---

**SUBJECT**

Developments in K-12 Education

**BACKGROUND/DISCUSSION**

Sherri Ybarra, Superintendent of Public Instruction, will share developments in K-12 education with the State Board, including:

- Assessment/testing update
- Math diagnostics

**BOARD ACTION**

This item is for informational purposes only. Any action will be at the Board's discretion.

THIS PAGE INTENTIONALLY LEFT BLANK

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

**SUBJECT**

Amendment to Title 33, Chapter 16, Idaho Code – Mastery-Based Education

**REFERENCE**

October 2014	Board adopted recommendations for implementing the 2013 Task Force recommendations, including implementation of those regarding mastery-based education in Idaho's public schools.
May 2015	Board received a presentation from the Foundation for Excellence in Education regarding mastery-based education and possible partnership opportunities.
January 11, 2016	Board endorsed the Governors 2016 Legislative Initiatives, including funding for the mastery-based education pilot programs
June 2017	Board received a brief update from the State Superintendent of Public Instruction on the mastery-based pilot program.

**APPLICABLE STATUTE, RULE, OR POLICY**

Section 33-1632, Idaho Code

**BACKGROUND/DISCUSSION**

Idaho currently has 19 incubators, consisting of 32 schools participating in the mastery-based education program. The schools used the 2016-2017 school year to design, plan, and collaborate in order to chart the course for Idaho's shift to student progression based on demonstrated mastery, not seat time. As the program has progressed through early stages of planning and design, the Department of Education (Department) has heard from several schools who would like to participate.

Currently, 33-1632, Idaho Code has capped the mastery-based education program at a cohort of 20 incubator LEAs/schools. In order to build and scale the approach, the statute must be amended so that more schools may participate. The Department seeks to amend the statute to bring on additional cohorts of 20 LEAs/schools each.

**IMPACT**

The public schools support program currently contains a line item for mastery-based education funded at \$1.4 million for the 2017-2018 year. These funds are used for professional development, a statewide awareness campaign, coaching, purchased services, travel, supplies/materials, and stipends. To accommodate the increase of incubators from 20 to 40, the Department intends to include an additional \$1.4 million in its 2018-2019 budget request.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

Mastery-based education is a generational shift that will benefit students of all learning styles and abilities. Currently, Idaho's 19 incubator cohort directly impacts the learning of 22,000 students. This statutory amendment would impact an additional number of students roughly equal to the first cohort, with the potential for more cohorts in subsequent years. In addition, engaging more LEAs and schools will increase the state's capacity for developing new innovations and policy changes that will advance Idaho's mastery education approach.

**ATTACHMENTS**

Attachment 1 – Proposed Statutory Amendment	Page 5
Attachment 2 – Mastery Education Presentation	Page 7

**STAFF COMMENTS AND RECOMMENDATIONS**

In 2014, the Board facilitated the work of five (5) subcommittee's working on recommendations for implementing the 2013 Education Improvement Task Force Recommendations. The Structure and Governance Subcommittee's responsibilities included implementation strategies for the shift to a mastery-based system where students advanced based upon content mastery, rather than seat time requirements. The subcommittee found there were no prohibitions in state law to moving to a mastery-based system, and that there is specific authorization in Administrative Code that allows school districts and charter schools to develop their own mechanisms for assessing student mastery of content and awarding credits for the mastery at the secondary level. The subcommittee recognized that there were some barriers in how school districts reported students in specific grade levels to the state for funding, however, most barriers were largely perceived rather than actual obstructions. The excerpts are from the recommendations adopted by the Board in 2014 (the full recommendations may be viewed on the Board's website):

1. We recommend that Idaho create an "incubator" model designed to identify and support those districts\charters that are willing and ready to start moving toward a competency based education system in grades K-6.
  - a. That assessment would be used to create the initial cohort of districts/charters, and should include a demographically representative group of districts/charters. That cohort would provide support for staff professional development, stakeholder education, and ongoing assessment and coaching.
  - b. These "Incubator" districts\charters would collect relevant data to allow for meaningful analysis of the process. This data would be used to identify future improvements and modifications.
3. We recommend that the State Board, State Superintendent, Legislature, and Governor support a statewide awareness effort concerning "Competency Based Education."

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

This could be accomplished in partnership with [Re-Inventing Schools Coalition] RISC, if recommendation #2 is adopted. There is a clear need for better understanding of competency based education by legislators, business leaders, education administrators, teachers, parents, and students. If this is done correctly, the demand for becoming an “incubator” would start to increase.

6. We recommend that over the next five years all districts\charters adopt a mastery based assessment report card which is aligned to Idaho’s statewide standards.

**BOARD ACTION**

I move to endorse the Superintendent of Public Instruction’s proposal to amend Section 33-1632, Idaho Code, as identified in Attachment 1.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

TITLE 33  
EDUCATION  
CHAPTER 16

COURSES OF INSTRUCTION

33-1632. MASTERY-BASED EDUCATION. (1) The legislature finds that moving toward a mastery-based model of education where students progress as they demonstrate mastery of a subject or grade level is in the best interest of Idaho students. The legislature further finds that moving from the current time-based system with a mastery-based model will allow for more personalized and differentiated learning; create a focus on explicit, measurable, transferable learning objectives that empower students; and emphasize competencies that include application and knowledge along with skill development.

(2) The state department of education shall perform the following activities to move Idaho toward a mastery-based education system:

(a) Conduct an ongoing statewide awareness campaign to promote understanding and interest in mastery-based education for teachers, administrators, parents, students, business leaders and policymakers; and

(b) ~~Establish~~ Maintain a committee of educators to ~~identify roadblocks and possible solutions in implementing mastery based education and develop recommendations for the incubator process review and examine outcome data and determine best practices among the schools and districts during implementation. The committee will develop evidence-based recommendations for continued implementation and continue to identify roadblocks and possible solutions to support scaling a mastery-based system;~~ and

(c) Facilitate the planning and development of an incubator process and assessments of local education agencies to identify the initial cohort of up to twenty (20) local education agencies to serve as incubators in fiscal year 2017, and subsequent cohorts of up to twenty (20) local education agencies beginning in fiscal year 2019.

(3) The state department of education may expend or distribute moneys appropriated for purposes identified in subsection (2) of this section. The cost of activities provided for in this section shall be paid by the state department of education from moneys appropriated for this program in the educational support program budget as provided for in section 33-1002, Idaho Code.

(4) Not later than January 31 of each year, the state department of education shall report annually to the state board of education and the education committees of the senate and house of representatives regarding the progress toward implementing mastery-based education.

(5) For purposes of this section:

(a) "Incubator process" means a process where districts and charter schools that are willing and ready to start moving toward a mastery-based education system would be identified through site assessments and would form an initial cohort of incubators for mastery-based education. The incubators would receive support for staff professional development, stakeholder education and ongoing

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

assessment and coaching. These incubators would provide data and best practices for continued implementation of mastery-based education.

(b) "Mastery-based education system" means an education system where student progress is based upon a student's demonstration of mastery of competencies and content, not seat time or the age or grade level of the student.

# Five Tenets of Mastery-Based Education

1. **Competencies** include explicit, measurable, transferable learning objectives that empower students.
2. **Assessment** is meaningful and a positive learning experience for students.
3. Students receive **timely, differentiated support** based on their individual learning needs.
4. **Learning outcomes** emphasize competencies that include application and creation of knowledge, along with the development of important skills and dispositions.
5. Students advance upon **mastery**.

**Questions  
Mastery-  
based  
Education  
answers for  
Students**

What is our VISION for a high school graduate?

How do we know students are making progress?

What does mastery-based learning look like inside (and outside) of the classroom?

How do we promote and credit students?

What work products and processes show evidence student learning?

# 2016-2017 -Year in Review Planning and Design

**CBE System Features: Scope of Change**

**The Learning Cycle**  
Signature Practices of CBE Learning Models

**Modular, Flexible Scheduling**

**Competency-Course-Portfolio Mapping**

**Human Capital structures**

- Work-based learning** - Work-based learning is a key component of CBE. It includes internships, apprenticeships, and other forms of experiential learning.
- Stackable credentials** - CBE programs are designed to be stackable, allowing students to earn credentials incrementally and build towards a degree or other advanced credential.
- Competency-based learning** - CBE programs are designed to be competency-based, meaning that students progress through the program based on their mastery of specific skills and knowledge.
- Personalized learning** - CBE programs are designed to be personalized, allowing students to learn at their own pace and in their own way.

**What are competencies, and how do you build them?**

**Establishing Competencies**

1. FRAME IT	2. MEASURE IT	3. BREAK IT DOWN	4. BUILD IT OUT
Define the competency in clear, measurable terms.	Identify the evidence that will demonstrate mastery of the competency.	Break the competency into smaller, more manageable pieces.	Design the learning experiences and assessments that will build the competency.

**High-quality performance assessments**

## Year 2 – Implementation Year

Leading successful change requires:

### VISION

- + Goal articulation
- + Value-goal alignment
- + Communications strategy
- + Explicit behavioral end state

### MODELING

- + Leader behaviors
- + Broker behaviors
- + External exemplars
- + Culture

### REINFORCING STRUCTURES

- + Policies
- + Protocols
- + Time and resource allocations
- + Technology
- + Environment design

### SKILL-BUILDING

- + Engaging learning opportunities
- + Coaching
- + Practice and Feedback
- + Models
- + Collaboration

# Year 2 – Implementation Year

## In the Classroom

**1 READY...**

**FLEXIBLE ENVIRONMENTS**  
(time, space, furniture, resources, routines) enable multiple teaching and learning modes simultaneously, laying the groundwork for self- pacing and self-regulation.

**2 SET...**

**FLEXIBLE STUDENT GROUPING** based on student needs and specific learning targets enables timely, differentiated supports.

**3...**

**Explicit teaching of skills and strategies.**

**Expanded student talk** supports student meaning making and teacher attunement.

**Discovery-based mini-lessons** that emphasize inquiry and nurture conceptual understanding.

**Regular student conferencing** provides specific, actionable feedback (product and process).

**Moment-by-moment formative assessments** help diagnose needs, nurture metacognition, and celebrate growth.

SUPPORTING SCHOOLS AND STUDENTS TO ACHIEVE

SHERRI YBARRA, SUPERINTENDENT OF PUBLIC INSTRUCTION

# Preliminary Findings

- The most significant long-term evaluation of personalized learning (mastery-based) to date has been a multi-year study conducted by the RAND Corporation and funded by the Gates Foundation.
- The findings were promising and **indicate significant learning gains** for students in schools implementing personalized learning.

## Key Findings:

- A majority of schools had positive effects on student mathematics and reading performance over two years.
- Growth continued to accumulate in the third year.
- Scores grew substantially relative to national averages.
- A large proportion of students with lower starting achievement levels experienced greater growth rates than peers, particularly in mathematics.
- Results were widespread, with a majority of schools having statistically positive results.

## Perception - Identifying The Problem

Diplomas and credits based on seat time and passing grades have been sending mixed messages.

86% of surveyed community college students believe they are academically prepared for college

YET

68% take developmental education.

90% of parents believe their children are at or above grade level in reading

YET

34% of students are proficient in reading.

83% of community college students who were "A" students in high school believe they are on-track

YET

39% earn a degree or certificate within six years.

**PROFESSIONAL STANDARDS COMMISSION**

**SUBJECT**

Docket No. 08-0202-1701, Proposed Rule Changes to IDAPA 08.02.02, Rules Governing Uniformity

**REFERENCE**

August 2014	Board approved amendments to the Idaho Standards for Initial Certification of Professional School Personnel revisiting the Idaho Foundation and Enhancement Standards for School Counselor, Special Education Generalist, Special Education Director, and School Psychologists and approved a Proposed Rule incorporating these changes by reference into IDAPA 08.02.02.004.01.
April 2015	Board approved amendments to the Idaho Standards for Initial Certification of Professional School Personnel adding standards for Computer Science and Engineering teachers and approved a Proposed Rule incorporating these change by reference into IDAPA 08.02.02.004.01.
June 2016	Board approved amendments to the Idaho Standards for Initial Certification of Professional School Personnel revisiting Art, Biology, Chemistry, Communication, Drama, Early Childhood/Early Childhood Special Education Blended Certificate, Earth and Space Science, Economics, Elementary, Generalist, Health, Journalism, Mathematics, Music, Natural Science, Physical Education, and School Social Worker and approved a Proposed Rule incorporating these changes by reference into IDAPA 08.02.02.004.01.

**APPLICABLE STATUTE, RULE, OR POLICY**

Idaho State Board of Education Governing Policies and Procedures, Section IV.B.9.b. Standards for the Initial Certification of Professional School Personnel Sections 33-114, 33-130, 33-512, 33-1254, 33-1258, Idaho Code IDAPA 08.02.02, Rules Governing Uniformity

**BACKGROUND/DISCUSSION**

The Professional Standards Commission (PSC) follows a Strategic Plan of annually reviewing twenty percent (20%) of the Idaho Standards for Initial Certification of Professional School Personnel annually. The following certificates and endorsements were reviewed by committees of content experts: Administrator, which includes School Principal, Superintendent, and Director of Special Education; Audiology; Bilingual; Career Technical areas, which include

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

Agriculture Science and Technology, Business Technology, Family and Computer Sciences, Marketing Technology Education, and Technology Education; Computer Science; Engineering; English as a New Language; Speech Language-Pathology; and World Language. Additionally, the Core Teaching Standards, that provide the basic standards which all specific teaching areas are required to meet, were reviewed.

All standards and endorsements were revised to better align with national standards and best practices; then presented to the PSC for consideration. The PSC has recommended approval of all of the committee's proposed endorsement revisions including renaming the English as a New Language endorsement to English as a Second Language endorsement to match the language used by the majority of other states.

In addition, there are three new Pupil Personnel Services Endorsements being recommended for approval. The first is the School Counselor – Basic (K-12) Endorsement. This recommendation is a result of Section 33-1212, Idaho Code allowing certified social workers to serve as school counselors. Pursuant to Chapter 32, Title 54, Idaho Code, persons with a baccalaureate degree in social work can serve as school counselors. Those with baccalaureate degrees have not been prepared to offer emotional and social counseling services. This new endorsement allows licensed social workers to act as school counselors on a limited basis, for which they have been trained. The other recommended endorsements are for licensed Occupational and Physical Therapists. The creation of endorsements for these professionals will allow districts additional funding options for students to obtain these types of services.

Renewal requirements were updated to set a date by which current certificate holders must complete a mathematics in-service program, if the requirement applies to their endorsement areas. Language regarding the Idaho Comprehensive Literacy Course has been removed as a renewal requirement, as the rule has been in existence a sufficient amount of time that it no longer applies to individuals renewing their existing certificates.

The requirements for reinstatement of an expired certificate have been amended to ensure that the requirements to obtain full certification during the term of the interim certificate meet current rules and requirements.

A change was made to the assessments required to obtain certification that allows for a baccalaureate degree or higher in the specific content area in which a candidate is seeking an endorsement to be used in lieu of state approved content area testing or assessment.

Alternative Authorization-Content Specialist language was updated to eliminate the requirement of candidates having to take competency tests prior to entering the classroom in order to allow districts the flexibility to utilize this route to hire

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

individuals who are in the process of completing a certification program, but have not yet completed the testing requirements.

The State Department of Education convened a team of stakeholders to discuss updating the rules regarding background information checks. Pursuant to the recommendations of the team, definitions were updated and requirements, fees, and processes were clarified.

An example was added to the Code of Ethics regarding educator compensation.

A number of minor, non-substantive changes were recommended to ensure that language is clear, concise, and meets the intent of law and rule changes.

A Notice of Intent to Promulgate Rules was published in the April 5, 2017, edition of the Administrative Bulletin. Six (6) public meetings were held across the state between April 11 and 20, 2017, during which any member of the public could provide verbal or written feedback on the suggested amendments to the incorporated document. One (1) verbal comment and two written comments were received during the public meetings. No written comments were received through the Department's public comment online submission form.

Following are the specific areas reviewed:

08.02.02.04.01 INCORPORATION BY REFERENCE – Idaho Standards for the Initial Certification of Professional School Personnel

08.02.02.015.02.b, .02.j, .02.k, 03, 03.a, 03.b, 03.c, 05.a, 10.a, 10.c IDAHO EDUCATOR CREDENTIAL – Pupil Personnel Services Certificate – School Counselor – Basic (K-12) Endorsement (Recommending new endorsement), Occupational Therapist Endorsement (Recommending new endorsement), Physical Therapist Endorsement (Recommending new endorsement), Administrator Certificate – School Principal (Pre-K-12) Endorsement, Superintendent (Pre-K-12) Endorsement, Director of Special Education (Pre-K-12), Degree Based Career Technical Certification, Additional Renewal Requirements

08.02.02.016.02, .03, .04, .05 IDAHO INTERIM CERTIFICATE – Idaho Comprehensive Literacy Course, Mathematical Thinking for Instruction, Technology, Reinstatement of Expired Certificate

08.02.02.018.01 CONTENT, PEDAGOGY AND PERFORMANCE ASSESSMENT FOR CERTIFICATION - Assessments

08.02.02.022.01, .04, .06 ENDORSEMENTS A–D – Agriculture Science and Technology (6-12), Bilingual Education (K-12), Blended Early Childhood/Early

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

Childhood Special Education Pre-K through Grade Six (6) Endorsement (Recommending name change)

08.02.02.023.06, .08 ENDORSEMENTS E–L – English as a New Language (ENL) (K-12) (Recommending name change), Family and Consumer Sciences (5-9 or 6-12)

08.02.02.024.01, .16, .20 ENDORSEMENTS M–Z – Marketing Technology Education (6-12), Technology Education (5-9 or 6-12), World Language (5-9, 6-12 or K-12)

08.02.02.042.02, ALTERNATE ROUTES TO CERTIFICATION – Alternative Authorization – Content Specialist

08.02.02.075 – FINGERPRINTING AND CRIMINAL HISTORY CHECKS (SECTIONS 33-130 AND 33-512, IDAHO CODE)

08.02.02.076.07 CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS – Principle VI - Compensation

**IMPACT**

The changes to certification rule and the Incorporated by Reference document will enable Idaho universities to better prepare teachers according to these updated initial certification standards and endorsements.

The updates to the background investigation check rules and processes will assist the Department in streamlining the process for background investigation checks, as well as providing clarity to districts and colleges/universities to better understand the procedures and requirements.

The changes to reinstatement requirements will enable more educators to reinstate an expired certificate with requirements that are relevant to current practices and will eliminate the requirement to take Praxis II testing for educators who have already shown they have competency in the areas they were previously certified to teach.

The addition of another example to the Code of Ethics regarding compensation will assist both districts and educators in understanding the rules surrounding money or items solicited or accepted for the benefit of a student, classroom, or school.

---

**STAFF COMMENTS AND RECOMMENDATIONS**

The negotiated rulemaking process includes three opportunities for public engagement and comment. The first step in the process is the negotiation process. The start of the negotiated rulemaking is the notice of intent to promulgate rules. The notice of intent is required to include a non-technical summary of the substance and purpose of the rule and issues that will be involved. The purpose of the notice of intent is to allow the public and those affected by the rule to be informed about what is being considered and to participate in a negotiated process in which the agency discusses the areas that they want to amend or add to Administrative Code and why, the public has an opportunity to meet with staff and discuss their concerns or support of the changes and talk through why one change may be chosen to go forward over another. Following the close of the negotiated rulemaking meeting(s), the agency drafts the proposed rule, in part based on the feedback received during this meeting. Agencies are not required to include the feedback received during the negotiated rulemaking meetings, however, all parties generally leave the meetings with some indication or understanding of what will be going forward to the Board for consideration. Once the rule is drafted it is then brought before the Board for consideration as a proposed rule. Once approved by the Board, the proposed rule is then published in the administrative bulletin and a 21-day public comment period commences. Unlike the negotiated rulemaking meetings the public comment period only requires the public be given an opportunity to comment on what has already been drafted. Formal public hearings may also be conducted as part of the 21-day comment period. Public hearings provide for a forum for the public to give input and are not generally conducted in a manner that allows for discussion of the rule changes being proposed. Following the close of the public comment period changes may be made to the proposed rule in response to the comments received. The rule is then brought back to the Board, with changes if applicable, as a pending rule. If the pending rule is approved by the Board it is published in the Administrative Bulletin and forwarded to the Legislature for consideration.

In addition to the changes identified in the notice of intent regarding the annual review of 20% of the initial standards for certification and the subsequent endorsement requirements and requirements for background investigation checks, the proposed rule includes the removal of the requirement that individuals receiving their initial Idaho certification demonstrate proficiency in technology skills and practices to enhance classroom management and instruction and removes the requirement that individuals earning certification through the Alternative Authorization – Content Specialist route meet or exceed the state qualifying score on a state approved content, pedagogy, or performance assessment (the State Board of Education approves the assessment and may approve a single or multiple assessments). As part of the negotiated rulemaking meeting conducted by Board staff on an alternate docket (Docket 08-0202-1704) regarding certification recommendations from the Board’s Teacher Pipeline Work Group, representatives from the Idaho Education Association, the Idaho Association of School Administrators, and the Idaho School Boards Association indicated they were

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

opposed to moving this requirement. With the current Board's ability to approve different types of assessments (currently the PRAXIS is the only approved assessment) there already existed some flexibility that would still maintain some assurances that there was a minimum standards of content knowledge that an individual would have to have prior to entering the classroom.

Pursuant to Section 33-1212, Idaho Code, individuals holding a valid social worker license issued under the regulations of the Board of Occupational Licensing may serve as a school counselor. The Board of Occupational Licensing issues social worker licenses to individuals holding baccalaureate and master level degrees. The School Counselor – Basic (K-12) endorsement is intended for individuals who statutorily are required to be allowed to serve as a school counselor based on these provisions, however, the proposed language in subsection 015.02.b does not technically align with the statutory requirement and consideration should be given to updating it prior to the rule coming back to the Board as a pending rule.

Proposed amendments to the administrator certificate (IDAPA 08.02.02.015.03) will require any individual conducting an evaluation to hold an administrator certificate. Some districts allow for peers to participate in the evaluation process by including a peer evaluation, which the administrator uses along with other evidence of professional practice and student achievement to finalize the summative review. This change would result in eliminating this practice. The Board's Teacher Pipeline Work Group is considering the development of professional learning environments as strategies toward teacher retention. Currently, any individual conducting an evaluation must have received training in conducting evaluations aligned to the Idaho evaluation framework. The proposed amendment to the administrator certification would not be consistent with the Teacher Pipeline work Group discussions.

**BOARD ACTION**

I move to adopt the revised Idaho Standards for Initial Certification of Professional School Personnel as submitted in Attachment 2.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

I move to approve Proposed Rule Docket No. 08-0202-1701, Rules Governing Uniformity, as submitted in Attachment 1.

Moved by \_\_\_\_\_ Seconded by \_\_\_\_\_ Carried Yes \_\_\_\_\_ No \_\_\_\_\_

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**IDAPA 08  
TITLE 02  
CHAPTER 02**

**08.02.02 - RULES GOVERNING UNIFORMITY**

**000. LEGAL AUTHORITY.**

All rules in IDAPA 08.02.02, “Rules Governing Uniformity,” are promulgated pursuant to the authority of the State Board of Education under Article IX, Section 2 of the Idaho Constitution and under Sections 33-105, 33-107, 33-116, and 33-1612, Idaho Code. Specific statutory references for particular rules are also noted as additional authority where appropriate. (7-1-02)

**001. TITLE AND SCOPE.**

**01. Title.** These rules shall be known as IDAPA 08.02.02, “Rules Governing Uniformity.” (4-5-00)

**02. Scope.** Uniform standards and governance by the State Board of Education pertinent to Teacher Certification, School Facilities, Accreditation, Transportation, School Release Time, Driver’s Education and Juvenile Detention Centers. (7-1-02)

**002. WRITTEN INTERPRETATIONS.**

In accordance with Section 67-5201(19)(b)(iv), Idaho Code, any written interpretations of the rules of this chapter are available at the Office of the State Board of Education located at 650 W. State St., Room 307, Boise, Idaho 83702. (7-1-02)

**003. ADMINISTRATIVE APPEALS.**

Unless otherwise provided for in these rules, administrative appeals are by written application to the State Board of Education pursuant to IDAPA 08.01.01, “Rules of the State Board of Education and Board of Regents of the University of Idaho – Administrative Procedures and Records,” Section 050. (3-14-05)

**004. INCORPORATION BY REFERENCE.**

The State Board of Education adopts and incorporates by reference into its rules: (5-8-09)

**01. Idaho Standards for the Initial Certification of Professional School Personnel as approved on ~~June 16, 2016~~ August 10, 2017.** Copies of this document can be found on the Office of the State Board of Education website at <http://www.boardofed.idaho.gov>. (~~3-29-17~~)( - - )

**02. Standards for Idaho School Buses and Operations as approved on June 23, 2011.** The Standards for Idaho School Buses and Operations are available at the Idaho State Department of Education, 650 W. State St., Boise Idaho, 83702 and can also be accessed electronically at <http://www.boardofed.idaho.gov>. (3-29-12)

**03. Operating Procedures for Idaho Public Driver Education Programs as approved on June 16, 2016.** The Operating Procedures for Idaho Public Driver Education Programs are available at the Idaho State Department of Education, 650 W. State St., Boise, Idaho, 83702 and can also be accessed electronically at <http://www.boardofed.idaho.gov>. (3-29-17)

**005. OFFICE -- OFFICE HOURS -- MAILING AND STREET ADDRESS.**

The principal place of business of the State Board of Education (SBOE) and State Department of Education (SDE) is in Boise, Idaho. Both offices are located at 650 W. State, Boise Idaho 83702. The SDE is on the 2nd Floor, the SBOE is found in Room 307. Both offices are open from 8 a.m. to 5 p.m., except Saturday, Sunday, and legal holidays. The mailing address for the SBOE is PO Box 83720, Boise, ID 83720-0037. The mailing address for the SDE is PO Box

**STATE DEPARTMENT OF EDUCATION

---

83720, Boise, ID 83720-0027. The SBOE phone number is (208) 334-2270 and the SDE phone number is (208) 332-6800. (3-25-16)

**006. PUBLIC RECORDS ACT COMPLIANCE.**

This rule has been promulgated in accordance with the Administrative Procedures Act, Title 67, Chapter 52, Idaho Code, and is a public record. (7-1-02)

**007. DEFINITIONS.**

**01. Active Teacher.** K-12 teacher with a valid Idaho certificate who is currently teaching in an Idaho K-12 classroom or school, either in person or online. (3-29-17)

**02. Alternative Routes.** Routes to teacher certification designed for candidates who want to enter the teaching profession from non-education professions or the paraprofessional profession, or for teachers lacking certification in a specific area defined as an emergency district need. (3-29-17)

**03. Credential.** The general term used to denote the document on which all of a person's educational certificates and endorsements are listed. The holder is entitled to provide educational services in any and/or all areas listed on the credential. (3-16-04)

**04. Endorsement.** Term used to refer to the content area or specific area of expertise in which a holder is granted permission to provide services. (3-16-04)

**05. Idaho Student Achievement Standards.** Standards of achievement for Idaho's K-12 students. See IDAPA 08.02.03, "Rules Governing Thoroughness." (3-16-04)

**06. Individualized Professional Learning Plan.** An individualized plan based on the Idaho framework for teacher as outlined in Section 120 of these rules to include interventions based on the individual's strengths and areas of needed growth. (3-25-16)

**07. Institutional Recommendation.** Signed form or written verification from an accredited institution with an approved teacher preparation program stating that an individual has completed the program, received a basic or higher rating in all twenty-two (22) components of the Idaho framework for teaching evaluation, has an individualized professional learning plan, has demonstrated measurable student achievement or growth and the ability to create student learning objectives, and is now being recommended for state certification. (3-25-16)

**08. Local Education Agency (LEA).** An Idaho public school district or charter school pursuant to Section 33-5203(8), Idaho Code. (3-29-17)

**09. Orientation.** School district/school process used to acquaint teachers new to district/school on its policies, procedures and processes. (3-16-04)

**10. Paraprofessional.** A noncertificated individual who is employed by a school district or charter school to support educational programming. Paraprofessionals must work under the direct supervision of a properly certificated staff member for the areas they are providing support. Paraprofessionals cannot serve as the teacher of record and may not provide direct instruction to a student unless the paraprofessional is working under the direct supervision of a teacher. (3-29-17)

**a.** To qualify as a paraprofessional the individual must have a high school diploma or general equivalency diploma (GED) and: (3-29-17)

**i.** Demonstrate through a state approved academic assessment knowledge of and the ability to assist in instructing or preparing students to be instructed as applicable to the academic areas they are providing support in; or (3-29-17)

**ii.** Have completed at least two (2) years of study at an accredited postsecondary educational

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

institution,; or (3-29-17)

iii. Obtained an associate degree or higher level degree; demonstrate through a state approved academic assessment knowledge of and the ability to assist in instructing or preparing students to be instructed as applicable to the academic areas they are providing support in. (3-29-17)

b. Individuals who do not meet these requirements will be considered school or classroom aides. (3-29-17)

c. Duties of a paraprofessional include, but are not limited to, one-on-one tutoring; assisting in classroom management; assisting in computer instruction; conducting parent involvement activities; providing instructional support in a library or media center; acting as a translator in instructional matters; and providing instructional support services. Non-instructional duties such as providing technical support for computers, personal care services, and clerical duties are generally performed by classroom or school aides, however, this does not preclude paraprofessionals from also assisting in these non-instructional areas. (3-29-17)

**11. Pedagogy.** Teaching knowledge and skills. (3-16-04)

**12. Student Learning Objective (SLO).** A measurable, long-term academic growth target that a teacher sets at the beginning of the year for all student or for subgroups of students. SLOs demonstrate a teacher's impact on student learning within a given interval of instruction based upon baseline data gathered at the beginning of the course. (3-25-16)

**13. Teacher Leader.** A teacher who facilitates the design and implementation of sustained, intensive, and job-embedded professional learning based on identified student and teacher needs. (3-25-16)

**008. -- 011. (RESERVED)**

**012. ACCREDITED INSTITUTION.**

For purposes of teacher certification, an accredited school, college, university, or other teacher training institution is considered by the Idaho State Board of Education to be one that is accredited by a regional accrediting association recognized by the State Board of Education or an alternative model approved by the State Board of Education. (Sections 33-107; 33-114; 33-1203, Idaho Code) (4-1-97)

**013. CERTIFICATION OF TEACHERS TRAINED IN FOREIGN INSTITUTIONS.**

Considering credentials for teacher certification submitted by persons trained in the institutions of foreign countries will be initiated by a translation and evaluation of the applicant's credentials. (4-1-97)

**01. Determination of Eligibility.** Determination of eligibility for certification will be made by the State Department of Education as the agent of the State Board of Education. Appeals may be made to the Professional Standards Commission, (PSC). (Section 33-1209, Idaho Code) (3-16-04)

**02. Other Procedures.** All other procedures in effect at the time must be followed at the time of application. (4-1-97)

**014. CERTIFICATES ISSUED TO APPLICANTS FROM REGIONALLY ACCREDITED INSTITUTIONS.**

**01. The Department of Education.** The department of education is authorized to issue Idaho Certificates to applicants from regionally accredited institutions meeting requirements for certification or equivalent (i.e., those based on a baccalaureate degree) in other states when they substantially meet the requirements for the Idaho Certificate. (Sections 33-1203; 33-2203 Idaho Code) (3-29-17)

**02. The Division of Career Technical Education.** The division of career technical education is authorized to determine whether applicants meet the requirements for instructing or administering career technical

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

programs at the secondary and postsecondary levels. (Section 33-2203, Idaho Code) (3-29-17)

**015. IDAHO EDUCATOR CREDENTIAL.**

The State Board of Education authorizes the State Department of Education to issue certificates and endorsements to those individuals meeting the specific requirements for each area provided herein. (3-25-16)

**01. Standard Instructional Certificate.** A Standard Instructional Certificate makes an individual eligible to teach all grades, subject to the grade ranges and subject areas of the valid endorsement(s) attached to the certificate. A standard instructional certificate may be issued to any person who has a baccalaureate degree from an accredited college or university and who meets the following requirements: (3-29-17)

**a.** Professional education requirements: (3-29-17)

**i.** Earned a minimum of twenty (20) semester credit hours, or thirty (30) quarter credit hours, in the philosophical, psychological, methodological foundations, instructional technology, and in the professional subject matter, which shall include at least three (3) semester credit hours, or four (4) quarter credit hours, in reading and its application to the content area; (3-29-17)

**ii.** The required minimum credit hours must include at least six (6) semester credit hours, or nine (9) quarter credit hours, of student teaching in the grade range and subject areas as applicable to the endorsement; and (3-29-17)

**b.** Completed an approved teacher preparation program and have an institutional recommendation from an accredited college or university specifying the grade ranges and subjects for which they are eligible to receive an endorsement in; (3-29-17)

**c.** Individuals seeking endorsement in a secondary grade (pursuant to section 33-1001, Idaho Code) range must complete preparation in at least two (2) fields of teaching. One (1) of the teaching fields must consist of at least thirty (30) semester credit hours, or forty-five (45) quarter credit hours and a second field of teaching consisting of at least twenty (20) semester credit hours, or thirty (30) quarter credit hours. Preparation of not less than forty-five (45) semester credit hours, or sixty-seven (67) quarter credit hours, in a single subject area may be used in lieu of the two (2) teaching field requirements; (3-29-17)

**d.** Proficiency in areas noted above is measured by completion of the credit hour requirements provided herein. Additionally, each candidate must meet or exceed the state qualifying score on the state board approved content area and pedagogy assessments. (3-29-17)

**e.** The Standard Instructional Certificate is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the certificate. (3-29-17)

**02. Pupil Personnel Services Certificate.** Persons who serve as school counselors, school psychologists, speech-language pathologists, school social workers, school nurses and school audiologists are required to hold the Pupil Personnel Services Certificate, with the respective endorsement(s) for which they qualify. (3-25-16)

**a.** ~~Endorsed~~ **School Counselor (K-12) Endorsement** ~~(K-12)~~. To be eligible for a Pupil Personnel Services Certificate ~~Endorsed~~ **School Counselor (K-12)**, a candidate must have satisfied the following requirements. The Pupil Personnel Services Certificate with a **School Counselor (K-12)** endorsement is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the endorsement. ~~(3-25-16)( - - )~~

**i.** Hold a master's degree and provide verification of completion of an approved program of graduate study in school counseling from a college or university approved by the Idaho State Board of Education or the state educational agency of the state in which the program was completed. The program must include successful completion of seven hundred (700) clock hours of supervised field experience, seventy-five percent (75%) of which must be in a K-12 school setting. This K-12 experience must be in each of the following levels: elementary, middle/junior high, and high school. Previous school counseling experience may be considered to help offset the field experience clock

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

hour requirement; and (3-25-16)

ii. An institutional recommendation is required for a School Counselor (K-12) Endorsement. ~~(3-25-16)( - - )~~

**b.** School Counselor – Basic (K-12) Endorsement. Pursuant to section 33-1212, Idaho Code, a candidate with a valid baccalaureate or higher level social worker license provided by chapter 32, title 54, shall be granted a School Counselor – Basic (K-12) endorsement. The Pupil Personnel Services Certificate with a School Counselor – Basic (K-12) endorsement is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the endorsement. ( - - )

i. Individuals who received their endorsement pursuant to section 33-1212, Idaho Code prior to July 1, 2018 will be transitioned into the School Counselor – Basic (K-12) Endorsement. Renewal date will remain the same as the initial credential. ( - - )

**bc.** **School Psychologist Endorsement.** This endorsement is valid for five (5) years. In order to renew the endorsement, six (6) professional development credits are required every five (5) years. The renewal credit requirement may be waived if the applicant holds a current valid National Certification for School Psychologists (NCSP) offered through the National Association of School Psychologists (NASP). To be eligible for initial endorsement, a candidate must complete a minimum of sixty (60) graduate semester credit hours which must be accomplished through one (1) of the following options: (3-25-16)

i. Completion of an approved thirty (30) semester credit hour, or forty-five (45) quarter credit hours, master's degree in education or psychology and completion of an approved thirty (30) semester credit hour, or forty-five (45) quarter credit hour, School Psychology Specialist Degree program, and completion of a minimum of twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist; (3-25-16)

ii. Completion of an approved sixty (60) semester credit hour, or ninety (90) quarter credit hour, master's degree program in School Psychology, and completion of a minimum of twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist; (3-25-16)

iii. Completion of an approved sixty (60) semester credit hour, or ninety (90) quarter credit hour, School Psychology Specialist degree program which did not require a master's degree as a prerequisite, with laboratory experience in a classroom, which may include professional teaching experience, student teaching or special education practicum, and completion of a minimum twelve hundred (1,200) clock-hour internship within a school district under the supervision of the training institution and direct supervision of a certificated school psychologist; and (3-25-16)

iv. Earn a current and valid National Certification for School Psychologists (NCSP) issued by the National Association of School Psychologists (NASP). (3-25-16)

**ed.** **School Nurse Endorsement.** This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. Initial endorsement may be accomplished through completion of either requirements in Subsections 015.02.c.i. or 015.02.c.ii. in addition to the requirement of Subsection 015.02.c.iii. (3-29-17)

i. The candidate must possess a valid nursing (RN) license issued by the Idaho State Board of Nursing, and a baccalaureate degree in nursing, education, or a health-related field from an accredited institution. (3-29-17)

ii. The candidate must possess a valid professional nursing (RN) license issued by the Idaho State Board of Nursing and have completed nine (9) semester credit hours from a university or college in at least three (3) of the following areas: (3-25-16)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- (1) Health program management; (3-25-16)
- (2) Child and adolescent health issues; (3-25-16)
- (3) Counseling, psychology, or social work; or (3-25-16)
- (4) Methods of instruction. (3-25-16)

iii. Additionally, each candidate must have two (2) years of full-time (or part-time equivalent) school nursing, community health nursing, or any area of pediatric, adolescent, or family nursing experience. (3-25-16)

**de. Interim Endorsement - School Nurse.** This endorsement will be granted for those who do not meet the educational and/or experience requirements but who hold a valid professional nursing (RN) license in Idaho. An Interim School Nurse Endorsement will be issued for three (3) years while the applicant is meeting the educational requirements, and it is not renewable. (3-29-17)

**ef. Speech-Language Pathologist Endorsement.** This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. The initial endorsement will be issued to candidates who possess a master's degree from an accredited college or university in a speech/language pathology program approved by the State Board of Education, and who receive an institutional recommendation from an accredited college or university. (3-25-16)

**fg. Audiology Endorsement.** This endorsement is valid for five (5) years. Six (6) credits are required every five (5) years in order to renew the endorsement. The initial endorsement will be issued to candidates who possess a master's degree from an accredited college or university in an audiology program approved by the State Board of Education, and who receive an institutional recommendation from an accredited college or university. (3-25-16)

**gh. School Social Worker Endorsement.** This endorsement is valid for five (5) years. Six (6) credit hours are required every five (5) years in order to renew the endorsement. Initial endorsement shall be accomplished by meeting the requirements of Subsections 015.02.g.i. through iii., or by meeting the requirement in Subsection 015.02.g.iv.: (3-29-17)

i. A master's degree in social work (MSW) from a postsecondary institution accredited by an organization recognized by the State Board of Education. The program must be currently approved by the state educational agency of the state in which the program was completed; and (3-29-17)

ii. An institution recommendation from an Idaho State Board of Education approved program; and (3-29-17)

iii. The successful completion of a school social work practicum in a kindergarten through grade twelve 12 (K-12) setting. Post-MSW extensive experience working with children and families may be substituted for the completion of a school social work practicum in a K-12 setting. (3-29-17)

iv. A current and valid master's degree or higher social work license pursuant to chapter 32, title 54 and the rules of the State Board of Social Work Examiners. (3-29-17)

**hi. Interim Endorsement-Speech Language Pathologist.** This certificate will be granted for those who do not meet the educational requirements but who hold a baccalaureate degree in speech language pathology and are pursuing a master's degree in order to obtain the pupil personnel services certificate endorsed in speech language pathology. An interim certificate will be issued for three (3) years while the applicant is meeting the educational requirements, and it is not renewable. (3-29-17)

**ij. Occupational Therapist Endorsement.** A candidate with a current and valid Occupational Therapy license issued by the State of Idaho Bureau of Occupational Licenses shall be granted an Occupational Therapist Endorsement. The Pupil Personnel Services Certificate with an Occupational Therapist endorsement is

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

valid for five (5) years. . Candidate must maintain current and valid Occupational Therapy Licensure through the State of Idaho Bureau of Occupational. ( - - )

k. **Physical Therapist Endorsement.** A candidate with a current and valid Physical Therapy license issued by the State of Idaho Bureau of Occupational Licenses shall be granted a Physical Therapist Endorsement. The Pupil Personnel Services Certificate with a Physical Therapist endorsement is valid for five (5) years. Candidate must maintain current and valid Physical Therapy Licensure through the State of Idaho Bureau of Occupational License. ( - - )

**03. Administrator Certificate.** Every person who serves as a superintendent, a director of special education, a secondary school principal, or principal of an elementary school, with eight (8) or more teachers (including the principal), or is assigned to evaluate certificated staff administrative duties over and above those commonly assigned to teachers, is required to hold an Administrator Certificate. The certificate may be endorsed for service as a school principal, a superintendent, or a director of special education and related services. Assistant superintendents are required to hold the Superintendent endorsement. Assistant principals or vice-principals are required to hold the School Principal endorsement. Applicants for the Directors of Special Education and Related Services are required to hold the Director of Special Education endorsement will hold that endorsement on an Administrator Certificate. Proof of proficiency in evaluating teacher performance shall be required of all Administrator Certificate holders. Proof of proficiency in evaluating performance shall be demonstrated by passing a proficiency assessment approved by the State Department of Education as an initial certification requirement. Possession of an Administrator Certificate does not entitle the holder to serve as a teacher at a grade level for which the educator is not qualified or certificated. All administrator certificates require candidates to meet the following competencies of the Idaho Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership Idaho Standards for School Principals. The Administrator Certificate is valid for five (5) years. Six (6) semester credit hours are required every five (5) years in order to renew the certificate. ~~(3-29-17)~~ ( - - )

**a. School Principal (Pre-K-12) Endorsement ~~(Pre-K-12)~~.** To be eligible for an Administrator Certificate endorsed for School Principal (Pre-K-12), a candidate must have satisfied the following requirements: ~~( - - )~~ (3-25-16)

- i. Hold a master's degree from an accredited college or university. (3-25-16)
- ii. Have four (4) years of full-time certificated experience working with students, Pre-K-12, while under contract in an accredited school setting. (3-25-16)
- iii. Have completed an administrative internship in a state-approved program, or have one (1) year of experience as an administrator in grades Pre-K-12. (3-25-16)
- iv. Provide verification of completion of a state-approved program of at least thirty (30) semester credit hours, forty-five (45) quarter credit hours, of graduate study in school administration for the preparation of school principals at an accredited college or university. This program shall include the competencies of the Idaho Foundation Standards for School Administrators Principals: School Climate, Collaborative Leadership, and Instructional Leadership. ~~(3-25-16)~~ ( - - )

v. An institutional recommendation is required for a School Principal (Pre-K-12) Endorsement. ~~(3-25-16)~~ ( - - )

**b. Superintendent (Pre-K-12) Endorsement.** To be eligible for an Administrator Certificate with a Superintendent (Pre-K-12) endorsement, a candidate must have satisfied the following requirements: ~~(3-25-16)~~ ( - - )

- i. Hold an education specialist or doctorate degree or complete a comparable post-master's sixth year program at an accredited college or university. (3-25-16)
- ii. Have four (4) years of full-time certificated/licensed experience working with Pre-K-12 students while under contract in an accredited school setting. (3-25-16)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

iii. Have completed an administrative internship in a state-approved program for the superintendent endorsement or have one (1) year of out-of-state experience as an assistant superintendent or superintendent in grades Pre-K-12. (3-25-16)

iv. Provide verification of completion of an approved program of at least thirty (30) semester credit hours, or forty-five (45) quarter credit hours, of post-master's degree graduate study for the preparation of school superintendents at an accredited college or university. This program in school administration and interdisciplinary supporting areas shall include the competencies in Superintendent Leadership, in addition to the competencies in the Idaho ~~Standards for School Principals~~~~Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership.~~ (3-25-16)( - - )

v. An institutional recommendation is required for a School Superintendent Endorsement ~~(Pre-K-12).~~ ( - - )(3-25-16)

c. **Director of Special Education ~~(Pre-K-12) and Related Services Endorsement (Pre-K-12).~~** To be eligible for an Administrator Certificate endorsed for Director of Special Education ~~and Related Services (Pre-K-12),~~ a candidate must have satisfied all of the following requirements: (3-25-16)( - - )

i. Hold a master's degree from an accredited college or university; (3-25-16)

ii. Have four (4) years of full-time certificated/licensed experience working with students Pre-K-12, while under contract in a school setting; (3-25-16)

iii. Obtain college or university verification of demonstrated the competencies of the ~~Director of Special Education in Idaho~~ ~~Standards for Initial Certification of Professional School Personnel~~~~Foundation Standards for School Administrators: School Climate, Collaborative Leadership, and Instructional Leadership;~~ (3-25-16)( - - )

iv. Obtain college or university verification of demonstrated competencies in the following areas, in addition to the competencies in the Idaho ~~Foundation~~ Standards for School ~~Administrators~~~~Principals~~: Concepts of Least Restrictive Environment; Post-School Outcomes and Services for Students with Disabilities Ages Three (3) to Twenty-one (21); Collaboration Skills for General Education Intervention; Instructional and Behavioral Strategies; Individual Education Programs (IEPs); Assistive and Adaptive Technology; Community-Based Instruction and Experiences; Data Analysis for Instructional Needs and Professional Training; Strategies to Increase Program Accessibility; Federal and State Laws and Regulations and School District Policies; Resource Advocacy; and Technology Skills for Referral Processes, and Record Keeping; (3-25-16)( - - )

v. Have completed an administrative internship/practicum in the area of administration of special education ~~and related services;~~ and (3-25-16)( - - )

vi. An institutional recommendation is required for Director of Special Education ~~(Pre-K-12) -and Related Services Pre-K-12~~ Endorsement. (3-25-16)( - - )

**04. Certification Standards For Career Technical Educators.** Teachers of career technical courses or programs in secondary or postsecondary schools must hold an endorsement in an appropriate occupational discipline. This endorsement may be held on a Standard Instructional Certificate or on an Occupational Specialist Certificate. For postsecondary instructors and administrators, certification fees are set by the State Board for Career Technical Education, and application processes are managed by the Division of Career Technical Education. (3-29-17)

**05. Degree Based Career Technical Certification.** (3-25-16)

a. Individuals graduating from an approved occupational teacher preparation degree program qualify to teach in the following five (5) disciplines: Agricultural and Natural Resources; Business Technology Education; Family and Consumer Sciences; Marketing Technology Education; Computer Science Technology and Engineering Technology Education. Occupational teacher preparation course work must meet the Idaho Standards for the Initial

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

Certification of Professional School Personnel. The occupational teacher education program must provide appropriate content to constitute a major in the identified field. Student teaching shall be in an approved program and include experiences in the major field. Applicants shall have accumulated ~~four~~one thousand (41,000) clock hours of related work experience or shall have completed a Division of Career Technical Education approved practicum in their respective field of specialization. ~~(3-29-17)~~( - - )

**b.** The Career Technical Administrator certificate is required for an individual serving as an administrator, director, manager or coordinator of career technical education at the state, secondary or postsecondary level. Individuals must meet the following prerequisites to qualify for the Career Technical Administrator Certificate. Equivalence in each area will be determined on an individual basis by the Division of Career Technical Education. (3-29-17)

i. Qualify for or hold an Occupational Specialist certificate or hold an occupational endorsement on a standard instructional certificate with an applicable endorsement; (3-29-17)

ii. Provide evidence of a minimum of four (4) years' teaching, three (3) of which must be in a career technical discipline; (3-29-17)

iii. Hold a master's degree; and (3-25-16)

iv. Complete at least fifteen (15) semester credits of administrative course work. Applicants must have completed: financial aspects of career technical education; administration of personnel; and legal aspects of career technical education, and statewide framework for teacher evaluations that includes a laboratory component. Additional course work can be selected from any of the following areas: administration and supervision of occupational programs; instructional supervision; administration internship; curriculum development; curriculum evaluation; research in curriculum; school community relations; communication; teaching the adult learner; coordination of work-based learning programs; and/or measurement and evaluation. (3-29-17)

v. To renew the Career Technical Administrator Certificate, individuals are required to complete six (6) semester hours of related course work or meet renewal requirements for career technical instructional staff. (3-29-17)

**c.** Work-Based Learning Coordinator Endorsement. Educators assigned to coordinate approved work-based experiences must hold the Work-Based Learning Coordinator endorsement. To be eligible, applicants must hold an occupational endorsement on the Standard Instructional Certificate or qualify for an Occupational Specialist Certificate, plus complete course work in coordination of work-based learning programs. (3-29-17)

**d.** Career Counselor Endorsement. The endorsement for a Career Counselor may be issued to applicants who hold a current Pupil Personnel Services Certificate-Endorsed School Counselor K-12 and who have satisfied the following career technical requirement: Career Pathways and Career Technical Guidance; Principles/Foundations of Career Technical Education; and Theories of Occupational Choice. ~~(3-25-16)~~( - - )

**06. Occupational Specialist Certificate.** The Occupational Specialist Certificates are industry based career technical certifications issued in lieu of a degree based career technical certificate. Certificate holders must meet the following eligibility requirements: (3-29-17)

**a.** Be eighteen (18) years of age; document full-time, successful, recent, gainful employment in the area for which certification is requested; possess either a high school diploma or General Educational Development (GED) certificate; meet provisions of Idaho Code; and, verify technical skills through work experience, certification or testing as listed below. When applicable, requirements of occupationally related state agencies must also be met. Since educational levels and work experiences vary, applicants may be determined highly qualified under any one (1) of the following three (3) options: (3-29-17)

i. Have eight (8) years or sixteen thousand (16,000) hours of recent, gainful employment in the occupation for which certification is requested. Up to forty-eight (48) months credit or up to eight thousand (8,000) hours can be counted toward the eight (8) years on a month-to-month basis for journeyman training or completed

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

postsecondary training in a career technical education program; or (3-29-17)

ii. Have a baccalaureate degree in the specific occupation or related area, plus three (3) years or six thousand (6,000) hours of recent, gainful employment in the occupation; or (3-29-17)

iii. Meet one (1) of the following: (3-25-16)

(1) Be a journeyman with two (2) years of recent, full-time, gainful, related work experience, or have completed a formal apprenticeship program in the occupation or related area for which certification is requested. The apprenticeship must be under the direction of an employer and the Bureau of Apprenticeship and Training or an approved state apprenticeship agency; (3-29-17)

(2) Pass an approved state or national certification examination plus three (3) years of recent, gainful, related work experience (length and type of work experience will be determined on an individual basis); or (3-29-17)

(3) Pass approved industry related certification for skill level requirements (vendor and industry specific) plus three (3) years of recent, gainful, related work experience (length and type of work experience will be determined on an individual basis). If no competency test exists, a written recommendation from a representative occupational advisory council/committee and recorded in its minutes is required to verify occupational competence. (3-29-17)

**b.** Limited Occupational Specialist Certificate. This certificate is issued to individuals who are new to teaching in public schools. The certificate is valid for three (3) years and is non-renewable: (3-29-17)

i. Within the first eighteen (18) months, the holder must complete the pre-service workshop sponsored by the Division of Career Technical Education and an approved course in career technical methods and student assessment; (3-29-17)

ii. Complete a new-teacher induction workshop at the state or district level; (3-25-16)

iii. Within the three-year (3) period of the Limited Occupational Specialist Certificate, the instructor must satisfactorily demonstrate competencies in Principles/Foundations of Occupational Education and Methods of Teaching Occupational Education. Additionally, the instructor must satisfactorily demonstrate competencies in two (2) of the following areas: Career Pathways and Guidance; Analysis, Integration, and Curriculum Development; and Measurement and Evaluation. (3-29-17)

**c.** Standard Occupational Specialist Certificate. This certificate is issued to individuals who have: (3-29-17)

i. Completed the pre-service workshop sponsored by the Division of Career Technical Education and an approved course in career technical methods and student assessment; and (3-29-17)

ii. Completed a new-teacher induction workshop at the state or district level; and (3-29-17)

iii. Can satisfactorily demonstrate competencies in Principles/Foundations of Occupational Education and Methods of Teaching Occupational Education; and (3-29-17)

iv. Can demonstrate competencies in two (2) of the following areas: Career Pathways and Guidance; Analysis, Integration, and Curriculum Development; and Measurement and Evaluation; and (3-29-17)

v. The Standard Occupational Specialist Certificate is valid for five (5) years and must be renewed pursuant to Section 060 of these rules. Credit equivalencies will be based on verification of one hundred twenty (120) hours of approved related work experience or forty-five (45) hours of participation at approved technical conferences, institutes, or workshops or any equivalent combination thereof, and having on file a new professional development plan for the next certification period. Work experience may be prorated at the rate of forty (40) hours per credit.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

Technical conference, institutes, or workshop participation may be prorated at the rate of fifteen (15) hours per credit. (3-29-17)

- d.** Advanced Occupational Specialist Certificate. This certificate is issued to individuals who: (3-29-17)

  - i. Meet the requirements for the Standard Occupational Specialist Certificate; (3-29-17)
  - ii. Can provide evidence of completion of a teacher training degree program or eighteen (18) semester credits of approved education related course work, such as educational methodology in the content area, in addition to the twelve (12) semester credits required for the Standard Occupational Specialist Certificate (a total of thirty (30) semester credits); and (3-29-17)
  - iii. File a new professional development plan for the next certification period; and (3-25-16)
  - iv. The Advanced Occupational Specialist Certificate is valid for five (5) years and must be renewed pursuant to Section 060. At least three (3) educationally focused semester credits must be taken for university or college credit. Verification will be based on an official transcript. In addition to the minimum of three (3) semester credits, in-service activities or related work experience may be used. Credit equivalencies will be based on verification of one hundred twenty (120) hours of approved related work experience or forty-five (45) hours of participation at approved technical conferences, institutes and workshops or any equivalent combination thereof, and having on file a new professional development plan for the next certification period. Work experience may be prorated at the rate of forty (40) hours per credit. Technical conference, institutes, or workshop participation may be prorated at the rate of fifteen (15) hours per credit. (3-29-17)

**07. Postsecondary Specialist.** A Postsecondary Specialist certificate will be granted to a current academic faculty member whose primary employment is with any accredited Idaho postsecondary institution. To be eligible to teach in the public schools under this postsecondary specialist certificate, the candidate must supply a recommendation from the employing institution (faculty's college dean). The primary use of this state-issued certificate will be for distance education, virtual classroom programs, and for public and postsecondary partnerships. (3-29-17)

- a.** Renewal. This certificate is good for five (5) years and is renewable. To renew the certificate, the renewal application must be accompanied with a new written recommendation from the postsecondary institution (faculty's college dean level or higher). (3-25-16)
- b.** Fees. The fee is the same as currently in effect for an initial or renewal certificate as established in Section 066 of these rules. (3-25-16)
- c.** The candidate must meet the following qualifications: (3-25-16)

  - i. Hold a master's degree or higher in the content area being taught; (3-25-16)
  - ii. Be currently employed by the postsecondary institution in the content area to be taught; and (3-25-16)
  - iii. Complete and pass a criminal history background check as required according to Section 33-130, Idaho Code. (3-25-16)

**08. American Indian Language.** Each Indian tribe shall provide to the State Department of Education the names of those highly and uniquely qualified individuals who have been designated to teach the tribe's native language in accordance with Section 33-1280, Idaho Code. Individuals identified by the tribe(s) may apply for an Idaho American Indian Certificate as American Indian languages teachers. (3-25-16)

- a.** The Office of Indian Education at the State Department of Education will process an application that has met the requirements of the Tribe(s) for an American Indian languages teacher. (3-25-16)

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

b. Once an application with Tribal approval has been received, it will be reviewed and, if approved, it will be forwarded to the Office of Certification for a criminal history background check as required in Section 33-130, Idaho Code. The application must include a ten finger fingerprint card or scan and a fee for undergoing a ~~criminal history check~~background investigation check pursuant to Section 33-130, Idaho Code.  
( - - )(3-25-16)

c. The Office of Certification will review the application and verify the applicant is eligible for an Idaho American Indian Certificate. The State Department of Education shall authorize an eligible applicant as an American Indian languages teacher. An Idaho American Indian Certificate is valid for not more than five (5) years. Individuals may apply for a renewal certificate. (3-25-16)

**09. Junior Reserved Officer Training Corps (Junior ROTC) Instructors.** (3-25-16)

a. Each school district with a Junior ROTC program shall provide the State Department of Education with a list of the names of those individuals who have completed an official armed forces training program to qualify as Junior ROTC instructors in high schools. (3-25-16)

b. Each school district with a Junior ROTC program shall provide the State Department of Education with a notarized copy of their certificate(s) of completion. (3-25-16)

c. Authorization Letter. Upon receiving the items identified in Subsections 015.09.a. and b., the State Department of Education shall issue a letter authorizing these individuals as Junior ROTC instructors. (3-29-17)

**10. Additional Renewal Requirements.** In addition to specific certificate or endorsement renewal requirements, applicants must meet the following renewal requirements as applicable: (3-25-16)

a. Mathematics In-Service Program. In order to recertify, the state approved mathematics instruction course titled "Mathematical Thinking for Instruction", or another State Department of Education approved alternative course, shall be required. The "Mathematical Thinking for Instruction" course consists of three (3) credits. Teachers must take one (1) of the three (3) courses developed that is most closely aligned with their current assignment prior to July 1, 2019. Any teacher successfully completing said course shall be deemed to have met the requirement of Subsection 060.02.c. of this rule as long as said course is part of an official transcript or completed before September 1, 2013, and verified by the State Department of Education. Successful completion of a state approved mathematics instruction course shall be a one-time requirement for renewal of certification for those currently employed in an Idaho school district and shall be included within current requirements for continuing education for renewal. The following must successfully complete the "Mathematical Thinking for Instruction" course or another State Department of Education approved alternative course in order to recertify:  
( - - )(3-29-17)

i. Each teacher holding a ~~Blended~~ Blended Early Childhood Education/Early Childhood Special Education Blended endorsement (Birth - Grade 3) endorsement who is employed by a school district or charter school as a K-3 multi-subject or special education teacher;  
( - - )(3-29-17)

ii. Each teacher holding an ~~Standard Instructional Certificate~~ All Subjects (K-8) endorsement who is employed by a school district or charter school as a K-6 multi-subject teacher;  
( - - )(3-29-17)

iii. Each teacher holding an All Subjects (K-8) endorsement, Mathematics – Basic (5-9 or 6-12) endorsement, or Mathematics (5-9 or 6-12) - Standard Instructional Certificate (6-12) endorsement teaching in a mathematics content classroom (grade six (6) through grade twelve (12)) including Title I who is employed by a school district or charter school;  
and (3-29-17)( - - )

iv. Each teacher holding an ~~Standard~~ Exceptional Child Generalist E endorsement who is employed by

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

a school district or charter school as a special education teacher.

~~( - - )(3-29-17)~~

~~v. Each school administrator coming from out of state holding an Administrator Certificate who is employed by a school district or charter school. (3-29-17)~~

**b.** Waiver of Mathematics In-Service Program. When applying for certificate renewal, an automatic waiver of the mathematics in-service program requirement shall be granted for any certificated individual living outside of the state of Idaho who is not currently employed as an educator in the state of Idaho. This waiver applies only as long as the individual remains outside the state of Idaho or as long as the individual is not employed as an educator in the state of Idaho. Upon returning to Idaho or employment in an Idaho public school, the educator will need to complete this requirement prior to the next renewal period. (3-25-16)

~~e. Idaho Comprehensive Literacy Course. In order to recertify, a state approved Idaho Comprehensive Literacy Course shall be required. Successful completion of a state approved Idaho Comprehensive Literacy course shall be a one time requirement for renewal of certification for those currently employed in an Idaho school district and shall be included within current requirements for continuing education for renewal. The following individuals must successfully complete an Idaho Comprehensive Literacy course in order to recertify: (3-25-16)~~

~~( - - )~~

~~i. Each teacher holding an Early Childhood/Early Childhood Special Education Blended Endorsement (Birth Grade 3) who is employed by a school district or charter school; (3-29-17)~~

~~ii. Each teacher holding a Standard Instructional Certificate (K-8) who is employed by a school district or charter school; and (3-29-17)~~

~~iii. Each teacher holding a Standard Exceptional Child Generalist Endorsement who is employed by a school district or charter school. (3-29-17)~~

**dc.** Administrator certificate renewal. In order to recertify, holders of an administrator certificate must complete a course consisting of a minimum of three (3) semester credits in the Idaho framework for teachers' evaluation pursuant to Section 33-1204, Idaho Code. Credits must be earned through an approved teacher preparation program and include a laboratory component. The laboratory component must include in-person or video observation and scoring of teacher performance using the statewide framework for teacher's evaluation. (3-29-17)

**016. IDAHO INTERIM CERTIFICATE.**

The State Department of Education or the Division of Career Technical Education, as applicable to the certificate, is authorized to issue a three-year (3) interim certificate to those applicants who hold a valid certificate/license from another state or other entity that participates in the National Association of State Directors of Teacher Education and Certification (NASDTEC) Interstate Agreement pursuant to Section 33-4104, Idaho Code, or engaged in an alternate route to certification as prescribed herein. (3-29-17)

**01. Interim Certificate Not Renewable.** Interim certification is only available on a one-time basis per individual except under extenuating circumstances approved by the State Department of Education. It will be the responsibility of the individual to meet the requirements of the applicable alternate authorization route and to obtain a full Idaho Educator Credential during the term of the interim certificate. (3-29-17)

**02. Idaho Comprehensive Literacy Course.** For all Idaho teachers working on interim certificates ~~(alternate authorizations, nontraditional routes, reinstatements or coming from out of the state), alternate routes or coming from out of the state;~~ completion of a state approved Idaho Comprehensive Literacy course or assessment, or approved secondary equivalent shall be a one-time requirement for full certification. ~~(3-25-16)( - - )~~

**a.** Those individuals who qualify for an Idaho certificate through state reciprocity shall be granted a three-year, non-renewable interim certificate to allow time to meet the Idaho Comprehensive Literacy Course requirement. (3-25-16)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**03. Mathematical Thinking for Instruction.** For all Idaho teachers or administrators working on interim certificates (alternate authorizations, nontraditional routes, reinstatements or coming from out of the state), with an All Subjects (K-8) endorsement, ~~or any mathematics endorsement, Exceptional Child Generalist endorsement, Blended Early Childhood/Early Childhood Special Education endorsement, or Administrator certificate~~ must complete a state approved Mathematical Thinking for Instruction, or another State Department of Education approved alternative course, as a one-time requirement ~~to receive a standard instructional, standard occupational, or advanced occupational certificate for full certification.~~ (3-29-17)( - - )

**04. Technology.** Out-of-state applicants ~~will~~may be reviewed by the hiring district for technology deficiencies and may be required to take technology courses to improve their technology skills. (4-7-11)

**05. Reinstatement of Expired Certificate.** An individual holding an expired Idaho certificate may be issued a nonrenewable three-year interim certificate. During the validity period of the interim certificate, the applicant must meet ~~all current requirements listed for the specific certificate and endorsement(s) including the appropriate content, pedagogy, and performance assessments, the following requirements to obtain a full certification during the term of the interim certificate:~~ (3-29-12)( - - )

- a. Two years successful evaluations as per Idaho Code 33-1001, subsection 14 ( - - )
- b. Measured annual progress on specific goals identified on Individualized Professional Learning Plan ( - - )
- c. Six (6) credit renewal requirement ( - - )
- d. Any applicable requirement for Idaho Comprehensive Literacy Course or Mathematical Thinking for Instruction as indicated in subsections 016.02 and 016.03 of these rules. ( - - )

**06. Foreign Institutions.** An educator having graduated from a foreign institution ~~that is listed in the Accredited Degree Granting Institutions section of the "Accredited Institutions of Postsecondary Education" and having a valid/current teaching certificate/license from the country or province in which the foreign institution is located,~~ may be issued a non-renewable, three-year interim certificate. The applicant must also complete the requirements listed in Section 013 of these rules. (4-2-08)

**~~017. INTERSTATE CERTIFICATION COMPACT.~~**

~~Idaho participates in the Interstate Agreement of Qualification of Education Personnel. This agreement applies equally to teachers entering Idaho from another compact member state and to teachers entering another compact member state from Idaho. The compact applies to classroom teachers only. Trades and industries teachers are not covered by the agreement. (Section 33-4104, Idaho Code) (4-1-97)~~

**018. CONTENT, PEDAGOGY AND PERFORMANCE ASSESSMENT FOR CERTIFICATION.**

**01. Assessments.** State Board of Education approved content, pedagogy and performance area assessments shall be used in the state of Idaho to ensure qualified teachers are employed in Idaho's classrooms. The Professional Standards Commission shall recommend assessments and qualifying scores to the State Board of Education for approval. A baccalaureate degree or higher in the specific content area in which the candidate is seeking an endorsement may be used in lieu of state approved content area assessment.

(4-2-08)( - - )

**02. Out-of-State Waivers.** An out-of-state applicant for Idaho certification holding a current certificate may request a waiver from the above requirement. The applicant shall provide evidence of passing a state approved content, pedagogy and performance area assessment(s) or hold current National Board for Professional Standards Teaching Certificate. (4-2-08)

**03. Idaho Comprehensive Literacy Assessment.** All applicants for initial Idaho certification (Kindergarten through grade twelve (12)) from an Idaho approved teacher education program must demonstrate competency in comprehensive literacy. Areas to be included as parts of the assessment are: phonological awareness,

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

phonics, fluency, vocabulary, comprehension, writing, and assessments and intervention strategies. Each Idaho public higher education institution shall be responsible for the assessment of teacher candidates in its teacher preparation program. The assessment must measure teaching skills and knowledge congruent with current research on best literacy practices for elementary students or secondary students (adolescent literacy) dependent upon level of certification and English Language Learners. In addition, the assessment must measure understanding and the ability to apply strategies and beliefs about language, literacy instruction, and assessments based on current research and best practices congruent with International Reading Association/National Council of Teachers of English standards, National English Language Learner's Association professional teaching standards, National Council for Accreditation of Teacher Education standards, and state accreditation standards. (4-7-11)

~~04. — **Technology Assessment.** All applicants for initial Idaho certification (Kindergarten through grade twelve (12)) from an Idaho approved teacher education program must demonstrate proficiency in relevant technology skills and practices to enhance classroom management and instruction. Each Idaho public higher education institution shall be responsible for the assessment of teacher candidates in its teacher preparation program. The assessment must measure understanding and the ability to apply strategies and beliefs about the integration of technology based on current research and best practices congruent with the International Society for Technology in Education professional teaching standards, the National Council for Accreditation of Teacher Education standards, and state accreditation standards. — (4-7-11)~~

**019. -- 020. (RESERVED)**

**021. ENDORSEMENTS.**

Holders of a Standard Instructional Certificate, Standard Occupational Specialist Certificate, and Advanced Occupational Specialist Certificate may be granted endorsements in subject areas as provided herein. Instructional staff are eligible to teach in the grades and content areas of their endorsements. Idaho preparation programs shall prepare candidates for endorsements in accordance with the Idaho Standards for Initial Certification of Professional School Personnel. An official statement of competency in a teaching area or field is acceptable in lieu of required credits if such statements ~~originate are created~~ in consultation with the department or division of the accredited college or university in which the competency is established and are approved by the director of teacher education of the recommending college or university. Statements must include the number of credits the competency evaluation is equivalent to. To add an endorsement to an existing credential, an individual shall complete the credit hour requirements as provided herein and shall also meet or exceed the state qualifying score on appropriate, state approved content, pedagogy and performance assessments. When converting semester credit hours to quarter credit hours, two (2) semester credit hours is equal to three (3) quarter credit hours. (3-29-17)

**01. Clinical Experience Requirement.** All endorsements require supervised teaching experience in the relevant content area, or a State Department of Education approved alternative clinical experience. (3-12-14)

**02. Alternative Authorization to Endorsement.** Candidates shall meet all requirements for the endorsement as provided herein. (3-29-17)

**a.** Option I -- An official statement of competency in a teaching area or field is acceptable in lieu of courses for a teaching field if such statements ~~originate are created~~ in consultation with the department or division of the accredited college or university in which the competency is established and are approved by the director of teacher education of the recommending college or university. (3-29-17)

**b.** Option II -- National Board. By earning National Board Certification in content specific areas, teachers may gain endorsement in a corresponding subject area. (3-29-17)

**c.** Option III -- Master's degree or higher. By earning a graduate degree in a content specific area, candidates may add an endorsement in that same content area to a valid certificate. (3-29-17)

**d.** Option IV -- Testing and/or Assessment. Two (2) pathways are available to some teachers, depending upon endorsement(s) already held. (3-29-17)

**i.** Pathway 1 -- Endorsements may be added through state-approved testing and a mentoring

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

component. The appropriate test must be successfully completed within the first year of authorization in an area closely compatible with an endorsement for which the candidate already qualifies and is experienced. Additionally, requires the successful completion of a one (1)-year state-approved mentoring component. (3-25-16)

ii. Pathway 2 -- Endorsements may be added through state-approved testing in an area less closely compatible with an endorsement for which the candidate already qualifies and is experienced. The appropriate test must be successfully completed within the first year of the authorization. Additionally, requires the successful completion of a one (1)-year state-approved mentoring component and passing a final pedagogy assessment. (3-25-16)

**022. ENDORSEMENTS A - D.**

**01. Agriculture Science and Technology (5-9 or 6-12).** (3-16-04)

a. Forty-five (45) semester credit hours including course work in each of the following areas: agriculture education; agriculture mechanics; agriculture business management; soil science; animal science; Career Technical Student Organization (CTSO) Leadership; and plant science; and occupational teacher preparation pursuant to section 015.05.a;  
or ~~(3-29-17)( - - )~~

b. Occupational teacher preparation pursuant to Section 015.04 through 015.06. (3-29-17)

**02. American Government /Political Science (5-9 or 6-12).** Twenty (20) semester credit hours to include: a minimum of six (6) semester credit hours in American Government, six (6) semester credit hours in U.S. History Survey, and a minimum of three (3) semester credit hours in Comparative Government. Remaining course work must be selected from Political Science. Course work may include three (3) semester credit hours in World History Survey.  
~~( - - )(4-11-06)~~

**03. All Subjects (K-8).** Allows one to teach in any educational setting (K-8). Twenty (20) semester credit hours, or thirty (30) quarter credit hours in the philosophical, psychological, methodological foundations, instructional technology, and professional subject matter must be in elementary education including at least six (6) semester credit hours, or nine (9) quarter credit hours, in developmental reading. This endorsement must be accompanied by at a minimum one (1) additional subject area endorsement allowing teaching of that subject through grade 9 or kindergarten through grade 12.  
(3-29-17)

**04. Bilingual Education (K-12).** Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Bilingual Education Teachers to include all of the following: ~~at least nine (9)~~ upper division ~~semester credit hours coursework~~ in one (1) Modern Language other than English, including writing and literature, and advanced proficiency according to the American Council on the Teaching of Foreign Languages (ACTFL) guidelines; cultural diversity; ~~ENSL/B~~bilingual ~~M~~methods; ~~linguistics~~, second language acquisition theory and practice; ~~F~~foundations of ~~ENSL/B~~bilingual ~~E~~ducation, ~~Federal and State Law~~legal foundations of ~~ESL/bilingual education~~, ~~Testing/identification and assessment of Limited-English Proficient Students/learners, biliteracy~~; at least ~~two one (2)~~ semester credit hours in ~~B~~bilingual ~~P~~practicum ~~or field experience~~; and ~~three (3) semester credit hours in a Bilingual Education related elective (ex: linguistics, critical pedagogy, parent involvement).~~ (4-4-13)( - - )

**05. Biological Science (5-9 or 6-12).** Twenty (20) semester credit hours including coursework in each of the following areas: molecular and organismal biology, heredity, ecology and biological adaptation. (3-29-17)

**06. Blended ~~Early Childhood Elementary Education/Early Childhood~~Elementary Special Education ~~(Pre-KGrade 4 – Grade 6) through Grade Six (6) Endorsement.~~** The Blended Elementary Education/Elementary Special Education (Pre-KGrade 4 – Grade 6) through Grade Six (6) endorsement allows one to teach in any Pre-Kgrade four (4) through grade six (6) education setting, except in a middle school setting. This

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

endorsement may only be ~~added~~ issued in conjunction with ~~to~~ the Blended Early Childhood Education/Early Childhood Special Education (Birth – Grade 3) endorsement ~~in conjunction with the Birth through Grade Three (3) endorsement~~. To be eligible for a Blended Early Childhood/Elementary Education/Early Childhood/Elementary Special Education (Grade 4 – Grade 6) endorsement ~~with an Early Pre K through Grade Six (6) endorsement~~, a candidate must have satisfied the following requirements:  
( - - )(3-29-17)

a. Completion of a program of a minimum of twenty (20) semester credit hours in ~~the area of Elementary Education to include~~ coursework ~~in each of to include the following areas~~: methodology (literacy, mathematics, science, physical education, art); content knowledge (mathematics, literacy, science, health, art); technology; assessment; and, field experiences in grades four (4) through six (6).  
( - - )(3-29-17)

**07. Blended Early Childhood Education/Early Childhood Special Education (Birth through- Grade Three (3))**. The Blended Early Childhood Education/Early Childhood Special Education (Birth through- Grade Three (3)) endorsement allows one to teach in any educational setting birth through grade three (3). To be eligible, a candidate must have satisfied the following requirements.

~~———— b. ———— Occupational teacher preparation pursuant to Subsections 015.04 through 015.06. ———— (3-29-17)~~

**176. Theater Arts (5-9 or 6-12).** Twenty (20) semester credit hours leading toward competency as defined by Idaho Standards for Theater Arts Teacher, including coursework in each of the following areas: acting and directing, and a minimum of six (6) semester credits in technical theater/stagecraft. To obtain a Theater Arts (6-12) endorsement, applicants must complete a comprehensive methods course including the pedagogy of acting, directing and technical theater. (3-29-17)

**187. Visual Arts (5-9, 6-12, or K-12).** Twenty (20) Semester credit hours leading toward competency as defined by Idaho Standards for Visual Arts Teachers to include a minimum of nine (9) semester credit hours in: foundation art and design. Additional course work must include secondary arts methods, 2-dimensional and 3-dimensional studio areas. To obtain a Visual Arts (K-12) endorsement, applicants must complete an elementary art methods course. (3-29-17)

**19. Visual Impairment Endorsement (K-12).** Completion of a program of a minimum of thirty (30) semester credit hours in the area of visual impairment. An institutional recommendation specific to this endorsement is required. To be eligible for a Visually Impaired endorsement, a candidate must have satisfied the following requirements: ( - - )(3-29-17)

**a.** Completion of a baccalaureate degree from an accredited college or university; (3-29-17)

**b.** Completion in an Idaho college or university of a program in elementary, secondary, or special education currently approved by the Idaho State Board of Education, or completion in an out-of-state college or university of a program in elementary, secondary, or special education currently approved by the state educational agency of the state in which the program was completed; (3-29-17)

**c.** Completion of a program of a minimum of thirty (30) semester credit hours in the area of Visual Impairment and must receive an institutional recommendation specific to this endorsement from an accredited college or university; and (3-29-17)

**d.** Each candidate must have a qualifying score on an approved core content assessment and a second assessment related to the specific endorsement requested. (3-29-17)

**20. World Language (5-9, 6-12 or K-12).** Twenty (20) semester credit hours to include a minimum of twelve (12) ~~intermediate or higher upper division~~ credits in a specific world language ~~taken within the last ten (10) years leading to a proficiency level as defined by a state approved exam (for example, a passing grade on the Praxis or an Advanced level as defined by the American Council on the Teaching of Foreign Languages (ACTFL)).~~ Course work must include two (2) or more of the following areas: ~~G~~rammar, ~~C~~onversation, ~~C~~omposition, ~~C~~ulture, ~~linguistics, and or L~~iterature; and course work in ~~F~~oreign ~~L~~anguage ~~M~~ethods. To obtain an endorsement in a specific foreign language (K-12), applicants must complete an elementary methods course. To obtain an endorsement in a specific foreign language, applicants must complete the following:

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

a. Score an intermediate high (as defined by the American Council on the Teaching of Foreign Languages (ACTFL) or equivalent) on an oral proficiency assessment conducted by an objective second party, and

b. A qualifying score on a state approved specific foreign language content assessment, or if a specific foreign language content assessment is not available, a qualifying score on a state approved world languages pedagogy assessment) (3-29-17)( - - )

**025. -- 041. (RESERVED)**

**042. ALTERNATE ROUTES TO CERTIFICATION.**

The purpose of this program is to provide an alternative for individuals to become certificated teachers in Idaho without following a standard teacher education program. Alternative Routes to Certification shall allow individuals to serve as the teacher of record prior to having earned full certification status. The teacher of record is defined as the person who is primarily responsible for planning instruction, delivering instruction, assessing students formatively and summatively, and designating the final grade. Individuals who are currently employed as Paraprofessionals and, individuals with strong subject matter background but limited experience with educational methodology shall follow the alternate certification requirements provided herein. Individuals who are currently certificated to teach but who are in need of an emergency endorsement in another area may obtain an endorsement through an alternate route as described in subsection 021.02 of these rules. (3-29-17)

**01. Alternative Authorization -- Teacher To New Certification.** The purpose of this alternative authorization is to allow Idaho school districts to request additional certification when a professional position cannot be filled with someone who has the correct certification. Alternative authorization in this area is valid for one (1) year and may be renewed for two (2) additional years with evidence of satisfactory progress toward completion of an approved alternative route preparation program. Interim certification is valid for not more than three (3) years total. (3-29-17)

a. Prior to application, a candidate must hold a baccalaureate degree, and a valid Idaho instructional certificate. The school district must provide supportive information attesting to the ability of the candidate to fill the position. (3-29-17)

b. A candidate must participate in an approved alternative route preparation program. (3-25-16)

i. The candidate will work toward completion of the alternative route preparation program through a participating college/university, and the employing school district. The candidate must complete a minimum of nine (9) semester credits annually to maintain eligibility for renewal; and (3-25-16)

ii. The participating college/university shall provide procedures to assess and credit equivalent knowledge, dispositions, and relevant life/work experiences. (3-20-04)

**02. Alternative Authorization -- Content Specialist.** The purpose of this alternative authorization is to offer an expedited route to certification for individuals who are highly and uniquely qualified in a subject area to teach in a district with an identified need for teachers in that area. Alternative authorization in this area is valid for one (1) year and may be renewed for two (2) additional years with evidence of satisfactory progress toward completion of an approved alternative route preparation program. Interim certification is valid for not more than three (3) years total. (3-25-16)

a. Initial Qualifications. (3-20-04)

i. A candidate must hold a baccalaureate degree or have completed all of the requirements of a baccalaureate degree except the student teaching or practicum portion; and (3-29-17)

ii. The hiring district shall ensure the candidate is qualified to teach in the area of identified need through demonstrated content knowledge. This may be accomplished through a combination of employment experience and education. (3-25-16)

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

**b.** Alternative Route Preparation Program -- College/University Preparation or Other State Board Approved Certification Program. (3-25-16)

i. At the time of authorization a consortium comprised of a designee from the college/university to be attended or other state board approved certification program, and a representative from the school district, and the candidate shall determine the preparation needed to meet the Idaho Standards for Initial Certification of Professional School Personnel. This plan must include mentoring and a minimum of one (1) classroom observation by the mentor per month, which will include feedback and reflection, while teaching under the alternative authorization. The plan must include annual progress goals that must be met for annual renewal; (3-29-17)

ii. The candidate must complete a minimum of nine (9) semester credit hours or its equivalent of accelerated study in education pedagogy prior to the end of the first year of authorization. The number of required credits will be specified in the consortium developed plan; (3-29-17)

iii. At the time of authorization the candidate must enroll in and work toward completion of the alternative route preparation program through a participating college/university or other state board approved certification program, and the employing school district. A teacher must attend, participate in, and successfully complete an individualized alternative route preparation program as one (1) of the conditions for annual renewal and to receive a recommendation for full certification; (3-25-16)

iv. The participating college/university or other state board approved certification program shall provide procedures to assess and credit equivalent knowledge, dispositions and relevant life/work experiences; and (3-25-16)

~~v. Prior to entering the classroom, the candidate shall meet or exceed the state qualifying score on appropriate state approved content, pedagogy, or performance assessment. (3-20-04)~~

**03. Non-Traditional Route to Teacher Certification.** An individual may acquire interim certification as found in Section 016 of these rules through an approved non-traditional route certification program. (3-25-16)

**a.** Individuals who possess a baccalaureate degree or higher from an accredited institution of higher education may utilize this non-traditional route to an interim Idaho Teacher Certification. (3-29-17)

**b.** To complete this non-traditional route, the individual must: (3-25-16)

i. Complete a Board approved program; (4-6-05)

ii. Pass the Board approved pedagogy and content knowledge exams; and (4-6-05)

iii. Complete the Idaho Department of Education ~~Criminal History Check~~ background investigation check. ~~( - - )(4-6-05)~~

**c.** Interim Certificate. Upon completion of the certification process described herein, the individual will be awarded an interim certificate from the State Department of Education's Certification and Professional Standards Department. During the term of the interim certificate, teaching by the individual must be done in conjunction with a two (2) year teacher mentoring program approved by the Board. The individual must complete the mentoring program during the term of the interim certificate. In the case where teachers start their mentoring program in the third year of their interim certificate, they must apply to the State Department of Education Teacher Certification Department for a waiver to complete the final year of their mentoring program for full certification. All laws and rules governing the fully certificated teachers with respect to conduct, discipline and professional standards shall apply to individuals teaching under any Idaho certificate including an interim certificate. (3-29-17)

**d.** Interim Certificate Not Renewable. Interim certification hereunder is only available on a one (1) time basis per individual. It will be the responsibility of the individual to obtain a valid renewable Idaho Educator Credential during the three (3) year interim certification term. (3-25-16)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

e. Types of Certificates and Endorsements. The non-traditional route may be used for first-time certification, subsequent certificates, and additional endorsements. (3-20-14)

**04. Alternative Authorization - Pupil Personnel Services.** The purpose of this alternative authorization is to allow Idaho school districts to request endorsement/certification when a position requiring the Pupil Personnel Services certificate cannot be filled with someone who has the correct endorsement/certification. The exception to this rule is the Interim School Nurse endorsement and the Interim Speech Language Pathologist endorsement. The requirements for these endorsements are defined in Subsection 015.02 of these rules. The alternate authorization is valid for one (1) year and may be renewed for two (2) additional years with evidence of satisfactory progress toward completion of an approved alternative route preparation program. Interim certification is valid for not more than three (3) years total. (3-29-17)

a. Initial Qualifications. The applicant must complete the following: (4-2-08)

i. Prior to application, a candidate must hold a master's degree and hold a current Idaho license from the Bureau of Occupational Licenses in the area of desired certification; and (3-25-16)

ii. The employing school district must provide supportive information attesting to the ability of the candidate to fill the position. (4-2-08)

b. Alternative Route Preparation Program. (4-2-08)

i. The candidate must work toward completion of the alternative route preparation program through a participating college/university and the employing school district. The alternative route preparation program must include annual progress goals. (3-25-16)

ii. The candidate must complete a minimum of nine (9) semester credits annually to be eligible for extension of up to a total of three (3) years. (4-2-08)

iii. The participating college/university or the State Department of Education will provide procedures to assess and credit equivalent knowledge, dispositions, and relevant life/work experiences. (4-2-08)

iv. The candidate must meet all requirements for the endorsement/certificate as provided herein. (4-2-08)

**05. Alternate Authorization Renewal.** Annual renewal will be based on the school year and satisfactory progress toward completion of the applicable alternate authorization requirements. (3-25-16)

**043. -- 059.**

**(RESERVED)**

**060. APPLICATION PROCEDURES / PROFESSIONAL DEVELOPMENT.**

To obtain a new, renew, or reinstate an Idaho Educator Credential, the applicant must submit an application on a form supplied by the State Department of Education or the Division of Career Technical Education as applicable to the type of certificate. All applications for new, renewed, or reinstated occupational specialist certificates must be submitted to the Division of Career- Technical Education. The following requirements must be met to renew or reinstate an Idaho Educator Credential. (3-29-17)

**01. State Board of Education Requirements for Professional Growth.** (4-1-97)

a. Credits taken for recertification must be educationally related to the professional development of the applicant. (4-1-97)

i. Credits must be specifically tied to content areas and/or an area of any other endorsement; or (5-8-09)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- ii. Credits must be specific to pedagogical best practices or for administrative/teacher leadership; or (4-2-08)
- iii. Credits must be tied to a specific area of need designated by district administration. (4-2-08)
- b.** Graduate or undergraduate credit will be accepted for recertification. Credit must be college transferable and completed through an accredited college or university. (4-1-97)
  - c.** All requests for equivalent in-service training to apply toward recertification, except occupational specialist certificates, must be made through the State Department of Education upon recommendation of the board of trustees consistent with the State Department of Education guidelines. Individuals holding Occupational Specialist Certificates must be made through the Division of Career-Technical Education. Applicants must receive prior approval of in-service training and course work prior to applying for renewal. (3-29-17)
  - d.** At least fifteen (15) hours of formal instruction must be given for each hour of in-service credit granted. (4-1-97)
  - e.** Recertification credits may not be carried over from one (1) recertification period to the next. (4-1-97)
  - f.** Certificated personnel teaching in subjects outside their major area of preparation will be encouraged to complete the courses required for major certification endorsement. (4-1-97)
  - g.** All credits gained through coursework taken during the validity period of the certificate and commencing prior to September 1, 2008 shall be accepted toward recertification. (5-8-09)
  - h.** An appeals process, developed by the State Department of Education in conjunction with the Professional Standards Commission or the Division of Career Technical Education, as applicable to the certificate type, shall be available to applicants whose credits submitted for recertification, in part or as a whole, are rejected for any reason if such denial prevents an applicant from renewing an Idaho certificate. An applicant whose credits submitted for recertification are rejected, in part or as a whole, within six (6) months of the expiration of the applicant's current certification shall be granted an automatic appeal and a temporary certification extension during the appeal or for one (1) year, whichever is greater. (3-29-17)
- 02. State Board of Education Professional Development Requirements.** (4-1-97)
  - a.** Districts will have professional development plans. (4-1-97)
  - b.** All certificated personnel will be required to complete at least six (6) semester hours or the equivalent within the five (5) year period of validity of the certificate being renewed. (4-1-97)
  - c.** At least three (3) semester credits will be taken for university or college credit. Verification will be by official transcript. (4-1-97)

**061. -- 065. (RESERVED)**

**066. FEES.**

The state department of education shall maintain a record of all certificates issued, showing names, dates of issue and renewal, and if revoked, the date thereof and the reason therefor. A nonrefundable fee shall accompany each application for a prekindergarten through grade twelve (12) certificate, alternate certificate, change in certificate or replacement as follows: (3-16-04)

- 01. Initial Certificate.** All types, issued for five (5) years -- seventy-five dollars (\$75) (3-16-04)
- 02. Renewal Certificate.** All types, issued for five (5) years -- seventy-five dollars (\$75) (3-16-04)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

03. Reinstatement Certificate. All types, issued for three (3) years -- seventy-five dollars (75)( - - )  
)
034. ~~Alternate Route~~Alternative Authorization. All types, issued for one (1) year -- one hundred dollars (\$100) (3-16-04)( - - )
05. Non-Traditional Route. All types, issued for three (3) years -- one hundred dollars (\$100)( - - )
06. Emergency Provisional. Issued for one (1) year -- one hundred dollars (\$100) ( - - )
047. Additions or Changes During the Life of an Existing Certificate. Twenty-five dollars (\$25) (3-16-04)
058. To Replace an Existing Certificate. Ten dollars (\$10) (3-16-04)
- 067. -- 074. (RESERVED)**

**075. FINGERPRINTING AND ~~CRIMINAL HISTORY CHECKS~~BACKGROUND INVESTIGATION CHECKS (SECTIONS 33-130 AND 33-512, IDAHO CODE).**

All ~~certificated and non-certificated employees and other~~ individuals who are required by the provisions of Section 33-130, Idaho Code, must undergo a ~~criminal history check~~background investigation check. ( - - )(4-9-09)

- 01. Definitions.** ( - - )(4-9-09)
- a.** Applicant. An individual ~~completing a background investigation check as identified in subsection 075.02 of these rules applying for Idaho Certification or a certificated or non-certificated individual applying for employment.~~ (4-9-09)( - - )
- b.** ~~Background Investigation Check (BIC). The submission of a completed applicant fingerprint card or scan by an authorized entity submitted under an enacted state statute/local ordinance or federal law, approved by the Attorney General of the United States allowing a search of the state and federal criminal history indices for non-criminal justice purposes including employment suitability, licensing determinations, immigration and naturalization matters, and national security clearances.~~ ( - - )
- c.** ~~Background Investigation Check Result. The response to a state and federal background investigation check initiated by a fingerprint submission from an authorized entity for non-criminal justice purposes. Results are returned to the submitting authorized entity by the state criminal history repository (Idaho State Police Bureau of Criminal Investigation).~~ ( - - )
- bd.** Break-in-Service. A voluntary or involuntary termination in employment, including retirement. ( - - )(4-9-09)
- ee.** Candidate. An individual attending a postsecondary program. ( - - )(4-9-09)
- d.** ~~Certificated Employee. An individual who holds an Idaho education certificate and is employed in a certificated position in a LEA.~~ (4-9-09)
- ef.** Contractor. An agency, company/business, or individual that has signed a contract or agreement to provide services to an LEA and private or parochial school. ( - - )(4-9-09)
- f.** ~~Conviction. The final judgment on a verdict or finding of guilty, a plea of guilty, a plea of nolo contendere, or the sentence has been suspended, deferred, or withheld on a felony or misdemeanor as defined by Section 18-110 and Section 18-111, Idaho Code.~~ (4-9-09)
- g.** ~~Criminal History Check (CHC). A ten (10) finger fingerprint process to determine if an applicant~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

~~has criminal arrests and convictions in Idaho, any other state, or applicable jurisdictions. (4-9-09)~~

~~**h.** Criminal History Check Result. Information resulting from processing fingerprints through the databases maintained by the Bureau of Criminal Identification (BCI), Federal Bureau of Investigation (FBI) and the Idaho Statewide Sex Offender Registry. (4-9-09)~~

~~**g.** Employee. A person who is hired for a wage, salary, fee or payment to perform work for an employer. ( - - )~~

~~**h.** Fingerprint Card or Scan. The process for obtaining impressions of an individual's fingerprint images both ten (10) individual finger impressions rolled from nail to nail and slap or flat impressions taken simultaneously without rolling. Fingerprints may be recorded utilizing either an inked standard fingerprint card or using a livescan device. Standard fingerprint cards may also be scanned for submission to the state repository for background investigation check purposes. (4-9-09)~~

~~**i.** Irregular Contact. Contact that is not on a daily or weekly basis, or has a regular scheduled interaction with students. (4-9-09)~~

~~**j.** Multiple Assignments. When an individual works in two or more LEAs or an LEA and private school simultaneously. (4-9-09)~~

~~**k.** Non-Certificated Employee. An individual employed in a non-certificated position. (4-9-09)~~

~~**l.** Open Date. The date a fingerprint card or scan is entered into the database as an electronic file. (4-9-09)~~

~~**mi.** Rejected Fingerprint Cards or Scans. A fingerprint card or scan that has been returned by the Bureau of Criminal Investigation, or Federal Bureau of Investigation or SDE for poor quality prints, lack of signature, card being older than six (6) months, or other incomplete information. ( - - )(4-9-09)~~

~~**n.** Scan. The process of capturing an individual's fingerprints by an electronic process. (4-9-09)~~

~~**oj.** Unsupervised Contact. Direct contact or interaction with students not under the direct supervision of an LEA school district employee on a continuing basis in a K-12 setting. This includes contact or interaction with students in scheduled school activities that occur outside of the school or outside of normal school hours. This excludes extra-curricular trips of one-day length starting during the school day. (4-9-09)( - - )~~

~~**02. Individuals Required to Complete a Background Investigation Check ( - - )**~~

~~a. All applicants for certificates; ( - - )~~

~~b. Certificated and noncertificated employees; ( - - )~~

~~c. Substitute teachers; ( - - )~~

~~d. Contractors who have unsupervised contact with students in a public K-12 setting, including contractors who are providing student services; ( - - )~~

~~e. Student teachers or any postsecondary candidate who have unsupervised contact with students in a public K-12 setting; ( - - )~~

~~f. Volunteers who have unsupervised contact with students in a public K-12 setting; ( - - )~~

~~g. Any individuals who have unsupervised contact with students in a public K-12 setting. ( - - )~~

~~**023. Fee.** The SDE shall charge a forty dollars (\$40) fee for undergoing a criminal history~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

~~check~~background investigation check pursuant to Section 33-130, Idaho Code.

~~( - - )~~(4-9-09)

**034. Rejected Fingerprint Cards or Scans.**

~~( - - )~~(4-9-09)

- a. When a fingerprint card has been rejected a new completed fingerprint card is required. (4-9-09)
- b. The rejected fingerprint card will be sent back to the originating LEA, private or parochial school, contractors, postsecondary program, or individual. (4-9-09)
- c. A new fingerprint card must be completed by a law enforcement agency to ensure legible fingerprints. Both the rejected fingerprint card and the new fingerprint card must be returned to the SDE within ~~twenty~~thirty (230) calendar days. ~~( - - )~~(4-9-09)
- d. If the new fingerprint card and rejected fingerprint card are returned after ~~the twenty~~thirty (230) calendar days ~~time period a forty dollar (\$40) a fee~~ pursuant to subsection 075.03 of these rules is required to be paid. ~~( - - )~~(4-9-09)

**045. Secured ~~CHC~~ Background Investigation Check Website.** The SDE will maintain a ~~CHC background investigation check~~ website listing the ~~CHC background investigation check~~ results ~~for review by the LEA, private or parochial school, or postsecondary program. The LEA, private or parochial school, contractor or postsecondary program may view the results or status of an applicant, employee or candidate.~~ ~~( - - )~~(4-9-09)

a. ~~Upon a signed agreement the SDE will issue a password to access the CHC website.~~ (4-9-09)

~~ab.~~ Each LEA, private or parochial school, contractor and postsecondary program will have access to the ~~CHC background investigation check~~ secure site listing their employees, statewide substitute teacher list, ~~newly certified list~~ and student teacher list. ~~( - - )~~(4-9-09)

**056. ~~Fingerprinting & Criminal History Checks~~ Background Investigation Checks for Certification.** ~~( - - )~~(4-9-09)

a. ~~The SDE will maintain a list of newly certificated educators. Educators stay on this list for one (1) year from their individual open date. Educators on this list may be employed by a LEA without a new CHC.~~ (4-9-09)

~~ba.~~ The SDE will make the final determination if an applicant is eligible for Idaho certification. ~~( - - )~~(4-9-09)

~~eb.~~ If the SDE makes a determination that the applicant is not eligible for Idaho certification, the SDE may deny the applicant Idaho certification. Upon receiving the written denial, the applicant may request a hearing pursuant to Section 33-1209, Idaho Code. ~~( - - )~~(4-9-09)

~~06. Non-Certificated Employees. Non-certificated employees are required to complete a CHC pursuant to Section 33-130, Idaho Code. The CHC results will be posted on the CHC website for their employer to review.~~ (4-9-09)

**07. Substitute Teachers.** Substitute teachers as defined in Section 33-512(15), Idaho Code, must undergo a ~~eriminal history check~~background investigation check. The SDE shall maintain a statewide substitute teacher list. To remain on the list ~~on the list~~ a substitute teacher shall undergo a ~~eriminal history~~background investigation check every five (5) years in accordance with Section 33-512, Idaho Code. ~~Substitute teachers on the list do not need to complete a multiple assignment form nor are subject to break in service provisions.~~ ~~( - - )~~(4-9-09)

**08. Break In Service.** ~~( - - )~~(4-9-09)

a. When an employee returns to any LEA, private or parochial school, or contractor after a break in service, a new ~~eriminal history check~~background investigation check must be completed pursuant to Section 33-130,

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

Idaho Code. ~~( - - )(4-9-09)~~

b. When an employee changes employment between LEAs a new ~~CHC-background investigation check~~ must be completed ~~pursuant to Section 33-130, Idaho Code, regardless of the most recent CHC.(4-9-09)( - - )~~

**09. Postsecondary.** ~~( - - )(4-9-09)~~

a. The postsecondary program will submit a completed fingerprint card or scan for all candidates who are applying for unsupervised contact with students in a public K-12 setting including student teaching, internships or practicum, or other types of candidate training. ~~( - - )(4-9-09)~~

b. The SDE will make a preliminary determination based on the ~~CHC-background investigation check~~ result if the candidate is eligible for certification in Idaho. This decision will be forwarded to the postsecondary program concerning the eligibility of their candidate. ~~(4-9-09)( - - )~~

~~c. The SDE will move a candidate from the student teacher list to the newly certified list when an application for certification is approved. (4-9-09)~~

**076. CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE).**

Believing in the worth and dignity of each human being, the professional educator recognizes the supreme importance of pursuing truth, striving toward excellence, nurturing democratic citizenship and safeguarding the freedom to learn and to teach while guaranteeing equal educational opportunity for all. The professional educator accepts the responsibility to practice the profession according to the highest ethical principles. The Code of Ethics for Idaho Professional Educators symbolizes the commitment of all Idaho educators and provides principles by which to judge conduct. (3-20-04)

**01. Aspirations and Commitments.** (3-20-04)

a. The professional educator aspires to stimulate the spirit of inquiry in students and to provide opportunities in the school setting that will help them acquire viable knowledge, skills, and understanding that will meet their needs now and in the future. (3-20-04)

b. The professional educator provides an environment that is safe to the cognitive, physical and psychological well-being of students and provides opportunities for each student to move toward the realization of his goals and potential as an effective citizen. (3-20-14)

c. The professional educator, recognizing that students need role models, will act, speak and teach in such a manner as to exemplify nondiscriminatory behavior and encourage respect for other cultures and beliefs. (3-20-14)

d. The professional educator is committed to the public good and will help preserve and promote the principles of democracy. He will provide input to the local school board to assist in the board's mission of developing and implementing sound educational policy, while promoting a climate in which the exercise of professional judgment is encouraged. (4-11-06)

e. The professional educator believes the quality of services rendered by the education profession directly influences the nation and its citizens. He strives, therefore, to establish and maintain the highest set of professional principles of behavior, to improve educational practice, and to achieve conditions that attract highly qualified persons to the profession. (4-11-06)

f. The professional educator regards the employment agreement as a pledge to be executed in a manner consistent with the highest ideals of professional service. He believes that sound professional personal relationships with colleagues, governing boards, and community members are built upon integrity, dignity, and mutual respect. The professional educator encourages the practice of the profession only by qualified persons. (4-11-06)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**02. Principle I - Professional Conduct.** A professional educator abides by all federal, state, and local education laws and statutes. Unethical conduct shall include the conviction of any felony or misdemeanor offense set forth in Section 33-1208, Idaho Code. (3-20-14)

**03. Principle II - Educator/Student Relationship.** A professional educator maintains a professional relationship with all students, both inside and outside the physical and virtual classroom. Unethical conduct includes, but is not limited to: (3-20-14)

**a.** Committing any act of child abuse, including physical or emotional abuse; (3-20-04)

**b.** Committing any act of cruelty to children or any act of child endangerment; (3-20-04)

**c.** Committing or soliciting any sexual act from any minor or any student regardless of age; (3-20-04)

**d.** Committing any act of harassment as defined by district policy; (4-11-06)

**e.** Soliciting, encouraging, or consummating a romantic or inappropriate relationship (whether written, verbal, virtual, or physical) with a student, regardless of age; (3-20-14)

**f.** Using inappropriate language including, but not limited to, swearing and improper sexual comments (e.g., sexual innuendoes or sexual idiomatic phrases); (3-20-04)

**g.** Taking or possessing images (digital, photographic, or video) of students of a harassing, confidential, or sexual nature; (4-11-15)

**h.** Inappropriate contact with any minor or any student regardless of age using electronic media; (4-11-06)

**i.** Furnishing alcohol or illegal or unauthorized drugs to any student or allowing or encouraging a student to consume alcohol or unauthorized drugs except in a medical emergency; (3-20-14)

**j.** Conduct that is detrimental to the health or welfare of students; and (3-20-14)

**k.** Deliberately falsifying information presented to students. (3-20-14)

**04. Principle III - Alcohol and Drugs Use or Possession.** A professional educator refrains from the abuse of alcohol or drugs during the course of professional practice. Unethical conduct includes, but is not limited to: (3-20-14)

**a.** Being on school premises or at any school-sponsored activity, home or away, involving students while possessing, using, or consuming illegal or unauthorized drugs; (3-20-04)

**b.** Being on school premises or at any school-sponsored activity, home or away, involving students while possessing, using, or consuming alcohol; (3-20-04)

**c.** Inappropriate or illegal use of prescription medications on school premises or at any school-sponsored events, home or away; (4-11-06)

**d.** Inappropriate or illegal use of drugs or alcohol that impairs the individual's ability to function; and (4-11-06)

**e.** Possession of an illegal drug as defined in Chapter 27, Idaho Code, Uniform Controlled Substances. (3-20-04)

**05. Principle IV - Professional Integrity.** A professional educator exemplifies honesty and integrity

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

in the course of professional practice. Unethical conduct includes, but is not limited to: (3-20-14)

- a.** Fraudulently altering or preparing materials for licensure or employment; (3-20-04)
- b.** Falsifying or deliberately misrepresenting professional qualifications, degrees, academic awards, and related employment history when applying for employment or licensure; (3-20-04)
- c.** Failure to notify the state at the time of application for licensure of past revocations or suspensions of a certificate or license from another state; (3-20-04)
- d.** Failure to notify the state at the time of application for licensure of past criminal convictions of any crime violating the statutes or rules governing teacher certification; (3-20-14)
- e.** Falsifying, deliberately misrepresenting, or deliberately omitting information regarding the evaluation of students or personnel, including improper administration of any standardized tests (changing test answers; copying or teaching identified test items; unauthorized reading of the test to students, etc.); (4-11-06)
- f.** Falsifying, deliberately misrepresenting, or deliberately omitting reasons for absences or leaves; (3-20-04)
- g.** Falsifying, deliberately misrepresenting, or deliberately omitting information submitted in the course of an official inquiry or investigation; (3-20-14)
- h.** Falsifying, deliberately misrepresenting, or deliberately omitting material information on an official evaluation of colleagues; and (3-20-14)
- i.** Failure to notify the state of any criminal conviction of a crime violating the statutes and/or rules governing teacher certification. (3-20-14)

**06. Principle V - Funds and Property.** A professional educator entrusted with public funds and property honors that trust with a high level of honesty, accuracy, and responsibility. Unethical conduct includes, but is not limited to: (3-20-14)

- a.** Misuse, or unauthorized use, of public or school-related funds or property; (3-20-04)
- b.** Failure to account for school funds collected from students, parents, or patrons; (3-20-14)
- c.** Submission of fraudulent requests for reimbursement of expenses or for pay; (3-20-04)
- d.** Co-mingling of public or school-related funds in personal bank account(s); (3-20-04)
- e.** Use of school property for private financial gain; (3-20-14)
- f.** Use of school computers to deliberately view or print pornography; and, (3-20-04)
- g.** Deliberate use of poor budgeting or accounting practices. (3-20-04)

**07. Principle VI - Compensation.** A professional educator maintains integrity with students, colleagues, parents, patrons, or business personnel when accepting gifts, gratuities, favors, and additional compensation. Unethical conduct includes, but is not limited to: (3-20-14)

- a.** Unauthorized solicitation of students or parents of students to purchase equipment, supplies, or services from the educator who will directly benefit; (3-20-14)
- b.** Acceptance of gifts from vendors or potential vendors for personal use or gain where there may be the appearance of a conflict of interest; (3-20-04)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

c. Tutoring students assigned to the educator for remuneration unless approved by the local board of education; and, (3-20-04)

d. Soliciting, accepting, or receiving a financial benefit greater than fifty dollars (\$50) as defined in Section 18-1359(b), Idaho Code. (3-20-14)

e. [Keeping for oneself donations, whether money or items, that were solicited or accepted for the benefit of a student, class, classroom, or school](#) ( - - )

**08. Principle VII - Confidentiality.** A professional educator complies with state and federal laws and local school board policies relating to the confidentiality of student and employee records, unless disclosure is required or permitted by law. Unethical conduct includes, but is not limited to: (3-20-14)

a. Sharing of confidential information concerning student academic and disciplinary records, personal confidences, health and medical information, family status or income, and assessment or testing results with inappropriate individuals or entities; and (3-20-04)

b. Sharing of confidential information about colleagues obtained through employment practices with inappropriate individuals or entities. (3-20-04)

**09. Principle VIII - Breach of Contract or Abandonment of Employment.** A professional educator fulfills all terms and obligations detailed in the contract with the local board of education or education agency for the duration of the contract. Unethical conduct includes, but is not limited to: (3-20-14)

a. Abandoning any contract for professional services without the prior written release from the contract by the employing school district or agency; (3-20-04)

b. Willfully refusing to perform the services required by a contract; and, (3-20-04)

c. Abandonment of classroom or failure to provide appropriate supervision of students at school or school-sponsored activities to ensure the safety and well-being of students. (3-20-04)

**10. Principle IX - Duty to Report.** A professional educator reports breaches of the Code of Ethics for Idaho Professional Educators and submits reports as required by Idaho Code. Unethical conduct includes, but is not limited to: (3-20-14)

a. Failure to comply with Section 33-1208A, Idaho Code, (reporting requirements and immunity); (3-20-04)

b. Failure to comply with Section 16-1605, Idaho Code, (reporting of child abuse, abandonment or neglect); (4-11-06)

c. Failure to comply with Section 33-512B, Idaho Code, (suicidal tendencies and duty to warn); and (4-11-06)

d. Having knowledge of a violation of the Code of Ethics for Idaho Professional Educators and failing to report the violation to an appropriate education official. (3-20-04)

**11. Principle X - Professionalism.** A professional educator ensures just and equitable treatment for all members of the profession in the exercise of academic freedom, professional rights and responsibilities while following generally recognized professional principles. Unethical conduct includes, but is not limited to: (3-20-14)

a. Any conduct that seriously impairs the Certificate holder's ability to teach or perform his professional duties; (3-20-04)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- b.** Committing any act of harassment toward a colleague; (4-11-06)
- c.** Failure to cooperate with the Professional Standards Commission in inquiries, investigations, or hearings; (3-20-04)
- d.** Using institutional privileges for the promotion of political candidates or for political activities, except for local, state or national education association elections; (4-11-06)
- e.** Willfully interfering with the free participation of colleagues in professional associations; and (4-11-06)
- f.** Taking or possessing images (digital, photographic or video) of colleagues of a harassing, confidential, or sexual nature. (4-11-15)

**077. DEFINITIONS FOR USE WITH THE CODE OF ETHICS FOR IDAHO PROFESSIONAL EDUCATORS (SECTIONS 33-1208 AND 33-1209, IDAHO CODE).**

- 01. Administrative Complaint.** A document issued by the State Department of Education outlining the specific, purported violations of Section 33-1208, Idaho Code, or the Code of Ethics for Idaho Professional Educators. (3-20-04)
- 02. Allegation.** A purported violation of the Code of Ethics for Idaho Professional Educators or Idaho Code. (3-20-04)
- 03. Certificate.** A document issued by the Department of Education under the authority of the State Board of Education allowing a person to serve in any elementary or secondary school in the capacity of teacher, supervisor, administrator, education specialist, school nurse or school librarian (Section 33-1201, Idaho Code). (3-20-04)
- 04. Certificate Denial.** The refusal of the state to grant a certificate for an initial or reinstatement application. (3-20-04)
- 05. Certificate Suspension.** A time-certain invalidation of any Idaho certificate as determined by a stipulated agreement or a due process hearing panel as set forth in Section 33-1209, Idaho Code. (3-20-04)
- 06. Complaint.** A signed document defining the allegation that states the specific ground or grounds for revocation, suspension, denial, place reasonable conditions on a certificate or issuance of a letter of reprimand (Section 33-1209(1), Idaho Code). The State Department of Education may initiate a complaint. (4-11-06)
- 07. Conditional Certificate.** Allows an educator to retain licensure under certain stated Certificate conditions as determined by the Professional Standards Commission (Section 33-1209(10), Idaho Code). (3-20-04)
- 08. Contract.** Any signed agreement between the school district and a certificated educator pursuant to Section 33-513(1), Idaho Code. (3-20-04)
- 09. Conviction.** Refers to all instances regarding a finding of guilt by a judge or jury; a plea of guilt by Nolo Contendere or Alford plea; or all proceedings in which a sentence has been suspended, deferred or withheld. (3-20-04)
- 10. Educator.** A person who holds or applies for an Idaho Certificate (Section 33-1001(16) and Section 33-1201, Idaho Code). (3-20-04)
- 11. Education Official.** An individual identified by local school board policy, including, but not limited to, a superintendent, principal, assistant principal, or school resource officer (SRO). (3-20-04)
- 12. Executive Committee.** A decision-making body comprised of members of the Professional

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

Standards Commission, including the chair and/or vice-chair of the Commission. A prime duty of the Committee is to review purported violations of the Code of Ethics for Idaho Professional Educators to determine probable cause and direction for possible action to be taken against a Certificate holder. (3-20-14)

**13. Hearing.** A formal review proceeding that ensures the respondent due process. The request for a hearing is initiated by the respondent and is conducted by a panel of peers. (3-20-04)

**14. Hearing Panel.** A minimum of three (3) educators appointed by the chair of the Professional Standards Commission and charged with the responsibility to make a final determination regarding the charges specifically defined in the Administrative Complaint. (3-20-04)

**15. Investigation.** The process of gathering factual information concerning a valid, written complaint in preparation for review by the Professional Standards Commission Executive Committee, or following review by the Executive Committee at the request of the deputy attorney general assigned to the Department of Education. (3-20-14)

**16. Minor.** Any individual who is under eighteen (18) years of age. (3-20-04)

**17. Not-Sufficient Grounds.** A determination by the Executive Committee that there is not-sufficient evidence to take action against an educator's certificate. (3-20-14)

**18. Principles.** Guiding behaviors that reflect what is expected of professional educators in the state of Idaho while performing duties as educators in both the private and public sectors. (3-20-04)

**19. Reprimand.** A written letter admonishing the Certificate holder for his conduct. The reprimand cautions that further unethical conduct may lead to consideration of a more severe action against the holder's Certificate. (3-20-04)

**20. Respondent.** The legal term for the professional educator who is under investigation for a purported violation of the Code of Ethics for Idaho Professional Educators. (3-20-04)

**21. Revocation.** The invalidation of any Certificate held by the educator. (3-20-04)

**22. Stipulated Agreement.** A written agreement between the respondent and the Professional Standards Commission to resolve matters arising from an allegation of unethical conduct following a complaint or an investigation. The stipulated agreement is binding to both parties and is enforceable under its own terms, or by subsequent action by the Professional Standards Commission. (3-20-04)

**23. Student.** Any individual enrolled in any Idaho public or private school from preschool through grade 12. (3-20-04)

**24. Sufficient Grounds.** A determination by the Executive Committee that sufficient evidence exists to issue an Administrative Complaint. (3-20-04)

**078. -- 099. (RESERVED)**

**100. OFFICIAL VEHICLE FOR APPROVING TEACHER EDUCATION PROGRAMS.**  
(Section 33-114, Idaho Code) (4-1-97)

**01. The Official Vehicle for the Approval of Teacher Education Programs.** The official vehicle for the approval of teacher education programs is the Council for the Accreditation of Educator Preparation (CAEP) and the approved Idaho Standards for the Initial Certification of Professional School Personnel. The Idaho Standards are based upon the accepted national standards for educator preparation and include state-specific, core teaching requirements. The State Department of Education will transmit to the head of each Idaho college or department of education a copy of all revisions to the Idaho Standards for the Initial Certification of Professional School Personnel. Such revisions will take effect and must be implemented within a period not to exceed two (2) years after notification

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

of such revision. (3-25-16)

**02. Non-Traditional Teacher Preparation Program.** The State Board of Education must approve all non-traditional route to teacher certification programs. The programs must include, at a minimum, the following components: (3-25-16)

- a. Pre-assessment of teaching and content knowledge; (3-25-16)
- b. An academic advisor with knowledge of the prescribed instruction area; (3-25-16)
- c. Exams of pedagogy and content knowledge; and (3-25-16)
- d. Be aligned to the Idaho Standards for the Initial Certification of Professional School Personnel. (3-25-16)

**03. Reference Availability.** The Idaho Standards for the Initial Certification of Professional School Personnel, incorporated by reference in Subsection 004.01, are available for inspection on the Office of the State Board of Education's website at [www.boardofed.idaho.gov](http://www.boardofed.idaho.gov). (3-29-12)

**04. Continuing Approval.** (3-29-12)

a. The state of Idaho will follow the Council for Accreditation of Educator Preparation (CAEP) model by which institutions shall pursue continuing approval through a full program review every seven (7) years. The full program review shall be based upon the Idaho Standards for Initial Certification of Professional School Personnel. (3-25-16)

b. The state of Idaho will additionally conduct focused reviews of state-specific, core teaching requirements in the interim, not to exceed every third year following the full program review. (3-29-12)

c. All approved non-traditional teacher preparation programs will be reviewed for continued approval on the same schedule as traditional teacher preparation programs. Reviews will include determination of continued alignment with the approved Idaho Standards for the Initial Certification of Professional School Personnel and effectiveness of program completers. (3-25-16)

**05. Payment Responsibilities for Teacher Preparation Program Reviews.** The Professional Standards Commission is responsible for Idaho teacher preparation program reviews, including assigning responsibility for paying for program reviews. To implement the reviews, it is necessary that: (4-6-05)

a. The Professional Standards Commission pay for all state review team expenses for on-site teacher preparation reviews from its budget. (3-25-16)

b. Requesting institutions pay for all other expenses related to on-site teacher preparation program reviews, including the standards review. (3-25-16)

**101. -- 109. (RESERVED)**

**110. PERSONNEL STANDARDS.**

The State Board of Education supports the efforts made by the Idaho Legislature to lower class size. Significant progress has been made in grades one through three (1-3). The State Board of Education believes that class sizes in grades four through six (4-6) are too high. Districts are encouraged to lower all class sizes as funds become available. Each district will develop personnel policies and procedures to implement the educational program of the district. The policies and procedures will address representation in each of the following personnel areas, as appropriate to student enrollment and the needs of each attendance area. Districts should strive to achieve ratios consistent with state class size ratio goals.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

TEACHERS	STATE GOALS
Kindergarten	20
Grades 1, 2, 3	20
Grades 4, 5, 6	26
Middle School/Jr. High	160 teacher load
High School	160 teacher load
Alternative School (7-12)	18 average daily class load

**INSTRUCTIONAL PERSONNEL**

Schools are encouraged to explore technological options that provide for credible alternative delivery systems. Present and emerging information transmission technology may provide for greater teacher/pupil class size ratios.

PUPIL PERSONNEL	
(Certificated School Counselors, Social Workers, Psychologists)	400:1 * student/district average
Secondary Media Generalist and Assistants	500:1 * student/district average
Elementary Media Generalist or Assistants	500:1 * student/district average
Building Administrative Personnel	Not to exceed 500:1 * district average

\* The stated pupil to personnel ratio is the goal; each school district will assign personnel as appropriate to student enrollment and the needs of each attendance area.

Classroom Assistants - State Goal: will be provided where the student/teacher ratio is deemed excessive by the district or where other student special needs exist (e.g., limited English proficiency or special education).

Classified Personnel - State Goal: will be employed in each building to support the needs of the staff, students, and community. (4-1-97)

**111. BULLYING, HARASSMENT AND INTIMIDATION PREVENTION AND RESPONSE.**

**01. Dissemination of Information.** School districts and charter schools shall make reasonable efforts to ensure that information on harassment, intimidation and bullying of students is disseminated annually to all school personnel, parents and students. (3-29-17)

**02. Professional Development.** The content of ongoing professional development for school staff related to bullying, harassment and intimidation shall include: (3-29-17)

**a.** School philosophy regarding school climate and student behavior expectations; (3-29-17)

**b.** Definitions of bullying, harassment, and intimidation; (3-29-17)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**c.** School prevention strategies or programs including the identification of materials to be distributed annually to students and parents; (3-29-17)

**d.** Expectations of staff intervention for bullying, harassment, and intimidation; (3-29-17)

**e.** School process for responding to bullying, harassment, and intimidation including the reporting process for students and staff, investigation protocol, the involvement of law enforcement, related student support services and parental involvement; and (3-29-17)

**f.** Other topics as determined appropriate by the school district or charter school. (3-29-17)

**03. Graduated Consequences.** Graduated consequences for a student who commits acts of bullying, harassment, and intimidation shall include a series of measures proportional to the act(s) committed and appropriate to the severity of the violation as determined by the school board of trustees, school administrators, or designated personnel depending upon the level of discipline. Graduated consequences should be in accordance with the nature of the behavior, the developmental age of the student, and the student's history of problem behaviors and performance. (3-29-17)

**a.** Graduated consequences may include, but are not limited to: (3-29-17)

**i.** Meeting with the school counselor; (3-29-17)

**ii.** Meeting with the school principal and student's parents or guardian; (3-29-17)

**iii.** Detention, suspension or special programs; and (3-29-17)

**iv.** Expulsion. (3-29-17)

**b.** The graduated consequences are not intended to prevent or prohibit the referral of a student who commits acts of harassment, intimidation or bullying to available outside counseling services or to law enforcement, or both, pursuant to Section 18-917A, Idaho Code. (3-29-17)

**c.** Students with disabilities may be afforded additional protections under the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act; school districts and charter schools shall comply with applicable state and federal law when disciplining students with individualized education programs (IEPs) or 504 plans for committing acts of bullying, harassment, and intimidation. (3-29-17)

**04. Intervention.** School district and charter school employees are authorized and expected to intervene or facilitate intervention on behalf of students facing harassment, intimidation, and bullying. Intervention shall be reasonably calculated to: (3-29-17)

**a.** Correct the problem behavior; (3-29-17)

**b.** Prevent another occurrence of the problem; (3-29-17)

**c.** Protect and provide support for the victim of the act; and (3-29-17)

**d.** Take corrective action for documented systemic problems related to harassment, intimidation, or bullying. (3-29-17)

**05. Reporting.** Annual reporting will occur at the end of the school year through an aggregate report identifying the total number of bullying incidents by school districts and charter schools, grade level, gender, and repeat offenders. The State Department of Education shall provide school districts and charter schools with the guidelines and forms for reporting. (3-29-17)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**112. -- 119. (RESERVED)**

**120. LOCAL DISTRICT EVALUATION POLICY -- TEACHER AND PUPIL PERSONNEL CERTIFICATE HOLDERS.**

Each school district board of trustees will develop and adopt policies for teacher performance evaluation using multiple measures in which criteria and procedures for the evaluation of certificated personnel are research based and aligned to Charlotte Danielson Framework for Teaching Second Edition domains and components of instruction. Individual domain and component ratings specified in Subsection 120.01 of this rule must be determined based on a combination of professional practice and student achievement as specified in Subsection 120.02 and 120.03. The process of developing criteria and procedures for certificated personnel evaluation will allow opportunities for input from those affected by the evaluation; i.e., trustees, administrators, teachers, and parents. The evaluation policy will be a matter of public record and communicated to the certificated personnel for whom it is written. (3-29-17)

**01. Standards.** Each district evaluation model shall be aligned to state minimum standards that are based on Charlotte Danielson's Framework for Teaching Second Edition domains and components of instruction. Those domains and components include: (3-29-10)

- a.** Domain 1 - Planning and Preparation: (3-29-10)
  - i. Demonstrating Knowledge of Content and Pedagogy; (3-29-10)
  - ii. Demonstrating Knowledge of Students; (3-29-10)
  - iii. Setting Instructional Outcomes; (3-20-14)
  - iv. Demonstrating Knowledge of Resources; (3-29-10)
  - v. Designing Coherent Instruction; and (3-29-10)
  - vi. Designing Student Assessments. (3-29-12)
- b.** Domain 2 - The Classroom Environment: (3-29-12)
  - i. Creating an Environment of Respect and Rapport; (3-29-10)
  - ii. Establishing a Culture for Learning; (3-29-10)
  - iii. Managing Classroom Procedures; (3-29-10)
  - iv. Managing Student Behavior; and (3-29-10)
  - v. Organizing Physical Space. (3-29-10)
- c.** Domain 3 - Instruction and Use of Assessment: (3-29-10)
  - i. Communicating with Students; (3-29-12)
  - ii. Using Questioning and Discussion Techniques; (3-29-10)
  - iii. Engaging Students in Learning; (3-29-10)
  - iv. Using Assessment in Instruction; and (3-29-12)
  - v. Demonstrating Flexibility and Responsiveness. (3-29-12)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- d.** Domain 4 - Professional Responsibilities: (3-29-10)
- i.** Reflecting on Teaching; (3-29-10)
  - ii.** Maintaining Accurate Records; (3-29-10)
  - iii.** Communicating with Families; (3-29-10)
  - iv.** Participating in a Professional Community; (3-29-12)
  - v.** Growing and Developing Professionally; and (3-29-10)
  - vi.** Showing Professionalism. (3-29-10)

**02. Professional Practice.** For evaluations conducted on or after July 1, 2013, all certificated instructional employees must receive an evaluation in which at least a majority of the evaluation ratings must be based on Professional Practice. All measures included within the Professional Practice portion of the evaluation must be aligned to the Charlotte Danielson Framework for Teaching Second Edition domains and components. Professional Practice shall include a minimum of two (2) documented observations annually, with at least one (1) observation being completed by January 1 of each year. In situations where certificated personnel are unavailable for two (2) documented classroom observations, due to situations such as long-term illness, late year hire, etc., one (1) documented classroom observation is acceptable. District evaluation models shall also include at least one (1) of the following as a measure to inform the Professional Practice portion of all certificated instructional employee evaluations: (3-29-17)

- a.** Parent/guardian input; (3-20-14)
- b.** Student input; and/or (3-20-14)
- c.** Portfolios. (3-20-14)

**03. Student Achievement.** Instructional staff evaluation ratings must in part be based on measurable student achievement, as defined in Section 33-1001, Idaho Code, as applicable to the subjects and grade ranges taught by the instructional staff. All other certificated staff evaluations must include measurable student achievement or student success indicators, as defined in Section 33-1001, Idaho Code, as applicable to the position. This portion of the evaluation may be calculated using current and/or the immediate past year's data and may use one (1) year or both years' data. Growth in student achievement may be considered as an optional measure for all other school based and district based staff, as determined by the local board of trustees. (3-29-17)

**04. Participants.** Each district evaluation policy will include provisions for evaluating all certificated employees identified in Section 33-1001, Idaho Code, Subsection 16. Evaluations shall be differentiated for certificated non-instructional employees and pupil personnel certificate holders in a way that aligns with the Charlotte Danielson Framework for Teaching Second Edition to the extent possible. Policies for evaluating certificated employees should identify the differences, if any, in the conduct of evaluations for nonrenewable contract personnel and renewable contract personnel. (3-20-14)

**05. Evaluation Policy - Content.** Local school district policies will include, at a minimum, the following information: (4-1-97)

- a.** Purpose -- statements that identify the purpose or purposes for which the evaluation is being conducted; e.g., individual instructional improvement, personnel decisions. (4-1-97)
- b.** Evaluation criteria -- statements of the general criteria upon which certificated personnel will be evaluated. (4-1-97)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**c.** Evaluator -- identification of the individuals responsible for appraising or evaluating certificated instructional staff and pupil personnel performance. The individuals assigned this responsibility shall have received training in evaluation and prior to September 1, 2018, shall demonstrate proof of proficiency in conducting observations and evaluating effective teacher performance by passing a proficiency assessment approved by the State Department of Education as a onetime recertification requirement. (3-20-14)

**d.** Sources of data -- description of the sources of data used in conducting certificated personnel evaluations. For certificated instructional staff, a minimum of two (2) documented classroom observations shall be included as one (1) source of data. At least one (1) of those observations must be completed prior to January 1 of each year. In situations where certificated personnel are unavailable for two (2) documented classroom observations, due to situations such as long-term illness, late year hire, etc., one (1) documented classroom observation is acceptable. Parent/guardian input, student input and/or portfolios shall be considered as sources of data to support professional practice. (4-11-15)

**e.** Procedure -- description of the procedure used in the conduct of certificated personnel evaluations. (4-1-97)

**f.** Communication of results -- the method by which certificated personnel are informed of the results of evaluation. (4-1-97)

**g.** Personnel actions -- the action available to the school district as a result of the evaluation and the procedures for implementing these actions; e.g., job status change. Note: in the event the action taken as a result of evaluation is to not renew an individual's contract or to renew an individual's contract at a reduced rate, school districts should take proper steps to follow the procedures outlined in Sections 33-513 through 33-515, Idaho Code in order to assure the due process rights of all personnel. (3-20-14)

**h.** Appeal -- the procedure available to the individual for appeal or rebuttal when disagreement exists regarding the results of certificated personnel evaluations. (4-1-97)

**i.** Remediation -- the procedure available to provide remediation in those instances where remediation is determined to be an appropriate course of action. (4-1-97)

**j.** Monitoring and evaluation. -- A description of the method used to monitor and evaluate the district's personnel evaluation system. (4-1-97)

**k.** Professional development and training -- a plan for ongoing training for evaluators/administrators and teachers on the districts evaluation standards, tool and process. (3-29-10)

**l.** Funding -- a plan for funding ongoing training and professional development for administrators in evaluation. (3-29-10)

**m.** Collecting and using data -- a plan for collecting and using data gathered from the evaluation tool that will be used to inform professional development. Aggregate data shall be considered as part of the district and individual schools Needs Assessment in determining professional development offerings. (3-20-14)

**n.** Individualizing teacher evaluation rating system -- a plan for how evaluations will be used to identify proficiency and record growth over time. No later than July 1, 2013, districts shall have established an individualized teacher evaluation rating system with a minimum of three (3) rankings used to differentiate performance of teachers and pupil personnel certificate holders including: (3-20-14)

i. Unsatisfactory being equal to "1"; (3-20-14)

ii. Basic being equal to "2"; and (3-20-14)

iii. Proficient being equal to "3". (3-20-14)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

iv. A fourth evaluation rating of Distinguished, being equal to “4,” may be used in addition to the three (3) minimum rankings at the discretion of the school district or charter school. (3-29-17)

o. A plan for including all stakeholders including, but not limited to, teachers, board members, administrators, and parents in the development and ongoing review of their teacher evaluation plan. (3-20-14)

**06. Evaluation Policy - Frequency of Evaluation.** The evaluation policy shall include a provision for evaluating all certificated personnel on a fair and consistent basis. (3-20-14)

**07. Evaluation Policy - Personnel Records.** Permanent records of each certificated personnel evaluation will be maintained in the employee’s personnel file. All evaluation records will be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy (Section 33-518, Idaho Code). Local school districts shall report the rankings of individual certificated personnel evaluations to the State Department of Education annually for State and Federal reporting purposes. The State Department of Education shall ensure that the privacy of all certificated personnel is protected by not releasing statistical data of evaluation rankings in local school districts with fewer than five (5) teachers and by only reporting that information in the aggregate by local school district. (3-20-14)

**08. Evaluation System Approval.** Each school district board of trustees will develop and adopt policies for teacher and pupil personnel certificated performance evaluation in which criteria and procedures for the evaluation are research based and aligned with the Charlotte Danielson Framework for Teaching Second Edition. By July 1, 2014, an evaluation plan which incorporates all of the above elements shall be submitted to the State Department of Education for approval. Once approved, subsequent changes made in the evaluation system shall be resubmitted for approval. (3-20-14)

**121. LOCAL DISTRICT EVALUATION POLICY - SCHOOL PRINCIPAL.**

For principal evaluations conducted on or after July 1, 2014, each school district board of trustees will develop and adopt policies for principal performance evaluation using multiple measures in which criteria and procedures for the evaluation of administratively certificated personnel serving as school principal are research based and aligned to the standards and requirements outlined in Subsections 121.01 through 121.07 of this rule. Districts must, at a minimum, pilot such an evaluation during the 2013-2014 school year and report the results of that pilot to the State Department of Education no later than July 1, 2014, in a format determined by the Department. The process of developing criteria and procedures for principal evaluation will allow opportunities for input from those affected by the evaluation; i.e., trustees, administrators, teachers and parents. The evaluation policy will be a matter of public record and communicated to the principal for whom it is written. (3-20-14)

**01. Standards.** Each district principal evaluation model shall be aligned to state minimum standards based on the Interstate School Leaders Licensure Consortium (ISLLC) standards and include proof of proficiency in conducting teacher evaluations using the state’s adopted model, the Charlotte Danielson Framework for Teaching Second Edition. Proof of proficiency in evaluating teacher performance shall be required of all individuals assigned the responsibility for appraising, observing, or evaluating certificated personnel performance. Those responsible for measuring teacher performance are district leadership such as principals, assistant principals, special education directors, and superintendents. Proof of proficiency in evaluating performance shall be demonstrated by passing a proficiency assessment approved by the State Department of Education as a onetime recertification requirement prior to September 1, 2018. Principal evaluation standards shall additionally address the following domains and components: (4-11-15)

a. Domain 1: School Climate - An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs. (3-20-14)

i. School Culture - Principal establishes a safe, collaborative, and supportive culture ensuring all students are successfully prepared to meet the requirements for tomorrow’s careers and life endeavors. (3-20-14)

ii. Communication - Principal is proactive in communicating the vision and goals of the school or

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

district, the plans for the future, and the successes and challenges to all stakeholders. (3-20-14)

iii. Advocacy - Principal advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement. (3-20-14)

b. Domain 2: Collaborative Leadership - An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. The educational leader uses research and/or best practices in improving the education program. (3-20-14)

i. Shared Leadership - Principal fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth. (3-20-14)

ii. Priority Management - Principal organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities. (3-20-14)

iii. Transparency - Principal seeks input from stakeholders and takes all perspectives into consideration when making decisions. (3-20-14)

iv. Leadership Renewal - Principal strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others. (3-20-14)

v. Accountability - Principal establishes high standards for professional, legal, ethical, and fiscal accountability for self and others. (3-20-14)

c. Domain 3: Instructional Leadership - An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. The educational leader provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program. (3-20-14)

i. Innovation - Principal seeks and implements innovative and effective solutions that comply with general and special education law. (3-20-14)

ii. Instructional Vision - Principal insures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn. (3-20-14)

iii. High Expectations - Principal sets high expectation for all students academically, behaviorally, and in all aspects of student well-being. (3-20-14)

iv. Continuous Improvement of Instruction - Principal has proof of proficiency in assessing teacher performance based upon the Charlotte Danielson Framework for Teaching Second Edition. Aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision. (3-20-14)

v. Evaluation - Principal uses teacher/principal evaluation and other formative feedback mechanisms to continuously improve teacher/principal effectiveness. (3-20-14)

vi. Recruitment and Retention -Principal recruits and maintains a high quality staff. (3-20-14)

**02. Professional Practice.** For evaluations conducted on or after July 1, 2014, all principals must receive an evaluation in which sixty-seven percent (67%) of the evaluation results are based on Professional Practice. All measures included within the Professional Practice portion of the evaluation must be aligned to the Domains and Components listed in Subsection 121.01.a. through 121.01.c. of this rule. As a measure to inform the Professional Practice portion of all principal evaluations, district evaluation models shall also include at least one (1) of the following: (3-20-14)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- a. Parent/guardian input; (3-20-14)
- b. Teacher input; (3-20-14)
- c. Student input; and/or (3-20-14)
- d. Portfolios. (3-20-14)

**03. Student Achievement.** For evaluations conducted on or after July 1, 2013, all certificated instructional employees, principals and superintendents must receive an evaluation in which at least thirty-three percent (33%) of the evaluation results are based on multiple objective measures of growth in student achievement as determined by the board of trustees and based upon research. For evaluations conducted on or after July 1, 2014, growth in student achievement as measured by Idaho's statewide assessment for Federal accountability purposes must be included. This portion of the evaluation may be calculated using current and/or past year's data and may use one (1) or multiple years of data. Growth in student achievement may be considered as an optional measure for all other school based and district based staff, as determined by the local board of trustees. (3-20-14)

**04. Evaluation Policy - Content.** For evaluations conducted on or after July 1, 2014, local school district policies will include, at a minimum, the following information: (3-20-14)

a. Purpose -- statements that identify the purpose or purposes for which the evaluation is being conducted; e.g., individual instructional leadership, personnel decisions. (3-20-14)

b. Evaluation criteria -- statements of the general criteria upon which principals be evaluated. (3-20-14)

c. Evaluator -- identification of the individuals responsible for appraising or evaluating principal performance. The individuals assigned this responsibility shall have received training in evaluation. (3-20-14)

d. Sources of data -- description of the sources of data used in conducting principal evaluations. Proficiency in conducting observations and evaluating effective teacher performance shall be included as one (1) source of data. (3-20-14)

e. Procedure -- description of the procedure used in the conduct of principal evaluations. (3-20-14)

f. Communication of results -- the method by which principals are informed of the results of evaluation. (3-20-14)

g. Personnel actions -- the action, available to the school district as a result of the evaluation, and the procedures for implementing these actions; e.g., job status change. (3-20-14)

h. Appeal -- the procedure available to the individual for appeal or rebuttal when disagreement exists regarding the results of an evaluations. (3-20-14)

i. Remediation -- the procedure available to provide remediation in those instances where remediation is determined to be an appropriate course of action. (3-20-14)

j. Monitoring and evaluation. -- A description of the method used to monitor and evaluate the district's principal evaluation system. (3-20-14)

k. Professional development and training -- a plan for ongoing training and professional learning based upon the district's evaluation standards and process. (3-20-14)

l. Funding -- a plan for funding ongoing training and professional development for evaluators of principals. (3-20-14)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**m.** Collecting and using data -- a plan for collecting and using data gathered from the evaluation tool that will be used to inform professional development for principals. (3-20-14)

**n.** Individualizing principal evaluation rating system -- a plan for how evaluations will be used to identify proficiency and record growth over time. No later than July 1, 2014, districts shall have established an individualized principal evaluation rating system with a minimum of three rankings used to differentiate performance of principals including: (3-20-14)

i. Unsatisfactory being equal to “1”; (3-20-14)

ii. Basic being equal to “2”; and (3-20-14)

iii. Proficient being equal to “3”. (3-20-14)

iv. A fourth evaluation rating of Distinguished, being equal to “4,” may be used in addition to the three (3) minimum rankings at the discretion of the school district or charter school. (3-29-17)

**o.** A plan for including stakeholders including, but not limited to, teachers, board members, administrators, and parents in the development and ongoing review of their principal evaluation plan. (3-20-14)

**05. Evaluation Policy - Frequency of Evaluation.** The evaluation policy should include a provision for evaluating all principals on a fair and consistent basis. All principals shall be evaluated at least once annually no later than June 1 of each year. (3-29-17)

**06. Evaluation Policy - Personnel Records.** Permanent records of each principal evaluation will be maintained in the employee’s personnel file. All evaluation records will be kept confidential within the parameters identified in federal and state regulations regarding the right to privacy (Section 33-518, Idaho Code). Local school districts shall report the rankings of individual certificated personnel evaluations to the State Department of Education annually for State and Federal reporting purposes. The State Department of Education shall ensure that the privacy of all certificated personnel is protected by not releasing statistical data of evaluation rankings in local school districts in accordance with the approved policies of the Idaho State Board of Education Data Management Council. (3-29-17)

**07. Evaluation System Approval.** Each school district board of trustees will develop and adopt policies for principal performance evaluation in which criteria and procedures for the evaluation are research based and aligned with state standards. By July 1, 2014, an evaluation plan which incorporates all of the above elements shall be submitted to the State Department of Education for approval. Once approved, subsequent changes made in the evaluation system shall be resubmitted for approval. (3-20-14)

**122. -- 129. (RESERVED)**

**130. SCHOOL FACILITIES.**

Each school facility consists of the site, buildings, equipment, services, and is a critical factor in carrying out educational programs. The focus of concern in each school facility is the provision of a variety of instructional activities and programs, with the health and safety of all persons essential. (4-1-97)

**01. Buildings.** All school buildings, including portable or temporary buildings, will be designed and built in conformance with the current edition of the codes specified in the Idaho Building Code Act, Section 39-4109, Idaho Code, including, the National Electrical Code, Uniform Plumbing Code, and Idaho General Safety and Health Standards. All school buildings, including portable or temporary buildings, will meet other more stringent requirements established in applicable local building codes. (3-16-04)

**02. Inspection of Buildings.** All school buildings, including portable or temporary buildings, will be inspected as provided in Section 39-4130, Idaho Code, for compliance with applicable codes. Following this inspection, the school district will, within twenty (20) days, (1) correct any deficiencies specified in the inspection

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

report or (2), if the corrective action involves structural modification, file a written plan with the inspecting agency for correction by the beginning of the following school year. (4-1-97)

**131. -- 139. (RESERVED)**

**140. ACCREDITATION.**

All public secondary schools, serving any grade(s) 9-12, will be accredited. Accreditation is voluntary for elementary schools, grades K-8, private and parochial schools, and alternative schools not identified in Subsection 140.01.a. through 140.01.e. of this rule. (Section 33- 119, Idaho Code) (3-20-14)

**01. Alternative Schools.** Beginning with the 2014-15 school year, an alternative school serving any grade(s) 9-12 that meets any three (3) of the criteria in Subsections 140.01.a. through 140.01.e. of this rule, shall be required to be accredited. An alternative school that does not meet three (3) of the following criteria in Subsections 140.01.a. through 140.01.e. shall be considered as an alternative program by the district board of trustees and shall be included in the accreditation process and reporting of another secondary school within the district for the purposes of meeting the intent of this rule. (3-20-14)

**a.** School has an Average Daily Attendance greater than or equal to 36 students based on previous year's enrollment; (3-20-14)

**b.** School enrolls any students full-time for the school year once eligibility determination is made as opposed to schools that enroll students for "make-up" or short periods of time; (3-20-14)

**c.** School offers an instructional model that is different than that provided by the traditional high school within the district for a majority of the coursework, including but not limited to online/virtual curriculum; (3-20-14)

**d.** School administers diplomas that come from that alternative school as opposed to students receiving a diploma from the traditional high school within the school district; or (3-20-14)

**e.** School receives its own accountability rating for federal reporting purposes. (3-20-14)

**02. Continuous School Improvement Plan.** Schools will develop continuous school improvement plans focused on the improvement of student performance. (4-2-08)

**03. Standards.** Schools will meet the accreditation standards of the Northwest Accreditation Commission. (3-29-12)

**04. Reporting.** An annual accreditation report will be submitted to the State Board of Education. (4-2-08)

**141. -- 149. (RESERVED)**

**150. TRANSPORTATION.**

Minimum School Bus Construction Standards. All new school bus chassis and bodies must meet or exceed Standards for Idaho School Buses and Operations as incorporated in Section 004 of these rules and as authorized in Section 33-1511, Idaho Code. (5-8-09)

**151. -- 159. (RESERVED)**

**160. MAINTENANCE STANDARDS AND INSPECTIONS.**

**01. Safety.** School buses will be maintained in a safe operating condition at all times. Certain equipment or parts of a school bus that are critical to its safe operation must be maintained at prescribed standards. When routine maintenance checks reveal any unsafe condition identified in the Standards for Idaho School Buses and Operations as incorporated in Section 004 of these rules the school district will eliminate the deficiency before returning the vehicle

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

to service. (5-8-09)

**02. Annual Inspection.** After completion of the annual school bus inspection, and if the school bus is approved for operation, an annual inspection sticker, indicating the year and month of inspection, will be placed in the lower, right-hand corner of the right side front windshield. The date indicated on the inspection sticker shall correlate to State Department of Education's annual school bus inspection certification report signed by pupil transportation maintenance personnel and countersigned by the district superintendent. (Section 33-1506, Idaho Code) (7-1-02)

**03. Sixty-Day Inspections.** At intervals of not more than sixty (60) calendar days, excluding documented out-of-use periods in excess of thirty (30) days, the board of trustees shall cause inspection to be made of each school bus operating under the authority of the board. Except that, no bus with a documented out-of-use period in excess of sixty (60) days shall be returned to service without first completing a documented sixty (60) day inspection. Annual inspections are considered dual purpose and also meet the sixty (60) day inspection requirement. (Section 33-1506, Idaho Code) (7-1-04)

**04. Documentation of Inspection.** All inspections will be documented in writing. Annual inspections must be documented in writing on the form provided by the State Department of Education. (4-1-97)

**05. Unsafe Vehicle.** When a bus has been removed from service during a State Department of Education inspection due to an unsafe condition, the district will notify the State Department of Education on the appropriate form before the bus can be returned to service. When a bus has been found to have deficiencies that are not life-threatening, it will be repaired within thirty (30) days and the State Department of Education notified on the appropriate form. If the deficiencies cannot be repaired within thirty (30) days, the bus must be removed from service until the deficiencies have been corrected or an extension granted. (7-1-02)

**06. Withdraw from Service Authority.** Subsequent to any federal, national, or state advisory with good cause given therefor, the district shall, under the direction of the State Department of Education, withdraw from service any bus determined to be deficient in any prescribed school bus construction standard intended to safeguard life or minimize injury. No bus withdrawn from service under the provisions of this section shall be returned to service or used to transport students unless the district submits to the State Department of Education a certification of compliance specific to the school bus construction standard in question. (Section 33-1506, Idaho Code) (7-1-04)

**161. -- 169. (RESERVED)**

**170. SCHOOL BUS DRIVERS AND VEHICLE OPERATION.**

All school districts and school bus drivers must meet or exceed the training, performance and operation requirements delineated in the Standards for Idaho School Buses and Operations as incorporated in Section 004 of these rules. (Section 33-1508; 33-1509, Idaho Code) (5-8-09)

**171. -- 179. (RESERVED)**

**180. WRITTEN POLICY.**

The board of trustees will establish and adopt a set of written policies governing the pupil transportation system. Each school district that provides activity bus transportation for pupils shall have comprehensive policies and guidelines regarding activity transportation. (7-1-02)

**181. -- 189. (RESERVED)**

**190. PROGRAM OPERATIONS.**

School district fiscal reporting requirements as well as reimbursable and non-reimbursable costs within the Pupil Transportation Support Program, including but not limited to administration, field and activity trips, safety busing, contracting for transportation services, leasing of district-owned buses, insurance, ineligible and non-public school students, ineligible vehicles, capital investments including the purchasing of school buses and equipment, program support and district waiver procedures shall be delineated in Standards for Idaho School Buses and Operations incorporated in Section 004 of these rules. (Section 33-1006, Idaho Code) (5-8-09)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**191. -- 219. (RESERVED)**

**220. RELEASE TIME PROGRAM FOR ELEMENTARY AND SECONDARY SCHOOLS.**

In the view of the State Board of Education, public elementary and secondary school programs that permit the practice of releasing students from school for the purpose of attending classes in religious education or for other purposes should observe certain practices that are in keeping with the present state of the law. These practices are designed to ensure that the public school operation is not adversely affected and that public funds and property are not used for sectarian religious instruction in a way which violates the United States Constitution, the Idaho State Constitution, or state law. These practices should include the following: (Section 33-519, Idaho Code) (4-1-97)

**01. Scheduling.** The local school board will have reasonable discretion over the scheduling and timing of the release program. Release time programs may not interfere with the scheduling of classes, activities and programs of the public schools. (4-1-97)

**02. Voluntary Decision.** The decision of a school district to permit release time programs for kindergarten through grade eight (K-8), as well as the decision of individual students to participate, must be purely voluntary. (4-1-97)

**03. Time Limit.** Release time will be scheduled upon the application of a parent or guardian of a student in grades nine through twelve (9-12), not to exceed five (5) periods per week or one hundred sixty-five (165) hours during any one (1) academic school year. (4-1-97)

**04. Location.** Release time programs will be conducted away from public school buildings and public school property. (4-1-97)

**05. Request by Parent.** No student will be permitted to leave the school grounds during the school day to attend release time programs except upon written request from a parent or guardian filed with the school principal. Such written request by the parent will become a part of the student's permanent record. (4-1-97)

**06. Record Maintenance.** The public school will not be responsible for maintaining attendance records for a student who, upon written request of a parent or guardian, is given permission to leave the school grounds to attend a release time program. The school district will maintain a record of each student's daily schedule that indicates when a student is released for classes in religious education or for other purposes. (4-1-97)

**07. Liability.** The school district is responsible for ensuring that no public school property, public funds or other public resources are used in any way to operate these programs. The school district is not liable for any injury, act or event occurring while the student participates in such programs. (4-1-97)

**08. Course Credit.** No credit will be awarded by the school or district for satisfactory completion by a student of a course or courses in release time for religious instruction. Credit may be granted for other purposes, at the discretion of the local school board. (4-1-97)

**09. Separation From Public Schools.** Public schools will not include schedules of classes for release time programs in school catalogs, registration forms or any other regularly printed public school material. Registration for release time programs must occur off school premises, and must be done on forms and supplies furnished by the group or institution offering the program. Teachers of release time programs are not to be considered members of any public school faculty and should not be asked to participate as faculty members in any school functions or to assume responsibilities for operation of any part of the public school program. (4-1-97)

**10. Transportation Liability.** Public schools and school districts will not be liable or responsible for the health, safety and welfare of students while they are being transported to and from or participating in release time programs. (4-1-97)

**221. -- 229. (RESERVED)**

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**230. DRIVER EDUCATION.**

Public Schools. Pursuant to Section 004 of these rules, all public driver education courses offered in Idaho public schools must be conducted in compliance with all the requirements in the Operating Procedures for Idaho Public Driver Education Programs, as incorporated. (4-7-11)

**231. -- 239. (RESERVED)**

**240. JUVENILE DETENTION CENTERS.**

**01. Definition of Terms.** (4-1-97)

**a.** Juvenile Detention Centers: Facilities that provide for the temporary care of children, as defined in the Juvenile Justice Reform Corrections Act, who require secure custody, for their own or the community's protection, in physically restricting facilities pending court disposition or subsequent to court disposition. (Section 33-2009, Idaho Code) (4-1-97)

**b.** Juvenile Offender: A person, as defined in the Juvenile Justice Reform Act, who has been petitioned or adjudicated for a delinquent act that would constitute a felony or misdemeanor if committed by an adult. (4-1-97)

**02. Instructional Program.** Every public school district in the state within which is located a public or private detention facility housing juvenile offenders pursuant to court order will provide an instructional program. The instructional program will: (4-1-97)

**a.** Provide course work that meets the minimum requirements of Idaho State Board of Education Rules. (4-1-97)

**b.** Provide instruction in the core of instruction. (4-1-97)

**c.** Include the following components, where appropriate: self-concept improvement, social adjustment, physical fitness/personal health, vocational/occupational, adult living skills, and counseling. (4-1-97)

**d.** Provide instruction and guidance that may lead to a high school diploma. School districts will accept such instruction for purposes of issuing credit when the detention center certifies to the school that the appropriate work is completed. (4-1-97)

**e.** Be directed by an instructor who holds an appropriate, valid certificate. (4-1-97)

**f.** Be provided to each student not later than two (2) school days after admission and continue until the student is released from the detention center. (4-1-97)

**g.** Be provided to students who have attained "school age" as defined in Idaho Code 33-201. (4-1-97)

**h.** Be provided for a minimum of four (4) hours during each school day. (4-1-97)

**i.** Be based on the needs and abilities of each student. The resident school district will provide pertinent status information as requested by the Juvenile Detention Center. (4-1-97)

**j.** Be coordinated with the instructional program at the school the student attends, where appropriate. (4-1-97)

**k.** Be provided in a facility that is adequate for instruction and study. (4-1-97)

**03. State Funding of Instructional Programs at Juvenile Detention Centers.** (4-1-97)

**a.** Every student housed in a juvenile detention center pursuant to court order and participating in an

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

instructional program provided by a public school district will be counted as an exceptional child by the district for purposes of state reimbursement. (4-1-97)

**b.** Public school districts that educate pupils placed by Idaho court order in juvenile detention centers will be eligible for an allowance equivalent to the previous year's certified local annual tuition rate per pupil. The district allowance will be in addition to support unit funding and included in the district apportionment payment. (4-1-97)

**c.** To qualify for state funding of instructional programs at Juvenile Detention Centers, school districts must apply for such funding on forms provided by the State Department of Education. Applications are subject to the review and approval of the State Superintendent of Public Instruction. School districts will submit attendance and enrollment reports as required by the State Superintendent of Public Instruction. Juvenile Detention Centers will submit reports to the local school district as required. (4-1-97)

## Idaho Standards for Initial Certification of Professional School Personnel Summary & Background

### Overview of the Past Standards

The early standards for initial certification in Idaho were based on the 1989 National Association of State Directors of Teacher Education and Certification (NASDTEC) standards. These standards were "input- based", meaning a candidate was recommended for initial certification based on credits and content of courses successfully completed (transcript review).

#### *Example – Past (input-based) Standard Format, Biological Science:*

~~Twenty (20) semester credit hours to include at least six (6) credit hours of course work in EACH of the following areas: Botany and Zoology (some course work in physiology is also recommended).~~

~~The standards were seriously outdated, and Idaho was in danger of losing its partnership with the National Council for Accreditation of Teacher Education (NCATE), which is the nationally recognized teacher education program accreditation body. In addition to being a benchmark for program quality, NCATE partnership helps Idaho program completers gain certification reciprocity opportunities with other states.~~

In 2000 Idaho adopted new standards based on the Interstate New Teacher Assessment and Support Consortium (INTASC) model. These standards reflected a move to "performance-based" outcomes, meaning a candidate is recommended for initial certification based on the demonstration of what they know and are able to do, [similar to mastery-based education](#).

~~In 2012 a committee of education experts was convened to review and revise the Idaho Core Teacher Standards. After thoughtful consideration, the committee recommended adopting the newly revised INTASC Model Core Teaching Standards (April 2011) as published. No substantive changes were recommended by the committee. The committee did recommend a formatting change to the ten INTASC Model Core Teaching Standards to match the rest of the existing Idaho Standards for Initial Certification of Professional School Personnel.~~

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

Each proposed standard is broken down into two areas:

- Knowledge (what the candidate needs to know)
- Performance (what the candidate is able to do).

The performance, therefore, is the demonstration of the knowledge and dispositions of a standard. As the demonstration of a standard, the performances will also guide a teacher-education program

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

review team when evaluating for program accreditation.

## **Revised Idaho Core Teacher Standards (~~InTASC 2011~~)**

The "Idaho Core Teacher Standards" apply to **ALL** teacher certification areas. These are the 10 basic standards all teachers must know and be able to do, regardless of their specific content areas. These standards are described in more detail with knowledge and performances in the first section of this manual. The standards have been grouped into four general categories to help users organize their thinking about the standards: The Learner and Learning; Content; Instructional Practice; and Professional Responsibility. The summary of each standard is:

### **The Learner and Learning**

*Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

*Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*

*Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

### **Content**

*Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*

*Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

### **Instructional Practice**

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas*

*and their connections, and to build skills to apply knowledge in meaningful ways.*

### Professional Responsibility

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## Foundation and Enhancement Standards

The Core Teacher Standards apply to **ALL** teacher certification areas. The Foundations and/or Enhancements for each content certification area are behind the Core Standards in this manual, alphabetically.

Foundation and Enhancement Standards refer to additional knowledge and performances a teacher must know in order to teach a certain content area. The Foundation and Enhancement Standards, therefore, further "enhance" the Core Standard.

### *Example of content area Enhancements:*

~~*Standard 1: Knowledge of Subject Matter – The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.*~~

*Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

~~*In other words, Core Standard 1 basically states that the teacher must know the subject and how to create meaningful learning experiences.*~~

### Examples an Enhancement to Standard 1:

~~For Language Arts: The teacher integrates reading, writing, speaking, listening, viewing, and language study.~~

For Elementary: The teacher understands how young children's and early adolescents' literacy and language development influence learning and instructional decisions across content areas.

~~For Math: The teacher applies the process of measurement to two and three-~~

~~dimensional objects using customary and metric units. The teacher knows how to recognize students' mathematical development, knowledge, understandings, ways of thinking, mathematical dispositions, interests, and experiences.~~

In this way, the Idaho Core Teacher Standards, Foundation Standards and Enhancement Standards are "layered" to describe what a teacher in the content area must know and be able to do in order to be recommended to the state for initial certification.

Important enhancements for several content areas do not fall under the ten Core Teacher Standards. For example, a science teacher must provide a safe learning environment in relation to labs, materials, equipment, and procedures. This does not fall under an area that **every** teacher needs to know. Therefore, it is Standard #11 under Science. ~~(See the graph for further illustration and titles of additional standards in subject areas.)~~

In no case are there more than 12 overall standards for any subject area.

### **Pupil Personnel and Administrator Certification Standards**

There are several certification standards for pupil personnel professionals and school administrators that are also addressed through the Idaho teacher certification processes.

- School Administrators Endorsements
  - School Principals
  - Superintendents
  - Special Education Directors
- Pupil Personnel Services Endorsements
  - Audiology
  - School Counselors
  - School Nurses
  - School Psychologists
  - School Social Workers
  - Speech Language Pathology

Because of the unique role of these professionals, their standards are independent of the Core Standards, but are still written in the same performance-based format: Knowledge and Performances.

### **The Process of Idaho Standards Development and Maintenance**

~~The move to INTASC based standards was developed in 1999 and 2000 with task groups from around the state composed of a variety of Idaho education stakeholders including teachers, higher education representatives, parents, school administrators, business people, and others.~~

~~Each task group averaged 5-10 people, for a total of over 250 participants statewide.~~

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

~~Members of the Idaho's MOST Standards Committee formed by the State Board of Education and standards writing Task Groups together have dedicated a total of over 4,000 volunteer hours on development of these standards.~~

~~The Professional Standards Commission (PSC) continuously reviews/revises 20% of the standards per year. The review process involves teams of content area experts from higher education and K-12 schools. The standards are then reviewed by the PSC and presented to the Idaho State Board of Education for approval. Once approved, they are reviewed by the State Legislature and become an incorporated by reference document in State Board Rule.~~

~~The Idaho Core Teacher Standards were revised in the spring of 2012 to align with the InTASC Model Core Teaching Standards (April 2011). Starting with the 2012-2013 standards review cycle, committees of education experts were convened to review and revise the content area standards according to both current national standards and the InTASC Model Core Teaching Standards (April 2011).~~

~~The Professional Standards Commission (PSC) continuously reviews/revises 20% of the standards annually. The standards review process ensures current best practices are embedded.~~

~~The process for all standards reviews are as follows:~~

- ~~• A standards review team of content area experts from educators, including those from K-12 schools and higher education, is formed for each standard area.~~
- ~~• The team of content area experts reviews the standards and makes revisions, if necessary.~~
- ~~• The recommended revisions from the team of content area experts are presented to the PSC.~~
- ~~• Once the PSC approves the revisions, they are presented to the State Board of Education for approval.~~
- ~~• After the State Board of Education approves the revisions, they are presented to the Legislature for approval and if approved become an incorporated by reference document in state Board Rule.~~

## Idaho Core Teaching Standards

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Core Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*\* This language was written by a committee of content experts and has been adopted verbatim*

### Core Teaching Standards

The standards have been grouped into four general categories to help users organize their thinking about the standards: The Learner and Learning, Content, Instructional Practice, and Professional Responsibility. This language has been adopted verbatim from the April 2011 InTASC Model Core Teaching Standards.

### The Learner and Learning

Teaching begins with the learner. To ensure that each student learns new knowledge and skills, teachers must understand that learning and developmental patterns vary among individuals, that learners bring unique individual differences to the learning process, and that learners need supportive and safe learning environments to thrive. Effective teachers have high expectations for each and every learner and implement developmentally appropriate, challenging learning experiences within a variety of learning environments that help all learners meet high standards and reach their full potential. Teachers do this by combining a base of professional knowledge, including an understanding of how cognitive, linguistic, social, emotional, and physical development occurs, with the recognition that learners are individuals who bring differing personal and family backgrounds, skills, abilities, perspectives, talents and interests. Teachers collaborate with learners, colleagues, school leaders, families, members of the learners’ communities, and community organizations to better understand their students and maximize their learning. Teachers promote learners’ acceptance of responsibility for their own learning and collaborate with them to ensure the effective design and implementation of both self-

directed and collaborative learning.

*Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

### **Knowledge**

1. The teacher understands how learning occurs--how learners construct knowledge, acquire skills, and develop disciplined thinking processes--and knows how to use instructional strategies that promote student learning.
2. The teacher understands that each learner's cognitive, linguistic, social, emotional, and physical development influences learning and knows how to make instructional decisions that build on learners' strengths and needs.
3. The teacher knows how to identifyies readiness for learning, and understands ~~how that~~ development in any one area (cognitive, linguistic, social, emotional, and physical) may affect performance in others.
4. The teacher understands the role of language, ~~and~~ culture, and socio-historical context in learning and knows how to ~~modify--differentiate~~ instruction to make language comprehensible and instruction relevant, accessible, and challenging.

### **Performance**

1. The teacher regularly assesses individual and group performance in order to design and ~~modify--differentiate~~ instruction to meet learners' needs in each area of development (cognitive, linguistic, social, emotional, and physical) and scaffolds the next level of development.
2. The teacher creates developmentally appropriate instruction that takes into account individual learners' strengths, interests, ~~and~~ needs, and background ~~and~~ that enables each learner to advance and accelerate his/her learning.
3. The teacher collaborates with families, communities, colleagues, and other professionals to promote learner growth and development.

### **Disposition**

1. The teacher respects learners' differing strengths and needs and is committed to using this information to further each learner's development
2. The teacher is committed to using learners' strengths as a basis for growth, and their misconceptions as opportunities for learning.
3. The teacher takes responsibility for promoting learners' growth and development.

4. The teacher values ~~the input and contributions of~~ collaborative relationships with families, colleagues, and other professionals in understanding and supporting each learner's development.

*Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*

### **Knowledge**

1. The teacher understands and identifies differences in approaches to learning and performance and knows how to design instruction that uses each learner's strengths to promote growth.
2. The teacher understands students with exceptional needs, including those associated with disabilities and giftedness, and knows how to use strategies and resources to address these needs.
3. The teacher knows about linguistic diversity and second language acquisition processes and knows ~~how to incorporate~~ instructional strategies and resources to support language acquisition.
4. The teacher understands that learners bring assets for learning based on their individual experiences, abilities, talents, prior learning, and peer and social group interactions, as well as contemporary and historical impacts on language, culture, family, and community values.
5. The teacher knows how to access reliable information about the values of diverse cultures and communities and how to incorporate learners' experiences, cultures, and community resources into instruction.

### **Performance**

1. The teacher designs, adapts, and delivers instruction to address each student's diverse learning strengths and needs and creates opportunities for students to demonstrate their learning in different ways.
2. The teacher makes appropriate and timely provisions (e.g., pacing for individual rates of growth, task demands, communication, assessment, ~~and~~ response modes) for individual students with particular learning differences or needs.
3. The teacher designs instruction to build on learners' prior knowledge and experiences, allowing learners to accelerate as they demonstrate their understandings.
4. The teacher brings multiple perspectives to the discussion of content, including attention to learners' personal, family, and community experiences and cultural norms.
5. The teacher incorporates tools of language development into planning and instruction,

including strategies for making content accessible to English language learners and for evaluating and supporting their development of English proficiency.

6. The teacher accesses resources, supports, and specialized assistance and services to meet particular learning differences or needs.

### **Disposition**

1. The teacher believes that all learners can achieve at high levels and persists in helping each learner reach his/her full potential.
2. The teacher respects learners as individuals with differing personal and family backgrounds and various skills, abilities, perspectives, talents, and interests.
3. The teacher makes learners feel valued and helps them learn to value each other.
4. The teacher values diverse languages and dialects and seeks to integrate them into his/her instructional practice to engage students in learning.
5. The teacher values the cultural resources (language, history, indigenous knowledge) of American Indian students and their communities.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

### **Knowledge**

1. The teacher understands the relationship between motivation and engagement and knows how to design learning experiences using strategies that build learner self-direction and ownership of learning (e.g., principles of universal design for learning and culturally responsive pedagogy).
2. The teacher knows how to help create respectful learning communities where learners work productively and cooperatively with each other collaboratively to achieve learning goals.
3. The teacher knows how to collaborate with learners to establish and monitor elements of a safe and productive learning environments including norms, expectations, routines, ~~and~~ organizational structures, and multiple levels of behavioral interventions.
4. The teacher understands how learner diversity can affect communication and knows how to communicate effectively in differing environments, including virtual spaces.
5. The teacher knows how to use technologies and how to guide learners to apply them in appropriate, safe, and effective ways.

### **Performance**

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

1. The teacher collaborates with learners, families, and colleagues to build a safe, positive learning climate of openness, mutual respect, support, and inquiry.
2. The teacher develops learning experiences that engage learners in collaborative and self-directed learning and that extend learner interaction with diverse local and global ideas ~~and people locally and globally~~.
3. The teacher collaborates with learners and colleagues to develop shared values and expectations for respectful interactions, rigorous academic discussions, and individual and group responsibility for quality work.
4. The teacher manages the learning environment to actively and equitably engage learners by organizing, allocating, and coordinating the resources of time, space, and learners' attention.
5. The teacher uses a variety of methods to engage learners in evaluating the learning environment, ~~and~~ collaborates ing with ~~learners~~ them to make appropriate adjustments, and employing multiple levels of behavioral interventions.
6. The teacher communicates verbally and nonverbally in ways that demonstrate respect for and responsiveness to the cultural backgrounds and differing perspectives learners bring to the learning environment.
7. The teacher promotes responsible learner use of interactive technologies to extend the possibilities for learning locally and globally.
8. The teacher intentionally builds learner capacity to collaborate in face-to-face and virtual environments through applying effective interpersonal communication skills.

**Disposition**

1. The teacher is committed to working with learners, colleagues, families, and communities to establish positive and supportive learning environments.
2. The teacher values the role of learners in promoting each other's learning and recognizes the importance of peer relationships in establishing a climate of learning.
3. The teacher is committed to supporting learners as they participate in decision making, engage in exploration and invention, work collaboratively and independently, and engage in purposeful learning.
4. The teacher seeks to foster respectful communication and develop rapport among all members of the learning community.
5. The teacher is a thoughtful and responsive listener and observer.

## **Content**

Teachers must have a deep and flexible understanding of their content areas and be able to draw upon content knowledge as they work with learners to access information, apply knowledge in real world settings, and address meaningful issues to assure learner mastery of the content. Today's teachers make content knowledge accessible to learners by using multiple means of communication, including digital media and information technology. They integrate cross-disciplinary skills (e.g., critical thinking, problem solving, creativity, communication) to help learners use content to propose solutions, forge new understandings, solve problems, and imagine possibilities. Finally, teachers make content knowledge relevant to learners by connecting it to local, state, national, and global issues.

*Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*

## **Knowledge**

1. The teacher understands major concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the discipline(s) ~~s~~he/she teaches.
2. The teacher understands common misconceptions in learning the discipline and how to guide learners to accurate conceptual understanding.
3. The teacher knows and uses the academic language of the discipline and knows how to make it accessible to learners.
4. The teacher knows how to integrate culturally relevant content to build on learners' background knowledge.
5. The teacher has a deep knowledge of student content standards and learning progressions in the discipline(s) ~~s~~he/she teaches.

## **Performance**

1. The teacher effectively uses multiple representations and explanations that capture key ideas in the discipline, guide learners through learning progressions, and promote each learner's achievement of content standards.
2. The teacher engages students in learning experiences in the discipline(s) that encourage learners to understand, question, and analyze ideas from diverse perspectives so that they master the content.
3. The teacher engages learners in applying methods of inquiry and standards of evidence

used in the discipline.

4. The teacher stimulates learner reflection on prior content knowledge, links new concepts to familiar concepts, and makes connections to learners' experiences.
5. The teacher recognizes learner misconceptions in a discipline that interfere with learning, and creates experiences to build accurate conceptual understanding.
6. The teacher evaluates and modifies instructional resources and curriculum materials for their comprehensiveness, accuracy for representing particular concepts in the discipline, and appropriateness for his/-her learners.
7. The teacher uses supplementary resources and technologies effectively to ensure accessibility and relevance for all learners.
8. The teacher creates opportunities for students to learn, practice, and master academic language in their content.
9. The teacher accesses school and/or district-based resources to evaluate the learner's content knowledge in their primary language.

### **Disposition**

1. The teacher realizes that content knowledge is not a fixed body of facts but is complex, culturally situated, and ever evolving. S/He/she keeps abreast of new ideas and understandings in the field.
2. The teacher appreciates multiple perspectives within the discipline and facilitates learners' critical analysis of these perspectives.
3. The teacher recognizes the potential of bias in his/her representation of the discipline and seeks to appropriately address problems of bias.
4. The teacher is committed to work toward each learner's mastery of disciplinary content and skills.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

### **Knowledge**

1. The teacher understands the ways of knowing in his/her discipline, how it relates to other disciplinary approaches ~~to inquiry~~, and the strengths and limitations of each approach in addressing problems, issues, and concerns.
2. The teacher understands how current interdisciplinary themes (e.g., civic literacy, health literacy, global ~~awareness~~ mindedness) connect to the core subjects and knows how to

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

weave those themes into meaningful learning experiences.

3. The teacher understands the demands of accessing and managing information as well as how to evaluate issues of ethics and quality related to information and its use.
4. The teacher understands how to use digital and interactive technologies for efficiently and effectively achieving specific learning goals.
5. The teacher understands critical thinking processes and knows how to help learners develop high level questioning skills to promote their independent learning.
6. The teacher understands multiple forms of communication ~~communication modes and skills~~ as vehicles for learning ~~(e.g., information gathering and processing)~~ across disciplines ~~as well as vehicles and~~ for expressing learning.
7. The teacher understands creative thinking processes and how to engage learners in producing original work.
8. The teacher knows where and how to access resources to build global awareness mindedness ~~and understanding multiple perspectives~~, and how to integrate them into the curriculum.

**Performance**

1. The teacher develops and implements projects that guide learners in analyzing the complexities of an issue or question using perspectives from varied disciplines and cross-disciplinary skills (e.g., a water quality study that draws upon biology and chemistry to look at factual information and social studies to examine policy implications).
2. The teacher engages learners in applying content knowledge to real world problems through the lens of interdisciplinary themes (e.g., financial literacy, environmental literacy).
3. The teacher facilitates learners' use of current tools and resources to maximize content learning in varied contexts.
- ~~4. The teacher engages learners in questioning and challenging assumptions and approaches in order to foster innovation and problem solving in local and global contexts.~~
- ~~54.~~ The teacher develops learners' communication skills in disciplinary and interdisciplinary contexts by creating meaningful opportunities to employ a variety of forms of communication that address varied cultures, audiences and purposes.
- ~~65.~~ The teacher engages learners in challenging assumptions, generating and evaluating new ideas and novel approaches, seeking inventive solutions to problems, and developing original work.
- ~~76.~~ The teacher facilitates learners' ability to develop diverse social and cultural perspectives

that expand their understanding of local and global issues and create novel approaches to solving problems.

87. The teacher develops and implements supports for learner literacy development across content areas.

### **Disposition**

1. The teacher is constantly exploring how to use disciplinary knowledge as a lens to address local and global issues.
2. The teacher values knowledge outside his/her own content area and how such knowledge enhances student learning.
3. The teacher values flexible learning environments that encourage learner exploration, discovery, and expression across content areas.

### **Instructional Practice**

Effective instructional practice requires that teachers understand and integrate assessment, planning, and instructional strategies in coordinated and engaging ways. Beginning with their end or goal, teachers first identify student learning objectives and content standards and align assessments to those objectives. Teachers understand how to design, implement and interpret results from a range of formative and summative assessments. This knowledge is integrated into instructional practice so that teachers have access to information that can be used to provide immediate feedback to reinforce student learning and to modify instruction. Planning focuses on using a variety of appropriate and targeted instructional strategies to address diverse ways of learning, to incorporate new technologies to maximize and individualize learning, and to allow learners to take charge of their own learning and do it in creative ways.

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

### **Knowledge**

1. The teacher understands the differences between formative and summative applications of assessment and knows how and when to use each.
2. The teacher understands the range of types and multiple purposes of assessment and how to design, adapt, or select appropriate assessments to address specific learning goals and individual differences, and to minimize sources of bias.
3. The teacher knows how to analyze assessment data to understand patterns and gaps in learning, to guide planning and instruction, and to provide meaningful feedback to all learners.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

4. The teacher knows when and how to engage learners in analyzing their own assessment results and in helping to set goals for their own learning.
5. The teacher understands the positive impact of effective descriptive feedback for learners and knows a variety of strategies for communicating this feedback.
6. The teacher knows when and how to evaluate and report learner progress against standards.
7. The teacher understands how to prepare learners for assessments and how to make accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.
8. The teacher understands the ethical responsibilities in selection, administration, and evaluation of student assessment and handling of student assessment data.

**Performance**

1. The teacher balances the use of an effective range of formative and summative assessment strategies as appropriate to support, verify, and document learning.
2. The teacher designs assessments that match learning objectives with assessment methods and minimizes sources of bias that can distort assessment results.
3. The teacher works independently and collaboratively to examine test and other performance data to understand each learner's progress and to guide planning.
4. The teacher engages learners in understanding and identifying quality work and provides them with effective descriptive feedback to guide their progress toward that work.
5. The teacher engages learners in multiple ways of demonstrating knowledge and skill as part of the assessment process.
6. The teacher models and structures processes that guide learners in examining their own thinking and learning as well as the performance of others.
7. The teacher effectively uses multiple and appropriate types of assessment data to identify each student's learning needs and to develop differentiated learning experiences.
8. The teacher prepares all learners for the demands of particular assessment formats and makes appropriate accommodations in assessments or testing conditions, especially for learners with disabilities and language learning needs.
9. The teacher continually seeks appropriate ways to employ technology to support assessment practice both to engage learners more fully and to assess and address learner needs.

**Disposition**

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

1. The teacher is committed to engaging learners actively in assessment processes and to developing each learner's capacity to review and communicate about their own progress and learning.
2. The teacher takes responsibility for aligning instruction and assessment with learning goals.
3. The teacher is committed to providing timely and effective descriptive feedback to learners on their progress.
4. The teacher is committed to using multiple types of assessment processes to support, verify, and document learning.
5. The teacher is committed to making accommodations in assessments and testing conditions, especially for learners with disabilities and language learning needs.
6. The teacher is committed to the ethical use of various assessments and assessment data to identify learner strengths and needs to promote learner growth.

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

1. The teacher understands content and content standards and how these are organized in the curriculum.
2. The teacher understands how integrating cross-disciplinary skills in instruction engages learners purposefully in applying content knowledge.
3. The teacher understands learning theory, human development, cultural diversity, and individual differences and how these impact ongoing planning.
4. The teacher understands the strengths and needs of individual learners and how to plan instruction that is responsive to these strengths and needs.
5. The teacher knows a range of evidence-based instructional strategies, resources, and technological tools and how to use them effectively to plan instruction that meets diverse learning needs.
6. The teacher knows when and how to adjust plans based on assessment information and learner responses.
7. The teacher knows when and how to access resources and collaborate with others to support student learning (e.g., special educators, related service providers, language learner specialists, librarians, media specialists, professional organizations, community

organizations, community members).

### **Performance**

1. The teacher individually and collaboratively selects and creates learning experiences that are appropriate for curriculum goals and content standards, and are relevant to learners.
2. The teacher plans how to achieve each student's learning goals, choosing appropriate strategies and accommodations, resources, and materials to differentiate instruction for individuals and groups of learners.
3. The teacher develops appropriate sequencing of learning experiences and provides multiple ways to demonstrate knowledge and skill.
4. The teacher plans for instruction based on formative and summative assessment data, prior learner knowledge, and learner interest.
5. The teacher plans collaboratively with professionals who have specialized expertise (e.g., special educators, related service providers, language learning specialists, librarians, media specialists) to design and jointly deliver as appropriate learning experiences to meet unique learning needs.
6. The teacher evaluates plans in relation to short- and long-range goals and systematically adjusts plans to meet each student's learning needs and enhance learning.

### **Disposition**

1. The teacher respects learners' diverse strengths and needs and is committed to using this information to plan effective instruction.
2. The teacher values planning as a collegial activity that takes into consideration the input of learners, colleagues, families, and the larger community.
3. The teacher ~~takes professional responsibility~~ is committed to using short- and long-term planning as a means of assuring student learning.
4. The teacher ~~believes that plans must always be open to adjustment and revision based on learner needs and changing circumstances~~ is committed to reflecting on the effectiveness of lessons and seeks to revise plans to meet changing learner needs and circumstances.

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

### **Knowledge**

1. The teacher understands the cognitive processes associated with various ~~kinds~~ types of

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

learning (e.g., critical and creative thinking, problem framing and problem solving, invention, memorization and recall) and how these processes can be stimulated.

2. The teacher knows how to apply an effective range of developmentally, culturally, and linguistically ~~appropriate-responsive~~ instructional strategies to achieve learning goals.
3. The teacher knows when and how to use ~~appropriate-effective~~ strategies to differentiate instruction and engage all learners in complex thinking and meaningful tasks.
4. The teacher understands how multiple forms of communication (oral, written, nonverbal, digital, visual) convey ideas, foster self-expression, and build ~~relationships~~ connections.
5. The teacher knows how to use a wide variety of resources, including human and technological, to engage students in learning.
6. The teacher understands how content and skill development can be supported by media and technology and knows how to evaluate these resources for quality, accuracy, and effectiveness.

**Performance**

1. The teacher uses appropriate strategies and resources to ~~adapt-adjust~~ instruction to meet the needs of individuals and groups of learners.
2. The teacher continuously monitors student learning, engages learners in assessing their progress, and adjusts instruction in response to student learning needs.
3. The teacher collaborates with learners to design and implement relevant learning experiences, identify their strengths, and or access family and community resources to develop their areas of interest.
4. The teacher varies his/her role in the instructional process (e.g., instructor, facilitator, coach, audience) in relation to the content and purposes of instruction and the needs of learners.
5. The teacher provides multiple models and representations of concepts and skills with opportunities for learners to demonstrate their knowledge through a variety of products and performances.
6. The teacher engages all learners in developing higher order questioning skills and metacognitive processes.
7. The teacher engages learners in using a range of learning skills and technology tools to access, interpret, evaluate, and apply information.
8. The teacher uses a variety of instructional strategies to support and expand learners' communication through speaking, listening, reading, writing, and other ~~modes~~ methods of

communication.

9. The teacher asks questions to stimulate discussions that serves different purposes ~~(e.g., probing for learner understanding, helping learners articulate their ideas and thinking processes, stimulating curiosity, and helping learners to question).~~

### **Disposition**

1. The teacher is committed to deepening awareness and understanding of the strengths and needs of diverse learners when ~~planning and adjusting~~ designing flexible instruction.
2. The teacher values the variety of ways people communicate and encourages learners to develop and use multiple forms of communication.
3. The teacher is committed to exploring how the use of new and emerging technologies can support and promote student learning.
4. The teacher values flexibility and reciprocity in the teaching process as necessary for ~~adapting~~ adjusting instruction to learner responses, ideas, and needs.

### **Professional Responsibility**

Creating and supporting safe, productive learning environments that result in learners achieving at the highest levels is a teacher's primary responsibility. To do this well, teachers must engage in meaningful and intensive professional learning and self-renewal by regularly examining practice through ongoing study, self-reflection, and collaboration. A cycle of continuous self-improvement is enhanced by leadership, collegial support, and collaboration. Active engagement in professional learning and collaboration results in the discovery and implementation of better practice for the purpose of improved teaching and learning. Teachers also contribute to improving instructional practices that meet learners' needs and accomplish their school's mission and goals. Teachers benefit from and participate in collaboration with learners, families, colleagues, other school professionals, and community members. Teachers demonstrate leadership by modeling ethical behavior, contributing to positive changes in practice, and advancing their profession.

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

### **Knowledge**

1. The teacher understands and knows how to use a variety of self-assessment and problem-solving strategies to analyze and reflect on his/her practice and to plan for adaptations/adjustments.
2. The teacher knows how to use learner data to analyze practice and differentiate instruction accordingly.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

3. The teacher understands how personal identity, worldview, and prior experience affect perceptions and expectations, and recognizes how they may bias behaviors and interactions with others.
4. The teacher understands laws and responsibilities related to the learners' rights (e.g., educational equity, appropriate education for learners with disabilities, confidentiality, privacy, appropriate treatment of learners, reporting in situations related to possible child abuse).
- ~~5. The teacher knows how to build and implement a plan for professional growth directly aligned with his/her needs as a growing professional using feedback from teacher evaluations and observations, data on learner performance, and school and system wide priorities.~~
5. The teacher understands and teacher professional responsibilities (e.g., responsibilities to the profession, for professional competence, to students, to the school community, and regarding the ethical use of technology) (e.g., for educational equity, appropriate education for learners with disabilities, confidentiality, privacy, appropriate treatment of learners, reporting in situations related to possible child abuse).
6. The teacher understands the Code of Ethics for Idaho Professional Educators and its place in supporting the integrity of the profession.
7. The teacher knows about the unique status of American Indian tribes, tribal sovereignty, and has knowledge of tribal communities.

### **Performance**

1. The teacher engages in ongoing learning opportunities to develop knowledge and skills in order to provide all learners with engaging curriculum and learning experiences based on local and state standards.
2. The teacher engages in meaningful and appropriate professional learning experiences aligned with his/her own needs and the needs of the learners, school, and system.
3. Independently and in collaboration with colleagues, the teacher uses a variety of data (e.g., systematic observation, information about learners, research) to evaluate the outcomes of teaching and learning and to adapt planning and practice.
4. The teacher actively seeks professional, community, and technological resources, within and outside the school, as supports for analysis, reflection, and problem-solving.
5. The teacher identifies and reflects on his/her own personal beliefs and biases and accesses resources utilizes resources to broaden and deepen his/her own understanding of cultural, ethnic, gender, and learning differences to build-develop stronger reciprocal relationships and create more relevant learning experiences.

6. The teacher advocates, models, and teaches safe, legal, and ethical use of information and technology including appropriate documentation of sources and respect for others in the use of social media.
7. The teacher builds and implements an Individualized Professional Learning Plan (IPLP) directly aligned with his/her needs as a growing professional using feedback from teacher evaluations and observations, data on learner performance, and school- and system-wide priorities.
8. The teacher engages in respectful inquiry of diverse historical contexts and ways of knowing, and leverages that knowledge to cultivate culturally responsive relationships with learners, families, other professionals, and the community.

### **Disposition**

1. The teacher takes responsibility for student learning and uses ongoing analysis and reflection to improve planning and practice.
2. The teacher is committed to culturally responsive teaching—deepening understanding of his/her own frames of reference (e.g., culture, gender, language, abilities, ways of knowing), the potential biases in these frames, and their impact on expectations for and relationships with learners and their families.
3. The teacher sees him/herself as a learner, continuously seeking opportunities to draw upon current education policy and research as sources of analysis and reflection to improve practice.
4. The teacher understands the expectations of the profession including codes of ethics, professional standards of practice, and relevant law and policy.

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

### **Knowledge**

1. The teacher understands schools as organizations within a historical, cultural, political, and social context and knows how to work with others across the system to support learners.
2. The teacher understands that alignment of family, school, and community spheres of influence enhances student learning and that discontinuity in these spheres of influence interferes with learning.
3. The teacher knows how to work with other adults and has developed skills in collaborative interaction appropriate for both face-to-face and virtual contexts.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

4. The teacher knows how to contribute to a common culture that supports high expectations for student learning.
5. The teacher understands the value of leadership roles at the school, district, state, and/or national level and advocacy for learners, the school, the community, and the profession.

**Performance**

1. The teacher takes an active role on the instructional team, giving and receiving feedback on practice, examining learner work, analyzing data from multiple sources, and sharing responsibility for decision making and accountability for each student's learning.
2. The teacher works with other school professionals to plan ~~and jointly facilitate~~ learning experiences that on how to meet the diverse needs of learners.
3. The teacher engages collaboratively in the school wide efforts to build a shared vision and supportive culture, ~~identify common goals, and monitor and evaluate progress toward those goals.~~
4. The teacher works collaboratively with learners and their families to establish mutual expectations and ongoing communication to support learner development and achievement.
5. Working with school colleagues, the teacher builds ongoing connections with community resources to enhance student learning and wellbeing.
6. The teacher engages in professional learning, contributes to the knowledge and skill of others, and works collaboratively to advance professional practice.
7. The teacher uses ~~technological~~ technology and other forms of communication to develop collaborative relationships with learners, families, colleagues, and the local community ~~tools and a variety of communication strategies to build local and global learning communities that engage learners, families, and colleagues.~~
8. The teacher uses and generates meaningful ~~research on~~ inquiry into education issues and policies.
9. ~~The teacher seeks appropriate opportunities to model effective practice for colleagues, to lead professional learning activities, and to serve in other leadership roles.~~
10. ~~The teacher advocates to meet the needs of learners, to strengthen the learning environment, and to enact~~ system change.
11. ~~The teacher takes on leadership roles at the school, district, state, and/or national level and advocates for learners, the school, the community, and the profession.~~

**Disposition**

1. The teacher actively shares responsibility for shaping and supporting the mission of his/her

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

school as one of advocacy for learners and accountability for their success.

2. The teacher ~~respects families' beliefs, norms, and expectations and seeks to work is committed to working~~ collaboratively with learners and families in setting and meeting challenging goals, while respecting families' beliefs, norms, and expectations.
3. The teacher takes initiative to grow and develop with colleagues through interactions that enhance practice and support student learning.
4. The teacher takes responsibility for contributing to and advancing the profession.
5. The teacher embraces the challenge of continuous improvement and change.

### **GLOSSARY OF TERMS**

**Culturally Responsive Pedagogy** – Pedagogy that recognizes the importance of including student's cultural references in all aspects of learning. (Ladson-Billings)

**Global Mindedness** – Exploring new ideas and perspectives, as well as having the humility to learn and willingness to work with people around the globe

**Learning Environments** – The diverse physical and virtual locations, contexts, and cultures in which students learn.

**Principles of Universal Design** – A set of principles for curriculum development that give all individuals equal opportunities to learn. (udlcenter.org)

**Socio-Historical Context** – The social and historic factors which shape learning and learning trajectories over time.

\*The federal and state governments of Idaho recognize the Idaho's tribes' inherent sovereignty. This tribal sovereignty distinguishes Indigenous peoples as peoples, rather than populations or national minorities.

## Idaho Comprehensive Literacy Standards

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Core Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The standards have been grouped into four general categories and represent the inter-relationship between written and oral language, which are key skills for student learning and success. These standards outline the four competencies of effective reading, writing, and communication instruction necessary to meet the Idaho Comprehensive Literacy requirements and Idaho ELA/Literacy Standards.

- As needed, adapt instructional materials and approaches to meet the language-proficiency needs of English learners and **students** who struggle to learn to read and write.

**Standard I: Foundational Literacy Concepts. The teacher demonstrates knowledge of the following foundational concepts, including but not limited to: emergent literacy, concepts of print, phonological awareness, alphabetic principle, phonics, word recognition, fluency, linguistic development, English language acquisition, and home-to-school literacy partnerships. In addition, the candidate demonstrates the ability to apply concepts using research-based best practices in lesson planning and literacy instruction.** (Applies to the following endorsements: All Subjects K-8, Blended Early Childhood Education/Early Childhood Special Education Birth through Grade 3 and Pre-K through Grade 6, Deaf/Hard of Hearing K-12, Early Childhood Special Education Pre-K-3, Exceptional Child Generalist K-8, 6-12, and K-12, and Visual Impairment K-12)

### Knowledge

1. The teacher understands the importance of developing oral language, phonological awareness, phonemic awareness, and print concepts.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

2. The teacher understands the components of decoding written language, including grade-level phonics and word analysis skills, and their impact on comprehension.
3. The teacher understands the development of fluency (prosody, rate, and accuracy) and its impact on beginning reading comprehension.

**Performance**

1. The teacher plans instruction that includes foundational literacy skills found in the Idaho Content Standards.
2. The teacher plans instruction to support literacy progression, from emergent to proficient readers, which includes decoding and comprehension skills.
3. The teacher selects and modifies reading instructional strategies and routines to strengthen fluency.

**Standard II: Fluency, Vocabulary Development and Comprehension. The teacher demonstrates knowledge of fluency, vocabulary development, and reading comprehension strategies. The teacher demonstrates the ability to apply these components by using research-based best practices in all aspects of literacy and/or content area instruction. This includes the ability to: analyze the complexity of text structures; utilize a variety of narrative and informational texts from both print and digital sources; and make instruction accessible to all, including English Language Learners. (Applies to all endorsements that can be added to a Standard Instructional Certificate)**

**Knowledge**

1. The teacher knows the characteristics of the various genres and formats of children's and adolescent literature.
2. The teacher recognizes the importance of using a variety of texts and formats to enhance students' understanding of topics, issues, and content.
3. The teacher understands text complexity and structures and the importance of matching texts to readers.
4. The teacher understands how to use instructional strategies to promote critical thinking and deeper comprehension across all genres and text formats.
5. The teacher understands how to use instructional strategies to promote vocabulary development for all students, including English language learners.
6. The teacher understands how a student's reading proficiency, both oral and silent, affects comprehension.

**Performance**

1. The teacher identifies a variety of high-quality literature and texts within relevant content areas.
2. The teacher can develop lesson plans that incorporate a variety of texts and resources to enhance students' understanding of topics, issues, and content.
3. The teacher can analyze texts to determine complexity in order to support a range of readers.
4. The teacher selects and utilizes instructional strategies to promote critical thinking and deeper comprehension across all genres and text formats.
5. The teacher selects and utilizes instructional strategies to promote vocabulary development for all students, including English language learners.
6. The teacher uses oral and silent reading practices selectively to positively impact comprehension.

**Standard III: Literacy Assessment Concepts. The teacher understands, interprets, and applies informal and formal literacy assessment concepts, strategies, and measures. The teacher uses assessment data to inform and design differentiated literacy instruction. In addition, the teacher demonstrates the ability to use appropriate terminology in communicating pertinent assessment data to a variety of stakeholders.** (Applies to the following endorsements: All Subjects K-8, Blended Early Childhood Education/Early Childhood Special Education Birth through Grade 3 and Pre-K through Grade 6, Deaf/Hard of Hearing K-12, Early Childhood Special Education Pre-K-3, and Exceptional Child Generalist K-8, 6-12, and K-12, and Visual Impairment K-12)

**Knowledge**

1. The teacher understands terms related to literacy assessment, analysis, and statistical measures.
2. The teacher understands types of formal, informal, formative, summative, and diagnostic literacy assessments, their uses, appropriate administration, and interpretation of results across a range of grade levels.
3. The teacher understands how to choose appropriate literacy assessments to determine the needs of the learner.
4. The teacher understands how to use literacy assessment results to inform and guide intervention processes.
5. The teacher knows how to measure and determine students' independent, instructional, and frustration reading levels.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

6. The teacher understands Idaho state-specific literacy assessments and related proficiency levels.

**Performance**

1. The teacher appropriately selects, administers, and interprets results of a variety of formal, informal, formative, summative, and diagnostic literacy assessments.
2. The teacher utilizes literacy assessment results to inform and guide intervention processes.
3. The teacher can measure and determine students' independent, instructional, and frustration reading levels.
4. The teacher utilizes Idaho state-specific literacy assessments and related proficiency levels to inform planning and instruction.

**Standard IV: Writing Process. The teacher incorporates writing in his/her instructional content area(s). The teacher understands, models, and instructs the writing process, including but not limited to: pre-writing, drafting, revising, editing, and publishing. The teacher structures frequent, authentic writing opportunities that encompass a range of tasks, purposes, and audiences. The teacher incorporates ethical research practices using multiple resources. The teacher fosters written, visual, and oral communication in a variety of formats. (Applies to all endorsements that can be added to a Standard Instructional Certificate)**

**Knowledge**

1. The teacher understands writing as a complex communicative process that includes cognitive, social, physical, and developmental components.
2. The teacher understands the purpose and function of each stage of the writing process, including the importance of extensive pre-writing.
3. The teacher has an understanding of the role and range that audience, purpose, formats, features, and genres play in the development of written expression within and across all content areas.
4. The teacher understands how to conduct writing workshops and individual writing conferences to support student growth related to specific content areas.
5. The teacher understands how to assess content-area writing, including but not limited to writing types, the role of quality rubrics, processes, conventions, and components of effective writing.
6. The teacher understands the reciprocal relationship between reading, writing, speaking, and listening to support a range of writers, including English language learners.
7. The teacher understands how to help writers develop competency in a variety of writing types: narrative, argument, and informational/explanatory.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

8. The teacher understands the impact of motivation and choice on writing production.

**Performance**

1. The teacher engages writers in reading, speaking, and listening processes to address cognitive, social, physical, developmental, communicative processes.

2. The teacher utilizes the writing process and strategies to support and scaffold effective written expression within and across content areas and a range of writers.

3. The teacher structures frequent, authentic writing opportunities that encompass a range of tasks, formats, purposes, audiences, and digital technologies.

4. The teacher conducts writing workshops and writing conferences for the purpose of supporting student growth (including peer feedback/response).

5. The teacher assesses components of effective writing in the content-areas, including utilizing quality rubrics.

6. The teacher scaffolds instruction for a range of student writers.

7. The teacher helps writers develop competency in a variety of writing types: narrative, argument, and informational/explanatory.

~~—~~ The teacher utilizes choice to motivate writing production.

~~1.~~

## **Pre-Service Technology Standards**

The 2016 Pre-Service Standards Review was conducted by a team of content area experts from across the state of Idaho. The Idaho Pre-Service Technology Standards were revised in January 2016 to align with the Idaho Core Teacher Standards (2013). All teacher candidates are expected to meet the Idaho Core Teacher Standards, including the Idaho Pre-Service Technology Standards. Each candidate shall also meet the Foundation and Enhancement standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The standards review team endeavored to arrive at standards that were comprehensive, research-based, support reciprocity, and promote unique local, regional, and statewide implementations within sound and responsible attention to its fundamental outcomes. Special attention was paid to the recognition that technology-enriched teaching and learning is a continually and rapidly changing process. It was, therefore, important to determine standards that promote the best preparation of teachers to integrate technologies into instruction that continue to be relevant over time and will best suit any school district in Idaho, regardless of its size, location, or resources. In consideration of these variables as well as careful attention to its correlation to the Idaho Core Teaching Standards, the standards review team recommended that the [ISTE \(International Society for Technology in Education\) Standards for Teachers \(2008\)](#) be adopted to serve as the Pre-Service Technology Standards.

The Pre-Service Technology Standards indicate teacher candidates have met the standards and competencies. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the competencies identified in the ISTE Standards for Teachers. These competencies reflect the principles of universal design related to technology, while emphasizing flexibility and accessibility.

Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate knowledge, skills, and dispositions in which pre-service teachers design, develop, and evaluate technology-based learning experiences and assessments. In addition, teacher candidates must become fully aware of Idaho’s technology standards for K-12 students.

The alignment matrix found on the next page of this standards document and shows the connections between the Idaho Core Teacher Standards and the Pre-Service Technology Standards.

**ISTE Standards for Teachers**

Effective teachers model and apply the ISTE Standards for Students (Standards•S) as they design, implement, and assess learning experiences to engage students and improve learning; enrich professional practice; and provide positive models for students, colleagues, and the community. All teachers should meet the following standards and performance indicators.

***1. Facilitate and inspire student learning and creativity - Teachers use their knowledge of subject matter, teaching and learning, and technology to facilitate experiences that advance student learning, creativity, and innovation in both face-to-face and virtual environments.***

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

- a. Promote, support, and model creative and innovative thinking and inventiveness
- b. Engage students in exploring real-world issues and solving authentic problems using digital tools and resources
- c. Promote student reflection using collaborative tools to reveal and clarify students' conceptual understanding and thinking, planning, and creative processes
- d. Model collaborative knowledge construction by engaging in learning with students, colleagues, and others in face-to-face and virtual environments

***2. Design and develop digital age learning experiences and assessments-Teachers design, develop, and evaluate authentic learning experiences and assessments incorporating contemporary tools and resources to maximize content learning in context and to develop the knowledge, skills, and attitudes identified in the Standards•S.***

- a. Design or adapt relevant learning experiences that incorporate digital tools and resources to promote student learning and creativity
- b. Develop technology-enriched learning environments that enable all students to pursue their individual curiosities and become active participants in setting their own educational goals, managing their own learning, and assessing their own progress
- c. Customize and personalize learning activities to address students' diverse learning styles, working strategies, and abilities using digital tools and resources
- d. Provide students with multiple and varied formative and summative assessments aligned with content and technology standards, and use resulting data to inform learning and teaching

***3. Model digital age work and learning - Teachers exhibit knowledge, skills, and work processes representative of an innovative professional in a global and digital society.***

- a. Demonstrate fluency in technology systems and the transfer of current knowledge to new technologies and situations
- b. Collaborate with students, peers, parents, and community members using digital tools and resources to support student success and innovation
- c. Communicate relevant information and ideas effectively to students, parents, and peers using a variety of digital age media and formats
- d. Model and facilitate effective use of current and emerging digital tools to locate, analyze, evaluate, and use information resources to support research and learning

***4. Promote and model digital citizenship and responsibility - Teachers understand local and global societal issues and responsibilities in an evolving digital culture and exhibit legal and ethical behavior in their professional practices.***

- a. Advocate, model, and teach safe, legal, and ethical use of digital information and technology, including respect for copyright, intellectual property, and the appropriate documentation of sources
- b. Address the diverse needs of all learners by using learner-centered strategies providing equitable access to appropriate digital tools and resources

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

- c. Promote and model digital etiquette and responsible social interactions related to the use of technology and information
- d. Develop and model cultural understanding and global awareness by engaging with colleagues and students of other cultures using digital age communication and collaboration tools

***5. Engage in professional growth and leadership - Teachers continuously improve their professional practice, model lifelong learning, and exhibit leadership in their school and professional community by promoting and demonstrating the effective use of digital tools and resources.***

- a. Participate in local and global learning communities to explore creative applications of technology to improve student learning
- b. Exhibit leadership by demonstrating a vision of technology infusion, participating in shared decision making and community building, and developing the leadership and technology skills of others
- c. Evaluate and reflect on current research and professional practice on a regular basis to make effective use of existing and emerging digital tools and resources in support of student learning
- d. Contribute to the effectiveness, vitality, and self-renewal of the teaching profession and of their school and community

**Idaho Foundation Standards for Bilingual Education and ~~ENL~~ (English as a New Second Language (ENSL) Teachers**

~~In addition to the standards listed here, bilingual education and English as a new-second language (ENSL) teachers must All teacher candidates are expected to meet the Idaho Core Teacher Standards and one of the following: (1) Idaho Standards for Bilingual Education Teachers or (2) Idaho Standards for English as a New-Second Language (ENSL) Teachers and the standards specific to their discipline area(s) at the “acceptable” level or above.~~ Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Bilingual and ENSL Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*\* This language was written by a committee of content experts and has been adopted verbatim*

~~*Standard 2: Knowledge of Human Development and Learning – The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*~~

~~*Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*~~

**Knowledge**

1. The teacher understands the processes of language acquisition and the stages of development of linguistically diverse students, and the role that culture plays in students’ educational experiences.
2. The teacher understands the ~~advantages~~concepts of bilingualism, and biliteracy in regards to language development and how a student’s first language may influence second language development, and multiculturalism.

**Performance**

1. ~~The teacher plans and delivers instruction using knowledge of the role of language and culture in intellectual, social, and personal development.~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

21. The teacher plans, integrates, and delivers language and content instruction appropriate to the students' stages of language ~~acquisition~~development.
32. The teacher facilitates students' use of their ~~primary~~first language as a resource to promote academic learning and further development of the second language.
4. ~~The teacher uses effective strategies and approaches that promote bilingualism, biliteracy, and multiculturalism.~~

~~*Standard 3: Modifying Instruction for Individual Needs—The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.*~~

~~*Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*~~

**Knowledge**

1. The teacher understands ~~the nuances~~differences in of culture ~~in~~for planning, integrating, and delivering inclusive learning experiences~~structuring academic experiences~~.
2. ~~The teacher understands how a student's first language may influence second language production (ex: accent, code switching, inflectional endings).~~
32. The teacher understands there ~~is~~are unique considerations and strategies for appropriately identifying culturally and linguistically diverse students with exceptionalities ~~distinction between~~ (learning disabilities/giftedness) ~~and second language development~~.
43. The teacher understands the importance of how and when to provide~~ing~~ appropriate accommodations that allow students to access academic content based on their current level of language proficiency.
4. The teacher understands there are unique considerations for specific language learner groups (e.g. immigrants, refugees, migrant, students with interrupted formal education).

**Performance**

1. The teacher identifies ways to promote respect ~~for~~and advocate for diverse linguistic cultures ~~communities~~by facilitating open discussion, treating all students equitably, and addressing individual student needs.
2. ~~The teacher utilizes strategies that advance accuracy in students' language production and socio-culturally appropriate usage with an understanding of how these are influenced by the first language.~~
32. The teacher demonstrates the ability to collaborate with other area specialists to appropriately identify culturally and linguistically diverse students with exceptionalities~~to~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

~~distinguishes between issues of learning disabilities/giftedness and second language development.~~

43. ~~The teacher provides appropriate accommodations that allow students to access academic content~~ demonstrates the ability to provide appropriate accommodations that allow students to access academic content based on their current level of language proficiency.
4. ~~The teacher identifies and describes characteristics of major language and cultural groups in Idaho.~~

~~*Standard 5: Classroom Motivation and Management Skills – The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*~~

~~*Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*~~

**Knowledge**

1. ~~The teacher understands the that language is socially constructed and the importance of individual and collaborative learning influence of culture on student motivation and classroom management.~~
2. ~~The teacher understands the importance of creating a safe, culturally responsive learning environment that promotes engagement and motivation.~~

**Performance**

1. ~~The teacher demonstrates the ability to create a culturally responsive approach to classroom management environment.~~

~~*Standard 1: Knowledge of Subject Matter – The teacher understands the central concepts, tools of inquiry, and structures of the discipline taught and creates learning experiences that make these aspects of subject matter meaningful for students.*~~

~~*Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*~~

**Knowledge**

1. ~~The teacher understands the evolution, research, and current federal and state legal mandates of bilingual and ENL education for linguistically diverse learners.~~
2. ~~The teacher understands and knows how to identify differences various language instruction educational program and the implications for implementation in bilingual and ENL approaches and models.~~
3. ~~The teacher understands that language is a system (including linguistic and socio-~~

linguistic) and is able to distinguish between forms, functions, and contextual usage of social and academic language.

- ~~4. (Bilingual only) The teacher possesses language proficiency at the advanced level as defined in the ACTFL Proficiency Guidelines in listening, speaking, reading and writing in English and the second target language necessary to facilitate learning in the content area(s) (Federal Requirement).~~
- ~~5. (ENL only) The teacher possesses the language proficiency at the advanced level as defined in the ACTFL Proficiency Guidelines in listening, speaking, reading, and writing, in English necessary to facilitate learning of academic language in the content area(s) (Federal Requirement).~~
- ~~6. (Bilingual only) The teacher understands the articulatory system, various registers, dialects, linguistic structures, vocabulary, and idioms of both English and the second target language.~~
- ~~7. (ENL only) The teacher understands the articulatory system, various registers, dialects, linguistic structures, vocabulary, and idioms of the English language.~~

**Performance**

- ~~1. (Bilingual only) The teacher articulates in key linguistic structures and exposes students to the various registers, dialects, and idioms of English and the second target language.~~
- ~~2. (ENL only) The teacher articulates in key linguistic structures and exposes students to the various registers, dialects, and idioms of the English language.~~
3. The teacher uses knowledge of language and content standards and language acquisition theory content areas to establish goals, design curricula and instruction, and facilitate student learning in a manner that builds on students' linguistic and cultural diversity.
- ~~4. The teacher demonstrates instructional strategies that an understanding of the variety of purposes that languages serve, distinguish between forms, functions, and contextual usage of social and academic language.~~
- ~~5. The teacher designs and implements activities that promote inter cultural exploration, engaged observation, listening, speaking, reading, and writing.~~
2. The teacher evaluates various language instruction program models and makes possible recommendations for improvement.
3. The teacher analyzes language demands for instruction.

***Standard 6: Communication Skills—The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.***

*Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

**Knowledge**

1. The teacher understands that language is a system that uses listening, speaking, reading, and writing for social and academic purposes.
- ~~2. The teacher understands how to design active and interactive activities that promote proficiency in the four domains of language.~~
- ~~3. The teacher understands the extent of time and effort required for language acquisition.~~

**Performance**

- ~~1. The teacher demonstrates competence in facilitating students' acquisition and use of language in listening, speaking, reading, and writing for social and academic purposes.~~
21. The teacher uses develops active and interactive activities that promote proficiency in the four domains of language.
- ~~3. The teacher communicates to students, their families, and stakeholders the extent of time and effort required for language acquisition.~~

~~*Standard 8: Assessment of Student Learning – The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.*~~

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

**Knowledge**

1. The teacher understands variations in assessment of student progress that may be related to cultural and linguistic differences.
- ~~2. (Bilingual only) The teacher understands how to measure students' level of English language proficiency and second target language proficiency.~~
- ~~3. (ENL only) The teacher understands how to measure the level of English language proficiency.~~
52. The teacher understands how to measure English language proficiency and is familiar with the state English language proficiency assessment.
43. The teacher understands the relationship and difference between levels of language proficiency and how it can affect a students' academic achievement through various assessments.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

~~5. The teacher is familiar with the state English language proficiency assessment.~~

64. The teacher knows how to interpret data and explain the results of standardized assessments to students who are English learners ~~with limited English proficiency~~, the students' families, and to colleagues.

75. The teacher understands appropriate accommodations for language learners being tested in the content areas.

86. The teacher understands how to use data to make informed decisions about program effectiveness.

**Performance**

~~1. The teacher selects and administers assessments suited to the students' culture, literacy and communication skills.~~

21. The teacher demonstrates the ability to uses a combination of observation and other assessments to make decisions about appropriate program services for language learners.

32. The teacher demonstrates the ability to uses a combination of assessments that measure language proficiency and content knowledge respectively to determine how level of language proficiency may affect the demonstration of academic performance.

43. The teacher ~~uses~~ demonstrates the ability to identify and utilize appropriate accommodations for language learners being tested in the content areas.

54. The teacher demonstrates the ability to uses English language proficiency data (formative, summative, etc.), in conjunction with other student achievement data, ~~to make informed decisions about~~ evaluate language instruction program effectiveness.

~~*Standard 7: Instructional Planning Skills – The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.*~~

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

1. The teacher understands how to incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.

**Performance**

1. The teacher creates and delivers lessons that incorporate students' diverse cultural backgrounds and language proficiency levels into instructional planning that aligns with the English Language Development Standards.

~~*Standard 4: Multiple Instructional Strategies – The teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.*~~

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

### **Knowledge**

1. The teacher ~~knows~~ understands how to adapt lessons, textbooks, and other instructional materials, to be culturally and linguistically appropriate to facilitate linguistic and academic growth of language learners.
2. The teacher ~~has a repertoire of effective~~ understands research and evidence based strategies that promote students' critical thinking and problem solving at all stages of language development.

### **Performance**

1. The teacher selects, adapts, creates and uses ~~varied~~ ous culturally and linguistically appropriate resources related to content areas and second language development.
2. The teacher ~~employs~~ has a repertoire of ~~effective~~ research and evidence based strategies that promote students' critical thinking and problem solving at all stages of language development.

~~*Standard 9: Professional Commitment and Responsibility – The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*~~

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

### **Knowledge**

1. The teacher understands the ~~necessity of maintaining an advanced level of proficiency, according to the ACTFL guidelines, in the language(s) used for instruction~~ importance of staying current on research related to language learning.

### **Performance**

1. ~~The teacher maintains an advanced level of proficiency, according to the ACTFL guidelines, in the language(s) used for instruction.~~

~~*Standard 10: Partnerships – The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.*~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

1. The teacher understands the benefits of family and community involvement in students' linguistic, academic, and social development.
2. The teacher understands the necessity of collegiality, ~~and~~ collaboration, and leadership to promote opportunities for language learners.

**Performance**

1. The teacher ~~creates~~ identifies ways in which to create family and community partnerships that promote students' linguistic, academic, and social development.
2. The teacher identifies ways in which to collaborate with colleagues to promote opportunities for language learners.
3. The teacher identifies ways in which to assist other educators and students in promoting cultural respect and validation of students' and families' diverse backgrounds and experiences.

**GLOSSARY OF TERMS**

**ACTFL Proficiency Guidelines**

~~A nationally developed and agreed-upon set of descriptions of what individuals can do with language in terms of speaking, writing, listening, and reading in real-world situations in a spontaneous and non-rehearsed context. For each skill, these guidelines identify five major levels of proficiency: Distinguished, Superior, Advanced, Intermediate, and Novice. The major levels Advanced, Intermediate, and Novice are subdivided into High, Mid, and Low sublevels. The levels of the ACTFL Guidelines describe the continuum of proficiency from that of the highly articulate, well-educated language user to a level of little or no functional ability. These Guidelines present the levels of proficiency as ranges, and describe what an individual can and cannot do with language at each level, regardless of where, when, or how the language was acquired. [http://www.actfl.org/files/public/ACTFLProficiencyGuidelines2012\\_FINAL.pdf](http://www.actfl.org/files/public/ACTFLProficiencyGuidelines2012_FINAL.pdf)~~

**American Council of Teachers of Foreign Languages (ACTFL)**

~~An organization for world language professionals of K-12 and higher education~~

**Articulatory System**

~~The mechanism by which the sounds of a language are produced~~

**STATE DEPARTMENT OF EDUCATION

## Idaho Standards for Bilingual Education Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, bilingual education teachers must meet Idaho Foundation Standards for Bilingual Education and English as a Second Language (ESL) Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the Bilingual Education Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

### Knowledge

1. The bilingual education teacher understands the stages of development for learners of two languages and the impacts on their language and development.

### Performance

1. The bilingual education teacher uses evidence-based strategies and approaches that promote bilingualism and biliteracy for language development.

*Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*

*Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

*Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the*

---

content.

Knowledge

1. The bilingual education teacher has communicative competence and academic language proficiency in the first language and in the second language.
2. The bilingual education teacher understands the linguistic features of both the first language and the second language.
3. The bilingual education teacher has knowledge of the cultures of the first language and the second language.
4. The bilingual education teacher understands the methodology of teaching biliteracy.

Performance

1. The bilingual education teacher demonstrates proficiency in key linguistic structures and the ability to expose students to the linguistic features of the first and second language, such as various registers, dialects, and idioms.
2. The bilingual education teacher demonstrates the ability to address the cultures of the first and the second language in an instructional cycle.
3. The bilingual education teacher demonstrates the ability to plan literacy instruction for students in a bilingual program.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Knowledge

1. The bilingual education teacher understands how to measure students' level of proficiency in the first language and in the second language.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017

---

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## Idaho Standards for English as a Second Language (ESL) Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, English as a Second Language (ESL) teachers must meet Idaho Foundation Standards for Bilingual Education and English as a Second Language (ESL) Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the English as a Second Language Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

*Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*

*Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

*Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*

### Knowledge

1. The ESL teacher understands linguistic features of the English language.

**Performance**

1. The ESL teacher is able to integrate linguistic features of the English language in lesson planning, delivery, and instruction.

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

## **Idaho Standards for Blended Early Childhood Education/Early Childhood Special Education Teachers**

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Blended Early Childhood/Early Childhood Special Education Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The characteristics of development and learning of young children are integrally linked and different from those of older children and adults. Thus, programs serving young children should be structured to support those unique developmental and learning characteristics. The early childhood educator will extend, adapt, and apply knowledge gained in the professional education core for the benefit of children from birth through grade three.

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

1. The early childhood educator knows that family systems are inextricably tied to child development.
2. The early childhood educator understands the typical and atypical development of infants’ and children’s attachments and relationships with primary caregivers.
3. The early childhood educator understands how learning occurs and that children’s development influences learning and instructional decisions.
4. The early childhood educator understands pre-, peri-, and postnatal development and factors, such as biological and environment conditions that affect children’s development and learning.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

5. The early childhood educator understands the developmental consequences of toxic (strong, frequent, and/or prolonged) stress, trauma, protective factors and resilience, and the consequences on the child's mental health.
6. The early childhood educator understands the importance of supportive relationships on the child's learning, emotional, and social development.
7. The early childhood educator understands the role of adult-child relationships in learning and development.

**Performance**

1. The early childhood educator identifies pre-, peri-, and postnatal development and factors, such as biological and environment conditions that affect children's development and learning.
2. The early childhood educator collaborates with parents, families, specialists and community agencies to identify and implement strategies to minimize the developmental consequences of toxic (strong, frequent, and/or prolonged) stress and trauma, while increasing protective factors and resilience.
3. The early childhood educator establishes and maintains positive interactions and relationships with the child.

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Knowledge**

1. The early childhood educator understands the continuum of medical care for premature development, low birth weight, children who are medically fragile, and children with special health care needs, and knows the concerns and priorities associated with these medical conditions as well as their implications on child development and family resources.
2. The early childhood educator understands variations of beliefs, traditions, and values across cultures and the effect of these on the relationships among the child, family, and their environments.
3. The early childhood educator knows the characteristics of typical and atypical development and their educational implications and effects on participation in educational and community environments.
4. The early childhood educator knows how to access information regarding specific children's needs and disability-related issues (e.g., medical, support, service delivery).

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

5. The early childhood educator knows about and understands the purpose of assistive technology in facilitating individual children's learning differences, and to provide access to an inclusive learning environment.

**Performance**

1. The early childhood educator locates, uses, and shares information about the methods for the care of children who are medically fragile and children with special health care needs, including the effects of technology and various medications on the educational, cognitive, physical, social, and emotional behavior of children with disabilities.
2. The early childhood educator adapts learning, language, and communication strategies for the developmental age and stage of the child, and as appropriate identifies and uses assistive technology.

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

1. The early childhood educator understands the importance and use of routines as a teaching strategy.
2. The early childhood educator knows that physically and psychologically safe and healthy learning environments promote security, trust, attachment, and mastery motivation in children.
3. The early childhood educator understands applicable laws, rules, and regulations regarding behavior management planning and plan implementation for children with disabilities.
4. The early childhood educator understands principles of guidance (co-regulation, self-monitoring, and emotional regulation), applied behavioral analysis and ethical considerations inherent in behavior management.
5. The early childhood educator understands crisis prevention and intervention practices relative to the setting, age, and developmental stage of the child.
6. The early childhood educator knows a variety of strategies and environmental designs that facilitate a positive social and behavioral climate.
7. The early childhood educator understands that the child's primary teacher is the parent.
8. The early childhood educator understands appropriate use of evidence-based practices that support development at all stages.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**Performance**

1. The early childhood educator promotes opportunities for all children in natural and inclusive settings.
2. The early childhood educator embeds learning objectives within everyday routines and activities.
3. The early childhood educator creates an accessible learning environment, including the use of assistive technology.
4. The early childhood educator provides training and supervision for the classroom paraprofessional, aide, volunteer, and peer tutor.
5. The early childhood educator creates an environment that encourages self-advocacy and increased independence.
6. The early childhood educator plans and implements intervention consistent with the needs of children.
7. The early childhood educator conducts functional behavior assessments and develops positive behavior supports, and creates behavior intervention plans.
8. In collaboration with the parent, the early childhood educator applies evidence-based strategies that support development at all stages in home, community, and classroom environments.

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

1. The early childhood educator knows how children integrate domains of development (language, cognition, social and emotional, physical, and self-help) as well as traditional content areas of learning (e.g., literacy, mathematics, science, health, safety, nutrition, social studies, art, music, drama, movement).
2. The early childhood educator understands theories, history, and models that provide the basis for early childhood education and early childhood special education practices as identified in the National Association for the Education of Young Children (NAEYC) Standards for Early Childhood Professional Preparation Programs and the Council for Exceptional Children/Division of Early Childhood (CEC/DEC) Preparation Standards.
3. The early childhood educator understands the process of self-regulation that assists children to identify and cope with emotions.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

4. The early childhood educator understands speech and language acquisition processes in order to support emergent literacy, including pre-linguistic communication and language development.
5. The early childhood educator understands the elements of play and how play assists children in learning.
6. The early childhood educator understands nutrition and feeding relationships so children develop essential and healthy eating habits.
7. The early childhood educator understands that children are constructing a sense of self, expressing wants and needs, and understanding social interactions that enable them to be involved in friendships, cooperation, and effective conflict resolutions.
8. The early childhood educator understands the acquisition of self-help skills that facilitate the child's growing independence (e.g., toileting, dressing, grooming, hygiene, eating, sleeping).
9. The early childhood educator understands the comprehensive nature of children's wellbeing in order to create opportunities for developing and practicing skills that contribute to healthful living and enhanced quality of life.
10. The early childhood educator has deep knowledge of the state-adopted early learning guidelines/standards and developmental indicators.

**Performance**

1. The early childhood educator demonstrates the application of theories and educational models in early childhood education and special education practices.
2. The early childhood educator applies developmentally appropriate practices to facilitate growth towards developmental milestones and emerging foundational skills.
3. The early childhood educator differentiates practices for the acquisition of skills in English language arts, science, mathematics, social studies, the arts, health, safety, nutrition, and physical education for children from birth through age 2, ages 3-5, and grades K-3.

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

1. The early childhood educator understands critical developmental processes and knows how to facilitate the growth and development of children birth through age 8.
2. The early childhood educator recognizes the role that social and emotional development plays in overall development and learning.

3. The early childhood educator knows the multiple factors that contribute to the development of cultural competence in young children birth through age 8.
4. The early childhood educator understands how to promote the development of executive functioning in children birth through age 8 (e.g., impulse control, problem solving, exploration).
5. The early childhood educator knows the importance of facilitating emergent literacy and numeracy.
6. The early childhood educator understands the essential functions of play and the role of play in the holistic growth and development of children birth through age 8.

**Performance**

1. The early childhood educator effectively creates and maintains an environment that facilitates overall growth and development of all children (e.g., routines, materials and equipment, schedules, building relationships, assistive technology).
2. The early childhood educator builds positive relationships with children and families and encourages cultural sensitivity among children to foster social and emotional development of all children.
3. The early childhood educator utilizes a play-based curriculum to facilitate the holistic development of all children and fosters the emergence of literacy, numeracy, and cognition.
4. The early childhood educator effectively utilizes explicit instruction to facilitate the development of executive functioning (e.g., impulse control, problem solving, exploration).

***Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

1. The early childhood educator understands the legal provisions, regulations, guidelines, and ethical concerns regarding assessment of children.
2. The early childhood educator knows that developmentally appropriate assessment procedures reflect children's behavior over time and rely on regular and periodic observations and record keeping of children's everyday activities and performance.
3. The early childhood educator knows the instruments and procedures used to assess children for screening, pre-referral interventions, referral, and eligibility determination for special education services or early intervention services for birth to three years.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

4. The early childhood educator knows the ethical issues and identification procedures for children with disabilities, including children from culturally and linguistically diverse backgrounds.

**Performance**

1. The early childhood educator assesses all developmental domains (e.g., social and emotional, fine and gross motor, cognition, communication, self-help).
2. The early childhood educator ensures the participation and procedural safeguard rights of the parent/child when determining eligibility, planning, and implementing services.
3. The early childhood educator collaborates with families and professionals involved in the assessment process of children.
4. The early childhood educator conducts an ecological assessment and uses the information to modify various settings as needed and to integrate the children into those setting.
5. The early childhood educator uses a diverse array of assessment strategies to assess children depending on the purpose of assessment (e.g., observation, checklists, norm-referenced).
6. The early childhood educator demonstrates culturally or linguistically diverse assessment practices and procedures used to determine eligibility of a student.

***Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

1. The early childhood educator understands theory and research that reflect currently recommended professional practice for engaging with families and children (from birth through age 2, ages 3-5, and grades K-3).
2. The early childhood educator has deep knowledge of the state-adopted early learning guidelines/standards and developmental indicators.

**Performance**

1. The early childhood educator designs meaningful child-initiated inquiry and integrated learning opportunities that are scaffolded for the developmental needs of all children.
2. The early childhood educator assists families in identifying their resources, priorities, and concerns in relation to their children's development and provides information about a range of family-oriented services based on identified resources, priorities, and concerns through the use of the Individualized Family Service Plans (IFSP) Individualized Education Programs (IEP).

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

3. The early childhood educator facilitates transitions for children and their families (e.g., hospital, home, Infant/Toddler programs, Head Start, Early Head Start, childcare programs, preschool, primary programs).
4. The early childhood educator analyzes activities and tasks and uses procedures for monitoring children's skill levels and progress.
5. The early childhood educator evaluates children's skill development in relation to developmental norms and state-adopted standards.

***Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

1. The early childhood educator knows the characteristics of physical environments that must vary to support the learning of children from birth through age 2, ages 3-5, and grades K-3 (e.g., schedule, routines, transitions).
2. The early childhood educator understands the breadth and application of low and high assistive technology to support instructional assessment, planning, and delivery of instruction.

**Performance**

1. The early childhood educator uses developmentally appropriate methods to help children develop intellectual curiosity, solve problems, and make decisions (e.g., child choice, play, small group projects, open-ended questioning, group discussion, problem solving, cooperative learning, inquiry and reflection experiences).
2. The early childhood educator uses evidence-based instructional strategies (e.g., child choice, play, differentiation, direct instruction, scaffolding) that support both child-initiated and adult-directed activities.

***Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

1. The early childhood educator understands the NAEYC Standards for Early Childhood Professional Preparation and the CEC/DEC Initial Preparation Standards.
2. The early childhood educator understands the code of ethics of the NAEYC, CEC/DEC, and the Idaho Code of Ethics for Professional Educators.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

3. The early childhood educator understands the responsibilities as outlined in the Pre-Service Technology Standards (e.g., digital citizenship and ethical practice).

**Performance**

1. The early childhood educator practices behavior congruent with the NAEYC Standards for Early Childhood Professional Preparation, CEC/DEC Initial Preparation Standards, and the Idaho Code of Ethics for Professional Educators.
2. The early childhood educator practices behavior as outlined in the Pre-Service Technology Standards (e.g. digital citizenship and ethical practice).

*Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

1. The early childhood educator knows about state and national professional organizations (e.g., NAEYC and CEC/DEC).
2. The early childhood educator knows family systems theory and its application to the dynamics, roles, and relationships within families and communities.
3. The early childhood educator knows community, state, and national resources available for children and their families.
4. The early childhood educator understands the role and function of the service coordinator and related service professionals in assisting families of children.
5. The early childhood educator knows basic principles of administration, organization, and operation of early childhood programs (e.g., supervision of staff and volunteers, and program evaluation).
6. The early childhood educator knows the rights and responsibilities of parents, students, teachers, professionals, and programs as they relate to children with disabilities.
7. The early childhood educator understands how to effectively communicate and collaborate with children, parents, colleagues, and the community in a professional and culturally sensitive manner.

**Performance**

1. The early childhood educator demonstrates skills in communicating, consulting and partnering with families and diverse service delivery providers (e.g., home services, childcare programs, school, community) to support the child's development and learning.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

2. The early childhood educator identifies and accesses community, state, and national resources for children and families.
3. The early childhood educator advocates for children and their families.
4. The early childhood educator creates a manageable system to maintain all program and legal records for children.
5. The early childhood educator encourages and assists families to become active participants in the educational team, including setting instructional goals for and charting progress of children.
6. The early childhood educator demonstrates respect, honesty, caring, and responsibility in order to promote and nurture an environment that fosters these qualities.

## Idaho Foundation Standards for **Professional-Career** Technical Teachers

In addition to the standards listed here, professional-technical teachers must meet Idaho Core Teacher Standards and one of the following: (1) Idaho Standards for Agricultural Science and Technology Teachers, (2) Idaho Standards for Business Technology Teachers, (3) Idaho Standards for Family and Consumer Sciences Teachers, (4) Idaho Standards for Marketing Technology Teachers, or (5) Idaho Standards for Technology Education Teachers. Occupationally-certified teachers must meet these foundation standards for Professional-Technical teachers. Additionally, all teacher candidates are expected to meet the requirements defined in IDAPA (08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the professional-technical teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

~~\* This language was written by a committee of content experts and has been adopted verbatim.~~

~~*Standard 2: Knowledge of Human Development and Learning – The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*~~

~~*Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*~~

~~*Standard 3: Modifying Instruction for Individual Needs – The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.*~~

~~*Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*~~

~~*Standard 5: Classroom Motivation and Management Skills – The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

*Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

**Performance**

1. The teacher is able to apply concepts of classroom motivation and management to laboratory and field settings.

~~*Standard 1: Knowledge of Subject Matter – The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught, and creates learning experiences that make these aspects of subject matter meaningful for learners.*~~

*Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*

**Knowledge**

- ~~1. The teacher understands basic technological principles, processes, terminology, and skills, and safety practices of the occupational area such as design and problem solving, team decision making, information gathering, and safety.~~
- ~~2. The teacher understands how basic academic skills and advanced technology can be integrated into an occupational learning environment.~~
- ~~3. The teacher understands industry logistics, technical terminologies, and procedures for the occupational area.~~
43. The teacher understands industry trends and labor market needs.
54. The teacher understands organizational and leadership structures in the workplace leadership models.
65. The teacher understands the philosophical principles and the practices of professional/career-technical education.
76. The teacher understands the importance of intra-curricular student leadership qualities development in career technical program areas.

**Performance**

- ~~1. The teacher maintains current technical skills and seeks continual improvement.~~
21. The teacher demonstrates specific occupational skills necessary for employment.
32. The teacher uses current terminology, industry logistics, and procedures for the occupational area.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

43. The teacher incorporates and promotes leadership skills in state-approved Professional-Career Technical Student Organizations (PCTSO).
- ~~5. The teacher writes and evaluates occupational objectives and competencies.~~
- ~~6. The teacher uses a variety of technical instructional resources.~~
74. The teacher assesses the occupational needs of the community.
85. The teacher facilitates experiences designed to develop skills for successful employment.
96. The teacher informs students about opportunities to develop employment skills (e.g., work-study programs, internships, volunteer work, ~~and~~ employment opportunities).

~~*Standard 6: Communication Skills – The teacher uses a variety of communication techniques to foster learning and communication skills.*~~

~~*Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*~~

~~*Standard 8: Assessment of Student Learning – The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.*~~

~~*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*~~

### **Knowledge**

1. The teacher knows how to ~~use~~analyze information data about a student's progress, including assessments, to evaluate work-place readiness.
2. The teacher ~~knows how to~~understands the importance of conducting a follow-up survey of graduates ~~and how to use the information to modify curriculum and make program improvement.~~
3. The teacher understands how to modify the instruction based on student progress, changing industry standards, state-approved program assessments, and/or other relevant assessment data.
4. The teacher understands how to assess student learning in applicable laboratory settings.
- ~~3. The teacher understands how evaluation connects to instruction.~~

### **Performance**

1. The teacher ~~writes and evaluates occupational goals, objectives, and competencies~~ analyzes data about a student's progress, including assessments, to evaluate workplace readiness.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. The teacher ~~develops clear learning objectives and creates and integrates appropriate assessment tools to measure student learning~~ provides verbal and written assessment feedback on students' classroom and/or laboratory assignments.
3. The teacher modifies ~~the curriculum, instruction, and the program~~ based on student progress, changing industry standards, state-approved program assessments, and/or other relevant assessment data~~follow up data from recent graduates and employers.~~

~~*Standard 7: Instructional Planning Skills – The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.*~~

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

1. The teacher ~~recognizes~~ understands the scope and sequence state-approved career technical secondary-to-postsecondary standards and competencies, of content and how these are organized in the curriculum.
2. The teacher understands how to embed state-approved career technical student organization (CTSO) activities in the curriculum~~PTSOs across secondary and postsecondary technical curricula.~~
23. The teacher knows how to identify community and industry expectations and access resources.

**Performance**

1. ~~The teacher designs instruction that aligns with secondary and postsecondary curricula that develops technical competencies.~~
21. The teacher designs instruction to meet state-approved career technical secondary-to-postsecondary curricula ~~community and industry~~ standard~~s~~ expectations.

~~*Standard 4: Multiple Instructional Strategies – The teacher understands and uses a variety of instructional strategies to develop student learning.*~~

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

1. ~~The teacher understands the entry level skills in the occupation.~~
2. ~~The teacher understands workplace culture and ethics.~~

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

31. The teacher understands how to provide students with realistic occupational and/or work experiences.
42. The teacher knows how to ~~use~~ utilize education ~~professionals, trade and industry~~ professionals, and research to enhance student understanding of processes, knowledge, and safety.
- ~~5. The teacher understands how occupational trends and issues affect the workplace.~~
- ~~6. The teacher understands how to integrate academic skills into technical content areas.~~
- ~~7. The teacher understands the role of innovation and entrepreneurship in the workplace.~~
83. The teacher understands integration of student leadership training development, community involvement, and personal growth into instructional strategies.
4. The teacher understands how academic skills and advanced technology can be integrated into an occupational learning environment.

**Performance**

1. The teacher models ~~appropriate~~ ethical workplace practices ~~and ethics~~.
2. The teacher discusses state guidelines to aid students in understanding the trends and issues of an occupation.
3. The teacher integrates academic skills ~~appropriate for~~ into each occupational area.
4. The teacher uses simulated and/or authentic occupational applications of course content.
5. The teacher uses experts from business, industry, and government as appropriate for the content area.
- ~~6. The teacher develops a scope and sequence of instruction related to the students' prior knowledge and that aligns with articulation requirements and course competencies.~~
- ~~7. The teacher integrates instructional strategies and techniques that accommodate prior student knowledge.~~
86. The teacher discusses innovation and ~~the~~ entrepreneurship ~~role~~ in the workforce and incorporates them where possible.

~~*Standard 9: Professional Commitment and Responsibility – The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continually engaged in purposeful mastery of the art and science of teaching.*~~

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly*

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

*the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Knowledge**

- ~~1.~~ The teacher understands the value and impact of having a professional development plan.
21. The teacher understands how sustained professionalism reflects on him or her as an educator and as a representative of his or her industry.
2. The teacher understands the importance of maintaining current technical skills and seeking continual improvement.
3. The teacher understands current state and federal guidelines and regulations related to career technical education requirements.

**Performance**

- ~~1.~~ The teacher collaborates with an administrator to create a professional development plan.
21. The teacher evaluates and reflects on his or her own level of professionalism as an educator and as a representative of his or her industry.
2. The teacher participates in continual relevant professional development activities through involvement with local, state, and national career and technical organizations.

~~*Standard 10: Partnerships – The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.*~~

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

1. The teacher ~~knows~~ understands the ~~contributions of~~ role technical advisory committees play in continuous program improvement.
2. The teacher understands the importance of using ~~the employment community industry~~ experts to develop and validate occupational skills.
- ~~3.~~ The teacher understands how to effect change in professional technical education and ~~in the occupational area taught.~~
44. The teacher ~~knows about~~ understands the importance of professional organizations within the content and occupational areas.
54. The teacher ~~knows~~ understands career technical education advanced opportunities ~~how to~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

~~cooperatively develop articulation agreements between secondary and postsecondary programs.~~

65. The teacher understands the ~~structure~~ local, state, and national opportunities of state-approved ~~P~~career T~~student O~~rganizations (CTSO).

~~7. The teacher understands the ideas, opinions, and perceptions of business and industry.~~

**Performance**

1. The teacher ~~establishes and uses~~ participates with technical advisory committees for program development and improvement.

2. The teacher cooperates with educators in other content areas to develop ~~appropriate~~ instructional strategies and to integrate learning.

3. The teacher interacts with business, industry, labor, government, and the community to build effective partnerships.

~~4. The teacher participates in appropriate professional organizations.~~

~~5. The teacher cooperatively constructs articulation agreements.~~

~~6. The teacher incorporates an active state-approved PTSO in his or her program.~~

~~7. The teacher understands the role of PTSOs as an integral part of the total professional-technical education program.~~

***Standard 11: ~~Learning Environment~~ Safety - The teacher creates and manages classroom/laboratories that are clean, orderly, safe, and accessible to all students-a safe and productive learning environment.***

**Knowledge**

1. The teacher understands how to safely handle and dispose of waste materials.

2. The teacher understands how to care for, inventory, and maintain materials and equipment.

3. The teacher understands safety contracts and operation procedures.

4. The teacher understands legal safety issues related to the program area.

5. The teacher understands safety requirements necessary to conduct laboratory and field activities.

6. The teacher understands time and organizational skills in laboratory management.

7. The teacher is aware of safety regulations at school and work sites.

~~8. The teacher understands how to incorporate PTSOs as intracurricular learning experiences.~~

**Performance**

1. The teacher ensures that facilities, materials, and equipment are safe to use.
2. The teacher instructs and models safety procedures and documents safety instruction, and updates each according to industry standards.
3. The teacher demonstrates effective management skills in the classroom and laboratory environments.
4. The teacher models and reinforces effective work and safety habits.

~~5. The teacher incorporates PTSOs as intra-curricular learning experiences.~~

**Standard 12: ~~Workplace Preparation~~Career Readiness** - *The teacher prepares students to meet the ~~competing~~ demands and responsibilities of the workplace.*

**Knowledge**

1. The teacher understands workplace employability skills and related issues.
2. The teacher understands the issues of balancing work and personal responsibilities.
3. The teacher understands how to promote career awareness.

**Performance**

1. The teacher designs instruction that addresses employability skills and related workplace issues.
2. The teacher discusses how to balance demands between work and personal responsibilities.
3. The teacher provides opportunities for career awareness and exploration.

## Idaho Standards for Agricultural Science and Technology Teachers

In addition to the standards listed here, agricultural science and technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Professional-Technical Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the agricultural science and technology teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

AUGUST 10, 2017**

---

~~*that make these aspects of subject matter meaningful for learners.*~~

*Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*

**Knowledge**

1. The teacher understands biological, physical, and applied sciences relative to practical solutions for the agricultural industry.
2. The teacher knows about production agriculture.
3. The teacher knows plant and animal science, agricultural business management, and agricultural mechanics, as well as computer and other technology related to these areas.
4. The teacher understands and has experience in one or more of the following specialized occupational areas:
  - a. Agricultural production and marketing
  - b. Agricultural equipment and supplies
  - c. Agriculture product processing
  - d. Ornamental horticulture and turf grass management (e.g., floriculture, greenhouse management)
  - e. Agricultural business planning and analysis
  - f. Natural resource management
  - g. Environmental science
  - h. Forestry
  - i. Small animal production and care
5. The teacher understands how to advise, oversee and operate a local FFA chapter and how it relates to the Idaho State and National FFA organizations.
6. The teacher understands how to organize and implement ~~s~~Supervised ~~a~~Agricultural ~~e~~Experience (SAE) programs including but not limited to working with parents, students, adults, and employers.
7. The teacher is familiar with the administrative duties related to being a secondary agriculture teacher (e.g., extended contract, state reporting procedures, FFA, ~~and~~ SAE).

**Performance**

1. The teacher applies natural and physical science principles to practical solutions.
2. The teacher discusses production agriculture.
3. The teacher discusses and demonstrates, ~~as appropriate,~~ content and best practices of plant and animal science; agricultural business management; and agricultural mechanics; and integrates computer and other technology related to these areas.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

4. The teacher advises, oversees and operates a local FFA chapter in relationship to the Idaho State and National FFA organizations.
5. The teacher organizes and implements ~~supervised agricultural experience~~ SAE programs including but not limited to working with parents, students, adults and employers.
6. The teacher observes administrative duties related to being a secondary agriculture teacher (e.g., extended contract, state reporting procedures, FFA, ~~and~~ SAE).

~~*Standard 6: Communication Skills – The teacher uses a variety of communication techniques to foster learning and communication skills.*~~

*Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

~~*Standard 8: Assessment of Student Learning – The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.*~~

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

**Performance**

1. The teacher can develop and utilize performance-based assessments to evaluate student projects.

~~*Standard 7: Instructional Planning Skills – The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, curriculum goals, and instructional strategies.*~~

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

1. The teacher understands the integrated programmatic approach of incorporating classroom and laboratory, FFA, and SAE.

**Performance**

1. The teacher actively incorporates components of FFA and SAE into instruction.

~~*Standard 4: Multiple Instructional Strategies – The teacher understands and uses a variety of instructional strategies to develop student learning.*~~

STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017

---

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Knowledge

1. The teacher understands that experiential learning theory is the foundation for classroom/laboratory instruction, SAE, and FFA leadership development.

~~Standard 9: Professional Commitment and Responsibility - The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.~~

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

~~Standard 10: Partnerships - The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.~~

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Knowledge

1. The teacher understands the role of industry experts in agricultural education settings for the purpose of formal training.
2. The teacher understands the role of adult volunteers in secondary agricultural education and FFA programs.

Standard 11: ~~Learning Environment~~Safety - The teacher creates and manages a classroom/laboratories that are clean, orderly, safe, and productive learning environment accessible to all students.

Standard 12: ~~Workplace Preparation~~Career Readiness - The teacher prepares students to meet the ~~competing~~ demands and responsibilities of the workplace.

## Idaho Standards for Business Technology Teachers

In addition to the standards listed here, business technology teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Professional-Technical Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the business technology teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

### Knowledge

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

1. The teacher understands how classroom environment ties to industry to create a real-world working environment in the classroom/laboratory setting.

*~~Standard 1: Knowledge of Subject Matter – The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.~~*

*~~Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.~~*

**Knowledge**

1. The teacher possesses a foundational level of knowledge about a broad range of business and business technology subjects, ~~for example, accounting, business law, communications, economics, information systems, international business, management, marketing, and office administration~~ which support current state-approved standards.
2. ~~The teacher possesses knowledge in areas related to business, career education, entrepreneurship, interrelationships in business, mathematics, and personal finance.~~
3. ~~The teacher possesses knowledge of appropriate technology.~~
42. The teacher understands how to advise, oversee and ~~operate~~ facilitate a ~~local~~ Business Professionals of America (BPA) chapter and how it relates to the Idaho ~~State~~ and National BPA organizations.

**Performance**

1. ~~The teacher demonstrates industry standard skill levels required by the endorsement, for example, in accounting, business technology and office procedures.~~
2. ~~The teacher effectively delivers business and business technology content at the junior high, middle school, and/or secondary levels.~~
3. ~~The teacher demonstrates the efficient use of technology to accomplish tasks related to business and industry.~~
41. The teacher integrates BPA through intra-curricular approaches in the business program of study.
2. The teacher integrates academic concepts into business and business technology content areas.

*~~Standard 6: Communication Skills – The teacher uses a variety of communication techniques to foster learning and communication skills.~~*

STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017

Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

~~Standard 8: Assessment of Student Learning – The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.~~

Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

~~Standard 7: Instructional Planning Skills – The teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.~~

Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

~~Standard 4: Multiple Instructional Strategies – The teacher understands and uses a variety of instructional strategies to develop student learning.~~

Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

~~Standard 9: Professional Commitment and Responsibility – The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.~~

Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

~~Standard 10: Partnerships – The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and well-being.~~

Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Standard 11: ~~Learning Environment~~Safety - The teacher creates and manages classroom/laboratories that are clean, orderly, a safe, and productive learning environment accessible to all students.

Standard 12: ~~Workplace Preparation~~ Career Readiness - The teacher prepares students to meet the ~~competing~~ demands and responsibilities of the workplace.

## Idaho Standards for Family and Consumer Sciences Teachers

In addition to the standards listed here, family and consumer sciences teachers must meet the Idaho Core Teacher Standards and Idaho Foundation Standards for Professional-Technical Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the family and consumer sciences teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*\* This language was written by a committee of content experts and has been adopted verbatim.*

~~*Standard 2: Knowledge of Human Development and Learning – The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*~~

*Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

### Knowledge

- ~~1. The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, physical, emotional and moral development.~~

### Performance

- ~~1. The teacher develops lessons which focus on progressions and ranges of individual variation within intellectual, social, physical, emotional and moral development and their interrelationships.~~

~~*Standard 3: Modifying Instruction for Individual Needs – The teacher understands how students differ in their approaches to learning and creates instructional opportunities to meet students' diverse needs and experiences.*~~

*Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*

~~*Standard 5: Classroom Motivation and Management Skills – The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.*~~  
~~*Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*~~

**Knowledge**

- ~~1. The teacher understands individual and group motivation and behavior and creates a student centered learning environment that encourages positive social interaction, active engagement in learning, exploration of adaptive solutions, and self-motivation.~~

**Performance**

- ~~1. The teacher promotes individual and group motivation and behavior and creates a student centered learning environment that encourages positive social interaction, active engagement in learning, exploration of adaptive solutions, and self-motivation.~~

~~*Standard 1: Knowledge of Subject Matter – The teacher understands the central concepts, tools of inquiry, and structures of the content area(s) taught and creates learning experiences that make these aspects of subject matter meaningful for learners.*~~

~~*Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*~~

**Knowledge**

1. The teacher understands the significance of family and its impact on the well-being of children, adults, and society and the multiple life roles and responsibilities in family, career, and community settings.
- ~~2. Teacher understands the impact of families' multiple roles within the home, workplace and community.~~
- ~~3. The teacher knows of community agencies and organizations that provide assistance to individuals and families.~~
- ~~4. The teacher understands how interpersonal relationships, cultural patterns, and diversity affect individuals, families, community, and the workplace.~~
- ~~5. The teacher understands the roles and responsibilities of parenting and factors that affect human growth and development across the life span.~~
- ~~5. The teacher understands the social, emotional, intellectual, physical, and moral development across the lifespan.~~
6. The teacher understands the science and practical application involved in planning,

processing).

4. The teacher understands the purposes, types, and rules of headline and caption writing.
5. The teacher possesses knowledge of interviewing skills.
6. The teacher knows how to organize and equip a production area.
7. The teacher knows how to organize and supervise a student staff (e.g., editors, writers, photographers, business personnel).
8. The teacher knows how to adapt journalistic techniques to various media (e.g., radio, television, Internet).
9. The teacher understands advertising and finance.
10. The teacher knows the fundamentals of editing.
11. The teacher understands processes of effective critiquing.
12. The teacher understands journalistic and scholastic press law and ethics.
13. The teacher understands the role of journalism in democracy.

**Performance**

1. The teacher instructs students in the fundamentals of journalistic style across a variety of journalistic platforms.
2. The teacher student application of design and layout techniques.
3. The teacher integrates the purposes and elements of photojournalism into the production process.
4. The teacher instructs students in the purposes, types, and rules of headline and caption writing.
5. The teacher provides opportunities for students to practice and use interviewing skills.
6. The teacher teaches editing skills and provides opportunities for student practice.
7. The teacher provides opportunities for students to critique and evaluate student and professional work.

*Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

*Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

*Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## Idaho Standards for Speech and Debate Teachers

In addition to the standards listed here, speech and debate teachers must meet Idaho Core Teacher Standards and Idaho Foundation Standards for Communication Arts Teachers. [Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule \(IDAPA 08.02.02: Rules Governing Uniformity\).](#)

The following knowledge and performance statements for the speech and debate teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assured attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher understands the models of interpersonal communication.
2. The teacher knows the processes and types of active listening.
3. The teacher knows the nature of conflict and conflict resolution strategies in the speech process.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

4. The teacher knows the dynamics of group communication (e.g., roles, functions, systems, developmental stages, problem solving).
5. The teacher understands rhetorical theories and practices.
6. The teacher understands types of public speaking (e.g., informative, persuasive, ceremonial).
7. The teacher understands the steps of speech preparation, rehearsal, presentation, and constructive feedback.
8. The teacher understands the necessity of adapting public speaking styles and skills to various media.
9. The teacher understands the principles of competitive debate theory (e.g., categories and styles of debate).
10. The teacher knows the theories and practices of argumentation.
11. The teacher knows the precepts of logical reasoning (e.g., syllogistic, categorical, disjunctive, fallacies).
12. The teacher knows the various types of competitive speaking events (e.g., impromptu, extemporaneous, oratory, debate).
13. The teacher knows how to identify and minimize communication anxiety.

**Performance**

1. The teacher instructs in the process of effective interpersonal communication (e.g., effective listening, components of verbal and nonverbal communication, conflict resolution).
2. The teacher explains the components and dynamics of group communication and provides opportunities for student implementation.
3. The teacher provides opportunities for students to prepare, practice, and present various types of speeches.
4. The teacher provides instruction integrating digital media and visual displays to enhance presentations.
5. The teacher instructs in the theory, principles, and practices of debate (e.g., argumentation, logical reasoning, competitive speaking).
6. The teacher provides opportunities for students to participate in debate and speaking events.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

7. The teacher explains various methods of organization and their effects on the communication process.
8. The teacher provides strategies for assessing and minimizing communication anxiety (e.g., personal anxiety assessment, repetition, visualization).

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

***Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

## Idaho Standards for Computer Science Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Computer Science Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. These standards were influenced and developed through use of the standards set forward by the International Society for Technology Education (ISTE) and the Computer Science Teachers' Association (CSTA).

The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

1. The teacher understands digital citizenship.

### **Performance**

1. The teacher promotes and models digital citizenship.
- ~~2. The teacher demonstrates the ability to design and implement developmentally appropriate learning opportunities supporting the diverse needs of all learners.~~

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### **Knowledge**

1. The teacher understands the role of language and culture in learning computer science and knows how to modify instruction to make language comprehensible and instruction relevant, accessible, and challenging.

**Performance**

- ~~1. The teacher demonstrates the ability to plan for equitable and accessible classroom, lab, and online environments that support effective and engaging learning.~~
- ~~2. The teacher demonstrates the ability to develop lessons and methods that engage and empower learners from diverse cultural and linguistic backgrounds.~~

**Standard 3: Learning Environments.** *The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

**Knowledge**

1. The teacher understands how to design environments that promote effective teaching and learning in computer science classrooms ~~and online learning environments~~ and promote digital citizenship.

**Performance**

1. The teacher promotes and models the safe and effective use of computer hardware, software, peripherals, and networks.
2. The teacher develops student understanding of privacy, security, safety, and effective communication in ~~online digital~~ environments.

**Standard 4: Content Knowledge.** *The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*

**Knowledge**

1. The teacher understands data representation and abstraction.
2. The teacher understands how to effectively design, develop, and test algorithms.
3. The teacher understands the software development process.
4. The teacher understands digital devices, systems, and networks.
5. The teacher understands the basic mathematical principles that are the basis of computer science, including algebra, set theory, Boolean logic, coordinating systems, graph theory, matrices, probability, and statistics.
6. The teacher understands the role computer science plays and its impact in the modern world.
7. The teacher understands the broad array of opportunities computer science knowledge can provide across every field and discipline.

8. The teacher understands the many and varied career and education paths that exist in Computer Science.

**Performance**

1. The teacher demonstrates knowledge of and proficiency in data representation and abstraction. The teacher:
  - i. Effectively uses primitive data types.
  - ii. Demonstrates an understanding of static and dynamic data structures.
  - iii. Effectively uses, manipulates, and explains various external data stores: various types (text, images, sound, etc.), various locations (local, server, cloud), etc.
  - iv. Effectively uses modeling and simulation to solve real-world problems
2. The teacher effectively designs, develops, and tests algorithms. The teacher:
  - i. Uses a modern, high-level programming language, constructs correctly functioning programs involving simple and structured data types; compound Boolean expressions; and sequential, conditional, and iterative control structures.
  - ii. Designs and tests algorithms and programming solutions to problems in different contexts (textual, numeric, graphic, etc.) using advanced data structures.
  - iii. Analyzes algorithms by considering complexity, efficiency, aesthetics, and correctness.
  - iv. Effectively uses two or more development environments.
  - v. Demonstrates knowledge of varied software development models and project management strategies.
  - vi. Demonstrates application of ~~all~~ phases of the software development process on a project of moderate complexity from inception to implementation.
3. The teacher demonstrates knowledge of digital devices, systems, and networks. The teacher:
  - i. Demonstrates an understanding of data representation at the machine level.
  - ii. Demonstrates an understanding of machine level components and related issues of complexity.
  - iii. Demonstrates an understanding of operating systems and networking in a structured computing system.

- iv. Demonstrates an understanding of the operation of computer networks and mobile computing devices.
4. The teacher demonstrates an understanding of the role computer science plays and its impact in the modern world. The teacher:
- i. Demonstrates an understanding of the social, ethical, and legal issues and impacts of computing, and the attendant responsibilities of computer scientists and users.
  - ii. Analyzes the contributions of computer science to current and future innovations in sciences, humanities, the arts, and commerce.
5. The teacher demonstrates an understanding of the basic mathematical principles that are the basis of computer science including algebra, set theory, Boolean logic, coordinating systems, graph theory, matrices, probability, and statistics.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

- 1. The teacher understands the academic language and conventions of computer science and how to make them accessible to students.

**Performance**

- 1. The teacher designs activities that require students to effectively describe computing artifacts and communicate results using multiple forms of media.
- ~~2. The teacher develops student understanding of online safety and effectively communicating in online environments.~~

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

~~**Knowledge**~~

- ~~1. The teacher understands the creation and implementation of multiple forms of assessment using data.~~

~~**Performance**~~

- ~~1. The teacher creates and implements multiple forms of assessment and uses resulting data to capture student learning, provide remediation, and shape classroom instruction.~~

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas,***

*curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

1. The teacher understands the planning and teaching of computer science lessons/units using effective and engaging practices and methodologies.

**Performance**

1. The teacher selects a variety of real-world computing problems and project-based methodologies that support active learning.
2. The teacher provides opportunities for creative and innovative thinking and problem-solving in computer science.
3. The teacher develops student understanding of the use of computer science to solve interdisciplinary problems.

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

1. The teacher understands the value of designing and implementing multiple instructional strategies in the teaching of computer science.

**Performance**

1. The teacher demonstrates the use of a variety of collaborative groupings in lesson plans/units, software projects, and assessments.
2. The teacher identifies problematic concepts in computer science and constructs appropriate strategies to address them.

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Knowledge**

- ~~1. The teacher has and maintains professional knowledge and skills in the field of computer science and readiness to apply it.~~

**Performance**

- ~~1. The teacher participates in, promotes, and models ongoing professional development and life-long learning relating to computer science and computer science education.~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

~~2. The teacher identifies and participates in professional computer science education societies, organizations, and groups that provide professional growth opportunities and resources.~~

~~3.1. The teacher demonstrates knowledge of evolving social and research issues relating to computer science and computer science education.~~

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

~~1. The teacher understands the process and value of partnerships with industry and other organizations.~~

**Performance**

~~1. The teacher is active in the professional computer science and industrial community.~~

## Idaho Standards for Elementary Education Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Elementary Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

1. The teacher understands how young children’s and early adolescents’ literacy and language development influence learning and instructional decisions across content areas.
2. The teacher understands the cognitive processes of attention, memory, sensory processing, and reasoning and their role in learning.
3. The teacher recognizes the role of inquiry and exploration in learning and development.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### **Knowledge**

1. The teacher understands that there are multiple levels of intervention and recognizes the advantages of beginning with the least intrusive for the student.
2. The teacher understands culturally responsive pedagogy and the necessity of utilizing it to create the most inclusive learning environment.

**Performance**

1. The teacher appropriately and effectively collaborates with grade level peers, school intervention teams, parents/guardians, and community partners to meet differentiated needs of all learners.
2. The teacher systematically progresses through the multiple levels of intervention, beginning with the least intrusive for the student.
3. The teacher actively engages the school environment, families, and community partners to enact culturally responsive pedagogy.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

1. The teacher understands the importance of teaching and re-teaching developmentally appropriate classroom expectations and procedures.

**Performance**

1. The teacher consistently and effectively models, teaches, and re-teaches developmentally appropriate classroom expectations and procedures.
2. The teacher utilizes positive behavioral supports and multiple levels of intervention to support and develop appropriate student behavior.
3. The teacher demonstrates understanding of developmentally and age-appropriate digital citizenship and responsibility.

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

1. The teacher understands concepts of language arts/literacy and child development in order to teach reading, writing, speaking/listening, language, viewing, listening, and thinking skills and to help students successfully apply their developing skills to many different situations, materials, and ideas.
2. The teacher understands how children learn language, the basic sound structure of language, semantics and syntactics, diagnostic tools, and assessment data to improve student reading and writing abilities.
3. The teacher understands the fundamental concepts and the need to integrate STEM (Sciences, Technology, Engineering, and Mathematics).

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

4. The teacher understands and articulates the knowledge and practices of contemporary science and interrelates and interprets important concepts, ideas, and applications.
5. The teacher understands concepts of mathematics and child development in order to teach number sense and operations, measurement and data analysis, fractions, algebraic reasoning, and proportional reasoning, to help students successfully apply their developing skills through engaging them in the use of the mathematical practices from the Idaho mathematics standards, within many contexts.
6. The teacher understands the structure of mathematics and the connections and relationships within learning progressions.
7. The teacher knows the major concepts and modes of inquiry for social studies: the integrated study of history, geography, government/civics, economics, social/cultural and other related areas to develop students' abilities to make informed decisions as global citizens of a culturally diverse, democratic society and interdependent world.
8. The teacher understands the relevance and application of the arts, such as dance, music, theater, and visual arts as avenues for communication, inquiry, and insight.
9. The teacher understands the comprehensive nature of students' physical, intellectual, social, and emotional well-being in order to create opportunities for developing and practicing skills that contribute to overall wellness.
10. The teacher understands human movement and physical activity as central elements in learning and cognitive development.

**Performance**

1. The teacher models appropriate and accurate use of written and spoken language.
2. The teacher utilizes the structure of mathematics and the connections and relationships within the learning progressions in his/her instructional practice to increase student conceptual understanding in conjunction with diagnostic tools and assessment data to improve students' mathematical ability.
3. The teacher utilizes knowledge of how children learn language, the basic sound structure of language, semantics and syntactics, diagnostic tools, and assessment data to improve student reading and writing abilities.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

1. The teacher understands the importance of providing a purpose and context to use the communication skills taught across the curriculum.

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Performance**

1. The teacher designs instruction that provides opportunities for students to learn through inquiry and exploration.

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Performance**

1. The teacher engages all learners in developing higher order thinking skills.

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

1. The teacher understands the significance of engaging in collaborative data-driven decision making.

## Idaho Standards for Engineering Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Engineering Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

1. The teacher understands how to design developmentally appropriate engineering activities and assignments.

### **Performance**

1. The teacher designs and implements developmentally appropriate engineering activities and assignments.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### **Knowledge**

- ~~1. The teacher understands students with exceptional needs, including those associated with disabilities and giftedness, and knows how to use strategies and resources to address those needs.~~
- ~~2. The teacher understands how and when to provide appropriate accommodations that allow students to access academic content.~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**Performance**

- ~~1. The teacher collaborates with other area specialists to distinguish between issues of learning disabilities and giftedness.~~
- ~~2. The teacher provides appropriate accommodations that allow students to access academic content.~~

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

- ~~1. The teacher understands the principles of effective classroom management (e.g., strategies that promote positive relationships, cooperation, conflict resolution, and purposeful learning).~~
- ~~2. The teacher understands the principles of motivation, both extrinsic and intrinsic, and human behavior.~~
- ~~3. The teacher knows the components of an effective classroom management plan.~~
- ~~4. The teacher understands how social groups function and influence individuals, and how individuals influence groups.~~
- ~~5. The teacher understands how participation, structure, and leadership promote democratic values in the classroom.~~
- ~~6. The teacher understands the relationship between classroom management, school district policies, building rules, and procedures governing student behavior.~~

**Performance**

- ~~1. The teacher recognizes factors and situations that are likely to promote or diminish intrinsic motivation and knows how to help students become self-motivated.~~
- ~~2. The teacher establishes a positive and safe climate in the classroom and laboratory, as well as participates in maintaining a healthy environment in the school as a whole.~~
- ~~3. The teacher designs and implements a classroom management plan that maximizes class productivity by organizing, allocating, and managing the resources of time, space, and activities, as well as clearly communicating curriculum goals and learning objectives.~~
- ~~4. The teacher utilizes a classroom management plan consistent with school district policies, building rules, and procedures governing student behavior.~~
- ~~5. The teacher creates a learning community in which students assume responsibility for themselves and one another, participate in decision-making, work collaboratively and~~

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

~~independently, resolve conflicts, and engage in purposeful learning activities.~~

- ~~6. The teacher organizes, prepares students for, and monitors independent and group work that allows for the full and varied participation of all individuals.~~
- ~~7. The teacher engages students in individual and cooperative learning activities that helps the students develop the motivation to achieve (e.g., relating lessons to real life situations, allowing students to have choices in their learning, and leading students to ask questions and pursue problems that are meaningful to them).~~
- ~~8. The teacher analyzes the classroom environment, making adjustments to enhance social relationships, student self-motivation and engagement, and productive work.~~

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

1. The teacher understands the principles and concepts of engineering design.
2. The teacher understands the role of mathematics in engineering design and analysis.
3. The teacher understands the role of natural and physical sciences in engineering design and analysis.
4. The teacher understands the ethical issues and practices of the engineering profession.
5. The teacher understands the importance of team dynamics and project management in engineering projects.
6. The teacher understands how to embed Technology Student Association (TSA) activities through intra-curricular approaches in the engineering program of study.
7. The teacher understands the differences in engineering career pathways and opportunities.

**Performance**

1. The teacher applies the principles and concepts of engineering design in the solution of an engineering design problem.
2. The teacher can demonstrate the effects engineering has on the society, the environment and the global community.
3. The teacher is able to work in a learning community/project team.
4. The teacher facilitates students working in teams to solve engineering design problems.

5. The teacher facilitates student understanding of engineering career pathways and opportunities.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

~~1. The teacher understands the communication needs of diverse learners.~~

~~2. The teacher knows how to use a variety of communication tools (e.g., audio-visual technology, computers, and the Internet) to support and enrich learning opportunities.~~

~~3. The teacher understands strategies for promoting student communication skills.~~

4.1. The teacher knows the symbols, terminology, and notations specific to engineering.

5.2. The teacher recognizes the importance of oral and written communication in the engineering discipline.

**Performance**

~~1. The teacher is a thoughtful and responsive listener.~~

~~2. The teacher adjusts communication so that it is developmentally and individually appropriate.~~

~~3. The teacher models effective communication strategies in conveying ideas and information and in asking questions to stimulate discussion and promote higher-order thinking.~~

4.1. The teacher supports and expands student skills in speaking, writing, reading, listening, and in using other mediums, consistent with engineering practices.

~~5. The teacher demonstrates the ability to communicate effectively orally and in writing.~~

~~6. The teacher adjusts communication in response to cultural differences (e.g., appropriate use of eye contact and interpretation of body language).~~

~~7. The teacher uses a variety of communication tools (e.g., audio-visual technologies, computers, and the Internet) to support and enrich learning opportunities.~~

8.2. The teacher uses the symbols, terminology, and notations specific to engineering.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

### Knowledge

- ~~1. The teacher understands the purposes of formative and summative assessment and evaluation.~~
- ~~2. The teacher knows how to use multiple strategies to assess individual student progress.~~
- ~~3. The teacher understands the characteristics, design, purposes, advantages, and limitations of different types of assessment strategies.~~
- ~~4. The teacher knows how to use assessments in designing and modifying instruction.~~
- 5.1. The teacher knows how to select, construct, and use assessment strategies and instruments appropriate to students to measure engineering learning outcomes.
- ~~6. The teacher understands measurement theory and assessment-related concepts such as validity, reliability, bias, and scoring.~~
- ~~7. The teacher knows how to communicate assessment information and results to students, parents, colleagues, and stakeholders.~~
- ~~8. The teacher knows how to apply technology to facilitate effective assessment and evaluation strategies.~~

### Performance

- ~~1. The teacher selects, constructs, and uses a variety of formal and informal assessment techniques to enhance the knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.~~
- 2.1. The teacher uses multiple assessment strategies to measure students' current level of performance in relation to curriculum goals and objectives ability to apply an engineering design process to address an engineering design problem.
- 3.2. The teacher appropriately uses assessment strategies to allow students to become aware of their strengths and needs and to encourage them to set personal goals for learning to measure students' ability to use notation, terminology, and symbols in oral and written communication.
- ~~4. The teacher monitors student assessment data and adjusts instruction accordingly.~~
- ~~5. The teacher maintains records of student work and performance, and communicates student progress to students, parents, colleagues, and stakeholders.~~

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the***

*community context.*

**Knowledge**

- ~~1. The teacher understands how to apply knowledge regarding subject matter, learning theory, instructional strategies, curriculum development, and child and adolescent development to meet curriculum goals.~~
- ~~2. The teacher knows how to take into account such elements as instructional materials, individual student interests, needs, aptitudes, and community resources in planning instruction that creates an effective bridge between curriculum goals and student learning.~~
- ~~3. The teacher knows when and how to adjust plans to maximize student learning.~~
- ~~4. The teacher understands how curriculum alignment across grade levels and disciplines maximizes learning.~~

**Performance**

- ~~1. The teacher designs an engineering curriculum that aligns with high school and postsecondary engineering curricula.~~
- ~~2. The teacher designs curriculum to meet community and industry expectations.~~
- ~~3. The teacher, as an individual and a member of a team, selects and creates learning experiences that are appropriate for curriculum goals, relevant to students, and based on principles of effective instruction and performance modes.~~
- ~~4. The teacher creates short range and long range instructional plans, lessons, and activities that are differentiated to meet the developmental and individual needs of diverse students.~~
- ~~5. The teacher responds to unanticipated sources of input by adjusting plans to promote and capitalize on student performance and motivation.~~
- ~~6. The teacher develops and utilizes student assessments that align with curriculum goals and objectives.~~
- ~~7. The teacher modifies instructional plans based on student assessment and performance data.~~
- ~~8. The teacher integrates multiple perspectives into instructional planning, with attention to students' personal, family, and community experiences and cultural norms.~~
- ~~9. The teacher uses information from students, parents, colleagues, and school records to assist in planning instruction to meet individual student needs.~~

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

### Knowledge

- ~~1. The teacher understands how to incorporate design into instructional practice strategies impact processes associated with various kinds of learning.~~
- ~~2. The teacher understands the techniques and applications of various instructional strategies (e.g., cooperative learning, project-based learning, problem-based learning, direct instruction, discovery learning, whole group discussion, independent study, interdisciplinary instruction, manipulatives).~~
- ~~3. The teacher knows how to enhance learning through the use of a wide variety of materials, human resources, and technology.~~
- ~~4. The teacher knows how to apply integrative STEM pedagogy.~~

### Performance

- ~~1. The teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and student needs.~~
- ~~2. The teacher uses multiple teaching and learning strategies to engage students in learning.~~
1. The teacher uses a variety of instructional tools and resources for teaching engineering design.
42. The teacher develops learning activities that integrate content from science, technology, engineering, arts, and mathematic disciplines.
- ~~5. The teacher uses practitioners from industry and the public sector as appropriate for the content area.~~
- ~~6. The teacher develops a scope and sequence of instruction related to the students' prior knowledge.~~

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

### Knowledge

1. The teacher is knowledgeable about the different career opportunities for engineering.
2. The teacher ~~knows the Code of Ethics for Idaho Professional Educators~~ is familiar with professional engineering organizations and resources available through them.
- ~~3. The teacher knows a variety of self-assessment strategies for reflecting on the practice of teaching.~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- ~~4. The teacher is aware of the personal biases that affect teaching and knows the importance of presenting issues with objectivity, fairness, and respect.~~
- ~~5. The teacher knows where to find and how to access professional resources on teaching and subject matter.~~
- ~~6. The teacher understands the need for professional activity and collaboration beyond the school.~~
- ~~7. The teacher knows about professional organizations within education and his/her discipline.~~
- ~~8. The teacher understands the dynamics of change and recognizes that the field of education is not static.~~
- ~~9. The teacher knows how to use educational technology to enhance productivity and professionalism.~~

**Performance**

- ~~1. The teacher practices behavior congruent with The Code of Ethics for Idaho Professional Educators.~~
- ~~2. The teacher adheres to local, state, and federal laws.~~
- ~~3. The teacher uses a variety of sources for evaluating his/her teaching (e.g., classroom observation, student achievement data, information from parents and students, and research).~~
- ~~4. The teacher uses self-reflection as a means of improving instruction.~~
- ~~5. The teacher participates in meaningful professional development opportunities in order to learn current, effective teaching practices.~~
- 6.1. The teacher stays abreast of professional engineering literature, consults colleagues, and seeks other resources to support development as both a learner and a teacher.
- 7.2. The teacher engages in professional discourse about subject matter knowledge and pedagogy.
- ~~8. The teacher uses educational technology to enhance productivity and professionalism.~~

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

1. The teacher is aware of community issues and needs for design opportunities.

~~2. The teacher is aware of the importance of professional learning communities.~~

**Performance**

1. The teacher is able to adapt lessons to address community needs using the engineering design process.
- ~~2. The teacher actively seeks out and utilizes community resources to create engaging learning opportunities.~~
- ~~3. The teacher collaborates with other teachers across disciplines, as well as community partners.~~

**GLOSSARY OF TERMS**

**Engineering** – The profession in which knowledge of the mathematical and natural sciences gained by study, experience, and practice is applied with judgment to develop ways to utilize economically the materials and forces of nature for the benefit of mankind – Preparation would be a bachelor’s degree

**Engineering Design Process** – A systematic problem-solving strategy, with criteria and constraints, used to develop many possible solutions to solve or satisfy human needs or wants and to narrow down the possible solutions to one final choice.

**Engineering Technology** – The part of the technological field that requires the application of scientific and engineering knowledge and methods combined with technical skills in support of engineering activities; it lies in the occupational spectrum between the craftsman and the engineer at the end of the spectrum closest to the engineer – Preparation would be an associate’s degree or bachelor’s degree in engineering technology

~~**Integrative STEM:** The application of technological/engineering design based pedagogical approaches to intentionally teach content and practices of science and mathematics education concurrently with content and practices of technology/engineering education. Integrative STEM Education is equally applicable at the natural intersections of learning within the continuum of content areas, educational environments, and academic levels.~~

**Technology** – Technology comprises the entire system of people and organizations, knowledge, processes, and devices that go into creating and operating technological artifacts, as well as the artifacts themselves.

## Idaho Standards for English Language Arts Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the English Language Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*\* These standards were aligned to the 2011 InTASC Model Core Teaching Standards and the 2012 NCTE/NCATE Standards for Initial Preparation of Teachers of Secondary English Language Arts. The language was written by a committee of content experts and has been adopted verbatim.*

***Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Performance**

1. Candidates demonstrate knowledge of developmental levels in reading, writing, listening, viewing, and speaking and plan for developmental stages and diverse ways of learning.
2. Candidates demonstrate knowledge about how adolescents read and make meaning of a wide range of texts (e.g. literature, poetry, informational text, and digital media).
3. Candidates demonstrate knowledge about how adolescents compose texts in a wide range of genres and formats including digital media.

***Standard 2: Learning Difference - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Performance**

1. Candidates demonstrate knowledge of theories and research needed to plan and implement instruction responsive to students' local, national and international histories, individual identities (e.g., race, ethnicity, gender expression, age, appearance, ability, spiritual belief, sexual orientation, socioeconomic status, and community environment), and languages/dialects as they affect students' opportunities to learn in ELA.
2. Candidates design and/or implement instruction that incorporates students' linguistic and cultural backgrounds to enable skillful control over their rhetorical choices and language practices for a variety of audiences and purposes.

***Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Performance**

1. Candidates use various types of data about their students' individual differences, identities, and funds of knowledge for literacy learning to create inclusive learning environments that contextualize curriculum and instruction and help students participate actively in their own learning in ELA (e.g., workshops, project based learning, guided writing, Socratic seminars, literature circles etc.).

***Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Performance**

1. Candidates demonstrate knowledge and use print and non-print texts, media texts, classic texts and contemporary texts, including young adult—that represent a range of world literatures, historical traditions, genres, and the experiences of different genders, ethnicities, and social classes; they are able to use literary theories to interpret and critique a range of texts.
2. Candidates demonstrate knowledge and use the conventions of English language as they relate to various rhetorical situations (grammar, usage, and mechanics); they apply the concept of dialect and relevant grammar systems (e.g., descriptive and prescriptive); they facilitate principles of language acquisition; they connect the influence of English language history on ELA content and its impact of language on society.
3. Candidates demonstrate knowledge and compose a range of formal and informal texts, taking into consideration the interrelationships among form, audience, context, and purpose; candidates understand that writing involves strategic and recursive processes across multiple stages (e.g., planning, drafting, revising, editing, and publishing); candidates use contemporary technologies and/or digital media to compose multimodal discourse.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

4. Candidates demonstrate knowledge and use strategies for acquiring and applying vocabulary knowledge to general academic and domain specific words as well as unknown terms important to comprehension (reading and listening) or expression (speaking and writing).

***Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Performance**

1. Candidates design and/or implement instruction related to the strategic use of language conventions (grammar, usage, and mechanics) in the context of students' writing for different audiences, purposes, and modalities.
2. Candidates design and/or implement English language arts and literacy instruction that promotes social justice and critical engagement with complex issues related to maintaining a diverse, inclusive, equitable society.
3. Candidates design and/or implement instruction related to a breadth and depth of texts, purposes, and complexities (e.g., literature, digital, visual, informative, argument, narrative, poetic) that lead to students becoming independent, critical, and strategic readers, writers, speakers, and listeners.
4. Candidates design and/or implement instruction related to speaking and listening that lead to students becoming critical and active participants in conversations and collaborations.

***Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Performance**

1. Candidates design a range of authentic assessments (e.g., formal and informal, formative and summative) of reading and literature that demonstrate an understanding of how learners develop and that address interpretive, critical, and evaluative abilities in reading, writing, speaking, listening, viewing, and presenting.
2. Candidates design or knowledgeably select appropriate reading assessments in response to student interests, reading proficiencies, and/or reading strategies.
3. Candidates design or knowledgeably select a range of assessments for students that promote their development as writers, are appropriate to the writing task, and are consistent with current research and theory. Candidates respond to students' writing throughout the students' writing processes in ways that engage students' ideas and encourage their growth as writers over time.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

4. Candidates differentiate instruction based on multiple kinds of assessments of learning in English language arts (e.g., students' self-assessments, formal assessments, informal assessments); candidates communicate with students about their performance in ways that actively involve students in their own learning.

***Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Performance**

1. Candidates plan instruction which, when appropriate, reflects curriculum integration and incorporates interdisciplinary teaching methods and materials which includes reading, writing, speaking, listening, and language.
2. Candidates plan standards-based, coherent and relevant learning experiences in reading that reflect knowledge of current theory and research about the teaching and learning of reading and that utilize individual and collaborative approaches and a variety of reading strategies.
3. Candidates use their knowledge of theory, research, and practice in English Language Arts to plan standards-based, coherent and relevant composing experiences that utilize individual and collaborative approaches and contemporary technologies and reflect an understanding of writing processes and strategies in different genres for a variety of purposes and audiences.
4. Candidates use their knowledge of theory, research, and practice in English Language Arts to plan standards-based, coherent and relevant learning experiences utilizing a range of different texts—across genres, periods, forms, authors, cultures, and various forms of media—and instructional strategies that are motivating and accessible to all students, including English language learners, students with special needs, students from diverse language and learning backgrounds, those designated as high achieving, and those at risk of failure.

***Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Performance**

1. Candidates plan and implement instruction based on ELA curricular requirements and standards, school and community contexts by selecting, creating, and using a variety of instructional strategies and resources specific to effective literacy instruction, including contemporary technologies and digital media, and knowledge about students' linguistic and cultural backgrounds.

*Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Performance**

1. Candidates model literate and ethical practices in ELA teaching, and engage in a variety of experiences related to ELA and reflect on their own professional practices.

*Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Performance**

1. Candidates engage in and reflect on a variety of experiences related to ELA that demonstrate understanding of and readiness for leadership, collaboration, ongoing professional development, and community engagement.

## Idaho Standards for Exceptional Child Generalists

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

In addition to the standards listed here, exceptional child teachers must meet Idaho Core Teacher Standards and the Idaho Generalist Standards and may meet one of the following, if applicable: (1) Idaho Standards for Teachers of the Blind and Visually Impaired or (2) Idaho Standards for Teachers of the Deaf and Hard of Hearing.

The following knowledge and performance statements for the Generalist Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development and Individual Learning Differences - The teacher understands how exceptionalities may interact with development and learning and use this knowledge to provide meaningful and challenging learning experiences for individuals with exceptionalities.***

### **Knowledge**

1. The teacher understands how language, culture, and family background influence the learning of individuals with exceptionalities.
2. The teacher has an understanding of development and individual differences to respond to the needs of individuals with exceptionalities.
3. The teacher understands how exceptionalities can interact with development and learning.

### **Performance**

1. The teacher modifies developmentally appropriate learning environments to provide relevant, meaningful, and challenging learning experiences for individuals with exceptionalities.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

2. The teacher is active and resourceful in seeking to understand how primary language, culture, and family interact with the exceptionality to influence the individual's academic and social abilities, attitudes, values, interests, and career and post-secondary options.

***Standard 2: Learning Environments - The teacher creates safe, inclusive, culturally responsive learning environments so that individuals with exceptionalities become active and effective learners and develop emotional well-being, positive social interactions, and self-determination.***

**Knowledge**

1. The teacher understands applicable laws, rules, regulations, and procedural safeguards regarding behavior management planning for students with disabilities.
2. The teacher knows how to collaborate with general educators and other colleagues to create safe, inclusive, culturally responsive learning environments to engage individuals with exceptionalities in meaningful learning activities and social interactions.
3. The teacher understands motivational and instructional interventions to teach individuals with exceptionalities how to adapt to different environments.
4. The teacher knows how to intervene safely and appropriately with individuals with exceptionalities in crisis (e.g., positive behavioral supports, functional behavioral assessment and behavior plans).

**Performance**

1. The teacher develops safe, inclusive, culturally responsive learning environments for all students, and collaborates with education colleagues to include individuals with exceptionalities in general education environments and engage them in meaningful learning activities and social interactions.
2. The teacher modifies learning environments for individual needs and regards an individual's language, family, culture, and other significant contextual factors and how they interact with an individual's exceptionality. The teacher modifies learning environment, and provides for the maintenance and generalization of acquired skills across environments and subjects.
3. The teacher structures learning environments to encourage the independence, self-motivation, self-direction, personal empowerment, and self-advocacy of individuals with exceptionalities, and directly teach them to adapt to the expectations and demands of differing environments.
4. The teacher safely intervenes with individuals with exceptionalities in crisis. Special education teachers are also perceived as a resource in behavior management that include the skills and knowledge to intervene safely and effectively before or when individuals with exceptionalities experience crisis, i.e. lose rational control over their behavior.

***Standard 3: Curricular Content Knowledge - The teacher uses knowledge of general and specialized curricula to individualize learning for individuals with exceptionalities.***

**Knowledge**

1. The teacher understands the central concepts, structures of the discipline, and tools of inquiry of the content areas they teach, and can organize this knowledge, integrate cross-disciplinary skills, and develop meaningful learning progressions for individuals with exceptionalities
2. The teacher understands and uses general and specialized content knowledge for teaching across curricular content areas to individualize learning for individuals with exceptionalities.
3. The teacher knows how to modify general and specialized curricula to make them accessible to individuals with exceptionalities.

**Performance**

1. The teacher demonstrates in their planning and teaching, a solid base of understanding of the central concepts in the content areas they teach.
2. The teacher collaborates with general educators in teaching or co-teaching the content of the general curriculum to individuals with exceptionalities and designs appropriate learning, accommodations, and/or modifications.
3. The teacher uses a variety of specialized curricula (e.g., academic, strategic, social, emotional, and independence curricula) to individualize meaningful and challenging learning for individuals with exceptionalities.

***Standard 4: Assessment - The teacher uses multiple methods of assessment and data-sources in making educational decisions***

**Knowledge**

1. The teacher knows how to select and use technically sound formal and informal assessments that minimize bias.
2. The teacher has knowledge of measurement principles and practices, and understands how to interpret assessment results and guide educational decisions for individuals with exceptionalities.
3. In collaboration with colleagues and families, the teacher knows how to use multiple types of assessment information in making decisions about individuals with exceptionalities.
4. The teacher understands how to engage individuals with exceptionalities to work toward quality learning and performance and provide feedback to guide them.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

5. The teacher understands assessment information to identify supports, adaptations, and modifications required for individuals with exceptionalities to access the general curriculum and to participate in school, system, and statewide assessment programs.
6. The teacher is aware of available technologies routinely used to support assessments (e.g., progress monitoring, curriculum-based assessments, etc.).
7. The teacher understands the legal policies of assessment related to special education referral, eligibility, individualized instruction, and placement for individuals with exceptionalities, including individuals from culturally and linguistically diverse backgrounds.

**Performance**

1. The teacher regularly monitors the learning progress of individuals with exceptionalities in both general and specialized content and makes instructional adjustments based on these data.
2. The teacher gathers background information regarding academic, medical, and social history.
3. The teacher conducts formal and/or informal assessments of behavior, learning, achievement, and environments to individualize the learning experiences that support the growth and development of individuals with exceptionalities.
4. The teacher integrates the results of assessments to develop a variety of individualized plans, including family service plans, transition plans, behavior change plans, etc.
5. The teacher participates as a team member in creating the assessment plan that may include ecological inventories, portfolio assessments, functional assessments, and high and low assistive technology needs to accommodate students with disabilities.

***Standard 5: Instructional Planning and Strategies – The teacher selects, adapts, and uses a repertoire of evidence-based instructional strategies and interventions to advance learning of individuals with exceptionalities.***

**Knowledge**

1. The teacher knows how to consider an individual's abilities, interests, learning environments, and cultural and linguistic factors in the selection, development, and adaptation of learning experiences for individual with exceptionalities.
2. The teacher understands technologies used to support instructional assessment, planning, and delivery for individuals with exceptionalities.
3. The teacher is familiar with augmentative and alternative communication systems and a variety of assistive technologies to support the communication and learning of individuals with exceptionalities.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

4. The teacher understands strategies to enhance language development, communication skills, and social skills of individuals with exceptionalities.
5. The teacher knows how to develop and implement a variety of education and transition plans for individuals with exceptionalities across a wide range of settings and different learning experiences in collaboration with individuals, families, and teams.
6. The teacher knows how to teach to mastery and promotes generalization of learning for individuals with exceptionalities.
7. The teacher knows how to teach cross-disciplinary knowledge and skills such as critical thinking and problem solving to individuals with exceptionalities.
8. The teacher knows how to enhance 21st Century student outcomes such as critical thinking, creative problem solving, and collaboration skills for individuals with exceptionalities, and increases their self-determination.
9. The teacher understands available technologies routinely used to support and manage all phases of planning, implementing, and evaluating instruction.

**Performance**

1. The teacher plans and uses a repertoire of evidence-based instructional strategies in promoting positive learning results in general and special curricula and in modifying learning environments for individuals with exceptionalities appropriately.
2. The teacher emphasizes explicit instruction with modeling, and guided practice to assure acquisition and fluency, as well as, the development, maintenance, and generalization of knowledge and skills across environments.
3. The teacher matches their communication methods to an individual's language proficiency and cultural and linguistic differences.
4. The teacher utilizes universal design for learning, augmentative and alternative communication systems, and assistive technologies to support and enhance the language and communication of individuals with exceptionalities.
5. The teacher develops a variety of individualized transition plans, such as transitions from preschool to elementary school and from secondary settings to a variety of postsecondary work and learning contexts.
6. The teacher personalizes instructional planning within a collaborative context including the individuals with exceptionalities, families, professional colleagues, and personnel from other agencies as appropriate.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

***Standard 6: Professional Learning and Ethical Practices – The teacher uses foundational knowledge of the field and their professional Ethical Principles and Practice Standards to inform special education practice, to engage in lifelong learning, and to advance the profession.***

**Knowledge**

1. The teacher understands how foundational knowledge and current issues influence professional practice.
2. The teacher understands that diversity is a part of families, cultures, and schools, and that complex human issues can interact with the delivery of special education services.
3. The teacher understands the significance of lifelong learning and participates in professional activities and learning communities.
4. The teacher understands how to advance the profession by engaging in activities such as advocacy and mentoring.
5. The teacher knows how to create a manageable system to maintain all program and legal records for students with disabilities as required by current federal and state laws.

**Performance**

1. The teacher uses professional Ethical Principles and Professional Practice Standards to guide their practice.
2. The teacher provides guidance and direction to paraeducators, tutors, and volunteers.
3. The teacher plans and engages in activities that foster their professional growth and keep them current with evidence-based practices.
4. The teacher is sensitive to the aspects of diversity with individuals with exceptionalities and their families, and the provision of effective special education services for English learners with exceptionalities and their families.

***Standard 7: Collaboration – The teacher will collaborate with families, other educators, related service providers, individuals with exceptionalities, and personnel from community agencies in culturally responsive ways to address the needs of individuals with exceptionalities across a range of learning experiences.***

**Knowledge**

1. The teacher understands the theory and elements of effective collaboration.
2. The teacher understands how to serve as a collaborative resource to colleagues.
3. The teacher understands how to use collaboration to promote the well-being of individuals with exceptionalities across a wide range of settings and collaborators.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

4. The teacher understands how to collaborate with their general education colleagues to create learning environments that meaningfully include individuals with exceptionalities, and that foster cultural understanding, safety and emotional well-being, positive social interactions, and active engagement.
5. The teacher is familiar with the common concerns of parents/guardians of students with disabilities and knows appropriate strategies to work with parents/guardians to deal with these concerns.
6. The teacher knows about services, networks, and organizations for individuals with disabilities and their families, including advocacy and career, vocational, and transition support.

**Performance**

1. The teacher collaborates with the educational team to uphold current federal and state laws pertaining to students with disabilities, including due process rights related to assessment, eligibility, and placement.
2. The teacher collaborates with related-service providers, other educators including special education paraeducators, personnel from community agencies, and others to address the needs of individuals with exceptionalities.
3. The teacher involves individuals with exceptionalities and their families collaboratively in all aspects of the education of individuals with exceptionalities.

## **Idaho Standards for Teachers of the Blind and Visually Impaired**

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

In addition to the standards listed here, teachers of the blind and visually impaired must meet Idaho Core Teacher Standards.

The following knowledge and performance statements for the Standards for Teachers of the Blind and Visually Impaired are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The teacher of students with visual impairments is well versed in the foundations for education of the blind and visually impaired, the physiology and functions of the visual system, and the effect of vision impairment has on the instructional program. Further, the teacher collaboratively designs instructional strategies based on the results of specialized assessments.

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

1. The teacher understands the need for students to establish body awareness, communication, self- esteem, and social skills, as described in the American Foundation for the Blind Expanded Core Curriculum (Expanded Core Curriculum).
2. The teacher knows the effects of a visual impairment on the student’s family or guardians, and the reciprocal impact on the student’s self-esteem.
3. The teacher understands the variations in functional capabilities and the diverse implications that various eye diseases have on growth and development.

**Performance**

1. The teacher provides students with a means to independently access materials readily available to the sighted world.
2. The teacher prepares students who have visual impairments, including those with additional disabilities, to respond to societal attitudes and actions with appropriate behavior and self-advocacy.
3. The teacher designs instructional experiences depending on individual student and familial stages of acceptance of the visual impairment.
4. The teacher communicates information from the optometrist/ophthalmologist report to school personnel to confirm the educational implications of the eye condition and to ensure the student's visual strengths are used.

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Knowledge**

1. The teacher knows the impact of visual disorders on learning, experience, and concept development.
2. The teacher knows methods for the development of special auditory, tactual, and modified visual communication skills for students with visual impairments, including those with additional disabilities (e.g., For example: assistive technology specific for the auditory and tactual learner, such as screen readers, refreshable braille display; pre-braille skills; braille reading and writing; magnification options; tactile graphics).
3. The teacher understands the terminology related to diseases and disorders of the human visual system and their impact on language, communication, cognitive, spatial concept, and psychosocial development.
4. The teacher knows how to critique and evaluate the strengths and limitations of various types of assistive technologies.
5. The teacher knows a variety of input and output enhancements to computer technologies that address the specific access needs of students with visual impairments, including those with additional disabilities, in a variety of environments.
6. The teacher knows techniques for modifying instructional methods and materials for students with visual impairments, including those with additional disabilities, and for assisting classroom teachers in implementing these modifications.

**Performance**

1. The teacher teaches, writes, and reads literary braille and Nemeth (math and science), as well as music and computer braille codes.
2. The teacher secures specialized materials and equipment and provides training, as needed.
3. The teacher integrates knowledge of the visual impairment when identifying and infusing low vision devices and strategies into the curriculum, learning environments, and instructional techniques.
4. The teacher integrates ophthalmology, optometry, low vision, and functional vision evaluation/learning media assessments information to comprehensively design strategies as part of an IEP or 504.

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

1. The teacher knows and understands factors in the learning environment (e.g., physical layout, organization, teacher behavior and expectations) that affect the learning behavior of students with visual impairments.
2. The teacher knows and understands strategies for creating a positive, productive learning environment that fosters student achievement.
3. The teacher knows and understands instructional planning and management issues (e.g., time management, caseload management, collaborative planning) related to various models and systems of service delivery (e.g., itinerant, residential, transdisciplinary teaming).

**Performance**

1. The teacher develops management strategies for meeting students' needs effectively and efficiently in the context of various service delivery models and systems.
2. The teacher organizes learning environments to facilitate students' acquisition of concepts and skills in, both, the general education and Expanded Core Curriculum.
3. The teacher applies organizational strategies that maximize students' ability to benefit from learning activities (e.g., strategies that help them orient themselves, move comfortably in the environment, interact positively with peers).

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**Knowledge**

1. The teacher knows the historical foundations for the education of children with visual impairments, including a continuum of service options.
2. The teacher knows about consumer and professional organizations, journals, networks, and services relevant to the field of visual impairment, including deafblindness.
3. The teacher knows and understands federal laws and regulations related to the educational rights of all students with disabilities (e.g., The Americans with Disabilities Act, The Individuals with Disabilities Education Act, Section 504) and those that specifically address students who are blind or visually impaired (e.g., federal entitlements for the provision of specialized equipment and materials, such as the American Printing House for the Blind Quota Funds).
4. The teacher possesses an in-depth knowledge of the variances in the medical, federal, and state definitions of visual impairment, identification criteria, labeling issues, incidence and prevalence figures, and how each component interacts with eligibility determinations for service.
5. The teacher knows specialized policies and resources regarding referral and placement procedures for students with visual impairments.
6. The teacher knows the effects of medications on the visual system.

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

1. The teacher knows and understands factors that promote or hinder effective communication and collaboration with students, parents/guardians, paraprofessionals, teachers, administrators, and other school and community personnel.
2. The teacher knows and understands the collaborative roles of students, parents/guardians, classroom teachers, and other school and community personnel in planning and implementing students' IEPs, 504s and IFSPs.
3. The teacher knows and understands the roles of related service personnel (e.g., certified orientation & mobility specialists, physical therapists, school nurses, counselors, rehabilitation staff), and paraprofessionals (e.g., transcribers) in the education of students with visual impairments, including those with additional disabilities.

**Performance**

1. The teacher applies skills for communicating and collaborating effectively with teachers, paraprofessionals, and other school and community personnel to enhance learning opportunities for students with visual impairments, and ensures that students receive the services they need.
2. The teacher uses effective strategies for helping classroom teachers understand the effects of visual impairments on learning, for ensuring that teachers receive necessary support (e.g., training and the use of equipment, braille materials for lessons, interlined transcriptions of students' written work in braille), and for ensuring that students have full access to needed adaptations and resources.
3. The teacher works collaboratively with professionals, family members and other personnel to help provide child-centered intervention for infants, toddlers, preschoolers and school-age students with visual impairments.
4. The teacher serves as a resource for parents/guardians and others in the school and community in regard to students with visual impairments and how to promote their learning and address their needs.

***Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

1. The teacher knows the procedures used for screening, pre-referral, referral, and classifications of students with visual impairments, including vision screening methods, functional vision evaluation, and learning media assessment.
2. The teacher possesses an in-depth knowledge of procedures for adapting and administering assessments for the intervention, referral, and identification of students with a visual impairment, including those with additional disabilities.

**Performance**

1. The teacher conducts alternative as well as functional evaluations of visual, literacy, basic orientation and mobility, and educational performance.
2. The teacher uses information obtained through functional, alternative, and standardized assessments to plan, deliver, and modify instructional and environmental factors, including IEP or 504 development.

***Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

1. The teacher knows and understands factors in the learning environment (e.g., physical layout, organization, teacher behaviors and expectations) that affect the learning and behavior of students with visual impairments.
2. The teacher knows and understands resources available for individuals with visual impairments, including deaf blindness and those with additional disabilities (e.g., APH materials, textbooks, agencies).
3. The teacher knows and understands techniques for creating and adapting instructional materials (e.g., brailled, enlarged, outlined, highlighted) for students with visual impairments.

**Performance**

1. The teacher organizes learning environments to facilitate students' acquisition of concepts and skills in, both, the general education and Expanded Core Curriculum.
2. The teacher uses visual, tactile, auditory and other adaptations to design multisensory learning environments that promote students' full participation and independent learning in a variety of group and individual contexts.
3. The teacher works collaboratively with the educational team to implement adaptations designed to compensate for visual impairments.

***Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

1. The teacher possesses in-depth knowledge of methods, materials, and assistive technology for providing for the development of cognitive, auditory, tactual, and communication skills for the blind and visually impaired, including those with additional disabilities.
2. The teacher knows how to assist the student in related Expanded Core Curriculum skills, including developing visual, auditory, and tactile efficiency as well as basic orientation and mobility skills.
3. The teacher knows how to assist the student in developing alternative organizational and study skills.
4. The teacher knows methods for providing adapted physical and recreation skills for students who have visual impairments, including those with additional disabilities.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

5. The teacher knows functional life skills instruction relevant to independent, community, and personal living and to employment for individuals with blindness, visual impairments, and co-occurring impairments, including methods for accessing printed public information, public transportation, community resources, and acquiring practical skills (e.g., keeping personal records, time management, banking, emergency procedures, etc.).
6. The teacher knows strategies and resources for developing transition plans and career awareness.

**Performance**

1. The teacher designs, sequences, implements, and evaluates modifications for daily living skills, to increase independence.
2. The teacher implements integrated learning experiences that are multi-sensory and encourage active participation, self-advocacy, and independence.
3. The teacher integrates knowledge of the visual impairment and co-occurring disabilities with child development when designing and implementing cognitive, communication, and social skills instruction.

***Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

1. The teacher knows and understands ethical responsibilities of teachers of students with visual impairments (e.g., advocating for students and their families, seeking improvements in the quality of students' educational services, pursuing ongoing professional development).
2. The teacher knows and understands the functions of agencies, consumer organizations and initiatives that promote nation-wide standards of excellence for the provision of services to students with visual impairments.
3. The teacher knows and understands the functions of professional organizations, publications and activities relevant to ongoing practice and professional development in the field of visual impairment.

**Performance**

1. The teacher applies knowledge of research-based practices and current trends and issues in the field of visual impairment to provide students with educational programming, materials, and services they need to achieve to their full potential.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

2. The teacher applies knowledge of legal requirements and documentation related to issues such as referral, evaluation, eligibility criteria, due process, confidentiality and least restrictive environment.
3. The teacher applies knowledge of state requirements and professional guidelines regarding the provision of services to students with visual impairments (e.g., caseloads, funding, array of service options).

***Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

1. The teacher knows strategies for assisting family, guardians, professionals, and other members of the community in planning appropriate transitions for students who have visual impairments, including those with additional disabilities.
2. The teacher knows the roles of paraprofessionals who work directly with students who have visual impairments, including those with additional disabilities, (e.g., sighted readers, transcribers, aides) or who provide special materials to them.
3. The teacher knows that the attitudes, expectations, and behaviors of professionals and peers will affect the behaviors of students with visual impairments, including those with additional disabilities.
4. The teacher knows and understands The Family Education Rights and Privacy Act (FERPA).

**Performance**

1. The teacher collaborates with parents, guardians, and other members of the community integral to the student's learning and development.
2. The teacher clarifies the roles of paraprofessionals who work directly with students who have visual impairments, including those with additional disabilities, (e.g., readers, transcribers, aides) or who provide special materials to those students.
3. The teacher complies with FERPA.

***Standard 11: The teacher knows how to read and produce contracted and uncontracted Literary Braille and Nemeth Codes.***

**Knowledge**

1. The teacher knows and understands skills for reading and producing Literary Braille (uncontracted and contracted) and Nemeth Codes.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

2. The teacher knows and understands the rules of the Literary Braille and Nemeth Codes, including formatting.

**Performance**

1. The teacher applies skills for reading and producing Literary Braille (uncontracted and contracted) and Nemeth Codes with a braille writer and slate and stylus.
2. The teacher applies the rules of the Literary Braille and Nemeth Codes when producing and adapting student work.
3. The teacher uses resources to obtain age-appropriate braille materials (e.g., APH materials, parent resources, braille production centers).

## **Idaho Standards for Special Education Teachers of Students who are Deaf/Hard of Hearing**

In addition to the standards listed here, teachers of the deaf and hard of hearing must meet Idaho Core Teacher Standards. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Standards for Teachers of the deaf and hard of hearing are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

1. The teacher understands how etiology, age of onset, age of identification, age at provision of services, and hearing status influence a student's language development and learning.
2. The teacher understands that being deaf/hard of hearing alone does not necessarily preclude normal academic development, cognitive development, or communication ability.
3. The teacher understands how learning and language development occur and the impact of instructional choices on deaf/hard of hearing students so they achieve age appropriate levels of literacy, academics, and social emotional development.

### **Performance**

1. The teacher identifies levels of language and literacy development and designs lessons and opportunities that are appropriate.
2. The teacher identifies levels of language and general academics and designs lessons and opportunities that are appropriate.
3. The teacher identifies levels of social/emotional development and designs lessons and opportunities that are appropriate.

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Knowledge**

1. The teacher understands how hearing status may influence student development in the following areas: sensory, cognitive, communication, physical, behavioral, cultural, social, and emotional.
2. The teacher knows the characteristics and impacts of hearing status, and the subsequent need for alternative modes of communication and/or instructional strategies.
3. The teacher understands the need for English language learning for students whose native language is American Sign Language (ASL).
4. The teacher understands the need for differentiated instruction for language learning for emergent language users.
5. The teacher understands that an Individualized Education Plan (IEP), including all current State and Federal guidelines for deaf/hard of hearing students should consider the following: communication needs; the student and family's preferred mode of communication; linguistic needs; hearing status and potential for using auditory access; assistive technology; academic level; and social, emotional, and cultural needs, including opportunities for peer interactions and communication.

**Performance**

1. The teacher uses information concerning hearing status (i.e., sensory, cognitive, communication, linguistic needs); potential for using auditory access; academic level; social, emotional, and cultural needs in planning and implanting differentiated instruction and peer interactions and communication.

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

1. The teacher understands the unique social and emotional needs of students who are deaf/hard of hearing and knows strategies to facilitate the development of healthy self-esteem and identity.
2. The teacher understands that Deaf cultural factors, communication, and family influences impact classroom management of students.
3. The teacher understands the role of and the relationship among the teacher, interpreter, and student.

**Performance**

1. The teacher designs a classroom environment to maximize opportunities for students' visual and/or auditory access.
2. The teacher creates a learning environment that encourages self-advocacy and the development of a positive self-identity.
3. The teacher prepares students for the appropriate use of interpreters and support personnel.

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

1. The teacher understands the theories, history, cultural perspectives, philosophies, and models that provide the basis for education of the deaf/hard of hearing.
2. The teacher knows the various educational placement options and how they influence a deaf/hard of hearing student's cultural identity and linguistic, academic, social, and emotional development.
3. The teacher understands the complex facets regarding issues related to deaf/hard of hearing individuals and working with their families (e.g., cultural and medical perspectives).

**Performance**

1. The teacher uses the tools, models, and strategies appropriate to the needs of students who are deaf/hard of hearing.
2. The teacher educates others regarding the potential benefits, and constraints of the following: cochlear implants, hearing aids, other amplification usage, sign language systems, ASL, use of technologies, and communication modalities.

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

1. The teacher understands the role of the interpreter and the use and maintenance of assistive technology.
2. The teacher knows resources, materials, and techniques relevant to communication choices (e.g., total communication, cued speech, ASL, listening and spoken language (LSL), hearing aids, cochlear implants, augmentative and assistive equipment, FM systems, and closed captioning).

**Performance**

1. The teacher uses resources, materials, and techniques that promote effective instruction for students who are deaf/hard of hearing (e.g., total communication, cued speech, ASL, LSL, hearing aids, cochlear implants, augmentative and assistive technology, FM systems, and closed captioning).
2. The teacher meets and maintains the proficiency requirements of the linguistic and educational environment of the student/program. For teachers to be employed in programs where sign language is used for communication and instruction, the teacher will meet one of the following to demonstrate sign language proficiency: 1) score Intermediate Plus level or above as measured by the Sign Language Proficiency Interview (SLPI), 2) receive 3.5 or above on the Educational Interpreter Performance Assessment (EIPA), or 3) obtain the National Registry of Interpreters for the Deaf Certification (RID).
3. The teacher maintains a learning environment that facilitates the services of the interpreter, support personnel, and implementation of other accommodations.
3. The teacher provides instruction to students on the effective use of appropriate assistive technology.

***Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

1. The teacher knows specialized terminology used in the assessment of students who are deaf/hard of hearing.
2. The teacher knows the appropriate assessment accommodations.
3. The teacher understands the components of an adequate evaluation for eligibility, placement, and program planning decisions for students who are deaf/hard of hearing.

**Performance**

1. The teacher uses appropriate assessment tools that use the natural, native, or preferred language of the student who is deaf/hard of hearing.
2. The teacher designs and uses appropriate formative assessment tools.
3. The teacher gathers and analyzes communication samples to determine nonverbal and linguistic skills of students who are deaf/hard of hearing as part of academic assessment.
4. The teacher uses data from assessments to inform instructional decision making to develop present levels of performance (PLOP) and IEP goals.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

*Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

1. The teacher knows Federal and State special education laws (IDEA).
2. The teacher knows how to develop a meaningful and compliant IEP.

**Performance**

1. The teacher, as an individual and a member of a team, selects and creates learning experiences that are: aligned to State curriculum standards, relevant to students, address and align to students' IEP goals, based on principles of effective instruction and performance modes.
2. The teacher implements the IEP.

*Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

1. The teacher knows how to enhance instruction through the use of technology, visual materials and experiential activities to increase outcomes for students who are deaf/hard of hearing.
2. The teacher knows how to develop instruction that incorporates critical thinking, problem solving, and performance skills.

**Performance**

1. The teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and the unique needs of students who are deaf/hard of hearing.
2. The teacher maintains a learning environment that facilitates the services of the educational interpreter, note taker, and other support personnel, as well as other accommodations.
3. The teacher enables students who are deaf/hard of hearing to use support personnel and assistive technology.

*Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

**Knowledge**

1. The teacher knows The Code of Ethics for Idaho Professional Educators.
2. The teacher knows about laws affecting deaf/hard of hearing citizens and students.
3. The teacher knows a variety of self-assessment strategies for reflecting on the practice of teaching for deaf/hard of hearing students.
4. The teacher is aware of the personal biases related to the field of education of deaf/hard of hearing children that affect teaching and knows the importance of presenting issues with objectivity, fairness, and respect.
5. The teacher knows where to find and how to access professional resources on teaching deaf/hard of hearing students and subject matters, and cultural perspectives.
6. The teacher knows about professional organizations within education in general and education of deaf/hard of hearing students and understands the need for professional activity and collaboration beyond the school.
7. The teacher understands the dynamics of change and recognizes that the field of education is not static.
8. The teacher knows how to use technology to enhance productivity and professionalism.

**Performance**

1. The teacher practices behavior congruent with The Code of Ethics for Idaho Professional Educators.
2. The teacher adheres to local, state, and federal laws, including laws affecting deaf/hard of hearing citizens and students.
3. The teacher uses a variety of sources for evaluating his/her teaching (e.g., classroom observation, student achievement data, information from parents and students, and current research in the field of education of deaf/hard of hearing students).
4. The teacher uses self-reflection as a means of improving instruction.
5. The teacher participates in meaningful professional development opportunities in order to learn current, effective teaching practices.
6. The teacher stays abreast of professional literature, consults colleagues, and seeks other resources to support development as both a learner and a teacher.
7. The teacher engages in professional discourse about subject matter knowledge and pedagogy, as well as knowledge and pedagogy related to the education of deaf/hard of hearing students.

8. The teacher uses technology to enhance productivity and professionalism.

*Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

1. The teacher understands the roles and responsibilities of teachers and support personnel in educational practice for deaf/hard of hearing students (e.g., educational interpreters, class teachers, transliterators, tutors, note takers, and audiologist).
2. The teacher knows of available resources.
3. The teacher understands the effects of communication on the development of family relationships and knows strategies to facilitate communication within a family that includes a student who is deaf/hard of hearing students.
4. The teacher knows the continuum of services provided by individuals and agencies in the ongoing support of students who are deaf/hard of hearing.

**Performance**

1. The teacher facilitates the coordination of support personnel (e.g., interpreters and transliterators) and agencies to meet the communication needs of students who are deaf/hard of hearing.
2. The teacher accesses and shares information about available resources with family and community.

## **Idaho Standards for Gifted and Talented Education Professionals**

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Gifted and Talented Education Professional Standards are widely recognized, but not all-encompassing or absolute indicators that candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

The Idaho Standards for Gifted and Talented Education Professionals incorporate the National Association for Gifted Children (NAGC) and the Council for Exceptional Children (CEC) Gifted Educator Preparation Standards (2014).

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, his/her content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*\* This language was written by a committee of content experts in 2013, and has been adopted verbatim.*

***Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

1. Beginning gifted education professionals understand the variations in learning and development between and among individuals with exceptionalities.
2. Beginning gifted education professionals understand the social and emotional issues of individuals with gifts and talents (e.g., perfectionism, underachievement, risk taking, and asynchronous development).
3. Beginning gifted education professionals understand the theories related to the highly sensitive nature of individuals with gifts and talents.
4. Beginning gifted education professionals understand the moral and ethical challenges of individuals with gifts and talents.

5. Beginning gifted education professionals understand the need for appropriate social and emotional counseling of individuals with gifts and talents.
6. Beginning gifted education professionals understand the common misconceptions, myths and stereotypes about individuals with gifts and talents.

**Performance**

1. Beginning gifted education professionals demonstrate their knowledge of variations in learning and development between and among individuals with gifts and talents by creating meaningful and challenging learning experiences.
2. Beginning gifted education professionals identify, evaluate, develop, and implement strategies and resources to address the social and emotional needs of individuals with gifts and talents.
3. Beginning gifted education professionals engage students in learning opportunities that develop moral and ethical dispositions.
4. Beginning gifted education professionals advocate for individuals with gifts and talents by debunking common misconceptions, myths and stereotypes associated with giftedness.

**Supporting Explanation for Standard 1:**

From its roots, gifted educators have placed the learning needs of the individual at the center of gifted education instruction. Gifted educators have altered instructional variables to optimize learning for individuals with gifts and talents. Development of expertise begins with a thorough understanding of and respect for similarities and differences in all areas of human growth and development. Like all educators, beginning gifted educators first respect individuals with gifts and talents within the context of human development and Individual learning differences. Not only do beginning gifted educators understand advanced developmental milestones of individuals with gifts and talents from early childhood through adolescence, but they also understand how exceptionalities can interact with development and learning, and modify developmentally appropriate learning environments to provide relevant, meaningful, and challenging learning experiences for individuals with gifts and talents.

***Standard 2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Knowledge**

1. Beginning gifted education professionals understand how language, culture, economic status, family background, age, gender, learning disabilities, and other disabilities can influence the learning of individuals with gifts and talents.

**Performance**

1. Beginning gifted education professionals identify and provide appropriate differentiated curriculum that targets individual students' needs with respect to an individual's high performing capabilities in intellectual, creative, specific academic, leadership areas, or ability in the performing or visual arts.
2. Beginning gifted education professionals use understanding of development and individual differences to respond to the needs of individuals with gifts and talents.

**Supporting Explanation for Standard 2:**

Beginning gifted educators understand the variation in characteristics between and among individuals with and without gifts and talents. They know exceptionalities can interact with multiple domains of human development to influence an individual's learning in school, community, and throughout life. Moreover, they understand that the beliefs, traditions, and values across and within cultures can influence relationships among and between students, their families, and the school community. Furthermore, these experiences of individuals with exceptionalities can influence the individual's ability to learn, interact socially, and live as fulfilled contributing members of the community.

Beginning gifted educators are active and resourceful in seeking to understand how primary language, culture, family, and learning disabilities interact with the individual's gifts and talents to influence academic and social abilities, attitudes, values, interests, and career and post-secondary options.

These learning differences and their interactions provide the foundation upon which beginning gifted educators differentiate instruction, create adaptations and instructional support in order to provide developmentally meaningful and challenging learning for individuals with exceptionalities.

***Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

1. Beginning gifted education professionals understand the elements of safe, inclusive, and culturally responsive learning environments so that individuals with gifts and talents become active and effective learners and develop emotional well-being, positive social interactions, independence, and self-advocacy.

**Performance**

1. Beginning gifted education professionals collaborate with general educators and other colleagues to create safe, inclusive, culturally responsive learning environments that engage individuals with gifts and talents in meaningful learning activities and social interactions. They take into account individual abilities and needs and develop emotional well-being, positive social interactions, independence, and self-advocacy.

2. Beginning gifted education professionals use communication and motivational and instructional interventions to facilitate understanding of subject matter and to teach individuals with gifts and talents how to adapt to different environments and develop leadership skills.
3. Beginning gifted education professionals match their communication methods to an individual's language proficiency and cultural and linguistic differences.

**Supporting Explanation for Standard 3:**

Like all educators, beginning gifted educators develop safe, inclusive, culturally responsive learning environments for all students. They also collaborate with colleagues in general education and other specialized environments that develop students' gifts and talents, engaging them in meaningful learning activities that enhance independence, interdependence, and positive peer-relationships.

Beginning gifted educators modify learning environments for individual needs. Knowledge regarding an individual's language, family, culture, and other significant contextual factors and how they interact with an individual's gifts and talents guides the beginning gifted educator in modifying learning environments and providing for the maintenance and generalization of acquired skills across environments and subjects. They match their communication methods to an individual's language proficiency and cultural and linguistic differences, avoiding discrimination and stereotyping.

Beginning gifted educators structure environments to encourage self-awareness, self-efficacy, self-direction, personal empowerment, leadership, and self-advocacy of individuals with gifts and talents and directly teach them to adapt to the expectations and demands of differing environments.

*Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*

**Knowledge**

1. Beginning gifted education professionals understand the central concepts and structures of the disciplines and tools of inquiry related to the various academic content areas they teach or support.

**Performance**

1. Beginning gifted education professionals organize content knowledge, integrate cross – disciplinary skills, and develop meaningful learning progressions to help individuals with gifts and talents in academic subject matter and specialized content domains.

**Supporting Explanation for Standards 4 & 5:**

The professional knowledge base in general education has made clear that the educators' understanding of the central concepts and structures of the discipline and tools of inquiry related to the academic subject-matter content areas they teach makes a significant difference in student learning. There is good reason to generalize this conclusion to gifted educators.

Within the general curricula, beginning gifted educators demonstrate in their planning and teaching, a solid base of understanding of the theories, central concepts and principles, structures of the discipline, and tools of inquiry of the academic subject-matter content areas they teach so they are able to organize knowledge, integrate cross-disciplinary skills, develop meaningful learning progressions and collaborate with educators in:

- Using assessments to select, adapt, and create materials to differentiate instructional strategies and general and specialized curricula to challenge individuals with gifts and talents.
- Teaching the content of the general or specialized curriculum to individuals with gifts and talents across a wide range of advanced performance levels.
- Designing appropriate learning and performance modifications for individuals with gifts and talents in academic subject matter and specialized content domains that incorporate advanced, conceptually challenging, in-depth, distinctive, and complex content.

Additionally, beginning gifted educators use a variety of specialized curricula to individualize meaningful and challenging learning for individuals with exceptionalities.

***Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

1. Beginning gifted education professionals understand general and specialized curriculum models to create advanced, conceptually challenging, in-depth, distinctive, and complex learning experiences across a wide range of advanced knowledge and performance levels.
2. Beginning gifted education professionals understand the responsibility of School Districts outlined in Idaho Code 33-2003, as well as the definition of Gifted/Talented Children defined in Idaho Code 33-2001-04 with respect to high performing capabilities in intellectual, creative, specific academic or leadership areas, or ability in the performing or visual arts.

**Performance**

1. Beginning gifted education professionals implement general and specialized curriculum to create advanced, conceptually challenging, in-depth, distinctive, and complex learning experiences across a wide range of advanced knowledge and performance levels.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. Beginning gifted education professionals implement the components of Idaho Codes 33-2001-04 and 33-2003 with respect to individuals with high performing capabilities in intellectual, creative, specific academic or leadership areas, or ability in the performing or visual arts.

***Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

1. Beginning gifted education professionals understand the appropriate use and limitations of various types of assessments.
2. Beginning gifted education professionals understand how to select and use technically sound formal and informal assessments that minimize bias.

**Performance**

1. Beginning gifted education professionals use pre-assessment and formative/summative assessments. They select, adapt, and create materials to differentiate strategies and create curricula that challenges and ensures growth of individuals with gifts and talents
2. Beginning gifted education professionals conduct and analyze formal and informal assessments of learning and achievement related to gifted and talented referral/nomination, identification, program planning, and other services for individuals with gifts and talents
3. Beginning gifted education professionals use assessment data to foster and document sustained growth over time of individuals with gifts and talents
4. Beginning gifted education professionals use various types of assessment data to collaborate with families and colleagues to assure appropriate, non-biased, and meaningful assessment to develop long- and short-range goals and objectives
5. Beginning gifted education professionals engage individuals with gifts and talents in assessing the quality of their own learning and performance and in providing feedback to guide them in setting future goals and objectives.

**Supporting Explanation for Standard 6:**

Like all educators, beginning gifted educators understand measurement theory and practice for addressing issues of validity, reliability, norms, bias, and interpretation of assessment results. Beginning gifted educators understand the policies and ethical principles of measurement and assessment related to gifted education referral/nomination, identification, planning, differentiated instruction, learning progress, and services for individuals with gifts and talents, including individuals from culturally and linguistically diverse backgrounds.

Beginning gifted educators understand the appropriate use and limitations of various types of assessments and collaborate with families and other colleagues to assure nonbiased, meaningful assessments and decision-making.

Beginning gifted educators select and use assessment information to support a wide variety of decisions within gifted education. They conduct formal and informal assessments of behavior, learning, achievement, and environments to differentiate the learning experiences and document the growth and development of individuals with gifts and talents. Moreover, they differentiate assessments to identify above level performances and to accelerate and enrich the general curriculum. Beginning gifted educators use available technologies routinely to support their assessments and employ alternative assessments such as performance-based assessment, portfolios, and computer simulations.

Using these data, beginning gifted educators make multiple types of assessment decisions including strategic adaptations and modifications in response to an individuals' constellation of social, linguistic, and learning factors in ways to minimize bias. They also use the results of assessments to develop long- range instructional plans anchored in both general and specialized curricula, and they translate these plans into carefully selected shorter-range goals and objectives to differentiate instruction. Moreover, beginning gifted educators engage individuals with gifts and talents in assessing the quality of their own learning and performance and in providing feedback to guide them in setting future goals and objectives.

Like their general education colleagues, beginning gifted educators regularly monitor the learning progress of individuals with gifts and talents in both general and specialized content and make instructional adjustments based on these data.

***Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

1. Beginning gifted education professionals understand the rationale, history, philosophies, theories, definitions, and models of gifted and talented education.
2. Beginning gifted education professionals know principles of evidence-based practice and possess a repertoire of instructional strategies to enhance critical and creative thinking, problem-solving, and performance skills of individuals with gifts and talents.
3. Beginning gifted education professionals understand curriculum design that includes content, process, product, and learning environment to differentiate instruction to meet the needs of individuals with gifts and talents.
4. Beginning gifted education professionals understand how to develop curriculum in the five mandated areas: intellectual, creative, specific academic, leadership, and visual/performing arts.

**Performance**

1. Beginning gifted education professionals select and utilize a repertoire of evidence-based curriculum and instructional strategies to advance the learning of individuals with gifts and talents.
2. Beginning gifted education professionals use technologies to support assessment, planning, and delivery of instruction for individuals with gifts and talents.
3. Beginning gifted education professionals collaborate with families and professional colleagues in selecting, adapting, and using evidence-based strategies to promote challenging learning opportunities in general and specialized curricula.

**Supporting Explanation for Standard 7:**

In the selection, development, and adaptation of learning experiences for individuals with gifts and talents, beginning gifted educators consider an individual's abilities, interests, learning environments and cultural and linguistic factors to promote positive learning results in general and special curricula. Understanding these factors and curriculum models, as well as the implications of being gifted and talented, guides the educator's development of scope and sequence plans; selection, adaptation and creation of learning activities; and use of differentiated evidence-based instructional strategies.

Moreover, beginning gifted educators facilitate these actions in a collaborative context that includes individuals with gifts and talents, families, professional colleagues, and personnel from other agencies as appropriate. They are familiar with alternative and augmentative communication systems and are comfortable using technologies to support language and communication, instructional planning and individualized instruction for individuals with exceptionalities.

***Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

1. Beginning gifted education professionals understand a variety of differentiated instructional strategies to advance individuals with gifts and talents.

**Performance**

1. Beginning gifted education professionals use and adapt a repertoire of evidence-based curriculum and instructional strategies to advance the learning of individuals with gifts and talents.
2. Beginning gifted education professionals use technologies to support instruction for individuals with gifts and talents

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

3. Beginning gifted education professionals emphasize the development, practice, and transfer of advanced knowledge and skills leading individuals with gifts and talents to become creative and productive citizens.
4. Beginning gifted education professionals use curriculum design that includes content, process, product, and learning environment to address the needs of individuals with gifts and talents.
5. Beginning gifted education professionals develop and deliver curriculum in five mandated areas: intellectual, creative, specific academic, leadership, and visual/performing arts.

**Supporting Explanation for Standard 8:**

Beginning gifted educators possess a repertoire of evidence-based strategies to differentiate and accelerate the curriculum for individuals with gifts and talents. They select, adapt, and use these strategies to promote challenging learning opportunities in general and special curricula and to modify learning environments to enhance self-awareness and self-efficacy for individuals with gifts and talents. They enhance 21<sup>st</sup> Century student outcomes such as critical and creative thinking, problem solving, collaboration, and performance skills in specific domains and allow individuals with gifts and talents opportunities to explore, develop or research their areas of interest or talent. Beginning gifted educators also emphasize the development, practice, and transfer of advanced knowledge and skills across environments throughout the lifespan leading to creative, productive careers in society for individuals with gifts and talents.

***Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to evaluate continually his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

1. Beginning gifted education professionals understand how foundational knowledge, perspectives, and current issues influence professional practice and the education and treatment of individuals with gifts and talents, both in school and society.
2. Beginning gifted education professionals are aware of their own professional development needs and understand the significance of lifelong learning.

**Performance**

1. Beginning gifted education professionals use foundational knowledge of the field and their professional Ethical Principles and Program Standards to inform gifted education practice, to engage in lifelong learning, and to advance the profession.
2. Beginning gifted education professionals model respect for diversity, understanding that diversity is a part of families, cultures, and schools, and that complex human issues can interact with identification of individuals with gifts and talents and the delivery of gifted services.

3. Beginning gifted education professionals advance the gifted education profession through participation in professional activities, learning communities, advocacy, and mentoring.

**Supporting Explanation for Standard 9:**

Beginning gifted educators practice in multiple roles and complex situations across wide age and developmental ranges requiring ongoing attention to legal matters and serious consideration of professional and ethical issues. Ethical principles and Program Standards guide beginning gifted educators. These principles and standards provide benchmarks by which gifted educators practice and evaluate one another professionally.

Beginning gifted educators understand gifted education as an evolving and changing discipline based on philosophies, evidence-based principles and theories, policies, and historical points of view that continue to influence the field of gifted education and the education of and services for individuals with gifts and talents and their families in both school and society. Beginning gifted educators understand how these factors influence professional practice including assessment, instructional planning, services, and program evaluation.

Beginning gifted educators are sensitive to the aspects of diversity relating to individuals with gifts and talents and their families, how human diversity can influence families, cultures, and schools, and how these complex issues can each interact with the delivery of gifted education services. Of special significance is the growth in the number and prevalence of English Language Learners (ELL) and the provision of effective gifted education services for ELL with exceptionalities and their families.

Beginning gifted educators also understand the relationships of the organization of gifted education services to the organization of schools, school systems, and education-related agencies within the country and cultures in which they practice. They are aware of how their own and others' attitudes, behaviors, and ways of communicating can influence their practice, and use this knowledge as a foundation to inform their own personal understandings and philosophies of special education.

Beginning gifted educators engage in professional activities and participate actively in professional learning communities that benefit individuals with gifts and talents, their families, colleagues, and their own professional growth. They view themselves as lifelong learners and regularly reflect on and adjust their practice, and develop and use personalized professional development plans. They plan and engage in activities that foster their professional growth and keep them current with evidence-based practices and know how to recognize their own skill limits and practice within them.

Moreover, educators of the gifted embrace their special role as advocate for individuals with gifts and talents. They promote and advocate for the learning and wellbeing of individuals with gifts and talents across settings and diverse learning experiences.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

*Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

1. Beginning gifted education professionals understand the theory and elements of effective collaboration.
2. Beginning gifted education professionals understand the components of a district plan for individuals with gifts and talents, including philosophy, definitions, goals, program options, identification procedures, and evaluation; how to develop a district plan; and the array of program options and services available for individuals with gifts and talents.
3. Beginning gifted education professionals understand effective implementation and evaluation of gifted and talented programs.

**Performance**

1. Beginning gifted education professionals collaborate with families, other educators and related service providers, individuals with gifts and talents, and personnel from community agencies in culturally responsive ways to address the needs of individuals with gifts and talents across a range of learning experiences.
2. Beginning gifted education professionals serve as a collaborative resource to colleagues.
3. Beginning gifted education professionals educate parents, other family members, and colleagues about the social and emotional needs and development of gifted and talented students.
4. Beginning gifted education professionals use collaboration to promote the well-being of individuals with gifts and talents across a wide range of settings and collaborators.
5. Beginning gifted education professionals use a variety of technologies and techniques to facilitate learning and communication.
6. Beginning gifted education professionals educate colleagues, parents/guardians, and others about the common misconceptions, myths, stereotypes, and controversial issues related to gifted and talented education.
7. Beginning gifted education professionals identify and implement extension and acceleration options for individuals with gifts and talents.
8. Beginning gifted education professionals match student needs with appropriate program options and services.

**Supporting Explanation for Standard 10:**

One of the significant changes in education over the past several decades is the rapid growth of collaborative educational teams to address the educational needs of students. The diversity of the students, complexity of curricular demands, growing influence of technology, and the rising targets for learning outcomes in the 21<sup>st</sup> century has created the demand for teams of educators collaborating together to ensure all students are effectively learning challenging curricula.

Beginning gifted educators embrace their role as a resource to colleagues and use the theory and elements of collaboration across a wide range of contexts and collaborators.

They collaborate with their general education and other special education colleagues to create learning environments that meaningfully include individuals with gifts and talents, and that foster cultural understanding, safety and emotional wellbeing, positive social interactions, and active engagement. Additionally, beginning gifted educators use collaboration to facilitate differentiated assessment and instructional planning to advance learning of individuals with gifts and talents across a wide range of settings and different learning experiences. They routinely collaborate with other educators in developing mentorships, internships, and vocational programming experiences to address the needs of individuals with gifts and talents.

Gifted educators have long recognized the positive significance of the active involvement of individuals with gifts and talents and their families in the education process, and gifted educators involve individuals with gifts and talents and their families collaboratively in all aspects of the education of individuals with gifts and talents.

**GLOSSARY OF TERMS**

**General Curricula** – As used “general curricula,” means the academic content of the general curricula including math, reading, English/language arts, science, social studies, and the arts.

**Specialized Curricula** – As used “specialized curricula,” means the content of specialized interventions or sets of interventions including but not limited to academic, strategic, communicative, social, emotional, and independent research curricula.

**Special Education Services** – Special education services are personalized, i.e. individualized, services that appropriately credentialed gifted educators provide directly or indirectly to individuals with exceptionalities.

**Individuals with Exceptionalities** – Individuals with exceptionalities include individuals with sensory, physical, emotional, social, cognitive differences, developmentally delays, exceptional gifts and talents; and individuals who are or have been abused or neglected; whose needs differ so as to require personalized special education services in addition to or in tandem with educational services available through general education programs and other human service delivery systems.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**Instructional Strategies** – Instructional strategies as used throughout this document include interventions used in academic and specialized curricula.

## Idaho Standards for Health Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02](#): Rules Governing Uniformity).

The following knowledge and performance statements for the Health Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

### **Knowledge**

1. The teacher understands developmentally appropriate practices that engage students in health-enhancing behaviors.
2. The teacher knows strategies to help students develop the essential skills necessary to adopt, practice, and maintain health-enhancing behaviors (National Health Education Standards, 2<sup>nd</sup> Edition-American Cancer Society)..

### **Performance**

1. The teacher encourages students to incorporate positive health-enhancing behaviors inside and outside the school setting.

2. The teacher helps students learn and use personal and social behaviors that promote positive relationships (e.g., avoiding abusive relationships, using refusal skills, setting life goals, and making healthy decisions).

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

1. The teacher understands Elementary and Secondary methods for teaching health literacy to include the following content areas of health:; Alcohol, Tobacco, & Other Drugs; Nutrition & Physical Activity; Injury Prevention & Safety; Mental, Emotional & Social Health; Prevention & Control of Disease; Consumer & Community Health; Growth, Development & Family Life; and Environmental Health.
2. The teacher understands the following health risk behaviors: Tobacco, Alcohol, and Other Drug use; Sexually Transmitted Diseases (STDs), including sexual behaviors resulting in human immunodeficiency virus (HIV), and unplanned pregnancies; Poor Dietary Behaviors; Lack of or Excessive Physical Activity; and Behaviors resulting in Intentional Injury.
3. The teacher understands the relationship between health education content areas and youth risk behaviors.
4. The teacher understands how to implement Idaho Content Standards for Literacy in Technical Subjects (Health) for grades 6-12.
5. The teacher understands Elementary and Secondary methods for teaching Health Skills to include: Analyzing Influences; Accessing Information; Interpersonal Communication; Decision Making; Goal Setting; Practicing Health Behaviors; and Advocacy.

**Performance**

1. The teacher instructs students about increasing health-enhancing behaviors, resulting in the reduction of health-risk behaviors.

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

1. The teacher recognizes that student jargon and slang associated with high-risk behaviors is ever changing.

**Performance**

1. The teacher identifies and defines student jargon/slang associated with high-risk behaviors and translates this jargon/slang into terminology appropriate to the educational setting.
2. The teacher facilitates responsible decision making, goal setting, and alternatives to high-risk behaviors that enhance health.
3. The teacher creates a respectful and safe learning environment that is sensitive to controversial health issues.

*Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

1. The teacher understands how positive evidence based community health values and practices play a role in the planning process.
2. The teacher understands how to access valid, appropriate health information and health-promoting products and services, as it relates to the planning process.
3. The teacher understands the influence of culture, media, technology, and other factors on health, as it relates to the planning process.
4. The teacher knows when and how to access valid health resources and collaborate with others to support student learning (e.g., special educators, related service providers, language learner specialists, librarians, media specialists, community organizations).

**Performance**

1. The teacher modifies instruction to reflect current health-related research and local health policies.
2. The teacher accesses valid, appropriate health information and health-promoting products and services.
3. The teacher analyzes the influence of culture, media, technology, and other factors on health and imbeds them in the planning process.

*Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

*Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Knowledge**

1. The teacher knows the laws and codes specific to health education and health services to minors.

**Performance**

1. The teacher uses appropriate interventions following the identification, disclosure, or suspicion of student involvement in a high-risk behavior.

*Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

1. The teacher understands methods of advocating for personal, family, and community health (e.g., letters to editor, community service projects, health fairs, health races/walks).

**Performance**

1. The teacher advocates for a positive school culture toward health and health education. (<http://www.shapeamerica.org/standards/health/>)

## **Idaho Standards for Literacy Teachers**

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Literacy Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

\*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

\* This language was written by a committee of content experts and has been adopted verbatim.

***Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

\*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

### **Performance**

1. Demonstrate knowledge of developmental progressions for reading and writing and how these interface with assessment and instruction to meet diverse needs of students.

***Standard 2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

\*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

**Performance**

1. Model fair-mindedness, empathy, and ethical behavior when teaching students and working with other professionals.
2. Demonstrate an understanding of the ways in which diversity influences the reading and writing development of students, especially those who struggle to acquire literacy skills and strategies.
3. Provide students with linguistic, academic, and cultural experiences that link their communities with the school.
4. Adapt instructional materials and approaches to meet the language-proficiency needs of English learners and students who struggle to acquire literacy skills and strategies.

***Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

\*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

**Performance**

1. Arrange instructional areas to provide easy access to books and other instructional materials for a variety of individual, small-group, and whole-class activities and support teachers in doing the same.
2. Modify the arrangements to accommodate students’ changing needs.
3. Create supportive social environments for all students, especially those who struggle to acquire literacy skills and strategies.
4. Create supportive environments where English learners are encouraged and given many opportunities to use English.
5. Understand the role of routines in creating and maintaining positive learning environments for reading and writing instruction using traditional print, digital, and online resources.
6. Create effective routines for all students, especially those who struggle to acquire literacy skills and strategies.

***Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

\*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

**Performance**

1. Interprets major theories of reading and writing processes and development to understand the needs of all readers in diverse contexts.
2. Analyzes classroom environment quality for fostering individual motivation to read and write (e.g., access to print, choice, challenge, and interests).
3. Reads and understands the literature and research about factors that contribute to reading success (e.g., social, cognitive, and physical).
4. Demonstrates knowledge of and a critical stance toward a wide variety of quality traditional print, digital, and online resources.
5. Demonstrates knowledge of variables of text complexity and use them in the analysis of classroom materials.
6. Demonstrates knowledge of literacy skills and strategies demanded for online reading, comprehension and research.
7. Demonstrates knowledge of the key concepts of literacy components and their interconnections as delineated in the Idaho Content Standards to include, but may not be limited to; Reading (Reading for Literature , Reading for Informational text, and Reading Foundational Skills) based on grade level appropriateness and developmental needs of student(s) being addressed, Writing, Speaking and Listening, and Language.

***Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

\*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

**Knowledge**

1. Understands how literacy (reading and writing) occurs across all subject disciplines

**Performance**

1. Plans instruction addressing content area literacy according to local, state, and/or national standards.
2. Uses digital resources appropriately to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.
3. Incorporates all aspects of literacy across content areas for instructional planning.

***Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

\*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards.

**Performance**

1. Demonstrate an understanding of the literature and research related to assessments and their uses and misuses.
2. Demonstrate an understanding of established purposes for assessing the performance of all readers, including tools for screening, diagnosis, progress monitoring, and measuring outcomes.
3. Recognize the basic technical adequacy of assessments (e.g., reliability, content, and construct validity).
4. Explain district and state assessment frameworks, proficiency standards, and student benchmarks.
5. Administer and interpret appropriate assessments for students, especially those who struggle with reading and writing.
6. Use multiple data sources to analyze individual readers' performance and to plan instruction and intervention.
7. Analyze and use assessment data to examine the effectiveness of specific intervention practices and students' responses to instruction.
8. Demonstrate the ability to communicate results of assessments to teachers and parents.

***Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

\*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards

**Performance**

1. Demonstrate an understanding of the research and literature that undergirds literacy instruction for all pre-K–12 students including the range of text types recommended by the Idaho Content Standards.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

2. Develop and implement the curriculum to meet the specific needs of students who struggle with reading literacy.
3. Provide differentiated instruction and instructional materials, including traditional print, digital, and online resources that capitalize on diversity.
4. Develop instruction anchored in the concepts of text complexity that is developmentally appropriate, with special attention to struggling literacy learners and diverse learners.
5. Develop instruction that includes rich and diverse experiences in digital environments to help all learners, especially struggling readers/writers, to be successful in New Literacies.

***Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

\*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards

**Performance**

1. Selects and modifies instructional strategies, approaches, and routines based on professional literature and research.
2. Provide appropriate in-depth instruction for all readers and writers, especially those who struggle with reading and writing.
3. As needed, adapt instructional materials and approaches to meet the language-proficiency needs of English learners and students who struggle to learn to read and write.
4. Use a variety of grouping practices to meet the needs of all students, especially those who struggle with reading and writing.

***Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

\*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards

**Performance**

1. Promote the value of reading and writing in and out of school by modeling a positive attitude toward reading and writing with students, colleagues, administrators, and parents and guardians.
2. Demonstrate effective use of technology for improving student learning.

*Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

\*For the purposes of these standards, the term “literacy” includes reading, writing, listening, speaking, viewing, and language as aligned to the Idaho Content Standards Performance

**Performance**

1. Demonstrate the ability to hold effective conversations (e.g., for planning and reflective problem solving) with individuals and groups of teachers, work collaboratively with teachers and administrators.
2. Demonstrate an understanding of local, state, and national policies that affect reading and writing instruction.
3. Collaborate with others to build strong home-to-school and school-to-home literacy connections.

## Idaho Standards for Mathematics Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Mathematics Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

1. The teacher knows how to recognize students’ mathematical development, knowledge, understandings, ways of thinking, mathematical dispositions, interests, and experiences.
2. The teacher knows of learning progressions and learning trajectories that move students toward more sophisticated mathematical reasoning.

### **Performance**

1. The teacher encourages students to make connections and develop a cohesive framework for mathematical ideas.
2. The teacher applies knowledge of learning progressions and trajectories when creating assignments, assessments, and lessons.
3. The teacher plans and facilitates learning activities that value students’ ideas and guide the development of students’ ways of thinking, and mathematical dispositions in line with research-based learning progressions.

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Knowledge**

1. The teacher knows how to design lessons at appropriate levels of mathematical development, knowledge, understanding, and experience.
2. The teacher knows how to use assessment data and appropriate interventions for students.

**Performance**

1. The teacher adjusts and modifies instruction while adhering to the content standards, in order to ensure mathematical understanding for all students.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

1. The teacher knows a variety of problem-solving approaches for investigating and understanding mathematics.
2. The teacher understands concepts (as recommended by state and national mathematics education organizations) and applications of number and quantity, algebra, geometry (Euclidean and transformational), statistics (descriptive and inferential) and data analysis, and probability, functions, and trigonometry, and has the specialized and pedagogical content knowledge for teaching necessary for those concepts and applications to be implemented in the 6-12 curriculum.
3. The teacher knows how to make use of hands-on, visual, and symbolic mathematical models in all domains of mathematics.
4. The teacher knows how to use mathematical argument and proof to evaluate the legitimacy and efficiency of alternative algorithms, strategies, conceptions, and makes connections between them.
5. The teacher knows the standards for mathematical practice, how to engage students in the use of those practices, and how they have shaped the discipline.

**Performance**

1. The teacher connects the abstract and the concrete and asks useful questions to clarify or improve reasoning.
2. The teacher uses hands-on, visual, and symbolic mathematical models in all domains of mathematics.
3. The teacher uses mathematical argument and proof to evaluate the legitimacy and efficiency of alternative algorithms, strategies, and conceptions, and makes connections between them.
4. The teacher implements the standards for mathematical practice and engages students in the use of those practices.

*Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

**Knowledge**

1. The teacher knows how to apply mathematics content and practice to other disciplines, including (but not limited to) engineering, science, personal finance, and business.

**Performance**

1. The teacher applies mathematics content and practice to other disciplines, including (but not limited to) engineering, science, personal finance, and business.

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

**Knowledge**

1. The teacher knows how to assess students' mathematical reasoning.

**Performance**

1. The teacher assesses students' mathematical reasoning.

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

1. The teacher knows content and practice standards for mathematics and understands how to design instruction to help students meet those standards.
2. The teacher knows how to plan learning activities that help students move from their current understanding through research-based learning progressions.

**Performance**

1. The teacher plans and assesses instructional sequences that engage students in learning the formal structure and content of mathematics with and through mathematical practices.

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

1. The teacher knows how to formulate or access questions and tasks that elicit students' use of mathematical reasoning and problem-solving strategies.
2. The teacher knows a variety of instructional strategies for investigating and understanding mathematics including inquiry, discourse, and problem-solving approaches.
3. The teacher knows how to facilitate expression of concepts using various mathematical representations (e.g., symbolic, numeric, graphic, visual, verbal, concrete models) and precise language.
4. The teacher understands the appropriate use of technology in teaching and learning of mathematics (e.g., graphing calculators, dynamic geometry software, statistical software).
5. The teacher knows how to use student conceptions and misconceptions to guide and facilitate learning.

**Performance**

1. The teacher poses questions and tasks that elicit students' use of mathematical reasoning and problem-solving strategies.
2. The teacher uses a variety of instructional strategies for investigating and understanding mathematics, including inquiry and problem-solving approaches.
3. The teacher facilitates exploration of concepts using various mathematical representations (e.g., symbolic, numeric, graphic, visual, verbal, concrete models) and precise language.
4. The teacher uses technology appropriately in the teaching and learning of (e.g., graphing calculators, dynamic geometry software, statistical software).
5. The teacher uses student conceptions and misconceptions to guide and facilitate learning.

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## Idaho Standards for Online Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the K-12 Online Teacher Standards are widely recognized, but not all-encompassing or absolute indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The characteristics of online instruction can be vastly different from teaching in traditional face-to-face environments. Online schools and programs serving K-12 students should be structured to support the unique needs of students and teachers in online environments. The Online Teacher Standards are aligned to the Idaho Core Teacher Standards. These standards reflect the principles of Universal Design related to technology. (Universal design is ‘the design of products and environments to be usable by all people, to the greatest extent possible, without the need for adaptation or specialized design’.)

*\* This language was written by a committee of content experts and has been adopted verbatim.*

***Standard 1: Knowledge of Online Education - The online teacher understands the central concepts, tools of inquiry, and structures in online instruction and creates learning experiences that take advantage of the transformative potential in online learning environments.***

### **Knowledge**

1. The online teacher understands the current standards for best practices in online teaching and learning.
2. The online teacher understands the role of online teaching in preparing students for the global community of the future.
3. The online teacher understands concepts, assumptions, debates, processes of inquiry, and ways of knowing that are central to the field of online teaching and learning.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

4. The online teacher understands the relationship between online education and other subject areas and real life situations.
5. The online teacher understands the relationship between online teaching and advancing technologies.
6. The online teacher understands appropriate uses of technologies to promote student learning and engagement with the content.
7. The online teacher understands the instructional delivery continuum. (e.g., fully online to blended to face-to-face).

**Performance**

1. The online teacher utilizes current standards for best practices in online teaching to identify appropriate instructional processes and strategies.
2. The online teacher demonstrates application of communication technologies for teaching and learning (e.g., Learning Management System [LMS], Content Management System [CMS], email, discussion, desktop video conferencing, and instant messaging tools).
3. The online teacher demonstrates application of emerging technologies for teaching and learning (e.g., blogs, wikis, content creation tools, mobile technologies, virtual worlds).
4. The online teacher demonstrates application of advanced troubleshooting skills (e.g., digital asset management, firewalls, web-based applications).
5. The online teacher demonstrates the use of design methods and standards in course/document creation and delivery.
6. The online teacher demonstrates knowledge of access, equity (digital divide) and safety concerns in online environments.

***Standard 2: Knowledge of Human Development and Learning - The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.***

**Performance**

1. The online teacher understands the continuum of fully online to blended learning environments and creates unique opportunities and challenges for the learner (e.g., Synchronous and Asynchronous, Individual and Group Learning, Digital Communities).
2. The online teacher uses communication technologies to alter learning strategies and skills (e.g., media literacy, visual literacy).
3. The online teacher demonstrates knowledge of motivational theories and how they are applied to online learning environments.

4. The online teacher constructs learning experiences that take into account students' physical, social, emotional, moral, and cognitive development to influence learning and instructional decisions. {Physical (e.g., Repetitive Use Injuries, Back and Neck Strain); Sensory Development (e.g., Hearing, Vision, Computer Vision Syndrome, Ocular Lock); Conceptions of social space (e.g. Identity Formation, Community Formation, Autonomy); Emotional (e.g., Isolation, cyber-bullying); Moral (i.e., Enigmatic communities, Disinhibition effect, Cognitive, Creativity)}.

***Standard 3: Modifying Instruction for Individual Needs - The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners with diverse needs.***

**Knowledge**

1. The online teacher is familiar with legal mandates stipulated by the Americans with Disabilities Act (ADA), the Individuals with Disabilities Education Act (IDEA), the Assistive Technology Act and Section 508 requirements for accessibility.

**Performance**

1. The online teacher knows how adaptive/assistive technologies are used to help people who have disabilities gain access to information that might otherwise be inaccessible.
2. The online teacher modifies, customizes and/or personalizes activities to address diverse learning styles, working strategies and abilities (e.g., provide multiple paths to learning objectives, differentiate instruction, strategies for non-native English speakers).
3. The online teacher coordinates learning experiences with adult professionals (e.g., parents, local school contacts, mentors).

***Standard 4: Multiple Instructional Strategies - The online teacher understands and uses a variety of instructional strategies to develop students' critical thinking, problem solving, and performance skills.***

**Knowledge**

1. The online teacher understands the techniques and applications of various online instructional strategies (e.g., discussion, student-directed learning, collaborative learning, lecture, project-based learning, forum, small group work).
2. The online teacher understands appropriate uses of learning and/or content management systems for student learning.

**Performance**

1. The online teacher evaluates methods for achieving learning goals and chooses various teaching strategies, materials, and technologies to meet instructional purposes and student needs. (e.g., online teacher-gathered data and student offered feedback).

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. The online teacher uses student-centered instructional strategies to engage students in learning. (e.g., Peer-based learning, peer coaching, authentic learning experiences, inquiry-based activities, structured but flexible learning environment, collaborative learning, discussion groups, self-directed learning, case studies, small group work, collaborative learning, and guided design)
3. The online teacher uses a variety of instructional tools and resources to enhance learning (e.g., LMS/CMS, computer directed and computer assisted software, digital age media).

***Standard 5: Classroom Motivation and Management Skills - The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.***

**Performance**

1. The online teacher establishes a positive and safe climate in the classroom and participates in maintaining a healthy environment in the school or program as a whole (e.g., digital etiquette, Internet safety, Acceptable Use Policy [AUP]).
2. The online teacher performs management tasks (e.g., tracks student enrollments, communication logs, attendance records, etc.).
3. The online teacher uses effective time management strategies (e.g., timely and consistent feedback, provides course materials in a timely manner, use online tool functionality to improve instructional efficiency).

***Standard 6: Communication Skills, Networking, and Community Building - The online teacher uses a variety of communication techniques including verbal, nonverbal, and media to foster inquiry, collaboration, and supportive interaction in and beyond the classroom.***

**Knowledge**

1. The online teacher knows the importance of verbal (synchronous) as well as nonverbal (asynchronous) communication.

**Performance**

1. The online teacher is a thoughtful and responsive communicator.
2. The online teacher models effective communication strategies in conveying ideas and information and in asking questions to stimulate discussion and promote higher-order thinking (e.g., discussion board facilitation, personal communications, and web conferencing).
3. The online teacher demonstrates the ability to communicate effectively using a variety of mediums.
4. The online teacher adjusts communication in response to cultural differences (e.g., wait time and authority).

***Standard 7: Instructional Planning Skills - The online teacher plans and prepares instruction based upon knowledge of subject matter, students, the community, and curriculum goals.***

**Performance**

1. The online teacher clearly communicates to students stated and measurable objectives, course goals, grading criteria, course organization and expectations.
2. The online teacher maintains accuracy and currency of course content, incorporates internet resources into course content, and extends lesson activities.
3. The online teacher designs and develops subject-specific online content.
4. The online teacher uses multiple forms of media to design course content.
5. The online teacher designs course content to facilitate interaction and discussion.
6. The online teacher designs course content that complies with intellectual property rights and fair use standards.

***Standard 8: Assessment of Student Learning - The online teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.***

**Performance**

1. The online teacher selects, constructs, and uses a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, online teacher-made tests, performance tasks, projects, student self-assessment, peer assessment, standardized tests, tests written in primary language, and authentic assessments) to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning strategies.
2. The online teacher enlists multiple strategies for ensuring security of online student assessments and assessment data.

***Standard 9: Professional Commitment and Responsibility - The online teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of online teaching.***

**Knowledge**

1. The online teacher understands the need for professional activity and collaboration beyond school (e.g., professional learning communities).
2. The online teacher knows how educational standards and curriculum align with 21<sup>st</sup> century skills.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

**Performance**

1. The online teacher adheres to local, state, and federal laws and policies (e.g., FERPA, AUP's).
2. The online teacher has participated in an online course and applies experiences as an online student to develop and implement successful strategies for online teaching environments.
3. The online teacher demonstrates alignment of educational standards and curriculum with 21st century technology skills.

***Standard 10: Partnerships - The online teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students' learning and wellbeing.***

## Idaho Standards for Physical Education Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Physical Education Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Performance**

1. The teacher assesses the skillful movement, physical activity, and exercise and fitness levels of students; designs developmentally appropriate instruction; and extends learning through collaboration with communities, colleagues, families and other professionals.

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### **Performance**

1. The teacher provides opportunities that incorporate individual differences (e.g., various physical abilities and limitations, culture, and gender) in skillful movement, physical activity, exercise and fitness to help students gain physical competence and confidence.

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

1. The teacher knows how to help students cultivate responsible personal and social behaviors that promote positive relationships and a productive environment in physical education and physical activity settings.
2. The teacher knows how to engage students in learning about the use of technology operations, concepts, and applications pertinent to healthy active lifestyles (e.g., heart rate monitors, pedometers, global positioning systems, computer software, social media).
3. The teacher understands principles of effective management in indoor and outdoor physical education and physical activity settings.

**Performance**

1. The teacher implements strategies and activities to promote positive peer relationships (e.g., caring, mutual respect, support, safety, sportsmanship, and cooperation).
2. The teacher uses strategies to motivate students to participate in physical activity inside and outside the school setting.
3. The teacher utilizes principles of effective management in indoor and outdoor physical education and physical activity settings.

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

1. The teacher understands the relationship between skillful movement, physical activity, exercise, fitness, health outcomes, well-being and quality of life.
2. The teacher understands that daily physical activity provides opportunities for enjoyment, challenge, self-expression, and social interaction.
3. The teacher understands the scientific foundation of physical activity (e.g., motor behavior and development, human anatomy and physiology, exercise physiology, bio-mechanics, psychosocial aspects of physical activity).
4. The teacher knows the appropriate rules, etiquette, instructional cues, tactics (skills and strategies) and techniques for a variety of physical education activities (e.g., aquatics, sports, games, lifetime activities, dance, rhythmical activities, and outdoor/adventure activities).

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

5. The teacher understands cultural, historical, and philosophical dimensions of physical education and physical activity.

**Performance\***

1. The teacher instructs students about the relationship between skillful movement, physical activity, fitness, health outcomes, well-being and quality of life.
2. The teacher instructs students in the rules, tactics, (skills, and strategies) and techniques of a variety of physical activities (e.g., aquatics, sports, games, lifelong activities, dance, rhythmical activities, and outdoor/adventure activities).
3. The teacher instructs students in the scientific foundation of physical activity (e.g., motor behavior and development, human anatomy and physiology, exercise philosophy, biomechanics, psychosocial aspects of physical activity).
4. The teacher fosters student reflection regarding cultural, historical and philosophical dimension of physical education and physical activity.
5. The teacher demonstrates improvement and maintains a health enhancing level of physical fitness and physical activity throughout the program.
6. The teacher facilitates technical demonstration and effective performance (tactics and techniques), in a variety of physical education activities (e.g., aquatics, sports, games, lifelong activities, dance, rhythmical activities, and outdoor/adventure activities).

- \* Without discrimination against those with disabilities, physical education teacher candidates with special needs are allowed and encouraged to utilize a variety of accommodations and/or modifications to demonstrate competent performance concepts (modified/adapted equipment, augmented communication devices, multi-media devices) and fitness (weight training programs, exercise logs).

***Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

1. The teacher understands appropriate assessment protocols sensitive to student needs.

**Performance**

1. The teacher demonstrates appropriate assessment protocols sensitive to student needs.

***Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

**Knowledge**

1. The teacher knows a variety of management routines (e.g., time transitions, environment, students/staff, equipment) and instructional strategies to maximize physical education activity time and student success.
2. The teacher knows how to expand the curriculum utilizing a variety of offerings, through the use of family engagement, school activities, and community resources (e.g., family fitness night, parks, golf courses, climbing walls, multi-use facility agreements, and service organizations).

**Performance**

1. The teacher applies a variety of management routines (e.g., time, transitions, environment, students/staff, equipment) and curricular/ instructional strategies to maximize physical education activity and student success.

*Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

1. The teacher knows multiple curricular/instructional models (e.g., sport education, teaching personal and social responsibility, outdoor education, peer teaching, fitness and wellness education, teaching games for understanding, adventure education, movement education)

**Performance**

1. The teacher utilizes multiple curricular/instructional models (e.g., sport education, teaching personal and social responsibility, outdoor education, peer teaching, fitness and wellness education, teaching games for understanding, adventure education, movement education)

*Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Knowledge**

1. The teacher knows how one's own personal skillful movement, physical activity, exercise, and fitness competence and understands its impact on teaching and student motivation.

**Performance**

1. The teacher reflects on one's own personal skillful movement, physical activity, exercise, and fitness competence and its impact on teaching and student motivation.

*Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

1. The teacher knows how to promote and advocate for healthy active schools involving physical education, physical activity before, during, and after the school day, and staff, family and community involvement.
2. The teacher knows how to promote and advocate for physical education and physical activity to students, staff, administrators, parents, school boards and community partners.

**Performance**

1. The teacher demonstrates a variety of strategies to promote and advocate for healthy active schools.

***Standard #11: Safety - The teacher provides a safe physical education learning environment.***

**Knowledge**

1. The teacher understands the inherent risks involved in physical activity.
2. The teacher recognizes safety considerations when planning and providing instruction.
3. The teacher recognizes factors that influence safety in physical activity settings (e.g., skill, fitness, developmental level of students, equipment, attire, facilities, travel, and weather).
4. The teacher recognizes the level of supervision required for the health and safety of students in all locations (e.g., teaching areas, locker rooms, off-campus).
5. The teacher understands school policies regarding the emergency action plan, student injury medical treatment, and transportation.
6. The teacher understands the appropriate steps when responding to safety situations.
7. The teacher knows cardiopulmonary resuscitation (CPR) and first aid.

**Performance**

1. The teacher documents safety issues when planning and implementing instruction to ensure a safe learning environment.
2. The teacher informs students of the risks associated with physical activity.
3. The teacher instructs students in appropriate safety procedures for physical activity and corrects inappropriate actions.
4. The teacher identifies and corrects potential hazards in physical education and physical activity facilities and equipment.
5. The teacher maintains CPR and first aid certification.

## GLOSSARY OF TERMS

**Exercise** – A subcategory of physical activity that is planned, structured, repetitive, and purposive in the sense that the improvement or maintenance of one of more components of physical fitness is the objective. “Exercise” and “exercise training” frequently are used interchangeably and generally refer to physical activity performed during leisure time with the primary purpose of improving or maintaining physical fitness, physical performance, or health.\*

**Health** – A human condition with physical, social and psychological dimensions, each characterized on a continuum with positive and negative poles. Positive health is associated with a capacity to enjoy life and to withstand challenges; it is not merely the absence of disease. Negative health is associated with illness, and in the extreme, with premature death.\*

**Health-Enhancing Physical Activity** – Activity that, when added to baseline activity, produces health benefits. Brisk walking, jumping rope, dancing, playing tennis or soccer, lifting weights, climbing on playground equipment at recess, and doing yoga are all examples of health-enhancing physical activity. \*

**Health-Related Fitness** – A type of physical fitness that includes cardiorespiratory fitness, muscular strength and endurance, body composition, flexibility, and balance.\*

**Moderate-Intensity Physical Activity** – On an absolute scale, physical activity that is done at 3.0 to 5.9 times the intensity of rest. On a scale relative to an individual’s personal capacity, moderate-intensity physical activity is usually a 5 or 6 on a scale of 0 to 10.\*

**Performance-Related Fitness** – Those attributes that significantly contribute to athletic performance, including aerobic endurance or power, muscle strength and power, speed of movement, and reaction time.\*

**Physical Activity** – Any bodily movement produced by the contraction of skeletal muscle that increases energy expenditure above a basal level. In these Guidelines, physical activity generally refers to the subset of physical activity that enhances health.\*

**Physical Fitness** – The ability to carry out daily tasks with vigor and alertness, without undue fatigue, and with ample energy to enjoy leisure-time pursuits and respond to emergencies. Physical fitness includes a number of components consisting of cardiorespiratory endurance (aerobic power), skeletal muscle endurance, skeletal muscle strength, skeletal muscle power, flexibility, balance, speed of movement, reaction time, and body composition.\*

**Skillful Movement** – An efficient, coordinated, fluent and aesthetic goal-directed voluntary performance that consists of specific body and/or limb behaviors that have physiological and biomechanical components.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

**Vigorous-Intensity Physical Activity** – On an absolute scale, physical activity that is done at 6.0 or more times the intensity of rest. On a scale relative to an individual’s personal capacity, vigorous-intensity physical activity is usually a 7 or 8 on a scale of 0 to 10.\*

\* Definitions quoted from the U.S. Department of Health and Human Services 2008 Physical Activity Guidelines for Americans at [www.health.gov/paguidelines](http://www.health.gov/paguidelines).

## **Idaho Foundation Standards for Science Teachers**

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Science Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

In addition to the standards listed here, science teachers must meet Idaho Core Teacher Standards and at least one of the following: (1) Idaho Standards for Biology Teachers, (2) Idaho Standards for Chemistry Teachers, (3) Idaho Standards for Earth and Space Science Teachers, (4) Idaho Standards for Natural Science Teachers, (5) Idaho Standards for Physical Science Teachers, or (6) Idaho Standards for Physics Teachers.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

1. The teacher knows how students use Science and Engineering Practices and Crosscutting Concepts to develop understanding of the Disciplinary Core Ideas.
2. The teacher knows common misconceptions and/or partial understandings of scientific disciplinary core ideas and how they develop and affect student learning.

### **Performance**

1. The teacher addresses common misconceptions and/or partial understandings of scientific disciplinary core ideas as they develop and affect student learning.
2. The teacher utilizes Science and Engineering Practices and Crosscutting Concepts to develop student understanding of the Disciplinary Core Ideas.

*Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.*

*Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*

*Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*

**Knowledge**

1. The teacher understands the Idaho State Science Standards within their appropriate certification, including all components.
2. The teacher is familiar with how history has shaped our current understanding of the nature of science and scientific processes.
3. The teacher understands the core ideas of their respective discipline (i.e., Disciplinary Core Ideas).
4. The teacher understands the interconnectedness among the science disciplines (i.e., Crosscutting Concepts).
5. The teacher understands the processes of science (i.e., Science and Engineering Practices).

**Performance**

1. The teacher designs and implements lessons (e.g., activities, demonstrations, laboratory and field activities) that align with Idaho State Science Standards within their appropriate certification.
2. The teacher uses diverse examples from history to teach how our current understanding of the nature of science and scientific processes has changed.
3. The teacher uses the core ideas of their respective discipline (i.e., Disciplinary Core Ideas) to design and implement lessons.
4. The teacher designs and implements lessons (e.g., activities, demonstrations, laboratory and field activities) that align with Idaho State Science Standards within their appropriate certification.
5. The teacher models and guides students in the use of the processes of science. (i.e., Science and Engineering Practices).

*Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

**Knowledge**

1. The teacher knows how to apply science and engineering practices to propose, investigate, and evaluate possible solutions to problems.

**Performance**

1. The teacher designs opportunities to apply science and engineering practices to propose, investigate, and evaluate possible solutions to problems.

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

1. The teacher understands how to implement Science and Engineering Practices in instructional planning.
2. The teacher understands how to use research based best practices to engage a diverse group of students in learning science (e.g., project-based learning, 5E Instruction, place-based).
3. The teacher understands how to apply mathematics and technology to analyze, interpret, and display scientific data.
4. The teacher understands technical writing as a way to communicate science concepts and processes.

**Performance**

1. The teacher implements Science and Engineering Practices in instructional planning.
2. The teacher uses research based practices to engage a diverse group of students in learning science (e.g., project-based learning, 5E Instruction, place-based).
3. The teacher designs lessons which allow students to utilize mathematics and technology to

analyze, interpret, and display scientific data.

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

1. The teacher understands the importance of keeping current on research related to how students learn science.
2. The teacher understands the importance of keeping current on scientific research findings.

**Performance**

1. The teacher incorporates current research related to student learning of science into instructional design.
2. The teacher incorporates current scientific research findings into instructional design.

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

***Standard 11: Safety - The science teacher demonstrates and maintains chemical safety, safety procedures, and the ethical treatment of living organisms needed in the science classroom appropriate to their area of licensure.***

**Knowledge**

1. The teacher knows how to design activities that demonstrate the safe and proper techniques for the preparation, storage, dispensing, supervision/inventory, and disposal of all materials used within their subject area science instruction.
2. The teacher understands how to design activities that demonstrate an ability to implement emergency procedures and the maintenance of safety equipment, policies and procedures that comply with established state and/or national guidelines.
3. The teacher understands how to ensure safe science activities appropriate for the abilities of all students.
4. The teacher understands how to design activities that demonstrate ethical decision-making with respect to the treatment of all living organisms in and out of the classroom. They emphasize safe, humane, and ethical treatment of animals and comply with the legal restrictions on the collection, keeping, and use of living organisms.
5. The teacher knows how to evaluate a facility for compliance with safety regulations.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

6. The teacher knows how to procure and use Material Safety Data Sheets (MSDS).

**Performance**

1. The teacher designs activities that demonstrate the safe and proper techniques for the preparation, storage, dispensing, supervision/inventory, and disposal of all materials used within their subject area science instruction.
2. The teacher designs activities that demonstrate an ability to implement emergency procedures and the maintenance of safety equipment, policies and procedures that comply with established state and/or national guidelines.
3. The teacher ensures safe science activities appropriate for the abilities of all students.
4. The teacher designs activities that demonstrate ethical decision-making with respect to the treatment of all living organisms in and out of the classroom. They emphasize safe, humane, and ethical treatment of animals and comply with the legal restrictions on the collection, keeping, and use of living organisms.
5. The teacher demonstrates the ability to evaluate a facility for compliance to safety regulations.
6. The teacher demonstrates the ability to procure and use Material Safety Data Sheet (MSDS).

***Standard 12: Laboratory and Field Activities - The science teacher demonstrates competence in conducting laboratory, and field activities.***

**Knowledge**

1. The teacher knows a variety of laboratory and field techniques appropriate to their content area.
2. The teacher knows a variety of strategies to develop students' laboratory and field skills.

**Performance**

1. The teacher engages students in a variety of laboratory and field techniques appropriate to their content area.
2. The teacher uses a variety of instructional strategies in laboratory and field experiences to engage students in developing their understanding of the natural world.

## Idaho Standards for Biology Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, biology teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Biology Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher understands the major underlying theories and principles of molecular and organismal biology, including: structure and function, growth and development, and organization for matter and energy flow.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. The teacher understands the major underlying theories and principles of ecosystems including: interdependent relationships; cycles of energy and matter transfer; the relationship among dynamics, function, and resilience; and social interactions and group behavior.
3. The teacher understands the major underlying theories and principles of heredity, including structure and function of DNA, and inheritance and variation of traits.
4. The teacher understands the major underlying theories and principles of biological adaptation; including evidence of common ancestry and diversity, natural selection, adaptation, and biodiversity and humans.

**Performance**

1. The teacher develops lessons based on the major underlying theories and principles of molecular and organismal biology including; structure and function, growth and development, and organization for matter and energy flow.
2. The teacher develops lessons based on the major underlying theories and principles of ecosystems including: interdependent relationships; cycles of energy and matter transfer; the relationship among dynamics, function, and resilience; and social interactions and group behavior.
3. The teacher develops lessons based on the major underlying theories and principles of heredity; including structure and function of DNA, and inheritance and variation of traits.
4. The teacher develops lessons based on the major underlying theories and principles of biological adaptation; including evidence of common ancestry and diversity, natural selection, adaptation, and biodiversity and humans.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher has a broad knowledge of mathematical principles and is familiar with the connections that exist between mathematics and chemistry.
2. The teacher understands fundamental structures of atoms and molecules.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

3. The teacher understands basic principles of ionic, covalent, and metallic bonding.
4. The teacher understands periodicity of physical and chemical properties of elements.
5. The teacher understands laws of conservation of matter and energy.
6. The teacher understands fundamentals of chemical kinetics, equilibrium and thermodynamics.
7. The teacher understands kinetic molecular theory and gas laws.
8. The teacher understands mole concept, stoichiometry, and laws of composition.
9. The teacher understands solutions and colligative properties.
10. The teacher understands acids/base chemistry.
11. The teacher understands fundamental oxidation-reduction chemistry.
12. The teacher understands fundamental organic chemistry and biochemistry.
13. The teacher understands applications of chemistry in personal and community health and environmental quality.
14. The teacher understands fundamentals of nuclear chemistry.
15. The teacher understands the importance of accuracy and precision in measurements.
16. The teacher understands the language and symbols of chemistry, including the symbols of elements and the procedures for naming compounds and determining chemical formulas.
17. The teacher understands the different types of chemical reactions.
18. The teacher understands symbolic and particulate models and how they can be used to interpret and explain macroscopic observations.

**Performance**

1. The teacher models the application of mathematical principles and the connections that exist between mathematics and chemistry.
2. The teacher demonstrates their knowledge of fundamental structures of atoms and molecules.
3. The teacher applies the basic principles of ionic, covalent, and metallic bonding.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

4. The teacher utilizes the periodic table to predict the physical and chemical properties of elements (e.g. ionization energy, atomic radius, types of bonding).
5. The teacher illustrates the laws of conservation of matter and energy qualitatively and quantitatively (e.g. balancing chemical equations, enthalpy calculations).
6. The teacher applies the scientific principles and evidence of chemical kinetics, equilibrium and thermodynamics to the behavior of matter.
7. The teacher is able to use Kinetic Molecular Theory and concepts of intermolecular forces to make predictions about the macroscopic properties of gases, including both ideal and nonideal.
8. The teacher can apply the mole concept, stoichiometry, and laws of composition (e.g. converting moles to mass).
9. The teacher applies the concepts of solution chemistry (e.g. calculate and prepare solutions at precise concentrations, colligative properties).
10. The teacher applies the concepts of acids/base chemistry to predict properties and reactions.
11. The teacher is able to identify oxidation-reduction reactions and justify the identification in terms of electron transfer.
12. The teacher demonstrates an understanding of the fundamental ideas of organic chemistry and how they relate to biochemistry.
13. The teacher relates the fundamental principles of chemistry to personal and community health and environmental quality.
14. The teacher can develop models to illustrate the changes in the composition of the nucleus of the atom and the energy released during the processes of fission, fusion, and radioactive decay.
15. The teacher applies accuracy and precision to their measurements and calculations.
16. The teacher applies the language and symbols of chemistry, including the symbols of elements and the procedures for naming compounds and determining chemical formulas.
17. The teacher categorizes and identifies a variety of chemical reaction types.
18. The teacher can utilize symbolic and particulate models to interpret and explain macroscopic observations.

*Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## Idaho Standards for Earth and Space Science Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here, earth and space science teachers must meet Idaho Foundation Standards for Science Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the earth and space science teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher understands electromagnetic and gravitational interactions as well as concepts of matter and energy to formulate a coherent understanding of the natural world.
2. The teacher understands the major concepts and principles of the basic areas of physics, including classical and quantum mechanics, thermodynamics, waves, optics, electricity,

magnetism, and nuclear physics.

3. The teacher knows how to apply appropriate mathematical and problem solving principles including algebra, geometry, trigonometry, calculus, and statistics in the description of the physical world and is familiar with the connections between mathematics and physics.

**Performance**

1. The teacher develops and applies conceptual models to describe the natural world.
2. The teacher tests and evaluates physical models through direct comparison with the phenomena via laboratory and field activities and demonstrations.
3. The teacher utilizes the appropriate mathematical principles in examining and describing models for explaining physical phenomena.

*Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## Idaho Foundation Standards for Social Studies Teachers

Social Studies teachers must meet Idaho Core Teacher Standards and Idaho Foundations Standards for Social Studies Teachers and one of the following: (1) Idaho Standards for Economics Teachers, (2) Idaho Standards for Geography Teachers, (3) Idaho Standards for Government and Civics Teachers, (4) Idaho Standards for History Teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Social Studies Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

1. The teacher understands the influences that contribute to intellectual, social, and personal development.
2. The teacher understands the impact of learner environment on student learning.

### **Performance**

1. The teacher provides opportunities for learners to engage in civic life, politics, and government.

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

1. The teacher has a broad knowledge base of the social studies and related disciplines (e.g., history, economics, geography, political science, behavioral sciences, humanities).
2. The teacher understands how and why various governments and societies have changed over time.
3. The teacher understands how and why independent and interdependent systems of trade and production develop.
4. The teacher understands the impact that cultures, religions, technologies, social movements, economic systems, and other factors have on civilizations, including their own.
5. The teacher understands the responsibilities and rights of citizens in the United States of America's political system, and how citizens exercise those rights and participate in the system.
6. The teacher understands how geography affects relationships between people, and environments over time.
7. The teacher understands how to identify primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables, statistical data) in interpreting social studies concepts.

**Performance**

1. The teacher compares and contrasts various governments and cultures in terms of their diversity, commonalties, and interrelationships.
2. The teacher incorporates methods of inquiry and scholarly research into the curriculum.

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

1. The teacher incorporates current events and historical knowledge, to guide learners as they predict how people from diverse global and cultural perspectives may experience and interpret the world around them.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. The teacher understands how to effectively analyze the use of primary and secondary sources in interpreting social studies concepts.

**Performance**

1. The teacher demonstrates and applies chronological historical thinking.
2. The teacher integrates knowledge from the social studies in order to prepare learners to live in a world with limited resources, cultural pluralism, and increasing interdependence.
3. The teacher uses and interprets primary and secondary sources (i.e., documents, artifacts, maps, graphs, charts, tables) when presenting social studies concepts.

*Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

**Knowledge**

1. The teacher understands strategies for clear and coherent reading, speaking, listening, and writing within the context of social studies, consistent with approved 6-12 standards.

**Performance**

1. The teacher fosters clear and coherent learner reading, speaking, listening, and writing skills within the context of social studies, consistent with approved 6-12 standards.

*Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## Idaho Standards for Economics Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here Economics teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Economics teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard #1: Learner Development. ***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher understands basic economic concepts and models (e.g., scarcity, opportunity cost, productive resources, voluntary exchange, supply and demand credit/debt, market incentives, interest rate, imports/exports).

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. The teacher understands economic indicators (e.g., unemployment, inflation, GDP) in assessing the health of the economy.
3. The teacher understands the functions and characteristics of money.
4. The teacher understands economic systems and the factors that influence each system (e.g., culture, values, belief systems, environmental and geographic impacts, and technology).
5. The teacher knows different types of economic institutions and how they differ from one another (e.g., market structures, stock markets, banking institutions, labor unions).
6. The teacher understands how economic institutions shaped history and influence current economic practices.
7. The teacher understands the principles of sound personal finance and personal investment.
8. The teacher understands fiscal and monetary policy.

**Performance**

1. The teacher demonstrates comprehension, analysis, and relevance of economic principles and concepts.
2. The teacher engages learners in the application of economic concepts in their roles as consumers, producers, and workers.
3. The teacher employs and promotes learner use of graphs, models, and equations to illustrate economic concepts.
4. The teacher illustrates how economic indicators influence historic and current policy.
5. The teacher provides examples of the principles of business organizations and entrepreneurship.
6. The teacher fosters understanding of the important role of economic systems on economic growth.
7. The teacher develops learner understanding of economic issues through application of cost/benefit analyses.
8. The teacher conveys the importance and implications of the global marketplace.

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

*Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

*Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## Idaho Standards for Geography Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here Geography teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Geography teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher understands the five themes of geography (movement, region, human environment interaction, location, and place) and how they are interrelated.
2. The teacher understands the characteristics and functions of globes, atlases, maps, map projections, aerial photographs, satellite images, global positioning systems (GPS), geographic information systems (GIS), newspapers, journals, and databases.

**Performance**

1. The teacher uses past and present events to interpret political, physical, and cultural patterns.
2. The teacher connects the earth's dynamic physical systems to its impact on humans.
3. The teacher connects population dynamics and distribution to physical, cultural, historical, economic, and political circumstances.
4. The teacher connects the earth's physical systems and varied patterns of human activity to world environmental issues.
5. The teacher incorporates geographic resources (e.g., globes, atlases, maps, map projections, aerial photographs, satellite images, global positioning systems (GPS), geographic information systems (GIS), newspapers, journals, and databases).

*Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

*Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

*Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## **Idaho Standards for American Government/Political Science Teachers**

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here government and civics teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the American Government/Political Science teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher understands the relationships between civic life, politics, and government.
2. The teacher understands the political spectrum and factors that affect individual political views and behavior.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

3. The teacher understands the purpose and foundations of government and constitutional principles of the United States of America's political system.
4. The teacher understands the organization of local, state, federal, and tribal governments, how power has evolved, and how responsibilities are organized, distributed, shared, and limited as defined by the Constitution of the United States of America.
5. The teacher understands the importance of international relations (e.g., evolution of foreign policy, national interests, global perspectives, international involvements, human rights, economic impacts, environmental issues).
6. The teacher understands the role of elections, political parties, interest groups, media (including social), and public policy (foreign and domestic) in shaping the United States of America's political system.
7. The teacher understands the civic responsibilities and rights of all individuals in the United States of America (e.g., individual and community responsibilities, participation in the political process, rights and responsibilities of non-citizens, the electoral process).
8. The teacher understands different forms of government found throughout the world.

**Performance**

1. The teacher assists learners in developing an understanding of citizenship and promotes learner engagement in civic life, politics, and government.
2. The teacher demonstrates comprehension and analysis of the foundations and principles of the United States of America political system and the organization and formation of the United States of America government.
3. The teacher demonstrates comprehension and analysis of United States of America foreign policy and international relations.
4. The teacher integrates global perspectives and current events into the study of civics and government.
5. The teacher engages learners in civil discourse and promotes its use in a democratic society.

***Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

***Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

*Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

*Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

*Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

## Idaho Standards for History Teachers

All teacher preparation programs are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s). In addition to the standards listed here history teachers must meet Idaho Foundation Standards for Social Studies teachers. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the History teacher standards are widely recognized, but not all-encompassing or absolute, indicators that teacher preparation programs have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

## Idaho Standards for Teacher Leaders

The following knowledge and performance statements for the Standards for teacher leaders are widely recognized, but not all-encompassing or absolute, indicators that teacher leader candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*\* This language was written by a committee of content experts and has been adopted verbatim.*

***Standard 1: Understanding Adults as Learners to Support Professional Learning Communities - The teacher leader understands how adults acquire and apply knowledge and uses this information to promote a culture of shared accountability for school outcomes that maximizes teacher effectiveness, promotes collaboration, enlists colleagues to be part of a leadership team, and drives continuous improvement in instruction and student learning.***

**Knowledge: The teacher leader demonstrates knowledge of:**

1. The differences in knowledge acquisition and transfer for children and adults.
2. Stages of career development and learning for colleagues and application of the concepts of adult learning to the design and implementation of professional development.
3. Effective use of individual interactions, structures and processes for collaborative work including networking, facilitation, team building, and conflict resolution.
4. Effective listening, oral communication, presentation skills, and expression in written communication.
5. Research and exemplary practice on "organizational change and innovation".
6. The process of development of group goals and objectives.

**Performance: The teacher leader:**

1. Demonstrates knowledge and skills for high quality professional learning for individuals as well as groups and assesses teachers' content knowledge and skills throughout professional learning.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. Improves colleagues' acquisition and application of knowledge and skills.
3. Fosters mutually respectful and productive relationships among colleagues and guides purposeful collaborative interactions, inclusive of team members' ideas and perspectives.
4. Uses effective communication skills and processes.
5. Demonstrates the ability to adapt to the contextual situation and make effective decisions, demonstrates knowledge of the role of creativity, innovation, and flexibility in the change process.
6. Facilitates development of a responsive culture with shared vision, values, and responsibility and promotes team-based responsibility for assessing and advancing the effectiveness of practice.

***Standard 2: Accessing and Using Research to Improve Practice and Student Achievement - The teacher leader understands how educational research is used to create new knowledge, promote specific policies and practices, improve instructional practice and make inquiry a critical component in teacher learning and school redesign; and uses this knowledge to model and facilitate colleagues' use of appropriate research-based strategies and data-driven action plans.***

**Knowledge: The teacher leader demonstrates knowledge of:**

1. Action research methodology.
2. Analysis of research data and development of a data-driven action plan that reflects relevance and rigor.
3. Implementation strategies for research-based change and for dissemination of findings for programmatic changes.

**Performance: The teacher leader:**

1. Models and facilitates relevant and targeted action research and engages colleagues in identifying research questions, designing and conducting action research to improve educational outcomes.
2. Models and facilitates analysis and application of research findings for informed decision making to improve educational outcomes with a focus on increased productivity, effectiveness and accountability.
3. Assists with application and supports dissemination of action research findings to improve educational outcomes.

*Standard 3: Promoting Professional Learning for Continuous Improvement - The teacher leader understands the constantly evolving nature of teaching and learning, new and emerging technologies and changing community demographics; and uses this knowledge to promote and facilitate structured and job-embedded professional learning initiatives aligned to school improvement goals.*

**Knowledge: The teacher leader demonstrates knowledge of:**

1. The standards of high quality professional development and their relevance to improved learning.
2. Effective use of professional development needs assessment, designs, protocols, and evaluation tools; selection and evaluation of resources appropriate to the identified need(s) along the professional career continuum.
3. The role of 21st century skills and technologies in educational practice.
4. The role of shifting cultural demographics in educational practice.

**Performance: The teacher leader:**

1. Accurately identifies the professional development needs and opportunities for colleagues in the service of improving education.
2. Works with staff and staff developers to design and implement ongoing professional learning based on assessed teacher and student needs and involves colleagues in development and implementation of a coherent, systemic, and integrated approach to professional development aligned with school improvement goals.
3. Utilizes and facilitates the use of technology, statewide student management system, and media literacy as appropriate.
4. Continually assesses the effectiveness of professional development activities and adjusts appropriately.

*Standard 4: Facilitating Improvements in Instruction and Student Learning - The teacher leader demonstrates a deep understanding of the teaching and learning process and uses this knowledge to advance the professional skills of colleagues by being a continuous learner, modeling reflective practice based on student results, and working collaboratively with colleagues to ensure instructional practices are aligned to a shared vision, mission and goal.*

**Knowledge: The teacher leader demonstrates knowledge of:**

1. Research-based curriculum, instruction, and assessment and their alignment with desired outcomes.
2. The Framework for Teaching, effective observation and strategies for providing instructional feedback.

3. Role and use of critical reflection in improving professional practice.

**Performance: The teacher leader:**

1. Recognizes, analyzes, and works toward improving the quality of colleagues' professional and instructional practices.
2. Based upon the Framework for Teaching, has proof of proficiency in recognizing effective teaching and uses effective observation techniques to identify opportunities to improve curriculum, instruction, and assessment.
3. Provides observational feedback that demonstrates the intent to improve curriculum, instruction, and assessment.
4. Develops, leads and promotes a culture of self-reflection and reflective dialogue.

*Standard 5: Using Assessments and Data for School and District Improvement - The teacher leader is knowledgeable about current research on assessment methods, designing and/or selecting effective formative and summative assessment practices and use of assessment data to make informed decisions that improve student learning; and uses this knowledge to promote appropriate strategies that support continuous and sustainable organizational improvement.*

**Knowledge: The teacher leader demonstrates knowledge of:**

1. Design and selection of suitable evaluation instruments and effective assessment practices for a range of purposes.
2. Use of formative and summative data to inform the continuous improvement process.
3. Analysis and interpretation of data from multiple sources.

**Performance: The teacher leader:**

1. Informs and facilitates colleagues' selection or design of suitable evaluation instruments to generate data that will inform instructional improvement.
2. Models use of formative and summative data to inform the continuous improvement process.
3. Informs and facilitates colleagues' interpretation of data and application of findings from multiple sources (e.g., standardized assessments, demographics and other).

*Standard 6: Improving Outreach and Collaboration with Families and Community - The teacher leader understands that families, cultures and communities have a significant impact on educational processes and student achievement and uses this knowledge to promote frequent and more effective outreach with families, community members, business and community leaders and other stakeholders in the education system.*

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

**Knowledge: The teacher leader demonstrates knowledge of:**

1. Child development and conditions in the home, culture and community and their influence on educational processes.
2. Contextual considerations of the family, school, and community and their interaction with educational processes.
3. Effective strategies for involvement of families and other stakeholders as part of a responsive culture.

**Performance: The teacher leader:**

1. Develops colleagues' abilities to form effective relationships with families and other stakeholders.
2. Recognizes, responds and adapts to contextual considerations to create effective interactions among families, communities, and schools.
3. Improves educational outcomes by promoting effective interaction and involvement of teachers, families, and stakeholders in the educational process.

*Standard 7: Advocating for Student Learning and the Profession - The teacher leader understands how educational policy is made at the local, state and national level as well as the roles of school leaders, boards of education, legislators and other stakeholders in formulating those policies; and uses this knowledge to advocate for student needs and for practices that support effective teaching and increase student learning and to serve as an individual of influence and respect within the school, community and profession.*

**Knowledge: The teacher leader demonstrates knowledge of:**

1. Effective identification and interpretation of data, research findings, and exemplary practices.
2. Alignment of opportunities with identified needs and how to synthesize information to support a proposal for educational improvement.
3. Local, state and national policy decisions and their influence on instruction.
4. The process to impact policy and to advocate on behalf of students and the community.

**Performance: The teacher leader:**

1. Identifies and evaluates needs and opportunities.
2. Generates ideas to effectively address solutions/needs.
3. Analyzes feasibility of potential solutions and relevant policy context.
4. Advocates effectively and responsibly to relevant audiences for realization of opportunities.

## Idaho Standards for Teacher Librarians

In addition to the standards listed here, teacher librarians must meet Idaho Core Teacher Standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

The school library is a classroom that serves as the instructional center of the school and needs the expertise of a professionally trained teacher librarian. The teacher librarian is an experienced classroom teacher with additional specialized training in the discipline of school librarianship.

In the rapidly evolving library landscape, teacher librarians promote and provide information literacy expertise in collaboration with the school community.

The management of a school library requires a special set of skills above and beyond those of a classroom teacher. Collection development and management, cataloging and resource sharing, technology use and maintenance, budgeting, ethical and effective information management, supervision of staff and volunteers, and providing ongoing professional development for staff are just some of the unique expectations for teacher librarians.

This document utilizes language and ideas adapted from the *Idaho Standards for Library Science Teachers* (2007) and the *ALA/AASL Standards for Initial Preparation of School Librarians* (2010).

***Standard 1: Learner Development - The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

### **Knowledge**

1. The teacher librarian is an effective teacher with knowledge of learners and learning.
2. The teacher librarian is aware of reading and information materials in a variety of formats that support the diverse developmental, cognitive, social, emotional, and linguistic needs of K-12 students and their communities.
3. The teacher librarian recognizes the importance of developmentally appropriate and challenging learning experiences.

**Performance**

1. The teacher librarian develops a collection of reading and information materials in a variety of formats that support the diverse developmental, cognitive, social, emotional, and linguistic needs of K-12 students and their communities.
2. The teacher librarian collaborates with all members of the learning community to help meet individual learner needs.
3. The teacher librarian supports the staff by locating and providing resources that enable members of the learning community to become effective users of ideas and information.
4. The teacher librarian, independently and in collaboration with other teachers, designs and implements developmentally appropriate and challenging learning experiences.

***Standard 2: Learning Differences - The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

**Knowledge**

1. The teacher librarian is aware of and respects the diverse cultures within the entire learning community.
2. The teacher librarian is aware of reading and information materials in a variety of formats that support the diverse cultural needs of K-12 students and their communities.
3. The teacher librarian recognizes the importance of culturally significant learning experiences.

**Performance**

1. The teacher librarian develops a collection of reading and information materials in a variety of formats that support the diverse cultures and communities of K-12 students.
2. The teacher librarian works with all members of the learning community to help determine and locate appropriate materials to respect their cultural diversity.

***Standard 3: Learning Environments - The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

**Knowledge**

1. The teacher librarian has an understanding of evolving library spaces that provide a positive, productive learning environment, with enough time and space for all members of the learning community to access and utilize resources and technology.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

2. The teacher librarian knows the importance of a balanced, organized, and varied library collection that supports curricula, fulfills diverse student, staff, and community needs, and brings a global perspective into the school environment.

**Performance**

1. The teacher librarian creates a positive environment to promote and model the habit of lifelong reading and learning.
2. The teacher librarian supports flexible, open access for library services.
3. The teacher librarian demonstrates the ability to develop solutions for addressing physical, social and intellectual barriers to equitable access to resources and services.
4. The teacher librarian facilitates access to information in a variety of formats.
5. The teacher librarian organizes, allocates, and manages the library resources, facilities, and materials to foster a user-friendly environment.
6. The teacher librarian provides a respectful, positive, and safe climate.
7. The teacher librarian models and facilitates the effective use of current and emerging digital tools and technology.
8. The teacher librarian proactively manages the unpredictable traffic flow, accounting for academic visits, drop-in traffic, and patron visits during non-instructional times, enforcing school expectations while maintaining a positive climate.

***Standard 4: Content Knowledge - The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

**Knowledge**

1. The teacher librarian understands the documents and policies that promote intellectual freedom and freedom of expression.
2. The teacher librarian understands the concepts of information literacy (e.g., reading, information, media, computer, and visual literacies).
3. The teacher librarian is familiar with a wide range of children's, young adult, and professional literature in multiple formats and languages to support reading for information, pleasure, and lifelong learning.
4. The teacher librarian understands the process of cataloging and classifying library materials using professional library standards.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

5. The teacher librarian understands the process of information retrieval and resource sharing.
6. The teacher librarian understands management techniques, including time management and supervision that ensure the efficient operation of the school library.
7. The teacher librarian understands the principles of basic budget planning and collection development (e.g., selection, processing, and discarding). The teacher librarian understands the grant application process.
8. The teacher librarian understands the importance of policies and procedures that support teaching and learning in school libraries.

**Performance**

1. The teacher librarian adheres to the legal and ethical tenets expressed in the ALA Policy on Confidentiality of Library Records, Privacy: An Interpretation of the Library Bill of Rights, and the ALA Code of Ethics.
2. The teacher librarian teaches and models the concepts of information literacy (e.g., reading, information, media, computer, and visual literacies).
3. The teacher librarian reads, recommends, and promotes a wide and diverse range of children's and young adult literature in multiple formats that reflect cultural diversity to foster habits of creative expression and support reading for information, pleasure, and lifelong learning.
4. The teacher librarian catalogs and classifies library materials using professional library standards.
5. The teacher librarian initiates and participates in resource sharing with public, academic, and special libraries, and with networks and library consortia.
6. The teacher librarian organizes, allocates, and manages the library resources, facilities, time, activities, and materials to provide a broad range of opportunities for learning.
7. The teacher librarian administers and trains staff to ensure an effective school library program.
8. The teacher librarian utilizes best practices to plan and budget resources in a fiscally responsible manner.
9. The teacher librarian uses professional publications that provide guidance in the selection of quality materials and to maintain current awareness of the emerging in the library field.
10. The teacher librarian develops, implement, and evaluate policies and procedures that support teaching and learning in school libraries.

***Standard 5: Application of Content - The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

1. The teacher librarian understands the scope and sequence of curricula, how they interrelate, and the information resources needed to support them.
2. The teacher librarian has a wide range of cross-curricular interests and a broad set of interdisciplinary research skills.

**Performance**

1. The teacher librarian participates on collaborative teaching teams as a peer or leader to integrate information skills, provide access to resources, and promote effective use of technology across the curriculum.
2. The teacher librarian models multiple strategies for students, other teachers, and administrators to locate, evaluate, and ethically use information for specific purposes.
3. The teacher librarian reads, recommends, and promotes a wide and diverse range of children's and young adult literature in multiple formats that reflect cultural diversity to foster habits of creative expression and support reading for information, pleasure, and lifelong learning.
4. The teacher librarian determines collection development needs based on a variety of input, including curricula, patron input, circulation statistics, and professional reading.
5. The teacher librarian promotes appropriate use of relevant and reliable information and instruction technologies.

***Standard 6: Assessment - The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

1. The teacher librarian understands many methods of assessing the library program.
2. The teacher librarian has an awareness of a wide variety of formative and summative assessment strategies.

**Performance**

1. The teacher librarian communicates and collaborates with students, teachers, administrators, and community members to develop a library program that aligns resources, services, and standards with the school's mission.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. The teacher librarian makes effective use of data and information to assess how the library program addresses the needs of diverse communities.
3. The teacher librarian collaborates with other teachers to create student assessment opportunities in a variety of formats.

*Standard 7: Planning for Instruction - The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

1. The teacher librarian understands how to develop and implement the school library mission, goals, objectives, policies, and procedures that reflect the mission, goals, and objectives of the school.
2. The teacher librarian understands effective principles of teaching and learning in collaborative partnership with other educators.
3. The teacher librarian acknowledges the importance of participating in curriculum development.

**Performance**

1. The teacher librarian develops and implements the school library mission, goals, objectives, policies, and procedures.
2. The teacher librarian identifies appropriate services, resources, and technology to meet diverse learning needs.
3. The teacher librarian includes a variety of reading and information materials in instruction and prompts students through questioning techniques to improve performance.
4. The teacher librarian collaborates with other teachers as they create, implement, and evaluate lessons, and models the use of information tools to meet the developmental and individual needs of diverse students.
5. The teacher librarian uses appropriate print and/or electronic instructional resources to design learning experiences.
6. The teacher librarian models, shares, and promotes effective principles of teaching and learning in collaborative partnership with other educators.
7. The teacher librarian engages in school improvement processes by offering professional development to other educators as it relates to library and information use.

***Standard 8: Instructional Strategies - The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

**Knowledge**

1. The teacher librarian understands how twenty-first century literacy skills support the learning needs of the school community.
2. The teacher librarian recognizes that the effective use of current and emerging digital tools to locate, analyze, evaluate, and use information resources will support researching, learning, creating, and communicating in a digital society.

**Performance**

1. The teacher librarian designs and adapts relevant learning experiences that engage students in authentic learning through the use of digital tools and resources.
2. The teacher librarian stimulates critical thinking through the skillful use of questioning techniques, and guides students and staff in the selection of materials and information for reading, writing, viewing, speaking, listening, and presenting.
3. The teacher librarian provides opportunities to foster higher order thinking skills and metacognition.
4. The teacher librarian provides access to information from a variety of sources to enrich learning for students and staff.
5. The teacher librarian uses appropriate instructional resources in a variety of formats to design learning experiences.
6. The teacher librarian employs strategies to integrate multiple literacies with content curriculum.
7. The teacher librarian integrates the use of emerging technologies as a means for effective and creative teaching and to support K-12 students' conceptual understanding, critical thinking and creative processes.
8. The teacher librarian collaborates with classroom teachers to reinforce a wide variety of reading instructional strategies to ensure K-12 students are able to create meaning from text.
9. The teacher librarian serves all members of the learning community as facilitator, coach, guide, listener, trainer, and mentor.

***Standard 9: Professional Learning and Ethical Practice - The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

**Knowledge**

1. The teacher librarian understands the documents and policies that promote intellectual freedom and freedom of expression.
2. The teacher librarian understands the parameters of information access, resource sharing, and ownership based on principles of intellectual freedom and copyright guidelines.
3. The teacher librarian understands confidentiality issues related to library records.
4. The teacher librarian recognizes the importance of evaluating practice for improvement of the school library program.

**Performance**

1. The teacher librarian practices the ethical principles of the profession, advocates for intellectual freedom and privacy, and promotes and models digital citizenship and responsibility.
2. The teacher librarian educates the school community on the ethical use of information and ideas.
3. The teacher librarian uses evidence-based research to collect, interpret, and use data to improve practice in school libraries.
4. The teacher librarian models a strong commitment to the profession by participating in professional growth and leadership opportunities through membership in library associations, attendance at professional conferences, reading professional publications, and exploring Internet resources.
5. The teacher librarian uses professional publications to keep current in the field and to assist in the selection of quality materials.

***Standard 10: Leadership and Collaboration - The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

**Knowledge**

1. The teacher librarian understands various communication and public relations strategies.
2. The teacher librarian understands the role and relationship of the school library program's impact on student academic achievement within the context of current educational initiatives.
3. The teacher librarian recognizes the value of sharing expertise with others in the field.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

**Performance**

1. The teacher librarian models and promotes lifelong reading for purposes of seeking information, knowledge, pleasure, and learning.
2. The teacher librarian collaborates with colleagues to enhance the learning environment through improved communication techniques.
3. The teacher librarian works with colleagues to empower students with effective communication techniques and strategies.
4. The teacher librarian advocates for the school library program and the library profession.
5. The teacher librarian participates in decision-making groups to continually improve library services.
6. The teacher librarian participates on collaborative teaching teams as a peer or leader to integrate information skills, provide access to resources, and promote effective use of technology across the curriculum.
7. The teacher librarian demonstrates the ability to establish connections with other libraries and to strengthen cooperation among library colleagues for resource sharing, networking, and facilitating access to information.
8. The teacher librarian articulates the role and relationship of the school library program's impact on student academic achievement within the context of current educational initiatives.
9. The teacher librarian identifies stakeholders within and outside the school community who impact the school library program.
10. The teacher librarian advocates for school library and information programs, resources, and services.
11. The teacher librarian seeks to share expertise with others through in-service, local conferences and other venues.

## Idaho Foundation Standards for Visual and Performing Arts Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Visual and Performing Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

### **Knowledge**

1. The teacher understands the impact of the arts on students with exceptional needs, including those associated with disabilities, giftedness, second language acquisition, and at-risk students.

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher understands the history and foundation of arts education.

2. The teacher understands the processes and content of the arts discipline being taught.
3. The teacher understands how to observe, describe, interpret, critique, and assess the arts discipline being taught.
4. The teacher understands the cultural, historical, and contemporary contexts surrounding works of art.
5. The teacher understands that the arts communicate, challenge, and influence culture and society.
6. The teacher understands the aesthetic purposes of the arts and that arts involve a variety of perspectives and viewpoints.
7. The teacher understands how to select and evaluate a range of artistic subject matter and ideas appropriate for students' personal and/or career interests.
8. The teacher understands connections between art curriculum and vocational opportunities.

**Performance**

1. The teacher instructs, demonstrates, and models technical and expressive proficiency in the particular arts discipline being taught.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Knowledge**

1. The teacher understands the relationships between the arts and how the arts are vital to all content areas.

**Performance**

1. The teacher engages students in identifying relationships between the arts and other content areas.
2. The teacher instructs students in making observations, interpretations, and judgments about their own artworks and the works of other artists.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

**Knowledge**

1. The teacher understands assessment strategies specific to creating, performing, and responding.

2. The teacher understands how arts assessments strategies (e.g., portfolio, critique, performance/presentation) specific to the arts enhance evaluation, as well as student knowledge and performance.

**Performance**

1. The teacher assesses student work specific to creating, performing, and responding.

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

1. The teacher understands that instructional planning for the arts teacher includes acquisition and management of materials, technology, equipment, and use of physical space.

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Knowledge**

1. The teacher understands regulations regarding copyright laws.

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

**Knowledge**

1. The teacher understands appropriate administrative, financial, management, and organizational aspects specific to the school/district arts program and its community partners.
2. The teacher understands the unique relationships between the arts and their audiences.

**Performance**

1. The teacher promotes the arts for the enhancement of the school, the community, and society.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

2. The teacher selects and creates art exhibits and performances that are appropriate for different audiences.

***Standard 11: Safety and Management - The teacher creates a safe, productive physical learning environment, including management of tools, supplies, equipment, and space.***

**Knowledge**

1. The teacher knows the procedures for safely handling, operating, storing, and maintaining the tools and equipment appropriate to his or her arts discipline.
2. The teacher understands the use and management of necessary performance and exhibit tools and equipment specific to his or her discipline.

**Performance**

1. The teacher established procedures that ensure students have the skills and knowledge necessary to accomplish tasks safely.
2. The teacher manages the simultaneous activities that take place daily in the arts classroom.

## Idaho Standards for Music Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Music Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Performance**

1. The teacher is able to prepare students for musical performance, including:
  - Singing, alone and with others, a varied repertoire of music.
  - Performing on instruments, alone and with others, a varied repertoire of music.
  - Reading and notating music

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. The teacher is able to teach students how to create music, including:
  - Improvising melodies, variations, and accompaniments.
  - Composing and arranging music within specified guidelines.
3. The teacher is able to prepare students to respond to musical works, including the following:
  - Listening to, analyzing, and describing music.
  - Evaluating music and music performances.
4. The teacher is able to prepare students to make musical connections, including:
  - Understanding relationships between music, the other arts, and disciplines outside the arts.
  - Understanding music in relation to history and culture.

***Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.***

**Performance**

1. The teacher is able to demonstrate how to apply music content knowledge in the following settings: general music, music theory, music technology, guitar, keyboard, and performing ensembles.

***Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.***

***Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.***

***Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.***

***Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.***

***Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.***

## Idaho Standards for Theatre Arts Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the Theatre Arts Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the teaching profession is a candidate’s disposition. Professional dispositions are how candidates view the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

***Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.***

***Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.***

***Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.***

***Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.***

### **Knowledge**

1. The teacher knows the history of theater as a form of entertainment and as a reflection of culture and society influence.
2. The teacher knows the basic history, theories, and processes of play writing, acting, and directing.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

3. The teacher understands technical theatre/stagecraft is an essential component of theatre arts.

**Performance**

1. The teacher demonstrates proficiency in all aspects of technical theatre/stagecraft.
2. The teacher demonstrates proficiency in all aspects of performance.

*Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.*

**Performance**

1. The teacher demonstrates the ability to direct shows for public performance.
2. The teacher demonstrates the ability to employ all aspects of technical theatre/stagecraft to build a show for public performance.

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

**Performance**

1. Teacher demonstrates the ability to secure performance rights for various forms of productions.

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.*

*Standard 11: Safety and Management - The teacher creates a safe, productive physical environment, including management of tools, supplies, equipment, and space.*

**Knowledge**

1. The teacher understands how to operate safely and maintain the theatre facility.
2. The teacher understands how to operate safely and maintain technical theatre equipment.
3. The teacher understands OSHA and safety standards specific to theatre arts.
4. The teacher understands how to manage safely the requirements unique to theatre arts.

**Performance**

1. The teacher can operate safely and maintain the theatre facility.
2. The teacher can operate safely and maintain technical theatre equipment.
3. The teacher employs OSHA and safety standards specific to theatre arts.
4. The teacher can manage safely the requirements unique to theatre arts.

## Idaho Standards for Visual Arts Teachers

All teacher candidates are expected to meet the Idaho Core Teacher Standards and the standards specific to their discipline area(s) at the “acceptable” level or above. ## Idaho Standards for World Languages Teachers

All teacher candidates are expected to meet or exceed the Idaho Core Teacher Standards and the standards specific to their discipline area(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule ([IDAPA 08.02.02: Rules Governing Uniformity](#)).

The following knowledge and performance statements for the World Languages Teacher Standards are widely recognized, but not all-encompassing or absolute, indicators that teacher candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a teacher preparation program to use indicators in a manner that assures attainment of the standards and is consistent with its conceptual framework.

An important component of the teaching profession is a candidate's disposition. Professional dispositions are how the candidate views the teaching profession, their content area, and/or students and their learning. Every teacher preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for candidate dispositions.

*\* This language was written by a committee of content experts and has been adopted verbatim.*

~~*Standard 2: Knowledge of Human Development and Learning—The teacher understands how students learn and develop, and provides opportunities that support their intellectual, social, and personal development.*~~

*Standard 1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.*

### Knowledge

1. The teacher understands that the process of second language acquisition includes a variety of skills the interrelated skills of listening, speaking, reading, and writing within the presentational, interpretive, and interpersonal modes of communication.
2. The teacher understands that cultural knowledge is essential for the development of second language acquisition.
- ~~3. The teacher understands the skills necessary to create an instructional environment that encourages students to take the risks needed for successful language learning.~~
43. The teacher knows the methodologies and theories specific to second language acquisition.
- ~~54. The teacher knows university/college expectations of world languages and the life long benefits of second language learning understands the learner development process from novice to advanced levels of language proficiency.~~

### Performance

1. The teacher uses a variety of skills within the presentational, interpretive, and interpersonal modes of communication~~instructional strategies that incorporate culture, listening, reading, writing and speaking in the target language.~~
2. The teacher integrates cultural knowledge into all language development~~instruction.~~
3. The teacher ~~builds on~~ integrates the language learning strengths of students rather than ~~focusing on their weaknesses~~ theories for first and second language acquisition related to cognitive development in order to facilitate language growth.
4. ~~The teacher uses cognates, expressions, and other colloquial techniques common to English and the target language to help further the students' understanding and fluency.~~
5. ~~The teacher explains the world language entrance and graduation requirements at national colleges/universities and the general benefits of second language learning.~~

*~~Standard 3: Modifying Instruction for Individual Needs – The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to students with diverse needs.~~*

*~~Standard 2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.~~*

### Knowledge

1. The teacher understands sociolinguistic factors such as ~~that~~ gender, age, socioeconomic background, ethnicity, sexual orientation, religious beliefs that affect and other factors play a role in how individuals perceive and relate to their own culture and language and that of the second culture and language~~others.~~
2. The teacher understands ~~that~~ students' diverse individual learning needs styles and how they affect the process of second-language acquisition.

### Performance

1. The teacher plans~~incorporates~~ learning activities that enable students to grasp the significance of language and identify how their perception of the target culture(s) at compares with their own similarities and differences.
2. The teacher differentiates instruction to incorporate~~address~~ the diverse needs of the individual students' second language acquisition~~cognitive, emotional and psychological learning styles.~~

*~~Standard 5: Classroom Motivation and Management Skills – Classroom Motivation and Management Skills – The teacher understands individual and group motivation and behavior and creates a learning environment that encourages positive social interaction, active~~*

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

~~*engagement in learning, and self-motivation*~~

~~*Standard 3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.*~~

**Knowledge**

1. The teacher understands that, ~~due to the nature of second language acquisition,~~ students thrive in a low affective filter learning environment ~~need additional instruction in positive group/pair work and focused practice.~~
2. The teacher knows current practices of classroom management techniques (e.g., comprehensible input and output) that successfully allow for a variety of activities, ~~such as listening and speaking,~~ that take place in a world language classroom.

**Performance**

1. The teacher implements strategies that encourage a low affective filter, such as group/pair work, focused practice, positive error correction, and classroom management techniques that use current research-based practices to facilitate group/pair interactions and maintain a positive flow of instruction.
2. The teacher implements current best practices of classroom management techniques (e.g., comprehensible input and output) that successfully allow for a variety of activities that take place in a world language classroom.

~~*Standard 1: Knowledge of Subject Matter—The teacher understands the central concepts, tools of inquiry, and structures of the disciplines taught and creates learning experiences that make these aspects of subject matter meaningful for students.*~~

~~*Standard 4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.*~~

**Knowledge**

1. The teacher knows the ACTFL (American Council on the Teaching of Foreign Languages) Proficiency Guidelines for language skills according to interpretive, presentational, and interpersonal modes ~~listening, speaking, reading, and writing.~~
2. The teacher knows the ~~target culture(s)~~ al perspectives as they are reflected in which the target language is used.
3. The teacher understands key linguistic structures (e.g., phonetics, morphology, semantics, syntax, pragmatics) particular to the target language ~~and demonstrates the way(s) in which they compare to English communication patterns.~~
4. The teacher knows the history, arts, and literature of the target culture(s).

AUGUST 10, 2017**

---

5. The teacher knows the current social, political, and economic realities of the countries related to the target language.
6. The teacher understands how the U.S. target language and culture perceives and is perceived by other the target languages and culture(s).
- ~~7. The teacher understands how the U.S. is perceived by the target language culture(s).~~
8. The teacher understands the stereotypes held by both the U.S. and target cultures and the impacts of those beliefs.

**Performance**

1. The teacher demonstrates advanced level speaking, reading and writing performance according to interpretive, presentational, and interpersonal modes proficiencies as defined in the by ACTFL Proficiency Guidelines established by the American Council on the Teaching of Foreign Languages.
2. The teacher incorporates into instruction integrates language skills and cultural knowledge the following activities in the target language within the presentational, interpretive, and interpersonal modes of communication: listening, speaking, reading, writing, and culture.
3. The teacher promotes advocates for the value and benefits of world language learning to students, educators, education stakeholders and the community.
4. The teacher uses the target language extensively in formal, informal, and conversational contexts presentational, interpretive, and interpersonal modes of communication and provides opportunities for the students to do so.
5. The teacher provides opportunities to communicate in the target language in meaningful, purposeful activities that simulate real-life situations.
6. The teacher systematically incorporates culture into instruction.
7. The teacher incorporates discussions of the target culture's contributions to the students' culture and vice versa how the target language/culture perceives and is perceived by other languages and cultures.
8. The teacher encourages students to understand that demonstrates how culture and language are intrinsically ~~tie~~connected.
9. The teacher demonstrates the way(s) in which key linguistic structures, including phonetics, morphology, semantics, syntax, and pragmatics, particular to the target language, compare to English communication patterns.

*Standard 6: Communication Skills—The teacher uses a variety of communication techniques to foster inquiry, collaboration, and supportive interaction in and beyond the classroom*

*Standard 5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.-*

**Knowledge**

1. ~~The teacher understands of the extension and broadening of previously gained knowledge in order to communicate clearly in the target language.~~

**Performance**

1. The teacher uses a variety of techniques to foster fluency-proficiency within the target language such as dialogues, songs, open-ended inquiry, non-verbal techniques, guided questions, modeling, role-playing, and storytelling.

~~*Standard 8: Assessment of Student Learning-The teacher understands, uses, and interprets formal and informal assessment strategies to evaluate and advance student performance and to determine program effectiveness.*~~

*Standard 6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.*

**Knowledge**

1. The teacher ~~understands the~~ knows the NCSSFL-ACTFL Proficiency Guidelines Can Do Statements and ACTFL Performance Descriptors according to the interpretive, interpersonal and presentational modes for a variety of skills (e.g., listening, speaking, reading, and writing, signing).
2. ~~The teacher has the skills to assess proficiency in listening, speaking, reading, writing and culture, which is based on a continuum.~~
3. ~~The teacher understands the importance of assessing the content and the form of communication.~~

**Performance**

1. The teacher ~~motivates the students to reach level appropriate~~ uses the NCSSFL-ACTFL Can Do Statements and ACTFL Performance Descriptors according to the interpretive, interpersonal and presentational modes for a variety of skills (e.g., listening, speaking, reading, writing, signing) to create proficiency-based on ACTFL Proficiency Guidelines for listening, speaking, reading, writing, and culture to create proficiency-based formative and summative assessments.
2. ~~The teacher employs a variety of ways to assess listening, speaking, reading, writing, and culture, using both formative and summative assessments.~~
3. ~~The teacher constructs and uses a variety of formal and informal assessment techniques, including tests in the primary and target languages, to enhance knowledge of individual students, evaluate student performance and progress, and modify teaching and learning~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

strategies.

4. ~~The teacher appropriately assesses for both the content and form of communication.~~

~~*Standard 7: Instructional Planning Skills—The teacher plans and prepares instruction based on knowledge of subject matter, students, the community, and curriculum goals.*~~

*Standard 7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross- disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.*

**Knowledge**

1. The teacher understands how to incorporate the ACTFL Standards ~~for Foreign Language Learning~~ of communication, cultures, connections, comparisons, and communities into instructional planning.
2. The teacher knows how to design lesson plans based on ACTFL Standards, research-based practices, and a variety of proficiency guidelines that enhance student understanding of the target language and culture.
3. The teacher knows how to design lesson plans that incorporate the scaffolding necessary to progress from basic level skills to appropriate critical and higher order thinking skills.
4. The teacher understands the relationship of a variety of well-articulated, sequential, and developmentally appropriate language outcomes and language program models.
5. The teacher knows how to create organized and cohesive curriculum towards successful second language acquisition.

**Performance**

1. The teacher incorporates the ACTFL Standards ~~for Foreign Language Learning~~ of communication, cultures, connections, comparisons, and communities into instructional planning.
2. The teacher designs lesson plans based on ACTFL Standards, research-based practices, and a variety of proficiency guidelines, which enhance student understanding of the target language and culture.
3. The teacher designs lesson plans which incorporate the scaffolding necessary to progress from basic level skills to appropriate critical and higher order thinking skills.
4. The teacher creates organized and cohesive curriculum towards successful second language acquisition.

~~*Standard 4: Multiple Instructional Strategies – The teacher understands and uses a variety of instructional strategies to develop students’ critical thinking, problem solving, and performance skills.*~~

*Standard 8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.*

### **Knowledge**

1. The teacher understands ~~that the need to stay current on~~ world languages methodologies ~~continue to change in response to~~ based on emerging research in second language acquisition.
2. The teacher understands instructional practices that ~~balance content focused and form-focused~~ facilitate proficiency-based learning.
3. The teacher ~~knows instructional strategies that foster higher-level thinking skills such as critical thinking and problem solving~~ understands the importance of remaining current in second-language pedagogy by means of attending conferences, maintaining memberships in professional organizations, reading professional journals, and/or on-site and on-line professional development opportunities.

### **Performance**

1. The teacher uses a variety of instructional strategies based on current research to enhance students’ understanding of the target language and culture.
- ~~2. The teacher remains current in second language pedagogy by means of attending conferences, maintaining memberships in professional organizations, reading professional journals, and/or on-site and on-line professional development opportunities.~~
3. The teacher incorporates a variety of instructional tools such as technology, local experts, and on-line resources to encourage higher-level thinking skills.

~~*Standard 9: Professional Commitment and Responsibility – The teacher is a reflective practitioner who demonstrates a commitment to professional standards and is continuously engaged in purposeful mastery of the art and science of teaching.*~~

*Standard 9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.*

~~*Standard 10: Partnerships – The teacher interacts in a professional, effective manner with colleagues, parents, and other members of the community to support students’ learning and well-being.*~~

*Standard 10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners,*

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

**Knowledge**

1. The teacher knows about career and other life-enriching opportunities available to students proficient in world languages.
2. The teacher ~~knows~~ understands the importance of and how to provide opportunities for students and teachers to communicate with native speakers.
3. The teacher ~~is able~~ knows how to communicate to ~~the students, parents, education stakeholders and community members~~ the amount of time and energy needed for students to be successful in acquiring a second language.
4. The teacher understands the effects of second language study-acquisition on first language mastery and education in general.

**Performance**

1. The teacher informs students and the broader community of career opportunities and personal enrichment that proficiency in a second language provides in the United States and beyond its borders.
- ~~2. The teacher provides opportunities for students to communicate with native speakers of the target language in person or via technology.~~
- ~~3.~~ 2. The teacher encourages students to participate in community experiences related to the target culture.
- ~~4. The teacher communicates to the students, parents, and community members the amount of time and energy needed for students to be successful in acquiring a second language.~~

**GLOSSARY OF TERMS**

American Council of Teachers of Foreign Languages (ACTFL) - an organization for world language professionals of K-12 and higher education that sets the standards for an ACTFL Proficiency Guidelines—a nationally developed and agreed upon set of descriptions of what individuals can do with language in terms of speaking, writing, listening, and reading in interpretive, interpersonal, and presentational modes for real-world situations in a spontaneous and non-rehearsed context. For each skill In addition, they provide proficiency these guidelines that identify five major levels of proficiency: Distinguished, Superior, Advanced, Intermediate, and Novice. The major levels Advanced, Intermediate, and Novice are subdivided into High, Mid, and Low sublevels. The levels of the ACTFL Gguidelines describe the continuum of proficiency from that of the highly articulate, well-educated language user to a level of little or no functional ability. These Gguidelines present the levels of proficiency as ranges, and describe

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

what an individual can and cannot do with language at each level, regardless of where, when, or how the language was acquired. ([http://www.actfl.org/files/public/ACTFLProficiencyGuidelines2012\\_FINAL.pdf](http://www.actfl.org/files/public/ACTFLProficiencyGuidelines2012_FINAL.pdf))

**ACTFL Performance Descriptors** – a roadmap for teaching and learning, helping teachers create performance tasks targeted to the appropriate performance range, while challenging learners to also use strategies from the next higher range. Performance is described as the ability to use language that has been learned and practiced in an instructional setting.

~~**American Council of Teachers of Foreign Languages (ACTFL)**~~ – an organization for world language professionals of K-12 and higher education

**Comprehensible Input** – language that is accessible to students by ensuring that the instructor is using the target language within the reach of the students' comprehension

**Comprehensible Output** – language produced by the learner that is understandable to others, often through trial and error

~~**Content-Based Instruction (CBI)**~~ – a method of teaching language where content is a means to language acquisition, and supports proficiency with challenging, informative, and complex communication

**Critical thinking** - an intellectually disciplined process of actively and skillfully applying, analyzing, synthesizing, and or evaluating information, which in its exemplary form transcends subject matter disciplines

**Education Stakeholders** – students, parents, faculty, administration, and community members

~~**Form-Focused Instruction (FFI)**~~ – attention to the formal aspects of language (grammar, spelling, intonation, etc.) and is a cognitive approach to language learning which holds that second language proficiency resides in both rule-based and exemplar-based knowledge. Rule-based knowledge consists of linguistic rules and is form-oriented, whereas the exemplar-based system consists of chunks of language: instances of language that are unanalyzed and stored as a whole in our memories.

**Interpersonal Mode (ACTFL)** – learners interact and negotiate meaning in spoken, signed, or written conversations to share information reactions, feelings, and opinions

**Interpretive Mode (ACTFL)** – learners understand, interpret, and analyze what is heard and read on a variety of topics

**Low Affective Filter** – a metaphorical filter that is caused by a student's negative emotions which reduce the student's ability to understand the language spoken to them

**NCSSFL (National Council of State Supervisors of Foreign Languages)-ACTFL Can Do**

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

**Statements** – describe the specific language tasks that learners are likely to perform at various levels of proficiency

**Negotiation of Meaning** – a process that speakers go through to reach a clear understanding of each other

**Presentational Mode (ACTFL)** – Learners present information, concepts, and ideas to inform, persuade, explain, and narrate on a variety of topics using appropriate media and adapting to various audiences of listeners, readers, or viewers

**Proficiency** – using the target language with fluency and accuracy

**Second Language** – Any language that one speaks other than one’s first language - also known as L2, target language, additive language

**Second Language Acquisition** – The process by which people learn a second language and the scientific discipline that is devoted to understanding that process

**Scaffolding** - a process that enables a student to solve a problem, carry out a task, or achieve a goal which otherwise would be beyond his or her unassisted efforts including instructional, procedural, and verbal techniques. ~~See Zone of Proximal Development (ZPD)~~

**Task-Based** – Task-based learning focuses on the use of authentic language through meaningful tasks, such as visiting the doctor or requesting an appointment with an instructor through email. This method encourages meaningful communication and is student-centered.

~~**Zone of Proximal Development (ZPD)** – the distance or cognitive gap between what a learner can do without assistance and what that learner can do with a more capable peer or skilled adult, a locus for scaffolding~~

### Other Teacher Endorsement Areas

Several teacher endorsement areas were not individually addressed in the current standards (refer to list below), given the small number of courses offered in these specific areas.

To be recommended for endorsement in these content areas, a candidate must meet the Idaho Core Teacher Standards and any current standards of their professional organization(s). Additionally, all teacher candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

#### **Content/Endorsement Areas**

- Humanities \*
- Psychology
- Sociology

*\* The Idaho Standards for the Initial Certification of Teachers address content areas traditionally categorized as humanities requirements for students (e.g. music, drama, art, foreign language).*

## **Idaho Foundation Standards for the Preparation of School Administrators**

All school administrators, including principals, special education directors, and superintendents, must meet the following Idaho Foundation Standards for School Administrators and the standards specific to their certification area at the “acceptable” level or above.

The following knowledge and performance statements for the Foundation Standards for School Administrators are widely recognized, but not all encompassing or absolute, indicators that School Administrator candidates have met the standards. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of preparation programs to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

An important component of the School Administrator’s profession is their disposition. Professional dispositions are how the Administrator views the education profession, their content area, and/or students and their learning. Every preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for Administrator dispositions.

*\* This language was written by a committee of content experts and has been adopted verbatim. These standards are grounded in the Educational Leadership Policy Standards: ISLLC (Interstate School Leaders Licensure Consortium) 2008, as adopted by the National Policy Board for Education Administration.*

### **School Climate**

An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs.

***Standard 1: School Culture – The School Administrator establishes a safe, collaborative, and supportive culture ensuring all students are successfully prepared to meet the requirements for tomorrow’s careers and life endeavors.***

### **Knowledge: The School Administrator:**

1. Understands the importance of eliciting feedback that measures the school and community perceptions.
2. Understands laws and policies regarding school safety and prevention by creating a detailed school safety plan, which addresses potential physical and emotional threats.
3. Understands disciplinary policies and multiple strategies for intervention that occur prior to removal of students.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

~~4. Understands methods for responding to conflict.~~

**Performance: The School Administrator:**

- ~~1. Demonstrates ability to disaggregate school climate data to collaboratively engage faculty, staff, students, and parents in identifying concerns or threats to school safety.~~
- ~~2. Demonstrates ability to proactively engage staff in conflict resolution.~~
- ~~3. Demonstrates ability to establish rules and related consequences designed to keep students safe.~~
- ~~4. Demonstrates ability to individually and/or collaboratively monitor school climate by gathering data about student and staff perceptions.~~
- ~~5. Demonstrates ability to connect appropriate strategies and solutions to known barriers to promote a school culture of excellence, equity, and safety across all school settings.~~
- ~~6. Demonstrates ability to use data to monitor and improve school climate.~~
- ~~7. Demonstrates ability to collaborate with instructional staff and parents in creating opportunities to safely examine and address barriers to a school culture, embracing diversity.~~

~~*Standard 2: Communication – The School Administrator is proactive in communicating the vision and goals of the school or district, the plans for the future, and the successes and challenges to all stakeholders.*~~

**Knowledge: The School Administrator:**

- ~~1. Understands the importance of making organizational decisions based upon the mission and vision of the school and district.~~
- ~~2. Understands effective communication strategies.~~
- ~~3. Understands the importance of the school improvement plan and adjusting it based on data, including input from district and school staff.~~

**Performance: The School Administrator:**

- ~~1. Demonstrates ability to develop and monitor school goals, programs, and actions to ensure that they support the school's vision and mission.~~
- ~~2. Demonstrates ability to develop and facilitate a clear, timely communication plan across the school's departments to support effective and efficient school operations.~~
- ~~3. Demonstrates ability to lead and engage school staff and stakeholders, using multiple communication strategies.~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

4. ~~Demonstrates ability to ensure that stakeholders have meaningful input in the school's vision and mission, aligning with academic and social learning goals for students.~~

~~*Standard 3: Advocacy – The School Administrator advocates for education, the district and school, teachers, parents, and students that engenders school support and involvement.*~~

~~**Knowledge: The School Administrator:**~~

1. ~~Understands the importance of inviting community input and using the input to inform decisions~~
2. ~~Understands cultural diversity and its importance in the schools learning community.~~

~~**Performance: The School Administrator:**~~

1. ~~Demonstrates the ability to develop and implement opportunities for involving community in school activities that support teaching and learning.~~
2. ~~Demonstrates the ability to promote appreciation and understanding of diverse cultural opportunities and integrate them in the schools learning community.~~

~~**Collaborative Leadership**~~

~~An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. He or she uses research and/or best practices in improving the education program.~~

~~*Standard 4: Shared Leadership – The School Administrator fosters shared leadership that takes advantage of individual expertise, strengths, and talents, and cultivates professional growth.*~~

~~**Knowledge: The School Administrator:**~~

1. ~~Understands the importance of providing staff equal access to opportunities for learning, leadership, and advancement.~~
2. ~~Understands the importance of developing and implementing distributed leadership as part of the process of shared governance.~~
3. ~~Understands the importance of developing and using Professional Learning Plans to encourage professional growth and expand competencies.~~

~~**Performance: The School Administrator:**~~

1. ~~Demonstrates the ability to use Professional Learning Plans to provide feedback on professional behavior to teachers and other staff and remediates behavior as needed.~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- ~~2. Demonstrates the ability to create structured opportunities for instructional staff and other staff to expand leadership through the use of reflections, mentoring, feedback, and learning plans.~~

~~*Standard 5: Priority Management – The School Administrator organizes time and delegates responsibilities to balance administrative/managerial, educational, and community leadership priorities.*~~

**Knowledge: The School Administrator:**

- ~~1. Understands the importance of prioritizing the use of school time to ensure that staff activities focus on improvement of student learning and school culture.~~
- ~~2. Understands the importance of prioritizing school time to ensure that student activities are focused on high leverage activities and school priority areas as delineated by the School Improvement Plan.~~
- ~~3. Applies project management to systems throughout the school and systematic monitoring and collaboration with stakeholders.~~
- ~~4. Understands the importance of clear and consistent processes and systems to manage change.~~
- ~~5. Understands the importance of school staff and other stakeholders adhering to established processes and procedures.~~

**Performance: The School Administrator:**

- ~~1. Demonstrates the ability to manage projects using lists of milestones and deadlines, and document the impact of change.~~
- ~~2. Demonstrates the ability to apply project management to systems and systematically monitor and collaborate with stakeholders.~~

~~*Standard 6: Transparency – The School Administrator seeks input from stakeholders and takes all perspectives into consideration when making decisions.*~~

**Knowledge: The School Administrator:**

- ~~1. Understands emerging issues and trends impacting families, school, and community.~~
- ~~2. Understands available resources in the community.~~
- ~~3. Understands the value of transparency regarding decision making and the allocation of resources.~~
- ~~4. Understands the importance of seeking input from stakeholders and takes all perspectives into consideration when making decisions.~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**Performance**

1. Provides rationale for decisions regarding the allocation of resources.
2. Develops a plan that solicits input from all stakeholders to create and sustain a culture of collaboration, trust, learning, and high expectation.

*Standard 7: Leadership Renewal – The School Administrator strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others.*

**Knowledge: The School Administrator:**

1. Understands the roles of leadership.
2. Understands the impact of education on personal and professional opportunities, social mobility, and a democratic society.
3. Understands the political, social, cultural, and economic systems and processes that support and impact education.
4. Understands effective models and strategies of leadership as applied to the larger political, social, cultural, and economic contexts of education.

**Performance: The School Administrator:**

1. Creates and implements an individual professional learning plan.
2. Enhances leadership skills through collaboration with colleagues and professional development.
3. Uses feedback, surveys, and evaluations that inform professional development and improve professional practice by consistently monitoring progress.
4. Communicates results of self-reflection after evaluating his/her own practice and consults with evaluator, adjusting accordingly.
5. Uses self-reflection and data that are aligned to school and district vision and/or needs to drive improvement in leadership skills, school culture, and student learning.

*Standard 8: Accountability – The School Administrator establishes high standards for professional, legal, ethical, and fiscal accountability.*

**Knowledge: The School Administrator:**

1. Understands operational policies and procedures.
2. Understands human resources management.
3. Understands sound fiscal operations principles and issues.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- ~~4. Understands facilities maintenance and principles regarding use of space and educational suitability.~~
- ~~5. Understands legal issues impacting personnel, management, and operations.~~
- ~~6. Understands ethical frameworks and perspectives.~~
- ~~7. Understands the Idaho Professional Code of Ethics and the Idaho Administrators Code of Conduct.~~
- ~~8. Understands policies and laws related to school and district.~~

**Performance: The School Administrator:**

- ~~1. Demonstrates the ability to create a site budget that allocates available fiscal, personnel, space, and material resources in an appropriate legal and equitable manner.~~
- ~~2. Demonstrates the ability to develop a budget that appropriately utilizes federal funds and grant allocations.~~

**Instructional Leadership**

~~An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. He or she provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program.~~

~~*Standard 9: Innovation — The School Administrator seeks and implements innovative and effective solutions that comply with general and special education law.*~~

**Knowledge: The School Administrator:**

- ~~1. Understands that each student can learn and that varied and data-informed learning goals are an important part of the process.~~
- ~~2. Understands the principles of effective instruction, differentiated instruction, learning theories, motivation strategies, and positive classroom management.~~
- ~~3. Understands student growth and development.~~
- ~~4. Understands adult learning and professional development.~~
- ~~5. Understands the change process for systems, organizations, and individuals.~~
- ~~6. Understands the essential role of technology in education.~~

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

**Performance: The School Administrator:**

1. Provides opportunities for staff to utilize research based strategies to refine curriculum implementation and encourage purposeful innovation.
2. Engages instructional staff in collaborative analysis to plan for continuous academic improvement.
3. Ensures innovation adheres to all local, state, and federal laws and policies and regulations.

*Standard 10: Instructional Vision – The School Administrator ensures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn the subject.*

**Knowledge: The School Administrator:**

1. Understands that each student can learn and that varied and data informed learning goals are an important part of the process.
2. Understands how to enhance the school culture and instructional programs through research, best practice, and curriculum design.
3. Understands the effective use of assessment and evaluation.
4. Understands how to develop, implement, and evaluate co-curricular and extracurricular programs that enhance student growth and character development.

**Performance: The School Administrator:**

1. Provides time, space, and opportunities for instruction.
2. Ensures instruction is aligned to adopted curriculum and Idaho content standards including provisions for time and resources.
3. Promotes an instructional vision that includes the process of curriculum alignment in collaboration with a systematic, continuous process to fully align the curriculum horizontally and vertically with the standards.
4. Creates an action plan for instructional improvement designed to increase student achievement.

*Standard 11: High Expectations – The School Administrator sets high expectation for all students academically, behaviorally, and in all aspects of student well-being.*

**Knowledge: The School Administrator:**

1. Understands the difference between, and the appropriate use of formative and summative assessments.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- ~~2. Understands the process for developing common formative benchmark assessments or rubrics.~~
- ~~3. Understands how to use data to guide student instruction and tiered intervention.~~
- ~~4. Understands how to identify at risk students.~~
- ~~5. Understands the laws and regulations associated with special student populations.~~
- ~~6. Understands the importance of collaboration and the critical role principals play in establishing high expectations for student learning.~~
- ~~7. Understands the role that frequent collaboration plays in analyzing student growth data to identify critical content achievement gaps.~~
- ~~8. Understands various intervention strategies to be implemented to close achievement gaps.~~
- ~~9. Understands multiple methods for monitoring and documenting instructional practices including behavioral supports.~~
- ~~10. Understands the importance of implementing a comprehensive approach to learning that integrates researched based practices to address the whole child.~~
- ~~11. Understands essential components in the development and implementation of individual education programs, adhering to state and federal regulations.~~

**Performance: The School Administrator:**

- ~~1. Uses data to guide instruction and develop/implement appropriate interventions and student improvement plans.~~
- ~~2. Has used observation and evaluation methods to supervise instructional personnel.~~
- ~~3. Conducts student response teams that integrate research based practices to address the whole child and also seeks advice of psychologists, nurses, social workers, learning disabilities and gifted and talented specialists, speech and language pathologists, and other experts who can help address student needs.~~

~~*Standard 12: Continuous Improvement of Instruction — The School Administrator uses teacher/administrator evaluation and other formative feedback mechanisms to continuously improve teacher/administrator effectiveness. The School Administrator also aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision.*~~

**Knowledge: The School Administrator:**

- ~~1. Understands that the evaluation process is used to improve instructional practice.~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- ~~2. Understands the use of multiple measures of student performance data to improve classroom instruction.~~
- ~~3. Understands the role of professional learning plans during the evaluation process, using self-reflection, student growth goals and formative and summative conversations at the beginning and ending of the year to improve teacher effectiveness.~~

**Performance: The School Administrator:**

- ~~1. Collaborates with staff and teachers to create individualized professional learning plans and encourages staff to incorporate reflective goal setting practices prior to the school year.~~
- ~~2. Collects formative assessment and student growth data during the course of the school year to inform summative evaluation and instructional goal setting.~~
- ~~3. Uses data to inform school wide professional development.~~

~~*Standard 13: Evaluation – The School Administrator demonstrates proficiency in assessing teacher performance based upon the Idaho adopted framework for teaching.*~~

**Knowledge: The School Administrator:**

- ~~1. Understands laws and policies governing staff evaluation.~~
- ~~2. Understands the Idaho adopted framework for teaching.~~
- ~~3. Understands differentiated tools for evaluation of all staff.~~
- ~~4. Understands effective instructional supervision, evaluation, and due process.~~

**Performance: The School Administrator:**

- ~~1. Assesses all staff performance with accuracy and consistency.~~
- ~~2. Creates processes to provide formative and summative evaluation feedback to staff and teachers, informing them of the effectiveness of their classroom instruction and ways to improve their instructional practices using data to inform professional development.~~

~~*Standard 14: Recruitment and Retention – The School Administrator recruits and maintains a high quality staff.*~~

**Knowledge: The School Administrator:**

- ~~1. Understands laws regarding highly qualified requirements for teachers.~~
- ~~2. Understands laws and policies governing hiring and retaining personnel.~~
- ~~3. Understands multiple interview strategies and techniques for hiring teachers.~~
- ~~4. Understands the process and research based practices of mentoring.~~

**Performance: The School Administrator:**

- ~~1. Demonstrates appropriate use of hiring procedures in accordance with accepted practices/policies.~~
- ~~2. Creates a model for an effective school environment where staff is valued, teams are supported, and achievements are consistently celebrated.~~
- ~~3. Creates a comprehensive mentoring or coaching program designed to provide systems where teachers are supported in an individualized mentoring or coaching program.~~

## Administrator Endorsements

### Idaho Standards for School Principals

All administrator candidates are expected to meet standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all administrator candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following standards and competencies for school principals were developed based on widely recognized standards and are grounded in the Professional Standards for Educational Leaders (PSEL) 2015, as adopted by the National Policy Board for Educational Administration. These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective school principals. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

*Standard 1: Mission, Vision, and Beliefs - Effective school principals develop, advocate, and enact a shared mission, vision, and beliefs of high-quality education and academic success, college and career readiness, and well-being of all students.*

#### Knowledge

1. The school principal understands how to develop an educational mission for the school to promote the academic success and well-being of all students.
2. The school principal understands the importance of developing a shared understanding of and commitment to mission, vision, and beliefs within the school and the community.
3. The school principal understands how to model and pursue the school’s mission, vision, and beliefs in all aspects of leadership.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**Performance**

1. The school principal participates in the process of using relevant data to develop and promote a vision for the school on the successful learning and development of all students.
2. The school principal articulates, advocates, and cultivates beliefs that define the school's culture and stress the imperative of child-centered education.
3. The school principal strategically develops and evaluates actions to achieve the vision for the school.
4. The school principal reviews the school's mission and vision and makes recommendations to adjust them to changing expectations and opportunities for the school, and changing needs and situations of students.

**Standard 2: Ethics and Professional Norms - Effective school principals act ethically and according to professional norms to promote all students' academic success and well-being.**

**Knowledge**

1. The school principal understands ethical frameworks and perspectives.
2. The school principal understands the Code of Ethics for Idaho Professional Educators.
3. The school principal understands policies and laws related to schools and districts.
4. The school principal understands how to act according to and promote the professional norms of integrity, fairness, transparency, trust, collaboration, perseverance, learning, and continuous improvement.
5. The school principal understands the importance of placing children at the center of education and accepting responsibility for each student's academic success and well-being.

**Performance**

1. The school principal acts ethically and professionally in personal conduct, relationships with others, decision-making, stewardship of the school's resources, and all aspects of school leadership.
2. The school principal leads with interpersonal and communication skills, social-emotional insight, and understanding of all students' and staff members' backgrounds and cultures.
3. The school principal models and promotes ethical and professional behavior among teachers and staff in accordance with the Code of Ethics for Idaho Professional Educators.

**Standard 3: Equity and Cultural Responsiveness – School principals strive for equity of educational opportunity and culturally responsive practices to promote all students' academic**

---

*success and well-being.*

**Knowledge**

1. The school principal understands how to recognize and respect all students' strengths, diversity, and culture as assets for teaching and learning.
2. The school principal understands the need for each student to have equitable access to effective teachers, learning opportunities, and academic and social support.
3. The school principal understands the importance of preparing students to live productively in and contribute to society.
4. The school principal understands how to address matters of equity and cultural responsiveness in all aspects of leadership.
5. The school principal understands how to ensure that all students are treated fairly, respectfully, and with an understanding of each student's culture and context.

**Performance**

1. The school principal develops processes that employ all students' strengths, diversity, and culture as assets for teaching and learning.
2. The school principal evaluates student policies that address student misconduct in a positive, fair, and unbiased manner.
3. The school principal acts with cultural competence and responsiveness in their interactions, decision making, and practice.

**Standard 4: Curriculum, Instruction, and Assessment - School principals develop and support intellectually rigorous and coherent systems of curriculum, instruction, and assessment to promote all students' academic success and well-being.**

**Knowledge**

1. The school principal understands how to implement and align coherent systems of curriculum, instruction, and assessment that promote the mission, vision, and beliefs of the school, embody high expectations for student learning, align with academic standards, and are culturally responsive.
2. The school principal understands how to promote instructional practice that is consistent with knowledge of learning and development, effective teaching, and the needs of each student.
3. The school principal understands the importance of instructional practice that is intellectually challenging, authentic to student experiences, recognizes student strengths, and is differentiated and personalized.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

4. The school principal understands how to utilize valid assessments that are consistent with knowledge of learning and development and technical standards of measurement.
5. The school principal understands how to ensure instruction is aligned to adopted curriculum and Idaho content standards including provisions for time and resources.

**Performance**

1. The school principal participates in aligning and focusing systems of curriculum, instruction, and assessment within and across grade levels and programs to promote student academic and career success.
2. The school principal uses and promotes the effective use of technology in the service of teaching and learning.
3. The school principal uses assessment data appropriately and effectively, and within technical limitations to monitor student progress and improve instruction.

**Standard 5: Community of Care and Support for Students - School principals cultivate an inclusive, caring, and supportive school community that promotes the academic success and well-being of all students.**

**Knowledge**

1. The school principal understands how to build and maintain a safe, caring, and healthy school environment that meets the academic, social, emotional, and physical needs of all students.
2. The school principal understands how to promote adult-student, peer-peer, and school-community relationships that value and support academic learning and positive social and emotional development.
3. The school principal understands the laws and regulations associated with special student populations.
4. The school principal understands various intervention strategies utilized to close achievement gaps.
5. The school principal understands essential components in the development and implementation of individual education programs, adhering to state and federal regulations.

**Performance**

1. The school principal participates in creating and sustaining a school environment in which each student is known, accepted and valued, trusted and respected, cared for, and encouraged to be an active and responsible member of the school community.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. The school principal assists in designing coherent, responsive systems of academic and social supports, services, extracurricular activities, and accommodations to meet the range of learning needs of each student.
3. The school principal cultivates and reinforces student engagement in school and positive student conduct.

**Standard 6: Professional Capacity of School Personnel - School principals develop the professional capacity and practice of school personnel to promote all students' academic success and well-being.**

**Knowledge**

1. The school principal understands how to recruit, hire, support, develop, and retain effective and caring teachers and staff.
2. The school principal understands how to plan for and manage staff turnover and succession, providing opportunities for effective induction and mentoring of new personnel.
3. The school principal understands how to develop the capacity, opportunities, and support for teacher leadership and leadership from other members of the school community.
4. The school principal understands the importance of the personal and professional health of teachers and staff.
5. The school principal understands the Idaho adopted framework for teaching.
6. The school principal understands how to create individualized professional learning plans and encourage staff to incorporate reflective goal setting practices at the beginning of the school year.
7. The school principal understands how to foster continuous improvement of individual and collective instructional capacity to achieve outcomes envisioned for all students.
8. The school principal understands how to empower and motivate teachers and staff to the highest levels of professional practice and to continuous learning and improvement.

**Performance**

1. The school principal assists in developing teachers' and staff members' professional knowledge, skills, and practice through differentiated opportunities for learning and growth, guided by understanding of professional and adult learning and development.
2. The school principal delivers actionable feedback about instruction and other professional practice through valid, research-anchored systems of supervision and evaluation to support the development of teachers' and staff members' knowledge, skills, and practice.
3. The school principal increases their professional learning and effectiveness through

**STATE DEPARTMENT OF EDUCATION

---

reflection, study, and improvement, maintaining a healthy work-life balance.

4. The school principal utilizes observation and evaluation methods to supervise instructional personnel.

***Standard 7: Professional Community for Teachers - School principals foster a professional community of teachers and other professional staff to promote all students' academic success and well-being.***

**Knowledge**

1. The school principal understands how to develop workplace conditions for teachers and other staff that promote effective professional development, practice, and student learning.
2. The school principal understands how to establish and sustain a professional culture of trust and open communication; collaboration, collective efficacy, and continuous individual and organizational learning and improvement.
3. The school principal understands how to promote mutual accountability among teachers and other staff for each student's success and the effectiveness of the school as a whole.
4. The school principal understands how to encourage staff-initiated improvement of programs and practices.

**Performance**

1. The school principal assists in developing and supporting open, productive, caring, and trusting working relationships among teachers and staff to promote professional capacity and the improvement of practice.
2. The school principal designs and implements job-embedded and other opportunities for professional learning collaboratively with teachers and staff.
3. The school principal assists with and critiques opportunities provided for collaborative examination of practice, collegial feedback, and collective learning.

***Standard 8: Meaningful Engagement of Families and Community – School principals engage families and the community in meaningful, reciprocal, and mutually beneficial ways to promote all students' academic success and well-being.***

**Knowledge**

1. The school principal understands how to create and sustain positive, collaborative, and productive relationships with families and the community for the benefit of students.
2. The school principal understands and values the community's cultural, social, and intellectual, resources to promote student learning and school improvement.
3. The school principal understands how to develop and provide the school as a resource for

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

families and the community.

4. The school principal understands the need to advocate for the school and district and for the importance of education, student needs, and priorities to families and the community.
5. The school principal understands how to build and sustain productive partnerships with the community to promote school improvement and student learning.
6. The school principal understands how to create means for the school community to partner with families to support student learning in and out of school.
7. The school principal understands how to employ the community's cultural, social, and intellectual resources to promote student learning and school improvement.

**Performance**

1. The school principal facilitates open two-way communication with families and the community about the school, students, needs, problems, and accomplishments.
2. The school principal demonstrates a presence in the community to understand its strengths and needs, develop productive relationships, and engage its resources for the school.
3. The school principal advocates publicly for the needs and priorities of students, families, and the school community.

**Standard 9: Operations and Management – School principals manage school operations and resources to promote all students' academic success and well-being.**

**Knowledge**

1. The school principal understands how to institute, manage, and monitor operations and administrative systems that promote the mission and vision of the school.
2. The school principal understands how to strategically manage staff resources, assigning and scheduling teachers and staff to roles and responsibilities that optimize their professional capacity to address all students' learning needs.
3. The school principal understands how to seek, acquire, and manage fiscal, physical, and other resources to support curriculum, instruction, and assessment; the student learning community; professional capacity and community; and family and community engagement.
4. The school principal understands the need to be responsible, ethical, and accountable stewards of the school's monetary and non-monetary resources, engaging in effective budgeting and accounting practices.
5. The school principal understands how to employ technology to improve the quality and efficiency of operations and management.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

6. The school principal understands how to comply and help the school community understand local, state, and federal laws, rights, policies, and regulations so as to promote student success.
7. The school principal understands governance processes and internal and external politics toward achieving the school's mission and vision
8. The school principal understands laws and policies regarding school safety and prevention by creating a detailed school safety plan, which addresses potential physical and emotional threats.
9. The school principal understands the value of transparency regarding decision making and the allocation of resources.
10. The school principal understands how to institute, manage, and monitor operations and administrative systems that promote the mission and vision of the school.
11. The school principal understands how to protect teachers' and other staff members' work and learning from disruption.
12. The school principal understands how to develop and manage relationships with feeder and connecting schools for enrollment management and curricular and instructional articulation.
13. The school principal understands how to develop and manage productive relationships with the district office and school board.
14. The school principal understands how to develop and administer systems for fair and equitable management of conflict among students, teachers and staff, leaders, families, and community.

**Performance**

1. The school principal assists in managing staff resources, assigning and scheduling teachers and staff to roles and responsibilities that optimize their professional capacity to address each student's learning needs.
2. The school principal assists in seeking, acquiring, and managing fiscal, physical, and other resources to support curriculum, instruction, and assessment; the student learning community; professional capacity and community; and family and community engagement.
3. The school principal utilizes technology to improve the quality and efficiency of operations and management.
4. The school principal assists in developing and maintaining data and communication systems to deliver actionable information for classroom and school improvement.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

5. The school principal complies with and helps the school community understand local, state, and federal laws, rights, policies, and regulations so as to promote student success.

**Standard 10: Continuous School Improvement – School principals act as agents of continuous school improvement to promote all students’ academic success and well-being.**

**Knowledge**

1. The school principal understands how to make school more effective for all students, teachers, staff, families, and the community.
2. The school principal understands methods of continuous improvement to achieve the vision, fulfill the mission, and promote the beliefs of the school.
3. The school principal understands change and change management processes.
4. The school principal understands a systems approach to promote coherence among improvement efforts and all aspects of school organization, programs, and services.
5. The school principal understands how to create and promote leadership among teachers and staff for inquiry, experimentation and innovation, and initiating and implementing improvement.
6. The school principal understands how to implement methods of continuous improvement to achieve the vision, fulfill the mission, and promote the beliefs of the school.
7. The school principal understands how to manage uncertainty, risk, competing initiatives, and politics of change.
8. The school principal understands how to assess and develop the capacity of staff to evaluate the value and applicability of emerging educational trends and the findings of research for the school and its improvement.
9. The school principal understands how to promote readiness, instill mutual commitment and accountability, and develop the knowledge, skills, and motivation to succeed in improvement.

**Performance**

1. The school principal participates in an ongoing process of evidence-based inquiry, learning, strategic goal setting, planning, implementation, and evaluation for continuous school and classroom improvement.
2. The school principal analyzes situationally-appropriate strategies for improvement, including transformational and incremental, adaptive approaches and attention to different phases of implementation.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

3. The school principal assists in developing appropriate systems of data collection, management, analysis, and use, connecting as needed to the district office and external partners for support in planning, implementation, monitoring, feedback, and evaluation.

## Idaho Standards for ~~School~~ Superintendents

All administrator candidates are expected to meet standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all administrator candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following standards and competencies for superintendents were developed based on widely recognized standards and are grounded in the Professional Standards for Educational Leaders (PSEL) 2015, as adopted by the National Policy Board for Educational Administration. These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective superintendents. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

In addition to the standards listed here, ~~school~~ superintendents must also meet the Idaho Foundation Standards for School Administrators Principals as they apply to the superintendency.

~~\*This language was written by a committee of content experts and has been adopted verb~~ **School Climate**

~~An educational leader promotes the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional development. An educational leader articulates and promotes high expectations for teaching and learning while responding to diverse community interest and needs.~~

### **Collaborative Leadership**

~~An educational leader promotes the success of all students by ensuring management of the organization, operations and resources for a safe, efficient and effective learning environment. In collaboration with others, uses appropriate data to establish rigorous, concrete goals in the context of student achievement and instructional programs. He or she uses research and/or best practices in improving the education program.~~

### **Instructional Leadership**

~~An educational leader promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. He or she provides leadership for major initiatives and change efforts and uses research and/or best practices in improving the education program.~~

~~*Standard 1: Superintendent Leadership – The superintendent is the catalyst and the advocate for an effective school community; demonstrates an enhanced knowledge, thorough understanding, and performance within all six standards listed in the Idaho Foundation Standards for School Administrators; and is prepared to lead a school system with increasing organizational complexity.*~~

### **Knowledge**

- ~~1. The special education director knows about curriculum, instruction, school activities, and environments to increase program accessibility for students with special needs.~~
- ~~2. The special education director understands the special education processes and procedures required by federal and state laws and regulations and by school district policies.~~
- ~~3. The special education director understands how to manage workflow and access resources to meet the needs of staff, students, and parents.~~
- ~~4. The special education director understands the use of technology in referral processes, IEP Individual Education Plan development, and records management.~~

### **Performance**

- ~~1. The special education director advocates for and implements curriculum, instruction, activities, and school environments that are accessible to special populations.~~
- ~~2. The special education director implements the special education processes and procedures required by federal, state and school district policies.~~
- ~~3. The special education director advocates for, seeks, and directs resources to meet staff, student and parent needs.~~

~~Standard 6: Transparency – The administrator seeks input from stakeholders and takes all perspectives into consideration when making decisions.~~

~~Standard 7: Leadership Renewal – The administrator strives to continuously improve leadership skills through, professional development, self-reflection, and utilization of input from others.~~

~~Standard 8: Accountability – The administrator establishes high standards for professional, legal, ethical, and fiscal accountability.~~

~~Standard 9: Innovation – The administrator seeks and implements innovative and effective~~

~~*solutions that comply with general and special education law.*~~

~~*Standard 10: Instructional Vision – The administrator ensures that instruction is guided by a shared, research-based instructional vision that articulates what students do to effectively learn the subject.*~~

**Knowledge**

- ~~1. The special education director understands the concept and best practices of least restrictive environment.~~
- ~~2. The special education director understands the importance of post-school outcomes and articulates a full range of services and supports for students with disabilities ages three to twenty one to maximize their potential.~~
- ~~3. The special education director understands the importance of collaboration to provide general education targeted interventions.~~

**Performance**

- ~~1. The special education director collaborates with community, staff, and students to explain and implement the concepts and goals of best practice in the least restrictive environment.~~
- ~~2. The special education director engages in district planning processes that cultivate a shared vision for meeting the needs of all learners.~~

~~*Standard 11: High Expectations – The administrator sets high expectation for all students academically, behaviorally, and in all aspects of student well-being.*~~

~~*Standard 12: Continuous Improvement of Instruction – The administrator uses teacher/administrator evaluation and other formative feedback mechanisms to continuously improve teacher/administrator effectiveness. The administrator aligns resources, policies, and procedures toward continuous improvement of instructional practice guided by the instructional vision.*~~

**Knowledge**

- ~~1. The special education director knows instructional and behavioral strategies for meeting the needs of special populations.~~
- ~~2. The special education director knows how to plan, write, implement, and access Individual Education Programs.~~
- ~~3. The special education director understands the role of assistive and adaptive technology and related services in instruction.~~
- ~~4. The special education director understands community based instruction and experiences for students.~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

~~5. The special education director understands how to use data to determine instructional needs and to develop professional training to meet those needs.~~

~~6. The special education director understands statewide assessment policies.~~

**Performance**

~~1. The special education director serves as a resource for staff and administration concerning instructional and behavioral strategies for meeting the needs of special populations as well as allocating appropriate resources.~~

~~2. The special education director ensures that data is used to provide appropriate individualized educational programs and supports, and develops and implements services in school and community environments.~~

~~3. The special education director ensures the fulfillment of federal and state requirements related to the instruction and assessment of special populations.~~

~~*Standard 13: Evaluation – The administrator demonstrates proficiency in assessing teacher performance based upon the Idaho adopted framework for teaching.*~~

~~*Standard 14: Recruitment and Retention – The administrator recruits and maintains a high quality staff.*~~

~~*Standard 1: Mission, Vision, and Beliefs - Effective special education directors develop, advocate, and enact a shared mission, vision, and beliefs of high-quality education and academic success, college and career readiness, and well-being of all students.*~~

**Knowledge**

~~1. The special education director understands the importance of the district’s mission and vision to promote academic success and well-being of all students.~~

~~2. The special education director understands the beliefs of the teaching profession that promote high-expectation and student support; equity, inclusiveness, and equal access; openness, caring, and trust; and continuous improvement.~~

~~3. The special education director understands the importance of leading with the district’s mission, vision and beliefs.~~

**Performance**

~~1. The special education director evaluates and assesses the mission of the district to ensure it promotes the academic success and well-being of all students.~~

~~2. The special education director, in collaboration with members of the district and the community, use relevant data to develop and promote a vision for the district on the successful learning and development of all children and on instructional and organizational practices that promote such success.~~

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

3. The special education director articulates, advocates, and cultivates beliefs that define the district's culture and stress the imperative of child-centered education; high expectations and student support; equity, inclusiveness, and equal access; openness, caring, and trust; and continuous improvement.
4. The special education director reviews the district's mission and vision and adjusts them to changing expectations and opportunities for the district, and changing needs and situations of all students.
5. The special education director develops shared understanding of and commitment to the mission, vision, and beliefs within the district and the community.
6. The special education director models and pursues the district's mission, vision, and beliefs in all aspects of leadership.

**Standard 2: Ethics and Professional Norms - Effective special education directors act ethically and according to professional norms to promote all students' academic success and well-being.**

**Knowledge**

1. The special education director understands the Code of Ethics for Idaho Professional Educators and its importance to all student success and well-being.

**Performance**

1. The special education director acts ethically and professionally in personal conduct, relationships with others, decision-making, stewardship of the district's resources, and all aspects of district leadership.
2. The special education director places children at the center of education and accepts responsibility for all students' general and special education academic success and well-being.
3. The special education director safeguards and promotes individual freedom and responsibility, equity, equal access, community, and diversity.
4. The special education director provides direction for ethical and professional behavior among principals, teachers, and staff.

**Standard 3: Equity and Cultural Responsiveness – Special education directors strive for equity of educational opportunity and culturally responsive practices to promote all students' academic success and well-being.**

**Knowledge**

1. The special education director understands the importance of student's equitable access to effective teaching, equal opportunities for academic, social supports, and resources to be successful.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

2. The special education director understands leadership roles when addressing equity and cultural responsiveness to assure district policies and procedures are positive, fair, and unbiased.

**Performance**

1. The special education director develops district policies to address student misconduct in a positive, fair, and unbiased manner.
2. The special education director monitors and addresses institutional biases of student marginalization and low expectations associated with race, class, culture and language, and disability or special status.
3. The special education director address matters of equity and cultural responsiveness in all aspects of leadership.

**Standard 4: Curriculum, Instruction, and Assessment - Special education directors develop and support intellectually rigorous and coherent systems of curriculum, instruction, and assessment to promote all students' academic success and well-being.**

**Knowledge**

1. The special education director understands the multi-tiered level of support system of curriculum, instruction, assessment, and technology that embodies high expectation for all students' learning, which is aligned with academic and behavior standards, and is culturally responsive.
2. The special education director understands child learning and development, effective teaching, and data utilization to increase student academic success.
3. The special education director understands the importance of assessment and the different types of assessment that drive instruction.

**Performance**

1. The special education director aligns and focuses systems of curriculum, instruction, and assessment within and across grade levels, including post-secondary outcomes, to promote all students' academic and career success.
2. The special education director promotes instructional practice that is consistent with knowledge of child learning and development, effective pedagogy, and the needs of all students.
3. The special education director ensures instructional practice that is intellectually challenging, authentic to all student experiences, recognizes student strengths, and is differentiated and personalized.

**Standard 5: Community of Care and Support for Students - Special education directors**

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

*cultivate an inclusive, caring, and supportive district community that promotes the academic success and well-being of all students.*

**Knowledge**

1. The special education director knows how to create a safe, caring, and healthy district environment that includes all students as members of the district's community that promotes positive learning environments.
2. The special education director knows how to create an environment of strong engagement and positive conduct to meet the learning needs of all students.

**Performance**

1. The special education director promotes adult-student, peer-peer, school, and district-community relationships that value and support academic learning and positive social and emotional development.
2. The special education director infuses the district's learning environment with the cultures and languages of the district's community.

*Standard 6: Professional Capacity of District and School Personnel - Special education directors develop the professional capacity and practice of district personnel to promote each student's academic success and well-being.*

**Knowledge**

1. The special education director understands educational employment trends and how they impact the district's ability to recruit, hire, support, develop, and retain effective and caring teachers and other professional staff.
2. The special education director knows the importance of on-going professional development to ensure opportunities for personal learning and growth, self-reflection, study, and improvement, maintaining a healthy work-life balance.

**Performance**

1. The special education director fosters continuous improvement of individual and collective instructional capacity to achieve outcomes envisioned for each student.
2. The special education director develops the capacity, opportunities, and support for special education teacher leadership and leadership from other members of the district community.
3. The special education director promotes the personal and professional health, well-being, and work-life balance of special education staff.

*Standard 7: Professional Community for Teachers - Special education directors foster a professional community of teachers and other professional staff to promote each student's academic success and well-being.*

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

**Knowledge**

1. The special education director understands the importance of educating the whole child; high expectations for professional work; ethical and equitable practice; trust and open communication; collaboration, collective efficacy, and continuous individual and organizational learning and improvement.
2. The special education director knows how to promote mutual accountability between special and general education to facilitate all students' educational success pursuant to the mission, vision, and beliefs of the district.

**Performance**

1. The special education director develops workplace conditions for special and general education staff that promote effective professional development, practice, and student learning.
2. The special education director empowers and entrusts special and general education staff with collective responsibility for meeting the academic, social, emotional, and physical needs of each student, pursuant to the mission, vision, and beliefs of the district.
3. The special education director promotes mutual accountability among special and general education staff for each student's success and the effectiveness of the district as a whole.
4. The special education director develops and supports open, productive, caring, and trusting working relationships among district and school leaders, teachers, and staff to promote professional capacity and the improvement of practice.
5. The special education director designs and implements job-embedded and other opportunities for professional learning collaboratively with district and school staff.
6. The special education director encourages special and general education staff-initiated improvement of programs and practices.

**Standard 8: Meaningful Engagement of Families and Community – Special education directors engage families and the community in meaningful, reciprocal, and mutually beneficial ways to promote each student's academic success and well-being.**

**Knowledge**

1. The special education director understands how to facilitate open effective communication with families and communities to promote student learning and achievements.
2. The special education director understands how to motivate and engage families and communities as partners in increasing student growth, as measured by post-secondary success.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

**Performance**

1. The special education director is approachable, accessible, and welcoming to families and members of the community.
2. The special education director creates and sustains positive, collaborative, and productive relationships with families and the community for the benefit of all students.
3. The special education director engages in regular and open two-way communication with families and the community about the district, schools, students, needs, problems, and accomplishments.
4. The special education director creates means for the district community to partner with families to support student learning in and out of district.
5. The special education director understands, values, and employs the community's cultural, social, and intellectual resources to promote student learning and district improvement.
6. The special education director develops and provides the district as a resource for families and the community.
7. The special education director advocates for the district, the importance of education and student needs, priorities to families, and the community.
8. The special education director advocates publicly for the needs and priorities of students, families, and the community.
9. The special education director builds and sustains productive partnerships with public and private sectors to promote district improvement and student learning.

**Standard 9: Operations and Management – Special education directors manage district operations and resources to promote all students' academic success and well-being.**

**Knowledge**

1. The special education director knows sources of funding (e.g., IDEA, General Funds, Medicaid) and how to create and implement budgetary systems aligned with the district's mission and vision.
2. The special education director knows how to allocate and account for district's monetary and non-monetary resources to assure each student's needs are met.

**Performance**

1. The special education director institutes, manages, and monitors operations and administrative systems that promote the mission and vision of the district.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. The special education director strategically manages staff resources, assigning and scheduling special education staff to roles and responsibilities that optimize their professional capacity to address each student's learning needs.
3. The special education director is a responsible, ethical, and accountable steward of the district's monetary and non-monetary resources, engaging in effective budgeting and accounting practices.
4. The special education director develops and maintains data and communication systems to deliver actionable information for classroom, school, and district improvement.
5. The special education director knows, complies with, and helps the district community understand local, state, and federal laws, rights, policies, and regulations so as to promote student success.
6. The special education director develops and administers systems for fair and equitable management of conflict among students, school and district staff, leaders, families, and community.
7. The special education director manages governance processes and internal and external politics toward achieving the district's mission and vision.

**Standard 10: Continuous School and District Improvement - Special education directors act as agents of continuous school and district improvement to promote each student's academic success and well-being.**

**Knowledge**

1. The special education director understands continuous improvement to engage in evidence based planning, implementation, and educational trends to improve outcomes for all students.
2. The special education director knows how to make schools within the district more effective for all students, teachers, staff, families, and the community.

**Performance**

1. The special education director uses methods of continuous improvement to achieve the vision, fulfill the mission, and promote the beliefs of the district.
2. The special education director assesses and develops the capacity of staff to gauge the value and applicability of emerging special education trends and the findings of research for the district and its improvement.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

3. The special education director adopts a systems perspective and promotes coherence among improvement efforts and all aspects of district organization, programs, and services.
  
4. The special education director manages uncertainty, risk, competing initiatives, and the politics of change with courage and perseverance, providing support and encouragement, and openly communicating the need for, process for, and outcomes of improvement efforts.

## Pupil Personnel Services Endorsements

### Idaho Standards for Audiology

All audiology candidates are expected to meet standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all audiology candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following standards and competencies for audiologists were adopted from the Council For Clinical Certification in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association. (2012 Standards for the Certificate of Clinical Competence in Audiology. Retrieved 1/6/17 from <http://www.asha.org/Certification/2012-Audiology-Certification-Standards/>.) These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective audiologists. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

**Standard I: Degree – Applicants for certification must have a doctoral degree. The course of study must address the knowledge and skills necessary to independently practice in the profession of audiology.**

Implementation: Verification of the graduate degree is required of the applicant before the certificate is awarded. Degree verification is accomplished by submitting (a) an application signed by the director of the graduate program, indicating the degree date, and (b) an official transcript showing that the degree has been awarded, or a letter from the university registrar verifying completion of requirements for the degree.

Individuals educated outside the United States or its territories must submit official transcripts and evaluations of their degrees and courses to verify equivalency. These evaluations are typically conducted by credential evaluation services agencies recognized by the National Association of Credential Evaluation Services (NACES). Information that must be provided is (a) confirmation that the degree earned is equivalent to a U.S. doctoral degree, (b) translation of academic coursework into the American semester hour system, and (c) indication as to which courses were completed at the graduate level.

The CFCC has the authority to determine eligibility of all applicants for certification.

**Standard II: Education Program – The graduate degree must be granted by a program accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA).**

Implementation: Applicants whose graduate degree was awarded by a U.S. institution of higher education must have graduated from a program holding CAA accreditation in audiology.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

Satisfactory completion of academic course work, clinical practicum, and knowledge and skills requirements must be verified by the signature of the program director or official designee of a CAA-accredited program or a program admitted to CAA candidacy.

**Standard III: Program of Study – Applicants for certification must complete a program of study that includes academic course work and a minimum of 1,820 hours of supervised clinical practicum sufficient in depth and breadth to achieve the knowledge and skills outcomes stipulated in Standard IV. The supervision must be provided by individuals who hold the ASHA Certificate of Clinical Competence (CCC) in Audiology.**

Implementation: The program of study must address the knowledge and skills pertinent to the field of audiology. Clinical practicum must be approved by the academic program from which the student intends to graduate. The student must maintain documentation of time spent in supervised practicum, verified by the academic program in accordance with Standard IV.

Students shall participate in practicum only after they have had sufficient preparation to qualify for such experience. Students must obtain a variety of clinical practicum experiences in different work settings and with different populations so that they can demonstrate skills across the scope of practice in audiology. Acceptable clinical practicum experience includes clinical and administrative activities directly related to patient care. Clinical practicum is defined as direct patient/client contact, consultation, record keeping, and administrative duties relevant to audiology service delivery. Time spent in clinical practicum experiences should occur throughout the graduate program.

Supervision must be sufficient to ensure the welfare of the patient and the student in accordance with the ASHA Code of Ethics. Supervision of clinical practicum must include direct observation, guidance, and feedback to permit the student to monitor, evaluate, and improve performance and to develop clinical competence. The amount of supervision must also be appropriate to the student's level of training, education, experience, and competence.

Supervisors must hold a current ASHA CCC in the appropriate area of practice. The supervised activities must be within the scope of practice of audiology to count toward certification.

**Standard IV: Knowledge and Skills Outcomes – Applicants for certification must have acquired knowledge and developed skills in six areas: foundations of practice, prevention/identification, assessment, (re)habilitation, advocacy/consultation, and education/research/administration.**

Implementation: This standard distinguishes between acquisition of knowledge for Standards IV-A.1–21 and IV-C.1, and the acquisition of knowledge and skills for Standards IV-A.22–29, IV-B, IV-C.2–11, IV-D, IV-E, and IV-F. The applicant must submit a completed application for certification signed by the academic program director verifying successful completion of all knowledge and skills in all six areas of Standard IV. The applicant must maintain copies of transcripts, and documentation of academic course work and clinical practicum.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

**Standard IV-A: Foundations of Practice – The applicant must have knowledge of:**

- A1. Embryology and development of the auditory and vestibular systems, anatomy and physiology, neuroanatomy and neurophysiology, and pathophysiology
  - A2. Genetics and associated syndromes related to hearing and balance
  - A3. Normal aspects of auditory physiology and behavior over the life span
  - A4. Normal development of speech and language
  - A5. Language and speech characteristics and their development across the life span
  - A6. Phonologic, morphologic, syntactic, and pragmatic aspects of human communication associated with hearing impairment
  - A7. Effects of hearing loss on communication and educational, vocational, social, and psychological functioning
  - A8. Effects of pharmacologic and teratogenic agents on the auditory and vestibular systems
  - A9. Patient characteristics (e.g., age, demographics, cultural and linguistic diversity, medical history and status, cognitive status, and physical and sensory abilities) and how they relate to clinical services
  - A10. Pathologies related to hearing and balance and their medical diagnosis and treatment
  - A11. Principles, methods, and applications of psychometrics
  - A12. Principles, methods, and applications of psychoacoustics
  - A13. Instrumentation and bioelectrical hazards
  - A14. Physical characteristics and measurement of electric and other nonacoustic stimuli
  - A15. Assistive technology
  - A16. Effects of cultural diversity and family systems on professional practice
  - A17. American Sign Language and other visual communication systems
  - A18. Principles and practices of research, including experimental design, statistical methods, and application to clinical populations
  - A19. Legal and ethical practices (e.g., standards for professional conduct, patient rights, credentialing, and legislative and regulatory mandates)
  - A20. Health care and educational delivery systems
  - A21. Universal precautions and infectious/contagious diseases
- The applicant must have knowledge and skills in:
- A22. Oral and written forms of communication
  - A23. Principles, methods, and applications of acoustics (e.g., basic parameters of sound, principles of acoustics as related to speech sounds, sound/noise measurement and analysis, and calibration of audiometric equipment), as applicable to:
    - a. occupational and industrial environments
    - b. community noise
    - c. classroom and other educational environments
    - d. workplace environments
  - A24. The use of instrumentation according to manufacturer's specifications and recommendations
  - A25. Determining whether instrumentation is in calibration according to accepted standards
  - A26. Principles and applications of counseling
  - A27. Use of interpreters and translators for both spoken and visual communication
  - A28. Management and business practices, including but not limited to cost analysis,

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

budgeting, coding and reimbursement, and patient management

A29. Consultation with professionals in related and/or allied service areas

**Standard IV-B: Prevention and Identification – The applicant must have the knowledge and skills necessary to:**

B1. Implement activities that prevent and identify dysfunction in hearing and communication, balance, and other auditory-related systems

B2. Promote hearing wellness, as well as the prevention of hearing loss and protection of hearing function by designing, implementing, and coordinating universal newborn hearing screening, school screening, community hearing, and occupational conservation and identification programs

B3. Screen individuals for hearing impairment and disability/handicap using clinically appropriate, culturally sensitive, and age- and site-specific screening measures

B4. Screen individuals for speech and language impairments and other factors affecting communication function using clinically appropriate, culturally sensitive, and age- and site-specific screening measures

B5. Educate individuals on potential causes and effects of vestibular loss

B6. Identify individuals at risk for balance problems and falls who require further vestibular assessment and/or treatment or referral for other professional services

**Standard IV-C: Assessment – The applicant must have knowledge of:**

C1. Measuring and interpreting sensory and motor evoked potentials, electromyography, and other electrodiagnostic tests for purposes of neurophysiologic intraoperative monitoring and cranial nerve assessment

The applicant must have knowledge and skills in:

C2. Assessing individuals with suspected disorders of hearing, communication, balance, and related systems

C3. Evaluating information from appropriate sources and obtaining a case history to facilitate assessment planning

C4. Performing otoscopy for appropriate audiological assessment/management decisions, determining the need for cerumen removal, and providing a basis for medical referral

C5. Conducting and interpreting behavioral and/or electrophysiologic methods to assess hearing thresholds and auditory neural function

C6. Conducting and interpreting behavioral and/or electrophysiologic methods to assess balance and related systems

C7. Conducting and interpreting otoacoustic emissions and acoustic immittance (reflexes)

C8. Evaluating auditory-related processing disorders

C9. Evaluating functional use of hearing

C10. Preparing a report, including interpreting data, summarizing findings, generating recommendations, and developing an audiological treatment/management plan

C11. Referring to other professions, agencies, and/or consumer organizations

**Standard IV-D: Intervention (Treatment) – The applicant must have knowledge and skills in:**

D1. The provision of intervention services (treatment) to individuals with hearing loss, balance disorders, and other auditory dysfunction that compromises receptive and expressive communication

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

D2. Development of a culturally appropriate, audiologic rehabilitative management plan that includes, when appropriate, the following:

- a. Evaluation, selection, verification, validation, and dispensing of hearing aids, sensory aids, hearing assistive devices, alerting systems, and captioning devices, and educating the consumer and family/caregivers in the use of and adjustment to such technology
- b. Determination of candidacy of persons with hearing loss for cochlear implants and other implantable sensory devices and provision of fitting, mapping, and audiologic rehabilitation to optimize device use
- c. Counseling relating to psychosocial aspects of hearing loss and other auditory dysfunction, and processes to enhance communication competence
- d. Provision of comprehensive audiologic treatment for persons with hearing loss or other auditory dysfunction, including but not exclusive to communication strategies, auditory training, speech reading, and visual communication systems

D3. Determination of candidacy for vestibular and balance rehabilitation therapy to persons with vestibular and balance impairments

D4. Treatment and audiologic management of tinnitus

D5. Provision of treatment services for infants and children with hearing loss; collaboration/consultation with early interventionists, school based professionals, and other service providers regarding development of intervention plans (i.e., individualized education programs and/or individualized family service plans)

D6. Management of the selection, purchase, installation, and evaluation of large-area amplification systems

D7. Evaluation of the efficacy of intervention (treatment) services

***Standard IV-E: Advocacy/Consultation – The applicant must have knowledge and skills in:***

E1. Educating and advocating for communication needs of all individuals that may include advocating for the programmatic needs, rights, and funding of services for those with hearing loss, other auditory dysfunction, or vestibular disorders

E2. Consulting about accessibility for persons with hearing loss and other auditory dysfunction in public and private buildings, programs, and services

E3. Identifying underserved populations and promoting access to care

***Standard IV-F: Education/Research/Administration – The applicant must have knowledge and skills in:***

F1. Measuring functional outcomes, consumer satisfaction, efficacy, effectiveness, and efficiency of practices and programs to maintain and improve the quality of audiologic services

F2. Applying research findings in the provision of patient care (evidence-based practice)

F3. Critically evaluating and appropriately implementing new techniques and technologies supported by research-based evidence

F4. Administering clinical programs and providing supervision of professionals as well as support personnel

F5. Identifying internal programmatic needs and developing new programs

F6. Maintaining or establishing links with external programs, including but not limited to education programs, government programs, and philanthropic agencies

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

*Standard V: Assessment – Applicants for certification must demonstrate successful achievement of the knowledge and skills delineated in Standard IV by means of both formative and summative assessments.*

*Standard V-A: Formative Assessment – The applicant must meet the education program’s requirements for demonstrating satisfactory performance through ongoing formative assessment of knowledge and skills.*

Implementation: Applicants and program faculties should use the ongoing assessment to help the applicant achieve requisite knowledge and skills. Thus, assessments should be followed by implementation strategies for acquisition of knowledge and skills.

*Standard V-B: Summative Assessment – The applicant must pass the national examination adopted by ASHA for purposes of certification in audiology.*

Implementation: Results of the Praxis Examination in Audiology must be submitted directly to ASHA from ETS. The certification standards require that a passing exam score must be earned no earlier than 5 years prior to the submission of the application and no later than 2 years following receipt of the application. If the exam is not successfully passed and reported within the 2-year application period, the applicant's certification file will be closed. If the exam is passed or reported at a later date, the individual will be required to reapply for certification under the standards in effect at that time.

*Standard VI: Maintenance of Certification – Demonstration of continued professional development is mandated for maintenance of the Certificate of Clinical Competence (CCC) in Audiology. The renewal period will be three (3) years. This standard will apply to all certificate holders, regardless of the date of initial certification.*

Implementation: Once certification is awarded, maintenance of that certification is dependent upon accumulation of the requisite professional development hours every three years. Payment of annual dues and/or certification fees is also a requirement of certification maintenance. A certificate holder whose dues and/or fees are in arrears on August 31, will have allowed their certification to expire on that date.

Individuals who hold the CCC in Audiology must accumulate 30 contact hours of professional development over the 3-year period and must submit a compliance form in order to meet this standard. Individuals will be subject to random review of their professional development activities.

If certification maintenance requirements are not met, certification will lapse. Reinstatement of certification will be required, and certification reinstatement standards in effect at the time of submission of the reinstatement application must be met.

## Idaho Standards for School Counselors

The purpose of the standards for school counselors is to promote, enhance, and maximize the learning process. To that end, the school counselor standards facilitate school counselor performance in three broad domains: Academic Development, Career Development, and Personal/Social Development. The domains follow the 2012 American School Counselor Association (ASCA) model and are embedded within each standard as described below. All school counselor candidates are expected to meet the Idaho Standards for School Counselors as endorsed by their institution. Additionally, all school counselor candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following knowledge and performance statements for the School Counselors Standards are widely recognized, though not all-encompassing or absolute, indicators that School Counselors have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of preparation programs to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

***Standard 1: School Counseling Programs - School counselors should possess the knowledge, abilities, skills and attitudes necessary to plan, organize, implement and evaluate a comprehensive, developmental, results-based school counseling program.***

**Knowledge** - School counselors should articulate and demonstrate an understanding of:

1. The organizational structure and governance of the American educational system, as well as cultural, political and social influences on current educational practices.
2. The organizational structure and components of an effective school counseling program.
3. Barriers to student learning and use of advocacy and data-driven school counseling practices.
4. Leadership principles and theories.
5. Individual counseling, group counseling and classroom instruction.
6. Collaborations with stakeholders such as parents and guardians, teachers, administrators and community leaders.
7. Principles of school counseling, including prevention, intervention, wellness, education, multiculturalism, and advocacy.
8. Assessments relevant to K-12 education.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

**Performance** - An effective school counselor is able to accomplish measurable objectives demonstrating the following:

1. Planning, organizing, implementing and evaluating a school counseling program.
2. Applying the school counseling themes of leadership, advocacy, collaboration and systemic change.
3. Using technology effectively and efficiently to plan, organize, implement and evaluate the comprehensive school counseling program.
4. Multicultural, ethical and professional competencies.
5. Identification and expression of professional and personal qualities and skills of effective leaders.
6. Advocacy for student success.
7. Collaboration with parents, teachers, administrators, community leaders and other stakeholders to promote and support student success.

***Standard 2: Foundations - School counselors should possess the knowledge, abilities, skills and attitudes necessary to establish the foundations of a school counseling program.***

**Knowledge** - School counselors should articulate and demonstrate an understanding of:

1. Beliefs and vision of the school counseling program that align with current school improvement and student success initiatives at the school, district and state level.
2. Educational systems, philosophies and theories, and current trends in education, including federal and state legislation.
3. Learning theories.
4. History and purpose of school counseling, including traditional and transformed roles of school counselors.
5. Human development theories and developmental issues affecting student success.
6. District, state, and national student standards and competencies.
7. Legal and ethical standards and principles of the school counseling profession and educational systems, including state, district and building policies.
8. The three domains of academic achievement, career planning and personal/social development.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

**Performance** - An effective school counselor is able to accomplish measurable objectives demonstrating the following:

1. Development of the beliefs, vision, and mission of the school counseling program that align with current school improvement and student success initiatives at the school, district and state level.
2. The use of student standards, such as district, state, or national standards, to drive the implementation of a comprehensive school counseling program.
3. Application of the ethical standards and principles of the school counseling profession and adhering to the legal aspects of the role of the school counselor and the Code of Ethics for Idaho Professional Educators.
4. Responsible advocacy for school board policy, as well as local, state and federal statutory requirements in students' best interests.
5. Practices within the ethical and statutory limits of confidentiality.

***Standard 3: Management - School counselors should possess the knowledge, abilities, skills and attitudes necessary to manage a school counseling program.***

**Knowledge** - School counselors should articulate and demonstrate an understanding of:

1. Leadership principles, including sources of power and authority, and formal and informal leadership.
2. Organization theory to facilitate advocacy, collaboration and systemic change.
3. Presentation skills for programs such as teacher in-services, parent workshops and presentation of results reports to school boards.
4. Time management, including long- and short-term management, using tools such as schedules and calendars.
5. Data-driven decision making.
6. Current and emerging technologies such as use of the Internet, Web-based resources and information management systems.

**Performance** - An effective school counselor is able to accomplish measurable objectives demonstrating the following:

1. Self-evaluation of his/her own competencies in order to formulate an appropriate professional development plan.
2. The ability to access or collect relevant data to monitor and improve student behavior and achievement.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

3. The capability to create calendars to ensure the effective implementation of the school counseling program.
4. Coordination of activities that establish, maintain and enhance the school counseling program.

***Standard 4: Delivery - School counselors should possess the knowledge, abilities, skills and attitudes necessary to deliver a school counseling program.***

**Knowledge** - School counselors should articulate and demonstrate an understanding of:

1. The distinction between direct and indirect student services.
2. Counseling theories and techniques in different settings, such as individual planning, group counseling and classroom lessons.
3. Classroom management.
4. Principles of career and post-secondary planning.
5. Principles of working with various student populations based on characteristics, such as ethnic and racial background, English language proficiency, special needs (IEP and 504 Plans), religion, gender and income.
6. Responsive services (counseling and crisis response) including grief and bereavement.
7. How diagnoses and/or medication affects the personal, social, and academic functioning of students.

**Performance** - An effective school counselor is able to accomplish measurable objectives demonstrating the following:

1. Creation and presentation of a developmental school counseling curriculum addressing all students' needs based on student data.
2. Classroom management and instructional skills.
3. Encouragement of staff involvement to ensure the effective implementation of the school counseling curriculum.
4. The ability to build effective, high-quality student support programs.
5. Development of strategies to implement individual student planning, which may include strategies for appraisal, advisement, goal-setting, decision-making, social skills, transition or post-secondary planning.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

6. The capability to provide responsive services, such as individual/small-group counseling and crisis response.
7. Participation as member of the crisis team providing assistance to the school and community in a crisis.
8. Development of a list of community agencies and service providers for student referrals and understanding how to make referrals to appropriate professionals when necessary.
9. Partnerships with parents, teachers, administrators and education stakeholders for student achievement and success.
10. The ability to conduct in-service training or workshops for other stakeholders to share school counseling expertise.
11. Understanding and knowledge regarding how to provide supervision for school counseling interns consistent with the principles.
12. Skills to critically examine the connections between social, familial, emotional, and behavioral problems and academic achievement.

## Idaho Standards for School Nurses

The following knowledge and performance statements for the School Nurse Standards are widely recognized, but not all-encompassing or absolute, indicators that school nurse candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a school nurse preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards. Additionally, all school nurse candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

An important component of the school nursing profession is a candidate's disposition. Professional dispositions are how the School Nurse candidate views their profession, their content area, and/or students and their health and learning. Every School Nurse preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Nurse candidate dispositions.

*\* This language was written by a committee of content experts and has been adopted verbatim.*

***Standard 1: Quality Assurance - The school nurse understands how to systematically evaluate the quality and effectiveness of school nursing practice.***

### **Knowledge**

1. The school nurse understands the professional, state, and local policies, procedures, and practice guidelines that impact the effectiveness of school nursing practice within the school setting.
2. The school nurse understands that school nursing practice must fall within the boundaries of scope of practice as defined by the Idaho Board of Nursing.
3. The school nurse understands how to access research and interpret data applicable to the school setting.

### **Performance**

1. The school nurse conducts ongoing evaluations of school nursing practice.
2. The school nurse identifies the policies, procedures, and practice guidelines applicable to school nursing practice.
3. The school nurse uses research and data to monitor quality and effectiveness of school nursing practice.

***Standard 2: Professional Development - The school nurse is a reflective practitioner who improves clinical skills through continual self-evaluation and ongoing education.***

**Knowledge**

1. The school nurse understands how to improve knowledge and competency in school nursing practice.
2. The school nurse knows how to self-assess professional nursing practice.
3. The school nurse knows how to access professional resources that support school nursing practice.
4. The school nurse knows about the professional organizations that support the nursing practice.

**Performance**

1. The school nurse participates in professional development related to current clinical knowledge and professional issues.
2. The school nurse seeks and acts on constructive feedback regarding professional development.
3. The school nurse pursues professional development as related to professional and program goals.

***Standard 3: Communication - The school nurse is skilled in a variety of communication techniques (i.e., verbal and nonverbal).***

**Knowledge**

1. The school nurse understands the importance of effective communication with school staff, families, students, the community, and other service providers.
2. The school nurse understands problem solving and counseling techniques and crisis intervention strategies for individuals and groups.
3. The school nurse knows how to document appropriately.

**Performance**

1. The school nurse communicates effectively and with sensitivity to community values in a variety of settings (e.g., classroom presentations, public forums, individual interactions, written communication, and documentation).

***Standard 4: Collaboration - The school nurse understands how to interact collaboratively with and contribute to the professional development of peers and school personnel.***

**Knowledge**

1. The school nurse understands the principles of collaboration in sharing knowledge and skills with other professionals and staff.

**Performance**

1. The school nurse works collaboratively with nursing colleagues and school personnel to enhance professional practice and to contribute to a supportive, healthy school environment.

*Standard 5: Ethics and Advocacy - The school nurse makes decisions and takes actions on behalf of students and families in an ethical, professional manner.*

**Knowledge**

1. The school nurse understands the code of ethics adopted by the American Nurses Association and the National Association of School Nurses and the Code of Ethics for Idaho Professional Educators.
2. The school nurse knows how to advocate for students and families.

**Performance**

1. The school nurse performs duties in accord with the legal, regulatory, and ethical parameters of health and education.
2. The school nurse acts as an advocate for students and families.
3. The school nurse delivers care in a manner that is sensitive to student diversity.

*Standard 6: Health and Wellness Education - The school nurse assists students, families, the school staff, and the community to achieve optimal levels of wellness through appropriately designed and delivered health education.*

**Knowledge**

1. The school nurse understands developmentally appropriate health education.
2. The school nurse understands the influence of family dynamics on student achievement and wellness.
3. The school nurse understands that health instruction within the classroom is based on learning theory.
4. The school nurse understands child, adolescent, family, and community health issues.
5. The school nurse understands how health issues impact student learning.

**Performance**

1. The school nurse assists individual students in acquiring appropriate skills based on age and developmental levels to advocate for themselves.
2. The school nurse participates in the assessment of health education and health instructional needs of the school community.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

3. The school nurse provides health instruction within the classroom based on learning theory, as appropriate to student developmental levels and school needs.
4. The school nurse provides individual and group health instruction and counseling for and with students, families, and staff.
5. The school nurse acts as a resource person to school staff, students, and families regarding health education and health community resources.
6. The school nurse assists students in changing high-risk behaviors through education and referral.

***Standard 7: Program Management - The school nurse is a manager of school health services.***

**Knowledge**

1. The school nurse understands the principles of school nursing management.
2. The school nurse understands that program delivery is influenced by a variety of factors (e.g., cost, program diversity, staffing, and laws).
3. The school nurse knows how to teach, supervise, evaluate, and delegate to Unlicensed Assistive Personnel.
4. The school nurse knows how to identify and secure appropriate and available services and resources in the community.

**Performance**

1. The school nurse demonstrates the ability to organize, prioritize, and make independent nursing decisions.
2. The school nurse demonstrates the ability to plan and budget resources in a fiscally responsible manner.
3. The school nurse demonstrates leadership skills to utilize human resources efficiently.
4. The school nurse teaches, supervises, evaluates, and delegates to Unlicensed Assistive Personnel.
5. The school nurse uses appropriate technology in managing school health services.

## Idaho Standards for School Psychologists

The following knowledge and performance statements for the School Psychologist Standards are widely recognized, but not all-encompassing or absolute, indicators that School Psychologist candidates have met the standards. The evidence validating candidates' ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of a school psychologist preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards. Additionally, all school psychologist candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

An important component of the School Psychology profession is a candidate's disposition. Professional dispositions are how the School Psychologist candidate views their profession, their content area, and/or students and their health and learning. Every School Psychology preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Psychologist candidate dispositions.

***Standard 1: Assessment, Data-Based Decision Making, and Accountability - The school psychologist understands varied models and methods of assessment that yield information useful in understanding problems, identifying strengths and needs, measuring progress as it relates to educational and social emotional, and behavioral outcomes of students with respect for cultural and linguistic diversity.***

### **Knowledge**

1. The school psychologist understands traditional standardized norm-referenced assessment instruments.
2. The school psychologist understands alternative assessment approaches (e.g., curriculum-based, portfolio, ecological).
3. The school psychologist knows understands non-test assessment procedures (e.g., observation, diagnostic interviewing, reviewing records).
4. The school psychologist understands the application of a multi-tiered system of support for educational and social, emotional, and behavioral needs of students.
5. The school psychologist understands correct interpretation and application of assessment data.
6. The school psychologist understands the use of assessment data as it applies to the process of transitions at Pre-K through age 21 development levels.

### **Performance**

1. The school psychologist uses various models and methods of assessment as part of a

systematic process to collect data and other information.

2. The school psychologist translates assessment results into the design, implementation, and accountability of empirically supported instruction, interventions, and educational and mental health services effective for particular situations, contexts, and diverse characteristics.
3. The school psychologist uses assessment and data collection methods to evaluate the effectiveness of interventions and recommendations.
4. The school psychologist interprets and synthesizes assessment information from a variety of sources.

***Standard 2: Consultation and Collaboration - the school psychologist understands effective collaborative and consultation approaches to promote the learning and success of students.***

**Knowledge**

1. The school psychologist understands varied methods of consultation in psychology and education (e.g. behavioral, problem-solving, mental health, organizational, instructional) applicable to individuals, families, groups, and systems.
2. The school psychologist understands methods for effective consultation and collaboration that link home, school, and community settings.
3. The school psychologist understands factors necessary for effective interpersonal communication.
4. The school psychologist understands how to communicate effectively in oral and written form.

**Performance**

1. The school psychologist uses effective consultation and collaboration methods to develop a climate in which consensus can be achieved to promote positive student outcomes.
2. The school psychologist consults and collaborates effectively in the planning, problem solving, and decision-making processes to design, implement, and evaluate educational and mental health services with respect for cultural and linguistic diversity.
3. The school psychologist displays positive interpersonal skills by listening, adapting, addressing ambiguity, and being professional in difficult situations.
4. The school psychologist effectively communicates information in oral and written form for diverse audiences, for example, parents, teachers, other school personnel, policy makers, community leaders, and/or others.

***Standard 3: Effective Instruction and Development of Cognitive and Academic Skills - The school psychologist understands learning theories, cognitive strategies and their application to the development of effective instruction, while considering biological, cultural, linguistic, and social influences on educational progress.***

**Knowledge**

1. The school psychologist understands human learning, cognition, and developmental processes with respect for cultural and linguistic diversity.
2. The school psychologist understands empirically supported methods in psychology and education to promote cognitive and academic skills, including those related to needs of students with diverse backgrounds and characteristics.
3. The school psychologist understands evidence-based curriculum and instructional strategies that facilitate students' academic achievement.
4. The school psychologist understands how to develop appropriate educational goals for students with different ability levels and cultural/social backgrounds.
5. The school psychologist understands techniques assess learning and instruction for using data in decision making, planning, and progress monitoring.

**Performance**

1. The school psychologist assists in achieving academic outcomes, such as classroom instructional support, literacy strategies, home and school collaboration, instructional consultation, and other evidenced-based practices.
2. The school psychologist uses assessment and data-collection methods to assist in developing appropriate educational goals for students with diverse abilities and backgrounds.
3. The school psychologist assists in promoting the use of evidence-based interventions with fidelity.

***Standard 4: Student Diversity in Development and Learning - The school psychologist understands that an individual's development and learning are influenced by one or more of the following factors: biological, social, cultural, ethnic, experiential, socioeconomic, environmental, gender-related, and/or linguistic.***

**Knowledge**

1. The school psychologist understands individual differences, abilities, and other diverse characteristics.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. The school psychologist understands principles and research related to diversity factors for students, families, and schools, including factors related to culture, context, individual, and role differences.
3. The school psychologist understands empirically supported strategies to enhance educational services for students and families and effectively address potential influences on learning related to diversity.
4. The school psychologist understands the diversity of the continuum of educational development for students ages three through 21, including all educational service transitions.

**Performance**

1. The school psychologist provides educational services that promote effective functioning for individuals, families, and schools with diverse characteristics, cultures, and backgrounds across multiple contexts.
2. The school psychologist collaborates to address individual differences, strengths, backgrounds, and needs in providing services to improve educational and mental health outcomes for students.
3. The school psychologist provides culturally competent and effective practices in all areas of school psychology service delivery.

***Standard 5: Legal, Ethical, and Professional Practice –The school psychologist understands the history and foundations of the profession, various service models and methods, and applies legal and ethical practices to advocate for the educational rights and welfare of students and families.***

**Knowledge**

1. The school psychologist understands the history and foundations of school psychology.
2. The school psychologist understands multiple service models and methods.
3. The school psychologist understands ethical, legal, and professional standards and other factors related to professional identity, including personal biases and effective practice.
4. The school psychologist understands current federal and state statutes and regulations pertaining to educational services.
5. The school psychologist understands self-evaluation methods to determine areas for continuing professional development.

**Performance**

1. The school psychologist provides services consistent with ethical, legal, and professional standards.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

2. The school psychologist engages in ethical and professional decision-making.
3. The school psychologist collaborates with and consults other professionals regarding legal and ethical educational practices.
4. The school psychologist applies professional work characteristics for effective practice, including respect for human diversity and social justice, communication skills, interpersonal skills, responsibility, adaptability, initiative, and dependability.
5. The school psychologist demonstrates legal and ethical practices in communication and the use of technology.
6. The school psychologist utilizes supervision and mentoring in the development of legal and ethical professional practice.

***Standard 6: School-Wide Practices to Promote Learning - The school psychologist understands the unique organization and culture of schools and related systems.***

**Knowledge**

1. The school psychologist understands school and multi-tiered systems' structure, organization, and theory.
2. The school psychologist understands general and special education.
3. The school psychologist understands empirically supported school practices that promote academic outcomes, learning, social development, and mental health.

**Performance**

1. The school psychologist, in collaboration with others, demonstrates skills to develop and implement practices and strategies to create and maintain effective and supportive learning environments for students and others.
2. The school psychologist utilizes data-based decision making and evaluation methods, problem-solving strategies, consultation, and other services for systems-level issues, initiatives, and accountability responsibilities.

***Standard 7: Interventions and Mental Health Services to Develop Social and Life Skills - The school psychologist understands human development and psychopathology, including biological, cultural, and social influences.***

**Knowledge**

1. The school psychologist understands biological, cultural, developmental, and social influences on learning, behavior, mental health, and life skills.
2. The school psychologist understands techniques to assess socialization, mental health, and life skills and methods for using data in decision making, planning, and progress monitoring

3. The school psychologist understands evidence-based supported strategies to promote social-emotional functioning and mental health.

**Performance**

1. The school psychologist uses assessment and data collection methods to collaboratively develop appropriate goals for students with diverse abilities, backgrounds, strengths, and needs.
2. The school psychologist integrates behavioral supports and mental health services with academic and behavioral goals to promote positive outcomes for students.
3. The school psychologist uses empirically supported strategies to collaboratively develop and implement services at the individual, group, and/or systems levels and to enhance classroom, school, home, and community factors related to student's mental health, socialization, and learning.

***Standard 8: Preventive and Responsive Services – The school psychologist understands preventive and responsive services in educational settings to promote a safe school environment.***

**Knowledge**

1. The school psychologist understands principles and research related to resilience and risk factors in learning and mental health.
2. The school psychologist understands services in schools and communities to support multi-tiered prevention, and empirically supported strategies for effective crisis response.

**Performance**

1. The school psychologist, in collaboration with others, demonstrates skills to promote services that enhance learning, mental health, safety, physical well-being, and resilience through protective and adaptive factors.
2. The school psychologist, in collaboration with others, demonstrates skills to implement and/or evaluate effective crisis preparation, response, and recovery.
3. The school psychologist uses assessment and data collection methods to collaboratively develop appropriate goals for and to evaluate outcomes of prevention and response activities and crisis services.

***Standard 9: Home/School/Community Collaboration - The school psychologist understands how to work effectively with students, families, educators, and others in the community to promote and provide comprehensive educational services.***

**Knowledge**

1. The school psychologist understands the characteristics of families, family strengths and needs, family culture, and family–school interactions that impact student development.
2. The school psychologist understands the psychological and educational principles and research related to family systems and their influences on students’ academic, motivational, behavioral, mental health, and social characteristics.
3. The school psychologist understands empirically supported strategies to support family influences on student learning, socialization, and mental health.
4. The school psychologist understands methods to develop collaboration between families, schools, and community agencies.

**Performance**

1. The school psychologist demonstrates skills, in collaboration with others, to design, implement, and evaluate services that facilitate family and school partnerships and interactions with community agencies for enhancement of academic and social-behavioral outcomes for students.
2. The school psychologist uses empirically supported strategies to promote effective collaboration and partnerships among parents, schools, and community agencies regarding student learning, socialization, and mental health.

***Standard 10: Research and Program Evaluation - The school psychologist understands research, statistics, and evaluation methods.***

**Knowledge**

1. The school psychologist understands research design, statistics, measurement, varied data-collection and analysis techniques.
2. The school psychologist understands statistical and other data analysis techniques sufficient for interpretation of research and data in applied settings.
3. The school psychologist understands program evaluation methods at the individual, group, and systems levels.

**Performance**

1. The school psychologist demonstrates skills to evaluate and apply research as a foundation for service delivery.
2. The school psychologist provides assistance in educational settings for analyzing, interpreting, and using empirical foundations for effective practices at the individual, group, and/or systems levels.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

3. The school psychologist demonstrates skills in using various techniques and technology resources, in collaboration with others, for data collection, measurement, analysis, and program evaluation to support effective practices at the individual, group, and/or systems levels.

## Idaho Standards for School Social Workers

The following knowledge and performance statements for the School Social Worker Standards are widely recognized, but not all-encompassing or absolute, indicators that School Social Worker candidates have met the standards. These standards were adapted from the 2008 Council on Social Work Education (CSWE) Educational Policy and Accreditation Standards, the National Association of Social Workers (NASW) School Social Work Standards, and the School Social Work Association of America's National School Social Work Model: Improving Academic and Behavioral Outcomes. It is the responsibility of a School Social Work preparation program to use indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards. Additionally, all school social worker candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

An important component of the School Social Work profession is a candidate's disposition. Professional dispositions are how School Social Work candidates view their profession, their content area, and/or students and their health and learning. Every School Social Work preparation program at each institution is responsible for establishing and promoting a comprehensive set of guidelines for School Social Worker candidate dispositions.

***Standard 1: Foundations of the professional school social worker - The competent school social worker is an advanced practitioner trained in mental health with a masters degree in social work, who provides services related to a person's social emotional and life adjustment to school and/or society. School social workers are the link between the home, school and community in providing direct as well as indirect services that promote and support students' academic and social success.***

**Knowledge** - The competent school social worker:

1. Understands that school social work is an area of concentration built on the knowledge and competencies of graduate level social work education.
2. Understands how to improve academic and behavioral outcomes of students.
3. Possesses skills and knowledge to ensure the delivery of scientifically supported services.
4. Knows how to promote a positive school climate and culture.
5. Knows how to maximize school-based and community resources.
6. Understands how to synthesize and apply a broad range of interdisciplinary and multidisciplinary knowledge and skills.

**Performance** - The competent school social worker:

1. Uses knowledge to improve academic and behavioral outcomes of students.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

2. Utilizes skills and knowledge to ensure the delivery of scientifically supported services.
3. Promotes a positive school climate and culture.
4. Maximizes school-based and community resources.
5. Synthesizes and applies a broad range of interdisciplinary and multidisciplinary knowledge and skills.

***Standard 2: Engagement, Assessment, Intervention, and Evaluation - The competent school social worker engages, assesses, intervenes, and evaluates with individuals, families, groups, organizations and communities for the enhancement of student learning and the educational system.***

**Knowledge** - The competent school social worker:

1. Understands environmental factors when planning interventions to create an effective bridge between students' experiences and goals.
2. Understands how to conduct social work assessment of adaptive behavior, learning styles, self-esteem, social skills, attitudes, high-risk behavior (i.e. truancy, suicide, homicide, drug and alcohol, etc.), interests, and emotional/mental health.
3. Understands how to help students work cooperatively and productively.
4. Understands how to interpret and utilize research to evaluate and guide professional interventions and program development.
5. Understands dispute resolution strategies.
6. Is familiar with the diagnostic tools used by other professionals in the school.
7. Understands the use of assessment as a means to evaluate the student's social- emotional/mental functioning, including:
  - a. The child's physical, cognitive, and social-emotional development.
  - b. Family history and factors that influence the child's overall functioning.
  - c. The child's behavior and attitude in different settings.
  - d. Patterns of interpersonal relationships in all spheres of the child's environment.
  - e. Patterns of achievement and adjustment at critical points in the child's growth and development.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

- f. Adaptive behavior and cultural factors that may influence learning; understands the relationship between assessment, eligibility, and placement decisions, including the development of Accommodation, Behavior, Response to Intervention (RTI) and Individualized Education Plans (IEP).

**Performance - The competent school social worker:**

1. Substantively and effectively builds relationships with individuals, families, groups, organizations, and communities.
2. Uses empathy and other interpersonal skills.
3. Develops a mutually agreed-on intervention goals and objectives.
4. Collects, organizes, and interprets student data.
5. Assesses student and family strengths and limitations with the goal of improving student social, emotional, behavioral, and academic outcomes.
6. Selects and utilizes appropriate intervention strategies.
7. Initiates actions to achieve student learning outcomes.
8. Implements prevention interventions that enhance student and family capacities.
9. Helps students and families resolve problems.
10. Negotiates, mediates, and advocates for students, families and the school system.
11. Plans for and facilitates transitions and termination of services.
12. Critically analyzes, monitors, and evaluates interventions.
13. Uses diverse interview techniques and written communication with all persons within the student's environment.
14. Mobilizes the resources of the school and community to meet the needs of students and their families.
15. Assists in establishing expectations for student learning consistent with students' strengths and educational goals.

***Standard 3: Knowledge of human behavior and the social environment - The competent school social worker is knowledgeable about human behavior across the life course; the range of social systems in which people live; and the ways social systems promote or deter people in maintaining or achieving health and well-being. School social workers apply pertinent***

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

*theories and knowledge to understand biological, social, cultural, psychological, and spiritual development.*

**Knowledge** - The competent school social worker:

1. Understands theories of normal and exceptional development in early childhood, middle childhood, adolescence, and early adulthood and their application to all students.
2. Understands the effects of mental illness on students' ability to participate in learning.
3. Understands the person-in-environment context of social work.
4. Understands the effects of biological, spiritual, legal, social, and cultural factors on human development and social functioning.
5. Understands characteristics and implications for education of children with academic, and/or social/emotional challenges.
6. Understands strength-based assessments and practices that support growth and development.
7. Understands the social-developmental history with its focus on the student's functioning within the educational environment.
8. Understands principles of and strategies for effective behavior, emotional and social management within the school environment.
9. Understands how people's attitudes within the educational environment influence behavior of individuals.
10. Understands the importance of parents'/guardians' participation in fostering students' positive development.
11. Understands the goals and objectives of educational organizations.
12. Understands how service learning and volunteerism promote the development of personal and social responsibility.

**Performance - The competent school social worker:**

1. Utilizes the human behavior in the social environment framework to guide processes of assessment, intervention, and evaluation with individuals, groups, families, and school system.
2. Critiques and applies knowledge to understand students in their educational, family and community environments.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

3. Gathers and interprets appropriate information to document and assess environmental, emotional, cultural, socioeconomic, educational, biological, psychosocial, and legal factors that affect children's learning.
4. Develops and implements empirically-based prevention and intervention plans that enable the child to “respond to intervention” (RTI).
5. Provides individual, group, and/or family counseling and other services to enhance success in the educational process.
6. Provides crisis intervention counseling and other services to the school community.
7. Provides consultation to teachers, administrators, parents, and community agencies.
8. Conducts social work assessments and participates in eligibility conferences for special education and other programmatic options, students’ educational planning conferences, and conferences with parents.
9. Implements appropriate areas of student IEP, accommodation, and behavior plans.
10. Initiates referrals and linkages to community agencies and maintains follow-up services on behalf of identified students.

***Standard 4: Policy practice - The competent school social worker advances social and economic well-being and delivers effective social work services in the educational setting. School social workers, as systems’ change agents, shall identify areas of need that are not being addressed by the local education agency and community and shall work to create services that address these needs. School social workers shall be informed about court decisions, legislation, rules and regulations, and policies and procedures that affect school social work practice, to effectively advocate for students.***

**Knowledge** - The competent school social worker:

1. Understands the interdisciplinary approach to service delivery within the educational environment.
2. Understands parent/guardian and student rights (both legal and educational) regarding assessment and evaluation.
3. Understands the collaborative process with parents, school personnel, community-based organizations, and agencies to enhance the student’s educational functioning.
4. Understands the school’s role within the context of the larger community.
5. Understands the importance of audience and purpose when selecting ways to communicate ideas.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

6. Understands how to work with administrators and other school personnel to make changes within the school.
7. Understands the organization and operation of safe school systems.
8. Understands school policies and procedures as they relate to student learning, safety and well-being.

**Performance** - The competent school social worker:

1. Analyzes, formulates, and advocates for policies that advance social well-being for students, families, and school system.
2. Collaborates with colleagues and clients for effective policy action.
3. Educates students and parents about school, State, and Federal policies and statutes and accompanying rights and responsibilities.
4. Identifies and addresses gaps in services for students and families.
5. Engages in advocacy that seeks to ensure that all students have equal access to education and services to enhance their academic progress.

***Standard 5: Environmental contexts that shape practice - Competent school social workers are informed, resourceful, and proactive in responding to evolving organizational, community, and societal contexts at all levels of practice. They recognize that the educational settings are dynamic, and use knowledge and skills to respond proactively.***

**Knowledge - The competent school social worker:**

1. Understands systems theories as they relate to classrooms, schools, families, and community.
2. Understands the application of social learning theories to identify and develop broad-based prevention and intervention programs.
3. Understands learning theory and normal and exceptional development as it applies to the content and curriculum of educational planning and intervention.
4. Understands how to develop long- and short-term empirically-based intervention plans consistent with curriculum and students' diversity and strengths, life experiences, and social/emotional factors.
5. Understands how to integrate and use technology for assessments, interventions, and information management.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

6. Understands that as members of interdisciplinary teams and coalitions, school social workers shall work collaboratively to mobilize the resources of local education agencies and communities to meet the needs of students and families.
7. Understands how to facilitate a collaborative relationship between general and special education systems to promote a unified system of education.

**Performance - The competent school social worker:**

1. Continuously discovers, appraises, and attends to changing locales, populations, scientific and technological developments, and emerging societal trends to provide relevant service.
2. Provides leadership in promoting sustainable changes in service delivery and practice to improve the quality of social services.
3. Facilitates collaborative relationships between general and special education systems to promote a unified system of education.
4. Develops long- and short-term empirically-based intervention plans consistent with curriculum and students' diversity and strengths, life experiences, and social/emotional factors.
5. Integrates and uses technology for assessments, interventions, and information management.

***Standard 6: Empirically based practice - The competent school social worker engages in research-informed practice and practice-informed research. School social workers use practice experience to inform research, employ evidence-based interventions, evaluate their own practice, and use research findings to improve practice, policy, and social service delivery in the educational setting.***

**Knowledge - The competent school social worker:**

1. Understands empirically-based methods of individual, group, family, and crisis counseling.
2. Understands empirically-based methods of social work service delivery.
3. Understands the process of needs assessment, referral, and resource development.
4. Understands quantitative and qualitative research.
5. Understands scientific and ethical approaches to building knowledge.
6. Understands the use of empirically based assessment and evaluation results to develop student interventions.

**Performance - The competent school social worker:**

1. Uses practice in the educational setting to inform future research activities.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. Uses research evidence to inform practice in assessment, prevention, intervention and evaluation with individuals, groups, families, and the school system.
3. Uses evidence based knowledge in the development and implementation of accommodation, behavioral, RTI, and IEP plans.
4. Collects, interprets and uses data in interdisciplinary collaboration to develop and foster academic achievement.
5. Involves students in self-assessment activities to help them become aware of their strengths and needs to establish and attain their goals.

***Standard 7: Advocacy - The competent school social worker advances student, family and human rights for social and economic justice within educational settings. Each person, regardless of position in society, has basic human rights, such as freedom, safety, privacy, an adequate standard of living, health care, and education.***

**Knowledge** - The competent school social worker:

1. Understands methods of advocacy on behalf of individuals, families, and school systems.
2. Understands the role of advocacy and facilitation at all levels of the system that affect students and their families.
3. Understands the need to improve access to services and resources.
4. Understands the forms and mechanisms of oppression and discrimination and how these factors impact student learning.
5. Recognizes the global interconnections of oppression and are knowledgeable about theories of justice and strategies to promote human and civil rights within the academic setting.

**Performance** - The competent school social worker:

1. Advocates for student, family and human rights and social and economic justice.
2. Engages in practices that advance social and economic justice.
3. Works to empower children, their families, educators, and others to gain access to and effectively use school and community resources.
4. Identifies areas of need and accesses or advocates for the creation of resources at the state and community level.
5. Advocates for students with other members of the educational community to enhance students' functioning in the learning environment.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

6. Incorporates social justice practices in organizations, institutions, and society to ensure that these basic human rights are distributed equitably and without prejudice.

*Standard 8: Diversity and cultural competence - The competent school social worker understands how diversity characterizes and shapes the human experience and is critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including age, class, color, culture, disability, ethnicity, gender, gender identity and expression, immigration status, political ideology, race, religion, sex, and sexual orientation.*

**Knowledge** - The competent school social worker:

1. Understands the variations in beliefs, traditions, and values across cultures and their effect on interactions among group members.
2. Understands the broad range of backgrounds and experiences that shape students' approaches to learning.
3. Understands how students' success is influenced by prior learning and the diversity factors listed above.
4. Understands and identifies differences in approaches to learning and performance, including different learning styles, performance modes, and variations of perception.
5. Understands the issues of second language acquisition and the immigrant experience.
6. Understands ways in which similar behaviors may have different meanings to people in different cultures.
7. Understands that, as a consequence of difference and diversity, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim.

**Performance** - The competent school social worker:

1. Considers the extent to which a culture's structures and values may oppress, marginalize, alienate, create or enhance privilege and power.
2. Gains sufficient self-awareness to eliminate the influence of personal biases and values in working with diverse groups.
3. Communicates their understanding of the importance of difference in shaping life, learning and educational experiences.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

4. Actively learns from and engages those with whom they work.
5. Considers how these factors impact student learning, academic success and achievement.

***Standard 9: Critical Thinking - The competent school social worker is knowledgeable about the principles of logic, scientific inquiry, and professional judgment and their implications to student learning.***

**Knowledge** - The competent school social worker:

1. Understands how to analyze the usefulness of knowledge in specific situations.
2. Understands how synthesis and communication of relevant information is pertinent to the educational setting.
3. Understands how to integrate content knowledge for service delivery.
4. Understands theories and methods of communication.

**Performance** - The competent school social worker:

1. Distinguishes, appraises, and integrates multiple sources of knowledge, including research-based knowledge, and practice wisdom.
2. Uses critical thinking and professional judgment augmented by creativity and curiosity in decision making.
3. Analyzes models of assessment, prevention, intervention, and evaluation.
4. Synthesizes and communicates relevant information as it pertains to the learning environment.
5. Uses supervision and consultation to determine best practice service delivery.
6. Utilizes theories and appropriate methods of communication when engaging a variety of audiences.

***Standard 10: Ethical Practice - The competent school social worker conducts themselves ethically by applying ethical principles to guide professional practice and decision making within the educational setting.***

**Knowledge** - The competent school social worker:

1. Understands federal and state laws and regulations as they pertain to ethical school social work practice.
2. Understands the NASW *Code of Ethics* and, as applicable, of the International Federation of Social Workers/International Association of Schools of Social Work *Ethics in Social Work, Statement of Principles*.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

3. Understands the legal and ethical principles of confidentiality as they relate to the practice of school social work, (i.e. HIPPA, FERPA).
4. Understands the value base of the profession, its ethical standards, and relevant law.

**Performance** - The competent school social worker:

1. Maintains current knowledge of and abides by federal and State laws and regulations, with emphasis on confidentiality, and students' and families' rights.
2. Models and promotes ethical practices for confidential communication.
3. Manages personal values in a way that allows professional values to guide practice.
4. Makes ethical decisions by applying standards of the *NASW Code of Ethics* and, as applicable, of the International Federation of Social Workers/International Association of Schools of Social Work *Ethics in Social Work, Statement of Principles*.
5. Tolerates ambiguity in resolving ethical conflicts.
6. Applies strategies of ethical reasoning to arrive at principled decisions.
7. Collaborates with other educational professionals in an interdisciplinary and ethical manner.

***Standard 11: Identifies as a professional school social worker and conducts oneself accordingly - School social workers serve as representatives of the profession, its mission, and its core values. They know the profession's history. Social workers commit themselves to the profession's enhancement and to their own professional conduct and growth.***

**Knowledge** - The competent school social worker:

1. Understands methods of practice, including counseling, crisis intervention, case work, and individual, group, and family therapies.
2. Understands and develops skills in advocacy, case management, classroom groups, community organization, consultation and in-service training.
3. Understands the role of mandated reporters and the function of the State's child welfare agency and law enforcement interaction.
4. Understands the importance of active participation and leadership in professional education and social work organizations.
5. Understands how to use supervision, consultation, collaboration, and continuing education to identify areas for ongoing professional development.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

6. Understands the importance of taking responsibility for self-evaluation as a competent and ethical practitioner.
7. Understands the significance of social work history.

**Performance** - The competent school social worker:

1. Advocates for student and family access to social work services in the educational setting.
2. Practices personal reflection and self-correction to assure continual professional development.
3. Attends to professional roles and boundaries within the context of the educational setting.
4. Demonstrates professional demeanor in behavior, appearance, and communication.
5. Engages in career-long learning.
6. Uses supervision and consultation.
7. Uses continuing education, professional development activities, research, professional literature, observations and experiences to enhance professional growth and to guide evaluation of professional practice.
8. Participates in professional activities and organizations that promote and enhance school social work practice.

## Idaho Standards for Speech-Language Pathology

All speech-language pathology candidates are expected to meet standards specific to their discipline area(s) at the “acceptable” level or above. Additionally, all speech-language pathology candidates are expected to meet the requirements defined in State Board Rule (IDAPA 08.02.02: Rules Governing Uniformity).

The following standards and competencies for speech-language pathologists were adopted from the Council for Clinical Certification in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association. (2014 Standards for the Certificate of Clinical Competence in Speech-Language Pathology. Retrieved 12/30/16 from <http://www.asha.org/Certification/2014-Speech-Language-Pathology-Certification-Standards/>.) These standards are not all-encompassing or absolute but are indicative of the requirements necessary for effective speech language pathologists. The evidence validating candidates’ ability to demonstrate these standards shall be collected from a variety of settings including, but not limited to, courses, practicum, and field experiences. It is the responsibility of higher education preparation programs to use knowledge and performance indicators in a manner that is consistent with its conceptual framework and that assures attainment of the standards.

**Standard I: Degree – The applicant for certification must have a master's, doctoral, or other recognized post-baccalaureate degree.**

Implementation: The Council for Clinical Certification in Audiology and Speech-Language Pathology (CFCC) has the authority to determine eligibility of all applicants for certification.

**Standard II: Education Program – All graduate course work and graduate clinical experience required in speech-language pathology must have been initiated and completed in a speech-language pathology program accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA).**

Implementation: If the graduate program of study is initiated and completed in a CAA-accredited program or in a program that held candidacy status for CAA accreditation, and if the program director or official designee verifies that all knowledge and skills required at the time of application have been met, approval of academic course work and practicum is automatic. Applicants eligible for automatic approval must submit an official graduate transcript or a letter from the registrar that verifies the date the graduate degree was awarded. The official graduate transcript or letter from the registrar must be received by the National Office no later than 1 year from the date the application was received. Verification of the graduate degree is required of the applicant before the certificate is awarded.

Individuals educated outside the United States or its territories must submit documentation that course work was completed in an institution of higher education that is regionally accredited or recognized by the appropriate regulatory authority for that country. In addition, applicants outside the United States or its territories must meet each of the standards that follow.

*Standard III: Program of Study – The applicant for certification must have completed a program of study (a minimum of 36 semester credit hours at the graduate level) that includes academic course work and supervised clinical experience sufficient in depth and breadth to achieve the specified knowledge and skills outcomes stipulated in Standard IV-A through IV-G and Standard V-A through V-C.*

Implementation: The minimum of 36 graduate semester credit hours must have been earned in a program that addresses the knowledge and skills pertinent to the ASHA Scope of Practice in Speech-Language Pathology.

*Standard IV: Knowledge Outcomes*

*Standard IV-A – The applicant must have demonstrated knowledge of the biological sciences, physical sciences, statistics, and the social/behavioral sciences.*

Implementation: Acceptable courses in biological sciences should emphasize a content area related to human or animal sciences (e.g., biology, human anatomy and physiology, neuroanatomy and neurophysiology, human genetics, veterinary science). Acceptable courses in physical sciences should include physics or chemistry. Acceptable courses in social/behavioral sciences should include psychology, sociology, anthropology, or public health. A stand-alone course in statistics is required. Research methodology courses in communication sciences and disorders (CSD) may not be used to satisfy the statistics requirement. A course in biological and physical sciences specifically related to CSD may not be applied for certification purposes to this category unless the course fulfills a university requirement in one of these areas.

Academic advisors are strongly encouraged to enroll students in courses in the biological, physical, and the social/behavioral sciences in content areas that will assist students in acquiring the basic principles in social, cultural, cognitive, behavioral, physical, physiological, and anatomical areas useful to understanding the communication/linguistic sciences and disorders.

*Standard IV-B – The applicant must have demonstrated knowledge of basic human communication and swallowing processes, including the appropriate biological, neurological, acoustic, psychological, developmental, and linguistic and cultural bases. The applicant must have demonstrated the ability to integrate information pertaining to normal and abnormal human development across the life span.*

*Standard IV-C – The applicant must have demonstrated knowledge of communication and swallowing disorders and differences, including the appropriate etiologies, characteristics, anatomical/physiological, acoustic, psychological, developmental, and linguistic and cultural correlates in the following areas:*

- articulation;
- fluency;
- voice and resonance, including respiration and phonation;

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- receptive and expressive language (phonology, morphology, syntax, semantics, pragmatics, prelinguistic communication and paralinguistic communication) in speaking, listening, reading, writing;
- hearing, including the impact on speech and language;
- swallowing (oral, pharyngeal, esophageal, and related functions, including oral function for feeding, orofacial myology);
- cognitive aspects of communication (attention, memory, sequencing, problem-solving, executive functioning);
- social aspects of communication (including challenging behavior, ineffective social skills, and lack of communication opportunities);
- augmentative and alternative communication modalities.

Implementation: It is expected that course work addressing the professional knowledge specified in Standard IV-C will occur primarily at the graduate level.

*Standard IV-D – For each of the areas specified in Standard IV-C, the applicant must have demonstrated current knowledge of the principles and methods of prevention, assessment, and intervention for people with communication and swallowing disorders, including consideration of anatomical/physiological, psychological, developmental, and linguistic and cultural correlates.*

*Standard IV-E – The applicant must have demonstrated knowledge of standards of ethical conduct.*

Implementation: The applicant must have demonstrated knowledge of the principles and rules of the current ASHA Code of Ethics.

*Standard IV-F – The applicant must have demonstrated knowledge of processes used in research and of the integration of research principles into evidence-based clinical practice.*

Implementation: The applicant must have demonstrated knowledge of the principles of basic and applied research and research design. In addition, the applicant must have demonstrated knowledge of how to access sources of research information and have demonstrated the ability to relate research to clinical practice.

*Standard IV-G – The applicant must have demonstrated knowledge of contemporary professional issues.*

Implementation: The applicant must have demonstrated knowledge of professional issues that affect speech-language pathology. Issues typically include trends in professional practice, academic program accreditation standards, ASHA practice policies and guidelines, and reimbursement procedures.

*Standard IV-H – The applicant must have demonstrated knowledge of entry level and advanced certifications, licensure, and other relevant professional credentials, as well as local, state, and national regulations and policies relevant to professional practice.*

Standard V: Skills Outcomes

Standard V-A – The applicant must have demonstrated skills in oral and written or other forms of communication sufficient for entry into professional practice.

Implementation: Individuals are eligible to apply for certification once they have completed all graduate-level academic course work and clinical practicum and been judged by the graduate program as having acquired all of the knowledge and skills mandated by the current standards.

The applicant must have demonstrated communication skills sufficient to achieve effective clinical and professional interaction with clients/patients and relevant others. For oral communication, the applicant must have demonstrated speech and language skills in English, which, at a minimum, are consistent with ASHA's current position statement on students and professionals who speak English with accents and nonstandard dialects. In addition, the applicant must have demonstrated the ability to write and comprehend technical reports, diagnostic and treatment reports, treatment plans, and professional correspondence in English.

Standard V-B – The applicant for certification must have completed a program of study that included experiences sufficient in breadth and depth to achieve the following skills outcomes:

1. Evaluation

- a. Conduct screening and prevention procedures (including prevention activities).
- b. Collect case history information and integrate information from clients/patients, family, caregivers, teachers, and relevant others, including other professionals.
- c. Select and administer appropriate evaluation procedures, such as behavioral observations, nonstandardized and standardized tests, and instrumental procedures.
- d. Adapt evaluation procedures to meet client/patient needs.
- e. Interpret, integrate, and synthesize all information to develop diagnoses and make appropriate recommendations for intervention.
- f. Complete administrative and reporting functions necessary to support evaluation.
- g. Refer clients/patients for appropriate services.

2. Intervention

- a. Develop setting-appropriate intervention plans with measurable and achievable goals that meet clients'/patients' needs. Collaborate with clients/patients and relevant others in the planning process.
- b. Implement intervention plans (involve clients/patients and relevant others in the intervention process).
- c. Select or develop and use appropriate materials and instrumentation for prevention and intervention.
- d. Measure and evaluate clients'/patients' performance and progress.
- e. Modify intervention plans, strategies, materials, or instrumentation as appropriate to meet the needs of clients/patients.

- f. Complete administrative and reporting functions necessary to support intervention.
- g. Identify and refer clients/patients for services as appropriate.

### **3. Interaction and Personal Qualities**

- a. Communicate effectively, recognizing the needs, values, preferred mode of communication, and cultural/linguistic background of the client/patient, family, caregivers, and relevant others.
- b. Collaborate with other professionals in case management.
- c. Provide counseling regarding communication and swallowing disorders to clients/patients, family, caregivers, and relevant others.
- d. Adhere to the ASHA Code of Ethics and behave professionally.

Implementation: The applicant must have acquired the skills referred to in this standard applicable across the nine major areas listed in Standard IV-C. Skills may be developed and demonstrated by direct client/patient contact in clinical experiences, academic course work, labs, simulations, examinations, and completion of independent projects.

The applicant must have obtained a sufficient variety of supervised clinical experiences in different work settings and with different populations so that he or she can demonstrate skills across the ASHA Scope of Practice in Speech-Language Pathology. *Supervised clinical experience* is defined as clinical services (i.e., assessment/diagnosis/evaluation, screening, treatment, report writing, family/client consultation, and/or counseling) related to the management of populations that fit within the ASHA Scope of Practice in Speech-Language Pathology.

These experiences should allow students to:

- interpret, integrate, and synthesize core concepts and knowledge;
- demonstrate appropriate professional and clinical skills; and
- incorporate critical thinking and decision-making skills while engaged in identification, evaluation, diagnosis, planning, implementation, and/or intervention.

Alternative clinical experiences may include the use of standardized patients and simulation technologies (e.g., standardized patients, virtual patients, digitized mannequins, immersive reality, task trainers, computer-based interactive).

Supervisors of clinical experiences must hold a current ASHA Certificate of Clinical Competence in the appropriate area of practice during the time of supervision. The supervised activities must be within the ASHA Scope of Practice in Speech-Language Pathology to count toward certification.

***Standard V-C – The applicant for certification in speech-language pathology must complete a minimum of 400 clock hours of supervised clinical experience in the practice of speech-language pathology. Twenty-five hours must be spent in clinical observation, and 375 hours***

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

*must be spent in direct client/patient contact.*

Implementation: Guided observation hours generally precede direct contact with clients/patients. The observation and direct client/patient contact hours must be within the ASHA Scope of Practice in Speech-Language Pathology and must be under the supervision of a qualified professional who holds current ASHA certification in the appropriate practice area. Such supervision may occur simultaneously with the student's observation or afterwards through review and approval of written reports or summaries submitted by the student. Students may use video recordings of client services for observation purposes.

Applicants should be assigned practicum only after they have acquired sufficient knowledge bases to qualify for such experience. Only direct contact with the client or the client's family in assessment, intervention, and/or counseling can be counted toward practicum. Up to 20% (i.e., 75 hours) of direct contact hours may be obtained through alternative clinical education (ACE) methods. Only the time spent in active engagement with the ACE may be counted. ACE may include the use of standardized patients and simulation technologies (e.g., standardized patients, virtual patients, digitized mannequins, immersive reality, task trainers, computer-based interactive). Debriefing activities may not be included. Although several students may observe a clinical session at one time, clinical practicum hours should be assigned only to the student who provides direct services to the client or client's family. Typically, only one student should be working with a given client at a time in order to count the practicum hours. It is possible for several students working as a team to receive credit for the same session, depending on the specific responsibilities each student is assigned. The applicant must maintain documentation of time spent in supervised practicum, verified by the program in accordance with Standards III and IV.

*Standard V-D – At least 325 of the 400 clock hours must be completed while the applicant is engaged in graduate study in a program accredited in speech-language pathology by the Council on Academic Accreditation in Audiology and Speech-Language Pathology.*

Implementation: A minimum of 325 clock hours of clinical practicum must be completed at the graduate level. At the discretion of the graduate program, hours obtained at the undergraduate level may be used to satisfy the remainder of the requirement.

*Standard V-E – Supervision must be provided by individuals who hold the Certificate of Clinical Competence in the appropriate profession. The amount of direct supervision must be commensurate with the student's knowledge, skills, and experience, must not be less than 25% of the student's total contact with each client/patient, and must take place periodically throughout the practicum. Supervision must be sufficient to ensure the welfare of the client/patient.*

Implementation: Direct supervision must be in real time. A supervisor must be available to consult with a student providing clinical services to the supervisor's client. Supervision of clinical practicum is intended to provide guidance and feedback and to facilitate the student's acquisition of essential clinical skills. The amount of direct supervision must be commensurate with the student's knowledge, skills, and experience, must not be less than 25% of the student's

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

total contact with each client/patient, and must take place periodically throughout the practicum. Supervision must be sufficient to ensure the welfare of the client/patient.

**Standard V-F – Supervised practicum must include experience with client/patient populations across the life span and from culturally/linguistically diverse backgrounds. Practicum must include experience with client/patient populations with various types and severities of communication and/or related disorders, differences, and disabilities.**

Implementation: The applicant must demonstrate direct client/patient clinical experiences in both assessment and intervention with both children and adults from the range of disorders and differences named in Standard IV-C.

**Standard VI: Assessment – The applicant must have passed the national examination adopted by ASHA for purposes of certification in speech-language pathology.**

Implementation: Results of the Praxis Examination in Speech-Language Pathology must be submitted directly to ASHA from ETS. The certification standards require that a passing exam score must be earned no earlier than 5 years prior to the submission of the application and no later than 2 years following receipt of the application. If the exam is not successfully passed and reported within the 2-year application period, the applicant's certification file will be closed. If the exam is passed or reported at a later date, the individual will be required to reapply for certification under the standards in effect at that time.

**Standard VII: Speech-Language Pathology Clinical Fellowship – The applicant must successfully complete a Speech-Language Pathology Clinical Fellowship (CF).**

Implementation: The Clinical Fellowship may be initiated only after completion of all academic course work and clinical experiences required to meet the knowledge and skills delineated in Standards IV and V. The CF experience must be initiated within 24 months of the date the application is received. Once the CF has been initiated, it must be completed within 48 months. For applicants completing multiple CFs, all CF experiences related to the application must be completed within 48 months of the date the first CF was initiated. Applications will be closed for a CF/CFs that is/are not completed within the 48-month timeframe or that is/are not reported to ASHA within 90 days after the 48-month timeframe. The Clinical Fellow will be required to reapply for certification and must meet the Standards in effect at the time of re-application. CF experiences older than 5 years at the time of application will not be accepted.

The CF must have been completed under the mentorship of an individual who held the ASHA Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP) throughout the duration of the fellowship. It is the Clinical Fellow's responsibility to identify a mentoring speech-language pathologist (SLP) who holds an active Certificate of Clinical Competence in Speech-Language Pathology. Should the certification status of the mentoring SLP change during the CF experience, the Clinical Fellow will be awarded credit only for that portion of time during which the mentoring SLP held certification. It, therefore, is incumbent on the CF to verify the mentoring SLP's status periodically throughout the Clinical Fellowship experience. A family

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

member or individual related in any way to the Clinical Fellow may not serve as a mentoring SLP.

*Standard VII-A: Clinical Fellowship Experience – The Clinical Fellowship must have consisted of clinical service activities that foster the continued growth and integration of knowledge, skills, and tasks of clinical practice in speech-language pathology consistent with ASHA's current Scope of Practice in Speech-Language Pathology. The Clinical Fellowship must have consisted of no less than 36 weeks of full-time professional experience or its part-time equivalent.*

Implementation: No less than 80% of the Fellow's major responsibilities during the CF experience must have been in direct client/patient contact (e.g., assessment, diagnosis, evaluation, screening, treatment, clinical research activities, family/client consultations, recordkeeping, report writing, and/or counseling) related to the management process for individuals who exhibit communication and/or swallowing disabilities.

Full-time professional experience is defined as 35 hours per week, culminating in a minimum of 1,260 hours. Part-time experience of less than 5 hours per week will not meet the CF requirement and may not be counted toward completion of the experience. Similarly, work in excess of the 35 hours per week cannot be used to shorten the CF to less than 36 weeks.

*Standard VII-B: Clinical Fellowship Mentorship – The Clinical Fellow must have received ongoing mentoring and formal evaluations by the CF mentor.*

Implementation: Mentoring must have included on-site observations and other monitoring activities. These activities may have been executed by correspondence, review of video and/or audio recordings, evaluation of written reports, telephone conferences with the Fellow, and evaluations by professional colleagues with whom the Fellow works. The CF mentor and Clinical Fellow must have participated in regularly scheduled formal evaluations of the Fellow's progress during the CF experience. The Clinical Fellow must receive ongoing mentoring and formal evaluations by the CF Mentor.

The mentoring SLP must engage in no fewer than 36 supervisory activities during the clinical fellowship experience. This supervision must include 18 on-site observations of direct client contact at the Clinical Fellow's work site (1 hour = 1 on-site observation; a maximum of six on-site observations may be accrued in 1 day). At least six on-site observations must be conducted during each third of the CF experience. On-site observations must consist of the Clinical Fellow engaged in screening, evaluation, assessment, and/or habilitation/rehabilitation activities. Use of real-time, interactive video and audio conferencing technology is permitted as a form of on-site observation, for which pre-approval must be obtained.

Additionally, supervision must also include 18 other monitoring activities. At least six other monitoring activities must be conducted during each third of the CF experience. Other monitoring activities are defined as evaluation of reports written by the Clinical Fellow, conferences between the mentoring SLP and the Clinical Fellow, discussions with professional

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

colleagues of the Fellow, etc., and may be executed by correspondence, telephone, or reviewing of video and/or audio tapes.

On rare occasions, the CFCC may allow the supervisory process to be conducted in other ways. However, a request for other supervisory mechanisms must be submitted in written form to the CFCC, and co-signed by the CF mentor, before the CF is initiated. The request must include the reason for the alternative supervision and a description of the supervision that would be provided. At a minimum, such a request must outline the type, length, and frequency of the supervision that would be provided.

A CF mentor intending to supervise a Clinical Fellow located in another state may be required to also hold licensure in that state; it is up to the CF mentor and the Clinical Fellow to make this determination before proceeding with a supervision arrangement.

***Standard VII-C: Clinical Fellowship Outcomes – The Clinical Fellow must have demonstrated knowledge and skills consistent with the ability to practice independently.***

Implementation: At the completion of the CF experience, the applicant will have acquired and demonstrated the ability to:

- integrate and apply theoretical knowledge,
- evaluate his or her strengths and identify his or her limitations,
- refine clinical skills within the Scope of Practice in Speech-Language Pathology,
- apply the ASHA Code of Ethics to independent professional practice.

In addition, upon completion of the CF, the applicant must have demonstrated the ability to perform clinical activities accurately, consistently, and independently and to seek guidance as necessary.

The CF mentor must submit the *Clinical Fellowship Report and Rating Form, which includes the Clinical Fellowship Skills Inventory (CFSI)*, as soon as the CF successfully completes the CF experience. This report must be signed by both the Clinical Fellow and mentoring SLP.

***Standard VIII: Maintenance of Certification – Certificate holders must demonstrate continued professional development for maintenance of the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP).***

Implementation: Individuals who hold the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP) must accumulate 30 certification maintenance hours of professional development during every 3-year maintenance interval. Intervals are continuous and begin January 1 of the year following award of initial certification or reinstatement of certification. A random audit of compliance will be conducted.

Accrual of professional development hours, adherence to the ASHA Code of Ethics, submission of certification maintenance compliance documentation, and payment of annual dues and/or certification fees are required for maintenance of certification.

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

If renewal of certification is not accomplished within the 3-year period, certification will expire. Individuals wishing to regain certification must submit a reinstatement application and meet the standards in effect at the time the reinstatement application is submitted.

**SUBJECT**

Proposed Rule, Docket No. 08-0202-1702, Rules Governing Uniformity, Incorporation by Reference, Standards for Idaho School Buses and Operations

**REFERENCE**

June 2011	Board approved amendments to the Idaho School Buses and Operations Manual and proposed rule incorporating by reference the updated manual into IDAPA 08.02.02.004.02.
November 2011	Board approved pending rule Docket 08-0202-1101 incorporating by reference the June 2011 Idaho School Buses and Operations Manual.
June 2016	Board approved amendments to Standards for Idaho School Buses and Operations and proposed rule incorporating by reference the updated manual into IDAPA 08.02.02.004.02.
November 2016	Board approved pending rule Docket 08-0202-1605, updates to Standards for Idaho School Buses and Operations (rejected by legislature)

**APPLICABLE STATUTE, RULE, OR POLICY**

Section 33-1006, and 33-1501 through 33-1512, Idaho Code  
IDAPA 08.02.02.004, 150 - .190, Rules Governing Uniformity – Standards for Idaho School Buses and Operations

**BACKGROUND/DISCUSSION**

The National School Transportation Specifications and Procedures were changed and approved at the 16<sup>th</sup> National Congress on School Transportation in May of 2015. The revised edition of the incorporated by reference document, Standards for Idaho School Buses and Operations (SISBO), reflects the changes from the national level. Additional language was added to clarify, or to reflect manufacturing or operational procedures. The changes to SISBO include: the reformatting of school bus specifications from bus body and bus chassis standards to an integrated bus standard as well as the actual specifications, alternative fuels, school bus inspections, general operations, disabilities-special health care, Idaho School Bus Withdrawal from Service Standards, and others. Furthermore, changes to the bus bidding process, general language revision, proration of non-conforming vehicles, and the reinstatement of field trip mileage, shuttle, training, and maintenance mileage was included. The rule will reflect a new approval date of the SISBO by the State Board of Education (Board).

Pending Rule docket no. 08-0202-1605 was approved by the Board in November 2016. However, it was rejected by Legislature during the 2017 session due to concerns brought forth by constituents regarding the proration and removal of non-reimbursable expenses related to non-school buses used to transport students. Unfortunately, the concern was not one that could be remedied through a change

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

to SISBO. Rather, it would have required an amendment to Section 33-1006, Idaho Code.

A Notice of Intent to Promulgate Rules was published in the April 5, 2017, edition of the Administrative Bulletin. Six (6) public meetings were held across the state between April 11 and 20, 2017, during which any member of the public could provide verbal or written feedback on the suggested amendments to the incorporated document. No comments were received during the public meetings. One (1) written comment was received through the Department's public comment online submission form.

**IMPACT**

According to the statement of purpose for 2017 Senate Bill 1123, the financial impact of the reinstatement of field trip mileage is estimated to be between \$2.25 million and \$2.5 million per year.

The financial impact of the reinstatement of shuttle, training, and maintenance mileage is estimated to be approximately \$958,000.

**ATTACHMENTS**

Attachment 1 – Proposed Rule, Docket No. 08-0202-1702	Page 5
Attachment 2 – Revised Standards for Idaho School Buses and Operations	Page 6

**STAFF COMMENTS AND RECOMMENDATIONS**

Section 33-1006, Idaho Code sets out the provisions for Idaho's public school transportation support program. In 2009, House Bill 256 amended the transportation support program limiting reimbursable transportation to transportation directly associated with transporting students for the purpose of regular school attendance. Prior to this time school districts could be reimbursed with activities associated with class room activities, such as field trips. The 2017 Legislature approved amendments to the transportation support program (SB1123) reinstating language that would allow school districts to be reimbursed for transportation associated with classroom activities. The proposed amendments include provisions brought forward and approved by the Board in 2016 and reinstates provisions regarding the reimbursement of miles for field trips that was removed from the Standards for Idaho School Buses and Operations in 2009 due to the statutory changes.

Once approved by the Board, proposed rules are published in the Administrative Bulletin. Publication of the proposed rule starts the 21-day public comment period. At the close of the public comment period, based on comments received and Board direction, changes may be made to proposed rules prior to entering the pending stage. All pending rules are brought back to the board for approval prior to re-submittal to the Department of Administration for publication as a pending (or final rule) in the Idaho Administrative Bulletin. The Department of Administration

**STATE DEPARTMENT OF EDUCATION

**IDAPA 08  
TITLE 02  
CHAPTER 02**

**08.02.02 - RULES GOVERNING UNIFORMITY**

**000. LEGAL AUTHORITY.**

All rules in IDAPA 08.02.02, “Rules Governing Uniformity,” are promulgated pursuant to the authority of the State Board of Education under Article IX, Section 2 of the Idaho Constitution and under Sections 33-105, 33-107, 33-116, and 33-1612, Idaho Code. Specific statutory references for particular rules are also noted as additional authority where appropriate. (7-1-02)

**001. TITLE AND SCOPE.**

**01. Title.** These rules shall be known as IDAPA 08.02.02, “Rules Governing Uniformity.” (4-5-00)

**02. Scope.** Uniform standards and governance by the State Board of Education pertinent to Teacher Certification, School Facilities, Accreditation, Transportation, School Release Time, Driver’s Education and Juvenile Detention Centers. (7-1-02)

**002. WRITTEN INTERPRETATIONS.**

In accordance with Section 67-5201(19)(b)(iv), Idaho Code, any written interpretations of the rules of this chapter are available at the Office of the State Board of Education located at 650 W. State St., Room 307, Boise, Idaho 83702. (7-1-02)

**003. ADMINISTRATIVE APPEALS.**

Unless otherwise provided for in these rules, administrative appeals are by written application to the State Board of Education pursuant to IDAPA 08.01.01, “Rules of the State Board of Education and Board of Regents of the University of Idaho – Administrative Procedures and Records,” Section 050. (3-14-05)

**004. INCORPORATION BY REFERENCE.**

The State Board of Education adopts and incorporates by reference into its rules: (5-8-09)

**01. Idaho Standards for the Initial Certification of Professional School Personnel as approved on June 16, 2016.** Copies of this document can be found on the Office of the State Board of Education website at <http://www.boardofed.idaho.gov>. (3-29-17)

**02. Standards for Idaho School Buses and Operations as approved on ~~June 23, 2011~~ August 10, 2017.** The Standards for Idaho School Buses and Operations are available at the Idaho State Department of Education, 650 W. State St., Boise Idaho, 83702 and can also be accessed electronically at <http://www.boardofed.idaho.gov>. (~~3-29-12~~)

**03. Operating Procedures for Idaho Public Driver Education Programs as approved on June 16, 2016.** The Operating Procedures for Idaho Public Driver Education Programs are available at the Idaho State Department of Education, 650 W. State St., Boise, Idaho, 83702 and can also be accessed electronically at <http://www.boardofed.idaho.gov>. (3-29-17)

SDE Field Trip Flow Chart

## STANDARDS FOR IDAHO SCHOOL BUSES AND OPERATIONS

(~~Rule by Reference~~—IDAPA 08.02.02.150-219004.02)

### INTRODUCTION TO SCHOOL BUS CONSTRUCTION STANDARDS

- A. This edition of Standards for Idaho School Buses and Operations – July 1, ~~2012~~2017, is based on the latest report from the ~~Fifteenth-Sixteenth~~ National Congress on School Transportation, ~~Warrensburg, Missouri~~Des Moines, Iowa, May ~~2010~~2015, (National School Transportation Specifications & Procedures) ~~and~~ Title 33, Chapter 1533-1511, Idaho Code).
- B. This portion of Standards for Idaho School Buses and Operations – July 1, ~~2012~~2017, is divided into five sections: ~~Chassis Standards, Body-Idaho School Bus Standards, Standards for Specially Equipped School Buses, Standards for Alternative Fuel for School Buses, and, Removal from Service Criteria~~ and Student Transportation Operations. ~~There are two basic reasons for this format: (1) to define minimum chassis and body standards and (2) to assign responsibility for providing specific equipment. Items delineated in the chassis standards are to be provided by the chassis manufacturer. Items delineated in the body standards are to be provided by the body manufacturer. Most of the items delineated in the Specially Equipped School Bus Section are to be provided by the body manufacturer and most of the requirements for Standards for Alternative Fuel for School Buses are the responsibility of the chassis manufacturer. Therefore, whenever a school district purchases these types of vehicles, special attention must be given to both the chassis specifications and the body specification as they relate to the specific manufacturers.~~
- C. For new vehicles, it is the responsibility of the vehicle manufacturers to certify compliance with applicable federal standards by installing a certification plate in the driver's area on each vehicle. However, as the vehicle is maintained over its useful life, it is the responsibility of those who supervise and perform work on the vehicle to assure on-going compliance with all applicable standards. When routine maintenance checks reveal any unsafe condition as defined in these standards, the school district will remove the vehicle from service and will eliminate the deficiency before returning the vehicle to service. For this reason, maintenance personnel training, quality components, quality workmanship and thorough maintenance records are essential.

## STATUTORY AUTHORITY

- A. The State Board of Education (~~SBOE~~) shall adopt, publish and distribute, and from time to time as need therefore arises, amend, minimum standards for the construction of school buses, the basis of which standards shall be those incorporated in the latest report of the National Conference on School Transportation, which report shall be filed with the Idaho State Police (Section 33-1511, Idaho Code).
- B. -All school buses shall at all times conform to the standards of construction prescribed therefore by the ~~state board of education SBOE~~. Before any newly acquired school bus is used for transporting ~~pupil~~students, it shall be inspected by a duly authorized representative of the ~~s~~State ~~d~~Department of ~~e~~Education (~~SDE~~); ~~and if~~, upon inspection, it conforms to prescribed standards of construction, or such other standards prescribed by law or regulation, it may be used for transporting ~~pupil~~students; otherwise, no such school bus shall be used for that purpose. The ~~B~~oard of ~~T~~rustees of each school district shall provide for an annual inspection of all school buses by district personnel or upon contract at intervals of not more than twelve (12) months. The district, over the signature of the superintendent, shall file with the ~~state department of education SDE~~ its report of inspection of the school buses operated by the authority of the school district. At intervals of not more than sixty (60) days during each school year, the board of trustees shall cause inspection to be made of all school buses operating under the authority of the board. In addition, the ~~state department of education SDE~~ shall conduct random, spot inspections of school buses throughout the school year. Whenever any school bus is found, upon inspection, to be deficient in any of the prescribed standards, or is found in any way to be unsafe or unfit for the transportation of ~~pupil~~students, such vehicle shall be withdrawn from service and shall not be returned to service until the district certifies the necessary repairs have been made (Section 33-1506, Idaho Code).
- C. Section 33-1506, Idaho Code, requires the filing of inspections to the SDE of all school buses as defined in Sections 49-120(5) and 33-1504, Idaho Code. School buses shall not be removed from SDE inventory unless the bus is being decommissioned in accordance with Section 49-1422, Idaho Code.
- G.D. Administrative Rules of the State Board of Education: Idaho Administrative Procedures Act (IDAPA) 08.02.02.004.02, 08.02.02.150 and IDAPA-08.02.02.160.

## RESPONSIBILITIES OF SUPPLIERS

Delivery Requirements: The school bus manufacturer shall provide the following materials to the purchaser of a new school bus at the time the unit is delivered to the purchasing school district or contractor. Also, the new school bus dealer, school district or contractor shall temporarily provide the following materials to the state school bus inspector at the time the unit undergoes its new school bus state inspection:

- A. Line set tickets for each bus built: ~~as a complete unit, and a separate set of line set tickets for buses manufactured in two pieces.~~
- B. A copy of a completed pre-delivery inspection (PDI) form for each individual unit:

- C. Warranty book and statement of warranty for each individual unit (Note: All warranties shall commence on the day that the purchaser accepts possession of the completed bus.);
- D. Service manual (or related resource) for each individual unit or group of identical units.;
- E. Parts manual (or related resource) for each individual unit or group of identical units.;  
and
- F. A copy of district bid specifications with the dealerships comments.

## DEFINITIONS

### A. National School Transportation Specifications & Procedures – School Bus Types

#### 1. Type A

A Type "A" school bus is a van conversion or bus constructed utilizing a cutaway front-section vehicle with a left side driver's door. The entrance door is behind the front wheels. This definition includes two (2) classifications: Type A-1, with a Gross Vehicle Weight Rating (GVWR) less than or equal to fourteen thousand five hundred (14,500) pounds; and Type A-2, with a GVWR greater than fourteen thousand five hundred (14,500) pounds and less than or equal to twenty-one thousand five hundred (21,500) pounds.

#### ~~2. Type B~~

~~A Type "B" school bus is constructed utilizing a stripped chassis. The entrance door is behind the front wheels. This definition includes two classifications; Type B1, with a GVWR less than or equal to 10,000 pounds; and Type B2, with a GVWR greater than 10,000 pounds.~~

#### ~~3.2.~~ Type C

A Type "C" school bus is constructed utilizing a chassis with a hood and front fender assembly. The entrance door is behind the front wheels also known as a conventional style school bus. This type also includes ~~the cut away a~~ truck chassis ~~or truck chassis with cab with or without a left side door and~~ with a GVWR greater than twenty-one thousand five hundred (21,500) pounds.

#### ~~4.3.~~ Type D

A Type "D" school bus is constructed utilizing a stripped chassis. The entrance door is ahead of the front wheels also known as a rear engine or front engine transit style school bus.

**B. Code of Federal Regulations, 49 CFR Part 390.5 - Definitions**

1. **Bus** means any motor vehicle designed, constructed, and/or used for the transportation of passengers, including taxicabs.
2. **School bus** means a passenger motor vehicle, which is designed or used to carry more than ten (10) passengers in addition to the driver, and which the U.S. Secretary of Transportation determines is likely to be significantly used for the purpose of transporting preprimary, primary, or secondary school students to such schools from home or from such schools to home.
3. **School bus operation** means the use of a school bus to transport only school children and/or personnel from home to school and from school to home.

**C. ~~Idaho Code Section 33-1504~~, Idaho Code - School Buses**

A motor vehicle shall be deemed a "school bus" when it has a seating capacity of more than ten (10) persons and meets the current national and state minimum standards for school bus construction, and is owned and operated by a school district or a common carrier and is used exclusively for transporting pupilstudents, or is owned by a transportation contractor and is used regularly for transporting pupilstudents.

**D. ~~Idaho Code Section 49-120 (5)~~, Idaho Code – School Buses**

"School bus" means every motor vehicle that complies with the color and identification requirements set forth in the most recent edition of "Minimum Standards for School Buses" and is used to transport children to or from school or in connection with school approved activities and includes buses operated by contract carriers.

**E. Technology and Equipment, New**

1. It is the intent of these standards to accommodate new technologies and equipment that will better facilitate the transportation of all students. When a new technology, piece of equipment or component is desired to be applied to the school bus and it meets the following criteria, it may be acceptable.
2. The technology, equipment or component shall not compromise the effectiveness or integrity of any major safety system, unless it completely replaces the system. (Examples of safety systems include, but are not limited to, compartmentalization, the eight-lamp warning system, emergency exits, and the yellow color scheme.)
3. The technology, equipment or component shall not diminish the safe environment of the interior of the bus.
4. The technology, equipment or component shall not create additional risk to students who are boarding or exiting the bus or are in or near the school bus loading zone.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

5. The technology, equipment or component shall not create undue additional activity and/or responsibility for the driver.
6. The technology, equipment or component shall generally increase efficiency and/or safety of the bus, or generally provide for a safer or more pleasant experience for the occupants and pedestrians in the vicinity of the bus or generally assist the driver or make his/her many tasks easier to perform.

## **WAIVERS**

The State Board of Education ([SBOE](#)) may grant a waiver of any construction standard not required by state or federal law to any school district, school bus manufacturer, or school bus dealer upon written request. Written requests shall be submitted to the State Department of Education Student Transportation staff which shall make an appropriate recommendation to the ~~State Board of Education SBOE~~ [subsequent to review by the Student Transportation Steering Committee](#). The Board will not grant waivers of any construction standard required by state or federal law. State and federal law includes case law (including consent decrees), statutes, constitutions, and federal regulations. ~~([IC Section 33-1506](#), [Idaho Code](#), IDAPA 08.02.01.001).~~

## IDAHO SCHOOL BUS CHASSIS STANDARDS

### A. Air Cleaner

1. A dry element type air cleaner shall be provided.
2. All diesel engine air filters shall include a latch-type restriction indicator that retains the maximum restriction developed during operation of the engine. The indicator should include a reset control so the indicator can be returned to zero when desired. Type A buses are not exempt from this requirement.

### B. Air Conditioning (Non-Reimbursable Option – see exception)

1. ~~Chassis installed a~~ Air conditioning must meet the ~~same~~ requirements ~~as those~~ cited in the bus body standards under “~~Heat~~~~ersing~~ and Air Conditioning ~~Systems~~.”
2. Reimbursement Exception: Air conditioning shall be reimbursable under the ~~pupil~~student transportation support program when the school district can demonstrate a need subsequent to ~~an~~Individuals with Disabilities Education Act (IDEA) mandated related service and where a cooling vest would not be sufficient.

### C. Aisle

All emergency exit doors shall be accessible by a ~~twelve (12)~~ inches minimum aisle. The aisle shall be unobstructed at all times by any type of barrier, seat, wheelchair, or tie down. Flip seats are not allowed.

### D. Axles

The front and rear axle and suspension systems shall have gross axle weight rating (GAWR) at ground commensurate with the respective front and rear weight loads of the bus loaded to the rated passenger capacity.

### E. Back-Up Warning Alarm

An automatic audible alarm shall be installed behind the rear axle, providing a minimum of 112 dBA, and shall comply with the published Backup Alarm Standards (Society of Automotive Engineers (SAE) J994B), ~~providing a minimum of 112 dBA, or shall have a variable volume feature that allows the alarm to vary from 87 dBA to 112 dBA sound level, staying at least 5 dBA above the ambient noise level.~~

### F. Battery

Buses may be equipped with a battery shut-off switch. The switch is to be placed in a location not readily accessible to the driver or passengers.

## G. Brakes (General)

1. The ~~chassis~~-brake system shall conform to the provisions of [the Federal Motor Vehicle Safety Standards \(FMVSS\) No. 105, No. 106 and No. 121](#) as applicable. All buses shall have either a parking pawl in the transmission or a park brake interlock that requires the service brake to be applied to allow release of the parking brake.
2. The anti-lock brake system (ABS), provided in accordance with FMVSS No. 105 or No. 121, shall provide wheel speed sensors for each front wheel and for each wheel on at least one rear axle. The system shall provide anti-lock braking performance for each wheel equipped with sensors (Four Channel System).
3. All brake systems should be designed to permit visual inspection of brake lining wear without removal of any chassis component(s).
4. The brake lines, booster-assist lines, and control cables shall be protected from excessive heat, vibration and corrosion and installed in a manner which prevents chafing.
5. The parking brake system for either air or hydraulic service brake systems may be of a power assisted design. The power parking brake actuator should be a device located on the instrument panel within seated reach of a 5th percentile female driver ([FMVSS No. 208](#)). As an option, the parking brake may be set by placing the automatic transmission shift control mechanism in the “park” position.
6. The power-operated parking brake system may be electronically interlocked to the engine key switch. Once the parking brake has been set and the ignition switch turned to the “off” position, the parking brake cannot be released until the key switch is turned back to the “on” position.

## H. Brakes (Hydraulic)

~~Buses using a hydraulic assist brake shall be equipped with audible and visible warning signals that provide a continuous warning to the driver of loss of fluid flow from the primary source and of a failure of the back-up pump system. Buses using hydraulic-assist brakes shall meet requirements of FMVSS No.105. -Type A and B~~ buses may be [an Original Equipment Manufacturer \(OEM\)](#) standard.

## I. Brakes (Air)

The air pressure supply system shall include a desiccant-type air dryer installed according to the manufacturers’ recommendations. The air pressure storage tank system may incorporate an automatic drain valve.

1. The ~~chassis~~-manufacturer should provide an accessory outlet for air-operated systems ~~installed by the body manufacturer~~. This outlet shall include a pressure protection valve to prevent loss of air pressure in the service brake reservoir.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. For air brake systems, an air pressure gauge shall be provided in the instrument panel capable of complying with [Idaho Commercial Driver's License \(CDL\)](#) pre-trip inspection requirements.
3. Air brake-equipped buses may be equipped with a service brake interlock. If so equipped, the parking brake shall not release until the brake pedal is depressed.
4. Air brake systems shall include a system for anti-compounding of the service brakes and parking brakes.
5. Air brakes shall have both a visible and audible warning device whenever the air pressure falls below the level where warnings are required under FMVSS No. 121.

**J. Bumper (Front)**

1. All school buses shall be equipped with a front bumper. ~~The front bumper shall be furnished by the chassis manufacturer as part of the chassis on all school bus types unless there is a specific arrangement between the chassis manufacturer and body manufacturer.~~
2. The front bumper shall be of pressed steel channel or equivalent material ~~{except Type A-1 buses having a GVWR of [fourteen thousand five hundred \(14,500\)](#) pounds or less which may be OEM supplied}~~ at least ~~three-sixteenths (3/16)"~~ [inch](#) thick and not less than eight ~~(8)~~ inches wide (high). It shall extend beyond forward-most part of the body, grille, hood, and fenders and shall extend to outer edges of the fenders at the bumper's top line.
3. Type A buses having a GVWR of [fourteen thousand five hundred \(14,500\)](#) pounds or less may be equipped with an OEM-supplied front bumper. The front bumper shall be of sufficient strength to permit being pushed by another vehicle on a smooth surface with a five ~~(5)~~ degree (8.7 percent) grade, without permanent distortion. The contact point on the front bumper is intended to be between the frame rails, with as wide a contact area as possible if the front bumper is used for lifting, the contact points shall be under the bumper attachments to the frame rail brackets unless the manufacturer specifies different lifting points in the owner's manual. Contact and lifting pressures should be applied simultaneously at both lifting points.
4. Front bumper, except breakaway bumper ends, shall be of sufficient strength to permit pushing a vehicle of equal gross vehicle weight without permanent distortion to the bumper, chassis, or body.
5. A towing device (hooks, eyes, and bar) shall be furnished on all school bus types and attached so as not to project beyond the front bumper. Towing devices attached to the frame chassis shall be furnished by the chassis manufacturer. This installation shall be in accordance with the chassis manufacturer's specifications. Tow hooks or eyes shall have an individual strength rating of [thirteen thousand five hundred \(13,500\)](#) pounds each, for a combined rating of [twenty-seven thousand \(27,000\)](#) pounds. For pulling and lifting purposes, tow

hooks are meant to be used simultaneously. For pulling, angularity applied to the tow hooks will decrease the capacities of the tow hooks.

**NOTE:** Type A buses are exempt from this requirement for front tow hooks or eyes due to built-in crush zones. ~~Rear tow devices are addressed in the Bus Body Specifications under Towing Attachments Points.~~

6. The bumper shall be designed or reinforced so that it will not deform when the bus is lifted by a chain that is passed under the bumper (or through the bumper if holes are provided for this purpose) and attached to the towing (~~†~~Type A may be OEM) device(s). For the purpose of meeting this specification, the bus shall be empty and positioned on a level, hard surface and the towing device(s) shall share the load equally.

#### K. Bumper (Rear)

1. The bumper on Type A-1 bus shall be a minimum of eight (8) inches wide (high) and Type A-2, ~~B~~, C, and D bus bumper shall be a minimum of nine and one-half (9 ½) inches wide (high). The bumper shall be of sufficient strength to permit being pushed by another vehicle of similar size or lifted without permanent distortion.
2. The bumper shall wrap around back corners of the bus. It shall extend forward at least twelve (12) inches, measured from the rear-most point of the body at the floor line, and shall be flush-mounted to body sides or protected with an end panel.
3. The bumper shall be attached to the chassis frame in such a manner that it may be removed. It shall be braced to resist deformation of the bumper resulting from impact from the rear or side. It shall be designed to discourage hitching of rides by an individual.
4. The bumper shall extend at least one (1) inch beyond the rear-most part of the body surface measured at the floor line.
5. The bottom of the rear bumper shall not be more than thirty (30) inches above ground level.

#### L. Certification

The ~~chassis manufacturer~~ "seller of the new bus", upon request of the ~~Idaho State Department of Education SDE~~ Student Transportation Department, shall certify that its product meets all Idaho minimum construction standards (Standards for Idaho School Buses and Operations) ~~on for~~ items not covered by the FMVSS certification requirements of 49 CFR, Part 567.

- a. ~~The body manufacturer upon request of the Idaho State Department of Education Student Transportation Section shall certify that its product meets all Idaho minimum construction standards (Standards for Idaho School Buses and~~

STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017

~~Operations) for items not covered by the FMVSS certification requirements of 49 CFR, Part 567.~~

**M. Clutch**

- ~~a. Clutch torque capacity shall be equal to or greater than the engine torque output.~~
- ~~b. A starter interlock shall be installed to prevent actuation of the starter if the clutch pedal is not depressed.~~

**N.M. Color**

1. The chassis, including axle hubs and front bumper, shall be black. Body cowl, hood, and fenders shall be in national school bus yellow (NSBY). The flat top surface of the hood may be non-reflective black or non-reflective NSBY, according to School Bus Manufacturers Technical Council publication - 008.
2. The entire rub rail and body exterior paint trim shall be black. Entrance door exterior (excluding glass) shall be NSBY or black, or unpainted aluminum. Passenger and driver window frames shall be painted NSBY, black to match body trim, or shall be unpainted aluminum. The area between the passenger and driver window frames shall be NSBY.
3. Optionally, the roof of the bus may be painted white (non-reimbursable) except that the front and rear roof caps shall remain NSBY, according to National School Transportation Specifications & Procedures Placement of Reflective Markings. If required by automated painting processes a maximum three (3) inch black transition strip is allowed between the white roof cap and the NSBY body paint above the windows.
4. Rims ~~may shall~~ be gray or black ~~as received from the manufacturer~~.
5. Multi-Function School Activity Buses (MFSABs) shall be exempt from these requirements.

**O.N. Communications**

All school buses used to transport students shall be equipped with two-way voice communication ~~or SDE pre-approved device~~ other than CB radios.

**P.O. Construction**

1. **Side Intrusion Test:** The bus body shall be constructed to withstand an intrusion force equal to the curb weight of the vehicle, or exceed twenty thousand (20,000) pounds, whichever is less. Each vehicle shall be capable of meeting this requirement when tested in accordance with the procedures set forth below.
2. The complete body structure, or a representative seven-body section mock up with seats installed, shall be load-tested at a location twenty-four (24) inches

plus or minus two (2) inches above the floor line, with a maximum ten (10)-inch diameter cylinder, forty-eight (48)-inches long, mounted in a horizontal plane.

3. The cylinder shall be placed as close as practical to the mid-point of the tested structure, spanning two (2) internal vertical structural members. The cylinder shall be statically loaded to the required force of curb weight or twenty thousand (20,000) pounds, whichever is less, in a horizontal plane with the load applied from the exterior toward the interior of the test structure. Once the minimum load has been applied, the penetration of the loading cylinder into the passenger compartment shall not exceed a maximum of ten (10) inches from its original point of contact. There can be no separation of lapped panels or construction joints. Punctures, tears or breaks in the external panels are acceptable but are not permitted on any adjacent interior panel.
4. Body companies shall certify compliance with this intrusion requirement, including test results, if requested.
5. Construction shall be reasonably dust-proof and watertight.

**P. Crossing Control Arm (Optional)**

1. Buses may be equipped with a crossing control arm mounted on the right side of the front bumper. This arm when opened shall extend in a line parallel with the body side and positioned on a line with the right side wheels.
2. All components of the crossing control arm and all connections shall be weatherproofed.
3. The crossing control arm shall incorporate system connectors (electrical, vacuum or air) at the gate and shall be easily removable to allow for towing of the bus.
4. The crossing control arm shall be constructed of noncorrosive or nonferrous material or treated in accordance with the body sheet metal specifications (see METAL TREATMENT).
5. There shall be no sharp edges or projections that could cause injury or be a hazard to students. The end of the arm shall be rounded.
6. The crossing control arm shall extend a minimum of seventy (70) inches (measured from the bumper at the arm assembly attachment point) when in the extended position.
7. The crossing control arm shall extend simultaneously with the stop arm(s) by means of the stop arm controls.
8. An automatic recycling interrupt switch should be installed for temporary disabling of the crossing control arm.

9. The assembly shall include a device attached to the bumper near the end of the arm to automatically retain the arm while in the stowed position. That device shall not interfere with normal operations of the crossing control arm.

**Q. Defrosters**

1. Defrosting and defogging equipment shall direct a sufficient flow of heated air onto the windshield, the window to the left of the driver and the glass in the viewing area directly to the right of the driver to eliminate frost, fog and snow. **Exception:** The requirement of this standard does not apply to the exterior surfaces of double pane storm windows.
2. The defrosting system shall conform to SAE J381.
3. The defroster and defogging system shall be capable of furnishing heated, outside ambient air, except that the part of the system furnishing additional air to the windshield, entrance door and step well may be of the recirculating air type.
4. Auxiliary fans are not considered defrosting or defogging systems.

**R. Doors, Entrance**

1. The entrance door shall be in the driver's control, designed to afford easy release and to provide a positive latching device on manual operating doors to prevent accidental opening. When a hand lever is used, no part shall come together that will shear or crush fingers. Manual door controls shall not require more than twenty-five (25) pounds of force to operate at any point throughout the range of operation, as tested on a ten\_40-percent (10%) grade both uphill and downhill.
2. The entrance door shall be located on the right side of the bus, opposite and within direct view of driver.
3. The entrance door shall have a minimum horizontal opening of twenty-four (24) inches and a minimum vertical opening of sixty-eight (68) inches.
4. The entrance door shall be a split-type door and shall open outward.
5. All entrance door glass shall be of approved safety glass. The bottom of each lower glass panel shall not be more than ten (10) inches from the top surface of the bottom step. The top of each upper glass panel when viewed from the interior shall not be more than three (3) inches below the interior door control cover or header pad.
6. Vertical closing edges on entrance doors shall be equipped with flexible material to protect children's fingers.
7. There shall be no door to left of driver on Type **B**, C or D vehicles. All Type A vehicles may be equipped with the chassis manufacturer's standard left-side door.

8. All doors shall be equipped with padding at the top edge of each door opening. Padding shall be at least three (3) inches wide and one (1) inch thick and extend the full width of the door opening.
9. On power-operated entrance doors, the emergency release valve, switch or device to release the entrance door must be placed above or to the immediate left or right of the entrance door and must be clearly labeled. The emergency valve, switch or device shall work in the absence of power.

## S. Drive Shaft

The drive shaft shall be protected by a metal guard or guards around the circumference of the drive shaft to reduce the possibility of its whipping through the floor or dropping to the ground, if broken.

## T. Electrical System

### ~~1. Battery:~~

- ~~a. The storage battery shall have minimum cold cranking capacity rating (cold cranking amps) equal to the cranking current required for 30 seconds at 0 degrees Fahrenheit and a minimum reserve capacity rating of 120 minutes at 25 amps. Higher capacities may be required, depending upon optional equipment and local environmental conditions.~~
- ~~b. Since all batteries are to be secured in a sliding tray in the body (type A and B buses may be OEM), chassis manufacturers shall temporarily mount the battery on the chassis frame, except that van conversion or cutaway front-section chassis may be secured in accordance with the manufacturer's standard configuration. In these cases, the final location of the battery and the appropriate cable lengths shall be agreed upon mutually by the chassis and body manufacturer. However, in all cases the battery cable provided with the chassis shall have sufficient length to allow some slack, and be of sufficient gauge to carry the required amperage.~~

### 1. Battery

- a. The manufacturer shall securely attach the battery on a slide-out or swing-out tray in a closed, vented compartment in the body skirt or chassis frame so that the battery is accessible for convenient servicing from the outside. When in the stored position, the tray shall be retained by a securing mechanism capable of holding the tray [with battery(ies)] in position when subjected to a 5g load from any direction. The battery compartment door or cover if separate from the tray shall be hinged at the front or top. It shall be secured by a positive operated latching system or other type fastener. The door may be an integral part of the battery slide tray. The door or cover must fit tightly to the body, and not present sharp edges or snagging points. Battery cables shall meet SAE requirements. Battery cables

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

shall be of sufficient length to allow the battery tray to fully extend.  
Any chassis frame mounted batteries shall be relocated to a battery compartment on Type A buses.

a.b. If equipped with a battery disconnect switch it shall not interfere with the backup portion of a hydraulic brake system.

2. Alternator:

a. All Type A-2 buses ~~and Type B buses~~ with a GVWR of fifteen thousand (15,000) lbs. pounds or less shall have, at a minimum, a one hundred thirty (130) ampere alternator. Buses equipped with an electrically powered wheelchair lift and/or air conditioning shall be equipped with the highest rated capacity available from the chassis OEM.

b. Types A-2 ~~and Type B~~ buses over fifteen thousand (15,000) lbs. pounds GVWR and all Type C and D buses shall be equipped with a heavy-duty truck or bus-type alternator, having a minimum output rating of ~~160 two hundred (200)~~ amperes or higher, and should produce a minimum current output of ~~fifty 50~~ percent (50%) of the rating at engine idle speed.

c. All other buses than those described in ~~B1-2.a.~~ Buses equipped with an electrically powered wheelchair lift and/or air conditioning ~~or other accessories shall have a minimum alternator output of two hundred forty (240) amperes and~~ may be equipped with a device that ~~monitors the electrical system voltage and~~ advances the engine idle speed when the voltage drops to, or below, a pre-set level.

~~d. Buses equipped with an electrically powered wheelchair lift, air conditioning or other accessories may be equipped with a device that monitors the electrical system voltage and advances the engine idle speed when the voltage drops to, or below, a pre-set level.~~

~~e. A belt alternator drive shall be capable of handling the rated capacity of the alternator with no detrimental effect on any other driven components. (See SBMTC; "School Bus Technical Reference," for estimating required alternator capacity, available at <http://www.nasdpts.org>)~~

~~f. A direct drive alternator is permissible in lieu of a belt driven alternator.~~

3. Wiring:

a. All wiring shall conform to current ~~applicable recommended practices of the Society of Automotive Engineers (SAE)~~ standards.

b. All wiring shall use color and at least one other method of identification. The other method shall be either a number code or name code, and each chassis shall be delivered with a wiring diagram that illustrates the wiring of the chassis.

c. The chassis manufacturer shall install a readily accessible terminal strip or plug on the body side of the cowl or in an accessible location in the engine compartment of vehicles designed without a cowl. The strip or plug shall contain the following terminals for the body connections:

- 1) Main 100-ampere body circuit;
- 2) Tail lamps;
- 3) Right turn signal;
- 4) Left turn signal;
- 5) Stop lamps;
- 6) Back up lamps; and
- 7) Instrument panel lamps (rheostat controlled).

d. Multiplex wiring is recommended and may exempt manufacturers from some of the above wiring standards.

4. Circuits:

- a. An appropriate identifying diagram (color plus a name or number code) for all chassis electrical circuits shall be provided to the body manufacturer for distribution to the end user.
- b. The headlamp system must be wired separately from the body-controlled solenoid.
- c. Multiplex wiring is recommended and may exempt manufacturers from some of the above circuitry standards.

5. Daytime Running Lamps (DRL): A daytime running lamps system meeting chassis manufacturer's specifications shall be provided.

6. Switches: All control switches shall be labeled to identify their function.

## U. Emergency Exits and Emergency Exit Alarm Systems

1. Any installed emergency exits and all exit alarm systems shall comply with the requirements of FMVSS No. 217 and 49 CFR Part 571.217.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. The upper portion of the emergency door shall be equipped with approved safety glazing, the exposed area of which shall be at least four hundred (400) square inches. The lower portion of the rear emergency doors on Types A-2, ~~B~~, C, and D vehicles shall be equipped with a minimum of three hundred fifty (350) square inches of approved safety glazing.
3. There shall be no steps leading to an emergency door.
4. The words "~~EMERGENCY DOOR~~" or EMERGENCY EXIT," in letters at least two (2") inches high, shall be placed at the top of or directly above the emergency exit, ~~or on the door in on~~ the ~~metal~~ panel above the top glass, both inside and outside the bus.
5. The emergency door(s) shall be equipped with padding at the top edge of each door opening. Padding shall be at least three (3) inches wide and one (1) inch thick, and shall extend the full width of the door opening.
6. There shall be no obstruction higher than one-quarter (1/4) inch across the bottom of any emergency door opening. Fasteners used within the emergency exit opening, shall be free of sharp edges or burrs.
7. ~~(In accordance with Federal Regulations Title 49 CFR 571.217 e)~~ Each school bus shall have the designation "Emergency Door" or "Emergency Exit," as appropriate, in letters at least five (5) centimeters high, of a color that contrasts with its background. For emergency exit doors, the designation shall be located at the top of, or directly above, the emergency exit door on both the inside and outside surfaces of the bus. Concise operating instructions describing the motions necessary to unlatch and open the emergency exit shall be located within ~~sixteen (16)~~ (fifteen) 15 centimeters of the release mechanism on the inside surface of the bus. These instructions shall be in letters at least one (1) centimeter high and of a color that contrasts with its background. [Examples: (1) Lift to Unlatch, Push to Open; (2) Turn Handle, Push Out to Open.] Outside may consist of a black arrow pointing in direction of handle travel. No other lettering shall obstruct or interfere with the placement of operation instructions mounted on the interior or exterior of the emergency exit door.
8. The rear emergency window shall have a lifting assistance device that will aid in lifting and holding the rear emergency window open.
9. Each emergency exit door of a school bus shall be equipped with a positive door opening device that, after the release mechanism has been operated, bears the weight of the door; keeps the door from closing past the point at which the door is perpendicular to the side of the bus body, regardless of the body's orientation; and provides a means for release or override. The positive door opening device shall perform the functions ~~specified in paragraph (a)(3)(i) (A) and (B)~~ of this section without the need for additional action beyond opening the door past the point at which the door is perpendicular to the side of the bus body ~~(Emergency door(s) holder—language (49 CFR Part 571.217, S.5.4.2.1(a) Emergency Exit Doors).~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

10. Types A, B, C, and D vehicles shall be equipped with a total number of emergency exits as follows for the indicated **actual passenger** capacities of vehicles. Exits required by FMVSS No. 217 may be included to comprise the total number of exits specified.

<u>Number of Passengers</u>	<u>Number of Emergency Exits per Side</u>	<u>Number of Roof Hatches</u>
<u>0 - 42</u>	<u>1</u>	<u>1</u>
<u>43 - 78</u>	<u>2</u>	<u>2</u>
<u>79 - 90</u>	<u>3</u>	<u>2</u>

- ~~• Zero to 42 Passengers = one emergency exit per side and one roof hatch.~~
- ~~• 43 to 78 Passengers = two emergency exits per side and two roof hatches.~~
- ~~• 79 to 90 Passengers = three emergency exits per side and two roof hatches.~~

~~40.11.~~ Side emergency exit windows, when installed, may be vertically hinged on the forward side of the window. Operation instructions shall be clearly readable of a contrasting color, and be located within ~~six inches~~ fifteen (15) centimeters of the release mechanism. No side emergency exit window will be located above a stop arm. Emergency exit doors, side emergency exit windows and emergency exit roof hatches shall be strategically located for optimal egress during an emergency evacuation of the bus.

~~44.12.~~ Emergency exit doors shall include an alarm system that includes an audible warning device at the emergency door exit and also in the driver's compartment. Emergency exit side windows shall include an alarm system that includes an audible warning device in the driver's compartment. Roof hatches do not require an alarm system, but if so equipped, they must be operable and include an audible warning device in the driver's compartment.

~~42.13.~~ Vandal lock may be installed. ~~if~~ if applicable, the interlock and vandal lock ~~should~~ shall be interconnected.

## V. Emergency Equipment

### 1. Fire extinguisher:

- a. The bus shall be equipped with at least one (1) UL-approved pressurized, dry chemical fire extinguisher complete with hose. The extinguisher shall be mounted and secured in a bracket, located in the driver's compartment and readily accessible to the driver and passengers. A pressure gauge shall be mounted on the extinguisher and be easily read without moving the extinguisher from its mounted position. Fire extinguisher shall be mounted in such a way as to prevent the entanglement of clothing, backpack straps, drawstrings, etc.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- b. The fire extinguisher shall have a total rating of 2A10BC or greater. The operating mechanism shall be sealed with a type of seal (breakable) that will not interfere with the use of the fire extinguisher.
2. First-aid kit:
- a. The bus shall have an easily removable, metal moisture-proof and dustproof first aid kit sealed with a breakable type seal and mounted in the driver's compartment in a location that is physically accessible to all drivers. It shall be properly mounted and secured and identified as a first aid kit. ~~The location for the first aid kit shall be marked.~~ First-aid kit shall be mounted in such a way as to prevent the entanglement of clothing, backpack straps, drawstrings, etc.
  - b. Contents shall, at a minimum, include:
    - 1) Two (2) - 1 inch x 2 1/2 yards adhesive tape;
    - 2) Twenty-four (24) -sterile gauze pads, 3 inches x 3 inches;
    - 3) One-hundred (100) - 3/4 inch x 3 inches adhesive bandages;
    - 4) Eight (8) - 2 inch bandage compress;
    - 5) Ten (10) - 3 inch bandage compress;
    - 6) Two (2) - 2 inch x 6 feet sterile gauze roller bandages;
    - 7) Two (2) -non-sterile triangular bandages approximately 39 inches x 35 inches x 54 inches with two (2) safety pins;
    - 8) Three (3) -sterile gauze pads, 36 inches x 36 inches;
    - 9) Three (3) -sterile eye pads;
    - 10) One (1) -rounded-end scissors;
    - 11) One (1) - mouth-to-mouth airway; and
    - 12) One (1) -pair medical examination gloves.
3. Body fluid clean-up kit:
- a. Each bus shall have an easily removable ~~-metal removable~~ and moisture-proof body fluid clean-up kit. It shall be sealed with a breakable type seal. It shall be properly mounted in the driver's compartment in a location that is physically accessible to all drivers and identified as a body fluid clean-up kit. Body fluid clean-up kit shall be mounted in such a way as to prevent the entanglement of clothing, backpack straps, drawstrings, etc.

b. Contents shall, at a minimum, include:

- 1) One (1) –pair medical examination gloves;
- 2) Absorbent;
- 3) One (1) –scoop;
- 4) One (1) –scraper or hand broom;
- 5) Disinfectant; and
- 6) Two (2) –plastic bags.

4. Warning devices:

Each school bus shall contain at least three (3) reflectorized triangle road warning devices that meet requirements in FMVSS No. 125. The warning device(s) shall be enclosed in an approved box that shall be sealed with a breakable type seal. The warning device(s) and approved box shall be mounted in an accessible place within the driver's compartment of the bus and shall be mounted in such a way as to prevent the entanglement of clothing, backpack straps, drawstrings, etc. ~~The lid of the approved box may be designed so as to reveal the contents of the box without opening the lid.~~

5. Any of the emergency equipment may be mounted in an enclosed compartment, provided the compartment is labeled in not less than one (1) inch letters, identifying each piece of equipment contained therein.
6. Tape(s) and silicone sealants do not meet breakable type seal requirement. Breakable type seal(s) shall be replaced as appropriate and necessary and also during every annual school bus inspection following a thorough inspection for deterioration and required contents.
7. Ignitable flares and axes are not allowed on school buses.

~~2. Engine Fire Extinguisher (Non-Reimbursable Option – see exception)~~

~~The chassis manufacturer may provide an automatic fire extinguisher system in the engine compartment, which may be reimbursable with prior approval.~~

**W. Exhaust System**

1. The exhaust pipe, muffler, tailpipe, and after treatment system shall be outside the bus body compartment and attached to the chassis so as not to damage any other chassis component.
2. The tailpipe shall be constructed of a corrosion-resistant tubing material at least equal in strength and durability to 16-gauge steel tubing of equal diameter. The tailpipe may be flush with, but shall not extend out more than two (2) inches

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

beyond the perimeter of the body for side-exit pipe or the bumper for rear-exit pipe.

~~2.3.~~ The tailpipe shall exit to the left or right of the emergency exit door in the rear of vehicle or to the left side of the bus in front or behind the rear drive axle. The tailpipe exit location on school bus Type A-1 may be according to the manufacturer's standard. The tailpipe shall not exit beneath any fuel filler location or beneath any emergency door. Exhaust may exit through the bumper.

~~3.4.~~ Chassis manufacturers shall furnish an exhaust system with tailpipe of sufficient length to exit the rear of the bus or at the left side of the bus body no more than eighteen (18) inches forward of the front edge of the rear wheel house opening. If designed to exit at the rear of the bus, the tailpipe shall extend at least five (5) inches beyond the end of the chassis frame. If designed to exit to the side of the bus, the tailpipe shall extend at least forty-eight and one-half (48½) inches [~~fifty-one and one-half (51½)~~ inches if the body is to be one hundred two (102) inches wide] outboard from the chassis centerline. The tailpipe may be flush with or shall not extend more than two (2) inches beyond the perimeter of the body for side exit or the bumper for rear exit pipe. The exhaust system shall be designed such that exhaust gas will not be trapped under the body of the bus.

~~4. On Types C and D vehicles, the tailpipe shall not exit beneath a fuel fill or emergency door exit.~~

5. Type A ~~and B chassis~~ may be furnished with the manufacturer's standard tailpipe configuration.

~~a. NOTE: See Bus Body Standards under Tailpipe.~~

6. The exhaust system ~~on a chassis~~ shall be adequately insulated from the fuel system.

7. The muffler shall be constructed of corrosion-resistant material.

~~The exhaust system on the chassis may be routed to the left of the right frame rail to allow for the installation of a power lift unit on the right side of the vehicle.~~

8. Exceptions to Idaho exhaust system standards may be necessary in order to comply with changing federal emission standards on school buses. School bus manufacturers may submit a written request for an exception to an Idaho exhaust system standard to the SDE Student Transportation. Any exhaust system exception to standard request must be linked to federal emission standards rationale. ~~The request will then be reviewed by the Student Transportation Steering Committee.~~

9. The design of the after treatment systems shall not allow active (non-manual) regeneration of the particulate filter during the loading and unloading of passengers. Manual regeneration systems will be designed such that unintentional operation will not occur.

10. For after treatment systems that require Diesel Exhaust Fluid (DEF) to meet federally mandated emissions:
  - a. The composition of Diesel Exhaust Fluid (DEF) must comply with International Standard ISO 22241-1. Refer to engine manufacturer for any additional DEF requirements.
  - b. The DEF supply tank ~~should shall~~ be ~~designed~~ sized to meet a minimum ratio of three (3) diesel fills to one (1) DEF fill.

#### **X. Fenders: Front-Type C Vehicles**

1. Total spread of outer edges of front fenders, measured at fender line, shall exceed total spread of front tires when front wheels are in straight-ahead position.
2. Front fenders shall be properly braced and shall not require attachment to any part of the body.

#### **Y. Floors**

1. The floor in the under-seat area, including tops of wheel housing, driver's compartment and toe board, shall be covered with rubber floor covering or equivalent, having a minimum overall thickness of 0.125 inch, and a calculated burn rate of 0.1 mm per minute or less, using the test methods, procedures and formulas listed in FMVSS No. 302. The driver's area on all Type A buses may be manufacturer's standard flooring and floor covering
2. The floor covering in the aisles shall be of aisle-type rubber or equivalent, wear-resistant and ribbed. Minimum overall thickness shall be 0.187 inch measured from tops of ribs.
3. The floor covering must be permanently bonded to the floor and must not crack when subjected to sudden changes in temperature. Bonding or adhesive material shall be waterproof and shall be a type recommended by the manufacturer of floor-covering material. All seams must be sealed with waterproof sealer.
4. On Types ~~B~~, C and D buses, a flush-mounted, screw-down plate that is secured and sealed shall be provided to access the diesel or gasoline fuel tank sending unit and /or fuel pump. This plate shall not be installed under flooring material.

#### **Z. Frame**

1. Any secondary manufacturer that modifies the original chassis frame shall provide a warranty at least equal to the warranty offered by the original equipment manufacturer (OEM), and shall certify that the modification and other parts or equipment affected by the modification shall be free from defects in material and workmanship under normal use and service intended by the OEM.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

2. Frames shall not be modified for the purpose of extending the wheelbase.
3. Holes in top or bottom flanges or side units of the frame, and welding to the frame, shall not be permitted except as provided or accepted by chassis manufacturer.
4. Frame lengths shall be established in accordance with the design criteria for the complete vehicle.

**AA. Fuel System**

1. Fuel tank (or tanks) having a minimum ~~30~~twenty-five (25)-gallon capacity shall be provided by the chassis manufacturer. The tank shall be filled and vented to the outside of the body and the fuel filler should be placed in a location where accidental fuel spillage will not drip or drain on any part of the exhaust system.
2. Fuel lines shall be mounted to the chassis frame in such a manner that the frame provides the maximum possible protections from damage.
3. The fuel system shall comply with FMVSS No. 301.
4. Fuel tank(s) may be mounted between the chassis frame rails or outboard of the frame rails on either the left or right side of the vehicle.
5. The actual draw capacity of each fuel tank shall be, at a minimum, ~~eighty-three~~83 percent (83%) of the tank capacity.
6. Installation of alternative fuel systems, including fuel tanks and piping from tank to engine, shall comply with all applicable fire codes in effect on the date of manufacture of the bus.
7. Installation of liquefied petroleum gas (LPG) tanks shall comply with the National Fire Protection Association, (NFPA) 58: Liquefied Petroleum Gas Code, 2014 Edition.
8. Installation of Compressed Natural Gas (CNG) containers shall comply with FMVSS No. 304, Compressed Natural Gas Fuel Container Integrity.
9. The C~~C~~NG Fuel System shall comply with FMVSS No. 303, Fuel System Integrity of Compressed Natural Gas Vehicles.

**BB. Governor**

An electronic engine speed limiter shall be provided and set to limit engine speed, not to exceed the maximum revolutions per minute, as recommended by the engine manufacturer.

~~3. Heating System, Provision for~~

~~The chassis engine shall have plugged openings for the purpose of supplying hot water for the bus heating system. The engine shall be capable of supplying coolant at a temperature of at least 170 degrees Fahrenheit at the engine cooling thermostat opening temperature. The coolant flow rate shall be 50 pounds per minute at the return end of 30 feet of one-inch inside diameter automotive hot water heater hose, according to School Bus Manufacturers Technical Council publication -001.~~

## CC. Handrails

At least one handrail shall be installed. The handrail shall be a minimum of one (1) inch diameter, and be constructed from corrosion resistant material(s). The handrail(s) shall assist passengers during entry or exit, and be designed to prevent entanglement, as evidenced by the passage of the National Highway Traffic Safety Administration (NHTSA) string and nut test, as defined in National School Transportation Specifications & Procedures School Bus Inspection.

## DD. Heaters and Air Conditioning Systems

~~The chassis engine shall have plugged openings for the purpose of supplying hot water for the bus heating system.~~ The engine shall be capable of supplying coolant at a temperature of at least ~~170~~ one hundred seventy degrees Fahrenheit (170° F) at the engine cooling thermostat opening temperature. The coolant flow rate shall be fifty (50) pounds per minute at the return end of thirty (30) feet of one (1)- inch inside diameter automotive hot water heater hose, according to School Bus Manufacturers Technical Council (SBMTC) ~~p~~Publication - 001.

### 1. Heating System:

- a. The heater shall be hot water and/or combustion type, electric heating element, or heat pump.
- b. If only one heater is used, it shall be fresh-air or combination fresh-air and recirculation type.
- c. If more than one heater is used, additional heaters may be recirculating air type.
- d. The heating system shall be capable of maintaining bus interior temperatures as specified in SAE test procedure J2233.
- e. Auxiliary fuel-fired heating systems (~~non-reimbursable~~) are permitted, provided they comply with the following:
  - 1) The auxiliary heating system fuel shall utilize the same type fuel as specified for the vehicle engine.
  - 2) The heater(s) may be direct hot air or connected to the engine's coolant system.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- 3) An auxiliary heating system, when connected to the engine's coolant system, may be used to preheat the engine coolant or preheat and add supplementary heat to the bus's heating system.
  - 4) Auxiliary heating systems must be installed pursuant to the manufacturer's recommendations and shall not direct exhaust in such a manner that will endanger bus passengers.
  - 5) Auxiliary heating systems which operate on diesel fuel shall be capable of operating on #1, #2, or blended diesel fuel without the need for system adjustment.
  - 6) The auxiliary heating system shall be low voltage.
  - 7) Auxiliary heating systems shall comply with all applicable FMVSSs, including FMVSS No. 301, as well as with SAE test procedures.
  - 8) All forced air heaters installed by body manufacturers shall bear a name plate that indicates the heater rating in accordance with SBMTC-001. ~~The plate shall be affixed by the heater manufacturer and shall constitute certification that the heater performance is as shown on the plate.~~ Low profile heaters are not allowed within the clear floor area required to accommodate a wheelchair.
- f. Portable heaters shall not be allowed
- g. Heater hoses shall be adequately supported to guard against excessive wear due to vibration. The hoses shall not dangle or rub against the chassis or any sharp edges and shall not interfere with or restrict the operation of any engine function. Heater hoses shall conform to SAE J20c. Heater lines, cores and elements on the interior of bus shall be shielded to prevent scalding or burning of the driver or passengers. All heater hose shields shall completely cover all parts of the hose and connectors in such a way as to prevent burning subsequent to significant heat transferring to the shield. They shall not incorporate any openings that would allow a passenger to be injured by sharp edges or hot surfaces.
- h. Each hot water system installed by a body manufacturer shall include one (1) shut-off valve in the pressure line and one (1) shut-off valve in the return line with both valves at the engine in an accessible location, except that on all Types A and B-buses, the valves may be installed in another accessible location.
- i. All heaters of hot water type in the passenger compartment shall be equipped with a device, installed in the hot water pressure line, which regulates the water flow to all passenger heaters. The device shall be conveniently operated by the driver while seated. The driver and passenger heaters may operate independently of each other for maximum comfort.

- j. All combustion heaters shall be in compliance with current Federal Motor Carrier Safety Administration ([FMCSA](#)) Regulations.
  - k. Accessible bleeder valves [of hot water type](#) shall be installed in an appropriate place in the return lines of body company-installed heaters to remove air from the heater lines.
  - l. Access panels shall be provided to make heater motors, cores, [- elements,](#) and fans readily accessible for service. An outside access panel may be provided for the driver's heater.
2. Air Conditioning (Non-Reimbursable Option Except When Driven By IEP):

The following specifications are applicable to all types of school buses that may be equipped with air conditioning. This section is divided into two parts: Part 1 covers performance specifications, and Part 2 covers other requirements applicable to all buses.

a. Part 1 - Performance Specifications:

~~1) The installed air conditioning system should cool the interior of the bus down to at least 80 degrees Fahrenheit, measured at a minimum of three points, located four feet above the floor at the longitudinal centerline of the bus. The three points shall be: (1) near the driver's location, (2) at the mid-point of the body, and (3) two feet forward of the rear emergency door, or, for Type D rear engine buses, two feet forward of the end of the aisle.~~

~~2) The test conditions under which the above performance must be achieved shall consist of: (1) placing the bus in a room (such as a paint booth) where ambient temperature can be maintained at 100 degrees Fahrenheit (2) heat soaking the bus at 100 degrees Fahrenheit with windows open for at least one hour and (3) closing windows, turning on the air conditioner with the engine running at the chassis manufacturer's recommended low idle speed, and cooling the interior of the bus to 80 degrees Fahrenheit or lower within a maximum of 30 minutes while maintaining 100 degrees Fahrenheit outside temperature.~~

~~Alternately, and at the user's discretion, this test may be performed under actual summer conditions, which consist of temperatures above 85 degrees Fahrenheit, humidity above 50 percent with normal sun loading of the bus and the engine running at the manufacturer's recommended low idle speed. After a minimum of one hour of heat soaking, the system shall be turned on and must provide a minimum 20-degree temperature drop in the 30-minute time limit.~~

The manufacturer shall provide [test results that show compliance of standard systems.](#) If the bid specifies, the manufacturer shall provide facilities for the user or user's representative to confirm that a pilot model of each bus design meets the above performance requirements.

b. Part 2 - Other Requirements:

- 1) Evaporator cases, lines and ducting (as equipped) shall be designed in such a manner that all condensation is effectively drained to the exterior of the bus below the floor level under all conditions of vehicle movement and without leakage on any interior portion of bus.
- 2) Any evaporator or ducting system shall be designed and installed so as to be free of injury-prone projections or sharp edges. Any ductwork shall be installed so that exposed edges face the front of the bus and do not present sharp edges.
- 3) On specially equipped school buses, the evaporator and ducting (if used) shall be placed high enough that they will not obstruct occupant securement shoulder strap upper attachment points. This clearance shall be provided along entire length of the passenger area on both sides of the bus interior to allow for potential retrofitting of new wheelchair positions and occupant securement devices throughout the bus.
- 4) The body may be equipped with insulation, including sidewalls, roof, firewall, rear, inside body bows and plywood or composite floor insulation to aid in heat dissipation and reflection.
- 5) All glass (windshield, entrance and emergency doors, side and rear windows) may be equipped with maximum integral tinting allowed by federal, state ([Section 49-944, Idaho Code](#)) or ANSI [American National Standards Institute](#) standards for the respective locations, except that windows rear of the driver's compartment, if tinted shall have approximately ~~twenty-eight~~<sub>28</sub> percent (~~28~~<sub>28</sub>%) light transmission.
- 6) Electrical generating capacity shall be provided to accommodate the additional electrical demands imposed by the air conditioning system.
- 7) Roofs may be painted white to aid in heat dissipation, according to National School Transportation Specifications & Procedures Placement of Reflective Markings.

## **EE. Hinges**

All exterior metal door hinges which do not have stainless steel, brass or nonmetallic hinge pins or other designs that prevent corrosion shall be designed to allow lubrication to be channeled to the center ~~seventy-five~~<sub>75</sub> percent (~~75~~<sub>75</sub>%) of each hinge loop without disassembly.

**FF. Horn**

The bus shall be equipped with two (2) horns of standard make with each horn capable of producing a complex sound in bands of audio frequencies between two-hundred fifty (250) and two thousand (2,000) cycles per second and tested in accordance with SAE J-377.

**GG. Identification**

1. The body shall bear the words "SCHOOL BUS" in black letters at least eight (8) inches high on both front and rear of the body or on signs attached thereto. Lettering shall be placed as high as possible without impairment of its visibility. Letters shall conform to "Series B" of Standard Alphabets for Highway Signs. "SCHOOL BUS" lettering shall have a reflective background, or as an option, may be illuminated by backlighting.
2. MFSABs are exempt from these requirements.
3. Required lettering and numbering shall include:
  - a. School district owned vehicles will be identified with black lettering ~~{[minimum four (4) inches high]}~~ on both sides of the school bus using the district name and number listed in the Idaho Educational Directory. Contractor-owned school buses under contract with a school district must also comply with the same identification standards as district-owned buses and shall be identified by either the contractor or district name, as decided by the district.
  - b. Each district-owned or contracted school bus will be separately identified with its own number in two (2) places on each side of the bus in the logo panel/belt line using six (6)-inch ~~(6")~~-high black numbers. Numbers on the passenger side shall be as close to the first and last passenger windows as possible and on the driver's side as close to the stop arm and last passenger window as possible.
  - c. Unauthorized entry placards shall be displayed in the most visible location when observed by persons approaching the vehicle with the door in the open position. Permanence of the placard should be a consideration when choosing a location for attachment. Placard shall read as follows:

**WARNING**  
**IT IS UNLAWFUL TO:**  
**Enter a school bus with the intent to commit a crime**  
**Enter a school bus and disrupt or interfere with the driver**  
**Refuse to disembark after ordered to do so by the driver**  
**(Sections 18-1131522 and; 18-1431522, Idaho Code)**

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

State Department of Education Student Transportation Section ~~may~~shall provide unauthorized entry placards.

- d. Other lettering, numbering, or symbols, which may be displayed on the exterior of the bus, shall be limited to:
- 1) Bus identification number on the top, front and rear of the bus, in addition to the required numbering on the sides.
  - 2) The location of the battery(ies) identified by the word "BATTERY" or "BATTERIES" on the battery compartment door in two (2)-inch maximum lettering.
  - 3) Symbols or letters not to exceed sixty-four (64) square inches of total display near the entrance door exterior displaying information for identification by the students of the bus or route served. No symbols, letters, or other signage shall be permitted on the first two passenger windows or on entrance door glass which may block or obscure clear visibility.
- e. All other signage must have prior written SDE approval.
- f. Manufacturer, dealer or school identification or logos displayed so as not to distract significantly from school bus body color and lettering specifications.
- g. Symbols identifying the bus as equipped for or transporting students with special needs (see Specially Equipped School Bus section).
- h. Lettering on the rear of the bus relating to school bus flashing signal lamps electronic warning sign or railroad stop procedures. This lettering shall not obscure or interfere with the operation instructions displayed on the exterior portion of the rear emergency exit door.
- i. Identification of fuel type in ~~two~~one (1)-inch maximum lettering adjacent to the fuel filler opening.
- ~~j. One 4" x 10" (maximum) decal promoting school bus safety on rear bumper.~~

## **HH. Inside Height**

Inside body height shall be seventy-two (72) inches or more, measured metal to metal, at any point on longitudinal centerline from front vertical bow to rear vertical bow. Inside body height of Type A-1 buses shall be sixty-two (62) inches or more.

## **II. Instruments and Instrument Panel**

1. The chassis shall be equipped with the instruments and gauges listed below:  
*(Note: Telltale warning lamps in lieu of gauges are not acceptable, except as noted.)*

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- a. Speedometer;
- b. Tachometer (**Note:** For Types B, C, and D buses, a tachometer shall be installed so as to be visible to the driver while seated in a normal driving position);
- c. Odometer which will give accrued mileage (to seven digits), including tenths of a miles, unless tenths of a miles are registered on a trip odometer. Odometer shall be available to read without use of the vehicle's key;
- d. Voltmeter (**Note:** An ammeter with graduated charge and discharge indications is permitted in lieu of a voltmeter; however, when used, the ammeter wiring must be compatible with the current flow of the system);
- e. Oil pressure gauge;
- f. Water temperature gauge;
- g. Fuel gauge;
- h. Upper beam headlamp indicator;
- i. Brake air pressure gauge (air brakes), brake indicator lamp (vacuum/hydraulic brakes), or brake indicator lamp (hydraulic/hydraulic)-  
[Note: A warning lamp indicator in lieu of gauge is permitted on a vehicle equipped with a hydraulic-over-hydraulic brake system];
- j. Turn signal indicator; and
- k. Glow-plug-Intake heater indicator lamp where appropriate.

4-2. All instruments shall be easily accessible for maintenance and repair.

2-3. The instruments and gauges shall be mounted on the instrument panel so that each is clearly visible to the driver while seated in a normal driving position.

3-4. The instrument panel shall have lamps of sufficient candlepower to illuminate all instruments, gauges and shift selector indicator for the automatic transmission or as required by FMVSS No. 101.

4-5. Multi-function gauge (MFG) (Optional):

- a. The driver must be able to manually select any displayable function of the gauge on a MFG whenever desired.

- b. Whenever an out-of-limits condition that would be displayed on one or more functions of a MFG occurs, the MFG controller should automatically display this condition on the instrument cluster. This should be in the form of an illuminated telltale warning lamp as well as having the MFG automatically displays the out-of-limits indications. Should two or more functions displayed on the MFG go out of limits simultaneously, then the MFG should sequence automatically between those functions continuously until the condition(s) are corrected.
- c. The use of a MFG does not relieve the need for audible warning devices, where required.

## **JJ. Insulation (Optional)**

1. If thermal insulation is specified, it shall be fire-resistant, UL approved, with minimum R-value of 5.5. Insulation shall be installed so as to prevent sagging.
2. If floor insulation is required, it shall be five-ply nominal five-eighths ( $\frac{5}{8}$ ) inch thick plywood, and it shall equal or exceed properties of the exterior-type softwood plywood, C-D Grade, as specified in standard issued by U.S. Department of Commerce. When plywood is used, all exposed edges shall be sealed. Type A-1 buses may be equipped with nominal one-half ( $\frac{1}{2}$ ) inch thick plywood or equivalent material meeting the above requirements. Equivalent material may be used to replace plywood, provided it has an equal or greater insulation R-value, deterioration, sound abatement and moisture resistance properties.

## **KK. Interior**

1. The interior of bus shall be free of all unnecessary projections, which include luggage racks and attendant handrails, to minimize the potential for injury. This specification requires inner lining on ceilings and walls. If the ceiling is constructed to contain lapped joints, the forward panel shall be lapped by rear panel and exposed edges shall be beaded, hemmed, flanged, or otherwise treated to minimize sharp edges. Buses may be equipped with a storage compartment for tools, tire chains and/or tow chains (see STORAGE COMPARTMENT storage compartment).
2. Non-reimbursable interior overhead storage compartments may be provided if they meet the following criteria:
  - a. Meet head protection requirements of FMVSS No. 222, where applicable;
  - b. Have a maximum rated capacity displayed for each compartment;
  - c. Be completely enclosed and equipped with latching doors which must be sufficient to withstand a force of five (5) times the maximum rated capacity of the compartment.

- d. Have all corners and edges rounded with a minimum radius of one (1) inch or padded equivalent to door header padding-;
  - e. Be attached to the bus sufficiently to withstand a force equal to twenty (20) times the maximum rated capacity of the compartment-; and
  - f. Have no protrusions greater than one-quarter ( $\frac{1}{4}$ ) inch.
3. The driver's area forward of the foremost padded barriers will permit the mounting of required safety equipment and vehicle operation equipment. All equipment necessary for the operation of the vehicle shall be properly secured in such a way as to prevent the entanglement of clothing, backpack straps, drawstrings, etc.
  4. Every school bus shall be constructed so that the noise level taken at the ear of the occupant nearest to the primary vehicle noise source shall not exceed 85 dBA when tested according to National School Transportation Specifications & Procedures Noise Test Procedure.

## LL. Lamps and Signals

### 1. Illumination Lamps

Interior lamps shall be provided which adequately illuminate the aisle and step well. The step well lamps shall be illuminated by an entrance service door-operated switch, to illuminate only when headlamps and/or clearance lamps are on and the entrance door is open. An additional exterior mounted lamp shall be mounted next to the entrance door to adequately illuminate the outside approach to the door. It shall be actuated simultaneously with the step well lamps.

### 2. Body Instrument Panel Lamps

Body instrument panel lamps shall be controlled by an independent rheostat switch.

### 3. School Bus Alternately Flashing Signal Lamps:

- a. The bus shall be equipped with two (2) red lamps at the rear of the vehicle and two (2) red lamps at the front of the vehicle.
- b. In addition to the four (4) red lamps described above, four (4) amber lamps shall be installed so that one (1) amber lamp is located near each red signal lamp, at the same level, but closer to the vertical centerline of bus. The system of red and amber signal lamps, when in its operational mode, shall be wired so that amber lamps are energized manually, and red lamps are automatically energized (with amber lamps being automatically de-energized) when stop signal arm is extended or when bus entrance door is opened. An amber pilot lamp and a red pilot lamp shall be installed

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

adjacent to the driver controls for the flashing signal lamp to indicate to the driver which lamp system is activated.

- c. Air and electrically operated doors may be equipped with an over-ride switch that will allow the red lamps to be energized without opening the door, when the alternately flashing signal lamp system is in its operational mode. The use of such a device shall be in conformity with the law and SDE loading/unloading training procedures, as contained in Idaho's school bus driver training curriculum.
  - d. The area around the lenses of alternately flashing signal lamps extending outward from the edge of the lamps approximately three (3) inches ~~(+/- one quarter inch)~~ to the sides and top and minimum one (1) inch to the bottom, shall be black in color on the body or roof area against which the signal lamp is seen ~~{[from a distance of five hundred (500) feet along axis of the vehicle]}~~.
  - e. Red lamps shall flash at any time the stop signal arm is extended.
  - f. All flashers for alternately flashing red and amber signal lamps shall be enclosed in the body in a readily accessible location.
4. Turn Signal and Stop/Tail Lamps:
- a. Bus body shall be equipped with amber rear turn signal lamps that are at least seven (7) inches in diameter or, if a shape other than round, a minimum thirty-eight (38) square inches of illuminated area and shall meet FMVSS No. 108. These signal lamps must be connected to the chassis hazard-warning switch to cause simultaneous flashing of turn signal lamps when needed as vehicular traffic hazard warning. Turn signal lamps are to be placed as wide apart as practical and their centerline shall be a maximum of twelve (12) inches below the rear window. Type A-1 conversion vehicle front lamps must be at least twenty-one (21) square inches in lens area and must be in the manufacturer's standard color.
  - b. Buses shall be equipped with amber side-mounted turn signal lamps. One turn signal lamp on the left side shall be mounted rearward of the stop signal arm and one turn signal lamp on the right side shall be mounted rearward of the entrance door. Both front side-mounted turn signal lamps shall be mounted forward of the bus center-line. An additional side mounted turn signal lamp may be mounted on each side of the bus to the rear of the bus center-line.
  - c. Buses shall be equipped with four (4) combination red stop/tail lamps:
    - 1) Two (2) combination lamps with a minimum diameter of seven (7) inches, or if a shape other than round, a minimum thirty-eight (38) square inches of illuminated area shall be mounted on the rear of the bus just inside the turn signal lamps.

- 2) Two (2) combination lamps with a minimum diameter of four (4) inches, or if a shape other than round, a minimum of twelve (12) square inches of illuminated area, shall be placed on the rear of the body between the beltline and the floor line. The rear license plate lamp may be combined with one (1) lower tail lamp. Stop lamps shall be activated by the service brakes and shall emit a steady light when illuminated. Type A-1 buses with bodies supplied by chassis manufacturer may be equipped with manufacturer's standard stop and tail lamps.
- d. On buses equipped with a monitor for the front and rear lamps of the school bus, the monitor shall be mounted in full view of the driver. If the full circuit current passes through the monitor, each circuit shall be protected by a fuse or circuit breaker or electronic protection device against any short circuit or intermittent shorts.
- e. An optional white flashing strobe lamp may be installed on the roof of a school bus, at a location not ~~to exceed 1/3 the body length forward closer than twelve (12) inches or more than six (6) feet~~ from the rear of the roof edge. ~~However, if the bus is equipped with a roof hatch, or other roof mounted equipment, falling within the above mentioned measurements, the strobe lamp may be located directly behind that equipment.~~ The lamp shall have a single clear lens emitting light 360 degrees around its vertical axis and may not extend above the roof more than maximum legal height. A manual switch and a pilot lamp shall be included to indicate when lamp is in operation. Operation of the strobe lamp is limited to periods of inclement weather, nighttime driving, emergency situation or whenever students are onboard. Optionally, the strobe lamp may be mounted on the roof in the area directly over the restraining barrier on the driver's side, may be wired to activate with the amber alternately flashing signal lamps, continuing through the full loading or unloading cycle, and may be equipped with an override switch to allow activation of the strobe at any time for use in inclement weather, nighttime driving or emergency situation.
- f. The bus body shall be equipped with two (2) white rear backup lamps that are at least four (4) inches in diameter or, if a shape other than round, a minimum of twelve (12) square inches of illuminated area, meeting FMVSS No. 108 and ~~Idaho Code~~Section 49-920, Idaho Code. If backup lamps are placed on the same horizontal line as the brake lamps and turn signal lamps, they shall be to the inside.

#### **MM. Metal Treatment**

1. All metal except high-grade stainless steel or aluminum used in construction of the bus body shall be zinc-coated or aluminum-coated or treated by an equivalent process before bus is constructed. Included are such items as structural members, inside and outside panels, door panels and floor sills. Excluded are such items as door handles, grab handles, interior decorative parts and other interior plated parts.

2. All metal parts that will be painted, in addition to the above requirements, shall be chemically cleaned, etched, zinc phosphate-coated and zinc chromate-or epoxy-primed, or the metal may be conditioned by an equivalent process. This includes but not limited to such items as crossing arm and stop arm.
3. In providing for these requirements, particular attention shall be given to lapped surfaces, welded connections of structural members, cut edges on punched or drilled hole areas in sheet metal, closed or box sections, unvented or undrained areas and surfaces subjected to abrasion during vehicle operation.
4. As evidence that the above requirements have been met, samples of materials and sections used in the construction of the bus body shall be subjected to a cyclic corrosion testing as outlined in SAE J1563.

#### **NN. Mirrors**

1. The interior mirror shall be either clear view laminated glass or clear view glass bonded to a backing which retains the glass in the event of breakage. The mirror shall have rounded corners and protected edges. All Type A buses shall have a minimum of a six-inch x ~~16~~sixteen-inch (6 x 16 inch) mirror and Types ~~B~~, C and D buses shall have a minimum of a six-inch x ~~30~~thirty-inch (6 x 30 inch) mirror.
2. Each school bus shall be equipped with exterior mirrors meeting the requirements of FMVSS No. 111. Mirrors shall be easily adjustable but shall be rigidly braced so as to reduce vibration. The right side rear view mirror shall not be obscured by the un-wiped portion of the windshield.
3. Heated external mirrors may be used.
4. Remote controlled external rear view mirrors may be used.

#### **OO. Mounting**

1. The chassis frame shall support the rear body cross member. The bus body shall be attached to chassis frame at each main floor sill, except where chassis components interfere, in such a manner as to prevent shifting or separation of the body from the chassis under severe operating conditions.
2. Isolators shall be installed at all contact points between body and chassis frame on Types A-2, ~~B~~, C, and D buses, and shall be secured by a positive means to the chassis frame or body to prevent shifting, separation, or displacement of the isolators under severe operating conditions.

#### **PP. Mud Flaps**

Rear vehicle ~~and~~ mud flaps shall be required on all school buses, except when not provided as an option by the school bus manufacturer. Front mud flaps are optional

**QQ. Oil Filter**

An oil filter with a replaceable element shall be provided and connected by flexible oil lines if it is not a built-in or an engine-mounted design. The oil filter shall have a capacity in accordance with the engine manufacturer's recommendation.

**RR. Openings**

All openings in the floorboard or firewall between the chassis and passenger compartment (e.g., for gearshift selector and parking brakes lever) shall be sealed.

**SS. Overall Length**

Overall length of bus shall not exceed forty-five (45) feet, excluding accessories.

**TT. Overall Width**

Overall width of bus shall not exceed one-hundred and two (102) inches, excluding accessories.

**UU. Passenger Load**

1. Actual gross vehicle weight (GVW) is the sum of the chassis weight, plus the body weight, plus the driver's weight, plus total seated student weight. For purposes of calculation, the driver's weight is one hundred fifty (150) pounds and the student weight is one hundred twenty (120) pounds per student.
2. Actual GVW shall not exceed the chassis manufacturer's GVWR for the chassis, nor shall the actual weight carried on any axle exceed the chassis manufacturer's Gross Axle Weight Rating (GAWR).
3. When requested, the manufacturer's GVWR for a particular school bus shall be furnished by manufacturers in duplicate (unless more copies are requested) to the purchasing school district or contractor.

**VV. Public Address System**

1. Buses may be equipped with AM/FM audio and/or public address system having interior and/or exterior speakers.
2. No internal speakers, other than the driver's communication systems, may be installed within four (4) feet of the driver's seat back in its rearmost upright position.

**WW. Reflective Material (See National School Transportation Specifications & Procedures Placement of Reflective Markings)**

1. The front and/or rear bumper may be marked diagonally 45 degrees down to centerline of pavement with 1.75 to 2.25 ~~two-inch ± one-quarter~~-inch wide strips of non-contrasting reflective material.
2. The rear of bus body shall be marked with strips of reflective NSBY material to outline the perimeter of the back of the bus using material which conforms to the requirements of FMVSS No. 131, Table 1. The perimeter marking of rear emergency exits per FMVSS No. 217 and/or the use of reflective “SCHOOL BUS” signs partially accomplish the objective of this requirement. To complete the perimeter marking of the back of the bus, strips of at least one ~~and three-quarters (1¾)~~ (1) inch reflective NSBY material shall be applied horizontally above the rear windows and above the rear bumper, extending from the rear emergency exit perimeter, marking outward to the left and right rear corners of the bus. Vertical strips of at least one and three-quarters (1¾) inch retroreflective NSBY material shall be applied at the corners connecting these horizontal strips.
3. “SCHOOL BUS” signs, if not of lighted design, shall be marked with retro reflective NSBY material comprising background for lettering of the front and/or rear “SCHOOL BUS” signs.
4. Sides of bus body shall be marked with at least one ~~and three-quarters (1¾)~~ inch retro reflective NSBY material, extending the length of the bus body and located (vertically) between the floor line and the beltline.
5. Signs, if used, placed on the rear of the bus relating to school bus flashing signal lamps or railroad stop procedures may be of retro reflective NSBY material comprising background for lettering.

## **XX. Retarder System (Optional Equipment)**

A retarder system, if used, shall limit the speed of a fully loaded school bus to 19.0 mph on a seven ~~7~~-percent (7%) grade for 3.6 miles.

## **YY. Road Speed Control**

When it is desired to accurately control vehicle maximum speed, a vehicle speed limiter may be utilized.

## **ZZ. Rub Rails**

1. There shall be one (1) rub rail located on each side of the bus approximately at seat cushion level which extends from the rear side of the entrance door completely around the bus body (except the emergency door or any maintenance access door) to the point of curvature near the outside cowl on the left side.
2. There shall be one (1) additional rub rail located on each side at, or no more than ten (10) inches above the floor line. The rub rail shall cover the same longitudinal

area as upper rub rail, except at the wheel housings, and it shall, at a minimum, extend to radii of the right and left rear corners.

3. Both rub rails shall be attached at each body post and all other upright structural members.
4. Each rub rail shall be four (4) inches or more in width in their finished form, shall be constructed of 16-gauge steel or suitable material of equivalent strength and shall be constructed in corrugated or ribbed fashion. Each entire rub rail shall be black in color.
5. Both rub rails shall be applied outside the body or outside the body posts. Pressed-in or snap-on rub rails do not satisfy this requirement. For Type A-1 vehicles using the body provided by the chassis manufacturer or for Types A-2, ~~B~~, C, and D buses using the rear luggage or the rear engine compartment, rub rails need not extend around the rear corners.
6. There shall be a rub rail or equivalent bracing located horizontally at the bottom edge of the body side skirts.

### AAA. Seats and Restraining Barriers

1. Passenger Seating:
  - a. All seats shall have a minimum cushion depth of fifteen (15) inches, a seat back height of twenty-four (24) inches above the seating reference point, and must comply with all requirements of FMVSS No. 222. School bus design capacities shall be in accordance with 49 CFR, Part 571.3 and FMVSS No. 222. In addition to the fastener that forms the pivot for each seat retaining clip, a secondary fastener may be used in each clip to prevent the clip from rotating and releasing the seat cushion unintentionally.
  - b. All restraining barriers and passenger seats may be constructed with non-reimbursable materials that enable them to meet the criteria contained in the School Bus Seat Upholstery Fire Block Test or the American Society for Testing and Materials (ASTM) E2574/E2574M – 12a Standard Test Method for Fire Testing of School Bus Seat Assemblies. ~~(National School Transportation Specifications & Procedures School Bus Seat Upholstery Fire Block Test).~~
  - c. Each seat leg shall be secured to the floor by ~~a minimum of two~~ bolts, washers, and nuts in order to meet the performance requirements of FMVSS No. 222. Flange-head nuts may be used in lieu of nuts and washers, or seats may be track-mounted in conformance with FMVSS No. 222. If track seating is installed, the manufacturer shall supply minimum and maximum seat spacing dimensions applicable to the bus, which comply with FMVSS No. 222. This information shall be on a label permanently affixed to the inside passenger compartment of the bus.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- d. All seat frames attached to the seat rail shall be fastened with ~~two~~ bolts, washers and nuts or flange-head nuts.
- e. All school buses (including Type A) shall be equipped with restraining barriers which conform to FMVSS No. 222.
- f. The use of a "flip seat" adjacent to any side emergency door is prohibited.

2. Pre School Age Seating:

~~When installed, a~~All passenger seats designed to accommodate a child or infant carrier seat shall comply with FMVSS No. 225. These seats shall be in compliance with NHTSA's "Guideline for the Safe Transportation of Pre-school Age Children in School Buses". Child Safety Restraint Systems (CSRSs) shall not be placed in school bus seats adjacent to emergency exits.

3. Driver Seat:

- a. The driver's seat supplied by the body company shall be a high back seat with a minimum seat back adjustable to fifteen (15) degrees, without requiring the use of tools, and a head restraint to accommodate a 5th percentile female to a 95th percentile adult male, as defined in FMVSS No. 208. The driver's seat shall be secured with nuts, bolts and washers or flanged-head nuts.
- b. Type A buses may use the standard driver's seat provided by the chassis manufacturer.

4. Driver Restraint System:

- a. A Type 2 lap/shoulder belt shall be provided for the driver. On buses where the driver's seat and upper anchorage for the shoulder belt are both attached to the body structure, a driver's seat with an integrated Type 2 lap/shoulder belt may be substituted. On buses where the driver's seat and upper anchorage for the shoulder belt are separately attached to both body and chassis structures (i.e., one attached to the chassis and the other attached to the body), a driver's seat with an integrated Type 2 lap/shoulder belt should be used.
- b. The assembly shall be equipped with an emergency locking retractor for the continuous belt system. On all buses except Type A equipped with a standard chassis manufacturer's driver's seat, the lap portion of the belt system shall be guided or anchored to prevent the driver from sliding sideways under it. The lap/shoulder belt shall be designed to allow for easy adjustment in order to fit properly and to effectively protect drivers varying in size from 5th percentile adult female to 95th percentile adult male.
- c. Each bus shall be equipped with durable webbing cutter having a full width handgrip and a protected, replaceable or non-corrodible blade. The

required belt cutter shall be mounted in a visible location accessible to the seated driver in an easily detachable manner.

### **BBB. Shock Absorbers**

The bus shall be equipped with double-action shock absorbers compatible with manufacturer's rated axle capacity at each wheel location. Shock absorbers shall be of sufficient length to allow for adequate travel in all situations without damage to the shock absorber or mounts.

### **CCC. Steering Gear**

1. The steering gear shall be approved by the chassis manufacturer and designed to ensure safe and accurate performance when the vehicle is operated with maximum load and at maximum speed.
2. If external adjustments are required, steering mechanism shall be accessible to make adjustments.
3. No changes shall be made in the steering apparatus which are not approved by the chassis manufacturer.
4. There shall be a clearance of at least two (2) inches between the steering wheel and cowl, instrument panel, windshield, or any other surface.
5. Power steering is required and shall be of the integral type with integral valves.
6. The steering system shall be designed to provide a means for lubrication of all wear-points, which are not permanently lubricated.

### **DDD. Steps**

1. The first step at entrance door shall be not less than ten (10) inches and not more than fourteen (14) inches from the ground when measured from top surface of the step to the ground, based on standard chassis specifications, except that on Type D vehicles, the first step at the entrance door shall be twelve (12) inches to sixteen (16) inches from the ground. On chassis modifications which may result in increased ground clearance (such as four-wheel drive) an auxiliary step shall be provided to compensate for the increase in ground-to-first-step clearance. The auxiliary step is not required to be enclosed.
2. Step risers shall not exceed a height of ten (10) inches. When plywood is used on a steel floor or step, the riser height may be increased by the thickness of the plywood.
3. OEM steps shall be enclosed to prevent accumulation of ice and snow.
4. OEM, retrofit, or after-market steps shall not protrude beyond the side body line, except during the loading or unloading of passengers.

### EEE. Step Treads

1. All steps, including the floor line platform area, shall be covered with 3/16 inch rubber an elastomer floor covering or other materials equal in wear and abrasion resistance to top grade rubber, having a minimum overall thickness of 0.187 inch.
2. The metal back of the tread shall be permanently bonded to the step tread materialstep covering shall be permanently bonded to a durable backing material that is resistant to corrosion.
3. Steps, including the floor line platform area, shall have a one and one-half (1-½) - inch nosing that contrasts in color by at least seventy 70 percent (70%) measured in accordance with the contrasting color specification in 36 CFR, Part 1192, ADA, Accessibility Guidelines for Transportation Vehicles.
4. Step treads shall have the following characteristics:
  - a. Abrasion resistance: Step tread material weight loss shall not exceed 0.40 percent, as tested under ASTM D-4060, Standard Test Method for Abrasion Resistance of Organic Coatings by the Taber Abraser; (CS-17 Wheel, 1000 gram, 1000 cycle);
  - b. Weathering resistance: Step treads shall not break, crack, or check after ozone exposure (seven days at 50 phm at 40 degrees C) and Weatherometer exposure (ASTM D-750, Standard Test Method for Rubber Deterioration in Carbon-Arc Weathering Apparatus, seven days);
  - c. Flame Resistance: Step treads shall have a calculated burn rate of 0.01 mm per minute or less using the test methods, procedures and formulas listed in FMVSS No. 302, Flammability of Interior Materials; and
  - d. A spray on application type material may be used in lieu of item 1. that meets the requirements of items 2- through 4. The material shall be applied not only to the interior surfaces of the service door step treads but the exterior as well if not covered by undercoating.

### FFF. Stirrup Steps

When the windshield and lamps are not easily accessible from the ground, there may be at least one (1) folding stirrup step or recessed foothold and suitably located handles on each side of the front of the body for easy accessibility for cleaning. Steps are permitted in or on the front bumper in lieu of the stirrup steps, if the windshield and lamps are easily accessible for cleaning from that position.

### GGG. Stop Signal Arm

The stop signal arm(s) shall comply with the requirements of FMVSS No. 131.

### HHH. Storage Compartment (Optional)

A storage container for tools, tire chains, and/or tow chains may be located either inside or outside the passenger compartment. If inside, it shall have a cover capable of being securely latched and fastened to the floor (the seat cushion may not serve this purpose), convenient to either the entrance door or the emergency door.

### III. Sun Shield

1. An interior adjustable transparent sun shield, with a finished edge and not less than six inches by ~~thirty~~ 30 inches (6 x 30 inches) for Types ~~B, C,~~ and D vehicles, shall be installed in a position convenient for use by the driver.
2. On all Type A buses, the sun shield (visor) shall be installed according to the manufacturer's standard.

### JJJ. Suspension Systems

1. The capacity of springs or suspension assemblies shall be commensurate with the chassis manufacturer's GVWR.
2. Rear leaf springs shall be of a progressive rate or multi-stage design. Front leaf springs shall have a stationary eye at one end and shall be protected by a wrapped leaf, in addition to the main leaf.

#### ~~4.— Tail Pipe~~

- ~~a.— The tailpipe may be flush with, but shall not extend out more than two inches beyond, the perimeter of the body for side-exit pipe or the bumper for rear-exit pipe.~~
- ~~b.— The tailpipe shall exit to the left or right of the emergency exit door in the rear of vehicle or to the left side of the bus in front or behind the rear drive axle. The tailpipe exit location on school bus types A-1 or B-1 buses may be according to the manufacturer's standard. The tailpipe shall not exit beneath any fuel filler location or beneath any emergency door.~~

### KKK. Throttle

The force required to operate the throttle shall not exceed sixteen (16) pounds throughout the full range of accelerator pedal travel.

### LLL. Tires and Rims

1. Rims of the proper size and tires of the proper size and load rating commensurate with the chassis manufacturer's gross vehicle weight rating shall

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

be provided. The use of multi-piece rims and/or tube-type tires shall not be permitted on any school bus ordered after December 31, 1995.

2. Dual rear tires shall be provided on Type A-2, ~~Type B,~~ Type C and Type D school buses.
3. All tires on a vehicle shall be of the same size, and the load range of the tires shall meet or exceed the GVWR, as required by FMVSS No. 120.
4. If the vehicle is equipped with a spare tire and rim assembly, it shall be the same size as those mounted on the vehicle.
5. If a tire carrier is required, it shall be suitably mounted in an accessible location outside the passenger compartment.

### **MMM. Tow Attachment Points**

1. Rear towing devices (i.e. tow hooks, tow eyes, or other designated towing attachment points) shall be furnished to assist in the retrieval of buses that are stuck and/or for towing buses when a wrecker with a “wheel lift” or an “axle lift” is not available or cannot be applied to the towed vehicle.
2. Towing devices shall be attached to the chassis frame either by the chassis manufacturer or in accordance with the chassis manufacturer’s specifications.
3. Each rear towing device shall have a strength rating of thirteen thousand five hundred (13,500) pounds with the force applied in the rearward direction, parallel to the ground, and parallel to the longitudinal axis of the chassis frame rail.
4. The towing devices shall be mounted such that they do not project rearward of the rear bumper.

### **NNN. Traction Assisting Devices (Optional)**

1. Where required or used, sanders shall:
  - a. Be of hopper cartridge-valve type<sub>;</sub>
  - b. Have a metal hopper with all interior surfaces treated to prevent condensation of moisture<sub>;</sub>
  - c. Be of at least 100<sub>-</sub>pound (grit) capacity<sub>;</sub>
  - d. Have a cover on the filler opening of hopper, which screws into place, thereby sealing the unit airtight<sub>;</sub>
  - e. Have discharge tubes extending to the front of each rear wheel under the fender<sub>;</sub>

- f. Have non-clogging discharge tubes with slush-proof, non-freezing rubber nozzles;
  - g. Be operated by an electric switch with a telltale pilot lamp mounted on the instrument panel;
  - h. Be exclusively driver-controlled; and
  - i. Have a gauge to indicate that the hopper needs refilling when it reaches one-quarter ( $\frac{1}{4}$ ) full.
2. Automatic traction chains may be installed.

### OOO. Transmission

1. Automatic transmissions shall have no fewer than three (3) forward speeds and one (1) reverse speed. Mechanical shift selectors shall provide a detent between each gear position when the gear selector quadrant and shift selector are not steering-column mounted.
- ~~2. In manual transmissions, second gear and higher shall be synchronized, except when incompatible with engine power. A minimum of three forward speeds and one reverse speed shall be provided.~~
- ~~3.2. Automatic transmissions incorporating a parking pawl shall have a transmission shifter interlock controlled by the application of the service brake to prohibit accidental engagement of the transmission. All non-park pawl transmissions shall incorporate a park brake interlock that requires the service brake to be applied to allow release of the parking brake.~~

### PPP. Trash Container and Holding Device (Optional)

Where requested or used, the trash container shall be secured by a holding device that is designed to prevent movement and to allow easy removal and replacement; and it shall be installed in an accessible location in the driver's compartment, not obstructing passenger use of the entrance door or the entrance grab handle, and in such a way as to prevent the entanglement of clothing, backpack straps, drawstrings, etc. Trash cans shall not be installed in the passenger compartment which includes the back of the bus.

### QQQ. Turning Radius

1. A chassis with a wheelbase of two-hundred sixty-four (264) inches or less shall have a right and left turning radius of not more than forty-two and one-half (42½) feet, curb-to-curb measurement.
2. A chassis with a wheelbase of two-hundred sixty-five (265) inches or more shall have a right and left turning radius of not more than forty-four and one-half (44½) feet, curb-to-curb measurement.

### RRR. Undercoating

1. The entire underside of the bus body, including floor sections, cross member and below floor line side panels, shall be coated with rust-proofing material for which the material manufacturer has issued a notarized certification of compliance to the bus body builder that materials meet or exceed all performance and qualitative requirements of ~~paragraph 3.4 of Federal Specification TT-C-520b, using modified test procedures\*~~ for the following requirements: SAE J1959.
  1. ~~Salt spray resistance-pass test modified to five percent salt and 1,000 hours~~
  2. ~~Abrasion resistance-pass~~
  3. ~~Fire resistance-pass~~
  4. ~~\*Test panels are to be prepared in accordance with paragraph 4.6.12 of TT-C-520b with modified procedure requiring that test be made on a 48-hour air-cured film at thickness recommended by compound manufacturer.~~
2. The undercoating material shall be applied with suitable airless or conventional spray equipment to the recommended film thickness and shall show no evidence of voids in the cured film. The undercoating material shall not cover any exhaust components of the chassis.

### SSS. Ventilation

1. Auxiliary fans shall meet the following requirements:
  - a. Fans ~~for left and right sides~~ shall be placed in a location where they can be adjusted for maximum effectiveness and where they do not obstruct the driver's vision or interfere with the safe operation of necessary equipment; ~~vision to any mirror or through any critical windshield area. Note: Type A buses may be equipped with one fan.~~
  - b. Fans shall be of six (6) inch nominal diameter;
  - c. Fan blades shall be covered with a protective cage; and
  - e.d. Each fan shall be controlled by a separate switch.
2. The bus body shall be equipped with a suitably controlled ventilating system of sufficient capacity to maintain proper quantity of air under operating conditions without having to open windows except in extremely warm weather.

3. Static-type, non-closeable exhaust ventilation shall be installed, preferably in a low-pressure area of the roof.
4. Roof hatches designed to provide ventilation in all types of exterior weather conditions may be provided.

### **TTT. Wheel housing**

1. The wheel housing opening shall allow for easy tire removal and service.
2. The wheel housings shall be attached to floor sheets in such a manner so as to prevent any dust, water or fumes from entering the body. The wheel housings shall be constructed of at least 16-gauge steel.
3. The inside height of the wheel housing above the floor line shall not exceed twelve (12) inches.
4. The wheel housings shall provide clearance for installation and use of tire chains on single and dual (if so equipped) power-driving wheels.
5. No part of raised wheel housing shall extend into the emergency door opening.

### **UUU. Windows**

1. Each full side window, other than emergency exits designated to comply with FMVSS 217, shall provide an unobstructed opening of at least nine (9) inches but not more than thirteen (13) inches high and at least twenty-two (22) inches wide, obtained by lowering the window. One side window on each side of the bus may be less than twenty-two (22) inches wide. Passenger and driver window frames shall be painted NSBY, black to match body trim, or shall be unpainted aluminum. The area between the passenger and driver window frames shall be NSBY.
2. ~~Optional tinted (non-reimbursable)~~ and/or frost-free glazing may be installed in all doors, windows, and windshields consistent with federal, state, and local regulations.

### **VVV. Windshield Washers**

A windshield washer system shall be provided.

### **WWW. Windshield Wipers**

1. A two-speed windshield wiping system with an intermittent time delay feature shall be provided.
2. The wipers shall meet the requirements of FMVSS No. 104.

**XXX. Wiring**

1. All wiring shall conform to current SAE standards.
2. Wiring shall be arranged in circuits, as required, with each circuit protected by a fuse, breaker or electronic protection device.
3. A system of color and number coding shall be used and an appropriate identifying diagram shall be provided to the end user, along with the wiring diagram provided by the chassis manufacturer. The wiring diagrams shall be specific to the bus model supplied and shall include any changes to wiring made by the body manufacturer. Chassis wiring diagrams shall be supplied to the end user. A system of color and number-coding shall be used on buses. The following body interconnecting circuits shall be color-coded as noted:

<b><u>FUNCTION</u></b>	<b><u>COLOR</u></b>
Left Rear Directional Lamp	Yellow
Right Rear Directional Lamp	Dark Green
Stop Lamps	Red
Back-up Lamps	Blue
Tail Lamps	Brown
Ground	White
Ignition Feed, Primary Feed	Black

4. The color of cables shall correspond to SAE J1128.
5. Wiring shall be arranged in at least six (6) regular circuits as follows:
  - a. Head, tail, stop (brake) and instrument panel lamps;
  - b. Clearance lamps and step well lamps that shall be actuated when the entrance door is open;
  - c. Dome lamps;
  - d. Ignition and emergency door signal;
  - e. Turn signal lamps; and
  - e.f. Alternately flashing signal lamps.
6. Any of the above combination circuits may be subdivided into additional independent circuits.
7. Heaters and defrosters shall be wired on an independent circuit.

8. There shall be a manual noise suppression switch installed in the control panel. The switch shall be labeled and alternately colored. This switch shall be an on/off (a momentary or spring loaded switch does not meet this requirement) type that deactivates body equipment that produces noise, including, at least, the AM/FM radio, two-way communications, heaters, air conditioners, fans and defrosters. This switch shall not deactivate safety systems, such as windshield wipers or lighting systems.
9. Whenever possible, all other electrical functions (such as sanders and electric-type windshield wipers) shall be provided with independent and properly protected circuits.
10. Each body circuit shall be coded by number or letter on a diagram of circuits and shall be attached to the body in a readily accessible location.
11. The entire electrical system of the body shall be designed for the same voltage as the chassis on which the body is mounted.
12. All wiring shall have an amperage capacity exceeding the design load by at least ~~twenty-five~~ 25-percent (25%). All wiring splices are to be done at an accessible location and noted as splices on wiring diagram.
13. A body wiring diagram of a size that can be easily read shall be furnished with each bus body or affixed in an area convenient to the electrical accessory control panel.
14. The body power wire shall be attached to a special terminal on the chassis.
15. All wires passing through metal openings shall be protected by a grommet.
16. Wires not enclosed within the body shall be fastened securely at intervals of not more than eighteen (18) inches. All joints shall be soldered or joined by equally effective connectors, which shall be water-resistant and corrosion-resistant.
17. Multiplex wiring may exempt manufacturers from some of the above wiring standards.
18. Buses may be equipped with a 12-volt power port in the driver's area.

## **BUS BODY STANDARDS**

### **~~5. Air Conditioning (Non-Reimbursable Option — see exception)~~**

- ~~1. Body manufacture, or after-market, installed air conditioning must meet the same requirements as those cited under "Heating and Air Conditioning."~~

~~a. Reimbursement Exception: Air conditioning shall be reimbursable under the Pupil Transportation Support Program when the school district can demonstrate a need subsequent to an IDEA mandated related service.~~

**6. Aisle**

~~1. All emergency exit doors shall be accessible by a 12-inch minimum aisle. The aisle shall be unobstructed at all times by any type of barrier, seat, wheelchair or tie-down. Flip seats are not allowed.~~

**7. Back-Up Warning Alarm**

~~An automatic audible alarm shall be installed behind the rear axle and shall comply with the published Backup Alarm Standards (SAE J994B), providing a minimum of 112 dBA, or shall have a variable volume feature that allows the alarm to vary from 87 dBA to 112 dBA sound level, staying at least 5 dBA above the ambient noise level.~~

**8. Battery**

~~1. The battery is to be furnished by the chassis manufacturer.~~

~~2. When the battery is mounted as described in the "Bus Chassis Specifications", the body manufacturer shall securely attach the battery on a slide-out or swing-out tray in a closed, vented compartment in the body skirt, so that the battery is accessible for convenient servicing from the outside. The battery compartment door or cover shall be hinged at the front or top, and be secured by an adequate and conveniently operated latch or other type fastener. Battery cables installed by the body manufacturer shall meet chassis manufacturer and SAE requirements. Battery cables shall be of sufficient length to allow the battery tray to fully extend. The battery compartment is required on Type A-1 diesel buses.~~

~~3. Buses may be equipped with a battery shut-off switch. If so equipped, the switch is to be placed in a location not readily accessible to the passengers.~~

**9. Brakes (General)**

~~7. The chassis brake system shall conform to the provisions of FMVSS No. 105, No. 106 and No. 121 as applicable.~~

~~8. The anti-lock brake system (ABS), provided in accordance with FMVSS No. 105 or No. 121, shall provide wheel speed sensors for each front wheel and for each wheel on at least one rear axle. The system shall provide anti-lock braking performance for each wheel equipped with sensors. (Four Channel System).~~

~~9. All brake systems should be designed to permit visual inspection of brake lining wear without removal of any chassis component(s).~~

~~10. The brake lines, booster-assist lines, and control cables shall be protected from excessive heat, vibration and corrosion and installed in a manner which prevents chafing.~~

- ~~11. The parking brake system for either air or hydraulic service brake systems may be of a power-assisted design. The power parking brake actuator should be a device located on the instrument panel within seated reach of a 5th percentile female driver. As an option, the parking brake may be set by placing the automatic transmission shift control mechanism in the "park" position.~~
- ~~12. The power-operated parking brake system may be electronically interlocked to the engine key-switch. Once the parking brake has been set and the ignition switch turned to the "off" position, the parking brake cannot be released until the key switch is turned back to the "on" position.~~

**10. — Brakes (Hydraulic)**

~~Buses using a hydraulic assist brake shall be equipped with audible and visible warning signals that provide a continuous warning to the driver of loss of fluid flow from the primary source and of a failure of the back-up pump system. Type A and B buses may be OEM standard.~~

**11. — Brakes (Air)**

- ~~6. The air pressure supply system shall include a desiccant-type air dryer installed according to the manufacturers' recommendations. The air pressure storage tank system may incorporate an automatic drain valve.~~
- ~~7. The Chassis manufacturer should provide an accessory outlet for air-operated systems installed by the body manufacturer. This outlet shall include a pressure protection valve to prevent loss of air pressure in the service brake reservoir.~~
- ~~8. For air brake systems, an air pressure gauge shall be provided in the instrument panel capable of complying with CDL pre-trip inspection requirements.~~
- ~~9. Air brake-equipped buses may be equipped with a service brake interlock. If so equipped, the parking brake shall not release until the brake pedal is depressed.~~
- ~~10. Air brake systems shall include a system for anti-compounding of the service brakes and parking brakes.~~
- ~~11. Air brakes shall have both a visible and audible warning device whenever the air pressure falls below the level where warnings are required under FMVSS No. 121.~~

**12. — Bumper: Front**

~~On a Type D school bus, if the chassis manufacturer does not provide a bumper, it shall be provided by the body manufacturer. The bumper will conform to the standards described in the "Bus Chassis Specifications."~~

**13. Bumper: Rear**

- ~~6. The bumper on Type A-1 bus shall be a minimum of 8 inches wide (high) and Type A-2, B, C and D bus bumper shall be a minimum of 9 1/2 inches wide (high). The bumper shall be of sufficient strength to permit being pushed by another vehicle of similar size or lifted without permanent distortion.~~
- ~~7. The bumper shall wrap around back corners of the bus. It shall extend forward at least 12 inches, measured from the rear-most point of the body at the floor line, and shall be flush-mounted to body sides or protected with an end panel.~~
- ~~8. The bumper shall be attached to the chassis frame in such a manner that it may be removed. It shall be braced to resist deformation of the bumper resulting from impact from the rear or side. It shall be designed to discourage hitching of rides by an individual.~~
- ~~9. The bumper shall extend at least 1 inch beyond the rear-most part of the body surface measured at the floor line.~~
- ~~10. The bottom of the rear bumper shall not be more than 30 inches above ground level.~~

**14. Ceiling**

~~See Insulation and Interior, this section.~~

**15. Certification**

~~The body manufacturer upon request of the Idaho State Department of Education Student Transportation Section shall certify that its product meets all Idaho minimum construction standards (Standards for Idaho School Buses and Operations) for items not covered by the FMVSS certification requirements of 49 CFR, Part 567.~~

**16. Chains (Tire)**

~~See Wheel housing, this section.~~

**17. Color**

- ~~1. The school bus body shall be painted National School Bus Yellow (NSBY), according to School Bus Manufacturers Technical Council publication 008.~~
- ~~2. The entire rub rail and body exterior paint trim shall be black. Entrance door exterior (excluding glass) shall be NSBY or black, or unpainted aluminum. Passenger and driver window frames shall be painted NSBY, black to match body trim, or shall be unpainted aluminum. The area between the passenger and driver window frames shall be NSBY (National School Bus Yellow).~~
- ~~3. Optionally, the roof of the bus may be painted white (non-reimbursable) except that the front and rear roof caps shall remain NSBY, according to National School~~

~~Transportation Specifications & Procedures Placement of Reflective Markings. If required by automated painting processes a maximum three (3) inch black transition strip is allowed between the white roof cap and the NSBY body paint above the windows.~~

#### ~~18.—Communications~~

~~All school buses used to transport students shall be equipped with two-way voice communication other than CB radios.~~

#### ~~19.—Construction~~

~~6. **Side Intrusion Test:** The bus body shall be constructed to withstand an intrusion force equal to the curb weight of the vehicle, or exceed 20,000 pounds, whichever is less. Each vehicle shall be capable of meeting this requirement when tested in accordance with the procedures set forth below.~~

~~7. The complete body structure, or a representative seven body section mock-up with seats installed, shall be load-tested at a location 24 inches plus or minus two inches above the floor line, with a maximum 10-inch diameter cylinder, 48 inches long, mounted in a horizontal plane.~~

~~8. The cylinder shall be placed as close as practical to the mid-point of the tested structure, spanning two internal vertical structural members. The cylinder shall be statically loaded to the required force of curb weight or 20,000 pounds, whichever is less, in a horizontal plane with the load applied from the exterior toward the interior of the test structure. Once the minimum load has been applied, the penetration of the loading cylinder into the passenger compartment shall not exceed a maximum of ten inches from its original point of contact. There can be no separation of lapped panels or construction joints. Punctures, tears or breaks in the external panels are acceptable but are not permitted on any adjacent interior panel.~~

~~9. Body companies shall certify compliance with this intrusion requirement, including test results, if requested.~~

~~10. Construction shall be reasonably dust-proof and watertight.~~

#### ~~20.—Crossing Control Arm (Optional)~~

~~10. Buses may be equipped with a crossing control arm mounted on the right side of the front bumper. This arm when opened shall extend in a line parallel with the body side and positioned on a line with the right side wheels.~~

~~11. All components of the crossing control arm and all connections shall be weatherproofed.~~

~~12. The crossing control arm shall incorporate system connectors (electrical, vacuum or air) at the gate and shall be easily removable to allow for towing of the bus.~~

- ~~13. The crossing control arm shall be constructed of noncorrosive or nonferrous material or treated in accordance with the body sheet metal specifications. (see METAL TREATMENT)~~
- ~~14. There shall be no sharp edges or projections that could cause injury or be a hazard to students. The end of the arm shall be rounded.~~
- ~~15. The crossing control arm shall extend a minimum of 70 inches (measured from the bumper at the arm assembly attachment point) when in the extended position.~~
- ~~16. The crossing control arm shall extend simultaneously with the stop arm(s) by means of the stop arm controls.~~
- ~~17. An automatic recycling interrupt switch should be installed for temporary disabling of the crossing control arm.~~
- ~~18. The assembly shall include a device attached to the bumper near the end of the arm to automatically retain the arm while in the stowed position. That device shall not interfere with normal operations of the crossing control arm.~~

**21. Defrosters**

- ~~5. Defrosting and defogging equipment shall direct a sufficient flow of heated air onto the windshield, the window to the left of the driver and the glass in the viewing area directly to the right of the driver to eliminate frost, fog and snow. **Exception:** The requirement of this standard does not apply to the exterior surfaces of double pane storm windows.~~
- ~~6. The defrosting system shall conform to SAE J381.~~
- ~~7. The defroster and defogging system shall be capable of furnishing heated, outside ambient air, except that the part of the system furnishing additional air to the windshield, entrance door and stop well may be of the recirculating air type.~~
- ~~8. Auxiliary fans are not considered defrosting or defogging systems.~~

**22. Doors, Entrance**

- ~~9. The entrance door shall be in the driver's control, designed to afford easy release and to provide a positive latching device on manual operating doors to prevent accidental opening. When a hand lever is used, no part shall come together that will shear or crush fingers. Manual door controls shall not require more than 25 pounds of force to operate at any point throughout the range of operation, as tested on a 10 percent grade both uphill and downhill.~~
- ~~10. The entrance door shall be located on the right side of the bus, opposite and within direct view of driver.~~

- ~~11. The entrance door shall have a minimum horizontal opening of 24 inches and a minimum vertical opening of 68 inches.~~
- ~~12. The entrance door shall be a split-type door and shall open outward.~~
- ~~13. All entrance door glass shall be of approved safety glass. The bottom of each lower glass panel shall not be more than ten inches from the top surface of the bottom step. The top of each upper glass panel when viewed from the interior shall not be more than 3 inches below the interior door control cover or header pad.~~
- ~~14. Vertical closing edges on entrance doors shall be equipped with flexible material to protect children's fingers.~~
- ~~15. There shall be no door to left of driver on Type B, C or D vehicles. All Type A vehicles may be equipped with the chassis manufacturer's standard left side door.~~
- ~~16. All doors shall be equipped with padding at the top edge of each door opening. Padding shall be at least three inches wide and one inch thick and extend the full width of the door opening.~~
- ~~17. On power-operated entrance doors, the emergency release valve, switch or device to release the entrance door must be placed above or to the immediate left or right of the entrance door and must be clearly labeled. The emergency valve, switch or device shall work in the absence of power.~~

**23. — Emergency Exits and Emergency Exit Alarm Systems**

- ~~13. Any installed emergency exits and all exit alarm systems shall comply with the requirements of FMVSS No. 217.~~
- ~~14. The upper portion of the emergency door shall be equipped with approved safety glazing, the exposed area of which shall be at least 400 square inches. The lower portion of the rear emergency doors on Types A-2, B, C, and D vehicles shall be equipped with a minimum of 350 square inches of approved safety glazing.~~
- ~~15. There shall be no steps leading to an emergency door.~~
- ~~16. The words "EMERGENCY DOOR" or "EMERGENCY EXIT," in letters at least 2" high, shall be placed at the top of or directly above the emergency exit, or on the door in the metal panel above the top glass, both inside and outside the bus.~~
- ~~17. The emergency door(s) shall be equipped with padding at the top edge of each door opening. Padding shall be at least three inches wide and one inch thick, and shall extend the full width of the door opening.~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- ~~18. There shall be no obstruction higher than ¼ inch across the bottom of any emergency door opening. Fasteners used within the emergency exit opening, shall be free of sharp edges or burrs.~~
- ~~19. (In accordance with Federal Regulations Title 49 CFR 571.217 each school bus shall have the designation “Emergency Door” or “Emergency Exit,” as appropriate, in letters at least 5 centimeters high, of a color that contrasts with its background. For emergency exit doors, the designation shall be located at the top of, or directly above, the emergency exit door on both the inside and outside surfaces of the bus. Concise operating instructions describing the motions necessary to unlatch and open the emergency exit shall be located within 15 centimeters of the release mechanism on the inside surface of the bus. These instructions shall be in letters at least 1 centimeter high and of a color that contrasts with its background. Examples: (1) Lift to Unlatch, Push to Open (2) Turn Handle, Push Out to Open). Outside may consist of a black arrow pointing in direction of handle travel. No other lettering shall obstruct or interfere with the placement of operation instructions mounted on the interior or exterior of the emergency exit door.~~
- ~~20. The rear emergency window shall have lifting assistance device that will aid in lifting and holding the rear emergency window open.~~
- ~~21. Each emergency exit door of a school bus shall be equipped with a positive door opening device that, after the release mechanism has been operated, bears the weight of the door; Keeps the door from closing past the point at which the door is perpendicular to the side of the bus body, regardless of the body’s orientation; and Provides a means for release or override. The positive door opening device shall perform the functions specified in paragraph (a)(3)(i) (A) and (B) of this section without the need for additional action beyond opening the door past the point at which the door is perpendicular to the side of the bus body. Emergency door(s) holder – language (CFR 571.217)~~
- ~~22. Types A, B, C and D vehicles shall be equipped with a total number of emergency exits as follows for the indicated capacities of vehicles. Exits required by FMVSS 217 may be included to comprise the total number of exits specified:~~
- ~~0 to 42 Passengers = 1 emergency exit per side and 1 roof hatch.~~  
~~43 to 78 Passengers = 2 emergency exits per side and 2 roof hatches.~~  
~~79 to 90 Passengers = 3 emergency exits per side and 2 roof hatches.~~
- ~~23. Side emergency exit windows, when installed, may be vertically hinged on the forward side of the window. Operation instructions shall be clearly readable of a contrasting color, and be located within 6” of the release mechanism. No side emergency exit window will be located above a stop arm. Emergency exit doors, side emergency exit windows and emergency exit roof hatches shall be strategically located for optimal egress during an emergency evacuation of the bus.~~

~~24. Emergency exit doors shall include an alarm system that includes an audible warning device at the emergency door exit and also in the driver's compartment. Emergency exit side windows shall include an alarm system that includes an audible warning device in the driver's compartment. Roof hatches do not require an alarm system, but if so equipped, they must be operable and include an audible warning device in the driver's compartment.~~

~~25. Vandal lock may be installed, if applicable, the interlock and vandal lock should be interconnected.~~

## ~~24.—Emergency Equipment~~

### ~~1.—Fire extinguisher:~~

~~c.—The bus shall be equipped with at least one UL-approved pressurized, dry chemical fire extinguisher complete with hose. The extinguisher shall be mounted and secured in a bracket, located in the driver's compartment and readily accessible to the driver and passengers. A pressure gauge shall be mounted on the extinguisher and be easily read without moving the extinguisher from its mounted position. Fire extinguisher shall be mounted in such a way as to prevent the entanglement of clothing, backpack straps, drawstrings, etc.~~

~~d.—The fire extinguisher shall have a total rating of 2A10BC or greater. The operating mechanism shall be sealed with a type of seal (breakable) that will not interfere with the use of the fire extinguisher.~~

### ~~2.—First-aid kit:~~

~~c.—The bus shall have a removable, moisture-proof and dustproof first aid kit sealed with a breakable type seal and mounted in the driver's compartment in a location that is physically accessible to all drivers. It shall be properly mounted and secured and identified as a first aid kit. The location for the first aid kit shall be marked. First-aid kit shall be mounted in such a way as to prevent the entanglement of clothing, backpack straps, drawstrings, etc.~~

~~d.—Contents shall, at a minimum, include:~~

~~13) 2—1 inch x 2 1/2 yards adhesive tape~~

~~14) 24—sterile gauze pads 3 inches x 3 inches~~

~~15) 100—3/4 inch x 3 inches adhesive bandages~~

~~16) 8—2 inch bandage compress~~

~~17) 10—3 inch bandage compress~~

~~18) 2—2 inch x 6 feet sterile gauze roller bandages~~

~~19) 2 non-sterile triangular bandages approximately 39 inches x 35 inches x 54 inches with 2 safety pins~~

~~20) 3 sterile gauze pads 36 inches x 36 inches~~

~~21) 3 sterile eye pads~~

~~22) 1 rounded-end scissors~~

~~23) 1 mouth-to-mouth airway~~

~~24) 1 pair medical examination gloves~~

~~3. Body fluid clean-up kit:~~

~~4. Each bus shall have a removable and moisture-proof body fluid clean-up kit. It shall be sealed with a breakable type seal. It shall be properly mounted in the driver's compartment in a location that is physically accessible to all drivers and identified as a body fluid clean-up kit. Body fluid clean-up kit shall be mounted in such a way as to prevent the entanglement of clothing, backpack straps, drawstrings, etc.~~

~~5. Contents shall, at a minimum, include:~~

~~7) 1 pair medical examination gloves~~

~~8) Absorbent~~

~~9) 1 scoop~~

~~10) 1 scraper or hand broom~~

~~11) Disinfectant~~

~~12) 2 plastic bags~~

~~6. Warning devices:~~

~~Each school bus shall contain at least three (3) reflectorized triangle road warning devices that meet requirements in FMVSS 125. The warning device(s) shall be enclosed in an approved box that shall be sealed with a breakable type seal. The warning device(s) and approved box shall be mounted in an accessible place within the driver's compartment of the bus and shall be mounted in such a way as to prevent the entanglement of clothing, backpack straps, drawstrings, etc. The lid of the approved box may be designed so as to reveal the contents of the box without opening the lid.~~

- ~~6. Any of the emergency equipment may be mounted in an enclosed compartment, provided the compartment is labeled in not less than one-inch letters, identifying each piece of equipment contained therein.~~
- ~~7. Tape(s) and silicone sealants do not meet breakable type seal requirement. Breakable type seal(s) shall be replaced as appropriate and necessary and also during every annual school bus inspection following a thorough inspection for deterioration and required contents.~~
- ~~8. Ignitable flares and axes are not allowed on school buses.~~

#### **25.—Floors**

- ~~5. The floor in the under-seat area, including tops of wheel housing, driver's compartment and toe board, shall be covered with rubber floor covering or equivalent, having a minimum overall thickness of .125 inch, and a calculated burn rate of 0.1 or less, using the test methods, procedures and formulas listed in FMVSS No. 302. The driver's area on all Type A buses may be manufacturer's standard flooring and floor covering~~
- ~~6. The floor covering in the aisles shall be of aisle-type rubber or equivalent, wear-resistant and ribbed. Minimum overall thickness shall be .187 inch measured from tops of ribs.~~
- ~~7. The floor covering must be permanently bonded to the floor and must not crack when subjected to sudden changes in temperature. Bonding or adhesive material shall be waterproof and shall be a type recommended by the manufacturer of floor covering material. All seams must be sealed with waterproof sealer.~~
- ~~8. On Types B, C and D buses, a flush-mounted, screw-down plate that is secured and sealed shall be provided to access the fuel tank sending unit and /or fuel pump. This plate shall not be installed under flooring material.~~

#### **26.—Handrails**

~~At least one handrail shall be installed. The handrail(s) shall assist passengers during entry or exit, and be designed to prevent entanglement, as evidenced by the passage of the NHTSA string and nut test, as defined in National School Transportation Specifications & Procedures School Bus Inspection.~~

#### **27.—Heaters and Air Conditioning Systems**

- ~~3. Heating System:
  - ~~m. The heater shall be hot water and/or combustion type.~~
  - ~~n. If only one heater is used, it shall be fresh-air or combination fresh-air and recirculation type.~~~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- ~~o. If more than one heater is used, additional heaters may be recirculating air type.~~
- ~~p. The heating system shall be capable of maintaining bus interior temperatures as specified in SAE test procedure J2233.~~
- ~~q. Auxiliary fuel fired heating systems (non-reimbursable) are permitted, provided they comply with the following:~~
  - ~~r. The auxiliary heating system fuel shall utilize the same type fuel as specified for the vehicle engine.~~
  - ~~s. The heater(s) may be direct hot air or connected to the engine's coolant system.~~
  - ~~t. An auxiliary heating system, when connected to the engine's coolant system, may be used to preheat the engine coolant or preheat and add supplementary heat to the bus's heating system.~~
  - ~~u. Auxiliary heating systems must be installed pursuant to the manufacturer's recommendations and shall not direct exhaust in such a manner that will endanger bus passengers.~~
  - ~~v. Auxiliary heating systems which operate on diesel fuel shall be capable of operating on #1, #2 or blended diesel fuel without the need for system adjustment.~~
  - ~~w. The auxiliary heating system shall be low voltage.~~
  - ~~x. Auxiliary heating systems shall comply with all applicable FMVSSs, including FMVSS No. 301, as well as with SAE test procedures.~~
- ~~y. All forced air heaters installed by body manufacturers shall bear a name plate that indicates the heater rating in accordance with SBMTC-001. The plate shall be affixed by the heater manufacturer and shall constitute certification that the heater performance is as shown on the plate. Low profile heaters are not allowed within the clear floor area required to accommodate a wheelchair.~~
- ~~z. Portable heaters shall not be allowed~~
- ~~aa. Heater hoses shall be adequately supported to guard against excessive wear due to vibration. The hoses shall not dangle or rub against the chassis or any sharp edges and shall not interfere with or restrict the operation of any engine function. Heater hoses shall conform to SAE J20c. Heater lines on the interior of bus shall be shielded to prevent scalding of the driver or passengers. All heater hose shields shall completely cover all parts of the hose and connectors in such a way as to prevent burning subsequent to significant heat transferring to the shield. They shall not incorporate any~~

~~openings that would allow a passenger to be injured by sharp edges or hot surfaces.~~

- ~~bb. Each hot water system installed by a body manufacturer shall include one shut-off valve in the pressure line and one shut-off valve in the return line with both valves at the engine in an accessible location, except that on all Types A and B buses, the valves may be installed in another accessible location.~~
- ~~cc. All heaters in the passenger compartment shall be equipped with a device, installed in the hot water pressure line, which regulates the water flow to all passenger heaters. The device shall be conveniently operated by the driver while seated. The driver and passenger heaters may operate independently of each other for maximum comfort.~~
- ~~dd. All combustion heaters shall be in compliance with current Federal Motor Carrier Safety Administration Regulations.~~
- ~~ee. Accessible bleeder valves shall be installed in an appropriate place in the return lines of body company installed heaters to remove air from the heater lines.~~
- ~~ff. Access panels shall be provided to make heater motors, cores, and fans readily accessible for service. An outside access panel may be provided for the driver's heater.~~

~~4. Air Conditioning (Non-Reimbursable Option Except When Driven By IEP):~~

- ~~g. The following specifications are applicable to all types of school buses that may be equipped with air conditioning. This section is divided into two parts: Part 1 covers performance specifications and Part 2 covers other requirements applicable to all buses.~~

~~h. **Part 1 – Performance Specifications:**~~

- ~~3) The installed air conditioning system should cool the interior of the bus down to at least 80 degrees Fahrenheit, measured at a minimum of three points, located four feet above the floor at the longitudinal centerline of the bus. The three points shall be: (1) near the driver's location, (2) at the mid point of the body, and (3) two feet forward of the rear emergency door, or, for Type D rear engine buses, two feet forward of the end of the aisle.~~
- ~~4) The test conditions under which the above performance must be achieved shall consist of: (1) placing the bus in a room (such as a paint booth) where ambient temperature can be maintained at 100 degrees Fahrenheit (2) heat soaking the bus at 100 degrees Fahrenheit with windows open for at least one hour and (3) closing~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

~~windows, turning on the air conditioner with the engine running at the chassis manufacturer's recommended low idle speed, and cooling the interior of the bus to 80 degrees Fahrenheit or lower within a maximum of 30 minutes while maintaining 100 degrees Fahrenheit outside temperature.~~

- ~~5) Alternately, and at the user's discretion, this test may be performed under actual summer conditions, which consist of temperatures above 85 degrees Fahrenheit, humidity above 50 percent with normal sun loading of the bus and the engine running at the manufacturer's recommended low idle speed. After a minimum of one hour of heat soaking, the system shall be turned on and must provide a minimum 20-degree temperature drop in the 30-minute time limit.~~
- ~~6) The manufacturer shall provide facilities for the user or user's representative to confirm that a pilot model of each bus design meets the above performance requirements.~~

~~i. **Part 2 - Other Requirements:**~~

- ~~8) Evaporator cases, lines and ducting (as equipped) shall be designed in such a manner that all condensation is effectively drained to the exterior of the bus below the floor level under all conditions of vehicle movement and without leakage on any interior portion of bus.~~
- ~~9) Any evaporator or ducting system shall be designed and installed so as to be free of injury-prone projections or sharp edges. Any ductwork shall be installed so that exposed edges face the front of the bus and do not present sharp edges.~~
- ~~10) On specially equipped school buses, the evaporator and ducting (if used) shall be placed high enough that they will not obstruct occupant securement shoulder strap upper attachment points. This clearance shall be provided along entire length of the passenger area on both sides of the bus interior to allow for potential retrofitting of new wheelchair positions and occupant securement devices throughout the bus.~~
- ~~11) The body may be equipped with insulation, including sidewalls, roof, firewall, rear, inside body bows and plywood or composite floor insulation to aid in heat dissipation and reflection.~~
- ~~12) All glass (windshield, entrance and emergency doors, side and rear windows) may be equipped with maximum integral tinting allowed by federal, state or ANSI standards for the respective locations, except that windows rear of the driver's compartment, if tinted shall have approximately 28 percent light transmission.~~
- ~~13) Electrical generating capacity shall be provided to accommodate the additional electrical demands imposed by the air conditioning system.~~

~~14) Roofs may be painted white to aid in heat dissipation, according to National School Transportation Specifications & Procedures Placement of Reflective Markings.~~

**28. Hinges**

~~All exterior metal door hinges which do not have stainless steel, brass or nonmetallic hinge pins or other designs that prevent corrosion shall be designed to allow lubrication to be channeled to the center 75 percent of each hinge loop without disassembly.~~

**29. Identification**

~~4. The body shall bear the words "SCHOOL BUS" in black letters at least eight inches high on both front and rear of the body or on signs attached thereto. Lettering shall be placed as high as possible without impairment of its visibility. Letters shall conform to "Series B" of Standard Alphabets for Highway Signs. "SCHOOL BUS" lettering shall have a reflective background, or as an option, may be illuminated by backlighting.~~

~~5. MFSABs are exempt from these requirements.~~

~~6. Required lettering and numbering shall include:~~

~~k. School district owned vehicles will be identified with black lettering (minimum four inches (4") high) on both sides of the school bus using the district name and number listed in the Idaho Educational Directory. Contractor owned school buses under contract with a school district must also comply with the same identification standards as district owned buses and shall be identified by either the contractor or district name, as decided by the district.~~

~~l. Each district owned or contracted school bus will be separately identified with its own number in two (2) places on each side of the bus in the logo panel/belt line using six inch (6") high black numbers. Numbers on the passenger side shall be as close to the first and last passenger windows as possible and on the driver's side as close to the stop arm and last passenger window as possible.~~

~~m. Unauthorized entry placards shall be displayed in the most visible location when observed by persons approaching the vehicle with the door in the open position. Permanence of the placard should be a consideration when choosing a location for attachment. Placard shall read as follows:~~

**WARNING**  
**IT IS UNLAWFUL TO:**  
**Enter a school bus with the intent to commit a crime**

~~Enter a school bus and disrupt or interfere with the driver  
Refuse to disembark after ordered to do so  
(18-1522; 18-113, Idaho Code)~~

- ~~1) State Department of Education Student Transportation Section may provide unauthorized entry placards.~~
- ~~n. Other lettering, numbering, or symbols, which may be displayed on the exterior of the bus, shall be limited to:~~
- ~~o. Bus identification number on the top, front and rear of the bus, in addition to the required numbering on the sides.~~
- ~~p. The location of the battery(ies) identified by the word "BATTERY" or "BATTERIES" on the battery compartment door in two-inch maximum lettering.~~
- ~~q. Symbols or letters not to exceed 64 square inches of total display near the entrance door exterior displaying information for identification by the students of the bus or route served. No symbols, letters, or other signage shall be permitted on the first two passenger windows or on entrance door glass which may block or obscure clear visibility.~~
- ~~r. All other signage must have prior written SDE approval.~~
- ~~s. Manufacturer, dealer or school identification or logos displayed so as not to distract significantly from school bus body color and lettering specifications.~~
- ~~t. Symbols identifying the bus as equipped for or transporting students with special needs (see Specially Equipped School Bus section).~~
- ~~u. Lettering on the rear of the bus relating to school bus flashing signal lamps or railroad stop procedures. This lettering shall not obscure or interfere with the operation instructions displayed on the exterior portion of the rear emergency exit door.~~
- ~~v. Identification of fuel type in two-inch maximum lettering adjacent to the fuel filler opening.~~
- ~~w. One 4" x 10" (maximum) decal promoting school bus safety on rear bumper.~~

**30. Inside Height**

Inside body height shall be 72" or more, measured metal to metal, at any point on longitudinal centerline from front vertical bow to rear vertical bow. Inside body height of Type A-1 buses shall be 62" or more.

**31. Insulation (Optional)**

- ~~3. If thermal insulation is specified, it shall be fire-resistant, UL approved, with minimum R-value of 5.5. Insulation shall be installed so as to prevent sagging.~~
- ~~4. If floor insulation is required, it shall be five-ply nominal 5/8 inch thick plywood, and it shall equal or exceed properties of the exterior-type softwood plywood, C-D Grade, as specified in standard issued by U.S. Department of Commerce. When plywood is used, all exposed edges shall be sealed. Type A-1 buses may be equipped with nominal 1/2 inch thick plywood or equivalent material meeting the above requirements. Equivalent material may be used to replace plywood, provided it has an equal or greater insulation R-value, deterioration, sound abatement and moisture resistance properties.~~

**32.—Interior**

- ~~2. The interior of bus shall be free of all unnecessary projections, which include luggage racks and attendant handrails, to minimize the potential for injury. This specification requires inner lining on ceilings and walls. If the ceiling is constructed to contain lapped joints, the forward panel shall be lapped by rear panel and exposed edges shall be beaded, hemmed, flanged, or otherwise treated to minimize sharp edges. Buses may be equipped with a storage compartment for tools, tire chains and/or tow chains. (see STORAGE COMPARTMENT)~~
- ~~3. Non-reimbursable interior overhead storage compartments may be provided if they meet the following criteria:
  - ~~g. Meet head protection requirements of FMVSS 222, where applicable.~~
  - ~~h. Have a maximum rated capacity displayed for each compartment.~~
  - ~~i. Be completely enclosed and equipped with latching doors which must be sufficient to withstand a force of five times the maximum rated capacity of the compartment.~~
  - ~~j. Have all corners and edges rounded with a minimum radius of one inch or padded equivalent to door header padding.~~
  - ~~k. Be attached to the bus sufficiently to withstand a force equal to twenty times the maximum rated capacity of the compartment.~~
  - ~~l. Have no protrusions greater than 1/4 inch.~~~~
- ~~4. The driver's area forward of the foremost padded barriers will permit the mounting of required safety equipment and vehicle operation equipment. All equipment necessary for the operation of the vehicle shall be properly secured in such a way as to prevent the entanglement of clothing, backpack straps, drawstrings, etc.~~
- ~~5. Every school bus shall be constructed so that the noise level taken at the ear of the occupant nearest to the primary vehicle noise source shall not exceed 85 dbA when~~

tested according to National School Transportation Specifications & Procedures Noise Test Procedure.

**33. ~~Lamps and Signals~~**

~~5. Interior lamps shall be provided which adequately illuminate the aisle and step well. The step well lamps shall be illuminated by an entrance service door-operated switch, to illuminate only when headlamps and or clearance lamps are on and the entrance door is open. An additional exterior mounted lamp shall be mounted next to the entrance door to adequately illuminate the outside approach to the door. It shall be actuated simultaneously with the step well lamps.~~

~~6. Body instrument panel lamps shall be controlled by an independent rheostat switch.~~

~~7. School Bus Alternately Flashing Signal Lamps:~~

~~g. The bus shall be equipped with two red lamps at the rear of vehicle and two red lamps at the front of the vehicle.~~

~~h. In addition to the four red lamps described above, four amber lamps shall be installed so that one amber lamp is located near each red signal lamp, at the same level, but closer to the vertical centerline of bus. The system of red and amber signal lamps, when in its operational mode, shall be wired so that amber lamps are energized manually, and red lamps are automatically energized (with amber lamps being automatically de-energized) when stop signal arm is extended or when bus entrance door is opened. An amber pilot lamp and a red pilot lamp shall be installed adjacent to the driver controls for the flashing signal lamp to indicate to the driver which lamp system is activated.~~

~~i. Air and electrically operated doors may be equipped with an over-ride switch that will allow the red lamps to be energized without opening the door, when the alternately flashing signal lamp system is in its operational mode. The use of such a device shall be in conformity with the law and SDE loading/unloading training procedures, as contained in Idaho's school bus driver training curriculum.~~

~~j. The area around the lenses of alternately flashing signal lamps extending outward from the edge of the lamps three inches (+/- 1/4 inch) to the sides and top and minimum one inch to the bottom, shall be black in color on the body or roof area against which the signal lamp is seen (from a distance of 500 feet along axis of the vehicle).~~

~~k. Red lamps shall flash at any time the stop signal arm is extended.~~

~~l. All flashers for alternately flashing red and amber signal lamps shall be enclosed in the body in a readily accessible location.~~

~~8. Turn Signal and Stop/Tail Lamps:~~

- ~~j. Bus body shall be equipped with amber rear turn signal lamps that are at least seven inches in diameter or, if a shape other than round, a minimum 38 square inches of illuminated area and shall meet FMVSS No. 108. These signal lamps must be connected to the chassis hazard warning switch to cause simultaneous flashing of turn signal lamps when needed as vehicular traffic hazard warning. Turn signal lamps are to be placed as wide apart as practical and their centerline shall be a maximum of 12 inches below the rear window. Type A-1 conversion vehicle front lamps must be at least 21 square inches in lens area and must be in the manufacturer's standard color.~~
- ~~k. Buses shall be equipped with amber side-mounted turn signal lamps. One turn signal lamp on the left side shall be mounted rearward of the stop signal arm and one turn signal lamp on the right side shall be mounted rearward of the entrance door. Both front side-mounted turn signal lamps shall be mounted forward of the bus center line. An additional side mounted turn signal lamp may be mounted on each side of the bus to the rear of the bus center line.~~
- ~~l. Buses shall be equipped with four combination red stop/tail lamps:~~
- ~~3) Two combination lamps with a minimum diameter of seven inches, or if a shape other than round, a minimum 38 square inches of illuminated area shall be mounted on the rear of the bus just inside the turn signal lamps.~~
  - ~~4) Two combination lamps with a minimum diameter of four inches, or if a shape other than round, a minimum of 12 square inches of illuminated area, shall be placed on the rear of the body between the beltline and the floor line. The rear license plate lamp may be combined with one lower tail lamp. Stop lamps shall be activated by the service brakes and shall emit a steady light when illuminated. Type A-1 buses with bodies supplied by chassis manufacturer may be equipped with manufacturer's standard stop and tail lamps.~~
- ~~m. On buses equipped with a monitor for the front and rear lamps of the school bus, the monitor shall be mounted in full view of the driver. If the full circuit current passes through the monitor, each circuit shall be protected by a fuse or circuit breaker or electronic protection device against any short circuit or intermittent shorts.~~
- ~~n. An optional white flashing strobe lamp may be installed on the roof of a school bus, at a location not to exceed 1/3 the body length forward from the rear of the roof edge. The lamp shall have a single clear lens emitting light 360 degrees around its vertical axis and may not extend above the roof more than maximum legal height. A manual switch and a pilot lamp shall be included to indicate when lamp is in operation. Operation of the strobe lamp is limited to periods of inclement weather, nighttime driving, emergency~~

~~situation or whenever students are onboard. Optionally, the strobe lamp may be mounted on the roof in the area directly over the restraining barrier on the driver's side, may be wired to activate with the amber alternately flashing signal lamps, continuing through the full loading or unloading cycle, and may be equipped with an override switch to allow activation of the strobe at any time for use in inclement weather, nighttime driving or emergency situation.~~

- ~~e. The bus body shall be equipped with two white rear backup lamps that are at least four inches in diameter or, if a shape other than round, a minimum of 12 square inches of illuminated area, meeting FMVSS No. 108 and Idaho Code 49-920. If backup lamps are placed on the same horizontal line as the brake lamps and turn signal lamps, they shall be to the inside.~~

### **34.—Metal Treatment**

- ~~5. All metal except high-grade stainless steel or aluminum used in construction of the bus body shall be zinc-coated or aluminum-coated or treated by an equivalent process before bus is constructed. Included are such items as structural members, inside and outside panels, door panels and floor sills. Excluded are such items as door handles, grab handles, interior decorative parts and other interior plated parts.~~
- ~~6. All metal parts that will be painted, in addition to the above requirements, shall be chemically cleaned, etched, zinc phosphate-coated and zinc chromate or epoxy-primed, or the metal may be conditioned by an equivalent process. This includes but not limited to such items as crossing arm and stop arm.~~
- ~~7. In providing for these requirements, particular attention shall be given to lapped surfaces, welded connections of structural members, cut edges on punched or drilled hole areas in sheet metal, closed or box sections, unvented or undrained areas and surfaces subjected to abrasion during vehicle operation.~~
- ~~8. As evidence that the above requirements have been met, samples of materials and sections used in the construction of the bus body shall be subjected to a cyclic corrosion testing as outlined in SAE J1563.~~

### **35.—Mirrors**

- ~~5. The interior mirror shall be either clear view laminated glass or clear view glass bonded to a backing which retains the glass in the event of breakage. The mirror shall have rounded corners and protected edges. All Type A buses shall have a minimum of a six-inch x 16-inch mirror and Types B, C, and D buses shall have a minimum of a six-inch x 30-inch mirror.~~
- ~~6. Each school bus shall be equipped with exterior mirrors meeting the requirements of FMVSS No. 111. Mirrors shall be easily adjustable but shall be rigidly braced so as to reduce vibration. The right side rear view mirror shall not be obscured by the un-wiped portion of the windshield.~~

~~7. Heated external mirrors may be used.~~

~~8. Remote controlled external rear view mirrors may be used.~~

**36.—Mounting**

~~3. The chassis frame shall support the rear body cross member. The bus body shall be attached to chassis frame at each main floor sill, except where chassis components interfere, in such a manner as to prevent shifting or separation of the body from the chassis under severe operating conditions.~~

~~4. Isolators shall be installed at all contact points between body and chassis frame on Types A-2, B, C, and D buses, and shall be secured by a positive means to the chassis frame or body to prevent shifting, separation, or displacement of the isolators under severe operating conditions.~~

**37.—Overall Length**

~~Overall length of bus shall not exceed 45 feet, excluding accessories.~~

**38.—Overall Width**

~~Overall width of bus shall not exceed 102 inches, excluding accessories.~~

**39.—Public Address System**

~~3. Buses may be equipped with AM/FM audio and/or public address system having interior or exterior speakers.~~

~~4. No internal speakers, other than the driver's communication systems, may be installed within four feet of the driver's seat back in its rearmost upright position.~~

**40.—Reflective Material (See National School Transportation Specifications & Procedures Placement of Reflective Markings)**

~~6. The front and/or rear bumper may be marked diagonally 45 degrees down to centerline of pavement with two-inch  $\pm\frac{1}{4}$  inch wide strips of non-contrasting reflective material.~~

~~7. The rear of bus body shall be marked with strips of reflective NSBY material to outline the perimeter of the back of the bus using material which conforms to the requirements of FMVSS No. 131, Table 1. The perimeter marking of rear emergency exits per FMVSS No. 217 and/or the use of reflective "SCHOOL BUS" signs partially accomplish the objective of this requirement. To complete the perimeter marking of the back of the bus, strips of at least one and three-quarters ( $1\frac{3}{4}$ ) inch reflective NSBY material shall be applied horizontally above the rear windows and above the rear bumper, extending from the rear emergency exit perimeter, marking outward to the left and right rear corners of~~

~~the bus. Vertical strips shall be applied at the corners connecting these horizontal strips.~~

- ~~8. "SCHOOL BUS" signs, if not of lighted design, shall be marked with retro reflective NSBY material comprising background for lettering of the front and/or rear "SCHOOL BUS" signs.~~
- ~~9. Sides of bus body shall be marked with at least one ¾ inch retro reflective NSBY material, extending the length of the bus body and located (vertically) between the floor line and the beltline.~~
- ~~10. Signs, if used, placed on the rear of the bus relating to school bus flashing signal lamps or railroad stop procedures may be of retro reflective NSBY material comprising background for lettering.~~

#### **41. Rub Rails**

- ~~7. There shall be one rub rail located on each side of the bus approximately at seat cushion level which extends from the rear side of the entrance door completely around the bus body (except the emergency door or any maintenance access door) to the point of curvature near the outside cowl on the left side.~~
- ~~8. There shall be one additional rub rail located on each side at, or no more than ten inches above the floor line. The rub rail shall cover the same longitudinal area as upper rub rail, except at the wheel housings, and it shall, at a minimum, extend to radii of the right and left rear corners.~~
- ~~9. Both rub rails shall be attached at each body post and all other upright structural members.~~
- ~~10. Each rub rail shall be four inches or more in width in their finished form, shall be constructed of 16-gauge steel or suitable material of equivalent strength and shall be constructed in corrugated or ribbed fashion. Each entire rub rail shall be black in color.~~
- ~~11. Both rub rails shall be applied outside the body or outside the body posts. Pressed-in or snap-on rub rails do not satisfy this requirement. For Type A-1 vehicles using the body provided by the chassis manufacturer or for Types A-2, B, C and D buses using the rear luggage or the rear engine compartment, rub rails need not extend around the rear corners.~~
- ~~12. There shall be a rub rail or equivalent bracing located horizontally at the bottom edge of the body side skirts.~~

#### **42. Seats and Restraining Barriers**

##### **a. Passenger Seating:**

- ~~3. All seats shall have a minimum cushion depth of 15 inches, a seat back height of 24 inches above the seating reference point, and must comply~~

~~with all requirements of FMVSS No. 222. School bus design capacities shall be in accordance with 49 CFR, Part 571.3 and FMVSS No. 222. In addition to the fastener that forms the pivot for each seat retaining clip, a secondary fastener may be used in each clip to prevent the clip from rotating and releasing the seat cushion unintentionally.~~

- ~~4. All restraining barriers and passenger seats may be constructed with non-reimbursable materials that enable them to meet the criteria contained in the School Bus Seat Upholstery Fire Block Test (National School Transportation Specifications & Procedures School Bus Seat Upholstery Fire Block Test).~~
- ~~5. Each seat leg shall be secured to the floor by a minimum of two bolts, washers, and nuts. Flange head nuts may be used in lieu of nuts and washers, or seats may be track-mounted in conformance with FMVSS No. 222. If track seating is installed, the manufacturer shall supply minimum and maximum seat spacing dimensions applicable to the bus, which comply with FMVSS No. 222. This information shall be on a label permanently affixed to the inside passenger compartment of the bus.~~
- ~~6. All seat frames attached to the seat rail shall be fastened with two bolts, washers and nuts or flange head nuts.~~
- ~~7. All school buses (including Type A) shall be equipped with restraining barriers which conform to FMVSS No. 222.~~
- ~~8. The use of a "flip seat" adjacent to any side emergency door is prohibited.~~

~~b. Pre-School Age Seating:~~

~~When installed, all passenger seats designed to accommodate a child or infant carrier seat shall comply with FMVSS No. 225. These seats shall be in compliance with NHTSA's "Guideline for the Safe Transportation of Pre-school Age Children in School Buses".~~

~~c. Driver Seat:~~

~~c. The driver's seat supplied by the body company shall be a high-back seat with a minimum seat back adjustable to 15 degrees, without requiring the use of tools, and a head restraint to accommodate a 5th percentile female to a 95th percentile adult male, as defined in FMVSS No. 208. The driver's seat shall be secured with nuts, bolts and washers or flanged head nuts.~~

~~d. Type A buses may use the standard driver's seat provided by the chassis manufacturer.~~

~~d. Driver Restraint System:~~

- ~~d. A Type 2 lap/shoulder belt shall be provided for the driver. On buses where the driver's seat and upper anchorage for the shoulder belt are both attached to the body structure, a driver's seat with an integrated Type 2 lap/shoulder belt may be substituted. On buses where the driver's seat and upper anchorage for the shoulder belt are separately attached to both body and chassis structures (i.e., one attached to the chassis and the other attached to the body), a driver's seat with an integrated Type 2 lap/shoulder belt should be used.~~
- ~~e. The assembly shall be equipped with an emergency locking retractor for the continuous belt system. On all buses except Type A equipped with a standard chassis manufacturer's driver's seat, the lap portion of the belt system shall be guided or anchored to prevent the driver from sliding sideways under it. The lap/shoulder belt shall be designed to allow for easy adjustment in order to fit properly and to effectively protect drivers varying in size from 5th percentile adult female to 95th percentile adult male.~~
- ~~f. Each bus shall be equipped with a durable webbing cutter having a full width handgrip and a protected, replaceable or non-corrodible blade. The required belt cutter shall be mounted in a location accessible to the seated driver in an easily detachable manner.~~

#### **43. Steering Wheel**

See Chassis section.

#### **44. Steps**

- ~~5. The first step at entrance door shall be not less than ten inches and not more than 14 inches from the ground when measured from top surface of the step to the ground, based on standard chassis specifications, except that on Type D vehicles, the first step at the entrance door shall be 12 inches to 16 inches from the ground. On chassis modifications which may result in increased ground clearance (such as four wheel drive) an auxiliary step shall be provided to compensate for the increase in ground-to-first-step clearance. The auxiliary step is not required to be enclosed.~~
- ~~6. Step risers shall not exceed a height of ten inches. When plywood is used on a steel floor or step, the riser height may be increased by the thickness of the plywood.~~
- ~~7. OEM steps shall be enclosed to prevent accumulation of ice and snow.~~
- ~~8. OEM, retrofit, or after market steps shall not protrude beyond the side body line, except during the loading or unloading of passengers.~~

#### **45. Step Treads**

- ~~5. All steps, including the floor line platform area, shall be covered with 3/16-inch rubber floor covering or other materials equal in wear and abrasion resistance to top grade rubber.~~
- ~~6. The metal back of the tread shall be permanently bonded to the step tread material.~~
- ~~7. Steps, including the floor line platform area, shall have a one 1/2-inch nosing that contrasts in color by at least 70 percent measured in accordance with the contrasting color specification in 36 CFR, Part 1192 ADA, Accessibility Guidelines for Transportation Vehicles.~~
- ~~8. Step treads shall have the following characteristics:~~
- ~~9. Abrasion resistance: Step tread material weight loss shall not exceed 0.40 percent, as tested under ASTM D-4060, Standard Test Method for Abrasion Resistance of Organic Coatings by the Taber Abraser; (CS-17 Wheel, 1000 gram, 1000 cycle)~~
- ~~10. Weathering resistance: Step treads shall not break, crack, or check after ozone exposure (7 days at 50 phm at 40 degrees C) and Weatherometer exposure (ASTM D-750, Standard Test Method for Rubber Deterioration in Carbon-Arc Weathering Apparatus, 7 days)~~
- ~~11. Flame Resistance: Step treads shall have a calculated burn rate of .01 or less using the test methods, procedures and formulas listed in FMVSS No. 302, Flammability of Interior Materials~~

#### ~~46. — Stirrup Steps~~

~~When the windshield and lamps are not easily accessible from the ground, there may be at least one folding stirrup step or recessed foothold and suitably located handles on each side of the front of the body for easy accessibility for cleaning. Steps are permitted in or on the front bumper in lieu of the stirrup steps, if the windshield and lamps are easily accessible for cleaning from that position.~~

#### ~~47. — Stop Signal Arm~~

~~The stop signal arm(s) shall comply with the requirements of FMVSS No. 131.~~

#### ~~48. — Storage Compartment (Optional)~~

~~A storage container for tools, tire chains, and/or tow chains may be located either inside or outside the passenger compartment. If inside, it shall have a cover capable of being securely latched and fastened to the floor (the seat cushion may not serve this purpose), convenient to either the entrance door or the emergency door.~~

#### ~~49. — Sun Shield~~

- ~~3. An interior adjustable transparent sun shield, with a finished edge and not less than six inches by 30 inches for Types B, C, and D vehicles, shall be installed in a position convenient for use by the driver.~~
- ~~4. On all Type A buses, the sun shield (visor) shall be installed according to the manufacturer's standard.~~

**50. Tail Pipe**

- ~~a. The tailpipe may be flush with, but shall not extend out more than two inches beyond, the perimeter of the body for side-exit pipe or the bumper for rear-exit pipe.~~
- ~~b. The tailpipe shall exit to the left or right of the emergency exit door in the rear of vehicle or to the left side of the bus in front or behind the rear drive axle. The tailpipe exit location on school bus types A-1 or B-1 buses may be according to the manufacturer's standard. The tailpipe shall not exit beneath any fuel filler location or beneath any emergency door.~~

**51. Tow Attachment Points**

- ~~5. Rear towing devices (i.e. tow hooks, tow eyes, or other designated towing attachment points) shall be furnished to assist in the retrieval of buses that are stuck and/or for towing buses when a wrecker with a "wheel lift" or an "axle lift" is not available or cannot be applied to the towed vehicle.~~
- ~~6. Towing devices shall be attached to the chassis frame either by the chassis manufacturer or in accordance with the chassis manufacturer's specifications.~~
- ~~7. Each rear towing device shall have a strength rating of 13,500 pounds with the force applied in the rearward direction, parallel to the ground, and parallel to the longitudinal axis of the chassis frame rail.~~
- ~~8. The towing devices shall be mounted such that they do not project rearward of the rear bumper.~~

**52. Traction Assisting Devices (Optional)**

- ~~3. Where required or used, sanders shall:
  - ~~j. Be of hopper cartridge valve type.~~
  - ~~k. Have a metal hopper with all interior surfaces treated to prevent condensation of moisture.~~
  - ~~l. Be of at least 100 pound (grit) capacity.~~
  - ~~m. Have a cover on the filler opening of hopper, which screws into place, thereby sealing the unit airtight.~~~~

- ~~n. Have discharge tubes extending to the front of each rear wheel under the fender.~~
  - ~~o. Have non-clogging discharge tubes with slush-proof, non-freezing rubber nozzles.~~
  - ~~p. Be operated by an electric switch with a telltale pilot lamp mounted on the instrument panel.~~
  - ~~q. Be exclusively driver-controlled.~~
  - ~~r. Have a gauge to indicate that the hopper needs refilling when it reaches one-quarter full.~~
- ~~4. Automatic traction chains may be installed.~~

### ~~53. Trash Container and Holding Device (Optional)~~

~~Where requested or used, the trash container shall be secured by a holding device that is designed to prevent movement and to allow easy removal and replacement; and it shall be installed in an accessible location in the driver's compartment, not obstructing passenger use of the entrance door or the entrance grab handle, and in such a way as to prevent the entanglement of clothing, backpack straps, drawstrings, etc.~~

### ~~54. Undercoating~~

- ~~3. The entire underside of the bus body, including floor sections, cross member and below floor line side panels, shall be coated with rust-proofing material for which the material manufacturer has issued a notarized certification of compliance to the bus body builder that materials meet or exceed all performance and qualitative requirements of paragraph 3.4 of Federal Specification TT-C-520b, using modified test procedures\* for the following requirements:~~
  - ~~5. Salt spray resistance-pass test modified to 5 percent salt and 1000 hours~~
  - ~~6. Abrasion resistance-pass~~
  - ~~7. Fire resistance-pass~~
  - ~~8. \*Test panels are to be prepared in accordance with paragraph 4.6.12 of TT-C-520b with modified procedure requiring that test be made on a 48-hour air-cured film at thickness recommended by compound manufacturer.~~
- ~~4. The undercoating material shall be applied with suitable airless or conventional spray equipment to the recommended film thickness and shall show no evidence of voids in the cured film. The undercoating material shall not cover any exhaust components of the chassis.~~

**55.—Ventilation**

- 5.—Auxiliary fans shall meet the following requirements:
  - d.—Fans for left and right sides shall be placed in a location where they can be adjusted for maximum effectiveness and where they do not obstruct vision to any mirror or through any critical windshield area. Note: Type A buses may be equipped with one fan.
  - e.—Fans shall be of six inch nominal diameter.
  - f.—Fan blades shall be covered with a protective cage. Each fan shall be controlled by a separate switch.
- 6.—The bus body shall be equipped with a suitably controlled ventilating system of sufficient capacity to maintain proper quantity of air under operating conditions without having to open windows except in extremely warm weather.
- 7.—Static-type, non-closeable exhaust ventilation shall be installed, preferably in a low-pressure area of the roof.
- 8.—Roof hatches designed to provide ventilation in all types of exterior weather conditions may be provided.

**56.—Wheelhousing**

- 6.—The wheel housing opening shall allow for easy tire removal and service.
- 7.—The wheel housings shall be attached to floor sheets in such a manner so as to prevent any dust, water or fumes from entering the body. The wheel housings shall be constructed of at least 16-gauge steel.
- 8.—The inside height of the wheel housing above the floor line shall not exceed 12 inches.
- 9.—The wheel housings shall provide clearance for installation and use of tire chains on single and dual (if so equipped) power-driving wheels.
- 10.—No part of a raised wheel housing shall extend into the emergency door opening.

**57.—Windows**

- 3.—Each full side window, other than emergency exits designated to comply with FMVSS 217, shall provide an unobstructed opening of at least nine inches but not more than 13 inches high and at least 22 inches wide, obtained by lowering the window. One side window on each side of the bus may be less than 22 inches wide. Passenger and driver window frames shall be painted NSBY, black to match body trim, or shall be unpainted aluminum. The area between the passenger and driver window frames shall be NSBY (National School Bus Yellow).

4. ~~Optional tinted (non-reimbursable) and/or frost-free glazing may be installed in all doors, windows, and windshields consistent with federal, state, and local regulations.~~

**58. ~~Windshield Washers~~**

~~A windshield washer system shall be provided.~~

**59. ~~Windshield Wipers~~**

3. ~~A two-speed windshield wiping system with an intermittent time delay feature shall be provided.~~
4. ~~The wipers shall meet the requirements of FMVSS No. 104.~~

**60. ~~Wiring~~**

19. ~~All wiring shall conform to current SAE standards.~~
20. ~~Wiring shall be arranged in circuits, as required, with each circuit protected by a fuse, breaker or electronic protection device.~~
21. ~~A system of color and number coding shall be used and an appropriate identifying diagram shall be provided to the end user, along with the wiring diagram provided by the chassis manufacturer. The wiring diagrams shall be specific to the bus model supplied and shall include any changes to wiring made by the body manufacturer. Chassis wiring diagrams shall be supplied to the end user. A system of color and number coding shall be used on buses. The following body interconnecting circuits shall be color-coded as noted:~~

<u>FUNCTION</u>	<u>COLOR</u>
<del>Left Rear Directional Lamp</del>	<del>Yellow</del>
<del>Right Rear Directional Lamp</del>	<del>Dark Green</del>
<del>Stop Lamps</del>	<del>Red</del>
<del>Back-up Lamps</del>	<del>Blue</del>
<del>Tail Lamps</del>	<del>Brown</del>
<del>Ground</del>	<del>White</del>
<del>Ignition Feed, Primary Feed</del>	<del>Black</del>

22. ~~The color of cables shall correspond to SAE J 1128.~~
23. ~~Wiring shall be arranged in at least six regular circuits as follows:~~
- f. ~~Head, tail, stop (brake) and instrument panel lamps~~
- g. ~~Clearance lamps and step well lamps that shall be actuated when the entrance door is open~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- ~~h. Dome lamps~~
- ~~i. Ignition and emergency door signal~~
- ~~j. Turn signal lamps~~
- ~~1) Alternately flashing signal lamps.~~

- ~~24. Any of the above combination circuits may be subdivided into additional independent circuits.~~
- ~~25. Heaters and defrosters shall be wired on an independent circuit.~~
- ~~26. There shall be a manual noise suppression switch installed in the control panel. The switch shall be labeled and alternately colored. This switch shall be an on/off (a momentary or spring loaded switch does not meet this requirement) type that deactivates body equipment that produces noise, including, at least, the AM/FM radio, two-way communications, heaters, air conditioners, fans and defrosters. This switch shall not deactivate safety systems, such as windshield wipers or lighting systems.~~
- ~~27. Whenever possible, all other electrical functions (such as sanders and electric-type windshield wipers) shall be provided with independent and properly protected circuits.~~
- ~~28. Each body circuit shall be coded by number or letter on a diagram of circuits and shall be attached to the body in a readily accessible location.~~
- ~~29. The entire electrical system of the body shall be designed for the same voltage as the chassis on which the body is mounted.~~
- ~~30. All wiring shall have an amperage capacity exceeding the design load by at least 25 percent. All wiring splices are to be done at an accessible location and noted as splices on wiring diagram.~~
- ~~31. A body wiring diagram of a size that can be easily read shall be furnished with each bus body or affixed in an area convenient to the electrical accessory control panel.~~
- ~~32. The body power wire shall be attached to a special terminal on the chassis.~~
- ~~33. All wires passing through metal openings shall be protected by a grommet.~~
- ~~34. Wires not enclosed within the body shall be fastened securely at intervals of not more than 18 inches. All joints shall be soldered or joined by equally effective connectors, which shall be water-resistant and corrosion-resistant.~~
- ~~35. Multiplex wiring may exempt manufacturers from some of the above wiring standards.~~

~~36. Buses may be equipped with a 12-volt power port in the driver's area.~~

## STANDARDS FOR SPECIALLY EQUIPPED SCHOOL BUSES

### A. Introduction

~~Equipping buses to accommodate students with disabilities is dependent upon the needs of the passengers. While one bus may be fitted with a lift, another may have lap belts installed to secure child seats. Buses so equipped are not to be considered a separate class of school bus, but simply a regular school bus that is equipped for special accommodations.~~

The specifications in this section are intended to be supplementary to specifications in the [school bus](#) chassis and body sections. In general, specially equipped buses shall meet all the requirements of the preceding sections plus those listed in this section. It is recognized by the entire industry that the field of special transportation is characterized by varied needs for individual cases and by a rapidly emerging technology for meeting those needs. A flexible, "common-sense" approach to the adoption and enforcement of specifications for these vehicles, therefore, is prudent.

~~1. As defined by the Code of Federal Regulations (CFR) 49§571.3, "Bus means a motor vehicle with motive power, except a trailer, designed for carrying more than ten persons" (eleven or more including the driver). This definition also embraces the more specific category, school bus. Vehicles with ten or fewer passenger positions (including the driver) are not classified as buses. For this reason, the federal vehicle classification multipurpose passenger vehicle (CFR 49§571.3), or MPV, must be used by manufacturers for these vehicles in lieu of the classification school bus. The definition of designated seating position in 49 CFR § 571.3 states that, in the case of "vehicles sold or introduced into interstate commerce for purposes that include carrying students to and from school or related events" and which are "intended for securement of an occupied wheelchair during vehicle operation," each wheelchair securement position shall be counted as four designated seating positions when determining the classification (whether school bus or IMPV). This classification system does not preclude state or local agencies or the National School Transportation Specifications & Procedures from requiring compliance of school bus-type MPVs with the more stringent federal standards for school buses. The following specifications address modifications as they pertain to school buses that, with standard seating arrangements prior to modifications, would accommodate eleven or more including the driver. If by addition of a power lift, mobile seating device positions or other modifications, the capacity is reduced such that vehicles become MPVs, the intent of these standards is to require these vehicles to meet the same standards they would have had to meet prior to such modifications, and such MPVs are included in all references to school buses and requirements for school buses which follow.~~

### B. Definition

A specially equipped school bus is any school bus that is designed, equipped, or modified to accommodate students with special transportation needs.

### C. General Requirements

1. School buses designed for transporting students with special transportation needs shall comply with Standards for Idaho School Buses and Operations and with Federal Motor Vehicle Safety Standards (FMVSS) applicable to their Gross Vehicle Weight Rating (GVWR) category.
2. Any school bus to be used for the transportation of children who utilize a wheelchair or other mobile positioning device, or who require life-support equipment that prohibits use of the regular service entrance, shall be equipped with a power lift. ~~unless a ramp is needed for unusual circumstances related to passenger needs.~~

### D. Aisles

All school buses equipped with a power lift shall provide a minimum thirty (30)-inch pathway leading from any wheelchair/mobility aid position to at least one thirty (30) inch wide emergency exit door. A wheelchair securement position shall never be located directly in front of (blocking) a power lift door location.

### E. Communications

All school buses used to transport students shall be equipped with two-way voice communication or SDE pre-approved device other than CB radios.  
~~All school buses that are used to transport individuals with disabilities shall be equipped with a two-way electronic voice communication system other than CB radio.~~

### F. Glazing

Tinted glazing may be installed in all doors ~~(non-reimbursable)~~, windows ~~(non-reimbursable)~~, and windshields consistent with federal, state, and local regulations.

### G. Identification

Buses with power lifts used for transporting individuals with disabilities shall display below the window line on the lift and rear doors the International Symbol of Accessibility. Such emblems shall be white on blue background, shall not exceed twelve~~12~~ inches by twelve~~12~~ inches (12 x 12 inches) or be less than four inches by four inches (4 x 4 inches) in size, and shall be of a high-intensity reflectorized material meeting Federal Highway Administration (FHWA) FP-85 Standards.

### H. Passenger Capacity Rating

In determining the passenger capacity of a school bus for purposes other than actual passenger load (e.g., vehicle classification or various billing/ reimbursement models), any location in a school bus intended for securement of an occupied wheelchair/mobility aid during vehicle operations are regarded as four (4) designated seating positions. Similarly, each lift area may be regarded as four (4) designated seating positions.

## I. Power Lifts ~~and Ramps~~

The power lift shall be located on the right side of the bus body when not extended. Exception: The lift may be located on the left side of the bus if, and only if, the bus is primarily used to deliver students to the left side of one-way streets.

- ~~1. A ramp device may be used in lieu of a mechanical lift if the ramp meets all the requirements of the Americans with Disabilities Act (ADA) as found in 36 CFR §1192.23 Vehicle ramp.~~
- ~~2. A ramp device that does not meet the specifications of ADA but does meet the specifications delineated below may be installed and used, when, and only when, a power lift system is not adequate to load and unload students having special and unique needs. A readily accessible ramp may be installed for emergency exit use. If stowed in the passenger compartment, the ramp must be properly secured and placed away from general passenger contact. It must not obstruct or restrict any aisle or exit while in its stowed or deployed position.~~
- ~~3. All specially equipped school buses shall provide a level-change mechanism or boarding device (e.g., lift or ramp), complying with the Ramp Section, with sufficient clearances to permit a wheelchair or other mobility aid user to reach a securement location.~~

## J. Vehicle Lifts & Installations

- Vehicle lifts and installations shall comply with the requirements set forth in FMVSS [No. 403](#), Platform Lift Systems for Motor Vehicles, and FMVSS [No. 404](#), Platform Lift Installations in Motor Vehicles.
- The design load of the vehicle lift shall be at least [eight hundred \(800\)](#) pounds. Working parts, such as cables, pulleys and shafts, which can be expected to wear, and upon which the vehicle lift depends for support of the load, shall have a safety factor of at least six, based on the ultimate strength of the material. Nonworking parts, such as platform, frame and attachment hardware that would not be expected to wear shall have a safety factor of at least three, based on the ultimate strength of the material.
- The vehicle lifting mechanism and platform shall be capable of operating effectively with a wheelchair and occupant mass of at least [eight hundred \(800\)](#) pounds.
- Controls: (See 49 CFR [Part 571.403](#), S6.7, Control Systems).
- Emergency Operations: (See 49 CFR [Part 571.403](#), S6.9, [backup-Backup](#) Operation).
- Power or Equipment Failures: (See 49 CFR [Part 571.403](#), S6.2.2, Maximum Platform Velocity).

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

7. Platform Barriers: (See 49 CFR [Part 571.403](#), S6.4.2, S6.4.3, Platform Requirements) (See, also “Wheelchair or Mobility Aid Envelope” figure at the end of this section).
8. Platform Surface: (See 49 CFR [Part 571.403](#), S6.4.2, S6.4.3, Platform Requirements) (See, also “Wheelchair or Mobility Aid Envelope” figure at the end of this subsection).
9. Platform Gaps and Entrance Ramps: (See 49 CFR [Part 571.403](#), S6.4.4, Gaps, Transitions, and Openings).
10. Platform Deflection: (See 49 CFR [Part 571.403](#), S6.4.5, Platform Deflection).
11. Platform Movement: (See 49 CFR [Part 571.403](#), S6.2.3, Maximum Platform Acceleration).
12. Boarding Direction: The lift shall permit both inboard and outboard facing of wheelchair and mobility aid users.
13. Use by Standees: Lifts shall accommodate persons who are using other aids/devices other than a wheelchair (resulting in other than a seated position) who need to use to the lift. Such persons should use a wheelchair or other wheel-based mobility device for boarding or exiting the bus, and then should be transferred to a bus seat for the ride. During lift operations no one shall be allowed to stand on the lift platform, unless otherwise noted in an [Individualized Education Program \(IEP\)](#) or 504 [Plan](#) in accordance with an aid riding with a student on the lift. **[Note: This item refers to equipment specifications].**
14. Handrails: (See 49 CFR [Part 571.403](#), S6.4.9, Handrails)
15. Circuit Breaker: A resettable circuit breaker shall be installed between the power source and the lift motor if electrical power is used. ~~It shall be located as close to the power source as possible, but not within the passenger/driver compartment.~~
16. Excessive Pressure: (See 49 CFR [Part 571.403](#), S6.8 Jacking Prevention)
17. Documentation: the following information shall be provided with each vehicle equipped with a lift:
  - a. A phone number where information can be obtained about installation, repair, and parts. (Detailed written instructions and a parts list shall be available upon request.)
  - b. Detailed instructions regarding use of the lift shall be readily visible when the lift door is open, including a diagram showing the proper placement and positioning of wheelchair/mobility aids on the lift.

18. Training Materials: The lift manufacturer shall make training materials available to ensure the proper use and maintenance of the lift. These may include instructional videos, classroom curriculum, system test results or other related materials.
19. Identification and Certification: Each lift shall be permanently and legibly marked or shall incorporate a non-removable label or tag that states it conforms to all applicable requirements of the current National School Transportation Specifications and Procedures. In addition and upon request of the original titled purchaser, the lift manufacturer or an authorized representative shall provide a notarized Certificate of Conformance, either original or photocopied, which states that the lift system meets all the applicable requirements of the current National School Transportation Specifications and Procedures.

## 2. ~~Vehicle Ramp~~

- ~~a. A ramp device may be used in lieu of a mechanical lift if the ramp meets all the requirements of the Americans with Disabilities Act (ADA) as found in 36 CFR §1192.23, Vehicle ramp.~~
- ~~b. A ramp device that does not meet the specifications of ADA, but does meet the specifications of paragraph 3 (a-d) of National School Transportation Specifications and Procedures (NSTSP of May 2010 Edition), this section, may be installed and used, when, and only when, a power lift system is not adequate to load and unload students having special and unique needs. A readily accessible ramp may be installed for emergency exit use.~~

- ~~c. If a ramp is used, it shall be of sufficient strength and rigidity to support at least 800 lbs. over an area of 26" x 26. It shall be equipped with a protective flange on each longitudinal side to keep the special device on the ramp.~~
- ~~d. The surface of the ramp shall be constructed of non-skid material.~~
- ~~e. The ramp shall be equipped with handles and shall be of weight and design to permit one person to put the ramp in place and return it to its storage place. It shall be stored outside the passenger compartment.~~
- ~~f. Ramps used for emergency evacuation purposes may be installed in raised floor buses by manufacturers. They shall not be installed as a substitute for a lift when a lift is capable of serving the need.~~

#### **K. Regular Service Entrance**

1. On power lift-equipped vehicles, the bottom step shall be the full width of the step well, excluding the thickness of the doors in open position.
2. In addition to the handrail required in the [School Bus Standards](#) ~~BUS BODY AND CHASSIS~~ section, an additional handrail may be provided on all specially equipped school buses. This rail shall be located on the opposite side of the entrance door from the rail required in the [School Bus Standards](#) ~~BUS BODY AND CHASSIS~~ section and shall meet the same requirements for handrails.

#### **L. Restraining Devices**

1. On power lift-equipped vehicles with a GVWR of ten thousand (10,000) pounds or more, seat frames may be equipped with attachment points to which belt assemblies can be attached for use with child safety restraint systems (CSRSs) that comply with FMVSS No. 213, Child Restraint Systems. Any belt assembly anchorage shall comply with FMVSS No. 210, Seat Belt Assembly Anchorages.
  - a. Alternatively, a child restraint anchorage system that complies with FMVSS No. 225, Child Restraint Anchorage Systems, may be installed.
2. Belt assemblies, if installed, shall conform to FMVSS No. 209, Seat Belt Assemblies.
3. Child safety restraint systems, which are used to facilitate the transportation of children who in other modes of transportation would be required to use a child, infant, or booster seat, shall conform to FMVSS No. 213.

#### **M. Seating Arrangements**

Flexibility in seat spacing to accommodate special devices shall be permitted to meet passenger requirements. All seating shall be forward-facing, School Bus Passenger Seating and Crash Protection and meet requirements of FMVSS No. 222.

**N. Securement and Restraint System for Wheel Chair Occupant and Wheel Chair Seated Occupants**

For purposes of understanding the various aspects and components of this section, the term securement and tie down and the phrases securement system or tie down system are used exclusively in reference to the devices that anchor the wheelchair to the vehicle. The term restraint and the phrase restraint system are used exclusively in reference to the equipment that is intended to limit the movement of the wheelchair occupant in a crash or sudden maneuver. The term ~~w~~Wheelchair ~~t~~Tie-down and ~~e~~Occupant ~~r~~Restraint ~~s~~System (WTORS) is used to refer to the total system that secures the wheelchair and restrains the wheelchair occupant.

**1. WTORS—General Requirements**

- a. A wheelchair tie down and occupant restraint system installed in specially equipped school buses shall be designed, installed, and operated for the use with forward-facing wheelchair-seated passengers and shall comply with all applicable requirements of FMVSS [No. 222](#), School Bus Passenger Seating and Crash Protection, and SAE J2249, Wheelchair Tie-~~D~~own and ~~e~~Occupant ~~r~~Restraint ~~s~~Systems for use in motor vehicles.
- b. The WTORS, including the anchorage track, floor plates, pockets or other anchorages, shall be provided by the same manufacturer or shall be certified to be compatible by manufacturers of all equipment/systems used.
- c. A device for storage of the WTORS shall be provided. When the system is not in use, the storage device shall allow for clean storage of the system, shall keep the system securely contained within the passenger compartment, shall provide reasonable protection from vandalism and shall enable the system to be readily accessed for use.
- d. The WTORS, including the storage device, shall meet the flammability standards established in FMVSS No. 302, Flammability of Interior Materials.
- e. The following information shall be provided with each vehicle equipped with a securement and restraint system:
  - i. A phone number where information can be obtained about installation, repair, and parts. (Detailed written instructions and parts list shall be available upon request.)
  - ii. Detailed instructions regarding use, including a diagram showing the proper placement of the wheelchair/mobility aids and positioning of securement devices and occupant restraints, including correct belt angles.
- f. The WTORS manufacturer shall make training materials available to ensure the proper use and maintenance of the WTORS. These may include

instructional videos, classroom curriculum, system test results or other related materials.

2. **Wheelchair Securement/Tie down:** (See [49 CFR Part 571.403](#), S5.4.1, S5.4.2)

Each wheelchair position in a specially equipped school bus shall have a minimum clear floor area of thirty 30 inches laterally by forty-eight 48 inches (30 x 48 inches) longitudinally. Additional floor area may be required for some wheelchairs. Consultation between the user and the manufacturer is recommended to insure that adequate area is provided.

3. **Occupant Restraint System:** (See [49 CFR Part 571.403](#), S5.4.3, S5.4.4)

If the upper torso belt anchorage is higher than forty-four (44) inches, measured from the vehicle floor, an adjustment device, as part of the occupant restraint system, shall be supplied.

## O. Special Light

Doorways in which lifts are installed shall have for use during lift operation a special light(s) providing a minimum of two (2) foot-candles of illumination measured on the floor of the bus immediately adjacent to the lift.

## P. Special Service Entrance

1. Power lift-equipped buses shall have a special service entrance to accommodate the power lift.

**Exception:** If the lift is designed to operate within the regular service entrance, and is capable of stowing such that the regular service entrance is not blocked in any way, and that persons entering or exiting the bus are not impeded in any way, a special service entrance shall not be required.

2. The special service entrance and door shall be located on the right side of the bus and shall be designed so as not to obstruct the regular service entrance.

**Exception:** A special service entrance and door may be located on the left side of the bus if, and only if, the bus is used primarily to deliver students to the left side of one-way streets and its use is limited to that function.

3. The opening may extend below the floor through the bottom of the body skirt. If such an opening is used, reinforcements shall be installed at the front and rear of the floor opening to support the floor and give the same strength as other floor openings.
4. A drip molding shall be installed above the opening to effectively divert water from entrance.

5. Door posts and headers at the entrance shall be reinforced sufficiently to provide support and strength equivalent to the areas of the side of the bus not used for the special service entrance.

**Q. Special Entrance Doors**

1. A single door or double doors may be used for the special service entrance. All doors shall have a positive fastening device with a black arrow pointing in the direction of handle travel to open.
2. A single door shall be hinged to the forward side of the entrance unless doing so would obstruct the regular service entrance. If, due to the above condition, the door is hinged to the rearward side of the doorway, the door shall utilize a safety mechanism that will prevent the door from swinging open should the primary door latch fail. If double doors are used, the system shall be designed to prevent the door(s) from being blown open by the wind resistance created by the forward motion of the bus, and/or shall incorporate a safety mechanism to provide secondary protection should the primary latching mechanism(s) fail.
3. All doors shall have positive fastening devices to hold doors in the "open" position.
4. All doors shall be weather sealed.
5. When manually-operated dual doors are provided, the rear door shall have at least a one-point fastening device to the header. The forward-mounted door shall have at least three one-point fastening devices. One shall be to the header, one to the floor line of the body, and the other shall be into the rear door. The door and hinge mechanism shall be of a strength that is greater than or equivalent to the emergency exit door.
6. Door materials, panels and structural strength shall be equivalent to the conventional entrance and emergency doors. Color, rub rail extensions, lettering and other exterior features shall match adjacent sections of the body.
7. Each door shall have windows set in rubber that are visually similar in size and location to adjacent non-door windows. Glazing shall be of same type and tinting (if applicable) as standard fixed glass in other body locations.
8. Door(s) shall be equipped with a device that will actuate an audible or flashing signal located in the driver's compartment when door(s) is not securely closed and the ignition is in the "on" position.
9. A switch shall be installed so that the lifting mechanism will not operate when the lift platform door(s) is closed.
10. Special service entrance doors shall be equipped with padding at the top edge of the door opening. Padding shall be at least three (3) inches wide and one (1) inch thick and shall extend the full width of the door opening.

## R. Support Equipment and Accessories

1. In addition to the webbing cutter required in the [bus standards BUS BODY AND CHASSIS](#) section, each specially equipped school bus ~~that is~~ set up to accommodate wheelchairs or other assistive or restraint devices with belts attached shall contain an additional webbing cutter properly secured in a location to be determined by the purchaser. The belt cutter shall meet the requirements listed in the [bus standards BUS BODY AND CHASSIS](#) section.
2. Special equipment or supplies ~~that are~~ used on the bus for mobility assistance, health support or safety purposes shall meet any local, federal or engineering standards that may apply, including proper identification.
3. Equipment that may be used for these purposes includes, but is not limited to:
  - a. Wheelchairs and other mobile seating devices. (~~See~~ section on Securement and Restraint System for Wheelchair and Wheelchair-seated Occupant.);
  - b. Crutches, walkers, canes and other ambulating devices; and/or
  - c. Medical support equipment, which may include respiratory devices such as oxygen bottles ~~{~~which should be no larger than twenty-two (22) cubic feet for liquid oxygen and thirty-eight (38) cubic feet for compressed gas~~}~~ or ventilators. Tanks and valves should be located and positioned to protect them from direct sunlight, bus heater vents or other heat sources. Other equipment may include intravenous and fluid drainage apparatus. If transporting oxygen, refer to Ambulance Manufactures Division, Standard 003.
4. All portable equipment and special accessory items, including the equipment listed above, shall be secured at the mounting location to withstand a pulling force of five (5) times the weight of the item or shall be retained in an enclosed, latched compartment. The compartment shall be capable of withstanding forces applied to its interior equal to five (5) times the weight of its contents without failure to the box's integrity and securement to the bus. Exception: If these standards provide specific requirements for securement of a particular type of equipment, the specific standard shall prevail (e.g., wheelchairs).

## S. Technology and Equipment

It is the intent of these specifications to accommodate new technologies and equipment that will better facilitate the transportation of students with special needs. New technology and equipment is acceptable for use in specially equipped vehicles if:

1. It does not compromise the effectiveness or integrity of any major safety system. (Examples of safety systems include, but are not limited to, compartmentalization, the eight-lamp warning system, emergency exits and the approved color scheme.)

2. It does not diminish the safety of the bus interior.
3. It does not create additional risk to students who are boarding or exiting the bus or are in or near the school bus loading zone.
4. It does not require undue additional activity and/or responsibility for the driver.
5. It generally increases efficiency and/or safety of the bus, generally provides for a safer or more pleasant experience for the occupants and pedestrians in the vicinity of the bus and/or generally assists the driver and makes his/her many tasks easier to perform.

## **STANDARDS FOR ALTERNATIVE FUELS FOR SCHOOL BUSES**

### **A. Introduction**

This section is designed to be used as an overview of the alternative fuels being utilized for student school transportation. It is not designed to replace current applicable federal, state, manufacturing or safety specifications that may exceed requirements within this section. There may be advancements in engineering and improvements in equipment fabrication methods and operating practices that differ from those specifically called for in this section. Such deviations or improvements may provide safety and may meet the intent of, and be compatible with, this section. Entities wishing to purchase alternative fuel school buses should use this section only as a starting point. More detailed specifications, including specific design and performance criteria and safety specifications, should be researched by prospective purchasers of alternative-fuel school buses.

### **B. General Requirements**

Alternative fuel school buses shall meet the following requirements:

1. Chassis shall meet all standards previously mentioned in [IDAHO SCHOOL BUS CHASSIS STANDARDS](#).
2. Chassis shall meet all applicable Federal Motor Vehicle Safety Standards (FMVSS).
3. The fuel system integrity shall meet the specified leakage performance standards when impacted by a moving contoured barrier in accordance with test conditions specified in FMVSS No. 301 or [FMVSS-No. 303](#), [or with the Canadian Motor Vehicles Safety Standard 301.1](#), as applicable.
4. Original equipment manufacturers (OEMs) and conversion systems using compressed natural gas (CNG) shall comply with National Fire

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

Protection Association (NFPA) Specification ~~52-A, 2013~~, "Compressed Natural Gas Vehicular Fuel Systems," in effect at the time of installation. Fuel systems using liquefied petroleum gas (LPG) shall comply with NFPA Specification ~~58-A, 2014~~, "Liquefied Petroleum Gases Engine Fuel Systems" ~~in effect at the time of installation~~.

5. ~~All alternative fuel buses shall be capable of traveling not less than 200 miles with a full load, except those powered by electricity shall be capable of traveling not less than 80 miles~~ Fuel tank(s) for vehicles of less than fifty-four (54) passenger capacity powered by LPG or CNG shall have a minimum 40-gallon capacity. Fuel tank (s) for vehicles of fifty-four (54) or more passenger capacity powered by LPG or CNG shall have a minimum 60-gallon capacity.
6. Natural gas-powered buses ~~shall~~ may be equipped with an interior/exterior gas detection system. All natural gas-powered buses ~~shall~~ may be equipped with an automatic or manual fire detection and suppression system.
7. All materials and assemblies used to transfer or store alternative fuels shall be installed outside the passenger/driver compartment.
8. All Types C and D buses using alternative fuels shall meet the same base requirements of IDAHO SCHOOL BUS CHASSIS STANDARDS for passenger load.
9. The total weight shall not exceed the GVWR when loaded to rated capacity.
10. The manufacturer supplying the alternative fuel equipment must provide the owner and operator with adequate training and certification in fueling procedures, scheduled maintenance, troubleshooting and repair of alternative fuel equipment.
11. All fueling equipment shall be designed specifically for fueling motor vehicles and shall be certified by the manufacturer as meeting all applicable federal, state and industry standards.
12. All on-board fuel supply containers shall meet all appropriate requirements of the American Society for Mechanical Engineering (ASME) code, DOT regulations or applicable FMVSSs and NFPA standards.
- ~~13. All fuel supply containers shall be securely mounted to withstand a static force of eight times their weight in any direction.~~
- ~~14.13.~~ 13. ~~All safety devices that discharge to the atmosphere shall be vented~~ All safety devices that discharge to the atmosphere shall be vented ~~to the outside of the vehicle. The discharge line from the safety relief valve on all school buses shall be located in a manner appropriate to the characteristics of the alternative fuel. Discharge lines shall not pass through the passenger compartment.~~
- ~~15.14.~~ 14. ~~A CNG buses shall have a~~ A CNG buses shall have a positive quick-acting (one quarter turn) shut-off control valve shall be installed in each gaseous fuel supply line, as close as

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

possible to the fuel supply containers. The valve controls shall be placed in a location easily operable from the exterior of the vehicle. The location of the valve control shall be clearly marked on the exterior surface of the bus.

- ~~16.15.~~ An electrical grounding system shall be required for grounding of the fuel system during maintenance-related venting.
- ~~17.16.~~ Fuel systems identified as compatible with bio-diesel must be provided with components compatible with Bio-Diesel ~~must conform~~ conforming to the specifications of ASTM Biodiesel Standards.
- ~~18.17.~~ High voltage-powered school buses utilizing a high voltage propulsion system (~~more than forty-eight (48) nominal volts~~) shall meet the requirements of FMVSS 305, except for the following:
- a. The propulsion power source (batteries, fuel cells, etc.) shall be located outside the passenger compartment.
  - b. The propulsion power source enclosure shall be constructed to conform to the power source manufacturer's requirements and recommendations.
  - c. Due to the much larger size and quantities of the propulsion power sources on large vehicles, buses over ten thousand (10,000) ~~lbs.~~ pounds are permitted to exceed the 5.0 liter spillage constraint of 49 CFR Part 571.305, Section S5.1, "Electrolyte ~~damages~~ spillage from propulsion batteries." and the requirements to statically rotate the vehicle on its longitudinal axis post test.

~~C.~~ **Characteristics of Alternative Fuels**

- ~~1. For the purpose of this section, alternative fuels refer to the specific fuels listed below. A brief description of each fuel is shown. (See National School Transportation Specifications & Procedures Alternative Fuels Comparison Chart)~~
- ~~2. Note: Two other more exotic fuels are being examined, hydrogen and solar power. These two energy sources are in their infancy as alternative fuels for motor vehicles and are not covered within the scope of this section.~~
- ~~3. Liquid Alternative Fuels:~~
  - ~~1. Methanol, a liquid at normal ambient temperatures, is colorless, and is made primarily from natural gas or coal. Extensive experiments have been conducted with automobile and truck engines powered by methanol. There are a number of urban transit bus fleets currently using methanol. California has experience with methanol as an alternative fuel for school buses through their School Bus Demonstration Project. The findings clearly determined methanol fuel to be costly to operate and unreliable. (Advantages and disadvantages listed in National School Transportation Specifications and Procedures May 2010 — Alternative Fuels.)~~

~~b.~~ Ethanol is a distilled agricultural alcohol product that is a liquid and is colorless at normal ambient temperatures. Corn is the current primary grain source. It has many of the same characteristics as methanol. Currently, ethanol is used primarily in a mixture with gasoline, usually no more than 10% ethanol.

~~c.~~ Clean diesel was one of the alternative fuels approved in the Clean Air Act Amendments of 1990. The first step to be undertaken was further refining to reduce sulfur content and hence the significant particulate emissions caused by the sulfur. Significant advancement in this process has resulted in the development of ultra-low sulfur content diesel fuel. Refinery techniques can now produce diesel fuel with a sulfur content below 15 parts per million (PPM). The availability of this fuel supports the installation of an advanced exhaust after-treatment device in the form of a continuously regenerating trap (CRT). This CRT technology reduces the exhaust particulate content by approximately 90 percent from currently mandated levels (to essentially zero) and the hydrocarbons to an unmeasurable level (to essentially zero). Further steps are being developed to add cetane boosters, which increase efficient combustion. (Advantages and disadvantages listed in National School Transportation Specifications and Procedures May 2010 — Alternative Fuels.)

~~d.~~ Reformulated gasoline is a specially blended fuel with the following properties: (1) lower vapor pressure that reduces evaporation during operation and refueling, and (2) more efficient combustion through the addition of high-octane oxygenates. Reformulated gasoline aromatic levels have been lowered, which provides less in the way of hydrocarbon tail pipe emissions. Reformulated gasoline (RFG) is required by the EPA in certain metropolitan areas. However, those areas are becoming fewer. (Advantages and disadvantages listed in National School Transportation Specifications and Procedures May 2010 — Alternative Fuels.)

#### ~~4. Gaseous Alternative Fuels:~~

~~a.~~ Natural gas is primarily methane as it comes from the well, and it burns quite cleanly in its unprocessed state. Natural gas has a higher ignition point (temperature) and a narrower fuel/oxygen mixture combustion range than other fuels. Energy is consumed in processing natural gas to achieve sufficient vehicle storage (i.e., compression or cryogenic processes). (See Compressed Natural Gas and Liquid Natural Gas below.) Natural gas is lighter than air in ambient conditions and does not pool on the ground, a condition that requires buildings used for indoor housing of natural gas vehicles to be adequately ventilated at the ceiling.

~~b.~~ Compressed natural gas, or CNG, consists primarily of mixtures of hydrocarbon gases and vapors, consisting principally of methane (CH<sub>4</sub>) in gaseous form, which is compressed for use as a vehicular fuel.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

~~(Advantages and disadvantages listed in National School Transportation Specifications and Procedures May 2010—Alternative Fuels.)~~

- ~~e. Liquid natural gas, or LNG, utilizes the same natural gas source (primarily methane) as CNG, but requires purification of the gas and cooling and storage below -260 degrees Fahrenheit to liquefy the natural gas. Converting natural gas to liquid form provides storage of a much greater amount on the vehicle than can be achieved in the gaseous state. The process of liquefying the natural gas also yields almost pure methane gas with predictable performance characteristics. (Advantages and disadvantages listed in National School Transportation Specifications and Procedures May 2010—Alternative Fuels.)~~
  
- ~~d. Propane, also known as Liquefied Petroleum Gas or LPG, is sometimes available directly from wells, but is normally produced as a by-product of the gasoline refining process. It has been used for a number of years in light-duty commercial vehicles in urban areas around the world. (Advantages and disadvantages listed in National School Transportation Specifications and Procedures May—2010 Alternative Fuels.)~~
  
- ~~e. Electric Power or the use of electricity as a power source for school buses is an emerging technology that is under considerable research due to the potential for reduced overall emissions. Research is centering on ways to increase the capacity and reduce the weight of batteries, as well as improving the motors used to power the vehicles and the associated electronics. Recharging technology is also developing rapidly. Most of these efforts have the goals of improving the range and performance of electric vehicles, reducing their cost and addressing operational concerns, such as recharging.~~
  
- ~~f. Hybrid electric and plug-in hybrid electric vehicles, while technically not an alternative fuel, are treated as such in most federal and state programs due to the novel approach to energy use. Straight hybrid electric vehicles are, by far, the largest and fastest growing sector of alternative fuel vehicles. Plug-in hybrid electric vehicles take advantage of the straight hybrid system, but also allow the user to precharge the battery packs to gain additional range and reduce combustion engine usage. (Advantages and disadvantages listed in National School Transportation Specifications and Procedures May—2011 Alternative Fuels.)~~
  
- ~~g. Biodiesel is a fuel manufactured from vegetable oils, recycled cooking greases, or animal fats. The term “biodiesel” refers to the pure fuel. Biodiesel blends or BXX refers, to a fuel that is composed of XX% biodiesel and XX% diesel fuel. The City of Seattle, for example, has been using B20 which is 20% biodiesel blended with 80% low sulfur diesel. B100 is pure biodiesel. The diesel fuel can be No. 1 or No. 2. Biodiesel and biodiesel blends should only be used in compression-ignition engines that are designed to be operated on diesel fuel as described in ASTM 975 or related military specifications. Biodiesel or blends should never be put into a gasoline engine. Biodiesel fuel can be used in compression-ignition~~

~~engines in cars, trucks, construction equipment, boats, generators, and in most other applications where diesel is typically used. Biodiesel fuel is renewable, is domestically produced and is commercially available in all fifty (50) states. It provides similar performance to diesel; has high cetane, high lubricity, high flash point, and is the safest of all fuels to store and handle. Biodiesel has the highest BTU content of any alternative fuel.~~

~~h. Clean diesel was one of the alternative fuels approved in the Clean Air Act Amendments of 1990. The first step to be undertaken was further refining to reduce sulfur contents and hence the significant particulate emissions caused by the sulfur. Significant advancement in this process has resulted in the development of ultra-low sulfur content diesel fuel. Refinery techniques can now produce diesel fuel with a sulfur content below 15 parts per million (PPM). The availability of this fuel supports the continuously regenerating filter, known as a diesel particulate filter. This technology reduces the exhaust particulate content by approximately 90 percent from currently mandated levels (to essentially zero). Further steps are being developed to add cetane booster, which increase efficient combustion. (Advantages and disadvantages listed in National School Transportation Specifications and Procedures May 2010—Alternative Fuels.)~~

## SCHOOL BUS WITHDRAWAL FROM SERVICE STANDARDS

The SDE staff shall develop, maintain and periodically distribute out-of-service criteria (a matrix), the basis of which shall be the latest published document from the most recent National [Conference/Congress](#) on School Transportation. The Out-of-Service Matrix shall be subsequent to input from the Student Transportation Steering Committee ~~and new school bus state inspectors~~, as needed. These standards are intended to ensure that all Idaho school buses are maintained in a safe manner. When inspection of a bus reveals a maintenance condition that is below an out-of-service standard it shall be the duty of the technician performing the inspection to remove the vehicle from service until the discrepancy has been corrected. These standards shall apply to both new and used buses and shall be the criteria used whenever an Idaho school bus is inspected. These standards are to be used whenever a sixty (60)-day, Annual or New School Bus Inspection is being performed by state inspectors or district, contractor, or outside contracted maintenance personnel (~~IG~~ [Section 33-1506, Idaho Code](#)). [The Out-of-Service Matrix is located on the SDE website.](#)

## STANDARDS FOR STUDENT TRANSPORTATION OPERATIONS

### A. Introduction

The success of any school transportation operation depends largely on the performance and degree of dedication displayed by those involved. The school bus is an extension of the classroom and as such, the ride to school should be safe and efficient in an atmosphere conducive to learning readiness. Open and honest communication between all stakeholders is vital for the success of the transportation program. Transportation is critical to the education process, and the school bus is the safest form of transportation. Therefore, transportation to and from school on a school bus shall be offered to all eligible students. Districts or the governing body responsible for ~~pupil~~[student](#) transportation shall have an eligibility policy, which takes safety into account, addressing distances from school for ~~all~~[different](#) age groups. If transportation eligibility is maximized, the result will be more students on buses and therefore, safer access to students' educational opportunities. The sole criterion used to establish transportation eligibility should not be only the distance between a student's home address and the student's school of attendance; rather, travel to and from school must take into account various criteria. Safety must be the primary concern, and criteria should take into account the ages of students and potentially hazardous situations, such as roadway and walk pathway conditions, speed limits, railroad crossings, lighting conditions, etc. The criteria should also take into account students' levels of maturity, grade levels, cognitive and physical abilities. Similar criteria should be used in establishing maximum distances between a student's home and the assigned bus stop per district guidelines.

### B. School Travel Choices

1. Children in the United States travel to and from pre-school, school and related activities by a variety of modes. Administrators, parents and students often choose or encourage the use of modes of travel for reasons other than maximizing safety or minimizing risk (e.g., convenience, flexibility, and budget).

**It is recommended that all eligible school students be transported in a school bus.**

2. Each travel mode has its inherent risks, which vary from community to community, school to school and program to program, and any shifts from one mode to another can have a marked effect on the overall safety of travel for a particular community, school or program. The goal is to improve safety for all children traveling to and from pre-school, school and related activities and to provide communities with the information needed to make informed choices that balance their needs and resources.

### **C. Administration**

In compliance with ~~IC-Section~~ 33-1511, Idaho Code, the SDE shall provide the following:

1. Leadership in the development of a comprehensive student transportation program for statewide application.
2. A state supervisor of student-school transportation with the staff and resources necessary for optimal job performance.
3. A comprehensive school bus operator and school bus technician training program.
4. Frequent visits to local school districts and charter schools to audit, inspect, review and evaluate student transportation programs and financial systems (including reimbursement claim accuracy) and provide direction as necessary. Adequate frequency shall be defined as, at least once every ~~three-two~~ (2) years.
5. The Supervisor-Director of Student Transportation, based upon results of program reviews, fiscal audits, and spot inspections as set forth in Section ~~IC~~ 33-1506, Idaho Code will provide school districts a list of required corrective actions, when necessary (~~IC-Section~~ 33-1511, Idaho Code).
6. Follow-up visits to ensure implementation of corrective action plans. The Supervisor-Director of Student Transportation shall require school districts to submit progress reports on those corrective actions developed by the Supervisor-Director of Student Transportation to the SDE at prescribed intervals until deficiencies are corrected or the corrective actions no longer apply (~~IC-Section~~ 33-1511, Idaho Code).
7. The Supervisor-Director of Student Transportation may withhold all or a portion of a district's ~~pupil~~student transportation reimbursement funding in instances of noncompliance with the requirements of ~~IC-Sections~~ 33-~~1506~~1511(6) or ~~IC-33-1506~~1511(6), Idaho Code.
8. Managing the state's student transportation program to include planning, budgeting, and forecasting requirements for the operation.

9. Collecting and analyzing statistical and financial data.
10. Developing, preparing and organizing manuals, handbooks and written training programs for student transportation personnel.
11. Providing consulting services and assistance to local districts as necessary.

**D. Local School District or Charter School Administration**

1. The local district or charter responsible for student transportation shall supervise the overall transportation operation within the respective district.
2. Assign adequately trained staff responsible for implementing and/or supervising a comprehensive student transportation program.
3. Ensure compliance with federal and state student transportation laws, regulations and policies, including drug/alcohol testing programs as required in the Omnibus Transportation Employee Testing Act of 1991, and in compliance with 49 CFR, Parts\_40 and 382.

**E. Written Policies**

In compliance with ~~IC~~ Sections 33-1501 through ~~IC~~ 33-1512, Idaho Code, the local board of trustees or the governing body will establish and adopt a set of written policies governing the student transportation system, including policies for disabled students. Contracting school districts or charters shall ensure compliance to written policies by student transportation contractors. The district's or charter's written policies shall, at a minimum, include:

1. Student transportation operations, including participation in training programs for all transportation personnel.
2. The evaluation of school bus routes and the periodic evaluation of student transportation personnel. The transportation supervisor or the district's school bus driver trainer shall evaluate a minimum of once per year each route and each driver for the purpose of assessing driver performance and the safety of routes and bus stops (National School Transportation Specifications & Procedures, Identification and Evaluation of School Bus Route and Hazard Marking Systems). The time schedule for pickup and delivery of children shall be followed as accurately as possible. Documentation of the driver and route evaluation shall be retained in the driver's personnel file. The SDE staff shall develop and maintain model evaluation procedures and forms.
3. The investigation and reporting of accidents and other transportation problems. Drivers shall report all school bus accidents to local school authorities and the appropriate law enforcement agency in accordance with Title 49, Chapter 13 of Idaho Code. Subsequent to the accident or incident, a Uniform School Bus Accident/Injury or appropriate Incident Report Form shall be completed by the

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

driver or transportation supervisor and submitted to the SDE within fifteen (15) days.

4. Providing supervision of loading and unloading areas at or near schools during unloading and loading of school buses. Schools ~~districts~~ shall provide an adequate number of supervisors for the size of the loading area and number of students present and ensure close, continuous and interactive supervision whenever students and/or buses are present in the loading area ~~(4C~~Section 33-512(4), Idaho Code~~)~~.

4.5. Each school district that provides activity bus transportation for pupilstudents shall have comprehensive policies and guidelines regarding activity transportation (IDAPA 08.02.02.180).

5.6. Ensure that instruction in passenger safety, including student participation in practical emergency evacuation drills, is an integral part of the school curriculum. Instruction should comply with state requirements and/or Federal Highway Safety Guideline 17 and with 45 CFR Part 1310, as may be applicable, and should include, but not be limited to, the following:

a. At least once each school semester, provide all ~~students-passengers~~ transported to and from schools in a school bus ~~or multifunction school activity bus~~ with instruction in the location and operation of all emergency exits. Also, provide supervised practical emergency exit drills to each student transported to or from schools in a school bus or ~~multifunction school activity bus~~.

1) Each bus route should have a written emergency evacuation plan. This plan should reflect each student's ability to evacuate or help others. Students with disabilities should participate in required evacuation drills and should only be excluded if their participation would present a health risk. Parents should be notified in advance of such barriers to their child's participation. Every effort should be made to ensure that ALL students have a reasonable understanding of the concept of an emergency and how they will exit the bus.

2) The driver and the attendant must be familiar with any equipment in the bus that would aid in an actual evacuation, (e.g., the use of all emergency exits, emergency/fire blankets, webbing cutters, etc.). It is important to enlist the help of school liaisons, parents and other personnel (e.g., physical therapists) to train and help students and staff understand emergency procedures including how to exit the bus safely without the use of their mobility devices and equipment (wheelchair, etc.). Local emergency personnel should be involved in developing the plans, especially if the students transported have complex medical conditions.

a.b. Before departure on each activity trip, provide all ~~students-passengers~~ transported in a school bus, ~~school-chartered bus or multifunction school activity bus~~ instruction on the location of all emergency exits and

demonstrations of their operation. Instruction should include a general review of safe riding practices, rules and procedures.

c. Limit the amount of carry-on items, especially large items such as luggage, coolers, sports/band equipment, etc., in school buses, ~~school-chartered buses or multifunction school activity buses~~. Aisles and emergency exits in school ~~buses, buses school-chartered buses and multifunction school activity buses~~ must be kept clear at all times. Any item that is brought on board must be safely stowed and secured away from any aisle or emergency exit. School districts shall develop policy identifying other perceived unsafe items prohibited from being transported in the passenger compartment of a school bus, such as skis, skateboards, large instruments, etc.

6-7. Ensure compliance with Electronic device regulations, meeting compliance with Federal Motor Carrier Safety Administration Regulations, 49 CFR Part 392.82.

8. Student transportation operations shall be included in the district's service animals planning. Related training shall be provided to school bus drivers related to district plans (IEP, 504 Plan, definitions, handling, care, emergency evacuations, health certificates, etc, etc.).

Transporters of pre-school age and older children in vehicles that use seat belt systems minimally should adhere to the following recommendations:

- establish written policies and procedures for procurement, maintenance, cleaning and inspection of seat belt systems)
- usage training
- retrofitting school buses with seat belt systems; and
- Emergency procedures.
- Develop training and procedures for personnel in the, use, care and upkeep of seat belt systems, and the use of seat belt cutters.

## F. Additional Requirements Not Covered Under Policies

1. Provide the necessary library of resources to ensure that transportation personnel have the proper tools to operate a safe and efficient program. These resources include, but are not limited to:
  - a. Applicable federal, state and local laws, codes and regulations.
  - b. Applicable manuals and guidelines.
  - c. On-line connectivity for access to all internet and other resources.
  - d. Applicable trade journals and organizations' publications.

2. Provide contract management (if applicable). If a private carrier is utilized in a school transportation operation, it is imperative that a clear partnership is established with all parties. Clear expectations and contract review, along with on-going training, communication and practice/procedure development should be developed with a working partnership in mind.

## G. Personnel Qualifications and Training

### 1. Prerequisite Qualifications and Job Descriptions

In compliance with ~~Federal Motor Carrier Safety Administration-FMCSA Regulations, (49 CFR Part-383), and IC-Sections 33-130, 33-1508, and 33-1509, Idaho Code~~, the local board of trustees/administration will establish and adopt a set of written prerequisite qualifications and job descriptions governing student transportation personnel, which shall, at a minimum, include:

- a. Completion of an application form, which includes a personal and occupational history-;
- b. A satisfactory driving record as revealed through pre-employment and annual checks with the state driver licensing division-;
- c. A satisfactory work history as verified through professional references-; and
- d. The ability to manage resources, students and personnel necessary to achieve a desired objective.

### 4.2. Insulin-Treated Diabetes Mellitus

In compliance with Federal Motor Carrier Safety Administration Regulations (Parts 381 and 383) and ~~IC-Section 33-1509, Idaho Code~~, the SDE Student Transportation staff will establish an exemption process governing student transportation personnel diagnosed with insulin-treated diabetes mellitus (ITDM). In considering exemptions, the Department must ensure that the issuance of diabetes exemptions will not be contrary to the public interest and that the exemption achieves an acceptable level of safety. Applications must be submitted to the SDE Student Transportation staff using the application form. ~~Therefore, the Department will only consider granting exemptions to ITDM individuals who meet certain conditions and who submit the following information and documentation:~~

- ~~1) Number of years driving school bus.~~
- ~~2) Approximate number of miles per year driving school bus.~~
- ~~3) Estimated number of miles driven per week.~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- ~~4) — Estimated number of daylight driving hours per week.~~
- ~~5) — Estimated number of nighttime driving hours per week.~~
- ~~6) — Supporting documentation of current Commercial Drivers License to drive school bus issued by the State of Idaho.~~
- ~~7) — Supporting documentation certifying applicant has operated a commercial motor vehicle (CMV) with a diabetic condition controlled by the use of insulin while under the care of an endocrinologist (may have consulting relationship with driver's personal physician) familiar with the treatment and monitoring of Diabetes Mellitus.~~
- ~~8) — Idaho Transportation Department driving record (for the three-year period immediately preceding application) containing no suspensions or revocations, no involvement in an accident for which the applicant received a citation for a moving traffic violation while operating a CMV, no involvement in an accident for which the applicant contributed to the cause of the accident, and no convictions for a disqualifying offense or more than one serious traffic violation, as defined in 49 CFR 383.5, while operating a CMV.~~
- ~~9) — Supporting documentation certifying no other disqualifying conditions including diabetes related complications.~~
- ~~10) — Supporting documentation certifying no recurrent (two or more) hypoglycemic reactions resulting in a loss of consciousness or seizure within the past five years. A period of one year of demonstrated stability is required following the first episode of hypoglycemia.~~
- ~~11) — Supporting documentation certifying no recurrent hypoglycemic reactions requiring the assistance of another person within the past five years. A period of one year of demonstrated stability is required following the first episode of hypoglycemia.~~
- ~~12) — Supporting documentation certifying no recurrent hypoglycemic reactions resulting in impaired cognitive function that occurred without warning symptoms within the past five years. A period of one year of demonstrated stability is required following the first episode of hypoglycemia.~~
- ~~13) — Supporting documentation certifying the applicant has been examined by a board-certified or board-eligible endocrinologist (who is knowledgeable about diabetes) who has conducted a complete medical examination. The complete medical examination must consist of a comprehensive evaluation of the applicant's medical history and current status with a report including:
  - ~~▪ — The date insulin use began;~~~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- ~~▪—Diabetes diagnosis and disease history;~~
  - ~~▪—Hospitalization records;~~
  - ~~▪—Consultation notes for diagnostic examinations;~~
  - ~~▪—Special studies pertaining to the diabetes;~~
  - ~~▪—Follow-up reports;~~
  - ~~▪—Reports of any hypoglycemic insulin reactions within the last five years;~~
  - ~~▪—Two measures of glycosylated hemoglobin, the first 90 days before the last and current measure;~~
  - ~~▪—Insulin dosages and types, diet utilized for control and any significant factors such as smoking, alcohol use, and other medications or drugs taken; and~~
  - ~~▪—Examinations to detect any peripheral neuropathy or circulatory insufficiency of the extremities.~~
- 14) ~~Submits a signed statement from an examining endocrinologist indicating the following medical determinations:~~
- ~~▪—The endocrinologist is familiar with the applicant's medical history for the past five years, either through actual treatment over that time or through consultation with a physician who has treated the applicant during that time;~~
  - ~~▪—The applicant has been using insulin to control his/her diabetes from the date of the application back to the date driving experience began or the previous three years, whichever is less;~~
  - ~~▪—The applicant has been educated in diabetes and its management, thoroughly informed of and understands the procedures which must be followed to monitor and manage his/her diabetes and what procedures should be followed if complications arise; and~~
  - ~~▪—The applicant has the ability and has demonstrated willingness to properly monitor and manage his/her diabetes.~~
- 15) ~~Submits a separate signed statement from an ophthalmologist or optometrist that the applicant has been examined and that the applicant does not have diabetic retinopathy and meets the vision standard at 49 CFR 391.41(b) (10), or has been issued a valid~~

~~medical exemption. If the applicant has any evidence of diabetic retinopathy, he or she must be examined by an ophthalmologist and submit a separate signed statement from the ophthalmologist that he or she does not have unstable proliferative diabetic retinopathy (i.e., unstable advancing disease of blood vessels in the retina).~~

~~b. There are special conditions attached to the issuance of any exemption for ITDM. The Department will impose the following requirements:~~

~~1) Individuals with ITDM shall maintain appropriate medical supplies for glucose management while preparing for the operation of a CMV and during its operation. The supplies shall include the following:~~

- ~~▪ An acceptable glucose monitor with memory;~~
- ~~▪ Supplies needed to obtain adequate blood samples and to measure blood glucose;~~
- ~~▪ Insulin to be used as necessary; and~~
- ~~▪ An amount of rapidly absorbable glucose to be used as necessary.~~

~~c. Prior to and while driving, the individual with ITDM shall adhere to the following protocol for monitoring and maintaining appropriate blood glucose levels:~~

~~1) Check glucose before starting to drive and take corrective action if necessary. If glucose is less than 100 milligrams per deciliter (mg/dl), take glucose or food and recheck in 30 minutes. Do not drive if glucose is less than 100 mg/dl. Repeat the process until glucose is greater than 100 mg/dl;~~

~~2) While driving check glucose every two to four hours and take appropriate action to maintain it in the range of 100 to 400 mg/dl;~~

~~3) Have food available at all times when driving. If glucose is less than 100 mg/dl, stop driving and eat. Recheck in 30 minutes and repeat procedure until glucose is greater than 100 mg/dl; and~~

~~4) If glucose is greater than 400 mg/dl, stop driving until glucose returns to the 100 to 400 mg/dl range. If more than two hours after last insulin injection and eating, take additional insulin. Recheck blood glucose in 30 minutes. Do not resume driving until glucose is less than 400 mg/dl.~~

~~d. In addition to the requirements for controlling ITDM, the Department will monitor exemption recipients during the period that the exemption is valid. The Department will conduct monitoring by requiring the exemption~~

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

recipients to submit the following information to the Idaho State Department of Education Student Transportation Section:

~~1) Provide written confirmation from the endocrinologist on a quarterly basis:~~

- ~~▪ The make and model of the glucose monitoring device with memory; and~~
- ~~▪ The individual's blood glucose measurements and glycosylated hemoglobin are generally in an adequate range based on daily glucose measurements taken with the glucose monitoring device and correlated with the daily records of driving time and a current measurement of glycosylated hemoglobin.~~

~~2) Submit on an annual basis, a comprehensive medical evaluation by an endocrinologist. The evaluation will include a general physical examination and a report of glycosylated hemoglobin concentration. The evaluation will also involve an assessment of the individual's willingness and ability to monitor and manage the diabetic condition.~~

~~e. Provide on an annual basis confirmation by an ophthalmologist or optometrist that there is no diabetic retinopathy and the individual meets the current vision standards at 49 CFR 391.41(b) (10). If there is any evidence of diabetic retinopathy, provide annual documentation by an ophthalmologist that the individual does not have unstable proliferative diabetic retinopathy.~~

~~f. Submit annual documentation by an endocrinologist of ongoing education in management of diabetes and hypoglycemia awareness.~~

~~g. Report all episodes of severe hypoglycemia, significant complications, or inability to manage diabetes.~~

~~h. Report any involvement in an accident or any other adverse event whether or not they are related to an episode of hypoglycemia.~~

~~School bus drivers applying for ITDM exemption should refer to Federal Highway Administration Diabetes Waiver Program—Appendix A.~~

**3. School Bus Driver Training**

- a. All new school bus drivers shall complete a prior-approved school bus training program and pass all knowledge tests contained in the SDE school bus driver classroom curriculum. Each new driver shall also be required ten (10) hours of practical training in a school bus with a minimum of six (6) hours of actual behind the wheel training. Each new driver shall perform an emergency evacuation practical and receive a driver evaluation before being allowed to drive a school bus loaded with students. As a support to school district personnel, the SDE staff shall develop and maintain model classroom and behind-the-wheel training methods and resources.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

~~(Sections 33-1508, 33-1509, and 33-1511, Idaho Code) All new school bus drivers will complete a prior approved school bus driver training program, which shall include documented knowledge and skill tests, as well as 10 inclusive hours of behind-the-wheel, and/or route observation, before being allowed to drive a school bus loaded with students. As a support to school district personnel, the SDE staff shall develop and maintain model classroom and behind-the-wheel training curricula incorporating nationally recognized driver training methods and resources (IC 33-1508, 33-1509, 33-1511).~~

- b. All experienced school bus drivers ~~will~~ shall complete at least ten (10) hours refresher school bus driver training each fiscal school year. At least three (3) hours of pre-service training shall be provided before school begins in the fall. In addition, at least three (3) in-service training sessions shall be provided during the school year utilizing, at a minimum, thirty (30) minute, topic specific and documented, training blocks.
- c. School districts/contractors shall request documentation of all previous school bus driver training and driving experience, in accordance with Federal Motor Carrier Safety Administration CDL licensing requirements. Documentation of previous training, similar to SBOE training requirements, may be used to comply with new school bus driver training hours. Regardless of any previous out-of-district training, all newly hired school bus drivers shall have sufficient training provided by the hiring district or contractor, along with accompanying documentation, illustrating proficient school bus driving skills. If the district/contractor is unable to obtain documentation of previous school bus driver training, the individual shall complete the training requirements for new school bus drivers. If the applicant has gaps in excess of four years of ongoing school bus driving experience, the individual shall complete the training requirements for new school bus drivers.

4. Student Transportation Personnel File

Each district that operates or contracts student transportation services shall cause to have filed for each school bus driver, in a secure area with limited access, the following information (~~IC Sections~~ Idaho Code Sections 33-1506, 33-1508 and 33-1509, Idaho Code):

- a. Copy of original application to drive school bus.
- b. Copy of current original physical examination form, along with any applicable waivers.
- c. Historical training records should contain, at a minimum,
  - 1. Accurate information certifying attendance and satisfactory completion of all state, or district and or company required training,  
and

2. –Details about all topic specific school bus drivers training supported by a training program agenda, including the number of hours of instruction, date of instruction, instructor and drivers signature. ~~The following is a list of minimum training to be documented:~~

~~e.d.~~ e.d. Copy of SDE/Classroom Curriculum tests (11 total) with score of eighty percent (80%) or better. Plus:

1. Classroom Training;
2. Pre-Service;
3. In-Service; and
4. Behind-the-Wheel Training.

~~e.e.~~ e.e. Copy of current commercial driver's license.

~~e.f.~~ e.f. Copy of annual driving record check in compliance with CDL licensing requirements. The district shall request each fiscal year a driving record check report from the Idaho (or neighboring state or both states, as applicable) State Transportation Department, Motor Vehicles Division, for those individuals who are going to drive a school bus during the current fiscal school year. District/Contractor shall request a copy of a driver records check between July 1<sup>st</sup> and the first day of regular school (Section 33-701, Idaho Code).

~~f.g.~~ f.g. Copy of all annual driver and route evaluations. New drivers shall have a driver evaluation before being allowed to drive a school bus loaded with students.

~~g.h.~~ g.h. Copies of a driver emergency evacuation drills shall be maintained for a period of three (3) years.

5. Student Transportation Maintenance and Service Personnel

- a. Each district that operates or contracts student transportation services shall perform maintenance functions on a timely basis consistent with safe transportation and work environments (Section 33-1506, Idaho Code).
- b. The SDE Student Transportation staff shall develop and maintain student transportation staffing guidelines designed to promote efficiency and cost containment. These guidelines shall be for informational purposes. School districts shall not be financially penalized when falling outside SDE staffing guidelines.

## H. Vehicle Operation

All school districts and school bus drivers must meet all operations and performance requirements in conformity with law and with rules and regulations of the Department of Law Enforcement and the SBOE (~~IC~~ Section 33-1508, Idaho Code). The ~~B~~ Board of ~~T~~ Trustees or its designee shall be responsible for delineating in writing vehicle operations and the duties of bus drivers, which shall, at a minimum, include:

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

1. The driver shall ensure the safe condition of the school bus by conducting an initial and thorough daily pre-trip/~~post trip/child check~~ school bus inspection. The district/~~contractor~~ shall provide drivers with a pre-trip inspection form. The SDE staff shall develop and maintain a model pre-trip/~~post trip~~ inspection form using nationally recognized criteria for the school bus pre-trip inspection. Each subsequent trip shall require an additional pre-trip school bus inspection, which at a minimum shall ensure that all safety equipment is in working order, i.e., brakes, tires, all lighting systems, steering and horn, ~~;~~ During post trip inspections, importance should be placed upon locating any sleeping students, articles left on the bus (Idaho CDL Manual, Section 10.2.6), and all defects which shall be reported by the school bus driver-driver.
2. A school bus shall be backed only as a last resort. Buses shall not back to turn around on a public roadway, unless the local board finds there is no alternative to backing buses on certain roads. The local board then, by official action, may allow backing of school buses on certain public roadways (~~IC~~ Section 33-1502, Idaho Code).
3. No passenger shall be permitted to operate the school bus.
4. The school bus driver shall not allow guns or inflammable or explosive substances such as gasoline to be carried on a school bus. ~~School districts shall develop policy identifying other perceived unsafe items prohibited from being transported in the passenger compartment of a school bus, such as skis, skateboards, large instruments, etc.~~ Students are to only carry objects on-to the bus that can fit safely within the seat compartment, preferably on the student's lap. The student shall not carry hazardous materials, objects, or ~~potentially disruptive~~ animals (with the exception to IEP and 504 Plan service animals) on the bus.
5. School bus drivers shall properly wear a seat belt whenever the bus is in motion.
6. School bus doors shall remain closed while the bus is in motion. No school bus shall start in motion before all passengers have been seated. The driver shall require each passenger on the bus to be seated in a manufacturer's school bus passenger seat. No student shall be allowed to stand while the bus is in motion.
7. School districts shall establish school bus stops in safe locations with at least one-hundred (100) yards clear visibility in both directions, whenever possible, and at least forty (40) feet from intersections, whenever possible. ~~{[No motor vehicle shall block an intersection (Section 49-660, Idaho Code).~~ No bus stop shall be established less than one and one-half (1½) miles from the nearest appropriate school except when, in the judgment of the ~~B~~board of ~~T~~rustees, the age or health or safety of the student warrants (~~IC~~ Sections 33-1501 and 33-1502, Idaho Code).
8. All school buses shall stop to load/unload passengers at designated bus stops in accordance with the law (~~IC~~ Section 49-915 and 49-1422, Idaho Code). The

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

SDE staff shall maintain model student loading/unloading training curriculum, the basis of which shall be in conformity with nationally recognized procedures (National School Transportation Specifications & Procedures). The student shall not leave or board the bus at locations other than the assigned home stop or assigned school unless arrangements for doing so have been approved by appropriate authority. Appropriate authority and the approval process shall be defined in local district policy.

9. School bus drivers shall load and unload from the right side of the roadway. School bus drivers shall not allow students to cross roadways having more than three (3) lanes for purposes of loading or unloading and shall only load or unload students who live on the right side of such a roadway, except at locations having easily accessible traffic control signals (~~IC~~ [Section 49-1422, Idaho Code](#)).
10. When it is necessary for the student to cross the roadway, the driver shall require the student to cross twelve (12) feet in front of the bus in accordance with state loading/unloading training curriculum. [SDE endorses the joined fingers, open palm, single arm wave and eye contact with the driver for student crossing. Long steady blast of the horn is to be used as a danger signal.](#)
11. School bus drivers shall report the license number of any vehicle, which violates any law endangering school children to his/her immediate supervisor (~~IC~~ [Section 33-1509, Idaho Code](#)).
12. Student transportation operations shall be included in the district's crises planning and related training shall be provided to school bus drivers related to district crises plans. School bus drivers shall remain vigilant and report suspicious behavior or conditions which could become harmful to students or be indicative of impending acts of terror. School bus drivers shall be provided training in homeland security awareness.
13. A driver on a school bus route shall not leave an occupied bus. In case of a breakdown the driver shall request assistance via two-way communication whenever possible. Otherwise, the driver should ask a passing motorist to make contact with the district, send a school bus aide or at least two (2) responsible students to make contact with the district, or wait for help.
14. Whenever it is necessary for the school bus driver to leave an unoccupied bus or leave the driver's seat of an occupied bus, he/she should shut off the motor, curb the wheels where appropriate, set the brakes and remove the ignition key.
15. The school bus driver shall give consideration to engine idling during extended wait times. Consideration should be given to varying climate conditions. All buses equipped with an auxiliary heater shall not be allowed to idle for more than three ~~to~~ [five consecutive minutes](#)— (**Exceptions:** pre-trips, passenger stops.) Heater shall be used to provide pre-heated water in the cooling system for starting cold engines as well as providing heat to the passenger compartment during cold weather without running the engine. Reduced idling will reduce student transportation costs and improve air quality. Allowing engines to idle for

more than three (3) minutes may cause districts (including contracted districts) to lose funding for purchasing fuel.

16. All school and activity buses shall stop at all railroad grade crossings in accordance with the law (~~IC Sections~~ 33-1508, 49-648 and 49-649, Idaho Code). The SDE staff shall develop and maintain railroad grade crossing training curriculum, the basis of which shall be in conformity with nationally recognized procedures (National School Transportation Specifications & Procedures).
17. School districts shall limit on-duty and driving time of school bus drivers similar to the limitations imposed by the Federal Motor Carrier Safety Administration regulations for drivers of similar commercial motor vehicles. Drivers shall use FMCSA over-the-road hours-of-service trip logs, a trip agenda, or other trip documentation validating applicable driving hours on all out-of-district trips in excess of one-hundred (100) miles (FMCSA Regulations, Hours of Service of Drivers).
18. At no time shall a driver exceed sixty-five (65) miles per hour or a lesser posted speed limit.

## **I. Student Management**

1. Student transportation is another component in the school district's overall education program. An effective student transportation management program must have the support of the school district administration, school bus drivers, students, and parents. Each school district should institute a comprehensive student-management program that is designed to share the responsibility for student safety and well-being, as well as protecting the interests of all others involved in the program.
2. Every school district which operates a student transportation system shall have a written policy which sets forth the student's right to "due process" when disciplinary action is taken and defines the duties and responsibilities of students when taking advantage of student transportation. The school district's student transportation student management policy, including the duties and responsibilities of students, teachers and drivers shall be in concert with the district's written classroom policies (~~IC Section~~ 33-512, Idaho Code).
3. School bus drivers shall establish proper rapport with students. Drivers should instruct students in appropriate behavior in accordance with the district's student management policy. Drivers should be aware that they represent the school system and present a positive image in dress, language, and manner.
4. The SDE staff shall develop and maintain model student management guidelines, suggested rules and regulations in its school bus driver training curriculum.

## **J. Student Eligibility**

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

1. Eligible Students

- a. Student eligibility for state funded student transportation services is defined in ~~IG~~Sections 33-1501, 33-1502, and 33-5208, Idaho Code.
- b. A student with disabilities who's Individualized Education Plan (IEP) requires transportation is eligible for transportation as a related service (IDEA) under the Student Transportation Support Program regardless of distance from the school.
- c. It is the aim of the SDE staff, in keeping with the "inclusion" concept, to arrange transportation for the student with disabilities as closely as possible to that of the student without disabilities. Whenever possible, students with disabilities will ride with students without disabilities on regular routes.
- d. Students who attend school at an alternate location as assigned by the local board of trustees may be expected to walk reasonable distances between schools (~~IG~~Section 33-1501, Idaho Code). Transporting or shuttling students between schools or buildings in conjunction with non-reimbursable programs is a non-reimbursable expense and all such mileage shall be documented and tracked as non-reimbursable shuttle miles.

2. Ineligible Students

- a. An ineligible student shall be defined as any properly enrolled public school student who does not otherwise meet ridership eligibility by virtue of school or district boundary, distance, age, health, or safety.
- b. If a school district allows ineligible but properly enrolled public school students on a bus and their presence does not create an appreciable increase in the cost of the bus run, as determined by the SDE staff (in computing to and from school state allocations), the district shall not be penalized.
- c. Ineligible students may ride existing bus runs, and to and from an existing bus stop, on a "space available" basis provided that neither time, mileage, or other appreciable cost is added as a result of this service. Ineligible students shall be reported as such on the bus ridership count report and are not eligible for additional rider count funding.
- d. Properly enrolled students living in district of residence but attending school in a non-resident district, under the provisions of ~~IG~~Section 33-1402, Idaho Code, ~~(e)~~Enrollment options), may be transported; however, all related "yellow school bus" mileage shall be reported as non-reimbursable. Exceptions shall be permitted when transporting student(s) to out-of-district school demonstrates cost effectiveness, as determined by the SDE staff, in which case the related mileage shall be reported as reimbursable. Other exceptions include but are not limited to, mileage related to provisions of the McKinney-Vento Homeless Assistance Act ~~and the "No Child Left~~

~~Behind Act (NCLB) in concert with Idaho's Academic Yearly Progress Plan (when school districts opt to provide transportation services to a neighboring school district).~~ In any event, cooperative written agreements, as detailed in ~~IC Section~~ [33-1402, Idaho Code](#), shall be required.

3. Non-Public (Private or Parochial) School Students

The cost of transporting non-public school students must be deducted when submitting the transportation reimbursement claim. Each school district must recover the full cost of transporting non-public school students, and in no event may that cost be determined to be zero (~~IC Section~~ [33-1501, Idaho Code](#)).

4. Non-Student Rider

A non-student rider shall be defined as any transported person who is not properly enrolled in a pre-K through twelve school program. Each school district must recover the full cost of transporting non-students, except that dependent children of young mothers who are properly enrolled in a public school program, SDE student transportation staff, district supervisory personnel and/or administrators and aides may ride on to and from school bus routes. Other persons and teachers who have officially been appointed as chaperones may be allowed on a school bus for field and extracurricular trips. If the local district policy allows, exceptions may be made for passengers other than properly enrolled school students to ride the bus when special circumstances exist and space is available. An appropriate authority must give prior permission before non-students may ride. No eligible transported student is to be displaced or required to stand in order to make room for an ineligible, nonpublic, or non-student rider.

**K. Student Transportation Support Program – Financial Reporting**

1. Each school district operates motor vehicles of many sizes and types, such as school buses, small and large trucks, cars for administration and driver education, pickups, delivery vans, and other miscellaneous small motor vehicles. All school district vehicle operating costs must be charged to the appropriate individual account or accounts according to their use. Costs for transporting eligible students to and from school or related activities shall be accounted for separately in accordance with SBOE approved procedures (~~IC Section~~ [33-1006, Idaho Code, and IDAPA 08.02.02.004.150-190](#)).

~~2.~~ [Section 33-1506, Idaho Code, requires the filing of inspections to the SDE of all school buses as defined in Section 33-1504 and 49-120 \(5\), Idaho Code. School buses shall not be removed from inventory to comply with Section 33-1506, Idaho Code, unless the bus is being decommissioned in accordance with Section 49-1422, Idaho Code.](#)

~~2-3.~~ Accurate mileage records shall be kept for reimbursable and non-reimbursable programs so eligible and non-eligible miles can be accurately determined. No indirect costs are allowed. Financial supporting documents shall

**STATE DEPARTMENT OF EDUCATION**  
**AUGUST 10, 2017**

---

be maintained throughout the fiscal year for each program category for audit purposes.

~~3.4.~~ Annual odometer readings (end of day, June 30, or start of day, July 1) on all district owned or contracted “yellow school buses” used to transport students to and from school or related activities shall be annually submitted to the SDE staff upon request. No “yellow school bus” used to transport public school students shall be excluded.

~~4.5.~~ School districts shall annually report all miles linked to a “yellow school bus” as reimbursable or non-reimbursable on Schedule C of the Student Transportation Reimbursement Claim Form.

~~5.6.~~ Revenues generated from the use or lease of a district owned “yellow school bus” shall be reported as follows:

- a. When the revenues correlate to reported “reimbursable” miles and their related costs, the revenue shall be reported on the student transportation reimbursement claim form under revenues received.
- b. When the revenues correlate to reported “non-reimbursable” miles and their related costs, the revenue shall not be reported.

~~6.7.~~ Each school district ~~that operates~~operating a student transportation system will maintain accurate records of operations including runs, run mileage, categorized bus mileage, student rider counts and other related costs on uniform record-keeping forms provided by the SDE staff.

~~7.8.~~ The SDE Student Transportation staff shall conduct on-site spot inspections of school district student transportation operations at a frequency adequate to ensure compliance with state law, accuracy of data and reimbursement claims, and safety of school buses. Priority for selecting districts for review and audit shall be given to those districts that exceed both the most recent annual state average reimbursable cost per mile and the state average reimbursable cost per rider as calculated by the Department, unless the Supervisor of Student Transportation determines otherwise (~~IC Section~~ 33-1511, Idaho Code). Adequate frequency shall be defined as, at least once every two (2) years.

~~8.9.~~ The SDE Student Transportation staff shall, subsequent to on-site review and spot inspection, provide school district with a list of required corrective actions, as necessary. School districts shall submit to the Department SDE written corrective action plans at prescribed intervals until deficiencies are corrected or the corrective action no longer applies (subject to the provisions of ~~IC Section~~ 33-1511, Idaho Code).

~~9.10.~~ The Department SDE shall annually review school district student transportation claims and make available analyses of reported and adjusted costs, including specific cost trends, to individual school districts and charter schools in a secure website location or published document.

~~40.11.~~ Information will be made available to the SDE staff for audit purposes upon request. Information will be compiled and retained for a minimum of four (4) years, including the current fiscal year, ~~in the following areas (IC Section 33-1006, Idaho Code).~~

~~41.12.~~ Districts will be notified of the outcome of the review. The notification document will include an appeals due date by which, if the district does not agree with the findings of the review, a written appeal may be filed by the district. The appeal shall include (additional) documentation the district wants SDE to consider as part of the appeals review. Upon further review of the appeals documentation, SDE may make adjustments to the review findings.

## L. Administrative and Program Operation Costs

1. The school district administrative reimbursement will be seven and one-half percent (7.5%) of all approved reimbursable operation costs for transporting ~~pupil~~students except administration costs, depreciation, and contracted services, as reported to the SDE staff on the Annual ~~Pupil~~Student Transportation Claim for Reimbursement (Schedule B); or actual administrative costs, program operation costs, operation of plant, maintenance of plant, fixed costs, and other ~~pupil~~student transportation costs identified in ~~IC Section 33-1006, Idaho Code~~, which are directly related, charged and reported as transportation costs to the SDE staff on the Annual Student Transportation Claim for Reimbursement (Schedule A).
2. Districts will be permitted flexibility in scheduling bus routes; however, before-school and after-school activity or other program busing that result in duplicating transportation service to a geographic area is not reimbursable, except that the Idaho Reading Indicator (IRI) shall be reimbursable under the ~~Pupil~~Student Transportation Support Program. ~~Transportation costs for other before-school and after-school academic programs may be reimbursable and will be considered on a case-by-case basis when specific written requests for consideration are submitted to the SDE staff on or before March 31 of the school year in which the busing began.~~
3. All academic ~~and activity~~ summer programs will be non-reimbursable under the Student Transportation Support Program, except transportation costs for Migrant Summer School, the Idaho Reading Indicator (IRI), and Extended ~~Reading Intervention-School Year (ESY)~~ Special Needs programs will be reimbursable.
4. The SDE staff shall develop support staffing (supervisor, driver trainer, secretary/dispatcher, etc.) and school bus inventory guidelines for school district student transportation operations.
5. The district will maintain accurate records of all bus routes and runs, including rider counts, mileage and other related operation and vehicle maintenance costs (~~IC Section 33-1006, Idaho Code~~). A "route" is defined as anything one bus does during the morning (a.m. route), midday (noon route), or afternoon (p.m. route)

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

and may be comprised of one or more morning, midday, or afternoon to – from school “run(s).” ~~The Department~~SDE staff shall require school districts to submit tri-annually a data specific “route report” including but not limited to, number of riders. Additionally, for purposes of equity and accuracy, school districts shall take ridership counts on specific dates and frequency ~~{[minimum of ten (10)~~ counts per school year~~}]~~ annually set by ~~the Department~~SDE staff, which shall be reported and submitted in a format approved by ~~the Department~~SDE staff.

6. If the local board of trustees authorizes the use of school buses to transport students to and from school-sponsored activities or field trips, the local board will use school buses that are in safe mechanical condition. No school bus shall be operated, loaded, or equipped in such a way as to constitute a hazard to the safety of the students being transported. School bus emergency egress systems shall remain operable and the bus aisle shall remain clear of obstruction while students are being transported (~~IC~~ Section 33-1506, Idaho Code).
7. If the local board of trustees authorizes the use of non-conforming vehicles to transport students to and from school-sponsored activities or field trips, the local board will use vehicles that are in safe mechanical condition. No non-conforming vehicle shall be operated, loaded, or equipped in such a way as to constitute a hazard to the safety of the students being transported.
- ~~8.~~—The district shall maintain accurate records of all trips in all school buses and non-conforming vehicles used in the transportation of students and transportation personnel, including the purposes of the trip, mileage and operation and vehicle maintenance costs. An annual odometer reading will be taken at the end of each fiscal school year (June 30) on all district owned vehicles used in the transportation of students. The district shall reconcile annual mileage reports with all recorded reimbursable and non-reimbursable program miles. School districts that contract for student transportation services shall report all reimbursable and non-reimbursable program miles. The district shall maintain accurate mileage records of all trips in all district owned non-conforming vehicles used for shuttling school bus drivers to and from their school buses for purposes of efficiency and cost containment. The district shall maintain accurate mileage records of all trips in all district-owned shop trucks and supervisor/trainer cars used in support of yellow school buses to repair school buses, deliver parts, and check road/route/bus stop conditions. Support mileage will be tracked separately and reimbursed at the State Board of Examiners rate established at the beginning of each school year. Mileage for transportation personnel home-to-work-to-home that is not cost effective in lieu of using a bus for home-to-work-to-home; or mileage in vans or other nonconforming vehicles used to transport students is non-reimbursable.

[Field trips will be reimbursable when miles traveled by "yellow school buses" are approved school activities that are an integral part of the total education program, are class-curriculum driven and grade affected, occur during the regular school week and school year and extend not more than one hundred \(100\) miles beyond the boundaries of the state. \(See SDE Field Trip Flow Chart and SISBO \(Standards for Operational Procedures Manual for examples. Ref. <http://sde.idaho.gov/academic/standards/index.html>\)](#)

Mileage related to visits to colleges and universities is considered reimbursable field trip mileage. Mileage needs to be tracked as such.

Field trips that are for non-graded student performance, social, recreational, competition, or reward purposes or incorporate overnight lodging or occur outside the regularly-scheduled (4 or 5 day) school week are not reimbursable, except that a local, non-competitive performance event held within the school district (e.g., musical performance) shall be reimbursable.

The costs of transporting athletes or students to and from extracurricular activities are not reimbursable.

~~The costs of transporting athletes or students to and from extracurricular activities and field trips are not reimbursable.~~

As only miles for which costs may be reimbursed shall be those directly associated with transporting students for the purposes of regular school attendance during regular days and hours, any costs associated with the operation of non-conforming vehicles shall be removed from the total costs. Costs shall be removed by pro-rating the percentage of total student transportation miles not on SDE inventoried vehicles to the total student transportation fleet miles.

- ~~8. Shuttle trip mileage between schools for educational programs are reimbursable miles, but shuttle trips between schools for extracurricular activities or at student request are not reimbursable. Activity buses that take students and/ or athletes home after regular school hours are non-reimbursable miles. Shuttle trip mileage is reimbursable only if directly associated with transporting students for the purposes of regular school attendance during regular days and hours. Shuttle trip mileage is limited to miles between any district-owned or exclusively-leased facility for regularly reoccurring days of that individual class, which transportation is for regular school attendance during regular days and hours.~~
9. Maintenance mileage is reimbursable if tracked and identified as such on the claim form. Examples of maintenance mileage are taking buses to and from repair facilities and test drives of buses after repairs.
10. Training mileage is reimbursable if tracked and identified on the claim form. Training mileage pertains to mileage incurred for new and existing drivers' behind the-wheel and in-service training.

## M. Safety Busing

All school districts submitting applications for safety busing reimbursement approval shall have established a board policy for evaluating and rating all safety busing requests and shall have on file a completed measuring or rating instrument for all submitted requests (which shall include a break off point and ad hoc committee). The SDE staff shall develop and maintain a measuring instrument model, which shall

include an element for validating contacts with responsible organizations or persons responsible for improving or minimizing hazardous conditions. Each applying district will be required to annually affirm that conditions of all prior approved safety busing requests are unchanged. The local board of trustees shall annually, by official action (~~IC~~ [Section 33-1502, Idaho Code](#)), approve all safety busing locations. School districts ~~that receive~~<sup>ing</sup> state reimbursement of costs associated with safety busing will re-evaluate all safety busing sites at intervals of at least every three (3) years using the local board adopted measuring or scoring instrument. In order to qualify for reimbursement, the local school board will, by official action, approve the initial safety busing request and allow the students in question to be transported before the application is sent to the state. Consideration for reimbursement will be contingent on the application for safety busing being received by the SDE Student Transportation staff on or before March 31<sup>st</sup>, of the school year in which the safety busing began.

## N. Contract For Transportation Services

1. School districts and charter schools that contract for services shall follow ~~IC~~ [Section 33-1510, Idaho Code](#), and its requirements to obtain services.
2. School districts that contract shall require contractors to accurately track all mileage related to student transportation and said mileage shall not be considered to be proprietary. However, mechanisms and methodologies used in calculating actual costs for purposes of bidding (using district non-proprietary route mileages and route data) may be proprietary (~~IC~~ [Section 9-340D340d, Idaho Code](#)).
3. School districts that contract for the provision of student transportation services must report actual contractual costs to SDE for reimbursement on the annual Student Transportation Reimbursement Claim form (Schedule C). In addition, school districts that contract for the provision of student transportation services may also report the costs of employing not more than one transportation contract manager [for the administration of multiple transportation contracts](#) for reimbursement on the annual Student Transportation Reimbursement Claim form (Schedule A). Notwithstanding, the total reimbursement to school districts that contract for the provision of student transportation services shall not exceed the limits provided under Idaho law (~~IC~~ [Section 33-1006\(5\), Idaho Code](#)).
4. School districts that contract student transportation services and also operate a district-owned student transportation program may submit specific costs related to district salaries benefits, purchased services, supplies, etc. (Schedule A or Schedule B) when the costs can be reconciled to district-owned and operated school buses.
5. Accurate mileage and contract costs (reimbursable and non-reimbursable) must be reported and submitted annually. School districts that contract shall require contractors to accurately track all mileage related to student transportation.
6. Contracting school districts shall be responsible for determining and reporting reimbursable and non-reimbursable trip mileage and shall be able to reconcile all mileage to contractor invoices.

**O. Leasing District-Owned Buses**

School districts will develop and use a policy approved by the local board of trustees delineating responsibility and use of rental or leased buses. Any costs to the district will not be reimbursable under the Transportation Support Program. A school district that allows a school bus to be operated by a non-district employee as part of a lease or rental agreement might not be insured under the terms of its insurance policy. Therefore, districts will maintain adequate liability insurance coverage on rented or leased buses and shall notify its insurance carrier when renting or leasing a school bus and shall request written confirmation of continued insurance coverage during the particular circumstances of the rental or lease arrangement. Districts will maintain accurate records on all district-owned leased buses, including mileage, to whom leased and revenues received (~~IC~~ [Section 33-1512, Idaho Code](#)).

**P. Ineligible Vehicles**

Costs incurred when transporting students in any vehicle that does not meet all SBOE, state and federal standards for a school bus will not be reimbursable within the Transportation Support Program, except as permitted in ~~IC~~ [Section 33-1006, Idaho Code](#).

**Q. Liability Insurance**

1. Every policy or contract of insurance or comprehensive liability plan for each contractor-owned school bus shall provide that the insurance carrier pay on behalf of the insured local school district to a limit of not less than \$500,000 per person limited to \$3,000,000 for bodily or personal injury, death, or property damage or loss as the result of any one occurrence or accident, regardless of the number of persons injured or the number of claimants (~~IC~~ [Section 33-1507, Idaho Code](#)).
2. Every policy or contract of insurance or comprehensive liability plan for each district-owned school bus will provide that the insurance carrier pay on behalf of the insured local school district to a limit of not less than \$500,000 for bodily or personal injury, death, or property damage or loss as the result of any one occurrence or accident, regardless of the number of persons injured or the number of claimants (~~IC~~ [Sections 6-924 and 33-1507, Idaho Code](#)).

**R. Non-Traditional Educational Programs**

Costs of transporting students for purposes of accessing alternate, special or unique educational programs outside normal school hours or outside the normal school year are not reimbursable. However, districts will not be financially penalized for incorporating the transportation of ineligible student riders into a reimbursable educational run when there is no subsequent appreciable increase in the allocation of transportation resources.

## S. Capital Investment

Purchase of school buses with approved reimbursable options and two-way voice communication radios installed in a new bus will be the only capital investment items allowed in the reimbursement program. Reasonable cellular telephone basic service contract costs and reasonable repeater service contract costs are reimbursable. No more than two (2) basic cellular telephone service contracts will be allowed per school district. Reimbursement for basic cellular telephone service contract costs in excess of two (2) must have prior approval. Mobile cellular telephone, additional cellular airtime, roaming and long distance charges are non-reimbursable costs. The cost of a cellular telephone may be reimbursable when the cost is in-lieu of a hard-wired two-way voice radio.

## T. Depreciation

- ~~The purchase date for purposes of depreciation is determined to be July 1 of the state fiscal year in which the bus is delivered.~~ Buses will be placed on a depreciation schedule after they have been inspected by SDE staff, delivered to the district, mileage reported from the district to SDE and entered into IBUS. When a bus is sold or traded prior to its life expectancy according to the district's SDE generated depreciation schedule, the district shall forfeit an amount equal to total depreciation received, minus depreciation calculated at straight-line method, plus ~~fifty~~ 50 percent (50%) of the projected depreciation amount for the year in which the bus is sold or traded. Emergency circumstances resulting of property loss (school bus) or documented high maintenance costs ("lemon bus") may exempt a school district from this penalty (~~IC~~ Section 33-1006, Idaho Code).

- Before any newly acquired school bus is used for transporting ~~pup~~students, it shall be inspected by a duly authorized representative of the SDE (~~IC~~ Section 33-1506, Idaho Code).

### 3. Depreciation Ineligibility

Any used school bus purchased by a district will not be eligible for depreciation if the bus is over five (5) years old, using the body manufacturers and state inspection fiscal year dates. Used school buses new to the state no older than five (5) years will be placed on the district's depreciation schedule, using an accelerated declining balance method of calculating depreciation, which shall include a percentage rate equal to one, divided by the remaining years life expectancy of the bus ~~{[according to a life expectancy of ten (10) years]}~~, multiplied by two (2). Used bus depreciation maximums will be based on used bus values in the most current Yellow School Bus Book, and subject to review by the Student Transportation Steering Committee.

### 4. Depreciation Standards

In order to be eligible for depreciation and operation costs a school bus must meet all federal and Idaho minimum construction standards and SBOE. Further, the bus shall be assigned and used daily on to ~~and~~ /from school routes, except

those new buses purchased for spare, activity and field trip purposes may be placed on the district's depreciation schedule if they are also used on to-/from school routes.

5. Retrofit Standards

- a. Any vehicle that has been retrofitted to be used as a school bus will meet current Idaho minimum construction standards.
- b. Any school bus that undergoes a partial retrofit will meet current Idaho minimum construction standards applicable to the retrofitted part(s).

6. Size Categories

All school buses will be categorized by size-actual capacity as follows:

- a. 85 or more students ~~and up,~~
- b. 73 - 84 students,
- c. 59 - 72 students,
- d. 47 - 58 students,
- e. 35 - 46 students,
- f. 20 - 34 students, ~~and~~
- a-g. 01 -one to 19 students.

6-7.          Basic Bus

The SDE Student Transportation staff shall write bid specifications for the purpose of defining Idaho's basic school bus(es) and shall advertise for an indefinite contract, indefinite quantity bid. The bid award shall be used to establish a "depreciation reimbursement benchmark" for statewide district school bus purchases for specific size categories. For purposes of depreciation reimbursement, add-on bus component costs may be allowed specific to school district needs that are in accord with ~~IC~~ Section 33-1006, Idaho Code (~~IC~~ Sections 33-601, 67-2803, and 67-2806, Idaho Code).

7-8.          Life Expectancy

For depreciation purposes, all school buses will be categorized according to size and depreciated according to a twelve (12)- year life expectancy or a life expectancy based on use and mileage ~~(as defined by the student transportation steering committee and approved by the SDE Student Transportation staff),~~ whichever is most advantageous to the school district (see SDE "Depreciation Calculator"). Activity and Lift-equipped buses will be categorized for purchase and depreciation purposes as if they had full seating capacity. The cost of activity bus options (e.g., air conditioning, partially-recliningathletic passenger seats, interior overhead storage compartments, etc.) will not be included when calculating depreciation.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

8.9. Twelve Year Depreciation

The school bus depreciation schedule within the allowable costs of the Pupil/Student Transportation Support Program, for school buses with life expectancy of twelve (12) years will be determined by using an accelerated declining balance method of calculating depreciation ~~(declining balance schedule to include a percentage rate of 16.67 percent per year for useful life expectancy of twelve (12) years)~~ (~~IC~~ Section 33-1006, Idaho Code).

9.10. Use and Mileage Depreciation

The school bus use and mileage depreciation schedule within the allowable costs of the Pupil/Student Transportation Support Program will be determined by using an accelerated declining balance method of calculating depreciation (use and mileage declining balance schedule to include a variable percentage rate triggered by use and mileage categories as defined by the SDE Student Transportation staff). (See SDE "Depreciation Calculator.")

10.11. Purchase Price

a. The purchase price of each bus will include the total chassis, body, special equipment, freight costs, pre-delivery inspection fees and any other costs directly related to acquiring the bus within the constraints of Idaho's basic bus specifications, indefinite contract/quantity bid award and Idaho Code. Costs of non-reimbursable options will be subtracted for purposes of calculating the district's reimbursable bus depreciation, as necessary (~~IC~~ Sections 33-1006 and 33-1506, Idaho Code).

a.b. Purchasers shall follow best practices for bidding school buses as outlined by SDE and published on the SDE website.

c. Any or all bid quotations may be rejected by the school district; however, all bid prices will be evaluated and adjusted as necessary by the SDE Student Transportation staff ~~with recommendations for depreciation adjustment from the Student Transportation Steering Committee.~~ The lowest responsive and responsible bid will be used in calculating the district's depreciation reimbursement. Verifiable differences in school bus construction quality may be justification for bid rejection (Section 33-601, Idaho Code).

~~School districts may purchase from a contract issued by the SDE secondary to awarding an indefinite contract/quantity or through a contract that has been competitively bid by the state of Idaho, one of its subdivisions, or an agency of the federal government (IC 67-2803 and 67-2806).~~

d. If a school district chooses to purchase from a contract previously bid by the state of Idaho, one of its subdivisions, or an agency of the federal government as outlined above, the original bid solicitation advertisement shall include the public agency clause:

"Public Agency means any city or political subdivision of this state, including but not limited to counties; school districts; highway districts; port authorities; instrumentalities of counties; cities or any political subdivision created under the laws of the State of Idaho."

Terms, conditions, and contract prices shall be extended to State of Idaho agencies, departments, divisions, bureaus, universities, institutions, and so forth as per the specifications of the contract. Contract prices, terms, and conditions may be extended to other public agencies as defined in § 67-2327 of the Idaho Code. The original bid advertisement shall call for an amount of indefinite buses.

f. If a school district chooses to purchase from a contract previously bid the state of Idaho, one of its subdivisions, or an agency of the federal government as outlined above, the procurement of the property shall fall under § 67-2803, Idaho Code which reads:

1. The acquisition of personal property when the procurement duplicates the price and substance of a contract for like goods or services that has been competitively bid by the state of Idaho, one (1) of its political subdivisions, or an agency of the federal government:

Duplication of the price and substance of a contract for like goods or services shall mean the purchase of an identical bus for an identical price, with no exceptions to the features of the property and the price of the property.

Modifications made to the features and /or the price of the property will void the contract previously bid by state or its political subdivisions. The date of the subsequent purchase shall not exceed 365 days from the date of the original purchase.

#### 44.12. School Bus Delivery Costs

- a. The SDE Student Transportation staff may consider (subject to the constraints of Idaho's basic bus specifications, indefinite contract/quantity bid award and Idaho Code) ~~FOB~~ Freight on Board (FOB) district bus delivery costs reflected in school district bid specifications and subsequent vendor invoice to be considered part of the bus purchase price for purposes of depreciation reimbursement.
- b. Districts will not report any new school bus delivery mileage on the ~~Pupil~~Student Transportation Reimbursement Claim form. Districts will record the initial mileage on all new school buses delivered to the district and will track and record all subsequent mileage for purposes of reimbursement.

12.13. Non-reimbursable Costs

No finance charges, leases, rent, or interest will be included in the purchase price. These are not reimbursable costs on the depreciation schedule. A school district that leases a school bus on a short-term emergency basis must receive prior approval, for purposes of reimbursement.

13.14. Inoperable Bus

Any school bus that is wrecked, sold, inoperable, or for any other reason does not or cannot meet all federal, state and SBOE construction and operational standards will be removed from the depreciation schedule. Revenues received subsequent to an insurance claim, associated with any district owned vehicle that receives state pupil/student transportation reimbursement consideration, shall be reported on the pupil/student transportation reimbursement claim form under revenues/reimbursements received or as a credit to the district's parts and supplies budget account.

14.15. Bus Trade-In

Trade-in values reflected in district bid specifications and subsequent invoicing will not be subtracted from the purchase price of the new bus for purposes of depreciation reimbursement.

~~3.—Program Support~~

~~a) The State Department of Education shall develop a “best practice” model and cost containment guidelines for school district pupil transportation operations, which shall include school bus lifecycle costing and school bus replacement models based on mileage, age and use criteria.~~

~~b) The State Department of Education shall develop guidelines for use in advertising for transportation bids, reviewing transportation bids and awarding transportation bids.~~

**U. Depreciation Account**

1. All school bus depreciation money received by school districts from the state shall be placed into a separate account and used only for the purchase of school buses. Any revenue received by the school district subsequent to the sale of any used school bus will be placed into a separate account and used only for the purchase of school buses. Trade-in values reflected in district bid specifications and subsequent invoicing will not be subtracted from the purchase price of the new bus for purposes of depreciation reimbursement.

2. School districts shifting from district-owned to contracted transportation programs may use the funds previously placed into the bus depreciation account for any expenses pertaining to running a contracted transportation program.

**V. Program Support**

1. The SDE staff shall develop a “best practice” model and cost containment guidelines for school district ~~pupil~~student transportation operations, which shall include school bus lifecycle costing and school bus replacement models based on mileage, age and use criteria.
2. Purchasers shall follow best practices for bidding procedures as outlined by SDE and published on the SDE website.
- ~~1. The SDE staff shall develop guidelines for use in advertising for transportation bids, reviewing transportation bids and awarding transportation bids.~~

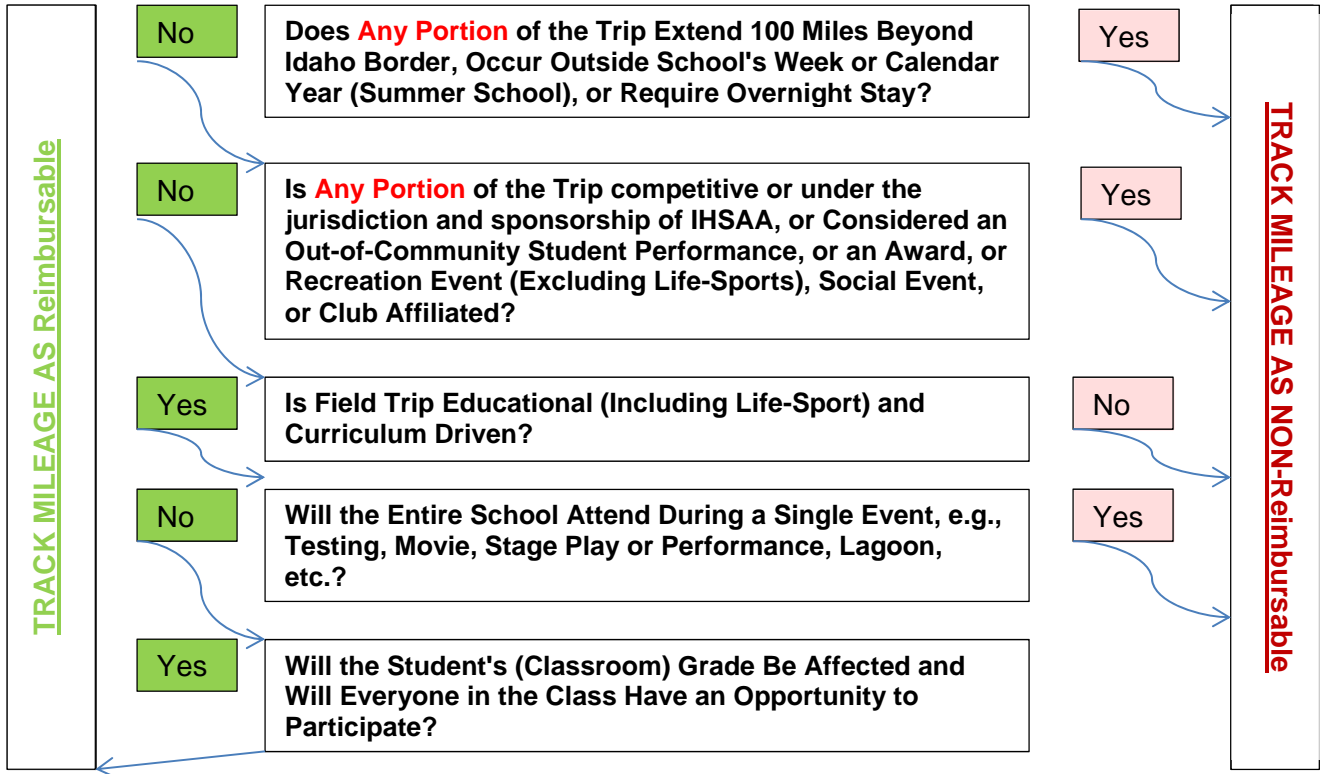

**W. Reimbursement/Non-Reimbursement Matrix**

The SDE will, as a matter of policy, periodically publish and distribute a reimbursement matrix.

**X. Appeals and Waivers**

1. The SBOE may grant a waiver of any rule not required by state or federal law to any school district upon written request, as provided in IDAPA 08.02.01.001. Written requests for such a waiver shall be submitted to the SDE Student Transportation staff using the waiver request form. The SDE staff shall submit the waiver request to the SBOE, along with any appropriate recommendation(s). All waiver requests must include supporting rationale and detailed justification for the request. The Board will not grant waivers of any rule required by state or federal law. State and federal law includes case law (including consent decrees), statutes, constitutions, and federal regulations.
2. A school district may appeal the application of the one hundred three percent (103% ~~percent~~) limit on reimbursable costs to the SBOE, as provided in ~~IC~~ Section 33-1006(5), Idaho Code. Appeals must be submitted to the SDE Student Transportation staff using the appeal application form. The SDE shall submit the appeal to the SBOE, along with any appropriate recommendation(s). All appeals must include supporting documents demonstrating qualifying hardship bus runs (~~IC~~ Section 33-1006, Idaho Code).

## Appendix A SDE Field Trip Flow Chart

All allowable costs (salaries, benefits, fuel, etc.) associated with all field trips and activity trips (reimbursable or non-reimbursable) taken on "yellow school buses" should be reported on the Student Transportation Reimbursement Claim Form. Cost associated with lodging and meals for drivers while on field trips are non-allowable costs and should be posted to a non-reimbursable account or sub-account (e.g., 100-682410-000 or 100-681410-001) and should NOT be reported on the Student Transportation Reimbursement Claim Form.

Revenues received from non-reimbursable field trips and/or leases should be posted to a plant facility fund for the replacement of school buses. Revenues received from reimbursable field trips should be reported on the Student Transportation Reimbursement Form under "Other Revenues Received."

**SUBJECT**

Proposed Rule, Docket No. 08-0203-1703, Rules Governing Thoroughness, Incorporation by Reference

**REFERENCE**

April 2008	Board approved the temporary and proposed rule change to IDAPA 08.02.03.004., Rules Governing Thoroughness, to incorporate the Idaho Extended Content Standards.
August 2008	Board approved pending rule Docket 08-0203-0802, incorporating by reference the Idaho Extended Content Standards.

**APPLICABLE STATUTE, RULE, OR POLICY**

Section 33-2002, Idaho Code  
IDAPA 08.02.03, Rules Governing Thoroughness

**BACKGROUND/DISCUSSION**

Proposed Rule Docket No. 08-0203-1703 provides for the amendment of the Idaho Extended Content Standards, an incorporated by reference document, and the addition of the incorporated by reference documents Idaho Extended Standards Core Content Connectors in English Language Arts and Mathematics.

The Idaho Extended Content Standards, standards aligned to the alternate assessment, were adopted in 2008 and are not currently aligned with the Idaho Content Standards updated in 2017. The proposed rule will replace the English Language Arts and Mathematics Idaho Extended Content Standards with the Idaho Content Standards Core Content Connectors.

The purpose of the Core Content Connectors (Connectors) is to identify the most salient core academic content in English Language Arts and Mathematics found in the Idaho Content Standards. The Connectors identify priorities for the instruction of students identified as having significant cognitive disabilities and align with the alternate assessment. They illustrate the necessary knowledge and skills students with significant cognitive disabilities need to reach the learning targets or critical big ideas within the state standard.

Along with 24 other states, Idaho worked with the National Center and State Collaborative to create the Connectors. Special education teachers from across the state actively participated in the creation and alignment of the Connectors to our statewide alternative assessment for students with the most significant cognitive disabilities.

The Connectors were written to help promote how students with significant cognitive disabilities can engage in the Idaho Content Standards while following the learning progression. They have the following characteristics:

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

---

- Sequenced to help guide meaningful instruction for students with significant cognitive disabilities and lead to enduring skills in successive grades;
- Written as outcome based, which provides a description of what students should know and do;
- Written with high level of expectations for students with significant cognitive disabilities; and
- Align to grade-level standards to provide access to the general curriculum. Connectors are designed to contribute to a fully aligned system of content, instruction, and assessment.

A Notice of Intent to Promulgate Rules was published in the April 5, 2017, edition of the Administrative Bulletin. Six (6) public meetings were held across the state between April 11 and April 20, 2017, during which any member of the public could provide verbal or written feedback on the suggested changes. No comments were received during the public meetings, and no written comments were received through the Department’s public comment online submission form.

**IMPACT**

The goal of the Connectors is to ensure that students with the most significant cognitive disabilities achieve increasingly higher academic outcomes and leave high school ready for post-secondary options.

**ATTACHMENTS**

Attachment 1 – Proposed Rule, Docket No. 08-0203-1703	Page 5
Attachment 2 – Revised Idaho Extended Content Standards	Page 9
Attachment 3 – Idaho Content Standards Core Content Connectors For English Language Arts	Page 55
Attachment 4 – Idaho Content Standards Core Content Connectors For Mathematics	Page 489

**STAFF COMMENTS AND RECOMMENDATIONS**

Once approved by the Board, proposed rules are published in the Administrative Bulletin. Publication of the proposed rule starts the 21-day public comment period. At the close of the public comment period, based on comments received and Board direction, changes may be made to proposed rules prior to entering the pending stage. All pending rules are brought back to the board for approval prior to re-submittal to the Department of Administration for publication as a pending (or final rule) in the Idaho Administrative Bulletin. The Department of Administration then forwards all pending rules to the legislature for consideration during the next legislative session. Pending rules go into effect at the end of the session in which they are reviewed, if they are not rejected by the legislature. The legislature may reject a rule in whole or in part.

Staff recommends approval.

**IDAPA 08  
TITLE 02  
CHAPTER 03**

**08.02.03 - RULES GOVERNING THOROUGHNESS**

**000. LEGAL AUTHORITY.**

All rules in this Thoroughness chapter (IDAPA 08.02.03) are promulgated pursuant to the authority of the State Board of Education under Article IX, Section 2 of the Idaho Constitution and under sections 33-116, 33-118, and 33-1612, Idaho Code. Specific statutory references for particular rules are also noted as additional authority where appropriate.  
(4-5-00)

**001. TITLE AND SCOPE.**

- 01. Title.** These rules shall be known as IDAPA 08.02.03 “Rules Governing Thoroughness.” (4-5-00)
- 02. Scope.** These rules shall govern the thorough education of all public school students in Idaho.  
(4-5-00)

**002. WRITTEN INTERPRETATIONS.**

Any written interpretations are on file at the office of the State Board of Education at 650 West State Street, Boise, Idaho 83702.  
(3-15-02)

**003. ADMINISTRATIVE APPEALS.**

Unless otherwise provided for in the Rules of the State Board of Education or in the State Board of Education Governing Policies and Procedures, all administrative appeals allowed by law shall be conducted pursuant to the Idaho Administrative Procedure Act and IDAPA 04.11.01, “Idaho Rules of Administrative Procedure of the Attorney General.”  
(4-5-00)

**004. INCORPORATION BY REFERENCE.**

The following documents are incorporated into this rule: (3-30-07)

**01. The Idaho Content Standards.** The Idaho Content Standards as adopted by the State Board of Education. Individual subject content standards are adopted in various years in relation to the curricular materials adoption schedule. **IDAHO EXTENDED CONTENT STANDARDS  
LANGUAGE ARTS**

Standard 1: Reading Process

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Grade 12	Grade 9-12 Speech
Goal 1.1: Acquire Concepts About Print	K.LA.1.1.1A- Demonstrates behavior that indicates attention to a book and turning pages.	1.LA.1.1.1A- Demonstrates correct access to reading material in a meaningful manner.	2.LA.1.1.1A- Recognizes print conventions such as letters, words or sentences represented by pictures, objects, sign, or text.	3.LA.1.1.1A- Recognizes print conventions such as letters, words, sentences, punctuation, paragraphs, etc.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives in Speech.
	K.LA.1.1.2A- Shows interest in reading materials while listening to familiar text being read.	1.LA.1.1.2A- Match letters or objects in first letter order using an alphabet chart.	2.LA.1.1.2A- Matches letters, objects, or words in order using an alphabet chart.	3.LA.1.1.2A- Identifies letters, objects, or words in order using an alphabet chart.										
	K.LA.1.1.3A- Follows communication displays (pictures/objects/symbols/words) from left to right progression and top to bottom.													
	K.LA.1.1.4A- Attends by watching and/or listening to words/pictures/objects found in reading environments.													
	K.LA.1.1.5A- Imitates the one-to-one correspondence between the spoken word and graphic symbol (picture/word/gesture/object).													
	K.LA.1.1.6A- Imitates segmenting graphic symbols of letters, words, or sentences.

Standard 1: Reading Process (continued)

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Grade 12	Grade 9-12 Speech
Goal 1.2: Acquire Concepts About Text	K.LA.1.2.1.A Points to items named by the teacher to convey understanding of the word (e.g., names, signs, school and classroom objects, etc).	1.LA.1.2.1.A Respond to environmental print with assistance (e.g., signs, symbols)	2.LA.1.2.1.A Attend and respond to different kinds of texts types.	3.LA.1.2.1.A Recognize similar types of text and formats.	4.LA.1.2.1.A Show interest in text types and formats of various kinds of text in the environment.	5.LA.1.2.1.A Identify literary and informational/functional texts, pictures, and/or media.	6.LA.1.2.1.A Identify literary and informational/functional texts, pictures, and/or media.	7.LA.1.2.1.A Use literary and informational/functional texts, pictures, and/or media to understand information in text.	8.LA.1.2.1.A Identify literary and informational/functional texts, pictures, and/or electronic sources to access information.	9.LA.1.2.1.A Identify similarities or differences in structure and format of informational/functional texts, pictures, and/or media.	10.LA.1.2.1.A Identify similarities or differences in structure and format of informational/functional texts, pictures, and/or media.	11.LA.1.2.1.A Identify similarities or differences in structure and format of literary and informational/functional texts, pictures, and/or media.	12.LA.1.2.1.A Identify similarities or differences in structure and format of literary and informational/functional texts, pictures, and/or media.	No objectives in Speech.
	K.LA.1.2.2.A Identifies a book, including front cover, back cover, and title, when provided a visual or tactile representation.	1.LA.1.2.2.A Locates the front cover with title of a book or reading selection.	2.LA.1.2.2.A Locates the title of a book or reading selection.	3.LA.1.2.2.A Responds to the purpose of print conventions such as punctuation, paragraph, bold print, etc	4.LA.1.2.2.A Identify parts of a book and/or text features to aid in comprehension i.e. title, illustrations.	5.LA.1.2.2.A Identify parts of a book and/or text features to aid in comprehension, i.e. heading, captions, introductory paragraph.	6.LA.1.2.2.A Identify parts of a book and/or text features to aid in comprehension, i.e. directions, sequences, glossary.	7.LA.1.2.2.A Use parts of a book and/or text features to understand a selection, such as appendix.	8.LA.1.2.2.A Use parts of a book and/or text features to understand a selection.	9.LA.1.2.2.A Use parts of a book and/or text features to identify different genres of literature.	10.LA.1.2.2.A Use parts of a book and/or text features to identify different genres of literature.			
		1.LA.1.2.3.A Attend to simple graphic features in text.	2.LA.1.2.3.A Recognize graphic features in text, i.e. charts and diagrams.	3.LA.1.2.3.A Identify graphic features in text, i.e. graphs, italics, bold print.	4.LA.1.2.3.A Identify graphic features that support text meaning.	5.LA.1.2.3.A Identify information using graphic features in text.	6.LA.1.2.3.A Identify graphic features in text that provides information for research topics.	7.LA.1.2.3.A Interpret graphic features in text to acquire meaning.	8.LA.1.2.3.A Use graphic features in text to communicate information.					
Goal 1.3: Acquire Phonological Awareness Skills	K.LA.1.3.1.A Responds to familiar songs and rhymes.	1.LA.1.3.1.A Identify beginning sounds as same or different.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.
	K.LA.1.3.2.A Imitates or identifies rhyming words.	1.LA.1.3.2.A Change sounds in a word to make a new word.												
	K.LA.1.3.3.A Identifies when groups of words/pictures/objects begin with the same sound.	1.LA.1.3.3.A Uses phonemes to blend into recognizable words, i.e. Name

**Standard 1: Reading Process (continued)**

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Grade 12	Grade 9-12 Speech
Goal 1.3: Acquire Phonological-Awareness Skills (continued from previous page)	K.LA.1.3.4A- Reproduces simple onsets and rimes to produce real words (e.g., repeats onset /c/ with rime /at/ to produce /cat/)	1.LA.1.3.4A- Segment syllables (beats) in a word.												
	K.LA.1.3.5A- Attends to adults blending spoken phonemes (CVC) to form single-syllable words (e.g., /d...o...g/ says dog and shows picture of object)													
	K.LA.1.3.6A- Match the initial sound (not the letter) to the initial sound of a spoken word.													
	K.LA.1.3.7A- Segments one-syllable words into its phonemes, (e.g., using manipulatives to mark each phoneme, imitates an adult)													
	K.LA.1.3.8A- Identifies syllables in a word.													
Goal 1.4: Acquire Decoding Skills- Using Word Parts	K.LA.1.4.1A- Reproduces sounds or symbols to match sounds or symbols in similar words.	1.LA.1.4.1A- Match sound to letter symbol.	2.LA.1.4.1A- Match letter symbols to sound.	3.LA.1.4.1A- Identify word patterns and/or word families.	4.LA.1.4.1A- Identify word parts as letters and syllables, i.e., prefix, word family, root word, suffix.	5.LA.1.4.1A- Use word parts (letters, syllables) to read, i.e., prefix, word family, root word, suffix.	6.LA.1.4.1A- Use word parts (letters, syllables) to read, i.e., prefix, word family, root word, suffix.	7.LA.1.4.1A- Use word parts (letters, syllables) to decode unfamiliar words, i.e., prefix, word family, root word, suffix.	8.LA.1.4.1A- Use word parts (letters, syllables) to read multi-syllable words, i.e., prefix, word family, root word, suffix.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.
		1.LA.1.4.2A- Imitate reading abbreviations in text appropriate to grade level.	2.LA.1.4.2A- Attend to abbreviations in text appropriate to grade level.	3.LA.1.4.2A- Recognizes abbreviations in text appropriate to grade level.	4.LA.1.4.2A- Read simple abbreviations appropriate to grade level.	5.LA.1.4.2A- Read simple abbreviations appropriate to grade level.	6.LA.1.4.2A- Read simple abbreviations appropriate to grade level.	7.LA.1.4.2A- Read simple abbreviations appropriate to grade level.	8.LA.1.4.2A- Read simple abbreviations appropriate to grade level.

Standard 1: Reading Process (continued)

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Grade 12	Grade 9-12 Speech
Goal 1.5: Acquire Decoding Skills-Using Syllabication	K.LA.1.5.1.A- Match letter-symbols.	1.LA.1.5.1.A- Match common-omsets, rimes, and word-patterns to-generate words.	2.LA.1.5.1.A- Identify that letters put-together make words.	3.LA.1.5.1.A- Identify that letters and-syllables put-together make-words.	4.LA.1.5.1.A- Identify that letters and-syllables put-together make-words.	5.LA.1.5.1.A- Identify that letters put-together with certain rules make words.	6.LA.1.5.1.A- Identify that letters put-together with certain rules make words.	7.LA.1.5.1.A- Identify that letters put-together with certain rules make words.	8.LA.1.5.1.A- Identify that letters put-together with certain rules make words.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives in Speech.
Goal 1.6: Acquire Decoding Skills-Using Context	No objectives at this grade-level.	1.LA.1.6.1.A- Use visual, tactile, and/or auditory-prompts to-identify new-words.	2.LA.1.6.1.A- Use visual, tactile, and/or auditory-prompts to-identify new-words.	3.LA.1.6.1.A- Use visual, tactile, and/or auditory-prompts to-identify new-words.	4.LA.1.6.1.A- Use visual, tactile, and/or auditory-prompts to-identify new-words.	5.LA.1.6.1.A- Use visual, tactile, and/or auditory-prompts to-identify new-words.	6.LA.1.6.1.A- Use visual, tactile, and/or auditory-prompts and-context clues to-identify new-words.	7.LA.1.6.1.A- Use visual, tactile, and/or auditory-prompts and-context clues to-identify new-words.	8.LA.1.6.1.A- Use visual, tactile, and/or auditory-prompts and-context clues to-identify new-words.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives in Speech.
Goal 1.7: Acquire Fluency	K.LA.1.7.1.A- Recognizes-automatically-between 5 to 25-age appropriate-high-frequency-word-symbols (i.e. gestures, pictures, objects, words).	1.LA.1.7.1.A- Recognizes-automatically-between 10 to 35-age appropriate-high-frequency-word-symbols (i.e. gestures, pictures, objects, words).	2.LA.1.7.1.A- Recognizes-automatically-between 15 to 45-age appropriate-high-frequency-word-symbols (i.e. gestures, pictures, objects, words).	3.LA.1.7.1.A- Recognizes-automatically-between 20 to 50-age appropriate-high-frequency-word-symbols (i.e. gestures, pictures, objects, words).	No objectives at this grade-level.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives in this grade-level.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives in Speech.
		1.LA.1.7.2.A- Listen to grade 1-appropriate text-read aloud by-repeating text in-choral reading.	2.LA.1.7.2.A- Listen to grade 2-appropriate text-read aloud by-repeating text in-choral reading.	3.LA.1.7.2.A- Listen to grade 3-appropriate text-read aloud by-repeating text in-choral reading.	4.LA.1.7.1.A- Read simplified, grade 4-appropriate text.	5.LA.1.7.1.A- Read simplified, grade 5-appropriate text.	6.LA.1.7.1.A- Read simplified, grade 6-appropriate text.	7.LA.1.7.1.A- Read simplified, grade 7-appropriate text.	8.LA.1.7.1.A- Read simplified, grade 8-appropriate text.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives at this grade-level.	No objectives in Speech.
Goal 1.8: Vocabulary and-Concept-Development	K.LA.1.8.1.A- Classify common-words, pictures, and/or objects into-basis categories.	1.LA.1.8.1.A- Identify words and-concepts of the-inflectional ending (i.e. plural, -ing).	2.LA.1.8.1.A- Identify words and-the meaning of-inflectional ending, such as-singular and plural or -ed.	3.LA.1.8.1.A- Identify words and-the meaning of-common -suffixes, such as-singular and plural.	4.LA.1.8.1.A- Identify common-words and-the meaning of-common suffixes, such as-singular and plural.	5.LA.1.8.1.A- Identify root-words and-the meaning of-common suffixes.	6.LA.1.8.1.A- Identify common-root words and-the meaning of other-words derived from the root.	7.LA.1.8.1.A- Identify words and-the meaning of common-prefixes, such as-un- or pre-.	8.LA.1.8.1.A- Identify root-words and-the meaning of common affixes, such as the meaning of un-and-ful.	9.LA.1.8.1.A- Identify root-words and-the meaning of common affixes.	10.LA.1.8.1.A- Identify root-words and-the meaning of common affixes.	11.LA.1.8.1.A- Identify root-words and-the meaning of common affixes.	12.LA.1.8.1.A- Identify root-words and-the meaning of common affixes.	No objectives in Speech.
	K.LA.1.8.2.A- Match word-meaning in the-context in which the word is used (i.e. use picture-clues, prompts from-spoken words)	1.LA.1.8.2.A- Match common-antonyms using-pictures, objects, signs	2.LA.1.8.2.A- Identify words that are common-opposites or mean the same (antonyms, synonyms).	3.LA.1.8.2.A- Identify words and the concepts of same or opposite in-meaning and same sounds-spelled differently (synonyms, antonyms)	4.LA.1.8.2.A- Identify words and the concepts of same or opposite in-meaning and same sounds-spelled differently (synonyms, antonyms, homophones)	5.LA.1.8.2.A- Use context to define-words and words that have-multiple meanings.	6.LA.1.8.2.A- Use context to define-words and words that have-multiple meanings.	7.LA.1.8.2.A- Identify word and-concept differences, involving-antonyms, synonyms, and-words with multiple-meanings.	8.LA.1.8.2.A- Identify word and-concept differences, involving-antonyms, synonyms, and-words with multiple-meanings.	9.LA.1.8.2.A- Use context clues to-determine the meaning of words.	10.LA.1.8.2.A- Use context clues to-determine the meaning of words.	11.LA.1.8.2.A- Use context clues to-determine the meaning of words.	12.LA.1.8.2.A- Use context clues to-determine the meaning of words.

AUGUST 10, 2017**

**IDAHO EXTENDED CONTENT STANDARDS  
MATHEMATICS**

Standard 1: Number and Operation

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10
Goal 1.1: Understand and use numbers.	K.M.1.1.1A Recognize symbolic expressions as numbers	1.M.1.1.1A Indicate recognition of various #'s in environments	2.M.1.1.1A Demonstrate knowledge of the numeration system by counting forward by 1's								
	K.M.1.1.2A Demonstrate 1:1 correspondence	1.M.1.1.2A Communicate and demonstrate physical representations for numbers up to 5.	2.M.1.1.2A Communicate and demonstrate whole numbers in order up to 10	3.M.1.1.1A Identify whole numbers in order up to 30, using a number line or chart when necessary	4.M.1.1.1A Communicate and demonstrate whole numbers in order up to 50, using a number line or chart when necessary.	5.M.1.1.1A Communicate and demonstrate whole numbers to 100 and decimal numbers to hundredths.	6.M.1.1.1A Recognize the magnitude of difference between small and large whole numbers.	7.M.1.1.1A Recognize the magnitude of difference between small and large whole numbers and decimals.	8.M.1.1.1A Recognize the magnitude of difference between small and large fractions.	9.M.1.1.1A Recognize the magnitude of difference between small and large percents.	10.M.1.1.1A Compare magnitudes and relative magnitudes of whole numbers, decimals, fractions, and percents.
		1.M.1.1.3A Show the symbolic representation of the ones place value.	2.M.1.1.3A Show the symbolic representation of the tens place value.	3.M.1.1.2A Identify place value of numbers through 30	4.M.1.1.2A Identify place value of numbers through 50.	5.M.1.1.2A Identify place value for whole numbers to 100 and decimal numbers to hundredths.	6.M.1.1.2 A Recognize corresponding common fractions and decimals	7.M.1.1.2A Recognize corresponding common fractions and percents.	8.M.1.1.2 A Identify the parts of a ratio in real world situations	9.M.1.1.2 A Use positive and negative numbers, fractions, decimals, percentages, and ratios in real world situations.	10.M.1.1.2A Use positive and negative numbers, fractions, decimals, percentages, and ratios in real world situations.
	K.M.1.1.3A Identify coins as money	1.M.1.1.4A Sort coins by identity.	2.M.1.1.4 A Identify and demonstrate the value of pennies and nickels	3.M.1.1.3 A Sort coins and one bills by identity and value.	4.M.1.1.3 A Count the value of a collection of pennies, nickels and dimes up to \$1.00	5.M.1.1.3A Sort dollar denominations and use whole dollar estimation up to \$10.00					
				3.M.1.1.4 A Recognize commonly used fractions using concrete materials.	4.M.1.1.4A Communicate and demonstrate commonly used fractions with symbolic representations.	5.M.1.1.4A Compare commonly used fractions with symbolic representations					
							6.M.1.1.3A Create a number line with positive numbers.	7.M.1.1.3A Create a number line with positive rational numbers.	8.M.1.1.3 A Identify position of positive rational numbers on a number line.		
					4.M.1.1.5A The student will recognize the value of common coins and the dollar.	5.M.1.1.5A Match simple, equivalent units of measurement in the U.S. Customary system.	6.M.1.1.4A Match basic equivalent decimals and fractions, ie .25 = 1/4	7.M.1.1.4A Recognize exponents as a representation of a very large number.	8.M.1.1.4A Recognize exponents as a representation of a very large number.	9.M.1.1.3 A Recognize exponents as a representation of a very large number.	10.M.1.1.3A Recognize exponents as a representation of a very large number.
										9.M.1.1.4A	10.M.1.1.4A

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

**IDAHO EXTENDED CONTENT STANDARDS  
MATHEMATICS**

Standard 1: Number and Operation (continued)

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10
Goal 1.1: Understand and use numbers. (continued from previous page)						5.M.1.1.6-A Use repeated addition to demonstrate prime numbers in multiplication.	6.M.1.1.5-A Use repeated addition to demonstrate prime numbers or factorization in multiplication.	7.M.1.1.5-A Use repeated addition models to match the Least Common Multiple (LCM) and the Greatest Common Factor (GCF).	8.M.1.1.5-A Use repeated addition models to demonstrate primes, composites, prime factorization, LCM, or GCF.	9.M.1.1.5-A Solve problems using repeated addition in multiplication with prime numbers, factors and multiples.	10.M.1.1.5-A Solve problems using repeated addition in multiplication with prime numbers, factors and multiples.
	K.M.1.1.4A Identify a problem that can be solved.	1.M.1.1.5 Given options, match the appropriate solution to solve a problem.	2.M.1.1.5-A Demonstrate the ability to solve simple problems.	3.M.1.1.5-A Recognize and demonstrate the appropriate problem-solving strategy to solve problems.	4.M.1.1.6A Choose appropriate application to solve a problem.	5.M.1.1.7A Choose appropriate application to solve a problem.	6.M.1.1.6-A Recognize and demonstrate the appropriate problem-solving strategy to solve a multi-step problem.	7.M.1.1.6A Identify pertinent information needed to solve a one-step problem.	8.M.1.1.6-A Identify pertinent information needed to solve a multi-step problem.		
							6.M.1.1.7-A Identify positive and negative numbers in real-world situations.	7.M.1.1.7-A Identify positive and negative numbers in real-world situations.	8.M.1.1.7-A Identify positive and negative numbers in real-world situations.		
	K.M.1.1.5A Attend to appropriate math vocabulary terms, i.e. more, less, next, first.	1.M.1.1.6A Attend to appropriate math vocabulary terms.	2.M.1.1.6A Attend to appropriate math vocabulary terms.	3.M.1.1.6-A Recognize appropriate math vocabulary.	4.M.1.1.7A Recognize appropriate vocabulary.	5.M.1.1.8-A Recognize appropriate vocabulary.	6.M.1.1.8-A Use appropriate vocabulary.	7.M.1.1.8-A Use appropriate vocabulary.	8.M.1.1.8-A Use appropriate vocabulary.	9.M.1.1.6-A Use appropriate vocabulary.	10.M.1.1.6A Use appropriate vocabulary.
Goal 1.2: Perform computations accurately.	K.M.1.2.1A Demonstrate knowledge of the concept more or less.	1.M.1.2.1-A Use objects, pictures, or symbolic systems to explore addition or subtraction.	2.M.1.2.1A Use objects, pictures, or symbolic systems to explore addition or subtraction problems to 10.	3.M.1.2.1-A Use objects, pictures, or symbolic systems to solve addition or subtraction problems to 18.	4.M.1.2.1A Explore single digit multiplication for 1's-5's through symbolic concrete systems.	5.M.1.2.1A Explore single digit multiplication for 1's-10's through symbolic concrete systems.	6.M.1.2.1A Introduce the use of a multiplication chart to solve multiplication and division problems.	7.M.1.2.1.A Match common equivalent fractions, decimals, and percents i.e. half (1/2), 50 or 50%.	8.M.1.2.1A Match common equivalent fractions, decimals, and percents i.e. halves, fourths, and tenths.		
		1.M.1.2.2-A Count two groups of objects, pictures or symbolic system to identify total quantity up to five.	2.M.1.2.2-A Count two groups of objects, pictures or symbolic system to identify total quantity up to ten.	3.M.1.2.2-A Explore adding and subtracting with regrouping using manipulatives.	4.M.1.2.2-A Add and subtract whole numbers, with or without the use of manipulatives.	5.M.1.2.2-A Identify numbers with decimals have a part of a whole, e.g. money using coins and dollars.	6.M.1.2.2-A Add, subtract, multiply, or divide single digit whole numbers or simple decimals, with or without the use of a calculator or manipulatives.	7.M.1.2.2-A Add, subtract, multiply or divide single digit whole numbers or positive integers, with or without the use of a calculator or manipulatives.	8.M.1.2.2-A Add, subtract, multiply, and divide rational numbers, with or without the use of a calculator or manipulatives.		
			2.M.1.2.3A Count three groups of objects, pictures or symbolic system to identify total quantity up to five.	3.M.1.2.3A Count three groups of objects, pictures or symbolic system to identify total quantity up to ten.							
		1.M.1.2.3A Recognize the concept of subtraction (less) using concrete objects, pictures, or symbols.	2.M.1.2.4-A Use manipulatives for adding/subtracting.	3.M.1.2.4-A Explore multiplication through the manipulation of adding repeated sets.	4.M.1.2.3-A Explore multiplication through the manipulation of adding repeated sets and division by separating sets into equal parts.	5.M.1.2.3-A Explore division through the manipulation of dividing a whole into repeated equal sets.		7.M.1.2.3-A Recognize models of multiples as exponents, i.e. using concrete objects, pictures or student preferred items, use a tray to count multiples of equal groups.	8.M.1.2.3A Recognize models of multiples as exponents, i.e. using concrete objects, pictures or student preferred items, use a tray to count multiples of equal groups.		
					4.M.1.2.4-A Identify that "a whole" can be divided to create "smaller pieces" and the pieces can be added to create a whole again.	5.M.1.2.4-A Recognize common small pieces or fractions to fourths can be subtracted from the whole.					

**STATE DEPARTMENT OF EDUCATION

Standard 2: Concepts and Principles of Measurement

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10
Goal 2.1: Understand and use U.S. customary and metric measurements.	K.M.2.1.1A Match sizes of objects (e.g., longer, shorter, larger, smaller).	1.M.2.1.1A Match sizes of objects given an attribute (e.g., longer, shorter, larger, smaller).	2.M.2.1.1A Compare objects given and attribute, e.g., lengths, sizes, weight, time	3.M.2.1.1A Use appropriate tools or non-standard units to measure length or temperature	4.M.2.1.1A Identify the standard tools to make formal measurements of length, time, temperature, and weight.	5.M.2.1.1A Select the appropriate units and tools to make formal measurements of length, temperature, weight.	6.M.2.1.1A Select and use appropriate units and tools to make formal measurements.	7.M.2.1.1A Select and use appropriate units and tools to make formal measurements.	8.M.2.1.1A Select and use appropriate units and tools to make formal measurements.		
	K.M.2.1.2A Estimate an attribute of an object.	1.M.2.1.2A Estimate an attribute of an object using non-standard units, i.e. as big as..., same size as....	2.M.2.1.2A Estimate time using non-standard units.	3.M.2.1.2A Estimate time and weight using non-standard or standard units in real-world problems.	4.M.2.1.2A Estimate length, time, weight, and temperature in real-world problems.	5.M.2.1.2A Estimate length, time, weight, and temperature in real-world problems.	6.M.2.1.2A Estimate length, time, weight, capacity, temperature, or capacity (volume) in real-world problems.	7.M.2.1.2A Estimate length, time, weight, capacity, temperature, or capacity (volume) in real-world problems.	8.M.2.1.2A Estimate length, time, weight, capacity, temperature, or capacity (volume) in real-world problems.		
		1.M.2.1.3A Identify time of day by activity—e.g. morning before school, schooltime, after school, after dinner	2.M.2.1.3A Identify time of day by activity—e.g. morning before school, schooltime, after school, after dinner	3.M.2.1.3A Identify time of day by activity—e.g. morning before school, schooltime, after school, after dinner	4.M.2.1.3A Match time to a specific activity (e.g. bell or board schedule)	5.M.2.1.3A Tell time using a digital or analog clock.					
			2.M.2.1.4A Select the most appropriate activity given the time of the day.	3.M.2.1.4A Identify real-world problems related to time.	4.M.2.1.4A Identify real-world problems related to time.	5.M.2.1.4A Identify real-world problems related to elapsed time.	6.M.2.1.3A Identify real-world problems related to elapsed time.				
								7.M.2.1.3.A Estimate and understand volume permanence in real-world settings, i.e. using manipulatives (ex. rice, water) to explore various shaped containers to estimate volume.	8.M.2.1.3.A Estimate and understand volume permanence in real-world settings, i.e. using manipulatives (ex. rice, water) to explore various shaped containers to estimate volume.		
						5.M.2.1.5A Recognize the concept of around (perimeter) for simple polygons, i.e. rectangle and squares.	6.M.2.1.4 A Recognize the concept of around (perimeter and circumference) for simple shapes, i.e. circle, triangle	7.M.2.1.4 A Compare area and perimeter of real-world surfaces, e.g. around the room, around the city, around a box or ball.	8.M.2.1.4 A Compare area and perimeter of real-world surfaces, e.g. around the room, around the city, around a box or ball	9.M.2.1.1 A Compare area and perimeter of real-world surfaces, e.g. around the room, around the city, around a box or ball	10.M.2.1.1 A Compare area and perimeter of real-world surfaces, e.g. around the room, around the city, around a box or ball

**IDAHO EXTENDED CONTENT STANDARDS  
MATHEMATICS**

Standard 2: Concepts and Principles of Measurement (continued)

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10
Goal 2.1: Understand and use U.S. customary and metric measurements (continued from previous page)				3.M.2.1.5 A Identify a unit of measurement within the U.S. customary system or within the metric system.	4.M.2.1.5A Use a unit of measurement within the U.S. customary system or within the metric system.	5.M.2.1.6 A Match equivalent units of measurement within the U.S. customary system.	6.M.2.1.5A Identify equivalent units of measurement.	7.M.2.1.5 A Identify equivalent units of measurement.	8.M.2.1.5 A Identify equivalent units of measurement.		
	K.M.2.1.3A Identify a calendar and how the days of the week are represented.	1.M.2.1.4 AA Identify a calendar and how the days of the week are represented.	2.M.2.1.5 Identify a calendar and how the days of the week are represented.	3.M.2.1.6 A Identify equivalent units of time in days, weeks, or months.	4.M.2.1.6 A Identify how months of the year are presented in a calendar.	5.M.2.1.7 A Use a calendar in daily-life activities.					
					4.M.2.1.7 A Match simple, equivalent units of measurement in the U.S. Customary system.	5.M.2.1.8 A Match equivalent units of weight and volume.	6.M.2.1.6 A Identify the location of perimeter and area with rectangles.	7.M.2.1.6 A Calculate simple problems with perimeter or area of rectangles and triangles.	8.M.2.1.6 A Solve problems involving perimeter and area of rectangles.	9.M.2.1.2 A Given a formula, students solve simple problems involving perimeter or area with or without a calculator or manipulatives.	10.M.2.1.2 A Solve problems involving perimeter and area of triangles or rectangles.
	K.M.2.1.4 A Attend to appropriate vocabulary.	1.M.2.1.5 A Attend to appropriate vocabulary.	2.M.2.1.6 A Attend to appropriate vocabulary.	3.M.2.1.7 A Recognize appropriate vocabulary.	4.M.2.1.8 A Recognize appropriate vocabulary.	5.M.2.1.9 A Recognize appropriate vocabulary.	6.M.2.1.7 A Use appropriate vocabulary.	7.M.2.1.7 A Use appropriate vocabulary.	8.M.2.1.7 A Use appropriate vocabulary.		
Goal 2.2: Apply the concepts of rates, ratios, and proportions.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	6.M.2.2.1A Match a concrete representation to a simple ratio, i.e. 1 sandwich to 2 people	7.M.2.2.1A Match a rate (how often) represented in a real world situation, i.e. once a day.	8.M.2.2.1 A Identify ratios in real world situations, i.e. 2 boys to 1 girl in the class.	9.M.2.2.1 A Identify proportions in real world situations, i.e. size, number or amount of an object or group compared to another	10.M.2.2.1A Recognize rates, ratios, or proportions, in real world situations.
								7.M.2.2.2 A Apply a rate to a real world situation	8.M.2.2.2 A Apply a ratio to a real world situation	9.M.2.2.2 A Apply the concept of a rate to a real world situation	10.M.2.2.2 A Apply rates, ratios, or proportion to real world situations.
										9.M.2.2.3 A Identify simple equivalent units of measurements.	10.M.2.2.3 A Identify equivalent units, comparable units, or conversions.
Goal 2.3: Apply dimensional analysis.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	7.M.2.3.1 A Identify simple dimensions of an object, i.e. height, width, length	8.M.2.3.1 A Match simple measurement units to dimensions, i.e. lbs to weight, feet to height, cups to volume	9.M.2.3.1 A Apply simple measurement units to dimensions in real world applications involving length, area, capacity, weight, time, and temperature.	10.M.2.3.1 A Apply simple measurement units to dimensions in real world applications involving length, area, capacity, weight, time, and temperature.

**IDAHO EXTENDED CONTENT STANDARDS  
MATHEMATICS**

Standard 3: Concepts and Language of Algebra and Functions

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10
Goal 3.1: Use algebraic symbolism as a tool to represent mathematical relationships.		4.M.3.1.1A Express numbers using symbolic expression of a concrete system.	2.M.3.1.1A Express addition & subtraction problems using a concrete system.	3.M.3.1.1A Use concrete objects to symbolize multiple sets that would be reflected in a simple multiplication problem.	4.M.3.1.1A Express the concept of division using concrete objects or pictures.	5.M.3.1.1A Express the concept of division using concrete objects or pictures.	6.M.3.1.1A Identify a variable as an unknown quantity using a letter or symbol in a simple equation.	7.M.3.1.1A Use the idea of a variable as an unknown quantity using a letter or symbol in a simple equation.	8.M.3.1.1A Use the idea of a variable as an unknown quantity using a letter or symbol in simple equations or inequalities.	9.M.3.1.1A Use the idea of an unknown quantity as a variable in linear equations and inequalities.	10.M.3.1.1A Use the idea of an unknown quantity as a variable in expressions, linear equations and inequalities.
	K.M.3.1.1A Use concrete objects to symbolize a number or set.	4.M.3.1.2.A Substitute concrete object(s) for the symbolic expression of a number.	2.M.3.1.2A Use concrete objects or pictures to symbolize a number sentence when given an addition word problem.	3.M.3.1.2A Using a geometric shape to represent a missing number, express an addition or subtraction problem with concrete objects, pictures, or numerals.	4.M.3.1.2A Use concrete or symbolic system with a one step addition or subtraction real life problem that represents an unknown number.	5.M.3.1.2A Translate simple word statements into numeric expressions.	6.M.3.1.2A Translate simple word statements into numeric expressions.	7.M.3.1.2.A Translate simple word statements into numeric expressions.	8.M.3.1.2A Translate simple word statements and story problems into numeric expressions.		
			2.M.3.1.3.A Show the relationship between addends in fact families using concrete objects or pictures up to sums of 5.	3.M.3.1.3A Express addition or subtraction statements for a fact family given two addends.	4.M.3.1.3A Show the relationship between addition and subtraction in fact families using concrete objects or pictures.	5.M.3.1.3A Show the relationship in fact families for mathematical operations.					
	K.M.3.1.2A Use more or less to indicate wanting to increase or decrease a quantity.	4.M.3.1.3.A Identify sets of concrete objects using vocabulary (less than, more than, equal to, more, less, same, bigger, smaller, etc).	2.M.3.1.4.A Compare objects or pictures using the vocabulary (less than, more than, equal to, more, less, same, bigger, smaller, etc).	3.M.3.1.4.A Compare objects or pictures using the vocabulary or symbols for (<, >, =) to express relationships with quantity.	4.M.3.1.4 Compare objects or pictures using the vocabulary or symbols for (<, >, =) to express relationships with quantity.	5.M.3.1.4.A Compare objects or pictures using vocabulary or symbols of "<," ">," and "=" to express relationships.	6.M.3.1.3.A Identify relationships using vocabulary or symbols of "<," ">," and "=".	7.M.3.1.3.A Identify relationships using vocabulary or symbols of "<," ">," "=" "≠," "≤," "≥," "≠," "≠."	8.M.3.1.3A Identify relationships using vocabulary or symbols of "<," ">," "=" "≠," "≤," "≥," "≠," "≠."		
Goal 3.2: Evaluate algebraic expressions.	No objectives at this grade level.	No objectives at this grade level.	2.M.3.2.1.A Use the commutative property of addition with concrete objects or pictures to solve simple problems (e.g., 3+1=4 then 1+3=?)	3.M.3.2.1.A Copy the commutative property of multiplication with products up to 6	4.M.3.2.1.A Solve multiplication problems with the identity and zero property, with concrete objects if necessary.	5.M.3.2.1.A Use the following properties as they relate to addition and multiplication: commutative, identity, or zero	6.M.3.2.1.A Use the following properties in evaluating numerical expressions: commutative, identity, zero, or inverse.	7.M.3.2.1.A Evaluate simple numeric and algebraic expressions using commutative, identity, zero, inverse properties.	8.M.3.2.1.A Evaluate the following properties in evaluating simple algebraic expressions: commutative, identity, zero, or inverse	9.M.3.2.1.A Use appropriate procedures for solving simple algebraic expressions involving variables and rational numbers.	10.M.3.2.1.A Use appropriate procedures to solve a simple algebraic expression involving variables, integers, or rational numbers.
			2.M.3.2.2.A Match corresponding addition problems (e.g., 1+2=3, then 2+1=3).	3.M.3.2.2A Identify math problems with the commutative property (e.g., If 1+2=3, then 2+1=3 or 1x2=2 or 2x1=2).			6.M.3.2.2.A Solve simple algebraic expressions.	7.M.3.2.2.A Solve two problems in the order of operations given.	8.M.3.2.2A Solve two problems in the order of operations given.		
									8.M.3.2.3.A Simplify an addition expression.

**IDAHO EXTENDED CONTENT STANDARDS  
MATHEMATICS**

Standard 3: Concepts and Language of Algebra and Functions (continued)

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10
Goal 3.3: Solve algebraic equations and inequalities.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	3.M.3.3.1A Solve missing addend equations, using concrete objects when necessary.	4.M.3.3.1A Solve missing items or addends equations with concrete objects or symbols.	5.M.3.3.1A Solve missing addends or simple factor equations, using concrete objects or a calculator when necessary.	6.M.3.3.1.A Solve one-step equations with whole numbers, using concrete objects or a calculator when necessary.	7.M.3.3.1A Solve one-step equations using concrete objects or a calculator when necessary.	8.M.3.3.1A Solve one and two-step equations, such as $(1+2) + (2+2) = ?$	9.M.3.3.1A Use appropriate procedures to solve multi-step equations and inequalities, such as $(1+2) = (5-3)$ or $(2+2)$ does not equal $(2+3)$ .	10.M.3.3.1.A Use appropriate procedures to solve multi-step equations and inequalities, such as $(1+2) = (5-3)$ or $(2+2)$ does not equal $(2+3)$ .
									8.M.3.3.2.A Match a math problem with a pictorial representation.	9.M.3.3.2A Match a math problem with a pictorial representation.	10.M.3.3.2.A Match a math problem with a graphical representation.
Goal 3.4: Understand the concept of functions.	K.M.3.4.1.A Attend to a simple repeating pattern (e.g., red, blue, red, blue)	1.M.3.4.1A Replicate a simple repeating pattern (e.g., red, blue, red, blue...)	2.M.3.4.1A Extend a simple repeating pattern (e.g., ABCABC...).	3.M.3.4.1.A Replicate a numerical pattern when given the $+1$ rule with addition (e.g., 1, 1+1, 2+1, 3+1, 4+1, ...)	4.M.3.4.1.A Copy a pattern using whole numbers and the $+1$ rule and then extend the pattern.	5.M.3.4.1.A Identify a simple pattern using whole numbers.	6.M.3.4.1.A Identify a simple pattern using whole numbers or fractions as inputs.	7.M.3.4.1.A Extend simple patterns involving rational numbers, including decimals, as inputs.	8.M.3.4.1.A Extend simple patterns and match the rule (function) that generated the pattern using rational numbers.		
							6.M.3.4.2.A Extend whole number patterns using manipulatives and pictorial representations if needed.				
							6.M.3.4.3.A Identify change in quantity in real world context.	7.M.3.4.2.A Identify when a change in one quantity impacts a change in another quantity.	8.M.3.4.2.A Indicate when a change in one quantity may result in a change in another, and identify the relationship as a positive, negative, or neither.	9.M.3.4.1.A Use appropriate procedures to solve a simple linear equation involving two variables, such as $x + y = 7$ .	10.M.3.4.1.A Use appropriate procedures to solve a simple linear equation involving two variables, such as $x + y = 7$ .
	K.M.3.4.A.2 Attend to appropriate vocabulary.	1.M.3.4.2.A Attend to appropriate vocabulary.	2.M.3.4.2.A Attend to appropriate vocabulary.	3.M.3.4.2.A Recognize appropriate vocabulary.	4.M.3.4.2A Recognize appropriate vocabulary.	5.M.3.4.2.A Recognize appropriate vocabulary.	6.M.3.4.4.A Use appropriate vocabulary.	7.M.3.4.3.A Use appropriate vocabulary.	8.M.3.4.3A Use appropriate vocabulary.

Standard 4: Concepts and Principles of Geometry

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10
Goal 4.1: Apply concepts of size, shape, and spatial relationships.	K.M.4.1.1.A Recognize simple two-dimensional shapes—triangle, square, circle	1.M.4.1.1.A Recognize and sort two-dimensional shapes—triangle, square or circle	2.M.4.1.1.A Recognize, name, and sort the two-dimensional shapes of triangles, squares, and circles	3.M.4.1.1.A Compare two- and three-dimensional shapes in the environment, and develop vocabulary to describe the attributes.	4.M.4.1.1.A Identify parallel, intersecting, and perpendicular lines, and develop vocabulary to describe the attributes.	5.M.4.1.1.A Identify a polygon and develop vocabulary to describe the attributes.	6.M.4.1.1.A Recognize the difference between a one- and two-dimensional geometric figures; using their defining properties.	7.M.4.1.1.A Classify one- and two-dimensional geometric figures, using their defining properties.	8.M.4.1.1.A Classify one-, two-, and three-dimensional geometric figures, using their defining properties.		
	K.M.4.1.2.A Sort or classify objects.	1.M.4.1.2.A Sort or match objects by more than one attribute.	2.M.4.1.2.A Sort or classify objects by more than one attribute.			5.M.4.1.2.A Identify right or straight angles without formal measures.	6.M.4.1.2.A Identify and copy various angles and shapes using appropriate tools.	7.M.4.1.2.A Select the appropriate tool to draw or measure various angles and shapes.	8.M.4.1.2.A Select the appropriate tool to draw or measure various angles and shapes.		
						5.M.4.1.3.A Identify points, lines, and line segments.	6.M.4.1.3.A Differentiate between a line segment and a point.	7.M.4.1.3.A Differentiate between points, lines, rays, and angles.	8.M.4.1.3.A Differentiate between points, lines, rays, and angles.		
				3.M.4.1.2.A Recognize sliding and flipping of two-dimensional shapes.	4.M.4.1.2.A Recognize the results of sliding and flipping two-dimensional shapes.	5.M.4.1.4.A Identify when a two-dimensional shape has been flipped or rotated.	6.M.4.1.4.A Differentiate between reflections, translations, or rotations on various shapes.	7.M.4.1.4.A Replicate the effects of reflections, translations, or rotations on various shapes.	8.M.4.1.4.A Replicate the effects of reflections, translations, or rotations on various shapes.		
			2.M.4.1.3.A Indicate a line of symmetry.	3.M.4.1.3.A Identify vertical or horizontal lines of symmetry.	4.M.4.1.3.A Identify a line of symmetry in two-dimensional shapes.	5.M.4.1.5.A Match shapes that are congruent, similar, or symmetrical.	6.M.4.1.5.A Arrange shapes to show congruence, similarities, and line-symmetry of shapes.	7.M.4.1.5.A Arrange shapes to show congruence, similarities, and line-symmetry of shapes.	8.M.4.1.5.A Arrange shapes to show congruence, similarities, and line-symmetry of shapes.	9.M.4.1.1.A Arrange shapes to show congruence, similarities, and line-symmetry of shapes.	10.M.4.1.1.A Arrange shapes to show congruence, similarities, and line-symmetry of shapes.
										9.M.4.1.2.A Compare similarities as it relates to size variations in two-dimensional objects.	10.M.4.1.2.A Compare similarity as it relates to size variations in two- and three-dimensional objects.
					4.M.4.1.4.A Recognize perimeters and areas of rectangles and squares, using concrete objects.	5.M.4.1.6.A Indicate the difference between perimeter and area of a polygon.	6.M.4.1.6.A Recognize the difference in spatial relationships between two- and three-dimensional objects.	7.M.4.1.6.A Recognize the concept of surface area or volume (capacity).	8.M.4.1.6.A Recognize the concept of surface area and volume (capacity).		
	K.M.4.1.3.A Attend to appropriate vocabulary.	1.M.4.1.3.A Attend to appropriate vocabulary.	2.M.4.1.4.A Attend to appropriate vocabulary.	3.M.4.1.4.A Recognize appropriate vocabulary.	4.M.4.1.5.A Recognize appropriate vocabulary.	5.M.4.1.7.A Recognize appropriate vocabulary.	6.M.4.1.7.A Recognize appropriate vocabulary and symbols.	7.M.4.1.7.A Recognize appropriate vocabulary and symbols.	8.M.4.1.7.A Use appropriate vocabulary and symbols.

MATHEMATICS**

Standard 4: Concepts and Principles of Geometry (continued)

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10
Goal 4.2: Apply the geometry of right triangles.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	9-M.4.2.1.A Given the Pythagorean Theorem, identify the hypotenuse.	10-M.4.2.1.A Given the Pythagorean Theorem, identify the hypotenuse and the right angle.
Goal 4.3: Apply graphing in two dimensions.	K.M.4.3.1.A Identify the location of an object relative to another (e.g., next to, under, over, behind).	1.M.4.3.1.A Indicate whether a group of objects is more or less than a benchmark number (5 or less)	2.M.4.3.1.A Indicate whether a number is above or below a benchmark (number of 10 or less on a number line.	3.M.4.3.1.A Identify the point of final destination given directions for movement using 1 to 5 on a horizontal positive number line.	4.M.4.3.1.A Identify the point of final destination given directions for movement using 1 to 5 on a vertical positive number line	5-M.4.3.1.A Identify the difference between a point and a grid.	6.M.4.3.1.A Identify the first quadrant on a coordinate plane.	7.M.4.3.1.A Identify an ordered pair in the first quadrant on a coordinate plane.	8.M.4.3.1.A Identify or plot a point in the first quadrant on a coordinate plane.	9.M.4.3.1.A Locate quadrants, origin or axes on the Cartesian Coordinate System.	10.M.4.3.1.A Locate quadrants, origin or axes on the Cartesian Coordinate System.
										9.M.4.3.2.A Identify the trend with a given scatter plot.	10.M.4.3.2.A Identify the trend with a given scatter plot.
										9.M.4.3.3.A Identify positive or negative slope lines in the first quadrant of a grid.	10.M.4.3.3.A Identify positive and negative slope lines in the first quadrant of a grid.
Goal 4.4: Represent and graph linear relationships.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	9.M.4.4.1.A Create a graph and plot 2 ordered pairs.	10.M.4.4.1.A Create a graph and plot 2 ordered pairs.
										9.M.4.4.2.A Interpret a simple table or graph.	10.M.4.4.2.A Interpret a simple table or graph.
										9.M.4.4.3.A Identify an attribute of a slope or rate of change.	10.M.4.4.3.A
Goal 4.5: Use reasoning skills.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	10.M.4.5.1.A Identify the elements of a story problem to solve a mathematical equation.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

**IDAHO EXTENDED CONTENT STANDARDS  
MATHEMATICS**

Standard 5: Data Analysis, Probability, and Statistics

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10
Goal 5.1: Understand data analysis.	K.M.5.1.1.A Identify information from real object graphs or simple pictographs.	1.M.5.1.1.A Identify information found in real object graphs or in pictographs to answer questions.	2.M.5.1.1.A Identify information found in simple bar graphs or pictographs.	3.M.5.1.1.A Interpret information found in simple bar graphs or circle graphs.	4.M.5.1.1.A Read and interpret simple line graph, bar graphs, or circle graphs.	5.M.5.1.1.A Read and interpret charts and graphs, circle graphs, or line graphs.	6.M.5.1.1.A Read and interpret charts and graphs, including line graphs, bar graphs, frequency tables, or circle graphs.	7.M.5.1.1.A Read and interpret charts and graphs, including line graphs, bar graphs, frequency tables, or circle graphs.	8.M.5.1.1.A Read and interpret charts and graphs, including line graphs, bar graphs, frequency tables, or circle graphs.	9.M.5.1.1.A Read and interpret tables, charts, and graphs, including line graphs, bar graphs, frequency tables, or circle graphs.	10.M.5.1.1.A Read and interpret tables, charts, and graphs, including line graphs, bar graphs, frequency tables, or circle graphs.
							6.M.5.1.2.A Identify conclusions drawn from tables, charts, or graphs.	7.M.5.1.2.A Explain conclusions drawn from tables, charts, or graphs.	8.M.5.1.2.A Identify a conclusion drawn from tables, charts, or graphs.		
	K.M.5.1.2.A Attend to appropriate vocabulary.	1.M.5.1.2.A Attend to appropriate vocabulary.	2.M.5.1.2.A Attend to appropriate vocabulary.	3.M.5.1.2.A Recognize appropriate vocabulary.	4.M.5.1.2.A Recognize appropriate vocabulary.	5.M.5.1.2.A Recognize appropriate vocabulary.	6.M.5.1.3.A Use appropriate vocabulary.	7.M.5.1.3.A Use appropriate vocabulary.	8.M.5.1.3.A Use appropriate vocabulary.		
Goal 5.2: Collect, organize, and display data.	K.M.5.2.1.A Using a model, recreate a graph using real objects or pictorial representations.	1.M.5.2.1.A Use data in real object graphs or in pictographs to answer a question.	2.M.5.2.1.A Use data in bar graphs in order to answer a question.	3.M.5.2.1.A Organize and display data in bar graphs or circle graphs in order to answer a question.	4.M.5.2.1.A Organize data in a line graph, bar graph, or circle graph to answer a question.	5.M.5.2.1.A Organize and display the data in charts, bar graphs, and circle or line graphs using title, labels, and reasonable scales.	6.M.5.2.1.A Collect, organize, and display the data with appropriate notation in charts or graphs.	7.M.5.2.1.A Collect, organize, and display the data with appropriate notation in charts or graphs.	8.M.5.2.1.A Collect, organize, and display the data in charts or graphs.	9.M.5.2.1.A Collect, organize, and display data in tables, charts, or graphs.	10.M.5.2.1.A Collect, organize, and display data in tables, charts, or graphs.
			2.M.5.2.2.A Use tally marks, pictures, or objects to represent data.		4.M.5.2.2.A Display data in a bar graph using a title and reasonable scales.						
Goal 5.3: Apply simple statistical measurements.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	4.M.5.3.1.A Find the mode of a simple set of whole number data using manipulatives when necessary.	5.M.5.3.1.A Find the median and mode — with simple sets of arranged data between 1-9 using whole numbers.	6.M.5.3.1.A Find the median or mode — with simple sets of data.	7.M.5.3.1.A Find the median and mode — with simple sets of data.	8.M.5.3.1.A Identify the measure of central tendency — median and mode.	9.M.5.3.1.A Find the mean, median, mode and range.	10.M.5.3.1.A Use basic statistical concepts, including mean, median, mode or range.
						5.M.5.3.2.A Find the end points of the range of a set of data using whole numbers 1-10.	6.M.5.3.2.A Calculate the range of a set of data using whole numbers 1-10.	7.M.5.3.2.A Identify or locate distribution of data, including range and frequency.	8.M.5.3.2.A Identify or locate distribution of data, including range, frequency, gaps, or clusters.	9.M.5.3.2.A Make predictions and draw conclusions based on a simple set of data and its statistical measures.	10.M.5.3.2.A Make predictions and draw conclusions based on a simple set of data and its statistical measures.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

**IDAHO EXTENDED CONTENT STANDARDS  
MATHEMATICS**

Standard 5: Data Analysis, Probability, and Statistics (continued)

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10
Goal 5.4: Understand basic concepts of probability.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	4.M.5.4.1.A Predict the results of simple probability experiments using coins or spinners (e.g., 3 out of 6 choices).	5.M.5.4.1.A Predict results of simple probability experiments using coins and spinners.	6.M.5.4.1.A Perform and record results of simple probability experiments.	7.M.5.4.1.A Perform and record results of simple probability experiments.	8.M.5.4.1.A Reproduce a situation of probability using a common example of coin toss or rolling of dice.	9.M.5.4.1.A Find probability based on an independent event (Lottery).	10.M.5.4.1.A Find probability based on a dependent event (Deal or No Deal).
								7.M.5.4.2.A Recognize equally likely outcomes.	8.M.5.4.2.A Recognize equally likely outcomes.		
								7.M.5.4.3.A Identify events that have probability ranges from low to high extremes.	8.M.5.4.3.A Match probability range from low to high to situations.	9.M.5.4.2.A Recognize the difference between experimental (large number of trials) and theoretical (mathematical formula) probability.	10.M.5.4.2.A Recognize the difference between experimental (large number of trials) and theoretical (mathematical formula) probability.
						5.M.5.4.2.A Use the language of probability.	6.M.5.4.2.A Use the language of probability.	7.M.5.4.4.A Use the language of probability.	8.M.5.4.4.A Use the language of probability.		
Goal 5.5: Make predictions or decisions based on data.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	3.M.5.5.1.A Make predictions based on data.	4.M.5.5.1.A Make predictions based on data.	5.M.5.5.1.A Make predictions based on data.	6.M.5.5.1.A Make predictions based on data.	7.M.5.5.1.A Recognize predictions based on simple theoretical probabilities.	8.M.5.5.1.A Recognize predictions based on experimental probabilities.	9.M.5.5.1.A Make predictions based on randomness, chance, equally likely events, or probability.	10.M.5.5.1.A Make predictions based on randomness, chance, equally likely events, or probability.
									8.M.5.5.2.A Perform a statistical experiment and interpret results using tables, charts, or graphs.	9.M.5.5.2.A Perform statistical experiments and use tables, charts, or graphs to make predictions or decisions based on data.	10.M.5.5.2.A Perform statistical experiments and use tables, charts, or graphs to make predictions or decisions based on data.
								7.M.5.5.2.A Use appropriate vocabulary.	8.M.5.5.3.A Use appropriate vocabulary.	9.M.5.5.3.A Conduct and interpret results of statistical experiments.	10.M.5.5.3.A Conduct and interpret results of statistical experiments.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

**IDAHO EXTENDED CONTENT STANDARDS  
SCIENCE**

**Standard 1: Nature of Science**

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8-9 Physical Science	Grade 8-9 Earth Science	Grade 9- 10 Biology
Goal 1.1: Understand Systems, Order, and Organization	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	3.S.1.1.A Match the parts of a system.	4.S.1.1.1.A Arrange and organize a group of related objects that form a whole.	5.S.1.1.1.A Sort items from different systems.	6.S.1.1.1.A Communicate different characteristics of systems.	7.S.1.1.1.A Arrange small systems as a part of a whole system.	8-9.PS.1.1.1.A Demonstrate understanding of a system.	8-9.ES.1.1.1.A Demonstrate understanding of a system.	9-10.B.1.1.1.A Demonstrate understanding of a system.
								7.S.1.1.2.A Identify small systems that contribute to the function of the whole.	8-9.PS.1.1.2.A Use a model to display order & organization to a given system.	8-9.ES.1.1.2.A Use a model to display order & organization to a given system.	9-10.B.1.1.2.A Use a model to display order & organization to a given system.
								7.S.1.1.3.A Identify different structures of an organisms, such as body parts, tissues, or organs			
Goal 1.2: Understand Concepts and Processes of Evidence, Models, and Explanations	K.S.1.2.1.A Make and communicate observations.	1.S.1.2.1.A Make and communicate observations.	2.S.1.2.1.A Make observation and collect data.	3.S.1.2.1.A Make observations, collect and record data.	4.S.1.2.1.A Make and record observations and then communicate the collected data	5.S.1.2.1.A Use observations and data to make predictions.	6.S.1.2.1.A Respond to observations and data as recorded on a chart	7.S.1.2.1.A Compare and contrast relative data.	8-9.PS.1.2.1.A Compare and contrast relative data.	8-9.ES.1.2.1.A Compare and contrast relative data.	9-10.B.1.2.1.A Compare and contrast relative data.
				3.S.1.2.3.A Attend to and/or replicate scientific models.	4.S.1.2.2.A Identify when an observation is or an inference is made.	5.S.1.2.2.A Identify the difference between an observation and an	6.S.1.2.2.A Identify relative data to use in an inference.	7.S.1.2.2.A Identify observation data to use in defensible inferences.			
					4.S.1.2.3.A Replicate or make models.	5.S.1.2.3.A Replicate or make a model to demonstrate a concept.	6.S.1.2.3.A Replicate or make a model to explain or demonstrate a concept.	7.S.1.2.3.A Use models to explain or demonstrate a concept.	8-9.PS.1.2.2.A Use models to explain concepts or systems.	8-9.ES.1.2.2.A Use models to explain concepts or systems.	9-10.B.1.2.2.A Use models to explain concepts or systems.
									8-9.PS.1.2.3.A Develop a scientific explanation based on known data.	8-9.ES.1.2.3.A Develop a scientific explanation based on known data.	9-10.B.1.2.3.A Develop a scientific explanation based on known data.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

**IDAHO EXTENDED CONTENT STANDARDS  
SCIENCE**

**Standard 1: Nature of Science (continued)**

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8-9 Physical Science	Grade 8-9 Earth Science	Grade 9-10 Biology
Goal 1.3: Understand Constancy, Change, and Measurement	K.S.1.3.1.A Measure in non-standard units.	1.S.1.3.1.A Measure in non-standard units.	2.S.1.3.1.A Measure in standard or non-standard units.	3.S.1.3.1.A Measure changes that occur.	4.S.1.3.1.A Communicate observed change.	5.S.1.3.1.A Demonstrate changes that occur in systems.	6.S.1.3.1.A Demonstrate changes that occur in systems.	7.S.1.3.1.A Identify systems that have been stable over time.	8-9.PS.1.3.1.A Measure changes that can occur in systems.	8-9.ES.1.3.1.A Measure changes that can occur in systems.	9-10.B.1.3.1.A Measure changes that can occur in and among systems.
								7.S.1.3.2.A Recognize changes that occur within systems.	8-9.PS.1.3.2.A Respond to changes that can occur in systems.	8-9.ES.1.3.2.A Respond to changes that can occur in systems.	9-10.B.1.3.2.A Respond to changes that can occur in and among systems.
				3.S.1.3.2.A Measure in U.S. Customary System of Measurement.	3.S.1.3.2.A Measure in U.S. Customary System of Measurement.	3.S.1.3.2.A Measure in U.S. Customary System of Measurement.	6.S.1.3.2.A Measure in U.S. Customary System of Measurement or the metric system.	7.S.1.3.3.A Make measurements using appropriate tools in the metric or U.S. Customary System of Measurement.	8-9.PS.1.3.3.A Measure using the metric system or U.S. Customary System of Measurement.	8-9.ES.1.3.3.A Measure using the metric system or U.S. Customary System of Measurement.	9-10.B.1.3.3.A Measure using the metric system or U.S. Customary System of Measurement.
Goal 1.4: Understand the Theory that Evolution is a Process that Relates to the Gradual Changes in the Universe and of Equilibrium as a Physical State	K.S.1.4.1.A Demonstrate the concept of days.	1.S.1.4.1.A Demonstrate the concepts of yesterday, today, and tomorrow.	2.S.1.4.1.A Demonstrate the concepts of past, present, and future.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	Reference to objective 7.S.3.2.1	No objectives in Physical Science.	No objectives in Earth Science.	Reference to 7.S.3.2.1
Goal 1.5: Understand Concepts of Form and Function	No objectives at this grade level.	No objectives at this grade level.	2.S.1.5.1.A Sort objects by shape.	3.S.1.5.1.A Sort common objects by use.	4.S.1.5.1.A Communicate the relationship between shape and use.	5.S.1.5.1.A Respond how the shape or form of an object or system is frequently related to its use or function.	6.S.1.5.1.A Identifies how the shape or form of an object is frequently related to its use and/or function.	No objectives at this grade level.	No objectives in Physical Science.	No objectives in Earth Science.	No objectives in Biology.
Goal 1.6: Understand Scientific Inquiry and Develop Critical Thinking Skills	K.S.1.6.1.A Make observations.	1.S.1.6.1.A Make and record observations.	2.S.1.6.2.A Make observations, collect, and record data.								
			2.S.1.6.1.A Respond to questions about observation.	3.S.1.6.1.A Generate questions about observations.	4.S.1.6.1.A Identify questions that can be answered by conducting scientific tests.	5.S.1.6.1.A Identify questions that can be answered by conducting scientific experiments.	6.S.1.6.1.A Identify questions that can be answered by conducting scientific experiments.	7.S.1.6.1.A Identify a control and a variable in an experiment.	8-9.PS.1.6.1.A Identify questions that can guide scientific investigations.	8-9.ES.1.6.1.A Identify questions that can guide scientific investigations.	9-10.B.1.6.1.A Identify questions that can guide scientific investigations.
				3.S.1.6.2.A Follow steps in scientific test.	4.S.1.6.2.A Follow steps in scientific tests.	5.S.1.6.2.A Observe change in scientific investigations using a control and a variable.	6.S.1.6.2.A Observe change in scientific investigations using a control and variables.	7.S.1.6.2.A Use appropriate tools and techniques to gather and display data.	8-9.PS.1.6.2.A Communicate results of investigations.	8-9.ES.1.6.2.A Communicate results of investigations.	9-10.B.1.6.2.A Identify the basic components of an experiment design.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

**IDAHO EXTENDED CONTENT STANDARDS  
SCIENCE**

**Standard 1: Nature of Science (continued)**

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8-9 Physical Science	Grade 8-9 Earth Science	Grade 9-10 Biology
Goal 1.6: Understand Scientific Inquiry and Develop Critical Thinking Skills (continued from previous page)			2.S.1.6.3.A Choose information for evidence.					7.S.1.6.3.A Use data in order to form conclusions.			
				3.S.1.6.3.A Use appropriate tools to gather data.	4.S.1.6.3.A Use appropriate tools to gather data.	5.S.1.6.3.A Use appropriate tools and techniques to gather and display data.	6.S.1.6.3.A Use appropriate tools and techniques to gather and display data.		8-9.PS.1.6.3.A Select and use appropriate technology to make investigations.	8-9.ES.1.6.3.A Select and use appropriate technology to make investigations.	9-10.B.1.6.3.A Select and use appropriate technology to make investigations.
			2.S.1.6.4.A Communicate observations.	3.S.1.6.4.A Use data for a reasonable explanation.	4.S.1.6.4.A Use data for a reasonable explanation.	5.S.1.6.4.A Use data for a reasonable explanation.	6.S.1.6.4.A Use data for a reasonable explanation or prediction.	7.S.1.6.4.A Use evidence to accept or reject a hypothesis.	8-9.PS.1.6.4.A Construct explanations and/or models using evidence.	8-9.ES.1.6.4.A Construct explanations and/or models using evidence.	9-10.B.1.6.4.A Construct explanations and/or models using evidence.
				3.S.1.6.5.A Make simple predictions based on data.	4.S.1.6.5.A Make simple predictions based on data.	5.S.1.6.5.A State a prediction or hypothesis based on observations.	6.S.1.6.5.A Test a prediction or hypothesis based on observations.				
				3.S.1.6.6.A Select reasonable explanations.	4.S.1.6.6.A Select reasonable explanations.	5.S.1.6.6.A Compare reasonable explanations and predictions.		7.S.1.6.5.A Use reasonable explanations or predictions.	8-9.PS.1.6.5.A Select alternative explanations and models.	8-9.ES.1.6.5.A Select alternative explanations and models.	9-10.B.1.6.5.A Select alternative explanations and models.
				3.S.1.6.7.A State a result of a test to others.	4.S.1.6.7.A Communicate results of tests to others.	5.S.1.6.7.A Communicate scientific procedures.	6.S.1.6.6.A Communicate scientific procedures.	7.S.1.6.6.A Communicate scientific procedures and explanations.	8-9.PS.1.6.6.A Communicate scientific procedures and explanations.	8-9.ES.1.6.6.A Communicate scientific procedures and explanations.	9-10.B.1.6.6.A Communicate scientific procedures and explanations.
									8-9.PS.1.6.7.A Compare the differences among observations.	8-9.ES.1.6.7.A Compare the differences among observation.	9-10.B.1.6.7.A Compare the differences among observations.
Goal 1.7: Understand That Interpersonal Relationships Are Important in Scientific Endeavors	K.S.1.7.1.A Use cooperation and interaction skills.	1.S.1.7.1.A Demonstrate cooperation and interaction skills.	2.S.1.7.1.A Practice cooperation and interaction skills.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives in Physical Science.	No objectives in Earth Science.	No objectives in Biology.
Goal 1.8: Understand Technical Communication	K.S.1.8.1.A Follow one step instruction.	1.S.1.8.1.A Follow instructions.	2.S.1.8.1.A Follow instructions.	3.S.1.8.1.A Follow multi-step instructions.	4.S.1.8.1.A Follow multi-step instructions.	5.S.1.8.1.A Follow technical instructions.	6.S.1.8.1.A Follow technical instructions.	7.S.1.8.1.A Read and follow technical instructions.	8-9.PS.1.8.1.A Use graphs, charts, and diagrams.	8-9.ES.1.8.1.A Use graphs, charts, and diagrams.	9-10.B.1.8.1.A Use graphs, charts, and diagrams.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

**IDAHO EXTENDED CONTENT STANDARDS  
SCIENCE**

**Standard 2: Physical Science**

Goals:	Kinderparten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8-9 Physical Science	Grade 8-9 Earth Science	Grade 9-10 Biology
Goal 2.1: Understand the Structure and Function of Matter and Molecules and Their Interactions	K.S.2.1.1.A Use senses to sort properties of matter.	1.S.2.1.1.A Identify properties of objects.	2.S.2.1.1.A Identify properties of an object.	3.S.2.1.2.A Observe & match physical properties to solids, liquids, or gases.		5.S.2.1.1.A Create mixtures.	6.S.2.1.1.A Compare mixtures.	No objectives at this grade level.	No objectives in Physical Science.	No objectives in Earth Science.	No objectives in Biology.
					4.S.2.1.2.A Observe the physical properties of solids, liquids, and gases.	5.S.2.1.2.A Describe the physical differences among solids, liquids, and gases.	6.S.2.1.2.A Identify properties of matter.				
				3.S.2.1.1.A Use instruments to measure properties.	4.S.2.1.1.A Use instruments to measure properties.						
				3.S.2.1.3.A Observe that heating and cooling can cause changes of state in common materials.	4.S.2.1.3.A Communicate the changes caused by heating and cooling materials.		6.S.2.1.4.A Describe the effects of temperature.				
							6.S.2.1.3.A Compare density of equal volumes of a solid and a liquid.				
						5.S.2.1.3.A Observe a physical change and how it relates to physical properties.	6.S.2.1.5.A Show a physical change and how it relates to its physical properties.				
Goal 2.2: Understand Concepts of Motion and Forces	No objectives at this grade level.	1.S.2.2.1.A Observe the position and motion of objects. (ex. revolve, rotate, at rest, float, and fall)	2.S.2.2.1.A Communicate how force affects the position and motion of objects.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	6.S.2.2.1.A Observe and identify the effects of different forces (gravity and friction) on speed or movement.	No objectives at this grade level.	8-9.PS.2.2.1.A Observe motion using Newton's Laws of Motion.	No objectives in Earth Science.	No objectives in Biology.
Goal 2.3: Understand the Total Energy in the Universe is Constant	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	3.S.2.3.1.A Observe potential and kinetic energy.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	8-9.PS.2.3.1.A Show and communicate that energy can be transformed but cannot be created nor destroyed.	No objectives in Earth Science.	No objectives in Biology.
									8-9.PS.2.3.2.A Sort energy as potential and/or kinetic.		

**STATE DEPARTMENT OF EDUCATION

**IDAHO EXTENDED CONTENT STANDARDS  
SCIENCE**

**Standard 2: Physical Science (continued)**

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8-9 Physical Science	Grade 8-9 Earth Science	Grade 9-10 Biology
Goal 2.4: Understand the Structure of Atoms	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	8-9.PS.2.4.1.A Identify the location of protons, neutrons, and electrons.	No objectives in Earth Science.	No objectives in Biology.
									8-9.PS.2.4.2.A Demonstrate a simple process of fission and fusion.		
									8-9.PS.2.4.3.A Identify a characteristic of an isotope		
									8-9.PS.2.4.4.A Identify matter that has basic electrical properties.		
									8-9.PS.2.4.5.A Identify matter that have magnetic properties		
Goal 2.5: Understand Chemical Reactions	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	8-9.PS.2.5.1.A Observe and identify how chemicals react.	No objectives in Earth Science.	No objectives in Biology.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

**IDAHO EXTENDED CONTENT STANDARDS  
SCIENCE**

**Standard 3: Biology**

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8-9 Physical Science	Grade 8-9 Earth Science	Grade 9-10 Biology
Goal 3.1: Understand the Theory of Biological Evolution	K.S.3.1.1.A Observe the characteristics of plants and animals.	1.S.3.1.1.A Observe the life cycle of a plant (seed, growth, death).	No objectives at this grade level.	3.S.3.1.1.A Identify when plants and animals adapt to their environment.	4.S.3.1.1.A Communicate how plants and animals adapt to their environment.	No objectives at this grade level.	No objectives at this grade level.	7.S.3.1.1.A Communicate how natural selection explains species change over time.	No objectives in Physical Science.	No objectives in Earth Science.	9-10.B.3.1.1.A Show how a species has changed over time.
		1.S.3.1.2.A Sequence a simple life cycle of an animal (birth, development, death).			4.S.3.1.2.A Communicate the difference between vertebrate and invertebrate animals.						9-10.B.3.1.2.A Identify what happens to a species; when there is a little supply of resources or with offspring better able to survive and reproduce.
					4.S.3.1.3.A Sort into groups of vertebrates (mammal, reptiles, amphibians, birds, and fish) based on characteristics.						
Goal 3.2: Understand the Relationship between Matter and Energy in Living Systems	K.S.3.2.1.A Sort between living and non-living things.	1.S.3.2.1.A Observe that living things need food to survive.	2.S.3.2.1.A Identify basic needs of all living things (food, shelter, water, space).	3.S.3.2.1.A Select the energy needed for a living system to survive.	No objectives at this grade level.	5.S.3.2.1.A Communicate how plants need energy from the sun.	No objectives at this grade level.	7.S.3.2.1.A Identify that energy stored in food is primarily derived from the sun.	No objectives in Physical Science.	No objectives in Earth Science.	9-10.B.3.2.1.A Show that matter tends to undergo spontaneous changes.
			2.S.3.2.2.A Match animals to their suitable habitats.	3.S.3.2.2.A Identify how energy requirements of plants and animals are different.				7.S.3.2.2.A Show how the availability of resources limits organisms.			9-10.B.3.2.2.A Show that organisms need continuous energy and matter to maintain life.
				3.S.3.2.3.A Organize a food chain.				7.S.3.2.3.A Illustrate how atoms and molecules make up living and nonliving resources in the environment.			9-10.B.3.2.3.A Identify the sun as the primary source of energy for life.
				3.S.3.2.4.A Develop a food web.				7.S.3.2.4.A Show how energy flows through the ecosystem in one direction.			9-10.B.3.2.4.A Identify that respiration involves the release of energy.

**STATE DEPARTMENT OF EDUCATION  
AUGUST 10, 2017**

**IDAHO EXTENDED CONTENT STANDARDS  
SCIENCE**

**Standard 3: Biology (continued)**

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8-9 Physical Science	Grade 8-9 Earth Science	Grade 9-10 Biology
Goal 3.2: Understand the Relationship between Matter and Energy in Living Systems (continued from previous page)											9-10.B.3.2.5 A Show how matter cycles and energy flows through a living system.
Goal 3.3: Understand the Cell is the Basis of Form and Function for All Living Things	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	5.S.3.3.1.A Explore plant and animal cells.	6.S.3.3.1.A Identify the difference between cells, organs, organ systems and organism.	7.S.3.3.1.A Sequence the relationships of cells, tissues, organs, organ systems, and organisms.	No objectives in Physical Science.	No objectives in Earth Science.	9-10.B.3.3.1.A Identify a cell and its particular structures.
							6.S.3.3.2.A Compare the structural differences between plant and animal cells.	7.S.3.3.2.A Label parts of plant and animal cells.			9-10.B.3.3.2.A Identify different functions of particular cell structures.
								7.S.3.3.3.A Identify different functions of particular cell structures.			9-10.B.3.3.3.A Identify that cells store information for transferring to the next generation of cells.
								7.S.3.3.4.A Describe the functions of particular cell structures.			9-10.B.3.3.4.A Identify how the role of genes plays in differentiation.
						5.S.3.3.2.A Identify traits that are passed from parents to offspring.	6.S.3.3.3.A Identify traits that are passed from parents to offspring.	7.S.3.3.5.A Communicate how dominant and recessive traits are inherited.

AUGUST 10, 2017**

**IDAHO EXTENDED CONTENT STANDARDS  
SCIENCE**

**Standard 4: Earth and Space Systems**

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8-9 Physical Science	Grade 8-9 Earth Science	Grade 9-10 Biology
Goal 4.1: Understand Scientific Theories of Origin and Subsequent Changes in the Universe and Earth Systems	K.S.4.1.1.A Observe characteristics of the four seasons.	1.S.4.1.1.A Identify characteristics of the four seasons.		3.S.4.1.1.A Identify how the sun relates to the length of a day and/or the seasons on Earth.				No objectives at this grade level.	No objectives in Physical Science.		No objectives in Biology.
	K.S.4.1.2.A Sequence the seasons						6.S.4.1.2.A Illustrate the water cycle and its relationship to weather and climate.				
			2.S.4.1.1.A Identify characteristics of different weather conditions.				6.S.4.1.3.A Discuss how clouds relate to weather changes.				
										8-9.ES.4.1.2.A Identify terms used in geological time.	
						5.S.4.1.1.A Discuss how the interactions among the solid earth, oceans and atmosphere (erosion, climate, tectonics and continental drift) are connected.	6.S.4.1.1.A Identify interactions among the solid earth, oceans, atmosphere, and organisms that are connected.			8-9.ES.4.1.3 Show interactions among the solid earth, oceans, atmosphere, and organisms have changed.	
					4.S.4.1.1.A Identify basic components of our solar system (planets, sun, moon, asteroids, or comets).					8-9.ES.4.1.1.A Compare and contrast the basic components of our solar system (planets, sun, moon, asteroids, comets, meteors).	
					4.S.4.1.2.A Demonstrate how gravity affects orbits and objects.						
					4.S.4.1.3.A Explore how the Earth's tides change.						
Goal 4.2: Understand Geo-chemical Cycles and Energy in the Earth System	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	5.S.4.2.1.A Label the rock cycle.	No objectives at this grade level.	No objectives at this grade level.	No objectives in Physical Science.	8-9.ES.4.2.1.A Identify internal & external energy sources of the earth.	No objectives in Biology.

**IDAHO EXTENDED CONTENT STANDARDS  
SCIENCE**

**Standard 5: Personal and Social Perspectives; Technology**

Goals:	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8-9 Physical Science	Grade 8-9 Earth Science	Grade 9-10 Biology
Goal 5.1: Understand Common Environmental Quality Issues, Both Natural and Human Induced	K.S.5.1.1.A Attend to and participate in discussion of characteristics of a man-made environment (home, school...).	1.S.5.1.1.A Match the characteristics of local natural environments. (playground, backyard).	2.S.5.1.1.A Sort man-made and natural environments.	3.S.5.1.1.A Recognize local environmental issues.	No objectives at this grade level.	5.S.5.1.1.A List issues for environmental studies.	6.S.5.1.1.A Identify issues for environmental studies.	No objectives at this grade level.	No objectives in Physical Science.	8-9.ES.5.1.1.A Identify environmental issues, issues such as water and air quality, hazardous waste, depletion of natural resources.	9-10.B.5.1.1.A Identifies environmental issues such as water, air, or trash.
Goal 5.2: Understand the Relationship between Science and Technology	No objectives at this grade level.	No objectives at this grade level.	2.S.5.2.1.A Explore tools that people have invented for everyday life and for scientific investigations.	3.S.5.2.1.A Explore how technology helps develop tools.	4.S.5.2.1.A Attends to discussion of tools used for space exploration and for scientific investigations.	5.S.5.2.1.A Demonstrate how science and technology are part of a student's life.	6.S.5.2.1.A Identify how science and technology are part of our society.	7.S.5.2.1.A Identify how science and technology are interrelated.	8-9.PS.5.2.1.A Show how science and technology are interrelated.	8-9.ES.5.2.1.A Show how science and technology are interrelated.	9-10.B.5.2.1.A Identifies an improvement science research has made in technology.
				3.S.5.2.2.A Order the development of tools over time.		5.S.5.2.2.A List examples of science and technology.	6.S.5.2.2.A Identify when science and technology are interrelated.	7.S.5.2.2.A Show how science advances technology.	8-9.PS.5.2.2.A Show how technology advances science.	8-9.ES.5.2.2.A Show how technology advances science.	9-10.B.5.2.2.A Show how technology advances science.
									8-9.PS.5.2.3.A Identifies different purposes for science research and technology.	8-9.ES.5.2.3.A Identifies different purposes for science research and technology.	9-10.B.5.2.3.A Identifies different purposes for science research and technology.
Goal 5.3: Understand the Importance of Natural Resources and the Need to Manage and Conserve Them	No objectives at this grade level.	No objectives at this grade level.	No objectives at this grade level.	3.S.5.3.1.A Uses methods of recycling.	No objectives at this grade level.	5.S.5.3.1.A Sort resources as renewable and nonrenewable resources.	6.S.5.3.1.A Identifies between renewable and nonrenewable resources.		No objectives in Physical Science.	8-9.ES.5.3.1 Identifies between renewable and nonrenewable resources.	9-10.B.5.3.1A Identifies between renewable and nonrenewable resources.
								7.S.5.3.1 Identify an alternative source of energy.
