**SUBJECT**

Superintendent of Public Instruction Update to the State Board of Education

**BACKGROUND/DISCUSSION**

Superintendent of Public Instruction, Sherri Ybarra, will provide an update on the State Department of Education. In addition, she will present Lee Posey, Federal Affairs Counsel, Education Committee, for the National Conference of State Legislatures who will give a presentation on the Every Student Succeeds Act.

**ATTACHMENTS**

Attachment 1 – The Every Student Succeeds Act (ESSA): A briefing for Idaho,  
PowerPoint Presentation Page 3

**BOARD ACTION**

This item is for informational purposes only. Any action will be at the Board's discretion.

# The Every Student Succeeds Act (ESSA): A Briefing for Idaho

---

Lee Posey  
State-Federal Relations Division  
National Conference of State Legislatures

## The Big News: ESEA REAUTHORIZED

- Last reauthorized as No Child Left Behind in 2002
- Problems with NCLB from a state perspective
  - Shifted a great deal of control to the federal government
  - Adequate Yearly Progress (AYP) metric, 100% proficiency, defined “highly qualified teachers”
  - States needed waivers to get out from under NCLB requirements
  - Race to the Top grants, waivers with their own federal requirements

## The Big News: ESEA REAUTHORIZED

- House and Senate passed reauthorization bills this summer
- Conference committee adopted conference report 11/19 with only one dissenting vote
- House passage 12/2, 359-64
- Senate passage 12/9, 85-12
- Signed into law 12/10 as P.L. 114-95

Meet ESSA,  
the Every Student Succeeds Act

---

# THE WALL STREET JOURNAL.

"...the largest devolution of federal control  
to the states in a quarter century."

So...what's in the bill for states?

- Provision for state legislative involvement
- Prohibitions on Secretarial/federal authority
- New approach for accountability
  - No more AYP!

# Implementation Timeline

---

- ESEA flexibility waivers end as of 8/1/2016
- New state plans are developed in the 2016-2017 school year
- Full implementation in the 2017-2018 school year
- Continuing regulation and guidance from the U.S. Department of Education
  - You can ask the Department a question about ESSA at [essa.questions@ed.gov](mailto:essa.questions@ed.gov)
- Funding note: competitive funding for FY 2016 will flow under current law; FY 2017 dollars (2017-2018 school year) will flow through ESSA provisions

## State Accountability Systems

- Required indicators
  - Academic achievement as measured by proficiency on annual assessments
  - Another measure of academic achievement
  - Progress of English Language Learners
  - A measure of school quality and student success
  - For high schools, graduation rates
- States must weigh the academic measures more heavily than the other indicators and will also need to incorporate test participation in their accountability system.

## Assessments- new role, some flexibility

- Continues NCLB schedule of federally required statewide assessments; tests are less “high stakes” in the accountability system
- 95% participation rate
- federal law must recognize state law allowing parents to opt out, but those students still count against participation rate.
- 1% cap on alternative assessments
- New flexibility in assessment design
  - Use of nationally recognized high school assessment
  - Innovative assessment flexibility

## Which schools require intervention?

- Schools that are in the bottom five percent
- Any high school failing to graduate  $\frac{1}{3}$  or more of their students
- Any school in which a subgroup of students is consistently underperforming

## Provisions Regarding Subgroups of Students

---

- States must continue to disaggregate data by student subgroup at the state, LEA, and school level.
- State accountability systems must identify any school in which as subgroup of students is consistently underperforming for targeted support and improvement. Those subgroups are:
  - Economically disadvantaged students
  - Students from major racial and ethnic groups
  - Children with disabilities
  - English learners

## What kind of support do states have for school and student support?

- New Student Support and Academic Enrichment Grants
- Increased amount of Title I funding to be used for school improvement (instead of the NCLB School Improvement Grants)
  - Set aside for school improvement is the greater of 7% of Title I grants to LEAs or the amount of SIG funding for FY 2016 plus 4% of Title I grants.
  - School improvement funds can be sent to LEAs by formula or through a competitive process.

## New Student Support and Academic Enrichment (SSAE) Grants

---

- Purposes
  - Provide all students with access to a well-rounded education;
  - Improve school conditions for student learning; and
  - Improve the use of technology in order to improve the academic achievement and digital literacy of all students
- Idaho
  - Estimated to receive \$8,003,000 in FY 2017 (source: FFIS)

## Other Title I Issues

---

- Portability...not in the bill, but there's a weighted student funding pilot that could allow some districts to experiment
- No formula change, but will study
- Accountability provisions for English Language Learners moved to Title I (previously Title III)

## Title II Changes

- Formula for Part A (Supporting Effective Instruction) grants amended
  - Gradual shift from 65% based on share of children in poverty and 35% based on share of children overall
  - 80% based on share in poverty and 20% overall by FY 2020
- Gradually eliminates hold harmless allotment (by FY 2023)
- Idaho
  - Estimated impact of formula, hold harmless change from FY 2017 to FY 2023
  - Increase of 4.0%
  - From \$10,867,000 in FY 2015 (actual) to \$ 11,303,000 in FY 2023 (estimated)

## Other Programs in ESSA

- Education of Migrant Children
- Education of Neglected, Homeless, or Delinquent Youth
- Language instruction for English Language Learners and Immigrant Students
- Impact Aid
- Rural Education

## Other Programs in ESSA (continued)

- Indian, Native Hawaiian, and Alaska Native Education programs
- McKinney-Vento Education for Homeless Children and Youth
- 21<sup>st</sup> Century Schools/Promise Neighborhoods/Community Learning Centers
- Magnet Schools
- Charter Schools

## Early Education Provisions

- Preschool development grants-- \$250 million
- Literacy grants allowable use
- Other uses of Title I through IV funding for early education

**SUBJECT**

Temporary and Proposed Rule - IDAPA 08.02.03.004, Rules Governing Thoroughness, Incorporation by Reference and the ISAT Achievement Level Descriptors

**REFERENCE**

December 18, 2014	State Board approved the Idaho Academic Achievement Standards, including the Proficiency Level Descriptors and ISAT achievement levels at each proficiency level for grades 3-8 and 11.
February 19, 2015	State Board approved the Idaho Academic Achievement Standards, including the Proficiency Level Descriptors and ISAT achievement levels at each proficiency level for grades 9 and 10; and approved a temporary rule incorporating by reference into IDAPA 08.02.03.004 the ISAT Achievement Standards approved on December 18, 2014.
June 18, 2015	State Board approved a proposed rule amendment to IDAPA 08.02.03.004 incorporating the Idaho Academic Achievement Standards, including Proficiency Level Descriptors and the Idaho Standards Achievement Tests achievement levels for grades 3-11 in mathematics and English language arts.
August 13, 2015	State Board approved the Academic Achievement Standards adding the recommended End of Course proficiency levels for science. An amendment to the June 2015 proposed rule was approved.

**APPLICABLE STATUTE, RULE, OR POLICY**

Sections 33-105 and 33-1612, Idaho Code  
IDAPA 08.02.03.111.06 – Rules Governing Thoroughness – Assessment in the Public Schools

**BACKGROUND/DISCUSSION**

The State Board of Education approved the Idaho Academic Achievement Standards, including the Proficiency Level Descriptors and the Idaho Standards Achievement Test (ISAT) achievement levels, initially for grades 3-8 and 11 at the December 18, 2014, Special Board meeting. At this time, the same information was not available for grades 9 and 10. The Department of Education brought back the Idaho Academic Achievement Standards, including the Proficiency Level Descriptors at each proficiency level for each grade at the February 19, 2015, Board meeting, and incorporated them by reference into a temporary rule at that time. On August 13, 2015, Achievement Level Descriptors for the End of Course Assessments in science were approved by the State Board along with an amendment to the proposed rule passed in June 2015. These

**STATE DEPARTMENT OF EDUCATION**  
**APRIL 14, 2016**

---

updates to the docket were never published in the Administrative Bulletin. In January 2016, the State Department of Education requested the proposed rule be rejected by the Legislature since it did not accurately reflect the Board's actions and was invalid.

At the winter Multi-Agency Assessment Consortium Meeting, the American Institutes for Research agreed to modify the lowest and highest possible scores (LOSS/HOSS). The spring 2016 ISAT test window is now open, and districts have until May 20, 2016, to complete testing.

This temporary and proposed rule would change the approval date of the incorporated by reference document. In addition, the rule would change the term "standards" to "level descriptors" to clarify the description and avoid confusion. The ISAT Achievement Level Descriptors document has been reformatted for easier use and reflects the new LOSS/HOSS scores. Also added are defined descriptors for mathematics grades 9 and 10. Because the English Language Arts/Literacy test is the same for all high school grades, there are no other descriptors for Grade 9 and 10 other than the ones for Grade 11. Removed from the document was background information concerning the establishment of cut-scores and not necessary for inclusion in the incorporated document.

## **IMPACT**

It is necessary to approve this temporary and proposed rule now in order to score the spring assessments. If this rule is not approved, the standards approved in May 2007, which are no longer valid, would still be in effect. This would impact the entire ISAT and Science End-of-Course assessments and affect Idaho's ability to meet federal requirements.

## **ATTACHMENTS**

Attachment 1 – Temporary and Proposed Rule changes to IDAPA 08.02.03.004, Rules Governing Thoroughness	Page 5
Attachment 2 – ISAT Achievement Level Descriptors	Page 7

## **STAFF COMMENTS AND RECOMMENDATIONS**

Temporary rules go into effect at the time of Board approval unless an alternative effective date is specified by Board action. To qualify as a temporary rule, the rule must meet one of three criteria: provides protection of the public health, safety, or welfare; or is to come into compliance with deadlines in amendments to governing law or federal programs; or is conferring a benefit. This rule qualifies as temporary rules as it can be argued that it confers a benefit. Due to the publication error last year the pending rule could not be considered by the legislature and current ISAT Achievement Level Descriptors were not updated to bring them in alignment with the ISAT. The temporary rule that was in place during the 2015 Spring administration of the ISAT expired at the end of the session. Without updated Achievement Level Descriptors proficiently levels will not be able to be accurately calculated for Idaho students.

**STATE DEPARTMENT OF EDUCATION**  
**APRIL 14, 2016**

---

Proposed rules have a 21 day comment period prior to returning to the Board for consideration as a pending rule. Based on received comments and Board direction, changes may be made to proposed rules prior to entering the pending stage. All Pending rules will be brought back to the Board for approval prior to submittal to the Department of Administration for publication in the Idaho Administrative Rules Bulletin as a pending rule. Pending rules become effective at the end of the legislative session in which they are submitted unless rejected by the legislature.

**BOARD ACTION**

I move to approve the Idaho Standards Achievement Tests Achievement Level Descriptors as submitted in Attachment 2.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

**AND**

I move to approve the Temporary and Proposed Rule amendment to IDAPA 08.02.03.004.05 Rules Governing Thoroughness, Incorporation By Reference, as submitted in Attachment 1.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

Grade 3 English Language Arts/Literacy**

READING Informational Text Targets 8–14	<ul style="list-style-type: none"><li>• Use explicit details and information from the text to support answers and basic inferences in highly complex texts.</li><li>• Identify and summarize central ideas, key events, or the sequence of events presented in highly complex texts.</li><li>• Determine intended meaning of words through context, relationships, structure, or resources in highly complex texts.</li><li>• Use evidence to interpret and explain inferences and distinguish point of view from that of the narrator/character in highly complex texts.</li><li>• Specify, compare, and contrast relationships across highly complex texts.</li><li>• Demonstrate knowledge of text structures and text features to interpret or explain/connect information in highly complex texts.</li><li>• Begin to interpret use of language by distinguishing literal from non-literal meanings of words or phrases used in context in highly complex texts. • Evaluate or interpret the impact/intent of literary devices or connotative meaning of words and phrases used in context and the impact of those word choices on reader interpretation of texts of high complexity.</li></ul>
WRITING Targets 1–10	<ul style="list-style-type: none"><li>• Begin to write or revise one or more complex paragraphs, demonstrating specific narrative techniques, chronology, appropriate transitional strategies for coherence, and author's craft appropriate to purpose.</li><li>• Begin to write full, complex compositions, demonstrating specific narrative techniques: chronology, appropriate transitional strategies for coherence, structure, and author's craft appropriate to purpose.</li><li>• Begin to write or revise one or more complex informational/explanatory paragraphs, demonstrating ability to organize ideas by stating focus, including appropriate transitional strategies for coherence, supporting details, and an appropriate conclusion.</li><li>• Begin to write or revise one or more complex paragraphs, demonstrating ability to state opinions about topics or sources, set a context, organize ideas using linking words or phrases, develop supporting reasons, or provide an appropriate, strong conclusion.</li><li>• Begin to write complex opinion pieces, demonstrating ability to state opinions about topics or sources, attend to purpose and audience, organize ideas by stating a context and focus, include structures and appropriate transitional strategies for coherence, develop supporting reasons, and provide an appropriate conclusion.</li><li>• Begin to use complex language and vocabulary appropriate to the purpose and audience when revising and composing texts.</li><li>• Begin to apply or edit appropriately complex grammar, usage, and mechanics to clarify a message and edit narrative, informational, and opinion texts.</li><li>• Begin to use multiple tools of technology to produce texts.</li></ul>
SPEAKING/ LISTENING Target 4	<ul style="list-style-type: none"><li>• Begin to critically interpret and use information delivered orally or audio-visually.</li></ul>

**STATE DEPARTMENT OF EDUCATION  
APRIL 14, 2016**

**Threshold Achievement Level Descriptors  
Grade 4 English Language Arts/Literacy**

The student who just enters Level 2 should be able to:	
READING Literary Text Targets 1–7	<ul style="list-style-type: none"><li>• Use some details and information from the text to minimally support answers and inferences in texts of low-to-moderate complexity.</li><li>• Identify or summarize some central ideas/key events in texts of low-to-moderate complexity.</li><li>• Determine the intended meanings of some words, including words with multiple meanings, based on context, word relationships, word structure, and use of resources, with support in texts of low-to-moderate complexity.</li><li>• Use supporting evidence to justify/explain own inferences in texts of low-to-moderate complexity.</li><li>• Interpret, specify, or compare how information is presented across texts of low-to-moderate complexity.</li><li>• Relate partial knowledge of text structures, genre-specific features, or formats to obtain, interpret, explain, or connect information within texts of low-to-moderate complexity.</li><li>• Determine some figurative language, literary devices, or connotative meanings of words and phrases used in context in texts of low-to-moderate complexity.</li></ul>
READING Informational Text Targets 8–14	<ul style="list-style-type: none"><li>• Identify some details and information from the text to support answers or basic inferences about information presented in texts of low-to-moderate complexity.</li><li>• Identify some central ideas, key events, and procedures with support.</li><li>• Determine intended meanings of some words, academic words, domain-specific words, and words with multiple meanings, based on context, word relationships, word structure, or partial reliance on use of resources in texts of low-to-moderate complexity.</li><li>• Provide some supporting evidence to justify or interpret how information is presented in texts of low-to-moderate complexity.</li><li>• Interpret, explain, or connect information presented within or across texts of low-to-moderate complexity.</li><li>• Relate knowledge of some text structures or text features to obtain, interpret, or explain information in texts of low-to-moderate complexity.</li><li>• Determine some figurative language/literary devices or connotative meanings of words and phrases used in context and partially explain the impact of those word choices on meaning and tone in texts of low-to-moderate complexity.</li></ul>

**STATE DEPARTMENT OF EDUCATION  
APRIL 14, 2016**

**Threshold Achievement Level Descriptors  
Grade 4 English Language Arts/Literacy**

WRITING Targets 1–10	<ul style="list-style-type: none"><li>• Write or revise one simple-structure paragraph, demonstrating some awareness of narrative techniques, chronology, appropriate transitional strategies for coherence, or author’s craft.</li><li>• Write simple complete compositions, occasionally demonstrating narrative techniques, appropriate transitional strategies for coherence, or author’s craft.</li><li>• Write or revise one simple-structure informational/explanatory paragraph, demonstrating some awareness of how to organize ideas by stating a focus, include transitional strategies for coherence or supporting evidence and elaboration, or write body paragraphs with a conclusion.</li><li>• Write simple informational/explanatory text on a topic, occasionally attending to purpose and audience; using minimal organization of ideas by stating a focus; including structures and transitional strategies for coherence; and including evidence, elaboration, and a conclusion.</li><li>• With some support (e.g., directive and general feedback), show some awareness of how to use text features in informational texts to enhance meaning.</li><li>• Write or revise one simple paragraph, demonstrating a limited ability to state opinions about topics or sources, including few organized ideas, loosely developed evidence/reasons and elaboration, and an undeveloped conclusion.</li><li>• Write simple opinion pieces demonstrating some ability to state opinions about a topic or source, minimally attending to purpose and audience; organize few ideas by stating a context and focus; include some structures and transitional strategies for coherence; include few supporting reasons/evidence; and include a conclusion.</li><li>• With some support (e.g., directive or general feedback) show some awareness of how to use language and vocabulary appropriate to purpose and audience when revising or composing texts.</li><li>• Apply or edit grade-appropriate grammar, usage, and mechanics to clarify a message and edit narrative, informational, and opinion texts with support (e.g., grammar aids).</li><li>• Use tools of technology to gather information, make revisions, or produce texts with support (e.g., whole broken into parts).</li></ul>
SPEAKING/ LISTENING Target 4	<ul style="list-style-type: none"><li>• Interpret and use information delivered orally or audio-visually with support (e.g., some directive feedback).</li></ul>
RESEARCH/ INQUIRY Targets 1–4	<ul style="list-style-type: none"><li>• Conduct short simple research projects to answer single-step questions or to investigate and paraphrase different aspects of a narrow topic or concept.</li><li>• Locate some information to support ideas and select some information from data or print and non-print text sources.</li><li>• Distinguish relevant-irrelevant information with support (e.g., some directive feedback).</li><li>• Generate some conjectures or opinions.</li></ul>

**Threshold Achievement Level Descriptors  
Grade 4 English Language Arts/Literacy**

The student who just enters Level 3 should be able to:	
READING Literary Text Targets 1–7	<ul style="list-style-type: none"><li>• Use details and information from texts of moderate complexity to support answers and inferences.</li><li>• Identify or summarize central ideas/key events in texts of moderate complexity.</li><li>• Begin to determine the intended meanings of words, including words with multiple meanings, based on context, word relationships, word structure, and use of resources in texts of moderate complexity.</li><li>• Use supporting evidence to justify/explain own inferences in texts of moderate complexity.</li><li>• Interpret, specify, or compare how information is presented across texts of moderate complexity.</li><li>• Begin to relate knowledge of text structures, genre-specific features, or formats to obtain, interpret, explain, or connect information within texts of moderate complexity.</li><li>• Determine or interpret figurative language, literary devices, or connotative meanings of words and phrases used in context and partially explain the impact of those word choices on meaning and tone in texts of moderate complexity.</li></ul>
READING Informational Text Targets 8–14	<ul style="list-style-type: none"><li>• Identify details and information from texts of moderate complexity to support answers or basic inferences about information presented and provided.</li><li>• Identify or summarize central ideas, key events, and procedures in texts of moderate complexity.</li><li>• Determine intended meanings of words, academic words, domain-specific words, and words with multiple meanings, based on context, word relationships, word structure, or use of resources, with primary focus on the academic vocabulary common to texts of moderate complexity.</li><li>• Use supporting evidence to justify or interpret how information is presented or integrated in texts of moderate complexity.</li><li>• Interpret, explain, or connect information presented within or across texts of moderate complexity.</li><li>• Relate knowledge of text structures or text features to obtain, interpret, explain, or integrate information in texts of moderate complexity.</li><li>• Determine or interpret figurative language/literary devices or connotative meanings of words and phrases used in context and explain the impact of those word choices on meaning and tone in texts of moderate complexity.</li><li>• Use supporting evidence to justify or interpret how information is presented or integrated in texts of moderate complexity.</li><li>• Interpret, explain, or connect information presented within or across texts of moderate complexity.</li><li>• Relate knowledge of text structures or text features to obtain, interpret, explain, or integrate information in texts of moderate complexity.</li><li>• Determine or interpret figurative language/literary devices or connotative meanings of words and phrases used in context and explain the impact of those word choices on meaning and tone in texts of moderate complexity.</li></ul>

**STATE DEPARTMENT OF EDUCATION  
APRIL 14, 2016**

**Threshold Achievement Level Descriptors  
Grade 4 English Language Arts/Literacy**

WRITING Targets 1–10	<ul style="list-style-type: none"><li>• Write or revise one paragraph, demonstrating narrative techniques, chronology, appropriate transitional strategies for coherence, and begin to use author’s craft with appropriate purpose.</li><li>• Write full compositions, demonstrating specific narrative techniques, appropriate transitional strategies for coherence, and begin to use author’s craft with limited purpose.</li><li>• Write one full informational/explanatory paragraph, demonstrating ability to organize ideas by stating a focus, including transitional strategies for coherence or supporting evidence and elaboration, and begin to write body paragraphs appropriate to a purpose and audience.</li><li>• Write informational/explanatory texts on a topic, attending to purpose and audience; organize ideas by stating a focus; include structures and transitional strategies for coherence; include supporting evidence and elaboration; and begin to develop a complete conclusion.</li><li>• Use some text features in informational text to enhance meaning without support.</li><li>• Write or revise one paragraph, demonstrating ability to state opinions about topics or sources, set loose context, minimally organize ideas, develop evidence/reasons and elaboration, and develop a conclusion with limited purpose and audience.</li><li>• Write opinion pieces, demonstrating ability to state opinions about topics or sources, attending to purpose and audience; organize ideas by stating a context and focus; include structures and transitions for coherence; include some supporting evidence/reasons and elaboration; and develop an appropriate conclusion.</li><li>• Strategically use language and vocabulary appropriate to purpose and audience when revising or composing texts without support.</li><li>• Apply or edit grade-appropriate grammar, usage, and mechanics to clarify a message and edit narrative, informational, and opinion texts without support.</li><li>• Use tools of technology to gather information, make revisions, or produce texts.</li></ul>
SPEAKING/ LISTENING Target 4	<ul style="list-style-type: none"><li>• Interpret and use information delivered orally or audio-visually without support.</li></ul>
RESEARCH/ INQUIRY Targets 1–4	<ul style="list-style-type: none"><li>• Conduct short, limited research projects to answer multi-step questions, or to investigate and paraphrase different aspects of a broader topic or concept.</li><li>• Locate information to support central ideas and subtopics and select information and partially integrate information from data or print and non-print sources.</li><li>• Distinguish relevant-irrelevant information without support.</li><li>• Generate partial conjectures or opinions and include partial evidence to support them based on evidence collected.</li></ul>

**STATE DEPARTMENT OF EDUCATION  
APRIL 14, 2016**

**Threshold Achievement Level Descriptors  
Grade 4 English Language Arts/Literacy**

The student who just enters Level 4 should be able to:	
READING Literary Text Targets 1–7	<ul style="list-style-type: none"><li>• Use explicit details and implicit information from the text to support answers and inferences in highly complex texts.</li><li>• Begin to consistently identify and summarize central ideas/key events in highly complex texts.</li><li>• Begin to determine the intended meanings of words, including words with multiple meanings, based on context, word relationships, word structure, and use of resources in highly complex texts.</li><li>• Begin to use extensive supporting evidence to justify/explain own inferences in depth in highly complex texts.</li><li>• Begin to use extensive detail to interpret, specify, or compare how information is presented across highly complex texts.</li><li>• Relate knowledge of text structures, genre-specific features, or formats to obtain, interpret, explain, or connect information within highly complex texts.</li><li>• Begin to determine and interpret figurative language, literary devices, or connotative meanings of words and phrases used in context and explain the impact of those word choices on meaning and tone in highly complex texts.</li></ul>
READING Informational Text Targets 8–14	<ul style="list-style-type: none"><li>• Begin to identify and explain explicit details and implicit information from highly complex texts to support answers and inferences about information presented and provided.</li><li>• Identify and summarize central ideas, key details, and procedures in highly complex texts.</li><li>• Begin to determine the intended meanings of words, academic words, domain-specific words, and words with multiple meanings, based on context, word relationships, word structure, or use of resources, with primary focus on the academic vocabulary common to highly complex texts.</li><li>• Begin to use detailed supporting evidence to justify or interpret how information is presented and integrated in highly complex texts.</li><li>• Begin to interpret, explain, or connect information presented within or across highly complex texts.</li><li>• Begin to relate knowledge of text structures or text features to obtain, interpret, explain, and integrate information in highly complex texts.</li><li>• Begin to determine or interpret figurative language/literary devices or connotative meanings of words and phrases used in context and the impact of those word choices on meaning and tone in highly complex texts.</li></ul>

**Threshold Achievement Level Descriptors  
Grade 4 English Language Arts/Literacy**

<p><b>WRITING</b> Targets 1–10</p>	<ul style="list-style-type: none"> <li>• Begin to write or revise one or more complex paragraphs, demonstrating specific narrative techniques, chronology, appropriate transitional strategies for coherence, or author’s craft appropriate to purpose.</li> <li>• Begin to write full complex compositions, demonstrating, specific narrative techniques, appropriate transitional strategies for coherence, and author’s craft appropriate to purpose.</li> <li>• Begin to write or revise more than one complex informational/explanatory paragraph, demonstrating ability to including appropriate transitional strategies for coherence or supporting evidence and elaboration, and writing body paragraphs with a conclusion appropriate to purpose and audience.</li> <li>• Begin to write full, complex informational/explanatory texts on a topic, attending to purpose and audience; organize ideas by stating a focus; include structures and appropriate transitional strategies for coherence; and include strong supporting details and a well- developed, appropriate conclusion.</li> <li>• Begin to use text features in information texts to enhance meaning.</li> <li>• Begin to write or revise more than one complex paragraph, demonstrating ability to state opinions about topics or sources, set a context, efficiently organize ideas, develop strong supporting evidence/reasons and elaboration, and develop an appropriate, strong conclusion.</li> <li>• Begin to write complex opinion pieces, clearly demonstrating ability to state opinions about topics or sources, attending to purpose and audience; efficiently organize ideas by stating a context and focus; include more complex structures and appropriate transitional strategies for coherence; develop strong supporting evidence/reasons; and provide an appropriate, well-developed conclusion.</li> <li>• Begin to strategically use language and vocabulary appropriate to purpose and audience when revising or composing complex texts.</li> <li>• Begin to apply or edit appropriate grammar, usage, and mechanics to clarify a message and edit narrative, informational, and opinion texts.</li> <li>• Begin to use multiple tools of technology to gather information, make revisions, or produce texts.</li> </ul>
<p><b>SPEAKING/ LISTENING</b> Target 4</p>	<ul style="list-style-type: none"> <li>• Begin to critically interpret and use information delivered orally or audio-visually.</li> </ul>
<p><b>RESEARCH/ INQUIRY</b> Targets 1–4</p>	<ul style="list-style-type: none"> <li>• Begin to conduct research projects to answer multi-step questions or to investigate and paraphrase different aspects of a broader topic or concept.</li> <li>• Begin to locate information to support central ideas and subtopics and select and integrate critical information from two or more data or print and non-print text sources.</li> <li>• Begin to distinguish relevant-irrelevant information.</li> <li>• Begin to generate strong conjectures or opinions and cite relevant evidence to support them based on evidence collected and analyzed.</li> </ul>

**Threshold Achievement Level Descriptors  
Grade 5 English Language Arts/Literacy**

The student who just enters Level 2 should be able to:	
READING Literary Text Targets 1–7	<ul style="list-style-type: none"><li>• Cite some textual evidence to support conclusions drawn from texts of low-to-moderate complexity.</li><li>• Use some explicit and limited implicit information to support emerging inferences or analyses.</li><li>• Partially summarize central ideas and some key events.</li><li>• Determine the intended meaning of some grade-appropriate words, including academic and domain-specific words within context.</li><li>• Use some supporting evidence to justify interpretations of information presented or indicate how information is integrated in one or more texts.</li><li>• Identify and begin to compare how information is presented within or across texts of low-to-moderate complexity.</li><li>• Use basic knowledge of text structures or genre-specific features to begin to integrate or analyze information.</li><li>• Interpret the meaning of some common figurative language.</li></ul>
READING Informational Text Targets 8–14	<ul style="list-style-type: none"><li>• Cite some textual evidence to support conclusions drawn from texts of low-to-moderate complexity.</li><li>• Use some explicit and limited implicit information to support emerging inferences or analyses.</li><li>• Partially summarize central ideas and some key events.</li><li>• Determine the intended meaning of some grade-appropriate words, including academic and domain-specific words within context.</li><li>• Use some supporting evidence to justify interpretations of information presented or indicate how information is integrated in texts of low-to-moderate complexity.</li><li>• Identify and begin to compare how information is presented within or across texts of low-to-moderate complexity.</li><li>• Use basic knowledge of text structures or genre-specific features to begin to integrate or analyze information.</li><li>• Interpret the meaning of some common figurative language.</li></ul>
WRITING Targets 1–10	<ul style="list-style-type: none"><li>• Write or revise one paragraph, demonstrating some narrative techniques, chronology, appropriate transitional strategies for coherence, or author's craft.</li><li>• Plan, write, revise, and edit a full composition, occasionally demonstrating narrative techniques, chronology, transitional strategies for coherence, or author's craft.</li><li>• Write or revise one informational/explanatory paragraph, demonstrating some ability to organize ideas by stating a focus, including some transitional strategies for coherence or some supporting evidence and elaboration, or writing body paragraphs or a conclusion.</li><li>• Plan, write, revise, and edit full informational/explanatory text on a topic, attending to purpose and audience, organizing ideas by stating a focus, including structures and transitional strategies for coherence, including supporting evidence and elaboration, and developing a conclusion.</li><li>• Use some appropriate text features (headings, bold text, captions, etc.) in informational texts to enhance meaning.</li><li>• Write or revise one paragraph, demonstrating some ability to state opinions about topics or sources, set a loose context, minimally organize ideas using linking words or phrases, develop evidence/reasons and some elaboration, or develop a conclusion.</li></ul>

**STATE DEPARTMENT OF EDUCATION

Grade 8 English Language Arts/Literacy**

The student who just enters Level 4 should be able to:	
READING Literary Text Targets 1–7	<ul style="list-style-type: none"><li>• Evaluate precise meaning of words and distinguish connotative and figurative meanings of academic- and domain-specific words and phrases.</li><li>• Evaluate meaning of words with multiple meanings based on context-word relationships and word structures; thoroughly differentiate vocabulary meanings in texts of high complexity.</li><li>• Summarize central ideas and key events using the most significant details from longer portions of texts of high complexity.</li><li>• Cite strong and varied textual evidence to justify analysis regarding theme, story elements, dialogue, and point of view (e.g., suspense, humor, dramatic irony) in texts of high complexity.</li><li>• Analyze relationships by comparing and contrasting them among literary elements within or across texts of high complexity.</li><li>• Evaluate the structures of two or more texts and genre-specific features or formats of texts of high complexity and the impact of those choices on meaning or presentation.</li><li>• Evaluate and interpret the impact and intent of literary devices or connotative meaning of contextually used words and phrases and the impact of those word choices on reader interpretation of texts of high complexity.</li></ul>
READING Informational Text Targets 8–14	<ul style="list-style-type: none"><li>• Identify several pieces of strong and varied textual evidence from sources across disciplines to support conclusions, inferences, connections, and steps to processes.</li><li>• Summarize central ideas, topics/subtopics, key events, or procedures using strong supporting ideas and details.</li><li>• Determine connotative and denotative meanings of academic- and domain-specific words/phrases and words with multiple meanings, based on context-word relationships, word structures, and differentiating vocabulary meanings in texts of high complexity.</li><li>• Apply reasoning and a range of textual evidence to justify inferences or interpret author's presentation of information.</li><li>• Delineate and evaluate the argument assessing whether the reasoning is sound.</li><li>• Effectively analyze a case in which two or more texts provide conflicting information on the same topic and identify where the texts disagree on matters of fact or interpretation regarding the authors' points of view.</li><li>• Relate knowledge of text structures and genre-specific features or formats of texts of high complexity to compare/analyze the impact of those choices on meaning or presentation.</li><li>• Evaluate or interpret the impact/intent of literary devices or connotative meaning of words and phrases used in context and the impact of those word choices on reader interpretation of texts of high complexity.</li></ul>

**STATE DEPARTMENT OF EDUCATION  
APRIL 14, 2016**

**Threshold Achievement Level Descriptors  
Grade 8 English Language Arts/Literacy**

WRITING Targets 1–10	<ul style="list-style-type: none"><li>• Demonstrate effective use of multiple, specific narrative strategies, structures, and appropriate transitional strategies for coherence.</li><li>• Demonstrate effective use of precise words and phrases and use relevant descriptive details and sensory language to convey experiences or authors' craft appropriate to purpose, including a conclusion that reflects on the narrated experience.</li><li>• Demonstrate use of multiple, specific narrative strategies, structures, and appropriate transitional strategies for coherence when writing longer narrative texts.</li><li>• Demonstrate effective use of precise language and formal style to organize ideas by stating a focus when writing or revising more than one informational or explanatory paragraph.</li><li>• Employ advanced text features and visual components appropriate to purpose.</li><li>• Effectively use an extensive range of language and vocabulary (including academic words, domain-specific vocabulary, and figurative language) and style appropriate to the purpose and audience when revising or composing text.</li><li>• Effectively write or edit texts, demonstrating a strong understanding of Standard English grammar conventions and usage (e.g., capitalization, punctuation, and spelling).</li><li>• Effectively use technology, including the Internet, to produce and publish writing.</li></ul>
SPEAKING/ LISTENING Target 4	<ul style="list-style-type: none"><li>• Thoroughly engage and interact with media and source materials and account for elements that contribute to points of view.</li></ul>
RESEARCH/ INQUIRY Targets 1–4	<ul style="list-style-type: none"><li>• Employ multimodal resources to advance a sustained exploration of a topic.</li><li>• Synthesize multiple sources of relevant, authoritative information and discriminate among them to support an analysis.</li><li>• Search for relevant information from diverse authoritative sources.</li><li>• Systematically evaluate uses and limitations of sources.</li><li>• Generate an authoritative claim.</li><li>• Evaluate and cite substantial, relevant evidence.</li></ul>

**STATE DEPARTMENT OF EDUCATION  
APRIL 14, 2016**

**Threshold Achievement Level Descriptors  
Grade 11 English Language Arts/Literacy**

The student who just enters Level 2 should be able to:	
<p>READING Literary Text Targets 1–7</p>	<ul style="list-style-type: none"> <li>• Identify key textual evidence to attempt to support simple inferences or conclusions.</li> <li>• Provide a simple summary of key events and/or details of a text.</li> <li>• Use sentence- and paragraph-level context and resources to determine meanings of most grade-level words.</li> <li>• Apply partial reasoning and use key textual evidence to begin to justify inferences or judgments made about text.</li> <li>• Analyze some interrelationships of literary elements in texts of low to moderate complexity.</li> <li>• Describe basic text structures and genre-specific features or formats and show a limited understanding of their impact.</li> <li>• Identify elements that contribute to points of view and how they impact meaning.</li> <li>• Identify and determine meaning and impact of figurative language.</li> </ul>
<p>READING Informational Text Targets 8–14</p>	<ul style="list-style-type: none"> <li>• Identify key textual evidence to attempt to support simple inferences, analysis, interpretations, or conclusions.</li> <li>• Provide a simple summary of key events and/or details of a text.</li> <li>• Use sentence- and paragraph-level context and resources to determine meanings of words.</li> <li>• Apply partial reasoning and use key textual evidence to begin to justify inferences or judgments made about text.</li> <li>• Analyze the connection of ideas within and between texts of low-to-moderate complexity.</li> <li>• Describe basic text structures and genre-specific features or formats and show a limited understanding of their impact.</li> <li>• Demonstrate emerging knowledge of obvious genre interpretations and ideas.</li> <li>• Have limited engagements and interaction with source materials in common.</li> <li>• Partially account for elements that contribute to points of view.</li> <li>• Identify and begin to determine meaning and impact of figurative language.</li> </ul>
<p>WRITING Targets: 1 and 3–10</p>	<ul style="list-style-type: none"> <li>• Apply some narrative strategies, textual structures, and transitional strategies for coherence.</li> <li>• Use minimal relevant details when writing or revising brief narrative texts.</li> <li>• Use minimal support and elaboration when writing brief informational/explanatory texts.</li> <li>• Demonstrate some ability to use appropriate text features.</li> <li>• Produce argumentative texts and attempt to acknowledge a counterclaim.</li> <li>• Demonstrate some awareness of audience and purpose when writing.</li> <li>• Pay limited attention to word choice and/or syntax.</li> <li>• Demonstrate some understanding of the conventions of grade-appropriate Standard English grammar usage and mechanics to clarify a message.</li> <li>• Apply some revisions to narrative, informational, and argument texts.</li> <li>• Use basic technology, with support, for gathering information, making revisions, or producing texts.</li> </ul>

<p><b>SPEAKING/ LISTENING</b> Target 4</p>	<ul style="list-style-type: none"> <li>• Synthesize content from source materials and media, discriminating for relevance among a range of rhetorical presentations of information.</li> <li>• Listen for point of view and begin to analyze perspective and motivation in a speaker's assumptions, connections, use of vocabulary, unstated premises, and rhetorical choices.</li> </ul>
<p><b>RESEARCH/ INQUIRY</b> Targets 1–4</p>	<ul style="list-style-type: none"> <li>• Use research/inquiry methods to explore a topic.</li> <li>• Select from and adequately analyze sources from a variety of perspectives and present findings.</li> <li>• Adequately analyze authoritative sources of evidence with some diversity of formats to support a presentation.</li> <li>• Search for relevant authoritative information and evaluate the uses and limitations of source material.</li> <li>• Generate a specific debatable claim or main idea and cite some relevant evidence.</li> </ul>
<p style="text-align: center;"><b>The student who just enters Level 4 should be able to:</b></p>	
<p><b>READING Literary Text</b> Targets 1–7</p>	<ul style="list-style-type: none"> <li>• Identify and analyze textual evidence in texts of high complexity.</li> <li>• Provide an effective summary and analysis of thematic development over the course of a text using an appropriate level of relevant evidence.</li> <li>• Determine intended, precise, or nuanced meanings of words, including distinguishing connotation/denotation, figurative language, words with multiple meanings, and specialized academic language.</li> <li>• Apply reasoning and a thorough range of textual evidence to justify inferences or judgments made about texts.</li> <li>• Analyze the figurative and connotative meanings of words and phrases used in context and explain the complex impact(s) of those word choices on meaning and tone.</li> <li>• Apply reasoning and a range of textual evidence to justify inferences and judgments made about texts of high complexity.</li> <li>• Analyze the interrelationships among literary elements in texts of high complexity to show how connections are made in development of complex ideas or events.</li> <li>• Analyze the effectiveness and impact of text structures and/or text features of texts of high complexity.</li> <li>• Analyze figurative and connotative meanings of words and phrases in texts of high complexity.</li> </ul>

**STATE DEPARTMENT OF EDUCATION  
APRIL 14, 2016**

**Threshold Achievement Level Descriptors  
Grade 11 English Language Arts/Literacy**

READING Informational Text Targets 8–14	<ul style="list-style-type: none"><li>• Identify and analyze textual evidence in texts of high complexity.</li><li>• Provide full analysis of the development of central ideas over the course of a text using an appropriate level of relevant evidence.</li><li>• Determine intended, precise, or nuanced meanings of words, including distinguishing connotation/ denotation, figurative language, words with multiple meanings, and specialized academic language.</li><li>• Apply reasoning and a full range of textual evidence to justify inferences and judgments made about texts of high complexity.</li><li>• Analyze the figurative and connotative meanings of words and phrases used in context and explain the complex impact(s) of those word choices on meaning and tone.</li><li>• Apply thorough reasoning and a range of textual evidence to justify analyses of author's presentation of information in texts of high complexity.</li><li>• Analyze texts of high complexity to show how connections are made in development of complex ideas or events.</li><li>• Analyze the effectiveness and impact of text structures and/or text features of highly complex texts.</li><li>• Analyze figurative and connotative meanings of words and phrases in texts of high complexity.</li></ul>
WRITING Targets 1 and 3–10	<ul style="list-style-type: none"><li>• Apply effective writing strategies and processes when writing and revising texts for all purposes.</li><li>• Use precise language.</li><li>• Use relevant and persuasive evidence.</li><li>• Assess and synthesize supporting evidence.</li><li>• Select technological tools based on appropriateness.</li><li>• Apply grade-appropriate editing and revising skills.</li></ul>
SPEAKING/ LISTENING Target 4	<ul style="list-style-type: none"><li>• Synthesize diverse source materials from diverse perspectives delivered orally or through audiovisual materials.</li><li>• Systematically evaluate the ways that uses of evidence, implicit premises, and rhetorical stylistic choices enhance or undermine points of view.</li></ul>
RESEARCH/ INQUIRY Targets 1–4	<ul style="list-style-type: none"><li>• Employ multimodal resources to advance a persuasive and sustained exploration of a topic.</li><li>• Synthesize multiple sources of relevant, authoritative information and discriminate among them to support an analysis.</li><li>• Search for relevant information from diverse authoritative sources.</li><li>• Systematically evaluate the uses and limitations of sources.</li><li>• Generate authoritative claim.</li><li>• Evaluate and cite substantial, relevant evidence.</li></ul>

**Threshold Achievement Level Descriptors  
Grade 3 Mathematics**

The student who just enters Level 2 should be able to:	
<b>CONCEPTS AND PROCEDURES</b> Targets A, B, C, and D: Operations and Algebraic Thinking	<ul style="list-style-type: none"> <li>• Use multiplication and division within 100 to solve one-step mathematical problems involving arrays.</li> <li>• Determine the unknown number in a multiplication equation relating three whole numbers.</li> <li>• Apply the Commutative property of multiplication to mathematical problems with one- digit factors.</li> <li>• Recall from memory all products of two one-digit numbers.</li> <li>• Solve one- and two-step problems using all four operations with one- and two-digit numbers.</li> <li>• Identify patterns in the addition table.</li> </ul>
<b>CONCEPTS AND PROCEDURES</b> Target E: Number and Operations – Base Ten	<ul style="list-style-type: none"> <li>• Round whole numbers to the nearest 10 or 100.</li> </ul>
<b>CONCEPTS AND PROCEDURES</b> Target F: Number and Operations– Fractions	<ul style="list-style-type: none"> <li>• Identify a fraction on a number line.</li> </ul>
<b>CONCEPTS AND PROCEDURES</b> Targets G and I: Measurement and Data	<ul style="list-style-type: none"> <li>• Tell and write time to the nearest minute and measure liquid volumes and masses of objects using metric units of liters, grams, and kilograms.</li> <li>• Count unit squares to find the area of rectilinear figures.</li> </ul>
<b>CONCEPTS AND PROCEDURES</b> Targets H and J: Measurement and Data	<ul style="list-style-type: none"> <li>• Generate measurement data by measuring lengths using rulers marked with half-inch intervals.</li> <li>• Solve mathematical problems involving perimeters of polygons, including finding an unknown side length given the perimeter.</li> </ul>
<b>CONCEPTS AND PROCEDURES</b> Target K: Geometry	<ul style="list-style-type: none"> <li>• Partition shapes into parts with equal areas.</li> </ul>
<b>PROBLEM SOLVING &amp; MODELING AND DATA ANALYSIS</b>	<ul style="list-style-type: none"> <li>• Select tools to solve a familiar and moderately scaffolded problem and apply them with partial accuracy.</li> <li>• Use the necessary elements given in a problem situation to solve a problem.</li> <li>• Apply mathematics to propose solutions by identifying important quantities and by locating missing information from relevant external resources.</li> </ul>
<b>COMMUNICATING REASONING</b>	<ul style="list-style-type: none"> <li>• Find and identify the flaw in an argument.</li> </ul>

**STATE DEPARTMENT OF EDUCATION  
APRIL 14, 2016**

**Threshold Achievement Level Descriptors  
Grade 3 Mathematics**

The student who just enters Level 3 should be able to:	
<b>CONCEPTS AND PROCEDURES</b> Targets A, B, C, and D: Operations and Algebraic Thinking	<ul style="list-style-type: none"> <li>• Select the appropriate operation to solve one-step problems involving equal groups and arrays.</li> <li>• Use the properties of operations to multiply within the 10 by 10 multiplication table.</li> <li>• Fluently multiply within 100.</li> <li>• Solve two-step problems using addition and subtraction with numbers larger than 100 and solutions within 1,000.</li> </ul>
<b>CONCEPTS AND PROCEDURES</b> Target E: Number and Operations – Base Ten	<ul style="list-style-type: none"> <li>• Fluently add within 1,000, using strategies or algorithms based on place value understanding, properties of arithmetic, and/or the relationship between addition and subtraction.</li> </ul>
<b>CONCEPTS AND PROCEDURES</b> Target F: Number and Operations– Fractions	<ul style="list-style-type: none"> <li>• Represent a fraction on a number line with partitioning.</li> </ul>
<b>CONCEPTS AND PROCEDURES</b> Targets G and I: Measurement and Data	<ul style="list-style-type: none"> <li>• Estimate liquid volumes and masses of objects using standard units of grams, kilograms, and liters.</li> <li>• Find the area of a rectilinear figure by multiplying side lengths and by decomposing a rectilinear figure into non-overlapping rectangles and adding them together.</li> </ul>
<b>CONCEPTS AND PROCEDURES</b> Targets H and J: Measurement and Data	<ul style="list-style-type: none"> <li>• Generate measurement data by measuring length using rulers marked with quarter- inch intervals and represent the data on a line plot marked with quarter-inch intervals.</li> <li>• Solve word problems involving perimeters of polygons.</li> </ul>
<b>CONCEPTS AND PROCEDURES</b> Target K: Geometry	<ul style="list-style-type: none"> <li>• Draw examples of quadrilaterals that do not belong to given subcategories by reasoning about their attributes.</li> </ul>
<b>PROBLEM SOLVING &amp; MODELING AND DATA ANALYSIS</b>	<ul style="list-style-type: none"> <li>• Use appropriate tools to accurately solve problems arising in everyday life, society, and the workplace.</li> <li>• Apply mathematics to solve problems by identifying important quantities and mapping their relationship and by stating and using logical assumptions.</li> </ul>
<b>COMMUNICATING REASONING</b>	<ul style="list-style-type: none"> <li>• Use stated assumptions, definitions, and previously established results and examples to identify and repair a flawed argument.</li> <li>• Use previous information to support his or her own reasoning on a routine problem.</li> </ul>

**Threshold Achievement Level Descriptors

**Advanced – Chemistry**

Chemistry students performing at this level demonstrate a thorough conceptual understanding of science content and the application of skills and processes related to chemistry concepts.

Students at this level are able to do the following:

- Analyze the periodic table to predict physical and chemical properties.
- Analyze the historical developments that resulted in the modern version of the periodic table.
- Create and evaluate graphs of data.
- Analyze the key concepts of the kinetic molecular theory.
- Analyze and compare the common theories defining acids and bases.
- Compare and contrast physical and chemical properties and changes and appropriate computations.
- Perform and analyze computations using scientific notation, the metric system and dimensional analysis.
- Compute and evaluate measurement uncertainty to include precision, accuracy and the rules for significant digits.
- Perform and analyze calculations related to the conversion of grams to moles to particles, atoms, molecules and volume.
- Analyze and solve reaction stoichiometry problems.
- Calculate and compare concentrations of solutions in various ways including molarity.
- Analyze how the presence of solute particles affects the properties of a solution and be able to do calculations involving colligative properties.
- Calculate and analyze quantitative relationships involved in acid/base chemistry including pH.
- Demonstrate and apply understanding of the scientific method.
- Justify the selection and use of appropriate scientific equipment, materials and techniques.
- Correctly write symbols, formulas and names for elements, ions and compounds.
- Analyze how electrons are involved in the formation of chemical bonds using the octet rule and Lewis dot diagrams.
- Compare the polarity of chemical bonds using electronegativity.
- Predict and analyze physical properties of compounds based upon the attractive forces between atoms and molecules.
- Classify and explain the placement of all matter into appropriate categories.
- Analyze the relationship and reactions of acids, bases, and salts.
- Analyze the role of dissociation and ionization in producing strong, weak, and nonelectrolytes.
- Analyze the kinetic molecular theory and apply it to phases of matter.
- Analyze and calculate the changes in heat energy that occur during

## Science End-of-Course Achievement Level Descriptors

## Chemistry Advanced

	<p>chemical reactions and phase changes.</p> <ul style="list-style-type: none"><li>• Apply the conservation of matter by balancing chemical equations.</li><li>• Analyze the difference between exothermic and endothermic chemical reactions during chemical or physical changes.</li><li>• Analyze the classic historical experiments that were used to identify the components of an atom and its structure.</li><li>• Determine the number of protons, neutrons and electrons for an atom, ion, or isotope.</li><li>• Analyze the relationship between the structure of atoms and light absorption and emission.</li><li>• Determine and compare and analyze electron arrangements of elements using electron configurations and orbital energy diagrams.</li><li>• Analyze the law of conservation of mass and the law of definite proportions.</li><li>• Analyze chemical equations for common types of chemical reactions and predict the products.</li><li>• Analyze the factors that influence the rates of chemical reactions.</li><li>• Analyze the role of chemistry in enabling technological advances.</li><li>• Analyze the role of chemistry in energy and environmental issues.</li></ul>

**Proficient – Chemistry**

Chemistry students performing at this level demonstrate a general conceptual understanding of science content and the application of skills and processes related to chemistry concepts.

Students at this level are able to do the following:

- Use the periodic table to predict physical and chemical properties.
- Describe the historical development of the periodic table.
- Create and interpret graphs of data.
- Explain and interpret the key concepts of the kinetic molecular theory.
- Distinguish the common theories defining acids and bases.
- Identify, compare and contrast physical and chemical properties and changes and appropriate computations.
- Perform computations using scientific notation, the metric system and dimensional analysis.
- Compute measurement uncertainty to include precision, accuracy and the rules for significant digits.
- Perform calculations related to the conversion of grams to moles to particles, atoms, molecules and volume.
- Analyze and solve reaction stoichiometry problems.
- Express concentrations of solutions in various ways including molarity.
- Interpret how the presence of solute particles can affect the properties of a solution and be able to do calculations involving colligative properties.
- Analyze quantitative relationships involved in acid/base chemistry including pH.
- Demonstrate an understanding of the scientific method.
- Select and use appropriate scientific equipment, materials and techniques.
- Correctly write symbols, formulas and names for common elements, ions and compounds.
- Explain and understand how electrons are involved in the formation of chemical bonds using the octet rule and Lewis dot diagrams.
- Predict the polarity of chemical bonds using electronegativity.
- Predict physical properties of compounds based upon the attractive forces between atoms and molecules.
- Distinguish and classify all matter into appropriate categories.
- Explain the relationship and reactions of acids, bases, and salts.
- Explain the role of dissociation and ionization in producing strong, weak, and nonelectrolytes.
- Describe the Kinetic Molecular Theory as it applies to phases of matter.
- Explain and calculate the changes in heat energy that occur during chemical reactions and phase changes.
- Demonstrate the conservation of matter by balancing chemical equations.

## Science End-of-Course Achievement Level Descriptors

## Chemistry Proficient

	<ul style="list-style-type: none"><li>• Differentiate between exothermic and endothermic chemical reactions during chemical or physical changes.</li><li>• Interpret the classic historical experiments that were used to identify the components of an atom and its structure.</li><li>• Deduce the number of protons, neutrons and electrons for an atom or ion.</li><li>• Describe the relationship between the structure of atoms and light absorption and emission.</li><li>• Determine and illustrate electron arrangements of elements using electron configurations and orbital energy diagrams.</li><li>• Illustrate the law of conservation of mass and the law of definite proportions.</li><li>• Classify, write and balance chemical equations for common types of chemical reactions and predict the products.</li><li>• Describe the factors that influence the rates of chemical reactions.</li><li>• Assess the role of chemistry in enabling technological advances.</li><li>• Evaluate the role of chemistry in energy and environmental issues.</li></ul>
--	---

**Basic – Chemistry**

Chemistry students performing at this level demonstrate a partial conceptual understanding of science content and the application of skills and processes related to chemistry concepts.

Chemistry students at this level are able to do the following:

- Recognize that the periodic table can be used to predict physical and chemical properties.
- Identify the historical development of the periodic table.
- Recognize graphs of data.
- Identify the key concepts of the kinetic molecular theory.
- Recognize the common theories defining acids and bases.
- Identify physical and chemical properties and changes and appropriate computations.
- Perform basic computations using scientific notation, the metric system and dimensional analysis.
- Recognize aspects of measurement uncertainty including precision, accuracy and the rules for significant digits.
- Perform some simple calculations related to the conversion of grams to moles to particles, atoms, molecules and volume.
- Solve simple stoichiometry problems.
- Recognize concentrations of solutions in various ways including molarity.
- Identify how the presence of solute particles affects the properties of a solution and be able to do calculations involving colligative properties.
- Recognize quantitative relationships involved in acid/base chemistry including pH.
- Identify the scientific method.
- Identify scientific equipment, materials and techniques.
- Recognize symbols, formulas and names for common elements, ions and compounds.
- Identify how electrons are involved in the formation of chemical bonds using the octet rule and Lewis dot diagrams.
- Recognize the polarity of chemical bonds using electronegativity.
- Identify physical properties of compounds based upon the attractive forces between atoms and molecules.
- Classify some types of matter into appropriate categories.
- Identify the relationship and reactions of acids, bases, and salts.
- Identify the role of dissociation and ionization in producing strong, weak, and nonelectrolytes.
- Identify the Kinetic Molecular Theory.
- Recognize the changes in heat energy that occur during chemical reactions and phase changes.
- Recognize the conservation of matter by examining balanced

## Chemistry Basic

	<p>chemical equations.</p> <ul style="list-style-type: none"><li>• Recognize the difference between exothermic and endothermic chemical reactions during chemical or physical changes.</li><li>• Recognize the classic historical experiments that were used to identify the components of an atom and its structure.</li><li>• Recognize the number of protons, neutrons and electrons for an atom or ion.</li><li>• Recognize the relationship between the structure of atoms and light absorption and emission.</li><li>• Identify electron arrangements of elements using electron configurations and orbital energy diagrams.</li><li>• Identify the law of conservation of mass and the law of definite proportions.</li><li>• Recognize chemical equations for common types of chemical reactions and identify the products.</li><li>• Identify the factors that influence the rates of chemical reactions.</li><li>• Identify the role of chemistry in enabling technological advances.</li><li>• Identify the role of chemistry in energy and environmental issues.</li></ul>
--	--

**Advanced – Biology**

Biology students performing at this level demonstrate a thorough conceptual understanding of science content and the application of skills and processes related to biological concepts.

Students at this performance level are able to do the following:

- Analyze and apply the scientific meaning of system, order, and organization to a given system.
- Use observations and data as evidence on which to base complex scientific explanations.
- Evaluate and analyze changes that can occur in and among systems.
- Calculate and make conversions using the metric system.
- Analyze questions and concepts that guide scientific investigations.
- Apply technology and mathematics to investigations.
- Analyze and compare alternative explanations and models.
- Analyze the differences among observations, hypotheses, and theories.
- Evaluate technical writing, graphs, charts, and diagrams.
- Apply the theory of evolution to explain how species change over time.
- Evaluate how evolution is the consequence of interactions among the potential of a species to increase its numbers, genetic variability, a finite supply of resources, and the selection by the environment of those offspring better able to survive and reproduce.
- Evaluate how matter tends toward more disorganized states (entropy).
- Analyze how organisms use the continuous input of energy and matter to maintain their chemical and physical organization.
- Explain how the energy for life is primarily derived from the Sun through photosynthesis.
- Analyze cellular respiration and the synthesis of macromolecules and compare the different processes.
- Compare how matter cycles and energy flows through the different levels of organization of living systems (cells, organs, organisms, communities) and their environment.
- Compare the particular structures that underlie the cellular functions.
- Analyze chemical reactions that occur in cells.
- Analyze how cells use DNA to store and use information for cell functions.
- Analyze how selective expression of genes can produce specialized cells from a single cell.
- Analyze complex environmental issues such as water and air quality, hazardous waste, forest health, and agricultural production.
- Predict how science advances technology and how technology advances science.

Science End-of-Course Achievement Level Descriptors

Biology Advanced

	<ul style="list-style-type: none"><li>• Analyze how science and technology are pursued for different purposes.</li><li>• Compare the difference between renewable and nonrenewable resources.</li></ul>

**Proficient – Biology**

Biology students performing at this level demonstrate a general conceptual understanding of science content and the application of skills and processes related to biological concepts.

Students at this performance level are able to do the following:

- Explain the scientific meaning of system, order, and organization.
- Apply the concepts of order and organization to a given system.
- Use observations and data as evidence on which to base scientific explanations.
- Measure changes that can occur in and among systems.
- Analyze changes that can occur in and among systems.
- Measure and calculate using the metric system.
- Identify questions and concepts that guide scientific investigations.
- Use appropriate technology and mathematics to make investigations.
- Analyze alternative explanations and models.
- Explain the differences among observations, hypotheses, and theories.
- Analyze technical writing, graphs, charts, and diagrams.
- Use the theory of evolution to explain how species change over time.
- Explain how evolution is the consequence of interactions among the potential of a species to increase its numbers, genetic variability, a finite supply of resources, and the selection by the environment of those offspring better able to survive and reproduce.
- Explain how matter tends toward more disorganized states (entropy).
- Explain how organisms use the continuous input of energy and matter to maintain their chemical and physical organization.
- Show how the energy for life is primarily derived from the Sun through photosynthesis.
- Describe cellular respiration and the synthesis of macromolecules.
- Show how matter cycles and energy flows through the different levels of organization of living systems (cells, organs, organisms, communities) and their environment.
- Identify the particular structures that underlie the cellular functions.
- Explain cell functions involving chemical reactions.
- Explain how cells use DNA to store and use information for cell functions.
- Explain how selective expression of genes can produce specialized cells from a single cell.
- Analyze simple environmental issues such as water and air quality, hazardous waste, forest health, and agricultural production.
- Explain how science advances technology and how technology advances science.
- Explain how science and technology are pursued for different purposes.
- Describe the difference between renewable and nonrenewable resources.
