and that Mr. Apsey is making a long term commitment to the University.

OTHER BUSINESS

There being no further business, a motion to adjourn was entertained.

M/S (Westerberg/Goesling): To adjourn the meeting at 2:40 p.m. Mountain Time. The motion carried unanimously.
A regularly scheduled meeting of the State Board of Education was held June 17-18, 2015 at North Idaho College, Student Union Building in Coeur d’Alene, Idaho.

Present:
Emma Atchley, President     Bill Goesling
Rod Lewis, Vice President     Richard Westerberg
Don Soltman, Secretary       Debbie Critchfield
Sherri Ybarra, State Superintendent      Dave Hill

Board President Emma Atchley presided and called the meeting to order at 10:00 a.m. Pacific Time. The meeting entered immediately into Executive Session.

EXECUTIVE SESSION (Closed to the Public)

M/S (Lewis/Westerberg): To meet in executive session pursuant to section 67-2345(1)(a), Idaho Code, to consider hiring a public officer, employee, staff member or individual agent, wherein the respective qualities of individuals are to be evaluated in order to fill a particular vacancy or need. A roll call vote was taken and the motion passed unanimously. Board members entered into Executive Session at 10:00 a.m. Pacific Time.

Ms. Atchley requested unanimous consent to go out of executive session at 12:25 p.m. Pacific Time and recess the meeting for lunch. There were no objections.

The meeting resumed for regular business at 1:00 p.m. Pacific Time. President Atchley thanked Dr. Dunlap and North Idaho College (NIC) for their hospitality and announced a groundbreaking ceremony today at NIC’s new Career Technical Education building and that transportation would be provided for those who would like to attend.
BOARDWORK

1. Agenda Review / Approval

BOARD ACTION

M/S (Lewis/Soltman): To approve the agenda as presented. The motion passed unanimously.

2. Minutes Review / Approval

BOARD ACTION

M/S (Lewis/Hill): To approve the minutes from the April 15-16, 2015 Regular Board meeting, and the May 20-21, 2015 Board Retreat submitted. The motion passed unanimously.

3. Rolling Calendar

BOARD ACTION

M/S (Lewis/Soltman): I move to set May 18-19, 2016 as the date and Boise, Idaho as the location for the 2016 Board Retreat, and to set June 15-16, 2016 as the date and Eastern Idaho Technical College as the location for the June 2016 regularly scheduled Board meeting. The motion passed unanimously.

WORKSESSION

A. FY17 Line Item Budget Requests

BOARD ACTION

M/S (Lewis/Westerberg): To direct the Business Affairs and Human Resources Committee to review the FY 2017 budget line items as listed on the Line Items Summary at Tab A pages 3-4, and to bring recommendations back to Board for its consideration at the regular August 2015 Board meeting. The motion passed unanimously.

Mr. Freeman, Chief Fiscal Officer from the Board Office, reviewed the budget line item request process for the Board pointing out that since April institutions and agencies have developed their budget requests for the next fiscal year. He indicated they are seeking input today from the Board on anything the Business Affairs and Human Resources (BAHR) Committee should take into consideration related to the budget line items in developing a recommendation to the Board at its August meeting. Mr. Westerberg remarked on his comfort of the guidelines and process established by the BAHR Committee.
Mr. Lewis indicated the BAHR Committee would like input from the Board on if it would like to use a philosophy in submitting line items; such as whether to submit all the line items of the institutions or to submit institutions’ top three requests.

Related to deferred maintenance, Mr. Hill suggested an integrated approach might make more sense, and asked what the approach to deferred maintenance is at the Board level. Mr. Freeman responded that if there is desire by the Board to address deferred maintenance at the system wide level it could be developed by the June meeting. Mr. Hill remarked that deferred maintenance often gets deferred further unless it is separated and treated as a problem to be solved. He requested the BAHR Committee look at deferred maintenance as a broad issue across the institutions. Mr. Westerberg agreed and pointed out it would need to be prioritized along with other system wide line items for the institutions.

Mr. Freeman directed Board members to page 165 of their materials regarding WWAMI and medical education. He provided some background in that the Idaho Medical Association has a Medical Education Subcommittee that meets quarterly to develop recommendations for funding for medical education at various levels. The Board received notice that the University of Utah would have capacity to bring two more seats in for Idaho. Mr. Freeman indicated he did include in the budget request the two additional seats. Dr. Goesling asked about the cost. Mr. Freeman responded the cost is $41,500 each. Mr. Lewis commented that he felt it would be good sense to expand the seats if possible. Dr. Rush also pointed out that expansion of the seats is something the Board has adopted and is consistent with past work. Ms. Atchley commented that the Board would not object to the request being included.

Mr. Freeman requested guidance to the BAHR Committee regarding a cap being set at 10% of the general fund appropriation. He pointed out that in the Board materials it shows what that equates to for each institution, along with the cumulative amount for each institution. There was discussion about prioritizing the institution budget requests. Mr. Lewis asked if they should think in terms of a percentage in regards of the request and suggested a higher amount than requested in the past. Mr. Lewis recommended having the institutions indicate whether deferred maintenance is one of their priority line items. Mr. Westerberg felt the Board should prioritize on a system wide basis individual line item requests. Mr. Lewis echoed those remarks, adding that it may be a challenge in communicating needs to the legislature. Mr. Lewis remarked that it made sense for BAHR to look at the system wide requests, and ask the institutions to prioritize their top three or four, then set a cap (whatever the percentage may be) on that. Ms. Atchley recommended a proportionate expectation (percentage or otherwise) on the institutions as some way to limit the total amount of the request.

B. Program Prioritization Update

Mr. Soltman introduced the item reviewing the program prioritization process for the Board members. He indicated the four-year institutions would make brief presentations on their progress to date. Each institution prepared a written report which was included
in the agenda materials.

Dr. Jim Munger, Vice Provost for Academic Planning at Boise State University (BSU), filled in for Provost Dr. Marty Schimpf to provide an update to the Board. He was accompanied by Ms. Stacy Pearson, Vice President for Finance and Administration. Dr. Munger clarified the overview would contain implementation progress of the 2013-14 planned actions, and progress in achieving sustainability of process. There were 240 programs under Administrative and Support with 256 actions proposed. Of that, 142 actions have been completed, and 157 are in progress, equaling 84% complete or in progress. He reported they have fully implemented organizational changes in the Division of Academic Affairs. They have evaluated 135 degree and graduate certificate programs and reviewed their rank based on metrics. Twenty nine programs require substantive change, discontinuation, or consolidation. They are evaluating the programs yearly. Dr. Munger reported on sustainability and that integration with accreditation in the on-going process will be necessary. Aligning program prioritization with the Northwest Commission on Colleges and Universities (NWCCU) provides a basis to evaluate contributions to the mission of the units that comprise the university. He discussed two key aspects of integration with accreditation. He reported on enhancement of analytics and the focus on enhancing data integrity and quality, and on the simplification and focus in key performance indicators.

Ms. Pearson reviewed the program prioritization process integration with the budget process. All university departments were asked to identify budget reductions based on current needs and program prioritization initiatives. She reported that for their FY16 budget, they actually set target reductions and provided the percentages for each unit. Ms. Pearson pointed out that departments were also able to seek increases for new initiatives. She reviewed highlights from the human resources, information technology, advancement/foundation, and campus operations areas. Ms. Pearson pointed out that a priority is to create a public safety office at BSU. In addition to expense reductions, she reviewed ways to enhance revenue such as increase enrollment in programs and classes, and proposals from departments and colleges.

Dr. Goesling asked how they are dealing with programs that have MOUs with other institutions. Dr. Munger responded they haven’t encountered that yet, but the bottom line is the students are priority and will be taken care of. Mr. Soltman remarked on their emphasis on sustainability and thanked BSU for their work. Ms. Atchley asked about their measures for programs that involve graduation rates. Dr. Munger clarified the measure it is the number of graduates being produced by a specific program.

Dr. Laura Woodworth-Ney, Provost and Vice President for Academic Affairs, and Mr. Jim Fletcher, Vice President for Finance and Administration, reported for Idaho State University (ISU). Dr. Woodworth-Ney proceeded to report on the goals and planning, and pointed out ISU built a data system to support the program prioritization effort. On the academic side they linked their effort to the accreditation process and to ISU’s core themes. They evaluated 270 academic programs and 177 academic programs were independently scored. She provided details of ISU’s in-house viability data system which provides program-level evaluation data to all deans, chairs, and program
directors. Dr. Woodworth-Ney provided highlights of their outcomes, recommendations, and action plans, which included consolidations and program eliminations. She reported they have had 104 total programmatic changes and 65 program changes completed to date. She did report they hosted an external consultant to assist with implementation. Dr. Woodworth-Ney reported on the opportunities identified by ISU throughout this process. They intend to expand the data system built for this process for many other uses. She reported they have discovered additional opportunities within ISU’s region and are looking at data differently for each of ISU’s campuses and centers, and how location plays a role. She reported that their accreditors were very supportive of program prioritization, adding their program viability tool will assist them on-going.

Mr. Fletcher reviewed the non-academic program prioritization progress, reviewing goals and outcomes. He pointed out their non-academic programs link to their academic programs and reported ISU established two key objectives that the university plans to fund as a result of program prioritization. First is an on-going university-wide compensation plan for faculty and staff; and second is on-going student programs for maximizing student success related to access, opportunity, and retention. He reviewed measurement criteria for non-academic programs and that they used a survey approach to address six major areas. Mr. Fletcher reported on the number of non-academic programs evaluated which totaled 174, and their various placement in quintiles. For each program identified in the fifth quintile, an action plan was submitted to either consolidate or eliminate the program. He reviewed their implementation process, and the challenges and opportunities they discovered, and how the exercise is an on-going process. He pointed out they received applause from the NWCCU for their work on the program prioritization process.

Dr. Goesling asked how they are dealing with programs that have MOUs with other institutions. Dr. Woodworth-Ney responded the majority of programs were potential expansions with CSI and they are working together on them. Mr. Freeman complemented them on their work in building the data viability system they are using.

Dr. John Wiencek introduced himself as the new Provost and Executive Vice President for the University of Idaho (UI) and provided a high level report to the Board on the institution’s program prioritization process. He summarized by stating that quality and quantity matter – that one drives the other. In sustaining the momentum, they recognize that synergies between academic and operational processes are necessary. He reported that they reviewed a total of 358 programs in both academic and non-academic areas. Related to degree programs, they moved or restructured six, restructured 12, renamed one, and discontinued 19. He pointed out some challenges such as the new NWCCU process is not always consistent with SBOE program prioritization process. He reviewed opportunities such as identification of resources to invest in important initiatives, and ways to improve current operations. Dr. Wiencek pointed out they are coming into a new strategic planning process and view that as a tremendous opportunity to converge the items together to help sustain the long term plan. He remarked on long term institution sustainability which requires more than program prioritization. He indicated UI needs to continue to focus on selective excellence, innovation, prioritization, planning and execution, and budget models.
Mr. Westerberg remarked that the other institutions reported on their institutionalization of the principles of program prioritization and resource allocation and asked about it for UI. Dr. Wienczek responded that as part of the previous leadership and process it hasn’t been formalized yet, adding that the feeling is a new leadership team will help address and finalize a plan going forward. He added that from his perspective one of the main issues that needs to be dealt with is how to move resources around the campus in a fluid way. Mr. Westerberg requested a progress update from UI as they move through the process.

Dr. Lori Stinson, Provost and Vice President for Academic Affairs, and Mr. Chet Herbst, Vice President for Finance and Administration from Lewis-Clark State College (LCSC), presented the program prioritization progress report to the Board. Dr. Stinson reviewed their strategic plan goals and processes. She reported during the last year the focus has been on implementation of the action plans, conducting major reviews, and sustainability of the process. All instructional and non-instructional programs were quintiled, with 23 programs in each quintile. Dr. Stinson provided some specific examples within each quintile. She remarked on some of the challenges around coordination between program prioritization outcomes with strategic enrollment growth, along with melding program prioritization into their accreditation process. She remarked on opportunity and the cross-campus dialogue this process has opened up, and reported they have had some good gains with this program prioritization process. Dr. Stinson discussed sustainability where they intend to continue with follow-up from action plans and major reviews, viability expectations, to continue to integrate into budget/planning processes and to continue to look for efficiencies and resources that can be reallocated to strategic enrollment initiatives.

Dr. Stinson commented on the need of data and that they will have a new Institutional Research Director starting July 1st. She pointed out the need for good data at a program level and that they have engaged in the Delaware Study for the past two years which has helped for some programs. She pointed out there is still a need for more program-specific data, and LCSC has engaged ISU regarding their system and suggestions in developing a framework for LCSC to use.

Dr. Stinson reported on what’s next for LCSC which includes implementation of all components of major program reviews and resultant actions plans. The ongoing tracking of action plans, seeking resources for quintile one and two programs, and looking at the resources that have been flagged for reallocation. Dr. Stinson pointed out that they did not conceptualize their administrative units as programs in the prioritization process, and intend to look at alignments at that level which might help with efficiencies.

Dr. Goesling asked about their joint programs with other institutions and how they are prioritized. Mr. Herbst responded they take into account those programs with outside entities and have also used the process to leverage additional resources for those programs. He added that the process has helped them with their budget line item request process. Mr. Soltman commended LCSC for their work.
Mr. Freeman reminded board staff that Mr. Westerberg requested a progress update from ISU and asked if the Board would like any additional progress reports on program prioritization. Mr. Westerberg recommended regular updates to IRSA and annual updates to ensure institutionalizing the process. Ms. Atchley added that reviewing the annual operating budgets and how they align with program prioritization may be helpful.

The meeting was recessed at 3:08 p.m. Pacific Time.

**Thursday June 18, 2015, 8:00 a.m., North Idaho College, Student Union Building, Coeur d’Alene, Idaho.**

Board President Atchley called the meeting to order at 8:00 a.m. Pacific Time for regularly scheduled business.

**OPEN FORUM**

There were three requests to address the Board during Open Forum.

Mr. Murray Stanton, Chair of the Board for the Idaho Distance Education Academy (IDEA) Charter School/Gem Innovation Schools, addressed the Board regarding the 2016 legislative ideas list which includes an item on charter school non-profit corporation limits. He felt that a charter management organization (CMO) structure is optimal for a number of reasons including efficiency and maximization of resources. He indicated they are also exploring a blended learning approach through a pilot program in Pocatello.

Ms. Barb Femreite, Director of Business Operations at IDEA Charter School, commented to the Board they are a homegrown school with a solid team. She further remarked they are a five star school and would like to expand their team into the blended learning area, and would like to be able to expand options to students throughout the state of Idaho.

Ms. Evanlene Melting Tallow, American Indian and International Student Advisor at North Idaho College, and serving on the Indian Education Committee, addressed the Board regarding the Indian Education Summit held last week in Boise. She pointed out that Idaho does not have any curriculum or lesson plans in K-12 for Idaho tribes. Washington, Oregon, Wyoming, and Montana all have curriculum plans that teachers in the public schools can access to develop lesson plans for K-12 in Math, English, History, etc. She felt it would be very important for Idaho be a part of that and for Idaho to build it into its system to honor and represent Idaho tribes.

At this time, Board President Atchley recognized Dr. Steve Albiston, President of Eastern Idaho Technical College, who is retiring this year after 34 years at the college in various roles. She presented a plaque in recognition of his service to EITC and the State of Idaho. Ms. Atchley recognized Dr. Mike Rush who has accepted a position with South Dakota Board of Regents. Ms. Atchley commented on his outstanding leadership and outgoing nature; he has been serving the state of Idaho in education for 30 years.
Ms. Atchley then went on to recognize Rod Lewis for this long and outstanding service to the Board over the last 15 years. She remarked on his dedication to the Board and to education, serving three full terms.

CONSENT AGENDA

M/S (Lewis/Goesling): To approve the consent agenda as presented. The motion passed unanimously.

BAHR – Finance

1. Boise State University – Multi-Year Air Charter Contract

By unanimous consent to approve Boise State University’s request to enter into an agreement with Sun Country Airlines for air charter services for the 2015-2019 football seasons and to authorize the Vice President for Finance and administration to execute the current agreement and renewal agreements through 2019.

2. Boise State University – Purchase of Video Board for Taco Bell Arena

By unanimous consent to approve the request by Boise State University to purchase a video board, score board, and closed captioning displays for placement in the Taco Bell Arena at a cost not to exceed $1.5 million.

3. University of Idaho – Idaho Water Center – Partial Termination of Sublease with CH2M Hill and Simultaneous Sublease to St. Luke’s Regional Medical Center

By unanimous consent approve the request by the University of Idaho for authority to amend the existing sublease with CH2M HILL and to enter into a new sublease with St. Luke’s Regional Medical Center, both in substantial conformance to the forms submitted to the Board in Attachments 1 and 2; and to authorize the University’s Vice President for Finance to execute these and any other related transactional documents.

4. Eastern Idaho Technical College – Eastern Idaho Technical College Foundation – Short Term Pay Increase to the Executive Director of the Foundation

By unanimous consent approve the request by Eastern Idaho Technical College for the Eastern Idaho Technical College Foundation to award a short term merit pay increase to the Executive Director of the Foundation.
IRSA

5. WWAMI admissions Committee Appointment

By unanimous consent approve the request by Idaho WWAMI Medical Education Program/University of Washington School of Medicine to appoint Dr. Lance Hansen to the Idaho WWAMI Admissions Committee effective July 1, 2015.

6. Programs and Changes Approved by Executive Director – Quarterly Report

This item was included for informational purposes.

PPGA

7. Indian Education Committee Appointment

By unanimous consent to appoint Mr. Nolan Goubeaux, representing the College of Southern Idaho to the Idaho Indian Education Committee, effective immediately.

8. State Rehabilitation Council Appointment

By unanimous consent to approve the reappointment of Lonnie Pitt to the Vocational Rehabilitation State Rehabilitation Council as a representative of a former applicant or recipient of VR for a term of three years effective July 1, 2015 and ending June 30, 2018.

By unanimous consent to approve the reappointment of Angela Lindig to the Vocational Rehabilitation State Rehabilitation Council as a representative of a parent training and information center for a term of three years effective July 1, 2015 and ending June 30, 2018.

By unanimous consent to approve the reappointment of Lori Gentillon to the Vocational Rehabilitation State Rehabilitation Council as a representative of a community rehabilitation program for a term of three years effective July 1, 2015 and ending June 30, 2018.

By unanimous consent to approve the appointment of Suzette Whiting to the Vocational Rehabilitation State Rehabilitation Council as a representative of a Vocational Rehabilitation counselor for a term of three years effective July 1, 2015 and ending June 30, 2018.
9. Data Management Council Appointment

By unanimous consent to approve the reappointment of Georgeanne Griffith, Tami Haft, Carson Howell, Todd King, Heather Luchte, and Vince Miller and appointment of Chris Campbell to the Data Management Council.

10. Boise State University – Alcohol Permit for 2015 Home Football Games – Pre-Game Events

By unanimous consent to approve the request by Boise State University to establish secure areas under the conditions set forth in this request, and in full compliance with Board policy I.J., for the purpose of allowing alcohol service during pre-game activities for the 2015 home football season, a potential conference championship game, the Famous Idaho Potato Bowl, and the 2016 Spring Game; a request will be brought back to the Board after the conclusion of the 2015 season for reconsideration for 2016.

11. Idaho State University – Alcohol Permit for 2015 Home Football Games

By unanimous consent to approve the request by Idaho State University to establish secure areas as specified in Attachments 1 and 2, for the purpose of allowing alcohol service during pre-game activities in full compliance with Board Police I.J. during the 2015 season home football games.

12. University of Idaho – Alcohol Permit for 2015 Home Football Games – Pre-Game Events

By unanimous consent to approve the request by the University of Idaho to allow alcohol service during the 2015 football season and 2016 spring practice game in the North Kibbie Field and the Student Activities Field, under the conditions outlined in Board policy section I.J. subsection 2.c.

By unanimous consent to approve the request by the University of Idaho to allow alcohol service during the 2015 football season and during the spring 2016 football scrimmage, in the Litehouse Center/Bud and June Ford Club Room located in the ASUI Kibbie Activity Center under the conditions outlined in Board Policy I.J. subsection 2.c.

14. President Approved Alcohol Permits

This item was included for informational purposes.
15. Professional Standards Commission Appointment

By unanimous consent to reappoint Margaret Chipman as a member of the Professional Standards Commission for a three-year term beginning July 1, 2015, and ending June 30, 2018, representing School Board Members.

By unanimous consent to reappoint Kristi Enger as a member of the Professional Standards Commission for a three-year term beginning July 1, 2015, and ending June 30, 2018, representing Professional-Technical Education.

By unanimous consent to appoint Dana Johnson as a member of the Professional Standards Commission for a three-year term beginning July 1, 2015, and ending June 30, 2018, representing Private Higher Education.

16. Request for Waiver of 103% Student Transportation Funding Cap

By unanimous consent to approve the request by Garden Valley School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2015 of 133% for a total of $43,087 in additional funds from the public school appropriation.

By unanimous consent to approve the request by Genesee School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2015 of 143% for a total of $10,801 in additional funds from the public school appropriation.

By unanimous consent to approve the request by Highland School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2015 of 143% for a total of $2,811 in additional funds from the public school appropriation.

By unanimous consent to approve the request by Kamiah School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2015 of 136% for a total of $981 in additional funds from the public school appropriation.

By unanimous consent to approve the request by Kellogg School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2015 of 108% for a total of $23,602 in additional funds from the public school appropriation.

By unanimous consent to approve the request by Meadows Valley School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2015 of 153% for a total of $26,816 in additional funds from the public school appropriation.
By unanimous consent to approve the request by Moscow School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2015 of 119.6% for a total of $51,146 in additional funds from the public school appropriation.

By unanimous consent to approve the request by Mountain View School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2015 of 129% for a total of $4,716 in additional funds from the public school appropriation.

By unanimous consent to approve the request by Plummer-Worley School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2015 of 111.3% for a total of $3,541 in additional funds from the public school appropriation.

By unanimous consent to approve the request by Salmon School District for a waiver of the 103% transportation funding cap, at a new cap percentage rate for the fiscal year 2015 of 115.5% for a total of $10,341 in additional funds from the public school appropriation.

17. Transport Students Less than One-and-One-Half Miles for the 2014-2015 School Year

By unanimous consent to approve the requests by ninety five (95) school districts and twelve (12) charter schools for approval to transport students less than one and one-half miles as listed in Attachment 1.

AUDIT

18. Idaho State University – Foundation Operating Agreement

By unanimous consent to approve the update to the Operating Agreement between the Idaho State University Foundation, Inc. and Idaho State University as presented.

19. University of Idaho – Alumni Association Operating Agreement

By unanimous consent to approve the Operating Agreement between the University of Idaho Alumni Association, Inc. and University of Idaho as presented.

PLANNING, POLICY & GOVERNMENTAL AFFAIRS (PPGA)

1. North Idaho College (NIC) Progress Report

President Joe Dunlap provided North Idaho College’s annual report to the Board. He reported that the three community colleges have implemented the voluntary framework
of accountability (VFA) student success measure. One of their key measures is the licensure pass rates which have improved steadily since 2012. Dual credit annual enrollment has also increased since 2012. Dr. Dunlap reported NIC is pilot testing a program called Dual Enrolled.com. Regarding remediation, the number of students going to NIC who need remediation has declined slightly to 66.5%. He pointed out related to their budget, NIC has reduced it by $3 million based on declines in enrollment which peaked in 2012. Fall enrollment at NIC has declined by 10% last year and the year before; the peak for enrollment was in 2012.

Dr. Dunlap provided updates on initiatives such as funding support from the J.A. and Kathryn Albertson Foundation for the PTECH Network and the Village Project. NIC was designated the state entity for the Federal Mining Safety Health Administration training grant. He commented on remediation reform success, particularly with their English 101+ course. He also pointed out their Physical Therapy Assistant program has received accreditation. The program is a collaboration between NIC, CWI, CSI and LCSC. He reported on a number of grants recently received by NIC such as the Idaho Center of Excellence (ICE) Healthcare partnership for $4.6 million. It is a collaborative grant along with LCSE and ISU, where they are partnered with a number of industry representatives. A Wood Products Manufacturing Center for Excellence grant that works with three industry partners serving 11 mills in Idaho and impacts over 1,406 jobs combined. Estimated combined revenue is $607M. The Healthcare Career Pathway Grant which fosters development of a career pathway for nursing assistants (CNAs); NIC is partnering with three north Idaho healthcare providers. He also reported on the new Career Technical Education Building next to KTEC High School which will be open for classes by Fall 2016. He commented on a student wellness center which is self-funded, and a joint use facility which is a collaborative project with LCSC and University of Idaho, along with the City and Lake City Development Corporation and Kootenai Health, that will serve as a one stop student service center. He closed by highlighting their three outreach centers in Bonners Ferry, Sandpoint, and Kellogg.

2. President’s Council Report

Dr. Joe Dunlap, President of North Idaho College and current chair of the President’s Council provided a report to the Board summarizing the two most recent President’s Council meetings in May and June. He reported on institution immunization policies and that discussion suggested having a statewide policy would align with best practices used around the country, would ensure high vaccination rates, be a good mechanism for tracking compliance, and would allow institutions to make good decisions in cases of an outbreak. Questions for consideration are which immunizations should be included, target groups, who will track and enforce the mandate, etc. It was recommended that the Board office convene a small group to develop a policy and target the August Board meeting for a presentation to the Board.

Dr. Dunlap provided a direct admissions update and that the task force was currently working on mechanisms needed to provisionally admit high school seniors and how to continue the help once admitted. He reported that Board staff would be presenting additional information on the item at this meeting. Dr. Dunlap reported on the statewide
higher education economic impact study being conducted by EMSI that will have aggregate breakout reports for the 4-year and 2-year institutions. Regarding the Blue Ribbon Commission on Higher Education, chaired by Lt. Governor Brad Little, he reported its focus is on improving funding for the 4-year institutions with an ongoing impact. Presidents discussed other members of the commission should include university and college presidents, business representatives, and industry leaders.

Dr. Dunlap reported that Dr. Staben expressed an interest in mid-year presidential assessments conducted by the Board in addition to the end of year evaluations they currently received. There was varied consensus as to whether this would be helpful for other presidents. Dr. Rush indicated the mid-year assessments would only be done by request.

At the June President’s Council meeting, Dr. Rush informed presidents that members of the institutions’ general counsel were contacted in an attempt to develop ideas for alternatives to the state’s risk management program. Additionally, an update was provided on the common application which is progressing.

Dr. Dunlap reported that Dr. Tony Fernandez would be taking over as chair of the President’s Council. Dr. Fernandez reported there would be no July meeting, but they would be having a meeting and retreat in August. The August meeting will be hosted by ISU at their Meridian campus instead of their main Pocatello campus.

3. Idaho Public Television (IPTV) Annual Report

Mr. Ron Pisaneschi, General Manager of IPTV, provided an annual report to the Board. He gave an overview of IPTV, reviewed content and services, successes, budget, statewide delivery system issues, and other challenges.

Mr. Pisaneschi reviewed their program structure which is divided into two areas; the statewide delivery system (the technology) and educational content. This year they celebrate their 50th anniversary and there will be two kick-off events: October 8th in Boise and 9th in Moscow; invitations are forthcoming. For the third year in a row IPTV has been the #1 viewed station per capita in Idaho. IPTV can be accessed online via desktop and mobile. This year they have already won over 47 national and regional awards. He reported that donor funding is critical to their success in providing high quality programming and IPTV has more than twice the donations per capita than other statewide systems.

Mr. Pisaneschi reported this year the IPTV Board has an initiative to grow its endowment to $5 million. They are currently at $4.6 million. He reported on content partnerships and initiatives which include an EPSCoR project, partnerships with Idaho universities, K-12 oversight and learn channel, 12 hours of weekday children’s education content, and on-line resources for teachers and students. They have also partnered with the State Board office on the Educate Idaho initiative, and reported on a number of successful local productions.
Mr. Pisaneschi reported on the IPTV budget, pointing out equipment replacement funding continues to be a challenge. He provided a peer group comparison which shows Idaho receiving the least amount of state funding. He reported for the FY17 budget request, they are seeking fund-shift from dedicated to state funds for three accounting positions and three engineering positions. They are also asking to make several temporary positions to part-time classified which requires no cost. He reported on challenges such as operational funding and congressional funding to Corporation for Public Broadcasting (CPB) which is flat or shrinking, and that operational costs continue to be squeezed when there is a CPB expense. Depreciation of equipment continues to be a challenge with $24 million in assets, and 77% of that is depreciated. He reported on the pending spectrum auction/repacking with the FCC. The translator costs are not covered and the channel frequencies are not guaranteed; it will have an impact on IPTV in a variety of ways. They may have to move channels and not have the funds to do so, or if they do move channels, there may not be frequencies to do so. It is still uncertain how it will play out.

4. 2016 Legislative Ideas

BOARD ACTION

M/S (Westerberg/Hill): To approve the legislative ideas 1-8 and 10-16 as submitted and to authorize the Executive Director to submit these and additional proposals as necessary through the Governor’s legislative process. The motion passed unanimously.

Ms. Tracie Bent, Chief Planning and Policy Officer from the Board office, provided a summary of legislative ideas for the 2016 legislative session. She noted there was one item submitted by the University of Idaho which was not included in the agenda materials as it required additional follow-up; it will be provided in August for consideration. She summarized the following legislative ideas:

1. The Youth Education Account, – Money from the fund would be used exclusively for the production and purchase of radio and television advertising designed to advise children of the risks and problems associated with the use of alcohol and drugs.

2. State Residency for Tuition Purposes – This would streamline the residency determination process to allow for greater success to students as well as reduce the staff time necessary to make these determinations. Dr. Goesling requested a greater discussion which would include the Native American Tribes. Ms. Bent clarified that any Tribes with historical boundaries in the state are eligible.

3. Transfer of Sick Leave between Educational Entity’s – This provides clarification on how accrued sick leave is handled between educational entities and the use of transferred sick leave at the time of retirement. The changes would include clarifying between school district employees, IDLA employees and the public institutions.
4. Charter School Non-profit Corporation Limitations – Adds clarification that a non-profit corporation authorized to engage and manage a public charter school may not operate enterprises other than the public charter school. It would also address issues regarding the number of charter schools that may be organized and managed under a given non-profit corporation.

5. Tax Commission Reporting – This would remove the requirement that the Tax Commission report to the Department of Education.

6. School Counselors – This provides a technical correction to language in Section 33-1212, Idaho Code, regarding the certification requirements for individuals licensed as social workers who wish to work in Idaho public schools. The amendments would provide clarification.

7. Acquisition of Real Property Requirements – This will require community colleges to acquire an appraisal prior to entering into a purchase agreement for real property.

8. Scholarship Technical Corrections – The amendment will provide clarifying language regarding the disability determination of the Armed Forces and Public Safety Officer Scholarship and to make technical corrections. Dr. Goesling asked about adding back in the Grow Your Own Scholarship. Ms. Bent responded there were some legal implications with that scholarship where some of the federal requirements were not being met. Something similar to that scholarship would require a statewide analysis to determine whether or not affected populations were discriminated against. Ms. Bent reported they will look at the data and have a broader discussion forthcoming.

9. Attendance at Schools – This has to do with expanding the compulsory attendance requirements which may help reduce drop-out rates to increase academic achievement throughout a student’s educational experience. Ms. Critchfield would like to see additional research and asked about the compliance piece; she would generally like more information on the item. Ms. Bent suggested adding it to the August meeting agenda if the Board would like a deeper discussion on the item. Ms. Ybarra indicated it should have additional discussion and was concerned it should be vetted properly and for the public to be included. Based on discussion, the motion will exclude this item, with the notion there will be further discussion and research on the item. The PPGA Committee will do more research on the item and return to the Board for discussion.

Governor’s Task Force Recommendations/Subcommittee Implementation

10. Career Ladder Pupil Service Staff – This would amend existing law to establish outcome based criteria for Pupil Service Staff would be placed on the Career Ladder. Additional technical corrections would also be made. There was
discussion on the evaluation and whether the Danielson Model should be used to improve teaching and professional development training or as a method of evaluation. Mr. Westerberg would like reports to the Board on how the review goes by the Department and what they discover after looking at the data. Ms. Ybarra agreed indicating she would provide that information to the Board when it is available. Mr. Lewis suggested there may be an administrator issue in improperly evaluating those they have responsibility over. Dr. Hill recommended not having a lengthy discussion on the tool, but what it is designed to improve and how we get the most out of it to help teachers. Mr. Lewis was concerned about conflating the issue.

11. Student Literacy – The proposed changes would clean-up existing language and expand reading interventions for students in kindergarten through grade three, including full day kindergarten for students who have been identified at or below a specified level of proficiency. Changes would also make technical corrections regarding the state’s reading assessment and remove unnecessary details and repealing a portion of the section that has become outdated and unnecessary. The Literacy Subcommittee will bring forward formal recommendations for Board consideration prior to the submittal of the final legislation for Board consideration.

12. School District Continuous Improvement Plans – This incorporates the recommendations from the Accountability and Autonomy Task Force subcommittee into the school district continuous improvement plan process.

13. Public School Funding – This serves as a place holder for work the Task Force’s subcommittee on Public School Funding is doing. Ms. Bent added that because of the complexity of the issue, it will likely not be completely resolved this year; but there are initial things that may be forwarded to the Governor prior to the 2016 legislative session.

Agency Submitted Legislative Ideas

14. Vocational Rehabilitation – Federal Aid – This piece makes necessary updates related to changes in the federal regulations impacting the Rehabilitation Act.

15. Professional-Technical High School Funding Model – This amends the professional-technical funding model from an Average Daily Attendance (ADA) based model to an Enrollment based model plus incentive funding based on performance standards.

16. PTE Secondary Programs Incentive-Based Funding – This amends the section of code to provide funding for exemplary PTE secondary programs.

Mr. Lewis added it would be good to see new legislation for four years of math instead of three, and that Algebra 2 be required. He also commented that the Board is not an executive agency, but rather that the Board is a constitutional body.
1. Institution/Agency and Special/Health Programs Strategic Plans

BOARD ACTION

M/S (Westerberg/Soltman): To approve the Institution, Agency, and Special/Health programs strategic plans as submitted. The motion passed unanimously.

Related to the Department’s strategic plan, Mr. Soltman recommended a change to the page two in the language where it states, “. . . The State Department of Education partners with independent school districts”, and changing it to just say “. . . partners with school districts.” Ms. Ybarra agreed and indicated she would direct the change.

2. Indian Education Committee Strategic Plan

BOARD ACTION

M/S (Westerberg/Goesling): To approve the 2016-2021 Idaho Indian Education Strategic Plan as submitted in Attachment 1. The motion passed unanimously.

Ms. Patty Sanchez, Academic Affairs Program Manager from the Board Office, introduced the item indicating she provides staff support to the Indian Education Committee. She was accompanied by Ms. Chris Mahoney-Minor member of the Coeur d’Alene Tribe, Vice Chair of the Committee, and Director of the Department of Education for the Coeur d’Alene Tribe. She indicated Chairman Bob Sabbota was unable to attend the meeting. Ms. Mahoney-Minor reviewed the strategic plan, reporting on the status of Indian education in Idaho. She indicated the gap between native and non-native students on achievement tests is persistent, pointing out native students are less likely to be college ready in Math, Reading, English, Science, and History. She reported they hope to address these issues in their strategic plan and shared the plan’s vision and mission statements.

Dr. Yolanda Bisby is the Executive Director of Tribal Relations for the University of Idaho, member of the Indian Education Committee, and Nez Perce Tribal member. She reported the Indian Education Committee has identified two goals: to promote academic excellence for American Indian students, and to increase culturally relevant pedagogy in teacher education programs. Dr. Bisby identified the objectives to each of the goals.

Ms. Sanchez reported the Committee would be working with Board staff to extract data to help formalize benchmarks and performance measures, bringing those back before the Board in October for consideration.

Dr. Goesling recognized the efforts of Ms. Johanna Jones from the Department, and Ms. Sanchez of the Board office and thanked them for their work with the Tribes.

3. Amendment to Board Policy Section I.Q. Accountability Oversight Committee – Second Reading
BOARD ACTION

M/S (Westerberg/Critchfield): To approve the second reading of Board Policy I.Q. Accountability Oversight Committee as submitted in Attachment 1. The motion passed unanimously.

4. Amendment to Board Policy – Section I.S. Institutional Governance – Second Reading

BOARD ACTION

M/S (Westerberg/Hill): To approve the second reading of amendments to Board Policy I.S. Institutional Governance as submitted in Attachment 1. The motion passed unanimously.

5. Proposed Rule IDAPA 08.02.01.650 – General Education Development Test/Idaho High School Equivalency Certificate

BOARD ACTION

M/S (Westerberg/Soltman): To approve the Proposed Rule amendments to IDAPA 08.02.01.650 as submitted in Attachment 1 as amended. The motion passed unanimously.

Ms. Bent provided background and reviewed the proposed rule which makes changes to the language regarding the requirements for the General Educational Development (GED ©) test, and specifically as it applies to the Idaho High School equivalency certificate. Mr. Lewis asked about the proficiency level and Ms. Bent responded it would be added. After discussion on the item, the motion was amended to include the proficiency level as “passing” for the GED testing level as established by the GED testing service.

BUSINESS AFFAIRS & HUMAN RESOURCES (BAHR)

Section I – Human Resources

1. Chief Executive Officer Employment Agreements/Terms

BOARD ACTION

M/S (Lewis/Soltman): To approve the amended employment agreement for Dr. Robert Kustra as President of Boise State University. The motion passed unanimously.

M/S (Lewis/Soltman): To approve the amended employment agreement for Dr. Chuck Staben as President of the University of Idaho. The motion passed unanimously.
M/S (Lewis/Goesling): To approve the amended employment agreement for Dr. Art Vailas, as President of Idaho State University. The motion passed unanimously.

M/S (Lewis/Hill): To approve the amended employment agreement for Dr. Tony Fernandez as President of Lewis-Clark State College. The motion passed unanimously.

2. Amendment to Board Policy Sections II.H. – Coaches and Athletic Directors - Second Reading

BOARD ACTION

M/S (Lewis/Hill): To approve the second reading of proposed amendments to Board Policy Sections II.H., as presented in Attachment 1. The motion passed unanimously.

3. Boise State University – Multi-Year Employment Agreement – Football Defensive Coordinator

M/S (Lewis/Soltman): To defer item back to the BAHR committee for technical corrections. The motion passed unanimously.

BSU Vice President and Legal Counsel, Mr. Kevin Satterlee, requested the item be deferred for technical corrections and brought back before the Board at the August meeting. There were no objections.

4. Idaho State University – Multi-Year Employment Agreement – Head Women’s Soccer Coach

BOARD ACTION

M/S (Lewis/Goesling): To approve to approve the request by Idaho State University to extend the multi-year employment agreement with Allison Gibson, Head Women’s Soccer Coach, for a term commencing January 19, 2016 and terminating January 19, 2019 at a base salary of $65,894 and supplemental compensation provisions in substantial conformance with the terms of the agreement set forth in Attachment 1. The motion passed unanimously.

Mr. Soltman appreciated the Board seeing the contract before its effective date.

5. University of Idaho – Multi-Year Employment Agreement – Head Women’s Volleyball Coach

BOARD ACTION

M/S (Lewis/Goesling): To approve the University of Idaho’s multi-year
employment contract with Debbie Buchanan, Women’s Volleyball Team Head Coach for a term effective August 1, 2015 and extending through July 31, 2020, in substantial conformance to the form submitted to the Board in Attachment 2. The motion passes unanimously.

6. Office of the State Board of Education – Hiring of Executive Director

BOARD ACTION

M/S (Lewis/Goesling): To appoint Matthew Freeman as the Executive Director of the Idaho State Board of Education at a salary of $67.31 an hour or $140,004.80 annual pay, effective June 29, 2015. The motion passed unanimously.

Mr. Lewis enthusiastically announced that the Board is extremely fortunate to have a person of Matt’s integrity and intelligence to be available and willing to serve as the Board’s Executive Director. Ms. Atchley echoed those remarks.

Section II – Finance

1. FY 2016 Operating Budgets

BOARD ACTION

M/S (Lewis/Hill): To approve the FY 2016 operating budgets for the Office of the State Board of Education, Idaho Public Television, Division of Vocational Rehabilitation, College and Universities, Postsecondary Professional-Technical Education, Agricultural Research & Extension Service, Health Education Programs and Special Programs, as presented. The motion passed unanimously.

Mr. Freeman indicated this is an annual item that comes before the Board in June, and is approval of the operating budgets for all the agencies and institutions under the governance of the Board. He pointed out this report shows how many positions have been added at the institutions in the last twelve months. Ms. Atchley asked, related to instruction, about revenue by source and expenses by function, then under expenses by class it shows under personnel class “faculty salary”. Ms. Atchley asked why there is a difference in the two numbers. Mr. Freeman responded the expense categories for instruction includes compensation for faculty and personnel costs; a number of expense categories include personnel costs. Ms. Pearson helped explain the details on behalf of the institutions; each college includes it as part of their instructional line; it includes the faculty, staff, operating expenses and capital outlay.

2. Athletics – FY2016 Operating Budget Reports

BOARD ACTION

M/S (Lewis/Goesling): To approve the Athletics Operating Budget reports for Boise State University, Idaho State University, University of Idaho and Lewis-
Clark State College, as presented. The motion passed unanimously.

3. Amendment to Board Policy – Section V.K. – Construction Projects – First Reading

BOARD ACTION

M/S (Lewis/Hill): To approve the first reading of proposed amendments to Board policy V.K., Construction Projects, as presented. The motion passed unanimously.

Mr. Lewis introduced the item which is an amendment to Board policy that asks institutions to bring forward for Board approval their long range Campus Master Plans. Mr. Soltman asked if this applies to community colleges.

There was discussion about the definition of “long range” which isn’t defined and is left to the interpretation of the Board. The responses suggested around 15 years was reasonable. Once the Board starts to look at the plans, it can gain more specificity. Mr. Freeman reminded the Board this is a plan and that policy V.K. still requires the institutions to have Board approval for every step along the way; on a project-by-project basis.

Mr. Lewis remarked that having institutions think about growth long term will help guide them in the short term. He asked if the institutions had any input. The institutions were supportive of the plan and Mr. Satterlee added that it gives a more practical approach to looking at a long term vision and its phases.

4. Amendment to Board Policy – Section V.W. – Litigation – First Reading

BOARD ACTION

M/S (Lewis/Soltman): To approve the first reading of proposed amendments to Board policy V.W., Litigation, as presented in Attachment 1. The motion passed unanimously.

Mr. Lewis reviewed the item where currently Board policy limits acceptance of service process at the Board Office to only the Executive Director. The proposed amendment would extend authority to the Boards’ deputy attorney’s general.

5. Boise State University – Proposed Student Housing Project

Mr. Kevin Satterlee and Ms. Stacy Pearson from BSU provided an update and visual illustrations for the Board on the student housing project. The designs have been expanded, and Ms. Pearson reviewed the updates on the revised site planning, facility layout and design, and to discuss the current status on negotiations and business terms. BSU’s intent is to finalize negotiations and agreement, and submit them for the August Board meeting.
Mr. Satterlee reviewed the revised site plan for the Board members. He pointed out one of the previous concerns was the use of University Drive frontage, and the redesign pulls it back to preserve the space of concern for future academic expansion or other development. There was discussion about the Honors College. Dr. Kustra pointed out it was a deliberate move to put the Honors College across from the Student Union Building on University Drive as it is a community program that highlights and attracts students by having a prominent place on campus.

There was also discussion about the rent costs and the contract with EDR. In February, the Board expressed concern that EDR had a debt rating equal to the minimum standard for investment grade debt. BSU provided information demonstrating the financial strength and positive momentum of EDR since 2010. Mr. Lewis thanked BSU for their transparency with this project.

At 12:10 p.m. time the meeting recessed for lunch. They resumed at 1:52 p.m.

6. Boise State University – 2015 Master Plan Update

BOARD ACTION

M/S (Lewis/Hill): To approve Boise State University’s 2015 Campus Master Plan update as presented. The motion passed unanimously.

Mr. Satterlee highlighted changes to the university’s Master Plan. He indicated that in substance, this is the same presentation as at the last Board meeting. Mr. Satterlee pointed out the concept for a long term vision and that the master plan is built on a 30-year time line. They have three distinct parts: academic buildings and core and how it flows through the campus; the housing plan integrated throughout the campus; and the circulation of parking – so that these three components all fit and work together within the master plan. He showed some slides for a visual illustration. Dr. Goesling asked about the downtown location and if it will be developed. Mr. Satterlee responded that only programs suitable for that location would be considered.

7. University of Idaho – Wallace Residence Center Project – Planning and Design Phase

BOARD ACTION

M/S (Lewis/Hill): To accept the University of Idaho’s updated six-year capital plan to include the proposed renovation and modernization at the Wallace Residence Center. The motion passed unanimously.

AND

M/S (Lewis/Goesling): To approve the request by the University of Idaho to implement the planning and design phase of a Capital Project for the renovation and modernization of the Wallace Residence Center. Authorization includes the
authority to execute all necessary and requisite consulting contracts to fully implement the planning and design phases of the project. Construction Authorization will require a separate authorization actions at later dates to be determined. The motion passed unanimously.

Mr. Dan Ewart, the new Vice President of Infrastructure for the University of Idaho, introduced the item and provided some background on the Wallace Residence Center (Wallace) which was originally built in the mid-1960’s. He commented that over the last several years, UI has undertaken small-scale improvements on a number of the floors of Wallace, with much of the work performed in-house. He indicated the University looks to contract out much of the remaining work, to more expeditiously complete these improvements for the balance of the complex in one combined capital project. The work to be contracted will also include limited HVAC improvements in the lounges, and floor and wall tile refurbishment in the bathrooms.

BOARD ACTION

M/S (Lewis/Hill): To approve the request by the University of Idaho to accept the Finance Plan and to implement the bidding and construction phases of a Capital Project for the University of Idaho Library Renovation and Improvements, in the amount of $1,300,000. Authorization includes the authority to execute all necessary and requisite contracts to fully implement the construction phase of the project. The motion passed unanimously.

Mr. Dan Ewart indicated the University of Idaho is requesting authorization to proceed with the finance plan and construction phase of a Capital Project to provide for renovations and improvements to the University of Idaho Library. Estimated project cost was originally $1.4 million, but has dropped by $100,000 during the design phase. Mr. Soltman asked if this was just for the first floor. Mr. Ewart responded in the affirmative with a description of configuration during construction. Mr. Lewis asked for clarification to the reference on funding. Mr. Ewart responded the funding is from the university’s reserves. Mr. Westerberg asked about the actual disposable reserves of the university. Mr. Ewart responded the FY 14 numbers submitted reported about $15.4 million, which does fall below the Board’s recommended level of 5% of operating costs. There was additional discussion about using reserves when they are below the amount recommended by the Board. Mr. Ewart responded both projects are high profile and the university feels they are critical to enrollment activities. The university feels that this is a good use of reserve funds. He indicated he would be providing an FY 15 report to the Board very soon on unrestricted assets.

9. University of Idaho – Independent Study in Idaho (ISI) fee

BOARD ACTION
M/S (Lewis/Hill): To approve the request to set the per-credit fee for ISI’s online, undergraduate-level courses at $160 per credit, and the per-credit fee for graduate-level courses at $200 per credit. The motion passed unanimously.

Mr. Freeman introduced the item, also indicating policy V.R. would be amended in the future. Ms. Critchfield asked how UI has been operating since the last increase was in 2004. Dr. Staben responded it has been somewhat of at a break-even level.

DEPARTMENT OF EDUCATION

1. Superintendent of Public Instruction Update

Superintendent of Public Instruction, Ms. Sherri Ybarra, provided a brief report from the State Department of Education. Ms. Ybarra reported they are working on an improved budget process, and Council for Chief State School Officers (CCSSO) recently completed a capacity review of resources to review the ability of the Department to carry out its vision. The Department has hired a professional planner to assist with their strategic plan, along with a performance officer to assist with carrying out that vision. Related to mastery based education, the Department will use CCSSO for input. She reported on possible legislation with regarding rural schools and also transportation.

Ms. Atchley asked about convening a committee to look at standards. Ms. Ybarra responded they review the standards every five years and have started the Idaho Core Challenge where people can give their comments on the standards. Dr. Rush asked how they intend to vet the comments with the broad general public on whether they support or do not support the content. Ms. Ybarra responded they have a process and group in place for vetting.

2. Proposed Rule – IDAPA 08.02.03.004., Rules Governing Thoroughness - Documents Incorporated by Reference

BOARD ACTION

M/S (Ybarra/Critchfield): To approve the Proposed Rule amendment to IDAPA 08.02.03.004 Rules Governing Thoroughness, Incorporation by Reference, as submitted in Attachment 1. The motion passed unanimously.

3. Annual Report - Hardship Elementary School – Cassia County School District #151, Albion Elementary School

Ms. Ybarra reported on the information item related to a school to be considered a hardship school requires the district to inform the Board of the hardship status. This particular school has been in hardship status since 1999. Ms. Atchley asked what the impact is of having hardship status. Mr. Tim Hill, Deputy Superintendent from the Department, responded that by granting a school a hardship status it is funded as a separate school defined in statute as being more than ten miles away from the nearest elementary school in the district as well as the administrative office. In so doing, the
school district receives an additional $100,000 for that school. Per the district, they would not be able to operate the school without the additional funding, and would need to bus the student over a dangerous route to another school.

Mr. Westerberg and Mr. Hill asked who evaluates whether the school meets the hardship requirement. Ms. Bent responded that the past practice has been for the Department to do the evaluation and provide a recommendation. Ms. Ybarra indicated their executive team reviews the hardship schools.

INSTRUCTION, RESEARCH & STUDENT AFFAIRS (IRSA)

1. College Admissions Initiatives

Mr. Blake Youde, Chief Communications Officer, and Mr. Carson Howell, Director of Research, both from the Board office, introduced the item. Accompanying them from Strategies 360 was Casey Bender, Senior Account Manager for Idaho. As an introduction, Mr. Howell reported on the go-on rates that 55% of students go on to college, 32% go to a public college, and 18% go on to other. About 50% do not go on to college. Mr. Youde reviewed the college admissions initiative and its intent of getting high school graduates to go on to college. The purpose is to proactively admit high school seniors to Idaho colleges and universities based on their GPA and college admissions test score. The initiative supports the Board’s goal of having a well-educated citizenry as well as its 60% goal.

Mr. Youde indicated the three (3) initiatives are: Direct Admissions, Next Steps Idaho website, and the On-Line Common Application. He described each of them and that Board staff has worked closely with the College and University Presidents to develop the Direct Admissions proposal. He pointed out that if approved by the Board, the Direct Admissions proposal can be implemented in Fall 2015 for students entering higher education in Fall 2016.

Mr. Youde reviewed the language contained in the admissions letter a student might receive. For students below the benchmark, they would also get a letter from the State Board notifying them of admission to six Idaho public higher education institutions. Students will be encouraged to review the individual admissions requirements for those institutions. Mr. Youde reviewed the schedule for direct admissions and remarked that there may be a way to credit their application fee back to the student and they are currently working through details with the institutions.

Ms. Casey Bender highlighted the Next Steps Idaho website that will serve as a clearinghouse for students, parents and educators. She highlighted what has come from their research and that students seek information from trusted research. In collaboration with the state Board staff, they have created a brand which is Next Steps Idaho. The website is scheduled to go live on August 1, 2015. While the emphasis is on college, there will be information on professional technical courses, etc. She reviewed the different pages of the website and how it is designed for students, parents, educators, etc. Mr. Howell and Mr. Youde clarified additional questions about the direct
admissions initiative.

2. Amendment to Board Policy – Section III.Z. – Planning and Coordination of Academic Programs and Courses – First Reading

BOARD ACTION

M/S (Soltman/Goesling): To approve the first reading of proposed amendments to Board Policy III.Z, Planning and Delivery of Postsecondary Programs and Courses as submitted in Attachment 1. The motion passed unanimously.

Ms. Sanchez provided a brief overview of the proposed amendments indicating Board staff worked with the CAAP Committee to propose policy amendments that would remove the needs assessment and budget piece requirement from the planning process; change the review cycle to an annual review; and other minor stylistic changes. She indicated that removing that level of specificity removes unnecessary burden on Board staff and on the institutions. Additionally, the previously required level of information has not historically been shared with the Board because of the speculative level of the responses. Board staff and the provosts believe it would be more valuable to provide such detail at the program proposal development stage (where it is currently provided). She reviewed the original intent of the policy which is to assure the educational and workforce needs of the state are met and to prevent inefficient duplication of effort.

Dr. Goesling requested staff review the multi-state program partnerships related to the policy.

3. Amendment to Board Policy – Section III.N. – General Education – Second Reading

BOARD ACTION

M/S (Soltman/Hill): To approve the Second Reading of the proposed amendments to Board Policy III.N, General Education as presented, effective Fall 2015. The motion passed unanimously.

4. Amendment to Board Policy – Section III.O. – Curriculum Equivalency Schedules – Repeal – Second Reading

BOARD ACTION

M/S (Soltman/Hill): To approve the Second Reading of amendments to Board Policy III.O, Curriculum and Equivalency Schedules, repealing the section in its entirety. The motion passed unanimously.

5. Amendment to Board Policy III.S. – Developmental and Remedial Education – Second Reading
BOARD ACTION

M/S (Soltman/Goesling): To approve the Second Reading of proposed amendments to Board Policy III.S. Remedial Education as submitted in Attachment 1. The motion passed unanimously.

6. Amendment to Board Policy – Section III.V. – Articulation and Transfer – Second Reading

BOARD ACTION

M/S (Soltman/Hill): To approve the Second Reading of proposed amendments to Board Policy III. V, Articulation and Transfer as submitted in Attachment 1. The motion passed unanimously.

ELECTION OF OFFICERS

M/S (Westerberg/Hill): To elect Don Soltman as Board President, Emma Atchley as Vice President, and Bill Goesling as Secretary. The motion passed 8-0.

Mr. Westerberg thanked and recognized the work of Ms. Atchley as Board President over the past year and remarked on the progress made by the Board under her leadership.

OTHER BUSINESS

There being no further business, a motion to adjourn was entertained.

M/S (Hill/Goesling): To adjourn the meeting at 3:47 p.m. Pacific Time. The motion carried unanimously.

SUBJECT
Five-Year Program Plan

REFERENCE
August 2012 The Board approved the first iteration of the Five-Year Program Plan.
August 2013 The Board approved the Five-Year Program Plan update.

APPLICABLE STATUTE, RULE, OR POLICY
Board Policy Section III.Z. Planning and Delivery of Postsecondary Programs and Courses, Section 33-113, Idaho Code.

BACKGROUND/DISCUSSION
Board Policy III.Z.2.a.ii, requires that institutions create plans in alignment with their Statewide and Service Region Program responsibilities that describe proposed programs to be offered over a five year period and all programs currently offered. Board staff reviews institution plans for alignment with statutory and policy requirements, program responsibilities, and duplication.

On April 14, 2015, Board staff coordinated a work session with the provosts to review draft institution plans, statewide needs, and to identify and discuss programs that could potentially be viewed as duplicative or in conflict with Statewide Program responsibilities. Institutions identified programs that would require further clarification and discussion and were instructed to work through those in preparation for the Instruction, Research, and Student Affairs (IRSA) Committee meeting on July 30, 2015.

IMPACT
The Five-Year Plan will provide a comprehensive picture of anticipated institutional academic program development. The Five-Year Plan is intended to serve as the foundation for advising and informing the Board in its efforts to coordinate educational programs throughout the State. Approval of the Five-Year Plan will provide the institutions with the ability to proceed to a program proposal development stage.

ATTACHMENTS
Attachment 1 – Five-Year Planning Cycle and Schedule Page 5
Attachment 2 – The Five-Year Plan Page 7

STAFF COMMENTS AND RECOMMENDATIONS
As part of the proposed program planning process, institutions met in April 2015 to discuss areas of concern and potential collaboration opportunities. There are several notable collaborative projects and two proposed programs that required in-depth discussion.

**Collaborations**

Idaho State University and Boise State University, with participation from the University of Idaho propose to offer a joint program in Bioinformatics for Fall 2017. Students will join the program as juniors or seniors and earn a B.S. in biology, computer science, mathematics, biochemistry, etc., The 5th (graduate) year will be devoted primarily to research experience and three program-specific courses.

Lewis-Clark State College (LCSC) and North Idaho College (NIC) will collaborate to offer a Pharmacy Technician certificate for Fall 2017. The new curriculum is designed to meet the accreditation requirements for the American Society of Health-System Pharmacists. LCSC will also be collaborating with NIC to offer an Associate of Applied Science in Dental Hygiene for Fall 2017. The current partnership with Layne Community College will be phased out if the partnership with NIC is secured.

**Programs Identified for Discussion**

Boise State University (BSU) is proposing a new Ph.D. in Ecology, Evolution, and Behavior for the 2017-18 academic year. The program will be offered in a traditional format in Boise. The proposed program is not new to the plan and was originally added in 2013-14. At that time, the University of Idaho felt BSU's proposed Ph.D. program duplicated three of its existing Ph.D. programs. Those include Natural Resources, Biology, and Environmental Science. During this year’s work session, the University of Idaho (UI) reiterated their concerns regarding duplication. Current Board policy III.Z does not assign a statewide program responsibility for Ecology programs to any institution. Given the recent administrative changes at the UI, Board staff recommends BSU and UI continue this discussion to determine whether concerns remain.

The College of Western Idaho (CWI) is proposing an Associate of Applied Science in Radiologic Technology for the 2019-20 academic year. The proposed program would prepare students to become a radiologic technologist or “RadTech”. Students would practice their newly acquired diagnostic imaging skills in a modern radiographic laboratory and learning center on campus under the direct supervision of qualified staff. At the April work session, BSU expressed concerns about the likely competitiveness of clinical sites for its existing B.S., Diagnostic Radiology program, if CWI were to offer a Radiologic Technology program in the Treasure Valley. Both institutions agreed that ongoing discussion is necessary as CWI continues to explore the viability of the proposed program.
IRSA reviewed the five-year plan at their July 30, 2015 meeting and will be prepared to discuss at the Board’s work session.

Staff recommends approval of the Five-Year Plans as submitted in attachment 2.

**BOARD ACTION**
I move to approve the Five-Year Plan as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
Five-Year Plans
Consistent with Board Policy III.Z., institutions will develop a Five-Year Plan in accordance with a timeline developed by the CAO.

Program Inventory
August 25, 2014
OSBE will provide the Current Program Inventory to institutions for updates. Institutions will review inventory and provide specific detailed information for new approved programs to be added to the inventory. No variations will be accepted.

DUE DATE
Institutions will submit their Program Inventory to Patty Sanchez no later than September 19, 2014.

Work Session
April 14, 2015 in Moscow, ID
A work session with Provosts and Regional Off-Campus Site Representatives will be held to review and discuss proposed programs for the Five-Year Plan.

DUE DATE
Institutions will submit the Proposed Programs to Patty Sanchez in final form by March 6, 2015. Drafts will be shared with institutions by March 16, 2015. Institutions should start working through programs identified from other institutions.

Proposed Programs
September 22, 2014
OSBE will provide the Proposed Programs to institutions for updates. Institutions will add specific detailed information for proposed programs projected out for Academic Years 2015-16, 2016-17, 2017-18 to their Proposed Programs list.

Work Session Follow-up
Institutions will make necessary corrections to program entries based on discussion at work session.

DUE DATE
Institutions must provide feedback on proposed programs no later than April 30, 2015.

CAO Review
May 2015
The Chief Academic Officer will review proposed programs for alignment. If changes and/or recommendations to the Board are made, CAO will take those to IRSA Committee at their June 2015 meeting.

Final Five-Year Plans
August 2015
Final Five-Year Plans are presented to the full Board on August 12-13, 2015.

Draft Plans
June 2015
Draft Five-Year Plans will be presented to IRSA Committee at their June meeting.

**Program Inventory** ................................................................................................................. Page 99
The State Board of Education established in alignment with Board Policy III.Z., a comprehensive process for the planning and delivery of postsecondary education. Consistent with this policy, institutions create an institution plan that describes all current programs and proposed programs to be offered in alignment with each institution’s Statewide and Service Region Program Responsibilities. The process requires that institutions provide a level of programmatic information and specificity for each current program being offered and for each proposed program as part of the five-year plan development.

**Statewide Program Responsibility**

In accordance with Board Policy III.Z.1.f, “Statewide Program Responsibility shall mean an institution’s responsibility to offer and deliver a Statewide Program in all regions of the state. Statewide Program Responsibilities are assigned to a specific institution by the Board, taking into account the degree to which such program is uniquely provided by the institution.”

**Service Region Program Responsibility**

In accordance with Board Policy III.Z.1.e, “Service Region Program Responsibility shall mean an institution’s responsibility to offer and deliver a Service Region Program to meet regional educational and workforce needs in its service region as defined in subsection 2.b.ii (1) and (2). Service Region Program Responsibilities are assigned to the Designated Institution in each service region, but may be offered and delivered by Partnering Institutions in accordance with the procedures outlined in this policy.”

The Five-Year Plan specifically consists of proposed programs institutions have identified they will pursue within two years of approval of the Plan. As proposed programs are developed, institutions must follow the program review process and procedures provided in Board Policy III.G, Postsecondary Program Approval and Discontinuance to acquire appropriate approvals prior to implementation of programs. If the program is to be delivered outside the institution’s service region, a Memorandum of Understanding must be developed and agreed upon in cooperation with the Board’s Chief Academic Officer prior to implementation.

The Plan also consists of a complete program inventory of programs currently being offered by Idaho’s public postsecondary institutions. Programs are listed by CIP code and then alphabetically by institution. The list includes programs, options, and degrees offered through various departments and colleges.

Consistent with Board Policy III.Z., the Plan is updated every two years. It is intended that the Five-Year Plan will provide guidance to the State Board of Education in its planning and coordination of educational programs.
Delivery of Programs

Consistent with Board Policy III.Z., “Statewide Program Responsibilities are assigned to a specific institution by the Board, taking into account the degree to which such program is uniquely provided by the institution.” The statewide program list is reviewed for alignment by the Board every two years concurrently with the update to the five-year plan.

Program offerings commencing 2015-2016 Other programs/changes projected for this academic year were processed under the Program Prioritization process.

Other programs/changes projected for this academic year were processed under the Program Prioritization process.
### Program Offerings Commencing 2015-2016

#### Computer Science
- **Degree**: B.S.
- **Region**: Region I
- **Program**: Regional
- **Anticipated Delivery Date**: Summer 2016
- **Program Description**: Traditional modality: A degree in Computer Science would enable students to work with computer and network security, games and virtual environments, embedded system, distributed and network computing, fault tolerant systems, artificial intelligence, computer architecture, software engineering, and database systems.
- **Other**: Reallocation

#### Master of Laws
- **Degree**: LL.M.
- **Region**: Region I and Region III
- **Program**: Statewide
- **Anticipated Delivery Date**: Summer 2016
- **Program Description**: Traditional modality: The Master of Laws (LLM) degree will primarily introduce international students to the U.S. legal system and allow them to focus their studies in one of our five emphasis areas for J.D. students or design a curriculum that prepares them to take a bar exam in the U.S. U.S. students can also enroll in the LLM to enhance their formal education in one of our curricular strength areas. (LLM) with five emphasis areas: U.S. Legal Systems, Democracy, & Justice; Natural Resources & Environmental Law; Business Law & Entrepreneurship; Litigation & Alternative Dispute Resolution; and Native American Law. *The LLM will be requested as a new listing in III.Z. with statewide responsibility.*
- **Other**: Reallocation

#### Arts Entrepreneurship
- **Degree**: B.S.
- **Region**: Region I
- **Program**: Regional
- **Anticipated Delivery Date**: Summer 2016
- **Program Description**: Traditional modality: The degree will focus on music, music business, and Entrepreneurship.
- **Other**: Reallocation

#### Reproductive Biology Certificate
- **Degree**: Graduate Certificate
- **Region**: Region I
- **Program**: Regional
- **Anticipated Delivery Date**: Summer 2016
- **Program Description**: Traditional modality: The certificate is appropriate for graduate students or professionals majoring in a variety of biology disciplines who wish to develop a specific level of expertise in the area of reproductive biology that is useful for the student to advance their professional careers.
- **Other**: Discontinue

</table>
### Analytics Certificate
- **Program Title:** Analytics Certificate
- **Degree Level/Certificate:** Graduate Certificate
- **Region:** Region I
- **Program Responsibility:** Regional
- **Anticipated Delivery Date:** Summer 2017
- **Program Description:**
  Hybrid/combination modality: This certificate would provide a credential of expertise in the emerging field of analytics, or modern applied data analysis. It would be useful to workers in health care or business jobs where handling large data sets is important. The curricular objective would be to develop this expertise without the more intense mathematical prerequisites of a pure statistics program.
- **Anticipated Resources:** Reallocation

### Mathematics Education
- **Program Title:** Mathematics Education
- **Degree Level/Certificate:** Ph.D.
- **Region:** Region I
- **Program Responsibility:** Regional
- **Anticipated Delivery Date:** Summer 2017
- **Program Description:**
  Traditional modality: The PhD in Mathematics Education Degree prepares students to pursue a career as a College Professor specializing in pre-service and in-service education of Mathematics teachers as well as the furthering of research in Mathematics Education.
- **Anticipated Resources:** Reallocation

### GIS Certificate
- **Program Title:** GIS Certificate
- **Degree Level/Certificate:** Graduate Certificate
- **Region:** Region I and Region III
- **Program Responsibility:** Regional
- **Anticipated Delivery Date:** Summer 2017
- **Program Description:**
  Hybrid/combination modality: the existing GIS certificate (offered in north & southwest regions) was designated "undergraduate" a couple of years ago when it became necessary to choose grad or undergrad designations. The undergraduate designation made more sense for Moscow students, but has diminished the usefulness for professional audiences in Coeur d'Alene & Boise. UI seeks to expand the certificate to offer a graduate option as well. This graduate GIS certificate will have a focus distinct from existing programs by including basic principles of spatial science & applications in transportation, business, demographics & advanced topics in GIS. It will provide students w/skills needed by employers in both private & public sectors (eg., city & county planning offices, county assessors, transportation depts., & business location decision-making).

## COSE Programs and Roles

### Interdisciplinary Associate of Science

**Degree Level/Certificate:** AS<br>**Region:** Region V<br>**Program Description:** CoSE's current evaluation is that there is no demand among BS engineering or the majority of science BS students for an additional AS degree. The Physics A.S. degree has a small market but given that there is no additional cost this will not be changed. Occasionally there is corporate demand for the AS in Physics with emphasis in Health Physics. This degree is otherwise dormant. This option will remain available but dormant being used to respond to cooperate demand when it arises. Contrary to the preliminary Program Prioritization efforts, no change to these programs is currently being described. Program will be delivered traditional format.

### Masters Health Informatics

**Degree Level/Certificate:** MHI<br>**Region:** Region V<br>**Program Description:** The online/hybrid MHI will be delivered as a mix of traditional classroom instruction and online classes. Depending on program enrollments and student demand, a fully online degree option would follow.

### Esthetics

**Degree Level/Certificate:** BTC, ITC<br>**Region:** Region V<br>**Program Description:** This program will train skincare specialist to evaluate clients' skin condition and appearance, discuss treatments and products for skin quality improvement, remove hair through wax or laser treatment, apply makeup, and other cosmetic procedures related to esthetics. Graduates of the program must pass a state exam for licensure. Program will be delivered traditional format.

### Community Paramedic

**Degree Level/Certificate:** Certificate<br>**Region:** Region III<br>**Program Description:** This will be a stand-alone certificate for licensed paramedics as well as an area of emphasis under the B.S. in Emergency Medical Services. Certificate will be offered online.

<tr>
<td>Entrepreneurship</td>
<td>Certificate</td>
<td>Region V</td>
<td>Regional</td>
<td>2017-2018</td>
<td>The Certificate in Entrepreneurship provides a strong foundation for launching and successfully operating a small business venture. The curriculum spans all stages of small business development, from defining an idea to finding and managing your finances to building marketing strategies and managing your operation. The capstone course teaches you how to finalize your business plan and put into practice the next steps to executing and managing a successful business. Program will be delivered traditional format.</td>
<td>Reallocation of resources</td>
</tr>
<tr>
<td>Dietetic Internship with Combined Master's Program and/or Health Education</td>
<td>Masters</td>
<td>Region III</td>
<td>Regional</td>
<td>2017-2018</td>
<td>Accrediting body has not yet determined required competencies. Dietetic Internship is open to graduates nationwide who have completed a prescribed course of study in foods and nutrition, called the Didactic Program in Dietetics (DPD), accredited by the Academy of Nutrition and Dietetics. The Dietetic Internship would partner with an existing graduate program (e.g. Master of Public Health or Master of Health Education) to offer a combined internship/master’s program. Existing graduate programs could possibly have a nutrition track or emphasis in addition to already offered emphasis areas for dietetic interns to choose from. Program/internship will be delivered online or traditional format.</td>
<td>Professional fees from the dietetic internship along with reallocation of funds will be used to pay for this program. No new money requests are expected at this time.</td>

### Performing Arts Administration
- **Degree Level/Certificate**: Undergraduate Certificate
- **Region**: Region III
- **Program**: Regional
- **Anticipated Delivery Date**: Fall 2017
- **Program Description**: This program will prepare individuals to apply business management principles to the management of theatres and production corporations. Includes instruction in theatrical production, theatre design and planning, fund-raising and promotion, investment strategies, human resources management, theatre operations management, marketing, public relations, financial management and insurance, and applicable laws and regulations. Traditional Method of Delivery
- **Anticipated Resources**: No additional cost to offer program

### Musical Theatre
- **Degree Level/Certificate**: BA
- **Region**: Region III
- **Program**: Regional
- **Anticipated Delivery Date**: Fall 2017
- **Program Description**: This program will focus on the principles and techniques for integrating theatre, music, and dance into a unified production. Includes instruction in acting, dance, voice, technical theater, musical genres, piano, and history of musical theater. Traditional Method of Delivery
- **Anticipated Resources**: Reallocation

### Spanish
- **Degree Level/Certificate**: MA
- **Region**: Region III
- **Program**: Regional
- **Anticipated Delivery Date**: Fall 2017
- **Program Description**: This program focuses on the Spanish language and related dialects. Includes instruction in philology; Modern Castillan; Latin American and regional Spanish dialects; and applications in business, science/technology, and other settings. Traditional Method of Delivery
- **Anticipated Resources**: Reallocation

### Big Data Analytics
- **Degree Level/Certificate**: MS
- **Region**: Region III
- **Program**: Regional
- **Anticipated Delivery Date**: Fall 2017
- **Program Description**: A program that focuses on the application of statistical modeling, data warehousing, data mining, programming, forecasting and operations research techniques to the analysis of problems of business organization and performance. Includes instruction in optimization theory and mathematical techniques, data mining, data warehousing, stochastic and dynamic modeling, operations analysis, and the design and testing of prototype systems and evaluation models. Traditional Method of Delivery
- **Anticipated Resources**: No additional cost to offer program
**Program offerings commencing 2018-2019**

SUBJECT
   Board Operations and Planning

BACKGROUND/DISCUSSION
   The purpose of this work session item is for Board staff to discuss with the Board how and why the Board meetings are structured the way they are and any changes the Board may want to see to better facilitate more in-depth policy discussions.

   As part of the discussion, Board members will have an opportunity to discuss/identify:

   - Delegating items to their chief executive officers through Board policy.

   - How the Board accomplishes its dual role of as the governing and policymaking body for Idaho public education from kindergarten through college, as well as the Board’s role as the Board of Regents or Board of Trustees for the state’s public four-year institutions and technical college and the accreditation implication that accompany this role.

   - How the Board would like informational items presented to them to better inform decision making and discussion and the timing for information prior to required Board action.

   - How the Board would like to handle long range planning for the state’s public education system beyond the annual review and more in-depth five year updates to the Boards strategic plan, including but not limited to identifying potential large scale or significant changes to the education system.

IMPACT
   This work session will provide the Board an opportunity to discuss any changes they would like to the Board meeting agenda material as well as policy changes that would allow the Board to fulfill its statutory duties while also providing opportunities for more engaged discussions around items critical to the future of public elementary, secondary and higher education in Idaho.

## BOARD ACTION

I move to approve the Consent Agenda as presented.

Moved by _________ Seconded by ___________ Carried Yes _____ No _____
CONSENT AGENDA
AUGUST 13, 2015

SUBJECT
President Approved Alcohol Permits Report

APPLICABLE STATUTE, RULE, OR POLICY

BACKGROUND/DISCUSSION
The chief executive officer of each institution may waive the prohibition against
possession or consumption of alcoholic beverages only as permitted by, and in
compliance with, Board policy. Immediately upon issuance of an Alcohol Beverage
Permit, a complete copy of the application and the permit shall be delivered to the
Office of the State Board of Education, and Board staff shall disclose the issuance
of the permit to the Board no later than the next Board meeting.

The last update presented to the Board was at the June 2015 Board meeting. Since
that meeting, Board staff has received twenty-three (23) permits from Boise State
University, nine (9) permits from Idaho State University, and eleven (11) permits
from the University of Idaho.

Copies of the permits are available for review at the Board office.

BOARD ACTION
This item is for informational purposes only. Any action will be at the Board’s
discretion.
SUBJECT
Accountability Oversight Committee (Committee) Appointments

REFERENCE
April 2010  Board approved second reading of Board Policy III.AA, creating the Accountability Oversight Committee
June 2011  Board approved reappointments for Senator Goedde and Jackie Thomason to the Accountability Oversight Committee
June 2012  Board approved Christine Donnell’s reappointment to the Accountability Oversight Committee
December 2012  Board approved second reading to Board Policy III.AA. and moved to section I.Q..
February 2013  Board approved Spencer Barzee’s appointment to the Accountability Oversight Committee
June 2013  Board approved the reappointment of John Goedde to the Accountability Oversight Committee.
June 2015  Board approved second reading to amend Board Policy I.Q.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section III.AA. Accountability Oversight Committee

BACKGROUND/DISCUSSION
The Accountability Oversight Committee was established in April 2010 as an ad-hoc committee of the Idaho State Board of Education. It provides oversight of the K-12 statewide assessment system, ensures effectiveness of the statewide system, and recommends improvements or changes as needed to the Board.

The committee consists of:
• The Superintendent of Public Instruction or designee,
• Two Board members,
• Four at-large members appointed by the Board, one of which will chair the committee, and
• is staffed by the Board’s Accountability Program Manager.

John Goedde and Jackie Thomason have served on the committee as at-large members since the committee’s inception. Their current appointments ended June 30, 2015; the committee has recommended them for reappointment.

The Accountability Oversight Committee currently has a vacancy, as Christine Donnell did not seek reappointment when her term concluded on June 30, 2014. The committee recommends Dr. Deborah Hedeen, Dean of the College of
Education of Idaho State University, for appointment to the committee. To maintain the committee’s staggered term schedule, the committee recommends that Dr. Hedeen be appointed for one year to complete the 2014 to 2016 term for the open seat; Dr. Hedeen could then be re-appointed for a full two-year term.

IMPACT
Approval of John Goedde, Jackie Thomason, and Deborah Hedeen will fill all the at-large seats on the Committee through June 30, 2016.

STAFF COMMENTS AND RECOMMENDATIONS
Staff recommends approval

BOARD ACTION
I move to approve the reappointment of John Goedde and Jackie Thomason to the Accountability Oversight Committee for a term of 2 years commencing July 1, 2015 and ending on June 30, 2017.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

I move to approve the appointment of Dr. Deborah Hedeen to the Accountability Oversight Committee for a term of 1 year commencing July 1, 2015 and ending on June 30, 2016.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
SUBJECT
Adoption of curricular materials and related instructional materials as recommended by the Curricular Materials Selection Committee.

APPLICABLE STATUTE, RULE, OR POLICY
Section 33-118, 333-118A Idaho Code
Idaho Administrative Code 08.02.03.128, subsection 128

BACKGROUND/DISCUSSION
The Administrative Rules of the State Board of Education, IDAPA 08.02.03.128.01.128.02 describe the adoption process for curricular materials as an adoption cycle of six (6) years. Curricular materials are defined as "textbook and instructional media including software, audio/visual media and internet resources" (Idaho Code 33-118A). The Curricular Materials Selection Committee is charged with the responsibility to screen, evaluate, and recommend curricular materials for adoption by the State Board of Education.

For 2015, the main adoption cycle is curricular materials in the subject area of Mathematics and Driver Education. Interim adoption clause allows for submissions in the subject area of Professional-Technical Education. Annual adoption continues for Computer Applications.

This year the curricular materials review week was held June 15-19, 2015. Seventy-seven content area specialists assisted the eleven selection committee members in the evaluation of the curricular materials.

ATTACHMENTS
Attachment 1 - 2015 Curricular Materials Recommendations Document Page 3

BOARD ACTION
I move to approve the adoption of Mathematics, Professional-Technical Education, Driver Education and Computer Applications curricular materials and related instructional materials as recommended by the Curricular Materials Selection Committee as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No ______
2015 Curricular Materials Recommendations

Curricular Materials Adoption Process

Idaho State Department of Education
Sherri Ybarra,
State Superintendent of Public Instruction
Introduction

The State Curricular Materials Selection Committee is pleased to submit the following materials for your consideration for adoption in the state of Idaho. The 2015 Session called for reviewing curricular materials in the main subject area of Driver Education and Mathematics, interim materials in Professional-Technical Education, and annual materials in Computer Applications.

Several of these materials have accompanying electronic instructional media. Others are deliverable via CD-ROM or the Online on the Internet.

The Curricular Materials Selection Committee considers their work an important contribution to the educational process in Idaho. This Committee reflects the diversity of Idaho’s population both geographically and philosophically. Occasionally the approval of a certain material is not a unanimous decision by the Committee.
The Curricular Materials adoption process has its basis in Idaho Code (33-118, 333-118A). It is further defined in the Administrative Rules of the State Board of Education (SBOE), IDAPA 08.02.03, subsection 128.

The Adoption Process in Idaho provides for the continuous review and evaluation of new curricular materials. This process ensures that Idaho schools have quality products available to purchase at a guaranteed low price, and equal availability to all Idaho school districts. This process maintains local control in the choice of instruction materials by providing multiple lists of approved materials. The adoption process also provides, through a contract with each publisher, a contract price that is good for the length of the adoption cycle. This ensures quality for each school district and allows for the best materials at the lowest possible price for Idaho’s schools. It is recommended that districts choose materials from the list of vetted and approved materials. School districts are not required to choose materials from this list.

Idaho adopts materials in the areas of English Language Arts, Dictionary, Thesaurus, and Speech; Limited English Proficiency/English Language Development; Mathematics; Professional Technical Education: Agriculture and Natural Resources, Business and Marketing Education, Engineering and Technology, Family and Consumer Sciences, Health Professions, Individualized Occupational Training, and Skilled and Technical Sciences; Humanities: Interdisciplinary, World Languages, Art, Drama/Theatre, Dance, Music; Drivers Education; Healthy Life Styles: Health/Wellness, and Physical Education; Social Studies: History, Geography, and Government; Economics; Psychology; Sociology; Science; and Computer Applications (adopted annually).

Materials are adopted in Idaho on a six-year rotating schedule. Publishers have an additional one year following the main adoption year to submit new copyrights for a particular content area, allowing each of the content area submissions a total of two years. The intent of the adoption process is to generally approve all materials meeting the established criteria and to reject those items that are considered unsuitable for use in their designated subject area.

There are advantages to adopting curricular materials at the state level:

- Contract prices are adhered to for six years (five years for interim adopted materials), which saves money for the schools.
- Publishers are required to lower the price to Idaho if they lower it to any other state after the Idaho contract has been signed.
- Most textbook publishers maintain inventory at the state depository, Caxton Printers, Ltd. which reduces delivery time and shipping costs.
- Contracts help ensure adopted materials will be available for the life of the contract (6 years).
- Materials are screened for quality, organization, vocabulary and graphic presentation. Textbooks publishers must submit Manufacturing Standards and Specifications for Textbooks (MSST) standards compliance form for each title.
- Materials are screened for fair representation on such issues as environment and industry.
• Instructional materials are screened and thoroughly reviewed by subject area experts to ensure that essential elements are covered.
• Any materials reflecting adversely upon individuals or groups due to race, ethnicity, class, gender, or religion are not approved.
• Small school districts are guaranteed to get the same textbooks and complementary materials as larger school systems.

Curricular materials in Idaho are defined as textbooks and instructional media including software, audio/visual material and internet based instructional material (Idaho Code 33-118A). Idaho is a multiple adoption state and adopts a number of materials in a designated subject area from a variety of publishing companies. This is consistent with the belief that a variety of materials has value and usefulness to the schools.

The Curricular Materials Selection Committee, which is appointed by the State Board of Education (SBOE), has the responsibility of overseeing the adoption process for the state. The Executive Secretary of this Committee is an employee of the State Department of Education (SDE).

The membership on the Selection Committee is comprised of at least 10 members who may include:
• secondary administrator(s)
• elementary administrator(s)
• secondary teacher(s)
• elementary teacher(s)
• parent representative(s)
• district school board member(s)
• representative from private/parochial schools
• representative who is not a public school educator nor trustee
• representative(s) from the state’s colleges of education
• representative from the Division of Professional-Technical Education
• content area coordinator(s) from the State Department of Education
• the Executive Secretary from the State Department of Education

All members are appointed by the SBOE for a five-year term with the exception of the SDE content coordinators and the representative from Professional-Technical Education who serve for one year. Current Committee members are listed in a separate document.

The Committee, assisted by specialists from throughout the state, meet for one week in June to review and correlate all materials to the Common Core State Standards and/or the Idaho Content Standards and specific course requirements. The Committee votes on the materials and those recommended are forwarded to the SBOE for official adoption for Idaho Schools. All meetings of the Committee are open to the public.

Following formal adoption, contracts are mailed to the publishing companies. After the return of signed contracts, the listing of newly adopted materials will be published in the State Department of Education website Adoption Guide found at: http://www.sde.idaho.gov/site/curricular_materials/adoptions_guide.htm.

A state curriculum library is maintained at Caxton as required by Idaho Code 118A. Adopted materials are housed in this library and available to the public. In addition, seven (7) Regional Centers maintain libraries of adopted materials that are available to the public as well as college students and local schools. The Regional Centers are located as follows:
Complete addresses for the Regional Centers can be found at the Schools/Regional Centers link: http://www.sde.idaho.gov/site/curricular_materials/.

The citizens of Idaho may request that the Committee reconsider any material under adoption. The Textbook Adoption Process: Request for Reconsideration of Materials form can be found at Schools/Request for Reconsideration of Materials Form: https://www.sde.idaho.gov/site/curricular_materials/.

The Committee considers all requests and maintains the rights to either recommend continued adoption or remove any materials from the adopted list.

2015 Curricular Materials and Online Resources Recommendations

Curricular Materials Recommendations – Main Year Adoptions
It was moved by _Laree Jensen_, seconded by _Darlene Dyer_, and carried that the curricular materials listed and marked as approved in the Subject Area Review Books for the Main Year Adoptions of Mathematics and Driver Education materials and their accompanying ancillary materials, notes, and where indicated, instructional software, be recommended by the Idaho State Curricular Materials Selection Committee to the Idaho State Board of Education for adoption and use in the public schools of Idaho in accordance with the policies and regulations of the Idaho State Board of Education.

Curricular Materials Recommendations – Annual Adoption
It was moved by _Tara Drexler_, seconded by _Kristi Enger_, and carried that the curricular materials listed and marked as approved in the Subject Area Review Books for the Annual Adoption of Computer Applications materials and their accompanying ancillary materials, notes, and where indicated, instructional software, be recommended by the Idaho State Curricular Materials Selection Committee to the Idaho State Board of Education for adoption and use in the public schools of Idaho in accordance with the policies and regulations of the Idaho State Board of Education.

Curricular Materials Recommendations - Interim Year Adoption
It was moved by _Tara Drexler_, seconded by _Kristi Enger_, and carried that the curricular materials listed and marked as approved in the Subject Area Review Books for the Interim Year Adoption of Professional-Technical Education materials and their accompanying ancillary materials, notes, and where indicated, instructional software, be recommended by the Idaho State Curricular Materials Selection Committee to the Idaho State Board of Education for adoption and use in the public schools of Idaho in accordance with the policies and regulations of the Idaho State Board of Education.

Adjournment
Motion for adjournment was made by Lisa Olsen, seconded by a Unanimous Vote, and carried to adjourn the meeting on June 19, 2015.

Respectfully submitted,

Kathy Gauby
Executive Secretary

Notes: Strengths: Very strong course. Great supplemental materials. Appropriate grade level. Weaknesses: Test booklet is not practical. Need materials on a DVD. Sequencing of two chapters seems strange to the way we teach the course, but workable.

Key Features: AAA’s How to Drive is a very customizable and easy to use classroom curriculum with the ability to handle up to 40 hours of classroom instruction. The key features are as follows:
- Easy to use How to Drive Instructor Guide contains: 450 customizable PowerPoint slides, Chapter Quizzes for each of the 17 chapters including the course Final exam.
- 3.5 hour video content filmed in 2012 (English, Spanish and Closed Captioned)
- Up to date content covering distracted driving, texting and other relevant topics.
- Easy to use and customize by the Instructor to fit their particular need and style.
Student manual is easy to read and contains colorful graphs, and images to depict the content. Not a text heavy book.

<tr>
<td></td>
<td>Notes: Very rigorous AP program that covers ALL AP topics, Test prep, etc. Reading level is accessible. Hands on activities are in all units. Strengths: Organization of solutions -state, plan, do, conclude, Precise language consistent throughout curriculum. Students are stringently assessed on use of connection and norms throughout the program. Students are expected to write, draw conclusions in context; experiment, and find evidence. Learning objectives in each section. Technology-toolbox is great; with graphics, instructions. Simulations are scaffolded throughout the units. Weaknesses: There is a lot of material and adapting for shorter time semesters will be difficult. Technology dependent, students without one to one devices could be at a disadvantage. Some data sets are older and subjects not as relevant anymore.</td>

<tr>
<td></td>
<td>Notes: Book is strong conceptually and graphically. Ideas are presented with more depth and consideration for graphical representations. This is translated into calculus theory. Student questions range from procedural to very high level in most chapters. Supplemental material is sparse, but has student exercises with teacher answers and tips to teach each topic. The program is weak in differentiation and adaptions for various learning styles. Strengths: Concepts-strong geometric connections. Exam view-ties questions to standards Multistep analysis problems throughout text. Teacher plans and pointers written by AP expert. Weaknesses: Adoptions for diverse learners. No overview for teacher materials –only on DVD. No activities for groups. No AP prep practice tests.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Key Features:</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Conceptual Insights encourage the student to develop a conceptual understanding of calculus by explaining important ideas clearly but informally. This understanding is critically important if students are</td>
<td></td>
<td></td>
<td></td>

</tbody>
</table>
to succeed on the exam. Graphical Insights make the crucial connection between graphical properties and the underlying concept. Another important skill for AP* success. Assumptions Matter uses short explanations and well-chosen examples to help students appreciate why hypotheses are needed in theorems. Reminders are margin notes that link back to important concepts discussed earlier. Caution notes warn students of common pitfalls they can encounter in understanding the material. Historical Perspectives are brief vignettes that place key conceptual discoveries and advancements in their historical settings. They give students a glimpse into past accomplishments of great mathematicians and an appreciation for their significance, one of the nine core goals of the AP* Calculus course. Section Summaries offer a concise recap of key points. Unique to Rogawski’s texts, these summaries are among students’ favorite aspect. Section Exercise Sets provide outstanding reinforcement and practice:
• Preliminary Exercises begin each exercise set and require little or no computation but serve to ensure students are on the ‘right page’ before beginning the core problem sets.
• Exercises vary in level of difficulty from routine, to moderate, to more challenging. Also included are questions appropriate for written response or use of technology, both problem types students face on the exam.
• Further Insights and Challenges help extend a section’s material involving far more complex and AP*-oriented problem-solving.
• Preparing for the AP* Exam features Ray Cannon’s AP* style multiple-choice and Free Response Questions.
• End-of-Chapter Review Exercises offer a comprehensive set of exercises closely coordinated with the chapter material.

Notes: This program is a great bridge between a traditional math program and a research based common core program. It includes many resources for teachers, students, and families. Strengths: Laurie’s notes in the TE provide math background, common misconceptions & implementation of 8 Mathematical Practices. Weaknesses: SE lacks cognitively demanding tasks that would engage students in deeper mathematic reasoning.

Key Features:
- What You Learned Before
- Essential Questions
- What Is Your Answer?
- Meaning of the Word
- Key Vocabulary
- Key Ideas
- Now You’re Ready
- On Your Own
- Check It Out
- Vocabulary and Concept Check
- Practice and Problem Solving
- Error Analysis
- Taking Math Deeper
- Fair Game Review
- Study Help – Graphic Organizers
- Cartoons
- Standards Assessment
- Laurie’s Notes in the Teaching Edition

**Notes:**
Good math content with opportunities to practice fluency and skill. There were some good performance tasks, with great rubrics, but could use more engaging applications. Great ELL and teacher support with some good resources. This would be a good core curriculum resource, although additional performance tasks/applications may be needed. Strengths: Good sequencing. Great examples with step-by-step explanations. Laurie’s notes in teacher edition were great. Online assessments were great. Good ELL support Performance Tasks with good Rubrics.

### Notes:

This curriculum could be used as a core but lacks real world setting that relate to science and technology. Online component are problematic. The curriculum is hard to navigate. There are 8 books, 4 students' texts. Students will need to be using 3 books all at once. In order for this program to succeed, all components need to be purchased and used. The on-line resources also need to be incorporated. Whole program is not extremely teacher friendly.

**Strengths:**
- Follows Core Standards
- Practice for students
- Problems similar to SBAC problems
- Different approach, Guided practice problems
- A lot of mathematical reasoning and synthesis
- Many writing opportunities
- Encourages student centered classroom

**Weaknesses:**
- Unit conversion problems are limited
- Vocabulary needs to be easier to find
- EL vocabulary not apparent
- Problems need to be more diverse
- Presentation of text of boring
- Lack of integration with other subjects especially science
- Suggestions for integration are not apparent in TE
- Too many different books
- Online component should be used as a resource

**Key Features:**
- Carnegie Learning research-proven curricula worktext materials provide a complete set of educational materials to inspire high school students to master mathematical concepts and skills. The instructional materials align to current Common Core Standards. Key features include the following:
  - Student-centered lessons written for the Common Core State Standards are consistent with the Standards for Mathematical Practice.
  - Problem-based lessons focus on how students think, learn, and apply knowledge. Lessons are structured to provide students with various opportunities to reason, model, and explain mathematical ideals.

The Carnegie Learning approach presents activities that use models, manipulatives, and representations that provide students with opportunities to develop strategies and reasoning that serve as the foundation for learning more abstract mathematics.

Additional practice to build numeracy skills is provided free online on the Carnegie Learning Resource Center site through the Student Skills Practice Workbook and the Student Assignments Workbook. Also available on the site are See It-Try It videos which provide direct concept instruction, checks for understanding, and videos to guide students to a deep understanding of the concept or skill.

Homework and assessments can be generated quickly through the ExamView test generator which houses all practice worksheets as well as five different tests for each text chapter.
Carnegie Learning Algebra I is a first-year algebra course for students at a variety of ability and grade levels. With this course, students generalize, formalize, and extend the mathematics they learned in the middle grades.

Table of Contents and Overview
Quantities and Relationships

Notes: Could be used as a core, but it lacks applications used in real world settings. ie. Relating concepts to science and the use of technology.
The curriculum’s online resource for students was problematic for us. We also had trouble navigating the online resources. Also, the curriculum is hard to navigate. There are 8 books total; 4 books are for the students which will need to be purchased yearly. The program is not teacher friendly. We feel the curriculum needs to be used as an entire program, not just parts.
Strengths: Follows Core Standards, Practice for students, Problems like SBAC problems, Different approaches, Guided practice problems, A lot of mathematical reason and synthesis, Many writing opportunities; Encourages student centered classroom.
Weaknesses: EL vocabulary not in student text, Vocabulary not easily found, Presentation of book in uninspiring, Lack of integration especially with science, Differentiation is not evident in TE, Too many books, Not teacher friendly.

Key Features:
Carnegie Learning research-proven curricula worktext materials provide a complete set of educational materials to inspire high school students to master mathematical concepts and skills. The instructional materials align to current Common Core Standards. Key features include the following:
Student-centered lessons written for the Common Core State Standards are consistent with the Standards for Mathematical Practice.
Problem-based lessons focus on how students think, learn, and apply knowledge
Lessons are structured to provide students with various opportunities to reason, model, and explain mathematical ideals.

The Carnegie Learning approach presents activities that use models, manipulatives, and representations that provide students with opportunities to develop strategies and reasoning that serve as the foundation for learning more abstract mathematics.

Additional practice to build numeracy skills is provided free online on the Carnegie Learning Resource Center site through the Student Skills Practice Workbook and the Student Assignments Workbook. Also available on the site are See It-Try It videos which provide direct concept instruction, checks for understanding, and videos to guide students to a deep understanding of the concept or skill.

Homework and assessments can be generated quickly through the ExamView test generator which houses all practice worksheets as well as five different tests for each text chapter.

Our Algebra II course continues to develop an understanding of function as an object and will use functions to model phenomena verbally, numerically, graphically, and symbolically while understanding the relationship between the representations and the limitations of each representation. Students will develop fluency in writing, interpreting, and translating between various forms of functions; they will use multiple strategies to solve real-world problems.

Carnegie Learning

Notes: curriculum could be used as a core, but it lacks applications used in real world settings. I.e. Relating concepts to science and the use of technology. The curriculum's online resource for students was problematic for us. Although problems are solved and accurate, the program doesn't recognized equations that are entered in a non-traditional form, for example if 2(x+4) is entered as (x+4)^2, the program would mark it wrong. Also, the curriculum is hard to navigate. There are 8 books total; 4 books are for the students which will need to be purchased yearly. Students working in skills practice will have to refer back to the student text which will become cumbersome for students and teachers. The curriculum must be purchased as a full set in order for the program to work. If not purchased as a full set, the program online resources lack the necessary components to complete the program.

Strengths: Follows Common Core, Practice for students, Problems like SBAC problems, Different approaches, Guided practice problems, A lot of mathematical reason and synthesis, Many writing opportunities, Encourages student centered classroom.

Weaknesses: EL vocabulary not in student text, Vocabulary not easily found, Presentation of book in uninspiring, Lack of integration especially with science, Differentiation is not evident in TE, Too many books, Not teacher friendly.
Key Features: Carnegie Learning research-proven curricula worktext materials provide a complete set of educational materials to inspire high school students to master mathematical concepts and skills. The instructional materials align to current Common Core Standards. Key features include the following:

Student-centered lessons written for the Common Core State Standards are consistent with the Standards for Mathematical Practice.

Problem-based lessons focus on how students think, learn, and apply knowledge.

Lessons are structured to provide students with various opportunities to reason, model, and explain mathematical ideals.

The Carnegie Learning approach presents activities that use models, manipulatives, and representations that provide students with opportunities to develop strategies and reasoning that serve as the foundation for learning more abstract mathematics.

Additional practice to build numeracy skills is provided free online on the Carnegie Learning Resource Center site through the Student Skills Practice Workbook and the Student Assignments Workbook. Also available on the site are See It-Try It videos which provide direct concept instruction, checks for understanding, and videos to guide students to a deep understanding of the concept or skill.

Homework and assessments can be generated quickly through the ExamView test generator which houses all practice worksheets as well as five different tests for each text chapter.

Geometry students build on the knowledge and skills for mathematics to strengthen their mathematical reasoning skills in Geometric contexts.

### Notes:

Course needs to be considered as a 4th year course or a statistical component in an algebra 2 core. Strong ELL resources. Does not address common core.

Strengths: Lots of examples and diagrams, visuals, points out areas to remember. Good level of trig, minimal review on Algebra 2. Examples, definitions, concept, modeling. Online transitions strong. Good ELL Resources.

Weaknesses: No depth of an intro to the topics or an overview. Modeling of the problems is basic. Most problems would be considered “easy.” Weak on high level thinking. Not strong on skills needed for calculus.

Key Features: Larson's Trigonometry is known for delivering sound, consistently structured explanations and exercises of mathematical concepts. With the ninth edition, the author continues to revolutionize the way students learn material by incorporating more real-world applications, ongoing review, and innovative technology. The methodology and execution of material provides students with the tools that they need to master trigonometry. Features include: Side-By-Side Examples help students see not only that a problem can be solved in more than one way but also how different methods--algebraically, graphically, and numerically--yield the same result. The side-by-side format also addresses many different learning styles. Algebra Helps direct students to sections of the textbook where they can review algebra skills needed to master the current topic.
Technology Features offer suggestions for effectively using tools such as calculators, graphing calculators, and spreadsheet programs to deepen student understanding of concepts, ease lengthy calculations, and provide alternate solution methods for verifying answers obtained by hand. Algebra of Calculus Examples and Exercises throughout the text emphasize various algebraic techniques used in calculus.

Vocabulary Exercises at the beginning of the exercise set for each section help students review previously learned vocabulary terms necessary to solve the section exercises.

Student Projects in various sections and online feature in-depth applied exercises with large, real-life data sets, where students create or analyze models.

Chapter Summaries include explanations and examples of the objectives taught in the chapter.

Chapter Openers highlight real-life problems that connect to the examples and exercises presented in the following chapter.

Innovative Summarize Features help students organize the lesson's key concepts into a concise summary, providing a valuable study tool at the end of each section.

Unprecedented How Do You See It? Exercises in every section present real-life problems that students solve by visual inspection using the concepts in the lesson.

Checkpoint Problems encourage immediate practice and check students' understanding of the concepts in the paired example.

Expanded Section Objectives offer students the opportunity to preview what will be presented in the upcoming section.

Enriched Remarks reinforce or expand on concepts helping students learn how to study mathematics, avoid common errors, address special cases, or show alternative or additional steps to a solution of an example.

Series Companion Website features chapter projects, data tables, assessments, study tools, video solutions, and more to support students outside the text.

<td>2013</td>
<td>9 to 12</td>
</tr>
</tbody>
</table>

Notes: Good traditional book, but not core. Could not find ELL materials.

Strengths: Online Resources, PC, Mac, ebook, mobile. Great supplemental resources, real world applications; hits the science well. Has writing prompts, doesn't focus on getting the right answer, the formulas are easy to pick out of the text. They start with functions. Examples direct students to other problems like that example.

Weaknesses: Core standards are separate from the book.

Key Features:

James Stewart and his coauthors Lothar Redlin and Saleem Watson, wrote TRIGONOMETRY to address a problem they frequently saw in their classrooms: Students who attempted to memorize facts and mimic examples—and who were not prepared to “think mathematically.” With this text, Stewart, Redlin and Watson help students learn to think mathematically and develop true, lasting problem-solving skills. Patient, clear, and accurate, TRIGONOMETRY consistently illustrates how useful and applicable trigonometry is to real life.

Features include:

- TRIGONOMETRY is structured so teachers can begin with either the unit circle approach or the right triangle approach. The different approaches lead to different applications: the unit circle approach is used in modeling harmonic motion and the right triangle approach is used in measuring distances (for example, measuring the distance to the sun or nearby stars depends on right triangle trigonometry).
- The authors make use of the graphing calculator whenever appropriate. Subsections, examples, and exercises that deal with graphing devices are labeled with an icon so that those who prefer not to use the graphing calculator can easily skip this material. For those students that use a graphing calculator, they are given a better understanding of how the calculator can work as an aid in solving problems. For students who do not use a graphing calculator, the material is presented optionally.
- Each chapter ends with a FOCUS ON MODELING section that illustrates modeling techniques as well as how trigonometry can be applied to model real-life situations. These sections, as well as others, are devoted to teaching students how to create their own mathematical models.
rather than using prefabricated formulas.
- Real-World Applications from engineering, physics, chemistry, business, biology, environmental studies, and other fields demonstrate how trigonometry is used to model real-life situations.
- Each exercise set ends with Discovery-Discussion problems that encourage students to first experiment with the concepts developed in the section and then to write about what they have learned, rather than simply look for an answer.

Review Sections and Chapter Tests are found at the end of each chapter. These are designed to help students gauge their progress. Brief answers to the odd-numbered exercises in each section, and to all questions in the Chapter Tests, are given at the back of the book.

**Notes:** There are topics from Algebra 1 & 2 and combined them. This is not a book meant to address the standards. Would not use this book for a class, but for a select few students. Students would not be ready for pre-calculus when they complete this book.

**Strengths:** Serves as a book of direct instruction if student wants to study only algebra. Companion website will give support to student. Great to review basics.

**Weaknesses:** traditional approach, not rigorous, no help in presenting material in a variety of ways. No innovation, no differentiation, skills based only.

### Key Features:

James Stewart and his coauthors Lothar Redlin and Saleem Watson, wrote TRIGONOMETRY to address a problem they frequently saw in their classrooms: Students who attempted to memorize facts and mimic examples—and who were not prepared to "think mathematically." With this text, Stewart, Redlin and Watson help students learn to think mathematically and develop true, lasting problem-solving skills.

**Features include:**

TRIGONOMETRY is structured so teachers can begin with either the unit circle approach or the right triangle approach. The different approaches lead to different applications: the unit circle approach is used in modeling harmonic motion and the right triangle approach is used in measuring distances (for example, measuring the distance to the sun or nearby stars depends on right triangle trigonometry).

The authors make use of the graphing calculator when ever appropriate. Subsections, examples, and exercises that deal with graphing devices are labeled with an icon so that those who prefer not to use the graphing calculator can easily skip this material. For those students who use a graphing calculator, they are given a better understanding of how the calculator can work as an aid in solving problems. For students who do not use a graphing calculator, the material is presented optionally.

Each chapter ends with a FOCUS ON MODELING section that illustrates modeling techniques as well as how trigonometry can be applied to model real-life situations. These sections, as well as others, are devoted to teaching students how to create their own mathematical models, rather than using prefabricated formulas.

Real-World Applications from engineering, physics, chemistry, business, biology, environmental studies, and other fields demonstrate how trigonometry is used to model real-life situations.

Each exercise set ends with Discovery-Discussion problems that encourage students to first experiment with the concepts developed in the section and then to write about what they have learned, rather than simply look for an answer.

Review Sections and Chapter Tests are found at the end of each chapter. These are designed to help students gauge their progress. Brief answers to the odd-numbered exercises in each section, and to all questions in the Chapter Tests, are given at the back of the book.

**Cengage**

**Algebra and Trigonometry, 9/E**

Notes: Unsure where this text fits into sequencing of high school math curriculum. Does not meet all core standards, but course is not designed to do so. Layout is busy, lots of wordy text/pages. Students would not adequately be prepared to take calculus following this course.

Strengths: Online text, some videos & quizzes, PowerPoint lectures match examples in text, PowerPoint images file allows teacher to determine what comments to make and what words to add. Lots of problems to choose from.

Weaknesses: Problems in text are similar or identical to those at same level by same publisher, unit circle is weak, little supplementary materials, no rich tasks or performance task questions, no mathematical modeling.

Key Features:

Larson's Algebra and Trigonometry delivers sound, consistently structured explanations and carefully written exercises of key mathematical concepts. With the Ninth Edition, the author continues to revolutionize the way students learn material by incorporating more real-world applications and on-going review. The methodology and execution of material provides students with the tools that they need to master algebra and trigonometry.

Features include:

- Side-By-Side Examples help students not only see that a problem can be solved in more than one way but how different methods—algebraically, graphically, and numerically—yield the same result. The side-by-side format also addresses many different learning styles.
- Algebra Help features direct students to sections of the textbook where they can review algebra skills needed to master the current topic.
- Checkpoint problems encourage immediate practice and check student understanding of all the core concepts presented in the example.
- Technology Features offer suggestions for effectively using tools such as calculators, graphing calculators, and spreadsheet programs to deepen student understanding of concepts, ease lengthy calculations, and provide alternate solution methods for verifying answers obtained by hand.
- Algebra of Calculus Examples and Exercises throughout the text emphasize various algebraic techniques used in calculus.
- Vocabulary Exercises at the beginning of the exercise set for each section help students review previously learned vocabulary terms necessary to solve the section exercises.
- Student Projects in various sections and online feature in-depth applied exercises with large, real-life data sets, where students create or analyze models.
- Each Chapter Opener highlights real-life applications used in the examples and exercises.
- A bulleted list of learning objectives lets students preview what will be presented in the upcoming section.
- Chapter Summaries include explanations and examples of the objectives taught in the chapter. The How Do You See It feature in each section presents a real-life exercise students solve by visual inspection using the concepts learned in the lesson. This exercise is excellent for classroom discussion or test preparation.
- The exercise sets have been carefully and extensively examined to ensure they are rigorous and relevant to include all topics our users have suggested. The exercises have been organized and titled so students can quickly see the connections between examples and exercises. Multi-step, real-life exercises reinforce problem-solving skills and mastery of concepts by giving students the opportunity to apply the concepts to real-life situations.
- LarsonPrecalculus.com. This free companion website offers multiple tools and resources to supplement your students' learning. Students can view and listen to worked-out solutions of Checkpoint problems in English or Spanish, download data sets, explore examples, watch lesson videos, and much more.
Algebra and Trigonometry, 9/E, Larson 2014 9 to 12 9781133951162

Algebra and Trigonometry, 4/E, Stewart, Redlin, Watson 2016 9 to 12 9781305071742

Notes: Book seems to be very traditional. Review Material: The review material at the end of each chapter now includes a summary of properties and formulas and a new Concept Check. Each Concept Check provides a step-by-step review of all the main concepts and applications of the chapter. Answers to the Concept Check questions are on tear-out sheets at the back of the book. The chapters on trigonometry are written so professors can begin with either the right triangle approach or the unit circle approach. Each approach to trigonometry is accompanied by the applications appropriate for that approach, clarifying the reason for different approaches to trigonometry. Key Features:

- This bestselling author team explains concepts simply and clearly, without glossing over difficult points.
- Problem solving and mathematical modeling are introduced early and reinforced throughout, providing students with a solid foundation in the principles of mathematical thinking. Comprehensive and evenly paced, the book provides complete coverage of the function concept, and integrates a significant amount of graphing calculator material to help students develop insight into mathematical ideas.
- Focus on Modeling sections illustrate modeling techniques as well as how mathematics can be applied to model real-life situations. These sections, as well as others, are devoted to teaching students how to create their own mathematical models, rather than using prefabricated formulas.
- Real-world applications from engineering, physics, chemistry, business, biology, environmental studies, and other fields demonstrate how mathematics is used to model real-life situations.
- The the chapters on trigonometry are written so professors can begin with either the right triangle approach or the unit circle approach.
- Each approach to trigonometry is accompanied by the applications appropriate for that approach, clarifying the reason for different approaches to trigonometry.
- Mathematics in the Modern World vignettes show that mathematics is a living science crucial to the scientific and technological progress of recent times, as well as to the social, behavioral, and life sciences.
- Discovery/Discussion/Writing problems at the end of every section encourage students to use and develop conceptual, critical thinking, and writing skills.
- Review Sections and Chapter Tests at the end of each chapter help students gauge their learning progress. Brief answers to the odd-numbered exercises in each section and to all questions in the Chapter Tests are provided at the back of the book.
- Groups of exercises have headings that identify the type of exercise.
- Skills Plus exercises in most sections contain more challenging exercises that require students to extend and synthesize concepts.
- Review Material: The review material at the end of each chapter now includes a summary of properties and formulas and a new Concept Check. Each Concept Check provides a step-by-step review of all the main concepts and applications of the chapter. Answers to the Concept Check questions are on tear-out sheets at the back of the book.
- Geometry Review: Appendix A contains a review of the main concepts of geometry used in this book, including similarity and the Pythagorean Theorem.
- Chapter P Preliminaries: This chapter contains a section on basic equations, including linear equations and power equations, and a section on modeling with equations.

Algebra and Trigonometry, 4/E, Stewart, Redlin, Watson 2016 9 to 12 9781305118188

Algebra and Trigonometry, 4/E, Stewart, Redlin, Watson 2016 9 to 12 9781305118164

Algebra and Trigonometry, 4/E, Stewart, Redlin, Watson 2016 9 to 12 9781305118157

Precalculus with Limits, 3/E, Larson 2014 9 to 12 9781133936285

Notes: Text is set up in a way as to address different population of learners. This is a traditional text that has not been adapted for common core, however, Pre-Calculus tend to be above the scope on most topics.

Key Features:

- Larson's Precalculus with Limits is known for delivering the sound, consistently structured explanations and exercises of mathematical concepts, with a laser focus on preparing students for calculus. In Limits, the author includes a brief algebra review along with coverage of analytic geometry in three dimensions and an introduction to concepts covered in calculus. With the third edition, Larson continues to revolutionize the way students learn material by incorporating more real-world applications and ongoing review.
- Features include:
  - Algebra Helps directs students to sections of the textbook where they can review algebra skills needed to master the current topic.
  - Checkpoint problems encourage immediate practice and check student understanding of the concepts.
Algebra of Calculus Examples and Exercises throughout the text emphasize various algebraic techniques used in calculus.

Vocabulary Exercises at the beginning of the exercise set for each section help students review previously learned vocabulary terms necessary to solve the section exercises.

Student Projects in various sections and online feature in-depth applied exercises with large, real-life data sets, where students create or analyze models.

Technology Features offer suggestions for effectively using tools such as calculators, graphing calculators, and spreadsheet programs to deepen student understanding of concepts, ease lengthy calculations, and provide alternate solution methods for verifying answers obtained by hand.

Chapter Openers highlight real-life problems that connect to the examples and exercises presented in the following chapter.

Innovative Summarize Features help students organize the lesson's key concepts into a concise summary, providing a valuable study tool at the end of each section.

Unprecedented How Do You See It? Exercises in every section present real-life problems that students solve by visual inspection using the concepts in the lesson.

Original Checkpoint Problems encourage immediate practice and check students' understanding of the concepts in the paired example.

Series Companion Website features chapter projects, data tables, assessments, study tools, video solutions, and more to support students outside the text.

Section Objectives offer students the opportunity to preview what will be presented in the upcoming section.

Enriched Remarks reinforce or expand on concepts helping students learn how to study mathematics, avoid common errors, address special cases, or show alternative or additional steps to a solution of an example.

Notes: Course is not significantly changed from prior editions. Author has added essential questions and identifies new learning. Most of the common core adaptions are online and within the data exploration projects.

Strengths: Progression is solid. Topics are extended to new learning. Online portion has pre & post tests and student projects and tools. Good at level or advanced text.

Weaknesses: No significant adaptions for ELL or special populations. Book is very similar to prior text version. No suggestions for learning activities or changing lessons for diverse learning styles.

Key Features:

- PreCALCULUS WITH LIMITS: A GRAPHING APPROACH, 7th Edition, is an ideal student and instructor resource for high school courses that require the use of a graphing calculator. The quality and quantity of the exercises, combined with interesting applications and innovative resources, make teaching easier and help students succeed. Retaining the series' emphasis on student support, selected examples throughout the text include notations directing students to previous sections to review concepts and skills needed to master the material at hand. The book also achieves accessibility through careful writing and design— including examples with detailed solutions that begin and end on the same page, which maximizes readability. Similarly, side-by-side solutions show algebraic, graphical, and numerical representations of the mathematics and support a variety of learning styles.

Features include:

- Library of Parent Functions: To facilitate familiarity with the basic functions, a Library of Parent Functions contains several elementary and non-elementary functions. Each function is introduced at the first point of use in the text with a definition and description of basic characteristics. The Library of Parent Functions Examples are identified in the title of the example and there is a Review of Library of Parent Functions after Chapter 4. A summary of functions is presented on the inside cover of this text.

- Technology Tips provide graphing calculator tips or provide alternate methods of solving a
problem using a graphing utility.

- Throughout the text, special emphasis is given to the algebraic techniques used in calculus. “Algebra of Calculus” examples and exercises are integrated throughout the text.
- Algebraic-Graphical-Numerical Exercises: These exercises allow students to solve a problem using multiple approaches: algebraic, graphical, and numerical. This helps students see that a problem can be solved in more than one way and that different methods yield the same result.
- Modeling Data Exercises: These multi-part applications involve real-life data and offer students the opportunity to generate and analyze mathematical models.
- The Vocabulary and Concept Check appears at the beginning of the exercise set for each section. Each of these checks asks fill-in-the-blank, matching, and non-computational questions designed to help students learn mathematical terminology and to test basic understanding of that section’s concepts.
- What you should learn/Why you should learn it: These summarize important topics in the section and why they are important in math and life.
- The Chapter Summary includes explanations and examples of the objectives taught in the chapter.
- Error Analysis: This exercise presents a sample solution that contains a common error, which the students are asked to identify.
- Each Chapter Opener highlights real-life applications used in the examples and exercises.
- The How Do You See It feature in each section presents a real-life exercise that students solve by visual inspection using the concepts learned in the lesson. This exercise is excellent for classroom discussion or test preparation.
- A bulleted list of learning objectives gives students the opportunity to preview what will be presented in the upcoming section.
- These hints and tips, called “Remarks,” reinforce and/or expand upon concepts, help students learn how to study mathematics, address special cases, or show alternative or additional steps to a solution of an example.
- Accompanying every example, the Checkpoint problems encourage immediate practice and check students’ understanding of the concepts presented in the example. Students can view and listen to worked-out solutions of the Checkpoint problems in English or Spanish at LarsonPrecalculus.com.

LarsonPrecalculus.com: This companion website offers free access to multiple tools and resources that supplement student learning. Students can view and listen to worked-out solutions of Checkpoint problems in English or Spanish, download data sets, explore examples, watch lesson videos, and much more.

| Cengage Precalculus: Mathematics for Calculus, 7/E | Stewart, Redlin, Watson | 2016 | 9 to 12 | 9781305115309 |

Notes: Covers 4 unit course core standards and general writing standards. Test has practice and application problems with the end of each unit. Traditional but good preparation for calculus and college level math courses.

Strengths: Additional resources study guide, solutions manual is very good. High level of rigor, varied problem options for assignments, good teacher notes in TE.

Weaknesses: No Power point, Online textbook not compatible with Chrome Books, Homework problems emphasize procedural knowledge rather than conceptual knowledge.
Key Features:

PRECALCULUS WITH LIMITS: A GRAPHING APPROACH, 7th Edition, is an ideal student and instructor resource for high school courses that require the use of a graphing calculator. The quality and quantity of the exercises, combined with interesting applications and innovative resources, make teaching easier and help students succeed. Cengage Calculus of a Single Variable, 10/E, AP® Edition Larson 2014 11 to 12 978125606330 Core
Notes: (AB/BC Calculus) Largely unchanged. A solid program with a good direction.
Strengths: Organized, good teaching materials, online for students, teacher binder has good teaching tips, quizzing resources, PowerPoint lectures, and exam view.
Weaknesses: Not as many projects, weak with table use on approximating rates of change and Reimann sums.

Key Features:
With a long history of innovation in the calculus market, this AP® edition of Larson’s Calculus of a Single Variable provides a pedagogically sound, comprehensive text book with trusted AP® review questions and new AP® Exam tips. The book and series has been widely praised by a generation of students and professors for its solid and effective pedagogy that addresses the needs of a broad range of teaching and learning styles and environments.
Features include:
- Hints and tips, called “Remarks” in the book, reinforce and/or expand upon concepts.
- AP® Review Questions allow students to practice the type of questions encountered on the AP® exam while providing additional practice and review.
- Exercise sets have been carefully and extensively examined to ensure they are rigorous, relevant, and cover all topics suggested by our users. The exercises have been organized and tilted so you can better see the connections between examples and exercises.
- Graded Homework Exercises: Online homework and tests are evaluated using powerful Maple software to ensure mathematical accuracy. Instructors control point values, weighting grades, and whether or not an item is graded. An electronic gradebook helps instructors manage course information easily and can be exported to other files, such as Excel.
- CAS Investigation: Many examples throughout the book are accompanied by CAS Investigations. These are collaborative investigations using a computer algebra system (e.g., Maple) to further explore the related example.
- Each Chapter Opener highlights five real-life applications of calculus found throughout the chapter. The applications reference the examples or exercises featured. You can find a full listing of the applications in the Index of Applications.
- The How Do You See It exercise in each section presents a problem that you will solve by visual inspection using the concepts learned in the lesson.

LarsonCalculus.com - We've created a free website hosting valuable resources. At this website, you can access the following:
- Proof Videos – Watch co-author Bruce Edwards present theorems and explain their proofs.
- Calculus Videos – Watch Dana Mosely explain concepts of calculus.
- Interactive Examples – Explore examples using Wolfram’s free CDF player (plug-in required).
- Rotatable Graphs – View and rotate three-dimensional graphs using Wolfram’s free CDF player (plug-in required).
- Biographies – Read biographies of men and women who were instrumental in creating calculus.
- Web Appendices – Read the web-only appendices that accompany the text.
- Data Downloads – Use real data to solve problems.
Notes: I would give this course a good recommendation with the reserve that it targets the AP requirements but not to the depth that may be required to pass the AP test. This would mean that it makes a very good high school calculus textbook/course, but will require some supplementation to pass the AP test. It meets almost all the requirements of the standards.

Course is written well for students and gives a good overall view of all topics. Materials appear very good for a calculus course, but not overwhelmingly so. Book is recommended and would be even better with more problems and good use of supplementary materials. The supplementary materials provided are very good and make this a very easy to utilize text/course.

Needs to be supplemented with higher level thinking and more rigorous skill problems. To be used for AP and dual credit.

Strengths: Readability and problems are excellent for grades 11-12 and the topic layout is very well done. This is an excellent text to give to a student who may need to work on his/her own. The text is very accessible, though a bit formal. This course builds up the levels of the students well and shows a logical progression. Examples are easy to follow and appropriate. Supplementary materials are excellent and easy to access. This book is designed very well very well for the high school student.

Weaknesses: This course could use some higher level, rigorous questions designed with AP in mind. More AP questions can be gained from other materials outside of this program. More tables and charts in the homework would be beneficial. Good support materials.

Key Features:
With a long history of innovation in the calculus market, this AP® edition of Larson’s Calculus of a Single Variable provides a pedagogically sound, comprehensive text book with trusted AP® review questions and new AP® Exam tips. The book and series has been widely praised by a generation of students and professors for its solid and effective pedagogy that addresses the needs of a broad range of teaching and learning styles and environments.

Features include:
Hints and tips, called “Remarks” in the book, reinforce and/or expand upon concepts.
AP® Review Questions allow students to practice the type of questions encountered on the AP® exam while providing additional practice and review.
Exercise sets have been carefully and extensively examined to ensure they are rigorous, relevant, and cover all topics suggested by our users. The exercises have been organized and titled so you can better see the connections between examples and exercises.
Graded Homework Exercises: Online homework and tests are evaluated using powerful Maple software to ensure mathematical accuracy. Instructors control point values, weighting grades, and whether or not an item is graded. An electronic gradebook helps instructors manage course information easily and can be exported to other files, such as Excel.
CAS Investigation: Many examples throughout the book are accompanied by CAS Investigations. These are collaborative investigations using a computer algebra system (e.g., Maple) to further explore the related example.
Each Chapter Opener highlights five real-life applications of calculus found throughout the chapter. The applications reference the examples or exercises featured. You can find a full listing of the applications in the Index of Applications.

The How Do You See It exercise in each section presents a problem that you will solve by visual inspection using the concepts learned in the lesson.
LarsonCalculus.com - We’ve created a free website hosting valuable resources. At this website, you can access the following: Proof Videos – Watch co-author Bruce Edwards present theorems and explain their proofs. Calculus Videos – Watch Dana Mosely explain concepts of calculus. Interactive Examples – Explore examples using Wolfram’s free CDF player (plug-in required). Rotatable Graphs – View and rotate three-dimensional graphs using Wolfram’s free CDF player (plug-in required). Biographies – Read biographies of men and women who were instrumental in creating calculus. Web Appendices – Read the web-only appendices that accompany the text. Data Downloads – Use real data to solve problems.

| **Notes:** This is a good text for Calculus, but lacks strength in the AP portion. We would recommend this text as a Calculus book, but not as an AP book which is what it’s supposed to be. The text provides clear explanations but is focused on lower level questioning with a lack of deep knowledge questions and practice, practice questions and supplementary material are good, use of this text for and AP class would require quite a bit of supplemental materials.  
**Strengths:** This course is strong in the questions and practice. Explanations are clear, but sometimes difficult for a learner on their own. Supplementary materials are good and support the text well. Lots of problems that will allow for skill work, Freedom for teaching methods, Would use for a non-dual credit High School calculus class.  
**Weaknesses:** Text does not have the AP questioning type needed to help a student prepare for the AP test. Questions do not have the depth of knowledge requirement to provide students as an opportunity to extend their abilities. More concentrated on the algorithms. This text requires a lot of supplementation. Text is difficult for students to read on their own. Not giving a conceptual understanding. Not as in depth as a typical college course.  
**Key Features:**  
In the Seventh Edition of Single Variable Calculus with Vector Functions for AP®, Stewart continues to set the standard for the course while adding carefully revised content. With both AP® review multiple choice and free response questions for the AB and BC exams written by AP® examination readers scattered throughout the text, students are introduced to the types of questions they will encounter on the exam. The patient explanations, superb exercises, focus on problem solving, and carefully graded problem sets that have made Stewart's texts best-sellers continue to provide a strong foundation for the Seventh Edition. From the most unprepared student to the most mathematically gifted, Stewart's writing and presentation serve to enhance understanding and build confidence.  
**Features Include:**  
Four carefully crafted diagnostic tests in algebra, analytic geometry, functions, and trigonometry appear at the beginning of the text to provide students with a convenient way to test their pre-existing knowledge and brush up on skill techniques they need to successfully begin the course. Stewart's writing style speaks clearly and directly to students, guiding them through key ideas, theorems, and problem-solving steps, and encouraging them to think as they read and learn calculus. Every concept is supported by thoughtfully worked examples and carefully chosen exercises.  
**Text's clean, user-friendly design provides a clear presentation of calculus. The art program, with its functional and consistent use of color, helps students identify and review mathematical concepts more easily. Stewart draws on physics, engineering, chemistry, biology, medicine, and social science to motivate students and demonstrate the power of calculus as a problem-solving tool in a wide variety of fields. Stewart's text offers an extensive collection of more than 8,000 quality exercises; each set is carefully graded, progressing from skill-development problems to more challenging problems involving applications and proofs. Comprehensive review sections follow each chapter and further support conceptual understanding. A "Concept Check" and "True/False Quiz" allow students to prepare for upcoming tests through ideas and skill-building. Collections of more challenging exercises, called "Problems Plus," reinforce concepts by requiring students to apply techniques from more than one chapter of the text. "Problems Plus" sections patiently show students how to approach a challenging problem. *PS* icons denoting problem-solving margin notes are aimed at increasing instructors' awareness of this important aspect of Stewart's approach. |

**Notes:** This is a good text for calculus. Provides clear explanations but is focused on lower level questioning with a lack of deep knowledge questions and practice. Practice questions and supplementary material are good. Has AP questions in each chapter and has an AP supplement also. Teacher can get yearly question from testing site.

**Strengths:** This course is strong in the questions and practice. Explanations are clear, but sometimes difficult for a learner on their own. Supplementary materials are good and support the text well. Topics covered. Amount of problems. Example problems, College Level.

**Weaknesses:** Questions do not have the depth of knowledge requirement to provide students an opportunity to extend their abilities. More concentrated on the algorithms. This text requires a lot of supplementation. Algorithm based.

**Key Features:**

In the Seventh Edition of Single Variable Calculus with Vector Functions: Early Transcendentals for AP®, Stewart continues to set the standard for the course while adding carefully revised content. With both AP® review multiple choice and free response questions for the AB and BC exams written by AP®, examination readers scattered throughout the text, students are introduced to the types of questions they will encounter on the exam. **Notes:** The Calculus book is good. It contains topics through Calculus III so it offers chances for enrichment and advancement. The program is organized and progresses logically and is largely unchanged from other editions.

**Strengths:** Extended topics organized, Online part for students, Teacher Binder, Teaching tips, quiz resources, power point lectures, exam view, good for starting teacher.

**Weaknesses:** Could use more projects, weak on table use for approximating rates of change and Reimann sums.

**Key Features:**
With a long history of innovation in the calculus market, this AP® edition of Larson’s Calculus provides a pedagogically sound, comprehensive text book with trusted AP® review questions and new AP® Exam tips. The book and series has been widely praised by a generation of students and professors for its solid and effective pedagogy that addresses the needs of a broad range of teaching and learning styles and environments.

Cengage Calculus: Early Transcendental Functions, 6/E, AP® Edition

Larson 2015 11-12 9781285775890 Core

Notes: Targets the AP requirements, but not to the depth that may be required to pass the AP test. This would mean that it makes a very good high school calculus textbook/course, but will require some supplementation to pass the AP test. It meets almost all the requirements of the standards.

Course is written well for students and gives a good overall view of all topics. Materials appear very good for a Calculus course, but not overwhelmingly so. Book is recommended and would be even better with more problems and good use of supplementary materials. The supplementary materials provided are very good and make this a very easy to utilize text/course.

Strengths: Readability and problems are excellent for grades 11-12 and the topic layout is very well done. This is an excellent text to give to a student who may need to work on his/her own. The text is very accessible, though a bit formal. This course builds up the levels of the students well and shows a logical progression. Examples are easy to follow and appropriate. Supplementary materials are excellent and easy to access. This book is designed very well for the high school student.

Weaknesses: This course could use some higher level, rigorous questions designed with AP in mind. More AP questions can be gained from other materials outside of this program. More tables and charts in the homework would be beneficial.

Key Features:
- Calculus: Early Transcendental Functions, AP® Edition, offers instructors and students innovative teaching and learning resources geared towards the AP® exam and filled with helpful AP® test taking preparation. The Larson team always has two main objectives: to develop precise, readable materials for students which clearly define and demonstrate concepts and rules of calculus; and to design comprehensive teaching resources for instructors that employ proven pedagogical techniques. Every edition from the first to the sixth of Calculus: Early Transcendental Functions has made the mastery of traditional calculus skills a priority, while embracing the best features of new technology and review.
Features include:
Carefully chosen applied exercises and examples from diverse sources are included throughout to address the question, "When will I use this?"
Writing exercises at the end of each section are designed to test students’ understanding of basic concepts and encourage them to verbalize answers in order to promote technical skills that will be invaluable in their future careers.
Theorems are clearly stated and separated from the rest of the text by boxes for quick visual reference to aid in understanding the conceptual framework of calculus.
As with theorems, definitions are clearly stated using precise, formal wording and are separated from the text by boxes for quick visual reference.
Historical notes provide students with background information on the foundations of calculus and the people who created calculus.
Projects provide an interesting and engaging way to encourage students to explore applications related to the topics they are studying and investigate ideas collaboratively.
Putnam Exam Questions appear in selected sections and are meant to challenge students and push them to the limits of their understanding of calculus.
Throughout the book, technology boxes show students how to use technology to solve problems and explore concepts of calculus.
How Do You See It?--The “How Do You See It?” feature in each section presents a real-life problem that students solve by visual inspection using the concepts learned in the lesson. This exercise is excellent for classroom discussion or test preparation.
Remark--These hints and tips reinforce or expand on concepts, help students learn how to study mathematics, caution students about common errors, address special cases, or show alternative or additional steps to a solution of an example.
Exercise Sets--The exercise sets have been carefully and extensively examined to ensure they are rigorous and relevant and include all topics our users have suggested. The exercises have been reorganized and titled so students can better see the connections between examples and exercises.
Multi-step, real-life exercises reinforce problem-solving skills and mastery of concepts by giving students the opportunity to apply the concepts in real-life situations.
LarsonCalculus.com--This robust companion website offers multiple tools and resources. Access to these features is free. Students can watch videos explaining concepts or proofs from the book, explore examples, view three-dimensional graphs, download articles from math journals, and much more!
lectures, You Tube videos, wolfram access, practice quizzes and tests. Solid supplementary resources including teaching notes and additional examples. Opportunities for extended study through writing and discovery projects.

Strengths: Excellent supplementary materials, PowerPoint lectures, student study guide, AP practice book, online interactive textbook, TEC examples, teacher resource guide, projects for each unit- writing, applied, lab & discovery. AP Practice Problems- multiple choice and free response in each section.

Weaknesses: Examples in text are wordy and may be difficult for students to read & understand on their own. More AP exam questions would be helpful.

Key Features: In the Seventh Edition of Calculus for AP®, Stewart continues to set the standard for the course while adding carefully revised content. With both AP® review multiple choice and free response questions for the AB and BC exams written by AP® examination readers scattered throughout the text, students are introduced to the types of questions they will encounter on the exam. The patient explanations, superb exercises, focus on problem solving, and carefully graded problem sets that have made Stewart's texts best-sellers continue to provide a strong foundation for the Seventh Edition. From the most unprepared student to the most mathematically gifted, Stewart's writing and presentation serve to enhance understanding and build confidence.

Features Include:

- Four carefully crafted diagnostic tests in algebra, analytic geometry, functions, and trigonometry appear at the beginning of the text to provide students with a convenient way to test their pre-existing knowledge and brush up on skill techniques they need to successfully begin the course.
- Stewart's writing style speaks clearly and directly to students, guiding them through key ideas, theorems, and problem-solving steps, and encouraging them to think as they read and learn calculus.
- Every concept is supported by thoughtfully worked examples and carefully chosen exercises.
- The text's clean, user-friendly design provides a clear presentation of calculus. The art program, with its functional and consistent use of color, helps students identify and review mathematical concepts more easily.
- Stewart draws on physics, engineering, chemistry, biology, medicine, and social science to motivate students and demonstrate the power of calculus as a problem-solving tool in a wide variety of fields.
- Stewart's text offers an extensive collection of more than 8,000 quality exercises, each set is carefully graded, progressing from skill-development problems to more challenging problems involving applications and proofs.
- Comprehensive review sections follow each chapter and further support conceptual understanding. A "Concept Check" and "True/False Quiz" allow students to prepare for upcoming tests through ideas and skill-building.
- Collections of more challenging exercises, called "Problems Plus," reinforce concepts by requiring students to apply techniques from more than one chapter of the text. "Problems Plus" sections patiently show students how to approach a challenging problem.
- "PS" icons denoting problem-solving margin notes are aimed at increasing instructors' awareness of this important aspect of Stewart's approach.

Notes: This is a good text for calculus, but lacks strength in the AP portion. I would recommend this text as a calculus book, but not as AP book. Text provides clear explanations but focused on lower level questioning with a lack of deep knowledge questions and practice. Practice questions and supplementation and therefore this would not be recommended as an AP calculus text. This would make a good concurrent textbook for a student taking a college credit class.

AP questions at the end of each chapter, AP supplement with extra problems, Information about AP site.

Strengths: This course is strong in questions and practice. Practice problems are excellent for class use and provide great repetition but are not overly deep. Explanations are clear but sometimes difficult for a learner on their own. Supplementary materials are good and support the text well. Text does not have the depth of knowledge requirement to provide students an opportunity to extend their abilities. More concentrated on the algorithms. This text requires a lot of supplementation. Vector format is not consistent with AP questions. (Not the vector text) Progression, Number of problems, Supplements, Clear examples.

Weaknesses: Depth of some questions.

Key Features:
In the Seventh Edition of Calculus for AP®, Stewart continues to set the standard for the course while adding carefully revised content. With both AP® review multiple choice and free response questions for the AB and BC exams written by AP® examination readers scattered throughout the text, students are introduced to the types of questions they will encounter on the exam. The patient explanations, superb exercises, focus on problem solving, and carefully graded problem sets that have made Stewart's texts best-sellers continue to provide a strong foundation for the Seventh Edition. Cengage

Introduction to Technical Mathematics, 6/E  
Peterson, Smith  2013  9-12  (See PTE.)

Notes: Geared to PTE or CTE students. Wide range of general tech math topics and skills. Application problems are geared toward trade type programs such as welding, auto, construction, and machining. Includes application problems consisting of multi-step problems involving higher-level problem-solving and critical thinking.

Strengths: Requires mastery of basic skills with and without a calculator. Exposure to a variety of technical occupations. Up to date, Contains technology, Mobile device access, Includes basic statistics/spreadsheets. Many application problems requiring higher-level thinking.

Weaknesses: Needs a teacher’s edition. Needs more extensive test-making capabilities. Course-mate materials are not geared toward high school students. Not geared to directly relate to core standards in many cases. Some figures are not on the same page as examples. Very, very traditional. No objectives stated.

Key Features:
- Practical, straightforward, and easy to understand, this hands-on text helps students build a solid understanding of math concepts through step-by-step examples and problems drawn from various occupations. Updated to include the most current information in the field, the sixth edition includes expanded coverage of topics such as estimation usage, spreadsheets, and energy-efficient electrical applications.
- Clear explanations pair with easy-to-follow procedural steps for solving examples.
- Written in a helpful, straightforward style, this text begins with simpler concepts and helps students work up to solving even the most complex problems.
- Illustrations accompany many of the problems and are modeled after those found in technical manuals and handbooks, emphasizing the relevance of mathematics concepts on the job.
- Coverage of statistics includes basic statistics as well as the statistical graphing techniques of bar, line, and circle graphs.
- Spreadsheet coverage now includes basic instruction for calculations, solving equations, graphing, and statistics.
- Estimation usage has been expanded throughout the text to help students understand whether or not an answer is reasonable.
- Instruction and examples are included for using digital micrometers and calipers.

Cengage

Financial Algebra: Advanced Algebra with Financial Applications  
Gerver, Sgroi  2014  9-12  9781285444857  Component  (See also PTE.)

Notes: Adequate ancillary materials. (No teacher edition.) Lesson design is sequential and consistent with clear examples, warm-up problems and check for understanding problems. Exercises are application type. Key terms are noted and defined for each lesson. Reality checks provide enrichment opportunities for research, projects, and guest speakers. Does a good job reviewing Algebra I concepts and providing a framework for applying those concepts to business and personal finance.

Strengths: Up-to-date, objectives are clearly stated. Includes ELA “you write” problems, notes and key terms in lesson intros, Concise, organized lessons. Lessons are straight forward with adequate number of exercises and length of assignments. Uses technology, opportunities for using graphing calculators and spreadsheets.

Weaknesses: Does not replace Algebra II. Contains no separate economics topics. Weak in geometry concepts.

Key Features:
- Ideal for 3rd or 4th year math students, FINANCIAL ALGEBRA: ADVANCED ALGEBRA WITH FINANCIAL APPLICATIONS applies Algebra 1 concepts in practical business and personal finance contexts. Aligned to the Common Core State Standards, FINANCIAL ALGEBRA helps students achieve success by incorporating Algebra I, Algebra II, and Geometry topics. Authors Robert Gerver and Richard Sgroi have spent their 25+ year-careers teaching students of all ability levels and they have found the
most success when math is connected to the real world. FINANCIAL ALGEBRA encourages students to be actively involved in applying mathematical ideas to their everyday live – credit, banking insurance, the stock market, independent living and more! Features include:

Strong review of Algebra I formulas with variables, equations, functions, systems of equations, graphs, statistics, and more within a financial context your students can relate to. Students see algebra translated into powerful, financially focused, real world problems. Students see algebra at work within the most critical areas of finance. Students learn about investments, credit, automobile expenses, insurance, income tax, household budgeting, and more while gaining confidence in working with common algebraic functions.

Emphasis on problem solving equips students with skills for life. Each chapter provides substantial opportunities to learn and apply a variety of problem solving strategies. Really? Really! Chapter Openers immediately capture student attention with fascinating topics that draw students into the chapter's content. Students conclude each chapter by revisiting the motivational topic.

Proven applications at the end of each lesson require students to solve problems in a financial context.

Real Numbers: You Write the Story strengthens students' skills in interpreting graphs as they examine a graph and write a story focused around the graph's information. Reality Check extends students' learning experience well beyond the classroom with specific suggestions for research, projects, and hands-on learning.

<th>Understanding Basic Statistics, 7/E</th>
<th>Brase, Brase 2016 9-12 9781305267251 Core</th>
</tr>
</thead>
</table>

Notes: This book handles many of the main ideas in statistics with less depth and analysis than an AP statistics program. The book meets the literacy/literacy/material requirements. This is a tough book for a new teacher to use.

Strengths: Concise-lower reading level/readable, Contains material covering standards for Probability and Statistics Sections are color coded for student use.

Weaknesses: Ideas are condensed, Book has huge gaps for new teachers, Weak on technology, Outdated images, Minimal practice.

Key Features:

Help students overcome their apprehension about statistics with Brase and Brase's UNDERSTANDING BASIC STATISTICS. This book offers instructors an effective way to teach the essentials of statistics, including early coverage of regression. Thorough yet abbreviated, the text helps students realize the real-world significance of statistics. The Seventh Edition addresses the growing importance of developing students’ critical thinking and statistical literacy skills with critical thinking features and new exercises throughout the text.

Features include:

- Critical Thinking boxes at the end of most sections help students hone their critical thinking skills by providing additional clarification on specific statistical concepts as a safeguard against incorrect evaluation of information.
- Interpretation boxes in several chapters help students refine their critical thinking and analysis skills by providing them with practice in explaining their statistical results in the context of a particular application.
- "Expand Your Knowledge" problems present the geometric mean and the harmonic mean, moving averages, correlation of averages, odds for and odds against, uniform probability distribution, plus four methods for confidence intervals, probability of two confidence intervals, and serial correlation.
- Bulleted chapter summaries make it easy for students to identify key concepts covered in a chapter and to review the material quickly and effectively when working on class assignments or preparing for a test.
- Cumulative review problems appear after every third chapter and integrate concepts introduced in the previous set of chapters, allowing students to regularly reconsider the course material already covered and reinforce their understanding of key concepts.
- "Focus Points" at the beginning of each section introduce the topics to be covered, allowing students to familiarize themselves with the main ideas in advance and focus their reading and studying.

Notes: Some Basic but fundamental concepts are skimmed. There are a lot of topics that are briefly discussed, many of which are not in college board curriculum. This seems like a re-packaged “old school” book.

Weaknesses:
- S.O.C.S.-Shape, Outlier, Center, Spread . . . There is very little mention of gaps and clusters. This is a non-negotiable.
- Reading level—Reading level is higher, very dense language. This will be hard for students that are ELL and other special populations.
- College Text—Pages read along as a college text. There are very few pictures with the exception of graphs that are related to exercise.
- Discussion—Little to no discussion prompts.
- Section Breaks—No section breaks, layout just runs together.

Key Features:
- Statistics: Learning From Data, AP® Edition, written by the respected author team of Roxy Peck and Chris Olsen, offers an innovative approach to teaching and learning AP® Statistics, by tackling the areas that students struggle with most -- probability, hypothesis testing, and selecting an appropriate method of analysis. Students must master the computational aspect of descriptive and inferential statistic and also develop an understanding of the data analysis process at a conceptual level. Supported by learning objectives, real-data examples and exercises, and technology notes, this text guides students in gaining conceptual understanding, mechanical proficiency, and the ability to put knowledge into practice. Features include:
  - The treatment of probability in this text is complete, including conditional probability and Bayes' Rule type probability calculations. However, it is presented with a new approach that eliminates the need for the symbolism and formulas, which are a roadblock for many students by using natural frequencies to reason about probability.
  - Statistics: Learning from Data, has a simple, clean design that minimizes clutter and maximizes student understanding, instead of distract students like modern graphic "features" in textbooks.
  - Chapter activities guide actively engage students' thinking about important ideas and concepts.
  - The learning objectives explicitly state the expectations of the student, and are presented in three categories: Conceptual Understanding, Mastery of Mechanics, and Putting It into Practice.
  - Each chapter opens with a Preview and Preview Example that provide motivation for studying the concepts and methods introduced in the chapter. They address why the material is worth learning, the conceptual foundation for the methods covered, and connect to what the student already knows.
  - The exercises and examples that incorporate real data are a particular strength of this text. Extracting and using data from journal articles, newspapers, and other published sources, the exercises cover a wide range of disciplines and subject areas of interest to today's student.
  - "Are You Ready to Move On?" questions serve as a comprehensive end-of-chapter review and allow students to confirm that they have achieved the chapter learning objectives, Chapter 7 provides an overview of statistical inference, focusing on the things students need to think about in order to select an appropriate method of analysis. Discussing these considerations up front in the form of four key questions that need to be answered before choosing an inference method makes it easier for students to make correct choices.
  - Real-Data Algorithmic Sampling Exercises give each student a different random sample of data from a population to answer questions off of the companion website. These unique exercises are designed to teach about sampling variability and provide a vehicle for rich classroom discussions of this important statistical concept.

Introduction to Statistics and Data Analysis, 5/E, AP® Edition

Peck, Olsen, Devore

2016

11-12

9781305267244

Core

Cengage

Notes: Good statistics book. Definitely for college bound students.

Strengths: Interesting topics, Chapter preview, Activities every chapter, Lots of tech application, Learning objectives at the beginning of each chapter, Great deep thinking/analyzing/questions.

Weaknesses: Lots of reading -- definitely college bound text, No math practice.

Key Features:

Roxy Peck, Chris Olsen, and Jay Devore's new edition uses real data and attention-grabbing examples to introduce students to the study of statistics and data analysis. Traditional in structure yet modern in approach, this text guides students through an intuition-based learning process that stresses interpretation and communication of statistical information. Simple notation—including frequent substitution of words for symbols—helps students grasp concepts and cement their comprehension. Hands-on activities and interactive applets allow students to practice statistics firsthand. INTRODUCTION TO STATISTICS AND DATA ANALYSIS includes coverage of most major technologies, as well as expanded coverage of probability. Supporting the AP® Statistics exam, the text includes AP® multiple choice and free response questions that allow students to check their understanding, as well as AP® Tips that highlight important AP® material or procedures.

Features include:

- Real data gives students authentic scenarios that help them understand statistical concepts in relevant, interesting contexts.
- The book emphasizes graphical display as a necessary component of data analysis and provides broad coverage of sampling, survey design, experimental design and transformations, and nonlinear regression. The role of the computer in contemporary statistics is highlighted through numerous printouts and exercises that can be solved using the computer.
- "Interpreting and Communicating the Results of Statistical Analysis" sections, which emphasize the importance of being able to interpret statistical output and communicate its meaning to non-statisticians, have assignable end-of-section questions associated with them.
- Several Java™ applets, used in conjunction with activities that appear at the end of the chapter, provide visual insight into statistical concepts.
- Chapter-ending Technology Notes on JMP, Minitab, SPSS, Microsoft Excel 2007, TI-83/84, and TI-nspire provide helpful hints and guidance on completing tasks associated with a particular chapter, as well as display screens to help students visualize and better understand the steps.
- Helpful hints in exercises that direct students to relevant examples in the text help students who may be having trouble getting started.
- Margin Notes, including "Understanding the context," "Consider the data," "Formulate a plan," "Do the work," and "Interpret the results" appear in appropriate places in the examples to highlight the importance of context and to increase student awareness of the steps in the data analysis process.

Notes: Better than average, technology is lacking. Very limited simulation. Order is questionable.

Key Features:
Understandable Statistics: Concepts and Methods, for AP®, is a thorough yet accessible program designed to help students overcome their apprehensions about statistics. Statistical methods are thoughtfully presented with a focus on understanding both the suitability of the method and the meaning of the result. The eleventh edition continues to address the importance of developing students' critical-thinking and statistical literacy as well as preparing them and building confidence leading up to the AP® Exam.

Features include:
- Updated real-world applications throughout the text include new examples from a variety of disciplines.
- Problems featuring basic computation and using small data sets give students the chance to appreciate the formulas and mathematical processes that their calculators accomplish for them—and help them to better understand what the end result means.
- The "Looking Ahead" feature gives students a taste of forthcoming topics—showing them how the concepts and skills they're reading about will be useful in helping them grasp material covered later.
- The "Critical Thinking" feature provides additional clarification on specific concepts, such as what tests are appropriate for what situations, what assumptions need to be made, what biases may affect the results, and when conclusions are justified.
- "Statistical Literacy Problems" in every section and problem set test understanding of terminology, statistical methods, and the appropriate conditions for use of the different processes. "Writing Projects" test both statistical literacy and critical thinking by asking students to express their understanding in words.

Understandable Statistics: Concepts and Methods, 11e Package: Student Edition + Aplia + CourseMate (6-year access) | Brase, Brase | 2015 | 11 to 12 | 9781305470064 |
Understandable Statistics: Concepts and Methods, 11e Package: Aplia + CourseMate + VitalSource® eBook (6-year access) | Brase, Brase | 2015 | 11 to 12 | 9781305470071 |
**Notes:** Conceptual Understanding - High levels of thinking. Tight spiral of standards - maybe a bit too repetitive. Literacy standards are evident.
Strengths: Online tools, parent support for homework practice, varied assessment, teacher choice for assessment, questions allow for professional discretion.
Weaknesses: Procedural fluency and skill may have excessive practice.

**Key Features:**
Teaching strategies are based solidly on the methodological research in teaching mathematics:
Students should engage in problem-based lessons structured around a core idea;
Guided by a knowledgeable teacher, students should interact in groups to foster mathematical discourse;
Practice with concepts and procedures should be spaced over time.
CCSS Mathematical Practices are deeply and seamlessly interwoven into the fabric of the daily lessons.
Course balances procedural fluency (algorithms and basic skills), deep conceptual understanding, strategic competence (problem solving), and adaptive reasoning (application and extension).
On a daily basis, students employ problem-solving strategies, question, investigate, analyze critically, and gather and construct evidence, often in everyday contexts.
The problem-based nature of each lesson provides guided, purposeful work that supports deep conceptual understanding of the mathematical objective.
Students communicate rigorous arguments to justify their thinking and understanding, both formally and informally, whether they are writing or speaking out loud.
Fluency in skills is built coherently into the class work and homework, not clumped together in sets of dissociated facts.
The problems are non-routine (encouraging-application and extension), team-worthy (requiring reasoning and collaboration), engaging (leading to a more positive disposition toward mathematics), and ask for a variety of outcomes (reports, diagrams, models, and presentations).
The curriculum is accessible to all students, including "traditionally struggling" students and "accelerated" students. Universal access and the ability to differentiate instruction are strengths of the course.

**CPM Educational Program**

| Core Connections Integrated I, II, III Hardbound w/8yr eBook License | Dietiker, Hoey, Kysh, Sallee | 2014 | HS | Other |

**Notes:**
- Strengths: group work oriented, multitude of contextual problems, opportunities for discourse, concepts never go away- they are consistently revisited in homework sets, unit closure and portfolio ideas. There are good opportunities for student reflection. In the hands of an experienced teacher, opportunities to make connections are very prevalent. Unskilled teachers, however, may struggle to explicate the BIG PICTURE. Homework sets should be used with fidelity and possibly supplemented to gain fluency.
- Weaknesses: UNIT level needs to be more coherently focused on the content standards being explored in the unit.
Needs more enactive (manipulative-based) and iconic REINVENTION of big mathematical ideas. Too often, symbolic results are just given to students for use. The program needs more rigor to balance the low-level accessibility of the tasks...more questions that push depth. Arrangement of content feels very choppy and erratic-

MP7 "Look for and make use of structure" could be addressed more.

**Key Features:**
Teaching strategies are based solidly on the methodological research in teaching mathematics:
- Students should engage in problem-based lessons structured around a core idea;
- Guided by a knowledgeable teacher, students should interact in groups to foster mathematical discourse; Practice with concepts and procedures should be spaced over time;
- CCSS Mathematical Practices are deeply and seamlessly interwoven into the fabric of the daily lessons. Course balances procedural fluency (algorithms and basic skills), deep conceptual understanding, strategic competence (problem solving), and adaptive reasoning (application and extension).
- On a daily basis, students employ problem-solving strategies, question, investigate, analyze critically, and gather and construct evidence, often in everyday contexts.
- The problem-based nature of each lesson provides guided, purposeful work that supports deep conceptual understanding of the mathematical objective.
- Students communicate rigorous arguments to justify their thinking and understanding, both formally and informally, whether they are writing or speaking out loud.
- Fluency in skills is built coherently into the class work and homework, not clumped together in sets of dissociated facts.
- The problems are non-routine (encouraging-application and extension), team-worthy (requiring reasoning and collaboration), engaging (leading to a more positive disposition toward mathematics), and ask for a variety of outcomes (reports, diagrams, models, and presentations).
- The curriculum is accessible to all students, including “traditionally struggling” students and “accelerated” students. Universal access and the ability to differentiate instruction are strengths of the course.
- Students that successfully complete all lessons of CPM Algebra 2 or CPM Integrated III, will be prepared for CPM AP Calculus AB/BC without the need for a precalculus course.

<td>Notes: Assessments have limited variety of testing choices throughout the year. Formative test is on last page of student practice which is only page students truly practice independently. Lacks rigor in mastery of the skills. Strengths: Very focused program. May be used as a slower paced program for low achieving students. Program designed to work an entire week on a skill. Would be a great remediation program. Very easy to follow lessons. Each standard is a lesson so any student weakness can easily be found and practiced. Weaknesses: Does not have a parent/home connection in K-1. The suggestion to use pages from the Practice and Problem Solving as homework would give limited extra practice pages for the classroom. Key Features: See Key Features above.</td>

| Notes: Standards are addressed and practice standards are included throughout. The learning progression makes sense and is explained in the TE. Concepts are built upon conceptually and then abstractly. Could be used as supplemental or intervention material. Strengths: Standards covered, math practice standards included, detailed teacher directions including some step by step processes, frequent & thorough assessments. Weaknesses: Lessons are written for 30-45 minutes per day, limited fluency practice, no use of manipulatives. See Key Features above.

Notes: This program mirrors the standards and uses them very closely, almost as a guide. Strengths: Lots of procedural fluency and skills practice. Good supplemental resources. Weaknesses: Not strong building of conceptual understanding. Application and performance tasks are replications of practice and predictable responses.

Key Features:
See Key Features above.

Notes: Easy to navigate, very engaging with high interest graphics, good investigations, all standards met, and all mathematical practices met.

Strengths: Math tools and whiteboard are helpful and appropriate. Interactive glossary with animations & videos. Investigations involve small group work, make conjectures, create arguments, etc. Good parent letters. Model lessons include objectives, essential questions, and enduring understandings and are easy to follow. There is a thorough teacher preparation section. Coach and practices problems provide immediate feedback and video tutorials if needed. Unit summary provides information that should have been covered. Good review or study guide, which is also helpful to parents. Apply tab has real-world
Applications with a lot of higher order thinking questions. Teacher gets immediate feedback on student responses. Includes wrong answer explanation of misconceptions and errors.

Weaknesses: Unit tests only 10 questions. No pre-test, mid-unit quizzes, or question bank for teachers to create their own assessments. Some outdated video tutorials or are low interest. Standards are more stand alone. They should build on each other. Not a lot for differentiation, especially for those who need to be challenged. Also weak in differentiation for struggling students. EL support is lacking. Need more rigorous tasks.

Key Features:
Discovery Education Math Techbook: Grade 6 is built from the ground-up to be a unique, web-based teaching and learning tool that is built on the Common Core framework. Unlike other digital math programs that are converted from existing textbooks, Math Techbook™ takes full advantage of digital capabilities to offer multimodal resources that transform teaching and learning. Discovery quality video and other resources provide problems worth solving in a real world context that has relevance to students. Technology Enhanced Item functionality is utilized in both the instructional and assessment areas of Math Techbook™ to provide a deeper assessment of conceptualization and application. Incorporated into the inquiry-based approach to mathematics is a powerful monitoring dashboard that captures student responses as students explore mathematics concepts. Teachers can use this dashboard both as a monitoring and teacher response tool and as a teaching tool, sharing student responses anonymously for class discussion. Powerful yet simple-to-use, Math Techbook™ saves teachers time and provide on-going support as they transition to digital. In each mathematics concept within a unit, Discovery Education Math Techbook™ elevates student achievement through a focus on the three aspects of rigor in mathematics: I. Conceptualization: In the Discover phase, students are challenged to collaboratively and individually solve real-world problems as they build their conceptual understanding with guidance from the teacher. Problems are presented through text, video, and problem-solving interactives. Math tools, such as whiteboards and equation generators, are readily available for students and teachers to use. Student responses are monitored in the teacher dashboard, but scoring is not done in this phase so that students have a low-risk opportunity to solve the problems themselves. II. Fluency: In the Practice phase, students first take on practice problems in a Coach area in which they provide practice exercises in a gamification mode. Student responses are monitored in the teacher dashboard and progress is recorded. III. Application: Students move on to an Apply phase in which they apply skills and conceptualization to solve challenging real-world problems. Teachers monitor and score these responses using a scoring rubric. Each unit includes a unit assessment that utilizes technology enhanced items as well as more traditional selected response items.

## Discovery Education Math Techbook: Grade 8

| Notes: | See notes for grades 6-8 above. |

### Key Features:
Discovery Education Math Techbook: Grade 8 is built from the ground-up to be a unique, web-based teaching and learning tool that is built on the Common Core framework. Unlike other digital math programs that are converted from existing textbooks, Math Techbook™ takes full advantage of digital capabilities to offer multimodal resources that transform teaching and learning. Discovery quality video and other resources provide problems worth solving in a real world context that has relevance to students. Technology Enhanced Item functionality is utilized in both the instructional and assessment areas of Math Techbook™ to provide a deeper assessment of conceptualization and application. Incorporated into the inquiry-based approach to mathematics is a powerful monitoring dashboard that captures student responses as students explore mathematics concepts. Teachers can use this dashboard both as a monitoring and teacher response tool and as a teaching tool, sharing student responses anonymously for class discussion. Powerful yet simple-to-use, Math Techbook™ saves teachers time and provide on-going support as they transition to digital. In each mathematics concept within a unit, Discovery Education Math Techbook™ elevates student achievement through a focus on the three aspects of rigor in mathematics:

**I. Conceptualization:** In the Discover phase, students are challenged to collaboratively and individually solve real-world problems as they build their conceptual understanding with guidance from the teacher. Problems are presented through text, video, and problem-solving interactives. Math tools, such as whiteboards and equation generators, are readily available for students and teachers to use. Student responses are monitored in the teacher dashboard, but scoring is not done in this phase so that students have a low-risk opportunity to solve the problems themselves.

**II. Fluency:** In the Practice phase, students first take on practice problems in a Coach area in which they are provided with feedback on their responses to ensure mastery. They then move on to a Play area that provides practice exercises in a gamification mode. Student responses are monitored in the teacher dashboard, but scoring is not done in this phase so that students have a low-risk opportunity to solve the problems themselves.

**III. Application:** Students move on to an Apply phase in which they apply skills and conceptualization to solve challenging real-world problems. Teachers monitor and score these responses using a scoring rubric.

Each unit includes a unit assessment that utilizes technology enhanced items as well as more traditional selected response items.

### Key Features:
Discovery Education Math Techbook: Algebra I is built from the ground-up to be a unique, web-based teaching and learning tool that is built on the Common Core framework. Unlike other digital math programs that are converted from existing textbooks, Math Techbook™ takes full advantage of digital capabilities to offer multimodal resources that transform teaching and learning. Discovery quality video and other resources provide problems worth solving in a real world context that has relevance to students. Discovery Education Math Techbook: Professional Development

| Discovery Education Math Techbook: Algebra II | Vennebush, Hong, Hartwig | 2015 | 9,10,11 | 9781618287489 |

Notes: Discovery Education's math techbook Algebra 2 is a very unique curriculum. The entire curriculum is online but is taught in-conjunction with a teacher. This curriculum is unique in the way it is setup. It can be taught one on one, small group, or to an entire class. Every student doesn't have to have a computer to use this curriculum. This course uses real-life applications in every lesson to get students thinking about the concept. Then if provides, a lesson, as well as practice, and then application Questions called TEI. It was easy to navigate through as a first time user. This curriculum is well aligned to the common core standards and also features problems that align with the Smarter Balanced application type questions. It is rigorous and would great for all learning styles.

Strengths:

- It is aligned to state standards and best practices.
- Uses progressions of learning.
- Has 3 main focuses that it is written by conceptualization, fluency, and application which they refer to as discover, practice, and apply.
- It is an online curriculum that is taught in the classroom by a teacher.
- Students have access to all materials through the web.
- As long as you have one computer and smart-board or projector you can teach and use this program.
- It is more effective if each student has a computer or a small group has access to a computer.
- It can be accessed using a computer, tablet, or I-Pad devices.
- Every lesson starts out with a video to bring the math to life. (It is all tied to real world situations.)
- Students have options when they get to the practice sections of the curriculum and can choose the back ground pictures and things.
- This program provides many math tools, graphing calculator, regular calculator, scientific calculator, construction tool, unit conversions tool, matrix solver, and whiteboard to solve on like paper.
- Professional development is required and is included in the purchase of the licenses.
- Many of the options come with the option to be in English or Spanish.
- The glossary has the definition, an example, a video and can be done in English or Spanish.
- Unit tests come with rubrics and have questions that are written similar to Smarter-balanced questions.
- All unit overviews have each standard listed that is covered in each.
- Students can be assigned assignments and complete them online.
- Practice and assessment questions use a lot of analyzing and reasoning even when they are multiple choice answers.
- The apply section uses many open-ended questions to push students to think deeper.
- In the techbook students can highlight information, take notes in it and can access a camera function to take pictures of their work or graphs to send to the teacher or put in their notes.
- In the discover section students receive automatic feedback whether they answer correct or not.
- The teacher reports can be looked at by standard so the teacher can monitor student learning.
- A rubric guide is provided for all assessments.
- Teacher lesson plans give ideas of online activities as well as hands on activities for their students and very in-depth lesson plans with objectives and essential questions to ask students.
- For more student support the following are available: vocabulary support, access to other curriculums for aiding in RTI, manipulatives, concept reviews weekly, math tools to draw out their thinking, extension activities, and question that provoke verbal thinking.

Weaknesses:

- Professional development would be needed to understand all of the capabilities of this program.
- I used it on my laptop and tablet and it did work a little better on my laptop.

Teachers would need to have back-up plans for if the internet is down to keep working in this curriculum or have a file saved on their computer.

Key Features:

Discovery Education Math Techbook: Algebra II is built from the ground-up to be a unique, web-based teaching and learning tool that is built on the Common Core framework. Unlike other digital math programs that are converted from existing textbooks, Math Techbook™ takes full advantage of digital capabilities to offer multimodal resources that transform teaching and learning. Discovery quality video and other resources provide problems worth solving in a real world context that has relevance to students. Technology Enhanced Item functionality is utilized in both the instructional and assessment areas of Math Techbook™ to provide a deeper assessment of conceptualization and application. Incorporate into the inquiry-based approach to mathematics is a powerful monitoring dashboard that captures student...
responses as students explore mathematics concepts. Teachers can use this dashboard both as a
monitoring and teacher response tool and as a teaching tool, sharing student responses anonymously for
class discussion. Powerful yet simple-to-use, Math Techbook™ saves teachers time and provides on-
going support as they transition to digital. In each mathematics concept within a unit, Discovery Education
Math Techbook™ elevates student achievement through a focus on the three aspects of rigor in
mathematics:
I. Conceptualization: In the Discover phase, students are challenged to collaboratively and individually
solve real-world problems as they build their conceptual understanding with guidance from the teacher.
Problems are presented through text, video, and problem-solving interactives. Math tools, such as
whiteboards and equation generators, are readily available for students and teachers to use. Student
responses are monitored in the teacher dashboard, but scoring is not done in this phase so that students
have a low-risk opportunity to solve the problems themselves.
II. Fluency: In the Practice phase, students first take on practice problems in a Coach area in which they
are provided with feedback on their responses to ensure mastery. They then move on to a Play area that
provides practice exercises in a gamification mode. Student responses are monitored in the teacher
dashboard and progress is recorded.
III. Application: Students move on to an Apply phase in which they apply skills and conceptualization to
solve challenging real-world problems. Teachers monitor and score these responses using a scoring
rubric.
Each unit includes a unit assessment that utilizes technology enhanced items as well as more traditional
selected response items.

Notes: Discovery Education’s math techbook Algebra 2 is a very unique curriculum. The entire curriculum
is online but is taught in-conjunction with a teacher and they lead the class. This curriculum is unique in
the way it is set up. It can be taught one on one, small group, or to an entire class. Every
student doesn’t have to have a computer to use this curriculum. This course uses real-life applications in
every lesson to get students thinking about the concept. Then it provides, a lesson that has a thought
provoking video or problem, as well as practice, and then application Questions called TEI’s. It was easy
to navigate through as a first time user. This curriculum is well aligned to the common core standards and
also features problems that align with the Smarter Balanced application type questions. The teacher
lesson plans for each lesson were very good and the resources and online techbook were student
friendly. This curriculum gives students many math tools for them to use to show or explain their thinking
and to help them solve each math problem. The students have 2 resources, the techbook and the
teacher which is nice for students who want to move a little quicker and it would free up the teacher to
help the struggling students a little more. It is rigorous and would great for all learning styles.

Strengths:

- It is aligned to CC state standards and best practices.
- Uses progressions of learning.
- Has 3 main focuses that it is written by conceptualization, fluency, and application which they refer
to as discover, practice, and apply.
- It is an online curriculum that is taught in the classroom by a teacher.
- Students have access to all materials through the web.
- As long as you have one computer or smart-board or projector you can teach and use this
program.
- It is more effective if each student has a computer or a small group has access to a computer.
- It can be accessed using a computer, tablet, or I-Pad devices.
- Every lesson starts out with a video to bring the math to life. (It is all tied to real world
situations.)
- Students have options when they get to the practice sections of the curriculum and can choose
the back ground pictures and things.
- This program provides many math tools, graphing calculator, regular calculator, scientific
calculator, construction tool, unit conversions tool, matrix solver, and whiteboard to solve on like
paper.
- Professional development is required and is included in the purchase of the licenses.
- Many of the options come with the option to be in English or Spanish.
- The glossary has the definition, an example, a video and can be done in English or Spanish.
- Unit tests come with rubrics and have questions that are written similar to Smarter-balanced
questions.
- All unit overviews have each standard listed that is covered in each.
- Students can be assigned assignments and complete them online.
- Practice and assessment questions use a lot of analyzing and reasoning even when they are
multiple choice answers.
- The apply section uses many open-ended questions to push students to think deeper.
- In the techbook students can highlight information, take notes in it and can access a camera
function to take pictures of their work or graphs to send to the teacher or put in their notes.
- In the discover section students receive automatic feedback whether they answer correct or
not.
### Key Features:

- Provides practice exercises in a gamification mode.
- Technology Enhanced Item functionality is utilized in both the instructional and assessment areas of Math Techbook™ to provide a deeper assessment of conceptualization and application.
- Incorporated into the inquiry-based approach to mathematics, a powerful monitoring dashboard that captures student responses as students explore mathematics concepts.
- Teachers can use this dashboard both as a monitoring and teacher response tool and as a teaching tool, sharing student responses anonymously for class discussion.
- Powerful yet simple-to-use, Math Techbook™ saves teachers time and provides ongoing support as they transition to digital. In each mathematics concept within a unit, Discovery Education Math Techbook™ elevates student achievement through a focus on the three aspects of rigor in mathematics:

#### I. Conceptualization
- In the Discover phase, students are challenged to collaboratively and individually solve real-world problems as they build their conceptual understanding with guidance from the teacher.
- Problems are presented through text, video, and problem-solving interactives.
- Math tools, such as whiteboards and equation generators, are readily available for students and teachers to use.
- Student responses are monitored in the teacher dashboard, but scoring is not done in this phase so that students have a low-risk opportunity to solve the problems themselves.

#### II. Fluency
- In the Practice phase, students first take on practice problems in a Coach area in which they provide feedback on their responses to ensure mastery.
- They then move on to a Play area that provides practice exercises in a gamification mode.
- Student responses are monitored in the teacher dashboard and progress is recorded.

#### III. Application
- Students move on to an Apply phase in which they apply skills and conceptualization to solve challenging real-world problems.
- Teachers monitor and score these responses using a scoring rubric.

Each unit includes a unit assessment that utilizes technology enhanced items as well as more traditional selected response items.

<td>Reflex (Idaho Edition) Student License 6-Year Subscription</td>
<td>ExploreLearning</td>
<td>2015</td>
<td>2-5</td>
<td>978-1-4916-0801-2</td>
<td>Component for basic math fact fluency</td>
</tr>
</tbody>
</table>

**Notes:**
- Grades 2-3: Required fluencies addressed to mastery. Grades 4-5 Supports required fluencies.
- Adaptive game-based focused on developing basic math fact fluency; utilizes fact families, and inverse of operations, available in addition/subtraction or multiplication/division, strengthens automaticity and instant recall of facts, highlight adaptive and individualized for efficiency in math fact fluency. Recommended 3Xweek= approximately 60 minutes. Family/parent login and reports are available.
- Strengths: Available in Spanish & French, adaptable, motivating games, & avatars. Assessment determines needs, engaging game platform, students can earn tokens, allows students to meet a daily goal prior to practice, new games earned through additional use, automated email reports, teachers do not have to manage this program. Can be used on ipad, chromebooks and desktops.
- Weaknesses: Cannot select all four operations, doesn't teach conceptual understanding, student must know number key placement, cannot play without a sound card. Doesn't work on iphone and some tablets.

**Key Features:**
- ExploreLearning Reflex is an adaptive and individualized online system which helps students in grades 2–8 develop instant recall of their basic math facts (Addition/Subtraction 0 – 10, Multiplication-Division 0 – 10, or Multiplication-Division 0 – 12). Key Reflex features include:
  - Adaptive and individualized instruction: Reflex continuously monitors and adapts to each student's performance to create the optimal experience for every student.
  - Intuitive and powerful reporting: Educators have everything they need to easily monitor and support student progress in Reflex.
  - Game-based design: Reflex uses engaging games and rewards to create a highly motivational environment that encourages student effort and progress.
  - Flexible and accessible implementation: Reflex can be used with students of all ability levels, anywhere
there is an Internet connection.

<tr>
<td></td>
<td>Key Features: Math Expressions is a comprehensive mathematics curriculum for Kindergarten through Grade 6 that offers new ways to teach and learn mathematics. It follows the most recent recommendations for effective math instruction and aligns with many state standards and supports the Common Core State Standards. Math Expressions is: Comprehensive, research-based program that is fully aligned to the Common Core State Standards and Learning Progressions Written by well-respected researcher and author, Dr. Karen Fuson, who contributed to the research base for the CCSS, participated on the CCSS Mathematical Feedback Committees and is a writer of the Learning Progressions for the CCSS in Mathematics Document Combines the most powerful elements of standards-based instruction with the most effective methods of traditional approaches Emphasizes deeper understanding through real-world problems, modeling, Math Talk, and exploration in order to build ideas that make sense to students Students study a small number of mathematical concepts in order to have time to develop the knowledge to build in-depth understanding of big ideas Teachers create an exploratory environment and encourage constructive discussion. Student invent, question, model and represent, but also learn and practice important math strategies Through daily Math Talk, students explain methods and in turn, become more fluent in them. Math Talk is supported with math boards and manipulatives to develop conceptual learning and fluency Mathematics content and models connect and build across grade levels to provide a progression of teaching and learning that aligns precisely with the CCSS As students confidence and experience build, use of modeling, repeated reasoning, and abstract thinking grow, leading to mastery of hallmark CCSS Mathematical Practice Standards Extensive teaching materials include research and math background with the Common Core Learning Progressions and Mathematical Practices clearly identified</td>

<tr>
<td></td>
<td>Notes: Good assessments and program components to support the teacher. This program has addressed its weaknesses from the last edition. Fluency checks are in the assessment guide and available to print for student practice. The program is well written and easy to follow. Skills are integrated and represented in a variety of ways. Assessments are aligned with core standards. Great visual representations of mathematical concepts. Good use of real world connections. Program has differentiated instruction cards that support RtI instruction. Strengths: Mathematical Practices are well integrated within each unit and lesson, fluency practice is integrated, homework and remembering pages, and parent letters have standards listed. There are many resources available. Weaknesses: Strands aren't fully integrated within each other as well as they could be still separate time and data chapters. Fluency practice is needed more at the K level.</td>

<td>Notes: Online materials are available. Smart Notebook/Promethean Board lessons for each lesson in the book, but these are additional resources. Gives multiple strategies for students to understand different mathematical concepts. Strengths: Mathematical Practices are focused and developed for the teacher in every lesson. Parent letters include standards and mathematical practices. Literacy library component, manipulative kits, separate student workbook and homework book, PD online, assessments are online and in the assessment guide, both summative and formative assessments, two versions of summative assessments, frequent fluency checks on required fluency per grade level, performance tasks at each unit test, performance tasks/assessments are grade level appropriate, SBAC booklet for preparation, review day prior to unit assessment, reteach opportunities and materials, workbook provides students a learning record for them to refer back to previous learning, the review lists which lessons the problems are taken from, strong multidisciplinary connections are available within the lessons. Weaknesses: Domain/standard is not listed on the assessment. (However, this is listed in the assessing the unit pages at the end of each unit.)</td>

**Houghton Mifflin Harcourt Math Expressions Grade 6 © 2013**

Dr. Karen Fuson & Sybilla Beckmann

2013 | 6 | Core |

**Notes:** Well organized, teacher friendly, multiple strategies shown for student use. Differentiation strategies for every unit. Strengths: Rti material for levels 1-3. Many different strategies offered for teachers to show students. Separate WB and HW book. Summative and formative assessments available- multiple choice and short answer, differentiated instruction, performance tasks are appropriate for the grade, great modeling, and practice of skills. Weaknesses: Not a task rich program, need more depth of conceptual understanding for dividing fractions, need more formative assessments, no STEM activities, not visually appealing, one task per unit.

**Key Features:**
See above.

Math Expressions Student Activity Book with MathBoard 6-Year Print Subscription (Softcover) Grade 6 (includes Volumes 1 & 2, Student MathBoard Grade 6)

Houghton Mifflin Harcourt

Notes: Strengths: The program aligns with core standards at each grade level and assesses only grade level content. It provides extensive procedural practice.

Weaknesses: This program lacks necessary rigor and the opportunity for students to engage in the 8
mathematical practices. It lacks real life engaging problems. Very little opportunity provided for students to engage in mathematical reasoning. Problems are over scaffolded so student thinking is minimized. Assessments are weak and do not align with SBAC type questions so will not prepare students for SBAC type testing.

Key Features:
HMH’s GO Math! © 2014 is a focused, middle school mathematics program designed to meet the objectives and intent of the Common Core State Standards for Mathematics. The program provides thorough coverage of the standards, with an emphasis on depth of instruction. The program is designed to provide coherent and focused progressions across the grades. Particular attention was given to providing support for teachers as they deliver this focused, rigorous curriculum. Students and teachers are supported by the program’s unique, write-in, interactive Student Editions at every grade, which allow students to represent, solve, and explain in one place, and by the features of the fully integrated Go Digital! resources, which harness the power of technology to support students’ deep mathematical learning. Key features of the program include:

- HMH Player: a new and exciting app that connects teachers and students directly to HMH Player-enabled content. Teachers and students can connect to their content while working from their iPad, Chromebooks, and laptops/desktops. The HMH Player provides powerful presentation tools for teachers and collaboration tools that keep teacher and students connected.

- The Personal Math Trainer, powered by Knewton™, is the ultimate online, adaptive assessment and personalized learning system, and is embedded within the GO Math! interactive student Edition ensuring these core student digital resource are able to flexibly align with what student knows.

- Interactive Student Edition (iSE): offers an interactive approach with embedded media, videos, the e-glossary, i-tools, assessment, intervention, homework, and is accessible on computers and tablets.

Math on the Spot Videos: are lesson-specific videos that offer an engaging view of instructional round key lesson content and instructional model.

**Houghton Mifflin Harcourt**

**HMH Algebra 2 © 2015**

Kanold, Larson, Burger, Dixon, Leinwand

2015 9-12 Core

Notes:
Comprehensive program that encompasses standards, builds off prior knowledge, helps to develop in depth understanding, Teacher resources demonstrate math practices. Multiple response, justify, critique techniques and questions are required, carefully delineates multistep problems.

Strengths: Resource locker: Algebra tiles, videos, ELL glossary etc. Accessible w/smart device.
Organization by unit/module, RTI Materials, PD & Math practices, Differentiation, Essential questions, Performance tasks throughout, Online state resources,
Weaknesses: Limited practice within the textbook, reading level appears to be more middle school age appropriate rather than high school,
Quarterly Benchmarks: more ‘chunking’-one to one device for electronic testing, Electric/Tech requirements, Vocabulary appears life. Introduced/ highlighted but no consistency used or asked for students to use. Pages don’t match from teachers to student text. Huge disconnect between TE & SE books. Example: Page #’s don’t match up. Lesson 7.2 # 10 in SE is on Engineering problem but business problem in TE.

Key Features: :
The HMH AGA © 2015 program provides coherent, focused, and rigorous Common Core instruction though a blended learning approach. The program begins with a digital student experience (organized around the “5Es” of instruction) and follows an interactive HTML pathway. The concise print offering showcases interactively with a “less talking, more doing” approach to teaching mathematics. The program provides rigor and depth of understanding through interactive lessons, research-based instructional approaches, best practices, and differentiation instructional resources to ensure success for all students.
The HMH AGA program sets apart from other programs due to:
Seamless integration of digital features reaches today’s students in their preferred learning style. Digital course management tools offer teachers flexibility in planning, instruction, and assessment for in-class or on-the-go learning.
Focused, balanced, and rigorous instruction encompasses the philosophy and intent of new state standards.

Presents a digital-first solution, built around the groundbreaking HMH Player that transcends the traditional approach of eBooks and online resources.
HMH Player provides an enhanced tablet-friendly digital experience for students, teachers, and parents. Personalized and adaptive instruction is taken to the next level with Personal Math Trainer, powered by Knewton™.

**Key Features:**

*McGraw-Hill My Math for grades K-5 is organized around the Common Core State Standards for Mathematics and emphasizes Mathematical Practices in an interactive environment that makes learning fun and exciting.*

*Students interact with math like never before, as they have the opportunity to take notes within their own textbook and even complete homework on a tablet. ConnectED, our digital platform, ensures that students have a consistent experience through grades K-8.*

</tr>
</thead>
</table>

**Notes:** It has all the components and meets the expectations. The TE is a little confusing at first. Contains beginning, mid, and end of year assessments to gage progress.

**Strengths:** Integration of the strands. Materials list for each lesson was clear.

**Weaknesses:** Mathematical Practices are present, but not fully integrated. Not much practice, fluency piece is lacking.

**Key Features:**

*See Key Features above.*

#### Everyday Math
- Bell et al
- 2016
- K-2

**Notes:** Logical sequence and layout of the chapters. The lessons were presented in such a way that an experienced teacher or a novice teacher, even a substitute, could easily follow and adapt to meet learning goals. The core standards and mathematical practices were embedded and supported throughout the text.

**Strengths:** Rigor and levels of complexity in each lesson. Ell includes various strategies, focus on vocabulary. 5 components of the lesson: get ready, investigate & model, teach, practice & apply, differentiated instruction, and wrap it up.

**Key Features:**
- **Everyday Mathematics** is a PreK-6 core mathematics program developed at University of Chicago and grounded in substantial field testing and a distinct research-based philosophy. **Everyday Mathematics** provides rigorous instruction, promoting long-term retention and deeply incorporated problem-solving and game-based learning.

The curriculum has a spiraled approach, distributing learning throughout the curriculum. Research has shown children learn best through distributed practice – when new topics are presented at a brisk pace, with multiple exposures over time and frequent opportunities for review and practice, often referred to as a “Spiral Curriculum”. The **Everyday Mathematics** curriculum optimizes these conditions for learning and retaining knowledge, by introducing new concepts or skills informally and then revisited in a variety of contexts over several grades. Subsequent exposures build upon previous experience, helping children develop both knowledge of mathematics and their ability and willingness to apply what they know.

<tbody>
<tr>
<td>Notes: To be used in conjunction with Number Worlds. Intended to be used as a small piece and extra practice with Number Worlds. Strengths: ELL option between English and Spanish games, learning trajectories help teachers correlate level of practice to expected age, engaging through technology. Weaknesses: Not enough information for teachers as a stand-alone program. No higher level thinking required. Lacks rigor, coherency and focus. Key Features: Building Blocks activities provide supplemental math practice for students in grades preK-8 in an all-digital, adaptive format. Building Blocks is designed to engage students by adapting to meet individual student needs. The adaptive engine automatically adjusts based on student responses. Remedies and extra practice activities help students to master key math skills. Ongoing, real-time reports allow teachers to easily track student progress and identify potential problem areas. Building Blocks is proven to build a strong foundation for math success. The program is the result of National Science Foundation-funded research and designed to guide students through research-based learning paths.</td>

lessons in order to develop student mastery. Strengths: Project Preview includes standards driven project-based learning that is effective in building content understanding, project Evaluation Criteria allows teachers to assess progression of learning, manipulative materials support lessons and encourage student engagement, warm up cards are easy to follow and allow students to develop variations in their learning up to and including challenge, includes an ELL support guide with strategies to inform and adapt instruction, Math at Home letter to show their learning at home.

Grades 3-5: Placement test used to determine the needs of the students. Students can also be placed according to domain. Each unit contains a pre and post assessment. Intervention strategies are used throughout the unit. Active engagement. ELL support guide. Concepts are aligned to core standards. Strengths: Real world connections in math activities, mathematics in context, vocabulary and language development support through reflections, weekly projects to promote deeper level thinking, use of manipulative/multiple means of representation, students have choice in activities.

Grades 6-8: Very well laid out and visually appealing, engaging for students, covers most grade level standards, provides different resources and activities to supplement core material. Strengths: Well scaffolded, unit projects, engaging activities, concepts across grade level, contains mathematical practices, good ELL support, clear rubrics, good support for learning goals, lots of practice available.

Weaknesses: Does not cover all the standards, some pre-requisites are not covered, not a lot of higher-order thinking questions.

Key Features:

With a research-proven curriculum and extensive field testing, Number Worlds supports RtI and helps schools meet their academic objectives. As RtI encourages working with at-risk students early on, Number Worlds is the only math intervention curriculum with a built-in prevention program for grades Pre-K to 1.

Number Worlds gives students the confidence and skills to excel in math. Best of all, it allows teachers to make a positive difference in their students’ lives.

Help struggling students accelerate math success with a proven approach.

PREPARE students to meet rigorous Common Core State Standards with proven curriculum and enhanced planning tools.

ENGAGE students with interactive games, embedded activities, digital resources, and project-based learning.

ASSESS student achievement with dynamic, digital assessment and reporting tools.

<tr>
<td><strong>Key Features:</strong></td>
<td>The organization of the Glencoe Math program was purposefully designed to support a balance between the development of conceptual understandings, the need for instilling proficiency, and the desire to make the mathematics rich and meaningful to every student, so rigor is applied daily as students' model, practice and apply concepts.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td><em>Glencoe Math</em> features a unique &quot;Walk-Around Teacher Edition&quot; that contains everything you need in the classroom- it is designed to be smaller and lighter and easy to carry while teaching. This paired with the comprehensive online Teacher resources provides the teacher everything they need to plan, prepare, teach, make assignments, and stay organized in the classroom.</td>

<tr>
<td><strong>Notes:</strong></td>
<td>Recommend with online components. Program has a variety of differentiated and ELL materials. Focusses on fluency of procedures, lacks rigor the standards require. Strengths: Vocabulary, differentiation of student levels, introduction to practice standards handbook, inquiry labs provide real world/hands on practice, manipulatives are true representations, online tutorials and manipulatives, ALEKS imbedded, variety of assessments, attempt to focus on practice standards. Weaknesses: Scaffolded, but with little opportunity to explore or discover, too many lessons below grade level, few connections within and across domain, doesn’t allow students to generate their own conclusions.</td>

<tr>
<td>Notes: Use with online access for students as one strength of the program is online support- tutorials, ALEKS, immediate feedback. Covers the standards, contains differentiation, and has a variety of assessments. Strengths: Vocabulary activities, differentiation, focus on mathematic practices, inquiry labs, SBAC test practice, college &amp; career ready in every chapter, support material for teachers, STEM projects, available in English and Spanish. Weaknesses: concepts taught in isolation, doesn’t allow students to generate their own conclusions, little exploring without extensive built-in scaffolding, lacks rigor/rich tasks.</td>

**Notes:**
Use with online access for students. With the online resources, this course is very engaging, self-checking, and has a lot of support for students and teachers. 7th grade standards are met. Variety of assessments.

**Strengths:**
- Strong mathematical practices throughout, lesson plans are scaffolded, chapters have reviews and vocabulary activities, lots of real world problems, inquiry labs in each chapter, assessments can be modified, pretests, diagnostic tests, vocabulary quizzes, extended-response, standardized and performance based. Interactive study guide aligned to each chapter, differentiated homework options, very sequential, can easily check answers to determine understanding. Online resources include vocabulary, tutorials, virtual manipulatives and animations.

**Weaknesses:**
- Two 8th grade standards are not evident. No core test practice problems, limited science and technical topics, very few multi step questions, a lot of "explain your reasoning", but very few "prove" or "justify". Rigor was present in extended response tests, but not necessarily throughout the book. Problems were typical for American students in the suburbs.

**Key Features:**
- Built around the Common Core Accelerated 7th Grade Pathway, *Glencoe Math Accelerated* supports each teacher’s unique teaching style and each student’s unique learning needs like never before. Get your students excited about math with this all new program that is interactive, flexible, and highly customizable.
- Present math in real and relevant ways to students of all learning abilities with easy-to-find resources, customizable lesson presentations, and leveled worksheets all in one convenient online location.
- Transition students from consumable workbooks to casebound textbooks with the Interactive Study Guide as a companion to the hardback Student Edition.

McGraw-Hill School Education, LLC

<table>
<thead>
<tr>
<th>Core Plus Mathematics</th>
<th>Hirsch</th>
<th>2015</th>
<th>9-12</th>
</tr>
</thead>
</table>

**Notes:**
Core Plus is completely aligned with the core standards and address all 8 of the mathematical practices. The sequencing is appropriate across all 4 courses. Has a big emphasis on technology with an online website that is very user friendly. The program has multiple types of problems including application, reflection, connections, extensions & review. All problems are age appropriate and make connections between different strands (interweave geometry & algebra) as well as between clusters & domains. Students are required to explain and justify their thinking both verbally & written. They are also required to critique the reasoning of others. The program offers differentiated & ELL notes as well as an honors program.
Pathway.
Strengths: There are 4 courses that will equal the 4 years of high school. The 4th year course has two options, one that is a college prep type class (prep or calculus) or one that is more of a workforce prep type of class.

This program has several different types of assessments, including online assessment, quizzes, unit tests, take home tests, and projects. The solution lay is provided or all task, homework and assessments. All students are challenged with this program & the program is clearly research based.

Weaknesses: There is not a lot of supplementary material. The alignment of courses is not exactly equivalent to Idaho’s alignment, but very close. As with most PBT material, there is a lot of reading & writing which is difficult for ELL and Special population students.

Key Features:
The Core-Plus Mathematics Project has completed a revised edition of its integrated, problem-based, technology-rich four-year curriculum. Revisions were informed by recent research on student learning, continuing feedback from teachers using the curriculum materials, and the Common Core State Standards for Mathematics (CCSS), with which the new edition is strongly aligned. The CCSS Edition of Core-Plus Mathematics builds on the strengths of the first edition that was recognized by the U.S. Department of Education as one of six exemplary mathematics programs in the U.S., and the updated and refined second edition that was recognized by the American Institute for Research and the Business-Higher Education Forum’s Strategic Ed Solutions as one of 35 education programs in the U.S. (across all subject areas) that increase student achievement and improve college and career readiness.

In creating the CCSS edition of Core-Plus Mathematics, we have used mathematical modeling as an effective way of connecting the Mathematical Practices and the Content-related Standards across Conceptual Categories.

McGraw-Hill School Education, LLC

| McGraw-Hill School Mathematics Series | 2014 | 9-12 | Core |

Key Features:
Balanced instruction throughout the Glencoe High School Mathematics Series, including Algebra 1, Geometry, Algebra 2, and Precalculus, emphasizes both understanding and fluency. Features include Key Concept boxes with multiple representations, a four-step problem solving plan, correlation between examples and exercises, word problems within each lesson, reading and vocabulary support, and student-centered activity labs.

The Glencoe High School Math Series is a comprehensive program, including all of the major mathematical content strands and mathematical processes. Main Ideas and Key Concepts are highlighted in the Student Edition. The Teacher Edition includes Focus on Mathematical Content for each chapter. This section provides Big Ideas, which explains why the content is important in this chapter and in later studies, and Lesson Summary features, which outline the mathematical ideas of each lesson in the chapter.

The Glencoe High School Math Series is carefully aligned with national standards. Each curriculum contains Standardized Test examples and practice problems like those found on standardized tests—within the lessons, the Mid-Chapter Quiz, and the Practice Chapter Test.

The Glencoe High School Math Series curriculum is coherent and coordinated. It is vertically aligned between courses and vertically aligned at the lesson level. The Teacher Edition includes a detailed description of vertical alignment for each chapter. The Focus step in each lesson includes the vertical alignment for that lesson.

In the Student Edition, Get Ready for the Chapter provides both a diagnostic quiz and a review of related concepts that were previously studied.

Dynamic, digital features of the program include an online Interactive Student Guide (Algebra 1, Geometry, and Algebra 2) which provides opportunities for lesson reflection, higher-order thinking, performance tasks and Common Core-style assessment questions; Geometer’s Sketchpad to support visualization of difficult concepts and independent exploration; and optional embedded ALEKS for point-of-use, personalized math support and extension.

McGraw-Hill School Education, LLC

| Glencoe Algebra 1 | Glencoe | 2014 | 9-12 | Core |

Notes: Well organized with many supplementary materials. ie resource masters for each chapter, handbooks, and study notebooks.
User friendly and a solid supportive outline for a beginning teacher as well as seasoned veterans.
Glencoe Algebra 1 meets the following CCSS; statistics and probability S-ID; functions F-IF 1.9, F-BF 1-4, F-LE 1-5, numbers and quantitative strands N-RN, N-A- these strands are evident throughout the lessons in the material.
Strengths/Weaknesses: Would prefer more than one of each type of higher order thinking problems to allow students choice. The study notebook would be more useful as a review for concepts and basic understanding after concepts have been taught. Engagement level is not written in a way that will entice diverse HS students. Assessments do not clearly state which standards are being emphasized. Rubrics are only available for extended response tests. Limited science and technical topics. No common core test practice problems.

| Notes: Well organized with a lot of ancillary materials. Looks more like a "traditional" textbook than a "common core" textbook. Curriculum is user friendly and good support for a new teacher. Strengths/Weaknesses: Wish there were more than one of each type section to choose from on higher order thinking skills. The study notebook would either not be necessary or would/should only be used in

CONSENT - SDE

TAB 3 PAGE 104
review situations. Materials probably would not engage the typical HS student. Mostly math and no application problems they would care about. Standards are not clearly lined out on assessments so you know which standards were on assessment. Only a rubric for "extended response" sections.

Key Features:
See Key Features above.

**McGraw-Hill School Education, LLC**

**Glencoe Geometry**

<p>| Glencoe Geometry | Glencoe | 2014 | 9-12 | Core |
| Notes: Geometry course is teacher friendly, with core standards laid out visually throughout book. Full correlation to state standards found in the front of the TE. Course includes multiple resources for the teacher to incorporate in lessons. Teaching Mathematical practices highlighted and discussed in TE for each lesson. Strengths/Weaknesses: Applications noticed at beginning of each lesson/section and included throughout assignment. Homework is differentiated as A, B, C for basic core, advanced. Progressive problems included in each lesson. Multiple graphic representations. Concepts presented in multiple ways. Concepts developed in logical progression. Vocabulary highlighted for students. Bilingual definitions available in lessons and in the glossary. Tips for new teacher occur regularly in TE. Key Features: See Key Features above. |

Notes: Suggestions for ELL and special populations of learners. Well organized. The book has teaching suggestions and identifies problems by level. Support work available. Online resources for teachers and students.

Strengths: Set up for a variety of student levels. Has a great deal of support materials in chapter booklets. Differentiated instruction. Scaffolding for teachers. Pacing guide Study notebook.

Weaknesses: Not very changed for common core. Pages are a little “busy” with all the text and examples.

**Key Features:**
Bridges in Mathematics is a comprehensive K–5 curriculum that equips teachers to fully implement the Common Core State Standards for Mathematics in a manner that is rigorous, coherent, engaging, and accessible to all learners. The curriculum focuses on developing students’ deep understandings of mathematical concepts, proficiency with key skills, and ability to solve complex and novel problems. Bridges blends direct instruction, structured investigation, and open exploration. It taps into the intelligence and strengths of all students by presenting material that is as linguistically, visually, and kinesthetically rich as it is mathematically powerful.

**Notes:**
Materials have strong rigor that develop conceptual understanding of key mathematical concepts. The program embodies the intentions of the core and the key shifts in mathematics and instruction. The program follows the progression of instruction. The majority of materials and lessons are devoted to developing conceptual understanding. Materials extensively incorporate the use of critical linear models and are used to build number skills. Geometry concepts are also developed with the same instructional progression. Materials build procedural skill and fluency. The materials have a variety of word problem types and real world applications. In some instances above grade level concepts are brought in to support understanding, but these above grade olevel standards are not assessed. Cluster standards are connected in the majority of the sessions and activities. The supporting standards are connected to the major work of each grade which allows students to acquire deep mathematical understanding.

**Key Features:**

**Key Features:**
See Key Features above.

| Math Learning Center | Bridges in Mathematics | Baker, Chandler, Fisher, Harris, and Cooke | 2015 | 3 | 9781602625112 | Core |

**Notes:**
There are many components to this program which allow a variety of learning styles and activities. The program provides opportunity for students to learn CCSS comprehensively, with exposure to reasoning and justifying using the Practice standards. We felt the differentiation, ELL, and support pieces to this program are lacking. There is an online component. The Number Corner piece to the program seems to be valuable piece to the program that helps students make connections in many ways. Strengths: Problem strings, formatted for the teacher complete with ideas for student responses. Blackline masters in hard copy and electronic form are easy to access. Content background and use of models is provided for each unit to build teacher knowledge. Students are given opportunities to develop understanding by constructing and justifying answers. (Challenge Problems) The 8 Mathematical Practice standards are addressed and embedded within lessons. Progression document across grade levels shows teachers where mastery needs to be developed. Early and frequent exposure to multiple standards through the number corner activities. Single and multiple word problems available. Each grade level follows similar structure, which allows the materials to be used as remediation. Manipulatives provided. Customer support immediate and easily accessible. Engages students to discuss their understandings and reasoning with each other. Encourages students to work together. Variety of assessments and assessment questions. Procedural skills are strong. Problems are good real-world applications. High Quality conceptual problems and discussions.

**Weaknesses:**
Too much material, overwhelming, how can teachers fit it all in? No fluency drills. ELL.
Differentiation, and Support components are lacking, however this is somewhat built into the program.

Key Features:
enVisionmath2.0 is organized to focus on the Common Core Clusters; aligns to the next generation assessment content emphases requirements; and offers the focus, coherence, and rigor as defined by the Common Core State Standards for Mathematics. Consistent, everyday engagement of the Standards for Mathematical Practice enables learners to develop understandings and use mathematics with understanding.
enVisionmath2.0 provides print and digital resources to personalize learning and support a research-based instructional model. This enables the program to be taught in a variety of classroom models as an authentic learning experience in print, digital, and blended approaches. For example Problem-Based Learning is key to conceptual development and is an integral part of every lesson in the student print component and as a digital experience at every grade. Practice Buddy powered by MathXL provides a strong, digital student independent practice leveling experience and parallel, leveled print student practice components are also provided.
enVisionmath2.0 offers rich differentiation resources for every lesson that include robust intervention activities and great variety of engaging experiences for all levels of learners through print and digital tools, games, and interactive workspaces.
enVisionmath2.0 is powered by the new Pearson Realize learning management system, providing teachers with the ability to customize content, auto-assign differentiation, and use assessment data quickly and easily. Online and print assessments reflect the new high-stakes assessments.

Notes: Overall, this is a comprehensive program that aligns well to core standards. All standards are addressed and no standards from other grade levels are found. Teachers are able to follow progressions easily. The focus of the program is on the major work of each grade level with rigor and coherence to the standards. Math practices are evident and all are utilized throughout the program. Good supports are in place for RTI and ELL, as for higher learners. Every lesson has differentiation opportunities. Lesson plans are laid out in an informative and meaningful manner. The online portion of the program is well laid out and easy to use. Learning centers and games are focused on supporting the major works of each grade level. Teachers are able to create charts and graphs to help visualize and track student progress.

Strengths: Performance tasks require written explanations, focus on major work of each grade, conceptual understandings are clearly taught, strong emphasis on vocabulary, ample opportunities to discuss, share and critique. Provides for differentiated instruction and practice, RTI components, leveled assignments, ELL support, online resources.

Weaknesses: Too many multiple choice problems, not enough emphasis on fluency.

**Pearson Education, Inc.**

**Pearson Digits Grade 6**

| Notes: This is a well package program but relies heavily on technology. For self-motivated, high performing students, a program such as this might be effective, but little to no practice. |
| Key Features: |
| Simplify for the Teacher: Teachers can tap into the resource they need, exactly when they need it. Based on the interACTIVE Learning Cycle™ of assessment, instruction, and practice, digits provides prevention and enrichment paths along with individualized study plans, reporting, and auto-scored homework that saves time usually lost to administrative tasks. |
| Optimize Effective Time on Task: With digits, time spent grading or reviewing homework for the whole class is instead open for teaching and giving attention to students. Readiness assessments and auto-scored homework immediately identify students’ understanding of content so teachers can focus on individual learners’ needs during class. |
| Personalize for the Student: Today’s students are natives in the digital world. digits is a one-of-kind program that will keep learners motivated using technology to provide them with individualized learning paths and self-guided exploration options. Learning math the digits way is highly-visual, fun, and engaging. |
| Trusted Authorship: Representing a diverse background and many areas of expertise such as visual learning, technology, intervention and ELL, the digits author team is comprised of Pearson enVisionMATH™ authors as well as a cadre of noted advisors. |

| Pearson Connected Mathematics 3™ Grade 6 | Lappan et al | 2014 | 6-8 | Core |

Key Features:
The goal of Connected Mathematics 3 is to help students develop mathematical knowledge, conceptual understanding, and procedural skills, along with an awareness of the rich connections between math topics—across grades and across Common Core content areas. Through the “Launch-Explore-Summarize” model, students investigate and solve problems that develop rigorous higher-order thinking skills and problem-solving strategies.
Curriculum development for CMP3 has been guided by an important mathematical idea: All students should be able to reason and communicate proficiently in mathematics. They should have knowledge of and skill in the use of vocabulary, forms of representation, materials, tools, techniques, and intellectual methods of mathematics. This includes the ability to define and solve problems with reason, insight, inventiveness, and technical proficiency.
CMP3 uses technology to help teachers implement with fidelity, thus raising student achievement. Easy-to-use mobile tools help with classroom management and capture student work on the go. ExamView® delivers a full suite of assessment tools, and MathXL® provides individualized skills practice. 21st century social networking technology connects CMP3 teachers, while students benefit from interactive digital student pages that allow for instantaneous sharing and effective group work.

Notes: Connected Mathematics is a research based program that closely reflects the basic architecture of common core standards, grades 6-8. The tasks are well designed to provide students opportunity to explore mathematics.
Strengths: Rigor is apparent and included in every aspect of the program. There is an exceptional balance between conceptual understanding and procedural skills practice, provides opportunities for students to engage in the 8 mathematical practices daily through problem solving.
Weaknesses: Teacher training would be a must, as it is not a traditional math program.

Key Features: See Key Features above.

### Pearson Algebra 1, Geometry, Algebra 2 Common Core Edition

#### Key Features:

*Pearson Algebra 1, Geometry, Algebra 2 Common Core Edition ©2015 is a rigorous, flexible, and data-driven program.*

**Rigorous:** The lesson design of the program was built specifically for the Common Core’s definition of rigor. Pearson’s 5-step lesson design has been proven effective by independent research. The 5-step lesson design of the program balances conceptual understanding, procedural fluency, and the application of mathematics to solve problems and formulate models— exactly as called for by the Common Core.

**Flexible:** The program is flexible and provides a wealth of resources to meet the needs of teachers and students. Four pages of differentiated resources are provided for every lesson, including appropriate resources to differentiate instruction effectively for struggling learners, English Language Learners, and advanced students. Students have access to a variety of multimedia learning aids, including a free Virtual Nerd tutorial video mobile app, digital manipulatives, and interactive online practice.

**Data-Driven:** The program is data-driven. Chapter performance tasks and technology-enhanced next-generation assessments provide the rigor required to prepare students for upcoming assessments. Students have ample opportunities to practice solving rich, multi-step tasks throughout the program. Data-driven digital resources include auto-graded online assessments where the appropriate remediation or enrichment is automatically assigned to the student.

### Pearson Education, Inc.

**Notes:** This course has many resources such as a student companion, RII assessments and re-teaching opportunities, math XL, and virtual nerd app. Overall, it appears to be rigorous and does correspond to the core standards. It provides many skills problems along with application problems and opportunities. It has a great mix of traditional and core. It is user friendly has tools and resources that will assist both teachers and students.

**Strengths:** Lessons begin with a solve it question that leads into the new concept, then progresses to more in depth problem solving. The TE is very descriptive and offers a wide variety of options for students to learn. TE resources all on one page. Good open ended questions, error analysis, and reasoning problems. Students write about and apply math skills.

**Weaknesses:** majority of the problem sets include skills practice. Not enough problems with modeling. Not many different strategies used for grouping students.

**Key Features:**

See Key Features above.

<td><strong>Pearson Algebra 2 Common Core Edition</strong></td>
<td>Laurie Bass et al</td>
<td>2015</td>
<td>8-12</td>
<td></td>
</tr>
<tr>
<td>Notes: This course has many components to it such as: a student companion, RTI assessments and re-teaching opportunities, math XL, and virtual nerd app. Overall it seems to be rigorous and does correspond to the core standards. This curriculum is enhanced with technology if the teacher chooses to do so. The math XL and virtual nerd app would be very helpful for all students. I liked the student companion book because students can write in it. It provides many skills problems along with application problems and opportunities. It is a good mix of the traditional and new common core ideals. It is user friendly and has many tools and resources that will help both teachers and students. <strong>Strengths:</strong> Each lesson and chapter has a pacing guide along with the core standards that goes with each. It is easy to navigate through all of the materials, user friendly. Lessons have quizzes to assess if students need more help. It provides many ELL resources, RTI resources and enrichment activities. <strong>Key Features:</strong> See Key Features above.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Each chapter has concept bytes and performance tasks. Each practice section has a lesson check to see if students are ready to begin applying the new ideas, then it has a practice section, apply section, challenge section, standardized test prep section, and mixed review section. Student companion book is a consumable booklet that students can write in to note key concepts, guided practice, vocabulary. Students can evaluate themselves at the end of each lesson. Each lesson begins with a Solve It question that leads into the new concept, it then progresses from there to more in-depth problem solving. This program offers a wide variety of options for students to learn from the book and/or student companion or from the online resources like math XL, virtual nerd app, and poweralgebra.com. Majority of problem sets include skills practice, open-ended questions, error analysis, and reasoning problems. Students have opportunities write about and apply the math. The TE is very descriptive. It gives essential questions to ask students and ideas of what to expect students to know. It also gives the available lesson resources for each lesson.

Weaknesses:
Most sections have anywhere from 50-75 problems total. In the pacing guide it never assigned all of them, but it would be important for teachers to look at the pacing guide and use it along with their classroom dynamics to decide if their students belong in the basic, average, or advanced portion of the pacing guide. Many story problems are toward the middle to end of the problem sets. The pacing guides did not include the concept bytes, and performance tasks in them.

Key Features:
See Key Features above.

### Precalculus

**Notes:**
Strengths: Examples are thorough, clear, and a good representation of practice problems. Text is readable, good white space. Scope and sequence is well organized. Upper level thinking problems, group problems, writing problems, and projects at the end of each chapter are interesting, pertinent, well scaffolded and provide students with opportunities to meet math practice standards, master core standards, and become proficient in concepts. Prerequisites addressed well. Intro problem followed up in problem set. Explorations section provides thought provoking problems. Weaknesses: Lacks graphics and pictures. ELL students have only MyMath labs and Math XL online portion to help them. Mathematical practice to critique work of others not met well. Teacher will need to create opportunities for this. Remediation and differentiated opportunities lacking.
### Key Features:
- For graphing-intensive courses
- Nationally recognized author team with years of experience and expertise in the teaching of both precalculus and calculus.
- Fully aligns to cover all (+) standards of the Common Core
- Designed for the way you teach:
- Additional coverage of topics that students are likely to struggle with.
- Shorter sections to accommodate the class period length.
- Extensive resources for new and experienced instructors.
- Written for the needs of today's students:
- Perfect balance of graphical and algebraic representation.
- Applications integrated throughout the text.
- Examples and exercises for all levels of students.
- The Twelve Basic Functions are emphasized throughout the book as a major theme and focus.
- Expanded sections now include Closeness and Betweenness in a Complex World and Random Variables and Expected Value
- Updated data sets and applications
- Provides additional resources to meet your Common Core goals:
  - Common Core Student Practice and Review Guide provides support for every section and includes the following resources: Problem Solving, Practice and Standardized Test Prep.
  - Common Core Implementation Guide supports teachers to make the transition to a Common Core curriculum.
- Includes:
  - Overview of the Common Core State Standards
  - Standards for Mathematical Practice Observational Protocol
  - Common Core Correlations
  - Common Core assessment resources

<td>Key Features:</td>
<td>The nationally recognized author team is back with the 5th Edition of Calculus: Graphical, Numerical, Algebraic written specifically for high school students and aligned to the latest AP Calculus Curriculum Framework and AP Calculus Mathematical Practices. In this edition, renowned author David Bressoud joins the author team bringing his expertise in calculus and knowledge of the AP Calculus exam. • Adheres to the NEW AP Calculus Curriculum Framework for AP* Calculus AB &amp; BC • Supports and aligns to the Mathematical Practices for AP Calculus. • AP* Test Prep workbook written specifically for use with this text • Includes concept outlines to both AB and BC Exams • Detailed guidance in every chapter on the appropriate use of graphing calculators, versus when students should solve problems without them. • Chapter 1 has been updated to focus on the function essentials and to be a more clear review of topics previously learned. • Many chapter openers have been revised to motivate students and show how important calculus models are in real-world behavior. • Historical notes have been improved and updated with new author Bressoud’s insights.</td>

Key Features:
The most cited text in the College Board's AP Statistics sample syllabi.
- Applauded for its readability—your students will read this book!
- Leads with practical data analysis and graphics, encouraging students to "do statistics" and "think statistically" from the start.
- TI-Nspire™ content integrated throughout the text, including margin pointers describing the new calculator activities.
- Updated data used in examples and exercises.
- Fully-updated AP teacher and student supplements
- AP Test Prep Workbook aligns specifically to the text and helps students prepare for the AP Statistics exam.

Scholastic Inc. | MATH 180 | D. Ball, T. Hasselbring, S. Beckmann & D. Dockterman | 2014 | | | Intervention |

Key Features:
MATH 180 is designed to address the needs of struggling students and their teachers equally. It utilizes adaptive software to provide students with personalized instruction and practice, while equipping teachers with an ecosystem of support.

Three key principles have been engineered into MATH 180:

- **Effort Leads to Success**—Growth Mindset: Many struggling students have given up on math. Working with Carol Dweck's Mindset Works organization, MATH 180 creates a new growth mindset by showing students that their efforts lead to success.
- **The Key to Unlocking Higher Mathematics**—The Core Within the Core: For students who are two or more years behind in math, time is critical. That’s why MATH 180 focuses on deep understanding and mastery of the essential skills and concepts necessary to unlock algebra and advanced mathematics.
- **Dramatically Increase Your Impact**—Force Multiplier for Teaching: We know that teachers are the key force behind effective math instruction. MATH 180's Teaching Ecosystem scaffolds less experienced teachers and provides a wealth of sophisticated supports for veteran math teachers to increase the effectiveness of their instruction.

Scholastic Inc. | MATH 180 | D. Ball, T. Hasselbring, S. Beckmann & D. Dockterman | 2014 | Grade 6 | | Intervention |

Notes: it is user friendly for students, highly engaging as it has a computer piece that students tend to enjoy, and very direct in the timeframe. As an intervention piece, it has the growth mind set teaching that most low level students lack. It has quite a variety of mediums used: pen and pencil, mSpace booklet, interactive whiteboard, computer videos, computer games, etc. to cater to all learning styles. For the generation of students who are drawn to technology, this program focuses on technology heavily, but very structurally. It uses technology to pull students in and track their progress. It addresses not only math standards, but literacy standards as well. It provides a detail of each standard addressed. It also provides a variety of strategies for the teacher to employ in the classroom. It is an all-inclusive middle school intervention program to get students algebra ready. I would recommend this program.

Strengths: This program has the growth mindset model, and support of early grades in a variety of fashions. Using the brain arcade for students, they are learning while having fun. The progress tab for the students helps them see their own learning targets and progress they’ve made. The anchor videos and instructional videos are relative, show cultural differences, and show a variety of style (real and cartoon). The lesson planning, the videos about how to do the games and strategies, the student resources, and the printables such as the parent letter are invaluable time savers. The assessments are very useful for teachers and in PLCs.

Weaknesses: With so many materials, it is quite busy. Upon receiving the courses, I was immediately overwhelmed by all of the materials. Districts which adopt this program will need professional development.

Key Features:
See Key Features above.

Notes: Think Through Math is a supplemental math program that can be used to enhance, remediate, accelerate, and complement classroom curriculums. It is a web-based program that is aligned with the core standards. It can be used from a computer, tablet, I-Pad, etc. Reports can be created from this program. It is good at identifying where students are low and where they are proficient. Warm up for fluency practice. If a teacher is not around they can reach a live teacher for help.

Strengths:
The reports that can be used and printed and are tied straight to the standards. Each lesson has a pre-quiz, warm-up, guided learning, practice, and post-quiz. Immediate feedback. If a student fails the post-quiz they then have to go back and relearn material. There is always a live certified teacher available online if a student is truly confused and can’t figure out the concept. The students earn points that they can be used to buy rewards. The teacher can receive weekly reports about their classes or can choose from the following reports: overview report, student detail, student progress, and standards report. The program needs to be used 2-3 times a week for 60-90 minutes for it to be a useful classroom tool. There are trainings and webinars that teachers can access for help. The practice questions, are multiple choice, open-ended questions, computational questions, and graphing. Some questions model the SBAC format. Students can access this curriculum for school or at home. It is updated frequently so that you are using the most updated version.

Key Features:
Think Through Math is a unique web-based learning system that encompasses math content for children in grades 3 through Algebra 1 (aligned to the Idaho Core standards). It is designed to complement traditional classroom instruction with instruction, feedback and practice delivered via a highly adaptive software coupled with on-demand, on-line certified math teachers and a highly effective motivation system.

On-line on-demand instructional intervention is coupled with very high quality adaptive learning software that continually assesses students’ performance to create and adjust individualized learning pathways. Pathways of content are dynamically constructed, combining results from grade level targets and individual student performance on the initial benchmark assessment at the beginning of the program, and continue to adapt based on student performance in each lesson. Lessons include a variety of rigorous activities aimed at leading students through the process of understanding mathematical concepts. As they work, students receive immediate feedback and instruction from an automated, virtual math coach that offers a series of pre-programmed suggestions and strategies for solving the problem. If students still struggle to grasp the concept, they can connect in real-time with a certified U.S. math teacher who will provide direct instructions via text/chat support and the option of using a whiteboard-like function to illustrate concepts.

The program also combines game mechanics with intrinsic and extrinsic motivational strategies to encourage students. Students compete in regional and national contests and earn points for their work that can be redeemed for tangible rewards, including gift cards, T-shirts and even donations to a variety of charity options.

## CCSS Integrated Pathway: Mathematics

### Key Features:
The CCSS Integrated Pathway: Mathematics program is a complete set of materials built from the ground up to align 100% to the CCSS Integrated Pathway curriculum map and support the 8 CCSS mathematical practices. This course is designed to empower teachers by equipping them with high quality, flexible resources for successfully teaching Integrated Math to all types of learners. These materials include:

- **Standards**
- **Essential Questions, Words to Know** (with complete English/Spanish Glossary)
- **Recommended Resources**, **Key Concepts**, **Common Errors and Misconceptions**, **Guided Practice**, **Warm-Ups**, **Problem-Based Tasks** with optional coaching questions, **Practice Sets**, **Pre, Progress**, and **Unit Assessments**, **PowerPoints**, and **Station Activities**. **ExamView Item Banks** and online versions of resources are available. The Teacher Resources provide teachers with everything they need to teach; student workbooks offer students all the materials necessary for classroom activities; and hardcover Student Resource Books support parent involvement and provide class re-caps and additional homework problem sets.

### Notes:

- More than 50 percent of the time is spent on the widely acceptable prerequisites. The prerequisite skills are identified for each lesson. The program is 100 percent aligned to the core standards. The program provides optional coaching questions to support differentiation of teaching. The 8 mathematical practice standards are evident throughout the curriculum. Each standard has multiple problem based tasks. Conceptual understanding is the key focus for the PBT. High level conceptual problems are found with the PBT and the homework. The program provides very good resources and answer keys for all material. Professional development is provided with the program.

- **Strengths and Weaknesses:** English-Spanish glossary is included. However, with the amount of reading and writing which makes it more difficult for EL students and students that struggle with reading and writing. All of the in class tasks are in a separate book as the student homework. The in class tasks book stays in the classroom and you only need to purchase a classroom set. The student homework is in a separate book that is sent home with the student and stays home at all times. The in class tasks books have a lot of extra practice.

<td>Supplemental Resource for Personal &amp; Family Finance</td>
</tr>
</tbody>
</table>

Notes: This program addresses some, but not all of the skills and knowledge standards in Personal and Family Finance. It partially meets the standards in Management of Personal and Family Resources, Management of Financial Resource for Major Purchases, Management of Financial Resources for Lifespan Goals, Using and Managing Credit, Roles of Individuals as Citizens in a Market Economy, and Careers in Personal and Family Finance and Consumer Services. The program does not address the areas of Interrelationship Between the Economic System and Consumer Actions and Economic Institutions in a Market Economy. It is intended as a supplemental resource only. The teacher can access each student’s pretest, quiz, and posttest score. The instructor’s guide states the purpose, objectives, and activities for each chapter. Each chapter can be listened to via audio files.

Key Features: Money in Motion online is a web based program that teaches basic personal finance. The course covers goal-setting, budgeting, credit, credit scores, debt, contracts, insurance, consumer laws, and what to do when things go wrong in a friendly and easy to understand manner. This program explains how managing your money helps you get what you want which creates the motivation to change behavior.

<td>1284030385 - up to 100 students; 1284030377 - up to 30 students</td>
<td>Comprehensive</td>
</tr>
</tbody>
</table>

Notes: Text is easy to read and navigate. Good for multiple learning styles. Computer diagnostic scenarios, instructional videos assist with understanding, pre and posttests, good illustrations and technology tips. No review questions. Some inaccurate pictures. Textbook and online identical content.

Key Features: CDX provides up-to-date online automotive training that enhances the instructor’s ability to inform and train students in some of the most current technologies being used today in the automotive field. The advantages to the State include:

- Consistent core content for all participating schools (consistent standards)
- We enable instructors to spend more time on laboratory skill development
- Computer interactivity that motivates today’s students
- Content that includes NATEF lab (task) sheets and task tracking system
- Instructor and state administrative access to the system to track students (place in course, quizzes, exams); and maintain records Complete Training to all instructors

</tbody>
</table>

Notes: Matches standards, easy to understand, complete, excellent content, written by Idahoan so lots of local knowledge and pictures. DVD/CD has study guides, worksheets and crosswords, but not stored online. Needs more connections to online materials.

Key Features:
- Objectives, key words, review questions, and end of chapter activities to help monitor student progress and reinforce learning.
- Full color Illustrations, photos, charts, and tables to provide visual reinforcement.
- A complete chapter on aquaculture career opportunities.
- Reflection of latest production methods, species types, disease treatments, advances in technology, trends, and statistics.
- URLs of useful websites throughout the book and appendix.
- National Agricultural Education Standards integration throughout.

| Notes: Update of long time traditionally used text in Ag Ed. Follows standards, has content for every level, good correlation to National FFA CDE livestock judging. Website has standards, image gallery and supplemental documents. It contains updated production data & pictures, and SAE connections. The lab manual is good. The livestock evaluation contains basic content and the equine section is lacking.  
Key Features: Designed for career and technical high school students who require competency in all phases and types of livestock production, the Ninth Edition of MODERN LIVESTOCK AND POULTRY PRODUCTION has been revised to include the most up-to-date, comprehensive information in the field. With coverage of basic animal science and livestock industry information as well as current issues in animal agriculture, this engaging text covers everything students need to know about livestock and poultry animals for classroom study and beyond. Through updated visual aids, real-world applications, and comprehensive study tools, the Ninth Edition provides students with a solid understand of the anatomy, physiology, nutrition, feeding, and reproduction of multiple livestock and poultry breeds. *NEW* STUDY AIDS. A List of Key Terms at the beginning of each chapter is designed to help instructors prepare the classroom "Word Wall" and allow students to create their own dictionary of new terms as they build their vocabulary and develop skills in livestock and poultry production.  
*NEW* CONCEPT INTEGRATION. New "Connections" feature integrates concepts in livestock and poultry production with other curricula and life applications to spark student interest and encourage students to think beyond the scope of the classroom.  
*NEW* VISUAL AIDS. Graphics, tables, statistical facts and figures, and example problems have been revised to reflect the most up-to-date information available.  
*NEW* REAL-WORLD RELEVANCE. The sheep and goat section has been heavily revised to reflect goat production as a major agricultural enterprise. Included is one of the most comprehensive and in-depth references available on Goat Judging.  
*NEW* EXPANDED LEARNING PACKAGE. A new Lab Manual contains additional activities and exercises that correspond with the text. MindTap offers a dynamic online course solution complete with activities and assignments, enhanced e-reader capabilities, and embedded lab exercises. | Comprehensive AG 140 | Component AG 310 | Supplemental Resource AG 530 |

| Cengage                                                                      | Programming Logic and Design, Comprehensive 8E, IAC K12 | Farrell       | 2015   | 11-12 | 9781305536432 |
| Notes: Covers the core programming concepts, contains very good computer terms, review questions, programming exercises and other related learning activities. The program does not have you write and run a program.  
Key Features: This fully revised eighth edition of Joyce Farrell’s PROGRAMMING LOGIC AND DESIGN: COMPREHENSIVE prepares student programmers for success by teaching them the fundamental principles of developing structured program logic. Widely used in foundational Programming courses, this popular text takes a unique, language-independent approach to programming, with a distinctive emphasis on modern conventions. Noted for its clear, concise writing style, the book eliminates highly technical jargon while introducing universal programming concepts and encouraging a strong programming style and logical thinking.  
This edition's comprehensive approach prepares students for all programming situations with introductions to object-oriented concepts, UML diagrams, and databases. Quick Reference boxes, a feature new to this edition, provide concise explanations of important programming concepts. Each chapter now also contains a Maintenance Exercise, in which the student is presented with working logic that can be improved. In addition to each chapter's text-based Debugging Exercises, this edition now includes Flowchart Debugging Exercises as well. Use this proven book alone or with a language-specific companion text that emphasizes C++, Java, or Visual Basic to provide your students with a sound foundation for programming success. | Comprehensive IT: Programming and Software Development | Web Design & Development |
The text has been fully updated to ensure current coverage of such key issues as user-driven connectivity and information-sharing through social media, cloud computing, web linking, and more. Coverage of responsive web design techniques shows students how to develop device- and platform-independent websites.

End-of-chapter Trends exercises challenge students to apply new technology and web trends and puts these trends in the context of the evolution of web design.

Real-world examples and up-to-date design tools illustrate the basic concepts and principles of good web design.

Encourages students to apply web design concepts through multiple, hands-on Your Turn activities located throughout each chapter as additional reinforcement.

Design Tips summarize the important web design concepts for all sections of the text.

Marginal elements provide enrichment. Q&A boxes pose thought-provoking questions and answers and encourage students to research the latest web design concepts and techniques. Toolkit boxes point students to relevant, expanded content found in the Appendices.

Promotes independent critical thinking as students research, analyze, and report on real-world web design issues through the @Issue, Hands On, and Team Approach end-of-chapter exercises.

Provides a running case study of web design concepts put into practice as students plan and create their own websites.

Key Features:

WEB DESIGN: WEB DESIGN: INTRODUCTORY, 5th Edition teaches students how to balance target audience expectations, sound design principles, and technical considerations to create successful, device-independent websites. Written for an introductory course, the text offers a variety of engaging hands-on activities at the end of each chapter that test comprehension, build web research skills, develop design awareness, and promote critical thinking of current issues in technology. Written in a clear and engaging style, WEB DESIGN: INTRODUCTORY, 5th Edition builds a strong foundation in contemporary web design skills.

End-of-chapter Trends exercises challenge students to apply new technology and web trends and puts these trends in the context of the evolution of web design.

Real-world examples and up-to-date design tools illustrate the basic concepts and principles of good web design.

Encourages students to apply web design concepts through multiple, hands-on Your Turn activities located throughout each chapter as additional reinforcement.

Design Tips summarize the important web design concepts for all sections of the text.

Marginal elements provide enrichment. Q&A boxes pose thought-provoking questions and answers and encourage students to research the latest web design concepts and techniques. Toolkit boxes point students to relevant, expanded content found in the Appendices.

Promotes independent critical thinking as students research, analyze, and report on real-world web design issues through the @Issue, Hands On, and Team Approach end-of-chapter exercises.

Provides a running case study of web design concepts put into practice as students plan and create their own websites.

**Adobe Illustrator Creative Cloud Revealed**

Notes: The design is clean, with appropriate call out boxes. Instructions are clear and detailed. Assumptions are not made until later in the text. Excellent teacher and student resource files online for checking work, quizzes, and studying. Content builds on skills to review and practice as new skills are learned. Good lesson projects, but some of the ideas are not strong enough.

Key Features: *ADOBE ILLUSTRATOR CREATIVE CLOUD REVEALED* offers your students comprehensive coverage in all areas of Adobe® Illustrator®, beginning with fundamental concepts and progressing to in-depth exploration of the software’s full set of features, these step-by-step lessons offer your students a guided tour of all the program’s great features – including an illustrated tutorial on “how to draw with the Pen tool” that they won’t find in any other book. This new edition highlights extensive coverage of important and exciting new features, including dramatic improvements to Illustrator’s built-in tracing utility and a major upgrade for creating patterns.

Contains updated exercises and extensive coverage of Creative Cloud features. Includes four-color graphics that vividly illustrate key features and concepts. Written by an expert author with more than 20 years of graphic design experience and offers tips and techniques from the user's perspective. Includes online source files for all exercises in the book and gives your students visual step-by-step guidance when working through the application. Your students are encouraged to build a portfolio by completing the projects at the end of each chapter, many of which give them the opportunity to explore and express their unique creative talents. Offers tips and techniques from your student’s perspective as user.

**Adobe InDesign Creative Cloud Revealed**

Notes: Key Features: Graphic design professionals and design students alike have embraced Adobe InDesign as the industry standard for page layout software—and they're mastering it with ADOBE INDESIGN CREATIVE CLOUD. A thorough, in-depth exploration of the latest release, this highly visual book covers all the fundamental concepts, starting with the workspace and proceeding logically and intuitively to more advanced topics. Chock full of new lessons covering new features, this edition retains its step-by-step tutorials and user-friendly design, resulting in a resource that is comprehensive, clear, and effective. Visually appealing with full-color graphics that illustrate key concepts and skills. Includes hands-on projects throughout the text that put software knowledge into a real-world design context. Online data files for all exercises in the book give your students visual step-by-step guidance when working through the application. Provides your students with clear instruction on how to work in InDesign using either Mac or PC platforms. Includes extensive coverage of Creative Cloud features.

**The Design Collection Revealed Creative Cloud**

Notes: The book covers a lot. There are some nice ideas and project examples, but the general flow of concepts was difficult to follow. Example projects were not detailed, making it difficult for a new user.

Key Features: *THE DESIGN COLLECTION REVEALED CREATIVE CLOUD* provides comprehensive step-by-step instruction and in-depth explanation for three of today's most widely used design and layout programs: Adobe® InDesign® Creative Cloud, Adobe® Photoshop® Creative Cloud, and Adobe® Illustrator®...
Creative Cloud. Your students will gain practical experience with the software as they work through end-of-chapter learning projects and step-by-step tutorials. An integration chapter demonstrates how to move from one application to the other. Full-color illustrations and a user-friendly design combine to create a robust learning experience that reveals how to master the latest features of Adobe's popular design suite. Contains visually appealing full-color graphics that illustrate key concepts and skills. Includes hands-on projects throughout that puts software knowledge into a real-world design context. Online data files for all exercises in the book will give your students visual step-by-step guidance as they work through the application. Includes coverage of the newest Creative Cloud features.

Personal Financial Literacy

Notes: The book covers a lot. Nice call out boxes. Good pictures. It has some nice ideas and project examples. Example projects were not detailed making it difficult to follow. Not linear. The web site offers student files, teacher resources, study and quizzes, and an ebook.

Key Features:
Adobe Photoshop has long provided cutting edge technology for sophisticated digital editing, and ADOBE PHOTOSHOP CREATIVE CLOUD REVEALED provides a solid foundation for those looking to learn this industry-standard program. Real-world, practical examples and step-by-step instruction throughout offer well-rounded, comprehensive coverage of both artistic and technical features. With extensive four-color artwork and screenshots that support and clarify key concepts, ADOBE PHOTOSHOP CREATIVE CLOUD REVEALED is a valuable resource that will give readers the confidence they need to edit and enhance digital images with skill and ease.

- Guides readers through the fundamentals of Photoshop Creative Cloud with extensive tutorials and sophisticated exercises.
- Progresses from basic to advanced Photoshop techniques so that readers can build on the skills they acquire as they work their way through the book.
- Emphasizes the how and why behind each Photoshop tool to help readers excel at design as well as master the software.
- A bonus appendix of additional projects that readers can use to develop new techniques, as well as practice skills they’ve learned in the book.

Personal Financial Literacy

Notes: A solid option. The materials use references and timelines that feature events from various parts of the world and a variety of time periods and cultures. The materials include activities, support, and development of leadership skills. Areas that are not covered: global economy, impact of labor activities, and environmental quality issues.

Key Features:
Learn how to plan and manage your personal finances, achieve a financially successful life, and take responsibility as a citizen. PERSONAL FINANCIAL LITERACY, Second Edition, is aligned with the Jump$tart Coalition's National Standards for Personal Financial Literacy. The personal focus of this course makes it relevant and meaningful to all; in particular, to those just starting down the path to personal financial independence.

* All features include a question or activity for application of topic.
* Exploring Careers link contents more closely to the sixteen career clusters.
* Net Bookmark is a short feature that provides chapter-related activities to be completed using online research.
* Take Action is a feature that provides an opportunity to synthesize the concepts by participating in an ongoing project throughout the text.

Notes: The text meets the standards of an entry level financial course. The student activity guide provides additional activities for accessing understanding of each chapter. The materials include activities, support, and development of leadership skills.

Key Features:
While focusing on the student's role as citizen, student, family member, consumer, and active participant in the business world, MANAGING YOUR PERSONAL FINANCES 7E informs students of their various financial responsibilities. This comprehensive text provides opportunities for self-awareness, expression, and satisfaction in a highly technical and competitive society. Students discover new ways to maximize their earning potential, develop strategies for managing their resources, explore skills for the wise use of credit, and gain insight into the different ways of investing money. Written specifically for high school students, special sections in each chapter hold student interest by focusing on current trends and issues consumers face in the marketplace.

Updated Content: Information about social media, health care, online banking, and identity theft is updated and current.
A profile of a real person at the end of each unit describes how he or she has applied the skills presented in this text to his or her own life.

National Standards: Aligned with the Jump$tart Coalition for Personal Financial Literacy's National Standards as well as National Business Education Association standards for Personal Finance.

Real-World Connections: An abundance of real-life examples makes the information more relevant and interesting for students.

### Text:

An emphasis on critical thinking helps students develop automotive diagnostic ability. Case Histories provide interesting and relevant real-world scenarios to promote student interest. Full-color photos and illustrations make key concepts come alive for the visual learner. Key Features:

- Featuring three new chapters on Hybrid and Electric vehicles, this fully updated 5th edition of AUTOMOTIVE SERVICE: INSPECTION, MAINTENANCE, REPAIR helps students develop the knowledge and skills they need to be successful in a range of automotive careers. Known for its clear explanations and high quality art, this best-selling text covers all eight major course areas of automotive technology, from an introduction to shop management to theories of vehicle systems operations with step-by-step procedures for trouble shooting and repair. Technically reviewed by instructors and industry experts and reflecting the latest NATEF Automobile Program Standards, this edition is ideal for students enrolled in NATEF-accredited programs.

- Full-color photos and illustrations make key concepts come alive for the visual learner.

- Case Histories provide interesting and relevant real-world scenarios to promote student interest.

- An emphasis on critical thinking helps students develop automotive diagnostic ability.

- Safety Notes and Cautions underscore the importance of safety procedures in the shop to avoid bodily injury and/or equipment damage.

### Key Features:
Combining computer concepts material from the best-selling Discovering Computers and step-by-step instruction on Office applications from Microsoft Office 2013, ENHANCED DISCOVERING COMPUTERS & MICROSOFT OFFICE 2013: A COMBINED FUNDAMENTAL APPROACH delivers the best of Shelly Cashman in one book for your Introduction to Computers course. For the past three decades, the Shelly Cashman Series has effectively introduced computer skills to millions of students. We're continuing our history of innovation by enhancing our proven pedagogy to engage students in more critical thought, personalization, and experimentation with Office 2013 software. In addition, computer concepts content has been fully updated and revised to reflect the evolving needs of Introductory Computing students, and focus solely on what they really need to know to be successful digital citizens in college and beyond. With these enhancements and more, the Shelly Cashman Series continues to deliver the most effective educational materials for you and your students.

*NEW* New Windows 9 Tutorials.
*NEW* Updated Working in the Cloud Appendix.
*NEW* New Integrated Applications Projects Appendix.
*NEW* New SAM Projects Appendix with instructor-authored projects.
*NEW* New grading in SAM for the chapter projects.

Notes: Excellent step by step process with visual support in the text. Material is divided into chunks and helps give students a sense of accomplishment and progress. Wide variety of Independent Challenges. Very text driven and may cause challenges for emerging readers. Few online resources.

### Key Features:
Present the computer concepts and Microsoft® Office 2013 skills perfect for your Introduction to Computing course with the latest ENHANCED COMPUTER CONCEPTS AND MICROSOFT® OFFICE 2013 ILLUSTRATED. This all-in-one book makes the computer concepts and skills your students need to know easily accessible. Key application skills are clearly demonstrated using the user-friendly two-page spread found in the popular Microsoft® Office 2013 Illustrated Introductory, First Course. Today’s most up-to-date technology developments and concepts are clarified using the distinctive step-by-step approach from the Computer Concepts Illustrated Brief book. This edition highlights updated Office 365 content with Integrated Applications Projects, a Student Success Guide, and SAM Projects for important hands-on practice.

Notes: In depth resources for understanding computers in a computer applications class. Very up to date content. Problem Solving allows students to seek solutions to everyday tech problems. Many opportunities for critical thinking and writing. Does not meet enough standards to be considered a comprehensive text.

### Key Features:
Teach students how to maximize the use of mobile devices, make the most of the latest online tools for collaboration and communications, and fully utilize today’s Internet capabilities with the latest edition of the comprehensive DISCOVERING COMPUTERS. Introductory computing students clearly see how technology skills can assist in gaining employment or advancing their careers. DISCOVERING COMPUTERS ©2016 highlights the most recent developments in computer tools and technology with an emphasis on actionable content, a proven learning structure, and variety of practice and reinforcement opportunities to reinforce key skills. Each chapter begins with a self-assessment that enables learners to target their study and learn more in less time.

To keep content as current as possible, the authors offer additional coverage of contemporary technology developments online that build upon this edition's discussions. Other leading teaching, study and testing resources save you time in class preparation. DISCOVERING COMPUTERS not only offers content students need to succeed, but also presents it in a way that ensures understanding and success.

</table>

**Key Features:**
- Requires students to estimate, calculate, and perform other math functions.
- New end of unit projects for Academic and Career for Language Arts and Math; Career Clusters; Winning Edge; and School and Community to emphasize critical thinking.
- New MicroType 6 with CheckPro with skill building, timed writings, document checking, video references, and more!
- New Assessment activities help place students at the right skill level.
- New MicroType 6 with CheckPro with skill building, timed writings, document checking, video references, and more!
- Key Features: SPORTS AND ENTERTAINMENT MARKETING, 4E incorporates feedback from instructors across the country. It includes expanded coverage, updated content, and exciting new features. The popular sports and entertainment topics continue to be the foundation for teaching marketing concepts. Each marketing function is incorporated throughout the text and is highlighted with an icon to indicate how it is used in the marketing process.
- The fourth edition will include: *NEW* Social Media Marketing (feature) addresses current trends in social media as it relates to promotion and advertising.
- *NEW* Math in Marketing (feature) includes an application activity with critical-thinking questions, requiring students to estimate, calculate, and perform other math functions.
- *NEW* Communication Connection (feature) provides an opportunity for students to enhance their written communication skills by completing a brief writing application with a marketing spin.
and career planning to create strategic plans. Students learn the foundations and functions needed to successfully market goods, services, and ideas to consumers. Professional development, customer service, and social media are presented as keys to students' success. Emphasis on careers includes the incorporation of Career Clusters. While students study business, economics, selling, human relations, communications, logistics, promotion, product planning, and pricing, they also see marketing as a career choice.

*NEW* This edition moves teachers and students to the digital solution MindTap.

*NEW* This edition incorporates the course competencies for the upcoming state adoptions as well as those defined by NBEA's National Standards for Business Education, National Marketing Education Core Competencies, TEKS, and Career Cluster Standards for Marketing.

*NEW* A brand new chapter on social media helps students understand the impact of this powerful channel of communication for effective marketing.

Notes: Real world situations help students to see the relevance of accounting practices and encourage higher level thinking. This course supplies opportunities to apply business ethics to situations and learning the pros and cons to those decisions. The visuals are beneficial for visual learners to grasp concepts throughout the book. This program has a wide array of resources to help supplement, reinforce, and master the accounting concepts for a merchandising business. It covers accounting for proprietorships, partnerships, and corporations. It has activities available for excel, peachtree, Sage 50, quickbooks and automated accounting online. Glossary in English and Spanish. Commission or piece rate income not covered in this book. Students don't have opportunity to prepare any source of documents except checks.

Key Features:
CENTURY 21 ACCOUNTING 10E maintains its renowned instructional design and step-by-step approach to teaching the mechanics of accounting. Greater emphasis on conceptual understanding and financial statement analysis in the tenth edition encourages students to apply accounting concepts to real-world situations and make informed business decisions. Comprehensive Accounting II

Notes: Audit questions reflect the main ideas, teacher guided practice to check for understanding, mastery and/or challenge problems, simulations to reinforce learning. Text starts with reviewing concepts.
from first year accounting. It covers departmentalization, corporations, management, international control, partnerships, and not for profit organizations. Business ethics are presented throughout the book using real life situations with questions to give students the opportunity to make ethical decisions. Offers activities for excel, Sage 50, and quickbooks. It has automated accounting online at the end of each chapter. Glossary is in English and Spanish. It gives information on several different accounting jobs throughout the book. Piece rate income is not included in the text. Students do not have the opportunity to prepare source documents.

Key Features:
CENTURY 21 ACCOUNTING 10E maintains its renowned instructional design and step-by-step approach to teaching the mechanics of accounting. Greater emphasis on conceptual understanding and financial statement analysis in the tenth edition encourages students to apply accounting concepts to real-world situations and make informed business decisions. New features like Forensic Accounting, Think Like an Accountant, Financial Literacy, and Why Accounting? are a few examples of the expanded opportunities for students to master valued skills, such as critical thinking and technology use, as defined by the Partnership for 21st Century Skills.

*NEW* Greater emphasis on conceptual understanding and financial statement analysis has been incorporated into the 10th edition, making it easier to balance coverage of accounting mechanics with how accounting information is used to make business decisions.

*NEW* New companies featured throughout this edition capture students' interest in fascinating chapter openers and effective examples. Businesses such as TOMs Shoes, iTunes, American Eagle, McDonald's, and Google connect chapter topics to what's driving business decisions and organizations.

*NEW* A Look at Accounting Software shows windows and screen grabs from a fictional accounting software program. The objective is to help students understand that what they have just learned to do manually can be done using real-world accounting software.

*NEW* Analysis of Nike's Financial Statements throughout this edition allows students to closely examine business performance in all aspects of operations using financial statements from a familiar business. The market's first Online Working Papers, powered by Aplia, have been enhanced. Featuring automatic grading for instructors and immediate feedback for students, CENTURY 21 ACCOUNTING Online Working Papers mirror the print working papers and tests including online journals, ledgers, worksheets, financial statements, and teachers forms students use to complete their textbook problems and tests. As students complete the assignments, you receive a complete assessment of their work and comprehension levels, while their grades are instantly entered into your online grade book.

*NEW* MindTap is a personalized teaching experience with relevant assignments that guide students to analyze, apply, and improve thinking, allowing you to measure skills and outcomes with ease. This platform includes and emedded, interactive ebook as well as Aplia Online Working Papers. It's an all-in-one Accounting solution!

Notes: Good coverage of topic. This opens students' eyes that entrepreneurship can be a career choice. Helps students create a business plan project, ties BPA into curriculum, Planning a Career ties 16 career clusters, project based activities apply various learning styles. More higher order thinking questions are needed.

Key Features:
Students today realize becoming a business owner is a career option. ENTREPRENEURSHIP: IDEAS IN ACTION 5E provides students with the knowledge needed to realistically evaluate their potential as a business owner. This text encourages students to examine all the major steps involved in starting a new business: Ownership, Strategy, Finance, and Marketing. As students complete the chapters, they develop a business plan and learn what it takes to get an entrepreneurial venture off to a good start. Market research, budgeting, selecting a business location, and financing the business are covered using real-life examples that students can relate to. Information on online research, including online business planning, is also included. * CourseMate premium Website is now available for instructors who want to be able to monitor student access and time on task. It's great for instructors who also want a way to identify students at risk. CourseMate includes: Interactive teaching and learning tools: quizzing, videos, flashcards, and more; Integrated eBook; and Engagement Tracker.* More hands-on, project based activities keep students active in the learning process and help them retain chapter content. * Abundant real-life examples help students connect to content covered in each chapter. * The framework for 21st Century Learning is incorporated to help prepare students for the real world. * More project-based activities in chapter assessment provide a wealth of applications for students with various learning styles. * Additional coverage on franchising, leadership, international business, and pricing strategies connect students to the business world and keep them up-to-date. * Content includes: Developing a harvest plan; Supply chain & product management; Internal accounting controls; and Return on assets, equity, and debt ratios.

Notes: Internet and laws has been added. Many ways teachers can tie writing into each chapter. Presents ways to use technology/internet to research different legal topics. Provides academic connections at the end of each chapter. Ties 16 career clusters into the text. Great discussion opportunities for Sports & Entertainment, and Entrepreneur and the Law. Reinforces real world cases. Mock Trial preps, Ethical questions in every chapter.

Key Features:
Explore the foundations of business law as well as the application of legal concepts to everyday life. LAW FOR BUSINESS AND PERSONAL USE, 19E, combines strong content and interactive technology with consistent, proven instruction to maintain student interest and support active learning. Coverage includes contracts, criminal law, environmental law, family law, and consumer protection. With more than 1,000 cases, LAW FOR BUSINESS AND PERSONAL USE, 19E, offers plenty of opportunities for case analysis and research. * New lesson on environmental law covers current issues involving the environment and corporate legal responsibility. * Coverage of parental rights in the family law chapter provides even more information for application of law to personal use.
* New coverage of current topics such as green economy, energy legislation, and social networking provides an up-to-date perspective on the influence of law in students’ lives.
* New features Develop Your Interpersonal Skills and Develop Your Leadership Skills cover soft and transferrable skills important in the 21st-century workplace.
* New topics that address the College Level Examination Program (CLEP) help students pass this important exam.
* Sports and Entertainment Law feature provides current, engaging real-world cases to reinforce chapter concepts.
* Features such as Hot Debate, What's Your Verdict?, and A Question of Ethics asks students to consider real-world examples of legal topics.

**Business Management**

Cengage<br>

**Burrow/Kleindl** 2013 9-12 9781111571726<br>

**Notes:** Covers all areas to make a complete unit, covers standards, it covers a large area that ties business management together. Makes academic connections at the end of each chapter, ties BPA into curriculum, gives ideas for alternate assessment, includes checkpoints in the chapter, includes facts and figures in each chapter and a leader project which could tie into the core standards.

**Key Features:**

**BUSINESS MANAGEMENT 13E,** formerly Business Principles and Management, is designed for more advanced high school business courses, going beyond the intro to business class. With the focus shifted to business management, this text approaches business operations from the entrepreneurial and management perspective. Finance, marketing, and human resources are some of the topics explored. This text combines concepts with a strong lesson-based instructional design, weaving in research opportunities, creative methods of assessment, interesting real-world features, mathematical calculations, case studies and academic connections. A new introductory chapter has been added that provides an overview of management, discusses the history of management, and compares management approaches and philosophies. An additional new chapter focuses on data analysis and decision-making, demonstrating the importance of math, statistics, and quantitative decision-making.

*NEW* A new introductory chapter has been added that provides an overview of management, discusses the history of management, and compares management approaches and philosophies.

*NEW* An additional new chapter focuses on data analysis and decision-making, demonstrating the importance of math, statistics, and quantitative decision-making.

*NEW* Key technologies including social media are addressed within the lessons making the information more relevant and interesting for students.

*NEW* COURSEMATE, for the instructor who wants to be able to monitor student access and time on task, is a great way to identify students at risk. This new supplement includes interactive teaching and learning tools, quizzing, videos, flashcards, and more.

*NEW* 21ST CENTURY SKILLS content has been added throughout the text, incorporating the framework for 21st Century Learning, helping students learn the essential skills for success in today's world, such as critical thinking, problem solving, communication and collaboration.

*NEW* MATH concepts and applications have been added to emphasize the importance of math in business today.

*NEW* A SPANISH GLOSSARY has been added.

**Key Features:**

- **Principles of Floral Design: An Illustrated Guide** provides an introduction to the hands-on skills and theory required for career success in addition to the artistic aspect of floral arrangement. This heavily illustrated text acquaints future floral designers with design principles and elements along with the floriculture industry and its careers. It presents the various types of products used in floral design, before progressing into common floral applications and events. This text is also appropriate for students enrolling in the course for fine arts elective credit.

- **Marketing Dynamics** provides a well-rounded introduction to the four Ps—product, price, place, and promotion. Other essential topics, such as marketing research and target market identification, are also covered. College and career readiness activities covering writing, speaking, and listening are incorporated. Related activities provide students an opportunity to create a personal portfolio for use when exploring volunteer, education and training, or career opportunities. Career Ready Practices are also included.

- **Working with Young Children** introduces students to the field of early childhood education. The text begins by helping students better understand young children and then progresses into developing guidance.

<tr>
<td>Notes: The text has a strong material and Processes section which includes design and construction processes. Includes the cabinetmaking tools and equipment needed to produce a product used in today's industry. Includes a strong safety program. Clear terms and objectives. An overview of today's industry is laid out such as CNC milling and how this newer technology is introduced in the cabinetmaking industry. The text includes clear photos and diagrams with each objective. STEM is featured throughout the textbook, especially in the wood chemistry units, fiber saturation paint, wood characteristics of hard woods &amp; softwoods, and how to calculate shrinkage. Chapters list important technical terms and objectives which students need to master. Support materials are strong.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Key Features: <em>Modern Cabinetmaking</em> is a comprehensive text that focuses on the techniques used by custom cabinetmakers and home woodworkers. While still providing classic coverage, the text has been thoroughly revised to include the latest in technology, materials, and processes such as CNC, 32mm System construction, ready-to-assemble casework, and grinding and sharpening. This edition includes many new photos and diagrams showing updated technology and techniques. A chapter on employment introduces students to the careers related to cabinetmaking skills, and a chapter discussing industrial organizations helps students learn how to get more involved.</td>

<tr>
<td>Notes: This text is easy to understand, laid out logically, with up to date information on building materials and methods. It has detailed information on most aspects of residential construction. The text starts with safety. It then moves through building materials, site work, plans &amp; codes, foundations, flooring systems, framing, roof framing, enclosing, exterior finishes, and interior finishes. The reading level is appropriate for the age group. It has great math review. It strongly reinforces STEM concepts in the end of chapter activities. Safety ropes and harnesses are not in depth enough to cover the standards. It does not cover employment seeking skills, portfolios, drafting, pictorial drawings, curb forming, beam forming, above grade slab systems, fireproof encasements, bridge deck forms, and welding. Some pictures are out of date.</td>
<td></td>
<td></td>

### Consent Agenda
**August 13, 2015**

Teaching as a profession, students will develop an understanding of the different types of learners they will encounter in the classroom. This includes how humans develop physically, intellectually, emotionally, and socially as all of these impact the instructional methods used. The educational system, both past and present, is reviewed along with the responsibilities that come with employment.

<tr>
<td>Supplemental Resource Career Exploration</td>
<td>Online interactive textbook with eLearning Resources and Learning Management System (LMS). The program includes complete automotive text, eBooks, quizzes, final exams, assessments, and an end of program exam. Key LMS features are a gradebook, student timer, and a lecture building feature.</td>
<td>Notes: Written to high school level. Embedded activities are a good concept. More information is needed on how to find a job and where to find a job. Some standards were not addressed in this course including college and military post-secondary options, self-employment, placement support services and career transitions.</td>
</tr>
<tr>
<td>Comprehensive Cosmetology</td>
<td>Online interactive textbook with eLearning Resources and Learning Management System (LMS). The program includes complete automotive text, eBooks, quizzes, final exams, assessments, and an end of program exam. Key LMS features are a gradebook, student timer, and a lecture building feature.</td>
<td>Notes: This title does meet the NIC standards. The course is appealing to the learner and easy to follow. The “Click to expand text” was an interesting feature. If a student is seeking dual credit, the instructor should check with the university regarding curricular materials.</td>
</tr>

<tr>
<td></td>
<td>Notes: Progression of end of chapter contents flows well. Students have more buy in on projects-related to what they might purchase in the future. Good use of scenarios for students to own future businesses. Uses technology, including the internet to produce, publish and update information. Good flow of ideas throughout the text. Strengths: effective for small group work. Surveys are used for cross curricular and challenging conclusions with other sources of information. Writing exercises promote critical thinking. Exercises supply research questions to answer a question, solve a problem, and understand the subject. Highlighted tips give good reminders throughout the chapter. Weaknesses: The book itself looks &quot;a little industrial&quot;, but the content is helpful and worthwhile.</td>

<tr>
<td></td>
<td>Notes: Good use of current and new technologies. Good use of real life situations. Scenarios of student interests. Students are able to choose parts that relate to their level and interests. Scenarios are helpful to students making the choice to own their own business one day and how their purchases will affect their own lifestyle. The layout of the materials is effective and easy to use. Teachers are able to use the concepts and apply them to other curriculums with little effort, making it easy to go from one subject to the other. Writing activities are helpful. Good use of critical thinking skills, job study activities. Forces students to read and comprehend. Helps student understand the importance of citing sources. Some wording and vocabulary seem a little advanced. Options are good. Teachers make the decision on amount of time to give students to complete activities.</td>

CONSENT AGENDA  
AUGUST 13, 2015  

SUBJECT  
Appointments to the Professional Standards Commission  

APPLICABLE STATUTE, RULE, OR POLICY  
Section 33-1252, Idaho Code  

BACKGROUND/DISCUSSION  

The Commission consists of eighteen (18) members, one (1) from the State Department of Education and one (1) from the Division of Professional Technical Education. The remaining members must be representative of the teaching profession of the state of Idaho, and not less than seven (7) members must be certificated classroom teachers in the public school system and must include at least one (1) teacher of exceptional children and at least one (1) teacher in pupil personnel services. The Idaho Association of School Superintendents, the Idaho Association of Secondary School Principals, the Idaho Association of Elementary School Principals, the Idaho School Boards Association, the Idaho Association of Special Education Administrators, the education departments of private colleges, and the colleges of letters and sciences of the institutions of higher education may submit nominees for one (1) position each. The community colleges and the education departments of the public institutions of higher education may submit nominees for two (2) positions.  

Nominations were sought for the positions from the Idaho Education Association and Northwest Professional Educators. Resumes for interested individuals are attached. Appointments for all other positions rather than Secondary Classroom Teacher were made at the Regular June Board meeting.  

Secondary Classroom Teacher:  
Dawn Anderson, Madison School District  
Glenda Funk, Pocatello School District  
Sarah Holloway, West Ada School District  
Lourene Praeder, Jefferson County Joint School District  
Aliene (Ali) Shearer, West Ada School District  
Lynn Swanson-Puckett, Nampa School District  
Kim Zeydel, West Ada School District  

ATTACHMENTS  
Attachment 1 – Resumes for: Dawn Anderson; Glenda Funk; Sarah Holloway; Lourene Praeder; Aliene (Ali) Shearer; Lynn Swanson-Puckett; Kim Zeydel  
Attachment 2 – Current Membership
BOARD ACTION

I move to appoint Kim Zeydel as a member of the Professional Standards Commission for a three-year term effective July 1, 2015, and ending June 30, 2018, representing Secondary Classroom Teachers.

Moved by __________ Seconded by __________  Carried: Yes ____  No ____
Professional Profile
- Current Idaho Teacher Certification in Secondary Education (English emphasis)
- Master of Education Degree with major emphasis in Reading
- Twenty-five years experience teaching writing, literature, and reading education classes

Education, Honors, and Certifications
M Ed
Idaho State University, Pocatello, ID. 1995
Bachelor of Arts in Secondary Education (Honors)
Idaho State University, Pocatello, ID. 1987
Reading Endorsement K-12
Phi Kappa Phi Honor Society
Honorary Adjunct Teacher of the Year Award 2000-2001

Qualifications & Experience
- Taught 8th graders state standards content, including language use, literature analysis, vocabulary, and writing
- Taught freshman composition and advanced writing classes for many years, instructing students how to develop ideas, clarify concepts, defend arguments and master coherent writing skills.
- Taught children’s literature and young adult literature to elementary and secondary education majors
- Developed a wide variety of curricula for use in the classroom, employing peer-editing, small group writing assignments, brainstorming activities, dynamic class discussions, and research instruction.
- Helped develop a clinical program where education majors visited local Madison schools and worked with remedial reading students.

Computer Skills
- Microsoft Windows® Office software, including Word, Power Point, and Publisher
- Internet research
- Adept in grading programs Blackboard and PowerTeacher

Employment
Brigham Young University-Idaho Adjunct Faculty English Dept. Fall 1987 -2008
Madison Junior High School -8th Grade English 2008 - present

Professional Development
Conference workshop presenter
Attended various conferences and workshops related to writing and teaching
Served on several scholarship and academic committees
CAT team member for Madison Junior High

Related Experience
Edited and published English Department newsletter for seven years
Regularly publish education editorials in the Post Register and Standard Journal newspapers
Worked as advocate for educators and education, serving as currently as president of the Rexburg Education Association

MANUSCRIPTS UNDER REVIEW

Funk, G. (2011) “One Book Can Save a Life.” The Only Book in the World Project. This is a fund-raising effort via the English Companion Ning to provide financial support for Jeff Wilhelm, PhD and his wife, who has a rare disease not covered by insurance.

MANUSCRIPTS IN PREPARATION

Funk, G. (2011) “Not Enough to Speak: A Rationale for Performance Based Pedagogy in University Methods Courses.” English Quarterly. Received a request to write the article by the editor.

Funk, G. Time to Talk: Speaking to Learn & Learning to Speak in the ELA Classroom. I have outlined a book that will contribute to the professional conversation about how to engage students in discussion, how to incorporate social media into the discussion, how to overcome and consider problems with tone in online forums, etc. At present I am conducting research and working on a proposal for the book. I have two readers who have committed to offering assistance on the project: Michael LoMonico, PhD, senior education consultant with the Folger Shakespeare Library and a professor at Stonybrook University; Tim Gillespie, author of Doing Literary Criticism.

CONFERENCE PRESENTATIONS

UPCOMING CONFERENCE PRESENTATIONS

Funk, G. (2013, November) “Lend Me Your [H]ear.” NCTE Annual Convention, Boston, Massachusetts. (Proposal submitted, awaiting approval)

ONLINEPROFESSIONAL DEVELOPMENT PRESENTATIONS

Funk, G. “Twice-told Tales and Old Odd Ends: Common Ideas in Shakespeare and Young Adult Lit.” Building Bridges: Classic Lit to Young Adult Lit. English Companion Ning Summer 2011 Webstinate. July 11-12, 2011. Theme: How proponents of YA lit and the classics can co-exist, find common ground, and recognize the value for students in each. The invitation to lead a session included this: “We know you have vast knowledge and great connections in the Shakespeare education world, and we think you're one of the most credible messengers.”

Funk, G. “Out of the Desk and Into the Text”: #engchat discussion on Twitter, April, 2011

REVIEWING ACTIVITIES

English Journal

PROFESSIONAL EXPERIENCE/ACTIVITIES

February 2013

Summer, 2012
Teachers Write. Messner, Kate. Participated in Kate Messner’s online writing group for teachers with various professional writers providing writing exercises, support and feedback. Among those participating: Gae Polisner, author of The Pull of Gravity; Jo Knowles, author of See You at Harry’s, etc.

June 6-10, 2011
CCSS/TIA Conference. Participated in the Common Core State Standards curriculum Total Instructional Alignment to ensure that ELA Idaho standards align with the Common Core, which will be implemented in 2014.

August 2010 to Present
www.evolvingenglishteacher.blogspot.com Blogging on pedagogical and political issues impacting the teaching of ELA in Idaho.
2010 to Present

2008 to Present
English Companion Ning: Assist in vetting membership applications since summer 2010; cross-post my blog; share teaching resources; engage in discussions about topics relating to teaching English and speech; participate in online book discussions, including Doing Literary Criticism, Readicide, Write Beside Them, Let the Great World Spin, etc.

2008 (Summer)
Folger Shakespeare Library Teaching Shakespeare Institute participant. Research using primary documents and rare texts, developed curriculum materials and lessons available on the Folger education website, and studied the Folger performance method for teaching literature, including Shakespeare’s plays but not limited to his works.

2007 (Summer)
Folger Shakespeare Library Teaching Shakespeare Mini-institute participant. University of Tulsa. Introduced to the Folger Performance Method of studying literature, particularly Shakespeare, through intensive work with Romeo and Juliet and A Midsummer Night’s Dream.

2005 (Summer)

2004 (Summer)
National Humanities Center Symposium “American Beginnings: The European Presence in North America 1492-1690” Assisted in the development of the Toolbox, including primary documents and material culture resources accessible online http://nationalhumanitiescenter.org/pds/amerbegin/index.html

2003 (Summer)
Idaho Humanities Council: “John Steinbeck and the Art of Social Engagement.” Studied numerous Steinbeck novels and nonfiction, including The Grapes of Wrath, East of Eden, Cannery Row, The Log to the Sea of Cortez and others.
TEACHING EXPERIENCE

1989-Present

cheerleaders, serving as a class sponsor, and directing school-wide drama productions.

COMMITTEE MEMBERSHIPS

2008 to Present
Highland H. S. Mission Statement Committee

2008 to Present
Highland H.S. Building Representative for PEA
Leadership Position

Seeking a position that will enable me to use my current leadership and management skills while obtaining new skills and techniques which will allow me to stimulate professional development and enhance student learning through instructors. I am able to quickly problem solve and build positive relationships. My main objective is to present and communicate the importance of relationships, outside perspectives, and global effects of education to staff and students.

Education and Certifications

**Master of Educational Leadership** – University of Idaho, January 2010-December 2012
- Master of Administration & Leadership / K-12 Administrator Certification

**Bachelor of Arts**: History, Social Studies – Boise State University, Boise, ID
- Secondary Education Certification (May 2008)

**US Navy** – July 1993 through February 1997 – Honorable Discharge as PN3/E4
- Health & Safety Coordinator, Auxiliary Security Force and Personnelman

**County Sheriff Reserve** – Perry County, Perryville, Arkansas (2003)

**First Responder** – Ambulance Driver and Paramedic Assistant (2002-2003)

Technology Skills – Microsoft Office, Power School/Teacher, Peachtree Accounting Certified

Teaching Experience

**Renaissance High School**
Social Studies and Yearbook Teacher
Meridian, ID
Current responsibilities include creation, application, instruction and evaluation of sophomore and junior students enrolled in American Government and International Baccalaureate History of the Americas. All state and local mandates are followed and implemented into the classroom including the adaptation of lessons for those in need of special designed accommodations. Other responsibilities include the school yearbook which consists of over 30 students creating a 185-page publication; evaluation of student staff inside/outside the classroom, before/after school; continual promotion of yearbook sales, senior ads, and constant parent contact; review, edit, and provide guidance for written text, formatting, and design of yearbook.

**Idaho State Correctional Institute**
Feb 2013-Aug 2014

**Idaho Department of Corrections**
Special Education Instructor (for ISCI, SICI, IMSI, NICI & ICI-O)
Identify offenders for special education classes who are managed, taught, counseled and assessed to meet their academic needs including creating and incorporating state and federal mandated Eligibility and Individual Education Plans (IEP) within the regular classroom setting for offenders 21 years of age and under. Develop, teach, determine, create, differentiate and review GED Reading/Writing/Math curriculum which includes professional development, assessment of students, tracking attendance, attending regular staff meetings and tutoring within a classroom setting are additional requirements of this position.

**Ridgeline Alternative High School, Nampa, Idaho**
Sept 2008-Feb 2013

**Social Studies Teacher**
Social Studies Department Head
Manage, teach, and prepare all 9th and 10th grade US History classes, Economics, and Government which includes all responsibilities of regular classroom teacher including professional development, assessment of students, and regular staff meetings. Collaborate with department and staff design curriculum, lesson plans beneficial to students; perform basic duties such as grading and grading student’s individual work. Student Council Advisor (2009-2011) and Yearbook Advisor (2009-2011).

Educational Teaching

**Teacher Summer Workshop**
Nampa, ID July 2011
I co-created and co-taught a two day summer workshop. The workshop was created for high school and middle school teachers. The workshop included Whole Brain Teaching in the Classroom, Classroom Management Skills, Ruby Payne and Poverty, Planning for Block Scheduling, Differentiated Techniques, Brain Research and Relationship Building.

Previous Work Experience

**Restaurant**: Wingers, Blue Ribbon Bistro, Red Robin, Applebee's
Various duties that included serving guests, working with money, accurate order taking, adapting to constant change with the menu, management, and co-workers.
Lourene Praeder
3770 E. 200 N.
Rigby, Idaho  83442
208-521-8376

Education
Masters in Learning and Technology; Western Governor’s University (WGU), Salt Lake City. Idaho State University, (1/1983-5/1989) obtained Bachelor of Arts degree with honors, majored in secondary education with endorsements in Mathematics and Social Sciences. Have taken the following computer languages: Fortran, Pascal, Basic, and Visual Basic. Other computer skills include Microsoft Works, PowerPoint, Excel, Access, and various other programs. I have received a technology certification from the State of Idaho. Classes taken since receiving BA, but before entering into Masters program: Math Education Sec from BYU; Pre-Calculus & Math 810 from Portland State; Dynamic Geometry/problem solving & Data driven math from University of Idaho; Intro to statistics, special topics/math from Idaho State University. Had 64 credits beyond my BA, then took masters classes, currently have 36 more credits beyond my MA, including the MTA course required by the State of Idaho.

Teaching Exp.
Teaching secondary math at Rigby High School in Rigby, Idaho (1998-current). Previous experience includes substitute teaching for 20 years within the Rigby school district #251, one to three years teaching at Bonneville H.S., Ririe H.S., and summer school at Skyline HS. I have taught general math, Pre-Algebra, Algebra I & II, Geometry, Pre-Calculus, Dual Enrollment and regular Statistics, AP and Dual Enrollment Calculus, and Trigonometry.

August 2012 Board accepted the 2011-2012 Accreditation Report.

APPLICABLE STATUTE, RULE, OR POLICY
Section 33-119, Idaho Code
Idaho Administrative code, IDAPA 08.02.02.140, Accreditation

BACKGROUND/DISCUSSION
Pursuant to IDAPA 08.02.02.140, all public secondary schools, serving any grade(s) 9-12, must be accredited. Accreditation is voluntary for elementary schools, grades K-8, and private and parochial schools. Section 33-119, Idaho Code authorizes the Board to establish the accreditation standards. The State Board of Education through administrative rule requires schools to meet the accreditation standards of the Northwest Accreditation Commission (NWAC) a Division of AdvancEd.

In accordance with IDAPA 08.02.02.140, an annual accreditation report is being submitted to the State Board of Education. This report outlines the accreditation status of Idaho’s schools that serve any grade(s) 9-12 as well as those elementary schools, schools serving grades K-8, private and parochial schools that have voluntarily seek accreditation.

IDAHO STATE UNIVERSITY

SUBJECT
Idaho State University (ISU) Annual Progress Report

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section I.M.3.

BACKGROUND/DISCUSSION
This agenda item fulfills the Board’s requirement for Idaho State University to provide a progress report on the institution’s strategic plan, details of implementation, status of goals and objectives and information on other points of interest in accordance with a schedule and format established by the Board’s Executive Director.

IMPACT
Idaho State University’s strategic plan drives the College’s integrated planning; programming, budgeting, and assessment cycle and is the basis for the institution’s annual budget requests and performance measure reports to the State Board of Education, the Division of Financial Management and the Legislative Services Office.

BOARD ACTION
This item is for informational purposes only. Any action will be at the Board's discretion.
Who We Are

- Established in 1901; University in 1960
- Comprehensive University with a Health Care Mission
- Commitment to Teaching and Research
- Accredited by NWCCU – Reaffirmed January 2015
What We Offer

More than 250 academic and certificate programs – Ranging from professional-technical to graduate degrees
Who We Serve

ISU has educational centers across Idaho

- Statewide health care mission
- Service Regions: IV, V, VI
Who We Serve

- *14,371 students from 48 states and 59 countries
- 82% of ISU students are from Idaho

* Fall 2014 Census Headcount
Early College Access

- 2,232 high school students participated in the program in FY2015
- 47 Renaissance High School students graduated with their associate’s degree in May 2015
Student Success

*Retention Efforts Continue

FY 2015 = 71.30%
FY 2014 = 66.80%
FY 2013 = 62.10%
FY 2012 = 62.00%

* First-time, full-time degree seeking
Bridging the Gap

Bengal Bridge Program
- Started in Summer 2014; 96% enrolled in Fall 2014
- Started in Summer 2013; 80% enrolled in Fall 2013

START Program
- Since the start of the program in Summer 2011, 85% of students have retained or graduated

* Pilot Programs
CPI Success

- 890 students participated in the Career Path Internship program in 2014-15
- Average GPA is 3.12
- 91% of students retained or graduated
Graduate School Growth

Applications for Fall 2015 are up more than 9%

Fall 2015 = 2,517

Fall 2014 = 2,294

College Week Live utilized to engage prospective students around the globe

* As of July 11, 2015
Health Care Leader

- More than 1/3 of ISU’s degrees awarded are in the health professions
- Programs are in high demand: 3,090 applications, 725 accepted
- ISU offers *12 of the top 15 health professions careers in highest demand in 2014 and 2015

* According to Forbes and U.S. News & World Report
Statewide Health Mission

- Audiology  Au.D., Ph.D.
- Physical Therapy  D.P.T., Ph.D.
- Occupational Therapy  M.O.T.
- Pharmaceutical Science  M.S., Ph.D.
- Pharmacy Practice  Pharm.D.
- Nursing  Ph.D.
- Physician Assistant  M.P.A.S.
- Speech Pathology  M.S.
- Health Education  M.H.E.
- Public Health  M.P.H.
- Health Physics  B.S., M.S., Ph.D.
- Dental Hygiene  B.S., M.S.
- Medical Lab Science  B.S., M.S.
- Clinical Psychology  Ph.D.
Residency Programs

• The only Idaho institution to sponsor an accredited graduate medical and dental education programs

• 6 out of 7 of the 2015 Family Medicine Residency graduates are staying in Idaho
Cutting-Edge Facilities

New $6 million state-of-the-art Treasure Valley A&P Lab
- 42 Physician Assistant students will be using the lab this fall
- Distance learning technology makes the lab accessible to 200 high schools across the state

$1 million in upgrades to the Pocatello A&P lab
Research & Development

External funding awarded annually to ISU

*FY 2015 = $25,309,512
FY 2014 = $25,022,334
FY 2013 = $23,911,923

* FY 2015 data is tentative as of July 13, 2015
Institute of Rural Health

• Since its creation in 1989, the IRH has secured $40 million in federal, state and private funding
• IRH projects include telehealth, traumatic brain injury and suicide prevention
Bengal Pharmacy, LLC

• Owned by the ISU Foundation and operated in partnership with ISU’s College of Pharmacy
• Now serving rural Idaho with telepharmacy locations in Arco and Challis
Health-Teaching Clinics

- PT/OT Pocatello
- Speech & Language Pocatello
- Speech & Language Meridian
- Audiology Pocatello
- Counseling Pocatello
- Counseling Meridian
- Dental Pocatello
- Dental Meridian
- Dental Hygiene Pocatello
- Dental Hygiene Idaho Falls
- Wellness Center
- Psychology
- Family Medicine
- Health Center
Family Medicine Clinic

Partnership with HealthWest, a federally-funded community health center

ISU Family Medicine Residents:

- Cared for 3,902 HealthWest patients
- Served 1,366 uninsured HealthWest patients
- Ordered 1,867 immunizations
- Delivered 306 HealthWest babies
Speech Language Clinic

- Fosters speech and language skills in children with difficulties in these areas
- Intensive summer clinic served 12 children between the ages of 18 months–5 years old participated in July
Go Bengals!
PRESIDENTS’ COUNCIL

SUBJECT
Presidents’ Council Report

BACKGROUND/DISCUSSION
President Tony Fernandez, Lewis-Clark State College President and current chair of the Presidents’ Council, will give a report on three major initiatives or issues the Presidents’ Council will be addressing in the coming year and the recent activities of the Council and answer questions. The Presidents’ Council last met on August 11th, 2015.

BOARD ACTION
This item is intended for informational purposes only. Any action will be at the Board’s discretion.
THIS PAGE INTENTIONALLY LEFT BLANK
SUBJECT
Idaho Division of Professional-Technical Education (PTE)

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section I.M.3.

BACKGROUND/DISCUSSION
This agenda item fulfills the Board’s requirement for PTE to provide a progress report on the agency’s strategic plan, details of implementation, status of goals and objectives and information on other points of interest in accordance with a schedule and format established by the Board’s Executive Director.

Dwight Johnson, Administrator of the Division of Professional-Technical Education, will provide an overview of PTE’s progress in carrying out the agency’s strategic plan.

ATTACHMENTS
Attachment 1 – Progress Report

BOARD ACTION
This item is for informational purposes only. Any action will be at the Board’s discretion.
1. **Enhance PTE Image – Communicate Value**
   - Mission: Preparing youth and adults for high-skill, in-demand careers
   - PTE communications plan
   - Update name: Professional-Technical Education / Career & Technical Education ★

2. **Develop Resources to Grow PTE**
   - Postsecondary: Demonstrate ROI for FY2017 ★
     - 76% increase in graduation in $19+ hour jobs and 48% reduction in waiting list with 10% increase in funding in 30 programs
   - Postsecondary: Study Committee formed to develop future funding formula
   - Secondary: Implement Performance Based Funding for all PTE programs ★
   - Secondary: Move from ADA to Enrollment for PT high schools ★

3. **Increase Advanced Opportunities**
   - Horizontal and vertical alignment of first semester student learning outcomes ★

4. **Connect Education to Employment**
   - Micro-certifications to communicate demonstrated skill competency
   - Career Guidance: A collaborative approach with PTE (SkillStack), Labor (CIS), SBOE (Next Steps), SDE, IDLA, Idaho State Counselors Assoc.

5. **Expand Access to PTE: PTE Digital**
   - Access for rural and non-traditional students
   - New opportunities for all students
   - Develop new funding model for FY 2018 – expand versus redistribute

6. **Build PTE Teacher Pipeline**
   - Taskforce formed to focus on recruitment and retention

7. **Develop Internal Capacity**
   - Fully staffed
   - Motivated leadership team
   - Thoughtful cultural shifts
   - Staffing to 2008 level ★

★ Denotes PTE 2016 Legislative Idea/Budget Request
## PTE Students Go On!

- 67% of Idaho PTE high school completers enroll in college compared with 53% of the general student population
- 94% of PTE high school graduates found a job or moved into post-secondary education
- 92% of technical college completers found jobs or continued their education

### Total PTE FY16 Budget - $66.92 Million

- Secondary Budget - $15.85 Million (25%)
- Postsecondary - $46.50 Million (75%)
- State (General Fund) - $56.20 Million (84%)
- Federal (Perkins, WIA and ABE) - $9.28 Million (14%)
- Dedicated = $1.44 Million (2%)
SUBJECT
Governor’s Task Force for Improving Education Recommendations Update.

REFERENCE
January 2014 Board received update on Task Force recommendations.
February 2014 Board established two committees to develop plans to implement the recommendations of the Governor’s Task Force for Improving Education.
June 2014 Board approved a legislative idea for the career ladder compensation model and a placeholder for legislative ideas related to implementation of the recommendations of the Task Force for Improving Education.
August 2014 Board approved a proposed tiered licensure rule and a proposed rule to ensure learning plans developed at grade eight (8) are reviewed annually throughout a student’s high school career.
October 2014 Board adopted recommendations of the Structure and Governance Subcommittee and legislation to move forward the implementation of the 20 recommendations.

BACKGROUND/DISCUSSION
In December 2012, Gov. C.L. “Butch” Otter announced that the State Board of Education would shepherd a discussion about how to improve Idaho’s education system to better prepare students for success. A Task Force of 31 individuals, representing a broad and diverse group of stakeholders from across the state, assembled in January 2013 to begin discussion and identify areas of focus. As an overarching goal, the group unanimously adopted the State Board’s goal that 60 percent of Idahoans between the ages of 25 and 34 attain a postsecondary degree or credential by 2020.

After eight months of study and deliberation, the Task Force for Improving Education finalized 20 recommendations. The Board adopted the recommendations understanding that many of them would require further work to develop implementation plans, and shepherd them through to full implementation. To that end the Board established three subcommittees of the Task Force to facilitate this work. These subcommittees included the Career Ladder subcommittee, Structure and Governance subcommittee, and Literacy subcommittee.

The Structure and Governance subcommittee broke into three additional subcommittees: High Expectations, Autonomy and Accountability, and Innovation and Collaboration and brought forward recommendations in October 2014 for Board consideration. The Career Ladder subcommittee brought forward
recommendations in the form of administrative rules and legislation for the implementation of the Career Ladder in August and October of 2014 and the Literacy subcommittee brought forward recommendations in December of 2014 for Board consideration.

In 2015 the Board formed two additional subcommittee’s to continue the work. The Literacy Implementation Subcommittee has completed their initial work and have brought forward their recommendations for Board consideration as a separate agenda item. The Board approved an initial legislative idea at the June 2015 Board meeting pending formal adoption of the final recommendations. The Public School Funding subcommittee is an implementation committee of the Structure and Governance subcommittee and is focused on implementation of the recommendation to re-evaluate the public school funding formula and come up with a formula that addresses all of the varied modes of education students now have access to, increased student mobility, and mastery-based education. This group will also bring forward a recommendation regarding incorporating pupil service staff into the Career Ladder. A third group is the result of the Career Ladder legislation (HB 296 – 2015) and the creation of a Master Teacher Premium (Section, 33-1004I, Idaho code) and is working on the criteria for teachers to earn the Master Teacher Premium for Board consideration at a later date.

IMPACT
This update will afford the Board with the opportunity to ask questions regarding the progress of the implementation of the recommendations and provide additional direction to staff.

ATTACHMENTS
Attachment 1 – Summary or Recommendations Implementation and Projected Cost  Page 5

STAFF COMMENTS AND RECOMMENDATIONS
Board staff is working with the various implementation committee’s to help facilitate the implementation of the various recommendations with fidelity. Attachment 1 outlines the 20 recommendations and where each is in the implementation process as well as the projected fiscal impact.

BOARD ACTION
I move to direct staff to continue to work on the implementation of the recommendations and work with legislators and the Governor’s office to secure continued support and funding.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
Task Force for Improving Education Recommendations Summary

Goal: High Performing Schools Statewide - Measure: 60% Post-Secondary Completion

Structural Change (2013 Committee)
Guiding Principle #1: Significant structural change is absolutely necessary if the state is to achieve the 60% goal.
- Strategy #1: High Expectations (2014 Subcommittee)
  - Recommendation #1.1: Mastery-based System
  - Recommendation #1.2: Idaho Core Standards
  - Recommendation #1.3: Literacy Proficiency
  - Recommendation #1.4: Advanced Opportunities

Guiding Principle #2: A foundation of high-performance schools is a high-performance work environment.
- Strategy #2: Autonomy and Accountability (2014 Subcommittee)
  - Recommendation #2.1: Revamp the State’s Accountability Structure Involving Schools
  - Recommendation #2.2: Empower Autonomy by Removing Constraints
  - Recommendation #2.3: Annual Strategic Planning, Assessment, and Continuous Focus on Improvement
- Strategy #3: Innovation and Collaboration (2014 Subcommittee)
  - Recommendation #3.1: Job-Embedded Collaboration/Professional Development Time (See Recommendations #2.3 and #2.4 under Fiscal Stability/Effective Teachers and Leaders)
  - Recommendation #3.2: Statewide Electronic Collaboration System
  - Recommendation #3.3: High Speed Bandwidth and Wireless Infrastructure
  - Recommendation #3.4: Educator and Student Technology Devices

Fiscal Stability / Effective Teachers and Leaders (2013 Committee)
Guiding Principle #1: High Performing Schools Require Fiscal Stability
- Strategy #3:
  - Recommendation #1.1: Restoration of Operational Funding
  - Recommendation #1.2: Career Ladder Compensation Model
  - Recommendation #1.3: Enrollment System of Funding Schools

Guiding Principle #2: High Performing Schools Require Effective Teachers and Leaders
- Strategy #3:
  - Recommendation #2.1: Tiered Licensure
  - Recommendation #2.2: Mentoring
  - Recommendation #2.3: Ongoing Job-Embedded Professional Learning
  - Recommendation #2.4: Site-based Collaboration for Teachers and Leaders
  - Recommendation #2.5: Continued Development of Administrator Evaluation Framework
  - Recommendation #2.6: Enhanced Pre-service Teaching Opportunities
  - Recommendation #2.7: Participation in the CCSSO’s Teacher Preparation Recommendations
Recommendations Summary (see detailed reports for complete recommendation)

1. Mastery-based System (High Expectations Subcommittee)

Recommendation (2013)
We recommend the state shift to a system where students advance based upon content mastery, rather than seat time requirements. This may require a structural change to Idaho’s funding formula and/or some financial incentive to school districts. We also recommend that mastery be measured against high academic standards.

Implementation Recommendation (2014)
The committee recommends a two-pronged approach to implementing a mastery-based education model. The model would be based on two approaches. The first approach applies to grades K-6. A separate approach applies to grades 7-12, based on the Advanced Opportunities Programs (Recommendation #4).

1. We recommend that Idaho create an “incubator” model designed to identify and support those districts/charters that are willing and ready to start moving toward a competency based education system in grades K-6.

2. We recommend that the State Board of Education adopt the competency based education model developed by the RISC.

3. We recommend that the State Board, State Superintendent, Legislature, and Governor support a statewide awareness effort concerning “Competency Based Education.”

4. We recommend that a follow-up committee comprised of superintendents, principals, teachers, and members of this committee meet in Fall 2014 to further explore specific RISC’s options; identify roadblocks and possible solutions; develop recommendations for the incubator process; and discuss the data that should be captured throughout the process.

5. We recommend that the State Department of Education prioritize federal or other grants to support districts who are implementing mastery programs.

6. We recommend that over the next five years all districts/charters adopt a mastery-based assessment report card which is aligned to Idaho’s statewide standards.

Fiscal Impact:
- Statewide awareness plan: $80,000-$100,000
- Site visitation and readiness assessment for 20% of districts and charters: $300,000.

FY16: $400,000
Implementation Cost:
  o It is estimated to cost $44.60 per student per year for a three year fully supported
district implementation. Districts\Charters would be chosen for implementation
based on readiness assessments, demographics, and available funding.

FY17: impact: $1,500,000

Implementation
The 2015 legislature approved HB110 (2015) creating Section 33-1630, Idaho code
requiring a statewide awareness campaign to promote understanding and interest,
establishment of a committee of educators to identify roadblocks and possible solutions,
and facilitation of the development of an incubator program with an initial cohort of 20
local education agency participants. The Department of Education has formed a
committee of educators and the Superintendent will report to the Board on their
progress.

Fiscal Impact:
FY16: $400,000 appropriation

2. Idaho Core Standards

Recommendation (2013)
We strongly endorse the rigorous and successful implementation of the Idaho Core
Standards as an essential component of high performing schools. Higher standards in
all subject areas help raise student achievement among all students, including those
performing below grade level.

Implementation Steps to Date:
The teacher preparation programs have fulling incorporated the standards into their
curriculum and continue to provide training and professional development to prepare
educators to effectively implement the state content standards. In FY16 the state will be
fully transitioned to the new ISAT aligned to the standards. The final step of the field
test, was conducted in FY15 and achievement level indicators (cut score) were
approved by the Board in early 2015 (calendar year).

3. Literacy Proficiency (Literacy Subcommittee)

Recommendation (2013)
We recommend students demonstrate mastery of literacy before moving on to
significant content learning. Reading proficiency is a major benchmark in a student’s
education. Students must learn to read before they can read to learn content in other
subject areas.
Implementation Recommendation (2014)
We recommend students demonstrate mastery of literacy before moving on to significant content learning. Reading proficiency is a major benchmark in a student’s education. Students must learn to read before they can read to learn content in other subject areas. Recommendations can be summarized as follows:

- Recommendations on changes to Idaho Code to expand state-supported literacy interventions for struggling early readers.
- Recommendations on identifying and implementing a new early literacy assessment package.
- Recommendations on changes to Idaho Code to refine the language related to the Idaho Reading Indicator (IRI).
- Recommendations on literacy training through teacher preparation and professional development.
- Presentation of a substantially revised Idaho Comprehensive Literacy Plan to replace the one approved by the State Board of Education in 1998.

Fiscal Impact: (Contingent on adoption of Literacy Implementation Recommendations – 2015):
FY17:
- Full day Kindergarten or substantial intervention for students who score below basic on IRI (4,251 students X $2,310) $9,819,232.50
- 20 hours of intervention for students in grades 1-3 who score basic on IRI (15,487 x $53.27) $824,902.90
- Intervention for students who score basic or below basic on the IRI-Alt (691 x $106.53) $73,579.31
- Books for school libraries, 2 books per student per year, grades K-5, 135,974 students x $23.46 (funding would be broken out over three years. $189,950

FY18:
- Full day Kindergarten or substantial intervention for students who score below basic on IRI $6,323,336.25
- Job-embedded literacy professional development $1.3M
- Books for school libraries $1M
- Undetermined amount for new Idaho Reading Indicator Assessment.

4. Advanced Opportunities (High Expectations Subcommittee)
Recommendation (2013)
We recommend the state ensure that all students have access to advanced opportunities by expanding post-secondary offerings while a student is still in high school.

Fiscal Impact:
FY16: If advanced opportunities programs were maximized and 60% of Idaho’s high school seniors (approximately 21,000 students) completed an average of nine credits by
the time they graduated, the total cost would be approximately $7 million based on $65 per credit. The Committee estimates that it will take several years to reach this level.

Preliminary estimates indicate the total cost for FY15 including the majority of the county payments at $3.5M ($3M to school districts, $0.5M to counties).

**College and Career Advising**

Fiscal Impact:
The state could begin by using the approach used for IT staffing as a model at $2.5 million per year.

“An amount specified in the appropriation bill for the public schools educational support program for counseling support as provided for in section 33-1212A, Idaho Code, shall be distributed, in full or pro rata, based on one hundred twenty dollars ($120) per first reporting period support unit for grades 8 through 12 or ten thousand dollars ($10,000), whichever is greater”

**Implementation Recommendation (2014)**

1. We recommend that the relevant sections of Idaho Code, Title 33, Chapter 166 pertaining to advanced opportunities be consolidated into a single chapter which will provide better clarity to districts, institutions and school boards.

   The focus on enhancing advanced opportunities has resulted in several new sections of code to delineate specific programs such as 8 in 67, Early Completers, and the new Fast Forward. Consolidating the information in one chapter and reorganizing the information will help students, parents and schools navigate the various offerings more easily and effectively.

2. We recommend that the changes be made to current advanced opportunities programs in Idaho Code to consolidate the various programs to a single section of code and implement necessary changes to simplify participation and administration.

3. We recommend follow-on work in 2-3 years to simplify and consolidate the Advanced Opportunities programs after review of data on the implementation of the Fast Forward program. We envision that within 2-3 years, the State would fund 100% of all successfully completed dual credit courses, advanced placement exams, and transferable professional-technical courses or industry certification exams while in high school to encourage students to apply for scholarships.

4. We support the State Board of Education in working with legislators to create scholarships to provide assistance to students who earn college credit in high school and go on to a postsecondary institution in Idaho.

   Fiscal Impact:
   If advanced opportunities programs were maximized and 60% of Idaho’s high school seniors (approximately 21,000 students) completed an average of 9 credits by the
time they graduated, the total cost would be approximately $7 million based on $65 per credit. The Committee estimates that it will take several years to reach this level. Programs such as 8 in 6 and Early Completers, while growing steadily are not experiencing large year-over-year increases in participation.

5. The committee believes that college/career advising is key to reaching Idaho’s 60 percent goal. We recommend the Legislature appropriate funds specifically for districts to implement college/career advising using a model that best fits their needs. Suggested models include, but are not limited to: AVID10, Near-Peer mentoring, stipends, shared staff, and remote counseling.

Fiscal Impact:
The state could begin by using the approach used for IT staffing as a model at $2.5 million per year.

6. We recommend that Idaho Administrative Rule be revised to require annual review of the 8th Grade Education Plan in grades 9-12.

Implementation:
SB1050 was approved by the 2015 legislature, creating a new section of Idaho code, Section 33-4602, Idaho Code, consolidating the various advanced opportunities programs and removing requirements to simplify and administration of the programs.

SB313 was approved by the 2015 legislature creating a mechanism to distribute additional funding to school districts for college and career advising and clarify additional models districts could use to establish college and career advising programs. Funding was not provided for FY16, if the formula is fully funded FY17 the fiscal impact would be approximately $2.5M.

IDAPA 08.02.03 was amended to add clarify language that the 8th Grade Education Plan had to be reviewed annual in grades 9-12.

5. Revamp the State’s Accountability Structure Involving Schools (Accountability and Autonomy Subcommittee/Public School Funding Subcommittee)

Recommendation (2013)
We recommend the state revamp the accountability structure involving schools. The existing structure that relies on compliance mandates should be replaced with a system that is based on accountability for student outcomes.

Implementation Recommendation (2014)
We recommend that the state’s 5-Star Rating System be revised and refined to facilitate accurate and fair measurement and ranking of schools and districts that require intervention and assistance.
Additional components of this recommendation tie into components of a state accountability system that focuses on all schools and not only identifying low performing schools in need of intervention and assistance as required by the federal accountability system. These components of the recommendation are included in the annual strategic planning and continuous improvement planning recommendations.

Each school in the state should be scored on two metrics: Readiness and Improvement. Readiness would be based on the percent of graduating students that are prepared to continue to the next level and improvement based on year over year improvement in the level of readiness produced by the school. Statewide measures would be based on three academic bands, K-6 (% students proficient or above on 6th grade statewide assessment), K-8 (% students proficient or above on 8th grade statewide assessment), and high school (% students meeting or exceeding state benchmark on college entrance exam).

**Implementation**
Implementation of parts of this recommendation is tied in with recommendation #7.

**6. Empower Autonomy by Removing Constraints (Accountability and Autonomy Subcommittee)**

**Recommendation (2013)**
We recommend the Governor’s Office, State Board of Education, and State Department of Education evaluate existing education laws and administrative rules and work with the Legislature to remove those which impede local autonomy, flexibility to adapt to local circumstances, and the ability of the schools to be agile, adaptive, innovative, and drive continuous improvement.

**Implementation Recommendation (2014)**
Recommendations include review and assessment of state policy and regulations to determine potential impact and effectiveness at the legislative and Board level, to remove restrictions that have not proven effective, and to remove funding constraints as applicable.

**Implementation**
During the 2015 legislative session the legislature approved legislation repealing sections of code that were identified in an initial review as part of the subcommittees work as no longer necessary. Full implementation of this recommendation will require an annual review process by the Board and Board staff.
7. Annual Strategic Planning, Assessment, and Continuous Focus on Improvement (Accountability and Autonomy Subcommittee)

**Recommendation (2013)**
We recommend each district be required to have a strategic plan (and to renew it annually) that identifies and focuses district-wide continuous improvement toward statewide goals. Both the local board and the state should provide oversight to ensure that the plan is appropriate to local circumstances and aligns to and supports the state’s goals. The plan forms the basis from which accountability will be structured and the superintendent will be evaluated.

*FY16: If fully funded at $6,600 per LEA, $759,000, this is available to all school districts and charter schools, the fiscal estimate only used school districts since not all districts would request the reimbursement.*

**Implementation Recommendation (2014)**
We recommend that the State implement an Annual Planning Cycle and Continuous Process Improvement Plans that Lead to Achievement Scores Aligned to the 60% Goal.

We recommend that the State offer professional development and collaborative training and support for local boards/leadership to develop awareness of and competencies in continuous improvement practices.

We recommend that the timing of data be reviewed and adjusted to align with budget and annual planning deadlines for both school boards and teachers.

**Implementation**
During the 2015 legislative session, Section 33-320, Idaho Code was amended to change the references to strategic planning to continuous improvement planning to provide better clarity to the intent of the strategic planning requirements. Additional changes amended the possible reimbursement to $6,000 per district.

The Board approved a legislative idea at the June 2015 board meeting that would incorporate the recommendation for statewide measures based on three grade bands into the section of code. If the legislation is approved by the Board it will be forwarded to the 2016 legislature for consideration.

*FY16: $652,000 was appropriated.*

*FY17: Up to an additional $107,000.*
8. Statewide Electronic Collaboration System (Innovation and Collaboration Subcommittee)

**Recommendation (2013)**
We recommend that a statewide electronic collaboration system be adopted for educators to share ideas and resources across the state.

**Implementation**
FY16 appropriation included $611,000 in addition to the $2M base to be used towards instructional/learning management systems at the district level, for a total of $2,611,000.

9. High Speed Bandwidth and Wireless Infrastructure

**Recommendation (2013)**
We recommend the state expand the existing high speed bandwidth infrastructure to ensure every school (high school, middle school, and elementary school) has the bandwidth and wireless infrastructure necessary for simultaneous equal access and opportunity. This will require ongoing funding for the repair and replenishment of equipment.

**Implementation**
Idaho Education Network funding and staff were transferred to the Department of education as a temporary measure for FY16, a legislative interim committee is evaluating solutions and will make a recommendation to the legislature and Governor to be considered by the 2016 legislature for FY17 and beyond.

10. Educator and Student Technology Devices (Innovation and Collaboration Subcommittee)

**Recommendation (2013)**
We recommend that every educator and student have adequate access to technology devices with appropriate content to support equal access and opportunity. Educator professional development is critical to the effective implementation of technology.

**Fiscal Impact:**
Potential $180-$200/student per year or approximately $60 million (inclusive of the funds already being spent) with an appropriate phase-in.

**Implementation Recommendation (2014)**
We recommend that the technology grant pilot program to schools be discontinued and that funding be made available to all districts for technology needs. Students must have access to devices that support the highest quality of learning.
Implementation
The pilot program was discontinued and funding was appropriate for FY16 for districts to use on technology.

Fiscal Impact:
FY16: appropriation, $5M ongoing for technology.

11. Restoration of Operational Funding

Recommendation (2013)
We recommend restoration of operational funding to the FY 2009 level. Although traditionally called “discretionary” funding, operational funds are the normal, reasonable costs of doing business and include such items as paying for heat, lights and fuel; transporting students in a safe manner to and from school; and providing timely and relevant content materials and training for teachers. A multiple year approach could be implemented to rebuild operational funding.

Fiscal Impact:
Total restoration of operational funding to the 2009 level would cost $82.5 million. However, a multiple year approach to restoration could be implemented. A 5-Year restoration approach to rebuild operational funding would cost $16.5 million per year.

Implementation
Fiscal Impact:
FY16: appropriation, $21,586,200 increase in discrentional/operation funds, from $22,401 per support unit to $23,868

12. Career Ladder Compensation Model (Career Ladder/Tiered Certification Subcommittee)

Recommendation (2013)
We recommend a phased implementation of a Career Ladder of teacher compensation. The model proposed combines competitive salaries with incentives, rewards and accountability. Further, we believe it should be tied to a revised system of state licensure.

Supporting Recommendations:
The accountability model is predicated on a strong evaluation system.
➢ The committee endorses the ongoing implementation of the State Department of Education’s new evaluation framework.
➢ The committee recommends the continued training of principals as evaluators and encourages the incorporation of research-based evaluation techniques such as those identified in the recent MET study.
Fiscal Impact:
The committee recommends a phased implementation of the Career Ladder – moving all teachers to the new salary schedule initially, and increasing the compensation tied to each tier over time to reach the recommended pay levels of a 40/50/60,000 salary schedule. Such a model will entice individuals to enter the teaching profession and provide incentives for them to improve their craft and to remain in Idaho. The committee also believes that the Career Ladder approach provides enhanced accountability based upon performance. The total cost of a move to this salary schedule would be approximately $200-$250 million. Again, a multiple year approach could be implemented. A 5-6 year phase-in to include moving existing teachers to the new Career Ladder would cost approximately $40 million per year.

Implementation Recommendation (2014)
A three rung Career Ladder for the school district appropriation implemented over a five year period. Movement on the ladder would be based on the teacher’s level of certification.

A three tiered certification model where teachers move from an initial residency certificate to a professional certificate or master certificate. Movement from the residency certificate would be based on performance on the states teacher evaluation framework and student achievement or growth. Obtaining a master teacher certificate would be based on additional levels of teacher effectiveness and provide a continuum of professional growth for teachers.

Implementation
HB 296 was approved by the 2015 legislature establishing a Career Ladder (Section 33-1004B, Idaho Code) for instructional staff. School district salary based apportionment will be incrementally increased each year based on the career ladder until fully implemented in year five.

Fiscal Impact:
<table>

</tr>
</tbody>
</table>

HB 296 combined the recommendations from the subcommittee into a two rung Career Ladder and master teacher premium with the addition of a professional teacher endorsement as part of the certification requirements similar to the residency requirement recommendation.
13. Enrollment Model of Funding Schools (High Expectations Subcommittee)

Recommendation (2013)
We recommend a change from Average Daily Attendance (ADA) to Average Daily Enrollment/ Membership. This will enhance fiscal stability and remove current barriers to personalized and/or mastery learning models that are required to meet the State Board’s 60 percent goal.

Implementation Recommendation (2014)
We recommend that the state continue with Average Daily Attendance as the basis for public school funding. However, we believe that the current formula needs to be updated and improved in a number of areas. To accomplish this work we recommend that a committee be formed comprised of representatives from large and small districts, charter and traditional schools, online schools, Department staff, and the Idaho Digital Learning Academy to explore possible solutions to the current funding formula.

Implementation
The recommended committee was formed and has started work to bring forward a recommendation that will address the areas outlined in the recommendations. In addition to this work, based on action taken during the 2015 legislature, the committee is also looking at the feasibility of moving Pupil Service Staff onto the Career Ladder.

The subcommittee will be bringing forward initial recommendations to the Board and the Governor in the fall, recommendations will include a multi-year process for updating the public school funding formula that addresses the varied modes of education available to students, mastery-based education, and increased mobility of students while at the same time creating greater fiscal stability for school districts.

14. Tiered Licensure (Career Ladder/Tiered Certification Subcommittee)

Recommendation (2013)
We recommend a continuum of professional growth and learning that is tied to licensure. Movement through the system would be accomplished in a very specific, objective way using performance measures.

The committee recommends a continuum of professional growth and learning that is tied to licensure. Movement through the system would be accomplished in a very specific, objective way using performance measures. Evaluations based upon the Framework for Teaching (FtT) will begin in pre-service and continue throughout a teacher’s career. This performance assessment would be supported by multiple artifacts and evidence of the candidate’s practice.

An additional recommended measure of candidate effectiveness should be the candidate’s ability to develop student learning objectives in order to assess student growth over the period of the candidate’s clinical practice. These performance-based
measures shall result in the development of an ongoing Individualized Professional Learning Plan (IPLP) created in partnership with the candidate’s cooperating teacher and university supervisor. This plan (IPLP) will be submitted to the State Department of Education, along with the candidate’s scores in the 22 components of the FfT, to inform required professional development and would also be collected as part of the state’s longitudinal database on teacher performance and IHE performance. These documents will be required in order to apply for initial, novice licensure.

Implementation Recommendation (2014)
This recommendation is part of the 2014 recommendation for #12.

Implementation
Implementation of this recommendation is described under recommendation #12.

15. Mentoring (Innovation and Collaboration/High Expectations Subcommittee)

Recommendation (2013)
We recommend that each district develop a mentoring program for the support of new teachers based on the Idaho Mentor Program Standards. These standards provide a vision and guidelines for local planners to use in the design and implementation of a high-quality mentor program for beginning teachers. We recommend the state provide funding support for a mentoring program.

Each district should develop a mentoring program for the support of new teachers that follows the guidelines of the Idaho Mentor Program Standards. These standards were developed in 2009 as a joint project of the Professional Standards Commission, the State Board of Education, and the State Department of Education in order to provide a vision and guidelines for local planners to use in the design and implementation of a high-quality mentor program for beginning teachers. These Program Standards require that representatives from across the educational community come together for initial planning and continue together to monitor and evaluate for program improvement. The state should provide funding support for a mentoring program. It is noted that the cost of providing master teachers to act as mentors for novice teachers is integrated into the Career Ladder model; however, costs for substitutes, training of mentors, etc. would be needed. The best practice model which provides for a “release time” mentor, in which a trained mentor supports novice and struggling teachers, would require additional funding of approximately $7,000 per novice/struggling teacher.

Implementation Recommendation (2014)
Implementation of this recommendation was address by two of the subcommittees and is tied into the implementation of recommendations #16 and #17.

Implementation
Fiscal Impact:
Current funding is available through leadership premiums.
FY16 Appropriation for leadership premiums: $16,062,700

16. Ongoing Job-embedded Professional Learning (Innovation and Collaboration Subcommittee/High Expectations Subcommittee)

**Recommendation (2013)**
Teacher effectiveness is paramount to student success, and professional development is paramount to teacher effectiveness. Professional development must be regularly scheduled and ongoing. We recommend that districts provide regular professional learning opportunities, and we support ongoing funding for professional development. We recommend the use of the research-based standards of the National Staff Development Council known as Learning Forward. We further recommend that resources for educator learning be prioritized, monitored and coordinated at the state level.

**Implementation Recommendation (2014)**
We recommend that job-embedded professional development and collaboration be scheduled weekly based on school schedules and student needs. Schools that have already moved to job-embedded professional development should not be penalized and may use the additional funding to increase instructional time.

**Implementation**
Implementation of this recommendation is tied in with the implementation of #17.

17. Site-based collaboration among teachers and instructional leaders (Innovation and Collaboration Subcommittee)

**Recommendation (2013)**
Time to collaborate is critical to effective teaching and implementation of higher standards and technology. We strongly encourage districts to restructure the traditional school day schedule to allow for job-embedded collaboration time. We support the creation of professional learning communities that increase educator effectiveness and results for all students. We recommend providing training models to districts for their use in training the members of the professional learning communities, and encourage models that focus on team outcomes and collective responsibility.

**Additional Recommendations**
- Strongly encourage districts to restructure the traditional school day schedule to allow for job-embedded collaboration time.
- Create professional learning communities that increases educator effectiveness and results for all students.
- Provide training models to districts for their use in training the members of the professional learning communities.
Encourage models that focus on team outcomes and collective responsibility.

**Recommendation (2014)**
The school year contract days should be increased by three days (24 hours) to allow for additional paid job-embedded professional development and collaboration. This time should be construed separately from professional development training relating to Idaho Core Standards.

Job-embedded professional development and collaboration be scheduled weekly based on school schedules and student needs.

Collaboration skills training and the use of data to inform instruction training be available to all participating staff.

Fiscal Impact: Per day for all staff $4-$5 million/day

**Implementation**
FY16 appropriation included $9,420,000 new funds for professional development in addition to the existing $1,205,000 that was in the base for a total of $10,625,000 for professional development.

FY17: Increase appropriation of $2M - $3M to cover three days.

**18. Training and development of school administrators, superintendents and school boards (Innovation and Collaboration Subcommittee)**

**Recommendation (2013)**
We recommend continued training and professional development of school administrators, superintendents and school boards. The committee supports further development and implementation of the Idaho Standards for Effective Principals and the pilot work being conducted in the 2013-14 school year to further explore effective performance measures for school administrators. This includes ongoing implementation and support for administrator training in assessing classroom performance through observation.

**Implementation Recommendation (2014)**
Further development and implementation of the Idaho Standards for Effective Principals, which includes ongoing implementation and support for administrator training in the Danielson Framework for Teaching model through TeachScape proficiency exams.

**Implementation**
Fiscal Impact: Funds are currently appropriated to cover the cost of providing the TeachScape training/proficiency exams to administrators. Administrative rule requires all administrators be able to show proficiency on conducting evaluations by 2018.
HB296 (2015) amended Section 33-1201, Idaho Code requires administrators earn credits in conducting teacher evaluations as part of their recertification requirements.

19. Provide enhanced pre-service teaching opportunities through the state’s colleges of education

Recommendation (2013)
We support the efforts of Idaho’s higher education institutions to increase and enhance clinical field experiences for pre-service teachers.

Implementation
Idaho’s approved teacher preparation programs continue to work together through a coalition made up of our colleges of education at Idaho’s public and private institutions to increase and enhance clinical field experiences.

20. Participation in the CCSSO’s "Our Responsibility, Our Promise" recommendations to improve teacher preparation

Recommendation (2013)
We support Idaho’s participation in implementing The Council of Chief State School Officers (CCSSO) “Our Responsibility, Our Promise” recommendations to help ensure that every teacher and principal is able to prepare students for college and the workforce.

Implementation
Idaho is participating in CCSSO’s Network for Transforming Educator Preparation. Through this partnership Idaho has worked with other participating states to identify best practices as well as access to partnering organizations technical assistance.

The Board’s FY17 budget request includes a request for one additional FTE, if funded this position will focus on teacher preparation programs and standards effectiveness and additional issues around teacher effectiveness. This work impacts Recommendation #19 and #20.

Fiscal Impact
FY17: Funding for one FTE at the program manager level within the Office of the State Board of Education to focus on teacher effectiveness and improvement of our state teacher preparation programs.
IDAHO BUSINESS FOR EDUCATION

SUBJECT
60% Attainment Goal and Task Force Recommendations

BACKGROUND/DISCUSSION
The Board adopted the 60% Attainment Goal in August of 2010, and since that time much work has been done to move the state forward toward that goal. In January 2013 the Governor’s Task Force for Improving Education adopted the Board’s goal that 60% of Idahoans between the ages of 25 and 34 attain a postsecondary degree or credential by 2020. A key result of efforts to improve K-12 education is increasing high school graduation rates and ensuring that graduates go on to postsecondary education and are prepared to succeed in obtaining degrees, certificates or credentials. The 20 Task Force Recommendations, as well as the work of the implementation committees over the past two years, are focused on moving the state forward in attaining the 60% goal.

During the many meetings conducted over the two years of the Task Force and follow on implementation work, there were repeated discussions across all stakeholder groups regarding the role of the State Board Education in implementing the recommendations and communicating the importance of the 60% goal with the public as well as other state policy makers. While these discussions were not included in the specific policy recommendations, there was consensus amongst those at the table on what must happen at the state level if the recommendations were going to be effective at moving the state towards the 60% goal. Bob Lokken, Task Force Co-chair, IBE Vice-chair, and CEO of WhiteCloud Analytics will discuss the necessity of an ongoing focus on the 60% goal and specific actions for the Board to consider.

IMPACT
Provide the Board with an opportunity to discuss industry expectations for the Board and areas industry could help move the Board’s initiatives forward.

BOARD ACTION
This item is for informational purposes only. Any action will be at the Board’s discretion.

REFERENCE
- September 2013: Board approves Taskforce for Improving Education recommendations.
- February 2014: Board established committees to develop plans to implement the recommendations of the Governor’s Task Force for Improving Education.
- March 2015: Board staff convened the Literacy Committee to develop specific recommendations and legislative ideas for the Board. The membership was primarily drawn from members from the previous Literacy Task Force.
- June 2015: Board approved legislative ideas to expand support for reading interventions, including funding for full-day kindergarten for students struggling to develop early reading skills.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Code 33-1614, 33-1615, 33-1616, and 33-1207A

BACKGROUND/DISCUSSION
The Literacy Implementation Subcommittee includes fourteen (14) individuals from across Idaho, including representatives from the State Board of Education (Debbie Critchfield), a legislator (Rep. VanOrden), State Department of Education, K-12 education, higher education, libraries (Commission and Association), and non-profits (Idaho AEYC, Idaho Business for Education, and Idaho Voices for Children). The committee has met six (6) times to review the Literacy Task Force’s report and develop and present actionable recommendations to the State Board of Education and the Governor. Attached is the committee’s July 2015 report. A summary of recommendations by topic area follows:

State Guidance
- We recommend the Comprehensive Literacy Plan be reviewed and revised every five (5) years, beginning with a revision in 2015. The Literacy Committee is currently in the process of editing the plan and intends to present a new Comprehensive Literacy Plan to the Board of Education at the December 2015 Board meeting.
- We recommend the state provide guidance to ensure that teachers are well-trained to provide high-quality literacy instruction. Specifically, we recommend that the Idaho Comprehensive Literacy Course requirements be reviewed and revised every five (5) years. Additionally, we recommend the state support job-embedded literacy professional development for currently practicing teachers.
Reading Interventions
- We recommend the state expand reading interventions for students who, based on their Idaho Reading Indicator (IRI) scores, are struggling to develop literacy skills.
- We recommend a substantial increase in funding for kindergarten interventions, including full-day kindergarten for those who score in the lowest performance category and substantial funding for districts to support full-day kindergarten or other significant interventions for students who score in the middle performance category (currently referred to as 2), but have not yet reached proficiency.
- We recommend that interventions be expanded to students in first through third grade who score in the middle performance category, but who have not yet reached proficiency.

Assessment
- We recommend that statutory language related to the Idaho Reading Indicator be revised to clarify purpose of the assessment and eliminate unnecessary and confusing details.
- We recommend the State Board of Education consider adopting a new early literacy assessment package to replace the assessment currently used for the Idaho Reading Indicator.

Other
- We recommend the state support renewal and expansion of school libraries by providing funding for districts to purchase books for their elementary schools.

IMPACT
Adoption of the recommendation will allow staff to continue work on bringing forward legislative proposals, as applicable, to move forward the recommendations and to work with the Governor and the legislature in implanting the recommendations as resources allow. Following adoption by the Board the recommendations will be forwarded to the Governor for consideration. If fully implemented in the timeframe outlined the estimated fiscal impact for FY17 would be $11.9M and nearly $8.6M for FY18. The total estimated fiscal impact at full implementation (over five (5) years) would be $21.5M.

ATTACHMENTS
Attachment 1 – Literacy Committee Report and Recommendations

STAFF COMMENTS AND RECOMMENDATIONS
In recognition of the limited resources available and committee has ordered their recommendations in priority order and have outlined a five (5) year implementation plan. As outlined in the recommendations full implementation will take several years of additional work that include not only bringing forward an
updated Idaho Comprehensive Literacy Plan pursuant to Section 33-1614, Idaho Code, but also include the multi-year processes of developing, testing, and implementing a new Idaho Reading Indicator that better meets the needs of the school districts and students.

Given the resources available and the projected fiscal impact, it is understood that all recommendations may not be able to be implemented in the timeframe outlined in the recommendations. Board staff recommends adoption and support of the Literacy Implementation Subcommittee’s report and recommendations in priority order as presented in Attachment 1.

BOARD ACTION

I move to adopt the Literacy Implementation Subcommittee recommendations in priority order as submitted in Attachment 1.

Report and Recommendations

Members:
Stephanie Bailey-White  Projects Coordinator, Idaho Commission for Libraries
Lisa Boyd  Principal, Desert Springs Elementary School, Vallivue School District
Holli Brookover  Vice President of Development, Idaho Business for Education
Mary Ann Cahill  Associate Professor, Boise State University
Michele Capps  Superintendent, Murtaugh School District
Alejandra Cerna Rios  Outreach Specialist, Idaho Voices for Children
Debbie Critchfield  Member, State Board of Education
Meghan Graham  3rd grade Teacher, Sage International School of Boise
Alison Henken  K-12 Accountability and Projects Manager, Idaho Office of the State Board of Education
Stephanie Lee  Assessment Specialist, Idaho State Department of Education
Natalie Nation  Representative, Idaho Library Association
Beth Oppenheimer  Executive Director, Idaho Association for the Education of Young Children
Diann Roberts  English Language Arts/Literacy Coordinator, Idaho State Department of Education
Julie VanOrden  House of Representatives, District 31, House Education Committee

Subcommittee Charge: to further refine the following recommendations of the Governor’s Task Force:

#3  Literacy Proficiency

Subcommittee Deliverables:

•  Recommendations on changes to Idaho Code to expand state-supported literacy interventions for struggling early readers.

•  Recommendations on identifying and implementing a new early literacy assessment package.

•  Recommendations on changes to Idaho Code to refine the language related to the Idaho Reading Indicator (IRI).

•  Recommendations on literacy training through teacher preparation and professional development.

•  Presentation of a substantially revised Idaho Comprehensive Literacy Plan to replace the one approved by the State Board of Education in 1998.
Objectives and Components:

The objective is to support the State's goal to have 60% or more of its students prepared for career or college by ensuring students have the literacy skills needed to succeed in primary and secondary schooling and the postsecondary path of their choice.

To achieve this goal, Idaho must develop a system to support K-12 literacy that includes the following components:

- **Strong leadership and collaboration** are needed at all levels, from statewide agencies to local schools, to ensure that schools, teachers, students, and parents have the support and resources they need to guide students to high levels of literacy. Funding and resources are critical and must be provided by the state. Additionally, we must also ensure that district and school leaders are well-trained and supported in developing schools that have a strong, positive culture that supports teachers in guiding all students to develop strong literacy skills.

- **Effective instruction** is crucial to ensuring that struggling students receive the support they need while on-level and advanced students are pushed to high levels of excellence. Effective instruction happens when teachers are well-prepared to implement rigorous content standards in ways that engage students.

- **Assessment and data** should be used responsibly and effectively to inform state policy, and more importantly, to guide educational practice. Districts and schools should use data to ensure programs and strategies are effective. Teachers should review student data and adjust their daily instruction. Finally, student-level data should be used by teachers, students, and parents to develop educational plans and goals that address each student's challenges and harness their unique strengths and interests.

Recommendations:

1. **We recommend that the State expand support for reading interventions for struggling early readers.**

   a. Research demonstrates the importance of screening kindergartner’s reading skills and providing early interventions to address literacy skills gaps early and put students on a path to literacy proficiency and academic success. Additionally, full-day kindergarten has been found to be beneficial, particularly for low-income students, English language learners, and those who have demonstrated a need for

---

additional support. Thus, we recommend providing expanded funding for reading interventions for kindergarten students who are struggling to develop reading skills.

We recommend the state fund full-day kindergarten for students who score in the lowest performing category (below basic) on the Idaho Reading Indicator (IRI).

Additionally, we recommend providing substantial funding that could be used by district for either full-day kindergarten or substantial interventions for students who score in the middle (basic) category on the IRI.

To prevent any delay in provision of services, the funding for kindergarten students should be calculated based on the average number of students who performed in each category over the past three years, thus allowing funding to be provided at the beginning of the school year (with the August payment). Funding can then be adjusted after students have taken the fall IRI.

b. We recommend the state provide expanded support for reading interventions for students in grades 1 through 3 who have not yet reached reading proficiency.

Currently, the state provides some support for interventions for students who score in the lowest performance category (below basic) on the IRI; per statute, schools must provide these students with 40 hours of supplemental instruction. However, there is currently no similar requirement or funding for students who score in the middle performance category (basic), though they have not yet demonstrated proficiency at grade level. We believe that it is important to ensure these students receive the support they need to reach grade level proficiency by the end of the third (3rd) grade. Thus, we recommend that schools be required to provide these students with at least 20 hours of supplemental instruction and that the state provide funding to support this work.

c. We recommend that statute be adjusted to clarify that funding for reading interventions will be provided to students who take the Idaho Reading Indicator-Alternative (IRI-Alt) assessment. Funding for interventions is currently only provided for students who complete the IRI test designed for the general population. Approximately 1% of Idaho’s students who have significant cognitive impairments qualify to take the IRI-Alt assessment; however, interventions are not funded for these students, despite the fact that these students usually need substantial reading support. As a result, in practice, some schools have been administering the general IRI to students who qualify for the IRI-Alt in order to qualify them for intervention funding. The student is subjected to an unnecessary test and the resulting data is not useful for the school. We recommend eliminating this issue by specifying in Idaho Code that students may qualify for reading intervention funding based on their score on the IRI or IRI-Alt.

---

2 Ackerman, Barnett, & Robin, 2015; Gibbs, 2014; Hahn et al, 2014; UNLV, 2015
2. **We recommend the state adopt a new literacy assessment package.**

   a. The assessment currently used as the Idaho Reading Indicator is outdated and does not meet the state's needs. We recognize the following issues with the current assessment:
      - It does not test a student's reading comprehension skills, and thus, is not well-aligned to Idaho Core Standards.
      - The test currently being used for the IRI is designed to be a screening assessment. However, because it is the only statewide literacy assessment for early grades, the state is currently relying on data from this assessment to inform us of our students' literacy skills and the performance of our schools. Because the test is short and does not measure reading comprehension, this practice is far from ideal.
      - Because the state has not provided guidance and support for diagnostic assessments, some schools rely on IRI data to make important decisions about the types of interventions and supports that students need. Schools need separate, high-quality diagnostic assessments that will provide them with detailed information about students' specific areas of strength and challenge so they can create individualized interventions.

   b. We believe it is critical for the state to identify and adopt one or more high-quality assessments that meet the needs of schools and the state. We recommend the following process for identification and implementation of a new assessment or assessment package:
      - We have created a Literacy Committee sub-group- the Assessment Working Group, which is tasked with reviewing available literacy assessments and providing the Literacy Committee with recommendations regarding the best assessment options for Idaho. The Assessment Working Group will provide its recommendations to the Literacy Committee by April 2016, and if adopted by the Literacy Committee, these recommendations will be provided to the State Board of Education in June 2016.
      - We have recommended that the Assessment Working Group be highly cognizant of the need to balance using assessments appropriately and receiving high-quality data with the logistical and time challenges faced by Idaho's schools.
      - We recommend the new assessment be implemented over the process of three years beginning with validity testing of the new assessment in the 2017-2018 school year and field testing and full implementation in the two following years.
3. We recommend revising statutory language related to the Idaho Reading Indicator (IRI) to clarify the purpose of the assessment and eliminate unnecessary and confusing details.

   a. We recommend revising I.C. Section 33-1614 to improve or delete outdated language and eliminate unnecessary details about the Idaho Reading Indicator (IRI), thus allowing the state to implement the appropriate assessment with State Board of Education approval without needing to adjust statute to align to assessment changes in future years. We further recommend adding a sentence from Section 33-1616 regarding district reporting of IRI scores, as it is appropriate to have the reporting instructions for districts be in the same location as the reporting instructions for the State Department of Education (SDE).

   b. We recommend aligning the IRI performance category names to align to the categories currently used for the ISAT. Specifically, we recommend adjusting the performance category names as outlined below. The scoring categories will be clearly outlined in the new Idaho Comprehensive Literacy Plan. Additionally, we recommend aligning references in Section 33-1615 to these updated performance categories.

<table>

<tr>
<td>One (1)</td>
<td>Below Basic</td>
</tr>
<tr>
<td>Two (2)</td>
<td>Basic</td>
</tr>
<tr>
<td>Three (3)</td>
<td>Proficient</td>
</tr>
</tbody>
</table>

   c. We recommend eliminating Idaho Code Section 33-1616, as the outlined IRI goals are outdated and unnecessary and the reporting process outlined requires additional work by the SDE to identify schools that do not meet these targets. Section 33-1614 already requires the SDE to report the reading assessment scores of all schools; the additional step of identifying schools who do not meet state targets is unnecessary and perceived to be punitive in nature.

4. We recommend the state provide guidance and support to ensure that teachers are well-trained to provide high-quality literacy instruction.

   a. We believe it is critical that the Idaho Comprehensive Literacy Course to be reviewed and revised on a regular basis to ensure that Idaho’s colleges and universities are as effective as possible in preparing new teachers to address students’ literacy learning needs. Therefore, we have asked the Idaho Higher
Education Literacy Partnership (IHELP), in partnership with the Education Deans from the colleges and universities, to review Administrative Rule and practice related to the Idaho Comprehensive Literacy Course and make recommendations to the Literacy Committee for updates / change.

To ensure that similar reviews are done on a regular basis, we recommend that the State Board of Education amend Administrative Rule to designate that the State Board of Education will convene a committee every five (5) years to review and revise, as necessary, the Idaho Comprehensive Literacy Course.

b. In alignment with the Governor’s Task Force for Improving Education’s recommendations related to professional development, we recommend that the state commit to providing ongoing, effective literacy professional development for teachers. We recommend that Idaho Code be amended to give the State Department of Education clear responsibility for providing professional development, and that the types of appropriate, effective literacy professional development (such as job-embedded) be clearly outlined in the Idaho Comprehensive Literacy Plan.

5. We recommend that the state’s Comprehensive Literacy Plan be revised and refined to provide a clear, updated guide to improving the literacy outcomes of the Idaho’s students.

a. We recommend substantially rewriting the Idaho Comprehensive Literacy Plan using a draft created by the State Department of Education (but not formally adopted by the Board) in 2012. We intend to reorganize the plan to clarify the roles various entities (state government, districts, schools, community, and parents) have in ensuring students develop strong literacy skills. Additionally, we will update the plan to ensure that it represents recent research and best practices.

b. We believe it is critical that the Idaho Comprehensive Literacy Plan be reviewed and revised on a regular basis to ensure that it remains relevant and is put into action. Therefore, we recommend that the State Board of Education amend Administrative Rule to designate that the State Board of Education will convene a committee every five (5) years to review and revise, as necessary, the Idaho Comprehensive Literacy Plan.

6. We recommend the state support expansion and renewal of school libraries.

a. We recommend the state provide funds to ensure that school libraries are well-stocked with current books to support access to print for all Idaho children. The International Reading Association and the American Library Association recommend that "Libraries must purchase a sufficient number of new books per
student, and they must make a concentrated effort to replace older materials for each classroom and school library on an annual basis. School libraries should possess a minimum of twenty (20) books for each student to allow for access to print and independent reading. Schools should purchase new, quality books at the rate of two (2) books per student per year for a classroom library. While Idaho's secondary schools typically have some funding for library renewal, the state's elementary schools often struggle to identify funds for this purpose. Thus, we recommend the state provide funding to allow the state's elementary schools to purchase two (2) books per student per year for students in kindergarten through fifth grade. Recent research shows that a child's ability to independently select reading material results in statistically significantly higher improvements in reading scores than the scores of children who are assigned a reading list or who do not have sufficient access to print materials.

Definitions of Key Terms

"60%" or "60% Goal" refers to the Idaho State Board of Education's goal to have 60% or more of its citizens entering the workforce with some form of postsecondary degree or certificate (1, 2, 4, or more) by 2020. The supporting goal is that Idahoans age 25-34 will have achieved the 60% goal. The Literacy Committee's has focused on developing strategies to ensure that students in the K-12 system develop the literacy skills needed to successfully pursue postsecondary degrees or certificates.

"Screening assessment" refers to an assessment given "to determine whether students may need specialized assistance or services, or whether they are ready to being a course, grade level, or academic program." These simple, time-efficient, and objective measures produce data, including reading levels, to inform judicious real-time instructional decisions, thus enabling true individualization of instruction at the student's point of learning.

"Diagnostic assessment" refers to an assessment given to identify a student's specific learning challenges and needs and, as appropriate, diagnose learning disabilities to determine eligibility for special education services. These assessments are typically administered after a student's results on a screening assessment have identified the student as in need of support; they provide more detailed information related to the student's abilities and knowledge and are typically related to a specific content area.

Cost Breakdown Details

3.a. The number of students included in the calculations for 3.a. and 3.b. are the average number of students who performed in each category- below basic / 1 and basic / 2 on the fall IRI for the past four school years (2011-12, 2012-13, 2013-14, 2014-15)

3.a. The cost per student for full-day kindergarten for students who score below basic on the IRI is the 2014-2015 kindergarten ADA x 2. The new cost (fiscal impact), therefore, is the same as the current ADA ($2,310), since it is a doubling of funding for these students.

The cost per student for full-day kindergarten or substantial intervention for students who score basic on the IRI is the 2014-2015 kindergarten ADA x 1.5. The new cost (fiscal impact), therefore, is the same as half current ADA ($2,310), or $1,155.

3.b. The cost per student for 20-hour interventions for students in grades 1-3 who score a basic on the IRI was calculated based on the average amount spent per student for 40-hours of intervention (including transportation) for three years (2011-12, 2012-13, 2013-14) divided by 2, since these interventions will be funded at half the rate of the 40-hour interventions.

3.c. The cost for interventions for students who take the IRI-Alt was difficult to calculate for two reasons: 1) this information is not currently tracked at a statewide level; 2) some students who qualify for and should take the IRI-Alt have been given the regular IRI in order for their school to qualify for intervention funding. Thus, the fiscal impact was estimated at the maximum total number of students who may take the IRI-Alt test (federal law limits it to no more than 1% of the full student population) at the 40-hour intervention cost. However, it is worth noting that because some of these students may have been receiving funding in the past (because they were guided to take the regular IRI), this estimate is likely to be higher than the actual new cost will be.

6.a. The student number used for this calculation is the total K-5 fall enrollment for 2014-2015, as reported by the Idaho State Department of Education. The book cost reflects 2 books per student at an average cost of $11.73 per book. This average cost is based on data from the School Library Journal (http://www.slj.com/2015/03/research/sljs-average-book-prices-2015/#) assuming 65% of books will be hardback at $14.49 per book (because renewals efforts should include as many new releases as possible) and 35% will be paperback at $6.61 per book. These per book costs assume a 25% discount from vendors for buying in bulk; this discount rate is based on a committee member’s communication with vendors.
SUBJECT
Expand the compulsory attendance age to age six (6) to eighteen (18) or a high school degree or its equivalent, whichever is first.

REFERENCE
June 18, 2015 The Board considered expanding compulsory attendance as part of its legislative proposals. The Board chose to remove compulsory attendance from the legislative agenda and requested more information for further consideration.

APPLICABLE STATUTE, RULE, OR POLICY
Section 33-201, and 202, Idaho Code

BACKGROUND/DISCUSSION
Section 33-202, Idaho Code, establishes the compulsory school attendance age for Idaho from age seven (7) to age sixteen (16). To accomplish this, a parent or guardian shall either cause the child to be privately instructed by, or at the direction of, his parent or guardian; or enrolled in a public school or public charter school, including an on-line or virtual charter school or private or parochial school during a period in each year equal to that in which the public schools are in session.

Pursuant to section 33-201, Idaho Code, the current definition of “school age” is between the age of (5) and twenty-one (21) and except under certain circumstances public schools may only provide education to children of school age. Pursuant to Section 33-119, Idaho Code, elementary schools are defined as providing grades one (1) through six (6) or any combination thereof and are funded based on full time average daily attendance for students starting in first grade, which has a traditional start age of six (6) with age seven (7) being the traditional start age for second grade. Furthermore, it is rare for a high school student to earn a high school degree or equivalent by age sixteen (16).

In 2011, there were more than 900 first-time Idaho students who were seven (7) years old. That number has dropped to more than 600 in 2014. At the same time, Idaho had more than 700 exiters who were age sixteen (16). In 2014, that population increased to more than 1,500 students.

Based on a recent report by the Education Commission of the States, twenty-four (24) states and the District of Columbia require students to attend school until they turn eighteen (18) and Idaho is one (1) of fifteen (15) states that only require students to attend until they turn sixteen (16). On the lower end of the age range twenty-four (24) states require attendance of students at the age of six (6) and an additional nine (9), including the District of Columbia, require attendance starting at age five (5). Many states who have expanded their compulsory attendance requirements in recent years have done so to help reduce drop-out rates at the
upper end and to increase academic achievement throughout the students' educational experience by increasing the rates at the lower end.

Expanding the compulsory attendance age to age six (6) to eighteen (18) or a high school degree or its equivalent, whichever is first, aligns to several existing state policies and goals. First, the State Board’s strategic plan includes a goal of 60% of Idahoans age twenty-five (25) to thirty-four (34) earning a postsecondary certificate or degree by the year 2020. In order to obtain a postsecondary education, a high school degree or its equivalent is necessary.

Second, research by Georgetown University shows that of the available jobs in 2018, only two point five percent (2.5%) will require less than a high school degree, and only nineteen percent (19%) will require a high school degree or GED, leaving seventy-eight percent (78%) to require a post-secondary education, credential or more. Students who leave high school prior to achieving a high school degree or equivalent will severely diminish their employability.

Third, state law defines elementary school as providing first grade (Section 33-119) and defines age six (6) as the start age for first grade (Section 33-201). This creates a conflict in that public school districts provide first grade, but students are not required to attend at the age identified in state law as start age for first grade.

Fourth, this proposal does not change the acceptable venues for schooling during ages six (6) to eighteen (18) or a high school degree or equivalent, whichever is first. It would still be acceptable for a student to be home schooled or enrolled in a public school or public charter school, including an on-line or virtual charter school, or private or parochial school during a period in each year equal to that in which the public schools are in session.

The research on compulsory attendance is mixed. National research showed that students who have just turned sixteen (16) in states with an age sixteen (16) minimum schooling requirement have a larger decline in enrollment than students who have just turned sixteen (16) in states with an age seventeen (17) or eighteen (18) schooling requirement. The same research predicted that almost twenty-five percent (25%) of the age sixteen (16) exiters would stay in school with compulsory attendance laws. In 2014, that would have equated to nearly four hundred (400) Idaho students who could have been retained.

Not all states that changed their compulsory school attendance age saw their dropout rate decrease. At the same time, some states that did not change their compulsory attendance age saw drop-out rates decrease. However, there are benefits beyond changes in the drop-out rate. For example, research from the University of Toronto showed that lifetime wealth increases by twelve percent (12%) for those students required to attend an extra year of schooling. The National Center for Education Statistics review of median annual earnings by education level showed that in 2013, the median annual earnings of a full-time
employee without a high school credential was $23,900 compared to $30,000 for those with a high school credential.

IMPACT
If approved, legislation would be brought back to the Board for consideration at a later date prior to submittal to the Governor’s Office for consideration. The Board may choose to at that time to move forward or postpone legislation changing the compulsory school attendance age.

Attachment 1 - Presentation

STAFF COMMENTS AND RECOMMENDATIONS
Staff recommends approval of the motion.

BOARD ACTION
I move to include on the 2016 legislative agenda the proposal to expand the compulsory attendance age to age 6 to 18 or a high school degree or its equivalent, whichever is first.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
Compulsory Attendance

Presentation to the Idaho State Board of Education

August 13, 2015

Current Law

- 33-201. SCHOOL AGE. The services of the public schools of this state are extended to any acceptable person of school age. "School age" is defined as including all persons resident of the state, between the ages of five (5) and twenty-one (21) years. For a child enrolling in the first grade, the age of six (6) years must be reached on or before the first day of September of the school year in which the child is to enroll.

- 33-202. SCHOOL ATTENDANCE COMPULSORY. The parent or guardian of any child resident in this state who has attained the age of seven (7) years at the time of the commencement of school in his district, but not the age of sixteen (16) years, shall cause the child to be instructed in subjects commonly and usually taught in the public schools of the state of Idaho. To accomplish this, a parent or guardian shall either cause the child to be privately instructed by, or at the direction of, his parent or guardian; or enrolled in a public school or public charter school, including an on-line or virtual charter school or private or parochial school during a period in each year equal to that in which the public schools are in session; there to conform to the attendance policies and regulations established by the board of trustees, or other governing body, operating the school attended.
How Idaho Compares (2013)

- Idaho has a higher minimum age and lower maximum age than most states.

7 Yr. Old First-Time Students

- The chart shows the number of 7 year old first-time students from 2011 to 2014.
Proposal

- Expand the compulsory attendance age to six (6) to eighteen (18) or a high school degree or equivalent, whichever is first.
  - No change in the allowable venues for schooling:
    - Home school
    - Parochial
    - Private
    - Public school
    - Public charter school
    - Online virtual public charter school
Expanding the Compulsory Attendance Age...

- Aligns with the State Board’s goal of 60% of Idahoans age 25-34 having a postsecondary certificate or degree by 2020.
  - A high school degree or its equivalent is required for admission to a postsecondary degree program.
  - Impacts the high school graduation rate and drop out rate.

16 Yr. Old Exiters

- 2011: 700
- 2012: 800
- 2013: 1,200
- 2014: 1,800

Potential returners
Expanding the Compulsory Attendance Age...

- Improves employability of young Idahoans.
  - In 2018, 2.5% of available jobs will require less than a high school degree, and 19% will require a high school degree or GED.
  - 78% of jobs will require a postsecondary education, certificate or more.
  - Individual earnings increase with additional education and higher level jobs.

Expanding the Compulsory Attendance Age...

- Aligns existing state law.
  - Section 33-119 defines an elementary school as providing first grade.
  - Section 33-201 defines age six (6) as the start age for first grade.
  - Section 33-202 does not require attendance until age seven (7).

SUBJECT
Proposed Rules IDAPA 08.01.09 – Rules Governing the GEAR UP Idaho Scholarship Program

REFERENCE
June 2011 Board approved proposed rule changes to IDAPA 08.01.09, Rules Governing GEAR UP Idaho Scholarship
November 2011 Board approved pending rule, Docket 08-0109-1101, amending the GEAR UP Idaho Scholarship
June 2013 Board approved proposed rule changes to IDAPA 08.01.09, Rules Governing GEAR UP Idaho Scholarship
October 2013 Board approved pending rule, Docket 08-0109-1301, amending the GEAR UP Idaho Scholarship

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Administrative Code, IDAPA 08.01.09

BACKGROUND/DISCUSSION
The GEAR UP Idaho Scholarship is the scholarship component of the Federal GEAR UP grant. The scholarship is available to student who attended a school participating in the GEAR UP program and who participated in the programs early intervention component in grades seven (7) through ten (10). To be eligible for participation the student must have graduated in 2012, 2013, or 2014. During this past award cycle a number of areas within the rule were identified as needing further clarification.

The proposed amendment to IDAPA 08.01.09 will allow applications to be submitted after March 1, and specify that applications received after that date may not receive an award until the following year, expand the scholarship award renewal period from eight continuous semester to 10, reduce the number of days prior to the first day of the academic term for students who have an interruption in their enrollment, and provide additional clarity to the initial application process, the selection of recipients, and continuing eligibility requirements and would make technical corrections. The GEAR UP Idaho Scholarship is a federal program and subject to the federal regulations for the program.

IMPACT
The proposed changes will provide for efficiencies in the administration of the scholarship awards as well provide clarity for individuals applying for the scholarship.
ATTACHMENTS
Attachment 1 – Proposed Rule Changes to IDAPA 08.01.09

STAFF COMMENTS AND RECOMMENDATIONS
Proposed rules have a 21 day comment period prior to becoming pending rules. Based on received comments and Board direction, changes may be made to proposed rules prior to entering the Pending stage. All pending rules will be brought back to the board for approval prior to submittal to the Department of Administration for publication in the Idaho Administrative Rules Bulletin as a pending rule. Pending rules become effective at the end of the legislative session in which they are submitted if they are not rejected by the Legislature.

BOARD ACTION
I move to approve the Proposed Rule changes to IDAPA 08.01.09 as submitted.

Moved by __________ Seconded by __________ Carried Yes _____ No ______
IDAPA 08
TITLE 01
CHAPTER 09

08.01.09 - RULES GOVERNING THE GEAR UP IDAHO SCHOLARSHIP PROGRAM

500. CONTINUING ELIGIBILITY.

To remain eligible for renewal of a GEAR UP Idaho scholarship, the recipient must comply with all of the provisions of the GEAR UP Idaho Program and these rules, in addition to the following requirements: (3-29-12)

01. Renewal Application. A scholarship recipient must complete and submit a renewal application in order to be considered for a continuing scholarship for each succeeding year. A completed application for the renewal of a GEAR UP Idaho scholarship must be submitted to the Board electronically by the date established on the application, but not later than March 1 to be eligible to receive the award for the next academic year. An applicant without electronic capabilities may submit an application on the form established by the GEAR UP Idaho Program administrator through the United States Postal Service, which must be postmarked no later than March 1. In addition, a scholarship recipient must update and submit the FAFSA on or prior to March 1 to be eligible for awards for the next academic year contingent on availability of funds and attending institution deadlines. (3-20-14)

02. Credit Hours. To remain eligible for renewal of a scholarship award, the scholarship recipient must be enrolled as a full-time student and have completed a minimum of twenty-four (24) credit hours or its equivalent for the academic year in which the student received a scholarship award. (3-20-14)

03. Satisfactory Academic Progress. To remain eligible for renewal of a scholarship, the scholarship recipient must have maintained a minimum cumulative grade point average of two point zero (2.0) on a scale of four point zero (4.0) during the time that the recipient received an award, and must be maintaining satisfactory academic progress, consistent within federal financial regulations as implemented at the eligible Idaho postsecondary educational institution at which the scholarship recipient was enrolled. (3-20-14)

04. Transfer Students. Scholarship recipients who transfer to another eligible institution remain eligible for scholarship renewal and must inform the administrator no later than March the end of the next academic period following the transfer. (3-20-14)

05. Maximum Scholarship Award. The award of a GEAR UP Idaho scholarship shall not exceed the equivalent of eight (8) ten (10) continuous semesters or the equivalent of four (4) five (5) continuous academic years. (3-29-12)

501.--– 599. (RESERVED)

600. MISCELLANEOUS PROVISIONS.

A scholarship recipient whose continuous enrollment is interrupted for more than four (4) months for any reason but who intends to re-enroll in an eligible Idaho postsecondary educational institution must file a letter of intent to interrupt continuous enrollment no later than sixty (60) thirty (30) days prior to the first day of the academic term of the discontinued attendance. Failure to do so may result in forfeiture of the scholarship. The Board will review each request for interruption and notify the individual of approval or denial of the request. In addition, the individual must file a statement with the Board declaring his intent to re-enroll as a full-time undergraduate student in an academic or professional-technical program in an eligible Idaho postsecondary educational institution for the succeeding academic year no later than thirty (30) days prior to the first day of the academic term in which the individual intends to re-enroll. An extension of interruption of continuous enrollment period may be granted for eligible students due to
military service in the United States armed forces, medical circumstances, or other circumstances approved by the state board of education’s executive director. All requests for extension must be made sixty (60) thirty (30) days prior to the start of the succeeding academic year.
SUBJECT
Proposed Rules IDAPA 08.01.13 – Rules Governing the Opportunity Scholarship Program

REFERENCE
October 2012  Board approved legislation consolidating and streamlining the state scholarships managed by the Board Office
June 2013  Board approved proposed rule amendments bringing IDAPA 08.01.13 into alignment with SB1027 (2013) changes.
November 2013  Board approved pending rule bringing IDAPA 08.01.13 in alignment with SB1027 (2013) changes.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Administrative Code, IDAPA 08.01.13
Chapter 56, Title 33, Idaho Code

BACKGROUND/DISCUSSION
Proposed changes to IDAPA 08.01.13 would make technical corrections and clarify the eligibility and application requirements for the scholarship applicants. Technical corrections include specifying the grade point average used is the cumulative, unweighted grade point average, authorization for the Board’s Executive Director to establish the application form, and clarification that after the initial awards are made, if based on the student acceptance rate, there are additional funds available to be awarded, those awards may be made after the June 1 initial award date deadline.

Additional changes allow the executive director to approve extension of the award for those students who have earned over one-hundred (100) credits and will not be able to complete their program of study within two (2) semesters if there are extenuating circumstances. Further, the credit hour requirements have been amended to twenty-four (24) credits in an academic year rather than twelve (12) credits in each semester.

IMPACT
The proposed changes will provide for efficiencies in the administration of the rule as well provide clarity for individuals applying for the scholarship. The proposed rule, if accepted by the legislature, would take effect at the end of the 2016 legislative session.

ATTACHMENTS
Attachment 1 – Proposed Rule Changes to IDAPA 08.01.13
STAFF COMMENTS AND RECOMMENDATIONS

FY16 is the first full implementation year of the legislative changes that were made during the 2013 legislative session. Proposed changes are based on circumstances that have arose with applicants as well as feedback from the institutions.

Proposed rules have a 21 day comment period prior to becoming Pending rules. Based on received comments and Board direction, changes may be made to proposed rules prior to entering the pending stage. All pending rules will be brought back to the board for approval prior to submittal to the Department of Administration for publication in the Idaho Administrative Rules Bulletin as a pending rule. Pending rules become effective at the end of the legislative session in which they are submitted if they are not rejected by the Legislature.

BOARD ACTION

I move to approve the proposed rule changes to IDAPA 08.01.13 as submitted in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No ______
IDAPA 08
TITLE 01
CHAPTER 13

08.01.13
- RULES GOVERNING THE OPPORTUNITY SCHOLARSHIP PROGRAM

000. LEGAL AUTHORITY.
In accordance with Sections 33-105, 33-5605, and 33-5606(2)(c), Idaho Code the State Board of Education (Board) shall promulgate rules implementing the provisions of Title 33, Chapter 56, Idaho Code. (4-2-08)

001. TITLE AND SCOPE.

01. Title. These rules shall be cited as IDAPA 08.01.13, “Rules Governing the Opportunity Scholarship Program.” (4-2-08)

02. Scope. These rules constitute the requirements for the Opportunity Scholarship Program. (4-2-08)

002. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, written interpretations, if any, of the rules of this chapter are available at the Board. (4-2-08)

003. ADMINISTRATIVE APPEALS.
Unless otherwise provided for in the rules of the Board or in the Board Governing Policies and Procedures, all administrative appeals allowed by law shall be conducted as provided herein. (4-2-08)

004. INCORPORATION BY REFERENCE.
There are no documents that have been incorporated by reference into these rules. (4-2-08)

005. OFFICE INFORMATION.

01. Office Hours. The offices of the Board are open from 8 a.m. to 5 p.m., except Saturday, Sunday, and legal holidays. (4-2-08)

02. Street Address. The offices of the Board are located at 650 W. State Street, Boise, Idaho. (4-2-08)

03. Mailing Address. The mailing address of the Board is P.O. Box 83720, Boise, Idaho 83720-0037. (4-2-08)

04. Telephone Number. The telephone number of the Board is (208) 334-2270. (4-2-08)

05. Facsimile. The facsimile number of the Board is (208) 334-2632. (4-2-08)

06. Electronic Address. The electronic address of the Board of Education at www.boardofed.idaho.gov. (4-2-08)

006. PUBLIC RECORDS ACT COMPLIANCE.
These rules are subject to the provisions of the Idaho Public Records Act, Title 9, Chapter 3, Idaho Code. (4-2-08)

007. -- 009. (RESERVED)

010. DEFINITIONS.
01. **Grade Point Average (GPA)**. Means the average cumulative, unweighted grade point average grade earned by a student, figured by dividing the grade points earned by the number of credits attempted. (3-20-14)

011. -- 100. (RESERVED)

101. **ELIGIBILITY.**

01. **Undergraduate Student.** An eligible student must be pursuing their first undergraduate certificate or degree. A student may have received multiple certificates or degrees as part of the natural progression towards a recognized baccalaureate degree program. A student who is enrolled in a graduate program, but who has not yet earned a baccalaureate degree, is not eligible for an opportunity scholarship. A student enrolled in an undergraduate program is eligible for consideration for an opportunity scholarship, even if some of the student’s courses are at the graduate level. (3-20-14)

02. **Academic Eligibility.** (4-2-08)

a. Applicants for the opportunity scholarship are selected as recipients, in part, on the basis of their cumulative unweighted GPA. (3-20-14)

b. To be eligible for an opportunity scholarship, an applicant must meet minimum academic eligibility criteria, as follows: (3-20-14)

i. A student who has not yet graduated from secondary school or its equivalent in the state of Idaho must have an un-weighted minimum cumulative grade point average of three point zero (3.0) or better on a scale of four point zero (4.0) to be eligible to apply for an opportunity scholarship. Home schooled students must provide a transcript of subjects taught and grades received signed by the parent or guardian of the student.; or (3-20-14)

ii. A student who has obtained a general equivalency diploma must have taken the ACT assessment and received a minimum composite score of twenty (20) or better, or the equivalent SAT assessment and received a nine hundred fifty (950) or better, to be academically eligible to apply for an opportunity scholarship.; or (3-20-14)

iii. A student currently enrolled in an eligible Idaho postsecondary educational institution must have a minimum cumulative grade point average of three point zero (3.0) or better on a scale of four point zero (4.0) at such institution in order to be academically eligible to apply for an opportunity scholarship. (3-20-14)

03. **Financial Eligibility.** Applicants for the opportunity scholarship are selected as recipients, in part, on the basis of demonstrated financial need. The tool used to determine financial need will be the Free Application for Federal Student Aid (FAFSA), used by the United States Department of Education. The financial need of an applicant for an opportunity scholarship will be based upon the validated expected family contribution, as identified by the FAFSA Student Aid report. The Student Aid report used to calculate financial need will be the report generated on the March 1 application deadline. (3-20-14)

04. **Additional Eligibility Requirements.** (4-2-08)

a. A student must not be in default on a student educational loan, or owe a repayment on a federal grant, and must be in good financial standing with the opportunity scholarship program. (3-20-14)

b. If a student has attempted or completed more than one hundred (100) postsecondary academic credits, then such student must identify his or her major, the required number of credits necessary for graduation in such major, and shall submit an academic transcript that contains all courses taken and all postsecondary academic credit received to the Board office. A student shall not be eligible for an opportunity scholarship if: (3-20-14)

i. The student is not meeting satisfactory academic progress at the eligible Idaho postsecondary educational institution the student is attending at the time he or she applies for an opportunity scholarship; (4-2-08)

ii. The student has completed more than one hundred fifty percent (150%) of the courses and academic
credit necessary to graduate in such major; or

iii. Upon review of the student's academic transcript(s), the student cannot complete their degree/certificate in the major they have identified within two (2) semesters based on normal academic course load, unless a determination by the Executive Director has been made that there are extenuating circumstances and the student has a plan approved by the Executive Director outline the courses that will be taken and the completion date of the degree/certificate.

(3-20-14)

102. -- 201. (RESERVED)

202. APPLICATION PROCESS.

01. Initial Applications. An eligible student must complete and submit the opportunity scholarship program application to the Board electronically on or before the date specified in the application, but not later than March 1. An applicant without electronic capabilities may submit an application on the form established by the Board through the United States Postal Service, which must be postmarked not later than March 1. All applicants must complete and submit the FAFSA on or prior to March 1 of his last year of secondary school. An applicant without electronic capabilities may submit an application on the form established by the Board, through the United States Postal Service, which must be postmarked by March 1. (3-20-14)

02. Announcement of Award. Announcement of the award of initial scholarships will be made no later than June 1 of each year, with awards to be effective at the beginning of the first full term following July 1 of that year. Announcements must clearly state the award is part of the state’s scholarship program and is funded through state appropriated funds. Additional award announcement may be made after this date based on the availability of funds and the acceptance rate of the initial awards. (3-20-14)

03. Communication with State Officials. Applicants must respond by the date specified to any communication from officials of the opportunity scholarship program. Failure to respond within the time period specified will result in cancellation of the application or forfeiture of the scholarship unless extenuating circumstances are involved and approved by the state board of education executive director or designee. (3-20-14)

203. -- 299. (RESERVED)

300. SELECTION OF SCHOLARSHIP RECIPIENTS.

01. Selection Process. Scholarship awards will be based on the availability of scholarship program funds. In addition, opportunity scholarships will be awarded to applicants, based on ranking and priority, in accordance with the following criteria: (3-20-14)

a. Eligible students shall be selected based on rating criteria that assigns seventy percent (70%) to financial eligibility, and thirty percent (30%) to academic eligibility. In the event that this weighted score results in a tie, an eligible student who submitted his application to the Board earliest in time will be assigned a higher rank. (3-20-14)

b. Notwithstanding Subsection 300.01.a. of these rules, the priority for the selection of recipients of opportunity scholarship awards shall be to scholarship recipients who received a previous opportunity scholarship award, and have continuing eligibility based upon financial need and other criteria provided in these rules. (4-2-08)

02. Monetary Value of the Opportunity Scholarship. (4-2-08)

a. The Board will, by resolution each year, establish the educational costs for attending an eligible Idaho postsecondary educational institution for purposes of the opportunity scholarship program. The educational costs will be established as a not to exceed amount for each eligible Idaho postsecondary educational institution. (3-20-14)
b. The monetary value of the opportunity scholarship award to a student shall be based on the educational costs for attending an eligible Idaho postsecondary educational institution, less the following: (4-2-08)

i. The amount of the assigned student responsibility, established by the Board annually; (4-2-08)

ii. The amount of federal grant aid, as identified by the Student Aid Report (SAR) that is known at the time of award determination; (3-20-14)

iii. The amount of other financial aid awarded the student, from private or other sources that is known at the time of award determination. (3-20-14)

c. The amount of an opportunity scholarship award to an individual student shall not exceed the educational cost established by the Board annually, and shall not exceed the actual cost of tuition at an Idaho public postsecondary educational institution, or if the student attends or will attend an Idaho private postsecondary educational institution, the average tuition at Idaho’s public four (4) year postsecondary educational institutions. (3-20-14)

301. OPPORTUNITY SCHOLARSHIP AWARD.

01. Payment. Payment of opportunity scholarship awards will be made in the name of the recipient and will be sent to a designated official at the eligible Idaho postsecondary educational institution in which the recipient is enrolled. The official must transmit the payment to the recipient within a reasonable time following receipt of the payment. (4-2-08)

02. Duration. Scholarships will be awarded on an annual basis and payments will correspond to academic terms, semesters, quarters, or equivalent units. In no instance will the entire amount of a scholarship be paid in advance to, or on behalf of, a scholarship recipient. The scholarship covers up to four (4) educational years, or eight (8) semesters or equivalent for attendance at an eligible Idaho postsecondary educational institution. Awards are contingent on annual appropriations by the legislature and continued eligibility of the student. (3-20-14)

03. Eligibility. If a student receives an opportunity scholarship payment and it is later determined that the student did not meet all of the Opportunity Scholarship Program eligibility requirements, then the student is considered in overpayment status, and must return program funds in accordance with the eligible Idaho postsecondary educational institution’s refund policy. (4-2-08)

302. CONTINUING ELIGIBILITY.

To remain eligible for renewal of an opportunity scholarship, the recipient must comply with all of the provisions of the Opportunity Scholarship Program and these rules, in addition to the following requirements: (4-2-08)

01. Renewal Application. A scholarship recipient must complete and submit a renewal application in order to be considered for a continuing scholarship for each succeeding year and update and submit the FAFSA on or prior to March 1. (3-20-14)

02. Credit Hours. To remain eligible for renewal of an opportunity scholarship, the scholarship recipient attending a four (4) year eligible postsecondary institution must have completed a minimum of twelve (12) twenty four (24) credit hours or its equivalent each semester academic year that the student received an opportunity scholarship award. A scholarship recipient attending a two (2) year eligible postsecondary institution must have completed a minimum of nine (9) eighteen (18) credit hours or its equivalent each semester academic year that the student received an opportunity scholarship award. (3-20-14)

03. Satisfactory Academic Progress. To remain eligible for renewal of an opportunity scholarship, the scholarship recipient must have maintained a minimum cumulative grade point average of three point zero (3.0) on a scale of four point zero (4.0) during the time that the recipient received an opportunity scholarship award, and must be maintaining satisfactory academic progress, consistent within federal financial regulations as implemented at the eligible Idaho postsecondary educational institution at which the scholarship recipient was enrolled. (3-20-14)
04. **Maximum Duration of Scholarship Award.** The award of an opportunity scholarship shall not exceed the equivalent of eight (8) semesters or the equivalent of four (4) academic years. (3-20-14)

05. **Eligibility Following Interruption of Continuous Enrollment.** A scholarship recipient whose continuous enrollment is interrupted for more than four (4) months but less than two (2) years for any reason but who intends to re-enroll in an eligible Idaho postsecondary educational institution must file a letter of intent to withdraw no later than sixty (60) days prior to the first day of the academic term of the discontinued attendance to the Office of the State Board of Education. Failure to do so may result in forfeiture of the scholarship. The Board’s Executive Director or designee will review each request for interruption and notify the individual of approval or denial of the request. In addition, the individual must file a statement with the Board declaring his intent to re-enroll as a full-time undergraduate student in an academic or professional-technical program in an eligible Idaho postsecondary educational institution for the succeeding academic year no later than thirty (30) days prior to the first day of the academic term in which the individual intends to re-enroll within two (2) years of the approval of the request to withdraw. Failure to do so will result in forfeiture of the scholarship unless an extension has been granted. An extension of interruption of continuous enrollment period may be granted for eligible students due to military service in the United States armed forces, medical circumstances, or other circumstances approved by the state board of education’s executive director. All requests for extension must be made sixty (60) days prior to the start of the succeeding academic year. (3-20-14)

303. -- 399. (RESERVED)

400. **RESPONSIBILITIES OF ELIGIBLE IDAHO POSTSECONDARY EDUCATIONAL INSTITUTIONS.**

01. **Statements of Continuing Eligibility.** An eligible Idaho postsecondary educational institution participating in this Opportunity Scholarship Program must submit statements of continuing student eligibility to the Board by the 30th day after the end of each academic term/year. Such statements must include verification that the scholarship recipient is still enrolled, attending full time, maintaining satisfactory academic progress, and has not exceeded the award eligibility terms. (3-20-14)

02. **Other Requirements.** An eligible Idaho postsecondary educational institution must:

a. Be eligible to participate in Federal Title IV financial aid programs, and must supply documentation to the Board verifying this eligibility, and prompt notification regarding any changes in this status; (4-2-08)

b. Have the necessary administrative computing capability to administer the Opportunity Scholarship Program on its campus, and electronically report student data records to the Board; (4-2-08)

c. Provide data on student enrollment and federal, state, and private financial aid for students to the Board, and (4-2-08)

d. Agree to permit periodic Opportunity Scholarship Program audits to verify compliance with Idaho law and these rules related to the program. (4-2-08)

401. -- 500. (RESERVED)

501. **APPEALS.**

Any opportunity scholarship applicant or recipient adversely affected by a decision made under provisions of these rules may appeal such adverse decision as follows. The opportunity scholarship applicant or recipient must appeal no later than thirty (30) days following notice of the decision, and the written statement must include the basis for the appeal. The appeal must be submitted to the executive director of the Board. The office of the board shall acknowledge receipt of the appeal within seven (7) days. The executive director of the Board may or may not agree to review the action, or may appoint a subcommittee of three (3) persons to hear the appeal, including at least one (1) financial aid administrator at an eligible postsecondary educational institution in Idaho. (3-20-14)
01. **Transmittal to Subcommittee.** If the appeal is transmitted to the subcommittee, the subcommittee will review the appeal and submit a written recommendation to the executive director of the Board within fifteen (15) days from the time the subcommittee receives the appeal document. The opportunity scholarship applicant or recipient initiating the appeal will be notified by the chairperson of the subcommittee of the time and place when the subcommittee will consider the appeal and will be allowed to appear before the subcommittee to discuss the appeal. (3-20-14)

02. **Subcommittee Recommendations.** Following the subcommittee’s decision, the executive director of the Board will present the subcommittee’s recommendation to the full Board at the next regularly scheduled meeting of the Board. The opportunity scholarship applicant or recipient initiating the appeal may, at the discretion of the executive director of the Board, be permitted to make a presentation to the Board. (3-20-14)

03. **Board Decision.** The decision of the Board is final, binding, and ends all administrative remedies, unless otherwise specifically provided by the Board. The Board will inform the opportunity scholarship applicant or recipient in writing of the decision of the Board. (4-2-08)

502. -- 999. (RESERVED)
SUBJECT
Proposed Rule 08.02.01, Rules Governing Administration – Strategic Planning/Continuous Improvement Plans

REFERENCE
June 2014 Board approved Temporary and Proposed Rule Docket 08-0201-1401, Strategic Planning.
November 2014 Board approved pending rule IDAPA 08.02.01.801.

APPLICABLE STATUTE, RULE, OR POLICY
Sections 33-5201 to 5216, Idaho Code

BACKGROUND/DISCUSSION
Idaho Administrative Code, IDAPA 08.02.01.800 establishes the qualification requirements for trainers and the procedures for school districts and charter schools to request reimbursement for qualified training in compliance with Section 33-320, Idaho code. Section 33-320, Idaho Code sets out requirements for each school district to have a strategic plan as well as funding to districts to reimburse them for training in strategic planning, administrator evaluations, school finance, and governance and ethics. During the 2015 legislative session the term strategic planning was changed to continuous improvement planning. The Proposed amendment brings the language used in IDAPA 08.02.01.800 into alignment with the language now used in Section 33-320, Idaho Code.

IMPACT
Approval of the proposed rule will bring the two components of Idaho Code into alignment and avoid any confusing the different terms may cause the school districts and charter schools.

STAFF COMMENTS AND RECOMMENDATIONS
Staff recommends approval.

BOARD ACTION
I move to approve proposed amendments to IDAPA 08.02.01.800 as submitted in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
801. **STRATEGIC CONTINUOUS IMPROVEMENT PLANNING AND TRAINING.**

In accordance with Section 33-320, Idaho Code, every local education agency (LEA) shall develop and maintain a strategic plan that focuses on improving the student performance of the LEA **through the continuous improvement process.** (4-11-15)

01. **Definitions.**

   a. Administrator. As used in this section administrator means the superintendent of the school district or administrator of a charter school. (4-11-15)

   b. Board. Board means the Idaho State Board of Education. (4-11-15)

   c. Executive Director. Executive Director means the Executive Director of the Idaho State Board of Education. (4-11-15)

   d. Local Education Agency Board. As used in this section local education agency or LEA Board means the board of trustees of a school district or board of directors of a charter school. (4-11-15)

   e. Local Education Agency. As used in this section local education agency (LEA) means public school district or charter school. (4-11-15)

   f. **Strategic Continuous Improvement Plan.** As used in this section, a **continuous improvement plan is a strategic plan** that focuses on continuous process improvement and the analysis of data to assess and prioritize needs and measure outcomes. (4-11-15)

02. **Reimbursement Eligibility.** LEA’s may request reimbursement for training conducted pursuant to Section 33-320, Idaho Code. To be eligible for reimbursement the training and trainer must meet the following criteria: (4-11-15)

   a. Training. The training must cover one (1) or more the follow subjects: (4-11-15)

      i. **Strategic Continuous improvement planning training.** Strategic Continuous improvement planning training must include, but is not limited to, training on continuous process improvement, use and analysis of data, and methods for setting measurable targets based on student outcomes; (4-11-15)

      ii. School finance; (4-11-15)

      iii. Administrator evaluations, including, but not limited to, specifics on the Idaho state evaluation requirements and framework; (4-11-15)

      iv. Ethics; or (4-11-15)

      v. Governance. (4-11-15)

   b. Documentation of Training. Training records shall be kept by the LEA showing: (4-11-15)

      i. The length of the training in hours; (4-11-15)

      ii. The subject(s) covered by the training; (4-11-15)

      iii. The participants included in the training or validation of attendance of specific participants as applicable; and (4-11-15)

      iv. The curriculum, agenda, or other documentation detailing the content of the training. (4-11-15)

   c. Training Format. A majority of the LEA board and the administrator must collaborate on the
strategic continuous improvement plan and engage students, parents, educators and the community, as applicable to
the training subject and format. The training facilitator must be physically present or have the ability to interact directly
with all training participants. Sufficient time must be provided during the sessions to give the participants an
opportunity to discuss issues specific to the LEA. (4-11-15)

d. Trainer Qualifications. The trainer must meet the following qualifications: (4-11-15)
   i. May not be a current employee of the LEA; (4-11-15)
   ii. Must have two (2) years of documented training experience in the area of training being provided
       for the LEA; and (4-11-15)
   iii. Must provide at least three (3) recommendations from individuals who participated in past training
       sessions conducted by the trainer. These recommendations must be included with the application to determine
       the trainer’s qualifications. (4-11-15)

e. Qualified Trainers. Trainer qualifications will be determined by the Office of the State Board of
   Education. The State Board of Education will maintain a list of qualified trainers and the subject areas in which they
   are qualified. (4-11-15)

   i. An individual or company may submit an application for consideration to be placed on the list of
      qualified trainers or the LEA may submit the application on behalf of the individual or company. (4-11-15)

   ii. Applications must be submitted to the Executive Director in a format established by the Executive
       Director. (4-11-15)

   iii. Trainer qualifications must be determined prior to the LEA’s request for reimbursement of training costs. (4-11-15)

03. Reimbursement. Up to two thousand dollars ($2,000) per state fiscal year will be reimbursed to the
    LEA for training costs. Reimbursement will be based on actual expenditures related to the training delivered. (4-11-15)

04. Audit. If requested, LEA’s must provide training documentation or other information to verify
    eligibility prior to reimbursement. (4-11-15)

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Administrative code, IDAPA 08.02.02
Section 33-1201, Idaho Code

BACKGROUND/DISCUSSION

Following the completion of the Task Force's initial work, the Career Ladder/Tiered Licensure (Certification) Committee approved a framework for a tiered certification model that was proposed as amendments to the educator credential contained in Administrative Code, IDAPA 08.02.02. In addition to the tiered certification model the proposed rule also contained a number of edits that clean up old language, reorganized sections, and made technical corrections to the alternate routes to certification and the occupational certificates contained in IDAPA 08.02.02. The legislature rejected the pending rule during the 2015 legislative session, incorporating much of the tiered certification framework into HB296 (2015) instead. The overall rejection of the rule was with the understanding that the Board may choose to bring back many of the changes that resulted in cleaning up and reorganizing IDAPA 08.02.02. at a later date.

The proposed changes to IDAPA 08.02.02 would reorganize the entire section so that all the certificates are in one section, all of the endorsements are together, and all of the alternate routes or grouped together. Additional changes would address issues that arose with the alternate routes to certification and have already been approved by the Board as a temporary rule as well as the consolidation of the standard elementary certificate and the standard secondary certificate into a single educator endorsement.

The combination of these two certificates will address an issue that Board staff has recently become aware of and would be a benefit to districts and teachers resulting in the overall simplification Idaho's standard teaching certificates. In meeting with stakeholders to gather input on the proposed changes to IDAPA 08.02.02 it was discovered that there had been a misinterpretation of the grades teachers were eligible to teach if they had either a standard elementary or standard secondary certificate and a subject area endorsement that covered all grades or a range of...
grades that were other than the grades specified by their certificate. Pursuant to Section 33-1201, Idaho Code, persons who are employed to serve as a teacher in any elementary or secondary school must have a certificate authorized by the Board for the services being rendered. The standard elementary certificate only authorizes individuals to teach in grades Kindergarten (K) through eight (8) and the standard secondary certificate authorizes individuals to teach in grades six (6) through twelve (12). The certificate requirements outlined in IDAPA 08.02.02 further require both types of certificate holders to have at least one subject area or specialty area endorsement. Many of the existing endorsements span grades Kindergarten (K) through twelve (12). This allows the state to have a single endorsement that may be attached to both certificates. Some districts have interpreted this to mean that an individual with a standard elementary certificate and an endorsement that spans K through 12 (K-12) may teach grades nine (9) through twelve (12). This is not the case, the applicable certificates clearly state the grades the individual is eligible to teach with the applicable certificate. Moving to a single standard certificate while still requiring at least one (1) endorsement will clear up the issue and provide for greater flexibility to districts when looking for qualified candidates while maintaining the existing certification quality.

IMPACT
Approval of the proposed rule will allow for the rule to go out for public comment. Following the end of the public comment period, the rule will come back to the Board as a Pending rule. The pending rule will be forwarded to the legislature for consideration. Once accepted by the legislature, the new certification language will take effect at the end of the 2016 legislative session.

ATTACHMENTS
Attachment 1 – Proposed Rule IDAPA 08.02.02, Certification

STAFF COMMENTS AND RECOMMENDATIONS
Once approved by the Board, Proposed rules are published in the Administrative Bulletin and have a 21 day comment period prior to coming back to the Board for consideration as a Pending rule. Based on received comments and Board direction, changes may be made to proposed rules prior to entering the pending stage. All Pending rules will be brought back to the Board for approval prior to submittal to the Department of Administration for publication in the Idaho Administrative Rules Bulletin as a pending rule. Pending rules are forwarded to the legislature and become effective at the end of the legislative session in which they are submitted unless rejected by the legislature.

If approved by the Board, Board staff will work with the Department Certification staff to make sure amendments proposed by the Professional Standards Commission, if approved by the Board, will also be incorporated in to the rule as applicable.

Staff recommends approval.
BOARD ACTION

I move to approve the proposed rule amendments to IDAPA 08.02.02 as submitted in attachment 1

Moved by __________ Seconded by __________ Carried Yes _____ No _____
08.02.02 - RULES GOVERNING UNIFORMITY

000. LEGAL AUTHORITY.
All rules in IDAPA 08.02.02, “Rules Governing Uniformity,” are promulgated pursuant to the authority of the State Board of Education under Article IX, Section 2 of the Idaho Constitution and under Sections 33-105, 33-107, 33-116, and 33-1612, Idaho Code. Specific statutory references for particular rules are also noted as additional authority where appropriate. (7-1-02)

001. TITLE AND SCOPE.
01. Title. These rules shall be known as IDAPA 08.02.02, “Rules Governing Uniformity.” (4-5-00)
02. Scope. Uniform standards and governance by the State Board of Education pertinent to Teacher Certification, School Facilities, Accreditation, Transportation, School Release Time, Driver’s Education and Juvenile Detention Centers. (7-1-02)

002. WRITTEN INTERPRETATIONS.
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, any written interpretations of the rules of this chapter are available at the Office of the State Board of Education located at 650 W. State St., Room 307, Boise, Idaho 83702. (7-1-02)

003. ADMINISTRATIVE APPEALS.
Unless otherwise provided for in these rules, administrative appeals are by written application to the State Board of Education pursuant to IDAPA 08.01.01, “Rules of the State Board of Education and Board of Regents of the University of Idaho – Administrative Procedures and Records,” Section 050. (3-14-05)

004. INCORPORATION BY REFERENCE.
The State Board of Education adopts and incorporates by reference into its rules:

005. OFFICE -- OFFICE HOURS -- MAILING AND STREET ADDRESS.
The principal place of business of the State Board of Education (SBOE) and State Department of Education (SDE) is in Boise, Idaho. Both offices are located at 650 W. State, Boise Idaho 83702. The SDE is on the 2nd Floor, the SBOE is found in Room 307. Both offices are open from 8 a.m. to 5 p.m., except Sunday and legal holidays. The mailing address for the SBOE is PO Box 83720, Boise, ID 83720-0037. The mailing address for the SDE is PO Box 83720,
006. PUBLIC RECORDS ACT COMPLIANCE.
This rule has been promulgated in accordance with the Administrative Procedures Act, Title 67, Chapter 52, Idaho Code, and is a public record.

007. DEFINITIONS.

01. Active Teacher. K-12 teacher with a valid Idaho certificate who is currently teaching in an Idaho K-12 classroom/school.

02. Alternative Routes. Routes to teacher certification designed for candidates who want to enter the teaching profession from non-education professions or the para-educator profession, or for teachers lacking certification in a specific area defined as an emergency district need.

03. Credential. The general term used to denote the document on which all of a person’s educational certificates and endorsements are listed. The holder is entitled to provide educational services in any and/or all areas listed on the credential.

04. Endorsement. Term used to refer to the content area or specific area of expertise in which a holder is granted permission to provide services.

05. Idaho Student Achievement Standards. Standards of achievement for Idaho’s K-12 students. See IDAPA 08.02.03, “Rules Governing Thoroughness.”

06. Individualized Professional Learning Plan. An individualized plan based on the Idaho framework for teacher as outlined in subsection 120 of these rules to include interventions based on the individual’s strengths and areas of needed growth.

07. Institutional Recommendation. Signed form or written verification from an accredited institution with an approved teacher preparation program stating that an individual has completed the program, received a basic or higher rating in all twenty-two (22) components of the Idaho framework for teaching evaluation, has and individualized professional learning plan, has demonstrated measurable student achievement and the ability to create student learning objectives, and is now being recommended for state certification.

08. Local Education Agency (LEA). An Idaho public school district or charter school pursuant to Section 33-5203(7), Idaho Code.

09. Orientation. School district/school process used to acquaint teachers new to district/school on its policies, procedures and processes.

10. Para-Educator. Aides and assistants employed by school districts to supplement instruction and provide additional assistance to students.

11. Student Learning Objective (SLO). A measurable, long-term academic growth target that a teacher sets at the beginning of the year for all student or for subgroups of students. SLOs demonstrate a teachers’ impact on student learning within a given interval of instruction based upon baseline data gathered at the beginning of the course.

12. Teacher Leader. A master teacher who facilitates the design and implementation of sustained, intensive, and job-embedded professional learning based on identified student and teacher needs.
012. **ACREDITED INSTITUTION.**
For purposes of teacher certification, an accredited school, college, university, or other teacher training institution is considered by the Idaho State Board of Education to be one that is accredited by a regional accrediting association recognized by the State Board of Education or an alternative model approved by the State Board of Education. (Sections 33-107; 33-114; 33-1203, Idaho Code) (4-1-97)

013. **CERTIFICATION OF TEACHERS TRAINED IN FOREIGN INSTITUTIONS.**
Considering credentials for teacher certification submitted by persons trained in the institutions of foreign countries will be initiated by a translation and evaluation of the applicant’s credentials. (4-1-97)

01. **Determination of Eligibility.** Determination of eligibility for certification will be made by the State Department of Education as the agent of the State Board of Education. Appeals may be made to the Professional Standards Commission, (PSC). (Section 33-1209, Idaho Code) (3-16-04)

02. **Other Procedures.** All other procedures in effect at the time must be followed at the time of application. (4-1-97)

014. **CERTIFICATES ISSUED TO APPLICANTS FROM REGIONALLY ACCREDITED INSTITUTIONS.**

01. **The Department of Education.** The department of education is authorized to issue Idaho Certificates to applicants from regionally accredited institutions meeting requirements for certification or equivalent (i.e., those based on a bachelor’s degree) in other states when they substantially meet the requirements for the Idaho Certificate. (Sections 33-1203; 33-2203 Idaho Code) (3-16-04)

02. **The State Division of Professional-Technical Education.** The state division of professional-technical education is authorized to determine whether applicants meet the requirements for instructing or administering professional-technical programs at the secondary and postsecondary levels. (Section 33-2203, Idaho Code) (3-16-04)

015. **IDAHO INTERIM CERTIFICATE.**

01. **Issuance of Interim Certificate.** The State Department of Education is authorized to issue a three-year (3) interim certificate to those applicants who hold a valid certificate/license from another state or other entity that participates in the National Association of State Directors of Teacher Education and Certification (NASDTEC) Interstate Agreement. An interim certificate is nonrenewable except under extenuating circumstances. (4-2-08)

a. **Idaho Comprehensive Literacy Course.** For all Idaho teachers working on interim certificates, alternate routes or coming from out of the state, completion of a state approved reading instruction course shall be a one-time requirement for full certification. (4-7-11)

b. **Technology.** Out-of-state applicants will be reviewed by the hiring district for technology deficiencies and may be required to take technology courses to improve their technology skills. (4-7-11)

02. **Reinstatement of Expired Certificate.** An individual holding an expired Idaho certificate may be issued a nonrenewable three-year interim certificate. During the validity period of the interim certificate, the applicant must meet all current requirements listed for the specific certificate and endorsement(s) including the appropriate content, pedagogy, and performance assessments. (3-29-12)

03. **Foreign Institutions.** An educator having graduated from a foreign institution that is listed in the Accredited Degree-Granting Institutions section of the “Accredited Institutions of Postsecondary Education” and having a valid current teaching certificate/license from the country or province in which the foreign institution is located, may be issued a non-renewable, three-year interim certificate. The applicant must also complete the requirements listed in Section 013 of these rules. (4-2-08)
016015. IDAHO EDUCATOR CREDENTIAL.
The State Board of Education authorizes the State Department of Education to issue certificates and endorsements to those individuals meeting the specific requirements for each area provided herein. *(Section 33-1201, Idaho Code)*

01. Renewal Requirement - Mathematics In-Service Program. In order to recertify, the state approved mathematics instruction course titled “Mathematical Thinking for Instruction”, or another State Department of Education approved alternative course, shall be required. The “Mathematical Thinking for Instruction” course consists of three (3) credits (or forty-five (45) contact hours of in-service training). Teachers and administrators shall take one (1) of the three (3) courses developed that each teacher deems to be most closely aligned with their current assignment prior to September 1, 2014. Any teacher or administrator successfully completing said course shall be deemed to have met the requirement of Subsection 060.02.c of this rule, regardless of whether such course is part of any official transcript. Successful completion of state approved mathematics instruction course shall be a one-time requirement for renewal of certification for those currently employed in an Idaho school district and shall be included within current requirements for continuing education for renewal. The following individuals listed in Subsection 016.01.a through 016.01.e shall successfully complete the “Mathematical Thinking for Instruction” course in order to recertify:

a. Each teacher holding an Early Childhood/Early Childhood Special Education Blended Certificate (Birth - Grade 3) who is employed in an elementary classroom (multi-subject classroom, K-8); *(3-29-10)*

b. Each teacher holding a Standard Elementary Certificate (K-8) who is employed in an elementary classroom (multi-subject classroom K-8); *(3-20-14)*

c. Each teacher holding a Standard Secondary Certificate (6-12) teaching in a math content classroom (grade six (6) through grade twelve (12)) including Title I who is employed in an elementary classroom (multi-subject classroom K-8); *(2-20-14)*

d. Each teacher holding a Standard Exceptional Child Certificate (K-12) who is employed in an elementary classroom (multi-subject classroom K-8) and

  e. Each school administrator holding an Administrator Certificate (Pre K-12) who is employed in an elementary classroom (multi-subject classroom K-8), including all school district and charter administrators. *(3-20-14)*

02. Out-of-State Applicants - Mathematical Thinking for Instruction. *(4-4-13)*

a. Out-of-state applicants shall take the state approved mathematics instruction course titled “Mathematical Thinking for Instruction” as a certification requirement. The “Mathematical Thinking for Instruction” course consists of three (3) credits (or forty-five (45) contact hours of in-service training). *(3-29-10)*

b. Those individuals who qualify for an Idaho certificate through state reciprocity shall be granted a three-year, non-renewable, interim certificate to allow time to meet the Idaho Mathematics In-service program requirement. *(4-4-13)*

03. Waiver of Mathematics In-Service Program. When applying for certificate renewal, an automatic waiver of the mathematics in-service program requirement shall be granted for any certificated individual living outside of the state of Idaho who is not currently employed as an educator in the state of Idaho. This waiver applies only as long as the individual remains outside the state of Idaho or as long as the individual is not employed as an educator in the state of Idaho. Upon returning to Idaho or employment in an Idaho public school, the educator will need to complete this requirement prior to the next renewal period. *(3-20-14)*

04. Renewal Requirement - Idaho Comprehensive Literacy Course. In order to recertify, a state approved Idaho Comprehensive Literacy Course shall be required. Successful completion of a state approved Idaho
Comprehensive Literacy course shall be a one-time requirement for renewal of certification for those currently employed in an Idaho school district and shall be included within current requirements for continuing education for renewal. The following individuals listed in Subsection 016.04.a. through 016.04.c. shall successfully complete an Idaho Comprehensive Literacy course in order to recertify: (4.4.13)

a. Each teacher holding an Early Childhood/Early Childhood Special Education Blended Certificate (Birth - Grade 3) who is employed in an elementary classroom (multi-subject classroom, K-8); (4.4.13)

b. Each teacher holding a Standard Elementary Certificate (K-8) who is employed in an elementary classroom (K-8); and (3.20.14)

c. Each teacher holding a Standard Exceptional Child Certificate (K-12) who is employed in a K-12 classroom. (3.20.14)

05. Out-of-State Applicants - Idaho Comprehensive Literacy Course (3.20.14)

a. Out-of-state applicants shall take a state approved Idaho Comprehensive Literacy Course as a certification requirement. (3.20.14)

b. Those individuals who qualify for an Idaho certificate through state reciprocity shall be granted a three-year, non-renewable, interim certificate to allow time to meet the Idaho Comprehensive Literacy Course requirement. (3.20.14)

017. CONTENT, PEDAGOGY AND PERFORMANCE ASSESSMENT FOR CERTIFICATION.

01. Assessments: State Board of Education approved content, pedagogy and performance area assessments shall be used in the state of Idaho to ensure qualified teachers are employed in Idaho’s classrooms. The Professional Standards Commission shall recommend assessments and qualifying scores to the State Board of Education for approval. (4.2.08)

02. Out-of-State Waivers: An out-of-state applicant for Idaho certification holding a current certificate may request a waiver from the above requirement. The applicant shall provide evidence of passing a state approved content, pedagogy and performance area assessment(s) or hold current National Board for Professional Standards Teaching Certificate. (4.2.08)

03. Idaho Comprehensive Literacy Assessment: All applicants for initial Idaho certification (Kindergarten through grade twelve (12)) from an Idaho approved teacher education program must demonstrate competency in comprehensive literacy. Areas to be included as part of the assessment are phonological awareness, phonics, fluency, vocabulary, comprehension, writing, and assessments and intervention strategies. Each Idaho public higher education institution shall be responsible for the assessment of teacher candidates in its teacher preparation program. The assessment must measure teaching skills and knowledge congruent with current research on best literacy practices for elementary students or secondary students (adolescent literacy) dependent upon level of certification and English Language Learners. In addition the assessment must measure understanding and the ability to apply strategies and beliefs about language, literacy instruction, and assessments based on current research and best practices congruent with International Reading Association/National Council of Teachers of English standards, National English Language Learner’s Association professional teaching standards, National Council for Accreditation of Teacher Education standards, and state accreditation standards. (4.7.11)

04. Technology Assessment: All applicants for initial Idaho certification (Kindergarten through grade twelve (12)) from an Idaho approved teacher education program must demonstrate proficiency in relevant technology skills and practices to enhance classroom management and instruction. Each Idaho public higher education institution shall be responsible for the assessment of teacher candidates in its teacher preparation program. The assessment must measure understanding and the ability to apply strategies and beliefs about the integration of technology based on current research and best practices congruent with the International Society for Technology in Education professional teaching standards, the National Council for Accreditation of Teacher Education standards, and state accreditation standards. (4.7.11)
018.01 STANDARD ELEMENTARY TEACHING CERTIFICATE.  
A Standard Elementary Teaching Certificate makes an individual eligible to teach grades Kindergarten (K) through eight (8), twelve (12), subject to the grade ranges of the valid endorsements attached to the certificate. A standard teaching certificate may be issued to any person who has a bachelor’s degree from an accredited college or university and who meets the following requirements:

01a. General Education Requirements—Completion of the general education requirements at an accredited college or university is required.  
(3-30-07)

02b. Meets the following Professional Education requirements:

ai. A minimum of twenty-four (24) semester credit hours, or thirty-six (36) quarter credit hours, in the philosophical, psychological, and methodological foundations, instructional technology, and in the professional subject matter of elementary or secondary education, which shall include at least six (6) semester credit hours, or nine (9) quarter credit hours, in developmental reading and its application to the content area.  
(3-16-04)

bi. The required minimum credit hours must include at least six (6) semester credit hours, or nine (9) quarter credit hours, of elementary student teaching or two (2) years of satisfactory experience as a teacher in grades K-8.  
(3-16-04)

03c. Additional Requirements—An institutional recommendation from an accredited college or university or verification of two (2) years of teaching experience in grades Kindergarten (K) through twelve (12).  
(3-16-04)

03d. Teaching Field Requirements—Preparation in at least two (2) fields of secondary teaching: a first teaching field of at least thirty (30) semester credit hours, or forty-five (45) quarter credit hours, and a second teaching field of at least twenty (20) semester credit hours, or thirty (30) quarter credit hours. Preparation of not less than forty-five (45) semester credit hours, or sixty-seven (67) quarter credit hours, in a single subject area may be used in lieu of the first teaching field or second teaching field requirements.  
(3-30-07)

04d. Area of Endorsement—All individuals, who begin an Idaho approved preparation program after July 1, 2013, seeking a Standard Elementary Certificate shall complete the requirements for a subject area endorsement as outlined under requirements for a Standard Secondary Certificate. An endorsement allowing teaching of that subject through grade nine (9) or a K-12 endorsement shall be added to the Standard Elementary Certificate.  
(3-12-14)

05c. Proficiency—Proficiency in areas noted above is measured by completion of the credit hour requirements provided herein. Additionally, each candidate shall meet or exceed the state qualifying score on approved elementary or secondary content area and pedagogy assessments.  
(3-16-04)

049.02 Early Childhood / Early Childhood Special Education Blended Certificate.  
An Early Childhood / Early Childhood Special Education Blended Certificate is non-categorical and makes an individual eligible to teach in any educational setting for youth from birth to grade three (3), including those who are at-risk or have developmental delays. The Early Childhood / Early Childhood Special Education Blended Certificate may be issued to any person with a bachelor’s degree from an accredited college or university and who meets the following minimum requirements:

01a. General Education Requirements—Completion of the general education requirements at an accredited college or university is required.  
(3-30-07)

02b. Meets the following Professional Education requirements:

ai. A minimum of thirty (30) semester credit hours, or forty-five (45) quarter credit hours, in the philosophical, psychological, and methodological foundations, in instructional technology, and in the professional subject matter of early childhood and early childhood-special education. The professional subject matter of early
childhood and early childhood-special education shall include course work specific to the young child from birth through grade three (3) in the areas of child development and learning; curriculum development and implementation; family and community relationships; assessment and evaluation; professionalism; and, application of technologies.

(3-16-04)

bii. The required thirty (30) semester credit hours, or forty-five (45) quarter credit hours, shall include not less than six (6) semester credit hours, or nine (9) quarter credit hours, of early childhood student teaching and three (3) semester credit hours, or four (4) quarter credit hours, of developmental reading.

(3-16-04)

03c. Additional Requirements—An institutional recommendation from an accredited college or university, and passage of the Idaho Comprehensive Literacy Exam.

(3-16-04)

04d. Proficiency—Proficiency in areas noted above is measured by completion of the credit hour requirements provided herein. Additionally, each candidate shall meet or exceed the state qualifying score on approved early-childhood assessments.

020. STANDARD SECONDARY CERTIFICATE.
A Standard Secondary Certificate makes an individual eligible to teach in grades six (6) through twelve (12). A Secondary Certificate may be issued to any person with a bachelor’s degree from an accredited college or university and who meets the following minimum requirements:

01. General Education Requirements. Completion of the general education requirements at an accredited college or university is required.

(3-30-07)

02. Professional Education Requirements.

(3-30-07)
a. A minimum of twenty (20) semester credit hours, or thirty (30) quarter credit hours, in the philosophical, psychological, and methodological foundations, instructional technology, and in the professional subject matter of secondary education, which must include at least three (3) semester credit hours, or four (4) quarter credit hours, of reading in the content area.

(3-16-04)
b. The required twenty (20) semester credit hours, or thirty (30) quarter credit hours, must also include at least six (6) semester credit hours, or nine (9) quarter credit hours, of secondary student teaching or two (2) years of satisfactory experience as a teacher in grades six (6) through twelve (12).

(3-16-04)

03. Teaching Field Requirements. Preparation in at least two (2) fields of secondary teaching; a first teaching field of at least thirty (30) semester credit hours, or forty-five (45) quarter credit hours, and a second teaching field of at least twenty (20) semester credit hours, or thirty (30) quarter credit hours. Preparation of not less than forty-five (45) semester credit hours, or sixty-seven (67) quarter credit hours, in a single subject area may be used in lieu of the first teaching field or second teaching field requirements.

(3-30-07)

04. Additional Requirements. An institutional recommendation from an accredited college or university or verification of two (2) years of teaching experience in grades six (6) through twelve (12).

(3-16-04)

05. Proficiency. Proficiency in areas noted above is measured by completion of the credit hour requirements provided herein. Additionally, each candidate must have a qualifying score on an approved content area assessment in any area(s) for which the certificate or endorsement(s) will be applied.

(3-16-04)

0283. Exceptional Child Certificate.
Holders of this certificate are authorized to work with children who have been identified as having an educational impairment.

(3-16-04)

01a. General Education Requirements. Education Requirements. Completion of the general education requirements at an accredited college or university is required and six (6) or more semester credit hours, or nine (9) or more quarter credit hours of student teaching in a special education setting.

(3-30-07)
02b. Exceptional Child Generalist Endorsement (K-12). The Exceptional Child Generalist K-12 endorsement is non-categorical and allows one (1) to teach in any K-12 special education setting. This endorsement is valid for five (5) years. Six (6) credit hours are required every five (5) years for renewal. Regardless of prior special education experience, all initial applicants must provide an institutional recommendation that an approved special education program has been completed, with field work to include an internship and student teaching in an elementary or secondary special education setting. To be eligible for an Exceptional Child Certificate with a Generalist K-12 endorsement, a candidate must have satisfied the following requirements: (4-4-13)

ai. Completion of a baccalaureate degree from an accredited college or university. (3-16-04)

bii. Completion in an Idaho college or university, of a program in elementary, secondary, or special education currently approved by the Idaho State Board of Education, or completion, in an out-of-state college or university, of a program in elementary, secondary, or special education currently approved by the state educational agency of the state in which the program was completed. (3-16-04)

ciii. Completion of thirty (30) semester credit hours in special education, or closely related areas, as part of an approved special education program. (3-16-04)

div. Each candidate must have a qualifying score on an approved core content assessment and a second assessment related to the specific endorsement requested. (3-16-04)

03. Early Childhood Special Education Endorsement (Pre-K-3). The Early Childhood Special Education (Pre-K-3) endorsement is non-categorical and allows one to teach in any Pre-K-3 special education setting. This endorsement may only be added to the Standard Exceptional Child Certificate in conjunction with the Generalist K-12 endorsement and is valid for five (5) years. Six (6) credit hours are required every five (5) years for renewal. To be eligible for an Exceptional Child Certificate with an Early Childhood Special Education (Pre-K-3) endorsement, a candidate must have satisfied the following requirements: (4-7-11)

ai. Completion of a program of a minimum of twenty (20) semester credit hours in the area of Early Childhood Education to include course work in each of the following areas: Child development and behavior with emphasis in cognitive-language, physical, social and emotional areas, birth through age eight (8); Curriculum and program development for young children ages three to eight (3-8); Methodology: planning, implementing and evaluating environments and materials for young children ages three to eight (3-8); Guiding young children's behavior: observing, assessing and individualizing ages three to eight (3-8); Identifying and working with atypical young children ages three to eight (3-8) Parent-teacher relations; and, Field work to include an internship and student teaching at the Pre-K - 3 grades. (4-7-11)

04. Deaf/Hard of Hearing Endorsement (K-12). Completion of a minimum of thirty-three (33) semester credit hours in the area of deaf/hard of hearing with an emphasis on instruction for students who use sign language or completion of a minimum thirty-three (33) semester credit hours in the area of deaf/hard of hearing with an emphasis on instruction for students who use listening and spoken language. An institutional recommendation specific to this endorsement is required. To be eligible for an Exceptional Child Certificate with a Deaf/Hard of Hearing endorsement, a candidate must have satisfied the following requirements: (4-11-15)

ai. Completion of a baccalaureate degree from an accredited college or university; (4-11-06)

bii. Completion of a program from an Idaho college or university in elementary, secondary, or special education currently approved by the Idaho State Board of Education; or (4-11-06)

ciii. Completion of a program from an out-of-state college or university in elementary, secondary, or special education currently approved by the state educational agency of the state in which the program was completed; (4-11-06)

div. Completion of a program of a minimum of thirty-three (33) semester credit hours in the area of Deaf/Hard of Hearing. Must receive an institutional recommendation specific to this endorsement from an accredited
college or university. (4-11-15)

Visual Impairment Endorsement (K-12). Completion of a program of a minimum of thirty (30) semester credit hours in the area of visual impairment. An institutional recommendation specific to this endorsement is required. To be eligible for an Exceptional Child Certificate with a Visually Impaired endorsement, a candidate must have satisfied the following requirements: (4-11-06)

ai. Completion of a baccalaureate degree from an accredited college or university; (4-11-06)

bii. Completion in an Idaho college or university of a program in elementary, secondary, or special education currently approved by the Idaho State Board of Education, or completion in an out-of-state college or university of a program in elementary, secondary, or special education currently approved by the state educational agency of the state in which the program was completed. (4-11-15)

ciii. Completion of a program of a minimum of thirty (30) semester credit hours in the area of Visual Impairment. Must receive an institutional recommendation specific to this endorsement from an accredited college or university. (4-11-06)

div. Each candidate must have a qualifying score on an approved core content assessment and a second assessment related to the specific endorsement requested. (4-11-15)

02704. Pupil Personnel Services Certificate

Persons who serve as school counselors, school psychologists, speech-language pathologists, school social workers, school nurses and school audiologists are required to hold the Pupil Personnel Services Certificate, with the respective endorsement(s) for which they qualify. (3-16-04)

Counselor Endorsement (K-12). To be eligible for a Pupil Personnel Services Certificate endorsed Counselor K-12, a candidate must have satisfied the following requirements. The Pupil Personnel Services Certificate with a Counselor endorsement is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the endorsement. (5-8-09)

ai. Hold a master's degree and provide verification of completion of an approved program of graduate study in school counseling from a college or university approved by the Idaho State Board of Education or the state educational agency of the state in which the program was completed. The program must include successful completion of seven hundred (700) clock hours of supervised field experience, seventy-five percent (75%) of which must be in a K-12 school setting. This K-12 experience must be in each of the following levels: elementary, middle/junior high, and high school. Previous school counseling experience may be considered to help offset the field experience clock hour requirement. (4-11-15)

bii. An institutional recommendation is required for a Counselor K-12 Endorsement. (5-8-09)

School Psychologist Endorsement. This endorsement is valid for five (5) years. In order to renew the endorsement, six (6) professional development credits are required every five (5) years. The renewal credit requirement may be waived if the applicant holds a current valid National Certification for School Psychologists (NCSP) offered through the National Association of School Psychologists (NASP). To be eligible for initial endorsement, a candidate must complete a minimum of sixty (60) graduate semester credit hours which must be accomplished through one (1) of the following options: (3-29-12)

ai. Completion of an approved thirty (30) semester credit hour, or forty-five (45) quarter credit hours, master's degree in education or psychology and completion of an approved thirty (30) semester credit hour, or forty-five (45) quarter credit hour, School Psychology Specialist Degree program, and completion of a minimum of twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist. (4-7-11)

bii. Completion of an approved sixty (60) semester credit hour, or ninety (90) quarter credit hour,
master's degree program in School Psychology, and completion of a minimum of twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist. (4-7-11)

eiii. Completion of an approved sixty (60) semester credit hour, or ninety (90) quarter credit hour, School Psychology Specialist degree program which did not require a master's degree as a prerequisite, with laboratory experience in a classroom, which may include professional teaching experience, student teaching or special education practicum, and completion of a minimum twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist. (4-7-11)

ciii. Completion of an approved sixty (60) semester credit hour, or ninety (90) quarter credit hour, School Psychology Specialist degree program which did not require a master's degree as a prerequisite, with laboratory experience in a classroom, which may include professional teaching experience, student teaching or special education practicum, and completion of a minimum twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist. (5-8-09)

div. Earn a current and valid National Certification for School Psychologists (NCSP) issued by the National Association of School Psychologists (NASP). (3-29-12)

03c. School Nurse Endorsement. This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. Initial endorsement may be accomplished through completion of either requirements in Subsections 027.03.015.04.ac.i. or 027.03.015.04.c.ii in addition to the requirement of Subsection 027.03.015.04.c.iii. (3-29-10)

ai. The candidate must possess a valid nursing (RN) license issued by the Idaho State Board of Nursing, and a bachelor’s degree in nursing, education, or a health-related field from an accredited institution. (5-8-09)

bii. The candidate must possess a valid professional nursing (RN) license issued by the Idaho State Board of Nursing and have completed nine (9) semester credit hours from a university or college in at least three (3) of the following areas: (5-8-09)

i.(1) Health program management; (5-8-09)

ii.(2) Child and adolescent health issues; (5-8-09)

iii.(3) Counseling, psychology, or social work; or (5-8-09)

iv.(4) Methods of instruction. (5-8-09)

e-iii. Additionally, each candidate must have two (2) years’ full-time (or part-time equivalent) school nursing, community health nursing, or any area of pediatric, adolescent, or family nursing experience. (5-8-09)

04d. Interim Endorsement - School Nurse. This certificate will be granted for those who do not meet the educational and/or experience requirements but who hold a valid professional nursing (RN) license in Idaho. An Interim Certificate - will be issued for three (3) years while the applicant is meeting the educational requirements, and it is not renewable. (3-29-10)

05c. Speech-Language Pathologist Endorsement. This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. Initial endorsement will be issued to candidates who possess a master’s degree from an accredited college or university in a speech/language pathology program approved by the State Board of Education, and who receive an institutional recommendation from an accredited college or university. (3-16-04)

06f. Audiology Endorsement. This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. Initial endorsement will be issued to candidates who possess a master’s degree from an accredited college or university in an audiology program approved by the State Board of Education, and who receive an institutional recommendation from an accredited college or university. (3-16-04)

07c. School Social Worker Endorsement. This endorsement is valid for five (5) years. Six (6) credit hours are required every five (5) years in order to renew the endorsement. Initial endorsement may be accomplished through
possession of a social work certificate issued by the Idaho Bureau of Occupational Licenses, an institutional recommendation, and completion of one (1) of the following options: (3-16-04)

ai. A master’s degree in social work from an Idaho college or university approved by the State Board of Education, or a master’s degree in social work from an out-of-state college or university. The program must be currently approved by the state educational agency of the state in which the program was completed. (3-16-04)

bii. A master’s degree in guidance and counseling, sociology, or psychology plus thirty (30) semester credit hours of graduate work in social work education, including course work in all the following areas: understanding the individual; casework method; field placement; social welfare programs and community resources; and research methods. (3-16-04)

08. Interim Endorsement—Speech Language Pathologist. This certificate will be granted for those who do not meet the educational requirements but who hold a bachelor’s degree in speech language pathology and are pursuing a master’s degree in order to obtain the pupil personnel services certificate endorsed in speech language pathology. An interim certificate will be issued for three (3) years while the applicant is meeting the educational requirements, and it is not renewable. (3-29-10)

0265. Administrator Certificate. Every person who serves as a superintendent, a secondary school principal, or principal of an elementary school with eight (8) or more teachers (including the principal), or is assigned administrative duties over and above those commonly assigned to teachers, is required to hold an Administrator Certificate. The certificate may be endorsed for service as a school principal, a superintendent, or a director of special education and related services. Assistant superintendents are required to hold the Superintendent endorsement. Assistant principals or vice-principals are required to hold the Principal endorsement. Applicants for the Director of Special Education and Related Services endorsement will hold that endorsement on an Administrator Certificate. Proof of proficiency in evaluating teacher performance shall be required of all Administrator Certificate holders. Proof of proficiency in evaluating performance shall be demonstrated by passing a proficiency assessment approved by the State Department of Education as an initial certification requirement. Possession of an Administrator Certificate does not entitle the holder to serve as a teacher at a grade level for which the educator is not qualified or certificated. All administrator certificates require candidates to meet the following competencies of the Idaho Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership. (3-12-14)

04a. School Principal Endorsement (Pre-K-12). To be eligible for an Administrator Certificate endorsed for School Principal Pre-K-12, a candidate must have satisfied the following requirements: (3-16-04)

ai. Hold a master’s degree from an accredited college or university. (3-16-04)

bii. Have four (4) years of full-time certificated experience working with students, Pre-K-12, while under contract in an accredited school setting. (3-30-07)

ciii. Have completed an administrative internship in a state-approved program, or have one (1) year of experience as an administrator in grades Pre-K-12. (3-30-07)

div. Provide verification of completion of a state-approved program of at least thirty (30) semester credit hours, forty-five (45) quarter credit hours, of graduate study in school administration for the preparation of school principals at an accredited college or university. This program shall include the competencies of the Idaho Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership. (3-12-14)

ev. An institutional recommendation is required for a School Principal Pre-K-12 Endorsement. (3-16-04)

02b. Superintendent Endorsement. To be eligible for an Administrator Certificate with a Superintendent endorsement, a candidate must have satisfied the following requirements: (3-16-04)
ai. Hold an education specialist or doctorate degree or complete a comparable post-master’s sixth year program at an accredited college or university. (3-16-04)

bii. Have four (4) years of full-time certificated/licensed experience working with Pre-K-12 students while under contract in an accredited school setting. (3-30-07)

ciii. Have completed an administrative internship in a state-approved program for the superintendent endorsement or have one (1) year of out-of-state experience as an assistant superintendent or superintendent in grades Pre-K-12. (3-30-07)

div. Provide verification of completion of an approved program of at least thirty (30) semester credit hours, or forty-five (45) quarter credit hours, of post-master’s degree graduate study for the preparation of school superintendents at an accredited college or university. This program in school administration and interdisciplinary supporting areas shall include the competencies in Superintendent Leadership, in addition to the competencies in the Idaho Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership. (3-12-14)

ev. An institutional recommendation is required for a School Superintendent Endorsement. (3-16-04)

c. Director of Special Education and Related Services Endorsement (Pre-K-12). To be eligible for an Administrator Certificate endorsed for Director of Special Education and Related Services Pre-K-12, a candidate must have satisfied all of the following requirements: (3-16-04)

ai. Hold a master’s degree from an accredited college or university. (3-16-04)

bii. Have four (4) years of full-time certificated/licensed experience working with students Pre-K-12, while under contract in a school setting. (3-16-04)

ciii. Obtain college or university verification of demonstrated the competencies of the Idaho Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership. (3-12-14)

div. Obtain college or university verification of demonstrated competencies in the following areas, in addition to the competencies in the Idaho Foundation Standards for School Administrators: Concepts of Least Restrictive Environment; Post-School Outcomes and Services for Students with Disabilities Ages Three (3) to Twenty-one (21); Collaboration Skills for General Education Intervention; Instructional and Behavioral Strategies; Individual Education Programs (IEPs); Assistive and Adaptive Technology; Community-Based Instruction and Experiences; Data Analysis for Instructional Needs and Professional Training; Strategies to Increase Program Accessibility; Federal and State Laws and Regulations and School District Policies; Resource Advocacy; and Technology Skills for Referral Processes, and Record Keeping. (3-30-07)

ev. Have completed an administrative internship/practicum in the area of administration of special education and related services. (3-16-04)

fv. An institutional recommendation is required for Director of Special Education and Related Services Pre-K-12 Endorsement. (3-16-04)

03406. Certification Standards For Professional-Technical Educators.

Teachers of professional-technical classes or programs in secondary or postsecondary schools must hold an endorsement in an appropriate occupational discipline. This endorsement may be held on a Secondary Standard Teaching Certificate or on an Occupational Specialist Certificate. For postsecondary instructors and administrators, certification fees are set by the State Board for Professional-Technical Education, and application processes are managed by the Division of Professional-Technical Education. (3-16-04)

03507. Degree Based Professional-Technical Certification
01a. **Teacher Preparation Through Degreed Program**—Individuals graduating from an approved occupational teacher preparation degree program qualify to teach in the following five (5) disciplines: Agricultural Science and Technology; Business Technology Education; Family and Consumer Sciences; Marketing Technology Education; and Technology Education. Occupational teacher preparation course work must meet the Idaho Standards for the Initial Certification of Professional School Personnel. The occupational teacher education program must provide appropriate content to constitute a major in the identified field. Student teaching shall be in an approved program and include experiences in the major field. Applicants shall have accumulated four-thousand (4,000) clock hours of related work experience or shall have completed an approved practicum in their respective field of specialization. (3-16-04)

02b. **Professional-Technical Administrator Certificate**—The Professional-Technical Administrator certificate is required for an individual serving as an administrator, director, manager or coordinator of professional-technical education at the state, secondary or postsecondary level. Individuals must meet the following prerequisites to qualify for the Professional-Technical Administrator Certificate. Equivalence in each area will be determined on an individual basis by the State Division of Professional-Technical Education. (3-16-04)

ai. Qualify for or hold an Occupational Specialist certificate or hold an occupational endorsement on the secondary a standard teaching credential; (3-16-04)

bii. Provide evidence of a minimum of three (3) years’ teaching in an occupational discipline; (3-16-04)

ciii. Hold a masters degree; and, (3-16-04)

div. Completed at least fifteen (15) semester credits of administrative course work. Applicants must have completed: financial aspects of professional-technical education; administration of personnel; and legal aspects of professional-technical education. Additional course work can be selected from any of the following areas: administration and supervision of occupational programs; instructional supervision; administration internship; curriculum development; curriculum evaluation; research in curriculum; school community relations; communication; teaching the adult learner; coordination of work-based learning programs; and/or measurement and evaluation. (3-16-04)

ev. To renew the Professional-Technical Administrator Certificate, individuals are required to complete six (6) semester hours of related course work or meet renewal requirements for professional-technical teachers. (3-16-04)

03c. **Work-Based Learning Coordinator Endorsement**. Educators assigned to coordinate approved work-based experiences must hold the Work-Based Learning Coordinator endorsement. To be eligible, applicants must hold an occupational endorsement on the Standard Secondary Certificate or qualify for an Occupational Specialist Certificate, plus complete course work in coordination of work-based learning programs. (3-16-04)

04d. **Career Counselor Endorsement**. The endorsement for a Career Counselor may be issued to applicants who hold a current Pupil Personnel Services Certificate endorsed Counselor K-12 and who have satisfied the following professional technical requirement: Career Pathways and Professional Technical Guidance; Principles/Foundations of Professional-Technical Education; and Theories of Occupational Choice. (3-16-04)

03608. **Industry Based Professional-Technical Certification.Occupational Specialist Certificate.** The Occupational Specialist Certificate is an industry based professional-technical certifications. Persons who need to hold the Occupational Specialist Certificate include: secondary educators assigned to Health Occupations Professions Education and to Trades & Industry Education Technical Sciences; those in specialized occupational areas where specific degree-granting professional technical teacher education programs do not exist; and postsecondary professional-technical educators who teach courses with nice (9) - to twelve (12) students per class. (3-16-04)

01a. **General Requirements**. Applicants must: be eighteen (18) years of age; document full-time, successful, recent, gainful employment in the area for which certification is requested; possess either a high school
diploma or General Educational Development (GED) certificate; meet provisions of Idaho Code; and, verify technical skills through work experience, certification or testing as listed below. When applicable, requirements of occupationally related state agencies must also be met. Since educational levels and work experiences vary, applicants may be determined highly qualified under any one (1) of the following three (3) options: (3-16-04)

ai. Have sixteen-thousand (16,000) hours of full-time, successful, recent, gainful employment in the occupation for which certification is requested. Up to forty-eight (48) months credit can be counted toward the eight (8) years on a month-to-month basis for journeyman training and/or postsecondary training successfully completed as a full-time student in an approved/approvable, postsecondary, professional-technical education program. (3-16-04)

bii. Have a bachelor's degree in the specific occupation or related area, plus six-thousand (6,000) hours of full-time, successful, recent, gainful employment in the occupation. (3-16-04)

ciii. Meet one (1) of the following: (3-16-04)

i.(1) Have at least journeyman level plus two (2) years of recent, full-time, gainful, related work experience. A person who has completed a formal apprenticeship program in the occupation or related area for which certification is requested. The apprenticeship must be under the direction of an employer and the Bureau of Apprenticeship and Training or an approved State Apprenticeship Agency; (3-16-04)

ii.(2) Pass approved state or national certification/certification examination plus three (3) years of recent, full-time, gainful, related work experience (length and type of work experience in emergency services and health professions will be determined on an individual basis); or (3-16-04)

iii.(3) Pass approved industry related certification for skill level requirements (vendor and industry specific) plus three (3) years of recent, full-time, gainful, related work experience (length and type of work experience in emergency services and health professions will be determined on an individual basis). If no competency test exists, a written recommendation from a representative occupational advisory council/committee and recorded in its minutes is required to verify occupational competence. (3-16-04)

02.b. **Limited Occupational Specialist Certificate.** This certificate is issued to individuals who are new to teaching trades and health occupations professions in public schools. The certificate is valid for three (3) years and is non-renewable. (3-16-04)

ai. Within the first eighteen (18) months, the holder must complete the pre-service workshop sponsored by the State Division of Professional-Technical Education and an approved course in professional technical methods and student assessment. (3-16-04)

b.ii. Complete a new-teacher induction workshop at the state or district level. (3-16-04)

ciii. File a Professional Development Plan with the State Division of Professional-Technical Education. (3-16-04)

div. Within the three (3) year period of the Limited Occupational Specialist Certificate, the instructor must satisfactorily complete course work which includes competencies in four (4) of the following: Principles/Foundations of Occupational Education; Career Pathways and Guidance; Analysis, Integration, and Curriculum Development; Measurement and Evaluation; and Methods of Teaching Occupational Education. (3-16-04)

03c. **Standard Occupational Specialist Certificate.** This certificate is issued to individuals who have completed course work equivalent to that required of the Limited Occupational Specialist Certificate. The certificate must be renewed every five (5) years, which shall include completion of six (6) semester credit hours of approved course work or verification of two hundred-forty (240) hours of approved related work experience or ninety (90) hours of attendance at approved technical conferences, institutes, or workshops or any equivalent combination thereof, and file of a Professional Development Plan for the next certification period. (3-16-04)
Advanced Occupational Specialist Certificate. This certificate is issued to individuals who meet all the requirements outlined below:

ai. Meet the requirements for the Standard Occupational Specialist Certificate; (3-16-04)

bii. Provide evidence of completion of a teacher training degree program or eighteen (18) semester credits of approved course work in addition to the twelve (12) semester credits required for the Standard Occupational Specialist Certificate (a total of thirty (30) semester credits); and (3-16-04)

ciii. File a new Professional Development Plan for the next certification period. (3-16-04)

div. This certificate must be renewed every five (5) years, which shall include completion of six (6) semester credit hours of approved course work or submit verification of two hundred-forty (240) hours of approved related work experience or ninety (90) hours of attendance at approved technical conferences, institutes and workshops or any equivalent combination thereof, and file a new Professional Development Plan for the next certification period. (3-16-04)

A Postsecondary Specialist certificate will be granted to a current faculty member whose primary employment is with any accredited Idaho postsecondary institution. To be eligible to teach in the public schools under this postsecondary specialist certificate, the candidate must supply a recommendation from the employing institution (faculty's college dean). The primary use of this state-issued certificate will be for distance education, virtual classroom programs, and for public and postsecondary partnerships. (3-26-08)

Renewal. This certificate is good for five (5) years and is renewable. To renew the certificate, the renewal application must be accompanied with a new written recommendation from the postsecondary institution (faculty's college dean level or higher). (3-26-08)

Fees. The fee is the same as currently in effect for an initial or renewal certificate as established in Section 066 of these rules. (3-26-08)

Qualifications. The candidate must:

ai. Hold a masters degree or higher in the content area being taught; (3-26-08)

bii. Be currently employed by the post secondary institution in the content area to be taught, and (3-26-08)

ciii. Complete and pass a criminal history check as required according to Section 33-130, Idaho Code. (3-26-08)

Each Indian tribe shall provide to the State Department of Education the names of those highly and uniquely qualified individuals who have been designated to teach the tribe's native language in accordance with Section 33-1280, Idaho Code. Individuals identified by the tribe(s) may apply for an Idaho American Indian Certificate as American Indian languages teachers. (4-9-09)

Process the Application. The Office of Indian Education at the State Department of Education will process an application that has met the requirements of the Tribe(s) for an American Indian languages teacher. (4-9-09)

Approval Has Been Received. Once an application with Tribal approval has been received, it will be reviewed and, if approved, it will be forwarded to the Office of Certification for a criminal history background check as required in Section 33-130, Idaho Code. The application must include a ten finger fingerprint card or scan and a forty dollar ($40) fee for undergoing a criminal history check pursuant to Section 33-130, Idaho Code. (4-9-09)
03c. Office of Certification. The Office of Certification will review the application and verify the applicant is eligible for an Idaho American Indian Certificate. The State Department of Education shall authorize an eligible applicant as an American Indian languages teacher. An Idaho American Indian Certificate is valid for not more than five (5) years. Individuals may apply for a renewal certificate. (4-9-09)

03111. Junior Reserved Officer Training Corps (Junior ROTC) Instructors.

01a. List of Names. Each school district with a Junior ROTC program shall provide the State Department of Education with a list of the names of those individuals who have completed an official armed forces training program to qualify as Junior ROTC instructors in high schools. (4-11-06)

02b. Notarized Copy. Each school district with a Junior ROTC program shall provide the State Department of Education with a notarized copy of their certificate(s) of completion. (4-11-06)

03c. Authorization Letter. Upon receiving the items identified in Subsections 031.01a and 031.02b, the State Department of Education shall issue a letter authorizing these individuals as Junior ROTC instructors. (4-11-06)

12. Additional Renewal Requirements. In addition to specific certificate or endorsement renewal requirements, applicants must meet the following renewal requirements as applicable:

01a. Renewal Requirement - Mathematics In-Service Program. In order to recertify, the state approved mathematics instruction course titled “Mathematical Thinking for Instruction”, or another State Department of Education approved alternative course, shall be required. The “Mathematical Thinking for Instruction” course consists of three (3) credits (or forty-five (45) contact hours of in-service training). Teachers and administrators shall take one (1) of the three (3) courses developed that each teacher deems to be the most closely aligned with their current assignment prior to September 1, 2014. Any teacher or administrator successfully completing said course shall be deemed to have met the requirement of Subsection 060.03.c. of this rule, regardless of whether such course is part of any official transcript. Successful completion of a state approved mathematics instruction course shall be a one-time requirement for renewal of certification for those currently employed in an Idaho school district and shall be included within current requirements for continuing education for renewal. The following individuals listed in Subsection 016.01.a. through 016.01.e. shall must successfully complete the “Mathematical Thinking for Instruction” course in order to recertify:

ai. Each teacher holding an Early Childhood/Early Childhood Special Education Blended Certificate (Birth - Grade 3) who is employed by an elementary classroom (multi-subject classroom, K-8) local education agency; (3-29-10)

bii. Each teacher holding a Standard Elementary Teaching Certificate (K-8) who is employed by an elementary classroom (multi-subject classroom, K-8) local education agency; (3-20-14)

eiii. Each teacher holding a Standard Secondary Teaching Certificate (6-12) teaching in a math content classroom (grade six (6) through grade twelve (12)) including Title I who is employed by an elementary classroom (multi-subject classroom K-8) local education agency; (3-20-14)

div. Each teacher holding a Standard Exceptional Child Certificate (K-12) who is employed by an elementary classroom (multi-subject classroom K-8) local education agency; and (3-20-14)

ev. Each school administrator holding an Administrator Certificate (Pre K-12) who is employed by an elementary classroom (multi-subject classroom K-8) local education agency, including all school district and charter administrators. (3-20-14)

03b. Waiver of Mathematics In-Service Program. When applying for certificate renewal, an automatic
waiver of the mathematics in-service program requirement shall be granted for any certificated individual living outside of the state of Idaho who is not currently employed as an educator in the state of Idaho. This waiver applies only as long as the individual remains outside the state of Idaho or as long as the individual is not employed as an educator in the state of Idaho. Upon returning to Idaho or employment in an Idaho public school, the educator will need to complete this requirement prior to the next renewal period. (3-20-14)

04c. Renewal Requirement - Idaho Comprehensive Literacy Course. In order to recertify, a state approved Idaho Comprehensive Literacy Course shall be required. Successful completion of a state approved Idaho Comprehensive Literacy course shall be a one-time requirement for renewal of certification for those currently employed in an Idaho school district and shall be included within current requirements for continuing education for renewal. The following individuals listed in Subsection 016.04.a. through 016.04.e. shall must successfully complete an Idaho Comprehensive Literacy course in order to recertify: (4-4-13)

   ai. Each teacher holding an Early Childhood/Early Childhood Special Education Blended Certificate (Birth - Grade 3) who is employed by an elementary classroom (multi-subject classroom, K-8) local education agency; (4-4-13)

   bii. Each teacher holding a Standard Elementary Certificate (K-8) who is employed by an elementary classroom (K-8) local education agency; and (3-20-14)

   eiii. Each teacher holding a Standard Exceptional Child Certificate (K-12) who is employed by a K-12 classroom local education agency. (3-20-14)

0165. IDAHO INTERIM CERTIFICATE.

01. Issuance of Interim Certificate. The State Department of Education is authorized to issue a three-year (3) interim certificate to those applicants who hold a valid certificate/license from another state or other entity that participates in the National Association of State Directors of Teacher Education and Certification (NASDTEC) Interstate Agreement or engaged in an alternate route to authorization as prescribed herein. An interim certificate is nonrenewable except under extenuating circumstances. (4-2-08)

   a.02 Idaho Comprehensive Literacy Course. For all Idaho teachers working on interim certificates, alternate routes or coming from out of the state, completion of a state approved reading instruction Idaho Comprehensive Literacy course shall be a one-time requirement for full certification. (4-7-11)

   a. Those individuals who qualify for an Idaho certificate through state reciprocity shall be granted a three-year, non-renewable, interim certificate to allow time to meet the Idaho Comprehensive Literacy Course requirement. (3-20-14)

03. Mathematical Thinking for Instruction. Out-of-state applicants shall take the state approved mathematics instruction course titled “Mathematical Thinking for Instruction” as a certification requirement. The “Mathematical Thinking for Instruction” course consists of three (3) credits (or forty-five (45) contact hours of in-service training). Those individuals who qualify for an Idaho certificate through state reciprocity shall be granted a three-year, non-renewable, interim certificate to allow time to meet the Idaho Mathematics In-service program requirement. (4-4-13)

   b.04 Technology. Out-of-state applicants will be reviewed by the hiring district for technology deficiencies and may be required to take technology courses to improve their technology skills. (4-7-11)

   0205. Reinstatement of Expired Certificate. An individual holding an expired Idaho certificate may be issued a nonrenewable three-year interim certificate. During the validity period of the interim certificate, the applicant must meet all current requirements listed for the specific certificate and endorsement(s) including the appropriate content, pedagogy, and performance assessments. (3-29-12)
0306. Foreign Institutions. An educator having graduated from a foreign institution that is listed in the Accredited Degree-Granting Institutions section of the “Accredited Institutions of Postsecondary Education” and having a valid/current teaching certificate/license from the country or province in which the foreign institution is located, may be issued a non-renewable, three-year interim certificate. The applicant must also complete the requirements listed in Section 013 of these rules. (4-2-08)

090017. INTERSTATE CERTIFICATION COMPACT. Idaho participates in the Interstate Agreement of Qualification of Education Personnel. This agreement applies equally to teachers entering Idaho from another compact-member state and to teachers entering another compact-member state from Idaho. The compact applies to classroom teachers only. Trades and industries teachers are not covered by the agreement. (Section 33-4104, Idaho Code) (4-1-97)

017018. CONTENT, PEDAGOGY AND PERFORMANCE ASSESSMENT FOR CERTIFICATION.

01. Assessments. State Board of Education approved content, pedagogy and performance area assessments shall be used in the state of Idaho to ensure qualified teachers are employed in Idaho’s classrooms. The Professional Standards Commission shall recommend assessments and qualifying scores to the State Board of Education for approval. (4-2-08)

02. Out-of-State Waivers. An out-of-state applicant for Idaho certification holding a current certificate may request a waiver from the above requirement. The applicant shall provide evidence of passing a state approved content, pedagogy and performance area assessment(s) or hold current National Board for Professional Standards Teaching Certificate. (4-2-08)

03. Idaho Comprehensive Literacy Assessment. All applicants for initial Idaho certification (Kindergarten through grade twelve (12)) from an Idaho approved teacher education program must demonstrate competency in comprehensive literacy. Areas to be included as parts of the assessment are: phonological awareness, phonics, fluency, vocabulary, comprehension, writing, and assessments and intervention strategies. Each Idaho public higher education institution shall be responsible for the assessment of teacher candidates in its teacher preparation program. The assessment must measure teaching skills and knowledge congruent with current research on best literacy practices for elementary students or secondary students (adolescent literacy) dependent upon level of certification and English Language Learners. In addition the assessment must measure understanding and the ability to apply strategies and beliefs about language, literacy instruction, and assessments based on current research and best practices congruent with International Reading Association/National Council of Teachers of English standards, National English Language Learner’s Association professional teaching standards, National Council for Accreditation of Teacher Education standards, and state accreditation standards. (4-7-11)

04. Technology Assessment. All applicants for initial Idaho certification (Kindergarten through grade twelve (12)) from an Idaho approved teacher education program must demonstrate proficiency in relevant technology skills and practices to enhance classroom management and instruction. Each Idaho public higher education institution shall be responsible for the assessment of teacher candidates in its teacher preparation program. The assessment must measure understanding and the ability to apply strategies and beliefs about the integration of technology based on current research and best practices congruent with the International Society for Technology in Education professional teaching standards, the National Council for Accreditation of Teacher Education standards, and state accreditation standards. (4-7-11)

019-020 (Reserved)

021. ENDORSEMENTS.

Holders of a Secondary Certificate or a Standard Elementary Certificate, Exceptional Child Certificate, Standard Occupational Specialist Certificate, and Advanced Occupational Specialist Certificate may be granted endorsements in subject areas as provided herein. Idaho preparation programs shall prepare candidates for endorsements in accordance with the Idaho Standards for Initial Certification of Professional School Personnel. An official statement of competency in a teaching area or field is acceptable in lieu of courses for a teaching major or minor if such statements originate in the department or division of the accredited college or university in which the competency is
established and are approved by the director of teacher education of the recommending college or university. To add an endorsement to an existing credential, an individual shall complete the credit hour requirements as provided herein and shall also meet or exceed the state qualifying score on appropriate, state approved content, pedagogy and performance assessments. When converting semester credit hours to quarter credit hours, two (2) semester credit hours is equal to three (3) quarter credit hours. (4-4-13)

01. Clinical Experience Requirement. All endorsements require supervised teaching experience in the relevant content area, or a State Department of Education approved alternative clinical experience. (3-12-14)

02. Alternate Authorization Preparation Program. Candidates shall meet all requirements for the endorsement/certificate as provided herein. (3-20-04)

a. Option II - National Board (endorsement only). By earning National Board certification in content specific areas teachers may gain endorsement in a corresponding subject area. (5-8-09)

b. Option III - Master’s degree or higher (endorsement only). By earning a graduate degree in a content specific area, candidates may add an endorsement in that same content area to a valid certificate. (5-8-09)

c. Option IV III - Testing and/or Assessment (endorsement only). Two (2) pathways are available to some teachers, depending upon endorsement(s) already held. (5-8-09)

i. Pathway 1 - Endorsements may be added through state-approved testing and a mentoring component. The appropriate test must be successfully completed within the first year of authorization in an area closely compatible with an endorsement for which the candidate already qualifies and is experienced. Additionally requires the successful completion of a one (1)-year state-approved mentoring component. (5-8-09)

ii. Pathway 2 - Endorsements may be added through state-approved testing in an area less closely compatible with an endorsement for which the candidate already qualifies and is experienced. The appropriate test must be successfully completed within the first year of the authorization. Additionally requires the successful completion of a one (1)-year state-approved mentoring component and passing a final pedagogy assessment. (5-8-09)

022. ENDORSEMENTS A - D.

01. Agriculture Science and Technology (6-12). (3-16-04)

a. Forty-five (45) semester credit hours including course work in each of the following areas: agriculture education; agriculture mechanics; agriculture business management; soil science; animal science; and plant science. (3-16-04)

b. Occupational teacher preparation coursework that relates to the appropriate area(s) as provided in Sections 034 through 038. (4-4-13)

02. American Government /Political Science (6-12). Twenty (20) semester credit hours to include: a minimum of six (6) semester credit hours in American Government, six (6) semester credit hours in U.S. History Survey, and a minimum of three (3) semester credit hours in Comparative Government. Remaining course work must be selected from Political Science. Course work may include three (3) semester credit hours in World History Survey. (4-11-06)

03. Art (K-12 or 6-12). Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Visual Arts Teachers in the area of Art to include a minimum of nine (9) semester credit hours in: Foundation Art and Design. Additional course work must include at least two (2) Studio Areas and Secondary Arts Methods. To obtain an Art (K-12) endorsement, applicants holding a Secondary Certificate must complete an elementary methods course. (4-7-11)

04. Bilingual Education (K-12). Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Bilingual Education Teachers to include all of the following: at least nine (9) upper
division semester credit hours in one (1) Modern Language other than English, including writing and literature, and advanced proficiency according to the American Council on the Teaching of Foreign Languages (ACTFL) guidelines; cultural diversity; ENL/Bilingual Methods; second language acquisition theory and practice; Foundations of ENL/Bilingual Education, Federal and State Law, Testing/identification of Limited English Proficient Students; at least two (2) semester credit hours in Bilingual Practicum; and three (3) semester credit hours in a Bilingual Education related elective (ex: linguistics, critical pedagogy, parent involvement). (4-4-13)

05. Biological Science (6-12). Twenty (20) semester credit hours to include at least six (6) semester credit hours of course work in each of the following areas: Botany and Zoology. (3-16-04)

06. Business Technology Education (6-12). (3-16-04)
   a. Twenty (20) semester credit hours to include course work in each of the following areas: accounting; computer and technical applications in business; economics; methods of teaching business education; Professional-Technical Student Organization (PTSO) leadership; business communication/writing; and office procedures. Additional competencies may be satisfied through the following: entrepreneurship; finance; marketing; business law; and/or career guidance. (4-4-13)
   b. Occupational teacher preparation that relates to the appropriate area(s) as provided in Sections 034 through 038. (4-4-13)

07. Chemistry (6-12). Twenty (20) semester credit hours in the area of Chemistry. (3-16-04)

08. Communication (6-12). Follow one (1) of the following options: (3-16-04)
   a. Option I: Twenty (20) semester credit hours to include Methods of Teaching Speech/Communications plus course work in at least four (4) of the following areas: Interpersonal Communication/Human Relations; Argumentation/Personal Persuasion; Group Communications; Nonverbal Communication; Public Speaking; and Drama/Theater Arts. (3-16-04)
   b. Option II: Possess an English endorsement plus at least twelve (12) semester credit hours distributed among the following: Interpersonal Communication/Human Relations, Public Speaking, and Methods of Teaching Speech/Communication. (3-16-04)

029. Consulting Teacher/Teacher Leader Endorsement.

Consulting teachers provide technical assistance to teachers and other staff in the school district with regard to the selection and implementation of appropriate teaching materials, instructional strategies, and procedures to improve the educational outcomes for students. Candidates who hold this endorsement are teacher leaders who will facilitate the design and implementation of sustained, intensive, and job-embedded professional learning based on identified student and teacher needs. This endorsement is valid for five (5) years and is renewable based upon successful completion and verification of an additional four (4) semester credits beyond those required for standard certification renewal. The additional credits shall be taken for university or college credit consistent with the Individual Professional Learning Plan (IPLP). (4-4-13)

01a. Special Education Consulting Teacher - Eligibility for Endorsement. To be eligible for a Special Education Consulting Teacher endorsement on the Standard Exceptional Child Certificate, the Early Childhood /Early Childhood Special Education Blended Certificate (Birth-Grade 3), the Standard Elementary Certificate or the Standard Secondary Teaching Certificate, a candidate must have satisfied the following requirements: (3-29-10)
   ai. Education Requirements. Qualify for or hold a Standard Exceptional Child Certificate and qualify for or hold a Standard Elementary Certificate, Standard Secondary Certificate, or Early Childhood/Early Childhood Special Education Blended Certificate (Birth-Grade 3), and hold a master's degree or an approved fifth year program as defined by the Idaho State Board of Education, and have demonstrated content competencies in the following areas: (4-4-13)
i(1). Assessment of learning behaviors; (4-4-13)

ii(2). Individualization of instructional programs based on educational diagnosis; (4-4-13)

iii(3). Behavioral and/or classroom management techniques; (4-4-13)

iv(4). Program implementation and supervision; (4-4-13)

v(5). Knowledge in use of current methods, materials and resources available and management and operation of media centers; (4-4-13)

vi(6). Ability in identifying and utilizing community or agency resources and support services; and (4-4-13)

vii(7). Counseling skills and guidance of professional staff. (4-4-13)

bii. Experience. Completion of a minimum of three (3) years’ teaching experience, at least two (2) years of which must be in a special education classroom setting. (3-16-04)

ciii. Provides verification of completion of a state-approved program of at least twenty (20) semester credit hours of study at an accredited college or university or a state-approved equivalent. Program shall include:

i.(1) Ninety (90) contact hours to include a combination of face-to-face and field-based professional development activities; and (4-4-13)

ii.(2) The development and presentation of a culminating portfolio that provides evidence that knowledge gained and skills acquired are aligned with Idaho Teacher Leader Standards as follows: (4-4-13)

(1) Understanding Adults As Learners to Support Professional Learning Communities; (4-4-13)

(2) Accessing and Using Research to Improve Practice and Student Achievement; (4-4-13)

(3) Promoting Professional Learning for Continuous Improvement; (4-4-13)

(4) Facilitating Improvements in Instruction and Student Learning; (4-4-13)

(5) Using Assessments and Data for School and District Improvement; (4-4-13)

(6) Improving Outreach and Collaboration with Families and Community; and (4-4-13)

(7) Advocating for Student Learning and the Profession. (4-4-13)

div. Not less than one (1) semester of successful experience as a special education teacher working with classroom teachers in elementary or secondary schools. (4-4-13)

02b. Mathematics Consulting Teacher - Eligibility for Endorsement. To be eligible for a Mathematics Consulting Teacher endorsement on the Standard Elementary Teaching Certificate, Standard Secondary Certificate, Standard Exceptional Child Certificate, or Early Childhood/Early Childhood Special Education Blended Certificate (Birth-Grade 3), a candidate must have satisfied the following requirements: (3-29-10)

gi. Education Requirements. Qualify for or hold a Standard Elementary Teaching Certificate, Standard Secondary Certificate, Standard Exceptional Child Certificate, or Early Childhood/Early Childhood Special Education Blended Certificate (Birth-Grade 3) and have demonstrated content competencies. Coursework and content domains required include the full series of Mathematics Thinking for Instruction (MTI), Number and Operation, Geometry, Algebraic Reasoning, Measurement and Data Analysis, and Statistics and Probability which are centered on the
following emphases: (4-4-13)

i.(1) Structural Components of Mathematics; (4-4-13)

ii.(2) Modeling, Justification, Proof and Generalization; (4-4-13)

iii.(3) Mathematical Knowledge for Teaching (Ball, Thames, & Phelps, 2008). (4-4-13)

bii. Experience. Completion of a minimum of three (3) years’ teaching experience. (3-29-10)

eiii. Provides verification of completion of a state-approved program of at least twenty (20) semester credit hours of study at an accredited college or university or a state-approved equivalent. Program shall include:

i.(1) Ninety (90) contact hours to include a combination of face-to-face and field-based professional development activities; and (4-4-13)

ii.(2) The development and presentation of a culminating portfolio that provides evidence that knowledge gained and skills acquired are aligned with Idaho Teacher Leader Standards as follows: (4-4-13)

(1) Understanding Adults As Learners to Support Professional Learning Communities; (4-4-12)

(2) Accessing and Using Research to Improve Practice and Student Achievement; (4-4-13)

(3) Promoting Professional Learning for Continuous Improvement; (4-4-13)

(4) Facilitating Improvements in Instruction and Student Learning; (4-4-13)

(5) Using Assessments and Data for School and District Improvement; (4-4-12)

(6) Improving Outreach and Collaboration with Families and Community; and (4-4-13)

(7) Advocating for Student Learning and the Profession. (4-4-13)

div. Not less than one (1) semester of successful experience as a mathematics teacher working with classroom teachers in elementary or secondary schools. (4-4-13)

10. Drama (6-12). Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Drama Teachers, including a minimum of sixteen (16) semester credit hours in Drama or Theater Arts, including course work in each of the following: Acting, Directing, and Technical Stage Production, and four (4) semester credit hours in Communications. To obtain a Drama (6-12) endorsement, applicants must complete a comprehensive methods course including the pedagogy of acting, directing and technical theatre. (4-7-11)

023. ENDORSEMENTS E - L.

01. Earth Science (6-12). Twenty (20) semester credit hours including course work in each of the following: Earth Science, Astronomy, and Geology. (4-11-06)

02. Economics (6-12). Twenty (20) semester credit hours to include a minimum of three (3) semester credit hours of micro-economics, a minimum of three (3) semester credit hours of macro-economics, and a minimum of six (6) semester credit hours of Personal Finance/Consumer Economics/Economics Methods. Remaining course work may be selected from economics and finance course work in one (1) or more of the following areas: Agriculture Science and Technology, Business Education, Economics, Family and Consumer Science, or Marketing Education. (4-11-06)
03. **English (6-12).** Twenty (20) semester credit hours, including three (3) semester credit hours in Linguistics/Grammar, three (3) semester credit hours in American Literature, three (3) semester credit hours in English Literature, six (6) semester credit hours in Advanced Composition, excluding the introductory sequence designed to meet general education requirements. Remaining credits must be completed in the English Department, and must include some course work in Writing Methods for Teachers of Secondary Students. (3-16-04)

04. **English as a New Language (ENL) (K-12).** Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for ENL Teachers to include all of the following: at least four (4) semester credit hours in a modern language other than English; Cultural Diversity; ENL Methods; Linguistics; second language acquisition theory and practice; Foundations of ENL/Bilingual Education, Federal and State Law, Testing/Identification of Limited English Proficient Students; and at least one (1) semester credit in ENL Practicum or Field Experience. (4-4-13)

05. **Family and Consumer Sciences (6-12).**

a. Thirty (30) semester credit hours to include coursework in each of the following areas: Child/Human Development; Human/Family Relations; Directed Laboratory Experience in Childcare; Apparel and Textiles, Cultural Dress, Fashion Merchandising, or Design; Nutrition; Food Preparation, Food Production, or Culinary Arts; Housing, Interior Design, Home Management, or Equipment; Consumer Economics or Family Resource Management; Introduction to Family Consumer Sciences; Professional-Technical Student Organization (PTSO) leadership; and Integration of Family Consumer Sciences or Family Consumer Science Methods. (4-4-13)

b. Occupational teacher preparation that relates to the appropriate area(s) as provided in Sections 034 through 038. (4-4-13)

06. **Geography (6-12).** Twenty (20) semester credit hours including course work in Cultural Geography and Physical Geography, and a maximum of six (6) semester credit hours in World History Survey. Remaining semester credit hours must be selected from Geography. (4-11-06)

07. **Geology (6-12).** Twenty (20) semester credit hours in the area of Geology. (3-16-04)

08. **Gifted and Talented (K-12).** Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Gifted and Talented Education Teachers, to include semester credit hours in each of the following areas: Foundations of Gifted and Talented Education; Creative/Critical Thinking Skills for Gifted and Talented Students; Social and Emotional Needs of Gifted and Talented Students; Curriculum, Instruction, and Assessment for Gifted and Talented Students; Differentiated Instruction and Programming for Gifted and Talented Students; and Practicum and Program Design for Gifted and Talented Education. Remaining course work must be in the area of gifted education. (3-12-14)

09. **Health (6-12 or K-12).** Twenty (20) semester credit hours to include course work in Organization/Administration/Planning of a School Health Program; Health and Wellness; Secondary Methods of Teaching Health; Mental/Emotional Health; Nutrition; Human Sexuality; Substance Use and Abuse. Remaining semester credits must be in health-related course work. To obtain a Health K-12 endorsement, applicants must complete an elementary Health methods course. (4-4-13)

10. **History (6-12).** Twenty (20) semester credit hours to include a minimum of six (6) semester credit hours of U.S. History Survey and a minimum of six (6) semester credit hours of World History Survey. Remaining course work must be in History. Course work may include three (3) semester credit hours in American Government. (4-11-06)

11. **Humanities (6-12).** An endorsement in English, History, Music, Visual Art, Drama, or Foreign Language and twenty (20) semester credit hours in one of the following areas or ten (10) semester credit hours in each of two (2) of the following areas: Literature, Music, Foreign Language, Humanities Survey, History, Visual Art, Philosophy, Drama, Comparative World Religion, Architecture, and Dance. (4-11-06)
12. **Journalism (6-12).** Follow one (1) of the following options:

   a. **Option I:** Twenty (20) semester credit hours to include a minimum of sixteen (16) semester credit hours in Journalism and four (4) semester credit hours in English.

   b. **Option II:** Possess an English endorsement with a minimum of six (6) semester credit hours in Journalism.

13. **Literacy (K-12).** Twenty-one (21) semester credit hours leading toward competency as defined by Idaho Standards for Literacy Teachers to include the following areas: Foundations of Literacy (including reading, writing, and New Literacies); Development and Diversity of Literacy Learners; Literacy in the Content Area; Literature for Youth; Language Development; Corrective/Diagnostic/Remedial Reading; and Writing Instruction. To obtain a Literacy endorsement, applicants must complete the Idaho Comprehensive Literacy Course or the Idaho Comprehensive Literacy Assessment.

024. **ENDORSEMENTS M - Z.**

01. **Marketing Technology Education (6-12).**

   a. Twenty (20) semester credit hours to include course work in each of the following areas: Marketing; Management; Economics; Coordination of Cooperative Programs; Merchandising/Retailing; Methods of Teaching Marketing Education; and Professional-Technical Student Organization (PTSO) Leadership, with remaining credit hours in Entrepreneurship; Hospitality and Tourism; Finance; or Accounting.

   b. Occupational teacher preparation that relates to the appropriate area(s) as provided in Sections 034 through 038.

02. **Mathematics - Basic (6-12).** Twenty (20) semester credit hours in Mathematics including course work in Algebra, Geometry, and Trigonometry. Six (6) semester credit hours of computer programming may be substituted for six (6) semester credits in Mathematics.

03. **Mathematics (6-12).** Twenty (20) semester credit hours including course work in each of the following areas: Geometry, Linear Algebra, Discrete Mathematics, Probability and Statistics, and a minimum of three (3) semester credit hours of Calculus. Statistics course work may be taken from a department other than the mathematics department.

04. **Music (6-12 or K-12).** Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Music Teachers to include course work in the following: Theory and Harmony; Aural Skills, Music History; Conducting; Applied Music; and Piano Proficiency (Class Piano or Applied Piano), and Secondary Music Methods/Materials. To obtain a Music K-12 endorsement, applicants must complete an elementary music methods course.

05. **Natural Science (6-12).** Follow one (1) of the following options:

   a. **Option I:** Must hold an existing endorsement in one of the following areas: Biological Science, Chemistry, Earth Science, Geology, or Physics; and complete a total of twenty-four (24) semester credit hours as follows:

      i. Existing Biological Science Endorsement. Minimum of eight (8) semester credit hours in each of the following areas: Physics, Chemistry, and Earth Science or Geology.

      ii. Existing Physics Endorsement. Minimum of eight (8) semester credit hours in each of the following areas: Biology, Chemistry, and Earth Science or Geology.
iii. Existing Chemistry Endorsement. Minimum of eight (8) semester credit hours in each of the following areas: Biology, Physics, and Earth Science or Geology. (4-7-11)

iv. Existing Earth Science or Geology Endorsement. Minimum of eight (8) semester credit hours in each of the following areas: Biology, Physics, and Chemistry. (4-7-11)

b. Option II: Must hold an existing endorsement in Agriculture Science and Technology; and complete twenty (20) semester credit hours with at least four (4) semester credit hours in each of the following areas: Biology, Chemistry, Earth Science or Geology, and Physics. (4-7-11)

03306. Online Teacher Endorsement (Pre-k-12).

01. Online Teacher Endorsement. To be eligible for an Online-Teacher Endorsement (Pre-K-12), a candidate must have satisfied the following requirements: (4-7-11)

a. Meets the states’ professional teaching and/or licensure standards and is qualified to teach in his/her field of study. (4-7-11)

b. Provides evidence of online experience or course time both as a student and as a learner, and demonstrates online learning and teaching proficiency. (4-7-11)

c. Has completed (completes) an eight (8) week online teaching internship in a Pre-K-12 program, or have one (1) year of verifiable and successful experience as a teacher delivering curriculum online in grades Pre-K-12 within the past three (3) years. (4-7-11)

d. Provides verification of completion of a state-approved program of at least twenty (20) semester credit hours of study in online teaching and learning at an accredited college or university or a state-approved equivalent. (4-7-11)

02c. Proficiency in Idaho Standards for Online Teachers. Demonstrates proficiency in the Idaho Standards for Online Teachers including the following competencies: (4-7-11)

ai. Knowledge of Online Education and Human Development; (4-7-11)

bii. Facilitate and Inspire Student Learning and Creativity; (4-7-11)

ciii. Design and Develop Digital-Age Learning Experiences and Assessments Standards; (4-7-11)

div. Model Digital-Age Work and Learning; Promote and Model Digital Citizenship and Responsibility Standards; and (4-7-11)

ev. Engage in Professional Growth and Leadership. (4-7-11)

06. Physics (6-12). Twenty (20) semester credit hours in the area of Physics. (3-16-04)

07. Physical Education (PE) (6-12 or K-12). Twenty (20) semester credit hours to include course work in each of the following areas: Sport, Movement, and Outdoor Skills; Secondary PE Methods; Student Evaluation in PE; Administration of a PE Program; Safety and Prevention of Injuries; Fitness and Wellness; PE for Special Populations; Exercise Physiology; Kinesiology/Biomechanics; Sports Psychology or Sociology; Motor Behavior; and Current CPR and First Aid Certification. To obtain a PE K-12 endorsement, applicants must complete an elementary PE methods course. (4-4-13)

08. Physical Education/Health. Must have an endorsement in both physical education and health. (3-30-07)
09. **Physical Science (6-12).** Twenty (20) semester credit hours in the area of physical science to include a minimum of eight (8) semester credit hours in each of the following: Chemistry and Physics. (3-16-04)

10. **Psychology.** Twenty (20) semester credit hours in the area of Psychology. (3-16-04)

11. **Social Studies (6-12).** Must have an endorsement in History, American Government/Political Science, Economics, or Geography plus a minimum of twelve (12) semester credit hours in each of the remaining core endorsements areas: History, Geography, Economics, and American Government/Political Science. (3-29-10)

12. **Sociology (6-12).** Twenty (20) semester credit hours in the area of Sociology. (3-16-04)

13. **Sociology/Anthropology (6-12).** Twenty (20) semester credit hours including a minimum of six (6) semester credit hours in each of the following: Anthropology and Sociology. (3-16-04)

14. **Teacher Librarian (K-12).** Twenty (20) semester credit hours of coursework leading toward competency as defined by Idaho Standards for Teacher Librarians to include the following: Collection Development/Materials Selection, Literature for Children and/or Young Adults; Organization of Information (Cataloging and Classification); School Library Administration/Management; Library Information Technologies; Information Literacy; and Reference and Information Service. (3-12-14)

15. **Technology Education (6-12).**

   a. Twenty (20) semester credit hours to include course work in each of the following areas: Communication Technology; Computer Applications; Construction Technology; Electronics Technology; Manufacturing Technology; Power, Energy and Transportation and other relevant emerging technologies; and Principles of Engineering Design. (4-4-13)

   b. Occupational teacher preparation that relates to the appropriate area(s) as provided in Sections 034 through 038. (4-4-13)

16. **World Language (6-12 or K-12).** Twenty (20) semester credit hours to include a minimum of twelve (12) upper division credits in a specific world language taken within the last ten (10) years leading to a proficiency level as defined by a state-approved exam (for example, a passing grade on the Praxis or an Advanced level as defined by the American Council on the Teaching of Foreign Languages (ACTFL)). Course work must include two (2) or more of the following areas: Grammar, Conversation, Composition, Culture, and Literature; and course work in Foreign Language Methods. To obtain an endorsement in a specific foreign language (K-12), applicants holding a Secondary Certificate must complete an elementary methods course. (4-4-13)

**025. AMERICAN INDIAN LANGUAGE (SECTION 33-1280, IDAHO CODE).**

Each Indian tribe shall provide to the State Department of Education the names of those highly and uniquely qualified individuals who have been designated to teach the tribe's native language in accordance with Section 33-1280, Idaho Code. Individuals identified by the tribe(s) may apply for an Idaho American Indian Certificate as American Indian languages teachers. (4-9-09)

**01. Process the Application.** The Office of Indian Education at the State Department of Education will process an application that has met the requirements of the Tribe(s) for an American Indian languages teacher. (4-9-09)

**02. Approval Has Been Received.** Once an application with Tribal approval has been received, it will be reviewed and, if approved, it will be forwarded to the Office of Certification for a criminal history background check as required in Section 33-1290, Idaho Code. The application must include a ten finger fingerprint card or scan and a forty dollar ($40) fee for undergoing a criminal history check pursuant to Section 33-130, Idaho Code. (4-9-09)

**03. Office of Certification.** The Office of Certification will review the application and verify the
applicant is eligible for an Idaho American Indian Certificate. The State Department of Education shall authorize an eligible applicant as an American Indian languages teacher. An Idaho American Indian Certificate is valid for not more than five (5) years. Individuals may apply for a renewal certificate. (4-9-09)

026. ADMINISTRATOR CERTIFICATE.
Every person who serves as a superintendent, a secondary school principal, or principal of an elementary school with eight (8) or more teachers (including the principal), or is assigned administrative duties over and above those commonly assigned to teachers, is required to hold an Administrator Certificate. The certificate may be endorsed for service as a school principal, a superintendent, or a director of special education and related services. Assistant superintendents are required to hold the Superintendent endorsement. Assistant principals or vice-principals are required to hold the Principal endorsement. Applicants for the Director of Special Education and Related Services endorsement will hold that endorsement on an Administrator Certificate. Proof of proficiency in evaluating teacher performance shall be required of all Administrator Certificate holders. Proof of proficiency in evaluating performance shall be demonstrated by passing a proficiency assessment approved by the State Department of Education as an initial certification requirement. Possession of an Administrator Certificate does not entitle the holder to serve as a teacher at a grade level for which the educator is not qualified or certificated. All administrator certificates require candidates to meet the following competencies of the Idaho Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership. (3-12-14)

01. School Principal Endorsement (Pre-K-12). To be eligible for an Administrator Certificate endorsed for School Principal Pre-K-12, a candidate must have satisfied the following requirements: (3-16-04)
- Hold a master’s degree from an accredited college or university. (3-16-04)
- Have four (4) years of full-time certificated experience working with students, Pre-K-12, while under contract in an accredited school setting. (3-30-07)
- Have completed an administrative internship in a state approved program, or have one (1) year of experience as an administrator in grades Pre-K-12. (3-30-07)
- Provide verification of completion of a state approved program of at least thirty (30) semester credit hours, forty-five (45) quarter credit hours, of graduate study in school administration for the preparation of school principals at an accredited college or university. This program shall include the competencies of the Idaho Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership. (3-12-14)
- An institutional recommendation is required for a School Principal Pre-K-12 Endorsement. (3-16-04)

02. Superintendent Endorsement. To be eligible for an Administrator Certificate with a Superintendent endorsement, a candidate must have satisfied the following requirements: (3-16-04)
- Hold an education specialist or doctorate degree or complete a comparable post-master’s sixth year program at an accredited college or university. (3-16-04)
- Have four (4) years of full-time certificated/licensed experience working with Pre-K-12 students while under contract in an accredited school setting. (3-30-07)
- Have completed an administrative internship in a state approved program for the superintendent endorsement or have one (1) year of out-of-state experience as an assistant superintendent or superintendent in grades Pre-K-12. (3-30-07)
- Provide verification of completion of an approved program of at least thirty (30) semester credit hours, or forty-five (45) quarter credit hours, of post master’s degree graduate study for the preparation of school superintendents at an accredited college or university. This program in school administration and interdisciplinary...
supporting areas shall include the competencies in Superintendent Leadership, in addition to the competencies in the Idaho Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership. (3-12-14)

e. An institutional recommendation is required for a School Superintendent Endorsement. (2-16-04)

03. Director of Special Education and Related Services Endorsement (Pre-K-12). To be eligible for an Administrator Certificate endorsed for Director of Special Education and Related Services Pre-K-12, a candidate must have satisfied all of the following requirements:

   a. Hold a master’s degree from an accredited college or university. (3-16-04)

   b. Have four (4) years of full-time certificated/licensed experience working with students Pre-K-12, while under contract in a school setting. (3-16-04)

   c. Obtain college or university verification of demonstrated the competencies of the Idaho Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership. (3-12-14)

   d. Obtain college or university verification of demonstrated competencies in the following areas, in addition to the competencies in the Idaho Foundation Standards for School Administrators: Concepts of Least Restrictive Environment; Post School Outcomes and Services for Students with Disabilities Ages Three (3) to Twenty-one (21); Collaboration Skills for General Education Intervention; Instructional and Behavioral Strategies; Individual Education Programs (IEPs); Assistive and Adaptive Technology; Community-Based Instruction and Experiences; Data Analysis for Instructional Needs and Professional Training; Strategies to Increase Program Accessibility; Federal and State Laws and Regulations and School District Policies; Resource Advocacy; and Technology Skills for Referral Processes, and Record Keeping. (3-30-07)

   e. Have completed an administrative internship/practicum in the area of administration of special education and related services. (3-16-04)

   f. An institutional recommendation is required for Director of Special Education and Related Services Pre-K-12 Endorsement. (3-16-04)

027. PUPIL PERSONNEL SERVICES CERTIFICATE

Persons who serve as school counselors, school psychologists, speech language pathologists, school social workers, school nurses and school audiologists are required to hold the Pupil Personnel Services Certificate, with the respective endorsement(s) for which they qualify. (3-16-04)

01. Counselor Endorsement (K-12). To be eligible for a Pupil Personnel Services Certificate endorsed Counselor K-12, a candidate must have satisfied the following requirements. The Pupil Personnel Services Certificate with a Counselor endorsement is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the endorsement.

   a. Hold a master’s degree and provide verification of completion of an approved program of graduate study in school counseling from a college or university approved by the Idaho State Board of Education or the state educational agency of the state in which the program was completed. The program must include successful completion of seven hundred (700) clock hours of supervised field experience, seventy-five percent (75%) of which must be in a K-12 school setting. This K-12 experience must be in each of the following levels: elementary, middle/junior high, and high school. Previous school counseling experience may be considered to help offset the field experience clock hour requirement. (11-11-15)

   b. An institutional recommendation is required for a Counselor K-12 Endorsement. (5-8-09)

   c. An institutional recommendation is required for a Counselor K-12 Endorsement. (5-8-09)

   d. School Psychologist Endorsement. This endorsement is valid for five (5) years. In order to renew
the endorsement, six (6) professional development credits are required every five (5) years. The renewal credit requirement may be waived if the applicant holds a current valid National Certification for School Psychologists (NCSP) offered through the National Association of School Psychologists (NASP). To be eligible for initial endorsement, a candidate must complete a minimum of sixty (60) graduate semester credit hours which must be accomplished through one (1) of the following options:

a. Completion of an approved thirty (30) semester credit hour, or forty-five (45) quarter credit hours, master's degree in education or psychology and completion of an approved thirty (30) semester credit hour, or forty-five (45) quarter credit hour, School Psychology Specialist Degree program, and completion of a minimum of twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist. (2-29-12)

b. Completion of an approved sixty (60) semester credit hour, or ninety (90) quarter credit hour, master's degree program in School Psychology, and completion of a minimum of twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist. (4-7-11)

c. Completion of an approved sixty (60) semester credit hour, or ninety (90) quarter credit hour, School Psychology Specialist degree program which did not require a master’s degree as a prerequisite, with laboratory experience in a classroom, which may include professional teaching experience, student teaching or special education practicum, and completion of a minimum twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist. (5-8-09)

d. Earn a current and valid National Certification for School Psychologists (NCSP) issued by the National Association of School Psychologists (NASP). (3-29-12)

03. School Nurse Endorsement. This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. Initial endorsement may be accomplished through completion of either requirements in Subsections 027.03.a. or 027.03.b. in addition to the requirement of Subsection 027.03.c.

a. The candidate must possess a valid nursing (RN) license issued by the Idaho State Board of Nursing, and a bachelor’s degree in nursing, education, or a health-related field from an accredited institution.

b. The candidate must possess a valid professional nursing (RN) license issued by the Idaho State Board of Nursing and have completed nine (9) semester credit hours from a university or college in at least three (3) of the following areas:

i. Health program management;

ii. Child and adolescent health issues;

iii. Counseling, psychology, or social work; or

iv. Methods of instruction;

e. Additionally, each candidate must have two (2) years’ full time (or part time equivalent) school nursing, community health nursing, or any area of pediatric, adolescent, or family nursing experience.

04. Interim Endorsement – School Nurse. This certificate will be granted for those who do not meet the educational and/or experience requirements but who hold a valid professional nursing (RN) license in Idaho. An Interim Certificate will be issued for three (3) years while the applicant is meeting the educational requirements, and it is not renewable.
05. Speech-Language Pathologist Endorsement. This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. Initial endorsement will be issued to candidates who possess a master’s degree from an accredited college or university in a speech-language pathology program approved by the State Board of Education, and who receive an institutional recommendation from an accredited college or university. (3-16-04)

06. Audiology Endorsement. This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. Initial endorsement will be issued to candidates who possess a master’s degree from an accredited college or university in an audiology program approved by the State Board of Education, and who receive an institutional recommendation from an accredited college or university. (3-16-04)

07. School Social Worker Endorsement. This endorsement is valid for five (5) years. Six (6) credit hours are required every five (5) years in order to renew the endorsement. Initial endorsement may be accomplished through possession of a social work certificate issued by the Idaho Bureau of Occupational Licenses, an institutional recommendation, and completion of one (1) of the following options: (3-16-04)

a. A master’s degree in social work from an Idaho college or university approved by the State Board of Education, or a master’s degree in social work from an out-of-state college or university. The program must be currently approved by the state educational agency of the state in which the program was completed. (3-16-04)

b. A master’s degree in guidance and counseling, sociology, or psychology plus thirty (30) semester credit hours of graduate work in social work education, including course work in all the following areas: understanding the individual, casework method, field placement, social welfare programs and community resources, and research methods. (3-16-04)

08. Interim Endorsement—Speech Language Pathologist. This certificate will be granted for those who do not meet the educational requirements but who hold a bachelor’s degree in speech language pathology and are pursuing a master’s degree in order to obtain the pupil personnel services certificate endorsed in speech language pathology. An Interim Certificate will be issued for three (3) years while the applicant is meeting the educational requirements, and it is not renewable. (3-29-10)

028. EXCEPTIONAL CHILD CERTIFICATE. Holders of this certificate work with children who have been identified as having an educational impairment. (3-16-04)

01. General Education Requirements. Completion of the general education requirements at an accredited college or university is required. (3-30-07)

02. Generalist Endorsement (K-12). The Generalist K-12 endorsement is non-categorical and allows one (1) to teach in any K-12 special education setting. This endorsement is valid for five (5) years. Six (6) credit hours are required every five (5) years for renewal. Regardless of prior special education experience, all initial applicants must provide an institutional recommendation that an approved special education program has been completed, with field work to include an internship and student teaching in a special education setting. To be eligible for an Exceptional Child Certificate with a Generalist K-12 endorsement, a candidate must have satisfied the following requirements: (4-4-13)

a. Completion of a baccalaureate degree from an accredited college or university. (3-16-04)

b. Completion, in an Idaho college or university, of a program in elementary, secondary, or special education currently approved by the Idaho State Board of Education, or completion, in an out-of-state college or university, of a program in elementary, secondary, or special education currently approved by the state educational agency of the state in which the program was completed. (3-16-04)

c. Completion of thirty (30) semester credit hours in special education, or closely related areas, as part of an approved special education program. (3-16-04)
Each candidate must have a qualifying score on an approved core content assessment and a second
assessment related to the specific endorsement requested. (3-16-04)

03. Early Childhood Special Education Endorsement (Pre-K-3). The Early Childhood Special
Education (Pre-K-3) endorsement is non-categorical and allows one to teach in any Pre-K-3 special education setting. This endorsement may only be added to the Standard Exceptional Child Certificate in conjunction with the Generalist K-12 endorsement and is valid for five (5) years. Six (6) credit hours are required every five (5) years for renewal. To be eligible for an Exceptional Child Certificate with an Early Childhood Special Education (Pre K-3) endorsement, a candidate must have satisfied the following requirements:

a. Completion of a program of a minimum of twenty (20) semester credit hours in the area of Early Childhood Education to include course work in each of the following areas: Child development and behavior with emphasis in cognitive-language, physical, social and emotional areas, birth through age eight (8); Curriculum and program development for young children ages three to eight (3-8); Methodology, planning, implementing and evaluating environments and materials for young children ages three to eight (3-8); Guiding young children's behavior: observing, assessing and individualizing ages three to eight (3-8); Identifying and working with atypical young children ages three to eight (3-8) Parent teacher relations; and, Field work to include an internship and student teaching at the Pre-K - 3 grades. (4-7-11)

b. Each candidate must have a qualifying score on an approved core content assessment and a second assessment related to the specific endorsement requested.
029. CONSULTING TEACHER/TEACHER LEADER ENDORSEMENT.
Consulting teachers provide technical assistance to teachers and other staff in the school district with regard to the selection and implementation of appropriate teaching materials, instructional strategies, and procedures to improve the educational outcomes for students. Candidates who hold this endorsement are teacher leaders who will facilitate the design and implementation of sustained, intensive, and job-embedded professional learning based on identified student and teacher needs. This endorsement is valid for five (5) years and is renewable based upon successful completion and verification of an additional four (4) semester credits beyond those required for standard certification renewal. The additional credits shall be taken for university or college credit consistent with the Individual Professional Learning Plan (IPLP).

01. Special Education Consulting Teacher – Eligibility for Endorsement. To be eligible for a Special Education Consulting Teacher endorsement on the Standard Exceptional Child Certificate, the Early Childhood/Early Childhood Special Education Blended Certificate (Birth-Grade 3), the Standard Elementary Certificate or the Standard Secondary Teaching Certificate, a candidate must have satisfied the following requirements:

a. Education Requirements. Qualify for or hold a Standard Exceptional Child Certificate and qualify for or hold a Standard Elementary Certificate, Standard Secondary Certificate, or Early Childhood/Early Childhood Special Education Blended Certificate (Birth-Grade 3), and hold a master's degree or an approved fifth year program as defined by the Idaho State Board of Education, and have demonstrated content competencies in the following areas:

i. Assessment of learning behaviors;

ii. Individualization of instructional programs based on educational diagnosis;

iii. Behavioral and/or classroom management techniques;

iv. Program implementation and supervision;

v. Knowledge in use of current methods, materials and resources available and management and operation of media centers;

vi. Ability in identifying and utilizing community or agency resources and support services; and

vii. Counseling skills and guidance of professional staff.

b. Experience. Completion of a minimum of three (3) years’ teaching experience, at least two (2) years of which must be in a special education classroom setting.

c. Provides verification of completion of a state-approved program of at least twenty (20) semester credit hours of study at an accredited college or university or a state-approved equivalent. Program shall include:

i. Ninety (90) contact hours to include a combination of face-to-face and field-based professional development activities; and

ii. The development and presentation of a culminating portfolio that provides evidence that knowledge gained and skills acquired are aligned with Idaho Teacher Leader Standards as follows:

(1) Understanding Adults As Learners to Support Professional Learning Communities;

(2) Accessing and Using Research to Improve Practice and Student Achievement;
(3) Promoting Professional Learning for Continuous Improvement; (4-4-13)

(4) Facilitating Improvements in Instruction and Student Learning; (4-4-13)

(5) Using Assessments and Data for School and District Improvement; (4-4-13)

(6) Improving Outreach and Collaboration with Families and Community; and (4-4-13)

(7) Advocating for Student Learning and the Profession. (4-4-13)

d. Not less than one (1) semester of successful experience as a special education teacher working with classroom teachers in elementary or secondary schools. (4-4-13)

02. Mathematics Consulting Teacher - Eligibility for Endorsement. To be eligible for a Mathematics Consulting Teacher endorsement on the Standard Elementary Certificate, Standard Secondary Certificate, Standard Exceptional Child Certificate, or Early Childhood/Early Childhood Special Education Blended Certificate (Birth-Grade 3), a candidate must have satisfied the following requirements: (3-29-10)

a. Education Requirements. Qualify for or hold a Standard Elementary Certificate, Standard Secondary Certificate, Standard Exceptional Child Certificate, or Early Childhood/Early Childhood Special Education Blended Certificate (Birth-Grade 3) and have demonstrated content competencies. Coursework and content domains required include the full series of Mathematics Thinking for Instruction (MTI), Number and Operation, Geometry, Algebraic Reasoning, Measurement and Data Analysis, and Statistics and Probability which are centered on the following emphases: (4-4-13)

i. Structural Components of Mathematics; (4-4-13)

ii. Modeling, Justification, Proof and Generalization; (4-4-13)

iii. Mathematical Knowledge for Teaching (Ball, Thames, & Phelps, 2008). (4-4-13)

b. Experience. Completion of a minimum of three (3) years’ teaching experience (3-29-10)

c. Provides verification of completion of a state-approved program of at least twenty (20) semester credit hours of study at an accredited college or university or a state-approved equivalent. Program shall include:

i. Ninety (90) contact hours to include a combination of face-to-face and field-based professional development activities; and (4-4-13)

ii. The development and presentation of a culminating portfolio that provides evidence that knowledge gained and skills acquired are aligned with Idaho Teacher Leader Standards as follows: (4-4-13)

(1) Understanding Adults As Learners to Support Professional Learning Communities; (4-4-13)

(2) Accessing and Using Research to Improve Practice and Student Achievement; (4-4-13)

(3) Promoting Professional Learning for Continuous Improvement; (4-4-13)

(4) Facilitating Improvements in Instruction and Student Learning; (4-4-13)

(5) Using Assessments and Data for School and District Improvement; (4-4-13)

(6) Improving Outreach and Collaboration with Families and Community; and (4-4-13)
Advocating for Student Learning and the Profession. (4-4-13)

d. Not less than one (1) semester of successful experience as a mathematics teacher working with classroom teachers in elementary or secondary schools. (4-4-13)

030. (RESERVED)

031. JUNIOR RESERVED OFFICER TRAINING CORPS (JUNIOR ROTC) INSTRUCTORS.

01. List of Names. Each school district with a Junior ROTC program shall provide the State Department of Education with a list of the names of those individuals who have completed an official armed forces training program to qualify as Junior ROTC instructors in high schools. (4-11-06)

02. Notarized Copy. Each school district with a Junior ROTC program shall provide the State Department of Education with a notarized copy of their certificate(s) of completion. (4-11-06)

03. Authorization Letter. Upon receiving the items identified in Subsections 031.01 and 031.02, the State Department of Education shall issue a letter authorizing those individuals as Junior ROTC instructors. (4-11-06)

032. POSTSECONDARY SPECIALIST.

A Postsecondary Specialist certificate will be granted to a current faculty member whose primary employment is with any accredited Idaho postsecondary institution. To be eligible to teach in the public schools under this postsecondary specialist certificate, the candidate must supply a recommendation from the employing institution (faculty’s college dean). The primary use of this state issued certificate will be for distance education, virtual classroom programs, and for public and postsecondary partnerships. (3-26-08)

01. Renewal. This certificate is good for five (5) years and is renewable. To renew the certificate, the renewal application must be accompanied with a new written recommendation from the postsecondary institution (faculty’s college dean level or higher). (3-26-08)

02. Fees. The fee is the same as currently in effect for an initial or renewal certificate as established in Section 066 of these rules. (3-26-08)

03. Qualifications. The candidate must:

a. Hold a masters degree or higher in the content area being taught; (3-26-08)

b. Be currently employed by the post secondary institution in the content area to be taught; and

(3-26-08)

c. Complete and pass a criminal history check as required according to Section 33-130, Idaho Code. (3-26-08)

033. ONLINE TEACHER ENDORSEMENT (PRE-K-12).

01. Online-Teacher Endorsement. To be eligible for an Online-Teacher Endorsement (Pre-K-12), a candidate must have satisfied the following requirements: (4-7-11)

a. Meets states’ professional teaching and/or licensure standards and is qualified to teach in his/her field of study. (4-7-11)

b. Provides evidence of online experience or course time both as a student and as a learner, and demonstrates online learning and teaching proficiency. (4-7-11)

c. Has completed (completes) an eight (8) week online teaching internship in a Pre K-12 program, or
have one (1) year of verifiable and successful experience as a teacher delivering curriculum online in grades Pre-K-12 within the past three (3) years. (4-7-11)

d. Provides verification of completion of a state-approved program of at least twenty (20) semester credit hours of study in online teaching and learning at an accredited college or university or a state-approved equivalent. (4-7-11)

02. Proficiency in Idaho Standards for Online Teachers. Demonstrates proficiency in the Idaho Standards for Online Teachers including the following competencies: (4-7-11)

a. Knowledge of Online Education and Human Development; (4-7-11)
b. Facilitate and Inspire Student Learning and Creativity; (4-7-11)
c. Design and Develop Digital Age Learning Experiences and Assessments Standards; (4-7-11)
d. Model Digital Age Work and Learning; Promote and Model Digital Citizenship and Responsibility Standards; and (4-7-11)
e. Engage in Professional Growth and Leadership. (4-7-11)

034. CERTIFICATION STANDARDS FOR PROFESSIONAL-TECHNICAL EDUCATORS.

Teachers of professional-technical classes or programs in secondary or postsecondary schools must hold an endorsement in an appropriate occupational discipline. This endorsement may be held on a Secondary Teaching Certificate or on an Occupational Specialist Certificate. For postsecondary instructors and administrators, certification fees are set by the State Board for Professional-Technical Education, and application processes are managed by the Division of Professional-Technical Education. (3-16-04)

035. DEGREE BASED PROFESSIONAL-TECHNICAL CERTIFICATION

01. Teacher Preparation Through Degreed Program. Individuals graduating from an approved occupational teacher preparation degree program qualify to teach in the following five (5) disciplines: Agricultural Science & Technology; Business Technology Education; Family & Consumer Science; Marketing Technology Education; and Technology Education. Occupational teacher preparation course work must meet the Idaho Standards for the Initial Certification of Professional School Personnel. The occupational teacher education program must provide appropriate content to constitute a major in the identified field. Student teaching shall be in an approved program and include experiences in the major field. Applicants shall have accumulated four thousand (4,000) clock hours of related work experience or shall have completed an approved practicum in their respective field of specialization. (3-16-04)

02. Professional-Technical Administrator Certificate. The Professional-Technical Administrator certificate is required for an individual serving as an administrator, director, manager or coordinator of professional-technical education at the state, secondary or postsecondary level. Individuals must meet the following prerequisites to qualify for the Professional-Technical Administrator Certificate. Equivalence in each area will be determined on an individual basis by the State Division of Professional-Technical Education. (3-16-04)

a. Qualify for or hold an Occupational Specialist certificate or hold an occupational endorsement on the secondary teaching credential; (3-16-04)

b. Provide evidence of a minimum of three (3) years’ teaching in an occupational discipline; (3-16-04)

c. Hold a masters degree; and,
d. Completed at least fifteen (15) semester credits of administrative course work. Applicants must have completed: financial aspects of professional-technical education; administration of personnel; and legal aspects of professional-technical education. Additional course work can be selected from any of the following areas: administration and supervision of occupational programs; instructional supervision; administration internship; curriculum development; curriculum evaluation; research in curriculum; school community relations; communication; teaching the adult learner; coordination of work-based learning programs; and/or measurement and evaluation. (3-16-04)

e. To renew the Professional-Technical Administrator Certificate, individuals are required to complete six (6) semester hours of related course work or meet renewal requirements for professional-technical teachers. (3-16-04)

03. Work-Based Learning Coordinator Endorsement. Educators assigned to coordinate approved work-based experiences must hold the Work-Based Learning Coordinator endorsement. To be eligible, applicants must hold an occupational endorsement on the Standard Secondary Certificate or qualify for an Occupational Specialist Certificate, plus complete course work in coordination of work-based learning programs. (3-16-04)

04. Career Counselor Endorsement. The endorsement for a Career Counselor may be issued to applicants who hold a current Pupil Personnel Services Certificate endorsed Counselor K-12 and who have satisfied the following professional technical requirement: Career Pathways and Professional Technical Guidance; Principles/Foundations of Professional Technical Education; and Theories of Occupational Choice. (3-16-04)

036. INDUSTRY BASED PROFESSIONAL-TECHNICAL CERTIFICATION. Persons who need to hold the Occupational Specialist Certificate include: secondary educators assigned to Health Occupations Education and to Trades & Industry Education; specialized occupational areas where specific degree-granting professional-technical teacher education programs do not exist; and postsecondary professional-technical educators who teach courses to 9-12 students. (3-16-04)

01. General Requirements. Applicants must: be eighteen (18) years of age; document full-time, successful, recent, gainful employment in the area for which certification is requested; possess either a high school diploma or General Educational Development (GED) certificate; meet provisions of Idaho Code; and verify technical skills through work experience, certification or testing as listed below. When applicable, requirements of occupationally related state agencies must also be met. Since educational levels and work experience vary, applicants may be determined highly qualified under any one (1) of the following three (3) options: (3-16-04)

a. Have sixteen-thousand (16,000) hours of full-time, successful, recent, gainful employment in the occupation for which certification is requested. Up to forty-eight (48) months credit can be counted toward the eight (8) years on a month-to-month basis for journeyman training and/or postsecondary training successfully completed as a full-time student in an approved/approvable, postsecondary, professional-technical education program. (3-16-04)

b. Have a bachelor’s degree in the specific occupation or related area, plus six-thousand (6,000) hours of full-time, successful, recent, gainful employment in the occupation. (3-16-04)

c. Meet one (1) of the following:

i. Have at least journeyman level plus two (2) years of recent, full-time, gainful, related work experience. A person who has completed a formal apprenticeship program in the occupation or related area for which certification is requested. The apprenticeship must be under the direction of an employer and the Bureau of Apprenticeship and Training or an approved State Apprenticeship Agency; (3-16-04)

ii. Pass approved state or national certification/certification examination plus three (3) years of recent, full-time, gainful, related work experience (length and type of work experience in emergency services and health professions will be determined on an individual basis); or (3-16-04)

iii. Pass approved industry related certification for skill level requirements (vendor and industry specific) plus three (3) years of recent, full-time, gainful, related work experience (length and type of work experience...
in emergency services and health professions will be determined on an individual basis. If no competency test exists, a written recommendation from a representative occupational advisory council/committee and recorded in its minutes is required to verify occupational competence. (3-16-04)

02. Limited Occupational Specialist Certificate. This certificate is issued to individuals who are new to teaching trades and health occupations in public schools. The certificate is valid for three (3) years. (2-16-04)
   a. Within the first eighteen (18) months, the holder must complete the pre-service workshop sponsored by the State Division of Professional Technical Education and an approved course in professional technical methods and student assessment. (3-16-04)
   b. Complete a new teacher induction workshop at the state or district level. (3-16-04)
   c. File a Professional Development Plan with the State Division of Professional Technical Education. (3-16-04)
   d. Within the three (3) year period of the Limited Occupational Specialist Certificate, the instructor must satisfactorily complete course work which includes competencies in four (4) of the following: Principles/Foundations of Occupational Education; Career Pathways and Guidance; Analysis, Integration, and Curriculum Development; Measurement and Evaluation; and Methods of Teaching Occupational Education. (3-16-04)

03. Standard Occupational Specialist Certificate. This certificate is issued to individuals who have completed course work equivalent to that required of the Limited Occupational Specialist Certificate. The certificate must be renewed every five (5) years, which shall include completion of six (6) semester credit hours of approved course work or verification of two hundred forty (240) hours of approved related work experience or ninety (90) hours of attendance at approved technical conferences, institutes, or workshops or any equivalent combination thereof, and file of a Professional Development Plan for the next certification period. (2-16-04)

04. Advanced Occupational Specialist Certificate. This certificate is issued to individuals who meet all the requirements outlined below: (3-16-04)
   a. Meet the requirements for the Standard Occupational Specialist Certificate; (3-16-04)
   b. Provide evidence of completion of a teacher training degree program or eighteen (18) semester credits of approved course work in addition to the twelve (12) semester credits required for the Standard Occupational Specialist Certificate (a total of thirty (30) semester credits); and (3-16-04)
   c. File a new Professional Development Plan for the next certification period. (3-16-04)
   d. This certificate must be renewed every five (5) years, which shall include completion of six (6) semester credit hours of approved course work, or submit verification of two hundred forty (240) hours of approved related work experience or ninety (90) hours of attendance at approved technical conferences, institutes and workshops or any equivalent combination thereof, and file of a new Professional Development Plan for the next certification period. (3-16-04)

037. -- 041. (RESERVED)

042. ALTERNATE ROUTES TO CERTIFICATION.
The purpose of this program is to provide an alternative for individuals to become certificated teachers in Idaho without following a standard teacher education program. Alternative Routes to Certification shall allow individuals to serve as the teacher of record prior to having earned full certification status. The teacher of record is defined as the person who is primarily responsible for planning instruction, delivering instruction, assessing students formatively and summatively, and designating the final grade. Individuals who are currently employed as Para-Educators, individuals who are currently certificated to teach but who are in need of emergency certification in another area, and individuals with strong subject matter background but limited experience with educational methodology shall follow
the alternate certification requirements provided herein. (4-4-13)

**043.01. Alternative Authorization -- Teacher To New Certification.**
The purpose of this alternative authorization is to allow Idaho school districts to request endorsement/certification when a professional position cannot be filled with someone who has the correct endorsement/certification. Alternative authorization in this area is valid for up to three (3) years and is nonrenewable; one year and may be renewed for not more than three (3) years. (5-8-09)

**01. Initial Qualifications.** Prior to application, a candidate must hold a Bachelor’s degree, and a valid Idaho teacher certificate without full endorsement in content area of need. The school district must provide supportive information attesting to the ability of the candidate to fill the position. (5-8-09)

**02.** A candidate must participate in an approved Alternative Route Preparation Program. (3-20-04)

**a. Option I -- Teacher to New Certification/Endorsement.** (5-8-09)

i. The candidate will work toward completion of the alternative route preparation program through a participating college/university, and the employing school district. The candidate must complete a minimum of nine (9) semester credits annually to maintain eligibility. (3-20-04)

ii. The participating college/university shall provide procedures to assess and credit equivalent knowledge, dispositions, and relevant life/work experiences. (3-20-04)

iii. Candidate shall meet all requirements for the endorsement/certificate as provided herein. (3-20-04)

**b. Option II -- National Board (endorsement only).** By earning National Board certification in content specific areas teachers may gain endorsement in a corresponding subject area. (5-8-09)

**c. Option III -- Master’s degree or higher (endorsement only).** By earning a graduate degree in a content specific area, candidates may add an endorsement in that same content area to a valid certificate. (3-20-04)

**d. Option IV -- Testing and/or Assessment (endorsement only).** Two (2) pathways are available to some teachers, depending upon endorsement(s) already held. (5-8-09)

i. Pathway 1 - Endorsements may be added through state-approved testing and a mentoring component. The appropriate test must be successfully completed within the first year of authorization in an area closely compatible with an endorsement for which the candidate already qualifies and is experienced. Additionally requires the successful completion of a one (1)-year state-approved mentoring component. (5-8-09)

ii. Pathway 2 - Endorsements may be added through state-approved testing in an area less closely compatible with an endorsement for which the candidate already qualifies and is experienced. The appropriate test must be successfully completed within the first year of the authorization. Additionally requires the successful completion of a one (1)-year state-approved mentoring component and passing a final pedagogy assessment. (5-8-09)

**044. ALTERNATIVE AUTHORIZATION -- CONTENT SPECIALIST.**
The purpose of this alternative authorization is to offer an expedited route to certification for individuals who are highly and uniquely qualified in a subject area to teach in a district with an identified need for teachers in that area. Alternative authorization in this area is valid for three (3) years and is nonrenewable; one (1) year and may be renewed for not more than three (3) years. (3-20-04)

**01. Initial Qualifications.** (3-20-04)

a. Prior to application, a candidate must hold a Bachelor’s degree or have completed all of the
requirements of a Bachelor’s degree except the student teaching or practicum portion. (4-4-13)

b. The candidate shall meet enrollment qualifications of the alternative route preparation program. The hiring district shall ensure the candidate is highly and uniquely qualified to teach in the area of identified need through demonstrated content knowledge. This may be accomplished through a combination of employment experience and education. (3-20-04)

02. Alternative Route Preparation Program – College/University Preparation or Other State Board Approved Certification Program. (3-20-04)

a. During the first year of authorization, a consortium comprised of a designee from the college/university to be attended or other state board approved certification program, and a representative from the school district, and the candidate shall determine preparation needed to meet the Idaho Standards for Initial Certification of Professional School Personnel. This preparation must include mentoring and a minimum of one (1) classroom observation per month until certified while teaching under the alternative authorization. (3-20-04)

b. Prior to entering the classroom, the candidate must complete eight (8) to sixteen (16) weeks of accelerated study in education pedagogy prior to the end of the first year of authorization. (3-20-04)

c. Candidate will work toward completion of the alternative route preparation program through a participating college/university or other state board approved certification program, and the employing school district. A teacher must attend, participate in, and successfully complete an individualized alternative route preparation program as one (1) of the conditions to receive a recommendation for full certification. (3-20-04)

d. The participating college/university or other state board approved certification program shall provide procedures to assess and credit equivalent knowledge, dispositions and relevant life/work experiences. (3-20-04)

e. Prior to entering the classroom, the candidate shall meet or exceed the state qualifying score on appropriate state-approved content, pedagogy, or performance assessment. (3-20-04)

045. NON-TRADITIONAL ROUTE TO TEACHER CERTIFICATION.

An individual may acquire interim certification as found in Section 045-016 of these rules through an approved non-traditional route certification program. (3-20-14)

01. Approval of the Program. The State Board of Education must approve any non-traditional route to teacher certification. The program must include, at a minimum, the following components: (3-20-14)

a. Preassessment of teaching and content knowledge; (4-6-05)

b. An academic advisor with knowledge of the prescribed instruction area; and (4-6-05)

c. Exams of pedagogy and content knowledge. (4-6-05)

02. Eligibility. Individuals who possess a bachelor’s degree or higher from an accredited institution of higher education may utilize this non-traditional route to an interim Idaho Teacher Certification. (3-20-14)

03. Requirements for Completion. To complete this non-traditional route, the individual must: (3-20-14)

a. Complete a Board approved program; (4-6-05)

b. Pass the Board approved pedagogy and content knowledge exams; and (4-6-05)
04. **Interim Certificate.** Upon completion of the certification process described herein, the individual will be awarded an interim certificate from the State Department of Education’s Bureau of Certification and Professional Standards. The term of the interim certificate shall be three (3) years. During the term of the interim certificate, teaching by the individual must be done in conjunction with a two (2) year a-teacher mentoring program approved by the Board. The individual must complete the mentoring program during the term of the interim certificate. In the case where teachers start their mentoring program in the third year of their interim certificate, they must apply to the State Department of Education Teacher Certification Department for a waiver to complete the final year of their mentoring program for full certification. All laws and rules governing the fully certificated teachers with respect to conduct, discipline and professional standards shall apply to individuals teaching under any Idaho certificate include an interim certificate.

05. **Interim Certificate Not Renewable.** Interim certification hereunder is only available on a one (1) time basis per individual. It will be the responsibility of the individual to obtain a full Idaho Educator Credential during the three (3) year interim certification term.

06. **Types of Certificates and Endorsements.** The non-traditional route may be used for first-time certification, subsequent certificates, and additional endorsements.

046. (RESERVED)

047. **ALTERNATIVE AUTHORIZATION - PUPIL PERSONNEL SERVICES.** The purpose of this alternative authorization is to allow Idaho school districts to request endorsement/certification when a position requiring the Pupil Personnel Services certificate cannot be filled with someone who has the correct endorsement/certification. The exception to this rule is the Interim School Nurse endorsement and the Interim Speech Language Pathologist endorsement. The requirements for these endorsements are already defined in Subsections 02715.04 and 027.08 respectively, of these rules.

01. **Term of Validity.** Alternative authorization in this area is valid for three (3) years and will be reviewed annually and is nonrenewable.

02. **Initial Qualifications.** The applicant must complete the following:

   a. Prior to application, a candidate must hold a Masters degree and hold a current Idaho license from the Bureau of Occupational Licenses in the area of desired certification; and

   b. The employing school district must provide supportive information attesting to the ability of the candidate to fill the position.

03. **Alternative Route Preparation Program.**

   a. The candidate must work toward completion of the alternative route preparation program through a participating college/university and the employing school district.

   b. The candidate must complete a minimum of nine (9) semester credits annually to be eligible for extension of up to a total of three (3) years.

   c. The participating college/university or the State Department of Education will provide procedures to assess and credit equivalent knowledge, dispositions, and relevant life/work experiences.

   d. The candidate must meet all requirements for the endorsement/certificate as provided herein.

048. -- 059. (RESERVED)
060. APPLICATION PROCEDURES / PROFESSIONAL DEVELOPMENT.

01. Application for Idaho Certificate. To obtain, renew, or reinstate an Idaho certificate, the applicant will submit an application on a form supplied by the State Department of Education or the State Division of Professional-Technical Education.

02. State Board of Education Requirements for Professional Growth.

a. Credits taken for recertification must be educationally related to the professional development of the applicant.

i. Credits must be specifically tied to content areas and/or an area of any other endorsement; or

ii. Credits must be specific to pedagogical best practices or for administrative/teacher leadership; or

iii. Credits must be tied to a specific area of need designated by district administration.

b. Graduate or undergraduate credit will be accepted for recertification. Credit must be college transferable and completed through an accredited college or university.

c. All requests for equivalent inservice training to apply toward recertification must be made through the State Department of Education upon recommendation of the board of trustees consistent with the State Department of Education guidelines. Individuals holding Professional-Technical Specialist Certificates must receive State Division of Professional-Technical Education approval of inservice training and course work prior to applying for renewal.

d. At least fifteen (15) hours of formal instruction must be given for each hour of inservice credit granted.

e. Recertification credits may not be carried over from one (1) recertification period to the next.

f. Certificated personnel teaching in subjects outside their major area of preparation will be encouraged to complete the courses required for major certification endorsement.

g. All credits gained through coursework taken during the validity period of the certificate and commencing prior to September 1, 2008 shall be accepted toward recertification.

h. An appeals process, developed by the State Department of Education in conjunction with the Professional Standards Commission, shall be available to applicants whose credits submitted for recertification, in part or as a whole, are rejected for any reason if such denial prevents an applicant from renewing an Idaho certificate. An applicant whose credits submitted for recertification are rejected, in part or as a whole, within six (6) months of the expiration of the applicant’s current certification shall be granted an automatic appeal and a temporary certification extension during the appeal or for one (1) year, whichever is greater.

03. State Board of Education Professional Development Requirements.

a. Districts will have professional development plans.

b. All certificated personnel will be required to complete at least six (6) semester hours or the equivalent within the five (5) year period of validity of the certificate being renewed.
c. At least three (3) semester credits will be taken for university or college credit. Verification will be by official transcript. (4-1-97)

061. -- 065. (RESERVED)

066. FEES.
The state department of education shall maintain a record of all certificates issued, showing names, dates of issue and renewal, and if revoked, the date thereof and the reason therefor. A nonrefundable fee shall accompany each application for a prekindergarten through grade twelve (12) certificate, alternate certificate, change in certificate or replacement as follows:

- 01. Initial Certificate. All types, issued for five (5) years -- seventy-five dollars ($75) (3-16-04)
- 02. Renewal Certificate. All types, issued for five (5) years -- seventy-five dollars ($75). (3-16-04)
- 03. Alternate Route Authorization. All types, issued for one (1) year -- one hundred dollars ($100) (3-16-04)
- 04. Additions or Changes During the Life of an Existing Certificate. Twenty-five dollars ($25) (3-16-04)
- 05. To Replace an Existing Certificate. Ten dollars ($10). (3-16-04)

067. -- 074. (RESERVED)

075. FINGERPRINTING AND CRIMINAL HISTORY CHECKS (SECTIONS 33-130 AND 33-512, IDAHO CODE).
All certificated and noncertificated employees and other individuals who are required by the provisions of Section 33-130, Idaho Code, must undergo a criminal history check. (4-9-09)

01. Definitions. (4-9-09)

a. Applicant. An individual applying for Idaho Certification or a certificated or non-certificated individual applying for employment. (4-9-09)

b. Break-in-Service. A voluntary or involuntary termination in employment, including retirement. (4-9-09)

c. Candidate. An individual attending a postsecondary program. (4-9-09)

d. Certificated Employee. An individual who holds an Idaho education certificate and is employed in a certificated position in a LEA. (4-9-09)

e. Contractor. An agency, company/business, or individual that has signed a contract or agreement to provide services to an LEA and private or parochial school. (4-9-09)

f. Conviction. The final judgment on a verdict or finding of guilty, a plea of guilty, a plea of nolo contendere, or the sentence has been suspended, deferred, or withheld on a felony or misdemeanor as defined by Section 18-110 and Section 18-111, Idaho Code. (4-9-09)

g. Criminal History Check (CHC). A ten (10) finger fingerprint process to determine if an applicant has criminal arrests and convictions in Idaho, any other state, or applicable jurisdictions. (4-9-09)

h. Criminal History Check Result. Information resulting from processing fingerprints through the databases maintained by the Bureau of Criminal Identification (BCI), Federal Bureau of Investigation (FBI) and the Idaho Statewide Sex Offender Registry. (4-9-09)
i. Irregular Contact. Contact that is not on a daily or weekly basis, or has a regular scheduled interaction with students. (4-9-09)

j. Multiple Assignments. When an individual works in two or more LEAs or an LEA and private school simultaneously. (4-9-09)

k. Non-Certificated Employee. An individual employed in a non-certificated position. (4-9-09)

l. Open Date. The date a fingerprint card or scan is entered into the database as an electronic file. (4-9-09)

m. Rejected Fingerprint Cards. A fingerprint card that has been returned by the BCI, FBI or SDE for poor quality prints, lack of signature, card being older than six (6) months, or other incomplete information. (4-9-09)

n. Scan. The process of capturing an individual’s fingerprints by an electronic process. (4-9-09)

o. Unsupervised Contact. Direct contact or interaction with students not under the direct supervision of a school district employee on a continuing basis in a K-12 setting. This includes contact or interaction with students in scheduled school activities that occur outside of the school or outside of normal school hours. This excludes extra-curricular trips of one-day length starting during the school day. (4-9-09)

02. Fee. The SDE shall charge a forty dollars ($40) fee for undergoing a criminal history check. (4-9-09)

03. Rejected Fingerprint Cards or Scans. (4-9-09)
   a. When a fingerprint card has been rejected a new completed fingerprint card is required. (4-9-09)
   b. The rejected fingerprint card will be sent back to the originating LEA, private or parochial school, contractors, postsecondary program, or individual. (4-9-09)
   c. A new fingerprint card must be completed by a law enforcement agency to ensure legible fingerprints. Both the rejected fingerprint card and the new fingerprint card must be returned to the SDE within twenty (20) calendar days. (4-9-09)
   d. If the new fingerprint card and rejected fingerprint card are returned after the twenty (20) calendar day time period a forty dollar ($40) fee is required to be paid. (4-9-09)

04. Secured CHC Website. The SDE will maintain a CHC website listing the CHC results. The LEA, private or parochial school, contractor or postsecondary program may view the results or status of an applicant, employee or candidate. (4-9-09)
   a. Upon a signed agreement the SDE will issue a password to access the CHC website. (4-9-09)
   b. Each LEA, private or parochial school, contractor and postsecondary program will have access to the CHC secure site listing their employees, statewide substitute teacher list, newly certified list and student teacher list. (4-9-09)

05. Fingerprinting & Criminal History Checks. (4-9-09)
   a. The SDE will maintain a list of newly certificated educators. Educators stay on this list for one (1) year from their individual open date. Educators on this list may be employed by a LEA without a new CHC. (4-9-09)
   b. The SDE will make the final determination if an applicant is eligible for Idaho certification. (4-9-09)
If the SDE makes a determination that the applicant is not eligible for Idaho certification, the SDE may deny the applicant Idaho certification. Upon receiving the written denial the applicant may request a hearing pursuant to Section 33-1209, Idaho Code. (4-9-09)

**Non-Certificated Employees.** Non-certificated employees are required to complete a CHC pursuant to Section 33-130, Idaho Code. The CHC results will be posted on the CHC website for their employer to review. (4-9-09)

**Substitute Teachers.** Substitute teachers as defined in Section 33-512(15), Idaho Code, must undergo a criminal history check. The SDE shall maintain a statewide substitute teacher list. To remain on the list on the list a substitute teacher shall undergo a criminal history check every five (5) years in accordance with Section 33-512, Idaho Code. Substitute teachers on the list do not need to complete a multiple assignment form nor are subject to break in service provisions. (4-9-09)

**Break In Service.**

a. When an employee returns to any LEA after a break in service a new criminal history check must be completed. (4-9-09)

b. When an employee changes employment between LEAs a new CHC must be completed regardless of the most recent CHC. (4-9-09)

**Postsecondary.**

a. The postsecondary program will submit a completed fingerprint card or scan for all candidates who are applying for student teaching, internships or practicum. (4-9-09)

b. The SDE will make a preliminary determination based on the CHC result if the candidate is eligible for certification in Idaho. This decision will be forwarded to the postsecondary program concerning the eligibility of their candidate. (4-9-09)

c. The SDE will move a candidate from the student teacher list to the newly certified list when an application for certification is approved. (4-9-09)

**CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE).**

Believing in the worth and dignity of each human being, the professional educator recognizes the supreme importance of pursuing truth, striving toward excellence, nurturing democratic citizenship and safeguarding the freedom to learn and to teach while guaranteeing equal educational opportunity for all. The professional educator accepts the responsibility to practice the profession according to the highest ethical principles. The Code of Ethics for Idaho Professional Educators symbolizes the commitment of all Idaho educators and provides principles by which to judge conduct. (3-20-04)

**Aspirations and Commitments.**

a. The professional educator aspires to stimulate the spirit of inquiry in students and to provide opportunities in the school setting that will help them acquire viable knowledge, skills, and understanding that will meet their needs now and in the future. (3-20-04)

b. The professional educator provides an environment that is safe to the cognitive, physical and psychological well-being of students and provides opportunities for each student to move toward the realization of his goals and potential as an effective citizen. (3-20-14)

c. The professional educator, recognizing that students need role models, will act, speak and teach in such a manner as to exemplify nondiscriminatory behavior and encourage respect for other cultures and beliefs.
PLANNING, POLICY AND GOVERNMENTAL AFFAIRS
AUGUST 13, 2015

02. Principle I - Professional Conduct. A professional educator abides by all federal, state, and local education laws and statutes. Unethical conduct shall include the conviction of any felony or misdemeanor offense set forth in Section 33-1208, Idaho Code.

03. Principle II - Educator/Student Relationship. A professional educator maintains a professional relationship with all students, both inside and outside the physical and virtual classroom. Unethical conduct includes, but is not limited to:

a. Committing any act of child abuse, including physical or emotional abuse;

b. Committing any act of cruelty to children or any act of child endangerment;

c. Committing or soliciting any sexual act from any minor or any student regardless of age;

d. Committing any act of harassment as defined by district policy;

e. Soliciting, encouraging, or consummating a romantic or inappropriate relationship (whether written, verbal, virtual, or physical) with a student, regardless of age;

f. Using inappropriate language including, but not limited to, swearing and improper sexual comments (e.g., sexual innuendoes or sexual idiomatic phrases);

g. Taking or possessing images (digital, photographic, or video) of students of a harassing, confidential, or sexual nature;

h. Inappropriate contact with any minor or any student regardless of age using electronic media;

i. Furnishing alcohol or illegal or unauthorized drugs to any student or allowing or encouraging a student to consume alcohol or unauthorized drugs except in a medical emergency;

j. Conduct that is detrimental to the health or welfare of students; and

k. Deliberately falsifying information presented to students.

04. Principle III - Alcohol and Drugs Use or Possession. A professional educator refrains from the abuse of alcohol or drugs during the course of professional practice. Unethical conduct includes, but is not limited to:
a. Being on school premises or at any school-sponsored activity, home or away, involving students while possessing, using, or consuming illegal or unauthorized drugs; (3-20-04)

b. Being on school premises or at any school-sponsored activity, home or away, involving students while possessing, using, or consuming alcohol; (3-20-04)

c. Inappropriate or illegal use of prescription medications on school premises or at any school-sponsored events, home or away; (4-11-06)

d. Inappropriate or illegal use of drugs or alcohol that impairs the individual’s ability to function; and (4-11-06)

e. Possession of an illegal drug as defined in Chapter 27, Idaho Code, Uniform Controlled Substances. (3-20-04)

05. **Principle IV - Professional Integrity.** A professional educator exemplifies honesty and integrity in the course of professional practice. Unethical conduct includes, but is not limited to:

a. Fraudulently altering or preparing materials for licensure or employment; (3-20-14)

b. Falsifying or deliberately misrepresenting professional qualifications, degrees, academic awards, and related employment history when applying for employment or licensure; (3-20-04)

c. Failure to notify the state at the time of application for licensure of past revocations or suspensions of a certificate or license from another state; (3-20-04)

d. Failure to notify the state at the time of application for licensure of past criminal convictions of any crime violating the statutes or rules governing teacher certification; (3-20-14)

e. Falsifying, deliberately misrepresenting, or deliberately omitting information regarding the evaluation of students or personnel, including improper administration of any standardized tests (changing test answers; copying or teaching identified test items; unauthorized reading of the test to students, etc.); (4-11-06)

f. Falsifying, deliberately misrepresenting, or deliberately omitting reasons for absences or leaves; (3-20-04)

g. Falsifying, deliberately misrepresenting, or deliberately omitting information submitted in the course of an official inquiry or investigation; (3-20-14)

h. Falsifying, deliberately misrepresenting, or deliberately omitting material information on an official evaluation of colleagues; and (3-20-14)

i. Failure to notify the state of any criminal conviction of a crime violating the statutes and/or rules governing teacher certification. (3-20-14)

06. **Principle V - Funds and Property.** A professional educator entrusted with public funds and property honors that trust with a high level of honesty, accuracy, and responsibility. Unethical conduct includes, but is not limited to:

a. Misuse, or unauthorized use, of public or school-related funds or property; (3-20-04)

b. Failure to account for school funds collected from students, parents, or patrons; (3-20-14)

c. Submission of fraudulent requests for reimbursement of expenses or for pay; (3-20-04)
d. Co-mingling of public or school-related funds in personal bank account(s); (3-20-04)

e. Use of school property for private financial gain; (3-20-14)

f. Use of school computers to deliberately view or print pornography; and, (3-20-04)

g. Deliberate use of poor budgeting or accounting practices. (3-20-04)

07. **Principle VI - Compensation.** A professional educator maintains integrity with students, colleagues, parents, patrons, or business personnel when accepting gifts, gratuities, favors, and additional compensation. Unethical conduct includes, but is not limited to:

   a. Unauthorized solicitation of students or parents of students to purchase equipment, supplies, or services from the educator who will directly benefit; (3-20-14)

   b. Acceptance of gifts from vendors or potential vendors for personal use or gain where there may be the appearance of a conflict of interest; (3-20-04)

   c. Tutoring students assigned to the educator for remuneration unless approved by the local board of education; and, (3-20-04)

   d. Soliciting, accepting, or receiving a financial benefit greater than fifty dollars ($50) as defined in Section 18-1359(b), Idaho Code. (3-20-14)

08. **Principle VII - Confidentiality.** A professional educator complies with state and federal laws and local school board policies relating to the confidentiality of student and employee records, unless disclosure is required or permitted by law. Unethical conduct includes, but is not limited to:

   a. Sharing of confidential information concerning student academic and disciplinary records, personal confidences, health and medical information, family status or income, and assessment or testing results with inappropriate individuals or entities; and (3-20-04)

   b. Sharing of confidential information about colleagues obtained through employment practices with inappropriate individuals or entities. (3-20-04)

09. **Principle VIII - Breach of Contract or Abandonment of Employment.** A professional educator fulfills all terms and obligations detailed in the contract with the local board of education or education agency for the duration of the contract. Unethical conduct includes, but is not limited to:

   a. Abandoning any contract for professional services without the prior written release from the contract by the employing school district or agency; (3-20-14)

   b. Willfully refusing to perform the services required by a contract; and, (3-20-04)

   c. Abandonment of classroom or failure to provide appropriate supervision of students at school or school-sponsored activities to ensure the safety and well-being of students. (3-20-04)

10. **Principle IX - Duty to Report.** A professional educator reports breaches of the Code of Ethics for Idaho Professional Educators and submits reports as required by Idaho Code. Unethical conduct includes, but is not limited to:

   a. Failure to comply with Section 33-1208A, Idaho Code, (reporting requirements and immunity); (3-20-04)

   b. Failure to comply with Section 16-1605, Idaho Code, (reporting of child abuse, abandonment or neglect); (4-11-06)
c. Failure to comply with Section 33-512B, Idaho Code, (suicidal tendencies and duty to warn); and (4-11-06)

d. Having knowledge of a violation of the Code of Ethics for Idaho Professional Educators and failing to report the violation to an appropriate education official. (3-20-04)

11. **Principle X - Professionalism.** A professional educator ensures just and equitable treatment for all members of the profession in the exercise of academic freedom, professional rights and responsibilities while following generally recognized professional principles. Unethical conduct includes, but is not limited to: (3-20-14)

   a. Any conduct that seriously impairs the Certificate holder’s ability to teach or perform his professional duties; (3-20-04)

   b. Committing any act of harassment toward a colleague; (4-11-06)

   c. Failure to cooperate with the Professional Standards Commission in inquiries, investigations, or hearings; (3-20-04)

   d. Using institutional privileges for the promotion of political candidates or for political activities, except for local, state or national education association elections; (4-11-06)

   e. Willfully interfering with the free participation of colleagues in professional associations; and (4-11-06)

   f. Taking or possessing images (digital, photographic or video) of colleagues of a harassing, confidential, or sexual nature. (4-11-15)

077. **DEFINITIONS FOR USE WITH THE CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE).**

01. **Administrative Complaint.** A document issued by the State Department of Education outlining the specific, purported violations of Section 33-1208, Idaho Code, or the Code of Ethics for Idaho Professional Educators. (3-20-04)

02. **Allegation.** A purported violation of the Code of Ethics for Idaho Professional Educators or Idaho Code. (3-20-04)

03. **Certificate.** A document issued by the Department of Education under the authority of the State Board of Education allowing a person to serve in any elementary or secondary school in the capacity of teacher, supervisor, administrator, education specialist, school nurse or school librarian (Section 33-1201, Idaho Code). (3-20-04)

04. **Certificate Denial.** The refusal of the state to grant a certificate for an initial or reinstatement application. (3-20-04)

05. **Certificate Suspension.** A time-certain invalidation of any Idaho certificate as determined by a stipulated agreement or a due process hearing panel as set forth in Section 33-1209, Idaho Code. (3-20-04)

06. **Complaint.** A signed document defining the allegation that states the specific ground or grounds for revocation, suspension, denial, place reasonable conditions on a certificate or issuance of a letter of reprimand (Section 33-1209(1), Idaho Code). The State Department of Education may initiate a complaint. (4-11-06)

07. **Conditional Certificate.** Allows an educator to retain licensure under certain stated Certificate conditions as determined by the Professional Standards Commission (Section 33-1209(10), Idaho Code). (3-20-04)
08. **Contract.** Any signed agreement between the school district and a certificated educator pursuant to Section 33-513(1), Idaho Code. (3-20-04)

09. **Conviction.** Refers to all instances regarding a finding of guilt by a judge or jury; a plea of guilt by Nolo Contendere or Alford plea; or all proceedings in which a sentence has been suspended, deferred or withheld. (3-20-04)

10. **Educator.** A person who holds or applies for an Idaho Certificate (Section 33-1001(16) and Section 33-1201, Idaho Code). (3-20-04)

11. **Education Official.** An individual identified by local school board policy, including, but not limited to, a superintendent, principal, assistant principal, or school resource officer (SRO). (3-20-04)

12. **Executive Committee.** A decision-making body comprised of members of the Professional Standards Commission, including the chair and/or vice-chair of the Commission. A prime duty of the Committee is to review purported violations of the Code of Ethics for Idaho Professional Educators to determine probable cause and direction for possible action to be taken against a Certificate holder. (3-20-14)

13. **Hearing.** A formal review proceeding that ensures the respondent due process. The request for a hearing is initiated by the respondent and is conducted by a panel of peers. (3-20-04)

14. **Hearing Panel.** A minimum of three (3) educators appointed by the chair of the Professional Standards Commission and charged with the responsibility to make a final determination regarding the charges specifically defined in the Administrative Complaint. (3-20-04)

15. **Investigation.** The process of gathering factual information concerning a valid, written complaint in preparation for review by the Professional Standards Commission Executive Committee, or following review by the Executive Committee at the request of the deputy attorney general assigned to the Department of Education. (3-20-14)

16. **Minor.** Any individual who is under eighteen (18) years of age. (3-20-04)

17. **Not-Sufficient Grounds.** A determination by the Executive Committee that there is not-sufficient evidence to take action against an educator’s certificate. (3-20-14)

18. **Principles.** Guiding behaviors that reflect what is expected of professional educators in the state of Idaho while performing duties as educators in both the private and public sectors. (3-20-04)

19. **Reprimand.** A written letter admonishing the Certificate holder for his conduct. The reprimand cautions that further unethical conduct may lead to consideration of a more severe action against the holder’s Certificate. (3-20-04)

20. **Respondent.** The legal term for the professional educator who is under investigation for a purported violation of the Code of Ethics for Idaho Professional Educators. (3-20-04)

21. **Revocation.** The invalidation of any Certificate held by the educator. (3-20-04)

22. **Stipulated Agreement.** A written agreement between the respondent and the Professional Standards Commission to resolve matters arising from an allegation of unethical conduct following a complaint or an investigation. The stipulated agreement is binding to both parties and is enforceable under its own terms, or by subsequent action by the Professional Standards Commission. (3-20-04)

23. **Student.** Any individual enrolled in any Idaho public or private school from preschool through grade 12. (3-20-04)

24. **Sufficient Grounds.** A determination by the Executive Committee that sufficient evidence exists
to issue an Administrative Complaint. (3-20-04)

078. -- 089. (RESERVED)

090. INTERSTATE CERTIFICATION COMPACT.
Idaho participates in the Interstate Agreement of Qualification of Education Personnel. This agreement applies equally to teachers entering Idaho from another compact member state and to teachers entering another compact member state from Idaho. The compact applies to classroom teachers only. Trades and industries teachers are not covered by the agreement. (Section 33-4104, Idaho Code) (4-1-97)

091. -- 099. (RESERVED)

100. OFFICIAL VEHICLE FOR APPROVING TEACHER EDUCATION PROGRAMS.
(Section 33-114, Idaho Code) (4-1-97)

01. The Official Vehicle for the Approval of Teacher Education Programs. The official vehicle for the approval of teacher education programs will be the Council for the Accreditation of Educator Preparation (CAEP) approved Idaho Standards for the Initial Certification of Professional School Personnel. The Idaho Standards are based upon the accepted national standards for educator preparation and include state-specific, core teaching requirements. The State Department of Education will transmit to the head of each Idaho college or department of education a copy of all revisions to the Idaho Standards for the Initial Certification of Professional School Personnel. Such revisions will take effect and must be implemented within a period not to exceed two (2) years after notification of such revision. (3-12-14)

02. Reference Availability. The Idaho Standards for the Initial Certification of Professional School Personnel, incorporated by reference in Subsection 004.01, are available for inspection on the Office of the State Board of Education’s website at www.boardofed.idaho.gov. (3-29-12)

03. Continuing Approval.

a. The state of Idaho will follow the National Council for Accreditation of Teacher Education (NCATE) model by which institutions shall pursue continuing approval through a full program review every seven (7) years. The full program review shall be based upon the Idaho Standards for Initial Certification of Professional School Personnel. (3-29-12)

b. The state of Idaho will additionally conduct focused reviews of state-specific, core teaching requirements in the interim, not to exceed every third year following the full program review. (3-29-12)

04. Payment Responsibilities for Teacher Preparation Program Reviews. The Professional Standards Commission is responsible for Idaho teacher preparation program reviews, including assigning responsibility for paying for program reviews. To implement the reviews, it is necessary that:

a. The Professional Standards Commission pay for all in-state expenses for on-site teacher preparation reviews from its budget. (4-6-05)

b. Requesting institutions pay for all out-of-state expenses related to on-site teacher preparation program reviews. (4-6-05)

101. -- 109. (RESERVED)

110. PERSONNEL STANDARDS.
The State Board of Education supports the efforts made by the Idaho Legislature to lower class size. Significant progress has been made in grades one through three (1-3). The State Board of Education believes that class sizes in grades four through six (4-6) are too high. Districts are encouraged to lower all class sizes as funds become available. Each district will develop personnel policies and procedures to implement the educational program of the district. The
policies and procedures will address representation in each of the following personnel areas, as appropriate to student enrollment and the needs of each attendance area. Districts should strive to achieve ratios consistent with state class size ratio goals.

**INSTRUCTIONAL PERSONNEL**

Schools are encouraged to explore technological options that provide for credible alternative delivery systems. Present and emerging information transmission technology may provide for greater teacher/pupil class size ratios.

**PUPIL PERSONNEL**

| (Certificated School Counselors, Social Workers, Psychologists) | 400:1 * student/district average |
| Secondary Media Generalist and Assistants                     | 500:1 * student/district average |
| Elementary Media Generalist or Assistants                      | 500:1 * student/district average |
| Building Administrative Personnel                              | Not to exceed 500:1 * district average |

* The stated pupil to personnel ratio is the goal; each school district will assign personnel as appropriate to student enrollment and the needs of each attendance area.

Classroom Assistants - State Goal: will be provided where the student/teacher ratio is deemed excessive by the district or where other student special needs exist (e.g., limited English proficiency or special education).

Classified Personnel - State Goal: will be employed in each building to support the needs of the staff, students, and community. (4-1-97)

111. -- 119. (RESERVED)

120. LOCAL DISTRICT EVALUATION POLICY -- TEACHER AND PUPIL PERSONNEL CERTIFICATE HOLDERS.

Each school district board of trustees will develop and adopt policies for teacher performance evaluation using multiple measures in which criteria and procedures for the evaluation of certificated personnel are research based and aligned to Charlotte Danielson Framework for Teaching Second Edition domains and components of instruction. The process of developing criteria and procedures for certificated personnel evaluation will allow opportunities for input from those affected by the evaluation; i.e., trustees, administrators, teachers, and parents. The evaluation policy will
be a matter of public record and communicated to the certificated personnel for whom it is written. (3-20-14)

01. Standards. Each district evaluation model shall be aligned to state minimum standards that are based on Charlotte Danielson’s Framework for Teaching Second Edition domains and components of instruction. Those domains and components include:

a. Domain 1 - Planning and Preparation:
   i. Demonstrating Knowledge of Content and Pedagogy; (3-29-10)
   ii. Demonstrating Knowledge of Students; (3-29-10)
   iii. Setting Instructional Outcomes; (3-20-14)
   iv. Demonstrating Knowledge of Resources; (3-29-10)
   v. Designing Coherent Instruction; and (3-29-10)
   vi. Designing Student Assessments. (3-29-12)

b. Domain 2 - The Classroom Environment:
   i. Creating an Environment of Respect and Rapport; (3-29-10)
   ii. Establishing a Culture for Learning; (3-29-10)
   iii. Managing Classroom Procedures; (3-29-10)
   iv. Managing Student Behavior; and (3-29-10)
   v. Organizing Physical Space. (3-29-10)

c. Domain 3 - Instruction and Use of Assessment:
   i. Communicating with Students; (3-29-12)
   ii. Using Questioning and Discussion Techniques; (3-29-10)
   iii. Engaging Students in Learning; (3-29-10)
   iv. Using Assessment in Instruction; and (3-29-12)
   v. Demonstrating Flexibility and Responsiveness. (3-29-12)

d. Domain 4 - Professional Responsibilities:
   i. Reflecting on Teaching; (3-29-10)
   ii. Maintaining Accurate Records; (3-29-10)
   iii. Communicating with Families; (3-29-10)
   iv. Participating in a Professional Community; (3-29-12)
   v. Growing and Developing Professionally; and (3-29-10)
02. **Professional Practice.** For evaluations conducted on or after July 1, 2013, all certificated instructional employees must receive an evaluation in which at least sixty-seven percent (67%) of the evaluation results are based on Professional Practice. All measures included within the Professional Practice portion of the evaluation must be aligned to the Charlotte Danielson Framework for Teaching Second Edition. The measures included within the Professional Practice portion of the evaluation shall include a minimum of two (2) documented observations annually, with at least one (1) observation being completed by January 1 of each year. In situations where certificated personnel are unavailable for two (2) documented classroom observations, due to situations such as long-term illness, late year hire, etc., one (1) documented classroom observation is acceptable. District evaluation models shall also include at least one (1) of the following as a measure to inform the Professional Practice portion of all certificated instructional employee evaluations:

a. Parent/guardian input;  
b. Student input; and/or  
c. Portfolios.

03. **Student Achievement.** For evaluations conducted on or after July 1, 2013, all certificated instructional employees, principals and superintendents must receive an evaluation in which at least thirty-three percent (33%) of the evaluation results are based on multiple objective measures of growth in student achievement as determined by the board of trustees and based upon research. For evaluations conducted on or after July 1, 2014, growth in student achievement as measured by Idaho’s statewide assessment for Federal accountability purposes must be included. This portion of the evaluation may be calculated using current and/or past year’s data and may use one (1) or multiple years of data. Growth in student achievement may be considered as an optional measure for all other school based and district based staff, as determined by the local board of trustees.

04. **Participants.** Each district evaluation policy will include provisions for evaluating all certificated employees identified in Section 33-1001, Idaho Code, Subsection 16. Evaluations shall be differentiated for certificated non-instructional employees and pupil personnel certificate holders in a way that aligns with the Charlotte Danielson Framework for Teaching Second Edition to the extent possible. Policies for evaluating certificated employees should identify the differences, if any, in the conduct of evaluations for nonrenewable contract personnel and renewable contract personnel.

05. **Evaluation Policy - Content.** Local school district policies will include, at a minimum, the following information:

a. Purpose -- statements that identify the purpose or purposes for which the evaluation is being conducted; e.g., individual instructional improvement, personnel decisions.  

b. Evaluation criteria -- statements of the general criteria upon which certificated personnel will be evaluated.  

c. Evaluator -- identification of the individuals responsible for appraising or evaluating certificated instructional staff and pupil personnel performance. The individuals assigned this responsibility shall have received training in evaluation and prior to September 1, 2018, shall demonstrate proof of proficiency in conducting observations and evaluating effective teacher performance by passing a proficiency assessment approved by the State Department of Education as a onetime recertification requirement.  

d. Sources of data -- description of the sources of data used in conducting certificated personnel evaluations. For certificated instructional staff, a minimum of two (2) documented classroom observations shall be included as one (1) source of data. At least one (1) of those observations must be completed prior to January 1 of each year. In situations where certificated personnel are unavailable for two (2) documented classroom observations, due to situations such as long-term illness, late year hire, etc., one (1) documented classroom observation is acceptable.
Parent/guardian input, student input and/or portfolios shall be considered as sources of data to support professional practice. (4-11-15)

e. Procedure -- description of the procedure used in the conduct of certificated personnel evaluations. (4-1-97)

f. Communication of results -- the method by which certificated personnel are informed of the results of evaluation. (4-1-97)

g. Personnel actions -- the action available to the school district as a result of the evaluation and the procedures for implementing these actions; e.g., job status change. Note: in the event the action taken as a result of evaluation is to not renew an individual’s contract or to renew an individual’s contract at a reduced rate, school districts should take proper steps to follow the procedures outlined in Sections 33-513 through 33-515, Idaho Code in order to assure the due process rights of all personnel. (3-20-14)

h. Appeal -- the procedure available to the individual for appeal or rebuttal when disagreement exists regarding the results of certificated personnel evaluations. (4-1-97)

i. Remediation -- the procedure available to provide remediation in those instances where remediation is determined to be an appropriate course of action. (4-1-97)

j. Monitoring and evaluation. -- A description of the method used to monitor and evaluate the district’s personnel evaluation system. (4-1-97)

k. Professional development and training -- a plan for ongoing training for evaluators/administrators and teachers on the districts evaluation standards, tool and process. (3-29-10)

l. Funding -- a plan for funding ongoing training and professional development for administrators in evaluation. (3-29-10)

m. Collecting and using data -- a plan for collecting and using data gathered from the evaluation tool that will be used to inform professional development. Aggregate data shall be considered as part of the district and individual schools Needs Assessment in determining professional development offerings. (3-20-14)

n. Individualizing teacher evaluation rating system -- a plan for how evaluations will be used to identify proficiency and record growth over time. No later than July 1, 2013, districts shall have established an individualized teacher evaluation rating system with a minimum of three (3) rankings used to differentiate performance of teachers and pupil personnel certificate holders including:

i. Unsatisfactory being equal to “1”; (3-20-14)

ii. Basic being equal to “2”; and (3-20-14)

iii. Proficient being equal to “3”. (3-20-14)

o. A plan for including all stakeholders including, but not limited to, teachers, board members, administrators, and parents in the development and ongoing review of their teacher evaluation plan. (3-20-14)

06. Evaluation Policy - Frequency of Evaluation. The evaluation policy shall include a provision for evaluating all certificated personnel on a fair and consistent basis. (3-20-14)

07. Evaluation Policy - Personnel Records. Permanent records of each certificated personnel evaluation will be maintained in the employee’s personnel file. All evaluation records will be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy (Section 33-518, Idaho Code). Local school districts shall report the rankings of individual certificated personnel evaluations to the State Department of Education annually for State and Federal reporting purposes. The State Department of Education shall ensure that
the privacy of all certificated personnel is protected by not releasing statistical data of evaluation rankings in local school districts with fewer than five (5) teachers and by only reporting that information in the aggregate by local school district. (3-20-14)

08. Evaluation System Approval. Each school district board of trustees will develop and adopt policies for teacher and pupil personnel certificated performance evaluation in which criteria and procedures for the evaluation are research based and aligned with the Charlotte Danielson Framework for Teaching Second Edition. By July 1, 2014, an evaluation plan which incorporates all of the above elements shall be submitted to the State Department of Education for approval. Once approved, subsequent changes made in the evaluation system shall be resubmitted for approval. (3-20-14)

121. LOCAL DISTRICT EVALUATION POLICY - SCHOOL PRINCIPAL. For principal evaluations conducted on or after July 1, 2014, each school district board of trustees will develop and adopt policies for principal performance evaluation using multiple measures in which criteria and procedures for the evaluation of administratively certificated personnel serving as school principal are research based and aligned to the standards and requirements outlined in Subsections 121.01 through 121.07 of this rule. Districts must, at a minimum, pilot such an evaluation during the 2013-2014 school year and report the results of that pilot to the State Department of Education no later than July 1, 2014, in a format determined by the Department. The process of developing criteria and procedures for principal evaluation will allow opportunities for input from those affected by the evaluation; i.e., trustees, administrators, teachers and parents. The evaluation policy will be a matter of public record and communicated to the principal for whom it is written. (3-20-14)

01. Standards. Each district principal evaluation model shall be aligned to state minimum standards based on the Interstate School Leaders Licensure Consortium (ISLLC) standards and include proof of proficiency in conducting teacher evaluations using the state’s adopted model, the Charlotte Danielson Framework for Teaching Second Edition. Proof of proficiency in evaluating teacher performance shall be required of all individuals assigned the responsibility for appraising, observing, or evaluating certificated personnel performance. Those responsible for measuring teacher performance are district leadership such as principals, assistant principals, special education directors, and superintendents. Proof of proficiency in evaluating performance shall be demonstrated by passing a proficiency assessment approved by the State Department of Education as a one-time recertification requirement prior to September 1, 2018. Principal evaluation standards shall additionally address the following domains and components: (4-11-15)

a. Domain 1: School Climate - An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs. (3-20-14)

i. School Culture - Principal establishes a safe, collaborative, and supportive culture ensuring all students are successfully prepared to meet the requirements for tomorrow’s careers and life endeavors. (3-20-14)

ii. Communication - Principal is proactive in communicating the vision and goals of the school or district, the plans for the future, and the successes and challenges to all stakeholders. (3-20-14)

iii. Advocacy - Principal advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement. (3-20-14)

b. Domain 2: Collaborative Leadership - An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. The educational leader uses research and/or best practices in improving the education program. (3-20-14)

i. Shared Leadership - Principal fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth. (3-20-14)
ii. Priority Management - Principal organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities. (3-20-14)

iii. Transparency - Principal seeks input from stakeholders and takes all perspectives into consideration when making decisions. (3-20-14)

iv. Leadership Renewal - Principal strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others. (3-20-14)

v. Accountability - Principal establishes high standards for professional, legal, ethical, and fiscal accountability for self and others. (3-20-14)

c. Domain 3: Instructional Leadership - An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. The educational leader provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program. (3-20-14)

i. Innovation - Principal seeks and implements innovative and effective solutions that comply with general and special education law. (3-20-14)

ii. Instructional Vision - Principal insures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn. (3-20-14)

iii. High Expectations - Principal sets high expectation for all students academically, behaviorally, and in all aspects of student well-being. (3-20-14)

iv. Continuous Improvement of Instruction - Principal has proof of proficiency in assessing teacher performance based upon the Charlotte Danielson Framework for Teaching Second Edition. Aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision. (3-20-14)

v. Evaluation - Principal uses teacher/principal evaluation and other formative feedback mechanisms to continuously improve teacher/principal effectiveness. (3-20-14)

vi. Recruitment and Retention - Principal recruits and maintains a high quality staff. (3-20-14)

02. Professional Practice. For evaluations conducted on or after July 1, 2014, all principals must receive an evaluation in which sixty-seven percent (67%) of the evaluation results are based on Professional Practice. All measures included within the Professional Practice portion of the evaluation must be aligned to the Domains and Components listed in Subsection 121.01.a. through 121.01.c. of this rule. As a measure to inform the Professional Practice portion of all principal evaluations, district evaluation models shall also include at least one (1) of the following: (3-20-14)

a. Parent/guardian input; (3-20-14)

b. Teacher input; (3-20-14)

c. Student input; and/or (3-20-14)

d. Portfolios. (3-20-14)

03. Student Achievement. For evaluations conducted on or after July 1, 2013, all certificated instructional employees, principals and superintendents must receive an evaluation in which at least thirty-three percent (33%) of the evaluation results are based on multiple objective measures of growth in student achievement as determined by the board of trustees and based upon research. For evaluations conducted on or after July 1, 2014, growth in student achievement as measured by Idaho’s statewide assessment for Federal accountability purposes must
be included. This portion of the evaluation may be calculated using current and/or past year’s data and may use one (1) or multiple years of data. Growth in student achievement may be considered as an optional measure for all other school based and district based staff, as determined by the local board of trustees. (3-20-14)

04. Evaluation Policy - Content. For evaluations conducted on or after July 1, 2014, local school district policies will include, at a minimum, the following information: (3-20-14)

   a. Purpose -- statements that identify the purpose or purposes for which the evaluation is being conducted; e.g., individual instructional leadership, personnel decisions. (3-20-14)

   b. Evaluation criteria -- statements of the general criteria upon which principals be evaluated. (3-20-14)

   c. Evaluator -- identification of the individuals responsible for appraising or evaluating principal performance. The individuals assigned this responsibility shall have received training in evaluation. (3-20-14)

   d. Sources of data -- description of the sources of data used in conducting principal evaluations. Proficiency in conducting observations and evaluating effective teacher performance shall be included as one (1) source of data. (3-20-14)

   e. Procedure -- description of the procedure used in the conduct of principal evaluations. (3-20-14)

   f. Communication of results -- the method by which principals are informed of the results of evaluation. (3-20-14)

   g. Personnel actions -- the action, available to the school district as a result of the evaluation, and the procedures for implementing these actions; e.g., job status change. (3-20-14)

   h. Appeal -- the procedure available to the individual for appeal or rebuttal when disagreement exists regarding the results of an evaluation. (3-20-14)

   i. Remediation -- the procedure available to provide remediation in those instances where remediation is determined to be an appropriate course of action. (3-20-14)

   j. Monitoring and evaluation. -- A description of the method used to monitor and evaluate the district’s principal evaluation system. (3-20-14)

   k. Professional development and training -- a plan for ongoing training and professional learning based upon the district’s evaluation standards and process. (3-20-14)

   l. Funding -- a plan for funding ongoing training and professional development for evaluators of principals. (3-20-14)

   m. Collecting and using data -- a plan for collecting and using data gathered from the evaluation tool that will be used to inform professional development for principals. (3-20-14)

   n. Individualizing principal evaluation rating system -- a plan for how evaluations will be used to identify proficiency and record growth over time. No later than July 1, 2014, districts shall have established an individualized principal evaluation rating system with a minimum of three rankings used to differentiate performance of principals including:

      i. Unsatisfactory being equal to “1”; (3-20-14)

      ii. Basic being equal to “2”; and (3-20-14)

      iii. Proficient being equal to “3”. (3-20-14)
A plan for including stakeholders including, but not limited to, teachers, board members, administrators, and parents in the development and ongoing review of their principal evaluation plan. (3-20-14)

Evaluation Policy - Frequency of Evaluation. The evaluation policy should include a provision for evaluating all principals on a fair and consistent basis. All principals shall be evaluated at least once annually no later than May 1 of each year. (3-20-14)

Evaluation Policy - Personnel Records. Permanent records of each principal evaluation will be maintained in the employee’s personnel file. All evaluation records will be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy (Section 33-518, Idaho Code). Local school districts shall report the rankings of individual certificated personnel evaluations to the State Department of Education annually for State and Federal reporting purposes. The State Department of Education shall ensure that the privacy of all certificated personnel is protected by not releasing statistical data of evaluation rankings in local school districts with fewer than five (5) teachers and by only reporting that information in the aggregate by local school district. (3-20-14)

Evaluation System Approval. Each school district board of trustees will develop and adopt policies for principal performance evaluation in which criteria and procedures for the evaluation are research based and aligned with state standards. By July 1, 2014, an evaluation plan which incorporates all of the above elements shall be submitted to the State Department of Education for approval. Once approved, subsequent changes made in the evaluation system shall be resubmitted for approval. (3-20-14)

SCHOOL FACILITIES.

Each school facility consists of the site, buildings, equipment, services, and is a critical factor in carrying out educational programs. The focus of concern in each school facility is the provision of a variety of instructional activities and programs, with the health and safety of all persons essential. (4-1-97)

Buildings. All school buildings, including portable or temporary buildings, will be designed and built in conformance with the current edition of the codes specified in the Idaho Building Code Act, Section 39-4109, Idaho Code, including, the National Electrical Code, Uniform Plumbing Code, and Idaho General Safety and Health Standards. All school buildings, including portable or temporary buildings, will meet other more stringent requirements established in applicable local building codes. (3-16-04)

Inspection of Buildings. All school buildings, including portable or temporary buildings, will be inspected as provided in Section 39-4130, Idaho Code, for compliance with applicable codes. Following this inspection, the school district will, within twenty (20) days, (1) correct any deficiencies specified in the inspection report or (2), if the corrective action involves structural modification, file a written plan with the inspecting agency for correction by the beginning of the following school year. (4-1-97)

ACCREDITATION.

All public secondary schools, serving any grade(s) 9-12, will be accredited. Accreditation is voluntary for elementary schools, grades K-8, private and parochial schools, and alternative schools not identified in Subsection 140.01.a. through 140.01.e. of this rule. (Section 33- 119, Idaho Code) (3-20-14)

Alternative Schools. Beginning with the 2014-15 school year, an alternative school serving any grade(s) 9-12 that meets any three (3) of the criteria in Subsections 140.01.a. through 140.01.e. of this rule, shall be required to be accredited. An alternative school that does not meet three (3) of the following criteria in Subsections 140.01.a. through 140.01.e. shall be considered as an alternative program by the district board of trustees and shall be included in the accreditation process and reporting of another secondary school within the district for the purposes of meeting the intent of this rule. (3-20-14)
a. School has an Average Daily Attendance greater than or equal to 36 students based on previous years enrollment;  
   (3-20-14)

b. School enrolls any students full-time for the school year once eligibility determination is made as opposed to schools that enroll students for “make-up” or short periods of time;  
   (3-20-14)

c. School offers an instructional model that is different than that provided by the traditional high school within the district for a majority of the coursework, including but not limited to online/virtual curriculum;  
   (3-20-14)

d. School administers diplomas that come from that alternative school as opposed to students receiving a diploma from the traditional high school within the school district; or  
   (3-20-14)

e. School receives its own accountability rating for federal reporting purposes.  
   (3-20-14)

02. Continuous School Improvement Plan. Schools will develop continuous school improvement plans focused on the improvement of student performance.  
   (4-2-08)

03. Standards. Schools will meet the accreditation standards of the Northwest Accreditation Commission.  
   (3-29-12)

04. Reporting. An annual accreditation report will be submitted to the State Board of Education.  
   (4-2-08)

141. -- 149. (RESERVED)

150. TRANSPORTATION.  
Minimum School Bus Construction Standards. All new school bus chassis and bodies must meet or exceed Standards for Idaho School Buses and Operations as incorporated in Section 004 of these rules and as authorized in Section 33-1511, Idaho Code.  
(5-8-09)

151. -- 159. (RESERVED)

160. MAINTENANCE STANDARDS AND INSPECTIONS.

01. Safety. School buses will be maintained in a safe operating condition at all times. Certain equipment or parts of a school bus that are critical to its safe operation must be maintained at prescribed standards. When routine maintenance checks reveal any unsafe condition identified in the Standards for Idaho School Buses and Operations as incorporated in Section 004 of these rules the school district will eliminate the deficiency before returning the vehicle to service.  
   (5-8-09)

02. Annual Inspection. After completion of the annual school bus inspection, and if the school bus is approved for operation, an annual inspection sticker, indicating the year and month of inspection, will be placed in the lower, right-hand corner of the right side front windshield. The date indicated on the inspection sticker shall correlate to State Department of Education's annual school bus inspection certification report signed by pupil transportation maintenance personnel and countersigned by the district superintendent. (Section 33-1506, Idaho Code)  
   (7-1-02)

03. Sixty-Day Inspections. At intervals of not more than sixty (60) calendar days, excluding documented out-of-use periods in excess of thirty (30) days, the board of trustees shall cause inspection to be made of each school bus operating under the authority of the board. Except that, no bus with a documented out-of-use period in excess of sixty (60) days shall be returned to service without first completing a documented sixty (60) day inspection. Annual inspections are considered dual purpose and also meet the sixty (60) day inspection requirement. (Section 33-1506, Idaho Code)  
   (7-1-04)
04. **Documentation of Inspection.** All inspections will be documented in writing. Annual inspections must be documented in writing on the form provided by the State Department of Education. (4-1-97)

05. **Unsafe Vehicle.** When a bus has been removed from service during a State Department of Education inspection due to an unsafe condition, the district will notify the State Department of Education on the appropriate form before the bus can be returned to service. When a bus has been found to have deficiencies that are not life-threatening, it will be repaired within thirty (30) days and the State Department of Education notified on the appropriate form. If the deficiencies cannot be repaired within thirty (30) days, the bus must be removed from service until the deficiencies have been corrected or an extension granted. (7-1-02)

06. **Withdraw from Service Authority.** Subsequent to any federal, national, or state advisory with good cause given therefor, the district shall, under the direction of the State Department of Education, withdraw from service any bus determined to be deficient in any prescribed school bus construction standard intended to safeguard life or minimize injury. No bus withdrawn from service under the provisions of this section shall be returned to service or used to transport students unless the district submits to the State Department of Education a certification of compliance specific to the school bus construction standard in question. (Section 33-1506, Idaho Code) (7-1-04)

161. -- 169. (RESERVED)

170. **SCHOOL BUS DRIVERS AND VEHICLE OPERATION.**
All school districts and school bus drivers must meet or exceed the training, performance and operation requirements delineated in the Standards for Idaho School Buses and Operations as incorporated in Section 004 of these rules. (Section 33-1508; 33-1509, Idaho Code) (5-8-09)

171. -- 179. (RESERVED)

180. **WRITTEN POLICY.**
The board of trustees will establish and adopt a set of written policies governing the pupil transportation system. Each school district that provides activity bus transportation for pupils shall have comprehensive policies and guidelines regarding activity transportation. (7-1-02)

181. -- 189. (RESERVED)

190. **PROGRAM OPERATIONS.**
School district fiscal reporting requirements as well as reimbursable and non-reimbursable costs within the Pupil Transportation Support Program, including but not limited to administration, field and activity trips, safety busing, contracting for transportation services, leasing of district-owned buses, insurance, ineligible and non-public school students, ineligible vehicles, capital investments including the purchasing of school buses and equipment, program support and district waiver procedures shall be delineated in Standards for Idaho School Buses and Operations incorporated in Section 004 of these rules. (Section 33-1006, Idaho Code) (5-8-09)

191. -- 219. (RESERVED)

220. **RELEASE TIME PROGRAM FOR ELEMENTARY AND SECONDARY SCHOOLS.**
In the view of the State Board of Education, public elementary and secondary school programs that permit the practice of releasing students from school for the purpose of attending classes in religious education or for other purposes should observe certain practices that are in keeping with the present state of the law. These practices are designed to ensure that the public school operation is not adversely affected and that public funds and property are not used for sectarian religious instruction in a way which violates the United States Constitution, the Idaho State Constitution, or state law. These practices should include the following: (Section 33-519, Idaho Code) (4-1-97)

01. **Scheduling.** The local school board will have reasonable discretion over the scheduling and timing of the release program. Release time programs may not interfere with the scheduling of classes, activities and programs of the public schools. (4-1-97)
02. **Voluntary Decision.** The decision of a school district to permit release time programs for kindergarten through grade eight (K-8), as well as the decision of individual students to participate, must be purely voluntary. (4-1-97)

03. **Time Limit.** Release time will be scheduled upon the application of a parent or guardian of a student in grades nine through twelve (9-12), not to exceed five (5) periods per week or one hundred sixty-five (165) hours during any one (1) academic school year. (4-1-97)

04. **Location.** Release time programs will be conducted away from public school buildings and public school property. (4-1-97)

05. **Request by Parent.** No student will be permitted to leave the school grounds during the school day to attend release time programs except upon written request from a parent or guardian filed with the school principal. Such written request by the parent will become a part of the student’s permanent record. (4-1-97)

06. **Record Maintenance.** The public school will not be responsible for maintaining attendance records for a student, who, upon written request of a parent or guardian, is given permission to leave the school grounds to attend a release time program. The school district will maintain a record of each student’s daily schedule that indicates when a student is released for classes in religious education or for other purposes. (4-1-97)

07. **Liability.** The school district is responsible for ensuring that no public school property, public funds or other public resources are used in any way to operate these programs. The school district is not liable for any injury, act or event occurring while the student participates in such programs. (4-1-97)

08. **Course Credit.** No credit will be awarded by the school or district for satisfactory completion by a student of a course or courses in release time for religious instruction. Credit may be granted for other purposes, at the discretion of the local school board. (4-1-97)

09. **Separation From Public Schools.** Public schools will not include schedules of classes for release time programs in school catalogs, registration forms or any other regularly printed public school material. Registration for release time programs must occur off school premises, and must be done on forms and supplies furnished by the group or institution offering the program. Teachers of release time programs are not to be considered members of any public school faculty and should not be asked to participate as faculty members in any school functions or to assume responsibilities for operation of any part of the public school program. (4-1-97)

10. **Transportation Liability.** Public schools and school districts will not be liable or responsible for the health, safety and welfare of students while they are being transported to and from or participating in release time programs. (4-1-97)

221. -- 229. (RESERVED)

230. **DRIVER EDUCATION.**
Public Schools. Pursuant to Section 004 of these rules, all public driver education courses offered in Idaho public schools must be conducted in compliance with all the requirements in the Operating Procedures for Idaho Public Driver Education Programs, as incorporated. (4-7-11)

231. -- 239. (RESERVED)

240. **JUVENILE DETENTION CENTERS.**

01. **Definition of Terms.** (4-1-97)

   a. Juvenile Detention Centers: Facilities that provide for the temporary care of children, as defined in the Juvenile Justice Reform Corrections Act, who require secure custody, for their own or the community’s protection, in physically restricting facilities pending court disposition or subsequent to court disposition. (Section 33-2009, Idaho Code) (4-1-97)
b. Juvenile Offender: A person, as defined in the Juvenile Justice Reform Act, who has been petitioned or adjudicated for a delinquent act that would constitute a felony or misdemeanor if committed by an adult. (4-1-97)

02. Instructional Program. Every public school district in the state within which is located a public or private detention facility housing juvenile offenders pursuant to court order will provide an instructional program. The instructional program will:

a. Provide course work that meets the minimum requirements of Idaho State Board of Education Rules. (4-1-97)

b. Provide instruction in the core of instruction. (4-1-97)

c. Include the following components, where appropriate: self-concept improvement, social adjustment, physical fitness/personal health, vocational/occupational, adult living skills, and counseling. (4-1-97)

d. Provide instruction and guidance that may lead to a high school diploma. School districts will accept such instruction for purposes of issuing credit when the detention center certifies to the school that the appropriate work is completed. (4-1-97)

e. Be directed by an instructor who holds an appropriate, valid certificate. (4-1-97)

f. Be provided to each student not later than two (2) school days after admission and continue until the student is released from the detention center. (4-1-97)

g. Be provided to students who have attained “school age” as defined in Idaho Code 33-201. (4-1-97)

h. Be provided for a minimum of four (4) hours during each school day. (4-1-97)

i. Be based on the needs and abilities of each student. The resident school district will provide pertinent status information as requested by the Juvenile Detention Center. (4-1-97)

j. Be coordinated with the instructional program at the school the student attends, where appropriate. (4-1-97)

k. Be provided in a facility that is adequate for instruction and study. (4-1-97)

03. State Funding of Instructional Programs at Juvenile Detention Centers. (4-1-97)

a. Every student housed in a juvenile detention center pursuant to court order and participating in an instructional program provided by a public school district will be counted as an exceptional child by the district for purposes of state reimbursement. (4-1-97)

b. Public school districts that educate pupils placed by Idaho court order in juvenile detention centers will be eligible for an allowance equivalent to the previous year’s certified local annual tuition rate per pupil. The district allowance will be in addition to support unit funding and included in the district apportionment payment. (4-1-97)

c. To qualify for state funding of instructional programs at Juvenile Detention Centers, school districts must apply for such funding on forms provided by the State Department of Education. Applications are subject to the review and approval of the State Superintendent of Public Instruction. School districts will submit attendance and enrollment reports as required by the State Superintendent of Public Instruction. Juvenile Detention Centers will submit reports to the local school district as required. (4-1-97)

241. -- 999. (RESERVED)
SUBJECT
Proposed Rule IDAPA 08.02.03.105, Rules Governing Thoroughness – Graduation Requirement

REFERENCE
August 2013
Board approved a temporary and proposed rule amendments requiring the transcription of credits earned in middle school that meet certain criteria.

November 2013
Board approved pending rules changes to IDAPA 08.02.03.105.05 Middle School requiring the transcription of credits earned in middle school that meet certain criteria.

November 2014
Board approved pending rules suspending the proficiency requirements for student’s graduating in 2017 and the movement of the ISAT to the 11th grade (rejected by the 2015 legislature)

February 2015
Board was updated on the rejection of the pending rule amending IDAPA 08.02.03.105

May 2015
Board received in-service on different forms and uses of student assessments

April 2015
Board approve a temporary rule clarifying the teacher requirements for middle level courses that are eligible to be transcribed for high school content and credit requirements

APPLICABLE STATUTE, RULE, OR POLICY
IDAPA 08.02.03. Rules Governing Thoroughness, subsection 105.

BACKGROUND/DISCUSSION
The proposed amendments address three (3) separate issues that are contained in the same section of Idaho Administrative Code, IDAPA 08.02.03, subsection 105 Graduation Requirements. These include the transcription of middle level (school) credits to a student’s high school transcript, the Idaho Standards Achieve Test (ISAT) graduation proficiency requirements, and the alternate paths to graduation for those students that do not meet the proficiency requirement to graduate.

In 2013 the Board approved changes to IDAPA 08.02.03.105.05 allowing students who complete a course meeting the following criteria to have the credit for that course transcribed to their high school transcript:

- Student received a “C” or higher
- Course meets the same standards as the transcribed high school course
- Teacher is properly certified and highly qualified to teach the course

Since the rules adoption, Board staff have received several calls from parents requesting their student’s grades not be transcripted, as they believe it would
impact their student’s high school grade point average negatively. In addition to the parent’s request, Board staff have received a request from the Pocatello School District requesting a waiver of the administrative rule for the same reason. Rather than waive the rule, staff has determined that an amendment allowing for the parents’ choice would be a more appropriate long term solution. In April 2015 the Board approved temporary rule changes to provide this clarification. The temporary rule was necessary at the time to provide schools with clarification prior to the end of the school year. The proposed amendment regarding this issue will incorporate the language already approved by the Board as the temporary rule.

As part of the transition to the ISAT by Smarter Balance (administered by AIR) the Board had approved changes to the graduation proficiency requirement, these changes in part moved the grade level requirement from grade ten (10) to grade eleven (11), exempted those students graduating in 2016 and 2017 from having to show proficiency on the assessment to graduate and allowed those students who showed proficiency in grade nine (9) to bank their scores. The exemption for those students graduating in 2016 has been in place since 2014, during the 2015 legislative session the pending rule exempting students graduating in 2017 as well as moving the assessment to grade eleven (11) was rejected. The proposed changes to address this issues would remove the language allowing students who show proficiency in grade nine (9) to bank their scores and would add language that would exempt those students who will graduate in 2017 from having to show proficiency to graduate.

During the transition to the new version of the ISAT additional students who do not meet the traditional requirements to qualify for an alternate route to graduation, but are eligible to use and alternate route to graduation due to not scoring proficient by the end of grade 11, are using their districts alternate routes to graduation. This has brought more attention to the alternate routes developed by the school districts and the need for additional language that addresses common concerns that have been observed by Board staff who receive the plans from the districts. Proposed amendments to this section would include removing the requirement that the student must go through an appeals process with the school district or charter school first, even though eligibility has already been established, clarifying language regarding submittal vs. approval of the school district plans prior to implementation by the school district, clarification that multiple measures does not mean single measures in multiple paths, and that the measures must be in addition to standard school district or state graduation requirements, and a requirement that the school districts provide documentation/rational of how they determined the multiple measures demonstrate grade ten (10) proficiency.

**IMPACT**

Approval of the proposed rule will address several outstanding issues with the current language that were caused in part by the partial rejection of the pending rule approved by the Board in 2014.
STAFF COMMENTS AND RECOMMENDATIONS
At the February 2015 Board meeting the Board discussed potential impacts of the rejection of the pending rule amending IDAPA 08.02.03.105 and the consequences of not moving the ISAT graduation proficiency requirement to grade eleven (11), action was deferred to later, unspecified, date. At the February 2015 Board meeting, concern was expressed that if the assessment was developed as a grade eleven (11) assessment students taking the assessment in grade ten (10) might be at a disadvantage. It was determined that the new assessment was an adaptive test and is initially thought to be valid for up to two (2) grades above or below the grade level it was developed for. Additional concern was expressed that if the assessment was ultimately moved to grade eleven (11) then students would be required to take two state assessments in the same year, the ISAT and the college entrance exam. There was some discussion of allowing students to take the college entrance exam in grades eleven (11) and twelve (12). Allowing this change to the college entrance exam requirement would adversely affect the use of the exam as part of the Direct Admissions initiative. Leaving the ISAT proficiency requirement in grade ten (10) also has implication on whether or not Idaho’s public postsecondary institutions would be able to use it as a college placement exam.

The Board’s Accountability Oversight Committee has discussed the issue and their preliminary recommendation, until further data is gathered and a final decision is made on the states accountability system, is that the assessment should remain in grade ten (10) at this time.

If the Board chooses to leave the ISAT proficiency requirement in grade ten (10) then those students graduating in 2017 would have taken it in the Spring of 2015, the same year as the field test and prior to the setting of the statewide achievement level descriptors (cut scores), making a strong argument that these students should be exempt from the graduation requirement. The use of the ISAT as a graduation requirement is a separate issue than the use of the ISAT as part of the state’s accountability system and should not be confused with the Elementary Secondary Education Act requirements.

BOARD ACTION
I move to approve the Proposed Rule amendments to IDAPA 08.02.03.105 as submitted in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No ______
08.02.03 - RULES GOVERNING THOROUGHNESS

105. HIGH SCHOOL GRADUATION REQUIREMENTS.
A student must meet all of the requirements identified in this section before the student will be eligible to graduate from an Idaho high school. The local school district or LEA may establish graduation requirements beyond the state minimum. (5-8-09)

01. Credit Requirements. The State minimum graduation requirement for all Idaho public high schools is forty-six (46) credits and must include twenty-nine (29) credits in core subjects as identified in Paragraphs 105.01.c. through 105.01.i. (3-12-14)

a. Credits. (Effective for all students who enter the ninth grade in the fall of 2010 or later.) One (1) credit shall equal sixty (60) hours of total instruction. School districts or LEA’s may request a waiver from this provision by submitting a letter to the State Department of Education for approval, signed by the superintendent and chair of the board of trustees of the district or LEA. The waiver request shall provide information and documentation that substantiates the school district or LEA’s reason for not requiring sixty (60) hours of total instruction per credit. (3-29-10)

b. Mastery. A student may also achieve credits by demonstrating mastery of a subject’s content standards as defined and approved by the local school district or LEA. (3-29-10)

c. Secondary Language Arts and Communication. Nine (9) credits are required. Eight (8) credits of instruction in Language Arts. Each year of Language Arts shall consist of language study, composition, and literature and be aligned to the Idaho Content Standards for the appropriate grade level. One (1) credit of instruction in communications consisting of oral communication and technological applications that includes a course in speech, a course in debate, or a sequence of instructional activities that meet the Idaho Speech Content Standards requirements. (3-29-10)

d. Mathematics. Six (6) credits are required. Secondary mathematics includes Applied Mathematics, Business Mathematics, Algebra, Geometry, Trigonometry, Fundamentals of Calculus, Probability and Statistics, Discrete Mathematics, and courses in mathematical problem solving and reasoning. AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering courses may also be counted as a mathematics credit if the student has completed Algebra II standards. Students who choose to take AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering may not concurrently count such courses as both a math and science credit. (3-12-14)

i. Students must complete secondary mathematics in the following areas: (3-12-14)

(1) Two (2) credits of Algebra I or courses that meet the Idaho Algebra I Content Standards as approved by the State Department of Education; (3-29-10)

(2) Two (2) credits of Geometry or courses that meet the Idaho Geometry Content Standards as approved by the State Department of Education; and (3-29-10)

(3) Two (2) credits of mathematics of the student’s choice. (3-29-10)

ii. Two (2) credits of the required six (6) credits of mathematics must be taken in the last year of high school in which the student intends to graduate. For the purposes of this subsection, the last year of high school shall include the summer preceding the fall start of classes. Students who return to school during the summer or the following fall of the next year for less than a full schedule of courses due to failing to pass a course other than math
are not required to retake a math course as long as they have earned six (6) credits of high school level mathematics.

iii. Students who have completed six (6) credits of math prior to the fall of their last year of high school, including at least two (2) semesters of an Advanced Placement or dual credit calculus or higher level course, are exempt from taking math during their last year of high school. High School math credits completed in middle school shall count for the purposes of this section.

e. Science. Six (6) credits are required, four (4) of which will be laboratory based. Secondary sciences include instruction in applied sciences, earth and space sciences, physical sciences, and life sciences. Up to two (2) credits in AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering may be used as science credits. Students who choose to take AP Computer Science, Dual Credit Computer Science, and Dual Credit Engineering may not concurrently count such courses as both a math and science credit.

i. Secondary sciences include instruction in the following areas: biology, physical science or chemistry, and earth, space, environment, or approved applied science. Four (4) credits of these courses must be laboratory based.

f. Social Studies. Five (5) credits are required, including government (two (2) credits), United States history (two (2) credits), and economics (one (1) credit). Courses such as geography, sociology, psychology, and world history may be offered as electives, but are not to be counted as a social studies requirement.

g. Humanities. Two (2) credits are required. Humanities courses include instruction in visual arts, music, theatre, dance, or world language aligned to the Idaho content standards for those subjects. Other courses such as literature, history, philosophy, architecture, or comparative world religions may satisfy the humanities standards if the course is aligned to the Idaho Interdisciplinary Humanities Content Standards.

h. Health/Wellness. One (1) credit is required. Course must be aligned to the Idaho Health Content Standards. Effective for all public school students who enter grade nine (9) in Fall 2015 or later, each student shall receive a minimum of one (1) class period on psychomotor cardiopulmonary resuscitation (CPR) training as outlined in the American Heart Association (AHA) Guidelines for CPR to include the proper utilization of an automatic external defibrillator (AED) as part of the Health/Wellness course.

i. Students participating in one (1) season in any sport recognized by the Idaho High School Activities Association or club sport recognized by the local school district, or eighteen (18) weeks of a sport recognized by the local school district may choose to substitute participation up to one (1) credit of physical education. Students must show mastery of the content standards for Physical Education in a format provided by the school district.

02. Content Standards. Each student shall meet locally established subject area standards (using state content standards as minimum requirements) demonstrated through various measures of accountability including examinations or other measures.

03. College Entrance Examination. (Effective for all public school students who enter grade nine (9) in Fall 2012 or later.)

a. A student must take one (1) of the following college entrance or placement examinations before the end of the student’s eleventh grade year: SAT, ACT, or Compass. A student who misses the statewide administration of the college exam during the student's grade eleven (11) for one (1) of the following reasons, may take the examination during their grade twelve (12) to meet this requirement:

i. Transferred to an Idaho school district during grade eleven (11);

ii. Was homeschooled during grade eleven (11); or

iii. Missed the spring statewide administration of the college entrance exam dates for documented
b. A student may elect an exemption in grade eleven (11) from the college entrance exam requirement if the student is: (3-12-14)
   i. Enrolled in a special education program and has an Individual Education Plan (IEP) that specifies accommodations not allowed for a reportable score on the approved tests; (3-12-14)
   ii. Enrolled in a Limited English Proficient (LEP) program for three (3) academic years or less; or (3-12-14)
   iii. Enrolled for the first time in grade twelve (12) at an Idaho high school after the fall statewide administration of the college entrance exam. (4-1-15)

c. Students who are eligible to take an alternate assessment may take the ACCUPLACER Placement exam during their senior year to meet the college entrance exam graduation requirement. (3-12-14)

04. Senior Project. A student must complete a senior project by the end of grade twelve (12). The project must include a written report and an oral presentation. Additional requirements for a senior project are at the discretion of the local school district or LEA. (3-12-14)

05. Middle School. A student will have met the high school content and credit area requirement for any high school course if: the requirements outlined in subsections 105.05.1. through 105.05.c. of this rule are met. (4-1-15)(____)
   a. The student completes such course with a grade of C or higher before entering grade nine (9); (3-12-14)
   b. The course meets the same content standards that are required in high school for the same course; (3-12-14)(____)
   c. The course is taught by a teacher properly certified to teach high school content and who meets the federal definition of highly qualified for the course being taught. (3-12-14)(____)
   d. The student shall be given a grade for the successful completion of that course and such grade and the number of credit hours assigned to the course shall be transferred to the student's high school transcript. Notwithstanding this requirement, the student’s parent or guardian shall be notified in advance when credits are going to be transcribed and may elect to not have the credits and grade transferred to the student’s high school transcript. Courses taken in middle school appearing in the student's high school transcript, pursuant to this subsection, shall count for the purpose of high school graduation. However, the student must complete the required number of credits in all high school core subjects as identified in Subsections 105.01.c. through 105.01.h. except as provided in 105.01.d.iii. The transcribing high school is required to verify the course(s) meet(s) the requirements specified in subsection 105.05.a. through 105.05.c. of this rule. (3-12-14)(____)

06. Proficiency. Each student must achieve a proficient or advanced score on the grade ten (10) Idaho Standards Achievement Test (ISAT) in math, reading and language usage in order to graduate unless specifically exempted from doing so as contained herein. Students who will graduate in 2016 and who received a proficient or advanced score on the grade ten (10) ISAT while in grade nine (9) may bank the score for purposes of meeting their graduation requirement. A student who does not attain at least a proficient score prior to graduation may appeal to the school district or LEA, and will be given an opportunity to demonstrate proficiency of the content standards through some other locally established plan. School districts or LEAs shall adopt an alternate plan and provide notice of that plan to all students who have not achieved a proficient or advanced score on the Grade ten (10) Idaho Standards Achievement Test by the fall semester of the student’s junior year. All locally established alternate plans used to demonstrate proficiency shall be forwarded to the State Board of Education for review and information. Alternate plans that are not in conformance with the requirements of subsection 106.b. shall be returned to the LEA and must be resubmitted. Alternate plans must be promptly re-submitted to the Board whenever changes are made in

PPGA
such plans. LEA must provide a descriptive summary of how each measure is aligned to the grade ten (10), or higher, state content standards and shows students proficiency. The Board may request plans are submitted in a common format or additional information as necessary to determine plans are in conformance with these rules.

(3-12-14)

a. Before entering an alternate measure plan, the student must be:

i. Enrolled in a special education program and have an Individual Education Plan (IEP); or (3-20-04)

ii. Enrolled in a Limited English Proficient (LEP) program for three (3) academic years or less; or (3-20-04)

iii. Enrolled in the fall semester of the senior year. (3-20-04)

b. The alternate plan must:

i. Contain multiple measures of student achievement, if alternate paths are available to the student within the LEA’s alternate plan, each path must contain multiple measures; (4-7-11)

ii. Be aligned at a minimum to tenth grade state content standards; (4-7-11)

iii. Be aligned to the state content standards for the subject matter in question; (4-7-11)

iv. Be valid and reliable; and (4-7-11)

v. Ninety percent (90%) of the alternate plan criteria must be based on academic proficiency and performance,.

vi. At least one (1) measure must utilize an externally-created, validated assessment as the evaluation tool; and (4-7-11)

vii. Measures may not be duplicative of the State or LEA’s standard graduation requirements. (4-7-11)

c. A student is not required to achieve a proficient or advanced score on the ISAT if:

i. The student received a proficient or advanced score on an exit exam from another state that requires a standards-based exam for graduation. The state’s exit exam must approved by the State Board of Education and must measure skills at the tenth grade level and be in comparable subject areas to the ISAT; (5-8-09)

ii. The student completes another measure established by a school district or LEA and received by the Board as outlined in Subsection 105.06; or (3-29-10)

iii. The student has an IEP that outlines alternate requirements for graduation or adaptations are recommended on the test; (5-8-09)

iv. The student is considered an LEP student through a score determined on a language proficiency test and has been in an LEP program for three (3) academic years or less; (5-8-09)

v. The student will graduate in 2017 and completed the grade ten (1) ISAT in math, reading and language usage in 2015. (5-8-09)

d. Those students who will graduate in 2016 and have not received a proficient or advanced score on the ISAT in grade nine (9), will be required to complete an alternative plan for graduation, as designed by the district, including the elements prescribed in Subsection 105.06.b. and may enter the alternate path prior to the fall of their senior year. (3-12-14)
07. **Special Education Students.** A student who is eligible for special education services under the Individuals With Disabilities Education Improvement Act must, with the assistance of the student’s Individualized Education Program (IEP) team, refer to the current Idaho Special Education Manual for guidance in addressing graduation requirements. (4-11-06)

08. **Foreign Exchange Students.** A foreign exchange student may be eligible for graduation by completing a comparable program as approved by the school district or LEA. (4-11-06)
SUBJECT
Proposed Rule – IDAPA 08.02.03. Advanced Opportunities

REFERENCE
February 2015 Board amended Board policy III.Y. Advanced Opportunities, redefining Tech Prep as Technical Competency Credit

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Administrative Code, IDAPA 08.02.03 – Rules Governing Thoroughness

BACKGROUND/DISCUSSION
In 2014 Board and institution staff worked together to bring forward amendment to Board policy III.Y. Advanced Opportunities, these amendments included clarifying dual credit standards (academic and professional-technical) and redefining what was once called “Tech Prep” to “Technical Competency Credit.” Like Tech Prep, Technical Competency Credit allows secondary students to document proficiency in the skills and abilities they develop in approved high school professional-technical programs to be evaluated for postsecondary transcription at a later date.

IDAPA 08.02.03 as part of the definition of Advance Opportunities used the term “Tech Prep,” the proposed amendment would update the term as Technical Competency Credit and provide a definition for Technical Competency Credit that would replace the existing Tech Prep definition.

IMPACT
Approval of the proposed rule will IDAPA 08.02.03.007 and 009 will bring the rule into alignment with Board policy III.Y.

ATTACHMENTS
Attachment 1 – Proposed Rule IDAPA 08.02.03 Amendments

STAFF COMMENTS AND RECOMMENDATIONS
Proposed rules have a 21 day comment period prior to becoming pending rules. Based on received comments and Board direction, changes may be made to proposed rules prior to entering the Pending stage. All pending rules will be brought back to the board for approval prior to submittal to the Department of Administration for publication in the Idaho Administrative Rules Bulletin as a pending rule. Pending rules become effective at the end of the legislative session in which they are submitted if they are not rejected by the Legislature.

Staff recommends approval.
BOARD ACTION

I move to approve the Proposed Rule changes to IDAPA 08.02.03 as submitted in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
08.02.03 - RULES GOVERNING THOROUGHNESS

007. DEFINITIONS A - G.

01. Achievement Standards. Define “below basic,” “basic,” “proficient,” and “advanced” achievement levels on the Idaho Standards Achievement Tests (ISAT) and “beginning,” “advanced beginning,” “intermediate,” “early fluent” and “fluent” on the Idaho English Language Assessment (IELA) by setting scale score cut points. These cut scores are paired with descriptions of how well students are mastering the material in the content standards. These descriptions are called performance level descriptors or PLDs, and are provided by performance level, by content area, and by grade. (4-2-08)

02. Advanced Opportunities. Are defined as Advanced Placement courses, Dual Credit courses, Tech Prep Technical Competency Credit, or International Baccalaureate programs. (4-11-06)

03. Advanced Placement® (AP) - College Board. The Advanced Placement Program is administered by the College Board at http://www.collegeboard.com. AP students may take one (1) or more college level courses in a variety of subjects. AP courses are not tied to a specific college curriculum, but rather follow national College Board curricula. While taking the AP exam is optional, students can earn college credit by scoring well on the national exams. It is up to the discretion of the receiving college to accept the scores from the AP exams to award college credit or advanced standing. (4-11-06)

04. All Students. All students means all public school students, grades K-12. (4-11-06)

05. Alternative Assessment (Other Ways of Testing). Any type of assessment in which students create a response to a question rather than choose a response from a given list, as with multiple-choice or true/false. Alternative assessments can include short-answer questions, essays, oral presentations, exhibitions, and portfolios. (4-5-00)

06. Assessment. The process of quantifying, describing, or gathering information about skills, knowledge or performance. (4-5-00)

07. Assessment Standards. Statements setting forth guidelines for evaluating student work, as in the “Standards for the Assessment of Reading and Writing.” (4-5-00)

08. Asynchronous Course. An online course in which an online platform is used to deliver all curricula. The majority of communication exchanges occur in elapsed time and allow students and teachers to participate according to their schedule. Asynchronous courses do not prohibit the use of a paraprofessional, certificated staff or other staff member being present at the physical location during instructional periods where instruction takes place, such as a school computer lab. (4-4-13)

09. Authentic. Something that is meaningful because it reflects or engages the real world. An “authentic task” asks students to do something they might really have to do in the course of their lives, or to apply certain knowledge or skills to situations they might really encounter. (4-5-00)

10. Basic Educational Skills Training. Instruction in basic skills toward the completion/attainment of a certificate of mastery, high school diploma, or GED. (4-5-00)

11. Classic Texts. Literary or other works (e.g., films, speeches) that have been canonized, either
continuously or intermittently, over a period of time beyond that of their initial publication and reception. (4-5-00)

12. **Content Standards.** Describe the knowledge, concepts, and skills that students are expected to acquire at each grade level in each content area. (4-2-08)

13. **Context (of a Performance Assessment).** The surrounding circumstances within which the performance is embedded. For example, problem solving can be assessed in the context of a specific subject (such as mathematics) or in the context of a real-life laboratory problem requiring the use of mathematics, scientific, and communication skills. (4-5-00)

14. **Cooperative Work Experience.** Classroom learning is integrated with a productive, structured work experience directly related to the goals and objectives of the educational program. Schools and participating businesses cooperatively develop training and evaluation plans to guide and measure the progress of the student. School credit is earned for successful completion, and the work may be paid or unpaid. Cooperative work experiences are also known as co-operative education or co-op. (4-5-00)

15. **Criteria.** Guidelines, rules or principles by which student responses, products, or performances, are judged. What is valued and expected in the student performance, when written down and used in assessment, become rubrics or scoring guides. (4-5-00)

16. **Cues.** Various sources of information used by readers to construct meaning. The language cueing systems include the graphophonic (also referred to as graphophonemic) system, which is the relationship between oral and written language (phonics); the syntactic system, which is the relationship among linguistic units such as prefixes, suffixes, words, phrases, and clauses (grammar); and semantic system, which is the study of meaning in language. Reading strategies and language cueing systems are also influenced by pragmatics—the knowledge readers have about the ways in which language is understood by others in their culture. (4-5-00)

17. **“C” Average.** A combined average of courses taken on a four (4) point scale with “C” equal to two (2) points. (4-11-06)

18. **Decode.** (4-5-00)

18a. To analyze spoken or graphic symbols of a familiar language to ascertain their intended meaning. (4-5-00)

18b. To change communication signals into messages, as to decode body language. (4-5-00)

19. **Dual Credit.** Dual credit allows high school students to simultaneously earn credit toward a high school diploma and a postsecondary degree or certificate. Postsecondary institutions work closely with high schools to deliver college courses that are identical to those offered on the college campus. Credits earned in a dual credit class become part of the student’s permanent college record. Students may enroll in dual credit programs taught at the high school or on the college campus. (4-11-06)

20. **Emergent Literacy.** Development of the association of print with meaning that begins early in a child’s life and continues until the child reaches the stage of conventional reading and writing. (4-5-00)

21. **Employability Skills.** Work habits and social skills desirable to employers, such as responsibility, communication, cooperation, timeliness, organization, and flexibility. (4-5-00)

22. **Entry-Level Skills.** The minimum education and skill qualifications necessary for obtaining and keeping a specific job; the starting point in a particular occupation or with a certain employer. (4-5-00)

23. **Evaluation (Student).** Judgment regarding the quality, value, or worth of a response, product, or performance based on established criteria, derived from multiple sources of information. Student evaluation and student assessment are often used interchangeably. (4-5-00)
24. **Experiential Education (Application).** Experiential education is a process through which a learner constructs knowledge, skill, and value from direct experiences. (4-5-00)

25. **Exploratory Experience (Similar to a Job Shadow).** An opportunity for a student to observe and participate in a variety of worksite activities to assist in defining career goals. An in-school exploratory experience is a school-based activity that simulates the workplace. (4-5-00)

26. **Fluency.** The clear, rapid, and easy expression of ideas in writing or speaking; movements that flow smoothly, easily, and readily. (4-5-00)

27. **Genre (Types of Literature).** A category used to classify literary and other works, usually by form, technique, or content. Categories of fiction such as mystery, science fiction, romance, or adventure are considered genres. (4-5-00)

28. **Graphophonic/Graphophonemic.** One of three cueing systems readers use to construct texts; the relationships between oral and written language (phonics). (4-5-00)

008. **DEFINITIONS H - S.**

01. **Interdisciplinary or Integrated Assessment.** Assessment based on tasks that measures a student’s ability to apply concepts, principles, and processes from two (2) or more subject disciplines to a project, issue, or problem. (4-5-00)

02. **International Baccalaureate (IB).** Administered by the International Baccalaureate Organization, the IB program provides a comprehensive liberal arts course of study for students in their junior and senior years of high school. IB students take end-of-course exams that may qualify for college credit. Successful completion of the full course of study leads to an IB diploma. (4-11-06)

03. **Laboratory.** A laboratory science course is defined as one in which at least one (1) class period each week is devoted to providing students with the opportunity to manipulate equipment, materials, specimens or develop skills in observation and analysis and discover, demonstrate, illustrate or test scientific principles or concepts. (4-11-06)

04. **Learning Plan.** The plan that outlines a student’s program of study, which should include a rigorous academic core and a related sequence of electives in academic, professional-technical education (PTE), or humanities aligned with the student’s post graduation goals. (4-11-06)

05. **Narrative.** Text in any form (print, oral, or visual) that recounts events or tells a story. (4-5-00)

06. **Norm-Referenced Assessment.** Comparing a student’s performance or test result to performance of other similar groups of students; (e.g., he typed better than eighty percent (80%) of his classmates.) (4-5-00)

07. **On-Demand Assessment.** Assessment that takes place at a predetermined time and place. Quizzes, state tests, SATs, and most final exams are examples of on-demand assessment. (4-5-00)

08. **Performance Assessment.** Direct observation of student performance or student work and professional judgment of the quality of that performance. Good quality performance assessment has pre-established performance criteria. (4-5-00)

09. **Performance-Based Assessment.** The measurement of educational achievement by tasks that are similar or identical to those that are required in the instructional environment, as in performance assessment tasks, exhibitions, or projects, or in work that is assembled over time into portfolio collections. (4-5-00)

10. **Performance Criteria.** A description of the characteristics that will be judged for a task.
Performance criteria may be holistic, analytic trait, general or specific. Performance criteria are expressed as a rubric or scoring guide. Anchor points or benchmark performances may be used to identify each level of competency in the rubric or scoring guide. (4-5-00)

11. **Phonics.** Generally used to refer to the system of sound-letter relationships used in reading and writing. Phonics begins with the understanding that each letter (or grapheme) of the English alphabet stands for one (1) or more sounds (or phonemes). (4-5-00)

12. **Portfolio.** A collection of materials that documents and demonstrates a student’s academic and work-based learning. Although there is no standard format for a portfolio, it typically includes many forms of information that exhibit the student’s knowledge, skills, and interests. By building a portfolio, students can recognize their own growth and learn to take increased responsibility for their education. Teachers, mentors, and employers can use portfolios for assessment purposes and to record educational outcomes. (4-5-00)

13. **Professional Development.** A comprehensive, sustained, timely, and intensive process to improve effectiveness of teachers and administrators in raising student achievement, which: (4-4-13)
   a. Aligns with rigorous state academic achievement standards, local educational agency goals, school improvement goals, effective technology integration, and Common Core standards. (4-4-13)
   b. Utilizes data driven instruction using a thorough review and continual evaluation of data on teacher and student performance to define clear goals and distinct outcomes. (4-4-13)
   c. Provides opportunities that are individualized enough to meet distinct and diverse levels of need for teachers and administrators. (4-4-13)
   d. Is facilitated by well-prepared school administrators, coaches, mentors, master teachers, lead teachers, or third-party providers under contract with the State Department of Education, school district, or charter school, and supported by external research, expertise, or resources. (4-4-13)
   e. Fosters a collective responsibility by educators within the school for improved student performance and develops a professional learning community. (4-4-13)

14. **Print Awareness.** In emergent literacy, a learner’s growing awareness of print as a system of meaning, distinct from speech and visual modes of representation. (4-5-00)

15. **Professional-Technical Education.** Formal preparation for semi-skilled, skilled, technical, or paraprofessional occupations, usually below the baccalaureate level. (4-11-06)

16. **Proficiency.** Having or demonstrating a high degree of knowledge or skill in a particular area. (4-5-00)

17. **School-to-Work Transition.** A restructuring effort that provides multiple learning options and seamless integrated pathways to increase all students’ opportunities to pursue their career and educational interests. (4-5-00)

18. **Service Learning.** Combining service with learning activities to allow students to participate in experiences in the community that meet actual human needs. Service learning activities are integrated into the academic curriculum and provide structured time for a student to think, talk, or write about what was done or seen during the actual service activity. Service learning provides students with opportunities to use newly acquired skills and knowledge in real-life situations in their communities, and helps foster the development of a sense of caring for others. (4-5-00)

19. **Skill Certificate.** Portable, industry-recognized credential that certifies the holder has demonstrated competency on a core set of performance standards related to an occupational cluster area. Serving as a signal of skill
mastery at benchmark levels, skill certificates may assist students in finding work within their community, state, or elsewhere. A National Skills Standards Board is presently charged with issuing skill voluntary standards in selected occupations based on the result of research and development work completed by twenty-two (2) contractors. (4-5-00)

20. Standards. Statements about what is valued in a given field, such as English language arts, and/or descriptions of what is considered quality work. See content standards, assessment standards, and achievement standards. (4-2-08)

21. Standardization. A set of consistent procedures for constructing, administering and scoring an assessment. The goal of standardization is to ensure that all students are assessed under uniform conditions so the interpretation of performance is comparable and not influenced by differing conditions. Standardization is an important consideration if comparisons are to be made between scores of different individuals or groups. (4-5-00)

22. Standards-Based Education. Schooling based on defined knowledge and skills that students must attain in different subjects, coupled with an assessment system that measures their progress. (4-5-00)

23. Structured Work Experience. A competency-based educational experience that occurs at the worksite but is tied to the classroom by curriculum through the integration of school-based instruction with worksite experiences. Structured work experience involves written training agreements between school and the worksite, and individual learning plans that link the student’s worksite learning with classroom course work. Student progress is supervised and evaluated collaboratively by school and worksite personnel. Structured work experience may be paid or unpaid; may occur in a public, private, or non-profit organization; and may or may not result in academic credit and/or outcome verification. It involves no obligation on the part of the worksite employer to offer regular employment to the student subsequent to the experience. (4-5-00)

24. Student Learning Goals (Outcomes). Statements describing the general areas in which students will learn and achieve. Student learning goals typically reflect what students are expected to know by the time they leave high school, such as to read and communicate effectively; think critically and solve problems; develop positive self-concept, respect for others and healthy patterns of behavior; work effectively in groups as well as individually; show appreciation for the arts and creativity; demonstrate civic, global and environmental responsibility; recognize and celebrate multicultural diversity; exhibit technological literacy; have a well-developed knowledge base which enhances understanding and decision making, and demonstrate positive problem solving and thinking skills. (4-5-00)

25. Synchronous Course. A course in which the teacher and students interact at the same time. May be applied to both traditional and technology based courses. (3-29-12)

009. DEFINITIONS T - Z.

01. Tech Prep Technical Competency Credit. Tech Prep Technical competency credit is a sequenced program of study that allows secondary students to document proficiency in the skills and abilities they develop in approved high school professional-technical programs to be evaluated for postsecondary transcription at a later date. Combines at least two (2) years of secondary and two (2) years of postsecondary education. It is designed to help students gain academic knowledge and technical skills, and often earn college credit for their secondary coursework. Programs are intended to lead to an associate's degree or a certificate in a specific career field, and ultimately, to high wage, high skill employment or advanced postsecondary training. Technical Competency Credits are awarded for skills and competencies identified as eligible through an agreement with at least one Idaho postsecondary institution. Eligible skills and competencies are included as part of a high school professional-technical program and approved by the postsecondary institution through the agreement in advance to student participation. (4-11-06)

02. Technology Education. A curriculum for elementary, middle, and senior high schools that integrates learning about technology (e.g., transportation, materials, communication, manufacturing, power and energy, and biotechnology) with problem-solving projects that require students to work in teams. Many technology education classrooms and laboratories are well equipped with computers, basic hand tools, simple robots, electronic devices, and other resources found in most communities today. (4-5-00)
03. **Total Quality Management.** A systematic approach to standardizing and increasing the efficiency of internal systems and processes, whether in a business or a school, using statistical and management tools for continuous improvement. Emphasis is on documenting effective processes, committing to meet customers’ needs and sharing decision making. (3-15-02)

04. **Transferable Skills.** Skills that are inter-changeable among different jobs and workplaces. For example, the ability to handle cash is a skill one could use as both a restaurant cashier and a bank teller. The ability to problem solve or work as a team member is transferable among most jobs and workplaces. (4-11-06)

05. **2+2 or 4+2.** A planned, streamlined sequence of academic and professional-technical courses which eliminates redundancies between high school and community college curricula; 2+2 is high school years eleven (11) and twelve (12) and community college years thirteen (13) and fourteen (14); 4+2 is high school years nine (9), ten (10), eleven (11), and twelve (12) and community college years thirteen (13) and fourteen (14). (4-11-06)

06. **Unique Student Identifier.** A number issued and assigned by the State Department of Education to each student currently enrolled or who will be enrolled in an Idaho local education agency to obtain data. (5-8-09)

07. **Writing Process.** The many aspects of the complex act of producing written communication; specifically, planning, drafting, revising, editing, and publishing. (4-5-00)

08. **Word Recognition.**

a. The quick and easy identification of the form, pronunciation, and appropriate meaning of a work previously met in print or writing; (4-5-00)

b. The process of determining the pronunciation and some degree of meaning of a word in written or printed form. (4-5-00)
UNIVERSITY OF IDAHO

SUBJECT
Proposed Rule – IDAPA 08.05.01, Rules Governing Seed and Plant Certification.

REFERENCE
- May 14, 2014: Board approval of seed certification standards and temporary and proposed rule, IDAPA 08.05.01, Rules Governing Seed and Plant Certification - as presented.
- August 14, 2014: Board approval of pending rule, IDAPA 08.05.01.
- April 16, 2015: Board approval of amended seed certification standards.
- May 20, 2015: Board approval of temporary rule amending seed certification standards.

APPLICABLE STATUTE, RULE, OR POLICY
- Title 22 Chapter 15, specifically Sections 22-1504 and 22-1505, Idaho Code.
- Idaho Administrative Code, IDAPA 08.05.01 Rules Governing Seed and Plant Certification.

BACKGROUND/DISCUSSION
During the 2014 calendar year the University of Idaho and the Board took action to address compliance within statutory requirements related to certification of seeds, tubers, plants and plant parts in the state of Idaho, as contained in the Seed and Plant Certification Act of 1959 (Idaho Code Title 22 Chapter 15). The Board’s action entailed incorporating into Board rules, by reference, the existing published Standards for Certification of the Idaho Crop Improvement Association, Inc. (ICIA) These existing published standards were created through a long established process involving the ICIA Board working in conjunction with committees for the various seed crops, composed of individuals representing the seed growers and processors, to create and then continuously update the standards. Standards and any revisions to existing standards are then presented to the Foundation Seed Stock Committee within the Agriculture Experiment Station at the University of Idaho for approval and then presented for approval by the University’s Director of the Agriculture Experiment Station.

In 2014, the ICIA standards were incorporated into Board rule exactly as they were published by the ICIA and available to the public through the ICIA web-site. This action brought the standards into compliance with Idaho Code Sections 22-1504 and 22-1505 (which require promulgation of the seed certification standards under the Idaho Administrative Procedures Act (IDAPA) process), and did so in a fashion that did not disrupt the crop seed industry which had been operating under the existing standards for over 50 years. This was accomplished by the Board under a temporary and proposed rule such that effective with the initial approval of the Board in May
2014, the seed certification program was in compliance with the IDAPA rule requirements.

Following the incorporation of the rules into Administrative Rule, the ICIA reviewed its published standards and determined that a significant portion of the materials published on the website fall outside of the standards and are more accurately defined as processes. To address this, ICIA has created separate documents each for the actual standards and for the processes that are used for establishing whether the standards are met for a particular crop. The Board approved the amended standards at the April 15-16, 2015 Board meeting and approved a temporary rule at the May 20, 2015 Special Board meeting incorporating those standards by reference into IDAPA 08.02.05. The University of Idaho is now asking the Board to approve those same standards into a proposed rule.

IMPACT
Approval of the amendment as a proposed rule will allow the rule to move forward through the rulemaking process, making the changes permanent.

ATTACHMENTS
Attachment 1 – Proposed Rule – IDAPA 08.05.01
Attachment 2 – Standards for Seed and Plant Certification

STAFF COMMENTS AND RECOMMENDATIONS
The rule was originally run as a temporary rule to allow for the updated standards to take effect immediately and allow the ICIA to go through their fee setting process to determine if there would be any changes to the fees that are also a part of IDAPA 08.05.01. The ICIA has completed their fee setting process and has determined there would be no increase in their fees this year.

Staff recommends approval.

BOARD ACTION
I move to approve the proposed rule amendment to IDAPA 08.05.01, as presented in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
1. **LEGAL AUTHORITY.**
This chapter is adopted under the authority of Title 22, Chapter 15, Idaho Code. (4-6-15)

2. **TITLE AND SCOPE.**

1. **Title.** The title of this chapter is IDAPA 08.05.01, “Rules Governing Seed and Plant Certification,” by Idaho Crop Improvement Association, Inc. (4-6-15)

2. **Scope.** These rules shall govern the standards and procedures for the certification of seeds, tubers, plants, or plant parts in the state of Idaho by the Regents of the University of Idaho through the Idaho Agricultural Experiment Station in the College of Agricultural and Life Sciences and its duly authorized agent, Idaho Crop Improvement Association, Inc., as an agent and instrumentality and servant of the State. (4-6-15)

3. **WRITTEN INTERPRETATIONS.**
In accordance with Section 67-5201(19)(b)(iv), Idaho Code, any written interpretations of the rule of this chapter will be made available at the Idaho State Board of Education office. (4-6-15)

4. **ADMINISTRATIVE APPEAL.**
There is no provision for administrative appeals before the Board under this chapter. Hearing and appeal rights are set forth in Title 67, Chapter 52, Idaho Code. (4-6-15)

5. **INCORPORATION BY REFERENCE.**
The following documents are incorporated by reference into this rule. The Idaho Seed and Plant Certification Standards are adopted by the Idaho Crop Improvement Association. Copies of the following documents may be obtained from the Idaho Crop Improvement Association, Inc. website at [http://www.idahocrop.com/index.aspx](http://www.idahocrop.com/index.aspx), or from the Idaho Crop Improvement Association, Inc. office. (4-6-15)

1. **General Seed Certification Standards: Prohibited Noxious Seed in Idaho Certified Seed.** The standard for Prohibited Noxious Seed in Idaho Certified Seed, General Seed Certification Standards of the Idaho Crop Improvement Association, Inc., as last modified and approved on February 25, 2014/March 17, 2015. (4-6-15)

2. **Seed Certification Fee & Application Schedule.** The Seed Certification Fee and Application Schedule of the Idaho Crop Improvement Association, Inc., as last modified and approved on July 11, 2014. (4-6-15)

3. **Interagency Certification Regulations and Procedures.** The Interagency Certification Regulations and Procedures of the Idaho Crop Improvement Association, Inc., as last modified and approved on April 6, 2006. (4-6-15)

4. **Idaho Alfalfa Certification Regulations in Idaho.** Standards. The Idaho Alfalfa Certification Regulations Standards adopted by the Idaho Crop Improvement Association, Inc., as last modified and approved on April 6/March 17, 2015. (4-6-15)

5. **Idaho Beans Certification Regulations in Idaho.** Standards. The Idaho Beans Certification Regulations Standards adopted by the Idaho Crop Improvement Association, Inc., as last modified and approved on December 12, 2009/March 17, 2015. (4-6-15)

6. **Idaho Red Clover Certification Regulations in Idaho.** Standards. The Idaho Red Clover Certification Regulations Standards adopted by the Idaho Crop Improvement Association, Inc., as amended and approved on April 6, 2006/March 17, 2015. (4-6-15)

7. **Idaho Chickpea (Garbanzo Beans) Certification Regulations in Idaho.** Standards. The Idaho Chickpea (Garbanzo Beans) Certification Regulations Standards adopted by the Idaho Crop Improvement Association, Inc., as amended and approved on April 6, 2006/March 17, 2015. (4-6-15)
8.7. **Idaho Grain Certification Regulations in Idaho Standards.** The Idaho Grain Certification Regulations Standards adopted by the Idaho Crop Improvement Association, Inc., as amended and approved on March 17, 2015. (4-6-15)

9.8. **Idaho Grass Seed Certification Regulations in Idaho Standards.** The Idaho Grass Seed Certification Regulations Standards adopted by the Idaho Crop Improvement Association, Inc., as amended and approved on March 17, 2015. (4-6-15)

11.11. **Pre-Variety Germplasm Certification Regulations in Idaho.** The Pre-variety Germplasm Certification Regulations adopted by the Idaho Crop Improvement Association, Inc., as amended and approved on April 14, 2014 March 17, 2015. (4-6-15)

These rules shall apply to all seeds, tubers, plants, or plant parts located in, imported into, or exported from the state
SUBJECT
Proposed Rule IDAPA 47.01.01 – Division of Vocational Rehabilitation

REFERENCE
November 2012  Board approved pending rule clarify language regarding the Divisions of Vocation Rehabilitation customer appeal and mediation process as well as technical changes.
August 2012  Board approved pending rule clarify language regarding the Divisions of Vocation Rehabilitation customer appeal and mediation process as well as technical changes.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Administrative Code, IDAPA 47.01.01

BACKGROUND/DISCUSSION
The Idaho Division of Vocational Rehabilitation (IDVR) Field Service Manual contains internal processes to IDVR as well as eligibility and program requirements for the people and agencies IDVR serves. Currently this manual is incorporated by reference into Idaho Administrative Code, IDAPA 47.01.01. When a document is incorporated by reference into administrative rule it has the force and effect of law and can only be changed through Board approval and the rulemaking process. IDVR has identified a number of processes in the Field Service Manual that belong, more appropriately, in a policies and procedures manual of the agency.

IDVR has removed these procedures from the Field Service Manual and is requesting Board approval of the amendments as well as Board approval of a proposed administrative rule incorporating the updated Field Service Manual into IDAPA 47.01.01.

IMPACT
The proposed changes incorporate the updated Field Service Manual into rule and remove unnecessary agency procedures from the manual.

ATTACHMENTS
Attachment 1 – Proposed Rule Changes to IDAPA 47.01.01  Page 3
Attachment 2 – Field Services Policy Manual – Redlined  Page 9

STAFF COMMENTS AND RECOMMENDATIONS
Proposed rules have a 21 day comment period prior to becoming pending rules. Based on received comments and Board direction, changes may be made to proposed rules prior to entering the Pending stage. All pending rules will be brought back to the board for approval prior to submittal to the Department of Administration for publication in the Idaho Administrative Rules Bulletin as a pending rule. Pending rules become effective at the end of the legislative session in which they are submitted.
Staff recommends approval.

BOARD ACTION

I move to approve the Division of Vocational Rehabilitations Field Service Manual as submitted in Attachment 2.

Moved by __________ Seconded by __________ Carried Yes _____ No _____

AND

I move to approve the Proposed Rule changes to IDAPA 47.01.01 as submitted in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
IDAPA 47 - DIVISION OF VOCATIONAL REHABILITATION

47.01.01 - RULES OF THE IDAHO DIVISION OF VOCATIONAL REHABILITATION

000. LEGAL AUTHORITY.
Section 33-2301, Idaho Code and the Rehabilitation Act of 1973 and all subsequent Amendments. (3-30-01)

001. TITLE AND SCOPE.

01. Title. The title of this chapter is IDAPA 47.01.01, “Rules of the Idaho Division of Vocational Rehabilitation.” (5-3-03)

02. Scope. The chapter has the following scope: To streamline the existing rules and to implement program changes necessitated by the 1998 Amendments of the Rehabilitation Act of 1973. (4-5-00)

002. WRITTEN INTERPRETATIONS.
Written interpretations to these rules in the form of the explanatory comments accompanying the notice of proposed rulemaking are available from the Idaho Division of Vocational Rehabilitation, 650 W. State Street, Boise, Idaho 83720. Other agency guidance documents, as well as agency policy statements or interpretations not rising to the legal effect of a rule, if any, are available for inspection and replication at the agency Central Office during regular business hours. (2-17-09)

003. ADMINISTRATIVE APPEALS.
Administrative appeals are governed by Section 100 of these rules in accordance with 34 CFR Part 361.57. (2-17-09)

004. INCORPORATION BY REFERENCE.

01. General. Unless provided otherwise, any reference in these rules to any document identified in Subsection 004 shall constitute the full incorporation into these rules of that document for the purposes of the reference, including any notes and appendices therein. The term “documents” includes codes, standards or rules which have been adopted by an agency of the state or of the United States or by any nationally recognized organization or association. (3-30-01)

02. Documents Incorporated by Reference. The following documents are incorporated by reference into these rules: (3-30-01)

a. All federal publications through the Rehabilitation Services Administration. (2-17-09)

c. Workforce Investment Act, Public Law 105-220. (5-3-03)

d. Federal Register, Department of Education, 34 CFR Part 361-363. (2-17-09)

e. The Rehabilitation Act of 1973, as amended. (2-17-09)

03. Availability of Reference Material. Copies of the documents incorporated by reference into these rules are available at the Central Office, Idaho Division of Vocational Rehabilitation, 650 W. State Street, Room 150,
005. -- 009. (RESERVED)

010. DEFINITIONS.

01. Authorization to Purchase. A purchase order issued on behalf of the Division. (5-3-03)

02. CFR. Code of Federal Regulations. (7-1-93)

03. Customer. Any individual who has applied for or is eligible for Vocational Rehabilitation services. (7-1-13)

04. Designated State Agency. The Idaho State Board of Education. (5-3-03)

05. Designated State Unit. The Idaho Division of Vocational Rehabilitation. (7-1-93)

06. IDVR. The Idaho Division of Vocational Rehabilitation. (4-5-00)

07. IPE. Individualized Plan for Employment. (4-5-00)

08. Most Significant Disability (MSD). Meets the criteria as Significant Disability as found in the Rehabilitation Act of 1973, as amended, and defined in 34 CFR Part 361.5 (b) 30 and is further defined as: (2-17-09)

   a. Having a severe physical, mental, cognitive or sensory impairment which seriously limits three (3) or more functional capacities (such as mobility, communication, self-care, self-direction, interpersonal skills, work tolerance or work skills) in terms of an employment outcome; and (7-1-13)

   b. Whose vocational rehabilitation can be expected to require multiple vocational rehabilitation services over an extended period of time. (3-20-04)

09. Method of Written Notification. The written notification of findings and conclusions arising from an Informal Dispute Resolution, Mediation, Fair Hearing, shall be served to the customer via the U.S. Postal Service. (7-1-13)

10. PM. Policy Memorandum. (5-3-03)

11. RSA. Rehabilitation Services Administration, U.S. Department of Education. (5-3-03)

12. State Administrator. The Chief Executive Officer of the Idaho Division of Vocational Rehabilitation. (4-5-00)

13. VRC. Vocational Rehabilitation Counselor. (5-3-03)

011. -- 099. (RESERVED)

100. CUSTOMER APPEALS.

In accordance with 34 CFR Part 361.57, the customer appeals process is governed by Section 100 through 103 of these rules and is outlined in the Division's agency Field Services Manual on the website at http://www.vr.idaho.gov/ that is incorporated by reference into these rules in Subsection 004.02.b. (7-1-13)

101. INFORMAL REVIEW PROCESS.

The informal review process is an option available to the customer as a proven means likely to result in a timely resolution of disagreements. An individual must request an informal review within twenty-one (21) calendar days of the agency notice regarding the provision or denial of services that are in question. The request must be in writing to the regional manager. The request must describe the complaint. In holding an informal review, the regional manager will function as the administrative review officer. At the customer’s request another regional manager may be
substituted. The reviewer will be responsible for:

01. Advising the Customer. Advising the customer of his right to have a representative present and encouraging the customer to use the services of Client Assistance Program (CAP).

02. Conducting the Review. Conducting the review within fifteen (15) calendar days following written receipt of a request for such a hearing. Unless an extension is agreed upon by both parties.

03. Documented Effort. When the customer makes a documented effort to utilize CAP or another advocate to resolve the dissatisfaction, the time allowed for conducting an informal review will be extended accordingly.

04. Review Location. Holding the review at a time and place convenient to the customer, generally at the local IDVR branch office.

05. Communication Method. Providing communication methods for those customers who have a sensory impairment. An interpreter will be provided for those customers who cannot communicate in English.

06. Transportation. If needed assure that the customer is provided transportation to and from the review site.

07. Written Proposal. The informal review officer (regional manager) will attempt to resolve the matter to the satisfaction of the customer, developing a written proposal with the customer at the conclusion of the appeal process. The results are binding for the agency unless the proposal is not permitted by law. The customer may reject the proposal and request a fair hearing within ten (10) calendar days of the informal review proposal or sixty (60) calendar days of the original agency decision, whichever comes later.

102. MEDIATION.
Mediation is an alternate dispute resolution method available to applicants and eligible customers who have initiated the formal appeals process.

01. Time Line. A customer must request mediation within twenty (20) calendar days of the original decision or ten (10) calendar days following the written proposal from the informal review. Mediation is available to a customer when an informal review has not resolved the dispute to the satisfaction of the customer.

02. Written Request. Requests for mediation must be made in writing to the chief of field services and must clearly state the reason for dissatisfaction with the decision or results of the informal review. The chief of field services will represent IDVR or assign a member of the administrative or supervisory staff who has not participated in the agency action that created the customer’s dissatisfaction.

03. Participation. Participation in the mediation process is voluntary on the part of the customer and on the part of IDVR. Either party may reject mediation as an alternate dispute resolution method. Once mediation has been accepted as an alternate dispute resolution method, either party may terminate the mediation process.

04. Fair Hearing. Mediation may not be used to deny or delay the customer’s right to pursue a fair hearing. Should the customer and/or designated representative select mediation in lieu of a fair hearing the option for a fair hearing will be extended to allow the results of the mediation to be established. Once the final results of the mediation are determined, the customer retains the right to request a fair hearing.

05. Mediator. All mediation is conducted by a qualified and impartial mediator who is selected randomly from a list of mediators maintained by IDVR.

06. Confidentiality. Mediation discussions are confidential and may not be used as evidence in a fair hearing. A confidentiality agreement will be signed by both parties at the beginning of the mediation process.
07. **Mediation Agreement.** The mediator will develop a written mediation agreement if an agreement between the parties is reached. The agreement must be signed by the customer, the mediator, and the IDVR designated representative. (7-1-13)

08. **Cost.** Cost of mediation is paid by IDVR. IDVR is not required to pay for any cost related to the representation of a customer. (7-1-13)

103. **FAIR HEARING PROCESS.**
The fair hearing process is an option available to any customer who is dissatisfied with any determination made by personnel of IDVR that affects the provisions of vocational rehabilitation services. A customer may request a fair hearing immediately without having to go through any other appeal steps. A customer may request, or if appropriate may request through the customer’s representative, a timely review of the determination. Such request must be made within sixty (60) days of the IDVR decision resulting in the initial disagreement or within ten (10) calendar days of the conclusion of the informal review or mediation process, whichever is later. The fair hearing process shall include a fair hearing conducted by a fair hearing officer (FHO). (7-1-13)

01. **Procedure.** A fair hearing is a procedure whereby a customer who is dissatisfied with any determination concerning the provision or denial of IDVR services or the findings of the informal review or mediation may seek a determination of agency action before a fair hearing officer. (7-1-13)

02. **Written Request.** A request for a fair hearing must be sent in writing to the chief of field services and clearly state the customer’s dissatisfaction with the agency’s decision. (7-1-13)

03. **Timeline.** The hearing shall be conducted within sixty (60) calendar days of receipt of the individual’s request for review, unless informal resolution is achieved prior to the 60th day, or the parties agree to a specific extension of time. (3-29-10)

04. **Fair Hearing Officers.** A list of fair hearing officers shall be identified jointly by the Administrator of IDVR and the State Rehabilitation Council. The fair hearing officer shall be selected from the list by the administrator of IDVR and the customer. (7-1-13)

05. **Written Report.** The fair hearing officer shall issue a written report of the findings and decision of the hearing within thirty (30) calendar days of the completion of the hearing. (7-1-13)

06. **Decision.** The decision of the fair hearing officer shall be considered final by the agency. (7-1-13)

07. **Dispute.** Any party who disagrees with the findings and decisions of a fair hearing officer shall have the right to bring a civil action with respect to the matter in dispute. The action may be brought in any state court of competent jurisdiction or in a district court of the United States of competent jurisdiction without regard to the amount in controversy. (7-1-13)

104. -- 199. (RESERVED)

200. **ORDER OF SELECTION.**
The following order of selection will be used if the Idaho Division of Vocational Rehabilitation finds that it cannot serve all eligible customers due to a lack of either personnel and/or financial resources. The priority listings progress downward with priority one (Priority Number 1) being the most restrictive and priority four (Priority Number 4) being the least restrictive. (7-1-13)

01. **Priority Number 1.** At the time that a decision to move to an order of selection is made, it is determined that only those consumers who already have an existing individualized plan for employment (IPE) will continue to be served. (5-3-03)

02. **Priority Number 2.** At the time that a decision to move to an order of selection is made, it is determined that only those customers in Priority Number 1 above and current and future, otherwise eligible, customers rated to this or a more restrictive priority can be served. Customers meeting this priority rating are those customers
03. **Priority Number 3.** At the time that a decision to move to an order of selection is made, it is determined that only those customers in Priorities Numbers 1 and 2 above and current and future, otherwise eligible, customers rated to this or a more restrictive priority can be served. Customers meeting this priority rating are those customers with significant disabilities. (7-1-13)

04. **Priority Number 4.** All eligible customers for Vocational Rehabilitation services (no order of selection in place). (7-1-13)

201. -- 299. (RESERVED)

300. **CUSTOMER SERVICES.**

01. **Provision of Purchased Services Contingent Upon Financial Need of the Customer.** The Idaho Division of Vocational Rehabilitation will apply a financial needs assessment. Financial need will not be a consideration in the determination of eligibility for Vocational Rehabilitation, but will be a consideration in allocating the cost of VR services, with some exceptions. (7-1-13)

02. **Authorization to Purchase.** The Division requires that when purchasing services from a vendor, an authorization must be issued prior to, or on, the beginning date of service. If services are provided without a Division approved authorization to purchase, the Division reserves the right to not honor the vendor’s invoice. (5-3-03)

03. **General Provisions.** Idaho Division of Vocational Rehabilitation will only pay for services that contribute to the determination of eligibility or to achieve an employment outcome. (3-20-04)

04. **Residency.** There is no duration of residency requirement. The customer must be living in the state of Idaho and legally be able to work within the United States (i.e., non U.S. citizens must show they are legally able to work within the United States). (7-1-13)

05. **Provision of CRP (Community Rehabilitation Program) Services.** IDVR will purchase vocational services from CRPs that are accredited by either Commission Accreditation Rehabilitation Facilities (CARF), the Rehabilitation Accreditation Commission, or Rehabilitation Services Accreditation System (RSAS). In conjunction with the customer, the qualified professional Vocational Rehabilitation Counselor, will determine which CRP Services, if any, are required for the customer to achieve an employment outcome. (7-1-13)

FIELD SERVICES POLICY MANUAL (update to index 10/2012)
# Table of Contents (updated 10/26/2012)

## SECTION 1.0 PURPOSE AND GENERAL REQUIREMENTS OF THE IDAHO VOCATIONAL REHABILITATION PARTICIPANT SERVICES PROGRAM

1.1 Legal Citations                                                                                           2  
1.2 Program Requirements                                                                               2  
1.3 Provider Standards                                                                                  2  
1.4 Selection of Service Providers                                                                       2  
1.5 Definitions                                                                                           3  
1.6 Use of Audio and Video Recordings                                                                      11

## SECTION 2.0 ETHICS                                                                                       11

## SECTION 3.0 PROTECTION, USE, AND RELEASE OF PERSONAL INFORMATION                                      12

3.1 Confidentiality                                                                                         12  
3.2 Release of Personal Information to Customers with Disabilities, their, Representative or Attorney      13  
3.3 Release to Other Agencies or Organizations                                                            13  
3.4 Release in Response to Investigations in Connection with Law Enforcement                             13  
3.5 Release for Audit, Evaluation or Research                                                             14  
3.6 Subpoena for Release of Information to the Courts, Other Judicial Bodies, Worker’s Compensation and Law Enforcement Agencies 14  
3.7 Social Security Information                                                                           14

## SECTION 4.0 APPEALS PROCESS                                                                              14

4.1 Continuation of Services Pending Completion of the Hearing                                           15  
4.2 Client Assistance Program (CAP) and Supervisory Review                                              15  
4.3 Dispute Resolution Process                                                                            16  
4.4 Mediation                                                                                             16  
4.5 Fair Hearing Process                                                                                  17

## SECTION 5.0 APPLICATION AND ELIGIBILITY DETERMINATION                                                      18

5.1 Inquiry                                                                                                 14  
5.2 Referral                                                                                               19  
5.3 Application for Idaho Division of Vocational Rehabilitation (IDVR) Services                          19  
5.4 Assessment for Determining Eligibility and Priority for Services                                      20  
5.5 Eligibility Criteria                                                                                    21  
5.6 Review and Assessment of Data for Eligibility Determination                                           23

## SECTION 6.0 THE DETERMINATION OF SIGNIFICANCE OF DISABILITY                                              26

6.1 Policy                                                                                                 26  
6.2 Definitions                                                                                           26
**SECTION 7.0 ASSESSMENT OF VOCATIONAL REHABILITATION NEEDS**

SECTION 1.0 – PURPOSE AND GENERAL REQUIREMENTS OF THE IDAHO VOCATIONAL REHABILITATION PARTICIPANT SERVICES PROGRAM

The Idaho Division of Vocational Rehabilitation (IDVR) program assists eligible persons with disabilities to prepare for and achieve an employment outcome. “Employment outcome” means entering or retaining full-time, or if appropriate, part-time competitive employment in the integrated labor market to the greatest extent possible. It also means supported employment; or other types of employment, including self-employment, consistent with self-sustaining activity for wages or compensation consistent with the customer’s strengths, resources, priorities, concerns, abilities, capabilities, interest, and informed choice.

Competitive employment is work performed in the integrated labor market in which the customer is compensated at or above minimum wage, but not less than the customary wage and benefits paid for the same or similar work performed by customers who do not have a disability.

The IDVR is a statewide program that develops and utilizes partnerships for effective service delivery. Partnerships vary, but include those programs authorized under the Rehabilitation Act, as amended, such as Independent Living Centers and Tribal Vocational Rehabilitation Programs. Programs authorized under the Workforce Innovation and Opportunity Act (WIOA) are utilized to the maximum extent possible as allowed in Section 188 of the Act. It is understood that each program is unique and offers unique cultural and professional expertise. Cooperative Agreements with respective programs are encouraged and should be referred to for local understanding. Staff is encouraged to understand these agreements and provide information, referral and services as appropriate to the needs of the customers they serve. Consult with the Regional Manager for access to pertinent cooperative agreements.

Vocational Rehabilitation is based upon an Individualized Plan for Employment (IPE) that is oriented to the achievement of an employment outcome. Services provided to persons with disabilities must be documented as necessary to overcome related barriers to employment and must be provided as cost effectively as possible.

The Division strives to maintain a highly accountable program to all customers.

IDVR provides, as appropriate to the vocational rehabilitation needs of each eligible customer, goods or services necessary to enable the customer to achieve an employment outcome.

EXCEPTION TO POLICY

VR Counselors are delegated substantial decision and purchasing authority based upon the caps outlined in the Payment Policy. Exceptions to policy require the approval of a VR Regional Manager and the notification and consultation of the Chief of Field Services. Documentation of the VR Regional Manager’s approval must be noted in the case file.

Purchases in excess of delegated authority are reviewed by the Regional Manager and approved by the Chief of Field Services or designee. Documentation of the approval of purchases in excess must be noted in case file.
1.1 Legal Citations

The IDVR program is operated in compliance with the Federal Rehabilitation Act of 1973, as amended by the Workforce Innovation and Opportunity Act (WIOA) enacted on July 22, 2014. The legal authorities for the policies contained in the Vocational Rehabilitation Services Policy Manual are: Proposed Rules to Title 34 CFR Parts 361, 363, and 397 issued April 16, 2015 in the Federal Register implementing the Rehabilitation Act Amendments of 1998; and Title 67, Chapter 53 of the Idaho code related to provisional appointments in state government for those with severe disabilities.

1.2 Program Requirements

Eligibility is determined without regard to sex, race, creed, age, color, national origin or type of disability.

There is no duration of residency requirement. The customer must be living in the State of Idaho and legally able to work in the United States.

IDVR will establish and maintain a record of services for each customer for, and recipient of, vocational rehabilitation services, which includes data necessary to comply with IDVR agency and Federal Rehabilitation Service Administration (RSA) requirements.

In the purchase of goods or services for persons with disabilities, IDVR complies with its procurement policy, Purchase of Services and Supplies for customer use in the Vocational Rehabilitation Program.

Case service expenditures require written authorization prior to the initiation of the service or purchase of any goods. Oral authorizations by a Regional Manager or above are permitted in emergency situations, but must be confirmed promptly in writing and forwarded to the provider. Emergency oral authorizations are to be followed up with a written authorization within three (3) business days.

Goods and services will be provided subject to the guidelines of the Order of Selection (Section 14.0).

When appropriate, counselors shall refer customers with disabilities to receive services from other agencies and organizations.

Each applicant or eligible customer being provided vocational rehabilitation services shall be informed of the procedure for requesting a review and a determination of agency action concerning the furnishing or denial of services, including the names and addresses of individuals with whom appeals may be filed and the availability of the Client Assistance Program (CAP).

1.3 Provider Standards

IDVR requires service providers:
To be licensed by the Division of Occupational Licensing, the U.S. Department of Education Office of Post-Secondary Education, or a professional certifying body.

OR

IDVR requires service providers that offer vocational rehabilitation services to apply to be an approved service provider with the Division. CRPs must be accredited based on IDAPA rules.

OR

IDVR CounselorVRCs may occasionally approve the purchase of services from non-license providers such as, educational tutoring, foreign language interpreters, or other services to support the rehabilitation needs of a customer.

1.4 Selection of Service Providers

Providers are selected by a combination of the customer’s informed choice and State procurement rules. VR counselorVRCs will assist the customer in acquiring information necessary to make an informed choice regarding the selection of service provider.

1.5 Definitions:

(Reference Federal Register / Vol. 66, No. 11 / Wednesday, January 17, 2001 / Rules and Regulation)

a. Applicant means, customer who submits an application for vocational rehabilitation services in accordance with Sec. 361.41(b) (2). (Authority: Section 12(c) of the Act; 29 U.S.C 709 (c))

b. Assessment for determining eligibility and vocational rehabilitation needs means, as appropriate in each case, (i)(A) A review of existing data—(1) To determine if a customer is eligible for vocational rehabilitation services; and (2) To assign priority for an order of selection described in Sec. 361.36 in the States that use an order of selection; and (B) To the extent necessary, the provision of appropriate assessment activities to obtain necessary additional data to make the eligibility determination and assignment; (ii) To the extent additional data are necessary to make a determination of the employment outcomes and the nature and scope of vocational rehabilitation services to be included in the individualized plan for employment for an eligible customer, a comprehensive assessment to determine the unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice, including the need for support employment, of the eligible customer. This comprehensive assessment – (A) is limited to information that is necessary to identify the rehabilitation needs of the customer and to develop the individualized plan of employment of the eligible customer; (B) Uses as a primary source of information, to the maximum extent possible and appropriate and in accordance with confidentiality requirements –

1) Existing information obtained for the purposes of determining the eligibility of the customer and assigning priority for an order of selection described in Sec. 361.36 for the customer; and
2) Information that can be provided by the customer and, if appropriate, by the family of the customer; (c) May include, to the degree needed to make such a determination, an assessment of the personality, interests, interpersonal skills, intelligence and related functional capacities, educational achievements, work experience, vocational aptitudes, personal and social adjustments, and employment opportunities of the customer and the medical, psychiatric, psychological, and other pertinent vocational, educational, cultural, social, recreational, and environmental factors that affect the employment and rehabilitation needs of the customer; and (D) May include, to the degree needed an appraisal of the patterns of work behavior of the customer and services needed for the customer to acquire occupational skills and to develop work attitudes, work habits, work tolerance, and social and behavior patterns necessary for successful job performance, including the use of work in real job situations to assess and develop the capacities of the customer to perform adequately in a work environment; (iii) Referral, for the provision of rehabilitation technology services to the customer, to assess and develop the capacities of the customer to perform in a work environment; and (iv) An exploration of the customer’s abilities, capabilities, and capacity to perform in work situations, which must be assessed periodically during trial work experience, including experiences in which the customer is provided appropriate supports of training. (Authority: Section 7(2) of the Act; 29 U.S.C. 705(2))

c. **Assistive technology device** means any item, piece of equipment, or product system, whether acquired commercially off the shelf, modified, or customized, that is used to increase, maintain, or improve the functional capabilities of a customer with a disability. (Authority: Section 7(3) of the Act; 29 U.S.C. 705(3))

d. **Assistive technology service** means any service that directly assists a customer with a disability in the selection, acquisition, or use of an assistive technology device, including; (i) The evaluation of needs of a customer with a disability, including a functional evaluation of the customer in his or her customary environment; (ii) Purchasing, leasing, or otherwise providing for the acquisition, by a customer with a disability, of an assistive technology device; (iii) Selecting, designing, fitting, customizing, adapting, applying, maintaining, repairing, or replacing assistive technology devices; (iv) Coordinating and using other therapies, interventions, or services with assistive technology devices, such as those associated with existing education and rehabilitation plans and programs; (v) Training or technical assistance for a customer with a disability or, if appropriate, the family members, guardians, advocates, or authorized representatives of the customer; and (vi) Training or technical assistance for professionals (including customers providing education and rehabilitation services), employers, or others who provide services to, employ, or are otherwise substantially involved in the major life functions of customers with disabilities, to the extent that training or technical assistance is necessary to the achievement of an employment outcome by a customer with a disability. (Authority: Sections 7(4) and 12(c) of the Act; 29 U.S.C. 705(4) and 709 (c))

e. **Community rehabilitation program.** (i) Community rehabilitation program means a program that provides directly or facilitates the provision of one or more of the following vocational rehabilitation services to customers with disabilities to enable those customers
to maximize their opportunities for employment, including career advancement: (A) Medical, psychiatric, psychological, social, and vocational services that are provided under one management; (B) Testing, fitting, or training in the use of prosthetic and orthotic devices; (C) Recreational therapy; (D) Physical and occupational therapy; (E) Speech, language, and hearing therapy (F) Psychiatric, psychological, and social services, including positive behavior management; (G) Assessment for determining eligibility and vocational rehabilitation needs; (H) Rehabilitation Evaluation or control of specific disabilities; (K) Orientation and mobility services for customers who are blind; (L) Extended employment; (M) Psychosocial rehabilitation services; (N) Supported employment services and extended services; (O) Services to family members if necessary to enable the applicant or eligible customer to achieve an employment outcome; (P) Personal assistance services; (Q) Services similar to the services described in paragraphs (A) through (P) of this definition. (ii) For the purposes of this definition, the word program means an agency, organization, or institution, or unit of an agency, organization, or institution, that provides directly or facilitates the provision of vocational rehabilitation services as one of its major functions.

f. **Comparable services and benefits means**, (i) Services and benefits that are (A) Provided or paid for, in whole or in part, by other Federal, State, or local public agencies, by health insurance, or by employee benefits; (B) Available to the customer at the time needed to ensure the progress of the customer toward achieving the employment outcome in the customer’s individualized plan for employment in accordance with Sec. 361.53; and (C) Commensurate to the services that the customer would otherwise receive from the designated State vocational rehabilitation agency. (ii) For the purposes of this definition, comparable benefits do not include awards and scholarships based on merit. (Authority: Sections 12 (c) and 101 (a)(8) of the Act; 29 U.S.C. 709 (c) and 721 (a)(8))

g. **Competitive employment** means work; - (i) in the competitive labor market that is performed on a full-time or part-time basis in an integrated setting; and (ii) For which a customer is compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by customers who are not disabled. (Authority: Sections 7(11) and 12(c) of the Act; 29 U.S.C. 705(11) and 709 (c))

h. **Employment outcome** means, with respect to a customer, entering or retaining full-time or, if appropriate, part-time competitive employment, as defined in Sec. 361.5 (b)(11), in the integrated labor market, supported employment, or any other type of employment in an integrated setting, including a customer’s strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice. (Authority: Sections 7(11), 12(c), 100(a)(2), and 102 (b)(3)(A) of the Act; 29 U.S.C. 705 (11), 709(c), 720 (a)(2), and 722 (b)(3)(A))

i. **Employment outcome maintained** means the customer has maintained the employment outcome for an appropriate period of time, but not less than 90 days, necessary to ensure the stability of the employment outcome and the customer no longer needs vocational rehabilitation services.
j. **Satisfactory outcome** means at the end of the appropriate period, not less than 90 days, the customer and the vocational counselor consider the employment outcome to be satisfactory and agree that the customer is performing well in the employment.

k. **Extended services** means ongoing support services and other appropriate services that are needed to support and maintain a customer with a most significant disability in supported employment and that are provided by a State agency, a private nonprofit organization, employer, or any other appropriate resource, from funds other than funds received under this part and 34 CFR part 363 after a customer with a most significant disability has made the transition from support provided by the designated State unit. (Authority: Sections 7 (13) and 623 of the Act; 29 U.S.C. 705 (13) and 795i)

l. **Family member**, for purposes of receiving vocational rehabilitation services in accordance with Sec 361.48(i), means a customer; (i) Who either, (A) Is a relative or guardian of an applicant or eligible customer; or (B) Lives in the same household as an applicant or eligible customer; (ii) Who has a substantial interest in the well-being of that customer; and (iii) Whose receipt of vocational rehabilitation services is necessary to enable the applicant or eligible customer to achieve an employment outcome. (Authority; Sections 12 (c) and 103 (a)(17) of the Act; 29 U.S.C. 709 (c) and 723 (a)(17))

m. **Homemaker** is recognized as non-competitive gainful work. In order for a household manager to be considered an appropriate vocational objective, the customer must perform a majority of certain work activities within a family unit. These include, but are not limited to: family financial management, cleaning, meal preparation, laundry, mending, childcare, and other household activities. The performance of these responsibilities must positively impact the family’s economic circumstances. For example, by rehabilitating a household manager, economic advantage occurs because the family will not have to pay someone else to perform household management tasks.

n. **Indian tribe** means any Federal or State Indian tribe, band, Rancheria, pueblo, colony, or community, including any Idaho native village or regional village corporation. (Authority: Section 7 (19)(B) of the Act; 29 U.S.C. 705 (19)(B))

o. **Customer with a disability**, except as provided in Sec. 361.5(b) (29), means a customer (i) Who has a physical or mental impairment; (ii) Whose impairment constitutes or results in a substantial impediment to employment; and (iii) Who can benefit in terms of an employment outcome from the provision of vocational rehabilitation services. (Authority; Sections 7(20)(A) of the Act; 29 U.S.C. 705(20)(A))

p. **Customer's representative** means any representation chosen by a customer or eligible customer, as appropriate, including a parent, guardian, other family member, or advocate, unless a representative has been appointed by a court to represent the customer, in which case the court-appointed representative is the customer’s representative. (Authority: Sections 7 (22) and 12 (c) of the Act; 29 U.S.C. 705(22) and 709 (c))

q. **Informed choice** means the process by which customers in the public rehabilitation program make decisions about their vocational goals, the services and service providers necessary to reach those goals, and how those services will be procured. The decision making process takes into account the customer’s values, lifestyle, and characteristics, the
availability of resources and alternatives, and general economic conditions. Informed choice is a collaborative process involving the customer and IDVR staff in coordination with other resources as necessary.

**Informed Choice Guidelines:**
Informed choice does not mean unlimited choice. A customer’s choices are limited by several factors.

- The choice must relate to and be necessary to achieving an employment outcome.
- The choice must be consistent with the customer’s strengths, resources, priorities, abilities, capabilities, needs and interests.
- The choice must be made pursuant to all Federal, State, and IDVR rules related to purchasing and providing services.
- When deciding what goods and services will be provided, the following will be part of the informed choice decision:
  - Cost, accessibility, and duration of potential services;
  - Customer satisfaction with those services to the extent that information relating to customer satisfaction is available;
  - Qualifications of potential service providers;
  - Types of services offered by the potential providers;
  - Degree to which services are provided in integrated settings; and
  - Outcomes achieved by individuals working with service providers, to the extent that such information is available.

### Integrated setting
(i) With respect to the provision of services, means a setting typically found in the community in which applicants or eligible customers interact with non-disabled customers other than non-disabled customers who are providing services to those applicants or eligible customers; (ii) With respect to an employment outcome, means a setting typically found in the community in which applicants or eligible customers interact with non-disabled customers, other than non-disabled customers who are providing services to those applicants or eligible customers, to the same extent that non-disabled customers in comparable positions interact with other persons. (Authority: Sections 12 (c) of the Act; 29 U.S.C. 709 (c))

### Maintenance
Means monetary support provided to a customer for expenses, such as food, shelter, and clothing, that are in excess of the normal expenses of the customer and that are necessitated by the customer’s participation in an assessment for determining eligibility and vocational rehabilitation needs or the customer’s receipt of vocational rehabilitation services under an individualized plan for employment. (Authority: Sections 12 (c) and 103 (a)(7) of the Act; 29 U.S.C. 709 (c) and 723 (a)(7))

### Ongoing support services
As used in the definition of “Supported employment” (i) Means services that are (A) Needed to support and maintain a customer with a most significant disability in supported employment; (B) Identified based on a determination by the designated State unit of the customer’s need as specified in an individualized plan for employment; and (C) Furnished by the designated State unit from the time of job placement until transition to extended service, unless post-employment services are provided following transition, and thereafter by one or more extended services providers.
throughout the customer’s term of employment in a particular job placement or multiple placements if those placements are being provided under a program of transitional employment; (ii) Must include an assessment of employment stability and provision of specific services or the coordination of services at or away from the worksite that are needed to maintain stability bases on; (A) At a minimum, *twice-monthly monitoring at the worksite* of each customer in supported employment; or (B) If under specific circumstances, especially at the request of the customer, the individualized plan for employment provides for *off-site monitoring, twice monthly meetings with the customer*; (iii) Consist of; (A) Any particularized assessment supplementary to the comprehensive assessment of rehabilitation needs described in paragraph (b)(6)(ii) of this section; (B) The provision of skilled job trainers who accompany the customer for intensive job skill training at the work site; (C) Job development and training; (D) Social skills training; (E) Regular observation or supervision of the customer; (F) Follow-up services including: regular contact with the employers, the customers, the parents, family members, guardians, advocates, or authorized representatives of the customers, and other suitable professional and informed advisors, in order to reinforce and stabilize the job placement; (G) Facilitation of natural supports at the worksite; (H) Any other service identified in the scope of vocational rehabilitation services for customers, described in SEC. 361.48; or (I) Any service similar to the foregoing services. (Authority: Sections 7(27) and 12(c) of the Act; 29 U.S.C. 705 (27) and 709 (c))

### 4. Personal assistance services
means a range of services provided by one or more persons designed to assist a customer with a disability to perform daily living activities on or off the job that the customer would typically perform without assistance if the customer did not have a disability. The services must be designed to increase the customer’s control in life and ability to perform everyday activities on or off the job. The services must be necessary to the achievement of an employment outcome and may be provided only while the customer is receiving other vocational rehabilitation services. The services may include training in managing, supervising, and directing personal assistance services. (Authority: Sections 7(28), 102(b)(3)(B)(i)(I), and 103(a)(9) of the Act; 29 U.S.C. 705(28), 722(b)(3)(B)(i)(I), and 723(a)(9)) [[Page 272]]

### 5. Physical and mental restoration services
means; (i) Corrective surgery or therapeutic treatment that is likely, within a reasonable period of time, to correct or substantially modify a stable or slowly progressive physical or mental impairment that constitutes a substantial impediment to employment; (ii) Diagnosis of and treatment for mental or emotional disorders by qualified personnel in accordance with State licensure laws; (iii) Dentistry; (iv) Nursing services; (v) Necessary hospitalization (either inpatient or outpatient care) in connection with surgery or treatment and clinic services; (vi) Drugs and supplies; (vii) Prosthetic and orthotic devices; (viii) Eyeglasses and visual services, including visual training, and the examination and services necessary for the prescription and provision of eyeglasses, contact lenses, microscopic lenses, telescopic lenses, and other special visual aids prescribed by personnel that are qualified in accordance with State licensure laws; (ix) Podiatry; (x) Physical therapy; (xi) Occupational therapy; (xii) Speech or hearing therapy; (xiii) Mental health services; (xiv) Treatment of either acute or chronic medical complications and emergencies that are associated with or arise out of the provision of physical treatment; (xv) Special services for the treatment of customers
with supplies; and (xvi) Other medical or medically related rehabilitation services.  
(Authority: Sections 12 (c) and 103 (a)(6) of the Act; 29 U.S.C. 709 (c) and 723 (a)(6))

vi. **Pre-employment transition services** are those services/activities for students with disabilities[TP3] (see page 10 for definition of student with disability). Required activities include job exploration counseling; work-based learning experiences, which may include in-school or after school opportunities, or experience outside the traditional school setting (including internships), that is provided in an integrated environment in the community to the maximum extent possible; counseling on opportunities for enrollment in comprehensive transition or postsecondary educational programs at institutions of higher education; workplace readiness training to develop social skills and independent living; and instruction in self-advocacy. Authorized activities may also be provided.  
(Authority: Section 7(30), and 113 of the Act; 29 U.S.C. 7(30) and 733)

vi.w. **Physical or mental impairment** means; (i) Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological, musculo-skeletal, special sense organs, respiratory (including speech organs), cardiovascular, reproductive, digestive, genitourinary, hemic and lymphatic, skin, and endocrine; or (ii) Any mental or psychological disorder such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. (Authority: Sections 7(20)(A) and 12 (c) of the Act; 29 U.S.C. 705(20)(A) and 709 (c))

vi.x. **Post-employment services** means one or more of the services identified in Section 361.48 that are provided subsequent to the achievement of an employment outcome and that are necessary for a customer to maintain, regain, or advance in employment, consistent with the customer’s strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice. (Authority: Sections 12 (c) and 103 (a)(18) of the Act; 29 U.S.C. 709 (c) and 723 (a)(18)) Note to paragraph (b) (42): Post-employment services are intended to ensure that the employment outcome remains consistent with the customer’s strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice. These services are available to meet rehabilitation needs that do not require a complex and comprehensive provision of services and, thus, should be limited in scope and duration. If more comprehensive services are required, then a new rehabilitation effort should be considered. Post-employment services are to be provided under an amended individualized plan for employment; thus, a re-determination of eligibility is not required. The provision of post-employment services is subject to the same requirements in this part as the provision of any other vocational rehabilitation service. Post-employment services are available to assist a customer to maintain employment, e.g., the customer’s employment is jeopardized because of conflicts with supervisors or co-workers, and the customer needs mental health services and counseling to maintain the employment; to regain employment, e.g., the customer’s job is eliminated through re-organization and new placement services are needed; and to advance in employment, e.g., the employment is no longer consistent with the customer’s strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice.

The customer is informed through appropriate modes of communication of the availability of post-employment services.
y. **Rehabilitation engineering** means the systematic application of engineering sciences to design, develop, adapt, test, evaluate, apply, and distribute technological solutions to problems confronted by customers with disabilities in functional areas, such as mobility, communications, hearing, vision, and cognition, and in activities associated with employment, independent living, education, and integration into the community. (Authority: Section 7(12)(c) of the Act; 29 U.S.C. 709 (c))

z. **Rehabilitation technology** means the systematic application of technologies, engineering methodologies, or scientific principles to meet the needs of, and address the barriers confronted by, customers with disabilities in areas that include: education, rehabilitation, employment, transportation, independent living, and recreation. The term includes rehabilitation engineering, assistive technology devices, and assistive technology services. (Authority: Section 7(30) of the Act; 29 U.S.C. 705(30))

aa. **Student with a disability** is an individual with a disability who is under the age of 22 at the time of service delivery and is eligible for and receiving special education services or is on a 504 Plan. (Authority: Section 7(37) of the Act; 29 U.S.C. 705(37))

y-bb. **Substantial impediment to employment** means that a physical or mental impairment (in light of attendant medical, psychological, vocational, educational, communication, and other related factors) hinders a customer from preparing for, entering into, engaging in, or retaining employment consistent with the customer’s abilities and capabilities. (Authority: Sections 7(20)(A) and 12 (c) of the Act; 29 U.S.C. 705(20)(A) and 709 (c))

z-cc. **Supported employment means**,

(i) Competitive employment in an integrated setting, or employment in integrated work settings in which customers are working toward competitive employment, consistent with the strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice of the customers with ongoing support services for customers with the most significant disabilities; (A) For whom competitive employment has not traditionally occurred or for whom competitive employment has been interrupted or intermittent as a result of a significant disability; and (B) Who, because of the nature and severity of their disabilities, need intensive supported employment services from the designated State unit and extended services after transition as described in paragraph (b)(20) of this section to perform this work; or (ii) Transitional employment, as defined in paragraph (b)(54) of this section, for customers with the most significant disabilities due to mental illness. (Authority: Section 7(35) of the Act; 29 U.S.C. 705(35))

aa-dd. **Supported employment services** means ongoing support services and other appropriate services needed to support and maintain a customer with a most significant disability in supported employment that are provided by the designated State unit; (i) For a period of time not to exceed 48 months, unless under special circumstances the eligible customer and the rehabilitation counselor or coordination jointly agree to extend the time, to achieve the employment outcome identified in the individualized plan for employment; and (ii) Following transition, as post-employment services that are
unavailable from an extended services provider and that are necessary to maintain or regain the job placement or advance in employment. (Authority: Sections 7(36) and 12 (c) of the Act; 29 U.S.C. 705(36 and 709 (c))

**bb-cc. Transition services** means a coordinated set of activities for a student designed within an outcome-oriented process that promotes movement from school to post-school activities, including: post-secondary education, vocational training, integrated employment (including supported employment), continuing and adult education, adult services, independent living, or community participation. The coordinated set of activities must be based upon the student’s needs, taking into account the student’s preferences and interests, and must include instruction, community experiences, the development of employment and other post-school adult living objectives, and, if appropriate, acquisition of daily living skills and functional vocational evaluation. Transition services must promote or facilitate the achievement of the employment outcome identified in the student’s individualized plan for employment. (Authority: Sections 7(37) and 103 (a)(15) of the Act; 29 U.S.C. 705(37) and 723 (a)(15))

**ee-ff. Transitional employment,** as used in the definition of “Supported Employment,” means a series of temporary job placements in competitive work in integrated settings with ongoing support services for customers with the most significant disabilities due to mental illness. In transitional employment, the provision of ongoing support services must include continuing sequential job placement until job permanency is achieved. (Authority: Sections 7(35)(B) and 12 (c) of the Act; 29 U.S.C. 705(35)(B) and 709 (c))

**dd-gg. Transportation** means travel and related expenses that are necessary to enable an applicant or eligible customer to participate in a vocational rehabilitation service, including expenses for training in the use of public transportation vehicles and systems. (Authority: 103 (a)(8) of the Act; 29 U.S.C. 723 (a)(8)) (i)

**ee-hh. Vocational Rehabilitation Counselor (VRC) is the designated employee position in charge of managing the customer’s case. For the purposes of this manual a Vocational Rehabilitation Specialist is considered a VRC.**

**ff—ii. Youth with a disability** is an individual with a disability who is under the age of 25. (Authority: Section 7(42) of the Act; 29 U.S.C. 705(43))

**1.6 Use of Audio and Video Recordings.** IDVR reserves the right to prohibit customer use of video and audio recording without prior approval by the Chief of Field Services.

**SECTION 2.0 – ETHICS**

A. **All Idaho Division of Vocational Rehabilitation (IDVR) employees must adhere to the Idaho Ethics in Government Manual:**

B. IDVR ascribes to, and requires all Vocational Rehabilitation Counselors (VRCs) and Field Services Staff to follow the Code of Professional Ethics for Rehabilitation Counselors accepted by the Commission of Rehabilitation Counselor Certification (CRCC).

http://www.crccertification.com

C. Provision of Services to Potential and Current IDVR Employees/Interns/Volunteers

- If an IDVR employee becomes a customer, their VR case will be served by a region other than where they work.

- If an IDVR customer accepts employment with IDVR their case will be served by a region different than where they accepted employment.

D. Internships, participants in training programs, or trial work experiences of customers served by IDVR will not be served from a counselor in the same office where the trial work, internship, or participation in training programs is located.

E. If a family member of an employee or a family member of anyone who resides in the employee’s residence applies for services they will be served by a counselor from a different region from the employee.

F. An employee shall not financially benefit from decisions made under the authority of IDVR.

G. An employee will not make IDVR purchases (case services or other purchases) from a family member or a family member of anyone who resides in the employee’s residence, or from a business owned or controlled by such an individual. This includes customer reimbursements.

SECTION 3.0 PROTECTION, USE, AND RELEASE OF PERSONAL INFORMATION

3.1 Confidentiality

All information acquired by Idaho Division of Vocational Rehabilitation (IDVR) must be used only for purposes directly connected with the administration of the vocational rehabilitation program. As a general rule, information containing personal information may not be shared with advisory or other bodies that do not have official responsibility for administration of the program, except as provided in this policy. Use, release, and obtaining of personal information by IDVR shall conform to applicable State law and rules, and applicable Federal law and regulations.

Requests for information under the Idaho public records laws should be referred to the deputy attorney general assigned to the Agency.

For purposes of this policy, informed written consent shall:
A. Be explained in language that the customer or their representative understands;

B. Be dated, and specify the length of effect;

C. Be specific in designating IDVR as the agency authorized to use, disclose or receive information;

D. Be specifically designated to the parties to whom the information may be released;

E. Specifically designate the parties whom the information may be released; and

F. Be specific as to the purpose(s) for which the information may be used.
3.2 Release of Personal Information to Customers with Disabilities, their Representative or Attorney

If requested in writing by a customer of IDVR, and upon informed written consent by the customer and/or his or her representative, all information in such customer’s case record that pertains to such customer shall be made available in a timely manner to that customer, except:

3.2.1 Medical, psychological or other information that IDVR believes may be harmful to the customer. This information may not be released directly to the customer but may be provided to the customer through a third party chosen by the customer, which may include, among others, an advocate, a family member, or a qualified medical or mental health professional, unless a representative has been appointed by a court to represent the customer, in which case the information must be released to the court appointed representative.

3.2.2 Information obtained from outside IDVR may be released only under the conditions established by the outside agency, organization or provider or mandated for them by Federal or State law.

3.2.3 An applicant or eligible customer who believes that information in the customer’s record of services is inaccurate or misleading may request that IDVR amend the information. If the information is not amended, the request for an amendment must be documented in the record of service.

3.2.4 IDVR will respond to a case records request made under this section within ten (10) working days after receipt of a written request. One current copy of the case record will be made for the customer at no charge. Additional copies will be provided at the flat fee of $25 each.

3.3 Release to Other Agencies or Organizations

If information requested has been obtained from another agency, organization or professional, it will be released only under conditions established by that agency, organization or professional.

- IDVR may release personal information without informed written consent of the customer in order to protect the customer or others when the customer poses a threat to his/her safety or the safety of others.

3.4 Release in Response to Investigations in Connection with Law Enforcement

IDVR shall release personal information in response to investigations in connections with law enforcement, fraud, or abuse, unless expressly prohibited by Federal or State laws or regulations, and in response to a court order.
3.5 Release for Audit, Evaluation or Research

At the discretion of the Administrator, personal information may be released to an organization, agency, or customer engaged in audit, evaluation or research only for purposes directly connected with the administration of the vocational rehabilitation program, or for purposes which would significantly improve the quality of life for customers with disabilities, and only if the organization, agency or customer assures that:

A. The information will be used only for the purposes for which it is being provided;
B. The information will be released only to customers officially connected with the audit, evaluation or research;
C. The information will not be released to the involved customer;
D. The information will be managed in a manner to safeguard confidentiality and,
E. The final product will not reveal any personal identifying information without the informed written consent of the involved customer, and/or his/her representative.

3.6 Subpoena for Release of Information to the Courts, Other Judicial Bodies, Worker’s Compensation and Law Enforcement Agencies

A subpoena issued to IDVR for information relating to a customer of IDVR must immediately be referred to the Chief of Field Services who will subsequently refer the document to the Deputy Attorney General assigned to the Agency to determine how the agency will respond to the subpoena.

3.7 Social Security Information

Confidentiality of SSA information is covered under Section 11.06 of the Social Security Act and may be disclosed only as prescribed by regulations. The Act permits disclosure of all information about a claimant to State VR agencies. State VR agencies routinely obtain information, including entitlement and medical information, from SSA records. Medical information may be obtained without the claimant’s consent; however, State VR agencies may not permit access to such information, release it further (this includes other state agencies), or testify concerning it for any other purpose than the rehabilitation of the Social Security Disability beneficiary claimant. To obtain information from Disability Determination Services, a release form must be used.

SECTION 4.0 APPEALS PROCESS

The IDVR counselorVRCl shall notify and provide written information to all applicants and eligible customers regarding:

A. Their right to appeal determinations made by IDVR personnel, which affect the provision of rehabilitation services;
B. Their right to request mediation;

C. The names and addresses IDVR personnel to whom requests for mediation or appeals may be filed;

D. The manner in which a mediator or hearing officer may be selected;

E. Availability of assistance from the Client Assistance Program (CAP).

F. If the Agency is following an Order of Selection, it shall inform all eligible customers of the priority they are in.

Timing of such notification shall be provided by the IDVR counselor VRC:

A. At the time a customer applies for rehabilitation services;

B. At the time of the Individualized Plan for Employment (IPE) is developed;

C. At the time the customer is assigned to a category in the State’s Order of Selection, if applicable; and

D. Upon reduction, suspension, or cessation of approved rehabilitation services for the customer.

Whenever possible, IDVR will attempt to resolve conflicts informally or through the Dispute Resolution process. IDVR will not pay for a customer’s legal services.

IDVR shall make disability related accommodations to assist customers in the conduct of the appeals process.

4.1 Continuation of Services Pending Completion of the Appeal Process

Pending a final determination of an Informal Review or Fair Hearing or participation in Mediation, IDVR may not suspend, reduce, or terminate approved services being provided under an IPE, unless the services were obtained through misrepresentation, fraud or collusion or the customer or authorized representative, requests suspension, reduction, or termination of services.

4.2 Client Assistance Program (CAP) and Supervisory Review

The CAP and supervisory review are encouraged as a means to resolve dissatisfaction. These options are in keeping with the IDVR policy to resolve a customer’s dissatisfaction at the earliest possible time.
4.3 Dispute Resolution Process

4.3.1 The Informal Review process is an option available to the customer as a proven means likely to result in a timely resolution of disagreements. A customer must request an Informal Review within twenty-one (21) calendar days of the agency notice regarding IDVR’s decision to provide or deny services that are in question. The request must be in writing to the Regional ManagerRM. The request must describe the complaint.

In holding an Informal Review, the Regional ManagerRM will function as the Review Officer. At the customer’s request another Regional ManagerRM may be substituted. The reviewer will be responsible for:

A. Advising the customer of his/her right to have a representative present and encouraging the customer to use the services of CAP.

B. Conducting the review within fifteen (15) calendar days following written receipt of a request for such a hearing. Unless an extension is agreed to by both parties.

C. When the customer makes a documented effort to utilize CAP or another selected advocate to resolve his/her dissatisfaction, the time allowed for conducting an Informal Review will be extended accordingly.

D. Holding the review at a time and place convenient to the customer, generally at the local IDVR branch office.

E. Providing communication methods for those customers who have a sensory impairment. An interpreter will be provided for those customers who cannot communicate in English.

F. If needed, assure that the customer is provided transportation to and from the review site.

G. The Informal Review Officer (Regional ManagerRM) will attempt to resolve the matter to the satisfaction of the customer, developing a written proposal with the customer at the conclusion of the appeal process. The results are binding for the agency unless the proposal is not permitted by law. The customer may reject the proposal and request a Fair-Hearing within ten (10) calendar days of the Informal Review proposal or sixty (60) calendar days of the original IDVR decision, whichever one comes later.

4.4 Mediation

4.4.1 Mediation is an alternate dispute resolution method available to applicants and eligible customers who have initiated the Formal Appeals Process.

A. A customer must request Mediation within twenty (20) calendar days of the original decision or ten (10) calendar days following the written proposal from the
Informal Review. Mediation is available to a customer when an Informal Review has not resolved the dispute to the satisfaction of the customer.

B. Requests for mediation must be made in writing to the Chief of Field Services and clearly state the reason for dissatisfaction with the decision or results of the Informal Review. The Chief of Field Services will represent IDVR or assign a member of the administrative or supervisory staff who has not participated in the Agency action that created the customer’s dissatisfaction.

C. Participation in the mediation process is voluntary on the part of the customer and on the part of IDVR. Either party may reject mediation as an alternate dispute resolution method. Either party, once accepting mediation as an alternate dispute resolution method, may terminate the mediation process.

D. Mediation is not used to deny or delay the customer’s right to pursue a Fair Hearing. Should the customer and/or designated representatives select mediation in lieu of a Fair Hearing the option for the Fair Hearing will be extended to allow the results of the mediation to be established. After the final results of the mediation are determined, the customer retains the right to request a Fair Hearing.

E. Mediation is conducted by qualified and impartial mediators, who are selected randomly from a list of mediators maintained by the IDVR.

F. Mediation discussions are confidential and may not be used as evidence in a subsequent Fair Hearing. A confidentiality agreement will be signed by both parties at the beginning of the mediation process.

G. The mediator will develop a written Mediation Agreement, if an agreement between the parties is reached, it must be signed by the customer, the mediator, and IDVR.

H. Cost of mediation is paid by IDVR. IDVR is not required to pay for any cost related to the representation of a customer.

4.5 Fair Hearing Process

The Fair Hearing Process is an option available to any customer who is dissatisfied with any determination made by personnel of IDVR that affects the provisions of vocational rehabilitation services. A customer may request a Fair Hearing immediately without having to go through the other appeal steps.

A customer may request, or if appropriate, may request through the customer’s representative, a timely review of the determination. Such a request must be made within sixty (60) days of the IDVR decision resulting in the initial disagreement or within ten (10) calendar days of the conclusion of the Informal Review or ten (10) calendar days of the conclusion of the Mediation Process whichever is later. The Fair Hearing Process shall include a Fair Hearing by a Fair Hearing Officer (FHO).
4.5.1 A Formal Hearing is a procedure whereby a customer who is dissatisfied with any determination concerning the provision or denial of IDVR services or the findings of the Informal Review or Mediation may seek a determination of the agency action before a Fair Hearing Officer.

4.5.2 A request for a Fair Hearing must be sent in writing to the Chief of Field Services and clearly state the customer’s dissatisfaction with the Agency’s decision.

4.5.3 The hearing shall be conducted within sixty (60) calendar days of receipt of the customer’s request for review, unless informal resolution is achieved prior to the 60th day, or both parties agree to a specific extension of time.

4.5.4 A list of Fair Hearing Officers shall be identified jointly by the Administrator of IDVR and the State Rehabilitation Council.

4.5.5 The Fair Hearing Officer will be selected from the list by the Administrator of IDVR and the customer.

4.5.6 The Fair Hearing Officer shall issue a written report of the findings and decision of the hearing within thirty (30) calendar days of the completion of the hearing.

4.5.7 The decision of the Fair Hearing Officer shall be considered final by the agency.

4.5.8 Any party who disagrees with the findings and decisions of a Fair Hearing Officer shall have the right to bring a civil action with respect to the matter in dispute. The action may be brought in any State court of competent jurisdiction or in a district court of the United States of competent jurisdiction without regard to the amount in controversy.

SECTION 5.0 APPLICATION AND ELIGIBILITY DETERMINATION

A. People with disabilities can achieve competitive, high quality employment in an integrated setting and can live full productive lives.

B. People with disabilities often experience major barriers related to the low expectations of and misunderstandings toward, people with disabilities that exists within society, within the persons with disabilities themselves, and sometimes, within our own rehabilitation system.

C. People with disabilities should have responsibility and accountability to make their own choices about their lives; the kind of employment they want to pursue, who they want to provide services for them, as well as the kind of services they need.

D. The primary purpose and role of the public vocational rehabilitation system is to empower individuals with disabilities by providing them with information, education, training, and confidence, in order that they will make effective employment choices when appropriately informed. It is also the purpose of the public vocational rehabilitation
system to support those choices when they are based upon reasonable and verifiable premises.

E. The most effective rehabilitation occurs when there are true partnerships between the Federal and State partners, State agency providers, community providers and employers, the disability community, all other partners, and the consumer.

The ultimate goal is to provide eligible customers with the skills, tools and information to aid in their vocational discovery process and to initiate informed choices when creating their Individualized Plan for Employment (IPE) with the VR counselor.

5.1 Inquiry

IDVR will respond to all general inquiries for VR services received via telephone, mail or electronic format within seven (7) business days.

5.2 Referral

A completed referral form for VR services from customers available to participate in services that are made via mail or electronic format will be entered into the case management system as an open referral within three (3) business days. IDVR staff will make a minimum of three (3) attempts to contact the customer before the referral is closed. The first attempt will include a phone call or e-mail. If unable to make contact, a letter will be sent to confirm IDVR has received the inquiry and will include the VRIDVR-office phone number. If the customer does not respond to the first letter, a second letter will be sent stating that IDVR has been unable to contact the customer and that the referral for services will be closed. Attempts to reach the customer and those results will be documented in the case management system.

5.3 Application for Idaho Division of Vocational Rehabilitation (IDVR) Services

An application process is complete when the following three criteria are met:

1. IDVR receives a signed and dated application signature sheet from a customer or his/her representative, or an alternate request for application is made to an IDVR office; AND

2. The customer provides the information needed to begin an assessment of eligibility. Information gathered in the intake interview meets this criterion; AND

3. The customer is available and free of restrictions to complete the assessment process for determining eligibility for VR services.

There is no duration of residency requirement. The customer must be living in the State of Idaho and legally able to work in the United States.
Applicants must be available and participate in the eligibility determination process.

IDVR must, as part of the application process, inform applicants that the goal of the VR services is to assist eligible customers to obtain or maintain employment and that services provided are toward this goal. Customers must also be informed of their rights and responsibilities.

The 60-day eligibility determination period begins when the application process is complete.

5.3.1 Orientation to Vocational Rehabilitation
IDVR is obligated to provide all customers with information about the following:

1. The Client Assistance Program (CAP);
2. Confidentiality;
3. VR services;
4. Informed choice;
5. The rehabilitation process;
6. That customers who receive VR services must intend to achieve an employment outcome;
7. The rights and responsibilities of the customer; and
8. The VR appeals process.

This information may be conveyed to customers through group orientations, in a one-on-one interview setting or over the telephone by IDVR staff.

5.3.2 Intake Interview
The intake interview is part of the application process and is the beginning of the assessment process to determine eligibility and potential services to be included on the Individualized Plan for Employment (IPE). Medical, psychological, social, vocational, educational, cultural and economic information is gathered to determine the unique strengths, abilities, and interests of the customer.

Prior to the end of the intake interview, the IDVR staff member should identify the actions needed by both IDVR and the customer. This could include:

1. Appointment(s) scheduled
2. Releases of Information obtained
3. Authorizations to be issued
4. Referral letters
5. Next scheduled meeting
6. Existing information the customer agrees to provide VRIDVR staff

5.4 Assessment for Determining Eligibility
Any customer who applies for services shall undergo an assessment for determining eligibility and the priority for services, the results of which shall be shared with the customer.

The assessment will be conducted in the most integrated setting possible and consistent with the needs and informed choice of the customer.
Eligibility for IDVR services shall be determined within a reasonable period of time, not to exceed sixty (60) days after the application for services (All three components of an application received) unless the following occurs:

A. The customer is notified that exceptional and unforeseen circumstances beyond control of IDVR preclude the counselor from completing the determination within the prescribed time frame and customer agrees that an extension of time is warranted;

OR

B. A trial work experience including an exploration of the customer’s abilities, capabilities, and capacity to perform in work situations is carried out;

OR

C. An extended evaluation is necessary.

5.5 Eligibility Criteria

A customer is eligible for Vocational Rehabilitation if the following criteria are met:

A. A determination by qualified personnel that the customer has a physical or mental impairment;

B. A determination by a qualified vocational rehabilitation counselor VRC that the customer’s physical or mental impairment constitutes or results in a substantial impediment to employment for the applicant;

C. A determination by a qualified vocational rehabilitation counselor VRC employed by IDVR that the customer requires vocational rehabilitation services to prepare for, secure, retain or regain employment consistent with the applicant’s unique strengths, resources, priorities, concerns, abilities, capabilities, interest, and informed choice;

D. A presumption by a qualified vocational rehabilitation counselor VRC that the applicant can benefit in terms of an employment outcome from the provision of vocational rehabilitation services.

NOTE: The customer can benefit in terms of an employment outcome from vocational rehabilitation services unless the counselor demonstrates on the basis of clear and convincing evidence, and only after an exploration of the customer’s abilities, capabilities, and capacity to perform in work situations or an extended evaluation is carried out, that such customer is incapable of benefiting from vocational rehabilitation services in terms of an employment outcome.

5.5.1 Qualified Personnel

IDVR has established a policy for “qualified personnel” for the purpose of disability determination. Under the Rehabilitation Act, the assessment for determining eligibility must be made by “qualified personnel” including, if appropriate, personnel skilled in rehabilitation
technology (Section 103 (a)(1) of the Act). In addition, diagnosis and treatment for mental and emotional disorders must be provided by “qualified personnel who meet State licensure laws” (Section 103 (a)(6)(F) of the Act).

Qualified personnel are those who meet existing licensure, certification, or registration requirements applicable to the profession, this includes VR Counselor VRCs who meet IDVR’s Comprehensive System of Personnel Development (CSPD) policy.

The determination of the existence of impairment should be supported by medical and/or psychological documentation. Medical/psychological disabilities shall be diagnosed by qualified personnel who demonstrate the possession of requisite State licensure, certification, or registration of requirements applicable to the practice of their profession within the state of Idaho.

The following occupations have been licensed in Idaho to provide general medical diagnoses. The VR Counselor VRC can utilize general medical diagnoses established by these medical professionals:

- Medical Physician or Doctor of Osteopathy
- Nurse Practitioner (works under own licensure)
- Physician’s Assistant (works under a “Delegation of Services Agreement” with a physician providing oversight)

The following occupations have been licensed in Idaho to provide specific medical diagnoses within the specialized areas of competency for which the specific licensure has been determined. It is critical that the VR Counselor VRC take special precaution to ensure that when utilizing medical diagnoses from one of the medical professions listed below that only those areas of expertise for which the particular professional has been credentialed are documented within the eligibility determination module.

- Licensed Psychologist
- Chiropractor
- Naturopath
- Podiatrist
- Optometrist
- Physical Therapist
- Dentist/Orthodontist
- Advanced Certified Alcohol and Drug Counselor (ACADC) / Certified Alcohol and Drug Counselor (CADC) (restricted to identifying alcohol and drug impairment related to specific testing outcome)
- School Psychologist (limited to diagnosing eligibility for school related special needs services)
- Licensed Audiologist (restricted to diagnosing hearing impairments specifically related to audiological testing results when medical conditions have been ruled out)

For further clarification, you may access www.ibol.idaho.gov and connect to “The Individual Board Pages” to determine the full extent of the professional latitude allocated to the medical occupations that are licensed to provide specialized services within narrowly defined parameters.
of competency. The State Board of Medicine maintains jurisdiction over the authority and conduct of medical doctors.

Private licensing/certifying boards outside the Federal/State purview cannot be utilized as a basis for VR diagnostic purposes.

5.5.2 Social Security Presumption
Any applicant, who has been determined eligible for Social Security benefits under Title II or Title XVI of the Social Security Act, based upon their disability, is presumed to meet the eligibility requirements for vocational rehabilitation services and is considered a customer with a significant disability.

Following an application and initial interview where a customer reports receiving SSI or SSDI, the counselor will obtain verification of receipt of SSI/SSDI, such as an award letter, a copy of the customer’s check, or a verification document through the Social Security Entry and Verification System (SVES). Upon verification, the customer is made eligible for vocational rehabilitation with a Presumption of Eligibility statement in the record of services.

NOTE: If the applicant presents sufficient medical documentation to determine eligibility at the first meeting, verification will still be procured but eligibility can be determined immediately without designating presumptive status.

The assessment for determining rehabilitation needs will continue, as needed, to obtain information necessary to determine the Individualized Plan for Employment. This assessment will include: gathering existing records to determine the customer’s impairment, impediment and nature and scope of the VR services necessary to obtain an employment outcome consistent with the customer’s unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice.

When the assessment adequately documents the impairment(s), employment impediment(s) and required service(s) needed, the qualified VR counselorVRC completes an Eligibility Determination in the Agency’s computerized data system.

If a customer receives disability benefits under Title II or Title XVI of the Social Security Act and intends to work, IDVR presumes eligibility for services, unless, because of the significance of the customer’s disability, a VR counselorVRC cannot presume that VR services will enable the customer to work (based on clear and convincing evidence).

Should the significance of the disability prevent a VR counselorVRC from presuming that VR services will enable the customer to work, the customer will be asked to complete a trial work experience in order for the counselor to make an eligibility determination.

If the customer cannot take advantage of a trial work experience, an extended evaluation must be conducted in order to make the decision of eligibility.
5.6 Review and assessment of data for eligibility determination

The eligibility determination shall be based on the review and assessment of existing data, including: counselor observations, education records, and information provided by the customer or family, particularly information used by education officials and determinations made by officials or other agencies. Current medical records will be utilized to determine the nature and extent of the disability as well as for justification for the procurement of additional medical data when required to identify/verify alleged medical restrictions.

To the extent that existing data does not describe the current functioning of the customer, IDVR will conduct an assessment of additional data resulting from the provision of VR services including: trial work experiences, assistive technology devices and services, personal assistance services, and any other support services that are necessary to determine whether a customer is eligible.

5.6.1 Eligibility/Ineligibility: For each customer determined eligible or ineligible for vocational rehabilitation services, the record of services must include a dated Determination completed by a qualified vocational rehabilitation counselor\textsuperscript{VRC}. Written notification of an ineligibility determination will be provided to the customer.

An ineligibility notification must include the reason for the determination, rights and responsibilities, and Client Assistance Program (CAP) information and referral to other appropriate agencies, which may include referral to the other workforce partners. A customer should be referred to the local Department of Labor to address the customer’s training or employment needs or to the Extended Employment Services Program (Work Services/Sheltered Workshops) if the ineligibility is “Too Severely Disabled.”

Ineligibility decisions based upon the severity of disability must outline clear and convincing evidence and require a period of trial work experiences or extended evaluation prior to closure. (See Closure, Section 13)

It is federally mandated that IDVR review the closure outcome of “too severely disabled” within 12 months of closure and annually thereafter, if requested. (See Section 13)

5.6.2 Trial Work Experiences (TWE) for customers with significant disabilities: Prior to any determination that a customer with a disability is incapable of benefiting from VR services in terms of an employment outcome because of the severity of that customer’s disability, an exploration of that customer’s abilities, capabilities, and the capacity to perform in realistic work situations must be conducted to determine whether or not there is clear and convincing evidence to support such a determination.

In such cases a written plan must be developed to assess and determine the above. The assessment must be provided in the most integrated setting possible, consistent with the informed choice and rehabilitation needs of the customer. TWE include: supported employment, situational assessment, and other experiences using realistic work settings and must be a sufficient variety and over a sufficient period of time to make such determination. Appropriate supports, including assistive technology devices and services
and personal assistance services to accommodate the rehabilitation needs of the customer must be provided.

Trial Work Experience is used to demonstrate whether the customer is capable of benefiting from VR services. Trial Work Experience will be conducted before Presumptive Eligibility is completed if there is a question regarding capacity to benefit.

TWEs may include: Community Based Work Evaluation (CBWE), job coaching, on-the-job training, supported employment or other experiences using realistic work settings, as well as assistive technology and other needed services.

Review the TWE Plan at least every 90 days to determine if there is sufficient evidence to conclude that the customer can benefit from VR Services in terms of an employment outcome or there is clear and convincing evidence that the customer is incapable of benefiting from VR Services in terms of an employment outcome due to the severity of the disability.

Make the determination for eligibility or case closure within the 18-month time frame.

5.6.3 Extended Evaluation: Under limited circumstances if a customer cannot take advantage of trial work experiences or if options for trial work experiences have been exhausted, an Extended Evaluation (EE) must be conducted to make these determinations.

In all cases where the counselor determines that an extended evaluation is required, the case record must include a Determination of Extended Evaluation completed by a qualified VR counselor, which documents:

A. That the customer has a physical or mental impairment which constitutes or results in a substantial impediment to employment and requires VR services, and

B. That it is questionable if the customer is capable of benefiting from VR services in terms of an employment outcome because of the severity of the disability.

During the extended evaluation period, VR services must be provided in the most integrated setting possible, consistent with the informed choice and rehabilitation needs of the customer. There must be a written Extended Evaluation Plan for providing services necessary to make an eligibility or ineligibility determination. Only those services that are necessary to make the above determinations are to be provided and extended evaluation services are terminated when the qualified vocational rehabilitation counselor is able to make the determinations.

A customer will remain in extended evaluations only for the period of time required to determine if the customer can benefit from VR services in terms of an employment outcome but not to exceed eighteen (18) months. A review of the case shall be conducted as often as necessary but at least every ninety (90) days. Written documentation will be provided of determination.
SECTION 6.0 THE DETERMINATION OF SIGNIFICANCE OF DISABILITY

6.1 Policy

At the time a customer is determined eligible for VR services, a VR counselor will determine the significance of the disability and, based upon the determination, will assign the customer to a priority category. If the agency is not under an Order of Selection, the prioritization will be used (1) for planning purposes to ascertain services that can continue to be provided to all who are eligible and (2) to provide a structure for an easy transition to an Order of Selection if required. If the Agency is under an Order of Selection (see section 14), the priority categories are used to determine the order in which customers receive services.

6.2 Definitions

Priority Categories:

A. No Significant Disability (NSD)
   a. Who has a physical or mental impairment;
   b. Whose impairment constitutes or results in a substantial impediment to employment; and
   c. Who can benefit in terms of an employment outcome from the provision of vocational rehabilitation services.

B. Significant Disability (SD)
   a. Meets the criteria for a customer with no significant-disability;
   b. Experiences a severe physical and/or mental impairment that seriously limits two or more functional categories (such as mobility, work skills, self-care, interpersonal skills, communication, self-direction or work tolerance) in terms of an employment outcome; and
   c. Requires multiple primary Individualized Plan for Employment (IPE) services over an extended period of time (at least 6 months).
Most Significant Disability (MSD)

a. Meets the criteria established for a customer with a significant disability;

b. Experiences a severe physical and/or mental impairment that seriously limits three or more functional categories (such as mobility, work skills, self-care, interpersonal skills, communication, self-direction or work tolerance) in terms of an employment outcome; and

c. Requires multiple primary Individualized Plan for Employment (IPE) services over an extended period of time (at least 6 months).

Note: Customers who are beneficiaries of Social Security Disability Insurance (SSDI) or recipients of Supplemental Security Income (SSI) for disability reasons are automatically classified as either SD or MSD depending upon the extent of their functional loss category limitations.

Order of Selection (OOS): When VR services cannot be provided to all eligible customers because of financial or service capacity constraints, the Agency will enter an Order of Selection process that will assure that first priority is given to customers with the most significant disabilities. Please review Section 14.0 for details regarding Order of Selection.

6.3 Procedures

Determination of Significance of Disability

A VR counselorVRC determines and adequately documents the level of severity of a customer’s disability based on a review of the information gathered to determine eligibility. If additional information is necessary to make the determination, a VR counselorVRC may obtain the information from the customer, customer’s family, an outside professional and/or another public agency.

If adequate information is not available to describe or document current functioning, a VR counselorVRC may purchase diagnostics from a qualified service provider.

A VR counselorVRC reviews the data to determine:

A. The number of functional capacity categories in terms of an employment outcome that are seriously impacted as a result of a disability;

AND

B. Whether a customer is likely to need multiple primary IPE services to prepare for, obtain, or maintain a job;

AND

C. The anticipated duration of IPE services are needed for an extended period of time (at least 6 months).
Identifying a Serious Loss of Functional Capacity

Functional capacity categories include: mobility, work tolerance, communication, self-care, interpersonal skills, self-direction, and work skills. To identify a loss of functional capacity, a VR counselorVRC reviews and assesses data provided by the customer or customer’s family, observed by the VR counselorVRC, or reported by another qualified professional to determine whether:

A. A loss of functional capacity resulting from a disability is present;

   AND

B. The loss of functional capacity represents an impediment to employment;

   AND

C. The loss of functional capacity meets the definition of “serious loss of functional capacity.”

   A serious loss of functional capacity means a reduction in capacity of the customer to the degree that the person requires services or accommodations not typically provided to other customers in order to prepare for, secure, or maintain a job.

   A specific disability diagnosis does not automatically infer a serious loss of functional capacity. Although certain functional losses are commonly associated with specific disability diagnoses, the presence and seriousness of the loss is unique for each person. Therefore, a VR counselorVRC must complete a thorough evaluation of loss of functional capacity for each customer.

Non-disability factors such as age, sex, race, cultural, geographic location, poor public transportation, legal history, or lack of training should not be considered when determining loss of functional capacity. It is within the VR counselorVRC’s judgment to determine whether limitations are disability related or not.

Self-Reported or Observed Loss of Functional Capacity

A VR counselorVRC may identify a loss of functional capacity based on a customer’s self-report, reports from the family, school representative or others, or based on counselor observations.

For example, while interviewing an applicant who is hard of hearing, a VR counselorVRC observes that the applicant is not able to effectively communicate verbally. Medical records clearly establish a hearing impairment, but do not address verbal limitations. Because a loss of functional capacity in verbal communication is consistent with and commonly associated with hearing loss, the VR counselorVRC may determine, based on his or her observations, that a serious loss of functional capacity is present. To ensure the case service record explains and supports the determination, the VR counselorVRC enters case narrative explaining that a loss in
the area of communication was observed, a summary of the observations, and how the loss of functional capacity affects the customer.

**SD/MSD Checklist**

Once the VR counselorVRC determines a disability-related loss of functional capacity, the VR counselorVRC considers whether the loss of functional capacity meets the definition of a “serious loss of functional capacity” contained in the SD/MSD Checklist loss of functional capacity definitions. If the loss of functional capacity meets the definitions of a “serious loss of functional capacity” the VR counselorVRC checks the appropriate indicator on the Checklist.

The VR counselorVRC completes the SD/MSD Checklist for each customer as soon as sufficient information is available, but no later than sixty (60) days from the date of application (unless an extension has been agreed upon).

**SECTION 7.0 ASSESSMENT OF VOCATIONAL REHABILITATION NEEDS**

**7.1 Primary Source of Information**

To the extent possible, the vocational goal, intermediate objectives, and the nature and scope of services to be included in the Individualized Plan for Employment (IPE) must be determined based on the data used for the assessment of eligibility and priority for services.

The Comprehensive Assessment to be completed prior to the development of the IPE will use, as a primary source of information, to the maximum extent possible, the following:

A. Existing information

B. Information provided by the customer and, where appropriate, by the family of the customer.

C. The Assessment may also include new information acquired by IDVR including an in-house vocational evaluation; Community Based Work Evaluation (CBWE), aptitude tests, interest tests, job shadowing or any pertinent assessment required to identify the objectives, nature and scope of VR services that the customer may need in order to substantiate the choice of employment outcome.

**7.2 Comprehensive Assessment of Rehabilitation Needs**

A comprehensive assessment of rehabilitation needs is a process utilized to identify the customer’s strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice as it relates to any potential vocational goal. The assessment shall be conducted in the most integrated setting possible, consistent with the informed choice of the customer.

**7.2.1 Assessment of the Customer’s Current Realities**

The VR counselorVRC and customer will evaluate the following relevant factors.
Work History:

The VR counselor is required to obtain a thorough work history of the customer at the time of the intake interview. The gathering of this information requires the identification of job titles, job duties/responsibilities, and length of time in each position, hiring/educational requirements, and the reasons for leaving. Some attempt should be made to assess the customer’s satisfaction with the job, the employer, and co-workers.

Functional Limitations:

Functional limitations need to be clearly outlined before the customer begins the development of a vocational goal. The establishment of an appropriate vocational goal requires that both the VR counselor and customer are aware of and address the true barriers to employment including the customer’s perception of their limitations. This involves addressing the following areas:

A. Physical limitations (lifting, walking, carrying, driving, stooping, reaching, handling, and bending)
B. Mental limitations (coping with stress, working with other people, working alone)
C. Current work tolerance
D. Acceptance of disability
E. Cognitive functioning

Personal Social & Economic Factors:

It is important for the VR counselor and customer to gather, document, and understand personal social and economic considerations. These considerations include:

A. Values (personal and work)
B. Family
C. Service or support agencies
D. Legal
E. Financial (current realities and future expectations)
F. Substance Use
G. Non-financial resources / supports available

It is critical to understand the personal, social and economic factors as it relates to the development of the employment goal and the IPE.
Aptitudes/Transferable Skills:

To determine an appropriate employment goal the VR counselor and customer must identify the aptitudes, skills, and ability that the customer possesses. The following skill areas are to be addressed:

A. Personal
   - Self-management
   - Self-care
   - Personality characteristics

B. Functional skills – A person’s level of skill working with data, people, and things.

C. Specific work skills – competencies in specific work task areas.

Many tools exist to assist the customer and the VR counselor to identify aptitudes and transferable skills.

7.2.2 Identification of potential employment goal, rehabilitation needs, and IPE services

The VR counselor and customer will evaluate a potential employment goal and identify rehabilitation needs and services required to achieve that employment goal.

Vocational Assessment:

Vocational assessment is a comprehensive process involving the VR counselor and the customer that focuses on functional abilities and will incorporate medical, psychological, social, vocational, educational, cultural, economic data, and real or simulated work. This is done to identify the employment goal, its overall feasibility, and the VR services that are needed to achieve that goal. Examples of vocational assessment include:

A. Formal Vocational Evaluation
B. Community Based Assessment
C. Guidance & Counseling – Facilitated Self-Discovery
D. Labor Market Research
E. Assistive Technology Review

7.3 IPE Development:

Through the comprehensive assessment the customer has made an informed choice of his/her vocational goal. For the vocational goal to be implemented, the VR counselor must concur that the vocational goal is feasible. The VR counselor will then assist in identifying the IPE services needed to remove barriers to employment. The VR counselor is required to address all previously identified disability related barriers to employment. These services include but are not limited to:

A. Counseling and Guidance
B. Training
C. Medical and mental restoration
Vocational rehabilitation services are any services described in an IPE necessary to assist a customer with a disability in preparing for, securing, retaining, or regaining an employment outcome that is consistent with the strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice of the customer.

The following are essential components that need to be addressed and documented as part of the comprehensive assessment:

- Compatibility of Disability with Employment
- Skills, Interests, Aptitudes, and Abilities
- Market Analysis
- Economic Expectations and Potential for Career Growth
- Vocational Strengths and Capacities
- Customer Financial Issues
- Informed Customer Choice
- Social Support
- Training and Academic Test Results
- Rehabilitation Technology needs
- Legal barriers and industry specific requirement (criminal issues, drug and alcohol screenings, tobacco use, etc.)

7.4 Medical Consultation Policy

Medical consultants are retained by IDVR. Medical consultants can be used to review a customer’s diagnostic information to determine; 1) if it is complete or if updated and/or additional medical reports are necessary; 2) to train the counselor about medical conditions; and 3) to assist in case management direction.

Examples of times to use a medical consultant are:
A. Eligibility determination
B. Plan development
C. Prior to medical restoration services
D. Whenever a VR staff member has a question about a customer’s treatment, medications, or condition including such issues as the natural course of the disease or treatment options.

When presenting a case file to the medical consultant, be prepared to:

1. Present specific questions to the medical consultant; and
2. Speak knowledgeably about the customer.

Some examples of things a VR staff member may consider prior to medical consultation:

A. File medical information in chronological order with most recent on top
B. Highlight or tab important information
C. Eliminate duplicate data
D. List questions for the medical consultant

SECTION 8.0 PARTICIPATION OF CUSTOMERS IN COST OF SERVICES
BASED ON FINANCIAL NEED

In order to further IDVR’s mission to help customers move towards independence and self-sufficiency, IDVR encourages customers to be personally invested in and contribute financially towards the cost of their VR plan, when possible. The extent of the customer’s financial participation in the cost of Vocational Rehabilitation services is based on their income and other factors. Regardless of the amount that is going to be contributed by the customer, the Financial Participation Assessment of the customer’s financial participation is an effective tool for identifying customer resources as they relate to VR planning and implementation, regardless of the amount contributed by the customer.

Reminder: Financial need and/or participation status are not a factor in the eligibility determination.

Financial Participation

When financial participation is assessed using IDVR’s Financial Participation Assessment (FPA) Form:

1. After eligibility, during plan development, while exploring comparable benefits, AND Using the Financial Participation Assessment (FPA) form.
2. Every twelve (12) months or sooner if financial circumstances change significantly, whichever occurs sooner.

Financial Participation Assessment Guidelines

Services Exempt from Financial Participation:
A Financial Participation Assessment will be applied as a condition for providing furnishing all vocational rehabilitation services, EXCEPT for the following: (34 CFR 361.54(b) (3))
1. Assessment services for determining eligibility and vocational rehabilitation needs.  
   Note: Assessment services for determining eligibility and vocational rehabilitation needs, which are not diagnostic in nature and are provided in the trial work period (i.e., transportation), are subject to financial participation.

2. Vocational rehabilitation counseling and guidance and referral services;

3. Any auxiliary aid or services (e.g., interpreter services or reader services) that an individual with a disability requires in order for the individual to participate in the vocational rehabilitation program. Auxiliary aids and services do not include personally prescribed devices such as eye glasses, hearing aids, or wheelchairs;

4. Personal assistance services;

5. Job related services, including job search and placement assistance, job retention services, follow-up services, and follow-along services, i.e., Community Based Work Adjustment, Job Site Development (CBWAJSD), Community Based Work Adjustment (CBWA), Placement and Follow Along Job Site Development (P&FJSD), and Placement and Follow Along (P&F).

Customer Financial Participation for IPE Services

Upon completion of the FPA and the determination of services to be included on the IPE the counselor and customer will identify the specific IPE services that will be paid for by each party.

The FPA will be used to identify financial responsibility for IPE services.

It should be emphasized to the customer and vendor that, IDVR will not be responsible for the customer’s debts, under any circumstances. If the customer’s debts to a vendor inhibit the provision of services necessary to achieve the employment goal, IDVR will work with the customer to explore options for the continuation of services.

IDVR cannot, under any circumstances, pay for a customer’s previous financial obligations or debts.

Financial Participation Assessment (FPA) Form

The VRC and customer will complete the FPA form in eligible status and identify the customer’s financial participation responsibilities.

Estimate the cost for rehabilitation services each twelve (12) month period of the IPE. Calculate the amounts of participation to be provided by both the customer and IDVR for each twelve (12) month time period covered by the FPA.

Directions for Completion:

Exemption from Required Participation

Customers who receive SSI DI and/or SSDI are exempt from not required to make a financial contribution toward the cost of services. However, to ensure a customer qualifies for this
exemption, written proof of SSDI or SSDI qualification status must be received. This information will be used in completing the FPA form exemption status for SSDI and/or SSI recipients. It should be noted that customers who are receiving Social Security benefits from under retirement, spouse of retired worker, child of a retired worker, child of deceased worker, widow, parent of deceased worker, spouse of disabled worker, or child of a disabled worker would not be eligible for this exemption. The VR Counselor must complete the top portion of the FPA certifying that the customer is exempt from any required financial participation. The VR Counselor will also make a note in the IPE and subsequent plan amendments that may be developed, in the appropriate section, outlining the customer’s exemption.

Factors for Determining Customer Financial Participation

Several factors are considered to determine a customer’s level of financial participation, including the customer’s and/or spouse’s income, estimated annual plan costs, exclusions such as impairment related work expenses, and available financial resources which exceed the Department of Health and Human Services (HHS) Federal Poverty Guidelines.

The following steps are taken to identify the level of participation:

The applicable income is subject to two calculations. The first calculation will determine the required participation by comparing income category and expected plan costs.

The second calculation identifies an annual maximum percentage of the applicable income that the customer will be required to contribute toward their plan costs and will not exceed 25% of the applicable income.

The lower amount of the two calculations above will determine the customer’s expected annual contribution. All service costs anticipated or purchased during the twelve (12) month period covered by the FPA are to be considered in aggregate rather than individually calculated.

1. Income Data:

Customers (and spouse’s if married) sources of income verification may include:

- Most recent year IRS tax filings,
- Employment Security Wage or Unemployment Benefit Reports,
- Employer generated pay stubs,
- Retirement program documents, or
- Documentation from public or private income support programs.

Modification

The customer or their representative may request modification to the FPA, as needed to adjust for changes in income or other circumstances (e.g., disability related costs and number of family members). If modification is requested, the customer, parent or guardian must provide income verification from the sources listed above.

Exceptional Cases

In exceptional cases, circumstances may occur where rigid adherence to the Financial Participation Policy and Procedures could seriously jeopardize the customer’s opportunity to achieve rehabilitation objectives and an employment outcome. In such cases, the VRC may elect to seek an exceptions to the policy may be considered by reviewing the case with
the Regional Manager and who will then seek an exception approval by the Chief of Field Services or designee who will render a decision within ten (10) business days.

Total Income Excluded:

This figure is the Income Exclusion Allowance (300% of the Federal Poverty Level) plus exclusion of disability related expenses, per the Code of Federal Regulations — Title 34: Education: 361.54(2)(iv)(B).

For the purposes of this policy, the Social Security Administration’s use of impairment-related work expenses will serve as a guideline to disability related expenses. A disability related work expense is an expense for an item or service, which is directly related to enabling an impaired customer to work, and which is necessarily incurred by that customer because of a physical or mental impairment. To qualify as a disability related work expense, the expense must be paid by the customer. Expenses paid by sources such as health insurance, vocational rehabilitation and the employer are not considered a disability related work expense for the customer with the impairment.

Examples include, but are not limited to:

- The cost of attendant care services rendered in the work setting or in assisting the customer in making the trip to and from work is considered an IRWE, however attendant care rendered on non-work days or those performed at any time which involve shopping or general homemaking are not considered a disability related work expense. Additionally, attendant services performed for other family members such as babysitting, are not considered a disability related work expense.

- Durable medical equipment which can withstand repeated use, is used to serve a medical purpose, and is generally not useful to a person in the absence of an illness or injury, such as wheelchairs, hemodialysis equipment, respirators, pacemakers, traction equipment.

- The cost of the modification of vehicle (but not the cost of the vehicle) in order to drive or be driven to work, where the modification is critical to the vehicle’s operation or its accommodation of the customer. The modification must be directly related to the impairment (without the modification the customer would either be unable to drive or would be unable to ride in the vehicle).

- Expenses paid by a person with blindness in owning a guide dog including the costs of purchasing a dog, food, licenses and veterinary services.

- Prosthetic devices that replace internal body organs or external body parts (a prosthetic device primarily for cosmetic purposes usually is not considered a disability related work expense).

- The cost of drugs and medical services necessary to control the disabling condition, thereby enabling the customer to work (drugs and medical services used for minor physical or mental problems not resulting in any significant loss of function such as, yearly routine physical examinations, dental examinations and optician services and eyeglasses, when unrelated to a disabling visual impairment, are not considered a disability related work expense).

- Work equipment and assistants that are required to accommodate the impairment and perform the job such as, a one-handed typewriter, telecommunications device and a job coach paid for by the customer.

Applicable Income:
This section enables IDVR to specify the extent of the expected customer cost responsibility toward the cost of services during the upcoming twelve (12) month period of expected plan expenditures. The Income Exclusion Allowance is adjusted annually and is set at 300% of Federal HHS Poverty Guidelines.

**Determination of Required Participation:**
The Customer Participation Table (Table A) is formulated to assess that portion of Applicable Income, which is considered to be available to meet the cost of services. The customer is expected to contribute toward the service cost(s) at the specified percentage of participation level. The amount of financial participation will not exceed the Annual Maximum percentage of the customer’s Applicable Income. All services cost anticipated or purchased during the twelve (12) month period covered by the DPA are to be considered in aggregate rather than individually calculated.

**TABLE A – CUSTOMER PARTICIPATION TABLE**

<table>
<thead>
<tr>
<th>Yearly Cost of Plan</th>
<th>% of Participation</th>
</tr>
</thead>
<tbody>
<tr>
<td>$2,000 and Under</td>
<td>50%</td>
</tr>
<tr>
<td>Over $2,000</td>
<td>75%</td>
</tr>
</tbody>
</table>

**Certification:**
The customer, parents or legal guardian completing the Financial Participation Assessment form will be required to provide verify, by signature, that the information provided is correct. The customer, parents or legal guardian should be advised that he/she will be asked to provide documentation of the financial information provided for verification from external sources, such as the most recent year IRS tax filings, Employment Security Wage or Unemployment Benefit Reports, employer generated pay stubs, retirement program documents, or documentation from public or private economic support programs. The form will then be signed by the VR counselor.

**Applying the Financial Participation Assessment Information to Making Purchases:**
If the customer has a financial participation requirement, it will be applied to purchases prior to assessing any caps from the Agency Payment Policy section (Section 12.20).

**SECTION 9.0 PURCHASE OF SERVICES AND SUPPLIES FOR PARTICIPANT USE IN THE VOCATIONAL REHABILITATION PROGRAM**

All purchases must follow Federal, State, and IDVR purchasing guidelines.

Purchases require written authorization (Authorization for Purchase (AFP)) purchase order, prior to initiation of the service or the purchase of any equipment.

The responsibility for authorizing services and approving payment of those services must be assigned to separate employees.

Purchases will be made consistent with the prevention of discrimination due to race, religion, color, national origin, sex, age, and disability.
The Rehabilitation Act of 1973, as amended, and its implementing regulations mandate procedures in the provision of services and methods of procurement. Customers with a disability served through the vocational rehabilitation program must be actively involved in choosing the vocational rehabilitation services they receive and the entities providing those services.

Consistent with procurement guidelines, a VR counselorVRC cannot obligate Idaho Division of Vocational Rehabilitation (IDVR) to services that exceed his/her procurement authority. An Individualized Plan for Employment (IPE) that will include a service generating an Authorization for Case Service (AFPCS) over $5,000 will require the Regional ManagerRM’s written approval of the IPE prior to the plan being approved. The VR counselorVRC will inform the customer that the plan is pending approval during this process. An AFPCS purchase cannot be fragmented into multiple AFPCS’s as a way to circumvent this approval.
All purchases in excess of $5,000 shall be reviewed and recommended by the Regional Manager.

**NOTE:** Case service expenditures require written authorization prior to the initiation of the service or the purchase of any equipment. Oral Verbal authorizations are permitted in emergency situations by the Regional Manager or designee, but must be confirmed promptly in writing and forwarded to the provider. These authorizations are to be issued within three (3) business days of the beginning of the service.

The following principles shall guide customer purchases:

A. The IPE is the primary document that determines the scope, duration and provider of services. The customer with a disability must agree to the terms and conditions of the IPE prior to services being provided.

B. VR counselor VRCs are required to determine the rehabilitation needs of the customer first, and then determine the provider and the procurement method. Costs, availability, success, experience providing the service, and customer research; are characteristics that guide the choice of the provider.

C. The method of procurement is also determined in partnership with the customer. The Agency prefers that a state Authorization for Case Services (AFPCS) be provided to the selected vendor, with an invoice from the vendor documenting the service provision. Other methods are available, given the informed choice of the customer, including reimbursement.

D. The provision of services must be consistent with the unique strengths, resources, priorities, concerns, abilities, capabilities, and informed choice of the customer.

E. All purchased services that are evaluative and restorative shall be authorized prior to the provision of services. The Agency will reimburse providers of medical services (both medical and psychological) based upon usual and customary fees for their area of specialization or based upon payment caps that have been imposed for specific services (Review Payment Policy – Section 12.2). Providers will be reimbursed paid at this rate independent of the customer attending the scheduled appointment.

F. Staff will ensure fair and equitable treatment of all persons doing business with the Division.

G. Purchases will be made consistent with the elimination and prevention of discrimination due to race, religion, color, national origin, sex, age, and disability.

H. The responsibility for authorizing services and approving payment of these services must be assigned to separate employees.

I. The customer’s record of services of the customer shall contain necessary evidence and documentation of adherence to these principles.
J. **Regional manager**s are the Division’s field service procurement liaisons and are responsible to ensure that staff have necessary training.

**SECTION 10.0 INDIVIDUALIZED PLAN FOR EMPLOYMENT (IPE)**

**10.1 Options for Developing the IPE**

The eligible customer or, as appropriate, the customer’s representative may develop all or part of the IPE:

A. Without the assistance from [Idaho Division of Vocational Rehabilitation (IDVR)](https://www.idaho.gov/idvr) or any other entity

OR

B. With assistance from:
   a. A qualified [vocational rehabilitation counselor](https://www.idaho.gov/idvr) VRC employed by IDVR.
   b. A qualified [vocational rehabilitation counselor](https://www.idaho.gov/idvr) VRC who is not employed by IDVR.
   c. Other resources.

IDVR will not pay for IPE development services from other providers. IPE development must be completed on IDVR forms.

The IPE must be agreed to and signed by the customer or, as appropriate, the customer’s representative, the [VR counselor](https://www.idaho.gov/idvr) VRC, and, when required, the [IDVR Regional Manager](https://www.idaho.gov/idvr) RM or designee. An IPE is considered approved and services initiated only after all required signatures have been obtained.

A comprehensive assessment must be competed in developing the IPE as described in section 7.2.

Customers must receive the supports that will assist them in making informed choices.

Customers shall promptly receive a copy of their initial IPE and any subsequent IPEs. Copies shall be provided in the native language of the customer or through appropriate modes of communication if appropriate.

The record of services must support the selection of the specific employment outcome, the objectives of the IPE and the selection of providers of services. All goods and services, except assessment services, may only be provided in accordance with IPE.

An IPE can support one of the five following employment outcomes:

1. Competitive employment in the integrated labor market.
2. Self-employment
3. Homemaker
4. Unpaid family worker
5. Integrated employment with supports

---

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**

**AUGUST 13, 2015**
IDVR must:

1. Reinforce the ultimate purpose of the IPE: To assist the customer to prepare for, secure, retain, or regain employment.

2. Insure that the customer fully understands that she/he must participate as an active and cooperative partner in the identification and selection, through informed choice, of a vocational goal, having a reasonable expectation for marketable success.

3. Insure that the customer fully commits to participate in the implementation and completion of the IPE.

10.2 Developing the Vocational Goal:

In selecting a vocational goal, it is important that the customer is actively involved in all phases of this development. Much research has been done to substantiate that the successful outcome of vocational rehabilitation increases when the customer is involved in every phase of the vocational planning. Vocational planning is built around vocational exploration, understanding the customer’s medical and work history, his/her perception of disability, social habits, functional limitations, inherent aptitudes and transferable skills, vocational exploration through vocational evaluation, training options, and labor market research. The customer will explore the relationship of vocational objectives around his or her personal capabilities, interest, and situations and then attempt to understand the way these different factors impact and influence vocational potential. This information then helps the customer to develop the steps to a solid rehabilitation plan and provides tools for the customer to assess his/her current state of mind and to encourage positive self-initiated resolutions.

10.3 Ticket to Work

When a customer has a Ticket to Work through SSA and an approved VR IPE, their ticket is automatically assigned to IDVR, unless the ticket is already assigned to another employment network (EN). If the customer has a ticket assigned to another EN prior to IDVR involvement, the customer will be requested to reassign the ticket to IDVR. If the customer does not reassign their ticket, IDVR will need a copy of the work plan from the EN that the ticket was assigned to, to ensure that no service overlap occurs. It is the customer’s responsibility to provide the ticket work plan.

An Agency verification program has been implemented that informs Maximus of all SSA recipients who have been placed into an initial IPE. If a recipient has been assigned a ticket by SSA, Maximus will designate the ticket as “in usage” at the time of notification by the Agency.

The VR counselor should always inform the SSA recipient that the choice to participate in an active IPE program will restrict any option to assign the ticket to other employment networks (ENs) while participating in the VR program.

At closure, the VR counselor is not required to contact Maximus. An Agency verification program has been designed to inform Maximus of case closure. This notification will re-activate the ticket for further engagement if desired by the customer.
At successful closure, it is highly recommended that a VR counselor-VRC provide a list of ENs who is capable of initiating follow-along services such as “Phase 2” and or “Monthly Outcome Payment” services. By referring the customer who is earning at Substantial Gainful Activity (SGA) level at closure to an EN, the probability of agency reimbursement at the completion of nine months of employment will be increased significantly.

10.4 The IPE must include the following:

A. Using the information from the Comprehensive Assessment (Section 7.2) the VR counselor-VRC and customer must determine a specific employment outcome consistent with the customer’s unique strengths, resources, priorities, concerns, abilities, capabilities, career interests, and informed choice. In concert with the customer, the VR counselor-VRC must conduct a thorough market analysis to include job outlook and the customer’s economic expectations and needs. Planned services on the IPE should only entail those required to achieve the vocational goal.

B. The specific rehabilitation services needed to achieve the employment outcome, along with the projected dates for initiation and anticipated duration of each service, including:

   a. As appropriate, assistive technology devices, assistive technology services and personal assistance services including training in the management of those services;

   b. As provided in the most integrated setting that is appropriate for the services and is consistent with the informed choice of the eligible customer;

   c. Timelines for the achievement of the employment outcome and for the initiation of services;

   d. A description of the entity or entities chosen by the eligible customer or, as appropriate, the customer’s representative that will provide the vocational rehabilitation services and the methods to procure those services;

   e. A description of the criteria (“Plan Documentation”) that will be used to evaluate progress toward achievement of the employment outcome;

   f. The terms and conditions of the IPE, will include information describing the responsibilities of IDVR and the customer to achieve the employment outcome;

   g. The extent of the customer’s participation in paying for the costs of services;

   h. The customer is required to apply for and secure comparable services and benefits when available. The responsibilities of other comparable service and benefit entities will be listed on the IPE;

   i. As necessary, the expected need for post-employment services prior to the point of successful closure (Review Post-Employment – Section 12.14).
j. A description of the terms, conditions, and duration of the provision of post-employment services;

k. If appropriate, a statement of how post-employment services will be provided or arranged through other entities as the result of arrangements made pursuant to comparable services or benefits;

l. Supported Employment – for customers with the most severe disabilities for whom a vocational objective of supported employment has been determined appropriate, the following must be addressed:

- A description of time-limited services to be provided by IDVR not to exceed eighteen (18) months in duration, unless under special circumstances, the eligible customer and the VR counselor jointly agree to extend the time to achieve the employment outcome;

- A description of an identified source of funding for the extended services needed (long-term support). If it is not possible to identify the source of such funding, a statement that there is a reasonable expectation that extended services will be available. *Extended services are provided by a State agency, a private non-profit organization, employer, or other appropriate resource, from funds other than IDVR.*

m. In developing an IPE for a transition student with a disability, the IPE shall be prepared in coordination with the appropriate educational agency and will consider the student’s Individual Education Plan (IEP) if one exists;

n. Completion of the IPE for all School-Work transition customers, *before they exit the school system.*

**NOTE:** *Because of the capability of the Case Management tool, with the ability to clone plans, write new plans, edit features and delete completed services, there will be only one active plan, which is the current plan with all current services reflected on it. When the current plan is signed and approved by the customer and approving authority (counselor or supervisor) all previous plans will become void.*

**10.4.1 Implementation of the IPE**

The VR counselor should ensure that the IPE is developed and implemented in a timely manner, within 90 days four (4) months of the eligibility decision. *An exception may be made and must be documented in case note on or before the plan due date if this timeframe will be exceeded due to the needs of the customer.* Documentation should include customer readiness to implement the IPE (i.e. legal, family, medical, transportation, and housing issues) and the anticipated time frame for resolution of factors delaying IPE implementation.

**10.5 Annual Review**
The IPE must be reviewed annually by a qualified VR counselor and the customer to assess the eligible customer’s progress in achieving the identified employment outcome. An approved plan amendment would replace an annual review.

10.6 IPE Electronic Case Management Functions

New Plan: The “New Plan” option is utilized when completing an initial plan or when the overall nature of the IPE is changed. This would occur when a new vocational goal is chosen and there are major changes in the planned services. Any time a new vocational goal is chosen, a new comprehensive assessment case note must be completed that supports the new vocational goal. Remember: with the development of a new plan, the VR counselor and customer will need to include all needed services and complete the pertinent comparable benefit documentation outlined in Section 11.0.

Clone: The clone feature is to be used when the basic nature of the plan is going to remain the same. This feature brings forward a full copy of the previous IPE and allows the VR counselor and customer to add new services. New services will be given new service numbers when they are added to the clone. It is important to add new services before deleting previous services from the plan that have been completed or expired. This keeps service number 1-2-3… in numerical order and allows for subsequent services to be numbered appropriately. Justification for the new services must be documented in the comments section of the Plan sub-page. If the goal is changed without the need to modify services, the IPE can be cloned. Change the goal and update the comprehensive assessment in a case note to justify vocational change. When adding new or expanded services to a clone, always update the justification in the “documentation” box. It is not necessary to clone the plan each time the price of a service outlined on a plan increases. This can be accommodated through the authorization showing the increased costs.

Edit: There are limited circumstances when editing an IPE is allowed. When editing an IPE, a VR counselor, who meets CSPD standards, must document in a case note the customer’s agreement with the edit of the IPE. The only two situations where an IPE can be edited are:

1. Changing the provider of a service

   Generic services can be edited on an IPE, with customer agreement, without a customer’s signature, prior to the initiation to that service. Non-generic services cannot be edited. No service may be added to the IPE through the edit process.

   a. Generic services – Tutoring, computer equipment / software, auto repairs, books, transportation, community rehabilitation services, child care, clothing, academic testing, dental work, dialysis, driver’s training, eye glasses, functional capacity evaluation, GED, hearing aids, information referral services, insurance, kidney related services, lab work, licensure, maintenance, medication, vocational adjustment, tools and equipment, supplies, and x-rays.

   b. Non-generic services – Medical examination, diagnostic examinations, case management, post-secondary education, medical records, counseling and
guidance, treatment, evaluation, hospitalization, interpreter services, education and evaluation, therapy, OJT, other services, personal assistant services, psychological consultation, prosthetics / orthotics, rehabilitation technology, rehab engineering, self-employment technical assistance, surgery, transition planning, and vocational evaluation.

2. Changing the cost of a service

The cost of services on the IPE can be edited if the cost increase is 10% or less for that particular service.

Plan Approval Authority:
VR counselors who do not meet CSPD will continue to require Regional Managers (RM) approval for all plans. RMs may, at their discretion, delegate this function to an Assistant Regional Manager (ARM) or other senior counselors at a level 2 or 3.

Annual Review: Upon completion of annual review with customer, the VR counselor must complete annual review function in Case Management System.

SECTION 11.0 COMPARABLE SERVICES AND BENEFITS

11.1 Comparable Services and Benefits

Each eligible customer will be required to identify, with the VR counselor, all potential comparable benefits that may be available during the development of the Individualized Plan for Employment (IPE). If comparable benefits and services are available for VR services, including accommodations, personally prescribed devices (hearing aids, eyeglasses, or wheelchairs) and auxiliary aids and services (interpreter and reader services), they are required to be utilized, to meet, in whole or in part, the cost of vocational rehabilitation services. Comparable benefits and services should be utilized before Idaho Division of Vocational Rehabilitation (IDVR) agency funds are expended.

Provision of Services:

1. If comparable services or benefits exist under any other program and are available to the customer at the time needed to ensure the progress of the customer toward achieving the employment outcome in the customer’s IPE, the designated State unit must use those comparable services or benefits to meet, in whole or part, the costs of the vocational rehabilitation services.

2. If comparable services or benefits exist under any other program, but are not available to the customer at the time needed to ensure the progress of the customer toward achieving the employment outcome in the customer’s IPE, the designated State unit must provide vocational rehabilitation services until those comparable services and benefits become available.

The utilization of comparable services and benefits does not apply in the following situations:
A. If the determination of the availability would delay the provision of vocational rehabilitation to any customer who is at extreme medical risk. A determination of extreme medical risk shall be based upon medical documentation provided by an appropriate licensed medical professional and means a risk of substantially increasing functional impairment or risk of death if medical services are not provided expeditiously. It is strongly recommended that such cases receive medical consultation review whenever possible.

B. If an immediate job placement would be lost due to a delay in the provision of comparable benefits.

### 11.2 Exempt Services

The following categories of service are exempt to the requirement that comparable services and benefits be utilized:

A. Medical, psychological or other examination to determine eligibility.

B. IDVR counseling, guidance, information and referral, and IDVR job related services including: job search and placement assistance, job retention services, follow-up services, and follow along services.

C. Evaluation of vocational rehabilitation potential.

D. Rehabilitation technology, including telecommunications, sensory, and other technological aids and devices. **Exemption of rehabilitation technology services does not extend to auxiliary aids or services or personally prescribed devices, such as eye glasses, hearing aids, or wheelchairs.**

E. Post-employment services that are outlined through A-D.

### 11.3 Timeliness of Comparable Benefits

If a comparable benefit exists, but is not available to the customer at the time needed to satisfy the rehabilitation objectives on the IPE due to no delay on the part of the eligible participant in seeking such benefits, IDVR may provide services until the comparable benefits become available.

### SECTION 12.0 VOCATIONAL REHABILITATION SERVICES

#### 12.1 Timeliness

The **VR Counselor** and customer require adequate time to accomplish all steps in the VR process to reach a determination and approval of an agreed upon feasible employment goal. VR services, other than assessment services, are initiated when the steps to this process have been
completed and a plan is in place. Sufficient time must be allowed for the completion of a comprehensive assessment prior to implementation of IPE services.

Post-Secondary Training (PST) and other IPE services are VR services that are provided when it is required for a VR customer to become a competitive applicant for an approved IPE goal. If an applicant for VR services expresses an interest in a vocational goal that requires Post-Secondary Training and the VR applicant is either already enrolled or desires to start a PST program within six (6) months of application, IDVR reserves the right to assert that six (6) months or less may not be adequate to complete the process described above.

12.2 Agency Payment Policy

NOTE: Many of the services listed below include maximum agency contributions. This section outlines in detail the payment policy of Idaho Division of Vocational Rehabilitation (IDVR) in regard to specific services. It is the policy of IDVR to pay usual, customary and reasonable charges for services provided to its customers by providers of goods and services except for the following list. An Exception Policy to the payment policy is included at the end of this subsection, explaining that the payment caps established may, on occasion be exceeded. It is important to emphasize that IDVR is not obligated to pay the total cost of services required to ensure that a customer achieves an employment outcome. When appropriate, customers are required to utilize Comparable Benefits and Services (Section 11.0). Personal participation in the payment of some portion of the costs of a vocational plan may be required based upon the particular service selected as well as the identification of personal resources that could be applied toward the cost of the targeted service.

Social Security Beneficiaries (SSI or SSDI):
Social Security disability benefits recipients are not required to participate financially towards any costs.

Applying the Financial Participation Assessment Information to Making Purchases:
If the customer has a financial participation requirement (Section 8.0), it will be applied to purchases prior to assessing any caps from the purchasing section.

Rates of Payment:
These fees are established in accordance with federal guidelines that permit an agency to establish fee limits for services designed to ensure a reasonable cost to the program for each service. Whenever appropriate, a competitive process will be used to achieve a reasonable price. Idaho is a low bid State; therefore, the lowest bid, meeting specifications, will then be the maximum amount IDVR will contribute to the purchase of goods or services. The Payment Policy will determine the maximum that IDVR will contribute to the purchase. For items not included in the payment policy, the usual, customary and reasonable rate will be used for the service, not to exceed the rate charged other public agencies. The services that will meet the customer’s need, at the least cost to IDVR, shall be the service purchased. All decisions on cases, including fee for services, are determined on an individual case basis. The customer may choose his or her preferred vendor, however if the cost of the service chosen exceeds the maximum rate of payment established by the Payment Policy, the customer will be responsible for the excess amount.
**IDVR Payment Rates:**

1. **Post-Secondary Training:** IDVR provides financial assistance for Post-Secondary Training. Listed below are maximum assistance allowances to apply toward all training and educational programs including college, university, vocational-technical, truck driving, cosmetology, business school, computer training, commercial pilot training, etc.

   The established percentage support applies to ALL tuition and fees including any associated health insurance fees.

   a. **Pell Grant / Financial Aid:** Any customer planning on attending an institution that is eligible for Pell Grant funding must complete the Free Application for Federal Student Aid (FASFA) application and receive an award or denial letter prior to any IDVR financial participation. All PELL grant proceeds must be applied first toward tuition and book expenses before IDVR assistance is provided.

      Any non-merit grants or scholarships must also be applied to tuition, fees and books before IDVR assistance is applied.

      A merit scholarship, based on academic standing or achievement, can be utilized at the student’s discretion.

      Student loans, including Federal student loans, can be utilized at the student’s discretion.

      In situations where a comparable and accessible Pell Grant and non-Pell Grant supported programs co-exist, IDVR requires utilization of the Pell Grant supported program.

      An exception for IDVR financial support to a non-Pell Grant supported program (when a comparable Pell Grant supported program exists) can be granted after review and approval by the Regional Manager if the student can show extenuating circumstances and/or other very strong rationale for attending the non-Pell Grant supported program.

   b. **Tuition:** IDVR will pay up to 90% of the total tuition and fees of any Idaho Public Post-Secondary Institution.

      For customers choosing out of the state or private institutions IDVR will pay up to 90% of the tuition and fees up to 90% of the highest Idaho Public Post-Secondary Institution offering the same program.

   c. **Non-Idaho Public Education and Training Institutions Out-Of-State Education and Training:** Public or and private

---

**PLANNING, POLICY AND GOVERNMENTAL AFFAIRS**

**AUGUST 13, 2015**

**PPGA**

**TAB 15 Page 62**
institutions including colleges, universities, vocational technical schools, and other educational and training institutions outside the State of Idaho (see 12.5).

Normally, IDVR financial participation will be limited to equivalent rates established for in state education and training with the following exceptions;

i. If a customer’s vocational goal requires an educational degree that is not available at a State of Idaho public institution, IDVR will pay a maximum of 12.5 times the rate of two single semester’s tuition of the University of Idaho.

ii. If the course of study is offered in-state, because of the additional costs caused by accommodations for disability, it would be more cost effective for the Agency to support the attendance of the customer at an out-of-state educational institution; then VR may pay the training rates established for out-of-state programs.

d. Summer Sessions: Summer sessions are generally considered optional for academic programs. Therefore additional funding is typically not allotted for summer sessions.

Payment for a summer session will be considered with approval from the Regional Manager. Maximum assistance rates will be established according to the length of the term, i.e. semester, trimester, quarter. Approval or denial for summer school assistance will be considered if it meets any of the following conditions;

i. IDVR may pay for summer session if it is a required part of a program.

ii. IDVR may pay for summer session in exceptional cases where a disability-related reasonable accommodation is verified.

iii. IDVR may pay for an additional summer session if by attending the session the customer will be able to complete the college or university degree program by the end of that session.

iv. IDVR may pay for a summer session if by attending the session the customer will be able to complete the college or university degree program within the timelines identified on the IPE.

2. Books:

Where available and feasible, customers are required to use rental text books or e-books. All rented books need to be returned – customer will be billed when books are not returned.

If unavailable for rent or e-book format, some text books may need to be purchased. The expectation is that used books will be purchased when available. All books purchased by
IDVR must be returned to IDVR unless negotiated previously with VR counselor (where the book may be used for additional classes, reference, or for disability reasons).

IDVR will pay a maximum of 90% of the text books. If non-merit grant funds are remaining after paying tuition and fees they must be applied to books.

3. Medical Insurance for students in post-secondary education: IDVR may pay for medical insurance for students while attending an institution that requires medical insurance. If the student has medical insurance or can obtain medical insurance at no extra cost that meets the institutions requirement, IDVR will not pay for medical insurance.

Note to staff: this must be issued as a separate authorization and classified as insurance.

4. Medical exams with written report:
   a. General Physical exam - $65 maximum
   b. Specialist exam by M.D. - $350 maximum, plus actual cost of related procedures (e.g. x-rays).

5. Psychiatric Evaluations: $250 maximum for the evaluation plus one medication monitoring sessions that is considered a diagnostic.

6. Psychological Exam by Licensed Psychologist: $200 maximum plus actual cost of psychometric tests.

7. Ophthalmologist: The specialist fee ($350) for an ophthalmologist will be authorized when diseases of the eye are present and cannot be dealt with by an Optometrist.

8. Optometrist: Maximum fees are established for general visual exam, accompanying test, frames and glasses. Tinted glasses require a prescription for IDVR payment.

   Procedure Fees:
   - Visual Exam $85
   - Frames w/ Single Vision Lenses (per pair) $165
   - Frames w/ Bifocal Lenses (per pair) $185
   - Frames w/ Trifocal Lenses (per pair) $210
   - Contact Lenses – Contact lenses cannot be purchased for clients unless there is documentation by an Ophthalmologist or Optometrist that there is a medical or visual need. Maximum assistance - $125

9. Psychotherapy / Counseling Sessions: IDVR recognizes the benefits of additional training, education, and credentialing and has established the following payment policy for customer psychotherapy and counseling.

   a. Doctorate level licensed psychologist up to $100.00 per session.
b. Masters level clinician (to include LPC, LCPC, MSW, LCSW, and ACADC) up to $80.00 per session.

c. Bachelor’s level counselor (CADC) up to $40.00 per session.

d. Group Counseling – IDVR also recognizes the importance of group counseling as a part of mental health restoration and as a supplement to customer counseling. The following payment policy has been established for group counseling (not to include family counseling). Group counseling up to $25.00 per session.

The maximum that can be spent on any psychotherapy or counseling services is $1,000.00 for the life of the case.

10. Medication and Medication Monitoring:

Maximum: 3 months of medication identified on an IPE with one additional month if needed for diagnostic purposes, for a total of 4 months, while customer applies for reduced cost or free medication programs provided by drug companies or other sources of comparable benefits.

Maximum: 5 sessions of medication monitoring identified on an IPE. This does not include the one follow-up that is part of the evaluation.

11. Dental Work: including but not limited to, fillings, extractions, crowns, and dentures.

Dental Work would need to create an impediment to employment and must be appropriate to the identified employment goal.

Maximum: $500 per case

12. Hearing Aids:

Maximum: $1,000 per hearing aid. Cost must include insurance for free replacements for one year.

Audiologist exam: $85.00 maximum

13. Transportation:

a. Public conveyance (bus, van) – Actual cost of service
b. Private vehicle not to exceed $60 maximum per month within a 20 mile radius or up to a maximum of $200 per month outside the 20 mile radius.

c. Taxi Services – In areas without public conveyance, IDVR will not exceed $60 maximum per month.
14. **Car Repairs**: Maximum: $300 per case (except for cost of reasonable accommodation for disability). IDVR will not pay for customary general car maintenance (i.e. oil changes, tire rotations, etc.).

15. **Auto Insurance**: Maximum six (6) months of auto insurance. VR will only pay necessary auto insurance required to cover the VR customer as a vehicle operator.

16. **Vehicle Purchase**:

   Maximum: $5,000
   
   - IDVR does not purchase new vehicles (12.9).

17. **Maintenance**: Maintenance means monetary support provided to a customer for expenses, such as food, shelter, and clothing, that are in excess of the normal expenses of the customer and that are necessitated by the customer’s participation in an assessment for determining eligibility and vocational rehabilitation needs or the customer’s receipt of vocational rehabilitation services under an Individualized Plan for Employment (IPE). (Ref 34 CFR Part 361.5 (35)).

   **NOTE**: Counselors cannot pay maintenance for those existing living costs that a customer would normally incur regardless of the customer’s participation in a plan of vocational rehabilitation services.

   Maximum: $2,000 total per Federal fiscal year.

18. **Copy Fees**:

   Maximum: $25 for a copy of records or reports.

19. **Community Rehabilitation Programs (CRPs)**:

   a. Maximum hourly rate for community based services - $47.80/hour.

   Services purchased from CRPs are not subject to the allowable maximum for training and educational expenses.

   Regional Manager RMs can approve exceptions to the following limits:
   
   - All types of Job Site Development - maximum 40 hours per strategy.
   - **Community Based Work Evaluation** (CBWE) – maximum 40 hours.
   - **Community Based Work Adjustment** (CBWA) – maximum 2540 hours.
   - **Placement & Follow Along** (P&F) – maximum 15 hours.
20. Tools & Equipment:

Maximum: $1,500 per case. Agency inventory tools and equipment will count towards the $1,500 maximum. The VR counselor must always negotiate in the best interest of the agency on cost services and must get three bids, if vendors are available, on all durable equipment (reusable) value at $5300 or more.

Tools will need to be required for training or employment and must be verified by the school or employer.

Exception: If there is a change in employment outcome, the customer must return the original tools to VR. After the tools have been returned, then VR may purchase new tools up to the $1,500 maximum for the new employment outcome.

NOTE: A Property Agreement must be secured on all durable equipment or reusable supplies that exceed $500 in value.

21. On-The-Job Training (OJT) Fees:

(See section 12.5 On-The-Job Training)

Maximum: $3,000 for a salary of $9.00 per hour and under; $5,000 for a salary between $9.01 - $15.00 per hour; $7,500 for a salary of $15.01 or more. There is a 20 hour a week minimum.

a. The VR counselor must negotiate OJT fees based on:
   - Employer’s cost to train the individual above the normal level of training
   - Level of technical skills required for job
   - Number of hours worked

b. The Individualized Plan for Employment (IPE) and OJT Agreement must include:
   - Cost of training
   - Length of time (# of months)

VR counselors are strongly encouraged to negotiate a decreasing payment schedule with the employer.

22. Computers including hardware and software:

Maximum: $500 per case, except for disability related assistive technology.

23. Self-Employment Plans – (see Section 12.10)
24. Child Care:

Maximum: Up to $300 per month per case.

25. Reimbursements for Fines:

IDVR will not pay for costs associated or incurred due to illegal behavior (fines, restitution, and reinstatements due to legal related suspensions).

26. Advanced Degree:

IDVR may assist with an advanced degree based upon the rehabilitation needs of the customer. (See section 12.5)
27. **Typical exclusions** from VR financial participation:

a. Securing a private pilot’s license

b. Organ transplantation

c. Surgery; Surgery may be provided if it is not the sole vocational rehabilitation service needed for the customer to return to work or to achieve an employment outcome.

IDVR will only cover the cost of surgery if it will substantially reduce functional limitations. It is highly practical and appropriate for the VR counselor to explore alternative employment opportunities with the customers that may negate the need for the corrective surgery. Such an alternative should accommodate the customer’s functional restrictions and provide a level of income that would be comparable with potential earnings following a surgery.

**NOTE:** When physical restoration services for customers who have a temporary disability, which will be eliminated by surgical care in an acute general hospital, is the only vocational rehabilitation service to be provided, and the condition is likely to be remedied by relatively routine medical intervention with no significant lasting effects, the RSA position is that such cases should be referred to other agencies. Such services should not be paid for under vocational rehabilitation auspices. – (RSA Position Paper, 3/28/80, Robert R. Humphreys, commissioner of RSA)

28. **No Shows:**

If a customer does not attend an appointment and does not cancel or reschedule, the customer will be responsible for payment of any charges – not VR.

If VR authorizes for an interpreter to be present and the customer does not attend, VR will cover cost of the interpreter through administrative authorization.

**Exception to Rate of Pay Policy:**
The Rehabilitation Act of 1973, as amended, requires that IDVR have a policy that allows for exceptions to the Payment Policy, unless the exception would violate State or Federal laws. All exceptions will be reviewed on an individual case basis.

**Exception to Rate of Pay Process:**
To be considered for an exception, the customer and VR counselor should first seek approval from the Regional Manager. Regional Managers have the authority to approve the exception as long the exception is not more than 50% of the service cap. Greater than 50% of the service cap will require the approval of the Chief of Field Services. The Regional Manager shall submit the request for the exception in writing to the Chief of Field Services.
The request must include:

1. A description of the requested exception.

   Detailed reasons why the customer, VR counselorVRC and manager (when appropriate) believe the exception is warranted. The Chief of Field Services (or Regional ManagerRM when appropriate) will have ten (10) days from the date of receipt of the request to make a decision. If the request is approved, written notification will be sent to the Regional ManagerRM (when appropriate) and this will be placed in the case file.

The Chief of Field Services reserves the right to deny any request.

If a request for exception is denied, the customer must be informed of the reason why and of his/her right to appeal the decision within ten (10) days of notification of the denial.

**Reasons for Exception:**

The items listed below are not all inclusive, but do contain the major reasons that will be considered in determining if an exception to policy will be granted. Financial need alone is not always sufficient grounds for requesting an exception. While a customer may present one or more of these reasons for an exception, VR counselorVRCs should use discretion in requesting an exception. It is sometimes the nature and scope of the reason and not the number of reasons that may justify the exception.

1. The need is disability related.
2. The customer has used all sources available; including his/her own financial contribution, as well as all available Federal Financial Aid in post-secondary training situation, insurance, Medicaid, Medicare, and other resources typically used by persons without disabilities.
3. Changes in circumstances resulting in loss of income or support making previously available resources unavailable.
4. Service is not available, in certain geographical locations of the sState, within the Payment Policy maximums.

**12.3 Counseling and Guidance**

Idaho Division of Vocational Rehabilitation (IDVR) recognizes that vocational counseling and guidance is the key element in the rehabilitation process in that it is the method involving the customer and significant others in that process. It begins when the customer contacts the agency and does not end until closure as successfully rehabilitated or through the completion of the post-employment period.

Vocational counseling and guidance, including referral and placement, are essential VR services provided by the VR counselorVRC throughout the rehabilitation process. This is the primary service in the VR plan.
Counseling, guidance and placement should be an integral part of every IPE regardless of other services because it is the best method of coordinating services and maintaining a good working relationship with the customer. This is also the method used by the counselor to facilitate customer input. The VR counselor gathers the necessary information for providing vocational counseling and guidance services from a wide variety of sources, including, but not limited to:

A. Medical and psychological information.

B. Vocational evaluation information including labor market information, job analysis, aptitude and interest information, situational assessments and trial work experiences.

C. Analysis of transferable skills.

D. Rehabilitation technology, including rehabilitation engineering.

Counseling will address vocational and personal adjustment issues that are creating barriers to the customer obtaining and maintaining employment.

Counseling will be provided in a respectful manner encompassing the core conditions of helping. These will include unconditional positive regard, genuineness and congruence. Counselors will always maintain a professional demeanor and not allow counseling issues to become personal. Counselors are to follow the canons of ethical behavior and practice outlined by the Commission on Rehabilitation Counselor Certification (CRCC) Code of Ethics.

Counseling services must be provided in every case but will vary depending on the needs and complexities of each individual customer. Frequency of guidance and counseling contacts is determined at plan development and included on the IPE. Case notes will reflect contact and content of meetings. A monthly summary of guidance and counseling activities is the agency “best practice” norm for recording progress.

12.4 Physical and Mental Restoration Services

These are services necessary to correct or to substantially modify a physical or mental condition that is stable or slowly progressive. Before medical restoration is provided, there must be documentation that the clinical status of the customer is stable or slowly progressive and the service is a requirement for the customer’s successful employment. The medical consultant shall review the record to insure the adequacy of medical information, advice on the service requirement, educate the counselor on the procedure and required follow-up, and provide any necessary liaison with medical community.

Current maximum financial contributions by IDVR for specified services can be found in the “Payment Policy” section 12.2 of the manual (See also section 12.2 subsection “Typical Exclusions” and section “Comparable Benefits”). For all other services listed below, IDVR will pay the prevailing “Usual and Customary” charges after a comprehensive assessment of potential or available comparable benefits and resources has been conducted.
12.4.1 Concurrent Acute or Chronic Conditions Arising from Physical or Mental Restoration: Services necessary to assist with acute treatment or care for a condition associated with or arising from physical and mental restoration services that are on the IPE. Comparable benefits will always be explored prior to authorization of this service. *The medical consultant should be utilized to determine the medical rationale for such services whenever possible.*

These services should be provided in the least intensive medical environment appropriate.

In the case of a chronic condition which does not appear to be resolving in a reasonable amount of time, consultation with the medical consultant should be used to determine whether a case should be closed.

12.5 Training Services

12.5.1 Disability Related Training Services

Disability related services include, but are not limited to: orientation and mobility, rehabilitation technology, speech reading, sign language, and cognitive training/retraining.

12.5.2 Post-Secondary Training

Post-Secondary training is provided when necessary to become a competitive applicant for an agreed upon IPE goal that reflects the customer’s interests and informed choice to the extent that those factors are consistent with a customer’s strengths, resources, priorities, concerns, capabilities and abilities. IDVR may support graduate study when the customer’s employment objective is otherwise unachievable.

Prior to providing post-secondary training, comparable benefits shall be determined. The customer is required to complete and submit for processing the Free Application for Federal Student Assistance (FAFSA). The resulting Student Aid Report (SAR) and Financial Aid Award Letter will determine the Federal grant awards available that are to be applied to tuition, books and fees. Proof of financial award status *is required to be placed* into the record of services for all customers sponsored in post-secondary education by IDVR for training and degrees that are eligible for grants. Examples of proof include; the SAR, Financial Aid Award Letter or Post-Secondary Institution Student Budget, Compromise and Release documents from Worker’s Compensation.

All non-merit scholarships and grants to be applied to tuition, books and fees as a first dollar source, prior to the consideration of expenditures of IDVR funds. Merit based funding may be applied to any legitimate college costs as determined by the customer, with no comparable benefit test required.

When IDVR has a joint case with another VR agency (Veterans Administration, Tribal Vocational Rehabilitation, Idaho Commission for the Blind and Visually Impaired, or another state VR agency) the sharing of case cost shall be done in a way that multiple agencies are not paying for the same service.
The FAFSA Expected Family Contribution, Student Contribution, Work Study and other grants must be considered in meeting the financial needs of the customer’s post-secondary education to the maximum extent possible.

Customers are required to submit an application for FAFSA whether or not they believe they are eligible for funding. *This process should occur along with the verification of determination of eligibility/ineligibility for financial aid prior to IDVR developing an Individualized Plan of Employment (IPE) and participating in financial assistance for a post-secondary education.*

**12.5.2.1 Out of State Training**

*Out-of-State Post-Secondary Education*

a. If the VR customer must attend an out-of-state institution because the course of study is not offered within the state of Idaho, please see section 12.2.

b. If the course of study is offered in-state, but because of the additional costs caused by the accommodation for disability, it would be more cost effective for the agency to have the customer attend the out-of-state educational institute, see section 12.2.

c. If the customer chooses to attend an out-of-state institution when comparable training is clearly available in the state, see section 12.2.

**12.5.2.2 Progress Measures**

Customers must maintain a term and cumulative grade point average that meets the school’s academic requirements, program entry requirements, or a minimum of 2.0 GPA whichever is higher and must demonstrate timely progress towards meeting the goal of the IPE. The VR financial participation towards schooling may be paused if academic progress is such that the customer will not qualify for entry into the program stated on their IPE.

If the customer is placed on academic probation, or does not meet the standards stated above, s/he has one grading period in which to attain good standing. IDVR financial participation will terminate after that grading period until the customer achieves good standing.

If a customer does not pass a course(s) or withdraws following the designated drop period for the post-secondary institution, she/he is responsible to cover costs to repeat the course(s). *This understanding should be documented on the IPE that supports the training services.***

If a customer take an incomplete, she/he is responsible to complete the course(s) as designated by the institution and may be responsible to pay for the repeat of the course(s) *based upon whether or not active participation in the original coursework was demonstrated as agreed upon in the IPE. Disability-related interruptions will serve as justification for an incomplete, but should be carefully assessed to determine the feasibility of extending a particular program.* If a customer is unable to complete a course(s) due to a disability related issue, IDVR may assist in coordinating with the institution to resolve the matter (examples: finances, withdrawals, incompletes, etc.).
IDVR post-secondary educational support will cease if the customer has an expulsion for academic dishonesty.

12.5.2.3 Loan Defaults
VR funds may not be utilized to pay for post-secondary education if a customer has defaulted on a State or Federal student loan. If a good faith effort is being made to come out of default status, VR funding may be available. The University or College Financial Aid office may be able to assist in unusual circumstances. Additional information can be obtained at the U.S. Department of Education website http://studentaid.ed.gov, section “Repay Your Loans.”

12.5.2.4 Loan Deferment
Consumers may be eligible for temporary suspension of loan payments during specific conditions such as, returning to school, unemployment, disability, or military service. Additional information may be sought through the Financial Aid Office at the school the student plans to attend.

12.5.2.5 On-the-Job-Training (OJT)
An OJT is for a customer that is hired by an employer that needs specific training to achieve the employer’s expectations. On-the-job training requires the completion and signing of the IDVR OJT Agreement between the customer, counselor, and employer, which states the hourly wage, the specific training needs, responsibility for Workers’ Compensation coverage and any other conditions of employment. IDVR pays a training fee for OJT, not reimbursement or wages.

12.6 Benefits Counseling
Benefits counseling includes an informed discussion of the customer’s benefits, employment status, consideration of work incentives, and the impact on existing or potential benefits a change in employment may create. All social security recipients should receive benefits counseling services.

12.7 On-the-Job-Supports
On-the-job-support services are provided to a customer who has been placed in employment in order to stabilize the placement and enhance job retention. Such services include; job coaching, follow-up and follow-along, and job retention services.

12.8 Job Placement of Customers
All customers have the obligation to be involved in their own job search activities to the fullest extent possible. The customer and the VR counselor will work together to identify the supports necessary for job search and placement. Some of the job search activities could include:

- Communication and presentation skills.
- Gaining access to and using information.
- Introducing customers to specific programs such as job centers.
- Gaining networking skills.
- Use of online job search and applications.
- Community Rehabilitation Provider (CRP) services.
IDVR does not pay fees to private staffing/employment agencies.

12.8.1 Community Rehabilitation Providers (CRPs)

Community Rehabilitation Providers may be used to assist a customer as they prepare to obtain or maintain employment. CRP services may only be provided if they are agreed to by customer, VR counselor, and CRP. The CRP services should be consistent with the customer’s unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and be the informed choice of the customer. Potential employers contacted by the CRP should be informed of the CRPs contractual relationship with IDVR. If workplace accommodation or assistive technology needs are identified for a customer, IDVR staff will be involved in addressing the accommodation needs with the employer (this is not referring to job coaching accommodations).

If services are contracted out to a CRP:

1. The customer and VR counselor will review the available list of CRP vendors and the services offered by each and will make a selection. This process should be noted as “customer choice” when documenting the choice of the CRP vendor and services to be provided. The customer will sign an information release form authorizing communication between the selected vendor and IDVR.

2. The customer and VR counselor will contact the CRP to discuss required services, negotiate and agree upon time frames and costs.

3. The VR counselor will submit referral information necessary for the CRP to provide the agreed upon services.

4. The customer, VR counselor, and CRP will have a staffing prior to initiating services (this staffing can be by phone or in person).

5. The VR counselor and customer will develop and agree to regularly scheduled contacts while receiving CRP services (minimum once a month).

6. The customer, VR counselor, and CRP will mutually agree upon frequency of contacts to monitor progress, quality, and duration of services provided.

Employers should be educated with regard to the fact that a person eligible for vocational rehabilitation services under ID. Title 33, Chapter 23, Idaho Code and the Administrative Rules of IDVR, who is placed with an employer through the authorized services of a CRP for community-based evaluation, community-based work adjustment or community supported employment (CSE) training is covered for liability purposes through the Worker’s Compensation Insurance carried by the CRP unless an actual customer has actually been hired by a targeted employer prior to the provision of authorized services.

12.8.2 Schedule A Appointing Authority in the Federal Government

5 CFR 213.3102 (t) (cognitive impairment), (u) (severe physical disabilities), and (gg) (psychiatric disabilities) are combined into one streamlined authority, 5 CFR 213.3102 (u). This authority is used to appoint persons who are certified that they are at a severe disadvantage in
obtaining employment because of disrupted employment due to hospitalization or outpatient treatment for the severe disabilities listed above.

Appointment and Certification Process

IDVR can assist customers with disabilities (whether IDVR customers or not) in completing the Schedule A process. Information on how to assist customers with disabilities with the Schedule A process can be found at:

12.8.3 Alternative Hire Process for Employment with State Government

Within the IDAPA rules (15.04.01) of the Division of Human Resources and Idaho Personnel Commission exists the provisions and protocol entitled: 097 “Alternative Examination Process for Persons with Disabilities,” under this rule:

1. The VR counselorVRC determines the need for the Alternative Hire process by documenting that the customer cannot competitively compete for the job due to a disability(ies).

2. The VR counselorVRC determines that the customer meets the criteria for the alternative hire program.
   - Disability limits one or more functional areas.
   - The customer meets the qualifications of the class.
   - The customer lacks competitiveness in the normal hiring process due to disability.

3. The VR counselorVRC will complete the Application for the Alternative Hire Program Form. Include a letter to Idaho Division of Human Resources (DHR) explaining why the customer cannot compete through the normal examination process due to his/her disability. The examination process includes application, testing, and interviewing.

4. The VR CounselorVRC will staff the case with the Regional ManagerRM for approval. The Regional ManagerRM will subsequently forward the application to the VR Administrator for final approval.

5. IDVR Administrator approves/disapproves. If approved, the application will be forwarded to the Administrator of the Division of Human Resources for final review.

6. Upon approval from DHR, the VR counselorVRC proceeds with the Alternative Hiring Process to the hiring authority.

Note: This process requires the use of the “Alternative Hire Application.”

12.9 Vehicle Purchase

Vehicle purchase may be provided if it is not the sole vocational rehabilitation service needed for the customer to return to work or to achieve an employment outcome. The vehicle purchased
will be only at a level to meet the vocational rehabilitation need of the customer. If the customer desires a vehicle above and beyond the level of vehicle needed to meet the vocational rehabilitation need they will be required to pay the cost difference between the two. This amount would not count towards the customer’s financial participation requirements and IDVR will not be party to associated financial obligations.

Purchase of vehicles for a customer is allowable only when the occupation of the customer will require a vehicle as occupational equipment. The agency may not purchase a vehicle for a routine need for transportation to and from a place of employment.

The vehicle will be purchased after all other aspects of the IPE necessary to achieve the employment goal have been completed.

Vehicle purchases require approval from the Regional ManagerRM and Chief of Field Services prior to agreeing to the purchase for the customer. The VR counselorVRC will be required to document responses to the following:

- How the purchase is essential to the achievement of a successful employment outcome.

- Whether the vehicle is required as a condition for employment or why it is needed to achieve an employment outcome.

- An explanation of the transportation alternatives explored and the reason(s) these options will not meet the customer’s needs.

- A summary of other resources explored, such as insurance, a PASS Plan for customer receiving SSI/SSDI, or other sources, and how these resources will be utilized.

- The customer’s disability is stable or slowly progressive and is not likely to impair his or her ability to drive in the foreseeable future.

- If the customer has a known pattern of alcohol or drug abuse within the past 5 years, whether in remission or not, a complete and current drug/alcohol evaluation included.

- An abstract of the driver’s complete driving record obtained from the Department of Motor Vehicles. Citations other than parking tickets and minor traffic offenses may impact approval.

- Current Idaho driver’s license of the person who will be driving the vehicle.

- Verification of customer’s driving capacity as demonstrated through modified driving assessment or significant demonstrated safe driving history under current functional capacities.

- Verification of the customer’s financial ability to pay for the fuel, license and registration, insurance, and vehicle maintenance. This will require an insurance quote appropriately reflecting vehicle usage. Additionally, the customer will have to develop a
plan for how they will replace the vehicle in the future as part of the feasibility review. If the customer does not have a method to replace and/or repair the vehicle if an accident occurs, the customer will show the ability to provide comprehensive insurance.

- The type of vehicle being considered (estimated price range and any special considerations). IDVR does not purchase new vehicles or vehicles that require above an Idaho Class D operator’s license.

*Note: IDVR does not purchase vehicles to address geographical or other barriers that are not disability related.*

**Following the decision to purchase the vehicle:**

- Must follow all state and IDVR purchasing guidelines.
- IDVR will only authorize purchase vehicles from licensed dealerships.
- An inspection of the vehicle prior to purchase from a qualified mechanic is required. Also, obtaining a Car Fax is required.
- The vehicle title will be granted to the customer upon proof of insurance and all appropriate licensing (a tool agreement is not required).
- Every six (6) months the customer must show proof of insurance and maintenance until case closure.

IDVR has no further obligation to purchase any future vehicles due to customer negligence.

**12.10 Self-Employment Policy**

**Introduction**

The primary goal of the [Idaho Division of Vocational Rehabilitation (IDVR)](https://www.idaho.gov/idvr) is to assist the customer in attaining a suitable competitive employment outcome that results in financial self-sufficiency. Self-Employment is one option that may be considered to assist the customer in selecting a vocational goal.

The impediment created by the customer’s disability must be addressed in the overall comprehensive assessment leading up to Individualized Plan of Employment (IPE).

The successful self-employment enterprise is operated by a participant who can demonstrate an array of skills and abilities, including; organization, business and financial management, marketing and other talents, as well as, knowledge and expertise in the goods or services being produced. These may be accomplished through natural supports or other resources and would need to be included in the self-employment plan. It is essential that the participant is well informed of potential risks and that efforts are made to minimize those risks.

A vocational evaluation/career exploration may be used as a method of assisting the customer and [VR counselor](https://www.idaho.gov/idvr) in deciding if self-employment is a possible viable option. Vocational evaluators have a variety of instruments, work samples, inventories and other strategies to use in providing feedback and information related to self-employment.
There may be a need for VR services prior to a commitment from IDVR on a self-employment plan. It could be appropriate for IDVR to assist a customer in services, such as training needed for certain skills or business knowledge before the decision is made by the customer and VR counselor to pursue the development of a business plan.

IDVR values self-employment as a viable vocational outcome. Self-employment is presented by the VR counselor within the repertoire of vocational options and may be considered by customers and VR counselors as they work toward the development of an appropriate vocational goal.

IDVR supports active, not passive or speculative, self-employment goals.

**General Self-Employment Process and Flow Chart**

The following steps will be required for all self-employment. The nature and extent of activities within each step will vary by the type and complexity of the self-employment business goal.

1. **Assessment of Customer’s Appropriateness for Self-Employment**
2. **Writing an IPE – Developing a Business Plan**
3. **Amending IPE - Implementing the Business Plan**
4. **Closure of Self-Employment Case**

**Definitions**

a. **Business Plan** – A detailed outline of the business description, objectives, organization, product or service description, summary of Customer qualifications, analysis of the potential business environment and market, management and organizational structure, and financial plan.

   The level of detail required for the various components of the business plan will vary depending upon the type of self-employment being pursued.

b. **Contracting and Sub-Contracting** – When the VR customer works with a company under a limited or contract basis for either short or long term employment, but is not a company employee. There are some types of employment goals that could be sub contractors or a standalone business. Examples of likely contracting and sub-contractors opportunities include but are not limited to:
   - Realtor
   - Construction trades
   - Cosmetology, nail tech, and hair stylist
   - Paper delivery
   - Tattoo artist

   This is a type of start-up self-employment that will often be processed as a low cost, low risk, low complexity self-employment plan.

c. **Continued Self-Employment** – Employment where the VR customer is presently or recently (within the last year) engaged in a successful self-employed business as identified by the customer and feasibility of the business is recognized by IDVR. In this
scenario, the IPE services will address disability related barriers to employment. IPE will be written as maintaining employment.

Any capitalization of the business will require the use of low cost/low risk/low complexity, complex, or supported self-employment strategy.

d. **Feasibility Analysis** – Provides an in-depth analysis of the business concept, the market, the financial investment and income potential. In addition, the feasibility analysis considers:

- Financial resources, skills and history of the customer as it relates to successfully operating a small business
- The need for customer training
- The availability of strong support network for long-term business success
- The need for a comprehensive business plan
- The likelihood of sustainability in a reasonable amount of time (what is a reasonable amount of time will likely vary by the type of self-employment)

The feasibility analysis offers the VR CounselorVRC and customer a comprehensive, objective evaluation of the strength of the proposed self-employment venture.

e. **Forms of Organization** - refers to the way the individual legally organizes the business

i. **Sole Proprietorship** - one person who owns the business alone, but may have employees. She/he will have unlimited liability for all debts of the business, and the income or loss from the business will be reported on his or her personal income tax return along with all other income and expense she/he normally reports (although it will be on a separate schedule).

ii. **Corporation** – requires a legal filing with the Internal Revenue Service for corporate status. Corporate organization provides limited liability for the investors. Shareholders in a corporation are obligated for the debts of the corporation; creditors can look only to the corporation's assets for payment. The corporation files its own tax return and pays taxes on its income.

   - VR customers who legally organize their businesses as a corporation, and are employed by their corporation may be eligible while in the start-up/startup phase of operations.

iii. **General and Limited Partnerships** – two or more individuals, one of which is a customer of IDVR with the controlling share (see Eligibility Requirements for Self Employment).

iv. **Limited Liability Company** - limited liability for all of its members (business partners), with the IDVR customer as the controlling member.

f. **Hobby** - customers identifying business-related goals that indicate a business activity that is:
• Operated for recreation and/or pleasure.
• Not projected to be profitable.
• Not seeking profitability.
• Neither operating nor carrying on activity in a business-like manner.
• Not depending on activity for livelihood.

g. **Low Cost / Low Risk / Low Complexity Self-Employment** – A comprehensive business plan is not required if a feasibility analysis report indicates the business concepts represents a (1) low cost (under $5,000) total cost of anticipated self-employment start-up, (2) low risk (strong likelihood of success) and (3) low complexity (few and clearly identifiable barriers to self-employment). Examples of self-employment ventures that may not require a comprehensive business plan include:

• A VR customer is already self-employed and has demonstrated skills and abilities to successfully manage the business, and VR services are needed to retain employment due to a disability-related condition.

• The VR customer has previous experience being self-employed in the same or similar field and start-up needs are minimal.

• The VR customer has skills and experience in a trade and needs minimal training and services for startup, such as, lawn care, pressure washing, window washing, and bookkeeping.

• A VR customer has experience or training in a trade and will lease space or subcontract with an existing business and pay their own taxes, i.e., massage therapist, manicurist, cosmetologist, real estate agent.

h. **Complex Self Employment** – All self-employment plans that do not meet the criteria for low cost/low risk/low complexity, continued self-employment or supported self-employment fall under this category.

i. **Multi-Level Marketing** – As a marketing strategy, in which a person is compensated not only for sales they personally generate, but also for the sales of others they recruit into a business venture, creating a “down line” of distributors and a hierarchy of multiple levels of compensation.

j. **Natural Supports** – Long term supports provided by individuals naturally invested in the success of the VR customer (family and friends).

k. **Startup Self-Employment** - refers to an employment outcome in which a customer works in a business that she/he starts, owns, operates, and manages with the intention of being profitable.

l. **Supported Self-Employment** – refers to an employment outcome in which a customer works in a business that she/he owns, operates, and manages with natural or long term supports, with the intention of being profitable.
Eligibility Requirements

Participation in self-employment or supported self-employment as a vocational goal requires that:

1. The business venture is, at a minimum, 51% owned, controlled and managed by the IDVR customer. For those in supported self-employment, some IDVR customers may require the assistance of a guardian or conservator in controlling or managing a business.

2. Businesses must be organized as Sole Proprietorships, Corporations, General and Limited Partnerships, and Limited Liability Companies, as noted in Definitions-Forms of Organization.

3. The business venture is considered legal in all jurisdictions in which it operates (Federal, Tribal, State and local Governments). This includes business and other necessary licenses.

4. The business venture is accurately reporting to appropriate government agencies, including the Internal Revenue Service and State taxing agency or other applicable State or local authorities.

5. The business venture is organized as a for-profit entity.

Financial Participation Requirements

Social Security beneficiaries are not required to financially participate towards the cost of their self-employment plan.

IDVR customers have a variety of sources to obtain their portion of the business costs. Some of these include:

- Investment of funds from microloans;
- Commercial and consumer loans;
- Loans from family;
- Forgivable loans;
- Equity grants;
- Equipment critical to the business operation;
- Inventory;
- Supplies;
- Facility (including fair value of existing facility in which the business will be operated)
a. In consideration of the business start-up capitalization noted in the Business Plan, financial participation by IDVR and VR customer for the entirety of the self-employment plan, per case is as follows:

<table>
<thead>
<tr>
<th>Business Capitalization</th>
<th>Maximum IDVR Financial Assistance</th>
<th>Minimum Customer Participation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Under $2,500</td>
<td>100%</td>
<td>0%</td>
</tr>
<tr>
<td>$2,501 to $5,000</td>
<td>80% of startup capital</td>
<td>20%</td>
</tr>
<tr>
<td>$5,001 to $7,500</td>
<td>70% of startup capital</td>
<td>30%</td>
</tr>
<tr>
<td>$7,501 to $10,000</td>
<td>60% of startup capital</td>
<td>40%</td>
</tr>
<tr>
<td>$10,001 and up</td>
<td>50% of startup capital</td>
<td>50%</td>
</tr>
</tbody>
</table>

If IDVR’s portion for business start-up and capitalization is more than $10,000, the Chief of Field Services must provide approval.

b. Financial participation will not be required for IDVR investment in:
   - Training and technical assistance.
   - Accommodations necessitated by the customer’s disability in order to participate in training, technical assistance or in consideration of financial assistance.

Limitations and Restrictions

Financial assistance for business start-up capitalization does not include:

1. Funding for speculative real estate development.
2. Deposits that are refundable to the customer or business.
3. Cash.
4. Salary or benefits for the customer, partners in ownership, or any employees of the business.
5. Purchase of real estate.
7. Inventory or business supplies that include tobacco, firearms or alcoholic beverages.
8. Refinancing of existing debt – business or personal.

9. Business continuation expenses subsequent to the initial start-up costs.

10. IDVR does not support a customer hobby as a self-employment goal.

Self-employment involving payment for registration, legal services, patents, trademarks, copyrights, or franchise fees require an exception to policy approved by the Chief of Field Services.

Multi-Level Marketing plans are often similar to illegal pyramid schemes; therefore, VR counselors are cautioned about supporting self-employment businesses with a multi-level marketing structure. Support for multi-level marketing businesses may be appropriate when the emphasis is on sales by the VR customer versus recruitment of down line distributors.

Types of Self-Employment

A. Start-up Business
   a. Low Cost / Low Risk / Low Complexity Business Plan

I. Role of IDVR

When working with customers expressing an interest in self-employment the primary role of IDVR is to:

- Provide relevant information regarding the availability of self-employment services supported by the agency.

- Assist the customer in information gathering and assessment in deciding whether self-employment is an appropriate option to achieve their employment goal.

- Assess the customer’s disability as it relates to the self-employment goal.

- Reduce or eliminate barriers to self-employment created by the disability.

- May authorize for the provision of external technical assistance including, but not limited to, business feasibility, training, business planning, and post start-up monitoring.

- Participate with the customer and external technical assistance to evaluate the feasibility of the business.

- Coordinate training and technical assistance services.

- Provide technical assistance as deemed appropriate at post start-up of the business.

- Monitor business development at post start-up.
II. Role of the IDVR Customer

Customer responsibilities, as part of the informed choice process relating to self-employment, include but are not limited to:

- Determining the concept of the business.
- Participating in the assessment process.
- Exploring the feasibility of the business venture. This may include gathering information, market feasibility, and likelihood of financial sustainability. This may include; collaboration with technical assistance.
- Writing the business plan with or without technical assistance and approval by the VR counselorVRC.
- Contributing, as appropriate, financially to the capitalization of the business venture by utilizing all available financial resources.
- Assisting in the identification of existing and potential barriers including those created by the disability, as well as identifying possible solutions.
- Developing skills and abilities necessary to operate and sustain the business venture.
- Business implementation and management.
- Providing regular financial or other relevant documentation or information requested by the agency for post star-up monitoring.
- Fulfilling participation in the business start-up as noted in the Individualized Plan of Employment (IPE).

III. Assessment of IDVR Customer’s Appropriateness for Self Employment

- Evaluation of the customer’s interests, skills, aptitudes, and personality traits as they relate to self-employment. This may include; a) use of data gathering instruments, and b) formal vocational assessment to the degree necessary to ensure the customer has the basic skills necessary to operate and manage a small business.
- Ensure the viability of self-employment as it relates to the customer’s ability to handle the physical, mental, emotional, and cognitive aspects of the business venture including their disability. This may require consultation with medical and/or psychological service providers that have been treating the customer. If clear information is not available additional assessments may be needed.
Examination of the customer’s financial goals related to self-employment should include consideration of issues such as impact on government benefits, supplementing family income versus primary source of support, and earning sufficient funds to maintain competitive employment standards. A referral for benefits planning may be appropriate.

IV. Writing an IPE – Developing a Business Plan

After a positive assessment of the feasibility of the business concept an initial IPE is written. Some of the key components of writing an IPE for business plan development include:

- IPE goal will be the anticipated vocational outcome that is the focus of the business plan.

- IPE must be identified as a self-employment IPE.

- Comprehensive assessment for this IPE is based on the appropriateness of self-employment as a strategy for the individual VR customer. It should be based on the feasibility analysis, the assessment of the customer’s appropriateness for self-employment, and other information available.

Services provided as part of this IPE are intended to support the development, writing, and ultimate approval of the business plan. The following are key elements to the development of the business plan:

1. Customer Training and Technical Assistance:

- Customers may be expected to attend training and participate in technical assistance services related to self-employment. This could include options such as; training and technical assistance on subjects such as: exploring entrepreneurship, small business development, business plan development, small business management, accounting for business, and business financing.

- Customers may require business specific skill training to eliminate skill gaps or prepare for the operation of the business. This could include coursework such as accounting/bookkeeping, using computers in business, human resources in business, etc. Skill-building courses should be noted in the IPE as necessary.

2. Business Plan Development:

The Business Plan is viewed as an essential element in any business venture and will be the document used by IDVR to determine whether or not to participate in capitalizing the business venture.
A basic Business Plan must be written and approved to the satisfaction for the VR counselorVRC.

The customer will prepare the Business Plan with or without external technical assistance from a service provider experienced in business plan development.

Benefits counseling may be provided with a focus on the projected impact of revenues and expenses as noted in the Business Plan.

3. Process for Business Plan Review:

The customer’s goal toward self-sufficiency and the level of the Agency’s financial participation in the start-up capitalization of the business will determine the level of review and approval required.

The counselor will review the plan for completeness according to the components listed in the definition of a Business Plan.

All low cost/low risk/low complexity self-employment plans will be reviewed by the customer and the VR counselorVRC.

   a. If the customer and IDVR agree, then the VR counselorVRC and customer proceed to amend the IPE to initiate the self-employment plan.

   b. If the customer and IDVR agree, that revisions are needed the customer proceeds to revise the plan with or without technical assistance.

   c. The customer may decide not to proceed with the identified business goal. If so, the customer and the VR counselorVRC proceed with developing a new IPE goal (this may or may not be a different self-employment option).

V. Amending IPE - Implementing the Business Plan

Once the business plan has been approved by the customer and the VR counselorVRC an IPE amendment will be developed that identifies necessary services and activities to implement the business plan.

   1. Update comprehensive assessment based upon the additional information acquired through the business plan development process.

   2. Identifying specific VR services, cost, and vendors need to implement the self-employment plan. It is important that the financial responsibility for each party is identified on the IPE.
3. Identifying necessary training and technical assistance needed to implement the plan.

4. Identifying post start-up support services that may be needed.

5. Identifying the benchmarks for successful closure. At minimum, one benchmark must identify acceptable wage level for the customer (not less than Federal minimum wage standards). Additional benchmarks should be identified that are critical to the success of self-employment and how to proceed if the benchmarks are not met. It is important that these benchmarks be clearly written, and the consequences for not meeting the benchmarks are clearly explained to the customer and stated on the IPE. Examples of consequences for not meeting the benchmark on the IPE:

   - Evaluating the appropriateness of the benchmarks and possibly modification of the benchmarks (this would require an amendment to the IPE).
   - Withdrawal of IDVR support of the business and reassess other VR options.
   - Proceeding with case closure.

VI. Closure of Self-Employment Case

1. Successful Closure

Successful closure can be completed when the following has been established:

   - Identified benchmarks have been achieved.
   - At least 90 days of stable employment and at least six (6) months of business operation.

Equipment provided for the self-employment plan may be released or returned, consistent with Section 13 of the policy.

2. Unsuccessful Closure

If adequate progress towards meeting the identified benchmarks is not made, the VR counselor proceeds with case closure unless the customer expresses interest in developing a new IPE goal. “All Other Reasons” would be the reason selected for case closure.

The customer is expected to return equipment provided for the self-employment plan, consistent with Section 13 of the policy.

b. Complex Business Plan

I. Role of IDVR

When working with customers expressing an interest in self-employment the primary role of IDVR is to:
• Provide relevant information regarding the availability of self-employment services supported by the Agency.

• Assist the customer in information gathering and assessment in deciding whether self-employment is an appropriate option to achieve their employment goal.

• Assess the customer’s disability as it relates to the self-employment goal.

• Reduce or eliminate barriers to self-employment created by the disability.

• Authorize for the provision of external technical assistance including, but not limited to, business feasibility, training, business planning, and post start-up monitoring.

• Participate with the customer and external technical assistance to evaluate the feasibility of the business.

• Assist in identifying resources for the capitalization of the business plan.

• Coordinate training and technical assistance services.

• Provide technical assistance as deemed appropriate at post start-up of the business.

• Monitor business development at post start-up.

II. Role of the IDVR Customer

Customer responsibilities, as part of the informed choice process relating to self-employment, include but are not limited to:

• Determining the concept of the business.

• Participating in the assessment process.

• Exploring the feasibility of the business venture. This includes conducting research, gathering information, market feasibility, and likelihood of financial sustainability. This may include collaboration with technical assistance.

• Writing the business plan with or without technical assistance.

• Researching the availability of financial resources.

• Contributing, as appropriate, financially to the capitalization of the business venture by utilizing all available financial resources.

• Assisting in the identification of existing and potential barriers including those created by the disability, as well as identifying possible solutions.
• Developing skills and abilities necessary to operate and sustain the business venture.

• Business implementation and management.

• Providing regular financial or other relevant documentation or information requested by the Agency for post start-up monitoring.

• Fulfilling participation in the business start-up as noted in the Individualized Plan of Employment (IPE).
III. Assessment of IDVR Customer’s Appropriateness for Self Employment

- Evaluation of the customer’s interests, skills, aptitudes, and personality traits as they relate to self-employment. This may include; a) use of data gathering instruments, and b) formal vocational assessment to the degree necessary to ensure the customer has the basic skills necessary to operate and manage a small business.

- Ensure the viability of self-employment as it relates to the customer’s ability to handle the physical, mental, emotional, and cognitive aspects of the business venture including their disability. This may require consultation with medical and/or psychological service providers that have been treating the customer. If clear information is not available additional assessments may be needed.

- The customer has attended a training session, such as the Small Business Development Center’s “Exploring Entrepreneurship” or another comparable program, to evaluate the advantages and disadvantages of business ownership and explore self-employment preparedness from a personal perspective.

- Examination of the customer’s financial goals related to self-employment should include consideration of issues such as, impact on Government benefits, supplementing family income versus primary source of support, and earning sufficient funds to maintain competitive employment standards. A referral for benefits planning may be appropriate.

- Conduct a preliminary assessment of various funding sources for business capitalization. The customer’s expectations relative to the financial support she/he anticipates/expects from IDVR should be discussed at the onset. It is important that the customer understands that IDVR will not be the sole source of startup capitalization and that any funding allocated to the start-up of the business will be consistent with IDVR policy related to financial participation.

IV. Assessment of the Feasibility of the Business Concept

Customers may be referred to outside resources for assistance in examining the concept, market and financial feasibility of the business. If the business idea is deemed feasible, the information developed at this stage will provide some of the basic data that will be used in completing the Business Plan to be written later.

Testing the feasibility of the business idea should be formalized through a written Feasibility Assessment documenting the following:

- Concept Feasibility: Clear description of the business idea; customer’s background related to the business concept including education, training, direct experience and transferable skill sets; a summary statement identifying issues of concern regarding the feasibility of the concept; and a recommendation as to whether the business concept is feasible.

- Market Feasibility: Geographic description of market area; description of
competitors working in or marketing to potential customers in geographic area; definition of target markets including size and scope of each market; zoning issues/requirements for establishing a business at intended location.

- Financial Feasibility: Capitalization requirements (start-up funding not to exceed 6 months) consistent with the individual’s business concept; identification of resources for start-up funding and ongoing capitalization. Twelve (12) months of projected sales/expenses may be included, when appropriate.

V. Writing an IPE – Developing a Business Plan

After a positive assessment of the feasibility of the business concept an initial IPE is written. Some of the key components of writing an IPE for business plan development include:

- IPE goal will be the anticipated vocational outcome that is the focus of the business plan.

- IPE must be identified as a self-employment IPE.

- Comprehensive assessment for this IPE is based on the appropriateness of self-employment as a strategy for the individual VR customer. It should be based on the feasibility analysis, the assessment of the customer’s appropriateness for self-employment, and other information available.

Services provided as part of this IPE are intended to support the development, writing, and ultimate approval of the business plan. The following are key elements to the development of the business plan:

1. IDVR Customer Training and Technical Assistance:

- All customers will be expected to attend training, when available, and participate in technical assistance services related to self-employment. This could include options such as; training and technical assistance on subjects such as: exploring entrepreneurship, small business development, business plan development, small business management, accounting for business, and business financing. *Exceptions to the above requirement may be made with supervisory approval in limited circumstances.*

- Customers may require business specific skill training to eliminate skill gaps or prepare for the operation of the business. This could include coursework such as accounting/bookkeeping, using computers in business, human resources in business, etc. Skill-building courses should be noted in the IPE as necessary.

2. Business Plan Development:

The Business Plan is viewed as an essential element in any business venture and will be the document used by IDVR, banks, micro lenders, and other funding organizations to determine whether or not to participate in capitalizing the business venture.
• A comprehensive Business Plan will be required for all complex self-employment goals. The content for a comprehensive Business Plan is a thorough assessment of all the components listed in the Business Plan definition.

• The customer will prepare the Business Plan with or without external technical assistance from a service provider experienced in business plan development.

• Benefits counseling may be provided with a focus on the projected impact of revenues and expenses as noted in the Business Plan.

3. Explore and Apply for Resources Available From Other Sources:

IDVR customers pursuing self-employment are required to explore funding from sources other than IDVR. These may include microloans, commercial and consumer loans, loans from family, forgivable loans, equity grants, and work incentives for Social Security recipients including Plans to Achieve Self Support (PASS) and personal property (inventory and equipment) essential to the operation of the business. If the business plan is approved and the IPE is amended, the customer will apply for other resources necessary to implement the business plan.

4. Process for Business Plan Review:

The customer’s goal toward self-sufficiency and the level of the agency’s financial participation in the start-up capitalization of the business will determine the level of review and approval required.

• The counselor will review the plan for completeness according to the components listed in the definition of a Business Plan.

• The business plan is submitted for technical assistance and feasibility review by an outside consultant (approved by the VR counselor and customer) with experience in business development.

• All complex self-employment plans will be reviewed by a self-employment team. The self-employment team will include the customer, VR counselor, Regional Manager, at least one outside consultant, and other individuals as appropriate.

  a. If the customer and IDVR agree, based on the feedback from the self-employment team, then the VR counselor and customer proceed to amend the IPE to initiate the self-employment plan.

  b. If the customer and IDVR agree, based on the feedback from the self-employment team, that revisions are needed, the customer proceeds to revise the plan with or without technical assistance.
c. If the customer does not agree with the recommendations from the self-
employment team the customer may choose to follow the appeal process.
(See Section 4.0)

d. The customer may decide not to proceed with the identified business goal.
If so, the customer and the VR counselor proceed with developing a
new IPE goal (this may or may not be a different self-employment option).

VI. Amending IPE - Implementing the Business Plan
Once the business plan has been approved by the customer and the VR counselor an IPE
amendment will be developed that identifies necessary services and activities to implement
the business plan.

1. Update comprehensive assessment based upon the additional information acquired
through the business plan development process.

2. Identifying specific VR services, resources, cost, and vendors need to implement the
self-employment plan. It is important that the financial responsibility for each party
is identified on the IPE.

3. Identifying necessary training and technical assistance needed to implement the plan.

4. Identifying post start-up support services that may be needed.

5. Identifying the benchmarks for successful closure. At minimum, one benchmark
must identify acceptable wage level for the customer (not less than Federal minimum
wage standards). Additional benchmarks should be identified that are critical to the
success of self-employment and how to proceed if the benchmarks are not met. It is
important that these benchmarks be clearly written, and the consequences for not
meeting the benchmarks are clearly explained to the customer and stated on the IPE.
Examples of consequences for not meeting the benchmark on the IPE:

- Evaluating the appropriateness of the benchmarks and possibly modification of
the benchmarks (this would require an amendment to the IPE).

- Withdrawal of IDVR support of the business and reassess other VR options.

- Proceeding with case closure.
VII. Closure of Self-Employment Case

1. Successful Closure

Successful closure can be completed when the following has been established:

- Identified benchmarks have been achieved.
- At least 90 days of stable employment and at least six (6) months of business operation.

Equipment provided for the self-employment plan may be released or returned, consistent with Section 13 of the policy.

2. Unsuccessful Closure

If adequate progress towards meeting the identified benchmarks is not made, the VR counselor proceeds with case closure unless the customer expresses interest in developing a new IPE goal. “All Other Reasons” would be the reason selected for case closure.

The customer is expected to return equipment provided for the self-employment plan, consistent with Section 13 of the policy.
B. Supported Self Employment

a. Role of IDVR

When working with customers expressing an interest in supported self-employment the primary role of IDVR is to:

- Provide relevant information regarding the availability of supported self-employment services supported by the agency.
- Assist the customer in information gathering and assessment in deciding whether supported self-employment is an appropriate option to achieve their employment goal.
- Assess the customer’s disability as it relates to the self-employment goal and the nature and level of support required (Examples: guardians/family members, targeted service coordinator, psychosocial rehabilitation provider, Medicaid broker, SSA payee).
- Reduce or eliminate barriers to supported self-employment created by the disability.
- May authorize for the provision of external technical assistance including, but not limited to, business feasibility, training, business planning, and post start-up monitoring.
- Participate with the customer, support team, and external technical assistance to evaluate the feasibility of the business.
- Coordinate training and technical assistance services.
- Provide technical assistance as deemed appropriate at post start-up of the business.
- Monitor business development at post start-up.

b. Role of the IDVR Customer with their Support Team

Customer and support team’s responsibilities, as part of the informed choice process relating to self-employment, include but are not limited to:

- Determining the concept of the business.
- Participating in the assessment process.
- Exploring the feasibility of the business venture. This may include gathering information, market feasibility, and likelihood of financial sustainability. This may include collaboration with technical assistance.
• Writing the business plan with or without technical assistance and approval by the VR counselor VRC.

• Contributing, as appropriate, financially to the capitalization of the business venture by utilizing all available financial resources.

• Assisting in the identification of existing and potential barriers including those created by the disability, as well as identifying possible solutions.

• Identifying the areas within self-employment that need ongoing support and identify the specific individuals or resources that will provide that support.

• Developing skills and abilities necessary to operate and sustain the business venture.

• Business implementation and management.

• Providing regular financial or other relevant documentation or information requested by the Agency for post start-up monitoring.

• Fulfilling participation in the business start-up as noted in the Individualized Plan of Employment (IPE).

c. Assessment of Customer’s Appropriateness for Supported Self Employment

A. Evaluation of the customer’s interests, skills, aptitudes, and personality traits as they relate to supported self-employment. This may include; a) use of data gathering instruments, and b) formal vocational assessment to the degree necessary to ensure the customer has the basic skills necessary to operate and manage a small business with adequate support systems.

B. Ensure the viability of supported self-employment as it relates to the customer’s ability to handle the physical, mental, emotional, and cognitive aspects of the business venture including their disability. This may require consultation with medical and/or psychological service providers that have been treating the customer. If clear information is not available additional assessments may be needed.

C. Examination of the customer’s financial goals related to supported self-employment should include consideration of issues such as: impact on Government benefits, supplementing family income versus primary source of support, and earning sufficient funds to maintain competitive employment standards. A referral for benefits planning may be appropriate.
I. Writing an IPE – Developing a Business Plan

After a positive assessment of the feasibility of the business concept an initial IPE is written. Some of the key components of writing an IPE for business plan development include:

- IPE goal will be the anticipated vocational outcome that is the focus of the business plan.
- IPE must be identified as a supported self-employment IPE.
- Comprehensive assessment for this IPE is based on the appropriateness of supported self-employment as a strategy for the individual VR customer. It should be based on the feasibility analysis, the assessment of the customer’s appropriateness for supported self-employment, and other information available.

Services provided as part of this IPE are intended to support the development, writing, and ultimate approval of the business plan. The following are key elements to the development of the business plan:

1. IDVR Customer Training and Technical Assistance:

   - Customers may be expected to attend training and participate in technical assistance services related to supported self-employment. This could include options such as; training and technical assistance on subjects such as exploring entrepreneurship, small business development, business plan development, small business management, accounting for business, and business financing.

   - Customers may require business specific skill training or support to eliminate gaps for the operation of the business.
2. Business Plan Development:

The Business Plan is viewed as an essential element in any business venture and will be the document used by IDVR to determine whether or not to participate in capitalizing the business venture. If the supported self-employment plan meets the criteria for a complex self-employment plan refer to the business plan development for complex self-employment plan. If the supported self-employment plan meets the criteria for low cost/low risk/low complexity plan refer to the business plan development for low cost/low risk/low complexity plan.
3. Process for Business Plan Review:

The customer’s goal toward self-sufficiency and the level of the Agency’s financial participation in the start-up capitalization of the business will determine the level of review and approval required.

If the supported self-employment plan meets the criteria for a complex self-employment plan refer to the business plan review for complex self-employment plan. If the supported self-employment plan meets the criteria for low cost/low risk/low complexity plan refer to the business plan review for low cost/low risk/low complexity plan.

II. Amending IPE - Implementing the Business Plan

Once the business plan has been approved by the customer, support team, and the VR counselor, an IPE amendment will be developed that identifies necessary services and activities to implement the business plan.

1. Update comprehensive assessment based upon the additional information acquired through the business plan development process.

2. Identifying specific VR services, cost, and vendors need to implement the supported self-employment plan. It is important that the financial responsibility for each party is identified on the IPE.

3. Resources to provide long term support (Extended Employment Services, Medicaid waiver, private pay, or natural supports) are identified and secured.

4. Identifying necessary training and technical assistance needed to implement the plan.

5. Identifying post start-up support services that may be needed.

6. Identifying the benchmarks for successful closure. At minimum, one benchmark must identify acceptable wage level for the customer (not less than Federal minimum wage standards). Additional benchmarks should be identified that are critical to the success of supported self-employment and how to proceed if the benchmarks are not met. It is important that these benchmarks be clearly written, and the consequences for not meeting the benchmarks are clearly explained to the customer and stated on the IPE. Examples of consequences for not meeting the benchmark on the IPE:

   - Evaluating the appropriateness of the benchmarks and possibly modification of the benchmarks (this would require an amendment to the IPE).
   - Withdrawal of IDVR support of the business and assess other VR options.
   - Proceeding with case closure.
III. Closure of Supported Self-Employment Case

1. Successful Closure

Successful closure can be completed when the following has been established:

- Identified benchmarks have been achieved.
- At least 90 days of stable employment and at least six (6) months of business operation.
- Verification of necessary long term supports.

Equipment provided for the supported self-employment plan may be released or returned, consistent with Section 13 of the policy.

2. Unsuccessful Closure

If adequate progress towards meeting the identified benchmarks is not made, the VR counselor proceeds with case closure unless the customer expresses interest in developing a new IPE goal. “All Other Reasons” would be the reason selected for case closure.

The customer is expected to return equipment provided for the self-employment plan, consistent with Section 13 of the policy.

C. Continued Self-Employment:

I. Writing IPE

1. Prior to completing the IPE, a comprehensive assessment must be completed.

2. Identify specific VR services, cost, and vendors need to implement the self-employment plan. It is important that the financial responsibility for each party is identified on the IPE.

3. Identify necessary training and technical assistance needed to implement the plan.

4. Identify post start-up support services that may be needed.

5. Identify the benchmarks for successful closure. At minimum, one benchmark must identify acceptable wage level for the customer (not less than Federal minimum wage standards). Additional benchmarks should be identified that are critical to the success of self-employment and how to proceed if the benchmarks are not met. It is important that these benchmarks be clearly written, and the consequences for not meeting the benchmarks are clearly explained to the customer and stated on the IPE. Examples of consequences for not meeting the benchmark on the IPE:

   - Evaluating the appropriateness of the benchmarks and possibly modification of the benchmarks (this would require an amendment to the IPE).
• Withdrawal of IDVR support of the business and assess other VR options.

• Proceeding with case closure.

II. Closure of Continued Self-Employment Case

1. Successful Closure

Successful closure can be completed when the following has been established:

• Identified benchmarks have been achieved.

• At least 90 days of stable employment.

Equipment provided for the continued self-employment plan may be released or returned, consistent with Section 13 of the policy.

2. Unsuccessful Closure

If adequate progress towards meeting the identified benchmarks is not made, the VR counselor proceeds with case closure unless the customer expresses interest in developing a new IPE goal. “All Other Reasons” would be the reason selected for case closure.

The customer is expected to return equipment provided for the continued self-employment plan, consistent with Section 13 of the policy.
12.11 Effective Communication Services for Customers with Sensory Impairments

IDVR can provide interpreter services and note taking services for customers who are deaf, including tactile interpreting for customers who are deaf-blind; reader services, rehabilitation teaching services, note-taking services and orientation and mobility services for customers who are blind; telecommunications, sensory and other technological aids and devices.

Note: If the customer is enrolled in an academic/technical training program at an institution that receives Federal financial support, the institution will be responsible for the provision of interpreter services within the classroom or formal training environment i.e., outside the classroom, but mandated or supported by the class curriculum. (A regional exception has been made at the Eastern Idaho Technical College – EITC as per the agreement between IDVR and EITC).

12.12 Occupational Licenses, Tools, Equipment Initial Stocks and Supplies necessary in order to enter an Occupation

Occupational licenses, tools, equipment, initial stocks, and supplies may be purchased in order to adequately prepare the customer for a vocational outcome. Private pilot’s license will not be secured through the financial support of IDVR.

IDVR will not purchase land or buildings for customers with disabilities. IDVR retains the right to reclaim occupational tools and equipment purchased by IDVR when:

- Customer’s IPE is not completed.
- The tools and equipment are no longer necessary or appropriate for the existing or new employment goal.
- Case is closed other than rehabilitated.

12.13 Supported Employment Services

Supported employment services may be provided to customers with the most severe disabilities who require ongoing training on-the-job and support services.

12.13.1 Supported employment is defined as follows:

A. Competitive work (defined as payment of an hourly rate not less than minimum wage or less than the employer usually pays individuals who are not disabled) in an integrated work setting (defined as an environment in which the customer engages in as much contact with co-workers or the non-disabled general public as any other non-disabled person working in that job would experience) with ongoing support services for customers with the most severe disabilities for whom competitive employment:

1. Has not traditionally occurred; or
2. Has been interrupted or intermittent as a result of severe disability; and
3. Who, because of the nature and severity of their disability(ies), need intensive supported employment services or extended services in order to be gainfully employed; or

B. Transitional employment for customers with chronic mental illness.

**Note:** Non-competitive, non-integrated employment (sometimes referred to as Sheltered Work, Facility Based Work, Work Services, or Workshop Services) is not part of VR services. If a customer requests these services, IDVR will provide information about competitive, integrated employment to assist in informed choice. If the customer still requests non-competitive, non-integrated employment they will be referred to the Extended Employment Services Program through the Extended Employment Services Referral Form.

**12.13.2 Supported Employment Process:**

A. Through an assessment (internally provided or through a review of external documentation) or through the provision of VR services, supported employment is identified as a necessary strategy for successful employment.

B. The **VR counselor** and customer will identify the level of ongoing job support necessary to maintain successful employment.

C. The **VR counselor** and customer will identify the availability of long term support strategies for the level of supported employment services identified.

D. If long term support strategies are available then an IPE may be written.

E. If long term support strategies are not available the case will be closed “Unable to Benefit from Services - Extended services not available.”

**12.13.3 Supported Employment Strategies**

**Natural Supports:** Support from supervisors and co-workers occurring in the workplace to assist employees with disabilities to perform their jobs, including supports already provided by an employer for all employees. These natural supports may be both formal and/or informal, and include mentoring, supervision (ongoing feedback on job performance), training (learning a new job skill with a co-worker), and co-workers socializing with employees with disabilities at breaks or after work. Support provided by family, friends, or significant others are also included within this definition.

**Extended Employment Services:** (IDAPA 47.01.02) Funds Managed by IDVR/EES. There are four eligibility categories:

A. Developmental Disabilities (as defined in section 66-402, Idaho Code).

B. Mental Health: (Typically Schizophrenia, Major Mood Disorders, Borderline Personality Disorder, Delusional Disorder, Schizoaffective Disorder).
C. Specific Learning Disability.

D. Traumatic Brain Injury.

Medicaid Funded Employment Supports:

Developmental Disabilities – Adult DD Home and Community Based Services Medicaid Waiver (IDAPA 16.03.10.703.03). Eligibility for this waiver is determined by the Independent Assessment Providers (IAP) at the Idaho Center on Disability Evaluation. The Self-Directed option falls under this waiver.

Aged or Disabled Waiver – Supported Employment is a component included in this Home and Community Based Services Medicaid Waiver (IDAPA 16.03.10.326.17).

12.13.4 Steps to Securing Long Term Support for Medicaid or EES Services:

1. Contact the Regional Community Supported Employment (CSE) coordinator.

2. The Regional CSE coordinator will submit the Referral for Extended Employment Services to the EES program.

3. The Regional CSE coordinator and VR counselor will receive documentation regarding the availability within ten (10) business days.

   a. Funding for EES Available – The VR counselor proceeds with plan development.

   b. No EES Funding Available – Customer is placed on the EES waiting list by EES program.

      i. Waiver Eligible

         VR staff notifies in writing to EES program that employment services are approved from Medicaid. Customer is removed from the waiting list once employment waiver services are approved by Medicaid.

         If employment services are not included on the customer’s waiver plan, if EES funding is not secured within three (3) months then the case will be closed (EES case will remain open and the customer will remain on the waitlist).

      ii. Not Waiver Eligible – Customer remains on the EES waiting list

         VR counselor does not proceed to plan development.

         If funding is not secured within three (3) months then the case will be closed (EES case will remain open and the customer will remain on the waitlist).

         Once EES funding becomes available EES program will notify CSE coordinator and VR counselor; customer will be removed from the waiting list.
from the EES waiting list. IPE development may be initiated (VR case file may need to be reopened).

12.14 Post-Employment Services (PES)

A customer with a disability who had been previously rehabilitated may require additional services in order to maintain, advance in, or regain suitable employment. In order to qualify for this service strategy, the need must be based upon a disability previously documented in the eligibility determination section. Post-employment services require an amendment to the IPE. In order to qualify for these services, the customer’s vocational needs must be minor in scope ($1,000 or less) and duration (6 months or less). This means the customer only needs relatively short-term services with minimal cost associated. Customers requiring multiple services over an extended period of time and/or a comprehensive/complex rehabilitation plan should be encouraged to reapply for the full-spectrum of VR services since their needs exceed the intent of post-employment services. PES can be initiated within three (3) years of successful closure. Once the record is destroyed, a new case must be opened.

Note: The intent of PES is to ensure that the employment outcome remains consistent with the customer’s strengths, resources, priorities, concerns, abilities, capabilities, interests and informed choice.

12.15 Rehabilitation Technology

Rehabilitation technology services (rehabilitation engineering, assistive/adaptive technology devices and services) may be provided as compensatory strategies to increase, maintain, or improve functional capabilities of customers with disabilities. Rehabilitation technology services may be provided at any time in the rehabilitation process, including the assessment for determining eligibility and vocational rehabilitation needs, extended evaluation, services provided under an IPE, and post-employment services. Rehabilitation technology, including telecommunications, sensory, and other technological aids and devices are exempt from a determination of the availability of comparable services or benefits exist under any other program, and are available to the customer. IDVR may request, but may not require the use of comparable services and benefits. Personally prescribed devices, such as eye glasses, hearing aids, or wheelchairs are the exception, they not exempt from the consideration of comparable benefits. (For further information, please review the series of comprehensive fact sheets provided by Idaho Assistive Technology Project located on the IDVR intranet web site. There are also direct links to the Idaho Assistive Technology Project web site at that location).

12.15.1 “Assistive technology service” means any service that directly assists a customer with a disability in the selection, acquisition, or use of an assistive technology device, including:

A. The evaluation of the needs of a customer;
B. Purchasing, leasing, or otherwise providing for the acquisition by a customer with a disability of an assistive technology device;
C. Selecting, designing, fitting, customizing, adapting, applying, maintaining, repairing, or replacing assistive technology devices;
D. Coordinating and using other therapies, interventions, or services with assistive
technology devices, such as those associated with existing education and rehabilitation
plans and programs;
E. Training or technical assistance for a customer with a disability.

12.15.2 An assistive technology device means any item, piece of equipment, or product system,
whether acquired commercially off-the-shelf, modified, or customized that is used to increase,
maintain, or improve the functional capabilities of a customer with a disability.

12.15.3 Vehicle modification, may be provided as an assistive technology device only when the
applicant/customer is otherwise precluded from achieving a vocational objective.

1. In the event that a vehicle requires modification, e.g., hand controls, lift installation, or
structural revision, may be provided on vehicles with an expected life of five (5) years or
longer after modification, as evaluated by a certified mechanic (paid for by IDVR). The
customer must agree to maintain insurance on the vehicle for replacement costs of the
modified equipment.

2. Any vehicle modification over $3,000 must include a minimum of two bids from
approved vendors.

3. Adaptive equipment items that are not documented as medically and/or vocationally
necessary will be the responsibility of the customer.

4. When a customer purchases a new vehicle requiring modifications they should check
with the dealership to see if the vehicle modification assistance is available. The VR
counselorVRC will check with the customer to see if the customer is willing to access
and apply the rebate to the cost of vehicle modification.

12.15.4 Housing modifications may be provided as a supportive service so the customer can
benefit from a core vocational rehabilitation service. Typically these services are provided under
an IPE.

12.16 Supportive Services

A. Maintenance is a funding provision designed to offset identified additional costs incurred
as a result of participating in a rehabilitation service (expenses incurred by the customer
while engaged in assessments required for determining eligibility or while receiving
services under an IPE).

NOTE: Maintenance means monetary support provided to a customer for expenses, such
as food, shelter, and clothing, that are in excess of the normal expenses of the customer
and that are necessitated by the customer’s participation in an assessment for determining
eligibility and vocational rehabilitation needs or the customer’s receipt of vocational
rehabilitation services under an individualized plan for employment. (Ref: 34 CFR, Part
361.5 (35)).
Counselors cannot pay maintenance for those existing living costs that a customer would normally incur regardless of the customer’s participation in a plan of vocational rehabilitation services.

Maintenance intended to cover shelter related expenses will not exceed four (4) months per case without the Chief of Field Service’s approval.

Maintenance intended to cover food expenses will not exceed four (4) weeks per case without the Chief of Field Service’s approval.

Maximum per diem food rates for the state of Idaho can be found at: http://www.sco.idaho.gov/web/sbe/sbeweb.nst/pages/trvlpolicy.htm#Apendix%20%20B.

Maximum per diem food rates for out of state can be found at: www.gsa.gov.

VR counselors should be aware and make their customers aware, that any maintenance payments for food, shelter, or clothing may impact SSI benefits.

B. Transportation is a service for identified travel and related expenses for customers to participate in a vocational rehabilitation services or assessment.

1. Actual costs may be paid for taxi, buses, airplanes, etc.

2. When using a privately owned vehicle, fuel assistance will be negotiated. This depends upon actual transportation expenses for participation in rehabilitation services. Routine vehicle maintenance is not covered by IDVR.

3. The VR counselor must take into account the following issues when confronted with a request from a customer to repair a privately owned vehicle:

   a. The overall condition and value of vehicle.

   b. The extent of the repairs.

   c. The availability of other appropriate transportation.

   d. The necessity that the vehicle be used for VR IDVR participation or work.

12.17 School Transition

The Idaho Division of Vocational Rehabilitation (IDVR) participates in student transition planning as outlined at 34 CFR 361.22 of the Rehabilitation Act Regulation. The Regulations require plans, policies, and procedures that provide for the development and approval on an individualized plan for employment as early as possible during the transition planning process but, at the latest, by the time each student who is determined to be eligible for vocational rehabilitation services leaves the school setting. The Act also provides for:

1. Consultation and technical assistance to educational agencies in planning for transition of students with disabilities from school to post-school activities, including vocational rehabilitation;

2. Transition planning by personnel of IDVR and the educational agency for students with disabilities that facilitates the development and completion of their Individualized Education Programs (IPE’s) under section 614 (d) of the Individuals with Disabilities Education Act (IDEA);

3. The roles and responsibilities including financial responsibilities, of each agency; and

4. Procedures for outreach to and identification of students with disabilities who are in need of transition services. Outreach to these students should occur as early as possible during the transition planning process and must include, at a minimum, a description of the purpose of the vocational rehabilitation programs, eligibility requirements; application procedures, and scope of services that may be provided to eligible customers.

- Referrals should be made to the VR counselorVRC as early as possible following the completion of the student’s sophomore year. Earlier referrals can be made based on individual student need. All students with disabilities should be referred, not just those students in special education.

- The VR counselorVRC may participate and/or consult during the development of Individual Educational Plans (IEPs), Individual Transition Plans (ITPs) and Child Study Teams (CSTs) at the invitation of the school and agreement between the VR CounselorVRC and CST members. VRC will determine the appropriate time to take an application when the focus is on the final vocational objective or formal planning for continued employment preparation after the student exits from high school.

- The school district’s responsibility is to provide a free and appropriate education to all students. This includes instructional aides, devices, and necessary services to achieve educational goals.

- IDVR’s responsibility is to facilitate the accomplishment of long-term vocational rehabilitation goals and intermediate rehabilitation objectives identified in the student’s IPE. Only services that are required for achievement of the employment goal will be provided or coordinated.
12.18 Services to Family Members

The definition of “Family Member” is a relative or guardian of the customer or someone who lives in the same household as the customer and has a substantial interest in the well-being of the customer.

Conditions and Criteria:

A. Service may be provided only to individuals that meet the definition of family member.

B. The services to be provided are those which are deemed to be necessary to the successful completion of the customer’s rehabilitation plan (IPE, Extended Evaluation, or Trial Work Period). The customer and VR counselor will make the determination as to whether a service to a family member is necessary to the vocational rehabilitation of the individual customer.

C. Comparable services and benefits are to be explored and if available, utilized prior to expenditure of agency funds.

D. IDVR funds can only be utilized if economic need is established on Financial Participation Assessment (FPA).

E. Family members may not have access to the customer’s record of service without a release of information. Family members may have access to information pertaining to the services they received.

Procedures:

A. The category of Services to Family Members requires prior approval from the Regional Manager.

B. The IPE must set forth the services to be provided to the family member.

C. In developing the IPE the VR counselor must ensure that the customer and family member(s) understand the basis for the provision of services in order to avoid any misunderstanding as to the scope, nature, and duration of services.

D. Services under this section must comply with all other portions of the manual relating to the provision of VR IDVR services.

E. Services to family members must be terminated whenever one of the following conditions prevails:

1. When a service(s) is no longer necessary to the customer’s plan; or
2. When the customer’s plan is terminated in accordance with case closure procedures; or

3. When Post-Employment Services are terminated.

F. When services are provided to family members, the record of service must include:

1. A rationale that services are required to support the customer’s success in completing objectives of the IPE;

2. Data, including medical information, to support the decision to provide services (the least amount necessary to verify the need);

3. Identification of family member(s) receiving those services;

4. The cost of such services; and

5. Documentation of the time limited nature of these services.

12.19 Personal Care Assistant Services

A personal care assistant (PCA) assists a customer with a significant disability by performing personal activities of daily living requiring hands-on help, which cannot be performed by the customer because of the significance of the disability. PCA services including personal care related tasks such as:

1. Eating
2. Drinking
3. Toileting
4. Bathing
5. Transfers
6. Dressing
7. Grooming
8. Medications

PCA services do not include chore services, respite, cueing, or household tasks. In most cases, tasks performed by the PCA are customer directed. The PCA is not responsible for any tasks that the customer with a disability can perform independently.

PCA services have been developed to enhance the ability of a customer with a significant disability to live and work independently. The need for PCA services is normally identified through an independent living (IL) evaluation.

A PCA must have completed a State approved training program or have substantial knowledge and experience in providing PCA services.

It is the policy of the IDVR to provide PCA services to customers with significant disabilities, when PCA services over and above those required for normal daily living are required to assist
the customer to complete the VR process. IDVR does not provide PCA services in lieu of existing PCA programs and providers. If the VR counselor determines that PCA services are necessary for the customer to complete the objectives of the IPE, the VR counselor will need to conduct or obtain a personal care assistant evaluation to determine the number of hours of PCA services that are required for participation in the IPE over and above the customer’s normal daily living needs.

It is the responsibility of the customer and the VR counselor to identify, apply for and utilize any and all similar benefits for PCA services. PCA recruitment and management is the responsibility of the customer. Payment for PCA services is made through an authorization to the customer for PCA services. The customer then pays the chosen provider. IDVR will not exceed the current rate established by Medicaid. IDVR does not pay for standby time; only for direct service time related to the VR service that the PCA service is addressing. The customer is required to submit verification of services received from the provider to IDVR on a monthly basis to continue to receive PCA funded services.

IDVR PCA services are time limited in nature and are provided during the vocational rehabilitation process, if required, to assist in determining eligibility, for participation in vocational evaluation and assessment, and during implementation of an IPE with a goal leading to competitive employment. The provision of PCA services must be linked directly to the objective of the IPE. PCA services funded by IDVR must be for those tasks over and above PCA services normally required for tasks of daily living. No more than 40 hours per week will be authorized for PCA services.

When the IPE objectives have been successfully completed and the goal of competitive employment has been achieved, provision of PCA services required to maintain employment becomes the responsibility of the customer.

12.20 Services to a Group of Individuals

The Rehabilitation Act of 1973 as amended authorizes the provision of rehabilitation services to groups of individuals.

Guidelines:
Services for a group of individuals with disabilities must be expected to substantially contribute to the vocational rehabilitation of a group of individuals, but does not relate directly to the individualized rehabilitation program of any one individual with disability. The decision to provide services to groups will be made based on the need for the services as well as the available resources of the agency.

Establishment

Under the authority of 34 CFR 361.49(a)(1), IDVR may pursue the establishment, development, or improvement of a public or non-profit community rehabilitation program that is used to provide vocational rehabilitation services that promote integration and competitive employment, including, under special circumstances, the construction of a facility for a public or non-profit community rehabilitation program. Examples of “special circumstances” include...
the destruction or natural disaster of the only available center serving an area or a State
determination that construction is necessary in a rural area because no other public agencies or
private non-profit organizations are currently able to provide vocational rehabilitation services
to individuals.

Any CRP establishment activities undertaken by IDVR will be supported by the pre-planning
requirements under 34 CFR 361.49(b)(1) & (2) and 34 CFR 361.29.

In order for IDVR to engage in activities to establish, develop or improve a public or non-
profit CRP, pursuant to 34 CFR 361.49(a)(1), and use of non-Federal expenditures incurred
by those activities to satisfy match requirement under the VR Program, IDVR must first
satisfy several pre-planning requirements:

1. IDVR must have written policies that set forth the nature and scope of services that will
be provided to groups of customers with disabilities, and the criteria that will be used to
determine the provision of those services (34 CFR 361.49(b)(1)); and

2. Establishment activities must have been identified as a need in IDVR's most recent
statewide comprehensive needs assessment and IDVR must have included in its State
plan a discussion of the strategies it would use to meet that need (34 CFR 361.29).

If IDVR has satisfied the above pre-planning requirements for activities related to
establishing, developing, or improving a CRP, then the following requirements must be
satisfied in order for IDVR to use non-Federal expenditures incurred for these activities
towards its match requirements under the VR program pursuant to 34 CFR 361.60(b)(3)(i):

1. The activities proposed must fit within the definition of establishment, development, or
improvement of a CRP at 34 CFR 361.5(b)(17);

2. The establishment, development, or improvement of a facility for a CRP at 34 CFR
361.5(b)(18), or

3. The construction of facility for a CRP at 34 CFR 361.5(b)(12); and

4. The activities must be designed to provide services to IDVR customers and applicants.

Based on 34 CFR 361.5(b)(17), IDVR may:

1. The establishment of a facility for a public or non-profit community rehabilitation
program.

2. Staffing, if necessary to establish, develop, or improve a community rehabilitation
program for the purpose of providing vocational rehabilitation services to applicants or
eligible customers.

3. Other expenditures related to the establishment, development, or improvement of a
community rehabilitation program that are necessary to make the program functional or
increase its effectiveness in providing vocational rehabilitation services to applicants or eligible customers, but are not ongoing operating expenditures of the program.

Employment Related Services to Customers with Disabilities

Under the authority of 34 CFR 361.49(a)(6), IDVR may pursue services that promise to contribute substantially to the rehabilitation of a group of customers but that are not related directly to the individualized plan for employment of any one customer.

The nature and scope of the services provided include:

1. Increase access to employment and educational opportunities for persons who are deaf or hard of hearing.
2. Increase awareness of the needs of persons who are deaf and hard of hearing through educational informational programs.
3. Encourage consultation and cooperation among departments, agencies, and institutions serving the deaf and hard of hearing.

SECTION 13.0 - CLOSURE

13.1 Closure During Application Status

A. No disabling condition

The VR counselor VRC is unable to verify the existence of a disabling condition. The decision requires VR IDVR staff to:

1. Provide an opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.
2. Provide written notification, or other appropriate mode of communication of:
   a. Ineligibility closure determination, explaining in clear and concise language the reason(s) for the ineligibility determination.
   b. Appeal rights (Rights and Responsibilities)
   c. Information regarding the Client Assistance Program (CAP)
3. Referral to other agency (ies), including Idaho Department of Labor.

B. No impediment to employment

The VR counselor VRC cannot establish that there is a substantial barrier to employment based on disability. The decision requires VR IDVR staff to:
1. Provide an opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.
2. Provide written notification, or other appropriate mode of communication of:
   
a. Ineligibility closure determination, explaining in clear and concise language the reason(s) for the ineligibility determination.
   b. Appeal rights (Rights and Responsibilities).
   c. Information regarding the Client Assistance Program (CAP).

3. Referral to other agency (ies), including Idaho Department of Labor.

C. Does not require VR services to achieve an employment outcome

The VR counselor (VRC) has been unable to identify substantial VR services necessary to secure, retain or regain employment. The decision requires VR (IDVR) staff to:

1. Provide an opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.

2. Provide written notification, or other appropriate mode of communication of:
   
a. Ineligibility closure determination, explaining in clear and concise language the reason(s) for the ineligibility determination.
   b. Appeal rights (Rights and Responsibilities).
   c. Information regarding the Client Assistance Program (CAP).

3. Referral to other agency (ies), including Idaho Department of Labor.

D. Unable to benefit from VR services

The VR counselor (VRC), through trial work or extended evaluation has established that the applicant is unable to benefit in terms of an employment outcome. The decision requires VR (IDVR) staff to:

1. Provide an opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.

2. Provide written notification, or other appropriate mode of communication of:
   
a. Ineligibility closure determination, explaining in clear and concise language the reason(s) for the ineligibility determination.
   b. Appeal rights (Rights and Responsibilities).
   c. Information regarding the Client Assistance Program (CAP).

3. Referral to other agency (ies), the Extended Employment Program and as appropriate, the Idaho Department of Labor.

4. Conduct a review of the ineligibility determination following the closure of the record within 12 months and annually thereafter, up to two (2) years, or longer if
requested. The customer with a disability, or, if appropriate, the customer’s representative, may have input into the review and re-evaluation. Signed documentation should be included of the review and re-evaluation if the review and re-evaluation is able to be completed.

E. Extended services unavailable

The VR counselorVRC has determined that extended services are required and the VR counselorVRC and customer have determined that the extended services are not available at this time. The decision requires VRIDVR staff to:

1. Provide opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.

2. Provide written notification, or other appropriate mode of communication of:
   a. Ineligibility closure determination, explaining in clear and concise language the reason(s) for the ineligibility determination.
   b. Appeal rights (Rights and Responsibilities).
   c. Information regarding the Client Assistance Program (CAP).

3. Referral to other agency(ies), the Extended Employment Program and as appropriate, the Idaho Department of Labor.

4. Conduct a review of the ineligibility determination following the closure of the record within 12 months and annually thereafter, up to two (2) years, or longer if requested. The customer with a disability, or, if appropriate, the customer’s representative, may have input into the review and re-evaluation. Signed documentation should be included of the review and re-evaluation if the review and re-evaluation is able to be completed.

F. Refused serviceNo longer interested in receiving services, moved unable to locate/contact or moved, failure to cooperate, death, institutionalized or incarcerated, transportation not feasible or available, transferred to another agency, and all other reasons.

These are closures without eligibility determination. The decision requires VRIDVR staff to:

1. Provide an opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.

2. Provide written notification, or other appropriate mode of communication of (when death is a reason for case closure do not send any written documentation):
   a. Closure determination.
   b. Appeal rights (Rights and Responsibilities).
13.2 Closure during Eligibility Status

A. Unable to benefit from VR services, disability too severe for services

The VR counselor, through clear and convincing evidence has established that the customer is unable to benefit in terms of an employment outcome. An ineligibility determination, based on inability to benefit from VR services or disability too severe for services, may be completed after an initial eligibility determination. The decision requires VRIDVR staff to:

1. Provide an opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.

2. Provide written notification, or other appropriate mode of communication of:
   a. Ineligibility closure determination, explaining in clear and concise language the reason(s) for the ineligibility determination.
   b. Appeal rights (Rights and Responsibilities).
   c. Information regarding the Client Assistance Program (CAP).

3. Referral to other agency(ies), or the Extended Employment Program, and as appropriate, the Idaho Department of Labor.

4. Conduct a review of the ineligibility determination following the closure of the record within 12 months and annually thereafter, up to two (2) years, or longer if requested. The customer with a disability, or, if appropriate, the customer’s representative, may have input into the review and re-evaluation. Signed documentation should be included of the review and re-evaluation if the review and re-evaluation is able to be completed.

B. Extended services unavailable

The VR counselor has determined that extended services are required and the VR counselor and customer have determined that the extended services are not available at this time. The decision requires VRIDVR staff to:

1. Provide an opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.

2. Provide written notification, or other appropriate mode of communication of:
   a. Ineligibility closure determination, explaining in clear and concise language the reason(s) for the ineligibility determination.
   b. Appeal rights (Rights and Responsibilities).
   c. Information regarding the Client Assistance Program (CAP).
3. Referral to other agency (ies), the Extended Employment Program and, as appropriate, the Idaho Department of Labor.

C. **No longer interested in receiving Refused services**, moved unable to locate/contact or moved, failure to cooperate, death, institutionalized or incarcerated, transportation not feasible or available, transferred to another agency, and all other reasons.
The decision requires VRIDVR staff to:

1. Provide an opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.

2. Provide written notification, or other appropriate mode of communication of (when death is a reason for case closure do not send any written documentation):
   a. Closure determination.
   b. Appeal rights (Rights and Responsibilities).
   c. Information regarding the Client Assistance Program (CAP).

D. Closure from the Order of Selection Waitlist

When the VR counselor VRC is unable to contact (the VR counselor VRC uses the closure reason – unable to locate/contact or moved) or the customer has declined VR participation (the VR counselor VRC uses the closure reason – refused services No longer interested in receiving services).

The decision requires VRIDVR staff to:

1. Provide an opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.

2. Provide written notification, or other appropriate mode of communication of (when death is a reason for case closure do not send any written documentation):
   a. Closure determination.
   b. Appeal rights (Rights and Responsibilities).
   c. Information regarding the Client Assistance Program (CAP).

13.3 Unsuccessful Closure After Implementation of IPE

A. Unable to benefit from VR services, disability too severe for services

The VR counselor VRC, through clear and convincing evidence has established that the customer is unable to benefit in terms of an employment outcome. An ineligibility closure determination, based on inability to benefit from VR services or disability too severe for services, may be completed after an initial eligibility determination. The decision requires VRIDVR staff to:

1. Provide an opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.
2. Provide written notification, or other appropriate mode of communication of:
   a. Ineligibility determination, explaining in clear and concise language the reason(s) for the ineligibility determination.
   b. Appeal rights (Rights and Responsibilities).
   c. Information regarding the Client Assistance Program (CAP)

3. Referral to other agency(ies), or the Extended Employment Program, and as appropriate, the Idaho Department of Labor.

4. Conduct a review of the ineligibility determination following the closure of the record within 12 months and annually thereafter, up to two (2) years, or longer if requested. The customer with a disability, or, if appropriate, the customer’s representative, may have input into the review and re-evaluation. Signed documentation should be included of the review and re-evaluation if the review and re-evaluation is able to be completed.

5. Customer must return tools and equipment to the agency at the time of unsuccessful closure, in accordance to the tool agreement. Exceptions must be approved by the Regional Manager.

B. Extended services unavailable

The VR counselor has determined that extended services are required and the VR counselor and customer have determined that the extended services are not available at this time. The decision requires IDVR staff to:

1. Provide an opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.

2. Provide written notification, or other appropriate mode of communication of:
   a. Ineligibility determination, explaining in clear and concise language the reason(s) for the ineligibility determination.
   b. Appeal rights (Rights and Responsibilities)
   c. Information regarding the Client Assistance Program (CAP)

C. Refused service, No longer interested in receiving services, moved, unable to locate/contact or moved, failure to cooperate, death, institutionalized or incarcerated, transportation not feasible or available, transferred to another agency, and all other reasons.

The decision requires VRIDVR staff to:

1. Provide an opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.
2. Provide written notification, or other appropriate mode of communication of (when death is a reason for case closure do not send any written documentation);

   a. Closure determination.
   b. Appeal rights (Rights and Responsibilities)
   c. Information regarding the Client Assistance Program (CAP)

13.4 Successful Competitive Closure After Implementation of IPE

A. Rehabilitated with supports

Customers in supported employment are determined rehabilitated when the objectives of the IPE for supported employment training are achieved and a plan for extended support services is verified through the activation of services related to the long-term source of support.

In order to determine that a customer has achieved an employment outcome, the case record must document:

1. That services provided under the IPE contributed to the achievement of the employment outcome.

2. That the employment outcome is consistent with the customer’s strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice.

3. That the employment is in the most integrated setting possible, consistent with the customer’s informed choice, that the customer is compensated at or above the minimum wage and his/her wages and benefits are not less than that customarily paid by the employer for same or similar work performed by non-disabled individual.

4. That the employment outcome has been maintained for a minimum of 90 days.

5. The customer and the VR counselor consider the employment outcome to be satisfactory and agree that the customer is performing well on the job. Whenever possible, confirm that the employer is satisfied with the work performance of the customer as well as IDVR services.

6. That an assessment occurred regarding whether a need exists for Post-Employment services and that the customer was informed regarding the purpose and availability of post-employment services, should the need arise.
7. Ownership of tools and equipment may be transferred to the customer at the
time of closure if the tools and equipment are necessary for on-going
employment purposes.

Case closure requires IDVR staff to:

1. Provide an opportunity for the customer or his/her representative to receive
   full consultation regarding the closure decision.

2. Provide written notification or other appropriate mode of communication.

B. Rehabilitated without supports

In order to determine that a customer has achieved an employment outcome, the
case record must document:

1. That services provided under the IPE contributed to the achievement
   of the employment outcome.

2. That the employment outcome is consistent with the customer’s
   strengths, resources, priorities, concerns, abilities, capabilities,
   interests, and informed choice.

3. That the employment is in the most integrated setting possible,
   consistent with the customer’s informed choice, that the customer is
   compensated at or above the minimum wage and his/her wages and
   benefits are not less than that customarily paid by the employer for
   same or similar work performed by non-disabled individual.

4. That the employment outcome has been maintained for a minimum of
   90 days.

5. The customer and the VR counselor consider the employment
   outcome to be satisfactory and agree that the customer is performing
   well on the job. Whenever possible, confirm that the employer is
   satisfied with the work performance of the customer as well as IDVR
   services.

6. That an assessment occurred regarding whether a need exists for Post-
   Employment Services and that the customer was informed regarding
   the purpose and availability of post-employment services, should the
   need arise.

7. Ownership of tools and equipment may be transferred to the customer at the
time of closure if the tools and equipment are necessary for on-going
employment purposes.
Case closure requires IDVR staff to:

1. Provide an opportunity for the customer or his/her representative to receive full consultation regarding the closure decision.

2. Provide written notification or other appropriate mode of communication.
13.5 Successful Non-Competitive Closure After Implementation of IPE

In order to determine that a customer has achieved an employment outcome, the case record must document:

1. That services provided under the IPE contributed to the achievement of the employment outcome.

2. That the employment outcome is consistent with the customer’s strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice.

3. A. Homemaker—verify that the customer has increased their ability to provide services around the house that enable other family members to increase their financial contribution to the family.
   
   B. Unpaid Family Worker—verify that the customer is working for the family farm or family business.

4. That the employment outcome has been maintained for a minimum of 90 days.

5. The customer and the VR counselor consider the employment outcome to be satisfactory and agree that the customer is performing well on the job. Whenever possible, confirm that the employer is satisfied with the work performance of the customer as well as IDVR services.

6. That an assessment occurred regarding whether a need exists for Post-Employment Services and that the customer was informed regarding the purpose and availability of post-employment services, should the need arise.

7. Ownership of tools and equipment may be transferred to the customer at the time of closure if the tools and equipment are necessary for on-going employment purposes.

13.56 Closure After Post Employment Services (PES)

A. Closed unemployed; opening a new VR case

The VR counselor has made a determination that the scope of services is inappropriate for PES and the customer has agreed to apply for a new VR case.

1. PES is closed.
2. Customer applies for services.

B. Employment maintained or regained
The customer and VR counselor are in agreement the job is or has been maintained, regained or advanced in.

1. PES case is closed
2. Customer agreement with case closure is documented in the case record.

C. Lost job; no further services at this time

The customer’s employment was not maintained, regained, or advanced in and no VR services are appropriate at this time.

1. PES case is closed
2. Customer has been informed of case closure is documented in the case record.

SECTION 14.0 ORDER OF SELECTION

14.1 Authority

14.2 Policy

In the event that the projected fiscal and personnel resources of IDVR become inadequate to provide the full range of services, as appropriate, to all eligible customers, the Administrator will implement the Division’s Order of Selection procedure. By law, this procedure must insure that customers with the most significant disabilities are served first. The criteria used for determining the Order of Selection for services is the category of significance of the disability as defined in Policy Section 6.2 and the application date for VR services.

Factors that will not be considered in determining an order of selection priority category include:

A. Type of Disability
B. Duration of residency, provided the customer is present in the state;
C. Age, gender, race, color or national origin;
D. Source of referral;
E. Type of expected employment outcome;
F. The need for specific services or anticipated cost of such services; or
G. The income level of the customer or customer’s family.

14.3 Administrative Requirements

IDVR must ensure that it is funding arrangements for providing services under the State Plan, including third-party arrangements and awards, such as cooperative funding agreements with school districts, other State agencies or contractual arrangements, are consistent with the Order...
of Selection. If any funding arrangements are inconsistent, the Agency must renegotiate these funding arrangements so that they are consistent with the Order of Selection.

14.4 Procedures

Determination of Significant Disability

When a VR counselor VRC determines a customer is eligible, the VR counselor VRC also establishes the level of significance of disability based upon the criteria established in Section 6.0. The level of significance of the customer’s disability is identified with one of the following three priority categories:

A. Customers with disabilities
B. Customers with significant disabilities
C. Customers with the most significant disabilities

Statewide Order of Selection Waiting List

When a VR counselor VRC completes the eligibility process and the determination of the significance of the disability determination, the customer is added to the statewide Order of Selection waiting list in the appropriate category by date of application. The date of application process is completed (see section 5.3). The case is transferred from the VR counselor VRC caseload to the office Order of Selection waiting list.

Written notification will be provided to the customer informing them of:

- Their eligibility determination.
- Their placement on the waiting list.
- The priority categories of IDVR’s Order of Selection.
- Their assignment to a particular category.
- Their right to appeal their category assignment.
- The availability of the Client Assistance Program (CAP).

When resources are available, the Chief of Field Services notifies the Regional Manager RMs of the number of customers to take from the waiting list by priority category, application date(s) and office locations. Regional Manager RMs then coordinate with the VR counselor VRCs to transfer the corresponding cases from the Order of Selection waiting list in respective offices to VR counselor VRC’s caseloads.

A customer on the statewide Order of Selection waiting list may request that his/her case be transferred from one office to another by contacting the local VRIDVR office – The request for transfer will be processed by the Regional Manager RM where the case resides.

Transferring a New Case to the Order of Selection Waiting List
The Regional Manager (RM) is responsible for ensuring appropriate priority categories are being served, for maintaining the office Order of Selection waiting list and for verifying Information and Referral (I&R) is occurring. Cases will be transferred from a VR counselor (VRC)'s caseload to the office Order of Selection waiting list within ten (10) business days of the eligibility date.

The Regional Manager (RM) will verify Information and Referral sources have been documented prior to transferring the case to the office Order of Selection waitlist.

**Transferring a Case from the Order of Selection Waiting List to a VR Counselor (VRC)**

Upon notification to initiate services for case on the Order of Selection waiting list for the specified priority category and application dates, the Regional Manager (RM) or designee must transfer cases from the Order of Selection office waiting list to a VR counselor (VRC) within five (5) business days. The VR counselor (VRC) is notified of the case transferred and is authorized to initiate services.

If a case is closed from the office Order of Selection waiting list, the case is automatically removed from the statewide Order of Selection list.

**Initiating Services for Customers Referred from the Order of Selection Waiting List**

IDVR will determine when it is appropriate to implement procedures to re-establish or maintain contact with customers while they are on the Order of Selection waiting list. Factors to consider are the length of time a customer has been on the list and the anticipated time before the customer’s category will open.

Upon receipt of the case transferred from the Order of Selection waiting list, the VRIDVR staff takes the following steps:

1. To contact the customer and schedule an appointment.
2. If telephone contacts are unsuccessful a letter will be sent to initiate contact.
3. Reasonable and timely efforts to find updated phone numbers and addresses for the customer.
4. If the customer has not responded within forty (40) days from the date the letter was sent, VRIDVR staff will proceed with case closure.

Each customer's communication needs must be considered, including the need for information in alternate formats when initiating contact by telephone or letter.

Steps to contact each customer are documented in the case management system narrative and filed in the case service record.

**Exceptions for Reopening Closed Cases**
A VR counselor (VRC) may request the Regional Manager (RM) to obtain permission from the Chief of Field Services to reopen a case on an exception to policy basis if a customer contacts IDVR after his/her case is closed. If the customer’s lack of response was a result of exceptional circumstances that prevented the customer from responding, the VR counselor (VRC) should consult with his/her supervisor about an exception to policy to reopen the case.

Customers Not Ready to Proceed with IPE Development upon Referral from the Order of Selection Waiting List

If a VR counselor (VRC) contacts a customer to initiate services and she/he is not ready to begin working with IDVR, the VR counselor (VRC) needs to help the customer make an informed decision about how to proceed. If a customer does not wish to, or is unable to proceed with IPE development, IDVR will close the case and the customer must reapply. IDVR cannot ‘hold’ a spot on the waiting list nor can a customer be put back at the top of the list. The VR counselor(VRC) needs to discuss the reasons the customer is not ready to proceed and whether a reasonable time frame can be agreed upon to resolve the issues.

14.5 Information and Referral (I&R)

When operating under Order of Selection, IDVR is required to offer Information and Referral (I&R) services to customers who cannot be served and must wait for services because of the Order of Selection.

IDVR must document and retain information about referrals to other Federal and State programs that provide employment-related services.

Information and Referral Requirements

Federal regulations establish minimum requirements under I&R as follows. IDVR must:

A. Provide customers with accurate vocational rehabilitation information and guidance (which may include counseling and referral for job placement) to prepare for, get, or keep a job.

B. Refer customers with disabilities to other Federal or State programs that are best suited to address their specific employment needs, including partners in the workforce investment system.

C. Initiate a notice of referral identifying:
   a. The name of the program to which the customer is referred;
   b. A contact person in that program; and
   c. Information about the most suitable services to assist the customer prepare for, get or keep a job.

14.6 Counseling and Guidance
To provide customers with accurate VR information and guidance, which may include counseling and referral for job placement, an ID-VR counseling staff member talks to the customer about his/her need to prepare for, get or keep a job. The VRIDVR counseling staff member provides advice and guidance about how the customer might proceed, explains referral sources available, and offers to initiate a referral to another program, if appropriate. These interactions occur in the course of other activities, such as completing the application, intake, and eligibility determination.

For customers who choose not to apply for IDVR services because of the Order of Selection, a general guideline is to limit I&R services to one appointment. The VRC counselor will NOT establish an on-going counseling relationship nor perform follow-up services regarding I&R.

**Counseling and Guidance – Referrals**

Each office will maintain a list of Federal and State programs with which IDVR has established a formal referral relationship. It is expected that the Idaho Department of Labor One-Stop Centers will be used extensively, but not exclusively, for the referral of customers who either choose not to apply or are on a waiting list to receive IDVR services. Other programs to be used in this capacity, as appropriate, include Tribal VR programs and other community programs. Because of limited resources in some areas and the unique needs of some customers with disabilities, there may not be an appropriate program available to every person.

**Counseling and Guidance – Job Placement**

VRIDVR counseling staff may provide brief counseling for job placement. If the customer intends to engage in independent, self-directed job search or related activities, the VRIDVR counseling staff member may provide brief counseling to assist the customer in this effort. Examples of counseling and referral for job placement may include, but are not limited to:

- A. A counseling session with the customer to discuss what efforts to find a job the customer has already tried and offering other job search strategies and suggestions.
- B. Reviewing and giving advice on a customer’s resume.
- C. Discussing reasonable accommodation issues and strategies for approaching an employer.
- D. Discussing and providing the customer with access to the Internet or another resource.
- E. Sharing information about the local labor market.

**14.7 Documenting a Formal Referral**

All referrals to employment-related programs must be documented, including referrals for customers who have applied and are waiting for services. Each Regional Manager, or designee, will identify and maintain the list of regional referral sources that require a formal referral. Each time a customer is referred to one of the listed organizations, the IDVR staff...
member documents the referral in the case management system. Every case will have an entry in the case management system prior to transferring the case to the Order of Selection waiting list, or the case service record will document efforts to locate referral sources and the reason(s) a referral was not provided.

If a customer requests a referral, the IDVR staff member prepares and sends a written referral to the organization. In addition, the IDVR counseling staff member provides the customer being referred with the following:

A. A copy of the written referral notifying the other federal or state program about the referral.
B. The name of the person in that organization to be contacted by the customer being referred.
C. Information about the most suitable services to prepare for, secure, retain, or regain employment.

Informal Referrals

VR counselor VRCs routinely provide information to applicants and eligible customers about a wide array of community assistance programs that may offer services or benefits to assist the customer meet a variety of needs (food or clothing banks, medical programs, counseling services, etc.). These types of referrals are considered informal referrals. IDVR staff are encouraged to continue providing customers with information about other programs that offer services to assist them in meeting a variety of needs.

14.8 Post Employment Services

Order of Selection does not impact or alter the provision of post-employment services. Post-employment services are considered an amendment of the IPE, and therefore, a customer who needs post-employment services is not required to meet the highest priority category currently being serviced under an Order of Selection nor is the customers required to wait for services.

If substantial services are needed, PES is not appropriate. A new application should be taken and would be subjected to Order of Selection.

SUBJECT
Amendments to Board Policy III.G, Postsecondary Program Approval and Discontinuance - First Reading

REFERENCE
March 2005 The Board approved the first reading of proposed amendments to Board Policy III.G that would simplify language, clarify roles for approval, and clearly define requirements for routine changes.

April 2005 The Board approved the second reading of proposed amendments to Board Policy III.G that would simplify language, clarify roles for approval, and clearly define requirements for routine changes.

June 2007 The Board approved the first reading of proposed amendments to Board Policy III.G.

August 2007 The Board approved the second reading of proposed amendments to Board Policy III.G that would clearly define PTE’s program approval procedures.

June 19, 2013 The Board supported moving forward with policy amendments to III.G that would streamline and simplify procedures for program review and approval.

October 17, 2013 The Board approved the first reading to repeal Board Policy, III.F, Academic and Program Affairs and amendments to Board Policy III.G, Instructional Program Approval and Discontinuance.

December 19, 2013 The Board approved the second reading of proposed amendments to Board Policy III.G.

BACKGROUND/DISCUSSION
The purpose of Board Policy III.G, Postsecondary Program Approval and Discontinuance is to provide Idaho’s public institutions with procedures for the development, approval, and discontinuation of academic and professional-technical programs.

Board staff worked with representatives from public postsecondary institutions and the Division of Professional-Technical Education (PTE) (the Workgroup) to
review existing policy and align requirements, where appropriate, with the Northwest Commission on Colleges and Universities (NWCCU) standards. Proposed amendments include amending approval procedures for certificates and program expansions.

Currently NWCCU does not require approval for certificates consisting of 30 credits or less. Language was added to subsection 3.c, that would require institutions to only submit proposals for certificates of 30 credits or more and only requiring notification to the Board office for certificates of 30 credits or less.

PTE is proposing a new section in Board Policy III.G, which would provide institutions with procedures for the inactivation of PTE programs. The purpose of a professional-technical program inactivation is to respond to rapid changes in industry demand, allowing time for program assessment and inactivation.

Board Policy III.G, also currently requires a program proposal for expansion of an existing program within and outside an institution’s service region. The Workgroup recommended to CAAP that a letter to the Board office for program expansions within an institution’s service region would make more sense rather than requiring a detailed proposal.

Other changes included the following:

- Reorganized existing language to other subsections of the policy where it made more sense
- Moved the last sentence in the preamble regarding learning outcomes to subsection 3 “Academic Programs” and to subsection 4 “PTE Programs”
- Moved financial impact definition under the “definitions section”
- Separated the role of the Professional Standards Commission in 2.c. to be its own subsection.
- Added “certificates of 30 credits or less” to “Modifications” subsection 3
- Added “certificates of 30 credits or more to “Academic Programs” and “PTE programs” subsection 3
- Added new subsection under 4.d. for PTE program inactivation
- Modified subsection 5 from a three-year sunset clause to five years

**IMPACT**

Approval of proposed amendments will create efficiencies for institutions and decrease the number of proposals submitted to the Board office, and in some cases to the Board.

**ATTACHMENTS**

Attachment 1 – Board Policy III.G, Postsecondary Program Approval and Discontinuance – First Reading
STAFF COMMENTS AND RECOMMENDATIONS
Proposed amendments to Board Policy III.G will provide institutions and staff the necessary guidance for program proposal submission and procedures for approval. Board staff and CAAP recommend approval as presented.

BOARD ACTION
I move to approve the first reading of proposed amendments to Board Policy III.G, Postsecondary Program Approval and Discontinuance as submitted in attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
The Board is responsible for the establishment, maintenance, and general supervision of policies and procedures governing the academic and program affairs of the institutions. The Board has final authority and responsibility for program approval. This subsection shall apply to the University of Idaho, Idaho State University, Boise State University, Lewis-Clark State College, Eastern Idaho Technical College, North Idaho College, the College of Southern Idaho, and the College of Western Idaho.

The Board affirms that a major percentage of instructional and professional-technical program planning, assessment, and review rests with the institutions, both in theory and in practice. In addition, program planning shall be a collaborative process which includes the Board, Board staff, the institutions, faculty, external advisory groups, regional and specialized accreditation bodies, and other stakeholders pursuant to Board Policy Section III.Z. However, the Board has final authority and responsibility for program approval and how a program and the curriculum relate to other institutions, the system as a whole, and the educational and workforce needs of the state. All postsecondary program approvals will include identifiable learning outcomes and competency measurements for graduates of their programs as defined in Board Policy III.X.

1. Classifications and Definitions

   a. Instructional Unit(s) shall mean departments, institutes, centers, divisions, schools, colleges, campuses, branch campuses, and research units (e.g. extension centers) that are responsible for academic programs or professional-technical programs.

   b. Administrative Unit(s) shall mean offices, centers, bureaus, or institutes that are responsible for carrying out administrative functions, research, or public service as their primary purpose, and are not responsible for academic or professional-technical programs.

   c. Academic Program(s) shall mean a systematic, usually sequential, grouping of courses forming a considerable part, or all, of the requirements (i.e., curricula) that provides the student with the knowledge and competencies required in a specialized field (i.e., major) for an academic certificate, an associate’s, baccalaureate, master’s, specialist, or doctoral degree as defined in Board Policy Section III.E. A course or series of courses leading to an Academic Certificate of Completion is not considered an academic program for approval purposes.
d. Major(s) shall mean a principal field of academic specialization that usually accounts for 25 to 50 percent of the total degree requirements. The concentration of coursework in a subject-matter major serves to distinguish one program from others leading to the same or a similar degree.

e. Academic Program Components shall include options, minors, emphases, tracks, concentrations, specializations, and cognates as defined by each institution.

f. Professional-Technical Program(s) shall mean a sequence or aggregation of competencies that are derived from industry-endorsed outcome standards and directly related to preparation for employment in occupations requiring professional-technical certificates or an associate of applied science degree as defined in Board Policy Section III.E. These programs must include competency-based applied learning that contributes to an individual's technical skills, academic knowledge, higher-order reasoning, and problem-solving skills. A course or series of courses leading to a technical certificate of completion is not considered a program for approval purposes.

g. Professional-Technical Program Components shall include option(s); which shall mean alternative instructional paths to fields of specialized employment, consisting of more than one specialized course, and may have a separate advisory committee.

h. Financial Impact shall mean the total financial resources, regardless of funding source, needed to support personnel costs, operating expenditures, capital outlay, capital facilities construction or major renovation, and indirect costs that are incurred as a direct result of the new instructional program or modification to an existing program.

2. Roles and Responsibilities

a. Institutions shall establish and follow internal program review processes and procedures pursuant to Board Policy Section III.H. prior to forwarding proposals to the Board.

b. Program proposals shall be reviewed by the Council on Academic Affairs and Programs (CAAP). CAAP shall make recommendations to the Instruction, Research, and Student Affairs (IRSA) committee on instructional programmatic matters and related policy issues.

c. The Idaho Division of Professional-Technical Education and the Professional Standards Commission shall review and make recommendations as appropriate to IRSA and/or the Board on instructional programmatic matters and policy issues related to their roles and responsibilities.
d. The Professional Standards Commission shall review and make recommendations as appropriate to the Board on teacher education, and teaching standards to promote improvement of professional practices and competence of the teaching profession of the state.

3. Academic Program Proposal Submission and Approval Procedures

Subsequent to institutional review and consistent with institutional policies, all requests requiring Board or Executive Director approval will be submitted by the institution to Board staff as a proposal in accordance with a template developed by the Board’s Chief Academic Officer. Each proposal shall be reviewed by CAAP within 30 days from receipt of said proposal. For purposes of this Section, financial impact shall mean the total financial resources, regardless of funding source, needed to support personnel costs, operating expenditures, capital outlay, capital facilities construction or major renovation, and indirect costs that are generated as a direct result of the new instructional program or modification to an existing program. Proposals that require new state appropriations shall also be included in the annual budget request of the institution for Board approval.

a. Branch Campuses - The establishment of a new branch campus or change in location geographically apart from the main campus where the institution offers at least 50% of an education program shall require Board approval regardless of fiscal impact. This subsection of policy excludes community colleges.

b. Learning Outcomes - All postsecondary program approvals will include identifiable learning outcomes and competency measurements for graduates of their programs as defined in Board Policy III.X.

b.c. Academic Programs

h.i. All new, modification of, and/or discontinuation of academic program majors, shall require completion of the program proposal prior to implementation. This includes certificates of 30 credits or more; associate’s, bachelor’s, master’s, specialist, and doctorate/ degrees; instructional units, and administrative units, expansions, consolidations, including the transition of existing programs to an on-line format requires completion of the program proposal prior to implementation. Proposals requiring new state appropriations shall be included in the annual budget request of the institution for Board approval.

1) Prior to implementation, an institution shall obtain Board approval of any new, modification of, and/or discontinuation of academic or professional-technical programs, with a financial impact of $250,000 or more per fiscal year.
2) Prior to implementation, an institution shall obtain Executive Director approval of any new, modification of, and/or discontinuation of academic or professional-technical programs, with a financial impact of less than $250,000 per fiscal year.

3) Prior to implementation, an institution shall obtain Board approval of any new, modification of, and/or discontinuation of all graduate academic programs leading to a master’s, specialist, or doctoral degree regardless of fiscal impact.

4) The Executive Director may refer any proposal to the Board or subcommittee of the Board for review and action.

ii.—5) Modifications to existing programs shall include, but is not be limited to, the following:

   a) Expansion of an existing program outside a designated service region.

   b) Converting one program option into a stand-alone program.

   c) Consolidating an existing program to create one or more new programs.

   d) Adding a degree program not already approved by the Board.

   e) Adding courses that represent a significant departure from existing program offerings or method of delivery from those already evaluated and approved by the Board.

   f) Transitioning of existing programs to an on-line format.

   g) Changes from clock hours to credit hours or vice-versa, or substantial increase or decrease in the length of a program or number of clock or credit hours awarded for successful completion of program.

iii. All doctoral program proposals shall require an external peer review. The external peer-review panel shall consist of at least two (2) members and will be selected by the Board's Chief Academic Officer and the requesting institution's Provost. External reviewers shall not be affiliated with a public Idaho institution. The review shall consist of a paper and on-site peer review, followed by the issuance of a report and recommendations by the panel. Each institution shall provide the panel with a template developed by the Board’s Chief Academic Officer that describes what should be included in the report. The peer reviewer's report and recommendations will be a significant factor of the Board’s evaluation of the program.
iiiv. New educator preparation programs require concurrent submission of the program proposal to the Board office and the Professional Standards Commission (PSC) prior to implementation. The PSC ensures that programs meet the Idaho standards for certification. The Board office ensures that the program proposal is consistent with the program approval process and meets the standards approved by the Board and established in rule.

c-d. Academic Program Components

Modification of existing academic program components New, modification, and/or discontinuation of academic program components, and academic certificates 30 credits or less may or may not require a proposal. For academic program components that require a proposal, subsection 43.bc.i. of this policy applies.

i. New, modification, and/or discontinuation of academic program components; academic certificates 30 credits or less; program name or title changes to degrees, departments, divisions, colleges, or centers; or changes to Classification of Instructional Programs (CIP) codes require a formal letter notifying the Office of the State Board of Education prior to implementation of such changes.

d-ii. If the change is judged to be consistent with academic program components as provided in this section, Board staff will notify the institution in writing that they may proceed with said changes. If the change is determined to be inconsistent with academic program components or the CIP code change represents a significant departure from existing offerings, Board staff will notify the institution in writing and they will be required to complete a program proposal.

a. iii. Changes to program names or degree titles related to Statewide Program Responsibilities, as provided in Board Policy III.Z., require a proposal as specified in subsection 3.c.i of this policy, and shall be reviewed and approved by the Board.

b. iv. Minor Non-substantive curriculum changes do not require notification or approval, minor credit changes in a program, descriptions of individual courses and other routine catalog changes, and do not require additional funding to implement do not require notification or approval.

4. Professional-Technical Programs

All professional-technical program requests requiring Board or Executive Director approval will be submitted by the institution to the Division of Professional-Technical Education as a proposal in accordance with a template developed by Board staff.
Each proposal shall be reviewed within 30 days from receipt of said proposal. Requests that require new state appropriations shall be included in the annual budget request of the State Division of Professional-Technical Education for Board approval.

For purposes of this Section, financial impact shall mean the total financial resources, regardless of funding source, needed to support personnel costs, operating expenditures, capital outlay, capital facilities construction or major renovation, and indirect costs that are generated as a direct result of the new instructional program or modification to an existing program. Proposals that require new state appropriations shall also be included in the annual budget request of the institution for Board approval.

a. Learning Outcomes
   All postsecondary program approvals will include identifiable learning outcomes and competency measurements for graduates of their programs as defined in Board Policy Section III.X.

a.b. Professional-Technical Programs

i. All new, modification of, and/or discontinuation of professional-technical degrees programs, shall require completion of the program proposal prior to implementation. This includes instructional and administrative units, expansions, consolidations, including the transition of existing programs to an on-line format, require completion of the program proposal prior to implementation. Professional-Technical program proposals shall be forwarded to the State Administrator of the Division of Professional-Technical Education for review and recommendation. The State Administrator shall forward the request to CAAP for its review and recommendation. Once CAAP and/or State Administrator recommends approval, the proposal shall be forwarded, along with recommendations, to the Board for action.

   1) Prior to implementation, an institution shall obtain Board approval of any new, modification of, and/or discontinuation of professional-technical programs with a financial impact of $250,000 or more per fiscal year.

   2) Prior to implementation, an institution shall obtain Executive Director approval of any new, modification, and/or discontinuation of professional-technical programs with a financial impact of less than $250,000 per fiscal year.

   3) The Executive Director may refer any proposal to the Board or subcommittee of the Board for review and action.

ii. Modifications to existing programs shall include, but not be limited to, the following:

   4) Modifications to existing programs shall include, but not be limited to, the following:
a) Expansion of an existing program outside a designated service region.

b) Converting one program option into a stand-alone program.

c) Consolidating an existing program to create one or more new programs.

d) Adding a certificate or degree program not already approved by the Board.

e) Adding courses that represent a significant departure from existing program offerings or method of delivery from those already evaluated and approved by the Board.

f) Transitioning of existing programs to an on-line format.

g) Changes from clock hours to credit hours or vice-versa, or substantial increase or decrease in the length of a program or number of clock or credit hours awarded for successful completion of program.

b.-c. Professional-Technical Programs Components

New, modification of, and/or discontinuation Modification of existing professional-technical program components may or may not require a proposal. For professional-technical program components that require a proposal, subsection 4.a.i of this policy applies.

i. New, modification of, and/or discontinuation of professional-technical options for existing programs; changes to a program's status to inactive, changes to CIP codes, or name title changes (e.g., programs, degrees, certificates, departments, divisions, colleges, or centers) require a formal letter notifying the State Administrator prior to implementation of such changes.

ii. If the change is judged to be consistent with program components as provided in this section, the State Administrator will notify the institution in writing that they may proceed with said changes. If the change is determined to be inconsistent with definition of program components, the State Administrator will notify the institution in writing and they will be required to complete the program proposal.

iii. Non-substantive Minor changes to courses within a current program (e.g., course number, title, description, addition, deletion, and/or credit hours) must be submitted to the State Division of Professional-Technical Education.

d. Professional-Technical Program Inactivation

i. The purpose of a professional-technical program inactivation is to respond to rapid changes in industry demand, allowing time for program assessment and inactivation. If industry demand for the program does not
resume within three years following the inactivation, the program shall be discontinued pursuant to IDAPA 55.01.02.

ii. Program inactivation requires a formal letter notifying the State Administrator requesting inactivation. The letter will include:

1) Description and rationale for the modification
2) Implementation date
3) Arrangement for enrolled students to complete the program in a timely manner
4) Impact of accreditation, if any
5) Impact to current employees of the program
6) Impact on current budget

iii. The State Administrator will make a recommendation in writing to the Board office. The Board office will send notification to the institution.

iv. Program re-activation requires a formal letter notifying the State Administrator requesting re-activation.

5. Sunset Clause for Program Approval

Board or Executive Director approval of an academic and professional-technical education programs shall include a three-year sunset clause. Approved by the Board or Executive Director must be implemented within five years. A program not implemented within the three-five years from the approval date of its approval shall be resubmitted requires submission for approval of an updated proposal by the institution to the Board or Executive Director for consideration.

6. Academic and Professional-Technical Program Proposal Denial Procedures

a. The Executive Director shall act on any request within thirty (30) days.

b. If the Executive Director denies the proposal he/she shall provide specific reasons in writing. The institution shall have thirty (30) days in which to address the issue(s) for denial of the proposal. The Executive Director has ten (10) working days after the receipt of the institution's response to re-consider the denial. If the Executive Director denies the request after re-consideration, the institution may send its request and the supporting documents related to the denial to the Board for final reconsideration.

7. Program Discontinuance

The primary considerations for instructional program discontinuance will be are whether the instructional program is an effective use of the institution's resources, no longer serves student or industry needs, or when programs no longer have
sufficient students to warrant its allocation. This policy does not apply to instructional programs that are discontinued as a result of financial exigency as defined and discussed in Board Policy Section II.N. of these policies.

For professional-technical program discontinuance, institutions shall adhere to criteria and procedures as provided in IDAPA 55.01.02.

a. Students - Institutions shall develop policies, in accordance with the Northwest Commission on Colleges and Universities Accreditation Handbook, which requires institutions to make appropriate arrangements for enrolled students to complete affected programs in a timely manner with minimum interruptions.

b. Employees - Any faculty or staff members whose employment the institution seeks to terminate due to the discontinuance of a program based upon Board Policy Section III.G. shall be entitled to the following procedures:

   i. Non-classified contract employees, including non-tenured faculty, may be dismissed or have their contracts terminated or non-renewed in accordance with Board and institutional policies.

   ii. State of Idaho classified employees shall be subject to layoff as provided in the rules of the Division of Human Resources. Classified employees of the University of Idaho shall be subject to layoff as provided in the policies of the University of Idaho.

   iii. Tenured faculty will be notified in writing that the institution intends to dismiss them as a result of program discontinuance. This notice shall be given at least twelve (12) months prior to the effective date of termination.

   iv. An employee who receives a notice of termination as a result of program discontinuance is entitled to use the internal grievance procedures of the institution. The sole basis to contest a dismissal following a program closure is in compliance with these policies.

8. Reporting

a. The Office of the State Board of Education shall report quarterly to the State Board of Education all program approvals and discontinuations approved by the Executive Director.

b. All graduate level programs approved by the State Board of Education require a report on the program’s progress in accordance with a timeframe and template developed by the Board’s Chief Academic Officer.

c. Institutions shall notify the Board office in writing when an approved program has been officially implemented.
SUBJECT
Board Policy III.P. Students – Student Health Insurance – First Reading

REFERENCE
April 2012  State Board of Education (Board) consideration of several options for SHIP policy waiver. Motion failed.
September 2012  Board considered first reading of amendments to SHIP policy. Motion failed.
April 2013  Board consideration of SHIP policy one-year waiver for Lewis-Clark State College only with respect to mandatory student health insurance coverage. Returned to committee for further consideration.
December 2013  Board returned SHIP policy to committee for further consideration.
January 2015  Board approved first reading
February 2015  Board approved second reading

APPLICABLE STATUTES, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section III.P.16.

BACKGROUND / DISCUSSION
In February 2015 the Board approved an amendment to Board policy regarding student health insurance. Since that time, the institutions have been working on implementation for fall 2015. A couple unintended consequences of the policy change have surfaced which need to be addressed.

The policy currently provides that a student may have a non-Affordable Care Act (ACA) compliant policy their first semester of enrollment provided they enroll in an ACA compliant plan “by the first health insurance exchange open-enrollment or the end of their first semester, whichever comes first.” The open-enrollment period for Idaho’s health insurance exchange is mid-November to mid-February. The institutions are concerned that it may not be possible for students who enroll for the first time in the spring semester to enroll in the exchange in time. Unlike first-time fall students, there is currently no option for students to enroll in the spring without ACA compliant insurance.

Additionally, if a student is found in noncompliance (i.e. uninsured or non-ACA compliant insured); the policy prohibits full-time enrollment in future terms (fall, spring or summer). Institutions do not have full-time rates for summer, but a student could potentially be prohibited from enrolling part-time during the summer due to noncompliance during a prior semester even though part time students are not required to obtain health insurance.

IMPACT
Proposed policy amendments would clarify the required insured status of students.

ATTACHMENTS
Attachment 1 – Section III.P. – First Reading Page 3

STAFF COMMENTS AND RECOMMENDATIONS
The proposed amendment would allow a full-time student to enroll for the first time in either the fall or spring semester with non-ACA compliant insurance until they have an opportunity to enroll in the exchange during the next open enrollment period. In addition, reference to the summer term is removed from the policy since there is no full-time rate, and thus insurance is not required under the policy.

Staff recommends approval.

BOARD ACTION
I move to approve the first reading of proposed amendments to Board policy Section III.P. Students, as presented.

Moved by___________ Seconded by_______________ Carried Yes____ No____
The following policies and procedures are applicable to or for any person designated as a student at an institution under governance of the Board. A "student" means any person duly admitted and regularly enrolled at an institution under governance of the Board as an undergraduate, graduate, or professional student, on a full-time or part-time basis, or who is admitted as a non-matriculated student on or off an institutional campus.

1. Nondiscrimination

It is the policy of the Board that institutions under its governance must provide equal educational opportunities, services, and benefits to students without regard to race, color, religion, sex, national origin, age, handicap, or veterans status, including disabled veterans and veterans of the Vietnam era in accordance with:

a. Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000d et seq., which prohibits discrimination on the basis of race, color, or national origin in programs and activities receiving federal financial assistance.

b. Section 504 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. 794, which prohibits discrimination on the basis of handicap in programs and activities receiving federal financial assistance.

c. Title IX of the Education Amendments of 1972, as amended, 20 U.S.C. 1681 et seq., which prohibits discrimination on the basis of sex in education programs and activities receiving federal financial assistance.

d. The Age Discrimination Act of 1975, as amended, 42 U.S.C. 6101 et seq., which prohibits discrimination on the basis of age in programs or activities receiving federal financial assistance.

e. Chapter 59, Title 67, Idaho Code, and other applicable state and federal laws.

2. Sexual Harassment

Each institution must establish and maintain a positive learning environment for students that is fair, humane, and responsible. Sexual discrimination, including sexual harassment, is inimical to any institution.

Sexual harassment violates state and federal laws and the Governing Policies and Procedures of the Board. "Sexual harassment" means an un-welcomed sexual advance, request for sexual favors, or behavior, oral statements, or physical conduct of a sexual nature when:
a. submission to such conduct is made either explicitly or implicitly a term or condition of a student's grade, receipt of a grade, or status as a student;

b. an individual student's submission to or rejection of such conduct is used as a basis for a decision affecting the student; or

c. such conduct has the purpose or effect of substantially interfering with a student's learning or learning performance, or creating an intimidating, hostile, or offensive learning environment.

Each institution must develop and make public procedures providing for the prompt, confidential, and equitable resolution of student complaints alleging an act of sex-based discrimination, including sexual harassment.

3. Academic Freedom and Responsibility

Institutions of postsecondary education are conducted for the common good and not to further the interests of either the individual student or the institution as a whole. Academic freedom is fundamental for the protection of the rights of students in learning and carries with it responsibilities as well as rights.

Membership in an academic community imposes on students an obligation to respect the dignity of others, to acknowledge the right of others to express differing opinions, and to foster and defend intellectual honesty, freedom of inquiry and instruction, and free expression on and off the campus of an institution. Expression of dissent and attempts to produce change may not be carried out in ways which injure individuals, damage institutional facilities, disrupt classes, or interfere with institutional activities. Speakers on the campuses must not only be protected from violence but must also be given an opportunity to be heard. Those who seek to call attention to grievances must do so in ways that do not significantly impede the functioning of the institution.

Students are entitled to an atmosphere conducive to learning and to fair and even treatment in all aspects of student-teacher relationships. Teaching faculty may not refuse to enroll or teach a student because of the student's beliefs or the possible uses to which the student may put the knowledge gained from the course. Students must not be forced by the authority inherent in the instructional role to make personal or political choices.

4. Catalog and Representational Statements

Each institution will publish its official catalogue and admissions, academic, and other policies and procedures which affect students. (See also "Roles and Missions," Section III, Subsection I-2.)

Each institutional catalogue must include the following statement:

Catalogues, bulletins, and course or fee schedules shall not be considered as binding contracts between [institution] and students. The [institution] reserves the right at any time, without advance notice, to:
(a) withdraw or cancel classes, courses, and programs; (b) change fee schedules; (c) change the academic calendar; (d) change admission and registration requirements; (e) change the regulations and requirements governing instruction in and graduation from the institution and its various divisions; and (f) change any other regulations affecting students. Changes shall go into force whenever the proper authorities so determine and shall apply not only to prospective students but also to those who are matriculated at the time in [institution]. When economic and other conditions permit, the [institution] tries to provide advance notice of such changes. In particular, when an instructional program is to be withdrawn, the [institution] will make every reasonable effort to ensure that students who are within two (2) years of completing graduation requirements, and who are making normal progress toward completion of those requirements, will have the opportunity to complete the program which is to be withdrawn.

No employee, agent, or representative of an institution may make representations to, or enter into any agreement with, or act toward any student or person in a manner which is not in conformity with Board Governing Policies and Procedures or the approved policies and procedures of the institution.

5. Student Records

The collection, retention, use, and dissemination of student records is subject to the requirements of the Family Educational Rights and Privacy Act of 1974, as amended, and implementing regulations. Each institution will establish policies and procedures for maintenance of student records consistent with the act and implementing regulations and will establish and make public an appeals procedure which allows a student to contest or protest the content of any item contained in his or her institutional records.

6. Residency Status - Procedure for Determination

Rules and procedures for the determination of residency status for purposes of paying nonresident tuition are found in the State Board of Education Rule Manual IDAPA 08.01.04.

7. Full-Time Students

a. Undergraduate Student

   For fee and tuition purposes, a “full-time” undergraduate student means any undergraduate student carrying twelve (12) or more credits (or equivalent in audit and zero-credit registrations).

   i. Student Body Officers and Appointees

   For fee and tuition purposes, the president, vice president, and senators of the associated student body government are considered full-time students when
carrying at least the following credit loads: (a) president, three (3) credits and (b) vice president and senators, six (6) credits.

ii. Editors

Editors of student published newspapers are recognized as full-time students when carrying a three credit load, and associate editors are recognized as full-time students when carrying a six credit load.

b. Graduate Student

For fee and tuition purposes, a “full-time” graduate student means any graduate student carrying nine (9) or more credits, or any graduate student on a full appointment as an instructional or graduate assistant, regardless of the number of credits for which such instructional or graduate assistant is registered.

8. Student Governance

The students at each institution may establish a student government constitution for their own duly constituted organization, which must be consistent with Board Governing Policies and Procedures. Each student constitution must be reviewed and approved by the Chief Executive Officer. Any amendments to the student constitution must also be reviewed and approved by the Chief Executive Officer.

9. Student Financial Aid

Each institution will establish policies and procedures necessary for the administration of student financial aid.

a. Transfer of Delinquent National Direct Student Loans. (See Section V, Subsection P)

b. Student Financial Aid Fraud

Each institution under governance of the Board should, as a matter of policy, initiate charges against individuals who fraudulently obtain or misrepresent themselves with respect to student financial aid.

10. Fees and Tuition

a. Establishment
   Policies and procedures for establishment of fees, tuition, and other charges are found in Section V, Subsection R, of the Governing Policies and Procedures.

b. Refund of Fees
   Each institution will develop and publish a schedule for refund of fees in the event a student withdraws in accordance with regulations governing withdrawal.

11. Student Employees
a. Restrictions

No student employee may be assigned to duties which are for the benefit of personal and private gain, require partisan or nonpartisan political activities, or involve the construction, operation, or maintenance of any part of any facility which is used for sectarian instruction or religious worship. No supervisor may solicit or permit to be solicited from any student any fees, dues, compensation, commission, or gift or gratuity of any kind as a condition of or prerequisite for the student's employment.

b. Policies and Procedures

Each institution will develop its own policies and procedures regarding student employment, including use of student employment as a part of financial assistance available to the student. Such policies and procedures must ensure that equal employment opportunity is offered without discrimination and that wage administration is conducted in a uniform manner. Such policies also must include a statement of benefits available to student employees, if appropriate.

c. Graduate Assistants

Each institution is delegated the authority to appoint within the limitations of available resources graduate assistants in a number consistent with the mission of the institution. Graduate assistantships are established to supplement a graduate student's course of study, with employment appropriate to the student's academic pursuits.

Each institution will establish its own procedures for appointment of graduate assistants which will include (a) qualifications, (b) clear and detailed responsibilities in writing, and (c) maximum number of hours expected and wages for meeting those requirements.

Matriculation, activity, and facility fees for graduate assistants will be paid either by the student or by the department or academic unit on behalf of the student. Graduate students will be covered by appropriate insurance in accordance with institutional procedures for work-related illness or injury.

d. Hourly or Contractual Employment

Each institution may employ students on an hourly or contractual basis in accordance with the needs of the various departments or units, available funds, and rules of the Division of Human Resources (or the University of Idaho classified employee system) or federal guidelines when work-study funds are used.

12. Student Conduct, Rights, and Responsibilities
Each institution will establish and publish a statement of student rights and a code of student conduct. The code of conduct must include procedures by which a student charged with violating the code receives reasonable notice of the charge and is given an opportunity to be heard and present testimony in his or her defense. Such statements of rights and codes of conduct, and any subsequent amendments, are subject to review and approval of the chief executive officer.

Sections 33-3715 and 33-3716, Idaho Code, establish criminal penalties for conduct declared to be unlawful.

13. Student Services

Each institution will develop and publish a listing of services available to students, eligibility for such services, and costs or conditions, if any, of obtaining such services.

14. Student Organizations

Each student government association is responsible, subject to the approval of the institution's chief executive officer, for establishing or terminating student organizations supported through allocation of revenues available to the association. Expenditures by or on behalf of such student organizations are subject to rules, policies, and procedures of the institution and the Board.

15. Student Publications and Broadcasts

Student publications and broadcasts are independent of the State Board of Education and the institutional administration. The institutional administration and the State Board of Education assume no responsibility for the content of any student publication or broadcast. The publishers or managers of the student publications or broadcasts are solely liable for the content.

16. Student Health Insurance

The Board’s student health insurance policy is a minimum requirement. Each institution, at its discretion, may adopt policies and procedures more stringent than those provided herein.

a. Health Insurance Coverage Offered through the Institution

Each institution may provide the opportunity for students to purchase health insurance. Health insurance offered through the institution shall be Affordable Care Act (ACA) compliant.

b. Mandatory Student Health Insurance

Every full-fee paying full-time student (for purposes of federal financial aid) attending classes in Idaho shall be covered by an ACA compliant health insurance
policy. Students without proof of health insurance coverage shall be ineligible to enroll full-time at an institution. Each institution shall monitor and enforce student compliance with this policy.

i. “ACA compliant” means a health insurance policy which meets the minimum coverage requirements classified by the ACA as “essential health benefits.” Essential health benefits include items and services within at least the following 10 general categories: ambulatory patient services; emergency services; hospitalization; maternity and newborn care; mental health and substance use disorder services, including behavioral health treatment; prescription drugs; rehabilitative and habilitative services and devices; laboratory services; preventive and wellness services and chronic disease management; and pediatric services (including oral and vision care).

ii. Proof of Insurance. All full-time students shall provide proof of ACA compliant health insurance coverage. Proof of health insurance coverage shall include at least the following information:

1. Name of health insurance carrier
2. Policy number
3. Contact information for employer, insurance company or agent who can verify coverage
4. Attestation by the student, parent or guardian that health insurance policy is ACA compliant

Along with proof of insurance, students shall certify they will maintain active and continuous ACA compliant insurance coverage for the duration of their time enrolled as a full-time student.

iii. Temporary Insurance Coverage. A full-time student may have a non-ACA compliant policy before registration for their first semester of attendance, but such a student shall sign an affidavit that they will enroll in ACA compliant insurance by the end of the first available health insurance exchange open-enrollment period or the end of their first semester, whichever comes first. At no other time may a full-time student be enrolled without ACA compliant insurance.

iv. Non-compliance. A student found to be out of compliance with this policy while enrolled at an institution, shall be ineligible for full-time enrollment in future terms (fall, or spring or summer) until insurance is obtained and proof thereof is certified; provided however, that if health insurance is offered through an institution and a student is found in non-compliance, the institution may default enroll the student into the institution’s student health insurance plan and charge the student’s account.

17. Students Called to Active Military Duty
The Board strongly supports the men and women serving in the National Guard and in reserve components of the U.S. Armed Forces. The Board encourages its institutions to work with students who are called away to active military duty during the course of an academic term and provide solutions to best meet the student’s current and future academic needs. The activated student, with the instructor’s consent, may elect to have an instructor continue to work with them on an individual basis. Additionally, institutions are required to provide at least the following:

a. The activated student may elect to completely withdraw. The standard withdrawal deadlines and limitations will not be applied. At the discretion of the institution, the student will receive a “W” on his or her transcript, or no indication of enrollment in the course(s).

b. One hundred percent (100%) of the paid tuition and/or fees for the current term will be refunded, as well as a pro-rated refund for paid student housing fees, meal-plans, or any other additional fees. Provided, however, that if a student received financial aid, the institution will process that portion of the refund in accordance with each financial aid program.

18. Student Complaints/Grievances.

The State Board of Education and Board of Regents of the University of Idaho, as the governing body of the state’s postsecondary educational institutions, has established the following procedure for review of institution decisions regarding student complaints/grievances:

a. The Board designates its Executive Director as the Board’s representative for reviewing student complaints/grievances, and authorizes the Executive Director, after such review, to issue the decision of the Board based on such review. The Executive Director may, in his/her discretion, refer any matter to the Board for final action/decision.

b. A current or former student at a postsecondary educational institution under the governance of the Board may request that the Executive Director review any final institutional decision relating to a complaint or grievance instituted by such student related to such individual’s attendance at the institution. The student must have exhausted the complaint/grievance resolution procedures that have been established at the institution level. The Executive Director will not review complaints/grievances that have not been reported to the institution, or processed in accordance with the institution’s complaint/grievance resolution procedures.

c. A request for review must be submitted in writing to the Board office to the attention of the Chief Academic Officer, and must contain a clear and concise statement of the reason(s) for Board review. Such request must be received in the Board office no later than thirty (30) calendar days after the student receives the institution’s final decision on such matter. The student has the burden of establishing that the final decision made by the institution on the grievance/complaint was made in
error. A request for review must include a copy of the original grievance and all proposed resolutions and recommended decisions issued by the institution, as well as all other documentation necessary to demonstrate that the student has strictly followed the complaint/grievance resolution procedures of the institution. The institution may be asked to provide information to the Board office related to the student complaint/grievance.

d. The Chief Academic Officer will review the materials submitted by all parties and make a determination of recommended action, which will be forwarded to the Executive Director for a full determination. A review of a student complaint/grievance will occur as expeditiously as possible.

e. The Board office may request that the student and/or institution provide additional information in connection with such review. In such event, the student and/or institution must provide such additional information promptly.

f. The Board’s Executive Director will issue a written decision as to whether the institution’s decision with regard to the student’s complaint/grievance was proper or was made in error. The Executive Director may uphold the institution’s decision, overturn the institution’s decision, or the Executive Director may remand the matter back to the institution with instructions for additional review. Unless referred by the Executive Director to the Board for final action/decision, the decision of the Executive Director is final.

The Board staff members do not act as negotiators, mediators, or advocates concerning student complaints/grievances.
SUBJECT
Repeal Board Policy III.U, Telecommunications– First Reading

REFERENCE
May 1987 The Board approved Board Policy III.U., Telecommunications.

APPLICABLE STATUTES, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section III.U, Telecommunications

BACKGROUND/DISCUSSION
Board Policy III.U, Telecommunications was created to facilitate the coordination of telecommunications systems statewide. The prolific rise of the internet and its role in delivering education has rendered this policy about a “telecommunications system” outdated. Additionally, this policy was originally adopted to guide implementation of the Board’s Plan for Development of a Statewide Telecommunications System, a plan that was adopted in May 1987. That Plan has since been repealed.

At their July 9, 2015 meeting, the Council on Academic Affairs and Programs (CAAP) reviewed existing Board Policy III.U to determine if that policy should be maintained or consolidated with other existing policies. CAAP determined that the policy was no longer serving a purpose and should be repealed.

IMPACT
The proposed amendment to repeal Board Policy III.U will create efficiencies in Postsecondary Affairs policies.

ATTACHMENTS
Attachment 1 – Board Policy III.U – First Reading Page 3

STAFF COMMENTS AND RECOMMENDATIONS
Given the dynamic and rapidly changing nature of distance education, telecommunications systems, and the internet, this policy is highly outdated. Board Staff and CAAP recommend repealing Board Policy III.U in its entirety.

BOARD ACTION
I move to approve the First Reading of amendments to Board Policy III.U, Online Programing, repealing the section in its entirety.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
Idaho State Board of Education  
GOVERNING POLICIES AND PROCEDURES  
SECTION: III. POSTSECONDARY AFFAIRS  
SUBSECTION: U. Telecommunications  
April 2002

1. Coverage

The following policies are intended to promote effective operation of the telecommunications system outlined in the Plan for Development of a Statewide Telecommunications System (adopted by the State Board of Education, May 13, 1987). The system does not exist as a single entity, but is composed of various components owned and operated by units of the State Board of Education and by private and public entities outside the control of the State Board of Education. The Simplot/Micron Technology Center shall serve as the network center for all telecommunications activity conducted under the authority of the State Board of Education. These policies apply to units under the governance of the State Board of Education and all entities, public or private, utilizing the system.

The Board encourages development of a broad range of cooperative ventures that use telecommunication technologies to improve educational delivery to the citizens of Idaho. Use of electronic technology to deliver education/training to citizens of the state who live in areas distant from college and university campuses is particularly encouraged. These technologies may include, but are not limited to, one (1) or more of the following: open-channel television, closed-circuit television, cable television, low-power television, communication and/or direct broadcast satellite, satellite master antenna system, microwave, videotape, video disc, and telephone line.

2. Access

a. Each college, university and area vocational technical school should support a baseline of telecommunications origination capabilities consistent with the Educational User Requirements outlined in the Plan for Development of a Statewide Telecommunications System. These capabilities shall complement but not duplicate the configuration of systems and capabilities of the Simplot/Micron Technology Center outlined in 7.c.

b. The use of the telecommunications system shall be shared among higher education, public education, and professional technical education agencies. The State Department of Education instructional television service in existence at the time these policies are adopted will, where feasible, be continued with existing scheduling priority.

c. Each educational agency utilizing the telecommunications system shall have access to all components of the system.

d. Other non-educational state agencies may share the use of the telecommunications system on a cost and time-available basis.
Out-of-state educational institutions may be allowed access to the telecommunications system for accredited instructional purposes on a cost and time-available basis when approved by and in cooperation with the primary emphasis institution under whose role and mission the proposed use would fall.

Non-public organizations may be allowed access to the telecommunications system on a cost-plus and time available basis.

Interstate cooperation in educational telecommunications which results in improved program quality, program delivery, or cost efficiency is encouraged. Participation in the Western States Educational Telecommunications Cooperative is also encouraged.

3. Priorities

a. Interactive telecommunications shall be given priority above non-interactive uses.

b. Educational uses shall be given priority above administrative uses.

c. Program origination shall be determined by role and mission with primary emphasis institutions responsible for providing or authorizing courses by telecommunications to areas of the state underserved by the emphasis program.

4. Operations

a. The sponsoring agency shall ensure that faculty and other users of the telecommunications system receive adequate training.

b. Cooperative development of user training utilizing the resources of each agency should be encouraged.

c. Operators of each component of the delivery system under Board control shall maintain the component for all users.

d. Reception sites for instruction delivered via telecommunications (other than reception in homes or on main campuses) must be reported to the Board.

e. An institution will notify the Executive Director prior to conducting an experiment with a new instructional delivery system. An institution must receive Board approval before inaugurating any new instructional delivery system and must demonstrate to the Board’s satisfaction that the system is compatible with existing systems and does not duplicate the functions and capabilities available at the Simplot/Micron Technology Center.

5. Program Delivery

a. Courses and programs delivered via telecommunications, except those sponsored by the State Department of Education, must conform to program approval and review policies (Sections III.G. and H.); to institutional role and
b. All courses and programs delivered via telecommunications, except those sponsored by the State Department of Education, must meet the same quality standards as required by the Board and the institutions for on-campus courses and programs delivered through traditional means.

c. If an institution other than the State Department of Education proposes to deliver instruction via telecommunications in a service region assigned to another institution, the proposing institution must notify the primary service institution according to procedures outlined in Board approved continuing education/off-campus instruction policies (Section III.L.3.c).

d. Institutional conflicts regarding service region, role and mission, and associated matters related to instruction delivered via telecommunications shall be submitted in writing first to the respective institutional chief academic officers, and secondly, if resolution is not achieved, to the Board’s Chief Academic Officer for review and resolution.

6. Credit/Registration

a. All credit courses, except those co-sponsored by the State Department of Education, delivered via telecommunications must be applicable to a campus-based degree or certificate program approved by the Board.

b. Each institution shall determine the credit and requirements for courses delivered by telecommunications to statewide audiences. Such courses shall carry information regarding the institutions which have approved the course for credit, the amount of credit, the requirements, and any restrictions on transfer that may exist.

c. Each institution shall determine whether a course is acceptable as transfer credit in compliance with Board policy on articulation.

d. Non-credit, fee-based short courses and workshops shall generate fees for, and be the responsibility of, the institution originating the workshop. Non-credit activities shall comply with primary emphasis designations and role and mission statements. An institution that receives a request to offer non-credit activities coming within the role and mission of another institution must convey the request to that institution. If the institution under whose role and mission the request comes chooses not to respond, the institution that receives the request may do so.

e. Cooperative development and offering of credit courses by telecommunications between institutions is encouraged. Institutions may mutually agree upon a
division of fees and FTE's for such cooperatively developed and delivered courses.
7. Governance

a. General governance of the use of the telecommunications system by agencies of the State Board of Education shall include the following duties:

(1) Upon request, provide advice and consultation to the State Board of Education and the Office of the State Board concerning matters of telecommunications policy and system development.

(2) Review and approve proposed schedules of course offerings and non-credit workshops to be offered by telecommunications outside of an originating institution's primary service area.

(3) Coordinate and approve joint acquisitions of technology-based instructional materials, facilities, equipment, and services.

(4) Provide for ongoing policy development and recommendations affecting telecommunications to the State Board of Education.

b. General governance of the telecommunications system shall be coordinated by a Telecommunications Council, composed of the chief academic officer of the Board and the four-year and two-year public institutions of higher education, the State Department of Education, the SBOE agency heads, the director of the Simplot/Micron Center, and the director of the Eastern Idaho Technical College. The chair of the Telecommunications Council shall be elected by the Council. The Telecommunications Council shall report to the Academic Affairs and Program Committee.

c. Day-to-day management, operations, and scheduling functions of the telecommunications system shall be the responsibility of the general manager of the Idaho Educational Public Broadcasting System, working in conjunction with the network center and other components of the system. The general manager of IEPBS, working in conjunction with the network center, will also provide those non-duplicated system resources such as satellite uplinks, statewide telephone bridge, data network head-end, and similar unique facilities and equipment of the Simplot/Micron Technology Center.

d. Appeals of decisions made by the general manager of the Idaho Educational Public Broadcasting System or the Telecommunications Council shall be made through the Executive Director to the Board.
SUBJECT
Proposed Amendments to Board Policy III.Z, Planning and Delivery of Postsecondary Programs and Courses – Second Reading

REFERENCE
April 2011 Board approved the first reading of the proposed amendments to Board Policy III.Z, Planning and Delivery of Postsecondary Programs to include the inclusion of statewide program responsibilities into policy.

June 2011 Board approved the second reading of the proposed amendments to Board Policy III.Z. Planning and Delivery of Academic Programs and Courses as amended.

June 19, 2013 The Board was presented with proposed corrections to institutions’ statewide program responsibilities.

August 15, 2013 The Board approved the first reading of the proposed amendments to Board Policy III.Z, Planning and Delivery of Postsecondary Programs and Courses to include updating institutions statewide responsibilities.

December 2013 The Board approved the second reading of Board Policy III.Z.

June 18, 2015 The Board approved the first reading of Board Policy III.Z.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies and Procedures, Section III.Z, Planning and Delivery of Postsecondary Programs and Courses. Section 33-113, Idaho Code, Limits of Instruction.

BACKGROUND/DISCUSSION
The Board approved the first reading of proposed amendments to Board Policy III.Z at their June meeting. The proposed amendments removed the needs assessment, workforce projections, and anticipated costs for program delivery from the five-year planning process. Proposed changes also included changing the review cycle from a two-year update to an annual update.

Institutions will still develop their plans for programs projected five years out to include program name and degree level; anticipated delivery date; program description; anticipated source of funds; and summary terms of memoranda of
understanding for proposed new programs in another service region consistent with Board Policy III.Z.

IMPACT
Proposed amendments to Board Policy III.Z will create efficiencies at the institution and Board staff level. These changes will also allow staff to implement changes to the current update of the five-year plan, which is scheduled for presentation to the Board in August.

ATTACHMENTS
Attachment 1 – Proposed Amendments to Board Policy III.Z Page 3 Planning and Delivery of Postsecondary Programs and Courses

STAFF COMMENTS AND RECOMMENDATIONS
There were no additional changes between the first and second reading of this policy. The Instruction, Research, and Student Affairs committee recommended approval at their July 31, 2015 meeting. Board staff and the Council on Academic Affairs and Programs recommend approval.

BOARD ACTION
I move to approve the second reading of proposed amendments to Board Policy III.Z, Planning and Delivery of Postsecondary Programs and Courses as submitted in Attachment 1.

Moved by __________ Seconded by __________ Carried Yes _____ No _____
The purpose of this policy is to ensure that Idaho’s public postsecondary institutions meet the educational and workforce needs of the state through academic planning, alignment of programs and courses (hereinafter referred to collectively as “programs”), and collaboration and coordination. This subsection shall apply to the University of Idaho, Boise State University, Idaho State University, Lewis-Clark State College, Eastern Idaho Technical College, College of Southern Idaho, College of Western Idaho, and North Idaho College (hereinafter “institutions”). It is the intent of the State Board of Education (the Board) to optimize the delivery of academic programs while allowing institutions to grow and develop consistent with their vision and mission with an appropriate alignment of strengths and sharing of resources.

This policy requires the preparation and submission of academic plans to advise and inform the Board in its planning and coordination of educational programs in a manner that enhances access to quality programs, while concurrently increasing efficiency, avoiding unnecessary duplication and maximizing the cost-effective use of educational resources. As part of this process, the Board hereby identifies and reinforces the responsibilities of the institutions governed by the Board to deliver Statewide Programs. The provisions set forth herein serve as fundamental principles underlying the planning and delivery of programs pursuant to each institution’s assigned Statewide and Service Region Program Responsibilities. These provisions also require collaborative and cooperative agreements, or memorandums of understanding, between and among the institutions.

This policy is applicable to campus-based face-to-face programs, including those that use technology to facilitate and/or supplement a physical classroom experience. It also applies to hybrid and blended programs where a substantial portion of the content is delivered online and typically has reduced seat time. This policy is not applicable to programs for which 90% or more of all activity is required or completed online, or dual credit courses for secondary education.

1. Definitions

   a. Designated Institution shall mean an institution whose main campus is located in a service region as identified in subsection 2.b.ii.1) and 2) below.

      i. For purposes of this Section III.Z-policy, with respect to academic programs, Designated Institutions and Partnering Institutions shall include only the University of Idaho, Idaho State University, Boise State University, and Lewis-Clark State College and shall have Service Region Program Responsibility for those regions identified in subsection 2.b.ii.1).

      ii. For purposes of this Section III.Z-policy, with respect to professional-technical
programs, Designated Institutions and Partnering Institutions shall include only the College of Southern Idaho, College of Western Idaho, North Idaho College, Eastern Idaho Technical College, Lewis-Clark State College, and Idaho State University and shall have Service Region Program Responsibility for those regions identified in subsection 2.b.ii.2).

b. A memorandum of understanding (MOU) is an agreement between two or more institutions offering programs within the same service region that details how such programs will be delivered in a collaborative manner. An MOU is intended to provide specific, practical details that build upon what has been provided in each Institution’s Plan.

b-c. Partnering Institution shall mean either (i) an institution whose main campus is located outside of a Designated Institution’s identified service region but which, pursuant to a Memorandum of Understanding, offers Regional Programs in the Designated Institution’s primary service region, or (ii) an institution not assigned a Statewide Program Responsibility which, pursuant to a Memorandum of Understanding with the institution assigned the Statewide Program Responsibility, offers and delivers a statewide educational program.

e-d. Service Region Program shall mean an educational program identified by the Board to be delivered by a Designated Institution within its respective service region that meets regional educational and workforce needs.

d-e. Service Region Program Responsibility shall mean an institution’s responsibility to offer and deliver a Service Region Program to meet regional educational and workforce needs in its primary service region as defined in subsection 2.b.ii. 1) and 2) below. Service Region Program Responsibilities are assigned to the Designated Institution in each service region, but may be offered and delivered by Partnering Institutions in accordance with the procedures outlined in this policy.

e-f. Statewide Program shall mean an educational program identified by the Board to be delivered by a particular institution which meets statewide educational and workforce needs. Lewis-Clark State College, Eastern Idaho Technical College, North Idaho College, College of Southern Idaho, and College of Western Idaho do not have Statewide Program Responsibilities.

f-g. Statewide Program Responsibility shall mean an institution’s responsibility to offer and deliver a Statewide Program in all regions of the state. Statewide Program Responsibilities are assigned to a specific institution by the Board, taking into account the degree to which such program is uniquely provided by the institution.

2. Planning and Delivery Process and Requirements

a. Planning
i. Five-Year Plan

The Board staff shall, using the Institution Plans submitted, create and maintain a rolling five (5) year academic plan (Five-Year Plan) which includes all current and proposed institution programs. The Five-Year Plan shall be approved by the Board every two years annually at its August Board meeting.

ii. Institution Plan

Each institution shall, in accordance with a template to be developed by the Board’s Chief Academic Officer, create and submit to Board staff a rolling five (5) year academic plan, to be updated every two years annually, that describes all current and proposed programs and services to be offered in alignment with each institution’s Statewide and Service Region Program Responsibilities (the Institution Plan). Institution Plans shall be developed pursuant to a process of collaboration and communication with the other institutions in the state.

1) Statewide Programs Institution Plan

Institutions assigned a Statewide Program Responsibility shall plan for and determine the best means to deliver such program. Each institution assigned a Statewide Program Responsibility shall include in its Institution Plan all currently offered and proposed programs necessary to respond to the workforce and educational needs of the state relating to such Statewide Program Responsibilities. At a minimum, for new Statewide Programs anticipated to be offered within three (3) years of approval of the Institution Plan, each Institution Plan shall include the following information for proposed Statewide programs:

- A needs assessment to include a minimum of the timeline for delivery of the program, a summary of the anticipated costs of delivery and resources, including facility needs and costs pursuant to guidelines developed by the Board’s Chief Academic Officer.

- A description of the Statewide Programs to be delivered throughout the state and the anticipated resources to be employed.

- A description of the Statewide Programs offered, or to be offered, by a Designated or Partnering Institution.

- A summary of the terms of Memoranda of Understanding (MOU’s), if any, to be entered into with Partnering Institutions pursuant to Subsection 2.b.iii. below.

2) Service Region Programs Institution Plan

It is the responsibility of the Designated Institution to plan for and determine the best means to deliver Service Region Programs that respond to the
educational and workforce needs of its service region. If, in the course of developing or updating its Institution Plan, the Designated Institution identifies a need for the delivery of a program within its service region, and the Designated Institution is unable to provide the program, then the Designated Institution shall coordinate with a Partnering Institution (including institutions with Statewide Program Responsibilities if applicable) located outside of the service region to deliver the program in the service region. The Institution Plan developed by a Designated Institution shall include at a minimum the following:

- The ongoing and future workforce and educational needs of the region.
- A description of the proposed academic programs to be delivered in the service region, or outside of the service region, by the Designated Institution and the anticipated resources to be employed.
- A description of proposed programs offered, or to be offered, in the service region by Partnering Institutions, including any anticipated transition of programs to the Designated Institution.
- A description of proposed Statewide Programs to be offered in the service region by an institution with Statewide Program Responsibilities, or by the Designated Institution in coordination with the institution holding the Statewide Program Responsibility.
- A summary of the terms of proposed MOU’s, if any, to be entered into between the Designated Institution and any Partnering Institutions in accordance with Subsection 2.b.iii. below. If it is anticipated that the program shall be offered within three (3) years of approval of the Institution Plan, the description shall include a summary of the anticipated costs of delivery and the resources and support required for delivery of the programs, including facility needs and costs.

3) Institution Plan Updates

Every two years, on a schedule to be developed by the Board’s Chief Academic Officer, Institution Plans shall be updated and submitted to Board staff annually as follows:

- Preliminary Institution Plans shall be developed according to a template provided by the Board’s Chief Academic Officer and submitted to the Council for Academic Affairs and Programs (CAAP) for review, discussion and coordination at least sixty (60) days prior to submitting to Board staff annually in April.

- Following review by CAAP, Institution Plans shall be submitted to Board
staff. Upon submission of the Institution Plans to Board staff, the Board’s Chief Academic Officer shall review the Institution Plans for the purpose of optimizing collaboration and coordination among institutions, ensuring efficient use of resources, and avoiding unnecessary duplication of programs.

- In the event the Board’s Chief Academic Officer recommends material changes, he/she shall work with the institutions and then submit those recommendations to CAAP for discussion prior to submission to the Board for inclusion in the Five-Year Plan.

- The Board’s Chief Academic Officer shall then provide his/her recommendations to the Board for enhancements, if any, to the Institution Plans at a subsequent Board meeting. Every two years, the Board shall approve the Institution Plans annually through the Five-Year Plan submitted by Board staff. Board approval of Institution Plans acts as a roadmap for institutional planning and does not constitute Board approval of a program. Institutions are still required to follow the standard program approval process as identified in Board Policy Section III.G to gain program approval.

b. Delivery of Programs

i. Statewide Program Delivery
   The Board has established statewide program responsibilities for the following institutions. This statewide program list shall be reviewed for alignment by the Board every two years concurrently with the update to the five-year plan.

Boise State University shall have responsibility to assess and ensure the statewide delivery of all educational programs in the following degree program areas:

<table>
<thead>
<tr>
<th>Program Name</th>
<th>Degrees</th>

ii. Service Region Program Delivery

The Board has established service regions for the institutions based on the six geographic areas identified in Section 33-2101, Idaho Code. A Designated Institution shall have the Service Region Program Responsibility to assess and ensure the delivery of all educational programs and services necessary to meet the educational and workforce needs within its assigned service region.

1) Academic Service Regions

Region I shall include the area within Area No.1 under Section 33-2101, Idaho Code. Lewis-Clark State College and the University of Idaho are the Designated Institutions serving undergraduate needs. The University of Idaho is the Designated Institution serving the graduate education needs.

Region II shall include the area within Area No.2 under Section 33-2101, Idaho Code. Lewis-Clark State College is the Designated Institution serving undergraduate needs. The University of Idaho is the Designated Institution serving the graduate education needs.

Region III shall include the area within Area No.3 under Section 33-2101, Idaho Code. Boise State University is the Designated Institution serving undergraduate and graduate education needs.

Region IV shall include the area within Area No.4 under Section 33-2101, Idaho Code. Idaho State University is the Designated Institution serving undergraduate and graduate needs; with the exception that Boise State University will meet undergraduate and graduate business program needs.

Region V shall include the area within Area No.5 under Section 33-2101, Idaho Code. Idaho State University is the Designated Institution serving undergraduate and graduate education needs.

Region VI shall include the area within Area No.6 under Section 33-2101, Idaho Code. Idaho State University is the Designated Institution serving undergraduate and graduate education needs.

2) Professional Technical Service Regions

Postsecondary professional-technical education is delivered by six (6) institutions, each having responsibility for serving one of the six geographic areas identified in Section 33-2101.

Region I shall include the area within Area No.1 under Section 33-2101, Idaho Code. North Idaho College is the Designated Institution.

Region II shall include the area within Area No.2 under Section 33-2101, Idaho Code. Lewis-Clark State College is the Designated Institution.
Region III shall include the area within Area No.3 under Section 33-2101, Idaho Code. College of Western Idaho is the Designated Institution.

Region IV shall include the area within Area No.4 under Section 33-2101, Idaho Code. College of Southern Idaho is the Designated Institution.

Region V shall include the area within Area No.5 under Section 33-2101, Idaho Code. Idaho State University is the Designated Institution.

Region VI shall include the area within Area No.6 under Section 33-2101, Idaho Code. Eastern Idaho Technical College is the Designated Institution.

3) Program Offerings by Partnering Institutions

If a Partnering Institution (other than an institution with Statewide Program Responsibilities) identifies a Service Region Program not identified, or anticipated to be identified, in a Designated Institution's Plan, and the Partnering Institution wishes to offer such program in the Designated Institution's service region, then the Partnering Institution may communicate with the Designated Institution for the purpose of allowing the Partnering Institution to deliver such program in the service region and to include the program in the Designated Institution's Plan. In order to include the program in the Designated Institution's Plan, the Partnering Institution must demonstrate the need within the service region for delivery of the program, as determined by the Board (or by the Administrator of the Division of Professional-Technical Education in the case of professional-technical level programs). In order to demonstrate the need for the delivery of a program in a service region, the Partnering Institution shall complete and submit to the Chief Academic Officer of the Designated Institution, to CAAP and to Board staff, in accordance with a schedule to be developed by the Board’s Chief Academic Officer, the following:

- A study of business and workforce trends in the service region indicating anticipated, ongoing demand for the educational program to be provided.

- A survey of potential students evidencing demand by prospective students and attendance sufficient to justify the short-term and long-term costs of delivery of such program.

- A complete description of the program requested to be delivered, including a plan for the delivery of the program, a timeline for delivery of the program, the anticipated costs of delivery, the resources and support required for delivery (including facilities needs and costs), and program syllabuses.

4) Designated Institution’s First Right to Offer a Program
In the event the Partnering Institution has submitted the information set forth above to the Board’s Chief Academic Officer for inclusion in the Designated Institution’s Plan, and a need is demonstrated by the Partnering Institution for such program in the service region, as determined by the Board (or by the Administrator for the Division of Professional Technical Education in the case of professional-technical level programs), or prior to the submission of an updated Institution Plan by the Designated Institution, it is determined by the Board that an emergency need has arisen for such program in the service region the Designated Institution shall have a first right to offer such program.

The Designated Institution must within six (6) months (three (3) months in the case of associate level or professional-technical level programs) of receiving the request from a Partnering Institution to offer said program determine whether it will deliver such program on substantially the same terms (with respect to content and timing) described by the Partnering Institution. In the event the Designated Institution determines not to offer the program, the Partnering Institution may offer the program according to the terms stated, pursuant to an MOU to be entered into with the Designated Institution. If the Partnering Institution materially changes the terms and manner in which the program is to be delivered, the Partnering Institution shall provide written notice to the Chief Academic Officer of the Designated Institution and to the Board’s Chief Academic Officer of such changes and the Designated Institution shall be afforded the opportunity again to review the terms of delivery and determine within three (3) months of the date of notice whether it will deliver such program on substantially the same terms.

iii. Memorandums Memoranda of Understanding

A memorandum of understanding (MOU) is an agreement between two or more institutions offering programs within the same service region that details how such programs will be delivered in a collaborative manner. An MOU is intended to provide specific, practical details that build upon what has been provided in each Institution’s Plan. When a service region is served by more than one institution, an MOU shall be developed between such institutions as provided herein and submitted to the Board’s Chief Academic Officer for review and approval by the Board prior to entering into such agreements. Each MOU shall be entered into based on the following guidelines, unless otherwise approved by the Board.

If an institution with Statewide Program Responsibility has submitted the information set forth in Subsection 2.a.ii. above to a Designated Institution and Board staff in a timely manner (as determined by the Board’s Chief Academic Officer) for inclusion in the Designated Institution’s Plan, then the Designated Institution shall identify the program in its Institution Plan and enter into an MOU with the institution with Statewide Program Responsibility in accordance with this
policy. If, prior to the submission of an updated Institution Plan by the Designated Institution, it is determined by the Board that an emergency need has arisen for such program in the service region, then upon Board approval the institution with Statewide Program Responsibility and the Designated Institution shall enter into an MOU for the delivery of such program in accordance with the provisions of this policy.

iv. Facilities

For programs offered by a Partnering Institution (whether an institution with Statewide Program Responsibilities, or otherwise) within a municipal or metropolitan area that encompasses the campus of a Designated Institution, the Partnering Institution’s programs offerings shall be conducted in facilities located on the campus of the Designated Institution to the extent the Designated Institution is able to provide adequate and appropriate property or facilities (taking into account financial resources and programmatic considerations), or in facilities immediately adjacent to the campus of the Designated Institution. Renting or building additional facilities shall be allowed only upon Board approval, based on the following:

- The educational and workforce needs of the local community demand a separate facility at a location other than the campus of the Designated Institution or adjacent thereto as demonstrated in a manner similar to that set forth in Subsection 2.b.ii.13) above, and
- The use or development of such facilities are not inconsistent with the Designated Institution’s Plan.

Facilities rented or built by a Partnering Institution (whether an institution with Statewide Program Responsibilities, or otherwise) on, or immediately adjacent to, the “main” campus of a Designated Institution may be identified (by name) as a facility of the Partnering Institution, or, if the facility is rented or built jointly by such institutions, as the joint facility of the Partnering Institution and the Designated Institution. Otherwise, facilities utilized and programs offered by one or more Partnering Institutions within a service region shall be designated as “University Place at (name of municipality).”

For programs offered by a Partnering Institution (whether an institution with Statewide Program Responsibilities, or otherwise) within a municipality or metropolitan area encompassing a campus of a Designated Institution, to the extent programmatically possible, auxiliary services (including, but not limited to, bookstore, conference and other auxiliary enterprise services) and student services (including, but not limited to, library, information technology, and other auxiliary student services) shall be provided by the Designated Institution. To the extent programmatically appropriate, registration services shall also be provided by the Designated Institution. It is the goal of the Board that a uniform system of registration ultimately be developed for all institutions
governed by the Board. The Designated Institution shall offer these services to students who are enrolled in programs offered by the Partnering Institution in the same manner, or at an increased level of service, where appropriate, as such services are offered to the Designated Institution’s students. An MOU between the Designated Institution and the Partnering Institution shall outline how costs for these services will be allocated.

v. Duplication of Courses

If courses necessary to complete a Statewide Program are offered by the Designated Institution, they shall be used and articulated into the Statewide Program.

vi. Program Transitions

Institutions with Statewide Program or Service Region Program Responsibilities may plan and develop the capacity to offer a program within a service region where such program is currently being offered by another institution (the Withdrawing Institution) as follows:

1) The institution shall identify its intent to develop the program in the next update of its Institution Plan. The institution shall demonstrate its ability to offer the program through the requirements set forth in Subsection 2.b.ii.3) above.

2) Except as otherwise agreed between the institutions pursuant to an MOU, the Withdrawing Institution shall be provided a minimum three (3) year transition period to withdraw its program. If the Withdrawing Institution wishes to withdraw its program prior to the end of the three (3) year transition period, it may do so but in no event earlier than two (2) years from the date of notice (unless otherwise agreed). The Withdrawing Institution shall enter into a transition MOU with the institution that will be taking over delivery of the program that includes an admissions plan between the institutions providing for continuity in student enrollment during the transition period.

vii. Discontinuance of Programs

Unless otherwise agreed between the applicable institutions pursuant to an MOU, if, for any reason, (i) a Designated Institution offering programs in its service region that supports a Statewide Program of another institution, (ii) a Partnering Institution offering programs in the service region of a Designated Institution, or (iii) an institution holding a Statewide Program Responsibility offering Statewide Programs in the service region of a Designated Institution, wishes to discontinue offering such program(s), it shall use its best efforts to provide the institution with Statewide or Service Region Program Responsibility, as appropriate, at least one (1) year’s written notice of withdrawal, and shall also submit the same written notice to the Board and to oversight and advisory
councils. In such case, the institution with Statewide or Service Region Program Responsibilities shall carefully evaluate the workforce need associated with such program and determine whether it is appropriate to provide such program. In no event will the institution responsible for the delivery of a Statewide or Service Region Program be required to offer such program (except as otherwise provided herein above).

3. Existing Programs

Programs being offered by a Partnering Institution (whether an institution with Statewide Program Responsibilities, or otherwise) in a service region prior to July 1, 2003, may continue to be offered pursuant to an MOU between the Designated Institution and the Partnering Institution, subject to the transition and notice periods and requirements set forth above.

4. Oversight and Advisory Councils

The Board acknowledges and supports the role of oversight and advisory councils to assist in coordinating, on an ongoing basis, the operational aspects of delivering programs among multiple institutions in a service region, including necessary resources and support and facility services, and the role of such councils in interacting and coordinating with local and regional advisory committees to address and communicate educational needs indicated by such committees. Such interactions and coordination, however, are subject to the terms of the MOU’s entered into between the institutions and the policies set forth herein.

5. Resolutions

All disputes relating to items addressed in this policy shall be forwarded to the Board’s Chief Academic Officer for review. The Board’s Chief Academic Officer shall prescribe the method for resolution. The Board’s Chief Academic Officer may forward disputes to CAAP and if necessary make recommendation regarding resolution to the Board. The Board will serve as the final arbiter of all disputes.

6. Exceptions

a. This policy is not applicable to programs for which 90% or more of all activity is required or completed online, or dual credit courses for secondary education.

b. This policy also does not apply to courses and programs specifically contracted to be offered to a private, corporate entity. However, in the event that an institution plans to contract with a private corporate entity (other than private entities in the business of providing educational programs and course) outside of their Service Region, the contracting institution shall notify the Designated Institutions in the Service Region and institutions with Statewide Program Responsibilities, as appropriate. If the corporate entity is located in a municipality that encompasses the campus of a Designated Institution, the Board encourages the contracting institution to include
and draw upon the resources of the Designated Institution insomuch as is possible.
SUBJECT
Direct Admissions Benchmark

REFERENCE
June 2015 The State Board received an overview of the Direct Admissions proposal.

BACKGROUND/DISCUSSION
Direct Admissions is a proposal to develop a statewide system for proactively admitting high school seniors and enrolling them into Idaho public postsecondary institutions to increase education attainment levels among Idaho students.

Using the Statewide Longitudinal Data System, a list of high school seniors meeting a predetermined minimum Grade Point Average (GPA) and/or college entrance exam score will receive a letter from the State Board of Education congratulating them on being conditionally admitted to any of the state’s eight (8) public higher education institutions. Full admission will be based on successful completion of high school. Those students not meeting the minimum GPA and college entrance exam criteria will receive a different letter conditionally admitting them to Idaho State University College of Technology and Lewis-Clark State College as part of their community college function, as well as Eastern Idaho Technical College and the three (3) community colleges. Students will also be encouraged to look at the admission requirements of the individual four-year institutions to see if there may be an opportunity for admittance. For the 2015-2016 school year the SAT scores will be used.

The Board received a presentation during the June 18 Board meeting outlining the initiative. At that time, the benchmark GPA and SAT criteria had not yet been determined. Board staff has since worked with the Council on Academic Affairs and Programs (CAAP) to develop the following benchmark:

- All students with a GPA of 3.0 or higher will be conditionally admitted to any of the state’s eight (8) public higher education institutions, regardless of the SAT score. For students with a GPA below 3.0, admission will be based on a multiple of their GPA and SAT score. Students with a multiple totaling 2835 or greater will be admitted to the state’s eight (8) public higher education institutions. An example is as follows:

<table>
<thead>
<tr>
<th>GPA</th>
<th>SAT</th>
<th>Multiple</th>
</tr>
</thead>
<tbody>
<tr>
<td>2.0</td>
<td>1418</td>
<td>2835</td>
</tr>
<tr>
<td>2.7</td>
<td>1050</td>
<td>2835</td>
</tr>
<tr>
<td>2.9</td>
<td>990</td>
<td>2835</td>
</tr>
</tbody>
</table>

- Students with a multiple below 2835 will be conditionally admitted to Idaho State University College of Technology and Lewis-Clark State College as part of their community college function, as well as Eastern Idaho Technical College and the three (3) community colleges.
IMPACT
If approved, the Direct Admissions will be implemented in Fall 2015 for college admission during the Fall 2016 semester. Based on the Statewide Longitudinal Data System, 8,720 students meet or exceed the benchmark.

ATTACHMENTS
Attachment 1 - Direct Admissions Matrix

STAFF COMMENTS AND RECOMMENDATIONS
The benchmark was developed in partnership with the CAAP committee. As such, staff recommends approval.

BOARD ACTION
I move to approve the Direct Admissions benchmark of a GPA of 3.0 or higher or a GPA/SAT multiple of 2835 or higher for conditional admission to the state’s eight (8) public higher education institutions, with all other students conditionally admitted to Idaho State University College of Technology and Lewis-Clark State College as part of their community college function, as well as Eastern Idaho Technical College, College of Western Idaho, North Idaho College, and College of Southern Idaho.

BOISE STATE UNIVERSITY

SUBJECT
Online, Master of Social Work Program

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section III.G.; V.R.3.2X online program fee.

BACKGROUND/DISCUSSION
Boise State University (BSU) proposes to create a new online Master of Social Work (MSW) Program. Students in the program will learn clinical, organizational, policy, and administrative skills necessary to effectively serve individuals, families, groups, organizations, and communities.

One in five counties in the United States has an unmet mental health workforce need. Master’s-level social workers qualify as mental health providers and can effectively meet the needs of vulnerable populations. According to the Health Resources and Services Administration of the U.S. Department of Health and Human Services, Idaho has 58 geographic areas designated as “Health Professional Shortage Areas” in the discipline of mental health. Many of those Health Professional Shortage Areas are in rural Idaho. Training students in rural areas to become master’s-level social workers will help meet the need for social services necessary to adequately support youth and families.

There is substantial present and future workforce need for social workers. The U.S. Department of Labor, Bureau of Labor Statistics stated that "Overall employment of social workers is projected to grow 19 percent from 2012 to 2022, faster than the average for all occupations. Employment growth will be driven by increased demand for health care and social services, but will vary by specialty.” Projected annual job openings for social workers are 54 locally, 110 statewide, and 24,280 nationally. The estimated number of social workers holding bachelor’s degrees and therefore potentially pursuing master’s level education are 533 locally, 1,126 statewide, and 254,459 nationally.

The program has been designed to offer students substantial flexibility in their pursuit of a MSW degree.

1. Students able to pursue a face-to-face program will continue to be able to do so in our existing MSW programs in Boise, Coeur d’Alene, Lewiston, and Twin Falls. The proposed online program will provide an alternative for those who find traditional face-to-face programs less feasible due to proximity or demands such as work or caring for family members.
2. Those students who enter the program with a bachelor’s degree in social work from an accredited program will be able to purse the advanced
standing program and earn the MSW with 34 or 37 credits. Students with any other bachelor’s degree would need to take the full program, which requires 61 or 62 credits.

3. The program will not be cohort-based; instead students can be admitted and begin coursework three times over the academic year (once in the fall, spring and summer). In addition, students will be able to take more or fewer courses at a time depending on their schedules.

Boise State University has a long history of offering social work education to the state of Idaho: the BA in Social Work was established in 1966 and has been continuously accredited by the Council on Social Work Education since 1974. In 1991, BSU began offering its Master of Social Work degree. The program has been accredited since 1992 and is the only accredited master’s program in social work at a public university in Idaho.

Field work is a necessary component of all accredited programs. Students work in the field practicum for 400 hours in their first year, and 600 hours during the second year of the program. The Field Director and Field Liaisons will help students develop field placements in the students’ own communities. Once those are established, the Field Liaison will continue to monitor the students’ progress via telephone, email, and skype. Communicating regularly with the student and field supervisor in the agency where the practicum is being completed is a critical component of the program.

Field work is a necessary component of all accredited programs. Students work in the field practicum for 400 hours in their first year, and 600 hours during the second year of the program. A Field Director (faculty or professional staff person) will work with agencies to set up field placements, coordinate agreements, match students with agency sites, identify agency representatives to serve as on-site supervisors, and train field instructors. Field Liaisons (faculty members) will be hired to teach field seminar courses that are paired with the field practicum. They will be responsible for making visits to the agencies, grading students, and integrating the learning outcomes for students. Communicating regularly with the student and field supervisor in the agency where the practicum is being completed is a critical component of the program.

The marketability of the proposed program was tested in January 2014 using methodology developed by Everspring, Inc., which is assisting BSU in identifying programs appropriate to offer in an online format. Of the programs evaluated by Everspring, Inc., the proposed Master of Social Work (MSW) program ranked highest among all graduate level options, showing high demand and low competition for the program, with very high interest nationally. Based on these analyses, BSU estimates that enrollment in the proposed program could reach 400 students by the fifth year of the program.
IMPACT
The program will not be a self-support program, but instead will operate under the guidelines of Board Policy V.R as it pertains to online programs. Students will be charged $450 per credit or $27,450 for the entire 61 credit two-year program or $16,650 for the entire 37-credit advanced standing program.

ATTACHMENTS
Attachment 1 – Master of Social Work Program Proposal

STAFF COMMENTS AND RECOMMENDATIONS
The proposed program will be accessible to students for whom a face-to-face program is not feasible. The likely result will be an increase in the number of master's-level social workers helping to serve the mental health needs in rural Idaho. There is sufficient workforce need to justify the proposed program.

The program fee will be established pursuant to Board Policy V.R.3.2.X as it pertains to online programs. Such programs are allowed to charge a per-credit rate that reflects market conditions. BSU will charge $450 per credit for the program.

Consistent with Board Policy III.Z, the Master of Social Work (MSW) is a shared statewide program responsibility with Idaho State University (ISU) for Regions V and VI. The proposed MSW aligns with BSU’s Statewide Program Responsibilities and currently offers their existing MSW program in Regions I, II, III, and IV. Staff notes that ISU is proposing an MSW for Region V for 2017-18 academic year. The following represents Social Work programs being offered by institutions:

</tbody>
</table>
The proposal went through the program review process and was recommended for approval by the Council on Academic Affairs and Programs (CAAP) on June 9, 2015.

Staff believes there is sufficient justification, based on regional need, for BSU to create the proposed program and recommends approval.

BOARD ACTION

I move to approve the request by Boise State University to create a new online program that will award a Master of Social Work degree.

1. **Describe the nature of the request.** Will this program be related or tied to other programs on campus? Please identify any existing program, option that this program will replace. *If this is request to discontinue an existing program, provide the rationale for the discontinuance. Indicate the year and semester in which the last cohort of students was admitted and the final term the college will offer the program. Describe the teach-out plans for continuing students.*

Boise State University proposes creation of a new online Master of Social Work (MSW) Program to complement the existing face-to-face MSW programs in Boise, Coeur d'Alene, Lewiston, and Twin Falls. Boise State has a long history of offering social work education to the state of Idaho: the BA in Social Work (BSW) was one of the first four-year degree professional programs established by the University in 1966 and has been continuously accredited by the Council on Social Work Education (CSWE) since 1974. In 1991, the University began offering a MSW degree. The MSW program was accredited by CSWE in 1992 and has been reaffirmed for accreditation through 2018. Boise State University is the only public university in Idaho with an accredited MSW program.

One in five counties in the United States has an unmet mental health workforce need. Master’s-level social workers can effectively meet the needs of vulnerable populations, and qualify as mental health providers. According to the Health Resources and Services Administration of the US Department of Health and Human Services, Idaho has 58 geographic areas designated as “Health Professional Shortage Areas” in the discipline of mental health. Many of those Health Professional Shortage Areas are in rural Idaho; therefore, training students in rural areas to become master’s-level social workers will help meet the need for social services necessary to adequately support youth and families.

The creation of an online MSW program will provide access to this education and training for those who find traditional face-to-face programs less feasible due to proximity or demands such as work or caring for family members. In recent years, students have driven up to three hours in order to participate in Boise State’s MSW degree programs (for example, Kaysville, UT to Twin Falls, ID).

2. **List the objectives of the program.** The objectives should address specific needs the program will meet. They should also identify and the expected student learning outcomes and achievements. *This question is not applicable to requests for discontinuance.*

The MSW program prepares students to effectively serve individuals, families, groups, organizations, and communities. Students learn clinical, organizational, policy, and administrative skills necessary for promoting social and economic justice. Program goals are to educate students for culturally-sensitive practice founded on empirical evidence and strengths, diversity, and practice theories.

The Program Learning Objectives of the Master of Social Work program are as follows:
1. Prepare students to be knowledgeable about a range of social systems and how they affect social functioning
2. Prepare students to use research to inform professional practice
3. Prepare students to continue the process of learning and skills development throughout their careers
4. Prepare students for ethical practice that promotes equality and social justice, and
5. Prepare students for agency based practice to meet the social service needs of the State of Idaho.

*March 16, 2012*
3. **Briefly describe how the institution will ensure the quality of the program** (i.e., program review). Will the program require specialized accreditation (it is not necessary to address regional accreditation)? If so, please identify the agency and explain why you do or do not plan to seek accreditation. *This question is not applicable to requests for discontinuance.*

The following measures will ensure the high quality of the new program:

**Regional Institutional Accreditation:** Boise State University is regionally accredited by the Northwest Commission on Colleges and Universities (NWCCU). Regional accreditation of the university has been continuous since initial accreditation was conferred in 1941. Boise State University is currently accredited at all degree levels (A, B, M, D).

**Program Review:** Internal program evaluations will take place every five years as part of the normal departmental review process conducted by the Office of the Provost. This process requires a detailed self-study (including outcome assessments) and a comprehensive review and site visit by external evaluators.

**Graduate College:** The program will adhere to all policies and procedures of the Graduate College, which is a member of the Council of Graduate Schools (Washington, DC), the leading authority on graduate education in the United States. The Graduate College has broad institutional oversight of all graduate degree and certificate programs.

**Specialized Accreditation:** The program is accredited by the Council on Social Work Education (CSWE) and will adhere to the Council’s Educational Policy and Accreditation Standards (EPAS). EPAS supports academic excellence by establishing thresholds for professional competence. It permits programs to use traditional and emerging models and methods of curriculum design by balancing requirements that promote comparable outcomes across programs with a level of flexibility that encourages programs to differentiate.

**Program Development Support:** The online MSW program is one of several that are being created via the eCampus Initiative at Boise State University. Boise State’s online program development process uses a facilitated 10-step program design process to assist program faculty members in the creation of an intentional, cohesive course progression with tightly aligned course and program outcomes. A multi-expert development team, which includes an instructional designer, multimedia specialist, graphic designer, and web designer, works collaboratively with the faculty member. One master version of each course is developed for a consistent look and feel of courses across the program; the master course utilizes professionally created common template aligned with nationally used Quality Matters course design standards.

**Student Authentication:** Because the proposed program will be offered entirely online, it is important to include mechanisms by which we authenticate the identity of students enrolled in the program. We will use the following mechanisms:

- During the admissions process, the university will confirm required official transcripts and other documentation required for admission into the program.
- During student orientation programs, academic integrity will be addressed.
- At the beginning of each course, the instructor will communicate expectations regarding academic integrity to students verbally and in the syllabus.
- Associated with access to and use of our Learning Management System, a secure log-in environment will be provided and students will be required to use strong student passwords and to change them every 90 days.
