(*) These coaches receive pay for their participation in off-campus clinics or events. These earnings are not reflected in the Regular Salary payroll costs for Idaho State University.

If a coach has an agreement with an apparel company, cash payments (payroll) should be reported as compensation. Report the value of clothes and equipment that you know coaches receive in the Perks--Other column. Payments from the foundation should be reported in the other column. Indicate "Yes" or "No" if department employees have an assigned car. If there has been turnover in a position, the FTE should reflect the percent of time employed.

SUBJECT
Athletics Gender Equity Reports

REFERENCE
April 2016 Board received FY 2015 gender equity reports

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.X.

BACKGROUND/DISCUSSION
Title IX of the Education Amendments of 1972 is the federal legislation that bans gender discrimination in schools, whether it is in academics or athletics. Title IX states: "No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance ...." (20 U.S.C. §1681(a))

In regard to intercollegiate athletics, the US Department of Education's Office for Civil Rights (OCR) issued a “Clarification of Intercollegiate Athletics Policy Guidance: The Three-Part Test” in 1996 to analyze if an institution is in compliance. All three parts must be met for an institution to be considered in compliance.

First, the selection of sports and the level of competition must accommodate the students' interests and abilities using one of the three factors listed below:

1. Participation opportunities for male and female students are provided in numbers substantially proportionate to their respective enrollments.
2. Where the members of one gender have been and are underrepresented among intercollegiate athletes, whether the institution can show a history and continuing practice of program expansion which is demonstrably responsive to the developing interests and abilities of that gender.
3. Where the members of one gender are underrepresented among intercollegiate athletes and the institution cannot show a continuing practice of program expansion, whether it can be demonstrated that the interests and abilities of the members of that gender have been fully and effectively accommodated by the present program.

Second, financial assistance must be substantially proportionate to the ratio of male and female athletes. Institutions within 1% variance are considered compliant.

Third, benefits, opportunities, and treatments afforded sports participants are to be equivalent, but not necessarily identical including equipment and supplies, scheduling games and practices, travel expenses, availability and compensation
of coaches, quality of facilities, medical services, housing, dining, and recruitment. Compliance is measured on a program-wide basis, not on a sport-by-sport basis.

Idaho State Board of Education (Board) policy V.X.4.c requires the four-year institutions to provide gender equity reports for review by the Board in a format and time to be determined by the Executive Director. The reports from the institutions include a narrative discussion of gender equity-related issues along with a summary table which distills data from the detailed gender equity report provided annually by each institution to the U.S. Department of Education.

IMPACT
The attached summary worksheets show the institutions’ enrollment, financial aid, and participants by gender. The worksheets also show the actual revenues and expenses for the most current completed fiscal year by sport, as well as overall operating (Game Day) expenses, number of participants, and operating expenses per participant. Finally, the worksheets provide information on average salaries of coaches and the count of coaches per sport by gender.

STAFF COMMENTS AND RECOMMENDATIONS
Noteworthy information on gender equity aspects of athletic operations at the individual institutions are included in the attached narrative documents. The actual detailed “Equity in Athletics Data Analysis (EADA)” reports are also available for review and analysis by the public on the U.S. Department of Education website at https://ope.ed.gov/athletics/. This site also provides tools to download EADA reports for any NCAA or NAIA institution and to compare groups of institutions and review trends.

In their narratives, the institutions reported the status of compliance in the three parts of Title IX.

Boise State University (BSU) provided a thorough, in-depth analysis of their compliance to Title IX in all three tests. BSU reported noncompliance in the first test because it missed substantial proportionality in enrollments by 2.7% with a disadvantage to females and noncompliance in showing a continuing practice of program expansion or full accommodation. BSU also reported non-compliance in the second test for financial assistance with a 1.1% disadvantage to males. For
the third test, BSU reported disparities with regard to financial resources for recruiting and courtesy cars.

Idaho State University (ISU) reported compliance in the first two tests. While ISU did not state whether they were in compliance in the third test, they did note specific program areas are monitored and that several program enhancements were made in FY 2017.

University of Idaho (UI) reported a 1.24% differential in the first test with a disadvantage to males. UI reported noncompliance in the second test for financial assistance with a 2.46% disadvantage to females. While UI did not state whether they were in compliance in the third test, they did note specific program enhancements were made.

Lewis-Clark State College (LCSC) reported noncompliance in the first test because it missed substantial proportionality in enrollments by 18% with a disadvantage to females and noted meeting the first test is problematic due to financial constraints. LCSC reported compliance in the second test for financial assistance and in the third test for program equivalency.

BOARD ACTION
This item is for informational purposes only. Any action will be at the Board’s discretion.
Title IX Compliance – Boise State Athletics

At Boise State University, the Athletic Department, with oversight from the Intercollegiate Athletic Advisory Committee (IAAC) Gender-Equity Subcommittee, conducts an annual Gender-Equity Review for Compliance with Title IX in Athletics. The outcome of this report includes recommendations to the university that help achieve and maintain compliance in areas where gender differences may currently exist or may be developing. The summary of recommendations made this year and progress towards completion of recommendations that have been made over the last seven years are outlined in the Summary of Progress Towards Outstanding Recommendations table on pages 6-9. Progress towards completion of each recommendation was last updated February 2017. Page 10 outlines the schedule of future reviews.

Participation Opportunities

Compliance for this component means meeting one test of the three-part test for participation opportunities. Institution officials may choose which test the institution will meet. An institution must do one of the following three:

1. Provide women and men with participation opportunities at rates that are proportionate to their respective rates of enrollment as full-time undergraduate students (test one); or
2. Demonstrate continuing program expansion for the underrepresented gender (test two); or
3. Fully accommodate the underrepresented gender (test three).

Participation rates for 2016-17 are currently under review, but in 2015-16, for the first time in seven years, Boise State University did not comply with this program component because males and females were not provided athletic participation opportunities at rate that was proportionate to their respective rates of enrollment as full-time undergraduate students (test one). FY16 athletic participation was 49% women to 51% men (duplicated participant count). Boise State’s fulltime undergraduate enrollment was 51.8% women and 48.2% men. The margin of error to meet compliance with regard to test one at Boise State University is an approximate two-percentage point variance between athletic representation and undergraduate enrollment. In FY16, the discrepancy between athletic participation and undergraduate enrollment was a variance of 2.7% with disadvantage to females.

When the compliance in the participation component is not met in test one (proportionality), an analysis for compliance with test two (program expansion) and test three (full accommodation) should be considered. At Boise State, an outside consultant evaluated all three tests in 2014. At that time, it was suggested that Boise State may not be viewed as meeting test two, program expansion for the underrepresented sex, because despite adding three women’s teams in the last ten years (swimming and diving in 2006, softball in 2008, and beach volleyball in 2014) the argument could be made that sufficient interest and ability among women likely existed in those sports before the timeframe in which they were added. Additionally, and perhaps more significantly, two women’s teams (field hockey and skiing) have also been discontinued in the program’s history. Thus Boise State might not be viewed as meeting test two. Boise State also does not appear to meet test three (full accommodation of the underrepresented sex), as evidence suggests the potential for significant interest, ability, and competition in Boise State’s normal competitive region for women’s lacrosse and water polo. Therefore, full accommodation of interests and abilities for women has likely not been achieved.

Boise State has been compliant with test one (proportionality) for the past seven years. Throughout those seven years, there have been changes in seven head coaching positions in the department. Those changes
have resulted in philosophical differences in program management, as the focus of each program is to become more competitive in their sport. To address Title IX compliance with regard to participation, head coaches have provided recruiting targets and squad size goals that ensure growth in the women’s program while providing quality athletic experiences to each participant and a closely monitored squad size in the men’s programs over the next two recruiting seasons. These squad size goals are consistent with developing a nationally competitive program while ensuring the department overall achieves compliance in Title IX participation requirements in a reasonable time frame.

At this time, it is most reasonable for Boise State to remain focused on achieving compliance with regard to participation through proportionality (test one). As an ongoing practice of the department, head coaches are provided guidelines for roster size maximums and minimums annually. Each roster size is based on the head coach’s input on their ideal roster size with consideration of the overall program participation rates. This practice will be continued and monitored closely, as it represents the Athletic Department’s continued effort to achieve proportionate participation opportunities with respect to undergraduate enrollment in the immediate future.

Financial Aid

Compliance for this program component means total scholarship dollars awarded are substantially proportionate to participation rates for male and female student-athletes. To be in compliance, an institution must do the following:

1. For the regular academic year, athletic based financial aid awarded to male and female student-athletes must be “substantially proportionate” to their respective rates of financial aid participation (within 1%).
2. For the summer term, provide athletic scholarship awards that are equally available to all male and female student-athletes who desire summer term aid; otherwise, provide proportionate awards.
3. For fifth-year students who have exhausted their eligibility, provide fifth-year athletic scholarship awards that are equally available to all male and female student-athletes who desire degree completion aid; otherwise, provide proportionate awards.

In 2015-2016, Boise State did not comply with this program component because athletic aid was provided at a rate that was slightly outside of the standard of compliance with regard to athletic participation. However, it was the first time in program history that men were the underrepresented gender in athletic aid. Men represented 53.9% (216) of the participants (unduplicated count) and when comparing the NCAA Squad List Athletic Grant Amount, men received 52.8% of the financial aid in 2015-16 showing a 1.1% variance (0.1% outside the standard of compliance of +/-1%).

An analysis of financial aid participation figures and scholarship dollar amounts indicate that medical scholarships awarded during the 2015-2016 school year were a contributing factor to the lack of compliance. In FY16 female student-athletes who were deemed medically retired received a total of $101,333 in financial aid (compared to $12,766 in FY15), while males who received medical scholarships received a total of $55,206 in financial aid (compared to $36,426 the previous year). Because medical scholarships awards are unpredictable and not counted in the NCAA scholarship allotment maximums for each coach, these participants and the athletic aid awarded to them can vary from year to year and could be a contributing factor to Boise State falling outside the Title IX guideline of +/- one percent of financial aid award to financial aid participant.

Financial aid figures for 2015-2016 favor female participants for the first time in program history. With the intentional squad size increases in women’s track (and close monitoring of squad sizes for men’s
programs) and with continued monitoring of squad sizes of all sports programs, it is expected that Boise State will be back within the compliance requirement of +/- one percent within the next year. However, it is noteworthy that the current athletic programs offered at Boise State University allows an NCAA imposed maximum of 129.5 athletic scholarships that can be awarded to male participants and 117 athletic scholarships that can be awarded to female participants. In 2015-16, 104.46 of the 117 scholarships (89.5%) were awarded to females and 128.3 of the 129.5 (99.1%) were awarded to male participants. The majority of the women’s program head coaches listed budget constraints as their reasoning for not awarding their full scholarship allotment, while no men’s program head coaches listed this as a concern.

For that reason, it is recommended that scholarship budgets for female programs continue to be monitored to assure equity throughout the department and that coaches fully award female athletic scholarship dollars unless there is a reasonable professional decision to do otherwise.

**FY16 Note:** The Athletic Department awarded all eligible student-athletes, male and female, a “cost of attendance” increase as allowable by the NCAA for their regular-year award equivalency

**Summer Term and Fifth Year Aid**

Summer term awards and fifth year aid for student-athletes who have exhausted their eligibility are analyzed separately from each other and separately from regular year aid. There is no compliance standard established specifically for summer term or fifth year aid and there is no expectation is that the need for these awards will arise at the same proportion as participation. Disproportionate awards for the summer term and fifth year student-athletes are not unusual. The essential consideration is whether female and male student-athletes have an equal opportunity to receive such awards. A review of the set policy for awarding summer term financial aid and fifth year aid shows it is equally available to male and female student-athletes who request aid, which suggests Boise State is in compliance with Title IX.

**Coaching**

To be in compliance, an institution must do the following:

1. Assign the same number of coaches for the same amount of time to men’s and women’s teams in the same sport; assign the number of coaches and amount of time as equivalently appropriate for men’s and women’s teams in dissimilar sports; otherwise, provide offsetting assignments program-wide.
2. Assign equivalently qualified coaches to men’s and women’s teams program-wide.
3. Compensate men’s and women’s coaches at a rate that is proportionate to men’s and women’s rate of participation.

Under this program component, protections for coaches are evaluated based on the benefits provided for student-athletes. Differences among benefits provided to coaches, including compensation, are analyzed only to the extent of their effect on student-athletes.

The primary areas for evaluation in relation to coaching are: availability (opportunity to receive coaching), qualifications (assignment of coaches), and compensation of coaches (rate of compensation, duration of contracts, etc.). In evaluating these areas, Boise State did not demonstrate any gender disparities with relation to availability of coaches to each program, number of coaches or length of contracts, or qualification of coaches. Per Title IX interpretation, addressing any availability and
qualifications problems renders moot any compensation problem, regardless of the amount of compensation.

**Recruitment of Student-Athletes**

Compliance for this program component requires review of three factors related to recruitment of student-athletes: opportunity to recruit, financial resources for recruiting, and treatment of prospective student-athletes. To be in compliance, an institution must do the following:

1. Provide coaches or other professional athletic personnel in the programs serving male and female student-athletes a substantially equal opportunity to recruit.
2. Provide equivalently adequate financial resources to the women’s and men’s programs.
3. Provide equivalent treatment to female and male prospective student-athletes in the overall athletics program.

In 2015-2016, Boise State did not have any discrepancies as it relates to the availability of coaches for male and female student-athletes, therefore, do not have discrepancies with regard to the opportunity to recruit.

The evaluation of financial resources for recruiting resulted in all teams reported inadequate recruiting budgets. However, the money needed to reach adequacy for women’s sports exceeds the amount needed for men’s sports by a significant amount, and a comparison of like-sports between men and women indicate an advantage to men. Because current recruitment spending is not proportionate to athletic participation, these differences suggest an advantage to the overall men’s program regarding recruitment budgets.

Courtesy car assignments or compensation in lieu of a courtesy car (CLCC) for coaches involved in recruiting was assessed. In 2016-17 courtesy cars or CLCC has been awarded to all head coaches of men’s and women’s programs. Assistant coaches in both basketball programs and nine football assistant coaches also have this benefit.

In an assessment of the benefits provided to prospective student-athletes, coaches were surveyed regarding transportation, housing, meals, and entertainment. All teams reported these benefits as satisfactory except men’s basketball who would like to improve hotels and meals provided to recruits, however, men’s and women’s basketball offer equivalent quality hotels and meals to recruits, therefore, this concern does not signal a discrepancy. The softball coach expressed a lack of adequate transportation for prospective student-athletes when department vans are necessary for use and stated that recruiting budget is not large enough to entertain recruits.

Overall, the athletic department has disparities between men’s and women’s programs with regard to financial resources for recruiting and courtesy cars or compensation in lieu of a courtesy car (CLCC) for assistant coaches. Boise State should eliminate or significantly reduce the concerns in this program area by providing adequate funding for women’s programs in recruitment, provide courtesy cars or CLCC for assistant coaches of women’s programs at a rate that is equivalent to men’s assistant coaches with off campus recruiting responsibilities, and that the softball coach pursue the use of a loaner car for use during official recruiting weekends.
Support Services
Compliance for this program component requires an evaluation of time spent by each coach performing administrative duties and the support provided that allows coaches to perform better in their coaching functions. Of the compliance areas, this is the smallest area of concern because it directly affects student-athletes the least. To be in compliance, an institution must do the following:

1. Provide administrative and clerical support so that men’s and women’s coaches, overall, spend the same or similar numbers of hours per week performing clerical and administrative tasks.
2. Provide men’s and women’s coaches with equivalently adequate and convenient office space and equipment.

Overall, for the 2015-2016 academic year, the Athletic Department complied with Title IX in the support services program areas related to administrative support and office space, equipment and supplies, but has differences in the amount of time spent on clerical and secretarial work between men’s and women’s programs. A recommendation was made to consider adding additional support services for the softball, swimming and diving and track/cross country programs’ head and assistant coaches.

Tutoring
Compliance for this program evaluates only those tutoring programs provided separately to student-athletes and not the services provided to all students at Boise State University. To be in compliance, an institution must do the following:

1. Provide tutors who are equivalently qualified and equally available to all female and male student-athletes who want tutoring services; or
2. If tutoring services must be limited, provide tutors who are equivalently qualified and equally available to the same extent for female and male student-athletes who want tutoring services.

A survey of head coaches requested feedback on the availability and quality of tutors as well as study hall services provided for their team members. The conclusion was that availability and quality of tutors are equivalent for all student-athletes and no gender differences exist in this program area.

| **(12-13 Rec) Equipment and Supplies:** The Department of Athletics evaluate the gymnastics and track and field equipment budgets with regard to competition uniforms and an adequate amounts of training shoes for team members. | ONGOING  
Evaluation of gymnastics equipment budget to be completed. Track and field equipment budgets remained the same from FY14-FY15, however head coach change resulted in reduction of 23-35 of student-athletes on men/women teams and a reduction in the equipment budget. Reevaluation of all equipment budgets will be completed in FY19 with focus on accommodating increased participation numbers for women. |
| **(12-13 Rec) Equipment and Supplies:** The Department of Athletics examines equipment budgets for men’s and women’s tennis with regard to sport-specific items for competitions and stringing services. | COMPLETED  
Stringing services now provided to both teams. Increase of $20K to tennis equipment budget provided starting FY16. |
| **(12-13 Rec) Equipment and Supplies:** The Department of Athletics gives consideration to adding a Director of Softball Operations or fulltime team manager. | ONGOING  
A review of the support services program area resulted in a recommendation of clerical support being provided to softball, swimming and track and field/cross country. In an ongoing review of this team and all women’s Olympic sports, a director of operations for Olympic sports will be considered. |
| **(12-13 Rec) Medical and Training Services and Facilities:** The Athletic Department add additional athletic training staff members so issues are addressed to support all athletic programs, specifically for football, softball, and volleyball. | ONGOING  
Budget requests have been made for an additional full time athletic trainer and an additional full time strength and conditioning coach for FY15.  
For FY16, a position that was ½ time athletic trainer and ½ time Insurance was converted to a FY athletic trainer position devoted to football. Another part time trainer was also added to the staff, but funding for the additional PT training is not secured long term.  
In FY17 another fulltime trainer was added for volleyball and beach volleyball now have a fulltime trainer. |
| **(11-12 Rec) Scheduling of Games and Practice Times:** The Athletic Department continues to monitor competition schedules to ensure an optimal number of contests are being scheduled for all programs. | PARTIALLY COMPLETED & ONGOING  
In FY12, gymnastics and softball scheduled desired number of competitions (though, softball was not able to compete in all of them due to weather cancelations).  
In FY13 every women’s program with the exception of swimming and diving had an increases to their travel budget resulting in a total increase to women’s program travel budgets of $130K (men’s programs increased $73K, excluding FB increase to accommodate travel to HI).  
In FY14 women’s golf, softball, volleyball and track and field/cross country had increases to their travel budgets again totaling ~$12K.  
In FY15 soccer and softball travel budgets increased for a total of ~$13K.  
Assessment of competition schedules and adequacy of travel budgets will be completed in FY17 |

| **(11-12 Rec) Travel & Per Diem Allowances:** The Athletic Department continue to monitor travel budgets, specifically women’s golf, wrestling and track and field to ensure adequacy within their programs with regard to travel squad sizes and per diem amount provided during away competitions. | **ONGOING** Softball travel budget was increased $33K in FY12 and $22K more in FY13, buses are now mandated for use for away competition. Wrestling travel budget was increased $5,581 in FY11 to account for more coaches travel, but they still do not do overnight stays at competitions to which they drive. In FY11 and FY12, travel budgets for men’s programs increased a net total of $89,462, women’s programs by a net total of $213,930, and track and field by a total of $59,760. Coaches became actively involved in budget projection during the budgeting process within the department each year. In FY13 and FY14 the wrestling team fund raised $5,000 additional dollars to cover the expenses of overnight stays during travel and will include this cost in their travel budget request for FY15 and going forward. Additionally in FY13, women’s golf, softball, volleyball and track and field/cross country had increases to their travel budgets with a total increase of $12,417 to overall travel budgeted. On budget projection/wish lists completed by coaches for FY14 travel budgets, men’s golf, wrestling, women’s basketball, soccer, swimming and volleyball all had travel-related budget increases. Due to zero growth budget year, none of the requests were met in their entirety. In FY14 women’s golf, softball and volleyball travel budgets were increased (totaling $6.7K), track travel budget was increased $5.6K. NOTE: in FY14, new philosophy of track coach includes only traveling players who will score, which has improved the track travel budget situation. In FY15 soccer and softball travel budgets were increased (totaling $13K). In FY16 track and field travel budget was decreased by $10K due to decreased number of athletic participants with new head coach. Assessment of this program component continues and will be fully evaluated in FY17. |

<p>| <strong>(11-12 Rec) Housing and Dining Facilities and Services:</strong> The Athletic Department continues to monitor budgets and trade out dollars to meet the need of each program with regard to pre- and post-game meals and term break dining. | <strong>COMPLETED and ONGOING</strong> In FY12, training table budgets were adjusted with coaches input; $8,249 more dollars were provided to women’s programs, and $17,450 in trade out was provided to programs with unmet need. An assessment of training table budgets and trade out allocations will continue. In FY13-FY15 – trade out dollars remained equitable to previous years. In FY15 fueling stations were added to the department, available to all sports programs. A complete review of this program area completed in FY17. |</p>

| **(11-12 Rec) Housing and Dining Facilities and Services:** Temporary housing during term breaks and training table for every program, if that is the preference, is a consideration during the budgeting process. | **ONGOING**
In FY15, it became department policy that student athletes on aid must be provided appropriate room/board when required practices are held over term breaks. Training table budgets will continue to be evaluated. |

| **(12-13 Rec) Publicity:** Athletic program marketing plans continue to be reviewed and finalized with head coaches in a timely fashion and evaluated periodically throughout the competitive season. | **ONGOING**
In FY12, a new athletic marketing director was appointed. In FY13, a new marketing staff was hired, plans were developed for every sport but continued emphasis needs to be placed on a timely completion and regular communication and execution of marketing plans for each sports program. Additional fulltime position to cover marketing for women’s sports or Olympic sports only needs further consideration. |

| **(13-14 Rec) Locker Rooms, Practice and Competitive Facilities:** Improve facilities for women’s soccer, softball, swimming, volleyball and sand volleyball practice and competition facilities* | **ONGOING**
In FY14 a study was completed for improvement of practice pool and upgrading Bronco Gym and repairs were made to audience seating at Appleton Tennis Center for men’s and women’s tennis. In FY14 and FY15 a fan was installed over the practice pool to improve air quality and starting blocks were replace. In FY16 the Auxiliary Gym floor was replaced for men’s and women’s basketball practice facility and Bronco Gym was upgraded for volleyball competition and practice. The floor was resurfaced and redesigned; a new sound system and acoustical banners were installed. Improvements have been made to the soccer facility to improve fan experience and field conditions for players. |

| **(13-14 Rec) Locker Rooms, Practice and Competitive Facilities:** Improve locker rooms for several women’s teams to be comparable quality to the locker room for the football team or provide women’s teams with benefits superior to men’s teams in other program areas* | **ONGOING**
In FY14 swimming locker room was remodeled to include new floors, benches and lockers. FY15 the old football locker room was upgraded with new shower and restrooms, converted to become the new women’s track locker room. Soccer locker room was upgraded with new carpet, tile and paint. |

Idaho State University
Narrative Summary for Gender Equity FY16

The Idaho State University Athletic Department has a systematic process to monitor Gender Equity Compliance. The athletic department senior staff meets regularly with coaches to discuss Gender equity concerns and issues. Additionally, during budget meetings and presentations, the coaches and administrators use the gender equity strategies to create the budgets.

During the school year, the Athletic Advisory Board (AAB) annually reviews budgets, the EADA report, the NCAA financial report and other relevant reports to review and monitor the progress being made on gender equity issues within the athletic department.

Accommodation of Interest

Prior to each team’s first competition of the year, the athletic administration monitors roster size and athletic participation to insure quality participation opportunities for female student-athletes. This process allows the athletic department to provide equal participation opportunities that matches full time undergraduate enrollment at Idaho State University (ratio of males to females).

During FY16, the Athletic Department maintained compliance with the participation opportunity prong of gender equity requirements. After experiencing a significant demographic shift with the departure of a large number of Middle Eastern male students in FY17, the Athletic Department, following its roster management plans, is projected to achieve compliance with the participation opportunity prong.

Financial Aid

The Athletic Department fully funds Athletic Scholarships in accordance with NCAA Bylaws. These financial opportunities are equitably available between genders. ISU achieved compliance with the financial aid prong of gender equity guidelines in FY16.

In FY17, under a new first year head coach, women’s track and field offered scholarships to come close to their overall team equivalency but many prospective student-athletes did not accept their scholarship offer. Determined recruiting efforts in the current business year will optimistically increase the overall team scholarship equivalency in FY18.

Equal Treatment within Programs

The Athletic Director, Faculty Athletic Representative, Title IX Officer, Senior Women’s Administrator, Athletic Department business officer and compliance staff work together to educate the university in the areas related to gender equity. The following areas are monitored:

1. Equipment and Supplies
2. Scheduling of practice times and games
3. Team travel and per diem allowance
4. Tutoring
5. Coaches
6. Locker rooms, practice and competition facilities
7. Medical and training facilities and services
8. Housing and dining facilities
9. Publicity and marketing
10. Support services
11. Recruitment of student-athletes
In FY17, the softball program expanded facilities adjacent to the field that included locker rooms, athletic training room, and space for umpires. The funding for this project was donor based.

Renovation plans are underway for upgrading the track and soccer field at Davis Field.

University of Idaho Gender Equity Narrative

The University of Idaho annually conducts a gender equity assessment that includes interviews with all head coaches and some student-athletes. The results of these conversations have produced resource reallocation and adjustments to specific sports budgets. Gender equity issues are taken seriously by the Department of Athletics and the University of Idaho.

I. Participation Opportunities

The University of Idaho is projecting compliance with the participation opportunity prong of gender equity requirements in FY17 and beyond. Current UI undergraduate enrollment is 53.53% male and student-athlete participation is 52.29% male. This results in a 1.24% differential with males being the underrepresented gender. This differential is slightly higher than the allowed variance of +/-1%. Assuming a consistent enrollment differential and with a continued dedication to providing participation opportunities for men and women, the University of Idaho anticipates continued strict compliance with gender equity guidelines.

II. Financial Aid

Though making progress from FY16, the University of Idaho is not currently in compliance with this prong of gender equity guidelines. The department is studying the involved factors and is committed to achieving compliance. In FY16 the number of unduplicated males and females has a ratio of 56.16% favoring males with 164 males and 128 females participating. The dollar amounts awarded respectively are $3,321,437 and $2,344,904 for a 58.62%/41.38% ratio. When the unduplicated participant ratio is compared to the financial aid awarded ratio it results in a 2.46% variance. This variance can be brought into compliance by effecting the unduplicated participant ratio, the financial aid totals ratio, or a combination of the two.

We will try to maintain the number of female student-athletes while slightly increasing the number male student-athletes. This will bring the variance closer to compliance. In addition we will encourage coaches in our women’s programs to fully allocate all of their available scholarships. This will also close the variance, and, when coupled with our participant efforts will bring us within +/- 1%.
IV. Equal Treatment within Programs

The Gender Equity Committee is currently performing the 2016-17 self-study for the Athletic Department. The committee noted that for the 2015-16 academic year, the department made several strides in updating facilities. The women's tennis program updated their locker room with fresh paint and updated wall decals to match the men's locker room. The men's and women's golf programs updated their locker room, a shared facility, with new paint and carpet. Additionally, both programs now have access to a newly constructed hitting facility that opened this fall 2016. In conjunction with the new office spaces that were constructed for a portion of the football staff in 2014-15, the women's soccer coaches were relocated from a single room office to a two office suite with a meeting area. The women's soccer program updated their locker room with additional storage to provide lockers for all members of their roster, fresh paint, and fresh tile in the shower area. The maintenance crew also repaired shower heads and a latrine that was out of commission for a year to accommodate the large roster. Last, university facilities purchased a slightly used, but updated competition court for the women's volleyball program as the current one was several years out of date. The committee noted that due to budgetary constraints, most of these facility updates required fundraising efforts from individual programs with the exception of the volleyball competition court. Representatives consist of Faculty Athletic Representative, University Title IX Coordinator, Senior Woman Administrator, Faculty Representative and Coaching Representative. The interviews did not reveal any serious deficiencies.

V. Conclusion

As indicated in the attached spreadsheet, the University of Idaho dedicates significant resources toward gender equity compliance. In fact, the SBOE approved gender equity funding accounts for less than 20% of our FY16 gender equity obligations. The University of Idaho will continue to meet Title IX Prong One compliance through roster management. In an effort to meet Title IX Prong Two compliance, we will monitor rosters and encourage the use of all available scholarships in our women's programs.

Gender Equity – Narrative
Lewis-Clark State College

I. Accommodation of Interests

The athletic participation review for FY17 is still in progress. In FY16, athletic participation was 58% men to 42% women. LCSC’s fulltime undergraduate enrollment in FY16 was 40% male and 60% female. Test one (proportionality) of the Accommodation of Interests requirement can be addressed with additional resources. The growth of men’s track and the demand for growth in other men’s sports requires a deliberate investment in women’s sports to offset. LCSC has strived to meet compliance in Accommodation of Interests test two (program expansion that is responsive to the underrepresented gender), but we are hampered in our efforts by resource constraints (including the limits on Athletic funding) and challenges with regard to facilities. These challenges include additional dorm space, practice and competition facilities. We require the Board’s support in pursuing opportunities to address these challenges.

II. Athletic Student Aid

The Financial Assistance requirement of Title IX is being met. Athletic student aid totals (allocation of actual resources in FY16) was 52% to males, 48% to females.

III. Equal Treatment of Programs

LCSC is also compliant with the Equal Treatment of Programs requirement of Title IX, but we are again hampered in our efforts to remain so, due to resource constraints. We regularly review and evaluate the quality, availability, and maintenance of all Athletic facilities, but our future success in achieving Title IX compliance hinges greatly on the ability to invest in new Athletic facilities.

LCSC has not (yet) asked for a separate dollar limit or policy waiver to fund gender equity initiatives, but does not rule out approaching the Board in the future to propose the addition of another women’s sport, with the goal of achieving full compliance with Title IX. Such a proposal would require reexamination of the existing Board limits placed upon the College’s Athletic programs, which disproportionately disadvantage us, relative to the universities, when it comes to investing in new athletic programs.

SUBJECT
FY 2018 College and Universities Appropriation Allocation

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.S.
Senate Bill 1152 (2017)

BACKGROUND/DISCUSSION
The Legislature appropriates to the State Board of Education and the Board of Regents monies for the general education programs at Boise State University (BSU), Idaho State University (ISU), University of Idaho (UI), Lewis-Clark State College (LCSC), and system-wide needs. The Board allocates the appropriation to the four institutions based on legislative intent and Board Policy, Section V.S.

According to Board policy, the allocation is made in the following order: 1) each institution shall be allocated its prior year budget base; 2) funds for the Enrollment Workload Adjustment (EWA); 3) operations and maintenance funds for new, major general education capital improvement projects.; 4) decision units above the base; and 5) special activities or projects at the discretion of the Board.

At the October 2016 Board meeting the Board waived Board policy Section V.S., subsection II.B. Enrollment Workload Adjustment, for the 2018 fiscal year as part of the work to move from the EWA distribution formula to outcomes-based funding.

This action allocates the FY 2018 College and Universities appropriation to the institutions for general education programs and system-wide needs. These funds allocated along with revenue generated from potential fee increases will establish the operating budgets for the general education program for FY 2018. The allocation for FY 2018 is shown on Tab 4b page 3. The FY 2018 general fund appropriation includes the following items:

that benefit all of the four-year institutions including, but not limited
to, projects to promote accountability and information transfer throughout
the higher education system; and (2) An amount of approximately $1,960,500

STATEMENT OF PURPOSE
RS25538

This is the FY 2018 appropriation to Community Colleges in the amount of $40,000,900, including $39,400,900 from the General Fund and $600,000 from dedicated funds. This appropriation provides for increased cost of benefits, the equivalent of a 3% ongoing change in employee compensation, and a nondiscretionary adjustment for enrollment workload decreases. This appropriation includes seven line items.

Line item 3 provides funding to the College of Southern Idaho (CSI) for the Bridge to Success Summer Program.

Line item 4 provides funding to CSI to hire two dedicated faculty members for the CSI Outreach Center in Idaho Falls.

Line item 7 provides funding to North Idaho College (NIC) to hire a Title IX Coordinator to lead compliance efforts and conduct training.

Line item 8 provides funding to NIC for an assistive technology coordinator and make associated upgrades.

Line item 9 provides funding to the College of Western Idaho (CWI) to hire staff to advise existing students and provide outreach to special student populations.

Line item 10 provides funding to CWI to aid in average weighted credit equity with other community colleges.

Line item 12 provides funding to backfill the current and projected decreases in enrollment at the three community colleges. This funding would provide $434,200 to CSI, $443,200 to CWI, and $416,200 to NIC.

This appropriation results in an 6.7% increase from the General Fund and 6.6% from all funds.

The supplemental appropriation, in the amount of $1,200,000 one-time from the General Fund, is provided to the Community Colleges for the remainder of fiscal year 2017. The funding will enable the College of Southern Idaho to purchase Pristine Springs near Twin Falls from the Idaho Department of Water Resources. CSI utilizes the geothermal aquifer at Pristine Springs as a source of heat for buildings on the community college campus. The total purchase price for Pristine Springs is $2,400,000. CSI will match the appropriation, and upon payment, the Department of Water Resources will transfer the total purchase price ($2,400,000) to the General Fund.

SUBJECT
Allocation of the State Division of Career Technical Education Appropriation.

APPLICABLE STATUTE, RULE, OR POLICY
House Bill 295 (2017)

BACKGROUND
The Idaho Legislature appropriates funds for career technical education to the Division of Career Technical Education (CTE) in five designated programs: State Leadership and Technical Assistance, General Programs, Postsecondary Programs, Dedicated Programs, and Related Services. CTE requests approval of the allocation of the FY2018 appropriated funds detailed in Attachment 1.

DISCUSSION
The allocation is based on the increased level of funding in House Bill No. 295 and the provisions of the State Plan for Career Technical Education. The State General Fund reflects an overall increase of 4.0% from the original FY2017 appropriation. The Legislature funded a 3% change in employee compensation; employee benefit increases; maintenance level decreases in the statewide cost allocation for CTE and Eastern Idaho Technical College (EITC); $1.8 million in funds for capacity expansion of 11 specific programs at the 6 postsecondary technical colleges; $405,900 in one-time funding to purchase replacement equipment at the 6 technical colleges and CTE; $64,600 in ongoing funding to add a human resource position at EITC; $250,000 ongoing from the General Fund to expand adult basic education (ABE); an additional position and $449,600 from the General Fund to expand incentive funding opportunities to all secondary programs; $128,000 to align courses from secondary to postsecondary and $68,000 to design online courses through Idaho Digital Learning Academy; $375,000 to fund a 5% increase in added cost funding for secondary CTE programs.

IMPACT
Establish FY2018 operating budget.

STATEMENT OF PURPOSE

This is the FY 2018 appropriation to the Division of Career-Technical Education in the amount of $74,754,900. This appropriation includes an increase for benefit costs of $478,800, a decrease for statewide cost allocation of $6,600, and an ongoing 3% merit-based increase in employee compensation for permanent employees to be distributed at the discretion of the agency director and institutional presidents. This appropriation also includes $405,900 one-time from the General Fund for replacement items at the six technical colleges and in the state leadership and technical assistance program. There are eleven line items in this appropriation.

Line item 1 provides 14.50 FTP and $1,878,200 ongoing from the General Fund to expand postsecondary capacity at eleven postsecondary CTE programs throughout the state and alleviate program waiting lists. Line item 3 provides 1.00 FTP and $64,600 ongoing from the General Fund to add a human resource position at Eastern Idaho Technical College responsible for developing policy, procedures, trainings, and other HR related matters. Line item 4 provides $250,000 ongoing from the General Fund to expand adult basic education (ABE). Line item 5 provides 1.00 FTP and $449,600 from the General Fund to expand the Secondary Incentive Program and increase course offerings. Line item 6 provides $196,000 one-time from the General Fund to align secondary and postsecondary programs and create new online course options for students. Line item 7 provides a transfer of 3.00 FTP and $411,800 ongoing from dedicated funds from the Related Services Program to the Division of Human Resources (DHR). Line item 8 provides $15,000 ongoing from the Miscellaneous Revenue Fund to enable the division to spend annual user fees collected from schools to pay for the maintenance of the Skillstack(R) Micro-Certification. Line item 9 provides $300,000 ongoing from the Miscellaneous Revenue Fund for operating expenditures so that the division can use registration fees collected for a CTE professional development conference held each summer. Line item 11 provides $375,000 ongoing from the General Fund for professional development, additional equipment and supplies, and extended CTE contracts. Line item 12 provides for a decrease of $325,000 ongoing to reduce the appropriation from the Quality Program Standards Incentive Fund and Agriculture and Natural Resources Education Program Fund. Line item 13 provides for the transfer of 3.0 FTP and $334,600 ongoing from General Programs to State Leadership and Technical Assistance Program. This line item does not appropriate any new moneys, but transfers moneys already in the budget.

Totals for this appropriation include 582.96 FTP, $65,372,000 from the General Fund, $556,700 of dedicated funds, and $8,826,200 of federal funds, for a total of $74,754,900. This appropriation includes carry over authority of dedicated and federal funds and provides exceptions to budget laws that will allow transfers between object codes for the Post-Secondary Program only. Consistent with other higher education budgets, there is no FTP cap.

SUBJECT
FY 2019 Budget Development Process (Line Items)

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education Governing Policies & Procedures Policy, Section V.B.1.

BACKGROUND/DISCUSSION
Idaho State Board of Education (Board)-approved budget requests for FY 2019 must be submitted to the executive and legislative branches [Division of Financial Management (DFM) and Legislative Services Office (LSO)] on September 1, 2017. To meet this annual deadline, the Board has established a process for developing institutional requests. The first step is the approval of line item request guidelines at the April Board meeting. The institutions then use these guidelines to develop line item requests which are evaluated by the Board at its June meeting. The final budget request, including line items and maintenance of current operations (MCO) items, is then approved in August. As indicated, budget requests are developed in two parts as directed by the DFM/LSO Budget Development Manual: MCO items and line items. The Board’s budget request guidelines focus on the development of line item requests, but additional information on MCO and other types of requests is provided below.

MCO requests are calculated using state budget guidelines and Board policy. A MCO request includes funding for Change in Employee Compensation (CEC), health insurance cost increases, inflationary increases for operating expenses (including utilities), and central state agency cost areas (Treasurer, Controller, etc.). These items are calculated using rates established by DFM. Other MCO items include replacement capital (i.e. equipment), and external non-discretionary adjustments such as health education program contract adjustments. Replacement capital requests take into account equipment depreciation schedules, and institutions may request one-time replacement capital in General Funds based on the B-7 Replacement Capital form. A MCO budget is considered the minimum to maintain operations, while line items are requests for new or expanded programs, occupancy costs, and other initiatives deemed important by the Board, institution/agency, Legislature or Governor.

The capital building budget request is a separate, parallel process which flows through the Division of Public Works (DPW) and the Permanent Building Fund Advisory Council (PBFAC), with funding provided from the Permanent Building Fund. Agencies and institutions seek funding for major capital projects and major Alteration and Repair (A&R) maintenance projects through that process.

FY2019 Line Item request guidelines. The following guidelines apply to the college/university line item requests for FY2019. These guidelines are elective in nature for the community colleges and the Division of Career Technical Education (CTE), though all institutions and agencies under the governance of the Board will...
face similar challenges for additional resources in FY2019. In its submission to DFM, the Board will support no more than two line item requests for FY2019, with a combined dollar value cap of 5% of the requesting institution’s FY2018 General Fund appropriation. This is the same guidance issued for the FY2018 budget request. There are no restrictions or special instructions for FY2019 requests related to occupancy costs or Permanent Building Fund capital project and A&R requests. Line item requests should be clearly and precisely defined and should follow the instructions and formats provided in the Budget Development Manual. When a line item contains multiple elements, those elements should be prioritized to make them “scalable” in the event only partial funding is made available for a line item. Draft line item requests from Board institutions/agencies are due along with agenda item materials for the June 2017 Board meeting. Final review and approval of line items is expected to take place at the August 2017 Board meeting.

Report on “Complete College Idaho” (CCI) appropriations. The college/universities (and the community colleges) will again be required to report on the implementation and effectiveness of CCI appropriations received in FY2015, FY2016, and FY2017. A consolidated report will be provided not later than February 1, 2018 by the President of the Board to the Joint Finance-Appropriations Committee (JFAC), the Senate Education Committee, and the House Education Committee. Detailed instructions on compiling the information for the CCI report will be disseminated to institutions in the coming months.

IMPACT
The line item request guidelines proposed above will provide a model that has been used successfully by institutions to obtain State funding to support key initiatives in support of the Board’s strategic goals. The model is flexible and can facilitate fine-tuning of individual requests to accommodate the fiscal realities which evolve over the course of the planning cycle and the upcoming Legislative session. The line item request process will complement the parallel budget planning activities related to facilities/infrastructure, endowment funds, student tuition/fees, and the MCO process.

STAFF COMMENTS AND RECOMMENDATIONS
Staff anticipates that one or more system-wide budget requests may emerge for FY2019 as a result of the work of the Governor’s Higher Education Task Force. Potential recommendations may include Outcomes-Based Funding (OBF) proposals, enhancements to scholarship programs, changes to Advanced Opportunity programs, and/or other initiatives. Discussions with the Governor’s Office and Legislature indicate that no Enrollment Workload Adjustment (EWA) is anticipated for the FY2019 budget request. The college/university two line item, 5% of General Fund cap enables institutions to carry out budget planning on how new state funding could best be used to meet the Board’s strategic goals, whether the channel for new funding is an OBF approach or a line item approach.

Staff recommends approval.
BOARD ACTION

I move to direct the college and universities to limit Fiscal Year 2019 budget line items requests to those which will measurably support implementation of the Board’s strategic plan. Institutions may request up to two (2) line items in priority order, the total value of which shall not exceed five percent (5%) of an institution’s FY2018 total General Fund appropriation. Any requests for occupancy costs will not count towards the two line item limit or the 5% cap.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho Code § 33-4303, Idaho Opportunity Scholarship
IDAPA 08.01.13, Rules Governing the Opportunity Scholarship

BACKGROUND/DISCUSSION
The intent of the Idaho Opportunity Scholarship is to: (i) provide financial resources to Idaho students who are economically disadvantaged; (ii) close the gap between the estimated cost of attending an eligible Idaho postsecondary institution and the expected student and family contribution toward such educational costs; and (iii) encourage the educational development of such students in eligible Idaho postsecondary institutions.

In 2014-15 $4,916,579 was disbursed to 1,465 scholarship recipients with an average award amount of $3,440. In 2015-2016 $5,146,248 was distributed to 1,868 scholarship recipients with an average award amount of $2,881. In 2016-2017 $9,868,532 was distributed to 3,454 scholarship recipients with an average award amount of $2,857. Currently, 5,229 eligible students have applied for the scholarship for 2017-18, and there is approximately $10.3 million in funding available.

Idaho Administrative Code, IDAPA 08.01.13.03 (Rules Governing the Opportunity Scholarship) requires the Board to annually set: (1) the educational costs for attending an eligible Idaho postsecondary institution; and (2) the amount of the assigned student responsibility (i.e. eligible students are expected to share in the cost of their education and will be required to contribute an amount determined by the Board).

The educational cost may include student tuition, fees, book and other necessary education expenses. The standard educational cost for FY 2015 award
determination purposes was $18,600 for the 4-year institutions and $12,700 for the 2-year institutions. In FY 2016, pursuant to IDAPA 08.01.13 these amounts were set for each institution and were based on the institution’s published educational cost for fulltime undergraduate students attending two semesters per year.

While not required by statute or rule, the Board has historically set a maximum award in order to increase the number of awardees. The maximum award amount for FY 2015 was $3,750 and $3,000 in FY 2016 and FY 2017. The majority of full-year student recipients were eligible for the maximum $3,000 award. The actual award amount cannot exceed the actual cost of tuition to the student.

Individual student award amounts are calculated based on the education cost for the institution the student attends, the student contribution amount, other scholarships and financial aid the student receives, actual tuition costs and the maximum award amount. As an example, based on the proposed amounts, if a student attends the University of Idaho with a set educational cost of $20,640, the Opportunity Scholarship award amount would be calculated as follows:

<table>
<thead>
<tr>
<th></th>
<th>Student A</th>
<th>Student B</th>
</tr>
</thead>
<tbody>
<tr>
<td>Educations Cost</td>
<td>$20,640</td>
<td>$20,640</td>
</tr>
<tr>
<td>Student Contribution</td>
<td>$3,000</td>
<td>$3,000</td>
</tr>
<tr>
<td>Other scholarships and financial aid</td>
<td>$10,000</td>
<td>$15,000</td>
</tr>
<tr>
<td>Total Remaining</td>
<td>$7,640</td>
<td>$2,640</td>
</tr>
<tr>
<td>Eligible Award Amount</td>
<td>$3,500</td>
<td>$2,640</td>
</tr>
</tbody>
</table>

The actual award amount for each student may be further adjusted based on how other scholarships and financial aid are required to be applied and the actual amount charged to the student. Payments are made directly to the institution on the students behalf.

**IMPACT**

Setting the educational cost and student contribution amounts fulfills the Board’s responsibilities under administrative rule. Combined with setting the award cap, this action will enable Board staff to begin processing applications and making award determinations for FY 2018.

**STAFF COMMENTS AND RECOMMENDATIONS**

Staff recommends the FY 2018 educational cost for the Opportunity scholarship award formula to be set for each public institution as follows:

- $20,640 for students attending University of Idaho
- $19,424 for students attending Boise State University
- $20,179 for students attending Idaho State University
- $17,362 for students attending Lewis-Clark State College
- $13,458 for students attending College of Southern Idaho
$13,152 for students attending College of Western Idaho
$14,754 for students attending North Idaho College
$16,230 for students attending Eastern Idaho Technical College

Staff recommends the FY2018 educational cost for the Opportunity scholarship award formula to be set at $19,401 for students attending eligible Idaho private, not-for-profit postsecondary institutions (as defined in Idaho Code §33-4303(2)(b)). Pursuant to administrative rule, this amount is the average of the amount set for the four public 4-year institutions.

Staff recommends that the FY2018 student contribution be set at $3,000 for students attending either 4-year institutions or 2-year institutions, and to accept student-initiated scholarships and non-institutional and non-federal aid as part of the student contribution. Setting the student contribution amount at $3,000 equally balances the maximum state contribution with the required student contribution.

Staff recommends approval of the Opportunity Scholarship maximum award in the amount of $3,500 per year [note: while the maximum potential award from the state would increase to $3,500 per year, the required student contribution would remain at the current level of $3,000 per year, as described in the paragraph above].

BOARD ACTION
I move to set the FY2018 educational cost for the Opportunity scholarship award not to exceed the following amounts:
1. $20,640 for students attending University of Idaho
2. $19,424 for students attending Boise State University
3. $20,179 for students attending Idaho State University
4. $17,362 for students attending Lewis-Clark State College
5. $13,458 for students attending College of Southern Idaho
6. $13,152 for students attending College of Western Idaho

SUBJECT
Approval of the Memorandum of Understanding between Idaho State University (ISU) and the Idaho College of Osteopathic Medicine (ICOM) for Institutional Review Board (IRB) services.

REFERENCE
February 2016 Idaho State Board of Education (Board) approved Collaborative Affiliation Agreement.

August 2016 Board approved execution of Ground Lease for ICOM to build its medical education building on the ISU Meridian campus.

APPLICABLE STATUTES, RULE OR POLICY
Idaho State Board of Education Governing Policies & Procedures, Section V.I. 6.b.

BACKGROUND / DISCUSSION
On February 25, 2016, in a special meeting of the Board, Idaho State University (ISU) was authorized to execute the Collaborative Affiliation Agreement between ISU and the Idaho College of Osteopathic Medicine (ICOM) for the creation of a college of osteopathic medicine on the ISU-Meridian campus. The Collaborative Affiliation Agreement provides for the execution of a lease between the parties for an initial period of forty (40) years, with the opportunity to extend the lease for two (2) additional ten (10) year periods. Under the terms of the Ground Lease Agreement between ISU and ICOM, ICOM will lease 2.8 acres from ISU on which to build its school and related improvements.

ISU and ICOM would like to enter into a Memorandum of Understanding which states the parties intend that ISU will provide IRB services to ICOM for human subject research activities. If approved, ISU and ICOM will negotiate the complete terms and conditions in an IRB Authorization Agreement that will be presented at a future Board meeting.

IMPACT
ICOM will pay ISU for IRB services at a rate to be negotiated. At this time, it is unknown how many and what type of protocols will be submitted. However, it is possible that providing these IRB services to ICOM may entail additional ISU personnel to accommodate the increased workload.

ATTACHMENTS
Attachment 1 – IRB MOU
STAFF COMMENTS AND RECOMMENDATIONS

Board approval of the proposed MOU between ISU and ICOM will provide documentation to accreditors and other stakeholders that the Board supports negotiation of an agreement which, if subsequently approved by the Board, would provide IRB support to ICOM through ISU personnel/resources.

Staff recommends approval.

BOARD ACTION

I move to authorize Idaho State University to enter into the Institution Review Board MOU with the Idaho College of Osteopathic Medicine as presented in Attachment 1, and to authorize ISU to proceed with negotiations on an IRB Authorization Agreement.

SUBJECT

Lease of medical education space for University of Idaho (UI) WWAMI (Washington, Wyoming, Alaska, Montana and Idaho) regional medical education training program.

REFERENCE

April 2014 Idaho State Board of Education (Board) received WWAMI report including curriculum changes and use of Pullman, WA facilities.

April 2015 Board received update on WWAMI curriculum changes and use of Pullman, WA facilities.

APPLICABLE STATUTE, RULE, OR POLICY

Idaho State Board of Education Governing Policies & Procedures, Section V.I.2.e

BACKGROUND/DISCUSSION

To meet expanded student and program responsibility for the UI’s WWAMI medical education program, the UI has already repurposed or remodeled existing UI facilities in Moscow. However, some specialized medical education facilities currently provided to UI by Washington State University (WSU) at Pullman, WA will, as of 2019, no longer be available to UI as WSU develops its own medical school in Spokane. Consequently, UI must acquire an anatomy lab along with supporting medical student and faculty space required for delivery of the specialized laboratory training needed to meet WWAMI’s program obligations for UI medical students in Moscow. UI has determined that collaborating with Gritman Medical Center and utilizing approximately half of the third floor of their newly constructed medical service building near UI’s existing WWAMI building is and is preferable because it will reduce UI’s expected construction time and costs to provide such specialized space on the UI campus. This location also creates substantial program advantages due to synergies between WWAMI and Gritman as well as its location in Gritman’s expanding regional medical campus that adjoins the UI campus in downtown Moscow.

IMPACT

Existing and expected WWAMI program budget allocations will be used to cover rent and facility operating costs for the terms of the proposed lease. The proposed agreement establishes a rental rate that covers the $2.9 million expense for Gritman to finish highly specialized anatomy laboratory space along with teaching space required for this essential medical education experience. The initial lease term is ten years, but may be renewed by UI at established renewal rates. UI may terminate the lease early and cease its base rent and operating cost expenses, but in the unlikely event of early lease termination, UI will be required to reimburse the
landlord for the specialized tenant improvements provided by Gritman at lease commencement. In addition to rent, UI is also responsible for metered utility expenses, janitorial, and some allocated building expenses. This project is critical to providing facilities needed for medical education and is separate and distinct from other WWAMI capital construction projects.

ATTACHMENTS
Attachment 1 – Draft Lease Agreement Page 3
Attachment 2—Current and Proposed WWAMI Facilities in Moscow Page 265

STAFF COMMENTS AND RECOMMENDATIONS
Board Policy V.I.2.e. requires Board approval for leases which exceed five years or when lease costs will exceed one million dollars. Both criteria apply to the initial term of the proposed UI-Gritman lease. The proposed actions will support the recommendations of the Board’s Medical Education Committee and ongoing Health Education Plan initiatives from the Governor and Legislature.

Staff recommends approval.

BOARD ACTION
I move to approve the request by the University of Idaho to enter into a lease agreement with Gritman Medical Park, LLC in substantive conformance with the agreement provided as Attachment 1; and further to authorize the Vice President for Infrastructure for the University of Idaho to execute all necessary transaction documents for leasing this facility.

Lessee and Lessor each as a "Party" and collectively the "Parties" to this Lease. Lessee and Lessor agree as follows:

1. Leased Premises. Lessee does hereby lease from Lessor, upon the terms and conditions set forth below, approximately 8230 square feet as depicted on Exhibit A (the "Leased Premises") and located at 803 South Main Street, Moscow, Idaho (collectively, the real property and all improvements thereon being the "Facility"), together with all equipment, fixtures and furnishings located on the Leased Premises as of the Commencement Date, including without limitation, the equipment, fixtures and furnishings described on Exhibit B ("Leased Fixtures"). If suite number is not indicated upon execution Lessor shall provide an addendum to this Lease to identify the suite number once such suite number is determinable.

2. Common Areas. In addition, Lessor shall make available at all times during the Term of this Lease such Common Areas as Lessor, in Lessor’s sole and exclusive discretion, shall from time to time deem appropriate. For purposes of this Lease, the "Common Areas" means the land and improvements which at the time in question have been designated by Lessor for common use by or for the benefit of one or more lessees, including without limitation, any land and improvements utilized as parking areas, passenger and delivery loading areas, sidewalks and driveways, interior corridors, stairways, elevators, restrooms and such other common areas as may be designated from time to time by the Lessor. All Common Areas shall be subject to reasonable rules and regulations for the use thereof as prescribed from time to time by Lessor.

3. Term. This Lease shall be in effect for the term commencing _________, 2017 (the "Commencement Date") until 11:59 p.m., _______, 2027 (the "Initial Term"). Lessee shall have the right and option ("Renewal Option") to extend this Lease for four (4) additional five (5) year terms beyond the expiration of the Initial Term (each, a "Renewal Term") upon the terms and conditions set forth in this Lease. The Initial Term, as extended by any Renewal Term, shall constitute the "Term" of this Lease. Lessee may exercise Lessee’s Renewal Option by providing at least one hundred and eighty (180) days' Notice to Lessor prior to the expiration of the Initial Term or the then current Renewal Term, as applicable, and only if Lessee at the time of exercise and at the beginning of the subsequent Renewal Term is not in default beyond any period provided by this Lease for curing the default.

In the event the Commencement Date cannot be determined upon the date this Lease is executed, the Parties agree that the Commencement Date will be added through an addendum executed by both Parties and will be the date upon which Lessee takes possession of the Leased Premises.

4. Rent.

4.1 Rent. Beginning on the Commencement Date Lessee shall pay to Lessor as annual base rent for the Leased Premises the amount set forth in Section 4.2, which shall be calculated by multiplying $12 per square foot of space multiplied by the total rentable square feet (as identified in Section 1) of the Leased Premises ("Base Rent"). Base Rent shall be paid in advance on each anniversary of the Commencement Date throughout the Term of the Lease. All Base Rent, all Additional Rent (as defined below) and all other amounts to be paid by Lessee to Lessor under this
Lease shall be paid in lawful money of the United States of America and shall be paid without
deduction or offset, prior notice or demand, at such place as may be designated from time to time by
Lessor. Unless otherwise provided in writing by Lessor or this Lease, there shall be no abatement for
any reason of the Base Rent or any other amounts payable by Lessee to Lessor under this Lease.
Lessor and Lessee agree and acknowledge that Base Rent has been calculated based on an agreed
upon lease rate for the Leased Premises but does not include those additionally specified costs
relating to buildout of the Leased Fixtures as specified in Exhibit B ("Leased Fixture Cost"), or certain
ongoing operating costs which are explicitly listed herein. All such additional amounts identified in
Section 4.5, which pursuant to this Lease are to be paid by Lessee to Lessor in addition to the Base
Rent, shall be considered “Additional Rent” for all purposes under this Lease and shall be included in
the reference to “Rent.”

4.2 Base Rent, Common Area Maintenance Expense, and Leased Fixture Cost

anniversary thereof during the Initial Term, Base Rent, Common Area Maintenance Expense and

In the event that Lessee exercises one or more Renewal Options provided herein, the Base
Rent and Common Area Maintenance Expense payable during each Renewal Term shall be in
accordance with the following table:
4.3 Early Termination:

A. Upon no less than one year’s prior written notice to Lessor, Lessee shall have the unilateral right to terminate this Lease and all rights and obligations of this lease shall terminate on the date that is one year after Lessee’s notice of early termination (the “Early Termination Date”), except for those rights and obligations that survive termination as specifically provided herein. However, no less than thirty days prior to such Early Termination Date, Lessee shall pay Lessor any unpaid amounts from the Leased Fixture Costs for the entire Term remaining unpaid as of the Early Termination Date as shown in the table in Section 4.2, including, for the avoidance of doubt, the unpaid Leased Fixture Costs for all Renewal Terms, whether any Renewal Option has been exercised or not. So long as Lessee provides the notice required in this paragraph to terminate this Lease early, Lessee will not be responsible for paying any rent, except any remaining unpaid amounts of Leased Fixture Costs for the entire Term, for a time period extending beyond the Early Termination Date as provided herein; provided however, that if Lessee finds a tenant who enters into a replacement lease for the Leased Premises for the same or greater Rent for the entire remaining Term of this Lease, including all Renewal Terms, whether any Renewal Option has been exercised or not, Lessee shall have no obligation to pay remaining Leased Fixture Costs. Any new tenant identified by Lessee shall be subject to Lessor’s prior written consent in each instance, which shall not be unreasonably withheld. Any new tenant and replacement lease is contingent upon the space retaining its medical character and the replacement tenant being sufficiently creditworthy to satisfy the obligations of the replacement lease. Any attempt to replace Lessee with a replacement tenant without the prior written consent of Lessor shall be wholly null and void.
B. In the event Lessee terminates this Lease prior to the end of the Initial Term without giving the notice required in Section 4.3(A), Lessee’s duty to pay rent will continue as provided in this Lease and the other terms of this paragraph will apply. Lessor shall mitigate by seeking a qualified lessee to occupy the Leased Premises and to maintain the space’s medical character. Lessor will give full consideration to any qualified lessee identified by Lessee as a potential new tenant; provided that any new tenant and replacement lease is contingent upon the space retaining its medical character and the replacement tenant being sufficiently creditworthy to satisfy the obligations of the replacement lease. Lessee shall pay any rent outstanding in accordance with the terms of this Lease. Upon the execution of a lease with a subsequent lessee, Lessee’s obligation to pay future rent shall be reduced by the amount of rent payable by the subsequent lessee, as determined in the subsequent lease. Lessor shall not unreasonably reject subsequent lessees that maintain a medical related business. Lessee shall reimburse Lessor for all reasonable expenses Lessor incurs as a result of seeking a subsequent lessee.

4.4 Late Charge. If any sum becomes owing to Lessor under this Lease or if any Rent is not paid within twenty (20) days after the due date, such Rent shall accrue interest from the date due at the rate of eighteen percent (18%) per annum or the maximum rate allowable under applicable law, whichever is less.

4.5 Additional Rent. In addition to the Base Rent under this Lease, Lessee shall be responsible for those costs and expenses incurred by Lessor with respect to the Leased Premises as set forth in this Lease, including, (i) taxes as described in Section 6, (ii) insurance as described in Section 17.2, (iii) Lessor’s costs to maintain Common Areas including but not limited to custodial services for shared hallways and bathrooms, elevator maintenance, exterior window cleaning, grounds keeping, parking lot maintenance and snow removal (the “Common Area Maintenance Expenses”) in the amounts set forth in Section 4.2, and (iv) Leased Fixture Costs as established above in Sections 4.1 and 4.2. Lessor and Lessee agree that as of the Commencement Date, Lessee’s prorata share for purposes of calculating Additional Rent for item (ii) is 18.5% (“Lessee’s Prorata Share”), representing the ratio that the rentable area of the Leased Premises bears to the total rentable area of Facility.

5. Utilities. Lessee shall be solely responsible for and shall promptly pay all charges when due for utilities furnished at the Leased Premises during the Term of this Lease, including, but not limited to electricity, gas, telephone, water, sewer and garbage services (including Hazardous Material removal). Lessor shall furnish such amounts and types of utilities and janitorial services to the Common Areas as Lessor shall at any given time deem appropriate for the operation and maintenance of the Common Areas.

6. Taxes. Lessee may be exempt by law from real and personal property taxes and shall only pay to Lessor as Additional Rent those taxes lawfully applicable to Lessee’s use of the Leased Premises, Lessee’s use of Lessor’s personal property located upon the Leased Premises or Common Area, or Lessee’s ownership of property located on the Leased Premises (if any). Lessee shall provide to Lessor or directly to the taxing jurisdiction verification, if requested, to confirm Lessee’s tax exempt status. Nothing contained herein shall be construed to require Lessee to pay any estate, gift, inheritance or net income tax of Lessor. If any such lawfully applicable taxes on Lessee’s real or personal property or trade fixtures located on the Leased Premises, Lessee’s use of the Leased Premises, or Lessee’s use of Lessor’s personal property located upon the Leased Premises or Common Area are levied against Lessor or the Facility, Lessor shall have the right to pay such levy or assessment. Lessee shall, upon demand, as the case may be, repay Lessor the lawfully applicable taxes so levied, assessed or paid by Lessor which are directly attributable to Lessee’s occupancy of the Leased Premises, Lessee’s use of Lessor’s personal property located upon the Leased Premises or Common Area, or Lessee’s ownership of property located on the Leased Premises. Lessee shall
promptly pay within thirty (30) days of receipt of an invoice from Lessor, any taxes lawfully applicable to Lessee’s use of the Leased Premises, Lessee’s use of Lessor’s personal property located upon the Leased Premises or Common Area, or Lessee’s ownership of property located on the Leased Premises.

7. Acceptance; Maintenance and Repairs. Leased Premises are built to suit Lessee’s specifications, as provided in Exhibit B. Lessee has not had an opportunity to inspect the Leased Premises at the time of execution of this Lease. In the event Lessor does not comply with Lessee’s specifications in Exhibit B, Lessee shall provide notice of such deficiency to Lessor. Upon receipt of notice Lessor shall remedy the deficiency within thirty (30) days. If Lessor is unable to remedy the deficiency, Lessor may elect to terminate this Lease at no cost to Lessee. Any Lessee requested modifications to Lessee’s specifications in Exhibit B subsequent to the execution of this Lease require Lessor’s written consent and Lessee shall pay for such modifications. Lessor grants to Lessee the quiet use and enjoyment of the Leased Premises for all purposes permitted under this Lease.

7.1 Maintenance and Repair by Lessee. Lessee agrees at all times during the Term of this Lease, at Lessee’s sole expense, to keep and maintain the Leased Premises in good and clean condition and repair, including without limitation, the Leased Fixtures, and at the termination of this Lease, to surrender the Leased Premises and the Leased Fixtures to Lessor in as good condition as when delivered to Lessee, ordinary wear and tear resulting from careful and reasonable use excepted.

7.2 Maintenance and Repair by Lessor. Subject to Section 7.1, Lessor shall repair and maintain the Facility including the Common Areas, plumbing systems, heating and air conditioning, elevators, electrical systems, window cleaning, and snow removal at the Facility. Lessor shall not be liable for any failure to make any repairs or to perform any maintenance unless such failure shall persist for an unreasonable time after Notice of the need for such repairs or maintenance is given to Lessor by Lessee. Lessor shall make reasonable efforts to repair or perform maintenance as required within 10 days after receiving such Notice. There shall be no abatement of Rent and no liability of Lessor by reason of any injury to or interference with Lessee’s business arising from the making of any repairs, alterations or improvements in or to any portion therein. Lessor shall, except to the extent prevented by practical impossibility, and except as otherwise provided herein, keep HVAC systems, glass, plumbing, and electrical systems, the foundation roof and roof membrane, roof drainage systems, and structural elements of the Leased Premises and Facility in good repair, order and condition, reasonable wear and tear expected. All repairs contemplated in this Section 7.2 shall be the sole responsibility of the Lessor, without right to reimbursement from Lessee. Lessor shall be solely responsible to meet all ADA (American with Disabilities Act) requirements in the Facility at Lessor’s sole cost and expense, including parking, structure, sidewalks, walkways, stripping, point of entry, curbs, van accessible parking, ramps, driveways, etc.

8. Use of Premises. The Facility (of which the Leased Premises is part) shall be used and occupied by Lessee to support all aspects of Lessee’s education, research and outreach functions as a public educational institution, inclusive of all aspects of the WWAMI medical education program, which Lessee participates in, and which is provided under the auspices of the University of Idaho. Lessee shall not do or permit anything to be done on the Leased Premises which will in any way obstruct or interfere with the rights of other Lessees or occupants of the Leased Premises or injure them or allow the Leased Premises to be used for any improper, immoral, or unlawful purpose, nor shall Lessee cause, maintain or permit any nuisance on the Leased Premises. The Parties agree that normal use of the Leased Premises, for the purpose herein described, does not obstruct or interfere with other occupants or Lessees of the Facility, and that it does not constitute an improper, immoral, or unlawful purpose.
9. **Compliance with Environmental Laws.** From the date of occupancy, both Parties represent, warrant, and covenant to the other Party that:

A. Each Party shall remain in compliance with all applicable laws, ordinances, and regulations (including consent decrees and administrative orders) relating to public health and safety and protection of the environment, including those statutes, laws, regulations, and ordinances identified in subparagraph (B), all as amended and modified from time to time. All governmental permits relating to the use or operation of the Facility, Common Areas, or Leased Premises required by applicable environmental laws are and will remain in effect, and each Party will comply with them.

B. For the purpose of this Section 9, the term "**Hazardous Material**" includes, without limitation, any flammable explosives, radioactive materials, hazardous materials, hazardous wastes, hazardous or toxic substances, or related materials defined in the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (42 U.S.C. §9601 et seq.), the Hazardous Materials Transportation Act, as amended (49 U.S.C. § 1801 et seq.), the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. § 6901 et seq.), and in the regulations adopted and publications promulgated pursuant to them, or any other federal, state, or local environmental laws, ordinances, rules, or regulations now enacted or enacted after this date (collectively, the "**Environmental Laws**").

C. Neither Party will permit to occur any release, generation, manufacture, storage, treatment, transportation, use, or disposal of Hazardous Material in a way that is contrary to law, on, in, under, or from the Facility, Common Areas or Leased Premises, and if any hazardous material is found on the Facility, Common Areas, or Leased Premises which is a result of either Party's operations, the Party responsible for such Hazardous Material at its own cost and expense, will immediately take such action as is necessary to detain the spread of and remove the Hazardous Material to the complete satisfaction of the appropriate government authorities, and, in the case of Hazardous Materials from Lessee's operations, to the satisfaction of Lessor as well.

D. Each Party responsible for Hazardous Material in the Facility, Common Areas or Leased Premises will indemnify and hold harmless the other Party and its employees, agents, officers, and directors from and against any claims, demands, penalties, fines, liabilities, settlements, damages, costs, or expenses of any kind or nature, known or unknown, contingent or otherwise, rising out of or in any way related to the acts and omissions of the responsible Party, its officers, directors, employees, agents, contractors, subcontractors, sublessees, and invitees with respect to (1) the generation, manufacture, operations involving, transport, treatment, storage, handling, production, processing, disposal, release, or threatened release of any Hazardous Materials which are on, from or affecting the Facility, Common Areas, or Leased Premises; (2) any personal injury (including wrongful death) or property damage (real or personal) arising out of or related to such Hazardous Materials; (3) any lawsuit brought or threatened, settlement reached, or governmental order relating to such Hazardous Materials, and (4) violations of laws, order, regulations, requirements, or demands of governmental authorities or any reasonable policies or requirements of Lessor, which are based upon or in any way related to such Hazardous Material including, without limitation, attorney and consultant fees, investigation and laboratory fees, court costs, and litigation expenses. This indemnification will survive this Lease. Lessee's indemnification herein is subject to the limitations and provisions in the Idaho Tort Claims Act.

10. **Alterations and Additions.**

10.1 **Lessor's Consent.** Lessee shall not make any alterations or additions to the Leased Premises nor make any contract therefor, including fixtures or other improvements to the Leased
Premises ("Improvements") during the Term of this Lease, without Lessor’s written consent being first obtained, which consent shall not be unreasonably withheld. Upon receipt of written request from Lessee for alteration or addition to the Leased Premises Lessor shall provide written response within fifteen (15) days.

10.2 Improvements. If such Improvements are approved by Lessor, any such Improvements shall be the Lessee’s financial responsibility and satisfy the following requirements:

(a) work shall proceed upon (i) Lessor’s written approval of Lessee’s contractor, (ii) delivery to Lessor of certificates of insurance prior to commencement of work in the Leased Premises indicating that Lessee’s contractor carries public liability and property damage insurance under a comprehensive liability insurance policy covering bodily injury in the amounts of One Million Dollars ($1,000,000) per person and One Million Dollars ($1,000,000) per occurrence and covering property damage in the amount of One Million Dollars ($1,000,000), and (iii) Lessor’s written approval of plans and specifications for such work.

(b) All work shall be done in conformity with a valid building permit when required, a copy of which shall be furnished to Lessor before such work is commenced, and in any case, all such work shall be performed in a good and workmanlike manner and in compliance with all requirements of applicable governmental authorities and of the insurers of the Facility. Notwithstanding any failure by Lessor to object to any such work, Lessor shall have no responsibility for Lessee’s failure to meet all applicable regulations.

(c) Lessee or Lessee’s contractor shall coordinate the work through Lessor’s representative so as to minimize disruption to other lessees. For purposes of this section, Lessor’s representative is Gritman Engineering Director.

(d) Lessee shall promptly reimburse Lessor upon demand for any extra expense incurred by the Lessor by reason of faulty work done by Lessee or its contractor, or by reason of any delays caused by such work, or by reason of inadequate clean-up.

(e) Lessee shall indemnify and hold Lessor harmless from any loss, cost or expense, including attorneys’ fees and costs, incurred by Lessor as a result of any defects in design, materials or workmanship resulting from Lessee’s alterations, additions or improvements to the Leased Premises for any claims made during the Term of this Lease.

10.3 Ownership. Any and all Improvements to the Leased Premises and fixtures placed thereon by Lessee during the Term of the Lease or any renewal period shall be and become the property of Lessor, except that Lessee shall have the right to remove Lessee’s trade fixtures at Lessee’s expense at the end of the Term, provided that any and all damage caused by such removal shall be promptly repaired by Lessee.

11. Signage. Subject to (i) Lessor’s prior written approval as to the size and location of such proposed signage, and (ii) applicable laws, ordinances, or other restrictions, Lessee shall be permitted to install, at Lessee’s sole expense, identifying signage on or within the Leased Premises and adjacent to Lessee’s suite. No other signage shall be permitted without the Lessor’s prior written consent. Signage as provided in Exhibit C is approved by Lessor and no further approval is required.

12. Lessor’s Right of Entry. Upon provision of notice to Lessee not less than twenty four (24) hours in advance, Lessor and the authorized representatives of Lessor may enter the Leased Premises at all reasonable times for the purpose of exhibiting the same to interested third parties and, during the
13. Damage and Destruction.

13.1 Damage and Restoration. If either the Leased Premises is damaged or destroyed to the extent that Lessor reasonably determines that it cannot, with reasonable diligence, be fully repaired or restored by Lessor within ninety (90) days after the date of such damage or destruction, either Lessor or Lessee may terminate this Lease. Lessor shall notify Lessee of any such determination in writing, within thirty (30) days after the date of such damage or destruction. If Lessor so determines that the Leased Premises can be fully repaired or restored within the ninety (90) day period, or if Lessor so determines to the contrary but neither Party terminates this Lease, then this Lease shall remain in full force and effect and Lessor shall diligently repair or rebuild the Leased Premises to return such improvements to the condition in which it/they existed immediately prior to such damage or destruction, as soon as possible and within the maximum period of ninety (90) days, if applicable.

13.2 Rent Abatement. During any period of reconstruction or repair of the Leased Premises, Lessee shall continue the operation of its business in the Leased Premises to the extent reasonably practicable. Rent due and payable hereunder shall be abated proportionately during any period in which, by reason of any such damage or destruction to the Leased Premises, the operation of Lessee’s business in the Leased Premises experiences substantial interference, and that continuation of all or part of Lessee’s business in the Leased Premises is not practical pending reconstruction. In such event, the Rent payable hereunder, or an equitable proportion thereof in the event Lessee continues to conduct business in the Leased Premises, shall abate from the date of damage or destruction until Lessee is able to conduct its full business operations in the Leased Premises.

14.1 Condemnation. If any portion of the Leased Premises is acquired or condemned by eminent domain or inversely condemned or sold in lieu of condemnation, for any public or quasi-public use or purpose (“Condemned”), then this Lease shall automatically terminate as of the date of title vesting in such proceeding or conveyance in lieu of any proceeding, and Rent shall be prorated to the date of such termination.

14.2 Award. Any award for any taking of all or any part of the Leased Premises under the power of eminent domain shall be the sole property of Lessor, whether such award shall be made as compensation for diminution in value of the leasehold or for the taking of the fee; provided, however, that Lessee shall be entitled to any amounts specifically awarded to it for the taking of its personal property or trade fixtures so long as any award given to Lessee does not lessen the recovery or award allocable to Lessor.
15. Subordination; Attornment; Estoppel.

15.1 Subordination. This Lease, at Lessor’s option, shall be subject and subordinate to all ground or underlying leases which now exist or may hereafter be executed affecting the Leased Premises or Facility, and to the lien of any mortgage or deeds of trust in any amount whatsoever which now exist or may hereafter be placed upon the Leased Premises or the underlying land (Facility) or Lessor’s interest therein, and to all advances on the security thereof, and all extensions, modifications, consolidations, renewals and replacements thereof. This provision shall be self-operative without the necessity of the execution and delivery of any further instruments on the part of Lessee to effectuate such subordination; provided, however, that so long as the Lessee shall not be in default under the terms of this Lease, the Lease shall not be terminated nor shall any of the Lessee’s rights, benefits, and obligations under said Lease be disturbed by such lender or ground Lessor in the exercise of its rights under the mortgage, deed of trust or ground lease. If any mortgagee, trustee, or ground Lessor shall elect to have this Lease prior to the lien of its mortgage, deed of trust or ground lease, and shall give written notice thereof to Lessee, this Lease shall be deemed prior to such mortgage, deed of trust or ground lease, whether this Lease is dated prior to or subsequent to the date of said mortgage, deed of trust, or ground lease or the date of the recording thereof.

A. Lessee covenants and agrees to execute and deliver upon demand without charge therefor, such reasonable acknowledgements required by Lessor or Lessor’s lender to subordi
te this Lease to the lien of any such mortgages or deeds of trust as may be required, so long as such subordination does not disturb the rights of Lessee provided by the existing terms of this Lease and the obligations and benefits of this Lease, if ever released by Lessor, are assumed by the lender or lender’s assign (so long as the Lessee shall not be in default under the terms of this Lease).

B. Notwithstanding anything in this Lease to the contrary, this Lease is subject and subordinate to all covenants, conditions, restrictions, and easements affecting the Leased Premises shown in the attached Exhibit D. Additional covenants, conditions, restrictions and easements may be imposed on the Leased Premises at any time as a result of acts by governmental entities or utilities. Lessor shall not be liable to Lessee for any injury arising from such subsequent acts or from the Lessor’s amendment of the documents referenced within this Section 15.1(B). Lessee shall not do or omit to do any act, nor shall Lessor be required to do any act, which constitutes, or which may constitute, a default under or a violation of such covenants, conditions, restrictions and easements on the part of Lessor.

15.2 Attornment. In the event any mortgagee, beneficiary or other purchaser at a foreclosure sale acquires title to the Leased Premises, or in the event any ground Lessor causes Lessor’s interest in the Leased Premises to be terminated and succeeds to Lessor’s interest in the Leased Premises, Lessee shall attorn to such mortgagee, beneficiary, purchaser or ground Lessor and recognize such as Lessor under this Lease, provided such mortgagee, beneficiary, purchaser or ground Lessor agrees in writing to accept Lessee and to be bound by the terms of this Lease. In the event of a sale or conveyance by Lessor of Lessor’s interest in the Leased Premises or in the Facility other than a transfer for security purposes only, Lessor shall be relieved from and after the date specified in any such notice of transfer of all obligations and liabilities accruing on the part of Lessor, provided that any funds in the hands of Lessor at the time of transfer in which Lessee has an interest, shall be delivered to the successor of Lessor. This Lease shall not be affected by any such sale and Lessee agrees to attorn to the purchaser or assignee. Estoppel. Lessee shall at any time upon not less than ten business days prior Notice from Lessor execute, acknowledge and deliver to Lessor a statement in writing (a) certifying that this Lease is unmodified and in full force and effect (or, if modified, stating the nature of such modification and certifying that this Lease, as so modified, is in full force and effect) and the date to which the Rent and other charges are paid in advance, if any, and (b)
acknowledging that there are not, to Lessee’s knowledge, any uncured defaults on the part of Lessor hereunder, or specifying such defaults if they are claimed, and (c) acknowledging and certifying such other and further facts in connection with this Lease as may be reasonably requested by Lessor or a prospective purchaser or lender of the Facility or any part thereof. Any such statement may be conclusively relied upon by any prospective purchaser, lien holder, or encumbrancer of the Leased Premises or Facility.

16. **Indemnification; Waiver of Liability.**

16.1 **Indemnification.** Subject to the limits of liability specified in Idaho Code 6-901 through 6-929, known as the Idaho Tort Claims Act, Lessee shall indemnify and hold Lessor harmless against and from any and all claims arising from Lessee’s use of the Leased Premises, from any activity by Lessee in or about the Leased Premises or any activity permitted or suffered by Lessee in or about the Leased Premises, from any negligent or intentional act or omission on the part of Lessee or Lessee’s agents, contractors, or employees, and from all costs, attorneys’ fees, expenses and liabilities incurred in any such claim and that arise as a direct result of and which are caused by Lessee’s possession, operations or performance under this Lease. This indemnification does not apply when such claims, damages, and liabilities are the result of negligent or willful acts, errors, omissions, or fault on the part of Lessor, its agents, contractors, employees or assigns, or when the claim or suit is made against Lessor by Lessee or the State of Idaho or any of its agencies claiming through or under the Lessee. Lessee’s liability coverage is provided through a self-funded liability program administered by the State of Idaho Office of Insurance Management. Limits of liability, and this indemnification, are $500,000 Combined Single Limits, which amount is Lessee’s limit of liability under the Idaho Tort Claims Act.

Lessor shall indemnify and hold Lessee harmless from and against any and all claims arising from Lessor’s use of the Facility, from any activity by Lessor in or about the Facility or any activity permitted or suffered by Lessor in or about the Facility, from any negligent or intentional act or omission on the part of Lessor or Lessor’s agents, contractors, or employees, and from all costs, attorneys’ fees, expenses and liabilities incurred in any such claim and that arise as a direct result of and which are caused by Lessor’s possession, operations or performance under this Lease. This indemnification does not apply when such claims, damages, and liabilities are the result of negligent or willful acts, errors, omissions, or fault on the part of Lessee or its agents, contractors, employees or assigns, or when the claim or suit is made against Lessee by Lessor.

16.2 **Waiver of Liability.** Subject to the limits of liability specified in Idaho Code 6-901 through 6-929, known as the Idaho Tort Claims Act, Lessee, as a material part of the consideration to Lessor, hereby assumes all risk of damage to property or injury to persons in, upon or about the Leased Premises arising from any cause and Lessee hereby waives all claims in respect thereof against Lessor except for any acts of negligence by Lessor, Lessor’s agent or Lessor’s invitee while on the Leased Premises. Except as provided herein, Lessor shall not be liable for injury to Lessee’s business or loss of income therefrom or for damage which may be sustained by the person, goods, wares, merchandise or property of Lessee, its employees, invitees, customers, agents or contractors or any other person in or about the Leased Premises caused by or resulting from fire, steam, electricity, gas, ice, snow, water or rain, which may leak or flow from or into any part of the Leased Premises, or from the breakage, leakage, obstruction or other defects of the pipes, sprinklers, wires, appliances, plumbing, air conditioning or lighting fixtures of the same, whether the said damage or injury results from conditions arising upon the Leased Premises or upon other portions of the Facility, or from other sources or places and regardless of whether the cause of such damage or injury or the means of repairing the same is inaccessible to Lessee. Except for acts by Lessor or Lessor’s agent which are intentional or negligent, Lessee agrees to look solely to Lessor’s estate and property in the
Facility, or the proceeds thereof, including any insurance proceeds, for the satisfaction of Lessee’s remedies for the collection of a judgment or other judicial process requiring the payment of money by Lessor in the event of any default by Lessor, and no other property or assets of Lessor shall be subject to levy, execution or other enforcement procedure for the satisfaction of Lessee’s claims.

17. Insurance.

17.1 Liability Insurance. Lessee shall either obtain the insurance Lessee deems advisable, or Lessee shall be deemed to self-insure subject to the limits of liability of the Idaho Tort Claims Act. Lessee waives all rights on insurance purchased by Lessor.

17.2 Fire and Extended Coverage Insurance. The following provisions shall apply with regards to Fire and Extended Coverage insurance.

A. Lessor shall procure and maintain during the Term of this Lease, Fire, and Extended Coverage Insurance on the Facility and other improvements in amounts as may from time to time be determined by Lessor (“Lessor’s Insurance”), and the cost thereof, together with the cost of any other insurance carried by Lessor in connection with the Facility and the operation thereof, shall be included Additional Rent. Lessee shall promptly pay within thirty (30) days of receipt of an invoice from Lessor, Lessee’s Prorata Share of Landlord’s Insurance as set forth in the received invoice.

B. Lessee shall pay for all increases in Landlord’s Insurance premiums caused by Lessee’s use or occupancy of the Leased Premises, acts of negligence, or violation of the policy’s provisions.

C. Lessee shall at all times during the Term hereof, and at its cost and expense, maintain in effect policies of insurance covering its personal property, fixtures and equipment located on the Leased Premises, in an amount not less than their actual cash value from time to time during the Term of this Lease, providing protection against any peril included within the classification Fire and Extended Coverage, together with insurance against vandalism and malicious mischief. Lessee shall be responsible, at its own costs and expense, to acquire its own business interruption insurance due to casualty damage to the Leased Premises. Lessor shall have no obligation to repair or replace any of Lessee’s personal property, fixtures or equipment.

17.3 Waiver of Subrogation. Any policy or policies of insurance, which either Party obtains in connection with the Facility or Leased Premises, or Lessee’s personal property therein, shall include a clause or endorsement denying the insurer any rights of subrogation against the other Party to the extent rights have been waived by the insured prior to the occurrence of injury or loss. Lessor and Lessee waive any rights of recovery against the other for damage or loss due to hazards covered by insurance containing such a waiver of subrogation clause or endorsement to the extent of the damage or loss covered thereby. Notwithstanding anything to the contrary contained in this Section or elsewhere in this Lease, neither Party shall be deemed to have released or waived any claim against the other for damages to property within the deductible amount of such Party’s insurance policy, which deductible amount shall not exceed Five Thousand Dollars ($5,000), whether or not at any time the actual deductible is greater than that amount.

17.4 Forms and Policies. All insurance required to be carried by Lessee shall be on forms and with loss payable clauses satisfactory to Lessor naming Lessor and Lessee as insured as their interest may appear. No such policy shall be cancelable (or coverage reduced) except after thirty (30) days’ written notice to Lessor or ten (10) days written notice for non-payment of premium. All such policies shall be written as primary policies, not contributing with and not in excess of coverage which
Lessor may carry. Lessee shall at least ten (10) ten days prior to the expiration of such policies furnish Lessor with renewals or "binders" thereof, or Lessor may order such insurance and charge the costs thereof to Lessee, which amount shall be payable by Lessee upon demand. Lessee shall have the right to provide such insurance coverage pursuant to blanket policies obtained by Lessee provided such blanket expressly afford coverage to the Leased Premises and to the Lessee as required by this Lease.

18. Default and Breach. Time is of the essence of this Lease. A failure by either Party to perform any of the provisions of this Lease shall be an event of default and breach of this Lease. In the event that either Party should fail or refuse to observe, comply with, or perform any term or condition of this Lease on their part to be observed, complied with or performed, then the other Party shall, at its sole option, have, in addition to all other rights and remedies proved at law and in equity, the right either to terminate this Lease, upon the terms and conditions contained below. Before the non-breaching Party shall be entitled to terminate this Lease for either failure to pay the Rent as stated in this Lease, or failure to comply with any provision of this Lease, it shall first give the breaching Party thirty (30) days prior Notice of default. It shall set forth in such Notice of default, with reasonable specificity, the nature of the default or defaults on the part of the breaching Party. Such Notice of default shall comply with the Notice provisions set forth in Section 19. In the event that the breaching Party should cure the default or defaults within thirty (30) days, the non-breaching Party shall not have the right to terminate this Lease. Otherwise, the non-breaching Party shall have the right, at the expiration of the said thirty (30) day period, to terminate this Lease without the necessity of providing any further Notice to the other Party.

21. Assignment.

21.1 By Lessee. Lessee shall not (voluntarily or involuntarily, whether by merger, consolidation, dissolution, operation of law, or any other manner) assign, license, transfer, mortgage or otherwise encumber all or any part of Lessee’s interest in this Lease or in the Leased Premises, and shall not sublet or assign all or any part of the Leased Premises, without the prior written consent of Lessor in each instance, such consent to not be unreasonably withheld or delayed. Any assignment is contingent upon the space retaining its medical character. Any attempted assignment, transfer, mortgage, encumbrance or subletting without such consent shall be wholly null and void. No such assignment or subletting shall relieve Lessee of any liability under this Lease. Consent to any such assignment or subletting by Lessor shall not operate as a waiver of the necessity for a consent to any subsequent assignment or subletting, and the terms of such consent shall be binding upon any person holding by, under or through Lessee.

21.2 By Lessor. Lessor shall have the right to sell, assign, transfer, convey, or mortgage its interest in this Lease and in and to the Leased Premises or the fee parcel. Any such sale, assignment, transfer, conveyance, or mortgage shall not result in the disruption of Lessee’s quiet enjoyment of the Leased Premises and any such sale, assignment, transfer, conveyance, or mortgage shall be subject to the terms of this Lease. Lessor may sell all or any portion of Lessor’s interest in and to the Leased Premises or fee parcel, and may otherwise assign and transfer this Lease. Any assignee or successor-in-interest shall assume all obligations of Lessor under this Lease, and thereupon Lessor shall be relieved of all liabilities and obligations hereunder.

22.1 Binding Effect. This Lease shall inure to the benefit of and shall be binding upon the Parties and their respective successors and assigns.

22.2 Severability. Each covenant, agreement and provision of this Lease shall be construed to be a separate covenant, agreement and provision. If any covenant, agreement or provision of this Lease or the application thereof to any person or circumstance shall to any extent be invalid or unenforceable, the remainder of this Lease, or the application of such covenant, agreement or provision to any person or circumstances other than those as to which such covenant, agreement or provision is invalid or unenforceable, shall not be affected thereby and each covenant, agreement and provision of this Lease shall be valid and enforceable to the extent permitted by law, except in the event where the invalidation would cause significant harm to either Party in which event the harmed Party may terminate this Lease upon ninety (90) days written notice to the other Party and where the Parties are unable to amend the invalidated provision to the satisfaction of both Parties. Significant harm is defined as any invalidation which would undermine a party’s purpose for entering into this Lease, including, but not limited to, the defined use of the Leased Premises.

22.3 Waiver. No waiver of any covenant, condition or provision of this Lease, including this one, shall be deemed valid unless made in writing and executed by Lessor. No waiver of any covenant or condition of this Lease by Lessor shall be deemed to imply or constitute a further waiver of the same covenant or condition or of any other covenant or condition of this Lease. Whenever in this Lease Lessor reserves or is given the right and power to give or withhold its consent to any action on the part of Lessee, such right and power shall not be exhausted by the exercise on one or more occasions, but shall be a continuing right and power for the entire Term.
22.4 **Attorneys' Fees.** If a dispute arises as to whether either Party is in breach of this Lease, the substantially prevailing Party shall be awarded reasonable attorney fees and costs in any suit, action or proceeding, including without limitation trial, arbitration, mediation, or appeal, as awarded by the court, arbiter or mediator.

The Parties enter into this Agreement with the intent of conducting their relationship in full compliance with applicable state, federal, and local law, including without limitation, Medicare/Medicaid anti-fraud and abuse provisions. The Parties' rights and obligations under this Lease are not conditioned on the volume or value of referrals or other business generated between the Parties, and nothing in this Lease shall require either Party to refer business to the other Party. In the event either Party determines that this Lease would violate any applicable law or regulation or subject either Party to fines, penalties, or other adverse action by a government agency, the Parties shall immediately attempt in good faith to renegotiate the terms of this Lease to resolve any such concerns. If such concerns cannot be resolved, either Party shall have the right to immediately terminate the Lease by giving Notice to the other Party.

There are no other representations or warranties...
between the Parties or the Parties and their agents or representatives and all reliance with respect to representations is solely upon the representations and agreement contained in this document.

22.11 Counterparts. This Lease may be executed in any number of counterparts and by different Parties hereto in separate counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute but one and the same agreement. Delivery of an executed counterpart of this Lease by facsimile shall be equally as effective as delivery of a manually executed counterpart.

22.12 Nondiscrimination and Affirmative Action. Lessor and Lessee shall not discriminate against any employee or applicant for employment in the performance of this Lease, with respect to tenure, terms, conditions or privileges of employment, or any matter directly or indirectly related to employment, because of race, sex, color, religion, age, status as disabled or a veteran, or physical or mental handicaps, national origin or ancestry, or as otherwise required by state or federal law. 2. Install bottom of housing aligned with finished ceiling.
3. Seismic Supports:
   a. Slack wires for fixtures in suspended ceilings: #12 solid wires from fixture to structure above, pulled tight and secured with a minimum of four wire turns at top and bottom. Slack wires must comply with applicable portions of Section 09511: Suspended Acoustic Ceilings.
   b. Incandescent point-source fixtures: One (1) slack wire.
   c. Compact fluorescent point-source fixtures: One (1) slack wire.
   d. HID point-source fixtures: Slack wire at each of two (2) diagonal corners.
   e. Fluorescent troffers: Slack wire at each of two (2) diagonal corners if fixture weighs less than 56 pounds; slack wire at each of four (4) corners if fixture weighs more than 56 pounds.
   f. Hold-down clips for fluorescent troffers: Two (2) on each long side (four total per fixture).
4. Keep ceiling insulation at least 3 inches away from fixture unless approved for insulated ceiling.
5. Install trims after painting of spaces. Install trims tightly, with no gaps or light leaks.

C. Ceiling-Mounted and Pendant Fixtures:
1. Supports: Provide support for suspension points so fixtures can be installed securely, including horizontal bars to ceiling members and diagonal wires to structure as required. In suspended grid ceilings, use Peerless Truegrid or equal suspension brackets.
2. Fixture weight less than 50 pounds at each suspension point: Hang from strap or stud on outlet box, or at non-feed points, provide ¼ inch-20 stud projecting ¾ inch below ceiling.
3. Fixture weight 50 pounds or more at each suspension point: Hang directly from structure, either independent of outlet box or from stud extending through outlet box to structure.

D. Wall-Mounted Fixtures:
1. Mounting heights, indicated are from finished floor to centerline of outlet box or recessed housing, unless noted otherwise.
2. Provide backing in wall as required. Fixtures must not droop or tilt away from wall.
3. Wet locations: For surface-mounted fixtures, install continuous bead of sealant between fixture and wall. For recessed fixtures, install sealant to fill gaps between recessed housing and wall.

E. Pole-Mounted or Base-Mounted Fixtures:
1. Install galvanized nuts and washers above and below mounting plate for leveling. After leveling, pack grout between mounting plate and concrete footing, and cut off tops of anchor bolts so base cover fits over entire base assembly.
2. ¼ inch maximum out-of-plumb tolerance for assemblies up to 20 feet high; ⅛ inch maximum if taller.
3. Touch up paint after poles are installed.

3.02 INSTALLATION OF LUMINAIRES

A. Luminaires shall be installed as indicated and in accordance with the manufacturer’s recommendations. Where mounting dimensions are not shown, refer to Architectural drawings for installation details. Luminaires shall be symmetrically located unless otherwise indicated. Luminaire locations shall be exactly moduled with ceiling tile where same occurs.

B. Surface-mounted luminaires shall be supported from outlet box fixture studs, mounting brackets or mounting straps or shall be secured directly to the structural system. Outlet boxes and mounting brackets (or straps) shall be secured to a joist or similar structural unit or to an
approved metal support which is secured to such a structural unit. The use of toggle bolts for luminaire support will not be permitted.

C. Pendant or stem-mounted luminaires shall be suspended from single stem assemblies consisting of adjustable stem, ceiling canopy, self-aligning ball coupling at the canopy into which the stem is fastened (allowing the luminaires to swing freely) and fixture studs in 4 inch octagonal outlet boxes where the luminaires are connected electrically. Mounting brackets for hanger stems that do not contain wiring may be fastened, as above, to dummy outlet boxes or shall be securely fastened to the structural ceiling. Outlet boxes and/or stem-mounting brackets shall be secured to a joist or similar structural unit or to an approved metal support which is secured to such a structural unit. Suspended luminaires shall hang level regardless of uneven or sloping ceilings. Maximum hanger spacing for continuous-row fluorescent luminaires shall be 8 feet. Maximum hanger spacing shall be 4 feet where luminaires having 4 foot channels are used. Twin stem assemblies will not be permitted.

D. Pendant or stem-mounted luminaires shall be provided with matching stems at all support locations. Each stem shall be provided with an internal safety cable securely fastened to the luminaire and to a structural member and shall be capable of supporting ten (10) times the luminaire weight.

E. Luminaires weighing more than fifty (50) pounds shall be supported independently of the junction box provided for electrical connection.

F. Wall-mounted luminaires shall be supported by wall brackets secured to luminaire studs in the outlet boxes or to outlet box “ears”.

G. Recessed luminaires shall be complete with all required hardware and accessories in each case. Where lay-in luminaires cannot be used in suspended ceilings, recessed luminaires shall be installed complete with bar hangers and shall be supported from the ceiling suspension system.

H. Where luminaires are installed in a de-mountable type ceiling, provide a length of flexible conduit and proper conductors such that luminaire may be relocated four feet in any direction without changing the electrical connection.

I. Recessed luminaires in fire rated ceilings shall either be approved for the fire rating of the ceiling or shall be protected by a fire rated housing approved by local authorities and manufacturer. Approval must be in writing and must conform to UL approved assemblies. (Refer to Architect’s drawings for UL assembly numbers.)

J. Install clips to secure recessed grid-supported luminaires in place.

K. Where fluorescent luminaires are installed in continuous rows, provide a separate wireway for branch circuit conductors or use conductors with insulation rated for the temperature and other conditions encountered.

L. Installation of luminaires in Mechanical rooms shall be coordinated with the ductwork and other obstructions. Provide special hangers, as required.

M. All adjustable luminaires shall be aimed as directed by the Architect/Engineer. All luminaires shall be aimed at night.

N. Bond products and metal accessories to branch circuit equipment grounding conductor.

3.03 WIRING

A. Luminaires shall be wired with type TFFN wire. Minimum size shall be No. 16—use larger wire where indicated or where recommended by luminaire manufacturer. Fluorescent troffers shall be connected with branch circuit conductors run in flexible metal conduit not more than 6 feet in length.

B. Provide luminaires with wiring for two-level lighting as indicated. Where 3- or 4-lamp luminaires are used, connect inside lamps to one ballast and outside lamps to one ballast.

C. Exit signs, emergency lighting units and fluorescent luminaire emergency power packs shall be connected to an unswitched leg of the lighting circuit in the area as indicated on the drawings.

D. Bond luminaires and metal accessories to the branch circuit grounding conductor.
3.04 ADJUSTING AND CLEANING
   A. Aim and adjust luminaires as indicated, or if not indicated, as directed by the Owner’s representative.
   B. Position exit sign directional arrows as indicated.
   C. Remove dirt and debris from enclosures.
   D. Clean photometric control surfaces as recommended by manufacturer.
   E. Clean finishes and touch up damage.

3.05 NOISY BALLASTS
   A. The Owner’s representative shall determine which ballasts are excessively noisy and to be replaced at no cost to the Owner.

3.06 PROTECTION OF FINISHED WORK
   A. Relamp luminaires that have failed lamps at Substantial Completion.

UNIVERSITY OF IDAHO

SUBJECT
Request for waiver of institutional funds cap for Athletics

REFERENCE
February 2017  Idaho State Board of Education (Board) reviewed University of Idaho (UI) request for four-year waiver of Athletic institutional fund usage limit. Board asked UI to return for additional consideration, pending additional analysis of projected athletic budgets.

APPLICABLE STATUTE, RULE, OR POLICY
Idaho State Board of Education (Board) Governing Policies & Procedures, Section V.X.3.b.

BACKGROUND/ DISCUSSION
The University of Idaho (UI) Athletics Department (Athletics) is projecting an operating deficit of approximately $1 million for the current fiscal year (FY2017) unless additional funding can be provided. No deficit currently exists, but is projected by the end of the current fiscal year.

The projected deficit is being driven primarily by anticipated shortfalls in several categories of revenue. During FY2016, the football team played two guarantee games against the University of Southern California and Auburn University. These two games generated guarantee revenue of $2,100,000. During the current fiscal year, the football team again played two guarantee games against the University of Washington and Washington State University. These two games generated guarantee revenue of $1,575,000. This schedule change created a $525,000 decrease in game guarantee revenue.

Athletics donations are anticipated to be down slightly for FY2017. Athletics projects that contributions to the Vandal Scholarship Fund (VSF) will be down $150,000 from prior fiscal year levels, and non-VSF donations are projected to be down $200,000 from prior fiscal year levels. This decrease is attributed, in part, to the move from the Football Bowl Subdivision (FBS) to the Football Championship Subdivision (FCS).

Also, student athletic activity fee revenue has been declining steadily since FY2012. The updated estimate for FY2017 student athletic activity fee revenue is $1,802,000 (which is $528,000 under FY2012 levels).

Within the last few months, two football events have generated additional revenue that will reduce the projected Athletics deficit. In December 2016, the Vandals were invited to compete in the Famous Idaho Potato Bowl. Participation in this...
game has generated additional net revenue to help offset the projected operating deficit. In addition, the Sun Belt Conference finished in 3rd place overall (within the Group of 5), while the Athletics Department had budgeted revenue associated with a 5th place finish. This improved conference standing has also generated additional revenue for the Athletics Department.

The FY2017 athletics caps for UI are $2,973,100 for General Funds, $1,266,100 for Gender Equity, and $949,500 for Institutional Support. The grand total of all athletics caps is $5,188,700.

To address the above-noted temporary shortfalls, and to smooth the university’s transition from the FBS to the FCS and the accompanying adjustments to overall Athletics operations, UI is requesting authorization to tap additional available institutional funds to support athletic programs. The university requests Board approval of a one-time, one-year waiver of the FY2017 institutional funds cap, authorizing expenditures of not more than $1,949,500 from available institutional funds. This flexibility will enable UI to avoid an overall athletic operating deficit in FY2017 and will sustain student athlete programs while the university adjusts its operations and budget plans over the next few years.

**IMPACT**

Allowing use of up to $1 million in additional institutional funds in FY2017 will enable UI to maintain continuity of athletic operations while it realigns its programs to balance expenditures and revenues as it makes the FBS to FCS transition. Sufficient institutional funds (separate from General Fund and student athletic activity fee resources) are available for this one time outlay.

**STAFF COMMENTS AND RECOMMENDATIONS**

Under Board policy, Institutional Funds “*include, but are not limited to, auxiliaries, investment income, interest income, vending, indirect cost recovery funds on federal grants and contracts, and administrative overhead charged to revenue-generating accounts across campus. Institutional Funds do not include tuition and fee revenue.*” Institutional reserves which accumulate from unexpended tuition and fees cannot be used within the Institutional Fund category for Athletics. The UI has confirmed that it has sufficient reserves within the “institutional funds” category to increase outlays by at least $1 million.

Since the Board’s February 2017 review of the UI’s earlier (multi-year) waiver request, Board staff has coordinated with UI’s administrative staff and has confirmed that deliberate planning is underway to adjust the institution’s athletic programs and accompanying budgets in the grace period which will be provided if the Board approves the requested one-year Institutional Fund waiver. This flexibility will help avoid short-term disruptions to operations which would be necessary if the UI had to operate within the current FY2017 institutional fund limit.
Staff will continue to work with UI counterparts to ensure that a viable, multi-year operating budget plan is put in place and presented to the Board. In the meantime, the Business Affairs and Human Resources Committee has directed staff to begin a systematic review of the Board’s current policy on athletic limits. This review may eventually impact—but was not prompted by—the specific situation which is the basis of the UI’s proposed waiver request.

Staff recommends approval.

BOARD ACTION
I move to approve the request by the University of Idaho to waive Board policy V.X.3.b. and allow the University of Idaho to temporarily increase its institutional funds athletics expenditure limit for FY2017 by an amount not to exceed $950,500 ($1,900,000 total); and that the university report on its revised athletics budget plans in conjunction with the institutions’ annual athletic reports to the Board in April 2018.
